(iv) If the aggregate amount of taxes reportable on a return (other than a return on Form 942) for a return period exceeds the total amount deposited by the employer pursuant to subdivision (i) or (ii) of this subparagraph for such return period (*a*) by $500 or more in the case of a return period which ends after December 31, 1980, or (*b*) by more than $200 in the case of a return period which ends after December 31, 1970, and before January 1, 1981, the employer shall, on or before the last day of the first calendar month following the return period, deposit with a Federal Reserve bank or authorized financial institution an amount equal to the amount by which the taxes reportable on the return exceed the total deposits (if any) made pursuant to subdivision (i) or (ii) of this subparagraph for such period. As used in this subdivision, the term "taxes" shall have the meaning assigned to such term in subdivision (iii) of this subparagraph, except that the term shall include the taxes referred to in (*a*), (*b*), and (*c*) of such subdivision (iii) of this subparagraph with respect to any wages for domestic service in a private home of the employer which the employer elects to report on a quarterly return other than a quarterly return made on Form 942.

This Treasury decision is issued under the authority contained in sections 6302 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 775, 917; 26 U.S.C. §§ 6302, 7805).

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved June 6, 1980.

DONALD C. LUBICK,
Assistant Secretary of the Treasury.

26 CFR 48.6416(a)-1: Refund or credit of tax under chapter 31 or 32.
(Also Sections 4071, 4221; 48.4071-1.)

Tread rubber; credit or refund; intercity, local, or school buses. The credit or refund provided by section 6416(b)(2)(M) of the Code is available to a tread rubber manufacturer who sells tread rubber tax-paid to its franchised retail dealers for use in retreading or recapping tires that are used by their customers on intercity, local, or school buses.

Rev. Rul. 80-192

ISSUE

Is a credit or refund of the manufacturers excise tax on tread rubber available under the circumstances described below?

FACTS

A manufacturer of tread rubber sells tread rubber tax-paid to its franchised retail dealers. The dealers use the tread rubber in retreading or recapping tires they intend to sell and also in retreading or recapping customer-owned tires. In either instance many of the retreaded tires are used by the dealers' customers on intercity, local, or school buses as defined in section 4221(d)(7) of the Internal Revenue Code.

LAW AND ANALYSIS

Section 4071(a)(4) of the Code imposes a tax on tread rubber sold by the manufacturer, producer or importer. Under section 4221(e)(5)(B), as amended by the Energy Tax Act of 1978, Pub. L. 95-618, section 233, 1978-3 C.B. (Vol. 2) 1, 16, the tax on tread rubber does not apply where it is sold for use by the purchaser in the recapping or retreading of any tire to be used by the purchaser on or in connection with a qualified bus as defined in section 4221(d)(7).

Under section 6416(b)(2)(M) of the Code, as amended by the Energy Tax Act, a credit or refund is available in the case of tax-paid tread rubber used in the recapping or retreading of a tire sold to any person for use on or in connection with a qualified bus. This credit or refund is available provided the conditions to allowance set forth in section 6416 (a) have been satisfied.

It was the intention of Congress to remove the excise tax from tread rubber and other taxable articles that are used in private intercity, local, and school bus operations. See Senate Report No. 95-529, 95th Cong., 1st Sess. (1978), 1978-3 C.B. (Vol. 2) 199, 247, accompanying the Energy Tax Act. By enacting the credit or refund provision as well as the tax-free sale provision, Congress ensured tax relief wherever the ultimate use of tread rubber is in the recapping or retreading of a tire that is used on any intercity, local, or school bus. The fact that there may be an intervening party between the tread rubber manufacturer and the bus operator who uses the retreaded tires does not preclude the availability of the credit or refund. However, the credit or refund must be claimed by the tread rubber manufacturer, who paid the tax, rather than by the retreader or bus operator.

HOLDING

The credit or refund provided by section 6416(b)(2)(M) of the Code is available to the tread rubber manufacturer under the above circumstances, provided the conditions to allowances set forth in 6416(a) have been satisfied.

Section 6420.—Gasoline Used on Farms

26 CFR 48.6420(a)-1: Payments to user and ultimate purchaser of gasoline used on a farm for farming purposes.
(Also Section 6427; 48.6427-1.)

T.D. 7709

TITLE 26.—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, PARTS 48 AND 140.—MISCELLANEOUS EXCISE TAXES

Payments to be made to aerial applicators in certain cases

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations governing claims by aerial applicators for payment of an amount equal to the tax imposed on gasoline and special fuels used on farms for farming purposes. Changes to the applicable tax law were made by section 3 of the Act of October 14, 1978 (Public Law 95-458) [1978-2 C.B. 367, 368]. These regulations affect all aerial applicators and all owners, tenants, and operators of farms who employ the services of aerial applicators. The regulations provide the guidance needed to comply with the law.

EFFECTIVE DATE: The regulations apply to payments for gasoline and special fuels used after March 31, 1979, on farms for farming purposes by aerial applicators.

FOR FURTHER INFORMATION CONTACT: H. B. Hartley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, DC 20224, Attention: CC:LR:T, 202-566-3287, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 27, 1979 [44 FR 76563], the Federal Register published proposed amendments to the Miscellaneous Excise Tax Regulations (26 CFR Part 48), and temporary excise tax regulations under section 3 of the Act of October 14, 1978 (Public Law 95-458; 26 CFR Part 140), both relating to claims by aerial applicators for payment of an amount equal to the taxes imposed under sections 4081 and 4041 of the Internal Revenue Code of 1954 ("Code") on gasoline and special fuels used on farms for farming purposes. Sections 6420 and 6427 of the Code authorize the payments to the user and ultimate purchaser of these fuels. The law was amended by section 3 of the Act of October 14, 1978 (Pub. L. 95-458, 92 Stat. 1257) to permit aerial applicators to receive payments as users and ultimate purchasers of fuels they use on farms for farming purposes.

No public comments were received in response to the invitation contained in the proposed amendments to the regulations, and no public hearing on the proposal was held. This document revokes the temporary regulations (26 CFR Part 140) and adopts final regulations (26 CFR Part 48).

PROVISIONS OF THE REGULATIONS

Sections 6420 and 6427 provide, respectively, for payment to the user and ultimate purchaser of an amount equal to the tax imposed under section 4081 on gasoline and under section 4041 on special fuels, if the gasoline or special fuel is used on a farm for farming purposes. For fuel used before April 1, 1979, only the owner, tenant, or operator of a farm is entitled to claim a payment as user and ultimate purchaser. Section 3 of the Act of October 14, 1978, amended sections 6420 and 6427 to entitle aerial applicators to receive these payments for fuels used by them after March 31, 1979. Before an aerial applicator may receive a payment, however, the owner, tenant, or operator of the farm served by the aerial applicator must waive his or her right to receive the payment in a written statement retained by the aerial applicator. The statement waiving the right of the owner, tenant, or operator to be treated as the user and ultimate purchaser of the gasoline or special fuels may be in any form that substantially meets the requirements of the regulations.

ADDITIONAL CONSIDERATIONS

These regulations are needed in order to provide guidance to the public as well as to government employees responsible for implementation of sections 6420 and 6427 of the Code. Considering both the direct and indirect effects of these regulations, it is believed that they satisfactorily implement section 3 of the Act of October 14, 1978 (Public Law 95-458). Evaluation of the effectiveness of the regulations after issuance will be based upon comments received from offices within the Internal Revenue Service and the Treasury Department, and from members of the public.

DRAFTING INFORMATION

The principal author of these regulations is H. B. Hartley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Adoption of amendments to the regulations

The following amendments to the regulations (26 CFR Part 48) are hereby adopted:

PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES

Paragraph 1. Section 48.6420(a)-1

is retitled and paragraphs (a)(1) and (b) thereof are amended to read as follows:

§ 48.6420(a)-1. Payments to user and ultimate purchaser of gasoline used on a farm for farming purposes.

(a) *In general.* (1) Section 6420 provides a payment (without interest) to the user and ultimate purchaser of gasoline used on a farm for farming purposes. The amount of the payment is determined by multiplying (i) the number of gallons of gasoline used on the farm for farming purposes by (ii) the rate of tax on gasoline under section 4081 which applied on the date the gasoline was purchased by the user and ultimate purchaser. No payment shall be made for gasoline purchased by a user and ultimate purchaser before January 1, 1956, irrespective of the use of gasoline. For gasoline purchased after December 31, 1955, and used on a farm for farming purposes, payment is made only if the user and ultimate purchaser files a claim at the time and in the manner indicated in these regulations. For rates of tax on gasoline under section 4081, see that section and § 48.4081-1. For the meaning of the terms "used on a farm for farming purposes", "farm", "farming purposes", and "gasoline", see § 48.6420(c)-1. For the meaning of "user and ultimate purchaser" see paragraph (b) of this section.

* * * * *

(b) *User and ultimate purchaser defined.* Except as otherwise provided in section 6420, the term "user and ultimate purchaser" means only an owner, tenant, or operator of a farm. In general, an owner, tenant, or operator of a farm is considered to be the user and ultimate purchaser of gasoline only if the gasoline is (1) purchased by him or her and (2) used for farming purposes on a farm of which he or she is the owner, tenant, or operator. If, however, the cost of gasoline supplied by a particular person (e.g., an owner of a farm) is by agreement borne by the tenant or operator of the farm, the tenant or operator who bore the cost of the gasoline is the user and ultimate purchaser. See paragraph (c) of this section for rules on gasoline used on farms by persons other than the owner, tenant, or operator of the farm.

* * * * *

Par. 2. The second sentence of § 48.6420(a)-1(c)(1) is amended, a new third sentence is inserted therein, and a new example (3) is added to the end of § 48.6420(a)-1(c)(2), all to read as follows:

§ 48.6420(a)-1. Payments to user and ultimate purchaser of gasoline used on a farm for farming purposes.

* * * * *

(c) *Exception with respect to use by custom operator, etc.*—(1) * * * In such a case, the owner, tenant, or operator of the farm on which the gasoline is used is considered to be the user and ultimate purchaser of the gasoline. See, however, section 6420(c)(4) which provides for waivers by owners, tenants, and operators of their right to be so treated when gasoline is used on the farm by an aerial applicator. * * *

(2) The application of paragraph (c)(1) of this section may be illustrated by the following examples.

* * * * *

Example (3). Assume the facts of example (2) except Farmer A executes a timely waiver (as provided in § 48.6420(c)-2) of his right to be treated as user and ultimate purchaser of the fuel used by XYZ Company in dusting his crops. XYZ Company is entitled to receive the payment for the 600 gallons of gasoline actually used by it in the crop dusting operation.

Par. 3. Paragraphs (d) and (e) of § 48.6420(b)-1 are deleted and paragraphs (a), (b), and (c) of that section are amended to read as follows:

(a) *In general.* A claim in respect of gasoline used on a farm for farming purposes must cover one full taxable year. A person's taxable year means his or her taxable year for purposes of subtitle A of the Internal Revenue Code. In the case of persons included under section 6420(g), the calendar year is considered to be the person's taxable year. Gasoline on hand at the end of one taxable year (e.g., fuel in supply tanks of farm machinery or in storage tanks and drums) must be excluded from a claim filed for that year. On the other hand, gasoline used during a taxable year may be covered by a claim for the year even though the gasoline has not been paid for at the time the claim is filed. A claim for any taxable year is not allowable unless filed on or before the last date prescribed by law for filing a claim for credit or refund of overpayment of income tax for the taxable year concerned.

(b) *Limit of one claim during any one taxable year.* Not more than one claim can be filed under section 6420 by any person for gasoline used during any one taxable year.

(c) *Form and content of claim.* All persons except those identified in section 6420(g), must claim any payment allowed them under section 6420 as a credit against tax on their income tax return (or a timely amended return) for the taxable year in which the gasoline was used. For persons identified in section 6420(g), a claim for payment for gasoline used on a farm for farming purposes is made on Form 843 in accordance with the instructions prescribed for the preparation of that form. A claim for a partnership must be shown on the partnership's return.

Par. 4. Paragraph (c)(2)(i) of § 48.6420(c)-1 is amended by deleting the last sentence thereof, and paragraph (c)(5) of that section is amended by deleting the first four

words of the third sentence and inserting in lieu thereof, "Since the gasoline must generally".

Par. 5. A new § 48.6420(c)-2 is inserted immediately following § 48.6420(c)-1 to read as follows:

§ 48.6420(c)-2. Payment under section 6420 to be made to aerial applicators in certain cases.

(a) *Effective date.* This regulation is effective for payments for gasoline used after March 31, 1979, by aerial applicators on farms for farming purposes.

(b) *General rule.* Section 6420 provides a payment to the user and ultimate purchaser of gasoline used on a farm for farming purposes of an amount equal to the tax imposed on gasoline under section 4081. The general rule of section 6420(c)(3)(A) is that only the owner, tenant, or operator of a farm is entitled to be treated as a user and ultimate purchaser. Section 6420(c)(4) provides that under section 6420(c)(3)(A), an aerial applicator is entitled to be treated as the user and ultimate purchaser of gasoline used by it on a farm for farming purposes, but only if the owner, tenant, or operator who is otherwise entitled to treatment as the user and ultimate purchaser waives his or her right to the payment.

(c) *Form and manner of waiver.* To waive the right to be treated as user and ultimate purchaser of gasoline which is used on a farm by an aerial applicator, the owner, tenant, or operator of a farm who is otherwise entitled to treatment as user and ultimate purchaser must execute an irrevocable written agreement no later than the date on which the aerial applicator claiming the credit files its return for the taxable year in which the gasoline is used. The agreement must identify the period during which the owner, tenant, or operator waives his or her right to payment. The effective period of the waiver cannot extend beyond the last day of the taxable year of the owner, tenant, or operator of the farm on which the gasoline was used. If the owner, tenant, or operator's taxable year extends beyond the taxable year of the applicator, the applicator can only claim payment for periods included in the applicator's taxable year. Periods after the last day of the applicator's taxable year which are included under the agreement must be claimed on the applicator's return for the next succeeding taxable year. The waiver may be in the form shown under paragraph (g) of this section or in any other form that meets the requirements of these regulations, but must clearly evidence that the owner, tenant, or operator of the farm knowingly gives up the right to receive a payment.

(d) *Agreement included on aerial applicator's invoice.* The agreement waiving a right to receive a payment under section 6420 may be a separate document or may appear on the face or the reverse side of an invoice for aerial application services or other unrelated document from the aerial applicator to the owner, tenant, or operator of the farm. If the waiver agreement appears on an invoice or other unrelated document, however, it must be printed in a section of the invoice or other document clearly set off from all other material contained in the invoice or other document, and it must be printed in type sufficiently large to put the owner, tenant, or operator of the farm on notice that he or she has waived his or her right to receive a payment under section 6420. Additionally, if the waiver agreement appears as part of any invoice or other unrelated document, it must be executed separately from any other item included in the invoice or other document which requires the owner, tenant, or operator's signature.

(e) *Copies of agreement waiving right to payment.* No copies of any agreement waiving a right to payments under section 6420 are to be submitted to the Internal Revenue Service unless a request is made by the Service to the taxpayer for the waivers. Aerial applicators must, however, retain copies of all waivers, and a copy of each waiver must be supplied by the aerial applicator to the owner, tenant, or operator of the farm who waives his or her right to receive a payment. See regulations § 48.6420(f)-1 for general requirements for records to be kept.

(f) *Waiver on behalf of owner, tenant, or operator of farm.* If any owner, tenant, or operator of a farm desires that an agent (e.g., a cooperative) act for him or her or cannot legally bind himself or herself due to infancy or other incompetency, a representative expressly authorized under local law to bind the owner, tenant, or operator in a waiver of his or her rights to payment under section 6420 may sign the waiver on his or her behalf.

(g) *Sample form of agreement.* While no specific form is required for an effective waiver, an acceptable form waiving the right to receive a payment under section 6420 follows:

I hereby waive my right as owner/tenant/operator of a farm located at (address) _____ to receive payment or credit from the United States for gasoline used by (aerial applicator) _____ on the farm in connection with cultivating the soil, or the raising or harvesting of any agricultural or horticultural commodity. This waiver applies to gasoline used during the period _____, both dates inclusive.

I understand that by signing this waiver I give up my right to claim any credit or payment for gasoline used by the aerial applicator during the period indicated, and I acknowledge that I have not previously claimed any credit or payment for that gasoline.

_____

Taxpayer Identification No: _____

Par. 6. A new § 48.6427-1 is inserted following § 48.6421(g)-1 to read as follows:

§ 48.6427-1 Payment under section 6427 to be made to aerial applicators in certain cases.

(a) *Effective date.* This regulation is effective for payments for special fuels used after March 31, 1979, by aerial applicators on farms for farming purposes.

(b) *In general.* Section 6427 provides for payment to the user and ultimate purchaser of certain fuels used on a farm for farming purposes of an amount equal to the amount of tax imposed on these fuels under section 4041. The general rule is that only an owner, tenant, or operator of a farm is entitled to be treated as a user and ultimate purchaser. Section 6427(c) provides that an aerial applicator is entitled to be treated as the user and ultimate purchaser of fuels which it uses on a farm for farming purposes, but only if the owner, tenant, or operator who is otherwise entitled to treatment as the user and ultimate purchaser waives his or her right to the payment.

(c) *Form and manner of waiver.* To waive the right to be treated as user and ultimate purchaser of special fuels which are used on a farm by an aerial applicator, the owner, tenant, or operator of a farm who is otherwise entitled to treatment as user and ultimate purchaser must execute an irrevocable written agreement no later than the date on which the aerial applicator claiming the credit files its return for the taxable year in which the special fuels are used. The agreement must identify the period during which the owner, tenant, or operator waives his or her right to payment. The effective period of the waiver cannot extend beyond the last day of the taxable year of the owner, tenant, or operator of the farm on which the special fuels were used. If the owner, tenant, or operator's taxable year extends beyond the taxable year of the applicator, the applicator can only claim payment for periods included in the applicator's taxable year. Periods after the last day of the applicator's taxable year which are included under the agreement must be claimed on the applicator's return for the next succeeding taxable year. The waiver may be in the form shown under paragraph (g) of this section or in any other form that meets the requirements of these regulations, but must clearly evidence that the owner, tenant, or operator of the farm knowingly gives up the right to receive a payment.

(d) *Agreement included on aerial applicator's invoice.* The agreement waiving a right to receive a payment under section 6427 may be a separate document or may appear on the face or the reverse side of an invoice for aerial application services or other unrelated document from the aerial applicator to the owner, tenant, or operator of the farm. If the waiver agreement appears on an invoice or other unrelated document, however, it must be printed in a section of the invoice or other document clearly set off from all other material contained in the invoice or other document, and it must be printed in type sufficiently large to put the owner, tenant, or operator of the farm on notice that he or she has waived his or her right to receive a payment under section 6427. Additionally, if the waiver agreement appears as part of any invoice or other unrelated document, it must be executed separately from any other item included in the invoice or other document which requires the owner, tenant, or operator's signature.

(e) *Copies of agreement waiving right to payment.* No copies of any agreement waiving a right to payments under section 6427 are to be submitted to the Internal Revenue Service unless a request is made by the Service to the taxpayer for the waivers. Aerial applicators must, however, retain copies of all waivers, and a copy of each waiver must be supplied by the aerial applicator to the owner, tenant, or operator of the farm who waives his or her right to receive a payment. See regulations § 48.6420(f)-1 for general requirements for records to be kept.

(f) *Waiver on behalf of owner, tenant, or operator of farm.* If any owner, tenant, or operator of a farm desires that an agent (*e.g.*, a cooperative) act for him or her or cannot legally bind himself or herself due to infancy or other incompetency, a representative expressly authorized under local law to bind the owner, tenant, or operator in a waiver of his or her rights to a payment under section 6427 may sign the waiver on his or her behalf.

(g) *Sample form of agreement.* While no specific form is required for an effective waiver, an acceptable form waiving the right to receive a payment under section 6427 follows:

I hereby waive my right as owner/tenant/operator of a farm located at (address) _____ to receive payment or credit from the United States for special fuels used by (aerial applicator) _____ on the farm in connection with cultivating the soil, or the raising or harvesting of any agricultural or horticultural commodity. This waiver applies to special fuels used during the period _____, both dates inclusive.

I understand that by signing this waiver I give up my right to claim any credit or payment for special fuels used by the aerial applicator during the period indicated, and I acknowledge that I have not previously claimed any credit or payment for that special fuel.

TEMPORARY EXCISE TAX REGULATIONS UNDER SECTION 3 OF THE ACT OF OCTOBER 14, 1978 (PUBLIC LAW 95-458)

Par. 7. 26 CFR Part 140 is revoked.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805) and in section 3 of the Act of October 14, 1978 (Pub. L. 95-458, 92 Stat. 1257).

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved July 9, 1980

DONALD S. LUBICK,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 24, 1980, 8:45 a.m., and published in the issue of the Federal Register for July 25, 1980, 45 F.R. 49544)

Section 6427.—Fuels Not Used for Taxable Purposes

26 CFR 48.6427-1: Payments under section 6427 to be made to aerial applicators in certain cases.

Final regulations relating to claims by aerial applicators for payments equal to the tax on gasoline and certain other fuels that are used on farms for farming purposes. See T.D. 7709, page 369.

Chapter 67.—Interest
Subchapter A.—Interest on Underpayments

Section 6601.—Interest on Underpayment, Nonpayment, or Extensions of Time for Payment of Tax

26 CFR 301.6601-1: Interest on underpayments.
(Also Section 2055; 20.2055-1.)

Interest on deficiency; deduction subsequently allowed. A charitable deduction claimed on an estate tax return was disallowed because the deduction did not satisfy the requirements of section 2055(e) of the Code, but was subsequently allowed when the gift was made to qualify. Interest is due on the deficiency from the due date of the return to the end of a 180-day period following the filing of a claim for credit or refund.

Rev. Rul. 80-291

ISSUE

For what period is interest due when a charitable deduction claimed on an estate tax return was disallowed because the deduction did not satisfy the requirements of section 2055 of the Internal Revenue Code at the time the return was filed, but which was later allowed when the gift qualified?

FACTS

The decedent died on April 12, 1977. The estate tax return was timely filed on the due date, January 12, 1978. A charitable deduction was claimed on the return for a bequest that did not satisfy the requirements of section 2055(e) of the Code. Upon examination of the estate tax return the deduction was disallowed by the Internal Revenue Service. On December 19, 1978, the estate petitioned the state court for a reformation of the testamentary trust created by the decedent's will and for relief from certain provisions of the state law so that the remainder devised to charity would qualify for the deduction under section 2055. On February 27, 1979, while the examination of the estate was still pending, the state court entered a judgment granting the relief that the estate requested. On February 28, 1979, the estate filed a claim for credit or refund based on the fact that the testamentary trust had been amended in order to satisfy the requirements of section 2055(e). The examiner secured two waivers, one agreeing to a deficiency based on the disallowed original deduction and the other agreeing to an overassessment based on the subsequently filed claim.

LAW AND ANALYSIS

Section 2055(e)(3) of the Code provides that if the amendment of the governing instrument is made after the due date for filing of the estate tax return, the deduction shall be allowed upon the filing of a timely claim for credit or refund (as provided for in section 6511) of an overpayment resulting from the application of this paragraph. In the case of a credit or refund resulting from an amendment made pursuant to section 2055(e), no interest is allowable for the period before the expiration of the 180th day after the date on which the claim for credit or refund is filed.

Section 6601(a) of the Code provides that if any amount of tax imposed by the Code is not paid on or before the last date prescribed for payment, interest shall be paid on such amount for the period from such last date to the date paid.

Section 2.01 of Rev. Proc. 60-17, 1960-2 C.B. 942, provides that interest generally is paid on a tax overpayment for the time the government has the use of the taxpayer's money. Similarly, interest is collected for the time the taxpayer has the use of the government's money. Section 3.02(5)d of Rev. Proc. 60-17 states that the date of overpayment in a restricted interest case is the date from which interest is allowable on the overpayment, and that this same date is the terminating date for charging interest on a deficiency satisfied by credit of an overpayment.

In *Manning v. Seeley Tube and Box Co.*, 338 U.S. 561 (1950), Ct. D. 1729, 1950-1 C.B. 113, the Supreme Court held that a net operating loss carryback that eliminates a deficiency does not abate the interest previously assessed on that deficiency.

Since the estate is not entitled to the use of the money resulting from taking this deduction from the due date of the return to the end of the 180-day period beginning after the date on

which the estate filed the claim for refund, interest is due for this period.

HOLDING

Interest is due on the estate tax deficiency from January 12, 1978, the due date of the estate tax return, to August 27, 1979, the end of the 180-day period.

Chapter 68.—Additions to the Tax, Additional Amounts, and Assessable Penalties
Subchapter A.—Additions to the Tax and Additional Amounts

Section 6651.—Failure to File Tax Return or to Pay Tax

26 CFR 301.6651-1: Failure to file tax return or to pay tax.

An extension of the time in which contractors or subcontractors with contracts subject to the Vinson-Trammell Act must file Form 949 and 949-A. See Rev. Proc. 80-45, page 778.

Section 6652.—Failure to File Certain Information Returns, Registration Statements, Etc.

26 CFR 301.6652-1: Failure to file certain information returns.

Treatment of certain crewmen on boats engaged in catching fish as self-employed rather than as employees. See T.D. 7716, page 241.

Section 6654.—Failure by Individual to Pay Estimated Income Tax

26 CFR 1.6654-1: Addition to the tax in the case of an individual.
(Also Section 6013; 1.6013-2.)

Penalty; estimated tax underpayment; joint return following separate returns. The tax shown on a joint return filed after due date, to replace separate returns filed before the due date, is the basis for computing the addition to tax for underpayment of estimated tax.

Rev. Rul. 80-355

ISSUE

Is the addition to the tax for underpayment of estimated tax based on the tax shown on the separate returns of the taxpayers or the tax shown on a joint return filed after the due date prescribed by law for the filing of the return?

FACTS

The taxpayers filed separate income tax returns for a taxable year by the due date, although they were eligible to file a joint return. Both were assessed the addition to the tax for underpayment of estimated tax since both taxpayers' estimated tax payments throughout the taxable year were less than 80 percent of the tax shown on each separate return. After the due date they filed a joint return, which resulted in less tax shown on the return than the total tax that had been shown on the two individual returns. Their estimated tax payments throughout the taxable year were more than 80 percent of the tax shown on the joint return.

LAW AND ANALYSIS

Section 6654(a) of the Internal Revenue Code provides that in the case of underpayments of estimated tax by an individual there shall be added to the tax an amount determined at an annual rate established under section 6621 upon the amount of the underpayment for the period of the underpayment.

Section 6654(b) of the Code provides that the underpayment shall be the difference between the amount paid on or before the last date prescribed for such payment and the amount that would be required to be paid if the estimated tax were equal to 80 percent of the tax shown on the return for the taxable year.

Section 6013(b) of the Code provides that if an individual has filed a separate return for a taxable year for which a joint return could have been made and the time prescribed by law for filing the return for such taxable year has expired, a joint return may be filed before expiration of the statute of limitations. The joint return shall be the return of the spouses for such taxable year. It also provides that for purposes of assessment and collection, where both spouses have filed separate returns, the joint return is deemed filed on the date the later separate return was filed (but not earlier than the last date prescribed by law for filing the return of either spouse).

The intent in allowing taxpayers to change their elections and file joint returns at any time within the period of the statute of limitations was to enable married taxpayers to minimize their tax liability. See S. Rep. No. 781, 82nd Cong., 1st Sess. 48 (1951), 1951-2 C.B. 458, 492.

Thus, in the case of a joint return following separate returns, any addition to the tax is based upon the joint return. Compare the case of amended returns where for purposes of determining the underpayment of estimated tax under section 6654(b) of the Code, the return for the taxable year is the original return of the taxpayer rather than any amended return filed after the due date and extensions thereof.

HOLDING

The addition to the tax for underpayment of estimated tax is based on the tax shown on the joint return of the taxpayers filed after the due date prescribed by law for the filing of the return when the joint return replaces the previously filed separate returns of the taxpayers.

Section 6655.—Failure by Corporation to Pay Estimated Income Tax

26 CFR 1.6655-2: Exceptions to imposition of the addition to the tax in the case of corporations.
(Also Section 995; 1.995-2.)

Estimated tax; corporation; year-end dividend from DISC. A corporation using the same accounting

period and method as its wholly owned DISC may compute estimated tax under section 6655(d)(3)(A)(iv) of the Code without taking into account the constructive dividend deemed to be received from the DISC on the last day of the corporation's taxable year.

Rev. Rul. 80-343

ISSUE

May a corporation compute the estimated tax under section 6655(d)(3)(A)(iv) of the Internal Revenue Code by placing its taxable income on an annualized basis for the appropriate period of months without taking into account any part of a constructive distribution deemed to be received on the last day of its taxable year?

FACTS

X, a corporation, owns all the stock of *Y*, a Domestic International Sales Corporation (DISC). *X* and *Y* keep their books and file their tax returns using the accrual method of accounting and a fiscal year ending on October 31. Pursuant to section 995(b)(1) of the Code, *X* includes in its income an amount deemed received from *Y* on the last day of its taxable year. Prior to October 31 it is not possible to determine the amount of the deemed distribution.

LAW AND ANALYSIS

Section 995(b)(1) of the Code provides that a shareholder of a DISC shall be treated as having received a distribution taxable as a dividend with respect to its stock in an amount that is equal to its pro rata share of the sum of certain enumerated items, or if smaller, the earnings and profits of the DISC. Section 1.995-1(b)(2) and 1.995-2(a) of the Income Tax Regulations specify that such distribution shall be deemed to be received on the last day of the taxable year of the DISC in which the income was derived.

Section 6655(a) of the Code provides for an addition to the tax in the case of any underpayment of estimated tax by a corporation. Section 6655(d)(3)(A)(iv) provides that such addition shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount that would have been required to be paid on or before such date if the estimated tax were an amount equal to 80 percent of the tax for the taxable year computed by placing on an annualized basis the taxable income for the first 9 months or for the first 11 months of the taxable year in the case of the installment required to be paid in the 12th month of the taxable year.

X is not deemed to have received the distribution from *Y* until the last day of *Y*'s taxable year, October 31. That is also the last day of *X*'s taxable year and *X* does not receive income from *Y* until that date. Under section 6655(d)(3)(A)(iv) of the Code, taxable income for the 12th month is not included in the taxable income to be annualized.

HOLDING

X may compute the estimated tax under section 6655(d)(3)(A)(iv) of the Code without taking into account any part of the section 995(b)(1) distribution from *Y*.

Subchapter B.—Assessable Penalties

Section 6693.—Failure to Provide Reports on Individual Retirement Accounts or Annuities

26 CFR 301.6693-1: Penalty for failure to provide reports and documents concerning individual retirement accounts or annuities.

Penalties for failure to furnish information in connection with individual retirement plans. See T.D. 7730, page 297.

Section 6694.—Understatement of Taxpayer's Liability by Income Tax Return Preparer

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Return preparer; mathematical or clerical error. An inadvertent error made by a return preparer in either listing or totaling on Schedule B, Form 1040, the separate amounts shown on Forms 1099-INT furnished by a taxpayer that does not result in substantial understatement of tax and is the only error on the return does not subject the preparer to the negligence penalty under section 6694(a) of the Code.

Rev. Rul. 80-262 [1]

ISSUE

Does the penalty for negligent disregard of rules and regulations under section 6694(a) of the Internal Revenue Code apply to a preparer in the following situations?

FACTS

Situation 1

The taxpayer furnished the income tax return preparer with all of the Forms 1099-INT, Statement for Recipients of Interest Income, that the taxpayer had received. The preparer failed to list the amount shown on one of the Forms 1099-INT on schedule B of Form 1040, U.S. Individual Income Tax Return. Upon examination of the return by the Service, it was determined that the omission resulted in an understatement of tax liability. However, the amount of the understatement was not substantial and the omission was the only error on the return.

The preparer stated that the reason for the failure to report the omitted amount was that the Form 1099-INT

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

showing the omitted amount was overlooked.

Situation 2

The taxpayer furnished the income tax return preparer with all of the Forms 1099-INT that the taxpayer had received. The preparer correctly listed all of the amounts shown on the Forms 1099-INT on schedule B of Form 1040 but made an error in totalling the separate amounts. Upon examination of the return by the Service, it was determined that the error resulted in an understatement of tax liability. However, the amount of the understatement was not substantial and the omission was the only error on the return.

LAW AND ANALYSIS

Rev. Proc. 80-40, page 774, this Bulletin, sets forth guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer. The revenue procedure indicates that the Service will consider the nature of the error causing the understatement, the frequency of the errors and the materiality of the errors. Rev. Proc. 80-40 specifically provides that an isolated mathematical or clerical error ordinarily reflects no more than mere inadvertence and thus will not result in the assertion of the penalty unless the error is of such magnitude or so conspicuous that it should have been discovered after its commission.

Under the facts as stated the error in situation 1 was clerical in nature and the error in situation 2 was mathematical in nature. Furthermore, in each situation, the error was the only error on the return and the amount of the understatement was not substantial.

HOLDING

The penalty for negligent disregard of rules and regulations does not apply to the preparers in either situation 1 or 2.

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Return preparer, normal office practice; pattern of errors. A return peparer failed to list all income shown on a taxpayer's Forms 1099, incorrectly totaled itemized deductions, and used the wrong tax table. Even though the preparer's normal office practice was to review the taxpayer-provided information, check the return for completeness, and check the tax computation, there was a pattern of errors on the return, and the penalty under section 6694(a) of the Code applies.

Rev. Rul. 80-263 [1]

ISSUE

Does the penalty for negligent disregard of rules and regulations under section 6694(a) of the Internal Revenue Code apply in the following situation?

FACTS

The taxpayer furnished the income tax return preparer with all of the Forms 1099-INT, Statement for Recipients of Interest Income, and Forms 1099-DIV, Statement for Recipients of Dividends and Distributions, that the taxpayer had received. The preparer failed to list the amount shown on one of the Forms 1099-INT and on one of the Forms 1099-DIV on Schedule B, Interest and Dividend Income, of Form 1040, U.S. Individual Income Tax Return. Also, the preparer made an error in totalling the amounts of itemized deductions on Schedule A, Itemized Deductions, and used the wrong tax table in determining the tax. Upon examination of the return the Internal Revenue Service determined that these errors resulted in an understatement of liability. None of these understatements was substantial in amount.

The preparer stated that these errors were merely oversights and demonstrated that the preparer's normal practice was to review the information provided by the taxpayer, review the return to check for completeness, and check the computation of the tax.

LAW AND ANALYSIS

Section 6694(a) of the Code provides that if any part of any understatement of liability with respect to any return is due to the negligent or intentional disregard of rules and regulations by any person who is an income tax return preparer with respect to such return, such person shall pay a penalty of $100 with respect to such return.

Rev. Proc. 80-40, page , this Bulletin, sets forth guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer. The revenue procedure indicates that the Service will consider the nature of the error causing the understatement, the frequency of the errors and the materiality of the errors. The revenue procedure also provides that where all the relevant facts and circumstances suggest that the return was negligently prepared, the penalty will not be asserted if (1) the preparer's normal office practice, when considered together with other facts and circumstances, indicated that the error in question would rarely occur and (2) the normal office practice was followed in preparing the return in question.

Although each error, if the sole error on the return, would not result in the imposition of the penalty, all of the errors taken together suggest that the return was negligently prepared. In addition, although the preparer alleged that the preparer's normal office practice, considered with other facts and circumstances, indicated that the errors in question would rarely occur, in this situation the normal office practice of the preparer will not re-

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

lieve the preparer from the penalty because there is a pattern of errors on the return.

HOLDING

The penalty for negligent disregard of rules or regulations applies.

---

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Return preparer; normal office practice; failure to report minimum tax liability. A return preparer who failed to report a minimum tax liability showed that normal office practice, when taken together with other factors, indicated that the minimum tax error would rarely occur and that normal office practice was followed in preparing the return. The preparer was not liable for the negligence penalty under section 6694(a) of the Code. Rev. Rul. 80-28 distingiushed.

Rev. Rul. 80-264 [1]

ISSUE

Does the penalty for the negligent disregard of rules and regulations under section 6694(a) of the Internal Revenue Code apply to a preparer in the following situation?

FACTS

An income tax return preparer failed to report a substantial minimum tax liability resulting from a net capital gain deduction shown on the individual taxpayer's 1978 return. This was the only error on the return. The preparer agreed that there was an understatement on the return and explained that the failure to report the minimum tax was due to an oversight. To show that the preparer's normal office practice was to correctly apply the minimum tax provisions, the preparer presented a checklist that showed when the minimum tax must be considered. The workpapers of the preparer for the return in question indicated that the checklist had been reviewed. Consideration of the knowledge of the preparer, the internal procedures for review, and other facts and circumstances indicated that this error would rarely occur.

LAW AND ANALYSIS

Section 56(a) of the Code provides for the imposition of an income tax on certain items of tax preference. Section 57(a)(9)(A) treats as a tax preference item an amount equal to the net capital gain deduction for the taxable year determined under section 1202. For taxable years ending prior to January 1, 1979, such item was taxed under section 56(a). For years beginning after December 31, 1978, such item is taxed under section 55 (relating to the alternative minimum tax).

Section 6694(a) of the Code provides that if any part of any understatement of liability with respect to any return is due to the negligent or intentional disregard of rules and regulations by any person who is an income tax return preparer with respect to such return, such person shall pay a penalty of $100 with respect to such return.

Rev. Rul. 80-28, 1980-1 C.B. 304, holds that an income tax return preparer who failed to report a minimum tax liability on an individual taxpayer's income tax return because of an oversight was required to pay a penalty for negligent or intentional disregard of rules and regulations.

Rev. Proc. 80-40, page 22, this Bulletin, sets forth guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax preparer. This revenue procedure indicates that the Service will consider the nature of the error causing the understatement, the frequency of the errors and the materiality of the errors. The revenue procedure also provides that where the facts and circumstances suggest that the return was negligently prepared, the penalty will not be asserted if (1) the preparer's normal office practice, when considered together with other facts and circumstances, indicates that the error in question would rarely occur and (2) the normal office practice was followed in preparing the return in question.

The facts and circumstances suggested that the return was negligently prepared by the preparer. Although the failure to report the minimum tax was the only error on the return, the amount of the understatement was substantial and the error could have been discovered by reviewing the return. However, the preparer showed that the preparer's normal office practice, when taken together with other facts and circumstances, indicates that the error in question would rarely occur and that the normal office practice was followed in preparing the return in question. Furthermore, the error is not a flagrant one.

HOLDING

The preparer is not liable for a penalty for the negligent disregard of rules and regulations.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 80-28 is distinguished.

---

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Return preparer; failure to report income deducted on related return. A return preparer who prepared both an individual's return and the return of the individual's wholly owned corporation deducted interest paid by the corporation to the individual on the corporate return, but did not report the interest as income on the individual's return. The negligence penalty does not apply to the preparer if the information provided by the corporation

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

did not indicate who received the interest and the information provided by the individual did not indicate receipt of such payment. However, the penalty would apply if the information provided by the corporation indicated that the individual received the interest payment.

Rev. Rul. 80-265 [1]

ISSUE

Does the penalty for negligent disregard of rules and regulations under section 6694(a) of the Internal Reve- Code apply in the following situations?

FACTS

Situation 1

An income tax return preparer prepared both *A*'s individual federal income tax return for calendar year 1978 and the corporate income tax return of *X*, *A*'s wholly-owned corporation for its taxable year ended December 31, 1978. The preparer was not the auditor of *X* and had no knowledge whatsoever of any loans by *A* to *X*. The preparer deducted interest paid by *X* to *A* on the corporation's return filed March 15, 1979. However, the preparer did not report the interest as income on *A*'s individual return filed April 15, 1979. The information provided by *X* to the preparer did not indicate who received the interest payment and the information provided by *A* to the preparer did not indicate receipt of such payment. Upon examination the Internal Revenue Service determined that the failure to report the interest income resulted in an understatement of tax liability on *A*'s individual return.

Situation 2

The facts are the same as in situation 1 except that the information provided by *X* indicated *A* received the interest payment from *X*.

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

LAW AND ANALYSIS

Section 6694(a) of the Code provides that if any part of any understatement of liability with respect to any return is due to the negligent or intentional disregard of rules and regulations by any person who is an income tax return preparer with respect to such return, such person shall pay a penalty of $100 with respect to such return.

Under section 61 of the Code interest received on loans are includable in gross income.

Rev. Proc. 80-40, page 774, this Bulletin, sets forth guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer. The revenue procedure indicates that the penalty generally will not apply where a preparer in good faith relies without verification upon information furnished by the taxpayer, but the preparer may not ignore the implications of information furnished to the preparer or actually known to the preparer.

In situation 1, the preparer could rely upon the information furnished by *A* in connection with *A*'s individual return. The preparer was not required to examine or review *A*'s books and records and had no reason to believe that the information as furnished might be incorrect or incomplete.

In situation 2, the preparer, based on the information furnished by *X*, in connection with *X*'s corporate return, had reason to believe that the information furnished by *A* might be incorrect or incomplete. The preparer should have made inquiries to reconcile the information furnished by *X* with the omission by *A* of the interest income.

HOLDING

The penalty for negligent disregard of rules and regulations under section 6694(a) of the Code does not apply to the preparer in situation 1. The penalty does apply to the preparer in situation 2.

---

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Return preparer; reliance on taxpayer's assurances; entertainment expenses. A return preparer who asks a taxpayer if entertainment expense substantiation that satisfies the requirements of section 274(d) of the Code exists and receives assurances that it does will not be subject to the negligence penalty under section 6694(a) as a result of the taxpayer's failure to substantiate the expenses in an audit. A return preparer who does not ask for such assurances will be subject to the penaltv, as will the first preparer in a subsequent year if the same assurances are received and the preparer is aware of the prior audit results.

Rev. Rul. 80-266 [1]

ISSUE

Does the penalty for negligent disregard of rules and regulations under section 6694(a) of the Internal Revenue Code apply to an income tax return preparer where the preparer relied upon incorrect information provided by the taxpayer?

FACTS

Situation 1

A preparer was engaged to prepare a tax return of a taxpayer who claimed to have incurred deductible entertainment expenses. The preparer inquired whether the taxpayer had records showing the amount, the time, the place and the business purpose of the expenses and the business relationship to the taxpayer of the persons entertained in accordance with the requirements of section 274(d) of the

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

Code. The taxpayer represented to the preparer that it had such records. The preparer then prepared the return claiming a reduction for entertainment expenses in the amount indicated by the taxpayer.

Upon examination, the Service disallowed a portion of the claimed deductions because the taxpayer could not substantiate with respect to certain expenses either the business purpose or the business relationship of some of the persons entertained. This determination resulted in an understatement of tax liability as defined in section 6694(e) of the Code.

Situation 2

The facts are the same as in situation 1 except that the preparer did not inquire whether the taxpayer had adequate records, and the taxpayer did not make any representations that it had such records. The preparer did not adequately demonstrate that the preparer's normal office practice should prevent the assertion of the penalty.

Situation 3

The preparer in situation 1 completed the return of the same taxpayer for the year following the examination. The taxpayer again claimed to have incurred deductible entertainment expenses. The preparer inquired whether the taxpayer had records showing the amount, the time, the place, and the business purpose of the expenses, and the business relationship to the taxpayer of the persons entertained. The taxpayer again represented that it had such records. The preparer did not make a further inquiry although the preparer was aware that the taxpayer could not substantiate certain entertainment deductions during the examination in the prior year.

Upon examination the Service again disallowed a portion of the deductions claimed by the taxpayer for entertainment because the taxpayer could not substantiate with respect to certain expenses either the business purpose or the business relationship of some of the persons entertained. This determination resulted in an understatement of tax liability.

LAW AND ANALYSIS

Section 6694(a) of the Code provides that if any part of any underpayment of liability with respect to any return is due to the negligent or intentional disregard of rules and regulations by any person who is an income tax return preparer with respect to such return, such person shall pay a penalty of $100 with respect to such return.

Section 274(d) of the Code provides that no deduction will be allowed for travel and entertainment unless the taxpayer substantiates it with adequate records.

Rev. Proc. 80-40, page 774, this Bulletin, sets forth guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer, including factors that will be taken into consideration in determining whether the penalty will be applied. The revenue procedure provides that a preparer must make appropriate inquiries to determine the existence of facts and circumstances required by a Code section or regulations as a condition to claiming a deduction.

In situation 1 the preparer made appropriate inquiries as to whether the taxpayer had records adequate to meet the requirements of section 274(d) and the regulations thereunder. Because the taxpayer represented that it had such records, it was proper for the preparer to claim the deduction.

In situation 2 the preparer failed to inquire whether the taxpayer had records adequate to meet the requirements of section 274(d) of the Code and the regulations thereunder.

In situation 3 the preparer was aware that the taxpayer could not substantiate some of the entertainment deductions in the examination during the prior year and thus had reason to believe that the taxpayer might not have adequate records for the current year. Therefore, although the inquiry made by the preparer was sufficient in situation 1, it was not sufficient in situation 3. The preparer should have made further inquiries to reconcile the inadequacy of the records in the recent examination of an earlier year with the taxpayer's representation in order to reasonably conclude that the taxpayer now has adequate records.

HOLDINGS

The penalty for negligent disregard of rules and regulations under section 6694(a) of the Code does not apply to the preparer in situation 1. The penalty does apply to the preparer in situations 2 and 3.

---

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer. See Rev. Proc. 80-40, page 774.

Chapter 75.—Crimes, Other Offenses, and Forfeitures
Subchapter A.—Crimes
Part I.—General Provisions

Section 7214.—Offenses by Officers and Employees of the United States

Ct. D. 2000

SUPREME COURT
OF THE
UNITED STATES
No. 79-383

F. W. Standefer, Petitioner,
v. United States

[447 U.S. 10]

On Writ of Certiorari to the United States Court of Appeals for the Third Circuit

[June 9, 1980]

Syllabus

No. 79-383. Argued April 14, 1980—Decided June 9, 1980

Petitioner was indicted for, *inter alia,* aiding and abetting a named Internal Revenue Service agent in accepting unlawful compensation, in violation of 26 U.S.C. § 7214(a)(2) and 18 U.S.C. § 2, which provides that whoever commits an offense against the United States or aids, abets, counsels, commands, induces or procures its commission, is punishable as a principal. Prior to the indictment, the IRS agent was acquitted of certain of the § 7214(a)(2) violations which petitioner was accused of aiding and abetting. Petitioner moved to dismiss his indictment as to aiding and abetting these violations on the ground that since the agent had been acquitted of such violations, petitioner could not be convicted of aiding and abetting them. The District Court denied the motion, and after trial petitioner was convicted. The Court of Appeals affirmed.

Held: A defendant accused of aiding and abetting in the commission of a federal offense may properly be convicted despite the prior acquittal of the alleged actual perpetrator of the offense.

(a) Read against its common-law background, 18 U.S.C. § 2 evinces a clear congressional intent to permit such a conviction. The section gives general effect to what had always been a common-law rule for second-degree principals (principals who were actually or constructively present at the scene of the crime and aided and abetted its commission) and for all misdemeanants. The legislative history of § 2 confirms this understanding. With the enactment of § 2, all participants in conduct violating a federal criminal statute are "principals," and as such they are punishable for their criminal conduct, the fate of other participants being irrelevant.

(b) The Government is not barred, under the doctrine of nonmutual collateral estoppel, from relitigating the issue of whether the IRS agent accepted unlawful compensation. Application of that doctrine is not appropriate here. In a criminal case, the Government is often without the kind of "full and fair opportunity to litigate" that is a prerequisite of estoppel. The application of collateral estoppel in criminal cases is also complicated by rules of evidence and exclusion unique to criminal law. Finally, in this case the important federal interest in the enforcement of the criminal law outweighs the economy concerns undergirding the collateral estoppel doctrine.

610 F. 2d 1076, affirmed.

BURGER, C. J., delivered the opinion for a unanimous Court.

MR. CHIEF JUSTICE BURGER delivered the opinion of the Court.

We granted certiorari in this case to decide whether a defendant accused of aiding and abetting in the commission of a federal offense may be convicted after the named principal has been acquitted of that offense.

I

In June 1977, petitioner Standefer was indicted on four counts of making gifts to a public official, in violation of 18 U.S.C. § 201(f), and on five counts of aiding and abetting a revenue official in accepting compensation in addition to that authorized by law, in violation of 26 U.S.C. § 7214(a)(2) and 18 U.S.C. § (2).[1] The indictment charged that petitioner, as head of Gulf Oil Company's tax department, had authorized payments for five vacation trips to Cyril Niederberger, who then was the Internal Revenue Service agent in charge of the audits of Gulf's federal income tax returns.[2] Specifically, the indictment alleged that Gulf, on petitioner's authorization, had paid for vacations for Niederberger in Pompano Beach (July 1971), Miami (January 1973), Absecon (August-September 1973), Pebble Beach (April 1974), and Las Vegas (June 1974). The four counts under 18 U.S.C. § 201(f) related to the Miami, Absecon, Pebble Beach, and Las Vegas vacations; the five counts under 26 U.S.C. § 7214(a)(2) and 18 U.S.C. § 2 were one for each vacation.[3]

Prior to the filing of this indictment, Niederberger was separately charged in a 10-count indictment—two counts for each of the five vacations—with violating 18 U.S.C. § 201(g) and 26 U.S.C. § 7214(a)(2).[4] In February 1977, Niederberger was tried on these charges. He was convicted on four counts of violating § 201(g) in connection with the vacations in Miami, Absecon, Pebble Beach, and Las Vegas and of two counts of violating § 7215(a)(2) for the Pebble Beach and Las Vegas trips. He was acquitted on the § 201(g) count involving the Pompano Beach trip and on the three counts under § 7214(a)(2) charging him with accepting payments from Gulf for trips to Pompano Beach, Miami, and Absecon.[5]

In July 1977, following Niederberger's trial and before the trial in his own case commenced, petitioner moved to dismiss the counts under § 7214(a)(2) and 18 U.S.C. § (2) which charged him with aiding and abetting Niederberger in connection with the Pompano Beach, Miami, and Absecon vacations. Petitioner argued that because Niederberger, the only named principal, had been acquitted of accepting unlawful compensation as to those va-

[1] 18 U.S.C. § 201(f) provides, in relevant part, as follows:

"Whoever, otherwise than as provided by law for the proper discharge of official duty, directly or indirectly gives, offers, or promises anything of value to any public official . . . for or because of any official act performed or to be performed by such public official . . . [is guilty of an offense]."

26 U.S. § 7214(a)(2) punishes:

"Any officer or employee of the United States acting in connection with any revenue law of the United States . . . who knowingly demands other or greater sums than are authorized by law, or receives any fee, compensation, or reward, except as by law prescribed, for the performance of any duty."

18 U.S.C. § 2 provides in relevant part:

"Whoever commits an offense against the United States or aids, abets, counsels, commands, induces or procures its commission, is punishable as a principal."

[2] The indictment also named Gulf Oil Corporation and Joseph Fitzgerald, a manager in Gulf's tax department, as defendants. Gulf pleaded guilty and Fitzgerald *nolo contendere* to all nine counts.

[3] It appears that the statute of limitations had run on any violation of 18 U.S.C. § 201(f) in connection with the Pompano Beach vacation.

[4] 18 U.S.C. § 201(g) punishes:

"Whoever, being a public official . . . , otherwise than as provided by law for the proper discharge of official duty, directly or indirectly asks, demands, exacts, solicits, seeks, accepts, receives, or agrees to receive anything of value for himself for or because of any official act performed or to be performed by him."

[5] Niederberger was sentenced to six months' imprisonment followed by a five-year period of probation, and he was fined $5,000. His convictions were affirmed by the Court of Appeals. *United States* v. *Niederberger,* 580 F.2d 63 (CA3 1978).

cations, he could not be convicted of aiding and abetting in the commission of those offenses. The District Court denied the motion.

Petitioner's case then proceeded to trial on all nine counts. At trial, petitioner admitted authorizing payment for all five vacation trips, but testified that the trips were purely social and not designed to influence Niederberger in the performance of his official duties. The jury returned guilty verdicts on all nine counts.[6] Petitioner was sentenced to concurrent terms of six months' imprisonment followed by two years' probation; he was fined a total of $18,000—$2,000 on each count.

Petitioner appealed his convictions to the Court of Appeals for the Third Circuit claiming, *inter alia*, that he could not be convicted of aiding and abetting a principal, Niederberger, when that principal had been acquitted of the charged offense. By a divided vote, the Court of Appeals, sitting en banc, rejected that contention. 610 F.2d 1076 (1979). It concluded that "the outcome of Niederberger's prosecution has no effect on [petitioner's] convictions." *Id.*, at 1078.

Because the question presented is one of importance to the administration of criminal justice on which the Courts of Appeals are in conflict, we granted certiorari.[7] We affirm.

[6] The jury was instructed that in order to render a guilty verdict on the § 7214(a) counts it must determine (1) that Niederberger knowingly "received a fee, compensation or reward except as prescribed by law . . . for the performance . . . of any duty" and (2) that petitioner "willfully aided and abetted [him]." App. 52a-56a.

[7] The Courts of Appeals for the Fifth Circuit, the Ninth Circuit, and the District of Columbia have reached the same conclusion as the Third Circuit. See *United States* v. *Musgrave*, 483 F.2d 327, 331-332 (CA5 1973); *United States* v. *Azadian*, 436 F.2d 81 (CA9 1971); *Perkins* v. *United States*, 315 F.2d 120, 122 (CA9 1963); *Gray* v. *United States*, 104 U.S. App. D.C. 153, 260 F.2d 483 (1958). The Court of Appeals for the Fourth Circuit has taken the contrary view that "where the only potential principal has been acquitted, no crime has been established and the conviction of an aider and abettor cannot be sustained." *United States* v. *Shuford*, 454 F.2d 772, 779 (1971). Accord, *United States* v. *Prince*, 430 F.2d 1325 (CA4 1970). See also n. 11, *infra*.

[8] Petitioner also challenges the instructions to the jury on criminal intent. We agree with the Court of Appeals that the instructions were correct.

II

Petitioner makes two main arguments: first, that Congress in enacting 18 U.S.C. § 2 did not intend to authorize prosecution of an aider and abettor after the principal has been acquitted of the offense charged; second, that, even if § 2 permits such a prosecution, the government should be barred from relitigating the issue of whether Niederberger accepted unlawful compensation in connection with the Pompano Beach, Miami, and Absecon vacations.[8] The first contention relies largely on the common law as it prevailed before the enactment of 18 U.S.C. § 2. The second rests on the contemporary doctrine of nonmutual collateral estoppel.

A

At common law, the subject of principals and accessories was riddled with "intricate" distinctions. 2 J. Stephen, History of the Criminal Law of England 231 (1883). In felony cases, parties to a crime were divided into four distinct categories: (1) principals in the first degree who actually perpetrated the offense; (2) principals in the second degree who were actually or constructively present at the scene of the crime and aided or abetted its commission; (3) accessories before the fact who aided or abetted the crime, but were not present at its commission; and (4) accessories after the fact who rendered assistance after the crime was complete. See W. LaFave & A. Scott, Criminal Law § 63 (1972); 4 W. Blackstone, Commentaries on the Laws of England, 33 (1765); Perkins, Parties to Crime, 89 U. Pa. L. Rev. 581 (1941). By contrast, misdemeanor cases "d[id] not admit of accessaries [*sic*] either before or after the fact," *United States* v. *Hartwell*, 26 F. Cas. 196, 199 (1869); instead, all parties to a misdemeanor, whatever their roles, were principals. *United States* v. *Dotterweich*, 320 U.S. 277, 281 (1943); C. Torcia, 1 Wharton's Criminal Law, § 33 (1978).

Because at early common law all parties to a felony received the death penalty, certain procedural rules developed tending to shield accessories from punishment. See W. LaFave & A. Scott, at 499. Among them was one of special relevance to this case: the rule that an accessory could not be convicted without the prior conviction of the principal offender. See 1 M. Hale, Pleas of the Crown, 623-624 (1847). Under this rule, the principal's flight, death, or acquittal barred prosecution of the accessory. And if the principal were pardoned or his conviction reversed on appeal, the accessory's conviction could not stand. In every way, "an accessory follow[ed], like a shadow, his principal." 1 J. Bishop, Criminal Law § 666 (8th ed. 1892).

This procedural bar applied only to the prosecution of accessories in felony cases. In misdemeanor cases, where all participants were deemed principals, a prior acquittal of the actual perpetrator did not prevent the subsequent conviction of a person who rendered assistance. *R. Humphreys and Turner*, 3 All Eng. L. Rep. 689 (1965); *R.* v. *Burton*, 13 Cox, C.C. 71, 75 (1875). And in felony cases a principal in the second degree could be convicted notwithstanding the prior acquittal of the first-degree principal. *King* v. *Taylor and Shaw*, 168 Eng. Rep. 283 (1785); *R.* v. *Wallis*, 91 Eng. Rep. 294 (1703); *Brown* v. *State*, 28 Georgia 199 (1859); *State* v. *Whitt*, 113 N.C. 716, 18 S.E. 715 (1897). Not surprisingly, considerable effort was expended in defining the categories—in determining, for instance, when a person was "constructively present" so as to be a second-degree principal. 4 Blackstone Commentaries on the Laws of England 34 (1765). In the process, justice all too frequently was defeated.

To overcome these judge-made rules, statutes were enacted in England and in the United States. In 1848 the Parliament enacted a statute providing that an accessory before the fact could be "indicted, tried, convicted, and punished in all respects *as if he were a principal felon.*" 11 & 12 Vic. ch. 46. s. 1 (emphasis added). As interpreted, the statute permitted an accessory to be convicted "although the principal be acquitted." *R* v. *Hughes,* Bell's Crown Cases 242, 248 (1860). Several state legislatures followed suit.[9] In 1899, Congress joined this growing reform movement with the enactment of a general penal code for Alaska which "abrogated" the common-law distinctions and provided that "all persons concerned in the commission of a felony . . . must be indicted, tried, and punished as principals, *as in the case of a misdemeanor.*" Act of Mar. 3, 1899, ch. 429, §§ 184-187, 30 Stat. 1282 (emphasis added). In 1901 Congress enacted a similar provision for the District of Columbia.[10]

The enactment of 18 U.S.C. § 2 in 1909 was part and parcel of this same reform movement. The language of the statute, as enacted, unmistakably demonstrates the point:

"Whoever directly commits any act constituting an offense defined in any law of the United States, or aids, abets, counsels, commands, induces or procures its commission, *is a principal.*" Act of March 4, 1909, ch. 321, 35 Stat. 1152 (emphasis added).[11]

The statute "abolishe[d] the distinction between principals and accessories and [made] them all principals." *Hammer v. United States,* 271 U.S. 620, 628 (1926). Read against its common-law background, the provision evinces a clear intent to permit the conviction of accessories to federal criminal offenses despite the prior acquittal of the actual perpetrator of the offense. It gives general effect to what had always been the rule for second-degree principals and for all misdemeanants.

The legislative history of § 2 confirms this understanding. The provision was recommended by the Commission to Revise and Codify the Criminal and Penal Laws of the United States as "in accordance with the policy of recent legislation" by which "those whose relations to a crime would be that of accessories before the fact according to the common law are made principals." Final Re-

[9] By 1909, when § 2 was enacted, 13 states had enacted legislation providing that the acquittal of the actual perpetrator was not a bar to the conviction of one charged with giving him aid. See Cal. Stat. ch. 99, §§ 11-12 (1850) (see *People* v. *Bearss,* 10 Cal. 68-70 (1858)); Del. Laws (Rev. Code) §§ 2919-2921 (1852); Iowa Rev. Code § 4314 (1882) (see *State* v. *Lee,* 91 Iowa 499, 501-502, 60 N. W. 119, 120 (1894)); Kan. Gen. Stat. § 5180 (1889) (see *State* v. *Bogue,* 52 Kan. 79, 86-87, 34 P. 410, 412 (1893)); Ky. Stat. § 1128 (1903) (see *Commonwealth* v. *Hicks,* 118 Ky. 637, 642, 82 S. W. 265, 266 (1904); Miss. Code § 1026 (1906) (see *Fleming* v. *State,* 142 Miss. 872, 880-881, 108 S. 143, 144-145 (1926)); Mont. Codes Ann. (Penal Code) § 1854 (1895); N. Y. Penal Code § 29 (1895) (see *People* v. *Kief,* 126 N. Y. 661, 663-664, 27 N. E. 556, 557 (1891)); N. D. Rev. Codes § 8060 (1895); Okla. Stat. § 5523 (1890); S. D. Ann. Stat. § 8520 (1899); Utah Comp. Laws § 4752 (1907); Wash. Code of Proc. § 1189 (1891) (see *State* v. *Gifford,* 19 Wash. 464, 467-468, 53 P. 709, 710 (1898).

Since then, at least 21 other states have enacted legislation with that effect. See 1977 Ala. Laws, Act. No. 607, § 425; Ariz. Rev. Stat. Ann. § 13-304-1 (1978); Ark. Stat. Ann. § 41-304 (1977); Colo. Rev. Stat. § 18-1-605 (1973) (see *Robert* v. *People,* 103 Colo. 250, 87 P. 2d 251 (1938)); Conn. Gen. Stat. § 53a-9 (1979); Fla. Stat. § 777.011 (1976) (see *Butts* v. *State,* 286 So. 2d 28 (1973)); Ga. Code § 26-802 (1978); Ill. Rev. Stat. ch. 38 § 5-3 (1972); Ind. Code § 35-41-2-4 (1979); La. Rev. Stat. Ann. § 14.24 (West) (1974) (see *State* v. *McAllister,* 366 S. 2d 1340 (1978)); Me. Rev. Stat. Ann., Tit. 17-A § 57; Mich. Comp. Laws § 767.39 (1968) (*People* v. *Smith,* 271 Mich. 553, 260 N. W. 911 (1935)); Mo. Rev. Stat. § 562.046 (1978); Neb. Rev. Stat. § 28-206 (Cum. Supp. 1978) (*State* v. *Rice,* 188 Neb. R. 728, 199 N. W. 2d 480 (1972)); N. H. Rev. Stat. Ann. § 626.8 (1974); N. J. Stat. Ann § 2C: 2-6 (West 1979); N. M. Stat. Ann. § 30-1-13 (1978); Penn. Cons. Stat. 18 § 306 (Cum. Supp. 1979); S. C. Code § 16-1-50 (*State* v. *Massey,* 229 S. E. 2d 332 (1976)); Tex. Code Ann. § 77.03 (1973); Wis. Stat. § 39.05 (1958).

Eleven other states have enacted statutes that modify the common-law rule; these statutes have not been authoritatively construed on whether an accessory can be prosecuted after his principal's acquittal. See Haw. Rev. Stat. § 702-225 (1976); Idaho Code § 19-1431 (1979); Mass. Gen. Laws Ann. ch. 274 § 3 (1970); Minn. Stat. § 609.05 (1964); Nev. Rev. Stat. § 195.040 (1979); Ohio Rev. Code Ann. § 2923.03 (1979); Okla. Stat., Tit. 21 § 172 (1971); Ore. Rev. Stat. § 161.160 (1979); Vt. Stat. Ann., Tit. 13 § 3 (1974); Va. Code § 18.2-21 (1975); W. Va. Code § 61-11-7 (1977); Wyo. Stat. § 6-1-7114 (1977).

Only four states—Maryland, North Carolina, Rhode Island, and Tennessee—clearly retain the common-law bar. See *State* v. *Wood,* 284 Md. 189, 396 A. 2d 1041 (1978); *State* v. *Jones,* 101 N. C. 719, 8 S. E. 147 (1888) (interpreting N. C. Gen. Stat. § 14-15 (1969)); R. I. Gen. Laws § 11-1-3 (1956); *Pierce* v. *State,* 130 Tenn. 24, 168 S. W. 851 (1914).

The Model Penal Code provides that an accomplice may be convicted "though the person claimed to have committed the offense . . . has been acquitted." § 2.06 (7) and see comments Tentative Draft No. 1, May 1953, at 38-39.

[10] The provision is still in effect; it provides that all persons "aiding or abetting the principal offender, shall be charged as principals, not as accessories, the *intent of this section being that as to all accessories before the fact the law heretofore applicable in cases of misdemeanor only shall apply to all crimes. . . .*" Act of March 3, 1901, ch. 854, Section 908, 31 Stat. 1337; D. C. Code § 22-105 (1976) emphasis added).

[11] In 1951 the words "is a principal" were altered to read "is punishable as a principal." That change was designed to eliminate all doubt that in the case of offenses whose prohibition are directed at members of specified classes (*e. g.,* federal employees) a person who is not himself a member of that class may nonetheless be punished as a principal if he induces a person in that class to violate the prohibition. See S. Rep. No. 1020, 82d Cong., 1st Sess., 7-8 (1951). The change was fully consistent with congressional intent to treat accessories before the fact as principals and to abolish the common-law procedural bar. Indeed, by the time of the 1951 re-enactment, the circuit courts that had addressed the question had concluded that § 2 authorizes conviction of an aider and abettor notwithstanding the prior acquittal of the perpetrator of the offense. See *United States* v. *Klass,* 166 F.2d 373, 380 (CA3 1948); *Von Patzoll* v. *United States,* 163 F.2d 216 (CA10 (1946); *Kelly* v. *United States,* 258 F. 392, 402 (CA6 1919); *Rooney* v. *United States,* 203 F. 928, 931-932 (CA 9 1913). Congress manifested no intent to disturb this interpretation. See *Lorillard* v. *Pons,* 434 U.S. 575, 580 (1978).

port of the Commission to Revise and Codify the Laws of the United States 118-119 (1906). The Commission's recommendation was adopted without change. The House and Senate Committee reports, in identical language, stated its intended effect:

"The committee has deemed it wise to make those who are accessories before the fact at common-law principal offenders, thereby permitting their indictment and conviction for a substantive offense. At common law an accessory can not be tried without his consent before the conviction or outlawry of the principal except where the principal and accessory are tried together; if the principal could not be found or if he had been indicted and refused to plead, had been pardoned or died before conviction, the accessory could not be tried at all. This change of the existing law renders these obstacles to justice impossible." S. Rep. No. 10, 60th Cong., 1st Sess., Pt. 1, at 13 (1908); H. R. Rep. No. 2, 6th Cong., 1st Sess., at 13 (1908).[12]

And on the floor of the House of Representatives, Representative Moon, the chairman of the joint select committee, put the point simply: "[we] have abolished the existing arbitrary distinctions between felonies and misdemeanors." 42 Cong. Rec. 585 (1908).

This history plainly rebuts petitioner's contention that § 2 was not intended to authorize conviction of an aider and abettor after the principal had been acquitted of the offense charged.[13] With the enactment of that section, all participants in conduct violating a federal criminal statute are "principals." As such, they are punishable for their criminal conduct; the fate of other participants is irrelevant.[14]

B

The doctrine of nonmutual collateral estoppel was unknown to the common law and to the Congress when it enacted § 2 in 1909.[15] It emerged in a civil case in 1942, *Bernhard* v. *Bank of America Nat. Trust & Savings Assn.*, 19 Cal. 2d 807, 112 P.2d 892. This Court first applied the doctrine in *Blonder-Tongue* v. *University Foundation*, 402 U.S. 313 (1971). There, we held that a determination of patent invalidity in a prior infringement action was entitled to preclusive effect against the patentee in subsequent litigation against a different defendant. Just this past Term we again applied the doctrine—this time "offensively"—to hold that a defendant who had had a "full and fair" opportunity to litigate issues of fact in a civil proceeding initiated by the Securities and Exchange Commission could be estopped from relitigating those issues in a subsequent action brought by a private plaintiff. *Parklane Hosiery Co.* v. *Shore*, 439 U.S. 322 (1979). In both cases, application of nonmutual estoppel promoted judicial economy and conserved private resources without unfairness to the litigant against whom estoppel was invoked.

Here, petitioner urges us to apply nonmutual estoppel against the government; specifically he argues that the government should be barred from relitigating Niederberger's guilt under § 7214(a)(2) in connection with the vacation trips to Pompano Beach, Miami, and Absecon. That issue, he notes, was an element of his offense which was determined adversely to the government at Niederberger's trial.[16]

This, however, is a criminal case, presenting considerations different from those in *Blonder-Tongue* or *Parkland Hosiery*. First, in a criminal case, the government is often without the kind of "full and fair opportunity to litigate" that is a prerequisite of estoppel. Several aspects of our criminal law make this so: the prosecution's discovery rights in criminal cases are limited, both by rules of court and

[12] Petitioner emphasizes the fact that the committee report fails to mention the common-law rule that the prior acquittal of a principal barred conviction of an accessory, and argues accordingly that Congress did not view that rule as an "obstacle to justice." The Court of Appeals correctly rejected this argument, being unwilling to "apply the canon of statutory interpretation . . . *expressio unius, exclusio alterius* . . . to the language employed in a committee report." 610 F.2d, at 1084 (emphasis added). We agree. Petitioner's argument would permit an omission in the legislative history to nullify the plain meaning of a statute. The language of § 2 abolishes the common-law categories and treats all parties as principals. It is not necessary for Congress in its committee reports to identify all of the "weeds" which are being excised from the garden.

[13] It bears mention that even prior to 1909 petitioner would not have prevailed in his attempt to bar prosecution on the § 7214(a)(2) counts. As the government notes, the version of 26 U. S. C. § 7214 then in effect defined the offense to be a misdemeanor. See R. S. 3169 (1878). Hence, the prior acquittal of his principal would not have barred petitioner's prosecution. And because petitioner accompanied Niederberger on four of five trips and therefore was "present" at the scene of the crime, see Tr. 1018-1020, 1024-1027, 1034-1036, 1096, he could have been convicted at common law for those crimes even if the offense had been designated a felony.

[14] Nothing in *Shuttlesworth* v. *Birmingham*, 373 U. S. 262 (1963), relied on by petitioner, is to the contrary. There, petitioner had been convicted of aiding and abetting others to violate a city trespass ordinance which subsequently was declared constitutionally invalid. See *Gober* v. *Birmingham*, 373 U. S. 374 (1963). Shuttlesworth's case merely applied the rule that "there can be no conviction for aiding and abetting someone do an innocent act." *Id.*, at 265. Here, by contrast, the government proved in petitioner's case that Niederberger had violated § 7214(a)(2) in connection with each of the five trips. See no. 6, *supra*.

[15] In 1912 in *Bigelow* v. *Old Dominion Copper Co.*, 225 U. S. 111, 127, this Court stated that it was "a principle of general elementary law that the estoppel of a judgment must be mutual." See also *Stone* v. *Farmers Bank*, 174 U. S. 409 (1899); *Keokuk & W. R. Co. v. Missouri*, 152 U. S. 301, 317 (1894); *Litchfield* v. *Goodnow*, 123 U. S. 549, 552 (1887).

[16] Petitioner does not contend that the Constitution prevents the government from prosecuting him on the three § 7214(a)(2) counts as to which Niederberger was acquitted. Nothing in the Double Jeopardy Clause or the Due Process Clause forecloses putting petitioner on trial as an aider and abettor simply because another jury has determined that his principal was not guilty of the offenses charged. Compare *Ashe* v. *Swenson*, 397 U.S. 436 (1970).

constitutional privileges; it is prohibited from being granted a directed verdict or from obtaining a judgment notwithstanding the verdict no matter how clear the evidence in support of guilt, compare Fed. Rule Civ. Proc. 50; it can not secure a new trial on the ground that an acquittal was plainly contrary to the weight of the evidence, compare Fed. Rule Civ. Proc. 59; and it can not secure appellate review where a defendant has been acquitted. See *United States* v. *Ball*, 163 U.S. 662, 671 (1896).

The absence of these remedial procedures in criminal cases permits juries to acquit out of compassion or compromise or because of "their assumption of a power which they had no right to exercise, but which they were disposed through lenity." *Dunn* v. *United States*, 284 U.S. 390, 393 (1932). See generally H. Kalven & H. Zeisel, The American Jury 193-347 (1966).[17] It is of course true that verdicts induced by passion and prejudice are not unknown in civil suits. But in civil cases, post-trial motions and appellate review provide an aggrieved litigant a remedy; in a criminal case the government has no similar avenue to correct errors. Under contemporary principles of collateral estoppel, this factor strongly militates against giving an acquittal preclusive effect. See Restatement (Second) of Judgments § 68.1 (Ten. Draft No. 3, May 1976) (denying preclusive effect to an unreviewable judgment).[18]

The application of nonmutual estoppel in criminal cases is also complicated by the existence of rules of evidence and exclusion unique to our criminal law. It is frequently true in criminal cases that evidence inadmissible against one defendant is admissible against another. The Exclusionary Rule, for example, may bar the government from introducing evidence against one defendant because that evidence was obtained in violation of his constitutional rights. And the suppression of that evidence may result in an acquittal. The same evidence, however, may be admissible against other parties to the crime "whose rights were [not] violated." *Alderman* v. *United States*, 394 U.S. 165, 171-172 (1969). Accord, *Rakas* v. *Illinois*, 439 U.S. 128, 134 (1978). In such circumstances, where evidentiary rules prevent the Government from presenting all its proof in the first case, application of nonmutual estoppel would be plainly unwarranted.[19]

It is argued that this concern could be met on a case-by-case basis by conducting a pretrial hearing to determine whether any such evidentiary ruling had deprived the Government of an opportunity to present its case fully the first time around. That process, however, could prove protracted and burdensome. Under such a scheme, the Government presumably would be entitled to seek review of any adverse evidentiary ruling rendered in the first proceeding and of any aspect of the jury charge in that case that worked to its detriment. Nothing short of that would insure that its opportunity to litigate had been "full and fair." If so, the "pre-trial hearing" would fast become a substitute for appellate review, and the very purpose of litigation economy that estoppel is designed to promote would be frustrated.

Finally, this case involves an ingredient not present in either *Blonder-Tongue* or *Parklane Hosiery:* the important federal interest in the enforcement of the criminal law. *Blonder-Tongue* and *Parkland Hosiery* were disputes over private rights between private litigants. In such cases, no significant harm flows from enforcing a rule that affords a litigant only one full and fair opportunity to litigate an issue, and there is no sound reason for burdening the courts with repetitive litigation.

That is not so here. The Court of Appeals opinion put the point well:

"[T]he purpose of a criminal court is not to provide a forum for the ascertainment of private rights. Rather it is to vindicate the public interest in the enforcement of the criminal law while at the same time safeguarding the rights of the individual defendant. The public interest in the accuracy and justice of criminal results is greater than the concern for judicial economy professed in civil cases and we are thus inclined to reject, at least as a general matter, a rule that would spread the effect of an erroneous acquittal to all those who participated in a particular criminal transaction. To plead crowded dockets as an excuse for not trying criminal defendants is in our view neither in the best interests of the courts, nor the public." 610 F.2d, at 1093.

In short, this criminal case involves "competing policy considerations" that outweigh the economy concerns that undergird the estoppel doctrine. See Restatement (Second) of Judgments

[17] Niederberger's case demonstrates the point. As to the Absecon and Miami vacations, the jury convicted Niederberger of receiving something of value "because of any official act performed . . . by him," 18 U. S. C. § 201(g), but acquitted him of receiving "any fee, compensation, or reward . . . for the performance of any duty," 26 U. S. C. § 7214(a)(2). No explanation has been offered for these seemingly irreconcilable determinations. This inconsistency is reason, in itself, for not giving preclusive effect to the acquittals on the Absecon and Miami counts. See Restatement (Second) Judgments, § 88(4). See also 610 F.2d at 1112 (Gibbons, J., concurring in part and dissenting in part); *Harary* v. *Blumenthal*, 55 F.2d 1113, 1116-1117 (CA2 1977).

[18] This is not to suggest that the availability of appellate review is always an essential predicate of estoppel. See *Johnson Co.* v. *Wharton*, 152 U.S. 252 (1894); see generally 1B Moore's Federal Practice ¶ 0.416 [5]. The estoppel doctrine, however, is premised upon an underlying confidence that the result achieved in the initial litigation was substantially correct. In the absence of appellate review, or of similar procedures, such confidence is often unwarranted.

[19] Indeed, as the Court of Appeals observed, to give the first case preclusive effect would undermine the *Alderman* rule by affording a defendant whose rights were not violated the benefits of suppression. See 610 F.2d, at 1094, n. 51.

§ 68.1(e) and comments thereto; cf. *Commissioner* v. *Sunnen,* 333 U.S. 591 (1948) [Ct. D. 1698, 1948-1 C.B. 7].

III

In denying preclusive effect to Niederberger's acquittal, we do not deviate from the sound teaching that "justice must satisfy the appearance of justice." *Offutt* v. *United States,* 348 U.S. 11, 14 (1954). This case does no more than manifest the simple, if discomforting, reality that "different juries [may] reach different results under any criminal statute. That is one of the consequences of our jury system." *Roth* v. *United States,* 354 U.S. 476, 492 (1957). While symmetry of results may be intellectually satisfying, it is not required. See *Hamling* v. *United States,* 418 U.S. 87, 101 (1974).

Here, petitioner received a fair trial at which the Government bore the burden of proving beyond reasonable doubt that Niederberger violated 26 U.S.C. § 7214(a)(2) and that petitioner aided and abetted him in that venture. He was entitled to no less—and to no more.

The judgment of the Court of Appeals is

Affirmed.

Section 7216.—Disclosure or Use of Information by Preparers of Returns

26 CFR 301.7216-2: Disclosure or use without formal consent of the taxpayer.

T.D. 7708

TITLE 26.—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER F.—PART 301.—PROCEDURE AND ADMINISTRATION

Disclosure or use of information by preparers of tax returns

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations under section 7216 of the Internal Revenue Code of 1954, relating to disclosure of tax return information by tax return preparers. The regulations affect tax return preparers and provide them with the guidance needed to comply with the law.

DATES: The amendments are effective as of January 1, 1972.

FOR FURTHER INFORMATION CONTACT: Jacob Feldman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T, 202-566-3289, not a toll-free call).

SUPPLEMENTARY INFORMATION

BACKGROUND

On February 21, 1980, the Federal Register published proposed amendments to the Regulations on Procedure and Administration (26 CFR Part 301) under section 7216 of the Code. No comments were received with respect to the proposed amendments, and no public hearing was requested or held. The proposed amendments are adopted by this Treasury decision without change.

EXPLANATION

Section 7216(a) provides that a tax return preparer who discloses or uses any tax return information other than for the specific purpose of preparing, or assisting in the preparation of, any tax return of the taxpayer by or for whom the information was made available to the tax return preparer, is guilty of a misdemeanor. Section 7216(b) provides exceptions to the general rule of section 7216(a).

The amendment made to § 301.7216-2(c) of the regulations exempts from the provision of section 7216(a) and § 301.7216-1 the disclosure of income tax information made pursuant to an administrative order, demand, summons, or subpoena issued in the performance of its duties by any State agency, body, or commission charged under the laws of a State or political subdivision of the State with licensing, registration or regulation of tax return preparers. The order, demand, summons, or subpoena must clearly identify the information to be disclosed. Paragraph (c) is also amended to include all Federal agency orders and not simply the orders of a Federal regulatory agency. In addition, § 301.7216-2(n) is amended to permit disclosure to local officials of tax return information relating to the commission of a crime.

DRAFTING INFORMATION

The principal author of these regulations is Jacob Feldman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Adoption of amendments to the regulations

Accordingly, the following amendments to 26 CFR Part 301 are hereby adopted:

§ 301.7216-2 Disclosure or use without formal consent of the taxpayer.

* * * * *

(c) *Disclosure pursuant to an order of a court or of a Federal or State agency.* The provisions of section 7216(a) and § 301.7216-1 do not apply to any disclosure of tax return information if such disclosure is made pursuant to any one of the following documents:

(1) The order of any court of record, Federal, State, or local, or

(2) An administrative order, demand, summons, or subpoena which is issued in the performance of its duties by—

(i) Any Federal agency, or

(ii) A State agency, body, or commision charged under the laws of the State or a political subdivision of the State with the licensing, registration, or regulation of tax return preparers.

Information must be clearly identified in the document in order to be disclosed under this paragraph (c).

* * * * *

(n) *Disclosure to report the commission of a crime.* The provisions of section 7216(a) and § 301.7216-1 do not apply to the disclosure of any tax return information to the proper Federal, State or local official in order, and to the extent necessary, to inform the official of activities which may constitute, or may have constituted, a violation of any criminal law. In addition, such a disclosure made in the bona fide but mistaken belief that the activities constituted a violation of criminal law is not subject to section 7216(a) and § 301.7216-1.

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved July 15, 1980.

EMIL M. SUNLEY,
Acting Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 24, 1980, 8:45 a.m., and published in the issue of the Federal Register for July 25, 1980, 45 F.R. 49547)

Chapter 77.—Miscellaneous Provisions

Section 7502.—Timely Mailing Treated as Timely Filing and Paying

26 CFR 301.7502-1: Timely mailing treated as timely filing.

Timely filing of returns; taxpayer in foreign country. Tax returns mailed by taxpayers in foreign countries will be accepted as timely filed if they bear an official postmark dated on or before midnight of the last date prescribed for filing, including any extensions.

Rev. Rul. 80-218

United States federal tax returns mailed by taxpayers in foreign countries will be accepted as timely filed if they bear an official postmark dated on or before midnight of the last date prescribed for filing, including any extension of time for such filing. If the last date for filing falls on a Saturday or Sunday, returns will be considered timely if postmarked on or before midnight of the following Monday.

This revenue ruling does not extend to claims, statements, or other documents.

Chapter 79.—Definitions

Section 7701.—Definitions

26 CFR 301.7701-4: Trusts.

Specific conditions that must be present before the Service will consider issuing advance rulings concerning the classification of organizations as liquidating trusts. See Rev. Proc. 80-54, page 848.

Chapter 80.—General Rules
Subchapter A.—Application of Internal Revenue Laws

Section 7805.—Rules and Regulations

26 CFR 301.7805-1: Rules and regulations.

Obsolete rulings. Certain post-1952 rulings dealing with engineering and corporate matters, including reorganizations, are declared obsolete.

Rev. Rul. 80-367

Rev. Proc. 67-6, 1967-1 C.B. 576, anounced a program for the review of rulings published before 1953 with the immediate objective of identifying and publishing lists of those rulings that, although not specifically revoked or suspended, are not considered determinative with respect to future transactions.

Consistent with the objectives of that program, the Internal Revenue Service has undertaken a review of certain rulings that were published in the Internal Revenue Bulletin after 1952. The purpose of this revenue ruling is to publish a list of post 1952 rulings dealing with engineering and corporate matters, including reorganizations that, although not specifically revoked or suspended, are not considered determinative with respect to future transactions because (1) the applicable statutory provisions have been changed or repealed; (2) the ruling position is specifically covered by statute, regulations, or a subsequent published position; or (3) the facts set forth no longer exist or are not sufficient to permit application to the current statute.

Accordingly, the rulings listed below are declared obsolete.

Rev. Rul. No.	*C.B. Citation*
259	1953-2, 55
289	1953-2, 37
55-78	1955-1, 357
55-120	1955-1, 382
55-121	1955-1, 382
55-592	1955-2, 573
56-170	1956-1, 155
56-227	1956-1, 183
56-449	1956-2, 180
56-485	1956-2, 176
56-540	1956-2, 177
59-308	1959-2, 110
64-157	1964-1 (Part 1), 139
65-7	1965-1, 254
68-547	1968-2, 123
74-230	1974-1, 187

The purpose of this declaration of obsolescence is to make clear to all concerned that the above-listed rulings are not determinative with respect to future transactions. It is not the purpose of this revenue ruling to determine their applicability to past transactions.

Other rulings published after 1952 relating to reorganization, corporate

and engineering matters will continue to be reviewed to ascertain those that are inapplicable to future transactions. Therefore, failure to include any particular ruling in the above list should not be construed as an indication that the ruling necessarily is determinative with respect to future transactions.

Part II. Treaties and Tax Legislation

Subpart A.—Tax Conventions

United States-Republic of Austria Income Tax Convention

1957-2 C.B. 985

Austria; situs of nonprofit organization. The exemption from tax provided under Article XIII (3) of the U.S.-Austria Income Tax Convention for a recipient of a grant, allowance, or award from a nonprofit religious, charitable, scientific, literary, or educational organization shall be allowed without regard to the situs of the nonprofit organization.

Rev. Rul. 80-304

Advice has been requested whether the situs of nonprofit organizations has any effect on the application of Article XIII (3) of the United States-Republic of Austria Income Tax Convention (the Convention), 1957-2 C.B. 985.

Article XIII (3) of the Convention provides that a resident of one of the contracting States who is a recipient of a grant, allowance or award from a nonprofit religious, charitable, scientific, literary or educational organization, shall be exempt from tax by the other State on such payments from such organization (other than compensation for personal services).

Under the authority granted by Article XVII of the Convention, the Competent Authority of the United States and the Competent Authority for the Republic of Austria have agreed that the exemption provided under Article XIII (3) of the Convention shall be allowed without regard to the situs of the nonprofit organization.

United States-France Estate, Inheritance, and Gift Tax Convention [1]

Convention signed at Washington November 24, 1978;
Ratification advised by the Senate of the United States of America July 9, 1979;
Ratified by the President of the United States of America July 30, 1979;
Ratified by the French Republic July 24, 1980;
Ratifications exchanged at Paris August 7, 1980;
Proclaimed by the President of the United States of America September 9, 1980;
Entered into force October 1, 1980.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

CONSIDERING THAT:

The Convention between the United States of America and the French Republic for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Estates, Inheritances, and Gifts was signed at Washington on November 24, 1978, the texts of which are hereto annexed;

The Senate of the United States of America by its resolution of July 9, 1979, two-thirds of the Senators present concurring therein, gave its advice and consent to ratification of the Convention;

The Convention was ratified by the President of the United States of America on July 30, 1979, in pursuance of the advice and consent of the Senate, and was ratified on the part of the French Republic on July 24, 1980;

It is provided in Article 19 of the Convention that the Convention shall enter into force the first day of the second month following the month in which the exchange of the instruments of ratification takes place;

The instruments of ratification of the Convention were exchanged at Paris on August 7, 1980, and accordingly the Convention enters into force on October 1, 1980;

NOW, THEREFORE, I, Jimmy Carter, President of the United States of America, proclaim and make public the Convention to the end that it shall be observed and fulfilled with good faith on and after October 1, 1980, by the United States of America and by the citizens of the United States of America and all other persons subject to the jurisdiction thereof.

IN TESTIMONY WHEREOF, I have signed this proclamation and caused the Seal of the United States of America to be affixed.

DONE at the city of Washington this ninth day of September in the year of our Lord one thousand nine hundred eighty and of the Independence of the United States of America the two hundred fifth.

By the President:

JIMMY CARTER

Secretary of State:

EDMUND S. MUSKIE

CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND THE FRENCH REPUBLIC FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON ESTATES, INHERITANCES, AND GIFTS

The President of the United States of America and the President of the

[1] The text of the convention is contained in the pamphlet of the Treaties and Other International Act Series (TIAS) and is designated TIAS 9812. Pertinent excerpts from Senate Report No. 96-3, page 397; Treasury Department Technical Explanation, page 405; Senate Executive J is not published.

French Republic, desiring to conclude a convention for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on estates, inheritances, and gifts, have appointed for that purpose as their respective plenipotentiaries:

The President of the United States of America: The Honorable George S. Vest, Assistant Secretary of State for European Affairs, the President of the French Republic: His Excellency François de Laboulaye, Ambassador of France, who having communicated to each other their full powers, found in good and due form, have agreed upon the following provisions.

Chapter I.—Scope of the Convention

Article 1.—Estates and gifts covered

(1) This Convention shall apply to estates of decedents whose domicile at death was in France and to estates of decedents which are subject to the taxing jurisdiction of the United States by reason of the decedent's domicile therein or citizenship thereof at death.

(2) This Convention shall also apply to gifts of donors whose domicile at the time of making a gift was in France, and to gifts which are subject to the taxing jurisdiction of the United States by reason of the donor's domicile therein or citizenship thereof at the time of making of a gift.

(3) A person who at the time of death or the making of a gift was a resident of a possession of the United States and who acquired United States citizenship solely by reason of (a) his being a citizen of such possession, or (b) his birth or residence within such possession, shall be considered as having been neither domiciled in nor a citizen of the United States for purposes of this Convention.

Article 2.—Taxes covered

(1) This Convention shall apply to:

(a) In the case of the United States: the Federal gift tax and the Federal estate tax, including the tax on generation-skipping transfers; and

(b) In the case of France: the duty on gifts and the duty levied on succession.

(2) This Convention shall also apply to any identical or substantially similar taxes on estates, inheritances, and gifts which are subsequently imposed by a Contracting State in addition to, or in place of, the existing taxes.

(3) The competent authorities of the Contracting States shall notify each other of any substantial changes which have been made in their respective laws relating to taxes on estates, inheritances, and gifts.

Chapter II.—Definitions

Article 3.—General definitions

(1) In this Convention:

(a) The terms "Contracting State" and "other Contracting State" mean the United States or France, as the context requires.

(b) The term "United States" means the United States of America and, when used in a geographical sense, means the states thereof and the District of Columbia. Such term also includes any area outside the States and the District of Columbia which is, in accordance with international law, an area within which the United States may exercise rights with respect to the natural resources of the seabed and sub-soil.

(c) The term "France" means the French Republic and, when used in a geographical sense, means the European and Overseas departments of the French Republic. Such term also includes any area outside those departments which is, in accordance with international law, an area within which France may exercise rights with respect to the natural resources of the seabed and sub-soil.

(d) The term "enterprise" means a commercial or industrial enterprise carried on by an individual domiciled in a Contracting State.

(e) Except where expressly stated to the contrary, the term "tax" means the tax or taxes referred to in Article 2 which are imposed by the Contracting State (or Contracting States) as indicated by the context of the term's usage.

(f) The term "competent authority" means:

(i) In the case of the United States, the Secretary of the Treasury or his delegate, and

(ii) In the case of France, the Minister of Budget or his delegate.

(2) Any term not otherwise defined in this Convention shall, unless the context otherwise requires, have the meaning which it has under the tax laws of the Contracting State whose tax is being determined. However, if the meaning of such a term under the laws of one of the Contracting States is different from the meaning of the term under the laws of the other Contracting State, the Contracting State may, in order to prevent double taxation or to further any other purposes of this Convention, establish a common meaning of the term for purposes of this Convention.

Article 4.—Fiscal domicile

(1) For the purpose of this Convention, the question whether an individual was domiciled in one of the Contracting States shall be determined according to the law of that State.

(2) Where by reason of the provisions of paragraph (1) an individual was domiciled in both Contracting States, then this case shall be determined in accordance with the following rules:

(a) He shall be deemed to have been domiciled in the Contracting State in which he maintained his permanent home;

(b) If he had a permanent home in both Contracting States or in neither of the Contracting States, his domicile shall be deemed to be in the Contracting State with which his personal relations were closest (center of vital interests);

(c) If the Contracting State in which he had his center of vital interests cannot be determined, his domicile shall be deemed to be in the Contracting State in which he had an habitual abode;

(d) If he had an habitual abode in both Contracting States or in neither of the Contracting States, his domicile shall be deemed to be in the Contracting State of which he was a citizen; or

(e) If he was a citizen of both Contracting States or of neither of them, the competent authorities of the Contracting States shall determine the Contracting State of his domicile by mutual agreement.

(3)(a) Notwithstanding the provisions of paragraph (2), an individual who at the time of his death or the making of a gift was a citizen of one of the Contracting States without being a citizen of the other Contracting State, and who would be considered under paragraph (1) as having been domiciled in both Contracting States, shall be deemed to have been domiciled only in the Contracting State of which he was a citizen, if he had a clear intention to retain his domicile in that Contracting State and if he was domiciled in the other Contracting State in the aggregate less than 5 years during the 7-year period ending with the year of his death or the making of a gift.

(b) Notwithstanding the provisions of paragraph (2) or of subparagraph (a) of this paragraph, an individual who at the time of his death or the making of a gift was a citizen of one of the Contracting States without being a citizen of the other Contracting State, and who would be considered under paragraph (1) as having been domiciled in both Contracting States, shall be deemed to have been domiciled only in the Contracting State of which he was a citizen if:

(i) He was domiciled in the other Contracting State in the aggregate less than 5 years during the 7-year period ending with the year of his death or the making of a gift, provided that he was in that other Contracting State by reason of an assignment of employment or as the spouse or other dependent (personne à charge) of a person present in that other Contracting State for such a purpose; or

(ii) He was domiciled in the other Contracting State in the aggregate less than 7 years during the 10-year period ending with the year of his death or the making of a gift, provided that he was in that other Contracting State by reason of a renewal of an assignment of employment or as the spouse or other dependent (personne à charge) of a person present in that other Contracting State for such a purpose.

Chapter III.—Taxing Rules

Article 5.—Immovable (real) property

(1) Immovable (real) property may be taxed by a Contracting State if such property is situated in that State.

(2) The term "immovable (real) property" shall be defined in accordance with the tax laws of the Contracting State in which such property is situated. Mortgages or other claims secured by immovable (real) property shall not be regarded as immovable (real) property.

(3) The provisions of paragraphs (1) and (2) shall also apply to immovable (real) property which forms part of the business property of a permanent establishment or is used for the performance of professional services or other independent activities of a similar character.

Article 6.—Business property of a permanent establishment and assets pertaining to a fixed base used for the performance of professional services

(1) Except as provided in Article 5, assets (other than ships and aircraft operated in international traffic and movable property pertaining to the operation of such ships and aircraft) used in or held for use in the conduct of the business of a permanent establishment may be taxed by a Contracting State if the permanent establishment is situated therein.

(2) For purposes of this Convention, the term "permanent establishment" means a fixed place of business through which the business of an enterprise is wholly or partly carried on. If an individual is a member of a partnership or other association that is not a corporation which is engaged in industrial or commercial activity through a fixed place of business, he shall be deemed to have been so engaged to the extent of his interest therein.

(3) The term "permanent establishment" shall include especially:

(a) A seat of management;

(b) A branch;

(c) An office;

(d) A factory;

(e) A workshop;

(f) A warehouse;

(g) A mine, quarry, or other place of extraction of natural resources; and

(h) A building site or a construction or assembly project which exists for more than 12 months.

(4) Notwithstanding the provisions of paragraphs (2) and (3), the term "permanent establishment" shall not be deemed to include:

(a) The use of facilities solely for the purpose of storage, display, or delivery of goods or merchandise belonging to the enterprise;

(b) The maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of storage, display, or delivery;

(c) The maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of processing by another person;

(d) The maintenance of a fixed place of business solely for the purpose of purchasing goods or merchandise, or the collection of information, for the enterprise;

(e) The maintenance of a fixed place of business solely for the purpose of advertising, supplying information, conducting scientific research, or similar activities which have a preparatory or auxiliary character, for the enterprise; or

(f) The maintenance of a fixed place of business solely for investment purposes (and not for purposes of engaging in industrial or commercial activity) of an individual, whether by the individual or his employees or through a broker or other agent.

(5) A person who was acting in a Contracting State on behalf of an enterprise—other than agent to whom paragraph (4)(f) or (6) applies—shall be deemed to have been a permanent establishment of the enterprise in that State if such person had, and habitually exercised in that State, an authority to conclude contracts in the name of the enterprise, unless the exercise of such authority was limited to the purchase of goods or merchandise for the enterprise.

(6) An enterprise shall not be deemed to have had a permanent establishment in a Contracting State merely because the enterprise engaged in industrial or commercial activity in that State through a broker, general commission agent, or any other agent of an independent status acting in the ordinary course of his business.

(7) The fact that an enterprise controlled a corporation which engaged in industrial or commercial activity in a Contracting State (whether through a permanent establishment or otherwise) shall not be taken into account in determining whether the enterprise had a permanent establishment in that State.

(8) Except as provided in Article 5, assets pertaining to a fixed base used for the performance of professional services or other independent activities of a similar character may be taxed by a Contracting State if the fixed base is situated in that State.

ARTICLE 7.—TANGIBLE MOVABLE PROPERTY

(1) Tangible movable property other than currency may be taxed by a Contracting State if such property is situated in that State and is not taxable by the other Contracting State pursuant to Article 6. For this purpose, tangible movable property which is in transit shall be considered situated at the place of destination.

(2) Notwithstanding the provisions of paragraph (1), tangible movable property owned by an individual referred to in paragraph (3) of Article 4 and used for his normal personal use or that of his family may be taxed only by the Contracting State in which the individual was domiciled.

(3) Notwithstanding the provisions of paragraph (1), ships and aircraft operated in international traffic, and movable property pertaining to the operation of such ships and aircraft, may be taxed by a Contracting State if such ships and aircraft are registered in that Contracting State. Other ships and aircraft may be taxed by a Contracting State if the harbors and airports most frequently used by such ships and aircraft are situated in that State.

ARTICLE 8.—TAXATION OTHER THAN PURSUANT TO ARTICLES 5, 6, AND 7

Except as provided in Articles 5, 6, and 7, property, including shares or stock in a corporation, debt obligations (whether or not there is written evidence thereof), other intangible property, and currency may be taxed by a Contracting State only if the decedent or donor was a citizen of or was domiciled in that State at the time of death or the making of a gift, and if taxable by that State under its laws.

ARTICLE 9.—DEDUCTIONS OF DEBTS

(1) Debts, to the extent they would be deductible according to the internal law of a Contracting State, shall be deducted from the gross value of the property which may be taxed by that State in the proportion that such gross value bears to the gross value of the entire property wherever situated.

(2) Notwithstanding the provisions of paragraph (1), for purposes of determining the French tax:

(a) Debts pertaining to a permanent establishment or to a fixed base used for the performance of professional services or other independent activities of a similar character shall be deducted from the value of assets referred to in Article 6.

(b) Debts pertaining to ships and aircraft operated in international traffic and to movable property related to the operation of such ships and aircraft shall be deducted from the value of these assets.

ARTICLE 10.—CHARITABLE EXEMPTIONS AND DEDUCTIONS

(1) A transfer to a legal entity created or organized in a Contracting State shall be exempt from tax, or fully deductible from the gross value liable to tax, in the other Contracting State with respect to its taxes referred to in Article 2, provided the transfer would be eligible for such exemption or deduction if the legal entity had been created or organized in that other Contracting State.

(2) The provisions of paragraph (1) shall apply only if the legal entity:

(a) Has a tax-exempt status in the first Contracting State by reason of which transfers to such legal entity are exempt or fully deductible;

(b) Is organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes; and

(c) Receives a substantial part of its support from contributions from the public or governmental funds.

(3) This Article shall not apply to transfers to a Contracting State or a political or administrative subdivision thereof unless specifically limited to a purpose described in paragraph (2)(b).

ARTICLE 11.—COMMUNITY PROPERTY AND MARITAL DEDUCTION

(1) Property (other than community property) which was acquired during marriage for consideration by an individual who at the time of death or the making of a gift was domiciled in, or a citizen of, the United States and which passes to the spouse of such individual shall, for the purposes of determining the French tax, be treated as if it were community property, unless the spouses expressly elected to have a treatment other than community property treatment provided by French civil law.

(2) In the case of an individual who was domiciled in France there shall, for purpose of determining the United States tax, be allowed the same marital deduction in effect on the date of signature of this Convention, as if such

individual were domiciled in the United States, and in such a case the tax rates applicable if the decedent or donor had been domiciled in the United States shall apply. If the tax determined without regard to the preceding provision of this paragraph is lower than that computed under the preceding provision, the lower tax shall apply.

(3) In the event the laws of either Contracting State are changed substantially to reduce the tax benefits of the marital deduction or community property, the competent authorities of the Contracting States shall consult to determine whether this Article shall be modified or shall cease to have effect.

Chapter IV.—Relief From Double Taxation

Article 12.—Exemptions and Credits

(1) Except as otherwise provided in this Convention, each Contracting State shall impose its tax, and shall allow exemptions, deductions, credits, and other allowances, in accordance with its laws.

(2) Double taxation shall be avoided in the following manner:

(a) In determining the French tax where property may be taxed by the United States in accordance with Article 5, 6, or 7, such property shall be exempt from the French tax. However, French tax with respect to property which is taxable by France in accordance with this Convention shall be computed at the rate appropriate to the total of property taxable under French law.

(b) In determining the United States tax:

(i) Where both Contracting States impose tax with respect to property which is taxable by France in accordance with Article 5, 6, or 7, the United States shall allow a credit equal to the amount of the tax imposed by France with respect to such property.

(ii) Notwithstanding the provisions of subparagraph (i), the total amount of all credits allowed by the United States pursuant to this Article or pursuant to its laws or other conventions with respect to all property in respect of which a credit is allowable under subparagraph (i) shall not exceed that part of the tax of the United States which is attributable to such property.

(iii) Any credits for tax imposed by France allowable under this Article are in lieu of, and not in addition to, any such credits allowed by the laws of the United States.

(3) If the decedent or donor was a citizen of the United States at the time of death or the making of a gift and would be considered under Article 4 as having been domiciled in France at such time, the United States shall allow a credit equal to the amount of the tax imposed by France.

(4) Exemption and credits under this Article shall be tentatively allowed by the United States on the basis of statements made in the tax return as to the amount of any tax paid or payable to France. However, such exemptions and credits shall not be finally allowed until any such tax for which the exemption or credit is allowable has been paid.

(5) The provisions of this Convention shall not result in an increase in the amount of the tax imposed by either Contracting State under its domestic laws. A reduction in the credit allowed against United States tax for the tax paid to France which results from the application of this Convention shall not be considered as an increase in tax.

Chapter V.—Special Provisions

Article 13.—Time Limitations on Claims for Credit or Refund

(1) Any claim for credit or for refund of tax founded on the provisions of this Convention shall be made before the expiration of the latest of:

(a) The time for the making of a claim for refund of tax under the laws of the Contracting State to which the claim for credit or refund is made;

(b) Five years from the date of death of the decedent, or from the making of a gift with respect to which the claim is made; or

(c) One year after final determination (administrative or judicial) and payment of tax for which any credit under Article 12 is claimed, provided that the determination and payment are made within 10 years of the date of death of the decedent or of the making of a gift.

(2) Any refund based on the provisions of this Convention shall be made without payment of interest on the amount so refunded.

Article 14.—Mutual Agreement Procedure

(1) Any person who considers that the actions of one or both of the Contracting States result or will result for him in taxation not in accordance with this Convention may, notwithstanding the remedies provided by the laws of those States, present his case to the competent authority of either Contracting State. Such presentation must be made within the period of time prescribed for the filing of a claim for credit or refund under Article 13. Should the person's claim be considered to have merit by the competent authority of the Contracting State to which the claim is made, it shall seek agreement with the competent authority of the other Contracting State with a view to the avoidance of taxation contrary to the provisions of this Convention.

(2) The competent authorities of the Contracting States shall resolve by mutual agreement any difficulties or doubts arising as to the application of this Convention.

(3) The competent authorities of the Contracting States may communicate with each other directly for the purpose of reaching an agreement in the sense of this Article. When it seems advisable for the purpose of reaching an agreement, the competent authorities may meet together for an oral exchange of opinions.

(4) When the competent authorities reach such an agreement, taxes shall be imposed, and refund or credit

of taxes shall be allowed by the Contracting States in accordance with such agreement, notwithstanding any procedural rule (including the statute of limitations) applicable under the laws of either Contracting State.

(5) The competent authority of each Contracting State may prescribe such regulations and forms as may be necessary or appropriate to give effect. to and implement the provisions of this Convention.

ARTICLE 15.—FILING OF RETURNS AND EXCHANGE OF INFORMATION

(1) (a) The provisions of Articles 5, 6, 7, or 8, which change the taxability or situs of property or the amount of tax which would have been due in the absence of this Convention, shall not change:

(i) The requirements of the respective tax laws of the Contracting States relating to information or tax returns or notices, transfer certificates or maintenance of records, and

(ii) The applicability and amount of any sanctions of such laws with respect to the requirements referred to to in subparagraph (i).

(b) As concerns the United States, notwithstanding the provisions of paragraph (a), the requirements or sanctions found to be unnecessary for the prevention of fraud or fiscal evasion with respect to taxes to which this Convention applies may be eliminated or modified (but not made more burdensome) by regulations prescribed pursuant to paragraph (5) of Article 14.

(2) The competent authority of each Contracting State shall furnish the competent authority of the other Contracting State such information as is pertinent to:

(a) Carrying out the provisions of this Convention or the laws of such other Contracting State concerning its tax insofar as the taxation thereunder is in accordance with this Convention, or

(b) Preventing fraud or fiscal evasion in relation to the taxes which are the subject of this Convention (including information with respect to property exempted from the tax of the first-mentioned Contracting State by reason of Article 8).

However, this paragraph shall not require the competent authority of a Contracting State to furnish information not in the possession of that Contracting State with respect to property exempted from its tax by reason of Article 8. Any information furnished shall be treated as secret and shall not be disclosed to any persons other than those (including a court or administrative body) concerned with assessment, collection, enforcement, or prosecution in respect of the taxes which are the subject of this Convention.

(3) In no case shall the provisions of paragraph (2) be construed so as to impose on one of the Contracting States the obligation:

(a) To carry out administrative measures at variance with the laws or the administrative practice of that or of the other Contracting State;

(b) To supply particulars which are not obtainable under the laws or in the normal course of the administration of that or of the other Contracting State;

(c) To supply information which would disclose any trade, business, industrial, commercial, or professional secret or trade process, or information the disclosure of which would be contrary to public policy.

(4) The furnishing of information shall be either on a routine basis or on request with reference to particular cases. The competent authorities of the Contracting States shall agree on the list of information which shall be furnished on a routine basis.

ARTICLE 16.—ASSISTANCE IN COLLECTION

(1) The two Contracting States undertake to lend assistance and support to each other in the collection of the taxes to which this Convention relates, together with interest, costs, and additions to the taxes and fines not being of a penal character according to the laws of the State requested, in cases where the taxes are definitively due according to the laws of the State making the application.

(2) In the case of an application for enforcement of taxes, revenue claims of each of the Contracting States which have been finally determined will be accepted for enforcement by the State to which application is made and collected in that State in accordance with the laws applicable to the enforcement and collection of its own taxes.

(3) The application will be accompanied by such documents as are required by the laws of the State making the application to establish that the taxes have been finally determined.

(4) If the revenue claim has not been finally determined, the State to which application is made will take such measures of conservancy (including measures with respect to transfer of property belonging to nonresident aliens) as are authorized by its laws for the enforcement of its own taxes.

(5) The assistance provided for in this Article shall not be accorded with respect to estates of citizens of the Contracting States to which application is made.

ARTICLE 17.—DIPLOMATIC AND CONSULAR OFFICIALS

(1) Nothing in this Convention shall affect the fiscal privileges of diplomatic or consular officials under the general rules of international law or under the provisions of special agreements.

(2) Insofar as such privileges prevent the imposition of tax in the receiving Contracting State, the right to tax shall be reserved to the Contracting State in whose service the persons concerned exercised their functions and, notwithstanding any other provisions of this Convention, such persons shall not be deemed to have been domiciled in the receiving Contracting State.

ARTICLE 18.—TERRITORIAL EXTENSION

(1) This Convention may be extended, either in its entirety or with

necessary modifications, to all or any of the Overseas Territories of the French Republic or the territories for whose international relations the United States is responsible, if such territories impose taxes substantially similar in character to those referred to in Article 2. Any such extension shall take effect from such date and subject to such modifications and conditions as may be specified and agreed between the Contracting States in notes to be exchanged through diplomatic channels or in any other manner in accordance with their constitutional procedure. In the case of the United States, such procedure shall be that set forth in Article II, Section 2, of the Constitution of the United States (advice and consent of the Senate).

(2) At any time after the expiration of a period of one year from the effective date of an extension made by virtue of paragraph (1) either of the Contracting States may, by a written notice of termination given to the other Contracting State through diplomatic channels, terminate the application of the provisions in respect of any territory to which this Convention has been extended, in which case the provisions of the Convention shall cease to be applicable to such territory on and after the first day of January following the date of such notice.

(3) Unless otherwise agreed by both Contracting States, the termination of the Convention by one of the Contracting States under Article 20 shall also terminate the application of the Convention to any territory to which it has been extended under this Article.

CHAPTER VI.—FINAL PROVISIONS

ARTICLE 19.—ENTRY INTO FORCE

(1) This Convention shall be ratified and the instruments of ratification shall be exchanged at Paris as soon as possible.

(2) This Convention shall enter into force the first day of the second month following the month in which the exchange of the instruments of ratification takes place. Its provisions shall apply to estates of persons dying and to gifts made on or after that date.

(3) The Convention of October 18, 1946, as modified by the Protocol of May 17, 1948, and the Convention of June 22, 1956, shall be terminated on, and shall cease to have effect from, the date on which the present Convention enters into force according to paragraph (2).

ARTICLE 20.—TERMINATION

(1) This Convention shall remain in force until terminated by one of the Contracting States. However, not earlier than the fifth year following the year in which this Convention entered into force, either Contracting State may, between the first of January and the thirtieth of June, give written notice of termination through diplomatic channels, with effect from the end of the calendar year in which such notice is given. In such an event, its provisions shall not apply to estates of persons dying or to gifts made after the end of the calendar year with respect to the end of which this Convention has been terminated.

(2) Notwithstanding the provisions of paragraph (1), if the effects of this Convention are substantially altered as a result of changes made in the tax law of either Contracting State, either Contracting State may, through diplomatic channels, give a written notice of termination with effect not earlier than 6 months after such notice is given. In such an event, its provisions shall not apply to estates of persons dying or to gifts made on or after the effective date of the termination.

In witness whereof, the plenipotentiaries of the two Contracting States have signed this Convention and affixed thereto their seals.

Done at Washington, in duplicate, in the English and French languages, each text being equally authentic, this 24th day of November 1978.

For the President of the United States of America: GEORGE S. VEST

For the President of the French Republic: FRANCOIS DE LABOULAYE

Senate Executive Report No. 96-3

[Bracketed numerals indicate official report page numbers]

ESTATE AND GIFT TAX TREATY WITH THE FRENCH REPUBLIC

JUNE 15, 1979

Mr. CHURCH, from the Committee on Foreign Relations, submitted the following report to accompany Ex. J, 96th Cong., 1st sess.

The Committee on Foreign Relations, to which was referred the Estate and Gift Tax Treaty with the French Republic ("France")[1] for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on estates, inheritances and gifts, having considered the same, reports favorably thereon without reservation and recommends that the Senate give its advice and consent to ratification thereof.

I. PURPOSE

The purpose of the proposed estate and gift tax treaty between the United States and France is to alleviate double taxation on estates and gifts of French and U.S. domiciliaries and U.S. citizens by modifying the jurisdictional rules of estate and gift taxation with respect to these individuals.

[2] II. BACKGROUND

The proposed treaty was signed by the United States and the French Republic on November 24, 1978, and has been submitted to the Senate for advice and consent to its ratification. The Tax Treaty was transmitted to the Senate on February 9, 1979.

The portion of the proposed treaty dealing with state taxation will replace the existing estate tax treaty and protocol between the United States and France, which have been in force since October 17, 1949 [1956-1 C.B. 837]. There is no existing gift tax treaty between the two countries.

[1] Page 391; Technical Explanation, page 405; Senate Executive J is not published.

III. SUMMARY OF TREATY

The proposed treaty will alleviate double taxation on gifts and estates of United States citizens and domiciliaries and French domiciliaries in some situations by allowing only one country to impose its tax and in others by allowing both countries to impose a tax but requiring one of the countries to allow a credit against its tax for the taxes paid to the other country.

In most situations, the treaty allows the country of domicile to assert primary tax jurisdiction. However, the situs country is given priority taxation in the case of real property, tangible personal property, and business assets which are located in that country.

The treaty provides that the domicile of an individual will be determined separately under the laws of each country. If only one of the two countries treats the individual as a domiciliary under its domestic laws, then that is the country of domicile for purposes of the treaty. However, if both countries treat the individual as a domiciliary under their domestic laws, then the treaty sets forth an extensive set of rules to determine the individual's domicile for purposes of establishing primary tax jurisdiction under the treaty. The approach used in this set of rules is to recognize that where an individual domiciled in both countries is a national of one of the two countries and has been resident for only a limited period of time in the other country, his ties with the country of residence are not sufficient to justify the assertion of primary tax jurisdiction by that country. However, where an individual has been domiciled in both countries for a substantial period of time, the country with which he has his closest ties (such as the place of his permanent home) has the greater claim to domicile and, thus, primary tax jurisdiction will generally be allowed to that country.

[3] IV. DATE OF ENTRY INTO FORCE AND TERMINATION

Entry into force

The proposed treaty will enter into force on the first day of the second month following the month in which the instruments of ratification are exchanged and will apply to estates of persons dying and to gifts made on or after that date. The existing treaty terminates at that time.

Termination

The proposed treaty will continue in force indefinitely but either country may terminate it as of the close of any calendar year which ends at least 5 years after the treaty enters into force. Termination is accomplished by delivering written notice between January 1st and June 30th of that same year.

The proposed treaty can also be terminated if changes in the tax laws of either country result in a substantial alteration of the effects of the treaty. Such termination will occur 6 months after the delivery of notice. A termination under this provision is not subject to the 5-year minimum period previously mentioned.

V. COMMITTEE ACTION

The Committee on Foreign Relations held public hearings on the proposed French estate and gift tax treaty and on other proposed tax treaties, on June 6, 1979. The Committee considered the proposed treaty on June 12, 1979 and ordered it favorably reported by a vote of 13 yeas, no nays, with the recommendation that the Senate give its advice and consent to ratification of the treaty.

VI. BUDGET IMPACT

The Committee estimates that the effect of the proposed treaty on budget receipts will be negligible.

In accordance with the objectives of section 403 of the Budget Act, the Committee advises that the Director of the Congressional Budget Office has examined the Committee's budget estimate and agrees that the effect on budget receipts will be negligible. In keeping with section 308(a) of the Budget Act, and after consultation with the Director of the Congressional Budget Office, the Committee states that the treaty does not provide any new budget authority or any new or increased tax expenditures.

[4] VII. EXPLANATION OF TREATY PROVISIONS

A comprehensive article-by-article explanation of the proposed estate, inheritance and gift tax treaty between the United States and France is set forth below.

Article 1. Estates and gifts covered

The proposed treaty applies to estates of decedents who were domiciled in France at the time of their death and to estates that are subject to tax in the United States because the decedent was a citizen or domiciliary of the United States at the time of his death. With respect to gifts, the treaty applies to gifts made while the donor was a domiciliary of France and to gifts which are subject to tax in the United States because the donor was a citizen or domiciliary of the United States when the gift was made. Generation-skipping transfers which are subject to tax in the United States because the transferor was a U.S. citizen or domiciliary are also covered.

The proposed treaty does not treat certain residents of U.S. possessions as U.S. citizens or domiciliaries. These are individuals who acquired U.S. citizenship solely because they were citizens of a possession or because they were born in a possession or were residents of a possession. Under U.S. law (Code sec. 2209 and sec. 2501(c)), these individuals are not taxed by the United States on their worldwide estates and gifts, so protection against double taxation is generally unnecessary. Accordingly, the proposed treaty will not apply to estates or gifts of these individuals, unless it is applicable by reason of their being domiciled in France.

Article 2. Taxes covered

The proposed treaty applies to the U.S. estate tax, gift tax, and the tax on generation-skipping transfers.

The United States imposes its estate tax on the worldwide assets of estates of persons who were citizens or domiciliaries of the United States at the time of their death, and on property belonging to non-domiciliaries of the United States which is situated in the United States at the time of their death. The U.S. gift tax is imposed on all gifts made by U.S. citizens and domiciliaries, and on gifts of property made by nondomiciliaries where the property is tangible property located in the United States at the time of the gift.

The U.S. tax on generation-skipping transfers was enacted in 1976 to prevent the transfer of the use of property among generations of the transferor's descendants without the payment of gift or estate taxes. In general, the tax on such transfers is imposed when property passes through a trust from persons of one generation to persons of another generation, and the transfer is not otherwise subject to estate or gift tax.

The proposed treaty applies to the French succession duty and the French gift duty. The succession duty is imposed on the world-wide [5] assets of persons domiciled in France at the time of their death, and on property of nondomiciliaries of France where the property is located in France at the time of their death. France imposes a gift duty on all gifts made by persons domiciled in France, and on property of nondomiciliaries that is located in France at the time of the gift.

As is generally true in the case of other U.S. estate tax treaties, the proposed treaty does not apply to death or gift taxes imposed by state or local governments. In addition, the proposed treaty provides that it will apply to any substantially similar taxes on estates, inheritances and gifts that either country may subsequently impose. The competent authorities of both countries are required to notify each other in the case of any substantial changes in their estate, inheritance or gift tax laws.

Article 3. General definitions

The standard definitions generally found in most existing U.S. estate tax treaties are contained in the proposed treaty.

The United States is defined to mean the fifty states and the District of Columbia. Thus, U.S. possessions and territories are not covered by the treaty. France is defined to mean that part of France situated in Europe and the Overseas Departments of the French Republic which include Guadaloupe, Martinique, Guyane and Reunion. The geographical definition of both countries also includes any area where either country may, under international law, exercise rights with respect to the natural resources of the seabed and subsoil.

The proposed treaty also contains the standard provision that undefined terms are to have the meaning which they have under the applicable tax laws of the country whose tax is being determined. In addition, it is further provided that where a term defined in a different manner by the two countries, the countries may establish a common meaning of the term in order to prevent double taxation or to further any other purposes of the proposed convention.

Article 4. Fiscal domicile

The concept of domicile is important under the proposed treaty because the country of domicile has, under the treaty, primary tax jurisdiction on all property other than the property subject to situs taxation. The country of domicile is initially determined by each country under its domestic laws. However, in those situations where both countries would treat an individual as a domiciliary, the treaty sets forth rules for establishing the country of domicile for purposes of the taxes covered by the treaty.

Ordinarily, the tests employed by countries to determine the domicile of an individual often are not exactly the same. Under the Internal Revenue Code an individual is considered a domiciliary of the United States for purposes of the Federal estate and gift tax if the person was residing in the United States and had the intent to remain in the United States indefinitely (or had been residing in the United States with such an intent and had subsequently left this country without an intent to remain indefinitely at his new place of residence). A person is considered domiciled in France if his main establishment is in France. In general, a person's main establishment is where he phys- [6] ically resides and intends to live permanently. In the situation where an individual resides (or has resided) in both countries, it is possible that each country, in ascertaining where the individual intended to make his permanent home, could arrive at different conclusions from the individual's actions. Thus, each country could hold that these actions clearly demonstrate the individual's intention to make that country his permanent home and, accordingly, his domicile.

To provide relief from double taxation where each country considers the individual to be a domiciliary under its domestic laws, the proposed treaty provides a series of rules designed to establish a single country of domicile for the individual for purposes of the taxes covered by the treaty. The country so selected will then have the primary tax jurisdiction with respect to the worldwide estate of the decedent or his worldwide gifts, other than with respect to real property, business assets or tangible property situated in the other country. As described below, these rules are based on the concept that primary tax jurisdiction should be exercised either by the country of nationality, if the dual domicile individual has not been resident in the other country for a substantial period of time prior to his death or the making of the gift, or by the country in which he has his most significant contacts if the nationality test is not determinative.

In determining the domicile of an individual under the proposed treaty,

each country will first determine whether the individual is considered a domiciliary under its law. If the individual is a domiciliary of only one country then that will be the individual's country of domicile for purposes of the proposed treaty. However, if both countries determine the individual to be a domiciliary, the proposed treaty provides a series of rules by which an exclusive domicile for the individual will be determined.

The first rule that is applied consists of two separate tests which apply to persons who are citizens of only one of the two countries. Under the first test, such a person will be considered domiciled in the country of which he is a citizen if he was domiciled in the other country for less than 5 years during the 7-year period which ends with the year of his death or the year the gift was made, and he was in that country because of an assignment of employment or because he was the spouse or dependent of a person who was in that country for such a purpose. Under the second test, the person will be considered a domiciliary of the country of which he is a citizen if he was domiciled in the other country for less than 7 years during the 10-year period which ends with the year of his death or the year the gift was made, and he was in that country because of a renewal of an assignment of employment or because he was the spouse or dependent of a person who was in that country for such a purpose.

A second rule, which is similar to the first in that it applies to persons who are domiciliaries of both countries and citizens of only one of the countries, applies if domicile cannot be resolved under the first rule. Under the second rule such a person will be considered a domiciliary of the country of which he is a citizen if he had a clear intention to retain his domicile in that country and he was domiciled in the other country for less than 5 years during the 7-year period which ends with the year of death or the year the gift was made.

[7] It is contemplated that these rules will resolve the great majority of dual domicile situations. However, if a dual domicile problem still remains after application of these rules, the proposed treaty provides four additional rules to determine domicile. The rules (applied in the order presented) provide that the individual will be considered domiciled in the country (1) in which he maintained his permanent home, (2) in which his personal relations were the closest (center of vital interests), (3) in which he had a habitual abode, or (4) in his country of citizenship. In cases where an individual's domicile cannot be determined under these rules, the competent authorities of the countries are to settle the question by mutual agreement.

Article 5. Immovable (real) property

Under the proposed treaty, immovable (real) property is one of the three types of property over which the situs country, rather than the country of domicile has primary tax jurisdiction. The other two are assets of a permanent establishment or fixed base (*Article 6*) and tangible movable property (*Article 7*).

The determination of whether an item of property is immovable (real) property is to be made under tax laws of the country in which the property is located. Although U.S. law does not define "immovable (real) property," that term for U.S. purposes is considered to mean real property. It is further provided that immovable (real) property does not include claims secured by real property (such as mortgages). Real property which is part of the business assets of a permanent establishment or used for the performance of professional or similar independent services is taxable under this article, rather than Article 6.

Article 6. Business property of a permanent establishment and assets pertaining to a fixed base used for the performance of professional services

Under the proposed treaty, the second type of property over which the situs country has primary tax jurisdiction is the business assets (other than ships and aircraft operated in international traffic and related personal property and other than real property) of an individual's permanent establishment which located in the situs country and the assets (other than real property) of a fixed base of an individual which is situated in the country and is used for the performance of professional services or other similar independent activities. The real property of a permanent establishment or fixed base is to be taxed by the country in which it is situated, as provided in Article 5.

The proposed treaty contains a definition of the term "permanent establishment" which is similar to the definition found in recent U.S. income tax treaties. Generally, any fixed place of business through which a person engages in a trade or business is considered a permanent establishment. For this purpose, a person is considered engaged in a trade or business regardless of whether the business is carried on as a sole proprietorship or through a partnership or as an unincorporated association which is not taxed as a corporation. In the case of a partnership or association, however, only the person's interest in the business entity will be taken into account for purposes of this provision.

A fixed place of business generally includes a branch, office, factory, workshop, warehouse, place of extraction of natural resources, and [8] any building site or construction or assembly project which exists for more than 12 months. This general rule is modified by providing that a fixed place of business which is used for certain activities specified in the treaty will not be considered a permanent establishment. These activities include, for example, the warehousing of goods for purposes of storage, display, or delivery, and the use of a fixed place of business solely for the purpose of purchasing merchandise or collecting information. An additional activity in-

cluded within this exempt category is the maintenance of a fixed place of business solely for investment purposes of an individual, whether conducted by the individual, his employees, a broker or other agent.

The proposed treaty also provides that a person will be deemed to have a permanent establishment in a country if he had an agent in that country who had and habitually exercised a general contracting authority (other than for the purchase of goods or merchandise) in that country. This agency rule does not apply, however, if the agent is a broker, general commission agent, or any other agent of an independent status, provided the agent is acting in the ordinary course of his business.

A company will not be held to have a permanent establishment in one of the countries solely because it controls a company which is a resident of that country.

Article 7. Tangible movable property

With three exceptions, tangible movable (i.e., personal) property, other than currency, is subject to tax in the country in which the property is situated. The first exception is for property which is held for use by a permanent establishment or a fixed base used for the performance of professional services which is located in the other country. This property is subject to tax by the country in which the permanent establishment or fixed base is located.

A second exception is for property owned by an individual who is considered domiciled in the country of which he is a citizen (under the special 5-of-7 or 7-of-10 year rules used in Article 4(3) to determine domicile) if the property is for the normal personal use of that person or his family. Essentially, this property can only be taxed by the country of citizenship.

Finally, ships and aircraft operated in international traffic, and personal property pertaining to the operation of such ships and aircraft, may be taxed by the country in which they are registered. Other ships and aircraft may be taxed by the country whose harbors and airports are most frequently used by the ships and aircraft.

Article 8. Taxation other than pursuant to Articles 5, 6, and 7

This article sets forth the general treaty rule that the country of domicile, as determined under the treaty, has the primary tax jurisdiction over the estates or gifts of its domiciliaries other than the property specifically reserved for situs taxation.

The proposed treaty provides that property, other than real property, assets of a permanent establishment or fixed base, and tangible personal property, may be subject to tax in either of the two countries only if the individual is a citizen or domiciliary of that country and the property is otherwise subject to tax in that country. This provision is explicitly intended to cover corporate stock, debt obligations, other intangible property and currency.

[9] Since the United States does tax based upon citizenship (France does not), there is still the possibility of double taxation if an individual is a U.S. citizen and a French domiciliary. The possibility of double taxation in that situation is, however, alleviated under the tax credit structure established in Article 12.

Article 9. Deduction of debts

The proposed treaty provides that if debts are deductible from the value of property in computing the estate or gift tax of either country, these debts are to be deducted from the gross value of the property subject to tax in that country in the same proportion that such gross value bears to the total gross value of all the property. However, in computing the French tax, debts pertaining to a permanent establishment or a fixed base are to be deducted in total from the assets (other than real property) that relate to the permanent establishment or fixed base. Similarly, debts relating to ships and aircraft, and their movable property, are to be deducted in total from the value of those assets. These debts are to be allowed as a deduction in computing the French tax under the treaty even if they would not be allowed as a deduction under French internal law.

Article 10. Charitable exemptions and deductions

Essentially, this provision allows contributions made to charitable organizations in one country to be exempt from tax in the other country or to be deductible in computing the tax in that other country. This treatment is allowed only if the transfer would be eligible for an exemption or deduction if the charitable organization had been created in the taxing country. Additionally, the charitable organization must have a tax-exempt status in its home country so that payments to it are exempt or fully deductible, it must be organized and operated exclusively for religious, charitable, scientific, literary or educational purposes, and it must receive a substantial part of its support from public or governmental funds. Thus, in computing the French tax, no deduction or exemption is allowed for contributions to a private foundation, even if the contribution would be deductible under U.S. law.

Contributions to governmental organizations will not qualify for exempt or deductible status unless the contribution is specifically limited to one of the tax-exempt purposes enumerated above.

Article 11. Community property and marital deduction

The proposed treaty allows U.S. citizens and domiciliaries to elect to treat property which is subject to the French tax as being community property. Essentially, this means that France will only tax one-half of the gifts made by a person to his spouse and it will only tax one-half of the property that passes from a decedent to his spouse. In both cases, the other one-half is deemed to already belong to the spouse under the elected community property laws.

Reciprocally, French domiciliaries may, in computing their U.S. tax, take the marital deduction that would be allowed to a U.S. domiciliary on November 24, 1978, the date the proposed treaty was signed. Currently, a nondomiciliary does not get a marital deduction, but is entitled to lower tax rates than those applicable to domiciliaries and citizens. If a French domiciliary claims the marital deduction allowed by this article, he is required to compute his tax at the rates [10] applicable to U.S. citizens and domiciliaries. A French domiciliary will be taxed at the rates applicable to nondomiciliaries without a marital deduction, if the tax computed on that basis is lower than the tax computed by allowing a marital deduction and applying the higher rates.

If the laws of either country are modified substantially to reduce the benefits of the community property rules in the case of France or the marital deduction in the case of the United States, the tax authorities of the two countries will consult on whether this provision should be modified or terminated. Actual modification or termination will require termination of the entire treaty (*Article 20*) or other action in accord with the constitutional procedures of each country.

Article 12. Exemptions and credits

Except as otherwise provided in the treaty, each country shall compute its estate or gift tax in accordance with its own laws including the allowance of exemptions, deductions, credits, and other allowances allowed under the country's internal law. In general, double taxation is avoided because France exempts property from taxation that is subject to situs taxation in the United States and because the United States allows a credit for taxes paid to France on property subject to situs taxation in France.

Specifically, real property, assets of a permanent establishment or fixed base, and tangible movable property, which are subject to situs taxation in the United States, as provided for in the proposed treaty, will be completely exempt from tax in France. However, this property will be taken into account in determining the appropriate tax rate applicable to the property which is subject to French taxation (i.e., an exemption with progression).

Correspondingly, the United States will allow a credit against its estate or gift tax for taxes paid to France on property where, under the proposed treaty, the property is subject to situs taxation in France. However, the credit will only be allowed for taxes actually paid to France and the credit is not to exceed the U.S. estate or gift tax attributable to the property. In addition, the credit is in lieu of any other such credits allowed under the laws of the United States.

The United States gives France primary tax jurisdiction over U.S. citizens determined to be French domiciliaries under the treaty. The treaty provides that the United States will give a full tax credit for taxes paid to France by a U.S. citizen who is deemed to be a French domiciliary under the treaty (i.e. the amount of the credit can exceed the amount of the U.S. tax attributable to the property, but it cannot, of course, exceed the U.S. tax on the entire estate). However, if the U.S. tax exceeds the French tax, the excess will be collected by the United States.

The proposed treaty stipulates that the treaty will not increase the amount of tax due to either country under its domestic laws. However, a reduction in the amount of the foreign tax credit allowed by the United States against its estate and gift tax will not be considered to be an increase in tax. This prevents the argument that an individual would have received a higher foreign tax credit without the treaty, because he would have paid more French taxes, and thus should be [11] allowed the higher foreign tax credit even though the treaty reduced his French tax.

Article 13. Time limitations on claims for credit or refund

Under the Internal Revenue Code, a claim for credit or refund of U.S. estate and gift taxes generally must be made within 3 years from the date the return was filed. The proposed treaty provides a period of limitation during which claims for credit or refund of taxes based on the provisions of the treaty may be made which, in some cases, may be longer than that allowed by the Internal Revenue Code. It is provided that a claim for a credit or refund of taxes based on the provisions of the treaty must be made before the expiration of the latest of (1) the period of limitations prescribed under the domestic law of the country to which the claim is made, (2) 5 years from the date of the decedent's death or the date of the gift, or (3) 1 year after final determination and payment of a tax for which a credit is claimed under the treaty (provided the determination and payment occur within 10 years from the date of the decedent's death or the date of the gift).

The proposed treaty follows the approach of other U.S. estate tax treaties and provides that any refund based on the provisions of the treaty is to be made without interest.

Articles 14 and 15. Administrative provisions

The proposed treaty contains various administrative provisions which are generally found in other U.S. tax treaties. In general, the proposed treaty provides—

(1) For consultation and negotiation between the competent authorities of the two countries to resolve differences arising in the interpretation or application of the proposed treaty and also to resolve claims by taxpayers that they are being subjected to taxation contrary to the proposed treaty;

(2) For the exchange between the countries of information pertinent to carrying out the provisions of the proposed treaty or the tax laws of one of the countries, insofar as its taxation is in accordance with the proposed treaty, or to prevent fraud or fiscal

evasion with respect to the taxes covered by the proposed treaty; and

(3) For continuing the tax return and recordkeeping requirements that exist under each country's domestic law, except with respect to U.S. provisions which the Treasury finds are not necessary for the prevention of fraud or fiscal evasion.

Article 16. Assistance in collection

The two countries agree to assist each other in collecting each other's estate and gift taxes. This assistance extends to enforcing assessments that have been finally determined under the law of the requesting country and taking measures of conservancy where the assessment has not been finally determined. The assistance each country is obligated to give is limited to the enforcement measures it can take in enforcing its own assessments.

The assistance provided by a country will not extend to enforcement of assessments against estates of its own citizens.

[12] *Article 17. Diplomatic and consular officials*

The proposed treaty provides that its provisions are not to affect the fiscal privileges which diplomatic and consular officials and officials of international organizations enjoy under the general rules of international law or the provisions of special agreements. It is further provided that the right to tax those persons will be reserved to the country for whom they perform their functions and that these officials are not to be considered domiciled in the country where they are employed. This provision is designed to prevent diplomatic and consular officials of a third country from claiming domicile in either the United States or France so as to bring themselves within the provisions of the convention.

Article 18. Territorial extension

The proposed treaty contains a method similar to that found in some of our other U.S. tax treaties by which the treaty may be extended to any of the Overseas Territories of the French Republic or to any territories for whose international relations the United States is responsible, if the territory imposes taxes substantially similar to those covered by the treaty. The treaty may be extended pursuant to this provision either in its entirety or with necessary modifications. The extension is to be effected in accordance with the constitutional procedures of the two countries. This requirement follows the U.S. Senate's reservation to the territorial extension provision of the income tax treaty between the United States and France.

Any extension of the treaty to an eligible territory of either country may be terminated after one year. Additionally, if the treaty between the two countries is terminated, the termination shall extend to any extensions made under the treaty.

Article 19. Entry into force

The proposed treaty will enter into force on the first day of the second month following the month in which the instruments of ratification are exchanged and will apply to estates of persons dying and to gifts made on or after that date. The existing treaty terminates at that time.

Article 20. Termination

The proposed treaty will continue in force indefinitely but either country may terminate it as of the close of any calendar year which ends at least 5 years after the treaty enters into force. Termination is accomplished by delivering written notice between January 1st and June 30th of that same year.

The proposed treaty can also be terminated if changes in the tax laws of either country result in a substantial alteration of the effects of the treaty. Such termination will occur 6 months after the delivery of notice. A termination under this provision is not subject to the 5-year minimum period previously mentioned.

[13] VIII. TEXT OF RESOLUTION OF RATIFICATION

* * * * *

RESOLUTION OF RATIFICATION

Resolved (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Convention Between the United States of America and the French Republic for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Estates, Inheritances and Gifts, done at Washington on November 24, 1978 (Ex. J, Ninety-sixth Congress, first session).

[58] APPENDIX C

WRITTEN RESPONSES BY TREASURY TO QUESTIONS BY THE COMMITTEE STAFF

DEPARTMENT OF THE TREASURY,
Washington, D.C., June 8, 1979.

Hon. FRANK CHURCH,
Chairman, Committee on Foreign Relations,
U.S. Senate
Washington, D.C.

DEAR MR. CHAIRMAN: To follow-up my testimony at the June 6 hearings concerning the six tax conventions or protocols involving the United Kingdom, France, Hungary and Korea, I want to assure you that Article I of the Third Protocol of the proposed US-UK Income Tax Treaty gives full effect to the Senate's reservation on Article 9(4) of that treaty. Let me also assure you that there is no similar state tax issue in any of the other five treaties which were considered by the Committee yesterday.

Again let me emphasize our view that each of these treaties is impor-

tant to the United States and that their prompt approval is desirable.

I am also enclosing answers to the written questions submitted to me by your staff at the hearings as well as copies of my answers to questions from Senator Helms and Senator Javits.

Sincerely,

DONALD C. LUBICK,
Assistant Secretary (Tax Policy).

Enclosures.

QUESTIONS FOR ASSISTANT SECRETARY FOR TAX POLICY DONALD C. LUBICK [1]

* * * * *

[60] QUESTIONS ON UNITED STATES-FRANCE ESTATE AND GIFT TAX TREATY

Question 1. The proposed Convention is an extension of the Foreign Investors Tax Act of 1966 [Pub. L. 89-809, 1966-2 C.B. 656], could you please describe the benefits, as you see them, that the U.S. has derived from the 1966 Act as well as the first convention under the Act with the Netherlands [1967-2 C.B. 472]?

Answer. The proposed Convention is not really an "extension" of the Foreign Investors Tax Act of 1966. It is a Convention which modifies the provisions of the convention currently in force between two parties in order to harmonize the treaty arrangement with the provisions of the 1966 Act.

The primary objective of the 1966 Act was to remove or reduce barriers created by the tax system to the free flow of foreign capital into the United States. The estate tax provisions of the Act lowered the tax rate imposed upon the estates of foreigners who owned U.S. property at their death. The primary achievement of the statute was [61] to lessen tax barriers to the inflow of foreign capital into the United States.

The primary achievement of the Netherlands Convention from the perspective of the United States was the agreement by the Netherlands to the special rules which deem a U.S. citizen a domiciliary of the U.S. if he is deemed domiciled in both countries at the time of his death, but if he has not lived in the Netherlands more than 7 of the 10 years ending with his death. This ensures that American citizens living in the Netherlands will not be subject to Netherlands estate tax unless they have formed an intent to stay in the Netherlands, or have lived there a long time. This is of substantial importance to U.S. companies doing business in the Netherlands, since it permits them to assign their executives to the Netherlands without the employees becoming subject, simply by virtue of living in the Netherlands for a short time, to Netherlands estate taxes.

Question 2. A major feature of the proposed convention is the use of a five year time period that will be the basis for determining the domicile of a taxpayer. Could you explain the reason the five year time period was selected?

Answer. The five-year period is relevant only in cases where each State under its own law considers an individual to be its own domiciliary at the same time. The five-year period is irrelevant to the determination of domicile under domestic law, and comes into play only after such a determination has been made in each State. It also applies only if the person is a citizen of only one of the Contracting States.

The five-year period (or the 5-of-7 rule of Article 4(3) of the Convention) was the product of bargaining between the parties. The official U.S. position, reflected in the model treaty and the U.S.-Netherlands treaty, is that a person should have to live in a country other than that of his citizenship 7 of 10 years before his death to be subject to the new country's death taxes. The French position was that only the "tie-breaker" rules of Article 4(2) should be used for any case of "double domicile," regardless of the fact that the person was a citizen of only one Contracting State. The 5-of-7 rule represents a compromise between the two positions.

The 7-of-10 year rule of the model is based upon a balancing of concerns for determining which State should have the right to tax the lifetime accumulation of an individual. In general, the U.S. believes that the momentary circumstance of residence at death should not be controlling, particularly where a citizen of one country is residing abroad, and doing so only for a short time. The U.S. believes, however, that if a person lives in a country for a substantial period of time, at some point that country acquires a legitimate claim to tax the person's lifetime accumulation, even if the person is not a citizen of the country and does not intend to remain there forever.

Question 3. Would you detail the number of individuals affected by the proposed Convention and the revenue that will be received by the Treasury as a result of the proposed Convention? In addition, would you, for the record, submit estimated cost to the Department of Treasury, IRS, or other U.S. Government entities responsible for enforcing the terms of the Convention?

[62] *Answer.* It is impossible to determine which individuals will be affected by the proposed Convention, since that depends upon the domicile of individuals at the time of their death or their gifts, and upon what property such individuals own at such times. The Treasury does not have statistics on the number of U.S. citizens living in France or French citi-

[1] General questions and answers 1-5 may be found in Senate Executive Report 96-6, 1980-1 C.B. 375. The questions and answers relating specifically to the other protocols and treaties considered at the June 6, 1979, hearings are set forth in the committee reports relating to those treaties.

zens living in the United States, who might be affected by the domicile determination rules of the Convention; nor does it have reliable data concerning the amount of U.S. situs property held by French domiciliaries, or French situs property held by U.S. domiciliaries, the taxation of which might be affected by the allocation of tax jurisdiction effected by the Convention.

The Treasury believes, however, that the Convention will not have a substantial revenue effect. This is because the Convention embodies a balance of concessions by the two sides, respective revenue effects of which are likely to cancel each other out. For instance, the Convention's domicile rules enable the U.S. to tax its citizens living in France if they have not lived there more than 5 of 7 years: to this extent, it is likely to result in a slight revenue gain to the U.S. On the other hand, the Convention also restricts the rights of the U.S. to tax certain intangible U.S. property owned by French persons at the time of death; to this extent, it probably involves some revenue cost to the U.S. To the extent the Convention as a whole eliminates barriers created by potential double taxation to the free flow of goods, persons, and capital between the two countries, it probably results in a slight revenue gain to each country.

The Convention should not involve appreciable administrative costs to the U.S. Government. The rules of the Convention apply to estates, gifts, and generation-skipping transfers which even in the absence of the Convention would be subject to U.S. statutory law, and would therefore have to be subject to return requirements, audit and collection procedures, and the like, under statutory law. The Convention only results in substitute or supplementary legal rules governing the taxation of such transfers, and as such should not result in any measurable administrative costs.

* * * * *

TECHNICAL EXPLANATION [1] OF THE CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND THE FRENCH REPUBLIC FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON ESTATES, INHERITANCES, AND GIFTS, SIGNED AT WASHINGTON ON NOVEMBER 24, 1978 [2]

Introduction

The Estate and Gift Tax Convention with France is the second such Convention signed by the United States since U.S. estate and gift tax laws were substantially modified in the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1]. Modification included combining the separate estate and gift tax rates into a single rate schedule, substituting a unified credit for the former separate estate and gift tax exemptions, and imposing a tax on generation-skipping transfers. The Convention will replace the existing estate tax convention between the two countries, which has been in force since 1946 [1956-1 C.B. 837].

The Convention is similar to the United States Estate Tax Convention with the Netherlands [1976-1 C.B. 471], which entered into force in 1971, and to the United States Model Estate and Gift Tax Convention published by the Treasury Department on March 16, 1977. The Convention is also based, in part, on the provisions of the Model Estate Tax Convention (Draft Double Taxation Convention on Estates and Inheritances) of the Organization for Economic Cooperation and Development (OECD), published in 1966.

The general principle underlying the Convention is that the primary right to tax the worldwide estate, gifts, or generation-skipping transfers of a decedent, donor, or deemed transferor should lie with the country of domicile. Property situated in the other State is either exempted from tax in that State or the tax levied by that State is allowed as a credit in the State of domicile. Immovable (real) property, certain business assets, and certain categories of tangible movable (personal) property are the types of property that are taxable in the State of situs. The Convention also contemplates that the United States will impose a tax on the worldwide property of its citizens, but that it will allow a credit for taxes paid to France by any person who was a domiciliary of France at the time of death, or at the time of a gift or generation-skipping transfer.

CHAPTER I
SCOPE OF THE CONVENTION

Article 1. Estates and Gifts Covered

This article describes the transfers of estates or by gift or generation-skipping transfer that are subject to the provisions of the Convention. Paragraph (1) provides that the Convention applies to estates of decedents whose domicile at death was in France, and to estates of decedents which are subject to the taxing jurisdiction of the United States by reason of the decedent's domicile in, or citizenship of, the United States at the time of death. The Convention does not apply to transfers of estates of decedents who were citizens of France at the time of their death, if they were not domiciled in France or the United States at that time. Under paragraph (1), the Convention applies to genera-

[1] It is the practice of the Treasury Department to prepare for the use of the Senate and other interested persons a Technical Explanation of the tax conventions which are submitted to the Senate for its advice and consent to ratification.

An estate, inheritance, and gift tax convention with France was signed on November 24, 1978, and submitted by the President to the Senate on February 9, 1979. On June 6, 1979, The Senate Committee on Foreign Relations held hearings and this Technical Explanation was presented. The Senate voted its advice and consent on July 9, 1979, and instruments of ratification were exchanged on August 7, 1980.

[2] Page 391; pertinent excerpts from Senate Executive Report No. 96-3, page 397; Senate Executive J is not published.

tion-skipping transfers deemed to occur at or after the death of the deemed transferor, if the deemed transferor was a citizen or domiciliary of the United States at the time of his death.

Paragraph (2) provides that the Convention applies to gifts of donors whose domicile at the time of making the gift was in France, and to gifts subject to the taxing jurisdiction of the United States by reason of the donor's domicile in, or citizenship of, the United States at the time of the gift. The Convention does not apply to gifts made by persons who were citizens of France, but not domiciled in either France or the United States, at the time of the making of the gift. Under paragraph (2), the Convention applies to transfers deemed to occur under the U.S. generation-skipping transfer tax at a time before the death of a deemed transferor, if the deemed transferor was a domiciliary or citizen of the United States at that time.

Paragraph (3) provides that a person who is at the time of his death or the making of a gift a resident of a possession of the United States, and who acquired U.S. citizenship solely by being a citizen of such U.S. possession, or by birth or residence within such possession, is considered as being neither domiciled in, nor a citizen of, the U.S. for purposes of the Convention. Under sections 2208 and 2209 of the Internal Revenue Code, such persons are treated as nonresidents not citizens of the United States for purposes of U.S. estate, gift, and generation-skipping transfer taxes, and therefore are not subject to such taxes on their worldwide property.

Article 2. Taxes Covered

Paragraph (1) identifies the taxes covered by the Convention. In the case of the United States, the Convention applies to the Federal gift tax and the Federal estate tax, including the tax on generation-skipping transfers. In the case of France, the Convention applies to the duty on gifts and the duty levied on succession. The Convention does not apply to any state, sub-Federal, or local taxes imposed in either Contracting State.

Paragraph (2) provides that the Convention also applies to any substantially similar taxes which are subsequently enacted in addition to, or in place of, the existing taxes. Under paragraph (3), the competent authorities of the Contracting States are required to notify each other of substantial changes in their respective laws relating to the taxation of estates and gifts.

Article 3. General Definitions

Paragraph (1) defines the terms "Contracting State" and "other Contracting States," "United States," "France," "enterprise," "tax," and "competent authority." The term "United States" does not include Puerto Rico, the Virgin Islands, Guam, or any other U.S. possession or territory. The term "France" includes the overseas departments of the French Republic.

Paragraph (2) provides that any term not otherwise defined in the Convention shall, unless the context otherwise requires, have the meaning which that term has under the tax laws of the Contracting State whose tax is being determined. If, however, the meaning of a term under the laws of one of the Contracting States is different from the meaning of the term under the laws of the other State, the two States may, in order to prevent double taxation or to further any other purpose of the Convention, establish a common meaning for purposes of the Convention.

Article 4. Fiscal Domicile

This Article sets forth rules for determining "domicile" for purposes of the Convention. The determination of a single fiscal domicile for Convention purposes is important, because the country of domicile has the primary right to tax the worldwide estate, gifts, or other transfers of a decedent, donor, or deemed transferor, with the exception of property covered by Articles 5 (Immovable (Real) Property), 6 (Business Property of a Permanent Establishment and Assets Pertaining to a Fixed Base Used for the Performance of Professional Services), and 7 (Tangible Movable Property).

Under paragraph (1), domicile is determined in the first instance under the domestic law of the respective Contracting States. Paragraphs (2) and (3) set forth rules for resolving cases of double domicile—where each State considers a person domiciled in that State under its domestic law. Under paragraph (2) such a person is deemed domiciled in the Contracting State in which he maintained his permanent home. If he has a permanent home in both Contracting States or in neither State, he is deemed domiciled in the Contracting State with which his personal relations were closest (his center of vital interests). If his center of vital interests cannot be determined, his domicile is deemed to be in the State in which he had an habitual abode. If he had an habitual abode in both Contracting States or neither of them, his domicile is deemed to be in the State of which he was a citizen. If he was a citizen of neither Contracting State or of both, his domicile is to be determined by the competent authorities by mutual agreement.

Paragraph (3) provides special rules for cases of double domicile with respect to individuals who were citizens of only one of the Contracting States. These special rules override the general rules of paragraph (2). Paragraph (3)(a) provides that such an individual shall be deemed domiciled in the Contracting State of which he was a citizen if he had a clear intention of retaining his domicile in that State, and if he was domiciled in the other Contracting State in the aggregate less than 5 years during the 7-year period ending on the date of his death or the making of a gift. In the case of a generation-skipping transfer, the relevant 7-year period ends with the year during which the transfer is deemed made, in the case of a transfer deemed made before the death of the deemed transferor, and with the year of death, in the event a transfer is

deemed made at or after the death of the deemed transferor. Paragraph (3) (b) provides that an individual with "double domicile" but "single citizenship" shall be deemed domiciled in the Contracting State of which he was a citizen, even in the absence of a clear intention of retaining his domicile in that State, if he was domiciled in the other Contracting State in the aggregate less than 5 years during the 7-year period ending with the year of his death or the making of a gift, provided he was in the other State by reason of an assignment of employment or as the spouse or other dependent of a person present in that State for such a purpose; or if he was domiciled in the other Contracting State in the aggregate less than 7 years during the 10-year period ending with the year of his death or the making of a gift, provided he was in the other State by reason of a renewal of an assignment of employment, or as the spouse or other dependent of a person present in the other State for such a purpose. These domicile rules are reciprocal.

If the rules of paragraph (3) do not apply to an individual who would be deemed under paragraph (1) to be domiciled in both Contracting States, but who is a citizen of only one of the Contracting States, then that individual's domicile shall be determined in accordance with the rules of paragraph (2).

CHAPTER III
TAXING RULES

Article 5. Immovable (Real) Property

This Article provides that immovable property may be taxed in a Contracting State if such property is situated in that State. The term "immovable (real) property" is defined in accordance with the tax laws of the Contracting State in which such property is situated.

Under paragraph (3), the provisions of Article 5 apply to property which forms part of the business property of a permanent establishment or is used for the performance of professional services or other independent activities of a similar character. For example, real property situated in France owned by a domiciliary of France not a citizen of the U.S. which formed part of the business property of a permanent establishment in the United States would be subject to tax in France and not in the United States.

Article 6. Business Property of a Permanent Establishment and Assets Pertaining to a Fixed Base Used for the Performance of Professional Services

Paragraph (1) establishes the general rule that, except as provided in Article 5 (Immovable (Real) Property), and with the exception of ships and aircraft operated in international traffic and movable property pertaining to the operation of such ships and aircraft, assets forming part of the business property of a permanent establishment of an enterprise may be taxed by a Contracting State if the permanent establishment is situated in that State.

Paragraph (2) defines the term "permanent establishment" as a fixed place of business through which the business of an enterprise is wholly or partly carried on. The definition is substantially similar to the definition of "permanent establishment" in Article 4 of the Income Tax Convention between the United States and the French Republic signed on July 28, 1967 [1968-2 C.B. 691, 693]. Illustrations in paragraph (3) of a permanent establishment include a branch; an office; a factory; a workshop; a warehouse; a mine, quarry, or other place of extraction of natural resources; and a building site or construction or installation project which lasts for more than twelve months. The twelve month period for a construction or installation project begins when work physically commences in the other Contracting State. A series of contracts or projects which are interdependent both commercially and geographically is to be treated as a single project for the purpose of applying the twelve-months test.

Paragraph (4) provides that a permanent establishment does not include: the use of facilities solely for the purpose of storage, display, or delivery of goods or merchandise belonging to the enterprise; the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of processing by another enterprise; the maintenance of a fixed place of business solely for the purpose of purchasing goods or merchandise, or of collecting information, for the enterprise; the maintenance of a fixed place of business solely for the purpose of advertising, supplying information, conducting scientific research, or similar activities which have a preparatory or auxiliary character; or the maintenance of a fixed place of business solely for investment purposes (and not for purposes of engaging in industrial or commercial activity) of an individual, whether by the individual or his employees or through a broker or other agent. These exceptions are cumulative; a fixed place of business used solely for one or more of these purposes will not be considered a permanent establishment under the Convention.

Under paragraph (5), a person, other than an agent of an independent status to whom paragraph (4)(f) or (6) applies, acting in one Contracting State on behalf of an enterprise of the other Contracting State, will be deemed to constitute a permanent establishment if such person has, and habitually exercises in this first-mentioned Contracting State, an authority to conclude contracts in the name of the enterprise, unless that person's activities are limited to the purchase of goods or merchandise for the enterprise.

On the other hand, paragraph (6) provides that an enterprise of one Contracting State will not be deemed to have a permanent establishment in the other Contracting State merely because such enterprise carries on business in the other Contracting State through a broker, general commission agent, or

any other agent of an independent status, where the broker or agent is acting in the ordinary course of his business.

Under paragraph (7), the fact that an enterprise controls a corporation which is engaged in industrial or commercial activity in a Contracting State (whether through a permanent establishment or otherwise) is not to be taken into account in determining whether the enterprise had a permanent establishment in that State.

Paragraph (8) provides that, except for assets described in Article 5 (Immovable (Real) Property), assets pertaining to a fixed base used for the performance of independent personal services may be taxed by a Contracting State if the fixed base is situated in that State.

Article 7. Tangible Movable Property

Under paragraph (1), tangible movable property other than currency may be taxed by a Contracting State if the property is situated in that State, and if the property does not form part of the business assets of a permanent establishment situated in the other Contracting State. Tangible movable property for purposes of the wealth transfer taxes imposed by the United States includes whatever property would be considered tangible property under section 2501(a)(2) of the Internal Revenue Code other than property which would be considered real property. Paragraph (1) provides that tangible movable property which is in transit is to be considered situated at the place of its destination.

Under paragraph (2), notwithstanding the provisions of paragraph (1), tangible movable property owned by an individual referred to in paragraph (3) of Article 4 and used for that person's normal personal use or that of his family may be taxed only by the Contracting State in which the individual was domiciled. Under this paragraph, personal property owned by a person who has "double domicile" but who is taxable in the state of his citizenship by virtue of Article 4(3) will be taxable only in the State of citizenship.

Under paragraph (3), notwithstanding paragraph (1), ships and aircraft operated in international traffic, and movable property pertaining to the operation of such ships and aircraft, may be taxed by a Contracting State if the ship or aircraft is registered in that Contracting State. In addition, a ship or aircraft not registered in a Contracting State may be taxed by a Contracting State if the harbors or airports most frequently used by such ship or aircraft are situated in that State.

Article 8. Taxation Other Than Pursuant to Articles 5, 6 and 7

Article 8 states that, except as provided in Articles 5, 6, and 7, property, including shares of stock in a corporation, debt obligations (whether or not there is written evidence of such obligations), other intangible property, and currency may be taxed by a Contracting State only if the decedent or donor was a citizen of, or was domiciled in, that State at the time of death or the making of the gift, and only if the transfer was taxable by that State under its law. The proviso that the transfer must be taxable under the law of the State of domicile or citizenship is intended to ensure that the Convention not be interpreted as permitting a tax not contemplated by internal law.

Article 9. Deduction of Debts

Under paragraph (1), debts, to the extent they are deductible according to the internal law of a Contracting State, are to be deducted from the gross value of property which may be taxed by that State in the proportion that that gross value bears to the gross value of the entire property wherever situated. Under U.S. law, the proration required by paragraph (1) will be made only with respect to transfers of estates of decedents and generation-skipping transfers deemed to occur at or after the death of the deemed transferor. U.S. gift tax law, which in these respects also supplies the law applicable to generation-skipping transfers deemed to occur before the death of the deemed transferor, does not provide a deduction for debts. However, if a donee of a gift, or a transferee of a deemed generation-skipping transfer, assumes a liability in connection with a gift or transfer, the value of the gift or transfer subject to tax will ordinarily be the value of the property transferred net of the liability assumed.

Paragraph (2)(a) provides that, notwithstanding paragraph (1), for purposes of determining French tax debts pertaining to a permanent establishment or to a fixed base used for the performance of independent personal services are to be deducted from the value of assets referred to in Article 6. These deductions are to be allowed, regardless of whether they would be allowed according to French internal law. Under paragraph (2)(b), again notwithstanding paragraph (1), for purposes of determining French tax debts pertaining to ships and aircraft operated in international traffic and to movable property related to the operation of such ships and aircraft are to be deducted from the value of the property to which such debts pertain. These deductions too are to be allowed regardless of whether they would be allowed according to French internal law.

Article 10. Charitable Exemptions and Deductions

Under paragraph (1), a transfer to a legal entity created or organized in a Contracting State is exempt from tax, or fully deductible from the gross value liable to tax, in the other Contracting State, with respect to taxes referred to in Article 2, if the transfer would be eligible for such exemption or deduction if the legal entity had been created or organized in the other Contracting State. Under paragraph (2), the provisions of paragraph (1) apply only if the legal entity to which property is transferred (a) has tax exempt status in the State in which it is created or organized by reason of which transfers to it are exempt or fully deductible from the taxes described in Article 2; (b) is organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes; and (c) receives a substantial part of

its support from contributions from the public or from government funds. Under paragraph (3), the provisions of Article 10 apply to transfers to a Contracting State or a political or administrative subdivision of a Contracting State only if the transfers are specifically limited to a religious, charitable, scientific, literary, or educational purpose.

The provisions of Article 10 apply to estates, gifts, and generation-skipping transfers regardless of where the property transferred is situated. In addition, Article 10 requires a Contracting State to exempt or give a full deduction for property situated in that Contracting State transferred by a person who is a domiciliary of that State, if the property is transferred to an entity of the other Contracting State which meets the conditions set forth in paragraphs (1) and (2).

Article 11. Community Property and Marital Deduction

Under paragraph (1), property (other than community property) which was acquired during marriage for consideration by an individual who at the time of death or the making of a gift was domiciled in or a citizen of the United States, and which passes to the spouse, and which under the Convention is taxable by France, whether by virtue of Article 5, 6, or 7 or by virtue of the fact that the individual was domiciled in France, is treated as if it were community property, unless the spouses have elected expressly to have the property treated other than as community property under French civil law.

Under paragraph (2), in the case of an individual domiciled in France, there must be allowed, for purposes of determining the United States tax upon property taxable by the United States under Articles 5, 6, or 7, a marital deduction computed and applied in the manner in which a marital deduction claimed by an individual who was domiciled in the United States would be computed and applied under the law in effect on November 24, 1978. If such deduction is claimed and allowed, the rate of tax imposed upon the property is to be the rate which would be imposed under the law in effect on the date of transfer to transfers by U.S. domiciliaries. If the tax determined without a marital deduction, and with the application of rates applicable under United States law to nonresidents not citizens of the U.S., is lower than the tax resulting from the application of the rule of the first sentence of paragraph (2), then the lower tax shall be the amount due.

The rationale for paragraph (2) derives from modification of internal U.S. law governing the taxation of the estates of nonresidents not citizens of the United States by the Foreign Investors Tax Act of 1966. In adopting that law, Congress was cognizant of the facts that many foreign countries had estate tax rates substantially lower than the U.S., but that the effect of these lower rates was counteracted to some extent by the fact that many of these countries did not allow a marital deduction comparable to that permitted under U.S. law. In order to create more parallel treatment between U.S. and foreign laws with respect to the estates of nonresidents who were not U.S. citizens, Congress adopted a separate rate schedule applicable to such estates, and did not provide a marital deduction for such estates. The rate schedule was substantially lower than that applicable to the estates of citizens and residents. Paragraph (2) assures to domiciliaries of France that they will receive the more favorable of the two forms of treatment—lower rates with no marital deduction, or higher rates with a marital deduction. The benefit conferred by this paragraph is matched by the benefit conferred by France on U.S. citizens and domiciliaries under paragraph (1), under which France has agreed to give community property treatment to all property acquired for consideration after marriage which passes from one spouse to another. This treatment accomplishes substantially the equivalent of a marital deduction on all after-acquired property subject to tax by France under the Convention.

Under paragraph (3), the competent authorities are required to consult to determine whether Article 11 shall be modified or cease to have effect in the event the laws of either Contracting State are changed substantially to reduce the benefits of marital deduction or community property provisions.*

* Corrected.

CHAPTER IV
RELIEF FROM DOUBLE TAXATION

Article 12. Exemptions and Credits

Under paragraph (1), each Contracting State is required, except as otherwise provided in the Convention, to impose its tax, and to allow exemptions, deductions, credits, and other allowances, in accordance with its own internal laws.

Paragraph (2) provides specific rules for relieving double taxation. Under paragraph (2)(a), property which may be taxed by the United States in accordance with Article 5, 6, or 7, is exempted from French tax. However, French tax with respect to property which is taxable by France in accordance with the Convention is to be computed at the rate appropriate to the total of property taxable under French law. Thus, the Convention provides for "exemption under progression" with respect to French tax for property that remains subject to taxation by France under the Convention.

Under paragraph (2)(b)(i), where both States impose a tax with respect to property which is taxable by France in accordance with Articles 5, 6, or 7, the United States must allow a credit equal to the amount of the tax imposed by France with respect to such property. Under paragraph (2)(b)(ii), notwithstanding the provisions of paragraph (2)(b)(i), the total amount of all credits allowed by the United States pursuant to Article 12 or pursuant to its own laws or other conventions with respect to all property in respect of which a foreign tax credit is allowable under subparagraph

(i) of paragraph (2)(b) is not to exceed that part of the United States tax which is attributable to such property. The part of the tax deemed to be so attributable is to be determined in accordance with the principles of section 2014(b)(2) of the Code and section 20.2014-3 of the Estate Tax Regulations. Under paragraph (2)(b)(iii), the credits for tax imposed by France under Article 10(2) are in lieu of, and not in addition to, any credits for such taxes allowed by the internal law of the United States.

Under paragraph (3), if a decedent, donor or deemed transferor was a citizen of the United States at the time of his death or the making of a gift, and such person is considered under Article 4 as having been domiciled in France, the United States must allow a credit equal to the amount of the tax imposed by France. There is no limitation imposed upon the credit which must be allowed under paragraph (3), except that the amount must be an amount of tax paid to France.

Under paragraph (4), exemptions and credits required by Article 12 are to be tentatively allowed by the United States on the basis of statements made in the tax return as to the amount of any tax paid or payable to France. Such exemptions and credits, however, are not finally allowed until such tax for which the exemption or credit is allowable has actually been paid. Under this provision, interest and penalties for underpayments of tax may not be assessed by the United States for any underpayments attributable to a claim for a credit or exemption required under Article 12 if at the time payment of the tax for which the credit or exemption is claimed is not due to France. Interest and penalties may be assessed, however, from such time as tax is due and payable to France, if at such time the amount of tax due and payable is less than the amount of the credit claimed.

Under paragraph (5), the provisions of the Convention may not result in an increase in the amount of the tax imposed by either Contracting State under its domestic laws. A reduction in the credit allowed against United States tax for tax paid to France, which reduction results from the application of the Convention, is not for these purposes to be construed as an increase in tax.

CHAPTER V
SPECIAL PROVISIONS

Article 13. Time Limitations on Claims for Credit or Refund

Under paragraph (1), a claim for credit or for refund of tax founded on the provisions of the Convention must be made before the latest of three dates specified in paragraph (1). The three dates are (1) the time for the making of a claim for refund of tax specified under the internal law of the Contracting State to which the claim for refund or credit is made; (2) five years from the date of death of the decedent, or from the making of a gift with respect to which the claim is made; or (3) one year after final determination (administrative or judicial) and payment of tax for which any credit under Article 12 is claimed, provided that the determination and payment are made within 10 years of the date of death of the decedent or the making of the gift. Under paragraph (2), any refund based on the provisions of the Convention is to be made without payment of interest on the amount refunded.

Article 14. Mutual Agreement

Article 14 provides for competent authority procedures to ensure taxation in accordance with the Convention, and for other purposes. Under paragraph (1), any person who considers that the actions of one or both Contracting States results or will result in taxation not in accordance with the Convention may, notwithstanding remedies provided by the internal law of the Contracting States, present his case to the competent authority of either Contracting State. Such a presentation must be made within the time period specified by Article 13(1) for filing a claim for refund. If the person's claim is considered to have merit by the competent authority to which the claim is made, that authority is required to seek agreement with the competent authority of the other Contracting State with a view to avoiding taxation contrary to the provisions of the Convention.

Under paragraph (2), the competent authorities are to resolve by mutual agreement any difficulties or doubts arising as to the application of the Convention.

Under paragraph (3), the competent authorities of the Contracting States may communicate with each other directly for the purpose of reaching an agreement under Article 14. When it seems to them advisable, the competent authorities are empowered to meet together for an oral exchange of opinions.

Under paragraph (4), when the competent authorities reach an agreement for the purpose of avoiding taxation not in accordance with the Convention, taxes are to be imposed, and refund or credit of taxes to be allowed in accordance with the agreement, notwithstanding any procedural rule (including the statute of limitations) applicable under the laws of either Contracting State. Under this paragraph, an agreement between the competent authorities is to be implemented notwithstanding time limitations imposed by the internal law of the Contracting States, and notwithstanding the time limitations for filing a claim for refund or credit imposed by Article 13.

Under paragraph (5), the competent authorities of the Contracting States are permitted to prescribe any regulations and forms as may be necessary or appropriate to give effect to and implement the Convention.

Article 15. Filing of Returns and Exchange of Information

Paragraph (1) preserves obligations to file returns or transfer certificates or notices, or to maintain records, imposed by the internal law of each State, notwithstanding alterations of

substantive taxing jurisdiction made by the Convention. Under paragraph (1)(a), the provisions of Articles 5, 6, 7, and 8 which change the taxability or situs of property or the amount of tax which would have been due in the absence of the Convention, do not change (i) the requirements of the respective tax laws of the Contracting States relating to information or tax returns or notices, transfer certificates, or maintenance of records; or (ii) the applicability and amount of any sanctions of such laws with respect to those requirements.

Under paragraph (1)(a)(i), the executor of a French domiciliary whose estate included property which would be considered situated in the United States under United States internal law would be required to file a tax return with respect to such property, even if the property is not subject to taxation by the United States by reason of Article 8, and even though property not subject to taxation by the United States by reason of Article 8 is the only property in the estate that is situated in the United States. Under paragraph (1)(b), as concerns the United States and notwithstanding the provisions of paragraph (1)(a), requirements or sanctions found to be unnecessary for the prevention of fraud or fiscal evasion with respect to taxes to which this Convention applies may be eliminated or modified (but not made more burdensome) by regulations prescribed pursuant to paragraph (5) of Article 14. Under this paragraph, the Treasury Department will be empowered, through published regulations, to vary the requirements of U.S. statutory law with respect to filing of tax or information returns, or maintenance of records or transfer certificates, if it finds any such requirements unnecessary for the prevention of fraud or fiscal evasion with respect to taxes covered by this Convention.

Under paragraph (2), the competent authority of each Contracting State is required to exchange information with the competent authority of the other Contracting State. Two categories of information are required to be exchanged: (a) information pertinent to carrying out the provisions of the Convention or the laws of the other Contracting State concerning the taxes subject to the Convention, insofar as taxation under those laws is in accordance with the Convention; or (b) information pertinent to preventing fraud or fiscal evasion in relation to the taxes which are the subject of the Convention, including information in the possession of a Contracting State with respect to property not subject to taxation by that State by reason of Article 8. The paragraph contains a proviso to the effect that the competent authority of a Contracting State is not required to furnish information not in the possession of that State with respect to property exempted from that State's tax by reason of Article 8. Thus, a competent authority is not required to gather information from sources outside its government concerning exempt property. The competent authority is required to furnish information in its own possesion, or in the possession of other agencies of the Contracting State, concerning such property. Paragraph (2) further provides that any information furnished must be treated as secret by the recipient State. Such information may not be disclosed to persons other than those concerned with assessment, collection, enforcement, or prosecution in respect of the taxes which are the subject of the Convention. Such persons include a court or administrative body.

Under paragraph (3), the provisions of paragraph (2) are in no case to be construed so as to impose upon a Contracting State obligations (a) to carry out administrative measures at variance with its own laws or administrative practices, or those of the other Contracting State; (b) to supply particulars which are not obtainable under its laws or in the normal course of its administration, or that of the other Contracting State; or (c) to supply information which would tend to disclose any trade, business, industrial, commercial, or professional secret or trade process, or information the disclosure of which would be contrary to public policy.

Under paragraph (4), the furnishing of information may be either on a routine basis, or on request with reference to particular cases. The competent authorities are required to agree on a list of information to be subject to routine exchange.

Article 16. Assistance in Collection

Under paragraph (1), each Contracting State undertakes to lend assistance and support to the other in the collection of the taxes subject to the Convention, as well as interest, costs, and additions to the taxes and fines not of a penal character. This assistance is to be provided only in cases where the taxes are definitively due according to the laws of the applicant State.

Under paragraph (2), in the case of an application for the enforcement of taxes, revenue claims of each of the Contracting States which have been finally determined will be accepted for enforcement by the State to which application is made, and shall be collected in that State in accordance with the laws applicable to the enforcement and collection of its own taxes.

Under paragraph (3), an application under Article 16 must be accompanied by such documents as are required by the laws of the State making the application to establish that the taxes have been finally determined.

Under paragraph (4), if a revenue claim has not been finally determined, the State to which application is made is required to take such measures of conservancy, including measures applicable with respect to transfers of property belonging to nonresident aliens, as are authorized by its own laws for the enforcement of its own taxes.

Under paragraph (5), the assistance in collection available under Article 16 is not to be accorded with respect to estates of citizens of the Contracting State to which application is made.

Article 17. Diplomatic and Consular Officials

Article 17 preserves such rights as each Contracting State has to impose wealth transfer taxes upon its diplomatic and consular officials. Under paragraph (1), nothing in the Convention is to affect the fiscal privileges of diplomatic or consular officials under the general rules of international law or under the provisions of special agreements. Under paragraph (2), insofar as such privileges prevent the imposition of tax in a receiving Contracting State, the right to tax is reserved to the Contracting State in whose service the persons concerned exercised their functions and, notwithstanding any other provisions of the Convention, such persons are not to be deemed to have been domiciled in the receiving State.

Article 18. Territorial Extension

Under paragraph (1), the Convention may be extended, either in its entirety or with necessary modifications, to all or any of the Overseas Territories of the French Republic or the territories for whose international relations the United States is responsible, if the territory to which the Convention is to be extended imposes taxes substantially similar in character to those referred to in Article 2. Any such extension is permitted to take effect from such date and subject to such modifications and conditions as may be specified and agreed between the Contracting States in notes to be exchanged through diplomatic channels or in any other manner in accordance with the constitutional procedures of the Contracting States. In the case of the United States, extension of the Convention to one of its territories or to a territory of France must be accomplished in accordance with the procedure required by Article II, Section 2, of the Constitution of the United States, which requires that the President secure the advice and consent of a two-thirds vote of the Senate of the United States as a prerequisite to ratification of a treaty.

Under paragraph (2), at any time after the expiration of a period of 1 year from the effective date of an extension made by virtue of paragraph (1), either of the Contracting States is permitted, by written notice of termination given to the other Contracting State through diplomatic channels, to terminate the application of the provisions of the Convention with respect to any territory to which it has been extended. If such notice is given, the Convention shall cease to be applicable to such territory on and after the first day of January following the date of such notice.

Under paragraph (3), unless it is otherwise agreed by both Contracting States, the termination of the Convention by one of the Contracting States under Article 20 will also terminate the application of the Convention to any territory to which it has been extended under Article 18.

CHAPTER VI.
FINAL PROVISIONS

Article 19. Entry into Force

Under paragraph (1), the Convention is required to be ratified, and instruments of ratification are to be exchanged at Paris as soon as possible.

Under paragraph (2), the Convention will enter into force on the first day of the second month following the month in which the exchange of instruments of ratification takes place. The provisions of the Convention are to apply to estates of persons dying, to gifts made, and to generation-skipping transfers deemed to occur, on or after the date on which the Convention enters into force.

Under paragraph (3), the Convention of October 18, 1946, as modified by the Protocol of May 17, 1948, and the Convention of June 22, 1956, shall be terminated on, and shall cease to have effect from, the date on which this Convention enters into force according to paragraph (2).

Article 20. Termination

Under paragraph (1), the Convention is to remain in force until it is terminated by one of the Contracting States. However, not earlier than the fifth year following the year in which the Convention enters into force, either Contracting State is permitted, between January 1 and June 30 of any year, to give written notice of termination, through diplomatic channels. Such written notice will terminate the Convention, effective from the end of the calendar year in which the notice is given. In the event of termination, the provisions of the Convention are not to apply to estates of persons dying, to gifts made, or to generation-skipping transfers deemed to occur, on or after the end of the calendar year with respect to the end of which the Convention is terminated.

Under paragraph (2), notwithstanding the provisions of paragraph (1), if the effects of the Convention are substantially altered as a result of changes made in the tax law of either Contracting State, either Contracting State may, through diplomatic channels, give written notice of termination. Such a notice will have effect on a date to be specified in the notice, which date may not be earlier than 6 months following the date of the notice. In the event notice of termination is given under paragraph (2), the Convention will not apply to estates of persons dying, to gifts made, or to generation-skipping transfers deemed to occur, on or after the effective date of the termination.

The provisions of Article 11 may be terminated without termination of the entire Convention in the event of certain described changes in the tax laws of the Contracting States. See the discussion of Article 11 above. Changes in the tax laws of one or both of the Contracting States which are grounds for termination of the provisions of Article 11, if unaccompanied by other changes which would independently give grounds for termination under paragraph (2) of Article 20, may not be grounds for termination of the entire Convention under paragraph (2) of Article 20.

United States-United Kingdom Income Tax Convention

T.D. 5569, 1947-2 C.B. 100
1980-1 C.B. 394

(Also Part I, Sections 164, 882, 906; 1.164-1, 1.882-1.)

United Kingdom; permanent U.S. establishment; deduction for tax paid on U.S. income. A United Kingdom corporation that has a permanent establishment in the U.S. paid U.K. income tax on business profits attributable to its U.S. operation only because the corporation was a resident of the U.K. Section 906(b)(1)(B) of the Code is not contrary to any treaty provisions, and the corporation may not deduct the U.K. income tax paid on U.S. profits. However, the corporation may deduct the U.K. income tax paid on effectively connected income from another foreign country. Rev. Ruls. 55-532, 58-310, and 65-234 obsoleted.

Rev. Rul. 80-243

ISSUE

Is a United Kingdom corporation with a permanent establishment in the United States entitled to deduct, in computing its taxable income for United States income tax purposes, the United Kingdom income tax it paid that is attributable to operations of its United States permanent establishment?

FACTS

X, a United Kingdom corporation, has a United States branch that constitutes a permanent establishment within the meaning of:

(1) Article II(1)(1) of the United States-United Kingdom Income Tax Convention (Old Convention), T.D. 5569, 1947-2 C.B. 100, as last modified by a Supplementary Protocol, signed on March 17, 1966, and generally effective for taxable years beginning on or after January 1, 1966, 1966-2 C.B. 582 (Old Supplementary Protocol); and (2) Article 5(1) of the New United States-United Kingdom Income Tax Convention (New Convention), 1980-1 C.B. 394 as modified by three Supplementary Protocols, signed, respectively, on August 26, 1976, March 31, 1977, and March 15, 1979, all generally effective for taxable years beginning on or after January 1, 1975.

Pursuant to Article III(1) of the Old Convention and Article 7(1) of the New Convention, *X* is subject to and pays United States tax on its business profits attributable to the income from the branch operation. The branch earns income attributable to the United States trade or business from both United States and foreign sources.

On its 1974 and 1975 federal income tax returns, filed on a calendar year basis, *X* deducted United Kingdom income tax it paid on its business profits attributable to the income from the branch operation. The United Kingdom income tax paid by *X* was imposed solely because *X* was a resident of the United Kingdom.

LAW AND ANALYSIS

Under section 882(a)(1) of the Internal Revenue Code a foreign corporation engaged in a trade or business within the United States during the taxable year shall be taxable on its taxable income which is effectively connected with the conduct of a trade or business within the United States. Section 882(c)(1)(A) provides that a foreign corporation shall be allowed deductions to the extent they are connected with income which is effectively connected with the conduct of a trade or business within the United States.

Section 164(a)(3) of the Code provides that state and local, and foreign income taxes shall be allowed as a deduction for the taxable year within which paid or accrued.

Section 906(b)(1)(B) of the Code provides a rule for determining the amount of foreign tax paid or accrued in order to determine deductions allowable to a foreign corporation under section 882(c). It states that there shall not be taken into account any amount of tax to the extent the tax so paid or accrued is imposed with respect to income from sources within the United States that would not be taxed by such foreign country but for the fact that such corporation was created or organized under the law of such foreign country or is domiciled for tax purposes in such country.

Under Article III(3) of the Old Convention, as modified by the Old Supplementary Protocol, in determining the industrial and commercial profits of a United States permanent establishment, deductions are allowed for all expenses that would be deductible if the permanent establishment were an independent enterprise, if they are reasonably connected with the taxable profits, wherever the expenses are incurred. Under Article 7(3) of the New Convention, in determining the profits of a United States permanent establishment, deductions are allowed for those expenses which are incurred for the purposes of the permanent establishment, wherever those expenses are incurred. Neither Article III(3) of the Old Convention nor Article 7(3) of the New Convention elaborates on what income tax expenses are allowed as deductions.

Article II(3) of the Old Convention and Article 3(2) of the New Convention provide that, with respect to the application of the respective Conventions by one of the Contracting Parties, any term not otherwise defined shall, unless the context otherwise requires, and subject to Article 25 (Mutual Agreement Procedure), have the meaning which it has under the laws of that Contracting Party relating to the taxes which are the subject of the Convention. Since neither Article II (3) of the Old Convention nor Article 3(2) of the New Convention elaborate on what income tax expenses are allowed as deductions, the context of those Articles does not otherwise require, and there has been no mutal agreement under Article 25(3), reference is made to United States internal law in accordance with Article II(3) of the Old Convention and Article 3(2) of the New Convention to determine what tax expenses are allowed as deductions.

Under the Code in effect at the time the Old Convention was signed, and subsequently at the time the Old Supplementary Protocol was signed and became effective, a deduction was allowed by United States internal tax law for a ratable portion of the United Kingdom income taxes paid by United Kingdom corporations in computing taxable income from sources within the United States. *See* Rev. Rul. 55-532, 1955-2 C.B. 592, as clarified by Rev. Rul. 58-310, 1958-1 C.B. 262. See also Rev. Rul. 65-234, 1965-2 C.B. 238. However, section 906(b)(1)(B) of the Code, added by the Foreign Investors Tax Act of 1966, Pub. L. 89-809, 1966-2 C.B. 656 (FITA), has the effect of denying this deduction unless the application of section 906(b)(1)(B) would be contrary to an existing treaty obligation, in which case section 110 of FITA provides that section 906(b)(1)(B) shall not apply.

The Old Convention as it is currently constituted does not contain a provision requiring that an interpretation be made with reference to internal law in effect on a particular date, although such references were included elsewhere in the Old Convention in the past. See, for example, Article XIII(1) of the Old Convention, prior to amendment by Article 9 of the Old Supplementary Protocol, which provided, with respect to the foreign tax credit applicable to certain dividends and royalties, that the credit would be allowed "[s]ubject to sections 901 to 905 of the United States Internal Revenue Code as in effect on the 1st day of January 1956." Therefore, in determining what income tax expenses are deductible by *X* for 1974 in computing its United States income tax liability under the Code, section 906(b)(1)(B) must be applied even though it was not in the Code at the time the Old Convention and the Old Supplemental Protocol became effective.

Section 110 of FITA does not prevent the application of section 906(b)(1)(B) under the Old Convention. Article III(3), as previously indicated, does not elaborate on what income tax expenses are allowed as deductions and section 906(b)(1)(B) is, therefore, not contrary to the Old Convention. Similarly, the provisions of section 906(b)(1)(B) are not contrary to Article 7(3) of the New Convention, which also does not address what income tax expenses are deductible. Therefore, pursuant to Articles II(3) and 3(2) of the Old and New Conventions, respectively, section 906(b)(1)(B) applied and precludes *X* from taking a deduction on its 1974 and 1975 federal income tax returns for foreign taxes that are paid with respect to income from sources within the United States that would not be taxed by the United Kingdom but for the fact that *X* is domiciled for tax purposes in the United Kingdom.

However, section 906(b)(1)(B) does not preclude *X* from taking a deduction for foreign taxes for its 1974 and 1975 taxable years that are paid with respect to income from foreign sources subject to taxation by the United States. To the extent that foreign source income subject to United States taxation is derived from the United Kingdom, then *X* may deduct any United Kingdom tax paid on such income for purpose of computing *X*'s United States taxable income. To the extent that foreign source income subject to United States taxation is derived from a source other than the United Kingdom, the deduction for United Kingdom tax paid on such income is limited to any United Kingdom tax paid in excess of a United Kingdom tax credit allowed as a result of the payment of income tax to the foreign income source country.

HOLDINGS

A United Kingdom corporation having a permanent establishment in the United States cannot deduct, in computing its taxable income for United States purposes, United Kingdom income tax imposed solely because the corporation is a resident of the United Kingdom and paid with respect to income from sources within the United States. However, such corporation may deduct the amount of United Kingdom income tax it paid with respect to the permanent establishment's income from foreign sources attributable to its permanent establishment to the extent such tax exceeds the United Kingdom tax credit allowed as a result of payment of income tax to the foreign income source country. In this latter situation, in which the foreign income source country is not the United Kingdom, the corporation is also entitled to deduct any income taxes paid to such country subject to the limitations of section 906(b)(1)(B).

EFFECT ON OTHER REVENUE RULINGS

Rev. Ruls. 55-532, 58-310 and 65-234 involve the deductibility of the United Kingdom income tax paid by United Kingdom corporations doing business in the United States with respect to income from sources within the United States prior to the enactment of section 906(b)(1)(B) of the Code. Consequently, these revenue ruling are obsoleted.

Subpart B.—Legislation and Related Committee Reports

Public Law 96-249 96th Congress, H.R. 4303 [1] May 26, 1980

An Act to amend the Food Stamp Act of 1977 to improve food stamp program fiscal accountability through reductions in inaccurate eligibility and benefit determinations; to improve the system of deductions; to increase the specific dollar limitations on appropriations for the fiscal years 1980 and 1981 food stamp programs; and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited

[1] This publication of the law, House Report No. 96-788, page 415, and Conference Report No. 96-957, page 417, is restricted to excerpts involving tax matters. Senate Report No. 96-236 and Conference Report No. 96-704 are not published.

as the "Food Stamp Act Amendments of 1980."

TITLE I—REDUCTION IN FOOD STAMP ERROR AND FRAUD AND REVISION OF DEDUCTIONS

* * * * *

DISCLOSURE PROVISIONS

SEC. 127.(a)(1) Subsection (i) of section 6103 of the Internal Revenue Code of 1954 (relating to disclosure of returns and return information for purposes other than tax administration) is amended by adding at the end thereof the following new paragraph:

"(7) DISCLOSURE OF CERTAIN RETURN INFORMATION BY SOCIAL SECURITY ADMINISTRATION TO DEPARTMENT OF AGRICULTURE AND TO STATE FOOD STAMP AGENCIES.—

"(A) IN GENERAL.—The Commissioner of Social Security may disclose return information from returns with respect to net earnings from self-employment (as defined in section 1402), wages (as defined in section 3121(a) or 3401(a)), and payments of retirement income which have been disclosed to the Social Security Administration as provided by paragraph (1) or (5) of this subsection—

"(i) upon request, to officers and employees of the Department of Agriculture, and

"(ii) upon written request, to officers and employees of a State food stamp agency.

"(B) RESTRICTION ON DISCLOSURE.—The Commissioner of Social Security shall disclose return information under subparagraph (A) only for purposes of, and to the extent necessary in, determining an individual's eligibility for benefits, or the amounts of benefits, under the food stamp program established under the Food Stamp Act of 1977.

"(C) STATE FOOD STAMP AGENCY.—For purposes of this paragraph, the term 'State food stamp agency' means any agency described in section 3(n)(1) of the Food Stamp Act of 1977 which administers the food stamp program established under such Act.".

(2)(A) Subparagraph (A) of section 6103(p)(3) of such Code (relating to records of inspection and disclosure) is amended by striking out "(l)(1) or (4)(B) or (5)" and inserting in lieu thereof "(l)(1), (4)(B), (5), or (7)".

(B) Paragraph (4) of section 6103(p) of such Code (relating to safeguards) is amended by striking out "(l)(3) or (6)" in so much of such paragraph as precedes subparagraph (A) thereof and inserting in lieu thereof "(l)(3), (6), or (7)".

(C) Clause (i) of section 6103(p)(4)(F) of such Code is amended by striking out "(l)(6)" and inserting in lieu thereof "(l)(6) or (7)".

(D) The first sentence of paragraph (2) of section 7213(a) of such Code is amended—

(i) by striking out "or any educational institution" and inserting in lieu thereof "any educational institution, or any State food stamp agency (as defined in section 6103(l)(7)(C))", and

(ii) by striking out "subsection (d), (l)(6), or (m)(4)(B)" and inserting in lieu thereof "subsection (d), (l)(6) or (7), or (m)(4)(B)".

(3) The amendments made by this subsection shall take effect on the date of the enactment of this Act.

FOOD STAMP ACT AMENDMENTS OF 1980

FEBRUARY 27, 1980

Mr. FOLEY, from the Committee on Agriculture, submitted the following report together with supplemental views, dissenting views, additional, dissenting views, and separate views to accompany S. 1309.[1]

* * * * *

[1] Public Law 96-249, page 414.

[24] III. BACKGROUND, PURPOSE, AND NEED FOR THE LEGISLATION

* * * * *

[68] B. CONTROL OF ERROR AND FRAUD

* * * * *

[101] 7. DEDUCTION OF ERROR AND FRAUD THROUGH COMPUTER MATCHING

* * * * *

[106] *d. Present legal barriers*

This Committee commenced its efforts to foster computer matching in Public Law 96-58 when it required food stamp recipients to provide social security numbers as a condition for eligibility with the intent of using those numbers in computer matching to compare the income reported by food stamp households against wage and benefit information in the files of the Social Security Administration.

Requiring the social security number was only the first step in achieving that goal. This bill removes other legal barriers to access to the Social Security Administration's files (by way of the necessary social security number) as well as State unemployment compensation files and the files of any other Federal agency with benefit data that could affect the eligibility or benefit levels of a significant part of the food stamp applicant and recipient population.

The legal barriers that need to be lowered or, in some instances, withdrawn entirely, are substantial, appropriately so in light of the privacy considerations involved and the danger of abuse of confidential information for illegitimate purposes by both Federal and State food stamp personnel. The program need for certain information is great, but it must be carefully balanced by the need to protect needy individuals from having their privacy bartered away in order to assuage their hunger. Existing protections should not be reduced without careful consideration and without the substitution of

other meaningful safeguards. The Committee's bill attempts to achieve this balanced approach to disclosure of relevant wage and benefit information.

Under present law, tax returns and return information are confidential and generally are not subject to disclosure except as provided in section 6103 of the Internal Revenue Code (hereafter "Code"). Disclosure is permitted, in certain circumstances, to the Social Security Administration, the Department of Health, Education, and Welfare, and Federal, State, and local child support enforcement agencies.

Under present law, tax returns and return information are confidential and generally are not subject to disclosure except as provided in section 6103 of the Internal Revenue Code. Disclosure is permitted, in certain circumstances, to the Social Security Administration, the Department of Health, Education, and Welfare, and Federal, State, and local child support enforcement agencies.

Upon written request, the Social Security Administration may obtain returns and return information concerning employment taxes for purposes of the administration of the Social Security Act (Code sec. 6103(l)(1)). In addition, copies of annual registration statements of employee benefit plans and related information concerning vested benefits of employees may be furnished to the Social Security Administration. The Secretary of Health, Education, and Welfare may also receive, upon written request, certain information returns for the purpose of carrying out an effective return processing program (Code sec. 6103 (l)(5)).

Federal, State, and local child support enforcement agencies may receive, upon written request, certain return information with respect to individuals for whom child support obligations are sought to be enforced or established and with respect to individuals to whom support obligations are owing (Code sec. 6103(l)(6)). This return infor-[107]mation may be disclosed only for purposes of, and to the extent necessary in, establishing and collecting child support obligations from, and locating, individuals owing such obligations.

Where disclosure or inspection of return information is permitted under the Code, it is permitted only at the times, in the manner, and at the places prescribed by the Internal Revenue Service. Present law generally requires the IRS to maintain a standardized system of permanent records on the use and disclosure of returns and return information. (Code sec. 6103 (p)(3)). This requirement applies with respect to disclosures made to Federal, State, and local child support enforcement agencies but does not apply in the case of disclosure made to the Social Security Administration or to the Department of Health, Education, and Welfare. In addition to the recordkeeping requirements imposed on the IRS, present law requires each Federal and State agency that receives tax information to maintain, pursuant to Treasury regulations, a standardized system of permanent records on the use and disclosure of that information. Maintaining these records is a prerequisite to obtaining, and continuing to receive, tax information.

Under present law, no tax information may be furnished by the IRS to another agency unless the other agency establishes procedures satisfactory to the IRS for safeguarding the tax information it receives (Code sec. 6103 (p)(4)). Disclosure by the IRS of tax information to other agencies is conditioned upon the recipient maintaining a secure place for storing the information, restricting access to the information to individuals whose duties require access and to whom disclosure is permitted, providing other safeguards necessary to keeping the information confidential, and returning or destroying the information when the agency is finished with it. The IRS is required to review, on a regular basis, the safeguards established by agencies to whom disclosure is made. In the event of unauthorized disclosure by the employees of another agency, the IRS may discontinue disclosure to that agency.

Any unauthorized disclosure of a return or return information is a felony which is punishable by a fine of up to $5,000, imprisonment of up to five years, or both (Code sec. 7213).

e. Safeguards and limitations

The safeguards and limitations contained in section 6103 of the Code with respect to the disclosure of tax returns and return information ought to be applied to similar disclosure in the context of the food stamp program.

The Committee on Ways and Means of the House of Representatives in preparing H.R. 4904, the Social Welfare Reform Amendments Act of 1979, which passed the House on November 7, 1979, extended those safeguards and limitations to such disclosure for purposes of administering the AFDC program by inserting a new section in the Social Security Act containing a cross reference to section 6103 of the Code for provisions relating to the disclosure of return information to State welfare agencies and by amending another section of the Social Security Act to provide that the disclosure of returns or return information transmitted from the Internal Revenue Service to the Department of Health, Education, and Welfare would be permitted only as prescribed under section 6103 of the Code.

[108] To further cement this into law and in light of the express desire of the Internal Revenue Service, repeated in testimony to this Committee by Emil Sunley, Deputy Assistant Secretary of the Treasury for Tax Policy, on October 30, 1979, to "ensure a degree of uniformity in applying confidentiality standards to, and safeguards on, the use of tax data for nontax related purposes" by consolidating "in the tax code all of the rules relating to disclosure of tax information" rather than reverting "to the piecemeal approach to tax disclosure that existed prior to 1976" when Congress performed the consolidation, the welfare

reform bill also amended section 6103 of the Code to incorporate this new form of disclosure and thereby subject it to all of the existing uniform safeguards and limitations.

This Committee, unlike the Ways and Means Committee, lacks the jurisdictional authority to amend the Code in order to make the Code's specific provisions applicable to the disclosure of return information, but this Committee intends to make certain insofar as it legally can that the same safeguards and limitations apply. It is the Committee's understanding that the preferable way to handle the matter would be by way of direct amendment to the Code, but, lacking that authority, the Committee notes its confirmed desire to reach the safe objective indirectly, with the hope that the appropriate Committees will propose the necessary accompanying changes in section 6103 of the Code.

Accordingly, this bill would provide that the Secretary of Health, Education, and Welfare would have to disclose to officers and employees of the Department and to officers and employees of a State welfare agency (the "State agency" within the meaning of section 3(n) of the Act) information with respect to wages, net earnings from self-employment, benefits, and payments of retirement income (the latter two appear to be synonymous, but the former includes any other Federal program benefits, if any, as to which information is available) that is contained in the records of the Social Security Administration, including such information which previously was disclosed to the Social Security Administration (that is the Secretary of Health, Education, and Welfare or his officers and employees) in the form of information from returns from the Internal Revenue Service's files pursuant to law (that is, under the authority of sections 6103(l)(1) or (5) of the Code).

The safeguards and limitations that would confine this disclosure are multiple and would be made effective by way of regulations promulgated by the Secretary of Health, Education, and Welfare, whom the bill empowers to establish such safeguards as the Secretary determines to be necessary to insure that any information made available is used only for authorized purposes:

(1) The Department's officers and employees would have to make a request in order to obtain the information, which request could be oral as well as written.

(2) The Department's officers and employees, despite a request, could not obtain the information unless their duties required them to have access to such information and unless disclosure legally could be made to them.

(3) The State agency's officers and employees would have to make a written request in order to obtain the information.

[109] (4) The State agency's officers and employees would not be entitled to the requested information unless their duties required them to have access to it and unless disclosure legally could be made to them. This limitation would have to be enforced with particular ease in the case of any tribal organization of an Indian tribe that became the State agency in accordance with the provisions of section 3(n)(2), 4(b), and 11(d) of the Act.

(5) Disclosure could be made only for three purposes and only to the extent necessary to accomplish them—(a) initially determining a household's eligibility to receive food stamps (on the amount thereof) at the point of certification or recertification, (b) auditing a household's eligibility to receive food stamps (and the amount thereof) during quality control or post-certification reviews or in light of reported changes, and (c) verifying any information related to the processes referred to in (a) or (b).

(6) The recordkeeping requirements, safeguard requirements, and penalties for unauthorized disclosure contained in section 6103 of the Code would govern this expanded disclosure through the regulations promulgated by the Secretary of Health, Education, and Welfare. For example, the Social Security Administration would be required to maintain a permanent system of standardized records on the use and disclosure of tax information permitted to be disclosed under the bill, and the Department of Health, Education, and Welfare, the Department, and State agencies would be required to maintain a strict accounting with respect to return information they receive from the Social Security Administration: In addition, the Department of Health, Education, and Welfare, the Department, and State agencies would be required to establish procedures satisfactory to the Internal Revenue Service for safeguarding the return information they receive from the Social Security Administration. See 45 C.F.R. § 431.300 et. seq.

The concerns for privacy would, we believe, be more than adequately protected by these safeguards modeled on section 6103 of the Code, and in particular section 6103(p)(4), of restricting access only to people who have legitimate need for the information, of making sure that those persons are thoroughly trained in privacy issues, and of guaranteeing proper physical security with respect to the storage of such sensitive information. The Privacy Act, 5 U.S.C. § 552a, and, in particular, section 552a(b) would be satisfied by these legal limitations.

Conference Report No. 96-957 2d Session

[Bracketed numerals indicate official report page numbers]

FOOD STAMP ACT AMENDMENTS OF 1980

MAY 14, 1980

Mr. FOLEY, from the committee of conference, submitted the following conference report to accompany S. 1309.[1]

* * * * *

---

[1] Public Law 96-249, page 414.

[17] JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

* * * * *

[26] (25) *Disclosure provisions*

The *House* amendment required the disclosure of certain income tax information in the files of the Social Security Administration and certain wage and unemployment insurance (UI) information in the records of State UI agencies to the Department and State food stamp agencies only for the purpose of, and to the extent necessary for, determining a person's eligibility for food stamps. The *House* amendment requires that tax return information be disclosed in accordance with the procedures, conditions and safeguards specified in section 6103 of the Internal Revenue Code. The *House* amendment, effective January 1, 1983, further provides that as a condition of receipt of its Federal UI administrative grant, each State UI agency would have to make available, under procedures and safeguards to be established by the Secretary of Labor, information in its records pertaining to an individual's wages, home address, UI eligibility, and offers of employment.

The *Senate* bill contains no comparable provisions.

The *Conference* substitute adopts the *House* provisions.

Public Law 96-265 96th Congress, H.R. 3236 [1] June 9, 1980

An Act to amend the Social Security Act to provide better work incentives and improve accountability in the disability programs, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Social Security Disability Amendments of 1980".

* * * * *

ACCESS TO WAGE INFORMATION FOR PURPOSES OF CARRYING OUT STATE PLANS FOR CHILD SUPPORT

SEC. 408. (a)(1) Subsection (l) of section 6103 of the Internal Revenue Code of 1954 (relating to disclosure of returns and return information for purposes other than tax administration) is amended by adding at the end thereof the following new paragraph:

"(7) DISCLOSURE OF CERTAIN RETURN INFORMATION BY SOCIAL SECURITY ADMINISTRATION TO STATE AND LOCAL CHILD SUPPORT ENFORCEMENT AGENCIES.—

"(A) IN GENERAL.—Upon written request, the Commissioner of Social Security shall disclose directly to officers and employees of a State or local child support enforcement agency return information from returns with respect to net earnings from self-employment (as defined in section 1402), wages (as defined in section 3121(a) or 3401(a)), and payments of retirement income which have been disclosed to the Social Security Administration as provided by paragraph (1) or (5) of this subsection.

"(B) RESTRICTION ON DISCLOSURE.—The Commissioner of Social Security shall disclose return information under subparagraph (A) only for purposes of, and to the extent necessary in, establishing and collecting child support obligations from, and locating, individuals owing such obligations. For purposes of the preceding sentence, the term 'child support obligations' only includes obligations which are being enforced pursuant to a plan described in section 454 of the Social Security Act which has been approved by the Secretary of Health and Human Services under part D of title IV of such Act.

"(C) STATE OR LOCAL CHILD SUPPORT ENFORCEMENT AGENCY.—For purposes of this paragraph, the term 'State or local child support enforcement agency' means any agency of a State or political subdivision thereof operating pursuant to a plan described in subparagraph (B)."

(2)(A) Subparagraph (A) of section 6103(p)(3) of such Code (relating to records of inspection and disclosure) is amended by striking out "(l)(1) or (4)(B) or (5)" and inserting in lieu thereof "(l)(1), (4)(B), (5), or (7)".

(B) Paragraph (4) of section 6103(p) of such Code (relating to safeguards) is amended by striking out "(l)(3) or (6)" in so much of such paragraph as precedes subparagraph (A) thereof and inserting in lieu thereof "(l)(3), (6), or (7)".

(C) Clause (i) of section 6103(p)(4)(F) of such Code is amended by striking out "(l)(6)" and inserting in lieu thereof "(l)(6) or (7)".

(D) The first sentence of paragraph (2) of section 7213(a) of such Code is amended by striking out "subsection (d), (l)(6), or (m)(4)(B)" and inserting in lieu thereof "subsection (d), (l)(6) or (7), or (m)(4)(B)".

(3) The amendments made by this subsection shall take effect on the date of the enactment of this Act.

Approved June 9, 1980.

Conference Report No. 96-944 2d Session

[Bracketed numerals indicate official report page numbers]

SOCIAL SECURITY DISABILITY AMENDMENTS OF 1980

MAY 13, 1980.

Mr. ULLMAN, from the committee of conference, submitted the following conference report to accompany H.R. 3236.[1]

* * * * *

[66] Access to Wage Information for Child Support Program

(Sec. 408)

Present law.—Present law requires

[1] The publication of the law and Conference Report No. 96-444, this page, is restricted to excerpts involving tax matters. House Report No. 96-100 and Senate Report No. 96-408 are not published.

[1] Public Law 96-265, this page.

the Secretary of HHS to make available to States and political subdivisions wage information contained in the records of the Social Security Administration which is necessary to determine eligibility for AFDC. The law requires the Secretary to establish safeguards to insure that information is used only for authorized purposes. There is no similar provision for purposes of child support.

In addition, present law requires agencies that administer State unemployment compensation to make available to States and political subdivisions wage information contained in their records which is necessary to determine eligibility for AFDC, and requires the Secretary to establish safeguards to insure that information is used only for authorized purposes. There is no similar provision for purposes of child support.

Under the Internal Revenue Code, tax return information may be disclosed by IRS (1) to the Social Security Administration for purposes of administering the Social Security Act, and (2) to Federal, State and local child support agencies for establishing and enforcing child support obligations under the child support program. Agencies receiving this information must comply with specified safeguards. SSA may not transfer information it receives from IRS to State and [67] local agencies. Information must be obtained by the agencies directly from IRS.

Senate bill.—The Senate bill provided the same requirement for disclosure of wage information (other than tax return information) for purposes of the child support program as exists in present law for purposes of AFDC. It also provided the same requirement for provision of wage information by State unemployment compensation agencies for purposes of the child support program as exists in present law for purposes of AFDC.

The Senate bill required SSA to disclose tax return information obtained from IRS with respect to earnings from self-employment and wages (1) to officers and employees of HHS, and (2) to officers and employees of an appropriate State or local agency, body, or commission. Information could be disclosed for purposes of establishing, determining, and enforcing child support obligations under the child support program.

Agencies or commissions authorized to receive tax return information could disclose such information to any person to the extent necessary in connection with the processing and use of information necessary for the purpose of establishing, determining, or enforcing child support obligations.

Conference agreement.—Under the conference agreement, certain tax return information must be disclosed by the Social Security Administration to State and local child support enforcement agencies, as follows.

The conferees agreed to amend the Internal Revenue Code to provide that, upon written request, the Commissioner of Social Security shall directly disclose return information with respect to net earnings from self-employment, wages, and payments of retirement income to officers and employees of a State or local child support enforcement agency. Disclosure will be allowable only for purposes of, and to the extent necessary in, establishing and collecting child suport obligations from, and locating individuals owing child support obligations.

Any agency receiving information must comply with conditions specified in current law for safeguarding information. Under these safeguards, information may be used on a computer in uncoded form if the computer is used only by the child support enforcement agency. If this information is used on computer systems shared with agencies which are not child support agencies, it must be introduced into the system and coded so that it is available only to officers and employees of the child support enforcement agency. Generally, disclosure to individuals other than officers and employees of the child support enforcement agency would not be authorized; however, the information may be disclosed to the taxpayer to whom the information pertains. This provision is effective on enactment.

Public Law 96-272
96th Congress, H.R. 3434 [1]
June 17, 1980

An Act to establish a program of adoption assistance, to strengthen the program of foster care assistance for needy and dependent children, to improve the child welfare, social services, and aid to families with dependent children programs, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act, with the following table of contents, may be cited as the "Adoption Assistance and Child Welfare Act of 1980".

* * * * *

PERMANENT EXTENSION OF PROVISIONS RELATING TO CHILD DAY CARE SERVICES AND WIN TAX CREDIT

SEC. 208. * * *

(b)(1) Section 50B(i) of the Internal Revenue Code of 1954 (relating to special rules with respect to employment of day care workers) is amended to read as follows:

"(i) SPECIAL RULES WITH RESPECT TO EMPLOYMENT OF DAY CARE WORKERS.—

"(1) ELIGIBLE EMPLOYEE.—An individual who would be an 'eligible employee' (as that term is defined for purposes of this section) except for the fact that such individual's employment is not on a substantially full-time basis, shall be deemed to be an eligible employee as so defined, if such employee's employment is related to the provision

[1] This publication of the law, Senate Report No. 96-336, page 420, and Conference Report No. 96-900, page 421, is restricted to excerpts involving tax matters. House Report No. 96-136 and House Report No. 96-136, Part 2, are not published.

of child day care services and is performed on either a full-time or part-time basis.

"(2) ALTERNATIVE COMPUTATION WITH RESPECT TO CHILD DAY CARE SERVICES ELIGIBLE EMPLOYEES PAID FROM FUNDS MADE AVAILABLE UNDER TITLE XX OF THE SOCIAL SECURITY ACT.—The amount of the credit allowed a taxpayer under section 40, as determined under section 50A and the preceding provisions of this section, with respect to work incentive program expenses paid or incurred by him with respect to an eligible employee whose services are performed in connection with a child day care services program conducted by the taxpayer, and with respect to whom the taxpayer is reimbursed (in whole or in part) from funds made available pursuant to section 2007 of the Social Security Act, at the option of the taxpayer shall be equal to 100 percent of the unreimbursed wages paid or incurred by the taxpayer with respect to such employee, but not more than the amount of the limitation in paragraph (4).

"(3) UNREIMBURSED WAGES.—For purposes of this subsection, the term 'unreimbursed wages' means work incentive program expenses for which the taxpayer was not reimbursed under section 2007 of the Social Security Act or under any other grant or program.

"(4) LIMITATION.—The amount of the credit, as determined under paragraph (2), with respect to any employee shall not exceed the lesser of—

"(A) an amount equal to $6,000 minus the amount of the funds reimbursed to the taxpayer with respect to such employee from funds made available pursuant to section 2007 of the Social Security Act; or

"(B) with respect to work incentive program expenses attributable to service rendered—

"(i) during the one-year period which begins on the day such employee begins work for the taxpayer, an amount equal to the lesser of—

"(I) $3,000, or

"(II) 50 percent of the sum of the amount of the unreimbursed wages of such employee and the amount reimbursed to the taxpayer with respect to such employee from funds made available pursuant to section 2007 of the Social Security Act; or

"(ii) during the one-year period which begins on the day after the last day of the one-year period described in clause (i), an amount equal to the lesser of—

"(I) $1,500, or

"(II) 25 percent of the sum of the amount of the unreimbursed wages of such employee and the amount reimbursed to the taxpayer with respect to such employee from funds made available pursuant to section 2007 of the Social Security Act."

(2) Section 50B(h)(1)(B) of such Code is amended by inserting "(except as provided in subsection (i))" after "full-time basis".

(3)(A) The amendments made by paragraphs (1) and (2) shall be effective with respect to taxable years beginning after December 31, 1979.

(B) The redesignation of subsection (i) of section 50B of the Internal Revenue Code of 1954 as subsection (j) by section 3(a)(1) of Public Law 96-178 [1980-1 C.B. 494] shall remain in effect with respect to taxable years beginning after December 31, 1979.

ADOPTION ASSISTANCE AND CHILD WELFARE ACT OF 1979

OCTOBER 2 (legislative day JUNE 21), 1979.

Mr. LONG, from the Committee on Finance, submitted the following report together with additional views to accompany H.R. 3431.[1]

* * * * *

General Discussion of the Bill

* * * * *

[1] Public Law 96-272, page 419.

[84] CHANGES TO COORDINATE TAX CREDIT AND SOCIAL SERVICES PROVISIONS

Present law.—The amount of wages eligible to be paid for through the social services program was limited to $4,000 in the case of proprietary employers on the presumption that they would claim the 20 percent tax credit and thus receive full reimbursement for the first $5,000 of wages paid. The tax credit, however, is computed only on the net wages actually paid by the employer after deducting any reimbursement he receives from other sources. Thus, if an employer pays wages of $5,000 and receives a social services grant to meet $4,000 of that total, his tax credit would have been computed only on the remaining $1,000. Under the former tax credit provisions this would have provided a tax credit of $200 (20 percent of $1,000). H.R. 12973 as reported by the Finance Committee last year would have permitted any wages reimbursed under the social services provisions to be included in computing the tax credit. However, because the tax credit percentage has now been increased to 50 percent for the first year wages and 25 percent for the second year wages, this change could result in a total reimbursement exceeding 100 percent of costs. H.R. 12973 included an overall limit of $1,000 on the credit to avoid such situations. Even with such a limit, however, there could still be instances of more than 100 percent reimbursement.

Committee bill.—The committee amendment would permit employers who hire welfare recipients in child care jobs to include any costs reimbursed under the title XX grant program in computing their tax credit. The amount of the credit would, however, be reduced to whatever extent necessary so that the combination of title XX grant and tax credit would never exceed 100 percent of the first $6,000 of wages paid to the employee. The amendment is effective for taxable years beginning after December 31, 1978.

CREDIT MADE APPLICABLE TO PART-TIME EMPLOYMENT

Present law.—H.R. 12973, as reported last year by the Committee, also modified the tax credit as applicable to child care jobs so that the tax credit and the related reimbursement under the social services provisions could be used for part-time as well as full-time employment. The tax credit is restricted to employees who have been employed for at least 30 days on a substantially full-time basis. The purpose of this change was to make the credit and payment provisions available in cases where the child care facility might hire, for example, two welfare recipients on a half-time basis for $4,000 per year each to perform a job for which they might otherwise hire a single full-time employee at a salary of $8,000 per year.

[85] *Committee bill.*—Effective for taxable years beginning after December 31, 1978, the Committee amendment would permit the tax credit and related title XX grant provisions to be applied to part-time as well as full-time employment by welfare recipients in child care jobs.

CHANGES RELATED TO PUBLIC LAW 95-600 [1978-3 C.B. (VOL. 1) 1]

Present law.—The 1978 tax reduction act (Public Law 95-600) made several significant changes in the tax credit provisions for hiring welfare recipients. Under prior law, the tax credit for hiring welfare recipients in child care jobs was limited to 20 percent of the first $5,000 of wages and was available only through September 30, 1978. Effective January 1, 1979, the new law treats child care jobs in the same manner as other employment for purposes of the tax credit. The credit is made permanent and applies to the first $6,000 of wages (at a 50 percent rate in the first year and a 25 percent rate in the second year).

Committee bill.—The committee amendment contains several provisions related to the changes made by Public Law 95-600:

1. The title XX grant provisions would be conformed to the $6,000 maximum wages creditable for the tax provision. (That is, grants up to $5,000 per eligible employee could be made for profit-making child care facilities and up to $6,000 for public and nonprofit facilities.)

2. The former tax credit provisions for child care jobs are reinstated for the period October 1, 1978 to December 31, 1978. (After that date, the new provisions of Public Law 95-600 are effective under existing law.)

3. A number of technical amendments are made to perfect the transition provisions in Public Law 95-600 and to rectify certain clerical errors in that statute.

* * * * *

Conference Report No. 96-900 2d Session

[Bracketed numerals indicate official report page numbers]

ADOPTION ASSISTANCE, CHILD WELFARE, AND SOCIAL SERVICES

APRIL 23, 1980.

Mr. ULLMAN, from the committee of conference, submitted the following conference report to accompany H.R. 3431.[1]

* * * * *

Joint Explanatory Statement of the Committee of Conference

* * * * *

Permanent Extension of Provisions Relating to Child Day Care Services and WIN Tax Credit (Sec. 208)

Present law.—Employers of AFDC recipients who are placed in jobs under the WIN program, or who have received AFDC for at least 90 days, are eligible for a tax credit equal to 50% of up to $6,000 of wages per employee for the first year of employment and 25% of such wages for the second year.

House bill.—Present law.

Senate bill.—The Senate bill would permit employers who receive Title XX grants for purposes of hiring welfare recipients in child care jobs to elect to include such grants in wages eligible for the tax credit. For taxpayers who so elect, the credit amount would be limited so that the total amount of the credit plus the grant could not exceed the lesser of $6,000 or 100% of total wages paid to the employee. In addition, the bill would allow the tax credit for persons employed on a part-time basis in child care jobs and would make certain technical amendments to correct errors in the Revenue Act of 1978 [1978-3 C.B. (Vol. 1) 1].

Conference agreement.—The conference agreement maintains the current law provision which provides that the credit is not allowed for wages reimbursed by a grant. The conference agreement provides, however, for a special 100-percent credit with respect to unreimbursed wages paid to workers whose wages are reimbursed in whole or in part by funds made available under section 2007 (grants to hire welfare recipients as child care workers) of the Social Security Act. If the taxpayer elects to compute the credit using this rate, the credit with respect to any employee is limited to the least of: (1) $6,000 minus the reimbursement with respect to this employee under section 2007, (2) $3,000 (for the first year of employment) or $1,500 (for the second year of employment), or (3) 50 percent (for the first year of employment) or 25 percent (for the second year of employment) of the sum of unreimbursed wages and the reimbursement under section 2007.

The conference agreement includes the Senate provision with regard to the eligibility of part-time child care workers for the credit. Regulations should define a minimum standard for part-time employment, such as 8 hours per week for the first 4 weeks of employment, to ensure that employees are

[1] Public Law 96-272, page 419.

eligible only if they have established a regular employment relationship with the employer.

Public Law 96-283
96th Congress, H.R. 2759 [1]
June 28, 1980

An Act to establish an interim procedure for the orderly development of hard mineral resources in the deep seabed, pending adoption of an international regime relating thereto, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Deep Seabed Hard Mineral Resources Act".

* * * * *

SEC. 4. DEFINITIONS.

For purposes of this Act, the term—

(1) "commercial recovery" means—

(A) any activity engaged in at sea to recover any hard mineral resource at a substantial rate for the primary purpose of marketing or commercially using such resource to earn a net profit, whether or not such net profit is actually earned;

(B) if such recovered hard mineral resource will be processed at sea, such processing; and

(C) if the waste of such activity to recover any hard mineral resource, or of such processing at sea, will be disposed of at sea, such disposal;

* * * * *

(9) "permittee" means the holder of a permit issued under title I of this Act to engage in commercial recovery;

(10) "person" means any United States citizen, any individual, and any corporation, partnership, joint venture, association, or other entity organized or existing under the laws of any nation;

* * * * *

(13) "United States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the United States, Virgin Islands, Guam, and any other Commonwealth, territory, or possession of the United States; and

* * * * *

TITLE IV—TAX

SEC. 401. SHORT TITLE.

This title may be cited as the "Deep Seabed Hard Mineral Removal Tax Act of 1979".

SEC. 402. IMPOSITION OF TAX ON REMOVAL OF HARD MINERAL RESOURCES FROM DEEP SEABED.

(a) GENERAL RULE.—Chapter 36 of the Internal Revenue Code of 1954 (relating to certain other excise taxes) is amended by adding at the end thereof the following new subchapter:

"Subchapter F—Tax on Removal of Hard Mineral Resources From Deep Seabed

"SEC. 4495. Imposition of tax.
"SEC. 4496. Definitions.
"SEC. 4497. Imputed value.
"SEC. 4498. Termination.

"SEC. 4495. IMPOSITION OF TAX.

"(a) GENERAL RULE.—There is hereby imposed a tax on any removal of a hard mineral resource from the deep seabed pursuant to a deep seabed permit.

"(b) AMOUNT OF TAX.—The amount of the tax imposed by subsection (a) on any removal shall be 3.75 percent of the imputed value of the resource so removed.

"(c) LIABILITY FOR TAX.—The tax imposed by subsection (a) shall be paid by the person to whom the deep seabed permit is issued.

"(d) TIME FOR PAYING TAX.—The time for paying the tax imposed by subsection (a) shall be the time prescribed by the Secretary by regulations. The time so prescribed with respect to any removal shall be not earlier than the earlier of—

"(1) the commercial use of, or the sale or disposition of, any portion of the resource so removed, or

"(2) the day which is 12 months after the date of the removal of the resource.

"SEC. 4496. DEFINITIONS.

"(a) DEEP SEABED PERMIT.—For purposes of this subchapter, the term 'deep seabed permit' means a permit issued under title I of the Deep Seabed Hard Minerals Resources Act.

"(b) HARD MINERAL RESOURCE.—For purposes of this subchapter, the term 'hard mineral resource' means any deposit or accretion on, or just below, the surface of the deep seabed of nodules which contain one or more minerals, at least one of which is manganese, nickel, cobalt, or copper.

"(c) DEEP SEABED.—For purposes of this subchapter, the term 'deep seabed' means the seabed, and the subsoil thereof to a depth of 10 meters, lying seaward of, and outside—

"(1) the Continental Shelf of any nation; and

"(2) any area of national resource jurisdiction of any foreign nation, if such area extends beyond the Continental Shelf of such nation and such jurisdiction is recognized by the United States.

"(d) CONTINENTAL SHELF.—For purposes of this subchapter, the term 'Continental Shelf' means—

"(1) the seabed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 meters or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of such areas; and

"(2) the seabed and subsoil of similar submarine areas adjacent to the coasts of islands.

"SEC. 4497. IMPUTED VALUE.

"(a) IN GENERAL.—For purposes of

[1] This publication of the law, House Report No. 96-411, Part 3, page 423, and Senate Report No. 96-307, page 426, are restricted to excerpts involving tax matters. Senate Report Nos. 96-357 and 96-360, and House Report No. 96-411, Parts I, 2, and IV are not published.

this subchapter, the term 'imputed value' means, with respect to any hard mineral resource, 20 percent of the fair market value of the commercially recoverable metals and minerals contained in such resource. Such fair market value shall be determined—

"(1) as of the date of the removal of the hard mineral resource from the deep seabed; and

"(2) as if the metals and minerals contained in such resource were separated from such resource and were in the most basic form for which there is a readily ascertainable market price.

"(b) COMMERCIAL RECOVERABILITY.—

"(1) MANGANESE, NICKEL, COBALT, AND COPPER.—For purposes of subsection (a), manganese, nickel, cobalt, and copper shall be treated as commercially recoverable.

"(2) MINIMUM QUANTITIES AND PERCENTAGES.—The Secretary may by regulations prescribe for each metal or mineral quantities or percentages below which the metal or mineral shall be treated as not commercially recoverable.

"(c) SUSPENSION OF TAX WITH RESPECT TO CERTAIN METALS AND MINERALS HELD FOR LATER PROCESSING.—

"(1) ELECTION.—The permittee may, in such manner and at such time as may be prescribed by regulations, elect to have the application of the tax suspended with respect to one or more commercially recoverable metals or minerals in the resource which the permittee does not intend to process within one year of the date of extraction. Any metal or mineral affected by such election shall not be taken into account in determining the imputed value of the resource at the time of its removal from the deep seabed. Any suspension under this paragraph with respect to a metal or mineral shall be permanent unless there is a redetermination affecting such metal or mineral under paragraph (2).

"(2) LATER COMPUTATION OF TAX.—If the permittee processes any metal or mineral affected by the election under paragraph (1), or if he sells any portion of the resource containing such a metal or mineral, then the amount of the tax under section 4495 shall be redetermined as if there had been no suspension under paragraph (1) with respect to such metal or mineral. In any such case there shall be added to the increase in tax determined under the preceding sentence an amount equal to the interest (at rates determined under section 6621) on such increase for the period from the date prescribed for paying the tax on the resources (determined under section 4495(d)) to the date of the processing or sale.

"(d) DETERMINATIONS OF VALUE.—All determinations of value necessary for the application of this subchapter shall be made by the Secretary (after consultation with other appropriate Federal officials) on the basis of the best available information. Such determinations shall be made under procedures established by the Secretary by regulations.

"SEC. 4498. TERMINATION.

"(a) GENERAL RULE.—The tax imposed by section 4495 shall not apply to any removal from the deep seabed after the earlier of—

"(1) the date on which an international deep seabed treaty takes effect with respect to the United States, or

"(2) the date 10 years after the date of the enactment of this subchapter.

"(b) INTERNATIONAL DEEP SEABED TREATY.—For purposes of subsection (a), the term 'international deep seabed treaty means any treaty which—

"(1) is adopted by a United Nations Conference on the Law of the Sea, and

"(2) requires contributions to an international fund for the sharing of revenues from deep seabed mining".

(b) CLERICAL AMENDMENT.—The table of subchapters for chapter 36 of such Code is amended by adding at the end thereof the following new item:

"SUBCHAPTER F. Tax on removal of hard mineral resources from deep seabed."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1980.

* * * * *

SEC. 404. ACT NOT TO AFFECT TAX OR CUSTOMS OR TARIFF TREATMENT OF DEEP SEABED MINING.

Except as otherwise provided in section 402, nothing in this Act shall affect the application of the Internal Revenue Code of 1954. Nothing in this Act shall affect the application of the customs or tariff laws of the United States.

Approved June 28, 1980.

House of Representatives Report No. 96-411, Part 3 1st Session

[Bracketed numerals indicate official report page numbers]

DEEP SEABED HARD MINERAL RESOURCES ACT

NOVEMBER 2, 1979

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 2759 [1] which on March 8, 1979, was jointly referred to the Committee on Foreign Affairs, the Committee on Interior and Insular Affairs, the Committee on Merchant Marine and Fisheries, and the Committee on Ways and Means.

The Committee on Ways and Means, to whom was referred the bill (H.R. 2759) to promote the orderly development of hard mineral resources in the deep seabed, pending adoption of an international regime relating thereto, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment (stated in terms of

[1] Public Law 96-283, page 422.

page and line numbers of the introduced bill) is as follows:

Page 44, line 18, strike out "1978" and insert in lieu thereof "1979".

I. SUMMARY

Under title IV of the bill, an excise tax is imposed on the removal from the deep seabed of nodules containing manganese, nickel, cobalt or copper. The tax rate is 3.75 percent of the "imputed value" of the nodules removed. The imputed value is defined as 20 percent of the fair market value of the commercially recoverable metals or minerals contained in the nodule; thus the tax, in effect, is 0.75 percent of the fair market value of the commercially recoverable metals and minerals in the nodules. The tax will take effect on January 1, 1980, and will terminate when an international deep seabed treaty meeting specified requirements comes into force with respect to the United States, or after 10 years from the date of enactment of the Act, whichever is earlier.

The proceeds of the tax are to be paid into a Deep Seabed Revenue Sharing Trust Fund established by title IV. The amounts in the Trust Fund will be available for appropriation by Congress to make contributions under the international deep seabed treaty. If there is no [2] treaty after 10 years, Congress will determine the disposition of the amounts in the Trust Fund.

H.R. 2759 was also referred to the Committees on Interior and Insular Affairs, Merchant Marine and Fisheries, and Foreign Relations.

II. GENERAL STATEMENT

Present law

At present, the deep seabed is not being mined on a commercial basis. The provisions of H.R. 2759 other than title IV are intended to establish a framework which would permit U.S. persons to undertake deep seabed mining in an orderly manner. Under present law, no Federal excise taxes are imposed on the removal of minerals from the deep seabed.

Reasons for change

Since 1967, discussions have been under way at the United Nations on the use of ocean space. In 1970, the United Nations General Assembly adopted in Resolution 2749 a declaration of principles which stated that "the seabed and ocean floor and the subsoil thereof beyond the limits of national jurisdiction, as well as the resources of the area, are the common heritage of mankind," and that "no state or person, natural or juridical, shall claim, exercise, or acquire rights with respect to the area or its resources incompatible with the international regime to be established and the principle of this Declaration." The United States supported this declaration of principles, while simultaneously maintaining that deep seabed mining constitutes a freedom of the high seas according to the principles of the 1958 Geneva Convention on the Deep Seas. Discussions on these and other matters led the General Assembly to agree to hold a third United Nations Conference on the Law of the Sea.

The Law of the Sea Conference, which was formally opened in 1973, has not yet been able to reach agreement with respect to the creation of a proposed international seabed authority which would govern the exploration for and the mining of minerals from the area of the deep seabed which is beyond the national jurisdiction of the United States or any foreign country. In response to the apparent lack of progress in these negotiations, H.R. 2759, the Deep Seabed Hard Minerals Resources Act, would establish an interim framework governing deep seabed mining until an international treaty enters into force with respect to the United States. The committee believes that the creation of the Revenue Sharing Trust Fund and the imposition of the excise tax on the removal of hard minerals from the deep seabed, as provided by title IV of the bill, demonstrate the United States' commitment to the principle that deep seabed resources are part of the common heritage of mankind.

Explanation of provisions

Excise tax

Under title IV of the bill, an excise tax is imposed on the removal of hard mineral resources from the deep seabed. The holder of a permit (referred to in this explanation as the "mining company") issued under the Act is to be liable for the payment of the tax. The mining company will be liable regardless of whether it removes nod- [3] ules itself from the deep seabed, or authorizes another to remove the nodules on its behalf. Similarly, the mining company is to be liable for the payment of the tax where it acquiesces in the removal of nodules from its permit area by another.

For purposes of the tax, the "deep seabed" is the seabed, including its subsoil to a depth of 10 meters, lying seaward of, and outside (1) the continental shelf of any foreign country, and (2) any foreign country's national resource jurisdiction which is recognized by the United States and which extends beyond the continental shelf of that nation. For this purpose, "continental shelf" means (1) the seabed and subsoil of the submarine areas adjacent to the coast, but outside the area of the territorial sea, to a depth of 200 meters or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of those areas, and (2) the seabed and subsoil of similar submarine areas adjacent to the coasts of islands. A "hard mineral resource," the removal of which is subject to the tax, is any deposit or accretion on, or just below, the surface of the deep seabed of nodules which contain manganese, nickel, cobalt, or copper. These definitions are the same as those applicable under the other titles of H.R. 2759.

The excise tax is imposed at the rate of 3.75 percent of the "imputed value" of the nodules removed from the deep seabed. The "imputed value" for this purpose is 20 percent of the fair market value of the commercially recoverable metals and minerals con-

tained in the nodules. Thus, the excise tax, in effect, is imposed at the rate of 0.75 percent of the fair market value of the commercially recoverable metals and minerals. The 20-percent figure relates to the estimated proportional share of the costs of the mining process itself in relation to the total costs involved in mining, transporting, processing, and marketing the nodules. This is consistent with the United States' Law of the Sea negotiating position, as it would limit revenue sharing to the mining phase alone. The rate of tax set in the bill is not intended to serve as a guideline or precedent which would be binding for any profit sharing or royalty agreement negotiated by the United States at the Law of the Sea Conference.

The excise tax is to be imposed with respect to any commercially recoverable metals or minerals contained in the nodule, so long as the nodule contains manganese, nickel, cobalt or copper. Thus, the tax is to be imposed on the imputed value of all commercially recoverable minerals contained in the nodules removed from the deep seabed, regardless of whether or not they are one of the four previously mentioned. Commercial recoverability is to be determined with respect to the technical considerations and economic conditions prevailing at the time of removal of the nodules from the deep seabed. Moreover, the tax will be imposed on any manganese, nickel, cobalt or copper from nodules removed from the deep seabed which is processed, used, or sold by the mining company, even if that mineral was not commercially recoverable at the time of removal.

The fair market value of each commercially recoverable metal or mineral contained in a nodule is to be determined (1) as of the date of the removal of the nodule from the seabed and (2) as if it were separated from the nodule and in the most basic form for which there is a readily ascertainable market price and a substantial volume of sales. Determinations of value (including determinations as to the appropri-[4]ate basic form and commercial recoverability) for this and all other purposes under the tax are to be made by the Secretary of the Treasury, after consultation with other appropriate Federal officials, on the basis of the best available information. These determinations are to be made under procedures established by regulations.

Moreover, in order to facilitate both certainty in ascertaining tax liability and the efficient and expeditious administration and collection of the tax, the committee anticipates that the Secretary, pursuant to these procedures, may make determinations as to the value of the nodules removed based, in part, upon reasonable assumptions as to the various metals and minerals generally contained in nodules removed from any particular deep seabed area. For example, the committee anticipates that the Secretary may specify that nodules removed from an area are presumed conclusively to contain x percent of one mineral, y percent of another, and z percent of a third mineral, and that the balance of the nodule consists of minerals which are not commercially recoverable. The Secretary may also by regulations prescribe for each metal or mineral (including manganese, nickel, cobalt, and copper) *de minimis* quantities or percentages below which the metal or mineral will be treated as not commercially recoverable.

Although the excise tax is imposed on the removal of the nodule from the deep seabed, the tax is not payable until the time prescribed by regulation by the Secretary of the Treasury. This time may not be earlier than the earlier of (1) the commercial use or the sale or disposition of any metal or mineral in the nodule so removed, or (2) the day which is 12 months after the date of the removal of the nodule. The tax due at the time would be based on the value of all commercially recoverable metals and minerals in the nodule except those for which the mining company has elected to suspend the tax, as described below. For this purpose, "commercial use" means use as a mineral product and not merely as a bulk material, such as ballast. A "disposition" includes any transfer, *e.g.*, a distribution by a mining company as a dividend or in liquidation or a contribution to capital of a subsidiary, for use as a mineral product and not as bulk material. A disposition would not include abandonment or a transfer to an unrelated party which is not for value.

As an exception to the general rules, the mining company may elect, in a manner to be prescribed by regulations, to have the application of the tax suspended with respect to one or more commercially recoverable metals or minerals contained in the nodules if the mining company does not intend to process, use commercially, or sell that metal or mineral within 1 year after the date of extraction. The imputed value of the metals or minerals with respect to which the election is made is not to be taken into account in determining the tax. However, if the mining company subsequently recovers any metal or mineral with respect to which the election was made from the nodules, or if it uses commercially or sells any portion of the nodules containing a metal or mineral so reserved, the tax is to be redetermined as if the election with respect to that metal or mineral or that portion had not been made. Thus, upon a subsequent processing, commercial use, or sale of a previously reserved metal or mineral (or the resource in which it is contained), an additional tax will be due from the mining company. Furthermore, in such an event, the mining company is also to pay an [5] amount equal to interest (determined at the rates for interest on deficiencies and overpayments of tax) on the additional tax for the period from the date on which the tax would have been imposed if the election had not been made to the date of processing, commercial use, or sale. It is intended that the suspension election may be made with respect to any portion of the nodules

recovered. Moreover, redeterminations of the tax shall be made only with respect to those nodules (or the intermediate products of the nodules) which are actually processed, used commercially, or sold. Unless a mining company can identify the nodules, it will be treated as processing, commercially using, or selling them on a first in-first out basis. If the metals or minerals with respect to which an election has been made are never processed, used commercially, or sold, no tax will be payable with respect to them.

The tax is not to apply to any removal of nodules from the deep seabed after the earlier of (1) 10 years after the date of enactment of the Act, or (2) the date on which an international deep seabed treaty to which the Senate has given its advice and consent to ratification takes effect with respect to the United States. For this purpose, an "international deep seabed treaty" means any treaty adopted by the United Nations Conference on the Law of the Sea which requires contributions either by the United States or the mining company to an international fund for the sharing of revenues from deep seabed mining. Any other bilateral or multilateral treaty or agreement which the United States may enter into which relates to deep seabed mining will not terminate the tax. In case an election has been made to suspend the tax with respect to certain metals or minerals from the tax, the tax will apply to those metals or minerals when they are processed, used, or sold even if that date is subsequent to the termination date of the tax, if removal from the deep seabed occurred prior to the termination date.

Matters relating to collection and other administrative aspects of the tax are to be determined under applicable provisions of the Internal Revenue Code of 1954 and regulations promulgated by the Treasury Department.

Deep Seabed Revenue Sharing Trust Fund

The proceeds of the excise tax are held in a Deep Seabed Revenue Sharing Trust Fund established pursuant to title IV of the bill. The Trust Fund is to be administered by the Treasury Department and is to consist of the amounts appropriated or credited to it in accordance with title IV.

Title IV of the bill provides that amounts in the Trust Fund shall be available, as provided by appropriations Acts, for making contributions which may be required pursuant to an international deep seabed treaty (as described above under the heading "Excise Tax") which may become effective with respect to the United States on or before the date 10 years after the date of the enactment of H.R. 2759. The contributions for which Trust Fund amounts may be appropriated are to be for the purpose of sharing the revenue from deep seabed mining among nations of the world. Nothing in title IV is intended to authorize any program or other activity not otherwise authorized by law.

* * * * *

[6] *Effect on tax, tariff, and customs laws*

The title specifically provides that nothing in H.R. 2759, other than the tax imposed by title IV, shall affect the application of the Internal Revenue Code of 1954 or the application of the customs and tariff laws of the United States. It is anticipated that the tax, customs, and tariff consequences of deep seabed mining will be the subject of future [7] legislative proposals which may be considered by the committee. Accordingly, this provision is intended to make it clear that, pending that consideration, H.R. 2759 will not explicitly or implicitly convey any tax, customs or tariff benefits which would not be available in its absence.

Effective date

The provisions relating to the excise tax on deep seabed mining are to take effect on January 1, 1980. They are to terminate on the earlier of the date 10 years from the date of the enactment of H.R. 2759, or at the time when an international deep seabed treaty comes into effect with respect to the United States.

Senate Report No. 96-307 1st Session

[Bracketed numerals indicate official report page numbers]

DEEP SEABED MINERAL RESOURCES ACT

AUGUST 9, 1979

Mr. JACKSON, from the Committee on Energy and Natural Resources, and on behalf of Mr. CANNON, from the Committee on Commerce, Science, and Transportation; and Mr. CHURCH, from the Committee on Foreign Relations, submitted the following report together with additional views to accompany S. 493. [1]

The Committee on Energy and Natural Resources; Commerce, Science and Transportation; and Foreign Relations, to which was jointly referred the bill (S. 493) to promote the orderly development of hard mineral resources in the deep seabed, pending adoption of an international regime relating thereto, and for other purposes, having considered the same, reports favorably thereon with amendments and recommends that the bill, as amended, do pass.

PURPOSE

The Deep Seabed Mineral Resources Act is designed to promote the conservation and orderly development of the manganese nodule resources of the deep seabed by United States citizens. It is interim legislation which expressly provides that it will be superseded by the terms of any international agreement binding on the United States. Negotiations looking toward such an agreement are currently underway at the Third United

[64] DEPARTMENT OF THE TREASURY,
OFFICE OF THE GENERAL COUNSEL,
Washington, D.C.,
April 10, 1979.

HON. HENRY M. JACKSON,
Chairman, U.S. Senate, Committee on Energy and Natural Resources, Washington, D.C.

DEAR MR. CHAIRMAN: This is in reply to your request for the views of the Department of the Treasury on S. 493, the "Deep Seabed Mineral Resources Act."

* * * * *

[65] Title V may also be cited as the "Deep Seabed Hard Mineral Removal Tax Act of 1979." The Department has no objection to the provisions contained in section 502 and strongly supports section 504.

However, the Department has two technical comments relating to section 502. First, the definitions in proposed section 4496 of the Internal Revenue Code includes a definition of the Continental Shelf. The Department notes that this definition is broader than the definition of continental shelf areas contained in section 638 of the Internal Revenue Code. Second, the Department notes that the effective date provision in subsection (c) does not require the issuance of regulations required by proposed section 4497 of the Internal Revenue Code dealing with imputed value. Although the imputed value determinations required to be done by regulation could be accomplished by the Secretary of the Treasury without regulations, the Internal Revenue [66] Service will need administrative time to develop the program and forms required by a regulatory scheme.

Amounts equivalent to the taxes imposed under section 502 would be credited to the Deep Seabed Fund established by section 503. The Department supports the establishment of this fund in this case to bolster the principle of the "common heritage of mankind." The 3.75 percent is a reasonable revenue sharing obligation under domestic seabed legislation and is high enough to demonstrate the United States commitment to this principle.

The Department, however, is reviewing the transfer, management, and expenditures provision of the fund to determine their consistency with current fiscal policy. A separate report will be submitted by the Department to Congress regarding these technical aspects of the Deep Seabed Fund.

The Office of Management and Budget has advised that there is no objection from the standpoint of the Administrations program to the submission of this report to your Committee.

Sincerely yours,

H. C. STOCKELL, JR.,
Deputy General Counsel.

* * * * *

[96] ADDITIONAL VIEWS OF THE COMMITTEE ON FOREIGN RELATIONS

S. 493 is similar to the bill (S. 2053) reported by the Committee on August 16, 1978. Therefore, in its mark-up on July 30, 1979, the Committee focused primarily upon the differences between S. 493, as reported by the Energy Committee, and the bill reported last session. The Committee also took note of certain changes proposed to the bill by the Commerce Committee in its mark-up of July 27, 1979.

Fifteen principal issues were considered by the Foreign Relations Committee:

1. DEEP SEABED FUND AND TAX PROVISIONS: TITLE V

The Committee endorsed the establishment of a deep seabed fund, represented by Title V of S. 493, as providing the basis for United States contributions to any future deep seabed regime established by a Law of the Sea Treaty. It recalled that during its consideration of S. 2053 last year, the Committee had decided to recommend a royalty figure of 10 percent of imputed value, rather than the 3.75 percent contained in S. 493. However, the Committee took note of the fact that the Administration was not supporting this higher royalty figure and that the mining industry was strongly opposed to it. No changes were made in Title V.

Public Law 96-293
96th Congress, H.R. 7685
June 30, 1980

An Act to amend title IV of the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1] to postpone for one month the date on which the corporation must pay benefits under terminated multiemployer plans.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 4082(c) of title IV of the Employee Retirement Income Security Act of 1974 (relating to effective dates; special rules) as amended by Public Law 95-214, Public Law 96-24 [1979-2 C.B. 471], and Public Law 96-239 [1980-1 C.B. 566] is further amended—

(1) by striking "July 1, 1980" in paragraphs (1), (2), and (4) and substituting "August 1, 1980" in each such paragraph; and

(2) by striking "June 30, 1980" in paragraphs 2(B) and 4(D) and substituting "July 31, 1980" in each such paragraph.

Approved June 30, 1980.

Pub. L. 96-294 [1]
96th Congress, S. 932
June 30, 1980

An Act to extend the Defense Production Act of 1950, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Energy Security Act".

TITLE I—SYNTHETIC FUEL

* * * * *

Part B—United States Synthetic Fuels Corporation

Subtitle A—General Provisions

SHORT TITLE

Sec. 111. This part may be cited as the "United States Synthetic Fuels Corporation Act of 1980".

* * * * *

Subtitle F—Capitalization and Finance

* * * * *

TAX STATUS

Sec. 155. (a) The Corporation, its franchise, capital, reserves, surplus, income, and intangible property shall be exempt from all taxation now or hereafter imposed by the United States, or by any State, county, municipality, or local taxing authority, except that—

(1) any real property owned in fee by the Corporation shall be subject to State, territorial, county, municipal, or other local taxation to the same extent, according to its value, as other similarly situated and used real property, without discrimination in the valuation, classification, or assessment thereof;

(2) the Corporation and its employees shall be subject to any nondiscriminatory payroll and employment taxes intended to finance benefits based upon employment (such as social security and unemployment benefits) to the same extent as any privately owned corporation; and

(3) with respect to any Corporation construction project undertaken pursuant to subtitle E, the Corporation shall be subject to any nondiscriminatory tax levied or imposed by any State, county, municipality, or local taxing authority on—

(A) the extraction or severance of minerals owned or leased by the Corporation; and

(B) the purchase or lease of tangible personal property.

(b) With respect to any loan or debt obligation which is (1) issued after the enactment of this part by, or on behalf of, any State or any political subdivision or governmental entity thereof, (2) guaranteed or otherwise secured by the Corporation prior to the approval of a comprehensive strategy under section 126(c), and (3) not supported by the full faith and credit of the issuer as a general obligation of the issuer, the interest paid on such obligation and received by the purchaser thereof (or the purchaser's successors in interest) shall be included in gross income for the purposes of chapter 1 of the Internal Revenue Code of 1954: *Provided,* That with respect to the amount of such obligations that the issuer would have been able to issue as tax exempt obligations (other than obligations secured by the full faith and credit of the issuer as a general obligation of the issuer), the Corporation is authorized to pay only to the issuer any portion of the interest on such obligations, as determined by the Secretary of the Treasury after taking into account the interest rate which would have been paid on the obligations had they been issued as tax exempt obligations without being so guaranteed or otherwise secured by the Corporation and the interest rate actually paid on the obligations when issued as taxable obligations. Such payments shall be made in amounts determined by the Corporation, and in accordance with such terms and conditions as the Secretary of the Treasury shall require.

TITLE V—SOLAR ENERGY AND ENERGY CONSERVATION

SHORT TITLE

Sec. 501. This title may be cited as the "Solar Energy and Energy Conservation Act of 1980".

Subtitle A—Solar Energy and Energy Conservation Bank

SHORT TITLE

Sec. 502. This subtitle may be cited as the "Solar Energy and Energy Conservation Bank Act".

* * * * *

[1] This publication of the law is restricted to excerpts involving tax matters; Senate Report No. 96-824 published in part, page 430; House Reports No. 96-165 and 96-1104 and Senate Reports No. 96-166 and 96-387 are not published.

Part 1—Establishment and Operation of the Bank

* * * * *

BOARD OF DIRECTORS

SEC. 506. (a) The Bank shall be governed by a Board of Directors. The Board shall consist of the Secretary of Housing and Urban Development, the Secretary of Energy, the Secretary of the Treasury, the Secretary of Agriculture, and the Secretary of Commerce.

(b) Three members of the Board shall constitute a quorum.

(c) The Chairperson of the Board shall be the Secretary of Housing and Urban Development.

(d) The President of the Bank shall be the Secretary of the Board.

(e) The Board shall carry out the functions of the Bank as set forth in this subtitle and shall adopt such regulations, subject to the provisions of section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)), as the Board determines are necessary to carry out such functions.

(f) The Board shall provide to the Secretary of the Treasury such information as the Secretary of the Treasury determines is necessary to insure that no individual is allowed for the same expenditure both—

(1) a credit against taxes under section 38 or section 44C of the Internal Revenue Code of 1954; and

(2) financial assistance under this subtitle.

* * * * *

PROVISION OF FINANCIAL ASSISTANCE

SEC. 509. * * *

* * * * *

(b) Financial assistance may be provided under subsection (a) only if—

* * * * *

(2) the financial assistance is provided in the form described in paragraph (1) or (2) of subsection (a) and—

* * * * *

(E) the owner or tenant receiving such loan has not applied for or received any credit against taxes allowed by section 38 or section 44C of the Internal Revenue Code of 1954 for the expenditures made with the proceeds of such loan, or portion of a loan.

(c) The amount of any financial assistance provided under this subtitle shall not be included in the gross income of any person for purposes of the Internal Revenue Code of 1954, and such person shall not receive any increase in basis under the Internal Revenue Code of 1954 which is attributable to the amount of any financial assistance provided under this subtitle.

* * * * *

CONDITIONS ON FINANCIAL ASSISTANCE FOR SOLAR ENERGY SYSTEMS

SEC. 515. * * *

(b)(1) In addition to the conditions contained in section 513 and subsection (a), financial assistance may be provided by a financial institution to a builder under this subtitle for the purchase and installation of a solar energy system in a residential building only if—

(A) the Board determines that—

(i) in order to encourage the construction or substantial rehabilitation of a greater number or residential buildings containing solar energy systems it is necessary to provide financial assistance under this subtitle directly to builders;

(ii) providing any financial assistance under this subtitle directly to builders is a more effective expenditure of such assistance to encourage the construction or substantial rehabilitation of residential buildings containing solar energy systems than providing such assistance only to the purchasers of such buildings; and

(iii) the Board, in consultation with the Secretary of the Treasury, is able to establish a procedure which will prevent the purchaser (who buys the building from the builder) of a residential building for which a builder received financial assistance under this subtitle from receiving additional assistance under this subtitle for the same expenditures for which the builder received assistance and from being allowed a credit against taxes under section 38 or section 44C of the Internal Revenue Code of 1954 for such expenditures;

(B) the Board establishes a procedure which prevents the purchaser (who buys the building from the builder) of a residential building for which a builder received financial assistance under this subtitle from receiving additional assistance under this subtitle for the same expenditures for which the builder received assistance and from being allowed a credit against taxes under section 38 or section 44C of the Internal Revenue Code of 1954 for such expenditures;

(C) the builder agrees to, and does, disclose to the purchaser (who buys the building from the builder) in writing at the time of signing the sales contract for such building—

(i) the expenditures with respect to such building for which the builder received financial assistance under this subtitle; and

(ii) that the purchaser may not be allowed a credit against taxes for such expenditures under section 38 or section 44C of the Internal Revenue Code of 1954; and

(D) in addition to any other information required by this subtitle to be provided, the builder agrees to, and does, provide to the Bank such information as the Board determines, in consultation with the Secretary of the Treasury, is necessary to assure that the purchaser (who buys the building from the builder) is not allowed a credit against taxes for such expenditures under section 38, or section 44C, of the Internal Revenue Code of 1954.

(2) Any expenditures, made by a builder for the purchase and installation of a solar energy system in a building, for which the builder received financial assistance under this subtitle shall be considered expenditures from subsidized energy financing by the purchaser (who buys such building from the builder) for pur-

poses of section 38 and section 44C of the Internal Revenue Code of 1954.

* * * * *

SUBTITLE B—UTILITY PROGRAM

* * * * *

TAX TREATMENT

SEC. 545. Section 216 of the National Energy Conservation Policy Act is amended by adding the following new subsection at the end thereof:

"(i) TAX TREATMENT.—The value of any subsidy provided by a utility to any residential customer for the purchase and installation of residential energy conservation measures shall not be included in the gross income of such customer for purposes of the Internal Revenue Code of 1954, and such customer shall not receive any increase in basis under the Internal Revenue Code of 1954 which is attributable to any such subsidy.".

