(iii) Impose backup withholding on any account containing the incorrect taxpayer identification number for the period described in paragraph (f)(3) of this section.

For purposes of this paragraph (f), a payor shall not count any notice as a first notice unless the payor was required to notify the payee about the incorrect taxpayer identification number pursuant to paragraph (c)(1) of this section. Additionally, a payor shall treat the receipt of two or more notices in a calendar year as described in paragraph (b)(1) or (2) of this section with respect to the a payee as the receipt of one notice for purposes of this paragraph. The preceding sentence applies only with respect to a payor who received such two or more notices under the same payor employer identification number (or social security number). The payor who receives such two or more notices may satisfy the requirements of this paragraph by sending one notice to the payee that contains all the information described in paragraph (f)(1) of this section. The payor shall maintain sufficient records to determine whether the payor has received notices described in this paragraph and paragraph (b)(1) or (2) of this section twice within 3 calendar years with respect to a payee as described in this paragraph (f). The envelope containing the notice must state on the outside in a bold conspicuous manner: ''Important Tax Document Enclosed''. The payor is not required to include a Form W-9, nor is the payor required to include a reply envelope in the mailing of the notice to the payee. The payor may not include any material in the mailing of the notice described in this paragraph (f). The notice requirements provided in this paragraph (f), and not the notice requirements provided in A-39 of §35a.9999-1 and in the Appendix to §35a.9999-2, shall apply to a payor notified by a broker that a payee is subject to backup withholding under section 3406(a)(1)(B). The mailing procedure described in paragraph (c)(2) of this section shall apply to the mailing of the notice described in paragraph (f) of this section. A payor is not required to send a notice described in paragraph (f)(2) of this section (nor backup withhold under paragraph (f)(3) of this section) with respect to any account of a payee where, due to an error of the payor, the taxpayer identification number on such account is not the number that was provided to the payor on the applicable Form W-9 (or acceptable substitute form) because, for example, the payor transposed the taxpayer identification number when incorporating it into its business records.

(2) *Notice to payee who has provided two incorrect taxpayer identification numbers within 3 years.* The notice to the payee required by paragraph (f)(1) of this section must list, in a bold and conspicuous manner, the date the payor was notified of the second incorrect taxpayer identification number, the payee's name, address (including street, city, state (or country), and zip or mailing code), and such other information that may be required by revenue procedures and revenue rulings. In addition the notice must state that—

(i) The payor has been notified that the taxpayer identification number furnished by the payee is incorrect, setting forth the name and taxpayer identification number that the Internal Revenue Service has determined to be incorrect and the specific account number that contains the incorrect taxpayer identification number;

(ii) The payor has been notified twice within 3 calendar years that the payee has furnished an incorrect taxpayer identification number on an account with the payor;

(iii) The payor is required to disregard any future taxpayer identification numbers, whether or not certified under penalties of perjury, received from the payee with respect to existing accounts with the payor unless the Internal Revenue Service has notified the payor that such taxpayer identification number is correct;

(iv) As a result of providing an incorrect taxpayer identification number, the payor is required under section 3406(a)(1)(B) with respect to any existing account of the payee that contains that incorrect taxpayer identification number when the payor is notified that the number is incorrect as described in paragraph (f) of this section, to begin backup withholding 20 percent of—

(A) Reportable payments made to the payee no later than after the close of the day 30 business days after the date that the payor is notified of the incorrect taxpayer identification number, and—

(B) Either (*1*) any withdrawals of reportable payments by the payee (or a joint payee in the case of a joint account), or (2) all reportable payments that occur after the close of 7 business days after the date that the payor received the second notice of an incorrect taxpayer identification number and before the day that is 31 business days after the date that the payor received such notice if the Internal Revenue Service has not notified the payor that the payee provided a correct taxpayer identification number to the Internal Revenue Service as described in paragraph (h) of this section; and

(v) The payee must contact the Internal Revenue Service Center where the payee is required to file his income tax return in order to prevent backup withholding under section 3406(a)(1)(B) from starting or to stop it once it has begun.

(3) *Period during which backup withholding is required due to a second notification of an incorrect number within 3 years.* Upon receiving the second notice of an incorrect taxpayer identification number from the Internal Revenue Service or a broker as described in paragraph (f)(1) of this section, the payor must backup withhold on all reportable payments subject to backup withholding (as described in this paragraph) made to the payee—

(i) After the close of the 30th business day after the day on which the payor receives a notice described in paragraph (b)(1) or (2) of this section and ending as of the close of the 30th calendar day after the payor receives the notification from the Internal Revenue Service as described in paragraph (h) of this section and either—

(ii) At the time of any withdrawal by the payee (or a joint payee in the case of a joint account) that occurs after the close of 7 business days after the date the payor receives the notice described in paragraph (b)(1) or (2) of this section and before the earlier of—

(A) The date the payor imposes backup withholding as described in paragraph (f)(3)(i) of this section,

(B) The date the payor receives notification from the Internal Revenue Service as described in paragraph (h) of this section, or

(C) The date of withdrawal, or

(iii) 7 business days after the date that the payor receives a notice described in paragraph (f)(1) of this section on all reportable payments made after the close of such 7 business days and prior to the beginning of the period described in paragraph (f)(3)(i) of this section.

For purposes of paragraph (f)(3)(ii) of this section, all cash withdrawals, as described in paragraph (d)(1) of this section, in an amount up to the amount of the reportable payments made during the period beginning from the day after the day that the payor received the notice described in paragraph (b)(1) or (2) of this section to the end of the period described in paragraph (f)(3)(ii)(A), (B), or (C) are treated as reportable payments. The payor is required to withhold 20 percent of all reportable payments that are made with respect to accounts that the payee maintains with the payor at the time the payor received the second notice of an incorrect taxpayer identification number if that incorrect taxpayer identification number is used by the payor on the account. However, the payor is not required to backup withhold on any account that could not be located using reasonable care. See paragraph (b)(5) of this section for the definition of reasonable care. The payor may not stop backup withholding under paragraph (f)(3) of this section unless the payor has been notified pursuant to paragraph (h) of this section.

(4) *Grace periods*—(i) *Starting backup withholding*. Pursuant to section 3406(e)(5)(A), the payor may elect, on a payee-by-payee basis or in general, to begin backup withholding at any time during the 30-business-day period described in paragraph (f)(3)(i) of this section. However, a payor electing to impose backup withholding as described in paragraph (f)(3)(ii) of this section must backup withhold if there is a withdrawal from the account of the payee.

(ii) *Stopping backup withholding*. Pursuant to section 3406(e)(5)(B), the payor may elect, on a payee-by-payee basis or in general, to treat the notification from the Internal Revenue Service as described in paragraph (h) of this section as having been received at any time within 30 calendar days after such notification is provided and to stop backup withholding at any time within 30 calendar days of receiving such notice. See A-31 of §35a.9999-1 for the application of the rule contained in this paragraph (f)(4)(ii).

* * * * *

(h) *Notice from the Internal Revenue Service to stop backup withholding*. A payor who received a notice pursuant to paragraph (f) of this section will be notified by the Internal Revenue Service to stop backup withholding after the Internal Revenue Service receives a correct taxpayer identification number from the payee. A broker who received a notice pursuant to paragraph (b) of this section will be notified by the Internal Revenue Service that the payee is no longer subject to backup withholding under section 3406(a)(1)(B) and that the broker is no longer required to provide notices to payors under paragraph (b)(2) of this section. A broker who receives a notice under this paragraph (h) from the Internal Revenue Service is not required to provide the notice to any payor to which the broker has previously provided the notice required under paragraph (b)(2) of this section. The Internal Revenue Service will notify a payor or a broker pursuant to this paragraph by providing the payee with a Form W-9 on which the payee has certified, under penalties of perjury, that his taxpayer identification number is correct. The Form W-9 will bear an official stamp of the Internal Revenue Service verifying that the taxpayer identification number on the Form W-9 is correct as associated with the listed surname or business name. A payee may provide a copy of the Form W-9 to his payors or brokers in order to prevent backup withholding under paragraph (f)(3) of this section from beginning or to stop it under paragraph (f)(4)(ii) once it has begun. In lieu of receiving a copy of the Form W-9 described in this paragraph, in its discretion, a payor or broker may require the payee to set forth his name and certify, under penalties of perjury, that his taxpayer identification number is correct (as set forth on the Form W-9 verified by the Internal Revenue Service) on the payor's or broker's substitute Form W-9 in order to prevent backup withholding under paragraph (f)(3) from beginning or to stop it under paragraph (f)(4)(ii) once it has begun.

(j) *Examples*. * * *

* * * * *

Example (6). Assume the same facts as in *Example (4)* except that the Internal Revenue Service notifies P again on November 9, 1990, that E's taxpayer identification number is incorrect. P is required to maintain its business records in a manner that P can determine that the Internal Revenue Service has notified P twice within a 3-year period that E's taxpayer identification number is incorrect. P is required to send the notice described in paragraph (f)(2) of this section to E. E does not make any withdrawal from the account after November 9, 1990. Under paragraph (f) of this section, P is required to begin backup withholding on reportable payments made after December 24, 1990 (after the close of the 30th business day after the day the Internal Revenue Service notifies P). P is required to continue backup withholding until P receives from the payee a copy of the notice from the Internal Revenue Service as described in paragraph (h) of this section.

Example (7). Individual F has three post-1983 accounts with Bank R that pay reportable interest: a checking account, a savings account, and a money market account. The checking and money market accounts were opened in 1986, and the savings account was opened in October of 1988. R treats each of these accounts as a separate account with the Bank. F provided R with the certifications as described under A-32 of §35a.9999-1 at the time each account was opened. On June 1, 1988, the Internal Revenue Service notified R pursuant to paragraph (b)(1) of this section that F furnished an incorrect taxpayer identification number. From its business records, R determined that only the money market account contains the incorrect taxpayer identification number. R timely sends F the notice required under paragraph (b)(1) of this section and receives the certification required under paragraph (e) of this section from F on June 30, 1988. On November 15, 1990, the Internal Revenue Service notifies R that F furnished an incorrect taxpayer identification number. R checks all accounts of F and determines that only the savings account contains the incorrect taxpayer identification number. Further, R determines from its business records that two notifications of an incorrect taxpayer identification number have been received with respect to F within 3 calendar years. R must send F the notice required under paragraph (f)(2) of this section and must commence backup withholding on reportable interest paid on the savings account pursuant to paragraph (f)(3) of this section after December 31, 1990. R must continue to backup withhold on the savings account until R receives from the payee a copy of the notice that was provided to the payee by the Internal Revenue Service as described in paragraph (h) of this section.

