WHAT PRODUCTS AND PRIORITIES TELLS YOU

PRODUCTS AND PRIORITIES tells you what Division, or related agency, has jurisdiction over your product; what section of the Division or agency handles the product; what War Production Board orders govern the product; what forms are used in connection with it; what the classification of the product is under the Controlled Materials Plan. For example, suppose you make wooden desks. First look at the Alphabetic Index and you will find it on page 19 under "Desks: wooden." The whole line reads: "545 CDGS 18 Desks: wooden . . . L-260-a."

DIVISION AND SECTION

CDGS, the abbreviation for Consumers Durable Goods Division, means that wooden desks have been assigned to that Division. Now look in the list headed "Divisions and Product Sections," starting on page 67, for CDGS—Consumers Durable Goods. Under number 18, which identifies the Product Section, you will find that the Wood Furniture Section of the Consumers Durable Goods Division handles wooden desks. The name of the person in charge of the Section to whom you should direct inquiries and his telephone extension are given.

ORDERS AND FORMS

L-260-a is the number of the Limitation Order governing wooden desks. Now look in the list headed "Valid Limitation Orders ('L' Series)" starting on page 112 and you will find a brief explanation of what the order does and who the administrator is. He is the person to whom you may direct inquiries about the order. In cases where the form numbers are listed in the column headed "Related WPB Forms," you should turn to the list headed "Valid WPB Forms," starting on page 145, which gives a brief description of the form.

As a manufacturer of desks, you will need to know what orders govern the materials and components out of which you make desks. This information can be found in Products and Priorities under the name of the material or component, in the same way as information about your product. Sometimes several orders will be listed in sequence, which means that each order governs the product. However, references to the following orders which are of general application are not carried: L-63, L-219, M-63 series.

HOW TO TELL WHETHER YOUR PRODUCT IS A CLASS B PRODUCT UNDER CMP

The three-digit number 545, preceding "desks: wooden" in the Alphabetic Index, is the number of the CMP Product Group which includes desks. The CMP Product List starts on page 78. Look on page 83, first under "CDGS" and then under "545," and you will find that wooden desks are included in the wooden furniture product group. The product should be shown on your CMP-4B application. Also you will see what other products are included in the group.

Where a three-digit number precedes the name of a product in the Alphabetic Index, the product is a Class B product if it contains controlled materials (other than those contained in a Class B product incorporated as a component in the product) fabricated or assembled beyond the forms and shapes specified in Schedule I of CMP Regulation No. 1. See page 106. For example, a wooden desk which is put together with steel wire nails is a Class B product because steel wire nails are a controlled *material*. A wooden desk put together with screws and containing *no other controlled material* is not a Class B product since the only controlled material in the desk is contained in a B *product* (namely, the screws) incorporated in it.

If there is an asterisk before the three-digit number, the product is a Class A Civilian Type End Product. A Class A Civilian Type End Product is one for which a procuring Claimant Agency may elect to allot materials directly to the manufacturer instead of having allotments come from a Division.

CLASS A PRODUCTS

Products listed in the Alphabetic Index preceded by "A" are Class A Products under the Controlled Materials Plan. The Alphabetic Index does not purport to include a complete list of Class A products. However, it was thought that it might be helpful to identify such Class A products as appear on the list.

PRODUCTS COVERED BY PRIORITIES REGULATION 25

Priorities Regulation 25 establishes the methods by which civilian production may be authorized or permitted where such production will not use materials, labor or facilities which are needed for the war effort or other essential purposes. Generally this means production which is restricted or prohibited by an L or M order, but PR 25 as amended February 21, 1945 explains that in some other cases the PR 25 procedure is applicable.

Products for which a rating of AA-5 may be assigned, which were formerly designated with the symbol (▲), will no longer be identified in any way in "Products and Priorities". WPB has adopted the policy that where a product has a base production rating of AA-3 or higher, authorized production under the terms of PR 25 may be assigned a rating of AA-5. Also a rating of AA-5 may be assigned where the local Production Urgency Committee determines that the proposed production is a necessary adjunct to war production in a particular plant. All other production authorized under PR 25 shall not be assigned any rating.