* * * * *

[200] PART B—UNITED STATES SYNTHETIC FUELS CORPORATION

* * * * *

[1] Public Law 96-294, page 428.

[227] SUBTITLE F—CAPITALIZATION AND FINANCE

* * * * *

[229] *Tax Status (Sec. 155)*

Section 155(a) provides that the Corporation, its franchise, capital, reserve, surplus, income and intangible property shall be exempt from all Federal, State and local taxes, except that (1) any real property owned in fee by the Corporation shall be subject to nondiscriminatory State and local taxes to the same extent as other similarly situated and used property; and (2) its employees shall be subject to any non-discriminatory payroll and employment tax levied for the purpose of employee benefits and to the same extent as any privately owned corporation. In addition, the Corporation construction projects shall be subject to any non-discriminatory tax levied or imposed by any State, county, municipality, or local taxing authority on those assets of the Corporation construction project pursuant to Subtitle E, including only

(i) the extraction or severance of minerals owned or leased by the Corporation, and

(ii) on the purchase or lease of tangible personal property.

Subsection 155(b)

Section 155(b) establishes debt obligations the Federal tax policy to be followed for Federal taxation of gross income from State and local bonds, which are guaranteed by the Corporation pursuant to Section 133 or which are secured by financial assistance from the Corporation pursuant to Subtitle D during Phase I. The interest paid on any such State or local loan or debt obligations issued after the enactment of this Title is to be included in the gross income of obligation purchasers to the extent that such obligations are not supported by the full faith and credit as a general obligation of the issuer. Because it is anticipated that the taxation of this interest will impose additional costs on issuers than would otherwise be paid in connection with tax-exempt issuances, the Secretary of the Treasury is authorized to determine, and the Corporation is authorized to pay an interest differential payment to issuers for the purpose of compensation for these increased costs incurred as the consequence of taxable status of interest on the obligations. In calculating the amount of the payment which may be made respecting each specific issue of obligation, the Secretary of the Treasury shall take into account the interest which would have been paid if the obligations were issued as tax exempt obligations, and the interest rate actually paid on the taxable obligations.

A price support commitment from the Corporation may be used for a project financed tax exempt bond if, but only if, there is no pledge of the price support commitment as security for the bonds. It is the intention of the Conference Committee that a bond be considered secured by a price support and thus taxable if the bondholders are given a pledge of the price support payments which would entitle the bondholders to receive the prize support payments prior to any other creditors of the owners and/or operators of the facility subject to the price support payments. Where bondholders have rights [230] to the price support payments only as general creditors of the owners or operators of the facility, the Conference Committee does not intend that such bonds be deemed to be "otherwise secured" and thus taxable under Section 155(b).

In order that this interest differential payment authority shall not have the effect of encouraging applicants to seek project financing through State and local governments or agencies, the Conferees intend that the Corporation will exercise this payment authority only where there are clear public benefits to be derived from a project in excess of the benefits which would be derived if the pyament were not made. The Conferees do not expect the Corporation to make extensive use of this payment provision. Nor is it expected that the full amount of the interest differential will be paid in all cases.

Further, the Conferees direct the Corporation to assure in each instance that the entire value of the payment will be used to reduce the debt service cost of the project.

* * * * *

[278] TITLE V—SOLAR ENERGY AND ENERGY CONSERVATION

* * * * *

[293] SUBTITLE B—UTILITY PROGRAM

* * * * *

[294] *Tax treatment*

Section 545 provides that any subsidy provided to a customer by a utility's financing program for residential energy conservation measures shall not be treated as income or as an increase in the basis of the customer's residence for tax purposes.

The conferees intend that any financial assistance which is provided to a customer by a utility for residential energy conservation measures and which does not include Federal, State or local governmental financial assistance (such as assistance from the Solar Energy and Energy Conservation Bank) shall not be considered subsidized energy financing for the purposes of the Internal Revenue Code, and shall not, therefore, disqualify such a customer from receiving the relevant tax credits for expenditures so financed.

* * * * *

Public Law 96-298
96th Congress, H.R. 7477 [1]
July 1, 1980

An Act to amend the Internal Revenue Code of 1954 to provide a three-month extension of the taxes which are transferred to the Airport and Airway Trust Fund.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF TAXES.

(a) TAX ON FUEL USED IN NONCOMMERCIAL AVIATION. — Paragraph (5) of section 4041(c) of the Internal Revenue Code of 1954 (relating to termination of tax on fuel for noncommercial aviation) is amended by striking out "July 1, 1980" and inserting in lieu thereof "October 1, 1980".

(b) TAX ON TRANSPORTATION BY AIR.—Sections 4261(e) and 4271(d) of such Code are each amended by striking out "June 30, 1980" and inserting in lieu thereof "September 30, 1980".

(c) TAX ON USE OF AIRCRAFT.—

(1) IN GENERAL.—Subsection (e) of section 4491 of such Code (relating to termination of tax on use of aircraft) is amended by striking out "July 1, 1980" and inserting in lieu thereof "October 1, 1980".

(2) TRANSITIONAL RULE.—For the period beginning on July 1, 1980, and ending on October 1, 1980—

(A) subsection (a) of section 4491 of such Code shall be applied by substituting "$6.25" for "$25", "½ cent" for "2 cents", and "⅞ cent" for "3½ cents", and

(B) such section 4491 shall be applied by treating such period as a year.

(3) POSTPONEMENT OF DUE DATE FOR FILING RETURN.—The due date for filing any return of the tax imposed by section 4491 of the Internal Revenue Code of 1954 with respect to any use after June 30, 1980, shall not be earlier than October 31, 1980.

(d) EXTENSION OF AIRPORT AND AIRWAY TRUST FUND.—Subsection (b) of section 208 of the Airport and Airway Revenue Act of 1970 [1970-1 C.B. 361, 368] is amended by striking out "July 1, 1980" each place it appears and inserting in lieu thereof "October 1, 1980".

Approved July 1, 1980.

House of Representatives
Report No. 96-1077
2d Session

[Bracketed numerals indicate official report page numbers]

THREE-MONTH EXTENSION OF THE TAXES WHICH ARE TRANSFERRED TO THE AIRPORT AND AIRWAY TRUST FUND

JUNE 5, 1980.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed.

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 7477.[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 7477) to amend the Internal Revenue Code of 1954 to provide a 3-month extension of the taxes which are transferred to the Airport and Airway Trust Fund, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment—stated in terms of the page and line numbers of the introduced bill—is as follows:

Page 2, after line 18, insert the following:

(3) POSTPONEMENT OF DUE DATE FOR FILING RETURN.—The due date for filing any return of the tax imposed by section 4491 of the Internal Revenue Code of 1954 with respect to any use after June 30, 1980, shall not be earlier than October 31, 1980.

I. SUMMARY

Under present law, the aviation-related excise taxes now transferred to the Airport and Airway Trust Fund are scheduled either to expire or be reduced on July 1, 1980.

The bill extends the present law aviation excise taxes at their present rate structure for a 3-month period, July 1, 1980-September 30, 1980, in order to provide additional time for the Congress to complete its consideration of the trust fund extension legislation. The Committee on Ways and Means has approved an amendment for a 5-year extension of the trust fund which will be offered as a separate title

[1] House Report No. 96-1077, this page.

[1] Public Law 96-298, this page.

to H.R. 6721. The bill, H.R. 7477, also extends the transfer of the aviation excise tax revenues to the trust fund for the same 3-month period. In addition, the bill provides that the due date for filing a return for payment of the aircraft use tax for the 3-month period will not be earlier than October 31, 1980.

[2] II. EXPLANATION OF BILL

Present law

Under present law, the aviation-related excise taxes now transferred to the Airport and Airway Trust Fund are scheduled either to expire or be reduced on July 1, 1980. The following table shows the present law aviation excise taxes and the rates scheduled for July 1, 1980, under present law.

SCHEDULE OF AIRPORT AND AIRWAY TRUST FUND EXCISE TAXES UNDER PRESENT LAW

Tax (and Code section)	Present rate	Rate scheduled for July 1, 1980
Air passenger ticket tax (secs. 4261(a) and (b))	8%	5%
Air freight waybill tax (sec. 4271)	5%	----
International departure tax (sec. 4261(c))	$3	----
Fuels tax for noncommercial (general) aviation (per gallon) (sec. 4041(c))[1]	7¢	[4] 4¢
Aircraft use tax (sec. 4491)[1]	([2])	----
Aircraft tires and tubes tax (secs. 4071)	([3])	([3])

[1] The tax does not apply to aircraft, owned by a tax-exempt aircraft museum defined in sec. 404(h), which are operated exclusively for the procurement, care, and exhibition of World War II aircraft.

[2] A tax of two parts: (1) $25 annual per plane registration tax, plus (2) a weight tax of 3½ cents per pound for turbine-powered (jet) aircraft and 2 cents per pound for nonturbine-powered aircraft for each pound in excess of 2,500 pounds of "maximum certificated takeoff weight."

[3] Taxed at the general rates for nonhighway tires (5 cents per pound) and tubes (10 cents per pound) under Code sec. 4071.

[4] Tax on gasoline fuel only. As of July 1, 1980, the additional 3-cents-per-gallon tax on gasoline used in noncommercial aviation aircraft would expire, and the 7-cents-per-gallon tax on non-gasoline fuels (e.g. kerosene—jet fuel) would also expire.

Ways and Means Committee amendment to H.R. 6721

On May 28, 1980, the Ways and Means Committee approved an amendment, which is to be offered as a separate title to H.R. 6721 (the Airport and Airway Improvement Act of 1980), as reported by the Public Works and Transportation Committee and the Science and Technology Committee.

The Ways and Means Committee amendment generally extends the Airport and Airway Trust Fund and the aviation excise taxes transferred to the trust fund through September 30, 1985 (fiscal year 1985). However, certain modifications were made to the aviation taxes: (1) the air passenger ticket tax was extended at 8 percent through September 30, 1982, with a reduction to 5 percent on October 1, 1982; (2) the [3] aircraft use tax was repealed for noncommercial aircraft (i.e., allowed to expire on July 1, 1980), while the use tax on commercial aircraft was extended through September 30, 1985; (3) the fuels tax on noncommercial aviation was increased to 8½ cents per gallon on July 1, 1980 through September 30, 1985, and (4) other amendments were made relating to the 225-mile zone rule for air transportation between the United States, and Canada, and Mexico, the treatment of international uninterrupted flights, and the manner in which airline tickets must show the air fare and the ticket tax.

Reasons for change

The committee concluded that the present law aviation excise taxes should be extended at their present rates for the 3-month period, July 1, 1980-September 30, 1980, in order to provide additional time for orderly Congressional consideration of H.R. 6721. If present law is not extended, the 8-percent air passenger ticket tax will drop to 5 percent on July 1, and the revenues will go into the general fund. Also, the 5-percent waybill tax, the $3 departure tax, and the aircraft use tax will expire on July 1. In addition, the fuels tax on noncommercial aviation jet fuel will expire, and the tax on noncommercial aviation gasoline will drop to 4 cents per gallon. In view of the closeness of the July 1 date, the committee believes that expeditious Congressional action is necessary for a short-term extension of the present law tax rates so that there is some certainty as to the applicable tax rates for the coming months while the Congress considers the extension of the trust fund authorizations.

Explanation of provision

The bill extends the present law aviation taxes at the present tax rates for a 3-month period, or July 1, 1980-September 30, 1980. For purposes of the aircraft use tax, the bill treats the 3-month period as a taxable year at one-fourth the annual tax rate now imposed.[1] (i.e., the $25 annual per plane tax will be $6.25, and the respective weight taxes on jet and non-jet aircraft will be at one-fourth the present tax rates.) Also, the bill provides that the due date for filing a return for the aircraft use tax for the period beginning after June 30, 1980, will not be due earlier than October 31, 1980.

In addition, the bill extends for the 3-month period the transfer of the aviation excise tax revenues to the Airport and Airway Trust Fund.

Effective date

The provisions of the bill are gen-

[1] Under Code section 4491, the taxable year for purposes of the annual aircraft use tax presently is July 1-June 30, with the use tax being imposed (on a prorated basis for the weight portion of the tax) on an aircraft in the month the plane is first used. Payment of the use tax is due generally by the end of the month following the month of first use.

erally effective for the 3-month period July 1, 1980-September 30, 1980. The amendment with respect to the time of filing a return for payment of the aircraft use tax for the 3-month period provides that the due date for such a return will not be earlier than October 31, 1980.

INTERNAL REVENUE SERVICE

PAYMENT WHERE ENERGY CREDIT EXCEEDS LIABILITY FOR TAX

For an additional amount for "Payment where energy credit exceeds liability for tax", $1,000,000.

GENERAL PROVISION

(INCLUDING TRANSFER OF FUNDS)

SEC. 1. Any appropriation made available to the Internal Revenue Service for the current fiscal year by this Act may be transferred to any other Internal Revenue Service appropriation only to the extent necessary for increased pay costs authorized by or pursuant to law:

Provided, however, That no funds may be transferred into or out of the account entitled "Payment where energy credit exceeds liability for tax": *Provided further,* That none of the funds made available pursuant to the provisions of this Act shall be used to formulate or carry out any rule, policy, procedure, guideline, regulation, standard, or measure which would cause the loss of tax-exempt status to private, religious, or church-operated schools under section 501(c)(3) of the Internal Revenue Code of 1954 unless in effect prior to August 22, 1978.

* * * * *

Approved July 8, 1980.

Public Law 96-320
96th Congress, S. 2492[1]
August 3, 1980

An Act to regulate commerce, promote energy self-sufficiency, and protect the environment, by establishing procedures for the location, construction, and operation of ocean thermal energy conversion facilities and plantships to produce electricity and energy-intensive products off the coasts of the United States; to amend the Merchant Marine Act, 1936, to make available certain financial assistance for construction and operation of such facilities and plantships; and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Ocean Thermal Energy Conversion Act of 1980".

* * * * *

SEC. 3. DEFINITIONS

As used in this Act, unless the context otherwise requires, the term—

* * * * *

(10) "licensee" means the holder of a valid license for the ownership, construction, and operation of an ocean thermal energy conversion facility or plantship that was issued, transferred, or renewed pursuant to this Act;

(11) "ocean thermal energy conversion facility" means any facility which is standing or moored in or beyond the territorial sea of the United States and which is designed to use temperature differences in ocean water to produce electricity or another form of energy capable of being used directly to perform work, and includes any equipment installed on such facility to use such electricity or other form of energy to produce, process, refine, or manufacture a product, and any cable or pipeline used to deliver such electricity, freshwater, or product to shore, and all other associated equipment and appurtenances of such facility, to the extent they are located seaward of the highwater mark;

(12) "ocean thermal energy conversion plantship" means any vessel which is designed to use temperature differences in ocean water while floating unmoored or moving through such water, to produce electricity or another form of energy capable of being used directly to perform work, and includes any equipment installed on such vessel to use such electricity or other form of energy to produce, process, refine, or manufacture a product, and any equipment used to transfer such product to other vessels for transportation to users, and all other associated equipment and appurtenances of such vessel;

(13) "plantship" means an ocean thermal energy conversion plantship;

* * * * *

(18) "United States citizen" means (A) any individual who is a citizen of the United States by law, birth, or naturalization; (B) any Federal, State, or local government in the United States, or any entity of any such government; or (C) any corporation, partnership, association, or other entity, organized or existing under the laws of the United States, or of any State, which has as its president or other executive officer and as its chairman of the board of directors, or holder of similar office, an individual who is a United States citizen and which has no more of its directors who

are not United States citizens than constitute a minority of the number required for a quorum necessary to conduct the business of the board.

* * * * *

TITLE II—MARITIME FINANCING FOR OCEAN THERMAL ENERGY CONVERSION

SEC. 201. DETERMINATIONS UNDER THE MERCHANT MARINE ACT, 1936.

(a)(1) For the purposes of section 607 of the Merchant Marine Act, 1936 [amended by Pub. L. 91-469, 1970-2 C.B. 372] (46 U.S.C. 1177), any ocean thermal energy conversion facility or plantship licensed pursuant to this Act, and any vessel providing shipping service to or from such an ocean thermal energy conversion facility or plantship, shall be deemed to be a vessel operated in the foreign commerce of the United States.

(2) The provisions of paragraph (1) of this subsection shall apply for taxable years beginning after December 31, 1981.

(b) For the purposes of the Merchant Marine Act, 1936 (46 U.S.C. 1177 et seq.) any vessel documented under the laws of the United States and used in providing shipping service to or from any ocean thermal energy conversion facility or plantship licensed pursuant to the provisions of this Act shall be deemed to be used in, and used in an essential service in, the foreign commerce or foreign trade of the United States, as defined in section 905 (a) of the Merchant Marine Act, 1936 (46 U.S.C. 1244(a)).

* * * * *

SEC. 203. OTEC DEMONSTRATION FUND.

(a) Title XI of the Merchant Marine Act, 1936 (46 U.S.C. 1271-1279b) is further amended by adding at the end thereof a new section 1110 to read as follows:

"SEC. 1110. (a) Pursuant to the authority granted under section 1103(a) of this title, the Secretary of Commerce, upon such terms as he shall prescribe, may guarantee or make a commitment to guarantee, payment of the principal of and interest on an obligation which aids in financing, including reimbursement of an obligor for expenditures previously made for, construction, reconstruction, or reconditioning of a commercial demonstration ocean thermal energy conversion facility or plant-ship owned by citizens of the United States. Guarantees or commitments to guarantee under this subsection shall be subject to all the provisos, requirements, regulations, and procedures which apply to guarantees or commitments to guarantee made pursuant to section 1104(a)(1) of this title, except that—

"(1) no guarantees or commitments to guarantee may be made by the Secretary of Commerce under this subsection before October 1, 1981;

"(2) the provisions of subsection (d) of section 1104 of this title shall apply to guarantees or commitments to guarantee for that portion of a commercial demonstration ocean thermal energy conversion facility or plantship not to be supported with appropriated Federal funds;

"(3) guarantees or commitments to guarantee made pursuant to this section may be in an aggregate principal amount which does not exceed 87½ percent of the actual cost or depreciated actual cost of the commercial demonstration ocean thermal energy conversion facility or plantship: *Provided,* That, if the commercial demonstration ocean thermal energy conversion facility or plantship is supported with appropriated Federal funds, such guarantees or commitments to guarantee may not exceed 87½ percent of the aggregate principal amount of that portion of the actual cost or depreciated actual cost for which the obligor has an obligation to secure financing in accordance with the terms of the agreement between the obligor and the Department of Energy or other Federal agency; and

"(4) the provisions of this section may be used to guarantee obligations for a total of not more than 5 separate commercial demonstration ocean thermal energy conversion facilities and plantships or a demonstrated 400 megawatt capacity, whichever comes first.

* * * * *

"(e) The interest on any obligation guaranteed under this section shall be included in gross income for purposes of chapter 1 of the Internal Revenue Code of 1954.".

* * * * *

Approved August 3, 1980.

House of Representatives Report No. 96-994 2d Session

[Bracketed numerals indicate official report page numbers]

OCEAN THERMAL ENERGY CONVERSION ACT OF 1980

Mr. MURPHY of New York, from the Committee on Merchant Marine and Fisheries, submitted the following report to accompany H.R. 6154.[1]

* * * * *

The Committee on Merchant Marine and Fisheries, to whom was referred the bill (H.R. 6154) to regulate commerce, promote energy self-sufficiency, and protect the environment, by establishing procedures for the location, construction, and operation of ocean thermal energy conversion facilities and plantships to produce electricity and energy-intensive products off the coast of the United States; to amend the Merchant Marine Act, 1936, to make available certain financial assistance for construction and operation of such facilities and plantships; and for other purposes, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

* * * * *

[38] SECTION-BY SECTION ANALYSIS

* * * * *

[1] Public Law 96-320, page 433.

[39] *Section 3. Definitions*

Unless the context requires otherwise—

* * * * *

[40] (11) "Ocean thermal energy facility," or OTEC facility, means any facility which is standing or moored in or beyond the territorial sea of the United States and which is designed to use temperature differences in ocean water to produce electricity or another form of energy capable of being used directly to perform work, and includes any equipment installed on such facility to use such electricity or other form of energy to produce, process, refine, or manufacture a product, and any cable or pipeline used to deliver fresh water or such electricity or product to shore, and all other associated equipment and appurtenances of such facility, to the extent they are located seaward of the highwater mark. The Committee intends that the waters of the Atlantic, Pacific, and Arctic Oceans, the Gulf of Mexico, and the Great Lakes be considered as ocean waters for the purposes of this definition. The definition is intended to include all types of OTEC cycles. If an OTEC facility is built on land with warm and cold water pipes extending out into the ocean, the definition includes that portion of the warm and cold water pipes, and any other parts of the facility, located seaward of the highwater mark.

(12) "Ocean thermal energy conversion plantship", or OTEC plantship, means any vessel which is designed to use temperature differences in ocean water, while floating unmoored or moving through such water, to produce electricity or another form of energy capable of being used directly to perform work, and includes any equipment installed on such vessel to use such electricity or other form of energy to produce, process, refine, or manufacture a product, and any equipment used to transfer such product to other vessels for transportation to users, and all other associated equipment and appurtenances of such vessel. The Commitee intends that the waters of the Great Lakes and all Oceans, Gulfs, and other bodies of water at least part of which are included within the definition of "high seas" be considered as ocean waters for the purposes of this definition. The definition is intended to include all types of OTEC cycles, and all types of OTEC vessels, whether mobile or dynamically positioned.

* * * * *

[50] TITLE II—MARITIME FINANCING FOR OCEAN THERMAL ENERGY CONVERSION FACILITIES AND PLANTSHIPS

Section 201. Determinations under Merchant Marine Act, 1936

Subsection (a) states that for the purposes of section 607 of the Merchant Marine Act, 1936, any OTEC facility or plantship licensed under this Act, and any vessel providing shipping services to or from such an OTEC facility or plantship, is deemed to be a vessel operated [51] in the foreign commerce of the United States. This interpretation of section 607 will apply for taxable years beginning after December 31, 1981. The substantive effect of this statement in the bill is to clarify that OTEC facilities and plantships, and vessels serving them, are eligible to use the capital construction fund provisions of the 1936 Act.

Subsection (b) states that for the purposes of the Merchant Marine Act, 1936, any vessel documented under the laws of the United States and used in providing shipping service to or from an OTEC facility or plantship licensed under this Act shall be deemed to be used in, and used in an essential service in, the foreign commerce or foreign trade of the United States, as defined in section 905(a) of the 1936 Act. The substantive effect of this statement in the bill is to clarify that vessels serving OTEC facilities and plantships are eligible for the same financing and financial assistance programs (including construction differential subsidy and operating differential subsidy) which apply to vessels carrying cargo between United States and foreign ports under the provisions of the 1936 Act, if they meet the specific requirements for receipt of such assistance.

* * * * *

Section 203. OTEC Demonstration Fund

This section amends Title XI of the Merchant Marine Act, 1936, to set up a special subfund within the Federal Ship Financing Fund to apply to mortgage obligation guarantees for pilot or demonstration OTEC facilities and plantships which would not satisfy the "economically sound" criterion which is required for the regular Title XI program by section 1104(d). Such pilot or demonstration projects would have to be approved or participated in by the Department of Energy, and the mortgage obligation guarantee could cover no more than 87½ percent of the amount of private capital invested in the project. The limit on all mortgage obligation guarantees for OTEC pilot and demonstration plants is set at $2 billion, and the special provisions of this section could be used for not more than 5 OTEC pilot or demonstration projects. The special subfund would not be set up, and the loan guarantees could not be committed, until October 1, [52] 1981. Bonds or other obligations guaranteed under this section will be subject to regular income tax treatment, and may not be tax exempt.

IN THE HOUSE OF REPRESENTATIVES, U.S.,

August 26, 1980.

The House of Representatives having proceeded to reconsider the bill (H.R. 7102) entitled "An Act to amend title 38, United States Code, to promote the recruitment and retention of physicians, dentists, nurses, and other health-care personnel in the Department of Medicine and Surgery of the Veterans' Administration, and for other purposes", returned by the President of the United States with his objections, to the House of Representatives, in which it originated, it was

Resolved, That the said bill pass, two-thirds of the House of Representatives agreeing to pass the same.

EDMUND L. HENSHAW, JR.
Clerk.

By Thomas E. Ladd
Assistant to the Clerk.

I certify that this Act originated in the House of Representatives.

EDMUND L. HENSHAW, JR.
Clerk.

By W. Raymond Colley
Deputy Clerk.

IN THE SENATE OF THE UNITED STATES,

August 26 (legislative day, June 12), 1980.

The Senate having proceeded to reconsider the bill (H.R. 7102) entitled "An Act to amend title 38, United States Code, to promote the recruitment and retention of physicians, dentists, nurses, and other health-care personnel in the Department of Medicine and Surgery of the Veterans' Administration, and for other purposes", returned by the President of the United States with his objections, to the House of Representatives, in which it originated, and passed by the House of Representatives on reconsideration of the same, it was

Resolved, That the said bill pass, two-thirds of the Senators present having voted in the affirmative.

Attest:

J. S. KIMMITT
Secretary.

House of Representatives Report No. 96-958 2d Session

[Bracketed numerals indicate official report page numbers]

VETERANS' ADMINISTRATION HEALTH-CARE PERSONNEL ACT OF 1980

MAY 14, 1980.

Mr. ROBERTS, from the Committee on Veterans' Affairs, submitted the following report to accompany H.R. 7102.[1]

* * * * *

TITLE II—VETERANS ADMINISTRATION HEALTH PROFESSIONAL SCHOLARSHIP PROGRAM

Section 201(a) of the bill would amend chapter 73 of title 38 by adding thereto a new subchapter IV. This new subchapter would create the Veterans Administration Health Personnel Scholarship Program.

The first section of the proposed new subchapter (section 4141) would establish the Scholarship Program "to assist in providing an adequate supply of trained health care personnel for the Veterans' Administration and the Nation." The main purpose of the bill would be to enhance the Veterans Administration's ability to recruit and retain physicians, dentists, and certain other health care professionals. An incidental effect of the bill would be to increase the number of health professionals nationwide. Scholarships to new participants in this program would not be furnished after the last day of the tenth fiscal year following the fiscal year in which the program is initiated. The date of initiation of

[1] Public Law 96-330, page 435.

the program would be the date the first scholarship is approved by the Administrator.

* * * * *

Section 4145 of the proposed new subchapter would, notwithstanding any other provision of law, exempt from taxation any payments to, or on behalf of, a participant for tuition, reasonable education expenses, or monthly stipend under the Scholarship Program.

* * * * *

Public Law 96-364
96th Congress, H.R. 3904 [1]
September 26, 1980

An act to amend the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1] and the Internal Revenue Code of 1954 to improve retirement income security under private multiemployer pension plans by strengthening the funding requirements for those plans, to authorize plan preservation measures for financially troubled multiemployer pension plans, and to revise the manner in which the pension plan termination insurance provisions apply to multiemployer plans, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

This Act may be cited as the "Multiemployer Pension Plan Amendments Act of 1980".

* * * * *

SEC. 3. FINDINGS AND DECLARATION OF POLICY

(a) The Congress finds that—

(1) multiemployer pension plans have a substantial impact on interstate commerce and are affected with a national public interest;

(2) multiemployer pension plans have accounted for a substantial portion of the increase in private pension plan coverage over the past three decades;

(3) the continued well-being and security of millions of employees, retirees, and their dependents are directly affected by multiemployer pension plans; and

(4)(A) withdrawals of contributing employers from a multiemployer pension plan frequently result in substantially increased funding obligations for employers who continue to contribute to the plan, adversely affecting the plan, its participants and beneficiaries, and labor-management relations, and

(B) in a declining industry, the incidence of employer withdrawals is higher and the adverse effects described in subparagraph (A) are exacerbated.

(b) The Congress further finds that —

(1) it is desirable to modify the current multiemployer plan termination insurance provisions in order to increase the likelihood of protecting plan participants against benefit losses; and

(2) it is desirable to replace the termination insurance program for multiemployer pension plans with an insolvency-based benefit protection program that will enhance the financial soundness of such plans, place primary emphasis on plan continuation, and contain program costs within reasonable limits.

(c) It is hereby declared to be the policy of this Act—

(1) to foster and facilitate interstate commerce,

(2) to alleviate certain problems which tend to discourage the maintenance and growth of multiemployer pension plans,

(3) to provide reasonable protection for the interests of participants and beneficiaries of financially distressed multiemployer pension plans, and

(4) to provide a financially self-sufficient program for the guarantee of employee benefits under multiemployer plans.

* * * * *

TITLE II—AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1954

SEC. 201. AMENDMENT OF THE INTERNAL REVENUE CODE OF 1954

Except as otherwise expressly provided, whenever in this title an amendment is expressed in terms of an amendment to a section or other provision, the reference is to a section or other provision of the Internal Revenue Code of 1954.

SEC. 202. MULTIEMPLOYER PLANS IN REORGANIZATION

(a) GENERAL RULE.—Part I of subchapter D of chapter 1 (relating to pension, profit sharing, stock bonus plans, etc.) is amended by inserting at the end thereof the following new subpart:

"Subpart C—Special Rules for Multiemployer Plans

"Sec. 418. Reorganization status.
"Sec. 418A. Notice of reorganization and funding requirements.
"Sec. 418B. Minimum contribution requirement.
"Sec. 418C. Overburden credit against minimum contribution requirement.
"Sec. 418D. Adjustments in accrued benefits.
"Sec. 418E. Insolvent plans.

"SEC. 418. REORGANIZATION STATUS

"(a) GENERAL RULE.—A multiemployer plan is in reorganization for a plan year if the plan's reorganization index for that year is greater than zero.

"(b) REORGANIZATION INDEX.—For purposes of this subpart—

"(1) IN GENERAL.—A plan's reorganization index for any plan year is the excess of—

"(A) the vested benefits charge for such year, over

---

[1] This publication of the law and House Report No. 96-869 Part II, page 451, are restricted to excerpts involving tax matters. House Report No. 96-869 Part I, and Conference Report No. 96-1343 are not published.

"(B) the net charge to the funding standard account for such year.

"(2) NET CHARGE TO FUNDING STANDARD ACCOUNT.—The net charge to the funding standard account for any plan year is the excess (if any) of—

"(A) the charges to the funding standard account for such year under section 412(b)(2), over

"(B) the credits to the funding standard account under section 412(b)(3)(B).

"(3) VESTED BENEFITS CHARGE.—The vested benefits charge for any plan year is the amount which would be necessary to amortize the plan's unfunded vested benefits as of the end of the base plan year in equal annual installments—

"(A) over 10 years, to the extent such benefits are attributable to persons in pay status, and

"(B) over 25 years, to the extent such benefits are attributable to other participants.

"(4) DETERMINATION OF VESTED BENEFITS CHARGE.—

"(A) IN GENERAL.—The vested benefits charge for a plan year shall be based on an actuarial valuation of the plan as at the end of the base plan year, adjusted to reflect—

"(i) any—

"(I) decrease of 5 percent or more in the value of plan assets, or increase of 5 percent or more in the number of persons in pay status, during the period beginning on the first day of the plan year following the base plan year and ending on the adjustment date, or

"(II) at the election of the plan sponsor, actuarial valuation of the plan as of the adjustment date or any later date not later than the last day of the plan year for which the determination is being made,

"(ii) any change in benefits under the plan which is not otherwise taken into account under this subparagraph and which is pursuant to any amendment—

"(I) adopted before the end of the plan year for which the determination is being made, and

"(II) effective after the end of the base plan year and on or before the end of the plan year referred to in subclause (I), and

"(iii) any other event (including an event described in subparagraph (B)(i)(I) which, as determined in accordance with regulations prescribed by the Secretary, would substantially increase the plan's vested benefit charge.

"(B) CERTAIN CHANGES IN BENEFIT LEVELS.—

"(i) IN GENERAL.—In determining the vested benefits charge for a plan year following a plan year in which the plan was not in reorganization, any change in benefits which—

"(I) results from the changing of a group of participants from one benefit level to another benefit level under a schedule of plan benefits as a result of changes in a collective bargaining agreement, or

"(II) results from any other change in a collective bargaining agreement,

shall not be taken into account except to the extent provided in regulations prescribed by the Secretary.

"(ii) PLAN IN REORGANIZATION.—Except as otherwise determined by the Secretary, in determining the vested benefits charge for any plan year following any plan year in which the plan was in reorganization, any change in benefits—

"(I) described in clause (i)(I), or

"(II) described in clause (i)(II)

as determined under regulations prescribed by the Secretary,

shall, for purposes of subparagraph (A)(ii), be treated as a change in benefits pursuant to an amendment to a plan.

"(5) BASE PLAN YEAR.—

"(A) IN GENERAL.—The base plan year for any plan year is—

"(i) if there is a relevant collective bargaining agreement, the last plan year ending at least 6 months before the relevant effective date, or

"(ii) if there is no relevant collective bargaining agreement, the last plan year ending at least 12 months before the beginning of the plan year.

"(B) RELEVANT COLLECTIVE BARGAINING AGREEMENT.—A relevant collective bargaining agreement is a collective bargaining agreement—

"(i) which is in effect for at least 6 months during the plan year, and

"(ii) which has not been in effect for more than 36 months as of the end of the plan year.

"(C) RELEVANT EFFECTIVE DATE.—The relevant effective date is the earliest of the effective dates for the relevant collective bargaining agreements.

"(D) ADJUSTMENT DATE. — The adjustment date is the date which is—

"(i) 90 days before the relevant effective date, or

"(ii) if there is no relevant effective date, 90 days before the beginning of the plan year.

"(6) PERSON IN PAY STATUS.—The term 'person in pay status' means—

"(A) a participant or beneficiary on the last day of the base plan year who, at any time during such year, was paid an early, late, normal, or disability retirement benefit (or a death benefit related to a retirement benefit), and

"(B) to the extent provided in regulations prescribed by the Secretary, any other person who is entitled to such a benefit under the plan.

"(7) OTHER DEFINITIONS AND SPECIAL RULES.—

"(A) UNFUNDED VESTED BENEFITS.—The term 'unfunded vested benefits' means, in connection with a plan, an amount (determined in accordance with regulations prescribed by the Secretary) equal to—

"(i) the value of vested benefits under the plan, less

"(ii) the value of the assets of the plan.

"(B) VESTED BENEFITS.—The term 'vested benefits' means any nonforfeitable benefit (within the meaning of section 4001(a)(8) of the Employee Retirement Income Security Act of 1974).

"(C) ALLOCATION OF ASSETS.—In determining the plan's unfunded vested benefits, plan assets shall first be

allocated to the vested benefits attributable to persons in pay status.

"(D) TREATMENT OF CERTAIN BENEFIT REDUCTIONS.—The vested benefits charge shall be determined without regard to reductions in accrued benefits under section 418D which are first effective in the plan year.

"(E) WITHDRAWAL LIABILITY.—For purposes of this part, any outstanding claim for withdrawal liability shall not be considered a plan asset, except as otherwise provided in regulations prescribed by the Secretary.

"(c) PROHIBITION OF NONANNUITY PAYMENTS.—Except as provided in regulations prescribed by the Pension Benefit Guaranty Corporation, while a plan is in reorganization a benefit with respect to a participant (other than a death benefit) which is attributable to employer contributions and which has a value of more than $1,750 may not be paid in a form other than an annuity which (by itself or in combination with social security, railroad retirement, or workers' compensation benefits) provides substantially level payments over the life of the participant.

"(d) TERMINATED PLANS. — Any multiemployer plan which terminates under section 4041A(a)(2) of the Employee Retirement Income Security Act of 1974 shall not be considered in reorganization after the last day of the plan year in which the plan is treated as having terminated.

"SEC. 418A. NOTICE OF REORGANIZATION AND FUNDING REQUIREMENTS

"(a) NOTICE REQUIREMENT.—

"(1) IN GENERAL.—If—

"(A) a multiemployer plan is in reorganization for a plan year, and

"(B) section 418B would require an increase in contributions for such plan year,

the plan sponsor shall notify the persons described in paragraph (2) that the plan is in reorganization and that, if contributions to the plan are not increased, accrued benefits under the plan may be reduced or an excise tax may be imposed (or both such reduction and imposition may occur).

"(2) PERSONS TO WHOM NOTICE IS TO BE GIVEN.—The persons described in this paragraph are—

"(A) each employer who has an obligation to contribute under the plan (within the meaning of section 4212(a) of the Employee Retirement Income Security Act of 1974), and

"(B) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer.

"(3) OVERBURDEN CREDIT NOT TAKEN INTO ACCOUNT.—The determination under paragraph (1)(B) shall be made without regard to the overburden credit provided by section 418C.

"(b) ADDITIONAL REQUIREMENTS. —The Pension Benefit Guaranty Corporation may prescribe additional or alternative requirements for assuring, in the case of a plan with respect to which notice is required by subsection (a)(1), that the person described in subsection (a)(2)—

"(1) receive appropriate notice that the plan is in reorganization,

"(2) are adequately informed of the implications of reorganization status, and

"(3) have reasonable access to information relevant to the plan's reorganization status.

"SEC. 418B. MINIMUM CONTRIBUTION REQUIREMENT

"(a) ACCUMULATED FUNDING DEFICIENCY IN REORGANIZATION.—

"(1) IN GENERAL.—For any plan year in which a multiemployer plan is in reorganization—

"(A) the plan shall continue to maintain its funding standard account, and

"(B) the plan's accumulated funding deficiency under section 412(a) for such plan year shall be equal to the excess (if any) of—

"(i) the sum of the minimum contribution requirement for such plan year (taking into account any overburden credit under section 418C(a)) plus the plan's accumulated funding deficiency for the preceding plan year (determined under this section if the plan was in reorganization during such plan year or under section 412(a) if the plan was not in reorganization), over

"(ii) amounts considered contributed by employers to or under the plan for the plan year (increased by any amount waived under subsection (f) for the plan year).

"(2) TREATMENT OF WITHDRAWAL LIABILITY PAYMENTS.—For purposes of paragraph (1), withdrawal liability payments (whether or not received) which are due with respect to withdrawals before the end of the base plan year shall be considered amounts contributed by the employer to or under the plan if, as of the adjustment date, it was reasonable for the plan sponsor to anticipate that such payments would be made during the plan year.

"(b) MINIMUM CONTRIBUTION REQUIREMENT.—

"(1) IN GENERAL.—Except as otherwise provided in this section, for purposes of this subpart the minimum contribution requirement for a plan year in which a plan is in reorganization is an amount equal to the excess of—

"(A) the sum of—

"(i) the plan's vested benefits charge for the plan year; and

"(ii) the increase in normal cost for the plan year determined under the entry age normal funding method which is attributable to plan amendments adopted while the plan was in reorganization, over

"(B) the amount of the overburden credit (if any) determined under section 418C for the plan year.

"(2) ADJUSTMENT FOR REDUCTIONS IN CONTRIBUTION BASE UNITS. —If the plan's current contribution base for the plan year is less than the plan's valuation contribution base for the plan year, the minimum contribution requirement for such plan year shall be equal to the product of the amount determined under paragraph

(1) (after any adjustment required by this subpart other than this paragraph) multiplied by a fraction—

"(A) the numerator of which is the plan's current contribution base for the plan year, and

"(B) the denominator of which is the plan's valuation contribution base for the plan year.

"(3) SPECIAL RULE WHERE CASH-FLOW AMOUNT EXCEEDS VESTED BENEFITS CHARGE.—

"(A) IN GENERAL.—If the vested benefits charge for a plan year of a plan in reorganization is less than the plan's cash-flow amount for the plan year, the plan's minimum contribution requirement for the plan year is the amount determined under paragraph (1) determined before the application of paragraph (2)) after substituting the term 'cash-flow amount' for the term 'vested benefits charge' in paragraph (1)(A).

"(B) CASH-FLOW AMOUNT.—For purposes of subparagraph (A), a plan's cash-flow amount for a plan year is an amount equal to—

"(i) the amount of the benefits payable under the plan for the base plan year, plus the amount of the plan's administrative expenses for the base plan year, reduced by

"(ii) the value of the available plan assets for the base plan year determined under regulations prescribed by the Secretary,

adjusted in a manner consistent with section 418(b)(4).

"(c) CURRENT CONTRIBUTION BASE; VALUATION CONTRIBUTION BASE.—

"(1) CURRENT CONTRIBUTION BASE.—For purposes of this subpart, a plan's current contribution base for a plan year is the number of contribution base units with respect to which contributions are required to be made under the plan for that plan year, determined in accordance with regulations prescribed by the Secretary.

"(2) VALUATION CONTRIBUTION BASE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), for purposes of this subpart a plan's valuation contribution base is the number of contribution base units for which contributions were received for the base plan year—

"(i) adjusted to reflect declines in the contribution base which have occurred (or could reasonably be anticipated) as of the adjustment date for the plan year referred to in paragraph (1),

"(ii) adjusted upward (in accordance with regulations prescribed by the Secretary) for any contribution base reduction in the base plan year caused by a strike or lockout or by unusual events, such as fire, earthquake, or severe weather conditions, and

"(iii) adjusted (in accordance with regulations prescribed by the Secretary) for reductions in the contribution base resulting from transfers of liabilities.

"(B) INSOLVENT PLANS.—For any plan year—

"(i) in which the plan is insolvent (within the meaning of section 418 E(b)(1)), and

"(ii) beginning with the first plan year beginning after the expiration of all relevant collective bargaining agreements which were in effect in the plan year in which the plan became insolvent,

the plan's valuation contribution base is the greater of the number of contribution base units for which contributions were received for the first or second plan year preceding the first plan year in which the plan is insolvent, adjusted as provided in clause (ii) or (iii) of subparagraph (A).

"(3) CONTRIBUTION BASE UNIT.—For purposes of this subpart, the term 'contribution base unit' means a unit with respect to which an employer has an obligation to contribute under a multiemployer plan (as defined in regulations prescribed by the Secretary).

"(d) LIMITATION ON REQUIRED INCREASES IN RATE OF EMPLOYER CONTRIBUTIONS.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, the minimum contribution requirement applicable to any plan for any plan year which is determined under subsection (b) (without regard to subsection (b)(2)) shall not exceed an amount which is equal to the sum of—

"(A) the greater of—

"(i) the funding standard requirement for such plan year, or

"(ii) 107 percent of—

"(I) if the plan was not in reorganization in the preceding plan year, the funding standard requirement for such preceding plan year, or

"(II) if the plan was in reorganization in the preceding plan year, the sum of the amount determined under this subparagraph for the preceding plan year and the amount (if any) determined under subparagraph (B) for the preceding plan year, plus

"(B) if for the plan year a change in benefits is first required to be considered in computing the charges under section 412(b)(2)(A) or (B), the sum of—

"(i) the increase in normal cost for a plan year determined under the entry age normal funding method due to increases in benefits described in section 418(b)(4)(A)(ii) (determined without regard to section 418 (b)(4)(B)(ii)), and

"(ii) the amount necessary to amortize in equal annual installments the increase in the value of vested benefits under the plan due to increases in benefits described in clause (i) over—

"(I) 10 years, to the extent such increase in value is attributable to persons in pay status, or

"(II) 25 years, to the extent such increase in value is attributable to other participants.

"(2) FUNDING STANDARD REQUIREMENT.—For purposes of paragraph (1), the funding standard requirement for any plan year is an amount equal to the net charge to the funding standard account for such plan year (as defined in section 418(b)(2)).

"(3) SPECIAL RULE FOR CERTAIN PLANS.—

"(A) IN GENERAL.—In the case of a plan described in section 4216(b) of the Employee Retirement Income Security Act of 1974, if a plan amendment which increases benefits is adopted after January 1, 1980—

"(i) paragraph (1) shall apply only if the plan is a plan described in subparagraph (B), and

"(ii) the amount under paragraph (1) shall be determined without regard to subparagraph (1)(B).

"(B) ELIGIBLE PLANS.—A plan is described in this subparagraph if—

"(i) the rate of employer contributions under the plan for the first plan year beginning on or after the date on which an amendment increasing benefits is adopted, multiplied by the valuation contribution base for that plan year, equals or exceeds the sum of—

"(I) the amount that would be necessary to amortize fully, in equal annual installments, by July 1, 1986, the unfunded vested benefits attributable to plan provisions in effect on July 1, 1977 (determined as of the last day of the base plan year); and

"(II) the amount that would be necessary to amortize fully, in equal annual installments, over the period described in subparagraph (C), beginning with the first day of the first plan year beginning on or after the date on which the amendment is adopted, the unfunded vested benefits (determined as of the last day of the base plan year) attributable to each plan amendment after July 1, 1977; and

"(ii) the rate of employer contributions for each subsequent plan year is not less than the lesser of—

"(I) the rate which when multiplied by the valuation contribution base for that subsequent plan year produces the annual amount that would be necessary to complete the amortization schedule described in clause (i), or

"(II) the rate for the plan year immediately preceding such subsequent plan year, plus 5 percent of such rate.

"(C) PERIOD.—The period determined under this subparagraph is the lesser of—

"(i) 12 years, or

"(ii) a period equal in length to the average of the remaining expected lives of all persons receiving benefits under the plan.

"(4) EXCEPTION IN CASE OF CERTAIN BENEFIT INCREASES.—Paragraph (1) shall not apply with respect to a plan, other than a plan described in paragraph (3), for the period of consecutive plan years in each of which the plan is in reorganization, beginning with a plan year in which occurs the earlier of the date of the adoption or the effective date of any amendment of the plan which increases benefits with respect to service performed before the plan year in which the adoption of the amendment occurred.

"(e) CERTAIN RETROACTIVE PLAN AMENDMENTS.—In determining the minimum contribution requirement with respect to a plan for a plan year under subsection (b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under section 412(c)(8).

"(f) WAIVER OF ACCUMULATED FUNDING DEFICIENCY.—

"(1) IN GENERAL.—The Secretary may waive any accumulated funding deficiency under this section in accordance with the provisions of section 412(d)(1).

"(2) TREATMENT OF WAIVER.—Any waiver under paragraph (1) shall not be treated as a waiver funding deficiency (within the meaning of section 412(d)(3)).

"(g) ACTUARIAL ASSUMPTIONS MUST BE REASONABLE.—For purposes of making any determination under this subpart, the requirements of section 412(c)(3) shall apply.

"SEC. 418C. OVERBURDEN CREDIT AGAINST MINIMUM CONTRIBUTION REQUIREMENT

"(a) GENERAL RULE.—For purposes of determining the contribution under section 418B (before the application of section 418B(b)(2) or (d)), the plan sponsor of a plan which is overburdened for the plan year shall apply an overburden credit against the plan's minimum contribution requirement for the plan year (determined without regard to section 418B(b)(2) or (d) and without regard to this section).

"(b) DEFINITION OF OVERBURDENED PLAN.—A plan is overburdened for a plan year if—

"(1) the average number of pay status participants under the plan in the base plan year exceeds the average of the number of active participants in the base plan year and the 2 plan years preceding the base plan year, and

"(2) the rate of employer contributions under the plan equals or exceeds the greater of—

"(A) such rate for the preceding plan year, or

"(B) such rate for the plan year preceding the first year in which the plan is in reorganization.

"(c) AMOUNT OF OVERBURDEN CREDIT.—The amount of the overburden credit for a plan year is the product of—

"(1) one-half of the average guaranteed benefit paid for the base plan year, and

"(2) the overburden factor for the plan year.

The amount of the overburden credit for a plan year shall not exceed the amount of the minimum contribution requirement for such year (determined without regard to this section).

"(d) OVERBURDEN FACTOR.—For purposes of this section, the overburden factor of a plan for the plan year is an amount equal to—

"(1) the average number of pay status participants for the base plan year, reduced by

"(2) the average of the number of active participants for the base plan year and for each of the 2 plan years preceding the base plan year.

"(e) DEFINITIONS.—For purposes of this section—

"(1) PAY STATUS PARTICIPANT.—The term 'pay status participant' means, with respect to a plan, a participant receiving retirement benefits under the plan.

"(2) NUMBER OF ACTIVE PARTICIPANTS.—The number of active participants for a plan year shall be the sum of—

"(A) the number of active employees who are participants in the plan and on whose behalf contributions are required to be made during the plan year;

"(B) the number of active employees who are not participants in the plan but who are in an employment unit covered by a collective bargaining agreement which requires the employees' employer to contribute to the plan unless service in such employment unit was never covered under the plan or a predecessor thereof, and

"(C) the total number of active employees attributed to employers who made payments to the plan for the plan year of withdrawal liability pursuant to part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974, determined by dividing—

"(i) the total amount of such payments, by

"(ii) the amount equal to the total contributions received by the plan during the plan year divided by the average number of active employees who were participants in the plan during the plan year.

The Secretary shall by regulations provide alternative methods of determining active participants where (by reason of irregular employment, contributions on a unit basis, or otherwise) this paragraph does not yield a representative basis for determining the credit.

"(3) AVERAGE NUMBER.—The term 'average number' means, with respect to pay status participants for a plan year, a number equal to one-half the sum of—

"(A) the number with respect to the plan as of the beginning of the plan year, and

"(B) the number with respect to the plan as of the end of the plan year.

"(4) AVERAGE GUARANTEED BENEFIT.—The average guaranteed benefit paid is 12 times the average monthly pension payment guaranteed under section 4022A(c)(1) of the Employee Retirement Income Security Act of 1974 determined under the provisions of the plan in effect at the beginning of the first plan year in which the plan is in reorganization and without regard to section 4022A(c)(2).

"(5) FIRST YEAR IN REORGANIZATION.—The first year in which the plan is in reorganization is the first of a period of 1 or more consecutive plan years in which the plan has been in reorganization not taking into account any plan years the plan was in reorganization prior to any period of 3 or more consecutive plan years in which the plan was not in reorganization.

"(f) NO OVERBURDEN CREDIT IN CASE OF CERTAIN REDUCTIONS IN CONTRIBUTIONS.—

"(1) IN GENERAL.—Notwithstanding any other provision of this section, a plan is not eligible for an overburden credit for a plan year if the Secretary finds that the plan's current contribution base for any plan year was reduced, without a corresponding reduction in the plan's unfunded vested benefits attributable to pay status participants, as a result of a change in an agreement providing for employer contributions under the plan.

"(2) TREATMENT OF CERTAIN WITHDRAWALS.—For purposes of paragraph (1), a complete or partial withdrawal of an employer (within the meaning of part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974) does not impair a plan's eligibility for an overburden credit, unless the Secretary finds that a contribution base reduction described in paragraph (1) resulted from a transfer of liabilities to another plan in connection with the withdrawal.

"(g) MERGERS.—Notwithstanding any other provision of this section, if 2 or more multiemployer plans merge, the amount of the overburden credit which may be applied under this section with respect to the plan resulting from the merger for any of the 3 plan years ending after the effective date of the merger shall not exceed the sum of the used overburden credit for each of the merging plans for its last plan year ending before the effective date of the merger. For purposes of the preceding sentence, the used overburden credit is that portion of the credit which does not exceed the excess of the minimum contribution requirement determined without regard to any overburden credit under this section over the employer contributions required under the plan.

"SEC. 418D ADJUSTMENTS IN ACCRUED BENEFITS.

"(a) ADJUSTMENTS IN ACCRUED BENEFITS.—

"(1) IN GENERAL.—Notwithstanding section 411, a multiemployer plan in reorganization may be amended, in accordance with this section, to reduce or eliminate accrued benefits attributable to employer contributions which, under section 4022A(b) of the Employee Retirement Income Security Act of 1974, are not eligible for the Pension Benefit Guaranty Corporation's guarantee. The preceding sentence shall only apply to accrued benefits under plan amendments (or plans) adopted after March 26, 1980, or under collective bargaining agreement entered into after March 26, 1980.

"(2) ADJUSTMENT OF VESTED BENEFITS CHARGE.—In determining the minimum contribution requirement with respect to a plan for a plan year under section 418B(b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under this section or section 412(c)(8), but only if the amendment is adopted and effective no later than 2½ months after the end of the plan year, or within such extended period as the Secretary may prescribe by regulations under section 412(c)(10).

"(b) LIMITATION ON REDUCTION.—

"(1) IN GENERAL.—Accrued benefits may not be reduced under this section unless—

"(A) notice has been given, at least 6 months before the first day of the plan year in which the amendment reducing benefits is adopted, to—

"(i) plan participants and beneficiaries,

"(ii) each employer who has an obligation to contribute (within the meaning of section 4212(a) of the Employee Retirement Income Security Act of 1974) under the plan, and

"(iii) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer,

that the plan is in reorganization and that, if contributions under the plan are not increased, accrued benefits under the plan will be reduced or an excise tax will be imposed on employers;

"(B) in accordance with regulations prescribed by the Secretary—

"(i) any category of accrued benefits is not reduced with respect to inactive participants to a greater extent proportionally that such category of accrued benefits is reduced with respect to active participants,

"(ii) benefits attributable to employer contributions other than accrued benefits and the rate of future benefit accruals are reduced at least to an extent equal to the reduction in accrued benefits of inactive participants, and

"(iii) in any case in which the accrued benefit of a participant or beneficiary is reduced by changing the benefit form or the requirements which the participant or beneficiary must satisfy to be entitled to the benefit, such reduction is not applicable to—

"(I) any participant or beneficiary in pay status on the effective date of the amendment, or the beneficiary of such a participant, or

"(II) any participant who has attained normal retirement age, or who is within 5 years of attaining normal retirement age, on the effective date of the amendment, or the beneficiary of any such participant; and

"(C) the rate of employer contributions for the plan year in which the amendment becomes effective and for all succeeding plan years in which the plan is in reorganization equals or exceeds the greater of—

"(i) the rate of employer contributions, calculated without regard to the amendment, for the plan year in which the amendment becomes effective, or

"(ii) the rate of employer contributions for the plan year preceding the plan year in which the amendment becomes effective.

"(2) INFORMATION REQUIRED TO BE INCLUDED IN NOTICE.—The plan sponsors shall include in any notice required to be sent to plan participants and beneficiaries under paragraph (1) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

"(c) NO RECOUPMENT.—A plan may not recoup a benefit payment which is in excess of the amount payable under the plan because of an amendment retroactively reducing accrued benefits under this section.

"(d) BENEFIT INCREASES UNDER MULTIEMPLOYER PLAN IN REORGANIZATION.—

"(1) RESTORATION OF PREVIOUSLY REDUCED BENEFITS.—

"(A) IN GENERAL.—A plan which has been amended to reduce accrued benefits under this section may be amended to increase or restore accrued benefits, or the rate of future benefit accruals, only if the plan is amended to restore levels of previously reduced accrued benefits of inactive participants and of participants who are within 5 years of attaining normal retirement age to at least the same extent as any such increase in accrued benefits or in the rate of future benefit accruals.

"(B) BENEFIT INCREASES AND BENEFIT RESTORATIONS.—For purposes of this subsection, in the case of a plan which has been amended under this section to reduce accrued benefits—

"(i) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit increase to the extent that the benefit, or the accrual rate, is thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan before the effective date of the amendment reducing accrued benefits, and

"(ii) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit restoration to the extent that the benefit, or the accrual rate, is not thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan immediately before the effective date of the amendment reducing accrued benefits.

"(2) UNIFORMITY IN BENEFIT RESTORATION.—If a plan is amended to partially restore previously reduced accrued benefit levels, or the rate of future benefit accruals, the benefits of inactive participants shall be restored in at least the same proportions as other accrued benefits which are restored.

"(3) NO BENEFIT INCREASES IN YEAR OF BENEFIT REDUCTION.—No benefit increase under a plan may take effect in a plan year in which an amendment reducing accrued benefits under the plan, in accordance with this section, is adopted or first becomes effective.

"(4) RETROACTIVE PAYMENTS.—A plan is not required to make retroactive benefit payments with respect to that portion of an accrued benefit which was reduced and subsequently restored under this section.

"(e) INACTIVE PARTICIPANT.—For purposes of this section, the term 'inactive participant' means a person not in covered service under the plan who is in pay status under the plan or who has a nonforfeitable benefit under the plan.

"(f) REGULATIONS.—The Secretary may prescribe rules under which, notwithstanding any other provision of this section, accrued benefit reductions or benefit increases for different participant groups may be varied equitably to reflect variations in contribution rates and other relevant factors reflecting differences in negotiated levels of financial support for plan benefit obligations.

"SEC. 418E. INSOLVENT PLANS.

"(a) SUSPENSION OF CERTAIN BEN-

EFIT PAYMENTS. — Notwithstanding section 411, in any case in which benefit payments under an insolvent multiemployer plan exceed the resource benefit level, any such payments of benefits which are not basic benefits shall be suspended, in accordance with this section, to the extent necessary to reduce the sum of such payments and the payments of such basic benefits to the greater of the resource benefit level or the level of basic benefits, unless an alternative procedure is prescribed by the Pension Benefit Guaranty Corporation under section 4022A(g)(5) of the Employee Retirement Income Security Act of 1974.

"(b) DEFINITIONS.—For purposes of this section, for a plan year—

"(1) INSOLVENCY. — A multiemployer plan is insolvent if the plan's available resources are not sufficient to pay benefits under the plan when due for the plan year, or if the plan is determined to be insolvent under subsection (d).

"(2) RESOURCE BENEFIT LEVEL.—The term 'resource benefit level' means the level of monthly benefits determined under subsections (c)(1) and (3) and (d)(3) to be the highest level which can be paid out of the plan's available resources.

"(3) AVAILABLE RESOURCES.—The term 'available resources' means the plan's cash, marketable assets, contributions, withdrawal liability payments, and earnings, less reasonable administrative expenses and amounts owed for such plan year to the Pension Benefit Guaranty Corporation under section 4261(b)(2) of the Employee Retirement Income Security Act of 1974.

"(4) INSOLVENCY YEAR.—The term 'insolvency year' means a plan year in which a plan is insolvent.

"(c) BENEFIT PAYMENTS UNDER INSOLVENT PLANS.—

"(1) DETERMINATION OF RESOURCE BENEFIT LEVEL.—The plan sponsor of a plan in reorganization shall determine in writing the plan's resource benefit level for each insolvency year, based on the plan sponsor's reasonable projection of the plan's available resources and the benefits payable under the plan.

"(2) UNIFORMITY OF THE BENEFIT SUSPENSION.—The suspension of benefit payments under this section shall, in accordance with regulations prescribed by the Secretary, apply in substantially uniform proportions to the benefits of all persons in pay status (within the meaning of section 418(b)(6)) under the plan, except that the Secretary may prescribe rules under which benefit suspensions for different participant groups may be varied equitably to reflect variations in contribution rates and other relevant factors including differences in negotiated levels of financial support for plan benefit obligations.

"(3) RESOURCE BENEFIT LEVEL BELOW LEVEL OF BASIC BENEFITS.—Notwithstanding paragraph (2), if a plan sponsor determines in writing a resource benefit level for a plan year which is below the level of basic benefits, the payment of all benefits other than basic benefits shall be suspended for that plan year.

"(4) EXCESS RESOURCES.—

"(A) IN GENERAL.—If, by the end of an insolvency year, the plan sponsor determines in writing that the plan's available resources in that insolvency year could have supported benefit payments above the resource benefit level for that insolvency year, the plan sponsor shall distribute the excess resources to the participants and beneficiaries who received benefit payments from the plan in that insolvency year, in accordance with regulations prescribed by the Secretary.

"(B) EXCESS RESOURCES.—For purposes of this paragraph, the term 'excess resources' means available resources above the amount necessary to support the resource benefit level, but no greater than the amount necessary to pay benefits for the plan year at the benefit levels under the plan.

"(5) UNPAID BENEFITS.—If, by the end of an insolvency year, any benefit has not been paid at the resource benefit level, amounts up to the resource level which were unpaid shall be distributed to the participants and beneficiaries, in accordance with regulations prescribed by the Secretary, to the extent possible taking into account the plan's total available resources in that insolvency year.

"(6) RETROACTIVE PAYMENTS.—Except as provided in paragraph (4) or (5), a plan is not required to make retroactive benefit payments with respect to that portion of a benefit which was suspended under this section.

"(d) PLAN SPONSOR DETERMINATION.—

"(1) TRIENNIAL TEST.—As of the end of the first plan year in which a plan is in reorganization, and at least every 3 plan years thereafter (unless the plan is no longer in reorganization), the plan sponsor shall compare the value of plan assets (determined in accordance with section 418B(b)(3)(B)(ii)) for that plan year with the total amount of benefit payments made under the plan for that plan year. Unless the plan sponsor determines that the value of plan assets exceeds 3 times the total amount of benefit payments, the plan sponsor shall determine whether the plan will be insolvent in any of the next 3 plan years.

"(2) DETERMINATION OF INSOLVENCY.—If, at any time, the plan sponsor of a plan in reorganization reasonably determines, taking into account the plan's recent and anticipated financial experience, that the plan's available resources are not sufficient to pay benefits under the plan when due for the next plan year, the plan sponsor shall make such determination available to interested parties.

"(3) DETERMINATION OF RESOURCE BENEFIT LEVEL.—The plan sponsor of a plan in reorganization shall determine in writing for each insolvency year the resource benefit level and the level of basic benefits no later than 3 months before the insolvency year.

"(e) NOTICE REQUIREMENTS.—

"(1) IMPENDING INSOLVENCY.—If the plan sponsor of a plan in reorganization determines under subsection (d)(1) or (2) that the plan may become insolvent (within the meaning of

subsection (b)(1)), the plan sponsor shall—

"(A) notify the Secretary, the Pension Benefit Guaranty Corporation, the parties described in section 418A(a)(2), and the plan participants and beneficiaries of that determination, and

"(B) inform the parties described in section 418A(a)(2) and the plan participants and beneficiaries that if insolvency occurs certain benefit payments will be suspended, but that basic benefits will continue to be paid.

"(2) RESOURCE BENEFIT LEVEL.—No later than 2 months before the first day of each insolvency year, the plan sponsor of a plan in reorganization shall notify the Secretary, the Pension Benefit Guaranty Corporation, the parties described in section 418A(a)(2), and the plan participants and beneficiaries of the resource benefit level determined in writing for that insolvency year.

"(4) POTENTIAL NEED FOR FINANCIAL ASSISTANCE.—In any case in which the plan sponsor anticipates that the resource benefit level for an insolvency year may not exceed the level of basic benefits, the plan sponsor shall notify the Pension Benefit Guaranty Corporation.

"(4) REGULATIONS. — Notice required by this subsection shall be given in accordance with regulations prescribed by the Pension Benefit Guaranty Corporation, except that notice to the Secretary shall be given in accordance with regulations prescribed by the Secretary.

"(5) CORPORATION MAY PRESCRIBE TIME.—The Pension Benefit Guaranty Corporation may prescribe a time other than the time prescribed by this section for the making of a determination or the filing of a notice under this section.

"(f) FINANCIAL ASSISTANCE.—

"(1) PERMISSIVE APPLICATION.—If the plan sponsor of an insolvent plan for which the resource benefit level is above the level of basic benefits anticipates that, for any month in an insolvency year, the plan will not have funds sufficient to pay basic benefits, the plan sponsor may apply for financial assistance from the Pension Benefit Guaranty Corporation under section 4261 of the Employee Retirement Income Security Act of 1974.

"(2) MANDATORY APPLICATION.—A plan sponsor who has determined a resource benefit level for an insolvency year which is below the level of basic benefits shall apply for financial assistance from the Pension Benefit Guaranty Corporation under section 4261 of the Employee Retirement Income Security Act of 1974.

"(g) FINANCIAL ASSISTANCE.—Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this subpart in such manner as determined by the Secretary.".

(b) CLERICAL AMENDMENT.—The table of subparts for part I of subchapter D of chapter 1 is amended by adding at the end thereof the following new subpart:

"Subpart C. Special rules for multiemployer plans.".

SEC. 203. MINIMUM FUNDING REQUIREMENTS

Section 412 (relating to minimum funding standards) is amended—

(1) in subsection (b), by striking out "(40 plan years in the case of a multiemployer plan)" and "(20 plan years in the case of a multiemployer plan)" each place they appear;

(2) by adding at the end of subsection (b) the following new paragraphs:

"(6) CERTAIN AMORTIZATION CHARGES AND CREDITS.—In the case of a plan which, immediately before the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980, was a multiemployer plan (within the meaning of section 414(f) as in effect immediately before such date)—

"(A) any amount described in paragraph (2)(B)(ii), (2)(B)(iii), or (3)(B)(i) of this subsection which arose in a plan year beginning before such date shall be amortized in equal annual installments (until fully amortized) over 40 plan years, beginning with the plan year in which the amount arose;

"(B) any amount described in paragraph (2)(B)(iv) or (3)(B)(ii) of this subsection which arose in a plan year beginning before such date shall be amortized in equal annual installments (until fully amortized) over 20 plan years, beginning with the plan year in which the amount arose;

"(C) any change in past service liability which arises during the period of 3 plan years beginning on or after such date, and results from a plan amendment adopted before such date, shall be amortized in equal annual installments (until fully amortized) over 40 plan years, beginning with the plan year in which the change arises; and

"(D) any change in past service liability which arises during the period of 2 plan years beginning on or after such date, and results from the changing of a group of participants from one benefit level to another benefit level under a schedule of plan benefits which—

"(i) was adopted before such date, and

"(ii) was effective for any plan participant before the beginning of the first plan year beginning on or after such date,

shall be amortized in equal annual installments (until fully amortized) over 40 plan years, beginning with the plan year in which the change arises.

"(7) SPECIAL RULES FOR MULTIEMPLOYER PLANS.—For purposes of this section—

"(A) WITHDRAWAL LIABILITY. — Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall be considered an amount contributed by the employer to or under the plan. The Secretary may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments

from being unduly reflected as advance funding for plan liabilities.

"(B) ADJUSTMENTS WHEN A MULTIEMPLOYER PLAN LEAVES REORGANIZATION.—If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year—

"(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

"(ii) shall be taken into account in subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 418B(a) as of the end of the last plan year that the plan was in reorganization.

"(C) PLAN PAYMENTS TO SUPPLEMENTAL PROGRAM OR WITHDRAWAL LIABILITY PAYMENT FUND.—Any amount paid by a plan during a plan year to the Pension Benefit Guaranty Corporation pursuant to section 4222 of such Act or to a fund exempt under section 501(c)(22) pursuant to section 4223 of such Act shall reduce the amount of contributions considered received by the plan for the plan year.

"(D) INTERIM WITHDRAWAL LIABILITY PAYMENTS.—Any amount paid by an employer pending a final determination of the employer's withdrawal liability under part 1 of subtitle E of title IV of such Act and subsequently refunded to the employer by the plan shall be charged to the funding standard account in accordance with regulations prescribed by the Secretary.

"(E) For purposes of the full funding limitation under subsection (c)(7), unless otherwise provided by the plan, the accrued liability under a multiemployer plan shall not include benefits which are not nonforfeitable under the plan after the termination of the plan (taking into consideration section 411(d)(3))."; and

(3) by adding at the end thereof the following new subsection:

"(j) CERTAIN TERMINATED MULTIEMPLOYER PLANS.—This section applies with respect to a terminated multiemployer plan to which section 4021 of the Employee Retirement Income Security Act of 1974 applies, until the last day of the plan year in which the plan terminates, within the meaning of section 4041A(a)(2) of that Act.

"(k) FINANCIAL ASSISTANCE.—Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this section in such manner as determined by the Secretary.".

SEC. 204. EXCISE TAXES

Section 4971 (relating to taxes on failure to meet minimum funding standard) is amended—

(1) by striking out "last sentence" in subsection (c) and inserting in lieu thereof "last two sentences"; and

(2) by adding at the end of subsection (d) the following new sentence: "In the case of a multiemployer plan which is in reorganization under section 418, the same notice and opportunity shall be provided to the Pension Benefit Guaranty Corporation.".

SEC. 205. DEDUCTIBILITY OF EMPLOYER LIABILITY PAYMENTS

Subsection (g) of section 404 (relating to certain employer liability payments considered as contributions) is amended to read as follows:

"(g) CERTAIN EMPLOYER LIABILITY PAYMENTS CONSIDERED AS CONTRIBUTIONS.—

"(1) IN GENERAL.—For purposes of this section, any amount paid by an employer under section 4062, 4063, or 4064, or part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall be treated as a contribution to which this section applies by such employer to or under a stock bonus, pension, profit-sharing, or annuity plan.

"(2) CONTROLLED GROUP DEDUCTIONS.—In the case of a payment described in paragraph (1) made by an entity which is liable because it is a member of a commonly controlled group of corporations, trades, or businesses, within the meaning of subsection (b) or (c) of section 414, the fact that the entity did not directly employ participants of the plan with respect to which the liability payment was made shall not affect the deductibility of a payment which otherwise satisfies the conditions of section 162 (relating to trade or business expenses) or section 212 (relating to expenses for the production of income).

"(3) COORDINATION WITH SUBSECTION (a).—Any payment described in paragraph (1) shall (subject to the last sentence of subsection (a)(1)(A)) be deductible under this section when paid.".

SEC. 206. MINIMUM VESTING REQUIREMENTS

Section 411 (relating to minimum vesting standards) is amended—

(1) by adding at the end of subsection (a)(3) the following new subparagraphs:

"(E) CESSATION OF CONTRIBUTIONS UNDER A MULTIEMPLOYER PLAN.—A right to an accrued benefit derived from employer contributions under a multiemployer plan shall not be treated as forfeitable solely because the plan provides that benefits accrued as a result of service with the participant's employer before the employer had an obligation to contribute under the plan may not be payable if the employer ceases contributions to the multiemployer plan.

"(F) REDUCTION AND SUSPENSION OF BENEFITS BY A MULTIEMPLOYER PLAN.—A participant's right to an accrued benefit derived from employer contributions under a multiemployer plan shall not be treated as forfeitable solely because—

"(i) the plan is amended to reduce benefits under section 418D or under section 4281 of the Employee Retirement Income Security Act of 1974, or

"(ii) benefit payments under the plan may be suspended under section 418E or under section 4281 of the Em-

ployee Retirement Income Security Act of 1974.";

(2) in subsection (a)(4)(E), by striking out "and";

(3) in subsection (a)(4)(F), by striking out the period and inserting in lieu thereof "; and";

(4) by adding at the end of subsection (a)(4) the following new subparagraph:

"(G) in the case of a multiemployer plan, years of service—

"(i) with an employer after—

"(I) a complete withdrawal of that employer from the plan (within the meaning of section 4203 of the Employee Retirement Income Security Act of 1974), or

"(II) to the extent permitted in regulations prescribed by the Secretary, a partial withdrawal described in section 4205(b)(2)(A)(i) of such Act in conjunction with the decertification of the collective bargaining representative, and

"(ii) with any employer under the plan after the termination date of the plan under section 4048 of such Act."; and

(5) in subsection (d)(6), by striking out "section 412(c)(8)" and inserting in lieu thereof "section 412(c)(8), or section 4281 of the Employee Retirement Income Security Act of 1974".

SEC. 207. DEFINITION OF MULTIEMPLOYER PLAN

(a) Section 414 (relating to definitions and special rules) is amended by striking out subsection (f) and inserting in lieu thereof the following:

"(f) MULTIEMPLOYER PLAN.—

"(1) DEFINITION.—For purposes of this part, the term 'multiemployer plan' means a plan—

"(A) to which more than one employer is required to contribute,

"(B) which is maintained pursuant to one or more collective bargaining agreements between one or more employee organizations and more than one employer, and

"(C) which satisfies such other requirements as the Secretary of Labor may prescribe by regulation.

"(2) CASES OF COMMON CONTROL.—For purposes of this subsection, all trades or businesses (whether or not incorporated) which are under common control within the meaning of subsection (c) are considered a single employer.

"(3) CONTINUATION OF STATUS AFTER TERMINATION.—Notwithstanding paragraph (1), a plan is a multiemployer plan on and after its termination date under title IV of the Employee Retirement Income Security Act of 1974 if the plan was a multiemployer plan under this subsection for the plan year preceding its termination date.

"(4) TRANSITIONAL RULE.—For any plan year which began before the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980, the term 'multiemployer plan' means a plan described in this subsection as in effect immediately before that date.

"(5) SPECIAL ELECTION.—Within one year after the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980, a multiemployer plan may irrevocably elect, pursuant to procedures established by the Pension Benefit Guaranty Corporation and subject to the provisions of section 4403(b) and (c) of the Employee Retirement Income Security Act of 1974, that the plan shall not be treated as a multiemployer plan for any purpose under such Act or this title, if for each of the last 3 plan years ending prior to the effective date of the Multiemployer Pension Plan Amendments Act of 1980—

"(A) the plan was not a multiemployer plan because the plan was not a plan described in section 3(37)(A)(iii) of the Employee Retirement Income Security Act of 1974 and section 414(f)(1)(C) (as such provisions were in effect on the day before the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980); and

"(B) the plan had been identified as a plan that was not a multiemployer plan in substantially all its filings with the Pension Benefit Guaranty Corporation, the Secretary of Labor and the Secretary.".

SEC. 208. RELATED TECHNICAL AMENDMENTS

(a) Sections 401(a)(12) and 414(l) are each amended by striking out the last sentence and inserting in lieu thereof the following: "The preceding sentence does not apply to any multiemployer plan with respect to any transaction to the extent that participants either before or after the transaction are covered under a multiemployer plan to which title IV of the Employee Retirement Income Security Act of 1974 applies."

(b) Subsection (d) of section 4975 is amended—

(1) by striking out "or" at the end of paragraph (12);

(2) by striking out the period at the end of paragraph (13) and inserting in lieu thereof a semicolon; and

(3) by inserting after paragraph (13) the following new paragraphs:

"(14) any transaction required or permitted under part 1 of subtitle E of title IV or section 4223 of the Employee Retirement Income Security Act of 1974, but this paragraph shall not apply with respect to the application of subsection (c)(1)(E) or (F); or

"(15) a merger of multiemployer plans, or the transfer of assets or liabilities between multiemployer plans, determined by the Pension Benefit Guaranty Corporation to meet the requirements of section 4231 of such Act, but this paragraph shall not apply with respect to the application of subsection (c)(1)(E) or (F).".

(c) Section 412(a) is amended by adding at the end thereof the following new sentence: "In any plan year in which a multiemployer plan is in reorganization, the accumulated funding deficiency of the plan shall be determined under section 418B.".

(d) Section 413(b)(6) is amended by adding at the end thereof the following new sentence: "For purposes of this subsection and the last sentence of section 4971(a), an employer's withdrawal liability under part 1 of

subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall not be treated as a liability for contributions under the plan.'.

(e) Section 401(a)(2), as amended by section 411(b) of this Act, is amended by inserting ", or the return of any withdrawal liability payment determined to be an overpayment within 6 months of such determination" after "501(a)".

SEC. 209. WITHDRAWAL LIABILITY PAYMENT FUNDS

(a) Subsection (c) of section 501 (relating to list of exempt organizations) is amended by adding at the end thereof the following new paragraph:

"(22) A trust created or organized in the United States and established in writing by the plan sponsors of multiemployer plans if—

"(A) the purpose of such trust is exclusively—

"(i) to pay any amount described in section 4223(c) or (h) of the Employee Retirement Income Security Act of 1974, and

"(ii) to pay reasonable and necessary administrative expenses in connection with the establishment and operation of the trust and the processing of claims against the trust,

"(B) no part of the assets of the trust may be used for, or diverted to, any purpose other than—

"(i) the purposes described in subparagraph (A), or

"(ii) the investment in securities, obligations, or time or demand deposits described in clause (ii) of paragraph (21)(B),

"(C) such trust meets the requirements of paragraphs (2), (3), and (4) of section 4223(b), 4223(h), or, if applicable, section 4223(c) of the Employee Retirement Income Security Act of 1974, and

"(D) the trust instrument provides that, on dissolution of the trust, assets of the trust may not be paid other than to plans which have participated in the plan or, in the case of a trust established under section 4223(h) of such Act, to plans with respect to which employers have participated in the fund.".

(b) Subsection (e) of section 4975 (relating to tax on prohibited transactions) is amended by adding at the end thereof the following new paragraph:

"(9) SECTION MADE APPLICABLE TO WITHDRAWAL LIABILITY PAYMENT FUNDS.—For purposes of this section—

"(A) IN GENERAL. — The term 'plan' includes a trust described in section 501(c)(22).

"(B) DISQUALIFIED PERSON. — In the case of any trust to which this section applies by reason of subparagraph (A), the term 'disqualified person' includes any person who is a disqualified person with respect to any plan to which such trust is permitted to make payments under section 4223 of the Employee Retirement Income Security Act of 1974.".

(c)(1) Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by adding at the end thereof the following new section:

"SEC. 194. CONTRIBUTIONS TO EMPLOYER LIABILITY TRUSTS

"(a) ALLOWANCE OF DEDUCTION. —There shall be allowed as a deduction for the taxable year an amount equal to the amount—

"(1) which is contributed by an employer to a trust described in section 501(c)(22) (relating to withdrawal liability payment fund) which meets the requirements of section 4223(h) of the Employee Retirement Income Security Act of 1974, and

"(2) which is properly allocable to such taxable year.

"(b) ALLOCATION TO TAXABLE YEAR.—In the case of a contribution described in subsection (a) which relates to any specified period of time which includes more than one taxable year, the amount properly allocable to any taxable year in such period shall be determined by prorating such amounts to such taxable years under regulations prescribed by the Secretary.

"(c) DISALLOWANCE OF DEDUCTION.—No deduction shall be allowed under subsection (a) with respect to any contribution described in subsection (a) which does not relate to any specified period of time.".

(2) The table of sections for such part VI is amended by adding at the end thereof the following new item:

"Sec. 194. Contributions to employer liability trusts.".

SEC. 210. EFFECTIVE DATE

(a) Except as otherwise provided in this section, the amendments made by this title shall take effect on the date of the enactment of this Act.

(b) Subpart C of part I of subchapter D of chapter 1 of such Code (as added by this Act) shall take effect, with respect to each plan, on the first day of the first plan year beginning on or after the earlier of—

(1) the date on which the last collective-bargaining agreement providing for employer contributions under the plan, which was in effect on the date of the enactment of this Act, expires, without regard to extensions agreed to after such date of enactment, or

(2) 3 years after the date of the enactment of this Act.

(c) The amendments made by section 209 shall apply to taxable years ending after the date of the enactment of this Act.

* * * * *

TITLE IV—MISCELLANEOUS PROVISIONS

* * * * *

SEC. 405. ACTION TAKEN BEFORE REGULATIONS ARE PRESCRIBED

(a) Except as otherwise provided in the amendments made by this Act and in subsection (b), if the way in which any such amendment will apply to a particular circumstance is to be set forth in regulations, any reasonable action during the period before such regulations take effect shall be treated as complying with such regulations for such period.

(b) Subsection (a) shall not apply to any action which violates any instruction issued, or temporary rule prescribed, by the agency having jurisdiction but only if such instruction or rule

was published, or furnished to the party taking the action, before such action was taken.

* * * * *

SEC. 407. CHURCH PLANS

* * * * *

(b) Section 414(e) of the Internal Revenue Code of 1954 (defining church plan) is amended to read as follows:

"(e) CHURCH PLAN.—

"(1) IN GENERAL.—For purposes of this part, the term 'church plan' means a plan established and maintained (to the extent required in paragraph (2)(B)) for its employees (or their beneficiaries) by a church or by a convention or association of churches which is exempt from tax under section 501.

"(2) CERTAIN PLANS EXCLUDED.—The term 'church plan' does not include a plan—

"(A) which is established and maintained primarily for the benefit of employees (or their beneficiaries) of such church or convention or association of churches who are employed in connection with one or more unrelated trades or businesses (within the meaning of section 513); or

"(B) if less than substantially all of the individuals included in the plan are individuals described in paragraph (1) or (3)(B) (or their beneficiaries).

"(3) DEFINITIONS AND OTHER PROVISIONS.—For purposes of this subsection—

"(A) TREATMENT AS CHURCH PLAN.—A plan established and maintained for its employees (or their beneficiaries) by a church or by a convention or association of churches includes a plan maintained by an organization, whether a civil law corporation or otherwise, the principal purpose or function of which is the administration or funding of a plan or program for the provision of retirement benefits or welfare benefits, or both, for the employees of a church or a convention or association of churches, if such organization is controlled by or associated with a church or a convention or association of churches.

"(B) EMPLOYEE DEFINED. — The term employee of a church or a convention or association of churches shall include—

"(i) a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, regardless of the source of his compensation;

"(ii) an employee of an organization, whether a civil law corporation or otherwise, which is exempt from tax under section 501 and which is controlled by or associated with a church or a convention or association of churches; and

"(iii) an individual described in subparagraph (E).

"(C) CHURCH TREATED AS EMPLOYER.—A church or a convention or association of churches which is exempt from tax under section 501 shall be deemed the employer of any individual included as an employee under subparagraph (B).

"(D) ASSOCIATION WITH CHURCH. —An organization, whether a civil law corporation or otherwise, is associated with a church or a convention or association of churches if it shares common religious bonds and convictions with that church or convention or association of churches.

"(E) SPECIAL RULE IN CASE OF SEPARATION FROM PLAN.—If an employee who is included in a church plan separates from the service of a church or a convention or association of churches or an organization described in clause (ii) of paragraph (3)(B), the church plan shall not fail to meet the requirements of this subsection merely because the plan—

"(i) retains the employee's accrued benefit or account for the payment of benefits to the employee or his beneficiaries pursuant to the terms of the plan; or

"(ii) receives contributions on the employee's behalf after the employee's separation from such service, but only for a period of 5 years after such separation, unless the employee is disabled (within the meaning of the disability provisions of the church plan or, if there are no such provisions in the church plan, within the meaning of section 72(m)(7)) at the time of such separation from service.

"(4) CORRECTION OF FAILURE TO MEET CHURCH PLAN REQUIREMENTS.—

"(A) IN GENERAL.—If a plan established and maintained for its employees (or their beneficiaries) by a church or by a convention or association of churches which is exempt from tax under section 501 fails to meet one or more of the requirements of this subsection and corrects its failure to meet such requirements within the correction period, the plan shall be deemed to meet the requirements of this subsection for the year in which the correction was made and for all prior years.

"(B) FAILURE TO CORRECT.—If a correction is not made within the correction period, the plan shall be deemed not to meet the requirements of this subsection beginning with the date on which the earliest failure to meet one or more of such requirements occurred.

"(C) CORRECTION PERIOD DEFINED. —The term 'correction period' means—

"(i) the period ending 270 days after the date of mailing by the Secretary of a notice of default with respect to the plan's failure to meet one or more of the requirements of this subsection;

"(ii) any period set by a court of competent jurisdiction after a final determination that the plan fails to meet such requirements, or, if the court does not specify such period, any reasonable period determined by the Secretary on the basis of all the facts and circumstances, but in any event not less than 270 days after the determination has become final; or

"(iii) any additional period which the Secretary determines is reasonable or necessary for the correction of the default,

whichever has the latest ending date.".

(c) The amendments made by this section shall be effective as of January 1, 1974.

SEC. 408. DEDUCTIBILITY OF PAYMENTS TO PLAN BY A CORPORATION OPERATING PUBLIC TRANSPORTATION SYSTEM ACQUIRED BY A STATE

(a) For purposes of subsection (g) of section 404 of the Internal Revenue Code of 1954 (relating to certain employer liability payments considered as contributions), as amended by section 205 of this Act, any payment made to a plan covering employees of a corporation operating a public transportation system shall be treated as a payment described in paragraph (1) of such subsection if—

(1) such payment is made to fund accrued benefits under the plan in conjunction with an acquisition by a State (or agency or instrumentality thereof) of the stock or assets of such corporation, and

(2) such acquisition is pursuant to a State public transportation law enacted after June 30, 1979, and before January 1, 1980.

(b) The provisions of this section shall apply to payments made after June 29, 1980.

* * * * *

SEC. 410. REFUND OF MISTAKEN CONTRIBUTIONS

* * * * *

(b) Paragraph (2) of section 401 (a) of the Internal Revenue Code of 1954 (relating to exclusive benefit of employees and beneficiaries) is amended by inserting before the semicolon at the end thereof the following: "(but this paragraph shall not be construed, in the case of a multiemployer plan, to prohibit the return of a contribution within 6 months after the plan administrator determines that the contribution was made by a mistake of fact or law (other than a mistake relating to whether the plan is described in section 401(a) or the trust which is part of such plan is exempt from taxation under section 501(a))".

(c) The amendment made by this section shall take effect on January 1, 1975, except that in the case of contributions received by a collectively bargained plan maintained by more than one employer before the date of enactment of this Act, any determination by the plan administrator that any such contribution was made by mistake of fact or law before such date shall be deemed to have been made on such date of enactment.

* * * * *

SEC. 414. TREATMENT OF CERTAIN RETIREMENT BENEFITS

(a) GENERAL RULE.—Paragraph (15) of section 3304(a) of the Internal Revenue Code of 1954 (relating to requirements for approval of State laws) is amended by striking out the semicolon at the end thereof and inserting in lieu thereof the following:

"except that—

"(A) the requirements of this paragraph shall apply to any pension, retirement or retired pay, annuity, or other similar periodic payment only if—

"(i) such pension, retirement or retired pay, annuity, or similar payment is under a plan maintained (or contributed to) by a base period employer or chargeable employer (as determined under applicable law), and

"(ii) in the case of such a payment not made under the Social Security Act or the Railroad Retirement Act of 1974 (or the corresponding provisions of prior law), services performed for such employer by the individual after the beginning of the base period (or remuneration for such services) affect eligibility for, or increase the amount of, such pension, retirement or retired pay, annuity, or similar payment, and

"(B) the State law may provide for limitations on the amount of any such reduction to take into account contributions made by the individual for the pension, retirement or retired pay, annuity, or other similar periodic payment;".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to certifications of States for 1981 and subsequent years.

* * * * *

SEC. 416. CESSATION OF EXTENDED BENEFITS WHEN PAID UNDER AN INTERSTATE CLAIM IN A STATE WHERE EXTENDED BENEFIT PERIOD IS NOT IN EFFECT

(a) GENERAL RULE.—Section 202 of the Federal-State Extended Unemployment Compensation Act of 1970 [Pub. L. 91-373, 1970-2 C.B. 348, 355] is amended by adding at the end thereof the following new subsection.

"Cessation of Extended Benefits When Paid Under an Interstate Claim in a State Where Extended Benefit Period Is Not in Effect

"(c)(1) Except as provided in paragraph (2), payment of extended compensation shall not be made to any individual for any week if—

"(A) extended compensation would (but for this subsection) have been payable for such week pursuant to an interstate claim filed in any State under the interstate benefit payment plan, and

"(B) an extended benefit period is not in effect for such week in such State.

"(2) Paragraph (1) shall not apply with respect to the first 2 weeks for which extended compensation is payable (determined without regard to this subsection) pursuant to an interstate claim filed under the interstate benefit payment plan to the individual from the extended compensation account established for the benefit year.

"(3) Section 3304(a)(9)(A) of the Internal Revenue Code of 1954 shall not apply to any denial of compensation required under this subsection."

(b) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply to weeks of unemployment beginning after October 1, 1980; except that such amendment shall not be a requirement of any State law under section 3304 (a)(11) of the Internal Revenue Code of 1954 for any week which begins before June 1, 1981.

(2) SPECIAL RULE FOR CERTAIN STATES.—In the case of any State the legislature of which does not meet in a regular session which begins during calendar year 1981 and before April 1, 1981, paragraph (1) shall be applied

by substituting "June 1, 1982" for "June 1, 1981".

Approved September 26, 1980.

House of Representatives Report No. 96-869 Part II 2d Session

[Bracketed numerals indicate official report page numbers]

Multiemployer Pension Plan Amendments Act of 1980

April 23, 1980

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report together with supplemental and minority views to accompany H.R. 3904 which on May 3, 1979, was referred jointly to the Committee on Education and Labor and the Committee on Ways and Means.[1]

[Including cost estimate of the Congressional Budget Office]

The Committee on Ways and Means, to whom was referred the bill (H.R. 3904) to amend the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1] and the Internal Revenue Code of 1954, as amended, for the purpose of improving retirement income security under private multiemployer pension plans by strengthening the funding requirements for those plans, authorizing plan preservation measures for financially troubled multiemployer pension plans, and revising the manner in which the pension plan termination insurance provisions apply to multiemployer plans, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendment to the text of the bill is a complete substitute therefor and appears in boldface roman type in the reported bill.

The title of the bill is amended to reflect the amendment to the text of the bill.

[1] Public Law 96-364, page 437.

[2] I. OVERVIEW

Background

The Employee Retirement Income Security Act of 1974 (ERISA) established a program of insurance for employee benefits under most tax-qualified, private, domestic, defined benefit pension plans.[1] The program is administered by the Pension Benefit Guaranty Corporation (PBGC), a corporation within the Department of Labor. The Board of Directors of the PBGC consists of the Secretary of Labor (Chairman), the Secretary of the Treasury, and the Secretary of Commerce.

The PBGC maintains a trust fund and a revolving fund for insurance of benefits under terminated multiemployer defined benefit pension plans (multiemployer plans), as well as a trust fund and a revolving fund for insurance of benefits under all other terminated defined benefit pension plans (referred to as "single-employer plans"). The PBGC presently is not "on budget" and the United States is not liable for debts of the PBGC.

The insurance program (referred to as "termination insurance") is funded by (1) premiums paid by plans, (2) assets of plans that have terminated with insufficient funds to provide insured benefits, (3) payments by employers who maintained plans which terminated with insufficient funds to provide insured benefits, and (4) earnings on investments. The funds maintained for multiemployer plans are the sole source of guaranteed benefits under terminated multiemployer plans. Similarly, the funds maintained for single-employer plans are the sole source of guaranteed benefits under single-employer plans.

Under present law, the guarantee by the PBGC of benefits under a multiemployer plan is within the discretion of the PBGC until April 30, 1980. Beginning on May 1, 1980, the guarantee of these benefits becomes mandatory.

[1] See ERISA sec. 4021. A defined benefit pension plan provides a specified level of benefits for participants (e.g., the Federal Civil Service Retirement plan). A church pension plan is generally exempt from the insurance program unless the plan has elected to be subject to ERISA standards. Also, plans of certain professional service employers are excluded from the program.

Consideration by Education and Labor Committee

The bill (H.R. 3904), as approved by the House Committee on Education and Labor, provides a new definition for the term "multiemployer plan," imposes liability for unfunded benefits upon employers who withdraw from a multiemployer plan and allows a deduction for payments of the liability, permits multiemployer plans in financial distress to reduce certain benefits for workers, retirees and beneficiaries, imposes funding requirements for multiemployer plans, provides new rules for mergers and transfers of assets or liabilities involving multiemployer plans, authorizes the PBGC to provide financial assistance [3] to insolvent multiemployer plans, and provides new enforcement powers for the PBGC and others. In addition, the bill increases premiums payable to the PBGC by multiemployer plans, makes insurance of basic benefits under multiemployer plans by the PBGC mandatory, but modifies the level of plan benefits guaranteed by the PBGC, modifies the rules relating to employer liability to the PBGC and the plan in the event of the insolvency or termination of a multiemployer plan, and changes the insurable event to plan insolvency. The amendments made by the bill are generally effective upon enactment.

Ways and Means Committee Amendment

The Ways and Means Committee considered H.R. 3904 as approved by the Education and Labor Committee. The Ways and Means Committee further amended the bill, with an amendment in the nature of a substitute for the bill as amended by the Education and Labor Committee.

The Ways and Means Committee amendment provides additional safeguards for employee benefits and pro-

vides additional protection for employers against escalating increases in the cost of maintaining a multiemployer plan. The Committee amendment also provides rules (1) to ease the computation and collection of liability with respect to a withdrawing employer, and (2) to provide relief from the retroactive application of withdrawal liability in limited circumstances. Additionally, the Committee amendment provides for Congressional review of premiums for certain new guarantees provided by the bill and clarifies the effect of the bill with respect to premiums for single-employer plans. Further, the Committee amendment includes the receipts and disbursements of the PBGC in the budget of the United States (i.e., places the PBGC "on budget"). The amendment also makes numerous technical changes in the bill.

* * * * *

[10] III. GENERAL REASONS FOR THE BILL

During the period following the enactment of ERISA, the PBGC has learned that a significant number of multiemployer plans which would automatically be covered by termination insurance on May 1, 1980, are experiencing financial difficulty.

The termination insurance program was established by ERISA because of concern that the Act could not otherwise secure employee pension benefits against loss due to premature plan termination. The program was designed, in part, on the basis of an Administration study[1] which considered the effects of the termination of single-employer and multiemployer pension plans during a period preceding the enactment of ERISA. Because of substantial uncertainty as to the need for the insurance in the case of multiemployer plans and the effects of insuring such plans, the insurance of benefits under multiemployer plans was generally left to the discretion of the PBGC until January 1, 1978. The date for nondiscretionary insurance of benefits under multiemployer plans was subsequently delayed until May 1, 1980, because of concerns that the program, if nondiscretionary, might encourage the premature termination of multiemployer plans.

Under ERISA, an employer who has paid all required contributions to a multiemployer plan can withdraw from the plan and, if the plan does not terminate within 5 years after the withdrawal, the employer will have no further responsibility for any part of the unfunded liabilities of the plan. Where this occurs, employers who continue to maintain the plan "inherit" the liability which would have been satisfied by the withdrawing employer. The committee believes that, in this regard, present law provides an undesirable incentive for employers to withdraw from plans and an unfair burden on the employers who continue to maintain the plans.

Before ERISA, multiemployer plans in financial distress sometimes delayed funding, reduced benefits, or imposed further restrictions on eligibility for benefits. The ERISA standards designed to require systematic plan funding, and to protect employee benefits, have accordingly reduced the ability of multiemployer plans to deal with financial distress. The PBGC has indicated that the combined effect of the availability of guaranteed benefits, limited employer liability on termination, and ERISA restrictions on the ability of a plan to reduce its liabilities has made termination attractive for multiemployer plans covering workers in declining industries. According to the PBGC, in a significant number of cases, plan termination will be less expensive for employers maintaining a particular multiemployer plan than continuation of the plan. H.R. 3904 deals with these problems of multiemployer [11] plans by (1) increasing the funding requirements for multiemployer plans in most cases, (2) requiring further, accelerated funding of plans in financial distress, subject to restrictions designed to avoid undue financial strain on employers maintaining seriously overburdened plans, (3) relaxing the vesting rules of ERISA to permit benefit reductions in limited circumstances, (4) modifying the level of benefits guaranteed so that in most cases, contiuation of a plan will be more beneficial to employees than plan termination, (5) requiring continued funding of terminated plans, and (6) making plan insolvency the only insurable event. The bill also provides for increased termination insurance premiums, additional reporting requirements, and enforcement authority.

[12] IV. EXPLANATION OF PROVISIONS

A. Findings and Declaration of Policy (Sec. 3 of the Bill)

The statement of policy included in ERISA does not specifically provide that ERISA is for the purpose of encouraging the growth and maintenance of multiemployer plans.

The policy of the bill, as declared therein, is to make specified changes in the pension rules applicable to multiemployer plans (1) to protect the interests of participants and beneficiaries in financially distressed multiemployer plans, and (2) to encourage the growth and maintenance of multiemployer plans.

B. Definition of Multiemployer Plan (Secs. 108(d), 207, and 302 of the Bill and Sec. 414(f) of the Code, and Secs. 3(37) and 4403 of ERISA)

Present law

Under present law, a plan is a multiemployer plan for a year if (1) more than one employer is required to contribute to the plan, (2) the plan is maintained pursuant to a collective bargaining agreement between employee representatives and more than one employer, (3) the amount of contributions made under the plan for the year by each employer is less than 50 percent of the aggregate employer contributions for that year (unless a special rule is satisfied), (4) benefits under the plan are payable to each

[1] Department of the Treasury and Department of Labor, *Study of Pension Plan Terminations, 1972—Interim Report,* February 1973.

participant without regard to the cessation of contributions by the employer of the participant except to the extent the benefits accrued because of service with the employer before the employer was required to contribute to the plan, and (5) the plan satisfies other requirements imposed by Labor Department regulations.[1]

All corporations, which are members of a controlled group of corporations, are treated as a single employer in determining the status of a plan as a multiemployer plan for purposes of the tax law.

Reasons for change

The Ways and Means Committee believes that the definition of a multiemployer plan under ERISA which is limited to a plan in which (1) no employer contributes more than 50 percent of the total employer contributions for the year and (2) employers share liability for participants' benefits accrued for service while the employer maintained the plan creates two major problems. First, not all plans that share the basic characteristics of multiemployer plans (i.e., plans to which more than one employer is required to contribute and which are maintained pursuant to a collective bargaining agreement) are considered multiemployer plans under the definition pres-[13]ently in ERISA. Second, a plan could move in and out of multiemployer plan status from year to year. The Committee has determined to remove the limitations from the definition of multiemployer plan so that generally plans which share the basic characteristics of multiemployer plans are treated consistently under the law.

Explanation of provisions

Under the bill, the test relating to proportionate employer contributions (the 50-percent test) is deleted, and the test relating to continuity of benefits in the event of a cessation of employer contributions is preserved in the minimum vesting standard of ERISA. The bill provides that all trades and businesses (whether or not incorporated) under common control are considered a single employer for purposes of testing the status of a plan as a multiemployer plan. In addition, the bill provides that a plan continues to be a multiemployer plan after its termination if it was a multiemployer plan for the plan year ending before its termination date.

A plan which is a single-employer plan under present law (even though more than one employer maintains the plan) and which has paid PBGC premiums for the three plan years preceding the date of enactment as a single-employer plan is permitted to irrevocably elect to be considered a single-employer plan where the plan would otherwise be a multiemployer plan under the bill.

Effective date

The provision will apply upon enactment, except that the present law definition will continue for plan years beginning before enactment.

[14] C. Employer Withdrawal Liability, Mergers, Etc. (Secs. 104 and 108 of the Bill, Secs. 411, 412, 418-418F and 4917 of the Code, and Secs. 4201-4206, 4221-4224, 4241-4246, 4261, 4281, 4301 and 4303 of ERISA)

Present law

Employer liability

Under present law, if an employer maintained or contributed to a multiemployer plan (or a single-employer plan to which more than one employer contributes) during the 5-year period preceding the termination of the plan, and if the plan terminates with insufficient assets to provide benefits at the level guaranteed by the PBGC, the employer is liable to the PBGC for a share of the insufficiency. The insufficiency is generally allocated to employers on the basis of each employer's proportionate share of the total contributions required under the plan during the 5-year period. The liability of any particular employer, however, is limited to 30 percent of that employer's net worth (before taking the liability to the PBGC into account.[1] In addition, if a "substantial employer" withdraws from a plan to which more than one employer contributes, the employer is required to pay to the PBGC (or to post a bond for payment of) an amount equal to the employer's share of the insufficiency which would arise if the plan were to terminate. The payment is returned to the employer (or the bond is cancelled) if the plan does not terminate within 5 years after the withdrawal. Under present law, an employer is a substantial employer for a plan year if the employer's contributions during (1) each of the two preceding plan years, or (2) both the second and third preceding plan years were at least equal to 10 percent of the total contributions paid to the plan for each of such years.[2]

In the case of a single-employer plan to which only one employer contributes, liability for an insufficiency is allocated in full to that employer, subject to the "30 percent of net worth" limit. The substantial employer rules do not apply in such a case.[3]

Mergers, transfers, etc.

Under the Code and under the nontax provisions of ERISA, a plan is not permitted to merge or consolidate with, or transfer its assets or liabilities to, another plan unless certain conditions are met. The applicable conditions require that the benefits which each participant in the plan would receive if the plan were to terminate immediately after the merger, etc., will not be less than the benefits the participant would receive under the merged plan if that plan terminated immediately before the merger, etc.

[15] In the case of a single-employer plan to which only one employer contributes, liability for an insufficiency is allocated in full to that employer, subject to the "30 percent of net worth" limit. The substantial employer rules do not apply in such a case.

[1] See ERISA secs. 4062 and 4064.
[2] See ERISA secs. 4001(a)(2) and 4063.
[3] See ERISA sec. 4062.

Reasons for change

The Ways and Means Committee believes that the current rules governing an employer's liability upon withdrawal from a multiemployer plan fail to adequately protect plan participants, the employers who remain in the plan and the PBGC premium payers. The present-law rules have the effect of increasing the liabilities of employers who remain with a plan until it terminates and rewarding those employers who leave the plan early. When an employer withdraws from a multiemployer plan, the remaining employers must assume the burden for funding benefit liabilities left by the withdrawing employer. In addition, a withdrawal may reduce the plan's contribution base and necessitate an increase in the rate of contributions to the plan.

The Committee finds it necessary to adopt statutory withdrawal rules to protect a multiemployer plan from the adverse financial impact of employer withdrawal. The Committee believes that a rule which requires an employer who withdraws from a multiemployer plan to continue funding a share of the plan's unfunded benefit obligations removes the present incentive for employer withdrawals and provides protection to remaining employers where withdrawals nevertheless occur. The Committee, however, intends that these rules not deter new employers from entering a multiemployer plan.

The Committee believes that, because in the construction industry and in certain segments of the entertainment industry, the withdrawal of an employer from a plan may not eliminate jobs from a plan's contribution base unless the employer continues working in the area, liability for employers in these industries should be narrowly limited.

Under present law, the PBGC is authorized to determine the extent to which the statutory rules governing mergers and transfers of assets and liabilities apply to multiemployer plans. The Committee believes that these statutory rules are not readily adaptable to multiemployer plans. Accordingly, appropriate rules are needed to protect participants in multiemployer plans when a merger or transfer of assets occurs. In addition, the rules should prevent transfers that would create unnecessary liability for the PBGC. The Committee believes that the rules contained in the bill protect plan participants and PBGC premium payers.

The Committee understands that the purpose of plan reorganization is to require a plan facing financial difficulties to take corrective action to stabilize or improve its financial condition. Generally, reorganization would (1) prevent plans in financial distress from funding new past service liabilities over unreasonably long periods of time, and (2) require plans with severe financial difficulties to raise contributions.

However, with respect to plans in declining industries, the contribution requirements could result in inappropriately high and escalating pension costs. The Committee therefore believes that the funding standard for plans in reorganization should be adjusted in certain circumstances for overburdened plans. To encourage the continuation [16] of plans, the Committee believes that PBGC funds should be available to make up the difference between the guaranteed level of benefits and the level supportable by the plan. The Committee believes that through the mechanism of reorganization, PBGC involvement and assistance will be deferred until absolutely necessary, which will result in significant premium savings. In addition, administrative responsibility would largely remain with the plan, thereby simplifying administration of the guarantee program.

Explanation of provisions

1. Employer withdrawal liability

Under the bill, an employer who withdraws from a multiemployer plan generally is liable to the plan for the portion of the plan's unfunded benefit obligations (if any) assigned to the employer. The bill provides four alternative methods, any of which a plan could uniformly use to determine this liability. In addition, a plan could devise its own method of computation subject to the approval of the PBGC.

a. Definition of withdrawal

(1) Complete withdrawal

The bill treats an employer as withdrawing from a multiemployer plan when the employer (1) permanently ceases to have an obligation to contribute under the plan, or (2) permanently ceases all covered operations under the plan. A withdrawal does not occur, however, where an employer ceases to exist merely by reason of a change in form or structure, as long as the employer is replaced by a successor employer and there is no interruption in the successor employer's contributions to the plan or obligation to contribute under the plan. For example, if P Corporation owns 100 percent of the stock of S Corporation, a subsidiary that has an obligation to contribute to a multiemployer plan on behalf of its employees, the controlled group consisting of P and S would be considered an employer with an obligation to contribute to the plan. If P sells all of its interest in S to an unrelated party, the controlled group consisting of P and S would cease to exist. However, if S continues to have an obligation to contribute to the plan, no withdrawal would be considered to have taken place merely because of the change in ownership of S.

In addition, a withdrawal does not take place merely because an employer suspends making plan contributions during a labor dispute which involves its employees.

Generally if a withdrawal occurs, the date of the withdrawal is considered to be the last day of the plan year in which the employer permanently ceased to have an obligation to contribute under the plan (other than for delinquent contributions or withdrawal liability) or permanently ceased all covered operations under the plan.

Under certain circumstances the date of the withdrawal of an employer who has an obligation to contribute under a plan for work performed in the building and construction industry or in certain segments of the entertainment industry is the date on which the employer's obligation to contribute under the plan ceases.

[17] With respect to an employer who has completely withdrawn from a multiemployer plan and who subsequently resumes covered operations under the plan or renews an obligation to contribute to the plan, the PBGC is to prescribe regulations regarding the reduction or waiver of the employer's withdrawal liability to the extent consistent with the policy of protecting remaining employers, beneficiaries, and other participants. In addition, the PBGC is to prescribe regulations or a procedure under which a plan can provide rules for the reduction or waiver of withdrawal liability with respect to such an employer in appropriate circumstances.

(2) *Partial withdrawal*

Under the bill, an employer becomes subject to withdrawal liability in some cases in the event of a partial withdrawal, that is, where the employer neither completely ceases to have an obligation to contribute under the plan nor permanently ceases all covered operations under the plan. Under the bill, a partial withdrawal arises because of the occurrence of any of several specified events which could significantly decrease the employer's obligations for contributions under the plan. Under the bill, a partial withdrawal occurs—

(1) if the number of contribution base units (e.g., hours worked) with respect to which the employer is required to contribute for each of three consecutive plan years does not exceed 40 percent of the number of contribution base units with respect to which the employer was obligated to contribute under the plan for any one of the five plan years preceding the three-year period (a 60-percent decline in contribution base units);

(2) if, because the employer ceased substantially all of its covered operations at one or more facilities, the number of contribution base units with respect to which the employer is required to contribute under the plan for the plan year does not exceed 75 percent of the number of contribution base units with respect to which the employer was required to contribute under the plan for any one of the preceding five plan years; or

(3) if any employer who is required to contribute to a plan under two or more collective bargaining agreements ceases to have an obligation to contribute under at least one but not all of the agreements.

The liability which an employer incurs in the case of a partial withdrawal is to be a *pro rata* portion of the liability which the employer would incur in the event of a complete withdrawal on the same date. In addition, the bill provides that there is to be no obligation for withdrawal liability in the case of a partial withdrawal of an employer who made less than two percent of the average annual contributions to the plan in the five-year period immediately preceding the withdrawal, except where the plan specifically provides for liability in such a case.

Whenever an event giving rise to a partial withdrawal occurs, the date of the partial withdrawal is generally the last day of the plan year in which the event takes place. However, if a partial withdrawal takes place under the 3-year/40-percent rule described above, for purposes of calculating the amount of an employer's liability, the first plan [18] year of the 3-year period is considered the year in which the employer partially withdrew.

The bill provides that a plan may be amended to eliminate partial withdrawal liability, in whole or in part, to the extent permitted by PBGC regulations. Also, PBGC regulations may prescribe a procedure by which a plan may, by amendment, adopt rules providing for alternative events which will trigger partial withdrawal liability.

For purposes of the partial withdrawal rules, unless a plan provides another definition of "facility", the term means an economic unit, generally at a single physical location, where business is conducted or industrial operations are performed.

The bill provides for abatement of all or part of an employer's partial withdrawal liability in the event of (1) a two-year 90 percent restoration of contributions, (2) a one-year complete restoration of contributions, (3) a two-year reversal of the reduction of contributions which triggered the liability, or (4) a ten percent contribution increase. In addition, the PBGC is authorized to prescribe regulations providing for the reduction or elimination of partial withdrawal liability under conditions where the PBGC determines that such an abatement is consistent with the policy of protecting remaining employers. Also, under a PGBC regulatory procedure, a plan may adopt rules for abatement of partial withdrawal liability under any other conditions, subject to PBGC approval to be based on a determination that the rules are consistent with the policy of protecting remaining employers.

A two-year 90 percent restoration of contributions occurs where, for any two consecutive plan years after the partial withdrawal, the number of contribution base units applied to determine the employer's required plan contributions is at least 90 percent of the number of contribution base units to determine the employer's required contributions for any one of the five plan years (1) immediately preceding the three consecutive plan years used to test for a partial withdrawal in the case of a partial withdrawal caused by a 60 percent decline in contribution base units, or (2) immediately preceding the year of the partial withdrawal in the case of a partial withdrawal caused by a facility closing or the cessation of contribution obligations under a collective bargaining agreement (the five-year base period). An abatement under this rule completely eliminates the employer's partial withdrawal liability for plan years

following the two consecutive plan years in which the 90-percent restoration of contributions takes place.

A one-year complete restoration of contributions occurs where the number of contribution base units used to determine the employer's required contributions for a plan year equals or exceeds the number of such units for the year in the five-year base period for which such units were the highest. Where such a restoration takes place, the employer may, in lieu of continuing to pay partial withdrawal liability, post a bond to the plan for an amount determined by the plan sponsor not exceeding 50 percent of the otherwise required annual partial withdrawal liability payment. If the plan sponsor determines that the employer has no further partial withdrawal liability, the liability is completely eliminated and the bond is cancelled. If the plan sponsor determines that the employer continues to have partial withdrawal liability, [19] (1) the plan may realize on the bond, (2) the employer remains liable for the amount of the year's liability not covered by the bond, and (3) no abatement takes place.

A two-year reversal of the reduction in contributions which triggered the liability occurs where for any two consecutive plan years after the partial withdrawal (1) the number of contribution base units applied to determine the employer's required plan contributions exceeds (a) 40 percent of the number of such units for the year in the five-year base period for which such units were the highest, in the case of a partial withdrawal caused by a 60 percent decline in contribution base units, or (b) 75 percent of the number of such units for the year in the base period for which such units were the highest, in the case of a partial withdrawal caused by a facility closing or the cessation of contributions under a collective bargaining agreement, and (2) the total number of contribution base units applied to determine required plan contributions for all employers is not less than 90 percent of the total number of such units for the year of the partial withdrawal. An abatement under this rule completely eliminates the employer's partial withdrawal liability for plan years following the two consecutive years in which the reversal of the reduction in contributions takes place.

A ten percent contribution increase occurs where, for a plan year following the partial withdrawal, the number of contribution base units applied to determine the employer's required plan contributions exceeds the number of such units for the year of the partial withdrawal by at least 10 percent. In the case of an abatement under this rule, the employer's partial withdrawal liability payment for the year of the abatement is reduced *pro rata* under PBGC regulations. A plan may use a percentage other than 10 percent in applying this rule, except for a percentage prohibited by PBGC regulations.

(3) Construction etc., industry exception

In the case of certain plans under which an employer has an obligation to contribute for work performed in the building and construction industry, a withdrawal is considered to take place only if an employer ceases to have an obligation to contribute under the plan, and (1) continues to perform work in the jurisdiction of the collective bargaining agreement, of the type for which contributions were previously required, or (2) resumes work in the jurisdiction within five years after the date the employer's obligation to contribute under the plan ceased without renewing such obligation if, when the employer resumes work, (i) other employers have an obligation to contribute under the plan, and (ii) the plan would have permitted the employer to contribute.

An employer contributing to a plan is subject to these special rules only if substantially all of the employees for whom the employer has an obligation to contribute perform work in the building and construction industry, and (1) the plan covers primarily employees in the building and construction industry, or (2) the plan is amended to provide that the rules apply to employers with an obligation to contribute for work performed in the building and constuction industry.

The partial withdrawal rules apply to an employer subject to the special building and construction industry rules only where the em-[20]ployer so substantially reduces its involvement with a plan that the employer's continuing obligation to make contributions is for only a token portion of its work of the type for which contributions to the plan are required in the craft and area jurisdiction of the particular collective bargaining agreement. The partial withdrawal rules apply to an employer subject to the special entertainment industry rules only to the extent provided in PBGC regulations.

(4) De minimis rules

(a) General de minimis rule.—In any case where the withdrawal liability of an employer (computed before any *pro rata* reduction in the case of a partial withdrawal) the greater of (a) $25,000, or (b) 0.75 percent of the plan's unfunded benefit obligations determined as of the close of the plan year immediately preceding the withdrawal, the bill does not impose any withdrawal liability on the employer. A plan may provide, however, for a lower *de minimis* amount or for no *de minimis* amount.

The *de minimis rule* under the bill does not apply in the case of a mass withdrawal from a plan. Thus, the rule does not apply to an employer who withdraws from a plan in a plan year in which substantially all employers withdraw, or to an employer who withdraws under an agreement or arrangement under which substantially all employers withdraw from the plan in one or more plan years. Where substantially all employers withdraw from a plan within a period of three plan years, it is presumed that such an agreement or arrangement exists unless the contrary is shown by a preponderance of the evidence.

(b) Two-percent de minimis rule.—Under the bill, an employer will not incur withdrawal liability in the case

of a partial withdrawal if the average annual contributions during the five plan years preceding the year of withdrawal were less than two percent of the total average annual contributions of all employers contributing to the plan. However, the bill permits a plan to provide that this two percent exception to partial withdrawal liability will not apply.

(5) Exception for new employers

The bill provides a rule under which an employer first entering a plan would not be subject to withdrawal liability, either in the case of a complete withdrawal or of a partial withdrawal, if certain conditions are met. The applicable conditions are as follows:

a. the employer was first obligated to make plan contributions after the date of enactment of the bill;

b. the employer was not required to make plan contributions for more than the lesser of (1) six consecutive plan years preceding the date of withdrawal or (2) the number of years required for vesting under the plan;

c. for each plan year for which contributions by the employer were required, the employer's contributions were less than 2 percent of all employer contributions to the plan for the plan year;

d. the plan does not primarily cover employees in the building and construction industry; and

e. the employer did not previously have the benefit of this exception with respect to the plan.

[21] In addition, the exception applies only if (1) the plan provides for its application; (2) the plan provides that benefits of participants accrued on the basis of service for the employer before the employer was required to contribute to the plan may not be payable if the employer ceases contributions to the plan and (3) the ratio of plan assets to benefit payments during the plan year preceding the first plan year for which the employer was required to make plan contributions was at least 8 to 1. Of course, the rule requiring that a plan provide for cancellation of benefits where the employer ceases contributions to the plan would not require any reduction of benefits to participants or beneficiaries whose benefits are in pay-status at the time of the cessation and who are not working in employment covered by the plan.

b. Computation of withdrawal liability

(1) Presumptive method

The bill, in its presumptive method for computing withdrawal liability, draws a distinction between employers who contributed to a plan for a plan year ending before February 28, 1979, and employers who did not contribute to the plan for such a year. As to employers who contributed to a plan for such a year, the computation of withdrawal liability is based on (1) the unfunded benefit obligations [4] of the plan attributable to those years, as well as on (2) changes in the unfunded benefit obligations of the plan for plan years ending on or after February 28, 1979, in which the employer was required to contribute to the plan. In the case of an employer who was not required to contribute to the plan for a plan year ending before February 28, 1979, the employer's withdrawal liability is computed solely with reference to changes in the unfunded benefit obligations under the plan for plan years ending on or after February 28, 1979, in which the employer was required to contribute to the plan. Under the bill, the presumptive method generally applies unless a plan adopts one of the alternative methods.

In particular, withdrawal liability under the presumptive method is divided into two parts, as follows:

(1) liability with respect to changes in unfunded benefit obligations for plan years ending on or after February 28, 1979, in which the employer was obligated to contribute under the plan; and

(2) liability with respect to unfunded benefit obligations for plan years ending before February 28, 1979.

In the case of an employer who was not required to contribute to a plan until a plan year ending on or after February 28, 1979, the second component of withdrawal liability does not apply.

The portion of an employer's withdrawal liability attributable to plan years ending after February 28, 1979, is computed in four steps, as follows:

(1) The first step is to determine what is known as the "change in a plan's unfunded benefit obligations" for each plan year [22] ending on or after February 28, 1979. Under the bill, this amount is calculated for each plan year as the difference between (a) the unfunded benefit obligations as of the end of the plan year which precedes the plan year, and (b) the sum of (i) the unfunded benefit obligations on the last day of the last plan year ending before February 28, 1979, reduced by five percent for each succeeding plan year which precedes the plan year, and (ii) the sum of the changes in unfunded benefit obligations for each plan year ending on or after February 28, 1979, and preceding the plan year (computed with each such change reduced by five percent for each succeeding plan year preceding the plan year).

(2) The second step is to determine what is known as "the unamortized amount of the change in a plan's unfunded benefit obligations with respect to a plan year". This amount is determined by reducing the change in a plan's unfunded benefit obligations for a plan year (determined under step (1)) by five percent for each succeeding plan year.

(3) The third step is to calculate the employer's "proportional share" of the unamortized amount of the change in the plan's unfunded benefit obligations for each plan year involved. This is accomplished by multiplying

[4] Generally, the term "unfunded benefit obligations" is intended to mean the plan's unfunded liability for benefits for which participants have met service requirements (including early retirement subsidies, Social Security supplements, and vested accrued benefits).

the unamortized amount of the change for each plan year, determined as of the end of the plan year in which the employer withdraws from the plan, by a fraction. The numerator of the fraction is the sum of contributions which the employer was required to make to the plan for the year of the change and for the preceding four plan years. The denominator of the fraction is the sum of contributions which all employers made to the plan for the year of the change and for the preceding four plan years.

(4) The final step is to add up the employer's proportional share of the unamortized amount of the change in the plan's unfunded benefit obligations for each of the plan years. This total is the employer's proportional share of the unamortized amount of the change in the plan's unfunded benefit obligations for all plan years ending on or after February 28, 1979.

The portion of an employer's withdrawal liability with respect to plan years ending before February 28, 1979, is determined by multiplying (1) the amount of the unfunded benefit obligations under the plan at the close of the last plan year ending before February 28, 1979 (reduced by five percent for each succeeding plan year) by (2) a fraction. The numerator of the fraction is the sum of contributions which the employer was required to make to the plan for the last five plan years ending before February 28, 1979. The denominator of the fraction is the sum, for the same five plan years, of plan contributions made by all employers who (a) had an obligation to contribute under the plan for the first plan year ending on or after February 28, 1979, and (b) had not withdrawn from the plan before February 28, 1979.

Under the bill, except as otherwise provided by PBGC regulations, the plan's unfunded benefit obligations will be increased by (1) the present value of uncollectible withdrawal liability if the plan sponsor [23] determines the withdrawal liability to be uncollectible, and (2) an amount equal to an employer's potential withdrawal liability if the plan sponsor determines that the employer is not liable for the withdrawal liability because of the bill's *de minimis* rule.

(2) *First alternative method*

The first alternative method also draws a distinction between employers who contributed to a plan for plan years ending before February 28, 1979, and employers who did not contribute to the plan for such years. As in the case of the presumptive method, only employers who contributed for years ending before February 28, 1979, are to have their withdrawal liability computed with reference to unfunded benefit obligations under the plan attributable to such years. Other employers are to have their withdrawal liability computed solely with reference to the plan's unfunded benefit obligations attributable to plan years ending on or after February 28, 1979. However, unlike the presumptive method, under the first alternative method, an employer's withdrawal liability is to be based on the aggregate change in unfunded benefit obligations with respect to all plan years ending on or after February 28, 1979, rather than on the changes in unfunded benefit obligations for each separate plan year for which the employer was required to contribute to the plan.

In particular, the first component of withdrawal liability under the first alternative method is to be obtained by multiplying (1) the plan's unfunded benefit obligations as of the end of the last plan year ending before February 28, 1979, reduced as if that amount were being amortized thereafter in level annual installments over 15 years, by (2) a fraction. The numerator of the fraction is the sum of the plan contributions required of the employer for the last plan year ending before February 28, 1979, and for the preceding four plan years. The denominator of the fraction is the sum of the contributions made by included employers for that period of five plan years. An employer is included if (1) the employer was required to contribute to the plan for the first plan year ending on or after February 28, 1979, and (2) the employer had not withdrawn from the plan before that date.

The second component of withdrawal liability under the first alternative method is to be obtained by computing the excess of the plan's unfunded benefit obligations (as of the last day of the plan year in which the employer withdraws) over the sum of (1) the value on such date of all outstanding claims for withdrawal liability (with respect to employers withdrawing before the plan year) which can reasonably be expected to be collected and (2) the portion of the plan's unfunded benefit obligations as of the last day of the last plan year ending before February 28, 1979 (as reduced by 15-year amortization) which is allocable to remaining included employers and multiplying such excess by a fraction. The numerator of the fraction is the total amount required to be contributed by the employer for the last plan year ending before withdrawal and for the four preceding four plan years. The denominator of the fraction is the total amount contributed by all employers for those five plan years, increased by employer contributions for earlier periods that are collected during the [24] five plan years, and reduced by the contributions made by any employer who withdrew from the plan during any of the five plan years. An employer is included in this case if the employer was required to contribute to the plan for the first plan year ending on or after February 28, 1979, as well as for the plan year of the withdrawal.

(3) *Second alternative method*

The second alternative method for computing withdrawal liability draws no distinction between employers who were required to contribute to a plan for plan years ending before February 28, 1979, and employers who were required to contribute only for plan years ending on or after February 28, 1979. Accordingly, employers in both categories are to have their withdrawal liability computed with refer-

ence to all of a plan's unfunded benefit obligations.

Under this method, withdrawal liability is to be determined by multiplying (1) the plan's unfunded benefit obligations as of the end of the plan year of the withdrawal, reduced by the value as of such date of outstanding claims for withdrawal liability (with respect to employers withdrawing before the plan year) which can reasonably be expected to be collected by (2) a fraction. The numerator of the fraction is the amount which the employer was required to contribute to the plan for the five plan years preceding the plan year of the withdrawal. The denominator of the fraction is the total amount contributed by all employers for those five plan years, increased by employer contributions for earlier periods that are collected during the five plan years, and reduced by the contributions made by any employer who withdrew from the plan during any of the five plan years.

(4) Third alternative method

The third alternative method takes a substantially different approach to computing withdrawal liability. Rather than determining the liability based upon the employer's share of plan contributions during a five-year period, the method is intended to compute the portion of the plan's unfunded benefit obligations which are attributable to service of plan participants with the employer. This is generally to be done by attributing portions of the unfunded benefit obligations to each employer in accordance with specified rules. In addition, the plan's unfunded benefit obligations which are not attributable to any present employer is also to be computed. A portion of those "unattributable obligations" is then to be allocated to the employer. An employer's withdrawal liability is then to be determined as the sum of (1) the portion of the plan's unfunded benefits obligations which are attributable to plan participants' service with the employer, and (2) the portion of "unattributable obligations" which is allocated to the employer. All determinations are to be made as of the end of the plan year of the withdrawal.

The portion of an employer's withdrawal liability arising from plan unfunded benefit obligations attributable to plan participants' service with the employer is computed in four steps, as follows:

(1) The first step is to determine the actuarial present value of benefit entitlements under the plan which are attributable to [25] participants' service with the employer (attributable entitlements).

(2) The second step is to determine the value of plan assets allocated to benefit entitlements attributable to service with the employers with an obligation to contribute under the plan in the plan year of the withdrawal (obligated employers). This is accomplished by multiplying (a) the value of plan assets as of the end of the year of the withdrawal, by (b) a fraction. The numerator of the fraction is the actuarial present value of benefit entitlements attributable to service with obligated employers. The denominator of the fraction is the actuarial present value of all benefit entitlements for the year of the withdrawal.

(3) The third step is to determine the share of the value of the assets (determined under step (2)) which is allocated to the withdrawn employer. This is done by multiplying the value of such assets by one of three alternative fractions. The fraction used by a particular plan is to be designated by plan amendment. Under the first alternative fraction, (1) the numerator is the actuarial present value of benefit entitlements attributable to service with the employer, and (2) the denominator is the actuarial present value of benefit entitlements attributable to service with all employers required to contribute in the plan year of the withdrawal. Under the second alternative fraction, (1) the numerator is the actuarial present value of all plan contributions by the employer for the plan year of the withdrawal and all preceding plan years, and (2) the denominator is the actuarial present value of all plan contributions, for the plan year of the withdrawal and all preceding plan years, by employers required to contribute in the plan year of the withdrawal. Under the third alternative fraction, (1) the numerator is the difference between (a) the amount determined as the numerator of the second alternative fraction, and (b) the actuarial present value of plan benefit payments, for the plan year of the withdrawal and preceding plan years, attributable to service with the employer; and (2) the denominator is the difference between (a) the amount determined as the denominator of the second alternative fraction, and (b) the actuarial present value of plan benefit payments, for the plan year of the withdrawal and all preceding plan years, attributable to service with employers required to contribute in the plan year of the withdrawal.

(4) The final step is to subtract (1) the employer's share of the plan assets (determined under step (3)) from (2) the employer's attributable entitlements (determined under step (1)).

The portion of unattributable obligations which is allocated to the employer is determined in two steps, as follows:

(1) The first step is to calculate the unattributable obligations. This is accomplished by subtracting from the difference between two amounts the value of outstanding claims for withdrawal liability (with respect to employers withdrawing before the plan year of the withdrawal) which can reasonably be expected to be collected. The first amount is equal to (a) the actuarial present value of all plan benefit entitlements at the end of the year of the [26] withdrawal, less (b) the actuarial present value of plan benefit entitlements on that date attributable to participants' service with employers required to contribute to the plan for the year of the withdrawal. The second amount is equal to (a) the value of plan assets at the end of the year of the withdrawal, less (b) the value of plan assets computed at such date under step (2) of the cal-

culation of the portion of the plan's unfunded benefit obligations which are attributable to plan participants' service with the employer.

(2) The second step is to allocate the amount determined under step (1) under any allocation method used under the presumptive method or any of the other alternative methods. The plan must provide for the specific method of allocation to be utilized.

The PBGC is authorized by the bill to prescribe regulations setting forth other methods a plan may adopt to allocate assets in determining withdrawal liability for (1) unfunded benefit obligations attributable to service with the employer, and (2) unattributable obligations.

(5) Other methods

The bill authorizes the PBGC to prescribe by regulations a procedure by which a plan may adopt other methods for determining withdrawal liability. The PBGC, before approving any such method, is to be required to determine that the method would not significantly increase the risk of loss to plan participants, beneficiaries, or the PBGC. In addition, the PBGC is to be authorized to prescribe standard approaches for alternative methods for which approval would either not be necessary or would be necessary only under a modified procedure. Any such alternative method is to be required to allocate to employers all of the plan's unfunded benefit obligations.

In determining an employer's withdrawal liability under the presumptive method or any of the alternative methods, if the method specifies the use of a five plan year period in the numerator or denominator of a fraction, the plan could provide instead for the use of a period of more than five, but not more than 10, plan years, unless PBGC regulations provide otherwise.

(6) Other rules.

Under the bill, in the event of a transfer of liabilities from the plan from which a withdrawal takes place to another plan in connection with a withdrawal, withdrawal liability is to be reduced by an amount equal to the actuarial present value, determined at the end of the last plan year ending on or before the date of the withdrawal, of the transferred unfunded benefit obligations.

In the case of a withdrawal by an employer following a merger of multiemployer plans, withdrawal liability is to be computed under the applicable method in accordance with PBGC regulations. However, in the case of a withdrawal in the first plan year beginning after the merger, withdrawal liability is determined as if the plans had remained separate.

Under the bill, a plan may be amended to adopt rules, consistent with the interests of plan participants, beneficiaries and contributing employers, which provide for reduction or waiver of withdrawal liability to the extent the employer's obligation to contribute under [27] the plan or make withdrawal liability payments is assumed by another employer.

In the case of certain plans established prior to January 1, 1954, as a result of an agreement between employee representatives and the Government of the United States during a period of government operation, under seizure powers, of a major part of the productive facilities of an industry (Code sec. 404(c)), the presumptive method for determining withdrawal liability is the second alternative method for computing such liability. In addition, (1) the general *de minimis* rule, and (2) the exception for new employers, do not apply to such a plan unless the plan is amended to provide for their application.

c. Payment of withdrawal liability

(1) In general

An employer who withdraws from a multiemployer plan is to be required to pay its withdrawal liability to the plan in accordance with a payment schedule to be determined by the plan sponsor under standards set forth in the bill.[5] As soon as practicable after a withdrawal, the plan sponsor is to be required to notify the employer of (1) the amount of withdrawal liability, and (2) the payment schedule. In addition, the plan sponsor is to be required to demand that the employer make payment of withdrawal liability in accordance with the payment schedule.

In calculating the payment schedule, the plan is to compute the annual payment under a formula set forth in the bill. The employer is generally to be required to make this payment to the plan for the lesser of (1) the number of years it would take to amortize its withdrawal liability (determined under the assumptions used for the most recent actuarial valuation for the plan) or (2) 30 years. The amount of each annual payment under the formula is to be determined as the product of two amounts. The first amount is the average number of contribution base units (*e.g.*, hours worked, tons of coal mined) for the three consecutive plan years, during the period of 10 plan years ending with the plan year in which withdrawal occurs, in which the number of units was the highest. The second amount is the highest contribution rate (*e.g.*, cents per hour) which the employer had an obligation to contribute under the plan during the period of 10 plan years ending with the year of withdrawal.

However, with respect to these two amounts a plan could provide that for the first plan year ending on or after February 28, 1979, the number "5" is substituted for the number "10" and is increased by one for each succeeding plan year until it becomes 10.

For example, assume that an employer's withdrawal liability is $1 million and that the plan's valuation rate of interest is 6 percent. Assume that in the 3 years for which the contribution base units were the highest during the 10 most recent plan years during which the employer was obligated to

[5] The plan sponsor of a multiemployer plan is generally a Joint Board of Trustees which administers the plan.

contribute to the plan, the number of such units were 80,000 hours, 85,000 hours and 90,000 hours respectively, and that during the last ten plan years the highest contribution [28] rate applicable to the employer under the plan was 75 cents an hour. The product of 85,000 hours (the average of 80,000, 85,000, and 90,000) and 75 cents an hour is $63,750. This would result in the amortization of the liability over approximately 49 years. Because the 49-year schedule is longer than 30 years, the employer would be liable to the plan for 30 annual payments of $63,750.

In the event that a multiemployer plan terminates upon (1) withdrawal of all employers in the plan or (2) withdrawal of substantially all employers in the plan pursuant to an agreement or arrangement to withdraw (a "mass withdrawal"), the annual amount of withdrawal liability payable by each employer is to be computed without regard to the 30-year limit, and total unfunded benefit obligations of the plan are allocated to all employers under PGBC regulations. Thus in the above example, if all employers were to withdraw, the liability of the employer would be $63,750 a year for approximately 49 years, unless the amount or payment period were to differ because of PBGC regulations which allocate unfunded benefit obligations.

In the case of a "partial withdrawal," withdrawal liability payments are to be made in the same fashion as in the instance of a complete withdrawal, but the amount payable would be only a *pro rata* portion of the payment required in the case of a complete withdrawal.

(2) Time for payment

Payment of withdrawal liability is to begin no later than 60 days after the date on which a demand for payment is made by the plan sponsor. Under the bill, payments are generally to be made in four equal quarterly installments unless a particular plan provides for payment at other intervals. In any case where payment is not made when due, the bill requires interest to accrue with respect to the unpaid amount based on the prevailing market rate.

An employer is to be permitted to prepay its withdrawal liability obligations plus accrued interest, if any, in whole or in part without penalty.

In the event of default by an employer in payment of its withdrawal liability, the plan sponsor is to be permitted to require immediate payment of the balance of the employer's withdrawal liability plus any accrued interest thereon. Default is generally considered to occur where an employer fails to make any payment with respect to withdrawal liability when due, and further fails to make payment within 60 days after receiving written notice from the plan sponsor that payment of withdrawal liability is due but unpaid. In addition, the plan is to be permitted to adopt rules which would provide for other instances of default where it is indicated that there is a reasonable likelihood that an employer will be unable to pay its withdrawal liability.

A multiemployer plan may adopt rules consistent with the bill which set forth other terms and conditions for the satisfaction of an employer's withdrawal liability.

In the case of a multiemployer plan which terminates, each employer's obligation to make withdrawal liability payments for the future is to cease at the plan year in which the plan's assets, exclusive of outstanding withdrawal liability claims, are sufficient to meet all of its obligations. This determination of sufficiency is to be made by the PBGC.

[29] *(3) Notice requirements and furnishing of information*

Withdrawal liability is to be collectible upon notice and demand to the withdrawn employer by the plan sponsor. In order for the plan sponsor to be in a position to accurately determine liability, the bill requires the employer to furnish information to the plan sponsor. After an employer withdraws from a plan, the plan sponsor is to request in writing that the employer furnish such information as the plan sponsor reasonably considers necessary for it to fulfill its duties in computing and collecting withdrawal liability. The bill requires an employer to furnish the requested information within 30 days after such a written request from the plan sponsor.

The actual demand for payment of liability in accordance with the payment schedule is to be made by the plan sponsor. The bill requires that before the plan sponsor demands payment the plan must afford the employer a reasonable opportunity (1) to identify errors in the determination of withdrawal liability, (2) to identify errors in the payment schedule, and (3) to furnish to the plan sponsor any additional pertinent information. The plan sponsor also is required, if requested, to make relevant plan records reasonably available to the employer for review and duplication.

After the plan sponsor demands payment of withdrawal liability, an employer is permitted to request the plan sponsor to review any item relating to the calculation of the liability and the payment schedule. Any such request for review is to be made within 90 days after the employer receives the initial notice and demand for payment of the liability. In response to such a request by an employer, the plan sponsor is required to conduct a reasonable review of any matter questioned and to notify the employer of (1) its decision, (2) the grounds for its decision, and (3) the reason for any modification in the employer's withdrawal liability or of the payments schedule.

(4) Determination of actuarial assumptions, etc.

The PBGC is authorized to prescribe regulations setting forth actuarial assumptions which a plan may use in calculating withdrawal liability. However, a plan may provide instead that its own assumptions will be used to determine withdrawal liability

rather than those developed by the PBGC.

In determining the unfunded benefit obligations under a plan, the plan's actuary and the plan administrator are permitted to rely on data available or on data secured by certain sampling techniques in situations where complete and definitive data is absent, provided such data can reasonably be expected to be representative of the status of the entire plan. In addition, a complete valuation of the plan is not required by the bill to be made more often than once every three years for the purpose of computing unfunded benefit obligations under the withdrawal liability provisions and reasonable estimates would be permitted in the interim years. However, the bill continues the authority of the Internal Revenue Service to require more frequent valuations in appropriate cases.

Under the bill, the plan sponsor may initially determine withdrawal liability on the basis of the latest available determination of contributions made to the plan by employers and the latest available actuarial valuation or, if later, the latest actuarial estimate.

[30] (*5*) *Plan rules and amendments*

There are several situations where plans, in the application of their own rules, either initially or by amendment, are permitted a wide degree of latitude in allocating and calculating withdrawal liability. In order to protect an employer from certain retroactive changes in a plan's rules, the bill prohibits the retroactive application of a plan rule or amendment relating to withdrawal liability from applying to a withdrawal occurring before its date of adoption, unless the employer consents to its earlier application.

The bill also requires that plan rules and amendments operate and be applied uniformly with respect to all employers except to the extent that lack of uniformity would be required to take into account employers' credit ratings.

Under the bill, when a plan rule or amendment affects withdrawal liability, the plan sponsor is required to give notice of the adoption of the rule or amendment to all employers required to contribute to the plan and to all employee organizations representing employees covered by the plan.

(*6*) *Notice to the PBGC*

Under regulations the PBGC is permitted to require a plan sponsor to notify the PBGC in any case where the withdrawal from a plan of an employer has resulted, or will result, in a significant reduction in total contributions to the plan.

(*7*) *Relationship to other rules*

Actions taken under the bill pursuant to the withdrawal liability rules are not to be considered prohibited self-dealing transactions for purposes of the nontax provision of ERISA.

In addition payments of withdrawal liability are not to be considered employer contributions for purposes of calculating withdrawal liability.

(*8*) *Approval of amendments*

If an amendment to a multiemployer plan authorized under the withdrawal liability provisions is adopted more than 36 months after the effective date of the bill, the amendment will be effective only if (1) the PBGC approves the amendment, or (2) within 90 days after it receives notice of the amendment from the plan sponsor, the PBGC fails to disapprove the amendment. However, certain amendments regarding methods for computing withdrawal liability could be adopted only in accordance with the section of the bill authorizing the amendments. The PBGC is to disapprove of a plan amendment only where it determines that the amendment creates an unreasonable risk of loss to plan participants, beneficiaries, or the PBGC.

(*9*) *Determinations presumed correct*

Under the bill, a determination of withdrawal liability by a plan would be presumed correct unless the party seeking to contest the determination shows by a preponderance of the evidence that the determination is unreasonable or clearly erroneous.

The determination by a plan as to the amount of its unfunded benefit obligations for a plan year is to be presumed correct, unless a party [31] seeking to contest the determination shows by a preponderance of the evidence that (1) the actuarial assumptions and methods used in the determination were unreasonable in the aggregate, or (2) a significant error was made by the plan's actuary in applying actuarial assumptions or methods.

(*10*) *Supplemental fund for reimbursement for uncollectible withdrawal liability*

Under the bill, the PBGC is required to establish a supplemental program by May 1, 1982, to reimburse multiemployer plans for withdrawal liability payments which are uncollectible because of bankruptcy or similar proceedings involving the employer. Under the program, the PBGC could also provide for reimbursement of a plan for withdrawal liability which is uncollectible for any other appropriate reason. A plan could elect coverage under the supplemental program and, if it did so, would be charged a premium for such coverage. The cost of the program (including appropriate administrative and legal costs) could be paid only out of premiums collected under the program. The PBGC could carry out the program in whole or in part under an arrangement with private insurers.

(*11*) *Definition of obligation to contribute*

For purposes of the withdrawal liability rules, an employer has an obligation to contribute if its obligation arises under one or more collective bargaining (or related) agreements or as a result of a duty under applicable labor-management relations law. An obligation to pay withdrawal liability

or delinquent contributions is not considered an obligation to contribute.

2. Merger or transfer of plan assets or liabilities

a. Mergers and transfers to multiemployer plans

Under the bill, unless otherwise provided in PBGC regulations, a plan sponsor is not to be permitted to allow a multiemployer plan to merge (or consolidate) with one or more other multiemployer plans or to engage in a transfer of assets or liabilities to or from another multiemployer plan unless certain conditions are met. The applicable conditions are that:

(1) The accrued benefit of any participant or beneficiary will not be lower after the merger or transfer than it was before the merger or transfer;

(2) the benefits of participants and beneficiaries are not reasonably expected to be reduced under the reorganization or insolvency provisions of the bill during the five-year period following the year in which the merger or transfer is effective;

(3) it is not reasonably expected that the risk of loss to the PBGC with respect to any of the affected plans will increase significantly;

(4) an actuarial valuation of assets and liabilities of each of the affected plans for the plan year preceding the merger or transfer has been performed and the valuation is based on data not more than two years old; and

(5) the merger or transfer is agreed to by the plan sponsors of all the affected plans.

[32] Under the bill, action taken under the merger, etc. provisions does not constitute a prohibited self-dealing transaction under the nontax provisions of ERISA.

The plan sponsor of a multiemployer plan which is affected by a proposed merger is to be permitted to request an advisory opinion from the PBGC that the proposed merger complies with the requirements of the bill.

b. Transfers between a multiemployer plan and a single-employer plan

The bill provides that, in the case of a transfer of assets or liabilities from a multiemployer plan to a single-employer plan, the accrued benefit of any participant could not be lower immediately after the transfer than it was immediately before the transfer. In addition, in the case of a transfer of liabilities from a single-employer plan to a multiemployer plan or a merger of a single-employer plan into a multiemployer plan, no accrued benefit could be lower immediately after the transfer or merger than it was immediately before the transfer or merger.

As a general rule, the bill requires that, where a multiemployer plan transfers liabilities to a single-employer plan, the multiemployer plan is to be liable to the PBGC in the event of the termination of the single-employer plan within 60 months after the transfer. Under the bill, the amount of the liability is to be the lesser of (1) the excess of the insufficiency of plan assets of the terminated single-employer plan over 30 percent of the net worth of the employer maintaining the single-employer plan, or (2) the actuarial present value of the unfunded benefits transferred to the single-employer plan and guaranteed by the PBGC (such present value to be determined at the time of the transfer). This liability is to apply to a multiemployer plan unless the PBGC determines that the interests of the participants and the PBGC are otherwise adequately protected or the PBGC fails to make a determination. The PBGC is to make such determination within 120 days after receipt of a complete application from the plan sponsor of the multiemployer plan that such a determination be made. If the PBGC fails to make the determination within the prescribed period, the multiemployer plan is not to have contingent liability. A multiemployer plan is not to be liable under the bill because of the transfer of liabilities to a single-employer plan where (1) the liabilities had previously accrued under a single-employer plan that merged with the multiemployer plan, (2) the present value of the liabilities is not greater than the present value of liabilities for benefits which accrued before the single-employer plan merged with the multiemployer plan, and (3) the value of the assets which would have been in the single-employer plan if the employer had maintained and funded it as a separate plan under which no benefits accrued after the merger. This exception to the liability provision is sometimes referred to as the "in and out rule" because it is designed to protect multiemployer plans which merge with but later spin off single-employer plans.

In any case where a multiemployer plan is liable under the bill because of a merger or transfer, the PBGC is authorized to make arrangements for satisfaction of the liability.

[33] Where benefits are transferred to a single-employer plan under the merger or transfer rules, the benefits are thereafter to be governed by the termination insurance rules applicable to single-employer plans.

As a general rule, a multiemployer plan is not to be permitted to transfer assets to a single-employer plan unless the plan sponsor of the single-employer plan agrees to the transfer. In the case of a transfer under the "in and out" rule, however, the plan sponsor need not so consent if advance agreement is obtained from the employer who, after the transfer, will be obligated to contribute to the single-employer plan.

c. Partition

Partition could occur under the bill when, pursuant to court order obtained by the PBGC, a portion of the assets and liabilities of a multiemployer plan is segregated and held as a separate fund. Under the bill, a plan sponsor is permitted to request the PBGC to petition a Federal District Court for an order of partition upon a showing of certain facts. The plan sponsor would have to show that (1) a bankruptcy or similar proceeding with respect to an employer has resulted or will result in a subtantial reduction in the aggregate amount of contributions

to the plan, and (2) it has determinel that the participants and beneficiaries' vested benefits which would be partitioned are directly attributable to service with the employer involved in the bankruptcy or similar proceeding.

If the PBGC determines that a multiemployer plan is likely to become insolvent as a result of a reduction of contributions because an employer is involved in a bankruptcy or similar proceeding, the PBGC may petition the Federal District Court for partition, if the PBGC determines that partition will significantly decrease the risk that insolvency of the multiemployer plan will occur. In such a case, the PBGC is required to notify the plan sponsor and the plan participants and beneficiaries whose benefits would be partitioned. The PBGC, in its petition, is to be permitted to propose a transfer of only vested benefits directly attributable to service with the employer involved in the bankruptcy or similar proceeding and an equitable share of the plan's assets.

The portion of the multiemployer plan which is partitioned is treated under the bill as a terminated multiemployer plan under which only the employer involved in the bankruptcy or similar proceeding would have withdrawal liability.

d. Assets transferable

Under the bill, multiemployer plans are required to provide rules regarding the transfer of assets to another plan. The rules could not restrict unreasonably the transfer of plan assets in connection with a transfer of plan liabilities and are to operate and be applied uniformly with respect to all transfers, except that reasonable variations are to be permitted to take into account the potential financial impact of a particular transfer on a multiemployer plan.

e. Other rules

Under the bill, the PBGC is required to prescribe regulations exempting *de minimis* transfers of assets from the merger, etc. rules. In addition, the merger, etc. rules do not apply to transfers of assets [34] pursuant to written reciprocity agreements except to the extent provided in PBGC regulations.

3. Reorganization and minimum contribution requirement

a. In general

Under the bill, certain financially troubled multiemployer plans are to be considered in a status of "reorganization." Once a plan enters a status of reorganization (1) benefits under the plan, including benefits currently being paid to retirees or their beneficiaries, could be reduced, (2) certain modifications to the otherwise applicable funding requirements of ERISA are to apply, and (3) certain prohibitions against increases in benefits are to apply if reductions are made.

b. Reorganization status

Under the bill, if the financial condition of a multiemployer plan becomes sufficiently poor under standards set forth in the bill, the plan is to be considered in reorganization and become subject to certain special rules regarding funding and adjustments in accrued benefits.

A multiemployer plan is to be in reorganization for a year if the plan's reorganization index is greater than zero. The reorganization index is the excess of the "benefit entitlements charge" of the plan over the net charge to the plan's funding standard account (see I. Minimum Funding Requirements) for the year without taking into account (1) credits for actual contributions to the plan for the year, (2) credits with respect to any waived funding deficiency for the year, and (3) credits with respect to any switchback liability for the year.[6] "Benefit entitlements charge" is defined as the amount necessary to amortize, in equal annual installments, the unfunded benefit obligations of the plan, determined as of the close of the plan year, (1) over 10 years in the case of obligations attributable to persons whose benefits are in pay status, and (2) over 25 years in the case of unfunded benefit obligations for other participants.

Under the bill, the determination of unfunded benefit obligations for purposes of calculating the benefit entitlements charge is based on a valuation of the plan performed as of the last day of the "base plan year", with certain adjustments. The "base plan year" for any plan year is the last plan year ending at least six months before the earliest of the effective dates of the "relevant collective bargaining agreements". A relevant collective bargaining agreement is a collective bargaining agreement (1) which is in effect for more than six months during the plan year for which the charge is determined and (2) which has not been in effect for more than three years as of the end of the plan year.[7] In any case where there is no relevant collective bargaining agreement, the base plan year is the plan year ending at least one year before the beginning of the plan year in which the determination of unfunded benefit obligations is made. Of course, the Secretary of the Treasury is to have the authority to require that the benefit entitlements charge and the charges and credits to the funding standard account are computed on a consistent basis.

[35] *c. Prohibition of certain payments*

Under the bill, while a plan is in reorganization, the present value of a participant's vested benefits derived from employer contributions is not to be permitted to be distributed in a form other than substantially level pension payments for life if the present value distribution would exceed $1,750. This prohibition is not to apply (1) in the case of a death benefit distribution, or (2) if the PBGC ap-

[6] In the case of a multiemployer plan using the "shortfall" method in computing actuarial costs, shortfall gains and losses in that plan year are to be taken into account in computing the net charge for the plan year.

[7] The six-month period may be, for example, the first six months or last six months of a particular agreement.

proves the payment of benefits in accordance with the plan in a greater amount after determining that the payment is in the interest of the plan's participants and beneficiaries and does not unreasonably add to the PBGC's risk of loss with respect to the plan.

d. Termination of reorganization status

A terminated multiemployer plan is not considered to be in reorganization after the date on which the last employer maintaining the plan withdraws from the plan. For this purpose, the determination of whether a withdrawal takes place is to be made in accordance with the definition of withdrawal contained in the bill's withdrawal liability provisions (see C. Employer Withdrawal Liability, Mergers, Etc., *Explanation of provisions, 1. Employer withdrawal liability, a. Definition of withdrawal, (1) Complete withdrawal*) and partial withdrawals are not to be taken into account.

e. Notice of reorganization

Under the bill when a multiemployer plan is in reorganization and would require an increase in contributions (before taking into account the credit for overburdened plans and accrued benefit reductions permitted under the reorganization provisions), the plan sponsor is required to notify interested parties of the reorganization status in the plan's summary annual report. The persons to be notified are (1) plan participants and beneficiaries, (2) employers required to contribute to the plan, and (3) employee organizations representing plan participants with respect to the plan. In addition to stating that the plan is in reorganization status, the notice must state that if contributions to the plan are not increased, then accrued benefits under the plan may be reduced or an excise tax may be imposed on employers if they fail to increase plan contributions.

In addition, the PBGC is to be authorized to issue regulations prescribing additional or alternative requirements for assuring adequate notice to, and access to relevant information, by interested parties.

f. Minimum contribution requirement

(1) In general

Under the bill, a plan in reorganization or a plan under which plan assets are not more than a specified multiple of benefit payments is to continue to maintain its funding standard account, but such a plan is also to be required to meet special minimum funding requirements. These requirements are to be met for a plan year if the sum of the "minimum contribution requirement" plus any accumulated funding deficiency for the preceding plan year did not exceed the amounts contributed by employers to the plan year, including amounts contributed to meet withdrawal liability obligations. If these requirements are not met, the accumulated funding deficiency for that plan year is to be the excess of the sum of the "minimum contribution re-[36]quirement" and the accumulated funding deficiency for the preceding plan year over the plan contributions, and employers are to be subject to the current excise taxes on accumulated funding deficiencies (or subject to the current conditions for having such deficiencies waived by the Internal Revenue Service).

The bill defines the minimum contribution requirement as the sum of (1) the plan's benefit entitlements charge,[8] and (2) in certain cases where the plan has been amended to increase benefits while the plan is in reorganization, the excess, if any, of the normal cost attributable to such plan amendment reduced by 15 percent of the normal cost computed without regard to the amendment. The minimum contribution requirement is reduced proportionately where the plan's current contribution base (*e.g.*, hours of service) for which employer contributions are required for the plan year is less than the plan's valuation contribution base. A plan's "valuation contribution base" is generally equal to the plan's contribution base for the plan year for which the actuarial valuation used to determine unfunded benefit obligations under the plan was made, with certain adjustments for upward or downward trends. Special rules apply for determining a plan's valuation contribution base for a plan year in which the plan is insolvent.

In the case of a plan in reorganization, if the plan's benefit entitlements charge is less than the plan's "cash flow amount" for a plan year, the minimum contribution requirement is determined by substituting the "cash flow amount" for the benefit entitlements charge. For this purpose, "cash flow amount" is the aggregate amount of benefits payable under the plan increased by the plan's administrative expenses for the plan year and decreased by the value of available plan assets, as determined under regulations prescribed by the Secretary of the Treasury. Also, in determining a plan's minimum contribution requirement for a plan year, the benefit entitlements charge may be adjusted to reflect a subsequent plan amendment which reduces benefits under the reorganization or plan termination provisions of the bill or under the funding standard. This adjustment would only take place, however, if the amendment is adopted and effective no later than 2½ months after the close of the plan year, or within an extended period for making the amendment as prescribed in regulations issued by the Secretary of the Treasury.

In addition, during the period that a plan is required to meet the "minimum contribution requirement," a credit or charge balance may build up in the plan's funding standard account which is being maintained. The bill provides that if a plan is not required to meet the "minimum contribution requirement" for a plan year but was required to meet such requirement for the preceding plan year, any balance

[8] Where the benefit entitlements charge is less than 115 percent of the amount of benefits payable during a plan year, reduced by the plan's investment income for the year, and plan reserves are very low, such amount is substituted for the benefit entitlements charge.

in the funding standard account is to be eliminated by an offsetting credit or charge (as appropriate) which is to be amortized over the following 30 years.

[37] Under the bill, a multiemployer plan is considered not to have a reorganization deficiency for a plan year if the rate of employer contributions under the plan equals or exceeds (1) the net charges to the funding standard account plus (2) seven percent of such amount for each year for which the minimum contribution requirement has applied to the plan. This seven percent limitation does not apply if a plan amendment is adopted while the plan is in reorganization and the amendment increases benefits with respect to service performed before the date the amendment is adopted.

(2) *Credit for overburdened plans*

Where a plan is considered to be financially overburdened for a plan year (determined under standards set forth in the bill), the plan is required to apply an "overburden credit" against its minimum contribution requirement for the plan year. Accordingly, the overburden credit would reduce the additional funding needed to satisfy the minimum contribution requirement.

A plan is considered overburdened for a plan year under the bill if (1) the average number of participants in pay status in the year exceeds the average of the average number of active participants in that year and in the preceding two plan years, and (2) the rate of employer contributions to the plan is at least equal to the greater of the rate of contributions for the preceding plan year or the rate of contributions for the year before the first plan year in which the plan was in reorganization (or in which the plan assets were not more than a specified multiple of benefit payments). For purposes of this rule, "pay status participant" means a retired employee receiving pension payments as an annuity, and "active participant" means (1) any plan participant who has not failed to accrue a benefit for the year because of insufficient active employment, (2) any active employee who is not a plan participant but who is in an employment unit covered by a collective bargaining agreement requiring the employee's employer to contribute to the plan, and (3) any active employee considered an employee of the employer under a special formula in the bill which treats certain employees as the employer's employees on the basis of the employer's withdrawal liability contributions to the plan. Also, for purposes of applying the overburden credit rules, in determining the first plan year in which a plan is in reorganization, years in which the plan was previously in reorganization are disregarded if followed by three consecutive plan years in which the plan is not in reorganization.

The amount of overburden credit for a plan year is to be the product of two amounts. The first amount is one-half of the "average guaranteed benefit paid" in the base plan year and the second amount is the "overburden factor" for the plan year. The "average guaranteed benefit paid" is 12 times the average monthly pension payments guaranteed under the bills, computed by dividing (1) the total guaranteed annuity pension payments under the plan by (2) the number of pay status participants in the plan for the plan year. The "overburden factor" for a plan for a plan year is the excess of (1) the average number of pay status participants for the base plan year over (2) the average of the average number of active participants in the plan in that plan year and the two preceding plan years.

[38] Under the bill, the Secretary of the Treasury could deny a plan an overburden credit for a plan year upon a finding that (1) the plan's current contribution base was reduced without a correlative reduction in the plan's unfunded benefit obligations attributable to pay status participants, and (2) such reduction resulted from a change in an agreement providing for employer contributions to the plan. Accordingly, a plan that has excluded active employees is not to be eligible for the overburden credit. However, an employer withdrawal from a plan is not to prevent the plan from being eligible for the overburden credit, unless the Secretary of the Treasury finds that in connection with the withdrawal a contribution base reduction resulted from a transfer of plan liabilities to another plan.

Under the bill, in the case of the merger of plans involving one or more multiemployer plans which are in reorganization, there is to be a limit on the amount of overburden credit which could be applied to the minimum contribution requirement of the merged plan. The maximum credit for any of the first three plan years ending after the merger could not exceed the sum of the overburden credits applied by each of the plans to avoid a reorganization deficiency for the last plan year ending before the merger. Of course, the rules relating to mergers also apply in computing the overburden credit in the case of a consolidation of plans.

g. Adjustments in accrued benefits

With very limited exceptions, under present law, plan amendments are not permitted to reduce benefits already accrued by an employee. However, in the case of a multiemployer plan in reorganization, the bill permits plan amendments to reduce accrued benefits attributable to employer contributions under specified circumstances. The accrued benefits which are subject to reduction are those which have been in effect under the plan for less than 60 months and are not eligible for guarantee by the PBGC.

The conditions which must be met in order for a plan's accrued benefits to be reduced are as follows:

a. A notice must be given, at least six months in advance of the first day of the plan year in which the amendment reducing accrued benefits is adopted, to plan participants and beneficiaries, to each employer with an obligation to contribute to the plan, and to each affected employee organi-

zation. The notice must state that the plan is in reorganization and that if contributions to the plan are required to be increased and the increase is not made, accrued benefits under the plan are required to be reduced or the failure to increase employer contributions to the plan may result in an excise tax for failure to meet the minimum funding standard.

b. Under regulations to be issued by the Secretary of the Treasury—

(i) accrued benefits of inactive participants are not to be reduced to a greater extent proportionally than accrued benefits for active participants are reduced;

(ii) benefits attributable to employer contributions other than accrued benefits (such as death benefits or health benefits) and the rate of future benefit accruals are to be decreased [39] at least as much as accrued benefits of active participants are decreased; and

(iii) if the reduction in accrued benefits takes the form of a change in the mode of benefit or the requirements for benefit entitlements, the reduction may not affect benefits in pay status on the effective date of the amendment or benefits of any participant who has reached, or is within five years of reaching, normal retirement age on the effective date of the amendment.

c. The rate of employer contributions for the plan year in which the amendment becomes effective and for all future years while the plan is in reorganization must at least equal the greater of (i) the rate of employer contributions (without regard to the amendment) for the plan year in which the amendment becomes effective, or (ii) the rate of employer contributions for the preceding plan year.

Where accrued benefits are decreased by a plan amendment, a plan is not to be permitted to recapture a benefit payment which has already been made under the plan's accrued benefit provisions determined before the amendment is adopted.

Once a plan has been amended to decrease accrued benefits, a future plan amendment is not to be permitted to increase (1) accrued benefits, or (2) the rate of future benefit accrual, only if the plan is first amended to restore previously eliminated accrued benefits of inactive participants and participants within five years of normal retirement age at least to the extent of the amount or rate by which the plan amendment increases benefit accruals. Moreover, where a plan is amended so that it partially restores previously accrued benefit levels or the previous rate of accrual, the benefits of inactive participants must be restored in at least the same proportion as accrued benefits are restored overall.

Under the bill, no increase in benefits under a plan is to be permitted to take effect in a plan year in which an amendment reducing accrued benefits is adopted or first becomes effective.

Where a benefit is reduced and later restored, a plan is not required to make retroactive benefit payments to participants who received payment under the reduced accrued benefit levels.

For purpose of applying the benefit reduction rules, an inactive participant is an individual whose benefits are in pay status under the plan or an individual not currently in service under the plan but who nevertheless has a vested plan benefit.

The Secretary of the Treasury is authorized to prescribe regulations permitting benefit reductions or increases for different groups of participants on an equitable basis to reflect variations in contribution rates and other relevant factors reflecting differences in bargained-for levels of financial support for plan benefit obligations.

h. Insolvent plans

Under the bill, if a multiemployer plan is insolvent for a plan year, the plan is to be required to suspend the payment of benefits, other than basic benefits, which exceed the "resource benefit level." The suspension rule does not apply, however, if the PBGC prescribes a procedure for the guarantee of supplemental benefits (retirement ben-[40]efits exceeding basic benefits) to the extent supplemental benefits are guaranteed by the PBGC. A multiemployer plan is considered insolvent for a plan year if (1) it is in reorganization, (2) it has been amended to reduce benefits to the level of basic benefits, and (3) it does not have available resources sufficient to pay benefits under the plan when due for the plan year. The term "resource benefit level" means the highest level of monthly benefits which the plan could pay out of its available resources.

For each year for which a multiemployer plan is insolvent, the plan sponsor is to be required to determine and certify the resource benefit level of the plan, based on its reasonable projection of available resources and benefits payable. Where the suspension of benefits above the resource benefit level takes place, benefits are to be suspended in substantially uniform proportions with respect to all persons whose benefits are in pay status under the plan. The proportionate suspension is to be done in a manner consistent with regulations prescribed by the Secretary of the Treasury. In addition, the Secretary of the Treasury is to be authorized to prescribe rules under which the benefits of different participant groups could be suspended in disproportionate fashion if varied equitably to reflect variations in contribution rates and other relevant factors reflecting differences in bargained-for levels of financial support for plan benefit obligations.

A plan sponsor is not to be permitted to determine and certify a resource benefit level which is below the level of basic benefits for a plan year, except in a case where payment of all benefits other than basic benefits was suspended for the plan year.

If, by the end of a plan year for which a plan is insolvent, the plan sponsor determines that benefits can be paid above the resource benefit

level, the plan sponsor is required to direct the distribution of such additional benefits in accordance with regulations prescribed by the Secretary of the Treasury. Where by the end of the year, benefits up to the resource benefit level have not been paid, the amount necessary to bring benefits up to that level are required to be distributed in accordance with regulations prescribed by the Secretary of the Treasury, to the extent possible, considering the plan's available resources.

Every three years during the period when a plan is in reorganization, beginning with the end of the first such plan year, the plan sponsor is required to compare the value of plan assets with the total amount of benefit payments for the year. Except where plan assets exceed three times the total amount of benefit payments, the plan sponsor is to be required to make a determination regarding whether the plan will be insolvent during any of the next three plan years. In addition, if at any time the plan sponsor determines, on the basis of experience, that available resources are not sufficient to pay benefits when due for the forthcoming plan year, the sponsor is required to certify that the plan will be insolvent for that year. Such certification is required no later than three months before the commencement of the plan year.

For each year for which a plan is insolvent, the plan sponsor is required to determine and certify the resource benefit level and the level of basic benefits no later than three months before the commencement of the plan year. In addition, if the plan sponsor determines that [41] the plan may be insolvent any time in the next three plan years, the sponsor is to be required to so notify (1) the Secretary of the Treasury, (2) the PBGC, (3) plan participants and beneficiaries, (4) each employer required to contribute to the plan, and (5) each affected employee organization. In addition, the above parties other than the Secretary of the Treasury and the PBGC are to be informed that, in the event of insolvency, payments in excess of basic benefits are to be suspended (unless guaranteed as supplemental benefits). No later than two months before the first day of a year for which a plan is insolvent, the plan sponsor is required to notify each of the above parties of the plan's resource benefit level.

Where the plan sponsor believes that the resource benefit level for a plan year for which a plan is insolvent may not exceed the level of basic benefits, the plan sponsor is to so notify PBGC no later than six months before the first day of the plan year.

Where a plan sponsor determines and certifies a resource benefit level below the level of basic benefits, the sponsor is to apply for PBGC financial assistance. Where the plan sponsor determines a resource benefit level above the level of basic benefits but anticipates that for any month during a year for which the plan is insolvent the plan will not have sufficient assets to pay basic benefits, the plan sponsor is to be permitted to apply to the PBGC for financial assistance.

4. Financial assistance

Under the bill, if the PBGC receives an application for financial assistance from a plan and verifies that the plan will be insolvent and unable to pay basic benefits when due, the PBGC is to provide financial assistance to the plan in an amount sufficient to permit the plan to pay its basic benefits. Such financial assistance is to be provided under such conditions as the PBGC determines to be equitable and appropriate to prevent unreasonable loss to the PBGC with respect to the plan. Where a plan receives financial assistance from the PBGC, it is to repay the PBGC for such assistance on reasonable terms which are consistent with regulations to be issued by the PBGC.

While the PBGC is determining the amount of assistance necessary to permit a plan to pay basic benefits, the PBGC is to be permitted to provide interim financial assistance in an amount appropriate to avoid undue hardship to plan participants and beneficiaries.

5. Benefits under certain terminated plans

Under the bill, where a plan terminates by a mass withdrawal of employers the plan sponsor is required to amend the plan (1) to reduce benefits, and (2) to suspend certain benefit payments. The reduction in benefits is to be to a level at which plan assets will be sufficient to discharge the plan's obligations when due, but not to a level of benefits below the level eligible for guarantee. In making the determination of this level, the present value of vested benefits under the plan and the value of plan assets are to be determined and certified as of the end of the plan year in which the plan terminates, and as of the end of every plan thereafter. For this purpose, (1) plan assets include the value of outstanding claims for withdrawal liability that are not uncollectible, and (2) for the year in which the plan terminates and for the following two plan years plan assets also include certain additional assets [42] attributable to employer withdrawal liability, as prescribed in regulations issued by the PBGC in order to avoid premature benefit reductions.

Any plan amendment reducing benefits as to (1) limit the reduction to the extent necessary to permit the payment of vested benefits, (2) eliminate or reduce only those accrued benefits which are not guaranteed by the PBGC, (3) except to the extent permitted by the PBGC, make reductions only in accordance with the reorganization rules and only to the extent permitted under such rules, and (4) become effective no later than six months after the plan year in which it was determined that the present value of vested benefits exceeds plan assets. The Committee expects that a reduction of benefits for a participant or beneficiary to a greater extent than is permitted under the bill will be considered a violation of the minimum

standards of ERISA (*e.g.*, the vesting and fiduciary standards) and that fiduciaries will act prudently in discharging their duties to retirees and other participants and beneficiaries.

The benefit payments which are to be suspended where a plan terminates are all nonbasic benefits that cannot be provided out of plan resources.

6. Enforcement

a. Civil actions

Under the bill, certain parties could bring a civil action for appropriate legal relief, equitable relief, or both. These parties are (1) a plan fiduciary, an employer, a plan participant, or a plan beneficiary, any of whom are adversely affected by an act or omission of any party under the provisions of the bill with respect to multiemployer plans, as well as (2) an employee organization which represents an affected plan participant. However, no such action could be brought against the Secretary of the Treasury or the Commissioner of Internal Revenue.

In any case where a civil action is brought to compel an employer to pay withdrawal liability, the court may award (1) the unpaid liability plus interest as well as (2) liquidated damages payable to the plan. In general, the district courts of the United States have exclusive jurisdiction for civil actions under the bill without regard to the amount in controversy. In the case of an action brought by a plan fiduciary to collect withdrawal liability, State courts of competent authority are also to have jurisdiction.

The proper venues in Federal district court for bringing an action under the bill are to be (1) the district where the plan is administered, (2) the district where a defendant resides, or (3) the district where a defendant does business. Service of process is to be permitted in any district where a defendant (1) resides, (2) does business, or (3) may be found. In addition, a copy of the complaint in any action brought under the bill is to be served on the PBGC by certified mail. The PBGC may intervene in any action brought under the bill.

In the case of an action under the bill, the court is permitted to award to the prevailing party all or a portion of costs and expenses in connection with the action, including reasonable attorney's fees.

The period of limitations for the commencement of an action under the bill is to expire six years after the date on which the cause of action arose.

[43] *b. Penalty for failure to provide notice*

If any person fails without reasonable cause to provide any notice required under the termination insurance program for multiemployer plans or under implementing regulations the bill provides that the person is to be liable to the PBGC in an amount up to $100 for each day that the failure continues. The PBGC is authorized to bring a civil action against the person failing to give notice. The action could be brought in the United States District Court for the District of Columbia or in any United States district court within the jurisdiction where (1) the plan assets are located, (2) the plan is administered, or (3) a defendant resides or does business. Service of process for such an action may take place in any district where a defendant (1) resides, (2) does business, or (3) may be found.

General effective date

The provisions of the bill generally apply on the date of enactment. One exception is that the withdrawal liability rules take effect as of February 27, 1979. For purposes of determining whether an employer has withdrawn from a multiemployer plan, the definition of multiemployer plan in effect at the time of the withdrawal is to be applied. Another exception is that the reorganization provisions take effect on the first day of the first plan year beginning after the earlier of (1) the expiration date of the last collective bargaining agreement in effect on the date of enactment of the bill or (2) 3 years after the date of enactment of the bill.

Also, the bill provides that where an employer has withdrawn from a multiemployer plan before the date of enactment of the bill, and a bond or escrow has been provided by the employer under present law, the PBGC is to pay the bond or escrow to the plan if, because of the withdrawal of all employers from the plan, the plan terminates before February 27, 1984. In any case in which the plan is not terminated before February 27, 1984, the liability of the employer is abated and any payment held in escrow is to be refunded without interest to the employer or the employer's bond is to be cancelled.

[44] *Ways and Means Committee Amendment*

1. Definition of withdrawal—two-percent de minimis rule

Under the bill, an employer who is obligated to make less than two percent of the total contributions to a plan is generally not charged with withdrawal liability for a partial withdrawal from the plan. The Committee determined that it is inappropriate automatically to relieve employers of partial withdrawal liability where a plan has substantial unfunded benefit obligations.

The Committee amendment revises the two-percent *de minimis* rule for partial withdrawals. Under the amendment, the rule automatically applies only in the case of a plan with unfunded benefit obligations, determined as of the close of the plan year of a partial withdrawal, not exceeding $1.25 million. In the case of a plan with unfunded benefit obligations of more than $1.25 million, the two-percent *de minimis* rule applies only if the plan provides for its application.

2. Computation of withdrawal liability—West Coast longshore labor

Under the bill, withdrawal liability is imposed on employers who maintain multiemployer pension plans. Also under the bill, withdrawal liability,

absent a plan provision to the contrary, is generally computed under a rule which draws a distinction between unfunded benefit obligations created in plan years ending before February 28, 1979, and unfunded benefit obligations incurred in plan years ending on or after February 28, 1979.

The Committee has concluded that in the case of multiemployer plans covering West Coast longshore labor the PBGC should be authorized to define the term "employer". In addition the Committee has concluded that the presumptive method for computing withdrawal liability under the bill is inappropriate for a plan covering West Coast longshore labor and that withdrawal liability under such a plan should be computed under a method which draws no distinction with respect to whether unfunded benefit obligations are incurred in plan years ending before February 28, 1979, or in plan years ending on or after February 28, 1979.

The Committee amendment provides special rules for a West Coast longshore labor plan. Under the amendment (1) a West Coast longshore labor plan is to be required to use the second alternative method of computing withdrawal liability, and (2) the term "employer" with respect to such a plan will be defined under regulations prescribed by the PBGC. The amendment defines a West Coast longshore labor plan as a plan which covers longshore labor in all major ports with the western coastal area of the United States between Canada and Mexico.

[45] *3. Payment of withdrawal liability*

a. Determination by reference to prior average contributions

Under the bill, the annual amount of the withdrawal liability payments of an employer is based on the product of the average contribution base units and the employer's rate of contribution to the plan, determined with reference to a prior period.

The Ways and Means Committee recognizes that for purposes of computing the amount of an employer's annual withdrawal liability payments, a plan, at this time, may not have ready access to the records necessary to compute such payment based on the average number of contribution-base units during a prior period. For this reason, the Committee has decided for a transition period to permit plans to base the computation on the average required employer contributions during the prior period.

Under the amendment, a plan could provide that for any plan year ending before 1986, the amount of an employer's annual withdrawal liability payment would be the average of the required employer contributions under the plan for the period of three consecutive plan years for which such contributions were the highest during the period of ten consecutive plan years ending with the plan year in which the withdrawal occurs. This method could not be used by a plan for determining withdrawal liability payments in any case in which the plan terminates because of mass withdrawal. If a plan provides the computation method permitted by the Committee amendment and then the plan is amended to provide for use of the original method provided under the bill, the plan must use the original method thereafter.

b. Charge to employer for calculating withdrawal liability

Under the bill, because an employer who withdraws from a multiemployer plan may incur withdrawal liability, employers may be expected to request plan sponsors periodically to calculate potential withdrawal liabilities. The Committee has concluded that the expense of such calculations should not necessarily be borne by the plans.

Under the amendment, if any employer requests the plan sponsor to make an estimate of the employer's potential liability upon withdrawal from the plan, the plan sponsor may require the employer to pay the reasonable cost of providing the estimate. This specific authorization to adopt a plan provision under which a reasonable charge may be imposed for providing estimates of withdrawal liability is not intended by the Committee to limit the right of a plan to adopt other provisions for other reasonable charges authorized by the bill.

c. Withdrawal liability payment fund

Under the bill, a fund would be established to pay uncollectible employer withdrawal liability. The fund would be established and administered by the PBGC.

The Committee has concluded that a privately established fund for payment of withdrawal liability should be available as an alternative to a fund administered by the PBGC. In addition, the Committee has concluded that premiums for the PBGC maintained fund should be subject to Congressional review. The Committee believes that the [46] PBGC should not be permitted to set unrealistically low premiums because such conduct could attract additional plan participation in the voluntary program in reliance on low premium levels.

Accordingly, the Committee amendment permits plan sponsors of multiemployer plans to establish and participate in private funds for the purpose of paying withdrawal liabilities under certain circumstances. Any such fund which meets the applicable requirements is to be a tax-exempt organization. The fund could be required to maintain agreements for collection of premiums and payment of withdrawal liability with respect to a substantial portion of the participants in the multiemployer plan eligible to participate in the fund. The fund is to be administered by a board of trustees on which there is equal representation of employers and employees.

Under the Committee amendment, the fund would receive contributions from participating plans. Contributions by a plan to the fund during a plan year are to reduce the amount considered contributed to the plan for the year for purposes of the minimum funding standard and the minimum

contribution requirement. The Committee expects that, in considering whether to approve a waiver of the funding requirements for a plan under section 412(d) of the Code for a plan year during which the plan has made a contribution to a withdrawal liability payment fund, the amount and nature of the payment will be taken into account.

The eligibility of a plan to participate in a fund is to be determined by the rules of the fund. Where an employer has withdrawn from a participating multiemployer plan and has incurred withdrawal liability, the fund would pay to the plan on behalf of the employer an amount not exceeding the portion of the employer's withdrawal liability which is not attributable to plan participants' service with an employer who was obligated to contribute to the plan on or after February 28, 1980 (unattributable liability). The fund could also pay withdrawal liability-type amounts which are not due from an employer solely because of (1) the special two-percent *de minimis* rule for partial withdrawal, (2) the general *de minimis* rule, or (3) the 30-year cap on withdrawal liability payments. In addition, the fund could pay withdrawal liability payments to the extent that they are uncollectible. The extent to which these types of amounts would be paid by the fund is generally to be determined under the rules of the fund. These payments are to be treated in the same manner as payments of withdrawal liability to the plan.

To the extent the fund pays unattributable withdrawal liability incurred by an employer, the employer is to be relieved of the liability.

Where a fund has paid uncollectible withdrawal liability to a plan, the fund is to be subrogated to the rights of the plan against the employer. If a withdrawal liability payment fund is terminated, any assets of the fund at termination are to revert to the participating plans and are not to revert to employers. Under the Committee amendment, the fund is not to lend its assets to participating plans or to the PBGC and the fund is not to borrow from participating plans or the PBGC.

The Committee amendment authorizes the PBGC to prescribe regulations with respect to withdrawal liability payment funds. The [47] Committee expects that such regulations will assure that the funds do not have the effect of undermining the purposes of the withdrawal liability rules. For example, the Committee expects the PBGC regulations will assure that payments by a fund with respect to unattributable liability are not in excess of appropriate levels. Of course, PBGC rules with respect to the withdrawal liability payment fund and with respect to the PBGC-administered fund are not to be designed or administered for the purpose of providing either of the arrangements a competitive advantage over the other.

The fund is to be maintained for the exclusive purpose of paying the specified withdrawal liability and withdrawal liability-type payments to plans as well as paying reasonable administrative expenses in connection with its operation.

Payments are not to be permitted from a withdrawal liability payment fund to a plan in the event of a withdrawal or partial withdrawal where the employees in the bargaining unit that has withdrawn from the plan continue, after the withdrawal, to be represented in negotiations with the employer by the labor organization representing the employees immediately before the withdrawal.

The amendment also provides for Congressional review of premiums for coverage under the PBGC maintained fund. Under the amendment, no revision of the premium schedule for this coverage could be adopted by the PBGC unless the revised schedule has been submitted to the Congress. The PBGC could adopt the revised schedule unless, within 60 days after the submission, the Congress disapproves of the revised schedule by a concurrent resolution which has been referred to the Committee on Ways and Means and the Committee on Education and Labor of the House, and to the Committee on Finance and the Committee on Labor and Human Resources of the Senate. The Committee expects that if the Congress disapproves of a revised premium schedule recommended by the PBGC, the PBGC will make appropriate adjustments to payments from the fund.

4. Notice of reorganization—content of notice to encompass beneficiary rights and remedies

Under the bill, a multiemployer plan in reorganization must notify interested parties of potential benefit reductions. Under the Committee amendment, the notices are to inform plan participants and beneficiaries of their rights and remedies and of the manner in which they may contact the Department of Labor for certain information. The Committee expects that the Department of Labor will refer inquiries from participants and beneficiaries to the Internal Revenue Service or to the PBGC in appropriate cases.

5. Minimum contribution requirement —seven-percent limitation on annual increase in contribution rate

Under the bill, a plan in reorganization is subject to a minimum contribution requirement which may require contributions greater than would be required under the minimum funding standard of ERISA, generally not to exceed the net charges to the funding standard account plus 7 percent of such amount for each year the minimum contribution requirements have applied to the plan. The Committee has determined that the minimum contribution requirement should not be [48] permitted to increase the rate of plan contributions above those required for the prior year by more than a reasonable amount.

Under the amendment, the minimum contribution requirement applicable to a plan for a particular plan year could not exceed an amount which would require a rate of employer contributions in excess of the rate which would be required to meet

the greater of (1) the net charges under the plan's funding standard account as if it were not in reorganization (without regard to any credit balance in the funding standard account) or (2) 107 percent of the amount required for the preceding year. This limitation does not apply with respect to a plan if, while the plan is in reorganization, a plan amendment is adopted which increases benefits with respect to service performed before the date the amendment is adopted.

6. Adjustments in accrued benefits—prohibition against reducing benefits scheduled on or before March 26, 1980

Under the bill, a multiemployer plan in reorganization may reduce certain accrued benefits. The Committee has determined that retroactive application of the accrued benefit reduction provision to a date before the day following the date the Committee considered the provision is not appropriate.

The Committee's amendment limits the reduction in accrued benefits which could be made by a plan in reorganization. Under the amendment, only a net increase in accrued benefits due to plan amendments (or plans) adopted after March 26, 1980, or under collective bargaining agreements entered into after March 26, 1980, could be reduced. The Committee intends that benefit increases which occur after March 26, 1980, but which were bargained for before that date, would be protected from reduction under the reorganization rules. However, the Committee does not intend to protect increases in benefits which are provided for under a plan before March 26, 1980, as part of a schedule of benefits which could be bargained for, but which are bargained for after March 26, 1980 (so called "bargaining-up").

7. Enforcement — liquidated damages with respect to delinquent contributions

Under the bill, in the case of an action to collect withdrawal liability, a court may award a plan liquidated damages. The Committee has concluded that in certain situations, reasonable attorney's fees, court costs, and liquidated damages should be awarded to a plaintiff in an action to collect delinquent plan contributions.

The Committees amendment provides that in the case of a civil action by any person to collect delinquent multiemployer plan contributions, regardless of otherwise applicable law, the court before which the action is brought may award the plaintiff (1) reasonable attorney's fees, (2) court costs, and (3) liquidated damages not to exceed 20 percent of the amount of delinquent contributions as determined by the court. However, these items are to be awarded to a plaintiff only to the extent that the multiemployer plan in question provided for such an award. The bill preempts any State or other law which would prevent the award of reasonable attorney's fees, court costs or liquidated damages or which would limit liquidated damages to an amount below the 20 percent level. However, the bill does not [49] preclude the award of liquidated damages in excess of the 20 percent level where an award of such a higher level of liquidated damages is permitted under applicable State or other law. The Committee amendment does not change any other type of remedy permitted under State or Federal law with respect to delinquent multiemployer plan contributions.

a. Certain withdrawals completed before July 31, 1979

Under the bill, the withdrawal liability rules are generally effective on February 27, 1979. The Committee has concluded, however, that the rules should not apply to certain partial or complete withdrawals completed before July 31, 1979.

The Committee's amendment creates an exception to the general effective date for withdrawal liability. Under the amendment, if (1) on March 23, 1979, an employer publicly announced (for example, by a press release or other appropriate means) a decision to cease covered operations at a number of facilities, (2) before May 3, 1979, such decision was communicated to the labor organizations which represented employees at the facilities, and (3) before July 31, 1979, the employer ceased all covered operations at any of the facilities, then the employer's withdrawal liability, if any, attributable to such facilities, could not exceed the amount determined under a special formula. The Committee intends that notice given at the national or local level of a labor organization is adequate notice to the labor organization for purposes of the amendment.

The special formula generally would limit withdrawal liability to the excess of an amount deemed to be the employer's liability to the plan less an amount deemed to be an accumulation of the employer's contributions to the plan. In addition, for a partial withdrawal, the employer, in the event of any future withdrawal, is to have its withdrawal liability computed as if it had paid its full liability for the partial withdrawal rather than only the amount determined under the special formula.

b. Certain partial withdrawals announced before December 13, 1979

Under the bill, in the case of a partial withdrawal, the withdrawal liability rules are generally effective on February 27, 1979. The Committee has concluded that the rules should not apply to certain withdrawals announced before December 13, 1979.

The Committee's amendment creates an exception to the general effective date for partial withdrawal liability. Under the amendment, if an employer (1) publicly announced the total cessation of covered operations at a facility before December 13, 1979, and such cessation occurs within 12 months after the announcement; (2) had not been obligated to make contributions to the multiemployer plan on behalf of the employees at such facility for more than eight years; and (3) after the cessation, does not commence operations which would be cov-

ered by the plan within the same State for one year, then the employer's partial withdrawal liability attributable to such facility could not exceed the amount determined under a special formula. The special formula generally would limit partial withdrawal liability to the excess of the present value of vested benefits under the plan considered [50] to be attributable to the withdrawing employer (determined on the basis of actual employee data for the period preceding the date of the partial withdrawal and on the basis of actuarial estimates thereafter) less an amount deemed to be an accumulation of employers' contributions to the plan.

8. Related technical changes

a. Notice provisions in connection with collection of withdrawal liability

Under the bill, an employer is permitted a 90-day period to request a review of a plan sponsor's determination of the employer's withdrawal liability and schedule payments. The Committee amendment makes it clear that the 90-day period begins to run the day after the employer receives notice from the plan sponsor of the amount of its withdrawal liability, and of the payment schedule.

b. Determination of reorganization status

The bill provides a test to determine whether a plan is in reorganization. Under the test, as a general rule, a plan will be in reorganization for a plan year unless the net charges to the funding standard account under the plan for the year are sufficient to amortize the plan's unfunded benefit obligations in equal annual installments over 10 years in the case of obligations attributable to persons in pay status and over 25 years in the case of other obligations.

The Committee amendment clarifies the precise tests to be applied under the bill in determining whether a plan is in reorganization for a year.

c. Partial withdrawal liability

Under the bill, an employer will generally be liable to a multiemployer plan for withdrawal liability in the event of what is known as a "partial withdrawal." A partial withdrawal occurs where the employer does not completely withdraw from the plan but where an event occurs indicating a meaningful reduction in the base for computing the employer's contributions to the plan. Under the bill, the amount of withdrawal liability in the case of a partial withdrawal is a pro rata portion of the amount of liability which would be applicable if the withdrawal were a complete withdrawal.

The Committee amendment clarifies the three events which trigger a partial withdrawal and the rules for computing the liability for a partial withdrawal.

Under the amendment, as under the bill, the three events which will trigger a partial withdrawal from a multiemployer plan are (1) a 60-percent decline in contribution base units; (2) a facility closing resulting in a 25-percent decline in contribution base units; and (3) a cessation of an employer's obligation to contribute to a plan under one but not all of the collective bargaining agreements obligating the employer to contribute to the plan.

(1) 60-percent decline.—

Under the amendment, a 60-percent decline in contribution base units is considered to take place in a plan year if during the plan year and during the preceding two plan years (the "3-year testing period") the number of contribution base units (*e.g.*, hours worked) [51] with respect to which the employer was required to make plan contributions did not exceed 40 percent of the number of such contribution base units during the plan year (in a five-year base period) during which contribution base units were the highest. For example, assume a determination is to be made as to whether a partial withdrawal takes place under this rule for the plan year which is the calendar year 1987. Assume that the employer's contribution base units for 1985, 1986 and 1987 are 35,000 hours, 36,000 hours, and 37,000 hours respectively, and that the employer's contribution base units for 1980, 1981, 1982, 1983 and 1984 are 100,000 hours, 98,000 hours, 95,000 hours, 91,000 hours, and 85,000 hours, respectively.

Contribution base units are the highest in 1980 when such units are 100,000 hours. Accordingly, to determine if a partial withdrawal occurs in 1987, it must be determined whether the number of contribution base units in each of 1985, 1986 and 1987 does not exceed 40 percent of the number of contribution base units in 1980. Because contribution base units in 1980 are 100,000 hours, a withdrawal does not occur unless contribution base units do not exceed 40,000 hours in each of 1985, 1986 and 1987. In this case, contribution base units are less than 40,000 hours in each year during the three-year testing period. Accordingly, a partial withdrawal in this case would be considered to take place as of the close of 1987.

(2) 25-percent decline.—

Under the amendment, a facility closing resulting in a 25-percent decline in contributions is considered to take place where (1) the facilities closed by an employer during the plan year and during the five preceding plan years accounted in the aggregate for at least 25 percent of that employer's contribution base units under the plan and (2) the employer's contribution base units for the plan year are 75 percent or less of the employer's contribution base units in the plan year during the five plan years preceding the plan year during which contribution base units were the highest. For purposes of this rule, a facility closing means the cessation of substantially all of the employer's covered operations at a facility.

In determining whether facility closing in the plan year and in the five preceding plan years resulted in a 25-percent reduction in contribution base units a formula is applied. Under the formula, a percentage is determined for each particular facility closing during the six-year period. If the sum of the percentages equals or exceeds 25

percent, a 25-percent decline in contribution base units is considered to have occurred. The percentage for each separate facility closing is determined by dividing (1) the number of contribution base units for the facility for the year during the six-year period encompassing the year of the closing and the preceding five years in which the number of such units were the highest (the "high six years") by (2) the number of contribution base units for all facilities with covered operations under the plan for the high six years.

(3) Cessation of an employer's obligation.—

A cessation of an employer's obligation to contribute to a plan under one but not all the collective bargaining agreements obligating the employer to contribute to the plan will not be considered to take [52] place in any case where there is a mere substitution of an agreement with one collective bargaining agent for an agreement with another collective bargaining agent under the same plan.

Once it has been determined that a partial withdrawal has occurred, the amount of withdrawal liability is determined by multiplying the amount of withdrawal liability which would have applied in the case of a complete withdrawal on the same date (or, in the case of a partial withdrawal in the nature of a 60-percent decline in contributions, on the last day of the first plan year in the three-year testing period) by (1) one minus (2) a fraction. The numerator of the fraction is the employer's contribution base units for the plan year following the plan year of the partial withdrawal. The denominator of the fraction is the average of the employer's contribution base units for the five plan years immediately preceding the plan year of the partial withdrawal. However, in the case of a partial withdrawal because of a 60-percent decline in contributions, the denominator of the fraction is the average of the employer's contribution base units for the five plan years immediately preceding the three-year testing period.

Under the amendment, if withdrawal liability is determined on account of a partial withdrawal, the amount of the liability is applied as a credit against withdrawal liability for any future withdrawal from the plan, whether partial or complete. In addition, the future withdrawal will not relieve the employer from continuing to make its payments for withdrawal liability with respect to the earlier partial withdrawal. The PBGC is authorized to prescribe regulations necessary to make appropriate adjustments in the credit for future events so that withdrawal liability in the event of a future withdrawal properly reflects the employer's proper share of the plan's unfunded benefits obligations.

For purposes of computing an employer's annual withdrawal liability payment, a partial withdrawal in the nature of a 60-percent decline in contributions is deemed to occur on the last day of the first plan year in the three-year testing period.

* * * * *

[64] I. Minimum Funding Requirements (Secs. 203 and 304 of the Bill, Sec. 412 of the Code and Secs. 301 and 302 of ERISA)

Present law

In general

Under the Code and the nontax provisions of ERISA,[1] multiemployer pension plans are required to meet a minimum funding standard on an annual basis. As an administrative aid in the application of this standard, ERISA requires that each plan must establish and maintain a special account called a "funding standard account" to which specified charges and credits (including credits for contributions to the plan) must be made for each plan year. If, as of the close of a plan year, the account does not have a balance of charges, the plan is treated as satisfying the minimum funding standard for that year. Thus, as a general rule, the minimum contribution for a year is determined as the amount by which charges to the account would exceed credits to the account if no contribution were made to the plan.

For example, in the case of a plan the plan year of which is the calendar year, if, as of the close of 1980, charges to the plan's funding standard account would exceed credits to the account by $200,000 if no contribution were made to the plan for 1980, a minimum contribution for the year of that amount would generally be required for the plan to meet the minimum funding standard for 1980.

If, as of the close of any plan year, charges to the funding standard account exceed credits to the account, the excess is called an "accumulated funding deficiency." The deficiency is subject to a five-percent nondeductible excise tax and, if not corrected within a specified correction period, is also subject to a 100-percent nondeductible excise tax. The tax is payable by the employers responsible for contributing to the plan for the year.

Actuarial cost methods

In computing the amounts which are required to be contributed to a defined benefit pension plan for a plan year in order to meet the minimum funding standard for the year, the plan utilizes what is known as an "actuarial cost method." [2] Generally, an actuarial cost method breaks up the cost of the benefits into annual charges consisting of two elements with respect to benefits that are effective for the plan year. These elements are called (1) normal cost, and (2) past service cost. Normal cost generally represents the cost of future benefits under the plan for current employees and, under some funding methods, for separated employees, which will be funded by fu-

[1] See sec. 412 of the Code and part 3, Title I of ERISA.

[2] See Temp. Treas. Regs. §§ 11.412(c)(1)-1 and 11.412(c)(1)-2, and Prop. Treas. Regs. §§ 1.412(c)(2)-1 and 1.412(c)(3)-1.

ture con-[65]tributions to the plan (1) in level dollar amounts, (2) as a uniform percentage of payroll, (3) as a uniform amount per unit of service (*e.g.*, 50 cents per hour), or (4) on the basis of the actuarial present values of benefits accruing under the plan in particular plan years. Past service liability represents the cost of future benefits under the plan (1) on the date the plan is first effective, or (2) on the date a plan amendment increasing plan benefits is first effective, which will not be funded by future plan contributions to meet normal cost.

Normal cost and past service cost are key elements in computations under the minimum funding standard. While these costs may differ substantially, depending upon the actuarial cost method used to value a plan's assets and liabilities, they must be determined under an actuarial cost method permitted by ERISA. ERISA enumerates six acceptable actuarial cost methods and provides that additional methods may be permitted under Treasury regulations. Normal cost and past service costs under a plan are computed on the basis of an actuarial valuation of the assets and liabilities of a plan. Generally, an actuarial valuation is required at least once during each period of 3 plan years. More frequent valuations may be required by the Internal Revenue Service.

Charges to funding standard account
Normal cost

Each plan year, the plan's funding standard account must be charged with the normal cost assigned to that year under the plan's actuarial cost method. This will generally mean that the employers maintaining the plan will have to contribute to the plan an amount at least equal to the normal cost to create a credit in the funding standard account to balance off the charge for normal cost.

For example, if the normal cost for a plan for the plan year ending December 31, 1980, is $150,000, the funding standard account is charged for that amount. Assuming there are no credits to the account to offset that charge, an employer contribution to the plan of $150,000 would be required for 1980 in order to avoid an accumulated funding deficiency for that year.

Past service liability

There are three separate charges to the funding standard account which may arise as the result of past service liabilities. The first applies only to a plan in existence on January 1, 1974; the second applies only to a plan which came into existence after January 1, 1974; and the third applies to a plan under which past service liability has increased due to a plan amendment made after January 1, 1974.

In the case of a plan in existence on January 1, 1974, the funding standard account is charged with a portion of the past service liability under the plan determined as of the first day of the plan year beginning in the first year the funding standard applied to the plan (generally 1976). The amount of the liability with which the account is charged in the case of a multiemployer plan is based on amortization of past service liabilities over a period of 40 years. The liability must be amortized (in much the same manner as a mortgage) in equal annual installments over the 40-year amortization period.

[66] For example, assume that a plan in existence on January 1, 1974, uses the calendar year as its plan year and has a past service liability of $500,000 determined as of January 1, 1976. The plan's actuary uses an interest rate of six percent in determining plan costs. The 40-year schedule requires that $31,350 be charged against the funding standard account each year to amortize this liability. Thus, for each year in the 40-year period commencing with 1976, the plan's funding standard account is charged with the amount of $31,350. This will require the employers maintaining the plan to make a contribution to the plan of that amount for each year in the 40-year period to generate a credit to the account to offset the charge, unless it is offset by some other credit to the account or the plan becomes fully funded.

In the case of a plan not in existence on January 1, 1974, the plan is generally required to determine past service liability as of the first day of its first plan year beginning after September 2, 1974. This liability must be amortized by a multiemployer plan in equal annual installments over 40 years (30 years, in the case of a single-employer plan) in the same manner as past service liability is amortized for a plan in existence on January 1, 1974. Each year during the 40-year period, the funding standard is charged with the amount of past service liability amortized in that year unless the plan becomes fully funded.

In any case where a net increase in benefits under a plan takes place as a result of plan amendments in a year, the unfunded past service liability attributable to the net increase is determined and amortized over a period of 40 years in the case of a multiemployer plan (30 years for a single-employer plan). Each year during the 40-year period, the funding standard account is charged with the amount of the amortization for that year, and the employers are required to make sufficient contributions to offset the charge unless it is offset by another credit or the plan becomes fully funded.

Experience losses

In determining plan funding under an actuarial cost method, the plan's actuary generally makes certain assumptions regarding rates of interest, mortality, disability, salary increases, etc. If on the basis of these assumptions the contributions made to the plan result in unfunded liabilities less than that anticipated by the actuary, the excess of the expected unfunded liabilities over the actual unfunded liabilities is called an "experience gain."

On the other hand, if the expected

unfunded liabilities fall short of the actual unfunded liabilities, the shortfall is considered an "experience loss." The minimum funding standard requires that an experience loss be amortized in equal installments over a period of 20 years (15 years for a single-employer plan) and that the funding standard account be charged with each year's amortization unless the plan becomes fully funded. (Some funding methods do not separately determine experience gains or losses.)

Changes in actuarial assumptions

If the actuarial assumptions used for funding a plan are revised and under the new assumptions the accrued liability of the plan is less than the accrued liability computed under the old assumptions, the decrease [67] in accrued liability is considered a "gain from changes in actuarial assumptions." "Accrued liability" refers to the actuarial present value of projected pension benefits under the plan which will not be funded by future contributions to meet normal cost. On the other hand, if, after the change in assumptions, accrued liability exceeds accrued liability computed under the old assumptions, the excess is considered a "loss from changes in actuarial assumptions." The amount of the loss from changes in actuarial assumptions must be amortized in equal annual installments over a period of 30 years, and the amount of each year's amortization must be charged to the funding standard account unless the plan becomes fully funded.

Waived funding deficiency

If 10 percent or more of the employers contributing to a multiemployer plan are unable to make contributions which will satisfy the minimum funding standard for a plan year without substantial business hardship, the Internal Revenue Service is permitted to waive all or a portion of the contribution requirements of the minimum funding standard for the plan year if it is determined that requiring the contributions would be adverse to the interests of plan participants in the aggregate. However, the Service is not permitted to grant such a waiver for a plan for more than five plan years in any period of 15 consecutive plan years. The amount of the contribution not required as a result of the waiver is called a "waived funding deficiency."

Under the funding standard, the amount of a waived funding deficiency must be amortized in equal annual installments over a period of 15 years commencing with the year first following the year for which the waiver is granted, and the funding standard account must be charged each year with the amount amortized for that year unless the plan becomes fully funded.

Switchback liability

ERISA provides that certain plans may elect to use an alternative minimum funding standard account for any year in lieu of the funding standard account, and prescribes specified annual charges and credits to the alternative account. If it would take a smaller contribution to balance charges and credits in the alternative account than it would take to balance the funding standard account for a plan year, no accumulated funding deficiency is considered to exist for the year if a contribution satisfying the requirements of the alternative account is made. During years for which contributions are made under the alternative account, an excess of charges over credits may build up in the funding standard account. If the plan later switches back from the alternative account to the funding standard account, this excess of charges over credits must be amortized over a period of five plan years. This amount is known as a "switchback liability."

Credits to funding standard account

Employer contributions

Each plan year, the funding standard account is credited with the amount considered contributed to a plan by employers maintaining the plan for the year. This amount includes contributions made during [68] the year as well as contributions made on account of the year up to two and one-half months after the close of the year. (The Internal Revenue Service can extend the period for an additional six months.)[8]

Past service liability

If plan amendments in a year result in a net decrease in past service liability, the amount of the decrease must be amortized in equal annual installments over a period of 40 years, and each year's amortization during the 40-year period (30 years for a single-employer plan) must be credited to the funding standard account unless the plan becomes fully funded. These credits will help offset charges to the account and will decrease otherwise required contributions to the plan.

Experience gains

If a net experience gain is determined in a plan year, the gain must be amortized in equal annual installments over a period of 20 years (15 years for a single employer plan), and the amount amortized each year must be credited to the funding standard account unless the plan becomes fully funded. These credits also offset charges to the account and thus decrease contribution requirements.

Changes in actuarial assumptions

If a change in actuarial assumptions results in a gain because of a decrease in plan accrued liability under the new assumptions, the gain must be amortized in equal annual installments over a period of 30 years. The amount amortized each year must be credited to the funding standard account unless the plan becomes fully funded and the credit will reduce plan contributions otherwise required for the year.

Switchback liability

When a plan switches back from the alternative minimum funding standard account to the funding standard account, the funding standard ac-

[8] See Temp. Treas. Regs. § 11.412(c)-12.

count is credited with the excess of charges over credits which have built up in that account. If this were not done, the entire excess would have to be offset by a contribution (or other credit) to the account in the year of the switchback to prevent an accumulated funding deficiency.

Extension of amortization periods

The Internal Revenue Service is permitted to extend for up to 10 years the period for amortizing any unfunded past service liability under a multiemployer plan.[4] If such an extension is granted, the period over which the funding standard account is charged with amortization of the liability is similarly extended. Before granting such an extension, the Service must determine that (1) the extension will carry out the purposes of ERISA, (2) the extension will provide adequate protection to plan participants and beneficiaries, and (3) the failure to grant the extension will (a) result in a substantial risk of plan termination or in substantial reduction of pension benefits or [69] compensation, and (b) be adverse to the interest of plan participants in the aggregate.

Reasons for change

The Ways and Means Committee believes that existing minimum funding requirements may not provide adequate safeguards to insure that multiemployer plans will be able to meet their pension obligations. However, the Committee is also concerned that when applied to an overburdened multiemployer plan, the present funding requirements may result in an undue financial burden on employers.

Explanation of provisions

1. In general

The bill modifies the periods over which past service liabilities and experience gains and losses under multiemployer plans would be required to be amortized for the purpose of making charges and credits to the funding standard account. In general, the new amortization periods follow those required of single-employer plans for funding purposes. However, certain transitional rules are provided under which the present law amortization periods continue to apply to multiemployer plans in certain circumstances.

In addition, the Secretary of the Treasury is to be authorized to prescribe regulations requiring additional charges and credits to the funding standard account to prevent withdrawal liability payments from being unduly reflected as advance funding of plan liabilities.

The bill also makes conforming amendments to the funding rules to take account of changes made in other parts of the bill.

2. Modification of charges to funding standard account

a. Past service liability

Under the bill, certain amounts of unfunded past service liability are to be amortized in equal annual installments over 30 years for purposes of determining charges to the funding standard account. These changes are (1) unfunded past service liability determined as of the first day of the first plan year of a plan not in existence on enactment, and (2) any net increase in unfunded past service liability arising from plan amendments adopted during a plan year.

b. Experience losses

Under the bill, a net experience loss is to be amortized in equal annual installments over 15 years for purposes of determining charges to the funding standard account.

3. Modification of credits to funding standard account

a. Past service liability

Under the bill, any decrease in unfunded past service liability arising from plan amendments adopted during a plan year is to be amortized in equal annual installments over 30 years for purposes of determining credits to the funding standard account.

b. Experience gains

Under the bill, a net experience gain is to be amortized in equal annual installments over 15 years for purposes of determining credits to the funding standard account.

[70] *c. Withdrawal liability*

Under the bill, any withdrawal liability payment to a plan for a plan year is to be treated as an amount contributed to the plan for the year. Accordingly, it will generate a credit to the funding standard account.

4. Prior amortizable amounts and transitional rules

Under the bill, any amortizable amounts described above that arose in a plan year beginning before the date the bill was enacted are to continue to be amortized over their respective previously established amortization periods. The bill also provides transitional rules under which the amortization periods of present law apply to certain future changes in past service liability.

5. Application of minimum funding standards to terminated multiemployer plan

Under the bill, the minimum funding standard applies with respect to a terminated multiemployer plan until the date on which the last remaining employer withdraws from the plan.

Effective date

These provisions of the bill apply on the date of enactment.

[71] J. Excise Taxes (Sec. 204 of the Bill and Sec. 4971 of the Code)

Present law

Under present law, an employer who maintains a plan to which the ERISA minimum funding standard applies is subject to a two-tier annual

[4] Under Reorganization Plan No. 4 of 1978, referral to the Secretary of Labor may be required.

nondeductible excise tax on any accumulated funding deficiency under the plan. The initial tax is 5 percent of the deficiency. If the deficiency is not corrected within a correction period, an additional excise tax equal to 100 percent of the deficiency is imposed.

Before issuing a notice of deficiency under this provision, the Internal Revenue Service is required to notify the Secretary of Labor and afford to the Secretary of Labor an opportunity to (1) require the responsible employer to eliminate the deficiency and (2) to comment on the imposition of the tax.

Reason for change

Under the bill, a required contribution to a multiemployer plan may, under certain circumstances (*e.g.*, reorganization) differ from the amount required to satisfy the minimum funding standard of ERISA.

Explanation of provisions

The bill conforms the penalty excise tax provisions relating to the ERISA funding standard to the plan reorganization provisions of the bill by changing the accumulated funding deficiency of a plan in reorganization (the amount to which the excise tax applies) to the reorganization deficiency computed under the bill. The bill also provides that in the case of a multiemployer plan in reorganization, the notice issued by the Internal Revenue Service to the Secretary of Labor with respect to a notice of deficiency for a tax on an accumulated funding deficiency, and the opportunity to comment on the imposition of the tax, are to be provided to the PBGC.

Effective date

These provisions of the bill apply on the date of enactment.

Revenue effect

It is estimated that this provision will result in a negligible net decrease in budget receipts.

[72] K. Deductibility of Employer Liability Payments (Sec. 205 of the Bill and Sec. 404 of the Code)

Present law

Under present law, an employer is allowed a deduction for a contribution to a qualified pension plan for its employees. The deduction is allowed (within limits) in the taxable year for which the contribution is made.[1] Payments of employer liability under the termination insurance program are treated as employer contributions.[2]

Reason for change

The Ways and Means Committee has determined that the payment of withdrawal liability by an employer should be treated as a contribution to the plan by the employer without regard to the usual limitation on employer deductions for contributions to a tax qualified plan.

Explanation of provision

The bill generally allows a deduction for amounts paid by a taxpayer under the employer withdrawal liability provisions of the termination insurance program without regard to the usual limitations on employer deductions for contributions to a tax qualified plan.

Under the bill, for employer tax deduction purposes, withdrawal liability payments are treated as employer contributions to the plan. Thus, the deduction of total plan contributions, including withdrawal liability payments, is subject to the full funding limitation. In addition, withdrawal liability payments are deductible only if paid for a taxable year which ends with or within a taxable year of the plan for which the plan is qualified. Of course, an employer's total contribution to the plan, including withdrawal liability payments, must be ordinary and necessary business expenses of the employer to be deductible. Special rules are provided which allow a deduction for employer liability payments to a taxpayer whose liability for the payments arises out of the liability of an employer who is a member of the same controlled group of companies that includes the taxpayer.

Effective date

This provision of the bill is effective upon enactment.

Revenue effect

It is estimated that this provision will decrease budget receipts by a negligible amount per year.

[73] L. Minimum Vesting Requirements (Secs. 206 and 303 of the Bill, Sec. 411 of the Code, and Sec. 203 of ERISA)

Present law

Under present law, benefits under a plan which are vested may be forfeited only (1) in the case of death, (2) where benefits are suspended upon reemployment, (3) in the case of certain retroactive plan amendments which reduce benefits, or (4) in the case of certain withdrawals of mandatory employee contributions. Also, under present law, with certain very limited exceptions, all of a participant's years of service with an employer must be taken into account for vesting purposes.

Reason for change

The changes made under the reorganization provisions and the provisions relating to the definition of multiemployer plan require conforming changes in the ERISA rules relating to vesting.

Explanation of provisions

In general

The bill provides for additional circumstances under which vested benefits under a multiemployer plan, which are nonforfeitable under present law, could be forfeited. The bill provides that certain of a participant's years of

[1] See Code sec. 404(a)(1)(A) and Prop. Treas. Reg. § 1.404(a)-14.

[2] See Code sec. 404(g).

service with an employer, currently taken into account for vesting purposes, could be disregarded in the case of a multiemployer plan. (Also, see C., Employer Withdrawal Liability Mergers, Etc. *3. Reorganization and minimum contribution requirement, g. Adjustments in accrued benefits.*) In addition, the bill conforms the vesting provisions of ERISA to changes made in other parts of the bill.

Cessation of contributions under a multiemployer plan

Under the bill, a multiemployer plan does not fail to meet the vesting requirements of ERISA merely because the plan provides for the forfeiture of accrued benefits attributable to service with a participant's employer before the employer was required to contribute to the plan in the event that the employer ceases making contributions to the plan.

Reduction and suspension of benefits

Under the bill, a multiemployer plan does not fail to meet the vesting requirements of ERISA merely because (1) it is amended to reduce accrued benefits, but not below the level of benefits eligible for the PBGC guarantee, in the event of plan reorganization or plan determination, or (2) benefits payments under the plan, other than basic benefits, are suspended in the event of plan reorganization or plan termination.

[74] *Authority to disregard service after withdrawal or plan termination*

Under the bill, if an employer withdraws from a multiemployer plan, a participant's years of service with the employer completed after the withdrawal would not have to be taken into account in determining the participant's vested percentage in his accrued benefits under the plan. This rule applies to partial withdrawals only to the extent permitted in regulations prescribed by the Secretary of the Treasury.

Also, under the bill, if a multiemployer plan terminates for purposes of termination insurance, an employee's years of service completed after the date of termination do not have to be taken into account in determining a participant's vested percentage in his accrued benefits under the plan.

Effective date

This provision of the bill applies on the date of enactment.

Revenue effect

It is estimated that this provision will have no effect on budget receipts.

* * * * *

[76] M. Action Taken Before Regulations are Prescribed (Sec. 405 of the Bill)

Present law

No provision.

Reason for change

The bill requires that many regulations be prescribed in the effectuation of its rules. The Ways and Means Committee has concluded that the parties affected by the bill should be permitted, pending the issuance of regulations, to act under the bill's provisions in the absence of regulations provided any action so taken is reasonable.

Explanation of provision

Where the manner in which a provision of the bill is to apply is to be set forth in regulations, any reasonable action taken before the regulations are issued is to be treated as complying with the regulations for the period preceding their issuance. However, this rule does not apply if the action is in violation of an instruction or temporary rule which is issued before the action is taken.

Effective date

This provision of the bill is effective upon enactment.

TITLE II—TAX PROVISIONS

SEC. 201. COMPENSATION EXCLUDED FROM GROSS INCOME

For purposes of the Internal Reve-

[1] This publication of the law is restricted to excerpts involving tax matters. House Report Nos. 96-1327 and 96-1443 are not published.

[2] This publication of the law, House Report No. 96-1349, Part 2, page 481, and House Report No. 96-1349, Part 3, page 483, are restricted to excerpts involving tax matters. House Report No. 96-1349, Part 1, is not published.

nue Code of 1954, the gross income of an individual who was at any time an American hostage does not include compensation from the United States received for any month during any part of which such individual was—

(1) in captive status, or

(2) hospitalized as a result of such individual's captive status.

SEC. 202. INCOME TAXES OF HOSTAGES WHERE DEATH RESULTS FROM CAPTIVE STATUS

(a) GENERAL RULE.—In the case of an individual who was at any time an American hostage and who dies as a result of injury or disease or physical or mental disability incurred or aggravated while such individual was in captive status—

(1) any tax imposed by subtitle A of the Internal Revenue Code of 1954 shall not apply with respect to—

(A) the taxable year in which falls the date of such individual's death, or

(B) any prior taxable year ending on or after the first day such individual was in captive status, and

(2) any tax imposed under such subtitle A for taxable years preceding those specified in paragraph (1) which is unpaid at the date of such individual's death (including interest, additions to the tax, and additional amounts)—

(A) shall not be assessed,

(B) if assessed, the assessment shall be abated, and

(C) if collected, shall be credited or refunded as an overpayment.

(b) DEATH MUST OCCUR WITHIN 2 YEARS OF CESSATION OF CAPTIVE STATUS.—This section shall not apply unless the death of the individual occurs within 2 years after such individual ceases to be in captive status.

SEC. 203. SPOUSE MAY FILE JOINT RETURN

(a) GENERAL RULE.—If an individual is an American hostage who is in captive status, such individual's spouse may elect to file a joint return under section 6013(a) of the Internal Revenue Code of 1954 for any taxable year—

(1) which begins on or before the day which is 2 years after the date on which the hostage period ends, and

(2) for which such spouse is otherwise entitled to file such a joint return.

(b) CERTAIN RULES MADE APPLICABLE.—For purposes of subsection (a), paragraphs (2) and (4) of section 6013(f) of such Code (relating to joint return where individual is in missing status) shall apply as if the election described in subsection (a) of this section were an election described in paragraph (1) of such section 6013(f).

SEC. 204. TIME FOR PERFORMING CERTAIN ACTS POSTPONED BY REASON OF CAPTIVE STATUS

(a) GENERAL RULE.—In the case of any individual who was at any time an American hostage, any period during which he was in captive status (and any period during which he was outside the United States and hospitalized as a result of captive status), and the next 180 days thereafter, shall be disregarded in determining, under the internal revenue laws, in respect of any tax liability (including any interest, penalty, additional amount, or addition to the tax) of such individual—

(1) whether any of the acts specified in paragraph (1) of section 7508 (a) of the Internal Revenue Code of 1954 was performed within the time prescribed therefor, and

(2) the amount of any credit or refund (including interest).

(b) APPLICATION TO SPOUSE.—The provisions of this section shall apply to the spouse of any individual entitled to the benefits of subsection (a). The preceding sentence shall not cause this section to apply to any spouse for any taxable year beginning more than 2 years after the date on which the hostage period ends.

(c) SECTION 7508(d) MADE APPLICABLE.—Subsection (d) of section 7508 of the Internal Revenue Code of 1954 shall apply to subsection (a) in the same manner as if the benefits of subsection (a) were provided by subsection (a) of such section 7508.

SEC. 205. DEFINITIONS AND SPECIAL RULES

(a) AMERICAN HOSTAGE.—For purposes of this title, the term "American hostage" means any individual who, while—

(1) in the civil service or the uniformed service of the United States, or

(2) a citizen or resident alien of the United States rendering personal service to the United States abroad similar to the service of a civil officer or employee of the United States (as determined by the Secretary of State),

is placed in a captive status during the hostage period.

(b) HOSTAGE PERIOD.—For purposes of this title, the term "hostage period" means the period beginning on November 4, 1979, and ending on whichever of the following dates is the earlier:

(1) the date the President specifies, by Executive order, as the date on which all citizens and resident aliens of the United States who were placed in a captive status due to the seizure of the United States Embassy in Iran have been returned to the United States or otherwise accounted for, or

(2) December 31, 1981.

(c) CAPTIVE STATUS.—For purposes of this title—

(1) IN GENERAL.—The term "captive status" means a missing status arising because of a hostile action abroad—

(A) which is directed against the United States during the hostage period, and

(B) which is identified by the Secretary of State in the Federal Register.

(2) MISSING STATUS DEFINED.—The term "missing status"—

(A) in the case of employees, has the meaning given it in section 5561 (5) of title 5, United States Code,

(B) in the case of members of the uniformed services, has the meaning given it in section 551(2) of title 37, United States Code, and

(C) in the case of other individuals, has a similar meaning as that provided under such sections, as determined by the Secretary of State.

For purposes of the preceding sentence, the term "employee" has the meaning given to such term by section 5561(2) of title 5, United States Code.

(d) HOSPITALIZED AS A RESULT OF CAPTIVE STATUS.—

(1) IN GENERAL.—For purposes of this title, an individual shall be treated as hospitalized as a result of captive status if such individual is hospitalized as a result of injury or disease or physical or mental disability incurred or aggravated while such individual was in captive status.

(2) 2-YEAR LIMIT.—Hospitalization shall be taken into account for purposes of paragraph (1) only if it is hospitalization—

(A) occurring on or before the day which is 2 years after the date on which the individual's captive status ends (or, if earlier, the date on which the hostage period ends), or

(B) which is part of a continuous period of hospitalization which began on or before the day determined under subparagraph (A).

(e) CIVIL SERVICE UNIFORMED SERVICES.—For purposes of this section, the terms "civil service" and "uniformed services" have the meanings given to such terms by section 2101 of title 5, United States Code.

(f) APPLICATION OF TITLE TO ALL TEHRAN HOSTAGES.—In the case of any citizen or resident alien of the United States who is determined by the Secretary of State to have been held hostage in Tehran at any time during November 1979, for purposes of this title—

(1) such individual shall be treated as an American hostage whether or not such individual meets the requirements of paragraph (1) or (2) of subsection (a), and

(2) if such individual was not in the civil service or the uniformed services of the United States—

(A) Section 201 shall be applied by substituting "earned income (as defined in section 911(b) of the Internal Revenue Code of 1954) attributable to" for "compensation from the United States received for", and

(B) the amount excluded from gross income under section 201 for any month shall not exceed the monthly equivalent of the annual rate of basic pay payable for level V of the Executive Schedule.

(g) APPLICATION OF TITLE TO INDIVIDUAL HELD CAPTIVE IN COLOMBIA. —For purposes of this title, Richard Starr of Edmonds, Washington, who, as a Peace Corps volunteer, was held captive in Colombia, shall be treated as an American hostage who was in captive status beginning on November 4, 1979, and ending on February 10, 1980.

(h) SPECIAL RULES.—

(1) COMPENSATION.—For purposes of this title, the term "compensation" shall not include any amount received as an annuity or as retirement pay.

(2) WAGE WITHHOLDING — Any amount excluded from gross income under section 201 shall not be treated as wages for purposes of chapter 24 of the Internal Revenue Code of 1954.

SEC. 206. STUDY OF TAX TREATMENT OF HOSTAGES

(a) STUDY.—The Chief of Staff of the Joint Committee on Taxation shall study all aspects of the tax treatment of citizens and resident aliens of the United States who are taken hostage or are otherwise placed in a missing status.

(b) REPORT.—The Chief of Staff of the Joint Committee on Taxation shall, before July 1, 1981, report the results of the study made pursuant to subsection (a) to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

HOSTAGE RELIEF ACT OF 1980

SEPTEMBER 19, 1980

Mr. FASCELL, from the Committee on Foreign Affairs, submitted the following report to accompany H.R. 7085 [1] which on April 17, 1980, was referred jointly to the Committee on Foreign Affairs, the Committee on Post Office and Civil Service, and the Committee on Ways and Means

The Committee on Foreign Affairs, to whom was referred the bill (H.R. 7085) to amend title 5 of the United States Code and the Internal Revenue Code of 1954 to provide certain benefits to individuals held hostage in Iran and to similarly situated individuals, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

* * * * *

COMMITTEE ACTION

[5] On April 17, 1980, Hon. Dante B. Fascall (for himself and Mr. Ullman, Mr. Zablocki, Mr. Broomfield, Mr. Buchanan, and Mr. Derwinski) introduced H.R. 7085, which was jointly referred to the Committee on Foreign Affairs, Committee on Post Office and Civil Service, and the Committee on Ways and Means. On April 22, 1980, the bill was referred to the Subcommittee on International Operations by Hon. Clement J. Zablocki, chairman of the Committee on Foreign Affairs.

[6] On July 24, 1980, the Subcommittee on International Operations held an open hearing on H.R. 7085 during which testimony was received from Hon. Ben H. Read, Under Secretary of State for Management; Maj. Gen. R. Dean Tice, Deputy Assistant Secretary of Defense for Military and Personnel Policy; and Louisa L. Ken-

[1] Public Law 96-449, page 479.

nedy, spokesperson for FLAG (Family Liaison Action Group), which is composed of families and relatives of the hostages being held in Iran.

The subcommittee held an open markup session on September 3 on the legislation and reported to the full committee, H.R. 7085, as amended. On September 10 the full committee met in open session to consider the bill and ordered it favorably reported, as amended, by voice vote, a quorum being present.

Purpose

The purpose of the legislation, as amended, is to provide certain relief benefits to U.S. hostages in Iran and their families, as well as to U.S. Government employees in future hostage situations. The benefits provided would apply to civilian and military employees of the U.S. Government and are based on those benefits available to U.S. military prisoners of war from the Vietnam era. The benefits include the following: (1) establishment of a special interest-bearing savings fund for deposit of hostages' salaries; (2) reimbursement for expenses of family members, spouses, dependents, or the hostages for medical and health care which are incurred because of the ordeal; (3) protection of civilian Government employees from civil suit while they are in a missing status; (4) educational benefits for the spouse and dependent children for the duration of the hostile action against the United States, except in certain circumstances where the benefits could be extended; (5) educational benefits, under special circumstances, for the hostages themselves; (6) educational benefits for the spouse and dependent children of a hostage should the hostage die while being held hostage; (7) exemption from taxes on compensation received while a military or civilian Government employee is a hostage or missing as a result of a hostile action abroad against the United States; (8) complete income tax exclusion for income received by an employee who dies as a result of a hostile action; and (9) clarification of authority to allow the spouse of a hostage to file a joint tax return and to defer payment of certain taxes for up to 180 days after the return of a hostage or missing military or civilian employee.

Background and Committee Comment

H.R. 7085 was introduced on April 17, 1980, the 166th day of captivity of American citizens in Iran. At this writing, the hostages have been held 321 days.

This legislation is intended as an expression of the Nation's recognition of the difficulties faced by those held hostage as a result of their Government service. While such legislation has been enacted in the past for those in the military service, the Congress has not had reason until today to expand such protection to civilians in Government service. The benefits contained in H.R. 7085, as amended, are based on those which were given to POW's as a result of the Vietnam [7] war. Some of those benefits are still in effect and thus give the military who are being held hostage some relief, but the civilian Government employees have no such relief for themselves or their families.

Despite intensive diplomatic efforts of our Government, U.S. Government personnel continue to be held in Iran in gross violation of international law. These hostages have been incarcerated cruelly and unjustly since November 4, 1979. In addition to the prisoners' intolerable situation, the families of these individuals have also undergone severe mental, and in some cases financial, strain due to this forced separation.

The Congress must act now to alleviate, to the extent possible, the burdens of the hostages and their families and to make certain that all necessary assistance is provided upon their return home. It must assure that any assistance these families require is readily available.

The executive branch has suggested that the benefits contained in the legislation be temporary to permit further study before permanent legislation is proposed.

The committee feels that the problems dealt with in H.R. 7085 have been sufficiently studied in the 10 months that our hostages have been held in Iran. The legislation has been written to apply to hostage situations, generally, as well as to the Iran problem specifically. The authorities are available to be used as needed, and can certainly be amended at a later date if the need arises. The important point now is to insure that protections are in place for individuals caught in any future hostage situation.

The recent attacks on the U.S. Ambassador in Lebanon and on the U.S. Embassy in El Salvador underline the increasingly hostile environment in which U.S. personnel serve and, therefore, the increased likelihood of additional hostage situations. Experience with the problems confronting American POW's in the past, coupled with the more recent hostage situations in Latin America and Iran, provide sufficient background upon which to formulate permanent legislation Permanent legislation would avoid unnecessary delays in future situations and enable the provision of benefits as they are needed by the hostage and hostage family rather than at a later date.

The benefits provided by H.R. 7085, as amended, such as access to the Soldiers' and Sailors' Civil Relief Act, which has been in effect for the military for over 40 years, are not extraordinary. The legislation has also been written to give the President sufficient discretion to adjust to the vagaries of any future case.

The committee feels that legislation is needed which will be effective not only after a hostage situation is over, but also during the period of captivity, since the hostages' families are affected from the beginning. The committee is therefore convinced that permanent legislation is the desirable course to follow.

SECTION-BY-SECTION ANALYSIS OF THE BILL AS AMENDED

SHORT TITLE

The short title of H.R. 7085 is the Hostage Relief Act of 1980.

[11] TITLE II—AMENDMENTS TO THE INTERNAL REVENUE OF 1954

Title II contains amendments to the Internal Revenue Code of 1954 which would provide certain tax benefits to hostages or persons missing as a result of hostile action against the United States. The committee did not consider this title of the legislation since it falls within the jurisdiction of the Committee on Ways and Means. However, a summary of the provisions is included here in order to provide a complete analysis of the bill.

Section 201—Exemption from Income Taxes

Section 201 of H.R. 7085 would add a new subsection (e) to section 112 of the Internal Revenue Code regarding certain combat pay of members of the Armed Forces.

New subsection (e)(1) would exempt from gross income all compensation received for active service as a Government employee during any month the employee was in a missing status as a result of a hostile action against the United States in a foreign area. It would also exempt from gross income compensation received for any month during any part of which such employee was hospitalized as a result of such hostile action, but within 2 years of the date of termination of the hostile action.

Subsection (e)(2)(A) defines "hostile action against the United States" as an action abroad which is directed against the United States that occurs on or after November 1, 1979, which the Secretary of State identifies for this purpose in a letter published in the Federal Register.

Subsection (e)(2)(B) defines "Federal employee" to include any person who is an employee, whether direct or indirect, of any agency or instrumentality of the United States. The term would include any person whose presence abroad is for the purpose of implementing a federally funded program as determined by the Secretary of State.

Section 202—Income Taxes on Government Employees on Death

Section 202 amends section 692 of the Internal Revenue Code of 1954 by adding a new subsection relating to foreign hostile actions.

New subsection 692(c)(1) provides for exclusion from payment of federal income tax if a Government employee should die as a result of injuries sustained during a hostile action against the United States. Under subsection 692(c)(1)(A), this exclusion would be effective only for income received during the year of death and during any prior year the Government employee first entered into a missing status as a result of such hostile action.

Subsection 692(c)(1)(B) stipulates that any unpaid tax (including interest, additions to the tax, and additional amounts) will not be assessed, that any assessment will be voided, and that any tax collected will be credited or refunded as an overpayment.

The subsection also provides that the date of death of the employee shall be determined under 5 U.S.C. 5565 (agency review), but that the provisions shall not apply for any taxable year beginning more than 2 years after the date of termination of the hostile action.

Subsection 692(c)(2) defines "active service", "employee", and "hostile action against the United States" for the purposes of the section.

[12] *Section 203—Joint Return Where Individual is in a Missing Status*

Section 203 amends section 6013(f)(1) of the Internal Revenue Code of 1954 to permit an individual otherwise entitled to file a joint return to file such a return if the individual's spouse is in a missing status as a result of a hostile action against the United States.

Section 204—Federal Tax Deferment

Section 204 would amend section 7508(a) of the Internal Revenue Code of 1954 to include within that section U.S. citizens or resident aliens who are in a missing status because of a hostile action against the United States or who are hospitalized outside the United States because of such hostile action. Specifically, section 7508(a) relates to exemptions from time deadline for filing tax returns in meeting other time requirements relating to tax liability.

Section 205—Applicability to all Teheran Hostages

Section 205 would make the bill's amendments to the Internal Revenue Code of 1954 applicable to all citizens and resident aliens of the United States held hostage in Iran, as determined by the Secretary of State, at any time during November 1979, whether or not they are Federal employees. The exemptions would apply only to those who file an income tax return for the period in question.

Section 206—Effective Date

Section 206 provides that the title II tax provisions shall apply to taxable years ending on or after December 31, 1979.

House Report No. 96-1349, Part 3
2d Session

[Bracketed numerals indicate official report page numbers]

HOSTAGE RELIEF ACT OF 1980

SEPTEMBER 19, 1980

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 7085[1] which on April 17, 1980, was referred jointly to the Committee on Foreign Affairs, the Committee on Post Office and Civil Service, and the Committee on Ways and Means.

The Committee on Ways and Means, to whom was referred the bill (H.R. 7085) to amend title 5 of the

[1] Public Law 96-449, page 479.

United States Code and the Internal Revenue Code of 1954 to provide certain benefits to individuals held hostage in Iran and to similarly situated individuals, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendment to the text of the bill is shown in the reported bill, with the matter proposed to be stricken shown in linetype and the matter proposed to be inserted shown in italic type.

The title of the bill is amended to conform to the amendment to the text of the bill.

[2] I. SUMMARY

The tax provisions of the bill provide tax relief to the American hostages in Iran and other American hostages. Federal employees held hostage could exclude from income their Federal compensation. If death results from captivity, all income tax liability of that individual from the initial year of captivity to the year of death would be forgiven. The spouse of a hostage would be permitted to file a joint return. Various deadlines under the tax laws would be postponed during the period of captivity for 180 days thereafter. Finally, the staff of the Joint Committee on Taxation is directed to make a study of this area.

II. EXPLANATION OF THE BILL

Tax Treatment of Hostages

Present law

Gross income does not include certain combat pay of members of the Armed Forces. (The exclusion is limited to $500 monthly in the case of officers.) Also, if a member of the Armed Forces dies as a result of service in a combat zone, he is not subject to Federal income tax on any of his income beginning with the first year he served in the combat zone and ending with the year of his death. Comparable rules do not apply to civilian employees.

If a member of the Armed Forces serves in a combat zone or is hospitalized as a result of that service, he generally is excused from meeting a variety of deadlines under the Internal Revenue Code for the period of service or hospitalization and 180 days thereafter.

More limited relief is provided for other Federal employees. Generally, if such an individual is in a missing status, no return need be filed, and no tax need be paid, until three months and fifteen days following the cessation of his missing status. (Other deadlines, however, are not waived.) The Internal Revenue Service has announced that this provision will apply in the case of the American hostages in Iran.

Ordinarily, if married individuals elect to file a joint return rather than separate returns, the return must actually be signed by both spouses. The Internal Revenue Service has announced that it will accept joint returns signed by only one spouse if the other is being held in Iran.

Reasons for change

[The committee believes that it is important to extend tax relief to] the American hostages in Iran and their families beyond the limited relief which is permitted by current law. In many ways, the ordeal suffered by these hostages is comparable to that of members of Armed Forces in combat zones. The committee believes that, at least insofar as matters within its jurisdiction are involved, comparable treatment is warranted. The relief provided by the committee's bill would also extend to other Americans being held hostage.

[3] At the same time, the committee has made the provisions of the bill temporary, rather than permanent, to facilitate a further review by the committee of the issues presented. While no one disputes the need to provide relief to the American hostages in Iran, the committee believes that permanent legislation should be drawn to deal more clearly with a number of issues should similar incidents arise in the future. Accordingly, the committee bill requires the staff of the Joint Committee on Taxation to conduct a study and to report its findings to the tax-writing committees of the Congress.

Explanation of provisions

Exclusion for compensation

Under the bill, gross income of an individual who was at any time an American hostage would not include compensation from the Federal Government received for any month during any part of which the individual was in captive status or hospitalized as a result of captive status.

For purposes of the tax provisions of the bill, the term "American hostage" means any individual who is placed in a captive status during the "hostage period" while (1) in the civil service or the uniformed services of the United States, or (2) a citizen or resident alien of the United States rendering personal service to the United States abroad similar to the service of a civil officer or employee of the United States (as determined by the Secretary of State). The hostage period began on November 4, 1979. It will end on the earlier of two dates: the date the President specifies, by Executive order, as the date on which all citizens and resident aliens of the United States who are placed in a captive status due to the seizure of the United States Embassy in Iran have been returned to the United States or otherwise accounted for, or December 31, 1981. An individual is in captive status if he is in a missing status arising because of a hostile action abroad which is directed against the United States during the hostage period. An individual is in missing status if he is in that status under the appropriate provision of law (5 U.S.C. § 5561 (5) for civilian Federal employees; 37 U.S.C. § 551 (2) for uniformed Federal employees) or, in the case of other individuals, as determined by the State Department.

Because the hostages held in Iran were placed in a captive status during the hostage period, they could continue to exclude income under this provision so long as they remain in

captive status even in the event that that status extended beyond December 31, 1981.

Death resulting from captive status

In the case of an individual who was at any time an American hostage and who dies as a result of injury or disease or physical or mental disability incurred or aggravated while that individual was in captive status, the bill provides that any income taxes imposed by the Code would not apply with respect to the taxable year in which the individual dies or any prior taxable year ending on or after the first day the individual was in captive status. Moreover, if there were any unpaid income tax liability of the individual from years prior to captivity, it would be forgiven. These provisions would not apply, however, unless death occurred within two years after the individual ceased to be in captive status.

[4] *Joint returns*

The bill provides that, during the period an American hostage is in captive status, the individual's spouse may elect to file a joint return for any taxable year which begins on or before the day which is 2 years after the date on which the hostage period ends, and for which that spouse is otherwise entitled to file a joint return.

Postponement of deadlines

In the case of any individual who was at any time an American hostage, any period during which he was in captive status (and any period during which he was outside the United States and hospitalized as a result of captive status), and the next 180 days thereafter, would be disregarded in determining in respect of any tax liability (including any interest, penalty, additional amount, or addition to the tax) of that individual, whether any of a variety of acts was performed within the time prescribed. These include the time for filing returns, paying tax, filing a refund claim, and filing suit in the Tax Court or other courts. Also, this time period is to be ignored in determining the amount of any credit or refund (including interest).

The relief afforded by this provision also will apply to the spouse of any individual entitled to its benefits. However, the relief to the spouse will not apply for any taxable year beginning more than 2 years after the date on which the hostage period ends.

Also, relief under this provision does not apply in certain limited situations, such as certain situations when collection is in jeopardy.

Special rules

The bill makes it clear that tax provisions apply to any citizen or resident alien of the United States who was held hostage in Tehran at any time during November 1979, whether or not the individual was in the civil or uniformed services of the United States or was performing similar services. If such an individual was not in the civil or uniformed services, he may exclude under section 201 of the bill his earned income while captive or hospitalized as a result of captivity, but not in excess of the monthly equivalent of the annual rate of basic pay for Level V of the Executive Schedule.

It is also provided that the tax portions of the bill will apply to Richard Starr, a Peace Corps volunteer, for the period from November 4, 1979, through February 10, 1980.

The bill provides that an individual is to be treated as hospitalized as a result of captive status if that individual is hospitalized as a result of injury or disease or physical or mental disability incurred or aggravated while that individual was in captive status. However, hospitalization would be taken into account for this purpose only if it occurs on or before the day which is 2 years after the date on which the individual's captive status ends (or, if earlier, the date on which the hostage period ends), or is part of a continuous period of hospitalization which began on or before the earlier of those dates. Thus, for example, if the hostage period ends on December 31, 1981, the hospitalization would have to begin prior to January 1, 1984.

It is also provided that "compensation" which may be excluded under section 201 of the bill does not include any amount received as an annuity or as retirement pay.

[5] *Study by Joint Committee staff*

The bill requires the Chief of Staff of the Joint Committee on Taxation to study all aspects of the tax treatment of citizens and resident aliens of the United States who are taken hostage or are otherwise placed in a missing status. The Chief of Staff is to report before July 1, 1981, the results of the study to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

Effective date

The tax provisions of the bill are effective for all years affected by the legislation.

Revenue effect

It is estimated that the tax provisions of the bill will decrease receipts by less than $1 million annually.

TITLE III—REFORESTATION

SEC. 301. AMORTIZATION OF REFORESTATION EXPENDITURES.

(a) IN GENERAL.—Part IV of subchapter B of chapter 1 of the Internal Revenue Code of 1954 (relating to itemized deductions for individuals and corporations) is amended by adding at the end thereof the following new section:

"SEC. 194. AMORTIZATION OF REFORESTATION EXPENDITURES.

"(a) ALLOWANCE OF DEDUCTION.—In the case of any qualified timber property with respect to which the taxpayer has made (in accordance with regulations prescribed by the Secretary) an election under this subsection, the taxpayer shall be entitled to a deduction with respect to the amortization of the amortizable basis of qualified timber property based on a period of 84 months. Such amortization deduction shall be an amount, with respect to each month of such period within the taxable year, equal to the amortizable basis at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The 84-month period shall begin on the first day of the first month of the second half of the taxable year in which the amortizable basis is acquired.

"(b) LIMITATIONS.—

"(1) MAXIMUM DOLLAR AMOUNT.—The aggregate amount of amortizable basis acquired during the taxable year which may be taken into account under subsection (a) for such taxable year shall not exceed $10,000 ($5,000 in the case of a separate return by a married individual (as defined in section 143)).

"(2) ALLOCATION OF DOLLAR LIMIT.—

"(A) CONTROLLED GROUP.—For purposes of applying the dollar limitation under paragraph (1)—

"(i) all component members of a controlled group shall be treated as one taxpayer, and

"(ii) the Secretary shall, under regulations prescribed by him, apportion such dollar limitation among the component members of such controlled group.

For purposes of the preceding sentence, the term 'controlled group' has the meaning assigned to it by section 1563(a), except that the phrase 'more than 50 percent' shall be substituted for the phrase 'at least 80 percent' each place it appears in section 1563(a)(1).

"(B) PARTNERSHIPS.—In the case of a partnership, the dollar limitation contained in paragraph (1) shall apply with respect to the partnership and with respect to each partner.

"(3) SECTION NOT TO APPLY TO TRUSTS.—This section shall not apply to trusts.

"(4) ESTATES.—The benefit of the deduction for amortization provided by this section shall be allowed to estates in the same manner as in the case of an individual. The allowable deduction shall be apportioned between the income beneficiary and the fiduciary under regulations prescribed by the Secretary. Any amount so apportioned to a beneficiary shall be taken into account for purposes of determining the amount allowable as a deduction under this section to such beneficiary.

"(c) DEFINITIONS AND SPECIAL RULE.—For purposes of this section—

"(1) QUALIFIED TIMBER PROPERTY.—The term 'qualified timber property' means a woodlot or other site located in the United States which will contain trees in significant commercial quantities and which is held by the taxpayer for the planting, cultivating, caring for, and cutting of trees for sale or use in the commercial production of timber products.

"(2) AMORTIZABLE BASIS.—The term 'amortizable basis' means that portion of the basis of the qualified timber property attributable to reforestation expenditures.

"(3) REFORESTATION EXPENDITURES.—

"(A) IN GENERAL.—The term 'reforestation expenditures' means direct costs incurred in connection with forestation or reforestation by planting or artificial or natural seeding, including costs—

"(i) for the preparation of the site;

"(ii) of seeds or seedlings; and

"(iii) for labor and tools, including depreciation of equipment such as tractors, trucks, tree planters, and similar machines used in planting or seeding.

"(B) COST-SHARING PROGRAMS.—Reforestation expenditures shall not include any expenditures for which the taxpayer has been reimbursed under any governmental reforestation cost-sharing program unless the amounts reimbursed have been included in the gross income of the taxpayer.

"(4) BASIS ALLOCATION.—If the amount of the amortizable basis acquired during the taxable year of all qualified timber property with respect to which the taxpayer has made an election under subsection (a) exceeds the amount of the limitation under subsection (b)(1), the taxpayer shall allocate that portion of such amortizable basis with respect to which a deduction is allowable under subsection (a) to each such qualified timber property in such manner as the Secretary may by regulations prescribe.

"(d) LIFE TENANT AND REMAINDERMAN.—In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant.".

(b) ADJUSTED GROSS INCOME.—Section 62 of such Code (relating to definition of adjusted gross income) is amended by inserting after paragraph (14) the following:

"(15) REFORESTATION EXPENSES.—The deduction allowed by section 194.".

(c) CONFORMING AMENDMENTS.—

(1)(A) Paragraph (2) of section 1245(a) of such Code (relating to

gain from dispositions of certain depreciable property) is amended by striking out "190, 193" each place it appears and inserting in lieu thereof "190, 193, 194".

(B) Paragraphs (2) and (3)(D) of such section 1245(a) are each amended by striking out "or 193" and inserting "193, or 194".

(C) Section 1245(b) of such Code (relating to exceptions and limitations) is amended by adding at the end thereof the following new paragraph:

"(8) TIMBER PROPERTY.—In determining, under subsection (a)(2), the recomputed basis of property with respect to which a deduction under section 194 was allowed for any taxable year, the taxpayer shall not take into account adjustments under section 194 to the extent such adjustments are attributable to the amortizable basis of the taxpayer acquired before the 10th taxable year preceding the taxable year in which gain with respect to the property is recognized.".

(2) The table of sections for part VI of subchapter B of chapter 1 of such Code is amended by inserting at the end thereof the following new item:

"Sec. 194. Amortization of reforestation expenditures.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to additions to capital account made after December 31, 1979.

SEC. 302. INVESTMENT CREDIT.

(a) GENERAL RULE.—Paragraph (1) of section 48(a) of the Internal Revenue Code of 1954 (relating to definitions of section 38 property) is amended—

(1) by striking out the period at the end of subparagraph (E) and inserting ", or";

(2) by inserting after subparagraph (E) the following new subparagraph:

"(F) in the case of qualified timber property (within the meaning of section 194(c)(1)), that portion of the basis of such property constituting the amortizable basis acquired during the taxable year (other than that portion of such amortizable basis attributable to property which otherwise qualifies as section 38 property) and taken into account under section 194 (after the application of section 194(b)(1)).";

and

(3) by adding at the end thereof the following new sentence:

"The preceding sentence shall not apply to property described in subparagraph (F) and, for purposes of this subpart, the useful life of such property shall be treated as its normal growing period.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to additions to capital account made after December 31, 1979.

Approved October 14, 1980.

Conference Report No. 96-1320 2d Session

[Bracketed numerals indicate official report page numbers]

SEPTEMBER 16, 1980

Mr. BIAGGI, from the committee of conference, submitted the following conference report to accompany H.R. 4310.[1]

* * * * *

[16] TITLE III: TAX INCENTIVES FOR REFORESTATION AND REFORESTATION TRUST FUND

This title provides several Federal initiatives to promote reforestation on both private and public timberlands. Reforestation of private lands is encouraged through providing 7-year amortization and the 10-percent regular investment credit for a limited amount of qualifying reforestation expenditures each year. In addition, a trust fund is established to fund reforestation activities in order to eliminate a replanting backlog in the National Forest System.

[1] Public Law 96-451, page 485.

A. TAX INCENTIVES FOR REFORESTATION

Present law

Under present law, direct costs incurred in connection with reforestation of timberlands are treated as capital expenditures. (Treas. Regs. § 1.611-3(a)). Reforestation costs for this purpose are those for site preparation (including girdling, herbicide applications, baiting of rodents, and bush removal), seed or seedlings, plus labor and tool expenses incident to planting or seeding. Depreciation on tractors, trucks and other equipment used in these activities must also be capitalized as a reforestation cost.

These capitalized reforestation costs may not be depreciated but are recovered through a depletion deduction when the timber is harvested fifteen or more years later.

If a private owner of timberland receives funds from the Federal Government or State government under certain reforestation cost sharing programs, these funds are not included in income. In addition, the private owner of timberlands does not receive any depletion, depreciation or other deduction for his reforestation costs paid with [17] these cost-sharing funds, and the owner's basis in the property does not reflect the amount of these payments. These rules apply for grants made after September 30, 1979.

When additional costs are incurred for clearing brush and unwanted trees after the planting or seeding of timberlands, these costs are currently deductible because they are in the nature of maintenance charges.

House bill

The House bill contained no provisions on reforestation.

Senate amendment

Under the Senate amendment a taxpayer may elect to amortize, over a 7-year period, up to $10,000 of qualifying reforestation expenditures incurred during a taxable year in connection with qualified timber property. Amortization deductions claimed under this provision would be allowed as

"above the line" deductions, that is, deductions in computing adjusted gross income, so that this limited amortization provision is equally available to small timberland owners regardless of whether they itemize deductions for income tax purposes.

A taxpayer may elect 7-year (84-month) amortization on up to $10,000 of qualifying reforestation expenditures each year. The election is to be made annually on a property-by-property basis. However, the maximum amount of qualifying forestation or reforestation expenditures paid or incurred during a taxable year which may be amortized is $10,000 for all of the taxpayer's timber properties, and there is no carryover of excess expenditures to subsequent years. If a taxpayer incurs more than $10,000 in qualifying costs in connection with more than one qualified timber property during a taxable year and elects to amortize the costs attributable to these properties, the Secretary is delegated authority to prescribe regulations concerning the allocation of this amortizable basis among these timber properties.

A mandatory half-year convention is provided, under which it is required that the amortization period begins on the first day of the first month of the last half of the taxable year during which the reforestation costs were incurred. (For example, the amortization period begins on July 1 for a taxpayer who uses a calendar year for tax purposes, regardless of whether the reforestation expenditures were incurred in January or December of that year.) The maximum annual amortization deduction for qualifying expenditures incurred in any taxable year is $1,428.57 ($10,000 ÷ 7) and total deductions for any one year under this provision will reach $10,000 only if a taxpayer incurs and elects to amortize the maximum $10,000 of expenditures each year over an 8-year period. (The full $10,000 deduction would be reached in the 8th year.)

In order to be eligible for this elective amortization treatment, qualifying reforestation expenditures must be incurred in connection with a qualifying timber property. A qualifying timber property is defined as property held for purposes of the commercial production of timber in order to exclude, for example, shelter belts (for which current deductions are allowed under Code section 175) and ornamental trees.

Qualifying reforestation expenditures are direct costs incurred to plant or seed for forestation or reforestation purposes, including costs [18] for site preparation, seed or seedlings, and labor and tool costs (including depreciation on equipment used for this purpose). Reforestation expenditures for this purpose exclude costs for which the taxpayer has been reimbursed under a governmental cost-sharing program, unless the amounts reimbursed have been included in the taxpayer's gross income. In addition, the definition of qualifying reforestation expenditures includes only those costs which must be capitalized and become part of the amortizable basis of the property and excludes costs which are currently deductible.

Rules are also provided concerning the general application of this amortization election. For example, it is provided that a life tenant is entitled to the benefit of this amortization provision on qualifying cost incurred by him and any remainder interest in the property is to be ignored for this purpose. Amortization deductions claimed under this provision will be subject to recapture as ordinary income (to the extent of gain) under Code section 1245 where there is a disposition of the timber property to which the amortizable basis (and the amortization deductions) are attributable within ten taxable years from the year in which the amortizable basis was created.

The annual limitation on the dollar amount of expenditures which can be amortized by a taxpayer is intended to insure that these provisions allow only a limited dollar benefit to any enterprise regardless of size. Consequently, where qualifying costs are incurred by a corporation which is a component member of a controlled group of corporations, the $10,000 maximum limitation on costs eligible for amortization applies to the entire controlled group of corporations, and the Secretary is authorized to prescribe regulations concerning allocation of the limitation among members of the controlled group. In determining whether a group of corporations is a controlled group of corporations for purposes of this provision, the standard of control or ownership by the common parent corporation is "at least 50 percent." (This is the same standard as is provided under Code section 179, relating to additional first-year depreciation.)

In applying the $10,000 limitation to partnerships, the dollar limitation is first applied at the partnership level, and then is applied to each partner. Thus, if an individual is a member of a partnership which owns qualified timber property and also owns qualified timber property directly, the maximum amount of amortizable basis acquired during any taxable year on which he can obtain amortization is $10,000.[1]

The Senate amendment would also allow the 10-percent regular investment tax credit on reforestation costs eligible for the amortization election, regardless of whether amortization treatment is elected for these costs. However, the same annual limitation applies so that the amount of qualifying costs eligible for the credit is limited to $10,000 each taxable year, and there is no carryover excess qualifying costs to subsequent years.

The credit also would not be allowed on qualifying reforestation costs attributable to the capitalization of depreciation on property [19] which already qualifies for the regular investment credit.[2] For example, no invest-

[1] The partnership rule is also the same as the rule applicable under Code section 179. As under section 179, this provision is inapplicable to trusts.

[2] This reflects the existing rule relating to qualified investment in new self-constructed property. Under this rule, the taxpayer is required to reduce the basis of self-constructed property by "any depreciation sustained with respect to any other property used in the construction, reconstruction, or erection" for purposes of the investment credit (Treas. Reg. § 1.46-3(c)(1)).

ment credit would be allowed for reforestation costs attributable to depreciation on equipment which itself qualifies for the investment credit.

In applying these rules, the reduction in basis for depreciation sustained with respect to other property used in the reforestation process shall be applied prior to the application of the $10,000 limitation on eligible costs. Thus, for example, if in a taxable year a taxpayer pays or incurs $12,000 of qualifying reforestation costs with respect to properties for which an election is in effect and $2,000 of such costs are attributable to depreciation of the taxpayer's equipment, such $12,000 would first be reduced by the $2,000 of depreciation, and the $10,000 limitation would be applied following such reduction.