Appendix to §35a.3406-1 * * *

Remember

YOU MUST SEND US A SIGNED FORM W-9 WITHIN 30 CALENDAR DAYS FROM THE DATE SHOWN AT THE TOP OF PAGE 1 even if the name and number (SSN or EIN) on your account with us match the name and number (SSN or EIN) on your social security card or the document issuing you an EIN. If we do not receive your Form W-9, any other documents that are necessary for us to change the name or TIN (or both) on your account to reflect the name and number on the newly provided Form W-9, and, if necessary, the statement that you contacted SSA or IRS within the 30-day period, we may be required to withhold 20 percent from any reportable payment that we pay to your account until we receive the necessary documents. Also, if you make a withdrawal from your account before the end of a 30-business-day period beginning after the close of 7 business days after the date that we receive notice of the incorrect taxpayer identification number and before we receive the necessary documents, we may be required to withhold 20 percent of reportable payments made to your account during such period.

Please complete the form below if you are required to contact SSA or the IRS.

* * * * *

Par. 3. Section 35a.9999-1 is amended by revising A-10 and A-56 to read as follows:

§35a.9999-1 Questions and answers concerning the due diligence requirement and the certification requirements in connection with backup withholding and other related issues.

* * * * *

A-10. Yes. A substitute form must include space for the payee to provide his name, address, and taxpayer identification number. The form also must include space for the payee to certify under, penalties of perjury, that he is furnishing his correct taxpayer identification number to the payor. The wording of the certification must be substantially similar to the following: "Under penalties of perjury, I certify that the number shown on this form is my correct taxpayer identification number." If a payor uses a substitute form, the payor must provide either the Internal Revenue Service's instructions for Form W-9 or the substance of those instructions on or with the substitute form.

A signed copy of the Form 4029 or Form 8812 which contains the payee's name, address, and taxpayer identification number is deemed to be an substitute Form W-9 signed under penalties of perjury with respect to such number. However, the penalties associated with the penalties of perjury statement will not apply with respect to the taxpayer identification number on such form.

* * * * *

A-56. Yes. The payor is liable for the penalty under section 6676(b) for each year the payor files an information return with a missing or an incorrect taxpayer identification number for a pre-1984 account or instrument if the payor has not exercised due diligence as described in A-5 and A-6 and in the related questions and answers on due diligence under this section or obtained a certified taxpayer identification number from the payee. However, in its administrative discretion the Internal Revenue Service will not impose the penalty on a payor for an information return filed for calendar years after 1987 if the payor makes or has made a separate mailing of the type described in A-5 (as applicable under such Q and A) on or before June 30, 1988, and makes or has made the nonseparate mailing described in A-5 (as applicable under such Q and A) in each year subsequent to the year of the separate mailing claimed as the basis for administrative relief. Such separate and nonseparate mailings must be made with respect to all pre-1984 accounts or instruments of payees to whom the payor will make a reportable payment in 1988 or a subsequent calendar year if such payees have not previously certified, under penalties of perjury, that the taxpayer identification number furnished to the payor is the payee's correct taxpayer identification number or established the payee's foreign status (under §1.6049-5(b)(2)(iv)) with respect to interest payments or under Q and A 36 of §35a.9999-3 with respect to dividend payments). If a reportable payment will not be made to a pre-1984 account or instrument in 1988, the mailing with respect to the account or instrument may be made, in the discretion of the payor, by (1) June 30, 1988, or (2) the later of October 1 of the calendar year in which the payment to the account or instrument is subsequently reportable or within 30 days after such reportable payment occurs.

A payor will not be ineligible for administrative relief under this Q/A-56 with respect to a calendar year (for those accounts for which mailings were made as described in this A-56) due to a failure to make a mailing with respect to a *de minimis* number of accounts. A *de minimis* number of accounts is the lesser of 5,000 accounts or one percent (or less) of the total number of accounts for which a mailing should have been made under this Q/A-56. In addition, a payor will not be ineligible for administrative relief with respect to a calendar year (for those accounts for which mailings were made as described in this A-56) due to an inadvertent failure to make a mailing for a few accounts that could not be located using reasonable care.

In its administrative discretion, the Internal Revenue Service will not impose the penalty under section 6676 (b) on those *de minimis* accounts or on those accounts that could not be located using reasonable care in any calendar year for which a payor undertakes a mailing, as described in Q-5 in this section, with respect to *all* such accounts.

The rules described in A-5 and the related questions and answers on due diligence under this section shall apply, to the extent not inconsistent with this Q and A 56, as shall the rules described in A-8, A-9, A-10, A-11, A-12, A-14, A-15, and A-16. Further, the special rules in A-17, A-18, A-19, A-20, A-21, A-22, A-23, A-24, and A-25 also shall apply to the mailing described in A-56 of this section.

In order to receive administrative relief each year, a payor must make a written statement, under penalties of perjury, affirmatively showing to the satisfaction of the district director or the director of the Internal Revenue Service Center that the person otherwise liable for such penalty fulfilled the requirements of this paragraph. A payor should make the request from the Internal Revenue Service ninety days before the due date of the Form 8210. A payor will remain liable for any applicable penalties under section 6676(b) for years prior to 1988.

* * * * *

Par. 4. Section 35a.9999-2 is amended by adding the sentence "See Q/A-54 of §35a.9999-3 which revises the rule in this paragraph." at the end of the third paragraph in A-20.

Par. 5. Section 35a.9999-3 is amended as follows:

1. In A-4 the following words, "(and Announcement 88-6, 1988-3 I.R.B. 52)", are added to the third sentence in the sixth paragraph immediately after the words, "See §1.6045-1(d)(4) and (f)(3) of the Income Tax Regulations".

2. In Q-16 the words "section 6041?" are removed and the words "section 6041 or effective for royalty payments made after December 31, 1986, section 6050N?" are added in their place.

3. The following sentence is added at the end of A-48, "The payee must provide the actual Form W-9 or acceptable substitute form to the fund (or payor) in order for this A-48 to apply."

4. In Q-59 the words "and before July 1, 1988" are added immediately after the words "awaiting-TIN certification")".

5. In A-60 the words "was acquired by the payee through a post-1983 brokerage account" in the first sentence are removed and the words "is not a pre-1984 account of the payor" are added in their place.

6. In Q/A-85 the word "1988" is removed in each place that it appears and the word "1989" is added in its place.

7. In Q-87 the word "1988" is removed and the word "1989" is added in its place.

8. In A-87 the word "or" is removed and the word "order" is added in its place.

9. In Q-88 the word "1988" is removed and the word "1989" is added in its place.

10. In A-93 the words "1984 and 1985" are removed from the second sentence and the words "1984, 1985, 1986, and 1987" are added in their place, and the word "1986" is removed from the last sentence and the word "1988" is added in its place.

11. In A-95 the words "1984 and 1985" are removed from the first sentence and the words "1984, 1985, 1986, and 1987" are added in their place.

12. Question and Answer 104 is renumbered as Q/A-105.

13. Answer 27, A-38, A-51, Q/A-54, A-59, A-62, A-86. A-89 and A-97 are revised, in addition, a new Q/A-59A, a new heading and a Q/A-70A, and a new Q/A-104 are added immediately after Q/A-59, Q/A-70, and Q/A-103, respectively. The revised and added provisions read as follows:

§35a.9999-3 Questions and answers concerning backup withholding.

* * * * *

A-27. With respect to the retirement or redemption of a debt security before January 1, 1988, backup withholding applies on the sale date under §1.6045-1(d)(4) of the Income Tax Regulations. Additionally, a broker that is also the obligor on a debt security may elect to apply backup withholding on the payment date.

With respect to the retirement or redemption of a debt security after December 31, 1987, backup withholding applies on the date the "sale" is entered on the books of the broker. Additionally, a broker that is also the obligor on a debt security may elect to apply backup withholding on the payment date if later than the "sale" date.

A broker must determine whether backup withholding applies on the same date (either the date entered on the books of the broker or the payment date) for all similarly situated payees receiving payments on the same type of debt security.

* * * * *

A-38. If a payor erroneously withholds tax or withholds more than the proper amount of the tax, the payor may refund the amount withheld as provided in section 6413 and A-39. A payor shall be considered to have withheld erroneously only if (1) the amount is withheld because of an error by the payor (*e.g.*, an error in "flagging" or identifying an account that is subject to backup withholding), or (2) the Internal Revenue Service directs the payor to refund an amount withheld pursuant to section 3406(a)(1)(C). If the payor requires a payee described in §31.3452(c)-(1)(b) through (p) of the Employment Taxes and Collection of Income Tax at Source Regulations (*e.g.*, a corporation)(See T.D. 7880, 1983-1 C.B. 242, 251, Removed by T.D. 7949, 1984-1 C.B. 204) to certify as to its status as exempt from backup withholding, the payee fails to make the required certification, and the payor subsequently withholds the tax from a payment to such payee, the payor may, in its discretion, treat the amount withheld as an amount erroneously withheld and refund it to the payee. The result is the same if the payor does not require such a payee to certify as to its status and the payor withholds.

If a payor withholds from a payee after the payee provides a taxpayer identification number or required certification to the payor but before the payor has processed the number or required certification (*i.e.*, prior to the time that the payor is treated as having received the number or certification under A-17 of §35a.9999-2), the payor may, in its discretion, treat the amount withheld as an amount erroneously withheld and refund it to the payee. If a payor withholds, however, because the payor has not received a taxpayer identification number or required certification and the payee subsequently provides a taxpayer identification number or the required certification to the payor, the payor may not refund the tax to the payee because the payor properly imposed backup withholding. The amount withheld is a credit against tax that the payee may take into account in computing estimated tax payments and may claim on the payee's income tax return.

* * * * *

A-51. In general, the payor of an account or instrument that is not a pre-1984 account (see A-34 of §35a.-9999-1 and A-20 of §35a.9999-3) nor a window transaction (as defined in A-42 of §35a.9999-1 and A-9 of §35a.9999-2) must use a taxpayer identification number provided by the payee under penalties of perjury on information returns filed with the Internal Revenue Service to satisfy the due diligence requirement. Therefore, if, after 1983, a payor permits a payee to open an account without obtaining the payee's taxpayer identification number under penalties of perjury and files an information return with the Internal Revenue Service with a missing or an incorrect taxpayer identification number, the payor will be liable for the $50 penalty for the year with respect to which such information return is filed. However, in its administrative discretion, the Internal Revenue Service will not enforce the penalty with respect to a calendar year if the certified taxpayer identification number is obtained after the account is opened and before December 31 of such year, provided that the payor exercises due diligence in processing such number *i.e.*, the payor uses the same care in processing the taxpayer identification number provided by the payee that a reasonably prudent payor would use in the course of the payor's business in handling account information such as account numbers and balances. See Q/A-73 of this section.