WPB offices are fully informed and equipped to give advice to applicants.

INSTRUCTIONS FOR W. P. B.

THE official Register of Product Assignments of the War Production Board, as of March 29, 1945, is reproduced in the accompanying Alphabetic Index and associated product lists.

Instructions for the use of these lists immediately precede each such list.

REFERRING APPLICATIONS, INQUIRIES, ETC.

An application or inquiry with respect to products usually involves two aspects:

What does the applicant *make*?

What does he want to *buy*?

The Division having jurisdiction over the product which the applicant *makes* is his "home" in the War Production Board. Hence his application, unless it is handled in the field, is normally referred to this home as the "Division of first reference."

However, if a different Division has jurisdiction over the product which the applicant wants to *buy*, the application may also be referred to the latter as the "Division of second reference."

JURISDICTION

When a particular product appears to be covered by two or more descriptions, with different jurisdictions, the jurisdiction indicated by the more *specific* description is to be deemed controlling.

In general, the jurisdiction over a product extends to a component part thereof when such component part is *made by the same manufacturer*. Thus, the jurisdiction over an item containing screw machine products extends to such screw machine products when made by the same manufacturer for incorporation therein, but does not extend to screw machine products produced for sale as such. Conversely, the assignment and classification indicated for a component part apply only when it is *produced for sale as such*.

PROCEDURE FOR RESOLVING JURISDICTIONAL QUESTIONS

The War Production Board has established the following procedure for resolving jurisdictional questions:

Whenever it appears to a Divisional Director or other appropriate executive that a jurisdictional question, affecting his work, exists with respect to the assignment of a product for which he considers that he either should or should not be responsible, he will consult with the

other Division or organizational unit concerned and, if possible, resolve the question.

If an understanding is reached, it will be reported promptly to the Publications Section of the War Production Board by a memorandum signed by the Directors of the Divisions or other organizational units concerned, in order that the Register of Product Assignments may be adjusted and notification of changes issued.

If an understanding is not reached, the disagreement will be reported promptly to the Publications Section in order that arrangements can be made by it for a hearing and a determination of the question in accordance with administrative orders.

INQUIRIES AND CORRECTIONS

Inquiries and corrections affecting the lists up to and including the Official CMP Product List, should be submitted to the Publications Section. In submitting corrections, the following conditions should be observed:

(a) A claim by a Division to jurisdiction over a product assigned elsewhere, or a disclaimer with respect to a product assigned to it, will be recognized by the War Production Board only after the jurisdiction over the product is transferred in accordance with the established procedure summarized above. This condition is applicable not only in the case of requested additions or eliminations but also in the case of requested changes in the context of any product description such as would change the scope of jurisdiction.

(b) Additions should be submitted only if they describe genuine products, materials, or services and require listing for any of the following purposes: (1) to define the lines of jurisdiction, (2) to assist in referring applications, inquiries, etc., or (3) to facilitate the coding of applications or allotments under CMP. Items, presently listed, which do not meet this test should be suggested for elimination with the reasons therefor.

(c) An item is intended to carry references to orders governing its manufacture, distribution or use but not to orders governing only a material or component part of the item. However, references to the following orders which are of general application are not carried: L-63, L-219, M-63 series.

Notices of changes and corrections as made, are sent on Form GA-688 to the Directors of the affected divisions or related agencies.

ALPHABETIC INDEX

A colon (:) is used to set off a term that qualifies the description in its entirety.
A comma (,) is used to mean "and" or "or".

See instructions on pages II to IV.

Applicants for priority assistance, allotments, etc., will facilitate the proper handling of their applications by describing the products involved as nearly as possible in accordance with the terms used in this index.

DIVISION AND PRODUCT SECTIONS

This list sets forth the operating Divisions of the War Production Board and certain related agencies, identified by a 4-letter abbreviation, and the product sections within such Divisions or agencies, identified by a 2-digit number. Items in the Alphabetic Index are keyed to this list by means of these 4-letter abbreviations and 2-digit numbers, which indicate the jurisdiction over such items.