The amortization election and investment credit for certain reforestation expenditures would apply to qualifying reforestation expenditures incurred after December 31, 1979.

* * * * *

Conference substitute

The conference substitute is the same as the Senate amendment, with the addition of clarifying and technical amendments.

The conference committee clarified that the $10,000 limit on the amortizable basis applies to a joint return filed by a husband and wife. In cases where a married couple files a separate return, each would be subject to a $5,000 limit on amortizable expenditures.

The term qualified timber property was modified to indicate clearly that eligible property would be a wood lot or other site which will contain trees in significant commercial quantities. For the purposes of this Act, a wood lot may be a one-acre lot planted with trees in the manner normally used in forestation or reforestation.

For determining eligibility for the investment credit, the useful life of a tree will be its normal growing period. The committee waived the requirement that property eligible for the investment credit must be property for which depreciation (or amortization in lieu of depreciation) is allowable.

The conference committee clarified that the provisions apply to reforestation expenditures incurred in the 50 States and the District of Columbia.

Public Law 96-471
96th Congress, H.R. 6883 [1]
October 19, 1980

An Act to amend the Internal Revenue Code of 1954 to revise the rules relating to certain installment sales.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1954 CODE

(a) SHORT TITLE.—This Act may be cited as the "Installment Sales Revision Act of 1980".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. INSTALLMENT SALES RULES

(a) GENERAL RULE.—Subpart B of part II of subchapter E of chapter 1 is amended by striking out section 453 and inserting in lieu thereof the following new sections:

"SEC. 453. INSTALLMENT METHOD

"(a) GENERAL RULE.—Except as otherwise provided in this section, income from an installment sale shall be taken into account for purposes of this title under the installment method.

"(b) INSTALLMENT SALE DEFINED.—For purposes of this section—

"(1) IN GENERAL.—The term 'installment sale' means a disposition of property where at least 1 payment is to be received after the close of the taxable year in which the disposition occurs.

"(2) EXCEPTIONS.—The term 'installment sale' does not include—

"(A) DEALER DISPOSITION OF PERSONAL PROPERTY.—A disposition of personal property on the installment plan by a person who regularly sells or otherwise disposes of personal property on the installment plan.

"(B) INVENTORIES OF PERSONAL PROPERTY.—A disposition of personal property of a kind which is required to be included in the inventory of the taxpayer if on hand at the close of the taxable year.

"(c) INSTALLMENT METHOD DEFINED.—For purposes of this section, the term 'installment method' means a method under which the income recognized for any taxable year from a disposition is that proportion of the payments received in that year which the gross profit (realized or to be realized when payment is completed) bears to the total contract price.

"(d) ELECTION OUT.—

"(1) IN GENERAL.—Subsection (a) shall not apply to any disposition if the taxpayer elects to have subsection (a) not apply to such disposition.

"(2) TIME AND MANNER FOR MAKING ELECTION.—Except as otherwise provided by regulations, an election under paragraph (1) with respect to a disposition may be made only on or before the due date prescribed by law (including extensions) for filing the taxpayer's return of the tax imposed by this chapter for the taxable year in which the disposition occurs. Such an election shall be made in the manner prescribed by regulations.

"(3) ELECTION REVOCABLE ONLY WITH CONSENT.—An election under paragraph (1) with respect to any disposition may be revoked only with the consent of the Secretary.

"(e) SECOND DISPOSITION BY RELATED PERSONS.—

"(1) IN GENERAL.—If—

"(A) any person disposes of property

[1] Senate Report No. 96-1000, page 494; House Report No. 96-1042 is not published.

to a related person (hereinafter in this subsection referred to as the 'first disposition'), and

"(B) before the person making the first disposition receives all payments with respect to such disposition, the related person disposes of the property (hereinafter in this subsection referred to as the 'second disposition'),

then, for purposes of this section, the amount realized with respect to such second disposition shall be treated as received at the time of the second disposition by the person making the first disposition.

"(2) 2-YEAR CUTOFF FOR PROPERTY OTHER THAN MARKETABLE SECURITIES.—

"(A) IN GENERAL.—Except in the case of marketable securities, paragraph (1) shall apply only if the date of the second disposition is not more than 2 years after the date of the first disposition.

"(B) SUBSTANTIAL DIMINISHING OF RISK OF OWNERSHIP.—The running of the 2-year period set forth in subparagraph (A) shall be suspended with respect to any property for any period during which the related person's risk of loss with respect to the property is substantially diminished by—

"(i) the holding of a put with respect to such property (or similar property),

"(ii) the holding by another person of a right to acquire the property, or

"(iii) a short sale or any other transaction.

"(3) LIMITATION ON AMOUNT TREATED AS RECEIVED.—The amount treated for any taxable year as received by the person making the first disposition by reason of paragraph (1) shall not exceed the excess of—

"(A) the lesser of—

"(i) the total amount realized with respect to any second disposition of the property occurring before the close of the taxable year, or

"(ii) the total contract price for the first disposition, over

"(B) the sum of—

"(i) the aggregate amount of payments received with respect to the first disposition before the close of such year, plus

"(ii) the aggregate amount treated as received with respect to the first disposition for prior taxable years by reason of this subsection.

"(4) FAIR MARKET VALUE WHERE DISPOSITION IS NOT SALE OR EXCHANGE.—For purposes of this subsection, if the second disposition is not a sale or exchange, an amount equal to the fair market value of the property disposed of shall be substituted for the amount realized.

"(5) LATER PAYMENTS TREATED AS RECEIPT OF TAX PAID AMOUNTS.—If paragraph (1) applies for any taxable year, payments received in subsequent taxable years by the person making the first disposition shall not be treated as the receipt of payments with respect to the first disposition to the extent that the aggregate of such payments does not exceed the amount treated as received by reason of paragraph (1).

"(6) EXCEPTION FOR CERTAIN DISPOSITIONS.—For purposes of this subsection—

"(A) REACQUISITIONS OF STOCK BY ISSUING CORPORATION NOT TREATED AS FIRST DISPOSITIONS.—Any sale or exchange of stock to the issuing corporation shall not be treated as a first disposition.

"(B) INVOLUNTARY CONVERSIONS NOT TREATED AS SECOND DISPOSITIONS.—A compulsory or involuntary conversion (within the meaning of section 1033) and any transfer thereafter shall not be treated as a second disposition if the first disposition occurred before the threat or imminence of the conversion.

"(C) DISPOSITIONS AFTER DEATH.—Any transfer after the earlier of—

"(i) the death of the person making the first disposition, or

"(ii) the death of the person acquiring the property in the first disposition,

and any transfer thereafter shall not be treated as a second disposition.

"(7) EXCEPTION WHERE TAX AVOIDANCE NOT A PRINCIPAL PURPOSE.—This subsection shall not apply to a second disposition (and any transfer thereafter) if it is established to the satisfaction of the Secretary that neither the first disposition nor the second disposition had as one of its principal purposes the avoidance of Federal income tax.

"(8) EXTENSION OF STATUTE OF LIMITATIONS.—The period for assessing a deficiency with respect to a first disposition (to the extent such deficiency is attributable to the application of this subsection) shall not expire before the day which is 2 years after the date on which the person making the first disposition furnishes (in such manner as the Secretary may be regulations prescribe) a notice that there was a second disposition of the property to which this subsection may have applied. Such deficiency may be assessed notwithstanding the provisions of any law or rule of law which would otherwise prevent such assessment.

"(f) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) RELATED PERSON. — Except for purpose of subsections (g) and (h), the term 'related person' means a person whose stock would be attributed under section 318(a) (other than paragraph (4) thereof) to the person first disposing of the property.

"(2) MARKETABLE SECURITIES.—The term 'marketable securities' means any security for which, as of the date of the disposition, there was a market on an established securities market or otherwise.

"(3) PAYMENT.—Except as provided in paragraph (4), the term 'payment' does not include the receipt of evidences of indebtedness of the person acquiring the property (whether or not payment of such indebtedness is guaranteed by another person).

"(4) PURCHASER EVIDENCES OF INDEBTEDNESS PAYABLE ON DEMAND OR READILY TRADABLE.—Receipt of a bond or other evidence of indebtedness which—

"(A) is payable on demand, or

"(B) is issued by a corporation or a

government or political subdivision thereof and is readily tradable.

shall be treated as receipt of payment.

"(5) READILY TRADABLE DEFINED.—For purposes of paragraph (4), the term 'readily tradable' means a bond or other evidence of indebtedness which is issued—

"(A) with interest coupons attached or in registered form (other than one in registered form which the taxpayer establishes will not be readily tradable in an established securities market), or

"(B) in any other form designed to render such bond or other evidence of indebtedness readily tradable in an established securities market.

"(6) LIKE-KIND EXCHANGES.—In the case of any exchange described in section 1031(b)—

"(A) the total contract price shall be reduced to take into account the amount of any property permitted to be received in such exchange without recognition of gain.

"(B) the gross profit from such exchages shall be reduced to take into account any amount not recognized by reason of section 1031(b), and

"(C) the term 'payment' shall not include any property permitted to be received in such exchange without recognition of gain.

Similar rules shall apply in the case of an exchange which is described in section 356(a) and is not treated as a dividend.

"(7) DEPRECIABLE PROPERTY.—The term 'depreciable property' means property of a character which (in the hands of the transferee) is subject to the allowance for depreciation provided in section 167.

"(g) SALE OF DEPRECIABLE PROPERTY TO SPOUSE OR 80-PERCENT OWNED ENTITY.—

"1) IN GENERAL.—In the case of an installment sale of depreciable property between related persons within the meaning of section 1239(b), subsection (a) shall not apply, and, for purposes of this title, all payments to be received shall be deemed received in the year of the disposition.

"(2) EXCEPTION WHERE TAX AVOIDANCE NOT A PRINCIPAL PURPOSE.—Paragraph (1) shall not apply if it is established to the satisfaction of the Secretary that the disposition did not have as one of its principal purposes the avoidance of Federal income tax.

"(h) USE OF INSTALLMENT METHOD BY SHAREHOLDERS IN SECTION 337 LIQUIDATIONS.—

"(1) RECEIPT OF OBLIGATIONS NOT TREATED AS RECEIPT OF PAYMENT.—

"(A) IN GENERAL.—If, in connection with a liquidation to which section 337 applies, in a transaction to which section 331 applies the shareholder receives (in exchange for the shareholder's stock) an installment obligation acquired in respect of a sale or exchange by the corporation during the 12-month period set forth in section 337(a), then, for purposes of this section, the receipt of payments under such obligation (but not the receipt of such obligation) by the shareholder shall be treated as the receipt of payment for the stock.

"(B) OBLIGATIONS ATTRIBUTABLE TO SALE OF INVENTORY MUST RESULT FROM BULK SALE.—Subparagraph (A) shall not apply to an installment obligation is also described in section 337 (b) (2) (B).

"(C) SPECIAL RULE WHERE OBLIGOR AND SHAREHOLDER ARE RELATED PERSONS.—If the obligor of any installment obligation and the shareholder are related persons (within the meaning of section 1239(b)), to the extent such installment obligation is attributable to the disposition by the corporation of depreciable property—

"(i) subparagraph (A) shall not apply to such obligation, and

"(ii) for purposes of this title, all payments to be received by the shareholder shall be deemed received in the year the shareholder receives the obligation.

"(D) COORDINATION WITH SUBSECTION (e) (1) (A).—For purposes of subsection (e) (1) (A), disposition of property by the corporation shall be treated also as disposition of such property by the shareholder.

"(E) SALES BY LIQUIDATING SUBSIDIARY.—For purposes of subparagraph (A), in any case to which section 337(c) (3) applies, an obligation acquired in respect of a sale or exchange by the selling corporation shall be treated as so acquired by the corporation distributing the obligation to the shareholder.

"(2) DISTRIBUTIONS RECEIVED IN MORE THAN 1 TAXABLE YEAR OF SHAREHOLDER.—If—

"(A) paragraph (1) applies with respect to any installment obligation received by a shareholder from a corporation, and

"(B) by reason of the liquidation such shareholder receives property in more than 1 taxable year,

then, on completion of the liquidation, basis previously allocated to property so received shall be reallocated for all such taxable years so that the shareholder's basis in the stock of the corporation is properly allocated among all property received by such shareholder in such liquidation.

"(i) REGULATIONS.—

"(1) IN GENERAL.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the provisions of this section.

"(2) SELLING PRICE NOT READILY ASCERTAINABLE.—The regulations prescribed under paragraph (1) shall include regulation providing for ratable basis recovery in transactions where the gross profit or the total contract price (or both) cannot be readily ascertained.

"SEC. 453A. INSTALLMENT METHOD FOR DEALERS IN PERSONAL PROPERTY

"(a) GENERAL RULE.—

"(1) *IN GENERAL.*—Under regulations prescribed by the Secretary, a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price.

"(2) TOTAL CONTRACT PRICE.—For

purposes of paragraph (1), the total contract price of all sales of personal property on the installment plan includes the amount of carrying charges or interest which is determined with respect to such sales and is added on the books of account of the seller to the established cash selling price of such property. This paragraph shall not apply with respect to sales of personal property under a revolving credit type plan.

"(b) CARRYING CHARGES NOT INCLUDED IN TOTAL CONTRACT PRICE.—If the carrying charges or interest with respect to sales of personal property, the income from which is returned under subsection (a)(1), is not included in the total contract price, payments received with respect to such sales shall be treated as applying first against such carrying charges or interest.

"SEC. 453B. GAIN OR LOSS DISPOSITION OF INSTALLMENT OBLIGATIONS

"(a) GENERAL RULE.—If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and—

"(1) the amount realized, in the case of satisfaction at other than face value or a sale or exchange, or

"(2) the fair market value of the obligation at the time of distribution, transmission, or disposition otherwise than by sale or exchange.

any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received.

"b) BASIS OF OBLIGATION.—The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

"(c) SPECIAL RULE FOR TRANSMISSION AT DEATH.—Except as provided in section 691 (relating to recipients of income in respect of decedents), this section shall not apply to the transmission of installment obligations at death.

"(d) EFFECT OF DISTRIBUTION IN CERTAIN LIQUIDATIONS.—

"(1) LIQUIDATIONS TO WHICH SECTION 332 APPLIES.—If—

"(A) an installment obligation is distributed in a liquidation to which section 332 (relating to complete liquidations of subsidiaries) applies, and

"(B) the basis of such obligation in the hands of the distributee is determined under section 334(b)(1),

then no gain or loss with respect to the distribution of such obligation shall be recognized by the distributing corporation.

"(2) LIQUIDATIONS TO WHICH SECTION 337 APPLIES.—If—

"(A) an installment obligation is distributed by a corporation in the course of a liquidation, and

"(B) under section 337 (relating to gain or loss on sales or exchanges in connection with certain liquidations) no gain or the loss would have been recognized to the corporation if the corporation had sold or exchanged such installment obligation on the day of such distribution.

then no gain or loss shall be recognized to such corporation by reason of such distribution. The preceding sentence shall not apply to the extent that under paragraph (1) gain to the distributing corporation would be considered as gain to which section 341(f), 617(d)(1), 1245(a), 1250(a), 1251(c), 1252(a), or 1254(a) applies.

"(e) LIFE INSURANCE COMPANIES.—

"(1) IN GENERAL.—In the case of a disposition of an installment obligation by any person other than a life insurance company (as defined in section 801(a)) to such an insurance company or to a partnership of which such an insurance company is a partner, no provision of this subtitle providing for the nonrecognition of gain shall apply with respect to any gain resulting under subsection (a). If a corporation which is a life insurance company for the taxable year was (for the preceding taxable year) a corporation which was not a life insurance company, such corporation shall, for purposes of this subsection and subsection (a), be treated as having transferred to a life insurance company, on the last day of the preceding taxable year, all installment obligations which it held on such last day. A partnership of which a life insurance company becomes a partner shall, for purposes of this subsection and subsection (a), be treated as having transferred to a life insurance company, on the last day of the preceding taxable year of such partnership, all installment obligations which it holds at the time such insurance company becomes a partner.

"(2) SPECIAL RULE WHERE LIFE INSURANCE COMPANY ELECTS TO TREAT INCOME AS INVESTMENT INCOME.—Paragraph (1) shall not apply to any transfer or deemed transfer of an installment obligation if the life insurance company elects (at such time and in such manner as the Secretary may by regulations prescribe) to determine its life insurance company taxable income—

"(A) by returning the income on such installment obligation under the installment method prescribed in section 453, and

"(B) if such income would not otherwise be returnable as an item referred to in section 804(b) or as long-term capital gain, as if the income on such obligations were income specified in section 804(b).

"(f) OBLIGATION BECOMES UNENFORCEABLE.—For purposes of this section, if any installment obligation is canceled or otherwise becomes unenforceable—

"(1) the obligation shall be treated as if it were disposed of in a transaction other than a sale or exchange, and

"(2) if the obligor and obligee are related persons (within the meaning of section 453(f)(1)), the fair market value of the obligation shall be treated as not less than its face amount."

(b) TECHNICAL AMENDMENTS.—

(1) Section 311(a) and section 336 (as in effect on the day before the date of the enactment of the Crude Oil Windfall Profit Tax Act of 1980 [Pub. L. 96-223, 1980-3 C.B. 1]) are each amended by striking out "section 453 (d)" and inserting in lieu thereof "section 453B".

(2) Paragraph (8) of section 381 (c) is amended—

(A) by striking out "has elected, under section 453, to report on the installment basis" and inserting in lieu thereof "reports on the installment basis under section 453 or 453A", and

(B) by striking out "for purposes of section 453" and inserting in lieu thereof "for purposes of section 453 or 453A".

(3) Subsection (d) of section 481 is hereby repealed.

(4) Subsection (f) of section 644 is amended by striking out "elects to report income under section 453" and inserting in lieu thereof "reports income under section 453".

(5) Paragraph (4) of section 691 (a) is amended—

(A) by striking out "received by a decedent on the sale of other disposition of property, the income from which was properly reportable by the decedent on the installment basis under section 453" and inserting in lieu thereof "reportable by the decedent on the installment method under section 453 or 453A", and

(B) by striking out "section 453 (d)" each place it appears and inserting in lieu thereof "section 453B".

(6) Paragraph (2) of section 1255 (b) is amended by striking out "453 (d)(4)(B)" and inserting in lieu thereof "453B(d)(2)".

(c) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 336 (as amended by the Crude Oil Windfall Profit Tax Act of 1980 [*supra* at 76]) is amended by striking out "section 453(d)" and inserting in lieu thereof "section 453B".

(2) Paragraph (3) of section 337 (f) is amended by striking out "section 453(d)(1)" and inserting in lieu thereof "section 453B(a)".

(3) Paragraph (2) of section 453 (d) is amended by adding at the end thereof the following new sentence: "In the case of any installment obligation which would have met the requirements of subparagraphs (A) and (B) of the first sentence of this paragraph but for section 337(f), gain shall be recognized to such corporation by reason of such distribution only to the extent gain would have been recognized under section 337(f) is such corporation had sold or exchanged such installment obligation on the date of such distribution."

(4) Subparagraph (B) of section 403(b)(2) of the Crude Oil Windfall Profit Tax Act of 1980 is hereby repealed.

(d) CLERICAL AMENDMENT.—The table of sections for such subpart B is amended by striking out the item relating to section 453 and inserting in lieu thereof the following:

"Sec 453. Installment method.

"Sec. 453A. Installment methods for dealers in personal property.

"Sec. 453B. Gain or loss on disposition of installment obligations.".

SEC. 3. COORDINATION WITH SECTION 691

Subsection (a) of section 691 (relating to income in respect of a decedent) is amended by adding at the end thereof the following new paragraph:

"(5) OTHER RULES RELATING TO INSTALLENT OBLIGATIONS.—

"(A) IN GENERAL.—In the case of an installment obligation reportable by the decedent on the installment method under section 453 or 453(A), for purposes of paragraph (2)—

"(i) the second sentence of paragraph (2) shall be applied by inserting '(other than the obligor)' after 'or a transfer to a person',

"(ii) any cancellation of such an obligation shall be treated as a transfer, and

"(iii) any cancellation of such an obligation occurring at the death of the decedent shall be treated as a transfer by the estate of the decedent (or, if held by a person other than the decedent before the death of the decedent, by such person).

"(B) FACE AMOUNT TREATED AS FAIR MARKET VALUE IN CERTAIN CASES.—In any case to which the first sentence of paragraph (2) applies by reason of subparagraph (A), if the decedent and the obligor were related persons (within the meaning of section 453(f)(1)), the fair market value of the installment obligation shall be treated as not less than its face amount.

"(C) CANCELLATION INCLUDES BECOMING UNENFORCEABLE.—For purposes of subparagraph (A), an installment obligation which becomes unenforceable shall be treated as if it were canceled.".

SEC. 4. AMENDMENT OF SECTION 1038.

Section 1038 (relating to certain reacquisitions of real property) is amended by adding at the end thereof the following new subsection:

"(g) ACQUISITION BY ESTATE, ETC., OF SELLER.—Under regulations prescribed by the Secretary, if an installment obligation is indebtedness to the seller which is described in subsection (a), and if such obligation is, in the hands of the taxpayer, an obligation with respect to which section 691(a)(4)(B) applies, then—

"(1) for purposes of subsection (a), acquisition of real property by the taxpayer shall be treated as reacquisition by the seller, and

"(2) the basis of the real property acquired by the taxpayer shall be increased by an amount equal to the deduction under section 691(c) which would (but for this subsection) have been allowable to the taxpayer with respect to the gain on the exchange of the obligation for the real property."

SEC. 5. COORDINATION WITH SECTION 1239.

Subsections (b) and (c) of section 1239 (defining related persons) are amended to read as follows:

"(b) RELATED PERSONS.—For purposes of subsection (a), the term 'related persons' means—

"(1) the taxpayer and the taxpayer's spouse,

"(2) the taxpayer and an 80-percent owned entity, or

"(3) two 80-percent owned entities.

"(c) 80-PERCENT OWNED ENTITY DEFINED.—

"(1) GENERAL RULE.—For purposes of this section, the term '80-percent owned entity' means—

"(A) a corporation 80 percent or more in value of the outstanding stock of which is owned (directly or indirectly) by or for the taxpayer, and

"(B) a partnership 80 percent or more of the capital interest or profits interest in which is owned (directly or indirectly) by or for the taxpayer.

"(2) CONSTRUCTIVE OWNERSHIP.—For purposes of subparagraph (A) and (B) of paragraph (1), the principles of section 318 shall apply, except that—

"(A) the members of an individual's family shall consist only of such individual and such individual's spouse, and

"(B) paragraphs (2)(C) and (3)(C) of section 318(a) shall be applied without regard to the 50-percent limitation contained therein.".

SEC. 6. EFFECTIVE DATES.

(a) FOR SECTIONS 2 AND 5.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by section 2 and 5 shall apply to dispositions made after the date of the enactment of this Act in taxable years ending after such date.

(2) FOR SECTION 453(e).—Section 453(e) of the Internal Revenue Code of 1954 (as amended by section 2) shall apply to first dispositions made after May 14, 1980.

(3) FOR SECTION 453(h).—Paragraphs (1) and (2) of section 453(h) of such Code (as amended by section 2) shall apply in the case of distributions of installment obligations after March 31, 1980.

(4) FOR SECTION 453A.—Section 453A of the Internal Revenue Code of 1954 (as amended by section 2) shall apply to taxable years ending after the date of enactment of this Act.

(5) FOR SECTION 453B(f).—Section 453B(f) of the Internal Revenue Code of 1954 (as amended by section 2) shall apply to installment obligations becoming unenforceable after the date of the enactment of this Act.

(6) FOR SECTION 2(c).—The amendments made by section 2(c) shall take effect as if included in the amendments made by section 403(b) of the Crude Oil Windfall Profit Tax Act of 1980.

(7) SPECIAL RULE FOR APPLICATION OF FORMER SECTION 453 TO CERTAIN DISPOSITIONS.—In the case of any disposition made on or before the date of the enactment of this Act in any taxable year ending after such date, the provisions of section 453(b) of the Internal Revenue Code of 1954, as in effect before such date, shall be applied with respect to such disposition without regard to—

(A) paragraph (2) of such section 453(b), and

(B) any requirement that more than 1 payment be received.

(b) FOR SECTION 3.—The amendment made by section 3 shall apply in the case of decedents dying after the date of the enactment of this Act.

(c) FOR SECTION 4.—The amendment made by section 4 shall apply to acquisitions of real property by the taxpayer after the date of the enactment of this Act.

Approved October 19, 1980.

Senate Report No. 96-1000 2d Session

[Bracketed numerals indicate official report page numbers]

INSTALLMENT SALES REVISION ACT OF 1980

SEPTEMBER 26 (legislative day, JUNE 12), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 6883.[1]

The Committee on Finance, to which was referred the bill (H.R. 6883) to amend the Internal Revenue Code of 1954 to revise the rules relates to certain installment sales, having considered the same, reports favorably thereon with an amendment and recommends that the bill as amended do pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 6883, as it passed the House, amends the rules for reporting gains under the installment method for sales of real property and casual sales of personal property. The bill would (1) make structural improvements to these provisions, (2) eliminate the 30-percent initial payment limitation, (3) eliminate the requirement that an eligible sale be for two or more payments, (4) eliminate the selling price requirement for nondealer sales of personal property, (5) provide that installment reporting automatically applies to a deferred payment sale unless the taxpayer elects otherwise, (6) prescribe special rules for sales to certain related parties, (7) provide that the receipt of like-kind property in connection with an installment sale will not accelerate recognition of gain, (8) provide nonrecognition treatment for distributions of installment obligations received in connection with a 12-month corporate liquidation, (9) permit installment method reporting for sales for a contingent selling price, (10) clarify the treatment of gift cancellations of an installment obligation, (11) clarify the treatment of an installment obligation which is cancelled at the death of the seller, and (12) permit an executor or beneficiary to succeed the decedent for purposes of qualifying for nonrecognition treatment if real property sold by the decedent is reacquired in cancellation of an installment obligation.

[2] *Committee amendment.* — The committee amended the bill to (1) clarify and coordinate the provisions relating to sales of depreciable property between closely related parties, (2) clarify that a third party guarantee (including a standby letter of

[1] Public Law 96-471, page 489.

credit) securing a deferred payment sale will not constitute payment to the seller, (3) eliminate any potential for double taxation when a dealer changes from an accrual method of accounting for sales to the installment method of reporting, (4) provide that existing special disposition rules for transfers of installment obligations to a life insurance company will not apply if the company reports any remaining gain as taxable investment income when it receives payments on the obligation, and (5) make the repeal of the 30-percent initial payment and two or more payment requirements effective for transactions occurring in taxable years ending after the date of enactment rather than for transactions occurring after that date.

[3] I. SUMMARY

The bill (H.R. 6883) amends the rules for reporting gain under the installment method for sales of real property and casual sales of personal property, the rules for electing the installment method by an accrual basis taxpayer, and the special disposition rules for obligations transferred to a life insurance company.

The bill makes the following changes:

(1) Structural improvements. — Under present law, a single provision (Code sec. 453) prescribes rules for installment method reporting for dealers in personal property, for sales of real property and nondealer personal property, and special disposition rules. Under the bill, the basic rules for nondealer transactions will be contained in one Code section (sec. 453), the rules for dealer transactions will be contained in another section (sec. 453A), and generally applicable installment obligation disposition rules will be contained in a third section (sec. 453B).

(2) Initial payment limitation. — The bill eliminates the requirement that no more than 30 percent of the selling price be received in the taxable year of sale to qualify for installment sale reporting for gains from sales of realty and nondealer personal property.

(3) Two-payment rule. — The bill eliminates the requirement that a deferred payment sale be for two or more payments. Thus, a sale will be eligible for installment reporting even if the purchase price is to be paid in a single lump sum amount in a year subsequent to the taxable year in which the sale is made.

(4) Selling price requirements. — The bill eliminates the requirement that the selling price for casual sales of personal property must exceed $1,000 to qualify for installment sale reporting.

(5) Election. — The bill eliminates the present law requirement that the installment method must be elected for reporting gains from sales of realty and nondealer personal property. Instead, the provision will automatically apply to a qualified sale unless the taxpayer elects not to have the provision apply with respect to a deferred payment sale.

(6) Related party sales. — The bill prescribes special rules for situations involving installment sales to certain related parties who also dispose of the property and for situations involving installment sales of depreciable property between a taxpayer and his spouse or certain 80-percent owned corporations or partnerships.

Sales other than sales of depreciable property between certain closely-related parties.—Under the bill, the amount realized upon a resale by the related party installment purchaser will trigger recognition of gain by the initial seller, based on his gross profit ratio, only to the extent the amount realized from the second disposition exceeds actual payments made under the installment sale. Thus, acceleration of recognition of the installment gain from the first sale will generally result only to the extent additional cash and other property [4] flows into the related group as a result of a second disposition of the property.

The excess of any amount realized from resales over payment received on the first sale as of the end of a taxable year will be taken into account. If, under these rules, a resale results in the recognition of gain to the initial seller, subsequent payments actually received by that seller will be recovered tax-free until they equal the amount realized from the resale which resulted in the acceleration of recognition of gain.

In the case of property other than marketable stock and securities, the resale rule will apply only with respect to second dispositions occurring within 2 years of the initial installment sale. In the case of marketable stock and securities, the resale rule will apply without a time limit for resales occurring before the installment obligation is satisfied.

The bill also contains several exceptions to the application of these rules. Since gain from the sale of a corporation's treasury stock is nontaxable and therefore its basis in the stock is irrelevant, the related party rule will not apply to any sale or exchange of stock to the issuing corporation. In addition, there generally will be no acceleration of recognition of gain as a result of a second disposition which is an involuntary conversion of the property or which occurs after the death of the installment seller or purchaser. Finally, the resale rules will not apply in any case where it is established to the satisfaction of the Internal Revenue Service that none of the dispositions had as one of its principal purposes the avoidance of Federal income taxes.

For purposes of the related party rules, the bill adopts a definition of related parties which will include spouses, children, grandchildren, and parents but will exclude brothers and sisters. It is to be understood that the Internal Revenue Service is not precluded from asserting the proper tax treatment to transactions that are shams. A corporation will be considered to be related to another taxpayer if stock of another corporation which is or might be owned by it would be treated as owned by the taxpayer under the general corporate attribution rules. Generally, a related corporation

will be one in which a person directly or indirectly owned 50 percent or more in value of the stock in the corporation. Also for this purpose, the principles of the general corporate stock ownership attribution rules will apply in determining the related party status of partnerships, trusts, and estates.

Sales of depreciable property between certain closely-related parties.—Under the bill, the accrual method of accounting in effect is required for deferred payment sales of depreciable property between certain closely-related parties.

In general, this rule is intended to deter transactions which are structured in such a way as to give the related purchaser the benefit of depreciation deductions (measured from a stepped-up basis) prior to the time the seller is required to include in income the corresponding gain on the sale. For these transactions the deferred payments will be deemed to be received in the taxable year in which the sale occurs.

This special rule will apply only to deferred payment sales between a taxpayer and the taxpayer's spouse, the taxpayer and a partnership [5] or corporation which is 80-percent owned by the taxpayer and/or the taxpayer's spouse, and between partnerships and corporations which are 80-percent owned by the taxpayer and/or the taxpayer's spouse.

The rule will not apply if it is established to the satisfaction of the Internal Revenue Service that the sale did not have as one of its principal purposes the avoidance of Federal income taxes. Thus, the rule will not apply with respect to a sale incident to a divorce or separation or generally when no significant tax deferral benefits will be derived from the sale.

(7) Treatment of third party guarantee.—Under the bill, a third party guarantee (including a standby letter of credit) used for security of a deferred payment sale will not be treated as payment received on an installment obligation.

(8) Like-kind exchanges.—The bill provides that the receipt of like-kind property in connection with a disposition will not be taken into account in determining gain recognized for installment sale reporting purposes. Under the present Internal Revenue Service position, the receipt of like-kind property results in the recognition of installment gain before cash is received by the taxpayer because the value of such property is treated as a payment received. The bill reverses this rule.

(9) Installment obligations distributed in a corporation liquidation.—In general, the bill provides nonrecognition of gain treatment for a shareholder who receives installment obligations as liquidating distributions from a corporation liquidating within 12 months of adoption of a plan of complete liquidation. In general, this rule will apply to obligations arising from sales by a corporation during the 12-month period. Obligations from the sale of inventory will qualify only if the inventory of that trade or business is sold in bulk. The gain realized by the shareholder on his stock will be recognized as payments are received on the installment obligation. Thus, in most significant aspects, the tax consequences to a shareholder will be essentially the same whether the corporation sells its assets and then distributes installment obligations in complete liquidation or the shareholder makes an installment sale of the stock.

Under the bill, nonrecognition treatment will not be available to the extent the obligation is attributable to sales of depreciable property by the corporation if the installment purchaser is either the shareholder-distributee's spouse, or a corporation or a partnership which is 80-percent owned by the shareholder-distributee and/or his spouse.

(10) Sales subject to a contingency.—The bill permits installment method reporting for sales for a contingent selling price. Under present law, these sales are not eligible for installment reporting. In extending eligibility, the bill does not prescribe specific rules which would apply to every conceivable transaction. Rather, the bill provides that the specific rules will be prescribed under regulations.

However, it is intended that, for sales under which there is a stated maximum selling price, the regulations will permit basis recovery on the basis of a gross profit ratio determined by reference to the stated maximum selling price. In cases where the sales price is indefinite but payable over a fixed period of time, it is generally intended that the basis of the property sold would be recovered ratably over that fixed period. In cases where the selling price and payment period are both indefinite, it is intended that the regulations would permit ratable [6] basis recovery over some reasonable period of time. Also, in appropriate cases, it is intended that basis recovery would be permitted under an income forecast type method.

(11) Election of installment method by accrual method dealer.—Under the bill, an election of installment method reporting by an accrual method dealer would apply only to payments received from sales made on or after the effective date of the election and thereby eliminate the possibility of double taxation which exists under present law.

(12) Transfers of installment obligations to life insurance companies.—Under the bill, the special disposition rules for triggering the recognition of gain for obligations transferred to a life insurance company in an otherwise tax-free transfer will not apply if the transferee company elects to report any remaining gain as investment income as payments are received.

(13) Cancellation of installment obligation.—The bill makes it clear that the cancellation of an installment obligation is treated as a disposition of the obligation by the holder of the obligation.

(14) Bequest of obligation to obligor.—The bill provides that the installment obligation disposition rules cannot be avoided by the bequest of an obligation to the obliger.

(15) Foreclosure of real property

sold on installment method by deceased taxpayer.—The bill provides that an executor or beneficiary who receives a secured installment obligation from a decedent will succeed the decedent for purposes of qualifying for nonrecognition treatment if the real property sold by the decedent is reacquired in cancellation of the obligation.

(16) Treatment of gain from sales of depreciable property between related parties.—Under the bill, the ordinary income characterization rules for sales of depreciable property between related parties would be revised to generally apply the usual corporate constructive ownership rules and to prescribe new rules for transactions with entities which are 80 percent controlled by a taxpayer and his spouse. For purposes of this provision, the attribution rules would be narrowed to exclude attribution from a family member other than the taxpayer's spouse.

(17) Effective dates.—In general, the bill is effective for sales, dispositions, cancellations, bequests, and reacquisitions of real property, as the case may be, occurring after the date of enactment. The provisions which eliminate the 30-percent initial payment and the two or more payments requirements are effective for transactions occurring in taxable years ending after the date of enactment. However, the related party installment sale rules apply to installment sales after May 14, 1980. The provision relating to the distribution of installment obligations in connection with a 12-month corporate liquidation apply with respect to installment obligations distributed after March 31, 1980.

(18) Revenue effects.—Due to the interaction between the provisions of this bill, revenue effects for each specific provision cannot be determined independently. It is estimated that on balance the provisions of this bill (except related party sales) will not have a significant revenue effect on budget receipts.

Due to the extensive litigation and controversy concerning the treatment of related party sales under present law, the revenue gain for the related party provision of the bill is indeterminant.

[7] II. EXPLANATION OF THE BILL

A. Installment Sales Generally (sec. 2 of the bill and sec. 453 of the Code)

Present law

Generally, under present law (Code sec. 453), income from a sale of property on the installment basis may be reported as the payments are received. If the installment method is elected for qualifying sales, the gain reported for any taxable year is the proportion of the installment payment received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price. In general, the contract price is the amount which will be paid to the seller.

The function of the installment method of reporting income is to permit the spreading of the income tax over the period during which payments of the sales price are received. Thus, the installment method alleviates possible liquidity problems which might arise from the bunching of gain in the year of sale when a portion of the selling price has not been actually received.

Reasons for change

The committee believes that present law would be simplified by making structural improvements to existing law so that the basic rules relating to nondealer transactions would be contained in one section of the Code, the basic rules relating to dealer transactions in another section, and the special rules relating to dispositions of installment obligations in a third section.

Explanation of provision

In general

Although the bill makes structural revisions of existing law and makes the specific changes described below, most of the basic concepts of existing law are continued. As under present law, the provisions relate to installment reporting of gains and do not affect the time for recognizing losses from the sale or exchange of property for deferred payments.

Except as otherwise provided for sales subject to a contingency or for sales to certain related persons, gain from an installment sale would continue to be recognized for any taxable year with respect to the payments received in the year in the same proportion as the gross profit from the sale bears to the total contract price. The payments taken into account as being received in a taxable year would not include the purchaser's obligation of future payment, whether dischargeable in money or other property (including foreign currency), unless that obligation is a bond or other evidence of indebtedness which is either payable on demand or has been issued by a corporation or government and is readily tradable.

[8] *Structural improvements*

Under present law, a single provision (Code sec. 453) prescribes rules for installment method reporting for dealers in personal property, for sales of real property and nondealer personal property, and special disposition rules. Under the bill, the rules for nondealer transactions are contained in one Code section (sec. 453), the rules for personal property dealer transactions are contained in another section (sec. 453A), and generally applicable installment obligation disposition rules are contained in a third section (sec. 453B).

Generally, in making these structural changes and certain language changes are intended to be made by the bill with respect to the provisions relating to installment sales by dealers in personal property. Except for an amendment relating to the election of the installment method by an accrual basis dealer, the substantive changes under the bill relate only to sales of

realty and casual sales of personal property.

Under the bill, gain from the sale of property which is not required to be inventories by a farmer under his method of accounting will be eligible for installment method reporting as gain from a casual sale of personal property even though such property is held for sale by the farmer. The committee also intends that deferred payment sales to farmer cooperatives are to be eligible for installment reporting as under present law (Rev. Rul. 73-210, 1973-1 C.B. 211).

B. Initial Payment Limitation (sec. 2 of the bill and sec. 453(b)(2) of the Code)

Present law

Under present law, gain from the sale of realty or nondealer personal property may not be reported under the installment method if the payments received in the taxable year of sale exceed 30 percent of the selling price.

Reasons for change

A number of problems have arisen in connection with the 30-percent initial payment requirement which was designed to limit installment sale reporting to transactions where hardships might result from current imposition of tax on uncollected amounts. Some have argued that it is an arbitrary limitation which has unduly complicated and interfered with normal business transactions. In addition, it has been argued that the limitation has operated as a trap for the unwary. If a taxpayer fails to secure competent advice and inadvertently exceeds the 30-percent limitation, however slightly, the entire gain must be recognized in the year of sale. The limitation has produced an inordinate amount of litigation and confusion.

In applying the 30-percent limitation, the problem areas generally involve interpretations of the terms "selling price" and "payment." Where the imputed interest provision applies (Code sec. 483), the limitation may not be satisfied if the selling price is reduced by the amount required to be treated as unstated interest (Treas. reg. § 1.453(b)(2)). Thus, after reduction of the selling price for unstated interest, the payments received in the year of sale may exceed 30 percent of the selling price although the limitation appeared to be satisfied on the basis of the written sales agreement. A similar disqualification [9] can arise when the installment obligation is a corporate obligation issued at a discount because the amount treated as original issue discount is not included as part of the selling price (Treas. reg. § 1.453-1(b)(3)).

Another problem arises under present law in connection with the sale of property which is subject to an existing mortgage which is assumed by the installment buyer. Generally, the amount of the mortgage is taken into account as part of the selling price but is not taken into account for purposes of determining the contract price or the amount of payments received by the seller. However, to the extent the mortgage exceeds the seller's basis in the property, the excess is considered as a payment received and correspondingly is included in the contract amount. (Treas. reg. § 1.453-4(c)). The problem arising from this treatment does not involve its correctness but rather the inadvertent disqualification of the sale for installment method reporting for failing to take the amount of the mortgage in excess of basis into account for the 30-percent initial payment requirement. Where the taxpayers are cognizant of problems of this type, the 30-percent requirement has fostered ingenious "wraparound" mortgage arrangements to qualify for installment method reporting.[1]

Under the wraparound arrangement, the buyer does not assume the mortgage and agrees not to make direct payments to the mortgagee but agrees to make the payments to the seller who will continue to pay the mortgage debt. In one case, the wraparound technique was used by having the seller retain title to the property for a period of years so there would be no transfer of property "subject to" the existing mortgage.[2] If title passes in the year of sale, the Internal Revenue Service will treat the mortgage debt in excess of basis as a payment received in the year of the sale.[3] This issue is said to be another instance of the 30-percent initial payment rule fostering uncertainty and litigation.

Another problem area relates to the treatment of selling expenses when determining whether the mortgage assumed by the buyer exceeds the adjusted basis of the property sold. Under the regulations, commissions and selling expenses are taken into account as an offset to selling price for purposes of determining the gross profit from a sale by a nondealer (Treas. reg. § 1.453-1(b)), but do not reduce the amount of the payments, the total contract price, or the selling price (Treas. reg. § 1.453-4(c)). However, the Ninth Circuit has held that selling expenses are to be added to basis for this purpose.[4] The Internal Revenue Service has announced that it will not follow the Ninth Circuit's decision on the treatment of selling expenses.[5] Thus, this is another area where the 30-percent initial payment requirement may foster litigation and confusion.

Another problem area involves the case where the buyer pays some of the seller's obligations in the year of sale. The Service has ruled that, in the case of a casual sale of personal property, the assumption [10] and payment of secured and general unsecured liabilities by the purchaser will not be con-

[5] Rev. Rul. 74-384, 1974-2 C.B. 152.

sidered as a payment to the seller for installment sale reporting qualification purposes if the seller establishes that the liabilities were incurred in the ordinary course of business and not for purposes of avoiding the 30-percent initial payment limitation.[6] The avoidance test under the ruling would involve a subjective determination of motive. Thus, this is another area where the initial payment rule may foster litigation and confusion.

For these reasons, the committee believes that the 30-percent initial payment limitation should be repealed.

Explanation of provision

The bill eliminates the 30-percent initial payment limitation for reporting gain on the installment method from the disposition of real property or nondealer personal property.

C. Two-Payment Rule (sec. 2 of the bill and sec. 453 of the Code)

Present law

Under present law, it is the position of the Internal Revenue Service that a taxpayer may not elect to report income from the sale of real property on the installment method if the total purchase price is payable in a lump sum in a taxable year subsequent to the year of sale.[7] The same issue may arise with respect to casual sales of personal property. The rationale for the ruling is that the installment concept generally calls for two or more payments of the purchase price in two or more taxable years and that a single payment sale cannot be considered to be payable in installments. The courts have agreed with the Service's interpretation.[8]

Reasons for change

The two-payment rule is a trap for the unwary and results in different tax results for transactions that are substantially similar. For example, installment method reporting would be available for a taxpayer who sells for a modest down payment with the balance due in 5 years but would not be available for a taxpayer who receives no down payment with the entire balance due in 5 years. In these situations, the ability to pay income taxes from the sales proceeds is essentially the same. Thus, to the extent the rationale for installment method reporting is based on ability to pay concepts, both sales should qualify for installment reporting.

Accordingly, the committee believes that the two-payment requirement should be repealed.

Explanation of provision

The bill eliminates the requirement that a sale must be for two or more payments to qualify for installment method reporting. Thus, under the bill, income from the sale of qualifying property for a purchase price payable in a lump sum in a taxable year subsequent to the year of sale may be reported in the year in which payment is received.

[11] It is anticipated that the Treasury Department will prescribe regulations to extend a similar rule to deferred payment sales by dealers in personal property.

D. Selling Price Limitation for Casual Sales of Personal Property (sec. 2 of the bill and sec. 453(b)(1)(B) of the Code)

Present law

Under present law, a casual sale of personal property must be for a selling price in excess of $1,000 to qualify for installment reporting.

Reasons for change

In certain situations, the selling price requirement may be difficult to apply because questions may arise as to whether there is a single sale of several items for more than $1,000, which satisfies the requirement, or a number of sales of individual items for $1,000 or less for each item. In addition, the committee believes that taxpayer compliance will be facilitated by repealing this requirement.

Explanation of provision

The bill eliminates the selling price requirement to qualify for installment reporting.[9]

E. Election of Installment Reporting (sec. 2 of the bill and new sec. 453(d) of the Code)

Present law

Under present law, an election may be made to report gain from an installment sale on a timely filed return, a delinquent return, or on an amended return for the year of sale not barred by the statute of limitations, if the facts indicate no position inconsistent with the installment election had been taken with respect to the sale (Rev. Rul. 65-297, 1965-2 C.B. 152). If a return is filed which includes in gross income the entire gain from an installment sale, an amended return or claim for refund cannot be used to elect installment sale reporting for the sale because the election to report the gain in full is treated as a binding election not to report on the installment method.[10]

Reasons for change

The committee believes that the present law requirements for electing installment reporting may represent a trap for taxpayers who attempt an election which is invalid because of technical deficiencies. Further, the committee believes that present law creates a whip-saw problem for the Internal Revenue Service, e.g., where the taxpayer does not report gain from a sale for the year of sale but later

[6] Rev. Rul. 73-555, 1973-2 C.B. 159.

[7] Rev. Rul. 69-462, 1969-2 C.B. 107, amplified by Rev. Rul. 71-595, 1971-2 C.B. 223.

[8] *Baltimore Baseball Co., Inc.*, v. *U.S.*, 481 F.2d 1283 (Ct. Cl. 1973); *10-42 Corp.*, 55 TC 593 (1971).

[9] If, for practical reasons, it is not feasible to report gain from sales for relatively small amounts, a taxpayer could elect not to report gain under the installment method and thereby eliminate compliance burdens. See the following discussion relating to installment sale elections under the bill.

[10] *Robert F. Kock*, T.C. Memo 1978-271; *Pacific National Co.* v. *Welch*, 304 U.S. 191 (1938).

attempts to retroactively elect installment treatment if the omission is discovered on audit, or, if the statute of limitations has run, contends that the full amount of gain should have been reported for the year of sale.

Explanation of provision

The bill eliminates the present law requirement that the installment method must be elected for reporting gains from sales of realty and nondealer personal property. Instead, installment reporting would [12] automatically apply to a qualified sale unless the taxpayer elects not to have the provision apply with respect to a deferred payment sale. Generally, the election not to have installment method reporting apply to a deferred payment sale must be made in the manner prescribed by regulations on or before the due date (including extensions of time for filing) for filing the income tax return for the year in which the sale occurs. It is anticipated that reporting the entire gain in gross income for the taxable year in which the sale occurs will operate as an election not to have installment sale reporting apply. It is anticipated that, under regulations, late elections will be permitted in rare circumstances when the Internal Revenue Service finds that reasonable cause for failing to make a timely election exists under the particular circumstances of each case.

Generally, an election made under this provision is to be irrevocable. However, an election may be revoked with the consent of the Internal Revenue Service. Generally, it is anticipated that consent would be given by the Internal Revenue Service in circumstances when a revocation does not have as one of its purposes the avoidance of income taxes. Also it is anticipated that consent to revocation will generally be granted in cases involving a contingent selling price if the election is made prior to adoption of final regulations under the provisions of the bill relating to contingent selling price sales and the request for revocation is filed within a reasonable time after the regulations are adopted.

It is anticipated that the regulations will prescribe election rules relating to the treatment of gains from deferred payments sales of property by a nonresident alien. Under the installment method rules of present law, these gains do not become taxable as payments are received after the seller becomes a resident or citizen subject to U.S. income tax for a taxable year subsequent to the year in which the sale was made. It is intended that the election regulations will continue this treatment in appropriate cases. Further, it is intended that similar treatment will be provided for a deferred payment sale made by a tax-exempt organization which later receives payments after losing its tax-exempt status.

F. Related Party Sales (sec. 2 of the bill and new sec. 453(e), (f), and (g) of the Code)

Present law

Under present law, the installment sale statutory provision does not preclude installment sale reporting for sales between related parties. Further, the statutory provision does not preclude installment sale reporting for sales of marketable securities although the seller might readily obtain full cash proceeds by market sales.[11]

Under the existing statutory framework, taxpayers have used the installment sale provision as a tax planning device for intra-family transfers of appreciated property, including marketable securities.[12] [13] There are several tax advantages in making intra-family installment sales of appreciated property. The seller would achieve deferral of recognition of gain until the related buyer actually pays the installments to the seller, even if cash proceeds from the property are received within the related party group from a subsequent resale by the installment buyer shortly after making the initial purchase. In addition to spreading out the gain recognized by the seller over the term of the installment sale, the seller may achieve some estate planning benefits since the value of the installment obligation generally will be frozen for estate tax purposes. Any subsequent appreciation in value of the property sold, or in property acquired by reinvestment of the proceeds from the property sold on the installment basis, would not affect the seller's gross estate since the value of the property is no longer included in his gross estate.

With respect to the related buyer, there is usually no tax to be paid if the appreciated property is resold shortly after the installment purchase. Since the buyer's adjusted basis is a cost basis which includes the portion of the purchase price payable in the future, the gain or loss from the buyer's resale would represent only the fluctuation in value occurring after the installment purchase. Thus, after the related party's resale, all appreciation has been realized within the related group but the recognition of the gain for tax purposes may be deferred for along period of time.

In the leading case, *Rushing* v. *Commissioner*,[13] the test was held to be that, in order to receive the installment benefits, the "seller may not directly or indirectly have control over the proceeds or possess the economic benefit therefrom." In this case, a sale of corporate stock was made to the trustee of trusts for the benefit of the seller's children. Since the sales were made to trusts created after the corporations had adopted plans of liquidation, the Government made an assignment of income argument. The Court upheld installment sale treatment for

[11] The receipt of the buyers obligation payable on demand or a readily tradable evidence of indebtedness is treated as the receipt of payment by the seller. For this purpose, readily tradable items include bonds and notes issued by a corporation or governmental unit with interest coupons attached or in registered form or in any other form designed to make the bond or note readily tradable in an established securities market.

[12] Another technique used for intra-family transfers involves the so-called "private annuity" arrangement. The bill does not deal directly with this type of arrangement.

[13] 441 F. 2d 593 (5th Cir. 1971), *aff'g*, 52 T.C. 888 (1969).

the stock sold to the trustee under the "control or enjoyment" test because the trustee was independent of the taxpayer and owed a fiduciary duty to the children. The Court rejected the assignment of income argument because it found that no income was being assigned.

The *Rushing* case has been followed in another case where the stock sold to a family trust was that of a corporation which was to be liquidated after the sale.[14] The liquidation was formally authorized after the sale to the trust. In other cases, the Tax Court has rejected the Service's substance over form and constructive receipt arguments and held that sales to a family trust qualified for installment method reporting.[15] In the *Pityo* case, the taxpayer's wife was the beneficiary of one of the trusts to which the installment sale was made. In the *Roberts* case, the trustees were the seller's brother and personal accountant. In both cases, installment sale reporting was allowed because the Tax [14] Court held that the trustees were independent of the seller and satisfied the *Rushing* control or enjoyment test.

In another case, installment method reporting was allowed for a sale of marketable stock by a wife to her husband although a resale by the husband was contemplated.[16] In this case, the Court held that the husband could not be considered a mere conduit for the wife's sale of the stock since both were "very healthy economic entities" and the husband had an independent purpose for obtaining needed funds for an investment at a low rate of interest.

In the few cases in which the Service has prevailed, installment method reporting has been denied with respect to transactions involving a controlled corporation,[17] a sale to a son where the son was forced to resell the stock and invest the proceeds in other securities held in escrow,[18] and, in the case of a sale by a husband to his wife where the Court found there was no bona fide purpose for the transaction other than tax avoidance.[19]

Reasons for change

The committee appreciates the fact that denial of installment sale treatment may be harsh for a shareholder who receives liquidating distributions of the installment obligations received by the corporation from the sale of its assets. In that case, the shareholder may incur a substantial tax on the gain from the stock without having received current funds from the corporate liquidation with which to pay the tax. Accordingly, the committee's bill, as later described, includes a provision to deal with that potential hardship. However, the committee believes that the application of the judicial decisions, involving corporate liquidations, to intra-family transfers of appreciated property has led to unwarranted tax avoidance by allowing the realization of appreciation within a related group without the current payment of income tax.

Explanation of provision

The bill prescribes special rules for situations involving installment sales to certain related parties who also dispose of the property and for situations involving installment sales of depreciable property between a taxpayer and his spouse or certain trusts, and 80-percent owned corporations or partnerships.

Sales other than sales of depreciable property between certain closely-related parties

Under the bill, the amount realized upon certain resales by the related party installment purchaser will trigger recognition of gain by the initial seller, based on his gross profit ratio, only to the extent the amount realized from the second disposition exceeds actual pay- [15] ments made under the installment sale. Thus, acceleration of recognition of the installment gain from the first sale will generally result only to the extent additional cash and other property flows into the related group as a result of a second disposition of the property. In the case of a second disposition which is not a sale or exchange, the fair market value of the property disposed of is treated as the amount realized for this purpose. For these purposes, the portion of the amount realized from a second disposition will not be taken into account to the extent attributable to any improvements which had been made by the related installment purchaser.

The excess of any amount realized from resales over payments received on the first sale as of the end of a taxable year will be taken into account. Thus, the tax treatment would not turn on the strict chronological order in which resales or payments are made. If, under these rules, a resale results in the recognition of gain to the initial seller, subsequent payments actually received by that seller would be recovered tax-free until they have equaled the amount realized from the resale which resulted in the acceleration of recognition and gain.

In the case of property other than marketable securities, the resale rule will apply only with respect to second dispositions occurring within 2 years of the initial installment sale. For this purpose, the running of the 2-year period would be suspended for any period during which the related purchaser's risk of loss with respect to the

[14] *Carl E. Weaver,* 71 T.C. 443 (1978).

[15] *William D. Pityo,* 70 T.C. 225 (1978); *Clair E. Roberts,* 71 T.C. 311 (1978). Also, in *William J. Goodman,* 74 T.C. No. 53 (July 16 1980), a prearranged resale was made by the trustees of a family trust one day after the installment sale were made to the trusts of which the installment sellers were the trustees. The two-step installment sales were used because the taxpayers believed that "a cash sale was not attractive because of the income tax liability on such a sale."

[16] *Nye* v. *U.S.,* 407 F.Supp. 1345, 75-1 USTC ¶ 9150 (M.D.N.C. 1975).

[17] *Griffiths* v. *Helvering,* 308 U.S. 355 (1939). This case involved the creation of a corporation to receive the assignment of a settlement owed to the taxpayer with the corporation agreeing to pay the money received from the settlement to the taxpayer over a 40-year term. The Court held that there had been an anticipatory assignment of income and therefore the income was taxable to the shareholder rather than the corporation.

[18] *Paul G. Lustgarten,* 71 T.C. 303 (1978). The Court held that the taxpayer had constructively received the proceeds from the "resale."

[19] *Phillip W. Wrenn,* 67 T.C. 576 (1976).

property is substantially diminished. This rule will apply with respect to the holding of a put, the holding of an option by another person, a short sale, or any other transaction which has the effect of substantially diminishing the risk of loss. However, for this purpose, a typical close corporation shareholders' agreement is not intended to be taken into account. Further, the holding of an option is not to be considered to have the effect of substantially diminishing risk of loss if the option purchase price is to be determined by reference to the fair market value of the property at the time the option is exercised.

In the case of marketable securities, the resale rule would apply without a time limit for resales occurring before the installment obligation is satisfied. For this purpose, the term "marketable security" means any security for which, as of the date of disposition, there was a market on an established securities market, [or] otherwise.[20]

The bill also contains several exceptions to the application of these rules. Since gain from the sale of a corporation's treasury stock is nontaxable and therefore its basis in the stock is irrelevant, this related party rule will not apply to any nonliquidating installment sale of stock to the issuing corporation. In addition, there would be no acceleration of recognition of gain as a result of a second disposition which is an involuntary conversion of the property if the first sale occurred before the threat or imminence of the conversion. Further [16] there would be no acceleration of recognition of gain from a second disposition which occurs after the death of the installment seller or purchaser. Generally, it is intended that this exception will apply after the death of either spouse when the spouses hold their interests in the installment obligation or the purchased property as community property or as equal undivided joint interests. Finally the resale rules will not apply in any case where it is established to the satisfaction of the Internal Revenue Service that none of the dispositions had as one of its principal purposes the avoidance of Federal income taxes.

In the exceptional cases to which the nonavoidance exception may apply, it is anticipated that regulations would provide definitive rules so that complicated legislation is not necessary to prescribe substituted property or taxpayer rules which would not be of general application. In appropriate cases, it is anticipated that the regulations and rulings under the nontax avoidance exception will deal with certain tax-free transfers which normally would not be treated as a second disposition of the property, e.g., charitable transfers, like-kind exchanges, gift transfers, and transfers to a controlled corporation or a partnership. Generally it is intended that a second disposition will qualify under the nontax avoidance exception when it is of an involuntary nature, e.g., foreclosure upon the property by a judgment lien creditor of the related purchaser or bankruptcy of the related purchaser. In addition it is intended that the exception will apply in the case of a second disposition which is also an installment sale if the terms of payment under the installment resale are substantially equivalent to, or longer than, those for the first installment sale. However, the exception would not apply if the resale terms would permit significant deferral of recognition of gain from the initial sale when proceeds from the resale are being collected sooner.

Under the bill, the period for assessing a deficiency in tax attributable to a second disposition by the related purchaser will not expire before the day which is 2 years after the date the initial installment seller furnishes a notice that there was a second disposition of the property. The notice is to be furnished in the manner prescribed by regulations. Under the bill, a protective notification may be filed to prevent the tolling of the period of limitations for assessing a deficiency in cases where there are questions as to whether a second disposition has occurred (e.g., a lease which might be characterized as a sale or exchange for tax purposes) or whether there is a principal purpose of Federal income tax avoidance.

For purposes of the related party rules, the bill adopts a definition of related parties which will include spouses, children, grandchildren, and parents but will exclude brothers and sisters.

In the case of a corporation, it will be considered to be related to another taxpayer if stock which is or might be owned by it is or would be treated as owned by the other taxpayer under the general corporate attribution rules (Codes sec. 318). Generally, a related corporation will be one in which a person directly or indirectly owns 50 percent or more in value of the stock in the corporation. Also for this purpose, the principles of the general corporate stock ownership attribution rules (Codes sec. 318) will apply in determining the related party status of partnerships, trusts, and estates.

[17]It is to be understood that the provisions governing the use of the installment method to report sales between related parties, and the definition of such relationships, are not intended to preclude the Internal Revenue Service from asserting the proper tax treatment of transactions that are shams.

Sales of depreciable property between certain closely-related parties

Under the bill, the accrual method of accounting in effect is required for deferred payment sales of depreciable property between certain closely-

[20] The term "marketable securities" includes securities which are listed on the New York Stock Exchange, the American Stock Exchange, or any city or regional exchange in which quotations appear on a daily basis, including foreign securities listed on a recognized foreign national or regional exchange; securities regularly traded in the national or regional over-the-counter market, for which published quotations are available; securities locally traded for which quotations can readily be obtained from established brokerage firms; and units in a common trust fund. Mutual fund shares for which redemption prices are published would also be considered marketable securities.

related parties.[21] In general, this rule is intended to deter transactions which are structured in such a way as to give the related purchaser the benefit of depreciation deductions (measured from a stepped-up basis) prior to the time the seller is required to include in income the corresponding gain on the sale. For transactions to which the special rule will apply, the deferred payments will be deemed to be received in the taxable year in which the sale occurs. In the case of sales for contingent future payments, it is intended that, in general, the amount realized in the year of sale will be equal to the value of the property sold.

This special rule will apply only to deferred payment sales between a taxpayer and the taxpayer's spouse; the taxpayer and a partnership or corporation which is 80-percent owned by the taxpayer and/or the taxpayer's spouse; and between partnerships and corporations which are 80-percent owned by the taxpayer and/or the taxpayer's spouse. The rule will not apply if it is established to the satisfaction of the Internal Revenue Service that the sale did not have as one of its principal purposes the avoidance of Federal income taxes.

Thus, the special rules will not apply if, at the time of the installment sale, the husband and wife are legally separated under a decree of divorce or separate maintenance. Also, they will not apply if the installment sale occurs pursuant to a settlement in a proceeding which culminates in a decree of divorce or separate maintenance. Further, the rule will not apply if no significant tax deferral benefits will be derived from the sale.

[21] In the case of transfers which are treated as tax-free transfers to a controlled corporation or to a partnership. (Code secs. 351, 362, 721, and 723), the provisions of present law would continue to apply and would not be affected by the provision. Also, in the case of transactions which are governed by the doctrine of liquidation-reincorporation under present law, the tax treatment for those transactions would continue to be governed by present law and would not be effected by the provision.

Statement of committee intention

The committee intends that no inference be drawn from these provisions as to the proper treatment of any related party installment sale occurring prior to the effective date provided under the bill.

The Committee on Finance believes that, as a principle of tax policy, a taxpayer should be permitted to contest on an equal footing in the appropriate courts matters in dispute with the government. The Committee recognizes that two sections of the pending legislation (new Code secs. 453 (e)(7) and (g)) put a taxpayer at a disadvantage if he or she should seek a court ruling on the merits of the issue.

The Committee accepts the pending legislation only with the specific understanding that—

[18] (1) The foregoing sections are designed to give an opportunity to taxpayers to qualify who might otherwise not be able to qualify under this legislation for the reporting of income on the installment method,

(2) Under the preceding sections in determining the question of tax avoidance, the Commissioner shall treat taxpayers fairly and equitably in light of all the facts and circumstances of each particular case in a manner consistent with the remedical intent of the preceding sections, and

(3) The preceding sections are not to be considered as a precedent for future legislation.

The Committee shall monitor closely the administration of the sections and the Commissioner shall report annually its actions to the appropriate Congressional committees. Further, the General Accounting Office shall not later than two years after the enactment of this legislation report to the Congress on the manner in which the preceding sections are being administered.

G. Treatment of Third Party Guarantee (sec. 2 of the bill and sec. 453(f)(3) of the Code)

Present law

Generally, under present law (Code sec. 453), income from a sale of property on the installment basis may be reported as the payments are received. If the installment method is elected for qualifying sales, the gain reported for any taxable year is the proportion of the installment payment received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price. In general, the contract price is the amount which will be paid to the seller. The payments taken into account as being received in a taxable year would not include the purchaser's obligation of future payment, whether dischargeable in money or other property (including foreign currency), unless that obligation is a bond or other evidence or indebtedness which is either payable on demand or has been issued by a corporation or government and is readily tradable.

In a recent case, the Tax Court held that, by reason of a standby letter of credit used to secure future payment for the sale of a cotton crop, the taxpayer had received full payment in the year of sale and could not report the transaction on the installment method.[22] However, the Tenth Circuit Court of Appeals has recently held that a letter of credit used to secure payment for the sale of stock did not constitute payment for purposes of the installment sale provisions.[23]

Reasons for change

The committee believes that a third party guarantee (including a standby letter of credit) used as security for a deferred payment sale should not be treated as a payment received on an installment obligation.

Explanation of provision

Under the bill, a third party guarantee (including a standby letter of credit) will not be taken into account in determining if the [19] buyer's evidence of indebtedness constitutes payment to the seller. For this purpose, a

[22] *J. K. Griffith*, 73 T.C. No. 76 (Feb. 28, 1980).

[23] *Sprague* v. *U.S.*, — F.2d — (10th Cir., Aug. 14, 1980).

guarantee which is not treated as payment would not include a third party note (or any other type of third party obligation which is transferable or marketable prior to default in payment by the installment purchaser).

H. Receipt of Like Kind Property (sec. 2 of the bill and new sec. 453(f)(7) of the Code)

Present law

Under present law, the transfer of property for cash payments and like kind property may qualify both for installment method reporting and, with respect to the gain attributable to the like kind exchange, nonrecognition treatment (Code sec. 1031 and Rev. Rul. 65-155, 1965-1. C.B. 356). In this case, the gain to be recognized under installment method reporting is the total gain realized on the transaction less the gain eligible for nonrecognition under the like kind exchange provision. However, the value of the like kind property received by the seller is taken into account in determining the amount of the selling price, the contract price, and payments received for purposes of the installment sale provision.[24] The value of the like kind property received in the taxable year in which the sale or exchange is made.

Reasons for change

The committee believes that, when like kind property and an installment obligation are received, the like kind property should not be treated as payment in order to achieve the basic purpose of installment sale reporting, i.e., gain should be recognized as cash (and other property with respect to which gain is recognized) is received.

Explanation of provision

Under the bill, property permitted to be received without recognition of gain in an exchange described in Code section 1031(b)[25] will not be treated as payment for purposes of reporting income under the installment method.

Thus, in reporting the gain on the exchange under the installment method where an installment obligation is received in addition to the like kind property, the gross profit will be the amount of gain which will be recognized on the exchange if the installment obligation were satisfied in full at its face amount. Also, the total contract price will not include the value of the like kind property but instead will consist solely of the sum of the money and fair market value of other property received plus the face amount of the installment obligation.

The basis of the like kind property received, (determined under section 1031(d)) will be determined as if the obligation had been [20] satisfied at its face amount.[26] Thus, the taxpayer's basis in the property transferred will first be allocated to the like kind property received (but not in excess of its fair market value) and any remaining basis will be used to determine the gross profit ratio.

The bill also provides that similar treatment applies in the case of an exchange under a plan of corporate reorganization described in section 356(a) which is not treated as a dividend.

These provisions may be illustrated by the following example. Assume that the taxpayer exchanges property with a basis of $400,000 for like kind property worth $200,000, and an installment obligation for $800,000 with $100,000 payable in the taxable year of the sale and the balance payable in the succeeding taxable year. The example compares present law, which takes like kind property into account as payment, with the bill which reverses this rule.

	Rev. Rul. 65-155— Like kind property taken into account	*Like kind property not taken into account*
Contract price	$1,000,000	$800,000
Gross profit	600,000	600,000
Gross profit ratio (percent)	(60)	(75)
Gain to be reported for:		
1. Taxable year of sale:		
(a) 60% of $300,000 (payments "received" of $100,000 cash and $200,000 value of like property)	180,000	
(b) 75% of $100,000 (cash payments)		75,000
2. Succeeding taxable year:		
(a) 60% of $700,000 (cash received)	420,000	
(b) 75% of $700,000 (cash received)		525,000
Total gain recognized	600,000	600,000
3. Basis of like kind property received	200,000	200,000

I. Installment Obligations Distributed in a 12-Month Corporate Liquidation (sec. 2 of the bill and new sec. 453(h) of the Code)

Present law

Under present law, gain or loss is not generally recognized at the corporate level for sales and exchanges occurring during the 12-month [21] period after the corporation has elected a plan of complete liquidation (Code sec. 337). A special rule provides that in this situation gain or loss generally is not recognized to the liquidating corporation for distributions of installment obligations (Code sec. 453(d)

[24] Rev. Rul. 65-155, 1965-1 C.B. 356; *Clinton H. Mitchell*, 42 T.C. 953, 965 (1964); *Albert W. Turner*, TC Memo 1977-437. A similar case under present law involves the treatment of an installment obligation received as "boot" in exchange by a shareholder under a plan of corporate reorganization (sec. 356(a)(1)). Present law is unclear whether the exchange qualifies for installment sale reporting.

[25] This provision includes like kind exchanges (sec. 1031), exchanges of certain insurance policies (sec. 1035), certain exchanges of stock of the same corporation (sec. 1036), and certain exchanges of United States obligations (sec. 1037).

[26] This is the same rule as presently set forth in Rev. Rul. 65-155, *supra*.

(4)(B)). Gain or loss is recognized by the shareholders with respect to the liquidating distributions. No special exception applies for the distribution of installment obligations to shareholders so that the shareholders may defer reporting gain from the obligations.

Reasons for change

The committee believes that the treatment of a shareholder receiving installment obligations from a liquidating corporation should be generally similar to the treatment accorded a shareholder selling stock to an unrelated third party purchaser on the installment method. The bill is intended to facilitate the purchase of a corporate business by providing similar installment treatment to the seller whether or not the corporate assets or stock in the corporation is sold.

Explanation of provision

Under the bill, in the case of a corporate liquidation the receipt by a shareholder (under Code sec. 331) of an installment obligation which was received by the corporation during its 12-month liquidation period (under Code sec. 337) generally will not be treated as the receipt of payment by the shareholder.[27] Instead, the shareholder may report gain from the exchange of stock on the installation method, taking gain into account as payments are received on the installment obligation received as a liquidating distribution. Where a parent liquidating corporation had a subsidiary which received an obligation during the subsidiary's liquidation (to which sec. 337(c)(3) applied) that obligation also will qualify for installment reporting by the shareholders of the parent corporation. However, in no event will obligations received by the liquidating corporation from the sale of inventory, other than from the bulk sale, qualify for installment treatment by the shareholder.

Where liquidating distributions are received by a shareholder in more than one taxable year, the shareholder will be required to recompute the gain reported from the liquidation by allocating basis in the stock pro rata over all payments received (or to be received). This may require amended returns if all of the liquidating distributions are not received during the same taxable year of the shareholder.

The following example will illustrate the operation of this rule. Assume that the taxpayer is the sole shareholder of a corporation with an adjusted basis of $200,000 in the stock (all of the stock (all of the stock having been acquired in the same transaction at the same cost), and is a calendar year taxpayer. Also, assume that the corporation adopts a plan of liquidation in July 1982, that the corporation sells all of its assets in August 1982 to an unrelated purchaser for $1 million, consisting of [22] $250,000 in cash and an installment note for $750,000, that the entire gain qualifies for nonrecognition under section 337, that there is no imputed interest income or original issue discount, that the corporation distributes the cash in November 1982 and that the note is distributed in complete liquidation in June 1983. The taxpayer would initially report a gain of $50,000 in 1982 ($250,000 cash received less $200,000 basis in the stock).

After the distribution of the note in 1983, under the installment method, the taxpayer would recompute the gain reported in 1982 by allocating basis according to the installment sales rules. Thus, 75 percent ($750,000 (face amount of installment obligation) divided by $1 million (total distribution)) of the taxpayer's basis in the stock, or $150,000 (75 percent times $200,000) would be allocated to the installment obligation. Further, 25 percent ($250,000 divided by $1 million) of the taxpayer's basis in the stock or $50,000 (25 percent times $200,000) is allocated to the distribution of the cash. The taxpayer thus is required to file an amended return for 1982 to reflect an additional $150,000 of gain (cash received of $250,000 less the sum of $50,000 basis and $50,000 gain initially reported). Eighty percent of each payment on the note (other than interest) must be reported as gain by the taxpayer (gain of $600,000 ($750,000 face amount of obligation less basis of $150,000) divided by $750,000 (contract price)).

Under the bill, nonrecognition treatment will not be available to the extent the obligation is attributed to a sale of depreciable property by the corporation if the installment purchaser is either the shareholder-distributee's spouse, or a corporation or a partnership which is 80-percent owned by the shareholder-distributee and/or his spouse.[28] This provision applies if the property sold by the corporation is depreciable in the hands of the purchaser. Under the provision, gain will be recognized by the shareholder for his taxable year in which the installment obligation is distributed.

Finally, if another related party (a person who is not covered by the preceding special recognition rule but who is related within the meaning of new sec. 453(f)(1)) purchases the corporate assets and then disposes of them, the related party disposition rules (as previously described under part F of this report) will apply to the shareholder who received the related party's installment obligations as a liquidating distribution. In other words, in these cases, the shareholder-distributee will be substituted for the liquidated corporation for purposes of applying the related party resale rules provided under the bill.

[27] This treatment will apply to the target company in an acquisition if it is treated as having liquidated under Code section 337 (Rev. Rul. 69-6, 1969-1 C.B. 104). Further, in the case of a corporate acquisition involving the use of a "transitory" or "phantom" company, the obligations issued by the acquiring parent company would be considered issued by the "purchaser", although the assets of the acquired company are technically transferred to the transitory company set up to effect the acquisition, if that company is disregarded for Federal tax purposes under present law.

[28] In the case of transactions which are governed by the doctrine of liquidation-reincorporation under present law, the tax treatment for those transactions would continue to be governed by present law and would not be affected by this provision.

J. Sales Subject to a Contingency (sec. 2 of the bill and new sec. 453(i) of the Code)

Present law

As a general rule, installment reporting of gain from deferred payments is not available where all or a portion of the selling price is subject to a contingency. The case law holds that the selling price must be fixed and determinable for section 453(b) to apply.[29] An agreement, however, to indemnify the purchaser for breach of certain [23] warranties and representations by offset against the purchase price will not disqualify an installment sale under section 453(b).[30] Exactly how broad such contingencies can be is unclear.

Where an installment sale is subject to a contingency with respect to the price and the installment method is not available, the taxpayer is required to recognize all of the gain in the year of the sale with respect to all of the payments to be made, even though such payments are payable in future taxable years. In the case of a cash-method taxpayer where the future payments have no readily ascertainable fair market value, the taxpayer may treat the transaction with respect to those payments as "open" and use the cost-recovery method under *Burnet* v. *Logan,* 2830 U.S. 404 (1931).

Reasons for change

The committee believes that a taxpayer should be permitted to report gain from a deferred payment sale under the installment method even if the selling price may be subject to some contingency.

Explanation of provision

The bill permits installment sale reporting for sales for a contingent selling price. In extending eligibility, the bill does not prescribe specific rules for every conceivable transaction. Rather, the bill provides that specific rules will be prescribed under regulations.

However, it is intended that, for sales under which there is a stated maximum selling price, the regulations will permit basis recovery on the basis of a gross profit ratio determined by reference to the stated maximum selling price. For purposes of this provision, incidental or remote contingencies are not to be taken into account in determining if there is a stated maximum selling price. In general, the maximum selling price would be determined from the "four corners" of the contract agreement as the largest price which could be paid to the taxpayer assuming all contingencies, formulas, etc., operate in the taxpayer's favor. Income from the sale would be reported on a pro rata basis with respect to each installment payment using the maximum selling price to determine the total contract price and gross profit ratio. If, pursuant to standards prescribed by regulations, it is subsequently determined that the contingency will not be satisfied in whole or in part, thus reducing the maximum selling price, the taxpayer's income from the sale would be recomputed. The taxpayer would then report reduced income, as adjusted, with respect to each installment payment received in the taxable year of adjustment and subsequent taxable years. If the maximum price is reduced in more than one taxable year, *e.g.,* because of successive changes in the status of the contingency, each such year of reduction would constitute an adjustment year.

Where the taxpayer has reported more income from installment payments received in previous taxable years than the total recomputed income, the taxpayer would be permitted to deduct the excesses in the adjustment year as a loss.

In cases where the sales price is indefinite and no maximum selling price can be determined but the obligation is payable over a fixed period of time, it is generally intended that basis of the property sold would be recovered ratably over that fixed period. In a case where the selling price and payment period are both indefinite but a sale has in [24] fact occurred, it is intended that the regulations would permit ratable basis recovery over some reasonable period of time. Also, in appropriate cases, it is intended that basis recovery would be permitted under an income forecast type method.[31]

The creation of a statutory deferred payment option for all forms of deferred payment sales significantly expands the availability of installment reporting to include situations where it has not previously been permitted. By providing an expanded statutory installment reporting option, the Committee believes that in the future there should be little incentive to devise convoluted forms of deferred payment obligations to attempt to obtain deferred reporting. In any event, the effect of the new rules is to reduce substantially the justification for treating transactions as "open" and permitting the use of the cost-recovery method sanctioned by *Burnet* v. *Logan,* 283 U.S. 404 (1931). Accordingly, it is the Committee's intent that the cost-recovery method not be available in the case of sales for a fixed price (whether the seller's obligation is evidenced by a note, contractual promise, or otherwise), and that its use be limited to those rate and extraordinary cases in-

[29] *Gralap* v. *United States,* 458 F.2d 1158 (10th Cir. 1972); *In re Steen,* 509 F.2d 1398 (9th Cir. 1975).

[30] See Rev. Rul. 77-56, 1977-1 C.B. 135.

[31] In general, the income forecast method for basis recovery is considered appropriate for a transaction with respect to which it may be demonstrated that receipts will be greater for the earlier years of the payment period and then decline for the later years of the payment period. It is intended that the regulations will deal with the application of this method with respect to sales of property qualifying for depreciation under the income forecast method (e.g., movies), mineral rights when the selling price is based on production, a sale under which the amount payable to the seller is based on a declining percentage of the purchaser's revenues, and similar sales. In developing these regulations, the committee intends that the Treasury Department will prescribe rules for this method to avoid, whenever possible, leaving a seller with an unrecovered basis in the obligation, and thereby creating a capital loss, after the final payment is received. For qualifying transactions, a more rapid basis recovery under this method is to be allowed even if there is a fixed period over which payments are to be received.

volving sales for a contingent price where the fair market value of the purchaser's obligation cannot reasonably be ascertained.

K. Election of Installment Method by Accrual Method Dealer (sec. 2 of the bill and secs. 453(c) and 481(d) of the Code)

Present law

Under present law (Code sec. 453 (c)), an accrual basis dealer in personal property who elects to change to the installment method of accounting must include in income the gain attributable to payments received with respect to sales which had been included in income for taxable years prior to electing the installment method. In mitigation for double inclusion of income from the sales, an adjustment to tax is permitted. However, the amount of the adjustment is limited to the lesser of the portion of income tax attributable to inclusion in income for the taxable year of sale or the portion of income tax attributable to inclusion of the gross profit for the taxable year in which installment payments are received. The formula for determining the tax "attributable to" the inclusion of the gain in income results in a higher total tax for both years taken together than if the gain had been reported only once.

Reasons for change

The committee believes that the mechansim for adjustment of tax under present law imposes unnecessary complexities upon dealers who [25] elect the installment method of reporting. Further, the committee believes that previously reported gains should not have to be reported for another taxable year because the second inclusion in income is a form of double taxation, notwithstanding the tax adjustments permitted under present law.

Explanation of provision

Under the bill, an accrual method dealer who elects the installment method of reporting will report gain as payments are received only for sales made on or after the effective date of the installment method election (Code sec. 481(a)).

It is intended that, under Treasury regulations, a failure to report the full amount of gain from sales may be treated as an election of the installment method. For example, it is intended that a dealer, who treats a transaction as a lease of personal property and only reports the payments received as rental income, may be eligible for installment reporting under the regulations if the transaction is recharacterized as a sale rather than a lease in an audit by the Internal Revenue Service. However, it is intended that no taxpayer who has reported sales under the accrual method will be required to change from that method under the regulations.

L. Transfers of Installment Obligations to Life Insurance Companies (sec. 2 of the bill and new sec. 453B(e)(2) of the Code)

Present law

Generally, under present law, any unreported gain must be recognized when a taxpayer disposes of an installment obligation. However, in the case of certain tax-free transfers, disposition of an installment obligation will not trigger the recognition of gain. In these cases, the transferee succeeds to the basis of the installment seller and reports the remaining gain as payments are received. Under a special rule (Code sec. 453(d)(5)), transfers of installment obligations to a life insurance company are not eligible for nonrecognition treatment for otherwise tax-free transfers.

Reasons for change

The committee believes that transfers of installment obligations to life insurance companies should be eligible for the same nonrecognition treatment provided for transfers to other taxpayers if any remaining gain will be taken into account by the life insurance company as taxable investment income.

Explanation of provision

Under the bill, the special disposition rules for transfers of obligations to a life insurance company will not apply if the life insurance company elects to report any remaining gain as investment income (under Code sect. 804 (b)) as payments are received.

M. Cancellation of Installment Obligation (sec. 2 of the bill and new sec. 453B(f) of the Code)

Present law

Under present law, some have argued that the installation obligation disposition rules can be avoided by making gift cancellations of the obligation or the installments as they come due. In other words, by making an installment sale and then cancelling the obligation or a [26] number of installment payments, it is argued that the seller will incur no income tax liability, but possibly some gift taxes, and the buyer will have a cost basis in the property sold although no income tax cost will have been incurred on the transaction. If a direct gift is made, the donee's basis is generally the same as the donor's basis rather than a "cost" basis which reflects future payments which will never be made.

This cancellation technique is based on a District Court's decision in *Miller* v. *Usry*.[32] In that case, the court held that the disposition rules for obligations disposed of other than by sale or exchange were directed at corporate transfers and should not be applied to a cancellation of the obligation where there has been no actual, real, or material gain to the taxpayer. The court did not consider the possible benefit to the donee from acquiring a cost basis through the installment sale. Next, the court held that the disposition rules for satisfaction at other than face value did apply to a cancellation but no tax

[32] 160 F. Supp. 368, 58-1 USTC ¶ 9393 (W.D. La. 1958).

was incurred because no amount was realized by the taxpayer.

Reasons for change

The committee believes that present law should be clarified to make it clear that the installment obligation disposition rules cannot be circumvented by cancelling the obligation.

Explanation of provision

The bill makes it clear that the cancellation of an installment obligation is treated as a disposition of the obligation. In the case where the obligor is a related party, the amount taken into account as a disposition triggering recognition of unreported gain attributable to the obligation is not to be less than the face amount of the installment obligation.

N. Bequest of Obligation to Obligor (sec. 3 of the bill and new sec. 691(a)(5) of the Code)

Present law

Under present law, the installment obligation disposition rules do not apply to the transmission of installment obligations at death (Code secs. 453(d)(3) and 691(a)(4)). However, unreported gains, attributable to installment obligations are treated as items of gross income in respect of a decedent so that the recipient in taxed upon receipt of the installment payments in the same manner as the deceased seller would have been had he lived to receive the payments. A special rule allows a deduction for the estate taxes attributable to the unreported gain on the installment obligation (Code sec. 691(c)).

Another provision (Code sec. 691(a)(2)) provides that the transfer of an installment obligation to the estate of the deceased seller will not be treated as a transfer requiring the reporting of gain. In addition, this rule applies to a transfer to a person pursuant to the right of such person to receive the installment obligation by reason of the death of the seller or by bequest, devise, or inheritance from the seller.

Reasons for change

Because of these rules, it has been argued that any unreported gain remaining at the death of the seller will never be taxed if the installment obligation is left to the obligor. In this case, it is argued that [27] there will never be a disposition or collection of the unpaid balance because there has been a merger of interests of obligor and obligee. In other words, the obligor will have acquired a cost basis for depreciation and resale purposes prior to the seller's death, but no income tax cost will have been incurred with respect to the gain unreported by the seller at the time of his death.

The committee believes that present law should be clarified so that the installment obligation disposition rules apply with respect to a cancellation by reason of death of the holder of the obligation.

Explanation of provision

The bill provides that any previously unreported gain from an installment sale will be recognized by a deceased seller's estate if the obligation is transferred or transmitted by bequest, devise, or inheritance to the obligor or is cancelled by the executor.

In the absence of some act of cancelling the obligation by distribution or notation which results in cancellation under the Uniform Commercial Code or other local law, the disposition will be considered to occur no later than the time the period of administration of the estate is concluded.

If the cancellation occurs at the death of the holder of the obligation, the cancellation is to be treated as a transfer by the estate of the decedent. However, if the obligation were held by a person other than the decedent, such as a trust, the cancellation will be treated as a transfer immediately after the decedent's death by that person.

If the decedent and the obligor were related persons (within the meaning of new Code section 453(f)(1)), the fair market value of the obligation for disposition purposes is not to be treated as less than its face amount.

For purposes of this provision, if an installment obligation becomes unenforceable, it will be treated as if it were cancelled.

O. Foreclosure of Real Property Sold on Installment Method by Deceased Taxpayer (sec. 4 of the bill and sec. 1038 of the Code)

Present law

Under present law, the recognition of gain upon a reconveyance of real property to the seller in partial or full satisfaction of purchase money debt is limited (Code sec. 1038). Losses, including bad debt losses, are also not recognized upon a reconveyance of real property. With respect to gains, the amount of gain required to be recognized upon reconveyance of the real property sold generally is limited to the lesser of the amount of any remaining unreported portion of the original gain or the amount by which the sum of the money and fair market value of property received prior to the reacquisition exceeds the amount of gain previously reported. The Internal Revenue Service has ruled that this provision does not apply to a reconveyance to the estate of a deceased taxpayer who made the original sale (Rev. Rul. 69-83, 1969-1, C.B. 202). In other words, a decedent's estate is not permitted to succeed to the tax treatment which would have been available to the decedent had he lived to receive, the reconveyance because the estate is considered to be a separate taxable entity.

Reasons for change

The committee believes that a decedent's estate (or other person inheriting a decedent's installment obligation) should be entitled to [28] the same limitations on recognition of gain upon the reconveyance of real property in satisfaction of an obligation to which the decedent would have been entitled if the decedent had survived.

Explanation of provision

Under the bill, the estate or beneficiary of a deceased seller will be entitled to the same nonrecognition treatment upon the acquisition of real property in partial or full satisfaction of secured purchase money debt as the deceased seller would have been entitled.

The basis of the property acquired will be the same as if the property had been reacquired by the original seller, increased by an amount equal to the section 691(c) deduction for estate taxes which would have been allowable had the repossession been taxable.

The committee intends that no inference is to be drawn from this provisions as to the application of present law.

P. Character of Gain from Sales of Depreciable Property Between Related Parties

(Sec. 5 of the bill and sec. 1239 of the Code)

Present law

Under present law, gain from the sale or exchange of depreciable property between certain related parties is denied capital gains treatment (and is taxed as ordinary income). Related parties include husband and wife, an individual and an 80-percent controlled corporation, and two 80-percent controlled corporations. The attribution rules of Code section 318 are generally applied to determine ownership in a corporation.

Reasons for change

The committee believes that the same related party rules should apply with respect to the characterization of income from sales of depreciable property between a husband and wife or their controlled entity and to the special installment sale rules for sales of depreciable property between husband and wife, or their controlled entity. For these purposes, the committee also believes that the attribution of ownership rules should be narrowed to exclude family members other than husband and wife.

Explanation of provision

Under the bill, the provision of section 1239(a) denying capital gain treatment on the sale or exchange of depreciable property will apply to sales between husband and wife, between the taxpayer and a partnership or corporation which is 80-percent owned by the taxpayer and/or the taxpayer's spouse; and between partnerships and corporations which are 80-percent owned by the taxpayer and/or the taxpayer's spouse. For these purposes, the person treated as the owner of a trust under the grantor trust rules is to be treated as the owner of the assets in the trust.

Under the provision, ownership, is to be attributed in accordance with the principles under the general corporate ownership attribution rules (Code sec. 318) except that an individual's family will only include a spouse and the entity attribution rules will be applied without regard to the percentage of ownership limitations.

[29] Q. Effective Date (sec. 6 of the bill)

In general, the provisions of the bill are effective for dispositions of property, cancellations and reacquisitions of real property, as the case may be, occurring after the date of enactment. The provisions which eliminate the 30-percent initial payment and the two or more payments requirements are effective for transactions occurring in taxable years ending after the date of enactment.

However, the related party installment sale rules would apply to installment sales (first dispositions) after May 14, 1980. The provision relating to the distribution of installment obligations in connection with a 12-month corporate liquidation would apply with respect to installment obligations distributed after March 31, 1980. (A liquidating distribution made after March 31, 1980, will qualify for nonrecognition treatment to a shareholder even if the obligation is from a sale which is ineligible for installment reporting by the corporation because the sale occurred before the effective date of the other rules revised or eliminated under the bill.)

Public Law 96-499
96th Congress, H.R. 7765[1]
December 5, 1980

An Act to provide for reconciliation pursuant to section 3 of the First Concurrent Resolution on the Budget for the fiscal year 1981.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—SHORT TITLE AND DECLARATION OF PURPOSE

SHORT TITLE

SECTION 101. This Act may be cited as the "Omnibus Reconciliation Act of 1980".

* * * * *

TITLE III—STUDENT LOAN PROGRAMS

* * * * *

DISCLOSURE OF LOCATION OF BORROWERS WHO HAVE DEFAULTED ON STUDENT LOANS

SEC. 302. (a) Paragraph (4) of section 6103(m) of the Internal Revenue Code of 1954 (relating to individuals who have defaulted on student loans) is amended to read as follows:

"(4) INDIVIDUALS WHO HAVE DEFAULTED ON STUDENT LOANS.—

"(A) IN GENERAL.—Upon written request by the Secretary of Education, the Secretary may disclose the mailing address of any taxpayer who has defaulted on a loan—

"(i) made under part B or E of title IV of the Higher Education Act of 1965, or

[1] This publication of the law, House Report No. 96-1167, page 530, and Conference Report No. 96-1479, page 575, is restricted to excerpts involving tax matters.

"(ii) made pursuant to section 3(a)(1) of the Migration and Refugee Assistance Act of 1962 to a student at an institution of higher education,

for use only by officers, employees, or agents of the Department of Education for purposes of locating such taxpayer for purposes of collecting such loan.

"(B) DISCLOSURE TO EDUCATIONAL INSTITUTIONS, ETC.—Any mailing address disclosed under subparagraph (A)(i) may be disclosed by the Secretary of Education to—

"(i) any lender, or any State or nonprofit guarantee agency, which is participating under part B of title IV of the Higher Education Act of 1965, or

"(ii) any educational institution with which the Secretary of Education has an agreement under part E of title IV of such Act,

for use only by officers, employees, or agents of such lender, guarantee agency, or institution whose duties relate to the collection of student loans for purposes of locating individuals who have defaulted on student loans made under such loan programs for purposes of collecting such loans.".

(b) The first sentence of section 7213(a)(2) of such Code (relating to unauthorized disclosure of information by State and other employees) is amended to read as follows: "It shall be unlawful for any person (not described in paragraph (1)) willfully to disclose to any person, except as authorized in this title, any return or return information (as defined in section 6103(b)) acquired by him or another person under subsection (d), (l)(6) or (7), or (m)(4) of section 6103.".

(c) The amendments made by subsections (a) and (b) of this section shall take effect on the date of the enactment of this Act.

Subtitle C—Unemployment Compensation Provisions

TERMINATION OF PROVISIONS PROVIDING REIMBURSEMENT FOR UNEMPLOYMENT BENEFITS PAID ON THE BASIS OF PUBLIC SERVICE EMPLOYMENT

SEC. 1021. Part B of title II of the Emergency Jobs and Unemployment Assistance Act of 1974 is amended by adding at the end thereof the following new section:

"TERMINATION

"SEC. 224. Notwithstanding any other provision of this part, the term 'public service wages' shall not include remuneration for services performed in weeks which begin after the date of the enactment of this section."

WAITING PERIOD FOR BENEFITS

SEC. 1022. (a) Section 204(a)(2) of the Federal-State Extended Unemployment Compensation Act of 1970 [Pub. L. 91-373, 1970-2 C.B. 355, 357] is amended—

(1) by inserting "(A)" after "compensation", and

(2) by inserting immediately before the period the following: ", or (B) paid for the first week in an individual's eligibility period for which extended compensation or sharable regular compensation is paid, if the State law of such State provides for payment (at any time or under any circumstances) of regular compensation to an individual for his first week of otherwise compensable unemployment".

(b)(1) Except as provided in paragraph (2), the amendments made by this section shall apply in the case of compensation paid to individuals during eligibility periods beginning on or after the date of the enactment of this Act.

(2) In the case of a State with respect to which the Secretary of Labor has determined that State legislation is required in order to eliminate its current policy of paying regular compensation to an individual for his first week of otherwise compensable unemployment, the amendments made by this section shall apply in the case of compensation paid to individuals during eligibility periods beginning after the end of the first regularly scheduled session of the State legislature ending more than thirty days after the date of the enactment of this Act.

BENEFITS ON ACCOUNT OF FEDERAL SERVICE TO BE PAID BY EMPLOYING FEDERAL AGENCY

SEC. 1023. (a) Title IX of the Social Security Act is amended by adding at the end thereof the following new section:

"FEDERAL EMPLOYEES COMPENSATION ACCOUNT

"SEC. 909. There is hereby established in the Unemployment Trust Fund a Federal Employees Compensation Account which shall be used for the purposes specified in section 8509 of title 5, United States Code. For the purposes provided for in section 904(e), such account shall be maintained as a separate book account.".

(b) Subchapter I of chapter 85, title 5, United States Code, is amended by adding at the end thereof the following new section:

"§ 8509. Federal Employees Compensation Account

"(a) The Federal Employees Compensation Account (as established by section 909 of the Social Security Act, and hereafter in this section referred to as the 'Account') in the Unemployment Trust Fund (as established by section 904 of such Act) shall consist of—

"(1) funds appropriated to or transferred thereto, and

"(2) amounts deposited therein pursuant to subsection (c).

"(b) Moneys in the Account shall be available only for the purpose of making payments to States pursuant to agreements entered into under this subchapter and making payments of compensation under this subchapter in States which do not have in effect such an agreement.

"(c)(1) Each employing agency shall deposit into the Account amounts equal to the expenditures incurred under this subchapter on account of Federal service performed by employees and former employees of that agency.

"(2) Deposits required by paragraph (1) shall be made during each

calendar quarter and the amount of the deposit to be made by any employing agency during any quarter shall be based on a determination by the Secretary of Labor as to the amounts of payments, made prior to such quarter from the Account based on Federal service performed by employees of such agency after December 31, 1980, with respect to which deposit has not previously been made. The amount to be deposited by any employing agency during any calendar quarter shall be adjusted to take account of any overpayment or underpayment of deposit during any previous quarter for which adjustment has not already been made.

"(d) The Secretary of Labor shall certify to the Secretary of the Treasury the amount of the deposit which each employing agency is required to make to the Account during any calendar quarter, and the Secretary of the Treasury shall notify the Secretary of Labor as to the date and amount of any deposit made to such Account by any such agency.

"(e) Prior to the beginning of each fiscal year (commencing with the fiscal year which begins October 1, 1981) the Secretary of Labor shall estimate—

"(1) the amount of expenditures which will be made from the Account during such year, and

"(2) the amount of funds which will be available during such year for the making of such expenditures,

and if, on the basis of such estimate, he determines that the amount described in paragraph (2) is in excess of the amount necessary—

"(3) to meet the expenditures described in paragraph (1), and

"(4) to provide a reasonable contingency fund so as to assure that there will, during all times in such year, be sufficient sums available in the Account to meet the expenditures described in paragraph (1),

he shall certify the amount of such excess to the Secretary of the Treasury and the Secretary of the Treasury shall transfer, from the Account to the general fund of the Treasury, an amount equal to such excess.

"(f) The Secretary of Labor is authorized to establish such rules and regulations as may be necessary or appropriate to carry out the provisions of this section.

"(g) Any funds appropriated after the establishment of the Account, for the making of payments for which expenditures are authorized to be made from moneys in the Account, shall be made to the Account; and there are hereby authorized to be appropriated to the Account, from time to time, such sums as may be necessary to assure that there will, at all times, be sufficient sums available in the Account to meet the expenditures authorized to be made from moneys therein.".

(c) All funds apprpopriated which are available for the making of payments to States after December 31, 1980, pursuant to agreements entered into under subchapter I of chapter 85 of title 5, United States Code, or for the making of payments after such date of compensation under such subchapter in States which do not have in effect such an agreement, shall be transferred on January 1, 1981, to the Federal Employees Compensation Account established by section 909 of the Social Security Act. On and after such date, all payments described in the preceding sentence shall be made from such Account as provided by section 8509 of title 5, United States Code.

LIMITATION ON EXTENDED UNEMPLOYMENT COMPENSATION PROGRAM

SEC. 1024. (a) Section 202(a) of the Federal-State Extended Unemployment Compensation Act of 1970 [Pub. L. 91-373, 1970-2 C.B. 355] is amended by adding at the end thereof the following new paragraphs:

"(3)(A) Notwithstanding the provisions of paragraph (2), payment of extended compensation under this Act shall not be made to any individual for any week of unemployment in his eligibility period—

"(i) during which he fails to accept any offer of suitable work (as defined in subparagraph (c)) or fails to apply for any suitable work to which he was referred by the State agency; or

"(ii) during which he fails to actively engage in seeking work.

"(B) If any individual is ineligible for extended compensation for any week by reason of a failure described in clause (i) or (ii) of subparagraph (A), the individual shall be ineligible to receive extended compensation for any week which begins during a period which—

"(i) begins with the week following the week in which such failure occurs, and

"(ii) does not end until such individual has been employed during at least 4 weeks which begin after such failure and the total of the remuneration earned by the individual for being so employed is not less than the product of 4 multiplied by the individual's average weekly benefit amount (as determined for purposes of subsection (b)(1)(c)) for his benefit year.

"(C) For purposes of this paragraph, the term 'suitable work' means, with respect to any individual, any work which is within such individual's capabilities; except that, if the individual furnishes evidence satisfactory to the State agency that such individual's prospects for obtaining work in his customary occupation within a reasonably short period are good, the determination of whether any work is suitable work with respect to such individual shall be made in accordance with the applicable State law.

"(D) Extended compensation shall not be denied under clause (i) of subparagraph (A) to any individual for any week by reason of a failure to accept an offer of, or apply for, suitable work—

"(i) if the gross average weekly remuneration payable to such individual for the position does not exceed the sum of—

"(I) the individual's average weekly benefit amount (as determined for purposes of subsection (b)(1)(C)) for his benefit year, plus

"(II) the amount (if any) of supplemental unemployment compensation benefits (as defined in section 501(c)(17)(D) of the Internal Revenue Code of 1954) payable to such individual for such week;

"(ii) if the position was not offered to such individual in writing and was not listed with the State employment service;

"(iii) if such failure would not result in a denial of compensation under the provisions of the applicable State law to the extent that such provisions are not inconsistent with the provisions of subparagraphs (C) and (E); or

"(iv) if the position pays wages less than the higher of—

"(I) the minimum wage provided by section 6(a)(1) of the Fair Labor Standards Act of 1938, without regard to any exemption; or

"(II) any applicable State or local minimum wage.

"(E) For purposes of this paragraph, an individual shall be treated as actively engaged in seeking work during any week if—

"(i) the individual has engaged in a systematic and sustained effort to obtain work during such week, and

"(ii) the individual provides tangible evidence to the State agency that he has engaged in such an effort during such week.

"(F) For purposes of section 3304(a)(11) of the Internal Revenue Code of 1954, a State law shall provide for referring applicants for benefits under this Act to any suitable work to which clauses (i), (ii), (iii), and (iv) of subparagraph (D) would not apply.

"(4) No provision of State law which terminates a disqualification for voluntarily leaving employment, being discharged for misconduct, or refusing suitable employment shall apply for purposes of determining eligibility for extended compensation unless such termination is based upon employment subsequent to the date of such disqualification.

"(5) No payment shall be made under this Act to any State in respect of any sharable regular compensation paid to any individual for any week if, under the rules of paragraphs (3) and (4), extended compensation would not have been payable to such individual for such week.".

(b) The amendment made by this section shall apply with respect to weeks of unemployment beginning after March 31, 1981.

CERTIFICATION OF STATE UNEMPLOYMENT LAWS

SEC. 1025. On October 31 of any taxable year after 1980, the Secretary of Labor shall not certify any State, as provided in section 3304(c) of the Internal Revenue Code of 1954, which, after reasonable notice and opportunity for a hearing to the State agency, the Secretary of Labor finds has failed to amend its law so that it contains each of the provisions required by reason of the enactment of the preceding provisions of this subtitle to be included therein, or has with respect to the 12-month period ending on such October 31, failed to comply substantially with any such provision.

ADDITIONAL SAVINGS

SEC. 1026. For provisions of law which reduce spending for fiscal year 1981 under the unemployment compensation program in satisfaction of reconciliation requirements imposed by sections 3(a)(8) and 3(a)(15) of H. Con. Res. 307 (96th Congress), see section 415 and 416 of the Multiemployer Pension Plan Amendments Act of 1980 (Public Law 96-364 [1980-51 I.R.B. 14]).

TITLE XI—REVENUE MEASURES

SEC. 1100. SHORT TITLE.

This title may be cited as the "Revenue Adjustments Act of 1980".

Subtitle A—Housing Bonds

SEC. 1101. SHORT TITLE.

This substitle may be cited as the "Mortgage Subsidy Bond Tax Act of 1980".

SEC. 1102. MORTGAGE SUBSIDY BONDS.

(a) IN GENERAL.—Part III of subchapter B of chapter 1 of the Internal Revenue Code of 1954 (relating to items specifically excluded from gross income) is amended by inserting after section 103 the following new section:

"SEC. 103A. MORTGAGE SUBSIDY BONDS.

"(a) GENERAL RULE.—Except as otherwise provided in this section, any mortgage subsidy bond shall be treated as an obligation not described in subsection (a)(1) or (2) of section 103.

"(b) MORTGAGE SUBSIDY BOND DEFINED.—

"(1) IN GENERAL.—For purposes of this title, the term 'mortgage subsidy bond' means any obligation which is issued as part of an issue a significant portion of the proceeds of which are to be used directly or indirectly for morgtgages on owner-occupied residences.

"(2) EXCEPTIONS.—The following shall not be treated as mortgage subsidy bonds:

"(A) any qualified mortgage bond; and

"(B) any qualified veterans' mortgage bond.

"(c) QUALIFIED MORTGAGE BOND; QUALIFIED MORTGAGE ISSUE; QUALIFIED VETERANS' MORTGAGE BOND.—

"(1) QUALIFIED MORTGAGE BOND DEFINED.—

"(A) IN GENERAL.—For purposes of this title, the term 'qualified mortgage bond' means an obligation which is issued as part of a qualified mortgage issue.

"(B) TERMINATION DECEMBER 31, 1983.—No obligation issued after December 31, 1983, may be treated as a qualified mortgage bond.

"(2) QUALIFIED MORTGAGE ISSUE DEFINED.—

"(A) DEFINITION.—For purposes of this title, the term 'qualified mortgage issue' means an issue by a State or political subdivision thereof of 1 or more obligations, but only if—

"(i) all proceeds of such issue (exclusive of issuance costs and a reasonably required reserve) are to be used to finance owner-occupied residences, and

"(ii) such issue meets the requirements of subsections (d), (e), (f), (g), (h), (i), and (j).

"(B) GOOD FAITH EFFORT TO COMPLY WITH MORTGAGE ELIGIBILITY REQUIREMENTS.—An issue which fails to meet 1 or more of the requirements of subsections (d), (e), and (f) and paragraphs (2) and (3) of subsection (j) shall be treated as meeting such requirements if—

"(i) the issuer in good faith attempted to meet all such requirements before the mortgages were executed,

"(ii) 95 percent or more of the proceeds devoted to owner-financing was devoted to residences with respect to which (at the time the mortgages were executed) all such requirements were met, and

"(iii) any failure to meet the requirements of such subsections and paragraphs is corrected within a reasonable period after such failure is first discovered.

"(C) GOOD FAITH EFFORT TO COMPLY WITH OTHER REQUIREMENTS.—An issue which fails to meet 1 or more of the requirements of subsections (g), (h), and (i), and paragraph (1) of subsection (j) shall be treated as meeting such requirements if—

"(i) the issuer in good faith attempted to meet all such requirements, and

"(ii) any failure to meet such requirements is due to inadvertent error after taking reasonable steps to comply with such requirements.

"(3) QUALIFIED VETERANS' MORTGAGE BOND DEFINED.—For purposes of this section, the term 'qualified veterans' mortgage bond' means any obligation—

"(A) which is issued in registered form as part of an issue substantially all of the proceeds of which are to be used to provide residences for veterans,

"(B) the payment of the principal and interest on which is secured by the general obligation of a State, and

"(C) which is part of an issue which meets the requirements of subsection (j)(2).

"(d) RESIDENCE REQUIREMENTS.—

"(1) FOR A RESIDENCE.—A residence meets the requirements of this subsection only if—

"(A) it is a single-family residence which can reasonably be expected to become the principal residence of the mortgagor within a reasonable time after the financing is provided, and

"(B) it is located within the jurisdiction of the authority issuing the obligation.

"(2) FOR AN ISSUE.—An issue meets the requirements of this subsection only if all of the residences for which owner-financing is provided under the issue meet the requirements of paragraph (1).

"(e) 3-YEAR REQUIREMENT.—

"(1) IN GENERAL.—An issue meets the requirements of this subsection only if each mortgagor to whom financing is provided under the issue had a present ownership interest in a principal residence of such mortgagor at no time during the 3-year period ending on the date the mortgage is executed. For purposes of the preceding sentence, the mortgagor's interest in the residence with respect to which the financing is being provided shall not be taken into account.

"(2) EXCEPTIONS.—Paragraph (1) shall not apply with respect to—

"(A) any financing provided with respect to a targeted area residence,

"(B) any qualified home improvement loan, and

"(C) any qualified rehabilitation loan.

"(f) PURCHASE PRICE REQUIREMENT.—

"(1) IN GENERAL.—An issue meets the requirements of this subsection only if the acquisition cost of each residence the owner-financing of which is to be provided under the issue does not exceed 90 percent of the average area purchase price applicable to such residence.

"(2) AVERAGE AREA PURCHASE PRICE.—For purposes of paragraph (1), the term 'average area purchase price' means, with respect to any residence, the average purchase price of single family residences (in the statistical area in which the residence is located) which were purchased during the most recent 12-month period for which sufficient statistical information is available. The determination under the preceding sentence shall be made as of the date on which the commitment to provide the financing is made (or, if earlier, the date of the purchase of the residence).

"(3) SEPARATE APPLICATION TO NEW RESIDENCES AND OLD RESIDENCES.—For purposes of this subsection, the determination of average area purchase price shall be made separately with respect to—

"(A) residences which have not been previously occupied, and

"(B) residences which have been previously occupied.

"(4) SPECIAL RULE FOR 2 TO 4 FAMILY RESIDENCES.—For purposes of this subsection, to the extent provided in regulations, the average area purchase price shall be made separately with respect to 1 family, 2 family, 3 family, and 4 family residences.

"(5) SPECIAL RULE FOR TARGETED AREA RESIDENCES.—In the case of a targeted area residence, paragraph (1) shall be applied by substituting '110 percent' for '90 percent'.

"(6) EXCEPTION FOR QUALIFIED HOME IMPROVEMENT LOANS.—Paragraph (1) shall not apply with respect to any qualified home improvement loan.

"(g) LIMITATION ON AGGREGATE AMOUNT OF QUALIFIED MORTGAGE BONDS ISSUED DURING ANY CALENDAR YEAR.—

"(1) IN GENERAL.—An issue meets the requirements of this subsection only if the aggregate amount of bonds issued pursuant thereto, when added to the aggregate amount of qualified mortgage bonds previously issued by the issuing authority during the calendar year, does not exceed the applicable limit for such authority for such calendar year.

"(2) APPLICABLE LIMIT FOR STATE

HOUSING AGENCY.—For purposes of this subsection—

"(A) IN GENERAL.—The applicable limit for any State housing finance agency for any calendar year shall be 50 percent of the State ceiling for such year.

"(B) SPECIAL RULE WHERE MORE THAN 1 AGENCY.—If any State has more than 1 State housing finance agency, all such agencies shall be treated as a single agency.

"(3) APPLICABLE LIMIT FOR OTHER ISSUERS.—For purposes of this subsection—

"(A) IN GENERAL.—The applicable limit for any issuing authority (other than a State housing finance agency) for any calendar year is an amount which bears the same ratio to 50 percent of the State ceiling for such year as—

"(i) the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family owner-occupied residences located within the jurisdiction of such issuing authority, bears to

"(ii) an average determined in the same way for the entire State.

"(B) OVERLAPPING JURISDICTIONS.—For purposes of subparagraph (A)(i), if an area is within the jurisdiction of 2 or more governmental units, such area shall be treated as only within the jurisdiction of the unit having jurisdiction over the smallest geographical area unless such unit agrees to surrender all or part of such jurisdiction for such calendar year to the unit with overlapping jurisdiction which has the next smallest geographical area.

"(4) STATE CEILING.—For purposes of this subsection, the State ceiling applicable to any State for any calendar year shall be the greater of—

"(A) 9 percent of the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family owner-occupied residences located within the jurisdiction of such State, or

"(B) $200,000,000.

"(5) SPECIAL RULE FOR STATES WITH CONSTITUTIONAL HOME RULE CITIES.—For purposes of this subsection—

"(A) IN GENERAL.—The applicable limit for any constitutional home rule city for any calendar year shall be determined under subparagraph (A) of paragraph (3) by substituting '100 percent' for '50 percent'.

"(B) COORDINATION WITH PARAGRAPHS (2) AND (3).—In the case of any State which contains 1 or more constitutional home rule cities, for purposes of applying paragraphs (2) and (3) with respect to issuing authorities in such State other than constitutional home rule cities, the State ceiling for any calendar year shall be reduced by the aggregate applicable limits determined for such year for all constitutional home rule cities in such State.

"(C) CONSTITUTIONAL HOME RULE CITY.—For purposes of this subsection, the term 'constitutional home rule city' means, with respect to any calendar year, any political subdivision of a State which, under a State constitution which was adopted in 1970 and effective on July 1, 1971, had home rule powers on the first day of the calendar year.

"(6) STATE MAY PROVIDE FOR DIFFERENT ALLOCATION.—

"(A) IN GENERAL.—Except as provided in subparagraph (C), a State may, by law enacted after the date of the enactment of this section, provide a different formula for allocating the State ceiling among the governmental units in such State having authority to issue qualified mortgage bonds.

"(B) INTERIM AUTHORITY FOR GOVERNOR.—

"(i) IN GENERAL.—Except as otherwise provided in subparagraph (C), the Governor of any State may proclaim a different formula for allocating the State ceiling among the governmental units in such State having authority to issue qualified mortgage bonds.

"(ii) TERMINATION OF AUTHORITY.—The authority provided in clause (i) shall not apply after the earlier of—

"(I) the first day of the first calendar year beginning after the first calendar year after 1980 during which the legislature of the State met in regular session, or

"(II) the effective date of any State legislation with respect to the allocation of the State ceiling enacted after the date of the enactment of this section.

"(C) STATE MAY NOT ALTER ALLOCATION TO CONSTITUTIONAL HOME RULE CITIES.—Except as otherwise provided in a State constitutional amendment (or law changing the home rule provision adopted in the manner provided by the State constitution), the authority provided in this paragraph shall not apply to that portion of the State ceiling which is allocated to any constitutional home rule city in the State unless such city agrees to such different allocation.

"(7) TRANSITIONAL RULES.—In applying this subsection to any calendar year, there shall not be taken into account any bond which, by reason of section 1104 of the Mortgage Subsidy Bond Tax Act of 1980, receives the same tax treatment as bonds issued on or before April 24, 1979.

"(h) PORTION OF LOANS REQUIRED TO BE PLACED IN TARGETED AREAS.—

"(1) IN GENERAL.—An issue meets the requirements of this subsection only if at least 20 percent of the proceeds of the issue which are devoted to providing owner-financing is made available (with reasonable diligence) for owner-financing of targeted area residences for at least 1 year after the date on which owner-financing is first made available with respect to targeted area residences.

"(2) LIMITATION.—Nothing in paragraph (1) shall be treated as requiring the making available of an amount which exceeds 40 percent of the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family owner-occupied residences located in targeted areas within the jurisdiction of the issuing authority.

"(i) REQUIREMENTS RELATED TO ARBITRAGE.—

"(1) IN GENERAL.—An issue meets the requirements of this subsection only if such issue meets the requirements of paragraphs (2), (3), and (4) of this subsection. Such requirements shall be in addition to the requirements of section 103(c).

"(2) EFFECTIVE RATE OF MORTGAGE INTEREST CANNOT EXCEED BOND YIELD BY MORE THAN 1 PERCENTAGE POINT.—

"(A) IN GENERAL.—An issue shall be treated as meeting the requirements of this paragraph only if the excess of—

"(i) the effective rate of interest on the mortgages provided under the issue, over

"(ii) the yield on the issue,

is not greater than 1 percentage point.

"(B) EFFECTIVE RATE OF MORTGAGE INTEREST.—

"(i) IN GENERAL.—In determining the effective rate of interest on any mortgage for purposes of this paragraph, there shall be taken into account all fees, charges, and other amounts borne by the mortgagor which are attributable to the mortgage or to the bond issue.

"(ii) SPECIFICATION OF SOME OF THE AMOUNTS TO BE TREATED AS BORNE BY THE MORTGAGOR.—For purposes of clause (i), the following items (among others) shall be treated as borne by the mortgagor:

"(I) all points or similar charges paid by the seller of the property, and

"(II) the excess of the amounts received from any person other than the mortgagor by any person in connection with the acquisition of the mortgagor's interest in the property over the usual and reasonable acquisition costs of a person acquiring like property where owner-financing is not provided through the use of qualified mortgage bonds.

"(iii) SPECIFICATION OF SOME OF THE AMOUNTS TO BE TREATED AS NOT BORNE BY THE MORTGAGOR.—For purposes of clause (i), the following items shall not be taken into account:

"(I) any expected rebate of arbitrage profits, and

"(II) any application fee, survey fee, credit report fee, insurance charge, or similar amount to the extent such amount does not exceed amounts charged in such area in cases where owner-financing is not provided through the use of qualified mortgage bonds.

Subclause (II) shall not apply to origination fees, points, or similar amounts.

"(iv) PREPAYMENT ASSUMPTION.—In determining the effective rate of interest, it shall be assumed that the mortgage prepayment rate will be the rate set forth in the most recent mortgage maturity experience table published by the Federal Housing Administration for the State (or, if available, the area within the State) in which the residences are located.

"(C) YIELD ON THE ISSUE.—For purposes of this subsection, the yield on the issue shall be determined on the basis of—

"(i) the issue price (within the meaning of section 1232(b)(2)), and

"(ii) an expected maturity for the bonds which is consistent with the assumption required under subparagraph (B)(iv).

"(3) NON-MORTGAGE INVESTMENT REQUIREMENTS.—

"(A) IN GENERAL.—An issue meets the requirements of this paragraph only if—

"(i) at no time during any bond year may the amount invested in non-mortgage investments with a yield higher than the yield on the issue exceed 150 percent of the debt service on the issue for the bond year, and

"(ii) the aggregate amount invested as provided in clause (i) is promptly and appropriately reduced as mortgages are repaid.

"(B) EXCEPTION FOR TEMPORARY PERIODS.—Subparagraph (A) shall not apply to—

"(i) proceeds of the issue invested for an initial temporary period until such proceeds are needed for mortgages, and

"(ii) temporary investment periods related to debt service.

"(C) DEBT SERVICE DEFINED.—For purposes of subparagraph (A), the debt service on the issue for any bond year is the scheduled amount of interest and amortization of principal payable for such year with respect to such issue. For purposes of the preceding sentence, there shall not be taken into account amounts scheduled with respect to any bond which has been retired before the beginning of the bond year.

"(4) ARBITRAGE AND INVESTMENT GAINS TO BE USED TO REDUCE COSTS OF OWNER-FININCING.—

"(A) IN GENERAL.—An issue shall be treated as meeting the requirements of this paragraph only if an amount equal to the sum of—

"(i) the excess of—

"(I) the amount earned on all non-mortgage investments (other than investments attributable to an excess described in this clause), over

"(II) the amount which would have been earned if the investments were invested at a rate equal to the yield on the issue, plus

"(ii) any income attributable to the excess described in clause (i),

shall be paid or credited to the mortgagors as rapidly as may be practicable.

"(B) INVESTMENT GAINS AND LOSSES.—For purposes of subparagraph (A), in determining the amount earned on all non-mortgage investments, any gain or loss on the disposition of such investments shall be taken into account.

"(j) OTHER REQUIREMENTS.—

"(1) OBLIGATIONS MUST BE REGISTERED.—An issue meets the requirements of this subsection only if each obligation issued pursuant to such issue is in registered form.

"(2) MORTGAGES MUST BE NEW MORTGAGES.—

"(A) IN GENERAL.—An issue meets the requirements of this subsection only if no part of the proceeds of such issue is to be used to acquire or replace existing mortgages.

"(B) EXCEPTIONS.—Under regulations prescribed by the Secretary, the replacement of—

"(i) construction period loans,

"(ii) bridge loans or similar temporary initial financing, and

"(iii) in the case of a qualified rehabilitation, an existing mortgage,

shall not be treated as the acquisition or replacement of an existing mortgage for purposes of subparagraph (A).

"(3) CERTAIN REQUIREMENTS MUST BE MET WHERE MORTGAGE IS ASSUMED.—An issue meets the requirements of this subsection only if a mortgage with respect to which owner-financing has been provided under such issue may be assumed only if the requirements of subsections (d), (e), and (f), are met with respect to such assumption.

"(k) TARGETED AREA RESIDENCES.—

"(1) IN GENERAL.—For purposes of this section, the term 'targeted area residence' means a residence in an area which is either—

"(A) a qualified census tract, or

"(B) an area of chronic economic distress.

"(2) QUALIFIED CENSUS TRACT.—

"(A) IN GENERAL.—For purposes of paragraph (1), the term 'qualified census tract' means a census tract in which 70 percent or more of the families have income which is 80 percent or less of the statewide median family income.

"(B) DATA USED.—The determination under subparagraph (A) shall be made on the basis of the most recent decennial census for which data are available.

"(3) AREA OF CHRONIC ECONOMIC DISTRESS.—

"(A) IN GENERAL.—For purposes of paragraph (1), the term 'area of chronic economic distress' means an area of chronic economic distress—

"(i) designated by the State as meeting the standards established by the State for purposes of this subsection, and

"(ii) the designation of which has been approved by the Secretary and the Secretary of Housing and Urban Development.

"(B) CRITERIA TO BE USED IN APPROVING STATE DESIGNATIONS.—The criteria used by the Secretary and the Secretary of Housing and Urban Development in evaluating any proposed designation of an area for purposes of this subsection shall be—

"(i) the condition of the housing stock, including the age of the housing and the number of abandoned and substandard residential units,

"(ii) the need of area residents for owner-financing under this section, as indicated by low per capita income, a high percentage of families in poverty, a high number of welfare recipients, and high unemployment rates,

"(iii) the potential for use of owner-financing under this section to improve housing conditions in the area, and

"(iv) the existence of a housing assistance plan which provides a displacement program and a public improvements and services program.

"(l) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) MORTGAGE.—The term 'mortgage' includes any other owner-financing.

"(2) BOND.—The term 'bond' includes any obligation.

"(3) STATE.—The term 'State' includes a possession of the United States and the District of Columbia.

"(4) STATISTICAL AREA.—

"(A) IN GENERAL.—The term 'statistical area' means—

"(i) a standard metropolitan statistical area, and

"(ii) any county (or the portion thereof) which is not within a standard metropolitan statistical area.

"(B) STANDARD METROPOLITAN STATISTICAL AREA.—The term 'standard metropolitan statistical area' means the area in and around a city of 50,000 inhabitants or more (or equivalent area) as defined by the Secretary of Commerce.

"(C) DESIGNATION WHERE ADEQUATE STATISTICAL INFORMATION NOT AVAILABLE.—For purposes of this paragraph, if there is insufficient recent statistical information with respect to a county (or portion thereof) described in subparagraph (A)(ii), the Secretary may substitute for such county (or portion thereof) another area for which there is sufficient recent statistical information.

"(D) DESIGNATION WHERE NO COUNTY.—In the case of any portion of a State which is not within a county, subparagraphs (A)(ii) and (C) shall be applied by substituting for 'county' an area designated by the Secretary which is the equivalent of a county.

"(5) ACQUISITION COST.—

"(A) IN GENERAL.—The term 'acquisition cost' means the cost of acquiring the residence as a completed residential unit.

"(B) EXCEPTIONS.—The term 'acquisition cost' does not include—

"(i) usual and reasonable settlement or financing costs,

"(ii) the value of services performed by the mortgagor or members of his family in completing the residence, and

"(iii) the cost of land which has been owned by the mortgagor for at least 2 years before the date on which construction of the residence begins.

"(C) SPECIAL RULE FOR QUALIFIED REHABILITATION LOANS.—In the case of a qualified rehabilitation loan, for purposes of subsection (f), the term 'acquisition cost' includes the cost of the rehabilitation.

"(6) QUALIFIED HOME IMPROVEMENT LOAN.—The term 'qualified home improvement loan' means the financing (in an amount which does not exceed $15,000)—

"(A) of alterations, repairs, and improvements on or in connection with an existing residence by the owner thereof, but

"(B) only of such items as substantially protect or improve the basic livability or energy efficiency of the property.

"(7) QUALIFIED REHABILITATION LOAN.—

"(A) IN GENERAL.—The term 'qualified rehabilitation loan' means any owner-financing provided in connection with—

"(i) a qualified rehabilitation, or

"(ii) the acquisition of a residence with respect to which there has been a qualified rehabilitation,

but only if the mortgagor to whom such financing is provided is the first resident of the residence after the completion of the rehabilitation.

"(B) QUALIFIED REHABILITATION.—For purposes of subparagraph (A), the term 'qualified rehabilitation' means any rehabilitation of a building if—

"(i) there is a period of at least 20 years between the date on which the building was first used and the date on which the physical work on such rehabilitation begins,

"(ii) 75 percent or more of the existing external walls of such building are retained in place as external walls in the rehabilitation process, and

"(iii) the expenditures for such rehabilitation are 25 percent or more of the mortgagor's adjusted basis in the residence.

For purposes of clause (iii), the mortgagor's adjusted basis shall be determined as of the completion of the rehabilitation or, if later, the date on which the mortgagor acquires the residence.

"(8) DETERMINATIONS ON ACTUARIAL BASIS.—All determinations of yield, effective interest rates, and amounts required to be paid or credited to mortgagors under subsection (i)(4)(A) shall be made on an actuarial basis taking into account the present value of money.

"(9) SINGLE-FAMILY AND OWNER-OCCUPIED RESIDENCES INCLUDE CERTAIN RESIDENCES WITH 2 TO 4 UNITS.—Except for purposes of subsections (g) and (h)(2), the terms 'single-family' and 'owner-occupied', when used with respect to residences, include 2, 3, or 4 family residences—

"(A) one unit of which is occupied by the owner of the units, and

"(B) which were first occupied at least 5 years before the mortgage is executed.

"(m) SPECIAL RULE FOR ISSUE USED FOR OWNER-OCCUPIED HOUSING AND RENTAL HOUSING.—In the case of an issue—

"(1) part of the proceeds of which are to be used for mortgages on owner-occupied residences in a manner which meets the requirements of this section, and

"(2) part of the proceeds of which are to be used for rental housing which meets the requirements of section 103(4)(A),

under regulations prescribed by the Secretary, each such part shall be treated as a separate issue.

"(n) ADVANCE REFUNDING OF MORTGAGE SUBSIDY BONDS NOT PERMITTED.—On and after the date of the enactment of this section, no obligation may be issued for the advance refunding of a mortgage subsidy bond (determined without regard to subsection (b)(2))."

(b) CLERICAL AMENDMENT.—The table of sections for part III of subchapter B of chapter 1 of such Code is amended by inserting after the item relating to section 103 the following new item:

"Sec. 163A. Mortgage subsidy bonds."

SEC. 1103. INDUSTRIAL DEVELOPMENT BONDS FOR HOUSING PURPOSES LIMITED TO LOW- OR MODERATE-INCOME RENTAL HOUSING.

(a) IN GENERAL.—Subparagraph (A) of paragraph (5) of section 103 (b) of the Internal Revenue Code of 1954 (relating to industrial development bonds) is amended to read as follows:

"(A) projects for residential rental property if each obligation issued pursuant to the issue is in registered form and if—

"(i) 15 percent or more in the case of targeted area projects, or

"(ii) 20 percent or more in the case of any other project,

of the units in each project are to be occupied by individuals of low or moderate income (within the meaning of section 167(k)(3)(B)),".

(b) TARGETED AREA PROJECT DEFINED.—Paragraph (4) of section 103 (b) of such Code is amended by inserting before the last sentence the following new sentence:

"For purposes of subparagraph (A), the term 'targeted area project' means a project located in a qualified census tract (within the meaning of section 103A(k)(2)) or an area of chronic economic distress (within the meaning of section 103A(k)(3))."

(c) TECHNICAL AMENDMENT.—Paragraph (6) of section 103(b) of such Code (relating to exemption for certain small issues) is amended by adding at the end thereof the following new subparagraph:

"(J) ISSUES FOR RESIDENTIAL PURPOSES.—This paragraph shall not apply to any obligation which is issued as a part of an issue a significant portion of the proceeds of which are to be used directly or indirectly to provide residential real property for family units."

SEC. 1104. EFFECTIVE DATES FOR BOND PROVISIONS.

(a) GENERAL RULE.—

(1) IN GENERAL.—Except as otherwise provided in this section, the amendments made by sections 1102 and 1103 shall apply to obligations issued after April 24, 1979.

(2) EXCEPTIONS FOR CERTAIN OBLIGATIONS ISSUED BEFORE JANUARY 1, 1981.—The amendments made by sections 1102 and 1103 shall not apply to obligations issued before January 1, 1981, if such obligations are part of an issue substantially all the proceeds of which (exclusive of issuance costs and a reasonably required reserve) are, before the date which is 1 year after the date of issue of the obligations, committed—

(A) except as provided in subparagraph (B), by firm commitment letters (similar to those used in financing not provided with tax-exempt bonds), and

(B) in the case of rental housing, by the commencement of construction of the project or by the acquisition of the project.

(b) EXCEPTION FOR OFFICIAL ACTION TAKEN BEFORE APRIL 25, 1979.—

(1) IN GENERAL.—The amendments made by sections 1102 and 1103 shall not apply to obligations if official action before April 25, 1979, of the governing body of the unit having authority to issue such obligations indicated an intent to issue such obligations.

(2) ACTION BY STAFF OF HOUSING AUTHORITY TREATED AS ACTION OF AUTHORITY IN CERTAIN CASES.—For purposes of paragraph (1), if, before April 25, 1979—

(A) the permanent professional staff of a State or local housing authority performed substantial work on a bond issue, and

(B) it was reasonable to expect that the bond issue, as developed by the staff, would be promptly approved by the governing body of the housing authority,

then such action by such staff shall be treated as the official action of such governing body.

(3) SPECIAL RULES RELATING TO SIZE OF ISSUE.—

(A) IN GENERAL.—Except as provided in subparagraph (B), an issue does not qualify for the exception provided by paragraph (1) if the issue size exceeds the intended issue size.

(B) EXCEPTION.—In the case of an issue to provide owner-financing for residences for which as of April 24, 1979, there was no documentation relating to intended issue size, paragraph (1) shall not apply unless—

(i) substantially all of the proceeds of the issue (exclusive of issuance costs and a reasonably required reserve) are to be used to provide owner-financing for one to four family residences (one unit of which is owner occupied) and not to acquire or replace existing mortgages (within the meaning of section 103A(j)(2) of the Internal Revenue Code of 1954), and

(ii) substantially all of the proceeds referred to in clause (i) are committed by firm commitment letters (similar to those used in owner-financing not provided with tax-exempt bonds) to such owner-financing before the day which is 9 months after the date of issue of the obligations.

(C) ISSUE SIZE DEFINED.—For purposes of this paragraph, the term "issue size" means the aggregate face amount of obligations issued pursuant to the issue.

(D) INTENDED ISSUE SIZE.—For purposes of this paragraph, the term "intended issue size" means the aggregate face amount of obligations which a reasonable individual would reasonably conclude from the documentation before April 25, 1979, was the issue size which the governing body of the issuing authority intended to issue.

(4) LOCAL REFERENDUM HELD BEFORE JUNE 13, 1979.—

(A) IN GENERAL.—For purposes of paragraph (1), if—

(i) on April 25, 1979, legislation was pending in a State legislature,

(ii) on April 27, 1979, such legislation was amended to authorize local governmental units to issue tax-exempt obligations,

(iii) before June 13, 1979, such legislation was enacted and a local governmental unit in such State held a referendum with respect to the issuance of obligations to finance owner-occupied residences, and

(iv) any action with respect to the issuance of such obligations by the governing body of such local governmental unit would have met the requirements of paragraph (1) if such legislation had been in effect, and such referendum had been held, when that action was taken,

then such legislation shall be treated as in effect, and such referendum shall be treated as having been held, at the time when such action was taken.

(B) DOLLAR LIMIT FOR LOCAL GOVERNMENTAL UNITS.—The aggregate amount of obligations which may be issued by local governmental units with respect to the area comprising any local governmental area by reason of subparagraph (A) may not exceed—

(i) $35,000,000, reduced by

(ii) the aggregate amount of obligations which are issued (before, on, or after the issue under this paragraph) by local governmental units with respect to such area after April 24, 1979, and to which the amendments made by this subtitle do not apply solely by reason of this subsection (determined without regard to the application of subparagraph (A) of this paragraph).

(C) MORTGAGE REQUIREMENTS.—Subparagraph (A) shall not apply with respect to any issue unless such issue meets the requirements of paragraph (3)(A) of subsection (c).

(5) CERTAIN LOCAL ACTION PURSUANT TO LEGISLATION ENACTED BEFORE SEPTEMBER 29, 1979.—

(A) IN GENERAL.—For purposes of paragraph (1), if—

(i) on April 25, 1979, legislation was pending in a State legislature authorizing a local governmental unit to issue tax-exempt obligations for owner-occupied residences,

(ii) before September 29, 1979, such legislation was enacted, and

(iii) any action with respect to the issuance of such obligations by the local governing body would have met the requirements of paragraph (1) if such legislation had been in effect when that action was taken,

then such legislation shall be treated as in effect at the time when such action was taken.

(B) DOLLAR LIMIT FOR LOCAL GOVERNMENTAL UNITS.—The aggregate amount of obligations which may be issued by local governmental units with respect to the area comprising any local governmental area by reason of subparagraph (A) may not exceed the lesser of—

(i) the aggregate amount authorized by the legislation referred to in subparagraph (A), or

(ii) $150,000,000.

(C) MORTGAGE REQUIREMENTS.—Subparagraph (A) shall not apply with respect to any issue unless such

issue meets the requirements of paragraph (3)(A) of subsection (c).

(c) $150,000,000 EXCEPTION FOR STATE HOUSING FINANCE AGENCIES.—

(1) IN GENERAL.—To the extent of the limit set forth in paragraph (2), the amendments made by this subtitle shall not apply to obligations issued by a State housing finance agency.

(2) DOLLAR LIMIT FOG STATE HOUSING FINANCE AGENCIES.—The aggregate amount of obligations which may be issued by State housing finance agencies with respect to any State by reason of paragraph (1) may not exceed—

(A) $150,000,000, reduced by

(B) the aggregate amount of obligations which are issued (before, on, or after the issue under this subsection) by the housing finance agencies of such State after April 24, 1979, to finance owner-occupied residences and to which the amendments made by this subtitle do not apply solely by reason of subsection (b).

(3) COMMITMENTS.—Paragraph (1) shall not apply with respect to any issue unless substantially all of the proceeds of such issue (exclusive of issuance costs and a reasonably required reserve)—

(A) are to be used to provide owner-financing for 1 to 4 family residences (1 unit of which is owner-occupied) and not to acquire or replace existing mortgages (within the meaning of section 103A(j)(2) of the Internal Revenue Code of 1954), and

(B) are committed by firm commitment letters (similar to those used in owner-financing not provided by tax-exempt bonds) to owner-financing before January 1, 1981.

(4) SPECIAL RULE FOR ACTION IN 1978 PURSUANT TO MORTGAGE PROGRAM ESTABLISHED IN 1970.—

(A) IN GENERAL.—If—

(i) in 1970 State legislation established a program to issue tax-exempt obligations to finance the purchase of existing mortgages from financial institutions,

(ii) in August 1978, as a step toward issuing obligations under such program, the governing body of the housing agency administering the program made a finding that there was a shortage of mortgage funds within the State,

(iii) moneys received by any financial institution on the purchase of mortgages will be reinvested within 90 days in new mortgages, and

(iv) the issue meets the requirements of subparagraphs (B) and (C),

then paragraph (3) shall not apply with respect to an issue of obligations pursuant to the program referred to in clause (i) and the finding referred to in clause (ii).

(B) DOWNPAYMENT REQUIREMENT.—An issue meets the requirements of this subparagraph only if 75 percent or more of the financing provided under the issue is financing for residences where such financing constitutes 95 percent or more of the acquisition cost of the residences.

(C) TARGETED AREA REQUIREMENT.—An issue meets the requirements of this subparagraph only if at least 20 percent of the financing provided under the issue is owner-financing of targeted area residences. For purposes of the preceding sentence, the term "targeted area residence" means a residence in an area which is a census tract in which 70 percent or more of the families have income which is 80 percent or less of the statewide median family income (determined on the basis of the most recent decennial census for which data are available).

(D) DOLLAR LIMIT.—The aggregate amount of obligations which may be issued by a State housing authority by reason of subparagraph (A) may not exceed $125,000,000.

(d) SPECIAL RULES.—

(1) COURT ACTION WAS PENDING TO DETERMINE SCOPE OF AUTHORIZING LEGISLATION.

(A) IN GENERAL.—If—

(i) before April 25, 1979, a State had enacted a law under which counties were authorized to establish public trusts to issue tax-exempt obligations for public purposes,

(ii) on such date the question of whether or not that law authorized the issuance of obligations to finance certain owner-occupied residences was being litigated in a court of competent jurisdiction,

(iii) before July 31, 1979, the Supreme Court of such State held that the counties were so authorized, and

(iv) there is written evidence (which was in existence before April 25, 1979) that before April 25, 1979, the governing body of a county in such State had taken action indicating an intent to issue (or to establish a program for issuing) tax-exempt obligations to finance owner-occupied residences,

then the amendments made by section 1102 shall not apply to obligations issued by the public trust for such county.

(B) DOLLAR LIMIT.—The aggregate amount of obligations which may be issued with respect to any county by reason of subparagraph (A) may not exceed $50,000,000.

(2) STATE LEGISLATION ENACTED BEFORE JUNE 8, 1979, WHERE LOCALITY HAD ESTABLISHED INCOME LIMITATIONS BEFORE APRIL 25, 1979.—

(A) IN GENERAL.—If—

(i) on April 25, 1979, legislation was pending in a State legislature authorizing a local governmental unit to issue tax-exempt obligations for owner-occupied residences,

(ii) there is written evidence (which was in existence before April 25, 1979) that before April 25, 1979, the governing body of the local governmental unit had taken action indicating to its delegation to the State legislature what the income limitation would be for individuals who would be eligible for mortgages under the program, and

(iii) before June 8, 1979, the legislation referred to in clause (i) was enacted,

then the amendments made by section 1102 shall not apply to obligations issued by the local governmental unit.

(B) DOLLAR LIMIT.—The aggregate amount of obligations which may be issued with respect to any local governmental area by reason of subparagraph

(A) may not exceed $150,000,000.

(3) RESOLUTIONS BEFORE CITY COUNCIL BEFORE ENACTMENT OF STATE AUTHORIZING LEGISLATION.—

(A) IN GENERAL.—If—

(i) before April 25, 1979, 2 resolutions were submitted to a city council the first of which would create an urban residential finance authority and the second of which would authorize the appointment of the members of such authority,

(ii) at the time such resolutions were submitted, State authorizing legislation had not been enacted,

(iii) before April 25, 1979, the State authorizing legislation was enacted, and

(iv) after April 24, 1979, and before May 17, 1979, a resolution was adopted by the city council which created an urban residential finance authority and which authorized the appointment of members of the authority,

then the amendments made by section 1102 shall not apply with respect to obligations issued on behalf of such city.

(B) DOLLAR LIMIT.—The aggregate amount of obligations which may be issued with respect to any city by reason of subparagraph (A) may not exceed $50,000,000.

(4) SPECIAL RULE WHERE CITY POSTPONED SECOND HALF OF AUTHORIZED ISSUE TO SAVE INTEREST.—If—

(A) on March 28, 1979, the council of a city adopted a resolution authorizing the issuance of not to exceed $30,000,000 of mortgage revenue bonds.

(B) on or about August 1, 1979, approximately one-half of the obligations authorized by such resolution were issued, and

(C) the reason why the remaining obligations were not issued at that time was to save interest payments until the money was actually needed,

then the amendments made by section 1102 shall not apply with respect to the issuance of the remaining obligations which were authorized by such March 28, 1979, resolution.

(5) STATE WAS IN PROCESS OF PERMITTING LOCALITIES TO ESTABLISH NONPROFIT CORPORATIONS.—

(A) IN GENERAL.—If—

(i) a State law enacted after April 24, 1979, and before June 16, 1979, provides that local governments may establish nonprofit corporations to issue tax-exempt obligations to finance owner-occupied residences,

(ii) pursuant to such State law, a local government establishes such a nonprofit corporation and designates it for purposes of this subsection, and

(iii) on November 7 or 14, 1979, an amount was specified by or for the local government as the maximum amount of obligations which the local government expected the nonprofit corporation to issue with respect to the area under any transitional authority provided by this subtitle,

then the amendments made by section 1102 shall not apply to obligations issued by the nonprofit corporation with respect to the area for which such local government has jurisdiction.

(B) DOLLAR LIMITS.—The aggregate amount of obligations which may be issued with respect to any area by reason of subparagraph (A) may not exceed the amount referred to in subparagraph (A)(iii) which was specified on November 7 or 14, 1979, by or for the local government.

(C) SUBSTITUTION OF HOUSING AUTHORITIES, ETC.—For purposes of applying so much of paragraph (7) as relates to subparagraph (A)—

(i) if the local housing authority had the intent referred to in paragraph (7), such local housing authority shall be substituted for the local government, and

(ii) if the governing body of the local government is a commissioners court, the county judge who was on April 24, 1979, the presiding officer of such court shall be treated as the governing body of such government.

(6) OBLIGATIONS ISSUED UNDER THIS SUBSECTION MUST MEET THE REQUIREMENTS OF SUBSECTION (c)(3).—No obligation may be issued under this subsection unless the issue meets the requirements of subsection (c)(3).

(7) GOVERNING BODY MUST FILE AFFIDAVITS SHOWING INTENT ON APRIL 24, 1979.—No obligation may be issued under this subsection with respect to any area unless a majority of the members of the governing body of the local governmental unit having jurisdiction over that area file affidavits with the Secretary of the Treasury (or his delegate) indicating that it was their intent on April 24, 1979, either that tax-exempt obligations be issued to provide financing for owner-occupied residences or that a program be established to issue such obligations.

(8) LIMITATIONS REDUCED BY CERTAIN OTHER ISSUES.—Any limitation on the amount of obligations which may be issued by any issuer by reason of any paragraph of this subsection shall be reduced by the aggregate amount of obligations which are issued (before, on, or after the issue under this subsection) by local governmental units with respect to the area within the jurisdiction of such issuer after April 24, 1979, and to which the amendments made by this subtitle do not apply solely by reason of subsection (b).

(e) ONGOING LOCAL PROGRAMS FOR REHABILITATION LOANS.—

(1) IN GENERAL.—If before April 25, 1979, a local governmental unit had a qualified rehabilitation loan program, then the amendments made by this subtitle shall not apply to obligations issued by such governmental unit for qualified loans if substantially all of the proceeds of such issue (exclusive of issuance costs and a reasonably required reserve) are committed by firm commitment letters (similar to those used in owner financing not provided by tax-exempt bonds) to qualified loans before January 1, 1981.

(2) LIMITATION.—The aggregate amount of obligations which may be issued by reason of paragraph (1) by local governmental units with respect to the area comprising any local governmental area may not exceed the lesser of—

(A) $10,000,000, or

(B) the aggregate amount of loans made with respect to that area under the qualified rehabilitation loan program during the period beginning on January 1, 1977, and ending on April 24, 1979.

The limitation established by the preceding sentence shall be reduced by the aggregate amount of obligations (if any) which are issued (before, on, or after the issue under this subsection) under the qualified rehabilitation loan program after April 24, 1979, with respect to the same local governmental area and to which the amendments made by this substitle do not apply solely by reason of subsection (b).

(3) QUALIFIED REHABILITATION LOAN PROGRAM.—For purposes of this subsection, the term "qualified rehabilitation loan program" means a program for the financing—

(A) of alterations, repairs, and improvements on or in connection with an existing residence by the owner thereof, but

(B) only of such items as substantially protect or improve the basic livability of the property.

(4) QUALIFIED LOAN.—For purposes of this subsection, the term "qualified loan" means the financing—

(A) of alterations, repairs, and improvements on or in connection with an existing 1 to 4 family residence (1 unit of which is owner-occupied) by the owner thereof, but

(B) only of such items as substantially protect or improve the basic livability of the property.

(5) DOLLAR LIMIT ON QUALIFIED LOANS.—For puropses of this subsection, a loan shall not be treated as a qualified loan if the financing is in an amount which exceeds $20,000 plus $2,500 for each unit in excess of 1.

(f) $50 PER CAPITA EXCEPTION FOR LOCAL GOVERNMENTS.—

(1) IN GENERAL.—To the extent of the limit set forth in paragraph (2), the amendments made by section 1102 shall not apply to mortgage subsidy bonds issued by local governmental units after April 24, 1979.

(2) LIMIT.—

(A) IN GENERAL.—The aggregate amount of obligations issued with respect to any area by reason of paragraph (1) shall not exceed—

(i) the amount equal to the product of $50 and the population of area, reduced by

(ii) the aggregate amount of obligations which are issued (before, on, or after the issue under this subsection) by local governmental units after April 24, 1979, with respect to that area and to which the amendments made by this subtitle do not apply solely by reason of subsections (b), (d), and (e).

(B) DETERMINATION OF POPULATION.—For purposes of subparagraph (A), the population of any area shall be the population as of July 1, 1976, as determined for purposes of the State and Local Fiscal Assistance Act of 1972 [Pub. L. 92-512, 1972-2 C.B. 684].

(3) UNIT MUST ESTABLISH THAT ACTION WAS TAKEN BEFORE APRIL 25, 1979.—Paragraph (1) shall not apply with respect to any obligation issued by any local governmental unit unless—

(A) there is written evidence (which was in existence before April 25, 1979) that before April 25, 1979, the governing body of such local governmental unit had taken action indicating an intent to issue (or to establish a program for issuing) tax-exempt obligations to finance owner-occupied residences,

(B) on October 30, 1979, such local governmental unit had authority to issue obligations to finance owner-occupied residences, and

(C) a majority of the members of the governing body of the local governmental unit file with the Secretary of the Treasury (or his delegate) affidavits that the requirement of such subparagraph (A) is met.

For purposes of subparagraph (A), action of the governing body of a second local governmental unit with respect to the same area shall be treated as action of the issuing governmental unit.

(4) COMMITMENTS. — Paragraph (1) shall not apply with respect to any issue unless such issue meets the requirements of paragraph (3) of subsection (c).

(5) OVERLAPPING JURISDICTIONS.—For purposes of this subsection, if 2 or more local governmental units meet the requirements of paragraph (3) and have authority to issue mortgage subsidy bonds with respect to residences in the same area, only the unit having jurisdiction over the smallest geographical area shall be treated as having issuing authority with respect to such area unless such unit agrees to surrender part or all of the amount permitted under this subsection to the local governmental unit with overlapping jurisdiction which has the next smallest geographical area.

(g) ROLLOVER OF EXISTING TAX-EXEMPT OBLIGATIONS.—

(1) IN GENERAL.—The amendments made by sections 1102 and 1103 shall not apply to the issuance of obligations to refinance for the same purpose tax-exempt indebtedness which was outstanding on April 24, 1979 (or indebtedness which had previously been refinanced pursuant to this subsection), but only if—

(A) on April 24, 1979, there was an agreed on period for the maturity of the mortgages or other financing, and

(B) the new obligations have a maturity date which does not exceed by more than 2 years the agreed on period referred to in subparagraph (A).

(2) AMOUNTS FOR RESERVES, ISSUE COSTS, ETC.—An issue which otherwise meets the requirements of paragraph (1) shall not be treated as failing to meet such requirements solely because the amount of the new indebtedness exceeds the amount of the old indebtedness by such amount as is reasonably necessary to cover construction period interest, reserves, and the costs of issuing the new indebtedness.

(h) SPECIAL RULES FOR PROJECTS UNDER DEVELOPMENT.—

(1) RENTAL HOUSING. — The amendment made by section 1103 shall

not apply to a project which was in the development stage on April 24, 1979, if—

(A) a plan specifying the number and location of rental units was approved on or before such date by a governing body of a State or local government or by a State or local housing agency or similar agency, and

(B) substantial expenditures for site improvement for the project had been incurred on or before such date.

(2) RENTAL HOUSING PROJECTS APPROVED BY SECRETARY OF HUD.—The amendment made by section 1103 shall not apply to a project which was in the development stage on April 24, 1979, if—

(A) a plan specifying the number and location of rental units was preliminarily approved by the Secretary of Housing and Urban Development pursuant to section 221(d)(4) or section 232 of the National Housing Act on or before such date, and

(B) fees for processing the project with the Department of Housing and Urban Development and other expenditures for the project had been incurred on or before such date.

(3) OWNER-OCCUPIED HOUSING.—The amendments made by section 1102 shall not apply to a project which was in the development stage on April 24, 1979, if on or before such date—

(A) substantial expenditures had been made for detailed plans and specifications, and

(B) either tax-exempt construction financing had been issued with respect to the proejct or there is written evidence that a governmental unit intended to issue tax-exempt obligations to finance the acquisition of units by home buyers.

The amendment made by section 1103 shall not apply to construction or other initial temporary financing issued with respect to a project which meets the requirements of the preceding sentence if substantially all of the dwelling units in such project are to be owner-occupied residences.

(4) CERTAIN REDEVELOPMENT MORTGAGE BOND FINANCING PROJECTS.—Subparagraph (B) of paragraph (3) shall be treated as satisfied if, before April 25, 1979—

(A) the developer of a project acquired the land for such project,

(B) there was approval by the mayor's advisory committee of a city of a comprehensive proposal (under a State law authorizing tax-exempt obligations for use only in redevelopment areas) for such project, subject to revisions to be made, and

(C) a revised proposal was submitted to the redevelopment agency and city council containing the revisions.

The aggregate amount of obligations which may be issued by local governmental units with respect to the area comprising any local governmental area by reason of this paragraph may not exceed $20,000,000.

(i) REGISTRATION REQUIREMENTS.—

(1) IN GENERAL.—Notwithstanding any other provision of this section, the amendments made by section 1102 and 1103, insofar as they require obligations to be in registered form, shall apply to obligations issued after December 31, 1981.

(2) BONDS UNDER TRANSITIONAL RULES.—Any obligation issued after December 31, 1981, by reason of this section shall be in registered form.

(j) ADVANCE REFUNDING.—Notwithstanding any other provision of this section—

(1) subsection (n) of section 103A of the Internal Revenue Code of 1954 (as added by section 1102) shall apply to obligations issued after the date of the enactment of this Act to refund obligations issued before, on, or after such date of enactment, and

(2) this section shall not apply to obligations issued after such date of enactment for the advance refunding of obligations issued before, on, or after such date of enactment.

(k) TRANSITIONAL RULE FOR LOW- AND MODERATE-INCOME REQUIREMENT.—In the case of obligations issued after April 24, 1979, and before January 1, 1984, the period for which the low- and moderate-income requirements of section 103(b)(4)(A) of the Internal Revenue Code of 1954 (as amended by section 1103 of this subtitle) is required to be met shall be 20 years.

(l) SUBSTITUTION OF GOVERNMENTAL INSTRUMENTALITY FOR CITY.—

(1) IN GENERAL.—If—

(A) a corporation was created on June 17, 1971, pursuant to State law to provide financing for the construction and rehabilitation of low-income housing,

(B) pursuant to a State law enacted in 1955 a city has made loans to housing developers from the proceeds of short-term bonds and notes issued by the city, and has secured 50-year mortgages from the developers, and

(C) the corporation agrees to acquire from the city certain of the loans referred to in subparagraph (B) by issuing obligations which will be secured by mortgages referred to in subparagraph (B) on 12 projects (11 of which projects are subsidized with interest-reduction subsidies under section 236 of the National Housing Act),

then the amendments made by this subtitle shall not apply to obligations issued by the corporation to acquire the loans (and mortgages) referred to in subparagraph (C).

(2) DOLLAR LIMIT.—The aggregate amount of obligations to which paragraph (1) applies shall not exceed $135,000,000.

(3) TIME LIMIT.—Paragraph (1) shall not apply to any obligation issued after December 31, 1980.

(m) STATE LEGISLATION WAS PENDING ON APRIL 1, 1979, AND ENACTED ON APRIL 26, 1979, WHERE LOCALITY HAD TAKEN ACTION TO UNDERTAKE A STUDY OF LOCAL MORTGAGE MARKET.—

(1) IN GENERAL.—If—

(A) on April 1, 1979, legislation was pending in a State legislature limiting the authority of local governments within such State to issue tax-exempt obligations for owner-occupied resi-

dences under existing home rule authority, and such legislation was enacted on April 26, 1979,

(B) there is written evidence (which was in existence before April 25, 1979) that not earlier than June 1, 1978, but before April 25, 1979, the governing body of a local government in such State had taken action authorizing the undertaking of a demographic or related study of the local mortgage market, which study was intended to serve as a basis for issuance of tax exempt obligations for owner-occupied residences,

(C) on December 20, 1979, an amount was specified by or for the local government as the range of obligations which it expected to issue with respect to the area under any transitional authority provided by the Act, and

(D) a majority of the members of the governing body of the local government certify that the city or county was waiting enactment of the legislation described in subparagraph (A) prior to determining to proceed towards the issuance of tax-exempt obligations for owner-occupied residences,

then the amendments made by section 1102 shall not apply to obligations issued by such city or county.

(2) DOLLAR LIMITS.—The aggregate amount of obligations which may be issued with respect to any area by reason of paragraph (1) may not exceed the maximum amount referred to in paragraph (1)(C) which was specified on December 20, 1979, by or for such local government.

(3) TIME LIMITS.—Paragraph (1) shall not apply with respect to any issue unless substantially all of the proceeds of such issue (exclusive of issuance costs and a reasonably required reserve) are committed by firm commitment letters (similar to those used in owner-financing not provided by tax-exempt bonds) to owner-financing before January 1, 1982.

(n) CERTAIN ADDITIONAL TRANSITIONAL AUTHORITY.—

(1) IN GENERAL.—The amendments made by sections 1102 and 1103 shall not apply to issues described in the following table:

City or county	Ceiling amount	Purpose of issue
Baltimore, Maryland	$100,000,000	Financing owner-occupied residences.
Port Arthur, Texas	175,000,000	For financing on New Town In Town project.
Minneapolis, Minnesota	25,000,000	Financing owner-occupied residences.
Minneapolis-St. Paul, Minnesota	235,000,000	Joint program for financing owner-occupied residences involving some UDAG grants and private financing.
Detroit, Michigan	50,000,000	To issue obligations maturing before 1986 for construction on the Riverfront West project.
Brevard County, Florida	150,000,000	Financing owner-occupied residences.
Chicago, Illinois	235,000,000	For financing on the Presidential Towers project.

(2) ISSUING AUTHORITY.—The authority granted by this subsection with respect to any city or county may be used only by the appropriate issuing authority for that city or county.

(3) CEILING AMOUNT.—The ceiling amount specified in paragraph (1) with respect to any item shall be the maximum aggregate amount of obligations which may be issued by the appropriate issuing authority under the authority granted by such item.

(4) PURPOSE.—The authority under any item may be used to issue obligations only for the purpose set forth in paragraph (1) for such item.

(o) SPECIAL RULE FOR LOANS TO LENDERS PROGRAM.—

(1) IN GENERAL.—In the case of any obligations issued during 1981 or 1982 pursuant to a qualified loans to lender program—

(A) the amendments made by section 1103 shall not apply,

(B) subsection (i) of section 103A of the Internal Revenue Code of 1954 (other than the last sentence of paragraph (1) of such subsection) shall not apply, and

(C) the determination of whether the requirements of subsections (d), (e), (f), (h), (j)(2), and (j)(3) of such section 103A are met with respect to such issue shall be made by taking into account the loans made by the financial institutions with the funds provided by the issue (in lieu of the mortgages acquired from the financial institutions with the proceeds of the issue).

(2) QUALIFIED LOANS TO LENDER PROGRAM.—For purposes of paragraph (1), the term "qualified loans to lender program" means any program established pursuant to legislation enacted by New York State in 1970 which finances the purchase of existing mortgages from financial institutions and requires any money received by a financial institution on the purchase of a mortgage to be reinvested within 90 days in new mortgages.

Subtitle B—Cash Management

SEC. 1111. ESTIMATED INCOME TAX PAYMENTS BY CORPORATIONS.

(a) GENERAL RULE.—Section 6655 of the Internal Revenue Code of 1954 (relating to failure by corporation to pay estimated income tax) is amended by adding at the end thereof the following new subsection:

"(h) LARGE CORPORATIONS REQUIRED TO PAY AT LEAST 60 PERCENT OF CURRENT YEAR TAX.—

"(1) IN GENERAL.—In the case of a large corporation, the amount treated as the estimated tax for the taxable year under paragraphs (1) and (2) of subsection (d) shall in no event be less than 60 percent of—

"(A) the tax shown on the return for the taxable year, or

"(B) if no return was filed, the tax for such year.

"(2) LARGE CORPORATION.—For purposes of this subsection, the term 'large corporation' means any corporation if such corporation (or any predecessor corporation) had taxable income of $1,000,000 or more for any taxable year during the testing period.

"(3) RULES FOR APPLYING PARAGRAPH (2).—

"(A) TESTING PERIOD.—For purposes of this subsection, the term 'testing period' means the 3 taxable years immediately preceding the taxable year involved.

"(B) MEMBERS OF CONTROLLED GROUPS.—For purposes of applying paragraph (2) to any taxable year in the testing period with respect to corporations which are component members of a controlled group of corporations for such taxable year, the $1,000,000 amount specified in paragraph (2) shall be divided among such members under rules similar to the rules of section 1561."

(b) TECHNICAL AMENDMENT.—Subsection (e) of section 6655 of such Code is amended by striking out "subsections (b) and (d)" and inserting in lieu thereof "subsections (b), (d), and (h)".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1980.

Subtitle C—Taxation of Foreign Investment in United States Real Property

SEC. 1121. SHORT TITLE.

This subtitle may be cited as the "Foreign Investment in Real Property Tax Act of 1980".

SEC. 1122. TAX ON DISPOSITION OF FOREIGN INVESTMENT IN UNITED STATES REAL PROPERTY.

(a) IN GENERAL.—Subpart C of part II of subchapter N of chapter 1 of the Internal Revenue Code of 1954 (relating to miscellaneous provisions with respect to nonresident aliens and foreign corporations) is amended by adding at the end thereof the following new section:

"SEC. 897. DISPOSITION OF INVESTMENT IN UNITED STATES REAL PROPERTY.

"(a) GENERAL RULE.—

"(1) TREATMENT AS EFFECTIVELY CONNECTED WITH UNITED STATES TRADE OR BUSINESS.—For purposes of this title, gain or loss of a nonresident alien individual or a foreign corporation from the disposition of a United States real property interest shall be taken into account—

"(A) in the case of a nonresident alien individual, under section 871(B)(1), or

"(B) in the case of a foreign corporation, under section 882(a)(1),

as if the taxpayer were engaged in a trade or business within the United States during the taxable year and as if such gain or loss were effectively connected with such trade or business.

"(2) 20-PERCENT MINIMUM TAX ON NONRESIDENT ALIEN INDIVIDUALS.—

"(A) IN GENERAL.—In the case of any nonresident alien individual the amount determined under section 55(a)(1)(A) for the taxable year shall not be less than 20 percent of whichever of the following is the least:

"(i) the individual's alternative minimum taxable income (as defined in section 55(b)(1)) for the taxable year,

"(ii) the individual's net United States real property gain for the taxable year, or

"(iii) $60,000.

"(B) NET UNITED STATES REAL PROPERTY GAIN.—For purposes of subparagraph (A), the term 'net United States real property gain' means the excess of—

"(i) the aggregate of the gains for the taxable year from dispositions of United States real property interests, over

"(ii) the aggregate of the losses for the taxable year from dispositions of such interests.

"(b) LIMITATION ON LOSSES OF INDIVIDUALS.—In the case of an individual, a loss shall be taken into account under subsection (a) only to the extent such loss would be taken into account under section 165(c) (determined without regard to subsection (a) of this section).

"(c) UNITED STATES REAL PROPERTY INTEREST.—For purposes of this section—

"(1) UNITED STATES REAL PROPERTY INTEREST.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the term 'United States real property interest' means—

"(i) an interest in real property (including an interest in a mine, well, or other natural deposit) located in the United States, and

"(ii) any interest (other than an interest solely as a creditor) in any domestic corporation unless the taxpayer establishes (at such time and in such manner as the Secretary by regulations prescribes) that such corporation was at no time a United States real property holding corporation during the shorter of—

"(I) the period after June 18, 1980, during which the taxpayer held such interest, or

"(II) the 5-year period ending on the date of the disposition of such interest.

"(B) EXCLUSION FOR INTEREST IN CERTAIN CORPORATIONS.—The term 'United States real property interest' does not include any interest in a corporation if—

"(i) as of the date of the disposition of such interest, such corporation did not hold any United States real property interests, and

"(ii) all of the United States real property interests held by such corporation at any time during the shorter of the periods described in subparagraph (A)(ii)—

"(I) were disposed of in transactions in which the full amount of the gain (if any) was recognized, or

"(II) ceased to be United States real property interests by reason of the

application of this subparagraph to 1 or more other corporations.

"(2) UNITED STATES REAL PROPERTY HOLDING CORPORATION.—The term 'United States real property holding corporation' means any corporation if—

"(A) the fair market value of its United States real property interests equals or exceeds 50 percent of

"(B) the fair market value of—

"(i) its United States real property interests,

"(ii) its interests in real property located outside the United States, plus

"(iii) any other of its assets which are used or held for use in a trade or business.

"(3) EXCEPTION FOR STOCK REGULARLY TRADED ON ESTABLISHED SECURITIES MARKETS.—If any class of stock of a corporation is regularly traded on an established securities market, stock of such class shall be treated as a United States real property interest only in the case of a person who, at some time during the shorter of the periods described in paragraph (1)(A)(ii), held more than 5 percent of such class of stock.

"(4) INTERESTS HELD BY FOREIGN CORPORATIONS AND BY PARTNERSHIPS, TRUSTS, AND ESTATES.—For purposes of determining whether any corporation is a United States real property holding corporation—

"(A) FOREIGN CORPORATIONS.—Paragraph (1)(A)(ii) shall be applied by substituting 'any corporation (whether foreign or domestic)' for 'any domestic corporation'.

"(B) INTERESTS HELD BY PARTNERSHIPS, ETC.—United States real property interests held by a partnership, trust, or estate shall be treated as owned proportionately by its partners or beneficiaries.

"(5) TREATMENT OF CONTROLLING INTERESTS.—

"(A) IN GENERAL.—Under regulations, for purposes of determining whether any corporation is a United States real property holding corporation, if any corporation (hereinafter in this paragraph referred to as the 'first corporation') holds a controlling interest in a second corporation—

"(i) the stock which the first corporation holds in the second corporation shall not be taken into account,

"(ii) the first corporation shall be treated as holding a portion of each asset of the second corporation equal to the percentage of the fair market value of the stock of the second corporation represented by the stock held by the first corporation, and

"(iii) any asset treated as held by the first corporation by reason of clause (ii) which is used or held for use by the second corporation in a trade or business shall be treated as so used or held by the first corporation.

Any asset treated as held by the first corporation by reason of the preceding sentence shall be so treated for purposes of applying the preceding sentence successively to corporations which are above the first corporation in a chain of corporations.

"(B) CONTROLLING INTEREST.—For purposes of subparagraph (A), the term 'controlling interest' means 50 percent or more of the fair market value of all classes of stock of a corporation.

"(6) OTHER SPECIAL RULES.—

"(A) INTEREST IN REAL PROPERTY.—The term 'interest in real property' includes fee ownership and co-ownership of land or improvements thereon, leaseholds of land or improvements thereon, options to acquire land or improvements thereon, and options to acquire leaseholds of land or improvements thereon.

"(B) REAL PROPERTY INCLUDES ASSOCIATED PERSONAL PROPERTY.—The term 'real property' includes movable walls, furnishings, and other personal property associated with the use of the real property.

"(C) CONSECUTIVE OWNERSHIP RULES.—For purposes of determining under paragraph (3) whether any person holds more than 5 percent of any class of stock and of determining under paragraph (5) whether a person holds a controlling interest in any corporation, section 318(a) shall apply (except that paragraphs (2)(C) and (3)(C) of section 318(a) shall be applied by substituting '5 percent' for '50 percent').

"(d) TREATMENT OF DISTRIBUTIONS.—

"(1) DISTRIBUTIONS.—

"(A) IN GENERAL.—Except to the extent otherwise provided in regulations, notwithstanding any other provision of this chapter, gain shall be recognized by a foreign corporation on the distribution (including a distribution in liquidation or redemption) of a United States real property interest in an amount equal to the excess of the fair market value of such interest (as of the time of the distribution) over its adjusted basis.

"(B) EXCEPTION WHERE THERE IS A CARRYOVER BASIS.—Subparagraph (A) shall not apply if the basis of the distributed property in the hands of the distributee is the same as the adjusted basis of such property before the distribution increased by the amount of any gain recognized by the distributing corporation.

"(2) SECTION 337 NOT TO APPLY.—Section 337 shall not apply to any sale or exchange of a United States real property interest by a foreign corporation.

"(e) COORDINATION WITH NONRECOGNITION PROVISIONS.—

"(1) IN GENERAL.—Except to the extent otherwise provided in subsection (d) and paragraph (2) of this subsection, any nonrecognition provision shall apply for purposes of this section to a transaction only in the case of an exchange of a United States real property interest for an interest the sale of which would be subject to taxation under this chapter.

"(2) REGULATIONS.—The Secretary shall prescribe regulations (which are necessary or appropriate to prevent the avoidance of Federal income taxes) providing—

"(A) the extent to which nonrecognition provisions shall, and shall not, apply for purposes of this section, and

"(B) the extent to which—

"(i) transfers of property in reorganization, and

"(ii) changes in interests in, or distributions from, a partnership, trust, or estate,

shall be treated as sales of property at fair market value.

"(3) NONRECOGNITION PROVISION DEFINED.—For purposes of this subsection, the term 'nonrecognition provision' means any provision of this title for not recognizing gain or loss.

"(f) DISTRIBUTIONS BY DOMESTIC CORPORATIONS TO FOREIGN SHAREHOLDERS.—If a domestic corporation distributes a United States real property interest to a nonresident alien individual or a foreign corporation in a distribution to which section 301 applies, notwithstanding any other provision of this chapter, the basis of such United States real property interest in the hands of such nonresident alien individual or foreign corporation shall not exceed—

"(1) the adjusted basis of such property before the distribution, increased by

"(2) the sum of—

"(A) any gain recognized by the distributing corporation on the distribution, and

"(B) any tax paid under this chapter by the distributee on such distribution.

"(g) SPECIAL RULE FOR SALES OF INTEREST IN PARTNERSHIPS, TRUSTS, AND ESTATES.—Under regulations prescribed by the Secretary, the amount of any money, and the fair market value of any property, received by a nonresident alien individual or foreign corporation in exchange for all or part of its interest in a partnership, trust or estate shall, to the extent attributable to United States real property interests, be considered as an amount received from the sale or exchange in the United States of such property.

"(h) SPECIAL RULES FOR REITS.—For purposes of this section—

"(1) LOOK-THROUGH OF DISTRIBUTIONS.—Any distribution by a REIT to a nonresident alien individual or a foreign corporation shall, to the extent attributable to gain from sales or exchanges by the REIT of United States real property interests, be treated as gain recognized by such nonresident alien individual or foreign corporation from the sale or exchange of a United States real property interest.

"(2) SALE OF STOCK IN DOMESTICALLY-CONTROLLED REIT NOT TAXED.—The term 'United States real property interest' does not include any interest in a domestically-controlled REIT.

"(3) DISTRIBUTIONS BY DOMESTICALLY-CONTROLLED REITS.—In the case of a domestically-controlled REIT, rules similar to the rules of subsection (d) shall apply to the foreign ownership percentage of any gain.

"(4) DEFINITIONS.—

"(A) REIT.—The term 'REIT' means a real estate investment trust.

"(B) DOMESTICALLY-CONTROLLED REIT.—The term 'domestically-controlled REIT' means a REIT in which at all times during the testing period less than 50 percent in value of the stock was held directly or indirectly by foreign persons.

"(C) FOREIGN OWNERSHIP PERCENTAGE.—The term 'foreign ownership percentage' means that percentage of the stock of the REIT which was held (directly or indirectly) by foreign persons at the time during the testing period during which the direct and indirect ownership of stock by foreign persons was greatest.

"(D) TESTING PERIOD.—The term 'testing period' means whichever of the following periods is the shortest:

"(i) the period beginning on June 19, 1980, and ending on the date of the disposition or of the distribution, as the case may be,

"(ii) the 5-year period ending on the date of the disposition or of the distribution, as the case may be, or

"(iii) the period during which the REIT was in existence.

"(i) ELECTION BY FOREIGN CORPORATION TO BE TREATED AS DOMESTIC CORPORATION.—

"(1) IN GENERAL.—If—

"(A) a foreign corporation has a permanent establishment in the United States, and

"(B) under any treaty, such permanent establishment may not be treated less favorably than domestic corporations carrying on the same activities,

then such foreign corporation may make an election to be treated as a domestic corporation for purposes of this section and section 6039C.

"(2) REVOCATION ONLY WITH CONSENT.—Any election under paragraph (1), once made, may be revoked only with the consent of the Secretary.

"(3) MAKING OF ELECTION.—An election under paragraph (1) may be made only subject to such conditions as may be prescribed by the Secretary."

(b) CLERICAL AMENDMENT.—The table of sections for such subpart C is amended by adding at the end thereof the following new item:

"SEC. 897. Disposition of investment in United States real property."

(c) CROSS REFERENCES.—

(1) Subsection (g) of section 871 of such Code (relating to tax on income of nonresident alien individuals) is amended by adding at the end thereof the following new paragraph:

"(8) For special tax treatment of gain or loss from the disposition by a nonresident alien individual of a United States real property interest, see section 897."

(2) Subsection (a) of section 882 of such Code (relating to tax on income of foreign corporation connected with United States business) is amended by adding at the end thereof the following new paragraph:

"(3) For special tax treatment of gain or loss from the disposition by a foreign corporation of a United States real property interest, see section 897."

SEC. 1123. REPORTING REQUIREMENTS.

(a) GENERAL RULE.—Subpart A of part III of chapter 61 of the Internal Revenue Code of 1954 (relating to information returns concerning persons subject to special provisions) is amended by inserting after section 6039B the following new section:

"SEC. 6039C. RETURNS WITH RESPECT TO UNITED STATES REAL PROPERTY INTERESTS.

"(a) RETURN OF CERTAIN DOMESTIC CORPORATIONS HAVING FOREIGN SHAREHOLDERS.—

"(1) GENERAL RULE.—

"(A) RETURN REQUIREMENT.—If this subsection applies to a domestic corporation for the calendar year, such corporation shall make a return for the calendar year setting forth—

"(i) the name and address (if known by the corporation) of each person who was a shareholder at any time during the calendar year and who is known by the corporation to be a foreign person,

"(ii) such information with respect to transfers of stock in such corporation to or from foreign persons during the calendar year as the Secretary may by regulations prescribe, and

"(iii) such other information as the Secretary may by regulations prescribe.

"(B) CORPORATIONS TO WHICH SUBSECTION APPLIES.—This subsection applies to any domestic corporation for the calendar year if—

"(i) at any time during the calendar year 1 or more of the shareholders of such corporation is a foreign person, and

"(ii) at any time during the calendar year or during any of the 4 immediately preceding calendar years, such corporation was a United States real property holding corporation (as defined in section 897(c)(2)).

"(2) SUBSECTION DOES NOT APPLY TO PUBLICLY TRADED CORPORATIONS.—This subsection shall not apply to a corporation the stock of which is regularly traded on an established securities market at all times during the calendar year.

"STOCK HELD BY NOMINEES.—If—

"(A) a nominee holds stock in a domestic corporation for a foreign person, and

"(B) such foreign person does not furnish the information required to be furnished pursuant to paragraph (1)(A) with respect to such stock,

the nominee shall file a return under this subsection with respect to such stock.

"(b) RETURN OF CERTAIN PERSONS HOLDING UNITED STATES REAL PROPERTY INTERESTS.—

"(1) RETURN REQUIREMENT.—If any entity to which this subsection applies has at any time during the calendar year a substantial investor in United States real property, such entity shall make a return for the calendar year setting forth—

"(A) the name and address of each such substantial investor,

"(B) such information with respect to the assets of the entity during the calendar year as the Secretary may by regulations prescribe, and

"(C) such other information as the Secretary may by regulations prescribe.

"(2) EXCEPTION WHERE SECURITY FURNISHED.—This subsection shall not apply to any entity for the calendar year if such entity furnishes to the Secretary such security as the Secretary determines to be necessary to ensure that any tax imposed by chapter 1 with respect to United States real property interests held by such entity will be paid.

"(3) STATEMENTS TO BE FURNISHED TO SUBSTANTIAL INVESTOR IN UNITED STATES REAL PROPERTY.—Every entity making a return under paragraph (1) shall furnish to each substantial investor in United States real property a statement showing—

"(A) the name and address of the entity making such return,

"(B) such substantial investor's pro rata share of the United States real property interests held by such entity, and

"(C) such other information as the Secretary shall be regulations prescribe.

"(4) DEFINITIONS.—For purposes of this subsection—

"(A) ENTITIES TO WHICH THIS SUBSECTION APPLIES.—This subsection shall apply to any foreign corporation and to any partnership, trust, or estate (whether foreign or domestic).

"(B) SUBSTANTIAL INVESTOR IN UNITED STATES REAL PROPERTY.—

"(i) IN GENERAL.—The term 'substantial investor in United States real property' means any foreign person who at any time during the calendar year held an interest in the entity but only if the fair market value of such person's pro rata share of the United States real property interests held by such entity exceeded $50,000.

"(ii) SPECIAL RULE FOR CORPORATIONS.—In the case of any foreign corporation, clause (i) shall be applied by substituting 'person (whether foreign or domestic)' for 'foreign person'.

"(C) INDIRECT HOLDINGS.—The assets of any entity to which this subsection applies shall include its pro rata share of the United States real property interests held by any corporation in which the entity is a substantial investor in United States real property.

"(c) RETURN OF CERTAIN FOREIGN PERSONS HOLDING DIRECT INVESTMENTS IN UNITED STATES REAL PROPERTY INTERESTS.—

"(1) RETURN REQUIREMENT.—If this subsection applies to any foreign person for the calendar year, such person shall make a return for the calendar year setting forth—

"(A) the name and address of such person,

"(B) a description of all United States real property interests held by such person at any time during the calendar year, and

"(C) such other information as the Secretary may by regulations prescribe.

"(2) PERSONS TO WHOM THIS SUBSECTION APPLIES.—This subsection applies to any foreign person for the calendar year if—

"(A) such person did not engage in a trade or business in the United States at any time during the calendar year,

"(B) the fair market value of the United States real property interests held by such person at any time during such year equals or exceeds $50,000, and

"(C) such person is not required to file a return under subsection (b) of such year.

"(d) DEFINITIONS.—For purposes of this section—

"(1) UNITED STATES REAL PROPERTY INTEREST.—The term 'United

States real property interest' has the meaning given to such term by section 897(c).

"(2) FOREIGN PERSON.—The term 'foreign person' means any person who is not a United States person."

"(e) SPECIAL RULES.—

"(1) ATTRIBUTION OF OWNERSHIP.—For purposes of subsection (b)(4) and (c)(2)(B)—

"(A) INTERESTS HELD BY PARTNERSHIPS, ETC.—United States real property interests held by a partnership, trust, or estate shall be treated as owned proportionately by its partners or beneficiaries.

"(B) INTERESTS HELD BY FAMILY MEMBERS.—United States real property interests held by the spouse or any minor child of an individual shall be treated as owned by such individual.

"(2) RETURNS, ETC.—All returns, statements, and information required to be made or furnished under this section shall be made or furnished at such time and in such manner as the Secretary shall by regulations prescribe."

(b) PENALTY FOR FAILURE TO FILE RETURN, ETC.—Section 6652 of such Code (relating to failure to file certain information returns, registration statements, etc.) is amended by redesignating subsection (g) as subsection (h) and by inserting after subsection (f) the following new subsection:

"(g) RETURNS, ETC., REQUIRED UNDER SECTION 6039C.—

"(1) IN GENERAL.—In the case of each failure—

"(A) to make a return required by section 6039C which contains the information required by such section, or

"(B) to furnish a statement required by section 6039C(b)(3),

on the date prescribed therefor (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause and not to willful neglect, the amount determined under paragraph (2) shall be paid (upon notice and demand by the Secretary and in the same manner as tax) by the person failing to make such return or furnish such statement.

"(2) AMOUNT OF PENALTY.—For purposes of paragraph (1), the amount determined under this paragraph with respect to any failure shall be $25 for each day during which such failure continues.

"(3) LIMITATIONS.—

"(A) FOR FAILURE TO MEET REQUIREMENTS OF SUBSECTION (A) OR (B) OF SECTION 6039C.—The amount determined under paragraph (2) with respect to any person for failing to meet the requirements of subsection (a) or (b) of section 6039C for any calendar year shall not exceed $25,000 with respect to each such subsection.

"(B) FOR FAILURE TO MEET REQUIREMENTS OF SECTION 6039C(c).—The amount determined under paragraph (2) with respect to any person for failing to meet the requirements of subsection (c) of section 6039C for any calendar year shall not exceed the lesser of $25,000 or 5 percent of the aggregate of the fair market value of the United States real property interests owned by such person at any time during such year. For purposes of the preceding sentence, fair market value shall be determined as of the end of the calendar year (or, in the case of any property disposed of during the calendar year, as of the date of such disposition)."

(c) CLERICAL AMENDMENT.—The table of sections for subpart A of part III of chapter 61 of such Code is amended by inserting after the item relating to section 6039B the following new item:

"SEC. 6039C. Returns with respect to United States real property interests."

SEC. 1124. SOURCES WITHIN UNITED STATES.

Paragraph (5) of subsection (a) of section 861 of the Internal Revenue Code of 1954 (relating to income from sources within the United States) is amended to read as follows:

"(5) DISPOSITION OF UNITED STATES REAL PROPERTY INTEREST.—Gains, profits, and income from the disposition of a United States real property interest (as defined in section 897(c))."

SEC. 1125. EFFECTIVE DATE.

(a) IN GENERAL.—Except as provided in subsection (b), the amendments made by this subtitle shall apply to dispositions after June 18, 1980.

(b) REPORTING.—The amendments made by section 1123 shall apply to 1980 and subsequent calendar years. In applying such amendments to 1980, such calendar year shall be treated as beginning on June 19, 1980, and ending on December 31, 1980.

(c) SPECIAL RULE FOR TREATIES.—

(1) IN GENERAL.—Except as provided in paragraph (2), after December 31, 1984, nothing in section 894(a) or 7852(d) of the Internal Revenue Code of 1954 or in any other provision of law shall be treated as requiring, by reason of any treaty obligation of the United States, an exemption from (or reduction of) any tax imposed by section 871 or 882 of such Code on a gain described in section 897 of such Code.

(2) SPECIAL RULE FOR TREATIES RENEGOTIATED BEFORE 1985.—If—

(A) any treaty (hereinafter in this paragraph referred to as the "old treaty") is renegotiated to resolve conflicts between such treaty and the provisions of section 897 of the Internal Revenue Code of 1954, and

(B) the new treaty is signed before January 1, 1985,

then paragraph (1) shall be applied with respect to obligations under the old treaty by substituting for "December 31, 1984" the date (not later than 2 years after the new treaty was signed) specified in the new treaty (or accompanying exchange of notes).

(d) ADJUSTMENT IN BASIS FOR CERTAIN TRANSACTIONS BETWEEN RELATED PERSONS.—

(1) IN GENERAL.—In the case of any disposition after December 31, 1979, of a United States real property interest (as defined in section 897(c) of the Internal Revenue Code of 1954) to a related person (within the meaning of section 453(f)(1) of such Code), the basis of the interest in the

hands of the person acquiring it shall be reduced by the amount of any nontaxed gain.

(2) NONTAXED GAIN.—For purposes of paragraph (1), the term "nontaxed gain" means any gain which is not subject to tax under section 871(b)(1) or 882(a)(1) of such Code—

(A) because the disposition occurred before June 19, 1980, or

(B) because of any treaty obligation of the United States.

Subtitle D—Credit Against Crude Oil Windfall Profit Tax for Royalty Owners

SEC. 1131. CREDIT AGAINST CRUDE OIL WINDFALL PROFIT TAX FOR ROYALTY OWNERS.

(a) CREDIT AGAINST WINDFALL PROFIT TAX FOR ROYALTY OWNERS.—

(1) IN GENERAL.—Subchapter B of chapter 65 of the Internal Revenue Code of 1954 (relating to rules of special application for abatements, credits, and refunds) is amended by adding at the end thereof the following new section:

"SEC. 6429. CREDIT AND REFUND OF CHAPTER 45 TAXES PAID BY ROYALTY OWNERS.

"(a) TREATMENT AS OVERPAYMENT.—In the case of a qualified royalty owner, that portion of the tax imposed by section 4986 which is paid in connection with qualified royalty production shall be treated as an overpayment of the tax imposed by section 4986.

"(b) CREDITS AND REFUNDS.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, any amount treated as an overpayment of tax under subsection (a) shall be credited against the tax imposed by section 4986 or refunded to the qualified royalty owner.

"(2) CLAIM FOR CREDIT OR REFUND.—Any claim for credit or refund under this section shall be filed in such form and manner, and at such time, as the Secretary may prescribe by regulations.

"(c) $1,000 LIMITATION ON CREDIT OR REFUND.—

"(1) IN GENERAL.—The aggregate amount which may be treated as an overpayment under subsection (a) with respect to any qualified royalty owner shall not exceed $1,000.

"(2) ALLOCATION WITHIN A FAMILY.—In the case of individuals who are members of the same family (within the meaning of section 4992(e)(3)(C)) at any time during the qualified period, the $1,000 amount in paragraph (1) shall be reduced for each such individual by allocating such amount among all such individuals in proportion to their respective qualified royalty production.

"(3) ALLOCATION BETWEEN CORPORATIONS AND INDIVIDUALS.—

"(A) IN GENERAL.—In the case of an individual who owns at any time during the qualified period stock in a qualified family farm corporation, the $1,000 amount in paragraph (1) applicable to such individual shall be reduced by the amount which bears the same ratio to the credit or refund allowable to the corporation under this section (determined after the application of paragraph (4)) as the fair market value of the shares owned by such individual during such period bears to the fair market value of all shares of the corporation.

"(B) SPECIAL RULE FOR FAMILY MEMBERS.—In the case of individuals who are members of the same family (within the meaning of section 4992(e)(3)(C)) at any time during the qualified period—

"(i) for purposes of subparagraph (A), all such individuals shall be treated as 1 individual, and

"(ii) the amount allocated among such individuals under paragraph (2) shall be $1,000, reduced by the amount determined under subparagraph (A).

"(4) ALLOCATION BETWEEN CORPORATIONS.—If at any time after June 24, 1980, any individual owns stock in two or more qualified family farm corporations, the $1,000 amount in paragraph (1) shall be reduced for each such corporation by allocating such amount among all such corporations in proportion to their respective qualified royalty production.

"(d) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) QUALIFIED ROYALTY OWNER.—The term 'qualified royalty owner' means a producer (within the meaning of section 4996(a)(1)), but only if such producer is an individual, an estate, or a qualified family farm corporation.

"(2) QUALIFIED ROYALTY PRODUCTION.—The term 'qualified royalty production' means, with respect to any qualified royalty owner, taxable crude oil which—

"(A) is attributable to an economic interest of such royalty owner other than an operating mineral interest (within the meaning of section 614(d)), and

"(B) is removed from the premises during the qualified period.

"(3) QUALIFIED PERIOD.—The term 'qualified period' means the period beginning March 1, 1980, and ending December 31, 1980.

"(4) QUALIFIED FAMILY FARM CORPORATION.—The term 'qualified family farm corporation' means a corporation—

"(A) which was in existence on June 25, 1980,

"(B) all of the outstanding shares of stock of which at all times after June 24, 1980, and before January 1, 1981, were held by members of the same family (within the meaning of section 2032A(e)(2)), and

"(C) 80 percent in value of the assets of which (other than royalty interests described in paragraph (2)(A)) were held by the corporation on such date for use for farming purposes (within the meaning of section 2032A(e)(5)).

"(e) CROSS REFERENCE.—

"For the holder of the economic interest in the case of a production payment, see section 636."

(2) TECHNICAL AND CONFORMING AMENDMENTS.—The table of sections for subpart B of chapter 65 of such Code is amended by adding at the end thereof the following new item:

"SEC. 6429. Credit and refund of chapter 45 taxes paid by royalty owners."

(d) DENIAL OF DEDUCTION.—

(1) IN GENERAL.—Part IX of subchapter B of chapter 1 of such Code (relating to items not deductible) is amended by adding at the end thereof the following new section:

"SEC. 280D. PORTION OF CHAPTER 45 TAXES FOR WHICH CREDIT OR REFUND IS ALLOWABLE UNDER SECTION 6429.

"No deduction shall be allowed for that portion of the tax imposed by section 4986 for which a credit or refund is allowable under section 6429."

(2) CONFORMING AMENDMENT.—The table of sections for part IX of subchapter B of chapter 1 of such Code is amended by adding at the end thereof the following new item:

"SEC. 280D. Portion of chapter 45 taxes for which credit or refund is allowable under section 6429."

(3) EFFECTIVE DATE.—The amendments made by this subsection shall apply to taxable years ending after February 29, 1980.

Subtitle E—Inclusion in Wages for Purposes of Social Security and Unemployment Taxes of Employer

SEC. 1141. INCLUSION IN WAGES OF EMPLOYEE TAXES PAID BY EMPLOYER.

(a) SOCIAL SECURITY TAX.—

(1) AMENDMENT OF INTERNAL REVENUE CODE OF 1954.—Paragraph (6) of section 3121(a) of the Internal Revenue Code of 1954 (defining wages) is amended to read as follows:

"(6) the payment by an employer (without deduction from the remuneration of the employee)—

"(A) of the tax imposed upon an employee under section 3101, or

"(B) of any payment required from an employee under a State unemployment compensation law,

with respect to remuneration paid to an employee for domestic service in a private home of the employer or for agricultural labor;".

(2) AMENDMENT OF SOCIAL SECURITY ACT.—Subsection (f) of section 209 of the Social Security Act is amended to read as follows:

"(f) The payment by an employer (without deduction from the remuneration of the employee)—

"(1) of the tax imposed upon an employee under section 3101 of the Internal Revenue Code of 1954, or

"(2) of any payment required from an employee under a State unemployment compensation law,

with respect to remuneration paid to an employee for domestic service in a private home of the employer or for agricultural labor;".

(b) FEDERAL UNEMPLOYMENT TAX.—Paragraph (6) of section 3306(b) of the Internal Revenue Code of 1954 (defining wages) is amended to read as follows:

"(6) the payment by an employer (without deduction from the remuneration of the employee)—

"(A) of the tax imposed upon an employee under section 3101, or

"(B) of any payment required from an employee under a State unemployment compensation law,

with respect to remuneration paid to an employee for domestic service in a private home of the employer or for agricultural labor;".

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply with respect to remuneration paid after December 31, 1980.

(2) EXCEPTION FOR STATE AND LOCAL GOVERNMENTS.—

(A) The amendments made by this section (insofar as they affect the application of section 218 of the Social Security Act) shall not apply to any payment made before January 1, 1984, by any governmental unit for positions of a kind for which all or a substantial portion of the social security employee taxes were paid by such governmental unit (without deduction from the remuneration of the employee) under the practices of such governmental unit in effect on October 1, 1980.

(B) For purposes of subparagraph (A), the term "social security employee taxes" means the amount required to be paid under section 218 of the Social Security Act as the equivalent of the taxes imposed by section 3101 of the Internal Revenue Code of 1954.

(C) For purposes of subparagraph (A), the term "Governmental unit" means a State or political subdivision thereof within the meaning of section 218 of the Social Security Act.

Subtitle F—Telephone Tax

SEC. 1151. TELEPHONE TAX CONTINUED AT 2 PERCENT FOR 1981.

(a) IN GENERAL.—The table contained in paragraph (2) of section 4251(a) of the Internal Revenue Code of 1954 (relating to imposition of tax on communication services) is amended by striking out the last 2 lines of such table and inserting in lieu thereof the following:

"During 1980 or 1981 ---------- 2
During 1982 ---------- 1".

(b) CONFORMING AMENDMENT.—Subsection (b) of section 4251 of such Code is amended by striking out "January 1, 1982" and inserting in lieu thereof "January 1, 1983".

COMMITTEE ON EDUCATION AND LABOR

(Title II)

* * * * *

GUARANTEED STUDENT LOAN PROGRAM—SUBTITLE C

Committee Action

* * * * *

[26] The Committee believes that the consequences of mandating a spending reduction of $350 million in the Guaranteed Student Loan program were not understood by those who made this decision. The Committee rejects denying the availability of Guaranteed Student Loans to 2 million students in fiscal year 1981.

Therefore the Committee provides instead the proposals described below to achieve spending reductions. Two proposals aim at reducing default claims in fiscal year 1981. The first of these provides for reporting student loan defaulters to credit bureaus. This proposal is included in H.R. 5192 as passed by both the House and the Senate. This bill reauthorizes and amends the programs contained in the Higher Education Act of 1965. The proposal is fully described in the Committee reports accompanying H.R. 5192 and S. 1839. The second of these proposals makes the current mailing addresses of student loan defaulters available to the holders of student loans from the Internal Revenue Service. This proposal is identical to H.R. 4155 as passed by the House on June 17, 1980 and is more fully described in the report accompanying that bill.

COMMITTEE ON WAYS AND MEANS

Titles VIII and IX

II. SUMMARY

* * * * *

[356] B. TITLE IX: REVENUE INCREASES

1. MORTGAGE SUBSIDY BOND TAX ACT OF 1980

Title IX includes the provisions of the Mortgage Subsidy Bond Tax Act of 1980 which is designed generally to direct the subsidy from the use of tax-exempt bonds for housing to those individuals who have the greatest need for the subsidy, to increase the efficiency of the subsidy, and to restrict the overall revenue loss from the use of tax-exempt bonds for housing.

a. Single-Family Owner-Occupied Residences

Except in the case of a qualified mortgage bond or a qualified veterans' mortgage bond, interest on any bond is not tax-exempt if a significant portion of the proceeds are to be used for mortgages (or other financing) of owner-occupied residences.

(1) Qualified mortgage bonds

(*a*) *Principal residence requirement*

All mortgages must be for single family residences which can reasonably be expected to become the principal residences of the mortgagors. The residences must be located within the jurisdiction of the issuing authority.

(*b*) *Three-year requirement*

Each mortgagor must not have been a homeowner within the last 3 years. However, exceptions to the 3-year rule are provided for rehabilitation loans, for home improvement loans, and for mortgages placed in targeted areas.

A loan qualifies as a rehabilitation loan if the residence is at least 20 years old at the time of the rehabilitation, 75 percent or more of the external walls of the residence are retained, and the rehabilitation costs are 25 percent or more of the mortgagor's basis in the residence (after the rehabilitation).

Home improvement loans are loans in an amount not in excess of $15,000 for certain alterations or repairs for existing single family residences.

(*c*) *Income limitations*

The income of each mortgagor must not exceed 115 percent of the median family income in the Standard Metropolitan Statistical Area (SMSA), or county, if not in an SMSA, in which the mortgage is placed. In the case of financing provided under any issue for targeted area residences, one-third of the residences in targeted areas financed from the issue may be for any mortgagor regardless of his income. With respect to the remainder of the residences located within targeted areas, the income of the mortgagor cannot exceed 140 percent of median [357] family income for the State or the SMSA where the residence is located, whichever is higher. Both in targeted and non-targeted areas, 50 percent of the mortgage funds must go to families with incomes of 90 percent or less of the median family income in the SMSA.

(*d*) *Targeted areas*

Targeted areas are defined as follows:

(1) census tracts in which 70 percent of the families have incomes of not more than 80 percent of statewide median income, or

(2) areas of chronic economic distress as defined by States subject to the approval of the Secretaries of Treasury and Housing and Urban Development. Criteria used by Treasury and HUD to evaluate a proposed targeted area designation are: (1) the condition of the housing stock, including age and number of abandoned and substandard units, (2) the need of area residents for owner-financing, as indicated by a high percentage of families in poverty, low per capita income, high numbers of welfare recipients, and high unemployment rates, (3) the potential for use of tax-exempt mortgage bonds to improve conditions in the area, and (4) the existence of a housing assistance plan which provides a displacement program and a public improvements and services program (similar to that required by HUD under its Community Development Block Grant program).

(*e*) *Purchase price limitation*

The purchase price of each residence must not exceed 80 percent of the average purchase price in the preceding year in the SMSA in which the mortgage is placed. In the case of targeted areas, the percentage would be

110 percent of the average purchase price in the SMSA. Average purchase price means average purchase price of a new home, in the case of a purchase of a new home, and average purchase price of an existing home, in the case of the purchase of an existing home. In the case of home improvement loans, the purchase price limitation would not apply.

(*f*) *New mortgage requirement*

Except for construction period loans, bridge loans or similar temporary initial financing, and an existing mortgage in the case of a rehabilitation loan, none of the bond proceeds can be used to acquire or replace an existing mortgage.

(*g*) *Low downpayment requirement*

At least 75 percent of the lendable proceeds (other than for rehabilitation loans and home improvement loans) must be used for mortgages which have a 95-percent loan to value ratio. In addition, certain graduated payment mortgages with as low as a 90-percent loan to value ratio will qualify for purposes of the 75-percent requirement.

(*h*) *Assumptions of mortgages*

Individuals assuming a mortgage originally financed with tax-exempt bonds must meet the principal residence requirement, the three-year requirement, the purchase price limitation, and the income limitation.

[358] (*i*) *Market limitations*

The total amount of housing bonds that could be issued in a State each year would be limited to the greater of $50,000,000 or 5 percent of the average of all mortgages originated in that State in the preceding 3 years. The limit is to be allocated among governmental units within a State first on the basis of mortgages originated in the smallest jurisdiction having authority to issue housing bonds. This allocation can be changed by agreement among issuing subdivisions or by State statute.

(*j*) *Required targeted portion*

If an issuing jurisdiction includes a targeted area, at least 20 percent of the lendable proceeds of a bond issue (but no more than 40 percent of the market share of the targeted areas) must be made available for one year for mortgage loans in the targeted areas in the issuing jurisdiction.

(*k*) *Multiple originators' requirement*

There must be more than one person who originates mortgages from the bond proceeds, unless there is only one willing and able originator or there is a sound public purpose for using only one originator.

(*l*) *Bond issue approval*

All bonds must be submitted to a State agency for the agency's opinion as to whether or not the issue meets the market limitation and targeted portion requirement. The State agency must issue an opinion within 30 days after submission.

(*m*) *Arbitrage restrictions*

The effective interest rate on mortgages to homeowners is limited to 1.0 percentage point above the yield to maturity to the purchasers of the bonds, calculated on the date of issuance. In addition, arbitrage is not permitted on reserves that exceed 150 percent of the annual debt service on the bonds. Finally, arbitrage earnings other than the 1.0 percentage point on home mortgages must be returned to the mortgagors.

(*n*) *Termination*

The issuance of single family, owner-occupied housing bonds will be permitted under the above rules only for 2 years from the date of enactment. Interest on such bonds issued after this 2-year period will be taxable.

(*o*) *Miscellaneous*

All tax-exempt housing bonds issued after the date of enactment must be in registered form. No advance refunding of mortgage subsidy bonds will be permitted after the date of enactment.

(2) Qualified veterans' mortgage bonds

(*a*) *Residences for veterans*

Substantially all of the proceeds from the bonds must be used to provide residences for veterans.

[359] (*b*) *New mortgage requirement*

Except for construction period loans, bridge loans or similar temporary initial financing, and an existing mortgage where the residence is substantially rehabilitated, none of the proceeds of the bonds can be used to replace or acquire an existing mortgage.

(*c*) *General obligation requirement*

Both the principal and interest of the bond must be secured by the general obligation of a State.

(*d*) *Miscellaneous*

All qualified veterans' mortgage bonds issued after the date of enactment must be in registered form. No advance refunding of these bonds will be permitted after the date of enactment.

(3) Effective date and transitional rules

General rule.—The bill applies to bonds issued after April 24, 1979, with eight exceptions:

(*a*) *Official action*

Tax-exempt housing bonds may be issued without complying with the requirements of a qualified mortgage bond if, prior to April 25, 1979, the governing body of the unit having authority to issue the bonds had taken official action which indicated an intent to issue such bonds. A qualifying official action would include an authorization to hire bond counsel, an authorization to hire bond underwriters, or an authorization to make a market analysis with respect to a specified bond issue. Such authorization must be a specific authorization relating to a specified bond issue.

In the case of a sized or tentatively sized bond issue, only the amount of

bonds the issued reasonably intended to issue based on the documentation that existed before April 25, 1979, will qualify under this rule.

In the case of an unsized bond issue, only an amount of bonds (exclusive of issuance costs and a reasonably required reserve) equal to the amount of mortgages for which the lenders had given firm commitments to home buyers within 9 months after the bonds are issued will qualify under this rule. Bond proceeds for which commitments were not made within 9 months from the issuance date of the bonds must be used to redeem bonds. The uncommitted proceeds must be used to redeem obligations within 15 months of the issuance date.

(b) Exception for State housing finance agencies

The bill also provides a special exemption for State housing finance agencies which permit such an agency to issue up to $150 million of tax-exempt indebtedness even though it took no action prior to April 25, 1979. However, the $150 million is reduced by any tax-exempt indebtedness issued under the official action rule for owner-occupied housing by any State housing finance agency within a State which provides owner financing from the proceeds of tax-exempt obligations. In addition, substantially all of the lendable proceeds from the bond issue must be committed by firm commitment letters to home buyers by January 1, 1981.

[360] *(c) Special rules*

The bill contains five special rules which provide that the restrictions on owner-occupied housing do not apply to certain obligations. Each of these rules is subject to dollar limitations. Each of these rules requires that affidavits be filed by a majority of the members of the governing body of the governmental unit in order to qualify under the rule. In addition, substantially all of the lendable proceeds from each bond issue that requires any of these special rules must be committed by firm commitment letters to home buyers by January 1, 1981.

(d) Rehabilitation programs

Tax-exempt indebtedness may be issued without complying with the requirements of a qualified mortgage bond with certain limitations in the case of certain ongoing local governmental programs which provide rehabilitation loans. The maximum amount of tax-exempt indebtedness that can be issued under this rule is the lesser of $10 million or the aggregate amount of loans made under a qualified rehabilitation program from January 1, 1977 until April 24, 1979. This amount is reduced by any indebtedness issued under the official action rule. In addition, substantially all of the lendable proceeds of the indebtedness issued under this rule must be committed by firm commitment letters to home owners by January 1, 1981.

(e) $50 per capita exception for local governments

Tax-exempt housing bonds may be issued without complying with the requirements of a qualified mortgage bond: (1) if there is written evidence that, prior to April 24, 1979, the governing body of the issuing local governmental unit had taken action indicating an intent to issue (or establish a program for issuing) owner-occupied housing bonds, (2) the local government unit had authority to issue such bonds by October 30, 1979, and (3) the majority of the members of the governing body of the local governmental unit file affidavits that the governmental unit intended to issue tax-exempt housing bonds (or establish a program to issue tax-exempt housing bonds). The maximum amount that qualifies under this rule is $50 multiplied by the population in the local governmental unit reduced by the amount of any obligations for owner-occupied housing issued under the other transition rules.

(f) Rollover rule

Tax-exempt indebtedness outstanding on April 24, 1979, may be rolled-over where the maturity date of the tax-exempt housing bond is no longer than 2 years after the life of the initial mortgages on the properties.

(g) Special rule for projects under development

Tax-exempt housing bonds for the financing of projects in the development stage may be issued where, prior to April 25, 1979, (1) substantial expenditures had been made for detailed plans and specifications, and (2) tax-exempt construction financing had been issued with respect to the project or there exists written evidence that a governmental unit intended to issue tax-exempt bonds to finance the acquisition of the unit by home buyers.

[361] *(h) Rule for local governments whose home rule powers were modified on April 26, 1979*

The bill contains an additional rule which provides that the restrictions on owner-occupied housing do not apply to obligations issued by certain local governments whose home rule powers were modified on April 26, 1979. This rule applies where prior to April 25, 1979, the governing body of a local government had authorized a demographic or related study, but was waiting enactment of the legislation modifying its home rule powers prior to issuing tax-exempt housing bonds. Under this rule, substantially all the lendable proceeds of a bond issue must be committed by firm commitment letters to home buyers by January 1, 1981.

b. Multi-Family Rental Housing

(1) Applicable rules

(a) General rules

The present exception for tax-exempt industrial development bonds will be limited to obligations from which substantially all the proceeds are to be used for multi-family rental housing projects in which at least 20 percent of the units are to be occupied by individuals of low or moderate income, determined in a manner con-

sistent with the Leased Housing Program under Section 8 of the United States Housing Act of 1937. In the case of bonds issued before January 1, 1981 (which do not come within the transitional rules), the 20-percent requirement need only be met for a period of 20 years.

(*b*) *Miscellaneous*

All tax-exempt housing bonds issued after the date of enactment must be in registered form.

(2) Effective date and transitional rules

General rule.—The bill applies to bonds issued after April 24, 1979, with three exceptions:

(*a*) *Official action*

Tax-exempt housing bonds may be issued without complying with the requirements of the bill if, prior to April 25, 1979, the governing body of the unit having authority to issue the bonds had taken official action which indicated an intent to issue such bonds. A qualifying official action would include an authorization to hire bond counsel, an authorization to hire bond underwriters, or an authorization to make a market analysis with respect to a specified bond issue. Such authorization must be a specific authorization relating to a specified bond issue.

In the case of a sized or tentatively sized bond issue, only the amount of bonds the issuer reasonably intended to issue based on the documentation that existed before April 25, 1979, will qualify under this rule.

(*b*) *Rollover rule*

Tax-exempt indebtedness outstanding on April 24, 1979, may be rolled-over where the maturity date of the tax-exempt housing bonds [362] is no longer than 2 years after the life of the initial mortgages on the properties.

(*c*) *Special rule for projects under development*

Tax-exempt housing bonds for financing of projects in the development stage may be issued if a plan specifying the number and location of rental units was approved on or before April 24, 1979, by a governing body of a State or local government or a governing body of a State or local housing agency or a similar agency, and substantial expenditures for site improvement for the project had been incurred on or before such date.

As an alternative to this rule, tax-exempt indebtedness may be issued for projects if, prior to April 25, 1979, a plan specifying the number and location of rental units was preliminarily approved by the Secretary of HUD pursuant to section 221(d)(4) or section 232 of the United States Housing Act of 1937 and fees for the processing of the project application and other expenditures had been incurred on or before April 24, 1979.

2. ESTIMATED INCOME TAX PAYMENTS BY LARGE CORPORATIONS

Title IX requires large corporations to pay estimated taxes equal to at least 60 percent of their current year's tax liability, effective for taxable years beginning after December 31, 1980.

Corporations subject to this new requirement are those corporations (including any predecessor corporations) which had taxable income of $1 million or more in any of the three taxable years immediately preceding the taxable year involved.

* * * * *

[363] 4. TELEPHONE EXCISE TAX

Title IX delays by one year the remaining scheduled reductions in the communication services (telephone, etc.) excise tax. Thus, for 1980 and 1981, the tax will be 2 percent. For 1982, the tax will be 1 percent, and the tax will expire on January 1, 1983.

[364] 5. FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT OF 1980

Under present law, capital gains realized by foreign investors on the sale of U.S. property are generally not subject to U.S. tax unless the property is held in connection with a U.S. trade or business.

Title IX includes the provisions of the Foreign Investment in Real Property Tax Act of 1980 which subject foreign investors to U.S. tax on gains on the sale or other disposition of U.S. real property. Foreign investors also will be taxed on gains realized through the sale or exchange of an interest in a corporation, trust, or partnership formed or availed of to hold U.S. real property interests. Reporting requirements are established to identify when taxable transactions have occurred. Title IX contains no withholding provisions—neither the purchaser of the property nor any U.S. agent is required to withhold any tax from the seller or to take any other action to ensure that the foreign seller pays the tax due on the sale.

The provision is effective for sales or other dispositions of U.S. real property interests occurring after June 18, 1980. However, to the extent that a provision conflicts with a U.S. treaty obligation, the provision will not take effect until 1985.

6. INCLUSION IN WAGES OF SOCIAL SECURITY AND UNEMPLOYMENT TAXES PAID BY EMPLOYERS

Title IX provides that an employer payment of an employee's social security or unemployment tax liability (except with respect to domestic service) is includible in wages for purposes of social security and unemployment insurance taxes and social security benefits. Except in cases of employment by certain State or local governmental units, the provision applies with respect to remuneration paid after December 31, 1980. The provision applies with respect to payments by certain State or local governmental units after December 31, 1983.

* * * * *

III. EXPLANATION OF PROVISIONS

* * * * *

[430] 3. SUBTITLE C: UNEMPLOYMENT COMPENSATION SAVINGS

a. Termination of Provision Providing Federal Reimbursement From the FUBA Account for Unemployment Benefits Paid To CETA Workers (Sec. 891)

Present Law and Background

The Comprehensive Employment and Training Act (CETA) requires that all persons employed in CETA public service jobs be provided unemployment benefits under the same conditions, and to the same extent, as other employees doing the same type of work. Any unemployment compensation benefits paid to former CETA workers are initially paid out of the State unemployment insurance trust fund. The State is then reimbursed from general revenues contained in the Federal Unemployment Benefit Account (FUBA) for the amount of the unemployment compensation that was based on CETA public service employment. This Federal reimbursement was provided under P.L. 94-444, the Emergency Jobs Program Extension Act of 1976, which amended the Emergency Jobs and Unemployment Assistance Act of 1974 (P.L. 93-567).

Reasons for Change

It is the position of the Committee that the cost of unemployment benefits based on CETA employment should be borne by the CETA program.

Explanation of Provision

The provision terminates Federal reimbursement to States from the FUBA account for unemployment compensation benefits paid to former CETA workers. Title II of the Emergency Jobs and Unemployment Assistance Act of 1974 (P.L. 93-567), which provides such reimbursement, is amended to provide that the term "public service wages" does not include remuneration for service performed in weeks which begin after October 1, 1980.

The Committee assumes that there will be no change in the CETA law requiring CETA workers to have the same unemployment com-[431]pensation protection as other workers. Rather, it is assumed that States will be reimbursed for such benefits from CETA grants to prime sponsors.

Effective Date

The provision is effective for services performed in weeks which begin after October 1, 1980.

b. Increase in Length of Service in Armed Forces Required of Ex-Military Personnel for Purposes of Unemployment Benefits (Sec. 892)

Present Law and Background

Under present law, Federally funded unemployment benefits are provided to former military personnel upon their separation from military service if they meet the qualifying requirements of the State in which they apply for unemployment compensation. The military service of the individual qualifies as wages or employment in the determination of eligibility under the State unemployment compensation law only if (1) the person had served continuously for 90 days or more prior to separation and (2) the individual was separated under other than dishonorable or bad-conduct circumstances. If the individual meets these requirements, the entire period of military service can be counted when determining whether the individual meets the wages or employment qualifications of the State in which he or she files an application for benefits. The 90-day continuous service requirement does not apply where separation was the result of the service-incurred injury or disability.

Reason for Change

In recent years, the number of persons leaving the military before their term of enlistment has expired has been on the increase. Questions have been raised about the number of individuals who serve shortened terms of service on the presumption that unemployment compensation will be available to them after only 90 days of active duty. It is the Committee's position that unemployment compensation should be available only to those persons who have completed a more lengthy period of service.

Explanation of Provision

Title VIII changes the present 90-day continuous service requirement to 365 days.

Effective Date

The provision is effective for individuals who begin active service after October 1, 1980.

c. Termination of Extended Unemployment Insurance Benefits When Paid Under an Interstate Claim in a State Where the Unemployment Level Has Not Triggered the Extended Benefits Period (Sec. 893)

[432] Present Law and Background

In general, States pay unemployment benefits up to a maximum of 26 weeks. In times of high unemployment, the Federal-State extended unemployment compensation program becomes effective. Under the extended benefits program, up to a maximum of 13 additional weeks of benefits are payable to individuals who exhaust regular benefits. This extended benefits program goes into effect on a State-by-State basis if the insured unemployment rate (IUR) in a State reaches a specified level, or in all States if the national IUR exceeds a specified level.

Under present law, a State is required to pay unemployment benefits to individuals who meet the State qualifying requirements even if they are or become residents of another State. If an individual works and qualifies for benefits in a State in which the extended benefits program

is in effect, the State will be required to pay him such benefits (so long as he or she meets the eligibility requirements for such benefits) even if the individual changes residence to a State in which the extended benefits program is not in effect because unemployment in the new State of residence has not reached the extended benefits trigger level.

In general, an individual obtains benefits in a new State by filing an interstate claim under an interstate benefit payment plan against the State in which the individual earned his or her wages.

Reasons for Change

The purpose of the extended benefits program is to provide additional protection to individuals in States with high unemployment by providing those individuals with additional time to find a job. The Committee believes that this additional protection should be provided only to unemployed individuals actually residing in a State with high unemployment.

Explanation of Provision

Title VIII terminates the payment of extended benefits to an individual who changes his or her residence to a State in which such benefits are not being paid because unemployment in the new State has not reached the extended benefit trigger level. Specifically, title VIII terminates an individual's eligibility for extended benefits after he or she has collected two weeks of extended benefits through an interstate claim under an interstate benefit payment plan. The provision does not change other conditions of eligibility or benefit computation that may differ between the two States. Further, the individual will continue to be eligible for regular State unemployment compensation benefits for which he or she qualified in his or her former State of residence.

The intent of the provision is to deny extended benefits to those persons who earn their qualifying wages in one State, move to a State in which the extended benefits program is not in effect, and then file an interstate claim under an interstate benefit payment plan against the first State based upon wages or employment in that State. It is not intended to apply to individuals who have worked in two or more [433] States and file an interstate claim for purposes of combining the wages or employment in those States in order to qualify for benefits under the law of the paying State.

Effective Date

The provision applies to weeks of unemployment beginning after October 1, 1980. However, the provision will not become a requirement of State law for any week which begins before June 1, 1981. Where a State legislature does not meet in 1981 in a regular session which begins before April 1, 1981, the provision is not to be a requirement of State law until June 1, 1982.

[434] B. TITLE IX. REVENUE INCREASES

1. SUBTITLE A: MORTGAGE SUBSIDY BOND TAX ACT OF 1980 [1]

Present Law

(1) Tax-exempt bonds generally

Under present law (Code sec. 103), interest on State and local governmental bonds generally is exempt from Federal income taxation. In contrast, interest on virtually all Federal debt obligations is subject to Federal income taxation. However, in order for the interest on a State or local government bond to qualify for tax exemption, the bond must satisfy certain restrictions placed on the use of its proceeds. One statutory restriction applies to industrial development bonds. Another restriction is the arbitrage provision.

(2) Industrial development bonds (IDBs)

(*a*) *General*

Present law restricts the use of industrial development bonds (IDBs) issued by State and local governments. Prior to 1968, interest on State and local government bonds was exempt from Federal income taxation regardless of the manner in which the governmental unit used the proceeds of its bonds. As a result, State and local governments could issue bonds for the benefit of private industries, that is, industrial development bonds. Such bonds typically were used to finance industrial plants. In the case of an IDB, the State or local government [435] would purchase the facility and either lease or sell (on an installment basis) the facility to a for-profit corporation for the amount needed to pay the interest and amortize the principal on the bond. Usually, the State or local government assumed no liability for payment of the bonds. Instead, payment of the interest and principal was guaranteed from the lease or installment sales contract.

In 1968, in response to the widespread use of industrial development bonds, concern over their potentially adverse effect on interest rates on traditional State and local government obligations, Federal revenues, and interstate competition for the location of new industrial plants, Congress substantially restricted the uses for which tax-exempt industrial development bonds could be issued. Under current law (Code sec. 103(b)), interest on industrial bonds is taxable,[2] with certain exceptions.

(*b*) *Housing bonds*

One exception to the general rule

[1] The Committee on Ways and Means previously reported the provisions of the Mortage Subsidy Bond Tax Act of 1980 as H.R. 5741 (H. Rept. 96-678). The House of Representatives passed H.R. 5741 on March 26, 1980.

[2] Under Code section 103(b), a State or local government obligation is an industrial development bond if all or a major portion of the proceeds are to be used directly or indirectly in a trade or business of a person (other than a State or local governmental unit or a tax-exempt organization) and payment of principal or interest on the obligation is secured by an interest in, or derived from payment with respect to, property used in a trade or business.

of taxability of interest on industrial development bonds is for industrial development bonds used to provide residential property for family units (Code sec. 103(b)(4)(A)).[3] The explanation of this exception in the legislative history of the Revenue and Expenditure Control Act of 1968 makes no distinction between multi-family rental housing and single-family owner-occupied residences. However, at that time, tax-exempt bonds generally were not being issued for single-family residences.

Under this exception, State and local governments currently are allowed to issue tax-exempt bonds for rental housing if the housing is owned and operated by a private party. Since the bond proceeds are used in the trade or business of a private party and the interest and principal are paid by that trade or business, the bonds are industrial development bonds. Nonetheless, interest on these bonds is exempt from Federal income taxation because of the special treatment afforded to industrial development bonds for residential real property for family units. The exemption applies regardless of whether the rental units are leased to low, moderate or high income individuals. However, bond proceeds may not be used to provide housing facilities used on a transient basis, such as a hotel.

State and local governments may also issue tax-exempt bonds for rental housing if the facilities are owned and operated by a governmental unit or a tax-exempt organization. Such bonds are not industrial development bonds because the proceeds are used in a trade or business of an exempt person. As a result, interest on the bonds is exempt from Federal income taxation under the general rule of Code section 103(a). As is the case with industrial development bonds for [436] rental housing, the exemption applies regardless of whether the rental units are leased to low, moderate or high income individuals.

State and local governments are also permitted, under current law, to issue tax-exempt bonds for owner-occupied housing. Both tax-exempt industrial development bonds and bonds which some have considered to be tax-exempt under the general rule of Code section 103(a) have been issued under State and local governments' owner-occupied housing programs. In both instances, the State or local government will issue a bond and lend the bond proceeds to private individuals, at a higher interest rate than that on the bonds, for the purchase or rehabilitation of homes. In general, the procedure used to direct the bond proceeds to individual borrowers will determine whether the bond is an industrial development bond. In addition, whether the bond is a tax-exempt industrial development bond or a tax-exempt bond under the general rule of Code section 103(a), the exemption applies regardless of whether the mortgage loan recipients are low, moderate, or high income individuals.

(3) Arbitrage restrictions

Present law also restricts the tax-exempt use of arbitrage bonds (Code sec. 103(c)). Prior to the enactment of section 103(c) in 1969, it was unclear whether State and local governments could earn profits solely by virtue of their ability to issue tax-exempt bonds. The opportunity to earn such profits arose because the exemption from Federal income tax of the interest on State and local government bonds allowed State and local governments to issue bonds at low interest rates. It was argued by some that the bond proceeds could then, in turn, be invested in taxable securities paying higher interest rates. The differential in interest rates represented a profit to the issuer, commonly referred to as arbitrage.

In 1969, in order to clarify present law and because of Congress' concern that arbitrage bonds represented indirect subsidies to State and local governments, that arbitrage bonds prevented taxation of interest on Treasury obligations where arbitrage bonds proceeds were invested in Treasury obligations and that arbitrage bonds increased interest rates on tax-exempt obligations generally, Congress enacted legislation designed to prohibit the use of tax-exempt bonds for the purpose of generating arbitrage. Sec. 601(a) of the Tax Reform Act of 1969 provided that interest on arbitrage bonds[4] was not exempt from Federal income tax. Under that provision, with two exceptions, bond proceeds may not be invested in securities which pay a materially higher yield than the bonds. The first exception provides that bond proceeds placed in a reasonable reserve account may be invested in securities which pay a higher yield. The second exception provides [437] that bond proceeds may be invested in higher yield securities for a temporary period until such proceeds are needed for the purpose for which the bond was issued.

The regulations under section 103(c) provide three basic rules in determining whether the return on investments is materially higher than the yield on the bonds. The general rule of the regulations allows an issuer to acquire securities with a yield of ⅛ of 1 percentage point higher than the yield of the bonds. This provision is enforced through the denial of tax exemption to a bond the proceeds of which are reasonably expected to be invested in securities on which the yield exceeds the yield on the bond by more than ⅛ of 1 percentage point.

In addition to the ⅛ of 1 percentage point arbitrage, an issuer is

[3] In addition to housing, exempt activities include sports facilities, convention or trade show facilities, airports, docks, and wharves, solid waste disposal facilities, air and water pollution control facilities, and several other activities.

[4] Arbitrage bonds are defined as obligations the proceeds of which are reasonably expected to be used to purchase securities which pay a yield materially higher than the yield on the State or local government obligations. Arbitrage bonds are also defined as obligations the proceeds of which are reasonably expected to be used to replace funds which were used to acquire higher yield securities. The effect of the provision is to limit the investment yield on securities acquired by a State or local government with the proceeds of its own obligations.

also allowed in certain circumstances to recover administrative costs through arbitrage. Current Treasury regulations allow the recovery of such costs by excluding them from the computation of the yield on the obligations acquired with bond proceeds, if such obligations are acquired to carry out the purpose of the governmental program for which bonds are issued. Thus, in the case of an owner-occupied housing program, administrative costs paid by the mortgagor as a part of each mortgage payment are not taken into account in determining the yield on the mortgage notes (i.e., the obligations acquired with the bond proceeds). As a result of this rule, the interest rate on mortgages acquired with bond proceeds may exceed the actual interest rate on the bonds by one-eighth of 1 percentage point plus the amount necessary to recover administrative costs.

In the case of mortgage bonds, administrative costs are defined as: (1) the cost of issuing (such as attorneys' fees, printing costs and other similar costs), carrying, or repaying the bond; (2) the underwriters' discount; and (3) the cost of purchasing, carrying, and selling or redeeming the mortgage bonds. The cost of carrying mortgage bonds has been interpreted by some as including costs which relate to the operation of the mortgage loan program. Such costs, known as program costs, include servicing fees paid to a savings and loan association, bank or mortgage lender, organization fees paid to such entities, special insurance costs, and any other costs relating to the mortgage loans.

Under present law, no restrictions or limitations have been placed on the total amount of administrative costs which may be passed on to the mortgagor.[5] In addition, administrative costs which relate to bond proceeds placed in reserve accounts have customarily been charged to mortgagors. In other words, a mortgaor will typically be required to pay the administrative costs with respect to the bonds used to provide funds for the mortgage loan and the administrative costs with respect to the bonds used to establish a reserve account. These administrative costs are recovered either by requiring the [438] mortgagor to pay the costs at the time of purchase or by increasing the stated interest rate on the mortgage loans.[6]

As indicated above, State and local governments also are able to earn arbitrage under the temporary period and reserve account exceptions to the arbitrage rules. The temporary period exception allows the issuer to invest the entire amount of the bond proceeds without restriction on the yield until the proceeds are needed for home mortgage loans. Treasury regulations provide that a temporary period is the 3-year period beginning on the date of issuance provided the issuer proceeds with due diligence in expending the bond proceeds for their stated purpose.

In addition to the arbitrage under the temporary period exception, an issuer is also able to earn substantial arbitrage under the reserve account exception. That rule allows an issuer to establish a reasonably required reserve account with bond proceeds. Unless the issuer can demonstrate to the IRS that a higher amount is reasonable, the account may not exceed 15 percent of the original face amount of the bonds. Under present law, an issuer is entitled to an unrestricted yield on obligations purchased with those bond proceeds placed in a reserve account.[7]

Under present law, an issuer generally is not required to reduce the size of the reserve accounts as the bonds or mortgages are retired. As a result, the ratio of the mortgage reserve account and debt service account to the actual monthly mortgage payments and to the actual debt service payment on the bonds will increase above 150 percent. Similarly, the ratio of the reserve account to the total outstanding bonds will increase above 15 percent.[8]

[439] Present law also places no restrictions on the use of the arbitrage generated from mortgage loans, or from temporary period and reserve account investments. In some instances, these profits will be used to provide interest rebates to mortgagors. However, in most instances, these profits will revert to the issuers.

[5] As a result of the absence of any limitation or restrictions on issuance costs, the total cost relating to the issuance of bonds and relating to the operation of the mortgage loan program will increase the effective interest rate on a mortgage loan by 1.00 to 1.50 percentage points. Typically, ⅓ of the increases will reflect issuance costs and ⅔ of the increase will reflect program costs.

[6] In a typical transaction, a mortgagor will be required to pay an origination fee, an insurance charge and a participation fee at the time he purchases a house. The amounts which are customarily referred to as points increase the effective interest rate on the mortgage loan by approximately 0.6 percentage point. In addition, a servicing fee to the lending institution which services the mortgages, additional insurance fees and other fees are required to be paid by the mortgagor as part of his monthly payment on the mortgage loan. These costs are included in the stated interest rate on the mortgage loan. As a result of the ability of the issuer to recover the costs by requiring them to be paid by the mortgagor, the effective interest rate on mortgages will exceed the yield on the bonds by approximately 1.125 to 1.625 percentage points.

[7] In a typical single-family housing bond program, the reserve accounts will be 12 to 13 percent of the original face amount of the bond. Customarily, issuers will establish 2 reserve accounts from bond proceeds. The first reserve account is referred to as the mortgage reserve fund. This reserve will generally equal 150 percent of the regularly scheduled monthly payments due on all the mortgage loans. This reserve is designed to provide funds to pay the debt service on the bonds in the event that a major portion of the mortgagors are delinquent on their mortgage payments for the entire month. It also provides a defense in the case of defaults during the time necessary to recover insurance on the mortgage or to liquidate the security for the mortgage. The second reserve, referred to as the debt service reserve fund, will be equal to 150 percent of the highest annual debt service payable on the bonds at the time of issuance. This reserve account is designed to provide funds to pay the debt service on the bonds in the event of an unusually high number of defaults or delinquencies on the mortgage loans.

[8] For example, in a typical program, one-half of the mortgages can reasonably be expected to be retired by the end of 12 years because of prepayments. This, in turn, will cause a portion of the bonds to be retired at the end of 12 years (approximately one-half of the bonds). However, the reserve accounts will remain at their original levels and the bonds used to fund these accounts will remain outstanding for the remainder of the maturity of the bonds.

In addition to the general rule which limits the yield on mortgage loans made with bond proceeds to ⅛ of 1 percentage point plus administrative costs, present law provides two alternative rules.

The first alternative provides that bond proceeds may not be invested in mortgage loans on which the yield exceeds the yield on the bonds by more than ½ of 1 percentage point. The effect of this rule is to limit the amount of arbitrage an issuer may obtain to ½ of 1 percentage point. An issuer which elects to use this alternative rule is, however, not entitled to invest the bond proceeds for a temporary period at an unlimited yield. Thus, all bond proceeds may only be invested in securities (including mortgages) on which the yield exceeds the yield on the bond by ½ of 1 percentage point or less. As with the ⅛ of 1 percentage point rule, administrative costs may be recovered in addition to the permitted arbitrage so that the issuer's arbitrage cannot exceed ½ of 1 percentage point plus an amount necessary to reimburse the issuer for administrative costs. An issuer which elects this ½ of 1 percentage point rule is also allowed to invest bond proceeds placed in a reasonable reserve at an unrestricted yield.

In lieu of the general rule (i.e., ⅛ of 1 percentage point) or the first alternative rule (i.e., ½ of 1 percentage point), an issuer may use a second alternative rule which limits the yield on the securities acquired with bond proceeds to 1½ percentage points above the yield on the bonds. This rule is a special rule that may be used only where the proceeds of the bonds are used to finance governmental programs. Under the 1½ percentage rule, program costs must be recovered by the issuer from this spread rather than added to the permitted spread. In addition to the arbitrage on mortgage loans, an issuer is also allowed to invest the entire bond proceeds at an unrestricted yield under the temporary period rule. Moreover, bond proceeds placed in a reasonable reserve account may be invested in securities at an unrestricted yield.

Background on the Use of Tax-Exempt Bonds for Owner-Occupied Housing

(1) Description of an owner-occupied housing bond program

(*a*) *General*

In a typical housing bond program, a State or local government will issue a revenue bond for the purpose of making low-interest mortgage loans for single-family homes. The lower tax-exempt interest rates on the bonds allow the State or local government to relend the bond proceeds to individuals at approximately one or two percentage points below conventional home mortgage interest rates. The bonds are repaid from the mortgage payments collected from the individual homeowner-mortgagors.

Generally, the sole security for the bonds is the pool of mortgage loans made with the bond proceeds and reserve accounts established [440] from the bond proceeds.[1] In addition, private insurers and the Federal government, through its VA and FHA programs, typically insure repayment of the mortgages and, thus indirectly, the bonds. Usually, there is no general obligation for repayment on the part of the issuing State or local government.

Mortgage loans are typically made through lending institutions.[2] These institutions also service the loans. Loan applicants must satisfy the credit criteria established for the program. A commercial trustee will generally act as trustee of the repayment proceeds and make interest and principal payments to bondholders. Usually, the issuing government's primary role is issuing the bonds and establishing guidelines for eligibility for mortgage loans.

Guidelines for eligibility for mortgage loans under existing mortgage subsidy bond programs have differed for each issuing governmental unit. Usually, these programs limit participation to low- and moderate-income individuals. However, the definition of low to moderate income has been subject to different meanings for each issuer. Some jurisdictions have conducted bond-financed urban renewal and community development programs in which no income restrictions were placed upon participants.

(*b*) *Certain new construction programs*

In addition to making mortgage money available to home purchasers, some State and local governments operate programs that provide low-interest loans to single-family housing developers. Under such a program, the governmental agency will make construction period loans to developers. Typically, the loan proceeds are obtained through the use of short-term tax-exempt notes. In order to qualify for such loans, developers are usually required to construct single-family housing which will be sold to individuals meeting the issuer's income eligibility requirements.

The short-term notes used to provide construction period loans are industrial development bonds since the note proceeds are used in the trade or business of the developers. However, the notes are tax exempt under the exception for industrial development bonds for residential real property for family units.

In certain instances, a program which provides construction period loans to developers has been combined with a program which provides mortgage loans to home purchasers. In such instances, the State or local government will also issue long-term tax-exempt bonds for owner-occupied

[1] Typically, 12 to 13 percent of the bond proceeds are placed in a reserve account. For example, for a $100 million bond issue, $12 to $13 million of the proceeds would be placed in a reserve account. Under the section 103(c) arbitrage rules, bond proceeds placed in a reasonable reserve account (but generally not more than 15 percent) may be invested at an unlimited yield.

[2] Some State housing agencies and at least one local housing agency originate and service their own loans.

housing and designate that the bond proceeds are to be used to provide mortgage loans for the particular housing units constructed by the participating developers. Typically, the bond proceeds [441] will be reloaned to home purchasers through one of the procedures described below.

(c). Relending procedures

Three procedures are generally used to funnel bond proceeds to individuals under an owner-occupied housing program. Under each procedure, the State or local government will issue bonds and lend the proceeds to private individuals for the purchase or rehabilitation of homes. One procedure, commonly called the loan to lenders procedure, involves the use of tax-exempt industrial development bonds and the other two procedures, commonly called the agency procedure and the forward commitment mortgage purchase procedure, involve the use of tax-exempt bonds which are generally not considered to be industrial development bonds.

Loans to lenders procedure

Under the loans to lenders procedure, a State or local government issues bonds and lends the bond proceeds to lending institutions which in turn use the proceeds to finance home mortgage loans. The issuing government agency typically will require that the lending institutions offer mortgage loans at a stipulated interest rate. Additionally, the government agency may establish income eligibility requirements and other restrictions on the loans. The bonds are industrial development bonds since the proceeds are used in the trade or business of the lending institutions. However, the interest on these bonds is exempt from Federal income taxation as a result of the special treatment afforded to industrial development bonds for residential real property for family units.

Agency procedure

Under the agency procedure, bond proceeds are made available for mortgage loans through one or more lending institutions which originate mortgage loans as an agent of the issuer. The issuing government agency determines the interest rates that will be paid by the mortgagors on the loans, as well as the income eligibility criteria, if any, for obtaining a loan. In addition, other restrictions such as purchase price and mortgage ceilings may be imposed. Since the bond proceeds generally are not considered to be used in a trade or business but for the purchase of homes by private individuals, the bonds have not been considered to be industrial development bonds.

Forward commitment mortgage purchase procedure

Under the forward commitment mortgage purchase procedure, lending institutions originate mortgage loans and then sell them to the bond issuer under pre-existing purchase commitments. In effect, the issuer uses the bond proceeds to provide a secondary mortgage market for the lending institutions. Typically, the purchase commitment agreement includes criteria as to the type and amount of the mortgages that will be purchased by the issuer. In addition, the issuer may impose income limitations on mortgagors. Since the bond proceeds are generally not considered to be used in a trade or business of a private [442] party, but for the purchase of mortgage loans, the bonds are not considered to be industrial development bonds.

(d) Factors relating to marketing the bonds

The effectiveness of an owner-occupied housing program will depend on the ability of an issuer to effectively market its bonds at a low interest rate. The mortgage rate charged to individual borrowers typically will be from 1 to 2 percentage points above the interest rate the issuer must pay on the bond issue. Thus, to reduce monthly payments for home buyers, the issuer must obtain a favorable interest rate on the bonds. The rate will, in turn, depend on two factors: the prevailing overall market rate and the rating the bond receives from a rating agency.

In rating a bond issue, a rating agency is generally concerned with three factors: the quality and composition of the mortgage pool that provides collateral for the bonds, the level of collateralization of the bonds, and the treatment of mortgage prepayments.

The quality and composition of the mortgage pool depends on whether the loans are for single family, one to four family, or condominium type properties. It will also depend on loan to value ratios and whether the loans are FHA insured, VA guaranteed, or are conventional loans that are privately insured. Additionally, it will depend upon the past record of the lending institutions which originate and service the loans as well as the financial condition of the borrowers.

To obtain a high quality mortgage pool, a program will be structured so that a mortgage pool contains a substantial portion of loans to moderate or high income homebuyers. Additionally, it will require favorable loan to value ratios which will generally result in a downpayment by the homebuyers in excess of 5 percent.

The level of collateralization of the bonds, i.e., the degree to which the bonds are secured by reserves or mortgages, is generally 95 to 97 percent of the face amount of the bonds. This shortfall results from the underwriting discount and cost of issuance which are paid directly out of bond proceeds. The shortfall will generally be from 3 to 5 percent of the total amount of the bond issue.

One method of making up the shortfall is through the arbitrage earned on the reserve accounts established with a portion of the bond proceeds. Although the arbitrage rules (Code sec. 103(c)), in general, preclude the investment of bond proceeds in materially higher yielding securities, issuers have been able to invest reserves in materially higher-yielding securities as a result of an exception to the arbitrage rules which does not apply those

rules to reasonable reserve accounts. The reserves will generally be 12 to 15 percent of the bond proceeds. If arbitrage profits are not ultimately needed to meet debt service charges, they are typically distributed to the issuing government or split in some fashion between the issuing government and participating lenders.

The shortfall also may be made up through the use of participation fees. These fees are paid by the borrowers at the time they close on their home purchases. In some cases, these fees have been as high as 3½ points.

The final consideration in structuring a bond issue is the treatment of mortgage prepayments. Bond issues may either be structured to [443] require the prepayment to be used to call a portion of the bonds or to be reinvested in additional mortgages. One method of decreasing the volume of prepayments is to allow loan assumptions.

(2) State and local government restrictions on tax-exempt bonds for owner-occupied housing

(a) State programs

The first consideration in any mortgage subsidy bond program is whether any State constitutional prohibition prevents the lending of State credit in such programs. In many States, the courts have ruled that the financing of low- and moderate-income housing is a permissible use of State credit. In some States, the financing of housing for any income group has been upheld on the grounds that housing itself is a public purpose. Absent a constitutional prohibition, State programs are generally established under statutes creating a State housing finance agency authorized to issue bonds.

(b) Local programs

Whether State law permits a local government to issue housing bonds generally depends on specific statutory authorization; the absence of a law prohibiting the bond issues is not sufficient. Exceptions to this rule include such States as Delaware, Illinois, and Kansas, in which localities have the power under home rule provisions to issue mortgage bonds.

The most common type of State authorizing statute is an industrial or economic development revenue bond law. These have been used in Colorado and West Virginia, among others. In many States, these laws have been amended to specifically include residential real property for family units. In other States, such as Louisiana and Oklahoma, mortgage bonds are issued under the authority of public trust laws. Separate authorities, or public trusts, are set up to issue bonds for the benefit of the city or State involved. Finally, there are a number of miscellaneous laws in various States. The State of Minnesota has authorized several cities, including Minneapolis, to exercise the same powers in housing finance as the Minnesota Housing Finance Agency. In California, bond issues are authorized to finance housing in designated redevelopment areas under new construction and rehabilitation programs. State laws may also restrict the type of program which can be operated.

Reasons For Change

In General

The Federal Government has long pursued projects of housing assistance through direct spending programs, specific provisions in the tax laws, and credit policies. The most direct form of housing assistance has traditionally benefited the lowest income groups by providing basic shelter for low-income families. For most of the direct outlay Federal programs, matching funds by State and local governments are required as a specified percentage of the total cost. For other income groups, Federal housing assistance is provided in the form of mortgage insurance, secondary market for mortgage lenders, and various tax provisions. Cost projections for major housing assistance programs for the next five years are shown in Table 1.

[444] TABLE 1.—COST PROJECTIONS FOR MAJOR HOUSING ASSISTANCE PROGRAMS, FISCAL YEARS 1980-84

[Billions of dollars]

Program	1980	1981	1982	1983	1984
Budget outlays:					
Housing Assistance (HUD)[1]	5.07	5.92	6.80	8.07	9.46
Rural Housing (FmHA)	.72	.82	.92	1.02	1.13
Government National Mortgage Assn. (GNMA)	.52	.40	.18	.11	.11
Housing for the Elderly or Handicapped	.64	.69	.73	.77	.82
Community Development Block Grants[2]	.67	.76	.86	.98	1.11
Tax benefits:					
Tax deduction for interest on owner-occupied homes	9.29	10.97	12.94	15.27	18.01
Tax deduction for property taxes on owner-occupied homes	6.62	7.68	8.91	10.33	11.98
Deferral of tax on capital gains on sales on residence	1.01	1.12	1.23	1.35	1.49
Exclusion of gain on sale of residence—for persons age 55 and older	.54	.59	.65	.71	.79
Depreciation and amortization of rental housing in excess of straight line	.35	.36	.37	.38	.40

[1] Includes section 8 rental assistance, public housing, section 235 homeownership assistance, section 236 and other rental assistance.

[2] These figures are 20 percent of the estimated outlays for community development block grants. This is a rough estimate of the proportion of the funds used for housing assistance.

Since the end of World War II, three States—California, Oregon, and Wisconsin—have issued general obligation bonds from which the proceeds are used to provide mortgage financing for veterans. In 1978, $1.2 billion were issued for this purpose.

State housing agencies began to issue some tax-exempt bonds, which were not general obligation bonds, for owner-occupied housing in the early 1970's. However, prior to 1978, most State housing finance agency bonds were issued to provide multifamily rental housing. The volume of their bonds for owner-occupied housing varied between $36 million and $680 million from 1971 through 1976 and was $959 million in 1977. In 1978, the amount of tax-exempt bonds for owner-occupied housing issued by State housing finance agencies increased to $2.8 billion. In addition, since May 1978, numerous localities have begun issuing such bonds.

During 1978, State and local governments issued $3.4 billion of tax-exempt bonds for owner-occupied housing. This amount represented [445] approximately 7.4 percent of the aggregate of the tax-exempt long-term financing for all purposes by State and local governments during 1978. In 1979, State and local governments issued $8.7 billion of tax-exempt bonds for owner-occupied housing.[8] This amount represents 20.4 percent of the aggregate for tax-exempt long-term financing for all purposes by State and local governments during 1979. In addition, between January 1 and June 30, 1980, $7.4 billion of bonds was issued. It is estimated that an additional $4.1 billion of bonds will be issued after June 30, 1980. The relative portions of all borrowings by State and local governments during 1976, 1977, 1978, 1979, and 1980 are shown in Table 2.

[8] Approximately $3.2 billion of this amount was issued prior to April 25, 1979. The remaining $5.5 billion of bonds issued during 1979 was issued pursuant to the transitional rules of the bill.

TABLE 2.—PERCENTAGE DISTRIBUTION OF PURPOSES FOR ISSUING TAX-EXEMPT BONDS BY STATE AND LOCAL GOVERNMENTS, 1976-80

[Percent]

Activity	1976	1977	1978	1979	[1] 1980
Owner-occupied housing	1.8	1.9	7.4	20.4	31.9
Multi-family rental housing	4.3	3.4	5.4	8.5	2.5
Education	15.3	11.3	13.5	11.6	10.4
Water and sewer	9.8	10.0	9.7	8.8	6.8
Highways, bridges, and tunnels	4.6	3.1	4.1	2.2	1.3
Gas and electric	13.2	12.7	13.0	11.1	6.4
Industrial development	1.1	1.1	1.3	3.2	2.4
Pollution control	7.9	8.6	7.5	6.8	5.4
Hospital	8.1	10.4	6.8	8.3	7.1
Various purposes	34.0	37.4	31.2	19.2	25.8

[1] Estimate of distribution through June 30, 1980.

Any change in the level of Federal assistance raises issues of housing, budgetary, economic, and tax policy. Tax-exempt bonds tend to offset the impact of the budgetary and monetary policies on housing and to shift the burden to other sectors of the economy. As a result of the tremendous increase in the use of tax-exempt bonds for housing, the Committee believes it was necessary to reexamine the relevant tax provisions that permit the use of these bonds.

(1) Effect on the tax system

The Committee is concerned with the effect that substantial increases in the amount of tax-exempt bonds would have on the equity and progressivity of the tax system. Higher income individuals are the major purchasers of tax-exempt bonds. As a result, when large amounts of income escape taxation, it makes others who are not able to use tax-exempt bonds or tax shelters dissatisfied with our tax system, and thus, produces a direct threat to our self-assessment system of taxation.

[446] (2) Efficiency of tax-exempt housing bonds

The Committee is also concerned with whether tax-exempt bonds are an efficient method of providing a subsidy to housing. Additional tax-exempt bonds can be sold only if their yields are sufficiently attractive to compete with the after tax yields of other investments. As the supply of tax-exempt bonds grows, issuers must offer higher and higher interest rates to make the bonds attractive to investors in progressively lower tax brackets, because there are only a limited number of taxpayers in the very high tax brackets for whom tax-exempt bonds are an attractive investment at any interest rate. Thus, as the supply of tax-exempt bonds goes up and the interest rate on them rises, the interest rate subsidy provided declines.

Furthermore, there is some evidence from recent issues of mortgage subsidy bonds that the process of financing home mortgages through the use of tax-exempt bonds involves relatively large fees and administrative costs, resulting in substantially less assistance to the home buyer than its cost to the Federal Government. In addition, some issuers appear to have delayed placing the bond proceeds in mortgages in order to earn arbitrage, thus obtaining a further benefit at the cost of the Federal Government.

(3) Effect on the budget process

Increased direct spending for housing assistance and increased tax expenditures for housing of the same magnitude have the same impact on the budget. In an effort to contain future budget outlays for housing assistance, Congress has reduced new budget authority for that purpose from $34 billion in fiscal year 1979 to a target of $26 billion in fiscal year 1980. At the same time, the recent growth of the use of tax-exempt bonds for single-family owner-occupied residences has been dramatic. As a result, the Com-

mittee is concerned that the use of tax-exempt bonds for financing owner-occupied residences provides a means to avoid the budget process through tax expenditures that are not specifically authorized. The revenue loss from these issues is about $23 million per year for each $1 billion of outstanding bonds, and thus the annual revenue loss from the $12.1 billion housing bonds issued in 1978 and 1979 is about $275 million a year. Continuation of that rate of growth in housing bond issues through 1985 is estimated to result in a revenue loss of $16.7 billion in that year. The Committee believes that this bill will permit Congress to determine the amount of tax expenditures that are to be made for housing. The Committee also is concerned that use of tax-exempt bonds for financing items other than housing may proliferate in the future, and the Committee intends to study these uses with great care when they occur.

(4) Effect of tax-exempt bonds on capital formation

An increase in Federal housing assistance directs a larger fraction of total savings into housing and away from other forms of investment. In 1978, 32 percent of total fixed investment was devoted to residential purposes, a higher fraction than is found in most other developed countries. Any further increase in the share of total investment devoted to housing must come at the expense of other types of capital formation in a period of approximately full resource utilization such as the present.

[447] On balance, the combination of current housing-related tax, spending and credit market provisions encourage a shift of investment into housing from plant and equipment. The increment to GNP from housing investment is smaller than from plant and equipment investment because the latter investment is used to produce more additional income. The committee is concerned that further diversions of investment from plant and equipment to housing would decrease the efficiency and productivity of the economy and reduce the overall rate of economic growth.

(5) Effect of tax-exempt housing bonds on other tax-exempt bonds

The absolute amount of housing bonds and their growth in relation to the total tax-exempt bond market have the tendency of increasing the rates of interest for all tax-exempt bond issues, both general obligation and revenue bonds. The amount of the increase is not easily verified, but estimates suggest that, in otherwise stable municipal bond and money markets, the interest rate on tax-exempt bonds will rise by 4 to 7 basis points for each additional $1 billion in issues. In addition, the superior ratings usually earned by mortgage subsidy bonds may make them more attractive than general obligation bonds that are less highly rated, thus adding to upward pressure on general obligation interest rates. The resulting increase in interest costs affects all tax-exempt bond issues, including general obligation bonds for traditional State and local government purposes, such as schools, fire houses, police stations, water and sewer facilities and streets and highways.

For the reasons stated above, the Committee believes that restrictions should be placed on the use of tax-exempt bonds for housing that will direct the subsidy to those families and areas most in need of the subsidy, that will improve the efficiency in using tax-exempt bonds for housing, and that will limit the revenue loss. The specific reasons for the major provisions of Title IX are discussed below.

Owner-Occupied Housing

(1) Limitations targeting subsidy to individuals and areas of greatest need

The Committee believes that the individuals who have the greatest need for the subsidy are those of low or moderate income who have difficulty obtaining mortgage money and who are purchasing their first home. In addition, the Committee believes that it is appropriate to assist certain areas of chronic economic distress. Accordingly, Title IX contains a number of requirements to target the subsidy towards this group of individuals and certain distressed areas.

(*a*) *Income limitations*

First, Title IX requires that the recipients of the subsidy have income levels below certain designated percentages of median area income. The Committee believes that income levels must vary by area of the country because the cost of housing varies substantially by area and, to the extent that income levels also vary by area, use of area income figures will reflect these differences. These rules are designed to insure that the primary beneficiaries from the subsidy are individuals with low and moderate income.

[448] Where the residences are located within certain targeted areas, the Committee believes that higher income limits are appropriate. In these targeted areas, which generally are depressed or blighted areas, the committee believes that it would be beneficial to encourage mixed income neighborhoods. Accordingly, Title IX provides a higher income limitation in targeted areas.

(*b*) *Purchase price limitations*

The Committee also believes that the subsidy should not be used to provide a luxurious home even where the income of the individual is low or moderate. In order to insure that residences purchased with the aid of the subsidy are relatively modest, Title IX limits the purchase price of all of the residences financed with the bonds to a percentage of the average purchase price in the area. Average purchase price for the area is used because purchase prices of homes vary substantially throughout the country. Also, the Committee decided that separate limits should be used for new and used housing to take into account the differences in prices of new and used housing.

As in the case of the income limitations, the Committee believes that a more liberal rule is needed in targeted areas. Because rehabilitation costs are higher and because of the desire to redevelop blighted areas, the Committee concluded that it was appropriate to provide a higher purchase price limitation in targeted areas.

(c) Three-year requirement

As indicated above, the Committee believes that the individuals with the greatest need for the subsidy are those individuals who are buying their first home or have not recently owned a home. Persons who have existing homes generally have sufficient equity to permit them to purchase another home under conventional financing methods. Accordingly, Title IX requires that all of the mortgagors who are receiving financing from tax-exempt bonds must not have had a present interest in a principal residence at any time within the previous three years.

The Committee believes, however, that the three-year rule should not apply in targeted areas. The Committee believes that the revitalization of blighted areas necessitates encouraging individuals to return to the cities and these individuals often will already own their own home. Accordingly, Title IX waives the three-year requirement in targeted areas.

Similarly, the policy underlying the three-year requirement does not apply to certain home improvement loan and rehabilitation loan programs which are designed to encourage individuals already owning homes to improve them. Accordingly, Title IX provides exceptions to the three-year rule in the case of certain home improvement loans and certain rehabilitation loans.

(d) Principal residence requirement

The Committee also concluded that the residences financed with the bonds should become the principal residences of the mortgagors and that the subsidy should not be used to acquire investment properties or for recreational homes.

[449] *(e) New mortgage requirement*

The Committee believes that all of the bond proceeds used for mortgages should provide new mortgages and not refinance existing mortgages. Subsidizing and refinancing of an existing mortgage would just lower the housing costs of persons already able to afford that housing; it would not help persons to obtain home ownership which they could not otherwise afford. However, the Committee felt it is appropriate to waive this rule in the case of rehabilitation loans where refinancing the existing mortgae on the residence is often necessary to insure that the rehabilitation loan is a first mortgage on the residence.

(f) Targeted portion requirement

Finally, the Committee believes that at least some portion of every tax-exempt housing bond should be used for financing in targeted areas. Title IX provides that at least 20 percent of the amount of mortgages financed with bond proceeds be used for mortgages in targeted areas within the jurisdiction of the issuing authority. However, to insure that this does not require more money to be set aside for a small targeted area than can be utilized in that area, Title IX provides that the maximum amount of financing that is required in the targeted area is 40 percent of the mortgage market in the targeted area.