Once notified by the Internal Revenue Service (or a broker) that a number is incorrect, a payor is liable for the penalty for all prior years in which an information return was filed with that particular incorrect number if the payor has not exercised due diligence with respect to such years. See A-56 through A-70A of this section for the exceptions to due diligence. A pre-existing certified taxpayer identification number does not constitute an exercise of due diligence after the Internal Revenue Service or a broker notifies the payor that the number is incorrect if the Internal Revenue Service or a broker notifies the payor on or after January 1, 1989, unless the payor undertakes the actions specified in A-88 of this section.

* * * * *

Q-54. What are the legal obligations with respect to a grantor trust with ten or fewer grantors under sections 3406 and 6676(b)?

A-54. Backup withholding will apply to a reportable payment to a grantor trust with ten or fewer grantors that was established on or after January 1, 1984, if one of the conditions for imposing backup withholding exists with respect to the trust. The trustee of a grantor trust with ten or fewer grantors may not certify either that the trust is not subject to backup withholding due to notified payee underreporting or that the trust's taxpayer identification number provided by the trustee is correct unless each grantor has furnished the trustee with certifications, signed under penalties of perjury, that the grantor is not subject to backup withholding due to notified payee underreporting and that the grantor's taxpayer identification number provided to the trustee is correct, and the trustee uses such taxpayer identification numbers provided by the grantors on any Form 1041 that is filed by the trustee pursuant to section 671.

Effective June 12, 1989, a trustee of a grantor trust with ten or fewer grantors is not considered a payor for purposes of backup withholding. Therefore, distributions by the trust of amounts to beneficiaries will not be considered payments of reportable amounts subject to backup withholding. With respect to reportable payments (except gross proceeds reportable under section 6045) made prior to the above period, see Q/A-20 of section 35a.9999-2 under which a grantor trust with ten or fewer grantors is considered a payor for purposes of backup withholding.

However, a grantor trust with ten or fewer grantors may be a payor under the respective information reporting sections. As such, the trust may be subject to the penalty under section 6676(b) for filing an information return with a missing or an incorrect taxpayer identification number. No penalty, however, will be imposed on the trust with respect to information returns filed for the 1987 or 1988 calendar year.

* * * * *

A-59. In order to exercise due diligence a payor who receives a post-1987 awaiting-TIN certification from a payee before July 1, 1988, must: (1) Obtain a certified taxpayer identification number from the payee within 60 days after the date that the payor receives the awaiting-TIN certification, and (2) backup withhold on any withdrawals made after the close of 7 business days after the date the awaiting-TIN certification is received and before the earlier of (i) the date that the payor receives a certified taxpayer identification number from the payee, (ii) the date the account is closed, or (iii) the date backup withholding commences on all reportable payments made to the account, instrument, or relationship. For purposes of subsection (ii) in this A-59, a payor is also required to backup withhold on any reportable payment made at the time the account or relationship is closed. For purposes of subsection (2) in this A-59, all cash withdrawals in an amount up to the reportable payments made from the day after the date of receipt of the awaiting-TIN certification to the date of withdrawal are treated as reportable payments. For purposes of this Q/A-59, the term "cash" has the same meaning as the term "cash" set forth in §35a.3406-1(d)(1) of T.D. 8163, 52 Federal Register 44867. Thus, a payor who receives a post-1987 awaiting-TIN certification (as described in this Q/A-59) from a payee who does not provide the payor with a certified taxpayer identification number within the 60 days described in A-18 of §35a.9999-2 is liable for the penalty if reportable payments are paid to the account after the 60 days and the payor files an information return with respect to the account with a missing taxpayer identification number. The payor is liable for the penalty whether or not the payor backup withholds on the reportable payments made after the 60-day period.

However, in its administrative discretion, the Internal Revenue Service will not enforce the penalty for a calendar year against a payor who has properly withheld under this Q/A-59 if the payor (A) obtains the certified taxpayer identification number after the 60-day period (described above) and before December 31 of such calendar year, provided that the payor exercises due diligence in processing such number on the information return filed for such year, *i.e.*, the payor uses the same care in processing the taxpayer identification number provided by the payee that a reasonably prudent payor would use in the course of the payor's business in handling account information such as account numbers and balances (See Q/A-73 of this section), or (B) effective with respect to the 1988 and subsequent calendar years, undertakes an annual mailing as described in Q/A-59A of this section. The 1988 annual mailing must be made between January 1, 1988, and June 12, 1989.

Q-59A. What actions must a payor take in order to exercise due diligence on an account, instrument, or relationship for which the payor receives a post-1987 awaiting-TIN certification on or after July 1, 1988?

A-59A. In order to exercise due diligence a payor who receives a post-1987 awaiting-TIN certification on or after July 1, 1988, may elect on a payee-by-payee basis or in general to: (1) Follow the rules for due diligence as set forth in Q/A-59 above, (2) follow such due diligence rules but apply the definition of the term "cash" set forth in §35a.3406-1(d)(1), or (3) commence backup withholding on the account no later than 7 business days after the date the payor receives the awaiting-TIN certification on reportable payments thereafter made to the account (whether or not the payee makes a cash withdrawal). Under (3) above the payor must backup withhold until the earlier of (i) the date the payor receives a certified taxpayer identification number from the payee, (ii) the date the account is closed, or (iii) the date backup withholding commences on all reportable payments made to the account, instrument, or relationship. In addition with respect to (3), a payor must obtain a certified taxpayer identification number from a payee within 60 days after the date that the payor receives the awaiting-TIN certificate or undertake a mailing each year as described in Q/A-5 and 6 of §35a.9999-1 (except that the first required mailing may be, but need not be, a separate mailing) soliciting the certified taxpayer identification number from the payee. The payor must make a mailing each year until the earlier of (i) the calendar year that the certified taxpayer identification number is received, or (ii) the calendar year in which the account is closed. However, if the account is closed in December of a calendar year, the mailing must be made after the account is closed and before January 31 of the subsequent calendar year.

Effective August 16, 1988, a payor who has elected to apply subsection (3) above must refund the amounts withheld during the 60-day period in accordance with the procedures described in Q/A-39 of this section if the payor receives the certified taxpayer identification number from the payee on or after August 16, 1988, and within the 60-day period, provided that the payee is not subject to backup withholding under section 3406(a)(1)(C) or (D) during any part of such period. For purposes of the preceding sentence, the amounts withheld are deemed to be withheld erroneously as described in Q/A-39 of this section. If a certified taxpayer identification number is not received by the payor within the 60-day period, the amounts withheld shall not be refunded unless the amounts are erroneously withheld without regard to the rules described in this Q/A-59A. The payor is also required to backup withhold after the 60-day period until the payor receives a certified taxpayer identification number from the payee or the account is closed.

* * * * *

A-62. A payor who is notified by a broker that a payee failed to certify or furnish a taxpayer identification number to the broker will be considered to have exercised due diligence if the payor: (1) Imposes backup withholding if the payee did not certify his taxpayer identification number to the payor, (2) provides notice to the payee as provided in A-39 of §35a.9999-1 and A-18 of §35a.9999-2, and (3) encloses a postage-paid reply envelope (self-addressed) in the mailing of the notice. A payor described in this A-62 will be liable for the penalty under section 6676(b) for filing an information return with a missing taxpayer identification number for the 1988 or subsequent calendar years unless the payor complies with the procedures described in this A-62 in each such calendar year until the payor receives a certified taxpayer identification number from the payee or until the account is closed. A subsequent mailing is required to contain a reply envelope which may, but is not required to be, postage prepaid. For years prior to 1988, no penalty will be imposed on a payor who has complied with the requirements in this A-62 in the year the payor was notified by a broker.

A payor as described in this A-62 who receives a noncertified taxpayer identification number from a broker may be liable for the penalty under section 6676(b) for the 1988 or subsequent calendar years with respect to which the number provided by a payor on an information return filed with the Internal Revenue Service is determined to be incorrect unless the payor complies with the procedures described in this A-62 in each such calendar year until the payor receives a certified taxpayer identification number from the payee, the account is closed, or the payor undertakes the actions described in A-88 of this section after being notified of the incorrect taxpayer identification number.

(8) Life-Insurance Beneficiaries

Q-70A. Under what circumstances will a payor of reportable interest to a beneficiary of a life-insurance contract be considered to have exercised due diligence?

A-70A. Generally, a payor of reportable interest to a beneficiary of a life-insurance contract under which payment to the beneficiary commenced on or before December 31, 1983, will be considered to have exercised due diligence with respect to a calendar year if: the payor (1) uses a taxpayer identification number provided by the payee beneficiary under penalties of perjury as described in Q/A-51 of this section on the information return filed for such year, or (2) undertakes a mailing as described in Q/A-5 or 6 (or Q/A-56) of §35a.9999-1 prior to or at the time of payment, and (3) backup withholds on the reportable interest paid to the account if no taxpayer identification number has been provided (See Q/A-34 of §35a.9999-1) .

A payor of reportable interest to a beneficiary of a life-insurance contract under which payment to the beneficiary commenced on or after January 1, 1984, will be considered to have exercised due diligence with respect to a calendar year if the payor: (i) uses a taxpayer identification number provided by the payee-beneficiary under penalties of perjury as described in Q/A-51 of this section on the information return filed for such year, or (ii) effective with respect to the 1989 and subsequent calendar years, undertakes a mailing as described in Q/A-5 and 6 of §35a.9999-1 prior to or at the time of payment.

With respect to payments of reportable interest in calendar years prior to the 1989 calendar year (on a life-insurance contract under which payments to the beneficiary commenced on or after January 1, 1984), a payor will be considered to have exercised due diligence if the payor requested a certified taxpayer identification number from the payee beneficiary prior to, or at the time of, the reportable interest payment provided that at the time of such request the payor had in effect written procedures or policies that required the solicitation of the certified taxpayer identification number of the payee beneficiary prior to or at the time of payment.