CMP PRODUCT GROUP NAMES

This list sets forth the names of CMP product groups in numerical sequence, together with the applicable program symbol, abbreviated names of Divisions having jurisdiction and unit used for reporting purposes.

Products in these groups which require controlled materials are handled as Class B Products with the exception of those items belonging to a product group identified by an asterisk (*), which are Class A Civilian

Type End Products. See more complete setatement on page III.

The program symbol (letter and one digit) is prefixed to the CMP product group number (three digits) in identifying allotments of materials.

A colon (:) is used to set off a term that qualifies the description in its entirety. A comma (,) is used to mean "and" or "or."

SPECIAL PURPOSE SYMBOLS

Symbol	Description or use
AM	To transfer aluminum between mills for processing into another shape or form which is still a controlled material.
FC	To transfer steel between mills for processing into another shape or form which is still a controlled material.
PX	To identify steel products purchased by one steel producer from another for re-sale without further conversion.
WH	Prefix to warehouse serial number on shipments to replenish warehouse stocks of controlled steel products.
X-1	Identifies purchases of non-controlled materials by controlled materials producers for use as production materials.
SO	Small orders for materials under provisions of CMP Regulations 1 and 3.
MRO	CMP Regulation 5, 5A, and certain "P" Orders assign the symbol "MRO" to identify allotments for maintenance, repair, and operating supplies.
Z-1	Identifies allotments and orders under deferrable programs authorized for the resumption of civilian production under Priorities Regulation 25 when and to the extent that labor, facilities, and materials are available and no longer needed for war essential programs.
Z-2	Identifies allotments and orders under deferrable programs authorized for the resumption of civilian production not under Priorities Regulation 25 when and to the extent that labor, facilities, and materials are available and no longer needed for war essential programs.

When a "P" Order assigns the symbol "MRO", the number of that order usually is made a part of the allotment symbol as for example, MRO-P-141 for public sanitary sewerage facilities. The "P" Orders which assign "MRO" as an allotment symbol are:

Order	Subject
P-47	Operators of civilian aircraft.
P-98-e	Petroleum equipment used by consumer accounts.
P-126	Emergency servicing of commercial refrigerating and air-conditioning systems.
P-139	Producers of textile fibers, and leather and textile products.
P-141	Public sanitary sewerage facilities.

OFFICIAL CMP PRODUCT LIST

CLASS B PRODUCTS AND CLASS A CIVILIAN TYPE END PRODUCTS ONLY

This list sets forth, by CMP product groups within Divisions, those items opposite which CMP numbers are shown in the Alphabetic Index. In each case, the product group name is printed in *italics*. The product group name does not qualify the items listed thereunder, but is merely a general indication of the nature of these items. For the program symbols and reporting units applicable to the various product groups, see the preceding list of "CMP Product Group Names."

Products listed in the following list which require controlled materials are handled as Class B Products with the exception of those items belonging to a product group identified by an asterisk (*), which are Class A Civilian Type End Products. See more complete statement on page III.

A colon (:) is used to set off a term that qualifies the description in its entirety. A comma (,) is used to mean "and" and "or."

Compressors, compressor boosters: air, gas, oxygen, steam: reciprocating

Pumps: vacuum: dry: reciprocating: not heating system, laboratory

141

Pumps: industrial: not measuring, dispensing, reciprocating compressors, dry vacuum or heating

Drainers: cellar

Drainers: electric cellar

Power systems: fluid: hydraulic: industrial

Pumps: auxiliary marine (bilge, ballast), boiler feed brine, cam (industrial), centrifugal (industrial), circulating (marine), condensate return (over 15 lbs. SWP), coolant, core (ice plant), deep well (industrial), diffusion, fuel (marine), fuel oil (heating), gear (industrial), grout, hand operated (industrial), not measuring and dispensing, liquefied petroleum gas, lobe (industrial), marine, mechanically operated, oil burner, positive displacement, reciprocating (industrial), refrigeration, rotary (industrial), rotating, screw (industrial), vane (industrial)