(2) Restrictions designed to increase the amount of the subsidy to home purchasers

As stated above, the Committee is concerned that tax-exempt bonds are an inefficient method of providing a subsidy. The inefficiency results in part from high issuance costs and from excessive arbitrage. Title IX addresses these problems by adopting several requirements designed to increase the amount of the subsidy to an eligible home purchaser and improve the efficiency of the bonds.

(a) Arbitrage limitations

Present arbitrage rules permit relatively large amounts of arbitrage to be earned on the investments in mortgages, on reserves, and during a temporary period until the mortgage loans are made. Moreover, the availability of large arbitrage profits have permitted the issuance costs to be higher than they might otherwise be.

In order to reduce these inefficiencies, Title IX contains three rules designed to limit the amount of arbitrage. First, it requires that the net cost of borrowing to the mortgagor cannot exceed the yield on the bonds by more than one percentage point. Second, Title IX requires that the arbitrage on reserves and other nonmortgage investments decrease as the mortgages are repaid. Third, Title IX requires that the net arbitrage from the reserves, and other nonmortgage investments, and temporary period investments be passed on to the mortgagors.

(b) Loan-to-value requirements

One of the largest barriers that a first time purchaser must face is saving for a sufficient down payment. The Committee believes there is a tendency for mortgage originators to select the safest loans and, consequently, originate loans with those persons who are able to make the largest down payments. Yet, the individuals with the most need [450] are those individuals able to make the smallest down payments. Accordingly, Title IX requires that at least 75 percent of the lendable proceeds must be used for mortgages where the loan to value ratio is at least 95 percent. A slightly less restrictive rule is allowed for graduated payment mortgages because of the negative amortization that exists with graduated payment mortgages.

(3) Restrictions designed to limit revenue loss

The Committee also is concerned with the relatively large revenue expenditure that would have occurred if the use of tax-exempt bonds to pro-

vide mortgage financing were not curtailed substantially. The Committee believes that the use of tax-exempt mortgage financing should not be allowed to increase to such a degree that it becomes a substantial percentage of all mortgage financings. Moreover, limiting the amount of tax-exempt financing allows the conventional suppliers of mortgage financing to continue without completing with governmental units who have the competitive advantage of being able to issue tax-exempt debt.

Title IX contains a restriction that the maximum amount of tax-exempt mortgage financing that a governmental unit can issue in a calendar year is 5 percent of the average agregate principal amount of mortgages originated within the jurisdiction of the issuing governmental unit during the previous three years.

Moreover, Title IX provides a $50,000,000 minimum amount that can be issued by all governmental units within a State where the aggregate limitations of all governmental units within the State under the 5-percent limitation is less than $50,-000,000.

Finally, the Committee believes it is appropriate to prohibit the advance refunding of tax-exempt mortgage bonds after the date of enactment of any existing or future mortgage subsidy bond.

(4) Registered bonds

The Committee is aware that most tax-exempt bonds are issued in bearer form. This creates an opportunity for evasion of both estate and gift taxes since there is no record of ownership maintained by the issuer. Moreover, enforcement of the restrictions of Title IX related to owner-occupied housing requires that the owner of the bonds be identifiable in the event that any bonds cease being qualified mortgage bonds where the requirements of Title IX are not met. In order to address these problems, Title IX requires that all housing bonds issued after date of enactment be issued in registered form.

(5) Veterans' programs

The Committee believes that programs using tax-exempt bond proceeds for mortgage funds for veterans should be permitted to continue. Title IX provides an exception for these programs from the limitations otherwise imposed on the use of tax-exempt bonds to finance owner-occupied housing but does provide that such bonds be general obligation bonds issued in registered form.

(6) Sunset

The Committee recognizes that it is creating an untried program to implement housing policy. Moreover, the need for the subsidy may change over time. Consequently, the Committee has decided to termi-[451]nate the program in two years. At the end of the two-year period, no tax-exempt bonds for owner-occupied housing will be permitted except for veterans' programs. This sunset of the program will permit the Committee to reexamine the results of the need for the program within a relatively short period of time.

Multi-Family Rental Housing

Present law allows the use of industrial development bonds for residential real property for family units. While most of the financing that has been done under this rule has been for low or moderate income persons, there have been instances where the rule has been used to finance apartment buildings all of whose units were at market rate rentals. Moreover, there is nothing in present law that would prohibit the use of tax-exempt bonds for the financing of luxury apartment buildings.

The Committee believes that tax-exempt industrial development bonds should be available only where they benefit low or moderate income persons. However, the Committee recognizes that there is a valid housing policy in encouraging mixed income projects. As a result, Title IX restricts the exception for tax-exempt industrial development bonds to bonds whose proceeds are used to finance projects where at least 20 percent of the units are rented to low or moderate income individuals.

Explanation Of Provisions

a. Owner-Occupied Single-Family Housing (Sec. 902 of Title IX and new sec. 103A of the Code)

(1) Structure of provision

Title IX adds a new section to the Code (sec. 103A) which deals with the treatment of tax-exempt bonds for financing of owner-occupied residences. Under this section, interest on an obligation will not be exempt from Federal income tax if a significant portion of the bond proceeds are to be used directly or indirectly for mortgages (or other financing) of owner-occupied residences.[1] For this purpose, a significant portion is normally considered to be 5 percent.

Under Title IX, there are two exceptions to the rule that interest on mortgage subsidy bonds is not exempt from Federal income tax. These two exceptions are for qualified mortgage bonds and qualified veterans' mortgage bonds. However, in order for interest on a qualified mortgage bond or a qualified veterans' mortgage bond to be exempt from income tax, it must meet the general requirements for exemption under Code section 103 in addition to the requirements for a qualified mortgage bond or a qualified veterans' mortgage bond.

(2) Qualified mortgage bond

Under Title IX, a qualified mortgage bond is an obligation which is issued as part of a qualified mortgage issue. A qualified mortgage [452] issue means an issue by a State or a possession of the United States or political subdivision thereof or the District of Columbia if all of the proceeds (other

[1] Under Title IX, it is irrelevant whether the obligation is a general obligation of the issuing unit or whether the security for the bonds, or for the payment of debt service on the bonds, is from the mortgages financed with the bond proceeds.

than issuance costs [2] and a reasonably required reserve [3]) are to be used to finance owner-occupied residences and if the issue meets all of the requirements discussed below. Under Title IX, qualified mortgage bonds may not be issued after a 2-year period following the date of enactment.

Under Title IX, the requirements are divided into two groups. As to one group of requirements, the issue meets the requirements only if the issuer in good faith attempted to satisfy all such requirements before the mortgages were executed. Where such good faith has been exercised, 95 percent or more of the proceeds that are devoted to financing of owner-occupied residences (referred to as lendable proceeds) must have been invested in mortgages which meet all requirements in the group at the time of the execution of the mortgages. In addition, where the good faith and 95 percent requirements are met, all failures to meet the first group of requirements in every mortgage (i.e., the mortgage comprising 5 percent or less of the lendable proceeds) must be corrected within a reasonable period after such failure is first discovered. These requirements must be met for both mortgages that are originally financed with the bonds and for any mortgages which are financed with proceeds of principal payment and prepayments of original mortgages.

The good faith requirement can normally be met by having the trust indenture, participation agreements with loan originators, and other relevant instruments contain restrictions that permit the financing of mortgages only in accordance with the limitations of Title IX. In addition, good faith would normally require that the issuer take reasonable steps to insure that loan originators are complying with the restrictions placed in the applicable instruments.

[2] Issuance costs include any accrued interest until the date of issuance of the bonds.

[3] A reasonable required reserve includes any reserve or reserves that are reasonably necessary to secure the payment of debt service on the bonds.

For purposes of meeting the 95-percent test, at least 95 percent of the total amount of the mortgages at the time of their origination must meet the requirements of Title IX. Where a particular mortgage fails to meet more than one of the requirements of Title IX, the amount of that mortgage will be taken into account only once in determining whether the 95-percent requirement is met. However, all of the defects in that mortgage must be corrected.

In order for a qualified mortgage bond issue to remain qualified, all of the failures to meet the requirements of Title IX with respect to every mortgage financed by the bond proceeds must be corrected within a reasonable period of time after the failure is first discovered by the issuer or mortgage originator. For example, where the income, three-year, or purchase price limitations are not met, the failure to meet those requirements can be corrected by calling the nonqualifying mortgage or by replacing the nonqualifying mortgage with a qualifying mortgage. Where the down payment requirement is not met, correction could be accomplished by increasing the amount of financing to an amount such that the requirement is met.

[453] The requirements that come within this group the requirements are the residence requirement (subsection (d)), the three-year requirement (subsection (e)), the purchase price requirement (subsection (f)), the down-payment requirement (subsection (g)), the income requirement (subsection (h)), the new mortgage requirement (subsection (l)(4)), and the assumption requirement (subsection (l)(5)).

With respect to the other group of requirements, the issue meets the requirements only if the issuer in good faith attempted to satisfy all of such requirements and any failure to meet such requirements is due to inadvertent error. The good faith requirement will be met if all reasonable steps are taken by the issuer to insure that the issue complies with these requirements. For example, if all reasonable steps are taken to determine accurately the size of the market share, but the requirement is not met because the amount of the mortgages originated in the area during the past three years is incorrectly determined as a result of a mathematical error, the issue will nonetheless qualify (provided the other requirements for qualification are met).

The requirements included in this group are the market share limitation (subsection (i)), the portion of loans in targeted areas requirement (subsection (j)), the arbitrage requirements (subsection (k)), the State approval requirement (subsection (l)(1)), the registration requirement (subsection (l)(2)), and the multiple originators requirement (subsection (l)(3)).

(a) Residence requirement

In order for an issue to be a qualified mortgage issue, all of the mortgages (or other financing) provided by the bond proceeds must be for single-family residences located within the jurisdiction of the issuing governmental unit. Moreover, all the residences must reasonably be expected to become the principal residence of the mortgagors within a reasonable time after the financing is provided.

In order to meet the principal residence requirement, the issuer and all mortgagors must reasonably expect, as of the execution of the mortgages, that the residences will become the principal residences of the mortgagors within a reasonable time after the execution of the mortgages. This requirement can normally be met by having the mortgagor execute an affidavit that he intends to make the residence his principal residence within a reasonable time after the purchase of the residence.

For this purpose, the term principal residence normally has the same meaning as that term does for purposes of section 1034 of the Code.

In order to meet the residence requirement, all of the mortgages financed by the issue must be for residences which are located within the

jurisdiction issuing the qualified mortgage bond. This requirement is necessary to insure that the market share limitation (discussed below) is met. Where two or more governmental units jointly issue a bond, the principal residence requirement will be met so long as the residence is located in any of the issuing jurisdictions.

In addition, to meet the residence requirement, all of the mortgages financed by the issue must be with respect to single-family residences. Thus, a mortgage used to finance the acquisition of a structure containing [454] the principal residence of the mortgagor plus one or more additional family units will not meet this requirement.

(b) The three-year requirement

In order for an issue to be a qualified mortgage issue, all of the mortgages financed from the bond proceeds must be provided to mortgagors each of whom did not have a present ownership interest in a principal residence at any time during the three-year period ending on the date that the mortgage is executed. Where there is more than one mortgagor with respect to a particular residence, all of the mortgagors must meet the three-year rule. However, it is not required that all persons which have any liability under the note secured by the mortgage meet the three-year test. For example, where a father of a home purchaser cosigns the note for his son but the father takes no interest in the residence, it is not necessary that the father meet the three-year requirement since the father is not a mortgagor of the residence.

The fact that the mortgagor had an interest in a residence which was not his principal residence during the previous three years will not cause him to fail the three-year requirement. Moreover, the mortgagor will not fail the three-year requirement merely because he owned a remainder interest during the previous three years in a rsidence which was his principal residence. However, a mortgagor will fail the three-year requirement where the present interest in the mortgagor's principal residence was held in trust during the previous three years (whether or not created by the purchaser). For the purpose of determining whether an interest is a present interest, the rules generally applicable in determining whether a gift of an interest qualifies for the $3,000 annual gift tax exclusion of Code section 2503 shall apply. A present interest does not include a mere expectancy to inherit an interest in his principal residence. Also, in determining whether the three-year requirement is met, the interest that a purchaser of a residence acquires upon the execution of a purchase contract is not treated as a present interest in a principal residence. (See below, however, for the requirement that a mortgage be a new mortgage.)

The three-year requirement does not apply with respect to mortgagors of residences in three situations. First, it does not apply to mortgagors of residences that are located in a targeted area. Second, it does not apply to mortgagors who receive qualified home improvement loans. Third, it does not apply to mortgagors who receive a qualified rehabilitation loan.

Targeted area residences

A targeted area residence is defined in Title IX to mean a residence located in either one of two areas: (1) a qualified census tract or (2) an area of chronic economic distress. This definition also is applicable for the purchase price limitation, the income limitation, the three-year requirement, and the targeted portion requirement.

A qualified census tract is a census tract in which 70 percent or more of the families have income which is 80 percent or less of the Statewide median family income. This determination is to be based on the most recent decennial census for which data are available.

[455] An area of chronic economic distress is defined as an area which has been designated as such by the State in accordance with its standards and which designated area has been approved by the Secretary of the Treasury and the Secretary of Housing and Urban Development as an area of chronic economic distress. The criteria to be used by the Secretary of the Treasury and the Secretary of Housing and Urban Development in approving an area as an area of chronic economic distress are: (1) the condition of the housing stock, including the age of the housing and the number of abandoned and substandard residential units; (2) the need of area residents for owner-financing through tax-exempt bonds, as indicated by low per capita income, a high percentage of families in poverty, a high number of welfare recipients, and high unemployment rates; (3) the potential for use of owner-financing through tax-exempt bonds to improve housing conditions in the area; and (4) the existence of a housing assistance plan which provides a displacement program and a public improvements and services program.

Qualified home improvement loan

A qualified home improvement loan is defined to mean financing (whether or not secured by a mortgage) in an amount which does not exceed $15,000 with respect to any residence for alterations, repairs and improvements on, or in connection with, an existing single-family, owner-occupied residence. The alterations, repairs and improvements must substantially protect or improve the basic livability of the property, such as the renovation of plumbing or electric systems, the installation of improved heating or air conditioning systems, the addition of additional living space, or the renovation of a kitchen area. Items that will not be considered to be items which substantially protect or improve the basic livability of the property include swimming pools, tennis courts, saunas, or other recreational or entertainment facilities. This definition of qualified home improvement loan is also applicable for the purchase price limitation and the down payment requirement.

Qualified rehabilitation loan

A qualified rehabilitation loan means any owner financing provided in connection with a qualified rehabilitation (or the acquisition of a resi-

dence with respect to which there has been a qualified rehabilitation) where the mortgagor is the first resident of the residence after the completion of the rehabilitation.[4]

Thus, under Title IX, a qualified rehabilitation loan includes a loan to an existing resident in order that a qualified rehabilitation can be performed on the residence. Moreover, a qualified rehabilitation loan includes a loan made to a mortgagor who buys a rehabilitated residence from a builder and then resides in it. However, a qualified rehabilitation loan cannot be made to a person who purchases the residence from a mortgagor who qualified for the qualified rehabilitation loan with respect to that residence.

[456] In order for the rehabilitation of a residence to be treated as a qualified rehabilitation, three requirements must be met. First, there must be a period of at least 20 years between the date on which the building was first used and the date that actual rehabilitation began. The date that the building was first used is the first date that the building was used for any purpose, including use in a trade or business or as a residence.

Second, 75 percent or more of the existing external walls of the building must be retained as external walls in the rehabilitation process. The rules applicable to the investment tax credit for qualified rehabilitated buildings (Code sec. 48(g)(1)(A)(iii)) are to apply for this purpose. (However, unlike Code section 48(g)(1)(B), once a building meets the 20-year test, more than one rehabilitation of that building within a 20-year period could qualify as a qualified rehabilitation.)

Third, expenditures for rehabilitation must amount to 25 percent or more of the mortgagor's adjusted basis in the residence (including the land on which the residence is located). Where an individual is already living in the building to be rehabilitated, the 25-percent test is determined by comparing amounts expended by the mortgagor on the qualified rehabilitation with the mortgagor's adjusted basis as of the completion of the rehabilitation. The amounts expended by the mortgagor for rehabilitation include all amounts expended for rehabilitation regardless of whether the amounts expended were financed from the proceeds of the loan or from other sources, and regardless of whether the expenditure is a capital expenditure, so long as the expenditure is made during the rehabilitation of the building and is reasonably related to the rehabilitation of the building. The adjusted basis of the building as of completion of rehabilitation includes any amounts expended for rehabilitation that are properly considered capital items. The value of services performed by the mortgagor or members of his family in rehabilitating the building will not be included in determining the rehabilitation expenditures for purposes of the 25 percent test. For this purpose, the adjusted basis to the mortgagor is his adjusted basis for purposes of determining gain.

Where a mortgagor purchases a building that has been substantially rehabilitated, the 25-percent test is determined by comparing the total expenditures made by the seller for the rehabilitation of the building with the purchase price of the building to the mortgagor. The total expenditures made by the seller for rehabilitation do not include the cost of acquiring the building or land, but do include all amounts directly expended by the seller in rehabilitating the building (excluding overhead and other indirect charges). The purchase price to the mortgagor does not include any closing costs. This definition of a qualified rehabilitation loan is also applicable to the downpayment requirement and the new mortgage requirement.

(c) Purchase price requirement

In order for an issue to be a qualified mortgage issue, all of the mortgages (or other financing) provided from the bond proceeds, except qualified home improvement loans, must be for the purchase of residences [457] where the acquisition cost of each residence does not exceed 80 percent (110 percent in targeted areas) of the average area purchase price applicable to that residence. The average area purchase price means the average purchase price of all single family residences in the statistical area in which the residence is located. The average is to be based on sales during the most recent 12-month period for which sufficient statistical information is available. Whether a particular residence meets the purchase price requirement is to be determined on the date that the mortgage originator makes a commitment to provide financing from the bond proceeds (or, if earlier, the date of the purchase of the residence). Separate determinations are to be made for new and used residences.

Statistical area

The term statistical area is defined to mean a standard metropolitan statistical area (SMSA) or any county (or portion of a county) which is not within a SMSA. Where a SMSA covers a portion of a county, the portion of the county that is not covered by the SMSA is treated as a separate statistical area. A SMSA is defined to mean those areas so designated by the Secretary of Commerce. Where a portion of a State is in neither a SMSA or a county (as occurs in the State of Alaska), the statistical area is to be the area designated by the Secretary of the Treasury as the equivalent of a county.

Sufficient statistical information with respect to a particular area is deemed to be available where there is sufficient information that a reasonable approximation of the average purchase price can be determined. Where there is not adequate statistical information for a particular area, the bill provides that the Secretary of the Treasury may substitute another area for the statistical area. For example, if there are several contiguous counties which have similar types of housing, but which have had so few sales within the 12-month period that the margin

[4] Where there are two or more mortgagors of a rehabilitation loan, the first residency requirement is met if any of the mortgagors meets the first residency requirement.

of error in determining the average purchase price in each individual county, but not all the counties combined, is unreasonably high, then the Secretary of the Treasury may designate all of those counties as the statistical area for purposes of the purchase price limitation.

Acquisition cost

The acquisition cost of a residence is the cost of acquiring the residence as a completed residential unit, excluding usual and reasonable settlement and financing costs, the values of services performed by the mortgagor and members of his family in completing the residence and the cost of any land which was acquired more than 2 years prior to construction of the residence. Where a residence is purchased subject to a ground rent, the acquisition cost of the residence includes the capitalized value of the ground rent.

The acquisition cost of an incomplete residence includes the reasonable cost of completing the residence, even though the cost of completing construction on an incomplete home is not to be financed with the proceeds of the bonds. For example, where a mortgagor purchases a building which is so incomplete that occupancy of the building is not permitted under applicable local law, the acquisition cost includes the [458] cost of completing the building so that occupancy of the building is permitted.

The acquistion cost of a residence does not include the value of services performed by the mortgagor or members of his family in building or completing the residence. For example, where the mortgagor builds his home by himself, or with the help of his family, the acquisition cost includes the cost of materials and the cost of work performed by subcontractors (whether or not related to the mortgagor), but it does not include the imputed cost of any labor actually performed by the mortgagor or a member of his family in constructing the residence. Similarly, where the mortgagor purchases an incomplete residence, the acquisition cost includes the cost of materials and labor paid by the mortgagor to complete the residence, but does not include the imputed value of the mortgagor's efforts or the efforts of his family in completing the residence.

Acquisition cost does not include usual and reasonable settlement or financing costs. Settlement fees include titling and transfer costs, title insurance, survey fees, or other similar costs. Financing costs include credit reference fees, points (paid by the buyer), or other costs of financing the residence. However, such amounts will be excluded in determining acquisition cost only to the extent that the amounts do not exceed the usual and reasonable costs which would be paid where financing is not provided through a qualified mortgage issue. For this purpose, financing costs do not include any points or other charges paid by the seller, even though they may be borne by the mortgagor through a higher purchase price.

In the case of rehabilitation loans, the purchase price limitation is met if the mortgagor's adjusted basis in the property as of the completion of the rehabilitation (including the cost of the rehabilitation) meets the 80 percent test (or 110 percent test where applicable). For this purpose, a rehabilitated residence is to be treated as a used residence.

(d) Down payment requirement

In order for an issue to be a qualified mortgage issue, at least 75 percent of the owner-occupied financing provided by the issue (excluding qualified home improvement loans and qualified rehabilitation loans) must be 95-percent financing. Under this requirement, 75 percent or more of the lendable proceeds of the issue must be used to provide owner-occupied financing that is 95-percent financing, regardless of the number of individual mortgages which qualify as 95-percent financing.

The owner occupied financing of a residence will satisfy the 95-percent requirement in two situations: first, where the amount of financing provided with respect to a residence by the issue is equal to 95 percent or more of the acquisition cost of a residence; and second, where a qualifying graduated payment mortgage is utilized with respect to a residence.

Graduated payment mortgages which are taken into account for purposes of the 75-percent test are mortgages where the amount of the financing provided by the bonds is equal to the greater of: (1) 90 percent of acquisition cost of the residence or (2) 95 percent of the [459] acquisition cost of the residence less the sum of the maximum amount of negative amortization under the graduated payment schedule and the amortization that would have occurred under a level payment 95-percent mortgage as of the time when the maximum negative amortization is reached under the graduated payment schedule (called the cross-over point). The effect of this rule is to require that any amount of down payment under a graduated payment mortgage in excess of 5 percent of the acquisition cost is returned to the mortgagor in the form of negative amortization so that the amount of financing outstanding under the graduated payment mortgage equals the amount of financing provided under a 95-percent mortgage at the cross-over point.

In addition, this requirement will also be satisfied in the case of a loan participation program which provides 95 percent financing. In general, a qualifying loan participation program is one which provides owner financing from the proceeds of an issue and from funds committed by private lending institutions. In the case of such a program, the 95 percent financing requirement will be satisfied where the owner financing provided from the proceeds of the issue and from funds committed by the participating lending institution is 95 percent financing. In other words, in the case of the first down-payment test, 95 percent of the acquisition costs of a residence would not have to be provided from the issue,

but rather, 95 percent of the acquisition cost of the residence must be provided by financing from a single loan part or all of which has to be provided from the issue.

In determining whether a mortgage meets either of the two down payment tests, the value of any property in which the mortgagee receives a security interest to secure the payment of the mortgage note shall be taken into account. For example, where the mortgagor is required to pledge a passbook savings account to secure payment of the mortgage note, the amount of the acquisition cost financed by the mortgage shall be reduced by the amount of the account at the time of the execution of the mortgage.

(e) Income requirements

In order for an issue to be a qualified mortgage issue, all of the mortgages provided by the lendable proceeds must be given to families that meet certain income limitations. Under these limitations, at least 50 percent of the lendable proceeds must be used for mortgages where the family income of the mortgagors of each mortgage is 90 percent or less of the median family income for the statistical area in which the residence is located.[5] In addition, any portion of the lendable proceeds not used for 90 percent income mortgagors must be used for mortgages where the family income of the mortgagors of each mortgage is 115 percent or less of the median family income for the statistical area in which the residence is located.

In the case of residences located in a targeted area, a higher series of income limitations apply. Under these rules, up to one-third of the [460] mortgages on residences located in targeted areas can be made to any mortgagor regardless of the family income of that mortgagor. All of the remaining two-thirds of the mortgages financed from the issue on residences located in a targeted area must be used for mortgages where the maximum income of the family purchasing the residences does not exceed 140 percent of the greater of the Statewide median family income or median family income in the statistical area in which the residence is located. However, the requirement that at least 50 percent of the lendable proceeds be used for mortgages where the family income of the mortgagors of each mortgage is 90 percent or less of the median family income for the statistical area in which the residence is located continues to apply.

The higher limitation in targeted areas is to be applied on a residence-by-residence basis. For example, the income limitation applicable to a residence in a targeted area in one statistical area may be based upon 140 percent of the Statewide median family income while the income limitation applicable to another residence in a targeted area in a different statistical area may be based upon the median family income of the statistical area even though both mortgages are financed from the same bond issue.

Under Title IX, the Secretary of the Treasury is to prescribe by regulation rules for determining the family income of the mortgagors and the median family income for the statistical area. These rules are to be consistent with the regulations prescribed under section 8 of the United States Housing Act of 1937 for determining family income.

The determination of whether the mortgagors meet the income limitations is to be made at the time of the execution of the mortgage. Subsequent changes in the income levels of the mortgagors are not to be taken into account under this test. Where it is determined after the execution of the mortgage that the income level of the mortgagor did not meet the income requirements as of the execution of the mortgage, the failure in that mortgage will be corrected if that mortgage is called within a reasonable period after the mortgage originator or the issuer learned that the mortgagor did not meet the income requirements.

(f) Market share limitation

In order for an issue to be a qualified mortgage issue, the aggregate amount of bonds to be issued plus the aggregate amount of qualified mortgage bonds previously issued by the issuing authority during the calendar year must not exceed the market share limit for that calendar year. Where the aggregate amount of bonds in an issue exceeds the market share limitation, the entire issue, and not just the excess of the principal amount of the issue over the market share limit, will be treated as a nonqualified mortgage issue. However, previous qualified mortgage issues which met the market share at the time of their issuance do not cease to be qualified mortgage issues just because a subsequent issue does not meet the market share limitation.

In general, the market share limit for a particular issuing authority for any calendar year is 5 percent of the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family owner-occupied residences [461] located within the jurisdiction of the issuing authority. The aggregate principal amount of mortgages includes all mortgages on single-family owner-occupied residences regardless of whether those mortgages are first or second mortgages or whether the mortgages are used to refinance an existing mortgage. However, only mortgages are included; workmen's liens, tax liens, liens relating to special assessments, or similar encumbrances are not included.

In determining the 5-percent amount, the best information available to the issuing authority must be used. For example, where the total amount of single-family mortgages is known, but not the amount of those mortgages which are represented by owner-occupied residences, the amount of mortgages on single-family, owner-occupied residences may be determined

[5] The statistical area used in connection with the income limitation need not be the same area that is used in connection with the purchase price limitation. This would usually occur where several counties are combined in determining average purchase price of residences.

by using a statistical average of single-family residences from a representative sample of the mortgages.

Where more than one governmental unit has the authority to issue mortgage subsidy bonds to finance mortgages on residences in the same geographical area, Title IX provides that the aggregate principal amount of the mortgages on residences is allocated to the governmental unit with jurisdiction over the smallest geographical area. For example, where both a county and a city located within the county have authority to issue mortgages subsidy bonds, the 5-percent limit of the city is determined by reference to the aggregate principal amount of mortgages on residences located within the city. The 5-percent limitation of the county is determined by reference to the aggregate principal amount of mortgages on residences that are located within the county but outside of the city. Similarly, in such a case, the 5-percent limit of the State would be determined by reference to the aggregate principal amount of mortgages on residences located outside of counties having authority to issue mortgage subsidy bonds.

Where two governmental units have authority to issue mortgage subsidy bonds and both governmental units have jurisdiction over the identical geographical area, the aggregate principal amount of mortgages on residences located within that area is to be allocated to the governmental unit having the broader sovereign powers. For example, where a city and a housing finance agency have jursdiction only within the city and both the city and housing finance agency have authority to issue mortgage subsidy bonds, then the aggregate principal amount of mortgages on residences is allocated to the city since the city has broader sovereign powers than the housing finance agency.

Title IX also provides that, where the aggregate amount of qualified mortgage bonds that could be issued by all governmental units within a State for a particular calendar year under the 5-percent limitation is less than $50,000,000, then the aggregate amount of qualified mortgage bonds that can be issued by the governmental units for the calendar year is increased to $50,000,000. The excess of the $50,000,000 over the aggregate of the 5-percent limitations for the State is allocated to each governmental unit in proportion to the ratio of the 5-percent limitation for that governmental unit to the aggregate of the 5-percent limitations of all governmental units within the State.

Title IX provides two exceptions to the rule that mortgages are allocated to the governmental unit representing the smallest geographical area for purposes of the 5-percent limitation. Under the first ex-[462]ception, a small governmental unit can enter into an agreement with the governmental unit having the next largest geographical area that includes the area of the smaller governmental unit to allocate all or a designated amount or portion of the mortgages on residences within the smaller governmental unit to the larger governmental unit for purposes of computing the market share limitations (under both the 5 percent or $50,000,000 limitations) for both governmental units. For example, where a city is located within a county and both the city and the county have the authority to issue mortgage subsidy bonds, the city could enter into an agreement with the county to allocate all or a designated amount or portion of the mortgages on residences within the 3 preceding calendar years to the county. If such an agreement were entered into, the market share limitation of the city would be reduced and the market share limitation of the county would be determined with regard to the mortgages allocated to the county from the city. Similarly, the county could enter into an agreement with the State (or State housing agency) to allocate any mortgages on residences within the county (including any residences allocated to the county under an agreement with the city) to the State (or State housing agency). However, the city could not enter into such an agreement with the State, since the State is not the next largest governmental unit.

Under the second exception, a State may enact a law (after the date of enactment of Title IX) which allocates the mortgages on residences within the State under any formula to any or all of the governmental units having authority to issue mortgage subsidy bonds. For example, a State could enact legislation allocating all or a designated amount or portion of the mortgages on residences within the State to a State housing finance agency. In such a case, there would be no requirement that the State housing finance agency use any of the bond proceeds to finance mortgages on residences in the geographical area represented by the local governmental units whose mortgages were allocated to the State housing finance agency. Such a State formula, however, would have to meet the portion of loans in targeted areas requirement discussed below.

Title IX also provides a transitional rule under which neither the 5-percent limitation nor the $50,000,000 minimum amount is reduced by bonds that were issued on or before April 24, 1979, or under the transitional rules of the bill. Thus, a State is entitled to a full $50,000,000 minimum amount for a calendar year even though the market share limitations of Title IX were in effect only for a portion of that year.

(g) *Portion of loans in targeted area requirement*

In order for an issue to be a qualified mortgage issue, a specified amount of the bond proceeds must be made available for mortgages on residences in targeted areas for at least one year after the date on which any financing of mortgages by the bonds first become available. Funds will be considered to be made available in targeted areas only if the issuer and the loan originators are reasonably diligent in trying to place mortgages in targeted areas (such as by advertising that mortgage funds are available for targeted areas). Due diligence is not shown by merely providing in the governing instruments that the required amount be set aside

for targeted areas. Moreover, the require-[463]ment that a designated amount of the bond proceeds be made available in targeted areas for a year does not abrogate the requirement of the arbitrage rules that due diligence be used in placing into mortgages those bond proceeds not required in targeted areas.

The specified amount of funds that must be made available in targeted areas is the lesser of 20 percent of the lendable proceeds or 40 percent of the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family, owner-occupied residences in targeted areas within the jurisdiction of the issuing authority. Thus, where there are no targeted areas located within the issuing jurisdiction during any of the preceding 3 calendar years, there is no requirement that any of the bond proceeds be made available in targeted areas since 40 percent of the aggregate mortgages in targeted areas would be zero.

The specified amount that must be made available in targeted areas is a minimum amount. More than the minimum amount may be (but need not be) made available in targeted areas even though that amount exceeds 40 percent of aggregate mortgages in the targeted area.

(h) Arbitrage

In order for an issue to be a qualified mortgage issue, the issue must meet certain requirements regarding arbitrage as to both mortgage loans and nonmortgage investments. A qualified mortgage issue must satisfy these requirements in addition to the requirements of section 103(c) of the Code.

Under Title IX, the effective rate of interest on mortgages provided under the issue cannot exceed the yield on the issue by more than 1 percentage point. This determination is to be made on a composite basis for all mortgages under the issue. Consequently, the effective interest rate on some mortgages may be greater than 1 percentage point above the yield of the issue if other mortgages have a lower effective interest rate.

In general, this requirement imposes a limitation on the amount of costs a mortgagor is required to pay. Under this provision, the total cost of issuing the bonds and providing mortgage financing which may be passed on to the mortgagors may not exceed the yield on the issue by more than 1 percentage point. This provision of Title IX differs from present law in that the effective rate of interest on the mortgages is determined under this provision without any adjustment for the cost of issuing the bond and providing mortgage financing.

In the case of a loan participation program (see section 2, d of Background on the Use of Tax-Exempt Bonds for Owner-Occupied Housing), the portion of the owner financing provided by the private lending institution will not be subject to this limitation since the amounts used to provide that portion of the financing are not the proceeds of a qualified mortgage issue. Thus, in the case of such a program, the portion of the owner financing provided from the proceeds of the qualified mortgage issue will be subject to the limitations of this provision, while the portion of the mortgage loan provided by the private lending institution would not be subject to those limitations where the interest rate with respect to the portion of the mortgage loan provided by the [464] private lending institution does not exceed the reasonable and customary rate of interest charged by such institutions. Where the charge exceeds the reasonable and customary rate, any excesses will be taken into account in computing the effective interest rate on the portion of the loan provided with the proceeds of the qualified mortgage issue.

Title IX provides three rules for determining the effective rate of interest on any mortgage. The first rule deals with the amount to be taken into account in determining the effective rate of interest on any mortgage. The second rule deals with prepayment assumptions and the third rule deals with actuarial assumptions.

The first rule provides that the effective rate of interest on any mortgage is determined by taking into account all amounts borne by the mortgagor which are attributable to the mortgage or to the bond issue. It is immaterial whether the amounts are paid by the mortgagor or by another person. These amounts are included whether they are designated as a "point," an origination fee, a program fee, or by any other designation. Similarly, it is immaterial whether the amounts are paid to the issuer, the originator or servicer of the mortgagor, or to some other person. Thus, an origination fee is included whether it is paid to the issuer directly or to the originator of the mortgage. Similarly, any mortgage prepayment penalty is to be treated as borne by the mortgagor and included in the determination of the effective rate of interest.

Title IX specifies certain items which are treated as borne by the mortgagor. This listing is not intended to be all inclusive, but merely provides examples of some of the amounts which are treated as borne by the mortgagor. The first item is all points or similar charges paid by the seller of the property. The second item is all amounts received from any person by any person in connection with the purchase or financing of the acquired property in excess of the usual and reasonable costs which would have been paid where financing is not provided through the use of qualified mortgage bonds.

Title IX also specifies two items which are treated as not borne by the mortgagor and, therefore, are not taken into account in determining the effective rate of interest on any mortgage. The first item is any expected rebate of arbitrage. Thus, if a mortgagor pays $100 of interest during a period and has an expected rebate of arbitrage of $5 with respect to that period, the amount taken into account in determining the effective rate of interest on the mortgage is $100. The second item is any application fee, survey fee,

credit report fee, insurance charge, or similar amount, paid in connection with the purchase or financing of the acquired property but only to the extent the amount paid does not exceed the usual and reasonable amount charged in the issuing jurisdiction in cases where owner-financing was not provided through the use of qualified mortgage bonds. However, this treatment of certain amounts as amounts not borne by the mortgagor does not apply to "points," origination fees, or similar amounts.

The second rule provides that, in determining the effective rate of interest on any mortgage, it shall be assumed that the mortgage prepayment rate will be the rate set forth in the most recent mortgage maturity experience table published by the Federal Housing Ad-[465]ministration for the State (or, if available, the area within the State) in which the residences are located. This rule addresses the problem of determining the effective rate of interest on a mortgage where prepayment occurs. Generally, where a point or fee is charged upon origination or prepayment of a mortgage, the effective rate of interest on the mortgage will vary depending on whether some or all of the mortgages are prepaid. In addition, the exact pattern of prepayments of the mortgages is not known at the time the bonds are issued. Title IX addresses the problem by providing that the FHA maturity experience tables shall be used to determine the mortgage prepayment rate in determining the effective interest rate. Thus, the mortgages are to be treated as prepaying on the basis of 100 percent of FHA tables.

The third rule provides that the effective rate of interest on the mortgages is to be determined on an actuarial basis. All amounts that are taken into account in determining the effective rate of interest are discounted, from the time the amount is received, to an amount equal to the "purchase price" of the mortgage. The discount rate which will discount all present and future receipts to the purchase price is the effective rate of interest on the mortgages.

The purchase price of the mortgage is the amount loaned to the mortgagor. Thus, if a mortgage loan is in the amount of $30,000 and the mortgagor is charged a one point origination fee, which is deducted from loan proceeds available to the mortgagor, the purchase price is $29,700.

Title IX also provides certain rules for determining the yield on the issue. The yield on the bond issue is also to be computed on an actuarial basis. In making the computation, the amounts payable as debt service are discounted to the issue price. The issue price is determined under the principles of section 1232(b)(2) of the Code and is the initial offering price to the public or private party (excluding bond houses and brokers) at which price a substantial amount of bonds were sold. This initial offering pirce to the public or private party could be at the face amount of the bonds (par) or at a discount or premium. Any discount at which the bonds are sold to an underwriter is disregarded in computing the yield of the bonds.

(i) Nonmortgage investments

Mortgage subsidy bonds issued prior to the effective date of Title IX usually have established a reserve of one and one-half times maximum annual scheduled debt service. This reserve amounts to about 12 percent of the original face amount of the bonds and generally has been invested in long-term Treasury obligations. Under section 103(c) of the Code, a reasonable reserve is permitted to be invested at an unrestricted yield.

However, in most mortgage subsidy bond issues, the reserve has been maintained at its original amount throughout the life of the bonds even though the scheduled debt service is rapidly decreased as a result of early redemption of some bonds because of prepayments of mortgages. Because the reserve is designed to provide a source for payment of debt service in the event funds are not otherwise available, Title IX provides that the reserve be reduced as future annual debt [466] service is reduced. More specifically, Title IX provides that the reserve amount is to be computed for each bond year on the basis of the debt service required for that year. The effect of this rule is to reduce the amount of the reserve that is invested at unrestricted yield.

Under section 103(c) of the Code, proceeds of a new issue may be invested at unrestricted yield either as a reserve or as less than a major portion of bond proceeds (the so-called minor portion). In addition to the rules under section 103(c) relating to reserves and the minor portion, the bill limits the amount that may be invested at unrestricted yield in nonmortgage investments to 150 percent of the debt service on the issue for the bond year. The amount subject to this 150 percent debt service rule includes the original bond proceeds, investment proceeds, and repayments of principal on the mortgages. A nonmortgage investment includes any investment other than qualified mortgages that are on owner-occupied residences. A mortgage-backed certificate or obligation is a nonmortgage investment.

An exception to the 150-percent debt service rule is provided, however, for proceeds invested for an initial temporary period until such proceeds are needed for mortgages. This rule is in addition to the temporary period rule provided under section 103(c). Consequently, the requirement that a designated amount of bond proceeds be made available in targeted areas does not abrogate the requirement that the issuer proceed with due diligence in placing the bond proceeds in mortgages. Although no time period is established under Title IX for the initial temporary period, it is anticipated that as a result of the 5-percent limitation and the due diligence requirement that mortgages will be placed within a short period of time.

A second exception to the 150-percent debt service rule is provided for amounts invested for a temporary period relating to payment of debt serv-

ice. Under this exception, the 13-month temporary period provided in the regulations under section 103(c) would be applicable to qualified mortgage bonds.

(j) Arbitrage to benefit mortgagors

Title IX requires that all arbitrage earned by the issuer on nonmortgage investments are to be paid or credited to the mortgagors. The amount of arbitrage earned is the excess of the nonmortgage earnings over the amount that would have been earned if the investments had been at the yield of the bonds. This amount will be the net amount of any negative arbitrage on investments. It is determined by taking into account any reinvestment of nonmortgage investment receipts and also includes any interest attributable to the excess whether or not such interest exceeds the yield of the bonds.

The amount paid or credited to the mortgagors must have a present value at least equal to the present value of the arbitrage profits. In determining these present value amounts, the yield of the bonds is to be used as the discount rate. The amounts must be paid or credited to the mortgagors as rapidly as practicable. For example, a bondholder's lien on these profits would violate this requirement because the profits would be paid to the mortgagors (if at all) only after the bonds had been retired.

[467] *(k) State opinion*

In order for an issue to be a qualified mortgage issue, the issuing authority must submit a preliminary official statement (or similar statement in the case of a private placement) relating to that issue to a State agency which has been designated by the State to receive such statements. Further, the agency has 30 days after submission to issue an opinion as to whether the issue meets the market share requirement and the portion of loans in targeted area requirement. If 30 days have elapsed and the agency has not issued an opinion, this requirement will be deemed to be satisfied. The opinion of the State agency does not bind the Internal Revenue Service. However, the opinion of the State agency within the 30-day period does bind the issuing governmental unit because a favorable opinion of the State agency is necessary in order for the issue to be a qualified mortgage issue.

(l) Registration

In order for an issue to be a qualified mortgage issue, all of the obligations which are part of the issue must be in registered form. A bond is in registered form if it is considered to be in registered form for purposes of reporting of original issue discount. (See section 6049 of the Code and section 1.6049-2(d) of the Income Tax Regulations.) This requirement is effective both for mortgage subsidy bonds issued after the date of enactment of Title IX and for those bonds issued after the date of enactment that would be mortgage subsidy bonds but for the transitional rules of Title IX.

(m) Multiple originator requirement

In order for an issue to be a qualified mortgage issue, there must be 2 or more persons that originate the mortgages financed from the issue. However, this rule does not apply where more than one mortgage originator has been offered an opportunity to participate in originating loans and only one person is willing and able to originate the mortgages or where a sound public policy is served by having only one person originate mortgages financed from the issue. In general, the offer to participate in originating loans from the issue must extend to all persons who are qualified and able to originate mortgages in the area in which the mortgages are to be made. Moreover, this requirement will not be met if insignificant amounts of bond proceeds are made available to mortgage originators other than one mortgage originator.

(n) New mortgage requirement

Generally, in order for an issue to be a qualified mortgage issue, no part of the bond proceeds from the issue can be used to acquire or replace existing mortgages. All of the lendable proceeds must be used to provide mortgage loans to persons who did not have a previous mortgage (whether or not paid off) on the residence securing the mortgage note at any time prior to execution of the mortgage.

There are three exceptions to the rule that all of the mortgages under the issue must be new mortgages. First, the rule does not apply to construction period loans. For example, where construction financing (whether or not from the bond proceeds) is made available to the [468] mortgagor so that he could build his residence, it is permissible to provide permanent financing to that mortgagor from the bond proceeds.

Second, the rule does not apply to bridge loans or similar temporary initial financing. For example, where the mortgagor purchases a residence in a targeted area and has not been able to sell his former residence prior to the closing on the new residence and obtains financing for the new residence until the former residence is sold, the providing of permanent financing from bond proceeds is permissible even though the permanent financing replaces the temporary financing.

Third, the rule does not apply to the replacement of an existing mortgage in the case of a qualified rehabilitation. For example, where a residence with an existing mortgage is rehabilitated and a rehabilitation loan is used to provide funds for the cost of rehabilitation and to retire (or "takeout") the existing mortgage, the mortgage will not violate the new mortgage requirement.

(o) Assumptions

In order for an issue to be a qualified mortgage issue, certain of the requirements for a qualified mortgage bond must be met by every mortgagor who assumes a mortgage that had been made from proceeds of a qualified mortgage issue. Those requirements are the residence requirements (subsection (d)), the 3-year requirement (subsection (e)), the purchase price requirement (subsection (f)), and the

income requirement (subsection (h)). These requirements are to be determined based upon the facts as they exist at the time of the assumption as if the loan were first being made at that time. For example, the average income of the statistical area is to be determined by the average income at the time of the assumption and not when the mortgage was originally made. Similarly, the purchase price requirement is determined with reference to the purchase price of the residence at the time of the assumption and not at the time the mortgage was originally made.

(3) Qualified veterans' mortgage bonds

Title IX also provides that qualified veterans' mortgage bonds shall not be treated as mortgage subsidy bonds. Under this provision, interest on a qualified veterans' mortgage bond will be exempt from Federal income taxation if the bond otherwise meets the general requirements of Code section 103.

In general, a bond is a qualified veterans' mortgage bond only if it meets certain specific requirements. First, the principal and interest on the bond must be secured by the general obligation of a State. Second, substantially all the proceeds of the bond must be used to provide residences for veterans.[6] For purposes of this provision, the term "veteran" has the same meaning as in section 101 of Chapter 1 of Title 38 of the United States Code (relating to veterans' benefits). Under that provision, the term veteran means a person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable. Third, for bonds [469] issued after the date of enactment of Title IX, the bonds must be in registered form. (See above for a discussion of registration.) Fourth, in order to be a qualified veterans' mortgage bond, no part of the proceeds of the bond may be used for refinancing existing mortgages. The proceeds of a qualified veterans' mortgage bond are to be used solely for new mortgage loans.

(4) Advance refunding

Title IX prohibits the advance refunding of any bond if a significant portion of the proceeds are used for mortgages on owner-occupied housing. This provision applies to all bonds the proceeds of which are used for such purpose whether the bond was issued before, on, or after the date of enactment. Under this provision, no obligation may be issued for the advance refunding of any mortgage subsidy bonds, including qualified mortgage bonds and qualified veterans' mortgage bonds.

In general, an obligation issued for the refunding of a mortgage subsidy bond will be considered to be an advance refunding obligation if it is issued more than 180 days before the prior issue is redeemed.

b. Multi-Family Rental Housing (Sec: 903 of Title IX and sec. 103 (b) of the Code)

Under Title IX, interest on an industrial development bond substantially all the proceeds of which are used to provide a qualifying project for residential rental property will be exempt from Federal income taxation. A project will be treated as meeting the requirements of the provision only if 20 percent or more of the units in the project are to be occupied by individuals of low or moderate income.

The term "low or moderate income" has the same meaning as in section 169(k)(3)(B) of the Code. Under that section, low or moderate income is to be determined by the Secretary of theTreasury in a manner consistent with the Leased Housing Program under Section 8 of the United States Housing Act of 1937. The current Treasury regulations provide that occupants of a dwelling unit generally are considered families and individuals of low or moderate income only if their adjusted income does not exceed 80 percent of the median income for the area, as determined by the Secretary of Housing and Urban Development.

In order to qualify under this provision, 20 percent or more of the units in each project must be occupied by qualifying individuals on an ongoing basis. However, where an individual satisfies the low or moderate income test at the time he (or she) first occupies a unit in a project, that occupant will be treated as a qualifying individual as long as he or she continues to reside in the project, even though the occupant later ceases to be an individual of low or moderate income. Moreover, where a qualifying individual leaves the project, the unoccupied unit will continue as a qualifying unit until it is reoccupied by another tenant, at which time, the status of the new tenant as a qualifying individual is to be determined.

The 20-percent test generally must be met during the entire time that the bonds are outstanding. However, Title IX contains a special [470] rule for bonds issued before January 1, 1981 (and which do not come within the transitional rules) under which the 20-percent test need be met only for a period of 20 years. The 20-year period begins on the first date that the project is available for occupancy and that the tax-exempt obligations are outstanding. Under this special rule, the 20-percent test will be met where the developer of the project has entered into a contract with a Federal or State agency that requires that at least 20 percent of the units be maintained for persons of low or moderate income for a period of at least 20 years and provides rent subsidies for such persons for that period.

Only projects which provide units that contain complete living facilities which are to be used other than on a transient basis will qualify under this provision as an exempt facility. In general, a project is a building or structure which contains units having complete living facilities and facilities

[6] The term "substantially all" has the same meaning as under section 103(b)(4) of the Code.

which are functionally related and subordinate to the living facilities.

c. Effective Date and Transitional Rules (Sec. 904 of Title IX)

(1) General effective date

In general, the provisions of Title IX apply to all bonds issued after April 24, 1979. However, the provisions of Title IX terminate with respect to qualified mortgage bonds which are issued more than 2 years after the date of enactment. Finally, Title IX provides transitional rules under which certain obligations which do not meet the requirements of this bill may be issued after April 25, 1979. This was the date on which H.R. 3712, the predecessor of H.R. 5741 and H.R. 7652, was introduced.

(2) Transitional rules

(*a*) *General*

The transitional rules provide an official action rule, a rollover rule and a rule for projects under development. These rules apply to both obligations for owner-occupied residences (sec. 902 of the bill) and obligations for multi-family rental units (sec. 903 of the bill).

The transitional rules also provide an exception for State housing finance agencies, certain special rules, a rehabilitation program rule, and a $50 per capita exception for local governments. These rules apply to obligations for owner-occupied residences (sec. 902 of Title IX).

The official action rule in general addresses situations where a State or local government has made a determination to issue a particular tax-exempt bond issue for housing. Under this rule, if, prior to April 25, 1979, a State or local government had the authority to issue tax-exempt bonds for housing and had taken certain steps toward the issuance of a particular tax-exempt bond issue, then the general provisions of Title IX will not apply to the issue involved. The official action rule relates to official action with regard to a particular issue of bonds. Thus, under the official action rule, only one issue of bonds can be issued for any one official action. Similarly, the official action must relate to the bond issue, not to a housing project or program. (How-[471]ever, see below for a discussion of the rule for projects under development.)

The rollover rule addresses those situations in which a State or local government had issued obligations prior to April 25, 1979. Under this rule, if certain conditions are statisfied, the general provisions of Title IX will not apply where the State or local government refinances the obligation with another obligation.

The rules for projects under development address situations where plans and specifications for a particular project have been formulated before April 25, 1979. If certain conditions are satisfied with respect to such projects, the general provisions of Title IX will not apply to obligations issued to finance such projects.

The remaining transitional rules (i.e., exception for State housing finance agencies, the special rules, the rehabilitation program rule, and the $50 per capita exception for local governments) address those situations in which an obligation does not meet the requirements of the official action rule. More specifically, these rules generally address those situations where a State or local government did not have the authority to issue tax-exempt obligations for owner-occupied residences prior to April 25, 1979, or had not taken the required action toward the issuance of a particular tax-exempt bond issue for owner-occupied residences on such date. These rules reflect all the remaining instances with respect to which the Committee believed that the permanent requirements of Title IX should not apply.

(*b*) *Official action rule*

(*i*) *In general*

The official action rule provides that the provisions of Title IX shall not apply to an obligation if, prior to April 25, 1979, the governing body of the unit having authority to issue the obligations had taken official action with respect to that obligation indicating an intent to issue the obligation.

The official action rule imposes three conditions which must be satisfied for a particular action to be treated as a qualifying action. First, the action must be an official action. Second, the action must be a specific action with respect to a particular bond issue indicating an intent to actually issue that particular bond issue. Finally, the action must be taken by the governing body of a unit having authority to issue tax-exempt housing obligations.

Specific requirements

The first requirement that the action be an official action requires the adoption of a resolution, ordinance, or similar action prior to April 25, 1979. Under this rule, adoption of a resolution, ordinance, or similar action will qualify as an official action only if it conforms with State or local legal requirements and is a proper exercise of the powers of the governing body of the issuer. Thus, an action which is *ultra vires* will not constitute an official action. Moreover, the governing body must not have withdrawn its official action.[1] However, in the [472] case in which two governing bodies had taken joint official action prior to April 25, 1979, the fact that one governing body had withdrawn its official action will not cause the other governing body to be treated as having withdrawn its official action.

In addition, written evidence of the action must exist before April 25, 1979. Such written evidence includes the formal resolution or ordinance which was adopted, the recorded minutes of the governing body of the issuer, or a contract between the issuer and a party retained to prepare the documents necessary for the sale of the obligation.

[1] Where the official action is authorization to hire bond counsel or bond underwriters, a change in the bond counsel or bond underwriters is not considered a withdrawal of the official action of the governing body.

The second requirement is directed at the substance of the action taken. This requirement provides that the action must be a specific action with respect to a particular bond issue indicating an intent to actually issue that particular bond issue. More specifically, this rule requires that, prior to the time the action is taken, the issuing authority must have had formulated a specific bond issue proposal and the action be a step toward the sale of the bond issue. If the action does not relate to a particular bond issue or directs a party to formulate a proposal or to determine whether a State or local government should issue tax-exempt obligations for housing, it will not meet this requirement.

Generally, an official action would include the adoption of a resolution authorizing the hiring of bond counsel, bond underwriters, market analysts, or other persons to take steps (such as the preparation of documents) necessary for the issuance of a particular tax-exempt bond issue. In such instances, the second requirement would be satisfied since the authorization was with respect to a particular bond issue and the authorization indicated an intent to actually issue that particular bond issue.

In addition, the adoption of a resolution authorizing the issuance of a particular bond issue would meet this requirement since the authorization was a specific authorization with respect to a particular issue and the authorization to issue indicated an intent to actually issue that particular bond issue.

On the other hand, the adoption of a general authorization to hire bond counsel or other persons to represent a governmental unit or agency will not satisfy this requirement since the action does not relate to a particular bond issue and does not indicate an intent to actually issue a particular bond issue. Similarly, an authorization to conduct a market analysis to determine whether or not the governmental unit should issue housing bonds would not constitute a qualifying official action because the action did not indicate a decision by the governmental unit to issue the bonds.

In certain instances, the adoption of a resolution which authorizes the retention of a consultant to formulate a proposal for the redevelopment of the issuing jurisdiction and to take the appropriate steps necessary for the implementation of the proposal will satisfy this requirement. Such a resolution will meet this requirement if, pursuant to the authorization, the consultant had performed by April 25, 1979, more than an insubstantial amount of the same types of services that are provided by bond underwriters or bond counsel in preparation of the [473] issuance of the bond issue. The requirements would be satisfied in such a case since the services performed were with respect to a particular bond issue and indicate an intent to actually issue the particular bond issue. Furthermore, where the governing body of a governmental unit having authority to issue tax-exempt bonds had adopted a resolution authorizing the retention of bond counsel to represent the unit on the issuance of bonds generally, and bond counsel had in fact been hired pursuant to such resolution prior to April 25, 1979, written evidence of the fact that the bond counsel had performed before April 25, 1979, more than an insubstantial amount of work on the preparation of the issuance of a particular bond issue would be evidence that the first and second requirements of the official action rule are satisfied.

In addition, the creation of a bond issuing authority or the adoption of a resolution generally authorizing the issuance of tax-exempt obligations for housing will not satisfy either of these requirements since neither represents an official action with respect to a particular bond issue or indicates an intent to issue a particular bond issue. However, where a general authorization to issue tax-exempt obligations for housing exists and the governing body of the unit having authority to issue such obligation took further official action with respect to a particular issue prior to April 25, 1979, the requirements of this provision will be satisfied.

Thus, in the case in which an issuing authority adopts a resolution authorizing the issuance of bonds and the issuing authority had taken no further official action indicating an intent to actually issue a specific bond issue, the requirements of this provision will not be satisfied. On the other hand, if the issuing authority had adopted a resolution authorizing the hiring of bond counsel for the sale of a portion of the obligations authorized, such action will meet this requirement.

The third requirement of the official action rules is that the action be taken by the governing body of a unit having authority to issue tax-exempt obligations for housing. Under this requirement, the official action must, in fact, have been taken by the governing body of the issuing governmental unit. Thus, an action will not qualify if it was taken by a representative of the governing body. In general, this rule requires that the official action be taken by the governing body of the State or local government which will issue the obligations or by the governing body of an agency which will issue the obligations on behalf of a State or local government. In addition, this rule will be satisfied if the official action is taken by the governing body of a State or local government even though the obligation will be issued by an agency on behalf of the governmental unit. However, in order to satisfy the requirement, either the issuing State or local government or the agency which will issue obligations on behalf of a State or local government must, prior to April 25, 1979, have authority to issue tax-exempt obligations for housing. Such authority to issue tax-exempt obligations must be authority to issue obligations in the amount and for the same purpose as the proposed issue. Thus, a unit must have authority to issue mortgage subsidy bonds, in the case of an issuance of tax-exempt obligations for owner-occupied residences, and authority to issue industrial development bonds, in the case of an issuance of tax-exempt

obligations for multi-family rental facilities.

[474] A governmental unit will be considered to have authority to issue bonds as of April 24, 1979, where the governmental unit had the authority to create an agency which could issue the bonds on behalf of the governmental unit, even though the governmental unit had not created the agency as of April 24, 1979.

Staff action rule

The transitional rules also provide a rule which treats the actions of the staff of a housing authority as an official action of the governing body of the issuing authority.

Under this rule, if the permanent professional staff of a housing authority performed substantial work on a bond issue prior to April 25, 1979, and it was reasonable to expect that the bond issue, as developed by the staff, would be promptly approved by the governing body of the housing authority, then the work of the staff will be treated as the official action of the governing body. For purposes of this provision, any delay in approval caused by the introduction of this bill (or its predecessors) shall not be taken into account.

In general, this rule requires the existence of a housing authority or similar governmental unit or agency whose primary function is to develop or rehabilitate housing within its jurisdiction. This rule requires that the housing authority be staffed by a permanent professional staff and that the staff be compensated by the authority. In addition, the staff's sole responsibilities and duties must be performed for such housing authority.

Under this rule, the work of the staff will be treated as official action of the governing body of the issuing authority provided that, prior to April 25, 1979, the housing authority had the authority to issue tax-exempt obligations for housing. As a result, where such work has been performed, the first and third requirements of the official action rule will be satisfied. However, in order to satisfy the second requirement of that rule, the work of the staff must be with respect to a specific bond issue which indicates an intent to actually issue that bond issue. Therefore, the work performed by the staff must be of the same type as that which would be provided by a bond underwriter, bond counsel, or market analyst in preparation of the issuance of a bond issue. Thus, if the staff of a housing authority had prepared a bond indenture or had conducted a market analysis with respect to a specific bond issue, the second requirement of the official action rule will be satisfied. However, work done by a professional staff on a housing project, as opposed to work done on the issuance of bonds, would not qualify as official action under this provision.

Rules relating to size of issue

Title IX also provides a rule relating to the size of an issue where qualifying official action had been taken prior to April 25, 1979.

Under this rule, with one exception, an issue will not qualify under the official action rule if the issue size exceeds the intended issue size, or if the intended issue size cannot be determined. The issue size is defined as the aggregate face amount of obligations issued pursuant to the issue. The intended issue size means the aggregate face amount of obligations which a reasonable individual would reasonably con-[475]clude was the issue size which the governing body of the issuing authority on April 24, 1979, intended to issue. The determination of the intended issue size is to be made on the basis of the documentation which was in existence prior to April 25, 1979.

In the case where an issuing authority is uncertain of its intended issue size, it is anticipated that the issuer may submit a ruling request with the Internal Revenue Service to determine the intended issue size. However, where an intended issue size cannot be determined from such documentation or where no documentation exists, an issue will not qualify under the official action rule, unless the issue meets the requirements of the exception.

The determination of the intended issue size shall take into account all documents which relate to the issue. Thus, in the case of a bond issue which will be used to provide financing for a particular project to be constructed, the documentation which relates to the design and anticipated cost of the overall project or the cost of each unit within the project shall be taken into account in determining the intended issue size. Where such documents are the only documents which relate to the intended issue size, the intended issue size (exclusive of issuance costs and a reasonably required reserve) is an amount equal to the amount necessary to acquire or construct a unit or project substantially similar in cost and design to the units or project described in the documentation.

In the case where the only documentation which exists as of April 24, 1979, relates to the amount of mortgage money the issuing authority actually intended to make available, the intended issue size (exclusive of issuance costs and a reasonably required reserve) may not be in excess of the amount of mortgage money the issuing authority intended to provide.

An exception to the rule that an issue will not qualify under the official action rule is provided in the case of an issue for the owner financing on one- to four-family, owner-occupied residences where no documentation exists as of April 24, 1979, relating to the intended issue size. Under this exception, the issue size will not be treated as exceeding the intended issue size where two requirements are satisfied.

The first requirement is that all the lendable proceeds of the issue will be used to provide owner-financing for one- to four-family, owner-occupied residences. For purposes of this requirement, the lendable proceeds of an issue means the proceeds of the issue exclusive of issuance costs and a reasonably required reserve. An issue will not meet this requirement if any part of the proceeds are used to acquire or replace existing mortgages on one-

to four-family, owner-occupied residences. However, the replacement of construction period loans, temporary period financing, and an existing mortgage in the case of a qualified rehabilitation will not be treated as the acquisition or replacement of an existing mortgage.

The second requirement of the exception is that substantially all the proceeds of the issue be committed to the owner-financing of one- to four-family, owner-occupied residences within 9 months of the date of issuance. The commitment of the proceeds must be done by firm commitment letters issued during the 9-month period. This provision also [476] provides that a firm commitment letter be a document similar to the type a lender would ordinarily provide prospective home buyers where financing was not provided from the proceeds of a tax-exempt bond. In order to satisfy this requirement, a firm commitment letter must commit a stated amount of money to a specific individual for a stated period of time for the purchase of a particular residence at a stated interest rate.

Generally, an issue will not qualify under the exception unless both the one- to four-family and 9-month requirements are satisfied. However, in the case in which a bond issue has been issued and, at the time of issuance, it was reasonably expected that the 9-month rule would be satisfied, the bond issue will be tax-exempt if it otherwise satisfies the requirements of Code section 103 and if the proceeds for which commitments were not made within 9 months from the issuance date are used to redeem obligations. This rule will apply only if the uncommitted proceeds are used to redeem obligations within 15 months of the issuance date.

(*ii*) *Additional rules*

In general

The transitional rules provide two rules which address situations where the governing body of a local governmental unit took action with respect to the issuance of tax-exempt obligations for owner-occupied residences but did not have authority to issue such obligations at the time it took the action. Under these rules, the third specific requirement of the official action rule will be deemed to be satisfied. However, a dollar limit and a new mortgage requirement are imposed on obligations issued pursuant to these two rules. In addition, as is the case under the general official action rule (see section 2,a) only one issue of bonds can be issued for any one official action.

Local referendum rule

The first rule applies to situations where, prior to April 25, 1979, the governing body of a local governmental unit took a specific action with respect to the issuance of a particular issue of tax-exempt obligations for owner-occupied residences, and legislation authorizing the governmental unit to issue such obligations was enacted after April 24, 1979, but prior to June 7, 1979, and a local referendum authorizing the particular bond issue was held prior to June 7, 1979. In such cases where the action otherwise meets the requirements of the official action rule and the requirements set forth below are met, the legislation and referendum are treated as in effect at the time the action was taken.

In order to qualify under this rule, four conditions must be satisfied. First, on April 25, 1979, legislation must have been pending in a State legislature to authorize local governmental units to issue tax-exempt obligations for certain public purposes. Second, on April 27, 1979, the legislation must have been amended to authorize local governmental units to issue tax-exempt obligations for owner-occupied residences. Third, the legislation must have been enacted, and a referendum authorizing the issuance of tax-exempt obligations for owner-occupied residences must have been held, prior to June 7, 1979. Fourth, the governing body of the local governmental unit to which the legislation [477] applied must have taken action toward the issuance of tax-exempt obligations for owner-occupied residences prior to April 25, 1979. In addition, such action must be the type of action which would have satisfied the requirements of the official action rule had the legislation been enacted and the referendum been held at the time the action was taken. Thus, the action must satisfy the first two specific requirements of the official action rule.

In the case where these four conditions are satisfied, this rule provides that, for purposes of the official action rule, the legislation shall be treated as in effect, and the referendum shall be treated as having been held, at the time the action was taken. In such cases, the third specific requirement of the official action rule, that before April 24, 1979, the local governmental unit have authority to issue tax-exempt obligations for housing, will be satisfied.

This rule also provides a dollar limit on the amount of obligations which may be issued pursuant to this transitional rule and a new mortgage requirement. In general, a governmental unit may issue obligations under this rule in an amount equal to the intended issue size. In the case where no documentation exists as of April 24, 1979, with respect to the intended issue size, a local governmental unit may issue obligations in an amount equal to the amount allowed under the 9-month rule. In addition, the aggregate amount of obligations which may be issued by local governmental units with respect to any geographic area may not exceed $35 million. However in the case where a local governmental unit may issue obligations under the official action rule, the dollar limit is reduced by the aggregate amount of obligations issued after April 24, 1979, by local governmental units with respect to such geographic area under the official action rule.

The new mortgage requirement provides that substantially all the proceeds of the issue (exclusive of issuance costs and a reasonably required reserve) must be committed to the owner financing of one- to four-family unit residences. Under this limitation, all the lendable proceeds of the issue must be used to provide owner financing

(including "qualified loans" for home improvements (see section (e) of Explanation of Provisions) for one- to four-family unit residences, one unit of which is owner-occupied. An issue will not satisfy this requirement where any part of the proceeds of the issue are used to acquire or replace existing mortgages on owner-occupied residences. However, the replacement of construction period loans, temporary period financing, and an existing mortgage in the case of a qualified rehabilitation will not be treated as the acquisition or replacement of an existing mortgage.

September 29, 1979, rule

The second rule applies where the governing body of a local governmental unit had taken action with respect to the issuance of a particular tax-exempt bond issue for owner-occupied residences prior to April 25, 1979, and legislation granting the authority to issue such obligations was enacted after April 24, 1979, but prior to September 29, 1979. In such cases where the action would have qualified as official action had the legislation been in effect when the action was taken and the requirements set forth below are met, this rule treats the legislation as in effect at the time the action was taken.

[478] In order to qualify under this rule, three conditions must be satisfied. First, legislation authorizing local governmental units to issue tax-exempt obligations for owner-occupied residences must have been pending before a State legislature on April 25, 1979. Second, such legislation must have been enacted prior to September 29, 1979. Third, the governing body of a local governmental unit must have taken action toward the issuance of tax exempt obligations for owner-occupied residences prior to April 25, 1979. In addition, such action must be the type of action which would have satisfied the requirements of the official action rule had the legislation been enacted at the time the action was taken. Thus, the action must satisfy the first two specific requirements of the official action rule.

Under this rule, for purposes of applying the official action rule, the authorizing legislation is treated as in effect at the time the action is taken where the above three conditions are satisfied. As a consequence, the third specific requirement of the official action rule, i.e., that before April 25, 1979, the local governmental unit have authority to issue tax-exempt obligations for owner-occupied residences will be satisfied.

This rule also provides a dollar limit on the amount of obligations which may be issued and a new mortgage requirement. The new mortgage requirement is identical to the new mortgage requirement which is imposed under the local referendum rule. In general, the amount of obligations which may be issued by a governmental unit under this rule is an amount equal to the intended issue size or the amount allowed under the 9-month rule where no documentation with respect to the intended issue size is in existence as of April 24, 1979.

In addition, this rule provides a dollar limit which restricts the aggregate amount of obligations which may be issued by local governmental units with respect to a geographic area. The dollar limits for an area will equal the lesser of (1) the aggregate amount authorized in the legislation authorizing the issuance of tax-exempt obligations for owner-occupied residences or (2) $150 million.

(c) Exception for State housing finance agencies

The exception for State housing finance agencies provides, with limitations, that the provisions of sections 902 and 903 of the bill shall not apply to obligations issued by a State housing finance agency. The term "State housing finance agency" is intended to include a housing division (or agency) of a State regardless of whether the bonds are issued directly by the housing division (agency) or the State, or are issued by another entity on behalf of the housing division (agency) or the State. Two limitations are imposed under this provision. The first limitation is a dollar limitation. This limitation provides that the aggregate amount of obligations for owner-occupied residences which may be issued by State housing finance agencies in any State may not exceed $150 million reduced by the aggregate amount of obligations for owner-occupied residences issued by such agencies under the official action rule.

Under this rule, State housing finance agencies may issue tax-exempt obligations for owner-occupied residences without satisfying the requirements of sections 902 and 903 of Title IX. However, the total amount of such obligations which may be issued with respect to any State is reduced by the amount of obligations for owner-occupied residences [479] issued after April 24, 1979, under the official action rule, by all of the State housing finance agencies of a State. Thus, if after April 24, 1979, the State mortgage finance agency of a State issues $50 million of tax-exempt bonds for owner-occupied residences under the official action rule and the State housing finance agency of the same State issues $50 million of tax-exempt bonds for owner-occupied residences under the official action rule, the aggregate amount of obligations which may be issued under this exception is $50 million.

The second limitation provides that, in the case where tax-exempt obligations for owner-occupied residences are issued under this rule, substantially all the proceeds of the issue (exclusive of issuance costs and a reasonably required reserve) must be committed to the owner financing of one- to four-family unit residences before January 1, 1981. Under this limitation, all the lendable proceeds of the issue must be used to provide owner financing (including "qualified loans" for home improvements, see section (e) of the Explanation of Provisions) for one- to four-family unit residences one unit of which is owner-occupied. An issue will not satisfy these requirements where any part of the proceeds of the issue are used to acquire or replace existing mortgages on owner-occupied residences. However, the replacement of

construction period loans, temporary period financing, an existing mortgage in the case of a qualified rehabilitation will not be treated as the acquisition or replacement of an existing mortgage.

The commitment of the proceeds must be done by firm commitment letters issued prior to January 1, 1981. Under this provision, a firm commitment letter is a document similar to the type a lender would ordinarily provide prospective home buyers or borrowers where financing was not provided from the proceeds of a tax-exempt bond. In order to satisfy this requirement, a firm commitment letter must commit to an individual a stated amount of money for the purchase or improvement of a particular residence for a stated period of time at a stated interest rate.

Generally, an issue will not qualify under the second limitation unless both the owner-financing and January 1, 1981 requirements are satisfied. However, in the case in which a bond issue has been issued and, at the time of issuance, it was reasonably expected that the January 1, 1981, requirement would be satisfied, the bond issue will be tax-exempt if it otherwise satisfies the requirements of Code section 103 and if the proceeds for which commitments were not made by January 1, 1981, are used to redeem obligations. This rule will apply only if the uncommitted proceeds are used to redeem obligations by July 1, 1981.

An exception to the second limitation, the mortgage commitment requirement, is provided in certain cases. In general, the mortgage commitment requirement provides that no part of the proceeds of an issue may be used to acquire or replace existing mortgages on owner-occupied residences. This requirement is waived under the exception where certain conditions are satisfied.

The exception applies in the case of a program under which tax-exempt obligations are issued to finance the purchase of existing mortgages on owner-occupied residences from banks. A program will qualify [480] under this rule only if the program was established in 1970 by State legislation and the program is operated by a State housing agency.

In order for an obligation to qualify under this exception, the governing body of the State housing agency which administers the program must have a finding in August 1978 that there was a shortage of mortgage funds within the State. Further, the finding must have been made as a required step toward the issuance of such obligations. In addition, all the moneys received by a bank from the State housing agency for the purchase of existing mortgages must be reinvested within 90 days of receipt in new mortgages. The new mortgages provided by the issue must satisfy a down payment requirement and a targeted area requirement.

The down payment requirement provides that at least 75 percent of the financing provided by the issue be 95-percent financing. Under this requirement, 75 percent of the moneys received by banks for existing mortgages must be used to provide financing for residences in an amount equal to or greater than 95 percent of the acquisition cost of each such residence. Further, this requirement will be satisfied only where 75 percent of the money paid for existing mortgages is used to provide financing that is 95-percent financing, regardless of the number of individual mortgages which qualify as 95-percent financing.

The second requirement, the targeted area requirement, provides that at least 20 percent of the moneys paid for existing mortgages must be used to provide owner financing of targeted area residences. For purposes of this provision, a targeted area residence means a residence in an area which is a census tract in which 70 percent or more of the families have income which is 80 percent or less of the statewide median family income. This determination is to be based on the most recent decennial census for which data are available.

Finally, the aggregate amount of obligations (including issuance costs and a reasonably required reserve) which may be issued under this exception to the mortgage commitment requirement with respect to a qualifying program is $125 million.

(d) Special rules

(i) In general

Title IX also includes five special rules which provide if certain requirements are met, that the provisions of section 902 of the bill will not apply to certain obligations. Generally, these rules are intended to provide transitional relief for specific situations that have come to the attention of the Committee

Certain public trusts

The first special rule applies in the case of obligations issued by a public trust on behalf of certain counties. This rule applies only where four conditions are satisfied. First, prior to April 25, 1979, a State must have enacted a law under which counties were authorized to create public trusts to issue tax-exempt obligations for public purposes. Second, on April 25, 1979, the question of whether the State statute authorized the issuance of tax-exempt obligations to provide owner-occupied residences for moderate income families must have [481] been in litigation in a State court of competent jurisdiction. Third, prior to July 31, 1979, the Supreme Court of the State in which the litigation was pending must have held that providing low interest loans to moderate income families constituted a proper public function. Fourth, there is written evidence that the governing body of a county in the State in which the litigation was pending took action prior to April 25, 1979, indicating an intent to issue or to establish a program for issuing tax-exempt obligations for owner-occupied residences. Such written evidence would include, for example, a written resolution, written ordinance, or the recorded minutes of the governing body which took action.

The action must not have been withdrawn or resulted in the issuance of

tax-exempt obligations for owner-occupied residences prior to April 25, 1979. For example, if the governing body of a local governmental unit had taken action in 1978 indicating an intent to issue or to establish a program for issuing tax-exempt obligations for owner-occupied residences, and the governmental unit had issued such obligations prior to April 25, 1979, the previous action will not be treated as qualifying action under this provision.

Under this rule, the aggregate amount of obligations issued with respect to any county may not exceed $50 million.

Certain other local governmental units

The second special rule applies in the case of certain local governmental units which had established prior to April 25, 1979, income limitations for families eligible for owner financing under a tax-exempt housing bond program. In order to qualify under this rule, three conditions must be satisfied. First, legislation authorizing local governmental units to issue tax-exempt obligations for owner-occupied residences must have been pending before a State legislature on April 25, 1979. Second, the governing body of a local governmental unit in the State in which the legislation was pending must have taken certain qualifying action prior to April 25, 1979. Qualifying action for purposes of this provision means action indicating to the delegation of the State legislature which represents the area comprising the local governmental unit the income limitations which would be applied under the tax-exempt housing bond program, the local governmental unit intended to establish following enactment of the authorizing legislation. Further, an action will qualify under this provision only where there is written evidence (which was in existence prior to April 25, 1979) to establish that the action occurred. Third, the legislation authorizing local governmental units to issue tax-exempt obligations for owner-occupied residences must have been enacted before June 8, 1979.

Under this rule, the maximum amount of obligations which may be issued with respect to any local governmental area may not exceed $150 million.

Certain cities

The third special rule applies in the case of obligations issued by an urban residential finance authority on behalf of certain cities. In order to qualify under this rule, four conditions must be satisfied. [482] First, prior to April 25, 1979, two resolutions must have been submitted to the council of a city. The first such resolution must have provided for the creation of an urban residential finance authority. The second such resolution must have authorized the president of the city council to appoint the members of the authority. Second, a vote on the passage of the second resolution must have been postponed prior to April 25, 1979, because specific legislation authorizing that city to issue tax-exempt obligations for owner-occupied residences had not been enacted at the time the vote was to have been taken. Third, legislation authorizing the city to issue tax-exempt obligations for owner-occupied residences must have been enacted prior to April 25, 1979, by the State legislature of the State with respect to which the city was a political subdivision. Fourth, after April 24, 1979, and prior to May 17, 1979, the city council of the city authorized to issue such obligations must have passed the previously submitted motions creating an urban residential finance authority, and authorized the president of the city council to appoint the members of the authority.

Under this rule, the maximum amount of obligations which may be issued with respect to any city may not exceed $50 million.

Certain bond series

The fourth special rule applies in the case of a city which had postponed the issuance of one-half of a previously authorized bond issue series. In order to qualify under this rule, three conditions must be satisfied. First, on April 11, 1979, the council of a city must have adopted a resolution authorizing the issuance of a mortgage revenue bond series for owner-occupied residences in an aggregate principal amount not to exceed $30 million. Second, on or about August 1, 1979, approximately one-half of the obligations authorized in the April 11, 1979, resolution must have been issued. Third, the primary reason the remaining one-half of the authorized obligations were not issued on or about August 1, 1979, must have been to save interest payments on such obligations during the temporary period the proceeds of such obligations were not needed for home mortgage loans. In the case where these three conditions are satisfied, the requirements of section 902 of Title IX shall not apply to the remaining obligations which were authorized by the city on April 11, 1979.

Certain nonprofit corporations

The fifth special rule applies in the case of obligations issued by certain nonprofit corporations established pursuant to a State law for the purpose of issuing tax-exempt obligations for owner-occupied residences. In order to qualify under this rule, three conditions must be satisfied. First, a State law authorizing local governments to establish nonprofit corporations to issue tax-exempt obligations for owner-occupied residences must have been enacted after April 24, 1979, and before June 16, 1979. Second, a local government must establish such a nonprofit corporation and designate it as the nonprofit corporation with respect to which the rule applies. Third, on November 7 or November 14, 1979, an amount must have been specified by or for the local government as the maximum amount of obligations which the [483] local government expected the designated nonprofit corporation to issue with respect to a geographic area under any transitional authority provided by Title IX. For purposes of this provision, an amount will be treated as being specified for a local government if the amount was provided to the Committee on November 7 or November 14, 1979, by means of a letter to

the chairman of the Committee from a Member of Congress.

This rule also imposes a dollar limit on the aggregate amount of obligations which may be issued with respect to any geographic area. The maximum amount of obligations which may be issued under this rule is the amount specified on November 7 or November 14, 1979, by or for a local government as the maximum amount which the local government expected the designated nonprofit corporation to issue with respect to a specific geographic area under any transitional authority provided by Title IX.

(ii) Additional requirements

In general, in the cases described in the above special rules, the requirements of section 902 of Title IX shall not apply with respect to obligations prescribed in those rules which are issued by or on behalf of qualifying local governmental units. However, in order for an obligation to qualify under any one of the special rules of this provision, three additional conditions must be satisfied. Those conditions are a mortgage commitment requirement, an affidavit requirement, and a prior issue rule.

Mortgage commitment requirement

The mortgage commitment requirement provides that, in the case where tax-exempt obligations for owner-occupied residences are issued under any one of the special rules, substantially all the proceeds of the issue (exclusive of issuance costs and a reasonably required reserve) must be committed to the owner-financing of one to four family unit residences before January 1, 1981. The specific requirements of this provision are identical to those of the mortgage commitment requirement of the exception for State housing finance agencies (see section 2c).

Affidavit requirement

The affidavit requirement provides that, in general, no obligation may be issued under any one of the special rules with respect to a geographic area unless a majority of the members of the governing body of the local governmental unit file affidavits with the Secretary of the Treasury or his delegate under penalty of law that it was their specific intent on April 24, 1979, (1) that tax-exempt obligations be issued to provide financing for owner-occupied residences or (2) that a program be established to issue tax-exempt obligations to provide financing for owner-occupied residences.

This rule, in general, requires a majority of all the members of the governing body of the governmental unit described in the special rules to declare in their affidavits that, on April 24, 1979, the governing body intended to issue tax-exempt obligations to provide financing for owner-occupied residences or to establish a program for issuing such obligations. Affidavits must be filed by a majority of those members [484] that comprised the governing body at the time the action was taken. In the case of the fifth special rule, where the governing body of a local government is a commissioners' court, the required affidavit must be filed by the county judge who was on April 25, 1979, the presiding officer of such court.

Prior issues rule

The prior issues rule provides that the applicable dollar limit on the amount of obligations which may be issued under any provision of the special rules is reduced by the aggregate amount of obligations which are issued after April 24, 1979, under the official action rules by any local governmental unit with respect to the geographic area within the jurisdiction of the issuer.

Under this rule, the limit on the aggregate amount of obligations is reduced by the aggregate amount of obligations which are issued after April 24, 1979, under the official action rules. However, in the case of the fourth special rule which applies where a city had postponed the issuance of one-half of a previously authorized bond issue series, the limit on the aggregate amount of obligations which may be issued is not reduced by those obligations issued on August 1, 1979. The amount of obligations which are issued after April 24, 1979, under the official action rules includes any obligations issued under any provision of the official action rules with respect to a geographic area within the jurisdiction of a local governmental unit which is described in the special rules. Thus, the amount of obligations issued by or on behalf of a city under the official action rules would reduce the dollar limit under the special rules for obligations issued by the county within which the city is located. Similarly, the amount of obligations issued by the city would also reduce the amount of obligations which may be issued by a local housing authority within whose jurisdiction the city is located. In addition, in the case in which a larger governmental unit issues obligations under the official action rules, the amount of obligations which may be issued by a smaller local governmental unit is reduced by a portion of the obligations which are issued by the related larger local governmental unit after April 24, 1979, under the official action rules. The portion of the obligations issued by the larger local governmental unit which will reduce the applicable dollar limit for the small governmental unit will be computed by multiplying the amount of obligations issued by the larger governmental unit by a fraction, the numerator of which is the population with respect to the smaller governmental unit and the denominator of which is the population with respect to the larger governmental unit.

(e) Rehabilitation programs

The transitional rules also provide a rule for certain ongoing local governmental programs which provide rehabilitation loans. Under this rule, the provisions of Title IX shall not apply to certain obligations issued by local governmental units with respect to a rehabilitation program. This rule also provides a dollar limit and a commitment requirement.

In general, this rule applies to obligations used to provide "qualified loans" where a local governmental unit had established a "qualified rehabilitation loan program" prior to April 25, 1979. A "qualified [485] rehabilitation loan program" means a program for the financing of alterations, repairs, and improvements on, or in connection with, an existing residence by the owner of such residence. However, a program will qualify under the provision only where the alterations, repairs and improvements financed under the program substantially protect or improve the basic livability of the property. A "qualified loan" means the financing of alterations, repairs and improvements on, or in connection with, an existing one- to four-family residence (one unit of which is owner-occupied) by the owner thereof, where the alterations, repairs or improvements substantially protect or improve the basic livability of the property. However, a loan will not be treated as a qualified loan if the financing is in an amount which exceeds $20,000 plus $2,500 for each unit in excess of one.

The commitment requirement provides that substantially all the proceeds of an obligation (exclusive of issuance costs and a reasonably required reserve) meeting the requirements of this rule must be committed to qualified loans by January 1, 1981. The commitment of the proceeds must be done by firm commitment letters issued prior to January 1, 1981. The commitment letter must be a document similar to the type a lender would ordinarily provide prospective borrowers where financing was not provided from the proceeds of a tax-exempt bond. Thus, the commitment letter must commit to an individual a stated amount of money for the improvement of a particular residence for a stated period of time at a stated interest rate.

Generally, an issue will not qualify under this rule unless both the qualified loan and the January 1, 1981, requirements are satisfied. However, in the case in which a bond issue has been issued and, at the time of issuance, it was reasonably expected that the January 1, 1981, requirement would be satisfied, the bond issue will be tax-exempt if it otherwise satisfies the requirements of Code section 103 and if the proceeds for which commitments were not made by January 1, 1981, are used to redeem obligations. This rule will apply only if the uncommitted proceeds are used to redeem obligations by July 1, 1981.

This rule also provides a dollar limit which restricts the aggregate amount of obligations which may be issued by local governmental units with respect to any geographic area. The dollar limit for an area will, in general, equal the lesser of (1) $10 million or (2) the aggregate amount of loans made under a qualified rehabilitation loan program with respect to the area comprising the local governmental area during the period beginning January 1, 1977, and ending April 24, 1979. However, in any case in which a local governmental unit may issue obligations with respect to a qualified rehabilitation loan program under the official action rules, the dollar limit is reduced by the aggregate amount of such obligations issued after April 24, 1979, by the local governmental units with respect to such geographic area under the official action rules.

(f) $50 per capita exception for local governments

The $50 per capital exception provides that the provisions of section 902 of Title IX shall not apply to certain obligations issued by local governmental units. This rule applies where there is written evidence that the governing body of the local governmental unit which issues the [486] obligations had taken action prior to April 25, 1979, indicating an intent to issue (or to establish a program for issuing) tax-exempt obligations to finance owner-occupied residences. Such written evidence would include, for example, a written resolution, written ordinance, or the recorded minutes of the governing body which took the action.

Moreover, the action must not have been withdrawn or resulted in the issuance of tax-exempt obligations for owner-occupied residences prior to April 25, 1979. For example, if the governing body of a local governmental unit had taken action in 1978 indicating an intent to issue or to establish a program for issuing tax-exempt obligations for owner-occupied residences, and the governmental unit had issued such obligations prior to April 25, 1979, the previous action will not be treated as qualifying action under this provision.

For purposes of this rule, action taken by the governing body of a second local governmental unit with respect to a particular area is treated as action of the issuing governmental unit where both governmental units have authority with respect to the identical geographic area. Thus, action taken by the governing body of a municipality is treated as action taken by the governing body of the municipal housing authority which will issue the obligations, where both governmental units have jurisdiction over the same geographic area.

In addition to the above requirement, in order to qualify under this exception, two other conditions must be satisfied. First, on October 30, 1979, a local governmental unit must have had the authority to issue tax-exempt obligations to finance owner-occupied residences. Second, a majority of the members of the governing body of the local governmental unit must file affidavits with the Secretary of the Treasury or his delegate declaring under penalty of law that the governing body had taken action indicating an intent to issue (or to establish a program for issuing) tax-exempt obligations to finance owner-occupied residences. Under this rule, affidavits must be filed by a majority of those members that comprised the governing body at the time the action was taken.

This rule also provides a dollar limit on the amount of obligations issued by local governmental units. The aggregate amount of obligations issued with respect to any area under this rule, in general, may not exceed the amount equal to the product of $50 multiplied by the population of that area. How-

ever, this amount is reduced by the aggregate amount of obligations which are issued by local governmental units after April 24, 1979, with respect to an area under the official action rules, the special rules, and the rehabilitation program rules. For purposes of determining the aggregate amount of obligations which may be issued with respect to any area, the population of such area shall be the population as of July 1, 1976, as determined for purposes of revenue sharing under the State and Local Fiscal Assistance Act of 1972.

Thus, the amount of obligations issued by or on behalf of a city under the special rules would reduce the amount of obligations which may be issued by a county under this rule where the city is located within the county. Similarly, the amount of obligations issued by the city would also reduce the amount of obligations which may be [487] issued by a local housing authority within whose jurisdiction the city is located. In addition, in the case in which a larger governmental unit issues obligations under the official action rule, the amount of obligations which may be issued by a smaller local governmental unit is reduced by a portion of the obligations which are issued by the related larger local governmental unit after April 24, 1979, under the official action rules. The portion of the obligations issued by the larger local governmental unit which will reduce the applicable dollar limit for the smaller governmental unit will be computed by multiplying the amount of obligations issued by the larger governmental unit by a fraction, the numerator of which is the population with respect to the smaller governmental unit and the denominator of which is the population with respect to the larger governmental unit.

Where two or more governmental units meet the requirements of this rule and have the authority to issue mortgage subsidy bonds to finance mortgages on residences in the same geographic area, this provision provides that only the governmental unit with jurisdiction over the smallest geographic area shall be treated as having issuing authority within that geographic area. For example, where both a county and a city located within the county have authority to issue mortgage subsidy bonds and both meet the requirements of this rule, the dollar limit of the city is determined by reference to the population within the city. The dollar limit of the county is determined by reference to the population located within the county but outside of the city.

Where two governmental units have authority to issue mortgage subsidy bonds and both governmental units have jurisdiction over the identical geographic area, the population located within that area is to be allocated to the governmental unit having the broader sovereign powers. For example, where a city and a housing finance agency have jurisdiction only within the city and both the city and the housing finance agency have authority to issue mortgage subsidy bonds, then the population is allocated to the city since the city has broader sovereign powers than the housing finance agency.

Title IX provides an exception to the rule that where two or more local governmental units meet the requirements of the $50 per capita rule and have authority to issue mortgage subsidy bonds with respect to the same area, only the governmental unit representing the smallest geographic area is treated as having issuing authority with respect to such area. Under the exception, a small governmental unit can enter into an agreement with the governmental unit having the next largest geographic area that includes the area of the smaller governmental unit to allocate all or a designated amount or portion of the amount of obligations it is permitted to issue under this transitional rule to the larger governmental unit. For example, where a city is located within a county and both the city and the county meet the requirements of this rule and have the authority to issue mortgage subsidy bonds, the city could enter into an agreement with the county to allocate all or a designated amount or portion of the amount of obligations it is permitted to issue under this transitional rule to the county. If such an agreement were entered into, the dollar limit of the city would be reduced and the dollar limit of the county would be determined with regard to the obligations allocated to the county from the city.

[488] This rules also provides that substantially all the proceeds of an issue (exclusive of issuance costs and a reasonably required reserve) must be committed to the owner financing of one- to four-family residences before January 1, 1981. The requirements of this provision are identical to those of the mortgage commitment requirement of the exception for State housing finance agencies (see section 2c).

(g) Rollover rule

The rollover rule permits the refinancing of tax-exempt notes or obligations which were outstanding prior to April 25, 1979. This rule will apply, for example, where short-term, tax-exempt obligations were isued to provide financing for construction of a particular project with the intention that the short-term financing would be replaced with permanent long-term, tax-exempt financing following completion of construction, and where tax-exempt obligations were issued to provide financing for a multi-family rental facility or for single-family residences but, because of high tax-exempt interest rates, the period until maturity on the tax-exempt obligations was less than the period to maturity on the mortgage or other financing of the facility or family units.

The rollover rule allows the issuance of tax-exempt obligations after April 24, 1979, to refinance tax-exempt obligations which were outstanding on April 24, 1979, where certain conditions are satisfied. However, for refinancings after the date of enactment, see the discussion relating to advance refunding.

First, the proceeds of any obligation issued pursuant to this rule must be

used for the same purpose as the proceeds of the original obligation. Thus, if the proceeds of an obligation were used to provide construction period financing for the construction of a multi-family rental facility, the obligations issued pursuant to this rule must be used to provide financing for the same facility. Further, at the time the financing is issued, it must be reasonably anticipated that the facility will continue to be used for the same purpose.

This rule also requires that, as of April 24, 1979, there must have been an agreed-on period for the maturity of the mortgage or other permanent financing for the facility or units with respect to which obligations had been issued. The maturity date of a refinancing obligation issue pursuant to this provision must not exceed the agreed-on maturity period of the mortgage by more than two years. Under this rule, where more than one old obligation is to be replaced and the mortgages for the facilities financed with the old obligation have different agreed-on maturities, then a new bond issue will qualify under this rule if the maturity date of the new obligations corresponds with the differing agreed-on maturities of the mortgages.

The rollover rule also provides that the aggregate face amount of the refinancing obligation may not exceed the aggregate face amount of the refunded obligation by more than an amount which is reasonably necessary to cover construction period interest, reasonably required reserves, and the issuance costs of the refinancing obligations.

(h) Rules for projects under development

The transitional rules also include two rules for projects under development. The first rule applies to multi-family rental housing proj-[489]ects under development and the second rule applies to single-family, owner-occupied housing projects under development. These rules except from the general requirements of Title IX obligations the proceeds of which are to be used to finance the completion of certain projects which were in the development stage on April 24, 1979.

Multi-family rental housing

The multi-family housing rule provides two exceptions to the requirements of section 903 of Title IX. The first exception provides that the provisions of this bill which relate to tax-exempt obligations for multi-family rental housing shall not apply to tax-exempt obligations issued for certain projects which were in the development stage on April 24, 1979. This rule will only apply to a project if, prior to April 25, 1979, a plan specifying the number and location of rental units was approved by the governing body of a State or local government or by the governing body of a State or local housing agency or similar agency. In addition, substantial expenditures for site improvement for the project must have been incurred on or before April 24, 1979, for this rule to be applicable. Expenditures for the site improvement for the project can be incurred by any person regardless of whether or not they are otherwise involved in the project. Such expenditures would include expenditures for sewer and water facilities, and for roads. Such expenditures would not include costs for rezoning, costs of architects, environmental impact or similar studies, or any expenditures that relate to whether a particular site is to be used, as opposed to the development of a particular site. Finally, this rule will apply only with respect to obligations used to provide financing for the number and type of rental units specified in the approved plan and only if the units are constructed at the location specified in the approved plan. However, any number of issues of obligations can be issued to finance the project that qualifies under this rule.

The second exception provides that the provisions of Title IX which relate to tax-exempt obligations for multi-family rental housing shall not apply to tax-exempt obligations issued for certain projects which were in the development stage on April 24, 1979. This rule will only apply to a project if, prior to April 25, 1979, a plan specifying the number and location of rental units was preliminarily approved by the Secretary of HUD, pursuant to section 221(d)(4) or section 232 of the Housing Act. Such approval must be established by written evidence which was in existence prior to April 25, 1979. In addition, fees for processing the application for the project with HUD and other expenditures for the project must have been incurred on or before April 24, 1979.

Finally, this rule will apply only with respect to obligations used to provide financing for the number and type of rental units specified in the approved plan and only if the units are constructed at the location specified in the approved plan. However, any number of issues of obligations can be issued to finance the project that qualifies under this rule.

Owner-occupied housing

The second rule for projects under development provides that the provisions of Title IX which relate to tax-exempt obligations for [490] owner-occupied housing will not apply to tax-exempt obligations for certain projects in the development stage on April 24, 1979. In addition, the provisions of Title IX relating to industrial development bonds will not apply to the construction or other initial temporary financing of such a project if substantially all of the dwelling units in the project are to be owner-occupied residences.

In order to meet the requirements of this provision, a specific project must have been in the active development stage on or before April 24, 1979. Two other conditions must also be satisfied. First, on or before that date, substantial expenditures must have been made for detailed plans and specifications of the residences to be constructed. Such plans and specifications must include completed architectural and engineering designs which specify the number, size and

anticipated cost of the residences to be constructed.

Second, tax-exempt construction financing must have been issued with respect to the specific project or there must exist written evidence that a governmental unit intended to actually issue tax-exempt obligations to finance the acquisition of the units by individual home-buyers. Such construction financing must be outstanding on or before April 24, 1979, and such written evidence must have been in existence on or before such date.

Moreover, this exception shall apply only if the units constructed are substantially similar in design to the units specified in the plans and specifications which were in existence on or before April 24, 1979. The aggregate amount of the obligations issued with respect to a project in the development stage shall not exceed the reasonably anticipated cost of the project, where the obligations are to be used to provide construction period financing. In the case in which the obligations are to be used to finance the acquisition of the units by individual home-buyers, the aggregate amount of the obligations may not exceed the reasonably anticipated amount required to finance the acquisition of the units by individual home buyers, plus issuance costs and a reasonably required reserve. The proceeds of any obligations (exclusive of issuance costs and a reasonably required reserve) which are not used to finance the acquisition of units by home buyers must be used to redeem the obligations.

The second requirement of this rule will also be treated as being satisfied if certain actions had occurred prior to April 25, 1979. However, in the case in which a project qualifies under this special exception, the aggregate amount of obligations which may be issued by local governmental units with respect to the geographic area comprising a local governmental area may not exceed $20 million.

Generally, in order to qualify under this special exception, three actions must have occurred prior to April 25, 1979. First, the developer of a project must have acquired land on which the project was to be constructed. Second, the mayor's advisory committee of a city must have approved (subject to further revision) a written comprehensive proposal for such project submitted by the developer. In addition, the proposal must have requested that tax-exempt obligations be issued to finance the purchase of the units within the projects by individuals, and issuance of such obligations must have been authorized under a State law authorizing tax-exempt obligations for use only in [491] redevelopment areas. Third, a revised proposal must have been submitted to the redevelopment agency and the city council which had jurisdiction over the geographic area in which the project was to be located.

(i) Rule for local governments whose home rule powers were modified on April 26, 1979

The bill also provides a transitional rule under which section 902 of Title IX will not apply to obligations issued by certain local governments under modified home rule powers. This rule applies only where five conditions are satisfied. First, on April 1, 1979, legislation must have been pending in a State legislature limiting the authority of local governments within the State to issue tax-exempt obligations for owner-occupied housing under existing home rule authority. Second, such legislation must have been enacted on April 26, 1979. Third, the governing body of a local government in the State in which the legislation was pending must take action authorizing the undertaking of a demographic or related study of the mortgage market. Such study must have been intended to serve as a basis for the issuance of tax-exempt obligations for owner-occupied residences. Furthermore, such action must have been taken between June 1, 1978, and April 24, 1979. In addition, there must be written evidence which was in existence prior to April 25, 1979, which establishes that the action occurred. Fourth, on December 20, 1979, an amount must have been specified by or for the local government as the range of the amount of obligations which the local government expected to issue with respect to a geographic area under any transitional authority provided by Title IX. Fifth, the majority of the members of the governing body of the local government must certify that the local government was awaiting enactment of such legislation prior to determining to proceed toward the issuance of tax-exempt obligations for owner-occupied residences.

This rule also imposes a dollar limit on the aggregate amount of obligations which may be issued with respect to a geographic area. The maximum amount of obligations which may be issued under this rule is the amount specified on December 20, 1979, by or for the local governments.

Finally, this rule provides that substantially all the proceeds of an issue (exclusive of issuance costs and a reasonably required reserve) must be committed to owner financing before January 1, 1981.

(3) Effective date for registration requirement and advance refunding rule

The requirement that all tax-exempt obligations for housing be in registered form applies to any obligations issued after the date of enactment. This requirement shall apply whether an obligation is issued pursuant to the general provision of Title IX or pursuant to the transitional rules.

The prohibition of the advance refunding of tax-exempt obligations for owner-occupied residences is effective on the date of enactment. This rule will apply to the advance refunding after the date of enactment of any obligation issued, prior to April 25, 1979, or pursuant to the transitional rules of Title IX, to finance owner-occupied resi-[492]dences (whether the residences are single family or two to four family) and obligations issued under the requirements of Title IX for

owner-occupied residences. During the period beginning on April 25, 1979, and ending on the date of enactment, tax-exempt obligations for owner-occupied residences which were issued prior to April 25, 1979, may be advance refunded where the requirements for the rollover transitional rule are satisfied.

d. Revenue Effects

The increase in fiscal year receipts resulting from this provision was estimated at the time the Committee was considering Title IX to be $413 million in 1981, $1,718 million in 1982, $4,208 million in 1983, $7,754 million in 1984, and $12,203 million in 1985.

At the time these revenue estimates were prepared for the Committee, the revision of the estimates by the staff was not complete. Based upon more recent information, it is estimated that the increase in fiscal year receipts will be $497 million in fiscal year 1981, $1,801 million in 1982, $4,013 million in 1983, $7,104 million in 1984, and $10,801 million in 1985.

2. SUBTITLE B: ESTIMATED INCOME TAX PAYMENTS OF LARGE CORPORATIONS

(Sec. 911 of Title IX and sec. 6655 of the Code)

Present law

Under present law, a corporation must make estimated tax payments, if the estimated tax for the taxable year can reasonably be expected to be $40 or more (Code sec. 6154). In general, a corporation's estimated tax is the estimated income tax (other than the minimum tax) less any estimated credits against the tax. Any corporation required to make estimated tax payments must make such payments in installments. The number of installments, and the amount of each installment, is determined in accordance with the following table:

If the $40 threshold is first met—	The following percentages of the estimated tax shall be paid on the 15th day of the—			
	4th mo.	6th mo.	9th mo.	12th mo.
Before the 1st day of the 4th month of the taxable year	25	25	25	25
After the last day of the 3rd month and before the 1st day of the 6th month of the taxable year		33⅓	33⅓	33⅓
After the last day of the 5th month and before the 1st day of the 9th month of the taxable year			50	50
After the last day of the 8th month and before the 1st day of the 12th month of the taxable year				100

[493] A corporation that fails to pay the proper estimated tax when due may be subject to an underpayment penalty (Code sec. 6655). The penalty is figured for the period of underpayment, determined under section 6655 of the Code, at a rate determined under section 6621. (The penalty rate currently is 12 percent.) The amount of underpayment is, for purposes of this penalty, the excess of the amount of the installment which would be required to be paid if the estimated tax were equal to 80 percent of the tax shown on the return for the taxable year (or, if no return was filed, 80 percent of the tax for such year) over the amount, if any, of the installment paid on or before the last date prescribed for payment.

No penalty is charged with respect to underpayment of a corporation's estimated tax liability if the corporation made payments on or before the due date of the installment and the total payments up to the particular due date in question equal or exceed the amount which would have been due had the estimated tax been based on any of the following amounts: (1) the preceding year's liabilities, if a return showing a tax liability was filed by the corporation for the preceding taxable year and such preceding year was a taxable year of 12 months; (2) tax liabilities computed by using the current year's tax rates for the prior year's return and the law that applies to the prior year; or (3) 80 percent of the taxes which would have been due if the income which the corporation had already received during the current year had been placed on an annualized basis.

Reasons for change

The Committee believes that there are few, if any, reasons to permit very large corporations to escape paying estimated tax for the current year simply because they had little or no taxable income for their prior taxable year. Allowing these corporations to avoid paying estimated tax amounts to a large, interest-free loan to the corporations from the Government. Since large corporations should be able to estimate their income on a regular basis, the Committee feels that there is no need for them to base their estimated tax payments on the prior year's experience. Accordingly, the Committee has agreed that the use of the prior year exceptions to the general estimated tax penalty rules should be restricted in the case of large corporations. However, in the case of smaller business entities, which may lack the capability for projecting their annual income quarterly, no change in the prior year exceptions is made because the Committee feels that these corporations should continue to be able to rely on these exceptions.

Explanation of provision

Under Title IX, the estimated tax payments of a large corporation generally must equal at least 60 percent of tax shown on its income tax return

for the taxable year (or the actual tax if no return is filed).[1] Thus, a large corporation which had no taxable income for its preceding taxable year will no longer be able to avoid paying estimated tax for its current taxable year.

[494] Corporations subject to this new requirement will be those corporations which had taxable income of $1 million or more in any of the three taxable years immediately preceding the taxable year involved.

In the case of the component members of a controlled group of corporations (within the meaning of Code section 1563), the $1 million amount for any taxable year in the 3-year base period is to be divided among the members of the group in the same manner in which the benefits of the graduated tax rates are allocated for that year.

Effective date

The provision is effective for taxable years beginning after December 31, 1980.

* * * * *

[508] 4. SUBTITLE D: TELEPHONE EXCISE TAX

(Sec. 951 of Title IX and sec. 4251 of the Code)

Present law

Under present law, the excise tax imposed on communication services (local telephone service, toll telephone service, and teletypewriter exchange service) for 1980 is 2 percent of amounts paid for such service (Code sec. 4251). The tax is scheduled to be reduced to 1 percent for 1981 and to expire on January 1, 1982. The communication services excise tax has been phasing out at the rate of one percentage point per year since 1973, when it declined from the prior rate of 10 percent to 9 percent.

[1] A large corporation could continue to rely on the present law exception where the estimated tax equals at least 80 percent of the tax computed on an annualized basis (Code sec. 6655(d)(3)).

Reason for change

The Committee believes that delaying the phasedown of the telephone excise tax will raise revenues to meet budget targets for fiscal year 1981 without having the adverse economic effects which might result from new taxes.

Explanation of provision

The provision delays by one year the remaining scheduled reductions in the communication services (telephone, etc.) excise tax. Thus, on amounts paid pursuant to bills first rendered during 1980 or 1981 the tax will be 2 percent. For 1982, the tax will be 1 percent, and the tax will expire on January 1, 1983.

Effective date

The provision is effective for amounts paid pursuant to bills first rendered after December 31, 1980.

Revenue effect

This provision is estimated to increase budget receipts by $358 million in fiscal year 1981, by $570 million in fiscal year 1982 and by $193 million in fiscal year 1983, and will have no revenue effect thereafter.

5. SUBTITLE E: FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT OF 1980

Present Law

General

Under the Code, nonresident aliens and foreign corporations engaged in a U.S. trade or business are generally taxed on the U.S. source income of that business in the same manner, and at the same rates, as U.S. persons. (However, their foreign source income not connected with that business is not taken into account in determining the applicable rates of U.S. tax.)

[509] In contrast, the U.S. source income of a nonresident alien or foreign corporation which is not effectively connected with a U.S. business is generally subject to a different tax regime. The Code provides that a foreign individual or corporation is ordinarily subject to a 30-percent withholding tax on the *gross* amount of certain passsive income such as rents, dividends, and interest, which is received from U.S. sources and is not effectively connected with a U.S. business. This withholding tax generally satisfies the taxpayer's U.S. income tax liability on the income. Capital gains not effectively connected with a U.S. business are not subject to any U.S. income tax, except in the limited situation of nonresident individuals who were present in the United States 183 days or more during the year, who are taxed at the flat rate of 30 percent on the gains.

Foreign investment in U.S. property

Whether a foreign investor in U.S. real property is engaged in a U.S. trade or business depends on all the facts and circumstances. For example, a foreign investor who enters into a single long-term net lease (under which the lessee is responsible for operation of the property and pays the expenses) probably would not be engaged in a U.S. trade or business whereas a taxpayer who owns and manages a number of commercial buildings would be so engaged.

If a foreign taxpayer is not actually engaged in a U.S. trade or business, he is permitted under the Code to elect to be treated as if he were so engaged with respect to all his real property held for the production of income. This election is provided because rental income, unlike other types of passive income, ordinarily has associated with it significant expenses. Therefore, a tax equal to 30 percent of the gross rentals could frequently exceed the entire economic income from the property. If the election is made, the taxpayer may reduce his gross income from the real property by the deductible expenses, such as depreciation, mortgage interest, and real property taxes. The taxpayer is then taxed on the net income at the graduated rates which generally apply to U.S. taxpayers rather than paying 30 percent on his gross rental income.

Often, as a result of the election, the investor will pay no tax on the current income because depreciation, mortgage interest, real property taxes and other expenses exceed gross income. (This result would be the same if a U.S. person owned the property.) However, by making the election, the taxpayer will also subject himself to U.S. tax on any capital gains from the sale or exchange of the property. The election, once made, is binding on the taxpayer in all subsequent years unless consent to revoke it is obtained from the Internal Revenue Service.

Apart from the Code election, a number of planning techniques exist whereby a foreign investor may obtain the advantages of being taxed on current income from real property on a net basis. However, unlike the Code election, these techniques also offer the opportunity to avoid tax on the capital gain which would result on the sale of the property. Also, unlike the Code election, they may be employed on a property-by-property basis. For example, a foreign investor who is actually engaged in a U.S. real estate business will be taxed on current income from the property on a net basis (which might result in no current tax because of the allowable deductions). He may sell the prop-[510]erty on the installment basis and receive most or all of the payments in years following the year of the sale. If he is not actually engaged in a U.S. trade or business in later years when the installment payments are received (and has not made the election to be treated as if he were), the gain would not be treated as effectively connected with a trade or business in the later years and would therefore go untaxed.

Secondly, a foreign investor could generally exchange his U.S. real property held for productive use or investment for other property of a like kind, whether within or without the U.S., without recognition of gain. If the property he acquired in the exchange were outside the U.S., the gain he would recognize on the ultimate sale of the property received in the exchange would not be subject to U.S. tax. This would be the case even if the investor were actually engaged in a U.S. trade or business or had made the election to be so treated.

A taxpayer may also obtain the benefits of current taxation on a net basis and exemption from tax on the gain by investing in U.S. real property indirectly through a foreign holding company which either is actually engaged in U.S. business or makes the election. The holding company would be subject to tax on the income it receives from the property but, as noted earlier, often there would be no taxable income on a current basis. Moreover, the corporation often could reduce or eliminate its taxable income by paying deductible interest to its investors. Ordinarily, dividends and interest paid by a foreign corporation deriving most of its income from U.S. sources are subject to U.S. withholding taxes. However, these taxes are sometimes waived on a reciprocal basis under tax treaties between the United States and other countries. If the corporation is entitled to such a treaty benefit, income paid currently by the corporation would escape that U.S. tax. (Foreign investors frequently utilize U.S. treaties applicable to the Netherlands Antilles and British Virgin Islands because these treaties contain the necessary waivers or reductions and because these jurisdictions impose low or no taxes on the income.)

The investors in the holding company could avoid U.S. tax on the gain from the sale of the property by either of two methods. First, if the corporation sells the property and follows a plan of liquidation meeting certain requirements, the corporation will not be taxable on the gain under a general rule of the Code which exempts liquidating corporations from tax on gains from the sale of property (sec. 337). Moreover, the shareholders and security holders will generally not be taxable when they exchange their stock and securities in liquidation for the proceeds of the sale of the real property because, as foreign investors, they generally are not subject to U.S. capital gains tax. Even though the corporation is engaged in a U.S. trade or business, that business is not imputed to its investors. Since mere ownership or sale of stock is genuerally not a trade or business, the gains ordinarily escape U.S. tax.

Second, if the investors instead sell their stock or securities, they would generally not be subject on the gain for the same reasons that they would generally not recognize gain in a liquidation. Assuming that the sales price reflected the appreciated value of the real property, the purchaser of the corporation, even if a U.S. person, could then [511] liquidate it without realizing a gain subject to U.S. tax because his basis in the stock for purposes of determining his gain on the liquidation would be his purchase price for the stock. He would also get a stepped-up basis for the real property equal to his purchase price for the stock.

Finally, some U.S. tax treaties (such as the treaties with the Netherlands Antilles and the British Virgin Islands) provide for a real property election similar to that in the Code, but the election may be made on a year-by-year basis. A foreign investor entitled to the benefits of such a treaty and not actually engaged in a U.S. business could use the treaty election to be taxed on a net basis in years prior to the year of sale. In the year of sale, the taxpayer would not make the treaty election and would not be taxed on the gain on the sale of the property because of the absence of a U.S. trade or business.

A number of U.S. tax treaties (not including, however, the protocols with the Netherlands Antilles or the British Virgin Islands) contain reciprocal provisions which prevent the United States from taxing certain types of U.S. source capital gains of foreign investors who are entitled to the treaty benefits. While these provisions reciprocally exempting capital gains generally do not apply with respect to real estate (that is, they do not restrict either country from taxing gains on sales of its real estate derived by resi-

dents of the other), they generally would apply with respect to stock in corporations formed or availed of to hold real estate. The Code provides that these treaty exemptions are to prevail if they require the exclusion from gross income of gains which the United States would otherwise tax (sec. 894(a); *cf.* also sec. 7852(d)).

Reasons for Change

The Committee believes that it is essential to establish equity of tax treatment in U.S. real property between foreign and domestic investors. The Committee does not intend by the provisions of Title IX to impose a penalty on foreign investors or to discourage foreign investors from investing in the United States. However, the Committee believes that the United States should not continue to provide an inducement through the tax laws for foreign investment in U.S. real property which affords the foreign investor a number of mechanisms to minimize or eliminate his tax on income from the property while at the same time effectively exempting himself from U.S. tax on the gain realized on disposition of the property.

In order to impose a tax on gains from the sale of U.S. real estate, it is also necessary to impose a similar tax on gain from the disposition of interests in entities which hold substantial U.S. real property. Otherwise, a foreign investor could, as under present law, avoid tax on the gain by holding the real estate through a corporation, partnership, or trust and disposing of his interest in that entity rather than having the entity itself sell the real estate.

Explanation of Provisions

General (sec. 962 of Title IX and new sec. 897 of the Code)

Under the provision, foreign investors are to be taxed on gains on the disposition of U.S. real property. Foreign investors are also to [512] be taxed on gains realized from the sale or exchange of an interest in a real property holding organization (RPHO). In general, an RPHO is a corporation, trust or partnership at least half of the assets of which are U.S. real property interests. An exception is made for portfolio stock investments in publicly-traded corporations. Reporting requirements are established to identify when taxable transactions have occurred. Title IX contains no withholding provisions—neither the purchaser of the property nor any U.S. agent is required to withhold any tax from the seller or to take any other action to ensure that the foreign seller pays the tax due on the sale.

Tax imposed on seller

Amount of tax

Title IX provides that gain or loss of a nonresident alien individual or a foreign corporation from the disposition of a United States real property interest is taken into account as if the taxpayer were engaged in a trade or business within the United States during the taxable year and as if such gain or loss were effectively connected with that trade or business. Thus, gains are to be subject to tax at the same rates which apply to income received by U.S. persons. In the case of a foreign individual, a loss is to be taken into account under Title IX only to the extent the loss would be taken into account under Code section 165(c), which limits deductions for an individual's losses to business losses, losses on transactions entered into for profit, and losses for casualty or theft. Thus, for example, a loss on the sale of the taxpayer's personal residence would not be taken into account. If the foreign investor also has other effectively connected U.S. business activities, gains or losses from those activities during the taxable year are to be combined with gains or losses from U.S. real property interests in determining the investor's U.S. tax liability. However, losses from U.S. real property other than from its disposition could not be taken into account unless the property was actually effectively connected with a U.S. trade or business or the taxpayer had made the election to be so treated.

Although Title IX generally subjects to tax any sale, exchange, or other disposition of a U.S. real property interest, nonrecognition provisions of the Code will continue to apply in certain cases. Generally, pending the promulgation of regulations, the nonrecognition provisions are to apply to an exchange of a United States real property interest only where it is exchanged for another such interest the sale of which would be subject to U.S. income taxation. Gain on the sale of an interest is not to be considered subject to U.S. taxation for this purpose if the gain would be exempt under a treaty obligation of the United States and thus exempt from U.S. tax under Code section 894(a). However, the Treasury Department is directed to prescribe regulations which are necessary or appropriate to prevent the avoidance of Federal income taxes providing the extent to which nonrecognition provisions shall, and shall not, apply for purposes of the bill. These regulations may, under appropriate circumstances and conditions, provide for nonrecognition even where the taxpayer does not receive in the exchange a U.S. real property interest. Conversely, in appropriate cases, the regulations may provide for the recognition of [513] gain even where such an interest is received. For purposes of these provisions, the term "nonrecognition provision" means any provision of the Code for not recognizing gain or loss.

Direct interest in U.S. real property

The tax is imposed on gains from the disposition of interests in real property (including an interest in a mine, well, or other natural deposit) located in the United States. The term "interest in real property" includes fee ownership and co-ownership of land or improvements, easements, and options to acquire leaseholds of land or improvements. Such an interest would, for example, include a mineral royalty. Moreover, the term includes partial interests such as life

estates, remainders, reversions, and rights of refusal in real property. Movable walls, furnishings, and other similar personal property associated with the use of real property are considered real property for purposes of Title IX.

U.S. real property holding organizations

Also included in the definition of U.S. real property interests are certain holdings in a U.S. real property holding organization (RPHO). Thus, gain on the disposition of such holdings is subject to the tax. An exception is made to the general rule if the investment is in the form of portfolio stock holdings in a publicly-traded RPHO. Title IX provides that if any class of stock of a corporate RPHO is regularly traded on an established securities market, stock of that class is to be treated as a real property interest only in the case of a person who, at some time during the relevant time periods described below, held more than 5 percent of that class of stock.

An RHPO is a corporation, partnership, or trust, whether domestic or foreign, if at any time during the taxable year, the fair market value of its United States real property interests equals or exceeds 50 percent of the sum of (i) the fair market values of its United States real property interests, (ii) its interests in real property located outside the United States, plus (iii) any other of its assets which are used or held for use in a trade or business.

Generally, for purposes of this assets test, if an entity has an interest in another entity, that interest will be treated in its entirety as a U.S. real property interest if the second entity is an RPHO. However, if the second entity is not an RPHO (or, as described above, the interest is only a portfolio stock interest in a publicly traded RPHO), the interest generally will not be treated as a U.S. real property interest. As an exception to the general rules, if the first entity has a controlling interest in the second entity, special "look through" rules apply. The bill provides that in such a case, for purposes of the assets test, (i) the value of the controlling interest is not taken into account, (ii) the first entity is treated as holding a pro rata share of the assets of the second entity, and (iii) any assets used or held for use by the second entity in a trade or business shall be treated as so used or held by the first entity. A "controlling interest" is, in the case of a corporation, 50 percent or more of the total combined voting power of all classes of stock of the corporation, or 50 percent or more of the fair market value of all classes of stock of the corporation; in the case of a partnership, 50 percent or more of the capital or profits interest; or in [514] the case of a trust, 50 percent or more of the beneficial interests in the trust (actuarially determined).

Generally, the holdings subject to the tax are stock in a corporation (other than certain portfolio investments), or an interest (other than solely as a creditor) in a partnership or trust, which, during the shorter of the period (after June 18, 1980) during which the taxpayer held his interest or the 5 years preceding his sale of the interest, is or was an RPHO. However, the interest would not be a U.S. real property interest if the RPHO recognized gain on all its U.S. real property interests prior to sale of the interest in the RPHO. (Also, if the RPHO held an interest in another RPHO, this rule applies even if the interest in the second RPHO was not sold, as long as the second RPHO ceased to be an RPHO by operation of this rule.) Since convertible debt of an RPHO is an interest in an RPHO other than solely as a creditor, such convertible debt is a U.S. real property interest.

For purposes of determining whether the "look through" rules described above apply, and for purposes of applying the "portfolio investment" exception described above, constructive ownership rules are provided.

Reporting requirements (sec. 963 of Title IX and new secs. 6039(C) and 6039(D) of the Code)

Entities which may be RPHOs.— If, at any time during a calendar year, (i) a corporation, partnership, or trust beneficially owns real property interests which constitute more than 40 percent of the fair market value of the assets taken into consideration in determining whether or not it is an RPHO, and (ii) at least one foreign person has an interest (other than solely as a creditor) in the entity, the entity is required to file an information return for the year. The return is to set forth the following information: (i) the name and address of any foreign person who held an interest (other than solely as a creditor) in the entity at any time during the calendar year, (ii) any information regarding the composition of the assets of the entity at such time or times during the calendar year which the Treasury may prescribe by regulations, (iii) any information with respect to transfers during the calendar year of interests in the entity which the Treasury Department may prescribe by regulations, (iv) whether such entity is an RPHO at any time during the calendar year, and (v) any other information which the Treasury may prescribe by regulations. The entity must continue to file these returns for four years after the year in which the reporting requirement otherwise would cease to apply.

If a corporate RPHO would be required to file a return solely because a foreign person owns a class of its stock, and if the stock is regularly traded on an established securities market at all times during the calendar year, no return need be filed unless a foreign person owns more than 5 percent of that class of stock. For purposes of determining whether there is any foreign ownership or, where appropriate, more than 5 percent ownership, constructive ownership rules will apply.

In addition to the information return, the reporting entity is also re-

quired to furnish a written statement to every foreign person who held an interest (other than solely as a creditor) in the entity during the calendar year setting forth the name and address of the entity [515] making the return, whether the entity was a United States RPHO at any time during the calendar year and any other information that the Treasury may prescribe through regulations. The return is to be furnished to the person having the interest no later than January 31 of the year following the year for which the entity's return was made.

Other returns.—If a foreign person is not subject to the return requirements described above, that person is, except as provided below, required under Title IX to file a return if, at any time during the calendar year, that person beneficially owned a United States real property interest, or during that calendar year or a subsequent calendar year, the person received (or is to receive) an installment payment from an obligation acquired from the disposition of a United States real property interest. The return is to set forth (i) the name and address of the person, (ii) a description of all United States real property interests held by such person at any time during the calendar year and of all installment obligations from United States real property interests, and (iii) such other information as the Treasury may prescribe by regulations.

This return requirement does not apply, however, if the person was engaged in a U.S. trade or business during the year, because other return requirements apply under present law in that situation. The requirement also does not apply if the aggregate of the fair market value of the United States real property interests owned by the person at any time during the year, and the face amount of the U.S. real property interest installment obligations, is less than $5,000. The fair market value of United States real property interests is, for this purpose, determined as of the end of the calendar year (or, in the case of any property disposed of during the calendar year, as of the date of the disposition).

The return of a foreign person for a calendar year under this provision is to be filed by April 15 (March 15 in the case of a corporation) of the following calendar year, or at such other time as the Treasury may prescribe by regulations.

Failure to make a return or furnish a statement

A penalty for failure to file a tax return or to furnish a statement required under the rules described above will be imposed in an amount equal to $25 for each day during which such failure continues but not to exceed $25,000. Also, in the case of a failure by a foreign person to file a return required by the rules set forth in "Other returns," above, the penalty for any calendar year cannot exceed 5 percent of the aggregate of (i) the fair market value of the United States real property interests owned by that person at any time during the year, and (ii) the face amount of the United States real property interest installment obligations.

If it is shown that the failure to file a return or to furnish a notice is due to reasonable cause and not to willful neglect, no penalty will be imposed for that failure.

Miscellaneous amendments (sec. 964 of Title IX and secs. 861 and 7605 of the Code)

Source of income.—Income from the disposition of a United States real property interest will be United States source income.

[516] *Examination of taxpayer.*—Section 7605(b) will not apply to an inspection of a taxpayer's books of account for purposes of section 897.

Effective Date (sec. 965 of Title IX)

The amendments made by the provision will generally apply to dispositions after June 18, 1980. However, until January 1, 1985, gain will not be taxed to the extent required by treaty obligations of the United States. After that period for the renegotiation of conflicting treaty provisions (i.e., after December 31, 1984), the provision will prevail over any conflicting treaty provisions remaining in effect. Return requirements imposed for 1980 will not apply with respect to United States real property interests or installment obligations which were not held after June 18, 1980.

Revenue Effect

This provision is estimated to increase budget receipts by $40 million in fiscal year 1981, $88 million in fiscal year 1982, $97 million in fiscal year 1983, $106 million in fiscal year 1984, and $117 million in fiscal year 1985.

6. SUBTITLE F: INCLUSION IN WAGES OF EMPLOYEE SOCIAL SECURITY AND UNEMPLOYMENT TAXES PAID BY EMPLOYERS

(Sec. 971 of Title IX, secs. 3121 and 3306 of the Code and sec. 209 of the Social Security Act)

Present law

The Internal Revenue Code imposes separate social security (FICA) taxes on employers and employees. Traditionally, the employer deducts and withholds the employee's tax from his pay and remits both it and the employer's own tax payment to the Treasury. Section 209(f) of the Social Security Act and Code section 3121 (a)(6), however, exclude from the definition of wages for tax and benefit purposes any payment by an employer of the employee's social security or State unemployment compensation tax liability so long as the employer makes the payment without deduction from the remuneration of the employee. A similar exclusion applies to the definition of wages for the purposes of the Federal Unemployment Tax Act (FUTA) (Code sec. 3306 (b)(6)).

Ordinarily, the employee FICA tax is levied on the employee's earnings before deduction of the tax, and the

employee is credited for social security purposes with earnings equal to his or her earnings before deduction of FICA taxes. If an employer pays the employee FICA tax without deduction from the employee's remuneration, however, the procedure can be different. First, the amount of both the employer's and employee's payroll tax liability is, in effect, based on earnings after deducting the employee's FICA tax rather than earnings before the deduction. Second, the amount of earnings credited for social security benefit computation purposes is also in effect, earnings net of the FICA tax. An example of how such a salary reduction plan works under the alternative FICA tax computation is set out below:

[517]

	Before adoption of plan	After adoption of plan	Result
Employer:			
Pays salary of	$10,000	$9,387	
Pays employer FICA tax of	613	[1] 575	
Pays employee FICA tax of	0	[1] 575	
Total cost	10,613	10,538	Employer saves $75.
Employee:			
Receives salary of	10,000	9,387	
Pays employee FICA tax of	613	0	
Take Home Pay (before income tax)	9,387	9,387	
Income subject to income tax:			
Salary	10,000	9,387	
Employee tax paid by employer	0	575	
Total	10,000	9,962	Employee has $38 less subject to income tax.
Receives social security benefit credit of	10,000	9,387	Employee receives $613 less in social security benefit credit.
Social Security Trust Funds: Receives FICA taxes of	1,226	1,151	Trust funds lose $75 in revenues.

[1] Rounded to nearest dollar.

Reasons for change

The compensation plans which make use of the alternative FICA computation have an adverse effect on participating employees and on the financial condition of the social security trust funds.

First, reducing the amount of earnings subject to the FICA tax also reduces the amount of earnings credited for social security benefit computation purposes. Thus, while the employer and employee pay somewhat less in taxes, the employee receives more limited social [518] security protection. Moreover, the reduction in social security benefits may be only one by-product of such alternative tax computations. There might also be reductions in the benefits available under other employee benefit plans which are related to earnings, such as pensions, profit-sharing, other insurance, and unemployment compensation.

Second, the use of the alternative FICA computation leads to a reduction in total social security payroll tax receipts. While it also leads to a reduction in benefit payments, the reduction in benefit payments occurs in the future while the reduction in payroll tax revenue occurs immediately. Even the long-run use of the alternative computation will reduce receipts available to meet benefit payments. In a pay-as-you-go system such as social security, these results are particularly pernicious. If all employers adopted the alternative procedure, trust fund receipts would be reduced by more than $6 billion per year.

Third, the use of this alternative computation method has the effect of obscuring a fundamental characteristic of social security: it is a system to which individuals contribute and on the basis of which contributions, they draw benefits as an "earned" right. When the payroll tax is paid entirely by employers, it ceases to be a system to which individual workers feel they contribute.

Finally, the elimination of the alternative FICA tax computation has been recommended by the 1979 Quadrennial Advisory Council on Social Security. In its report, the Council noted its concern over the growing use of the "tax avoidance device". The Council emphasized that if enough employers began to use these plans, there would be a significant loss to the trust funds that would have to be made up by higher tax payments from all workers and employers.

Explanation of provision

The provision revises the Social Security Act (section 209(f)) and the Internal Revenue Code of 1954 (sections 3121(a)(6) and 3306(b)(6) to include within the definition of wages for tax and social security benefit computation purposes payments by an employer (without deduction from the remuneration of the employee) of social security and unemployment taxes imposed upon an employee. The provision does not apply to payments by an employer of the payroll taxes imposed upon an employee for wages paid for domestic service in the home of the employer.

The Committee has decided, however, to allow the continued use of the alternative computation procedure with respect to domestic labor. This is in recognition that this procedure has been much more common with regard to this type of employment and that requiring many small employers to change their methods of tax computation for what are often relatively informal employment arrangements could lead to problems of compliance.

Effective date

Except for certain State or local governmental employment, the provision applies with respect to remuneration paid after December 31, 1980.

[519] In the case of certain State, political subdivision, or other State or local coverage group employment under section 218 of the Social Security Act, the provision applies with respect to remuneration paid after December 31, 1983. This later effective date for governmental units is limited to remuneration for services in positions of a kind for which all or a substantial portion of the amounts equivalent to employee social security taxes were paid by such governmental unit (without deduction from the wages of the employee) under the practices of the governmental unit in effect on June 18, 1980.

Conference Report No. 96-1479 2d Session

[Bracketed numerals indicate official report page numbers]

OMNIBUS RECONCILIATION ACT OF 1980

NOVEMBER 26, 1980.—Ordered to be printed

Mr. GIAIMO, from the committee of conference, submitted the following conference report to accompany H.R. 7765.[1]

* * * * *

[117] STUDENT LOAN PROGRAMS

(TITLE III)

* * * * *

4. The House bill, but not the Senate amendment, permits the Internal Revenue Service to provide the current mailing addresses of student loan defaulters to the holders of loans in default status.

The Senate recedes.

* * * * *

[155] TITLE X—OTHER SOCIAL SECURITY ACT PROGRAMS; UNEMPLOYMENT COMPENSATION

* * * * *

[161] III. UNEMPLOYMENT COMPENSATION PROVISIONS

* * * * *

[162] 5. Waiting period for unemployment compensation benefits

House bill.—No provision.

Senate amendment.—The Senate amendment eliminates the Federal share (50 percent) of the cost of the first week of extended benefits in any State which does not have a "waiting week" for regular benefits, or which has a "waiting week" for which benefits are paid retroactively. This provision would be effective for extended benefits paid to individuals during eligibility periods beginning on or after October 1, 1980. However, in the case of a State in which State legislation is required in order to establish a "waiting week" or to eliminate retroactive payment for a "waiting week," this provision would first become effective for extended benefits payable for the period that begins after the end of the first regularly [163] scheduled session of the State legislature ending more than 30 days after enactment of this bill.

Under current law, twelve (12) States pay unemployment benefits starting with the first week of unemployment. The remaining States generally provide that benefits will become available only after the unemployed individual has served a "waiting week." Of these States, four (4) do not require "waiting week" under certain conditions. Nine (9) States that have a "waiting week" provision pay benefits retroactively for the "waiting week" after the individual has experienced a specific duration of unemployment.

Conference agreement.—The conference agreement follows the Senate amendment, with the October 1, 1980 effective date changed to date of enactment. The special effective date for States requiring legislation is retained.

* * * * *

[164] 8. Denial of extended benefits to individuals who fail to meet certain requirements related to work

Senate amendment. — The Senate amendment would:

(a) Deny extended benefits to an individual during a period of unemployment for which, under State law, he or she was disqualified from receiving State benefits because of voluntarily leaving employment, discharge for misconduct, or refusal of suitable employment, even though the disqualification was subsequently lifted prior to reemployment and the person received State benefits. However, the person could receive extended benefits if the disqualification is lifted because he or she became employed and met the work or earnings requirement specified in State law.

(b)(1) Deny extended benefits to any individual who fails to accept any work that is offered in writing or is listed with the State employment service, or fails to apply for any work to which he or she is referred by the State agency, if the work: is within the person's capabilities; pays wages equal to the highest of the Federal or any State or local minimum wage; pays a gross weekly wage that exceeds the person's average weekly unemployment compensation benefit plus any supplemental unemployment compensation payable to the individual; and is consistent with the State definition of "suitable" work with regard to provisions not specifically addressed in this amendment.

States would have to refer extended benefits claimants to any work meeting these requirements. If the State, based on information provided by the individual, determines that the individual's prospects for obtaining work in his or her customary occupation within a reasonably short period are good, the determination of whether any work is "suitable work" would be

[1] Public Law 96-499, page 509.

made in accordance with State law rather than the above.

(2) Extended benefits would be denied to any individual for so long as he or she fails to engage in a systematic and sustained effort to obtain work and fails to provide tangible evidence to the State agency that he or she has engaged in such an effort.

(3) Any individual who is denied extended benefits because of the requirements in (b)(1) or (b)(2) would continue to be ineligible to receive extended benefits until he or she had been employed for at least four weeks after the denial and earned wages equal to four times his or her average weekly unemployment compensation payment.

(c) Deny extended benefits to any individual with less than 20 weeks of qualifying employment in the base period.

Provisions (a), (b), and (c) would be effective for weeks of unemployment beginning on or after October 1, 1980.

Conference agreement.—The conference agreement follows part (a) and (b) of the Senate amendment, effective for weeks of unemployment beginning after March 31, 1981. The conference agreement does not include part (c).

[165] 9. Certification of State laws

House bill.—No provision.

Senate amendment. — The Senate amendment requires the Secretary of Labor, on October 31 of each taxable year beginning with taxable year 1980, to withhold certification of State unemployment compensation programs (for purposes of providing the credit against the Federal unemployment tax on employers in the State) for any State which has failed to amend its laws to comply with the preceding provisions, or which has, with respect to the 12-month period ending on such October 31, failed to comply substantially with such provisions.

Pursuant to the passage of previous Federal unemployment compensation requirements, the Secretary of Labor has been required to certify, on October 31 of each tax year, that a State has amended its laws to comply with current Federal unemployment compensation requirements. Failure of a State to receive from the Secretary such certification results in denial of the credit against Federal unemployment tax on employers in the State.

Conference agreement.—The conference agreement follows the Senate amendment, as it applies to those Senate provisions that were agreed to, beginning with taxable year 1981.

[171] TITLE XI—REVENUE MEASURES

A. Mortgage Subsidy Bonds

1. Single family owner-occupied residences

a. In general

House bill.—In general, the House bill is designed to direct the subsidy from the use of tax-exempt bonds for owner occupied housing to those individuals who have the greatest need for the subsidy, to increase the efficiency of the subsidy, and to restrict the overall revenue loss from the use of tax-exempt bonds for owner occupied housing. Under the house bill, interest on any bond generally is not tax-exempt if a significant portion of the proceeds are to be used for mortgages (or other financing) of owner-occupied residences. However, exceptions are provided in the case of qualified mortgage bonds and qualified veterans' mortgage bonds.

Senate amendment.—No provision.

Conference agreement.—The conference agreement adopts the House bill with various modifications. The conferees want to make it clear that it is not their intention to preempt States or localities from establishing limitations on the issuance of these bonds. However, no tax-exempt mortgage subsidy bonds can be issued which do not meet the requirements of the conference agreement. Further, the conference agreement is not intended to diminish in any way the authority of a State agency or commission charged with the protection of the State's credit pursuant to State law.

b. Qualified mortgage bonds

(1) Principal residence requirement

House bill.—All mortgages must be for single family residences which can reasonably be expected to become the principal residences of the mortgagors. The residences must be located within the jurisdiction of the issuing authority.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill but clarifies that mortgage subsidy bonds can be used to finance the mortgage of a building which contains up to four family units if at least one of the units is owner occupied and if the building had been used as a residence for at least 5 years before the mortgage is executed, subject to the other requirements of the conference agreement. Where a building that is financed by mortgage subsidy bonds contains more than one but less than five family units, the units which are not owner occupied may be leased by the owner occupier without meeting the multi-family provisions of the conference agreement so long as the bonds are not industrial development bonds. The special rule adopted by the conference agreement for buildings which contain not more than four family units does not limit the use of mortgage subsidy bonds to finance mortgages on an individual unit in a condominium or a share in a [172] cooperative housing corporation which are treated as single family residences under the conference agreement.

(2) Three-year requirement

House bill.—Each mortgagor must not have been a homeowner within the last 3 years. However, exceptions to the 3-year rule are provided for rehabilitation loans, for home improvement loans, and for mortgages or residences located in targeted areas.

A loan qualifies as a rehabilitation loan if the residence is at least 20 years

old at the time of the rehabilitation, 75 percent or more of the external walls of the residence are retained, and the rehabilitation costs are 25 percent or more of the mortgagor's basis in the residence (after the rehabilitation).

Home improvement loans are loans in an amount not in excess of $15,000 for certain alterations or repairs for existing single family residences.

For this purpose, the conference agreement makes clear that home improvement loans include loans made for energy conservation property and solar energy equipment. In addition, the conferees intend that the guidelines used for determining eligibility for insurance under Title I are to be used on an interim basis in determining what items qualify for home improvement loans until regulations are promulgated.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

(3) Income limitations

House bill.—The income of each mortgagor must not exceed 115 percent of the median family income in the Standard Metropolitan Statistical Area (SMSA), or county, if not in an SMSA, in which the residence is located. In the case of targeted areas, no more than one-third of the mortgagors can have incomes in excess of 140 percent of median family income for the State or the SMSA where the residence is located, whichever is higher. Both in targeted and non-targeted areas, 50 percent of the mortgage funds must go to families with incomes of 90 percent or less of the median family income in the SMSA.

Senate amendment.—No provision.

Conference agreement.—The conference agreement deletes all of the income limitations of the House bill. The conferees deleted these limitations because they believe that State and local governments should have sufficient flexibility in this area to design programs for their particular needs. However, the conferees expect that State and local governments will use mortgage subsidy bonds primarily for persons of low or moderate income.

(4) Targeted areas

House bill.—Targeted areas are defined as follows:

(*a*) census tracts in which 70 percent of the families have incomes of not more than 80 percent of statewide median income, or

(*b*) areas of chronic economic distress as defined by States, subject to the approval of the Secretaries of Treasury and Housing and Urban Development. Criteria used by Treasury and HUD to evaluate a proposed targeted area designation are: (1) the condition of [173] the housing stock, including age and number of abandoned and substandard units, (2) the need of area residents for owner-financing, as indicated by a high percentage of families in poverty, low per capita income, high numbers of welfare recipients, and high unemployment rates, (3) the potential for use of tax-exempt mortgage bonds for financing ownership to improve conditions in the area, and (4) the existence of a housing assistance plan which provides a displacement program and a public improvements and services program (similar to that required by HUD under its Community Development Block Grant program).

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

The conferees want to clarify the requirement regarding the determination of targeted areas based upon the most recent decennial census for which data are available and upon the designation of areas of chronic economic distress. With respect to any particular bond issue, that determination may be made three months prior to the date of issuance.

(5) Purchase price limitation

House bill.—The purchase price of each residence must not exceed 80 percent of the average purchase price in the preceding year in the SMSA in which the mortgage is placed. In the case of targeted areas, the percentage would be 110 percent of the average purchase price in the SMSA. Average purchase price means average purchase price of a new home in the case of a purchase of a new home and average purchase price of an existing home in the case of the purchase of an existing home. In the case of home improvement loans, the purchase price limitation would not apply.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill except that the purchase price limitation in non-targeted areas is increased from 80 percent to 90 percent of the average purchase price in the preceding year in the SMSA in which the mortgage is placed.

In addition, the conference agreement adopts a special rule for determining the purchase price limitation in the case of mortgages on buildings (other than condominiums and cooperative housing corporations) that have more than one but less than 5 family units. In such a case, separate purchase price limitations are to be applied for one-family residences, two-family residences, three-family residences, and four-family residences.

(6) New mortgage requirement

House bill.—Except for construction period loans, bridge loans or similar temporary initial financing, and an existing mortgage in the case of a rehabilitation loan, none of the bond proceeds can be used to acquire or replace an existing mortgage.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

[174] *(7) Low downpayment requirement*

House bill.—At least 75 percent of the lendable proceeds (other than for rehabilitation loans and home improvement loans) must be used for mortgages which have a 95-percent loan to

value ratio. In addition, certain graduated payment mortgages with as low as a 90-percent loan to value ratio will qualify for purposes of the 75-percent requirement.

Senate amendment.—No provision.

Conference agreement.—The conference agreement deletes the low down payment requirement of the House bill.

(8) Assumptions of mortgages

House bill.—Individuals assuming a mortgage originally financed with tax-exempt bonds must meet the principal residence requirement, the three-year requirement, the purchase price limitation, and the income limitation.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill except it deletes the requirement that the person assuming the mortgage meet the income requirements of the House bill since income limits were deleted by the conference agreement.

(9) Market limitations

House bill.—The total amount of housing bonds that could be issued in a State each year would be limited to the greater of $50,000,000 or 5 percent of the average of all mortgages originated in that State in the preceding 3 years. The limit is to be allocated among governmental units within a State first on the basis of mortgages originated in the smallest jurisdiction having authority to issue housing bonds. This allocation can be changed by agreement among issuing subdivisions or by State statute.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill with two exceptions. First, it increases the market share limitation from the greater of $50,000,000 or 5 percent of the average of all mortgages originated in the State in the preceding 3 years to the greater of $200,000,000 or 9 percent of the average of all mortgages originated in the State in the preceding 3 years. In addition, the conference agreement modifies the way the limit is allocated among governmental units within the State.

The State ceiling is the greater of $200,000,000 or 9 percent of the average of all mortgages originated in the State in the preceding 3 years. The 9 percent State ceiling is to be computed in the same manner and using the same mortgages that were used in the House bill in computing the 5 percent limitation except the data are to be determined on a State-wide basis.

Thus, only mortgages on single family residences are to be used in determining the market limitation whether or not buildings with up to four family units are financed under the mortgage bond program. In the case of mortgages on buildings with more than one family unit, the full amount of the mortgage is counted toward the market limitation and not just the portion allocable to the owner-occupied unit.

[175] The State ceiling is then allocated among the various governmental units within the State that can issue mortgage subsidy bonds pursuant to a three-step rule.

Under the first step, the State ceiling is allocated equally between State housing agencies and localities until either the governor or the legislature makes a different allocation. One-half of the State ceiling is allocated to all State agencies that have authority to issue mortgage subsidy bonds. The other one-half of the State ceiling is allocated to localities that have authority to issue mortgage subsidy bonds in the same manner as provided for allocating the ceiling in the House bill. Thus, where more than one governmental unit has authority to issue mortgage subsidy bonds to finance mortgages on residences in the same geographical area, a portion of the State ceiling is allocated to the governmental unit with jurisdiction over the smallest geographic unit. The portion is determined by multiplying the State ceiling by a fraction the numerator of which is the average amount of mortgages placed in that governmental unit during the previous 3 years and the denominator of which is the total amount of all mortgages placed in the State during the same 3 previous calendar years. As under the House bill, a small governmental unit can enter into an agreement with the governmental unit having the next largest geographical area to allocate all or a designated amount or portion of the mortgages on residences within the smaller governmental unit to the larger governmental unit for purposes of computing the amount of the State ceiling allocated to both the small governmental unit and the next larger governmental unit.

Under the second step, the governor of the State is delegated the power to allocate the State ceiling among the governmental units having authority to issue mortgage subsidy bonds in any way he determines. Under this delegation of authority, the governor may allocate all or any amount or portion of the State ceiling to any governmental unit in the State that has authority to issue mortgage subsidy bonds. This power of the governor to allocate the State ceiling terminates at the earlier of the first day of the calendar year beginning after the first calendar year after 1980 during which the legislature of the State met in regular session or the effective date of any State legislation with respect to the allocation of the State ceiling enacted after the date of enactment of this bill.

Under the third step, the State legislature may enact a law providing for a different allocation than that provided in step one. Under this authority the State may allocate all or any amount or portion of the State ceiling to any governmental unit in the State that has authority to issue mortgage subsidy bonds.

The conference agreement provides a special allocation rule to certain political subdivisions with home rule powers. The home rule subdivisions to which the special allocation rule applies are those home rule subdivisions that are granted home rule pow-

ers by the beginning of the calendar year in which the bonds are issued pursuant to a State constitution that was adopted in 1970 and became effective on July 1, 1971 (Illinois). In that State, the full portion of the State ceiling is allocated to each home rule subdivision. The portion is determined by multiplying the State ceiling (i.e., the greater of $200,000,000 or 9 percent of average mortgages) by a fraction the numerator of which is the average amount of [176] mortgages placed in the home rule subdivision during the 3 previous calendar years and the denominator of which is the total amount of all mortgages placed in the State during the same 3 previous calendar years. The amount so allocated to home rule subdivisions cannot be altered by the power to provide a different allocation which the conference agreement grants to the governor or the State legislature described above. However, a home rule subdivision can agree to a different allocation.

The remaining portion of the State ceiling (i.e., the State ceiling reduced by the amount allocated to home rule subdivisions) is then allocated among the other governmental units in the State that have authority to issue mortgage subsidy bonds under essentially the same three steps described above.

Thus, under the first step, one half of the remaining State ceiling is allocated to all State agencies that have authority to issue mortgage subsidy bonds. The other one half of the remaining State ceiling is allocated to the localities outside of the home rule subdivisions. The amount of the remaining State ceiling that is allocated to each governmental unit that is not a home rule subdivision is determined by multiplying the remaining State ceiling by a fraction the numerator of which is the average amount of mortgages placed in that governmental unit during the 3 previous years and the denominator of which is the total amount of all mortgages placed in the State outside of the home rule subdivisions during the same 3 previous calendar years.

Under the second and third steps described above, the governor or State legislature can allocate the remaining State ceiling to any governmental units that have authority to issue mortgage subsidy bonds (including home rule subdivisions), but they cannot allocate the amount specially allocated to the home rule subdivisions.

(10) Required targeted portion

House bill.—If an issuing jurisdiction includes a targeted area, at least 20 percent of the lendable proceeds of a bond issue must be made available for at least one year for mortgage loans in the targeted areas in the issuing jurisdiction. This amount need not exceed 40 percent of the market share of the targeted areas.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

(11) Multiple originators' requirement

House bill.—There must be more than one person who originates mortgages from the bond proceeds, unless there is only one willing and able originator or there is a sound public purpose for using only one originator.

Senate amendment.—No provision.

Conference agreement.—The conference agreement deletes the multiple originators' requirement of the House bill.

(12) Bond issue approval

House bill.—All bonds must be submitted to a State agency for the agency's opinion as to whether or not the issue meets the market limitation and targeted portion requirement. The State agency must issue an opinion within 30 days after submission.

[177] *Senate amendment.*—No provision.

Conference agreement.—The conference agreement deletes the bond issue approval requirement of the House bill.

(13) Arbitrage restrictions

House bill.—The effective interest rate on mortgages to homeowners is limited to 1.0 percentage point above the yield to maturity to the purchasers of the bonds, calculated on the date of issuance. In addition, arbitrage is not permitted on reserves that exceed 150 percent of the annual debt service on the bonds. Finally, arbitrage earnings other than the 1.0 percentage point on home mortgages must be returned to the mortgagors.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill. However, the conferees wish to clarify several provisions of the conference agreement dealing with arbitrage. The first provision involves the determination of the effective rate of interest on the mortgages. The conference agreement requires that amounts that are taken into account in determining the effective rate of interest are to be discounted, from the time the amounts are received, to an amount equal to the "purchase price" of the mortgages. Because the yield on the bonds ordinarily is computed on a semi-annual basis, the conferees intend that the computation of the effective interest rate on mortgages should use the same semi-annual compounding interval as is used on the bonds. Under this method, monthly mortgage payments that are received before an interest payment date for the bonds are treated as received as of the next succeeding interest payment date.

The second point the conferees wish to clarify is that any losses on mortgage payments (after taking into account foreclosure proceedings and insurance) are taken into account in determining the effective interest rate. In determining the anticipated losses, the most recent experience of defaults for the area where the mortgages are to be placed is to be used.

The third provision the conferees desire to clarify involves the use of arbitrage on nonmortgage investments to compensate the issuer for any losses

on mortgages. If the actual losses (after foreclosure proceedings and insurance payments) exceed the anticipated losses taken into account in determining the effective interest rate, the issuer may use arbitrage from nonmortgage investments to recoup the excess losses. The amount of arbitrage so used would not have to be paid or credited to the mortgagors.

The conferees also want to clarify the requirement of the conference agreement that arbitrage on nonmortgage investments be paid or credited to the mortgagors as rapidly as practicable. The conferees understand that this requirement is satisfied if the arbitrage is paid or credited to such mortgagor at the time the mortgagor discharges his mortgage. Thus, at the time of any prepayment by the mortgagor of the entire principal amount of his mortgage (or at the last regular payment which discharges the mortgage), the mortgagor must be paid or credited with his allocable share of the cumulative amount of net arbitrage. In the case of prepayments, the cumulative amount of net arbitrage may be determined as of a date before the actual prepayment, but not more than one year earlier than the date of the prepayment.

[178] *(14) Termination ("sunset")*

House bill.—The issuance of qualified mortgage bonds would be permitted under the above rules only for 2 years from the date of enactment. After that time, the issuance of such bonds would be prohibited.

Senate amendment.—No provision.

Conference agreement.—The conference agreement provides that the issuance of qualified mortgage bonds would be permitted until December 31, 1983. After that date, the qualified mortgage bonds could not be issued.

(15) Registration

House bill.—All tax-exempt housing bonds issued after the date of enactment must be in registered form.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill except that it delays the effective date of the registration requirement from bonds issued after the date of enactment to bonds issued after December 31, 1981.

(16) Advance refunding

House bill.—No advance refunding of mortgage subsidy bonds will be permitted after the date of enactment.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

c. Qualified veterans' mortgage bonds

(1) Residences for veterans

House bill.—Substantially all of the proceeds from the bonds must be used to provide residences for veterans.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

(2) New mortgage requirement

House bill.—Except for construction period loans, bridge loans or similar temporary initial financing, and an existing mortgage where the residence is substantially rehabilitated, none of the proceeds of the bonds can be used to replace or acquire an existing mortgage.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

(3) General obligation requirement

House bill.—Both the principal and interest of the bond must be secured by the general obligation of a State.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

[179] *(4) Registration*

House bill.—All tax-exempt housing bonds issued after the date of enactment must be in registered form.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill, except that it delays the effective date of the registration requirement from bonds issued after the date of enactment to bonds issued after December 31, 1981.

(5) Advance refunding

House bill.—No advance refunding of mortgage subsidy bonds will be permitted after the date of enactment.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

d. Transitional rules

House bill.—The House bill applies to bonds issued after April 24, 1979, with three major exceptions and a number of exceptions for limited cases. The three major exceptions are as follows:

a. Official action

Tax-exempt housing bonds may be issued if, prior to April 25, 1979, the governing body of the unit having authority to issue the bonds had taken official action which indicated an intent to issue such bonds. A qualifying official action would include an authorization to hire bond counsel, an authorization to hire bond underwriters, or an authorization to make a market analysis with respect to a specified bond issue. Such authorization must be a specific authorization relating to a specified bond issue.

In the case of a sized or tentatively sized bond issue, only the amount of bonds the issuer reasonably intended to issue based on the documentation that existed before April 25, 1979, will qualify under this rule.

In case of an unsized bond issue, only an amount of bonds (exclusive of issuance costs and a reasonably required reserve) equal to the amount of mortgages for which the lenders had given firm commitments to home buyers within 9 months after the bonds are issued will qualify under this rule. Bond proceeds for which commitments

were not made within 9 months from the issuance date of the bonds must be used to redeem bonds.

b. Rollover rule

Tax-exempt indebtedness outstanding on April 24, 1979, may be rolled-over where the maturity date of the tax-exempt housing bonds is no longer than 2 years after the life of the initial mortgages on the properties.

c. Special rule for projects under development

Tax-exempt housing bonds for the financing of projects in the development stage may be issued where, prior to April 25, 1979,

(1) substantial expenditures had been made for detailed plans and specifications, and

(2) tax-exempt construction financing had been issued with respect to the project or there exists written evidence that a [180] governmental unit intended to issue tax-exempt bonds to finance the acquisition of the units by home buyers.

Senate amendment.—No provision. However, the Senate adopted an amendment to the supplemental appropriations bill that indicated the sense of the Senate that any bill restricting the use of mortgage subsidy bonds would not apply to bonds issued prior to January 1, 1981, so long as the proceeds of the bonds are committed to home purchasers within one year from the date of issue. The amendment was deleted from the bill in conference.

Conference agreement.—The conference agreement generally adopts the transitional rules in the House bill with several technical corrections. In addition, the conference agreement provides a general exception for bonds issued before January 1, 1981, and adds several additional special rules.

General rule

Under the conference agreement, the new rules that apply to the issuance of qualified mortgage bonds shall not apply to obligations issued before January 1, 1981, if these issues meet certain other criteria. Such obligations, if issued before January 1, 1981, will qualify, if they are part of an issue from which substantially all of the proceeds are committed by firm commitment letters within one year after the date of issue of the obligations. Commitment of substantially all of the proceeds allows use of a portion of the proceeds to meet issuance costs and provide for a reasonably required reserve. Firm commitment letters are identical to letters of firm commitment used when financing is provided from other sources than tax-exempt bonds.

Technical corrections

The technical corrections made by the conference agreement to the House transitional rule are as follows.

Section 904(b)(4) of the conference report relating to the date of a local referendum is modified to correct a technical error to show the correct date of the referendum as June 12, 1979.

Section 904(d)(3) of the conference report relating to the timing of resolutions before a city council and enactment of State authorizing legislation is modified to correct technical inaccuracies that do not affect the substance of the rule in the House-passed bill.

Section 904(d)(4) which relates to the date of a resolution that delayed completion of an issue because of interest charges is modified to insert the correct date of the resolution.

Section 904(h)(2) is modified by correcting the title of the National Housing Act.

Section 904(m)(3) is modified to extend the time limit for commitment letters to December 31, 1981.

Registration requirement

Section 904(i) relating to the requirement that all obligations issued as qualified mortgage bonds under the authority of this conference agreement must be in registered form is amended to require such registration for all obligations under this agreement issued after December 31, 1981. The registration requirement applies to obligations issued under the permanent rules and the transitional rules after the effective date.

[181] *Special transitional rule for loans to lenders*

The conference agreement includes a provision under which obligations may be issued during 1981 and 1982 as part of a loans to lender program. The amounts of the obligations issued under the loans to lender program will be included with the amount issued by the State housing finance agency under the limitation established by the conference agreement.

A qualified loans to lender program means any program, that has been established in accordance with legislation enacted by the State of New York in 1970, which finances the purchase of existing mortgages from financial institutions and requires that the financial institutions reinvest the proceeds in new mortgages within 90 days.

New mortgages made by financial institutions with the proceeds received from the sale of old mortgages to the State of New York Mortgage Agency (SONYMA) must meet the requirements established by the conference agreement with respect to new mortgages financed with mortgage revenue bonds. Because this is a special rule to accommodate a transitional problem, the requirements within the conference report with respect to low or moderate income rental housing and the arbitrage rules pertinent to mortgage revenue bonds will not apply during 1981 and 1982 to new mortgages by financial institutions using proceeds from the SONYMA loans to lender program. No inference is implied in this conference agreement dealing with mortgage revenue bonds with respect to the arbitrage rules which are in effect in section 103(c) of the Internal Revenue Code.

Certain additional transitional rules

The conference agreement adds transitional authority to issue tax-

exempt mortgage revenue bonds for seven specific projects in enumerated jurisdictions for specific purposes. In each case, the authority granted to a city or county may be used only by the appropriate issuing authority for that city. The amount specified in this subsection for a city shall be the maximum amount of obligations which may be issued by the appropriate issuing authority under the authority granted for the specific purpose of the issue. The obligations may be issued only for the purposes listed in this subsection of the conference agreement.

The ceiling amount for each area and the purpose of the issues are listed below.

2. Multi-family rental housing

a. General rule

House bill.—The present exception for tax-exempt industrial development bonds would be limited to obligations substantially all the proceeds of which are to be used for multi-family rental housing projects in which at least 20 percent of the units are to be occupied by individuals of low or moderate income, determined in a manner consistent with the Leased Housing Program under Section 8 of the United States Housing Act of 1937.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill except that, in projects located in a qualified [182] census tract or an area of chronic economic distress, at least 15 percent of the units are to be occupied by individuals of low or moderate income. For projects located in areas which are not in a qualified census tract or an area of chronic economic distress, the 20 percent requirement of the House bill is retained. The conferees want to clarify that the method for determining income in effect at the time of the bond issuance will be determinative for that issue even though they are subsequently changed.

The conference agreement adds a rule to the small issue exemption of Code section 103(b)(6) to insure that the small issue exemption is not used as a means of circumventing the multi-family rental provisions of the conference agreement. Under that rule, the small issue exemption would not apply to any obligation which is used as a part of an issue a significant portion of the proceeds of which are to be used directly or indirectly to provide residential real property for family units. In addition, the conferees want to clarify that interest on an industrial development bond a significant portion of which is used to provide residential real property for family units will be tax-exempt only if it meets the multi-family rental requirements of the conference agreement or the limited exception for the New York State Loan to Lenders Program regardless of whether the bond is a qualified mortgage bond or a qualified veterans' mortgage bond.

Also, the conference agreement provides a special rule similar to that in the House bill for bonds issued before January 1, 1984 (and which do not come within the transitional rules) under which the 20 percent requirement need be met only for a period of 20 years. The 20-year period begins on the first date that the project is available for occupancy and the tax-exempt obligations are outstanding. Under this rule, the 20 percent test will be met where the developer of the project has entered into a contract with a Federal or State agency that requires that at least 20 percent of the units be maintained for persons of low or moderate income for a period of at least 20 years and provides rent subsidies for such persons for that period.

b. Registration

House bill.—All tax-exempt bonds issued after the date of enactment must be in registered form.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill except that it delays the effective date of the registration requirements from bonds issued after the date of enactment to bonds issued after December 31, 1981.

City or county	Ceiling amount	Purpose of issue
Baltimore, Md.	$100,000,000	Financing owner-occupied residences.
Port Arthur, Tex.	175,000,000	For financing on new town in town project.
Minneapolis, Minn.	25,000,000	Financing owner-occupied residences.
Minneapolis-St. Paul, Minn.	235,000,000	Joint program for financing owner-occupied residences involving some UDAG grants and private financing.
Detroit, Mich.	50,000,000	To issue obligation maturing before 1986 for construction on the Riverfront West project.
Brevard County, Fla.	150,000,000	Financing owner-occupied residences.
Chicago, Ill.	235,000,000	For financing on the Presidential Towers project.

[183] *c. Transitional rules*

House bill.—The House bill applies to bonds issued after April 24, 1979, with three major exceptions and a number of exceptions for limited cases. The three major exceptions are as follows:

a. Official action

Tax-exempt housing bonds may be issued if, prior to April 25, 1979, the governing body of the unit having authority to issue the bonds had taken official action which indicated an intent to issue such bonds. A qualifying official action would include an authorization to hire bond counsel, an authorization to hire bond underwriters, or an authorization to make a market analysis with respect to a

specified bond issue. Such authorization must be a specific authorization relating to a specified bond issue.

In the case of a sized or tentatively sized bond issue, only the amount of bonds the issuer reasonably intended to issue based on the documentation that existed before April 25, 1979, will qualify under this rule.

In the case of an unsized bond issue, only the amount of bonds (exclusive of issuance costs and a reasonably required reserve) equal to the amount of mortgages for which the lenders had given firm commitments to developers for a specific project within 9 months after the bonds are issued will qualify under this rule. Bond proceeds for which commitments were not made within 9 months from the issuance date of the bonds must be used to redeem bonds.

b. Rollover rule

Tax-exempt indebtedness outstanding on April 24, 1979, may be rolled-over where the maturity date of the tax-exempt housing bonds is no longer than 2 years after the life of the initial mortgages on the properties.

c. Special rule for projects under development

Tax-exempt housing bonds for financing of projects in the development stage may be issued if:

(1) a plan specifying the number and location of rental units was approved on or before April 24, 1979, by a governing body, or a State or local housing agency or a similar agency, and

(2) substantial expenditures for site improvement for the project have been incurred on or before such date.

Senate amendment.—No provision.

Conference agreement.—The conference agreement adopts the transitional provisions of the House bill with certain technical amendments (described above). In addition, the conference agreement provides that the amendment made by sections 1102 and 1103 of the conference agreement shall not apply to obligations issued before January 1, 1981, where the construction of the project had begun, or the acquisition of the project occurs, before one year [184] after the date of issuance of the obligations. Finally, the conference agreement adopts additional special transitional rules for seven specific projects set forth above.

In addition, the conferees want to clarify the application of the House transitional rule for projects under development. The conferees intend that a project would qualify under this rule even though the project plans are modified to the extent of changing the specific location of structures within the project as long as the perimeter and the overall housing density of the project are not changed.

[185] B. Cash Management Provisions —Estimated Tax Payments

House bill.—Under present law, corporations generally are required to pay 80 percent of their current year's tax liability in quarterly estimated tax payments during the taxable year. However, corporations are exempt from the penalty for underpayment of estimated tax if their estimated tax payments equal 100 percent of their prior year's tax liability.

For both corporations and individuals, the minimum tax is not subject to the estimated tax requirements.

The House bill provides, in general, that corporations whose taxable income exceeded $1 million in any of the three preceding taxable years would be required to pay estimated tax of at least 60 percent of current year's tax liability regardless of their prior year's tax liability.

Senate amendment.—Under the Senate amendment, large corporations would be required to pay at least 50 percent of current year's tax liability on a current basis. Furthermore, the proportion of the tax shown on the return (or the actual tax if no return is filed) that is to be paid currently by any corporation not relying on the prior year exceptions would be increased from 80 percent to 85 percent. Finally, both the add-on minimum tax for corporations and individuals and the alternative minimum tax for individuals would be subject to the same estimated tax requirements as the regular income tax.

Conference agreement.—The conference agreement follows the House bill.

[186] C. Gains From Foreign Investment in U.S. Real Estate

1. General rule

House bill.—Nonresident aliens and foreign corporations ("foreign investors") would be subject to tax on the disposition of U.S. real property. Real property is intended to have the same meaning for this purpose that it has in the U.S. Treasury's model income tax treaty and thus it includes personal property associated with real property. Foreign investors would also be taxed on gain from the disposition of an interest in a U.S. real property holding organization (RPHO). The tax would be imposed regardless of whether or not the gain was effectively connected with a U.S. business or the seller was present in the United States.

Senate amendment.—Substantially the same as House bill.

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

2. Rate of tax

House bill.—All gains and losses from the disposition of U.S. real property interests would be treated as if they were effectively connected with a U.S. trade or business. Losses attributable to the U.S. real property from years prior to the year of sale would be allowed as deductions against the foreign investor's effectively connected U.S. gross income (including gains from real property sales) if the foreign investor elects under section 871(d) or 882(d) to be taxable on a net basis on its U.S. real property investment income.

Senate amendment. — Same as House bill, except that net gains from

disposition of U.S. real property interests would be subject to tax at a minimum rate of 28 percent if that tax would be higher than the tax under the general rule. No tax would be due if net gains during the taxable year from the sale of U.S. real property interests do not exceed $5,000.

Conference agreement.—The conference agreement generally follows the House bill. However, certain aspects of the Senate amendment were retained in modified form so that the tax on foreign investors would be more comparable to the tax imposed on U.S. investors in similar circumstances. The impact of the Senate amendment on foreign investors would have been greater than the tax imposed on similarly situated U.S. investors because the 28-percent minimum rate of the Senate amendment is higher than the capital gains rate imposed on long-term capital gains of U.S. investors who are not in the highest marginal tax brackets. In addition, the Senate amendment, in computing the tax, did not permit the use against U.S. real property gains or net losses which are effectively connected with another U.S. trade or business of the foreign investor or net losses from holding the U.S. real property interest which were attributable to prior years. The House bill, on the other hand, in many situations would have imposed a tax at rates lower than those imposed on similarly situated U.S. investors since the rate of tax would be determined with reference only to the foreign investor's income which was effectively connected with a U.S. trade or business. Since any other U.S. source investment income and all foreign source income of the foreign investor would not be taken into account, the rate of tax on the U.S. real estate gains of foreign investors (particularly if an installment sale were used to spread [187] the gain over several years) would generally be lower than that imposed on U.S. investors in similar circumstances. Consequently, the conferees decided, in the case of individuals, to impose the U.S. tax at a minimum rate of 20 percent of property gains (net of U.S. effectively connected losses) but otherwise to follow the approach of the House bill and generally to treat U.S. real property gains as gains effectively connected with a U.S. trade or business subject to the U.S. graduated capital gains rates and with full use of effectively connected losses against those gains.

3. Real property holding organizations (RPHOs)

House bills.—Corporation, partnership or trust would be an RPHO if, during the taxable year, the fair market value of its U.S. real property interests was at least 50 percent of the sum of the values of its (i) U.S. real property interests, (ii) interests in foreign real property, and (iii) other assets used in the trade or business "Look through" rules would apply where the entity had a controlling interest in another entity, and attribution rules would apply to determine whether a controlling interest existed.

In general, all gains from the disposition of an interest in an RPHO would be subject to tax. However, no tax would be imposed on sale of publicly traded stock in a corporation by a person who owned 5 percent or less.

Senate amendment.—Corporation, partnership or trust would be an RPHO if (a) at least a 50 percent interest in the entity is held by 10 or fewer persons, and (b) the fair market value of its U.S. real property interest is at least 50 percent of the value of all its assets (other than liquid assets).

U.S. tax treaties generally provide for a reduced rate of tax on dividends which might make it advantageous for a domestic corporation to distribute a U.S. real property interest to a shareholder in dividend form. To prevent this, the bill denies the recipient a basis step-up except to the extent that the corporation recognizes gain and the recipient pays U.S. income tax on the distribution. "Look-through" and attribution rules similar to the House bill would apply. All gains from disposition of an interest in an RPHO would be subject to tax.

Conference agreement.—The conference agreement generally follows the House bill with respect to domestic corporate RPHOs but adopts different rules for other entities as set forth below. Attribution rules similar to the House bill apply to determine whether there is a controlling interest in another entity but the "look through" rules apply to such an interest only with respect to assets actually held downward through the chain of ownership. U.S. corporations would be treated as RPHOs unless they elect to file returns establishing that less than 50 percent of their assets are U.S. real property interests.

(i) *Foreign corporations.*—Gain on the disposition of stock in a foreign corporation would not be subject to the tax imposed under the bill. Instead, the foreign corporation would be taxed on any distribution (whether or not in liquidation) of appreciated U.S. real property interests to its shareholders. Also, tax would be imposed if the property is sold in connection with a liquidation.

If the application of the provisions of section 897 or section 6039C to any foreign corporation would be barred by a treaty obligation of [188] the United States which provides that a permanent establishment of a foreign corporation in the United States may not be treated less favorably than a domestic corporation carrying on the same activities, then that foreign corporation may elect, subject to such terms and conditions as are specified by the IRS, to be treated as a U.S. corporation for purposes of sections 897 and 6039C. The election may be revoked only with the consent of the Secretary.

Conditions imposed by the IRS on the making of the election might, for example, include a requirement that the foreign corporation notify its shareholders that the election was being made or a requirement that the IRS be satisfied that treaty relief was applicable. Ordinarily, the election

would be made before the first disposition of stock in a foreign corporation which would be taxable if the election had been made before that first disposition. Where it deemed it to be appropriate, however, the IRS could permit the election to be made after the first disposition, provided satisfactory arrangements were made for the payment of an amount equal to the tax on any dispositions made prior to the election which would have been owing on the dispositions (if the election had been made prior to the first disposition) and an appropriate interest charge for the period since the time at which that tax would have been required to have been paid. In the case of dispositions of stock in foreign corporations made prior to the conference committee's action, it is contemplated that the election may be made retroactively, provided satisfactory arrangements are made for the payment of tax on the stock sale. (For example, if amounts were withheld by the buyer on the purchase of the foreign corporation's stock or were deposited in an escrow account for the satisfaction of the seller's tax liability on the stock sale, the election might be permitted if those funds were made available to satisfy the seller's tax liability.)

(ii) *Partnership, trusts, and estates.*—Gain on the disposition of an interest in these entities also would not be subject, in its entirety, to tax. Instead, a foreign investor in such an entity would be taxable on the disposition of his interest to the extent that the gain represented his pro rata share of appreciation in the value of U.S. real property interests on the entity.

(iii) *REITs.*—Distributions by a real estate investment trust (REIT) to foreign shareholders would be treated as gain on the sale of U.S. real property to the extent of the shareholders' pro rata share of the net capital gain of the REIT. In the case of REITs which are controlled by U.S. persons, sales of the REIT shares by foreign shareholders would not be subject to tax (other than in the case of distribution by the REIT).

4. Nonrecognition rules

House bill.—The Secretary would be authorized to prescribe regulations providing the extent to which nonrecognition rules would (or would not) apply under the bill. Pending the issuance of these regulations, nonrecognition provisions of the Code would apply, but only in the case of an exchange of a U.S. real property interest for an interest the disposition of which would be taxable under the Code (as modified by any treaty pursuant to sections 894 and 7852(d)).

Senate amendment.—Similar to the House bill, but without a rule prescribing treatment prior to the issuance of regulations.

[189] *Conference agreement.*—Follows the House bill, but also allows prescription of regulations determining the extent to which transfers of property in reorganizations are to be treated as sales at fair market value. Similar rules apply in the case of partnerships, trusts, and estates.

5. Withholding

House bill.—No provision.

Senate amendment.—The withholding requirement would apply only if the purchaser knows or has received a notice that the seller is a foreign person. The seller is required to notify the purchaser that the seller is a foreign person. The seller's agent is also required to notify the purchaser that the seller is a foreign person if the agent has reason to believe that the seller may be a foreign person. The amount to be withheld is the smallest of (i) 28 percent of the sales price, (ii) the "seller's maximum tax liability" (discussed below), or (iii) the fair market value of that portion of the sale proceeds which is within the withholder's control. The "seller's maximum tax liability" is the maximum amount which the Treasury determines that the seller could owe on his gain on the sale plus any unsatisfied prior withholding tax liabilities of prior foreign owners with respect to that property.

A purchaser would not be required to withhold if: (i) the property being sold is a single family residence which is to be used by the purchaser as his principal residence and the amount realized by the seller on the sale is $150,000 or less, (ii) the property being sold is stock of a corporation and the sales transaction takes place on an established securities market or (iii) the seller obtains a "qualifying statement" from the Treasury that he is exempt from tax or he has provided adequate security or has otherwise made arragnements with Treasury for the payment of the tax. The Treasury may prescribe a reduced amount to be withheld under similar procedures.

Conference agreement.—The conference agreement follows the House bill. The Senate conferees had proposed that the tax imposed under the conference agreement be enforced by the withholding provisions contained in the Senate bill, modified in several respects.[1] The House conferees refused to agree to the withholding provisions in the conference agreement. The conferees agreed it would be necessary to structure withholding provisions care-

[1] The withholding provisions of the Senate amendment would be modified to provide that neither the purchaser nor any settlement agent would be required to withhold unless he has actual knowledge that the seller is foreign or has received a notice from a seller's agent. The seller's agent would be relieved of any responsibility to give such a notice if he relies in good faith on a statement from the seller (or, in the case of a seller's agent retained by another seller's agent, from the seller's agent who retained him) that the seller is a U.S. person or, if the seller is foreign, that the seller notified the purchaser. A second modification proposed to the Senate bill withholding provisions was that if the purchaser assumes a debt of the seller or took the property subject to a debt of the seller, which was incurred within one year prior to the sale, that amount of the consideration would also be subject to withholding. A final modification would have set forth in greater detail the circumstances under which withholding might be reduced or waived. The taxpayer would be permitted to reduce (or eliminate) the amount of withholding by filing a return stating the basis for the property and the character of the contemplated gain. The IRS would be required to accept that basis and character for withholding purposes unless the IRS responded within 30 days specifying a lower (or zero) basis or different character if the IRS were not satisfied that the amount to be withheld would be sufficient to cover the taxpayer's underlying liability.

fully to ensure that they would not inadvertently disrupt the U.S. real estate market or expose U.S. buyers or U.S. agents of foreign sellers [190] of U.S. real estate to liability where such liability would not be appropriate. Given this potential, the House conferees took the position that withholding provisions should not be adopted until they could be more fully considered by the committees and the public had adequate opportunity to consider and comment on the proposed withholding mechanism. The conferees agreed that, until and unless withholding provisions were adopted by a subsequent Congress, the tax should be enforced through information reporting as discussed below.

6. Reporting

a. Returns to identify whether an entity is an RPHO

House bill.—If, at any time during a calendar year, (i) an entity beneficially owns U.S. real property interests which constitute more than 40 percent of the fair market value of the assets taken into consideration in determining whether or not it is an RPHO and (ii) at least one foreign person has an interest (other than a portfolio interest in publicly-traded stock) in the entity, the entity is required to file an information return for the year. The return is to set forth the name and address of any foreign person who held an interest, whether the entity is an RPHO at any time during the calendar year, and other information which the Treasury may prescribe by regulations.

Senate amendment.—If, at any time during a calendar year, (i) an entity has U.S. real property interests which constitute more than 40 percent of the fair market value of its assets, (ii) 10 or fewer persons have a controlling interest in the entity, and (iii) at least one foreign person has an interest in the entity, the entity is required to file an information return for the year. The information required is similar to the information required under the House bill.

Conference agreement.—The conference agreement deletes the requirement that entities file returns establishing whether or not they are RPHOs. Under the conference agreement, an entity (or a person owning an interest in the entity) may on a voluntary basis file a return, containing such information as may be required by the IRS, establishing that the entity is not an RPHO.

b. Returns to identify foreign owners

House bill.—Foreign owners of U.S. real estate who are not subject to the return requirements described above are generally required to file returns showing (i) the name and address of the person, (ii) a description of all U.S. real property interests held by such person, and (iii) such other information as the Treasury may prescribe by regulations.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill with several modifications.

U.S. corporations which are U.S. real property holding corporations or which were U.S. real property holding corporations at any time during the preceding 4 years will be required to file annual returns setting forth the name and the address (if known by the corporation) of each foreign shareholder (other than shareholders owning stock which is publicly traded, any information required by [191] the Secretary with respect to transfers of stock in the corporation by such foreign shareholders and any other information which the Secretary may prescribe by regulations. Any nominee holding stock in a U.S. corporation on behalf of a foreign person is required to file a return in the same manner as the corporation is required. No requirement for reporting with respect to publicly traded stock is imposed because information with respect to foreign shareholders holding more than 5 percent of any publicly traded class of stock in a U.S. corporation (less than 5 percent shareholders are not taxable on the disposition of their stock) should be readily available from the SEC.

Foreign corporations and partnerships, trusts, or estates (whether foreign or domestic) are required to file annual returns setting forth the name and address of each foreign person who has a substantial indirect investment in U.S. real property through the entity, such information with respect to the assets of the entity, and such other information as the Secretary may prescribe by regulations. For this purpose, a foreign person having a substantial indirect investment through the entity would include any foreign person whose pro rata share of the U.S. property interests held by the entity exceeded $50,000 at any time during the calendar year. Any entity required to make such a return is also required to furnish each of the foreign persons holding a substantial investment in U.S. real property through that entity a statement showing the name and address of the entity, the substantial investor's pro rata share of the U.S. real property held by the entity and such other information as is required by regulations. In determining whether the pro rata share of any foreign person's beneficial interest in the real property held by the entity exceeds $50,000, the entity's pro rata share of any real property interest held by any other such entity in which the first entity holds a beneficial interest, and interests in the first entity held by the person's family, shall also be taken into account.

These reporting requirements will not apply to any entity for any calendar year where the entity furnishes the IRS with such security as the IRS determines to be necessary to ensure that any U.S. tax with respect to U.S. real property interests held by such entity will be paid. It is expected that the security which the IRS would consider to be satisfactory for this purpose would depend upon the circumstances. Thus, for example, in the case of a foreign corporation the only asset of which is a tract of undeveloped U.S. real estate, the IRS might require a recorded security interest in the real

estate, a guarantee by a person from whom the IRS would be reasonably certain it could collect the unpaid tax, or some similar type of security. On the other hand, in the case of a foreign corporation engaged in a U.S. trade or business with a variety of U.S. assets and where the circumstances indicated that it was improbable that the foreign corporation would attempt to liquidate and remove its assets from the United States without satisfying its U.S. tax liability, the IRS might only require an undertaking by the foreign corporation to pay the tax in a closing agreement or some similar security. Where an arrangement is reached with the IRS, the entity is not required to report the identity of the foreign persons holding interests in the entity and, in addition, the foreign person is not required to take its pro rata interest in the entity into ac-[192]count in determining its own reporting requirements. Where the foreign corporation was unable to supply the necessary information to the IRS as to the identity of its shareholders because, for example, its stock is in bearer form or was held by nominees unwilling to disclose the identity of the beneficial owner, it would be required to provide security satisfactory to the IRS.

A separate reporting requirement applies to foreign persons owning U.S. real property who are not required to file a return under section 6039C(b) for the year. Where such a foreign person did not engage in a trade or business in the United States at any time during the calendar year and the fair market value of the U.S. real property interests held by the foreign person at any time during the year equals or exceeds $50,000, the foreign person is required to file a return setting forth his (or its) name and address, a description of all U.S. real property interests held at any time during the calendar year and such other information as is required by regulations. "Look through" and family attribution rules apply to determine whether a person is a substantial investor.

c. Failure to make a return or furnish a statement

House bill.—A penalty for failure to file a tax return or to furnish a statement required under the rules described above will be imposed in an amount equal to $25 for each day during which such failure continues but not to exceed $25,000. Also, in the case of a failure by a foreign person to file a return required by the rules set forth in (b) above, the penalty for any calendar year cannot exceed 5 percent of the aggregate of (i) the fair market value of the U.S. real property interests owned by that person at any time during the year and (ii) the face amount of the U.S. real property interest installment obligations.

Senate amendment.—A penalty for failure to file a tax return or to furnish a statement will be imposed in an amount equal to the greater of (i) $25 a day during which the failure continues, but not to exceed $25,000, or (ii) the amount of the tax under the bill which is not paid and which is attributable to transfers (other than those made in an established securities market) occurring during the calendar year for which the return or statement was required.

Conference agreement.—The conference agreement generally follows the House bill.

In the case of each failure to file a return containing the information required by these information reporting requirements or to furnish the statement to a beneficial owner of an interest of its pro rata share of the U.S. real property assets held by the entity, a penalty is imposed of $25 for each day during which the failure continues (but not to exceed $25,000 for the calendar year) unless it is shown that the failure is due to reasonable cause and not to willful neglect. A further limitation to the penalty applies in the case of a failure of a foreign person to disclose his U.S. real property interests (sec. 6039C(c)). In the case of such a failure, the penalty is not to exceed 5 percent of the aggregate fair market value of the U.S. real property interests held by the person at any time during the year.

[193] 7. Effective date

a. General rule

House bill.—The bill would apply to dispositions after June 18, 1980.

Senate amendment.—The Senate amendment would apply to dispositions after December 31, 1979, except those made pursuant to a contract binding at all times after December 6, 1979.

Conference agreement.—The conference agreement generally follows the House bill and would apply to dispositions after June 18, 1980. However, no step-up in basis would be allowed with respect to a disposition made to a related party (within the meaning of Code section 453(f)(1)) in a nontaxed transaction after December 31, 1979.

b. Tax treaties

House bill.—Until January 1, 1985, gain would not be taxed to the extent required by treaty obligations of the U.S. On and after that date, the provision would prevail over any conflicting treaty provisions remaining in effect.

Senate amendment. — Same as House bill.

Conference agreement.—The conference agreement generally follows the House bill and the Senate amendment, but no step-up in basis would be allowed with respect to a disposition made to a related party which is exempt from the tax imposed by the bill solely because of delays of the effective date attributable to conflicting treaty obligations. In situations where a treaty is renegotiated to resolve conflicts between the treaty and the conference agreement, the delay in the effective date of the conference agreement can be extended in the revised treaty or an accompanying exchange of notes for a period of up to two years after the signing of the revised treaty in order to permit the Senate adequate time to consider the revised treaty.

[194] D. Windfall Profit Tax

1. Royalty owners credit

House bill.—No provision.

Senate amendment.—The Senate amendment provides royalty owners with a credit (or refund) of up to $1,000 against the windfall profit tax imposed on the removal of their royalty oil during calendar year 1980. The credit is available only to individuals, estates, and family farm corporations and not to other corporations or to trusts. In the case of a family, the husband and wife and their minor children are treated as one taxpayer for purposes of the $1,000 limit on the credit. A qualified family farm corporation that is eligible for the credit is one which (1) was in existence on June 25, 1980, (2) all of the outstanding stock of which was held by members of the same family at all times between July 24, 1980, and January 1, 1981, and (3) 80 percent of the assets of which was used for farming purposes.

The Senate amendment also requires that in calculating the amount of income tax deduction for the windfall profit tax, net income for percentage depletion purposes, and oil related income for the minimum tax on intangible drilling costs, a taxpayer must reduce the gross amount of windfall profit tax paid or withheld during the taxable year by the amount of the credit allowable against that tax. This reduction of the income tax deduction must be made regardless of whether the taxpayer actually claims the allowable credit.

Conference agreement.—The conference agreement follows the Senate amendment.

2. Stripper oil exemption

House bill.—No provision.

Senate amendment. — The Senate amendment provides for an exemption from the windfall profit tax for up to 2 barrels a day of stripper well production for each stripper well from which the producer receives production. This exemption applies to oil removed in the four quarters of fiscal year 1981.

Conference agreement. — The conference agreement follows the House bill.

3. Modification of inflation adjustment

House bill.—No provision.

Senate amendment.—Under present law, the windfall profit tax is imposed on the difference between the selling price of each barrel of domestic crude oil and its adjusted base price for the calendar quarter during which it is removed. The adjusted base price is determined by increasing the base price to take account of inflation between the second quarter of 1979 and the second quarter prior to the quarter for which the adjusted base price is being determined. In the case of newly discovered oil, heavy oil and incremental tertiary oil, the adjusted base price is determined by using the rate of inflation plus 2 percent per year.

The Senate amendment would adjust the otherwise applicable adjusted base price for each calendar quarter in fiscal year 1981 by subtracting an amount equal to 10.9 percent of that adjusted base price.

Conference agreement. — The conference agreement follows the House bill.

[195] E. Inclusion in Wages of Social Security and Unemployment Taxes Paid by Employers

House bill.—Under present law, employer payment of an employee's liability for social security taxes or State unemployment compensation taxes (without deduction from the remuneration of the employee) is specifically exempted from wages for purposes of social security taxes (FICA), Federal unemployment taxes (FUTA), and social security benefits.

The House bill provides that the payment by an employer of an employee's liability for social security taxes or State unemployment compensation taxes would be included in the definition of wages for purposes of FICA, FUTA, and social security benefits. However, this provision would not apply with respect to payments for domestic service in the employer's home.

The provision generally would be effective with respect to remuneration paid after December 31, 1980. However, in the case of certain State, political subdivision, or other State or local coverage group employment under section 218 of the Social Security Act, the provision would apply with respect to remuneration paid after December 31, 1983. This later effective date would apply only to remuneration for services in positions of a kind for which all, or a substantial portion of the amounts equivalent to employee social security taxes were paid (without deduction from the wages of the employee) under the practices in effect on June 18, 1980.

Senate amendment. — The Senate amendment is similar to the House bill except that it does not apply to: (1) employer payment of employee State unemployment compensation taxes or (2) agricultural labor. In addition, the December 31, 1983, effective date for certain State and local governmental units would apply to payments of amounts equivalent to employee social security taxes if these amounts were paid (without deduction from remuneration of the employee) under practices that were in effect on July 26, 1980.

Conference agreement. — The conference agreement follows the House bill with two modifications. Under the conference agreement, agricultural labor would be excluded from the application of the provision. In addition, the later effective date with respect to certain State and local governmental units would apply to payments of amounts equivalent to employee social security taxes if these amounts were paid (without deduction from remuneration of the employee) under practices that were in effect on October 1, 1980.

Concerning the application of these amendments to State and local governments, the conferees wish to empha-

size that the general rule with respect to social security taxation is that all forms of remuneration constitute wages for social security tax purposes unless specifically exempted by statute. Payments by State and local governments of the equivalent of employee social security taxes for their employees, since these payments represent a benefit to the employees from their employer, constitute "remuneration" within the meaning of the Act and the Code but for the exception which is being eliminated by this provision.

[196] F. Telephone Excise Tax

House bill.—Present law imposes an excise tax on amounts paid for communications services (local telephone service, toll telephone service and teletypewriter service). The tax is 2 percent for 1980 and 1 percent for 1981. The tax is to expire on January 1, 1982.

The House bill delays the reduction and expiration of the tax by one year. Under the House bill, the tax is 2 percent for 1980 and 1981 and 1 percent for 1982. The tax is to expire on January 1, 1983.

Senate amendment. — The Senate amendment is the same as the House bill.

Conference agreement. — The conference agreement follows the House bill and the Senate amendment.

Public Law 96-510 96th Congress, H.R. 7020 [1] December 11, 1980

An Act to provide for liability, compensation, cleanup, and emergency response for hazardous substances released into the environment and the cleanup of inactive hazardous waste disposal sites.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980".

* * * * *

TITLE II—HAZARDOUS SUBSTANCE RESPONSE REVENUE ACT OF 1980

SEC. 201. SHORT TITLE; AMENDMENT OF 1954 CODE

(a) SHORT TITLE.—This title may be cited as the "Hazardous Substance Response Revenue Act of 1980".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

Subtitle A—Imposition of Taxes on Petroleum and Certain Chemicals

SEC. 211. IMPOSITION OF TAXES

(a) GENERAL RULE.—Subtitle D (relating to miscellaneous excise taxes) is amended by inserting after chapter 37 the following new chapter:

"CHAPTER 38—
ENVIRONMENTAL TAXES

"SUBCHAPTER A. Tax on petroleum.
"SUBCHAPTER B. Tax on certain chemicals.

"Subchapter A—Tax on Petroleum

"Sec. 4611. Imposition of tax.
"Sec. 4612. Definitions and special rules.

"SEC. 4611. IMPOSITION OF TAX

"(a) GENERAL RULE.—There is hereby imposed a tax of 0.79 cent a barrel on—

"(1) crude oil received at a United States refinery, and

"(2) petroleum products entered into the United States for consumption, use, or warehousing.

"(b) TAX ON CERTAIN USES AND EXPORTATION.—

"(1) IN GENERAL.—If—

"(A) any domestic crude oil is used in or exported from the United States, and

"(B) before such use or exportation, no tax was imposed on such crude oil under subsection (a),

then a tax of 0.79 cent a barrel is hereby imposed on such crude oil.

"(2) EXCEPTION FOR USE ON PREMISES WHERE PRODUCED.—Paragraph (1) shall not apply to any use of crude oil for extracting oil or natural gas on the premises where such crude oil was produced.

"(c) PERSONS LIABLE FOR TAX.—

"(1) CRUDE OIL RECEIVED AT REFINERY.—The tax imposed by subsection (a)(1) shall be paid by the operator of the United States refinery.

"(2) IMPORTED PETROLEUM PRODUCT.—The tax imposed by subsection (a)(2) shall be paid by the person entering the product for consumption, use, or warehousing.

"(3) TAX ON CERTAIN USES OR EXPORTS.—The tax imposed by subsection (b) shall be paid by the person using or exporting the crude oil, as the case may be.

"(d) TERMINATION. — The taxes imposed by this section shall not apply after September 30, 1985, except that if on September 30, 1983, or September 30, 1984—

"(1) the unobligated balance in the Hazardous Substance Response Trust Fund as of such date exceeds $900,000,000, and

"(2) the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines that such unobligated balance will exceed $500,000,000 on September 30 of the following year if no tax is imposed under section 4611 or 4661 during the calendar year following the date referred to above, then no tax shall be imposed by this section during the first calendar year beginning after the date referred to in paragraph (1).

[1] The publication of the law and House Report No. 96-1016 Part II, page 593, this Bulletin, is restricted to excerpts involving tax matters. House Report No. 1016 Part I and Senate Report No. 96-848 are not published.

"SEC. 4612. DEFINITIONS AND SPECIAL RULES

"(a) DEFINITIONS.—For purposes of this subchapter—

"(1) CRUDE OIL.—The term 'crude oil' includes crude oil condensates and natural gasoline.

"(2) DOMESTIC CRUDE OIL.—The term 'domestic crude oil' means any crude oil produced from a well located in the United States.

"(3) PETROLEUM PRODUCT.—The term 'petroleum product' includes crude oil.

"(4) UNITED STATES.—

"(A) IN GENERAL.—The term 'United States' means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, any possession of the United States, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

"(B) UNITED STATES INCLUDES CONTINENTAL SHELF AREAS.—The principles of section 638 shall apply for purposes of the term 'United States'.

"(C) UNITED STATES INCLUDES FOREIGN TRADE ZONES.—The term 'United States' includes any foreign trade zone of the United States.

"(5) UNITED STATES REFINERY.—The term 'United States refinery' means any facility in the United States at which crude oil is refined.

"(6) REFINERIES WHICH PRODUCE NATURAL GASOLINE.—In the case of any United States refinery which produces natural gasoline from natural gas, the gasoline so produced shall be treated as received at such refinery at the time so produced.

"(7) PREMISES.—The term 'premises' has the same meaning as when used for purposes of determining gross incomes from the property under section 613.

"(8) BARREL.—The term 'barrel' means 42 United States gallons.

"(9) FRACTIONAL PART OF BARREL.—In the case of a fraction of a barrel, the tax imposed by section 4611 shall be the same fraction of the amount of such tax imposed on a whole barrel.

"(b) ONLY 1 TAX IMPOSED WITH RESPECT TO ANY PRODUCT.—No tax shall be imposed by section 4611 with respect to any petroleum product if the person who would be liable for such tax establishes that a prior tax imposed by such section has been imposed with respect to such product.

"(c) DISPOSITION OF REVENUES FROM PUERTO RICO AND THE VIRGIN ISLANDS.—The provisions of subsections (a)(3) and (b)(3) of section 7652 shall not apply to tax imposed by section 4611.

"Subchapter B—Tax on Certain Chemicals

"Sec. 4661. Imposition of tax.
"Sec. 4662. Definitions and special rules.

"SEC. 4661. IMPOSITION OF TAX

"(a) GENERAL RULE.—There is hereby imposed a tax on any taxable chemical sold by the manufacturer, producer, or importer thereof.

"(b) AMOUNT OF TAX.—The amount of the tax imposed by subsection (a) shall be determined in accordance with the following table:

"In the case of:	The tax is the following amount per ton
Acetylene	$4.87
Benzene	4.87
Butane	4.87
Butylene	4.87
Butadiene	4.87
Ethylene	4.87
Methane	3.44
Naphthalene	4.87
Propylene	4.87
Toluene	4.87
Xylene	4.87
Ammonia	2.64
Antimony	4.45
Antimony trioxide	3.75
Arsenic	4.45
Arsenic trioxide	3.41
Barium sulfide	2.30
Bromine	4.45
Cadmium	4.45
Chlorine	2.70
Chromium	4.45
Chromite	1.52
Potassium dichromate	1.69
Sodium dichromate	1.87
Cobalt	4.45
Cupric sulfate	1.87
Cupric oxide	3.59
Cuprous oxide	3.97
Hydrochloric acid	0.29
Hydrogen fluoride	4.23
Lead oxide	4.14
Mercury	4.45
Nickel	4.45
Phosphorus	4.45
Stannous chloride	2.85
Stannic chloride	2.12
Zinc chloride	2.22
Zinc sulfate	1.90
Potassium hydroxide	0.22
Sodium hydroxide	0.28
Sulfuric acid	0.26
Nitric acid	0.24

"(c) TERMINATION.—No tax shall be imposed under this section during any period during which no tax is imposed under section 4611(a).

"SEC. 4662. DEFINITIONS AND SPECIAL RULES

"(a) DEFINITIONS.—For purposes of this subchapter—

"(1) TAXABLE CHEMICAL.—Except as provided in subsection (b), the term 'taxable chemical' means any substance—

"(A) which is listed in the table under section 4661(b), and

"(B) which is manufactured or produced in the United States or entered into the United States for consumption, use, or warehousing.

"(2) UNITED STATES.—The term 'United States' has the meaning given such term by section 4612(a)(4).

"(3) IMPORTER.—The term 'importer' means the person entering the

taxable chemical for consumption, use, or warehousing.

"(4) TON.—The term 'ton' means 2,000 pounds. In the case of any taxable chemical which is a gas, the term 'ton' means the amount of such gas in cubic feet which is the equivalent of 2,000 pounds on a molecular weight basis.

"(5) FRACTIONAL PART OF TON.—In the case of a fraction of a ton, the tax imposed by section 4661 shall be the same fraction of the amount of such tax imposed on a whole ton.

"b) EXCEPTIONS; OTHER SPECIAL RULES.—For puropses of this subchapter—

"(1) METHANE OR BUTANE USED AS A FUEL.—Under regulations prescribed by the Secretary, methane or butane shall be treated as a taxable chemical only if it is used otherwise than as a fuel (and, for purposes of section 4661(a), the person so using it shall be treated as the manufacturer thereof).

"(2) SUBSTANCES USED IN THE PRODUCTION OF FERTILIZER.—

"(A) IN GENERAL.—In the case of nitric acid, sulfuric acid, ammonia, or methane used to produce ammonia which is a qualified substance, no tax shall be imposed under section 4661 (a).

"(B) QUALIFIED SUBSTANCE.—For purposes of this section, the term 'qualified substance' means any substance—

"(i) used in a qualified use by the manufacturer, producer, or importer,

"(ii) sold for use by the purchaser in a qualified use, or

"(iii) sold for resale by the purchaser to a second purchaser for use by such second purchaser in a qualified use.

"(C) QUALIFIED USE.—For purposes of this subsection, the term 'qualified use' means any use in the manufacture or production of a fertilizer.

"(3) SULFURIC ACID PRODUCED AS A BYPRODUCT OF AIR POLLUTION CONTROL.—In the case of sulfuric acid produced solely as a byproduct of and on the same site as air pollution control equipment, no tax shall be imposed under section 4661.

"(4) SUBSTANCES DERIVED FROM COAL.—For purposes of this subchapter, the term 'taxable chemical' shall not include any substance to the extent derived from coal.

"(c) USE BY MANUFACTURER, ETC., CONSIDERED SALE.—If any person manufactures, produces, or imports a taxable chemical and uses such chemical, then such person shall be liable for tax under section 4661 in the same manner as if such chemical were sold by such person.

"(d) REFUND OR CREDIT FOR CERTAIN USES.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, if—

"(A) a tax under section 4661 was paid with respect to any taxable chemical, and

"(B) such chemical was used by any person in the manufacture or production of any other substance the sale of which by such person would be taxable under such section,

then an amount equal to the tax so paid shall be allowed as a credit or refund (without interest) to such person in the same manner as if it were an overpayment of tax imposed by such section. In any case to which this paragraph applies, the amount of any such credit or refund shall not exceed the amount of tax imposed by such section on the other substance manufactured or produced.

"(2) USE AS FERTILIZER.—Under regulations prescribed by the Secretary, if—

"(A) a tax under section 4661 was paid with respect to nitric acid, sulfuric acid, ammonia, or methane used to make ammonia without regard to subsection (b)(2), and

"(B) any person uses such substance, or sells such substance for use, as a qualified substance,

then an amount equal to the excess of the tax so paid over the tax determined with regard to subsection (b)(2) shall be allowed as a credit or refund (without interest) to such person in the same manner as if it were an overpayment of tax imposed by this section.

"(e) DISPOSITION OF REVENUES FROM PUERTO RICO AND THE VIRGIN ISLANDS.—The provisions of subsections (a)(3) and (b)(3) of section 7652 shall not apply to any tax imposed by section 4661.".

(b) CLERICAL AMENDMENT.—The table of chapters for subtitle D is amended by inserting after the item relating to chapter 37 the following new item:

"CHAPTER 38. Environmental taxes.".

(c) EFFECTIVE DATE.—The amendment made by this section shall take effect on April 1, 1981.

* * * * *

Subtitle C—Post-Closure Tax and Trust Fund

SEC. 231. IMPOSITION OF TAX

(a) IN GENERAL.—Chapter 38, as added by section 211, is amended by adding at the end thereof the following new subchapter:

"Subchapter C—Tax on Hazardous Wastes

"Sec. 4681. Imposition of tax.

"Sec. 4682. Definitions and special rules.

"SEC. 4681. IMPOSITION OF TAX

"(a) GENERAL RULE.—There is hereby imposed a tax on the receipt of hazardous waste at a qualified hazardous waste disposal facility.

"(b) AMOUNT OF TAX. — The amount of the tax imposed by subsection (a) shall be equal to $2.13 per dry weight ton of hazardous waste.

"SEC. 4682. DEFINITIONS AND SPECIAL RULES

"(a) DEFINITIONS.—For purposes of this subchapter—

"(1) HAZARDOUS WASTE. — The

term 'hazardous waste' means any waste—

"(A) having the characteristics identified under section 3001 of the Solid Waste Disposal Act, as in effect on the date of the enactment of this Act (other than waste the regulation of which under such Act has been suspended by Act of Congress on that date), or

"(B) subject to the reporting or recordkeeping requirements of sections 3002 and 3004 of such Act, as so in effect.

"(2) QUALIFIED HAZARDOUS WASTE DISPOSAL FACILITY.—The term 'qualified hazardous waste disposal facility' means any facility which has received a permit or is accorded interim status under section 3005 of the Solid Waste Disposal Act.

"(b) TAX IMPOSED ON OWNER OR OPERATOR.—The tax imposed by section 4681 shall be imposed on the owner or operator of the qualified hazardous waste disposal facility.

"(c) TAX NOT TO APPLY TO CERTAIN WASTES.—The tax imposed by section 4681 shall not apply to any hazardous waste which will not remain at the qualified hazardous waste disposal facility after the facility is closed.

"(d) APPLICABILITY OF SECTION.—The tax imposed by section 4681 shall apply to the receipt of hazardous waste after September 30, 1983, except that if, as of September 30 of any subsequent calendar year, the unobligated balance of the Post-closure Liability Trust Fund exceeds $200,000,000, no tax shall be imposed under such section during the following calendar year.".

(b) CONFORMING AMENDMENT.—The table of subchapters for chapter 38 is amended by adding at the end thereof the following new item:

"SUBCHAPTER C—Tax on Hazardous Wastes.".

SEC. 232. POST-CLOSURE LIABILITY TRUST FUND

(a) CREATION OF TRUST FUND.—There is established in the Treasury of the United States a trust fund to be known as the "Post-closure Liability Trust Fund", consisting of such amounts as may be appropriated, credited, or transferred to such Trust Fund.

(b) EXPENDITURES FROM POST-CLOSURE LIABILITY TRUST FUND.—Amounts in the Post-closure Liability Trust Fund shall be available only for the purposes described in sections 107(k) and 111(j) of this Act (as in effect on the date of the enactment of this Act).

(c) ADMINISTRATIVE PROVISIONS.—The provisions of sections 222 and 223 of this Act shall apply with respect to the Trust Fund established under this section, except that the amount of any repayable advances outstanding at any one time shall not exceed $200,000,000.

TITLE III—MISCELLANEOUS PROVISIONS

* * * * *

EFFECTIVE DATES, SAVINGS PROVISION

SEC. 302. (a) Unless otherwise provided, all provisions of this Act shall be effective on the date of enactment of this Act.

(b) Any regulation issued pursuant to any provisions of section 311 of the Clean Water Act which is repealed or superseded by this Act and which is in effect on the date immediately preceding the effective date of this Act shall be deemed to be a regulation issued pursuant to the authority of this Act and shall remain in full force and effect unless or until superseded by new regulations issued thereunder.

(c) Any regulation—

(1) respecting financial responsibility,

(2) issued pursuant to any provision of law repealed or superseded by this Act, and

(3) in effect on the date immediately preceding the effective date of this Act shall be deemed to be a regulation issued pursuant to the authority of this Act and shall remain in full force and effect unless or until superseded by new regulations issued thereunder.

(d) Nothing in this Act shall affect or modify in any way the obligations or liabilities of any person under other Federal or State law, including common law, with respect to releases of hazardous substances or other pollutants or contaminants. The provisions of this Act shall not be considered, interpreted, or construed in any way as reflecting a determination, in part or whole, of policy regarding the inapplicability of strict liability, or strict liability doctrines, to activities relating to hazardous substances, pollutants, or contaminants or other such activities.

EXPIRATION, SUNSET PROVISION

SEC. 303. Unless reauthorized by the Congress, the authority to collect taxes conferred by this Act shall terminate on September 30, 1985, or when the sum of the amounts received in the Treasury under section 4611 and under 4661 of the Internal Revenue Code of 1954 total $1,380,000,000, whichever occurs first. The Secretary of the Treasury shall estimate when this level of $1,380,000,000 will be reached and shall by regulation, provide procedures for the termination of the tax authorized by this Act and imposed under sections 4611 and 4661 of the Internal Revenue Code of 1954.

* * * * *

LEGISLATIVE VETO

SEC. 305. (a) Notwithstanding any other provision of law, simultaneously with promulgation or repromulgation of any rule or regulation under authority of title I of this Act, the head of the department, agency, or instrumentality promulgating such rule or regulation shall transmit a copy thereof to the Secretary of the Senate and the Clerk of the House of Representatives. Except as provided in subsection (b) of this section, the rule or regulation shall not become effective, if—

(1) within ninety calendar days of continuous session of Congress after the date of promulgation, both Houses of Congress adopt a concurrent resolution, the matter after the resolving clause of which is as follows: "That Congress disapproves the rule or regulation promulgated by the dealing with the matter of , which rule or regulation was transmitted to Congress on .", the blank spaces therein being appropriately filled; or

(2) within sixty calendar days of continuous session of Congress after the date of promulgation, one House of Congress adopts such a concurrent resolution and transmits such resolution to the other House, and such resolution is not disapproved by such other House within thirty calendar days of continuous session of Congress after such transmittal.

(b) If, at the end of sixty calendar days of continuous session of Congress after the date of promulgation of a rule or regulation, no committee of either House of Congress has reported or been discharged from further consideration of a concurrent resolution disapproving the rule or regulation and neither House has adopted such a resolution, the rule or regulation may go into effect immediately. If, within such sixty calendar days, such a committee has reported or been discharged from further consideration of such a resolution, or either House has adopted such a resolution, the rule or regulation may go into effect not sooner than ninety calendar days of continuous session of Congress after such rule is prescribed unless disapproved as provided in subsection (a) of this section.

(c) For purposes of subsections (a) and (b) of this section—

(1) continuity of session is broken only by an adjournment of Congress sine die; and

(2) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of thirty, sixty, and ninety calendar days of continuous session of Congress.

d) Congressional inaction on, or rejection of, a resolution of disapproval shall not be deemed an expression of approval of such rule or regulation.

* * * * *

SEC. 308. If any provision of this Act, or the application of any provision of this Act to any person or circumstance, is held invalid, the application of such provision to other persons or circumstances and the remainder of this Act shall not be affected thereby.

Approved December 11, 1981

House Report No. 96-1016 Part II 2d Session

[Bracketed numerals indicate official report page numbers]

HAZARDOUS WASTE CONTAINMENT ACT OF 1980

JUNE 20, 1980.

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 7020.[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 7020) to amend the Solid Waste Disposal Act to provide authorities to respond to releases of hazardous waste from inactive hazardous waste sites which endanger public health and the environment, to establish a Hazardous Waste Response Fund to be funded by a system of fees, to establish prohibitions and requirements concerning inactive hazardous waste sites, to provide for liability of persons responsible for releases of hazardous waste at such sites, and for other purposes, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment is a new title to be added at the end of the amendment in the nature of a substitute recommended by the Committee on Interstate and Foreign Commerce, and appears in the reported bill in boldface roman type.

[1] Public Law 96-510, page 589.

WAYS AND MEANS COMMITTEE AMENDMENT TO H.R. 7020, THE HAZARDOUS WASTE CONTAINMENT ACT

H.R. 7020, the Hazardous Waste Containment Act, has been considered and reported favorably by the Committee on Interstate and Foreign Commerce (H. Rept. 96-1016, part I). H.R. 7020 then was referred sequentially to the Committee on Ways and Means for consideration of the revenue aspects of this legislation, which properly fall within the jurisdiction of the Committee on Ways and Means. Specifically, the Committee on Ways and Means considered the revenue issues related to the establishment of taxes on crude oil, petrochemical feedstocks, and certain specified inorganic chemicals for use to provide revenues to clean up discharges of oil and hazardous substances in inactive waste sites. As a result of this consideration, the Committee on Ways and Means favorably reports H.R. 7020 with a committee amendment in the form of a new title.

[2] I. SUMMARY

The Ways and Means Committee amendment to H.R. 7020 imposes excise taxes on crude oil, specified petrochemical feedstocks, and specified inorganic substances. These excise taxes are expected to raise $35 million a year from oil, $108 million a year from petrochemical feedstocks, and $36 million a year from inorganic substances. Revenues from these taxes are to be deposited into a "Hazardous Waste Response Trust Fund," the proceeds of which can be used to finance the costs of containing or cleaning up waste from inactive hazardous waste sites which are causing or threatening to cause harm to the public health and environment.

These excise taxes are to be imposed for the period October 1, 1980 through September 30, 1985. Payments out of the Trust Fund are prohibited after September 30, 1985, unless further action is taken by the Congress.

In addition, the committee amendment provides for a study by the Secretary of the Treasury, in consultation with the Environmental Protection Agency, the Department of Commerce and the Office of the United States Trade Representative, on various aspects of the taxes imposed under the amendment. The Secretary of the Treasury is to report to the Congress by January 1, 1985.

[3] II. EXPLANATION OF WAYS AND MEANS COMMITTEE AMENDMENT TO H.R. 7020

A. Present Law

Excise taxes

Under present law, excise taxes are imposed upon the manufacture, production, removal, sale, supply, or use of various items or services. In some instances, revenues from these taxes are deposited into specially designated trust funds. Examples of such earmarked excise taxes and designated trust funds include the Black-lung coal tax (Code sec. 4121), which is deposited into the Black Lung Disability Trust Fund, aviation-related taxes (e.g., Code secs. 4261, 4271), which are deposited into the Airport and Airway Trust Fund, highway-related taxes (e.g., Code secs. 4041 and 4081 (fuels), 4071 (tires, etc.)) which are deposited into the Highway Trust Fund and inland waterway taxes (Code sec. 4042) which are deposited into the Inland Waterways Trust Fund.

Under present law, there is no general excise tax imposed with respect to substances, such as crude oil, petrochemical feedstocks, and inorganic chemicals, which may cause environmental pollution or other damage. However, charges (fees) are imposed under present law on oil produced on the Outer Continental Shelf and on Alaskan North Slope oil transported through the Trans-Alaska Pipeline System (TAPS).

Funds

Present law contains no specially designated trust fund, supported by taxes and appropriations, which is intended to provide monies for cleanup of all types of environmentally hazardous releases from inactive waste sites. However, there are various Federal and State funds designed to accomplish these purposes as to specific locations, damages or losses, and certain types of releases, spills, discharges and pollution. Some of these funds, and related provisions, are described below.

Federal Water Pollution Control Act ("Clean Water Act"), Section 311.

Section 311 of the Federal Water Pollution Control Act (33 U.S.C. 1331) establishes a $35 million revolving fund maintained by fines, penalties and appropriations of general revenue. The fund may be used for cleanup of releases of oil and designated hazardous substances into navigable waters and restoration of accompanying natural resources. The Act also establishes certain rules pertaining to responsibility for cleanup expenses, and authorizes the fund to seek reimbursement from parties who release oil or designated hazardous substances into navigable waters.

Resource Conservation and Recovery Act.

The Resource Conservation and Recovery Act provides for the regulation and control of the generation, treatment and disposal of hazardous wastes. Permits are required for treatment or storage facilities. [4] The Environmental Protection Agency may sue to require cleanup of an inactive disposal site if the site is posing an imminent and substantial hazard to public health. However, this provision does not provide funds for cleanup of inactive sites when the owner is unknown, is not responsible, or is financially unable to pay for these costs.

[5] B. Reasons for Change

The Committee on Ways and Means believes that it is important to establish a readily available source of funds to respond to releases of hazardous waste from inactive waste sites which endanger public health and the environment. The committee recognizes that the United States Government must bear some of the costs incurred for this purpose. However, it also believes that these costs generally should be borne by the party responsible for the waste, and alternatively by the industries which create the items most frequently located in inactive waste sites.

To accomplish these goals, the commitee has decided that is is appropriate to impose excise taxes on certain items which may result in environmentally hazardous pollution from inactive waste sites or which are used to produce hazardous material. The committee also has decided that revenues from these taxes should be earmarked for inclusion in a newly constituted trust fund for payment of cleanup costs for hazardous waste sites. Because the precise scope of the hazardous waste site problem and the financial cost of the remedy are not readily ascertainable, the committee has decided to terminate the taxes and spending from the trust fund at the end of September 1985 (fiscal year 1985) so that Congress may reexamine the situation.

[6] C. Explanation of Provisions

1. Environmental excise taxes

a. Petroleum tax (Sec. 211 of the amendment and new secs. 4611-4612 of the Code)

The committee amendment imposes a specific excise tax (the "petroleum tax") of 0.6 cents a barrel on domestic crude oil and on petroleum products (including crude oil) entering the United States. The tax on domestic crude oil is imposed on the operator of any United States refinery receiving such crude oil. For this purpose, as under existing Treasury regulations, refining is defined as any operation by

which the physical or chemical characteristics of crude oil or its products are changed, exclusive of such operations as passing crude oil through separators or placing crude oil in settling tanks.

If crude oil is used in, or exported from, the United States before imposition of the petroleum tax, then the user or exporter of the oil is subject to that tax to the same extent as it would have been imposed had a United States refiner received the oil. The committee amendment defines oil subject to tax as crude oil, including crude oil condensate and natural gasoline, but not other natural gas liquids. Thus, the term crude oil also does not include butane, ethane, or propane recovered from a natural gas stream; butane, however, is taxed as a specified petrochemical feedstock under the chemical tax described below. Moreover, taxable crude oil does not include oil used for extraction purposes on the premises where it was produced, such as for powerhouse fuel or for reinjection as part of a tertiary recovery process. In addition, the term crude oil does not include synthetic petroleum, e.g., shale oil, liquids from coal, tar sands, or biomass, or refined oil.

Petroleum products entered into the United States for consumption, use or warehousing, are subject to a tax of 0.6 cents a barrel. This tax is imposed upon the person who enters such products. Generally, the term petroleum products include crude oil, crude oil condensate, natural and refined gasoline, refined and residual oil, and any other hydrocarbon product derived from crude oil or natural gasoline which enters the United States in liquid form. For puroses of determining whether crude oil or petroleum products have been produced in, entered into, or exported from the United States, the term United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any possession of the United States. The United States also includes the Outer Continental Shelf areas and foreign trade zones located within the United States. There is no exception for bonded petroleum products.

In the case of areas which are not subject to the general United States customs laws, an "entry" has occurred at any time that such an event would have occurred if the customs laws were applicable to [7] that area. However, an "entry" is deemed to have occurred in the case of fuel stores on a ship or the casual use of items such as fuel in an automobile's gas tank.

In the case of refiners that recover natural gasoline, the gasoline so recovered is treated as received by that refiner at the time it is recovered. If natural gasoline is recovered in a gas separation plant rather than at a refinery, the tax is imposed when the gasoline is received at a refinery or when it is used or exported without passing through a refinery. Thus, a refiner must pay the same tax whether it purchases natural gasoline or wet gas from which it recovers natural gasoline.

The committee amendment also provides that the petroleum tax is imposed only once (under new Code section 4611) with respect to any petroleum product. Anyone who otherwise is liable for the tax may establish that it already has been imposed with respect to that product.

The committee amendment contains no special administrative or compliance provisions relating to the petroleum tax. Instead, the existing rules relating to excise taxes apply. Thus, the Internal Revenue Service has its full range of administrative and compliance powers available in administering and collecting the tax. Similarly, the penalties contained in existing law apply, as apropriate, to the petroleum tax.

Effective date

The petroleum excise tax imposed by the committee amendment applies for the period October 1, 1980, through September 30, 1985.

b. Chemical tax (Sec. 211 of the amendment and new secs. 4661-4662 of the Code)

The commitee amendment imposes specific excise taxes (the "chemical tax") on specied petrochemical feedstocks and on specified inorganic substances. The tax, which is similar to existing excise taxes, is imposed on any taxable chemical sold by the taxpayer, i.e., the manufacturer, producer, or importer of the chemical. If the taxpayer uses a taxable chemical prior to its sale the tax is imposed as if the chemical had been sold.

The chemical tax on specified petrochemical feedstocks is $2.54 a ton. The feedstocks subject to tax are: ethylene, propylene, butylene, butadiene, butane, benzene, toluene, xylene, naphthalene, and methane. These feedstocks are subject to the chemical tax regardless of the source from which the feedstock is derived. As a result feedstocks derived from synthetic petroleum are subject to the chemical tax.

There is no exemption from the chemical tax for petrochemical feedstocks used as fuel. Because petroleum fuels typically pass through the hands of numerous persons before they are burned by the ultimate consumer, it is unclear how such an exemption could be effectively administered. The cost of documenting ultimate fuel use under such circumstances might well cost more than the taxes saved. The committee amendment does require the Secretary of the Treasury to study the feasibility of providing an exemption for petrochemical feedstocks which are used as fuel.

[8] The tax on specified inorganic substances subject to the tax are:

(A) arsenic and the equivalent weight of arsenic in arsenic trioxide;

(B) cadmium;

(C) chromium and the equivalent weight of chromium in chromite, sodium dichromate, and potassium dichromate;

(D) lead and the equivalent weight of lead in lead oxide;

(E) mercury;

(F) the equivalent weight of barium in barium sulfide;

(G) antimony and the equivalent weight of antimony in antimony trioxide and antimony sulfide;

(H) cobalt;

(I) nickel;

(J) the equivalent weight of tin in stannic chloride and stannous chloride;

(K). chlorine;

(L) the equivalent weight of fluorine in hydrofluoric acid;

(M) bromine;

(N) the equivalent weight of hydrogen in phosphoric acid, sulfuric acid, hydrochloric acid, or nitric acid; and

(O) elemental phosphorus.

In the case of a taxable chemical which is a gas (e.g., methane), the tax is imposed on the number of cubic feet of such gas which is equivalent to 2000 lbs. on the basis of molecular weight.

The commitee amendment provides an exemption from the tax for chemicals which are used in producing fertilizer if the use occurs with the taxpayer or with the first or second purchaser of the chemical from the taxpayer. Subsequent purchasers of taxpaid chemicals used in producing fertilizer may obtain refunds of the tax paid on the item used.

The committee amendment also provides that the Secretary of the Treasury is to promulgate regulations necessary to avoid imposition of the chemical tax imposed by this Act more than once upon the same substances. Specifically, a system would be provided that if a taxable chemical is used to manufacture or produce a second taxable chemical, then a credit against the amount of tax on the second chemical would be permitted for the amount of tax imposed on the first substance.

For purposes of the chemical tax, an importer is anyone who enters taxable chemicals into the United States for consumption, use, or warehousing. For purposes of the chemical tax, the term United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, the Trust Territory of the Pacific, and any possession of the United States, as well as the Outer Continental Shelf and any foreign trade zones of the United States. There are no exceptions for bonded items.

In the case of areas which are not subject to the general United States customs laws, an "entry" has occurred at any time that such an event would have occurred if the customs laws were applicable to that area. However, an "entry" is deemed not to have occurred in the case of fuel stores on a ship or the casual use of items such as fuel in an automobile's gas tank.

[9] The committee amendment contains no special administrative or compliance provisions relating to the chemical tax. Instead, the existing rules relating to excise taxes apply. Thus, the Internal Revenue Service has its full range of administrative and compliance powers available in administering and collecting the tax. Similarly, the penalties contained in existing law would apply, as appropriate, to the chemical tax.

Effective date

The chemical excise tax imposed by the committee amendment applies for the period October 1, 1980, through September 30, 1985.

Public Law 96-541
96th Congress, H.R. 6975 [1]
December 17, 1980

An Act to extend certain temporary tax provisions, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. 18-MONTH EXTENSION OF PROVISIONS RELATING TO EMPLOYMENT TAXES.

(a) IN GENERAL.—Subsection (a) of section 530 of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 119] (relating to termination of certain employment tax liability for periods before 1981) is amended—

(1) by striking out "January 1, 1981" in paragraphs (1)(A) and (3) and inserting in lieu thereof "July 1, 1982",

(2) by striking out "1981" in the subsection heading and inserting in lieu thereof "July 1, 1982", and

(3) by striking out "1979 and 1980" in the heading for paragraph (3) and inserting in lieu thereof "prior".

(b) PROHIBITION AGAINST REGULATIONS AND RULINGS ON EMPLOYMENT STATUS.—Subsection (b) of section

[1] Senate Report No. 96-1007, page 599. House Report No. 96-1108 is not published.

530 of the Revenue Act of 1978 [*supra* at 119] is amended by striking out "January 1, 1981" and inserting in lieu thereof "July 1, 1982".

SEC. 2. THREE-YEAR EXTENSION OF PROVISIONS RELATING TO HISTORIC PRESERVATION.

(a) AMORTIZATION OF CERTAIN REHABILITATION EXPENDITURES. — Section 191 of the Internal Revenue Code of 1954 (relating to amortization of certain rehabilitation expenditures for certified historic structures) is amended by redesignating subsection (g) as subsection (h) and by inserting after subsection (f) the following new subsection:

"(g) APPLICATION OF SECTION.— This section shall apply with respect to additions to capital account made after June 14, 1976, and before January 1, 1984.".

(b) DENIAL OF DEDUCTIONS FOR CERTAIN DEMOLITIONS.—Section 280B of such Code (relating to denial of deduction for demolition of certain historic structures) is amended by adding at the end thereof the following new subsection:

"(c) APPLICATION OF SECTION.— This section shall apply with respect to demolitions commencing after June 30, 1976, and before January 1, 1984.".

(c) DEPRECIATION OF IMPROVEMENTS.—Subsection (n) of section 167 of such Code (relating to depreciation of improvements) is amended by adding at the end thereof the following new paragraph:

"(4) APPLICATION OF SUBSECTION. —This subsection shall apply to that portion of the basis which is attributable to construction, reconstruction, or erection after December 31, 1975, and before January 1, 1984.".

(d) DEPRECIATION OF CERTAIN SUBSTANTIALLY REHABILITATED HISTORIC PROPERTY.—Subsection (o) of section 167 of such Code (relating to depreciation of substantially rehabilitated historic property) is amended by adding at the end thereof the following new paragraph:

"(3) APPLICATION OF SUBSECTION. —This subsection shall apply with respect to additions to capital account occurring after June 30, 1976, and before January 1, 1984.".

(e) CONFORMING AMENDMENT.— The following provisions of section 2124 of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 392] are hereby repealed:

(1) paragraph (4) of subsection (a),

(2) paragraph (3) of subsection (b),

(3) paragraph (2) of subsection (c), and

(4) paragraph (2) of subsection (d).

SEC. 3. TWO-YEAR EXTENSION OF PROVISION FOR 60-MONTH DEPRECIATION OF EXPENDITURES TO REHABILITATE LOW-INCOME RENTAL HOUSING.

Subsection (k) of section 167 of the Internal Revenue Code of 1954 (relating to depreciation of expenditures to rehabilitate low-income rental housing) is amended by striking out "January 1, 1984".

SEC. 4. TWO-YEAR EXTENSION OF CREDIT OR REFUND OF TAX ON FUELS USED IN CERTAIN TAXICABS.

Paragraph (3) of section 6427(e) of the Internal Revenue Code of 1954 (relating to termination of credit or refund of tax on fuels used in certain taxicabs) is amended by striking out "1980" and inserting in lieu thereof "1982".

SEC. 5. EXTENSION OF CERTAIN PROVISIONS RELATING TO EXCLUSION OF SCHOLARSHIP INCOME.

(a) FEDERAL GRANTS NOT INCLUDABLE IN GROSS INCOME MERELY BECAUSE THE RECIPIENT IS REQUIRED TO RENDER FUTURE SERVICE AS A FEDERAL EMPLOYEE.—

(1) IN GENERAL.—Section 117 of the Internal Revenue Code of 1954 (relating to scholarships and fellowship grants) is amended by adding at the end thereof the following new subsection:

"(c) FEDERAL GRANTS FOR TUITION AND RELATED EXPENSES NOT INCLUDABLE MERELY BECAUSE THERE IS REQUIREMENT OF FUTURE SERVICE AS FEDERAL EMPLOYEE.—

"(1) IN GENERAL.—If—

"(A) an amount received by an individual under a Federal program would be excludable under subsections (a) and (b) as a scholarship or fellowship grant but for the fact that the individual is required to perform future service as a Federal employee, and

"(B) the individual establishes that, in accordance with the terms of the grant, such amount was used for qualified tuition and related expenses,

gross income shall not include such amount.

"(2) QUALIFIED TUITION AND RELATED EXPENSES DEFINED.—For purposes of this subsection—

"(A) IN GENERAL. — The term 'qualified tuition and related expenses' means—

"(i) tuition and fees required for the enrollment or attendance of a student at an institution of higher education, and

"(ii) fees, books, supplies, and equipment required for courses of instruction at an institution of higher education.

"(B) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' means an educational institution in any State which—

"(i) admits as regular students only individuals having a certificate of graduation from a high school, or the recognized equivalent of such a certificate,

"(ii) is legally authorized within such State to provide a program of education beyond high school,

"(iii) provides an educational program for which it awards a bachelor's or higher degree, provides a program which is acceptable for full credit toward such a degree, or offers a program of training to prepare students for gainful employment in a recognized health profession, and

"(iv) is a public or other nonprofit institution.

"(3) SERVICE AS FEDERAL EM-

PLOYEE.—For purposes of this subsection, service in a health manpower shortage area shall be treated as service as a Federal employee.".

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to taxable years beginning after December 31, 1980.

(b) NATIONAL RESEARCH SERVICE AWARDS.—Paragraph (2) of section 161(b) of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 44] (relating to national research service awards) is amended by striking out "1980" and inserting in lieu thereof "1981".

SEC. 6. REVISING AND MAKING PERMANENT RULES ALLOWING DEDUCTION FOR CONTRIBUTIONS FOR CONSERVATION PURPOSES.

(a) IN GENERAL.—Paragraph (3) of section 170(f) of the Internal Revenue Code of 1954 (relating to denial of deduction in case of certain contributions of partial interests in property) is amended by striking out subparagraphs (B) and (C) thereof and inserting in lieu thereof the following new subparagraph:

"(B) EXCEPTIONS.—Subparagraph (A) shall not apply to—

"(i) a contribution of a remainder interest in a personal residence or farm,

"(ii) a contribution of an undivided portion of the taxpayer's entire interest in property, and

"(iii) a qualified conservation contribution.".

(b) QUALIFIED CONSERVATION CONTRIBUTION DEFINED.—Section 170 of such Code is amended by redesignating subsections (h) and (i) as subsections (i) and (j), respectively, and by inserting after subsection (g) the following new subsection:

"(h) QUALIFIED CONSERVATION CONTRIBUTION.—

"(1) IN GENERAL.—For purposes of subsection (f)(3)(B)(iii), the term 'qualified conservation contribution' means a contribution—

"(A) of a qualified real property interest,

"(B) to a qualified organization,

"(C) exclusively for conservation purposes.

"(2) QUALIFIED REAL PROPERTY INTEREST.—For purposes of this subsection, the term 'qualified real property interest' means any of the following interests in real property:

"(A) the entire interest of the donor other than a qualified mineral interest,

"(B) a remainder interest, and

"(C) a restriction (granted in perpetuity) on the use which may be made of the real property.

"(3) QUALIFIED ORGANIZATION.—For purposes of paragraph (1), the term 'qualified organization' means an organization which—

"(A) is described in clause (v) or (vi) of subsection (b)(1)(A), or

"(B) is described in section 501(c)(3) and—

"(i) meets the requirements of section 509(a)(2), or

"(ii) meets the requirements of section 509(a)(3) and is controlled by an organization described in subparagraph (A) or in clause (i) of this subparagraph.

"(4) CONSERVATION PURPOSE DEFINED.—

"(A) IN GENERAL.—For purposes of this subsection, the term 'conservation purpose' means—

"(i) the preservation of land areas for outdoor recreation by, or the education of, the general public,

"(ii) the protection of a relatively natural habitat of fish, wildlife, or plants, or similar ecosystem,

"(iii) the preservation of open space (including farmland and forest land) where such preservation is—

"(I) for the scenic enjoyment of the general public, or

"(II) pursuant to a clearly delineated Federal, State, or local governmental conservation policy, and will yield a significant public benefit, or

"(iv) the preservation of an historically important land area or a certified historic structure.

"(B) CERTIFIED HISTORIC STRUCTURE.—For purposes of subparagraph (A)(iv), the term 'certified historic structure' means any building, structure, or land area which—

"(i) is listed in the National Register, or

"(ii) is located in a registered historic district (as defined in section 191(d)(2)) and is certified by the Secretary of the Interior to the Secretary as being of historic significance to the district.

A building, structure, or land area satisfies the preceding sentence if it satisfies such sentence either at the time of the transfer or on the due date (including extensions) for filing the transferor's return under this chapter for the taxable year in which the transfer is made.

"(5) EXCLUSIVELY FOR CONSERVATION PURPOSES.—For purposes of this subsection—

"(A) CONSERVATION PURPOSE MUST BE PROTECTED.—A contribution shall not be treated as exclusively for conservation purposes unless the conservation purpose is protected in perpetuity.

"(B) NO SURFACE MINING PERMITTED.—In the case of a contribution of any interest where there is a retention of a qualified mineral interest, subparagraph (A) shall not be treated as met if at any time there may be extraction or removal of minerals by any surface mining method.

"(6) QUALIFIED MINERAL INTEREST.—For purposes of this subsection, the term 'qualified mineral interest' means—

"(A) subsurface oil, gas, or other minerals, and

"(B) the right to access to such minerals.".

(c) DEDUCTION FOR CONTRIBUTIONS FOR CONSERVATION PURPOSES MADE PERMANENT.—Section 309(b)(1) of the Tax Reduction and Simplification Act of 1977 [Pub. L. 95-30, 1977-1 C.B. 451, 468] and section 2124(e)(4) of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 396] are each amended by striking out, "and before June 14, 1981".

(d) EFFECTIVE DATE.—The amendments made by subsection (a) and (b) shall apply to transfers made after the date of the enactment of this Act in taxable years ending after such date.

Approved December 17, 1980.

Senate Report No. 96-1007 2d Session

[Bracketed numerals indicate official report page numbers]

TAX TREATMENT EXTENSION ACT OF 1980

SEPTEMBER 30 (legislative day, JUNE 12), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 6975.[1]

The Committee on Finance, to which was referred the bill (H.R. 6975) for the elimination of duties on wood veneers, having considered the same, reports favorably thereon with an amendment and recommends that the bill as amended do pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 6975, as it passed the House, would eliminate the duties on wood veneers.

Committee bill.—The committee amendment deletes the provision relating to the elimination of duties on wood veneers, and adds provisions extending the expiration dates of certain tax provisions, dealing with the tax treatment of certain Federal scholarship grants, and revising the rules allowing deductions for contributions made for conservation purposes.

I. SUMMARY

As passed by the House, this bill would eliminate the duties on wood veneers. In lieu of this provision (the substance of which was added by the committee to H.R. 5047), the committee added as an admendment in the nature of a substitute the following tax provisions.

SECTION 1. EMPLOYMENT TAX STATUS OF INDEPENDENT CONTRACTORS

In general, under present law, taxpayers who had a reasonable basis for not treating workers as employees in prior years may continue to do so for periods ending before January 1, 1981, without incurring employment tax liabilities. The bill would extend present law through June 30, 1982.

[2] SEC. 2. EXTENSION OF PROVISIONS RELATING TO HISTORIC PRESERVATION

Under present law, taxpayers may amortize over a 60-month period the capital expenditures incurred in a certified rehabilitation of a certified historic structure. Alternatively, taxpayers may use accelerated depreciation methods to depreciate substantially rehabilitated historic structures. In general, taxpayers may not deduct the costs of any loss sustained in the demolition of a certified historic structure or a structure located in a registered historic district. Present law also provides that accelerated depreciation methods may not be used with respect to real property constructed on a site that has been occupied by a certified historic structure (or by any structure in a registered historic district, except in limited circumstances) that has been demolished or substantially altered (other than by virtue of a certified rehabilitation). The bill would extend these provisions through December 31, 1983.

SEC. 3. 60-MONTH AMORTIZATION FOR EXPENDITURES TO REHABILITATE LOW-INCOME RENTAL HOUSING

Under present law, certain expenditures made to rehabilitate low-income rental housing may, at the election of the taxpayer, be depreciated over a 60-month period. Rehabilitation expenditures made pursuant to a binding contract entered into before January 1, 1982 qualify for this special treatment. The bill would extend this provision to any qualifying rehabilitation expenditures made through December 31, 1983 (including rehabilitations which had begun before that date and are still in process after that date).

SEC. 4. EXTENSION OF CREDIT OR REFUND OF TAX ON FUELS USED IN CERTAIN TAXICABS

Under present law, certain taxicab use of motor fuels is exempt (through refund or credit) from the 4-cents per gallon excise taxes on gasoline and other motor fuels. This exemption currently applies for calendar years 1979 and 1980. The bill would extend the present fuels tax exemption for qualified taxicab services through December 31, 1982.

SEC. 5. CERTAIN FEDERAL SCHOLARSHIP GRANTS AND NATIONAL RESEARCH SERVICE AWARDS

Present law generally excludes from gross income amounts received as scholarship or fellowship grants unless, as a condition to receiving such amounts, the recipient must agree to perform services for the grantor. In addition, temporary legislation provides tax-exempt treatment as scholarships or fellowships for National Research Service Awards made through 1980.

The bill, in general, would exclude from gross income scholarships received under Federal programs which require future Federal service by the recipients. In addition, the bill would extend the tax-exempt treatment of National Research Service Awards as scholarships or fellowships through 1981.

SEC. 6. DEDUCTIONS FOR CONTRIBUTIONS FOR CONSERVATION PURPOSES

This provision revises the provisions of current law allowing deductions for charitable contributions of easements and other partial interest in real estate contributed for conservation purposes. The provision would expand the types of partial interests which qualify to [3] include the entire interest of the donor in real property other than the rights to subsurface minerals. It also

[1] Public Law 96-541, page 596. This publication of the Senate Report is restricted to excerpts involving tax matters.

would limit contributions eligible for the deduction to those contributed to a governmental unit, publicly supported charitable organization, or an entity controlled by one of these two kinds of organizations. Conservation purposes, as amended by this provision, would be defined as: (1) the preservation of land areas for outdoor recreation by, or the education of, the general public; (2) the protection of a relatively natural habitat of fish, wildlife, or plants, or of a similar ecosystem; (3) the preservation of open space (including farmland and forest land) where such preservation is for the scenic enjoyment of the general public or pursuant to a clearly delineated Federal, State or local governmental policy and will yield a significant public benefit; or (4) the preservation of a historically important land area or a certified historic structure. Finally, the bill would make these provisions permanent.

II. EXPLANATION OF THE BILL

A. 18-Month Extension of Provisions Relating to Employment Status for Employment Taxes: Independent Contractor Interim Relief (sec. 1 of the bill)

Present law

The Revenue Act of 1978 provided interim relief for certain taxpayers involved in controversies with the IRS concerning the proper classification of workers for employment tax purposes. In general, the Act terminated taxpayers' potential liabilities for Federal income tax withholding, social security and FUTA taxes in cases where taxpayers have a reasonable basis for treating workers other than as employees. In addition, the Act prohibited the issuance of Treasury regulations and revenue rulings on common law employment status before 1980.

The temporary prohibition on reclassifications and the issuance of new rulings or regulations by the Internal Revenue Service was extended through December 31, 1980, by Public Law 96-167 [1980-1 C.B. 483].

Reasons for change

Because of the complexity of developing a permanent, substantive solution to the controversy about employment tax status rules, the committee believes the temporary, interim relief legislation should be extended to protect taxpayers until the Congress adopts new classification rules.

Explanation of provision

The bill extends the temporary interim relief legislation and the prohibition on the issuance of new rulings or regulations by the Internal Revenue Service for 18 months, through June 30, 1982.

Effective date

The bill will be effective upon enactment and will extend the present law relief provisions through June 30, 1982.

Revenue effect

The revenue effect of this provision cannot be estimated because the provisions affect IRS asserted employment tax liabilities which were [4] contested by taxpayers in both administrative and judicial proceedings.

B. Extension of Historic Structures Provisions (sec. 2 of the bill and secs. 167(n), 167(o), 191 and 280B of the Code)

Present law

In 1976, rules were enacted to create tax incentives for the preservation of historic structures and reduce the tax advantages of the demolition of historic structures and construction of replacement structures. These provisions expire in 1981.

Under one of the provisions, taxpayers may amortize over a 60-month period the capital expenditures incurred in a certified rehabilitation of a certified historic structure (Code sec. 191). This provision applies with respect to additions to capital account made after June 14, 1976, and before June 15, 1981. Alternatively, taxpayers may use accelerated depreciation methods to depreciate substantially rehabilitated historic structures (Code sec. 167(o)). This provision applies with respect to additions to capital account occurring after June 30, 1976, and before July 1, 1981.

In addition, taxpayers may not deduct (except under limited circumstances) the costs of or any loss sustained in the demolition of a certified historic structure or, except in limited circumstances, a structure located in a registered historic district (Code sec. 280B). This provision applies to demolitions commencing after June 30, 1976, and before January 1, 1981. Present law also provides that accelerated depreciation methods may not be used with respect to real property constructed on a site that has been occupied by a certified historic structure (or by any structure in a registered historic district, except in limited circumstances) that has been demolished or substantially altered (other than by virtue of a certified rehabilitation) (Code sec. 167(n)). This provision applies to that portion of the basis attributable to construction, reconstruction, or erection after December 31, 1975, and before January 1, 1981.

Reasons for change

The committee believes the preservation of historic structures is important, and preliminary data indicates that these provisions have encouraged the preservation of historic structures throughout the country. Therefore, the committee agreed to extend the provisions for three years, which will allow the Departments of Interior and Treasury to complete a study of the provisions currently in progress.

Explanation of bill

The bill extends through December 31, 1983, the sunset dates for provisions enacted in 1976 that encourage the preservation of historic structures (Code secs. 167(n), 167(o), 191, and 280B).

Effective date

The provisions in the bill will be effective upon enactment.

Revenue estimate

This provision is expected to reduce fiscal year budget receipts by $2 million in 1981, $21 million in 1982, $66 million in 1983, $111 million in 1984, and $131 million in 1985.

[5] *C. Five-Year Amortization for Low-Income Rental Housing (sec. 3 of the bill and sec. 167(k) of the Code)*

Present law

Under the Code, special depreciation rules are provided for expenditures to rehabilitate low-income rental housing (sec. 167(k)). Low-income rental housing includes buildings or other structures that are used to provide living accommodations for families and individuals of low or moderate income. Occupants of a dwelling unit are considered families and individuals of low or moderate income only if their income does not exceed certain limits, as determined by the Secretary of Treasury in a manner consistent with the limits established for the Leased Housing Program under section 8 of the United States Housing Act of 1937, as amended.

Under the special depreciation rules for low-income rental property, taxpayers can elect to compute depreciation on certain rehabilitation expenditures under a straight-line method over a period of 60 months if the additions or improvements have a useful life of 5 years or more. Under present law, only the aggregate rehabilitation expenditures for any housing which do not exceed $20,000 per dwelling unit qualify for the 60-month depreciation. In addition, for the 60-month depreciation to be available, the sum of the rehabilitation expenditures for 2 consecutive taxable years—including the taxable year—must exceed $3,000 per dwelling unit.

Reasons for change

The special tax incentive for rehabilitation expenditures for low- and moderate-income rental housing under present law expires on December 31, 1981. In order to avoid discouraging this rehabilitation, the committee believes that the special depreciation provision for low-income rental housing should be extended for an additional two years.

Explanation of provision

The bill provides a two-year extension of the special 5-year depreciation rule for expenditures to rehabilitate low-income rental housing. Under the bill, rehabilitation expenditures that are made pursuant to a binding contract entered into before January 1, 1984, will qualify for the 5-year depreciation rule even though the expenditures actually are made after December 31, 1983.

Effective date

The two-year extension applies to expenditures paid or incurred with respect to low- and moderate-income rental housing after December 31, 1981, and before January 1, 1984 (including expenditures made pursuant to a binding contract entered into before January 1, 1984).

Revenue effect

This provision will have no effect on budget receipts in fiscal year 1981 but will reduce them by $1 million in fiscal year 1982, $8 million in 1983, $18 million in 1984, and $26 million in 1985.

[6] *D. Two-Year Extension of Fuels Tax Exemption for Certain Taxicabs (sec. 4 of the bill and sec. 6427(e) of the Code)*

Present law

Under present law (enacted in the Highway Revenue Act of 1978 [Pub. L. 95-599, 1978-2 C.B. 403]), certain taxicab use of motor fuels is exempt (through refund or credit) from the 4 cents a gallon excise tax on gasoline and other motor fuels. The fuel is exempt if (1) taxicabs are not prohibited from ride sharing (under company policy or the rules of a Federal, State or local authority having jurisdiction over a substantial portion of the transportation) and (2) for 1978 and later model taxicabs acquired after 1978, the fuel economy of the model type of vehicle must exceed the fleet average fuel economy standard applicable under the Motor Vehicle Information and Cost Savings Act, as amended. However, the latter requirement does not apply to vehicles manufactured by certain small manufacturers (that is, those that produce less than 10,000 vehicles per year and which have been granted an exemption under section 502(c) of that Act).

A purchaser who uses the fuel for qualified taxicab services may file for a refund for the first three quarters of his taxable year if the refund of tax due is $50 or more as of the end of a quarter. Any amounts not otherwise refunded may be claimed as a credit on the purchaser's tax return.

The exemption applies for calendar years 1979 and 1980. Under the conference report for the Highway Revenue Act of 1978, a Treasury report is to be submitted concerning the effectiveness of the exemption in encouraging more energy-efficient taxicabs and in removing barriers to ride sharing.

Reasons for change

Due to time lags necessary to collect and evaluate data, the Treasury Department has not yet submitted its report on the effectiveness of this provision. Accordingly, the committee decided to extend this exemption for two years so that ample time would be available for the Treasury Department to collect data and for the Congress to evaluate thoroughly the effectiveness of this exemption.

Explanation of provision

The bill will extend the present fuels tax exemption for qualified taxicab services for two years, or through December 31, 1982.

Effective date

The bill applies to fuels used after December 31, 1980, and before January 1, 1983.

Revenue effect

It is estimated that this bill will reduce budget receipts by $10 million in fiscal year 1981, $30 million in fiscal year 1982, $20 million in fiscal year 1983, and a negligible amount thereafter. These receipts otherwise would remain in the Highway Trust Fund.

[7] *E. Extension of Certain Provisions Relating to Exclusion of Scholarship Income (sec. 5 of the bill and sec. 117 of the Code)*

Present law

Section 117 provides that amounts received as scholarships at educational institutions and up to $300 per month for 36 months of any amounts received as fellowship grants generally are excluded from gross income. This exclusion also applies to incidental amounts received to cover expenses for travel, research, clerical help, and equipment. However, the exclusion for scholarship and fellowship grants is restricted to educational grants by relatively disinterested grantors who do not require any significant consideration from the recipient. Educational grants are not excludable from gross income if they represent compensation for past, present, or future services, or if the studies or research are primarily for the benefit of the grantor or are under the supervision of the grantor (Treas. Reg. § 1.117.4(c)).

Special legislation provides that members of a uniformed service participating in the Armed Forces Health Professions Scholarship Program, the Public Health Services Program, and similar programs may exclude from gross income amounts received as scholarships under these programs. Participants in these programs must agree to work for their funding service after completion of their studies. This temporary exclusion will not apply to scholarships awarded students entering these programs after December 31, 1980.

Under a separate provision applicable to National Research Service Awards made through 1980, the recipients of such awards may treat them as excludable scholarships or fellowships.

Reasons for change

The committee believes that Federal awards granted in return for future services generally should be excludable to the extent they are used for direct educational expenses. The committee believes that the temporary special tax rules governing National Research Service awards should be extended for another year so that appropriate permanent rules for their treatment can be developed.

Explanation of the bill

General rule.—The bill provides that an amount which is received by an individual as a grant under a Federal program and which would be excludable from gross income as a scholarship or fellowship grant, but for the fact that the recipient must perform future service as a Federal employee, is not includable in gross income if the individual establishes that the amount was used for qualified tuition and related expenses.

The excludable qualified tuition and related expenses are the amount used for tuition and fees required for the enrollment or attendance of the student at an institution of higher education and for fees, books, supplies, and equipment required for courses of instruction at that institution.

[8] The bill defines an "institution of higher education" as a public or other nonprofit educational institution in any State which: (1) admits as regular students only individuals who have a certificate of graduation from a high school (or the recognized equivalent of such a certificate); (2) is legally authorized within the State to provide a program of education beyond high school; and (3) provides an educational program for which it awards a bachelor's or higher degree, provides a program which is acceptable for full credit toward such a degree, or offers a program of training to prepare students for gainful employment in a recognized health profession.

National Research Service Awards.—The bill extends for one year the temporary treatment of National Research Service Awards as excludable scholarships or fellowships.

Effective date

The exclusion provided for Federal grants requiring future services applies to taxable years beginning after December 31, 1980.

The extension of the special provision for National Research Service Awards applies to awards made during calendar year 1981.

Revenue effect

The exclusion from gross income for amounts received as scholarships under the Armed Forces Health Professions Scholarship Program, the Public Health Services Program and similar programs will reduce budget receipts by $3 million in fiscal year 1981, $8 million in fiscal year 1982, $14 million in fiscal year 1983, $20 million in fiscal year 1984, and $24 million in fiscal year 1985.

It is estimated that the one-year extension for National Research Service Awards will reduce budget receipts by less than $1 million in fiscal year 1981, $8 million in fiscal year 1982, $8 million in fiscal year 1983, and less than $5 million in fiscal year 1984.

F. Charitable Deduction for Certain Contributions of Real Property for Conservation Purposes (sec. 6 of the bill and sec. 170 of the Code)

Present law

As a general rule, a deduction is not allowed for income, estate, or gift tax purposes for contributions to charity of less than the taxpayer's entire interest in the contributed property. This restriction was enacted by Congress in the Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10] to prevent certain tax-avoidance transactions in which the taxpayer could obtain a deduction for a gift to a charity of the use of part of his property. Exceptions allowing deductions for charitable

contributions of partial interests in property were provided in the 1969 Act for the contribution of (1) a remainder interest in a personal residence or farm; (2) an undivided portion of the taxpayer's entire interest in the property; (3) certain interests in trust; and (4) interests not transferred in trust that would be deductible if made in trust (Code secs. 170(f), 2055(e)(2), and 2522(c)(2)).

The Conference Report on the Tax Reform Act of 1969 [Conf. Rept. 91-782, 1969-3 C.B. 644] states that a gift of an open space easement in gross is to be considered a gift of an undivided interest in property if the easement is in perpetuity. On the basis of that Conference Report language, the Internal Revenue Service issued Regulations providing that a deduction would be al-[9]lowed for the value of a restrictive easement gratuitously conveyed to a charitable organization in perpetuity whereby the donor agrees to restrictions on the use of his property, such as restrictions on the type and height of buildings that may be erected, the removal of trees, the erection of utility lines, the dumping of trash, and the use of signs (Treas. Reg. § 1.170A-7(b)(1)(ii)). In addition, the IRS has issued public rulings allowing deductions, under the undivided interest exception, for contributions of certain kinds of perpetual easements, including open space, historical, and recreational easements.[1] The undivided interest exception did not, however, extend to situations where taxpayers transferred their fee interest in property to a charitable organization while retaining valuable mineral rights.[2]

Explicit statutory exceptions for charitable contributions made "exclusively for conservation purposes" were provided in the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1] (and modified by the Tax Reduction and Simplification Act of 1977 [Pub. L. 95-30, 1977-1 C.B. 451]). Under these exceptions, a deduction is permitted for the contribution to a charitable organization, exclusively for conservation purposes, of (a) lease on, option to purchase, or easement with respect to real property granted in perpetuity or (b) a remainder interest in real property.[3] (Code secs. 170(f)(3)(B)(iii) and (iv).) The exceptions for these partial interests contributed for conservation purposes only apply to contributions made before June 14, 1981.

Regulations have not yet been promulgated under the explicit deductions for conservation easements added to the Code by the 1976 and 1977 Acts, and the Regulations promulgated under the Tax Reform Act of 1969 and in accordance with the Conference Report language are still outstanding (Treas. Reg. § 1.170A-7(b)(1)(ii)). It is unclear whether Congress intended the statutory provisions enacted in 1976 and modified in 1977 to supersede the statements made in the 1969 Conference Report.

Reasons for change

The committee believes that the preservation of our country's natural resources and cultural heritage is important, and the committee recognizes that conservation easements now play an important role in preservation efforts. The committee also recognizes that it is not in the country's best interest to restrict or prohibit the development of all land areas and existing structures. Therefore, the committee believes that provisions allowing deductions for conservation easements should be directed at the preservation of unique or otherwise significant land areas or structures. Accordingly, the committee has agreed to extend the expiring provisions of present law on a permanent basis and modify those provisions in several respects.