* * * * *

A-86. No. A payor of a pre-1984 account or instrument is not required to undertake the mailings prescribed in A-5 and A-6 of §35a.9999-1 (or A-56 of §35a.9999-1) in any year in which the payor is also required to send the notice prescribed in §35a.3406-1(c)(or in §35a.3406-1(f)(2)). Thus, for example, assume that Payor X pays reportable interest on a pre-1984 account and has undertaken all the prescribed mailings in A-5 and A-6 by December 31, 1989, for the account of Payee A. Also assume that Payor X filed the calendar year 1984 return on February 28, 1985, with respect to Payee A with an incorrect taxpayer identification number and the 1985, 1986, 1987, and 1988 calendar year information returns on February 28, 1986, March 2, 1987, February 29, 1988, and February 28, 1989, respectively, with the same incorrect taxpayer identification number. Payor X has filed neither a Form 8210 for any of these years to remit the penalty under section 6676(b) nor the certification statement set forth in CP2100 (or letter 2137) for calendar years before 1988. In October of 1989 the Internal Revenue Service notifies Payor X that the number set forth on the 1988 calendar year information return (*i.e.*, filed in 1989 with respect to Payee A) was filed with an incorrect taxpayer identification number. Under these facts, Payor X is not liable for the penalty for filing the 1988 information return with an incorrect taxpayer identification number because (1) Payor X filed the information return before being notified by the Internal Revenue Service of the incorrect taxpayer identification number, and (2) Payor X exercised due diligence in 1988 through the prescribed annual mailing (*i.e.*, Payor X made the separate mailing in 1983 and the nonseparate mailings in 1984, 1985, 1986, 1987, and 1988 with respect to Payee A).

Similarly, Payor X is not liable for the penalty for the 1984, 1985, 1986, and 1987 calendar year information returns filed on February 28, 1985, February 28, 1986, March 2, 1987, and February 29, 1988, respectively.

Payor X will be liable for the penalty, however, for filing the 1989 calendar year information return with the same incorrect taxpayer identification number (*i.e.*, the number that the Internal Revenue Service notified was incorrect) unless Payor X (1) sends the notice information as described in §35a. 3406-1(c), and (2) uses the certified taxpayer identification number that is furnished by the payee, if one is received before the end of 1989, on the information return that is filed for the 1989 calendar year. If Payor X sends the notice described in §35a.3406-1(c) in the 1989 calendar year, Payor X is not also required to send the mailing described in A-5 and A-6 (or A-56) of §35a.9999-1 in 1989. If the payee does not provide a new taxpayer identification number to the payor, the payor must continue to use the existing taxpayer identification number on information returns filed for such payee.

* * * * *

A-89. The payor (1) must send the notice to the payee as prescribed in §35a.3406-1(f)(2), (2) must code all subsequent information returns that are filed in the calendar year after the calendar year in which the second notice is received with the words "2ND

NOTICE'', and (3) must, if the payor receives from the payee a copy of the notice from the Internal Revenue Service that the payee has provided a correct taxpayer identification number as described in paragraph (h) of §35a.3406-1, obtain and use such name and taxpayer identification number combination on the information returns that are filed after the calendar year in which the name and number are received.

A payor shall not count any notice received from the Internal Revenue Service or a broker prior to January 1, 1990, as the second of two notices within 3 calendar years. Further, a payor shall treat two or more notices received in a calendar year with respect to a payee as one notice received in that calendar year for that payee. The preceding sentence applies only with respect to a payor who receives such two or more notices under the same payor employer identification number (or social security number). See §35a.3406-1(f).

* * * * *

A-97. No. See Q/A-23 of §35a.9999-2.

* * * * *

Q-104. Is a payor required to retain the ''statement of SSA or IRS contact'' (as described in the Appendix to §35a.3406-1) that a payee has returned to the payor?

A-104. No. A payor is not required to retain the ''statement of SSA or IRS contact''.

* * * * *

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved January 31, 1989.

O. Donaldson Chapoton,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on April 10, 1989, 8:45 a.m., and published in the issue of the Federal Register for April 11, 1989, 54 F.R. 14341)

Section 4081.—Imposition of Tax

26 CFR 48.4081-1: Imposition and rates of tax. (Also Section 4041, 4091; 48.4041.-1.)

Diplomatic and counsular personnel; exemption for fuels taxes. Effective August 1, 1986, where the Department of State has certified to an oil company that a certain individual is eligible for tax exemption such individual may make tax-exempt purchases of gasoline or diesel fuel throughout the U.S. by purchasing the fuel with a credit card issued by such company.

Rev. Rul. 89-8

SECTION 1. PURPOSE

The State Department has instituted a reciprocal fuels tax exemption program for diplomatic and consular personnel of foreign governments. The manner in which such individuals may purchase gasoline and diesel fuel exempt from federal excise taxes is set forth below.

SEC. 2. BACKGROUND

Section 4081(a) of the Internal Revenue Code imposes a tax on gasoline equal to the sum of the Highway Trust Fund financing rate and the Leaking Underground Storage Tank Trust Fund financing rate. For years before 1988, the tax is imposed on gasoline sold by the producer or importer thereof, or by any producer of gasoline. After 1987, the tax is imposed on the earlier of (A) the removal, or (B) the sale, of gasoline by the refiner or importer thereof or the terminal operator.

Effective for sales after March 31, 1988, section 4091(a) of the Code imposes a tax on the sale of diesel fuel by the producer or importer thereof. The rate of tax under section 4091 is the sum of the Highway Trust Fund financing rate and the Leaking Underground Storage Tank Trust Fund financing rate.

Where no tax has been imposed under section 4091 of the Code, section 4041(a)(1) of the Code imposes a tax of 15 cents a gallon on diesel fuel (1) sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as fuel in such vehicle, or (2) used by any person as a fuel in a diesel-powered highway vehicle. An additional tax of 0.1 cent a gallon is imposed on the sale or use of diesel fuel under section 4041(d)(1) to fund the Leaking Underground Storage Tank Trust Fund.

Historically, certain exemptions from federal excise taxes for diplomatic and consular personnel have been made available by virtue of consular conventions, treaties and executive orders. Such exemptions are based on the diplomatic position of the individual. *See* Rev. Rul. 73-198, 1973-1 C.B. 424, and Rev. Rul. 65-100, 1965-1 C.B. 452.

Under section 201(c) of the Foreign Missions Act, 22 U.S.C. section 4301 (1982), the Secretary of State is authorized to determine the treatment that should be accorded a foreign mission in the United States, based on due consideration of the benefits, privileges, and immunities provided to missions of the United States in the country or territory represented by that foreign mission. Foreign missions in the United States were notified by diplomatic note of the U.S. Government's implementation of a policy of reciprocity in determining what benefits, privileges, and immunities are to be accorded foreign diplomatic and consular personnel.

Pursuant to this policy of reciprocity, on May 17, 1985, the Internal Revenue Service announced the commencement of a pilot program in the Washington, D.C. area to provide foreign diplomatic and consular personnel reciprocal exemption privileges from federal gasoline excise taxes. *See* Announcement 85-50, 1985-23 I.R.B. 25. Under this program, the State Department's Office of Foreign Missions certifies exemptions of individuals and periodically issues a list of the exempt individuals to certain oil companies. The pilot program was phased in by geographic region and, since August 1, 1986, the gasoline tax reciprocal exemption program has been in effect nationwide.

SEC. 3. APPLICATIONS AND PROCEDURES

Effective August 1, 1986, where the Department of State's Office of Foreign Missions has certified to an oil company participating in the program that a certain individual is eligible for tax exemption such individual may make tax-exempt purchases of gasoline or diesel fuel throughout the United States by purchasing the fuel with a credit card issued by such company.

The amount of gasoline tax will be included in the price of the gasoline charged by the retail dealer to the eligible person. The tax will thereafter be deducted from the purchase price by the oil company's billing department. Neither cash transactions nor purchases made with credit cards issued by entities other than the oil companies who receive the Office of Foreign Missions list (e.g., bank credit cards) are exempt from the gasoline tax.

Similarly, in the case of the retailers excise tax on diesel fuel imposed by section 4041(a)(1) of the Code and the manufacturers excise tax on diesel fuel imposed by section 4091(a) of the Code, the exemption applies only if the diesel fuel is purchased with a credit card issued by such oil company. The tax on the diesel fuel will be included in the price charged to the eligible individual but will be deducted from the purchase price by the oil company's billing department.

Generally, in the case of transactions involving diplomatic and consular personnel, the oil company that issues the credit card will credit its purchaser's account for an amount that includes the federal excise tax. Pursuant to the authority of section 201(c) of the Foreign Missions Act, and under procedures similar to those described in section 6416 of the Code, such oil company may file for a credit or refund (without interest) of the gasoline or diesel fuel tax.

Under Rev. Rul. 65-100 diplomats were required to present special identification cards in order to obtain exemption from retailers excise taxes. Such cards are no longer issued for purposes of diplomatic federal excise tax exemptions and are no longer required to substantiate diplomatic status for purposes of exemption from the diesel fuel tax.

Any questions regarding an individual's eligibility for inclusion on the Department of State exemption list should be directed to the U.S. State Department, Office of Foreign Missions, Washington, D.C. 20520.

EFFECT ON OTHER REVENUE RULINGS

Effective August 1, 1986, Rev. Rul. 73-198 and Rev. Rul. 65-100 are modified insofar as they apply to sales of gasoline and diesel fuels to diplomatic and consular personnel of foreign governments.

Subpart B.—Diesel Fuel and Aviation Fuel

Section 4091.—Imposition of Tax

Under what circumstances may diplomatic and consular personnel purchase gasoline and diesel fuel free of federal excise taxes. See Rev. Rul. 89-8, page 294.

Subchapter F.—Special Provisions Applicable to Manufacturers Tax

Section 4216.—Definition of Price

26 CFR 48.4216(b)-2: Constructive sale price; basic rules.
(Also Section 7805; 301.7805-1.)

Intercompany sales; rebuttal of constructive sale price. The Service will follow the court decision in *Storm Plastics, Inc.* v. *United States*, 770 F. 2d 148 (10th Cir. 1985), and allow a manufacturer to rebut the constructive sale price of section 4216(b)(1) of the Code even if there are no sales by the manufacturer to unrelated wholesale distributors. Rev. Rul. 77-66 is revoked and Rev. Rul. 76-182's conclusion that the 95 percent rule of Rev. Rul. 71-240 is rebuttable even when the manufacturer makes no sales to unrelated third party distributors is reinstated.

Rev. Rul. 89-47

ISSUE

The Internal Revenue Service has reconsidered Rev. Rul. 77-66, 1977-1 C.B. 338, in light of the decision in *Storm Plastics, Inc. v. United States*, 770 F.2d 148 (10th Cir. 1985).