Pumps: fluid power system: (hydraulic), jet, turbine: industrial

Pumps: sump

Screens: water intake, well

Sleeves: pump

Suckers: core: ice plant

Fans: not propeller type designed for ceiling, desk, pedestal, portable window mounting, wall bracket: powered by fractional HP motor: drawing 200 watts or less. Blowers and exhausters: not turbo or soot blowers

Blowers: air conditioning furnace, ice making, ventilating
Blowers: grain forage (not farm): low pressure
Blowing machines: insulation
Circulators: air: industrial
Ventilators: window: motor operated

150

Collecting equipment: dust not sheet metal appurtenances

Cleaners: air: not aircraft
Collectors: dust: fly ash, flue dust
Filters: air: not aircraft: not dustproof fiberglass
Handling equipment: dust: not sheet metal appurtenances
Precipitators: electrostatic
Separators: air: under 600 lbs.: not aircraft
Traps: dust
Washers: air: industrial, power

Transmission equipment: mechanical power: industrial: including chain, flat belt, V-belt industrial drives: not speed changers, gears or automotive equipment

Bearings: lineshaft: babbitted, bushed: flanged, kanger, pillow block, vertical step
Blocks: pillow
Brackets: wall: line shafting
Brakes: hydromatic
Chains: bushed drive, roller (finished, semi-finished), silent
Chains: cast sprocket
Chains: industrial power transmission: not welded coil
Clutches: magnetic
Clutches and parts: power transmission, internal combustion engine: not automotive
Collars: industrial power transmission shaft: not automotive
Collars: set
Couplings: compression, flanged face, friction clutch, rigid: industrial power transmission: not automotive
Couplings: dental

CONTROLLED MATERIALS

SCHEDULE I OF CMP REGULATION 1, AS AMENDED JAN. 25, 1945

STEEL

CARBON STEEL (INCLUDING WROUGHT IRON)

CMP Code No.	Material	Code also includes	Code does not include
2001	Bars, cold finished		
2005	Bars, hot rolled or forged	Concrete reinforcing bars and rolled fence posts. Angles, channels, T's and Z's under 3" maximum.	Bars forged by a nonproducer, except when sold by a distributor. After March 31, 1944, tool steel, irrespective of grinding, when cut to length and heat-treated for use as tool bits.
2011	Ingots, billets, blooms, slabs, die blocks, tube rounds, sheet and tin bar, and skelp.		
2016	Pipe, including threaded couplings of the type normally supplied on threaded pipe by pipe mills.	Galvanized. Line, oil country goods and water well tubular products. Bedstead tubing.	
2021	Plates		
2028	Rail and track accessories	Rail, rail joints, track spikes, tie plates, and track bolts.	Gage rods, mine ties, clip bolts, rail clips, and nut locks. Frogs, crossings, switches, switch stands, rail anchors, rail braces, guard rails, and guard rail clamps.
2031	Sheet and strip	Hot and cold rolled (includes coated products and copper clad including hoops.)	Steel roofing sheets coated with bitumen, asphalt or asbestos.
2038	Steel castings	Cast steel magnets (whether magnetized or unmagnetized).	
2041	Structural shapes and piling.	Steel sheet, piling and bearing piles.	
2046	Tin plate, terne plate and tin mill black plate.	When coated or lithographed by a steel producer.	When coated or lithographed by other than a steel producer.
2051	Tubing	Mechanical, pressure, and brazed.	
2056	Wheels, tires and axles.		Resilient wheels. (After December 31, 1943, resilient wheels will be handled as a Class B product.)
2061	Wire rods, wire and wire products.	Drawn wire, barbed and twisted wire, woven wire fence fabric (excluding chain link fence fabric), wire nails, cut nails, leadheaded nails, horse shoe nails, foundry nails, wire rope, welded steel wire reinforcing mesh; fence post fasteners; wire bale ties; wire netting; coated wire (when coated by producers).	Wire tacks, wire shoe nails, cut nails made from tack plate; wire rope when fabricated into slings (including splitting loops and endless splicing) or when attachments are made (including slings with fittings such as sockets, rings, shackles, thimbles, etc.). Welded wire reinforcing mesh with water-proof paper back. Coated and uncoated welding rods and welding wire, Gates. Chain link fence fabric, chain link fence, completely fabricated. Boat spikes, dock spikes and wharf spikes.