In particular, the committee found it appropriate to expand the types of transfers which will qualify as deductible contributions in certain cases where the contributions are likely to further significant conservation goals without presenting significant potential for abuse. In [10] addition, the committee bill would restrict the qualifying contributions where there is no assurance that the public benefit, if any, furthered by the contribution would be substantial enough to justify the allowance of a deduction. In addition, the committee decided that the treatment of open space easements should be clarified.

Explanation of provision

Qualified real property interests

Under the bill, the types of partial interests which may qualify as a deductible conservation contribution are expanded to include the contribution of a taxpayer's entire interest in real property other than his interest in subsurface oil, gas, or other minerals and the right of access to such minerals. The committee intends that a contribution will not qualify under this new provision if the donor has reduced his "entire interest in real property" before the contribution is made by, for example, transferring part of his interest in the real property to a related person in order to retain control of more than a qualified mineral interest in the real property or reduce the real property interest donated.[4]

The types of partial interests which may qualify for a charitable deduction are also modified by replacing the present category covering a lease on option to purchase, or easement on real property granted in perpetuity with a general category covering "a restriction (granted in perpetuity) on the use which may be made of the real property." This new language would cover easements and other interests in real property that under State property laws have similar attributes (e.g., a restrictive covenant). The bill does not

[3] Prior to their modification by the 1977 Act, the provisions added by the 1976 Act also allowed deductions for term easements having a duration of at least 30 years.

[4] See e.g., Treas. Reg. § 1.170A-7(a)(2)(i).

modify the other category of partial interests, remainder interests in real property, which may qualify for a deductible conservation contribution.

Conservation purpose

The bill revises in several respects the present definition of conservation purposes. The bill defines the term "conservation purpose" to include four objectives. Although many contributions may satisfy more than one of these objectives (it is possible, for example, that the protection of a wild and scenic river could further more than one of the objectives), it is only necessary for a contribution to further one of the four.

First, conservation purpose includes the preservation of land areas for outdoor recreation by the general public or for the education of the general public. Thus, conservation purposes would include, for example, the preservation of a water area for the use of the public for boating or fishing, or a nature or hiking trail for the use of the public.

Second, conservation purpose includes the protection of a relatively natural fish, wildlife or plant habitat, or similar ecosystem. Under this provision, a contribution would be considered to be made for conservation purposes if it will operate to protect or enhance the viability of an area or environment in which a fish, wildlife, or plant community normally lives or occurs. It would include the preservation of a habitat or environment which to some extent had been altered by human activity if the fish, wildlife, or plants exist there in a relatively natural state; for example, the preservation of a lake formed by a man-made [11] dam or a salt pond formed by a man-made dike if the lake or pond is a natural feeding area for a wildlife community that includes rare, endangered or threatened native species. The committee intends that contributions for this purpose will protect and preserve significant natural habitats and ecosystems, in the United States. Examples include habitats for rare, endangered, or threatened native species of animals, fish or plants; natural areas that represent high quality examples of a native ecosystem terrestrial community, or aquatic community; and natural areas which are included in, or which contribute to the ecological viability of a local, state, or national park, nature preserve, wildlife refuge, wilderness area or other similar conservation area. These natural habitats and ecosystems might be protected by easements or other restrictions regarding, for example, the development or use of property that would affect the habitat or ecosystem to be protected.

Third, conservation purposes would include the preservation of open space (including farmland and forest land) where such preservation (1) is for the scenic enjoyment of the general public and will yield a significant public benefit or (2) is pursuant to a clearly delineated Federal, State, or local governmental conservation policy and will yield a significant public benefit. The requirements of this conservation purpose are intended to insure that deductions are permitted only for open space easements that provide significant benefits to the public. The bill permits a deduction for an open space easement only if it meets the requirements imposed by this provision. Thus, a deduction for an open space easement in gross is not allowable under the undivided portion exception in Code section 170(f)(3)(B)(ii).

To satisfy the requirement of scenic enjoyment by the general public, visual, not physical, access by the general public to the property is sufficient. Thus, preservation of land may be for the scenic enjoyment of the general public if development of the property would interfere with a scenic panorama that can be enjoyed from a park, nature preserve, road, waterbody, trail, historic structure or land area, and such area or transportation way is open to, or utilized by, the public.

Open space easements also may qualify even if the property has no significant scenic value as long as the preservation or conservation of the property is pursuant to a clearly delineated Federal, State, or local governmental preservation or conservation policy. This provision is intended to protect the types of property identified by representatives of the general public as worthy of preservation or conservation. For example, this requirement would be satisfied by a Federal executive order pursuant to a Federal statute establishing a conservation program or a state statute or local ordinance establishing a funded conservation program for a scenic river or other identified conservation project. A program need not be funded to satisfy this requirement, but the program must involve a significant commitment by the government with respect to the conservation project. A broad declaration by a single official, (for example, a county executive) or a legislative body, for example (a state legislature), that land should be conserved is not sufficient, but the governmental conservation policy need not be a certification program that identifies particular lots or small parcels of individually owned property.

[12] All contributions made for the preservation of open space must yield a significant public benefit. Public benefit will be evaluated by considering all information germane to the contribution; factors germane to the evaluation of public benefit from one contribution may be irrelevant in determining public benefit from another contribution. Factors that may be considered include (but are not limited to) the following:

(1) the uniqueness of the property;

(2) the intensity of land development in the vicinity of the property (both existing development and foreseeable trends of development);

(3) the consistency of the proposed open space use with public programs (whether Federal, State, or local) for conservation in the region, including programs for water supply protection, water quality maintenance or enhancement, flood prevention and control, erosion control, shoreline protection, and protection of land areas included in, or related to, a government approved master plan or land management area; and

(4) the opportunity for the general public to enjoy the use of the property or to appreciate its scenic values.

The preservation of an ordinary tract of land would not, in and of itself, yield a significant public benefit, but the preservation of ordinary land areas in conjunction with other factors that demonstrate significant public benefit or the preservation of a unique land area for public enjoyment would yield a significant public benefit. For example, the preservation of a vacant downtown lot would not by itself yield a significant public benefit, but the preservation of the downtown lot as a public garden would, absent countervailing factors, yield a significant public benefit. The following are other examples of contributions which would, absent countervailing factors, yield a significant public benefit: (1) the preservation of farmland pursuant to a State program for flood prevention and control; (2) the preservation of a unique natural land formation for the enjoyment of the general public; (3) the preservation of woodland along a Federal highway pursuant to a government program to preserve the appearance of the area so as to maintain the scenic view from the highway; and (4) the preservation of a stretch of undeveloped oceanfront property located between a public highway and the ocean so as to maintain the scenic ocean view from the highway.

Finally, conservation purpose also includes the preservation of an historically important land area or a certified historic structure. The term "historically important land area" is intended to include independently significant land areas (for example, a civil war battlefield) and historic sites and related land areas, the physical or environmental features of which contribute to the historic or cultural importance and continuing integrity of certified historic structures such as Mount Vernon, or historic districts, such as Waterford, Virginia, or Harper's Ferry, West Virginia. For example, the integrity of a certified historic structure may be protected under this provision by perpetual restrictions on the development of such a related land area. The term "certified historic structure" for purposes of this charitable contribution deduction generally has the same meaning as in present Code section 191(d)(1) (dealing with 5-year amortization of expenditures incurred in the rehabilitation of certified historic structures). However, [13] a "structure" for this purpose means any structure whether or not it is depreciable. Thus, for example, easements on private residences may qualify under this provision. In addition, a structure would be considered to be a certified historic structure if it satisfied the certification requirements either at the time the transfer was made or at the due date (including extensions) for filing the donor's return for the year in which the contribution was made.

In view of the need of potential donors to be secure in their knowledge that a contemplated contribution will qualify for a deduction, the committee expects that taxpayers may obtain a prior administrative determination as to whether the contemplated contribution will be considered to have been made for a qualifying conservation purpose. In addition, the committee expects that regulations under this section will be classified among those regulation projects having the highest priority, and that, to the extent possible, issues that may arise in the interpretation of the statute will be resolved before publication of regulations by the issuance of administrative determinations.

Exclusively for conservation purposes

The bill retains the present law requirement that contributions be made "exclusively for conservation purposes." Moreover, the bill explicitly provides that this requirement is not satisfied unless the conservation purpose is protected in perpetuity. The contribution must involve legally enforceable restrictions on the interest in the property retained by the donor that would prevent uses of the retained interest inconsistent with the conservation purposes. In the case of a contribution of a remainder interest, the contribution will not qualify if the tenants, whether they are tenants for life or a term of years, can use the property in a manner that diminishes the conservation values which are intended to be protected by the contribution.

In addition, this requirement is not met if the contribution would accomplish one of the enumerated conservation purposes, but would allow uses of the property that would be destructive of other significant conservation interests. For example, the preservation of farmland would not qualify under the open space purpose if a natural ecosystem has been or, under the terms of the contribution, can be significantly injured or destroyed by the use of pesticides in the operation of the farm. This requirement is not intended to prohibit uses of the property, such as the selective cutting of timber or farming, if under the circumstances they are not destructive of significant conservation interests.

In the case of a qualified mineral interest gift, the requirement that the conservation purpose be protected in perpetuity is not satisfied if any method of mining, removal, or extraction that is inconsistent with the particular conservation purposes of a contribution is permitted at any time. Some methods of mining, removal, or extraction may have temporary, localized impact on the real property contributed that is not destructive of significant conservation interests, and this requirement may be satisfied even though such methods are permitted. In addition, the bill specifically states that this requirement is not met if at any time the minerals may be removed or extracted by any surface mining method.

[14] By requiring that the conservation purpose be protected in perpetuity, the committee intends that the perpetual restrictions must be enforceable by the donee organization (and successors in interest) against all other parties in interest (including successors in interest). Generally, the committee contemplates that the restrictions would be recorded. The committee does not, by the requirement that the conservation purpose

be protected in perpetuity, intend that a recipient of a conservation contribution must set aside funds for the enforcement of the contribution.

The committee does intend, however, to limit the deduction only to those cases where the conservation purposes will in practice be carried out. The committee contemplates that the contributions will be made to organizations which have the commitment and the resources to enforce the perpetual restrictions and to protect the conservation purposes. The requirement that the conservation purpose be protected in perpetuity also is intended to limit deductible contributions to those transfers which require that the donee (or successor in interest) hold the conservation easement (or other restriction) or other property interests exclusively for conservation purposes (i.e., that they not be transferable by the donee except to other qualified organizations that also will hold the perpetual restriction or property exclusively for conservation purposes).

Qualified organizations

In general, the bill restricts eligible recipients of contributions of partial interests for conservation purposes to governments and publicly supported charities. Thus, a governmental unit (described in Code sec. 170(b)(1)(A)(v)) would be an eligible recipient, as would a charitable organization (described in Code sec. 501(c)(3)) that is publicly supported within the meaning of either Code section 170(b)(1)(A)(vi) or Code section 509(a)(2). In addition, an organization that is not itself publicly supported but nevertheless is qualified as a "public charity" (under Code sec. 509(a)(3)) would be eligible if it is controlled by a government or publicly supported organization. Thus, for example, an organization created as a title-holding subsidiary of a public supported charitable organization would be an eligible recipient if it is controlled by the parent organization.

Valuation

In general, a deduction is allowed for a charitable contribution in the amount of the fair market value of the contributed property, defined as the price at which the property would change hands between a willing buyer and a willing seller. Thus, the amount of the deduction for the contribution of a conservation easement or other restriction is the fair market value of the interest conveyed to the recipient. However, because markets generally are not well established for easements or similar restrictions, the willing buyer/willing seller test may be difficult to apply (although it may become increasingly possible to determine the value of conservation easements by reference to amounts paid for such interests in easement acquisition programs as such programs increase). As a consequence, conservation easements are typically (but not necessarily) valued indirectly as the difference [15] between the fair market value of the property involved before and after the grant of the easement. (See Rev. Rul. 73-339, 1973-2 C.B. 68 and Rev. Rul. 76-376, 1976-2 C.B. 53). Where this test is used, however, the committee believes it should not be applied mechanically.

For example, where before and after valuation is used, the fair market value of the property before contribution of the easement should take into account not only the current use of the property but also an objective assessment of how immediate or remote the likelihood is that the property, absent the restriction, would be developed. Where applicable, valuation of the property before contribution should take into account zoning, conservation, or historic preservation laws that would restrict development of the property. Valuation of the transfer should take into account the impact of the transfer on the property, as in the case where restrictions on one parcel of property serve to increase the value of adjacent property. Also, there may be instances in which the grant of an easement may serve to enhance, rather than reduce, the value of property, and in such instances no deduction would be allowable; for example, where there is a premium in value on property of a historic nature. Similarly, in a case where the owners of a high-rise oceanfront condominium make a contribution of an open space easement that prohibits further development of the property between the high-rise structure and the shoreline but does not allow the public access to the beach and does not diminish the value of the property overall, there would be no deductible amount. (In this example, it is questionable, absent other considerations, whether the gift of such a beach easement with limited public scenic value and without public access to the beach would qualify under the requirements of the open space provision.) The committee also intends that, as the use of conservation easements increases, valuation would increasingly take into account the selling price value, in arm's-length transactions, of other properties burdened with comparable restrictions.

Study by Treasury

The committee found that it was hindered to some extent in its analysis of the present provisions relating to conservation contributions and its consideration of the proposed legislation by the absence of a comprehensive data base concerning the nature and scope of conservation easements and remainder interests. To permit Congress to evaluate more precisely the effectiveness of the conservation contribution provisions and the need, if any, to modify them at some future date, the committee requests that the Administration undertake a study on conservation easements and remainders to be submitted to Congress by 1985. The committee contemplates that, if possible, the Internal Revenue Service will devise a method by which to collect information on the number and characteristics of interests for which deductions are claimed under this section, possibly through the use of forms required to be submitted with the

tax return on which a deduction is claimed.

Effective date

The provisions of the bill apply to transfers made after the date of enactment in taxable years ending after such date.

Public Law 96-589
96th Congress, H.R. 5043 [1]
December 24, 1980

An Act to amend the Internal Revenue Code of 1954 to provide for the tax treatment of bankruptcy, insolvency, and similar proceedings, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS; AMENDMENT OF 1954 CODE.

(a) SHORT TITLE.—This Act may be cited as the "Bankruptcy Tax Act of 1980".

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents; amendment of 1954 Code.
Sec. 2. Tax treatment of discharge of indebtedness.
Sec. 3. Rules relating to title 11 cases for individuals.
Sec. 4. Corporate reorganization provisions.
Sec. 5. Miscellaneous corporate amendments.
Sec. 6. Changes in tax procedures.
Sec. 7. Effective dates.

(c) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. TAX TREATMENT OF DISCHARGE OF INDEBTEDNESS.

(a) AMENDMENT OF SECTION 108.—Section 108 (relating to discharge of indebtedness) is amended to read as follows:

"SEC. 108. INCOME FROM DISCHARGE OF INDEBTEDNESS.

"(a) EXCLUSION FROM GROSS INCOME.—

"(1) IN GENERAL.—Gross income does not include any amount which (but for this subsection) would be includible in gross income by reason of the discharge (in whole or in part) of indebtedness of the taxpayer if—

"(A) the discharge occurs in a title 11 case,

"(B) the discharge occurs when the taxpayer is insolvent, or

"(C) the indebtedness discharged is qualified business indebtedness.

"(2) COORDINATION OF EXCLUSIONS.—

"(A) TITLE 11 EXCLUSION TAKES PRECEDENCE. — Subparagraphs (B) and (C) of paragraph (1) shall not apply to a discharge which occurs in a title 11 case.

"(B) INSOLVENCY EXCLUSION TAKES PRECEDENCE over QUALIFIED BUSINESS EXCLUSION.—Subparagraph (C) of paragraph (1) shall not apply to a discharge to the extent that the taxpayer is insolvent.

"(3) INSOLVENCY EXCLUSION LIMITED TO AMOUNT OF INSOLVENCY.—In the case of a discharge to which paragraph (1)(B) applies, the amount excluded under paragraph (1)(B) shall not exceed the amount by which the taxpayer is insolvent.

"(b) REDUCTION OF TAX ATTRIBUTES IN TITLE 11 CASE OR INSOLVENCY.—

"(1) IN GENERAL.—The amount excluded from gross income under subparagraph (A) or (B) of subsection (a)(1) shall be applied to reduce the tax attributes of the taxpayer as provided in paragraph (2).

"(2) TAX ATTRIBUTES AFFECTED; ORDER OF REDUCTION.—Except as provided in paragraph (5), the reduction referred to in paragraph (1) shall be made in the following tax attributes in the following order:

"(A) NOL.—Any net operating loss for the taxable year of the discharge, and any net operating loss carryover to such taxable year.

"(B) CERTAIN CREDIT CARRYOVERS.—Any carryover to or from the taxable year of the discharge of an amount for purposes of determining the amount of a credit allowable under—

"(i) section 38 (relating to investment in certain depreciable property),

"(ii) section 40 (relating to expenses of work incentive programs),

"(iii) section 44B (relating to credit for employment of certain new employees), or

"(iv) section 44E (relating to alcohol used as a fuel).

For purposes of clause (i), there shall not be taken into account any portion of a carryover which is attributable to the employee plan credit (within the meaning of section 48(o)(3)).

"(C) CAPITAL LOSS CARRYOVERS.—Any net capital loss for the taxable year of the discharge, and any capital loss carryover to such taxable year under section 1212.

"(D) BASIS REDUCTION.—

"(i) IN GENERAL.—The basis of the property of the taxpayer.

"(ii) CROSS REFERENCE.—

"For provisions for making the reduction described in clause (i), see section 1017.

"(E) FOREIGN TAX CREDIT CARRYOVERS.—Any carryover to or from the taxable year of the discharge for purposes of determining the amount of the credit allowable under section 33.

"(3) AMOUNT OF REDUCTION.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the reductions described in paragraph (2) shall be one dollar for each dollar excluded by subsection (a).

"(B) CREDIT CARRYOVER REDUCTION.—The reductions described in

[1] Pertinent excerpts from Senate Report No. 96-1035, page 620. House Report No. 96-833 is not published.

subparagraphs (B) and (E) of paragraph (2) shall be 50 cents for each dollar excluded by subsection (a).

"(4) ORDERING RULES.—

"(A) REDUCTIONS MADE AFTER DETERMINATION OF TAX FOR YEAR.—The reduction described in paragraph (2) shall be made after the determination of the tax imposed by this chapter for the taxable year of the discharge.

"(B) REDUCTIONS UNDER SUBPARAGRAPH (A) OR (C) OF PARAGRAPH (2).—The reductions described in subparagraph (A) or (C) of paragraph (2) (as the case may be) shall be made first in the loss for the taxable year of the discharge and then in the carryovers to such taxable year in the order of the taxable years from which each such carryover arose.

"(C) REDUCTIONS UNDER SUBPARAGRAPHS (B) AND (E) OF PARAGRAPH (2).—The reductions described in subparagraphs (B) and (E) of paragraph (2) shall be made in the order in which carryovers are taken into account under this chapter for the taxable year of the discharge.

"(5) ELECTION TO APPLY REDUCTION FIRST AGAINST DEPRECIABLE PROPERTY.—

"(A) IN GENERAL.—The taxpayer may elect to apply any portion of the reduction referred to in paragraph (1) to the reduction under section 1017 of the basis of the depreciable property of the taxpayer.

"(B) LIMITATION.—The amount to which an election under subparagraph (A) applies shall not exceed the aggregate adjusted bases of the depreciable property held by the taxpayer as of the beginning of the taxable year following the taxable year in which the discharge occurs.

"(C) OTHER TAX ATTRIBUTES NOT REDUCED.—Paragraph (2) shall not apply to any amount to which an election under this paragraph applies.

"(c) TAX TREATMENT OF DISCHARGE OF QUALIFIED BUSINESS INDEBTEDNESS.—In the case of a discharge of qualified business indebtedness—

"(1) BASIS REDUCTION.—

"(A) IN GENERAL.—The amount excluded from gross income under subparagraph (C) of subsection (a)(1) shall be applied to reduce the basis of the depreciable property of the taxpayer.

"(B) CROSS REFERENCE.—

"For provisions for making the reduction described in subparagraph (A), see section 1017.

"(2) LIMITATION.—The amount excluded under subparagraph (C) of subsection (a)(1) shall not exceed the aggregate adjusted bases of the depreciable property held by the taxpayer as of the beginning of the taxable year following the taxable year in which the discharge occurs (determined after any reductions under subsection (b)).

"(d) MEANING OF TERMS; SPECIAL RULES RELATING TO SUBSECTIONS (a), (b), and (c).—

"(1) INDEBTEDNESS OF TAXPAYER.—For purposes of this section, the term 'indebtedness of the taxpayer' means any indebtedness—

"(A) for which the taxpayer is liable, or

"(B) subject to which the taxpayer holds property.

"(2) TITLE 11 CASE.—For purposes of this section, the term 'title 11 case' means a case under title 11 of the United States Code (relating to bankruptcy), but only if the taxpayer is under the jurisdiction of the court in such case and the discharge of indebtedness is granted by the court or is pursuant to a plan approved by the court.

"(3) INSOLVENT.—For purposes of this section, the term 'insolvent' means the excess of liabilities over the fair market value of assets. With respect to any discharge, whether or not the taxpayer is insolvent, and the amount by which the taxpayer is insolvent, shall be determined on the basis of the taxpayer's assets and liabilities immediately before the discharge.

"(4) QUALIFIED BUSINESS INDEBTEDNESS.—Indebtedness of the taxpayer shall be treated as qualified business indebtedness if (and only if)—

"(A) the indebtedness was incurred or assumed—

"(i) by a corporation, or

"(ii) by an individual in connection with property used in his trade or business, and

"(B) such taxpayer makes an election under this paragraph with respect to such indebtedness.

"(5) DEPRECIABLE PROPERTY.—The term 'depreciable property' has the same meaning as when used in section 1017.

"(6) SUBSECTIONS (a), (b), AND (c) TO BE APPLIED AT PARTNER LEVEL.—In the case of a partnership, subsections (a), (b), and (c) shall be applied at the partner level.

"(7) REDUCTIONS OF TAX ATTRIBUTES IN TITLE 11 CASES OF INDIVIDUALS TO BE MADE BY ESTATE.—In any case under chapter 7 or 11 of title 11 of the United States Code to which section 1398 applies, for purposes of paragraphs (1) and (5) of susection (b) the estate (and not the individual) shall be treated as the taxpayer. The preceding sentence shall not apply for purposes of applying section 1017 to property transferred by the estate to the individual.

"(8) TIME FOR MAKING ELECTION, ETC.—

"(A) TIME.—An election under paragraph (4) of this subsection or under paragraph (5) of subsection (b) shall be made on the taxpayer's return for the taxable year in which the discharge occurs or at such other time as may be permitted in regulations prescribed by the Secretary.

"(B) REVOCATION ONLY WITH CONSENT.—An election referred to in subparagraph (A), once made, may be revoked only with the consent of the Secretary.

"(C) MANNER.—An election referred to in subparagraph (A) shall be made in such manner as the Secretary may by regulations prescribe.

"(9) CROSS REFERENCE.—

"For provision that no reduction is to be made in the basis of exempt property of an individual debtor, see section 1017(c)(1).

"(e) GENERAL RULES FOR DISCHARGE OF INDEBTEDNESS (INCLUDING DISCHARGES NOT IN TITLE 11 CASES OR INSOLVENCY).—For purposes of this title—

"(1) NO OTHER INSOLVENCY EXCEPTION.—Except as otherwise provided in this section, there shall be no insolvency exception from the general rule that gross income includes income from the discharge of indebtedness.

"(2) INCOME NOT REALIZED TO EXTENT OF LOST DEDUCTIONS.—No income shall be realized from the discharge of indebtedness to the extent that payment of the liability would have given rise to a deduction.

"(3) ADJUSTMENTS FOR UNAMORTIZED PREMIUM AND DISCOUNT.—The amount taken into account with respect to any discharge shall be properly adjusted for unamortized premium and unamortized discount with respect to the indebtedness discharged.

"(4) ACQUISITION OF INDEBTEDNESS BY PERSON RELATED TO DEBTOR.—

"(A) TREATED AS ACQUISITION BY DEBTOR.—For purposes of determining income of the debtor from discharge of indebtedness, to the extent provided in regulations prescribed by the Secretary, the acquisition of outstanding indebtedness by a person bearing a relationship to the debtor specified in section 267(b) or 707(b)(1) from a person who does not bear such a relationship to the debtor shall be treated as the acquisition of such indebtedness by the debtor. Such regulations shall provide for such adjustments in the treatment of any subsequent transactions involving the indebtedness as may be appropriate by reason of the application of the preceding sentence.

"(B) MEMBERS OF FAMILY.—For purposes of this paragraph, sections 267(b) and 707(b)(1) shall be applied as if section 267(c)(4) provided that the family of an individual consists of the individual's spouse, the individual's children, grandchildren, and parents, and any spouse of the individual's children or grandchildren.

"(C) ENTITIES UNDER COMMON CONTROL TREATED AS RELATED.—For purposes of this paragraph, two entities which are treated as a single employer under subsection (b) or (c) of section 414 shall be treated as bearing a relationship to each other which is described in section 267(b).

"(5) PURCHASE-MONEY DEBT REDUCTION FOR SOLVENT DEBTOR TREATED AS PRICE REDUCTION.—If—

"(A) the debt of a purchaser of property to the seller of such property which arose out of the purchase of such property is reduced,

"(B) such reduction does not occur—

"(i) in a title 11 case, or

"(ii) when the purchaser is insolvent, and

"(C) but for this paragraph, such reduction would be treated as income to the purchaser from the discharge of indebtedness,

then such reduction shall be treated as a purchase price adjustment.

"(6) INDEBTEDNESS CONTRIBUTED TO CAPITAL.—For purposes of determining income of the debtor from discharge of indebtedness, if a debtor corporation acquires its indebtednes from a shareholder as a contribution to capital—

"(A) section 118 shall not apply, but

"(B) such corporation shall be treated as having satisfied the indebtedness with an amount of money equal to the shareholder's adjusted basis in the indebtedness.

"(7) RECAPTURE OF GAIN ON SUBSEQUENT SALE OF STOCK.—

"(A) IN GENERAL.—If a creditor acquires stock of a debtor corporation in satisfaction of such corporation's indebtedness, for purposes of section 1245—

"(i) such stock (and any other property the basis of which is determined in whole or in part by reference to the adjusted basis of such stock) shall be treated as section 1245 property, and

"(ii) the aggregate amount allowed to the creditor—

"(I) as deductions under subsection (a), (b), or (c) of section 166 (by reason of the worthlessness or partial worthlessness of the indebtedness), or

"(II) as an ordinary loss on the exchange,

shall be treated as an amount allowed as a deduction for depreciation.

The amount determined under clause (ii) shall be reduced by the amount (if any) included in the creditor's gross income on the exchange.

"(B) TAXPAYERS ON RESERVE METHOD.—In the case of a taxpayer to whom subsection (c) of section 166 (relating to reserve for bad debts) applies, the amount determined under clause (ii) of subaparagraph (A) shall be the aggregate charges to the reserve resulting from the worthlessness or partial worthlessness of the indebtedness.

"(C) SPECIAL RULE FOR CASH BASIS TAXPAYERS.—In the case of any creditor who computes his taxable income under the cash receipts and disbursements method, proper adjustment shall be made in the amount taken into account under clause (ii) of subparagraph (A) for any amount which was not included in the creditor's gross income but which would have been included in such gross income if such indebtedness had been satisfied in full.

"(D) STOCK OF PARENT CORPORATION.—For purposes of this paragraph, stock of a corporation in control (within the meaning of section 368(c)) of the debtor corporation shall be treated as stock of the debtor corporation.

"(E) TREATMENT OF SUCCESSOR CORPORATION.—For purposes of this paragraph, the term 'debtor corporation' includes a successor corporation.

"(F) PARTNERSHIP RULE.—Under regulations prescribed by the Secretary, rules similar to the rules of subparagraphs (A), (B), (C), (D), and (E) of this paragraph shall apply with respect to the indebtedness of a partnership.

"(8) STOCK FOR DEBT EXCEPTION NOT TO APPLY IN DE MINIMIS CASES.—For purposes of determining income of the debtor from discharge of indebt-

edness, the stock for debt exception shall not apply—

"(A) to the issuance of nominal or token shares, or

"(B) with respect to an unsecured creditor, where the ratio of the value of the stock received by such unsecured creditor to the amount of his indebtedness cancelled or exchanged for stock in the workout is less than 50 percent of a similar ratio computed for all unsecured creditors participating in the workout.

"(9) DISCHARGE OF INDEBTEDNESS INCOME NOT TAKEN INTO ACCOUNT IN DETERMINING WHETHER ENTITY MEETS REIT QUALIFICATION.—Any amount included in gross income by reason of the discharge of indebtedness shall not be taken into account for purposes of paragraphs (2) and (3) of section 856(c)."

(b) AMENDMENT OF SECTION 1017.—Section 1017 (relating to discharge of indebtedness) is amended to read as follows:

"SEC. 1017. DISCHARGE OF INDEBTEDNESS.

"(a) GENERAL RULE.—If—

"(1) an amount is excluded from gross income under subsection (a) of section 108 (relating to discharge of indebtedness), and

"(2) under subsection (b)(2)(D), (b)(5), or (c)(1)(A) of section 108, any portion of such amount is to be applied to reduce basis,

then such portion shall be applied in reduction of the basis of any property held by the taxpayer at the beginning of the taxable year following the taxable year in which the discharge occurs.

"(b) AMOUNT AND PROPERTIES DETERMINED UNDER REGULATIONS.—

"(1) IN GENERAL.—The amount of reduction to be applied under subsection (a) (not in excess of the portion referred to in subsection (a)), and the particular properties the bases of which are to be reduced, shall be determined under regulations prescribed by the Secretary.

"(2) LIMITATION IN TITLE 11 CASE OR INSOLVENCY.—In the case of a discharge to which subparagraph (A) or (B) of section 108(a)(1) applies, the reduction in basis under subsection (a) of this section shall not exceed the excess of—

"(A) the aggregate of the bases of the property held by the taxpayer immediately after the discharge, over

"(B) the aggregate of the liabilities of the taxpayer immediately after the discharge.

The preceding sentence shall not apply to any reduction in basis by reason of an election under section 108(b)(5).

"(3) CERTAIN REDUCTIONS MAY ONLY BE MADE IN THE BASIS OF DEPRECIABLE PROPERTY.—

"(A) IN GENERAL.—Any amount which under subsection (b)(5) or (c)(1)(A) of section 108 is to be applied to reduce basis shall be applied only to reduce the basis of depreciable property held by the taxpayer.

"(B) DEPRECIABLE PROPERTY.—For purposes of this section, the term 'depreciable property' means any property of a character subject to the allowance for depreciation, but only if a basis reduction under subsection (a) will reduce the amount of depreciation or amortization which otherwise would be allowable for the period immediately following such reduction.

"(C) SPECIAL RULE FOR PARTNERSHIP INTERESTS.—For purposes of this section, any interest of a partner in a partnership shall be treated as depreciable property to the extent of such partner's proportionate interest in the depreciable property held by such partnership. The preceding sentence shall apply only if there is a corresponding reduction in the partnership's basis in depreciable property with respect to such partner.

"(D) SPECIAL RULE IN CASE OF AFFILIATED GROUP.—For purposes of this section, if—

"(i) a corporation holds stock in another corporation (hereinafter in this subparagraph referred to as the 'subsidiary'), and

"(ii) such corporations are members of the same affiliated group which file a consolidated return under section 1501 for the taxable year in which the discharge occurs,

then such stock shall be treated as depreciable property to the extent that such subsidiary consents to a corresponding reduction in the basis of its depreciable property.

"(E) ELECTION TO TREAT CERTAIN INVENTORY AS DEPRECIABLE PROPERTY.—

"(i) IN GENERAL.—At the election of the taxpayer, for purposes of this section, the term 'depreciable property' includes any real property which is described in section 1221(1).

"(ii) ELECTION.—An election under clause (i) shall be made on the taxpayer's return for the taxable year in which the discharge occurs or at such other time as may be permitted in regulations prescribed by the Secretary. Such an election, once made, may be revoked only with the consent of the Secretary.

"(c) SPECIAL RULES.—

"(1) REDUCTION NOT TO BE MADE IN EXEMPT PROPERTY.—In the case of an amount excluded from gross income under section 108(a)(1)(A), no reduction in basis shall be made under this section in the basis of property which the debtor treats as exempt property under section 522 of title 11 of the United States Code.

"(2) REDUCTIONS IN BASIS NOT TREATED AS DISPOSITIONS.—For purposes of this title, a reduction in basis under this section shall not be treated as a disposition.

"(d) RECAPTURE OF REDUCTIONS.—

"(1) IN GENERAL.—For purposes of sections 1245 and 1250—

"(A) any property the basis of which is reduced under this section and which is neither section 1245 property nor section 1250 property shall be treated as section 1245 property, and

"(B) any reduction under this section shall be treated as a deduction allowed for depreciation.

"(2) SPECIAL RULE FOR SECTION 1250.—For purposes of section 1250(b), the determination of what would

have been the depreciation adjustments under the straight line method shall be made as if there had been no reduction under this section."

(c) AMENDMENT OF SECTION 111.—Section 111 (relating to recovery of bad debts, prior taxes, and delinquency amounts) is amended by adding at the end thereof the following new subsection:

"(d) INCREASE IN CARRYOVER TREATED AS YIELDING TAX BENEFIT.—For purposes of paragraph (4) of subsection (b), an increase in a carryover which has not expired shall be treated as a reduction in tax."

(d) AMENDMENT OF SECTION 382 (b).—Subsection (b) of section 382 (relating to special limitations on net operating loss carryover), as in effect before its amendment by section 806 of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-2 C.B. (Vol. 1) 1, 74] is amended by adding at the end thereof the following new paragraph:

(7) SPECIAL RULE FOR REORGANIZATIONS IN TITLE 11 OR SIMILAR CASES.—For purposes of this subsection, a creditor who receives stock in a reorganization in a title 11 or similar case (within the meaning of section 368(a)(3)(A)) shall be treated as a stockholder immediately before the organization."

(e) TECHNICAL AMENDMENTS.—

(1) Subsection (b) of section 703 (relating to elections of the partnership) is amended to read as follows:

"(b) ELECTIONS OF THE PARTNERSHIP.—Any election affecting the computation of taxable income derived from a partnership shall be made by the partnership, except that any election under—

"(1) section 57(c) (defining net lease),

"(2) subsection (b)(5) or (d)4) of section 108 (relating to income from discharge of indebtedness),

"(3) section 163(d) (relating to limitation of interest on investment indebtedness),

"(4) section 617 (relating to deduction and recapture of certain mining exploration expenditures), or

"(5) section 901 (relating to taxes of foreign countries and possessions of the United States),

shall be made by each partner separately."

(2) Subsection (c) of section 118 (relating to cross references) is amended to read as follows:

"(c) CROSS REFERENCES.—

"(1) For basis of property acquired by a corporation through a contribution to its capital, see section 362.

"(2) For special rules in the case of contributions of indebtedness, see section 108(e)(6)."

SEC. 3. RULES RELATING TO TITLE 11 CASES FOR INDIVIDUALS.

(a) IN GENERAL.—

(1) ADDITION OF RULES.—Chapter 1 (relating to normal taxes and surtaxes) is amended by adding at the end thereof the following new subchapter:

"SUBCHAPTER V—TITLE 11 CASES

"Sec. 1398. Rules relating to individual's title 11 cases.

"Sec. 1399. No separate taxable entities for partnerships, corporations, etc.

"SEC. 1398. RULES RELATING TO INDIVIDUALS' TITLE 11 CASES.

"(a) CASES TO WHICH SECTION APPLIES.—Except as provided in subsection (b), this section shall apply to any case under chapter 7 (relating to liquidations) or chapter 11 (relating to reorganizations) of title 11 of the United States Code in which the debtor is an individual.

"(b) EXCEPTIONS WHERE CASE IS DISMISSED, ETC.—

"(1) SECTION DOES NOT APPLY WHERE CASE IS DISMISSED.—This section shall not apply if the case under chapter 7 or 11 of title 11 of the United States Code is dismissed.

"(2) SECTION DOES NOT APPLY AT PARTNERSHIP LEVEL.—For purposes of subsection (a), a partnership shall not be treated as an individual, but the interest in a partnership of a debtor who is an individual shall be taken into account under this section in the same manner as any other interest of the debtor.

"(c) COMPUTATION AND PAYMENT OF TAX; ZERO BRACKET AMOUNT.—

"(1) COMPUTATION AND PAYMENT OF TAX.—Except as otherwise provided in this section, the taxable income of the estate shall be computed in the same manner as for an individual. The tax shall be computed on such taxable income and shall be paid by the trustee.

"(2) TAX RATES.—The tax on the taxable income of the estate shall be determined under subsection (d) of section 1.

"(3) AMOUNT OF ZERO BRACKET AMOUNT.—The amount of the estate's zero bracket amount for the taxable year shall be the same as for a married individual filing a separate return for such year.

"(d) TAXABLE YEAR OF DEBTORS.—

"(1) GENERAL RULE.—Except as provided in paragraph (2), the taxable year of the debtor shall be determined without regard to the case under title 11 of the United States Code to which this section applies.

"(2) ELECTION TO TERMINATE DEBTOR'S YEAR WHEN CASE COMMENCES.—

"(A) IN GENERAL.—Notwithstanding section 442, the debtor may (without the approval of the Secretary) elect to treat the debtor's taxable year which includes the commencement date as 2 taxable years—

"(i) the first of which ends on the day before the commencement date, and

"(ii) the second of which begins on the commencement date.

"(B) SPOUSE MAY JOIN IN ELECTION.—In the case of a married individual (within the meaning of section 143), the spouse may elect to have the debtor's election under subparagraph (A) also apply to the spouse, but only if the debtor and the spouse file a joint return for the taxable year referred to in subparagraph (A)(i).

"(C) NO ELECTION WHERE DEBTOR HAS NO ASSETS.—No election may be

made under subparagraph (A) by a debtor who has no assets other than property which the debtor may treat as exempt property under section 522 of title 11 of the United States Code.

"(D) TIME FOR MAKING ELECTION.—An election under subparagraph (A) or (B) may be made only on or before the due date for filing the return for the taxable year referred to in subparagraph (A)(i). Any such election, once made, shall be irrevocable.

"(E) RETURNS.—A return shall be made for each of the taxable years specified in subparagraph (A).

"(F) ANNUALIZATION.—For purpurposes of subsections (b), (c), and (d) of section 443, a return filed for either of the taxable years referred to in subparagraph (A) shall be treated as a return made under paragraph (1) of subsection (a) of section 443.

"(3) COMMENCEMENT DATE DEFINED.—For purposes of this subsection, the term 'commencement date' means the day on which the case under title 11 of the United States Code to which this section applies commences.

"(e) TREATMENT OF INCOME, DEDUCTIONS, AND CREDITS.—

"(1) ESTATE'S SHARE OF DEBTOR'S INCOME.—The gross income of the estate for each taxable year shall include the gross income of the debtor to which the estate is entitled under title 11 of the United States Code. The preceding sentence shall not apply to any amount received or accrued by the debtor before the commencement date (as defined in subsection (d)(3)).

"(2) DEBTOR'S SHARE OF DEBTOR'S INCOME.—The gross income of the debtor for any taxable year shall not include any item to the extent that such item is included in the gross income of the estate by reason of paragraph (1).

"(3) RULE FOR MAKING DETERMINATIONS WITH RESPECT TO DEDUCTIONS, CREDITS, AND EMPLOYMENT TAXES.—Except as otherwise provided in this section, the determination of whether or not any amount paid or incurred by the estate—

"(A) is allowable as a deduction or credit under this chapter, or

"(B) is wages for purposes of subtitle C,

shall be made as if the amount were paid or incurred by the debtor and as if the debtor were still engaged in the trades and businesses and in the activities, the debtor was engaged in before the commencement of the case.

"(f) TREATMENT OF TRANSFERS BETWEEN DEBTOR AND ESTATE.—

"(1) TRANSFER TO ESTATE NOT TREATED AS DISPOSITION.—A transfer (other than by sale or exchange) of an asset from the debtor to the estate shall not be treated as a disposition for purposes of any provision of this title assigning tax consequences to a disposition, and the estate shall be treated as the debtor would be treated with respect to such asset.

"(2) TRANSFER FROM ESTATE TO DEBTOR NOT TREATED AS DISPOSITION.—In the case of a termination of the estate, a transfer (other than by sale or exchange) of an asset from the estate to the debtor shall not be treated as a disposition for purposes of any provision of this title assigning tax consequences to a disposition, and the debtor shall be treated as the estate would be treated with respect to such asset.

"(g) ESTATE SUCCEEDS TO TAX ATTRIBUTES OF DEBTOR.—The estate shall succeed to and take into account the following items (determined as of the first day of the debtor's taxable year in which the case commences) of the debtor—

"(1) NET OPERATING LOSS CARRYOVERS.—The net operating loss carryovers determined under section 172.

"(2) CHARITABLE CONTRIBUTIONS CARRYOVERS.—The carryover of excess charitable contributions determined under section 170(d)(1).

"(3) RECOVERY EXCLUSION.—Any recovery exclusion under section 111 (relating to recovery of bad debts, prior taxes, and delinquency amounts).

"(4) CREDIT CARRYOVERS, ETC.—The carryovers of any credit, and all other items which, but for the commencement of the case, would be required to be taken into account by the debtor with respect to any credit.

"(5) CAPITAL LOSS CARRYOVERS.—The capital loss carryover determined under section 1212.

"(6) BASIS, HOLDING PERIOD, AND CHARACTER OF ASSETS.—In the case of any assets acquired (other than by sale or exchange) by the estate from the debtor, the basis, holding period, and character it had in the hands of the debtor.

"(7) METHOD OF ACCOUNTING.—The method of accounting used by the debtor.

"(8) OTHER ATTRIBUTES.—Other tax attributes of the debtor, to the extent provided in regulations prescribed by the Secretary as necessary or appropriate to carry out the purposes of this section.

"(h) ADMINISTRATION, LIQUIDATION, AND REORGANIZATION EXPENSES; CARRYOVERS AND CARRYBACKS OF CERTAIN EXCESS EXPENSES.—

"(1) ADMINISTRATION, LIQUIDATION, AND REORGANIZATION EXPENSES.—Any administrative expense allowed under section 503 of title 11 of the United States Code, and any fee or charge assessed against the estate under chapter 123 of title 28 of the United States Code, to the extent not disallowed under any other provision of this title, shall be allowed as a deduction.

"(2) CARRYBACK AND CARRYOVER OF EXCESS ADMINISTRATIVE COSTS, ETC., TO ESTATE TAXABLE YEARS.—

"(A) DEDUCTION ALLOWED.—There shall be allowed as a deduction for the taxable year an amount equal to the aggregate of (i) the administrative expense carryovers to such year, plus (ii) the administrative expense carrybacks to such year.

"(B) ADMINISTRATIVE EXPENSE LOSS, ETC.—If a net operating loss would be created or increased for any estate taxable year if section 172(c) were applied without the modification contained in paragraph (4) of section 172(d), then the amount of the net operating loss so created (or the

amount of the increase in the net operating loss) shall be an administrative expense loss for such taxable year which shall be an administrative expense carryback to each of the 3 preceding taxable years and an administrative expense carryover to each of the 7 succeeding taxable years.

"(C) DETERMINATION OF AMOUNT CARRIED TO EACH TAXABLE YEAR.—The portion of any administrative expense loss which may be carried to any other taxable year shall be determined under section 172(b)(2), except that for each taxable year the computation under section 172(b)(2) with respect to the net operating loss shall be made before the computation under this paragraph.

"(D) ADMINISTRATIVE EXPENSE DEDUCTIONS ALLOWED ONLY TO ESTATE.—The deductions allowable under this chapter solely by reason of paragraph (1), and the deduction provided by subparagraph (A) of this paragraph, shall be allowable only to the estate.

"(i) DEBTOR SUCCEEDS TO TAX ATTRIBUTES OF ESTATE.—In the case of a termination of an estate, the debtor shall succeed to and take into account the items referred to in paragraphs (1), (2), (3), (4), (5), and (6) of subsection (g) in a manner similar to that provided in such paragraphs (but taking into account that the transfer is from the estate to the debtor instead of from the debtor to the estate). In addition, the debtor shall succeed to and take into account the other tax attributes of the estate, to the extent provided in regulations prescribed by the Secretary as necessary or appropriate to carry out the purposes of this section.

"(j) OTHER SPECIAL RULES.—

"(1) CHANGE OF ACCOUNTING PERIOD WITHOUT APPROVAL.—Notwithstanding section 442, the estate may change its annual accounting period one time without the approval of the Secretary.

"(2) TREATMENT OF CERTAIN CARRYBACKS.—

"(A) CARRYBACKS FROM ESTATE.—If any carryback year of the estate is a taxable year before the estate's first taxable year, the carryback to such carryback year shall be taken into account for the debtor's taxable year corresponding to the carryback year.

"(B) CARRYBACKS FROM DEBTOR'S ACTIVITIES.—The debtor may not carry back to a taxable year before the debtor's taxable year in which the case commences any carryback from a taxable year ending after the case commences.

"(C) CARRYBACK AND CARRYBACK YEAR DEFINED.—For purposes of this paragraph—

"(i) CARRYBACK.—The term 'carryback' means a net operating loss carryback under section 172 or a carryback of any credit provided by part IV of subchapter A.

"(ii) CARRYBACK YEAR.—The term 'carryback year' means the taxable year to which a carryback is carried.

"SEC. 1399. NO SEPARATE TAXABLE ENTITIES FOR PARTNERSHIPS, CORPORATIONS, ETC.

"Except in any case to which section 1398 applies, no separate taxable entity shall result from the commencement of a case under title 11 of the United States Code."

(2) CLERICAL AMENDMENT.—The table of subchapters for chapter 1 is amended by adding at the end thereof the following new item:

"SUBCHAPTER V. Title 11 cases."

(b) RETURN REQUIREMENTS.—

(1) Subsection (a) of section 6012 (relating to persons required to make returns of income) is amended by adding at the end thereof the following new paragraph:

"(9) Every estate of an individual under chapter 7 or 11 of title 11 of the United States Code (relating to bankruptcy) the gross income of which for the taxable year is $2,700 or more."

(2) Paragraph (4) of section 6012(b) (relating to returns of estates and trusts) is amended by striking out "an estate or a trust" and inserting in lieu thereof "an estate, a trust, or an estate of an individual under chapter 7 or 11 of title 11 of the United States Code".

(c) DISCLOSURE OF RETURNS.—

(1) Subsection (e) of section 6103 (relating to confidentiality and disclosure of returns and return information) is amended by striking out paragraph (4), by redesignating paragraphs (5) and (6) as paragraphs (6) and (7), respectively, and by inserting after paragraph (3) the following new paragraphs:

"(4) TITLE 11 CASES AND RECEIVERSHIP PROCEEDINGS.—If—

"(A) there is a trustee in a title 11 case in which the debtor is the person with respect to whom the return is filed, or

"(B) substantially all of the property of the person with respect to whom the return is filed is in the hands of a receiver,

such return or returns for prior years of such person shall, upon written request, be open to inspection by or disclosure to such trustee or receiver, but only if the Secretary finds that such trustee or receiver, in his fiduciary capacity, has a material interest which will be affected by information contained therein.

"(5) INDIVIDUAL'S TITLE 11 CASE.—

"(A) IN GENERAL.—In any case to which section 1398 applies (determined without regard to section 1398(b)(1)), any return of the debtor for the taxable year in which the case commenced or any preceding taxable year shall, upon written request, be open to inspection by or disclosure to the trustee in such case.

"(B) RETURN OF ESTATE AVAILABLE TO DEBTOR.—Any return of an estate in a case to which section 1398 applies shall, upon written request, be open to inspection by or disclosure to the debtor in such case.

"(C) SPECIAL RULE FOR INVOLUNTARY CASES.—In an involuntary case, no disclosure shall be made under subparagraph (A) until the order for relief has been entered by the court having jurisdiction of such case unless such court finds that such disclosure is appropriate for purposes of determining whether an order for relief should be entered."

(2) Paragraph (6) of section 6103 (e) (as redesignated by paragraph (1)) is amended by striking out "or (4)" and inserting in lieu thereof "(4), or (5)".

(d) TECHNICAL AMENDMENT.—Subsection (e) of section 443 (relating to cross references) is amended by adding at the end thereof the following new sentence:

"For returns for a period of less than 12 months in the case of a debtor's election to terminate a taxable year, see section 1398(d)(3)(E)."

SEC. 4. CORPORATE REORGANIZATION PROVISIONS.

(a) CERTAIN TRANSFERS IN TITLE 11 OR SIMILAR CASES TO BE INCLUDED IN DEFINITION OF REORGANIZATION.—Paragraph (1) of section 368(a) (defining reorganization) is amended by adding at the end thereof the following new subparagraph:

"(G) a transfer by a corporation of all or part of its assets to another corporation in a title 11 or similar case; but only if, in pursuance of the plan, stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under section 354, 355, or 356."

(b) ADDITIONAL RULES FOR COORDINATING TITLE 11 AND SIMILAR CASES WITH THE GENERAL REORGANIZATION RULES.—Section 368(a) is amended by adding at the end thereof the following new paragraph:

"(3) ADDITIONAL RULES RELATING TO TITLE 11 AND SIMILAR CASES.—

"(A) TITLE 11 OR SIMILAR CASE DEFINED.—For purposes of this part, the term 'title 11 or similar case' means—

"(i) a case under title 11 of the United States Code, or

"(ii) a receivership, foreclosure, or similar proceeding in a Federal or State court.

"(B) TRANSFER OF ASSETS IN A TITLE 11 OR SIMILAR CASE.—In applying paragraph (1)(G), a transfer of the assets of a corporation shall be treated as made in a title 11 or similar case if and only if—

"(i) such corporation is under the jurisdiction of the court in such case, and

"(ii) the transfer is pursuant to a plan of reorganization approved by the court.

"(C) REORGANIZATION QUALIFYING UNDER PARAGRAPH (1)(G) AND ANOTHER PROVISION.—If a transaction would (but for this subparagraph) qualify both—

"(i) under subparagraph (G) of paragraph (1), and

"(ii) under any other subparagraph of paragraph (1) or under section 332 or 351,

then, for purposes of this subchapter (other than section 357(c)(1)), such transaction shall be treated as qualifying only under subparagraph (G) of paragraph (1).

"(D) AGENCY RECEIVERSHIP PROCEEDINGS WHICH INVOLVE FINANCIAL INSTITUTIONS.—For purposes of subparagraphs (A) and (B), in the case of a receivership, foreclosure, or similar proceeding before a Federal or State agency involving a financial institution to which section 585 or 593 applies, the agency shall be treated as a court.

"(E) APPLICATION OF PARAGRAPH (2)(E)(ii).—In the case of a title 11 or similar case, the requirement of clause (ii) of paragraph (2)(E) shall be treated as met if—

"(i) no former shareholder of the surviving corporation received any consideration for his stock, and

"(ii) the former creditors of the surviving corporation exchanged, for an amount of voting stock of the controlling corporation, debt of the surviving corporation which had a fair market value equal to 80 percent or more of the total fair market value of the debt of the surviving corporation."

(c) TRANSFERS OF ASSETS TO SUBSIDIARIES.—Subparagraph (C) of section 368(a)(2) (relating to transfers of assets or stock of subsidiaries in certain paragraph (1)(A), (1)(B), and (1)(C) cases) is amended to read as follows:

"(C) TRANSFERS OF ASSETS OR STOCK TO SUBSIDIARIES IN CERTAIN PARAGRAPH (1)(A), (1)(B), (1)(C), AND (1)(G) CASES.—A transaction otherwise qualifying under paragraph (1)(A), (1)(B), or (1)(C) shall not be disqualified by reason of the fact that part or all of the assets or stock which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets or stock. A similar rule shall apply to a transaction otherwise qualifying under paragraph (1)(G) where the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met with respect to the acquisition of the assets or stock."

(d) USE OF STOCK OF CONTROLLING CORPORATION.—Subparagraph (D) of section 368(a)(2) (relating to use of stock of controlling corporation in paragraph (1)(A) cases) is amended to read as follows:

"(D) USE OF STOCK OF CONTROLLING CORPORATION IN PARAGRAPH (1)(A) AND (1)(G) CASES.—The acquisition by one corporation, in exchange for stock of a corporation (referred to in this subparagraph as 'controlling corporation') which is in control of the acquiring corporation, of substantially all of the properties of another corporation shall not disqualify a transaction under paragraph (1)(A) or (1)(G) if—

"(i) no stock of the acquiring corporation is used in the transaction, and

"(ii) in the case of a transaction under paragraph (1)(A), such transaction would have qualified under paragraph (1)(A) had the merger been into the controlling corporation."

(e) TREATMENT OF PROPERTY ATTRIBUTABLE TO ACCRUED INTEREST.—

(1) AMENDMENT OF SECTION 354.—Subsection (a) of section 354 (relating to exchanges of stocks and securities in certain reorganizations) is amended by striking out paragraphs (2) and (3) and inserting in lieu thereof the following:

"(3) LIMITATIONS.—

"(A) EXCESS PRINCIPAL AMOUNT.—Paragraph (1) shall not apply if—

"(i) the principal amount of any such securities received exceeds the

principal amount of any such securities surrendered, or

"(ii) any such securities are received and no such securities are surrendered.

"(B) PROPERTY ATTRIBUTABLE TO ACCRUED INTEREST.—Neither paragraph (1) nor so much of section 356 as relates to paragraph (1) shall apply to the extent that any stock, securities, or other property received is attributable to interest which has accrued on securities on or after the beginning of the holder's holding period.

"(3) CROSS REFERENCES.—

"(A) For treatment of the exchange if any property is received which is not permitted to be received under this subsection (including an excess principal amount of securities received over securities surrendered, but not including property to which paragraph (2)(B) applies), see section 356.

"(B) For treatment of accrued interest in the case of an exchange described in paragraph (2)(B), see section 61."

(2) AMENDMENT OF SECTION 355.—Subsection (a) of section 355 (relating to distribution of stock and securities of a controlled corporation) is amended by striking out paragraphs (3) and (4) and inserting in lieu thereof the following:

"(3) LIMITATIONS.—

"(A) EXCESS PRINCIPAL AMOUNT.—Paragraph (1) shall not apply if—

"(i) the principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution, or

"(ii) securities in the controlled corporation are received and no securities are surrendered in connection with such distribution.

"(B) STOCK ACQUIRED IN TAXABLE TRANSACTIONS WITHIN 5 YEARS TREATED AS BOOT.—For purposes of this section (other than paragraph (1)(D) of this subsection) and so much of section 356 as relates to this section, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction—

"(i) which occurs within 5 years of the distribution of such stock, and

"(ii) in which gain or loss was recognized in whole or in part,

shall not be treated as stock of such controlled corporation, but as other property.

"(C) PROPERTY ATTRIBUTABLE TO ACCRUED INTEREST.—Neither paragraph (1) nor so much of section 356 as relates to paragraph (1) shall apply to the extent that any stock, securities, or other property received is attributable to interest which has accrued on securities on or after the beginning of the holder's holding period.

"(4) CROSS REFERENCES.—

"(A) For treatment of the exchange if any property is received which is not permitted to be received under this subsection (including an excess principal amount of securities received over securities surrendered, but not including property to which paragraph (3)(C) applies), see section 356.

"(B) For treatment of accrued interest in the case of an exchange described in paragraph (3)(C), see section 61."

(f) TERMINATION OF EXISTING PROVISIONS RELATING TO INSOLVENCY REORGANIZATIONS.—Part IV of subchapter C of chapter 1 (relating to insolvency reorganizations) is amended by inserting before section 371 the following new section:

"SEC. 370. TERMINATION OF PART.

"(a) GENERAL RULE.—Except as provided in subsection (b), this part shall not apply to any proceeding which is begun after September 30, 1979.

"(b) EXCEPTIONS.—Subsection (a) shall not apply to subsections (c) and (e) of section 374."

(g) CARRYOVER OF SECTION 381 ITEMS IN SECTION 368(a)(1)(G) REORGANIZATIONS.—Subsection (a) of section 381 (relating to carryovers in certain corporate acquisitions) is amended—

(1) by striking out "subparagraph (A), (C), (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met), or (F) of section 368(a)(1)" in paragraph (2) and inserting in lieu thereof "subparagraph (A), (C), (D), (F), or (G) of section 368(a)(1)", and

(2) by adding at the end thereof the following new sentence: "For purposes of the preceding sentence, a reorganization shall be treated as meeting the requirements of subparagraph (D) or (G) of section 368(a)(1) only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met."

(h) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Paragraphs (1) and (2) of section 354(b) (relating to exception to general rule on exchanges of stock and securities in certain reorganizations) are each amended by striking out "section 368(a)(1)(D)" and inserting in lieu thereof "subparagraph (D) or (G) of section 368(a)(1)".

(2) Paragraph (2) of section 357(c) (relating to liabilities in excess of basis) is amended to read as follows:

"(2) EXCEPTIONS.—Paragraph (1) shall not apply to any exchange—

"(A) to which subsection (b)(1) of this section applies,

"(B) to which section 371 or 374 applies, or

"(C) which is pursuant to a plan of reorganization within the meaning of section 368(a)(1)(G) where no former shareholder of the transferor corporation receives any consideration for his stock."

(3) Paragraph (1) of section 368(a) (defining reorganization) is amended—

(A) by striking out "or" at the end of subparagraph (E), and

(B) by striking out the period at the end of subparagraph (F) and inserting in lieu thereof "; or".

(4) Subsection (b) of section 368 (defining party to reorganization) is amended—

(A) by striking out "or (1)(C)" in the third sentence and inserting in lieu thereof "(1)(C), or (1)(G)", and

(B) by striking out "paragraph (1)(A)" in the fourth sentence and in-

serting in lieu thereof "paragraph (1)(A) or (1)(G)".

(5) The table of sections for part IV of subchapter C of chapter 1 is amended by inserting before the item relating to section 371 the following new item:

"Sec. 370. Termination of part."

SEC. 5. MISCELLANEOUS CORPORATE AMENDMENTS.

(a) EXCEPTION FROM PERSONAL HOLDING COMPANY TAX FOR CORPORATIONS IN TITLE 11 OR SIMILAR CASES.—Subsection (c) of section 542 (relating to exceptions from definition of personal holding company) is amended by striking out the period at the end of paragraph (8) and inserting in lieu thereof "; and" and by adding at the end thereof the following new paragraph:

"(9) a corporation which is subject to the jurisdiction of the court in a title 11 or similar case (within the meaning of section 368(a)(3)(A)) unless a major purpose of instituting or continuing such case is the avoidance of the tax imposed by section 541."

(b) REDEMPTION OF STOCK ISSUED IN RAILROAD REORGANIZATIONS.—

(1) IN GENERAL.—Subsection (b) of section 302 (relating to redemptions treated as exchanges) is amended by striking out paragraph (4) and by redesignation paragraph (5) as paragraph (4).

(2) CONFORMING AMENDMENTS.—

(A) Subsection (a) of section 302 is amended by striking out "(2), (3), or (4)" and inserting in lieu thereof "(2), or (3)".

(B) Paragraph (4) of section 302 (b) (as redesignated by paragraph (1)) is amended—

(i) by striking out "(2), (3), or (4)" and inserting in lieu thereof "(2) or (3)", and

(ii) by striking out "(1), (2), or (4)" and inserting in lieu thereof "(1) or (2)".

(c) SECTION 337 TO APPLY WHERE LIQUIDATING CORPORATION IS INSOLVENT.—Section 337 (relating to gain or loss on sales or exchanges in connection with certain liquidations) is amended by adding at the end thereof the following new subsection:

"(g) TITLE 11 OR SIMILAR CASES.—If a corporation completely liquidates pursuant to a plan of complete liquidation adopted in a title 11 or similar case (within the meaning of section 368(a)(3)(A))—

"(1) for purposes of subsection (a), the term 'property' shall not include any item acquired on or after the date of the adoption of the plan of liquidation if such item is not property within the meaning of subsection (b)(2), and

"(2) subsection (a) shall apply to sales and exchanges by the corporation of property within the period beginning on the date of the adoption of the plan and ending on the date of the termination of the case."

(d) ESTATE OF INDIVIDUAL IN TITLE 11 CASE PERMITTED TO BE SHAREHOLDER OF SUBCHAPTER S CORPORATION.—Section 1371 (defining small business corporation) is amended by adding at the end thereof the following new subsection:

"(f) ESTATE OF INDIVIDUAL IN TITLE 11 CASE MAY BE SHAREHOLDER.—For purposes of subsection (a)(2), the term 'estate' includes the estate of an individual in a case under title 11 of the United States Code."

(e) AMENDMENTS OF SECTION 351.—

(1) Section 351 (relating to transfer to corporation controlled by transferor) is amended by redesignating subsection (e) as subsection (f) and by striking out subsection (d) and inserting in lieu thereof the following new subsections:

"(d) SERVICES, CERTAIN INDEBTEDNESS, AND ACCRUED INTEREST NOT TREATED AS PROPERTY.—For purposes of this section, stock or securities issued for—

"(1) services,

"(2) indebtedness of the transferee corporation which is not evidenced by a security, or

"(3) interest on indebtedness of the transferee corporation which accrued on or after the beginning of the transferor's holding period for the debt,

shall not be considered as issued in return for property.

"(e) EXCEPTIONS. — This section shall not apply to—

"(1) TRANSFER OF PROPERTY TO AN INVESTMENT COMPANY.—A transfer of property to an investment company.

"(2) TITLE 11 OR SIMILAR CASE.—A transfer of property of a debtor pursuant to a plan while the debtor is under the jurisdiction of a court in a title 11 or similar case (within the meaning of section 368(a)(3)(A)), to the extent that the stock or securities received in the exchange are used to satisfy the indebtedness of such debtor."

(2) Subsection (a) of section 351 is amended by striking out the last sentence.

(f) EFFECT ON EARNINGS AND PROFITS.—Section 312 (relating to effect on earnings and profits) is amended by adding at the end thereof the following new subsection:

"(l) DISCHARGE OF INDEBTEDNESS INCOME.—

"(1) DOES NOT INCREASE EARNINGS AND PROFITS IF APPLIED TO REDUCE BASIS.—The earnings and profits of a corporation shall not include income from the discharge of indebtedness to the extent of the amount applied to reduce basis under section 1017.

"(2) REDUCTION OF DEFICIT IN EARNINGS AND PROFITS IN CERTAIN CASES.—If—

"(A) the interest of any shareholder of a corporation is terminated or extinguished in a title 11 or similar case (within the meaning of section 368(a)(3)(A)), and

"(B) there is a deficit in the earnings and profits of the corporation,

then such deficit shall be reduced by an amount equal to the paid-in capital which is allocable to the interest of the shareholder which is so terminated or extinguished."

SEC. 6. CHANGES IN TAX PROCEDURES.

(a) SUSPENSION OF RUNNING OF PERIOD OF LIMITATIONS DURING TITLE 11 CASES.—Section 6503 (relating to suspension of running of period of lim-

itation) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) CASES UNDER TITLE 11 OF THE UNITED STATES CODE.—The running of the period of limitations provided in section 6501 or 6502 on the making of assessments or collection shall, in a case under title 11 of the United States Code, be suspended for the period during which the Secretary is prohibited by reason of such care from making the assessment or from collecting and—

"(1) for assessment, 60 days thereafter, and

"(2) for collection, 6 months thereafter."

(b) COORDINATION OF DEFICIENCY PROCEDURES WITH TITLE 11 CASES.—

(1) IN GENERAL.—Section 6213 (relating to restrictions applicable to deficiencies; petition to Tax Court) is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the folllowing new subsection:

"(f) COORDINATION WITH TITLE 11.—

"(1) SUSPENSION OF RUNNING OF PERIOD FOR FILING PETITION IN TITLE 11 CASES.—In any case under title 11 of the United States Code, the running of the time prescribed by subsection (a) for filing a petition in the Tax Court with respect to any deficiency shall be suspended for the period during which the debtor is prohibited by reason of such case from filing a petition in the Tax Court with respect to such deficiency, and for 60 days thereafter.

"(2) CERTAIN ACTION NOT TAKEN INTO ACCOUNT.—For purposes of the second and third sentences of subsection (a), the filing of a proof of claim or request for payment (or the taking of any other action) in a case under title 11 of the United States Code shall not be treated as action prohibited by such second sentence."

(2) CLERICAL AMENDMENT.—Subsection (d) of section 6404 (relating to abatements) is amended by striking out "section 6213(f)(2)(A)" and inserting in lieu thereof "section 6213(g)(2)(A)".

(c) TRUSTEE OF DEBTOR'S ESTATE MAY INTERVENE IN TAX COURT PROCEEDING.—

(1) IN GENERAL.—Part II of subchapter C of chapter 76 (relating to Tax Court procedure) is amended by redesignating section 7464 as section 7465 and by inserting after section 7463 the following new section:

"SEC. 7464. INTERVENTION BY TRUSTEE OF DEBTOR'S ESTATE.

"The trustee of the debtor's estate in any case under title 11 of the United States Code may intervene, on behalf of the debtor's estate, in any proceeding before the Tax Court to which the debtor is a party."

(2) CLERICAL AMENDMENT.—The table of sections for part II of subchapter C of chapter 76 is amended by striking out the item relating to section 7464 and by inserting in lieu thereof the following:

"Sec. 7464. Intervention by trustee of debtor's estate.

"Sec. 7465. Provisions of special application to transferees."

(d) CROSS REFERENCES TO TAX DETERMINATIONS IN TITLE 11 CASES.—

(1) AMENDMENT OF SECTION 7430.—Section 7430 (relating to cross references) is amended by striking out paragraphs (1), (2), (3), and (4) and inserting in lieu thereof the following new paragraph:

"(1) For determination of amount of any tax, additions to tax, etc., in title 11 cases, see section 505 of title 11 of the United States Code."

(2) AMENDMENT OF SECTION 6212.—Paragraph (2) of section 6212(c) (relating to cross references) is amended by adding at the end thereof the following new sentence:

"For provisions allowing determination of tax in title 11 cases, see section 505(a) of title 11 of the United States Code."

(3) AMENDMENT OF SECTION 6512.—Section 6512 (relating to limitations in case of petition to Tax Court) is amended by adding at the end thereof the following new subsection:

(c) CROSS REFERENCE.—

"For provisions allowing determination of tax in title 11 cases, see section 505(a) of title 11 of the United States Code."

(4) AMENDMENT OF SECTION 6532.—Subsection (a) of section 6532 (relating to periods of limitations on suits) is amended by adding at the end thereof the following new paragraph:

"(5) CROSS REFERENCE.—

"For substitution of 120-day period for the 6-month period contained in paragraph (1) in a title 11 case, see section 505(a)(2) of title 11 of the United States Code."

(e) RELIEF FROM CERTAIN PENALTIES IN TITLE 11 CASES.—

(1) IN GENERAL.—Subchapter A of chapter 68 (relating to additions to the tax and additional amounts) is amended by inserting after section 6657 the following new section:

"SEC. 6658. COORDINATION WITH TITLE 11.

(a) CERTAIN FAILURES TO PAY TAX.—No addition to the tax shall be made under section 6651, 6654, or 6655 for failure to make timely payment of tax with respect to a period during which a case is pending under title 11 of the United States Code—

"(1) if such tax was incurred by the estate and the failure occurred pursuant to an order of the court finding probable insufficiency of funds of the estate to pay administrative expenses, or

"(2) if—

"(A) such tax was incurred by the debtor before the earlier of the order for relief or (in the involuntary case) the appointment of a trustee, and

"(B)(i) the petition was filed before the due date prescribed by law (including extensions) for filing a return of such tax, or

"(ii) the date for making the addition to the tax occurs on or after the day on which the petition was filed.

"(b) EXCEPTION FOR COLLECTED TAXES.—Subsection (a) shall not

apply to any liability for an addition to the tax which arises from the failure to pay or deposit a tax withheld or collected from others and required to be paid to the United States."

(2) CLERICAL AMENDMENT.—The table of sections for subchapter A of chapter 68 is amended by inserting after the item relating to section 6657 the following:

"Sec. 6658. Coordination with title 11."

(f) CREDIT AGAINST FEDERAL UNEMPLOYMENT TAX NOT REDUCED IN CERTAIN CASES.—Subsection (a) of section 3302 (relating to credits against unemployment tax) is amended by adding at the end thereof the following new paragraph:

"(5) In the case of wages paid by the trustee of an estate under title 11 of the United States Code, if the failure to pay contributions on time was without fault by the trustee, paragraph (3) shall be applied by substituting '100 percent' for '90 percent'."

(g) REMOVAL OF PROVISION FOR IMMEDIATE ASSESSMENT IN CERTAIN TITLE 11 CASES.—

(1) IN GENERAL.—Section 6871 (relating to claims for income, estate, and gift taxes in bankruptcy and receivership proceedings) is amended to read as follows:

"SEC. 6871. CLAIMS FOR INCOME, ESTATE, GIFT, AND CERTAIN EXCISE TAXES IN RECEIVERSHIP PROCEEDINGS, ETC.

"(a) IMMEDIATE ASSESSMENT IN RECEIVERSHIP PROCEEDINGS.—On the appointment of a receiver for the taxpayer in any receivership proceeding before any court of the United States or any State or of the District of Columbia, any deficiency (together with all interest, additional amounts, and additions to the tax provided by law) determined by the Secretary in respect of a tax imposed by subtitle A or B or by chapter 41, 42, 43, 44, or 45 on such taxpayer may, despite the restrictions imposed by section 6213 (a) on assessments, be immediately assessed if such deficiency has not theretofore been assessed in accordance with law.

"(b) IMMEDIATE ASSESSMENT WITH RESPECT TO CERTAIN TITLE 11 CASES.—Any deficiency (together with all interest, additional amounts, and additions to the tax provided by law) determined by the Secretary in respect of a tax imposed by subtitle A or B or by chapter 41, 42, 43, 44, or 45 on—

"(1) the debtor's estate in a case under title 11 of the United States Code, or

"(2) the debtor, but only if liability for such tax has become res judicata pursuant to a determination in a case under title 11 of the United States Code,

may, despite the restrictions imposed by section 6213(a) on assessments, be immediately assessed if such deficiency has not theretofore been assessed in accordance with law.

"(c) CLAIM FILED DESPITE PENDENCY OF TAX COURT PROCEEDINGS.—In the case of a tax imposed by subtitle A or B or by chapter 41, 42, 43, 44, or 45—

"(1) claims for the deficiency and for interest, additional amounts, and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the receivership proceeding (or the case under title 11 of the United States Code) is pending, despite the pendency of proceedings for the redetermination of the deficiency pursuant to a petition to the Tax Court; but

"(2) in the case of a receivership proceeding, no petition for any such redetermination shall be filed with the Tax Court after the appointment of the receiver."

(2) AMENDMENT OF SECTION 6873.—Subsection (a) of section 6783 (relating to unpaid claims) is amended by striking out "or any proceeding under the Bankruptcy Act".

(3) CLERICAL AMENDMENTS.—

(A) The table of sections for subchapter B of chapter 70 is amended by striking out the item relating to section 6871 and inserting in lieu thereof the following:

"Sec. 6871. Claims for income, estate, gift, and certain excise taxes in receivership proceedings, etc."

(B) The heading of subchapter B of chapter 70 is amended to read as follows:

"Subchapter B—Receiverships, Etc."

(C) The item relating to subchapter B in the table of subchapters for chapter 70 is amended to read as follows:

"SUBCHAPTER B. Receiverships, etc."

(D) The heading of chapter 70 is amended to read as follows:

"CHAPTER 70—JEOPARDY, RECEIVERSHIPS, ETC."

(E) The item relating to chapter 70 in the table of chapters for subtitle F is amended to read as follows:

"CHAPTER 70. Jeopardy, receiverships, etc."

(h) REPEAL OF SECTION 1018.—

(1) IN GENERAL.—Section 1018 (relating to adjustment of capital structure before September 22, 1938) is hereby repealed.

(2) CLERICAL AMENDMENT.—The table of sections for part II of subchapter O of chapter 1 is amended by striking out the item relating to section 1018.

(i) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 128 (relating to cross references) is amended by striking out paragraph (1) and by redesignating paragraphs (2) through (9) as paragraphs (1) through (8), respectively.

(2) Subsection (c) of section 354 (relating to certain railroad reorganizations) is amended by striking out "approved by the Interstate Commerce Commission under section 77 of the Bankruptcy Act, or" and inserting in lieu thereof "confirmed under section 1173 of title 11 of the United States Code, or approved by the Interstate Commerce Commission".

(3) Paragraph (5) of section 422 (c) (relating to certain transfers by insolvent individuals) is amended by

striking out "under the Bankruptcy Act" and inserting in lieu thereof "under title 11 of the United States Code".

(4) Section 1023 (relating to cross references) is amended by striking out paragraph (2) and by redesignating paragraph (3) as paragraph (2).

(5) Paragraph (3) of section 6012 (b) (relating to receivers, trustees, and assignees for corporations) is amended by striking out "trustee in bankruptcy" and inserting in lieu thereof "trustee in a case under title 11 of the United States Code".

(6) Section 6036 (relating to notice of qualification as executor or receiver) is amended by striking out "trustee in bankruptcy" and inserting in lieu thereof "trustee in a case under title 11 of the United States Code".

(7) Paragraph (2) of section 6155 (b) (relating to cross references) is amended by striking out "bankruptcy or".

(8) Subsection (c) of section 6161 (relating to claims in bankruptcy or receivership proceedings) is amended—

(A) by striking out "in bankruptcy or receivership proceedings" and inserting in lieu thereof "in cases under title 11 of the United States Code or in receivership proceedings", and

(B) by striking out "BANKRUPTCY OR RECEIVERSHIP PROCEEDINGS" in the subsection heading and inserting in lieu thereof "CASES UNDER TITLE 11 OF THE UNITED STATES CODE OR IN RECEIVERSHIP PROCEEDINGS".

(9) Paragraph (1) of section 6216 (relating to cross references) is amended to read as follows:

"(1) For procedures relating to receivership proceedings, see subchapter B of chapter 70."

(10)(A) Section 6326 (relating to cross references) is amended by striking out paragraphs (2), (3), (4), and (5) and inserting in lieu thereof the following:

"(2) For exclusion of tax liability from discharge in cases under title 11 of the United States Code, see section 523 of such title 11.

"(3) For recognition of tax liens in cases under title 11 of the United States Code, see sections 545 and 724 of such title 11.

"(4) For collection of taxes in connection with plans for individuals with regular income in cases under title 11 of the United States Code, see section 1328 of such title 11."

(B) Section 6326 is amended by redesignating paragraphs (6) and (7) as paragraphs (5) and (6), respectively.

(11) Paragraph (2) of section 6503(i) (relating to cross references) is amended to read as follows:

"(2) Receiverships, see subchapter B of chapter 70."

(12) Section 6872 (relating to suspension period on assessment) is amended by striking out "any proceeding under the Bankruptcy Act" and by inserting in lieu thereof "any cases under title 11 of the United States Code".

(13) Section 7430 (as amended by this Act) is amended by inserting after paragraph (1) the following new paragraphs:

"(2) For exclusion of tax liability from discharge in cases under title 11 of the United States Code, see section 523 of such title 11.

"(3) For recognition of tax liens in cases under title 11 of the United States Code, see sections 545 and 724 of such title 11.

"(4) For collection of taxes in connection with plans for individuals with regular income in cases under title 11 of the United States Code, see section 1328 of such title 11."

(14) Paragraph (1) of section 7508(d) is amended by striking out "BANKRUPTCY AND RECEIVERSHIPS" in the paragraph heading and inserting in lieu thereof "CASES UNDER TITLE 11 OF THE UNITED STATES CODE AND RECEIVERSHIPS".

SEC. 7. EFFECTIVE DATES.

(a) For section 2 (Relating to Tax Treatment of Discharge of Indebtedness).—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by section 2 shall apply to any transaction which occurs after December 31, 1980, other than a transaction which occurs in a proceeding in a bankruptcy case or similar judicial proceeding (or in a proceeding under the Bankruptcy Act) commencing on or before December 31, 1980.

(2) TRANSITIONAL RULE.—In the case of any discharge of indebtedness to which subparagraph (A) or (B) of section 108(a)(1) of the Internal Revenue Code of 1954 (relating to exclusion from gross income), as amended by section 2, applies and which occurs before January 1, 1982, or which occurs in a proceeding in a bankruptcy case or similar judicial proceedings commencing before January 1, 1982, then—

(A) section 108(b)(2) of such Code (relating to reduction of tax attributes), as so amended, shall be applied without regard to subparagraphs (A), (B), (C), and (E) thereof, and (B) the basis of any property shall not be reduced under section 1017 of such Code (relating to reduction in basis in connection with discharges of indebtedness), as so amended, below the fair market value of such property on the date the debt is discharged.

(b) FOR SECTION 3 (RELATING TO RULES RELATING TO TITLE 11 CASES FOR INDIVIDUALS).—The amendments made by section 3 shall apply to any bankruptcy case commencing more than 90 days after the date of the enactment of this Act.

(c) FOR SECTION 4 (RELATING TO CORPORATE REORGANIZATION PROVISIONS).—

(1) IN GENERAL.—The amendments made by section 4 shall apply to any bankruptcy case or similar judicial proceeding commencing after December 31, 1980.

(2) EXCHANGES OF PROPERTY FOR ACCRUED INTEREST.—The amendments made by subsection (e) of section 4 (relating to treatment of property attributable to accrued interest) shall also apply to any exchange—

(A) which occurs after December 31, 1980, and

(B) which does not occur in a

bankruptcy case or similar judicial proceeding (or in a proceeding under the Bankruptcy Act) commenced on or before December 31, 1980.

(d) FOR SECTION 5 (RELATING TO MISCELLANEOUS CORPORATE AMENDMENTS).—

(1) FOR SUBSECTION (a) (RELATING TO EXEMPTION FROM PERSONAL HOLDING COMPANY TAX). — The amendments made by subsection (a) of section 5 shall apply to any bankruptcy case or similar judicial proceeding commenced after December 31, 1980.

(2) FOR SUBSECTION (b) (RELATING TO REPEAL OF SPECIAL TREATMENT FOR CERTAIN RAILROAD REDEMPTIONS). —The amendments made by subsection (b) of section 5 shall apply to stock which is issued after December 31, 1980 (other than stock issued pursuant to a plan of reorganization approved on or before that date).

(3) FOR SUBSECTION (c) (RELATING TO APPLICATION OF 12-MONTH LIQUIDATION RULE).—The amendment made by subsection (c) of section 5 shall apply to any bankruptcy case or similar judicial proceeding commenced after December 31, 1980.

(4) FOR SUBSECTION (d) (RELATING TO PERMITTING BANKRUPTCY ESTATE TO BE SUBCHAPTER S SHAREHOLDER).—The amendment made by subsection (d) of section 5 shall apply to any bankruptcy case commenced on or after October 1, 1979.

(5) FOR SUBSECTION (e) (RELATING TO CERTAIN TRANSFERS TO CONTROLLED CORPORATIONS). — The amendments in subsection (a) of this section.

(6) FOR SUBSECTION (f) (RELATING TO EFFECT OF DEBT DISCHARGE ON EARNINGS AND PROFITS). — The amendment made by subsection (f) of section 5 shall apply as provided in subsection (a) of this section.

(e) FOR SECTION 6 (RELATING TO CHANGES IN TAX PROCEDURES).— The amendments made by section 6 shall take effect on October 1, 1979, but shall not apply to any proceeding under the Bankruptcy Act commenced before October 1, 1979.

(f) ELECTION TO SUBSTITUTE SEPTEMBER 30, 1979, FOR DECEMBER 31, 1980.—

(1) IN GENERAL.—The debtor (or debtors) in a bankruptcy case or similar judicial proceeding may (with the approval of the court) elect to apply subsections (a), (c), and (d) by substituting "September 30, 1979" for "December 31, 1980" each place it appears in such subsections.

(2) EFFECT OF ELECTION.—Any election made under paragraph (1) with respect to any proceeding shall apply to all parties to the proceeding.

(3) REVOCATION ONLY WITH CONSENT.—Any election under this subsection may be revoked only with the consent of the Secretary of the Treasury or his delegate.

(4) TIME AND MANNER OF ELECTION.—Any election under this subsection shall be made at such time, and in such manner, as the Secretary of the Treasury or his delegate may by regulations prescribe.

(g) DEFINITIONS.—For purposes of this section—

(1) BANKRUPTCY CASE.—The term "bankruptcy case" means any case under title 11 of the United States Code (as recodified by Public Law 95-598).

(2) SIMILAR JUDICIAL PROCEEDING. —The term "similar judicial proceeding" means a receivership, foreclosure, or similar proceeding in a Federal or State court (as modified by section 368(a)(3)(D) of the Internal Revenue Code of 1954).

Approved December 24, 1980

Senate Report No. 96-1035 2d Session

[Bracketed numerals indicate official report page numbers]

BANKRUPTCY TAX ACT OF 1980

NOVEMBER 25 (legislative day, NOVEMBER 20), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 5043.[1]

The Committee on Finance, to which was referred the act (H.R. 5043) to amend the Internal Revenue Code of 1954 to provide for the tax treatment of bankruptcy, insolvency, and similar proceedings, and for other purposes, having considered the same, reports favorably thereon with amendments and recommends that the act as amended do pass.

The amendments are shown in the text of the bill in linetype and italic.

[2] I. SUMMARY

A. Tax Treatment of Discharge of Indebtedness

In Public Law 95-598, Congress repealed provisions of the Bankruptcy Act governing Federal income tax treatment of a discharge of indebtedness in bankruptcy, effective for cases instituted on or after October 1, 1979. The bill provides tax rules in the Internal Revenue Code applicable to debt discharge in the case of bankrupt or insolvent debtors, and makes related changes to existing Code provisions applicable to debt discharge in the case of solvent debtors outside bankruptcy.

Bankruptcy or insolvency

Under the bill, no amount is to be included in income for Federal income tax purposes by reason of a discharge of indebtedness in a bankruptcy case, or outside bankruptcy if the debtor is insolvent. Instead, the amount of discharged debt which is excluded from gross income by virtue of the bill's provisions (the "debt discharge amount") is applied to reduce certain tax attributes.

Unless the taxpayer elects first to reduce basis in depreciable assets (or in real property held primarily for sale customers in the ordinary course of a trade or business), the debt discharge amount is applied to reduce the taxpayer's net operating losses and then

[1] Public Law 96-589, page 607.

certain tax credits and capital loss carryovers. Any excess of the debt discharge amount over the amount of reduction in these attributes is applied to reduce asset basis (but not below the amount of the taxpayer's remaining undischarged liabilities) and then to reduce carryovers of the foreign tax credit. Any further remaining debt discharge amount is disregarded, i.e., does not result in income or have other tax consequences.

The bill provides that the taxpayer can elect to apply the debt discharge amount first to reduce basis in depreciable property (or in realty held as inventory), before applying any remaining amount to reduce net operating losses and then other tax attributes in the order stated in the bill. A debtor making this election can elect to reduce basis in depreciable property (or in realty held as inventory) below the amount of remaining liabilities (i.e., where the debtor would rather so reduce asset basis than reduce carryovers).

To the extent the debtor makes an election to reduce basis in depreciable assets, or reduces basis in assets after reduction in other tax attributes, it is anticipated that Treasury regulations prescribing the order of basis reduction among assets will generally accord with present Treasury regulations which apply in the case of basis reduction under section 270 of the (now repealed) Bankruptcy Act. If the debtor elects to reduce basis in realty held as inventory, the particular real properties the bases of which are to be reduced will be determined pursuant to Treasury regulations.

To insure that ordinary income treatment eventually will be given to the full amount of basis reduction in depreciable or nondepreciable [3] assets, the bill provides that any gain on a subsequent disposition of reduced-basis assets is subject to "recapture" under sections 1245 or 1250 of the Internal Revenue Code.

Outside bankruptcy—solvent taxpayers

The bill modifies the existing Federal income tax election (Code secs. 108 and 1017) under which a solvent taxpayer outside bankruptcy can elect to reduce basis of assets instead of recognizing current income from debt cancellation. As with the rules of the bill applicable to bankrupt or insolvent debtors, the bill provides that the election to reduce basis allowed to solvent debtors outside bankruptcy requires reduction in basis of depreciable assets (or in realty held as inventory).

To the extent that the debtor makes an election to reduce basis, it is anticipated that Treasury regulations prescribing the order of basis reduction among the taxpayer's depreciable assets will generally accord with present Treasury regulations under section 1017 of the Code. If the debtor elects to reduce basis in realty held as inventory, the particular real properties the bases of which are to be reduced will be determined pursuant to Treasury regulations. As in the case of bankrupt or insolvent debtors, the bill provides that any gain on a subsequent disposition of reduced-basis assets is subject to "recapture" under Code sections 1245 or 1250.

The bill also provides that in the case of a solvent taxpayer outside bankruptcy, a reduction to the purchaser in the amount of a purchase-money debt, by the seller of the property, is treated for Federal income tax purposes as a purchase price reduction and not as a discharge of indebtedness.

Equity-for-debt rules

The committee bill generally does not change the present law rule developed by the courts governing whether income is recognized if a corporation issues its own stock to its creditor for oustanding debt (whether or not the debt constitutes a security for tax purposes). Therefore, no attribute reduction generally will be required where such stock is issued to discharge the debt, except where only a *de minimis* amount of stock is issued.

By contrast, the bill as passed by the House would have provided that if a corporate debtor issues stock in cancellation of short-term debt or trade credit, the debt discharge rules of the bill would apply to the extent the indebtedness exceeds the value of the stock. It is anticipated that by providing for favorable tax treatment if stock is issued to creditors in discharge of debt, the committee bill will encourage reorganization, rather than liquidation, of financially distressed companies that have a potential for surviving as operating concerns.

Because the committee bill generally retains the present law rules governing the tax treatment of debt discharge when a corporation's indebtedness is satisfied with its own stock, the committee bill also retains the present rules of Code section 382(a) relating to special limitations on net operating loss carryover on certain acquisitions of stock of a corporation. Under the House bill, the section 382(a) limitations generally would not have applied to the extent creditors received stock in exchange for their claims.

[4] A creditor who receives stock in cancellation of debt can take a bad debt reduction to the same extent as under present law. In order properly to match the character of the gain derived on sale of such stock with its origin, the committee bill provides that any gain on a later sale of the stock by the former creditor will be "recaptured" as ordinary income up to the amount of the creditor's prior deductions against ordinary income.

The bill also provides that the debt discharge rules apply to the extent that the amount of debt transferred by a shareholder to a corporation as a contribution to capital exceeds the shareholder's basis in the debt.

Other rules concerning debt discharge

In addition, other rules in the bill concerning debt discharge relate to debt acquired by a related party, discharge of liabilities payment of which would have given rise to deductions, the tax benefit rule under Code section 111, and discharge of a partnership debt. Also, the bill provides (overturning a contrary position of the Internal Revenue Service) that if the basis of investment credit property is reduced by a debt discharge amount,

no investment credit recapture will occur by reason of the reduction.

Effective date

The provisions of the bill relating to tax treatment of debt discharge apply for bankruptcy cases (or receivership, foreclosure, or similar judicial proceedings) commenced after December 31, 1980. In the case of discharge of indebtedness outside bankruptcy cases (or receivership, etc. proceedings), the debt discharge rules of the bill apply to any discharge of indebtedness occurring after December 31, 1980.

The bill also provides an effective date election for debtors in bankruptcy cases commenced on or after October 1, 1979 (but prior to January 1, 1981), and for debtors in receivership, foreclosure, or similar judicial proceedings commenced on or after October 1, 1979 (but prior to January 1, 1981). The debtor is such a case or proceeding can elect to have all the following provisions of the bill apply to all transactions in the case or proceeding; section 2 (tax treatment of discharge of indebtedness); section 4 (corporate reorganization provisions); and sections 5(a), 5(b), 5(c), 5(e), and 5(f) (miscellaneous corporate amendments). If the election is made, all provisions of sections 2 and 4 and all the above-listed provisions of section 5 of the bill are applicable to all transactions in the case or proceeding and to all parties involved in the case or proceeding.

B. Bankruptcy Estate of an Individual

In general

The bill treats the bankruptcy estate of an individual in a liquidation or reorganization case under the new bankruptcy statute as a separate taxable entity for Federal income tax purposes. Also, the bill provides that no separate taxable entity is created by commencement of a bankruptcy case in which the debtor is an individual in a case under chapter 13 of the new bankruptcy law (adjustment of debts of an individual with regular income), a partnership, or a corporation.

[5] The Federal income tax rules set forth in the bill with respect to a bankruptcy estate of an individual which is treated as a separate taxable entity include rules for allocation of income and deductions between the debtor and the estate, computation of the estate's taxable income, accounting methods and periods of the estate, the treatment of the estate's administrative costs as deductible expenses, carryover of tax attributes between the debtor and the estate, and requirements for filing and disclosure of returns.

Debtor's election to close taxable year

Also, the bill generally gives an individual debtor an election to close his or her taxable year as of the day the bankruptcy case commences. If the election is made, the debtor's Federal income tax liability for the "short" taxable year ending on commencement of the case becomes an allowable claim against the bankruptcy estate. If the election is not made, the commencement of the bankruptcy case does not terminate the taxable year of an individual debtor.

Effective date

These provisions of the bill apply to bankruptcy cases commencing more than 90 days after the date of enactment of the bill.

C. Corporate Reorganizations in Bankruptcy

Expansion of reorganization provisions

The bill expands the categories of tax-free corporate reorganizations defined in section 368 of the Code to include a new category of "G" reorganizations. This category includes certain transfers of assets pursuant to a court-approved reorganization plan in a bankruptcy case (or in a receivership, foreclosure, or similar proceeding). Accordingly, the bill terminates the applicability of special rules of current law relating to insolvency reorganizations (Code secs. 371-374).

The bill permits a "G" reorganization to take the form of a triangular reorganization, including a "reverse merger." Also, the bill allows the acquiring corporation in a "G" reorganization to transfer the acquired assets to a controlled subsidiary. The statutory rule generally governing carryover of tax attributes in corporate reorganizations (Code sec. 381) will apply in the case of a "G" reorganization.

Since "G" reorganizations are subject to the rules governing the tax treatment of exchanging shareholders and security holders which apply generally to corporate reorganizations, a shareholder or security holder who receives securities in a "G" reorganization with a principal amount exceeding the principal amount of securities surrendered is taxed on the excess. Also, money or other "boot" property received in a "G" reorganization is subject to the dividend-equivalence tests which apply to reorganizations generally.

Property attributable to accrued interest

Under the bill, a creditor exchanging securities in any corporate reorganization described in section 368 of the Code (including a "G" reorganization) will be treated as receiving interest income on the exchange to the extent the creditor receives new securities, stock, or other property attributable to accrued but unpaid interest on the securities surrendered.

[6] *Effective date*

These provisions apply to bankruptcy cases commencing after December 31, 1980, and to receivership, foreclosure, or similar judicial proceedings commencing after that date. Also, these provisions will apply to a bankruptcy case or a receivership, etc. proceeding commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election (described above) is made.

In the case of transactions outside bankruptcy cases and receivership, etc. proceedings, the amendments relating to exchanges of property for accrued

interest apply to transactions occurring after December 31, 1980.

D. Miscellaneous Corporate Amendments

The bill makes a number of miscellaneous amendments to the Internal Revenue Code relating to corporate tax issues, including the following.

1. Personal holding company status.—Under the bill, a corporate debtor generally is not to be considered a personal holding company, subject to additional taxes on certain passive income, while in a bankruptcy case (or receivership, foreclosure, or similar proceeding). This provision applies to bankruptcy cases commencing after December 31, 1980, and to receivership, etc. proceedings commencing after that date. Also, this provision will apply to a bankruptcy case or a receivership, etc. proceeding commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election (as described above) is made.

2. Liquidation rule.—The corporate nonrecognition tax rules applicable to 12-month liquidations are extended by the bill to cover sales by a corporation in a bankruptcy case (or a receivership, etc. proceeding) of assets, other than assets acquired after commencement of the bankruptcy case, during the entire period after adoption (after commencement of the case) of the plan of liquidation through conclusion of the case. This provision applies to bankruptcy cases (or receivership, etc. proceedings) commencing after December 31, 1980. Also, this provision will apply to a bankruptcy case or a receivership, etc. proceeding commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election (described above) is made.

3. Subchapter S shareholder.—The bill provides for bankruptcy cases commencing on or after October 1, 1979, the bankruptcy estate of an individual debtor can be an eligible shareholder in a subchapter S corporation.

4. Section 351 applicability.—Under the bill, transfers to a controlled corporation which is not evidenced by a security, or of claims against the corporation for accrued but unpaid interest on indebtedness, are not covered by the nonrecognition rule of section 351 of the Code. Also, the nonrecognition rule does not apply in the case of a transfer to a controlled corporation of the assets of a debtor in a bankruptcy or similar case to the extent the stock or securities received in exchange for the assets are used to satisfy the indebtedness of the debtor. The effective date for these provisions is the same as for the provisions of the bill relating to tax treatment of discharge of indebtedness.

[7] *5. Earnings and profits.*—The bill provides that to the extent the amount of discharged indebtedness is applied to reduce basis under section 1017 of the Code, such basis-reduction amount does not affect the debtor corporation's earnings and profits. Also, the bill provides that any deficit in earnings and profits is reduced by the paid-in capital of any shareholder whose interest is eliminated in a bankruptcy case. The effective date for this provision is the same as for the provisions of the bill relating to tax treatment of discharge of indebtedness.

E. Changes in Tax Procedures

The bill coordinates certain provisions of the Internal Revenue Code with the bankruptcy court procedures enacted in Public Law 95-598.[1] These procedures include the automatic stay on assessment or collection of certain tax claims against the debtor, the automatic stay on institution or continuation by the debtor of deficiency litigation in the U.S. Tax Court, and the authority of the bankruptcy court to lift the stay and permit the debtor's tax liability to be determined by the Tax Court.

[8] II. EXPLANATION OF THE BILL

A. Tax Treatment of Discharge of Indebtedness (sec. 2 of the bill and secs. 108, 111, 382(b) and 1017 of the Code)

Present Law

In general

Under present law, income is realized when indebtedness is forgiven or in other ways cancelled (sec. 61(a)(12) of the Internal Revenue Code). For example, if a corporation has issued a $1,000 bond at par which it later repurchases for only $900, thereby increasing its net worth by $100, the corporation realizes $100 of income in the year of repurchase (*United States* v. *Kirby Lumber Co.*, 284 U.S. 1 (1931)).

There are several exceptions to the general rule of income realization. Under a judicially developed "insolvency exception," no income arises from discharge of indebtedness if the debtor is insolvent both before and after the transaction;[1] and if the transaction leaves the debtor with assets whose value exceeds remaining liabilities, income is realized only to the extent of the excess.[2] Treasury regulations provide that the gratuitous cancellation of

[1] In 1978, the Congress enacted legislation (Public Law 95-598) which significantly revised and modernized the substantive law of bankruptcy as well as bankruptcy court procedures. Public Law 95-598 repealed the Bankruptcy Act and substituted a new title 11 in the U.S. Code, completely replacing the former provisions. The new law generally was effective for bankruptcy cases commencing on or after October 1, 1979.

The 1978 statute did not include a "short title" (although it has been designated by some commentators as the "Bankruptcy Reform of 1978"). This report refers to the 1978 bankruptcy statute as "P.L. 95-598." The substantive bankruptcy law which was superseded by P.L. 95-598 is referred to as the "Bankruptcy Act."

In this report, the provisions of title 11 of the U.S. Code which were enacted by P.L. 95-598 are cited as "new 11 U.S. Code sec. —." References to the "Code" are to the Internal Revenue Code of 1954, as amended.

In the bill (H.R. 5043), bankruptcy cases to which the substantive provisions of P.L. 95-598 apply—generally, cases commenced on or after October 1, 1979—are referred to as "title 11 cases."

[1] Treas. Regs. § 161-12(b)(1); *Dallas Transfer & Terminal Warehouse Co.* v. *Comm'r*, 70 F.2d 95 (5th Cir. 1934).

[2] *Lakeland Grocery Co.*, 36 B.T.A. 289 (1937).

a corporation's indebtedness by a shareholder-creditor does not give rise to debt discharge income to the extent of the principal of the debt, since the cancellation amounts to a contribution to capital of the corporation.[3] Some courts have applied this exception even if the corporation had previously deducted the amount owed to the shareholder-creditor.[4] Under a related exception, cases have held that no income arises from discharge of indebtedness if stock is issued to a creditor in satisfaction of the debt, even if the creditor was previously a shareholder, and even if the stock is worth less than the face amount of the obligation satisfied.[5] Further, cancellation of a previously accrued and deducted expense does not give rise to income if the deduction did not result in a reduction of tax (Code sec. 111). A debt cancellation which constitutes a gift or bequest is not treated as income to the donee debtor (Code sec. 102).[6]

A debtor which otherwise would be required to report current income from debt cancellation under the preceding rules instead may elect to reduce the basis of its assets in accordance with Treasury regulations (Code secs. 108 and 1017). This income exclusion is available if the discharged indebtedness was incurred by a corporation or [9] by an individual in connection with property used in his trade or business. These provisions were intended to allow the tax on the debt discharge income to be deferred and collected through lower depreciation reductions for the reduced-basis assets, or greater taxable gains on sale of the assets.

The Internal Revenue Service takes the position that a reduction in the basis of qualified investment credit property resulting from an income-exclusion election under sections 108 and 1017 of the Code is *pro tanto* a disposition of the property the basis of which was reduced, resulting in partial recapture of the investment credit allowed upon its purchase (Rev. Rul. 74-184, 1974-1 C.B. 8).

Bankruptcy proceedings

The Bankruptcy Act contains certain rules relating to the Federal income tax treatment of discharge of indebtedness in bankruptcy proceedings. However, these rules have been repealed by P.L. 95-598 effective for bankruptcy cases instituted on or after October 1, 1979.

Under the Bankruptcy Act provisions, no income is recognized on cancellation of indebtedness in an insolvency reorganization (under chapter X). The Act requires the debtor corporation to reduce the basis of its assets by the amount of indebtedness discharged, but not below the fair market value of such assets as of the date the bankruptcy court confirms the reorganization plan.[7] However, under section 372 of the Internal Revenue Code, no basis reduction is required if the corporation's property is transfered to a successor corporation as part of the bankruptcy reorganization.[8]

Similar rules apply in the case of an "arangement" (under chapter XI), a "real property arrangement" (under chapter XII), and a wage earner's plan (under chapter XIII), except that no basis reduction is required under a wage earner's plan.[9] In addition, in the case of a Bankruptcy Act discharge other than under an insolvency reorganization or an arrangement described above, income is not realized to the extent the general "insolvency exception" applies.[10]

Reasons for Change

Overview

In P.L. 95-598, Congress repealed provisions of the Bankruptcy Act governing Federal income tax treatment of debt discharge in bankruptcy, effective for cases instituted on or after October 1, 1979. The committee's bill provides tax rules in the Internal Revenue Code applicable to debt discharge in the case of bankrupt or insolvent debtors, and makes related changes to existing Code provisions applicable to debt discharge in the case of solvent debtors outside bankruptcy.

The rules of the bill concerning income tax treatment of debt discharge in bankruptcy are intended to accommodate bankruptcy policy [10] and tax policy. To preserve the debtor's "fresh start" after bankruptcy, the bill provides that no income is recognized by reason of debt discharge in bankruptcy, so that a debtor coming out of bankruptcy (or an insolvent debtor outside bankruptcy) is not burdened with an immediate tax liability. The bill provides that the debt discharge amount thus excluded from income is applied to reduce the taxpayer's net operating losses and certain other tax attributes, unless the taxpayer elects to apply the debt discharge amount first to reduce basis in depreciable assets (or in realty held as inventory).

In the case of solvent debtors outside bankruptcy, the bill modifies the election (under Code secs. 108 and 1017) permitting such debtors to reduce asset basis in lieu of reporting ordinary income from debt cancellation, as on repurchase of bonds at a discount. Under the bill, a solvent taxpayer can elect to reduce basis only in depreciable assets (or in realty held as inventory).

[6] Debt discharge that is only a medium for some other form of payment, such as a gift or salary, is treated as that form of payment rather than under the debt discharge rules. Treas. Regs. § 1.61-12(a).

[7] Secs. 268 and 270 of the Bankruptcy Act.

[8] While under present law no basis reduction is required if a successor corporation is used in the insolvency reorganization, the Code under present law does not permit the carryover of tax attributes, such as net operating losses, from the debtor to the successor corporation (except possibly in certain situations where the reorganization meets the requirements of secs. 368 and 381 of the Code, in which case net operating losses may be limited by section 382 of the Code).

[10] Treas. Regs. § 1.61-12(b). See text accompanying notes 1 and 2.

Debtors given flexibility

The committee believes that these attribute-reduction provisions of the bill give flexibility to the debtor to account for a debt discharge amount in a manner most favorable to the debtor's tax situation. For example, a bankrupt or insolvent debtor which wishes to retain net operating losses and other carryovers will be able to elect to reduce asset basis in depreciable property (or in realty held as inventory). On the other hand, a debtor having an expiring net operating loss which otherwise would be "wasted" will be able (by not making the election) to apply the debt discharge amount first against the net operating loss. Similarly, a solvent debtor can continue to defer recognition of income by electing to reduce basis of depreciable assets (or in realty held as inventory), or (by not electing) can include all or part of the debt discharge amount in income (for example, in order to offset an expiring net operating loss).

At the same time, in developing the rules of the bill, the committee recognized that the basis-reduction mechanism of present law fails to effectuate the Congressional intent of deferring, but eventually collecting tax on, ordinary income realized from debt discharge.

Thus present law permits both solvent and insolvent taxpayers to apply the amount of their discharged debts to reduce the basis of nondepreciable assets which may never be sold, such as stock in a subsidiary corporation or the land on which the company operates its business, thereby avoiding completely, rather than deferring, the tax consequences of debt discharge. Also under present law, a related party (such as the parent corporation of a debtor) can acquire the taxpayer's debt at a discount and effectively eliminate it as a real liability to outside interests, but the debtor thereby avoids the tax treatment which would apply if the debtor had directly retired the debt by repurchasing it. In other cases, the debtor may be able to convert ordinary income from discharge of indebtedness into capital gain, as where the debtor reduces basis in a nondepreciable capital asset.

Deferal of ordinary income on debt discharge

Accordingly, the rules of the bill are intended to carry out the Congressional intent of deferring, but eventually collecting within a reasonable period, tax on ordinary income realized from debt discharge. Thus in the case of a bankrupt or insolvent debtor, the debt discharge [11] amount is applied to reduce the taxpayer's net operating losses and certain other tax attributes, unless the taxpayer elects to apply the amount first to reduce basis in depreciable assets. In the case of a solvent debtor outside bankruptcy, the debtor can defer recognition of income, but only by reducing basis in depreciable assets. Similarly, the debtor can defer immediate tax consequences of debt discharge by reducing basis in real property held as inventory. A subsequent disposition of such reduced-basis realty will result in recognition of a larger amount of ordinary income, just as reduction in basis of depreciable assets results in lower depreciation deductions to offset ordinary income.

To insure that the debt discharge amount eventually will result in ordinary income (and cannot be converted to capital gain), the bill provides that any gain on a subsequent disposition of the reduced-basis property will be subject to a "recapture" under rules similar to those now applicable with respect to depreciation recapture. Also, the bill contains rules relating to discharge of indebtedness as a capital contribution, acquisition of debt by a related party, discharge of partnership debt, and other income tax aspects of discharge of indebtedness.

Stock-for-debt rules to encourage reorganizations

The committee bill generally does not change the present law rule developed by the courts governing whether income is recognized if a corporation issues its own stock to its creditor for outstanding debt (whether or not the debt constitutes a security for tax purposes). Therefore, no attribute reduction generally will be required where such stock is issued to discharge the debt. The bill as passed by the House would have provided that if a corporate debtor issues stock in cancellation of short-term debt or trade credit, the debt discharge rules of the bill would have applied to the extent the indebtedness exceeded the value of the stock.

The commitee believes that by providing for favorable tax treatment if stock is issued to creditors in discharge of debt, the committee bill encourages reorganization, rather than liquidation, of financially distressed companies that have a potential for surviving as operating concerns. However, the committee does not believe that these rules should apply if only a *de minimis* amount of stock is issued for the outstanding debt, so that the general rules on debt forgiveness cannot thereby be circumvented.

The deduction available under present law for certain creditors receiving stock in cancellation of a debt remains unchanged. However, the committee bill provides that any gain on a later sale of the stock by the former creditor will be "recaptured" as ordinary income up to the amount of the creditor's prior deductions against ordinary income.

Because the committee bill generally retains the present law rules governing the tax treatment of debt discharge when a corporation's indebtedness is satisfied with its own stock, the committee bill also retains the present rules of Code section 382(a) relating to special limitations on net operating loss carryover on certain acquisitions of stock of a corporation. Under the House bill, the section 382(a) limitations generally would not have applied to the extent creditors received stock in exchange for their claims.

[12] *Postponement of effective dates for bankruptcy cases*

Under the bill as introduced and passed by the House, the provisions

relating to tax treatment of debt discharge (section 2), corporate reorganizations in bankruptcy (section 4), and certain miscellaneous corporate amendments (section 5) would have applied for bankruptcy cases (or receivership, foreclosure, or similar judicial proceedings) commenced on or after October 1, 1979. In light of the time that has elapsed since introduction of the bill, the committee believes that the provisions of sections 2, 4, and 5 of the bill should apply to bankruptcy cases (or receivership, etc. proceedings) commenced after December 31, 1980.

However, some taxpayers may have entered into bankruptcy reorganizations with the expectation that the bill would be enacted with the original retroactive effective dates. Accordingly, the committee bill allows a bankrupt or insolvent debtor, in the case of proceedings commenced on or after October 1, 1979, to elect to have all the debt discharge and related provisions of the bill (sections 2, 4, and 5), apply retroactively as under the original effective date. No change would be made in the effective date for rules applicable to debt discharge, etc. outside bankruptcy (i.e., transactions occurring after December 31, 1980).

Explanation of Provisions

Debt discharge in bankruptcy

In general

Under the bill, no amount is to be included in income for Federal income tax purposes by reason of a discharge of indebtedness in a bankruptcy case.[11] Instead, the amount of discharged debt which is excluded from gross income by virtue of the bill's provisions (the "debt discharge amount") is to be applied to reduce certain tax attributes.

Unless the taxpayer elects first to reduce basis in depreciable assets (or in real property held primarily for sale to customers in the ordinary course of a trade or business), the debt discharge amount is applied to reduce the taxpayer's tax attributes in the following order:

(1) net operating losses and carryovers;

(2) carryovers of the investment tax credit (other than the ESOP credit), the WIN credit, the new jobs credit, and the credit for alcohol used as a fuel;

(3) capital losses and carryovers;

(4) the basis of the taxpayer's assets (both depreciable and nondepreciable); and

(5) carryovers of the foreign tax credit.[12]

[13] The reduction in each category of carryovers is made in the order of taxable years in which the items would be used, with the order determined as if the debt discharge amount were not excluded from income.[13] For this purpose, any limitations on the use of credits that are based on the income of the taxpayer are disregarded.

After reduction of the attributes specified in categories (1), (2), and (3) above, any remaining debt discharge amount is applied to reduce asset basis, but not below the amount of the taxpayer's remaining undischarged liabilities. (Thus, a sale of all the taxpayer's assets immediately after the discharge generally will not result in income tax liability unless the sale proceeds and cash on hand exceed the amount needed to pay off the remaining liabilities.) Any amount of debt discharge which remains after such reduction in asset basis, including any debt discharge amount which remains unapplied solely by virtue of the limitation just described with respect to undischarged liabilities, is applied to reduce carryovers of the foreign tax credit.

Any amount of debt discharge which is left after attribute reduction under these rules is disregarded, i.e., does not result in income or have other tax consequences.

Election to reduce basis in certain property

The bill provides that the taxpayer can elect, in accordance with Treasury regulations, to apply all or a portion of the debt discharge amount first to reduce basis (but not below zero) in depreciable property[14] or in real property held primarily for sale to customers in the ordinary course of a trade or business (within the meaning of Code sec. 1221(1)). Any remaining amount is then applied to reduce net operating losses and other tax attributes in the order described above. A debtor making this election can elect to reduce basis (but not below zero) in depreciable proerty or in realty held as inventory below the amount of remaining liabilities (i.e., where the debtor would rather reduce basis in such assets than reduce carryovers).

[11] For purposes of these rules, the term "bankruptcy case" (referred to in the bill as a "title 11 case") means a case under new title 11 of the U.S. Code, but only if the taxpayer is under the jurisdiction of the court in the case and the discharge of indebtedness is granted by the court or is pursuant to a plan approved by the court.

[12] For purposes of the attribute reduction rules, credits are reduced at the rate of 50 cents for each dollar of debt discharge amount. This flat-rate reduction avoids the complexity of determining a tax on the debt discharge amount and determining how much of the amount would be used up by the credits for purposes of determining other reductions. Except for reductions in credit carryovers, the specified tax attributes are reduced one dollar for each dollar of debt discharge amount.

[13] Thus in the case of net operating losses or capital losses, the debt discharge amount first reduces the current year's loss and then reduces the loss carryovers in the order in which they arose. The investment credit carryovers are reduced on a FIFO basis, and the other credit carryovers also are reduced in the order they would be used against taxable income. These reductions are made after the computation of the current year's tax.

[14] For this purpose, the term "depreciable property" means any property of a character subject to the allowance for depreciation, but only if the basis reduction would reduce the amount of depreciation or amortization which otherwise would be allowable for the period immediately following such reduction. Thus, for example, a lessor could not reduce the basis of leased property where the lessee's obligation in respect of the property will restore to the lessor the loss due to depreciation during the term of the lease, since the lessor cannot take depreciation in respect of that property. See *Harry H. Kem, Jr.*, 51 T.C. 455 (1968), *aff'd*, 432 F.2d 961 (9th Cir. 1970).

In addition, the bill provides that, for purposes of this election, stock held by a parent corporation in a subsidiary is treated as depreciable property (or as realty held as inventory) if the parent and subsidiary file a consolidated return for the taxable year in which the discharge occurs, and if the subsidiary agrees to reduce its basis in depreciable property (or in real property held as inventory) which the subsidiary holds.[15] Thus, if the debtor is a parent corporation which files [14] a consolidated return with a subsidiary, the debtor can elect to apply the debt discharge amount, in accordance with Treasury regulations, to reduce the basis of stock it holds in the subsidiary to the extent the subsidiary consents to reduce the basis of depreciable property which it holds (or realty which it holds as inventory).

An election first to reduce basis in depreciable property in realty held as inventory must be made on the taxpayer's return for the year in which the discharge occurs, or at such time as permitted by Treasury regulations. Once made, the election can be revoked by the taxpayer only with the consent of the Internal Revenue Service.

Recapture rule

If the basis of property is reduced pursuant to the attribute reduction rules in the bill, any gain on a subsequent disposition of the property is subject to "recapture" under section 1245 of the Code or, in the case of depreciable realty, under section 1250. (This recapture rule applies to any reduced-basis asset, whether depreciable or non-depreciable, and whether or not a disposition of such asset otherwise would be subject to recapture under Code sections 1245 or 1250.) The computation of the amount of straight-line depreciation (under sec. 1250(b)) is determined as if there had been no reduction of basis under section 1017.

[15] This rule can be applied successively through a chain of corporations so long as the lowest tier subsidiary reduces its basis in actual depreciable property (or realty which it holds as inventory).

Basis reduction—general rule

To the extent a debtor makes an election to reduce basis in depreciable property, or reduces basis in assets after reduction of other attributes, the particular properties the bases of which are to be reduced will be determined pursuant to Treasury regulations. It is anticipated that the order of reduction prescribed in such regulations will generally accord with present Treasury regulations which apply in the case of basis reduction under section 270 of the (now repealed) Bankruptcy Act (Treas. Regs. §§ 1.1016-7 and 1.1016-8). If the debtor elects to reduce basis in realty held as inventory, the particular real properties the bases of which are to be reduced will be determined pursuant to Treasury regulations.

In order to avoid interaction between basis reduction and reduction of other attributes, the bill provides that the basis reduction takes effect on the first day of the taxable year following the year in which the discharge took place. If basis reduction is required in respect of a discharge of indebtedness in the final year of a bankruptcy estate, the reduction is to be made in the basis of assets acquired by the debtor from the estate at the time so acquired.

In a bankruptcy case involving an individual debtor to which new section 1398 of the Code (as added by the bill) applies, any attribute reduction required under the bill applies to the attributes of the bankruptcy estate (except for purposes of applying the basis-reduction rules of section 1017 to property transferred by the estate to the individual) and not to those attributes of the individual which arise after commencement of the case. Also, the bill provides that in a bankruptcy case involving an individual debtor, no reduction in basis is to be made in the basis of property which the debtor treats as exempt property under new 11 U.S. Code section 522.

[15] *Debt discharge outside bankruptcy—insolvent debtors*

The bill provides that if a discharge of indebtedness occurs when the taxpayer is insolvent (but is not in a bankruptcy case), the amount of debt discharge is excluded from gross income up to the amount by which the taxpayer is insolvent.[16] The excluded amount is applied to reduce tax attributes in the same manner as if the discharge had occurred in a bankruptcy case. Any balance of the debt discharged which is not excluded from gross income (because it exceeds the insolvency amount) is treated in the same manner as debt cancellation in the case of a wholly solvent taxpayer.

Debt discharge outside bankruptcy—solvent debtors

In the case of a solvent taxpayer outside bankruptcy, the bill modifies the present rule (secs. 108 and 1017 of the Code) permitting an election to reduce the basis of assets in lieu of reporting income from discharge of indebtedness. Under the election as modified, income from debt discharge will not currently be recognized by a solvent debtor outside bankruptcy to the extent the debtor elects to reduce basis in depreciable property or in real property held primarily for sale to customers in the ordinary course of a trade or business (within the meaning of Code sec. 1221(1)).[17]

[16] The bill defines "insolvent" as the excess of liabilities over the fair market value of assets, determined with respect to the taxpayer's assets and liabilities immediately before the debt discharge. The bill provides that except pursuant to section 108(a)(1)(B) of the Code (as added by the bill), there is to be no insolvency exception from the general rule that gross income includes income from discharge of indebtedness.

[17] The exclusion from gross income under section 108(a) of the Code (as amended by the bill) applies, in the case of a discharge which does not occur in a title 11 case and which does not occur when the taxpayer is insolvent, where the indebtedness discharged is "qualified business indebtedness." The latter term means indebtedness of the taxpayer if both (1) the indebtedness was incurred or assumed by a corporation, or by an individual in connection with property used in his trade or business, and also (2) the taxpayer makes an election to reduce the basis of depreciable or realty held as inventory.

For this purpose, the term "depreciable property" is defined the same way as in the case of the election by a bankrupt or insolvent taxpayer to reduce the basis of depreciable property (see note 14, *supra*).

If the debtor elects to reduce basis in depreciable property, the particular depreciable assets the bases of which are to be reduced (but not below zero) will be determined pursuant to Treasury regulations. It is anticipated that the order of reduction among depreciable assets of the taxpayer will generally accord with present Treasury regulations (Treas. Regs. §§ 1.1017-1 and 1.1017-2). If the debtor elects to reduce basis in realty held as inventory, the particular real properties the bases of which are to be reduced (but not below zero) will be determined pursuant to Treasury regulations. The bill provides that the basis reduction takes effect on the first day of the taxable year following the year in which the discharge takes place.

In addition, the bill provides that, for purposes of this election, stock held by a parent corporation in a subsidiary is treated as depreciable property (or as realty held as inventory) if the parent and subsidiary file a consolidated return for the taxable year in which the discharge occurs, and if the subsidiary agrees to reduce its basis in depreciable property (or in real property held as inventory) which the [16] subsidiary holds.[18] Thus, if the debtor is a parent corporation which files a consolidated return with a subsidiary, the debtor can elect to apply the debt discharge amount, in accordance with Treasury regulations, to reduce the basis of stock it holds in the subsidiary to the extent the subsidiary consents to reduce the basis of depreciable property which it holds (or realty which it holds as inventory).

An election first to reduce basis in depreciable property or in realty held as inventory must be made on the taxpayer's return for the year in which the discharge occurs, or at such time as permitted by Treasury regulations. Once made, the election can be revoked by the taxpayer only with the consent of the Internal Revenue Service.

To the extent a solvent taxpayer outside bankruptcy does not make an election to reduce basis in depreciable property (or in realty held as inventory) in lieu of reporting income from debt discharge, or to the extent the debt discharge amount exceeds the maximum reduction which can be made through an election, the excess constitutes income from discharge of indebtedness which constitutes gross income for Federal income tax purposes (sec. 61(a)(12) of the Code).

Recapture rule

To ensure that ordinary income treatment eventually will be given to the full amount of basis reduction, the bill provides that any gain on a subsequent disposition of reduced-basis property is subject to "recapture" under section 1245 of the Code or, in the case of depreciable realty, under section 1250. (This recapture rule applies to any reduced-basis property, whether or not a disposition of such property otherwise would be subject to recapture under Code sections 1245 or 1250.) The computation of the amount of straight-line depreciation (under sec. 1250(b)) is determined as if there had been no reduction of basis under section 1017.

Certain reductions as purchase price adjustments

The bill provides that if the seller of specific property reduces the debt of the purchaser which arose out of the purchase, and the reduction to the purchaser does not occur in a bankruptcy case or when the purchaser is insolvent, then the reduction to the purchaser of the purchase-money is to be treated (for both the seller and the buyer) as a purchase price adjustment on that property. This rule applies only if but for this provision the amount of the reduction would be treated as income from discharge of indebtedness.

This provision is intended to eliminate disagreements between the Internal Revenue Service and the debtor as to whether, in a particular case to which the provision applies, the debt reductions should be treated as discharge income or a true price adjustment. If the debt has been transferred by the seller to a third party (whether or not related to the seller), or if the property has been transferred by the buyer to a third party (whether or not related to the buyer), this provision does not apply to determine whether a reduction in the amount of purchase-money debt should be treated as discharge income or a true price adjustment. Also, this provision does not apply when the debt is reduced [17] because of factors not involving direct agreements between the buyer and the seller, such as the running of the statue of limitations on enforcement of the obligation.

Equity-for-debt rules

Issuance of stock

The committee bill generally does not change the present law rule developed by the courts governing whether income is recognized if a corporation issues its own stock to its creditor for outstanding debt (whether or not the debt constitutes a security for tax purposes). Therefore, no attribute reduction generally will be required where such stock is issued to discharge the debt.

However, the general "stock-for-debt exception" will not apply if only a nominal or token amount of stock is issued for the debt, to be determined according to all the facts and circumstances, so that the forgiveness rules may not be circumvented by the issuance of nominal or token shares to a creditor who had no real equity interest in the corporation.

Also, the general "stock-for-debt exception" will not apply to the debt of an unsecured creditor[19] in a work-

[18] This rule can be applied successively through a chain of corporations so long as the lowest tier subsidiary reduces its basis in actual depreciable property (or realty which it holds as inventory).

[19] For this purpose, a claim is considered as secured by a lien on property only to the extent of the fair market value of the creditor's interest in such property. Any claim in excess of such value is treated as a separate claim of an unsecured creditor. This is consistent with the approach taken in new 11 U.S. Code sec. 506.

out[20] if that creditor receives an amount of stock (by value) which is less than one-half the amount of stock that such creditor would receive if all the corporation's unsecured creditors, to the extent their debts are either cancelled or satisfied with the debtor's stock in the workout, received a pro-rata amount of the stock issued.

Thus, for example, if creditor A held $1,000 of unsecured debt against a debtor corporation and if, in a workout, the debtor corporation fully satisfied $10,000 of its unsecured debt (including the debt to A) by the transfer of $6,000 of its stock, A must receive at least $300 of stock in satisfaction of its claim (assuming no other property is transferred) in order for the debtor to rely, with respect to the stock issued to A, on the general rule of present law that no debt discharge income is recognized and no attribute reduction is required when a corporation's debt is satisfied by the issuance of its own stock. If creditor A receives only $100 of stock for his $1,000 debt under these facts, then the debtor corporation will have a debt discharge amount of $900 with respect to issuance of stock to creditor A. If creditor A receives $300 or more of stock for his $1,000 debt under these facts, then the debtor corporation will not have any debt discharge amount with respect to issuance of stock to creditor A.

If a corporate debtor issues a package of stock and other property in cancellation of debt, the cash and other property are to be treated as satisfying an amount of debt equal to the amount of cash and the value of other property, and the stock is to be treated as satisfying the remainder of the debt. Consequently, there will be no debt discharge amount recognized by the debtor (unless the *de minimis* exception applies) on issuance of stock and other property for debt.

[18] Because the committee bill generally retains the present law rules governing the tax treatment of debt discharge when a corporation's indebtedness is satisfied with its own stock, the committee bill also retains the present rules of Code section 382 (a) relating to special limitations on net operating loss carryover on certain acquisitions of stock of a corporation. Under the House bill, the section 382 (a) limitations generally would not have applied to the extent creditors received stock in exchange for their claims.

Recapture on disposition of stock

The committee bill provides that if a creditor acquires stock of the debtor corporation in exchange for the corporation's indebtedness, then upon subsequent disposition of the stock, any deduction taken with respect to the debt either as a bad debt deduction (under Code secs. 166(a) or (c)), reduced by any gain on the exchange, or as an ordinary loss on the exchange shall be subject to "recapture" under the rules of Code section 1245.[20a]

Thus, for example, assume that corporation A made a $1,000 short-term loan to corporation B on July 1, 1980, and that corporation A, for its taxable year 1982, takes an $800 deduction for partially worthless bad debt under Code section 166(a). Assume further that on March 1, 1983, B satisfies the principal of the debt with B stock worth $500, resulting in a gain to A of $300. If A later disposes of the B stock for $1,500, $500 of A's gain will be treated as ordinary income ($800 bad debt deduction less $300 gain on receipt of the stock). In addition, if the stock is disposed of in a tax-free transaction (for example, by reason of secs. 354 or 1306), the potential recapture will carry over to the stock received.

In the case of a cash-basis creditor, any amount not taken into account by reason of his method of accounting shall be treated the same as a deduction allowed with respect to the debt. A special rule is provided in the bill for taxpayers on the reserve method for bad debts under Code section 166(c).

Capital contributions

The bill provides that the discharge of indebtedness rules apply to the extent that the amount of debt transferred to a corporation as a contribution to capital exceeds the shareholder's basis in the debt.[21] [19] Thus, the discharge of indebtedness rules apply when a cash-basis taxpayer contributes to the capital of an accrual-basis corporation a debt representing an accrued expense previously deducted by the corporation.[22]

[20] A "workout" includes a title 11 case (within the meaning of Code sec. 368(a)(3)(A)) or other transaction or series of transactions involving a significant restructuring of the debt of a corporation in financial difficulty.

[20a] For purposes of these recapture rules, the bill provides that the term "debtor corporation" includes a successor corporation, and that stock of a corporation in control of the debtor corporation is treated as stock of the debtor. Also, the bill provides that similar recapture rules apply in the case of discharge of partnership indebtedness.

[21] For example, assume a corporation accrues and deducts (but does not actually pay) a $1,000 liability to a shareholder-employee as salary, and the cash-basis employee does not include the $1,000 in income. In a later year, the shareholder-employee forgives the debt.

Under the bill, the corporation must account for a debt discharge amount of $1,000. If the corporation is insolvent or in bankruptcy, it must apply the $1,000 debt discharge amount to reduce tax attributes pursuant to the rules discussed in the text above. If the debtor is a solvent corporation outside bankruptcy, it can elect to reduce basis of depreciable assets (or of realty held as inventory) by $1,000 in lieu of recognizing $1,000 of income in the year of discharge.

On the other hand, if the shareholder-employee were on the accrual basis, had included the salary in income, and his or her basis in the debt was still $1,000 at the time of the contribution, there would be no debt discharge amount, and no attribute reduction would be required.

[22] This contribution-to-capital rule reverses the result reached in *Putoma Corp. v. Comm'r*, 66 T.C. 652 (1976), *aff'd*, 601 F.2d (5th Cir. 1979). Moreover, it is intended that the result reached in *Putoma* could not alternatively be sustained on the ground that the shareholder has made a "gift" to the corporation, since it is intended that there will not be any gift exception in a commercial context (such as a shareholder-corporation relationship) to the general rule that income is realized on discharge of indebtedness.

Whether a cancellation of indebtedness by a shareholder-creditor is a contribution

Debt acquired by related party

The bill provides that, for purposes of determining income of the debtor from discharge of indebtedness, an outstanding debt acquired from an unrelated party by a party related to the debtor is treated as having been acquired by the debtor to the extent provided in regulations issued by the Treasury Department.

For purposes of this rule, a person is treated as related to the debtor if the person is (1) a member of a controlled group of corporations (as defined for purposes of Code sec. 414(b)) of which group the debtor is a member; (2) a trade or business treated as under common control with respect to the debtor (within the meaning of Code secs. 414(b) or 414(c)); (3) either a partner in a partnership treated as controlled by the debtor or a controlled partnership with respect to the debtor (within the meaning of Code sec. 707(b)(1); or (4) a member of the debtor's family or other person bearing a relationship to the debtor specified in Code section 267(b). The definition of "family" for this purpose also includes a spouse of the debtor's child or grandchild.

This rule is intended to treat a debtor as having its debt discharged if a party related to the debtor purchases the debt at a discount (for example, where a parent corporation purchases at a discount debt issued by its subsidiary).[23]

[20] *Other rules concerning debt discharge*

No disposition on basis reduction.—If the basis of qualified investment credit property is reduced by a debt discharge amount under the rules of the bill, no investment credit recapture tax is incurred, because the reduction would not be considered a disposition. This rule overturns the position taken by the Internal Revenue Service in Rev. Rul. 74-184, *supra,* in the case of a solvent debtor making an election under sections 108 and 1017 of the Code (as amended by the bill), and precludes extension of that position to bankrupt or insolvent debtors.[24]

Indebtedness of taxpayer.—The debt discharge rules of the bill apply with respect to discharge of any indebtedness for which the taxpayer is liable or subject to which the taxpayer holds property.

Unamortized premium and discount.—The bill provides that the amount taken into account with respect to any discharge of indebtedness is to be properly adjusted for unamortized premium and unamortized discount with respect to the indebtedness discharged.[25]

"Lost" deductions.—The bill provides that if the payment of a liability would have given rise to a deduction, the discharge of that liability does not give rise to income or require reduction of tax attributes. For example, assume a cash-basis taxpayer owes $1,000 to its cash-basis employee as salary and has not actually paid such amount. If later the employee forgives the debt (whether or not as a contribution to capital), then the discharge does not give rise to income or require any reduction of tax attributes.

Tax benefit rule.—The bill clarifies present law by providing that in applying the tax benefit rule of Code section 111 in order to determine if the recovery of an item is taxable, a deduction is treated as having produced a reduction in tax if the deduction increased a carryover that had not expired at the end of the taxable year in which the recovery occurs. Thus, if an accrual-basis taxpayer incurs a deductible obligation to pay rent in 1980, and that obligation is forgiven in 1981, the rent deduction is treated as having produced a reduction in tax even if it had entered into the calculation of a net [21] operating loss that had not expired at the end of 1981 but had not been used as of that time.

Real estate investment trusts.—To qualify as a real estate investment trust (REIT) an organization must satisfy,

to capital depends upon the facts of the particular case. In order for the contribution to capital rule to apply, the shareholder's action in cancelling the debt must be related to his status as a shareholder. If the shareholder-creditor acts merely as a creditor attempting to maximize the satisfaction of a claim, such as where the stock and bonds are publicly held and the creditor simply happens also to be a shareholder, the cancellation of the indebtedness on exchange of the bonds for stock is not to be treated as a contribution to capital by a shareholder for purposes of this rule.

[23] It is intended that the Treasury Department has authority to and will issue regulations providing for the following income tax consequences on repayment or capital contribution of debt which had been acquired bv a related party subject to the rule of the bill treating the debtor as having acquired the debt.

If the debtor subsequently pays the debt to the related party, the entire transaction is to be treated generally the same as if the debtor had originally acquired the debt. For example, assume a parent corporation purchases for $900 on the open market a $1,000 bond issued at par by its wholly owned subsidiary. Under the bill, the debtor (the subsidiary) must account for a debt discharge amount of $100 for its taxable year during which the debt was so acquired. In the following year when the debt matures, assume the subsidiary pays its parent the full principal amount ($1,000). The Treasury regulations are to provide that the debtor is treated as having paid a dividend of $100 ($1,000 payment to the parent less the $900 paid by the parent to acquire the debt) to its parent corporation.

If a related party transfers to a corporation as a contribution to capital debt issued by the corporation and the debtor corporation thereby would otherwise have a debt discharge amount pursuant to the rules of the bill, the bill provides that no such income shall arise a second time. For example, assume a parent corporation purchases for $900 on the open market a $1,000 bond issued at par account for a debt discharge amount of $100 for its taxable year during which debt to its subsidiary as a contribution to capital (i.e., forgives the debt). The amount under the debt). The amount under the capital contribution rules of the bill ($100 in the example given, assuming the parent's basis in the bond is still $900) is to be reduced by the debt discharge amount previously taken into account by the subsidiary ($100) and thus no additional amount is to be taken into income.

[24] No inference is intended, by virtue of adoption of the non-disposition rule of the bill as described in the text above, as to whether the position taken by the Internal Revenue Service in Rev. Rul. 74-184, *supra,* represents a correct interpretation of Federal income tax law prior to the effective date of the bill's no-disposition rule.

A purchase price adjustment (whether or not described in new sec. 108(e)(5) of the Code, as added by this bill) continues to constitute an adjustment for purposes of the investment credit rules of the Code.

[25] This provision of the bill is not intended to be a change from the rules of current law as to adjustments for unamortized premium and discount.

among other requirements, source-of-income tests establishing that it has primarily passive income from real estate investments (Code sec. 856). The bill provides that income from cancellation of indebtedness is not to be taken into account for these source-of-income tests. For example, if a solvent REIT investing primarily in mortgages has debt cancellation on redemption of bonds, and such amount would be includible in gross income under the rules of the bill (absent an election to apply such amount to reduce the basis of depreciable assets or realty held as inventory), the amount of such income is not to be taken into account for purposes of Code section 856.

Amendment to Code section 382 (b).—The committee bill provides that creditors of a debtor corporation are to be treated as shareholders in applying the continuity rules of Code section 382(b) in a title 11 or similar case (within the meaning of Code sec. 368(a)(3)(A), as added by the bill). The House bill would have limited this rule to reorganizations under Code section 368(a)(1)(G), as added by the bill.

Partnerships

The bill provides that the rules of exclusion from gross income and reduction of tax attributes in section 108 of the Code (as amended by the bill) are to be applied at the partner level and not at the partnership level.[26] Accordingly, income from discharge of a partnership debt is not excludable at the partnership level under amended section 108. Instead, such income is treated as an item of income which is allocated separately to each partner pursuant to section 702(a) of the Code.

This allocation of an amount of debt discharge income to a partner results in that partner's basis in the partnership being increased by such amount (sec. 705). At the same time, the reduction in the partner's share of partnership liabilities caused by the debt discharge results in a deemed distribution (under sec. 752), in turn resulting in a reduction (under sec. 733) of the partner's basis in the partnership. The section 733 basis reduction, which offsets the section 705 basis increase, is separate from any basis reduction pursuant to the attribute-reduction rules of the bill.

The tax treatment of the amount of discharged partnership debt which is allocated as an income item to a particular partner depends on whether that partner is in a bankruptcy case, is insolvent (but not in a bankruptcy case), or is solvent (and not in a bankruptcy case). For example, if the particular partner is bankrupt, the debt discharge amount is excluded from gross income pursuant to amended section 108 and is applied to reduce the partner's net operating losses and other tax attributes, unless the partner elects to apply the amount first to reduce basis in depreciable property.[27] If the particular partner is [22] solvent (and not in a bankruptcy case), the amount allocated to that partner is included in that partner's gross income except to the extent the partner elects to reduce basis of depreciable assets.

The bill provides that, in connection with these attribute-reduction rules, a partner's interest in a partnership is to be treated as depreciable property to the extent of such partner's proportionate interest in the depreciable property held by the partnership if the partnership agrees to make a corresponding reduction in the basis of the partnership property with respect to such partner (in a manner similar to that which would be required if the partnership had made an election under Code section 754 to adjust basis in the case of a transfer of a partnership interest).[28]

Technical amendments

The bill amends section 703(b) of the Code, relating to elections of a partnership, to provide that any election under sections 108(b)(5) or 108(d)(4) of the Code (as amended by the bill) with respect to income from discharge of indebtedness is to be made by each partner separately and not by the partnership. Section 118(c) of the Code, relating to cross references, is amended to add a reference to the rules of the bill on capital contributions of indebtedness.

---

[26] The effect of these provisions of the bill is to overturn the decision in *Stackhouse* v. *U.S.*, 441 F.2d 465 (5th Cir. 1971).

[27] For purposes of this explanation of the partnership rules, the term "depreciable property" also refers to real property held for sale to customers in the ordinary course of business.

[28] For example, assume that a partnership is the debtor in a bankruptcy case which begins March 1, 1981, and that in the bankruptcy case a partnership liability in the amount of $30,000 is discharged. The partnership has three partners. The three partners have equal distributive shares of partnership income and loss items under section 702(a) of the Code. Partner A is the debtor in a bankruptcy case; partner B is insolvent (by more than $10,000), but is not a debtor in a bankruptcy case; and partner C is solvent, and is not a debtor in a bankruptcy case.

Under section 705 of the Code, each partner's basis in the partnership is increased by $10,000, i.e., his distributive share of the income of the partnership (The $30,000 debt discharge amount constitutes income of the partnership for this purpose, inasmuch as the income exclusion rules of amended sec. 108 do not apply at the partnership level.) However, also by virtue of present law, each partner's basis in the partnership is decreased by the same amount (Code secs. 752 and 733). Thus, there is no net change in each indebtedness except by operation at the partner level of the rules of sections 108 and 1017 of the Code (as amended by the bill).

In the case of bankrupt partner A, the $10,000 debt discharge amount must be applied to reduce net operating losses and other tax attributes as specified in the bill, unless A elects first to reduce the basis of depreciable assets. The same tax treatment applies in the case of insolvent partner B. In the case of solvent partner C, such partner can elect to reduce basis in depreciable assets in lieu of recognizing $10,000 of income from discharge of indebtedness.

If A, B, or C elects to reduce basis in depreciable assets, such partner may be permitted, under the Treasury regulations, to reduce his basis in his partnership interest (to the extent of his share of partnership depreciable property), because the bill treats that interest as depreciable property. However, a partner may reduce basis in his interest in the partnership only if the partnership makes a corresponding reduction in the basis of the partnership property with respect to such partner (in a manner similar to that which would be required if the partnership had made an election under section 754 to adjust basis in the case of a transfer of a partnership interest).

Effective Date

General rule

The amendments to the Internal Revenue Code made by section 2 of the bill apply to transactions in a bankruptcy case if the case com-[23] mences after December 31, 1980; to transactions in a receivership, foreclosure, or similar proceeding if the proceeding commences after December 31, 1980; and to other transactions which occur after December 31, 1980 (except that the provisions of section 2 do not apply to any transaction in a bankruptcy case which began prior to January 1, 1981 or in a receivership, foreclosure, or similar proceeding which proceeding began before January 1, 1981, even if such transaction occurs after December 31, 1980).[29]

Special effective date election

The bill also provides an effective date election for debtors in bankruptcy cases commenced on or after October 1, 1979 (but prior to January 1, 1981), and for debtors in receivership, foreclosure, or similar judicial proceedings commenced on or after October 1, 1979 (but prior to January 1, 1981).

The debtor (or debtors, if there is more than one debtor in the case) in such a case or proceeding can elect, with the approval of the court, to have the following provisions of the bill apply to transactions in the case or proceeding, notwithstanding the general effective date of the bill:

section 2 (tax treatment of discharge of indebtedness);

section 4 (corporate reorganization provisions; and

sections 5(a), 5(b), 5(c), 5(e), and 5(f) (miscellaneous corporate amendments).

If the election is made, all provisions of sections 2 and 4 and all the above-listed provisions of section 5 of the bill are applicable to all transactions in the case or proceeding and to all parties involved in the case or proceeding. Thus, the debtor may not elect to have only certain of these provisions apply to transactions in the case or proceeding, and may not elect to have the provisions apply only to certain transactions in the case or proceeding.

An effective date election is to be made at such time and in such manner as prescribed by Treasury regulations, taking into account the need for all parties involved in the case or proceeding to be aware of the election. The election, once made, is irrevocable.

[24] B. Rules Relating to Title 11 Cases for Individuals (sec. 3 of the bill; new secs. 1398 and 1399 and secs. 6012 and 6103 of the Code)

Effect of Bankruptcy Law

Under bankruptcy law, the commencement of a liquidation or reorganization case involving an individual debtor creates an "estate" which consists of property formerly belonging to the debtor. The bankruptcy estate generally is administered by a trustee for the benefit of creditors, and it may derive its own income and incur expenditures. At the same time, the individual is given a "fresh start"—that is, wages earned by the individual after commencement of the case and after-acquired property do not become part of the bankruptcy estate, but belong to the individual, and certain property may be set aside as exempt.

Reasons for Change

At present, there are no rules in the Internal Revenue Code specifying whether the bankruptcy estate constitutes a taxable entity apart from the individual debtor; and, if so, how tax attributes are to be allocated between the estate and the debtor. This has resulted in uncertainty and litigation concerning the Federal income tax liability of the bankruptcy estate and the debtor. The provisions of section 3 of the bill, adding new sections 1398 and 1399 to the Internal Revenue Code, provide the first comprehensive statutory treatment of these issues.

In addition, the committee has concluded that an individual debtor in a bankruptcy case generally should be given an election to close his or her taxable year at the date of bankruptcy. If a debtor makes such an election, the debtor's Federal income tax liability for the "short" taxable year ending with commencement of the bankruptcy case becomes collectible out of the bankruptcy estate as a liability incurred before bankruptcy, to the extent the estate has assets with which to pay debts of that priority. Since income items (or benefits of prebankruptcy transactions that gave rise to tax liability) may have passed to the bankruptcy trustee, it is appropriate that the tax liability be collectible out of estate assets as a prebankruptcy liability. To the extent that assets of the bankruptcy estate are not sufficient to pay any tax due for that year, the bankruptcy statute provides that the remaining liability is not dischargeable in the bankruptcy case and hence can be collected from the individual debtor after the case.

Explanation of Provisions

1. Debtor and bankruptcy estate as separate entities

Present law

For Federal income tax purposes, the estate created on commencement of a bankruptcy proceeding with respect to an individual debtor [25] is treated as a new taxable entity, separate from the individual (Rev. Rul. 72-387, 1972-2 C.B. 632). Accordingly, the trustee must file a tax return (Form 1041) for the bankruptcy estate if the gross income of the estate, for the period beginning with filing of the petition or for any subsequent taxable year, is $600 or more.

The taxable year of the individual debtor is not terminated on commencement of the bankruptcy proceeding. On the individual's return (Form 1040 or 1040A) for the year in which the bankruptcy proceeding commenced, the individual reports all income earned by him or her during the en-

[29] Where the new recapture rules for stock apply (generally, to stock acquired after December 31, 1980) those rules apply without regard to when the deductions to be recaptured were allowed.

tire year (including income earned by the individual before commencement of the preceding year, even though any assets derived from such income pass to the bankruptcy estate), but does not report any income earned by the bankruptcy estate.

General provisions of bill

The bill, like present law, treats the bankruptcy estate of an individual as a separate taxable entity for Federal income tax purposes. The separate entity rules under the bill (new Code sec. 1398)[1] apply if a bankruptcy case involving an individual debtor is brought under chapter 7 (liquidation) or chapter 11 (reorganization) of title 11 of the U.S. Code, as amended by P.L. 95-598. No separate taxable entity is created on commencement of a case under chapter 13 of new 11 U.S. Code (adjustment of debts of an individual with regular income).[2]

Exception

If a bankruptcy case involving an individual is commenced but subsequently dismissed by the bankruptcy court, the estate is not treated as a separate entity (new Code sec. 1398 (b)(1)). In this situation, where the bankruptcy case does not run to completion, it is appropriate to treat the debtor's tax status as if no proceeding had been brought.[3]

Partnerships, corporations

The bill provides that no taxable entity results from commencement of a bankruptcy case involving a partnership or corporation. This rule [26] (new Code sec. 1399) reverses current Internal Revenue Service practice as to partnerships, under which the estate of a partnership in bankruptcy is treated as a taxable entity (Rev. Rul. 68-48, 1968-1 C.B. 301), but is the same as present law with respect to commencement of a bankruptcy case involving a corporation (Treas. Reg. § 1.641(b)-2(b)).

Accordingly, the bankruptcy trustee of a partnership in a bankruptcy case is required to file annual information returns (under section 6031 of the Code) for the partnership. Also, the bankruptcy trustee of a corporation in a bankruptcy case, as under present law, is required to file annual income tax returns and pay corporate income tax for the corporation (sec. 6012(b)(3) of the Code; Rev. Rul. 79-120, 1979-1 C.B. 382).

2. Debtor's election to close taxable year

In general

The bill gives an individual debtor an election to close his or her taxable year as of the day before the date on which the bankruptcy case commences (the "commencement date"). If the election were made, the debtor's taxable year which otherwise would include the commencement date is divided into two "short" taxable years of less than 12 months. The first such year ends on the day before the commencement date; the second such year begins on the commencement date (new Code sec. 1398(d)(3)(A)). If the election were not made, the commencement of the bankruptcy case does not affect the taxable year of an individual debtor (new Code sec. 1398 (d)(2)).

As a result of the debtor's making the election, his or her Federal income tax liability for the first short taxable year becomes (under bankruptcy law) an allowable claim against the bankruptcy estate as a claim arising before bankruptcy. Accordingly, any tax liability for that year is collectible from the estate, depending on the availability of estate assets to pay debts of that priority. Inasmuch as any such tax liability for an electing debtor's first short taxable year is not dischargeable, the individual debtor remains liable for any amount not collected out of the bankruptcy estate (new 11 U.S. Code sec. 523(a)(1)). If the debtor does not make the election, no part of the debtor's tax liability from the year in which the bankruptcy case commences is collectible from the estate, but is collectible directly from the individual debtor.

If the election is made, the debtor is required to annualize his or her taxable income for each short taxable year in the same manner as if a change of annual accounting period had been made (new Code sec. 1398(d)(3)(F)).

Availability of election

The election provided under the bill is available in cases to which new section 1398 of the Code applies. Accordingly, the election is available to an individual debtor in a bankruptcy case under chapter 7 (liquidation) or chapter 11 (reorganization) of title 11 of the U.S. Code, as amended by P.L. 95-598, except where such case is commenced but subsequently dismissed by the bankruptcy court. Also, the bill provides that the election is not available to a debtor who has no assets other than property which he or she may treat as exempt [27] property under new 11 U.S. Code section 522

[1] In this report, provisions of the Internal Revenue Code which are added by section 3 of the bill are cited as "new Code sec. —".

[2] The rationale for generally treating the individual debtor and the bankruptcy estate as separate entities is that the individual may obtain new assets or earn wages after transfer of the pre-bankruptcy property to the trustee and thus derive income independent of that derived by the trustee from the transferred assets of the individual debtor and assets of the bankruptcy estate as in chapter 7 and exempt property may be used to make payments to creditors, and hence the bankruptcy law does not create the same dichotomy between after-acquired assets of the individual debtor and assets of the bankruptcy estate as in chapter 7 or chapter 11 cases.

For purposes of the separate entity rules under new Code section 1398, a partnership is not treated as an individual. The interest in a partnership of a debtor who is an individual is taken into account under new Code section 1398 in the same manner as any other interest of the debtor (new Code sec. 1398(b)(2)).

[3] If the estate is not treated as a separate entity because the bankruptcy case was dismissed, the debtor includes on his or her return(s), for the year(s) the estate was in existence, any gross income, deductions, or credits which otherwise would be tax items of the estate. The estate, although temporarily in existence under bankruptcy law prior to dismissal of the case, does not constitute a taxable entity for Federal income tax purposes.

(new Code sec. 1398(d)(3)(C)). In the latter instance, since there would be no assets in the bankruptcy estate out of which the debtor's tax liability for the commencement date could be collected, there is no reason to authorize termination of the taxable year.

Due date, manner of election

The election must be made on or before the 15th day of the fourth month following the commencement date—i.e., by the date on which a return would be due for the first short taxable year if the election were made, determined without regard to any extension for filing such return. For example, if the bankruptcy case commences on March 10, the election must be made by July 15 of that year. The election is to be made in such manner as prescribed by Treasury regulations, but an election is not conditioned on approval of the Internal Revenue Service, as under section 442 of the Code. The election, once made, is irrevocable (new Code sec. 1398(d)(3)(D)).

Spousal election

If the debtor making the election was married on the date the bankruptcy case involving him or her commenced, the debtor's spouse can join in the election to close the taxable year, but only if the debtor and the spouse file a joint return for the first short taxable year (new Code sec. 1398(d)(3)(B)). The filing of a joint return for the first short taxable year does not require the debtor and the spouse to file a joint return for the second short taxable year.

If during the same year a bankruptcy case involving the debtor's spouse were commenced, the spouse can elect to terminate his or her then taxable year as of the day before the commencement date, whether or not the spouse previously had joined in the debtor's election. If the spouse previously had joined in the debtor's election, or if the debtor had not made an election, the debtor can join in the spouse's election. But if the debtor had made an election and the spouse had not joined in the debtor's election, the debtor cannot join in the spouse's election, inasmuch as the debtor and the spouse, having different taxable years, could not file a joint return for a year ending with the spouse's commencement date (sec. 6013 of the Code).

Illustrative example

The rules relating to spousal elections under the bill are illustrated by the following example.

Assume that husband and wife are calendar-year taxpayers, that a bankruptcy case involving only the husband commences on March 1, 1982, and that a bankruptcy case involving only the wife commences on October 1, 1982.

If the husband does not make an election, his taxable year would not be affected; i.e., it does not terminate on February 28. If the husband does make an election, his first short taxable year would be January 1 through February 28; his second short taxable year would begin March 1. The wife could join in the husband's election, but only if they file a joint return for the taxable year January 1 through February 28.

The wife could elect to terminate her then taxable year on September 30. If the husband had not made an election, or if the wife [28] had not joined in the husband's election, she would have (if she made the election) two taxable years in 1982—the first from January 1 through September 30, and the second from October 1 through December 31. If the husband had not made an election to terminate his taxable year on February 28, the husband could join in an election by his wife, but only if they file a joint return for the taxable year January 1 through September 30. If the husband had made an election but the wife had not joined in the husband's election, the husband could not join in an election by the wife to terminate her taxable year on September 30, since they could not file a joint return for such year.

If the husband had made the election and the wife had joined in it, she would have two additional taxable years with respect to her 1982 income and deductions (if she makes the election relating to her own bankruptcy case)—the second short taxable year would be March 1 through September 30, and the third short taxable year would be October 1 through December 31. The husband could join in the wife's election if they file a joint return for the second short taxable year. If the husband does so join in the wife's election, they could file joint returns for the short taxable year ending December 31, but would not be required to do so.

3. Computation of bankruptcy estate's tax liability

Gross income

Under the bill, the gross income of the bankruptcy estate of an individual consists of (1) any gross income of the individual debtor, other than any amount received or accrued as income by the debtor before the commencement of the case, which under bankruptcy law (new 11 U.S. Code) constitutes property of the bankruptcy estate, and (2) the gross income of the estate beginning on and after the date the case commenced (new Code sec. 1398(e)(1)).

Attribute carryover

The estate succeeds to the following income tax attributes of the debtor (determined as of the first day of the debtor's taxable year in which the case commences):

(*a*) net operating loss carryovers;

(*b*) capital loss carryovers;

(*c*) credit carryovers;

(*d*) charitable contribution carryovers;

(*e*) recovery exclusions (under sec. 111 of the Code);

(*f*) the debtor's basis in and holding period for, and the character in the debtor's hands of, any asset acquired (other than by sale or exchange) from the debtor;

(*g*) the debtor's method of accounting; and

(*h*) other tax attributes, to the extent provided by Treasury regulations (new Code sec. 1398(g)). For example, the regulations could allow the estate the benefit of section 1341 of the Code if the estate repays income which the debtor received under claim of right.

Character of expenditures

Under present law, it is not clear whether certain expenses or debts paid by the trustee are deductible if the trustee does not actually operate the debtor's trade or business (and if such expenses are not [29] incurred in a new trade or business of the estate). To alleviate this problem, the bill provides that an amount paid or incurred by the bankruptcy estate is deductible or creditable by the estate to the same extent as that item would be deductible or creditable by the debtor had the debtor remained in the same trades, businesses, or activities after the case commenced as before and had the debtor paid or incurred such amount. The same test is applied to determine whether amounts paid by the estate constitute wages for purposes of Federal employment taxes (new Code sec. 1398(e)(4)).

Administrative expenses

Under present law, it is unclear in certain circumstances whether administrative and related expenses of the bankruptcy estate are deductible by the estate (see Rev. Rul. 68-48, 1968-1 C.B. 301). The bill provides (new Code sec. 1398(h)(1) that the estate can deduct (a) any administrative expense allowed under new 11 U.S. Code sec. 503 and (b) any fee or charge assessed against the estate under 28 U.S. Code, ch. 123 (court fees and costs). Such deductions are available whether or not considered trade or business expenses or investment expenses, but are subject to disallowance under other provisions of the Internal Revenue Code, such as section 263 (capital expenditures), 265 (expenses relating to tax-exempt interest), or 275 (certain taxes).

Under present law, any deduction otherwise available for administrative or related expenses may be lost, since no carryover deduction is permitted for expenses not incurred in a trade or business. The trustee often cannot pay administrative expenses until the end of the bankruptcy proceeding; unless considered trade or business expenses, the unused amount cannot be carried back and deducted against income of the bankruptcy estate received in earlier years.

To alleviate this problem, the bill provides that any amount of the new deduction for administrative, etc. expenses not used in the current year can be carried back by the estate three years (but only to a taxable year of the estate) and forward seven years (new Code sec. 1398(h)(2)). These carryovers are "stacked" after the net operating loss deductions (allowed by sec. 172 of the Code) for the particular year. An administrative, etc. expense which is deductible solely under new Code sec. 1398(h)(1), or a carryover deduction for such expense, is allowable only to the estate (new Code sec. 1398(h)(2)(D)).

Carryback of estate's net operating losses

If the bankruptcy estate itself incurs a net operating loss (apart from losses passing to the estate from the individual debtor), the bill provides that the bankruptcy estate can carry back its net operating losses not only to previous taxable years of the estate, but also to taxable years of the individual prior to the year in which the case commenced (new Code sec. 1398(j)(2)). Similarly, the bill allows the bankruptcy estate to carry back excess credits, such as the investment tax credit, to pre-bankruptcy taxable years of the individual debtor.

Tax rate schedule, etc.

Except as otherwise provided in new Code section 1398, the taxable income of the bankruptcy estate is computed in the same manner as [30] in the case of an individual. The estate is allowed a deduction of $1,000 under section 151 of the Code as its personal exemption. Under the bill, the zero bracket amount for the estate and the tax rate schedule applicable to the estate are the same as for married individuals filing separate returns (new Code sec. 1398(c)). The estate is not eligible for income averaging.

Returns of estate

Under the bill, the trustee is required to file a Federal income tax return on behalf of the bankruptcy estate for any year in which the estate's gross income is $2,700 or more (sec. 3(b) of the bill and new sec. 6012(a)(9) of the Code), and to pay the estate's tax liability due for that year (new Code sec. 1398(c)(1)). No return need be filed and no income tax would be due if gross income for the year is less than $2,700.

Change of accounting period

The estate is permitted to change its annual accounting period (taxable year) one time without obtaining approval of the Internal Revenue Service as otherwise required under section 442 of the Code (new Code sec. 1398(j)(1). This rule permits the trustee to effect an early closing of the estate's taxable year prior to the expected termination of the estate, and then to submit a return for such "short year" for an expedited determination of tax liability pursuant to new 11 U.S. Code sec. 505.

Disclosure of returns

The bill provides that the estate's Federal income tax return is open (upon written request) to inspection by or disclosure to the individual debtor (sec. 3(c) of the bill and amended sec. 6103(e) of the Code). Such disclosure is necessary so that the debtor can properly determine any amount of tax attributes to which the debtor would succeed on termination of the bankruptcy estate.

No-disposition rule

Under the bill, a transfer (other

than by sale or exchange) of an asset from the bankruptcy estate to the individual debtor on termination of the estate would not be treated as a disposition giving rise to recognition of gain or loss, recapture of deductions or credits, or acceleration of income or deductions (new Code sec. 1398(f)(2)).

4. Computation of individual's tax liability

Gross income, deductions, credits

If any item of gross income of the debtor realized after commencement of the bankruptcy case is treated under new Code section 1398(e)(1) as gross income of the bankruptcy estate (because under bankruptcy law such income constitutes property of the estate), that item is not included by the debtor as gross income on his or her return or a joint return with the debtor's spouse (new Code sec. 1398(e)(2)).

This provision of the bill, treating such income items as gross income of the estate rather than of the individual, is intended to override otherwise applicable "assignment of income" principles of tax law. For example, if the estate were entitled under bankruptcy law to a salary payment earned by the debtor before the case commences but paid after that date, the amount of the payment is included in the [31] estate's gross income and is not to be included in the debtor's gross income.

If any item of deduction or credit of the debtor is treated under new Code section 1398(e)(3) as a deduction or credit of the bankruptcy estate that item is not allowable to the debtor as a deduction or credit on his or her return or a joint return with the debtor's spouse (new Code section 1398(e)(3)). This rule is intended to insure that no particular item of deduction or credit can be allowable to both the debtor and the estate.

No-disposition rule

Under the bill, a transfer (other than by sale or exchange) of an asset from the individual debtor to the bankruptcy estate is not treated as a disposition giving rise to recognition of gain or loss, recapture of deductions or credits, or acceleration of income or deductions (new Code sec. 1398(f)(1)). For example, such a transfer of an installment obligation is not treated as a disposition giving rise to acceleration of gain under section 453(d) of the Code.

Carryback of net operating loss

The bill provides that an individual debtor cannot carry back, to a year that preceded the year in which the case was commenced, any net operating loss or credit carryback from a taxable year ending after commencement of the bankruptcy case (new Code sec. 1398(j)(2)(B)). As noted above, the bill would permit the bankruptcy estate to carry back its net operating loss deduction to offset the pre-bankruptcy income of the individual debtor.

Attribute carryover

On termination of the bankruptcy estate, the debtor would succeed to the following tax attributes of the estate (including such attributes which first arose during administration of the estate):

(*a*) net operating loss carryovers;

(*b*) capital loss carryovers;

(*c*) credit carryovers;

(*d*) charitable contribution carryovers;

(*e*) recovery exclusions (under sec. 111 of the Code);

(*f*) the estate's basis in and holding period for, and the character in the estate's hands of, any asset acquired (other than by sale or exchange) from the estate; [4] and

(*g*) other tax attributes, to the extent provided by Treasury regulations (new Code sec. 1398(i)).

Disclosure of returns

In a bankruptcy case to which new Code section 1398 applies (determined without regard to whether the case is dismissed), the Federal [32] income tax returns of the debtor for the taxable year in which the bankruptcy case commenced and preceding years are open (upon written request) to inspection by or disclosure to the trustee of the bankruptcy estate. (This disclosure is necessary so that the trustee properly may determine attribute carryovers to the estate and may carry back deductions to preceding years of the debtor.) In an involuntary case, however, no such disclosure of the trustee could be made prior to the time the bankruptcy court has entered an order for relief unless that court finds that such disclosure is appropriate for purposes of determining whether an order for relief should be entered (sec. 3(c) of the bill and amended sec. 6103(e) of the Code).

Also under the bill, prior year returns of the debtor in a bankruptcy case, or of a person whose property is in the hands of a receiver, are open (upon written request) to inspection by or disclosure to the trustee or receiver, but only if the Internal Revenue Service finds that such trustee or receiver, in his fiduciary capacity, has a material interest which would be affected by information contained in the return.

5. Technical amendment

Section 443(c) of the Code, relating to cross references, is amended by adding a cross reference to new Code section 1398(d)(3)(E), with respect to returns for a period of less than 12 months in the case of a debtor's election to terminate a taxable year.

[4] In a bankruptcy case to which new Code sec. 1398 applies, any attribute reduction under section 2 of the bill applies to tax attributes of the bankruptcy estate (except for purposes of applying the basis-reduction rules of section 1017 to property transferred by the estate to the individual) and not to those attributes of the individual which arose after commencement of the case. Also, the bill provides that in a bankruptcy case involving an individual debtor, no reduction in basis is to be made in the basis of property which the debtor treats as exempt property under new 11 U.S. Code section 522. The tax attributes to the estate, as so reduced, carry over (to the extent unused on termination of the estate) to the individual debtor pursuant to new Code sec. 1398(i).

6. Effective date

The amendments made by section 3 of the bill apply to bankruptcy cases commencing more than 90 days after the date of enactment of the bill.

[33] C. Corporate Reorganization Provisions (sec. 4 of the bill and secs. 354, 355, 357, 368, and 381 of the Code)

Present Law

Definition of reorganization

A transfer of all or part of a corporation's assets, pursuant to a court order in a proceeding under chapter X of the Bankruptcy Act (or in a receivership, foreclosure, or similar proceeding), to another corporation organized or utilized to effectuate a court-approved plan may qualify for tax-free reorganization treatment under special rules relating to "insolvency reorganizations" (secs. 371-374 of the Internal Revenue Code).

These special rules for insolvency reorganizations generally allow less flexibility in structuring tax-free transactions than the rules applicable to corporate reorganizations as defined in section 368 of the Code. Also, the special rules for insolvency reorganizations do not permit carryover of tax attributes to the transferee corporation, and otherwise differ in important respects from the general reorganization rules.[1] While some reorganizations under chapter X of the Bankruptcy Act may be able to qualify for nonrecognition treatment under Code section 368, other chapter X reorganizations may be able to qualify only under the special rules of sections 371-374 and not under the general reorganization rules of section 368.

Triangular reorganizations

In the case of an insolvency reorganization which can qualify for nonrecognition treatment only under the special rules of Code sections 371-374, the stock or securities used to acquire the assets of the corporation in bankruptcy must be the acquiring corporation's own stock or securities. This limitation generally precludes corporations in bankruptcy from engaging in so-called triangular reorganizations, where the acquired corporation is acquired for stock of the parent of the acquiring corporation. By contrast, tax-free triangular reorganizations generally are permitted under the general rules of Code section 368.

Transfer to controlled subsidiary

In the case of an insolvency reorganization which can qualify for nonrecognition treatment only under the special rules of Code sections [34] 371-374, it is not clear under present law whether and to what extent the acquiring corporation may transfer assets received into a controlled subsidiary. In the case of other corporate reorganizations, the statute expressly defines the situations where transfers to subsidiaries are permitted (Code sec. 368(a)(2)(C)).

Carryover of tax attributes

In the case of an insolvency reorganization which can qualify for nonrecognition treatment only under the special rules of Code sections 371-374, court cases have held that attributes (such as net operating losses) of the corporation in bankruptcy do not carry over to the new corporation. In the case of other corporate reorganizations, however, specific statutory rules permit carryover of tax attributes to the surviving corporation (Code sec. 381).

"Principal amount" rule; "boot" test

In a corporate reorganization, generally the exchange of stock or securities of one corporation for those of another corporation is not tax-free to the extent the principal amount of the securities received exceeds the principal amount of the securities surrendered, or to the extent of the principal amount of the securities received if no securities are surrendered (Code secs. 354(a)(2)(B) and 356(d)(2)). Also, "boot" (money or property other than stock and securities permitted to be received without recognition of gain) received in a corporate reorganization is subject to the dividend-equivalence test of Code section 356. These rules do not apply under present law to insolvency reorganizations qualifying only under Code sections 371-374.

Treatment of accrued interest

Under present law, a claim for unpaid interest is treated as an integral part of the security to which it relates, so that the surrender of the security together with the claim for unpaid interest is treated only at the surrender of a security. Thus, the nonrecognition provisions apply to an exchange of a security with accrued but unpaid interest although the unpaid interest would have been taxable as ordinary income if paid separately.[2]

Reasons for Change

The committee believes that the provisions of existing Federal income tax law which are generally applicable to tax-free corporate reorganizations should also apply to reorganizations of corporations in bankruptcy or similar proceedings, in order to facilitate the rehabilitation of financially troubled businesses.

Also, the committee believes that a creditor who exchanges securities in a corporate reorganization (including an insolvency reorganization) should be treated as receiving interest income on

[1] Under present law, it is not clear to what extent creditors of an insolvent corporation who receive stock in exchange for their claims may be considered to have "stepped into the shoes" of former shareholders for purposes of satisfying the nonstatutory "continuity of interest" rule, under which the owners of the acquired corporation must continue to have a proprietary interest in the acquiring corporation. Generally, the courts have found the "continuity of interest" test satisfied if the creditors' interests were transformed into proprietary interests prior to the reorganization (e.g., *Helvering* v. *Alabama Asphaltic Limestone Co.*, 315 U.S. 179 (1942); Treas Reg. § 1.371-1(a)(4)). It is unclear whether affirmative steps by the creditors are required or whether mere receipt of stock is sufficient.

[2] *Carman* v. *Comm'r*, 189 F. 2d 363 (2nd Cir. 1951); Rev. Rul. 59-98, 1959-1 C.B. 76.

the exchange to the extent the creditor receives new securities, stock, or any other property for accrued but unpaid interest on the securities surrendered.

Explanation of Provisions

Section 4 of the bill generally conforms the tax rules governing insolvency reorganizations with the existing rules applicable to other [35] corporate reorganizations. These provisions are the same as section 4 of the House bill.

Definition of reorganization

In general

The bill adds a new category—"G" reorganizations—to the general Code definition of tax-free reorganizations (sec. 368(a)(1)). The new category includes certain transfers of assets pursuant to a court-approved reorganization plan in a bankruptcy case under new title 11 of the U.S. Code, or in a receivership, foreclosure, or similar proceeding [3] in a Federal or State court.[4]

The special tax rules (Code secs. 371-374) now applicable to insolvency reorganizations continue to apply only to bankruptcy proceedings commenced prior to October 1, 1979, except that the bill does not terminate the applicability of the rules in sections 374(c) and 374(e) of the Code governing tax-free exchanges under the final system plan for ConRail.

In order to facilitate the rehabilitation of corporate debtors in bankruptcy, etc., these provisions are designed to eliminate many requirements which have effectively precluded financially troubled companies from utilizing the generally applicable tax-free reorganization provisions of present law. To achieve this purpose, the new "G" reorganization provision does not require compliance with State merger laws (as in category "A" reorganizations), does not require that the financially distressed corporation receive solely stock of the acquiring corporation in exchange for its assets (category "C"), and does not require that the former shareholders of the financially distressed corporation control the corporation which receives the assets (category "D").

The "G" reorganization provision added by the bill requires the transfer of assets by a corporation in a bankruptcy or similar case, and the distribution (in pursuance of the court-approved reorganization plan) of stock or securities of the acquiring corporation in a transaction which qualifies under sections 354, 355, or 356 of the Code. This distribution requirement is designed to assure that either substantially all of the assets of the financially troubled corporation, or assets which consist of an active business under the tests of section 355, are transferred to the acquiring corporation.

"Substantially all" test

The "substantially all" test in the "G" reorganization provision is to be interpreted in light of the underlying intent in adding the new "G" category, namely, to facilitate the reorganization of companies in bankruptcy or similar cases for rehabilitative purposes. Accordingly, it is intended that facts and circumstances relevant to this intent, such as the insolvent corporation's need to pay off creditors or to sell [36] assets or divisions to raise cash, are to be taken into account in determining whether a transaction qualifies as a "G" reorganization. For example, a transaction is not precluded from satisfying the "substantially all" test for purposes of the new "G" category merely because, prior to a transfer to the acquiring corporation, payments to creditors and asset sales were made in order to leave the debtor with more manageable operating assets to continue in business.[5]

Relation to other provisions

A transaction which qualifies as a "G" reorganization is not to be treated as also qualifying as a liquidation under section 332, an incorporation under section 351, or a reorganization under another category of section 368(a)(1) of the Code.[6]

A transaction in a bankruptcy or similar case which does not satisfy the requirements of new category "G" is not thereby precluded from qualifying as a tax-free reorganization under one of the other categories of section 368(a)(1). For example, an acquisition of the stock of a company in bankruptcy, or a recapitalization of such a company, which transactions are not covered by the new "G" category, can qualify for nonrecognition treatment under sections 368(a)(1)(B) or (E), respectively.

Continuity of interest rules

The "continuity of interest" requirement which the courts and the Treasury have long imposed as a prerequisite for nonrecognition treatment for a corporate reorganization must be met in order to satisfy the requirements of new category "G". Only reorganizations—as distinguished from liquida-

[3] For this purpose, the definition of a receivership, foreclosure, or similar proceeding is the same as under present section 371 of the Code.

[4] Under the bill, asset transfers in a receivership, foreclosure, or similar proceeding involving a financial institution (to which section 585 or 593 of the Code applies) before a Federal or State agency are treated in the same manner as transfers in such a proceeding before a court. Thus, for example, asset transfers in a proceeding under 12 U.S.C. sec. 1729 involving a savings and loan association can qualify as a "G" reorganization.

[5] Because the stated intent for adding the new "G" category is not relevant to interpreting the "subtantially all" test in the case of other reorganization categories, the comments in the text as to the appropriate interpretation of the "subtantially all" test in the context of a "G" reorganization are not intended to apply to, or in any way to affect interpretations under present law of, the "subtantially all" test for other reorganization categories.

[6] However, if a transfer qualifying as a "G" reorganization also meets the requirements of section 351 or qualifies as a reorganization under section 368(a)(1)(D) of the Code, the "excess liability" rule of section 357(c) applies if any former shareholder of the transferor corporation receives consideration for his stock, but does not apply if no former shareholder of the transferor corporation receives any consideration for his stock (i.e., if the corporation is insolvent). This rule parallels present law, under which insolvency reorganizations under sections 371 or 374 are excluded from the application of section 357(c).

tions in bankruptcy and sales of property to either new or old interests supplying new capital and discharging the obligations of the debtor corporation—can qualify for tax-free treatment.

It is expected that the courts and the Treasury will apply to "G" reorganizations continuity-of-interest rules which take into account the modification by P.L. 95-598 of the "absolute priority" rule. As a result of that modification, shareholders or junior creditors, who might previously have been excluded, may now retain an interest in the reorganized corporation.

For example, if an insolvent corporation's assets are transferred to a second corporation in a bankruptcy case, the most senior class of creditor to receive stock, together with all equal and junior classes (including shareholders who receive any consideration for their stock), [37] should generally be considered the proprietors of the insolvent corporation for "continuity" purposes. However, if the shareholders receive consideration other than stock of the acquiring corporation, the transaction should be examined to determine if it represents a purchase rather than a reorganization.

Thus, short-term creditors who receive stock for their claims may be counted toward satisfying the continuity of interest rule, although any gain or loss realized by such creditors will be recognized for income tax purposes.

Triangular reorganizations

The bill permits a corporation to acquire a debtor corporation in a "G" reorganization in exchange for stock of the parent of the acquiring corporation rather than for its own stock.

In addition, the bill permits an acquisition in the form of a "reverse merger" of an insolvent corporation (i.e., where no former shareholder of the surviving corporation receives any consideration for his stock) in a bankruptcy or similar case if the former creditors of the surviving corporation exchange their claims for voting stock of the controlling corporation which has a value equal to at least 80 percent of the value of the debt of the surviving corporation.[7]

Transfer to controlled subsidiary

The bill permits a corporation which acquires substantially all the assets of a debtor corporation in a "G" reorganization to transfer the acquired assets to a controlled subsidiary without endangering the tax-free status of the reorganization. This provision places "G" reorganizations on a similar footing with other categories of reorganizations.

Carryover of tax attributes

Under the bill, the statutory rule generally governing carryover of tax attributes in corporate reorganizations (Code sec. 381) also applies in the case of a "G" reorganization. This eliminates the so-called "clean slate" doctrine.[8]

"Principal amount" rule; "boot" test

Under the bill, "G" reorganizations are subject to the rules governing the tax treatment of exchanging shareholders and security holders which apply to other corporate reorganizations.

Accordingly, an exchanging shareholder or security holder of the debtor company who receives securities with a principal amount exceeding the principal amount of securities surrendered is taxable on the excess, and an exchanging shareholder or security holder who surrenders no securities is taxed on the principal amount of any securities received. Also, any "boot" received is subject to the general dividend-equivalence test of Code section 356.

Treatment of accrued interest

Under the bill, a creditor exchanging securities in any corporate reorganization described in section 368 of the Code (including a "G" [38] reorganization) is treated as receiving interest income on the exchange to the extent the security holder receives new securities, stock, or any other property attributable to accrued but unpaid interest (including accrued original issue discount) on the securities surrendered. This provision, which reverses the so-called *Carman* rule,[9] applies whether or not the exchanging security holder realizes gain on the exchange overall. Under this provision, a security holder which had previously accrued the interest (including original issue discount) as income recognizes a loss to the extent the interest is not paid in the exchange.

Example

The reorganization provisions of the bill are illustrated in part by the following example.

Assume that Corporation A is in a bankruptcy case commenced after December 31, 1980. Immediately prior to a transfer under a plan of reorganization, A's assets have an adjusted basis of $75,000 and a fair market value of $100,000. A has a net operating loss carryover of $200,000. A has outstanding bonds of $100,000 (on which there is no accrued but unpaid interest) and trade debts of $100,000.

Under the plan of reorganization, A is to transfer all its assets to Corporation B in exchange for $100,000 of B stock. Corporation A will distribute the stock, in exchange for their claims against A, one-half to the security holders and one-half to the trade creditors. A's shareholders will receive nothing.

The transaction qualifies as a reorganization under new section 368(a)(1)(G) of the Code, since all the creditors are here treated as proprietors for continuity of interested purposes. Thus, A recognizes no gain or loss on the transfer of its assets to B (Code sec. 361). B's basis in the assets is $75,000 (sec. 362), and B succeeds

[7] Priority claims described in new 11 U.S. Code section 1129(a)(9) which are paid in cash may be excluded from this determination.

[8] The bill also provides that creditors of a debtor corporation in a title 11 or similar case are to be treated as shareholders in applying the continuity rules of Code sec. 382(b).

[9] See note 2, *supra*.

to A's net operating loss carryover (sec. 381).

Under the bill, the pro-rata distribution of B stock to A's creditors does not result in income from discharge of indebtedness or require attribute reduction.

Assume the same facts as above except that B also transfers $10,000 in cash, which is distributed by A to its creditors. Although A would otherwise recognize gain on the receipt of boot in an exchange involving appreciated property, the distribution by A of the $10,000 cash to those creditors having a proprietary interest in the corporation's assets for continuity of interest purposes prevents A from recognizing any gain (Code sec. 361(b)(1)(A)).[10]

Technical and conforming amendments

Section 4(h) of the bill makes technical and conforming amendments to the Internal Revenue Code.

1. Amendment of section 354(b).—Paragraphs (1) and (2) of Code section 354(b), relating to exception to general rule on exchanges of stock and securities in certain reorganizations, are amended by adding references to new subparagraph "G" of section 368(a)(1).

[39] *2. Amendment of section 357(c)(2).*—Code section 357(c)(2), providing exceptions to the general rule with respect to liabilities in excess of basis on transfers to controlled corporations, is amended to add an exception for any exchange pursuant to a plan of reorganization under new category "G" of section 368(a)(1) if no former shareholder of the transferor corporation receives any consideration for his stock.[11]

3. Amendment of section 368(a)(1).—A conforming amendment is made to Code section 368(a)(1) to take into account the addition of new category "G" reorganizations.

4. Amendment of section 368(b).—Code section 368(b), defining "party to a reorganization", is amended to include references to new category "G" reorganizations.

5. Technical change.—A change is made in the table of sections for part IV of subchapter C of chapter 1 of the Code.

Effective Date

The amendments made by section 4 of the bill apply to bankruptcy cases commencing after December 31, 1980 and to receivership, foreclosure, or similar judicial proceedings commencing after that date. Also, these amendments will apply to a bankruptcy case or a receivership, etc. proceeding commenced on or after October 1, 1979 (but prior to January 1, 1981), if the special effective date election provided by the bill is made (see explanation of effective date election under part II-A of the report).

In the case of transactions outside bankruptcy cases and receivership, etc. proceedings, the amendments made by section 4(e) of the bill, relating to exchanges of property for accrued interest, apply to transactions occurring after December 31, 1980.

[40] D. Miscellaneous Corporate Amendments (sec. 5 of the bill)

1. Exception from personal holding company status (sec. 5(a) of the bill and sec. 542 of the Code)

Present Law

Under present law, a corporation in a bankruptcy or insolvency proceeding may become subject to the personal holding company tax on certain passive income (sec. 541 of the Internal Revenue Code) if its assets are converted to investments which produce passive income before the corporation is liquidated.

Reasons for Change

The committee believes that the personal holding company tax generally should not apply to corporations in bankruptcy or insolvency proceedings, since financially troubled corporations under court supervision generally are not used to avoid income tax on their shareholders.

Explanation of Provision

Under this provision, a corporation subject to court jurisdiction in a bankruptcy or similar case[1] is not to be considered a personal holding company. This exception is not available, however, if a major purpose in commencing or continuing the case is avoidance of the personal holding company tax. This provision is the same as section 5(a) of the House bill.

Effective Date

The amendment made by this provision applies to bankruptcy cases commencing after December 31, 1980 and to similar cases commenced after that date. Also, the amendment will apply to a bankruptcy or similar case commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election provided by the bill is made (see explanation of effective date election under part II-A of this report).

2. Repeal of special treatment for certain railroad stock redemptions (sec. 5(b) of the bill and sec. 302 of the Code)

Present Law

Present law provides that any distribution in redemption of stock issued by a railroad corporation pursuant to a reorganization plan under section 77 of the Bankruptcy Act gives rise to capital gain, even if under the general redemption distribution tests the stockholder would realize ordinary income (sec. 302(b)(4) of the Code).

[41] *Reasons for Change*

The committee believes that the Federal income tax treatment of re-

[10] See Code sec. 371(a)(2)(A) and Treas. Reg. § 1.371-1(b) for a similar rule relating to distribution of boot to creditors in an insolvency reorganization under present law.

[11] See note 6, *supra*.

[1] The terms "bankruptcy case" and "similar case" refer, respectively, to (1) cases under new 11 U.S. Code and (2) receivership, foreclosure, or similar proceedings in a Federal or State court (or, in the case of a financial instiution, a Federal or State agency).

demption of certain railroad corporation stock should be the same as applies in the case of redemption of all other stock.

Explanation of Provision

This provision repeals the special rule giving automatic capital gain treatment in the case of redemptions of certain stock issued by railroad corporations in bankruptcy. This provision is the same as section 5(b) of the House bill.

Effective Date

The amendment made by this provision applies to a redemption of stock issued after December 31, 1980 (other than stock issued pursuant to a plan of reorganization approved on or before that date). Also, the amendment will apply to a bankruptcy or similar case commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election provided by the bill is made (see explanation of effective date election under part II-A of this report).

3. Application of section 337 liquidation rule to corporations in bankruptcy (sec. 5(c) of the bill and sec. 337 of the Code)

Present Law

Under present law, a corporation which adopts a plan of liquidation and within 12 months thereafter liquidates in a distribution to shareholders generally does not recognize gain or loss on sales within that period (sec. 337 of the Code). The Internal Revenue Service has ruled that this provision does not apply if, as in the case of an insolvency proceeding, the assets are transferred on liquidation to creditors rather than to shareholders (Rev. Rul. 56-387, 1956-2 C.B. 189).

Reasons for Change

The committee believes that nonrecognition treatment should be extended to sales of certain assets by liquidating corporations in bankruptcy or similar cases. In addition, inasmuch as insolvency proceedings may last longer than 12 months, the committee believes that the nonrecognition period should likewise be extended to the termination of the case. Because the nonrecognition period thus would extend to termination of the case, the committee believes that, in order to preclude tax-free "churning" of assets, nonrecognition treatment should not be available on sales of property (other than bulk sales of inventory) acquired after adoption of the liquidation plan.

Explanation of Provision

This provision allows a corporation in a bankruptcy or similar case [2] to sell certain of its assets tax-free where the corporation, after the case commences, adopts a plan of complete liquidation and completes the liquidation before the termination of the case.

The period of nonrecognition begins on the date of adoption (after commencement of the case) of a plan of liquidation and ends on the date the case terminates. It is intended that under the provision, the [42] liquidating corporation could retain sufficient assets to pay administrative claims following the close of the case. This provision does not apply to assets acquired on or after the date of adopting the liquidation plan, other than to inventory sold in bulk.[3]

Effective Date

The amendment made by this provision applies to bankruptcy cases commencing after that date. Also, the amendment will apply to a bankruptcy or similar case commenced on or after October 1, 1979 (but prior to January 1, 1981) if the special effective date election provided by the bill is made (see explanation of effective date election under part II-A of this report).

4. Estate of individual in bankruptcy as subchapter S shareholder (sec. 5(d) of the bill and sec. 1371 of the Code)

Present Law

Under present law, only individuals, estates, and certain trusts are permitted to be shareholders of subchapter S corporations (sec. 1371 of the Code). Failure to satisfy this rule disqualifies the election of the corporation under subchapter S.

The Internal Revenue Service has ruled that an "estate" for subchapter S purposes includes only the estate of a decedent and not the estate of an individual in bankruptcy (Rev. Rul. 66-266, 1966-2 C.B. 356). Accordingly, the Revenue Service also has ruled that the filing of a voluntary petition in bankruptcy by a shareholder terminates the subchapter S election as of the beginning of the taxable year in which the petition is filed (Rev. Rul. 74-9, 1974-1 C.B. 241). However, the U.S. Tax Court has held that the filing of a petition seeking financial rehabilitation of a debtor under the debt arrangement provisions of the Bankruptcy Act does not create a new entity apart from the debtor and does not cause the termination of a subchapter S election.[4]

Reasons for Change

The committee is concerned that if bankruptcy of an individual shareholder causes termination of a subchapter S election, other shareholders may be adversely affected by an event over which they had no control. The committee believes that the estate of an individual in a bankruptcy case should be permitted to be an eligible shareholder for purposes of the provisions of subchapter S.

Explanation of Provision

Under the bill, the bankruptcy estate of an individual is permitted to be an eligible shareholder in a subchapter S corporation. Thus, a corporation's subchapter S election is not terminated because of commencement

[2] See note 1, *supra*.
[3] Only one bulk sale in any case can qualify for this treatment.

[4] *CHM Company*, 68 T.C. 31 (1977).

of a bankruptcy case involving an individual who is a shareholder in the corporation. In addition, the bankruptcy estate of an individual which owns stock in a corporation can consent to an election under subchapter S made by the corporation after commencement of the bankruptcy case. This provision is the same as section 5(d) in the House bill.

[43] *Effective Date*

The amendment made by this provision applies to bankruptcy cases commenced on or after October 1, 1979.

5. Certain transfers to controlled corporations (sec. 5(e) of the bill and sec. 351 of the Code)

Present Law

Under present law, if property is transferred to a corporation controlled by the transferor, no gain or loss is recognized on the transfer (sec. 351 of the Code). For this purpose, property includes (1) indebtedness of the transferee corporation not evidenced by a security [5] and (2) a claim for accrued interest on indebtedness of the transferee corporation.[6]

Reason for Change

The committee believes that creditors holding debt not evidenced by a security who exchange their claims against a debtor corporation for stock of the corporation should recognize gain or loss on the exchange. This treatment will accord with the treatment of these creditors on an exchange under a plan of reorganization.

In addition, the committee believes that a transfer of assets to a corporation by a debtor in a bankruptcy or insolvency proceeding where the stock received is transferred to creditors should be treated in the same manner as if the property had been transferred to the creditors, who then transferred the property to a controlled corporation. This rule is designed to prevent the incorporation by a debtor of high-basis, low-value assets where a transfer by the creditors to a controlled corporation would result in a fair market value basis to the corporation.

Explanation of Provision

Under the provision, transfers to a controlled corporation of indebtedness of the corporation which is not evidenced by a security, or of claims against the corporation for accrued but unpaid interest on indebtedness, are not covered by the nonrecognition rule of section 351 of the Code.

Also, the nonrecognition rule does not apply in the case of a transfer to a controlled corporation of the assets of a debtor in a bankruptcy or similar case [7] to the extent the stock or securities received in exchange for the assets are used to satisfy the indebtedness of the debtor. Accordingly, gain or loss is recognized to the debtor upon the debtor's transfer of assets to the controlled corporation if the stock is then transferred to creditors pursuant to a plan approved in a bankruptcy or similar case. (If less than all the stock is transferred to creditors, a proportionate share of gain or loss is recognized.) Since the basis of the stock received is adjusted for any gain or loss recognized, the amount recognized on the transfer of the stock to the creditors reflects any amount recognized on the incorporation transfer.

[44] Thus, the sum total of income or loss to the debtor in the two transfers is the same as if the assets had been transferred directly to the creditors. However, the basis of the assets in the hands of the corporation also is adjusted by any gain or loss recognized on the transfer to the corporation, thus reducing any "built-in" loss on assets which had depreciated in value.[8]

This provision is the same as section 5(e) of the House bill.

Effective Date

The effective date for this provision is the same as for section 2 of the bill, relating to income from discharge of indebtedness.

6. Effect of discharge of indebtedness on earnings and profits (sec. 5(f) of the bill and sec. 312 of the Code)

Present Law

Under present law, the effect of discharge of indebtedness on the earnings and profits of a corporation in a bankruptcy proceeding is unclear.[9]

Reason for Change

The committee believes that income from discharge of indebtedness should increase earnings and profits whether or not current tax is imposed on that income. The bankruptcy considerations underlying deferral of recognition of such income by a debtor in a bankruptcy case do not justify extending tax foregiveness to shareholders receiving nonliquidating distributions from the corporation. Also, the committee believes that a corporation's deficit in earnings and profits should be reduced by the amount of the paid-in capital of any stockholder whose interest is extinguished in a bankruptcy or similar case, since it represents no part of the stock of the creditors who become the owners of the corporation.

Explanation of Provision

The bill provides that to the extent that income from discharge of indebtedness (including an amount excluded from gross income pursuant to section 108 of the Code, as amended by this

[5] *Alexander F. Duncan,* 9 T.C. 468 (1947), acq. 1948-2 C.B. 2; Rev. Rul. 77-81, 1977-1 C.B. 97.

[6] See *Carman* v. *Comm'r.,* 189 F.2d 363 (2d Cir. 1951).

[7] See note 1, *supra.*

[8] This rule does not apply to a transfer under a plan of reorganization, since no gain or loss is recognized by reason of section 361 of the Code.

[9] In the case of *Meyer* v. *Comm'r,* 383 F.2d 883 (8th Cir. 1967), the Eighth Circuit held that earnings and profits did not arise where indebtedness was discharged under the Bankruptcy Act. The Internal Revenue Service has announced that it will not follow the *Meyer* decision to the extent that the amount of debt discharged exceeds the reduction in basis of the taxpayer's assets (Rev. Rul. 75-515, 1975-2 C.B. 117).

bill) is applied to reduce basis under section 1017 of the Code, such basis-reduction amount does not affect the debtor corporation's earnings and profits (although reduced depreciation deductions or increased gains on sales of reduced-basis assets would affect earnings and profits in the years such deductions are taken or sales made). Otherwise, discharge of indebtedness income, including amounts excluded from gross income (pursuant to section 108 of the Code, as amended by this bill), increases the earnings and profits of the corporation (or reduces a deficit).

[45] In addition, the committee bill provides that any deficit in earnings and profits is reduced (but positive earnings and profits will not be created) by the paid-in capital of any shareholder whose interest is eliminated in a bankruptcy or similar case.

Effective Date

The effective date for this provision is the same as for section 2 of the bill, relating to income from discharge of indebtedness.

[46] E. Changes in Tax Procedures (sec. 6 of the bill)

1. Coordination with bankruptcy court procedures (secs. 6(a), (b), (c), (d), and (g) of the bill and secs. 6213, 6503, 6871, and 7464 of the Code)

Procedures Under Bankruptcy Act

Bankruptcy court jurisdiction

In the case of an individual debtor, the commencement of a bankruptcy proceeding creates an estate. This estate, which is under control of the bankruptcy court, consists of all assets of the individual other than exempt property and certain assets acquired after the proceeding begins. The assets of the bankruptcy estate are not subject to levy by the Internal Revenue Service for the debtor's prepetition income tax liabilities, and generally can be reached only through the Service's filing of a proof of claim in the bankruptcy court.

The bankruptcy court has jurisdiction to determine the debtor's liability for any unpaid tax, whether or not assessed, unless the liability was adjudicated prior to bankruptcy by a court of competent jurisdiction (sec. 2a(2A) of the Bankruptcy Act). In proceedings under the Bankruptcy Act,[1] a determination by the bankruptcy court of a prepetition tax liability of an individual debtor is binding on the Internal Revenue Service and on the trustee of the bankruptcy estate. However, the determination might not settle the personal liability of an individual debtor for the amount, if any, of prepetition nondischargeable tax claims which are not satisfied out of the assets of the bankruptcy estate. Accordingly, if the bankruptcy court rules in favor of the Revenue Service with respect to a nondischargeable tax claim, the debtor may be able to force the Service to relitigate the issue if the claim cannot be fully paid out of estate assets.

Effect on Tax Court jurisdiction

Under present Federal income tax law (sec. 6871 of the Code) as applicable to Bankruptcy Act proceedings, the Internal Revenue Service is authorized, on institution of a bankruptcy proceeding, immediately to assess any income tax liabilities against the debtor. The Service is not required to follow the normal procedure under which a deficiency notice is issued to the taxpayer and the taxpayer may challenge an asserted income tax liability in the U.S. Tax Court without payment of the tax.

Even if a statutory deficiency notice had been issued and the time for filing a Tax Court petition had not expired before commencement of the bankruptcy proceeding, the debtor still is barred from contest- [47] ing the asserted liability in the Tax Court (i.e., from litigating without first paying the disputed amount) if the Revenue Service exercises its immediate assessment authority. Present income tax law likewise provides that any portion of a claim for nondischargeable taxes allowed in a bankruptcy proceeding but not satisfied out of assets in the estate shall be paid by the taxpayer after termination of the bankruptcy proceeding (sec. 6873 of the Code).

Under the law applicable to Bankruptcy Act proceedings, the U.S. Tax Court thus loses jurisdiction to determine the debtor's personal liability for prepetition taxes unless a Tax Court case had been filed prior to the bankruptcy proceeding. Accordingly, unless the debtor can invoke the jurisdiction of the bankruptcy court and that court makes a determination, the debtor is precluded from prepayment review of an asserted income tax liability. The debtor's only recourse is to pay the tax and then contest the issue through the refund claim procedure of the Internal Revenue Service and subsequent refund litigation in the U.S. District Court or U.S. Court of Claims.

If a notice of deficiency had been issued and a Tax Court case filed prior to institution of the bankruptcy proceeding, but the Tax Court had not reached a decision as to the debtor's income tax liability, both the bankruptcy court and the Tax Court have jurisdiction to determine the tax liability issue. A decision by the Tax Court would not necessarily bind the estate of the bankrupt, unless the trustee had intervened in the Tax Court litigation. A decision by the bankruptcy court might not necessarily bind the individual debtor, unless the debtor individually had invoked the bankruptcy court's jurisdiction.

Thus, under the law applicable to Bankruptcy Act proceedings, in certain circumstances there may be duplicative litigation concerning the debtor's tax liability. In other circumstances, the debtor may be precluded from obtaining prepayment review of prepetition tax liabilities.

New Bankruptcy Status (P.L. 95-598)

New 11 U.S. Code section 505(a) continues the jurisdiction of the bank-

[1] The Bankruptcy Act was repealed by P.L. 95-598, effective for bankruptcy cases commencing on or after October 1, 1979, but remains in effect for bankruptcy proceedings commenced prior to that date.

ruptcy court to determine liability for a tax deficiency, regardless of whether it has been assessed, unless it has been adjudicated by a court of competent jurisdiction prior to filing of the bankruptcy petition.[2] The new law, effective for bankruptcy cases commenced on or after October 1, 1979, also seeks to resolve the problems mentioned above by giving the bankruptcy court, in effect, the authority to determine whether the tax liability issue should be decided in the bankruptcy court or in the U.S. Tax Court.

[48] Under new 11 U.S. Code section 362(a)(8, commencement of a bankruptcy case triggers an automatic stay of institution or continuation of any U.S. Tax Court proceedings to challenge an asserted tax deficiency of the debtor. Also under the new law, in order to maintain orderly judicial proceedings in any situation where a controversy might arise between a taxpayer and the Internal Revenue Service, assessment or collection of a prepetition tax claim against the debtor is automatically stayed by commencement of the bankruptcy case (sec. 362(a)(6).[3] Unless the stay is lifted by the bankruptcy court, or a discharge is granted or denied, the stay continues until termination of the bankruptcy case (sec. 362(c)).

The new statute authorizes the bankruptcy judge to lift the stay and permit the debtor to institute a Tax Court case (if a notice of deficiency has been issued and the period for filing such case has not expired) or to continue a pending Tax Court case involving the debtor's tax liability (new 11 U.S. Code sec. 362(d)). The bankruptcy court, for example, could lift the stay if the debtor seeks to litigate in the Tax Court and the trustee wishes to intervene in that proceeding. In such a case, the merits of the tax controversy will be determined by the Tax Court, and the Tax Court's decision will bind both the individual debtor as to any taxes which are nondischargeable and the intervenor trustee as to the tax claim against the estate.

However, if the bankruptcy court does not lift the automatic stay, but instead itself decides the tax issue and (at the request of the Revenue Service or of the debtor) determines the debtor's personal liability for a nondischargeable tax, then the bankruptcy court's decision will bind both the individual debtor and the estate as well as the government.[4]

Reasons for Change

The committee believes that the provisions of the Internal Revenue Code relating to assessment and collection procedures should be coordinated with rules enacted in the new bankruptcy statute (P.L. 95-598) for determination of tax liabilities in bankruptcy cases.

Explanation of Provisions

Section 6(a), 6(b), 6(c), 6(d), and 6(g) of the bill coordinate certain provisions of the Internal Revenue Code with the bankruptcy court procedures enacted in P.L. 95-598, as described above. These procedures include the automatic stay on assessment or collection of [49] certain tax claims against the debtor, the automatic stay on institution or continuation by the debtor of deficiency litigation in the U.S. Tax Court, and the authority of the bankruptcy court to lift the stay and permit the debtor's tax liability to be determined by the Tax Court. These provisions are the same as the corresponding sections of the House bill.

Immediate assessment

General rule

Section 6(g) of the bill generally repeals the present rule (in sec. 6871(a) of the Code) authorizing the Internal Revenue Service to assess certain prepetition tax deficiencies of the debtor immediately on institution of bankruptcy proceedings. Accordingly, if the bankruptcy court lifts the automatic stay under new 11 U.S. Code section 362(a)(8), the debtor is not precluded from filing a petition (if timely) in the Tax Court to challenge an asserted prebankruptcy tax deficiency.

Exceptions

The bill authorizes the Revenue Service to make an immediate assessment (1) of tax imposed on the bankruptcy estate of an individual debtor, or (2) of tax imposed on a debtor if liability for such tax has become res judicata against the debtor pursuant to a bankruptcy court determination.

These two exceptions reflect bankruptcy situations in which there is no need to require the Revenue Service to follow the normal deficiency notice

[2] Under the law applicable to Bankruptcy Act proceedings, the trustee of a bankruptcy estate must proceed in courts other than the bankruptcy court to seek a refund of Federal taxes paid by the debtor. While the trustee succeeds to any right to refund for tax overpayments, the bankruptcy court has jurisdiction only to allow claims against the bankruptcy estate, and not to enforce claims against third parties.

New 11 U.S. Code sec. 505(a) expands the jurisdiction of the bankruptcy court to include determination of refund claims. To invoke the bankruptcy court's jurisdiction, the trustee must file an administrative claim for refund with the Internal Revenue Service (if the debtor had not done so prior to commencement of the bankruptcy case). If a claim filed by the trustee is denied or if 120 days elapse without action by the Internal Revenue Service, the court has jurisdiction to determine the refund issue.

[3] The stay does not preclude the Internal Revenue Service from issuing a deficiency notice during the bankruptcy case (new 11 U.S. Code sec. 362(b)(8)).

[4] 124 Cong. Rec. H-11,111 (daily ed. Sept. 28, 1978) (remarks of Mr. Edwards); 124 Cong. Rec. S-17,427 (daily ed. Oct. 6, 1978) (remarks of Sen. DeConcini). In the case of a corporate debtor, the commencement of a bankruptcy proceeding does not create a separate taxable entity, and (unlike in the case of an individual debtor) the debtor corporation is considered to be personally before the bankruptcy court. Accordingly, a decision by the bankruptcy court as to the corporate debtor's prepetition income tax liability is binding on the corporation, which cannot thereafter institute a Tax Court case to relitigate the issue. However, under P.L. 95-598, the bankruptcy judge is authorized to lift the automatic stay under new 11 U.S. Code sec. 362 and permit the tax issue to be determined in the U.S. Tax Court (if a case involving the issue is already pending in that Court, or if a deficiency notice has been issued and the period for filing such case has not expired).

procedure. In the case of taxes imposed on the bankruptcy estate of an individual (i.e., where the estate is treated as a separate taxable entity), the estate's own tax liability is determined by the bankruptcy court and cannot be litigated in the Tax Court. In the case where an individual debtor's personal liability for nondischargeable tax claims has been litigated in the bankruptcy court, and under the doctrine of res judicata the debtor would be precluded from relitigating the issue in any court, no purpose would be served by requiring issuance of a deficiency notice prior to assessment. For the same reason, the bill permits immediate assessment of a corporate debtor's tax liabilities once the bankruptcy court has made a determination which is res judicata.

Conforming rules

The bill also amends section 6871 of the Code to delete the prohibition in current law on filing a Tax Court petition after commencement of a bankruptcy proceeding. This change likewise conforms to the provisions of P.L. 95-598 which stay the debtor, on commencement of a bankruptcy case, from instituting a Tax Court proceeding to challenge an asserted tax deficiency, but authorize the bankruptcy judge to lift the stay and permit the debtor to institute a Tax Court case (if a notice of deficiency has been issued and the period for filing such case has not expired). Also, the bill restates the rule of present law that claims for certain tax deficiencies, etc. may be presented for adjudication before the bankruptcy court, notwithstanding the pendency of any Tax Court proceedings for redetermination of the deficiency.

[50] *Receiverships*

The bill does not modify the present law rules in section 6871 of the Code relating to receivership proceedings. To the extent immediate assessment authority is retained for receivership proceedings, and for the two bankruptcy situations described above, the bill expands the category of taxes which could be so assessed to include taxes under Internal Revenue Code chapters 41 (public charities), 42 (private foundations and black lung benefit trusts), 43 (qualified pension, etc., plans), 44 (real estate investment trusts), and 45 (windfall profit tax).

Collection

Section 6(g) of the bill amends section 6873(a) of the Code to delete the rule that any portion of a claim for nondischargeable taxes allowed in a bankruptcy case but not satisfied out of assets in the estate must be paid by the taxpayer upon notice and demand by the Internal Revenue Service after termination of the bankruptcy case. (No change is made in section 6873 with respect to payment of claims for taxes allowed in a receivership proceeding.) As described above, if the bankruptcy court has made a determination of the debtor's tax liability which (under the doctrine of res judicata) precludes the debtor from relitigating the issue in any other court, the Revenue Service can make an immediate assessment of such liability without isuing a deficiency notice. Thereafter, the provisions of the Code relating to collection of assessed taxes apply.

Tax Court petition

Section 6(b) of the bill provides that if the stay under new 11 U.S. Code section 362(a)(8) precludes a debtor from filing a petition in the U.S. Tax Court after receipt of a deficiency notice, the running of the normal 90-day period for filing the petition is suspended during the stay and for 60 days thereafter. Also, the bill clarifies that the filing of a proof of claim, the filing of request for payment, or other action taken by the Internal Revenue Service in the bankruptcy case (such as a request that the court determine the personal liability of an individual debtor for a nondischargeable tax) is not to be treated as prohibited under section 6213(a) of the Code (relating to certain restrictions generally applicable to assessment of a tax deficiency).

Tax Court intervention

Section 6(c) of the bill provides that the trustee of the bankruptcy estate of a debtor may intervene, as a matter of right, on behalf of the estate in any proceeding before the U.S. Tax Court to which the debtor is a party. This provision applies where the bankruptcy judge lifts the automatic stay under new 11 U.S. Code section 362 so that the debtor's prepetition tax liability can be determined in the Tax Court.

Assessment and collection limitations

Section 6(a) of the bill provides that if the automatic stay under the Internal Revenue Service is prohibited for a period of time by reason of a bankruptcy case from assessment or collection of tax (for example, because of the automatic stay under new 11 U.S. Code sec. 362(a)(6)), the running of the period of limitations is suspended, [51] for assessment, for the prohibition period and for 60 days thereafter; and for collection, for the prohibition period and for six months thereafter.

Cross references

Section 6(d) of the bill adds cross references in sections 6212, 6512, 6532, and 7430 of the Code to new 11 U.S. Code section 505 (relating to jurisdiction of the bankruptcy court).

2. Relief from certain failures to pay tax when due (sec 6(e) of the bill and new sec. 6658 of the Code)

Present Law

The Internal Revenue Code (secs. 6651, 6654, and 6655) imposes penalties for failure timely to pay certain taxes, unless the taxpayer can establish that the failure was due to reasonable cause and not due to willful neglect. Under bankruptcy rules, a debtor or the trustee of a bankruptcy estate may be precluded from timely paying certain taxes after commencement of the bankruptcy proceedings.

Reasons for Change

The committee believes that penalties should not be imposed for failure timely to pay certain taxes to the extent that bankruptcy proceedings preclude payment of such taxes when due.

Explanation of Provision

Section 6(e) of the bill relieves the debtor or the trustee from penalties which otherwise might be applicable under sections 6651, 6654, or 6655 of the Code for failure timely to pay certain taxes, with respect to a period during which a bankruptcy case is pending, to the extent that the bankruptcy case precludes payment of such taxes when due.[5] This provision is the same as section 6(e) of the House bill.

In the case of a tax incurred by the estate, the relief is granted if the failure occurs pursuant to a court order finding probable insufficiency of funds to pay such taxes. In the case of a tax incurred by the debtor before commencement of the bankruptcy case, the relief provision of the bill applies if either the bankruptcy petition is filed before the tax return due date, or the date for imposing the penalty occurs after commencement of the bankruptcy case.

These relief rules do not, however, apply with respect to liability for penalties for failure timely to pay or deposit any employment tax required to be withheld by the debtor or trustee.

3. Preservation of FUTA credit (sec. 6(f) of the bill and sec. 3302 of the Code)

Present Law

Present law provides a credit against the Federal unemployment tax imposed on an employer for amounts paid by the employer into a State unemployment compensation fund (sec. 3302 of the Internal Revenue Code). A reduction in the otherwise allowable credit is re- [52] quired in the case of late contributions to a State fund (sec. 3302(a)(3) of the Code).

Reasons for Change

The committee believes that if because of the pendency of bankruptcy proceedings, the trustee of a bankruptcy estate is precluded from making timely payment of contributions to a State unemployment compensation fund, it is not appropriate to require a reduction in the credit against the Federal unemployment tax.

Explanation of Provision

Section 6(f) of the bill amends section 3302(a) of the Code to provide that there is no reduction in the credit against the FUTA tax if the failure to make timely contributions to a State unemployment compensation fund, with respect to wages paid by the trustee of a bankruptcy estate, is without fault of the trustee on account of the bankruptcy case. This provision is the same as section 6(f) of the House bill.

4. Repeal of deadwood provision (sec. 6(h) of the bill and sec. 1018 of the Code)

Present Law

Section 1018 of the Internal Revenue Code provides certain basis adjustment rules which apply if, in a bankruptcy proceeding under section 77B of the Bankruptcy Act which concluded before September 22, 1938, indebtedness was cancelled in pursuance of a plan of reorganization consummated by adjustment of the capital or debt structure of the insolvent corporation.

Reasons for Change

The committee believes that inasmuch as section 1018 of the Code applies only with respect to certain bankruptcy proceedings concluded before September 22, 1938, that provision should be deleted from the statute as deadwood.

Explanation of Provision

Section 6(h) of the bill repeals section 1018 of the Internal Revenue Code. This provision is the same as section 6(h) of the House bill.

5. Technical and conforming amendments (sec. 6(i) of the bill)

Section 6(i) of the bill makes technical and conforming amendments to the Internal Revenue Code, principally to substitute references to bankruptcy cases under new title 11 of the U.S. Code for references to bankruptcy proceedings under the now-repealed Bankruptcy Act.

1. Amendment of section 128(a).—In section 128(a) of the Code, relating to cross references to other Acts, the reference to the Bankruptcy Act is deleted.

2. Amendment of section 354(c).—Section 354(c) of the Code, relating to exchanges of stock and securities in certain railroad reorganizations, is amended to substitute a reference to plans of reorganization confirmed under new 11 U.S. Code section 1173, for a reference to plans approved by the Interstate Commerce Commission under section 77 of the Bankruptcy Act.

3. Amendment of section 422(c).—Section 422(c)(5) of the Code, relating to certain transfers by insolvent individuals of stock acquired [53] pursuant to exercise of a qualified stock option, is amended by substituting a reference to new 11 U.S. Code for a reference to the Bankruptcy Act.

4. Amendment of section 1023.—Section 1023 of the Code, relating to cross references, is amended by deleting a cross reference to the Bankruptcy Act.

5. Amendment of section 6012(b).—Section 6012(b)(3) of the Code, relating to returns made by receivers, trustees, and assignees for corporations, is amended by substituting a reference to a trustee in a bankruptcy case under new 11 U.S. Code for a reference to a trustee in a bankruptcy proceeding (under the Bankruptcy Act).

[5] No inference is intended, by virtue of adoption of the rules in section 6(e) of the bill, that under present law such penalties should be imposed where a debtor or the trustee of a bankruptcy estate is precluded from timely paying such taxes by virtue of bankruptcy proceedings.

6. Amendment of section 6036.—Section 6036 of the Code, relating to notice of qualification as executor or receiver, is amended by substituting a reference to a trustee in a bankruptcy case under new 11 U.S. Code for a reference to a trustee in a bankruptcy proceeding (under the Bankruptcy Act).

7. Amendment of section 6155(b).—Section 6155(b)(2) of the Code, relating to cross references, is amended by deleting the reference to section 6873 of the Code with respect to bankruptcy proceedings (under the Bankruptcy Act).

8. Amendment of section 6161(c).—Section 6161(c) of the Code, relating to extension of time for payment of tax claims in bankruptcy or receivership proceedings, is amended by substituting references to bankruptcy cases under new 11 U.S. Code for references to bankruptcy proceedings (under the Bankruptcy Act).

9. Amendment of section 6216(1).—Section 6216(1), relating to cross references, is amended by deleting a reference to subchapter B of chapter 70 of the Code with respect to bankruptcy proceedures.

10. Amendment of section 6326.—Section 6326 of the Code, relating to cross references, is amended by deleting references to the Bankruptcy Act and adding references to new 11 U.S. Code.

11. Amendment of section 6503(i).—Section 6503(i)(2), relating to cross references, is amended by deleting a reference to subchapter C of chapter 70 of the Code with respect to suspension of running of period of limitation in a bankruptcy proceeding (under the Bankruptcy Act).

12. Amendment of section 6872.—Section 6872 of the Code, relating to suspension of period on assessment, is amended by substituting a reference to a bankruptcy case under new 11 U.S. Code for a reference to a bankruptcy proceeding under the Bankruptcy Act.

13. Amendment of section 7430.—Section 7430 of the Code, relating to cross references, is amended by deleting references to the Bankruptcy Act and adding references to new 11 U.S. Code.

14. Amendment of section 7508(d).—Section 7508(d)(1) of the Code, relating to time for performing certain acts postponed by reason of service in combat zone, is amended by substituting a reference to bankruptcy cases under new 11 U.S. Code for a reference to bankruptcy proceedings (under the Bankruptcy Act).

6. Effective date for provisions of section 6 of the bill

The provisions of section 6 of the bill (relating to changes in tax procedures) are effective October 1, 1979, except that such provisions do not apply to any Bankruptcy Act proceeding commenced before October 1, 1979.

Public Law 96-595
96th Congress, H.R. 4968 [1]
December 24, 1980

An Act to amend the Internal Revenue Code of 1954 with respect to net operating loss carryovers of taxpayers who cease to be real estate investment trusts, to increase interest rates on certain United States retirement bonds, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. NET OPERATING LOSS CARRYOVER FOR CERTAIN REITS.

(a) IN GENERAL.—Subparagraph (E) of section 172(b)(1) of the Internal Revenue Code of 1954 (relating to net operating loss deduction) is amended to read as follows:

"(E)(i) A net operating loss for a REIT year—

"(I) shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss, and

"(II) shall be a net operating loss carryover to each of the 8 taxable years following the taxable year of such loss.

"(ii) In the case of any net operating loss for a taxable year which is not a REIT year—

"(I) such loss shall not be carried back to any taxable year which is a REIT year, and

"(II) the number of taxable years to which such loss may be a net operating loss carryover under subparagraph (B) shall be increased (to a number not greater than 8) by the number of taxable years to which such loss may not be a net operating loss carryback by reason of subclause (I).

"(iii) For purposes of this subparagraph, the term 'REIT year' means any taxable year for which the provisions of part II of subchapter M (relating to real estate investment trusts) apply to the taxpayer.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to the determination of the net operating loss deduction for taxable years ending after October 4, 1976. For purposes of applying the preceding sentence to any net operating loss for a taxable year which is not a REIT year and which ends on or before October 4, 1976, subclause (II) of section 172(b)(1)(E)(ii) of the Internal Revenue Code of 1954 shall be applied by substituting "the number of REIT years to which such loss was a net operating loss carryback" for "the number of taxable years to which such loss may not be a net operating loss carryback by reason of subclause (I)". In the case of a net operating loss for a taxable year described in the preceding sentence, subclause (II) of section 172(b)(1)(E)(ii) of such Code shall not apply to any taxpayer which acted so as to cause it to cease to qualify as a "real estate investment trust" within the meaning of section 856 of such Code if the principal purpose for such action was to secure the benefit of the allowance of a net operating loss carryover under section 172(b)(1)(B) of such Code.

[1] Senate Report No. 96-1037, page 649; House Report No. 96-1045 is not published.

SEC. 2. INCREASES IN INTEREST RATES PAYABLE ON UNITED STATES RETIREMENT PLAN AND INDIVIDUAL RETIREMENT BONDS.

(a) IN GENERAL.—The first section of the Second Liberty Bond Act (31 U.S.C. 752) is amended by adding at the end thereof the following new paragraph:

"The Secretary of the Treasury, with the approval of the President, may provide by regulations that the investment yield on any offerings of bonds issued under this Act which are described in section 405(b) or 409(a) of the Internal Revenue Code of 1954 (relating to retirement plan bonds and individual retirement bonds, respectively) be increased for the interest accrual periods specified in such regulations so that the investment yield on such bonds for such periods is consistent with the investment yield on new offerings of such bonds.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to the investment yield on bonds issued before, on, or after the date of the enactment of this Act, but only for purposes of increasing the investment yield on such bonds for interest accrual periods beginning after the date of enactment of this Act.

SEC. 3. GENERAL STOCK OWNERSHIP CORPORATIONS.

(a) IN GENERAL.—Subchapter U of the Internal Revenue Code of 1954 (relating to general stock ownership corporations) is amended—

(1) by inserting "or the estate of a deceased shareholder" after "State" in section 1391(a)(4)(D)(ii);

(2) by striking out "Individuals" in the caption of section 1391(c) and inserting in lieu thereof "Individual";

(3) by striking out "1393" in section 1392(a) and inserting in lieu thereof "1396(b)";

(4) by striking out "and all succeeding years" in section 1392(b)(1);

(5) by striking out "section, the term 'taxable income' " in section 1393(a)(2) and inserting in lieu thereof "subchapter, the taxable income";

(6) by striking out "a GSOC" in sections 1393(a)(2), 1393(b)(3), 1394(c), and 1396(b) and inserting in lieu thereof "an electing GSOC";

(7) by striking out "GSOC's" in the heading for section 1394 and inserting in lieu thereof "GSOC";

(8) by striking out "the GSOC" in sections 1393(b)(3) and 1394(d) and inserting in lieu thereof "an electing GSOC";

(9) by striking out "A GSOC" in section 1396(a) and inserting in lieu thereof "An electing GSOC";

(10) by adding at the end of section 1396(b) the following: "Such tax shall be deductible as an ordinary and necessary expense of the corporation under section 162."; and

(11) by amending the table of sections for such subchapter to read as follows:

"Subchapter U—General Stock Ownership Corporations

"Sec. 1391. Definitions.

"Sec. 1392. Election by GSOC.

"Sec. 1393. GSOC taxable income taxed to shareholders.

"Sec. 1394. Rules aplicable to distributions of an electing GSOC.

"Sec. 1395. Adjustment to basis of stock of shareholders.

"Sec. 1396. Minimum distributions.

"Sec. 1397. Special rules applicable to an electing GSOC.".

(b) CONFORMING AMENDMENT.—The last sentence of section 6039B of such Code (relating to return of general stock ownership corporations) is amended by inserting "electing" after "Every".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to corporations chartered after December 31, 1978, and before January 1, 1984.

SEC. 4. CHARITABLE SERVICES PERFORMED ABROAD.

(a) IN GENERAL.—Subsection (a) of section 911 of the Internal Revenue Code of 1954 (relating to income earned by individuals in certain camps) is amended by inserting "or who performs qualified charitable services in a lesser developed country," after "hardship area,".

(b) DOLLAR LIMITATIONS.—

(1) IN GENERAL.—Subparagraph (A) of subsection (c)(1) of such section 911 of such Code is amended to read as follows:

"(A) DOLLAR LIMITATIONS.—

"(i) CAMP RESIDENTS.—In the case of an individual who resides in a camp located in a hardship area, the amount excluded from the gross income of the individual under subsection (a) for any taxable year shall not exceed an amount which shall be computed on a daily basis at an annual rate of $20,000 for days during which he resides in a camp.

"(ii) EMPLOYEES OF CHARITABLE ORGANIZATIONS.—If any individual performs qualified charitable services in a lesser developed country during any taxable year, the amount of the earned income attributable to such services excluded from the gross income of the individual under subsection (a) for the taxable year shall not exceed an amount which shall be computed on a daily basis at an annual rate of $20,000.

"(iii) SPECIAL RULE.—If any individual performs qualified charitable services in a lesser developed country and performs other services while residing in a camp located in a hardship area during any taxable year, the amount of the earned income attributable to such other services excluded from the gross income of the individual under subsection (a) for the taxable year shall not (after the application of clause (i) with respect to such earned income) exceed $20,000 reduced by the amount of the earned income attributable to qualified charitable services excluded from gross income under subsection (a) for the taxable year.".

(2) DEFINITIONS. — Subsection (1)(1) of such section 911 of such Code is amended by adding at the end thereof the following:

"(D) QUALIFIED CHARITABLE SERVICES.—For purposes of this subsection, the term 'qualified charitable services'

means services performed by an employee for an employer which—

"(i) meets the requirements of section 501(c)(3), and

"(ii) is not a private foundation (within the meaning of section 509(a)).

"(E) LESSER DEVELOPED COUNTRY.—The term 'lesser developed country' means any foreign country other than—

"(i) a country listed in the first sentence of section 502(b) of the Trade Act of 1974 (19 U.S.C. 2462), or

"(ii) a country designated by the President as not being a lesser developed country.".

(c) TECHNICAL AMENDMENTS.—

(1) The heading for such section 911 of such Code is amended by inserting "OR FROM CHARITABLE SERVICES" after "CAMPS".

(2) The item relating to section 911 in the table of sections for subpart B of part III of subchapter N of chapter 1 of such Code is amended by inserting "or from charitable services" after "camps".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1978.

SEC. 5. ARBITRAGE REQUIREMENTS FOR MORTGAGE SUBSIDY BONDS.

(a) GENERAL RULE.—Paragraph (4) of section 103A(i) of the Internal Revenue Code of 1954 (relating to requirements related to arbitrage) is amended by adding at the end thereof the following new subparagraphs:

"(C) REDUCTION WHERE ISSUER DOES NOT USE FULL 1 PERCENTAGE POINT UNDER PARAGRAPH (2).—

"(i) IN GENERAL.—The amount required to be paid or credited to mortgagors under subparagraph (A) (determined under this paragraph without regard to this subparagraph) shall be reduced by the unused paragraph (2) amount.

"(ii) UNUSED PARAGRAPH (2) AMOUNT.—For purposes of clause (i), the unused paragraph (2) amount is the amount which (if it were treated as an interest payment made by mortgagors) would result in the excess referred to in paragraph (2)(A) being equal to 1 percentage point. Such amount shall be fixed and determined as of the yield determination date.

"(D) ELECTION TO PAY UNITED STATES.—Subparagraph (A) shall be satisfied with respect to any issue if the issuer elects before issuing the obligations to pay over to the United States—

"(i) not less frequently than once each 5 years after the date of issue, an amount equal to 90 percent of the aggregate amount which would be required to be paid or credited to mortgagors under subparagraph (A) (and not theretofore paid to the United States), and

"(ii) not later than 30 days after the redemption of the last obligation, 100 percent of such aggregate amount not theretofore paid to the United States.

"(E) SIMPLIFIED ACCOUNTING.—The Secretary shall permit any simplified system of accounting for purposes of this paragraph which the issuer establishes to the satisfaction of the Secretary will assure that the purposes of this paragraph are carried out.".

(b) TECHNICAL AMENDMENT.—Paragraph (8) of section 103A(1) of such Code is amended by inserting "or paid to the United States" after "credited to mortgagors".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the amendments made by section 1102 of the Mortgage Subsidy Bond Tax Act of 1980 [Pub. L. 96-499, page , this Bulletin].

Approved December 24, 1980.

Senate Report No. 96-1037 2d Session

[Bracketed numerals indicate official report page numbers]

NET OPERATING LOSS CARRYOVERS OF REAL ESTATE INVESTMENT TRUSTS

NOVEMBER 25 (legislative day, NOVEMBER 20), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 4968.[1]

The Committee on Finance, to which was referred the act (H.R. 4968) to amend the Internal Revenue Code of 1954 to provide that in certain cases the net operating loss carryover period for a taxpayer who ceases to be a real estate investment trust shall be the same as the net operating loss carryover period for a taxpayer who continues to be a real estate investment trust, having considered the same, reports favorably thereon with an amendment and an amendment to the title and recommends that the act as amended to pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 4968, as it passed the House, provided certain former REITs an additional year of carryforward (with a maximum of eight years) of net operating losses for each year such former REITs are denied a NOL carryback because they had been REITs.

Committee bill.—The committee bill retains the House provision affecting REITs and adds provisions relating to (1) the rate of interest on U.S. retirement bonds (passed by the House as section 8 of H.R. 4746), (2) General Stock Ownership Corporations, and (3) the tax treatment of employees of charities working abroad (previously reported by the committee as section 201 of H.R. 1319).

[2] I. SUMMARY

SECTION 1. NET OPERATING LOSS CARRYOVERS OF REAL ESTATE INVESTMENT TRUSTS

The bill permits trusts which are former real estate investment trusts (REITS) an additional year to carry over operating losses for each year a carryback was not allowed because these entities were REITS in the carryback year. Under the bill, the maximum carryover period will be 8 years.

[1] Public Law 96-595, page 647.

SEC. 2. RATE OF INTEREST ON UNITED STATES RETIREMENT BONDS

Under present law, the interest rate on an individual retirement bond issued by the Treasury Department or a retirement plan bond issued by the Treasury Department remains the same from the date of issuance until the bond is redeemed (generally when the owner retires, becomes disabled, or dies).

This section of the bill authorizes the Treasury Department to make upward adjustments in the interest rate on outstanding retirement bonds, so that such a bond would earn interest at a rate consistent with the yield for new issues of such bonds.

SEC. 3. TECHNICAL AMENDMENTS RELATING TO GENERAL STOCK OWNERSHIP CORPORATIONS

Under present law, a State is authorized to establish a general stock ownership corporation (GSOC) for the benefit of all its citizens. It is anticipated that the GSOC will be permitted to borrow money to invest in business enterprises. The cash flow from the operation of the business would be used to service and repay the loan, and the remaining cash would be distributed to the GSOC shareholders (i.e., all the citizens of the State). A corporation must meet certain statutory tests in order to be treated as a GSOC. Generally, a GSOC is exempt from Federal income taxation. The shareholders of the GSOC, however, report their proportionate part of the GSOC's taxable income on their Federal individual income tax returns.

This section makes several technical changes in the tax law relating to GSOCs.

SEC. 4. TAX TREATMENT OF EMPLOYEES OF CHARITIES WORKING ABROAD

The Foreign Earned Income Act of 1978 [Pub. L. 95-615, 1978-2 C.B. 415, 416] generally replaced the prior $20,000 foreign earned income exclusion with a new system of itemized deductions for the excess costs of working overseas and an additional $5,000 deduction for employees working in hardship areas. As an exception to these new rules, the 1978 Act permits employees who reside in camps in hardship areas to elect to claim a $20,000 earned income exclusion in lieu of the new excess living cost and hardship area deductions.

The amendment allows individuals meeting the foreign residence or presence tests who perform "qualified charitable services" in less developed countries to elect, in lieu of the deduction for excess foreign living costs, an exclusion of $20,000 from gross income on the same basis as employees residing in camps in hardship areas. The amendment is effective for taxable years beginning after December 31, 1978.

[3] II. EXPLANATION OF THE BILL

A. Net Operating Loss Carryovers of Real Estate Investment Trusts (sec. 1 of the bill and sec. 172 of the Code)

Present law

Prior to the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1], real estate investment trusts (REITs) were not allowed a net operating loss deduction. Because of the effect that this rule had during the economic downturn in the early 1970's, many trusts [1] terminated their status as REITs so that they could carry over net operating losses incurred by them during those years. In such a case, a former REIT was allowed to carry over its losses for five years. However, it was not allowed a deduction for the carryback of the net operating loss to years during which it qualified as a REIT.

The Tax Reform Act of 1976 made two changes that affected the net operating loss carryovers of corporations and REITs. First, it lengthened the time that corporations could carry over their net operating loss deductions from five years to seven years. This change was effective for losses incurred in years ending after December 31, 1975. Because of this effective date, losses incurred before 1976 by trusts which had terminated their REIT status were subject to the five-year carryforward of losses instead of the seven-year carryforward.

The Tax Reform Act of 1976 also changed the treatment of net operating losses of REITs. Under the 1976 Act, a net operating loss incurred in a year that the trust is a REIT can be carried forward for eight years. However, no net operating loss carrybacks are permitted. This change in rules was effective for taxable years of a REIT ending after October 4, 1976. As a result of this effective date, losses incurred before 1976 by REITs were subject to an eight-year carryforward if they retained their REIT status during the entire eight-year carryforward period. However, under the 1976 Act rule, a net operating loss incurred before 1976 could not be carried over to the 6th, 7th, or 8th carryforward year unless the trust was a REIT for all years from the loss year through the carryover year. Thus, a former REIT which incurred a net operating loss in a taxable year ending before October 4, 1976, is permitted less than an eight-year carryover.

Reasons for change

The committee believes that a trust that terminates its status as a REIT should not have fewer years to which it can carry a net operating loss than it would have had if the trust had retained its REIT status.

[4] *Explanation of provision*

This provision allows a trust which was formerly a REIT an additional year of carryforward (with a maximum of eight years) of net operating losses for each year that it is denied a net operating loss carryback because it was a REIT. This change allows a former REIT to have a total of eight

[1] For this purpose, the term "trust" is used to describe the taxpayer even though corporations are permitted to be REITs under the Tax Reform Act of 1976.

carryover years. Thus, the treatment of these former REITs is similar to the treatment accorded to trusts which retain their REIT status throughout the carryover period.

In addition, the provision removes the restriction that allows a net operating loss incurred before 1976 to be carried forward to the 6th, 7th, or 8th year only if the trust claiming the loss qualified as a REIT for all years from the loss year through the carryover year.

The provision also provides a special anti-abuse rule under which losses arising in taxable years ending before October 5, 1976, may not be carried forward if the principal purpose of the trust in losing its REIT status was to obtain the benefit of a net operating loss carryover.

Effective date

The provision is effective for taxable years ending after October 4, 1976.

Revenue effect

It is estimated that this bill will reduce budget receipts by a negligible amount in fiscal years 1981 and 1982, $7 million in 1983, $15 million in 1984, and $20 million in 1985.

* * * * *

[7] C. Technical Amendments Relating to General Stock Ownership Corporations (sec. 3 of the bill and secs. 1391-1397 of the Code)

Present law

Under present law, a State is authorized to establish a general stock ownership corporation (GSOC) for the benefit of all its citizens. It is anticipated that the GSOC will be permitted to borrow money to invest in business enterprises. The cash flow from the operation of the business would be used to service and repay the loan, and the remaining cash would be distributed to the GSOC shareholders (i.e., all citizens of the State).

Present law provides that a corporation must meet certain statutory tests in order to be treated as a GSOC. The GSOC's corporate charter must provide for the issuance of only one class of stock, the issuance of shares only to eligible individuals, and the issuance of at least one share to each eligible individual if such eligible individual does not elect within one year after the date of issuance not to receive such share. Also, the charter must provide for certain restrictions on the transferability of the GSOC shares. The transfer restriction must provide that the share cannot be transferred until the earliest to occur of (1) the expiration of five years from issuance, (2) death, or (3) failure to meet the State's residency requirements. In no event may shares of stock of a GSOC be transfered to nonresidents. Also, no person may acquire more than 10 shares of the GSOC's stock.

An eligible individual is any individual who is a resident of the chartering State as of the date specified in the enabling legislation and who remains a resident between that date and the date of issuance of the stock.

A GSOC must make an election to obtain special tax treatment. The effect of the election is to exempt the corporation from Federal income taxation. The shareholders of the GSOC would report their proportionate part of the GSOC's taxable income on their Federal individual income tax returns.

The GSOC computes its taxable income in the same manner as a regular corporation, with certain modifications. A GSOC is required to distribute 90 percent of its taxable income for any taxable year to its shareholders by January 31 of the next succeeding year. To the extent a GSOC fails to meet this distribution requirement, a tax equal to 20 percent of the deficiency (i.e., the difference between the required distribution and the actual distribution) is imposed on the GSOC.

Reasons for change

The committee believes it appropriate to clarify provisions in present law affecting GSOC's in order to make their utilization and management easier.

[8] *Explanation of provision*

Under this provision, an estate can be a shareholder of stock in a GSOC. The amendment clarifies that the 20-percent tax on a deficiency (i.e., the difference between the required GSOC distribution and the actual GSOC distribution for the year) is deductible from the GSOC's taxable income for the year it is paid.

In addition, the bill makes several technical changes to the law governing GSOCs.

Effective date

The provisions apply with respect to corporations chartered after December 31, 1978, and before January 1, 1984.

Revenue effect

These provisions are not expected to have a direct effect on budget receipts.

[9] D. Tax Treatment of Employees of Charities Working Abroad (sec. 4 of the bill and sec. 911 of the Code)

Present law

General

United States citizens and residents are generally taxed by the United States on their worldwide income with the allowance of a foreign tax credit for foreign taxes paid. However, for years prior to 1978, U.S. citizens working abroad could exclude up to $20,000 of earned income a year if they were present in a foreign country for 17 out of 18 months or they were *bona fide* residents of a foreign country for a period which included an entire taxable year (Code sec. 911). In the case of individuals who had been *bona fide* residents of foreign countries for three years or more, the exclusion was increased to $25,000 of earned income. In addition, under the law prior to 1978, foreign taxes paid

on the excluded income were creditable against the U.S. tax on any foreign income above the $20,000 (or $25,000) limit.

The Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1] would generally have reduced the earned income exclusion for individuals working abroad to $15,000 per year. However, the Act would have retained a $20,000 exclusion for employees of domestic charitable organizations. (The term "charitable" as used in this explanation includes educational, religious, scientific, literary, etc., purposes for which an exemption is allowed under Code section 501(c)(3).) In addition, the Act would have made certain modifications in the computation of the exclusion.

These amendments made by the 1976 Act never went into general effect because the Foreign Earned Income Act of 1978 [Pub. L. 95-615, 1978-2 C.B. 415, 416] generally replaced the section 911 earned income exclusion for years begining after December 31, 1977, with a new system of itemized deductions for the excess costs of working overseas. (The basic eligibility requirements for the deduction are generally the same as for the prior earned income exclusion.) However, because the provisions of the 1978 Act were effective on January 1, 1978, and the Act did not become law until November 8, 1978, taxpayers were permitted to elect for 1978 to be taxed under the new provisions or under prior law (the exclusion as amended by the Tax Reform Act of 1976) so that the 1978 Act would not have any mandatory retroactive effect. It was anticipated that this election would be of particular interest to employees of domestic charitable organizations, since under the 1976 Act they would continue to be eligible for a $20,000 exclusion, even though it would be subject to the new computation rules of the 1976 Act.

Excess living cost deduction

The new excess living cost deduction (new Code sec. 913) provided by the 1978 Act consists of separate elements for the general cost of living, housing, education, and home leave costs. Employees of [10] charitable organizations are allowed these deductions on the same basis as other individuals. The cost-of-living element of the deduction is generally the amount by which the cost of living in the taxpayer's foreign tax home exceeds the cost of living in the highest cost metropolitan area in the continental United States (other than Alaska). The deduction is based on the spendable income of a person paid the salary of a Federal employee at grade level GS-14 step 1, regardless of the taxpayer's actual income. The housing element is the excess of the taxpayer's reasonable housing expenses over his base housing amount (generally one-sixth of his net income). The education deduction is generally the reasonable schooling expenses for the education of the taxpayer's dependents at the elementary and secondary levels. The deduction for annual home leave consists of the reasonable cost of coach fare transportation for the taxpayer, his spouse, and his dependents from his tax home outside the United States to his most recent place of residence within the United States.

In addition, taxpayers living and working in certain hardship areas are allowed a special $5,000 deduction in order to compensate them for the hardships involved and to encourage U.S. citizens to accept employment in these areas. For this purpose, hardship areas are generally those designated by the State Department as hardship posts where the hardship post allowance paid government employees is 15 percent or more of their base pay.

Exclusion for employees in hardship area camps

As an exception to these new rules, the Act permits employees who reside in camps in hardship areas to elect to claim a $20,000 earned income exclusion (under sec. 911) in lieu of the new excess living cost and hardship area deductions. No foreign tax credit would be allowed for foreign taxes attributable to the excluded amount. Lodging is not a "camp" unless it is substandard lodging which is (i) provided by or on behalf of the employer for the convenience of the employer because the place at which the individual renders services is in a remote area where satisfactory housing is not available on the open market; (ii) located, as near as practicable, in the vicinity of the place at which the individual renders services; and (iii) furnished in a common area (or enclave) which is not available to the public and which normally accommodates 10 or more employees. The term "hardship area" has the same meaning for purposes of this provision as for the deduction for excess foreign living costs (sec. 913).

Reasons for change

Many charitable employees working abroad are eligible for a deduction for excess foreign living costs which is considerably less than $20,000 annually. Because these employees generally do not reside in camps, they may not elect the $20,000 annual exclusion. This change from prior law has resulted in a substantial increase in the tax liabilities of these individuals. For the most part, the committee believes that this increase is consistent with the intent of Congress in its refinement, through the Foreign Earned Income Act of 1978 [Pub. L. 95-615, 1978-2 C.B. 415, 416], of the tax relief afforded to Americans working abroad. However, the committee also believes that charitable employees in developing countries generally [11] are performing services which the United States has a special interest in supporting. Accordingly, these employees should be afforded an incentive along the lines of that provided for employees in hardship area camps under the 1978 Act.

Explanation of provision

The provision allows individuals meeting the foreign residence or presence tests in certain developing countries who perform "qualified charitable services" to elect, in lieu of the deduc-

tion for excess foreign living costs, an exclusion of $20,000 from gross income on the same basis as employees residing in camps in hardship areas. "Qualified charitable services" are defined to mean services performed by an employee for an employer which meets the requirements of Code section 501 (c)(3). The developing countries for which the provision applies are those countries other than (i) the countries listed in the first sentence of section 502(d) of the Trade Act of 1974 or (ii) countries designated by the President as not being lesser developed countries.

Effective date

The provision applies to taxable years beginning after December 31, 1978.

Revenue effect

It is estimated that this provision will reduce fiscal year receipts by $40 million in 1981, $18 million in 1982, $19 million in 1983, $21 million in 1984, and $22 million in 1985.

Public Law 96-596
96th Congress, H.R. 5391 [1]
December 24, 1980

An Act to amend the Internal Revenue Code of 1954 with respect to the determination of second tier taxes, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT OF 1954 CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. DETERMINATION OF SECOND TIER TAXES.

(a) DATE FOR DETERMINING AMOUNT OF SECOND TIER TAXES.—

(1) SUBSTITUTION OF TAXABLE PERIOD FOR CORRECTION PERIOD.—The following provisions are each amended by striking out "correction period" and inserting in lieu thereof "taxable period":

(A) Section 4941(b)(1) (relating to additional taxes on self-dealer).

(B) Section 4941(e)(2)(B) (defining amount involved).

(C) Section 4942(b) (relating to additional tax on failure to distribute income).

(D) Section 4943(b) (relating to additional tax on excess business holdings).

(E) Section 4944(b)(1) (relating to additional taxes on investment which jeopardizes charitable purpose).

(F) Section 4945(b)(1) (relating to additional taxes on taxable expenditures).

(G) Section 4951(b)(1) (relating to additional taxes on self-dealer).

(H) Section 4951(e)(2)(B) (defining amount involved).

(I) Section 4952(b)(1) (relating to additional taxes on taxable expenditures).

(J) Section 4971(b) (relating to additional tax on failure to meet minimum funding standards).

(K) Section 4975(b) (relating to additional taxes on disqualified persons).

(L) Section 4975(f)(4)(B) (defining amount involved).

(2) DEFINITION OF TAXABLE PERIOD.—

(A) Paragraph (1) of section 4941(e) (defining taxable period) is amended to read as follows:

"(1) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any act of self-dealing, the period beginning with the date on which the act of self-dealing occurs and ending on the earliest of—

"(A) the date of mailing a notice of deficiency with respect to the tax imposed by subsection (a)(1) under section 6212,

"(B) the date on which the tax imposed by subsection (a)(1) is assessed, or

"(C) the date on which correction of the act of self-dealing is completed."

(B) Paragraph (1) of section 4942(j) is amended to read as follows:

"(1) TAXABLE PERIOD.—The term 'taxable period' means, with respect to the undistributed income for any taxable year, the period beginning with the first day of the taxable year and ending on the earlier of—

"(A) the date of mailing of a notice of deficiency with respect to the tax imposed by subsection (a) under section 6212, or

"(B) the date on which the tax imposed by subsection (a) is assessed."

(C) Paragraph (2) of section 4943(d) is amended to read as follows:

"(2) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any excess business holdings of a private foundation in a business enterprise, the period beginning on the first day on which there are excess holdings and ending on the earlier of—

"(A) the date of mailing of a notice of deficiency with respect to the tax imposed by subsection (a) under section 6212 in respect of such holdings, or

"(B) the date on which the tax imposed by subsection (a) in respect of such holdings is assessed."

(D) Paragraph (1) of section 4944(e) is amended to read as follows:

"(1) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any investment which jeopardizes the carrying out of exempt purposes, the period beginning with the date on which the amount is so invested and ending on the earliest of—

"(A) the date of mailing of a notice of deficiency with respect to the tax imposed by subsection (a)(1) under section 6212,

"(B) the date on which the tax imposed by subsection (a)(1) is assessed, or

[1] This publication of the law, House Report No. 96-912, page 657, and Senate Report No. 96-1034, page 658, are restricted to excerpts involving tax matters.

"(C) the date on which the amount so invested is removed from jeopardy."

(E) Paragraph (2) of section 4945 (i) is amended to read as follows:

"(2) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any taxable expenditure, the period beginning with the date on which the taxable expenditure occurs and ending on the earlier of—

"(A) the date of mailing a notice of deficiency with respect to the tax imposed by subsection (a)(1) under section 6212, or

"(B) the date on which the tax imposed by subsection (a)(1) is assessed."

(F) Paragraph (1) of section 4951 (e) is amended to read as follows:

"(1) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any act of self-dealing, the period beginning with the date on which the act of self-dealing occurs and ending on the earliest of—

"(A) the date of mailing a notice of deficiency with respect to the tax imposed by subsection (a)(1) under section 6212,

"(B) the date on which the tax imposed by subsection (a)(1) is assessed, or

"(C) the date on which correction of the act of self-dealing is completed."

(G) Paragraph (2) of section 4952 (e) is amended to read as follows:

"(2) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any taxable expenditure, the period beginning with the date on which the taxable expenditure occurs and ending on the earlier of—

"(A) the date of mailing a notice of deficiency with respect to the tax imposed by subsection (a)(1) under section 6212, or

"(B) the date on which the tax imposed by subsection (a)(1) is assessed."

(H) Paragraph (3) of section 4971 (c) is amended to read as follows:

"(3) TAXABLE PERIOD.—The term 'taxable period' means, with respect to an accumulated funding deficiency, the period beginning with the end of the plan year in which there is an accumulated funding deficiency and ending on the earlier of—

"(A) the date of mailing of a notice of deficiency with respect to the tax imposed by subsection (a), or

"(B) the date on which the tax imposed by subsection (a) is assessed."

(I) Paragraph (2) of section 4975 (f) is amended to read as follows:

"(2) TAXABLE PERIOD.—The term 'taxable period' means, with respect to any prohibited transaction, the period beginning with the date on which the prohibited transaction occurs and ending on the earliest of—

"(A) the date of mailing a notice of deficiency with respect to the tax imposed by subsection (a) under section 6212,

"(B) the date on which the tax imposed by subsection (a) is assessed, or

"(C) the date on which correction of the prohibited transaction is completed."

(3) TECHNICAL AMENDMENTS.—

(A) Subsection (e) of section 4941 is amended by striking out paragraph (4).

(B) Subsection (j) of section 4942 is amended—

(i) by striking out paragraph (2),

(ii) by striking out "paragraph (5)" in paragraph (3)(B)(i) and inserting in lieu thereof "paragraph (4)",

(iii) by redesignating paragraph (4) as paragraph (2), and

(iv) by redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

(C) Subsection (d) of section 4943 is amended by striking out paragraph (3) and by redesignating paragraph (4) as paragraph (3).

(D) Subsection (e) of section 4944 is amended by striking out paragraph (3).

(E) Subsection (e) of section 4951 is amended by striking out paragraph (4) and by redesignating paragraph (5) as paragraph (4).

(F) Subsection (f) of section 4975 is amended by striking out paragraph (6).

(4) CLERICAL AMENDMENTS.—

(A) Clause (ii) of section 4942(g)(2)(C) is amended by striking out "the initial correction period provided in subsection (j)(2)" and inserting in lieu thereof "the correction period (as defined in section 4962(e))".

(B) Subparagraph (A) of section 4943(d)(3) (as redesignated by paragraph (3)(c)) is amended by striking out "4942(j)(5)" and inserting in lieu thereof "4942(j)(4)".

(C) Subsection (e) of section 6213 (relating to suspension of filing period for certain excise taxes) is amended by striking out "section 4941(e)(4)" and all that follows through the end of such subsection and inserting in lieu thereof "section 4962(e)."

(D) Subsection (g) of section 6503 (relating to suspension of running of period of limitation pending correction) is amended by striking out "section 4941(e)(4)" and all that follows through the end of such subsection and inserting in lieu thereof "section 4962(e)."

(E) Section 6503 is amended by redesignating subsection (j) as subsection (i).

(F) The amendments made by sections 1203(h)(1) and 1601(f)(2) of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 170, 222] and the amendment made by section 362(d)(5) of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 86] shall be deemed to be amendments to section 6503(i) of the Internal Revenue Code of 1954 (as redesignated by subparagraph (E)).

(b) TAX COURT TO DETERMINE WHETHER TAXABLE EVENT HAS BEEN CORRECTED.—Subsection (c) of section 6214 (relating to determinations by Tax Court) is amended by adding at the end thereof the following new sentence: "The Tax Court, in redetermining a deficiency of any second tier tax (as defined in section 4962(b)), shall make a determination with respect to whether the taxable event has been corrected."

(c) ABATEMENT OF TAX WHERE THERE IS CORRECTION DURING CORRECTION PERIOD.—

(1) IN GENERAL.—Chapter 42 is amended by adding at the end thereof the following new subchapter:

"Subchapter C—Abatement of Second Tier Taxes Where There Is Correction During Correction Period

"Sec. 4961. Abatement of second tier taxes where there is correction.

"Sec. 4962. Definitions.

"SEC. 4961. ABATEMENT OF SECOND TIER TAXES WHERE THERE IS CORRECTION.

"(a) GENERAL RULE.—If any taxable event is corrected during the correction period for such event, then any second tier tax imposed with respect to such event (including interest, additions to the tax, and additional amounts) shall not be assessed, and if assessed the assessment shall be abated, and if collected shall be credited or refunded as an overpayment.

"(b) SUPPLEMENTAL PROCEEDING.—If the determination by a court that the taxpayer is liable for a second tier tax has become final, such court shall have jurisdiction to conduct any necessary supplemental proceeding to determine whether the taxable event was corrected during the correction period. Such a supplemental proceeding may be begun only during the period which ends on the 90th day after the last day of the correction period. Where such a supplemental proceeding has begun, the reference in the second sentence of section 6213(a) to a final decision of the Tax Court shall be treated as including a final decision in such supplemental proceeding.

"(c) SUSPENSION OF PERIOD OF COLLECTION FOR SECOND TIER TAX.—

"(1) PROCEEDING IN DISTRICT COURT OR COURT OF CLAIMS.—If, not later than 90 days after the day on which the second tier tax is assessed, the first tier tax is paid in full and a claim for refund of the amount so paid is filed, no levy or proceeding in court for the collection of the second tier tax shall be made, begun, or prosecuted until a final resolution of a proceeding begun as provided in paragraph (2) (and of any supplemental proceeding with respect thereto under subsection (b)). Notwithstanding section 7421(a), the collection by levy or proceeding may be enjoined during the time such prohibition is in force by a proceeding in the proper court.

"(2) SUIT MUST BE BROUGHT TO DETERMINE LIABILITY.—If, within 90 days after the day on which his claim for refund is denied, the person against whom the second tier tax was assessed fails to begin a proceeding described in section 7422 for the determination of his liability for such tax, paragraph (1) shall cease to apply with respect to such tax, effective on the day following the close of the 90-day period referred to in this paragraph.

"(3) SUSPENSION OF RUNNING OF PERIOD OF LIMITATIONS ON COLLECTION.—The running of the period of limitations provided in section 6502 on the collection by levy or by a proceeding in court with respect to any second tier tax described in paragraph (1) shall be suspended for the period during which the Secretary is prohibited from collecting by levy or a proceeding in court.

"(4) JEOPARDY COLLECTION. — If the Secretary makes a finding that the collection of the second tier tax is in jeopardy, nothing in this subsection shall prevent the immediate collection of such tax.

"SEC. 4962. DEFINITIONS.

"(a) FIRST TIER TAX.—For purposes of this subchapter, the term 'first tier tax' means any tax imposed by subsection (a) of section 4941, 4942, 4943, 4944, 4945, 4951, 4952, 4971, or 4975.

"(b) SECOND TIER TAX.—For purposes of this subchapter, the term 'second tier tax' means any tax imposed by subsection (b) of section 4941, 4942, 4943, 4944, 4945, 4951, 4952, 4971, or 4975.

"(c) TAXABLE EVENT.—For purposes of this subchapter, the term 'taxable event' means any act (or failure to act) giving rise to liability for tax under section 4941, 4942, 4943, 4944, 4945, 4951, 4952, 4971, or 4975.

"(d) CORRECT.—For purposes of this subchapter—

"(1) IN GENERAL.—Except as provided in paragraph (2), the term 'correct' has the same meaning as when used in the section which imposes the second tier tax.

"(2) SPECIAL RULES.—The term 'correct' means—

"(A) in the case of the second tier tax imposed by section 4942(b), reducing the amount of the undistributed income to zero,

"(B) in the case of the second tier tax imposed by section 4943(b), reducing the amount of the excess business holdings to zero, and

"(C) in the case of the second tier tax imposed by section 4944, removing the investment from jeopardy.

"(e) CORRECTION PERIOD. — For purposes of this subchapter—

"(1) IN GENERAL.—The term 'correction period' means, with respect to any taxable event, the period beginning on the date on which such event occurs and ending 90 days after the date of mailing under section 6212 of a notice of deficiency with respect to the second tier tax imposed on such taxable event, extended by—

"(A) any period in which a deficiency cannot be assessed under section 6213(a) determined without regard to the last sentence of section 4961(b)), and

"(B) any other period which the Secretary determines is reasonable and necessary to bring about correction of the taxable event.

"(2) SPECIAL RULES FOR WHEN TAXABLE EVENT OCCURS.—For purposes of paragraph (1), the taxable event shall be treated as occurring—

"(A) in the case of section 4942, on the first day of the taxable year for which there was a failure to distribute income,

"(B) in the case of section 4943, on the first day on which there are excess business holdings,

"(C) in the case of section 4971, on the last day of the plan year in which there is an accumulated funding deficiency, and

"(D) in any other case, the date on which such event occurred."

(2) CIVIL ACTIONS FOR REFUNDS.—Paragraph (1) of section 7422(g) (relating to special rules for certain excise taxes imposed by chapter 42 or 43) is amended to read as follows:

"(1) RIGHT TO BRING ACTIONS.—

"(A) IN GENERAL.—With respect to any taxable event, payment of the full amount of the first tier tax shall constitute sufficient payment in order to maintain an action under this section with respect to the second tier tax.

"(B) DEFINITIONS.—For purposes of subparagraph (A), the terms 'taxable event', 'first tier tax', and 'second tier tax' have the respective meanings given to such terms by section 4962."

(3) CLERICAL AMENDMENT.—The table of subchapters for chapter 42 is amended by adding at the end thereof the following new item:

"SUBCHAPTER C. Abatement of second tier taxes where there is correction during correction period."