LAW AND ANALYSIS

Under the constructive sale price provisions of section 4216(b)(1)(C) of the Internal Revenue Code, when an article subject to a manufacturers excise tax imposed under Chapter 32 is sold otherwise than in an arm's length transaction and at less than fair market price, the Service may construct a sale price for purposes of computing excise tax liability.

Rev. Rul. 77-66 concludes that if there are no sales by the manufacturer/taxpayer or an affiliated distributor to unrelated wholesale distributors, then there is no clearly reliable or feasible means of determining fair market price other than the constructive sale price provided by section 4216(b) of the Code. Therefore, in such circumstances, the constructive sale price is the fair market price for purposes of computing excise tax liability. Absent sales in the ordinary course of trade to unrelated wholesale distributors, the manufacturer may not rebut this constructive sale price.

In *Storm Plastics*, the court held that, even if there are no sales to unrelated wholesale distributors, the manufacturer is entitled to rebut the constructive sale price provided by section 4216(b)(1)(C) of the Code with the use of industry data, expert testimony, etc. The court indicated that Congress intended that the constructive sale price be used as the fair market price or tax base for the manufacturer's sales in such circumstances unless the taxpayer could show that another price was clearly applicable. *See* S. Rep. No. 91-1444, 91st Cong., 2d Sess. 21 (1970), 1971-1 C.B. 574, 585. The court further held that the conclusion in Rev. Rul. 77-66 does not manifest the intent of Congress because taxpayers may be able to establish, in a variety of ways, that a price is a fair market price.

HOLDING

The Service will follow the *Storm Plastics* decision and allow the manufacturer to rebut the constructive sale price of section 4216(b)(1) even if there are no sales by the manufacturer to unrelated wholesale distributors.

If a manufacturer does not have sales to unrelated wholesale distributors in the ordinary course of trade, the constructive sale price of section 4216(b)(1) of the Code will apply unless the manufacturer carries its burden of establishing that its product was sold at a fair market price.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 71-240, 1971-1 C.B. 372, concludes that in computing the manufacturers excise tax on sales between related companies, any intercompany sale price that is less than 95 percent of the selling company's lowest established resale price to unrelated wholesale distributors is considered less than fair market price. Rev. Rul. 76-182, 1976-1 C.B. 343, modifies Rev. Rul. 71-240 by concluding that if a manufacturer sells taxable articles to an affiliated distributor, a fair market price will be determined pursuant to the constructive sale price provisions of section 4216(b) of the Code unless the manufacturer can show that a lower price is clearly applicable. Rev. Rul. 76-182 further concludes that the 95 percent rule of Rev. Rul. 71-240 creates a rebuttable presumption. Rev. Rul. 77-66 modified Rev. Rul. 76-182 by concluding that the 95 percent rule of Rev. Rul. 71-240 creates a rebuttable presumption only when the manufacturer makes sales to unrelated third party distributors.

Rev. Rul. 77-66 is revoked. Rev. Rul. 76-182's conclusion that the 95 percent rule of Rev. Rul. 71-240 is rebuttable even when the manufacturer makes no sales to unrelated third party distributors is reinstated.

PROSPECTIVE APPLICATION

Pursuant to the authority granted in section 7805(b) of the Code, the holding in this revenue ruling will not be applied retroactively to the extent that it has adverse tax consequences to a taxpayer.

Chapter 33.—Facilities and Services
Subchapter B.—Communications

Section 4251.—Imposition of Tax

26 CFR 49.4251-1: Imposition of tax.
(Also Sections 4252, 4291.)

Public announcement service; communications tax. Tax consequences under section 4251 of the Code are described for amounts paid for a public announcement service.

Rev. Rul. 89-84

ISSUE

Are amounts paid for, or in connection with, providing a public announcement service (PAS) subject to the tax imposed by section 4251 of the Internal Revenue Code, and, if so, who is liable for the tax under the circumstances described below?

FACTS

PAS is a service that enables a subscriber to a local telephone company to call one or more telephone numbers of an information provider (IP) and hear recorded information on stock prices, sports scores, soap opera summaries, or news and weather reports.

When a subscriber calls a PAS number, the telephone company bills the subscriber 50 cents a call, a price selected by the IP. Pursuant to the tariff filed with and approved by the state utility commission, the entire per call transmission charge by the telephone company is borne by the IP. Thus, when the telephone company bills a subscriber (the call initiator) 50 cents for a completed call to a PAS telephone number, the telephone company retains out of the 50 cents collected a 30 cent transmission charge to the IP for local telephone service, and remits the net amount of 20 cents to the IP. If the telephone company is unable to collect the 50 cents from the subscriber then the telephone company bills the IP for the 30 cent transmission charge.

IP's payments to the telephone company for PAS also include a one-time service establishment charge, a flat monthly charge for each telephone number assigned to it, and a change charge for each IP requested change in the IP selected price, telephone number, or program name.

LAW AND ANALYSIS

Section 4251(a)(1) of the Code imposes a tax on amounts paid for certain communications services, including local telephone service as provided in section 4251(b)(1)(A). Section 4251(a)(2) provides that the tax shall be paid by the person paying for the service, and section 4291 provides that the tax shall be collected by the person receiving payment for the service.

Section 4252(a) of the Code provides that the term "local telephone service" means (1) the access to a local telephone system and the privilege of telephonic quality communication with substantially all persons having telephone or radio telephone stations constituting a part of such local telephone system, and (2) any facility or service provided in connection with a service described in (1).

Section 4253(g) of the Code provides that no tax shall be imposed under section 4251 on so much of any amount paid for the installation of any instrument, wire, pole, switchboard, apparatus, or equipment as is properly attributable to such installation.

In Rev. Rul. 75-102, 1975-1 C.B. 351, a telephone company sold "time-of day" and "weather forecast" services to businesses that wished to advertise their products. When one of these services was purchased by an advertiser, the telephone company assigned a specific number for the service and the persons calling would hear the correct time or weather forecast as well as the advertising message prepared by the advertiser. The advertiser subscribing to such service was billed monthly by the telephone company on the basis of the number of incoming calls.

Rev. Rul. 75-102 holds that the time-of-day and weather forecast services furnished by the telephone company provide the advertiser with access to a local telephone system and the privilege of telephonic quality communication with all persons having telephones in the system. Thus, such services are "local telephone service" and amounts paid by the business advertisers for such services are subject to the tax imposed by section 4251(a) of the Code.

The IP in this case is no different from an advertiser or any other service provider that wishes to communicate a message or information using the local telephone system. Subject to the approval of the state utility commission, the telephone company can determine the charge (tariff) for accessing the local telephone system in order to communicate a message or information, and whether an IP will bear some, all, or none of this charge.

In this case, pursuant to the tariff filed with and approved by the state utility commission, the entire telephone access and transmission charge is borne by the IP, the call recipient. The telephone company bills the telephone subscriber for the IP, selected price of 50 cents for every completed call to a PAS telephone number, retains out of the 50 cents collected a 30 cent transmission charge to the IP for local telephone service, and remits the net amount of 20 cents to the IP. The IP's constructive payment of the 30 cent charge (per completed PAS call) to the telephone company provides the IP with local telephone service in the form of access to the local telephone system and the privilege of telephonic quality communication with all persons having telephones in the system.

However, the net amount (20 cents per completed PAS call) remitted to the IP by the telephone company is not an amount paid for local telephone service in the form of a "service provided in connection with a [local telephone] service", as provided in section 4252(a)(2) of the Code. This is because the providing of PAS does not implement, facilitate, or otherwise assist in accessing or transmitting local telephone service. *Compare* Rev. Rul. 73-171, 1973-1

C.B. 445, which holds that amounts paid for automatic call distributing equipment are amounts paid for taxable local telephone service because such equipment helps to implement that service, *with* Rev. Rul. 72-616, 1972-2 C.B. 575, which holds that amounts paid for yellow pages listings are not amounts paid for taxable local telephone service because such listings are a form of advertising.

Although the one-time service establishment charge paid by the IP is in the nature of an installation fee that is exempt from tax under section 4253(g) of the Code, the flat monthly charge and the change charges paid by the IP are taxable charges for local telephone service under section 4251.

HOLDING

The IP is liable for the tax imposed by section 4251 of the Code on the 30 cents per call amount it is deemed to have paid to the telephone company for its local telephone service in connection with providing PAS. Amounts paid by the call initiators for PAS, including the 20 cents per call remitted by the telephone company to the IP, are not subject to the section 4251 tax.

Section 4252.—Definitions

Tax consequences under section 4251 of the Code are described for amounts paid for a public announcement service. See Rev. Rul. 89-84, page 296.

Subchapter E.—Special Provisions Applicable to Services and Facilities Taxes

Section 4291.—Cases Where Persons Receiving Payment Must Collect Tax

Tax consequences under section 4251 of the Code are described for amounts paid for a public announcement service. See Rev. Rul. 89-84, page 296.

Extension of Time to File for Taxpayers Outside the United States and Puerto Rico

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides Temporary Income Tax Regulations relating to the extension of time to file federal income tax returns and pay any taxes owing for United States citizens and U.S. residents who are outside of the United States and Puerto Rico. These temporary regulations reflect changes to the current regulations provided by Notice 88-40 [1988-1 C.B. 526] (issued by IRS Public Affairs Office and not published in the Federal Register) and clarify existing rules.

EFFECTIVE DATE: These temporary regulations apply to federal income tax returns due on or after April 15, 1988.

SUPPLEMENTARY INFORMATION:

PAPERWORK REDUCTION ACT

The temporary regulations contain no new reporting or recordkeeping requirements but merely move existing requirement to the new temporary regulations section and, thus, are not subject to the Paperwork Reduction Act (44 U.S.C. 3501), as amended.

BACKGROUND

This document contains amendments to the Income Tax Regulations (26 CFR Part 1) under section 6081 of the Internal Revenue Code.

NEED FOR TEMPORARY REGULATIONS

Because of the need for immediate guidance regarding the circumstances under which the Internal Revenue Service will grant an extension of time to file federal income tax returns due after April 15, 1988, and pay any taxes owing thereon, under §1.6081-2 of the regulations, it is impractical to issue these temporary regulations either with notice and public comment procedure under section 553(b) of title 5 of the United States Code, or under the effective date limitation of section 553(d) of title 5.

EXPLANATION OF PROVISIONS

Section 6081(a) provides that the Secretary may grant a reasonable extension of time for filing any return required by this title or by regulations.

The regulations remove an obsolete reference to §.6073-4 of the regulations contained in §1.6081-1(a). They also remove obsolete §1.6081-2(b).