ALLOY STEEL (INCLUDING STAINLESS)

[See note at foot of Alloy Steel List]

2501	Bars, cold finished	
2505	Bars, hot rolled	
2511	Ingots, billets, blooms, slabs, die blocks, tube rounds, sheet bar.	
2516	Pipe and couplings for threaded pipe.	
2521	Plates, all plates (including rolled armored plate in the form and shape to which it is rolled by the steel mill and prior to any subsequent fabrication) and including nickel clad and stainless clad.	
2526	Track accessories	
2531	Sheet and strip	Stainless clad
2538	Steel castings	
2541	Structural shapes	
2551	Tubing	
2556	Wheels, tires and axles.	
2561	Wire rods, wire, and wire products.	

NOTE: Alloy Steel Codes also include and exclude the items shown under the headings "Code Also Includes" and "Code Does Not Include" shown opposite comparable Carbon Steel Codes.

COPPER AND COPPER-BASE ALLOY PRODUCTS

Brass Mill Products (Copper-Base Alloy)

Alloy Sheet, Strip and Plate

3011	Alloy sheet, strip and plate.	Strip equivalent of ammunition cups and discs.

DIRECTORY OF LABOR MARKET AREAS

The following is an alphabetical list of towns and cities, grouped by states. The number preceding each listed community is the War Manpower Commission classification of the labor market area in which it is located, as of April 1, 1945. Following each community, in parentheses, is the name of the labor market area in which it is located.

Cities not listed are either unclassified or are under 1,000 in population. The official classification of unlisted communities can be obtained in Washington by calling War Manpower Commission, Executive 4660,

Extension 2701; or elsewhere by inquiring of the War Manpower Commission Area Director.

A Group 1 Labor Area is an area of *acute* labor shortage;

A Group 2 Labor Area is an area of labor *stringency* or one in which a labor shortage is anticipated within six months;

A Group 3 Labor Area is an area in which a *slight* labor reserve will remain after six months;

A Group 4 Labor Area is an area in which a *substantial* labor reserve will remain after six months.

WAR PRODUCTION BOARD INQUIRY SERVICE

RE: THE FOLLOWING INFORMATION IS BEING FURNISHED TO YOU FOR YOUR INFORMATION:

FROM THE BUREAU OF WAR PRODUCTION

PRODUCTS AND PRIORITIES

Provides in a single book a comprehensive index of products, materials, and services, with references to the proper WPB orders, regulations, forms, CMP numbers, and divisional assignments. It constitutes a convenient combination of PRODUCT ASSIGNMENTS and PRIORITIES, both of which it supersedes.

SUBSCRIPTIONS

Subscription rates are, one year \$2.00, single copies 20 cents, payable in advance. Subscriptions should be sent direct to Superintendent of Documents, United States Government Printing Office, Washington 25, D. C., accompanied by a check or money order made payable to the Superintendent of Documents.

FEDERAL REGISTER

The Federal Register carries the complete texts of priorities orders and regulations the day following the date of issuance of the orders and regulations. It contains rules, regulations, orders, and notices of all Federal Agencies, and executive orders and proclamations. Subscription rates are, one year \$15.00, one month \$1.50. Subscriptions should be sent to the Superintendent of Documents.

CHANGE OF ADDRESS

To assure continuous delivery of your copy of Products and Priorities, send prompt notice of any change in your address. If possible attach to your letter the wrapper or label showing the old address. Changes of address and inquiries concerning any War Production Board form should be addressed to—