(d) EFFECTIVE DATES.—

(1) FIRST TIER TAXES. The amendments made by this section with respect to any first tier tax shall take effect as if included in the Internal Revenue Code of 1954 when such tax was first imposed.

(2) SECOND TIER TAXES.—The amendments made by this section with respect to any second tier tax shall apply only with respect to taxes assessed after the date of the enactment of this Act. Nothing in the preceding sentence shall be construed to permit the assessment of a tax in a case to which, on the date of the enactment of this Act, the doctrine of res judicata applies.

(3) FIRST AND SECOND TIER TAX.—For purposes of this subsection, the terms "first tier tax" and "second tier tax" have the respective meanings given to such terms by section 4962 of the Internal Revenue Code of 1954.

SEC. 3. TREATMENT OF CERTAIN CHARITABLE TRUSTS FOR PURPOSES OF THE MINIMUM TAX.

(a) GENERAL RULE.—Subparagraph (C) of section 57(b)(2) (relating to treatment of certain charitable contributions of trusts for purposes of the minimum tax) is amended by redesignating clauses (iv) and (v) as clauses (v) and (vi), respectively, and by inserting after clause (iii) the following new clause:

"(iv) deductions allowable to a trust—

"(I) all the income interests in which are devoted to one or more of the purposes described in section 170(c) (determined without regard to section 170(c)(2)(A)),

"(II) all of the interests (other than income interests) which are held by a corporation, and

"(III) the grantor of which is a corporation."

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to taxable years beginning after December 31, 1975.

SEC. 4. EXCISE TAXES ON TIRES.

(a) REDUCTIONS IN RATE OF TAX.—

(1) IN GENERAL.—

(A) Section 4071(a)(1) is amended by striking out "10 cents" and inserting "9.75 cents".

(B) Section 4071(a)(2) is amended by striking out "5 cents" and inserting "4.875 cents".

(C) Section 4071(d)(1) is amended by striking out "5 cents" and inserting "4.875 cents".

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply on and after January 1, 1981.

(b) DETERMINATION OF OVERPAYMENT.—

(1) IN GENERAL.—The determination of the extent to which any overpayment of tax imposed by section 4071(a)(1) or (2) or section 4071(b) has arisen by reason of an adjustment of a tire after the original sale pursuant to a warranty or guarantee, and the allowance of a credit or refund of any such overpayment, shall be determined in accordance with the principles set forth in regulations and rulings relating thereto to the extent in effect on March 31, 1978.

(2) EFFECTIVE DATE.—This subsection shall apply to the adjustment of any tire after March 31, 1978, and prior to January 1, 1983.

(c) TIRES AND INNER TUBES.—

(1) IN GENERAL.—Paragraph (1) of section 6416(b) (relating to price readjustments) is amended to read as follows:

"(1) PRICE READJUSTMENTS.—

"(A) IN GENERAL.—Except as provided in subparagraph (B) or (C), if the price of any article in respect of which a tax, based on such price, is imposed by chapter 32, is readjusted by reason of the return or repossession of the article or a covering or container, or by a bona fide discount, rebate, or allowance, including a readjustment for local advertising (but only to the extent provided in section 4216(e)(2) and (3)), the part of the tax proportionate to the part of the price repaid or credited to the purchaser shall be deemed to be an overpayment.

"(B) FURTHER MANUFACTURE.—Subparagraph (A) shall not apply in the case of an article in respect of which tax was computed under section 4223(b)(2); but if the price for which such article was sold is readjusted by reason of the return or repossession of the article, the part of the tax proportionate to the part of such price repaid or credited to the purchaser shall be deemed to be an overpayment.

"(C) ADJUSTMENT OF TIRE PRICE.—No credit or refund of any tax imposed by section 4071(a)(1) or (2) or section 4071(b) shall be allowed or made by reason of an adjustment of a tire pursuant to a warranty or guarantee."

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to the adjustments of any tire after December 31, 1982.

SEC. 5. TAX TREATMENT OF PROCEEDS HELD IN TRUST FOR KLAMATH INDIAN TRIBE.

(a) IN GENERAL.—The first section of the Act [Pub. L. 94-81, 1975-2 C.B. 526] entitled "An Act to exclude from gross income gains from the condem-

nation of certain forest lands held in trust for the Klamath Indian Tribe", approved August 9, 1975, is amended by striking out "gain resulting from" and inserting in lieu thereof "all amounts realized by the trust from".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to all amounts whether received before, on, or after the date of the enactment of this Act.

Approved December 24, 1980.

House Report No. 96-912

2d Session

[Bracketed numerals indicate official report page numbers]

CHAPTER 42 SECOND TIER TAX CORRECTION ACT OF 1980

APRIL 29, 1980

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 5391.[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 5391) to amend Chapter 42 of the Internal Revenue Code of 1954 with respect to the determination of second tier taxes, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendments are shown in the reported bill, with the matter proposed to be stricken shown in linetype and the matter proposed to be inserted shown in italic type.

I. SUMMARY

Under present law, a two-tier excise tax system is applicable to private foundations, employee benefit trusts, and black lung benefit trusts, with respect to prohibited acts of these organizations. The second-tier excise tax is not imposed if the prohibited act is corrected within a correction period. The Tax Court has held that it has no jurisdiction to redetermine a deficiency for a second-tier tax because the tax is not imposed until after its decision is final.

Under the bill, the second-tier excise tax will be imposed before any litigation begins (in order to insure that the Court will have jurisdiction) but is to be forgiven if the prohibited act is corrected within a correction period.

[2] II. EXPLANATION OF PROVISIONS

Present law

Under present law, the Internal Revenue Code contains nine sections which impose a two-tier excise tax system to insure the compliance of private foundations,[1] pension trusts,[2] and black lung benefit trusts[3] with certain provisions of the Code. Under each of the sections, a first-tier excise tax is imposed automatically if the foundation or trust engages in a prohibited act (such as self-dealing between a disqualified person and a private foundation), and a much larger second-tier excise tax is imposed for failing to correct the prohibited act within a "correction period." The "correction period" ends after the time a court decision as to whether the taxpayer is liable for the second-tier tax becomes final. This system is designed to provide an adequate opportunity for court review and correction of the transaction before the Internal Revenue Service can impose the second-tier tax. The second-tier taxes are intended to be sufficiently high to compel voluntary compliance (at least after court review) with these provisions.

In a recent case,[4] the Tax Court held that it lacked the authority to redetermine a deficiency of a second-tier tax with respect to an act of self-dealing by a private foundation under Code section 4941(b). The Court found that because the second-tier tax is not "imposed" until after its decision is final, it did not have jurisdiction to redetermine a deficiency of that tax. In addition, the Court noted that the "amount involved" (upon which the amount of tax is based) cannot be determined until after the decision has become final.

Reasons for change

The committee believes that the two-tier excise tax system for prohibited acts by private foundations, pension trusts, and black lung trusts should be amended in order to insure the courts have jurisdiction to enforce the second-tier taxes. In addition, the committee believes any changes to this system continue the original intent of the Congress to provide adequate opportunity for court review and correction of any transaction before requiring the taxpayer to pay the second-tier tax.

[3] *Explanation of the bill*

Under the bill, the second-tier excise tax is to be imposed at the end of the taxable period (i.e. the time the Internal Revenue Service mails a notice of dificiency to the taxpayer with respect to the first-tier tax or when the first-tier tax is assessed if no deficiency notice is mailed). However, the second-tier tax is not to be assessed if the

[1] Public Law 96-596, page 653.

[1] The provisions relating to private foundations are Code sections 4941 (self-dealing), 4942 (failure to distribute income), 4943 (excess business holdings), 4944 (jeopardy investments), and 4945 (taxable expenditures). These provisions were added by the Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10, 14].

[2] The provisions relating to pension trusts are Code sections 4971 (minimum funding) and 4975 (prohibited transactions). These provisions were added by the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1, 89, 140].

[3] The provisions relating to black lung benefit trusts are Code sections 4951 (self-dealing) and 4952 (taxable expenditures). These provisions were added by the Black Lung Benefits Revenue Act of 1977 [Pub. L. 95-227, 1978-1 C.B. 494, 496].

[4] *Adams* v. *Commissioner*, 72 T.C. 81 (1979). This decision was followed in two subsequent cases: *Larchmont* v. *Commissioner*, 72 T.C. 131 (1979), and *H. Fort Flowers Foundation* v. *Commissioner*, 72 T.C. 399 (1979).

taxpayer files a petition with the Tax Court to redetermine that tax and the taxpayer corrects the prohibited act by the end of the correction period. Under the bill, the correction period is to end when the decision of the Tax Court becomes final (under Code sec. 7481), except that it is to be extended by any period the IRS determines is reasonable and necessary to bring about correction (Code sec. 4962(e)).

The bill also provides for a supplemental proceeding by the Court to determine whether the taxpayer corrected the prohibited act within the correction period, if the Court previously determined that the second-tier tax was properly imposed.

Thus, where the taxpayer petitions the Tax Court to redetermine a second-tier tax, the tax may not be assessed unless the Court decides (including a decision in any supplemental proceeding) that the taxpayer has engaged in an act giving rise to a first-tier tax and that the act was not timely corrected.

In refund cases, the bill suspends the collection of any second-tier excise tax which was assessed (for example, because a notice of deficiency was mailed and no petition was filed with the Tax Court) until the taxpayer completes its administrative and judicial refund procedures. Thus, a taxpayer may have a U.S. district court or the Court of Claims review issues involving the second-tier tax without first being required to pay the second-tier tax.[5]

Finally, the bill provides that the amount of the second-tier taxes on self-dealing (Code secs. 4941, 4951, and 4975) will be fixed in amount on the date the second-tier tax is imposed.

Effective date

The bill applies to second-tier taxes assessed after the date of enactment of the bill (except in cases where a court decision with respect to that tax is final on that date).

[5] Under Treasury regulations, the correction period is extended during the pendency of refund proceedings. Under Code section 7422(g)(1), the jurisdictional requirement that a taxpayer pay the second-tier tax is waived.

Senate Report No. 96-1034

2d Session

[Bracketed numerals indicate official report page numbers]

SECOND-TIER EXCISE TAXES

NOVEMBER 25, 1980

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 5391.[1]

The Committee on Finance, to which was referred the act (H.R. 5391) to amend chapter 42 of the Internal Revenue Code of 1954 with respect to the determination of second-tier taxes, having considered the same, reports favorably thereon with an amendment and an amendment to the title and recommends that the act as amended do pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 5391, as passed by the House, provided that the Tax Court is to have jurisdiction over second-tier excise taxes relating to private foundations, employee benefit trusts, and black lung benefit trusts, with respect to prohibited acts of these organizations.

Committee bill.—The committee bill retains the House provision relating to second-tier excise taxes, and adds four other tax provisions relating to (1) alternative minimum tax on charitable lead trusts created by corporations (sec. 3 of H.R. 4746, as passed the House), (2) adjustments in excise taxes on tires, (3) cash and deferred plan rules for salary reduction arrangements under money purchase pension plans (previously reported by the committee in sec. 406 of H.R. 1212 and H.R. 2492), and (4) tax treatment of Klamath Indian judgments.

[1] Public Law 96-596, page 653.

[2] I. SUMMARY

* * * * *

Section 3. Alternative Minimum Tax on Charitable Lead Trusts Created by Corporations

Under present law, the alternative minimum tax may be imposed on a charitable lead trust set up by a corporation because the deduction for income paid to charity is treated as an adjusted itemized deduction preference. However, if the corporation had made a contribution to charity directly instead of through a charitable lead trust, there would be no alternative minimum tax because corporations are not subject to this tax.

This section of the bill provides that the charitable deduction of a charitable lead trust will not be considered in determining the adjusted itemized deduction preference for purposes of the alternative minimum tax if the grantor of the trust and the owner of all reversionary interests in the trust is a corporation.

Section 4. Adjustments in Excise Tax on Tires

Present law imposes an excise tax of 10 cents per pound on new highway tires (to be reduced to 5 cents per pound on October 1, 1984), and 5 cents per pound on new nonhighway tires. A credit or refund is allowed with respect to tires for which a warranty or guarantee adjustment is made. However, there are no specific statutory provisions as to the proper method of computing the credit or refund.

The bill will reduce the excise taxes on new tires by 2.5 percent, beginning on January 1, 1981, and disallow an excise tax credit or refund with respect to tires for which a warranty or guarantee adjustment is made after December 31, 1982. The bill also provides a special rule for determining a credit or refund for tires which are adjusted after March 31, 1978, and prior to January 1, 1983. In this period, a credit or refund would be determined under the administrative guidelines in effect on March 31, 1978.

* * * * *

[3] Section 6. Tax Treatment of Klamath Indian Judgments

Under present law, the income tax treatment of interest or damages for delay for the Klamath Reservation is unclear.

The bill clarifies that interest or damages for delay in payment for the Klamath Reservation are excludible from the income of the Klamath trust and its distributees.

* * * * *

[6] B. Alternative Minimum Tax on Charitable Lead Trusts Created by Corporations (sec. 3 of the bill and sec. 57 of the Code)

Present law

The Revenue Act of 1978 imposed an alternative minimum tax with rates up to 25 percent on taxpayers other than corporations. Alternative minimum taxable income is gross income reduced by allowable deductions and increased by the amount of the taxpayer's adjusted itemized deductions and capital gains deduction. The preference for adjusted itemized deductions is generally the amount by which a taxpayer's itemized deductions (such as the charitable deduction) exceed 60 percent of the taxpayer's adjusted gross income. In general, the preference for adjusted itemized deductions was applied to charitable lead trusts (i.e., where the present interest in the trust is paid to the charity) in order that this type of trust could not be used to circumvent application of the alternative minimum tax to the grantor (or beneficiary) of the trust. Exceptions were provided where avoidance of the alternative minimum tax was not possible, e.g., estates, testamentary charitable lead trusts, and trusts created before 1978. However, no exception was provided for charitable lead trusts created by a corporation even though corporations are not subject to the alternative minimum tax. Consequently, the alternative minimum tax may be imposed on a charitable lead trust created by a corporation because the trust's charitable deduction for income paid to charity may give rise to the preference for adjusted itemized deductions.

Reasons for change

The committee believes that, for purposes of the alternative minimum tax, the treatment of the charitable deduction of a charitable lead trust, created by a corporation and in which a corporation has the reversionary interest, should be consistent with the treatment of a charitable deduction when the contribution is directly made by a corporation.

Explanation of provision

The bill provides that the charitable contribution deduction of a charitable lead trust will not be treated as an itemized deduction in determining the adjusted itemized deduction preference for purposes of the alternative minimum tax, if the grantor of the trust and the owner of all reversionary (or remainder) interests in the trust is a corporation.

Effective date

This provision is effective for taxable years beginning after December 31, 1975.[1]

Revenue effect

This provision will reduce budget receipts by less than $5 million annually.

[7] C. Adjustment in Excise Tax on Tires (sec. 4 of the bill and secs. 4071 and 6416 of the Code)

Present law

Present law (sec. 4071(a) of the Code) imposes a manufacturers excise tax of 10 cents per pound on new tires [1] of the type used on highway vehicles, and 5 cents per pound on new nonhighway tires. The tax on new highway tires is scheduled to be reduced to 5 cents per pound on October 1, 1984 (sec. 4071(d)); the tax on nonhighway tires is to remain at 5 cents per pound. Revenues from the tax on tires go into the Highway Trust Fund (through September 30, 1984).

Since these taxes are imposed on the basis of the weight of the tire, the price for which the tire is sold generally does not affect the amount of tax due on a manufacturer's sale. However, under IRS administrative guidelines (Rev. Rul. 59-394, 1959-2 CB 280), an exception occurs when a tire manufacturer sells a new replacement tire at a reduced price prusuant to a warranty or guarantee on the tire that is being replaced. Then the manufacturers excise tax on the replaced tire is to be reduced in proportion to the reduction in price of the replacement tire. The amount is allowable as a credit or refund (without interest) of the manufacturers excise tax on the replaced tire (sec. 6416(b)).

The tire industry's practice has been to apply this rule based on the proportionate reduction in the price to the ultimate consumer where the warranty or guarantee is invoked by the ultimate consumer. This reduction is often greater than the reduction in the price of the replacement tire by the manufacturer to the dealer who provides the replacement tire to the ultimate consumer. However, the Internal Revenue Service has taken the position (Rev. Rul. 76-423, 1976-2 CB 345) that the tax should be reduced in proportion to the reduction in price from the manufacturer to its immediate vendee —usually, a wholesaler or a dealer. Under current warranty or guarantee practices used in the tire industry, the

[1] The amendment applies to all taxable years for which itemized deductions may be treated as a preference for minimum tax purposes. Preference treatment was first provided for certain itemized deductions under the Tax Reform Act of 1976 [Pub.L. 94-455, 1976-3 C.B. (Vol. 1) 1].

[1] The tax applies on the sale (sec. 4071(a)(1) and (2) or delivery to a retail outlet (sec. 4071(b)) of a manufacturer, producer or importer. (A lease (sec. 4217) or use (sec. 4218) is treated as a sale for these purposes.) In general, this means that, as to domestically manufactured tires, the tax applies to new tires and also to tires that have been retreated "from bead to bead" (thereby making them new articles). As to imported tires, the tax applies whether or not the tire is new if the tire has not previously been taxed in the United States. Tires on imported articles (other than articles taxed under sec. 4061 as trucks, etc.) also are subject to tax.

Service's position generally produces a smaller tax reduction (hence, a larger net tax) than that produced by a rule that is based on the adjustment in the sale price to the ultimate consumer.

Revenue Ruling 76-423 also provides similar rules for the situation where the manufacturer's warranty or guarantee runs to the dealer but not to the ultimate consumer, and where the replacement tire is not from the same manufacturer as the original tire being returned under the warranty or guarantee. Finally, the ruling provides that, where the manufacturer initially sells tires to a dealer "under a price reduction arrangement in lieu of a warranty," no adjustment in excise tax is allowable.

[8] As originally announced, the 1976 ruling was to have taken effect with respect to this issue on April 1, 1977. After having been twice postponed by the Service, the effective date of the 1976 ruling became April 1, 1978.

Reasons for change

The committee believes that the manufacturers excise tax on new tires can be simplified significantly. This can be accomplished by reducing the rate of excise tax applicable to new tires and by simultaneously phasing out excise tax credits and refunds with respect to tires the price of which is adjusted pursuant to a warranty or guarantee. By the time that the excise tax credit or refund phaseout has been completed, these changes should result in a simplified system without having a significant effect on the overall receipts from the excise tax on tires.

Because the committee has decided to phase out excise tax credits and refunds with respect to new tires, it believes that the established practices utilized by the tire industry prior to the effective date of Rev. Rul. 76-423 should remain in effect. This will eliminate a need to implement new procedures for the duration of the short phaseout period.

Explanation of provision

The bill will reduce the rate of manufacturers excise tax on new tires by 2.5 percent, beginning on January 1, 1981. Thus, the tax on new highway tires will be reduced to 9.75 cents per pound on January 1, 1981, and to 4.875 cents per pound on October 1, 1984 (when the tax is scheduled to be reduced to 5 cents per pound under present law); and the tax on new nonhighway tires will be reduced to 4.875 cents per pound on January 1, 1981.

The bill also provides a special rule for the determination of an excise tax credit or refund with respect to tires for which a warranty or guarantee adjustment is made. For the adjustment of any tire after March 31, 1978, and prior to January 1, 1983, a credit or refund would be determined under the practice used by the industry prior to the effective date of Rev. Rul. 76-423. No credit or refund would be allowed for a warranty or guarantee adjustment of any tire after December 31, 1982.

Effective date

The amendments relating to excise tax rates apply for new tires sold after December 31, 1980.

The provisions relating to the determination of an excise tax credit or refund apply to the adjustment of any tire after March 31, 1978, and prior to January 1, 1983.

The amendments relating to disallowance of an excise tax credit or refund apply to the adjustment of any tire after December 31, 1982.

Revenue effect

Because this provision will reduce excise tax rates on new tires for two years before it disallows credits or refunds, it is estimated that the bill will decrease net excise tax receipts (receipts less credits and refunds) by $15 million in fiscal year 1981, by $20 million in fiscal year 1982, and by $5 million in fiscal year 1983. The provision will have negligible effects on net receipts after fiscal year 1983. (These amounts otherwise would go into the Highway Trust Fund—through September 30, 1984).

* * * * *

[11] E. Tax Treatment of Klamath Indian Judgments (sec. 6 of the bill)

Present law

In 1954, Congress authorized the sale of the Klamath Reservation, and ended Federal recognition of the tribe. Termination of the tribe occurred in 1958-9. Under the terms of the terminating legislation, any distribution to a member of the tribe of his share in tribal lands, whether in cash or not, would be free from tax. Klamath Indians were given the option to withdraw their share of the value of the tribal lands, or to remain as owners of a private trust to hold their share of the land. Seventy-eight percent of the Klamath Indians chose to withdraw their share. Twenty-two percent chose to leave their interest in the trust.

In 1969, the remaining Klamaths decided to terminate the trust. The property was condemned by the Federal Government and added to the Winema National Forest.

The amount distributed to the remaining Klamaths would have been subject to capital gains tax, to the extent it exceeded the amount that would have been distributed to a withdrawing Indian in 1959-61. Therefore, the remaining Klamath Indians would have been subject to tax, while the withdrawing Indians were not. To prevent this result, Congress enacted P.L. 94-81 [1975-2 C.B. 526], which provided that gain from the condemnation would be excluded from the trust's income and from the income of each person receiving a distribution of the condemnation proceeds from the trust.

Because of litigation over the value of the land, final payment by the United States was not made until this year. The judgment consisted of $103,000,000 for the property plus $27,540,000 as interest or damages for delay in payment since 1974.

Reasons for change

The committee believes that it should clarify that the interest portion of the judgment, in this case, is exempt from income taxation.

Explanation of provision

The provision clarifies that the portion of the Klamath Indian judgment representing interest or damages for delay in payment also is excludible from the income of the trust and its distributees. The exclusion, however, does not extend to income (if any) earned by the trust or the beneficiaries on the condemnation proceeds.

Effective date

The provision will apply to all amounts received before, on, or after enactment.

Revenue effect

It is estimated that the provision will reduce budget receipts for fiscal year 1981 by less than $10 million.

Public Law 96-598
96th Congress, H.R. 3317 [1]
December 24, 1980

An Act to amend the Internal Revenue Code of 1954 with respect to excise tax refunds in the case of certain uses of tread rubber, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXCISE TAX REFUNDS IN CASE OF CERTAIN USES OF TREAD RUBBER.

(a) REFUNDS FOR CERTAIN USES. —Subparagraph (G) of section 6416 (b) (2) of the Internal Revenue Code of 1954 (relating to special cases in which tax payments considered overpayments) is amended to read as follows:

"(G) in the case of tread rubber in respect of which tax was paid under section 4071(a) (4)—

"(i) used or sold for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles (as defined in section 4072(c)),

"(ii) destroyed, scrapped, wasted, or rendered useless in the recapping or retreading process,

"(iii) used in the recapping or retreading of a tire the sale of which is later adjusted pursuant to a warranty or guarantee, in which case the overpayment shall be in proportion to the adjustment in the sales price of such tire, or

"(iv) used in the recapping or retreading of a tire, if such tire is by any person exported, used or sold for use as supplies for vessels or aircraft, sold to a State or local government for the exclusive use of a State or local government, or sold to a nonprofit educational organization for its exclusive use,

unless credit or refund of such tax is allowable under paragraph (3);".

(b) USE IN FURTHER MANUFACTURE, ETC.—

(1) IN GENERAL.—Paragraph (3) of section 6416(b) of such Code (relating to tax-paid articles used for further manufacture, etc.) is amended by inserting after subparagraph (C) the following new subparagraph:

"(D) in the case of tread rubber in respect of which tax was paid under section 4071(a) (4) used in the recapping or retreading of a tire, such tire is sold by the subsequent manufacturer or producer on or in connection with, or with the sale of, any other article manufactured or produced by him and such other article is by any person exported, sold to a State or local government for the exclusive use of a State or local government, sold to a nonprofit educational organization for its exclusive use, or used or sold for use as supplies for vessels or aircraft, unless credit or refund of such tax is allowable under subparagraph (C);".

(2) TECHNICAL AMENDMENTS.—

(A) Subparagraph (E) of section 6416(b) (2) of such Code is amended by inserting after "paragraph (3)" the following: "(or in the case of the tread rubber on a recapped or retreaded tire, resold for use as provided in subparagraph (D) of paragraph (3)),".

(B) Subparagraph (C) of section 6416(a) (1) of such Code is amended by striking out "(b) (3) (C)" and inserting in lieu thereof "(b) (3) (C) or (D)".

(C) Subparagraph (A) of section 6416(b) (3) of such Code is amended by inserting "(D)," after "(C),".

(D) Subparagraph (A) of section 6416(b) (4) of such Code is amended by striking out "section 4071" and inserting in lieu thereof "section 4071, or a recapped or retreaded tire in respect of which tax under section 4071 (a) (4) was paid on the tread rubber used in the recapping or retreading,".

(c) STATUTE OF LIMITATIONS.— Section 6511 of such Code (relating to limitations on credit or refund) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) SPECIAL RULE FOR CERTAIN TREAD RUBBER TAX CREDITS OR REFUNDS.—The period for allowing a credit or making a refund of any overpayment of tax arising by reason of subparagraph (G) (iii) of section 6416 (b) (2) with respect to any adjustment of sales price of a tire pursuant to a warranty or guarantee shall not expire if claim therefor is filed before the date which is one year after the day on which such adjustment is made.".

(d) IMPORTED RECAPPED OR RETREADED UNITED STATES TIRES.— Section 4071 of such Code (relating to excise tax on tires and tubes) is amended by adding at the end thereof the following new subsection:

"(f) IMPORTED RECAPPED OR RETREADED UNITED STATES TIRES.—

"(1) IN GENERAL.—For purposes of subsection (a) (4), in the case of a tire which has been exported from the United States, recapped or retreaded (other than from bead to bead) outside the United States, and imported into the United States—

"(A) the person importing such tire shall be treated as importing the tread rubber used in such recapping or retreading (determined as of the completion of the recapping or retreading), and

[1] This publication of the law and Senate Report No. 96-898, page 663, are restricted to excerpts involving tax matters. House Report 96-560 is not published.

"(B) the sale of such tire by the importer thereof shall be treated as the sale of such tread rubber.

"(2) EXCEPTION FOR CERTAIN TAXABLE SALES.—Paragraph (1) shall not apply with respect to the sale of any tire if such tire is sold on or in connection with the sale of an article on which tax is imposed under section 4061.".

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect on the first day of the first calendar month which begins more than 10 days after the date of the enactment of this Act.

SEC. 2. NONRECOGNITION OF GAIN ON SALE OF PRINCIPAL RESIDENCE.

(a) IN GENERAL.—In the case of an individual—

(1) who sold his principal residence (within the meaning of section 1034 of the Internal Revenue Code of 1954) in 1977,

(2) who purchased property on which to construct a new principal residence (within the meaning of such section)—

(A) the construction of which commenced during such year, and

(B) the construction of which was terminated before completion,

(3) who brought an action, and obtained a judgment, against the builder who commenced construction of the new residence but failed to complete it,

(4) who suspended construction of such residence so that the partially constructed residence could be used as evidence in connection with the prosecution of the builder (without regard to whether it was so used), and

(5) who failed to meet the requirements of such section with respect to occupancy of the new principal residence because of such suspension of construction,

the Secretary of the Treasury, in the administration of section 1034(c) of the Internal Revenue Code of 1954 (relating to rules for application of section 1034), shall apply paragraph (5) of such section as if "5 years" were substituted for "2 years" where it appears in the last sentence of such paragraph.

(b) EFFECTIVE DATE.—The provisions of the first section of this Act shall apply with respect to taxable years beginning after December 31, 1976, and before January 1, 1983.

SEC. 3. DISCLOSURE OF TAX RETURNS TO STATE AUDIT AGENCIES.

(a) GENERAL RULE.—Subsection (d) of section 6103 of the Internal Revenue Code of 1954 (relating to disclosure of return information to State tax officials) is amended to read as follows:

"(d) DISCLOSURE TO STATE TAX OFFICIALS.—

"(1) IN GENERAL.—Returns and return information with respect to taxes imposed by chapters 1, 2, 6, 11, 12, 21, 23, 24, 31, 32, 44, 51, and 52 and subchapter D of chapter 36 shall be open to inspection by, or disclosure to, any State agency, body, or commission, or its legal representative, which is charged under the laws of such State with responsibility for the administration of State tax laws for the purpose of, and only to the extent necessary in, the administration of such laws, including any procedures with respect to locating any person who may be entitled to a refund. Such inspection shall be permitted, or such disclosure made, only upon written request by the head of such agency, body, or commission, and only to the representatives of such agency, body, or commission designated in such written request as the individuals who are to inspect or to receive the returns or return information on behalf of such agency, body, or commission. Such representatives shall not include any individual who is the chief executive officer of such State or who is neither an employee or legal representative of such agency, body, or commission nor a person described in subsection (n). However, such return information shall not be disclosed to the extent that the Secretary determines that such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation.

"(2) DISCLOSURE TO STATE AUDIT AGENCIES.—

"(A) IN GENERAL.—Any returns or return information obtained under paragraph (1) by any State agency, body, or commission may be open to inspection by, or disclosure to, officers and employees of the State audit agency for the purpose of, and only to the extent necessary in, making an audit of the State agency, body, or commission referred to in paragraph (1).

"(B) STATE AUDIT AGENCY.—For purposes of subparagraph (A), the term 'State audit agency' means any State agency, body, or commission which is charged under the laws of the State with the responsibility of auditing State revenues and programs.".

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on the date of the enactment of this Act.

* * * * *

SEC. 5. TREATMENT OF CERTAIN EXPENSES INCLUDIBLE IN THE INCOME OF THE RECIPIENT.[2]

(a) IN GENERAL.—Subsection (e) of section 274 of the Internal Revenue Code of 1954 (relating to specific exceptions to application of disallowance of certain entertainment, etc., expenses) is amended by inserting after paragraph (9) the following new paragraph:

"(10) EXPENSES INCLUDIBLE IN INCOME OF PERSONS WHO ARE NOT EMPLOYEES.—Expenses paid or incurred by the taxpayer for goods, services, and facilities to the extent that the expenses are includible in the gross income of a recipient of the entertainment, amusement, or recreation who is not an employee of the taxpayer as compensation for services rendered or as a prize or award under section 74. The preceding sentence shall not apply to any amount paid or incurred by the taxpayer if such amount is re-

[2] See H.R. Rep. No. 96-1278, 96th Cong., 2d Sess. 32 (1980), with Pub. L. 96-605, page 702, this Bulletin.

quired to be included (or would be so required except that the amount is less than $600) in any information return filed by such taxpayer under part III of subchapter A of chapter 61 and is not so included."

(b) EFFECTIVE DATE.—The amendment by this section shall apply to any expenses paid or incurred after December 31, 1980, in taxable years ending after such date.

* * * * *

Approved December 24, 1980.

Senate Report No. 96-898

2d Session

[Bracketed numerals indicate official report page numbers]

OHIO WESLEYAN UNIVERSITY

AUGUST 18, 1980.

Mr LONG, from the Committee on Finance, submitted the following report to accompany H.R. 3317.[1]

The Committee on Finance, to which was referred the bill (H.R. 3317) to provide for duty-free entry of an organ for Ohio Wesleyan University, having considered the same, reports favorably thereon with an amendment to the text and an amendment to the title, and recommends that the bill as amended do pass.

The amendments are shown in the text of the bill in italic.

House bill.—H.R. 3317, as it passed the House, provided for the duty-free entry of an organ for Ohio Wesleyan University.

Committee bill.—The committee amendment deletes the provision relating to the duty-free entry of an organ for Ohio Wesleyan University, and adds provisions relating to (1) refund of the excise tax on tread rubber, (2) private relief relating to the replacement period for nonrecognition of gain on the sale of a personal residence, and (3) disclosure of tax returns to State audit agencies.

[1] Public Law 96-598, page 661.

[2] I. SUMMARY

As passed by the House, this bill provides for the duty-free entry of an organ for Ohio Wesleyan University. The committee approved the substance of the House-passed bill to be offered as an amendment to H.R. 3122, now pending on the Senate calendar.

In lieu of the House bill provision, the committee adopted an amendment to H.R. 3317 in the nature of a substitute with the following tax provisions.

SECTION 1. REFUNDS OF TREAD RUBBER EXCISE TAX

Under present law, a 5 cents-per-pound manufacturers excise tax is imposed on tread rubber used for recapping or retreading tires of the type used on highway vehicles. No credit or refund of the tread rubber tax is available if the tax-paid tread rubber is wasted in the recapping process, contained in a recapped tire the price of which is adjusted under a warranty, or sold in conjunction with certain otherwise tax-exempt sales. In some situations, the tread rubber tax can be avoided by exporting a tire to be recapped outside the United States and then importing the retreaded tire.

This section provides for a refund or credit of the manufacturers excise tax on tread rubber if the rubber is (1) wasted in the recapping process, (2) contained in a recapped tire which is adjusted under a warranty, or (3) sold in conjunction with certain otherwise tax-exempt sales.

The provision also imposes the tread rubber excise tax on the tread rubber in tires which are exported for recapping and subsequently imported into the United States.

SECTION 2. REPLACEMENT PERIOD FOR NONRECOGNITION OF GAIN ON SALE OF RESIDENCE

In general, gain on the sale of a taxpayer's principal residence will not be recognized for income tax purposes if a replacement residence is purchased or constructed and certain requirements are met within specified time periods.

This provision requires the Secretary of the Treasury, in limited circumstances, to extend to five years the present two-year period during which a taxpayer must occupy and use as a principal residence a newly constructed replacement residence. The provision is intended to benefit Mrs. Jane M. Cathcart of Virginia.

SECTION 3. DISCLOSURE OF TAX RETURNS TO STATE AUDIT AGENCIES

Under present law, returns and return information may be disclosed to State agencies which are charged under State law with responsibility for the administration of State tax laws for the purpose of, and only to the extent necessary in, the administration of such laws.

Under this provision, any returns or return information obtained by a State agency for tax administration purposes are made open to inspection by, or disclosure to, officers and employees of a State audit agency for the purpose of, and only to the extent necessary in, making an audit of the State agency which obtained the returns or return information.

[3] II. EXPLANATION OF THE BILL

A. Refunds of Tread Rubber Excise Tax (sec. 1 of the bill and secs. 4071, 6416, and 6511 of the Code)

Present law

Present law imposes a tax of 5 cents per pound on tread rubber used for recapping or retreading tires of the type used on highway vehicles (Code secs. 4071(a)(4), 4072(b), and 4073(c)).[1]

Tread rubber may be sold tax-free for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles; or a credit or refund (without interest) of the

[1] The tax on tread rubber is scheduled to expire on October 1, 1984 (sec. 4071(d)(3)). (Revenues from this tax go into the Highway Trust Fund.)

tread rubber tax may be obtained if the tax-paid tread rubber is used or sold for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles (Code sec. 6416(b)(2)(G)).

There are several instances under present law where a manufacturers excise tax is imposed on tread rubber when in a similar situation a manufacturers excise tax is not imposed (or a credit or refund of the tax is allowed) on new tires.

First, rubber wasted in manufacturing new tires is not subject to tax because the tax is imposed when the completed tire is sold and only upon the material actually contained in the completed tire (sec. 4071(a)(1)). The tax on tread rubber, on the other hand, is imposed before the recapping or retreading of a used tire. Waste of tread rubber in that process occurs after the tread rubber tax liability has been determined, and under present law no refund or credit is provided for any portion of the tax imposed on tread rubber which is so wasted.[2]

Second, if the sale price of a retreaded tire is adjusted by reason of a warranty or guarantee, no credit or refund of the tread rubber tax is provided.[3]

Third, no credit or refund is available for the tread rubber tax when a recapped or retreaded tire is exported, sold to a State or local government, sold to a nonprofit educational organization, or used or sold [4] for use as supplies for vessels or aircraft (Code secs. 4221 and 6416(b)). The credit or refund is not available where a retreaded tire is mounted on a new vehicle that then is disposed of in any of the above ways.

While used and recapped or retreaded tires ordinarily are subject to the tire tax when imported, a different situation exists when a used tire which has been taxed in the United States is exported, is retreaded (other than from bead to bead) abroad, and then is shipped back into the United States.[4] Then there is neither a tax on the imported retreaded tire nor on the tread rubber used in the retreading, because the tire already has been taxed and the tread rubber is considered to have lost its identity.

Under present law, the general time by which a claim for credit or refund of a tax must be filed is 3 years from the time the tax return was filed or, if later, 2 years from the time the tax was paid (Code sec. 6511).

Reasons for change

The committee believes that it is appropriate to make the application of the excise tax on tread rubber more nearly equivalent to the application of the tax on new tires. Also, the committee concluded that the tax law should not create a competitive advantage for tires which are exported for retreading and then imported for sale in the United States.

Explanation of provision

Credit or refund of tread rubber tax

This provision of the bill makes a credit or refund of the tread rubber tax available in three situations. These changes are intended to permit a credit or refund of the tax on the tread rubber used on a recapped or retreaded tire, under the same circumstances where a credit or refund would be available for the tax on a new tire.

First, the credit or refund is available where rubber is destroyed, scrapped, wasted, or rendered useless in the recapping or retreading process.

Second, the credit or refund is available where the tread rubber is used in the recapping or retreading of a tire if the sales price of the tire is later adjusted because of a warranty or guaranty. The overpayment (that is, the amount available for credit or refund) is the same proportion of the tax paid as the adjustment in the sales price of the retreaded tire to the immediate vendee by the tire retreader.

Third, a credit or refund of the tread rubber tax is provided to the manufacturer for the tread rubber on a recapped or retreaded tire if the tire is by any person (1) exported, (2) sold to a State or local government for its exclusive use, (3) sold to a nonprofit educational organization for its exclusive use, or (4) used or sold for use as supplies for a vessel or aircraft.

Finally, if a retreaded tire is sold by the retreader or by another manufacturer on or in conjunction with another article (for example, [5] a truck) manufactured by it, the bill provides that a credit or refund of the tread rubber tax is to be allowed to the further manufacturer if the article is exported or sold by any person for any of the above purposes.

Tax on imported recapped or retreaded tires

The bill also provides that used tires which are exported from the United States, recapped or retreaded abroad (other than from bead to bead), and then imported into the United States are to be subject to the tax on tread rubber. For this purpose, the amount of tread rubber to be taken into account is to be determined as of the completion of the recapping or re-

[2] In *Great Olympic Tire Co.* v. *U.S.*, 597 F. 2d 449, (5th Cir. 1979), the Fifth Circuit Court of Appeals held that tread rubber wasted in the recapping process is not subject to the section 4071(a)(4) manufacturers excise tax, and that highway-type tires returned under warranty after partial use are subject to the tax without allowance for a refund or credit of the tax previously imposed on the tread rubber remaining on the returned tire. In arriving at these conclusions, the court relied upon the fact that wasted rubber never became part of tires of the type used on highway vehicles and that rubber remaining in a returned tire had become part of a tire of the type used on highway vehicles. While the section 4071(a)(4) tread rubber tax does not refer to highway-type vehicle tires, as does the section 4071(a)(1) new tire tax, the court noted that the legislative history of the tread rubber tax clearly evidences an intention to limit the tax to such tires. *See* H. Rept. No. 10660, 84th Cong., 2d Sess., 1956-2 C.B. 1312; Rev. Rul. 65-223, 1965-2 C.B. 420. *See also Treadco Tires, Inc.* v. *U.S.*, 604 F. 2d 14 (5th Cir. 1979) (Rubber strip stock suppliers are not manufacturers within the meaning of section 4071(a)(4) when they furnish rubber strips to tire retreader for use in an Orbitread extrusion machine).

[3] *See* note 2, *supra*.

[4] Tires recapped from bead to bead are considered as having been newly manufactured and thus are taxable.

treading of the tire. The amount so determined is either the amount which is established as actually used in recapping or retreading the tire or an average amount which is generally used on comparable tires in the industry, as determined by the Treasury Department (Code sec. 4071(c)).

If a retreaded tire is imported on a vehicle which is not itself subject to a manufacturers excise tax (e.g., a passenger car or a light-duty truck), then the importer of the vehicle is under existing law treated as the importer of the tire (Code sec. 4071(e)). However, as noted, if the tire is not taxable because it was exported and recapped abroad (except from bead to bead), the importer is not liable for tax on the tread rubber on the imported tire. This provision carries the process a step further and treats the importer of the vehicle as the importer of the tread rubber on a retreaded tire even though the sale of the tire is not otherwise subject to tax.

Warranty or guaranty adjustments

The provision also modifies the statute of limitations in cases where a claim for credit or refund of the tread rubber tax is filed as a result of a warranty or guaranty adjustment. The provision provides that in such a case a claim for credit or refund may be filed at any time before the date on which the adjustment is made, if the period for filing the claim would otherwise expire before that later date.

In other words, under this provision, the manufacturer is assured that it will have one day less than a year after the time the adjustment is made (or deemed made) within which to file a claim for credit or refund of the relevant tax.

Effective date

The amendments made by this provision are effective on the first day of the first calendar month which begins more than 10 days after the date of the provision's enactment.

* * * * *

[6] B. Nonrecognition of Gain on Sale of Residence (Sec. 2 of the bill and sec. 1034 of the Code)

Present law

In general, the entire amount of gain realized on the sale of real property is recognized for income tax purposes. If certain requirements are met, however, gain on the sale of a taxpayer's principal residence will not be recognized, except to the extent the adjusted sales price of the old residence exceeds the cost of the new residence (Code sec. 1034).

To qualify for nonrecognition under section 1034, the taxpayer must purchase or construct, and use a replacement residence within certain time limits. The purchase of a new residence must occur within eighteen months before or after the sale of the old residence, and the taxpayer must use the new residence as a principal residence within eighteen months after the sale of the old residence (sec. 1034(a)). The construction of a new residence must begin no later than eighteen months after the sale of the old residence, and the taxpayer must occupy and use the new residence as his principal residence no later than two years after the sale of the old residence (sec. 1034(c)(5)).

Reasons for change

The committee believes that the time limits established under present law are adequate in most circumstances and greatly simplify the administration of the nonrecognition provisions under Code section 1034. The committee believes, however, that the exceptional circumstances presented in this specific case warrant a narrow exception to the time limit applicable to the occupation and use of a newly constructed residence.

Explanation of provision

This provision requires the Secretary of the Treasury to extend to five years the present two-year period during which a taxpayer must occupy and use as a principal residence a newly constructed replacement residence, if certain conditions exist. The period is extended only if a taxpayer: (1) sold his principal residence in 1977; (2) bought land for a new residence; (3) began construction of a replacement residence in 1977, and the construction was terminated by the builder before completion; (4) suspended construction to preserve evidence against the builder; (5) sued and obtained a judgment against the builder; and (6) did not occupy the new residence within two years of the sale of the old residence because of the suspension of construction.

This provision is intended to benefit Mrs. Jane M. Cathcart of Virginia.

Effective date

This provision applies to taxable years beginning after December 31, 1976, and before January 1, 1983.

* * * * *

[7] C. Disclosure of Tax Returns to State Audit Agencies (sec. 3 of the bill and sec. 6103(d) of the Code)

Present law

Under present law (Code sec. 6103(d)), returns and return information may be disclosed to State agencies which are charged under the laws of the State with responsibility for the administration of State tax laws for the purpose of, and only to the extent necessary in, the administration of such laws. Section 6103(d) sets forth specific rules with which a State agency must comply in order to receive Federal tax information. For example, the request for disclosure must be made by the head of the State tax agency in writing and the actual disclosure of the tax information may be made only to the representatives of the State tax agency who are designated in the written request to receive the information. Also, the law provides that the tax information cannot be disclosed to the Governor of a State. In addition, return information may not be disclosed to the extent that the Secretary of the Treasury determines such disclosure would identify

a confidential informant or seriously impair any civil or criminal tax investigation.

Return information disclosed to State agencies is subject to strict safeguard, recordkeeping, and reporting requirements (Code secs. 6103(p)(3) and 6103(p)(4)). These requirements provide assurances that Federal tax return information will be used only for the purposes authorized by law and provide a basis for determining when violations occur.

Present law allows State auditing agencies access to Federal tax return information only when the auditing agency actually is involved in the determination, assessment, collection, or refunding of taxes (that is, tax administration activities). Thus, a State auditing agency is not authorized access to Federal tax return information when the auditing agency's role is limited to general oversight of the taxing authority.

Reasons for change

The committee is concerned that present law, by denying State auditing agencies access to Federal return information, may seriously impede an audit agency's ability to exercise effectively its oversight responsibilities with respect to the State taxing authority. Accordingly, the committee believes that State taxing authorities should be permitted to disclose Federal tax returns and return information in their possession to State auditing agencies for the purpose of auditing the activities of the State taxing authority.

While the committee believes that State auditing agencies should be given access to tax returns and return information, the committee is concerned that safeguards required with respect to these disclosures be strictly maintained. Therefore, it is the intention of the committee that the Comptroller General report to the Congress both one and two years after implementation of this provision concerning the procedures established by State auditing agencies and State taxing authorities to protect taxpayer confidentiality.

[8] *Explanation of provision*

The bill provides that any returns or return information obtained by a State agency pursuant to the provisions of Code section 6103(d) may be open to inspection by, or disclosure to, officers and employees of the State audit agency for the purpose of, and only to the extent necessary in, making an audit of the State agency which obtained the returns or return information. Under the bill, a "State audit agency" is defined as any State agency, body, or commission which is charged under the laws of the State with the responsibility of auditing State revenues and programs.

In addition, a State audit agency which receives return information would be subject to the same safeguard, recordkeeping, and reporting requirements as apply to other State agencies which receive return information and would be subject to the confidentiality requirements imposed by section 6103(a) and the civil and criminal penalties applicable in the case of unauthorized disclosure of such return information.

Effective date

This provision becomes effective upon the date of enactment.

IV. REGULATORY IMPACT OF THE BILL

In compliance with paragraph 5 of Rule XXIX of the Standing Rules of the Senate, the following statement is made concerning the regulatory impact that might be incurred in carrying out the provisions of this bill, H.R. 3317, as reported by the committee.

Individuals and businesses regulated and economic impact of regulation.—The bill does not regulate any individuals or businesses, but amends certain provisions of the tax law. Section 1 of the bill provides for a refund or credit of the manufacturers excise tax on tread rubber where the rubber is (1) wasted and in the recapping process, (2) contained in a recapped tire which is adjusted under a warranty, or (3) sold in conjunction with certain otherwise tax-exempt sales. Section 1 also imposes the tread rubber excise tax on the tread rubber in tires which are exported for recapping and subsequently imported into the United States. Section 2 of the bill provides private relief for a taxpayer in Virginia, and section 3 allows disclosure of tax returns to State audit agencies.

Impact on personal privacy.—The provision in section 3 of the bill will involve limited impact on the privacy of those whose returns are audited by a State audit agency in reviewing a State's tax administration. The other provisions of the bill will have minimal impact on personal privacy.

Determination of paperwork involved.—The provisions in section 1 of the bill will involve some additional paperwork with respect to the claiming of the refund or credit of the manufacturers excise tax on tread rubber and for returns involving the excise tax on tread rubber in tires which are exported for recapping and subsequently imported into the United States. The other provisions will have little, if any, net effect on paperwork for taxpayers.

Public Law 96-601
96th Congress, H.R. 5505[1]
December 24, 1980

An Act to simplify certain provisions of the Internal Revenue Code of 1954, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT OF 1954 CODE.

Except as otherwise expressly provided, whenever in this Act an amend-

[1] This publication of the law, Senate Report No. 96-1033, page 668, and House Report No. 96-545, page 675, is restricted to excerpts involving tax matters.

ment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

* * * * *

SEC. 3. EXEMPT STATUS OF AUXILIARIES OF CERTAIN FRATERNAL BENEFICIARY SOCIETIES.

(a) GENERAL RULE.—Subsection (i) of section 501 is amended by adding at the end thereof the following new sentence: "The preceding sentence to the extent it relates to discrimination on the basis of religion shall not apply to—

"(1) an auxiliary of a fraternal beneficiary society if such society—

"(A) is described in subsection (c)(8) and exempt from tax under subsection (a), and

"(B) limits its membership to the members of a particular religion, or

"(2) a club which in good faith limits its membership to the members of a particular religion in order to further the teachings or principles of that religion, and not to exclude individuals of a particular race or color.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after October 20, 1976.

SEC. 4. EXTENSION OF WITHHOLDING TO PAYMENTS OF SICK PAY MADE BY THIRD PARTIES.

(a) GENERAL RULE.—Paragraph (1) of section 3402(o) (relating to extension of withholding to certain payments other than wages) is amended by striking out "and" at the end of subparagraph (A), by adding "and" at the end of subparagraph (B), and by inserting after subparagraph (B) the following new subparagraph:

"(C) any payment to an individual of sick pay which does not constitute wages (determined without regard to this subsection), if at the time the payment is made a request that such sick pay be subject to withholding under this chapter is in effect,".

(b) AMOUNT TO BE DEDUCTED AND WITHHELD.—Subsection (o) of section 3402 is amended by striking out paragraph (3) and inserting in lieu thereof the following new paragraphs:

"(3) AMOUNT WITHHELD FROM ANNUITY PAYMENTS OR SICK PAY.—If a payee makes a request that an annuity or any sick pay be subject to withholding under this chapter, the amount to be deducted and withheld under this chapter from any payment to which such request applies shall be an amount (not less than a minimum amount determined under regulations prescribed by the Secretary) specified by the payee in such request. The amount deducted and withheld with respect to a payment which is greater or less than a full payment shall bear the same relation to the specified amount as such payment bears to a full payment.

"(4) REQUEST FOR WITHHOLDING.—A request that an annuity or any sick pay be subject to withholding under this chapter—

"(A) shall be made by the payee in writing to the person making the payments and shall contain the social security number of the payee,

"(B) shall specify the amount to be deducted and withheld from each full payment, and

"(C) shall take effect—

"(i) in the case of sick pay, with respect to payments made more than 7 days after the date on which such request is furnished to the payor, or

"(ii) in the case of an annuity, at such time (after the date on which such request is furnished to the payor) as the Secretary shall by regulations prescribe.

Such a request may be changed or terminated by furnishing to the person making the payments a written statement of change or termination which shall take effect in the same manner as provided in subparagraph (C). At the election of the payor, any such request (or statement of change or revocation) may take effect earlier than as provided in subparagraph (C).

"(5) SPECIAL RULE FOR SICK PAY PAID PURSUANT TO CERTAIN COLLECTIVE-BARGAINING AGREEMENTS.—In the case of any sick pay paid pursuant to a collective-bargaining agreement between employee representatives and one or more employers which contains a provision specifying that this paragraph is to apply to sick pay paid pursuant to such agreement and contains a provision for determining the amount to be deducted and withheld from each payment of such sick pay—

"(A) the requirement of paragraph (1)(C) that a request for withholding be in effect shall not apply, and

"(B) except as provided in subsection (n), the amounts to be deducted and withheld under this chapter shall be determined in accordance with such agreement.

The preceding sentence shall not apply with respect to sick pay paid pursuant to any agreement to any individual unless the social security number of such individual is furnished to the payor and the payor is furnished with such information as is necessary to determine whether the payment is pursuant to the agreement and to determine the amount to be deducted and withheld.".

(c) DEFINITION OF SICK PAY.—Paragraph (2) of section 3402(o) (relating to definitions) is amended by adding at the end thereof the following new subparagraph:

"(C) SICK PAY.—For purposes of this subsection, the term 'sick pay' means any amount which—

"(i) is paid to an employee pursuant to a plan to which the employer is a party, and

"(ii) constitutes remuneration or a payment in lieu of remuneration for any period during which the employee is temporarily absent from work on account of sickness or personal injuries.".

(d) TECHNICAL AMENDMENT.—Subparagraph (B) of section 3402(o)(2) (defining annuity) is amended by striking out ", but only to the extent that the amount is includible in the gross income of such individual".

(e) REPORTING REQUIREMENTS.—Section 6051 (relating to receipts for employees) is amended by adding at the end thereof the following new subsection:

"(f) STATEMENTS REQUIRED IN CASE OF SICK PAY PAID BY THIRD PARTIES.—

"(1) STATEMENTS REQUIRED FROM PAYOR.—

"(A) IN GENERAL.—If, during any calendar year, any person makes a payment of third-party sick pay to an employee, such person shall, on or before January 15 of the succeeding year, furnish a written statement to the employer in respect of whom such payment was made showing—

"(i) the name and, if there is withholding under section 3402(o), the social security number of such employee,

"(ii) the total amount of the third-party sick pay paid to such employee during the calendar year, and

"(iii) the total amount (if any) deducted and withheld from sick pay under section 3402.

For purposes of the preceding sentence, the term 'third-party sick pay' means any sick pay (as defined in section 3402(o)(2)(C)) which does not constitute wages for purposes of chapter 24 (determined without regard to section 3402(o)(1)).

"(B) SPECIAL RULES.—

"(i) STATEMENTS ARE IN LIEU OF OTHER REPORTING REQUIREMENTS.—The reporting requirements of subparagraph (A) with respect to any payments shall, with respect to such payments, be in lieu of the requirements of subsection (a) and of section 6041.

"(ii) PENALTIES MADE APPLICABLE.—For purposes of sections 6674 and 7204, the statements required to be furnished by subparagraph (A) shall be treated as statements required under this section to be furnished to employees.

"(2) INFORMATION REQUIRED TO BE FURNISHED BY EMPLOYER.—Every employer who receives a statement under paragraph (1)(A) with respect to sick pay paid to any employee during any calendar year shall, on or before January 31 of the succeeding year, furnish a written statement to such employee showing—

"(A) the information shown on the statement furnished under paragraph (1)(A), and

"(B) if any portion of the sick pay is excludable from gross income under section 104(a)(3), the portion which is not so excludable and the portion which is so excludable.

To the extent practicable, the information required under the preceding sentence shall be furnished on or with the statement (if any) required under subsection (a).".

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to payments made on or after the first day of the first calendar month beginning more than 120 days after the date of the enactment of this Act.

SEC. 5. RHODE ISLAND INDIAN CLAIMS SETTLEMENT ACT.

(a) IN GENERAL.—The Rhode Island Indian Claims Settlement Act (Public Law 95-395) is amended by adding at the end thereof the following new title:

"TITLE II—TAX TREATMENT

"EXEMPTION FROM TAXATION

"SEC. 201. (a) Except as otherwise provided in subsections (b) and (c), the settlement lands received by the State Corporation shall not be subject to any form of Federal, State, or local taxation while held by the State Corporation.

"(b) The exemption provided in subsection (a) shall not apply to any income-producing activities occurring on the settlement lands.

"(c) Nothing in this Act shall prevent the making of payments in lieu of taxes by the State Corporation for services provided in connection with the settlement lands.

"DEFERRAL OF CAPITAL GAINS

"SEC. 202. For purposes of the Internal Revenue Code of 1954, any sale or disposition of private settlement lands pursuant to the terms and conditions of the settlement agreement shall be treated as an involuntary conversion within the meaning of section 1033 of the Internal Revenue Code of 1954.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on September 30, 1978.

Approved December 24, 1980.

Senate Report No. 96-1033 2d Session

[Bracketed numerals indicate official report page numbers]

TAX ADMINISTRATIVE PROVISIONS REVISIONS

NOVEMBER 25 (legislative day, NOVEMBER 20), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 5505.[1]

The Committee on Finance, to which was referred the act (H.R. 5505) to simplify certain provisions of the Internal Revenue Code of 1954, and for other purposes, having considered the same, reports favorably thereon with an amendment and recommends that the act, as amended, do pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 5505, as passed by the House, provided for revisions in certain administrative provisions of the Code and extended certain temporary tax provisions.

Committee bill.—The committee bill deletes the provisions of the House bill already enacted (secs. 2-6 and 12; H.R. 5224, P.L. 96-167 [1980-1 C.B. 483]); deletes the provision relating to time for payment of the excise tax on fishing equipment and the provision relating to the time in which certain members of the Armed Forces must replace a principal residence; retains the provision relating to the excise tax treatment of domestic wines for certain purposes, retains the provision re-

[1] Public Law 96-601, page 666.

lating to refunds of tread rubber excise tax (also included in H.R. 3317, as passed by the Senate); retains the provision relating to the exempt status of certain fraternal beneficiary societies, but extends its application to certain other social clubs, such as religious alumni clubs; and adds provisions relating to (1) extension of withholding to payments of sick pay made by third parties (sec. 4 of H.R. 4746, as passed by the House), (2) annual payment of the gift tax, and (3) tax treatment under the Rhode Island Indian Claims Settlement Act.

[2] I. SUMMARY

* * * * *

SEC. 3. REFUNDS OF TREAD RUBBER EXCISE TAX

Under present law, a 5-cents-per-pound manufacturers excise tax is imposed on tread rubber used for recapping or retreading tires of the type used on highway vehicles. No credit or refund of the tread rubber tax is available if the tax-paid tread rubber is wasted in the recapping process, contained in a recapped tire the price of which is adjusted under a warranty, or sold in conjunction with certain otherwise tax-exempt sales. In some situations, the tread rubber tax can be avoided by exporting a tire to be recapped outside the United States and then importing the retreaded tire.

This section provides for a refund or credit of the manufacturers excise tax on tread rubber where the rubber is (1) wasted in the recapping process, (2) contained in a recapped tire the price of which is adjusted under a warranty, or (3) sold in conjunction with certain otherwise tax-exempt sales.

The provision also imposes the tread rubber excise tax on the tread rubber in tires which are exported for recapping and subsequently imported into the United States.

SEC. 4. EXEMPT STATUS OF AUXILIARIES OF CERTAIN FRATERNAL BENEFICIARY SOCIETIES

In order to qualify for tax-exempt status under Code section 501(c)(7) after October 20, 1976, a social club cannot have any provision providing for discrimination against any person on the basis of race, color, or religion in the club's charter, bylaws, other governing instrument, or any written policy statement.

This section allows social clubs which are affiliated with fraternal beneficiary societies exempt under Code section 501(c)(8), such as those operated by the Knights of Columbus, to retain their exemption even though membership in the clubs is limited to members of a particular religion. In addition, this provision will allow certain alumni clubs which are limited to members of a particular religion to retain their exemption under Code section 501(c)(7).

[3] SEC. 5. EXTENSION OF WITHHOLDING TO PAYMENTS OF SICK PAY MADE BY THIRD PARTIES

Under present law, no tax is specifically required to be withheld upon payments of sick pay made to an employee by a person who is not the employer for whom the employee performs services. For example, no tax is withheld from payments of sick pay made on behalf of an employer by an insurance company under an accident or health policy.

In general, this section of the bill provides for voluntary withholding from payments of sick pay made by a third party. In addition, it contains a special provision relating to sick pay paid pursuant to certain collective-bargaining agreements and contains various reporting requirements.

SEC. 6. ANNUAL PAYMENT OF GIFT TAX

Under present law, a gift tax return generally is required to be filed, and any gift tax paid, on a calendar quarter basis if the sum of (1) the taxable gifts made during the calendar quarter plus (2) all other taxable gifts made during the calendar year (and for which a return has not yet been required to be filed) exceeds $25,000. However, if all transfers made in a calendar year that are subject to the gift tax filing requirements do not exceed $25,000 in taxable gifts, a return must be filed, and the gift tax paid, by April 15 of the following year.

The bill provides that gift tax returns are to be filed, and any gift tax paid, on an annual basis. The provision is effective with respect to gifts made after December 31, 1981.

SEC. 7. TAX TREATMENT UNDER THE RHODE ISLAND INDIAN CLAIMS SETTLEMENT ACT

Under present law, the tax status of land received by a corporation created under Rhode Island law to implement a settlement with the Narragansett Indian Tribe is unclear. In addition, present law is unclear with respect to various other aspects related to the Rhode Island Indian Claims Settlement Act.

The bill generally clarifies the tax treatment of transfers under the Rhode Island Indian Settlement Act.

[4] II. EXPLANATION OF THE BILL

* * * * *

[6] B. Refunds of Tread Rubber Excise Tax (sec. 3 of the bill and secs. 4071, 6416, and 6511 of the Code)

Present law

Present law imposes a tax of 5 cents per pound on tread rubber used for recapping or retreading tires of the type used on highway vehicles (Code secs. 4071(a)(4), 4072(b), and 4073(c)).[1]

Tread rubber may be sold tax-free for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles, or a credit or refund (without interest) of the tread rubber tax may be obtained if the tax-paid tread rubber is used or sold for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles (Code sec. 6416(b)(2)(G)).

[1] The tax on tread rubber is scheduled to expire on October 1, 1984 (Code sec. 4071(d)(3)). (Revenues from this tax go into the Highway Trust Fund.)

There are several instances under present law where a manufacturers excise tax is imposed on tread rubber when in a similar situation the manufacturers excise tax is not imposed (or a credit or refund of the tax is allowed) on new tires.

First, rubber wasted in manufacturing new tires is not subject to tax since the tax is imposed when the completed tire is sold and only upon the material actually contained in the completed tire. The tax on tread rubber, on the other hand, is imposed before the recapping or retreading of a used tire. Wastage of tread rubber in that process occurs after the tread rubber tax liability has been determined, and under present law no refund or credit is provided for any portion of the tax imposed on tread rubber which is so wasted.[2]

Second, if the sale price of a retreaded tire is adjusted by reason of a warranty or guarantee, no credit or refund of the tread rubber tax is provided.[3]

Third, no credit or refund is available for the tread rubber tax when a recapped or retreaded tire is exported, sold to a State or local government, sold to a nonprofit educational organization, or used or sold for use as supplies for vessels or aircraft (Code secs. 4221 and 6416(b)). [7] Neither is the credit or refund available when a retreaded tire is mounted on a new vehicle that then is disposed of in any of the above ways.

While used and recapped or retreaded tires ordinarily are subject to the tire tax when imported, a different situation exists when a used tire which has been taxed in the United States is exported, is retreaded (other than from bead to bead) abroad, and then is shipped back into the United States.[4] Then there is neither a tax on the imported retreaded tire nor on the tread rubber used in the retreading, because the tire already has been taxed and the tread rubber is considered to have lost its identity.

Under present law, the general time by which a claim for credit or refund of a tax must be filed is 3 years from the time the tax return was filed or, if later, 2 years from the time the tax was paid (Code sec. 6511).

Reasons for change

The committee believes that it is appropriate to make the application of the tread rubber tax more nearly equivalent to the application of the new tire tax. Also, the committee concluded that the tax law should not create a competitive advantage for tires which are exported for retreading and then imported for sale in the United States.

Explanation of provision

Credit or refund of tread rubber tax

This provision of the bill makes a credit or refund of the tread rubber tax available in three situations. These changes are intended to permit a credit or refund of the tax on the tread rubber used in a recapped or retreaded tire, under the same circumstances where similar treatment would be available for the tax on a new tire.

First, the credit or refund would be available where rubber is destroyed, scrapped, wasted, or rendered useless in the recapping or retreading process.

Second, the credit or refund would be available where the tread rubber is used in the recapping or retreading of a tire if the sales price of the tire is later adjusted because of a warranty or guaranty. The overpayment (that is, the amount available for credit or refund) would be the same proportion of the tax paid as the adjustment in the sales price of the retreaded tire to the immediate vendee by the tire retreader.

Third, a credit or refund of the tread rubber tax would be available to the manufacturer for the tread rubber on a recapped or retreaded tire if the tire is by any person (1) exported, (2) sold to a State or local government for its exclusive use, (3) sold to a nonprofit educational organization for its exclusive use, or (4) used or sold for use as supplies for a vessel or aircraft.

Finally, where a retreaded tire is sold by the retreader or by another manufacturer on or in conjunction with another article (for example, a truck) manufactured by it, the bill provides that a credit or refund of the tread rubber tax is to be allowed to the manufacturer of [8] the other article if the article is exported or sold by any person for any of the above purposes.

Tax on imported recapped or retreaded tires

The bill also provides that used tires which are exported from the United States, recapped or retreaded abroad (other than from bead to bead), and then imported into the United States are to be subject to the tax on tread rubber. For this purpose, the amount of tread rubber to be taken into account is to be determined as of the completion of the recapping or retreading of the tire. The amount so determined would be either the amount which is established as actually used in recapping or retreading the tire or an average amount which is generally used on comparable tires in the industry, as determined by the Treasury Department (Code sec. 4701(c)).

[2] In *Great Olympic Tire Co.* v. *U.S.*, 597 F.2d 449, 78-1 USTC ¶ 16,316 (5th Cir. 1979), the Fifth Circuit Court of Appeals held that tread rubber wasted in the recapping process is not subject to the section 4071(a)(4) manufacturers excise tax, and that highway-type tires returned under warranty after partial use are subject to the tax without allowance for a refund or credit of the tax previously imposed on the tread rubber remaining on the returned tire. In arriving at these conclusions, the court relied upon the fact that wasted rubber never became part of tires of the type used on highway vehicles and that rubber remaining in a returned tire had become part of a tire of the type used on highway vehicles. While the section 4071(a)(4) tread rubber tax does not refer to highway-type vehicles tires, as does the section 4071(a)(1) new tire tax, the court noted that the legislative history of the tread rubber tax clearly evidences an intention to limit the tax to such tires. *See* H. Rept. No. 10660, 84th Cong., 2d Sess., 1956-2 C.B. 1312; Rev. Rul. 65-223, 1965-2 C.B. 420.

[3] *See* note 2, *supra*.

[4] Tires recapped from bead to bead are considered as having been newly manufactured and thus are taxable.

If a retreated tire is imported on a vehicle which is not itself subject to a manufacturers excise tax (e.g., a passenger car or a light-duty truck), then the importer of the vehicle is under existing law (Code sec. 4071(a)) treated as the importer of the tire. However, as noted, if the tire is not taxable because it was exported and recapped abroad (except from bead to bead), the importer is not liable for tax on the tread rubber on the imported tire. This provision carries the process a step further and would treat the importer of the vehicle as the importer of the tread rubber that is on a retreaded tire which is not otherwise subject to tax on the complete tire.

Warranty or guarantee adjustments

The provision also modifies the statute of limitations in cases where a claim for credit or refund of the tread rubber tax is filed as a result of a warranty or guarantee adjustment. The amendment provides that in such a case a claim for credit or refund may be filed at any time before the date which is one year after the date on which the adjustment is made, if the period for filing the claim would otherwise expire before that later date.

In other words, under this provision, the manufacturer would be assured that it will have one day less than a year after the time the adjustment is made (or deemed made) within which to file a claim for credit or refund of the relevant tax.

Effective date

The amendments made by this provision will be effective on the first day of the first calendar month which begins more than 10 days after the date of enactment.

Revenue effect

This provision will reduce budget receipts by less than $100,000 in fiscal year 1981, and by less than $200,000 annually during each of the next four fiscal years. (These amounts would otherwise go into the Highway Trust Fund—through September 30, 1984.)

[9] C. Exempt Status of Auxiliaries of Certain Fraternal Beneficiary Socities (sec. 4 of the bill and sec. 501 of the Code)

Present law

Under present law, social clubs and similar nonprofit organizations, such as national organizations of college fraternities and sororities, are exempt organizations. Code section 501(c)(7) provides that these organizations must be organized and operated exclusively for pleasure, recreation, and other nonprofitable purposes with no part of the net earnings inuring to the benefit of any private shareholder.

However, section 501(i) provides that an organization otherwise exempt from income tax as an organization described in section 501(c)(7) is to lose its exempt status for any taxable year, if at any time during that year the organization's charter, by-laws or other governing instrument, or any written policy statement, contains a provision which provides for discrimination against any person on the basis of race, color, or religion.

Exempt status is granted under section 501(c)(8) to fraternal beneficiary societies, orders, or associations which operate under the lodge system or which operate for the exclusive benefit of the members of a fraternity operating under the lodge system, and which provide for the payment of life, sick, accident, or other benefits to the members of the society, order, or association, or their dependents.

Reasons for change

Certain auxiliaries of a fraternal beneficiary society (which is an exempt organization described in section 501(c)(8) and which limits membership to members of a particular religion) are treated by the Internal Revenue Service as exempt social clubs. Certain alumni organizations which limit membership to a particular religion also enjoyed exempt status as social clubs prior to the enactment of section 501(i). The committee believes that these auxiliaries and alumni clubs should not be disqualified from treatment as exempt social clubs by reason of their failure to fulfill the nondiscrimination requirement with respect to religion in section 501(i).

Explanation of provision

This provision allows certain auxiliaries of fraternal beneficiary societies to qualify for tax-exempt status under section 501(c)(7) even though membership in the auxiliaries is limited to members of a particular religion. The bill provides that the restriction on religious discrimination in section 501(i) shall not apply to an auxiliary of a fraternal beneficiary society if the society is described in section 501(c)(8), is exempt from income tax under section 501(a), and limits its membership to the members of a particular religion.

The intended beneficiaries of this provision are the affiliated corporations of the unincorporated, subordinate lodges of the Knights of [10] Columbus, a fraternal society which claims tax-exempt status under section 501(c)(8). Generally, these affiliated corporations were formed to hold title to real property. Prior to the enactment of section 501(i) in 1976, some of the Knights' affiliated corporations have been treated as social clubs described in section 501(c)(7).

In addition, this provision also allows certain alumni clubs to retain their exemption under section 501(c)(7), even though they limit their membership to members of a particular religion. Such clubs will continue to be eligible for exemption provided the religious limitation on membership is designed in good faith, to further the teachings or principles of that religion, and not for the purpose of excluding individuals of a particular race or color. This provision is intended to benefit Catholic Alumni Clubs, but is not intended to authorize discrimination on the basis of race under the guise of religious affiliation. Nor is it intended to benefit primarily recreational entities such as country clubs where the membership limitation does not, in good faith, further a *bona fide* religious teaching.

Effective date

The provision will apply to taxable years beginning after October 20, 1976, the date on which section 501 (i) of the Code became effective.

Revenue effect

It is estimated that this provision will have a negligible effect upon budget receipts.

[11] D. Extension of Withholding to Payments of Sick Pay Made by Third Parties (sec. 5 of the bill and secs. 3402 and 6051 of the Code)

Present law

Under present law (Code sec. 105 (a)), amounts received by an employee through accident or health insurance for personal injuries or sickness (commonly referred to as wage continuation payments or "sick pay") generally must be included in gross income to the extent such amounts are attributable to contributions by the employer which were not includible in the gross income of the employee, or are paid by the employer.

Under section 342(a) of the Code, every employer who makes wage payments is required to deduct and withhold income taxes from these payments. Payments made by an employer to an employee under a wage continuation plan generally are treated as wages and subject to withholding (except to the extent that an employee receives back contributions he or she previously made to a wage continuation plan). However, no tax is specifically required to be withheld upon any wage continuation payment made by a person who is not the employer for whom the employee performs services. Thus, for example, no tax is specifically required to be withheld from wage continuation payments made on behalf of the employer by an insurance company under an accident or health policy, by a separate trust under an accident or health plan, or by a State agency from a sickness and disability fund maintained under State law (Treas. Reg. sec. 31.3401(a)-1(b)(8)(ii)(*d*) and Announcement 77-117, 1977-32 IRB 24 Aug. 8, 1977).)

Reasons for change

Because of the absence of withholding upon wage continuation payments made by third-party payors, employees who have received these payments during the year may experience an unexpected tax liability at the end of the year.[1] The committee believes that voluntary withholding upon such wage continuation payments should be provided so this result can be avoided by the current payment of tax. In addition, the committee believes that availability of withholding for these payments will facilitate compliance by taxpayers.

Explanation of provision

In general

The bill amends section 3402(o) of the Code to specifically require withholding from sick pay, if the payee so requests. For purposes of [12] this provision, sick pay would be defined as any amount which is paid to an employee pursuant to a plan to which the employer is a party, and which constitutes remuneration or a payment in lieu of renumeration for any period during which the employee is temporarily absent from work on account of sickness or personal injuries.

Under the bill, the amount of sick pay and annuity payments subject to withholding would be an amount specified by the payee in his or her request for withholding. However, in no case could this amount be less than a minimum amount to be set forth in regulations prescribed by the Secretary. In the case of a payment which is greater, or less, than a full payment, the amount withheld is to bear the same relation to the specified amount as such payment bears to a full payment.[2]

Requests for withholding

An individual who wishes to have his or her annuity or sick pay subject to withholding must make a written request to the person making the payments. This request must contain the individual's social security number and must specify the amount to be withheld from each full payment. In the case of sick pay, a request for withholding would be effective with respect to payments made more than 7 days after the date on which the request is furnished to the payor. In the case of an annuity, a request would be effective at such time (after the request is made) as the Secretary prescribes by regulations. A request for withholding may be changed or terminated by furnishing to the payor a written statement of change or termination.

Special rule for sick pay paid pursuant to collective-bargaining agreements

Under the bill, in the case of any sick pay paid pursuant to a collective-bargaining agreement between employee representatives and one or more employers, the amount of sick pay subject to withholding would be determined in accordance with such agreement if the agreement so provided. (That is, an employee who is a party to such an agreement would not be required to submit a written request for withholding to the payor.) However, there could be no withholding with respect to sick pay paid to an employee (who is party to a collective-bargaining agreement) who has in effect a withholding exemption certificate certifying that he incurred no tax liability for the preceding taxable year and anticipates that he will incur no tax liability for the current taxable year.

[1] Section 3402(o) of the Code authorizes withholding on certain pension and annuity payment if the payee so requests. However, this provision has no application to wage continuation payments made by third-party payors.

[2] For example, assume an individual receives sick pay of $100 per week and requests $25 per week to be withheld for taxes. After four full weeks of absence, the individual returns to work on a Wednesday. For the week he returns to work, he would be entitled to $40 of sick pay, $10 of which would be withheld for taxes.

The special treatment accorded to collective-bargaining agreements would not apply to sick pay paid pursuant to such an agreement to any individual unless the individual's social security number is furnished to the payor and the payor is furnished with the information necessary to determine whether the payment is pursuant to the agreement and to determine the amount to be withheld.

[13] *Reporting requirement*

The bill would require a person who makes a payment of third-party sick pay to an employee to furnish a written statement to the employer on behalf of whom the payment was made showing the name of the employee, the social security number of the employee (if there was withholding), the total amount of third-party sick pay paid to the employee during the calendar year, and the total amount (if any) withheld from sick pay. This statement would be due on or before January 15 of the year succeeding the year in which the payment of third-party sick pay was made. The bill defines "third-party sick pay" as any sick pay which does not constitute wages for purposes of withholding. This reporting requirement would be in lieu of the reporting requirements of section 6041(a) relating to certain payments of $600 or more. In addition, the bill would provide that a person required to furnish a statement to an employer who willfully furnishes a false or fraudulent statement, or who willfully fails to furnish a statement in the manner, at the time, and showing the information required, would, for each such failure, be subject to a penalty of $50, and, upon conviction of each such offense, could be fined not more than $1,000, or imprisoned not more than one year, or both.

Every employer who receives a statement from a person who made a third-party payment of sick pay to an employee would be required to furnish the information to the employee on another statement which shows which portion (if any) of the sick pay is excludable from gross income and which portion is not excludable. This statement must be furnished to the employee on or before January 31 of the year succeeding the year in which the payment of third-party sick pay was made.

Effective date

This provision of the bill will apply to payments made on or after the first day of the first calendar month beginning more than 120 days after the date of enactment.

Revenue effect

It is estimated that this provision will cause a one-time increase in budget receipts of less than $5 million in fiscal year 1981.

[14] E. Annual Payment of Gift Tax (sec. 6 of the bill and sec. 6019 of the Code)

Present law

Prior to 1971, gift tax returns were required to be filed, and any gift tax liability paid, on an annual basis.[1] For gifts between 1971 and 1976, gift tax returns were required to be filed, and any gift tax liability paid, on a calendar quarter basis. For gifts made after December 31, 1976, a gift tax return is required to be filed, and any gift tax paid, on a quarterly basis if the sum of (1) the taxable gifts made during the calendar quarter plus (2) all other taxable gifts made during the calendar year (and for which a return has not yet been required to be filed) exceeds $25,000.[2] If a gift tax return is required to be filed on a quarterly basis, the gift tax return is due, and any gift tax payable, on or before the 15th day of the second month following the close of the calendar quarter.

If all transfers made in a calendar year that are subject to the gift tax filing requirements do not exceed $25,000 in taxable gifts, a return must be filed, and any gift tax paid, by the filing date for gifts made during the fourth calendar quarter of the calendar year. In 1979 (P.L. 96-167 [1980-1 C.B. 483]), the due date for an annual return or a return for the fourth calendar quarter was conformed to the due date for filing individual income tax returns, i.e., April 15 of the following year.

Reasons for change

The committee believes that gift tax returns should be filed on an annual basis to reduce compliance problems for and confusion among affected taxpayers and administrative burdens for the Internal Revenue Service.

Explanation of provision

The bill provides that gift tax returns are to be filed, and any gift tax paid on an annual basis. In general, the due date for filing the annual gift tax return will be the 15th day of the fourth month following the close of the calendar year. However, for a calendar year in which the donor dies, the gift tax return for that year is required to be [15] filed no later than the due date for filing the donor's estate tax return (including extensions).

These changes will be effective with respect to gifts made after December 31, 1981.

Effective date

The provision applies with respect to gifts made after December 31, 1981.

Revenue effect

It is estimated that the provision will reduce budget receipts by $85 million in fiscal year 1982 and by less than $5 million each fiscal year thereafter.

[1] Prior to the enactment of the Excise, Estate and Gift Tax Adjustment Act of 1970 (Public Law 91-614 [1971-1 C.B. 533]), the due date for filing a gift tax return was April 15 following the calendar year in which a gift was made. In general, the 1970 Act enacted a requirement for the quarterly filing of gift returns (by the 15th day of the second month following the close of the calendar quarter) to provide for the more current payment of gift tax liabilities.

[2] In the case of nonresidents who are not citizens of the United States, the same rule applies except that $12,500 is substituted for $25,000.

[16] F. Tax Treatment Under the Rhode Island Indian Claims Settlement Act (sec. 7 of the bill)

Present law

In 1975, the Narragansett Indian Tribe brought suit against the State of Rhode Island and private landowners based on the Tribe's claims to certain land in Charlestown, Rhode Island. The Tribe argued that these lands had been alienated by it in 1880 in violation of the Trade and Intercourse Act of 1790. The Interior Department has held that the Tribe's claim is "credible." Prior to trial, the parties to the suit entered into a settlement agreement which required both State and Federal legislation for its implementation. Pursuant to the settlement and the implementing legislation, the Tribe's land claims have been extinguished. A public corporation (which is not a part of the State government) has been created under Rhode Island law with 5 directors to be appointed by the Tribe and 4 by State and local officials (the "Corporation"). The Corporation is to receive 1,060 acres of land now belonging to the State. Also pursuant to the settlement legislation, a fund of $3.5 million has been established in the U.S. Treasury for the purpose of purchasing 900 acres of privately held land in Charlestown at fair market value from its owners. Recently, 510 acres were acquired for $2.1 million. The land when acquired by the Secretary of the Interior with the proceeds of the fund is to be conveyed to the Corporation.

All land owned by the Corporation is to be held in trust for the benefit of the Tribe. All of the land contributed by the State, and at least 75 percent of the land acquired from private owners, is to be permanently dedicated to conservation purposes. It is anticipated that the Tribe may use the remaining land in other ways which reflect its heritage, or to provide housing for poor or aged members of the Tribe.

The settlement agreements further provided "That the parties to the Lawsuits will support efforts to obtain deferral of both State and Federal income taxes resulting from the conveyance of privately held portions of the Settlement Lands."

The Federal Government's participation in the settlement is under the authority of the Rhode Island Indian Claims Settlement Act, passed in 1978. That law provided for the extinguishment of aboriginal Indian title, creation of the fund for the purchase of the privately held land, and transfer of that land to the Corporation to be formed under the settlement agreement. It did not deal with any of the tax consequences of the settlement.[1]

[17] It is unclear whether, as the facts and circumstances develop, the Corporation could qualify for general exemption from Federal income tax (Code sec. 501). Also, the Corporation's receipt of land in settlement of the Tribe's damage claim might not be subject to income taxation.

Recognition of gain on the sale of property which is involuntarily converted (e.g., sold under the threat or imminence of condemnation) may generally be deferred if the taxpayer, for the purpose of replacing the property, purchases property similar or related in service or use to the converted property. Recognition of gain is limited to the amount by which the amount realized from the conversion exceeds the cost of the replacement property. (Code sec. 1033.) Generally, the replacement must occur within 2 years after the first year in which gain is realized. However, in the case of certain real property held for productive use in a trade or business or for investment, up to 3 years productive use in a trade or business or for investment, up to 3 years for replacement may be permitted.

Reasons for change

The committee believes that it is desirable to clarify the tax treatment with respect to land received by the Corporation. In addition, the committee believes that under the particular facts, and in the context of the overall settlement, treatment of the sales of the privately held property as an involuntary conversion would be appropriate. However, each disposition of Indian claims under the various lawsuits which have been brought will involve its own unique elements. Accordingly, the committee does not intend that this provision may be looked upon to any extent as a precedent for the apporpriate tax treatment of other dispositions of Indian claims.

Explanation of provision

The provision generally provides that the settlement land received by the Corporation shall not be subject to any form of Federal, State, or local taxation while held by the Corporation. Thus, for example, the Corporation would not realize income on receipt of the land and the land would be exempt from local property taxes. (An exemption from local property taxes is also provided in the Rhode Island legislation creating the Corporation.) However, the general exemption rule would not apply to any income-producing activities occurring on the settlement lands, and nothing in the bill would prevent the making of payments in lieu of taxes by the Corporation for services provided in connection with the settlement lands. The provision would not affect the question of whether the Corporation otherwise qualifies for exemption from Federal taxation.

The provision also provides that, for Federal income tax purposes, any sale

[1] As introduced, H.R. 12860, 95th Congress, contained tax provisions identical to this provision. It is understood that these tax provisions were eliminated from H.R. 12860 to expedite passage in the brief time which remained in the 95th Congress after consideration of the legislation in 1978.

While the Federal Government was not directly involved in drafting the settlement agreement itself, the Administration (through the White House, the Office of Management and Budget, and the Interior Department), the staffs of the House Interior and Insular Affairs Committee, the Senate Indian Affairs Committee, and the staffs of the Rhode Island Congressional delegation took part, along with the parties to the settlement agreement, in drafting the 1978 Settlement Act. Thus, these participants supported, with certain exceptions, the entire agreement of the parties, including the tax provisions.

or disposition of private settlement lands pursuant to the terms and conditions of the settlement agreement is to be treated as an involuntary conversion. This would permit the sellers to defer gain on the sale to the extent allowed by section 1033.

Effective date

The provision will be effective as of September 30, 1978, the date of the enactment of the Rhode Island Indian Claims Settlement Act.

Revenue effect

It is estimated that this provision will decrease budget receipts by less than $500,000 for the period 1980 through 1983.

House of Representatives Report No. 96-545

1st Session

[Bracketed numerals indicate official report page numbers]

TAX ADMINISTRATIVE PROVISIONS REVISION ACT OF 1979

OCTOBER 23, 1979.

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 5505.[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 5505) to simplify certain provisions of the Internal Revenue Code of 1954, and for other purposes, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment (stated in terms of the page and line numbers of the introduced bill) is as follows:

Page 18, after line 24, insert the following:

[1] Public Law 96-601, page 666.

SEC. 12. EXTENSION OF CERTAIN TEMPORARY TAX PROVISIONS

(a) GOVERNMENT HEALTH PROVISION SCHOLARSHIP PROGRAMS.—Subsection (c) of section 4 of Public Law 93-483 [1974-2 C.B. 447], as amended, is amended—

(1) by striking out "1980" and inserting in lieu thereof "1981", and

(2) by striking out "1984" and inserting in lieu thereof "1985".

(b) NATIONAL RESEARCH SERVICE AWARDS.—Paragraph (2) of section 161(b) of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 44] (relating to national research service awards) is amended by striking out "1979" and inserting in lieu thereof "1980".

(c) DEDUCTION FOR ELIMINATING ARCHITECTURAL AND TRANSPORTATION BARRIERS TO THE HANDICAPPED.—Subsection (c) of section 2122 of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 390] (relating to effective date for allowance of deduction for eliminating architectural and transportation barriers to the handicapped) is amended by striking out "January 1, 1980" and inserting in lieu thereof "January 1, 1981".

[2] (d) CONTROVERSIES INVOLVING WHETHER INDIVIDUALS ARE EMPLOYEES FOR PURPOSES OF THE EMPLOYMENT TAXES.—

(1) IN GENERAL.—Subsection (a) of section 530 of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 119] (relating to termination of certain employment tax liability for periods before 1980) is amended—

(A) by striking out "January 1, 1980" in paragraphs (1)(A) and (3) and inserting in lieu thereof "January 1, 1981",

(B) by striking out "1980" in the subsection heading and inserting in lieu thereof "1981", and

(C) by striking out "1979" in the heading for paragraph (3) and inserting in lieu thereof "1979 and 1980".

(2) PROHIBITION AGAINST REGULATIONS AND RULINGS ON EMPLOYMENT STATUS.—Subsection (b) of section 530 of the Revenue Act of 1978 [*supra* at 119] is amended by striking out "January 1, 1980" and inserting in lieu thereof "January 1, 1981".

(e) ADDITIONAL 2-YEAR DELAY IN APPLICATION OF THE NET OPERATING LOSS RULES ADDED BY THE TAX REFORM ACT OF 1976.—Paragraphs (2) and (3) of section 806(g) of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 81] (relating to effective dates for the amendments to sections 382 and 383 of the Internal Revenue Code of 1954) are amended by striking out "1980" each place it appears and inserting in lieu thereof "1982".

[3] I. SUMMARY

In general, H.R. 5505 contains changes in the Federal tax laws to simplify certain provisions, to extend other provisions which are about to expire, and to revise certain other provisions. The following is a section-by-section summary of the bill as reported by the committee.[1]

SEC. 2. PAYMENT OF INTEREST ON WRONGFUL LEVIES

This section provides for the payment of interest when the Internal Revenue Service administratively determines that a wrongful levy of property has been made and money is returned to the owner of the property.

SEC. 3. REPEAL OF REQUIREMENT THAT TRANSFERORS OF CERTAIN PROPERTY TO EXEMPT ORGANIZATIONS MUST FILE RETURNS

This section repeals the requirement that a person, who transfers income-producing property valued at more than $50,000 to an exempt organization, must file an information return if the organization is known to be subject to tax on unrelated business income.

[1] Sections 2-11 of the bill are as reported by the Subcommittee on Select Revenue Measures; the provisions of section 12 were contained in H.R. 5530 and were added as an amendment by the full committee.

SEC. 4. REPEAL OF ADDITION TO TAX IN THE CASE OF CERTAIN JEOPARDY ASSESSMENTS

This section repeals the 25-percent penalty imposed when a taxpayer violates or attempts to violate the special termination of taxable year jeopardy assessment provisions under present law.

SEC. 5. REPEAL OF REQUIREMENT THAT INFORMATION BE FURNISHED TO THE IRS IN CONNECTION WITH CERTAIN STOCK OPTIONS

This section repeals the requirement that information relating to certain qualified and restricted stock options be furnished to the Internal Revenue Service.

SEC. 6. TIME FOR FILING CERTAIN GIFT TAX RETURNS

This section provides that the due date for filing a gift tax return for the fourth calendar quarter of the calendar year is April 15 of the following year. Thus, the gift tax return due date would be consistent with the income tax due date for calendar year taxpayers. This section also provides that an extension for filing an income tax return will automatically extend the time for filing the fourth quarter or annual gift tax return.

SEC. 7. CHANGE OF TIME FOR PAYING EXCISE TAX ON FISHING EQUIPMENT

Present law imposes a 10-percent excise tax upon the sale of fishing rods, creels, reels, and artificial lures, baits, and flies by the manufac-[4]turer, producer or importer thereof. This tax generally is payable relatively soon after such fishing equipment is sold.

This section provides that the excise tax on fishing equipment sold during quarters ending on December 31, March 31, and June 30 would be payable, respectively, on March 31, June 30, and September 24. For the quarter ending September 30, the tax will be due by the date specified by Treasury regulations.

* * * * *

SEC. 9. REFUNDS OF TREAD RUBBER EXCISE TAX

Under present law, a 5-cents-per-pound manufacturers excise tax is imposed on tread rubber used for recapping or retreading tires of the type used on highway vehicles. No credit or refund of the tread rubber tax is available if the tax-paid tread rubber is wasted in the recapping process, contained in a recapped tire the price of which is adjusted under a warranty, or sold in conjunction with certain otherwise tax-exempt sales. In some situations, the tread rubber tax can be avoided by exporting a tire to be recapped outside the United States and then importing the retreaded tire.

This section provides for a refund or credit of the manufacturers excise tax on tread rubber where the rubber is (1) wasted in the recapping process, (2) contained in a recapped tire the price of which is adjusted under a warranty, or (3) sold in conjunction with certain otherwise tax-exempt sales.

The provision also imposes the tread rubber excise tax on the tread rubber in tires which are exported for recapping and subsequently imported into the United States.

SEC. 10. NONRECOGNITION OF GAIN ON SALE OF RESIDENCE FOR CERTAIN MEMBERS OF THE ARMED FORCES

Under present law, a member of the Armed Forces serving on extended active duty generally is not required to recognize gain on the sale of a principal residence if he or she purchases and uses a new principal residence within four years after the date of the sale of the old residence.

This section extends the replacement period for members of the Armed Forces who are stationed outside of the United States or who are required to reside in Government-owned quarters to the later of: (1) four years after the date of the sale of the old residence, or (2) one year after the date on which the member no longer is stationed outside of the United States or required to reside in Government-owned quarters.

[5] SEC. 11. EXEMPT STATUS OF AUXILIARIES OF CERTAIN FRATERNAL BENEFICIARY SOCIETIES

In order to qualify for tax-exempt status under Code section 501(c)(7) after October 20, 1976, a social club cannot have any provision providing for discrimination against any person on the basis of race, color, or religion in the club's charter, bylaws, other governing instrument, or any written policy statement.

This section allows social clubs which are affiliated with fraternal beneficiary societies exempt under Code section 501(c)(8), such as those operated by the Knights of Columbus, to retain their exemption even though membership in the clubs is limited to members of a particular religion.

SEC. 12(a). UNIFORMED SERVICES HEALTH PROFESSIONS SCHOLARSHIPS

The section extends for one year the exclusion from gross income for amounts received by participants in the Uniformed Services Health Professions Scholarship program. As extended, the exclusion will be available to students entering the program in 1980 and to amounts received by them through 1984.

SEC. 12(b). NATIONAL RESEARCH SERVICE AWARDS

This section extends the scholarship exclusion for National Research Service Awards for one year to apply to 12(c) awards first made in 1980.

SEC. 12(c). EXPENDITURES TO REMOVE ARCHITECTURAL AND TRANSPORTATION BARRIERS TO THE HANDICAPPED AND ELDERLY

This section extends for 3 years, through December 31, 1982, the election to deduct annually up to $25,000 in capital costs incurred during the taxable year for the removal of architectural and transportation barriers to the handicapped and elderly.

SEC. 12(d). INTERIM RELIEF FOR INDEPENDENT CONTRACTOR STATUS CONTROVERSIES

This section extends for one year, through December 31, 1980, the in-

terim relief provided by the Revenue Act of 1978 with respect to independent contractor status controversies.

SEC. 12(e). POSTPONEMENT OF EFFECTIVE DATE FOR SPECIAL LIMITATIONS ON NET OPERATING LOSS CARRYOVERS

This section defers for 2 years the effective date for provisions under the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1] relating to special limitations on net operating loss carryovers. These provisions would be deferred until January 1, 1982, with respect to tax-free organizations and until June 30, 1982, with respect to taxable acquisitions.

[6] II. EXPLANATION OF THE BILL

A. Payment of Interest on Wrongful Levies (sec. 2 of the bill and sec. 6343(b) of the Code)

Present law

Under present law, two remedies are provided for third-party owners whose property is wrongfully seized by the Internal Revenue Service for the collection of a delinquent taxpayer's liability. In general, one remedy provides an administrative procedure for the return of the property wrongfully seized (sec. 6343(b)), and the other authorizes a civil action for an injunction, the return of the property wrongfully seized, or the proceeds from the sale of the property (sec. 7426).

Under the administrative procedure, the Internal Revenue Service is authorized to return property (or the proceeds from the sale of the property) to a person when it determines that the levy was wrongful (sec. 6343(b)). Where the Service returns the property or proceeds under the administrative procedure, a person whose property was wrongfully seized is not entitled to the payment of interest for the period the Government held the property or the proceeds therefrom.

On the other hand, the payment of interest is provided if the third party prevails under the judicial remedy (sec. 7426(g)).[1]

Under this provision, interest accrues from the date the Service receives money wrongfully levied upon (or the date of the sale of property wrongfully levied upon) until the date the judgment is paid. The interest is payable at the rate generally established to be paid on the overpayment of taxes (sec. 6621).[2]

Reasons for change

The committee believes that interest should be payable where it is administratively determined by the Internal Revenue Service that a wrongful levy of property has been made and money is returned to the owner of the property by the Service.

Explanation of provision

The bill provides for the payment of interest to a person under the administrative procedure for wrongful levies. Under rules similar to those in the interest provisions for the judicial remedy, interest is [7] to be paid if money is wrongfully seized or if the proceeds from a sale of the property are returned to the owner of the property. The rate of interest is to be determined under the general provision for the payment of interest on overpayments of tax. In the case of a seizure of money, the period for the payment of interest begins with the date the money is seized and ends on a date (to be determined by the Secretary) not more than 30 days prior to the date when the money is returned. In the case of a payment of the proceeds from the sale of property wrongfully seized, the period for the payment of interest begins with the date of sale of the property and ends on a date (to be determined by the Secretary) not more than 30 days prior to the date when the payment to the owner is made.[3]

Effective date

This provision applies to levies made after the date of enactment of the bill.

Revenue effect

This provision will reduce budget receipts by a negligible amount.

[8] B. Repeal of Requirement that Transferors of Certain Property to Exempt Organizations Must File Returns (sec. 3 of the bill and sec. 6050 of the Code)

Present law

Under present law, a person who transfers income-producing property valued at over $50,000 (without regard to any lien thereon) to an exempt organization must file a return (Form 4629) if the transferor knows the recipient is the type of organization subject to tax on its unrelated business income (sec. 6050). The regulations require that the return show a description of property transferred, the date of transfer, the fair market value of the property (without regard to any lien thereon) on that date, and the amount of any mortgage or similar lien on the property immediately after the transfer. This return requirement was added by the Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10].

Under persent law, the Internal Revenue Service can require an exempt organization to maintain records and furnish information with respect to transfers of income-producing property to it (secs. 6001 and 6033). Thus, the information now required to be furnished by the transferor may also be furnished by the transferee exempt organization.

Reasons for change

The committee believes that the re-

[1] The general provision for payment of interest on a judgment for the overpayment of taxes is sec. 2411 of title 28 of the United States Code. The rate of interest under this provision is determined by reference to section 6621 of the Internal Revenue Code of 1954.

[2] Currently, the rate of interest is 6 percent; however, under the present law provision, the IRS has determined that the rate will be 12 percent, effective on February 1, 1980 (Rev. Rul. 79-366, issued on October 12, 1979).

[3] The rule relating to the date on which interest is no longer payable is similar to the rule on interest on overpayment of tax (sec. 6611(b)(2)).

porting requirement for transferors of property to exempt organizations is unnecessary and should be repealed.

Explanation of provision

The bill repeals the requirement that transferors file an information return with respect to transfers to an exempt organization.

Effective date

The provision applies to transfers of property made after the date of enactment of the bill.

Revenue effect

This provision will have no direct effect on budget receipts.

[9] C. Repeal of Addition to Tax in the Case of Certain Jeopardy Assessments (sec. 4 of the bill and sec. 6658 of the Code)

Present law

Under present law, if the Internal Revenue Service determines that the collection of tax is in jeopardy, an assessment and collection of that tax may be made without resorting to the normal time-consuming assessment and collection procedures. For this purpose, there are two basic types of special assessments—termination assessments (sec. 6851) and jeopardy assessments (secs. 6861 and 6862). The termination assessment is limited to the assessment of income tax when the collection of income tax is in jeopardy before the end of the taxpayer's normal tax year or before the due date of the return. In other income tax cases and in all cases involving other taxes, the jeopardy assessment procedures are used.

The Code (sec. 6658) provides an addition to tax equal to 25 percent of the amount of tax when a taxpayer violates or attempts to violate the termination assessment provision. No similar penalty applies to jeopardy assessments.

Reasons for change

The committee believes that the addition to tax for a violation, or attempted violation, of the termination assessment provision is unnecessary and should be repealed.

Explanation of provision

The bill repeals the 25-percent addition to tax penalty with respect to termination assessments.

Effective date

This provision applies to violations (or attempted violations) occurring after the date of enactment of this bill.

Revenue effect

This provision will reduce budget receipts by a negligible amount.

[10] D. Repeal of Requirement that Information be Furnished to the Internal Revenue Service in Connection with Certain Stock Options (sec. 5 of the bill and sec. 6039 of the Code)

Present law

Under present law, an annual information return (Form 3921) is required to be filed with the Internal Revenue Service by a corporation which transfers a share of stock to any person pursuant to his exercise of a qualified stock option (described in sec. 422) or restricted stock option (sec. 424).[1] In addition, a return (Form 3922) is required to be filed by every corporation that records (or has its agent record) a transfer of stock which was acquired either through the exercise of an option granted under an employee stock purchase plan (sec. 423) at an exercise price between 85 percent and 100 percent of the stock's value as of the time of the grant of the option, or through the exercise of a restricted stock option (sec. 424) at an exercise price between 85 percent and 95 percent of the value of the stock as of the time of the grant of the option. (Under each of these sections, a portion of the sales price for the stock is treated as ordinary income.)

A written statement concerning information relating to these transfers must also be furnished to the person listed on the return prior to January 31 of the year following the calendar year covered by the return.

Reasons for change

The committee believes that the requirement that the information relating to certain stock options be furnished to the Service is unnecessary and should be repealed.

Explanation of provision

The bill repeals the requirement that information relating to certain qualified and restricted stock options be furnished to the Internal Revenue Service.

Effective date

This provision applies with respect to calendar years beginning after 1979.

Revenue effect

This provision will have no direct effect on budget receipts.

[11] E. Time for Filing Certain Gift Tax Returns (sec. 6 of the bill and sec. 6075(b) of the Code)

Present law

Under present law, a gift tax return, if required, is due on or before the 15th day of the second month following the close of the calendar quarter. Quarterly returns are required when taxable gifts made during a calendar year exceed $25,000. Where all transfers made in a calendar year which are subject to the gift tax filing requirements do not exceed $25,000 in taxable gifts, a return need be filed only by the filing date for gifts made during the fourth calendar quarter of the calendar year (i.e., February 15 of the following year).

On the other hand, an individual's income tax return is due on or before

[1] Under a provision added by section 603 of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. I) 1, 50], options exercised after May 20, 1981, will no longer be treated as qualified or restricted stock options.

the 15th day of the fourth month following the close of the taxable year. For the calendar year taxpayer, a return is due on or before April 15. In addition, the Internal Revenue Service may grant an extension of time for filing a return. Presently, the Service grants an automatic 2-month extension for individuals upon timely application and payment of the estimated tax due.

Reasons for change

Because the filing date for the gift tax return is earlier than the due date of an individual's income tax return, a timely gift tax return cannot be filed for a taxable gift if the obligation to file a gift tax return is discovered during a review of the taxpayer's financial transactions in connection with the preparation of his income tax return. The committee believes that conformity of filing dates should be made in order to allow a taxpayer's advisors to review the taxpayer's annual transactions at one time to prepare both the gift and income tax returns.

Explanation of provision

The bill provides that the due date for the fourth calendar quarter or annual gift tax return is April 15. In addition, the bill provides that an extension for filing the income tax return of a calendar year taxpayer will automatically extend the time for filing the fourth quarter or annual gift tax return.

Effective date

The provision applies to gift tax returns for calendar years ending after the date of enactment of this bill.

Revenue effect

This provision will reduce budget receipts by a negligible amount.

[12] F. Change of Time for Paying Excise Tax on Fishing Equipment (sec. 7 of the bill and sec. 4161 (a) of the Code)

Present law

Under present law (Code sec. 4161 (a)), there is imposed upon the sale of fishing rods, creels, reels, and artificial lures, baits, and flies (including parts or accessories of such articles sold on or in connection therewith, or with the sale thereof) by the manufacturer, producer, or importer a tax of 10 percent of the price for which the article is sold.

Treasury Department regulations prescribing the time for making deposits of manufacturers excise taxes are found in Treas. Reg. sec. 48.6302 (c)-1. If an individual is liable in any month for more than $100 of taxes reportable on Form 720 (Quarterly Excise Return) and he is not required to make semimonthly deposits, the individual must deposit the amount on or before the last day of the next month at an authorized depository or at the Federal Reserve Bank serving the area in which the individual is located. If an individual had more than $2,000 in excise tax liability for any month of a preceding calendar quarter, he must deposit such taxes for the following quarter (regardless of amount) on a semimonthly basis. The taxes must be deposited by the ninth day following the semimonthly period for which they are reported. In addition, if the semimonthly period is in either of the first two months of the quarter, any underpayment of excise taxes for a month must be deposited by the ninth day of the second month following such month. Underpayments in the third month of the quarter must be deposited by the end of the following month.

No special rules are provided to defer payment of the excise tax with respect to sales of taxable articles on credit except certain installment sales.

Reasons for change

Retail sale of sport fishing equipment is seasonable in nature. However, manufacturers of such equipment produce throughout the year in order to make efficient use of capital and labor. To avoid inventory storage costs otherwise resulting from year-round production, manufacturers encourage wholesalers and retailers to make early purchases of fishing equipment stock by offering extended credit terms. The manufacturers excise tax on fishing equipment is payable relatively soon after the fishing equipment is sold by the manufacturer, regardless of the fact that the deferred credit terms may result in sale proceeds not being collected for several months.

The committee is informed that this payment problem is unique to the fishing equipment industry, and has concluded that some extension of time for payment is appropriate in these circumstances to the extent it can be provided without incurring any fiscal year revenue loss.

[13] *Explanation of provision*

The bill provides that the manufacturers excise tax imposed on the sale of fishing equipment is payable according to the following schedule:

For articles sold during the quarter ending:	*Payment of the tax is due by:*
December 21	March 31
March 31	June 30
June 30	September 24
September 30	According to Treasury Regulations

In the case of sales of fishing equipment made during the first two quarters of the Federal fiscal year, the bill extends the due date for payment for up to 5 months and 1 week beyond that applicable under present law. In the case of sales made during the third such quarter (ending June 30), the extension is not as long (until September 24), in order to insure that all payments for sales made through June 30 are included in Federal Government receipts for the fiscal year, which ends on September 30.

In the case of sales made during the fourth such quarter, the bill does not require any change from the payment schedule presently in effect under Treasury regulations (sec. 48.6302(c)-1). However, the bill does not preclude the Secretary of the Treasury from changing such regulations, to the

extent the Secretary from time to time may deem appropriate, with respect to the due date for payment of excise taxes incurred on sales of fishing equipment made during the quarter ending September 30.

The committee intends that the postponement for the time for payment of the excise tax on fishing equipment shall not constitute a precedent for providing similar rules with respect to other excise taxes. The committee considers the payment problem of the fishing equipment industry to be unique.

Effective date

The provision applies to excise taxes payable on fishing equipment sold on or after the first day of the first calendar quarter beginning after the date of enactment of the bill.

Revenue effect

This provision will not affect the aggregate fiscal year receipts of the manufacturers excise tax on fishing equipment.

* * * * * *

[16] H. Refunds of Tread Rubber Excise Tax (sec. 9 of the bill and secs. 4071, 6416, and 6511 of the Code)

Present law

Present law imposes a tax of 5 cents per pound on tread rubber used for recapping or retreading tires of the type used on highway vehicles (secs. 4071(a)(4), 4072(b), and 4073(c).[1]

Tread rubber may be sold tax-free for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles, or a credit or refund (without interest) of the tread rubber tax may be obtained if the tax-paid tread rubber is used or sold for use otherwise than in the recapping or retreading of tires of the type used on highway vehicles (sec. 6416(b)(2)(G)).

[1] The tax on tread rubber is scheduled to expire on October 1, 1984 (sec. 4071(d)(3)). (Revenues from this tax go into the Highway Trust Fund.)

There are several instances under present law where a manufacturers excise tax is imposed on tread rubber when in a similar situation the manufacturers excise tax is not imposed (or a credit or refund of the tax is allowed) on new tires.

First, rubber wasted in manufacturing new tires is not subject to tax since the tax is impsed when the completed tire is sold and only upon the material actually contained in the completed tire. The tax on tread rubber, on the other hand, is imposed before the recapping or retreading of a used tire. Wastage of tread rubber in that process occurs after the tread rubber tax liability has been determined, and under present law no refund or credit is provided for any portion of the tax imposed on tread rubber which is so wasted.[2]

Second, if the sale price of a retreaded tire is adjusted by reason of a warranty or guarantee, no credit or refund of the tread rubber tax is provided.[3]

Third, no credit or refund is available for the tread rubber tax when a recapped or retreaded tire is exported, sold to a State or local government, sold to a nonprofit educational organization, or used or sold for use as supplies for vessels or aircraft (secs. 4221 and 6146(b)). [17] Neither is the credit or refund available where a retreaded tire is mounted on a new vehicle that then is disposed of in any of the above ways.

[2] In *Great Olympic Tire Co.* v. *U.S.*, 597 F.2d 449, 78-1 USTC ¶ 16,316 (5th Cir. 1979), the Fifth Circuit Court of Appeals held that tread rubber wasted in the recapping process is not subject to the section 4071(a)(4) manufacturers excise tax, and that highway-type tires returned under warranty after partial use are subject to the tax without allowance for a refund or credit of the tax previously imposed on the tread rubber remaining on the returned tire. In arriving at these conclusions, the court relied upon the fact that wasted rubber never became part of tires of the type used on highway vehicles and that rubber remaining in a returned tire had become part of a tire of the type used on highway vehicles. While the section 4071(a)(4) tread rubber tax does not refer to highway-type vehicle tires, as does the section 4071(a)(1) new tire tax the court noted that the legislative history of the tread rubber tax clearly evidences an intention to limit the tax to such tires. *See* H. Rept. No. 10660, 84th Cong., 2d Sess., 1956-2 C.B. 1312; Rev. Rul. 65-223, 1965-2 C.B. 420.

[3] *See* note 2, *supra*.

While used and recapped or retreaded tires ordinarily are subject to the tire tax when imported, a different situation exists when a used tire which has been taxed in the United States is exported, is retreaded (other than from bead to bead) abroad, and then is shipped back into the United States.[4] Then there is neither a tax on the imported retreaded tire nor on the tread rubber used in the retreading, because the tire already has been taxed and the tread rubber is considered to have lost its identity.

Under present law, the general time by which a claim for credit or refund of a tax must be filed is 3 years from the time the tax return was filed or, if later, 2 years from the time the tax was paid (sec. 6511).

Reasons for change

The committee believes that it is appropriate to make the application of the tread rubber tax more nearly equivalent to the application of the new tire tax. Also, the committee concluded that the tax law should not create a competitive advantage for tires which are exported for retreading and then imported for sale in the United States.

Explanation of provision

Credit or refund of tread rubber tax

This provision of the bill makes a credit or refund of the tread rubber tax available in three situations. These changes are intended to permit a credit or refund of the tax on the tread rubber used on a recapped or retreaded tire, under the same circumstances where a credit or refund would be available for the tax on a new tire.

First, the credit or refund would be

[4] Tires recapped from bead to bead are considered as having been newly manufactured and thus are taxable.

available where rubber is destroyed, scrapped, wasted, or rendered useless in the recapping or retreading process.

Second, the credit or refund would be available where the tread rubber is used in the recapping or retreading of a tire if the sales price of the tire is later adjusted because of a warranty or guaranty. The overpayment (that is, the amount available for credit or refund) would be the same proportion of the tax paid as the adjustment in the sales price of the retreaded tire to the immediate vendee by the tire retreader.

Third, a credit or refund of the tread rubber tax would be available to the manufacturer for the tread rubber on a recapped or retreaded tire if the tire is by any person (1) exported, (2) sold to a State or local government for its exclusive use, (3) sold to a nonprofit educational organization for its exclusive use, or (4) used or sold for use as supplies for a vessel or aircraft.

Finally, where a retreaded tire is sold by the retreader or by another manufacturer on or in conjunction with another article (for example, a truck) manufactured by it, the bill would provide that a credit or refund of the tread rubber tax is to be allowed to the manufacturer of [18] the other article if the article is exported or sold by any person for any of the above purposes.

Tax on imported recapped or retreaded tires

The provision also would provide that used tires which are exported from the United States, recapped or retreaded abroad (other than from bead to bead), and then imported into the United States are to be subject to the tax on tread rubber. For this purpose, the amount of tread rubber to be taken into account is to be determined as of the completion of the recapping or retreading of the tire. The amount so determined would be either the amount which is established as actually used in recapping or retreading the tire or an average amount which is generally used on comparable tires in the industry, as determined by the Treasury Department (sec. 4701(c)).

If a retreaded tire is imported on a vehicle which is not itself subject to a manufacturers excise tax (e.g., a passenger car or a light-duty truck), then the importer of the vehicle is under existing law (Code sec. 4071(e)) treated as the importer of the tire. However, as noted, if the tire is not taxable because it was exported and recapped abroad (except from bead to bead), the importer is not liable for tax on the tread rubber on the imported tire. This provision carries the process a step further and would treat the importer of the vehicle as the importer of the tread rubber that is on a retreaded tire which is not otherwise subject to tax on the complete tire.

Warranty or guaranty adjustments

The provision also would modify the statute of limitations in cases where a claim for credit or refund of the tread rubber tax is filed as a result of a warranty or guaranty adjustment. The amendment provides that in such a case a claim for credit or refund may be filed at any time before the date which is one year after the date on which the adjustment is made, if the period for filing the claim would otherwise expire before that later date.

In other words, under this provision, the manufacturer would be assured that it will have one day less than a year after the time the adjustment is made (or deemed made) within which to file a claim for credit or refund of the relevant tax.

Effective date

The amendments made by this provision will be effective on the first day of the first calendar month which begins more than 10 days after the date of the provision's enactment.

Revenue effect

This provision will reduce budget receipts by less than $100,000 in fiscal year 1980, and by less than $200,000 annually during each of the next 4 fiscal years. (These amounts would otherwise go into the Highway Trust Fund—through September 30, 1984.)

[19] I. Nonrecognition of Gain on Sale of Residence for Certain Members of the Armed Forces (sec. 10 of the bill and sec. 1034 of the Code)

Present law

Under present law, the entire amount of gain or loss realized on the sale or exchange of property generally is recognized. However, under a "rollover" provision of the Code (sec. 1034), gain is not recognized on the sale or exchange of a taxpayer's principal residence if a new principal residence, at least equal in cost to the adjusted sales price of the old residence, is purchased and used by the taxpayer as his or her principal residence within a period beginning 18 months before and ending 18 months after the date of the sale of the old residence. The basis of the new residence then is reduced by the amount of gain not recognized on the sale of the old residence.

The replacement period is suspended during any time that the taxpayer (or the taxpayer's spouse) serves on extended active duty with the Armed Forces of the United States after the date of the sale of the old residence. Currently, this suspension may not extend more than four years beyond the date of the sale of the old residence. Thus, a member of the Armed Forces generally is not required to recognize gain on the sale of a principal residence if he or she purchases and uses a new principal residence within four years after the date of the sale of the old residence.

Reasons for change

The committee believes that the period for replacement of a residence should be extended for members of the Armed Forces who are stationed overseas or are required to reside in Government-owned quarters.

Explanation of provision

This provision extends the period of time in which a member of the Armed Forces who is stationed outside of the United States or is required to reside in Government-owned quarters must purchase a new principal residence in order to qualify for nonrecognition of gain on the sale of the old principal residence. Under this provision, a member of the Armed Forces who is stationed outside of the United States or is required to reside in Government-owned quarters after the date of the sale of the principal residence generally will not recognize gain on the sale of the residence if the taxpayer purchases and uses a new principal residence within the later of four years after the date of the sale of the old residence or one year after the date on which the taxpayer is no longer stationed outside of the United States or is no longer required to reside in Government-owned quarters.

[20] The benefits of this additional extension period will be available only if the taxpayer has timely filed, with the Internal Revenue Service, a notice of the taxpayer's intent to take advantage of the extension.

The committee intends that the extension of the period for replacement of a residence by a member of the Armed Forces shall not constitute a precedent for providing similar rules for other taxpayers. The committee considers the problem of replacing a principal residence beyond the usual 18-month period by a member of the Armed Forces to be a unique problem.

Effective date

The provision applies to sales of old residences after December 31, 1979 by eligible members of the Armed Forces.

Revenue effect

This section will have no effect on budget receipts through fiscal year 1985. Beginning with fiscal year 1986, it is estimated that this provision will reduce budget receipts by $10 million annually.

[21] J. Exempt Status of Auxiliaries of Certain Fraternal Beneficiary Societies (sec. 11 of the bill and sec. 501 of the Code)

Present law

Under present law, social clubs and similar nonprofit organizations, such as national organizations of college fraternities and sororities, are exempt organizations. Code section 501(c)(7) provides that these organizations must be organized and operated exclusively for pleasure, recreation, and other nonprofitable purposes with no part of the net earnings inuring to the benefit of any private shareholder.

However, section 501(i) provides that an organization otherwise exempt from income tax as an organization described in section 501(c)(7) is to lose its exempt status for any taxable year, if at any time during that year the organization's charter, by-laws or other governing instrument, or any written policy statement, contains a provision which provides for discrimination against any person on the basis of race, color, or religion.

Exempt status is granted under section 501(c)(8) to fraternal beneficiary societies, orders, or associations which operate under the lodge system or for the exclusive benefit of the members of a fraternity operating under the lodge system, and which provide for the payment of life, sick, accident, or other benefits to the members of the society, order, or association, or their dependents.

Reasons for change

Certain auxiliaries of a fraternal beneficiary society (which is an exempt organization described in section 501(c)(8) and which limits membership to members of a particular religion) are treated by the Internal Revenue Service as exempt social clubs. The committee believes that these auxiliaries should not be disqualified from treatment as exempt social clubs by reason of their failure to fulfill the nondiscrimination requirement with respect to religion in section 501(i).

Explanation of provision

This provision allows certain auxiliaries of fraternal beneficiary societies to qualify for tax-exempt status under section 501(c)(7) even though membership in the auxiliaries is limited to members of a particular religion. The bill provides that the restriction on religious discrimination in section 501(i) shall not apply to an auxiliary of a fraternal beneficiary society if the society is described in section 501(c)(8), is exempt from income tax under section 501(a), and limits its membership to the members of a particular religion.

The intended beneficiaries of this provision are the affiliated corporations of the unincorporated, subordinate lodges of the Knights of Columbus, a fraternal society which claims tax-exempt status under section 501(c)(8). Generally, these affiliated corporations were formed to hold title to real property. Prior to the enactment of section 501(i) in 1976, some of the Knights' affiliated corporations have been treated as social clubs described in section 501(c)(7).

[22] *Effective date*

The provision will apply to taxable years beginning after October 20, 1976, the date on which section 501(i) of the Code became effective.

Revenue effect

It is estimated that this provision will result in a negligible reduction in budget receipts.

[23] K. Uniformed Services Health Professions Scholarships and National Research Service Awards (subsections (a) and (b) of sec. 12 of the bill)

Present law

Uniformed Services Health Professions Scholarships

The Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1] extended the exclusion provided under prior law for participants in the Uniformed Services Health Professions

Scholarship programs (including the Armed Forces and Public Health Professions Scholarship programs) so that students entering the programs in 1979 could exclude amounts received under these programs through 1983. This one-year extension generally covered program participants entering medical school in 1979 for their four years of training.

National Research Service Awards

In addition, the 1978 Act provided tax-exempt scholarship treatment for National Research Service Awards made through 1979 for the duration of such awards.

Reasons for change

The committee believes that, pending the completion of a comprehensive review of the tax treatment of scholarships, the excludable treatment of amounts received under the Uniformed Services Health Professions Scholarships programs and as a National Research Service Award should be continued.

Explanation of provision

The provision extends the tax exemption for participants in the Uniformed Services Health Professions Scholarship programs with respect to students entering programs in 1980, and applies to amounts received by them through 1984.

Also, the tax-exempt scholarship treatment for National Research Service Awards is extended to awards initially made during calendar year 1980.

Revenue effect

The one-year extension of tax exemption for Uniformed Services Health Professions Scholarship programs will reduce budget receipts by less than $5 million per year for fiscal years 1980-1984.

The one-year extension of tax exemption for 1980 National Research Service Awards will reduce budget receipts by $6 million in fiscal year 1981, $6 million in fiscal year 1982, and less than $5 million in fiscal year 1983.

[24] L. Deduction for Expenditures to Remove Architectural and Transportation Barriers to the Handicapped and Elderly (sec. 12(c) of the bill and sec. 190 of the Code)

Present law

The Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1] provided taxpayers with an elective tax deduction for the removal of architectural and transportation barriers to the handicapped and elderly (Code sec. 190). A taxpayer may treat certain expenses for the removal of such barriers as deductible expenses in the year paid or incurred instead of capitalizing them. Deductible expenses are those paid or incurred in order to make more accessible to and usable by the handicapped and elderly any facility or public transportation vehicle owned or leased by the taxpayer for use in his trade or business. The maximum deduction for a taxpayer, including a controlled group of corporations filing a consolidated return for any taxable year, is $25,000.

In order to qualify for the deduction, the expenses must be for barrier removal in business facilities which the taxpayer establishes to the satisfaction of the Secretary meets standards set by the Secretary of the Treasury with the concurrence of the Architectural and Transportation Barriers Compliance Board as established by 1968 legislation.

The deduction was limited to a three-year period ending before January 1, 1980, in order that the Congress could review its effectiveness.

Reasons for change

The committee believes that it is appropriate to extend this provision for an additional period of time so that the review of the effectiveness of the provision may be completed.

Explanation of provision

This provision extends the elective deduction for expenditures to remove architectural and transportation barriers to the handicapped and the elderly for three years, to taxable years beginning before January 1, 1983.

Revenue effect

This provision will result in a reduction in budget receipts of $4 million in fiscal 1980, $10 million per year in fiscal years 1981 and 1982, and $6 million in fiscal year 1983.

[25] M. Extension of Interim Relief in Independent Contractor Status Controversies (sec. 12(d) of the bill and sec. 530 of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 119])

Present law

The Revenue Act of 1978 provided interim relief (until January 1, 1980) for certain taxpayers involved in controversies with the Internal Revenue Service over IRS-proposed reclassifications of workers, whom the taxpayers had considered independent contractors, as employees. In general, the Act terminated taxpayers' potential liabilities for Federal income tax withholding, social security and FUTA taxes in cases where taxpayers have a reasonable basis for treating workers other than as employees. In addition, the Act prohibited the issuance of Treasury regulations and Revenue Rulings on common law employment status before January 1, 1980, while the Congress considered legislative proposals for clarifying individuals' employment tax status.

Reasons for change

The committee believes that it is appropriate to extend the interim relief provision to permit the orderly consideration of pending legislation which will provide permanent rules in this area. Although the Subcommittee on Select Revenue Measures has held hearings on this subject and has commenced the markup of a bill (H.R. 5460) providing permanent rules, it may not be possible to complete Congressional action on proposed legislation for permanent rules before 1980

because of the press of other legislative business.

Explanation of provision

This provision extends the relief period, enacted in the Revenue Act of 1978, for one year until 1981, in order to allow the Congress to complete consideration of clarifying legislation.

Revenue effect

The revenue loss of this provision cannot be estimated because it generally affects individuals whose employment tax status under the present common law rules is the subject of dispute.

[26] N. Postponement of Effective Date for Special Limitations on Net Operating Loss Carryovers (sec. 12(e) of the bill and secs. 382 and 383 of the Code)

Present law

Prior to enactment of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 (Vol. 1) 1], generally, if new owners purchased 50 percent or more of the stock of a loss corporation during a two-year period, the corporation's loss carryovers from prior years were allowed in full only if the corporation continued to conduct its prior trade or business or substantially the same kind of business. Generally, if the same business was not continued, however, loss carryovers were completely lost. This "purchase" rule applied where one or more of the 10 largest shareholders increased their stock ownership, within a two-year period, by 50 percentage points or more in a transaction in which the purchasers took a cost basis in their stock (except where the stock was acquired from "related" persons).

In the case of a tax-free reorganization, loss carryovers were allowed on a declining scale. If the former owners of the loss company received 20 percent or more of the fair market value of the stock of the acquiring company, the loss carryovers were allowed in full. For each percentage point less than 20 which the former owners received, the loss carryover was reduced by five percent. It was immaterial whether the business of the loss company was continued after the reorganization.

The 1976 Act extensively revised the Code provisions dealing with the carryover of net operating losses in cases of acquisitions of loss corporations. The limitations on loss carryover attributes were to apply to acquisitions made by purchase or through corporate reorganizations. The new provisions changed the basic concepts underlying the rules by deleting continuity of business requirements for purchases and establishing a new continuity of ownership test applicable to both purchases and reorganizations.

These new provisions were to apply to plans of reorganization adopted on or after January 1, 1978, and to sales or exchanges in taxable years beginning after June 30, 1978. However, the Revenue Act of 1978 extended these effective dates for two years, to January 1, 1980, and June 30, 1980.

Reasons for change

A number of technical problems concerning the 1976 revisions have been brought to the committee's attention. The committee believes that an additional period of time is necessary to complete a review of the provision.

Explanation of provision

This provision delays the effective date of the 1976 Act change for an additional two years, until January 1, 1982, with respect to plans [27] of reorganization adopted on or after that date, or until June 30, 1982, with respect to sales or exchanges occurring in taxable years beginning after that date.

Revenue effect

The provision will reduce budget receipts by less than $5 million annually during the postponement period.

Public Law 96-603
96th Congress, H.R. 4155 [1]
December 28, 1980

An Act to amend the Internal Revenue Code of 1954 to simplify private foundation return and reporting requirements, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SIMPLIFICATION OF PRIVATE FOUNDATION RETURN AND REPORTING REQUIREMENTS.

(a) AMENDMENT OF SECTION 6033.—Section 6033 of the Internal Revenue Code of 1954 (relating to returns by exempt organizations) is amended by redesignating subsection (c) as subsection (e) and by inserting after subsection (b) the following new subsections:

"(c) ADDITIONAL PROVISIONS RELATING TO PRIVATE FOUNDATIONS.—In the case of an organization which is a private foundation (within the meaning of section 509(a))—

"(1) the Secretary shall by regulations provide that the private foundation shall include in its annual return under this section such information (not required to be furnished by subsection (b) or the forms or regulations prescribed thereunder) as would have been required to be furnished under section 6056 (relating to annual reports by private foundations) as such section 6056 was in effect on January 1, 1979,

"(2) a copy of the notice required by section 6104(d) (relating to public inspection of private foundations' annual returns), together with proof of publication thereof, shall be filed by the foundation together with the annual return under this section, and

"(3) the foundation managers shall furnish copies of the annual return under this section to such State officials, at such times, and under such conditions, as the Secretary may by regulations prescribe.

[1] Senate Report No. 96-1039, page 691; House Report No. 96-1044 is not published.

Nothing in paragraph (1) shall require the inclusion of the name and address of any recipient (other than a disqualified person within the meaning of section 4946) of 1 or more charitable gifts or grants made by the foundation to such recipient as an indigent or needy person if the aggregate of such gifts or grants made by the foundation to such recipient during the year does not exceed $1,000.

"(d) SECTION TO APPLY TO NONEXEMPT CHARITABLE TRUSTS AND NONEXEMPT PRIVATE FOUNDATIONS.—The following organizations shall comply with the requirements of this section in the same manner as organizations described in section 501(c)(3) which are exempt from tax under section 501(a):

"(1) NONEXEMPT CHARITABLE TRUSTS.—A trust described in section 4947(a)(1) (relating to nonexempt charitable trusts).

"(2) NONEXEMPT PRIVATE FOUNDATIONS.—A private foundation which is not exempt from tax under section 501(a)."

(b) PUBLIC INSPECTION OF PRIVATE FOUNDATIONS' ANNUAL RETURNS.—

(1) IN GENERAL.—The first sentence of subsection (d) of section 6104 of such Code (relating to public inspection of private foundations' annual reports) is amended to read as follows: "The annual return required to be filed under section 6033 (relating to returns by exempt organizations) by any organization which is a private foundation within the meaning of section 509(a) shall be made available by the foundation managers for inspection at the principal office of the foundation during regular business hours by any citizen on request made within 180 days after the date of the publication of notice of its availability."

(2) CONFORMING AMENDMENTS.—Such subsection (d) is amended—

(A) by striking out "ANNUAL REPORTS" in the heading and inserting in lieu thereof "ANNUAL RETURNS"; and

(B) by striking out "annual report" each place it appears in the second and third sentences and inserting in lieu thereof "annual return".

(c) REPEAL OF PRIVATE FOUNDATION ANNUAL REPORTING REQUIREMENTS.—Subpart D of part III of subchapter A of chapter 61 of such Code (relating to information concerning private foundations) is hereby repealed.

(d) TECHNICAL AMENDMENTS.—

(1) Section 6034 of such Code (relating to returns by trust described in section 4947(a) or claiming charitable deductions under section 642(c)) is amended—

(A) by striking out "section 4947(a)" in subsection (a) and inserting in lieu thereof "section 4947(a)(2)";

(B) by adding at the end of subsection (b) the following new sentence: "This section shall not apply in the case of a trust described in section 4947(a)(1).";

(C) by striking out "EXCEPTION" in the heading of subsection (b) and inserting in lieu thereof "EXCEPTIONS"; and

(D) by striking out "SECTION 4947(a)" in the section heading and inserting in lieu thereof "SECTION 4947(a)(2)".

(2)(A) The first sentence of section 6652(d)(3) of such Code (relating to annual reports) is amended to read as follows: "In the case of a failure to comply with the requirements of section 6104(d) (relating to public inspection of private foundations' annual returns), on the date and in the manner prescribed therefor (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause, there shall be paid (on notice and demand by the Secretary and in the same manner as tax) by the person failing to meet such requirement, $10 for each day during which such failure continues, but the total amount imposed hereunder on all such persons for such failure with respect to any one annual return shall not exceed $5,000."

(B) The heading of paragraph (3) of section 6652(d) of such Code is amended by striking out "REPORTS" and inserting in lieu thereof "RETURNS".

(3) Subsection (b) of section 6104 of such Code (relating to inspection of annual information returns) is amended by striking out "6056,".

(4) Section 6685 of such Code (relating to assessable penalties with respect to private foundation annual reports) is amended to read as follows:

"SEC. 6685. ASSESSABLE PENALTIES WITH RESPECT TO PRIVATE FOUNDATION ANNUAL RETURNS.

"In addition to the penalty imposed by section 7207 (relating to fraudulent returns, statements, or other documents), any person who is required to comply with the requirements of section 6104(d) (relating to private foundations' annual returns) and who fails to so comply with respect to any return, if such failure is willful, shall pay a penalty of $1,000 with respect to each such return."

(5) Section 7207 of such Code (relating to fraudulent returns, statements, or other documents) is amended by striking out "sections 6047(b) or (c), 6056, or 6104(d)" and inserting in lieu thereof "subsection (b) or (c) of section 6047 or pursuant to subsection (d) of section 6104".

(e) CLERICAL AMENDMENTS.—

(1) The table of sections for subpart A of part III of subchapter A of chapter 61 of such Code is amended by striking out "4947(a)" in the item relating to section 6034 and inserting in lieu thereof "4947(a)(2)".

(2) The table of subparts for part III of subchapter A of chapter 61 of such Code is amended by striking out the item relating to subpart D.

(3) The table of sections for subchapter B of chapter 68 of such Code is amended by striking out "reports" in the item relating to section 6685 and inserting in lieu thereof "returns".

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1980.

SEC. 2. ALLOWANCE OF DEDUCTION FOR CERTAIN FOREIGN DEFERRED COMPENSATION PLANS.

(a) ALLOWANCE.—Part I of subchapter D of chapter 1 of the Internal Revenue Code of 1954 (relating to pension, profit sharing, stock bonus plans, etc.) is amended by inserting after section 404 the following new section:

"SEC. 404A. DEDUCTION FOR CERTAIN FOREIGN DEFERRED COMPENSATION PLANS.

"(a) GENERAL RULE.—Amounts paid or accrued by an employer under a qualified foreign plan—

"(1) shall not be allowable as a deduction under section 162, 212, or 404, but

"(2) if they satisfy the conditions of section 162, shall be allowed as a deduction under this section for the taxable year for which such amounts are properly taken into account under this section.

"(b) RULES FOR QUALIFIED FUNDED PLANS.—For purposes of this section—

"(1) IN GENERAL.—Except as otherwise provided in this section, in the case of a qualified funded plan contributions are properly taken into account for the taxable year in which paid.

"(2) PAYMENT AFTER CLOSE OF TAXABLE YEAR.—For purposes of paragraph (1), a payment made after the close of a taxable year shall be treated as made on the last day of such year if the payment is made—

"(A) on account of such year, and

"(B) not later than the time prescribed by law for filing the return for such year (including extensions thereof).

"(3) LIMITATIONS.—In the case of a qualified funded plan, the amount allowable as a deduction for the taxable year shall be subject to—

"(A) in the case of—

"(i) a plan under which the benefits are fixed or determinable, limitations similar to those contained in clauses (ii) and (iii) of subparagraph (A) of section 404(a)(1) (determined without regard to the last sentence of such paragraph (A)), or

"(ii) any other plan, limitations similar to the limitations contained in paragraph (3) of section 404(a), and

"(B) limitations similar to those contained in paragraph (7) of section 404(a).

"(4) CARRYOVER.—If—

"(A) the aggregate of the contributions paid during the taxable year reduced by any contributions not allowable as a deduction under paragraphs (1) and (2) of subsection (g), exceeds

"(B) the amount allowable as a deduction under subsection (a) (determined without regard to subsection (d)),

such excess shall be treated as an amount paid in the succeeding taxable year.

"(5) AMOUNTS MUST BE PAID TO QUALIFIED TRUST, ETC.—In the case of a qualified funded plan, a contribution shall be taken into account only if it is paid—

"(A) to a trust (or the equivalent of a trust) which meets the requirements of section 401(a)(2),

"(B) for a retirement annuity, or

"(C) to a participant or beneficiary.

"(c) RULES RELATING TO QUALIFIED RESERVE PLANS.—For purposes of this section—

"(1) IN GENERAL.—In the case of a qualified reserve plan, the amount properly taken into account for the taxable year is the reasonable addition for such year to a reserve for the taxpayer's liability under the plan. Unless otherwise required or permitted in regulations prescribed by the Secretary, the reserve for the taxpayer's liability shall be determined under the unit credit method modified to reflect the requirements of paragraphs (3) and (4). All benefits paid under the plan shall be charged to the reserve.

"(2) INCOME ITEM.—In the case of a plan which is or has been a qualified reserve plan, an amount equal to that portion of any decrease for the taxable year in the reserve which is not attributable to the payment of benefits shall be included in gross income.

"(3) RIGHTS MUST BE NONFORFEITABLE, ETC.—In the case of a qualified reserve plan, an item shall be taken into account for a taxable year only if—

"(A) there is no substantial risk that the rights of the employee will be forfeited, and

"(B) such item meets such additional requirements as the Secretary may by regulations prescribe as necessary or appropriate to ensure that the liability will be satisfied.

"(4) SPREADING OF CERTAIN INCREASES AND DECREASES IN RESERVES.—There shall be amortized over a 10-year period any increase or decrease to the reserve on account of—

"(A) the adoption of the plan or a plan amendment,

"(B) experience gains and losses, and

"(C) any change in actuarial assumptions,

"(D) changes in the interest rate under subsection (g)(3)(B), and

"(E) such other factors as may be prescribed by regulations.

"(d) AMOUNTS TAKEN INTO ACCOUNT MUST BE CONSISTENT WITH AMOUNTS ALLOWED UNDER FOREIGN LAW.—

"(1) GENERAL RULE.—In the case of any plan, the amount allowed as a deduction under subsection (a) for any taxable year shall equal—

"(A) the lesser of—

"(i) the cumulative United States amount, or

"(ii) the cumulative foreign amount, reduced by

"(B) the aggregate amount determined under this section for all prior taxable years.

"(2) CUMULATIVE AMOUNTS DEFINED.—For purposes of paragraph (1)—

"(A) CUMULATIVE UNITED STATES AMOUNT.—The term 'cumulative United States amount' means the aggregate amount determined with respect to the plan under this section for the taxable year and for all prior taxable years to which this section applies. Such determination shall be made for

each taxable year without regard to the application of paragraph (1).

"(B) CUMULATIVE FOREIGN AMOUNT.—The term 'cumulative foreign amount' means the aggregate amount allowed as a deduction under the appropriate foreign tax laws for the taxable year and all prior taxable years to which this section applies.

"(3) EFFECT ON EARNINGS AND PROFITS, ETC.—In determining the earnings and profits and accumulated profits of any foreign corporation with respect to a qualified foreign plan, the amount determined under paragraph (1) with respect to any plan for any taxable year shall in no event exceed the amount allowed as a deduction under the appropriate foreign tax laws for such taxable year.

"(e) QUALIFIED FOREIGN PLAN.—For purposes of this section, the term 'qualified foreign plan' means any written plan of an employer for deferring the receipt of compensation but only if—

"(1) such plan is for the exclusive benefit of the employer's employees or their beneficiaries,

"(2) 90 percent or more of the amounts taken into account for the taxable year under the plan are attributable to services—

"(A) performed by nonresident aliens, and

"(B) the compensation for which is not subject to tax under this chapter, and

"(3) the employer elects (at such time and in such manner as the Secretary shall by regulations prescribe) to have this section apply to such plan.

"(f) FUNDED AND RESERVE PLANS.—For purposes of this section—

"(1) QUALIFIED FUNDED PLAN.—The term 'qualified funded plan' means a qualified foreign plan which is not a qualified reserve plan.

"(2) QUALIFIED RESERVE PLAN.—The term 'qualified reserve plan' means a qualified foreign plan with respect to which an election made by the taxpayer is in effect for the taxable year. An election under the preceding sentence shall be made in such manner and form as the Secretary may by regulations prescribe and, once made, may be revoked only with the consent of the Secretary.

"(g) OTHER SPECIAL RULES.—

"(1) NO DEDUCTION FOR CERTAIN AMOUNTS.—Except as provided in section 404(a)(5), no deduction shall be allowed under this section for any item to the extent such item is attributable to services—

"(A) performed by a citizen or resident of the United States who is an officer, shareholder, or highly compensated, or

"(B) performed in the United States the compensation for which is subject to tax under this chapter.

"(2) TAXPAYER MUST FURNISH INFORMATION.—

"(A) IN GENERAL.—No deduction shall be allowed under this section with respect to any plan for any taxable year unless the taxpayer furnishes to the Secretary with respect to such plan (at such time as the Secretary may by regulations prescribe)—

"(i) a statement from the foreign tax authorities specifying the amount of the deduction allowed in computing taxable income under foreign law for such year with respect to such plan,

"(ii) if the return under foreign tax law shows the deduction for plan contributions or reserves as a separate, identifiable item, a copy of the foreign tax return for the taxable year, or

"(iii) such other statement, return, or other evidence as the Secretary prescribes by regulation as being sufficient to establish the amount of the deduction under foreign law.

"(B) REDETERMINATION WHERE FOREIGN TAX DEDUCTION IS ADJUSTED.—If the deduction under foreign tax law is adjusted, the taxpayer shall notify the Secretary of such adjustment on or before the date prescribed by regulations, and the Secretary shall redetermine the amount of the tax for the year or years affected. In any case described in the preceding sentence, rules similar to the rules of subsection (c) of section 905 shall apply.

"(3) ACTUARIAL ASSUMPTIONS MUST BE REASONABLE; FULL FUNDING.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), principles similar to those set forth in paragraphs (3) and (7) of section 412(c) shall apply for purposes of this section.

"(B) INTEREST RATE FOR RESERVE PLAN.—

"(i) IN GENERAL.—In the case of a qualified reserve plan, in lieu of taking rates of interest into account under subparagraph (A), the rate of interest for the plan shall be the rate selected by the taxpayer which is within the permissible range.

"(ii) RATE REMAINS IN EFFECT SO LONG AS IT FALLS WITHIN PERMISSIBLE RANGE.—Any rate selected by the taxpayer for the plan under this subparagraph shall remain in effect for such plan until the first taxable year for which such rate is no longer within the permissible range. At such time, the taxpayer shall select a new rate of interest which is within the permissible range applicable at such time.

"(iii) PERMISSIBLE RANGE.—For purposes of this subparagraph, the term 'permissible range' means a rate of interest which is not more than 20 percent above, and not more than 20 percent below, the average rate of interest for long-term corporate bonds in the appropriate country for the 15-year period ending on the last day before the beginning of the taxable year.

"(4) ACCOUNTING METHOD.—Any change in the method (but not the actuarial assumptions) used to determine the amount allowed as a deduction under subsection (a) shall be treated as a change in accounting method under section 446(e).

"(5) SECTION 481 APPLIES TO ELECTION.—For purposes of section 481, any election under this section shall be treated as a change in the taxpayer's method of accounting. In applying section 481 with respect to any such election, the period for taking into account any increase or decrease in accumulated profits, earnings and profits or taxable income resulting from the application of section 481(a)(2) shall be the year for which the

election is made and the fourteen succeeding years.

"(h) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this section (including regulations providing for the coordination of the provisions of this section with section 404 in the case of a plan which has been subject to both of such sections)."

(b) AMENDMENTS OF SECTION 679 (a).—Subsection (a)(1) of section 679 of such Code (relating to foreign trusts having one or more United States beneficiaries) is amended by adding the phrase "Or section 404A" immediately after the phrase "section 404(a)(4)".

(c) TAXPAYER MUST NOTIFY SECRETARY WHERE THERE IS A REDETERMINATION OF TAX, ETC., UNDER FOREIGN LAW.—

(1) AMENDMENT OF SECTION 905 (c).—Subsection (c) of section 905 of such Code (relating to adjustments on payment of accrued taxes) is amended by adding at the end thereof the following new sentence: "The preceding sentence shall not apply (with respect to any period after the refund or adjustment in the foreign taxes) if the taxpayer fails to notify the Secretary (on or before the date prescribed by regulations for giving such notice) unless it is shown that such failure is due to reasonable cause and not due to willful neglect."

(2) CIVIL PENALTY FOR FAILURE TO NOTIFY.—Subchapter B of chapter 68 of such Code (relating to assessable penalties) is amended by inserting after section 6688 the following new section:

"SEC. 6689. FAILURE TO FILE NOTICE OF REDETERMINATION OF FOREIGN TAX.

"(a) CIVIL PENALTY.—If the taxpayer fails to notify the Secretary (on or before the date prescribed by regulations for giving such notice) of a foreign tax redetermination, unless it is shown that such failure is due to reasonable cause and not due to willful neglect, there shall be added to the deficiency attributable to such redetermination an amount (not in excess of 25 percent of the deficiency) determined as follows—

"(1) 5 percent of the deficiency if the failure is for not more than 1 month, with

"(2) an additional 5 percent of the deficiency for each month (or fraction thereof) during which the failure continues.

"(b) FOREIGN TAX REDETERMINATION DEFINED.—For purposes of this section, the term 'foreign tax redetermination' means any redetermination for which a notice is required under subsection (c) of section 905 or paragraph (2) of section 404A(g)."

(d) CLERICAL AMENDMENTS.—

(1) The table of sections for part I of subchapter D of chapter 1 of such Code is amended by inserting after the item relating to section 404 the following new item:

"SEC. 404A. DEDUCTION FOR CERTAIN FOREIGN DEFERRED COMPENSATION PLANS."

(2) The table of sections for subchapter B of chapter 68 of such Code is amended by inserting after the item relating to section 6688 the following new item:

"SEC. 6689. FAILURE TO FILE NOTICE OF REDETERMINATION OF FOREIGN TAX."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply with respect to employer contributions or accruals for taxable years beginning after December 31, 1979.

(2) ELECTION TO APPLY AMENDMENTS RETROACTIVELY WITH RESPECT TO FOREIGN SUBSIDIARIES.—

(A) IN GENERAL.—The taxpayer may elect to have the amendments made by this section apply retroactively with respect to its foreign subsidiaries.

(B) SCOPE OF RETROACTIVE APPLICATION.—Any election made under this paragraph shall apply with respect to all foreign subsidiaries of the taxpayer for the taxpayer's open period.

(C) DISTRIBUTION BY FOREIGN SUBSIDIARY MUST BE OUT OF POST-1971 EARNINGS AND PROFITS.—The election under this paragraph shall apply to distributions made by a foreign subsidiary only if made out of accumulated profits (or earnings and profits) earned after December 31, 1970.

(D) REVOCATION ONLY WITH CONSENT.—An election under this paragraph may be revoked only with the consent of the Secretary of the Treasury or his delegate.

(E) OPEN PERIOD.—For purposes of this subsection, the term "open period" means, with respect to any taxpayer, all taxable years which begin before January 1, 1980, and which begin after December 31, 1971, and for which, on December 31, 1980, the making of a refund, or the assessment of a deficiency, was barred by any law or rule of law.

(3) ALLOWANCE OF PRIOR DEDUCTIONS IN CASE OF CERTAIN FUNDED BRANCH PLANS.—

(A) IN GENERAL.—If—

(i) the taxpayer elects to have this paragraph apply, and

(ii) the taxpayer agrees to the assessment of all deficiencies (including interest thereon) arising from all erroneous deductions,

then an amount equal to 1/15th of the aggregate of the prior deductions which would have been allowable if the amendments made by this section applied to taxable years beginning before January 1, 1980, shall be allowed as a deduction for the taxpayer's first taxable year beginning in 1980, and an equal amount shall be allowed for each of the succeeding 14 taxable years.

(B) PRIOR DEDUCTION.—For purposes of subparagraph (A), the term "prior deduction" means a deduction with respect to a qualified funded plan (within the meaning of section 404A(f)(1) of the Internal Revenue Code of 1954) of the taxpayer—

(i) which the taxpayer claimed for a taxable year (or could have claimed if the amendments made by this section applied to taxable years beginning

before January 1, 1980) beginning before January 1, 1980,

(ii) which was not allowable, and

(iii) with respect to which, on December 1, 1980, the assessment of a deficiency was not barred by any law or rule of law.

(4) TIME AND MANNER FOR MAKING ELECTIONS.—

(A) TIME.—An election under paragraph (2) or (3) may be made only on or before the due date (including extensions) for filing the taxpayer's return of tax under chapter 1 of the Internal Revenue Code of 1954 for its first taxable year ending on or after December 31, 1980.

(B) MANNER.—An election under paragraph (2) may be made only by a statement attached to the taxpayer's return for its first taxable year ending on or after December 31, 1980. An election under paragraph (3) may be made only if the taxpayer, on or before the last day for making the election, files with the Secretary of the Treasury or his delegate such amended return and such other information as the Secretary of the Treasury or his delegate may require, and agrees to the assessment of a deficiency for any closed year falling within the open period, to the extent such deficiency is attributable to the operation of such election.

SEC. 3. TREATMENT OF TRANSFERS OF PROVEN OIL OR GAS PROPERTIES BY INDIVIDUALS TO CORPORATIONS.

(a) IN GENERAL.—Subsection (c) of section 613A of the Internal Revenue Code of 1954 (relating to exemption for independent producers and royalty owners) is amended by redesignating paragraphs (10) and (11) as paragraphs (11) and (12), respectively, and by inserting after paragraph (9) the following new paragraph:

"(10) TRANSFERS BY INDIVIDUALS TO CORPORATIONS.—

"(A) IN GENERAL.—Paragraph (9)(A) shall not apply to a transfer by an individual of qualified property to a qualified transferee corporation solely in exchange for stock in such corporation.

"(B) 1,000-BARREL LIMIT FOR CORPORATION.—A tentative quantity shall be determined for the qualified transferee corporation under this subsection.

"(C) TRANSFEROR'S TENTATIVE QUANTITY REDUCED.—

"(i) IN GENERAL.—The tentative quantity for the transferor (and his family) for any period shall be reduced by the transferor's pro rata share of the corporation's depletable quantity for such period.

"(ii) PRO RATA SHARE.—For purposes of clause (i), a transferor's pro rata share for any period shall be—

"(I) in the case of production from property to which subparagraph (A) applies, that portion of the corporation's depletable quantity which is allocable to production from such property, and

"(II) in the case of production from all other property, that portion of the corporation's depletable quantity which is allocable to the production from such property, multiplied by a fraction the numerator of which is the fair market value of the transferor's stock in the corporation, and the denominator of which is the fair market value of all stock in the corporation.

"(iii) DEPLETABLE QUANTITY.—For purposes of this paragraph, a corporation's depletable quantity for any period is the lesser of—

"(I) such corporation's tentative quantity for such period (determined under paragraphs (3) and (8)), or

"(II) such corporation's average daily production for such period.

"(D) QUALIFIED TRANSFEREE CORPORATION DEFINED.—For purposes of this paragraph, the term 'qualified transferee corporation' means a corporation all of the outstanding stock of which has been issued to individuals solely in exchange for qualified property held by such individuals.

"(E) QUALIFIED PROPERTY DEFINED.—For purposes of this paragraph, the term 'qualified property' means oil or gas property with respect to which—

"(i) there has been no prior transfer to which paragraph (9)(A) applied, and

"(ii) the transferor has made an election to have this paragraph apply.

The term also includes cash (not to exceed $1,000 in the aggregate) which one or more individuals transfer to the corporation.

"(F) TRANSFEROR MUST RETAIN STOCK DURING LIFETIME.—If at any time during his lifetime any transferor disposes of stock in the corporation (other than to a member of his family), then the depletable quantity of the corporation (determined without regard to this subparagraph) shall be reduced (for all periods on or after the date of the disposition) by an amount which bears the same ratio to such quantity as the fair market value of the stock so disposed of bears to the aggregate fair market value of all stock of the corporation on such date of disposition.

"(G) SPECIAL RULES RELATING TO FAMILY OF TRANSFEROR.—

"(i) IN GENERAL.—For purposes of this paragraph—

"(I) the issuance of stock to a member of the family of the transferor shall be treated as issuance of stock to the transferor, and

"(II) during the lifetime of the transferor, stock transferred to a member of the family of the transferor shall be treated as held by the transferor.

If stock described in the preceding sentence ceases to be held by a member of the family of the transferor, the transferor shall be treated as having disposed of such stock at the time of such cessation.

"(ii) FAMILY DEFINED.—For purposes of this paragraph, the members of the family of an individual include only his spouse and minor children.

"(H) PROPERTY SUBJECT TO LIABILITIES.—For purposes of this paragraph, section 357 shall be applied as if—

"(i) references to section 351 include references to subparagraph (A) of this paragraph, and

"(ii) the reference in subsection (a)(1) of section 357 to the nonrecog-

nition of gain includes a reference to the nonapplication of paragraph (9)(A) of this subsection.

"(I) ELECTION.—A transferor may make an election under this paragraph only in such manner as the Secretary may by regulations prescribe and only on or before the due date (including extensions) for filing the return of the corporation of the taxes imposed by this chapter for the corporation's first taxable year ending after the date of the transfer (or, if later, after the date of the enactment of this paragraph).

"(J) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph."

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to transfers in taxable years ending after December 31, 1974, but only for purposes of applying section 613A of the Internal Revenue Code of 1954 to periods after December 31, 1979.

SEC. 4. CREDITS ALLOWABLE AGAINST MINIMUM TAX.

(a) ALLOWANCE OF CREDIT.—

(1) IN GENERAL.—Paragraph (1) of section 55(c) (relating to credits allowable against alternative minimum tax) is amended to read as follows:

"(1) IN GENERAL.—For purposes of—

"(A) determining the amount of any credit allowable under subpart A of part IV of this subchapter (other than the foreign tax credit allowable under section 33(a)) against the tax imposed by subsection (a), the tax imposed by subsection (a) shall be treated as a tax imposed by this chapter only to the extent of the amount which would be determined under subsection (a)(1) if the alternative minimum taxable income was reduced by the sum of—

"(i) the net capital gain, and

"(ii) the adjusted itemized deductions, and

"(B) determining the amount of any such credit (including the credit allowable under section 33(a)) against the tax imposed by this chapter (other than the tax imposed by this section) for the current taxable year, this section shall be disregarded.

(2) METHOD OF DETERMINING CREDITS TAKEN INTO ACCOUNT.—Section 55(c) is amended by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively, and by inserting after paragraph (1) the following new paragraph:

"(2) RULES FOR DETERMINING AMOUNT OF CREDIT ALLOWABLE.—For purposes of determining the amount of any credit under subpart A of part IV of this subchapter (other than the credits imposed by sections 31, 39, and 43) which can be taken against the tax imposed by subsection (a)—

"(A) the amount of such credit shall be increased by an amount equal to the lesser of—

"(i) the amount of such credit allowable in computing the regular tax for the current taxable year, or

"(ii) the excess of—

"(I) the amount of the tax imposed by subsection (a), over

"(II) the sum of the amounts determined under this subparagraph with respect to credits allowed under a section of such subpart having a higher number designation than such credit (other than the credits allowable by sections 31, 39, and 43), and

"(B) in the case of any credit under section 38, 40, or 44B, such credit shall be reduced, under regulations prescribed by the Secretary, by that portion of such credit which is not attributable to an active trade or business of the taxpayer."

(3) Paragraph (4) of section 55(c) (relating to carryover and carryback of certain credits), as redesignated by paragraph (2), is amended to read as follows:

"(4) CARRYOVER AND CARRYBACK OF CERTAIN CREDITS.—

"(A) IN GENERAL.—For purposes of determining the amount of any carryover or carryback to any other taxable year of any credit allowable under subpart A of part IV of this subchapter (other than section 33), the amount of the limitation under section 44E(e)(1), 44C(b)(1) and (2), 53(b), 50A(a)(2), or 46(a)(3) to the extent such limitation does not exceed the amount of the credit allowable in computing the regular tax for the current taxable year shall be increased for the current taxable year by the amount determined under subparagraph (A) of paragraph (1) of this subsection, and decreased by—

"(i) the sum of the credits allowed under a section having a lower number designation than the section allowing such credit (other than the credits allowable by sections 31, 33, 39, and 43) against the tax imposed by subsection (a), and

"(ii) the amount determined with respect to such credit under paragraph (2)(B) for the current taxable year.

"(B) AMOUNT OF CREDIT.—Any increase under paragraph (2)(A) shall be taken into account in determining the amount of any carryover or carryback from the current taxable year."

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Paragraph (2) of section 55(b) (defining regular tax) is amended by striking out "credit allowable under section 33" and inserting in lieu thereof "credits allowable under such subpart".

(2) Paragraph (3) of section 55(c) (relating to foreign tax credit), as redesignated by subsection (a)(2), is amended—

(A) by striking out subparagraph (B) and redesignating subparagraphs (C), (D), and (E) as subparagraphs (B), (C), and (D), respectively;

(B) by striking out "subparagraph (C)" in subparagraphs (C) and (D)(i), as so redesignated, and inserting in lieu thereof "subparagraph (B)"; and

(C) by striking out clause (ii) of subparagraph (D), as so redesignated, and inserting in lieu thereof the following:

"(ii) any increase under paragraph (2)(A) shall be taken into account."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1979.

Approved December 28, 1980.

Senate Report No. 96-1039
2d Session

[Bracketed numerals indicate official report page numbers]

DISCLOSURE OF MAILING ADDRESSES OF INDIVIDUALS WHO HAVE DEFAULTED ON CERTAIN STUDENT LOANS

NOVEMBER 25 (legislative day, NOVEMBER 20), 1980.

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 4155.[1]

* * * * *

[2] I. SUMMARY

* * * * *

SEC. 2. SIMPLIFICATION OF PRIVATE FOUNDATION RETURN AND REPORTING REQUIREMENTS

This section combines information reporting requirements for private foundations so that only one return would have to be filed to furnish information now required on two separate returns. It also provides that nonexempt wholly charitable trusts would be required to report the same information and be subject to the same disclosure requirements as exempt charitable organizations. Finally, it provides that disclosure of the name and address of an indigent or needy person receiving a grant of less than $1,000 in any year need not be made.

SEC. 3. NONQUALIFIED DEFERRED COMPENSATION PLANS FOR NONRESIDENT ALIENS

Under present law the Code provides special rules for deductions of amounts under pension and other deferred compensation plans. Separate rules apply with respect to qualified and nonqualified deferred compensation plans.

The IRS has held that if a foreign branch's plan for the benefit of nonresident alien employees did not meet all of the requirements for qualification under the Code, no deduction would be allowable under the rules for qualified plans, but amounts would be deductible, if at all, only under the rules which apply to nonqualified plans.

The bill provides that in the case of a nonqualified deferred compensation plan which is maintained for the benefit of persons substantially all of whom are nonresident aliens, the general rules regarding the timing and allowability of deductions for contributions will not apply (unless the taxpayer elects to have those rules apply to the plan). Instead, special rules for deductibility are prescribed.

Subject to limitations, the bill permits a deduction for amounts paid to a trust even though the trust did not meet all the requirements for qualification. Deductions would generally be limited to the lesser [3] amount deductible under foreign law or the amount allowable under standards comparable to those applied in the case of plans in the United States (but eliminating those limitations applicable to further U.S. social policy rather than U.S. tax policy). In the case of unfunded reserve plans, the deductible addition to the reserve would be the present discounted value of the current liability of the foreign subsidiary or branch, using a discount rate intended to put employers electing to use unfunded reserve plans in a position equivalent to employers electing to use funded plans.

SEC. 4. TRANSFERS OF PROVEN OIL AND GAS PROPERTIES TO A CONTROLLED CORPORATION BY INDIVIDUALS

Under present law, independent producers and royalty owners are permitted to claim a deduction for percentage depletion with respect to a limited amount of oil or gas production. Generally, the otherwise allowable percentage depletion deduction is denied with respect to production from proven oil and gas properties which have been transferred after 1974. Such a transfer, however, generally does not preclude the deduction if the transferee and transferor must allocate one depletable quantity. Existing law contains no provision whereby an individual and his or her controlled corporation must allocate one depletable quantity in order to come within this exception.

The bill provides a limited exception to the generally applicable rules of present law which prohibit oil and gas production from being eligible for percentage depletion if the production is from a proven oil or gas property which has been transferred by an individual after December 31, 1974. Under this elective exception (which generally would not allow an increase in the aggregate amount of oil or gas production subject to percentage depletion), individuals would be allowed to transfer oil or gas properties to a controlled corporation without the loss of percentage depletion if several conditions are satisfied. Only oil or gas properties could be transferred to the corporation, and all of the corporation's outstanding stock (and no debt securities or similar obligations) would have to be issued directly to the individual transferors of the oil or gas properties solely in exchange for those properties. The corporation and the shareholders would be required to allocate one 1,000 barrel amount eligible for depletion subsequent to the transfer.

In the absence of satisfying these new rules or of an election under this provision, the rules of present law would continue to apply. Thus, production from a proven oil or gas property which has been transferred by an individual in an exchange to which section 351 applies would not be eligible for percentage depletion.

The provision applies to qualifying transfers made by individuals in taxable years ending after December 31, 1974, but only as to percentage depletion for production in periods after December 31, 1979. Therefore, the provision does not apply to oil or gas production in periods before January 1, 1980.

SEC. 5. TAX CREDITS ALLOWABLE AGAINST ALTERNATIVE MINIMUM TAX

In general, this section of the bill

[1] Public Law 96-603, page 684.

allows each nonrefundable tax credit to be used to offset the alternative minimum tax, except to the extent attributable to net capital gains and adjusted itemized deductions, if the credit is attributable to the active conduct of a trade or business by the taxpayer.

[6] B. Simplification of Private Foundation Return and Reporting Requirements (sec. 2 of the bill and secs. 6033, 6034, and 6056 of the Code)

Present law

Present law requires the foundation managers of private foundations having at least $5,000 of assets to file an annual report (sec. 6056). The report (Form 990-AR) is to contain the foundation's gross income, expenses, disbursements, balance sheet, total amount of contributions and gifts received by it during the year, an itemized list of all grants or contributions made or approved, the names and addresses of the foundation managers, and a list of those foundation managers who are substantial contributors or own certain interests in businesses in which the foundation owns an interest. This report must be made available for public inspection at the principal office of the foundation (sec. 6104(d)) and is open to public inspection at the offices of the Internal Revenue Service (sec. 6104(b)). In addition, the report must be furnished to the appropriate State officials (sec. 6056(d)).

Under present law, most exempt organizations described in section 501(c)(3) of the Code (including exempt private foundations) must file an annual information return (sec. 6033). Under this provision, the return for foundations, Form 990-PF, must state items of gross income, etc., and such other information as may be required by the forms and regulations. At present, this return contains most of the information required in the annual report of the foundation managers. This annual information return also is open to public inspection at the offices of the Internal Revenue Service (sec. 6104(b)). In addition, a copy of this return must be attached to the annual report of a private foundation when the report is furnished to the appropriate State officials (Treas. Reg. sec. 1.6056-1(b)(3)). Thus, information furnished on a foundation manager's report (Form 990-AR) substantially duplicates or overlaps the return filed by the foundation (Form 990-PF) in content and availability for public inspection.

Under present law, trusts which have solely charitable beneficiaries but which are not exempt from taxation (sec. 4947(a)(1) trusts) are subject to different return and disclosure requirements from those applicable to exempt charitable trusts and organizations. A nonexempt charitable trust is not required to file an annual information return open to public inspection. Instead, this type of trust is required to file an income tax return (Form 1041) under section 6012 if its gross income for the year is at least $600 or if it has any taxable income. (Form 1041 need not be filed by a nonexempt charitable trust which is a private foundation and which has no taxable income for the year.) These tax returns are not open to public inspection. In addition, a nonexempt charitable trust, other than one which is required to distribute all its net income currently, must file an annual [7] information return (Form 1041-A), open to public inspection, setting forth certain information concerning its charitable contributions, income and expenses, and balance sheet items, but not containing all of the information required of exempt charitable trusts (sec. 6034). If a nonexempt charitable trust is a private foundation, it also must file a return (pursuant to the regulations under sec. 6011) setting forth much of the information contained on an exempt organization's information return, but this return (Form 5227) is not open to public inspection. In addition, a nonexempt charitable trust which is a private foundation must file the annual report (Form 990-AR or an equivalent report), which is open to inspection and must be furnished to the appropriate State officials as in the case of exempt private foundations, if the trust has at least $5,000 of assets.

Reasons for change

The committee believes that the private foundation reporting requirements should be simplified by combining the annual return (Form 990-PF) and annual report (Form 990-AR) into a single return containing the information presently required on each of the two separate documents. This will reduce administrative costs for foundations. Also, combining the two forms into one will increase the amount of information about the foundation available for inspection at the foundation's office and available to State officials.

Also, the committee believes that nonexempt charitable trusts described in section 4947(a)(1) of the Code should be required to report the same information and be subject to the same disclosure requirements as exempt charitable organizations.

Finally, the committee believes that the disclosure of the name and address of indigent or needy persons receiving grants of less than $1,000 in any year should not be required.

Explanation of provision

The bill eliminates the requirement (under sec. 6056) for the managers of any private foundation with assets of $5,000 or more to file an annual report. Instead, the bill requires that all information currently required to be furnished on the annual report (Form 990-AR) but not on the information return (Form 990-PF) be furnished instead on the foundation's annual information return (under sec. 6033). The combined annual information return will be subject to public inspection at the foundation's office and must be furnished to the appropriate State officials under the same conditions now applicable to the annual report.

In the case of a foundation which has no principal office or whose principal office is in a personal residence,

it is anticipated that the Treasury will by regulation allow the annual inspection requirement to be met by having the return available for public inspection at an appropriate substitute location or by making copies of the return available by mail free of any charge (including postage and copying) upon request.

The bill also provides that the return not be required to contain the name and address of a needy or indigent recipient (other than a disqualified person) of a gift or grant made by the foundation where [8] the total of the gifts or grants received by the person during the year from the foundation does not exceed $1,000.

The section 6033 information reporting requirements under the bill will apply to nonexempt charitable trusts described in section 4947(a)(1) as well as to exempt charities. If a nonexempt charitable trust is a private foundation, the trust's information return must contain all the information required of an exempt private foundation. In addition, nonexempt trusts described in Code section 4947(a)(1) will no longer be required to file a Form 1041-A (under section 6034). In the case of a nonexempt charitable trust which has no taxable income, the Treasury may prescribe regulations to treat the filing of the information return as satisfying the income tax return filing requirements (under sec. 6012). The filing by a trust of the annual information return under section 6033, in good faith, showing sufficient facts upon which to determine income tax liability will commence the period of limitations on any income tax liability if it is later determined that the trust in fact had taxable income.[1]

[1] This rule is consistent with the principles of the decision in *California Thoroughbred Breeders Association* v. *Commissioner,* 47 T.C. 335 (1966), acquiesced in by the Commissioner in Rev. Rul. 69-247, 1969-1 CB 303, in which it was held that the filing of a Form 990 information return by an exempt organization disclosing sufficient facts to apprise the Service of potential unrelated business taxable income commenced the statute of limitations although a tax return (900-T) was not filed.

Effective date

This provision applies to taxable years beginning after December 31, 1980.

Revenue effect

This provision will not have any direct effect on budget receipts.

[9] C. Nonqualified Deferred Compensation Plans for Nonresident Aliens (sec. 3 of the bill and secs. 404A, 905, and 6689 of the Code)

Present law

United States businesses operating abroad often provide deferred compensation for their foreign employees. In many cases, plans are established which cover almost exclusively nonresident alien employees, rather than U.S. citizens working abroad. The foreign operations of the U.S. business may be conducted through a branch of a U.S. corporation or through a foreign subsidiary of a U.S. parent corporation.

General rules relating to deductibility of deferred compensation

In general, the year in which a taxpayer is allowed to deduct expenses, such as compensation, is determined by its method of accounting. Generally, cash basis taxpayers deduct expenses in the year they are paid, while accrual basis taxpayers deduct the expenses in the year in which all events have occurred which determine the fact of the liability and the amount of the liability can be estimated with reasonable accuracy.

However, the Code provides special rules (sec. 404) for deductions of amounts under pension and other deferred compensation plans, which must be met in addition to the usual requirements for deduction of the amounts as business expenses (secs. 162 and 212). Separate rules apply with respect to qualified and nonqualified deferred compensation plans.

Qualified plans.—In order for a deferred compensation plan to be "qualified" under the Code, contributions under it must be paid into a trust to protect them from the employer's creditors. A number of other requirements must also be met. In particular, the plan must be administered for the sole benefit of employees and their beneficiaries, eligibility to participate must be nondiscriminatory, contributions or benefits must be nondiscriminatory, and benefits must be paid no later than specified dates. Additional requirements must be met if the plan covers self-employed individuals, such as partners. The Employee Retirement Income Security Act of 1974 (ERISA) [Pub. L. 93-406, 1974-3 C.B. 1] added a number of additional requirements, including, for example, new eligibility rules, minimum standards for vesting and accrual of benefits, minimum funding standards, maximum limitations on contributions and benefits, a requirement that benefits be paid in certain cases in the form of joint and survivor annuities, and prohibitions on certain dealings between the plan and related parties.

If a plan is qualified, a deduction is allowed at the time a contribution is paid into the plan's trust. The amount of the contribution allowable as a deduction is no less than the amount necessary to satisfy the minimum funding standard prescribed by ERISA. A maximum limitation is also placed on the amount of the contribution which may be deducted. Generally, this may not exceed the "normal cost" of the [10] plan for the year plus an amount which would amortize plan benefit liabilities attributable to past service of employees (if not already included in normal cost under the funding method used by the taxpayer) over a period of no less than 10 years. (The "normal cost" is a measure intended to reflect the ratable share of the increase in plan liabilities to participants resulting from service performed that year. Under some allowable funding methods, a ratable portion of liability for past service of the employees is also included in the year's normal cost.) No deduction is allowed for contributions in excess of the "full funding limitation," the amount by which the accrued liability for benefits of the plan

exceeds the value of its assets. Other limitations on deductions also apply if the employer maintains qualified profit sharing or stock bonus plans for his employees. An unlimited carryforward is allowed for contributions in excess of the limitations.

Nonqualified plans.—If a plan of deferred compensation does not meet the requirements for qualification under the Code, a separate rule applies to the deductibility of contributions. The deduction is taken in the taxable year in which an amount attributable to the contribution is includible in the income of the employee. A similar rule applies to deferred compensation arrangements with independent contractors. However, if the plan covers more than one employee, the deduction may be taken only if separate accounts are maintained for each employee. (Section 1022(j) of ERISA [Pub. L. 93-406, 1974-3 C.B. 1, 111] waives this requirement for certain plans to provide severance pay required by foreign law.) Otherwise, the IRS takes the position that the contribution is never deductible, except in the case of unfunded plans where payment is made directly to the former employees.

Separate accounts are established only for defined contribution plans, which generally require that an amount established pursuant to a formula, which may vary from employee to employee, be contributed to the accounts of the participants. Each employee bears the risk of fluctuations in the value of the investments in his account. Separate accounts are not maintained, however, for defined benefit plans. These plans specify by formula the benefits which participants are to receive on retirement. Contributions to them are based on actuarial calculations of the amounts which will be required to be paid out, generally based in the aggregate on the ages and life expectancies of members of the workforce, likely turnover of participants, and expected investment performance of amounts contributed. The employer bears the risk of investment gain or loss. Because the actuarial assumptions are based on aggregate data, no separate accounts are maintained. Hence, in situations where this rule applies, no deduction is allowed for contributions to a nonqualified defined benefit plan.

Foreign deferred compensation plans

Foreign branch operations.—The Code permits the trust of a qualified plan to be organized under foreign law and waives certain nondiscrimination rules with respect to nonresident aliens but does not otherwise expressly waive any of the requirements for qualification. In Letter Ruling 7904042, the Internal Revenue Service held that if a plan for the benefit of nonresident alien employees did not meet all of [11] the requirements for qualification under the Code (including the provisions added by ERISA), no deduction would be allowable under the rules for qualified plans described above. Instead, the Service held that amounts would be deductible, if at all, only under the rules which apply to nonqualified plans. Since the plans in question were defined benefit plans which did not maintain separate accounts for participants, the Service denied deductions for contributions made to the plans.

Foreign subsidiary operations.—Foreign subsidiaries of U.S. corporations generally do not have U.S. operations which would subject them to U.S. tax, and since their income is thus not subject to U.S. tax, the question of whether a deduction is allowed for contributions to a plan for nonresident aliens does not have the same direct effect on their U.S. tax liability as in the case of a foreign branch of a U.S. corporation. However, the treatment of the contribution in computing the foreign subsidiary's accumulated profits has important consequences in determining the indirect foreign tax credit which the U.S. parent corporation is allowed with respect to dividends received from the foreign subsidiary.[1]

Generally, if a U.S. corporation owns at least 10 percent of the voting stock of a foreign corporation from which it receives a dividend, the U.S. corporation is deemed to pay the amount of foreign income taxes paid by the foreign subsidiary on the accumulated earnings from which the dividend was paid. The U.S. corporation may then, within limitations, claim a credit against its U.S. tax liability in the amount of the foreign income taxes deemed paid by it. Under regulations, the determination of foreign taxes paid on accumulated earnings is made on a year-by-year basis, starting with the most recent year. If only part of the accumulated earnings of that year are paid out, only a proportionate part of the foreign income taxes paid with respect to the earnings for that year are deemed paid. Thus, if a dividend of a given size is paid, more of the foreign income taxes paid by the foreign subsidiary will be deemed to have been paid by (and thus would be creditable by) the U.S. parent if the accumulated earnings of the subsidiary are smaller than if they are larger—because a proportionately larger share of the accumulated earnings would be paid out in the dividend, resulting in a greater proportion of the foreign taxes being deemed paid.

The deduction issue discussed in connection with foreign branches can also be relevant in the case of a foreign subsidiary if it conducts a U.S. business, the taxable income from which must be determined, or if it is a controlled foreign corporation (CFC).[2]

In the case of a CFC, subpart F (secs. 951-964 of the Code) provides that, in general, the United States shareholders must currently include in their income certain types of tax haven income of the corporation and certain types of passive investment income.

[1] Section 406 of the Code permits, in limited instances, a U.S. parent corporation with a qualified plan to make contributions on behalf of employees of a foreign subsidiary who are U.S. citizens. In such cases, a deduction is allowed to the foreign subsidiary.

[2] Generally, a foreign corporation is a CFC if more than 50 percent of the voting power is held by "United States shareholders," that is, U.S. persons each of whom holds 10 percent or more of the voting power.

Generally, the amount [12] of this income to be taken into account is reduced by deductions properly allocable to that income, so if foreign pension costs are so allocable, it is necessary to determine whether and when they are deductible. Moreover, an indirect foreign tax credit similar to that described above may be allowed to the U.S. shareholder with respect to the amount which the shareholder must include in income. The credit is equal to the proportionate part of the foreign income taxes paid on the earnings and profits of the CFC from which the distribution is deemed to be made. Thus, questions similar to those described above arise as to the size of the earnings and profits.

In Letter Ruling 7839005, the Internal Revenue Service considered an accrual basis CFC which established an irrevocable balance sheet reserve for pension expenses. The taxpayer contended that the CFC's earnings and profits should be reduced by the amount of its pension liability which had properly been accrued. The Service held, however, that earnings and profits could be reduced only to the extent of pension payments actually made. The Service did not view as controlling the taxpayer's argument that this result would distort (generally by reducing) its allowable indirect foreign tax credit with respect to dividend distributions from the CFC.

Foreign trusts with U.S. beneficiaries.—The Code provides that if a U.S. person transfers property to a foreign trust, and a U.S. person is the beneficiary of any part of the trust, then the transferor is treated as the owner of the transferred trust property and therefore is taxable on the income earned on that part. Moreover, if the trust does not have a U.S. beneficiary at the time of the transfer but later acquires one, the transferor is subject to tax on all the undistributed net income on amounts it previously transferred to the trust. The Code expressly provides that these rules do not apply to foreign trusts established under qualified plans. However, there is no similar exception for foreign trusts under nonqualified plans. Thus, if a U.S. corporation makes a contribution to a foreign trust of a nonqualified plan, it is possible that the corporation would be taxable on the income earned on the contribution, either immediately if the trust has a U.S. person as a beneficiary, or subsequently if one of the plan participants or his beneficiary becomes a U.S. citizen or resident.

Reasons for change

The committee believes that the provisions of present law generally applicable to deferred compensation plans are ill-suited to plans maintained for the benefit of foreign employees. These plans must frequently comply with provisions of foreign law which are either inconsistent with U.S. law or can be made consistent only through the surrender of major tax benefits under the foreign system. The committee believes that U.S. employers should be able to obtain deductions (and adjustments to earnings and profits) which take into account their obligations under these plans. It is unnecessary to burden qualification for these tax benefits with many of the provisions intended to protect employees and their beneficiaries applicable to domestic plans. However, in order to prevent distortions of income or of the allowable foreign tax credit, the bill includes certain limitations on the allowable amount of deductions.

[13] *Explanation of provision*

In general

The bill permits employers to elect a special set of provisions relating to deductions (and adjustments to earnings and profits) for qualified foreign plans. A "qualified foreign plan" means any written plan of an employer for deferring the receipt of compensation with respect to which the election has been made, but only if two requirements are met. First, the plan must be for the exclusive benefit of the employer's employees or their beneficiaries. Second, 90 percent or more of the amounts taken into account for the taxable year under the plan must be attributable to services (i) performed by nonresident aliens, (ii) the compensation for which is not subject to Federal income tax under the Code (as modified by applicable treaties). A plan is written to the extent it is defined by plan instruments, an applicable statute, or both. The bill does not apply to plans for independent contractors.

Under the bill, amounts paid or accrued by an employer under such a plan are not allowable as a deduction under Code sections 162, 212, or 404, but if they satisfy the conditions of Code section 162, they are allowable as a deduction under the bill for the taxable year for which the amounts are properly taken into account under the bill.

Certain provisions of the bill apply only to funded plans, while others apply only to reserve plans. Other provisions apply to both types. A qualified foreign plan is subject under the bill to the provisions relating to funded plans unless the taxpayer elects to be subject to the provisions for reserve plans.

The Committee intends that, for taxable years beginning after December 31, 1980 (and prior years to the extent that taxpayer elects retroactive effectiveness of the provisions), the taxpayer may claim a deduction for deferred compensation only pursuant to the terms of the bill, to the extent permitted for contributions to qualified plans, or to the extent permitted under section 404(a)(5). However, the Committee also intends that, for prior years, no inference should be drawn from the enactment of the legislation as to the deductibility of contributions to foreign deferred compensation plans.

Funded plans

Generally, in the case of a funded plan contributions are properly taken into account for the taxable year in which paid. However, a provision similar to that available to domestic plans permits in some cases delay in payment of the contribution up to the time the return for the year is filed.

A contribution will be taken into account only if it is paid to a trust (or the equivalent of a trust) for the exclusive benefit of employees or their beneficiaries, for a retirement annuity, or directly to a participant or beneficiary.

In the case of a defined benefit plan, limitations to prevent distortion of income or the allowable foreign tax credit are placed on the amount deductible in any year which are similar to the limits imposed on domestic plans, except that aspects of the domestic limitations which relate to the minimum funding requirements are omitted because the funding rules do not apply to qualified foreign plans. Deductions to profit sharing plans are also subject to [14] limitations similar to those imposed on domestic plans. Where more than one type of deferred compensation plan is maintained, the general rule limiting deductions for contributions to 25 percent of other compensation is also applicable. If the contributions paid in any year (reduced by certain amounts not allowable as deductions under the bill) exceed the foregoing limitations, a carryforward of the excess is permitted.

Reserve plans

In the case of an unfunded reserve plan, the amount properly taken into account for the taxable year is the reasonable addition for that year to a reserve for the taxpayer's liability under the plan. All benefits paid under the plan are to be charged to the reserve. In the case of a plan which is or has been a qualified reserve plan, an amount equal to the portion of any decrease for the taxable year in the reserve which is not attributable to the payment of benefits is to be included in gross income. The reserve must be decreased to the extent that it exceeds the taxpayer's liability properly taken into account.

The addition to the reserve is computed by discounting the accrued vested liabilities of the employer under the plan by an interest rate which is intended to approximate the amount which the employer could reasonably be expected to earn on funds invested in its business. The bill prescribes a formula for determining the permissible interest rate to be used in discounting the employer's liabilities under the plan in order to compute the amount allowable as an addition to the reserve for the year. The taxpayer may select a discount rate which is no more than 20 percent above, and not more than 20 percent below, the average rate of interest for long term corporate bonds in the appropriate foreign country for a 15-year period prior to the year of the adjustment to the reserve. Once a discount rate within this permissible rate has been selected by the taxpayer for the plan, that rate shall remain in effect for the plan until the first year for which the rate is no longer within the permissible range. If in any year the rate selected by the taxpayer ceases to fall within the permissible range, the taxpayer shall select a new rate of interest which is within the permissible range applicable for that year.

Unless otherwise required or permitted by the Treasury, the reserve for the taxpayer's liability is to be determined under the unit credit method modified to reflect the following requirements. First, an item shall be taken into account for a taxable year only if there is no substantial risk that the rights of the employee will be forfeited, and the item meets such additional requirements as the Treasury may be regulations prescribe as necessary or appropriate to ensure that the liability will be satisfied. Second, any increase or decrease to the reserve on account of the adoption of the plan or a plan amendment, experience gains and losses, any change in plan assumptions, and changes in the interest rate is to be amortized over a 10-year period. Other factors prescribed by regulations must also be amortized over the 10-year period. These could include, for example, adjustments in the reserve resulting from changes in levels of compensation on which benefits depend, or the vesting in one year of a benefit which was accrued in a prior year.

[15] *Consistency with foreign law*

In the case of any qualified foreign plan, whether funded or reserve, the amount allowed as a deduction under the bill for any taxable year is equal to the lesser of (i) the cumulative U.S. amount, or (ii) the cumulative foreign amount, reduced in either case by the aggregate amount determined under the bill for all prior taxable years. "Cumulative U.S. amount" means the aggregate amount determined with respect to the plan under this provision for the taxable year and for all prior taxable years to which the bill applies. (The determination is to be made, however, for each taxable year without regard to the limitation imposed by this provision.) "Cumulative foreign amount" means the aggregate amount allowed as a deduction under the appropriate foreign tax laws for the taxable year and all prior taxable years to which this provision applies. If the deduction under the foreign tax law is later adjusted, the taxpayer is to notify the Treasury of the adjustment on or before the date prescribed by regulations, and the Treasury will redetermine the amount of the U.S. tax for the year or years affected. (In any such case, rules similar to the rules of Code section 905(c) will apply. See the discussion below under the heading "Foreign tax credit redeterminations.")

In determining the earnings and profits and accumulated profits of any corporation with respect to a qualified foreign plan, the principles of this limitation are generally to apply. However, the deduction allowed in computing the earnings and profits or the accumulated profits of any foreign corporation with respect to a qualified foreign plan is not in any event to exceed the amount allowed as a deduction under the appropriate tax laws for such taxable year. This additional limitation is imposed in response to the possibilities for distortion of a taxpayer's indirect foreign tax credit which are presented by the present

annual system for determining the amount of the foreign taxes paid by a subsidiary which are attributable to dividends paid to its U.S. shareholders. The effective rate of foreign tax paid by a foreign subsidiary determined with reference to U.S. accounting rules may fluctuate significantly from year to year for a variety of reasons, including, in particular, differences between the U.S. accounting rules for computing the foreign subsidiary's earnings and profits or accumulated profits and the accounting rules used by the foreign government in imposing the tax. The interaction of these foreign rate fluctuations and the annual rules for computing the indirect foreign tax credit permit substantial distortions of the taxpayer's deemed paid foreign tax credit as compared with the effective tax rate of the subsidiary over a period of years. For example, dividends might be repatriated only in high effective tax rate years of the subsidiary (measured under U.S. accounting rules), yielding a deemed paid credit higher than the long term effective rate of the subsidiary. Conversely, dividends might be repatriated through years in which the subsidiary has no accumulated profits according to U.S. accounting rules, with the result that the taxes paid by the subsidiary for the year are lost. This potential for distortion might be eliminated if the indirect credit were computed with reference to the subsidiary's accumulated foreign taxes and undistributed accumulated profits for all years. Until and unless such a change was so made, however, it was determined that no carryforward of [16] any amount which is disallowed for a year because the foreign deduction of the subsidiary for the year exceeded the U.S. deduction for the year will be permitted to a future year where it would increase the amount allowable under U.S. rules over the amount of the foreign deduction for the later year. (The impact of this limitation is that such an excess is permanently lost.)

Other limitations

The bill further provides that, except as provided in Code section 404(a)(5), no deduction will be allowed under the bill for any item to the extent it is attributable to services (i) performed by a citizen or resident of the United States who is an officer, shareholder, or highly compensated, or (ii) performed in the United States the compensation for which is subject to Federal income tax under the Code (as modified by applicable treaties).

No deduction is allowed under the bill with respect to any plan for any taxable year unless the taxpayer furnishes to the Treasury (i) a statement from the foreign tax authorities specifying the amount of the deduction allowed in computing taxable income under foreign law for the year with respect to the plan, (ii) if the return under foreign tax law shows the deduction for plan contributions or reserves as a separate, identifiable item, a copy of the foreign tax return for the taxable year, or (iii) such other statement, return, or other evidence as the Treasury prescribed by regulation as being sufficient to establish the amount of the deduction under foreign law.

Actuarial assumptions must be reasonable in the aggregate. Also, in the case of a reserve plan, rates of interest used for actuarial computations are to be the appropriate market interest rates for borrowing money in the appropriate country, as determined under regulations prescribed by the Treasury. No deduction is allowable for any amount to the extent that it would cause the fair market value of the plan's assets to exceed the accrued liability (including normal cost) under the plan. Any change in the method (but not the actuarial assumptions) used to determine the amount allowed as a deduction is to be treated as a change in accounting method under Code section 446(e). Thus, such a change would require the permission of the Treasury and could give rise to an adjustment to income (Code section 481). In applying section 481 with respect to any such election, the period for taking into account any increase or decrease in accumulated profits, earnings and profits or taxable income resulting from the application of section 481(a)(2) shall be the year for which the election is made and the nine succeeding years.

Foreign tax credit redeterminations

The allowance of deductions under the bill depends, in part, on the allowance of deductions under foreign law. The bill provides that when there is a change in deductions allowed under foreign law the taxpayer will be required to notify the Treasury of this change. This requirement parallels existing rules requiring notification if foreign taxes when paid differ from amounts claimed as credits by the taxpayer. The bill also clarifies enforcement of the provisions which require the taxpayer to notify the Treasury of changes in its foreign income tax liabilities.

[17] The bill provides that interest may be assessed and collected on the tax due resulting from a redetermination if the taxpayer has failed to notify the Treasury (on or before the date prescribed by regulations for giving such notice) of the foreign tax change, unless it is shown that such failure is due to reasonable cause and not due to willful neglect. The interest may be assessed and collected, however, only from the time of the refund of foreign income tax or any adjustments affecting deductions allowable under the bill or the time of any other adjustment to foreign income tax paid or accrued. Moreover, if the failure is not excusable, an additional penalty is to be assessed of 5 percent of the deficiency attributable to the redetermination for each month (or fraction of a month) during which the failure continues, not to exceed 25 percent.

Foreign trusts

The bill would make it clear that in the case of a contribution to a foreign trust subject to the special deduction rules, the corporation mak-

ing the contributions is not treated as the owner of part of the trust merely because the trust has or acquires U.S. beneficiaries.

Effective date

The amendments made by this provision are generally applicable to employer contributions or accruals by U.S. taxpayers and from subsidiaries of such taxpayers for taxable years after December 31, 1980. In addition, a taxpayer may elect to have the amendments apply retroactively. A retroactive election only applies to funded plans maintained by foreign branches of the taxpayer, but it applies to both funded plans or reserve plans maintained by foreign subsidiaries of the taxpayer. In the case of retroactive application to foreign subsidiaries, the legislation would apply to all dividends distributed out of accumulated profits and earnings and profits earned by such subsidiaries after December 31, 1971 and included in the taxpayer's income in its open period. Any retroactive election can only be revoked with the consent of the IRS. Any retroactive election shall apply to all open years of the taxpayer after December 31, 1971 (other than any open years which precede a closed year of the taxpayer).

Revenue effect

It is estimated that the provisions allowing a deduction for pension plans of foreign branches of U.S. corporations will reduce budget receipts by $20 million in fiscal 1981 and $10 million annually in 1982 through 1985. Although the tax liability involved in the case of unfunded accrual plans of foreign subsidiaries of U.S. companies is potentially far more substantial (possibly $500 million for the period prior to 1981 and $200 million a year thereafter), for several reasons the provisions involving foreign subsidiaries are estimated not to have any budget impact for the next few years. The affected taxpayers have contested the position of the IRS that accrual plans do not qualify for deductions in computing earnings and profits. Litigation resolving the issue is likely to take some time and thus, even if the IRS prevails, no U.S. tax on account thereof is likely to be paid for several years. Moreover, since taxpayers can avoid any U.S. tax liability with respect to the plans of the foreign subsidiaries if they fund those plans, it is not clear how much revenue, if any, would be raised if deductions are not allowed for foreign pension accruals.

[18] D. Transfers of Proven Oil or Gas Properties to a Controlled Corporation (sec. 4 of the bill and sec. 613A of the Code)

Present law

Under present law, oil and gas production generally is not entitled to percentage depletion. However, independent producers and royalty holders are permitted a percentage depletion deduction of 22 percent with respect to 1,000 barrels of oil (the "depletable quantity") per day. Between the end of 1980 and the beginning of 1984, the rate of percentage depletion phases down from 22 percent to 15 percent.

Generally, present law requires the depletable quantity of oil and gas to be allocated among all the properties owned directly by the taxpayer, and among all the properties owned by certain other persons with specified relationships to the taxpayer. For this purpose, the following persons are treated as one taxpayer, and must be aggregated in applying the depletable quantity: component members of the same group of corporations, businesses (including corporations, trusts, or estates) and members of the same family. Present law, however, does not require an allocation of the depletable quantity between a trust and a beneficiary of the trust, or between an individual and his or her controlled corporation. As a result, in these instances each taxpayer has a separate depletable quantity.

Under present law, production from a proven oil or gas property which has been transferred after December 31, 1974, generally is not eligible for percentage depletion. However, this rule generally does not apply to testamentary transfers, certain changes in trust interests, or to specified situations where the transferor and the transferee must allocate one depletable quantity following the transfer. If the allocation rule applies, this special exception to the general prohibition on the transfer of proven oil or gas properties applies to transfers covered by section 351, i.e., to transfers to a corporation which is controlled by the transferor(s) after the transfer. Since the depletable quantity is not allocable between an individual and his or her controlled corporation, this special exception is inapplicable to such transfers. As a result, percentage depletion is not available with respect to production from a proven oil or gas property which has been transferred after 1974 by an individual to his or her controlled corporation.

Reasons for change

The committee believes that the percentage depletion transfer rules may be unnecessarily complex and restrictive in the case of transfers of proven oil or gas properties by individuals to a controlled corporation. The committee believes that these rules, in some instances, may result in an unintended denial of percentage depletion where individuals transfer proven oil or gas properties without thorough consideration of the income tax consequences provided for under present law. Nevertheless, the committee also recognizes the importance of preventing a proliferation of the aggregate number of barrels of oil or gas pro-[19]duction with respect to which an individual may benefit from percentage depletion, and of preventing an increase in the overall number of percentage depletion exemptions.

The committee believes that the various important business, estate planning, and tax policy considerations involved in Congress' restriction

on eligibility for percentage depletion from oil and gas production can be reconciled in some situations not provided for currently in the Code. These instances are where only oil or gas properties are transferred by individuals to a controlled corporation solely in exchange for stock of that corporation, and where an election is made to share one depletable quantity. Therefore, the committee believes that it is appropriate to amend the rules of present law relating to transfers of proven oil or gas properties by individuals to a controlled corporation. To effectuate the reconciliation of the competing considerations involved, the committee has limited its action to transfers by individuals which involve only an exchange of stock for oil or gas properties.[1]

Explanation of provision

The bill provides a limited exception to the generally applicable rules of present law which prohibit oil and gas production from being eligible for percentage depletion if the production is from a proven oil or gas property which has been transferred by an individual to a controlled corporation after December 31, 1974. This limited exception applies only to transfers by individuals, and only where an irrevocable election is made to have the provision apply. There is no limit on the number of individuals who may make transfers of qualified property solely in exchange for stock of the transferee corporation. Similarly, there is no restriction on when such transfers may be made (other than those in the effective date of this provision) and, thus, qualifying transfers need not be made simultaneously.

If the requirements of the bill are satisfied, the provision would allow individuals to transfer oil or gas properties to a controlled corporation without the loss of percentage depletion.[2] The transferee corporation and the transferor(s), however, would have to share one 1,000-barrel amount for percentage depletion purposes.

The bill's exception to the percentage depletion transfer rule applies only to exchanges to which section 351 of the Code (relating to nonrecognition of gain on transfers to a controlled corporation) applies. In addition, the bill imposes other requirements (under new Code sec. 613A(c)(10)) which also must be satisfied. Specifically, the bill provides that the transfer rules of present law (sec. 613A(c)(9)(A)) [20] do not apply to a transfer of "qualified property" by individuals to a "qualified transferee corporation" solely in exchange for stock in such corporation. For this purpose, the term "qualified transferee corporation" means a corporation all of the outstanding stock of which has been issued directly to the individual transferors solely in exchange for "qualified property" held by such individuals. (Initial transfers of "qualified property" to such a corporation would meet the requirements of the provision even though the corporation may have no outstanding stock issued prior to the time of the initial transfer.) A "qualified transferee corporation" may issue stock only in exchange solely for "qualified property." No debt instruments or similar obligations may be issued in exchange for such property, and no stock may be issued for property which is not "qualified property" transferred to the corporation by individuals. As a result, stock of a "qualified transferee corporation" never may be issued for property which is not "qualified property" held by an individual. Similarly, a corporation which has issued any stock for property which is not "qualified property" cannot be a "qualified transferee corporation," even if that stock was issued prior to the effective date of the bill or before a transfer of oil or gas property to the corporation which otherwise might qualify under the amendment. Moreover, the corporation's stock would not be considered to be issued to individuals solely in exchange for a transfer of their "qualified property" if the transfer and stock issuance are part of an indirect sale arrangement between the transferors.

The term "qualified property" means only oil or gas property with respect to which there has been no prior transfer to which the general percentage depletion transfer rules (sec. 613A(c)(9)(A)) applied,[3] and with respect to which the transferor has made an election to have the bill's rules apply. Thus, the term "qualified property" includes both proven and unproven oil or gas property, but *no* other property. Notwithstanding this strict limitation of the term "qualified property," it also includes cash, but not in excess of $1,000 in the aggregate, transferred to the corporation by one or more individuals.

To determine whether the requirements of new paragraph (10) of section 613A(c) are satisfied, the amendment uses a variation of the generally applicable rules relating to assumption of liabilities in connection with a transfer to a controlled corporation (Code sec. 357). (This modification of the ordinarily applicable section 357 tests are *in addition to* the requirement that a transfer meet the terms of section 351 of the Code. In other words, a transaction must meet both the more general requirements of section 351 and the more restrictive tests of the amendment.) For purposes of applying the modified section 351 tests, section 357(a) is applied (subject to the limitations of section 357

[1] The committee previously has reported provisions which would apply to more situations than those covered by this bill. *See* H.R. 1212 (S. Rept. No. 96-532, 96th Cong., 1st Sess. (1979)) and H.R. 2492 (S. Rept. No. 96-684, 96th Cong., 2d Sess. (1980)).

[2] The term oil or gas property has the same meaning, for purposes of the amendment, as under section 613A(c)(9) (relating to transfers of proven oil or gas properties). Therefore, the term means an oil or gas mineral interest within the meaning of section 614 of the Code.

Only proven oil or gas properties are subject to the transfer restrictions of Code section 613A(c)(9). A property is treated as a proven oil or gas property if the principal value of the property has been demonstrated, at the time of the transfer, by prospecting, exploration, or discovery work.

[3] See note 2, *supra*. Code section 613A(c)(9)(B) lists the cases in which the general transfer rules of section 613A(c)(9)(A) do not apply.

(b) relating to tax avoidance and (c) relating to liabilities in excess of basis) as if its references to section 351 included references to the requirement of the amendment that qualified property be transferred solely in exchange for stock in a qualified transferee corporation. In addition, section 357(a)(1) is to be applied as if its reference [21] to nonrecognition of gain includes a reference to the inapplicability of the general percentage depletion transfer rules (sec. 613A(c)(9)(A)). Consequently, the amendment could apply if an individual transfers qualified property to a qualified transferee corporation solely in exchange for stock of that corporation, and in such a manner that the general, proven property, percentage depletion transfer rules (sec. 613A(c)(9)(A) of the Code) otherwise are inapplicable. Moreover, if such a qualified transferee corporation assumes a liability of the transferor (or acquires qualified property subject to a liability), then such an assumption or acquisition by the corporation is not treated as money or other property for purposes of disqualifying a transfer under new paragraph (10). Therefore, such a transfer involving liabilities would not prevent an otherwise qualifying exchange from being within the terms of the amendment.

In applying these modifications of section 357 it is intended that section 357 should be construed in view of the legislative purposes of section 613A and section 357 (including subsections (b) and (c)). As a result, the amendment's requirements that stock be issued directly by the qualified transferee corporation to the transferor solely in exchange for qualified property would not be satisfied if the transfer constituted, e.g., an indirect sale. For instance, a transfer would not qualify under new paragraph (10) if it were utilized to increase the proportionate ownership of one transferor in relation to another transferor.[4]

[4] The same result would occur (as under present law) if only the section 357 requirements applied. *See* Treas. regs. sec. 1.351-1(b)(1); S. Rept. No. 1622, 83d Cong., 2d Sess. 264 (1954).

Similarly, new paragraph (10) would not apply if one transferor receives stock from the transferee corporation and another (other than the transferee corporation) assumes, or becomes responsible for the satisfaction of, a liability of the transferor or to which the transferred property is subject.

The bill's exception to the general percentage depletion transfer rules applies only so long as the transferor retains the stock of the qualified transferee corporation. If any transferor makes a lifetime disposition of his or her stock in a qualified transferee corporation, then the corporation's depletable quantity (as determined without regard to the bill's exception) must be reduced for all periods on or after the date of that disposition. This reduction is equal to an amount which bears the same ratio to the corporation's depletable quantity (as determined without regard to the bill's exception) as the fair market value of the stock disposed of bears to the aggregate fair market value of all outstanding stock of the corporation on the date of the disposition.

Special rules, however, apply to certain interfamily transfers. A transferor may make a lifetime disposition of stock in a qualified transferee corporation to a member of his or her family without having the disposition result in a reduction in the corporation's depletable quantity. However, the corporation's depletable quantity would have to be reduced if stock transferred to such a family member ceased to be held by a member of the transferor's family. For this purpose, members of the transferor's family include only his or her spouse and minor children (and only so long as they retain that status). The bill provides similar special rules applicable to the issuance of stock in a [22] qualified transferee corporation to members of the transferor's family. Under these rules, stock issued to a member of the transferor's family is treated as having been issued directly to the transferor.

Transfers of stock in a qualified transferee corporation by reason of the death of a transferor do not result in a reduction of the corporation's depletable quantity. Similarly, upon the death of a transferor, the recipient (other than the transferor's spouse) of the transferor's stock in a qualified transferee corporation need not retain such stock. A disposition of stock by such a recipient will have no effect on the continued applicability of the exception contained in the committee bill.

The bill provides generally that a "tentative quantity" (within the meaning of sec. 613A(c)) is to be determined for the qualified transferee corporation under the new rules pertaining to transfers of qualified property by individuals to such a corporation. Similarly, the bill provides that the tentative quantity for the transferor (and the transferor's family) for any period is to be reduced by the transferor's pro rata share of the corporation's depletable quantity for that period. For purposes of computing the transferor's pro rata share of the corporation's depletable quantity for a period, a transferor's pro rata share is determined with regard to production from proven oil or gas properties plus production from all other property. In the case of production from a proven oil or gas property, the transferor's pro rata share for any period is that portion of the corporation's depletable quantity which is allocable to production from such property. In the case of production from an unproven oil or gas property, the transferor's pro rata share for any period is that portion of the corporation's depletable quantity which is allocable to production from such property. This amount is multiplied by a fraction, the numerator of which is the fair market value of the transferor's stock in the corporation and the denominator of which is the fair market value of all stock in the corporation. For purposes of the committee's bill, and for computing the reduction in the transferor's tentative quantity, a corporation's depletable quantity for any period is the lesser of (1) the corporation's tentative quantity for any period (determined under sec.

613A(c)(3) and (8)), or (2) the corporation's average daily production for the period.

Except to the extent provided in the provisions of the bill, the generally applicable rules of section 613A continue to apply, as do rules provided in other Code sections which are consistent with the terms, purpose, and policy of this amendment. To ensure this result, the bill specifically grants the Secretary broad authority to prescribe such regulations as may be necessary to accomplish the purposes of the amendment and to prevent a proliferation of the amount of oil or gas subject to percentage depletion.

The provisions of the bill are elective, and apply for only so long as an election is in effect and the terms of the provision otherwise are satisfied. An election under the bill must be made only in such manner as the Secretary may prescribe by regulations. It must be made or or before the due date, including extensions, for filing the corporation's income tax for the corporation's first taxable year ending after the date of the transfer (or if later, after the date of enactment).

The provisions of the bill will apply with respect to post-1979 oil or gas production from proven oil or gas properties transferred after [23] 1974 by individuals. However, for an election to be made under the bill, its requirements must have been satisfied at the time of the transfer and at all times thereafter. Therefore, the amendment will not apply to production from a proven oil or gas property which has been transferred after 1974 if the transfer would not have been allowable under the terms of the bill had the bill been effective on the date of the transfer.

Effective date

The provision will apply to production of oil and gas after December 31, 1979, from property transferred after December 31, 1974.

Revenue effect

It is estimated that this provision will reduce fiscal year budget receipts by $15 million in 1981, by $17 million in 1982, by $19 million in 1983, by $23 million in 1984, and by $26 million in 1985.

[24] E. Tax Credits Allowable Against Alternative Minimum Tax (sec. 5 of the bill and sec. 55 of the Code)

Present law

Under present law, an alternative minimum tax is payable by noncorporate taxpayers to the extent that the tax on the alternative minimum taxable income exceeds their regular income tax, including the "add-on" minimum tax (Code sec. 55).

In general, the alternative minimum taxable income is based on the sum of the taxpayer's gross income, reduced by allowed deductions, and increased by tax preference items, i.e., adjusted itemized deductions and the section 1202 capital gain deduction. The alternative minimum tax rate is 10 percent for amounts from $20,000 to $60,000; 20 percent for amounts from $60,000 to $100,000; and 25 percent for amounts over $100,000.

Present law provides several credits which ordinarily may be used to offset income tax liability. Some of these credits are intended to take into consideration previously paid taxes, and others are intended to encourage particular activities. The regular investment credit, for example, is equal to 10 percent of the cost of investments in certain tangible business property. (Code secs. 38, 46-48).

Tax credits generally are nonrefundable, but excess credits may be carried over to other years. For example, the regular investment credit may be used to offset the first $25,000 of tax liability plus a percentage of tax liability in excess of $25,000. This percentage is 70 percent in 1980 and will increase to 80 percent in 1981 and 90 percent for 1982 and later years. Excess investment credits from a taxable year may be carried over to apply against tax liability for the three preceding and seven succeeding years on a first-in, first-out basis.

As a general rule, only refundable tax credits may be claimed against the amount of the alternative minimum tax. The only nonrefundable tax credit that may offset this tax is the foreign tax credit. Refundable credits are allowed to reduce the alternative minimum tax because such credits would be available to taxpayers in any event. In addition, generally refundable credits and the foreign tax credit represent taxes actually paid.

If the alternative minimum tax applies, present law provides that nonrefundable credits may continue to offset so much of a taxpayer's overall tax liability as does not exceed the applicable percentage of the taxpayer's regular taxes. Nonrefundable credits, therefore, are not allowable against any tax in excess of the regular income tax. However, credit carryovers are restored to the extent they did not result in a reduction of tax by reason of the alternative minimum tax.

Reasons for change

The committee is concerned with the present law rule which provides that nonrefundable tax credits may not be claimed against the [25] alternative minimum tax. Because of this rule, a taxpayer may not currently be able to take full advantage of otherwise allowable tax credits for the current year even though the taxpayer has few or no tax preferences. Therefore, the committee bill allows the nonrefundable tax credits against the portion of alternative minimum tax which is not attributable to net capital gains and adjusted itemized deductions, if the credits are attributable to the active conduct of a trade or business by the taxpayer.

Explanation of provision

Under this provision of the bill, nonrefundable tax credits (other than the foreign tax credit) will be permitted to offset the alternative minimum tax except to the extent that the alternative minimum tax is attributable to net capital gains and adjusted itemized deductions. However, in the case of

the investment tax credit, WIN credit, and new jobs credit, this offset will be available only to the extent the credit is attributable to the active conduct of a trade or business by the taxpayer.[1]

[26] *Effective date*

The provision will apply with respect to taxable years beginning after December 31, 1979.

Revenue effect

It is estimated that this provision will reduce fiscal year budget receipts by $99 million in 1981, $72 million in 1982, by $57 million in 1983, by $39 million in 1984, and by $22 million in 1985. The fiscal year 1981 loss includes $70 million from calendar year 1980 liability.

Public Law 96-605
96th Congress, H.R. 7956 [1]
December 28, 1980

An Act to make various changes in the tax laws.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1954 CODE.

(a) SHORT TITLE.—This Act may be cited as the "Miscellaneous Revenue Act of 1980".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

TITLE I—AMENDMENTS RELATING TO INCOME TAX GENERALLY

SEC. 101. TREATMENT OF COMMUNITY INCOME WHERE SPOUSES LIVE APART.

(a) GENERAL RULE.—Part I of subchapter B of chapter 1 (defining gross income, adjusted gross income, taxable income, etc.) is amended by adding at the end thereof the following new section:

"SEC. 66. TREATMENT OF COMMUNITY INCOME WHERE SPOUSES LIVE APART.

"(a) GENERAL RULE.—If—

"(1) 2 individuals are married to each other at any time during a calendar year;

"(2) such individuals—

"(A) live apart at all times during the calendar year, and

"(B) do not file a joint return under section 6013 with each other for a taxable year beginning or ending in the calendar year;

"(3) one or both of such individuals have earned income for the calendar year which is community income; and

"(4) no portion of such earned income is transferred (directly or indirectly) between such individuals before the close of the calendar year,

then, for purposes of this title, any community income of such individuals for the calendar year shall be treated in accordance with the rules provided by section 879(a).

"(b) DEFINITIONS.—For purposes of this section—

"(1) EARNED INCOME.—The term 'earned income' has the meaning given to such term by section 911(b).

"(2) COMMUNITY INCOME.—The term 'community income' means income which, under applicable community property laws, is treated as community income.

"(3) COMMUNITY PROPERTY LAWS.—The term 'community property laws' means the community property laws of

---

[1] This provision may be illustrated by the following example. Assume that in 1981, an individual has a $60,000 income tax liability determined under section 1, and has an investment tax credit of $45,000 and a WIN credit of $5,000 (all attributable to his conduct of an active trade or business), thus resulting in a regular tax (as defined in Code section 55(b)(2)) of $10,000 ($60,000 tax less $50,000 credits). Further assume that the individual's alternative minimum tax is $12,000 ($22,000 amount computed under section 55(a)(1) less $10,000 regular tax) and that such minimum tax would be $2,000 ($12,000 less $10,000) if the alternative minimum taxable income were reduced by net capital gains and adjusted itemized deductions.

Under the bill, $2,000 of the alternative minimum tax may be reduced by the tax credits. For purposes of determining the amount of any credits which can be taken against the alternative minimum tax, the amount of the WIN credit is increased by $5,000 (the lesser of the $5,000 credit allowable against the section 1 tax or the $12,000 tax imposed by section 55(a)), and the amount of the investment tax credit is increased by $7,000 (the lesser of $45,000 credit allowable against the section 1 tax or the $12,000 section 55 tax reduced by the $5,000 WIN credit increase). These credits may be used to reduce the section 55 tax for 1981, but may not be used to reduce the 1981 section 1 tax (sec. 55(c)(1)(B)). Therefore, for 1981, the taxpayer's total tax liability will be $20,000 computed as follows: $60,000 (under section 1) plus $12,000 (under section 55) minus (i) investment credits of $47,000 ($45,000 plus $2,000) and (ii) WIN credits of $5,000.

The amount of the unused credits available for carrybacks and carryovers is to be $5,000 for the investment tax credit and $5,000 for the WIN credit, determined as follows:

For purposes of applying section 46(b), the tax liability determination (under section 46(a)(3)) is $47,000—the $45,000 investment tax credit allowable in computing the regular tax (since this amount is less than the actual amount determined under section 46(a)(3), plus the $2,000 amount determined under section 55(c)(1)(A)). For this purpose, the tax credits are $52,000 ($45,000 actual credits plus $7,000 increase under section 55(c)(2)(A)). Thus, the amount of excess credits is $5,000 ($52,000 less $47,000).

For purposes of applying section 50A(b), the tax liability determination (under section 50A(a)(2) is $5,000—the $5,000 WIN credit allowable in computing the regular tax (since this amount is less than the actual amount determined under section 50A(a)(2)), plus zero (the $2,000 amount determined under section 55(c)(1)(A) less the $2,000 investment tax credit allowable against the section 55 tax). For this purpose, the tax credits are $10,000 ($5,000 actual credit plus $5,000 increase under section 55(c)(2)(A)). Thus, the amount of the excess credits is $5,000 ($10,000 less $5,000).

The use of the carryovers of the excess credits is not limited to use against the section 55 tax.

[1] House Report No. 96-1278, page 709, and Senate Report No. 96-1036, page 723.

a State, a foreign country, or a possession of the United States."

(b) CLERICAL AMENDMENT.—The table of sections for part I of subchapter B of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 66. Treatment of community income where spouses live apart."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to calendar years beginning after December 31, 1980.

SEC. 102. AMORTIZATION OF START-UP EXPENDITURES.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by adding at the end thereof the following new section:

"SEC. 195. START-UP EXPENDITURES.

"(a) ELECTION TO AMORTIZE.—Start-up expenditures may, at the election of the taxpayer, be treated as deferred expenses. Such deferred expenses shall be allowed as a deduction ratably over such period of not less than 60 months as may be selected by the taxpayer (beginning with the month in which the business begins).

"(b) START-UP EXPENDITURES.—For purposes of this section, the term 'start-up expenditure' means any amount—

"(1) paid or incurred in connection with—

"(A) investigating the creation or acquisition of an active trade or business, or

"(B) creating an active trade or business, and

"(2) which, if paid or incurred in connection wtih the expansion of an existing trade or business (in the same field as the trade or business referred to in paragraph (1)), would be allowable as a deduction for the taxable year in which paid or incurred.

"(c) ELECTION.—

"(1) TIME FOR MAKING ELECTION.—An election under subsection (a) shall be made not later than the time prescribed by law for filing the return for the taxable year in which the business begins (including extensions thereof).

"(2) SCOPE OF ELECTION.—The period selected under subsection (a) shall be adhered to in computing taxable income for the taxable year for which the election is made and all subsequent taxable years.

"(3) MANNER OF MAKING ELECTION.—An election under subsection (a) shall be made in such manner as the Secretary shall by regulations prescribe.

"(d) BUSINESS BEGINNING.—For purposes of this section, an acquired trade or business shall be treated as beginning when the taxpayer acquires it."

(b) CLERICAL AMENDMENT.—The table of sections for part VI of subchapter B of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 195. Startup expenditures."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred after July 29, 1980, in taxable years ending after such date.

SEC. 104. REVISION OF SOURCE RULES FOR INCOME FROM CERTAIN LEASED AIRCRAFT, VESSELS, AND SPACECRAFT.

(a) IN GENERAL.—Subsection (e) of section 861 (relating to election to treat income from certain aircraft and vessels as income from sources within the United States) is amended to read as follows:

"(e) INCOME FROM CERTAIN LEASED AIRCRAFT, VESSELS, AND SPACECRAFT TREATED AS INCOME FROM SOURCES WITHIN THE UNITED STATES.—

"(1) IN GENERAL.—For purposes of subsection (a) and section 862(a), if—

"(A) a taxpayer owning a craft which is section 38 property (or would be section 38 property but for section 48(a)(5)) leases such craft to a United States person, other than a member of the same controlled group of corporations (as defined in section 1563) as the taxpayer, and

"(B) such craft is manufactured or constructed in the United States,

then all amounts includible in gross income by the taxpayer with respect to such craft for any taxable year ending after the commencement of such lease (whether during or after the period of such lease), including gain from sale, exchange, or other disposition of such craft, shall be treated as income from sources within the United States.

"(2) CERTAIN TRANSFERS INVOLVING CARRYOVER BASIS.—If the taxpayer transfers or distributes a craft to which paragraph (1) applied and the basis of such craft in the hands of the transferee or distributee is determined by reference to its basis in the hands of the transferor or distributor, paragraph (1) shall continue to apply to such craft in the hands of the transferee or distributee.

"(3) CRAFT DEFINED.—For purposes of this subsection, the term 'craft' means a vessel, aircraft, or spacecraft.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to property first leased after the date of the enactment of this Act.

SEC. 105. TREATMENT OF HOMEOWNERS ASSOCIATIONS.

(a) GENERAL RULE.—Subsection (b) of section 528 (relating to tax imposed with respect to certain homeowners associations) is amended to read as follows:

"(b) TAX IMPOSED.—A tax is hereby imposed for each taxable year on the homeowners association taxable income of every homeowners association. Such tax shall be equal to 30 percent of the homeowners association taxable income.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1980.

SEC. 106. TREATMENT OF CERTAIN INCOME OF MUTUAL OR COOPERATIVE ELECTRIC AND TELEPHONE COMPANIES.

(a) TREATMENT OF CERTAIN IN-

COME FOR PURPOSES OF TAX EXEMPT STATUS.—Paragraph (12) of section 501(c) (relating to list of exempt organizations) is amended—

(1) by striking out "(12)" and inserting in lieu thereof "(12)(A)",

(2) by striking out the second sentence, and

(3) by adding at the end thereof the following new subparagraphs:

"(B) In the case of a mutual or cooperative telephone company, subparagraph (A) shall be applied without taking into account any income received or accrued—

"(i) from a nonmember telephone company for the performance of communication services which involve members of the mutual or cooperative telephone company,

"(ii) from qualified pole rentals, or

"(iii) from the sale of display listings in a directory furnished to the members of the mutual or cooperative telephone company.

"(C) In the case of a mutual or cooperative electric company, subparagraph (A) shall be applied without taking into account any income received or accrued from qualified pole rentals.

"(D) For purposes of this paragraph, the term 'qualified pole rental' means any rental of a pole (or other structure used to support wires) if such pole (or other structure)—

"(i) is used by the telephone or electric company to support one or more wires which are used by such company in providing telephone or electric services to its members, and

"(ii) is used pursuant to the rental to support one or more wires (in addition to the wires described in clause (i)) for use in connection with the transmission by wire of electricity or of telephone or other communications.

For purposes of the preceding sentence, the term 'rental' includes any sale of the right to use the pole (or other structure)."

(b) ENGAGING IN POLE RENTALS TREATED AS NOT ENGAGING IN UNRELATED TRADE OR BUSINESS.—Section 513 (defining unrelated trade or business) is amended by adding at the end thereof the following new subsection:

"(g) CERTAIN POLE RENTALS.—In the case of a mutual or cooperative telephone or electric company, the term 'unrelated trade or business' does not include engaging in qualified pole rentals (as defined in section 501(c)(12)(D))."

(c) EFFECTIVE DATES.—

(1) SUBSECTION (a).—The amendments made by subsection (a) shall apply to all taxable years to which the Internal Revenue Code of 1954 applies.

(b) SUBSECTION (b).—The amendment made by subsection (b) shall apply to taxable years beginning after December 31, 1969.

SEC. 107. EXEMPTION FOR CERTAIN SUBSISTENCE ALLOWANCES RECEIVED BY CERTAIN POLICE OFFICERS BEFORE JANUARY 1, 1978.

(a) GENERAL RULE.—Subsection (b) of section 3 of the Act of October 7, 1978 [Pub. L. 95-427, 1978-2 C.B. 363, 364], entitled "An Act to prohibit the issuance of regulations on the taxation of fringe benefits, and for other purposes" is amended—

(1) by striking out "January 1, 1977" and inserting in lieu thereof "January 1, 1974", and

(2) by striking out "calendar year 1977" and inserting in lieu thereof "calendar year 1974, 1975, 1976, or 1977".

(b) STATUTE OF LIMITATIONS.—In the case of any allowance received during calendar year 1974, 1975, 1976, or 1977, subsections (a)(2) and (e) of such section 3 shall be applied by substituting the date one year after the date of the enactment of this Act for "April 15, 1979" each place it appears.

SEC. 108. TREATMENT OF CERTAIN EXPENSES INCLUDIBLE IN THE INCOME OF THE RECIPIENT.

(a) IN GENERAL.—Subsection (e) of section 274 (relating to specific exceptions to application of disallowance of certain entertainment, etc., expenses) is amended by inserting after paragraph (9) the following new paragraph:

"(10) EXPENSES INCLUDIBLE IN INCOME OF PERSONS WHO ARE NOT EMPLOYEES.—Expenses paid or incurred by the taypayer for goods, services, and facilities to the extent that the expenses are includible in the gross income of a recipient of the entertainment, amusement, or recreation who is not an employee of the taxpayer as compensation for services rendered or as a prize or award under section 74. The preceding sentence shall not apply to any amount paid or incurred by the taxpayer if such amount is required to be included (or would be so required except that the amount is less than $600) in any information return filed by such taxpayer under part III of subchapter A of chapter 61 and is not so included."

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to any expenses paid or incurred after December 31, 1980, in taxable years ending after such date.

SEC. 109. INVESTMENT CREDIT FOR CERTAIN PROPERTY USED IN MARITIME SATELLITE COMMUNICATIONS.

(a) GENERAL RULE.—Paragraph (5) of section 48(a) (relating to property used by governmental units) is amended to read as follows:

"(5) PROPERTY USED BY GOVERNMENTAL UNITS.—Property used by the United States, any State or political subdivision thereof, any international organization, or any agency or instrumentality of any of the foregoing shall not be treated as section 38 property. For purposes of the preceding sentence, the International Telecommunications Satellite Consortium, the International Maritime Satellite Organization, and any successor organization of such Consortium or Organization shall not be treated as an international organization."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years begining after December 31, 1979.

SEC. 110. ACQUISITION INDEBTEDNESS.

(a) IN GENERAL.—Section 514(c) of the Internal Revenue Code of 1954 (defining acquisition indebtedness) is amended by adding at the end thereof the following new paragraph:

"(9) REAL PROPERTY ACQUIRED BY QUALIFIED TRUST.—For purposes of this section—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the term 'acquisition indebtedness' does not include indebtedness incurred by a qualified trust in acquiring or improving any real property.

"(B) EXCEPTIONS.—The provisions of subparagraph (A) shall not apply in any case in which—

"(i) the acquisition price is not a fixed amount determined as of the date of acquisition;

"(ii) the amount of any indebtedness or any other amount payable with respect to such indebtedness, or the time for making any payment of any amount, is dependent, in whole or in part, upon any revenue, income, or profits derived from such real property;

"(iii) the real property is at any time after the acquisition leased by the qualified trust to the person selling such property to such trust or to any person who bears a relationship described in section 267(b) to such person;

"(iv) the real property is acquired from, or is at any time after the acquisition leased by the qualified trust to, any person who—

"(I) bears a relationship which is described in section 4975(e)(2)(C), (E), or (G) to any plan with respect to which such trust was formed, or

"(II) bears a relationship which is described in section 4975(e)(2)(F) or (H) to any person described in subclause (I); or

"(v) any person described in clause (iii) or (iv) provides the qualified trust with nonrecourse financing in connection with such transaction and such debt—

"(I) is subordinate to any other indebtedness on such property, or

"(II) bears interest at a rate which is significantly less than the rate available from any person not described in clause (iii) or (iv) at the time such indebtedness is incurred.

"(C) QUALIFIED TRUST.—For purposes of this paragraph, the term 'qualified trust' means any trust which constitutes a qualified trust under section 401."

(b) NO PRECEDENT.—The amendment made by subsection (a) shall not be considered a precedent with respect to extending such amendment (or similar rules) to any other person.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1980.

TITLE II—AMENDMENTS RELATING TO PENSION PLANS

SUBTITLE A—PREVENTION OF ABUSE OF CERTAIN PENSION PLAN PROVISIONS

SEC. 201. PREVENTION OF ABUSE OF CERTAIN PENSION PLAN PROVISIONS THROUGH THE USE OF SEPARATE CORPORATIONS OR OTHER ORGANIZATIONS.

(a) IN GENERAL.—Section 414 (relating to definitions and special rules relating to pension plan, etc.) is amended by adding at the end thereof the following new subsection:

"(m) EMPLOYEES OF AN AFFILIATED SERVICE GROUP.—

"(1) IN GENERAL.—For purposes of the employee benefit requirements listed in pargaraph (4), except to the extent otherwise provided in regulations, all employees of the members of an affiliated service group shall be treated as employed by a single employer.

"(2) AFFILIATED SERVICE GROUP.—For purposes of this subsection, the term 'affiliated service group' means a group consisting of a service organization (hereinafter in this paragraph referred to as the 'first organization') and one or more of the following:

"(A) any service organization which—

"(i) is a shareholder or partner in the first organization, and

"(ii) regularly performs services for the first organization or is regularly associated with the first organization in performing services for third persons, and

"(B) any other organization if—

"(i) a significant portion of the business of such organization is the performance of services (for the first organization, for organizations described in subparagraph (A), or for both) of a type historically performed in such service field by employees, and

"(ii) 10 percent or more of the interests in such organization is held by persons who are officers, highly compensated employees, or owners of the first organization or an organization described in subparagraph (A).

"(3) SERVICE ORGANIZATIONS.—For purposes of this subsection, the term 'service organization' means an organization the principal business of which is the performance of services.

"(4) EMPLOYEE BENEFIT REQUIREMENTS.—For purposes of this subsection, the employee benefit requirements listed in this paragraph are—

"(A) paragraphs (3), (4), (7), and (16) of section 401(a),

"(B) sections 408(k), 410, 411, and 415,

"(C) section 105(h), and

"(D) section 125.

"(5) OTHER DEFINITIONS. — For purposes of this subsection—

"(A) ORGANIZATION DEFINED.—The term 'organization' means a corporation, partnership, or other organization.

"(B) OWNERSHIP.—In determining ownership, the principles of section 267(c) shall apply.

"(6) PREVENTION OF AVOIDANCE.—The Secretary shall prescribe such regulations as may be necessary to prevent the avoidance with respect to service organizations, through the use of separate organizations, of any employee benefit requirement listed in paragraph (4)."

(b) TECHNICAL AMENDMENTS.—

(1) Paragraph (8) of section 105 (h) (relating to amount paid to highly compensated individuals under a discriminatory self-insured medical expense reimbursement plan) is amended—

(A) by striking out "subsection (b) or (c) of section 414" and inserting in lieu thereof "subsection (b), (c), or (m) of section 414", and

(B) by striking out "CONTROLLED GROUPS" in the paragraph heading and inserting in lieu thereof "CONTROLLED GROUPS, ETC.".

(2) Paragraph (4) of section 125 (g) (relating to special rules for cafeteria plans) is amended—

(A) by striking out "subsection (b) or (c) of section 414" and inserting in lieu thereof "subsection (b), (c), or (m) of section 414", and

(B) by striking out "CONTROLLED GROUPS" in the paragraph heading and inserting in lieu thereof "CONTROLLED GROUPS, ETC.".

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to plan years ending after November 30, 1980.

(2) PLANS IN EXISTENCE ON NOVEMBER 30, 1980.—In the case of a plan in existence on November 30, 1980, the amendments made by this section shall apply to plan years beginning after November 30, 1980.

SUBTITLE B—AMENDMENTS RELATING TO EMPLOYEE STOCK OWNERSHIP PLANS

SEC. 221. CASH DISTRIBUTION OPTION AND PUT OPTION FOR STOCK BONUS PLANS.

(a) IN GENERAL.—Subsection (a) of section 401 (relating to requirements for qualification) is amended by inserting immediately before the last sentence thereof the following new paragraph:

"(23) A stock bonus plan which otherwise meets the requirements of this section shall not be considered to fail to meet the requirements of this section because it provides a cash distribution option to participants if that option meets the requirements of section 409A(h)(2)."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to plan years beginning after December 31, 1980.

SEC. 222. LIMITATION ON ANNUAL ADDITIONS TO PARTICIPANT ACCOUNTS UNDER EMPLOYEE STOCK OWNERSHIP PLANS.

(a) IN GENERAL.—Subparagraph (A) of section 415(c)(6) (relating to special limitation for employee stock ownership plan) is amended by inserting ", or purchased with cash contributed," after "contributed".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to years beginning after December 31, 1980.

SEC. 223. VALUATION OF EMPLOYER SECURITIES IN TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLANS.

(a) IN GENERAL.—Clause (i) of section 48(n)(6)(B) (defining value for employer securities) is amended by striking out "the due date for filing the return for the taxable year determined with regard to extensions)" and inserting in lieu thereof "the date on which the securities are contributed to the plan".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to taxable years beginning after December 31, 1980.

SEC. 224. PARTICIPATION OF SUBSIDIARY CORPORATION IN TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLAN.

(a) IN GENERAL.—Paragraph (4) of section 409A(1) (defining controlled group of corporations) is amended—

(1) by striking out the caption and inserting in lieu thereof "(4) APPLICATION TO CONTROLLED GROUP OF CORPORATIONS.—",

(2) by striking out "COMMON PARENT MAY OWN ONLY" in the caption of subparagraph (B) and inserting in lieu thereof "WHERE COMMON PARENT OWNS AT LEAST", and

(3) by adding at the end thereof the following new subparagraph:

"(C) WHERE COMMON PARENT OWNS 100 PERCENT OF FIRST-TIER SUBSIDIARY.—For purposes of subparagraph (A), if the common parent owns directly stock possessing all of the voting power of all classes of stock and all of the nonvoting stock, in a first-tier subsidiary, and if the first-tier subsidiary owns directly stock possessing at least 50 percent of the voting power of all classes of stock, and at least 50 percent of each class of nonvoting stock, in a second-tier subsidiary of the common parent, such second-tier subsidiary (and all other corporations below it in the chain which would meet the 80 percent test of section 1563(a) if the second-tier subsidiary were the common parent) shall be treated as includible corporations.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to qualified investment for taxable years beginning after December 31, 1978.

SEC. 225. PARTICIPATION RULES FOR TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLAN WHICH IS ONLY EMPLOYER-PROVIDED ALTERNATIVE TO INDIVIDUAL RETIREMENT SAVINGS.

(a) IN GENERAL.—Subsection (b) of section 410 (relating to eligibility) is amended—

(1) by redesignating paragraph (2) as (3),

(2) by striking out "paragraph (1)" in paragraph (3) (as so redesignated) and inserting in lieu thereof "paragraphs (1) and (2)", and

(3) by inserting after paragraph (1) the following new paragraph:

"(2) SPECIAL RULE FOR CERTAIN PLANS.—A trust which is part of a tax credit employees stock ownership plan which is the only plan of an employer intended to qualify under section 401(a) shall not be treated as not a qualified trust under section 401(a) solely because it fails to meet the requirements of paragraph (1) if—

"(A) it benefits 50 percent or more of all the employees who are eligible under the plan (excluding employees

who have not satisfied the minimum age and service requirements, if any, prescribed by the plan as a condition of participation), and

"(B) the sum of the amounts allocated to each participant's account for the year does not exceed 2 percent of the compensation of that participant for the year."

(b) CONFORMING AMENDMENTS.—

(1) The last sentence of section 401(a)(4) is amended by striking out "section 410(b)(2)(A)" and inserting in lieu thereof "section 410(b)(3)(A)".

(2) Subparagraph (B) of section 401(d)(3) is amended—

(A) by striking out "section 410(b)(2)(A)" and inserting in lieu thereof "section 410(b)(3)(A)", and

(B) by striking out "section 410(b)2)(C)" and inserting in lieu thereof "section 410(b)(3)(C)".

(3) The last sentence of section 408(k)(2) is amended by striking out "section 410(b)(2)" and inserting in lieu thereof "section 410(b)(3)".

(4) Clause (i) of section 408(k)(3)(B) is amended by striking out "section 410(b)(2)" and inserting in lieu thereof "section 410(b)(3)".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to plan years beginning after December 31, 1980.

SEC. 226. APPLICATION OF CASH OR DEFERRED ARRANGEMENT RULES TO CAFETERIA PLANS.

(a) IN GENERAL.—Paragraph (2) of section 125(d) (relating to deferred compensation plans excluded) is amended by adding at the end thereof the following: "The preceding sentence shall not apply in the case of a profit-sharing or stock bonus plan which includes a qualified cash or deferred arrangement (as defined in section 401(k)(2)) to the extent of amounts which a covered employee may elect to have the employer pay as contributions to a trust under such plan on behalf of the employee."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to taxable years beginning after December 31, 1980.

SEC. 227. ELIMINATION OF WITHHOLDING TAX ON PENSIONS PAID TO CERTAIN NONRESIDENT ALIENS.

(a) IN GENERAL.—Section 871(f) (relating to taxation of nonresident alien individuals) is amended to read as follows:

"(1) IN GENERAL.—For purposes of this section, gross income does not include any amount received as an annuity under a qualified annuity plan described in section 403(a)(1), or from a qualified trust described in section 401(a) which is exempt from tax under section 501(a), if—

"(A) all of the personal services by reason of which the annuity is payable were either—

"(i) personal services performed outside the United States by an individual who, at the time of performance of such personal services, was a nonresident alien, or

"(ii) personal services described in section 864(b)(1) performed within the United States by such individual, and

"(B) at the time the first amount is paid as an annuity under the annuity plan or by the trust, 90 percent or more of the employees for whom contributions or benefits are provided under such annuity plan, or under the plan or plans of which the trust is a part, are citizens or residents of the United States.

"(2) EXCLUSION.—Income received during the taxable year which would be excluded from gross income under this subsection but for the requirement of paragraph (1)(B) shall not be included in gross income if—

"(A) the recipient's country of residence grants a substantially equivalent exclusion to residents and citizens of the United States; or

"(B) the recipient's country of residence is a beneficiary developing country within the meaning of section 502 of the Trade Act of 1974 (19 U.S.C. 2462).".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to amounts received after July 1, 1979.

TITLE III—AMENDMENTS RELATING TO ESTATE TAX

SEC. 301. ADDITIONAL 3 YEARS ALLOWED TO AMEND GOVERNING INSTRUMENTS TO MEET REQUIREMENTS FOR GIFT OF SPLIT INTEREST TO CHARITY.—

(a) CHARITABLE LEAD TRUSTS AND CHARITABLE REMAINDER TRUSTS IN THE CASE OF ESTATE TAXES.—The first sentence of paragraph (3) of section 2055(e) (relating to disallowance of deductions in certain cases) is amended—

(1) by striking out "December 31, 1977" and inserting in lieu thereof "December 31, 1978"; and

(2) by striking out "December 31, 1978" each place it appears and inserting in lieu thereof "December 31, 1981".

(b) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply in the case of decedents dying after December 31, 1969.

(2) CHARITABLE LEAD TRUSTS AND CHARITABLE REMAINDER TRUSTS IN THE CASE OF INCOME AND GIFT TAXES.—Section 514(b) (and section 514(c) insofar as it relates to section 514(b)) of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 118] shall be applied as if the amendment made by subsection (a) had been included in the amendment made by section 514(a) of such Act.

TITLE IV—MISCELLANEOUS AMENDMENTS

SEC. 401. TREATMENT OF CERTAIN SOCIAL SECURITY TAX WAIVER EXEMPTIONS.

(a) WAIVER CERTIFICATE.—

(1) IN GENERAL.—Notwithstanding any other provision of law, any waiver certificate filed by a qualified corporation (hereafter in this section referred to as the "corporation") under section 3121(k)(1) of the Internal Revenue Code of 1954 (relating to waiver of

exemption from social security taxes by certain organizations) shall be deemed not to be effective, for purposes of the taxes imposed by section 3101 of such Code, with respect to any wages—

(A) paid by the Corporation to any employee thereof after December 31, 1972, and before April 1, 1975, if the Corporation furnishes to the Secretary of the Treasury or his delegate evidence reasonably satisfactory to him that the Corporation as refunded, prior to February 1, 1977, to such employee (or his survivors or estate) the full amount of the taxes imposed by section 3101 of such Code on such wages, or

(B) paid after March 31, 1975, and prior to July 1, 1977, by the Corporation to an individual as an employee of the Corporation, if the Corporation furnishes to the Secretary of the Treasury or his delegate evidence reasonably satisfactory to him that (i) such individual was not an employee of the Corporation on June 30, 1978, and (ii) no amount of the taxes imposed by section 3101 of such Code on such wages were withheld by the Corporation from such wages.

(2) APPLICATION OF PARAGRAPH (1).—

(A) EVIDENCE TO BE SUBMITTED TO SECRETARY.—The provisions of paragraph (1) shall not apply to wages described in subparagraph (A) or (B) of such paragraph unless, prior to the close of the one-year period which begins on the date of the enactment of this Act, the Corporation furnishes to the Secretary of the Treasury or his delegate the evidence referred to in either such subparagraph.

(B) TAX NOT IMPOSED.—If the provisions of paragraph (1) apply with respect to any wages paid by the Corporation to an employee thereof, no taxes imposed on such wages by section 3101 of the Internal Revenue Code of 1954 shall be payable, and no interest or penalty with respect to the imposition of taxes by such section on such wages (or with respect to the imposition of taxes by such section or section 3111 of such Code on any wages paid by the Corporation prior to January 1, 1978) shall be imposed or collected.

(C) CREDIT AGAINST TAX.—Under regulations prescribed by the Secretary, there shall be allowed as a one-time credit against the tax imposed on the Corporation under section 3101 or 3111 of the Internal Revenue Code of 1954 (and any interest or penalties imposed thereon) an amount equal to the sum of—

(i) all amounts of tax imposed by section 3101 of such Code which have been paid by the Corporation with respect to wages to which paragraph (1) applies, and

(ii) all amounts paid by such Corporation as a penalty or as interest with respect to the tax imposed by section 3101 or 3111 of such Code on such wages.

(b) TREATMENT FOR PURPOSES OF SOCIAL SECURITY ACT.—In the administration of titles II and XVIII of the Social Security Act, any wages paid to any individual to which the provisions of subsection (a) apply shall be treated as wages (within the meaning of section 209 of such Act) for purposes of determining—

(1) entitlement to, or amount of, any insurance benefit payable to such individual or any other person on the basis of the wages and self-employment income of such individual, or

(2) entitlement of such individual to benefits under title XVIII of such Act or entitlement of any other person to such benefits on the basis of the wages and self-employment income of such individual.

(c) QUALIFIED CORPORATION DEFINED.—For purposes of this section, the term "qualified corporation" means any corporation which—

(1) filed a waiver certificate under section 3121 of the Internal Revenue Code of 1954 during 1968;

(2) filed a second waiver certificate under such section during 1975 believing that no other waiver certificate had been filed;

(3) received a refund of the taxes imposed by sections 3101 and 3111 of such Code with respect to certain wages paid to more than 120 but less than 180 employees who did not concur in the filing of the second waiver certificate; and

(4) was notified during 1977 by the Internal Revenue Service that the certificate had been filed during 1968.

(d) LIABILITY FOR TAXES.—Except as provided in subsection (a)(2)(C)(ii), nothing in this section shall be construed to relieve the Corporation of any liability for the payment of the taxes imposed by section 3111 of the Internal Revenue Code of 1954 with respect to any wages paid by it to any individual for any period.

SEC. 402. TREATMENT OF AUTHORS AND ARTISTS AS EMPLOYEES.

(a) IN GENERAL.—An author or artist performing services under contract with a corporation shall be considered as an employee of the corporation for the purpose of applying the provisions specified in section 7701(a)(20) of the Internal Revenue Code of 1954, if, on December 31, 1977, such author or artist was a participant in one or more of the pension, profit-sharing or annuity plans of such corporation which are described in subsection (b)(2).

(b) DEFINITIONS.—For purposes of this section—

(1) CONTRACT.—The term "contract" means a contract which during its term—

(A) requires such author or artist to give the corporation first reading or first refusal on writings or drawings of specified types, and prohibits him from offering any such writing or drawing to any other publication unless it has been offered to and rejected by the corporation; or

(B) requires such author or artist to use his best efforts to produce work of specified types for the corporation.

(2) CORPORATION.—The term "corporation" means a corporation which for at least 15 years prior to January 1, 1978, had in effect one or more pension, profit-sharing and annuity plans, each of which—

(A) had contained from its inception a definition of the term "employee" that included the category of "authors and artists under contract", and

(B) had been determined by the Secretary of the Treasury (taking into account the definition described in subparagraph (A)) to be a qualified plan within part I of subchapter D of chapter 1 of subtitle A of the Internal Revenue Code of 1954 for all of such years.

(c) EFFECTIVE DATE.—The provisions of this section shall apply to taxable years ending after December 31, 1980.

Approved December 28, 1980.

House Report No. 96-1278 2d Session

[Bracketed numerals indicate official report page numbers]

MISCELLANEOUS REVENUE ACT OF 1980

SEPTEMBER 4, 1980.

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report together with additional views to accompany H.R. 7956.[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 7956) to make various changes in the tax laws, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendments (stated in terms of page and line numbers of the introduced bill) are as follows:

Page 2, line 22, strike out "such individuals" and insert in lieu thereof "one or both of such individuals".

Page 8, line 6, strike out "natural".

Page 8, strike out lines 7 through 13 and insert the following:

"(iii) the preservation of open space (including farmland and forest land) where such preservation is—

"(I) for the scenic enjoyment of the general public, or

"(II) pursuant to a clearly delineated Federal, State, or local governmental conservation policy,

and will yield a significant public benefit, or

Page 15, strike out lines 18 through 20 and insert the following:

(c) EFFECTIVE DATES.—

(1) Subsection (a).—The amendments made by subsection (a) shall apply to all taxable years to which the Internal Revenue Code of 1954 applies.

[2] (b) Subsection (b).—The amendment made by subsection (b) shall apply to taxable years beginning after December 31, 1969.

Page 16, line 4, strike out "January 1, 1975" and insert in lieu thereof "January 1, 1974".

Page 16, line 6, strike out "calendar year 1975" and insert in lieu thereof "calendar year 1974, 1975".

Page 16, line 9, strike out "calendar year 1975" and insert in lieu thereof "calendar year 1974, 1975".

Page 27, after line 4, insert the following:

(b) CONFORMING AMENDMENTS.—

(1) The last sentence of section 401(a)(4) is amended by striking out "section 410(b)(2)(A)" and inserting in lieu thereof "section 410(b)(3)(A)".

(2) Subparagraph (B) of section 401(d)(3) is amended—

(A) by striking out "section 410(b)(2)(C)" and inserting in lieu thereof "section 410(b)(3)(A)", and

(B) by striking out "section 410(b)(2)(C)" and inserting in lieu thereof "section 410(b)(3)(C)".

(3) The last sentence of section 408(k)(2) is amended by striking out "section 410(b)(2)" and inserting in lieu thereof "section 410(b)(3)".

(4) Clause (i) of section 408(k)(3)(B) is amended by striking out "section 410(b)(2)" and inserting in lieu thereof "section 410(b)(3)".

Page 27, strike out lines 5 and 6, and insert the following:

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to plan years beginning

[3] I. SUMMARY

SECTION 101. TREATMENT OF CERTAIN COMMUNITY INCOME FOR SPOUSES LIVING APART

Under present law, income considered community property under State law is taxed in equal shares to a husband and wife. Generally, under this provision, community property laws are to be disregarded for income tax purposes when the spouses have lived apart for the entire year and no portion of the income earned by one spouse has been transferred to the other spouse. The provision is intended to provide relief for abandoned spouses who are presently taxed on a portion of the income earned by the other spouse.

SEC. 102. AMORTIZATION OF BUSINESS STARTUP COSTS

Under present law, costs incurred prior to the commencement of a business normally are nondeductible because they are not incurred in carrying on a trade or business. These startup or preopening costs must be capitalized and often cannot be depreciated or amortized because no ascertainable useful life can be established for these costs. However, the capitalized costs may be recovered for purposes of measuring gain or loss upon the disposition or cessation of the business.

Under this provision, qualifying business startup or investigatory expenses may, at the election of the taxpayer, be amortized over a period of not less than 60 months.

* * * * *

[4] SEC. 105. REVISION OF SOURCE RULES FOR INCOME FROM CERTAIN LEASED AIRCRAFT, VESSELS, AND SPACECRAFT

This provision would revise the rules for determining the source of income from the lease of certain vessels, aircraft, and spacecraft. The income or loss would generally be treated as from U.S. sources if the craft qualifies (or

[1] Public Law 96-605, page 702. This publication of the committee report is limited to pertinent excerpts.

would qualify except for governmental use) for the investment tax credit, is leased to a U.S. person, and is U.S. manufactured. This rule would treat income as from U.S. sources in later periods even if the craft is then leased to a foreign person.

SEC. 106. TAX RATES APPLICABLE TO NONEXEMPT INCOME OF HOMEOWNERS ASSOCIATIONS

Under present law, a qualified homeowners association is not taxed on its exempt function income. Other income, less certain deductions, is taxed at the highest corporate rate of 46 percent except for long-term capital gains, which are taxed at a rate of 28 percent. Under this provision of the bill, all income of a homeowners association (other than exempt function income) will be taxed at a rate of 30 percent.

SEC. 107. TAX TREATMENT OF CERTAIN INCOME OF MUTUAL OR COOPERATIVE TELEPHONE AND ELECTRIC COMPANIES

This section of the bill provides that, in determining whether a mutual or cooperative telephone or electric company meets the 85 percent member-income requirement for tax exemption (under Code sec. 501(c)(12)), any income from rental of poles (used in the cooperative's exempt activities) or from display listings in a directory is to be disregarded. The section also provides that income from the rental of such poles by mutual or cooperative telephone and electric companies is not subject to the tax on unrelated business taxable income.

SEC. 108. REFUND OF TAXES ON CERTAIN STATE POLICE OFFICER SUBSISTENCE ALLOWANCES

Under present law, cash meal allowances received by State police officers are includible in gross income. However, Public Law 95-427 [1978-2 C.B. 363] provided that certain cash meal allowances received by State police officers during the period after 1969 and before 1977 are not includible in income to the extent the allowances *were not reported* by the officers.

The provision will allow a refund or credit of taxes paid by a State police officer with respect to cash meal allowances which *were reported* in gross income in returns filed by the officer for calendar years 1974, 1975, and 1976.

[5] SEC. 109. CLARIFICATION OF LIMITATION ON DEDUCTIBILITY OF CERTAIN ENTERTAINMENT FACILITY EXPENSES INCLUDIBLE IN INCOME OF RECIPIENT

Under this provision, the general rule for the disallowance of deductions for entertainment, amusement, or recreation expenses (Code sec. 274(a)) does not apply to expenses which are includible in the gross income of the recipient of the entertainment, amusement, or recreation as compensation for services or as a prize or award under Code section 74. This provision will not apply if the taxpayer fails to include the amount in any information return (Form 1099) which is required to be filed with the Internal Revenue Service (or would be required except that the amount is less than $600).

SEC. 201.[1] PREVENTION OF ABUSE OF CERTAIN EMPLOYEE BENEFIT REQUIREMENTS

Under present law, individuals employed by certain separate but related entities are aggregated and treated as employed by a single employer for purposes of the rules relating to qualified retirement plans. To eliminate certain abuses resulting under present law, this provision expands the aggregation rules with respect to the treatment of certain service organizations and related organizations for purposes of satisfying requirements for qualified retirement plans, medical reimbursement plans, cafeteria plans, and simplified employee pensions.

SECS. 221-226. PROVISIONS RELATING TO EMPLOYEE STOCK OWNERSHIP AND CAFETERIA PLANS

1. Cash distribution option and put option for stock bonus plans (sec. 221 of the bill)

This provision will permit a tax-qualified stock bonus plan to distribute cash to a participant entitled to a distribution, subject to the participant's right to demand that benefits be distributed in the form of employer stock. If a stock bonus plan provides for cash distributions and if stock which is distributed is not readily tradable on an established market, the participant must have the right to require the employer to repurchase the stock.

2. Special limitation for tax credit employee stock ownership plans and employee stock ownership plans (sec. 222 of the bill)

Under this provision, the increase in the dollar limitation on annual additions with respect to a participant in a tax credit employee stock ownership plan or an employee stock ownership plan (provided certain requirements are met with respect to allocations under the plan) will be the lesser of (1) the usual dollar limitation on annual additions to a participant's account, or (2) the amount of employer securities (or cash used to acquire such securities) contributed to the plan.

3. Valuation of employer securities in tax credit employee stock ownership plans (sec. 223 of the bill)

Under this provision, the value of employer securities listed on a national exchange contributed to a tax credit employee stock ownership plan will be the average of the closing prices of such securities for the 20 consecutive trading days immediately preceding the date of contribution to the plan.

[6] *4. Participation of subsidiary corporation in a tax credit employee stock ownership plan (sec. 224 of the bill)*

Under this provision, if a parent corporation owns 100 percent of a first-tier subsidiary and the first-tier subsidiary owns 50 percent of a second-tier subsidiary, the second-tier subsidiary is allowed to contribute employer securities of the parent corporation to its tax credit employee stock ownership plan. In addition, parent stock could be contributed by 80-percent owned lower-tier subsidiaries in this chain.

5. Retirement savings by tax credit employee stock ownership plan participants (sec. 225 of the bill)

Under this provision, if employees

[1] 126 Cong. Rec. H12503-5 (daily ed. Dec. 13, 1980).

are permitted to elect out of a tax credit employee stock ownership plan for the purpose of establishing IRAs, the tax credit employee stock ownership plan does not fail to meet the minimum coverage requirements of the Code if the plan benefits at least 50 percent of all employees (excluding employees who have not satisfied the minimum age and service requirements or who are otherwise permitted to be excluded), and if the total allocations under the tax credit employee stock ownership plan are equal to no more than two percent of the compensation of participating employees.

6. Cafeteria plans permitted to provide deferred compensation under rules applicable to cash or deferred profit-sharing and stock bonus plans (sec. 226 of the bill)

Under this provision, benefits under a cafeteria plan could include amounts which an employee covered by a profit-sharing or stock bonus plan with a qualified cash or deferred arrangement can elect to have the employer pay as a contribution to a trust under a profit-sharing or stock bonus plan. Amounts contributed by the employer, pursuant to the employee's election, will be treated as nontaxable benefits for purposes of the "cafeteria" plan rules.

SEC. 302. EXTENSION OF TIME TO AMEND GOVERNING INSTRUMENTS OF CHARITABLE SPLIT-INTEREST TRUSTS

The Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10] imposed new requirements which must be satisfied by charitable lead and remainder trusts in order for an income, gift, or estate tax deduction to be allowed for the transfer of an income interest or a remainder interest to charity. However, certain exceptions were provided in the case of wills executed, or property transferred in trust, on or before October 9, 1969, in order to allow a reasonable period of time to take the new rules into account.

The provision extends for two years, until December 31, 1980, the time to amend, or commence judicial proceedings to amend, instruments of both charitable lead trusts or charitable remainder trusts which were executed before December 31, 1977, in order to conform such instruments to the 1969 Act requirements for a charitable deduction to be allowed for income, gift, or estate tax purposes.

[7] II. EXPLANATION OF THE BILL

A. Treatment of Certain Community Income for Spouses Living Apart (sec. 101 of the bill and new sec. 66 of the Code)

Present law

Under present income tax laws, income considered community property under State law generally is taxed in equal shares to a husband and wife. Consequently, if a husband and wife file separate returns, each is usually required to report one-half of the income considered community property.

Reasons for change

Under present law, an abandoned spouse may be liable for Federal income tax on one-half of the community income earned by the other spouse even though the abandoned spouse has not actually received or benefited from any of the income. The committee believes that in these circumstances a spouse should not be taxed on community income earned or received by the other spouse.