Section 1.6081-2(a) provides, in part, that United States citizens and residents traveling outside the United States and Puerto Rico are granted an extension of time to file federal income tax returns and pay any taxes owing. The temporary regulations remove this provision.

Section 1.6081-2(a) also provides an extension of time to file and pay for United States citizens residing outside the United States and Puerto Rico and for U.S. residents living outside the United States and Puerto Rico. The temporary regulations clarify what is meant by residing and living outside the United States and Puerto Rico.

SPECIAL ANALYSIS

These rules are not major rules as defined in Executive Order 12991. Therefore, a Regulatory Impact Analysis is not required. A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Therefore, these rules do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6) and a Regulatory Flexibility Analysis is not required.

* * * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Paragraph (a) of §1.6081-1 is amended by removing the fifth sentence.

Par. 3. Section 1.6081-2 is redesignated as §1.6081-4T and is revised to read as follows:

§1.6081-4T Extensions of time in the case of certain partnerships, corporations and U.S. citizens and residents (temporary).

(a) *In general.* The rules in this paragraph apply to returns of income due after April 15, 1988. An extension of time for filing returns of income and for paying any tax shown on that return is hereby granted to and including the fifteenth day of the sixth month following the close of the taxable year in the case of:

(1) Partnerships which are required under paragraph (e)(2) of §1.6031-1 to

file returns on the fifteenth day of the fourth month following the close of the taxable year of the partnership, and which keep their records and books of account outside the United States and Puerto Rico;

(2) Domestic corporations which transact their business and keep their records and books of account outside the United States and Puerto Rico;

(3) Foreign corporations which maintain an office or place of business within the United States;

(4) Domestic corporations whose principal income is from sources within the possessions of the United States;

(5) United States citizens or residents whose tax homes and abodes, in a real and substantial sense, are outside the United States and Puerto Rico; and

(6) United States citizens and residents in military or naval service on duty, including non-permanent or short term duty, outside the United States and Puerto Rico.

(b) In order to qualify for the extension under this section, a statement must be attached to the return showing that the person for whom the return is made is a person described in paragraph (a) of this section.

(c) For purposes of paragraph (a)(5) of this section, whether a person is a United States resident will be determined in accordance with section 7701(b) of the Code. The term "tax home," as used in paragraph (a)(5), will have the same meaning which it has for purposes of section 162 (a)(2) (relating to travel expenses away from home). If a person does not have a regular or principal place of business, that person's tax home will be considered to be his regular place of abode in a real and substantial sense.

(d) In order to qualify for the extension under paragraph (a)(6), the assigned tour of duty outside the United States and Puerto Rico must be for a period that includes the entire due date of the return.

(e) A person otherwise qualifying for the extension under paragraph (a)(5) or paragraph (a)(6) shall not be disqualified because he is physically present in the United States or Puerto Rico at any time, including the due date of the return.

(f)With respect to income tax returns due on April 15, 1988, an extension of time for filing a return of income and for paying any tax shown on that return is hereby granted to and including the fifteenth day of the sixth month following the close of the taxable year in the case of citizens or residents of the United States who are traveling outside the United States and Puerto Rico. A taxpayer will be considered to be traveling outside the United States and Puerto Rico only if the period of travel outside the United States and Puerto Rico is a period of at least fourteen days continuous travel that includes all of April 15, 1988. For returns due after April 15, 1988, no extension will be granted to taxpayers traveling outside the United States and Puerto Rico.

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT (26 CFR Part 602)

Par. 4 The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 5. Section 602.101(c) is amended by removing from the table "§1.6081-2 . 1545-0148".

Par. 6. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.6081-4T ... 1545-0148".

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved January 13, 1989.

O. Donaldson Chapoton,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on February 22, 1989, 8:45 a.m., and published in the issue of the Federal Register for February 22, 1989, 54 F.R. 7762)

Subchapter B.—Miscellaneous Provisions

Section 6109.—Identifying Numbers

26 CFR 301.6109-1: Identifying numbers

Procedures are established to permit certain fiduciaries or other persons who are authorized to represent ten or more estates or trusts in federal tax matters to file consolidated applications to obtain employer identification numbers. See Rev. Proc. 89-37, page 919.

Chapter 62.—Time and Place for Paying Tax
Subchapter B.—Extensions of Time for Payment

Section 6166.—Extension of Time for Payment of Estate Tax Where Estate Consists Largely of Interest in Closely Held Business

26 CFR 20.6166-1: Election of alternate extension of time for payment of estate tax where estate consists largely of interest in closely held business.

At what rate does interest accrue on unpaid interest that should have been paid on past annual interest payment dates if the time for payment of estate tax is extended under section 6166 of the Code and a deficiency is assessed after the estate has timely made one or more annual interest payments? See Rev. Rul. 89-32, page 307.

26 CFR 20.6166A-3. Acceleration of payment. (Also Section 2032A.)

Extension of time for payment; estate tax; closely held business. Sale of specially valued property to a person, not a qualified heir, where proceeds reduce debt on assets of the ongoing business, is not a disposition for purposes of section 6166(g)(1)(A) of the Code, but is a disposition for purposes of section 2032A.

Rev. Rul. 89-4

ISSUES

1. If there is a sale of a portion of the assets of a closely held business to allay impending foreclosure and all the proceeds are applied to reduce mortgage debt on encumbered assets of the ongoing business, has there been a disposition of an interest in the business or withdrawal of funds from the business within the meaning of section 6166(g)(1)(A) of the Internal Revenue Code?

2. If the sale was of qualified property specially valued under section 2032A of the Code, was there a disposition within the meaning of section 2032A(c) of the Code?

FACTS

D, the decedent, died in 1983. At the time of *D*'s death, *D* had owned and operated a farm as a sole proprietor for more than 10 years. The farm consists of 2 separate tracts of land, each encumbered by a mortgage. Tract *A* had a fair market value of $700,000 and was encumbered by mortgage and accrued interest of $400,000. Tract *B* had a fair market value of $500,000, and was encumbered by a mortgage and accrued interest of $300,000. The adjusted value of the farming business was $550,000. The adjusted gross estate was $700,000. The executor elected to specially value the farm real property under section 2032A of the Code. The executor also elected to defer the payment of a portion of the estate tax pursuant to section 6166 of the Code.

In 1988, the outstanding mortgages on Tract *A* and Tract *B* had matured and were in a delinquent status. Foreclosure was imminent. However, there were insufficient cash and liquid assets to satisfy the unpaid mortgages and accrued interest which totaled $700,000. To allay impending foreclosure, Tract *A* was sold for $700,000 to a person who was not a qualified heir, and the entire proceeds were used to retire the mortgages on both Tract *A* and Tract *B*.

As a result of this transaction the adjusted value of the farming business remained at $550,000, but now consisted of $500,000 in unencumbered real estate, and $50,000 representing the equity in the farm equipment and miscellaneous assets.

LAW AND ANALYSIS

Section 6166(a)(1) of the Code provides that, if the value of an interest in a closely held business that is included in determining the gross estate of a decedent exceeds 35 percent of the adjusted gross estate, the executor may elect to pay part or all of the estate tax in 2 or more (but not exceeding 10) equal installments. Under section 6166(a)(2), only the amount of estate tax attributable to the closely held business may be paid in installments.

Section 6166(g)(1)(A) of the Code provides that if any portion of an interest in a qualified closely held business is distributed, sold, exchanged, or otherwise disposed of, or money or property attributable to such an interest is withdrawn from the business, and if the aggregate of such distributions, sales, exchanges or other dispositions and withdrawal equals, or exceeds 50 percent of the value of such trade or business, then the extension of time for payment shall cease to apply, and any unpaid portion of the tax payable in installments shall be paid upon notice and demand.

Section 2032A of the Code provides that real property used for family purposes or in a closely held business may, if certain conditions are satisfied, be valued on the basis of its current use rather than on the basis of its highest and best use under conventional rules of valuation.

Section 2032A(c)(1) of the Code imposes an additional estate tax if, within 10 years after the decedent's death and before the death of the qualified heir -

(A) the qualified heir disposes of any interest in qualified real property (other than by a disposition to a member or his family), or

(B) the qualified heir ceases to use for the qualified use the qualified real property which was acquired (or passed) from a decedent.

Section 6166 of the Code was intended to relieve the executor and the heirs from the necessity of partially liquidating a closely held business in order to pay estate taxes. The purpose of the acceleration provisions in section 6166(g)(1)(A) is to withdraw the benefits of section 6166 if 50 percent of the business is sold, or if 50 percent of the net assets are withdrawn from the business.

In a case where the sale of encumbered assets of a business is necessary to preserve the ongoing business from creditors threatening foreclosure on those assets, treating such a sale as a disposition would not be consistent with the purpose of section 6166 of the Code. Further, such a sale does not decrease the value of the closely held business included in the estate.

Therefore, a sale of a portion of the business assets of a closely held business that is made to allay impending foreclosure on encumbered business assets does not constitute a disposition of an interest in the business nor a withdrawal of funds from the business within the meaning of section 6166(g)(1)(A) of the Code, if all the proceeds are applied to reduce mortgage debt on other assets of the ongoing business. However, in a case in which sales proceeds exceed the amount of the mortgage and accrued interest, removal from the business of any excess funds would be a withdrawal of funds from the business within the meaning of section 6166(g)(1)(A) of the Code. Such a disposition would have to be added to other dispositions to determine if the aggregate of such distributions, sales, exchanges, or other disposition and withdrawals equals or exceeds 50 percent of the value of the interest. If so, the extension of time provided by section 6166(a) would cease to apply.

Although the sale of Tract *A* does not constitute a disposition within the meaning of section 6166(g)(1)(A) of the Code, under section 2032A of the Code, any sale of specially valued property to a person who is not a qualified heir constitutes a disposition for purposes of section 2032A(c). Such a sale results in the imposition of the additional estate tax under that section. Unlike section 6166, section 2032A is focused on real property, and requires the continued dedication of the specially valued real property to a qualified use.

HOLDINGS

1. The sale of a portion of the assets of a closely held business to allay impending foreclosure does not constitute a disposition of an interest in the business within the meaning of section 6166(g)(1)(A) of the Code, if the proceeds are applied to reduce mortgage debt on encumbered assets of the ongoing business.

2. The sale of a portion of qualified property valued under section 2032A of the Code to a person who is not a qualified heir to pay the unpaid balance on the mortgage that encumbered the qualified property, existing at date of death, constitutes a disposition within the meaning of section 2032A of the Code, triggering the imposition on the recapture tax under section 2032A(c).