Explanation of provision

If certain requirements are met, State community property laws would be disregarded with respect to certain types of income for Federal income tax purposes. To qualify, a couple must be married at some time during the calendar year, but live apart during the entire calendar year and not file a joint return with respect to a taxable year beginning or ending in the calendar year. In addition, one or both of the spouses must have earned income for the calendar year that is community income, and no portion of that earned income must have been transferred directly or indirectly between the spouses during the calendar year. For purposes of the latter income transfer test, the committee intends that transfers of *de minimis* amounts or value are not to be taken into account. It is anticipated that definitive guidance concerning these amounts will be prescribed in Treasury regulations, revenue rulings, or revenue procedures, and periodically revised as circumstances may warrant. Further, a transfer or payment to, or for the benefit of, the couple's dependent child is not to treated as an indirect transfer to an abandoned spouse solely because the payment or transfer satisfies an obligation of support imposed on the abandoned spouse.

If the requirements are met, any community income of the spouses for the calendar year is allocated in accordance with Code section 879(a). Under that provision, earned income (other than trade or business income and a partner's distributive share of partnership income) is, for tax purposes, the income of the spouse who rendered the personal services. In the case of income derived from a trade or business (other than that carried on by a partnership), the income is [8] treated as the husband's income unless the wife exercises substantially all of the management and control of the trade or business. In the case of trade or business income of a partnership, the income is taxed to the spouse who has a distributive share of the partnership profits.

Effective date

The provision applies to calendar years beginning after December 31, 1979.

Revenue effect

It is estimated that this provision will have a negligible effect on budget receipts.

[9] B. Amortization of Business Start-up Costs (sec. 102 of the bill and new sec. 194 of the Code)

Present law

In general

Under present law, ordinary and

necessary expenses paid or incurred in carrying on a trade or business, or engaging in a profit-seeking activity, are deductible. Expenses incurred prior to the establishment of a business normally are not deductible currently since they are not incurred in carrying on a trade or business or while engaging in a profit-seeking activity.

Expenditures made in acquiring or creating an asset which has a useful life that extends beyond the taxable year normally must be capitalized. These costs ordinarily may be recovered through depreciation or amortization deductions over the useful life of the asset. However, costs which relate to an asset with either an unlimited or indeterminate useful life may be recovered only upon a disposition or cessation of the business.

Certain business organizational expenses for the formation of a corporation or partnership may be treated as deferred expenses, on an elective basis, and amortized over a period of not less than 60 months (Code secs. 248 and 709). Expenditures eligible for amortization only include expenditures which are directly incident to the creation of the corporation or business. Preopening or startup expenses, such as employee training expenses, are ineligible for amortization under the business organizational expense provisions.

Investigatory expenses

Investigatory expenses are costs of seeking and reviewing prospective businesses prior to reaching a decision to acquire or enter any business. Business investigatory expenses may be of either a general or specific nature. The former are related either to businesses generally, or to a category of business; the latter are related to a particular business.

Business investigatory expenses generally are nondeductible regardless of whether they are incurred by an existing business in relation to another business or by a taxpayer who is not in any business. However, taxpayers may be able to deduct a loss for business investigatory expenses incurred in an unsuccessful attempt to acquire a specific business.[1] Nevertheless, business investigatory expenses of a general nature normally are viewed as being either nondeductible personal expenses, or as not being ordinary and necessary trade or business expenses, viz., because no business exists, within the meaning of section 162 of the Code.

[10] *Startup costs*

Startup or preopening expenses are costs which are incurred subsequent to a decision to acquire or establish a particular business and prior to its actual operation. Generally, the term "startup costs" refers to expenses which would be deductible currently if they were incurred after the commencement of the particular business operation to which they relate. Such costs may be incurred by a party who is not engaged in any existing business, or by a party with an existing business who begins a new one that is unrelated, or only tangentially related, to his or her existing business.

Startup costs may include expenses relating to advertising, employee training, lining-up distributors, suppliers, or potential customers, and professional services in setting up books and records. However, startup expenses also may refer to certain items related to the establishment and operation of a business which are nondeductible and nonamortizable even if they are incurred subsequent to commencement of business operations. These nondeductible and nonamortizable expenses either may be of a purely capital nature, or may be capitalizable simply because they relate to a business with an indeterminate life.

Reasons for change

The committee believes that the provision for the amortization of business startup and investigatory expenses will encourage formation of new businesses and decrease controversy and litigation arising under present law with respect to the proper income tax classification of startup expenditures.

[1] See *Harris W. Seed,* 52 T.C. 880 (1969), *acq.,* 1970-2 C.B. xxi; Rev. Rul. 77-254, 1977-2 C.B. 63.

Explanation of provision

In general

Under the provision, business startup expenditures may be amortized, at the election of the taxpayer, over a period of not less than 60 months.

Eligible expenditures

In general, expenditures eligible for amortization must satisfy two requirements. First, the expenditures must be paid or incurred in connection with creating, or investigating the creation or acquisition of, a trade or business entered into by the taxpayer. Second, the expenditure involved must be one which would be allowable as a deduction for the taxable year in which it is paid or incurred if it were paid or incurred in connection with the expansion of an existing trade or business in the same field as that entered into by the taxpayer.

Under the provision, eligible expenses consist of investigatory costs incurred in reviewing a prospective business prior to reaching a final decision to acquire or to enter that business. These costs include expenses incurred for the analysis or survey of potential markets, products, labor supply, transportation facilities, etc. Eligible expenses also include startup costs which are incurred subsequent to a decision to establish a particular business and prior to the time when the business begins. For example, startup costs include advertising, salaries and wages paid to employees who are being trained and their instructors, travel and other expenses incurred in lining up prospective dis-[11]tributors, suppliers or customers, and salaries or fees paid or incurred for executives, consultants, and for similar professional services.

In the case of an existing business, eligible startup expenditures do not include deductible ordinary and necessary business expenses paid or incurred in connection with an expansion of the business. As under present law, these expenses will continue to be currrently deductible. The determination of whether there is an expansion of an

existing trade or business or a creation or acquisition of a new trade or business is to be based on the facts and circumstances of each case as under present law.

Startup expenditures eligible for amortization do not include any amount with respect to which a deduction would not be allowable to an existing trade or business for the taxable year in which the expenditure was paid or incurred. Thus, amounts paid or incurred in connection with the sale of stock, securities, or partnership interests are not within the definition of startup expenditures, e.g., securities registration expenses, underwriters' commissions, etc., are not startup expenditures. In addition, the amortization election for startup expenditures does not apply to amounts paid or incurred as part of the acquisition cost of a trade or business. Also, startup expenditures do not include amounts paid or incurred for the acquisition of property to be held for sale or property which may be depreciated or amortized based on its useful life, including expenses incident to a lease and leasehold improvements. Whether an amount is consideration paid to acquire a business (or an interest therein) depends upon the facts and circumstances of the situation. Corporate or partnership organizational expenditures which may be amortized under provisions of present law (Code sec. 248 or 709) are covered by those amortization provisions rather than this provision.

Trade or business requirement

Expenditures must relate to the investigation or creation of an active trade or business (within the meaning of Code sec. 162). Thus, expenditures attributable to an investment are not eligible for amortization under this provision. For this purpose, an activity with respect to which expenses are deductible only as itemized deductions for individuals (Code sec. 212) is not considered to be a trade or business. In addition, an activity is not considered to be a trade or business activity solely because the property used in the activity may be eligible for special capital gain or ordinary loss treatment under Code section 1231. Further, in the case of rental activities, there must be significant furnishing of services incident to the rentals to constitute an active business (within the meaning of Code sec. 162) rather than an investment. Thus, a rental activity is not considered to be an active trade or business solely because deductions attributable to it are allowable in computing adjusted gross income (Code sec. 62(5)).

Investigatory expenses for acquisition of existing businesses

In addition to the active business requirement applicable to the entity, in the case of investigatory expenditures incurred by a taxpayer with respect to the acquisition of an existing trade or business, the taxpayer will be considered to have entered into a trade or business only if the taxpayer has an equity interest in, and actively participates [12] in the management of, the trade or business. For this purpose, a taxpayer will not be considered to have a qualifying interest with respect to an investment represented by a bond or other debt instrument (even if convertible), preferred stock, or a limited partnership interest.

A sole proprietor would always be considered to have an operator equity interest in the trade or business. In the case of a taxpayer incurring investigatory expenses with respect to the acquisition of common stock, a taxpayer would usually be considered to have acquired an investment interest rather than a qualifying trade or business interest. Thus, investigatory expenses attributable to the acquisition of corporate stock generally will not be eligible for amortization. (As under present law, certain investment counseling and similar expenses paid or incurred with respect to investments held by an individual investor would be currently deductible as an itemized deduction for the production of income, etc., under Code section 212.) However, if in substance, a transaction is the acquisition of the assets of a trade or business, the investigatory expenses are eligible for amortization even though one of the steps of the transaction involved the acquisition of stock, e.g., the acquisition of a corporation which is then liquidated. Further, for example, a corporate taxpayer will be considered to have acquired the trade or business assets of an acquired corporation, rather than having made a portfolio investment in stock, if the acquired corporation becomes a member of an affiliated group which includes the taxpayer incurring the investigatory expenses and a consoliated income tax return is filed for that group.

In the case of the acquisition of a general partnership interest, the taxpayer could be considered to have acquired an active interest if the taxpayer actively participates in the management of the trade or business.

Taxpayer eligible for amortization

In general, the amortization deduction is allowable to the taxpayer who incurs the startup expenditures and enters the trade or business. In the case of startup expenditures incurred by a corporate taxpayer (including a subchapter S corporation), the amortization deduction is to be taken on the income tax return for that corporation and is not deductible as a special item to any shareholder. In the case of a sole proprietor, the amortization deduction is allowable as a deduction for the trade or business with respect to which the startup expenditures were paid or incurred. In the case of startup expenditures incurred by a partnership, the amortization deduction is to be taken into account in computing the taxable income of the partnership (except to the extent it may be required to be taken into account separately under regulations prescribed under Code sec. 702(a)(7)). In the case of qualifying investigatory expenses incurred in connection with the acquisition of a partnership interest, the amortization deduction is to be taken by the partner who incurred such expenses.

Amortization period

Under the provision, the trade or

business actually must be entered into (or "begin") before an amortization period can start. Therefore, no deduction is allowed under the provision with respect to items [13] incurred incident to a trade or business which actually is not commenced or acquired by the taxpayer.

The amortization period of not less than 60 months commences with the month in which a business begins. For purposes of this determination, an acquired trade or business is treated as beginning with the month in which a taxpayer acquires it. The month of acquisition is to be determined with regard to the economic substance of each situation. Generally, it is anticipated that the definition of when a business begins is to be made in reference to the existing provisions for the amortization of organizational expenditures (Code secs. 248 and 709). Since the minimum amortization period allowed by the provision is 60 months, the election is inapplicable to businesses which have an ascertainable useful life of less than 60 months. Expenditures related to such businesses remain subject to the provisions of existing law.

The generally applicable income tax rules apply in the case of any amount subject to an election which is unamortized upon a termination of the trade or business. Therefore, in an appropriate instance, a taxpayer may deduct any unamortized amount as a loss (Code sec. 165) or an unamortized amount might be carried over to the taxpayer's successor in interest (e.g., see Rev. Rul. 70-241, 1970-1 C.B. 84, relating to the treatment of unamortized organizational expenses in connection with a reorganization qualifying under Code section 368(a)(1)(F).

Scope and manner of election

Amortization elections generally must be made at the time, and in the manner, specified in Treasury regulations.[2] Elections, however, may not be made later than the time for filing the return (including extensions) for the taxable year in which the business begins. It is anticipated that election procedures will be similar to those used under sections 248 and 709 of the Code (relating to certain organization fees), and that elections may not be made on a conditional basis.

Once an amortization period is selected, it may not be changed. Thereafter, the selected period must be used in computing taxable income for the taxable year in which the election is made and for all subsequent taxable years.

The election applies to all eligible expenditures paid or incurred by the taxpayer in connection with a newly-created or acquired business.

Effective date

The provision applies to amounts paid or incurred after July 29, 1980.

Revenue effect

It is estimated that the provision would result in a reduction in budget receipts of $22 million in fiscal year 1981, $73 million in fiscal year 1982, $121 million in fiscal year 1983, $180 million in fiscal year 1984, and $254 million in fiscal year 1985.

[23] E. Revision of Source Rules for Income from Certain Leased Aircraft, Vessels, and Spacecraft (sec. 105 of the bill and sec. 861 of the Code)

Present law

The source of income or loss from the rental of personal property generally depends on whether the property is used inside or outside the United States. Under this rule, income from the lease of a vessel or aircraft would be treated as income from sources without the United States to the extent that the rental payments were attributable to use of the equipment outside the United States. Similarly, income from the lease of a spacecraft would be from sources outside the United States.

Typically, under a lease financing of equipment (i.e., the equipment is purchased by a financial institution and leased to the user), the lease produces a tax loss during its early years to the lessor (primarily as a result of accelerated depreciation or amortization deductions). Where the equipment is used outside the United States, the loss arising on the lease is considered to be a foreign source loss under the generally applicable source rules described above. The characterization of the loss as foreign source operates to reduce the lessor's foreign source taxable income and thus its foreign tax credit limitation. Under certain circumstances, this may cause the lessor to lose a foreign tax credit, to which it would otherwise be entitled, for foreign taxes paid with respect to its other foreign operations. As a result, this type of lease financing transaction could be less attractive than a lease-financing transaction involving equipment to be used exclusively in the United States.

In the case of ships and aircraft, which often are financed through long-term leases from financial institutions, lessors expressed concern about the loss of foreign tax credits. Under the Revenue Act of 1971 [Pub. L. 92-178, 1972-1 C.B. 443], lessors of certain ships and aircraft were given an election to treat all income and loss from the rental of the ships or aircraft as from sources within the United States (Code sec. 861(e)). Under this provision, if a taxpayer owns an aircraft or vessel which is eligible for the investment tax credit (or would be if not used by a government) and leases the aircraft or vessel to a United States person, other than a member of the same controlled group of corporations as the taxpayer, and if the aircraft or vessel is manufactured or constructed in the United States, then the taxpayer may elect, for any taxable year ending after the commencement of such lease, to treat all

[2] In the case of startup expenditures paid or incurred by a partnership in connection with the creation of a new, or acquisition of an existing, trade or business, an amortization election would have to be made by the partnership rather than the individual partners (sec. 703(b)).

amounts includible in gross income with respect to the aircraft or vessel (whether during or after the period of any such lease), including gain from sale, exchange, or other disposition of such aircraft or vessel, as income from sources within the United States. As a corollary to this rule, losses from the lease would also be treated as from U.S. sources. The election may not be revoked without the consent of the Treasury. Moreover, if the ship [24] or aircraft is transferred in certain transactions where gain is not fully recognized, the transferee is also bound by the election.

A similar problem also arose with respect to lease-financed U.S. railroad rolling stock used temporarily in Canada or Mexico. Under the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1], lessors generally are required, on a non-elective basis, to treat all income or loss from the rolling stock as from U.S. sources if it is expected that the leased rolling stock will be used predominantly within the United States.

Property which is used predominantly outside the United States, or which is used by a government or international organization, is generally not eligible for the investment tax credit. Exceptions are made to the requirement for use in the United States for U.S. documented ships or aircraft, rolling stock of domestic railroads, and certain other property. Under the Revenue Act of 1971 [Pub. L. 92-178, 1972-1 C.B. 443], this requirement is also waived for any communications satellite (as defined in section 103(3) of the Communications Satellite Act of 1962) or interest in such a satellite of a U.S. person. In addition, the 1971 Act waives the governmental use restriction for property used by the International Telecommunications Satellite Consortium (INTELSAT).

Reasons for change

The foreign tax credit rules are designed to prevent double taxation of the same income by the United States and foreign countries. The credit generally operates on the principle that the country in which income arises has the primary right to tax the income. Thus, where a U.S. taxpayer derives income from a foreign country, any taxes imposed by that country on the income are allowed as a credit against the U.S. tax on the income. In order to prevent the foreign tax credit from offsetting more than the U.S. tax on income which is potentially subject to double taxation, the credit is limited to the taxpayer's pre-credit tax on its foreign source income (computed on an overall basis). In view of the purpose to prevent double taxation (without allowing the credit to exceed the amount necessary to do so), the source rules used in computing the limitation are generally designed to identify as foreign source income that income which might reasonably be subject to foreign tax.

Where the lease property is a vessel, aircraft, or spacecraft used in international traffic, the present rules governing the source of income derived from the lease of personal property appear to produce results which by that standard are somewhat anomalous. The present source rules for rental income turn on the physical location of the property—the income is U.S. source if the property is physically located in the United States, foreign source if it is not. Where a U.S. taxpayer operates a ship, aircraft, or spacecraft in international traffic, the operating income occasionally is subject to tax by a country in which the operations are temporarily conducted; therefore, it is not unreasonable to treat operating income as foreign source where the craft is used outside the United States. However, where the craft is leased to the U.S. operator by another U.S. taxpayer, it evidently is very unlikely that any foreign government will attempt to tax the lease payments received by the U.S. lessor from the U.S. operator even if the craft is located outside the United States. (This is particularly true where the craft seldom, if ever, is located in a foreign country.)

[25] Accordingly, consistent with the objectives of the source rules outlined above, the committee decided that lease payments on vessels, aircraft, and spacecraft received by U.S. lessors from U.S. persons will be treated as U.S. source where the property qualifies for the investment credit.

Explanation of provision

In situations in which lessors of ships or aircraft may currently elect to have all income or loss from the equipment treated as from U.S. sources, such treatment will become mandatory. The rule is also extended to apply to spacecraft on the same terms as ships and aircraft. Thus, income (or loss) from the rental of a spacecraft, aircraft, or vessel (a "craft") will be treated as U.S. source if (1) the craft qualifies for the investment tax credit (or would so qualify but for the fact that it is leased to a governmental unit), (2) the craft is leased to a U.S. person (other than a member of the same affiliated group of corporations as the taxpayer), and (3) the craft is manufactured or constructed in the United States. Once this rule applies to a craft, it will apply in all subsequent years in which the taxpayer owns the craft, even if it is leased to a foreign person. Thus, all income or loss, including gains from the sale, exchange, or other disposition of the craft, will be U.S. source. Also, if the craft is transferred in certain transactions in which gain is not fully recognized, the transferee will also be subject to the special source rule with respect to the craft.

Effective date

The provision is effective with respect to equipment first leased after the date of enactment. Other equipment will continue to be subject to the rules of prior law and, if subject to an election under section 861(e), will remain subject to that election.

Revenue effect

It is estimated that this provision will reduce budget receipts by a negligible amount annually through fiscal year 1985.

[26] F. Tax Rates Applicable to Nonexempt Income of Homeowners Associations (sec. 106 of the bill and sec. 528(b) of the Code)

Present law

Homeowners associations

Under present law, a qualified homeowners association (a condominium management association or a residential real estate association) may elect to be treated as a tax-exempt organization (Code sec. 528). If an election is made, the association will not be taxed on "exempt function income." Exempt function income means membership dues, fees, and assessments received from persons who own residential units in the particular condominium or subdivision and who are members of the association.

The association will be taxed, however, on income which is not exempt function income. For example, any interest earned on amounts set aside in a sinking fund for future improvements is taxable. Similarly, any amount paid by persons who are not members of the association for use of the association's facilities, such as tennis courts, swimming pools, golf courses, etc., is taxable. Further, any amount paid by members for special use of the association's facilities, the use of which would not be available to all the members as a result of having paid the membership dues, fees, or assessments required to be paid by all members of the association, will be taxable. For example, if the membership dues, fees, or assessments do not entitle a member to use the association's party room or to use the swimming pool after a certain time period, then amounts paid for this use are taxable to the association.

Deductions from nonexempt income are allowed for expenses directly related to the production of such income, and a $100 deduction against taxable income is provided so that associations with only a minimal amount of taxable income will not be subject to tax. However, a net operating loss deduction is not allowed, and the special deductions for corporations (such as the dividends received deduction) are not allowed.

A homeowners association is taxed on its taxable income at the highest corporate rate (46 percent). If the association has net long-term capital gain, the tax rate is 28 percent for determining the association's alternative tax for capital gains.

Corporate tax rates

Under present law, a corporation is taxed at graduated rates on the first $100,000 of taxable income. The corporate rates are 17 percent on the first $25,000 of taxable income, 20 percent on the next $25,000, 30 percent on the next $25,000, 40 percent on the next $25,000, and 46 percent on all taxable income above $100,000. The alternative tax rate for capital gains is 28 percent.

[27] The Code contains rules to prevent abuse of the graduated rate structure. A controlled group of corporations is limited in the aggregate to a maximum of $25,000 of taxable income in each of the rate brackets below the 46 percent bracket (Code sec. 1561). These rules are used to prevent income splitting by such commonly controlled corporations.

Reasons for change

The basic rationale for the tax treatment of homeowners associations in the Code is that activities which would not be taxed if engaged in by homeowners individually (for example, maintenance of their property or the payment of utility bills) should not be subject to tax when the individuals band together in an association. An extension of this principle would appear to be that the rate of taxation on invested funds of the association should approximate the rate that would be imposed on the funds if they were invested by individual members of the association.

On the other hand, taxation of an association at the regular corporate rates would generally result in the taxation of this income at a rate of 17 percent. Members of homeowners associations are likely to be in higher tax brackets. In addition, there are apparently no rules which would prevent abuse of the graduated rate structure by commonly controlled or related homeowners associations. The tests for commonly controlled corporations would not appear to be effective for nonprofit corporations which do not normally have stock ownership. Also, there appear to be almost no barriers to prevent the multiplication of organizations in order to minimize the tax burden.

The committee believes that the taxable income of a homeowners association should not be subject to tax at higher rates than the rates which would normally apply to such income if it were taxable to the members of the association. However, it would be too complicated to require a pass through of ratable portions of an association's income to its members. Consequently, the committee believes that it is appropriate to tax the income of homeowners associations at a flat rate of 30 percent, which may reasonably approximate the average marginal income tax rate of the members of these associations.

Explanation of provisions

Under this provision, taxable income of a homeowners association will be taxed at a rate of 30 percent. This rate applies to both ordinary income and capital gains.

Effective date

This provision applies to taxable years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will reduce budget receipts by $1 million in fiscal year 1981, and $2 million annually in fiscal years 1982 through 1985.

[28] G. Tax Treatment of Certain Income of Mutual or Cooperative Telephone and Electric Companies (sec. 107 of the bill and secs. 501(c)(12) and 513 of the Code)

Present law

Rural cooperatives

Under present law (Code sec. 501(c)(12)), a mutual or cooperative telephone company qualifies for exemption from Federal income taxation only if at least 85 percent of its income consists of "amounts collected from members for the sole purpose of meeting losses and expenses." In determining whether this member-income test has been satisfied, amounts of credits accrued or received by a mutual or cooperative telephone company from another company for communications services on calls involving members of the telephone cooperative are not taken into account.

Similarly, a rural electric cooperative may qualify for exemption from Federal income taxation under Code section 501(c)(12) if it satisfies the 85-percent member-income test.[1]

Tax on unrelated business income

Under present law, most organizations which are generally tax exempt under the Internal Revenue Code are nonetheless subject to tax on unrelated business taxable income (Code sec. 511). Thus, unless a specific exception applies, an organization which is tax-exempt (under Code sec. 501(a))[2] is subject to tax with respect to income derived from any trade or business the conduct of which is not substantially related (aside from the need of the organization for income or funds) to the exercise or performance of its exempt function.

Reasons for change

Recently, the Internal Revenue Service has indicated that income from the rental of poles (*e.g.*, payments by a rural electric cooperative for use of a rural telephone cooperative's poles) and display listings in "Yellow Page" directories may be included in nonmember income of rural cooperatives.

The committee believes that income from pole rentals and display listings should not be treated as nonmember income for purposes of the [29] 85-percent member-income test and that income from pole rentals should be exempt from the tax on unrelated business taxable income.

Explanation of provisions

The bill provides that, in applying the 85-percent member-income test to a mutual or cooperative telephone company, any income from qualified pole rentals or from display listings in a telephone directory is to be disregarded. Also, in applying the 85-percent non-member-income test to mutual or cooperative electric companies, any income from qualified pole rentals is to be disregarded. Income from qualified pole rentals generally means any income from the sale of the right to use any pole (or other structure) (1) which is used by the cooperative in providing telephone or electric services to its members, and (2) the use for which the pole is rented involved support of wires used for the transmission of electricity or of telephone or other communications.

The bill also provides that the engaging in activities which result in the receipt of qualified pole rentals is not an unrelated trade or business for a mutual or cooperative telephone or electric company. Thus, such rentals would not be subject to the tax on unrelated business taxable income.

Effective date

The provisions relating to the 85-percent member-income test apply to all taxable years to which the Internal Revenue Code of 1954 applies. The provisions relating to the treatment of qualified pole rentals for purposes of the unrelated business tax apply to taxable years beginning after December 31, 1969.

Revenue effect

It is estimated that this bill will reduce budget receipts by less than $5 million in fiscal year 1981 and by less than $2 million annually thereafter.

[30] H. Refund of Taxes on Certain State Police Officer Subsistence Allowances (sec. 108 of the bill)

Present law

Code section 119, which was enacted in 1954, excludes from an employee's gross income the value of employer-furnished meals if they are provided for the employer's convenience, on its business premises, and for substantially noncompensatory reasons. The legislative history of section 119 indicates that the exclusion applies only to the value of meals furnished in kind.[1]

Although in 1954 Congress provided for an exclusion of up to $5.00 per day of statutory subsistence allowances paid to police officers, this provision was repealed in 1958 "to bring the tax treatment of subsistence allowances for police officials into line with the treatment of such allowances in the case of other taxpayers. . . ." [2]

On November 29, 1977, the Supreme Court decided *Commissioner* v. *Kowalski*, 434 U.S. 77 [Ct. D. 1987, 1978-1 C.B. 15], which held that cash

[1] See Rev. Rul. 65-99, 1965-1 C.B. 242; Rev. Rul. 65-174, 1965-2 C.B. 169.

In addition, certain rural electric cooperatives in the Tennessee Valley Authority ("TVA") area are exempt from taxation under Code section 501(c)(4) even though, generally because of TVA requirements, they do not meet the 85-percent member-income test. See *U.S.* v. *Pickwick Electric Membership Corp.*, 158 F. 2d 272 (6th Cir. 1946).

[2] In this paragraph, references to "tax-exempt organizations" do not include social clubs (Code sec. 501(c)(7)) and employees' beneficiary associations (Code sec. 501(c)(9)), which are taxable on investment income of all types as well as unrelated business income. The term "tax-exempt organizations," as used in this paragraph also does not include political organizations (described in Code sec. 527) and homeowners associations (described in Code sec. 528).

[1] S. Rept. No. 1622, 83d Cong., 2d Sess. 190-191 (1954).

[2] H.R. Rep. No. 775, 85th Cong., 1st Sess. 7 (1957), 1958-3 C.B. 817.

meal allowances paid to a state trooper were includible in income since the section 119 exclusion applied only to meals furnished in kind. This decision resolved a conflict among the various appellate courts as to the taxability of cash meal allowances.

In response to the *Kowalski* decision, Congress enacted section 3 of Public Law 95–427 [1978-2 C.B. 363, 364]. Under that section, the Supreme Court's decision generally applies only prospectively. The Act allowed an exclusion from gross income for certain subsistence allowances received by an officer during the years 1970 through 1976 to the extent that the allowances were not included in income in the officer's income tax return. It also applied to all State police officer subsistence allowances received in 1977 without regard to an officer's treatment of those allowances on his or her return.

Public Law 95-427 did not authorize the refund of taxes paid prior to 1977 on such cash allowances if those payments had been included in income on the officer's income tax return. Thus, the Act was restricted to cases where officers might experience hardships in paying income tax deficiencies assessed with respect to cash meal allowances.

Reasons for change

After reviewing the income tax treatment of cash meal allowances received by State police officers during 1970 through 1976, the committee believes that it is appropriate to amend Public Law 95-427 to allow a credit or refund of taxes paid by such an officer with respect to those cash meal allowances which were included in gross income for calendar years 1974, 1975, and 1976.

Explanation of provision

The provision amends Public Law 95-427 to allow a credit or refund of taxes paid by State police officers with respect to cash meal allowances received during 1974, 1975, and 1976, whether or not the cash payments had been reported in gross income. As a result, the amended version of Public Law 95-427 will apply, on an elective basis, to all cash meal allowances received by all State police officers after 1973 and before 1978.

Effective date

The provision is effective upon enactment. The period of limitations for making refunds (or any other rule of law) will not operate to bar any claim for refund filed within one year of the date of enactment of the provision.

Revenue effect

It is estimated that the provision will result in a one-time decrease in budget receipts of $3 million in fiscal year 1981. This represents refunds or credits for taxes paid by State police officers with respect to cash meal allowances during 1974, 1975, and 1976 where the allowances were reported in income.

[32] I. Clarification of Limitation on Deductibility of Certain Entertainment Facility Expenses Includible in Income of Recipient (sec 109 of the bill and sec. 274 of the Code)

Present law

Prior to the enactment of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1], expenses incurred with respect to entertainment facilities [1] were deductible if they were ordinary and necessary, the facility was used primarily for the furtherance of the taxpayer's business (i.e., more than 50 percent of the time that it was used), and the expense in question was related directly to the active conduct of the taxpayer's business. For this purpose, entertainment facility expenses included dues or fees paid to any social, athletic, or sporting club or organization. Dues or fees paid to professional associations, civic organizations, or to clubs operated solely to provide meals under circumstances normally considered to be conducive to business discussions generally were not considered to be entertainment facility expenses.

In determining whether an entertainment facility was used primarily for business purposes, all the taxpayer's ordinary and necessary business use of the facility was taken into account. Once it was determined that the facility was used primarily for business, the portion of the expenses which were related directly to the active conduct of the taxpayer's business could be deducted.

The Revenue Act of 1978 provided generally that no deduction was allowable for any entertainment facility expense. However, the Act retained a number of exceptions to the general rule that existed under prior law. One of these relates to expenses treated as employee compensation (Code sec. 274 (e)(3)). Under this exception, expenses for goods, services, and facilities are not subject to the disallowance rules to the extent that the expenses are treated by the taxpayer, with respect to the recipient of the entertainment, as compensation to an employee on the taxpayer's return and as wages to the employee for purposes of income tax withholding. Thus, in the case of facility expenses which satisfy this exception, the Act retained the rules of prior law which formerly had applied to expenses treated as employee compensation.

The Technical Corrections Act of 1979 [Pub. L. 96-222, 1980-1 C.B. 499], provided that the provision disallowing expenses for entertainment facilities did not apply to expenses paid or incurred in 1979 or 1980 where the entertainment facilities are provided to a nonemployee of the payor, the amount of the expense is includible in the gross income of the recipient of the entertainment facilities as compensation for services or as a prize or award, and the payor complies with any required reporting of information [33] (i.e., an information return (Form 1099) is furnished to the In-

[1] An entertainment facility generally is any item of personal or real property owned, rented, or used by a taxpayer during the taxable year for, or in connection with, an activity normally considered to be of an entertainment nature.

ternal Revenue Service (but not the recipient) for amount in excess of $600).

Reasons for change

Present law already provides an exception to the disallowance rule for entertainment facilities in the case of facilities provided to employees. In such a case, the amount of the income is reported to the Internal Revenue Service regardless of the amount involved. The committee believes that a similar rule should apply to facilities provided to nonemployees so long as it is includible in the income of the recipient as a prize or award or for services rendered and information about the transaction is provided to the Internal Revenue Service (where required) regardless of the amount involved.

Explanation of provision

Under this provision, the general rule for the disallowance of expenses for entertainment, amusement, or recreation expenses (Code sec. 274(a)) does not apply to expenses which are includible in the gross income of the recipient of the entertainment, amusement, or recreation as compensation for services or as a prize or award under Code section 74. This provision will not apply if the taxpayer fails to include the amount in any information return (Form 1099) which is required to be filed with the Internal Revenue Service (or would be required except that the amount is less than $600).

Effective date

The provision is effective for expenses paid or incurred after December 31, 1980, in taxable years ending after that date.

Revenue effect

It is estimated that the provision will have no direct effect on budget receipts.

[34] J. Prevention of Abuse of Certain Employee Benefit Requirements (sec. 201 of the bill and sec. 414(m) of the Code)

Present law

Under present law, the tax qualification of a pension, profit-sharing, or stock bonus plan, the tax treatment of a participant in a cafeteria or medical reimbursement plan, and the tax treatment of a simplified employee pension depends, in part, upon whether there is discrimination in favor of employees who are officers, shareholders, or highly compensated.[1] The rules are intended to encourage employers to provide benefits to rank-and-file employees.

In applying the discrimination test and certain other rules, all employees of a controlled group of corporations and all employees of commonly controlled trades or businesses, whether or not incorporated, are treated as employed by a single employer. For purposes of this rule, the existence of a controlled group of corporations is determined generally by reference to the section 1563(a) definitions of parent-subsidiary controlled group and brother-sister controlled group. The commonly controlled trade or business determination is made under regulations which are "based on principles similar to the principles" which apply in the case of controlled groups of corporations. (Code sec. 414(b) and (c)).

Corporations in a brother-sister relationship are aggregated for plan purposes only if the same five or fewer persons who are individuals, estates or trusts own, among other things, *more* than 50 percent of the voting power (or value) of the stock in two or more corporations, and other conditions are satisfied. (Similar rules apply to unincorporated trades and businesses.)

These rules have been found to allow individuals to avoid the cost of providing benefits for rank-and-file employees by establishing individual corporations which then form a partnership of corporations. The partnership employs the rank-and-file employees. Because none of the corporations has *more* than a fifty percent interest in the partnership, the partnership is not a member of a group of commonly controlled trades or businesses. Therefore, the requirement of aggregation of employees for purposes of meeting the nondiscrimination and other rules does not apply and the plans established by the corporations need not provide coverage for the rank-and-file employees of the partnership. *Lloyd M. Garland, M.D., F.A.C.S., P.A.*, 73 T.C. 5 (1979).

[35] *Reasons for change*

The committee has determined that the use of separate entities should not permit the avoidance of employee benefit requirements designed to benefit rank-and-file employees under qualified pension, etc., plans, cafeteria and medical reimbursement plans, and simplified employee pensions.

Explanation of provision

The provision expands the classes of controlled groups of employers which are treated as a single employer in testing whether a pension, etc. plan, a cafeteria or medical reimbursement plan, or a simplified employee pension meets the nondiscrimination standards and other requirements of the tax law for favorable tax treatment.

In particular, under the provision, for purposes of the employee benefit requirements,[2] all employees of em-

[1] More favorable tax treatment is provided in the absence of such discrimination. In the case of qualified pension, etc. plans, this treatment includes current deductibility of employer contributions (within limits), deferral of tax on employee benefits, estate and gift tax exclusions, and special 10-year income averaging and tax-free rollovers for lump-sum distributions. In the case of cafeteria and medical reimbursement plans, certain amounts paid by employers to or on behalf of employees are excluded from income. In the case of simplified employee pensions, larger deductions are allowed for certain contributions to an individual retirement account.

[2] The employee benefit requirements consist of (1) in the case of qualified pension, etc., plans, the requirements of section 401 (a)(3), (4), (7), and (16), and sections 410, 411 and 415 (these provisions relate to employee participation and eligibility, discrimination, vesting, and limits on benefits and contributions) and, in the case of a plan adopted by more than one employer,

ployers who are members of an affiliated service group are treated as if they are employed by a single employer. Under the bill, an affiliated service group consists of a specified service organization and one or more adjunct service organizations which are related to the specified service organization.

Under the provision, an employer is a specified service organization if its principal business consists of the performance of specified services, that is, services in the field of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, or any other field designated in Treasury regulations as a field in which separate organizations are used to avoid the employee benefit requirements. Under the provision, an employer is an adjunct service organization if a significant portion of its business consists of the performance of services for a specified service organization and if the services provided by the employer are of a kind historically performed by employees of that type of specified service organization.

Under the provision, an adjunct service organization is related to a specified service organization if (1) the specified service organization regularly uses the services of the adjunct service organization or is regularly associated with the adjunct service organization in performing specified services for third persons, and (2) 10 percent or more of the interests in the adjunct service organization is owned by persons who are (i) individuals performing specified services for the specified service organization or (ii) owners of the specified service organization.

In some cases, a specified service organization is owned by other specified service organizations or a combination of specified service organizations and individuals. Accordingly, in aggregating employers under the provision, all specified service organizations which are shareholders or partners in another specified service organization and which are regularly associated with the other specified organization in per-[36]forming specified services for third persons are treated (1) as part of the other specified service organization, and (2) as members of an affiliated service group which includes the other specified service organization.

Effective date

Generally, the provision applies for plan years ending after July 30, 1980. In the case of a plan in existence on July 30, 1980, the bill applies to plan years beginning after that date.

Revenue effect

It is estimated that the provision will increase budget receipts from the income tax by $50 million in fiscal year 1981, by $75 million in fiscal year 1982, and by $100 million annually in fiscal years 1983 through 1985.

[37] K. Provisions Relating to Employee Stock Ownership and Cafeteria Plans

1. Cash distribution option and put option for stock bonus plans (sec. 221 of the bill and new sec. 401(a)(23) of the Code)

Present law

Under present law, tax-qualified stock bonus plans must generally distribute stock to participants entitled to a distribution. However, a stock bonus plan which is either a tax credit employee stock ownership plan or an employee stock ownership plan may distribute cash, subject to a participant's right to demand that benefits be distributed in the form of employer securities.

Reasons for change

The committee has determined that a tax-qualified stock bonus plan generally should be eligible for the same rules with respect to cash and stock distributions to participants which govern tax credit employee stock ownership plans and employee stock ownership plans.

Explanation of provision

The provision would permit a tax-qualified stock bonus plan to distribute cash to a participant entitled to a distribution, subject to the participant's right to demand that benefits be distributed in the form of employer stock. If a stock bonus plan provides for cash distributions and if stock which is distributed is not readily tradable on an established market, the participant must have the right to require the employer to repurchase the stock.

Effective date

The provision is effective for plan years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will not have any revenue effect.

2. Special limitation for tax credit employee stock ownership plans and employee stock ownership plans (sec. 222 of the bill and sec. 415(c)(6)(A) of the Code)

Present law

Under present law, the dollar limitation on annual additions with respect to a participant in a tax credit employee stock ownership plan or an employee stock ownership plan may be increased, provided certain requirements with respect to allocations of employer contributions are met. The amount of such increase is the lesser of (1) the usual dol-[38]lar limitation on annual additions to a participant's account or (2) the amount of employer securities contributed to the plan.[1]

the requirements of section 412 relating to funding and the limitations of section 404(a) relating to employer deductions, (2) the requirements of section 105(h) for medical reimbursement plans, (3) the requirements of section 125 for cafeteria plans, and (4) the requirements of section 408(k) for simplified employee pensions.

[1] Under prop. reg. § 1.415-6(g)(4)(i) if a contribution of cash is used to purchase employer securities not later than 30 days after the time for filing the employer's tax return (including extensions), then generally the cash contribution is treated as a contribution of employer securities for purposes of the special dollar limitation.

Reasons for change

The committee has determined that it is necessary to make a clarifying change to the rule of present law which allows an increase in the limitation on contributions with respect to a participant in a tax credit employee stock ownership plan or an employee stock ownership plan. The change will make it clear that cash used to purchase employer securities is included for purposes of determining the increased limitation on annual additions to a participant's account.

Explanation of provision

Under the provision, the increase in the dollar limitation on annual additions with respect to a participant in a tax credit employee stock ownership plan or an employee stock ownership plan (provided certain requirements of present law are met with respect to allocations under the plan) would be the lesser of (1) the usual dollar limitation on annual additions to a participant's account, or (2) the amount of employer securities (or cash used to acquire such securities) contributed to the plan.

Effective date

The provision is effective for years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will not have any revenue effect.

3. Valuation of employer securities in tax credit employee stock ownership plans (sec. 223 of the bill and sec. 48(n)(B)(i) of the Code)

Present law

Under present law, the value of employer securities listed on a national exchange which are contributed to a tax credit employee stock ownership plan is the average of closing prices for such securities for the 20 consecutive trading days immediately preceding the due date for filing the employer's tax return for the year (including extensions).

Reasons for change

The committee has decided that the average closing price of employer securities during the 20 trading days preceding the date of contribution to a plan should be used to determine the value of those securities. The committee understands that the provision of present law for valuing readily tradable employer securities contributed to a tax credit employee stock ownership plan generally causes employers to postpone contributions of employer securities to a tax credit employee stock ownership plan until the due date for filing the employer's tax return.

[39] *Explanation of provision*

Under the provision, the value of employer securities listed on a national exchange contributed to a tax credit employee stock ownership plan is the average of the closing prices of such securities for the 20 consecutive trading days immediately preceding the date of contribution to the plan.

Effective date

The provision is effective for taxable years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will not have any revenue effect.

4. Participation of subsidiary corporation in a tax credit employee stock ownership plan (sec. 224 of the bill and sec. 409(1)(4) of the Code)

Present law

The present-law rules governing tax credit employee stock ownership plans permit a 50-percent owned first-tier subsidiary of a parent corporation, and 80-percent owned second and lower-tier subsidiaries, to contribute employer securities of the parent corporation to a tax credit employee stock ownership plan.

Reasons for change

The committee believes that in the case where a first-tier subsidiary corporation owns 50 percent of a second-tier subsidiary and the first-tier subsidiary is 100-percent owned by a parent corporation, sufficient control of the second-tier subsidiary by the parent corporation exists to permit the second-tier subsidiary to contribute employer securities of the parent to a tax credit employee stock ownership plan maintained by the second-tier subsidiary.

Explanation of provision

Under the bill, if a parent corporation owns 100 percent of a first-tier subsidiary and the first-tier subsidiary owns 50 percent of a second-tier subsidiary, the second-tier subsidiary is allowed to contribute employer securities of the parent corporation to its tax credit employee stock ownership plan. In addition, parent stock could be contributed by 80-percent owned lower-tier subsidiaries in this chain.

Effective date

The provision is effective for taxable years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will not have any revenue effect.

5. Retirement savings by tax credit employee stock ownership plan participants (sec. 225 of the bill and sec. 410(b)(1) of the Code)

Present law

Under present law, an employee who is an active participant in a tax-qualified plan during a year is not eligible to make deductible contributions to an IRA (individual retirement account, individual [40] retirement annuity, or retirement bond). Therefore, if an employee is an active participant in a tax-qualified tax credit employee stock ownership plan during a year such employee is ineligible for an IRA deduction. A plan can allow an employee to elect not to participate in a tax credit employee stock ownership plan in order to allow the employee to establish an IRA. However, the plan may be unable to satisfy certain minimum requirements

of the Code relating to employee eligibility for plan participation (sec. 410 (b)(1)) if substantial numbers of employees make such an election.

Reasons for change

The committee has determined that in the case where the only tax-qualified plan maintained by an employer is a tax credit employee stock ownership plan and if the value of employer securities allocated to employees' accounts under the tax credit employee stock ownership plan is relatively low, the minimum coverage requirements for tax-qualification of the tax credit employee stock ownership plan should be modified to permit employees to elect out of the plan, if the plan so provides, to establish IRAs.

Explanation of provision

Under the provision, the minimum coverage requirement for a tax credit employee stock ownership plan is changed, if a tax credit employee stock ownership plan is the only tax-qualified plan maintained by an employer. If employees are permitted to elect out of the tax credit employee stock ownership plan for the purpose of establishing IRAs, the tax credit employee stock ownership plan does not fail to meet the minimum coverage requirements of the Code if the plan benefits at least 50 percent of all employees (excluding employees who have not satisfied the minimum age and service requirements or who are otherwise permitted to be excluded), and if the total allocation under the tax credit employee stock ownership plan are equal to no more than two percent of the compensation of participating employees.

Effective date

The provision is effective for plan years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will decrease budget receipts by less than $5 million annually.

6. Cafeteria plans permitted to provide deferred compensation under rules applicable to cash or deferred profit-sharing and stock bonus plans (sec. 226 of the bill and secs. 125 and 401(k)(2) of the Code)

Present law

A cafeteria plan is an employee benefit plan under which a participant may choose between taxable benefits and one or more nontaxable fringe benefits. Under present law, cafeteria plans are not permitted to provide deferred compensation.

[41] *Reasons for change*

Both cafeteria plans and cash or deferred profit-sharing plans allow employees to choose between current compensation and other benefits. The committee believes that present law is too restrictive because it does not permit employees to choose among currently taxable compensation, deferred compensation, and fringe benefits under a single plan.

Explanation of provision

Under the provision, benefits under a cafeteria plan could include amounts which an employee covered by a profit-sharing or stock bonus plan with a qualified cash or deferred arrangement can elect to have the employer pay as a contribution to a trust under a profit-sharing or stock bonus plan. Amounts contributed by the employer, pursuant to the employee's election, will be treated as nontaxable benefits for purposes of the "cafeteria" plan rules.

Effective date

The provision is effective for taxable years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will decrease budget receipts by less than $5 million annually.

[43] M. Extension of Time To Amend Instruments of Charitable Split-Interests Trusts (sec. 302 of the bill and secs. 170, 2055, 2522 of the Code)

Present law

The Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10] imposed new requirements that must be met in order for a charitable deduction to be allowed for income, gift, and estate tax purposes for the transfer of a split interest to charity (i.e., part charitable and part noncharitable). In the case of a remainder interest in trust, the interest passing to charity must be in either a charitable remainder annuity trust, a charitable remainder unitrust, or a pooled income fund. In the case of an "income" interest passing to charity (i.e., a charitable lead trust), the "income" interest must be either a guaranteed annuity or a fixed percentage of the fair market value of the trust (determined annually). These rules generally apply for estate and gift tax purposes with respect to decedents dying or transfers made after December 31, 1969, and for income tax purposes to contributions and transfers in trust after July 31, 1969. However, certain exceptions were provided in the case of wills executed, or property transferred in trust, on or before October 9, 1969. In general, these exceptions did not apply the new rules to these wills and revocable trusts until October 9, 1972 (unless the will was modified in the meantime), to allow a reasonable period of time to take the new rules into account.

In 1970, the Internal Revenue Service issued proposed regulations with respect to the new requirements for a charitable remainder annuity trust or unitrust (under sec. 664 of the Code). These regulations provided additional transitional rules allowing trusts created after July 31, 1969 (which did not come within the statutory exceptions) to qualify for an income, estate, or gift tax deduction if the governing instrument was amended prior to January 1, 1971. Subsequently, the date by which the governing instrument had to be amended was further extended by the Internal Revenue Service. On August 22, 1972, the Internal Revenue Service issued final regulations which further extended the date to December

31, 1972. On September 5, 1972, the Internal Revenue Service published Rev. Rul. 72-395, 1972-2 C.B. 340, which provided sample provisions for inclusion in the governing instrument of a charitable remainder trust that could be used to satisfy the requirements under Code section 664.

In 1974, Congress extended the date by which the governing instrument of a trust created after July 31, 1969, and before September 21, 1974, or pursuant to a will executed before September 21, 1974, could be amended (P.L. 93-483) [1974-2 C.B. 447]. Under that Act, if the governing instrument was amended to conform by December 31, 1975, to meet the requirements of a charitable remainder annuity trust or unitrust or pooled income fund, an estate tax deduction was allowed for the chari-[44]table remainder interest which passed in trust from the decedent even though the interest failed to qualify at the time of the decedent's death.

The Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1] extended to December 31, 1977, the date by which the governing instrument of a charitable remainder trust created after July 31, 1969, and before December 31, 1977, must be amended in order to qualify as a charitable remainder annuity or unitrust or pooled income fund for purposes of the estate tax deduction. The Act also extended the date in the case of a trust created after July 31, 1969, pursuant to a will executed before December 31, 1977.

In the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1], Congress extended the amendment procedure to instruments establishing charitable lead trusts, and charitable remainder trusts in the case of income and gift taxes, which were created before December 31, 1977 (or created pursuant to a will executed before such date) which were amended (or judicial proceedings to amend were commenced) by December 31, 1978. As part of that provision, the Act extended until December 31, 1978, the time to amend (or to commence judicial proceedings to amend) instruments establishing charitable remainder trusts which were created before December 31, 1977 (or created pursuant to a will executed before such date) in order to conform such instruments to the requirements of the Tax Reform Act of 1969 for a charitable deduction to be allowed for estate tax purposes.

Reasons for change

Since the last extension enacted by Congress, a number of meritorious cases have come to the attention of the committee where amendment of the trust is the only method of preventing charity from bearing the additional estate taxes arising from the loss of the charitable deduction. In addition, the committee understands that the Treasury is studying the possibility of proposing a permanent rule on this issue. Consequently, the committee believes that an additional 2-year period, until December 31, 1980, is appropriate in order to permit the reformation of charitable split interest gifts.

Explanation of provision

The provision extends for 2 years (i.e., until December 31, 1980) the time to amend (or commence judicial proceedings to amend) instruments of both charitable lead trusts and charitable remainder trusts which were created before December 31, 1977 (or which were created pursuant to a will executed before such date) in order to conform such instruments to the requirements of the Tax Reform Act of 1969 for a charitable deduction to be allowed for income, gift, or estate tax purposes.

Effective date

The provision is effective, for estate and gift tax purposes, for decedents dying and transfers after December 31, 1969, and, for income tax purposes, for contributions and transfers in trust after July 31, 1969.

Revenue effect

It is estimated that the provision will decrease budget receipts by $8 million in fiscal year 1981, by $8 million in fiscal year 1982, and will not have any revenue effect thereafter.

Senate Report No. 96-1036
2d Session

[Bracketed numerals indicate official report page numbers]

MISCELLANEOUS REVENUE ACT OF 1980

NOVEMBER 25, 1980

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 7956.[1]

The Committee on Finance, to which was referred the act (H.R. 7956) to make various changes in the tax laws, having considered the same, reports favorably thereon with amendments and recommends that the act as amended do pass.

The amendments are shown in the text of the bill in italic.

House bill.—H.R. 7956, as it passed the House, contained provisions relating to (1) the treatment of certain community income for spouses living apart, (2) amortization of business startup costs, (3) charitable deductions for certain contributions of real property for conservation purposes, (4) investment tax credit for rehabilitated buildings leased to tax-exempt organizations or governmental units, (5) the revision of source rules for income from certain leased aircraft, vessels, and spacecraft, (6) tax rates applicable to nonexempt income of homeowners associations, (7) the tax treatment of certain income of mutual or cooperative telephone and electric companies, (8) the refund of taxes on certain State police officer subsistence allowances, (9) the clarification of the limitation on deductibility of certain entertainment facility expenses includible in income of the recipient, (10) prevention of abuse

[1] Public Law 96-605, page 702. This publication of the committee report is limited to pertinent excerpts.

of certain employee benefit requirements, (11) certain provisions relating to employee stock ownership and cafeteria plans, (12) the election of estate tax alternate valuation, and (13) a two-year extension of time to amend governing instruments of charitable split-interest trusts.

Committee bill.—The committee bill retains most of the provisions of the House bill but (1) postpones for one year (to taxable years beginning after 1980) the provisions relating to the treatment of certain community income for spouses living apart, (2) deletes the [2] provisions relating to contributions of real property for conservation purposes (similar provisions are contained in H.R. 6975 [Pub. L. 96-541, page 12, this Bulletin], as it passed the Senate), (3) deletes the provision relating to the investment tax credit for rehabilitated buildings leased to tax-exempt organizations or governmental units, (4) makes the provision relating to the participation of a subsidiary corporation in a tax credit employee stock ownership plan effective as if that provision had been included in the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1] (rather than for taxable years beginning after December 31, 1980), (5) extends for three years (through 1981) the time for conforming governing instruments of charitable split-interest trusts, (6) adds a provision relating to the investment tax credit for maritime satellites (section 7 of H.R. 4746, as it passed the House), (7) adds a provision relating to the treatment of debt-financed real estate investments by qualified employees' trusts, and (8) adds a provision to repeal the withholding tax on pensions paid to nonresident aliens (previously reported by the committee as section 407 of H.R. 1212 and H.R. 2492).

* * * * *

[5] SEC. 109—EXEMPTION FROM UNRELATED BUSINESS INCOME TAX FOR CERTAIN REAL ESTATE INVESTMENTS OF QUALIFIED EMPLOYEES' TRUSTS

Under present law, a qualified employee trust does not pay tax on its investment income, unless the income is from property that was debt-financed. Income from such property is termed "unrelated business income" in the proportion that the property is debt-financed and is taxed.

The bill provides that, with certain exceptions, debt incurred by a tax-exempt employee trust with respect to real estate investments will not be considered acquisition indebtedness (and, consequently, none of the income from such investments would be subject to the tax on unrelated business income).

Debt does not qualify for this exception, where it is incurred with respect to real property if—

(1) the purchase price is not a fixed amount determined as of the date of acquisition,

(2) the purchase price (or the amount or timing of any payment) is dependent, in whole or in part, upon the future revenues, income, or profits derived from the property,

(3) the property is leased to the transferor (or to a party related to the transferor),

(4) the property is acquired from, or leased to, certain persons who are disqualified persons with respect to the trust, or

(5) the debt is nonrecourse debt owed to the transferor (or a related party) which either

(a) is subordinate to any other indebtedness secured by the property, or

(b) bears a rate of interest significantly less than that which would apply if the financing had been obtained from a third party.

* * * * *

[6] SEC. 207. ELIMINATION OF WITHHOLDING TAX ON PENSIONS PAID TO CERTAIN NONRESIDENT ALIENS

Under present law, a nonresident alien is not subject to U.S. tax on compensation for services performed outside the United States. A nonresident alien is, however, generally subject to a tax of 30 percent on investment income (interest, dividends, etc.) from U.S. sources. If a nonresident alien receives a pension in the form of an annuity from a qualified trust or under a qualified annuity plan, it would generally be subject to the 30-percent withholding tax on the portion [7] of the annuity attributable to U.S. source investment income earned on the contributions while they were held by the trust, unless a statutory or treaty exemption applies. Currently, there is a statutory exemption from tax on a pension paid to a nonresident alien for services performed outside the United States, if, at the time the annuity payments begin, 90 percent or more of the employees for whom contributions or benefits are provided by the plan are citizens or residents of the United States. Also, a number of U.S. tax treaties provide reciprocally that pensions and annuities received by a resident of one country from sources in the other are taxable only by the country of residence.

The committee amendment would expand the statutory exemption from tax for pensions and annuities by making it available to an individual if (1) the recipient's country of residence grants a substantially equivalent exclusion to citizens and residents of the United States or (2) the recipient's country of residence is a "beneficiary developing country" under section 502 of the Trade Act of 1974. This provision would apply to amounts received after July 1, 1979.

II. EXPLANATION OF THE BILL

A. Treatment of Certain Community Income for Spouses Living Apart (sec. 101 of the bill and new sec. 66 of the Code)

* * * * *

Effective date

The provision applies to calendar years beginning after December 31, 1980.

* * * * *

[26] H. Investment Tax Credit for Certain Property Used in Maritime Satellite Communications (sec. 108 of the bill and sec. 48 of the Code)

Present law

Under present law, a credit against tax liability is provided with respect to a taxpayer's investment in certain types of depreciable business assets. Generally, the investment credit rate is 10 percent of qualified investment. Qualifying property for purposes of this investment tax credit includes tangible personal property and other tangible property used as an integral part of certain activities, including the furnishing of communications services. However, property which otherwise qualifies will generally be excluded from the credit if it is used predominantly outside of the United States or is used by a governmental unit or an international organization.

Under provisions enacted in the Revenue Act of 1971 [Pub. L. 92-178, 1972-1 C.B. 443] these exclusions are made inapplicable to any interest of a United States person in communications satellites and property used by the International Telecommunications Satellite Organization (INTELSAT), an international joint venture established to develop and operate the space segment of the global commercial communications satellite system. As a result, the Communications Satellite Corporation (COMSAT) is entitled to the credit for its investments in the INTELSAT system. COMSAT, a private, for-profit corporation created pursuant to the Communications Satellite Act of 1962, is the designated United States participant in INTELSAT.

During the 95th Congress, the International Maritime Satellite Telecommunications Act (P.L. 95-564) amended the Communications Satellite Act of 1962 to designate COMSAT as the United States participant in the International Maritime Satellite Organization (INMARSAT). INMARSAT is an international organization, similar in structure and operation to INTELSAT, which is being established to develop and operate a global maritime satellite telecommunications system.

Reasons for change

The committee believes that it is appropriate to extend the investment credit to interests of United States persons in property used by the International Maritime Satellite Organization.

Explanation of provision

This provision of the bill will make the international organization exclusion under the investment tax credit inapplicable to property used by the International Maritime Satellite Organization [27] (INMARSAT). As a result, the investment tax credit will be available for investments by COMSAT or other United States persons in property owned or used by INMARSAT. This is the same treatment as was provided in 1971 for investments in the INTELSAT system.

Effective date

This provision will apply to taxable years beginning after December 31, 1979.

Revenue effect

It is estimated that this provision will have an insignificant effect on budget receipts through fiscal year 1985.

[28] I. Exemption from Debt-Financed Income Rules for Certain Real Estate Investments of Tax-Exempt Employees' Trusts (sec. 109 of the bill and sec. 514(c) of the Code)

Present law

Generally, any organization which is exempt from Federal income tax under Code section 501(a) is taxed only on income from trades or businesses which are unrelated to the organization's exempt purposes; it is not taxed on passive investment income or income from any trade or business which is related to the organization's exempt purposes.[1]

This scheme of taxation applies to tax-exempt pension, etc. trusts described in Code section 401(a) ("qualified retirement plans") as well as most other tax-exempt organizations (described in the various paragraphs of Code sec. 501(c)).

Before 1969, some exempt organizations had used their tax-exempt status to acquire businesses using debt financing, with the purchase money obligations to be repaid out of tax-exempt profits, for example, as from leasing the assets of acquired businesses to the businesses' former owners.

The Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10] provided (in the so-called "Clay Brown provision") that an exempt organization's income from "debt-financed property," which is not used for its exempt function, is to be subject to tax in the proportion in which the property is financed by debt (Code secs. 512(b)(4) and 514). In general, debt-financed property is defined as any property which is held to produce income and with respect to which there is acquisition indebtedness at any time during the taxable year or during the 12 months prior to disposition if the property is disposed of during the taxable year (Code sec. 514(b)(1)). A debt constitutes acquisition indebtedness with respect to property if the debt was incurred in acquiring or improving the property, or if the debt would not have been incurred "but for" the acquisition or improvement of the property.[2]

There appear to be situations in which the unrelated debt-financed in-

[1] There are some exceptions to the general rule that passive investment income is tax-exempt. For example, social clubs (Code sec. 501(c)(7)) and voluntary employees beneficiary associations (Code sec. 501(c)(9)) are generally taxed on such income. Also, private foundations are subject to an excise tax of 2 percent on their net investment income.

[2] There are several exceptions from the term "acquisition indebtedness." For instance, one exception is indebtedness on property which an exempt organization receives by devise, bequest, or under certain conditions, by gift. Also, the term "acquisition indebtedness" does not include indebtedness which was necessarily incurred in the performance or exercise of the purpose or function constituting the basis of the organization's exemption. Special exceptions are also provided for the sale of annuities and for debts insured by the Federal Housing Administration to finance low- and moderate-income housing.

come provisions may not apply to investments by retirement plans [29] (or other exempt organizations) which are made indirectly through a financial intermediary, for example, through an insurance company segregated asset account (Code sec. 801(g)), rather than made directly.

Reasons for change

The committee believes a limited exception should be made to the debt-financed income rules for certain debt-financed real estate investments by qualified retirement plans. While the "Clay Brown" provisions were designed in part to prevent uncontrolled growth of exempt organizations through investments financed with debt, the exemption for investment income of qualified retirement trusts is an essential tax incentive which is provided to tax-qualified plans in order to enable them to accumulate funds to satisfy their exempt purpose —the payment of employee benefits. Accordingly, the committee believes that it is inappropriate to continue the present law restrictions on debt-financed income to the extent that they discourage prudent debt-financed real estate investments by these trusts.

Trustees of these plans are desirous of investing in real estate for diversification and to offset inflation. Debt-financing is common in real estate investments. (For example, a debt-financed real estate acquisition by a trust may be economically advantageous if it can be made by assuming or taking subject to a favorable existing mortgage on the property.)[3] The committee also believes that, in order to alleviate a competitive problem, it is appropriate to allow qualified plans to make debt-financed investments directly.

The committee believes that specifically drawn prohibitions of debt-financed acquisitions with certain characteristics can eliminate the most egregious abuses addressed by the 1969 legislation while at the same time exempting from tax the income from debt-financed real estate received by qualified retirement plans.

The committee believes that it is appropriate to limit this change to real estate investments of qualified retirement trusts because, in addition to the considerations discussed above, the assets of such trusts will ultimately be used to pay taxable benefits to individual recipients whereas the investment assets of other organizations exempt under Code section 501(a) are not likely to be used for the purpose of providing benefits taxable at individual rates.[4]

[30] *Explanation of provision*

The bill provides that, with certain exceptions, indebtedness incurred by a qualified trust as a result of the acquisition or improvement of real property will not be considered "acquisition indebtedness." [5] Thus, income or gain received from or with respect to such debt-financed real property will not be treated as income from debt-financed property.

For these purposes, "real property" is intended to encompass interests in real property, including sole fee ownership, as well as interests in joint ventures and partnerships which acquire real estate for investment.

The bill provides that in five types of situations the new exception to the general definition of acquisition indebtedness will not apply.

The first situation is one in which the acquisition price is not a fixed amount determined as of the date of acquisition. However, the fact that the terms of a sales contract provide for price adjustments due to customary closing adjustments (such as proration of property taxes), as well as price adjustments, in an amount fixed in the contract, dependent upon subsequent resolution of limited, external contingencies such as zoning approvals, title clearances, and the removal of easements, will not cause the acquisition price to be treated as not being a fixed amount determined as of the date of acquisition.

The second situation is where either the amount of any indebtedness, the amount payable in respect of the indebtedness, or the time for making any payments, is dependent (in whole or in part) upon the future revenues, income, or profits derived from debt-financed real property. Accordingly, a trust's income or gain from the debt-financed "bootstrap" acquisitions will continue to be subject to tax.

The third type of situation is where the property is leased by the trust to the seller, or to a person related to the seller. The attribution rules of Code section 267(b) are applied to determine whether a person is related to the seller. Accordingly, a qualified trust's income or gain from "sale-leaseback" transactions will not be exempt from the tax on unrelated debt-financed income.

A fourth situation in which the exemption to the acquisition indebtedness rule will not apply is if the property is acquired by a qualified trust from a person related to the plan under which the trust is formed or if such property is leased to such a related person. For these purposes, related persons include (1) an employer any of whose employees are covered by the plan (Code sec. 4975(e)(2)(C)), (2) a person which has a 50 percent or more ownership interest in

[3] It may also be argued that if a qualified trust is subject to tax on a portion of the income from debt-financed real estate, it would be at a competitive disadvantage when compared to a taxable investor because the trust could use only straight line depreciation while other taxpayers can utilize accelerated depreciation under some circumstances. This argument overlooks the fact that, in many cases, component depreciation may be utilized to achieve a degree of acceleration which may be comparable to that achievable under accelerated methods of depreciation.

[4] Thus, exempting income of qualified trusts (much of which may be capital gains) will normally result only in deferral and, because of a change in character, may eventually be taxed at higher rates to the individuals than it would have been to the trust. By contrast, exempting debt-financed income of other tax-exempt organizations from unrelated business income tax is not likely to result in a later increase of taxable income of others.

[5] This provision is not intended to affect the definition of acquisition indebtedness in other circumstances, such as where the indebtedness relates to personal property. See *Elliott Knitwear Profit Sharing Plan* v. *Commissioner*, 614 F. 2d 347 (3rd Cir. 980) aff'g 17 T.C. 765 (1979).

such an employer or in which the employer has a 50 percent or more interest (Code secs. 4975(e)(2)(E) and (G)), (3) a member of the family of any individual described in (1) or (2) (Code sec. 4975(e)(2)(F)), or (4) an officer, director, 10 percent or more shareholder, or a highly compensated employee of a person described in (1) or (2) (Code sec. 4975(e)(2)(H)). This restriction is necessary because sales of prop- [31] erty at bargain rates to the trust (and certain types of leases) would permit an employer to make indirect contributions to the trust in excess of the amounts otherwise permitted by the Code and obtain the effect of allowance of a deduction (by reduction in purchase price) for excessive contributions. This also could result in discriminatory contributions in favor of employees who are officers, shareholders or highly compensated as well as avoidance of limitations on contributions and benefits.

The final situation where the new exception will not apply is where the seller, a person related to the seller (under Code sec. 267(b)), or a person related to the plan (under the rules described in the preceding paragraph) provides nonrecourse financing for the transaction, and either (1) the debt is subordinate to any other indebtedness on the property or (2) the debt bears interest at a rate which is significantly less than the rate available from unrelated parties at the time the indebtedness is incurred. This provision is intended to prevent the use of inflated purchase prices—with the seller providing financing at favorable rates while receiving increased income taxable as capital gains—and not to preclude a qualified trust from obtaining a favorable rate of interest. Accordingly, a rate of interest obtained from a seller that is not less than 90 percent of the rate of interest that could be obtained from an unrelated party for a comparable type of loan at the time the indebtedness was incurred will not be considered to be "significantly less."

In the case of real property investments made through joint ventures or partnerships, the debt of the venture or partnership is intended to be treated as debt of the venturers or partners in a manner similar to the provisions of Code section 752 and the regulations thereunder. After such attribution, the debt will be tested to determine whether the tests for the exception from the definition of acquisition indebtedness are satisfied.

Effective date

These provisions apply to taxable years beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will reduce budget receipts by less than $10 million annually in fiscal years 1981 through 1985. It could cause significant revenue losses in later years.

[37] K. Elimination of Withholding Tax on Pensions Paid to Certain Nonresident Aliens

(Sec. 207 of the bill and sec. 871 of the Code)

Present law

Under present law, a nonresident alien is not subject to U.S. tax on compensation for services performed outside the United States (or certain *de minimis* services performed in the United States for a foreign employer). He is, however, generally subject to a tax of 30 percent on his investment income (interest, dividends, etc.) from U.S. sources.

If a nonresident alien receives a pension in the form of an annuity from a qualified trust or under a qualified annuity plan, and the pension is attributable to services performed outside the United States, he generally would not be subject to U.S. tax on the portion of the annuity which is attributable to his contributions or to his employer's contributions under the plan. However, he would generally be subject to the 30-percent withholding tax on the portion of the annuity attributable to investment income earned on the contributions while they were invested, unless a statutory or treaty exemption applies. Currently, there is a statutory exemption from tax on a pension paid to a nonresident alien for services performed outside the United States (or *de minimis* services within the United States for a foreign employer) if, at the time the annuity payments begin, 90 percent or more of the employees for whom contributions or benefits are provided by the plan are citizens or residents of the United States. (Sec. 871(f).) Also, a number of U.S. tax treaties provide reciprocally that pensions and annuities received by a resident of one country from sources in the other are taxable only by the country of residence.

Reasons for change

The committee believes that a pension paid to a nonresident alien should be exempt from withholding where his country of residence has unilaterally by its internal law enacted a provision granting the same relief to U.S. citizens and residents. Also, the committee believes that employers should be encouraged to provide pensions for their employees in certain developing countries.

Explanation of provision

The provision would expand the statutory exemption from tax for pension annuities by making it available to an individual if (a) the country of residence of the individual grants a substantially equivalent exclusion to citizens and residents of the United States or (b) the recipient's country of residence is a "beneficiary developing country" under section 502 of the Trade Act of 1974.[1]

[1] The following countries and territories are designated beneficiary developing countries for purposes of the Generalized System of Preferences, provided for in Title V of the Trade Act of 1974, 19 U.S.C. § 2461 *et seq.* (as designated in Executive Order No. 11888, November 24, 1975, as amended*):

Independent countries

Afghanistan, Angola, Argentina, Baha-

Effective date

The provision would apply to amounts received after July 1, 1979.

Revenue effect

It is estimated that this provision will decrease budget receipts by less than $5 million annually in fiscal years 1981 through 1985.

Public Law 96-608
96th Congress, H.R. 5973 [1]
December 28, 1980

An Act to amend the Internal Revenue Code of 1954 to waive in certain cases the residency requirements for deductions or exclusions of individuals living abroad, to allow the tax-free rollover of certain distributions from money purchase pension plans, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. RESIDENCY REQUIREMENTS FOR DEDUCTIONS OR EXCLUSIONS OF INDIVIDUALS LIVING ABROAD.

(a) GENERAL RULE. — Subsection (j) of section 913 of the Internal Revenue Code of 1954 (relating to deduction for certain expenses of living abroad) is amended by adding at the end thereof the following new paragraph:

"(4) WAIVER OF PERIOD OF STAY IN FOREIGN COUNTRY.—For purposes of paragraphs (1) and (2) of subsection (a), an individual who—

"(A) for any period is a bona fide resident of or is present in a foreign country,

"(B) leaves such foreign country after August 31, 1978—

"(i) during any period during which the Secretary determines, after consultation with the Secretary of State or his delegate, that individuals were required to leave such foreign country because of war, civil unrest, or similar adverse conditions in such foreign country which precluded the normal conduct of business by such individuals, and

"(ii) before meeting the requirements of such paragraphs (1) and (2), and

"(C) establishes to the satisfaction of the Secretary that he could reasonably have been expected to have met such requirements but for the conditions referred to in clause (i) of subparagraph (B),

shall be treated as having met such requirements with respect to the period described in subparagraph (A) during which he was a bona fide resident or was present in the foreign country."

(b) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1977.

(2) APPLICATION FOR PURPOSES OF SECTION 911.—In the case of an individual who leaves the foreign country after August 31, 1978, rules similar to the rules of section 913(j)(4) of the Internal Revenue Code of 1954 (as added by subsection (a)) shall apply for purposes of applying section 911 of such Code for taxable years beginning in 1977 or 1978.

SEC. 2. ROLLOVER TREATMENT FOR CERTAIN DISTRIBUTIONS FROM MONEY PURCHASE PENSION PLANS.

(a) GENERAL RULE. — Paragraph (6) of section 402(a) of the Internal Revenue Code of 1954 (relating to special rollover rules) is amended by adding at the end thereof the following new subparagraph:

"(E) SPECIAL RULE WHERE EMPLOYER MAINTAINS MONEY PURCHASE PLAN AND OTHER PENSION PLAN.—

"(i) IN GENERAL.—In the case of any distribution from a money purchase pension plan which is maintained by an employer, for purposes of paragraph (5)(D)(i)(II), subsection (e)(4)(C) shall be applied by not taking into account any pension plan maintained by such employer which is not a money purchase pension plan. The preceding sentence shall not apply to any distribution which is a qualifying rollover distribution without regard to this subparagraph.

"(ii) TREATMENT OF SUBSEQUENT DISTRIBUTIONS.—If—

"(I) any distribution of the balance to the credit of an employee from a money purchase pension plan main-

[1] Pertinent excerpts from Senate Report No. 96-1031, page 730, and House Report No. 96-689, page 736.

tained by an employer is treated as a qualifying rollover distribution by reason of clause (i), and

"(II) any portion of such distribution is transferred in a transfer to which paragraph (5)(A) applies,

then paragraph (2) of subsection (a), and paragraphs (1) and (3) of subsection (e), shall not apply to any distribution (after the taxable year in which the distribution described in subparagraph (A) of paragraph (5) is made) of the balance to the credit of such employee from any other pension plan maintained by such employer."

(b) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply to payments made in taxable years beginning after December 31, 1978.

(2) TRANSITIONAL RULE.—In the case of any payment made before January 1, 1982, in a taxable year beginning after December 31, 1978, which is treated as a qualifying rollover distribution (as defined in section 402(a)(5)(D)(i) of the Internal Revenue Code of 1954) by reason of the amendment made by subsection (a), the applicable period specified in section 402(a)(5)(C) of such Code shall not expire before the close of December 31, 1981.

SEC. 3. TREATMENT OF CERTAIN REPAYMENTS OF SUPPLEMENTAL UNEMPLOYMENT COMPENSATION BENEFITS.

(a) GENERAL RULE.—Section 62 of the Internal Revenue Code of 1954 (defining adjusted gross income) is amended by inserting after paragraph (15) the following new paragraph:

"(16) CERTAIN REQUIRED REPAYMENTS OF SUPPLEMENTAL UNEMPLOYMENT COMPENSATION BENEFITS.—The deduction allowed by section 165 for the repayment to a trust described in paragraph (9) or (17) of section 501(c) of supplemental unemployment compensation benefits received from such trust if such repayment is required because of the receipt of trade readjustment allowances under section 231 or 232 of the Trade Act of 1974 (19 U.S.C. 2291 and 2292) [Pub. L. 93-618, 1975-1 C.B. 501]."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to repayments made in taxable years beginning after the date of the enactment of this Act.

SEC. 4. TAX TREATMENT OF EXPENSES IN ATTENDING FOREIGN CONVENTIONS.

(a) IN GENERAL—Subsection (h) of section 274 of the Internal Revenue Code of 1954 (relating to attendance at foreign conventions, etc.) is amended to read as follows:

"(h) ATTENDANCE AT CONVENTIONS, ETC.—

"(1) IN GENERAL.—In the case of any individual who attends a convention, seminar, or similar meeting which is held outside the North American area, no deduction shall be allowed under section 162 or 212 for expenses allocable to such meeting unless the taxpayer establishes that the meeting is directly related to the active conduct of his trade or business or to an activity described in section 212 and that, after taking into account in the manner provided by regulations prescribed by the Secretary—

"(A) the purpose of such meeting and the activities taking place at such meeting,

"(B) the purposes and activities of the sponsoring organizations or groups,

"(C) the residences of the active members of the sponsoring organization and the places at which other meetings of the sponsoring organization or groups have been held or will be held, and

"(D) such other relevant factors as the taxpayer may present,

it is as reasonable for the meeting to be held outside the North American area as within the North American area.

"(2) CONVENTIONS ON CRUISE SHIPS.—In the case of any individual who attends a convention, seminar, or other meeting which is held on any cruise ship, no deduction shall be allowed under section 162 or 212 for expenses allocable to such meeting.

"(3) DEFINITIONS.—For purposes of this subsection—

"(A) NORTH AMERICAN AREA.—The term 'North American area' means the United States, its possessions, and the Trust Territory of the Pacific Islands, and Canada and Mexico.

"(B) CRUISE SHIP.—The term 'cruise ship' means any vessel sailing within or without the territorial waters of the United States.

"(4) SUBSECTION TO APPLY TO EMPLOYER AS WELL AS TO TRAVELER.—

"(A) Except as provided in subparagraph (B), this subsection shall apply to deductions otherwise allowable under section 162 or 212 to any person, whether or not such person is the individual attending the convention, seminar, or similar meeting.

"(B) This subsection shall not deny a deduction to any person other than the individual attending the convention, seminar, or similar meeting with respect to any amount paid by such person to or on behalf of such individual if includible in the gross income of such individual. The preceding sentence shall not apply if the amount is required to be included in any information return filed by such person under part III of subchapter A of chapter 61 and is not so included.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) of this section shall apply to conventions, seminars, and meetings beginning after December 31, 1980, except that in the case of any convention, seminar, or meeting beginning after such date which was scheduled on or before such date, a person, in such manner as the Secretary of the Treasury or his delegate may prescribe, may elect to have the provisions of section 274(h) of the Internal Revenue Code of 1954 be applied to such convention, seminar or meeting without regard to such amendment.

SEC. 5. TAXES ON SELF-DEALING IN THE CASE OF CERTAIN LEASES.

Section 4941(d)(2) of the Internal Revenue Code of 1954 (relating to

special rules in the case of self-dealing) is amended—

(1) by striking out "and" at the end of subparagraph (F);

(2) by striking out the period at the end of subparagraph (G) and inserting a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(H) the leasing by a disqualified person to a private foundation of office space for use by the foundation in a building with other tenants who are not disqualified persons shall not be treated as an act of self-dealing if—

"(i) such leasing of office space is pursuant to a binding lease which was in effect on October 9, 1969, or pursuant to renewals of such a lease;

"(ii) the execution of such lease was not a prohibited transaction (within the meaning of section 503 (b) or any corresponding provision of prior law) at the time of such execution; and

"(iii) the terms of the lease (or any renewal) reflect an arm's-length transaction."

SEC. 6. TREATMENT OF CERTAIN INDEBTNESS INCURRED BEFORE 1965 FOR PURPOSES OF SECTION 514.

(a) GENERAL RULE. For purposes of applying section 514 of the Internal Revenue Code of 1954 with respect to any sale of real property during 1976, indebtedness incurred before January 1, 1965, by an organization to finance the construction of a building on such property shall not be treated as acquisition indebtedness if the parcel of real property on which such building was constructed—

(1) was acquired by such organization before January 1, 1952, and

(2) is contiguous to another parcel of real property which—

(A) was acquired by such organization before January 1, 1952, and

(B) was used by such organization, on January 1, 1952 and at all times thereafter before the date of the enactment of this Act, in a manner which meets the requirements of section 514(b)(1)(A) of such Code (relating to property used in carrying out exempt purpose).

(b) EFFECTIVE DATE.—The provisions of subsection (a) shall apply to sales during calendar year 1976.

Approved December 28, 1980.

Senate Report No. 96-1031 2d Session

[Bracketed numerals indicate official report page numbers]

TAX TREATMENT OF CERTAIN INDIVIDUALS LIVING ABROAD AND CERTAIN PENSION PLAN DISTRIBUTIONS

NOVEMBER 24 (legislative day, NOVEMBER 20), 1980

Mr. LONG, from the Committee on Finance, submited the following report to accompany H.R. 5973.[1]

The Committee on Finance, to which was referred the bill (H.R. 5973) to amend the Internal Revenue Code of 1954 to waive in certain cases the residency requirements for deductions or exclusions of individuals living abroad, to allow the tax-free rollover of certain distributions from money purchase pension plans, and for other purposes, having considered the same, report favorably thereon with amendments and recommend that the bill, as amended, do pass.

The amendments are shown in the text of the bill in italic.

House bill.—H.R. 5973, as passed by the House, dealt with (1) waiver of time limits in foreign residence or presence requirement for Americans working abroad, (2) treatment of certain distributions from money purchase pension plans, (3) application of targeted jobs credit to certain youth, and (4) treatment of certain indebtedness incurred by a tax-exempt organization for purposes of Code section 514.

Committee bill.—The committee bill retains the first two provisions of the House bill, deletes the third provision (previously enacted in H.R. 2797, P.L. 96-222 [1980-1 C.B. 499, 542]), and also deletes the fourth provision of the House bill. In addition, the committee bill includes tax provisions relating to the treatment of certain repayments of supplemental unemployment compensation benefits (sec. 5 of H.R. 4746, as passed the House), treatment of foreign convention expenses, and an exception to private foundation "self-dealing" rules for continuation of certain leasing arrangements (previously reported by the committee as sec. 202 of H.R. 2297).

[1] Public Law 96-608, page 728.

[2] I. SUMMARY

SECTION 1. WAIVER OF TIME LIMITS IN FOREIGN RESIDENCE OR PRESENCE REQUIREMENTS FOR AMERICANS WORKING ABROAD

This section would permit the waiver of the minimum time limits in the foreign residence or presence eligibility requirements for Americans working abroad to obtain the benefits of the deduction for excess foreign living costs or the exclusion for foreign earned income. The waiver generally would be available to Americans working abroad who could reasonably have been expected to meet those eligibility requirements, but who left the foreign country under conditions of war, civil unrest, or similar conditions which precluded the normal conduct of business.

SEC. 2. SPECIAL RULE FOR CERTAIN DISTRIBUTIONS FROM MONEY PURCHASE PENSION PLANS

Under present law, if an employer maintains a tax-qualified defined benefit pension plan and a tax-qualified money purchase pension plan, and if an employee is covered by both plans, a total distribution of the balance of the employee's interest in the money purchase plan to the employee (or the employee's spouse on account of the employee's death) is not eligible to be rolled over tax free to an individual retirement account or to another qualified plan unless a total

distribution is also made from the defined benefit plan in the same taxable year. This section would allow an employee (or a deceased employee's spouse) to make a tax-free rollover of a total distribution from a qualified money purchase plan where the employee is also covered by a qualified defined benefit plan maintained by the same employer even though a total distribution is not made from the defined benefit plan in the same taxable year.

SEC. 3. TREATMENT OF CERTAIN REPAYMENTS OF SUPPLEMENTAL UNEMPLOYMENT COMPENSATION BENEFITS

Under present law, if a worker who has been laid off is required to pay back supplemental unemployment compensation benefits because of the subsequent receipt of trade readjustment assistance, the worker may be entitled to tax relief in the year of repayment under a special tax computation for cases where the taxpayer restores a substantial amount held under a claim of right (Code sec. 1341). However, if the amount of supplemental unemployment compensation benefits required to be paid back by the worker is $3,000 or less, the worker may receive no tax relief for the repayment of previously taxed amounts unless itemized deductions are claimed.

This section of the bill would allow a deduction from gross income for the repayment of supplemental unemployment compensation benefits if the repayment is required because of the receipt of trade readjustment allowances.

[3] SEC. 4. TAX TREATMENT OF EXPENSES FOR ATTENDING FOREIGN CONVENTIONS

Present law provides specific rules (Code sec. 274(h)) limiting the deduction for expenses of attending conventions, seminars, or similar meetings held outside the United States, its possessions, and the Trust Territory of the Pacific. These rules apply not only to the individuals attending the convention, but also to an employer who pays the expenses.

Under this section of the bill, no deduction is to be allowed for expenses allocable to a convention, seminar, or similar meeting held outside the North American area unless, taking certain factors into account, it is "as reasonable" for the meeting to be held outside the North American area as within it. The two-convention rule of present law is repealed. Under the provision, a convention will not be treated as a foreign convention unless it is held outside the United States, its possessions, and the Trust Territory of the Pacific, and Canada and Mexico. The section also repeals the subsistence expense limitations, the coach fare limitations, and special reporting requirements [under] present law.

This provision is effective with respect to foreign conventions attended after December 31, 1980. Where a taxpayer has made plans to attend a foreign convention and such foreign convention was planned prior to December 31, 1980, such convention is grandfathered under the terms of this provision.

SEC. 5. EXCEPTION TO PRIVATE FOUNDATION "SELF-DEALING" RULES FOR CONTINUATION OF CERTAIN LEASING ARRANGEMENTS

Present law generally prohibits certain "self-dealing" transactions, including leasing arrangements, between a private foundation and a "disqualified person." There is a 10-year transitional rule that permits continuation of an otherwise prohibited leasing arrangement pursuant to a binding contract in effect on October 9, 1969 (or pursuant to renewals of such contract), if the leasing arrangement is at least as favorable to the foundation as an arm's length transaction with an unrelated party, and if the arrangement was not a prohibited transaction at its inception.

The provision would allow a permanent exception from the "self-dealing" rules under Code section 4941 in certain circumstances where a private foundation leases office space from a disqualified person, if (1) the lease is pursuant to a binding contract in effect on October 9, 1969 (or renewals thereof), (2) at the time of execution the lease was not a prohibited transaction, and (3) the space is leased to the foundation on a basis no less favorable than that on which such space would be made available in an arm's-length transaction. For the lease to qualify for this exception, the leased space must be in a building in which there are tenants who are not disqualified persons.

This provision would apply to the Moody Foundation of Galveston, Texas, and any other private foundation leasing arrangement meeting the specific requirements of the bill. The provision becomes effective for taxable years beginning after December 31, 1979.

[4] II. EXPLANATION OF THE BILL

A. Waiver of Time Limits in Foreign Residence or Presence Requirement for Americans Working Abroad (sec. 1 of the bill and sec. 913 of the Code)

Present law

Prior to enactment of the Foreign Earned Income Act of 1978 [Pub. L. 95-615, 1978-2 C.B. 415], an American who was present in a foreign country or countries for at least 510 full days during any period of 18 consecutive months, or who was a *bona fide* resident of a foreign country or countries for an uninterrupted period which included an entire taxable year, was entitled to exclude up to a flat amount (generally $20,000) per year of his foreign earned income (sec. 911).

The 1978 Act retained these eligibility requirements but changed the special provisions for Americans working abroad. Generally, qualifying individuals are allowed a deduction for their excess foreign costs of living. The new excess living cost deduction (new sec. 913) consists of separate elements for the general cost of living, housing, education, and home leave costs. In addition, taxpayers living and working in certain hardship areas are allowed

a special $5,000 deduction in order to compensate them for the hardships involved and to encourage U.S. citizens to accept employment in these areas. As an exception to these new rules, the Act permits employees who reside in camps in hardship areas to elect to claim a $20,000 earned income exclusion (under sec. 911) in lieu of the new living cost and hardship area deductions. As noted above, the foreign presence or residence criteria of prior law continue to determine whether or not Americans working abroad qualify for the special deduction or exclusion.

If a taxpayer working abroad is "temporarily" away from home in pursuit of a trade or business, the taxpayer generally may deduct traveling expenses (including amounts spent for meals and lodging) for himself but generally not for family members who accompany him. The taxpayer's "home" for this purpose is generally his principal place of employment. While a determination of whether the taxpayer is "temporarily" away from home depends on all the facts and circumstances, and has frequently been the subject of litigation. The Internal Revenue Service often holds that the taxpayer is "temporarily" away from home if his employment is not anticipated to, and does not actually, last more than a year. Otherwise, the Service ordinarily views the taxpayer as not being "temporarily" away from home if his employment is not anticipated to, and does not actually, last more than a year. Otherwise, the Service ordinarily views the taxpayer as not [5] being temporarily away from home and not entitled to these deductions.[1] A number of items in the deduction for excess foreign living costs are measured with reference to the location of the individual's tax home.

Reasons for change

Because of the recent civil unrest in Iran, a number of Americans who were working there with the expectation of meeting the foreign residence or presence requirements returned to the United States prior to the time that those requirements actually were met. The committee believes that, in a case where an individual goes abroad with the expectation of meeting the foreign residence or presence requirements, but fails to meet those requirements because of extraordinary circumstances beyond his control, relief should be afforded from the time limitations because of the special circumstances involved. However, the committee does not intend that this provision be considered as a precedent for other legislative changes.

Explanation of provision

This provision would provide that, under certain circumstances, the time limits of the foreign residence or presence eligibility requirements for the deduction for excess foreign living costs or the exclusion for foreign earned income may be waived. Three conditions must be met for the waiver to apply. First, the individual actually must have been a *bona fide* resident of, or present in, a foreign country. Second, he must leave the foreign country after August 31, 1978, during a period with respect to which the Treasury Department determines, after consultation with the State Department, that individuals were required to leave the foreign country because of war, civil unrest, or similar adverse conditions in the foreign country which precluded the normal conduct of business by those individuals. It is anticipated, for example, that such determinations ordinarily would be made in situations where the State Department issues a travel advisory recommending that U.S. citizens avoid travel to a country because of unsettled conditions there. Third, the individual must establish to the satisfaction of the Treasury that he could reasonably have been expected to meet the time limitation requirements, but for the war, civil unrest, or similar adverse conditions. An individual who could reasonably have been expected to be present in a foreign country for a period of 17 out of 18 months or a *bona fide* resident of that country for an entire taxable year would be considered to have his tax home in that country for purposes of the excess living cost deduction rather than being considered to be temporarily present in that country. If these criteria are met, the taxpayer would be treated as having met the foreign residence or presence requirements with respect to the period during which he was a *bona fide* resident or was present in the foreign country even though the relevant time limitation under existing law had not been met.

[6] *Effective date*

With respect to the deduction for excess foreign living costs and the $20,000 annual exclusion as amended by the Foreign Earned Income Act of 1978, the provision would apply to taxable years beginning after December 31, 1977 (the general effective date for those provisions). Similar rules also are to be applied for taxable years beginning in 1977 or 1978 in the case of individuals who would otherwise be eligible for the exclusion of foreign earned income (sec. 911) as in effect prior to the 1978 Act, including taxpayers who, for 1978, elect the exclusion as amended by the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1].

Revenue effect

This provision will have no effect upon budget receipts. It forgives an unanticipated one-time tax increase of $10 million attributable to calendar 1979 tax liability.

[7] B. Special Rule for Certain Distributions From Money Purchase Pension Plans (sec. 2 of the bill and sec. 402 of the Code)

Present law

An employee who receives a lump sum distribution from a tax-qualified pension, profit-sharing, or stock bonus plan may defer tax on the distribution by rolling over the proceeds (net of any employee contributions) within 60 days of receipt (1) to an IRA (an individual retirement account, annuity, or bond), or (2) to another employer-

[1] Rev. Rul. 60-189, 1960-1 C.B. 60.

sponsored qualified pension, etc., plan.[1] The rollover rule also applies to the spouse of an employee who receives a lump sum distribution on account of the employee's death. A lump sum distribution from a qualified plan is eligible for favorable income tax treatment (e.g., 10-year income-averaging) if no portion of the distribution is rolled over.

A lump sum distribution must be a distribution of the balance to the credit of an employee under a qualified pension, etc., plan, made within one taxable year of the recipient. Generally, the distribution must have been made on account of death or separation from service, or after the employee attains age 59½. If an employer maintains more than one qualified plan of the same type, the plans are aggregated for the purpose of determining whether the balance to the credit of an employee has been distributed. Under the aggregation rules, all pension plans (defined benefit and money purchase) maintained by the employer are treated as a single plan, all profit-sharing plans maintained by the employer are treated as a single plan, and all stock bonus plans maintained by the employer are treated as a single plan.

Reasons for change

The committee believes that the present lump sum distribution rollover rules are too restrictive.

Explanation of provision

This provision would allow an employee who receives a total distribution from a money purchase pension plan (which is otherwise eligible for taxfree rollover treatment) to roll over the distribution to an IRA or to another qualified plan where the employer also maintains a defined benefit pension plan covering the employee even though a total distribution is not made from the defined benefit plan in the same taxable year. The provision also would apply to the spouse of an employee if the spouse receives such a total distribution on account of the employee's death.

[8] If the recipient rolls over a total distribution from a money purchase pension plan and, in a subsequent taxable year, receives a total distribution from a defined benefit pension plan maintained by the employer, the later plan distribution could be rolled over tax free (if it otherwise meets the requirements for a tax-free rollover) but otherwise would not be eligible for the favorable income tax treatment accorded lump sum distributions.

Effective date

Generally, this provision would apply to payments made in taxable years beginning after December 31, 1978. In the case of such payments made before January 1, 1981, the period for making a rollover would not expire before December 31, 1980.

Revenue effect

It is estimated that this provision would reduce budget receipts by less than $5 million annually.

[9] C. Treatment of Certain Repayments of Supplemental Unemployment Compensation Benefits (sec. 3 of the bill and sec. 62 of the Code)

Present law

Under present law, workers who are laid off may become entitled to taxable supplemental unemployment compensation benefits[1] during periods for which they are laid off. Subsequently, they may receive trade readjustment assistance,[2] which generally is nontaxable (except to the extent otherwise provided in section 85 of the Code). When this occurs, those workers may be required to pay back the supplemental unemployment benefits they previously received.

If repayment is made by a worker, a deduction is allowable (under section 165 of the Code) for the repayment. In addition, a special relief provision relating to the computation of tax where the taxpayer restores a substantial amount held under a claim of right may apply (Code sec. 1341).

Under the special relief provision, if the worker pays back more than $3,000 of supplemental unemployment compensation benefits, income tax for the taxable year of repayment may be computed by claiming an itemized deduction for the repayment or, if a greater benefit is derived, the tax for the current year may be reduced by the amount of tax for the prior taxable year which was attributable to the inclusion of such benefits in gross income. However, this special tax computation is not available if the repayment does not exceed $3,000. In this case, no relief is available for the repayment of amounts previously included in gross income unless the worker claims itemized deductions for the taxable year in which the repayment is made.

Reasons for change

The committee believes that relief should be available to all workers who are required to pay back supplemental unemployment compensation benefits because of the subsequent receipt of trade readjustment assistance.

[1] A rollover to a plan is not permitted if any part of the lump sum distribution represents contributions made while the employee was self-employed.

[1] These benefits generally are paid by trusts exempt from taxation under Code sec. 501(c)(17) or by voluntary employees' beneficiary associations exempt from taxation under Code sec. 501(c)(9).

[2] Under the Trade Act of 1974 [Pub. L. 93-618, 1975-1 C.B. 501], benefits are provided to workers who are separated from their jobs as a result of the adverse effect of increased imports. The worker's separation must be due to lack of work in adversely affected employment, and covered under a certification of eligibility. In the 52 weeks preceding his qualifying separation, he must have had at least 26 weeks of employment at wages of $30 or more a week in adversely affected employment with a single firm. Benefits under the Trade Act equal 70 percent of the worker's average weekly wage, but may not exceed the average weekly manufacturing wage. Benefits are reduced by 50 percent of any earnings during the week for which benefits are provided. These benefits generally are payable for up to 52 weeks, and also are provided in the form of training allowances, job search allowances, and relocation allowances.

[10] *Explanation of provision*

The bill amends section 62 of the Code to allow a deduction from gross income for the repayment of supplemental unemployment compensation benefits if the repayment is required because of the receipt of trade readjustment allowances under sections 231 or 232 of the Trade Act of 1974 [Pub. L. 93-618, 1975-1 C.B. 501]. Qualifying repayments would be those made to trusts exempt from taxation under section 501(c)(17) of the Code or to voluntary employees' beneficiary associations exempt from taxation under section 501(c)(9) of the Code.

In the case of a repayment of more than $3,000 of supplemental unemployment compensation benefits, the taxpayer will continue to have the option of computing tax for the current taxable year under existing provisions for restoration of amounts held under a claim of right (Code sec. 1341).

Effective date

The provision will apply to repayments made in taxable years beginning after the date of enactment.

Revenue effect

It is estimated that this provision will reduce budget receipts by $5 million annually.

[11] D. Tax Treatment of Expenses for Attending Foreign Conventions (sec. 4 of the bill and sec. 274 of the Code)

Present law

Present law provides specific rules (sec. 274(h)) limiting the deduction for expenses of attending conventions, seminars, or similar meetings held outside the United States, its possessions, and the Trust Territory of the Pacific. These rules apply not only to the individuals attending the convention, but also to an employer who pays the expenses. Under these rules:

(1) No deduction is allowed for expenses paid or incurred by an individual in attending more than two foreign conventions in any taxable year.

(2) With respect to the two conventions for which a deduction is allowable, the amount of expenses that can be deducted for transportation and subsistence are limited. A deduction for transportation expense outside the United States may not exceed the coach or economy rates charged by a commercial airline. The deduction for subsistence may not exceed the dollar per diem rate established for Federal employees at the location at which the convention is held.

(3) A deduction is allowed for subsistence expenses for all of the days, or half days, as the case may be, of the convention, if (a) a full day or half-day of business activities are scheduled on each day during the convention, and (b) the individual attends at least two-thirds of the total hours of scheduled business activities at the convention. Otherwise, a deduction is allowed for subsistence expenses only for those full or half days during which the individual attends at least two-thirds of the scheduled business activities for that day.

(4) A deduction for the full amount of expenses of transportation (subject to the coach or economy rate limitation) to and from the site of a foreign convention is allowable only if one-half or more of the total days of the trip are devoted to business-related activities, excluding travel days to and from the convention site. Otherwise, a deduction is allowable only for a prorated portion of the transportation expense (subject to the limit), based upon the percentage of the days devoted to business related activities. In determining whether a day is devoted to business-related activities, the same rules for counting full days and half days for purposes of subsistence expenses are applied.

(5) The taxpayer must comply with certain reporting requirements. For example, information must be furnished to indicate the total days of the trip (exclusive of the transportation days to and from the convention), the number of hours of each day devoted to business activities (in a brochure describing the convention, if available), and any other information required by regulations. In addition, the taxpayer must attach a statement to his or her income tax return, signed by [12] an appropriate officer of the sponsoring organization, which must include a schedule of the business activities of each convention day, the number of hours that the individual attended these activities each day, and any other information required by regulations.

Reasons for change

The committee believes that present law rules with respect to expenses incurred in connection with attending a foreign convention do not adequately disallow deductions for trips which are actually foreign vacations. However, the committee believes that certain requirements and limitations on deductions under present law are too complex and restrictive for legitimate foreign conventions for which business expenses should be allowed.

Explanation of provision

General test

Under the bill, no deduction is to be allowed for expenses allocable to a convention, seminar, or similar meeting held outside the North American area unless, taking certain factors into account, it is "as reasonable" for the meeting to be held outside the North American area as within it. The two-convention rule of present law would be repealed.

Under the proposed reasonableness standard, the factors to be taken into account are: (1) the purpose of the meeting and the activities taking place at the meeting; (2) the purposes and activities of the sponsoring organizations or groups; and (3) the residences of the active members of the sponsoring organization and the places at which other meetings of the sponsoring organizations or groups have been or will be held.

Under the bill, the reasonableness requirement would not be satisfied for a convention, seminar, or similar meeting which is conducted on board a cruise ship.

In addition, the bill makes clear that the foreign convention provisions do not apply to normal business meetings for employees of a company.

Foreign convention—North American area

Under the bill, a convention would not be treated as a foreign convention unless it were held outside the United States, its possessions, and the Trust Territory of the Pacific, and Canada and Mexico.

Subsistence expenses limitation

Under the bill, the special subsistence expense limitation under present law would be repealed. As for any other business expenses, expenditures for amounts which are lavish and extravagant would continue to be nondeductible.

Transportation expenses

Under the bill, the special coach fare limitation for transportation expenses would be repealed. As for any other travel expenses, the principal purpose for making the trip must be for business purposes for transportation expenses to be deductible.

[13] *Special reporting requirements*

Under the bill, the special reporting and substantiation requirements for foreign conventions would be repealed.

Amounts includible in recipient's income

The provision continues current law under which a deduction will not be denied to any person other than an individual attending a foreign convention under circumstances where the travel expenses paid by such person are includible in the income of the recipient, so long as such person paying for such expenses does not fail to comply with any applicable information reporting rules. The language of this provision is changed slightly as a matter of clarification, but the changes will not affect the result of cases currently governed by section 274(h)(6)(D)(ii) of the Internal Revenue Code.

(Under section 107 of H.R. 7956, which was also approved by the committee, the payor must comply with information reporting requirements even if the amount involved is less than $600 and reporting ordinarily would not be required.)

Effective date

This provision is effective with respect to foreign conventions attended after December 31, 1980. Where a taxpayer has made plans to attend a foreign convention and such foreign convention was planned prior to December 31, 1980, such convention would be grandfathered under the terms of this provision.

Revenue effect

It is estimated that this provision will have a negligible revenue effect.

[14] E. Exception to Private Foundation "Self-Dealing" Rules for Continuation of Certain Leasing Arrangements (sec. 5 of the bill and sec. 4941 of the Code)

Present law

The 1969 Tax Reform Act [Pub. L. 91-172, 1969-3 C.B. 10] in effect prohibited certain transactions between a private foundation and "disqualified persons" with respect to that foundation, such as substantial contributors to the foundation. These prohibited transactions include leasing arrangements between a private foundation and disqualified persons (Code sec. 4941(d)(1)(A)).

The 1969 Act also provided a transitional rule permitting continuation—until taxable years beginning after December 31, 1979—of otherwise prohibited leasing arrangements pursuant to binding contracts in effect on October 9, 1969 (or pursuant to renewals of such contracts). In order to qualify for this 10-year transitional protection, the leasing arrangement must be at least as favorable to the foundation as an arm's-length transaction with an unrelated party and must not have been a prohibited transaction at its inception (P.L. 91-172, sec. 101(1)(2)(C)) [*supra* at 35].

Reasons for change

The committee believes that where a private foundation has been leasing office space from a disqualified person pursuant to an arrangement protected by the 10-year transitional rule, the foundation should be able to continue such arrangement thereafter if the space is made available to the foundation on a basis no less favorable than that in an arm's-length transaction and if the leased space is in a building in which there are tenants who are not disqualified persons.

The committee believes that, although self-dealing arrangements between private foundations and disqualified persons generally should be prohibited, it is not appropriate, in the limited circumstances addressed by the provision, to force a private foundation to discontinue a leasing arrangement which antedates the 1969 Tax Reform Act and which has not been disadvantageous to the foundation. Inasmuch as continuation of the lease is excepted from the self-dealing excise taxes only if there are other tenants in the building who are not related to the foundation, the committee believes that the "arm's-length" standard is enforceable by the Internal Revenue Service.

Explanation of provision

The bill would provide a permanent exception from the self-dealing rules under Code section 4941 in certain circumstances where a private foundation leases office space from a disqualified person, if (1) the lease is pursuant to a binding contract in effect on October 9, 1969 (or renewals thereof), (2) at the time of execution the lease was not a prohibited transaction, and (3) the space is leased to the foundation on a [15] basis no less favorable than that on which such space would be made available in an arm's-length transaction. For the lease to qualify for this exception, the leased space must be in a building in which there are tenants who are not disqualified per-

sons.[1] Thus, this new provision will continue to protect certain of those leasing arrangements which were not acts of self-dealing for taxable years beginning before January 1, 1980, by reason of the 10-year transitional rule; the new provision is not intended to protect any leases (or renewals) which would not meet the standards (other than the 10-year time limitation) of the transitional rule (P.L. 91-172, sec. 101(*l*)(2)(C)) [*supra*].

The provision would apply to the Moody Foundation of Galveston, Texas, and any other private foundation which has been leasing space from a disqualified person pursuant to an arrangement covered by the 10-year transitional rule and which lease also meets the specific requirements of the provision.

Effective date

The provision applies to taxable years beginning after December 31, 1979.

Revenue effect

It is estimated that this provision will reduce budget receipts by less than $1 million annually.

House Report No. 96-689
1st Session

[Bracketed numerals indicate official report page numbers]

TAX TREATMENT OF CERTAIN INDIVIDUALS LIVING ABROAD AND CERTAIN PENSION PLAN DISTRIBUTIONS

DECEMBER 5, 1979

Mr. ULLMAN, from the Committee on Ways and Means, submitted the following report to accompany H.R. 5973.[a]

* * * * *

[2] SECTION 4. SPECIAL RULE RELATING TO DEBT-FINANCED INCOME OF EXEMPT ORGANIZATIONS

Generally, under present law, passive investment income and gains from the sale of investments realized by an exempt organization are not subject to tax as unrelated business income. However, income and gains realized by an exempt organization from "debt-financed property" not used for its exempt function are subject to tax in the proportion in which the property is financed by acquisition indebtedness.

This section would provide a limited exception to the debt-financed income rules. This exception would allow certain sales of real property in 1976 to be made free of the unrelated business income tax if the property had been acquired prior to 1952 and the indebtedness was incurred before 1965. The intended beneficiary of the provision is the Tillamook County YMCA of Tillamook, Oregon.

* * * * *

[6] D. Special Rule Relating to Debt-Financed Income of Exempt Organizations (sec. 4 of the bill)

Present law

Generally, any organization which is exempt from Federal income tax (under sec. 501(a)) is taxed only on income from trades or businesses which are unrelated to the organization's exempt purposes; it is [7] not taxed on passive investment income or income from any trade or business which is related to the organization's exempt purposes.[1]

Before 1969, some exempt organizations had used their tax-exempt status to acquire businesses through debt financing, with purchase money obligations to be repaid out of tax-exempt profits, for example, as from leasing the assets of acquired businesses to the businesses' former owners.

The Tax Reform Act of 1969 [Pub. L. 91-172, 1969-3 C.B. 10] provided (in the so-called "Clay Brown provision") that an exempt organization's income from "debt-financed property," which is not used for its exempt function, is to be subject to tax in the proportion in which the property is financed by debt. In general, debt-financed property is defined as "any property which is held to produce income and with respect to which there is acquisition indebtedness" (sec. 514(b)(1)). A debt constitutes acquisition indebtedness with respect to property if the debt was incurred in acquiring or improving the property, or if the debt would not have been incurred "but for" the acquisition or improvement of the property.[2]

The provisions relating to unrelated debt-financed income generally applied to taxable years beginning after December 31, 1969.[3] The 1969 Act provided a transitional rule under which the Clay Brown rules were to apply only where indebtedness had been incurred after the date on which similar bills were introduced in the 89th Congress (June 27, 1966) until taxable years beginning after 1971.

---

[1] The provision sets forth requirements which must be met as of the effective date in order for the permanent self-dealing exception provided by the bill to apply as of that date. The provision does not apply prior to the effective date.

[a] Public Law 96-608, page 728.

[1] There are some exceptions to the general rule that passive investment income is tax-exempt. For example, social clubs (sec. 501(c)(7)) and voluntary employees beneficiary associations (sec. 501(c)(9)) are generally taxed on such income. Also, private foundations are subject to an excise tax of 2 percent on their net investment income.

[2] There are several exceptions from the term "acquisition indebtedness." For instance, one exception is indebtedness on property which an exempt organization receives by devise, bequest, or under certain conditions, by gift. Also, the term "acquisition indebtedness" does not include indebtedness which was necessarily incurred in the performance or exercise of the purpose or function constituting the basis of the organization's exemption. Special exceptions are also provided for the sale of annuities and for debts insured by the Federal Housing Administration to finance low- and moderate-income housing.

[3] However, in extending the unrelated debt-financed income rule and other rules relating to the unrelated business income tax to churches, the 1969 Act provided that these provisions did not apply to churches for taxable years beginning before January 1, 1976.

After the transition period the new rules were applicable to all situations of investment borrowing by exempt organizations.

Reasons for change

The committee believes that, due to special circumstances, a limited exception to the debt-financed income rules should be provided for income derived from certain sales of real property during 1976 in situations where the indebtedness was incurred prior to 1965. However, the committee does not intend that this provision be considered as a precedent either in section 514 or with respect to other situations where a more favorable tax result could have been obtained by proper planning.

[8] *Explanation of provision*

The bill would provide a very limited exception to the debt-financed income rules. Under this exception, it is provided that, in applying the debt-financed income rules to any sale of real property during 1976, indebtedness incurred before January 1, 1965, by an organization to finance the construction of a building on such property shall not be treated as acquisition indebtedness if the parcel of real property on which the building was constructed (1) was acquired by the organization before January 1, 1952, and (2) is contiguous to another parcel of real property which (*a*) was acquired by the organization before January 1, 1952, and (*b*) was used by the organization for exempt purposes (for the entire period from January 1, 1952, until the date of enactment of the bill).

Although this provision may possibly benefit other taxpayers, it is primarily intended to provide tax-free treatment for a 1976 sale of real property by the Tillamook County Young Men's Christian Association (YMCA), Tillamook, Oregon. The real property sold by the Tillamook YMCA was property adjacent to property it used for carrying on its charitable and educational purposes.

Effective date

This provision would apply only to certain sales of real property during calendar year 1976.

Revenue effect

It is estimated that this provision would result in a one-time reduction in budget receipts of less than $50,000 in fiscal year 1980.

TECHNICAL AMENDMENTS AND AMENDMENTS RELATING TO CHILD SUPPORT AUDITS

SEC. 11. (a)(1) Section 127(a)(1) of the Food Stamp Act Amendments of 1980 (Public Law 96-249) [page 414, this Bulletin], is amended by striking out "Subsection (i) of section 6103" and inserting in lieu thereof "Subsection (1) of section 6103".

(2)(A) Section 408(a)(1) of the Social Security Disability Amendments of 1980 (Public Law 96-265) [page 418, this Bulletin], is amended by striking out (in the new paragraph added thereby to subsection (1) of section 6103 of the Internal Revenue Code of 1954) "(7) Disclosure" and inserting in lieu thereof "(8) Disclosure".

(B) Section 408(a)(2) of the Social Security Disability Amendments of 1980 is amended—

(i) in subparagraph (A), by—

(I) striking out "(l)(1) or (4)(B) or (5)" and insering in lieu thereof "(l)(1), (4)(B), (5), or (7)", and

(II) striking out "(l)(1), (4)(B), (5), or (7)" and inserting in lieu thereof "(l)(1), (4)(B), (5), (7), or (8)";

(ii) in subparagraph (B), by—

(I) striking out "(l)(3), or (6)", and

(II) striking out "(l)(3), (6), or (7)" and inserting in lieu thereof "(l)(3), (6), (7), or (8)";

(iii) in subparagraph (C), by—

(I) striking out "(l)(6)" and inserting in lieu thereof "(l)(6) or (7)", and

(II) striking out "(l)(6) or (7)" and inserting in lieu thereof "(l)(6), (7), or (8)"; and

(iv) in subparagraph (D), by—

(I) striking out "subsection (d), (l)(6) or (m)(4)(B)" and inserting in lieu thereof "subsection (d), (l)(6) or (7), or (m)(4)(P)", and

(II) striking out "subsection (d), (l)(6) or (7), or (m)(4)(E)" and inserting in lieu thereof "subsection (d), (l)(6), (7), or (8), or (m)(4)(B)".

(3) The amendment made by paragraph (1) shall take effect on May 26, 1980 and the amendments made by paragraph (2) shall take effect on June 9, 1980.

(4)(A) The first sentence of section 7213(a)(2) of the Internal Revenue Code of 1954 (relating to unauthorized disclosure of information by State and other employees) is amended by striking out "(l)(6) or (7)" and inserting in lieu thereof "(l)(6), (7), or (8)".

(B) The amendment made by subparagraph (A) shall take effect on December 5, 1980.

Approved December 28, 1980.

Public Law 96-613
96th Congress, H.R. 7171 [1]
December 28, 1980

An Act to make certain miscellaneous changes in the tax laws.

[1] The publication of the law is restricted to excerpts involving tax matters.

[1] Senate Report No. 96-1032, page 739; House of Representatives No. 96-1050 is not published.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ANNUITY CONTRACTS PURCHASED BY THE UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES.

(a) IN GENERAL.—An annuity contract purchased by the Uniformed Services University of the Health Sciences for any employee who is a member of the civilian faculty or staff of such university shall, for purposes of section 403(b) of the Internal Revenue Code of 1954, be treated as an annuity contract purchased for an employee by an employer described in section 501(c)(3) of such Code which is exempt from tax under section 501 (a) of such Code.

(b) EFFECTIVE DATE.—Subsection (a) shall apply to service after December 31, 1979, in taxable years ending after such date.

SEC. 2. RETIREMENT-REPLACEMENT-BETTERMENT METHOD OF DEPRECIATION.

(a) IN GENERAL.—Section 167 of the Internal Revenue Code of 1954 (relating to allowance for depreciation) is amended by redesignating subsection (r) as subsection (s) and by inserting after subsection (q) the following new subsection:

"(r) RETIREMENT-REPLACEMENT-BETTERMENT METHOD.—In the case of railroad track used by a common carrier by railroad (including a railroad switching company or a terminal company), the term 'reasonable allowance' as used in subsection (a) includes an allowance for such track computed under the retirement-replacement-betterment method.".

(b) EFFCTIVE DATE.—The amendments made by subsection (a) shall apply with respect to taxable years ending after December 31, 1953.

SEC. 3. TREATMENT OF CERTAIN RAILROAD STOCK FOR PURPOSES OF CONSOLIDATED RETURN REGULATIONS.

(a) IN GENERAL.—For purposes of the consolidated return regulations prescribed under section 1502 of the Internal Revenue Code of 1954, if the determination of whether or not there has been a deemed disposition of stock in a transferor railroad (as defined in section 374(c)(5)(B) of such Code) depends on a determination of final value by the special court under the Regional Rail Reorganization Act of 1973 [Pub. L. 93-236, 1974-1 C.B. 383], that deemed disposition shall not be treated as occurring before the earlier of—

(1) the date on which such determination becomes final, or

(2) the first date on which there is an actual disposition of the stock or a deemed disposition not described above.

(b) EFFECTIVE DATE.—Subsection (a) shall apply to taxable years ending after March 31, 1976.

SEC. 4. RESTORATION OF CERTAIN NET OPERATING LOSS CARRYOVERS TO RAILROADS IN CONRAIL PROCEEDINGS WHERE OTHER MEMBERS OF CONSOLIDATED GROUP HAD INCOME BECAUSE OF STOCK DISPOSITION.

(a) IN GENERAL.—For purposes of subsection (e) of section 374 of the Internal Revenue Code of 1954 (relating to use of expired net operating loss carryovers to offset income arising from certain railroad reorganization proceedings), if—

(1) subparagraphs (A) and (B) of paragraph (1) of such subsection are satisfied with respect to a corporation,

(2) such corporation had a net operating loss for a taxable year which would have satisfied the requirements of clause (i) of subparagraph (C) of such paragraph (1) but for the fact that such net operating loss was used to reduce the income of an affiliated group of corporations which filed a consolidated return, and

(3) any portion of the amount so used was included in an excess loss account which was required to be restored to the income of a member or members of the affiliated group, (or would be required to be so restored but for an election under Regulation § 1.1502-19(a)(6)),

than an amount equal to the restoration amount shall be treated as meeting the requirements of subparagraph (C) of such paragraph (1).

(b) RESTORATION AMOUNT DEFINED.—

(1) IN GENERAL.—For purposes of subsection (a), the term "restoration amount" means, with respect to the net operating loss for any taxable year, an amount equal to the sum of—

(A) so much of the portion referred to in subsection (a)(3) as was required to be treated as ordinary income, and

(B) an amount equal to so much of such portion as was required to be treated as long-term capital gain, multiplied by the capital gain conversion fraction.

(2) CAPITAL GAIN CONVERSION FRACTION.—For purposes of paragraph (1), the capital gain conversion fraction is a fraction—

(A) the numerator of which is the rate of tax set forth in section 1201(a)(2) of such Code for the taxable year the portion was required to be included in income, and

(B) the denominator of which is the highest rate of tax set forth in section 11(b) of such Code for such taxable year.

(3) FIFO RULE FOR ADDITIONS TO EXCESS LOSS ACCOUNT.—For purposes of this subsection, the amount in any excess loss account at the time of restoration (and the ordinary income portion of the restoration) shall be treated as attributable to net operating losses in the order of the years in which the respective net operating losses arose.

(4) CAPITAL GAIN TREATMENT.—For purposes of paragraph (1), any amount to which an election under Regulation § 1.1502-19(a)(6) applies shall be treated as long-term capital gain.

(c) EFFECTIVE DATE.—This section shall apply to restorations occurring after March 31, 1976.

SEC. 5. PREVENTION OF ABUSE OF CERTAIN PENSION PLAN PROVISIONS THROUGH THE USE OF SEPARATE CORPORATIONS OR OTHER ORGANIZATIONS.

(a) IN GENERAL.—Section 414 (relating to definitions and special rules relating to pension plans, etc.) is amended by adding at the end thereof the following new subsection:

"(m) EMPLOYEES OF AN AFFILIATED SERVICE GROUP.—

"(1) IN GENERAL.—For purposes of the employee benefit requirements listed in paragraph (4), except to the extent otherwise provided in regulations, all employees of the members of an affiliated service group shall be treated as employed by a single employer.

"(2) AFFILIATED SERVICE GROUP.—For purposes of this subsection, the term 'affiliated service group' means a group consisting of a service organization (hereinafter in this paragraph referred to as the 'first organization') and one or more of the following:

"(A) any service organization which—

"(i) is a shareholder or partner in the first organization, and

"(ii) regularly performs services for the first organization or is regularly associated with the first organization in performing services for third persons, and

"(B) any other organization if—

"(i) a significant portion of the business of such organization is the performance of services (for the first organization, for organizations described in subparagraph (A), or for both) of a type historically performed in such service field by employees, and

"(ii) 10 percent or more of the interests in such organization is held by persons who are officers, highly compensated employees, or owners of the first organization or an organization described in subparagraph (A).

"(3) SERVICE ORGANIZATIONS.—For purposes of this subsection, the term 'service organization' means an organization the principal business of which is the performance of services.

"(4) EMPLOYEE BENEFIT REQUIREMENTS.—For purposes of this subsection, the employee benefit requirements listed in this paragraph are—

"(A) paragraphs (3), (4), (7), and (16) of section 401(a),

"(B) sections 408(k), 410, 411, and 415,

"(C) section 105(h), and

"(D) section 125.

"(5) OTHER DEFINITIONS. — For purposes of this subsection—

"(A) ORGANIZATION DEFINED.—The term 'organization' means a corporation, partnership, or other organization.

"(B) OWNERSHIP.—In determining ownership, the principles of section 267(c) shall apply.

"(6) PREVENTION OF AVOIDANCE.—The Secretary shall prescribe such regulations as may be necessary to prevent the avoidance with respect to service organizations, through the use of separate organizations, of any employee benefit requirement listed in paragraph (4)."

(b) TECHNICAL AMENDMENTS.—

(1) Paragraph (8) of section 105 (h) (relating to amount paid to highly compensated individuals under a discriminatory self-insured medical expense reimbursement plan) is amended—

(A) by striking out "subsection (b) or (c) of section 414" and inserting in lieu thereof "subsection (b), (c), or (m) of section 414", and

(B) by striking out "CONTROLLED GROUPS" in the paragraph heading and inserting in lieu thereof "CONTROLLED GROUPS, ETC.".

(2) Paragraph (4) of section 125 (g) (relating to special rules for cafeteria plans) is amended—

(A) by striking out "subsection (b) or (c) of section 414" and inserting in lieu thereof "subsection (b), (c), or (m) of section 414", and

(B) by striking out "CONTROLLED GROUPS" in the paragraph heading and inserting in lieu thereof "CONTROLLED GROUPS, ETC.".

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to plan years ending after November 30, 1980.

(2) PLANS IN EXISTENCE ON NOVEMBER 30, 1980.—In the case of a plan in existence on November 30, 1980, the amendments made by this section shall apply to plan years beginning after November 30, 1980.

Approved December 28, 1980.

Senate Report No. 96-1032
2d Session

[Bracketed numerals indicate official report page numbers]

CERTAIN MISCELLANEOUS CHANGES IN THE TAX LAWS

NOVEMBER 24 (legislative day, NOVEMBER 20, 1980)

Mr. LONG, from the Committee on Finance, submitted the following report to accompany H.R. 7171.[1]

The Committee on Finance, to which was referred the bill (H.R. 7171) to make certain miscellaneous changes in the tax laws, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The amendment is shown in the text of the bill in italic.

House bill.—H.R. 7171, as it passed the House, contains provisions relating to (1) an income tax exclusion for certain Federal scholarship grants, (2) the tax treatment of annuities purchased for employees of the Uniformed Services University of the Health Sciences, (3) the method of depreciation for railroad track assets, (4) the tax treatment of members of an affiliated group which included a transferor railroad in the ConRail reorganization, and (5) the excise tax treatment for wine and flavorings used in distilled spirits products.

Committee bill.—The committee bill (1) deletes the provision relating to Federal scholarship grants (similar provisions are included in H.R. 6975,

[1] Public Law 96-613, page 737.

as it passed the Senate), (2) retains the provision relating to the treatment of annuities purchased for employees of the Uniformed Services University of the Health Sciences, (3) deletes the provision relating to the depreciation of railroad track assets, (4) clarifies the provision relating to the treatment of certain net operating losses of a transferor railroad in the ConRail reorganization, (5) deletes the provision relating to wine and flavorings used in distilled spirits products (similar provisions are contained in H.R. 3317, as it passed the Senate), (6) adds a provision relating to the disclosure of tax returns to State audit agencies (section 6 of H.R. 4746, as it passed the House, and previously approved by the Senate, as section 3 of H.R. 3317), (7) adds a provision expanding the definition of lending or finance companies which are exempt from treatment as personal holding companies, and (8) adds a provision repealing the wagering excise taxes (previously reported by the committee in H.R. 3755).

[2] I. SUMMARY

Section 1.—Tax Treatment of Annuities Purchased for Employees of the Uniformed Services University of the Health Sciences

Present law provides that, if an annuity is purchased for an employee by an exempt organization described in Code section 501(c)(3) or by a public school system, the employer's contributions for the annuity contract are excludable, within certain limitations, from the employee's gross income and are not subject to tax until the employee receives payments under the annuity contract.

This provision of the bill extends the same rule to qualifying annuities purchased for the civilian staff and faculty of the Uniformed Services University of the Health Sciences, which was established by the Congress under the Department of Defense to train medical students for the uniformed services.

Secs. 2 and 3. Tax Treatment for Members of an Affiliated Group Which Included a Transferor Railroad in the ConRail Reorganization

Under present law, net operating losses of a member of an affiliated group of corporations controlled by a common parent corporation may be used to offset income reported by other members of the affiliated group where consolidated income tax returns are filed by the group. In order to reflect the reduction in tax liabilities derived by the other members of the affiliated group, the basis in the loss corporation's stock owned by other members of the group is reduced by these operating losses, and, where these losses exceed basis, a negative basis (called an excess loss account) is created. The excess loss account is restored to income when, for example, the loss corporation ceases to be a member of the affiliated group or the stock of the loss corporation becomes worthless.

The bill specifies that, for purposes of determining when an excess loss account is restored to income under the consolidated return rules, the determination of worthlessness of stock in a corporation which was a transferor railroad in the April 1, 1976, ConRail reorganization will not occur until after a final determination of the value of the transferred rail properties by a special court formed for this purpose. This provision is intended to benefit the Norfolk and Western Railway Company.

In addition, the bill provides that, to the extent an excess loss account arising from net operating losses of a ConRail transferor railroad from periods before or including the taxable year of the ConRail reorganization is restored as ordinary income (or its equivalent in capital gain income), the transferor's net operating losses will correspondingly be restored to the transferor railroad to apply solely against any income ultimately recognized by the transferor railroad [3] from the ConRail reorganization. This provision is intended to benefit the Erie Lackawanna Railway Company, and the Lehigh Valley Railroad Company.

Sec. 4. Disclosure of Tax Returns to State Audit Agencies

Present law authorizes the disclosure of returns and return information to State agencies which are charged under the laws of the State with responsibility for the administration of State tax laws for the purpose of, and only to the extent necessary in, the administration of such law.

This section of the bill will allow State taxing authorities to disclose Federal tax return information in their possession to State auditing agencies for the purpose of auditing the activities of the State taxing authority.

Sec. 5. Exemption of Certain Finance Companies From Personal Holding Company Treatment

Under present law, a tax is imposed on the undistributed personal holding company income of a personal holding company. Generally, personal holding company income includes interest. A corporation actively engaged in a lending or finance business is exempted from this tax if the corporation has qualifying business expenses equal to 15 percent of its ordinary gross income from its lending or finance business up to $500,000, plus five percent of such ordinary gross income from $500,000 to $1 million. The term "lending or finance business" does not include the business of making loans with remaining maturities of more than 60 months except in the case of certain secured obligations arising out of the borrower's or transferor's trade or business.

The bill increases the 60-month limitation of present law to 144 months, and amends the definition of a lending or finance business to include the business of making certain types of revolving credit loans. The bill also amends the business expense test of present law to require a lending or finance business to have qualifying business expenses equal to 15 percent of its ordinary gross income from the lending or finance business up to $500,000 plus five percent of such ordinary gross income

in excess of $500,000. In other words, the $1 million ordinary gross income ceiling would be eliminated for purposes of applying the qualifying business expense test.

SEC. 6. EXEMPTION FROM EXCISE TAX ON WAGERS AND OCCUPATIONAL TAX ON WAGERING

Under present law, a 2-percent excise tax is imposed on the amount of certain wagers. In addition, an annual $500 occupational tax is imposed on a person who is liable for the excise tax or who receives wages subject to the tax. These taxes do not apply with respect to parimutuel wagering, a wager placed in a coin-operated device, or a wager in a State-conducted lottery.

The bill repeals the 2-percent excise tax on certain wagering and the annual $500 occupational tax on persons engaged in the business of accepting wagers. The provisions are effective January 1, 1981.

[4] II. EXPLANATION OF BILL

A. Tax Treatment of Annuities Purchased for Employees of the Uniformed Services University of the Health Sciences (sec. 1 of the bill and sec. 403(b) of the Code)

Present law

If an annuity is purchased for an employee by an exempt organization described in Code section 501(c)(3) or by a public school system, the employer's contributions for the annuity contract are, within certain limitations, excludable from the employee's gross income and not subject to tax until the employee receives payments under the annuity contract (sec. 403(b)). Subject also to certain limitations generally applicable to tax-qualified retirement plans, the amount excludable in any year cannot exceed 20 percent of the employee's current annual compensation times the number of years of service, less amounts contributed tax-free in prior years.

In P.L. 92-426, Congress authorized establishment (under the Department of Defense) of the Uniformed Services University of the Health Sciences in order to train medical students for the uniformed services. This legislation authorizes hiring civilian faculty and staff members at salary schedules and with retirement benefits similar to those given to the faculty and staff of medical schools in the Washington, D.C. area. On July 15, 1975, the Secretary of Defense approved a tax-deferred annuity program for the faculty, similar to annuities available at certain medical schools in the Washington area and throughout the United States. However, because the University is a Federal instrumentality and is not an exempt organization described in section 501(c)(3), the annuities do not qualify under present law for tax deferral pursuant to section 403(b).

Reasons for change

The committee believes that annuities purchased for the civilian faculty and staff of the Uniformed Services University of the Health Sciences should qualify for income tax deferral in the same manner as annuities purchased for employees of exempt organizations described in section 501(c)(3) or of public school systems.

Explanation of provision

The provision treats otherwise qualified annuities purchased for the civilian staff and faculty of the Uniformed Services University of the Health Sciences in the same manner for income tax purposes (Code sec. 403(b)) as employee annuities purchased by section 501(c)(3) organizations or by public school systems. Any qualified annuity purchased by the University would be subject to the same limitations as other annuities described in section 403(b).

Effective date

The provisions apply to annuities purchased for service performed after December 31, 1979, in taxable years ending after that date.

Revenue effect

It is estimated that the provision will decrease budget receipts by less than $1 million per year.

[5] B. Tax Treatment for Members of an Affiliated Group Which Included a Transferor Railroad in the ConRail Reorganization (secs. 2 and 3 of the bill and sec. 374 of the Code)

Present law

On April 1, 1976, a number of insolvent midwestern and eastern railroads, along with many of their subsidiaries and affiliates, transferred their railroad properties to the Consolidated Rail Corporation (ConRail). These transfers were mandated and approved by the Congress[1] in order to provide financially self-sustaining rail services in areas served by these bankrupt railroads.

Under the legislation which established it, ConRail, a taxable corporation, was to acquire, rehabilitate, and operate the railroad properties. The transferor railroads (and their subsidiaries and affiliates) received ConRail stock and certificates of value issued by the United States Railway Association, a nonprofit Government corporation formed to oversee the ConRail reorganization. Valuation of the transferred railroad properties, and the corresponding value of the certificates of value received by the transferor railroads, is to be determined ultimately by a special court created for this purpose.

In 1976, the Congress also enacted legislation to deal with certain of the tax consequences of this reorganization to ConRail, the transferor railroads, and the shareholders and creditors of the transferor railroads. Under this legislation,[2] the transfer of rail properties to ConRail was treated like reorganizations in general (and other bankrupt railroad reorganizations in partic-

[1] The facilitating legislation for transfers was the Regional Rail Reorganization Act of 1973 (P.L. 93-236 [1974-1 C.B. 383], approved January 2, 1974) and the Railroad Revitalization and Regulatory Reform Act of 1976 (P.L. 94-210, approved February 5, 1976).

[2] P.L. 94-253 [1976-1 C.B. 520], approved March 31, 1976.

ular) so that the transferor companies and their shareholders and security holders did not recognize gain or loss on the transfer and ConRail received a carryover basis in the properties it acquired (Code sec. 374(c)). In addition, where the carryover period has expired for a transferor railroad's net operating losses which were incurred before and during the taxable year in which the ConRail reorganization took place, these losses generally may be revived to apply against any income eventually recognized from the ConRail transfer (Code sec. 374(e)).

The 1976 tax legislation did not deal with certain other aspects of the ConRail reorganization, such as investment credit recapture to the transferor railroads which arose from the mandated transfer of assets to ConRail. To deal with this aspect of the ConRail reorganization, the Revenue Act of 1978 (P.L. 95-600 [1978-3 C.B. (Vol. 1) 1], approved November 6, 1979) added an exception to the investment credit recapture rules so that a transferor railroad will not be subject to recapture of the investment credit because of its transfer of railroad properties to ConRail.

[6] Present law also provides rules which deal with the filing of consolidated returns by affiliated groups of corporations.[3] Under the section 1502 consolidated return regulations, income tax liability generally is based on the combined income of the corporations in the affiliated group. Where one or more members of the affiliated group have incurred net operating losses, these losses offset taxable income of other members of the affiliated group, and the tax basis of their investment in the stock of the loss corporation is reduced, generally by an allocated portion (based on stock ownership) of the losses reflected in the consolidated return. If the losses used on the consolidated returns exceed the basis of the stock owned by the other members of the group, the result is the creation of excess loss accounts which are the equivalent of negative basis in the stock of the loss corporation owned by the other members.

Where there is a disposition of the loss affiliate's stock or the stock ownership requirements for an affiliated group cease to be met, any excess loss accounts in existence at that time are "restored" by treating them as income.[4] The term disposition is broadly defined and includes the occurrence of worthlessness of the loss affiliate's stock. In these situations, ordinary income will result to the extent of "insolvency" of the loss affiliate and special rules are provided for determining insolvency in situations concerning excess loss accounts. Where an excess loss account is restored, a previously used net operating loss is not restored to the loss affiliate.

Reasons for change

The committee believes that the question of the worthlessness of a ConRail transferor railroad's stock cannot be accurately resolved, for purposes of determining whether to trigger an excess loss account under the consolidated return rules, until the value of the consideration for the ConRail certificates of value is ultimately decided at some time in the future. In addition, the committee considers that, to the extent an excess loss account is triggered in connection with the net operating losses of a transferor railroad in the ConRail reorganization, the losses should be restored to apply against income eventually recognized from the ConRail transfers to the same extent otherwise expired net operating losses may be generally revived by a transferor railroad. The committee's bill addresses these two aspects of the ConRail reorganization.

Explanation of provisions

Determination of worthlessness of capital stock of a transferor railroad (Sec. 2 of the bill)

Section 2 of the committee's bill provides a statutory rule, for purposes of applying the consolidated return regulations, under which the determination of worthlessness of the capital stock of a transferor [7] railroad in the ConRail reorganization is postponed until a determination of value by the special court becomes final. Under this rule, where the question of whether there have been certain types of dispositions (called "demeed dispositions") of a ConRail transferor railroad's stock under the consolidated return regulations depends upon the determination of value by the special court, a deemed disposition will not be considered as occurring until the earlier of either the date the special court's determination becomes final or the occurrence of another event which causes restoration of the excess loss account under the consolidated return regulations. The committee intends that the specific types of deemed dispositions which are addressed by this provision are: (1) worthlessness of the stock of the transferor railroad and, (2) where 10 percent or less of the face amount of an obligation of the transferor railroad will be recoverable at maturity by its creditors, as these two types of deemed dispositions are described in Income Tax Regulations § 1.1502-19(b)(2)(iii) and (iv), respectively. As a result, the excess loss account will be restored before the special court's determination becomes final if, for example, the transferor railroad ceases to be a member of the affiliated group, or if another member of the affiliated group transfers an obligation of the transferor railroad to a nonmember of the group for 25 percent or less of its face value.

Section 2 of the bill is intended to benefit the Norfolk and Western Railway Company.

Net operating losses of a transferor railroad (sec. 3 of the bill)

In addition, under section 3 of the

[3] These rules are primarily set forth in regulations promulgated under specific statutory authority (Code sec. 1502). An affiliated group of corporations is generally defined as a group of corporations connected with a common parent corporation through ownership of at least 80 percent of the voting power of all classes of voting stock and at least 80 percent of each class of nonvoting stock.

[4] These rules are necessary in order to reflect the reduction in tax liability which the other members of the affiliated group have derived through use of the losses.

bill, it is provided that if an excess loss account arising from the net operating losses of a transferor railroad is restored to income of the affiliated group which filed consolidated income tax returns with the transferor railroad, those losses which are subject to the revival provisions generally under the ConRail reorganization will be restored to the transferor railroad in an amount which corresponds to the ordinary income (or its equivalent in capital gain income adjusted to reflect the lower capital gains rate) recognized by the affiliated group through triggering the excess loss account. For this purpose, an excess loss account will be considered to have been restored to income by the affiliated group even if an election is made to reduce basis in investments in the transferor railroad under the consolidated return regulations (Treas. Reg. § 1.502-19(a)(6)). (However, if such an election to reduce basis is made, the amount restored to the transferor railroad will be adjusted to reflect the lower capital gains rate.)

Because existing law concerning the revival of net operating losses by ConRail transferor railroads applies only to those losses incurred before or during the taxable year which includes the April 1, 1976, ConRail transfer, the net operating losses which are eligible for restoration to the transferor railroad under this provision are limited to those of the transferor railroad which contributed to the excess loss account and which were incurred either in the first taxable year which ends after March 31, 1976, or in a prior taxable year, and which could be carried over to the first taxable year which ends after March 31, 1976.

A first-in-first-out rule is also provided for purposes of this provision so that the restoration of the excess loss account will be considered, [8] for purposes of restoring net operating losses to the transferor railroad under this provision, to result from the earliest of the losses which created the excess loss account. The net operating losses which are restored may only be applied against income which is eventually recognized from the March 31, 1976, transfer to ConRail. In addition, where losses eligible for restoration to the transferor railroad are attributable to capital gain income recognized by other members of the affiliated group (through restoration of the excess loss accounts) these losses will be restored to the transferor railroad only in amounts equal to the ordinary income equivalent of these capital gains. The ordinary income equivalent of the capital gain is the capital gain multiplied by a fraction, the numerator of which is the capital gain tax rate of corporations for the taxable year in which the loss accounts were restored, and the denominator of which is the maximum rate of tax on ordinary income of corporations for this taxable year.

The provisions of section 3 of the bill can be illustrated by the following example. Assume that the basis of a transferor railroad's stock owned by the other members of the affiliated group had been reduced to zero at the end of 1974, because of prior losses used by the group, that the transferor railroad incurred net operating losses of $10 million in calendar year 1975, $20 million in 1976, and $15 million in 1977, and that in 1978 it had $10 million of income. Assume further that in 1979 the transferor railroad ceased to be a member of the affiliated group, and the excess loss accounts of the other members of the group, $35 million in total, are restored as ordinary income to the group. Because of the ordering rule in the bill, the $10 million of the transferor railroad's income in 1978 is deemed to offset its post-1976 loss. Accordingly, the full $30 million of losses which were incurred in 1975 and 1976 (and which increased the excess loss account) will be restored under the rules of the bill. In addition, if the transferor railroad is insolvent to the extent of $20 million at the time of the restoration of the excess loss accounts, the amount of the restoration of losses to the transferor would be $20 million plus 28/46 times $10 million, or a total of $26,086,956. This reflects the second aspect of the ordering rule, which attributes the ordinary income portion of the restoration to the earliest losses of the transferor railroad.

Section 3 of the bill is intended to benefit the Erie Lackawanna Railway Company, a member of the affiliated group of corporations of which the Norfolk and Western Railway Corporation is the parent corporation and the Lehigh Valley Railroad Company, a member of the affiliated group of which the Penn Central Company is the parent company.

Effective date

The provisions apply to deemed dispositions of a ConRail transferor's stock for taxable years ending after March 31, 1976, and to restorations after March 31, 1976, of excess loss accounts attributable to net operating losses of a ConRail transferor.

Revenue effect

The revenue effects of sections 2 and 3 of the bill are indeterminate with respect to both the amount of tax involved and the timing of tax payment.

[9] If the excess loss account were restored to income for the 1976 tax year, the Norfolk and Western Railway Company would incur an additional tax liability of about $15 million. However, the amount of estimated tax liability, if any, may be adjusted after the determination of value by the special court. Because the taxpayer is expected to oppose assertion of a deficiency for its 1976 tax year, there would be an effect on budget receipts only if the taxpayer's position were not sustained and this occurred before the determination of the value by the special court became final or the Erie Lackawanna Railway Company ceased to be a member of the affiliated group of corporations of which the taxpayer is the parent corporation.

Restoration of the net operating losses to the Erie Lackawanna Railway Company could eventually decrease budget receipts by some amount of less than $15 million. However, these potential revenue losses are not expected to take place before fiscal year 1986.

The provision affecting the Lehigh Valley Railroad Company is estimated to reduce budget receipts by a total of less than $10 million. However, both the exact amount of the tax involved and the timing of the revenue losses are indeterminate.

[10] C. Disclosure of Tax Returns to State Audit Agencies (sec. 4 of the bill and sec. 6103(d) of the Code)

Present law

Under present law (Code sec. 6103 (d)), returns and return information may be disclosed to State agencies which are charged under the laws of the State with responsibility for the administration of State tax laws for the purpose of, and only to the extent necessary in, the administration of such laws. Section 6103(d) sets forth specific rules with which a State agency must comply in order to receive Federal tax information. For example, the request for disclosure must be made by the head of the State tax agency in writing and the actual disclosure of the tax information may be made only to the representatives of the State tax agency who are designated in the written request to receive the information. Also, the law provides that the tax information cannot be disclosed to the Governor of a State. In addition, return information may not be disclosed to the extent that the Secretary of the Treasury determines such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation.

Return information disclosed to State agencies is subject to strict safeguard, recordkeeping, and reporting requirements (Code secs. 6103(p)(3) and 6103(p)(4)). These requirements provide assurances that Federal tax return information will be used only for the purposes authorized by law and provide a basis for determining when violations occur.

Reasons for change

The committee believes that a State taxing authority should be permitted to disclose Federal tax return information in its possession to a State audit agency for the purpose of auditing the State taxing authority.

Explanation of provision

The bill provides that any returns or return information obtained by a State agency pursuant to the provisions of section 6103(d) may be open to inspection by, or disclosure to, officers and employees of the State audit agency for the purpose of, and only to the extent necessary in, making an audit of the State agency which obtained the returns or return information. Under the bill, a "State audit agency" is defined as any State agency, body, or commission which is charged under the laws of the State with the responsibility of auditing State revenues and programs.

In addition, a State audit agency which receives return information would be subject to the same safeguard, recordkeeping, and reporting requirements as apply to other State agencies which receive return information and would be subject to the confidentiality requirements [11] imposed by section 6103(a) and the civil and criminal penalties applicable in the case of unauthorized disclosure of such return information.

Effective date

This provision is effective upon enactment.

Revenue effect

This provision will not have any impact on Federal revenues.

[12] D. Exemption of Certain Finance Companies from Personal Holding Company Treatment (sec. 5 of the bill and sec. 542 of the Code)

Present law

Code section 541 imposes a 70-percent tax on the undistributed personal holding company income of a personal holding company. This provision is intended to prevent individuals from avoiding the graduated individual tax rates (ranging up to 70 percent) by placing investments in corporations which are subject to a maximum tax rate of 46 percent.

A personal holding company is defined as a corporation 60 percent of whose adjusted ordinary gross income is personal holding company income and 50 percent of whose stock is owned by 5 or fewer shareholders at any time during the last half of the taxable year. Personal holding company income generally is defined as interest, dividends, royalties, rents and certain other types of passive investment income.

Certain types of corporations which are actively engaged in a trade or business which produces income which usually would be considered to be passive investment income are excluded from the personal holding company tax provisions. Among the corporations excluded from these provisions are lending or finance companies. A corporation qualifies as a lending or finance company if 60 percent of its ordinary gross income is derived from the active and regular conduct of a lending or finance business and certain other requirements are satisfied. The term lending or finance business is defined, in part, to mean a business of making loans, and purchasing or discounting accounts receivable, notes, or installment obligations which at the date of acquisition have a remaining maturity of no more than 60 months. One exception to the 60-month rule is provided for loans, notes, or obligations secured by a security interest in personal property where the security interest arose out of the sale of goods or services in the course of the borrower's or transferor's trade or business.

The personal holding company provisions also apply a business expense test in determining whether a corporation is engaged in the active and regular conduct of a lending or finance business. Under this requirement a corporation will not qualify as a lending or finance company exempt from the personal holding company provisions unless the sum of its business expenses directly allocable to its lending or finance business equals or ex-

ceeds 15 percent of the first $500,000 of its ordinary gross income derived from a lending or finance busi-[13]ness plus 5 percent of such ordinary gross income from $500,000 to $1,000,000.[1]

Reasons for change

Since 1964 (when the rules relating to lending or finance companies were last amended) the nature of the loans made by lending or finance companies has changed. First, these companies have been making loans of longer maturities—primarily second mortgages on real estate and also financing of mobile homes. Some of these loans have maturities of up to 144 months. Notwithstanding the length of the loans, the making of these loans by these companies is often done not as part of an investment activity, but rather as part of the active conduct of a trade or business. Second, these companies have made increasing use of revolving credit loans, which technically may have a maturity which does not meet the "no more than 60 months" requirement. Furthermore, due to the passage of time, the cap on the business expense test has become outdated.

The committee also notes that the recent case of *Omaha Aircraft Leasing Co.*, 74 T.C. No. 19 (1980), involved the issue of whether the taxpayer was engaged in the active and regular conduct of a lending or finance business. In addressing the issue of whether the "active and regular" requirement was met, the court considered (1) the number of loans outstanding, (2) the amount of effort and expense required to service the loans, (3) the extent of the taxpayer's activities involving attempts to make new loans, and (4) the duration of periods of inactivity by the taxpayer. The decision of the Tax Court in this case indicates that the "active and regular" requirement, coupled with the business expense test (as modified by the bill), should be sufficient to insure that the lending or finance company provisions will not apply to "incorporated pocketbooks" which are essentially passive investment entities even if loans with longer maturities are permitted.

Accordingly, the committee believes that the definition of the term lending or finance business should be modified to include the business of making revolving credit loans and loans with maximum maturities of 144 months and that the business expense test of present law should be modified by removing the cap.

Explanation of provision

The bill in general modifies the 60-month maturity limitation under the definition of a lending or finance business and the business expense requirement of the lending or finance company exception to the personal holding company provisions. Under the bill, the definition of a [14] lending or finance business is amended to include the business of making loans with maturities up to 144 months and to include the business of making certain types of revolving credit loans.

Revolving credit loans qualifying under the bill would be such loans made under an agreement which provides that the creditor will make loans or advances (not in excess of an agreed upon maximum amount) from time to time for the account of the debtor upon request and which provides that the debtor may repay the loan or advance in full or in installments.

The bill also removes the current cap on the amount of business expenses required in determining whether a corporation is a lending or finance company. Under the bill, a corporation would satisfy the business expense test only if its qualifying business expenses equal or exceed 15 percent of its ordinary gross income up to $500,000 derived from a lending or finance business, plus 5 percent of such ordinary gross income in excess of $500,000.

Effective date

The provision applies to taxable years beginning on or after the date of enactment.

Revenue effect

It is estimated that this provision will reduce fiscal year budget receipts by less than $5 million annually.

[15] E. Repeal of Excise Tax on Wagers and Occupational Tax on Wagering

(Sec. 6 of the bill and sec. 4402 and new secs. 4414 and 4415 of the Code)

Present law

Under present law, a 2-percent excise tax is imposed on the amount of certain wagers. For this purpose, a wager means (1) a wager placed with a person who is in the business of accepting wagers on the outcome of a sports event or contest, (2) a wager with respect to a sporting event or contest placed in a wagering pool conducted for profit, and (3) a wager placed in a lottery conducted for profit (including the numbers game, policy, and similar types of wagering). However, this excise tax is not imposed on (1) wagers placed with a parimutuel licensed under State law, (2) wagers placed in coin-operated gaming devices (e.g., slot machines) and (3) State-conducted wagering (e.g., State-conducted sweepstakes, off-track betting, and lotteries). Under present law, the 2-percent excise tax is imposed on so-called off-track betting authorized by State law but not conducted by the State.

Every person engaged in the business of accepting wagers is liable for the tax with respect to wagers on which the tax is imposed.

Under present law, a special occupational tax of $500 per year is imposed on each person who is liable for the 2-percent excise tax on wagers and on each person who is engaged in receiving wagers for such a person.

[1] Business expenses include only (1) deductions which are allowable only by reason of Code sections 162 or 404 and which do not represent compensation for personal services rendered by shareholders or members of their families and (2) deductions for depreciation and real property taxes to the extent that the property with respect to which such deductions are allowable is used directly in the active and regular conduct of the lending or finance business (Code sec. 542(d)(2)).

Reasons for change

The committee believes that the present law excise tax, which applies to certain types of wagering but not to others, discriminates unfairly among different types of legal wagering. The committee also believes that the imposition of taxes subjects legal wagering to an unnecessary economic burden not borne by illegal wagering for which such liabilities are generally evaded. Therefore, the bill eliminates the wagering excise and occupational taxes.

Explanation of provision

The provision repeals the 2-percent excise tax on wagers and the annual $500 occupational tax on persons engaged in the business of accepting wagers.

Effective date

The provision applies to any wager made, or any person engaged in receiving any wager, during taxable periods beginning after December 31, 1980.

Revenue effect

It is estimated that this provision will reduce fiscal year budget receipts by $9 million in 1981, $14 million in 1982, $15 million in 1983 and 1984, and $16 million in 1985.

SUPREME COURT OF THE UNITED STATES
NO. 78-1729

United States v. Payner
[447 U.S. 724]

On writ of certiorari to the United States Court of Appeals for the Sixth Circuit

[June 23, 1980]

Syllabus

At respondent's nonjury trial for falsifying a federal income tax return by denying that he maintained a foreign bank account, respondent moved to suppress a loan guarantee agreement in which he pledged the funds in the bank account as security. The District Court found respondent guilty on the basis of all the evidence, but then (1) found that the Government had discovered the guarantee agreement as the result of a flagrantly illegal search of a bank officer's briefcase, (2) suppressed all the Goverment's evidence except for respondent's tax return and related testimony, and (3) set aside the conviction for failure to demonstrate knowing falsification. The court held, *inter alia,* that, although the illegal search did not violate respondent's Fourth Amendment rights, the inherent supervisory power of the federal courts required it to exclude evidence tainted by the illegal search. The Court of Appeals affirmed.

Held:

1. Respondent lacks standing under the Fourth Amendment to suppress the documents illegally seized from the bank officer. A defendant's Fourth Amendment rights are violated only when the challenged conduct invaded *his* legitimate expectation of privacy rather than that of a third party, and respondent possessed no privacy interest in the documents seized in this case. Cf. *Rakas* v. *Illinois,* 439 U.S. 128; *United States* v. *Miller,* 425 U.S. 435 [Ct. D. 1978, 1976-1 C.B. 535].

2. The supervisory power of the federal courts does not authorize a court to suppress otherwise admissible evidence on the ground that it was seized unlawfully from a third party not before the court. Under the Fourth Amendment, the interest in deterring illegal searches does not justify the exclusion of tainted evidence at the instance of a party who was not the victim of the challenged practices. And the values assigned to the competing interests of deterring illegal searches and of furnishing the trier of fact with all relevant evidence do not change because a court has elected to analyze the question under the supervisory power instead of the Fourth Amendment. Such power does not extend so far as to confer on the judiciary discretionary power to disregard the considered limitations of the law it is charged with enforcing.

590 F. 2d 206, reversed.

POWELL, J., delivered the opinion of the Court, in which BURGER, C. J., and STEWART, WHITE, REHNQUIST, and STEVENS, JJ., joined. BURGER, C. J., filed a concurring opinion. MARSHALL, J., filed a dissenting opinion, in which BRENNAN and BLACKMUN, JJ., joined.

MR. JUSTICE POWELL delivered the opinion of the Court.

The question is whether the District Court properly suppressed the fruits of an unlawful search that did not invade the respondent's Fourth Amendment rights.

I

Respondent Jack Payner was indicted in September 1976 on a charge of falsifying his 1972 federal income tax return in violation of 18 U.S.C. § 1001.[1] The indictment alleged that respondent denied maintaining a foreign bank account at a time when he knew that he had such an account at the Castle Bank and Trust Company of Nassau, Bahama Islands. The Government's case rested heavily on a loan guarantee agreement dated April 28, 1972, in which respondent pledged the funds in his Castle Bank account as security for a $100,000 loan.

Respondent waived his right to jury trial and moved to suppress the guarantee agreement. With the consent of the parties, the United States District Court for the Northern District of Ohio took evidence on the motion at a hearing consolidated with the trial on the merits. The court found respondent guilty as charged on the basis of all the evidence. The court also found, however, that the Government discovered the guarantee agreement by exploiting a flagrantly illegal search that occurred on January 15, 1973. The court therefore suppressed "all evidence introduced in the case by the Government with the exception of Jack Payner's 1972 tax return . . . and the related testimony." *United States* v. *Payner,* 434 F. Supp. 113, 136 (1977). As the tax return alone was insufficient to demonstrate knowing falsification, the District Court set aside respondent's conviction.[2]

The events leading up to the 1973 search are not in dispute. In 1965, the Internal Revenue Service launched an investigation into the financial activities of American citizens in the Bahamas. The project, known as "Operation Trade Winds," was headquartered in Jacksonville, Fla. Suspicion focused on the Castle Bank in 1972, when investigators learned that a suspected narcotics trafficker had an account there. Special Agent Richard Jaffe of the Jacksonville office asked Norman Casper, a private investigator and occasional informant, to learn what he could about the Castle Bank and its depositors. To that end, Casper cultivated his friendship with Castle Bank vice-president Michael Wolstencroft. Casper introduced Wolstencroft to Sybol Kennedy, a private investigator and former employee. When Casper discovered that the banker intended to spend a few days in Miami in January of 1973, he devised a scheme to gain access to the bank records he knew Wolstencroft would be carrying in his briefcase. Agent

[1] 18 U. S. C. § 1001 provides in relevant part:
"Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully . . . makes any false, fictitious or fraudulent statements or representations, . . . shall be fined not more than $10,000 or imprisoned not more than five years, or both."

[2] The unusual sequence of rulings was a byproduct of the consolidated hearing conducted by the District Court. The court initially failed to enter judgment on the merits. At the close of the evidence, it simply granted respondent's motion to suppress. After the Court of Appeals for the Sixth Circuit dismissed the government's appeal for want of jurisdiction, the District Court vacated the order granting the motion to suppress and entered a verdict of guilty. The court then reinstated its suppression order and set aside the verdict. Respondent does not challenge these procedures.

Jaffe approved the basic outline of the plan.

Wolstencroft arrived in Miami on January 15 and went directly to Kennedy's apartment. At about 7:30 p.m., the two left for dinner at a Key Biscayne restaurant. Shortly thereafter, Casper entered the apartment using a key supplied by Kennedy. He removed the briefcase and delivered it to Jaffe. While the agent supervised the copying of approximately 400 documents taken from the briefcase, a "lookout" observed Kennedy and Wolstencroft at dinner. The observer notified Casper when the pair left the restaurant, and the briefcase was replaced. The documents photographed that evening included papers evidencing a close working relationship between the Castle Bank and the Bank of Perrine, Fla. Subpoenas issued to the Bank of Perrine ultimately uncovered the loan guarantee agreement at issue in this case.

The District Court found that the United States, acting through Jaffe, "knowingly and willfully participated in the unlawful seizure of Michael Wolstencroft's briefcase. . . ." 434 F. Supp, at 120. According to that court, "the Government affirmatively counsels its agents that the Fourth Amendment standing limitation permits them to purposefully conduct an unconstitutional search and seizure of one individual in order to obtain evidence against third parties. . . ." *Id.*, at 132-133. The District Court also found that the documents seized from Wolstencroft provided the leads that ultimately led to the discovery of the critical loan guarantee agreement. *Id.*, at 123.[3] Although the search did not impinge upon the respondent's Fourth Amendment rights, the District Court believed that the Due Process Clause of the Fifth Amendment and the inherent supervisory power of the federal courts required it to exclude evidence tainted by the Government's "knowing and purposeful *bad faith hostility* to any person's fundamental constitutional rights." *Id.*, at 129; see *id.*, at 133, 134-135.

The Court of Appeals for the Sixth Circuit affirmed in a brief order endorsing the District Court's use of its supervisory power. *United States* v. *Payner*, 590 F. 2d 206 (1979) (*per curiam*). The Court of Appeals did not decide the due process question.

We granted certiorari—U.S.—(1979), and we now reverse.

II

This Court discussed the doctrine of "standing to invoke the [Fourth Amendment] exclusionary rule" in some detail last term. *Rakas* v. *Illinois*, 439 U.S. 128, 138 (1978). We reaffirmed the established rule that a court may not exclude evidence under the Fourth Amendment unless it finds that an unlawful search or seizure violated the defendant's own constitutional rights. *Id.*, at 133-140. See, *e.g.*, *Brown* v. *United States*, 411 U.S. 223, 229-230 (1973); *Alderman* v. *United States*, 394 U.S. 165, 171-172 (1969); *Simmons* v. *United States*, 390 U.S. 377, 389 (1968). And the defendant's Fourth Amendment rights are violated only when the challenged conduct invaded *his* legitimate expectation of privacy rather than that of a third party. *Rakas* v. *Illinois*, *supra*, at 143; *id.*, at 149-152 (POWELL, J., concurring); *Combs* v. *United States*, 408 U.S. 224, 227 (1972); *Mancusi* v. *DeForte*, 392 U.S. 364, 368 (1968).

The foregoing authorities establish, as the District Court recognized, that respondent lacks standing under the Fourth Amendment to suppress the documents illegally seized from Wolstencroft. 434 F. Supp., at 126. The Court of Appeals did not disturb the District Court's conclusion that "Jack Payner possessed no privacy interest in the Castle Bank documents that were seized from Wolstencroft." 434 F. Supp., at 126; see 590 F. 2d, at 207. Nor do we. *United States* v. *Miller*, 425 U.S. 435 (1976), established that a depositor has no expectation of privacy and thus no "protectable Fourth Amendment interest" in copies of checks and deposit slips retained by his bank. *Id.*, at 437; see *id.*, at 442. Nothing in the record supports a contrary conclusion in this case.[4]

The District Court and the Court of Appeals believed, however, that a federal court should use its supervisory power to suppress evidence tainted by gross illegalities that did not infringe the defendant's constitutional rights. The United States contends that this approach—as applied in this case—upsets the careful balance of interests embodied in the Fourth Amendment decisions of this Court. In the Government's view, such an extension of the

[3] The United States argued in the District Court and the Court of Appeals that the guarantee agreement was discovered through an independent investigation untainted by the briefcase search. The Government also denied that its agents willfully encouraged Casper's illegal behavior. For purposes of this opinion, we need not question the District Court's contrary findings on either point.

[4] We are not persuaded by respondent's suggestion that the Bahamian law of bank secrecy creates an expectation of privacy not present in *United States* v. *Miller*, 425 U. S. 435 (1976). At the outset, it is not clear that secret information regarding this respondent's account played any role in the investigation that led to the discovery of the critical loan guarantee agreement. Even if the causal link were established, however, respondent's claim lacks merit. He cites a provision, Ch. 96.9 of the Statute Law of the Bahama Islands (1909), that is no longer in effect. Bank secrecy is now safeguarded by § 19 of the Banks Act, I Bah. Rev. Stat. ch. 96 (1965), as amended, 1965 Bah. Acts No. 65, which provides in relevant part:

"Except for the purpose of the performance of his duties or the exercise of his functions under this Act or when lawfully required to do so by any court of competent jurisdiction within the Colony or under the provisions of any law of the Colony, no person shall disclose any information relating to . . . the affairs of . . . any customer of a [bank] licensee which he has acquired in the performance of his duties or the exercise of his functions under this Act."

See also the Banks and Trust Companies Regulation Act, 1965 Bah. Acts No. 64, § 10, as amended, 1968 Bah. Acts No. 33, 1969 Bah. Acts No. 20, 1971 Bah. Acts No. 15. The statute is hardly a blanket guarantee of privacy. Its application is limited; it is hedged with exceptions; and we have been directed to no authority construing its terms. Moreover, American depositors know that their own country requires them to report relationships with foreign financial institutions. 31 U. S. C. § 1121; 31 CFR § 103.24. See generally *California Bankers Assn.* v. *Shultz*, 416 U. S. 21, 59-63, 71-76 (1974) [Ct. D. 1960, 1974-1 C.B. 393]. We conclude that respondent lacked a reasonable expectation of privacy in the Castle Bank records that documented his account.

supervisory power would enable federal courts to exercise a standardless discretion in their application of the exclusionary rule to enforce the Fourth Amendment. We agree with the Government.

III

We certainly can understand the District Court's commendable desire to deter deliberate intrusions into the privacy of persons who are unlikely to become defendants in a criminal prosecution. See 434 F. Supp., at 135. No court should condone the unconstitutional and possibly criminal behavior of those who planned and executed this "briefcase caper." [5] Indeed, the decisions of this Court are replete with denunciations of willfully lawless activities undertaken in the name of law enforcement. *E.g., Jackson* v. *Denno,* 378 U.S. 368, 386 (1964); see *Olmstead* v. *United States,* 277 U.S. 438, 485 (1928) (Brandeis, J., dissenting). But our cases also show that these unexceptional principles do not command the exclusion of evidence in every case of illegality. Instead, they must be weighed against the considerable harm that would flow from indiscriminate application of an exclusionary rule.

Thus, the exclusionary rule "has been restricted to those areas where its remedial objectives are most efficaciously served." *United States* v. *Calandra,* 414 U.S. 338, 348 (1974). The Court has acknowledged that the suppression of probative but tainted evidence exacts a costly toll upon the ability of courts to ascertain the truth in a criminal case. *E.g., Rakas* v. *Illinois, supra,* at 137-138; *United States* v. *Ceccolini,* 435 U.S. 268, 275-279 (1978); *Stone* v. *Powell,* 428 U.S. 464, 489-491 (1976); see *Michigan* v. *Tucker,* 417 U.S. 433, 450-451 (1974).[6] Our cases have consistently recognized that unbending application of the exclusionary sanction to enforce ideals of governmental rectitude would impede unacceptably the truth-finding functions of judge and jury. *E.g., Stone* v. *Powell, supra,* at 485-489; *United States* v. *Calandra, supra,* at 348. After all, it is the defendant, and not the constable, who stands trial.

The same societal interests are at risk when a criminal defendant invokes the supervisory power to suppress evidence seized in violation of a third party's constitutional rights. The supervisory power is applied with some caution even when the defendant asserts a violation of his own rights.[7] In *United States* v. *Caceres,* 440 U.S. 741, 754-757 (1979) [Ct. D. 1998, 1979-1 C.B. 465], we refused to exclude all evidence tainted by violations of an executive department's rules. And in *Elkins* v. *United States,* 364 U.S. 206, 216 (1960), the Court called for a restrained application of the supervisory power.

"[A]ny apparent limitation upon the process of discovering truth in a federal trial ought to be imposed only upon the basis of considerations which outweigh the general need for untrammeled disclosure of competent and relevant evidence in a court of justice." 364 U.S., at 216.
See also *Nardone* v. *United States,* 308 U.S. 338, 340 (1939).

We conclude that the supervisory power does not authorize a federal court to suppress otherwise admissible evidence on the ground that it was seized unlawfully from a third party not before the court. Our Fourth Amendment decisions have established beyond any doubt that the interest in deterring illegal searches does not justify the exclusion of tainted evidence at the instance of a party who was not the victim of the challenged practices. *Rakas* v. *Illinois, supra,* at 137; *Alderman* v. *United States, supra,* at 174-175.[8] The values assigned

[5] "The security of persons and property remains a fundamental value which law enforcement officers must respect. Nor should those who flout the rules escape unscathed." *Alderman* v. *United States,* 394 U. S. 165, 175 (1969). We note that in 1976 Congress investigated the improprieties revealed in this record. See Oversight Hearings into the Operations of the IRS before a Subcommittee of the House Committee on Government Operations (Operation Tradewinds, Project Haven, and Narcotics Traffickers Tax Program), 94th Cong., 1st Sess. As a result, the Commissioner of Internal Revenue "called off" Operation Trade Winds. Tr. of Oral Arg. 35. The Commissioner also adopted guidelines that require agents to instruct informants on the requirements of the law and to report known illegalities to a supervisory officer, who is in turn directed to notify appropriate state authorities. IRS Manual Supp. 9-21, §§ 9373.3(3), 9373.4 (Dec. 27, 1977). Although these measures appear on their face to be less positive than one might expect from an agency charged with upholding the law, they do indicate disapproval of the practices found to have been implemented in this case. We cannot assume that similar lawless conduct, if brought to the attention of responsible officials, would not be dealt with appropriately. To require in addition the suppression of highly probative evidence in a trial against a third party would penalize society unnecessarily.

[6] See also *Kaufman* v. *United States,* 394 U. S. 217, 237-238 (1969) (Black, J., dissenting); Oaks, Studying the Exclusionary Rule in Search and Seizure, 37 U. Chi. L. Rev. 665, 736-746, 755-756 (1970).

[7] Federal courts may use their supervisory power in some circumstances to exclude evidence taken from the *defendant* by "willful disobedience of law." *McNabb* v. *United States,* 318 U. S. 332, 345 (1943); see *Elkins* v. *United States,* 364 U. S. 206, 223 (1960); *Rea* v. *United States,* 350 U. S. 214, 216-217 (1956); cf. *Hampton* v. *United States,* 425 U. S. 484, 495 (POWELL, J., concurring in the judgment). This Court has never held, however, that the supervisory power authorizes suppression of evidence obtained from third parties in violation of Constitution, statute or rule. The supervisory power merely permits federal courts to supervise "the administration of criminal justice" among the parties before the bar. *McNabb* v. *United States, supra,* at 340.

[8] "The deterrent values of preventing the incrimination of those whose rights the police have violated have been considered sufficient to justify the suppression of probative evidence even though the case against the defendant is weakened or destroyed. We adhere to that judgment. But we are not convinced that the additional benefits of extending the exclusionary rule to other defendants would justify further encroachment upon the public interest in prosecuting those accused of crime and having them acquitted or convicted on the basis of all the evidence which exposes the truth." *Alderman* v. *United States, supra,* at 174-175. See also *Stone* v. *Powell,* 428 U. S. 464, 488-489 (1976); *United States* v. *Calandra,* 414 U. S. 338, 348 (1974).

The dissent urges that the balance of interests under the supervisory power differs from that considered in *Alderman* and like cases, because the supervisory power focuses upon the "need to protect the integrity of the federal courts." Although the District Court in this case relied upon a deterrent rationale, we agree that the supervisory power serves the "two-fold" purpose of deterring illegality and protecting judicial integrity. As the dissent recognizes, however, the Fourth Amendment exclusionary

to the competing interests do not change because a court has elected to analyze the question under the supervisory power instead of the Fourth Amendment. In either case, the need to deter the underlying conduct and the detrimental impact of excluding the evidence remain precisely the same.

The District Court erred, therefore, when it concluded that "society's interest in deterring [bad faith] conduct by exclusion outweigh[s] society's interest in furnishing the trier of fact with all relevant evidence." 434 F. Supp., at 135. This reasoning, which the Court of Appeals affirmed, amounts to a substitution of individual judgment for the controlling decisions of this Court.[9] Were we to accept this use of the supervisory power, we would confer on the judiciary discretionary power to disregard the considered limitations of the law it is charged with enforcing. We hold that the supervisory power does not extend so far.

The judgment of the Court of Appeals is *Reversed.*

---

rule serves precisely the same purposes. *Ibid.*, citing, *inter alia, Dunaway* v. *New York,* 442 U. S. 200, 218 (1979), and *Mapp* v. *Ohio,* 367 U. S. 643, 659-660 (1961). Thus, the Fourth Amendment exclusionary rule, like the supervisory power, is applied in part "to protect the integrity of the *court* rather than to vindicate the constitutional rights of the defendant. . . ."; see generally *Stone* v. *Powell,* 428 U. S. 465, 486 (1976); *United States* v. *Calandra, supra,* at 486.

In this case, where the illegal conduct did not violate the respondent's rights, the interest in preserving judicial integrity and in deterring such conduct is outweighed by the societal interest in presenting probative evidence to the trier of fact. See *supra;* see also, *e.g., Stone* v. *Powell, supra,* at 485-486. None of the cases cited by the dissent supports a contrary view, since none of those cases involved criminal defendants who were not themselves the victims of the challenged practices. Thus, our decision today does not limit the traditional scope of the supervisory power in any way; nor des it render that power "superfluous." We merely reject its use as a substitute for established Fourth Amendment doctrine.

[9] The same difficulty attends respondent's claim to the protections of the Due Process Clause of the Fifth Amendment. The Court of Appeals expressly declined to consider the Due Process Clause. But even if we assume that the unlawful briefcase search was so outrageous as to offend fundamental " 'canons of decency and fairness,' " *Rochin* v. *California,* 342 U. S. 165, 169 (1952), quoting *Malinski* v. *New York,* 324 U. S. 401, 417 (1945) (opinion of Frankfurter, J.), the fact remains that "[t]he limitations of the Due Process Clause . . . come into play only when the Government activity in question violates some protected right of the *defendant,*" *Hampton* v. *United States, supra,* at 490 (plurality opinion).

Delegation Order No. 4 (Rev. 11) (Effective July 11, 1980)

Authority to Issue Summonses, to Administer Oaths and Certify, and to Perform Other Functions

1(a). The authorities granted to the Commissioner of Internal Revenue by 26 CFR 301.7602-1(b), 301.7603-1, 301.7604-1 and 301.7605-1(a) and the authorities contained in Section 7609 of the Internal Revenue Code of 1954 and vested in the Commissioner of Internal Revenue Service by Treasury Department Order No. 150-37, dated March 17, 1955, to issue summonses; to set the time and place for appearance; to serve summonses; to take testimony under oath of the person summoned; to receive and examine books, papers, records or other data produced in compliance with the summons; to enforce summonses; to apply for court orders approving the service of John Doe Summonses issued under Section 7609 (f) of the Internal Revenue Code; and to apply for court orders suspending the notice requirements in the case of summonses issued under Section 7609(g) of the Internal Revenue Code, are delegated to the officers and employees of the Internal Revenue Service specified in paragraphs 1(b), 1(c), and 1(d) of this Order and subject to the limitations stated in paragraphs 1(b), 1(c), 1(d), and 6 of this Order

(b) The authorities to issue summonses and to perform the other functions related thereto specified in paragraph 1(a) of this Order, are delegated to all District Directors, the Director of International Operations, and the following officers and employees, provided that the authority to issue a summons in which the proper name or names of the taxpayer or taxpayers is not identified because unknown or unidentifiable (hereinafter called a "John Doe" summons) may be exercised only by said officers and employees and by them only after obtaining preissuance legal review by Regional Counsel, Deputy Regional Counsel (General Litigation) or District Counsel, or the Director, General Litigation Division in the case of Inspection.

(1) Inspection: Assistant Commissioner and Director, Internal Security Division.

(2) District Criminal Investigation: Chief of Division, except this authority in streamlined districts is limited to the District Director.

(3) International Operations: Chiefs of Divisions.

(4) District Collection Activity: Chief of Division, except this authority in streamlined districts is limited to the District Director.

(5) District Examination: Chief of Division, except this authority in streamlined districts is limited to the District Director.

(6) District Employee Plans and Exempt Organizations: Chief of Division.

(c) The authorities to issue summonses except "John Doe" summonses, and to perform other functions related thereto specified in paragraph 1(a) of this Order, are delegated to the following officers and employees:

(1) Inspection: Regional Inspectors and Assistant Regional Inspectors (Internal Security) and Chief, Investigations Branch.

(2) District Criminal Investigation: Assistant Chief of Division; Chiefs of Branches; and Group Managers.

(3) International Operations: Assistant Director; Chiefs of Branches; Case Managers; and Group Managers.

(4) District Collection Activity: Assistant Chief of Division; Chiefs of Collection Section; Chiefs of Field Branches and Office Branches; Chiefs, Special Procedures Staffs; Chiefs of Technical and Office Compliance

Branches and Groups and Group Managers.

(5) District Examination: Chiefs of Branches, Case Managers, Group Managers and, in streamlined districts Chiefs, Examination Section.

(6) District Employee Plans and Exempt Organizations: Group Managers.

(d) The authority to issue summonses except "John Doe" summonses and to perform the other functions related thereto specified in paragraph 1(a) of this Order is delegated to the following officers and employees except that in the instance of a summons to a third party witness, the issuing officer's case manager, group manager, or supervisory official above that level, has in advance personally authorized the issuance of the summons. Such authorization shall be the original and all copies of the summons or by a statement on the face of the original and all copies of the summons, signed by the issuing officer, that he/she had prior authorization to issue said summons and stating the name and title of the authorizing official and the date of authorization.

(1) International Operations: Internal Revenue Agents; Attorneys, Estate Tax; Estate Tax Examiners; Special Agents; Revenue Service and Assistant Revenue Service Representatives; Tax Auditors; and Revenue Officers, GS-9 and above.

(2) District Criminal Investigation: Special Agents.

(3) District Collection: Revenue Officers, GS-9 and above.

(4) District Examination: Internal Revenue Agents; Tax Auditors; Attorneys, Estate Tax; and Estate Tax Examiners.

(5) District Employee Plans and Exempt Organizations: Internal Revenue Agents; Tax Law Specialists; and Tax Auditors.

(e) Each of the officers and employees referred to in paragraphs 1(b), 1(c) and 1(d) of this Order may serve a summons whether it is issued by him/her or another official.

(f) Revenue Representatives, GS-5 and above, and Revenue Officers, who are assigned to the District Collection Activity and to International Operations may serve any summons issued by the officers and employees referred to in paragraphs 1(b), 1(c) and 1(d) of this Order.

2. Each of the officers and employees referred to in paragraphs 1(b), 1(c), and 1(d) of this Order authorized to issue summonses, is delegated the authority under 26 CFR 301.7602-1(b) to designate any other officer or employee of the Internal Revenue Service referred to in paragraph 4(b) of this Order, as the individual before whom a person summoned pursuant to Section 7602 of the Internal Revenue Code shall appear. Any such other officer or employee of the Internal Revenue Service when so designated in a summons is authorized to take testimony under oath of the person summoned and to receive and examine books, papers, records or other data produced in compliance with the summons.

3. Internal Security Inspectors are delegated the authority under 26 CFR 301.7603-1 to serve summonses issued in accordance with this Order by any of the officers and employees of the Inspection Service referred to in paragraphs 1(b)(1) and 1(c)(1) of this Order even though Internal Security Inspectors do not have the authority to issue summonses.

4(a). The authorities granted to the Commissioner of Internal Revenue by 26 CFR 301.7602-1(a), and 301.7605-1(a) to examine books, papers, records or other data, to take testimony under oath and to set the time and place of examination are delegated to the officers and employees of the Internal Revenue Service specified in paragraphs 4(b), 4(c), and 4(d) of this Order and subject to the limitations stated in paragraphs 4(c) and 6 of this Order.

(b) General Designations

(1) Inspection: Assistant Commissioner; Director, Internal Security Division; Director, Internal Audit Division; Regional Inspectors; Internal Auditors; and Internal Security Inspectors.

(2) District Criminal Investigation: Chief and Assistant Chief of Division; Chiefs of Branches; Group Managers; and Special Agents.

(3) International Operations: Director, Assistant Director; Chief of Divisions and Branches; Special Agents; Case Managers; Group Managers, Internal Revenue Agents; Attorneys, Estate Tax; Estate Tax Examiners; Revenue Service and Assistant Revenue Service Representatives; Tax Auditors; and Revenue Officers.

(4) District Collection Activity: Chiefs and Assistant Chiefs of Division; Chiefs of Field Branches and Office Branches; Chiefs, Special Procedures Staffs; Chiefs, Technical and Office Compliance Branches; Chiefs, Collection Section; Chiefs, Technical and Office Compliance Branches and Groups; Group Managers and Revenue Officers.

(5) District Examination: Chiefs of Division; Chiefs of Examination Sections; Chiefs of Examination Branches; Case Managers; Group Managers; Internal Revenue Agents; Tax Auditors; Attorneys, Estate Tax; and Estate Tax Examiners.

(6) District Employee Plans and Exempt Organization: Chief of Division; Chief, Examination Branch;. Chief, Technical Staff; Group Managers; Internal Revenue Agents; Tax Law Specialists; and Tax Auditors.

(7) Service Center: Chief, Compliance Division; Chief, Examination Branch; Chief, Collection Branch; Chief, Criminal Investigation Branch; Revenue Agents; Tax Auditors; Tax Examiners in the correspondence examination functions; and Special Agents.

(c) District Directors, Service Center Directors, Regional Inspectors, the Chief of Investigation Branch, and the Director of International Operations may redelegate the authority under 4(a) of this Order to Law Clerks (Estate Tax), aides or trainees, respectively, for the positions of Revenue Agent, Tax Auditor, Tax Examiner in the Service Center Correspondence and Processing function, Tax Law

Specialists, Revenue Officer, Internal Auditor, Internal Security Inspector, Attorney (Estate Tax) and Special Agent, provided that each such Law Clerk (Estate Tax), aide or trainee shall exercise said authority only under the direct supervision, respectively, as applicable of a Revenue Agent, Tax Auditor, Tax Examiner in the Service Center Correspondence and Processing function, Tax Law Specialist, Revenue Officer, Social Agent, Internal Auditor or Internal Security Inspector or Attorney (Estate Tax).

(d) District Directors may redelegate the authority under 4(a) of this Order to Revenue Representatives and Office Collection Representatives.

5. Under the authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7622-1, the officers and employees of the Internal Revenue Service referred to in paragraphs 1(b), 1(c), 1(d), and 4(b) and 4(c) of this Order are designated to administer oaths and affirmations and to certify to such papers as may be necessary under the internal revenue laws and regulations *except* that the authority to certify shall not be construed as applying to those papers or documents the certification of which is authorized by separate order or directive. Revenue Representatives and Office Collection Representatives referred to in paragraph 4(d) of this Order are not designated to administer oaths or to perform the other functions mentioned in this paragraph, except that Revenue Representatives, GS-5 and above, are authorized to certify the method and manner of service, and the method and manner of giving notice, when performing the functions and duties contained in paragraph 1(f) of this order.

6. The authority delegated herein may not be redelegated except as provided in paragraphs 4(c) and 4(d).

7. This Order supersedes Delegation Order No. 4 (Rev. 10) [1980-1 C.B. 569], issued February 1, 1980.

JEROME KURTZ,
Commissioner.

(Filed by the Office of the Federal Register on July 15, 1980, 8:45 a.m., and published in the issue of the Federal Register for July 16, 1980, 45 F.R. 47778)

Delegation Order No. 11 (Rev. 12) (Effective July 7, 1980)

Authority to Accept or Reject Offers in Compromise

The authority vested in the Commissioner of Internal Revenue by Treasury Department Order Nos. 150-25 and 150-36, 26 CFR 301.7122-1 and 26 CFR 301.7701-9, and Treasury Department Order No. 150-60, is hereby delegated as follows:

1. Regional Commissioners of Internal Revenue are delegated authority, under Section 7122 of the Internal Revenue Code, to accept offers in compromise in cases in which the unpaid liability (including any interest, penalty, additional amount or addition to tax) is $100,000 or more. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco and firearms taxes. This authority may not be redelegated.

2. For the Office of International Operations, the Assistant Commissioner (Compliance) is delegated authority, under Section 7122 of the Internal Revenue Code, to accept offers in compromise of tax, based solely on doubt as to liability, in cases in which the unpaid liability (including any interest, penalty, additional amount or addition to tax) is $100,000 or more. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco, and firearms taxes. This authority may not be redelegated.

3. For the Office of International Operations, the Director, Collection Division is delegated authority, under Section 7122 of the Internal Revenue Code, to accept offers in compromise based on doubt as to collectibility and those based on doubt as to both collectibility and liability in cases in which the unpaid liability (including any interest, penalty, additional amount or addition to tax) is $100,000 or more. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco, and firearms taxes. This authority may not be redelegated.

4. District Directors, Assistant District Directors, the Director of International Operations and the Assistant Director of International Operations, Regional Directors of Appeals, Chiefs and Associate Chiefs, Appeals Offices, are delegated authority, under Section 7122 of the Internal Revenue Code, to accept offers in compromise in cases in which the liability sought to be compromised (including any interest, penalty, additional amount or addition to tax) is less than $100,000, to accept offers involving specific penalties, and to reject offers in compromise regardless of the amount of the liability sought to be compromised. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco, and firearms taxes. The authority delegated to District Directors, Assistant District Directors and the Director of International Operations may not be redelegated, except that the authority to reject offers in compromise may be redelegated, but not lower than to Division Chief. The District Director in a streamlined district may not redelegate this authority. The Regional Director of Appeals, Chiefs and Associate Chiefs, Appeals Offices, may not redelegate this authority.

5. Service Center Directors and Assistant Service Center Directors are delegated authority, under Section 7122 of the Internal Revenue Code, to accept offers in compromise, limited to penalties based solely on doubt as to liability, in cases in which the unpaid liability is less than $100,000, and to reject offers in compromise, limited to penalties, regardless of the amount of the liability sought to be compromised. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco, and firearms taxes. This authority may be redelegated, but not lower than to Division Chief.

6. This Order supersedes Delegation

Order No. 11 (Rev. 11) [1979-2 C.B. 481] issued August 23, 1979.

WILLIAM E. WILLIAMS,
Acting Commissioner.

(Filed by the Office of the Federal Register on July 10, 1980, 8:45 a.m., and published in the issue of the Federal Register for July 11, 1980, 45 F.R. 46956)

Delegation Order No. 51 (Rev. 5) (Effective September 29, 1980)

Proofs of Claim in Insolvency Proceedings

1. Pursuant to the authority vested in the Commissioner of Internal Revenue by 26 CFR 301.7701-9 and 26 CFR 301.6871, the authority to sign proofs of claim and other documents asserting the obligations incurred under the Internal Revenue laws (including taxes, penalties and interest), in order to claim and collect such obligations in any proceeding under the Bankruptcy Act, Bankruptcy Code and any receivership, decedent's estate, corporate dissolution, or other insolvency proceeding is hereby redelegated to the following officers:

Chief, Special Procedures Staff

Chief, Technical and Office Compliance Branch

Chief, Technical and Office Compliance Group in streamlined districts

2. The authority in Section 1 may be redelegated but no lower than the following:

Special Procedures Officers

Advisors no lower than grade 12

Advisor/Reviewers no lower than grade 12

This Order supersedes Delegation Order No. 51 (Rev. 4), issued March 21, 1979 [1979-1 C.B. 475].

JEROME KURTZ
Commissioner.

(Filed by the Office of the Federal Register on October 2, 1980, 8:45 a.m., and published in the issue of the Federal Register for October 3, 1980, 45 F.R. 65763)

Delegation Order No. 96 (Rev. 4) (Effective June 4, 1980)

Application of Rulings Without Retroactive Effect

1. Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7805-1(b):

a. the Assistant Commissioner (Technical) and the Deputy Assistant Commissioner (Technical) are hereby authorized to prescribe the extent, if any, to which any ruling issued by or pursuant to authorization from the Assistant Commissioner relating to the internal revenue laws shall be applied without retroactive effect.

b. the Assistant Commissioner (Employee Plans and Exempt Organizations) and the Deputy Assistant Commissioner (Employee Plans and Exempt Organizations) are hereby authorized to prescribe the extent, if any, to which any ruling issued by or pursuant to authorization from the Assistant Commissioner relating to the internal revenue laws shall be applied without retroactive effect.

2. a. Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7805-1(b), there is hereby delegated to the Director, Employee Plans Division and to the Director, Actuarial Division of the National Office, and to the Director of each EP/EO Key District, the authority to limit the retroactive effect of the revocation of any determination letter issued with respect to employee plans if the following conditions are met:

(1) The plan sponsor has received a favorable determination letter under the law in effect prior to the date that the Employee Retirement Income Security Act of 1974 [1974-3 C.B. 1] (ERISA) applied to the plan, but did not receive a favorable post-ERISA determination letter.

(2) The plan sponsor executed the necessary plan amendments to conform to ERISA retroactively to the first plan year that was subject to ERISA and such amendments are executed no later than 91 days after the issuance of a final determination letter or notice of amendments needed to effect compliance (which notice shall be issued at least 91 days period to the final examination report).

(3) Employees' and beneficiaries' rights and/or benefits under the plan are restored to levels they would have had to attain if the plan had never failed to qualify under ERISA.

(4) The requirements of section 2b relating to form are satisfied on June 4, 1980, and the requirements of section 2b relating to operation are met beginning with the ERISA effective date for the minimum participation standards determined with regard to each plan.

b. The requirements of this section are:

(1) The plan satisfies the age and service requirements for participation described in section 410(a) of the Code or fails to satisfy such requirements solely because the plan incorrectly credits service for eligibility purposes;

(2) The plan satisfies the requirements of section 411(a) or fails to satisfy such requirements solely because the plan incorrectly credits service for vesting purposes;

(3) In the case of a plan subject to the joint and survivor requirements of section 401(a)(11) such plan provides a joint and survivor annuity;

(4) The plan has not failed to satisfy the requirements of section 414(1);

(5) The plan has not, in operation, violated the limitations of section 415(c) by making excess allocations to individuals who are officers, shareholders or highly compensated; and

(6) The plan has not, in operation, been discriminatory in coverage or in contributions or benefits under sections 410(b) and 401(a)(4).

c. In the case of a plan that fails to satisfy section 2a solely as a result of not satisfying one or more of the requirements of section 2b, partial relief will be granted through section 7805(b). The employer's contributions will not be deductible as contributions to a qualified plan. However, section 7805(b) relief will be applied to the trust and all employees except to the

extent described in the next two sentences. In the case of a plan that does not satisfy section 2b(5), the 7805(b) relief described in the previous sentence will not apply to any officer, shareholder, or highly compensated individual who received annual additions that did not satisfy such section. In the case of a plan which does not satisfy section 2b(6), the 7805(b) relief will not apply to any officer, shareholder or highly compensated individual. Thus, any such officer, shareholder or highly compensated individual will not receive the tax treatment applicable with respect to qualified plans. In the case of a plan which fails to satisfy applicable requirements for any other reason relief can only be granted pursuant to section 1b.

d. The section 7805(b) relief detailed in sections 2a, 2c and 3 shall be effective for the period beginning with the ERISA effective date for the minimum participation standards determined with regard to each plan and ending on the date of final compliance which shall be no later than the date defined in section 2a(2) of this order.

e. In determining whether the requirements of this section are satisfied, proposed amendments received by the Service by June 4, 1980, will be taken into account.

3. a. In addition to the authority delegated in section 2 above, there is delegated to the Director of each EP/EO Key District, the Director, Employee Plans Division and the Director, Actuarial Division, the authority to limit the retroactive effect of the revocation, if any, of a favorable post-ERISA determination letter issued for a plan, except issues with respect to which an Alert Guidelines worksheet was completed. If a determination letter was issued erroneously with respect to issues covered by a completed Alert Guidelines worksheet, retroactive relief may only be granted pursuant to section 1b.

b. If a plan described in section 3a is amended in accordance with section 2a(2), restoration will be required and relief will be granted to the extent described below. If the defect did not exist at the time of the prior letter, the sponsor must restore any benefits and relief will be granted in accordance with the principles in section 2c for the period in which the defect existed. If the defect did exist at the time of the prior letter, the related benefits need only be restored for the period during which the plan was, without regard to the defect, not in compliance with Code section 401(a), and full section 7805(b) relief will be granted.

4. The delegation of authority granted pursuant to sections 2 and 3 above does not permit relief to be granted in any case if after September 30, 1982, amendments required for complete compliance have not been executed or a request for a determination letter with proposed ERISA amendments has not been filed. Notwithstanding the above, the Director of each EP/EO Key District is not delegated any section 7805(b) authority in the case of a plan which the Director of each EP/EO Key District determines to have been discriminatory for years before the effective date of section 410 for such plan. Cases described in this section must be referred to the National Office pursuant to procedures governing requests for technical advice.

5. Notwithstanding any of the above, section 7805(b) authority is not delegated to the Director, Employee Plans Division, the Director, Actuarial Division and the Director of each EP/EO Key District in the case of a plan which has been determined to have violated the exclusive benefit rule of section 401(a).

6. The section 7805(b) authority described in sections 2a, 2c or 3 will be exercised except in rare and unusual circumstances. Where rare and unusual circumstances exist, denial of section 7805(b) relief will be applied only if approved by the National Office.

7. The authority delegated in section 1 may not be redelegated.

8. The authority to grant 7805(b) relief in certain employee plan matters herein delegated to the Director, Employee Plans Division and to the Director of each EP/EO Key District may not be redelegated below the level of the Chief, Employee Plans Technical Branch and the Chief, EP/EO Division, respectively. The authority to grant 7805(b) relief delegated to the Director, Actuarial Division may not be redelegated.

9. This delegation order expires with respect to the Director of each EP/EO Key District on December 31, 1982.

10. This delegation order supersedes Delegation Order No. 96 (Rev. 3) [1976-2 C.B. 623] issued July 12, 1976.

JEROME KURTZ,
Commissioner.

(Filed by the Office of the Federal Register on June 5, 1980, 8:45 a.m., and published in the issue of the Federal Register for June 6, 1980, 45 F.R. 38198)

Delegation Order No. 112 (Rev. 6) (Effective June 2, 1980)

Authority to Issue Determination and Revocation Letters, to Grant Extensions of the Remedial Amendment Period and to Issue Examination Reports Relating to Employee Plans

Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-37, authority with respect to issuance of determination and revocation letters, to granting extensions of the remedial amendment period and to issuance of examination reports pertaining to employee plans and related matters is delegated as follows:

1. The District Director of each Employee Plans and Exempt Organizations key district is authorized, subject to paragraph 3, to:

(a) issue determination and revocation letters involving the provisions of sections 401, 403(a), 405, 409A, 501(a), and 4975(e)(7) of the Internal Revenue Code of 1954 with respect to:

(1) qualification of stock bonus, pension, profit sharing, employee stock ownership, annuity, and bond purchase plans, and cash or deferred arrangements;

(2) exemption from federal income tax under section 501(a) of trusts forming a part of such plans, provided that the determination does not involve application of section 502 (feeder organizations) or section 511 (unrelated business income), or the question of whether a proposed transaction will be a prohibited transaction under section 4975(c)(1) or section 503 with respect to plans described in 4975(g)(2) or (3);

(3) compliance with the applicable requirements of foreign situs trusts as to taxability of beneficiaries (section 402(c)) and deductions for employer contributions (section 404(a)(4)); and

(4) amendments, (including those relating to section 414(l) of the Code), partial terminations or terminations of such plans and trusts.

(b) issue examination reports with respect to:

(1) continued qualification under sections 401, 403(a), 405, 409A, and 4975(e)(7) of plans and continued exemption under section 501(a) of the related trust;

(2) imposition of tax under sections 1, 511 through 514, 641 and Chapter 43; and

(3) imposition of penalties under Chapter 68 of the Internal Revenue Code of 1954.

(c) issue determination letters with respect to whether a plan constitutes an employee stock ownership plan that is not intended to qualify under section 401 of the Internal Revenue Code of 1954 for taxable years beginning before January 1, 1979.

(d) issue modification or revocation of determination letters described above in accordance with currently applicable appeal procedures. If the revocation involves collectively-bargained plans, or plans for which the Internal Revenue Service is proposing to issue a revocation letter because certain fiduciary actions subject to Part 4, Subtitle B of Title I of the Employee Retirement Income Security Act (ERISA) [Pub. L. 93-406, 1974-3 C.B. 1, 43] have violated the exclusive benefit rule of section 401(a), the plan must have been submitted for technical advice and the Assistant Commissioner (E) must have concurred with the revocation.

(e) redelegate this authority as follows:

(1) with respect to issuance and modification of favorable determination letters or examination reports, other than a report issued with a proposed revocation letter, not below Internal Revenue Agent and Tax Law Specialist, GS-12, and then only if such individual is a person other than the initiator,

(2) with respect to issuance of proposed and final adverse determination letters or proposed revocation letters and related examination reports, not below Chief, EP/EO Division.

(3) with respect to issuance of final revocation letters, this authority may not be redelegated.

2. In each region, the Regional Director of Appeals, Chiefs and Associate Chiefs, Appeals Office, are authorized to:

(a) issue final determination or final revocation letters on appeals from proposed adverse determination and proposed revocation letters issued by key district offices under this delegation.

(b) issue letters as to the decision on appealed examination reports or statutory notices as provided in Delegation Order No. 77 [(Rev. 14), 1980-1 C.B. 573].

(c) This authority may not be redelegated.

3. The Assistant Commissioner (Employee Plans and Exempt Organizations), with concurrence of the Chief Counsel, is authorized to require preissuance review of final adverse determination and final revocation letters covered by section 7476(a) of the Internal Revenue Code of 1954.

4. The District Director of each Employee Plans and Exempt Organizations key district is authorized to:

(a) extend the remedial amendment period described in section 401(b) of the Internal Revenue Code of 1954 in accordance with currently applicable 401(b) procedures for individually designed plans and master and prototype plans not described in (b) below, but not in excess of eight months after the later of:

(1) the due date of the employer's income tax return without extension, for the year in which the remedial amendment period begins, or

(2) the end of the plan year within which the remedial amendment period begins;

(3) however, for a plan maintained by more than one employer, the remedial amendment period may not be extended in excess of two months after the last day of the tenth month after the end of the plan year.

(b) extend the remedial amendment period for a master or prototype plan whose sponsoring organization, after September 2, 1974, and on or before December 31, 1976, filed a request for an opinion letter with respect to the plan's qualification but not in excess of eight months after the later of:

(1) June 30, 1977, or

(2) the last day of the month that is six months after the month in which (i) the opinion or notification letter is issued, (ii) the request for the letter is withdrawn, or (iii) the request is otherwise disposed of by the Service.

(c) redelegate this authority but not below Chief, EP/EO Division.

Delegation Order No. 112 (Rev. 5) [1978-2 C.B. 481] issued October 1, 1978 is hereby superseded.

JEROME KURTZ,
Commissioner

(Filed by the Office of the Federal Register on June 5, 1980, 8:45 a.m., and published in the issue of the Federal Register for June 6, 1980, 45 F.R. 38200)

Delegation Order No. 114 (Rev. 2) (Effective August 28, 1980)

Designation to Act as "Competent or Taxation Authority" Under Tax Treaties

1. Pursuant to the authority delegated to me by Treasury Department Order No. 150-83 [1973-2 C.B. 508], there is hereby delegated to the Assist-

ant Commissioner (Compliance) the authority to act as "competent or taxation authority" under tax treaties of the United States. This authority includes the administration of the operating provisions of tax treaties as well as the interpretation or application of such treaties. With respect to the interpretation or application of tax treaties, the Assistant Commissioner (Compliance) shall act in all such matters only after the concurrence of the Assistant Commissioner (Technical).

2. The authority delegated herein to administer the operating provisions of tax treaties may be redelegated, but not lower than Division Director.

3. The authority delegated herein relating to the interpretation or application of tax treaties may not be redelegated.

4. Delegation Order No. 114 (Rev. 1) [1976-2 C.B. 623], issued November 3, 1976, is superseded.

JEROME KURTZ,
Commissioner.

Delegation Order No. 156 (Rev. 1), Amend. 1 (Effective June 1, 1980)

Authority to Disclose Returns and Return Information to Federal Officers or Employees for Administration on Nontax Federal Criminal Laws

Pursuant to the authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-37, dated March 17, 1955, authority is hereby delegated as follows:

1. The Deputy Commissioner; Assistant Commissioner (Taxpayer Service and Returns Processing); Deputy Assistant Commissioner (Taxpayer Service and Returns Processing); Director, Disclosure Operations Division; Regional Commissioners; District and Service Center Directors; Assistant District and Service Center Directors; Director of International Operations; and Assistant Director of International Operations are authorized:

a. To disclose or in specific instances, authorize the disclosure of returns or taxpayer return information to officers and employees of a Federal agency pursuant to an *ex parte* order by a Federal district court judge when needed for use in the enforcement of a Federal criminal statute (not involving tax administration), subject to the conditions prescribed in IRC 6103(i)(1) and the Treasury Regulations thereunder. This authority may not be redelegated.

b. To disclose or, in specific instances, authorize the disclosure of return information (other than taxpayer return information) to officers and employees of a Federal agency upon written request by the head of such agency, or in the case of the Department of Justice, the Attorney General, the Deputy Attorney General, or an Assistant Attorney General, when needed for use in the enforcement of a Federal criminal statute (not involving tax administration) subject to the conditions prescribed in IRC 6103(i)(2). This authority may not be redelegated.

2. The Deputy Commissioner; Assistant Commissioner (Taxpayer Service and Returns Processing); Deputy Assistant Commissioner (Taxpayer Service and Returns Processing); Director, Disclosure Operations Division; and Regional Commissioners are authorized:

a. To withhold any return or taxpayer return information pursuant to IRC 6103(i)(1) or (i)(4), upon a determination that such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation. This authority may not be redelegated.

b. To withhold return information (other than taxpayer return information), pursuant to IRC 6103(i)(2) or (i)(4), upon a determination that such disclosure would identify a confidential informant or seriously impair any civil or criminal tax investigation. This authority may not be redelegated.

c. To disclose or, in specific instances, authorize the disclosure in writing of return information (other than taxpayer return information), which may constitute evidence of a violation of Federal criminal laws, to the extent necessary to apprise the head of the appropriate Federal agency enforcing such laws, subject to the conditions prescribed in IRC 6103(i)(3). The authority to withhhold return information (other than taxpayer return information), pursuant to IRC 6103(i)(4) upon a determination that such disclosure would identify a confidential informant or seriously impair a civil or criminal tax investigation is also delegated. The authority delegated in this paragraph may be redelegated to Assistant Regional Commissioners (Taxpayer Service and Returns Processing) and Regional Disclosure Officers, but such redelegation shall not extend to the authority to withhold return information (other than taxpayer return information). This authority is in addition to the authority previously delegated in paragraph (1)(g) of Delegation Order No. 156 (Rev. 1) [1979-2 C.B. 485].

3. This Amendment amends paragraphs (6)(b), (c), and (d) of Delegation Order No. 156 (Rev. 1). Delegation Order No. 156 (Rev. 1), issued July 30, 1979, is printed in the Federal Register dated August 1, 1979, Vol. 44, No. 149, Page 45275.

JEROME KURTZ,
Commissioner.

(Filed by the Office of the Federal Register on June 5, 1980, 8:45 a.m., and published in the issue of the Federal Register for June 6, 1980, 45 F.R. 38199)

Delegation Order No. 116 (Rev. 4) (Effective July 18, 1980)

Authority to Grant Extension of Time to File Income and Estate Tax Returns

The authority granted to the Commissioner of Internal Revenue by 26 CFR 1.6081-1, 26 CFR 20.6081-1 and 26 CFR 301.7701-9 to grant extensions of time to file income and estate tax returns, is hereby delegated to District Directors, Assistant District Directors, Director of International Op-

erations, Assistant Director of International Operations, Service Center Directors and Assistant Service Center Directors.

The authority delegated herein for estate tax returns may be redelegated, but not below:

Advisor/Reviewer, Advisor or Reviewer in the Special Procedures function in District Offices and Office of International Operations.

Senior Tax Examiners in Service Centers.

The authority delegated herein for income tax returns may be redelegated, but not below:

Chief, Special Procedures Staff or Chief, Technical and Office Compliance Branch/Group in District Offices and Office of International Operations; and full working level Tax Examiners in Service Centers.

Delegation Order No. 116 (Rev. 3) [1979-1 C.B. 476], issued January 29, 1979, is superseded.

JEROME KURTZ,
Commissioner.

(Filed by the Office of the Federal Register on July 22, 1980, 8:45 a.m., and published in the issue of the Federal Register on July 23, 1980, 45 F.R. 49204)

Delegation Order No. 183 (Effective June 23, 1980)

Extension of Time for Making Certain Elections

I. Pursuant to authority granted to the Commissioner of Internal Revenue by 26 CFR 1.9100-1, the Assistant Commissioner (Technical) and the Assistant Commissioner (Employee Plans and Exempt Organizations) are authorized to grant a reasonable extension of time fixed by regulations for making an election or application for relief in respect of tax under Subtitle A of the Code, subject to the requirements of 26 CFR 1.9100-1.

II. This authority may be redelegated to Division Directors and Branch Chiefs. In the case of granting extensions of time for filing applications for change in accounting method and accounting period not involving precedent issues this authority may be redelegated to the Chief of Ruling Section 1, Corporation Tax Branch.

JEROME KURTZ,
Commissioner.

(Filed by the Office of the Federal Register on July 3, 1980, 8:45 a.m., and published in the issue of the Federal Register for July 7, 1980, 45 F.R. 45751)

Executive Order 12238

Public International Organization Entitled to Enjoy Privileges, Exemptions, and Immunities

By the authority vested in me by Section 1 of the International Organizations Immunities Act (59 Stat. 669; 22 U.S.C. 288) [Pub. L. 291, 1946-1 C.B. 323], and having found that the United States participates in the International Maritime Satellite Organization pursuant to Title V of the Communications Satellite Act of 1962, as amended (47 U.S.C. 751 *et seq.*), the International Maritime Satellite Organization is hereby designated as a public international organization entitled to enjoy the privileges, exemptions, and immunities conferred by the International Organizations Immunities Act.

JIMMY CARTER

THE WHITE HOUSE
September 12, 1980.

(Filed by the Office of the Federal Register on September 12, 1980, 10:50 a.m., and published in the issue of the Federal Register on September 15, 1980, 45 F.R. 60877)

Notice 80-8

Inflation Adjustment for Computation of Windfall Profit Tax

Section 4989(b) of the Internal Revenue Code requires the determination of an inflation adjustment factor for use in computing the windfall profit tax.

The Service has determined that, for oil removed during the October-December quarter of 1980, the inflation adjustments are as follows:

Tier 1 or Tier 2 oil	0.0924
Tier 3 oil	0.1144

Worksheets for computation of the windfall profit tax are included in the Instructions for Form 6047, Windfall Profit Tax, and an explanation of the inflation adjustment may be found in the Specific Instructions for Line 4 of the worksheets.

Notice 80-9

Merchant Marine and Fisheries Capital Construction Funds—Applicable Rates of Interest on Nonqualified Withdrawals

Under the authority in section 607 (h)(4) of the Merchant Marine Act, 1936, (46 U.S.C. 1101), as amended by section 21 of the Merchant Marine Act of 1970 (84 Stat. 1031) [Pub. L. 91-469, 1970-2 C.B. 372], we hereby determine and announce that the applicable rate of interest on the amount of additional tax attributable to any nonqualified withdrawals from a capital construction fund established under section 607 of the Act shall be 10.36 percent, with respect to nonqualified withdrawals made in the taxable year beginning in 1980.

The determination of the applicable rate of interest with respect to nonqualified withdrawals was computed according to the joint regulations issued under the Act (46 CFR Part 391 § 391.7(e)(2)(ii)) by multiplying 8 percent by the ratio which (a) the average yield on 5-year Treasury securities for the calendar year immediately preceding the beginning of such taxable year, bears to (b) the average yield on 5-year Treasury securities for the calendar year 1970. The applicable rate so determined was computed to the nearest one-hundredth of 1 percent.

Dated: August 11, 1980.

SAMUEL B. NEMIROW,
Assistant Secretary for Maritime Affairs.

RICHARD A. FRANK,
Administrator, National Oceanic and Atmospheric Administration.

DONALD C. LUBICK,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 18, 1980, 8:45 a.m., and published in the issue of the Federal Register for August 19, 1980, 45 F.R. 55250)

Notice 80-10

Inflation Adjustment for Computation of Windfall Profit Tax

Section 4989(b) of the Internal Revenue Code requires the determination of an inflation adjustment factor for use in computing the windfall profit tax.

The Service has determined that, for oil removed during the January-March quarter of 1981, the inflation adjustments are as follows:

Tier 1 or Tier 2 oil ----- 0.1187
Tier 3 oil ----- 0.1469

Worksheets for computation of the windfall profit tax are included in the Instructions for Form 6047, Windfall Profit Tax, and an explanation of the inflation adjustment may be found in the Specific Instructions for Line 4 of the worksheets.

Notice 80-11 [1]

Certification of Unemployment Compensation Laws

Certification of State Unemployment Compensation Laws to the Secretary of the Treasury Pursuant to Section 3303(b)(1) of the Internal Revenue Code of 1954

In accordance with the provisions of paragraph (1) of Section 3303(b) of the Internal Revenue Code of 1954 (26 U.S.C. 3303(b)(1)), I hereby certify the unemployment compensation laws of the following named States, which heretofore have been certified pursuant to paragraph (3) of Section 3303(b) of the Code, to the Secretary of the Treasury for the 12-month period ending October 31, 1980.

Alabama
Alaska
Arizona
Arkansas
California
Colorado
Connecticut
Delaware
District of Columbia
Florida
Georgia
Hawaii
Idaho
Illinois
Indiana
Iowa
Kansas
Kentucky
Louisiana
Maine
Maryland
Massachusetts

26 CFR 601.602: Forms and instructions. (Also Part I, Section 6302; 31.6302(c)-1, 31.6302(c)-3.)

Rev. Proc. 80-31

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to outline the requirements and instructions for reporting agents who perform a payroll service and who, in connection with this service, submit employment federal tax deposit payments for their clients. These payments are described in the Employment Tax Regulations (26 CFR Part 31) under section 6302 of the Internal Revenue Code. All federal tax deposit payments are required to be deposited through a qualified federal tax depositary, as defined in 31 CFR Part 203. Each payment must be accompanied by the appropriate federal tax deposit card.

[1] Filed by the Office of the Federal Register on November 6, 1980, 8:45 a.m., and published in the issue of the Federal Register for November 7, 1980, 45 F.R. 74115.

.02 Under the provisions of this revenue procedure, qualifying agents may request permission to prepare federal tax deposit cards instead of using the prepunched cards provided by the Treasury Department. These agent-prepared federal tax deposit cards must accompany the payments of clients who have been approved under this program. Authorization will extend only to those agents who have a minimum of 500 clients and who satisfy all the requirements of this revenue procedure.

SEC. 2. BACKGROUND

.01 The Treasury Department furnishes federal tax deposit cards to those taxpayers who can reasonably be expected to make tax deposits. These cards are prepunched and preprinted with essential identifying information for processing the payment data to the appropriate tax account. Many payroll and tax preparation businesses have not had the prepunched deposit cards for making the required tax deposits, and, in most instances, this occurred because the agent had not requested that the client forward the deposit cards furnished by the Treasury Department. Some of these reporting agents have mailed deposits directly to an Internal Revenue Service office when the deposit cards were not available to them. This practice is not in conformity with the Employment Tax Regulations.

.02 Authorization for preparing Form FTD 501, Federal Tax Deposit, Withheld Income and FICA Taxes (FTDs), first appeared in Rev. Proc. 75-12, 1975-1 C.B. 653. The authority to prepare federal tax deposit cards is no longer dependent on the authority to file Form 941, Employer's Quarterly Federal Tax Return, on magnetic tape.

SEC. 3. FTD PAYMENTS SUBMITTED BY REPORTING AGENTS

.01 All federal tax deposit cards prepared by an authorized agent must be submitted with payment to a qualified federal tax depositary. The only acceptable agent-prepared deposit cards are those relating to Forms 941, 940, and 943. Form 501 is used to report a deposit for withheld income and FICA taxes (Form 941). Deposit Form 508 is used to report a deposit for unemployment taxes (Form 940). Deposit Form 511 is used to report a deposit for agricultural FICA taxes and voluntarily withheld income tax (Form 943).

.02 Authorized agents will be furnished a supply of blank FTD cards. The same type of card is used for all three taxes. The agent will identify the type of tax by a tax class code punched in column 19 of the card.

.03 Deposits for other taxes and for clients who have not been accepted under this program must be made to a depositary by means of the prepunched cards provided by the Treasury Department. Reporting agents authorized under this program who mail payments directly to an Internal Revenue Service office will have their remittances returned to them under instructions that they obtain the appropriate deposit cards from their client and that they submit the same through a qualified federal tax depositary, as required. Taxpayers whose payments are returned to their reporting agent may be subject to appropriate penalty and interest charges. Unless the client delivers the prepunched cards to them, reporting agents should not assume the responsibility of making tax deposits on behalf of a client as to any deposit that may become due before the client is actually under this program.

.04 Agent-prepared FTD cards must be submitted to a qualified depositary separate from the prepunched deposit cards which were mailed to the taxpayer by the Treasury Department.

SEC. 4. APPLICATION TO PREPARE FTD CARDS

.01 Agents who wish to prepare federal tax deposit cards must first file a letter of application with the Director of the Internal Revenue Service Center where the deposits will be processed. In most cases this will be the same service center that processes the related tax forms. See Exhibit 1 for a list of service centers and their respective addresses.

The letter of application should include all the following information:

1 The full name, address, and employer identification number of the firm making the application. If the reporting agent will prepare and submit deposit cards at more than one branch or location, each location must be identified in the letter of application, or each location must submit an individual letter of application.

2 The name, title, and telephone number of a person the Service can contact regarding the application. In most cases, any problem with the letter of application can be resolved by telephone and this will expedite processing by the service center.

3 The name, address, employer identification number, Federal Reserve Bank code, bank identification number/check digit code, and the branch code of the federal tax depositary which will forward the agent-prepared deposit cards to the Service. Prior to submitting the letter of application, the reporting agent must have an agreement with a depositary that the depositary will accept the agent-prepared FTDs and will submit them under a transmittal separate from Treasury Deprtment prepunched FTDs.

4 A listing of the taxpayers who will have their federal tax deposit cards prepared by the reporting agent. See Section 5 for the information required on this listing. See Exhibit 2 for an example of a list of clients.

5 A power of attorney for each taxpayer on the listing. See Section 6 for information concerning the power of attorney. See Exhibit 3 for an example of a properly prepared power of attorney.

6 A statement of the approximate number of deposit cards the agent expects to prepare during the first six months after approval. The Service will issue a six-month supply of blank deposit cards with the authorization letter.

.02 Applications containing a listing of less than 500 clients will be denied.

If an agent has previously been preparing federal tax deposit cards under the provisions of Rev. Proc. 75-12 before supercession by Rev. Proc. 79-15, 1979-1 C.B. 498, the agent is exempt from this qualification.

SEC. 5. LISTING OF CLIENTS

.01 Each letter of application must include a listing of the taxpayers who will have their federal tax deposits prepared by the reporting agent. The listing must include each taxpayer's complete business name, address (including ZIP code), employer identification number, and an account number not exceeding five digits assigned to the client by the agent. For each client, the listing must specify the types of taxes for which deposit cards will be prepared.

.02 The listing must be double spaced to allow room for notations by the service center. The clients must be listed in account number sequence. A duplicate listing must be submitted so that the Service can maintain a file of taxpayers accepted under this program. See Section 8 for updates to the initial listing of clients. See Exhibit 2 for an example of the way the listing should be submitted.

SEC. 6. POWER OF ATTORNEY

.01 A power of attorney must be submitted for each client on the listing. The power of attorney may be submitted on Form 2848, Power of Attorney, which is available on request. A sample power of attorney is set forth in Exhibit 3. If this form is not used, the power of attorney must clearly state that the reporting agent is granted the authority to prepare and submit federal tax deposits for the applicable tax forms. The power of attorney must be signed by the taxpayer and the reporting agent.

.02 If a power of attorney is already on file for full tax reporting, it is not necessary to execute a new agreement. If a power of attorney is already on file for magnetic tape filing of Form 941, it does not need to be revoked. However, a new power of attorney must be submitted to cover any federal tax deposits not already covered.

.03 The power of attorney for agent-prepared FTDs will be a limited power of attorney. Notices, refunds, tax forms, and other output will be mailed to the taxpayer. Requests from a reporting agent for information or adjustments on an account will be honored by the Service only to the extent covered by the power of attorney.

.04 Requests for taxpayer name and address changes may not be made by a reporting agent with a limited power of attorney. The only requests that will be honored will be those originating from the taxpayer or an attorney-in-fact if the attorney has a full power of attorney for all tax matters concerning a taxpayer and has filed a copy of the full power of attorney with the Internal Revenue Service Center.

.05 The reporting agent must keep copies of the power of attorney on file at the agent's principal place of business for examination by the Internal Revenue Service upon request. If the power of attorney includes the authority to sign and file tax returns, it must be retained until the statute of limitations for the last return filed under its authority expires.

.06 The power of attorney will remain in effect until such time as it is revoked by the taxpayer, terminated by written notification by the reporting agent, or expires under its own terms.

.07 The power of attorney is automatically revoked when the reporting agent notifies the Service that the taxpayer will no longer have FTDs submitted by the agent. It is also automatically revoked when the Service notifies the reporting agent that the requirements of this revenue procedure have not been adhered to and the Service will no longer accept the agent-prepared FTDs from that agent.

.08 Any time a power of attorney has been terminated or revoked, a new power of attorney will be required if a client re-enters this program. The new power of attorney must be signed and dated subsequent to the revocation.

SEC. 7. ACCEPTANCE OF AGENT'S APPLICATION

.01 The Service will process each letter of application within thirty days of receipt. The authorization letter will include a three-digit identifying number which the Service will assign to the reporting agent. If the reporting agent will prepare deposit cards at more than one location or branch, each location or branch will be assigned a separate identifying number. After an agent has been assigned an identifying number, all communication regarding the preparation of federal tax deposit cards should include this number. Updates to the agent's listing of clients must always contain the identifying number of the location or branch handling the particular client's records. The agent-identifying number must be punched in card columns 72-74 of the agent-prepared deposit cards.

.02 One copy of the listing of the reporting agent's clients will be returned with the authorization letter. The Service will verify each client's employer identification number and will provide the client's name control which must be punched in card columns 13-16 of the deposit cards. An Internal Revenue Service district office code will be written in for each taxpayer and must be punched in card columns 17 and 18. If there is a discrepancy, the Service will also provide the business name as it is maintained on record with the Service. Corrections will be indicated by a line through the agent's information with the corrected information written above.

.03 Reporting agents must not change the validated employer identification number, name control, or district office code except when notified to do so by the Internal Revenue Service.

.04 All discrepancies in taxpayer filing requirements will be resolved by telephone if a contact is established in the letter of application. If, for any reason, a particular taxpayer whose name is recited on the agent's list is

not accepted by the Service under this program, the name of the taxpayer will be circled out and the reason for non-acceptance will be stated in the acceptance letter.

.05 Based on the request by the reporting agent in the letter of application, the Service will issue a six-month supply of blank deposit cards with the acceptance letter. Orders of additional blank cards should be made by the reporting agent to the FTD Coordinator at the appropriate service center. Requests for more cards should be made at least thirty days before the expected depletion of the stock each agent has on hand. Reporting agents are cautioned that blank federal tax deposit cards are intended only for clients accepted under this program. Misuse of this privilege will be cause for disqualification of the agent.

SEC. 8. UPDATES TO THE AGENT'S LIST OF CLIENTS

.01 After acceptance of the reporting agent's initial list of clients, all additions and deletions must be reported to the service center immediately. New clients may not be included in the preparation of federal tax deposits by a reporting agent until they are accepted and the entity information (EIN, name control, district office code, and filing requirements) is validated and provided by the Service. If the reporting agent chooses to make federal tax deposits for a new client prior to being accepted, the agent must use the Treasury Department prepunched deposit cards and deposit the payment with a qualified depositary separate from the agent-prepared deposit cards.

.02 The Internal Revenue Service will process the agent's update listing within two weeks of receipt. The update listing should be in the same format as the initial listing, with the additions preceding and on a separate page from the deletions. Two copies of this listing should be submitted to enable the Service to maintain a file copy. The service center will process the additions on an expedite basis and in the same manner as the initial listing. Deletions will be acknowledged to the reporting agent.

.03 Once a client has been deleted under this program, the reporting agent may not request to re-enter that client until the next quarter. For example, if a client is deleted in the first quarter of the year (Jan., Feb., Mar.), the client may not be added back onto the accepted list of clients until the second quarter of the year (Apr., May, June). A new power of attorney must be submitted when the request to reenter the program is sent to the Service.

.04 Once each six months, the reporting agent must send a consolidated listing of their clients currently accepted by the Service. The consolidated listing is for information only and will not be returned to the agent. If no clients have been added or deleted during a six-month period, it is not necessary to submit this listing.

SEC. 9. PREPARATION OF THE DEPOSIT CARDS

.01 Keypunch instructions for agent-prepared federal tax deposits are included in this revenue procedure as Exhibit 4. The deposit cards must be interpreted across the top of the card. If the agent uses card columns 1-3 for internal control, interpretation of these three card columns should be suppressed, if possible. All other fields may be interpreted immediately above the punches, or each field may be separated by a single space. An uninterpreted card should never be included in the agent's shipment of deposit cards.

.02 The employer identification number, name control, and district office code fields must be punched with the information provided and verified by the Service. No change should be made to this information for a particular client unless the Service notifies the reporting agent to do so.

.03 The tax class field must be either a "1" for a Form 501 deposit (Form 941), a "6" for a Form 511 deposit (Form 943), or an "8" for a Form 508 deposit (Form 940).

.04 The tax period ending field must always contain the month in card column 20 and the year in card column 21. The month will be either a "3" for March, a "6" for June, a "9" for September, or a "12 (&) punch" for December. If the deposit is a Form 501 deposit (Form 941), the month will be either a "3", "6", "9", or "12" (&) punch". If the deposit is a Form 511 deposit (Form 943) or a Form 508 deposit (Form 940), the month will always be a "12 (&) punch". The year will always be the last position of the tax period year (8 = 1978, 9 = 1979, 0 = 1980, etc.).

.05 The payment date must always be punched in card columns 26-29. Punch the month (01-12) in card columns 26-27 and the day (01-31) in card columns 28-29. It is essential that the payment date punched in this field be the same date the depositary receives payment for the deposit and date stamps the deposit card.

.06 The payment amount must be punched unedited and right-justified in card columns 30-38. If the amount exceeds 9 digits or if the payment amount is changed prior to submission, the corrected money amount should be punched unedited and right-justified in card columns 39-50. If not, leave card columns 39-50 blank.

.07 The three-digit agent-identifying number must be punched in card columns 72-74. The agent's account number assigned to the client must be punched in card columns 76-80.

SEC. 10. SUBMISSION OF AGENT-PREPARED FEDERAL TAX DEPOSITS

.01 After all applicable deposit cards are punched and interpreted, the cards should be grouped and delivered with the appropriate payment to the qualified depositary specified in the agent's letter of application. It is required that the reporting agent deliver the deposit cards early in the day so that the depositary can date stamp each card and prepare transmittals on the same day as the payment date punched in card columns 26-29 of the deposit cards. The deposit cards should be in groups of 100 cards with a machine listing of each deposit amount and a total for each group. The de-

positary will prepare the transmittals and ship the deposit cards to the appropriate service center. The group of agent-prepared FTDs must be diagonally red-striped with a felt pen across the tops of the cards and the boxes must clearly indicate that the FTDs are prepunched agent-prepared FTDs. The boxes must be marked for the attention of the FTD Inter-agency Coordinator at the appropriate service center. See Exhibit 1 for the service center addresses.

.02 If the reporting agent is a bank business service and is authorized by the bank to prepare the transmittals (Form 2284, Advice of Credit), the agent-prepared federal tax deposits must be boxed separately from the prepunched cards. The group of agent-prepared FTDs must be diagonally red-striped with a felt pen across the tops of the cards and the boxes must clearly indicate that the FTDs are prepunched agent-prepared FTDs. The boxes must be marked for the attention of the FTD Inter-agency Coordinator at the appropriate service center. See Exhibit 1 for the service center addresses.

SEC. 11. TERMINATION OF THIS AUTHORIZATION

The Service reserves the right to terminate this agreement with reporting agents because of possible systemic changes which may preclude the use of punched cards. If the reporting agent cannot modify processing to accommodate these changes, the agreement may be terminated with sixty days notice.

EXHIBIT 1

Requests for additional copies of this Revenue Procedure, applications to prepare Federal tax deposits, update listings of authorized clients, and requests for additional blank cards should be addressed to the Director, Internal Revenue Service Center, Attn: FTD Inter-agency Coordinator, at one of the following addresses:

1. NORTH-ATLANTIC REGION
   (a) Andover Service Center
   P.O. Box 311
   Andover, MA 01810
   (b) Brookhaevn Service Center
   P.O. Box 400
   Holtsville, NY 11742

1. Heading data may be positioned differently but should contain ALL requested information.
2. Sort by account number assigned to client by agent.
3. Leave Name Control and D.O. Fields blank—these will be entered by IRS.
4. Double-space between entries of clients.
5. Indicate the type of tax in the appropriate column.

EXHIBIT 3

Form **2848**
(Rev. July 1976)
Department of the Treasury
Internal Revenue Service

Power of Attorney

(See the separate Instructions for Forms 2848 and 2848–D.)

Name, identifying number, and address including ZIP code of taxpayer(s)

Client's name, address, and employer identification number

hereby appoints (Name, address including ZIP code, and telephone number of appointee(s)) (See Treasury Department Circular No. 230 as amended (31 C.F.R. Part 10), Regulations Governing the Practice of Attorneys, Certified Public Accountants, and Enrolled Agents before the Internal Revenue Service, for persons recognized to practice before the Internal Revenue Service.)

Reporting agent's name and address

as attorney(s)-in-fact to represent the taxpayer(s) before any office of the Internal Revenue Service for the following Internal Revenue tax matters (specify the type(s) of tax and year(s) or period(s) (date of death if estate tax)):

The preparation and submission of federal tax deposit Forms 501, 508. and/or 511 (specify applicable form numbers) and the remittance of federal tax deposit payments to accompany such forms.

The attorney(s)-in-fact (or either of them) are authorized, subject to revocation, to receive confidential information and to perform on behalf of the taxpayer(s) the following acts for the above tax matters:

(Strike through any of the following which are not granted.)

~~To receive, but not to endorse and collect, checks in payment of any refund of Internal Revenue taxes, penalties, or interest. (See "Refund checks" on page 2 of the separate instructions.)~~

~~To execute waivers (including offers of waivers) of restrictions on assessment or collection of deficiencies in tax and waivers of notice of disallowance of a claim for credit or refund.~~

~~To execute consents extending the statutory period for assessment or collection of taxes.~~

~~To execute closing agreements under section 7121 of the Internal Revenue Code.~~

~~To delegate authority or to substitute another representative.~~

Other acts (specify) to receive information concerning Forms 941, 940 and/or 943 acct.

Send copies of notices and other written communications addressed to the taxpayer(s) in proceedings involving the above matters to (Name, address including ZIP code, and telephone number):

and

This power of attorney revokes all earlier powers of attorney and tax information authorizations on file with the same Internal Revenue Service office for the same matters and years or periods covered by this form, except the following:

(Specify to whom granted, date, and address including ZIP code, or refer to attached copies of earlier powers and authorizations.)

Signature of or for taxpayer(s)

If signed by a corporate officer, partner, or fiduciary on behalf of the taxpayer, I certify that I have the authority to execute this power of attorney on behalf of the taxpayer.

Form **2848** (Rev. 7-76)

KEYPUNCH INSTRUCTIONS FOR AGENT-PREPARED FEDERAL TAX DEPOSITS

Card Column	Description
1–3	Blank (may be used by agent for internal control)
4–12	Employer Identification Number—9 numerics (verified by IRS)
13–16	Name control (provided by IRS)
17–18	District office code—2 numerics (provided by IRS)
19	Tax class—1 numeric 1 = 941 (Withheld Income and FICA taxes) 8 = 940 (Unemployment taxes) 6 = 943 (Agricultural FICA and Voluntarily Withheld Income taxes)
20–21	Tax Period Ending (MY) M = month = 3, 6, 9, or & (12 punch) Y = year = units position of year NOTE: If the tax class is "1", the month must be a 3, 6, 9, or & (12 punch) If the tax class is "6" or "8", the month must be a & (12 punch) EXAMPLES: 38 = March 1978 68 = June 1978 98 = September 1978 &8 = December 1978
22–25	Blank (not available for agent use)
26–29	Payment date (MMDD)—4 numerics MM = month = 01–12 DD = day = 01–31
30–38	Payment amount field—9 numerics (do not edit—right justify)
39–50	Alternate amount field—12 numerics or blank (Do not use unless amount exceeds 9 digits or amount in cc 30–38 is being corrected. Do not edit—right justify)
51–71	Blank (not available for agent use)
72–74	Agent identifying number assigned by IRS
75	Blank
76–80	Account number assigned to taxpayer by agent—left justify

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability. (Also Part I, Sections 62, 162, 170, 213, 217, 274, 1016; 1.62-1, 1.162-17, 1.170A-1, 1.213-1, 1.217-2, 1.274-5, 1.1016-3.)

Rev. Proc. 80-32

This revenue procedure modifies Rev. Proc. 80-7, 1980-1 C.B. 590, with respect to the optional standard mileage rates for the business use of an automobile and for use in computing deductions for transportation expenses relating to charitable contributions, medical expenses, and moving expenses.

The first paragraph of subsection 1 of section 3.01 of Rev. Proc. 80-7 is amended to read as follows:

Subject to the conditions and limitations set forth below, with respect to transportation expenses paid or incurred after December 31, 1979, deductions will be accepted if computed at a standard mileage rate of (a) 20 cents per mile for the first 15,000 miles of use each year for business purposes, and (b) 11 cents per mile for use for business purposes in excess of 15,000 miles per year. Computation under this method is optional on a yearly basis.

The sixth paragraph of subsection 2 of section 3.01 of Rev. Proc. 80-7 is amended to read as follows:

With respect to automobiles that have been, or are considered to be,

fully depreciated under the straight-line method, based upon their use for business purposes, deductions will be accepted if computed at a standard mileage rate of 11 cents per mile for all miles of use of such automobiles attributable to business purposes.

The first paragraph of section 3.02 of Rev. Proc. 80-7 is amended to read as follows:

A taxpayer who incurs costs of operating an automobile for transportation in connection with rendering gratuitous services to a charitable organization under section 170 of the Code, in connection with medical care under section 213, or for moving expenses under section 217 will be permitted to claim as a deduction the standard mileage rate of nine cents per mile, subject to the conditions and limitations set forth in these sections.

These amendments are effective with respect to transportation expenses paid or incurred after December 31, 1979.

EFFECTS ON OTHER DOCUMENTS

Rev. Proc. 80-7 is modified.

---

26 CFR 601.105: Examinations of returns and claims for refund credit or abatement; determination of correct tax liability.
(Also Part I, Sections 167, 6402; 1.167(a)-11, 301.6402-3.)

Rev. Proc. 80-33

In this revenue procedure, the Assistant Secretary (Tax Policy) of the Treasury prescribes revised effective dates for Rev. Proc. 79-26, 1979-1 C.B. 566 and Rev. Proc. 79-35, 1979-2 C.B. 498, both of which prescribed certain changes to Rev. Proc. 77-10, 1977-1 C.B. 548, regarding the Class Life Asset Depreciation Range system.

The effective date of Rev. Proc. 79-26, concerning waste reduction and resource recovery plants, central steam utility production and distribution, electric utility steam production plants, gas utility manufactured gas production plants, and industrial steam and electric generation and/or distribution systems, is revised to be April 30, 1979. The effective date of Rev. Proc. 79-35, concerning the manufacture of chemicals and allied products and the manufacture of professional, scientific, and controlling instruments, is revised to be July 16, 1979. These new effective dates are the dates of publication in the Internal Revenue Bulletin and are to be applied in accordance with section 1.167(a)-11(b)(4) of the Income Tax Regulations. That is, the asset guideline classes, periods, and ranges determined for such periods in effect as of the last day of a taxable year of election shall apply to all vintage accounts of such taxable year, except that neither the asset guideline period nor the lower limit of the asset depreciation range for any such account shall be longer than the asset guideline period or lower limit of the asset depreciation range, as the case may be, for such account in effect as of the first day of the taxable year.

Also, under the provisions of section 1.167(a)-11(b)(4) of the regulations this revenue procedure expressly provides that taxpayers, who were precluded from depreciating assets by application of Rev. Proc. 79-26 and Rev. Proc. 79-35 because of the prior effective dates, may, if tax returns have been filed for the taxable year beginning prior to January 1, 1979, at their option, utilize the asset depreciation ranges or periods described therein by filing an amended return in accordance with section 301.6402-3 of the regulations, provided section 1.167(a)-11(b)(4), as stated above, is applicable.

Rev. Procs. 79-26 and 79-35 modified.

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Sections 304, 357; 1.304-2, 1.357-1.)

Rev. Proc. 80-34

SECTION 1. BACKGROUND

Section 4.01 of Rev. Proc. 80-22, 1980-1 C.B. 654, provides a list of those areas of the Internal Revenue Code under the jurisdiction of the Assistant Commissioner (Technical) in which the Internal Revenue Service will not ordinarily issue advance ruling or determination letters. A list of these areas is set forth in section 4.01 of the revenue procedure.

SEC. 2. PROCEDURE

Rev. Proc. 80-22 is amplified to include the following under section 4.01:

Sections 304 and 357.—Redemption Through Use of Related Corporation; Assumption of Liability.—A transaction similar to that described in Rev. Rul. 80-240, at page 116, holding that sections 304(a)(1) and 357(a) of the Code are inapplicable because there was no assumption of liability, unless the taxpayer can satisfy the Internal Revenue Service that the liability was incurred by the taxpayer as a mere intermediary agent for the newly created corporate transferee. To establish this, the taxpayer must submit to the Internal Revenue Service documented evidence, composed at the time the liability was incurred, which indicates that the unrelated lender had agreed to release the transferor-borrower from any and all obligation on the liability in favor of the corporate transferee. Further, the taxpayer must show, or represent to, the Internal Revenue Service that the transfer and assumption actually occurred, or will actually occur, within 12 months of the date the debt was incurred.

SEC. 3. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests on hand in the National Office on September 8, 1980, the date of publication of this revenue procedure in the Internal Revenue Bulletin, as well as to requests received thereafter.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 80-22 is amplified.

---

26 CFR 601.401: Employment taxes.
(Also Part I, Sections 3102, 3111, 3301,

3403; 31.3102-1, 31.3111-4, 31.3301-1, 31.3403-1.)

Rev. Proc. 80-35

SECTION 1. PURPOSE

The purpose of this revenue procedure is to amend Sec. 2 and Sec. 3.03 of Rev. Proc. 78-35, 1978-2 C.B. 536, which provides instructions for implementing the provisions of section 530 of the Revenue Act of 1978, Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 119, relating to the employment tax status of independent contractors and employees.

SEC. 2. BACKGROUND

Rev. Proc. 78-35 is modified to reflect changes made to section 530 of the Act by Pub. L. 96-167, 1980-1 C.B. 483, 486, pertaining to the extension of certain dates in section 530 of the Act.

SEC. 3. IMPLEMENTATION

.01 Sec. 2 of Rev. Proc. 78-35 is modified to read as follows:

"Section 530(a)(1) of the Act, as amended, provides that if, for purposes of the employment taxes under subtitle C of the Internal Revenue Code, a taxpayer did not treat an individual as an employee for any period ending before January 1, 1981, then the individual will be deemed not to be an employee for that period, unless the taxpayer had no reasonable basis for not treating the individual as an employee. For any period during 1979 or 1980, the relief applies only if (1) all federal tax returns (including information returns) required to be filed by the taxpayer with respect to the individual for the period are filed on a basis consistent with the taxpayer's treatment of the individual as not being an employee, and (2) the treatment is consistent with the treatment for periods beginning after December 31, 1977."

.02 Sec. 3.03 of Rev. Proc. 78-35 is modified to read as follows:

".03 *Consistency in 1979 and 1980*

The relief under section 530(a)(1) of the Act, as amended, does not apply to the employment tax treatment of any individual for any period during 1979 or 1980, if the taxpayer (or a predecessor) treated any individual holding a substantially similar position as an employee for employment tax purposes for any period beginning after December 31, 1977. This provision prevents taxpayers from changing the way they treat workers solely to take advantage of the relief provisions. The application of this provision to predecessors is intended to prevent evasion of this rule, for example, by reincorporations. H.R. Rep. No. 95-1748, indicates that it is expected that legislation is to be developed to clarify the employment tax status of individuals."

SEC. 4. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 78-35 is modified.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 44C; 1.44C-5.)

Rev. Proc. 80-36

SECTION 1. PURPOSE

The purpose of this revenue procedure is to set forth procedures necessary for a manufacturer to make application for "certification" that an item will be treated as insulation, an energy-conserving component, or renewable energy source property, under the provisions of section 44C of the Internal Revenue Code.

SEC. 2. BACKGROUND

Section 44C of the Code allows an individual a credit against federal income tax in an amount equal to the sum of the qualified energy conservation expenditures plus the qualified renewable energy source expenditures. Manufacturers of items may apply to the Secretary to certify that such items will be treated for purposes of the residential energy credit as insulation, other energy-conserving components, or renewable energy source property. Section 44C(c)(6)(A)(ii) provides that the Secretary shall by regulations establish a procedure for obtaining this certification. Such procedure is established in section 1.44C-5 of the Income Tax Regulations and is implemented in this revenue procedure.

SEC. 3. GENERAL PRACTICES AND DEFINITIONS

.01 This revenue procedure covers applications for "certification" that for purposes of the residential energy credit, an item will be treated as:

(a) insulation,

(b) other energy-conserving components, or

(c) renewable energy source property.

.02 A "certification" is a written statement given by the National Office of the Internal Revenue Service to a manufacturer of an item certifying that the item meets the definition of insulation, other energy-conserving components, or renewable energy source property as defined in section 1.44C-2 of the regulations.

.03 A "certification" means only that the item meets the applicable definitional requirement in the case of any person claiming a residential energy credit with respect to such an item. It does not mean that the Service certifies that the item meets any performance or quality standards (if any) in effect at the time, that the item will save energy or money, or that the Service assumes any warranty or liability for the item's performance.

.04 Certification is available only to the manufacturer of an item. Requests for certifications will not be accepted from wholesalers, distributors, jobbers, importers, retailers, trade, business, or industry associations, consumer groups, governmental agencies, or individual taxpayers who are not the manufacturers of the item.

.05 Nothing in this revenue procedure is to be construed as preventing a taxpayer from requesting a ruling on the eligibility of any item for the residential energy credit. Such requests for a ruling are to be made in accordance with the procedures of Rev. Proc. 80-20, 1980-1 C.B. 633.

.06 Applications for certification of an item that has been specified by the Secretary as an energy-conserving com-

ponent pursuant to section 1.44C-2(d)(4)(viii) of the regulations or as a renewable energy source pursuant to section 1.44C-2(e)(2) may be made under this revenue procedure.

.07 A manufacturer may apply on the same application for one or several items to be certified as meeting the definitional requirement of one or more categories. For example, the item, or items meet the definition of (1) more than one type of energy-conserving component, (2) insulation, and (3) renewable energy source properties, or any combination of these three categories. However, no more than five items may be included in any one application.

.08 It is not necessary to apply for separate certification of similar items that differ only in model number, size, or other parameters that do not change the inherent nature of the item.

.09 Granting of a certification to one manufacturer of an item does not grant certification to a similar product made by another manufacturer.

.10 Lack of certification of an item does not in itself disqualify that item for the residential energy credit if it otherwise qualifies.

.11 The Service in making the decision whether an item meets the definitional requirement in order to be certified may consult with the Secretary of the Department of Energy, the Secretary of the Department of Housing and Urban Development or any other appropriate sources to obtain their views concerning the item in question.

.12 The definitional requirements of items qualifying for certification are found in the following sections of the regulations:

Insulation, section 1.44C-2(c) with the exception of subparagraphs (2), (3), and (4).

Energy-conserving components, section 1.44C-2(d)(4).

Solar energy property, section 1.44C-2(f).

Wind energy property, section 1.44C-2(g).

Geothermal energy property, section 1.44C-2(h).

.13 Certifications granted for items that are specified in section 44C of the Code as added by the Energy Tax Act of 1978, Pub. L. 95-618, 1978-3 C.B. (Vol. 2) 1, will be applied retroactively to April 20, 1977. However, certifications granted to energy-conserving components or renewable energy source property that were added in accordance with section 1.44C-6 of the regulations will be applied retroactively only to the date the applicable energy-conserving component or renewable energy source property was added by Treasury Decision 7717, page 7, this Bulletin, to the lists of qualifying energy-conserving components or renewable energy sources.

SEC. 4. INSTRUCTIONS TO THE MANUFACTURER

.01 It is necessary to submit only one copy of an application for certification unless the application requests certification for more than one item; if so, a duplicate copy is to be submitted for each item in excess of one.

.02 An application for certification and any factual information subsequently submitted must be accompanied by a declaration in the following form: "Under penalties of perjury, I declare that I have examined this application including accompanying documents, and to the best of my knowledge and belief, the facts presented in support of the application are true, correct, and complete." In the case of a noncorporate manufacturer, it must be signed by the person or persons on whose behalf the application is made. In the case of a corporate manufacturer, the person who signs must be an officer of the corporation who has personal knowledge of the facts.

.03 In cases in which application for certification is requested for more than one item, or one item is to be certified in more than one category, the Service generally will issue a single certification. However, the manufacturer may apply for a separate certification for each item or each category. Unless the Service determines that it is not feasible or not in the best interest of the Service to comply with the manufacturer's application in such cases, separate certifications will be issued.

.04 Each application for certification must contain a complete statement of all the facts concerning each item. These facts must include but are not limited to:

(1) an explanation of the purpose and function of the item;

(2) a complete description of the item including design drawings and material specifications necessary to demonstrate the purpose and functions of the item; and

(3) the manner in which the item is to be used for its intended purpose.

In addition, photographs, appropriate samples, or other information to demonstrate that the item meets the definition of the claimed category may be included. Original documents or other material that the manufacturer may want returned should not be submitted because they will become part of the Service file and will not be returned. Material facts furnished to the Service by telephone or orally at a conference must be promptly confirmed by letter to the Service accompanied by a declaration in the form described in section 4.02. This confirmation must be furnished within 21 calendar days to be considered part of the application. Procedures for requesting an extension of the 21-day period and notifying the manufacturer or the manufacturer's representative of the Service's decision are the same as those stated in section 9.05 of Rev. Proc. 80-20.

.05 The application for a certification should be addressed to the Internal Revenue Service, Assistant Commissioner (Technical), Attention T:C:E, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

.06 A manufacturer may obtain information regarding the status of an application by calling the person whose name and telephone number is shown on the acknowledgement of receipt of the application.

.07 A manufacturer who desires a conference in the event an adverse de-

termination is proposed to its application for certification may indicate such desire in writing when filing the application or soon thereafter.

.08 Replies to applications for certification sent to manufacturers under section 44C of the Code will be made open to public inspection under the procedures in section 6110, the regulations thereunder, and the Statement of Procedural Rules. In order to assist the National Office in complying with the provisions of section 6110, the manufacturer must follow the provisions of section 9.09 of Rev. Proc. 80-20.

.09 If the application is signed by a representative of the manufacturer or if the representative is to appear before the Service in connection with the application, the provisions of Rev. Proc. 80-20, section 9.10, are to be followed.

.10 If the manufacturer has more than one representative see Rev. Proc. 80-20, section 9.11.

.11 Any application for a certification that does not comply with all the provisions of this revenue procedure will be handled in the manner provided in Rev. Proc. 80-20, section 9.13.

.12 The order in which the Service processes applications for certification and requests for expeditious handling is explained in section 9.15 of Rev. Proc. 80-20.

.13 If a dispute arises between the manufacturer and the Service over the Service's intention to disclose the determination in regard to an application for certification pursuant to section 6110(f) of the Code or notations of third party contacts pursuant to section 6110(d), such disputes will be handled according to sections 9.19 and 9.20 of Rev. Proc. 80-20.

SEC. 5. CONFERENCES IN THE NATIONAL OFFICE

If the National Office considers it to be helpful in reaching a decision or when an adverse decision to an application for certification is indicated and the manufacturer had requested a conference in such circumstances, the manufacturer will be notified by telephone, if possible. The conference must be held within 21 calendar days after such contact has been made. Procedures for requesting an extension of the 21-day period and notifying the manufacturer or the manufacturer's representative of the Service's decision are the same as those stated in section 9.05 of Rev. Proc. 80-20.

If such a conference is held the procedure for the conference will be handled as provided for in section 11 of Rev. Proc. 80-20.

SEC. 6. WITHDRAWAL OF REQUESTS

An application for a certification may be withdrawn at any time prior to the signing of the letter of reply. Even though an application is withdrawn, all correspondence and exhibits will be retained by the Service and will not be returned to the manufacturer. In appropriate cases, the Service may publish its determination in a revenue ruling or revenue procedure.

SEC. 7. AREAS NOT COVERED BY THIS REVENUE PROCEDURE

This revenue procedure covers application for certification only. Applications for additions to the list of other energy-conserving components or other forms of renewable energy property as provided in section 1.44C-6 of the regulations or additions to the list of specially defined energy property under section 48(1) of the Code may not be made under this revenue procedure.

SEC. 8. EFFECTIVE DATE

This revenue procedure is effective September 22, 1980, the date of publication in the Internal Revenue Bulletin.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 80-37

Rev. Proc. 80-22, 1980-1 C.B. 654, sets forth areas in which advance rulings or determination letters will not be issued by the Internal Revenue Service. Section 4.018 of Rev. Proc. 80-22 states that rulings or determination letters will not ordinarily be issued on the tax effect of the transfer when part of the consideration received by the transferors consists of bonds, debentures, or any other evidences of indebtedness of the transferee. Section 4.018 is hereby amplified to read as follows:

8 Section 351—Transfers to Controlled Corporation.—

The tax effect of the transfer when part of the consideration received by the transferors consists of bonds, debentures, or any other evidence of indebtedness of the transferee and the term of the "indebtedness" is either less than ten years or a determination as to whether the "indebtedness" is properly classified as debt or equity is required in order to establish that the requirements of section 351 are met.

Rev. Proc. 80-22 is amplified.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 871; 1.871-1.)

Rev. Proc. 80-38

SECTION 1. BACKGROUND

Section 4.01 of Rev. Proc. 80-22, 1980-1 C.B. 654, sets forth areas in which advance rulings and determination letters will not ordinarily be issued by the Internal Revenue Service.

SEC. 2. PROCEDURE

Rev. Proc. 80-22 is amplified to include the following under section 4.01:

Section 871—Classification of alien individuals as resident or nonresident —The determination as to whether an alien individual is either a resident or nonresident of the United States will not be made with respect to situations in which the determination is dependent on factual representations that cannot be confirmed until the close of the alien individual's affected taxable year(s), that is, representations concerning an alien individual's projected stay and activities in the United States.

SEC. 3. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests on hand in the National Office on September 29, 1980, the date of publication of this revenue procedure in the Internal Revenue

Bulletin, as well as to requests received thereafter.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 80-22 is amplified.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Sections 4945, 7805; 53. 4945-4, 301.7805-1.)

Rev. Proc. 80-39

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to provide guidelines for determining whether educational loans made by a private foundation under an employer-related loan program are taxable expenditures under section 4945 of the Internal Revenue Code.

.02 Ruling requests seeking advance approval of loan procedures are to be submitted to the Assistant Commissioner (Employee Plans and Exempt Organizations), Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: E:EO:T, and must include the statements required by section 53.4945-4(d) of the Foundation Excise Tax Regulations.

SEC. 2. BACKGROUND

.01 Rev. Rul. 77-434, 1977-2 C.B. 420, holds that educational loans made by a private foundation on an objective and nondiscriminatory basis, pursuant to a procedure approved in advance by the Secretary or the Secretary's delegate, are individual grants within the meaning of section 4945(g)(3) of the Code. Thus, the loans are not taxable expenditures.

.02 Section 53.4945-4(b) of the regulations provides that a private foundation's grants are made on an objective and nondiscriminatory basis if the foundation's loan program is consistent with its exempt status under section 501(c)(3) of the Code and the allowance of deductions under section 170 for contributions to the foundation.

.03 Educational loans made by a private foundation to employees of a particular company or to their children are made for a purpose inconsistent with the foundation's exempt status under section 501(c)(3) of the Code and the allowance for deductions under section 170 for contributions to the foundation if the loans serve the private interests of the employer, rather than serving charitable purposes. A long-term, low-interest educational loan provided by a private foundation is of substantial value to students who could not obtain them from any source other than the employer-related program. The Service will assume that employer-related educational loans are made on an objective and nondiscriminatory basis, within the meaning of section 4945(g), and thus are not taxable expenditures, if they meet the guidelines contained in Sec. 4 of this revenue procedure.

SEC. 3. APPLICATION OF GUIDELINES

.01 The guidelines in Sec. 4 apply only to educational loans made on or after January 1, 1970, by a private foundation under an employer-related program to individuals who are employees, or the children of employees, of the employer to which the program relates. Rev. Proc. 76-47, 1976-2 C.B. 670, provides guidelines for determining whether a grant made by a private foundation under an employer-related grant program to an employee or to a child of an employee of the particular employer to which the program relates is a scholarship or fellowship grant under section 117 of the Code.

.02 An employer-related program is a program that treats some or all of the employees, or the children of some or all of the employees, of a particular employer as a group from which the recipients of some or all of the foundation's loans will be selected; limits the potential loan recipients for some or all of the foundation's loans to individuals who are employees, or the children of employees, of the particular employer; or otherwise gives such individuals a preference or priority over others in being selected as loan recipients.

.03 The guidelines assume that the other applicable requirements of section 53.4945-4 of the regulations concerning loans to individuals are met.

.04 These guidelines do not determine whether loans to disqualified persons are taxable expenditures under section 4945 of the Code or would subject the disqualified persons to the tax on acts of self-dealing under section 4941.

SEC. 4. GUIDELINES

.01 *General rule.*

If a private foundation's educational loan program satisfies the seven conditions set forth in Secs. 4.03 through 4.09 below, and meets the percentage test described in Sec. 4.10, the Service will assume such loans are not taxable expenditures.

.02 *Facts and circumstances test.*

1 If a private foundation's loan program satisfies the seven conditions set forth in Secs. 4.03 through 4.09, but does not meet the percentage test of Sec. 4.10, the Service will consider, as a substitute for the percentage test of Sec. 4.10, all the relevant facts and circumstances to determine whether the primary purpose of the program is to further the private interests of the employer, or whether the primary purpose is to educate recipients in their individual capacities. The availability of loans under the program to employees of their children must be controlled and limited by substantial nonemployment-related factors so that the preferential treatment derived from employment is not of any significance beyond initial qualification for the loan. Such qualification must not lead to any significant probability that employment will make loans available for a qualified employee or his or her children interested in applying for one.

2 Such relevant facts and circumstances include, but are not limited to: the history of the program (such as the source of the program's funding), the courses of study for which the loans are available, any eligibility requirements imposed by the program (other than employment of the applicants or their parents and the age

and grade level prerequisites for the studies for which the loans are available), the publicity given the loan program, the degree of independence of the selection committee, the particular standards used for selection, the specific means used to determine whether those standards have been met, the precise nature of the employee limitation or preference, the number of loans available, the number of employees or their children who would be eligible for the loans, the percentage of eligible employees or their children applying for loans who normally (*e.g.*, on an average basis) receive loans under the program, and whether and how many loans are awarded to individuals who do not qualify as employees or the children of employees.

.03 *Inducement.*

The program must not be used by the employer, the private foundation, or the creator of the foundation, to recruit employees or to induce employees to continue their employment or otherwise follow a course of action sought by the employer.