Chapter 64.—Collection
Subchapter B.—Receipt of Payment

Section 6323.—Validity and Priority Against Certain Persons

26 CFR 301.6323(f)-1: Place for filing notice; form.

T.D. 8234

DEPARTMENT OF THE TREASURY
Internal Revenue Service
26 CFR Part 301

Electronic Filing of Notice of Federal Tax Lien

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document removes temporary regulations and adopts as final regulations proposed regulations published in the FEDERAL REGISTER on February 23, 1988, relating to a notice of Federal tax lien filed by the use of an electronic or magnetic medium. These regulations clarify existing regulations under section 6323(f) of the Internal Revenue Code (Code).

EFFECTIVE DATES: The regulations are effective for a notice of Federal tax lien filed on or after February 23, 1988.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On February 23, 1988, the Federal Register published temporary regulations (52 F.R. 5269) (1988-1 C.B. 399) and proposed regulations (53 FR 5279) (1988-1 C.B. 927) under section 6323(f) of the Code relating to a notice of Federal tax lien filed by the use of an electronic or magnetic medium, clarifying existing regulations under section 6323(f) of the Code. No written comments were received. A public hearing was neither requested nor held. Accordingly, the temporary regulations are removed and the proposed regulations are adopted as final regulations by this Treasury decision.

IN GENERAL

This document amends the Administrative Regulations (26 CFR Part 301) under section 6323 of the Code. These regulations clarify that the term "Form 668" includes a notice of Federal tax lien filed by the use of an electronic or magnetic medium where the law of the state in which a notice of Federal tax lien is filed permits such method of filing.

Section 6321 of the Code imposes a lien in favor of the United States whenever a person liable for any tax neglects or refuses to pay the tax after demand. For such lien to be valid as against any purchaser, holder of a security interest, mechanic's lienor, or judgment lien creditor, a notice of the lien must be filed which meets the requirements of section 6323(f). Section 6323(f)(3) provides that the form and content of the notice referred to in section 6323(a) shall be prescribed by the Secretary, and that such notice is valid notwithstanding any other provision of law regarding the form or content of a notice of lien.

NOTICE OF LIEN MAY BE FILED BY THE USE OF AN ELECTRONIC OR MAGNETIC MEDIUM

Section 301.6323(f)-1(c) of the regulations provides that notice of a Federal tax lien "shall be filed on Form 668, 'Notice of Federal Tax Lien under Internal Revenue Laws'." These final regulations clarify that the term "Form 668" includes both a Form 668 printed on paper and a Form 668 filed by the use of an electronic or magnetic medium if the law of the state in which the notice is filed permits a notice of Federal tax lien to be filed by the use of such medium. The use of a non-paper form will not affect the decision to place a notice of lien on file and will not significantly affect the timing of issuance of a notice of lien. Rather, the use of a non-paper form merely simplifies the manner of transmitting information to a state after a lien is determined to be valid and any remaining issues are resolved. Paper forms will continue to be used in states that do not permit electronic or magnetic filing.

The use of electronic or magnetic media to file a notice of tax lien will enable the Internal Revenue Service to better serve the public by (a) reducing the time it takes to notify the public that a lien exists; (b) reducing the amount of paperwork necessary to file a notice; and (c) in certain cases, eliminating or reducing the cost of filing a notice of lien, which cost is generally billed to the taxpayer involved.

REFILING A NOTICE OF LIEN

Section 6323(g) of the Code and §301.6323(g)-1 of the regulations, which govern the refiling of a notice of Federal tax lien, do not require a particular form to be used in refiling a notice of Federal tax lien. Therefore, an amendment to the regulations is not necessary to allow a notice of Federal tax lien to be refiled by the use of any electronic or magnetic medium permitted by the state in which the notice is refiled.

SPECIAL ANALYSES

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

* * * * * *

Adoption of amendments to the regulations

Accordingly, Part 301 of Title 26 of the Code of Federal Regulations is amended as follows:

Paragraph 1. The authority for Part 301 is amended as follows:

(1) By removing the following citation:

Authority: 26 U.S.C. 7805 * * * Section 301.6323(f)-1T(c) is also issued under 26 U.S.C. 6323(f)(3); and

(2) By adding the following citation:

Authority: 26 U.S.C. 7805 * * * Section 301.6323(f)-1(c) is also issued under 26 U.S.C. 6323(f)(3).

Par. 2. 26 CFR Part 301 is amended as follows:

(1) By removing §301.6323(f)-1T; and

(2) By revising §301.6323(f)-1(c) to read as follows:

§301.6323(f)-1 *Place for filing notice; form.*

* * * * * *

(c) *Form*—(1) *In general.* The notice referred to in §301.6323(a)-1 shall be filed on Form 668, "Notice of Federal Tax Lien under Internal Revenue Laws." Such notice is valid notwithstanding any other provision of law regarding the form or content of a notice of lien. For example, omission from the notice of lien of a description of the property subject to the lien does not affect the validity thereof even though State law may require that the notice contain a description of the property subject to the lien.

(2) *Form 668 defined.* The term "Form 668" generally means a paper form. However, if a state in which a notice referred to in §301.6323(a)-1 is filed permits a notice of Federal tax lien to be filed by the use of an electronic or magnetic medium, the term "Form 668" includes a Form 668 filed by the use of any electronic or magnetic medium permitted by that state. A Form 668 must identify the taxpayer, the tax liability giving rise to the lien, and the date the assessment arose regardless of the method used to file the notice of Federal tax lien.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved November 2, 1988.

O. Donaldson Chapoton,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on November 23, 1988, 8:45 a.m., and published in the issue of the Federal Register for November 25, 1988, 53 F.R. 47675)

Section 6326.—Administrative Appeal of Liens

26 CFR 301.6326-1T: Administrative appeal of the erroneous filing of notice of federal tax lien (temporary).

T.D. 8250

DEPARTMENT OF THE TREASURY
Internal Revenue Service
26 CFR Part 301

Administrative Appeal of the Erroneous Filing of Notice of Federal Tax Lien

AGENCY: Internal Revenue Service, Treasury

ACTION: Temporary regulations

SUMMARY: This document contains temporary regulations that provide for the administrative appeal of the erroneous filing of a notice of federal tax lien. The right to an administrative appeal of the erroneous filing of a notice of federal tax lien was established by the Technical and Miscellaneous Revenue Act of 1988. The regulations set forth the situations in which persons may appeal the erroneous filing of a notice of federal tax lien, the office to which appeals may be made, and the information and documents that must be submitted with an appeal. The text of the regulations also cross-references the notice of proposed rulemaking in * * * [GL-161-89, page 1012, this Bulletin].

EFFECTIVE DATE: The regulations providing the right to an administrative appeal of the erroneous filing of a notice of federal tax lien are effective July 7, 1989.

SUPPLEMENTAL INFORMATION: This document contains temporary regulations amending the Procedure and Administration Regulations (26 CFR Part 301) under section 6326 of the Internal Revenue Code. The regulations reflect the amendment of section 6326 by section 6238 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647).

Explanation of Provisions

Section 6238 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647, 102 Stat. 3342) redesignated section 6326 of the Internal Revenue Code as section 6327 and added a new section 6326. Section 6326(a) provides that the Secretary shall prescribe regulations that provide for the administrative appeal of the erroneous filing of a notice of federal tax lien. Section 6326(b) provides that if the Secretary determines that the Internal Revenue Service has erroneously filed a notice of federal tax lien, the Secretary must expeditiously, and, to the extent practicable, within 14 days after such determination, issue a certificate of release of the lien. This certificate must include a statement that the filing was erroneous.

The regulations provide that a person may file an administrative appeal of the erroneous filing of a notice of federal tax lien in any of the following situations: 1) the tax liability that gave rise to the lien was satisfied in full prior to the filing of notice; 2) the underlying liability was assessed in violation of the deficiency procedures set forth in section 6213 of the Internal Revenue Code; 3) the underlying liability was assessed in violation of Title 11, *i.e.*, the Bankruptcy Code; or 4) the statute of limitations for collection expired prior to the filing of notice.

The legislative history of section 6326 indicates that the administrative appeal is intended to be used only for the purpose of correcting publicly the erroneous filing of a notice of federal tax lien, not to challenge the underlying deficiency that led to the filing of a lien. In addition to the three situations specifically enumerated in the legislative history, to which section 6326 is meant to apply, the Internal Revenue Service considers it in keeping with the spirit of the Taxpayer Bill of Rights also to allow an appeal when the statute of limitations on collection expired prior to the filing of notice of federal tax lien. This additional situation also involves an erroneous filing of a notice of federal tax lien.

The Internal Revenue Service welcomes comments from the public concerning other possible situations that may involve the erroneous filing of a notice of federal tax lien. Some situations that the public might think should be covered by section 6326 already are covered under other sections of the Internal Revenue Code. For example, it may appear that the filing of a federal tax lien against a person with the same name as the liable taxpayer is erroneous and should be covered by section 6326 and these regulations. This situation, however, is covered by section 6325(e) of the Internal Revenue Code, which gives the Secretary the authority to issue a certificate of nonattachment of lien if, because of confusion of names, any person (other than the person against whom the tax was assessed) is or may be injured by the appearance that a notice of lien filed under section 6323 of the Code refers to such person.

The regulations provide that appeals under section 6326 shall be made to the district director, attention Chief, Special Procedures Function, of the district in which the lien was filed.

The regulations provide that a request for appeal under section 6326 is to be submitted in writing, and is to include the identity of the appealing party, a copy of the notice of lien affecting the property, if available, and the ground upon which the release of lien is sought. If the ground for release is that the liability was paid prior to the filing, the written request must include proof of full payment. If the ground upon which the filing of notice is being appealed is that the tax liability that gave rise to the lien was assessed in violation of the deficiency procedures set forth in section 6213 of the Internal Revenue Code, the appealing party must explain how the assessment was erroneous. If the ground for appeal is that the tax liability that gave rise to the lien was assessed in violation of Title II, the appealing party must identify the court and the district in which the bankruptcy petition was filed and provide the docket number and the date of filing of the bankruptcy petition.

Finally, the regulations provide that the appeal provided by section 6326 and these regulations shall be a person's exclusive administrative remedy for the erroneous filing of a notice of federal tax lien.

Special Analysis

It has been determined that these temporary regulations are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It is certified that these rules will not have a significant economic impact on a substantial number of small entities because the regulations only provide procedures for any taxpayer to follow to administratively appeal the erroneous filing of a federal tax lien. Therefore, the analysis requirements of the Regulatory Flexibility Act (5 U.S.C. Chapter 6) do not apply.