.04 *Selection committee.*

1 Selection of loan recipients must be made by a committee consisting wholly of individuals totally independent (except for participation on this committee) and separate from the private foundation, the foundation's creator, and the relevant employer. An individual who is a former employee of either the foundation or the employer concerned will not be considered totally independent. Such committees preferably should consist of individuals knowledgeable in the educational field so that they have the background and knowledge to evaluate properly the potential of the applicants.

2 The forwarding of the selections by the independent selection committee to the employer or the private foundation for the sole purpose of verifying the eligibility requirements and selection criteria used by the committee in considering the candidates and in making its selection will not disqualify the program. Any public announcement of the awards, however, must be made by the selection committee or by the foundation.

3 Loans must be awarded in the order recommended by the selection committee. The number of loans to be awarded may be reduced but may not be increased from the number recommended by the selection committee. Only the committee may vary the amounts of the loans awarded.

.05 *Eligibility requirements.*

1 The program must impose identifiable minimum requirements for loan eligibility. Such requirements must be related to the purpose of the program and must limit the independent selection committee's consideration to those employees, or children of employees, who meet the minimum standards for admission to an educational institution (as defined in section 170(b)(1)(A)(ii) of the Code) for which the loans are available. No persons will be considered eligible if they are not reasonably expected to attend such an institution, even if they meet the minimum standards.

2 If an employee must have been employed for some minimum period by the employer to which the program relates to be eligible to receive a loan, or to make that employee's children eligible to receive a loan, the minimum period of employment may not exceed three years. Moreover, eligibility must not be related to any other employer-related factors, such as the employee's position, or duties.

.06 *Objective basis of selection.*

Selection of loan recipients must be based solely upon substantial objective standards that are completely unrelated to the employment of the recipients or their parents and to the employer's line of business. Acceptable standards include, but are not limited to: prior academic performance, performance on tests designed to measure ability and aptitude for higher education, recommendations from instructors or other individuals not related to the potential loan recipients, financial need, and conclusions drawn from personal interviews as to motivation and character.

.07 *Employment.*

1 A loan may not be terminated solely because the recipient or the recipient's parent subsequently terminates employment with the employer, regardless of the reason for the termination of employment.

2 If a loan is awarded for one academic year and the recipient must reapply for an additional loan or loans to continue studies in a subsequent year, the recipient may not be considered ineligible for a subsequent loan simply because that individual or the individual's parent is no longer employed by the relevant employer. The standards for additional loans must be based solely upon nonemployment-related factors such as need and maintenance of scholastic standards.

3 At the time the loan or additional loans are awarded, there must be no requirement, condition or suggestion, express or implied, that the recipient or the recipient's parent is expected to render future employment services for the foundation or the relevant employer, or be available for such future employment, even though such future employment is at the discretion of the foundation or the employer.

.08 *Course of study.*

The courses of study for which loans are available must not be limited to those that would be of particular benefit to the relevant employer or to the foundation. If the courses of study for which loans are available include one or more that would be of such particular benefit, a loan may not be conditioned on the recipient's choosing such a course of study; the recipient must have a free choice to use the loan in the pursuit of a course of study for which the loan is otherwise available that is not of particular benefit to the employer or to the foundation.

.09 *Other objectives.*

The terms of the loan and the

courses of study for which loans are available must be consistent with a disinterested purpose of enabling the recipients to obtain an education in their individual capacities solely for their personal benefit and they must not include any commitments, understandings or obligations, conditional or unconditional, suggesting that the studies are undertaken by the recipients for the benefit of the relevant employer or the foundation, or have as their objective the accomplishment of any purpose of the employer or the foundation (even though consistent with its exempt status) other than enabling the recipients to obtain an education in their individual capacities and solely for their personal benefit.

.10 *Percentage test.*

1 In the case of a program that awards loans to children of employees of a particular employer, the program meets this percentage test if the number of children receiving loans under that program in any given year does not exceed 25 percent of the number of employees' children who (i) were eligible, (ii) were applicants for such grants, and (iii) were considered by the selection committee in selecting the recipients of loans in that year, or 10 percent of the number of employees' children who can be shown to be eligible for loans (whether or not they submitted an application) in that year.

2 In the case of a program that awards loans to employees of a particular employer, the program meets this percentage test if the number of employees receiving loans under that program in any year does not exceed 10 percent of the number of employees who (i) were eligible, (ii) were applicants for such grants, and (iii) were considered by the selection committee in selecting the recipients of grants in that year.

3 For the purpose of applying these percentage tests, an employee or child of an employee will be considered eligible only if the individual meets all of the eligibility requirements imposed by the program and such requirements satisfy the conditions of Sec. 4.05 of this revenue procedure. Renewals of loans awarded in prior years will not be considered in determining the number of loans awarded in the current year. Loans awarded to children of employees and those awarded to employees will be considered as having been awarded under separate programs for purposes of all of the applicable requirements of this revenue procedure whether or not the loans are awarded under separately administered programs.

4 If a private foundation's employer-related program encompasses educational loans and scholarship or fellowship grants to the same group of eligible employees or employees' children, the percentage tests in Sec. 4.10 of this revenue procedure apply to the total number of individuals receiving combined grants of scholarships, fellowships, and educational loans.

SEC. 5. RELIANCE ON PRE-SEPTEMBER 29, 1980, RULING LETTERS

.01 A private foundation that holds a ruling letter issued before September 29, 1980, approving its employer-related educational loan program under section 4945(g)(3) of the Code, may continue to rely on the ruling letter provided its loan program fully complies with Secs. 4.01-4.10 continuously from the date on which the ruling letter was issued. Upon written request, the Service will issue a current ruling letter affirming the qualification of the loan program under the relevant portions of this revenue procedure.

.02 Pursuant to the authority contained in section 7805(b) of the Code, where a private foundation holds a ruling letter issued before September 29, 1980, approving its employer-related educational loan program, and where its loan program does not fully comply with Secs. 4.01-4.10, the private foundation may rely on the ruling letter through March 31, 1981.

.03 Educational loan programs modified to conform with Secs. 4.01-4.10 should be submitted for advance approval under section 4945(g)(3) of the Code in accordance with section 53.4945-4 of the regulations.

---

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability. (Also Part I, Section 6694; 1.6694-1.)

Rev. Proc. 80-40 [1]

SECTION 1. PURPOSE

The purpose of this revenue procedure is to provide guidelines for the application of the penalty under section 6694(a) of the Internal Revenue Code for the negligent disregard of rules and regulations by an income tax return preparer. The revenue procedure indicates some of the factors that will be taken into consideration in determining whether this penalty will be applied.

SEC. 2. BACKGROUND

.01 Section 6694(a) of the Code provides that if any part of any understatement with respect to any return or claim for refund is due to the negligent or intentional disregard of rules and regulations by any person who is an income tax return preparer with respect to such return or claim, such person shall pay a penalty of $100 with respect to such return or claim.

.02 Section 6694(e) of the Code provides that an "understatement of liability" means any understatement of the net amount payable with respect to any income tax.

.03 Section 1.6694-1(a)(1) of the Income Tax Regulations provides that a preparer is not considered to have negligently or intentionally disregarded a rule or regulation if the preparer exercises due diligence in an effort to apply the rules and regulations to the information given to the preparer to determine the taxpayer's correct liability for tax.

.04 Section 1.6694-1(a)(5) of the regulations provides that the preparer bears the burden of proof on the issue

[1] Also released as New Release IR-80-94 dated Sept. 15, 1980.

of whether the preparer has negligently or intentionally disregarded a rule or regulation.

.05 The Conference Report on the Revenue Act of 1978 relating to Technical Corrections to the Tax Reform Act of 1976, H.R. Rep. No. 95-1800, 95th Cong., 2d Sess. 284 (1978), 1978-3 C.B. (Vol. 1) 521, 618, states that the Service shall reasonably interpret section 6694(a) according to the standards of section 6653(a) and in light of all the facts and circumstances of each case taking into account any and all mitigating factors.

.06 The case of *Marcello v. Commissioner,* 380 F. 2d 499, 506 (5th Cir. 1967) holds that negligence is lack of due care or failure to do what a reasonable and ordinary prudent person would do under the circumstances.

SEC. 3. SCOPE

The scope of this revenue procedure is to provide guidelines for the application of the penalty under section 6694(a) of the Code for the negligent disregard of rules and regulations by an income tax return preparer. These guidelines do not apply to the penalty under section 6694(a) for the intentional disregard of rules and regulations by an income tax return preparer.

SEC. 4. APPLICATION

.01 In determining whether the penalty under section 6694(a) of the Code is to be asserted, all the relevant facts and circumstances of each case will be taken into account. In making this determination, the following factors will be taken into consideration.

1 *Nature of the Error Causing the Understatement.* Was the provision that was misapplied or not discovered so complex, uncommon, or highly technical that a competent preparer of returns of the type at issue might reasonably be unaware or mistaken as to its applicability? Should a general review of the return have disclosed the error to the preparer? For example, although an isolated mathematical or clerical error ordinarily reflects no more than mere inadvertence and thus will not result in the assertion of the penalty, such an error may be of such a magnitude or be so conspicuous that it should have been discovered after its commission.

2 *Frequency of Errors.* Is the understatement the result of an isolated error or is it the result of a number of errors? Although an isolated error may result in the assertion of the penalty if sufficiently obvious, flagrant or material, the negligence penalty generally will not be asserted for an isolated error. On the other hand, a pattern of errors on a return is presumptive of negligence and generally will result in the assertion of the penalty even though no one error occurring in isolation would have triggered the penalty.

3 *Materiality of Errors.* Is the understatement material in relation to the correct tax liability? The negligence penalty generally will not be asserted if the understatement is of a relatively immaterial amount. Nevertheless, the understatement, even though immaterial in amount, may result in the assertion of the penalty if the error or errors creating the understatement are sufficiently obvious, flagrant or numerous. An error resulting in a material understatement may be a greater indication of negligence than a similar error resulting in a less material understatement.

.02 Where all the relevant facts and circumstances suggest that the return was negligently prepared, the penalty under section 6694(a) of the Code generally will not be asserted if (1) the preparer's normal office practice, when considered together with other facts and circumstances such as the knowledge of the preparer, indicates that the error in question would rarely occur and (2) the normal office practice was followed in preparing the return in question. Examples of normal office practice include a system to promote acuracy and consistency in the preparation of returns, such as a checklist, a method for obtaining the necessary information from the taxpayer, examining the prior year's return, and review procedures. The normal office practice of the preparer will not be relevant where the error is flagrant, or there is either a pattern of errors on a particular return or an error is repeated on numerous returns.

.03 The penalty under section 6694(a) of the Code generally will not apply where a preparer in good faith relies without verification upon information furnished by the taxpayer. Thus, the preparer is not required to audit, examine or review books and records, business operations, or documents or other evidence in order to verify independently the taxpayer's information. However, the preparer may not ignore the implications of information furnished to the preparer or which was actually known by the preparer. The preparer shall make reasonable inquiries if the information as furnished appears to be incorrect or incomplete. Additionally, some sections of the Code require the existence of specific facts and circumstances, such as maintenance of specific documents, before a deduction may properly be claimed. The preparer shall make appropriate inquiries to determine the existence of facts and circumstances required by a Code section or regulations as a condition to claiming a deduction.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 80-41

Rev. Proc. 80-22, 1980-1 C.B. 654, sets forth areas in which advance rulings or determination letters will not be issued by the Internal Revenue Service. Section 5 of Rev. Proc. 80-22 lists areas under extensive study in which rulings or determination letters will not be issued until the Service resolves the issue through publication of a revenue ruling, revenue procedure, regulations, or otherwise. Section 5 is amplified to include the following:

Section 820.—Optional Treatment of Policies Reinsured Under Modified Coinsurance Contracts. The tax consequences of modified coinsurance contracts to which section 820 of the

Code may apply, including whether taxpayers who have entered into a modified coinsurance contract may allocate between the reinsured and reinsurer certain items to which section 820(c) applies.

Rev. Proc. 80-22 is amplified.

---

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.
(Also Part I, Section 4997; 150.4997-1.)

Rev. Proc. 80-42 [1]

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to set forth guidelines specifying the basic record requirements that the Internal Revenue Service considers to be essential in cases where a taxpayer's records are maintained within an automatic data processing (ADP) system. References here to ADP systems include all accounting systems which process all or part of a taxpayer's transactions, records, or data by other than manual methods.

.02 The technology of ADP is evolving rapidly; new methods and techniques are constantly being devised and adopted. Accordingly, the five points set forth in section 4 of this revenue procedure are not intended to restrict or prevent taxpayers from obtaining the maximum benefits of ADP provided the appropriate information is present or can be produced by the system. These guidelines will be modified and admended as the need indicates to keep pace with developments in ADP.

SEC. 2. BACKGROUND

The inherent nature of ADP is such that it may not be possible to trace transactions from source documents to end results or to reconstruct a given account unless the system is designed to provide audit trails. Taxpayers already using ADP or contemplating its use have requested information concerning the types of records that should be developed and maintained in order to meet the requirements of section 4997 of the Internal Revenue Code and the corresponding regulations. This section of the Code reads in part as follows:

Each taxpayer liable for the windfall profit tax, each partnership, trust, or estate producing domestic crude oil, each purchaser of domestic crude oil, and each operator of a well from which domestic crude oil was produced shall keep such records, make such returns, and furnish such information with respect to such oil as the Secretary may by regulations prescribe.

SEC. 3. OBJECTIVES

Modern machine accounting systems are capable of recording business transactions much more rapidly and with greater accuracy than manual systems, and they are capable of retaining and producing vast amounts of data. The ability to produce in legible form the data necessary to determine, at a later date, whether or not the correct tax liability has been reported must be carefully considered in designing and programming a machine system. This factor may add to the complexity of the system and require additional cost, but this cost may be negligible in comparision to the expense that may be incurred at a later date if the system cannot practically and readily provide the information needed to support and substantiate the accuracy of the previously reported tax liability.

SEC. 4. ADP RECORD GUIDELINES

.01 ADP accounting systems will vary, just as manual systems vary, from taxpayer to taxpayer. However, the procedures built into a computer's accounting program must include a method of producing from the punched cards or tapes visible and legible records which will provide the necessary information for the verification of the taxpayer's tax liability.

.02 In determining the adequacy of records maintained with an ADP system, the Service will consider as acceptable those systems that comply with the guidelines for record requirements as follows:

1 *General and subsidiary books of account.* A general ledger, with source references, should be written out to coincide with financial reports for tax reporting periods. In cases where subsidiary ledgers are used to support the general ledger accounts, the subsidiary ledgers should also be written out periodically.

2 *Supporting documents and audit trail.* The audit trail should be designed so that the details underlying the summary accounting data, such as invoices and vouchers, may be identified and made available to the Service upon request.

3 *Recorded or reconstructible data.* The records must provide the opportunity to trace any transaction back to the original source or forward to a final total. If printouts are not made of transactions at the time they are processed, then the system must have the ability to reconstruct these transactions.

4 *Data storage media.* Adequate record retention facilities must be available for storing tapes and printouts as well as all applicable supporting documents. These records must be retained in accordance with the provisions of the Code and the regulations prescribed thereunder.

5 *Program documentation.* A description of the ADP portion of the accounting system should be available. The statements and illustrations as to the scope of operations should be sufficiently detailed to indicate (a) the application being performed, (b) the procedures employed in each application (which, for example, might be supported by flow charts, block diagrams or other satisfactory descriptions of input or output procedures), and (c) the controls used to insure accurate and reliable processing. Important changes, together with their effective dates, should be noted in order to preserve an accurate chronological record.

SEC. 5. COMMENTS OR INQUIRIES

Comments or inquiries relating to

[1] Also released in News Release IR-80-96 dated September 23, 1980.

this revenue procedure should be addressed to the Assistant Commissioner (Compliance), Attention: CP:E, Washington, D.C., 20224.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective October 14, 1980, the date of its publication.

---

26 CFR 601.602: Forms and instructions.

Rev. Proc. 80-43

SECTION 1. PURPOSE

This revenue procedure establishes a handling and shipping charge for processing requests for bulk quantities of tax forms. This charge only applies to those engaged in the preparation of tax returns for private gain.

SEC. 2. CHARGES

.01 Charges for tax forms and instructions will be established on the basis of each 1,000 printed units ordered, or fraction thereof, in excess of the first 500 printed units requested during any 12 month period. The schedule of charges for handling and shipping bulk quantities of tax forms and instructions is:

Up to but not exceeding 500 printed units ----------No Charge
Each 1,000 units or fraction thereof in excess of the first 500 units ----------$5.00

A $1.00 discount per 1,000 units will be applied to any bulk order postmarked on or before the discount deadline date published in Publication 1045.

.02 No charge will be made: (a) to an individual or organization for the first 500 printed units requested; (b) to individuals picking up tax forms or instructions at Internal Revenue Service offices; or (c) to a bank, post office or other organization for any quantity of forms and instructions for the convenience and use of the taxpayer, so long as such organization is not engaged in the preparation of tax returns for private gain.

.03 Single copies of Publications 17 and 334 will be provided without charge. Multiple copies of either publication shall not be provided to individuals or organizations except where the Regional Commissioner or District Director determines that such distribution will further the interest of taxpayer service or education. A user charge will apply to all such approved multiple copy requests; however, Regional Commissioners, District Directors and appropriate National Office officials may continue to provide multiple copies without charge for use in Service sponsored programs (e.g. Understanding Taxes and VITA). Priority must be given to filling single copy requests for Publications 17 and 334; requests for bulk quantities of either publication which jeopardize the Service's ability to respond timely to such single copy demand should not be honored. For individuals who wish, for their own purposes, to print bulk quantities of Publications 17 and 334, the Service will provide page negatives of either publication for a user charge. The schedule of charges is:

Publications 17 and 334
$.50 per copy for each approved request
$3.00 per page negative

.04 All user charges will be commensurate with the prevailing postage and handling costs and will be established by the Commissioner.

.05 Publication 1045 will contain Form 2333, Request for Blank Income Tax Forms. The instructions on Form 2333 outline the handling and shipping charge for processing orders of bulk quantities of tax forms.

.06 Checks, made payable to the Internal Revenue Service, should be submitted with Form 2333.

SEC. 3. EFFECT ON OTHER DOCUMENTS

This revenue procedure supersedes Rev. Proc. 67-36, 1967-2 C.B. 666.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Section 6033; 1.6033-2.)

Rev. Proc. 80-44

SECTION 1. PURPOSE

The purpose of this revenue procedure is to establish and maintain for reference purposes a current list of those organizations exempt from federal income tax because they are described in section 501(c) of the Internal Revenue Code that are not rerequired to file an annual information return on Form 990. This list does not include organizations, such as private foundations, that are required to file (under an annual information return) on forms other than the Form 990.

SEC. 2. BACKGROUND

.01 Section 6033(a)(1) of the Code, as amended by the Tax Reform Act of 1969, Pub. L. 91-172, 1969-3 C.B. 10, 27, generally requires the filing of annual information returns by exempt organizations.

.02 Section 6033(a)(2)(A) of the Code provides certain mandatory exceptions to this filing requirement.

.03 In addition, section 6033(a)(2)(B) of the Code provides discretionary exceptions from filing such returns where the Secretary "determines such filing is not necessary to the efficient administration of the internal revenue laws." Section 1.6033-2(g)(6) of the Income Tax Regulations delegates authority to the Commissioner to excuse organizations from the filing requirement. It provides that, "the Commissioner may relieve any organization or class of organizations from filing, in whole or in part, the annual return required by section 6033 where he determines that such returns are not necessary for the efficient administration of the internal revenue laws."

.04 Section 1.6033-2(g)(1) of the regulations provides a partial list of organizations that are not required to file annual returns either because they are excepted by statute or because the Commissioner has exercised the authority referred to above in Sec. 2.03.

.05 In Announcement 77-62, 1977-17 I.R.B. 22, the Commissioner announced that he had exercised his

discretionary authority to excuse an additional category of exempt organizations from filing Form 990. This category consisted of exempt organizations described in section 501(c) of the Code (other than private foundations) the gross receipts of which in each taxable year are normally not more than $10,000. These organizations are excused from filing the annual information return for tax years ending on or after December 31, 1976.

.06 From time to time, the Commissioner may excuse additional organizations from filing such returns by publishing an announcement in the Internal Revenue Bulletin, revising the instructions accompanying Form 990, amending the regulations, or other appropriate publication. As these changes to the filing requirements may occur, subsequent revisions to this procedure will be made.

SEC. 3. ORGANIZATIONS CURRENTLY NOT REQUIRED TO FILE ANNUAL RETURNS

.01 The list of organizations described in section 501(c) of the Code that are not required to file annual returns by reason of section 6033(a)(2) is as follows:

1 A church, an interchurch organization of local units of a church, a convention or association of churches, or an integrated auxiliary of a church (such as a men's or women's organization, religious school (such as a seminary), mission society, or youth group).

2 A school (described in section 170(b)(1)(A)(ii) of the Code) below college level affiliated with a church or operated by a religious order, even though it is not an integrated auxiliary of a church.

3 A mission society sponsored by or affiliated with one or more churches or church denominations, more than one-half of the activities of which society are conducted in, or directed at persons in, foreign countries.

4 An exclusively religious activity of any religious order.

5 For tax years ending on or after December 31, 1976, an organization (other than a private foundation) that normally has gross receipts in each taxable year of not more than $10,000. (See Sec. 4.)

6 A state institution, whose income is excluded from gross income under section 115.

7 An organization described in section 501(c)(1).

.02 This list does not include organizations, such as private foundations, that are required to file annual information returns on forms other than Form 990.

SEC. 4. DEFINITIONS — NORMALLY NOT MORE THAN $10,000

For purposes of Sec. 3 above, the annual gross receipts of an organization are normally not more than $10,000 if:

1 in the case of an organization which has been in existence for one year or less, the organization has received, or donors have pledged to give, gross receipts of $15,000 or less during the first taxable year of the organization;

2 in the case of an organization which has been in existence for more than one, but less than three years, the average of the gross receipts received by the organization in the first two taxable years is $12,000 or less; and,

3 in the case of an organization which has been in existence for three years or more, the average of the gross receipts received by the organization in the immediately preceding three years, including the year for which the return would be filed, is $10,000 or less.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Section 6651; 301.6651-1.)

Rev. Proc. 80-45 [1]

SECTION 1. PURPOSE

The purpose of this revenue procedure is to further extend the time set forth in Rev. Proc. 77-47, 1977-2 C.B. 580, in which contractors or subcontractors with contracts subject to the Vinson-Trammell Act, 48 Stat. 503 (current version at 10 U.S.C. sections 2382 and 7300 (1970)) in taxable years that end after September 30, 1976, must file certain reports.

Section 1005(a) of the Department of Defense Authorization Act, 1981, Pub. L. 96-342, 96th Cong., 2d Sess. (September 8, 1980), exempts from the profit limitations of the Vinson-Trammell Act contracts for the construction or manufacture of aircraft or naval vessels and parts thereof when the final payment under such contracts is made before October 1, 1981. Further, section 1005(b) of such Act prohibits the Internal Revenue Service from requiring any reports under the Vinson-Trammell Act to be filed before October 1, 1981.

SEC. 2. EXTENSION AND EFFECT ON OTHER DOCUMENTS

Section 4.02 of Rev. Proc. 77-47, as modified by Rev. Proc. 78-38, 1978-2 C.B. 542, Rev. Proc. 79-25, 1979-1 C.B. 566, Rev. Proc. 79-53, 1979-2 C.B. 538, and Rev. Proc. 80-13, 1980-1 C.B. 617, is further modified by extending to October 1, 1981, the time for filing Forms 949 and 949-A for taxpayers with taxable years that end before January 1, 1981.

An extension of the time granted taxpayers for filing Forms 949 and 949-A does not extend the time for filing their federal income tax returns.

Interest on any excess profits will be charged from the due date of the report, without regard to any extensions, to the date of payment. However, taxpayers who repay excess profits by October 1, 1981, will not be subject to the penalty for failure to pay tax with respect to the excess profits under section 6651 of the Internal Revenue Code.

Rev. Proc. 80-13, which provides that Rev. Proc. 77-47 is extended to October 15, 1980, for taxpayers with tax years that ended before January 31, 1981, is superseded.

Rev. Proc. 77-47 is further modified.

---

26 CFR 601.502: Requirements for conference—recognition to practice and, in cer-

[1] Also released in News Release IR-80-107, dated October 15, 1980.

tain cases, power of attorney or tax information authorization.
(Also Part I, Section 6103; 301.6103(c)-1.)

Rev. Proc. 80-46

SECTION 1. PURPOSE

The purpose of this revenue procedure is to enhance the ability of the Internal Revenue Service district offices to respond fully and effectively to inquiries by employees of business entities. This procedure is intended to facilitate the resolution of account related questions and does not provide for the furnishing of tax returns to third parties. It has no effect on the Conference and Practice Requirements (26 CFR 601.501 et seq.), technical advice requests or ruling determination letters. Nor does it affect the ability of a taxpayer, or any person acting on behalf of a taxpayer, to contact the Internal Revenue Service by telephone for the purpose of obtaining general information regarding the meaning of a bill, notice, or letter.

SEC. 2. BACKGROUND

The Internal Revenue Code specifies that confidential tax information with respect to sole proprietorships, partnerships, corporations, estates and trusts may be disclosed to certain persons. The Service is prohibited from disclosing confidential tax information to another person acting on behalf of a taxpayer in the absence of a written authorization from the taxpayer. It is recognized that the limitations on disclosure often cause delays in servicing requests for tax assistance. The restrictions are particularly troublesome for businesses that have a number of employees who need to contact the Service to resolve day to day tax matters. For example, an employee who is not specifically authorized in writing to receive confidential tax information might contact the Service to resolve a tax matter of the business, such as a notice or a bill. In these situations, the Service makes every effort to resolve the issue by discussing it in general terms without disclosing confidential tax information from our records. However, on many occasions, due to the complexity of the business's tax matters, the question cannot be resolved without disclosure of confidential tax information by the Service. Accordingly, the Service will accept letters of authorization, pursuant to the requirements of this revenue procedure, with attached lists specifying employees of business entities who are authorized to receive confidential tax information.

SEC. 3. PERSONS WHO MAY SUBMIT A LIST.

.01 A sole proprietor may submit a list.

.02 With respect to a partnership, any partner may submit a list but the scope of the authorization is limited to those tax periods during which he or she is a partner.

.03 Authorization lists may be submitted on behalf of a corporation by the corporate president/chief executive officer or an officer authorized by law to bind the corporation. As an alternative, the list may be submitted by any principal officer if attested to by the secretary or any other officer.

.04 If the business entity is included in an estate, a list may be submitted by the administrator, executor or trustee of the estate.

.05 A trustee may submit an authorization list on behalf of a business entity that is a trust.

.06 In the case of business matters of an incompetent, an authorization list may be submitted by the trustee, guardian or committee for the incompetent.

.07 If substantially all of the property of the business is in the hands of a receiver or trustee in bankruptcy, such persons may submit a list.

SEC. 4. CONTENTS OF THE LETTER OF AUTHORIZATION

.01 The letter of authorization shall:

1 be dated, provide the employer identification number (EIN) for the entity and reference this revenue procedure;

2 specify the tax periods and type of tax with respect to which information may be provided;

3 contain a statement that the listed authorized employees have granted permission for the use of their social security numbers for the purpose of identification;

4 contain a statement that the taxpayer assumes the responsibility to notify the addressee in writing of any changes to be made to the list;

5 provide a statement as to the authority of the person to authorize the disclosure of the confidential tax information;

6 be signed by the appropriate person;

7 have attached a copy of any appropriate documentation such as an officer's authority contained in a corporate charter, etc. However, documentation is not needed if the authorization is submitted by two corporate officers;

8 be received by the Service within sixty days of the date it is signed and dated.

.02 The attached list shall set forth the names of the authorized employees in alphabetical order and include their social security numbers for identification purposes.

.03 The following format should be used for authorizations by a president/chief executive officer or an officer authorized by law to bind the corporation:

Corporate Letterhead

(*Date*)

Disclosure Officer

_____ District Office

In accordance with Revenue Procedure 80-46, the employees named in the attached list are authorized to receive return information pertaining to (*name of corporation and employer identification number*) [or (*name of subsidiary and employer identification number*) a subsidiary of (*name of corporation*)] with respect of Form(s) (*941, 1120, etc.*), for tax period(s) _____.

Each of the employees named in

the attached list have granted permission for the use of their social security numbers for identity verification purposes prior to receipt of confidential tax information.

(*Name of corporation or subsidiary*) will notify the addressee in writing of any changes to be made to the list.

I certify that I am the President/Chief Executive Officer or an officer authorized by law to bind (*name of corporation or subsidiary*).

/s/ _____
(*Title*)

.04 The following format should be used for authorizations signed by a principal corporate officer and attested to by the secretary or another officer:

Corporate Letterhead

(*Date*)

Disclosure Officer

_____ District Office

In accordance with Revenue Procedure 80-46, the employees named in the attached list are authorized to receive return information pertaining to (*name of corporation and employer identification number*) [*or name of subsidiary and employer identification number a subsidiary of* (*name of corporation*)] with respect to Form(s) (*941, 1120 etc.*), for tax period(s) _____.

• Each of the employees named in the attached list has granted permission for the use of their social security numbers for identity verification purposes prior to receipt of confidential tax information.

(*Name of corporation or subsidiary*) will notify the addressee in writing of changes to be made to the list.

This authorization is intended to comply with Internal Revenue Code Section 6103(e)(1)(D)(ii).

/s/ _____
(Any) Principal Officer (*Title*)
and

/s/ _____
Secretary or any other officer (*Title*)

.05 The following format should be used for authorizations with respect to business entities which are not corporations:

Business Letterhead (if any)

(*Date*)

Disclosure Officer

_____ District Office

In accordance with Revenue Procedure 80-46, the employees named in the attached list are authorized to receive return information pertaining to (*name of entity and employer identification number or social security number*) with respect to Form(s) (*941, 940, etc.*) for tax period(s) _____.

Each of the employees named in the attached list have granted permission for use of their social security numbers for identity verification purposes prior to receipt of confidential tax information.

(*Name of entity*) assumes the responsibility to notify the addressee in writing of any changes to be made to the list.

I certify that (*statement of authority to authorize individuals to receive confidential tax information of the taxpayer*).

/s/ _____

SEC. 5. WHERE TO SEND THE LETTER OF AUTHORIZATION

The letter of authorization shall be submitted to the Disclosure Officer for the Internal Revenue Service district office with which contacts are expected. A list of Disclosure Officer addresses appears in Sec. 7. If contact with more than one district office is anticipated, a letter must be sent to each District Disclosure Officer. The Disclosure Officer will acknowledge receipt by letter, which will provide a telephone number for contacts pursuant to Sec. 6.03.

SEC. 6. MODIFICATION OF THE AUTHORIZATION LIST

.01 It is the responsibility of the taxpayer to keep the authorization lists current and to modify the list when necessary. The Service will recognize authorizations as effective until revised or revoked, unless otherwise specified in the letter of authorization.

.02 The taxpayer shall modify the authorization list by sending a letter which meets the requirements of Secs. 3 and 4. The letter shall be addressed to the appropriate District Disclosure Officer(s) and shall clearly indicate the names of employees to be deleted from the list and the names of employees to be added to the list. If revocation of the Disclosure Authorization List is desired, the letter shall so state. Modifications will become effective when the Disclosure Officer receives the letter.

.03 To quickly effect deletions from the list, taxpayers may advise the Disclosure Officer of the deletions by telephone. The deletions become effective upon notification of the Disclosure Officer but shall then be confirmed in writing.

.04 The Disclosure Officer should be contacted five days after the modification letter is mailed to confirm receipt.

SEC. 7. DISCLOSURE OFFICER ADDRESSES

SEC. 8. INQUIRIES

Inquiries in regard to this revenue procedure should be directed to the District Disclosure Officer.

SEC. 9. EFFECTIVE DATE

This revenue procedure becomes effective December 10, 1980.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Sections 6001, 6011; 1.6001-1, 1.6011-1.)

Rev. Proc. 80-47

SECTION 1. PURPOSE

This revenue procedure states the requirements of the Internal Revenue Service relating to the preparation of acceptable reproductions and private design and printing of substitute federal tax return forms (*i.e.*, Forms 1040, 1040A, 1120, 940, 941, etc.) and related forms (schedules) for filing purposes in place of the official forms and schedules.

SEC. 2. DEFINITIONS

.01 Definitions Used in This Publication (Relating to Tax Forms).

1 *Substitute Form.* A tax form or related form or schedule that differs in any way from the official version and is intended to replace the entire form that is printed and distributed by the Service. This term also covers those approved substitute formats and forms described in this revenue procedure. (A photocopy of an official form or a copy produced from an unchanged reproduction proof, supplied by the Service, is not a substitute form.)

2 *Supporting Statement (Supplemental Schedule).* A document filed as a part of a tax return that provides detailed information to support an entry for a line (or lines) on an official form. A supporting statement cannot take the place of an official form.

3 *Computer-Prepared Form.* A preprinted form in which the taxpayer's name, address and tax entry information has been printed by a computer, computer-printer or other computer-type equipment, such as word-processing equipment.

4 *Manually Prepared Form.* A preprinted form in which the taxpayer's name, address and tax entry information is entered by an individual using a pen, pencil, typewriter or other non-automated equipment.

5 *Computer-Generated Tax Form.* A document that is entirely prepared by the use of a computer printing device so that all the line numbers, line captions, and the tax amount data entries are in the same type face. No graphics appear on the form.

6 *Graphics.* Those parts of the tax form that are not the tax amount entries or called-for information. Generally, these are line numbers, captions, instructions, rules and borders, special indicators, rules or strokes created by type-setting, photo-graphics, photo-composition, etc.

7 *Printed Form.* A form produced using conventional printing processes, photocopying, or other similar processes.

8 *Preprinted Pin-Fed Form.* A form printed beforehand by conventional methods on paper that has marginal perforations for use with automated and high-speed printing equipment.

SEC. 3. SUMMARY OF CONTENTS

.01 MESSAGE TO TAX RETURN PREPARERS

IF YOU PLAN TO CHANGE OR MODIFY *ANY* TAX FORMS, YOU MUST FOLLOW INTERNAL REVENUE PROCEDURES AND, IN MOST CASES, *YOU MUST GET OFFICIAL APPROVAL BEFORE USING SUBSTITUTE FORMS. THE SERVICE IS CONTINUING A NATIONWIDE PROGRAM TO IDENTIFY AND CONTACT TAX RETURN PREPARERS USING UNAPPROVED FORMS*

.02 Additional information you may also need is contained in Rev. Proc. 80-48, page 792, this Bulletin. You can get this procedure by (1) ordering it on the form provided in Package X, Informational Copies of Federal Income Tax Forms, or (2) by writing to: IRS REV. PROC., P.O. Box 27322, Richmond, VA 23261. They are also obtainable at your local district office.

.03 THINGS YOU *CAN DO* TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS.

1 *You can PHOTOCOPY* any federal tax form or schedule and use it instead of the official one.

2 *You can REPRODUCE ANY CURRENT* form (or schedule) as cut sheets, snap-sets, marginally-punched pin-fed forms, so long as you use an official Service version as the master copy. An official version is one supplied by the Service, such as those in the taxpayer's tax package, those in Package X, reproduction proofs (sold by the Service) and those printed in revenue procedures.

3 *You can ADJUST* the graphics on printed Forms 1040 and 1040A (and other forms) to allow for computer-printed or word processor fill-in. Guidelines for making these adjustments are listed in Rev. Proc. 80-48.

4 *You can PRINT AND DUPLICATE* the substitute "worksheet-type" versions of Schedules A and B (see exhibits section) for use when you need a "worksheet." The Service will accept these substitute schedules instead of the official versions. These schedules serve different purposes. One allows the form to contain state tax information which is blocked-out before submission to the Service. The other allows the form to be used singly or as part of a snap-set.

.04 THINGS YOU *CANNOT* DO TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS.

1 *You cannot* change any Internal Revenue Service tax form or use your own (non-approved) version, unless permitted by revenue procedures without prior Service approval.

2 *You cannot* change any of the graphics on Forms 1040 and 1040A (except those specified in revenue procedures) without prior approval from the Service.

3 *You cannot* use your own version of Schedule A (Itemized Deductions) UNLESS YOU FIRST GET IT APPROVED. When using attachements to the official Schedule A, you must

COMPLETELY FILL OUT ALL REFERENCED (NUMBERED OR LETTERED) LINES OF THE OFFICIAL SCHEDULE A; not just the total lines, but the line items that make up the totals as well. In other words, you may not enter just the totals for the various deduction categories, *i.e.*, "Medical," "Taxes," etc., and write "See Attached Schedule" across the part of the form. The Service wants only one Schedule A—either yours or an official version; yours needs prior approval from the Service.

4 *You cannot* use your own preprinted label on tax returns filed with the Service. The ONLY label permitted is the one provided the taxpayers in their tax packages. Otherwise, the taxpayer's name and address must be entered on the return in the spaces provided.

5 *Other items are also not permitted.* Please read the rest of this revenue procedure for details.

SEC. 4. SPECIFICATIONS FOR FILING SUBSTITUTE FORMS

.01 *Computer-Prepared Tax Forms.* For filing purposes, the Service will accept computer-prepared tax forms (*i.e.*, Forms 1040, 1040A, 1120, 940, 941, etc.) filled in by a computer or by word-processing equipment, but these forms MUST be preprinted.

.02 *Computer-Generated Forms.* For filing purposes, the Service will accept computer-generated versions of schedules and forms that are attached to individual and business income tax returns, provided they meet the requirements prescribed in Rev. Proc. 80-48.

.03 *Combination of Manually Prepared and Computer-Prepared/Generated Forms.* For filing purposes, the Service will accept substitute tax forms that contain a combination of computer prepared/generated and manually filled in information.

.04 *Substitute Schedules K-1.* Prior approval is NOT required for Schedules K-1 that accompany Forms 1065, for partnerships, 1120-S, for small businesses, and 1041, for fiduciaries, when the K-1's meet the following requirements:

(a) The K-1 must contain only the line items required for use by the taxpayer,

(b) These line items must be in the same order and arrangement as the official form,

(c) The line items must be numbered, titled, and/or captioned exactly as shown on the official form, and

(d) Each taxpayer's information must be on a separate piece of paper.

SEC. 5. APPROVAL INFORMATION

.01 *Approvals.*

1 *Guidelines.* Preparers who desire to file privately designed and printed substitute tax forms must develop such substitutes using these guidelines and those contained in Rev. Proc. 80-48 and, unless permitted by revenue procedures, must obtain approval from the Service before the forms are filed.

2 *Changes to Tax Forms.* Any person making changes to any tax form or schedule (EXCEPT THOSE STATED IN THIS OR OTHER REVENUE PROCEDURES) must obtain approval from the Service before filing the substitute.

Because a substitute form is a variation from the official form, you should know the requirements of the official form before you modify it to meet your needs. For the most frequently used tax forms, the quickest way to obtain an official form is to request reproduction proofs of these forms. Reproduction proofs can only be ordered by using the Form M-5368, Order for Reproduction Proofs. Form M-5368 can be obtained in two ways: (1) by written request to Internal Revenue Service, RM:FM:P, Room 1528, 1111 Constitution Ave., N.W., Washington, D.C. 20224, or (2) by telephone request (at your expense) to the Reproduction Proof Coordinator at (202) 566-2473.

(a) THE GUIDELINES FOR PRIVATELY DESIGNED AND PRINTED TAX FORMS ARE AS FOLLOWS:

(1) Each form must follow the design of the official form as to format, arrangement, item caption, line numbers, line references and sequence.

(2) When a form is designed with both federal and state columns, *THE FEDERAL COLUMN MUST BE TO THE LEFT OF THE STATE COLUMN AND ADJACENT TO THE LINE CAPTION.*

(3) When a form is to be manually prepared (see definitions), the federal column must have a vertical line in the amount field to separate dollars from cents if the official form has a vertical line. The cents column must be at least ⅛th inch wide.

(4) Please note that certain forms have a newly added "sequence number" located just below the year designation in the upper right corner of the form. The Service uses this number to indicate the order in which forms are processed when filed with a return. It must be printed on the affected form, in no less than 12-point bold-face type, and centered below the form's year designation. THE SEQUENCE NUMBER IS REQUIRED ON FORMS LISTED BELOW. Please note: some of the numbers have been changed since last year.

Form 1040 Schedule/Form	*Sequence Number*
A	08
C	09
D	15
E	16
F (front)	17
F (reverse) print in top margin at least 2½" from left edge	18
G	21
R and RP	22
SE	23
2119	25
2440	26
2441	27
2555	36
3468	28
4136	29
4136-T	29
4625	30
4726	31
5329	32
5695	34
6251	35

3 *Mailing Address.* Proposed substitutes should be forwarded by letter to the Internal Revenue Service, Attention: Substitute Forms Program, TX:R:I, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

4 *When to Submit.* Proposed substitutes should be sent to the address

listed in 3 above, as much in advance of the filing period for the form as possible. This is to allow adequate time for analysis and response and to permit notice to our field offices. Quarterly filed forms, such as the Form 941, must be submitted by the first day of the last month of the quarter.

5 *Required Statement.* When the sample substitute is submitted, there must also be an accompanying statement that lists the form number of each substitute requested and details those items that deviate from the official form in position, arrangement, appearance, line numbers, additions, deletions, etc. Included with each of the items must be a detailed reason or justification for the change and an approximation of the number of forms expected to be filed.

6 *Approval Letter.* Upon determination that approval can be given, the Service sends a formal letter of approval which also may contain qualifications for use of the substitutes.

7 *Duration of Approval.* Approvals, when granted, are good for only one calendar year (January through December) or, in the case of corporation tax forms (with the exception noted below), for the remainder of the quarters of the calendar year.

PLEASE NOTE: Each new filing season requires a new approval, even if the official form does not change.

Exception: Certain quarterly tax forms in the 94X series (941, 942, etc.) are approved for only one quarter. Each new quarter requires a new approval.

8 *Required Copies.* Once an approval is granted for the use of a substitute form, you may be requested to send to the Service eleven (11) copies of each approved form. When requested, the copies will be used to notify Internal Revenue Service Centers that your substitute forms are approved. The requested forms must be assembled in sets. A set constitutes a return with the related schedules and forms in order as they will be filed, *i.e.*, Form 1040, Schedules A, B, C, etc., Forms 2440, 2441, etc. The Service reserves the right to reject sets not assembled in the order specified.

9 *Other Forms Not Listed.* Other Service forms, such as Forms W-2, 1087, 1099, and 1040-ES, are governed by different revenue procedures. These procedures are available at your local district office.

Sec. 6. Physical Aspects and Requirements

.01 *Printing Medium.* The private printing of these substitutes must be produced by conventional printing processes, photocopying or other similar reproduction process.

1 *Remove Government Printing Office Symbol.* When privately printing a tax form, the Government Printing Office symbol and jacket numbers must be removed, and in its place (using the same type size) *print the Employer Identifying Number (EIN) of the printer or the Social Security Number (SSN) of the form designer.*

.02 *Paper Requirements.* The paper must be chemical wood writing paper that is equal to or better than the quality used for the official forms.

1 Official tax forms are printed on 18 pound (17″ × 22″, 500 sheets) white, chemical wood writing paper, or

2 45 pound offset white (25″ × 38″, 500 sheets).

3 The thickness of the stock cannot be less than .003 inch.

.03 *Prohibited Paper.* Carbon bonded paper is prohibited from use for forms filed with the Service.

.04 *Chemical Transfer Paper—LIMITED USE.* Chemical transfer paper may be used ONLY when the following specifications are met:

1 Each ply within the chemical transfer set of forms or schedules must be labeled.

2 Only the top ply (ply one and white in color), the one which contains chemical on the back only (coated back), may be filed with the Service. For example, a set containing three plies would be constructed as follows: Ply one (coated back), "Federal Return, File with IRS"; Ply two (coated front and back), "Taxpayer's copy"; and Ply three (coated front), "Preparer's copy."

3 The file designation, "Federal Return, File with IRS," for ply one must be printed in the bottom right margin (just below the last line of the form) in 12-point bold-face type. It is not mandatory, but recommended, that the file designation, "Federal Return, File with IRS," be printed using a contrasting ink to be clearly visible to the taxpayer.

.05 *Paper and Ink Color.* The color of paper and ink must substantially duplicate that of the original form in order to be accepted. This means that your substitute *must be printed in black ink and on the color paper the Service form is printed on.* An exception to this rule is that Forms 1040A and 1040 reproductions may be in black ink without the colored screening. Any additional exceptions to this rule require written approval from the Service.

.06 *Legibility.* Reproductions must have a high standard of legibility, both as to original form and as to fill-in matter. The Service reserves the right to reject any reproductions with poor legibility.

.07 *Size of Page.* Reproductions and privately designed and printed substitutes may be the same size as the official form (8″ × 11″, in most cases) or they may be the standard commercial size (8½″ × 11″).

.08 *Image Size, Text Removal, and Type Font.* The image size of printed material should be as close as possible to that of the official form. You may omit any text that is solely instructional in nature.

1 To allow a larger top margin for marginal printing (see .09 below), the title line(s) for all forms (not including the form's year designation and sequence code when present) may be photographically reduced by 40 percent or reset as one line of type. When reset as one line, the type size may be no smaller than 14 point. You may omit the "Department of the Treasury-Internal Revenue Service" and all references to instructions that appear in the form's title area.

2 Almost all federal tax forms are

printed using "News Gothic" as the basic type font. We request that this type font be used when composing substitute forms.

3 Maintain at least a one-half (½) inch margin on all sides of the form. This allows room for Service employees to make necessary entries on the form during processing.

.09 *Marginal Printing — Limited Area.* You may print your logo, company or firm name, identifying and collation symbols, etc., in the *top left margin* of any Service form. The area you may use extends vertically from the top of the form's title designation to the top edge of the form and horizontally 3½ inches from the left edge. *No printing is permitted in the top right margin.* With the exception of the actual tax return form (*i.e.*, Forms 1040, 1040A, 1120, 940, 941, etc.) you may also print in the left vertical and bottom left margins. The bottom left margin you may use extends 3½ inches from the left edge of the form.

SEC. 7. APPROVED SUBSTITUTE FORMATS FOR FORM 1040 SCHEDULES A AND B

.01 *Schedules A and B (Form 1040).*

1 *Exhibits of Approved Formats.* There are two sets of exhibits (Exhibits A-1 & B-1 and A-2 & B-2) shown in this publication. They are acceptable substitutes for the official forms. Both sets are usable for manual entry or computer preparation. (Vertical spacing is six (6) lines to the inch.)

.02 *Duplication of Exhibits A-1 & A-2 and B-1 & B-2.* You are permitted to duplicate these exhibits photographically or using photo-reproduction techniques, PROVIDING YOUR PRINTED IMAGES ARE EXACTLY LIKE THE ONES IN THE EXHIBITS. WITH THE EXCEPTION NOTED BELOW, NOTHING CAN BE CHANGED. **Please note: The Service does NOT supply reproduction proofs for these exhibits.**

.03 *Use of Duplicated Exhibits.*

1 If your forms are *EXACT DUPLICATES* of these exhibits, THEY MAY BE USED WITHOUT PRIOR AUTHORIZATION.

2 *SIZE OF EXHIBITS.* The exhibits are shown at 92 percent of actual size. These substitutes should be restored to their original size during your reproduction process.

ANY CHANGE TO THE FORMAT, CAPTIONS, SPACING, ARRANGEMENT AND/OR POSITION OF THE VARIOUS CATEGORIES, ETC., OF THESE EXHIBITS REQUIRES PRIOR WRITTEN APPROVAL.

EXCEPTION—The areas in the Exhibits A-1 and A-2 identified by the circled numbers 1 through 9 may be changed as follows. The areas inside the perimeter of the boxes containing the dash-leaders, *i.e.*, ----, (designated by the circled numbers), may be used to print any particular deduction item associated with the corresponding deduction category. You may remove the dash-leaders if you wish. *YOU MAY NOT CHANGE THE AMOUNT COLUMN BOX SIZE OR POSITION.* Strip out the circled numbers before use.

3 *Exhibit A-1.* This substitute Schedule A format may be used as a single sheet or as one of the copies of a snap-set. It is designed to be used in place of the official Schedule A (Form 1040).

4 *Exhibit A-2.* This substitute Schedule A format may be used as a single sheet when both federal and state tax information is placed on the same form.

NO STATE TAX INFORMATION CAN APPEAR ON THESE FORMS WHEN FILED WITH THE FORM 1040. THE STATE COLUMN MAY BE PRESENT BUT THE STATE TAX INFORMATION MUST NOT BE VISIBLE WHEN FILED WITH THE SERVICE. We prefer that the entire state column be COMPLETELY BLOCKED OUT.

5 *Exhibits B-1 and B-2.* These exhibits correspond to Exhibits A-1 and A-2 and the provisions in 3 and 4 apply. Both of these exhibits are acceptable for use in place of the official Schedule B (Form 1040). Both are designed for either manual or computer-generated entries.

6 *Exhibits A-1 and B-1 or A-2 and B-2.* These exhibits may be used as sets when the return calls for both Schedules A and B. PLEASE NOTE: DO NOT USE BOTH THESE SUBSTITUTES AND THE OFFICIAL VERSIONS. USE ONE OR THE OTHER.

7 *BLOCK OUT METHODS.* A suggested method to block out the state tax information is: (1) place the substitute form in a clear plastic folder, (2) on the folder place a strip of opaque material the exact width and length of the column you wish to block out, then (3) photocopy the substitute form while still in the folder. The result will be a form with only the federal tax information visible. Another method is to take a black marking pen and using either vertical or horizontal strokes cross out the state figures. Carbon interleaved sets may be used where the amounts entered in the state column are filled in with black carbon overprint. This copy may be filed with the return.

SEC. 8. OTHER CONSIDERATIONS

.01 Reproductions of official forms and substitute forms which do not meet the requirements of this revenue procedure may not be filed instead of the official forms and schedules.

.02 *Required Preparation of Forms.* You must completely fill out all the numbered or referenced lines on official forms (NOT JUST THE TOTALS, BUT ALL THE ITEMS THAT MAKE UP THE TOTALS AS WELL) before attaching any supporting statement (see exceptions below). The Service processes the return based on information entered on the official or approved version of the tax forms. References are made to attachments ONLY as required by law and as processing requirements direct. When you fail to complete all the lines on the official forms, Internal Revenue Service Tax Examiners have to locate the information on your attachment and write it on the proper line of the official form. This unfortunate process

causes delays in processing the return and increases the potential for errors both in transcription and in interpretation. *THE SERVICE IS CONTINUING A NATIONWIDE PROGRAM TO NOTIFY PREPARERS WHO FAIL TO MEET THIS REQUIREMENT.*

.03 *Exceptions.*

1 *Lines Captioned "Other."* It is not necessary to fill in every numbered or referenced line of tax forms when the line caption calls for "Other," *i.e.*, "Other (itemize)," "Other (specify)," "Other (attach schedule)," etc. Examples of this exception are lines 6c, 15, 19, 21b and 31 for Schedule A (Form 1040). When this occurs, a supporting statement may be used and only the total amount of these "Other" items entered on the line of the official form. However, we prefer that the space on the official form be used when it is adequate.

2 *Schedule A (Form 1040).* All numbered and lettered lines must be filled in, if applicable. Supporting statements may be used to give the details of the totals entered on such lines but may not be used as a substitute for a collection of lines. For example, the detailed information for "Taxes" may not be shown on a supporting statement (supplemental schedule) and only line 16 filled in; but the details of "State and local income taxes" may be shown on a supporting statement and the total of such taxes entered on line 11. Also, lines 33 through 38 need not be shown, but the total of itemized deductions must be shown on line 39.

3 *Schedule B (Form 1040).* Lines 1 and 3 need not be filled in on the form. A supporting statement may be used for the details of interest and dividend income and the appropriate totals of such income entered on lines 2 and 4 unless nominee distribution or accrued interest criteria apply. (See the tax package instructions concerning interest.)

4 *Schedule C (Form 1040).* All lines on page 1 must be filled in when applicable except the line where "Other expenses-specify" is listed. (See instruction (2) above.) All information for Schedule C-1 must be entered. Schedule C-2 information may be entered on a supporting statement so long as the method of depreciation used (if any) is entered on the form in column (e). Schedule C-3 information may be shown on a supporting statement and not entered on the form.

5 *Schedule E (Form 1040).*

(a) When there are entries on page 1 for any of the Parts I through IV, the following requirements must be met: (1) in Part I, lines 1a through 4, the questions must be answered and tax information must be entered on the lines provided, (2) in Part II, lines 5a through 6b, the question boxes must be answered; if the answer to question 6a is "yes," the amortizable basis must be entered on line 6b. Be sure there is a place on line 6b for the amount.

(b) Supporting statements may be used for the details of rental income and expenses and for royalty income. The appropriate totals must be carried to line 7, columns (b) and (g), when a Form 4835 is filed with the return. Totals must also be entered on line 8, columns (b) through (g).

(c) The income and loss from various partnerships, estates or trusts, and small business corporations also may be detailed on a supporting statement, but the appropriate total income and total loss must be entered on lines 10 through 18 and also on line 19 when applicable.

(d) Page 2 need not be used so long as the information is provided on a supporting statement. The supporting statement must show the details required by the form.

6 *Schedule F (Form 1040).* Depending on which accounting method is used (cash or accrual), all of parts I and II or II and V must be printed in their entirety.

.04 *Supporting Statements.*

1 You may attach supporting statements to explain or support any line item on an official or approved form. Supporting statements must provide details and explain entries made on the official form or schedule, must furnish all required information in the same sequence as called for on the official forms or schedules, and must be attached to the return following all other official forms. All tax returns must be arranged in this order: the tax return, lettered forms in alphabetical order, numbered forms in numerical sequence and supporting statements. Information on supporting statements must be in the same order as the items appeared on the form to which it is referenced. THEIR USE MUST BE TO SUPPORT LINE ENTRIES ON THE OFFICIAL FORM AND NOT TO AVOID COMPLETING REQUIRED LINES ON THE OFFICIAL FORM.

2 Additionally, each of your supporting statements must be referenced to the form it supports, and the entry on the form must be cross-referenced to the supporting statement. For example, put "See Statement X" on the line of the form that references the statement and put "Statement X" on the top of the supporting statement that contains the identified line number and the supporting information.

.05 *Printing On One Side of Paper.* While it is preferred that both sides of the paper be used in making reproductions, resulting in the same page arrangement as that of the official form or schedule, the Service will not object if only one side of the paper is used or if the reproduction has a different fold from that provided on the official form.

.06 *Paid Preparer's Information and Signature Area.* On both Forms 1040A and 1040, the "Paid Preparer's Information" area may not be rearranged or relocated. You may add one extra line to the paid preparer's address area. An exact facsimile must appear on Page 1 of Form 1040A and Page 2 of Form 1040. This applies to other tax forms as well.

.07 *Use Preaddressed Label.* When filing reproduced or privately printed federal tax returns and related schedules, use the preaddressed label furnished to the taxpayer in the tax package by the Service on the copy that is to be filed with the Service. Use of the label avoids larger processing

costs because it reduces the potential for error—the kind of error which can delay the receipt of refund and information needed by the taxpayer. **No other label may be used.**

.08 *State Tax Information Prohibited.* State tax information must not appear on the federal tax return which is filed with the Internal Revenue Service Center, except where amounts are claimed on or required by the federal return, *e.g.*, line 11, Schedule A (Form 1040).

.09 *Use Internal Revenue Service Envelope.* When filing reproduced or privately printed federal tax returns use the envelope enclosed with the taxpayer's tax package. This envelope is coded for sorting into several categories. Use of the envelope can help speed up the processing and reduce processing costs. Do not use the Service-provided tax package envelope for other correspondence with the Service, as its misuse could delay the correspondence.

.10 *Filing Substitute Forms.* Follow the same instructions as for filing official forms. These instructions are in the taxpayer's tax package.

.11 *Voluntarily Submitted Information.* Additional information required or voluntarily submitted should be on the same size paper as the official form.

SEC. 9. REPRODUCTION PROOFS.

Camera-ready, reproduction-quality, proof copies of many of the tax forms issued by the Service are available to the public. Order blanks for reproduction proofs will be mailed to requestors of record and, on request, to prospective users. Printers and others wishing to obtain reproduction proofs may send their requests to the Internal Revenue Service, Attention: Publishing Services, RM:FM:P, Room 1528, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

Basic specifications, such as margin, pagination, etc., will be printed in the margins of the reproduction proofs and must be removed before printing. The official reproduction proof margins across the top, bottom, and sides must be maintained on all reproductions and privately printed federal tax returns and related schedules.

A charge of $1.00 per page will be made for each reproduction proof regardless of page size. After an order has been filled, invoices will be mailed to the requestor.

SEC. 10. ADDITIONAL INSTRUCTIONS

.01 *Photocopy Equipment.* The Service does not undertake to approve or disapprove the specific equipment or process used in reproducing official forms, but requires only that the reproduced forms and schedules satisfy the conditions stated in revenue procedures.

.02 *Taxpayer and Preparer Signatures.* All taxpayer signatures on forms to be filed with the Service must be original signatures, affixed subsequent to the reproduction process. However, the income tax preparer can satisfy the manual signature requirement by signing a completed income tax return form, making a photocopy of the return form, and having the taxpayer sign and file the photocopy. (See Rev. Rul. 78-370, 1978-2 C.B. 336.)

.03 *Requests for Approvals.* When specific approval of a reproduction of any form is desired, or if the use of a reproduction of any form is not listed or specified herein or otherwise specifically authorized, a sample of the proposed reproduction should be forwarded by letter to the Internal Revenue Service, Attention: Substitute Forms Program, TX:R:I, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, for consideration. When copies of privately designed forms are submitted for approval, please follow the instructions listed near the beginning of this revenue procedure.

SEC. 11. AGREEMENT

Any person or company who uses substitute forms and makes all or part of the changes specified in this revenue procedure, agrees to the following stipulation: The Service presumes the changes are made in accordance with these procedures and, as such, will be noninterruptive to the processing of the tax return. Should any of the changes prove to be not exactly as described, and as a result become disruptive to the Service during processing of the tax return, the person or company agrees to accept the determination of the Service as to whether or not the form may continue to be used during the filing season, and also agrees to work with the Service in correcting noted deficiencies. Notification of deficiencies may be made by letter, phone call or both.

SEC. 12. EFFECT ON OTHER DOCUMENTS

This revenue procedure supersedes Rev. Proc. 79-57, 1979-2 C.B. 540.

SEC. 13. EXHIBITS SECTION

Exhibits shown in this section are acceptable substitutes for official forms and are intended to be used *in place of* their corresponding official forms. No prior approval is needed before using them so long as all other requirements in this revenue procedure are met.

Rev. Proc. 80-48

SECTION 1. PURPOSE

This Revenue procedure states the requirements of the Internal Revenue Service regarding the acceptance of computer-prepared tax forms (i.e., Forms 1040, 1040A, 1120, 940, 941, etc.) and computer-generated forms (and schedules) to be attached thereto.

SEC. 2. DEFINITIONS

.01 *Definitions Used in This Procedure (Relating to Tax Forms).*

1 *Substitute Form.* A tax form or related form that differs in any way from the official versions and is intended to replace the entire form printed and distributed by the Service. This term also covers those approved substitute formats and forms described in this revenue procedure. (A photocopy or a copy produced from an unchanged reproduction proof, supplied by the Service, is not a substitute form.)

2 *Supporting Statement (Supplemental Schedule).* A document filed as a part of a tax return that provides detailed information to support an entry for a line (or lines) on an official form. A supporting statement cannot take the place of an official form.

3 *Computer-Prepared Form.* A preprinted form in which the taxpayer's name, address and tax entry information has been printed by a computer, computer-printer or other computer-type equipment, such as word-processing equipment.

4 *Manually Prepared Form.* A preprinted form in which the taxpayer's name, address and tax entry information is entered by an individual using pen, pencil, typewriter or other non-automated equipment.

5 *Computer-Generated Tax Forms.* A document that is entirely prepared by the use of a computer-printing device so that all the line numbers, line captions, and the tax amount data entries are in the same typeface. No graphics appear on the form.

6 *Graphics.* Those parts of the tax form that are not the tax amount entries or called-for information. Generally, these are line numbers, captions, instructions, rules and borders, special indicators, and rules or strokes created by type-setting, photo-graphics, photocomposition, etc.

7 *Printed Form.* A form produced using conventional printing processes, photocopying, or other similar processes.

8 *Preprinted Pin-Fed Form.* A form printed beforehand by conventional methods on paper with marginal perforations for use with automated and/or high-speed printing equipment.

SEC. 3. SUMMARY OF CONTENTS

.01 MESSAGE TO TAX RETURN PREPARERS.

IF YOU PLAN TO CHANGE OR MODIFY *ANY* TAX FORMS, YOU MUST FOLLOW THESE INTERNAL REVENUE PROCEDURES. IN MOST CASES, *YOU MUST GET OFFICIAL APPROVAL BEFORE USING SUBSTITUTE FORMS.*

THE SERVICE IS CONTINUING A NATIONWIDE PROGRAM TO IDENTIFY AND CONTACT TAX RETURN PREPARERS USING UNAPPROVED FORMS.

.02 Additional information you may also need is contained in Rev. Proc. 80-47, page 782, this Bulletin. You can obtain this revenue procedure by (1) ordering it on the form included in Package X, Informational Copies of Federal Tax Forms, or (2) writing to: IRS Rev. Proc., P.O. Box 27322, Richmond, VA 23261. They are also obtainable at your local district office.

.03 THINGS YOU *CAN DO* TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS TO MAKE THEM SUITABLE FOR COMPUTER PREPARATION.

1 *You can PHOTOCOPY* any federal tax form or schedule and use it instead of the official one.

2 *You can REPRODUCE ANY CURRENT* form (or schedule) cut sheets, snap-sets, and marginally-punched pin-fed forms, so long as you use an official Service version as the master copy. An official version is one supplied by the Service, such as those in the taxpayer's tax package, those in Package X, reproduction proofs (sold by the Service), and those printed in revenue procedures.

3 *You can ADJUST* the graphics on printed Forms 1040, 1040A, 1120, 940, 941, etc., to allow for computer-printed or word processor fill-in. Only the areas listed in revenue procedures may be changed without prior approval.

4 *You can PRINT AND DUPLICATE* the substitute "worksheet-type" versions of Schedules A and B (shown as exhibits) in Rev. Proc. 80-47 when you need a "worksheet-type" format. The Service will accept these substitute schedules instead of the official versions. These schedules serve different purposes. One allows the form to contain a state tax column. (The state tax information must not be visible on the copy filed with the Service.) The other allows the form to be used singly or as part of a snap-set.

.04 THINGS YOU *CANNOT* DO TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS.

1 *You cannot* change any Internal Revenue Service form or use your own (non-approved) version, unless permitted by revenue procedures, without prior Service approval.

2 *You cannot* change any of the graphics on Forms 1040 and 1040A (except those specified in revenue procedures) without prior approval from the Service.

3 *You cannot* use your own version of Schedule A (Itemized Deductions) *UNLESS YOU FIRST GET IT APPROVED.* When using attachments to the official Schedule A, you must *COMPLETELY FILL OUT ALL REFERENCED (NUMBERED OR LETTERED) LINES OF THE OFFICIAL SCHEDULE A,* not just the total lines, but also the line items that make up the totals. In other words,

you may not enter just the totals for the various deduction categories, *i.e.*, "Medical," "Taxes," etc., and write "See Attached Schedule" across that part of the form. The Service wants only one Schedule A—either yours or an official version; yours needs prior approval from the Service.

4 *You cannot* use your own preprinted label on tax returns filed with the Service. The ONLY label permitted is the one provided the taxpayers in their tax packages. Otherwise, the taxpayer's name and address must be entered on the return in the spaces provided.

5 *Other items are also not permitted.* Please read the rest of this revenue procedure for details.

.05 THINGS YOU *CAN DO* TO FILE COMPUTER-PREPARED/GENERATED FORMS.

1 *You can* DUPLICATE the approved, computer-generated formats of Schedules A, B, C, D, E, F, G, R, RP, SE and TC (shown in the Exhibit Section of this revenue procedure) and use them without prior approval.

2 *You can* FILL IN official Internal Revenue Service supplied forms using computer or word-processing equipment. Internal Revenue Service forms are designed for a vertical spacing of six lines to the inch, with money amount columns wide enough to allow for the computer printing of ten characters.

3 *You can* CHANGE CERTAIN SPECIFIED AREAS on the Forms 1040 and 1040A (spelled out in the revenue procedures) to assist computer-printing requirements and to allow for a little more room on certain lines.

4 *Other items are also permitted.* Please read the rest of this revenue procedure for more details.

.06 THINGS YOU *CANNOT DO* TO INTERNAL REVENUE SERVICE FORMS.

1 *You cannot* use computer graphics on any Internal Revenue Service form without prior approval.

2 *You cannot* computer-generate the TAX FORMS THEMSELVES (i.e., forms requiring signatures; for example, Forms 1040, 1040A, 1120, 940, and 941). These forms must be preprinted using conventional printing processes, photocopying or similar reproduction processes. The forms may be filled in by a computer, by a word processor, or the like, but the forms themselves must be printed like the Service versions are. Forms designed using computer graphics may be submitted for approval.

3 *You cannot* use your own computer-generated version of any tax form that is to be attached to the tax return, unless permitted by revenue procedures, without prior Service approval.

4 *Other items are also not allowed.* Please read the rest of this revenue procedure for more details.

SEC. 4. SPECIFICATIONS FOR FILING SUBSTITUTE FORMS

.01 *Computer-Prepared Tax Forms.* For filing purposes the Service will accept computer-prepared tax forms (i.e., Forms 1040, 1040A, 1120, 940, 941, etc.) filled in by a computer or by word-processing equipment, but these forms MUST be pre-printed.

.02 *Computer-Generated Forms.* For filing purposes, the Service will accept computer-generated versions of forms that are attached to individual and business income tax returns, provided the substitutes and their manner of completion meet the guidelines prescribed herein.

.03 *Combination of Manually Prepared and Computer-Prepared/Generated Forms.* For filing purposes, the Service will accept substitute tax forms that contain a combination of computer-prepared/generated and manually filled in information.

SEC. 5. GENERAL INFORMATION

.01 *Approvals.*

1 *Guidelines.* Preparers who desire to file substitute computer-prepared forms and/or computer-generated forms must develop such substitutes using guidelines in revenue procedures. Substitutes other than those described here must be approved by the Service before being filed.

2 *Changes to Tax Forms.* Any person making changes to any tax form (EXCEPT THOSE ALLOWED BY REVENUE PROCEDURES) must obtain approval from the Service before filing the substitute.

3 *Mailing Address.* Proposed substitutes should be forwarded by letter to the Internal Revenue Service, Attention: Substitute Forms Program, TX: R:I, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

4 *When to Submit.* Proposed substitutes should be sent to the address in 3 above, as much in advance of the filing period for the form as possible. This is to allow adequate time for analysis and response and to permit notice to our field offices. Quarterly filed forms, such as the Form 941, must be submitted by the first day of the last month of the quarter.

5 *Required Statement.* When the sample substitute is submitted, there must also be an accompanying statement that lists the form number of each substitute requested and details those items that deviate from the official form in position, arrangement, appearance, line numbers, additions, deletions, etc. Included with each of the items must be a detailed reason or justification for the change and an approximation of the number of forms expected to be filed.

6 *Approval Letter.* Upon determination that approval can be given, the Service sends a formal letter of approval which also may contain qualifications for the substitute's use.

7 *Duration of Approval.* Approvals when granted are good for only one calendar year (January-December) or, in the case of corporation tax forms (with the exception noted below), for the remainder of the quarter of the calendar year.

PLEASE NOTE: Each new filing season requires a new approval, even if the official form does not change.

Exception: Forms in the 94X series (941, 942, etc.) are approved only for one quarter. Each new quarter requires a new approval from the Service.

8 *Required Copies.* Once an approval is granted for the use of a com-

puter-prepared or computer-generated substitute form, you may be requested to send the Service eleven (11) copies of each approved form. When requested, the form(s) must be assembled in sets and submitted to the Service so that we can notify our Service Centers of the approvals we have given. A set constitutes a return with the related schedules and forms in order as they will be filed, i.e., Forms 1040, Schedules A, B, C, D, etc., Form 2440, 2442, etc. We reserve the right to reject sets which are not assembled in the order specified.

SEC. 6. PHYSICAL ASPECTS AND REQUIREMENTS

.01 *Lined Paper.* Computer-generated substitute forms must be submitted on quality, lined, machine paper. Lined, color-barred paper is also acceptable. Lined paper assists Service employees during processing of the returns by allowing speedy location of tax entries corresponding to line captions. The lines provide the basic means for eye-travel from one side of the form to the other.

.02 *Margins.* A one-half inch margin must be maintained across the top, bottom, and both sides (exclusive of any pin-feed holes) of all computer-generated substitutes. One-half inch margins allow for slight printing misalignment when forms are prepared on high-speed equipment. The margin area is also used by Service employees to make necessary entries on the form during processing.

.03 *Page Size.* Computer-prepared/generated substitutes may be the same size as the official (8″ × 11″, in most cases) or they may be the standard commercial size (8½″ × 11″). Computer-generated forms must be on the same size paper as the tax form to which it is attached.

.04 *Prohibited Paper.* Carbon-bonded paper is prohibited from use for forms filed with the Service.

.05 *Chemical Transfer Paper—Limited Use.*

Chemical transfer paper may be used ONLY when the following specifications are met:

1 Each ply within the chemical-transfer set of forms must be labeled.

2 Only the top ply (ply one), the one which contains chemical on the back only (coated back), may be filed with the Service. For example, a set containing three plies would be constructed as follows: Ply one (coated back), "Federal Return, File with IRS"; Ply two (coated front and back), "Taxpayer's copy"; and Ply three (coated front), "Preparer's copy."

SEC. 7. CONDITIONS—TAX FORMS (1040A, 1040, 1120, 940, 941, ETC.)

.01 *PROHIBITED FORMS.*

1 *COMPUTER-GENERATED VERSIONS.* Computer-generated versions of a tax form which requires a signature are not permitted. Only preprinted substitutes of these forms are allowed.

2 *COMPUTER-GENERATED GRAPHICS.* Computer - generated graphics CANNOT be used on any form without prior approval.

.02 *FILL - IN INFORMATION.* The tax form itself (i.e., 1040, 1040A, 1120, 940, 941, etc.) may be filled in by a computer printer or other similar automated equipment, but the form itself must be created beforehand (i.e. preprinted) using conventional printing methods, photocopying or other similar reproduction processes.

.03 *CHANGES PERMITTED TO THE FORMS 1040 & 1040A.*

1 Certain changes (listed below) are permitted to the graphics of the form without prior approval, but these changes apply only to preprinted forms as described in .02 above.

2 Changes not requiring prior approval are good only for the filing period January through December 1981.

3 *OTHER CHANGES NOT LISTED.* All changes not listed here require prior approval from the Service *BEFORE* the form may be filed with the Service.

4 *OTHER FORMS NOT LISTED.* Other Internal Revenue Service forms, such as Forms W-2, 1087, 1099, and 1040-ES, are governed by different revenue procedures. These revenue procedures are available at your local district office.

SEC. 8. AGREEMENT

Any person who uses substitute forms and makes all or part of the changes specified in this revenue procedure, agrees to the following stipulation: The Service presumes the changes are made in accordance with these procedures and, as such, will be noninterruptive to the processing of the tax return. Should any of the changes prove to be not exactly as described, and as a result become disruptive to the Service during processing of the tax return, the preparer agrees to accept the determination of the Service as to whether or not the form may continue to be used during the filing season, and also agrees to work with the Service in correcting noted deficiencies. Notification of deficiencies may be made by letter, phone call or both.

SEC. 9. CHANGES PERMITTED TO THE GRAPHICS ON BOTH FORM 1040 AND 1040A AND, WHERE APPLICABLE, ON OTHER FORMS AS WELL (FOR USE WITH COMPUTER-PREPARED FORMS ONLY)

.01 *Adjustments.* You may make minor vertical and horizontal spacing adjustments to allow for computer or word-processing printing. This includes widening the amount columns or tax entry areas so long as the adjustments do not exceed other provisions stated in revenue procedures. No prior approval is needed for these changes. However, the user of forms with such changes are bound by the "Agreement" in Section 8.

.02 *NAME AND ADDRESS AREA.*

1 The horizontal rules and instructions within the name and address area may be removed and the entire area left blank; no line or instruction can remain in the area.

2 The heavy ruled border (when present) that outlines the name and address area must not be removed, relocated, expanded or contracted.

3 *Required Format.*

(a) When the name and address area is left blank, as provided in 1 above, the following format *MUST* be used when printing the taxpayer's name and address. Otherwise, unless the taxpayer's preprinted label is affixed over the information entered in this area, the lines must be filled-in as shown.

1st name line (35 characters maximum)

In-care-of name line (35 characters maximum)

Street address (35 characters maximum)

City, State (24 char. max.), one blank char., & zip (five char.)

(b) When there is no in-care-of name line, the name and address will consist of only three lines. Examples of the formats follow:

Example of name and address with NO in-care-of name line:

JOHN AND MARY JONES
1234 ANYWHERE ST. APT 111
ANYTOWN, VA. 12345

Example of name and address WITH in-care-of name line:

JOHN AND MARY JONES
C/O THOMAS A. JONES
4311 SOMEWHERE AVE.
SAMETOWN, VA. 54321

(c) YOU *MAY NOT* USE YOUR OWN PREADDRESSED LABEL ON ANY INTERNAL REVENUE SERVICE FORM.

(d) The *ONLY* label that may be used is the OFFICIAL INTERNAL REVENUE SERVICE LABEL SUPPLIED to the taxpayer in his/her tax package. Please use the official Internal Revenue Service supplied label to help reduce errors.

(e) For identification purposes, you may computer print the taxpayer's name and address on the form and afterward affix the OFFICIAL INTERNAL REVENUE SERVICE SUPPLIED LABEL over the computer printed address. This applies whether or not the horizontal rules and the instructions have been removed.

.03 *SOCIAL SECURITY NUMBER (SSN) AND EMPLOYER IDENTIFICATION NUMBER (EIN) AREA.*

1 The vertical lines separating the format arrangement of the SSN/EIN may be removed.

2 When the vertical lines are removed, the SSN and EIN formats must be 000-00-0000 and 00-0000000, respectively.

.04 *CENSUS INFORMATION.* When present, this area may be vertically compressed into two lines; one for captions and one line below for computer entries. The areas A-D (Forms 1040 and 1040A) must NOT be rearranged or relocated. You may remove the vertical dash-leader in section A that separates "State" and "City." Captions may be shortened to fit in the space but sufficient "key words" must be used to identify the items requested.

.05 *CENTS COLUMNS.*

1 You may remove the vertical rule that separates the dollars from the cents.

2 All entries in the amount column must have a decimal point following the whole dollar amounts whether or not the vertical line that separates the dollars from the cents is present.

3 You may omit printing the cents, but all amounts entered on the form must follow a consistent format. YOU ARE STRONGLY URGED TO ROUND OFF THE FIGURES TO WHOLE DOLLAR AMOUNTS.

4 When printing money amounts, you must use one of the following ten-character formats:

(a) 0,000,000.
(b) 000,000.00

5 When there is no entry for a line, leave the line blank.

.06 *PAID PREPARER'S INFORMATION AREA.*

1 On all forms, where present, the paid preparer's information area may NOT be rearranged or relocated.

2 You may add one line to the preparer's address area.

SEC. 10. CHANGES PERMITTED TO FORM 1040A GRAPHICS (for use with computer-printed forms only)

.01 *LINE 4.*

This line may be compressed vertically to one line (to allow for a larger entry area for the name of the qualifying unmarried child) by using the following line caption:

"Head of household; unmarried child's name. . . . . ."

.02 *LINE 5d.*

1 The vertical lines separating columns (1) through (5) may be removed.

2 The number of lines for listing "other dependents" may be expanded to a maximum of 5.

.03 *LINE 9a (and 9b).*

These lines may be changed to allow larger amount entry fields by removing references to instructions.

.04 *LINE 11.*

This line may be vertically compressed to one line by using the following line caption:

"Adjusted Gross Income."

.05 *LINES 12a, 12b, 14a, 14b, and 17.*

These lines may be vertically compressed to one line by removing references to instructions.

SEC. 11. MARGINAL PRINTING

You may print your logo, company or firm name, identifying and collation symbols, etc., in the top left margin of the form. The area you may use extends vertically from the top of the Form 1040A title designation to the top edge of the form and horizontally 3½ inches from the left edge.

SEC. 12. OTHER CHANGES PROHIBITED

NO OTHER CHANGES TO THE FORM 1040A GRAPHICS ARE ALLOWED WITHOUT PRIOR APPROVAL.

SEC. 13. CHANGES PERMITTED TO THE FORM 1040 GRAPHICS (FOR USE WITH COMPUTER-PREPARED FORMS ONLY)

.01 *LINE 4.* This line may be compressed horizontally (to allow for a

larger entry area for the name of the qualifying unmarried child) by using the following line caption:

"Head of household; unmarried child's name."

.02 *LINE 6d.*

1 The vertical lines separating columns (1) through (5) may be removed. The captions may be shortened to allow a one-line caption for each column.

2 The number of lines for listing "other dependents" may be expanded to a maximum of 5 by compressing other noted areas listed here.

.03 *LINES 10a and 10b.* This line may be horizontally compressed to allow for larger entry fields for Dividends and Exclusions by the use of the following line caption (on one line):

"10a Dividends . . . (15 char.) . . . 10b Exclusion . . . (15 char.)."

.04 *LINE 11.* This line may be vertically compressed to one line by using the following line caption:

"State and local income tax refunds."

.05 *LINES 20a and b.* These lines may be compressed horizonally and vertically to allow a larger entry field for "total received" and to make a two-line entry on one line by using the following caption:

"a. Total unempl. comp. rec'd (10 char.) b. Taxable amt."

.06 *LINE 21.*

1 This line may be expanded vertically to a maximum of 4 lines.

2 The amount entry box must remain a single entry and the cross-hatched shading must extend down the numbered line box by the same number of lines you add.

.07 *LINE 31.* This line may be vertically compressed to one line by removing references to instructions.

.08 *LINE 35.* You may change the line caption to read "Tax" and computer-print either the words "FROM TAX TABLES" or "FROM SCHEDULE TC."

.09 *LINE 36.* You may change the caption to read:

"Additional taxes from Form/Section" and computer-print only the form(s) or/and section number that apply.

SEC. 14. OTHER CHANGES PROHIBITED

NO OTHER CHANGES TO THE FORM 1040 GRAPHICS ARE PERMITTED WITHOUT PRIOR APPROVAL.

SEC. 15. ACCEPTABLE FORMATS — COMPUTER-GENERATED FORMS AND SCHEDULES

.01 *Exhibits of Acceptable Formats for Form 1040 Schedules.*

1 Exhibits of acceptable computer-generated formats for the schedules usually attached to the Form 1040 are shown in the Exhibits section of this revenue procedure. The exhibits are for Schedules A, B, C, D, E, F, G, R, RP, SE, and TC.

Because a substitute form is a variation from the official form, you should know the requirements of the official form before you modify it to meet your needs. For the most frequently used tax forms, the quickest way to obtain an official form is to request reproduction proofs of these forms. Reproduction proofs can only be ordered by using Form M-5368, Order for Reproduction Proofs. Form M-5368 can be obtained in two ways: (1) by written request to Internal Revenue Service, RM:FM:P, Room 1528, 1111 Constitution Ave., N.W., Washington, D.C. 20224, or (2) by telephone request (at your expense) to the Reproduction Proof Coordinator at (202) 566-2473.

2 *Use of Acceptable Formats.* If your computer-generated forms appear exactly like the exhibits, no prior authorization is needed.

3 *CHANGES TO EXHIBITS NOT PERMITTED WITHOUT PRIOR APPROVAL.* Any change to the text or format of any of the exhibits requires PRIOR WRITTEN APPROVAL.

SEC. 16. COMPUTER - GENERATED FORMS NOT SHOWN AS EXHIBITS IN THIS REVENUE PROCEDURE

.01 Persons or companies desiring to change the computer-generated forms shown as exhibits MUST obtain prior approval before use.

.02 Those desiring to computer-generate forms not shown here may do so, but they must design such forms themselves by following the manner and style of those in the Exhibits section of this publication and by taking care to observe other requirements and conditions stated here.

.03 Computer-generated forms so designed DO NOT require prior approval from the Service. However, the user of such forms is bound by the "Agreement" in Sec. 8 above.

.04 If you wish, you may submit any substitute form to the Service for approval consideration.

SEC. 17. INSTRUCTIONS FOR PREPARING COMPUTER-GENERATED SUBSTITUTES

.01 *Format Arrangement.*

The format of each substitute schedule must follow the format of the official schedule as to item caption, line reference, line numbers, sequence, form arrangement and format, etc. Basically try to make the form look like the official one, with readability being a primary factor. Use periods and/or other special characters to separate the various parts and sections of the form. With the exceptions in .02 below, all line numbers and items must be printed even though an amount is not entered on the line.

.02 *Exceptions.*

1 *Zero Entries.* Detailed information for any deduction or income category may be omitted from the printout if the category total to be reported is zero. However, the substitute form must show the total (zero when applicable) for each category.

2 *Lines Captioned "Other."* It is not necessary to fill in every numbered or referenced line of forms when the line caption calls for "Other," e.g., "Other (itemize)," "Other (specify)," "Other (attach schedule)," etc. Examples of this exception are lines 6c, 15, 19, 21b and 31 for Schedule A (Form 1040). When this occurs, a supporting statement may be used and only the total amount of these "Other" items

entered on the line of the official form. However, we prefer that the space on the official form be used when it is adequate.

3 *Schedule A (Form 1040).* All numbered and lettered lines must be filled in, if applicable. Supporting statements may be used to give the details of the totals entered on such lines but may not be used as a substitute for a collection of lines. For example, the detailed information for "Taxes" may not be shown on a supporting statement (supplemental schedule) and only line 16 filled in; but the details of "state and local income taxes" may be shown on a supporting statement and the total of such taxes entered on line 11. Also, lines 33 through 38 need not be shown, but the total of itemized deductions must be shown on line 39.

4 *Schedule B (Form 1040).* Lines 1 and 3 need not be filled in on the form. A supporting statement may be used for the details of interest and dividend income and the appropriate totals of such income entered on lines 2 and 4 unless nominee distribution or accrued interest criteria apply. (See the tax package instructions concerning interest.)

5 *Schedule C (Form 1040).* All lines on page 1 must be filled in when applicable except the line where "Other expenses (specify)" is listed. (See instruction 2 above.) All information for Schedule C-1 must be entered. Schedule C-2 information may be entered on a supporting statement so long as the method of depreciation used (if any) is entered on the form in column (e). Schedule C-3 information may be shown on a supporting statement and not entered on the form.

6 *Schedule E (Form 1400).*

(a) When there are entries on page 1 for any of the Parts I and IV, the following requirements and/or questions must be answered and tax information must be entered on the lines provided, in Part II, lines 5a through 6b, the question boxes must be answered; if the answer to question 6a is "yes," the amortizable basis must be entered on line 6b. Be sure there is a place on line 6b for the amount.

(b) Supporting statements may be used for the details of rental income and expenses and for royalty income. The appropriate totals must be carried to line 7, columns (b) through (g).

(c) The income and loss from various partnerships, estates or trusts, and small business corporations also may be detailed on a supporting statement, but the appropriate total income and total loss must be entered on lines 10 through 18 and also on line 19 when applicable.

(d) Page 2 need not be used so long as the information is provided on a supporting statement. The supporting statement must show the details required by the form.

7 *Schedule F (Form 1040).* Depending on which accounting method is used (cash or accrual), all of parts I and II or II and V must be printed in their entirety.

.03 *Vertical Alignment of Amount Fields.* Vertically align the amount entry fields where possible.

.04 *Line Numbers.*

1 When a line on an official form is designated by a number or a letter, that designation (reference code) must be used on a computer-generated substitute form.

2 The reference code must be printed to the left of the corresponding captioned line and also immediately preceding the data field even if there is no reference code immediately preceding the data field on the official form.

3 In addition, the reference code that is immediately before the data field must be either followed by a period or enclosed in parentheses. There also must be at least two blank spaces between the period or the right parenthesis and the first character of the data field. (See example in 4 below.)

4 A decimal point (i.e., a period) must be used for each money amount regardless of whether the amount is reported in dollars and cents or in whole dollars or whether or not the vertical line that separates the dollars from the cents is present. The decimal points must be vertically aligned when possible.

Example:

12 Real Estate _____	12.	495.00
13 General Sales _____	13.	
14 Personal Property __	14.	198.00
or		
12 Real Estate _____	(12)	496.00
13 General Sales _____	(13)	
14 Personal Property __	(14)	198.00

.05 *Sequence Numbers.*

1 Please note that certain forms have a newly added "sequence number" located in the upper right hand corner of official forms. On computer-generated forms, place this sequence number following the year designation for the tax form and separate with an asterisk. (Example. 1980 * 08)

2 The affected forms and their respective sequence numbers follow:

Please note that some of the numbers have been changed since the 1979 tax forms.

Form 1040 Schedule/Form	*Sequence Number*
A	08
C	09
D	15
E	16
F (front)	17
F (reverse)	18
G	21
R and RP	22
SE	23
2119	25
2440	26
2441	27
2555	36
3468	28
4136	29
4136-T	29
4625	30
4726	31
5329	32
5695	34
6251	35

.06 *Multiple Page Forms.* With the exceptions noted above, when printing multiple page forms and no entries are present in an entire section of the form, you may omit printing the line numbers, captions, etc. by following these rules:

1 the section title/description must be printed

2 skip one blank line following the title/description

3 on the second print line print the following statement: SECTION/PART XX DOES NOT APPLY

4 skip one blank line, and

5 begin the next section.

SEC. 18. ADDITIONAL INSTRUCTIONS FOR ALL FORMS

.01 Internal control numbers and identifying symbols of the computer preparer may be shown on the substitute, if the use of such numbers or symbols is acceptable to the taxpayer and the taxpayer's representative. If shown, such information *must not* be printed in the top one-half inch clear area, from the center to the right edge, of any form or schedule requiring a signature.

With the exception of the actual tax return form (i.e., Forms 1040, 1120, 940, 941, etc.) you may also print in the left vertical and bottom left margins. The bottom left margin you may use extends 3½ inches from the left edge of the form.

.02 Descriptions for captions, lines, etc., appearing on the substitute forms may be limited to one print line by using abbreviations and contractions and by omitting articles, prepositions, etc. However, sufficient key words must be retained to permit ready identification of the caption, line or item.

1 Explanatory details and/or intermediate calculations for derivation of final line totals, may be included on the substitute. We prefer that such calculations be submitted in the form of a supporting statement. If intermediate calculations are included on the substitute, the lines on which they appear may not be numbered or lettered. Intermediate calculations may not be printed in the right column. This column is reserved for official numbered and lettered lines that correspond to the ones on the official form. If a supporting statement is submitted, intermediate calculations or subtotals may be formatted at the preparer's option.

All supporting statements submitted must be referenced to the schedule entry which it supports, and the entry on the schedule, in turn, must be cross-referenced to the supporting statement. However, all total lines on supporting forms must have a total printed. This total must be carried forward from any supporting statements.

2 Text prescribed for the official form, which is solely instructional in nature, e.g., "Attach this schedule to Form 1040," "See instructions," etc., may be omitted from the substitute form.

3 Information for more than one schedule *may not* be shown on the same printout page without prior approval from the Service. Except for computer-generated Schedules A and B (Form 1040), any form may be continued on two or more pages if necessary. When a form is continued on two or more pages, clearly identify at the bottom of each page, including page 1, that it is continued, e.g., "page 1, Schedule C continued." **It is strongly recommended that a substitute form not exceed the same number of pages used for the official form.**

4 Identify all computer-prepared substitutes clearly; print the form designation one-half inch from the top margin and one and one-half inches from the left margin; print the title centered on the first line of print; and print the taxable year and, where applicable, the sequence number on the same line one-half to one inch from right margin. Include the taxpayer's name and SSN on all forms and attachments.

5 State tax information must not appear on the federal tax return which is filed with the Internal Revenue Service Center, except where amounts are claimed as a state tax deduction, e.g., line 11, Schedule A (Form 1040).

The state column may be present, but the state tax information must NOT be visible on the copy filed with the Service. When a form is designed with both federal and state columns, *THE FEDERAL COLUMN MUST BE TO THE LEFT OF THE STATE COLUMN AND ADJACENT TO THE LINE CAPTION.*

6 Use the preaddressed label supplied with the taxpayer's tax package on all computer-prepared substitute forms that will be filed with the Service. Use of the label avoids larger processing costs because it reduces the potential for error—the kind of error which can delay the receipt of refund and information needed by the taxpayer.

7 When filing substitute computer-prepared or computer-generated schedules, use the envelope enclosed with the taxpayer's tax package. This envelope is coded for sorting into several categories. Use of the coded envelope can help speed up the processing of the return and reduce processing costs. Use of the Service provided tax package envelope for other correspondence with the Service could delay the correspondence.

8 Attach all schedules in alphabetical order and forms in numerical order followed by supporting statements. The sequence of information on supporting statements must be the same order as the items appear on the form(s) to which it is referenced.

9 Additional information required or voluntarily submitted should be on the same size paper as the official form and attached to the return following the supporting statements.

10 Attach all payments (checks or money order, no cash) to the front of the tax return.

11 Reproductions must have a high standard of legibility, both as to original form and as to fill-in matter. The Service reserves the right to reject any computer-generated or computer-prepared substitutes or related forms that have poor legibility or that do not meet the specifications of this revenue procedure.

SEC. 19. FILING SUBSTITUTE FORMS WITH IRS

Follow the same instructions as for filing official forms. These instructions are in the taxpayer's tax package.

SEC. 20. EFFECT ON OTHER DOCUMENTS

This revenue procedure supersedes Rev. Proc. 79-58, 1979-2 C.B. 549.

(Also Part I, Section 2032A; 20.2032A-8.)

Rev. Proc. 80-49

SECTION 1. PURPOSE

The purpose of this revenue procedure is to outline the procedure for electing to value less than all qualified real property in a decedent's gross estate under section 2032A of the Internal Revenue Code where an election to value all the qualified real property under section 2032A was previously made on or before August 30, 1980.

SEC. 2. BACKGROUND

.01 Section 2032A of the Code provides that, under certain conditions, an executor may elect to value real property included in a decedent's gross estate which was used as a farm or a closely held business at a value based upon its current use rather than at its full fair market value. This election must be made no later than nine months after the decedent's death (unless an extension of time to file the estate tax return is granted) pursuant to section 2032A(d)(1).

.02 Prior to the publication of section 20.2032A-8(a)(2) of the Estate Tax Regulations on July 31, 1980, it was unclear whether an election could be made to value less than all qualified real property included in an estate. That regulation clarifies the issue by permitting such an election, provided the threshold requirements of section 2032A(b)(1)(B) of the Code have been met by property actually valued under section 2032A.

.03 Those executors who made an election on or before August 30, 1980, to value all qualified real property included in a decedent's estate at its current use value may now want to withdraw a portion of that property from section 2032A treatment. Such a change is a partial revocation of the section 2032A election.

.04 Section 20.2032A-8(a)(1) of the regulations provides that once made, an election is irrevocable. However, section 20.2032A-8(d) provides an exception to this general rule. Elections to use section 2032A of the Code made on or before August 30, 1980, may be revoked. The deadline for filing a notice of revocation is January 31, 1981 (six months after the publication of section 20.2032A-8 in the Federal Register). However, if the period of limitations for assessments for the affected estate (normally three years and nine months from date of death) will expire earlier than January 31, 1981, such expiration date is the last day for filing the notice of revocation.

.05 Provided the threshold requirements of section 2032A(b)(1)(B) of the Code will be met following the revocation, a revocation may be made as to part of the qualified property. A partial revocation is made by filing a notice of revocation and paying any additional estate tax and interest due. The notice must contain the decedent's name, date of death, and taxpayer identification number.

Appropriate revised schedules should be attached showing the property for which the election is being made and the tax recomputation. If the partial revocation results in a decrease in tax, the executor should, in addition, file a claim for refund for the amount of refund to which the estate is entitled. Such a reduction may result for example, if after the partial revocation, the remaining specially valued property satisfies the requirements for valuation based under section 2032A(e)(7), but section 2032A(e)(8) was used prior to the revocation. *See* section 20.2032A-8(d) of the regulations for the requirement concerning the filing of an amended return to conform an election.

.06 As a result of the revocation the agreement required under sections 2032A(b)(1)(D) and (d)(2) of the Code must be conformed to specify by legal description the property which remains subject to section 2032A.

SEC. 3. EFFECTIVE DATE

Section 2032A of the Code is restricted to estates of decedents dying after December 31, 1976. This revenue procedure applies only to executors desiring to make partial revocations for estates where the original election under section 2032A was made on or before August 30, 1980. The notice of revocation must be filed by January 31, 1981 (six months after the publication of section 20.2032A-8 in the Federal Register). However, if the period of limitations for assessments for the affected estate will expire (normally three years and nine months from date of death) earlier than January 31, 1981, such expiration date is the last day for filing the notice of revocation.

(Also Part I, Section 412.)

Rev. Proc. 80-50

SECTION 1. PURPOSE

This revenue procedure provides approval for certain defined benefit pension plans to change the funding method for plan years described in Section 7.

SEC. 2. BACKGROUND

Section 412(c)(5) of the Internal Revenue Code, as amended, and section 302(c)(5) of the Employee Retirement Income Security Act of 1974 (ERISA), Pub. L. 93-406, 1974-3 C.B. 1, 40, state that if the funding method of a plan is changed, the new funding method shall become effective only if the change is approved by the Secretary.

SEC. 3. APPROVAL FOR SPECIFIED CHANGES

Except as restricted by Section 6 of this revenue procedure, approval is granted to the following:

.01 Approval 1—A change to either of the three Aggregate Methods described in sections 3.01(1), 3.01(2) or 3.01(3).

(1) The normal cost is computed in the aggregate as the normal cost accrual rate multiplied by compensation. The normal cost accrual rate is (A) the present value of future benefits less adjusted assets divided by (B) the present value of future compensation.

(2) The normal cost is computed in the aggregate as the normal cost per participant multiplied by the number of participants who are currently employed by employers maintaining the plan. The normal cost per participant is (A) the present value of future benefits less adjusted assets divided by (B) the sum of the present value of an annuity of $1 per year payable from the attained age to retirement age for each participant who is currently employed.

(3) The normal cost is computed in the aggregate as (A) the present value of future benefits less adjusted assets divided by (B) a temporary annuity factor. The temporary annuity factor is the present value of future individual level premium normal costs divided by the current year's individual level premium normal cost. For purposes of this subsection, the individual level premium normal cost for each participant is the sum of the level amounts to fund each increment of projected benefit from the attained age at which the increment occurs to the anticipated retirement age.

(4) In methods (1), (2), and (3), for purposes of section 412 of the Code, the assets are adjusted by subtracting any credit balance in the funding standard account or adding any funding deficiency. For purposes of section 404, the assets are adjusted by subtracting any undeducted contributions. Also, all existing amortization bases under sections 404 or 412 shall be considered fully amortized.

.02 Approval 2—A change to an Individual Aggregate Method that satisfies paragraphs (1), (2), (3), (4) and (5) of this subsection.

(1) The normal cost is the sum of individual normal costs for each participant for whom a normal cost is determined. The normal cost for a participant is (A) the present value of future benefits less allocated adjusted assets, divided by (B) a temporary annuity factor from attained age to the anticipated retirement age. (The temporary annuity factor may also be determined as the present value of future compensation for the participant divided by current compensation.)

(2) For purposes of section 412 of the Code, prior to the allocation of assets each year the assets are adjusted by subtracting any credit balance in the funding standard account or adding any funding deficiency. For purposes of section 404, any undeducted contributions are subtracted from the assets. Also, if the plan retains the liabilities for any participant or beneficiary for whom a normal cost is not computed, the assets are adjusted by subtracting the present value of such liabilities.

(3) In the first year the method is used, the adjusted assets are allocated on the basis of the present value of accrued benefits, the present value of future benefits, or the accrued liability under a funding method of the immediate gain type.

(4) After the first year the method is used, adjusted assets are allocated in the proportion that the sum of the allocated assets plus calculated normal cost of the prior year for each participant for whom a normal cost is computed bears to the total for all such participants.

(5) In the first year the method is used, all unamortized bases under sections 404 and 412 of the Code will be considered fully amortized.

.03 Approval 3—A change to a method described in paragraphs (1) or (2) if the requirements in paragraphs (3), (4), and (5) are also satisfied.

(1) The normal cost is computed in the aggregate as the normal cost accrual rate multiplied by compensation. The normal cost accrual rate is (A) the present value of future benefits less assets less unfunded liability divided by (B) the present value of future compensation.

(2) The normal cost is computed in the aggregate as the normal cost per participant multiplied by the number of participants who are currently employed by employers maintaining the plan. The normal cost per participant is (A) the present value of future benefits less assets less the unfunded liability divided by (B) the sum of the present value of an annuity of $1 per year payable from the attained age to retirement age for each participant who is currently employed.

(3) As of the date of change, the unfunded liability under the new method is determined under an acceptable funding method of the immediate gain type.

For years subsequent to the plan year of the change in method, the unfunded liability for any year equals

(A) the unfunded liability for the prior plan year plus the normal cost for the prior plan year, minus

(B) the actual contributions for the the prior plan year

where the amounts in (A) and (B) are adjusted with interest to the date as of which the unfunded liability is determined.

(4) The new amortization base resulting from the change in funding method is the difference between

(A) the unfunded liability under the new method as determined under 3.03(3), and

(B) the net sum of the outstanding balance of all amortization bases (including the gain or loss base for the immediately preceding period), treating credit bases as negative bases, less the credit balance (or plus the funding deficiency) in the funding standard account.

(5) The amortization period for the new amortization base for purposes of sections 302 of ERISA and 412 of the Code is as follows:

(A) If the plan was in existence on January 1, 1974, any decrease in unfunded liability will be amortized over 40 years reduced by the number of prior plan years to which section 302 has applied, and any increase will be amortized over 30 years.

(B) If the plan was not in existence on January 1, 1974, any increase will be amortized over 30 years reduced by the number of prior plan years to which section 302 has applied, and any decrease will be amortized over 30 years.

SEC. 4. APPROVAL FOR TAKEOVER PLANS

.01 Approval is granted by this sub-

section for a change in funding method where all the conditions set forth in subsections .02 through .05 are satisfied.

.02 There has been both a change in the enrolled actuary for the plan and a change in the business organization providing actuarial services to the plan.

.03 The method used by the new actuary is substantially the same as the method used by the prior actuary, and is consistent with the information contained in the prior actuarial valuation reports or prior Schedule B's of Form 5500. Also, the method used by the new actuary must be applied to the prior year (using the assumptions of the prior actuary) and the net charge in the funding standard account produced must not differ by more than five percent from the net charges computed by the prior actuary for that year.

.04 The new enrolled actuary signs and attaches a statement to Schedule B of Form 5500 that the procedures and formula currently being used may produce different results from the prior procedures and formula, but that information is not available to reproduce the prior method exactly.

.05 The change in costs due to the change in method is treated in the same manner as an experience gain or loss, unless the actuarial assumptions are being changed, in which case the change in method is treated as part of the change in assumptions.

SEC. 5. CHANGE IN YEAR OF TERMINATION

.01 For a plan year beginning before a plan terminates, the funding method may be changed to a method that satisfies subsection .02 provided that the conditions set forth in subsection .03 are satisfied. As part of the change in method, the valuation date may be changed, if desired, to the date of termination, or the asset valuation method may be changed to fair market value.

.02 A method is described in this subsection if the normal cost for the plan year is the present value of the benefits accruing in the plan year under the method, and the accrued liability is the present value of the benefits accrued under the method as of the valuation date.

.03 The conditions in this subsection are satisfied if:

(1) as of the date of termination as approved by the Pension Benefit Guaranty Corporation (PBGC), the fair market value of the assets of the plan is not less than the present value of all accrued benefits (whether or not vested). The actuarial assumptions used for determining such present value must be acceptable to PBGC for use under section 4044 of ERISA, *supra*, at 194; and

(2) a timely notice of intention to terminate was filed with the PBGC.

SEC. 6. RESTRICTIONS

.01 This revenue procedure does not apply unless an actuarial valuation is made for the plan year for which a change in method is effective, and such valuation is used for purposes of section 302 of ERISA for such plan year.

.02 This revenue procedure does not apply unless the plan administrator or plan sponsor signs and attaches a statement to Schedule B of Form 5500 for the plan year for which a change is effective stating that the plan administrator or plan sponsor agrees to the change in funding method which is being made as approved by this revenue procedure.

.03 This revenue procedure does not apply if:

(1) The funding method (including the asset valuation method) is being changed in any manner other than that described above.

(2) A waiver of the minimum funding standards has been granted for the plan or the amortization charge described in section 412(b)(2)(C) of the Code is applicable in the plan year of the change.

(3) Except as described in Section 5, the change is made for a plan year in which the plan is terminated.

.04 The approvals under sections 3.01(1), 3.02(1), and 3.03(1) do not apply if the temporary annuity factor is weighted by compensation but the plan benefits are not based on compensation.

.05 Section 4 does not apply to any plan for any plan year beginning on or after the date final regulations under section 6059 of the Code are adopted.

.06 This revenue procedure does not apply for any plan year if Schedule B of Form 5500 has been filed or if the date (without extension) by which it must be filed has passed.

SEC. 7. EFFECTIVE DATE

This revenue procedure is effective for changes in funding methods made with respect to plan years commencing on or after July 1, 1979, and before January 1, 1986.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Sections 446, 481; 1.446-1, 1.481-1.)

Rev. Proc. 80-51

SECTION 1. PURPOSE

The purpose of this revenue procedure is to provide general procedures under section 1.446-1(e) of the Income Tax Regulations for obtaining the consent of the Commissioner of Internal Revenue to requests for changes in methods of accounting for federal income tax purposes.

This revenue procedure modifies and/or supersedes Rev. Proc. 70-27, 1970-2 C.B. 509; Rev. Proc. 71-16, 1971-1 C.B. 682; Rev. Proc. 71-16 Amendment I, 1971-2 C.B. 527; Rev. Proc. 72-24, 1972-1 C.B. 749; Rev. Proc. 74-51, 1974-2 C.B. 507; Rev. Proc. 75-18, 1975-1 C.B. 687; and Rev. Proc. 76-8, 1976-1 C.B. 547.

SEC. 2. BACKGROUND

.01 Section 446(e) of the Internal Revenue Code and section 1.446-1(e) of the regulations provide that in order to change a method of accounting for federal income tax purposes, the taxpayer must obtain the consent of the Commissioner. Section 1.446-1(e)(3)(i) requires that in order to obtain such consent, an application must be made within 180 days after the beginning of the taxable year in which the

proposed change is requested to be made. Section 1.446-1(e)(3)(ii) authorizes the Commissioner to prescribe administrative procedures setting forth the limitations, terms, and conditions deemed necessary to permit a taxpayer to obtain consent to a change in its method of accounting in accordance with section 446(e).

.02 Section 481(a) of the Code requires that those adjustments necessary to prevent amounts from being duplicated or omitted be taken into account when the taxpayer's taxable income is computed under a method of accounting different from the method used to compute taxable income for the preceding taxable year. Section 481(c) and section 1.481-5 of the regulations provide that the adjustment required by section 481(a) may be taken into account in determining taxable income in the manner and subject to the conditions agreed to by the Commissioner and the taxpayer.

.03 Methods of accounting should clearly reflect income on a continuing basis, and the Internal Revenue Service administers its discretion under sections 446(e) and 481(c) of the Code so that, in general, any distortion of income on an annual basis is minimized. When there is a change in method of accounting, income for the year preceding the year of change must be determined under the method of accounting that was then employed, and income for the year of change and the following years is determined under the new method of accounting. The section 481(a) adjustment, while necessary to prevent duplications or omissions of income or deductions, by its nature is distortive since it does not reflect the economic income of the year. An adjustment period for the section 481(a) adjustment is provided for in sections 5.05 and 5.06 of this revenue procedure and is intended to reduce the possibility of a change in method of accounting from itself creating a material distortion in income in the year of change and to reduce any distortion when it does exist. Also, amounts attributable to changes in methods of accounting are taken into account in determining earnings and profits in a manner consistent with the provisions of this revenue procedure.

.04 While the adjustment period is designed to ameliorate, at least in part, the otherwise distortive effect of the section 481(a) adjustment, the Service believes that in order to further compliance with proper methods of accounting, situations exist when allowing an adjustment period of more than 1 year is not appropriate. In such cases, a period of only 1 year is available. (See section 4.012 of this revenue procedure.) Similarly, the Service believes that certain situations exist when it is not appropriate to allow more than a 5-year period. (See section 5.11.) In addition, the Service believes as a general matter that it is appropriate that the adjustment period not be greater than the period that gave rise to the section 481(a) adjustment. (See section 5.06.)

SEC. 3. CHANGES

.01 This revenue procedure contains several major changes and amplifications in the procedures for obtaining the Commissioner's consent to a change in method of accounting. These changes and amplifications are made to encourage compliance with proper methods of accounting when a taxpayer is determining taxable income in accordance with one or more methods of accounting that are proscribed by the Code, regulations, decisions of the Supreme Court of the United States, revenue rulings and revenue procedures. This section highlights the major changes and amplifications.

.02 Section 4.012 provides new procedures that preclude a taxpayer that is using a Category A method of accounting from applying for a change in such method of accounting under this revenue procedure after the taxpayer is contacted in any manner by a representative of the Service for the purpose of scheduling an examination. A Category A method of accounting is defined in section 6.02 as a method of accounting that is specifically not permitted by the Code, regulations, or by a decision of the Supreme Court of the United States.

.03 Section 5, in general, amplifies the procedures to be followed in requesting consent to change a method of accounting.

.04 Section 5.02 expands the rules and procedures to be followed when a taxpayer files an application for change in method of accounting before and after the first 180 days of the taxable year for which the change is requested. Early applications filed up to 6 months before the beginning of the taxable year of change will be processed in accordance with section 5.03 of this revenue procedure. Late applications not accepted by the Service under the provisions of section 1.9100-1 of the regulations may be considered to apply to the subsequent taxable year.

.05 Section 5.06 explains the section 481(a) adjustment periods for the purpose of taking into account the appropriate adjustment resulting from the change in method of accounting. These adjustment periods are similar to the "spread periods" referred to in Rev. Proc. 80-5, 1980-1 C.B. 582. The period of years over which a section 481(a) adjustment is to be made now depends upon the facts and circumstances in each case. However, the adjustment period may not exceed 10 taxable years and in some cases may be 1 taxable year.

.06 Section 5.10 eliminates the 20-year adjustment period provided for by Rev. Proc. 71-16, Rev. Proc. 71-16, Amendment I, and Rev. Proc. 72-24, with respect to the discontinuance of the last-in, first-out (LIFO) inventory method. The adjustment period over which the section 481(a) adjustment is to be taken will be determined under the rules set forth in section 5.06. The adjustment period will not exceed 10 taxable years and once the change has been made to discontinue the use of the LIFO inventory method the taxpayer will be required to stay on the new method of accounting for a period

of at least 10 taxable years unless the Commissioner consents to a change at an earlier time.

.07 Sections 5.11, 10.02 and 11.03 modify and supersede Rev. Proc. 74-51 and allow an adjustment period for the section 481(a) adjustment of up to 5 taxable years with respect to certain changes to the full absorption method of inventory costing prescribed by section 1.471-11(a) of the regulations. During the transition period prescribed by section 1.471-11(e)(3), taxpayers were allowed an adjustment period not to exceed the lesser of 10 taxable years commencing with the year of transition or the number of years the taxpayer had been on the inventory method from which it was changing. Since the transitional rules of section 1.471-11(e) do not apply to taxable years beginning after September 19, 1975, the Service issued Rev. Proc. 74-51 to prevent taxpayers from applying under Rev. Proc. 70-27 for an adjustment period that would tend to frustrate the purpose of the transitional rules. Rev. Proc. 74-51 modified Rev. Proc. 70-27 to provide that it will not apply to a taxpayer changing to the full absorption method of inventory costing as required by section 1.471-11(e)(1)(i). Now, applications filed in accordance with the procedures set forth in Rev. Proc. 75-40, 1975-2 C.B. 571, will be allowed an adjustment period of up to 5 taxable years.

.08 Section 5.12 modifies the procedures that apply to taxpayers under examination by providing that a taxpayer using a Category B method of accounting (defined in section 6.03) may change its method of accounting while under examination. However, certain conditions (such as year of change) are imposed, and in the case of certain types of changes of methods of accounting (generally those designated by a revenue ruling or revenue procedure) the adjustment period is limited to 5 taxable years.

.09 Section 5.121 changes the year of change for which a change is granted with respect to taxpayers under examination. If the method being changed involves an issue raised by the Service during such examination, the year of change will be the most recent taxable year that is being examined by the Service, but not later than the most recent taxable year for which a federal income tax return has been filed as of the date such examination began.

.10 Section 11 is a new provision that sets forth the effective dates. Generally the provisions of this revenue procedure will be effective on December 1, 1980. However, except for changes in method of accounting to which Rev. Proc. 80-5 and Rev. Proc. 74-51 applied, the provisions of sections 4.012 and 5.12 are effective with respect to applications for change in accounting method (Form 3115) filed on or after December 1, 1982. Special effective dates are provided with respect to the elimination of the 20-year adjustment period provided when LIFO is discontinued and for the allowance of a 5-year adjustment period when changing the full absorption method of inventory costing.

SEC. 4. SCOPE

.01 This revenue procedure applies to Form 3115, Application for Change in Accounting Method, filed by all taxpayers except those cases:

1 Under examination by the Service in which the year or years under examination encompass the taxable year in which the erroneous method was initiated by the taxpayer or in which the taxpayer changed to a method of accounting without consent of the Commissioner;

2 In which the method to be changed is a Category A method of accounting (as defined in section 6.02 of this revenue procedure), and the taxpayer has been contacted in any manner by a representative of the Service for the purpose of scheduling an examination of its federal income tax return(s) and such examination has not been completed (but see section 4.02);

3 When at the time of filing Form 3115 the taxpayer is:

(a) Under examination by the district director, except as provided in sections 4.02, 5.12 and 7.03 of this revenue procedure;

(b) Under consideration by an appeals office of the Service with respect to an examination; or

(c) Before any federal court with respect to an income tax issue, unless the taxpayer has obtained an agreement from counsel for the Government that there is no objection to the proposed change in method of accounting;

4 Involving a termination of a taxpayer's use of the LIFO inventory method by the Service (see section 3.01 of Rev. Proc. 79-23, 1979-1 C.B. 564); or

5 In which there is pending a criminal investigation or proceeding concerning, (a) directly or indirectly the taxpayer's federal tax liability, or (b) the possibility of false or fraudulent statements made by the taxpayer with respect to its federal tax liability.

.02 Section 4.01 2 will not apply during a 90-day period following the date of issuance by the Service of either a letter stating that there is no change in the tax liability or a basic report form (a report of Individual Income Tax Examination Changes, a report of Income Tax Examination Changes, a report of Income Tax Audit Changes, or an Unagreed and Excepted Agreed report) signifying notice of results of an examination by the Service of the taxpayer's liability for certain taxable years. The examination of cases placed or held in suspense under subsection 4559 of the Internal Revenue Manual should be completed for all issues not in suspense and a partial agreement requested. The issuance of a basic report form in such cases begins the 90-day period specified above. However, section 4.01 2 will be applied and the 90-day rule set forth above will not apply with respect to a Category A method of accounting that is included as an item of adjustment as a result of the exami-

nation by the Service or the method of accounting (Category A) issue is placed in suspense by the Service.

.03 Should a Category B method of accounting (defined in section 6.03 of this revenue procedure) be an issue that is placed in suspense by the Service and the taxpayer desires to change such Category B method of accounting to a proper method of accounting, the taxpayer may file an application for change in accounting method under the provisions of this revenue procedure.

.04 If section 4.012 applies, the change in method of accounting shall be made by the district director.

.05 Except as provided in section 5.12, this revenue procedure does not provide for retroactive changes for a taxable year for which a federal income tax return has been filed.

.06 The Service reserves the right to decline to process an application for change in accounting method filed under this revenue procedure in situations in which it would not be in the best interest of sound tax administration to permit the requested change. In this regard the Service will consider whether such change in method of accounting would clearly and directly frustrate compliance efforts of the Service in administering the income tax laws.

SEC. 5. PROCEDURES

.01 *Submission of application for change in method of accounting.*

In general, an application for a change in method of accounting should be filed on Form 3115 within 180 days after the beginning of the taxable year for which the change in method of accounting is requested to be made.

.02 *Late applications for change in method of accounting.*

1 The purpose of the 180-day rule is to provide the Service adequate time to process the numerous applications prior to the original due date of taxpayers' returns. A Form 3115 that is not filed within the 180-day period may, under section 1.9100-1 of the regulations, nevertheless be considered as timely filed upon the showing of good cause in accordance with the requirements of Rev. Proc. 79-63, 1979-2 C.B 578. However, for purposes of this revenue procedure, applications received beyond 9 months after the beginning of the year of change will be considered to jeopardize the interests of the Government (see section 1.9100-1(a)(3) of the regulations and section 2 of Rev. Proc. 79-63) except in very unusual and compelling circumstances.

2 If a Form 3115 has been filed after the 180-day period and the Service does not grant relief under section 1.9100-1 of the regulations, the taxpayer may choose to have the application apply to the subsequent taxable year under the procedures prescribed in section 5.03 below. Such choice must be made within 30 days after the issuance by the Service of a denial of relief under section 1.9100-1, by filing a statement with the National Office addressed in accordance with section 7.01 of this revenue procedure. If such choice is timely made and the requirements of section 5.03 are met, the application will be considered a qualified application timely filed for purposes of this revenue procedure at the time Form 3115 was filed for which relief under section 1.9100-1 was requested.

.03 *Early applications for change in method of accounting.*

A qualified application for a change in method of accounting filed within a 6-month period before the beginning of the year of change will be considered as being timely filed for purposes of this revenue procedure. To qualify, (a) the Form 3115 must be complete in all respects except for the amount of the adjustment under section 481(a) for the year of change, and (b) the amount of such section 481(a) adjustment be furnished to the Service within the first 90 days after the beginning of the year of change. The filing of a qualified application for change in method of accounting in this manner will be considered to be an application for a change in method of accounting at the time of the original filing of the Form 3115. The processing order of a Form 3115 filed under the provisions of this subsection will be determined by the date all information (including the amount of the section 481(a) adjustment), has been furnished. In order to assist in the processing of Forms 3115 filed under this early filing procedure, and to insure proper handling, reference to this special procedure should be made a part of the Form 3115 by putting at the top of the Form 3115: **"FILED UNDER SEC. 5.03 of REV. PROC. 80-51."**

.04 *Processing applications (Form 3115).*

In processing applications for change in method of accounting the Service will consider all facts and circumstances. Such consideration will include:

1 Whether the method of accounting requested is consistent with the Code, regulations, revenue rulings, revenue procedures and decisions of the Supreme Court of the United States;

2 Whether the use of that method will clearly reflect income;

3 The taxpayer's reason(s) for the change; and

4 The tax effect of the adjustment under section 481(a) of the Code.

.05 *Approval.*

Approval of an application for change in method of accounting will normally be conditioned on the taxpayer proposing and agreeing as one of the conditions to the change to take the adjustment required under section 481(a) of the Code ("adjustment") into account in computing taxable income and earnings and profits (see Rev. Proc. 79-47, 1979-2 C.B. 528) over a period considered appropriate by the Commissioner, and proposing and agreeing to those other terms and conditions deemed appropriate by the Commissioner to clearly reflect, or prevent a distortion of, income. Such an approved change shall be considered

to be a change in method of accounting initiated by the taxpayer.

.06 *Section 481(a) adjustment period.*

1 The appropriate period for taking into account an adjustment, whether positive or negative, referred to in section 5.05 ("adjustment period") is generally determined as follows:

(a) When the entire net amount of an adjustment is attributable to the taxable year immediately preceding the year of change (first preceding year), the total net adjustment is to be taken into account in computing taxable income for the year of change. The amount attributable to the taxable year immediately preceding the year of change is the difference in the amount of the adjustment determined under section 481(a) of the Code for the year of change and the amount of the adjustment that would have been required under section 481(a) if the same change in method of accounting had been made in such preceding year.

(b) When (a) does not apply and 67 percent or more of the net amount of an adjustment is attributable to the 1-taxable year period, 2-taxable year period, or 3-taxable year period immediately preceding the year of change, the highest percent attributable to such 1, 2, or 3-taxable year period is to be taken into account ratably over a 3-taxable year period beginning with the year of change. Any remaining balance is to be taken into account ratably over an additional period equal to the remainder of the number of taxable years the taxpayer has used the method of accounting that is being changed. However, the total adjustment period shall not exceed 10 taxable years. This subparagraph 5.06 1(b) only applies if the taxpayer has used the method being changed for more than 3 taxable years. If the method of accounting being changed has been used for no more than 4 taxable years, 75 percent shall be substituted for 67 percent. An amount attributable to such 1, 2, or 3-taxable year period is the difference in the amount of the adjustment determined under section 481(a) of the Code for the year of change and the amount that would have been required under section 481(a) if the same change had been made at the beginning of such preceding 1, 2, or 3-taxable year period.

(c) In all other situations in which (a) and (b) above do not apply, the total net adjustment is to be taken into account ratably over the number of taxable years (not to exceed 10) the taxpayer has used the method of accounting that is being changed.

2 In applying sections 5.061(a) or (b), if a taxpayer's books and records do not contain sufficient information to compute the section 481(a) adjustment attributable to the 1, 2, or 3-taxable year period immediately preceding the year of change, the taxpayer may reasonably estimate such amounts and attach and sign (or have signed by an officer who has personal knowledge of the facts) the following statement to the Form 3115:

Under penalty of perjury, I hereby certify that:

(a) the books and records of [name of the taxpayer] do not contain sufficient information to permit a computation of the section 481(a) adjustment attributable to the 1-taxable year period, 2-taxable year period, or 3-taxable year period immediately preceding the year of change as required by section 5.061(b) of Rev. Proc. 80-51.

(b) Based on the information that is contained in such records, to the best of my information and belief, the entire amount of the section 481(a) adjustment for the year of change [indicate either "is" or "is not," as the case may be] attributable to the taxable year immediately preceding the year of change, and 67 percent [or "75 percent," in applicable cases] or more of the section 481(a) adjustment for the year of change [indicate "is" or "is not," as the case may be] attributable to the 1-taxable year period, 2-taxable year period, or 3-taxable year period immediately preceding the year of change.

3 A cooperative within the meaning of section 1381(a) of the Code shall generally take the total net amount of an adjustment into account in computing taxable income for the year of change. See Rev. Rul. 79-45, 1979-1 C.B. 284. The Service in its discretion may, however, require the adjustment to be taken into account ratably over a period of taxable years when it determines such action is appropriate.

.07 *LIFO Election.*

If a taxpayer elects the LIFO method of inventory valuation during the adjustment period referred to in section 5.06, the balance of the unamortized section 481(a) adjustment referred to in sections 5.05 and 5.06 attributable to a change in inventory valuation from a method with respect to which an adjustment under section 472(d) of the Code would have been required, must be taken into account in full in computing taxable income in the year for which such election is made. This subsection shall only apply to the portion of the unamortized section 481(a) adjustment attributable to the portion of the inventory with respect to which LIFO is elected.

.08 *Reduction in Inventory Value.*

1 If the change in method of accounting involves a change in method of inventory valuation and on the last day of any taxable year during the adjustment period referred to in section 5.06 the value of the taxpayer's inventory to which the section 481(a) adjustment relates is reduced by more than 33⅓ percent of such inventory value at the beginning of the first taxable year in the adjustment period (see sections 5.05 and 5.06), the balance of the net section 481(a) adjustment must be taken into account in full in determining taxable income in the year of such inventory reduction.

2 Section 5.081 shall not apply if the taxpayer has shown to the satisfaction of the Commissioner that such reduction is attributable to a strike, involuntary conversion, or involuntary

interruption of the availability of goods. This paragraph 5.082 shall apply only if the taxpayer has obtained the consent of the Commissioner. Such consent must be requested no later than 90 days after the end of the taxable year in which section 5.081 would otherwise apply.

.09 *Ceasing to engage in the trade or business.*

1 With respect to a corporation:

If the taxpayer ceases to engage in the trade or business, to which the adjustment (sections 5.05 and 5.06) relates, at any time prior to the expiration of the adjustment period referred to in section 5.06, the taxpayer shall take into account in such year the balance of the adjustment not previously taken into account in computing taxable income. See Rev. Rul. 80-39, 1980-1 C.B. 112, which holds that if a division of a corporation, for which a change in method of accounting had been granted, ceases to operate the trade or business for which the change in method was granted, the remaining section 481(a) adjustment applicable to the business conducted by that division of the corporation must be taken into income in the year the corporation ceases to engage in that trade or business. For purposes of this condition, the taxpayer is not considered to have ceased the trade or business if such cessation is the result of a transaction to which section 381 of the Code applies, but in such case the acquiring corporation shall continue to be subject to this revenue procedure as though it were the acquired corporation.

2 With respect to a partnership:

In the event a partnership terminates or ceases to engage in the trade or business (within the meaning of section 708 of the Code), to which the adjustment (sections 5.05 and 5.06) relates, at any time prior to the expiration of the adjustment period referred to in section 5.06, the balance of the adjustment not previosuly taken into account in computing ordinary income shall be taken into account in such year. A partnership ceasing to engage in the trade or business includes the incorporation of such trade or business in a transaction to which section 351 applies (see Rev. Rul. 77-264, 1977-2 C.B. 187).

3 With respect to a sole proprietor:

If the taxpayer ceases to engage in the trade or business, to which the adjustment (sections 5.05 and 5.06) relates, at any time prior to the expiration of the adjustment period referred to in section 5.06, the balance of the adjustment not previously taken into account in computing taxable income shall be taken into account in such year. A sole proprietor ceasing to engage in the trade or business includes the incorporation of such trade or business in a transaction to which section 351 of the Code applies (see Rev. Rul. 77-264). A sole proprietorship does not cease to engage in that trade or business when the individual taxpayer sells a partial interest in the proprietorship and continues to be actively engaged in the management of the business that is subsequently operated as a partnership. The section 481(a) adjustment remaining at the time the partnership is formed is taken into account by the partnership as though there had been no change in ownership (see Rev. Rul. 66-206, 1966-2 C.B. 206).

.10 *Discontinuance of LIFO.*

Rev. Proc. 71-16, Rev. Proc. 71-16 Amendment I and Rev. Proc. 72-24 concern a taxpayer's request to discontinue the use of the LIFO inventory method. Such a change is a change in method of accounting within the meaning of sections 446 and 481 of the Code and is subject to the provisions of this revenue procedure. Consent to discontinue the use of the LIFO inventory method and change to another acceptable method of inventory accounting that the Service determines will clearly reflect income normally will be granted subject to the requirements of section 1.472-6 of the regulations and the provisions of this revenue procedure, provided the taxpayer agrees to:

1 an adjustment period determined in accordance with the rules set forth in section 5.06 of this revenue procedure;

2 not to elect the LIFO inventory method of accounting for a period of at least 10 taxable years beginning with the year of change, unless consent is granted by the Commissioner to change the method of accounting at an earlier time based on a showing of extraordinary circumstances; and

3 to comply with any other terms and conditions that may be prescribed by the Commissioner (see section 5.05).

.11 *Full absorption method of inventory costing.*

With respect to applications filed by manufacturers and producers for consent to change to the full absorption method of inventory costing prescribed by section 1.471-11(a) of the regulations, the adjustment period otherwise determined in section 5.06 shall not exceed 5 taxable years.

.12 *Taxpayer under examination.*

A taxpayer that has been contacted by a representative of the Service for the purpose of scheduling an examination of its federal income tax return may obtain consent to change its method of accounting under this revenue procedure provided the method to be changed is a Category B method as defined in section 6.03 of this revenue procedure. Consent to make the requested change will normally be granted provided the taxpayer proposes and agrees:

1 That the year of change shall generally be,

(a) if the method being changed involves an issue raised by the Service during such examination, the most recent taxable year that is being examined by the Service during the examination of the taxpayer's returns, but not later than the most recent taxable year for which a federal income tax return has been filed as of the date the examination began, or,

(b) in other cases, the applicable taxable year that would apply at the time the application is filed if the tax-

payer had not been under examination;

2 If the method to be changed has been designated by a revenue ruling or revenue procedure that was published in the Internal Revenue Bulletin more than 2 years prior to the date the Form 3115 is filed, as a change in method of accounting with respect to which section 5.12 2 applies, the adjustment period otherwise determined under section 5.06 shall not exceed 5 taxable years; and

3 To comply with any other terms and conditions that may be prescribed by the Commissioner (see section 5.05).

.13 Examples of the rules prescribed in section 5.061 with respect to the section 481(a) adjustment.

Example A:

Z timely files an application to change its method of accounting for a specific item of expense to a method that the Service determines will clearly reflect income beginning with the taxable year ending December 31, 1981 (year of change). *Z* has used the method of accounting that is being changed for 12 taxable years. The adjustment required under section 481 (a) of the Code for the year of change is $60,000. If *Z* had made the requested change in method of accounting for the taxable years ended December 31, 1978, 1979 or 1980, the amount of the adjustment would have been $42,000, $5,400 or $48,500, respectively. The percent of the section 481(a) net adjustment attributable to the 1, 2, or 3-taxable year period preceding the year of change is determined as follows:

1-Taxable Year Period

Adjustment as of January 1, 1981	$60,000
Less: Hypothetical adjustment as of January 1, 1980	48,500
Amount attributable to 1-taxable year period	$11,500

Percent of adjustment attributable to 1-taxable year period: $\frac{\$11,500}{60,000} = 19\%$

2-Taxable Year Period

Adjustment as of January 1, 1981	$60,000
Less: hypothetical adjustment as of January 1, 1979	5,400
Amount of adjustment attributable to the 2-taxable year period	$54,600

Percent of adjustment attributable to the 2-taxable year period: $\frac{\$54,600}{60,000} = 91\%$

3-Taxable Year Period

Adjustment as of January 1, 1981	$60,000
Less: hypothetical adjustment as of January 1, 1978	42,000
Amount of adjustment attributable to the 3-taxable year period	$18,000

Percent of adjustment attributable to the 3-taxable year period: $\frac{\$18,000}{60,000} = 30\%$

Because 91 percent of the adjustment is attributable to the 2 taxable year period preceding the year of change, *Z* will take such 91 percent of the adjustment ($54,600) into account ratably over 3 taxable years beginning with the year of change (the taxable year ending December 31, 1981) and the remaining balance of the adjustment ($5,400) into account ratably over the next 7 taxable years beginning with the taxable year ending December 31, 1984.

Example B

Y timely files an application to change its method of accounting for valuing inventory to a method that is in accord with the provisions of section 1.471-4 of the regulations, beginning with its taxable year ending November 30, 1981. The information furnished shows that *Y* used its present method of valuing inventory for 9 taxable years prior to the year of change and that the net adjustment required under section 481(a) of the Code for the year of change is $300,000. The information furnished further shows that had the change been made for the taxable year ending November 30, 1980, the adjustment required under section 481(a) would have been zero or a negative amount. Thus, the entire amount of the adjustment is attributable to the taxable year immediately preceding the proposed year of change. Under these circumstances and based on the provisions of section 5.061(a) of this revenue procedure, *Y* will take the entire $300,000 net adjustment into account in computing its taxable income for the taxable year ending November 30, 1981. If the information furnished had shown that had the change been made for the taxable year ending November 30, 1980, the adjustment required under section 481(a) would have been $300,000 and had the change been made for the taxable year ending November 30, 1979, the adjustment required under section 481 (a) would be zero or a negative amount, the $300,000 would be taken into account ratably over the 3 taxable years beginning with the taxable year ending November 30, 1981.

Example C

W timely files an application to change its method of accounting for reporting income from long-term contracts from the percentage of completion method to the completed contract method, beginning with its taxable year ending September 30, 1981. The information furnished shows that *W* used the percentage of completion method for 4 taxable years prior to the year of change and the net negative adjustment required under section 481(a) of the Code for the year of change is $55,000. The information furnished further shows that the highest percent of the net negative adjustment attributable to the 1, 2, or 3-taxable year peiod preceding the proposed year of change was 63 percent. Under these circumstances and based on the provisions of section 5.061(c) of this revenue procedure, *W* will take the $55,000 adjustment into account ratably over 4 taxable years beginning with the taxable year ending September 30, 1981.

Example D

The taxpayer, a wholesaler, has for the past 10 years omitted freight-in from the computation of inventories and now desires to correct this practice. The year of change is the taxable year beginning January 1, 1981. The value of the taxpayer's inventory as of December 31, 1980 (the end of the year preceding the year of change),

was $365,000, which did not include freight-in. The amount of freight-in omitted from that inventory was $45,000. The value of the inventory as of January 1, 1981 (the beginning of the year of change), computed in accordance with the new method of accounting to be adopted by the taxpayer is $410,000. The change in method of accounting is treated as a change initiated by the taxpayer, and thus the net section 481(a) adjustment is $45,000 ($410,000 — $365,000).

The hypothetical section 481(a) adjustments that would have been required if made in the 1, 2, or 3-taxable year period immediately preceding the year of change are as follows:

1-taxable year period (Ending December 31, 1980)	$30,000
2-taxable year period (Ending December 31, 1979)	$25,000
3-taxable year period (Ending December 31, 1978)	$35,000

Computation of percentage of adjustment attributable to the 1, 2, or 3-taxable year period preceding the year of change.

	1-taxable year period	2-taxable year period	3-taxable year period
Section 481(a) adjustment as of 1-1-81	$45,000	$45,000	$45,000
Less: Hypothetical section 481(a) adjustment	30,000	25,000	35,000
Amount attributable to each taxable year period	$15,000	$20,000	$10,000
Percentage of adjustment attributable to each taxable year period	$\frac{\$15,000}{\$45,000} = 33\%$	$\frac{\$20,000}{\$45,000} = 44\%$	$\frac{\$10,000}{\$45,000} = 22\%$

Under the provisions of section 5.06 1(c) of this revenue procedure the $45,000 will be taken into income over 10 taxable years beginning January 1, 1981. Thus, the taxable income for the year ended December 31, 1981, based on the foregoing and the amounts indicated below, should be computed as follows:

Sales		$800,000
Inventory at beginning of year (freight-in of $45,000 included)	$410,000	
Purchases (including freight-in)	585,000	
	$995,000	
Inventory at end of year including freight-in	335,000	
Cost of Goods Sold		660,000
Gross Profit		140,000
Less deductions		85,000
		55,000
Agreed-to section 481(a) adjustment to be taken over the adjustment period of 10 years (1/10 × $45,000)		4,500
Taxable income December 31, 1981		$ 59,500

Sec. 6. Definitions

.01 *Year of change.*

The taxable year for which a change is effective is the year of change. The year of change is the first taxable year for taking the adjustment referred to in section 5.06 of this revenue procedure into account and for complying with any other terms and conditions set forth in the Commissioner's consent letter (see section 1.446-1(e)(3)(ii) of the regulations). See also section 5.12 of this revenue procedure.

.02 *Category A method of accounting.*

A Category A method of accounting is a method of accounting that is specifically not permitted to be used by the taxpayer by the Code, regulations, or by a decision of the Supreme Court of the United States. Examples of methods within Category A are:

1 Methods of inventory valuation listed in sections 1.471-2(f)(1) through (7) of the regulations.

2 A write-down of goods in inventory that does not comply with section 1.471-2(c) of the regulations. For example, goods are written down without being sold or offered for sale.

3 A write-down of any goods in inventory that does not comply with section 1.471-4(b) of the regulations. For example, see Rev. Rul. 77-364, 1977-2 C.B. 183, in which a taxpayer determined the market value of goods in inventory by dividing the inventory into classes based upon sales activities and then reducing the value of each class by a percentage of cost assigned thereto.

4 The write-down of what is regarded as "excess" inventory by a taxpayer to a net realizable value although such inventory has not been scrapped, sold, or offered for sale at the reduced price. (*Thor Power Tool Co. v. Commissioner,* 439 U.S. 522 (1979), 1979-1 C.B. 167, and section 1.471-4(b) of the regulations.)

5 In the absence of a specific statutory or regulatory exception, the use of the cash receipts and disbursements method of accounting for the sale of merchandise when such merchandise is an income-producing factor and therefore inventories are required. (Section 1.446-1(c)(2) and Example 1 of section 1.446-1(e)(2)(iii) of the regulations.)

6 The use of a long-term contract method of accounting for income from contracts that clearly do not involve building, installation, construction or manufacturing. (Section 1.451-3(b) of the regulations.)

7 The use by a manufacturer of a method of inventory costing that does not conform to the requirements of section 1.471-11 of the regulations relating to the full absorption method of inventory costing.

8 The use of a method of accounting other than that prescribed by section 447 of the Code by a farming corporation subject to that section.

9 The use, in taxable years beginning on or after September 19, 1979, of a method of accounting under section 1.163-4(a) of the regulations, which provides for the deduction of interest as original issue discount, with respect to obligations with a term of 1 year or less. (Section 1.1232-3(b)(1)(iii).)

.03 *Category B method of accounting.*

Category B methods are all methods

other than those specifically not permitted to be used by the taxpayer by the Code, regulations or decisions of the Supreme Court of the United States.

.04 *Filed.*

For purposes of this revenue procedure, a Form 3115 is filed at the time it is mailed (under the rules of section 7502 of the Code) or delivered to, and received by, the Service.

SEC. 7. APPLICATION

.01 A taxpayer wishing to invoke the provisions of this revenue procedure should complete and file a current Form 3115 with the Commissioner of Internal Revenue, Attention: T:C:C:1, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, and request the application of Rev. Proc. 80-51. The taxpayer must provide all the information required on such application (current Form 3115) and state that it proposes to take the adjustment into account over the appropriate period required by section 5.06 above. If the Service receives an application that is not properly completed in accordance with the instructions on the Form 3115, it will notify the taxpayer. Such notification will specify those items that need to be corrected and, when appropriate, transmit a current blank Form 3115 for the taxpayer's use. For example: The General Instructions contained on page 4 of the Form 3115 require a taxpayer to set forth all relevant facts regarding its present and proposed methods (as set forth in the application), including an explanation of why the taxpayer believes the application should be approved. In its notification, the Service will allow the taxpayer a reasonable period of time, ordinarily not more than 30 days, in which to submit the necessary information. If such information is submitted within the period of time granted by the Service, the application will be considered properly completed as of the date of original filing. If the information is not submitted within the time allowed, the application will be closed. If the information is received after the application is closed, it will be reopened and treated as a new application filed as of the date the information is received. The preceding four sentences shall not apply in the case of early applications submitted in accordance with section 5.03 of this revenue procedure.

.02 The signature of the individual or person preparing the application for the taxpayer must appear in the space at the bottom of page 1 on the Form 3115. An application made by an agent on behalf of a taxpayer must be accompanied by a power of attorney authorizing the agent to sign for the taxpayer. If the agent is also authorized to represent the taxpayer before the Service, receive the original or a copy of correspondence concerning the request, or perform any other act(s) regarding the application on behalf of the taxpayer, the power of attorney must reflect such authorization(s). If the taxpayer is a member of an affiliated group that has elected to file a consolidated federal income tax return, a Form 3115 submitted on behalf of the taxpayer must be signed by a duly authorized officer of the common parent. (See section 1.1502-77 of the regulations.)

.03 A request for the application of this revenue procedure under section 5.12 of this revenue procedure shall be made by the taxpayer in a letter addressed to the Commissioner of Internal Revenue, Attention: T:C:C:1. This request together with a properly completed current Form 3115 should be sent to the district director for the district in which the return is being examined. The district director will forward the application and pertinent comments to the National Office and suspend examination action on the accounting method issue pending completion of action by the National Office on the taxpayer's request. The district director should verify that the amount of the section 481 (a) adjustment is correct, that it has not been reduced by an amount attributable to taxable years prior to 1954, and that the adjustment period and year of change have been determined in accordance with section 5.12. The Form 3115 should not be sent to the National Office unless the taxpayer and district director are in agreement with respect to the year of change, the amount of the section 481(a) adjustment and the adjustment period. If the taxpayer and district director cannot agree as to these items, a technical advice request may be submitted to the National Office in accordance with Rev. Proc. 80-26, 1980-1 C.B. 671.

.04 Sections 9 (specifically subsections 9.10, 9.11, 9.15 and 9.21), 11, 15, 16 and 17 of Rev. Proc. 80-20, 1980-1 C.B. 633, pertaining respectively to Instructions to Taxpayers, Conference in the National Office, Withdrawal of Requests, Oral Advice to Taxpayers, and Effect of Rulings, are applicable to applications for changes in accounting methods (Form 3115) filed under this revenue procedure.

SEC. 8. MISCELLANEOUS

.01 *Conferences in the National Office.*

1 The taxpayer should state in writing at the time the Form 3115 is filed under this revenue procedure whether the taxpayer or the taxpayer's authorized representative desire a conference if an adverse response is contemplated by the Service. If a conference is not specifically requested in writing at the time the taxpayer files Form 3115 under this revenue procedure or in a later written communication, the Service will presume that the taxpayer does not desire a conference.

2 If the taxpayer specifically states in writing that a conference is desired if an adverse response is contemplated by the Service, a conference will be arranged in the National Office prior to the Service's formal reply to the taxpayer's application. See section 11, Rev. Proc. 80-20.

.02 *Other offices of the Service.*

The provisions of this revenue procedure are not intended to preclude an appropriate representative of the Service (including an appeals officer)

from settling a particular taxpayer's case involving an accounting method issue by means of agreeing to terms and conditions in the best interest of the Government. In such case, the terms and conditions used for this purpose may not contain a provision that:

1 Permits an adjustment period of more than 10 taxable years or more years than the method has been used by the taxpayer, whichever is shorter;

2 Permits an adjustment period of more than 5 taxable years when the change is to the full absorption method of inventory costing; or

3 Establishes the year of change as a year later than the year specified in section 5.121(a).

However, the terms and conditions may be more restrictive than those provided by this revenue procedure.

SEC. 9. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and be addressed to the Commissioner of Internal Revenue, Attention: T:C:C:1, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SEC. 10. EFFECT ON OTHER DOCUMENTS

.01 Rev. Proc. 74-11, 1974-1 C.B. 420 (pertaining to changes in method of depreciation accounting); Rev. Proc. 64-51, 1964-2 C.B. 1003 (pertaining to procedures for changing the method of accounting for bad debts from the specific charge-off method to the reserve method) as amplified by Rev. Proc. 70-15, 1970-1 C.B. 441 and as modified by Rev. Proc. 77-39, 1977-2 C.B. 573; and Rev. Proc. 80-5, 1980-1 C.B. 582 (pertaining to the decision of the Supreme Court of the United States in *Thor Power Tool Co. v. Commissioner*), are not affected by this revenue procedure. Form 3115 submitted by the taxpayer with respect to Rev. Proc. 74-11 is to be filed with the appropriate Internal Revenue Service Center and is not to be sent to the National Office.

.02 Rev. Proc. 76-8, and Rev. Proc. 74-51 are modified and superseded effective December 1, 1980.

.03 Rev. Proc. 72-24 is superseded effective December 1, 1980.

.04 Rev. Proc. 71-16 and Rev. Proc. 71-16 Amendment I are modified and superseded effective for applications for changes in accounting method (Form 3115) filed after December 1, 1980.

.05 Section 4.03 of Rev. Proc. 70-27 and section 2.03 of Rev. Proc. 75-18 are superseded effective December 1, 1982. All other provisions of Rev. Proc. 70-27 and Rev. Proc. 75-18 are superseded effective December 1, 1980.

SEC. 11. EFFECTIVE DATE

.01 The provisions of section 4.012 (taxpayer using a Category A method of accounting scheduled for an examination) and section 5.12 (taxpayer under examination, Category B method of accounting involved) of this revenue procedure are effective with respect to applications for change in accounting method (Form 3115) filed on or after December 1, 1982. However, the provisions of section 4.01 2 are effective with respect to Forms 3115 filed on or after December 1, 1980 with respect to changes in method of accounting to which: (1) Rev. Proc. 80-5 (which waives the 180-day rule and grants consent to taxpayers' applications to change from a method of accounting for inventory valuation of excess inventory, which is not in accordance with the prescribed method, to such prescribed method for the first taxable year ending on or after December 25, 1979) applies, or (2) Rev. Proc. 74-51 (full absorption inventory costing) applied.

.02 The provisions of section 5.10 (concerning discontinued use of the LIFO inventory method) are effective with respect to applications for change in accounting method (Form 3115) filed on or after December 1, 1980.

.03 The provisions of section 5.11 (concerning changes to the full absorption method) are effective with respect to changes granted after December 1, 1980. However, taxpayers who applied for and received the Commissioner's consent to change to the full absorption method of inventory costing prescribed by section 1.471-11(a) of the regulations and, pursuant to Rev. Proc. 74-51, an adjustment period of only 1 year was provided, may resubmit an application by March 1, 1981, requesting the adjustment period under section 5.06 (limited to 5 taxable years). This subsection 11.03 shall apply only if the taxable year the change to the full absorption method was originally granted is an open year under provisions of section 6501 of the Code and the taxpayer's change to the full absorption method of inventory costing was not in connection with an examination by the Service of the taxpayer's federal income tax return. Taxpayers that contemplate resubmitting an application under this subsection 11.03 may wish to protect the period of limitations for the year in which the change in method of accounting was first granted.

The application, a new Form 3115, should be filed with the National Office (see section 7 of this revenue procedure), together with a copy of the previous Form 3115 and a copy of the letter granting the full absorption change in method of accounting. As a condition to the granting of a revised Commissioner's consent letter, the taxpayer must propose and agree to pay the additional federal income tax due for the taxable years involved in the adjustment period. Upon the receipt of a revised Commissioner's consent letter granted pursuant to this subsection 11.03, the taxpayer must file an amended federal income tax return for the year of change with the appropriate Internal Revenue Service Center. Such amended return must be accompanied by a copy of the revised Commissioner's consent letter and amended returns prepared in accordance with the Commissioner's revised consent letter for all taxable years during the adjustment period with respect to which the original return has al-

ready been filed at the time of the filing of the amended return for the year of change. In order to assist in the processing of these amended returns, the taxpayer should include a covering letter clearly indicating that the amended returns are being filed in accordance with the provisions of subsection 11.03 of Rev. Proc. 80-51 and put at the top of each amended return: **"FILED UNDER SECTION 11.03 OF REV. PROC. 80-51."**

.04 All other provisions of this revenue procedure are effective December 1, 1980.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Sections 6041, 6042, 6043, 6047, 6049, 6109; 1.6041-1, 1.6041-4, 1.6041-5, 1.6041-7, 1.6042-2, 1.0642-3, 1.6043-2, 1.6047-1, 301.6047-1, 1.6049-1, 301.6109-1.)

Rev. Proc. 80-52

PART A.—GENERAL

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to provide the requirements and conditions for filing information returns in the Forms 1099 and 1087 series, on magnetic tape instead of paper returns. Specifications for filing the following forms are contained in this procedure:

a) Form 1099R, Statement for Recipients of Total Distributions from Profit-Sharing, Retirement Plans, and Individual Retirement Arrangements.

b) Form 1099-DIV, Statement for Recipients of Dividends and Distributions.

c) Form 1099-INT, Statement for Recipients of Interest Income.

d) Form 1099-MISC, Statement for Recipients of Miscellaneous Income.

e) Form 1099-MED, Statement for Recipients of Medical and Health Care Payments.

f) Form 1099-OID, Statement for Recipients of Original Issue Discount.

g) Form 1099-PATR, Statement for Recipients (Patrons) of Taxable Distributions received from Cooperatives.

h) Form 1099L, U.S. Information Return for Distributions in Calendar Year.

i) Form 1099-NEC, Statement for Recipients of Nonemployee Compensation.

j) Form 1099-UC, Statement for Recipients of Unemployment Compensation Payments.

k) Form 1087-DIV, Statement for Recipients of Dividends and Distributions.

l) Form 1087-INT, Statement for Recipients of Interest Income.

m) Form 1087-MISC, Statement for Recipients of Miscellaneous Income.

n) Form 1087-MED, Statement for Recipients of Medical and Health Care Payments.

o) Form 1087-OID, Statement for Recipients of Original Issue Discount.

p) Agriculture Subsidy Payment Report.

.02 This procedure supersedes Rev. Proc. 79-66, 1979-2 C.B. 581.

SEC. 2. NATURE OF CHANGES

.01 Format changes have been made to Form 1099-PATR, Statement for Recipients (Patrons) of Taxable Distributions Received From Cooperatives. Amount Code 5, Investment Credit, and Amount Code 6, Energy Investment Credit, have been deleted.

.02 The Total original issue discount field, Amount Code 1, on Forms 1099-OID and 1087-OID, has been expanded to two fields. Amount Code 1 now contains total original issue discount in 1980 for all holders of discount obligations from financial institutions; Amount Code 2 now contains total original issue discount in 1980 for all holders of corporate obligations.

SEC. 3. WAGE AND PENSION INFORMATION

.01 Section 8(b) of Pub. L. 94-202, 1976-1 C.B. 503, enacted in January 1976, authorized the combined reporting of FICA detailed information (previously reported quarterly on Form 941, Schedule A) and annual W-2 (Copy A), Wage and Tax Statement, information in one consolidated annual W-2 (Copy A) to the Federal Government. As a result, Forms W-2 and W-2P are to be filed with the Social Security Administration (SSA).

.02 SSA will accept magnetic media for filing Forms W-2 and W2P and has issued TIB-4a, *Magnetic Tape Reporting,* Submitting wage and tax data to Federal and State Agencies, TIB-4b, *Magnetic Tape Reporting,* Submitting Annuity, Pension, Retired Pay or IRA Payment to the Federal Government on Magnetic Tape, and TIB-4c, *Diskette and Disk Cartridge Reporting,* Submitting Wage and Tax Data to the Federal Government on Diskette and Disk Cartridge, for this purpose. Applications for filing Forms W-2 and W-2P on magnetic media appear in TIBs-4a, 4b, and 4c.

.03 Copies of Social Security Administration publications TIB-4a, 4b, and 4c are available from any Internal Revenue Service Center or local Social Security Administration office.

SEC. 4. APPLICATION FOR MAGNETIC MEDIA REPORTING

.01 For the purposes of this revenue procedure, the payer is the organization making the payments and the transmitter is the organization which is preparing the tape file. Payers or transmitters who decide to file information returns, in the Forms 1099 and 1087 series, on magnetic tape must complete Form 4419, Application for Magnetic Media Reporting of Information Return (Exhibit "A" attached). Instructions for completing the application appear on the reverse side of the form.

.02 The Service will act on an application and notify the applicant of authorization to file within 30 days of receipt of the application. No magnetic tape returns may be filed with the Service until authorization to file is received.

.03 The Service will assist new filers with their initial magnetic tape submission by encouraging the submission of test tapes for review in ad-

vance of the filing season. Approved payers or transmitters who wish to submit a test tape should contact the magnetic media coordinator at the Service Center where the application was filed.

.04 Once authorization to file on magnetic tape has been granted to a payer or transmitter, it will remain in effect in succeeding years, provided that all the requirements of this revenue procedure are met and there are no equipment changes by the filer. If a filer discontinues filing on magnetic tape, a new application must be filed before this method of filing may be resumed.

.05 In accordance with Section 1.6041-7 of the Income Tax Regulations, medical payments from separate departments of a health care carrier may be reported as separate returns on magnetic tape. In this case, the headquarters office will be considered to be the transmitter and the individual departments of the company filing reports will be considered to be payers. A single application form covering all the departments which will be filing on magnetic tape should be submitted.

SEC. 5. FILING OF TAPE REPORTS

.01 A magnetic tape reporting package, which includes all the necessary transmittals, labels, and instructions, will be mailed to all approved filers between October and December of each year.

.02 Payers may submit a portion of their information returns on magnetic tape and the remainder on paper forms, provided there is NO DUPLICATE FILING. The magnetic tape records and paper forms must be filed at the same location, but in separate shipments. A Form 1096 must accompany paper submissions and a Form 4804 must accompany magnetic tape submissions.

.03 The affidavit which appears on Forms 1096 and 4804 must be signed by the payer. A transmitter, service bureau, or disbursing agent may, however, sign the affidavit on behalf of the payer if all of these conditions are met:

a. It has the authority to sign the affidavit under an agency agreement (either oral, written, or implied) that is valid under State law; and

b. It has the responsibility (either oral, written, or implied) conferred on it by the payer to request the taxpayer identifying numbers of payees reported on magnetic tape or paper returns; and

c. It signs the affidavit and adds the caption "For: [name of payer]".

.04 Although a duly authorized agent signs the affidavit, the payer is held responsible for the accuracy of the Form 4804 and will be liable for penalties for failure to comply with filing requirements.

.05 These requirements also apply to paper filers submitting Form 1096, Annual Summary and Transmittal of U.S. Information Returns. Paper filers are responsible for the filing of a correct, complete, and timely Form 1096. The failure of duly authorized "agents" of paper filers to comply with the filing requirements of Form 1096 and attachments does not relieve the payers of any penalties that may arise as a result of such failure to comply.

.06 If a portion of the returns are submitted on paper documents, include a statement on the Form 1096 that the remaining returns are being filed on magnetic tapes. Please note that Form 1096 instructions normally apply to the filing of information returns on paper; however, filers of magnetic tape must review the Form 1096 instructions and file Form 1096 if appropriate.

.07 Health care carriers, or their agents, filing Form 1099-MED per Section 4.05 above, may submit part of their returns on paper documents and part on magnetic tape if the records of some departments are not maintained on computer files. However, an information return is required if the aggregate amount paid to a health care service provider from all departments equals $600 or more. For example, Department A pays $200, Department B pays $300, and Department C pays $100 to the same health care service provider. The aggregate amount paid from all departments equals $600. The health care carrier or agent must submit either one information return for the aggregate amount of $600 or three separate returns, one from each department, indicating the amount paid by each department.

SEC. 6. FILING DATES

.01 Magnetic tape reporting to the Service for all types of Forms 1099 and 1087 must be on a calendar year basis.

.02 The dates prescribed for filing paper returns with the Service will also apply to magnetic tape filing. Tapes must be submitted to the Service Center by February 28. The copies of this information required to be furnished to recipients must be furnished by January 31.

SEC. 7. EXTENSIONS TO FILE

.01 If a payer or transmiter is unable to submit its tape file by the date prescribed in Section 6.02 above, a letter requesting an extension must be filed before February 28. The letter should be sent to the attention of the magnetic media coordinator at the Service Center which will receive the tape file. The request should include the estimated number of returns which will be filed late and the reason for the delay.

.02 If an extension is granted by the Service, a copy of the letter granting the extension must be attached to the transmittal Form 4804 when the file is submitted.

SEC. 8. PROCESSING OF TAPE RETURNS

.01 The Service will process tax information from the tapes. Tapes which are timely received by the Service will be returned to the filers by August 15 of the year in which submitted.

02. All tapes submitted must conform *totally* to this revenue procedure. If tapes are unprocessable, they will be returned to the filer for correction. Corrected tapes must be filed with the Service as soon as possible. Corrected files will be returned by the Service within six months of receipt.

SEC. 9. CORRECTED RETURNS

.01 If a large volume of corrected returns is necessary, and the payer or transmitter possesses the capability to provide such corrections on tape, they are encouraged to do so. The filer must contact the magnetic media coordinator for format and shipping instructions. A corrected Form 4804 must accompany the shipment and be marked "Magnetic Media Correction" on the upper portion of the form.

.02 If corrections are not submitted on tape, payers must submit them on official Forms 1099 or 1087 (Copy A) or on approved paper substitutes. Revenue procedures containing specifications for paper returns are available from most Internal Revenue Service offices.

.03 Form 1096 instructions are to be followed when paper returns are filed to correct returns submitted on magnetic media. An "X" must be entered in the box in the left margin and the caption "Magnetic Media Correction" must appear on the top of the form to the left of "FOR OFFICIAL USE ONLY". Corrections must be sent to the attention of the magnetic media coordinator where the original tape file was filed.

SEC. 10. TAXPAYER IDENTIFICATION NUMBERS

.01 Under Section 6109 of the Internal Revenue Code, recipients of dividends, interest, or other payments are required to furnish taxpayer identification numbers (TINs) to the payer. The number must be furnished to the payer whether or not the payee is required to file a tax return or is covered by Social Security.

.02 The Service expects that payers will keep to a minimum those statements submitted without TINs. It is particularly important that correct social security and employer identification numbers for payees be provided on magnetic media or paper forms submitted to the Service.

.03 For each omission of a required TIN, Section 6676 of the Internal Revenue Code provides that the Service charge a $5 penalty, unless the payer or payee responsible for furnishing the number supplies an explanation, upon request from the Service, that establishes reasonable cause for not having done so.

.04 The TIN to be furnished the Service depends primarily upon the manner in which the account is maintained or set up on the record of the payer. The number to be provided must be that of the owner of record. If the account is recorded in more than one name, furnish the TIN and name of one of the holders of the record. The number provided must be associated with the name of the holder provided in the first name line of the Payee "B" Record of Part B of this procedure. For those engaged in a trade or business (including employee trusts, retirement systems, etc.) the TIN is the employer identification number, EIN (00-0000000). For individuals, it is a social security number, SSN (000-00-0000).

.05 Sole proprietors who are payers should show their employer identification numbers in the Payer/Transmitter "A" Record. However, the payer should use the social security number of a sole proprietor in the Payee "B" Record. The table below will help you determine the number to be furnished to the Service.

CHART 1. Guidelines for Social Security Numbers

For this type of account:	*In tape positions 12-20 of the Payee "B" Record, enter the Social Security Number of—*	*In the Payee 1st Name Line of the Payee "B" Record, enter the name of—*
1. An individual's account.	The individual.	The individual.
2. Joint account of:		
a. husband and wife	The actual owner of the account. (If more than one owner, the principal owner.)	The individual whose SSN is entered.
b. adult and minor	The actual owner of the account. (If more than one owner, the principal owner.)	The individual whose SSN is entered.
c. two or more individuals	The actual owner of the account. (If more than one owner, the principal owner.)	The individual whose SSN is entered.
3. Account in the name of a guardian or committee for a designated ward, minor, or incompetent person.	The ward, minor, or incompetent person.	The individual whose SSN is entered.
4. Custodian account of a minor (Uniform Gifts to Minors Acts).	The minor.	The minor.
5. a. The usual revocable savings trust account (grantor is also trustee)	The grantor-trustee.	The grantor-trustee.
b. So-called trust account that is not a legal or valid trust under State law.	The actual owner.	The actual owner.
6. Sole proprietorship.	The owner.	The owner.

CHART 2. Guidelines for Employer Identification Numbers

For this type of account—	*In tape positions 12-20 of the Payee "B" Record enter the Employer Identification Number of—*	*In the Payee 1st Name Line of the Payee "B" Record, enter the name of—*
1. A valid trust, estate, or pension trust.	Legal entity.[1]	The legal trust, estate, or pension trust.
2. Corporate account.	The corporation.	The corporation.
3. Religious, charitable, or educational organization.	The organization.	The organization.
4. Partnership account held in the name of the business.	The partnership.	The partnership.
5. Association, club or other tax-exempt organization.	The organization.	The organization.
6. A broker or registered nominee.	The broker or nominee.	The broker or nominee.
7. Accounts with the Department of Agriculture in the name of a public entity (such as a State or local government, school district or prison that receives agriculture program payments).	The public entity.	The public entity.

[1] Do not furnish the identifying number of the personal representative or trustee unless the legal entity itself is not designated in the account title.

SEC. 11. EFFECT ON PAPER RETURNS

.01 Magnetic tape reporting of the information returns listed in Section 1 above applies only to the original (Copy A).

.02 Payers are permitted considerable flexibility in designing the copy of the information return to be furnished to the payee. The payer may combine the information return data with other reports or financial or commercial notices, or expand them to include other information of interest to a depositor, patron, or shareholder. This is permissible so long as all required information present on the official form is included and the payees' copies are conducive to proper reporting of income on tax returns. Payers must include the message "This information is being furnished on Form 1099 (or 1087) to the Internal Revenue Service" on the recipients' copies.

.03 If a portion of the returns is reported on magnetic tape and the remainder is reported on paper forms, those returns not submitted on magnetic tape must be filed on official forms or on paper substitutes meeting specifications in the revenue procedure on the reproduction of Forms 1099, 1087, and W-2G. Form 1099 BCD, 1099 F, and W-2G cannot currently be filed on magnetic tape.

SEC. 12. ADDITIONAL INFORMATION

Requests for additional copies of this revenue procedure or for additional information on tape reporting should be addressed to the attention of the magnetic media coordinator of one of the following:

(a) Internal Revenue Service
Andover Service Center
Post Office Box 311
Andover, MA 01810

(b) Internal Revenue Service
Brookhaven Service Center
P.O. Box 486
Holtsville, NY 11742

(c) Internal Revenue Service
Philadelphia Service Center
Post Office Box 245
Bensalem, PA 19020

PART B.—MAGNETIC TAPE SPECIFICATIONS

SECTION 1. GENERAL

.01 The magnetic tape specifications contained in this Part prescribe the required format and contents of the records to be included in the file. These specifications *must* be adhered to unless deviations have been specifically granted by the Service in writing.

.02 In most instances, the Service will be able to process any compatible tape files. Compatible tape files must meet any one set of the following:

(a) 7 channel BCD (binary coded decimal) with

(1) Either Even or Odd Parity and

(2) A density of 556 or 800 BPI

(b) 9 channel EBCDIC (Extended Binary Coded Decimal Interchange Code) with

(1) Odd Parity and

(2) A density of 800, or 1600.

(c) 9 channel ASCII (American Standard Coded Information Interchange) with

(1) Odd Parity and

(2) A density of 800 or 1600.

.03 Although the Service can process, after translation, tapes created at 6250 BPI, it is preferred that filers submit 1600 PBI tapes if possible. Payers/Transmitters must request permission from the service center magnetic media coordinator before submitting 6250 BPI tapes.

04. All compatible tape files must have the following characteristics:

(a) Type of tape—½ inch Mylar base, oxide coated; and

(b) Interrecord Gap—¾ inch.

.05 Service programs are capable of accommodating some minor deviations. Payers who can substantially conform to these specifications, but do require some minor deviations, must contact the magnetic media coordinator at the service center where the file will be submitted. *Under no circumstances may tapes deviating from the specifications in this revenue procedure be submitted without prior written approval from the Service.*

Sec. 2. Record Length

.01 The tape records prescribed in these specifications may be blocked or unblocked, subject to the following:

(a) *A block must not exceed 4,000 tape positions.*

(b) A record must be a minimum of 200 positions and a maximum of 360 positions.

(c) If the use of blocked records would result in a short block, all remaining positions of the block must be filled with 9's. *Do not pad a block with blanks.*

(d) All records except the Header and Trailer Labels, may be blocked.

.02 Provision is made in the Payee "B" Records for special data entries. These entries are optional. If the field is utilized, it must be present on all Payee "B" Records. The field is intended to serve one or both of these purposes:

(a) Contain information required by state or local governments. Filers who wish to use this option for satisfying state or local reporting requirements should contact their state or local department of revenue for filing instructions.

(b) Facilitate making all records the same length.

Sec. 3. Options for Filing

.01 For filing convenience, this procedure contains two options for using Header Labels and Payer/Transmitter "A" Records. For the purposes of this procedure the following conventions must be used:

Header Label:

1. Payers may use standard headers, provide they begin with 1HDR, HDR1, VOL1 or VOL2.

2. Consist of a maximum of 80 positions.

3. May not contain the letters A, B, C, D, E, or F in position 9.

Trailer Label:

1. Standard trailer labels may be used provided that they begin with 1EOR, 1EOF, EOR1, or EOF1.

2. Consist of a maximum of 80 positions.

Record Mark:

1. Special character used to separate blocked records on tape.

2. Can be written only at the end of a record or block.

3. For odd parity tapes, use BCD bit configuration 011010 ("A82").

Tape Mark:

1. Used to signify the physical end of the recording on tape.

2. For even parity, use BCD configuration 001111 ("8421").

3. May follow the header label and precede and/or follow the trailer label.

Option 1: When using this option, a correct Payer/Transmitter "A" Record, described in Sec. 4 below, is required as the first record on each reel. Filers using this option may have Header Labels preceding the "A" Record, however, headers are not required. The reel sequence number must appear in positions 3-5 of each "A" Record and must be incremented by 1 on each tape reel of the file after the first reel.

Option 2: Requires a Header Label as the first record on each reel. The Header Label must contain the reel sequence number and it must be incremented by 1 on each reel after the first reel. The "A" Record will contain the location of the reel sequence number in the Header Label. If your system generates a four-digit reel sequence number, ignore the first digit when determining the location for the purposes of the "A" Record.

Example: If your Header Label reel sequence is four digits (e.g. 0001) and is in position 28-31, enter 29 as the location in positions 3 and 4 of the "A" Record and also enter an "X" in position 5 of the "A" Record.

Example: If your Header Label reel sequence number is 3 digits (e.g. 001) and is in positions 10-12, enter 10 as the location in positions 3 and 4 of the "A" Record and also enter an "X" in position 5 of the "A" Record. This option requires a Trailer Label at the end of *each* reel. Also, ignore the "D" Record instructions in this Part if you use Option 2.

Sec. 4. Payer/Transmitter "A" Record

Identifies the payer and transmitter of the tape file and provides parameters for the succeeding Payee "B" Records. The Service's computer programs rely on the absolute relationship between the parameters in the "A" Record and the data fields in the "B" Records to which they apply.

The number of "A" Records appearing on a tape reel will depend on the number of payers and the different types of returns being reported. A transmitter may include Payee "B"

Records for more than one payer on a tape reel, however, each separate payer's Payee "B" Record(s) must be preceded by an "A" Record. A single tape reel may also contain different types of returns, but the returns may not be intermingled. A separate "A" Record is required for each type of return being reported. An "A" Record may be blocked with "B" Records, however, the "A" Record must appear as the first record in the block.

RECORD NAME: PAYER/TRANSMITTER "A" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Required. Enter "A".
2	Payment Year	1	Required. Must be the right most digit of the year for which payments are being reported (e.g. if payments were made in 1980, enter 0). This number must be incremented each year.
3-5	Reel Sequence Number	3	Required. Sequence number of the reel in the tape file. (See explanation in Sec. 3 above). Position 5 *must* contain an "X" if you are using Option 2.
6-14	Payer's Federal EIN	9	Required. Must be the valid 9-digit number assigned to the payer by IRS. DO NOT ENTER HYPHENS, ALPHA CHARACTERS OR ALL 9's or ZEROS.
15	Type of Payer	1	Required. Enter the appropriate code from the table below: *Type of Payer* — *Code* Non-government — P Federal government — F State or local government — W
16	Blank	1	Enter blank (Reserved for IRS Use).
17	Type of Return	1	Required. Enter appropriate code from the table below: *Type of Return* — *Code* 1099R — 9 1099-DIV — 1 1099-INT — 6 1099-MISC — A 1099L — E 1099-MED — C 1099-OID — D 1099-PATR — 7 1099-NEC — Q 1099-UC — P 1087-DIV — 2 1087-INT — M 1087-MISC — G 1087-MED — K 1087-OID — H Agriculture Subsidy Payments — 4
18-24	Amount Indicator	Variable	Required. The amount code entered for a given return indicates the type(s) of payment(s) which were made. Example: If position 17 of the Payer/Transmitter "A" Record is 6 (for 1099-INT) and positions 18-24 are "24bbbbb", this indicates that two amount fields are present in all the following Payee "B" Records. The first field contains interest from Savings and Loan Association and the other contains Amount of forfeiture.
	Amount Indicator Form 1099R		For Reporting Payments on Form 1099R:

Tape Position	Field Title	Length	Description and Remarks

Amount Code — *Amount Type*

1 Amount includable as income (add amounts for codes 2, 3, and 4). *MUST BE GROSS AMOUNT.*
2 Capital gain (for lump-sum distributions only).
3 Ordinary income.
4 Premiums paid by trustee or custodian for current insurance.
5 Employee contributions to profit-sharing or retirement plans.
6 Amount of IRA distributions (do not include code 4 amount).
7 Net unrealized appreciation in employer's securities.
8 Other

Example: If position 17 of the Payer/Transmitter "A" Record is 9 (for 1099R), and positions 18-24 are "1354bbb", this indicates that 4 amount fields are present in all the following Payee "B" Records. The first field represents Amount includable as income; the second, Ordinary income; the third, Premiums paid by trustee or custodian for current insurance; the fourth, Employee contributions to profit-sharing or retirement plans.

Please Note: If you are reporting IRA distributions using amount code 6, only one payment amount may be present—all others *must* be blank.

Amount Indicator Form 1099-DIV

For Reporting Payments on Form 1099-DIV:

Amount Code — *Amount Type*

1 Gross dividends and other distributions on stock (*must* be gross amount).
4 Dividends qualifying for exclusion (included in amount for code 1).
5 Dividends not qualifying for exclusion (included in amount for code 1).
6 Capital gain distributions.
7 Non-taxable distribution (if determinable).
8 Foreign tax paid (if eligible for foreign tax credit).

Example: If position 17 of the Payer/Transmitter "A" Record is 1 (for 1099-DIV) and positions 18-24 are "16bbbbb", this indicates that 2 amount fields are present in all the following Payee "B" Records. The 1st field represents Gross dividends and other distributions on stock; the 2nd, Capital gain distributions.

Please Note: The sum of the amounts for codes 4 and 5 *must* equal that for code 1. Amounts for codes 6 and 7 must be included in that for code 1; however, they will not necessarily equal that for code 1.

Amount Indicator Form 1099-INT

For Reporting Payments on Form 1099-INT:

Tape Position	Field Title	Length	Description and Remarks

Amount Code — *Amount Type*

- 2 — Earnings from savings and loan associations, credit unions, etc.
- 3 — Other interest on bank deposit (Do not include amounts reported for code 2).
- 4 — Amount of forfeiture
- 9 — Foreign tax credit

Example: If position 17 of the Payer/Transmitter "A" Record is 6 (for 1099-INT), and positions 18-24 are "34bbbbb", this indicates that 2 amount fields are present in all the following Payee "B" Payee Records. The 1st field represents Other interest on bank deposits, etc.; the 2nd, Amount of forfeiture.

Please Note: Do not subtract the amount for code 4 from the amount in code 2 or 3 (for certificates of deposit only).

Amount Indicator Form 1099-MISC

For Reporting Payments on Form 1099-MISC:

Amount Code — *Amount Type*

- 1 — Royalties
- 2 — Prizes and awards (No Forms W-2 or 1099-NEC items)
- 5 — Rents
- 6 — Other fixed or determinable income

Example: If position 17 of the Payer/Transmitter "A" Record is "A" (for 1099-MISC) and positions 18-24 are "125bbbb", this indicates that 3 amount fields are present in all the following Payee "B" Records. The 1st field represents Royalties; the 2nd, Prizes and awards, and the 3rd, Rents.

Amount Indicator Form 1099L

For Reporting Payments on Form 1099L:

Amount Code — *Amount Type*

- 1 — Cash
- 2 — Fair market value at date of distribution

Example: If position 17 of the Payer/Transmitter "A" Record is "E" (for 1099L) and positions 18-24 are "1bbbbbb", this indicates that 1 amount field is present in all the following Payee "B" Records. This amount field represents Cash.

Amount Indicator Form 1099-MED

For Reporting Payments on Form 1099-MED:

Amount Code — *Amount Type*

- 1 — Total medical and health care payments

Example: If position 17 of the Payer/Transmitter "A" Record is "C" (for 1099-MED), positions 18-24 must be "1bbbbbb". This indicates one amount field is present in all the following

Tape Position	Field Title	Length	Description and Remarks
			Payee "B" Records and represents Total medical and health care payments. *No other coding is permissible for this type of payment.*
	Amount Indicator Form 1099-OID		For Reporting Payments on Form 1099-OID: *Amount Code* — *Amount Type* 1 — Total original issue discount in 1980 for all holders of discount obligations from financial institutions 2 — Total original issue discount in 1980 for all holders of corporate obligations 3 — Issue price of obligation 4 — Stated redemption price at maturity 5 — Ratable monthly portion *Example:* If position 17 of the Payer/Transmitter "A" Record is "D" (for 1099-OID), and positions 18-24 are "134bbbb", this indicates that all three amount fields are present in all the Payee "B" Records following. The 1st field represents total original issue discount in 1980 for all holders of discount obligations from financial institutions; the 2nd Issue price of obligation; and the 3rd Stated redemption price at maturity.
	Amount Indicator Form 1099-PATR		For Reporting Payments on Form 1099-PATR: *Amount Code* — *Amount Type* 1 — Patronage dividends 2 — Nonpatronage dividends 3 — Per-unit retain allocations 4 — Redemption of nonqualified notices and retain allocations *Example:* If position 17 of the Payer/Transmitter "A" Record is "7" (for 1099-PATR) and positions 18-24 are "134bbbb", this indicates that 3 amount fields are present in all the following Payee "B" Records. The 1st field represents Patronage Dividends; the 2nd, Per-Unit Retain Allocations; the 3rd, Redemption of Nonqualified Notices and Retain Allocations.
	Amount Indicator Form 1099-NEC		For Reporting Payments on Form 1099-NEC: *Amount Code* — *Amount Type* 1 — Fees, commissions, and other compensation *Example:* If position 17 of the Payer/Transmitter "A" Record is "Q" (for 1099-NEC), positions 18-24 must be "1bbbbbb". This indicates one amount field is present in all the following Payee "B" Records and represents Fees, commissions and other compensation. *No other coding is permissible for this type of payment.*
	Amount Indicator Form 1099-UC		For Reporting Payments on Form 1099-UC:

Tape Position	Field Title	Length	Description and Remarks
			Amount Code — *Amount Type* 1 — Total unemployment compensation payments *Example:* If position 17 of the Payer/Transmitter "A" Record is "P" (for 1099-UC), positions 18-24 must be "1bbbbbb". This indicates one amount field is present in all the following Payee "B" Records and represents Total unemployment compensation payments. *No other coding is permissible for this type of payment.*
	Amount Indicator Form 1087-DIV		For Reporting Payment on Form 1087-DIV: *Amount Code* — *Amount Type* 1 — Gross dividends and other distribution on stock 2 — Dividends not qualifying for exclusion (included in amount for code 1) 3 — Capital gain distributions (included in amount of code 1) 4 — Foreign tax paid (if eligible for foreign tax credit) *Example:* If position 17 of the Payer/Transmitter "A" Record is "2" (for 1087-DIV) and positions 18-24 are "12bbbbb", this indicates that two amounts fields are present in all the following Payee "B" Records. The 1st field represents Gross dividends and other distributions on stock; the 2nd, Dividends not qualifying for exclusion (included in amount for code 1). Please Note: The sum of the amounts for codes 2 and 3 must equal that for code 1.
	Amount Indicator Form 1087-INT		For Reporting Payments on Form 1087-INT: *Amount Code* — *Amount Type* 1 — Earnings from savings and loan associations, credit unions, etc. 2 — Other interest on bank deposits, etc. (Do not include amounts reportable under Amount Code 1.) 3 — Foreign tax paid (if eligible for foreign tax credit) 4 — Amount of forfeiture *Example:* If position 17 of the Payer/Transmitter "A" Record is "M" (or 1087-INT) and positions 18-24 are "123bbbb", this indicates that all 3 amount fields are present in all the Payee "B" Records. The 1st field represent Earnings from savings and loan associations, credit unions, etc.; the 2nd, Other interest on bank deposits, etc.; and 3rd, Foreign tax paid. Please Note: Do not subtract the amount for code 4 from the amount in code 2 or 3.
	Amount Indicator Form 1087-MISC		For Reporting Payments on Form 1087-MISC:

Tape Position	Field Title	Length	Description and Remarks
			Amount Code — *Amount Type* 1 Royalties 2 Prizes and awards (No Forms W-2 or 1099-NEC items) 3 Rents 4 Other fixed or determinable income *Example:* If position 17 of the Payer/Transmitter "A" Record is "G" (for 1087-MISC) and positions 18-24 are "13bbbbb", this indicates that 2 amount fields are present in all the following Payee "B" Records. The 1st field represents Royalties; the 2nd, Rents.
	Amount Indicator Form 1087-MED		For Reporting Payments on Form 1087-MED: *Amount Code* — *Amount Type* 1 Total medical and health care payments *Example:* If position 17 of the Payer/Transmitter "A" Record is "K" (for 1087-MED), positions 18-24 must be "1bbbbbb". This indicates one amount field is present in all the following Payee "B" Records and represents Total medical and health care payments. *No other coding is permissible for this type of payment.*
	Amount Indicator Form 1087-OID		For Reporting Amounts on Form 1087-OID: *Amount Code* — *Amount Type* 1 Total original issue discount in 1980 for all holders of discount obligations from financial institutions 2 Total original issue discount in 1980 for all holders of corporate obligations 3 Issue price of obligation 4 Stated redemption price at maturity 5 Ratable monthly portion *Example:* If position 17 of the Payer/Transmitter "A" Record is "H" (for 1087-OID), and positions 18-24 are "134bbbb", this indicates that three amount fields are present in all the Payee "B" Records. The 1st field represents total original issue discount in 1980 for all holders of discount obligations from financial institutions; the 2nd, issue price of obligation; and the 3rd, stated redemption price at maturity.
25	Savings and Loan Code	1	Enter "S" if the payer is a savings and loan, building and loan, mutual savings bank, or credit union. If the payer is none of these, enter blank.
26	Blank	1	Enter blank.
27	Surname Indicator	1	Enter "1" if the payees' surnames appear first in the name line of the "B" Records. Enter "2" if the payees' names appear last.

RECORD NAME: PAYER/TRANSMITTER "A" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
			If business and individual entities are contained in the file, enter blanks.
28-30	"A" Record Length	3	Required. Enter the number of positions allowed for the 'A" Record.
31-33	"B" Record Length	3	Required. Enter the number of positions allowed for the "B" Records. Include positions used for the special data fields, if used.
34	Blank	1	Enter blank.
35-39	Transmitter Control Code	5	Required. Enter the 5-digit Transmitter Control Code assigned by the IRS.
40	Blank	1	Enter blank.
41-120	Payer Name	80	Required. Enter the name of the payer in the manner in which it is used in normal business. *Any extraneous information (such as bond maturity dates)* must *be deleted from the name line* Left justify and fill with blanks.
121-160	Payer Street Address	40	Required. Enter the street address of the payer. Left justify and fill with blanks. If the payer does not have a street address, this field *must* be blank-filled.
161-200	Payer City, State and Zip Code	40	Required. Enter the city, state and zip code of the payer. Left justify and fill with blanks. DO NOT FILL WITH ALL BLANKS OR ALL 9's.
201-280	Transmitter's Name	80	Enter the name of the transmitter in the manner in which it is used in normal business. *The name of the transmitter should be constant through the entire file.* Left justify and fill with blanks.
281-320	Transmitter Street Address	40	Enter the street address of the transmitter. Left justify and fill with blanks. If the transmitter does not have a street address, this field must be blank.
321-360	Transmitter City, State and Zip Code	40	Enter the city, state, and zip code of the transmitter. Left justify and fill with blanks. DO NOT FILL WITH ALL BLANKS OR ALL 9's.

SEC. 5. PAYEE "B" RECORDS

.01 Contains payment record from individual statements. All records must be fixed length. Records may be blocked or unblocked. A block may not exceed 4000 positions. Do not pad unused blocks with blank records.

.02 All payee records must contain correct payee name and address information entered in the fields prescribed in this Part.

.03 The Service must be able to identify the surname associated with the taxpayer identifying number (SSN or EIN) furnished on a statement. The specifications below include a field in the payee records called "Name Control" in which the first four alphabetic characters of the payee surname are to be entered by the payers. In addition, a blank *must* precede the identifying surname in the first name line of all Payee "B" Records unless the surname begins in the first position of the field.

.04 If payers are unable to provide the first four characters of the surname, the specifications permit the submission of statements on magnetic tape with the Name Control Field left blank; however, compliance with the following will facilitate the Service computer programs required to generate the Name Control.

(a) The surname of the payee whose taxpayer identifying number (SSN or EIN) is shown in the Payee "B" Record, *must* be the *only* name in the first name line.

(b) A blank must precede the surname unless the surname begins in the first position of the field.

(c) In the case of multiple payees, only the surname of the payee whose taxpayer identifying number (SSN or EIN) is shown in the Payee "B" Record, must be present in the first name line. Surnames of any other payees in the record must be entered in the second name line.

05. Provision is also made in these specifications for data entries required by state or local governments. This should minimize the Payer/Transmitter's programming burden should payers desire to report on tape to state or local governments.

RECORD NAME: PAYEE "B" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Required. Enter "B".
2-3	Payment Year	2	Required. Must be the two last digits of the year for which payments are being reported (e.g. if payments were made in 1980, enter "80"). Must be incremented each year.
4	Category of Distribution (*for reporting IRA income only*)	1	Use *only* for Form 1099R. Identify the category of distribution and enter the applicable code from the table below. *Category* — *Code* Premature distribution (other than codes 2, 3, 4, or 5 below) — 1 Rollover — 2 Disability — 3 Death — 4 Prohibited transaction — 5 Other — 6 Normal — 7 Excess contributions refunded plus earnings on such excess contributions — 8 Transfers to an IRA for a spouse incident to a divorce — 9
5-6	Blank	2	Enter blanks. (Reserved for Service use).
7-10	Name Control	4	Enter the first 4 letters of the surname of the payee. Last names of less than four (4) letters should be left justified, filling the unused positions with blanks. Special characters and imbedded blanks should be removed. If the Name Control is not determinable by the payer, leave this field blank.
11	Type of Account	1	This field is used to identify the data in 12-20 as to Employer Identification Number, Social Security Number, or the reason no number is shown. Enter a "blank" if a taxpayer identifying number is required but unobtainable due to legitimate cause; e.g., number applied for but not received. 1) Enter the digit "1" if the payee is a business or any organization for which an EIN was provided. 2) Enter the digit "2" if the payee is an individual and an SSN is provided in positions 12-20.
12-20	Taxpayer Identifying Number	9	Required. Enter the valid 9-digit taxpayer identifying number of the payee (SSN or EIN, as appropriate). Where an identifying number has been applied for but not received or any other legitimate cause for not having an identifying number, enter blanks. DO NOT ENTER HYPHENS, ALPHA CHARACTERS, OR ALL 9's OR ALL ZEROS.
21-30	Account Number	10	Optional. Payers may use this field to enter the payee's account number. Although this item is optional, its use will facilitate easy reference to specific records in the payer's file, should any questions arise. *Do Not Enter a Customer Identification Number in This Field.*

Tape Position	Field Title	Length	Description and Remarks
31-110	Payment Amount Fields		The number of payment amounts is dependent on the number of Amount Indicators in positions 18-24 of the "A" Record. Each payment amount field *must* contain 10 characters. Do not provide a payment amount field when the Amount Indicator is blank. Each payment amount must be entered in dollars and cents. *Do not enter dollar signs, commas, decimal points, or negative payments.* Example: The Amount Indicator contains 123bbbb. Payee "B" Records in this field should have only three payment amount fields. If Amount Indicator contains 12367bb, the "B" Records should have 5 payment amount fields. Payment amounts MUST be right-justified and unused portions MUST be zero-filled.
31-40	Payment Amount Field 1	10	This amount is identified by the amount code in position 18 of the Payer/Transmitter "A" Record. This entry must always be present.
41-50	Payment Amount Field 2	10	This amount is identified by the amount code in position 19 of the Payer/Transmitter "A" Record. If position 19 of the Payer/Transmitter "A" Record is blank, do not provide for this payment field.
51-60	Payment Amount Field 3	10	This amount is identified by the amount code in position 20 of the Payer/Transmitter "A" Record. If position 20 of the Payer/Transmitter "A" Record is blank, do not provide for this payment field.
61-70	Payment Amount Field 4	10	This amount is identified by the amount code in position 21 of the Payer/Transmitter "A" Record. If position 21 of the Payer/Transmitter "A" Record is blank, do not provide for this payment field.
71-80	Payment Amount Field 5	10	This amount is identified by the amount code in position 22 of the Payer/Transmitter "A" Record. If position 22 of the "A" Record is blank, do not provide for this payment field.
81-90	Payment Amount Field 6	10	This amount is identified by the amount code in position 23 of the Payer/Transmitter "A" Record. If position of the "A" Record is blank, do not provide for this payment field.
91-100	Payment Amount Field 7	10	This amount is identified by the amount code in position 24 of the "A" Record. If position 24 of the "A" Record is blank, do not provide for this payment field.
Next 40 positions after the last Payment Amount Field used	Payee-Name (1st name line) (A blank must precede the surname unless the surname begins in the first position of the field)	40	Required. Enter the name of the payee whose taxpayer identifying number appears in tape positions 12-20 above. If fewer than 40 characters are required, left justify and fill unused positions with blanks. If more space is required, utilize the 2nd Name Line field below. If there are multiple payees, *only* the name of the payee whose taxpayer identifying number has been provided can be entered in this field. The names of the other payees may be entered in the 2nd Name Line field. The order in which the payee's name appears in this field must correspond with the Surname Indicator entered in tape position 27 of the Payer/Transmitter "A" Record. No descriptive or other data is to be entered in this field.

RECORD NAME: PAYEE "B" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
Next 40 positions after the 1st Name Line	Payee Name (2nd Name Line)	40	If the payee name requires more space than is available in the 1st Name Line, enter the remaining portion of the name in this field. If there are multiple payees, this field may be used for those payees' names who are *not* associated with the taxpayer identifying number provided in tape positions 12-20 above. Left justify and fill unused positions with blanks. Fill with blanks if this field is not required.
Next 40 positions after 2nd Name Line	Payee Street Address	40	Enter street address of payee. Left justify and fill unused positions with blanks. Address *must* be present. This field *must not* contain any data other than the payee's street address.
Next 40 positions after the street address	Payee City, State and Zip Code	40	Required. Enter the city, state and ZIP code of the payee, in that sequence. Use U.S. Postal Service abbreviations for states. Left justify and fill unused positions with blanks. City, state and ZIP code *must* be present.
Next field after City, State and Zip Code	Special Data Entries		Optional. The last portion of the "B" Record may be used to record information required for State or local government reporting, or for other purposes. The special data entries will begin in positions 201, 211, 221, 231, 241, 251, or 261, depending on the number of payment amount fields included in the record. Special Data Entries may be used to make all records the same length; however, the record length may not exceed 360 positions. Payers should contact their state or local revenue departments for their filing requirements.

NOTE 1: The first name of the Payee shown as beginning the tape position 101 must be shifted to the field immediately following the last payment amount field used. *For example,* if two payment amount fields are used, the first name line field would be shifted to position 51. Succeeding fields would be shifted accordingly. Also see SEC. 11 below for a record layout reflecting 2 payment amount fields.

SEC. 6. END OF PAYER "C" RECORD

.01 The End of Payer "C" Record is a summary record for a given payer. It must be the same length as the "B" Records in the payer's file.

.02 The "C" Record will contain the totals of the payment amount fields and the payees filed by a given payer. The "C" Record must be written after the last payee record for each payer. For each "A" Record on the file, there must be a corresponding "C" Record.

.03 Payers/transmitters must verify the accurary of the totals in the "C" Record and must enter the totals on the transmittal, Form 4804, which will accompany the shipment.

.04 The "C" Record cannot be followed by a Tape Mark

RECORD NAME: END OF PAYER "C" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Required. Enter "C".
2-7	Number of Payees	6	Required. Enter the number of payees covered by the payer on this tape reel. Right justify and zero fill.
	Totals from Payment Amount Fields		Right justify and zero fill each Control Total amount. If less than seven amount fields are being reported, zero fill tape fields for Control Totals 3, 4, 5, 6, and 7. Option 1—Enter the grand total of each payment amount field for the given payer of this reel.

RECORD NAME: END OF PAYER "C" RECORD

Tape Position	Field Title	Length	Description and Remarks
			Option 2—If the given payer's file is continued on multiple reels, enter the grand total of each payment amount field for that payer on this tape reel and on prior reel(s).
8-19	Control Total 1	12	
20-31	Control Total 2	12	
32-43	Control Total 3	12	
44-55	Control Total 4	12	
56-67	Control Total 5	12	
68-79	Control Total 6	12	
80-91	Control Total 7	12	
92-end of record	Blanks		Enter blanks.

SEC. 7. END OF REEL "D" RECORD —OPTIONAL

0.1 The End of Reel "D" Record will be present for Option 1 only. It must be the same length as the "B" Records.

.02 Write this record when the end of the normal writing area of the reel has been reached, but all the records of the file have not been written. This record indicates that there are additional reels in the file.

.03 Each "D" Record must contain a count of payees and totals of each payment amount reported for all "B" Records not summarized in the preceding "C" Records on the reel.

.04 If you do not wish to use a "D" Record, or your system is unable to generate it, you may delete it; however, the last "B" Record on the tape reel *MUST* be followed by a Tape Mark.

SEC. 8. END OF TRANSMISSION "F" RECORD

.01 The "F" Record is a summary of the number of payers and tapes in the entire file.

.02 This record should be written after the last "C" Record.

.03 Only a Tape Mark or a Tape Mark and Trailer Label may follow the "F" Record.

.04 The "F" Record *must* be the same length as the "B" Records.

RECORD NAME: END OF TRANSMISSION "F" RECORD

Tape Position	Field Type	Length	Description and Remarks
1	Record Type	1	Required. Enter "F".
2-5	Number of Payers	4	Required. Enter the total number of payers in the transmission. Right justify and zero fill.
6-8	Number of Tapes	3	Required. Enter the total number of tapes in the transmission.
9-30		22	Right justify and zero fill.
31-end of record			Required. Enter zeroes. Enter blanks.

SEC. 9. TAPE LAYOUTS—OPTION 1

The following charts show, by type of file, the record types to be used in the first two and the last three records written on a tape reel when only one type of document (file) is reported on a reel or series of reels.*

Type of File	1st record type	2nd record type	2nd from last record type	Next to last record type	Last record type
Single payer, single reel	A	B	B	C [1]	F
Single payer, multiple reels:					
Reel 1	A	B	B	B	TM [2]
Last reel	A	B	B	C [1]	F
Multiple payers, single reel:					
Payer 1	A	B	B	B	C [1]
Payer 2	A	B	B	B	C [1]
Last payer	A	B	B	C [1]	F
Multiple payers, multiple reels: First payer's records split between reel 1 and reel 2; second payer's records split between reel 2 and reel 3:					
Reel 1: Payer 1	A	B	B	B	TM [2]
Reel 2:					
Payer 1	A	B	B	B	C [1]
Payer 2	A	B	B	B	TM [2]
Reel 3:					
Payer 2	A	B	B	B	C [1]
Payer 3	A	B	B	C [1]	TM [2]
Reel 4: Last Payer	A	B	B	C [1]	F
Multiple payers, single transmitter, separate files for each payer:					
File 1: Payer 1: Last reel	A	B	B	C [1]	F
File 2: Payer 2:					
Reel 1	A	B	B	B	TM [2]
Last reel	A	B	B	C [1]	F
File 3: Payer 3: Last reel	A	B	B	C [1]	F
Single payer, multiple transmitter (payer submits files from various locations):					
Payer 1:					
Location 1: Last reel	A	B	B	C [1]	F
Location 2: Last reel	A	B	B	C [1]	F
Single payer, multiple transmitter, etc.:					
Location 3:					
Reel 1	A	B	B	B	TM [2]
Reel 2	A	B	B	B	TM [2]
Last reel	A	B	B	C [1]	F

[1] Must contain "Number of Payers" and "Control Totals" summarizing all Payee Records written for this Payer on this reel.
[2] Tape Mark.
*When more than one type of document (file) is reported on a tape reel, there will be a corresponding increase in the series of "A," "B—B" and "C" records since, within a tape reel, a file is equivalent to an "A" record, a series of "B" records and a "C" record for a single payer.

SEC. 10. TAPE LAYOUTS—OPTION 2

(REEL SEQUENCE NUMBER IS IN THE HEADER LABEL).

Where the Header Label is the first record, the following charts show, by type of file, the record types to be used in the 2nd and 3rd records and the last three records written on a tape reel prior to the Trailer label when only one type of document (file) is reported on a reel or series of reels.*

Type of File	1st record type after Header Label	2nd record type after Header Label	2nd from last record type	Next to last record type	Last record type
Single payer, single reel	A	B	B	C [1]!	F
Single payer, multiple reels:					
Reel 1	A	B	B	B	B
Last reel	B	B	B	C [2]	F
Multiple payers, single reel:					
Payer 1	A	B	B	B	C [1]
Payer 2	A	B	B	B	C [1]
Last payer	A	B	B	B	B
Multiple payers, multiple reels; first payer's records split between reel 1 and reel 2; second payer's records split between reel 2 and reel 3:					
Reel 1: Payer 1	B	B	B	B	C [3]
Reel 2:					
Payer 1	A	B	B	B	B
Payer 2	A	B	B	C [1]	F
Reel 3:					
Payer 2	B	B	B	B	C [3]
Payer 3	A	B	B	C [3]	A
Reel 4:					
Payer 4	B	B	B	C [3]	F
Multiple payers, single transmitter, separate files for each payer:					
File 1: Payer 1: Last reel	B	B	B	C [2]	F
File 2: Payer 2:					
Reel 1	A	B	B	B	B
Last reel	B	B	B	C [2]	F
Single payer, multiple transmitter (payer submits files from various locations):					
Each Location:					
1st reel	A	B	B	B	B
Last reel	B	B	B	C [2]	F
Single payer, multiple transmitter, etc.:					
Location 3:					
Reel 1	A	B	B	B	B
Reel 2	B	B	B	B	B
Last reel	B	B	B	C [2]	F

[1] Must contain "Number of Payees" and "Control Totals" summarizing all Payee "B" Records written for this payer on this reel.
[2] Must contain "Number of Payees" and "Control Totals" summarizing all Payee "B" Records written for this payer on this reel and on prior reel(s).
[3] Must contain "Number of Payees" and "Control Totals" summarizing all Payee "B" Records written for this payer on this reel and for this payer on the prior reel(s).
*When fore than one type of document (file) is reported on a tape reel, there will be a corresponding increase in the series of "A," "B—B" and "C" records since, within a tape reel, a file is equivalent to an "A" record, a series of "B" records and a "C" record for a single payer.

Sec. 11. Effect on other Documents

Rev. Proc. 79-66 is superseded.

Exhibit "A"

Form **4419** (Revised October 1980) Department of the Treasury Internal Revenue Service	**Application for Magnetic Media Reporting of Information Returns**	IRS Use Only TCC:

1. Please fill in this form and send to:

Internal Revenue Service Center

2. Name and address of organization *(street, city, State and ZIP code)*

3. Payment year for which you plan to begin reporting on magnetic media: _____

4. Employer identification number

5. Kind of magnetic media you plan to submit: *(check one)*

☐ Tape ☐ Diskette

☐ Disk pack ☐ Cartridge disk

6. Person to contact about this request

Name:

Title:

Telephone number *(include area code)*

7. **Documents To Be Reported**

Form	Estimated Volume		Form	Estimated Volume	
	Magnetic media	Paper		Magnetic media	Paper
☐ 1099-DIV			☐ 1087-DIV		
☐ 1099-INT			☐ 1087-INT		
☐ 1099-MISC			☐ 1087-MISC		
☐ 1099-MED			☐ 1087-MED		
☐ 1099-OID			☐ 1087-OID		
☐ 1099-R			☐ 1042S		
☐ 1099-L			☐ 1099-NEC		
☐ 1099-PATR			☐ 1099-UC *(for use by States only)*		

8. **Kind of equipment on which media will be prepared**

Main frame *(all media types)*		Drive unit *(all media)*	
Manufacturer	Model	Manufacturer	Model

Tape only			All media types
Width	Tracks ☐ 7 ☐ 9	Density	Recording code (e.g., FBCDIC, BCD, or ASCII)

9. **Internal Revenue Service office where paper information returns, if any, will be filed**

Form 1099 Series	Form 1087 Series	Form W-2G

10. If your firm is acting as agent, please list the name and employer identification number of each payer on a separate sheet and attach it to this application.

11. Person responsible for preparation of tax reports.	Name *(type or print)*	Title
	Signature	Date

Form **4419** (Rev. 10-80)

Instructions for Form 4419

Payers or agents who decide to file information returns on magnetic media must complete Form 4419 to receive authorization for filing. Please be sure to complete all appropriate blocks as explained in the following instructions:

Block 2: Enter the name and complete address of the person or organization that will prepare and submit the magnetic media.

Block 3: Show the tax (payment) year for which you intend to begin filing information returns on magnetic media.

Block 5: Check the kind of magnetic media you plan to submit. If you plan to submit more than one kind of magnetic media, you should complete a separate application for each kind.

Block 7: Check the boxes next to all of the information returns you file with the Internal Revenue Service.

a. Magnetic media column: Enter the total number of individual information returns to be reported on magnetic media (an estimate is acceptable).

b. Paper column: Enter the total number of individual information returns to be reported on paper if all returns will not be filed in magnetic media form (an estimate is acceptable). In BLOCK 9 indicate the IRS office where you will file the paper returns.

Block 10: If your firm is preparing information returns on magnetic media for payers other than itself, attach to your application a list of the names and employer identification numbers of the payers. If you add or delete any payers from your file, you *must* submit an updated list of payers.

Block 11: The form must be signed and dated by an official of the company or organization requesting authorization to report on magnetic media.

Filing Your Application

1. The completed application and any attached lists should be mailed to the Internal Revenue Service Center at the address shown in BLOCK 1.

2. Upon receipt of the application, we will review it. If it is acceptable, we will send you an authorization letter within 30 days. Do not submit magnetic media until you receive an authorization letter.

3. We encourage new filers to submit test data on magnetic media for review before the filing season. If you want to submit test data, contact the magnetic media coordinator where you file your application.

4. Your authorization will be valid as long as the magnetic media submitted conforms to the specifications of the applicable revenue procedures. However, a new application is required if:

   a. filing is discontinued and then resumed,

   b. there is any change in the equipment listed on the application,

   c. there is any addition or deletion to the list of information returns to be filed on magnetic media.

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability. (Also Part I, Sections 61, 3401, 6041; 1.61-2, 31.3401(a)-1, 1.6041-2.)

Rev. Proc. 80-53

SECTION 1. PURPOSE

The purpose of this revenue procedure is to set forth the procedures the Internal Revenue Service will follow to implement the decision of the Supreme Court of the United States in *Central Illinois Public Service Company v. United States*, 435 U.S. 21 (1978), 1978-1 C.B. 310.

SEC. 2. BACKGROUND

.01 In *Central Illinois*, the Supreme Court of the United States held that cash reimbursements for lunch expenses of employees on nonovernight company travel were not wages for purposes of income tax withholding under section 3401(a) of the Internal Revenue Code. The reimbursements were includible in the gross incomes of the employees, but the Court indicated that the requirement to withhold income tax is narrower than the requirement to include in gross income and that the Service's regulations and rulings did not put the employer on notice that it was obligated to withhold income tax on such payments.

.02 Pub. L. No. 95-427, section 1, 1978-2 C.B. 363, 364, as amended by Pub. L. No. 96-167, section 1, 1980-1 C.B. 483, 484, provides that the Treasury Department (Internal Revenue Service) is precluded from issuing final regulations, under section 61 of the Code, that would govern the income tax treatment of fringe benefits, prior to June 1, 1981. In addition, no regulations relating to the treatment of fringe benefits under section 61 are to be proposed that would be effective prior to June 1, 1981. Pub. L. Nos. 95-427 and 96-167 relate only to the issuance of regulations. However, it was also Congressional intent that no revenue rulings or revenue procedures be issued if they altered, or deviated from, in any significant way, the historical treatment of fringe benefits. See H.R. Rep. No. 95-1232, 95th Cong., 2d Sess. 5 (1978), 1978-2 C.B. 365, 366, and S. Rep. No. 96-433, 96th Cong., 1st Sess. 5 (1979), 1980-1 C.B. 486, 488, respectively.

.03 Section 6041 of the Code provides that all persons engaged in a trade or business and making payments in the course of such trade or business to another person of salaries, wages, compensations, remunerations, or other fixed or determinable gains, profits, and income, of $600 or more, in any taxable year must file a return.

.04 Section 1.6041-2 of the Income Tax Regulations provides that payments of compensation other than wages, as defined in section 3401, including the cash value of payments made in any medium other than cash, to an employee by an employer in the course of the trade or business of the employer must be reported on Form W-2, Wage and Tax Statement, if the total of such payments and the amount of the employee's wages required to be reported on Form W-2 aggregates $600 or more in a calendar year. The employer may elect to report the compensation other than wages on a separate Form W-2.

SEC. 3. TREATMENT OF FRINGE BENEFITS UNDER SECTIONS 61, 3401, AND 6041 OF THE CODE

.01 The Internal Revenue Service will continue to follow existing regulations, revenue rulings, revenue procedures, and case law in determining whether particular fringe benefits are compensation includible in gross income under section 61 of the Code.

.02 However, those fringe benefits that the Service will continue to treat as includible in gross income under .01 above will not be treated as wages under section 3401(a) of the Code, if

1 the payments are not the type of benefit treated as wages under the statute, a regulation, a revenue ruling, a revenue procedure, or a court decision; and

2 there is a reasonable basis for the belief that such benefits should not be considered as remuneration for services.

.03 Those fringe benefits that are includible in gross income as compensation under section 61 of the Code, but that are not treated as wages under section 3401(a), must be reported by employers as other compensation on a Form W-2 prepared for each employee if the total of such compensation paid to the employee and the amount of the employee's wages to be reported on Form W-2 aggregates $600 or more in a calendar year. Section 1.6041-2 of the regulations. For example, the cash reimbursements for lunch expenses of employees on non-overnight company travel must be reported, if the total of such compensation paid to the employee and the amount of the employee's wages to be reported on Form W-2 aggregates $600 or more in a calendar year.

SEC. 4. FEDERAL INSURANCE CONTRIBUTIONS ACT AND FEDERAL UNEMPLOYMENT ACT

.01 This revenue procedure has no effect upon the rules for determining whether fringe benefits are wages for purposes of the taxes imposed by the Federal Insurance Contributions Act and the Federal Unemployment Tax Act.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 7701; 301.7701-4.)

Rev. Proc. 80-54

SECTION 1. PURPOSE

The purpose of this revenue procedure is to modify and supersede Rev. Proc. 79-1, 1979-1 C.B. 481, by specifying revised conditions that must be present before the Internal Revenue Service will consider issuing advance rulings concerning the classification of organizations as liquidating trusts under section 301.7701-4 of the Procedure and Administration Regulations.

SEC. 2. SCOPE

The operating rules published in this revenue procedure are intended solely to assist taxpayers and their representatives in preparing ruling requests. These operating rules do not define, as a matter of law, the circumstances under which an organization will be classified as a liquidating trust for federal income tax purposes. That determination can be made only after examination of all the facts and circumstances in connection with the operation and activities of the trust. An organization will be considered a liquidating trust if it is organized for the primary purpose of liquidating and distributing assets transferred to it, and if its activities are all reasonably necessary to, and consistent with the accomplishment of that purpose. If the liquidation is unreasonably prolonged or if the liquidation purpose becomes so obscured by business activities that the declared purpose of liquidation can be said to be lost or abandoned, the status of the organization will no longer be that of a liquidating trust.

A ruling requested under this revenue procedure will usually be issued if the operating rules in Section 4 of this revenue procedure and the pertinent provisions of the Internal Revenue Code, Income Tax Regulations, revenue rulings and other revenue procedures are complied with.

The authority and general procedures of the National Office and the Offices of the District Directors of the Internal Revenue Service for the issuance of advance rulings and determination letters are outlined in Rev. Proc. 80-20, 1980-1 C.B. 633, and section 601.201 of the Statement of Procedural Rules (26 CFR section 601.201 (1977)). See also Rev. Proc. 80-22, 1980-1 C.B. 654. Careful attention to all of the requirements of these documents will also serve to minimize delays in processing requests for rulings.

SEC. 3. CHANGES

.01 Section 3, "Operating Rules," has been redesignated Section 4.

.02 Former Section 3.02 has been changed to provide that the trust instrument must contain a fixed termination date "generally" not more than three years from the date of creation of the trust.

.03 Former Section 3.04 has been changed to delete the requirement that deposits need be made in banks or savings institutions that are federally insured and to permit short-term investments such as Treasury bills.

.04 Former Section 3.06 has been changed to provide that the trust may not receive transfers of any unlisted stock of a single issuer that "represents 80 percent or more" of the stock of such issuer.

.05 Former Section 3.07 has been deleted.

.06 Former Section 3.08 has been changed to provide that the trustee is required to distribute at least "annually" to known shareholders any proceeds from the sale of assets or income from investments.

.07 Section 4, "Inquiries," has been redesignated Section 5.

SEC. 4. OPERATING RULES

A ruling generally will be issued that an organization is classified as a liquidating trust if the following conditions are met:

.01 The trust is organized for the primary purpose of liquidating the assets transferred to it with no objective to continue or engage in the conduct of a trade or business and its governing instrument so provides.

.02 The trust instrument contains a fixed termination date that is generally not more than three years from the date of creation of the trust and that is reasonable based on all the facts and circumstances.

.03 In the case of a trust created incident to a corporate liquidation, the trustee is selected by the shareholders of record or a court of competent jurisdiction.

.04 The investment powers of the trustee are limited to powers to invest in demand and time deposits in banks or savings institutions, or temporary investments such as short-term certificates of deposit or Treasury bills.

.05 The trust does not receive transfers of any listed stocks or securities, any readily-marketable assets or any operating assets of a going business. The trust does not receive or retain cash in excess of a reasonable amount to meet claims and contingent liabilities.

.06 The trust does not receive transfers of any unlisted stock of a single issuer that represents 80 percent or more of the stock of such issuer and does not receive transfers of any general or limited partnership interests.

.07 The trust is required to distribute at least annually to known shareholders any proceeds from the sale of assets or income from investments.

.08 The ruling request contains representations that the trustee will make continuing efforts to dispose of the trust assets, make timely distributions, and not unduly prolong the duration of the trust.

SEC. 5. INQUIRIES

Inquiries regarding this revenue procedure should refer to its number and should be addressed to the Assistant Commissioner (Technical), Attention: T:I:I, Internal Revenue Service, Washington, D.C. 20224.

EFFECT ON OTHER DOCUMENTS

Rev. Proc. 79-1, 1979-1 C.B. 481, is modified and superseded.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 265; 1.265-2.)

Rev. Proc. 80-55

SECTION 1. PURPOSE

The purpose of this revenue procedure is to amplify Rev. Proc. 70-20, 1970-2 C.B. 499 and Rev. Proc. 72-18,

1972-1 C.B. 740, to provide that section 265(2) of the Internal Revenue Code will be applied to disallow deductions for interest paid by commercial banks on certain time deposits made by a state when such deposits are made for a specific period of time and are secured by pledges of tax-exempt obligations.

SEC. 2. BACKGROUND

.01 Rev. Proc. 70-20 sets forth guidelines for taxpayers and field offices of the Internal Revenue Service for the application of section 265(2) of the Code to banks holding tax-exempt state and local obligations. Section 265(2) provides that no deduction shall be allowed for interest on indebtedness "incurred or continued to purchase or carry obligations . . . the interest on which is wholly exempt" from federal income tax.

.02 Section 3.11 of Rev. Proc. 70-20 provides that types of borrowing not specifically dealt with in Rev. Proc. 70-20 are to be decided on the basis of all the facts and circumstances surrounding the borrowings and in light of the general principles set forth in Rev. Proc. 70-20.

.03 A bank deposit secured by tax-exempt obligations is one of the types of borrowings not specifically dealt with in Rev. Proc. 70-20.

.04 Rev. Proc. 72-18 provides guidelines for the application of section 265(2) of the Code to banks in situations not dealt with in Rev. Proc. 70-20. Section 3.01 of Rev. Proc. 72-18 sets forth the general rule that section 265(2) is only applicable where the indebtedness is incurred or continued for the purpose of purchasing or carrying tax-exempt securities. Accordingly, the application of section 265(2) requires a determination, based on all the facts and circumstances, of the taxpayer's purpose in incurring each item of indebtedness. The taxpayer's purpose may be established either by direct evidence or by circumstantial evidence.

.05 Section 3.03 of Rev. Proc. 72-18 provides that direct evidence of a purpose to carry tax-exempt obligations exists where tax-exempt obligations are used as collateral for indebtedness. "[O]ne who borrows to buy tax-exempts and one who borrows against tax-exempts already owned are in virtually the same economic position. Section 265(2) makes no distinction between them." *Wisconsin Cheeseman v. United States,* 338 F. 2d 420 at 422 (7th Cir. 1968).

.06 In Rev. Proc. 78-34, 1978-2 C.B. 535, the Service amplified Rev. Proc. 70-20 to provide that section 265(2) of the Code will not be applied to disallow deductions for interest paid by commercial banks on borrowings of Treasury tax and loan funds when those borrowings are secured by pledges of tax-exempt obligations. This treatment afforded to borrowings of Treasury tax and loan funds is permitted because the borrowing of such funds, notwithstanding the pledge of tax-exempt obligations, is in the nature of a demand deposit. Also, the availability of these funds is subject to the exclusive discretion of the Treasury. In addition, access to these funds by depository banks is not subject to negotiated rates of interest or any other market factors that normally influence arm's length money market transactions.

SEC. 3. APPLICATION

.01 State law will often permit state funds to be placed on deposit with local banks. The state law generally requires that a contract be entered into designating the rate of interest to be paid on such deposit and the duration of the deposit. The contract may provide, with respect to the duration of the deposit, that funds will remain on deposit for a specified period of time (30 days to 1 year), or it may provide that the availability of the state funds is subject to the exclusive discretion of the state. In addition, the bank may also be required to deposit with the proper state authority certain securities at least equal in market value to the money deposited by the state in that bank. The state law generally lists those securities that are acceptable for this purpose. A bank receiving such deposits often pledges tax-exempt securities as collateral.

.02 A depository bank that holds demand deposits that it has collateralized with tax-exempt obligations is not in virtually the same economic position as one who borrows to buy tax-exempt obligations. That depository bank does not have the unrestricted use of the amount of the borrowed funds because such amount is subject to immediate withdrawal at any moment in time. See Rev. Proc. 78-34.

.03 A depository bank that holds state funds as time-deposits that it has collateralized with tax-exempt obligations is in virtually the same economic position as one who has borrowed to buy tax-exempt obligations. The depository bank knows with certainty that it will have the amount of deposited funds available to it, without restriction, for a fixed period of time. Accordingly, direct evidence of a purpose to purchase or carry tax-exempt obligations exists under section 3.03 of Rev. Proc. 72-18.

.04 Commercial banks that participate in a state program that requires them to bid for state funds, negotiate the rate of interest, and requires the state to leave such deposits for a specified period of time will create an indebtedness of the type described in section 265(2) of the Code. Thus, the interest paid by commercial banks on such deposit will be disallowed under section 265(2).

.05 Commercial banks that participate in a state program in which funds are awarded in the manner described in Rev. Proc. 78-34 and where the placement of such funds is at the discretion of the state do not create indebtedness of the type described in section 265(2) of the Code. Thus, section 265(2) will not be applied to disallow a deduction for interest paid by the commercial banks on such funds.

SEC. 4. PROSPECTIVE APPLICATION

Under the authority of section 7805 (b) of the Code, sections 3.03 and 3.04 of Rev. Proc. 80-55 will be applied prospectively to interest paid on deposits made after May 31, 1981.

SEC. 5. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 70-20 and Rev. Proc. 72-18 are amplified.

SEC. 6. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and be addressed to Assistant Commissioner (Technical), Attention TC: C:C, Washington, DC 20224.

26 CFR 601.602: Forms and instructions. (Also Part I, Sections 164, 901, 1401, 3101, 3111; 1.164-1, 1.901-1, 1.1401-1, 31.3101-1, 31.3111-1; Part III, Section 601.401.)

Rev. Proc. 80-56

SECTION 1. PURPOSE

The purpose of this revenue procedure is to state the procedures for implementing amendments to the Internal Revenue Code that provide for an exemption from social security taxes in cases covered by certain international agreements (sometimes referred to as totalization agreements), and to state the effect that such agreements have on the income tax liability of certain employees and self-employed persons.

SEC. 2. BACKGROUND

.01 Section 1401(c) of the Code, relating to the Self-Employment Contributions Act (SECA), section 3101 (c) of the Code, relating to the employee's share of the taxes imposed by the Federal Insurance Contributions Act (FICA), and section 3111 (c) of the Code, relating to the employer's share of the taxes imposed by the FICA, were added to the Code by section 317(b) of the Social Security Amendments of 1977, 1978-1 C.B. 462, 467.

.02 These provisions grant an exemption from the social security taxes imposed by the SECA and the FICA during any period in which there is in effect an agreement entered into under section 233 of the Social Security Act, 42 U.S.C. section 433 (added by section 317(a) of the Social Security Amendments of 1977) with any foreign country to the extent the wages or self-employment income are subject under such agreement to taxes or contributions under the social security system of such foreign country.

.03 For example, assume that the United States has entered into an international social security agreement with foreign country *X* under section 233 of the Social Security Act. Employee *A*, a citizen of *X*, is employed in the United States by a corporation incorporated in *X* under circumstances that require social security payments to country *X* and that would ordinarily also require payment of the taxes imposed by the FICA. However, because of the agreement between the foreign country and the United States, wages paid to *A* may be exempt from the taxes imposed by sections 3101 and 3111 of the Code.

.04 Section 317(b)(4) of the Social Security Amendments of 1977 provides that, notwithstanding any other provision of law, taxes paid by any individual to any foreign country with respect to any period of employment or self-employment that is covered under the social security system of such foreign country in accordance with the terms of an agreement entered into pursuant to section 233 of the Social Security Act shall not, under the income tax laws of the United States, be deductible by, or creditable against the income tax of, any such individual.

.05 This provision precludes both a deduction from adjusted gross income and a credit against income tax liability under sections 164(a) and 901(b) of the Code, respectively, for taxes paid by any employee or self-employed person with respect to a period of employment or self-employment that is covered under the social security system of such foreign country under the terms of a totalization agreement between the United States and such foreign country.

.06 For example, the social security tax payments made to foreign country *X* in .03 above are neither allowable as a deduction under section 164 (a) nor allowable as a credit under section 901(b) of the Code.

SEC. 3. EXEMPTION FROM SECA TAXES

.01 In order to substantiate an exemption under section 1401(c) of the Code from the taxes imposed by the SECA, the self-employed individual should obtain from a duly authorized official or agency of the foreign country involved a statement—

(1) setting forth the individual's name, address, and taxpayer identifying number,

(2) stating that there is in effect an agreement between the foreign country and the United States under which the self-employment income of the individual is subject to taxes or contributions under the social security system of the foreign country, and

(3) showing the date on which the agreement commenced to apply and, if determined, the ending date.

.02 No particular form is prescribed for this statement. A copy of the statement or other suitable substantiation must be attached to the individual's federal income tax return for each year the agreement is in effect. The taxpayer should enter "Exempt, see attached statement," on the line designated for self-employment tax liability on the taxpayer's income tax return.

.03 The exemption applies to that portion of the taxpayer's net earnings from self-employment that is attributable to that portion of the taxable year that occurs on and after the effective date of the agreement. Thus, for a taxpayer using the cash receipts and disbursements method of accounting the SECA tax liability for the taxable year is determined by computing the taxpayer's net earnings from self-employment for such year without regard to the exemption and

then eliminating any of such amount that results from an excess of income received over deductions paid by the taxpayer on and after the date the agreement becomes effective.

SEC. 4. EXEMPTION FROM FICA TAXES

.01 In order to substantiate an exemption from the taxes imposed by the FICA under sections 3101(c) and 3111(c) of the Code, the employer must obtain a statement issued by a duly authorized official or agency of the foreign country involved—

(1) setting forth the employee's name, as well as the employee's address and taxpayer identifying number, if known,

(2) setting forth the employer's name, address, and taxpayer identifying number, if any,

(3) stating that there is in effect an agreement between the foreign country and the United States under which wages received by or paid to the employee by the employer are subject to taxes or contributions under the social security system of such foreign country, and

(4) showing the date on which the agreement commenced to apply and, if determined, the ending date.

.02 No particular form is prescribed for this statement. It should be retained in the employer's files.

.03 The exemption from the FICA taxes applies to wages paid on and after the effective date of the agreement but not to wages paid before that date. For example, if the agreement is approved and becomes effective on November 1, the wages paid on and after that date may be exempt from FICA taxes during the time the agreement is in effect.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 80-57

SECTION 1. PURPOSE

The purpose of this revenue procedure is to prescribe the procedures to be used by the Internal Revenue Service and taxpayers for resolving issues arising when a taxpayer is or would be subject to inconsistent tax treatment by the Service and the Puerto Rico or Virgin Islands tax authorities. Such issues generally involve: (1) allocations of income, deductions, credits, or allowances between related persons; (2) determination of residency; and (3) determinations of the source of income and related expenses. This revenue procedure does not provide procedures to be used by possession tax authorities.

SEC. 2. BACKGROUND

.01 The Service has in accordance with the Agreements on Coordination of Tax Administration ("Agreements") with the Department of the Treasury of Puerto Rico (Internal Revenue News Release IR-2123, April 25, 1979, Announcement 79-84, 1979-23 I.R.B. 19) and the Department of Finance of the United States Virgin Islands (Internal Revenue News Release IR-1926, December 30, 1977, Announcement 78-21, 1978-7 I.R.B. 42) (hereinafter "the possession tax agencies") established cooperative programs to resolve tax disputes arising from inconsistent positions taken by the Service and the possession tax agencies.

.02 The Agreements provide that when by reason of inconsistent positions taken by the Service and the possession tax agency a taxpayer is or would be subject to inconsistent tax treatment by the two jurisdictions, the Director of International Operations and the designated possession tax official shall endeavor to resolve by mutual agreement any difficulties arising from the application of the tax laws of the United States and the possession. In particular, but not by way of limitation, the Director of International Operations and the designated possession tax official may consult together to endeavor to agree: (a) to the same allocation of income, deductions, credits, or allowance between related persons; (b) to the same determination of residency of a particular taxpayer; or (c) to the same determination of the source of particular items of income.

.03 The Agreements provide that the Director of International Operations will be the representative of the Service to handle exchanges of tax returns and tax return information with the possessions, as well as to develop and coordinate cooperative programs designed to improve the administration and enforcement of both federal and possession tax laws.

.04 Requests for assistance under these mutual agreement procedures should be addressed to the Director of International Operations, Internal Revenue Service, 1325 K Street, N.W., Washington, D.C. 20225.

SEC. 3. PROCEDURES TO BE FOLLOWED

.01 A taxpayer, or a taxpayer with a related person in a possession, that is subject to double taxation because of inconsistent tax treatment by the Service and the possession tax agency may request assistance in accordance with this revenue procedure.

.02 In addition to the tax assistance request, the taxpayer should file a claim for credit or refund of any overpayment of federal tax that was paid on the income in question, provided the period of limitations prescribed under section 6511 of the Internal Revenue Code, with respect to the claim for credit or refund, has not expired. The taxpayer, or a related person in a possession, should also take whatever steps are necessary under the possession tax code to prevent the expiration of the period of limitations with respect to a claim for credit or refund of the possession tax.

.03 When, in conjunction with a request for assistance under this revenue procedure, a taxpayer seeks relief in the form of a credit or refund of either possession or United States tax, the allowance of such relief is subject to the applicable tax and procedural rules of the possession and the United States.

.04 Federal income tax claims are to be made as appropriate, on: Form 1040X, Amended U.S. Individual Income Tax Return; Form 1120X,

Amended U.S. Corporation Income Tax Return; or Form 1041, U.S. Fiduciary Income Tax Return. The taxpayer should indicate on the appropriate form that a request for assistance under the possession mutual agreement procedure has been filed pursuant to this revenue procedure and should attach a copy of such request to that form. The claim should be computed on the assumption that the taxpayer does not qualify for relief through mutual agreement procedures for the year or years in question.

.05 With respect to the computation of the foreign tax credit, either Form 1116, Computation of Foreign Tax Credit, Individual, Fiduciary, or Nonresident Alien Individual, which also covers credits for foreign tax on income received from foreign partnerships and other business organizations, or Form 1118, Computation of Foreign Tax Credit-Corporations, shall be attached to the Form 1040X, Form 1120X, or Form 1041, as appropriate.

.06 If any possession tax issues subject to consideration under the possession mutual agreement procedures are expected to reoccur in the future and if the period for filing Form 1040X, Form 1120X, or Form 1041 is about to expire, the taxpayer should, before the expiration of the period of limitations for the taxable year involved, file a protective claim on Form 1040X, Form 1120X, or Form 1041 and transmit a copy to the Director of International Operations. The claim should describe the expected possession tax agency action and state that the taxpayer plans to file a request for assistance under the possession mutual agreement procedure. If the taxpayer later decides not to file the request, the Director of International Operations should be promptly notified by the taxpayer.

.07 The taxpayer should file a written request for assistance with the Director of International Operations, Internal Revenue Service, 1325 K Street N. W., Washington, D.C. 20225, as soon as the issues are sufficiently developed to indicate that the taxpayer is or would be subject to inconsistent tax treatment by the Service and the possession tax agency. This will: (1) insure consideration while the facts are more easily obtainable; (2) insure adequate time for the representatives of the two jurisdictions to consult and attempt to arrive at an agreement prior to the imposition of any procedural barriers under federal or possession law; and (3) avoid unnecessary delay in the final determination of tax liability.

.08 The Director of International Operations will not accept any taxpayer's request for consideration of a case that is pending in court without the consent of the Chief Counsel of the Service. If the case is pending in the United States Tax Court, the Chief Counsel may in appropriate cases request the court to delay trial pending mutual agreement action. If the case is pending in any other court, the Chief Counsel will consult with the Department of Justice. Final decision on delaying trial rests with the court. Suspension of litigation pending any possession mutual agreement consideration will not relieve the United States taxpayer from any obligation to act with respect to that litigation.

.09 A request for assistance under this revenue procedure shall be signed by the taxpayer or a person having authority to sign the taxpayer's federal income tax returns; shall contain a statement that assistance is requested under the possession mutual agreement procedure; and shall include the following information:

1 the taxpayer's name, address, and employer identification number (individuals not engaged in a trade or business should use their Social Security number) and where applicable the name, address and employer identification number (or for individuals not engaged in a trade or business a Social Security number) of a related person in the United States possession;

2 the taxable year or years in question and the Service Center where the taxpayer's federal income tax return was filed, or if no return was filed, a statement to that effect;

3 when income tax is involved, the type of income at issue (such as salary, dividends, or interest), a description of the transaction, activities, or other circumstances pertinent to the issue and the respective positions taken by the possession tax agency and the taxpayer on the issue raised;

4 the amount of the particular item involved in the issue raised and the amount of the possession tax assessed or proposed for assessment;

5 when applicable, a decription of the control and business relationships between the United States taxpayer and a related person in the possession;

6 when applicable, a statement of the status of the tax liability of the taxpayer and a related person in the possession for the year or years in question, as well as a statement as to whether the taxpayer or related person is entitled to any possession tax incentive or subsidy program benefits for the year or years in question;

7 a copy of any correspondence received from the possession tax agency and also copies of any briefs, protests and other relevant material submitted to the possession tax agency;

8 a copy of possession tax returns for the year or years in question;

9 a statement whether the federal tax return of the United States taxpayer, and where applicable the tax return of a related person in the possession, for the year or years in question were examined, or are in the process of being examined;

10 a statement as to whether a foreign tax credit was claimed in the taxpayer's federal tax return for the taxable year or years in question and, if a credit was claimed, whether it was claimed for all or part of the possession tax paid or accrued with respect to the particular item that is the subject of the request for assistance under a possession mutual agreement procedure;

11 on a separate and single document, a statement that the United States taxpayer consents to the dis-

closure to the designated possession tax official of any or all of the items of information set forth or enclosed in the request for assistance under this revenue procedure; this statement shall be dated and signed by a person having authority to sign the United States taxpayer's federal tax returns; and

12 other pertinent material the taxpayer may wish to supply.

SEC. 4. NOTIFICATION TO TAXPAYER

.01 The taxpayer will be notified whether the facts submitted provide a basis for assistance under the possession mutual agreement procedure.

.02 The Director of International Operations will not assist the taxpayer if:

1 under the facts and circumstances the taxpayer is not entitled to such assistance (for example, the facts do not indicate that inconsistent positions have been taken by the Service and the possession tax agency).

2 the taxpayer indicates unwillingness to accept an agreement under the possession mutual agreement procedure except under conditions that are clearly unreasonable or unfairly prejudicial to the interests of the United States; or

3 the taxpayer does not furnish, upon request, sufficient information to determine the applicability of the possession mutual agreement procedure or otherwise fails to act as required by this revenue procedure.

.03 If the Director of International Operations accepts a request for assistance, the continuing cooperation of the taxpayer is essential. The taxpayer shall supply any additional information needed to resolve the case and keep the Director of International Operations informed as to proceedings in the possession and any other pertinent developments. The taxpayer may also be requested to execute a consent extending the period of limitations on assessment of tax for the taxable year or years in question.

.04 The Director of International Operations will notify a taxpayer requesting assistance under this revenue procedure of any agreement or partial agreement that the Service and the possession tax agency reach with respect to the taxpayer's request. If such agreement or partial agreement is not acceptable to the taxpayer, the taxpayer may pursue all rights to administrative and judicial review otherwise available under the law of the possession and the United States.

.05 When appropriate, in cases covered by this revenue procedure, the taxpayer will be requested to enter into a closing agreement in accordance with sections 6.07 and 6.17 of Rev. Proc. 68-16, 1968-1 C.B. 770.

.06 Rev. Proc. 65-17, 1965-1 C.B. 833, and Amendment I of Rev. Proc. 65-17, 1966-2 C.B. 1211, as amplified by Rev. Proc. 65-31, 1965-2 C.B. 1024, provide that a United States taxpayer must file a request for the treatment provided by Rev. Proc. 65-17 in writing with the appropriate district director before closing action is taken on issues arising under section 482 of the Code that forecloses availability of Rev. Proc. 65-17. Accordingly, if a United States taxpayer desires assistance under this revenue procedure and the benefits provided by Rev. Proc. 65-17, the request filed under this revenue procedure should state that the taxpayer desires the benefits of Rev. Proc. 65-17 before entering into any closing agreement or before any other closing action (as defined in section 4.03 of Rev. Proc. 65-31) is taken.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective immediately.

---

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability. (Also Part I, Section 167; 1.167(a)-11.)

Rev. Proc. 80-58

SECTION 1. PURPOSE

In this revenue procedure, the Assistant Secretary (Tax Policy) of the Treasury prescribes certain changes in the Class Life Asset Depreciation Range System. The purpose is to delete existing asset guideline classes 15.1 (Contract Construction Other than Marine) and 15.2 (Marine Contract Construction), which also includes assets used in offshore oil and gas drilling, and to establish two new classes with new depreciation periods and ranges, and annual repair allowance percentages for assets used in construction and in offshore oil and gas drilling. These changes are adopted pursuant to section 1.167(a)-11 of the Income Tax Regulations.

The new asset guideline classes, and associated asset guideline depreciation periods, asset depreciation ranges, and annual asset guideline repair allowance percentages are set forth in Section 2 of this revenue procedure.

SEC. 2. ASSET GUIDELINE CLASSES, ASSET DEPRECIATION RANGES, AND ANNUAL ASSET GUIDELINE REPAIR ALLOWANCE PERCENTAGES

The asset guideline classes, asset guideline periods, asset depreciation ranges, and the annual asset guideline repair allowance percentages are prescribed as set forth on next page.

SEC. 3. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 77-10, 1977-1 C.B. 548, as modified, is further modified by the deletion of existing asset guideline classes 15.1 (Contract Construction Other than Marine) and 15.2 (Marine Contract Construction) and the prescription of two new asset guideline classes 13.0 (Offshore Drilling) and 15.0 (Construction) with new asset guideline periods and asset depreciation ranges and annual asset guideline repair percentages. To be consistent with the aforementioned modifications, the reference to Class 15.2 in asset guideline class 13.2 should now read Class 13.0.

SEC. 4. EFFECTIVE DATE

The revisions set forth in this revenue procedure are effective as of December 29, 1980, the date of publication in the Internal Revenue Bulletin.

Asset Guideline Class	Description of Assets Included	Asset Depreciation Range (in years) Lower Limit	Asset Guideline Period	Upper Limit	Annual Asset Guideline Repair Allowance Percentage
13.0	*Offshore Drilling:* Includes assets used in offshore drilling for oil and gas such as floating, self-propelled and other drilling vessels, barges, platforms, and drilling equipment and support vessels such as tenders, barges, towboats and crew boats. Excludes oil and gas production assets	6	7.5	9	3
15.0	*Construction:* Includes assets used in construction by general building, special trade, heavy and marine construction contractors, operative and investment builders, real estate subdividers and developers, and others except railroads	5	6	7	9

26 CFR 601.602: Forms and instructions. (Also Part I, Section 6012; 1.6012-1.)

Rev. Proc. 80-59

SECTION 1. PURPOSE

The purpose of this revenue procedure is to establish the conditions under which a Presidential appointee who has an interest in a blind trust that meets the requirements of section 202(f)(4)(B) of the Ethics in Government Act of 1978, P.L. 95-521, 92 Stat. 1825 (1978), will be granted permission to have a trustee file the appointee's income tax return and to state the procedure that the trustee must follow in filing the appointee's income tax return.

SEC. 2. CHANGES

This revenue procedure modifies Rev. Proc. 79-43, 1979-2 C.B. 507, by setting forth the requirement that the letter granting permission for the trustee to make the appointee's return and a power of attorney both accompany the appointee's income tax return. It also sets forth the effect the Internal Revenue Service will give the power of attorney.

SEC. 3. BACKGROUND

.01 Section 202(f)(4)(B) of the Ethics in Government Act of 1978 provides that in the case of a trust created for the benefit of an individual appointed by the President, by and with the consent of the Senate, an asset placed in trust will not be considered a financial interest of the individual for purposes of section 208 of title 18, United States Code, and any other conflict of interest statutes or regulations if certain requirements are met including giving the trustee the power to prepare on behalf of the individual the personal income tax return and similar returns which may contain information relating to the trust.

.02 Section 1.6012-1(a)(5) of the Income Tax Regulations, concerning returns made by agents, permits a return to be made by an agent if the taxpayer requests permission, in writing, of the appropriate district director and the district director determines that good cause exists for permitting an agent to make the return. That section provides that whenever a return is made by an agent it must be accompanied by a power of attorney (or copy thereof) authorizing the agent to represent the principal in making the return.

.03 Section 601.502(c)(1) of the Statement of Procedural Rules provides that a power of attorney which specifies the specific act to be performed is required if a taxpayer wishes to authorize his or her representative to perform any of the following acts: (1) Receive (but not endorse or collect) a check in payment of any refund of taxes, penalties or interest; (2) Execute a waiver of restriction on assessment or collection of a deficiency in tax, or a waiver of notice of disallowance of a claim for credit or refund; (3) Execute a consent to extend the statutory period for assessment or collection of a tax; or (4) Execute a closing agreement under section 7121 of the Code.

.04 Section 601.506(a) of the Statement of Procedural Rules provides that any notice or communication (or

a copy thereof) required or permitted to be given to a taxpayer in any matter before the Service shall be given to the taxpayer's recognized representative. However, if such notice or communication contains confidential information with respect to the taxpayer, the notice or communication will be given to the representative only if there is on file with the Service a power of attorney or a tax information authorization in the matter signed by the taxpayer.

SEC. 4. PROCEDURE

.01 A presidential appointee who has an interest in a blind trust that meets the requirements of section 202 (f) (4) (B) of the Ethics in Government Act of 1978 and who requests permission, in writing, of the appropriate district director, for the taxpayer's federal income tax return to be filed by the trustee of the blind trust, will be considered to have shown good cause for receiving permission to have the return filed by the trustee, and will automatically be granted such permission. A separate request must be made for each taxable year.

.02 The trustee must submit with the return a copy of the letter from the Internal Revenue Service granting the trustee permission to sign the appointee's return. In addition, the return must be accompanied by a power of attorney (or copy thereof) that grants the trustee authority to sign the return, to receive (but not endorse or collect) a refund check, to execute a waiver of restriction on assessment or collection, to execute a waiver of notice of disallowance, to execute a consent to extend the period for assessment or collection, and to execute a closing agreement.

.03 All notices or other written communication required or permitted to be given to the appointee will be given to the trustee.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective as of December 29, 1980, the date of its publication in the Internal Revenue Bulletin.

SEC. 6. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 79-43 is modified and superseded.

---

26 CFR 601.602: Forms and instructions. (Also Part I, Section 3302; 31.3302(c)-1.)

Rev. Proc. 80-60 [1]

SECTION 1. PURPOSE

The purpose of this revenue procedure is to bring up to date the procedure to be followed in computing reductions in the credit against the tax reportable on Form 940, Employer's Annual Federal Unemployment Tax Return, for 1980.

SEC. 2. BACKGROUND

.01 Section 3301 of the Internal Revenue Code imposes an excise tax on employers based on wages paid to employees. Section 3306(a) defines the term "employer" for purposes of the tax imposed by section 3301.

.02 Section 3302 of the Code provides for credits against the tax imposed by section 3301. Reductions in the amount of credit otherwise allowable are provided for in section 3302 (c). Section 3302(c) (2) provides that reductions shall occur if an employer pays wages for services performed in a state that has not restored amounts that were advanced under title XII of the Social Security Act, 42 U.S.C. sections 1321-1324(1976).

.03 Section 3302(c) (2) (A) of the Code, in conjunction with section 3302(d), provides that for each consecutive calendar year beginning with the second consecutive calendar year in which the advances have not been repaid, the reduction is equal to 0.3 percent of the wages (as defined in section 3306(b)) paid.

.04 Section 3302(c) (2) (B) of the Code provides for an additional reduction for the third or fourth consecutive year in which the advances have not been repaid if the average employer contribution rate for such state for the preceding year is less than 2.7 percent. Section 3302(d) (7) provides that the percentage of the additional reduction is determined by the Secretary of Labor.

.05 Section 3302(d) (3) of the Code provides that credit reductions for any year may be forestalled if a state restores to the United States Treasury, before November 10 of that year, the full amount of the advances.

.06 For purposes of the tax imposed by section 3301 of the Code, section 3306(j) (1) provides that the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands.

SEC. 3. CREDIT REDUCTIONS FOR 1980

.01 As of November 10, 1980, the Commonwealth of Puerto Rico, the Virgin Islands, and the States of Illinois, Maine, and New Jersey had not repaid the advances for the second consecutive year, within the meaning of section 3302(c) (2) of the Code. Therefore, the credit reductions will take effect in the amount of 0.3 percent of the wages (as defined in section 3306(b)) paid by employers during 1980 that are attributable to those "States."

.02 As of November 10, 1980, the District of Columbia and the States of Delaware, Pennsylvania, Rhode Island, and Vermont had not repaid the advances for the third consecutive year, within the meaning of section 3302(c) (2) of the Code. Therefore, the credit reductions will take effect in the amount of 0.6 percent of the wages (as defined in section 3306(b)) paid by employers during 1980 that are attributable to those "States."

.03 As of November 10, 1980, the State of Connecticut had not repaid the advances for the third consecutive year, within the meaning of section

[1] Also released as News Release IR-80-131, dated December 17, 1980.

3302(c)(2) of the Code. Also, the Secretary of Labor has timely certified to the Secretary of the Treasury that in accordance with the provisions of section 3302(c)(2)(B) an additional credit reduction will apply. Therefore, the credit reduction will take effect in the amount of 0.7 percent (0.6 percent for the two consecutive years plus an additional 0.1 percent) of the wages (as defined in section 3306(b)) paid by employers during 1980 that are attributable to the State of Connecticut.

SEC. 4. PROCEDURE

.01 If a credit reduction applies, it is computed on Part I, lines 6 and 7, of the Form 940 for 1980.

---

26 CFR 601.401: Employment taxes.

Procedures for exemption from social security taxes under totalization agreements. See Rev. Proc. 80-56, page 851.

Social Security Contribution and Benefit Base

Under authority contained in the Social Security Act, the Secretary, Department of Health and Human Services, has determined and announced (F.R. 76252, dated November 18, 1980) that the contribution and benefit base for remuneration paid in 1981 and self-employment income earned in taxable years beginning in 1981 is $29,700.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension

Anthony G. Bellas	Littleton, CO	Enrolled Agent	Twelve months effective September 1, 1980
Roy W. Lynch	New Bedford, MA	Enrolled Agent	Indefinite effective August 28, 1980
Roger C. Hennings	Stillwater, MN	Attorney	Indefinite effective August 28, 1980
Vincent E. Heyworth	Hagerstown, MD	Enrolled Agent	Six months effective September 30, 1980

Name	Address	Designation	Term of Suspension
H. Jim Uchida	Oakland, CA	Certified Public Accountant	Indefinite effective November 5, 1980
Stanley E. Galkin	Fort Worth, TX	Attorney	Indefinite effective November 17, 1980

Under Section 1026, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any person who has violated the rules and regulations governing the recognition of attorneys, certified public accountants, enrolled agents or enrolled actuaries to practice before the Internal Revenue Service.

Attorneys, certified public accountants and enrolled agents are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will appear and will continue to appear in the weekly Bulletins for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
J. Franklin Moore	Lenoir, NC	Certified Public Accountant	August 18, 1980

Announcement of the Suspension, Termination, or Consent to Voluntary Suspension or Termination of Enrollment to Perform Actuarial Services Under the Employee Retirement Income Security Act of 1974

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrolment of Actuaries, may suspend enrolment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Mr. Charles L. Cormack, Birmingham, Alabama, has been placed under consent suspension from enrollment to perform actuarial services under ERISA. An announcement of his reinstatement will be placed in the Bulletin at the end of the period of suspension.

Index

The abbreviation and number in parentheses following the index entry refer to the specific item; numbers following the parentheses refer to the page number on which it appears.

Interest, Energy Security Act (PL 96-294) 428
Legal expenses and interest, awarded with back pay (RR 364) 294

Gross income—Continued
- Exclusions-inclusions—Continued
  - Payments under National Historic Preservation Act of 1966 (RR 330) 29
  - Per diem allowance, executive training program participant, home test (RR 212) 58
  - Reimbursements, labor union convention and lost salary (RR 348) 31
  - State police subsistence allowances (PL 96-605) 702
  - Stock transferred to corporate employees by controlling shareholders (RR 196) 32
  - Surplus campaign funds transferred to office account (RR 331) 29
  - Veterans' Administration Health Professional Scholarship Program (PL 96-330) 435
- To whom:
  - Interest, wrap-around annuity contracts (RR 274) 27
- When included:
  - Fuel adjustment charges, public utilities (RR 308) 162
  - Interest, reverse mortgage loan (RR 248) 164
  - Partner, receipt of guaranteed payment capitalized by partnership (RR 234) 203
  - Stock appreciation rights (RR 300) 165

Improvements (*See also:* Capital expenditures):
- Rehabilitation costs, historic structures, low-income rental housing (PL 96-541) 596

Income source:
- Earned income:
  - American Institute in Taiwan employees (RR 208) 212
  - Royalties (RR 254) 222
- Foreign tax credit, limitation, allocation of expenses (RR 288) 209
- Nonresident alien, patent royalties, paid by foreign corporation (RR 362) 208
- Within U.S., leased aircraft, vessels, and spacecraft, election repealed (PL 96-605) 702

Indians:
- Klamath Tribe (PL 96-596) 653
- Rhode Island Indian Claims Settlement Act, transfers (PL 96-601) 666

Individual retirement accounts (*See:* Employee plans)

Industrial development bonds:
- Airline terminals and related facilities (RR 339) 42
- Disposal facilities, interest (RR 197) 44
- Exempt facility resolution (RR 227) 46
- Exempt small issue, moving acquired buildings (RR 356) 47
- Mortgage subsidy bonds (PL 96-499) 509
- Proceeds, reserve fund (RR 171) 44
- Security interest (RR 251) 40

Information (*See:* Publicity of information; Returns)

Inspection of records or returns (*See:* Books and records)

Installment sales:
- Residence, election, gross profit (RR 249) 166
- Revision of rules (PL 96-471) 489

Insurance:
- Premiums, group-term life, coverage brackets (RR 220) 35

Insurance companies:
- Foreign (*See:* Foreign insurance companies)
- Life:
  - Wrap-around annuity contracts, interest income (RR 274) 27

Interest:
- Exempt (*See:* Industrial development bonds)
- Paid:
  - Banks, indebtedness secured by tax-exempt state obligations (RP 55) 849
  - Loan, reverse mortgage, when deductible (RR 248) 164
- Received:
  - Accrual method, uncollectible loan (RR 361) 164
  - Loan, reverse mortgage, when included (RR 248) 164
  - Merchant Marine Act (PL 96-320) 433

Interest—Continued
- Received—Continued
  - Wrap-around annuity contracts (RR 274) 27

Inventories:
- LIFO:
  - Freight-in added to cost, accounting method (RR 190) 161
  - Price indexes, department stores (RR 214) 171; (RR 344) 171

Investment credits:
- Basis:
  - Synthetic oil converter purchased for nonrecourse note (RR 235) 229
- Computer using reconstructed circuit boards (RR 313) 25
- Employee stock ownership plans:
  - Participation of subsidiary corporation (PL 96-605) 702
  - Participation rules if only employer-provided alternative to IRA (PL 96-605) 702
  - Valuation of employer securities (PL 96-605) 702
- Engraved plates and right to reproduce and distribute books (RR 327) 23
- Fish raising, concrete raceways and water diversion canals (RR 341) 24
- International Maritime Satellite Organization (PL 96-605) 702
- Public utilities:
  - Acquisition v. construction (RR 312) 21
  - Retired reusable items recovered (RR 311) 5
  - Sale of facility to tax-exempt cooperative, recapture (RR 319) 252
- Railway road crossings, retirement method (RR 187) 19
- Reforestation expenditures (PL 96-451) 485
- Solar energy system, Energy Security Act (PL 96-294) 428
- Storage facilities, aluminum scrap (RR 195) 20

Involuntary conversions:
- Liquidations, information to be filed with return (TD 7722) 112

Involuntary conversions—Continued
Severance-damage award reinvested, similar property (RR 184) 232
Timber damaged by storm, voluntary sale (RR 175) 230
Jeopardy assessment (*See:* Assessments)
Leases:
Oil and gas, acquisition fees, option fees (RR 176) 97
Limitation period:
Title 11 cases (PL 96-589) 607
Liquidations:
Distributions, constructive receipt, surrender of shares (RR 177) 109
Information to be filed with return, involuntary conversions (TD 7722) 112
Subsidiary, basis of assets (RR 358) 110
Losses:
Abandonment, oil and gas drilling, COST well (RR 342) 99
Casualty, disaster areas, year of deduction (RR 357) 64
Evidence, confirmation statements from foreign broker (RR 324) 340
Individual retirement account (RR 268) 141
Limitation, amount at risk, small business corporation, research and development tax shelter (RR 236) 240
Oil and gas leases, option fees (RR 176) 97
Meals and lodging:
Reporting requirements, reimbursements not subject to withholding (RP 53) 848
Medical expenses:
Automobile costs, standard mileage rate (RP 32) 767
Visual display audio equipment for televisions (RR 340) 81
Military personnel (*See:* Armed Forces)
Mines and mining (*See:* Depletion)
Minimum tax:
Allowable credits (PL 96-603) 684
Tax benefit, preference deduction (RR 226) 26

Minimum tax—Continued
Tax preference items, charitable contributions of trusts created by corporations (PL 96-596) 653
Moving expenses:
Automobile costs, standard mileage rate (RP 32) 767
Mutual savings banks (*See:* Banks)
Natural resources (*See also:* Depletion; Oil and gas properties):
Oil and gas drilling, COST well (RR 342) 99
Net operating loss:
Carryover, former real estate investment trust (PL 96-595) 647
Small business corporation, research and development tax shelter (RR 236) 240
Nonresidents (*See also:* Income source; Withholding):
Aliens:
Declaration of estimated tax, due dates (TD 7719) 344
Patent royalties paid by foreign corporation (RR 362) 208
Pensions, tax exemption (PL 96-605) 702
Status, areas in which advance rulings will not be issued (RP 38) 771
Disposition of investment in U.S. real property (PL 96-499) 509
Obligations of government (*See:* Government obligations; Industrial development bonds)
Oil and gas properties (*See also:* Depletion):
Leases:
Acquisition fees, option fees (RR 176) 97
COST well drilling expense (RR 342) 99
Removal of offshore platforms and wells, leases, deduction (RR 182) 167
Transfer, individual to corporation, depletion (PL 96-603) 684
Options (*See also:* Employee stock options):
"Call", holding period, dividends received deduction (RR 238) 96
"Put" fees, oil and gas leases (RR 176) 97

Partnerships:
Basis, synthetic oil converter purchased for nonrecourse note (RR 235) 229
Guaranteed payments to partner, capitalized by partnership (RR 234) 203
Incorporation of foreign partnership, losses, U.S. partner (RR 293) 128
Partner's earnings remitted to partnership (RR 338) 30
Transfer to controlled corporation, liabilities in excess of basis (RR 323) 124
Payment of tax:
Postponement, hostages in Iran and Colombia (PL 96-449) 479
Penalties (*See also:* Fines and penalties (deductibility)):
Estimated tax:
Underpayment, joint return following separate returns (RR 355) 374
Failure to file:
Annual reports and disclosure statements, individual retirement plans (TD 7730) 297
Notice of redetermination for foreign tax (PL 96-603) 684
Returns, fishing crew (TD 7716) 241
Failure to pay, Title 11 cases (PL 96-589) 607
Hostages in Iran and Colombia (PL 96-449) 479
Return preparers:
Negligence (RP 40) 774
Negligence:
Mathematical or clerical error (RR 262) 375
Reliance on taxpayer's assurances, entertainment expenses (RR 266) 378
Normal office practice:
Failure to report minimum tax liability (RR 264) 377
Pattern of errors (RR 263) 376
Pension trusts (*See:* Employee plans; Self-employed plans)
Personal holding companies (*See also:* Foreign personal holding companies):
Title 11 cases (PL 96-589) 607

Political contributions:
Surplus campaign funds transferred to office account (RR 331) 29
Possessions of the United States:
Inconsistent positions taken by the Service and Puerto Rico or Virgin Islands tax authorities (RP 57) 852
Virgin Islands resident, U.S. citizen, transfer to foreign trust (RR 318) 245