* * * * * *

Adoption of Addition to the Regulations

Accordingly, Title 26, Part 301 of the Code of Federal Regulations is amended as follows.

Paragraph 1. The authority citation for Part 301 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 301.6326-1T is added immediately following section 301.6325-1 to read as follows.

§301.6326-1T. *Administrative appeal of the erroneous filing of notice of federal tax lien (temporary).*

(a) In general. Any person may appeal to the district director of the district in which a notice of federal tax lien was filed on the property or rights to property of such person for a release of lien alleging an error in the filing of notice of lien. Such appeal may be used only for the purpose of correcting the erroneous filing of a notice of lien, not to challenge the underlying deficiency that led to the imposition of a lien. If the district director determines that the Internal Revenue Service has erroneously filed the notice of any federal tax lien, the district director shall expeditiously and, to the extent practicable within 14 days after such determination issue a certificate of release of lien. The certificate of release of such lien shall include a statement that the filing of notice of lien was erroneous.

(b) *Appeal alleging an error in the filing of notice of lien.* For purposes of paragraph (a) of this section, an appeal of the filing of notice of federal tax lien must be based on any one of the following allegations:

(1) The tax liability that gave rise to the lien, plus any interest and additions to tax associated with said liability was satisfied prior to the filing of notice of lien;

(2) The tax liability that gave rise to the lien was assessed in violation of the deficiency procedures set forth in section 6213 of the Internal Revenue Code;

(3) The tax liability that gave rise to the lien was assessed in violation of Title 11 of the United States Code (the Bankruptcy Code); or

(4) The statutory period for collection of the tax liability that gave rise to the lien expired prior to the filing of notice of federal tax lien.

(c) *Notice of federal tax lien that lists multiple liabilities.* When a notice of federal tax lien lists multiple liabilities, a person may appeal the filing of notice of lien with respect to one or more of the liabilities listed in the notice, if the notice was erroneously filed with respect to such liabilities. If a notice of federal tax lien was erroneously filed with respect to one or more liabilities listed in the notice, the district director shall issue a certificate of release with respect to such liabilities. For example, if a notice of federal tax lien lists tax liabilities for years 1980, 1981 and 1982, and the entire liabilities for 1981 and 1982 were paid prior to the filing of notice of lien, the taxpayer may appeal the filing of notice of lien with respect to the 1981 and 1982 liabilities and the district director must issue a certificate of release with respect to the 1981 and 1982 liabilities.

(d) *Procedures for appeal*—(1) *Manner.* An appeal of the filing of notice of federal tax lien shall be made in writing to the district director (marked for the attention of the Chief, Special Procedures Function) of the district in which the notice of federal tax lien was filed.

(2) *Form.* The appeal shall include the following information and documents:

(i) Name, current address, and taxpayer identification number of the person appealing the filing of notice of federal tax lien:

(ii) A copy of the notice of federal tax lien affecting the property, if available; and

(iii) The grounds upon which the filing of notice of federal tax lien is being appealed.

(A) If the ground upon which the filing of notice is being appealed is that the tax liability in question was satisfied prior to the filing, proof of full payment as defined in paragraph (e) of this section must be provided.

(B) If the ground upon which the filing of notice is being appealed is that the tax liability that gave rise to lien was assessed in violation of the deficiency procedures set forth in section 6213 of the Internal Revenue Code, the appealing party must explain how the assessment was erroneous.

(C) If the ground upon which the filing of notice is being appealed is that the tax liability that gave rise to the lien was assessed in violation of Title 11 of the United States Code (the Bankruptcy Code), the appealing party must provide the following:

(*1*) The identity of the court and the district in which the bankruptcy petition was filed: and

(*2*) The docket number and the date of filing of the bankruptcy petition.

(*3*) *Time.* An administrative appeal of the erroneous filing of notice of federal tax lien shall be made within 1 year after the taxpayer becomes aware of the erroneously filed tax lien.

(e) *Proof of full payment.* As used in paragraph (d)(2)(iii) of this section, the term "proof of full payment" means:

(1) An internal revenue cashier's receipt reflecting full payment of the tax liability in question prior to the date the federal tax lien at issue was filed:

(2) A canceled check to the Internal Revenue Service in an amount which was sufficient to satisfy the tax liability for which release is being sought: or

(3) Any other manner of proof acceptable to the district director.

(f) *Exclusive remedy.* The appeal established by section 6326 of the Internal Revenue Code and by this section shall be the exclusive administrative remedy with respect to the erroneous filing of a notice of federal tax lien.

(g) *Effective date.* The provisions of this section are effective July 7, 1989.

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impractical to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Michael J. Murphy,
Acting Commissioner of Internal Revenue.

Approved April 21 1989.

John G. Wilkins,
Acting Assistant Secretary of the Treasury.

26 CFR 301.6402-6T: Offset of past-due legally enforceable debt against overpayment (temporary).

T.D. 8239

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER F, PART 301—PROCEDURE AND ADMINISTRATION

Reduction of Tax Overpayments by Amount of Past-due Legally Enforceable Debt Owed to Federal Agency

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary Regulations.

SUMMARY: This document contains temporary regulations which further amend temporary regulations that were published in the Federal Register on September 30, 1985 [T.D. 8053, 1985-2 C.B. 333 and LR-291-84, 1985-2 C.B. 839], and were amended on May 13, 1987 [T.D. 8139, 1987-2 C.B. 280 and LR-72-86, 1987-2 C.B. 1030], relating to the reduction of a taxpayer's overpayment (*i.e.*, tax refund) by the amount of any past-due legally enforceable debt owed to a Federal agency and referred by that agency to the Internal Revenue Service for offset. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced in the notice of proposed rulemaking in * * * [IA-41-88, page 1019, this Bulletin].

The regulations affect any taxpayer who owes a past-due legally enforceable debt to any Federal agency identified as eligible to participate in the tax refund offset program by the Commissioner of Internal Revenue and who has made an overpayment of taxes, and such Federal agency to which the past-due legally enforceable debt is owed.

EFFECTIVE DATES: The regulations apply to refunds payable under section 6402 of the Internal Revenue Code of 1986 after December 31, 1985 and on or before January 10, 1994. However, if legislation is enacted extending the tax refund offset program beyond January 10, 1994, the regulations apply to refunds payable through the date to which such legislation extends the program. In such a case the Service will publish a notice confirming the extension of these regulations.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On September 30, 1985, temporary regulations under section 6402(d) and (e) of the Internal Revenue Code of 1954, and section 3720A of subchapter II of chapter 37 of Title 31, United States Code were published in the Federal Register (50 FR 39713, Sept. 30, 1985). Those regulations were amended on May 13, 1987 (52 FR 17949, May 13, 1987). The effective date of section 6402(d) was extended by section 9402 of the Omnibus Budget Reconciliation Act of 1987 (P.L. 100-203, 101 Stat. 1330-376) and further extended by section 701 of the Family Support Act of 1988 (P.L. 100-485, 102 Stat. 2425). This document amends those temporary regulations, which provided guidance concerning which debts qualify for referral to the Service for the Federal tax refund offset program and concerning procedures relating to operation of the program.

IN GENERAL

Section 6402(d) of the Internal Revenue Code requires the Internal Revenue Service (a) to reduce the amount of any overpayment (*i.e.*, tax refund) otherwise payable to a taxpayer by the amount of any past-due legally enforceable debt owed to a Federal agency of which the Service has been notified, (b) to pay the amount of the reduction to the agency to which the debt is owed, and (c) to notify the taxpayer that the overpayment has been reduced.

The temporary regulations require that a Federal agency submit a notification of a taxpayer's liability or past-due legally enforceable debt to the Service on magnetic tape by December 1 of each year. The regulations are amended to require the notification to be submitted to the Service by a date specified in a revenue procedure. Since the date by which notification must be submitted each year is subject to change, it was determined that providing the date by revenue procedure would allow greater flexibility in administering the program.

The regulations are amended to provide that the amount that is transmitted to each Federal agency is reduced by a fee for each offset.

The effective date of the regulations is amended to provide that the regulations are effective for refunds payable after December 31, 1985, and on or before January 10, 1994. However, if legislation extending the tax refund offset program beyond January 10, 1994, is enacted, the regulations are effective for refunds payable through the date to which such legislation extends the program.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and, therefore, a Regulatory Impact Analysis is not required. A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, these temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

* * * * * *

Amendments to the regulations

The amendments to 26 CFR Part 301 are as follows:

Paragraph 1. The authority for Part 301 continues to read as follows:

Authority 26 U.S.C. 7805. * * * Section 301.6402-6T also issued under 31 U.S.C. 3720A.

Par. 2. Section 301.6402-6T is amended as follows:

1. In paragraph (b), the first sentence of the concluding language that follows paragraph (b)(8) is revised to read as set forth below:

2. In paragraph (c)(1), the introductory language that precedes paragraph (c)(1)(i) is revised to read as set forth below.

3. Paragraphs (i) and (k) are revised to read as set forth below.

§301.6402-6T Offset of past-due legally enforceable debt against overpayment. (Temporary)

* * * * * *

(b) * * *

For purposes of this paragraph, in order to make a reasonable attempt to notify the taxpayer the agency must use such address information as may be obtainable from the Service pursuant to section 6103(m)(2), (m)(4) or (m)(5) of the Code. * * *

(c) *Time and content of notification of liability for past-due legally enforceable debt.* (1) A Federal agency must submit a notification of a taxpayer's liability for past-due legally enforceable debt to the Service on magnetic tape by such date as shall be specified in a Revenue Procedure each year. Such notification must contain—

* * * * * *

(i) *Fees.* Refund offset fees in amounts determined to be sufficient to reimburse the Department of the Treasury for the full cost of the refund offset procedure prescribed by this section shall be deducted from amounts collected prior to disposition of such amounts as described in paragraph (h) of this section. The fees shall be deposited in the United States Treasury and credited to the appropriation accounts which bore all or part of the costs involved in administering the refund offset procedures.

* * * * * *

(k) *Effective date.* This section applies to refunds payable under section 6402 of the Internal Revenue Code after December 31, 1985, and on or before January 10, 1994. However, if legislation is enacted extending the tax refund offset program beyond January 10, 1994, this section applies to refunds payable through the date to which such legislation extends the program.

* * * * * *

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impractical to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved December 22, 1988.

Dennis E. Ross,
Acting Assistant Secretary of the Treasury.

26 CFR Parts 301 and 602

Abatement of Penalty or Addition to Tax Attributable to Erroneous Advice

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to the abatement of a portion of any penalty or addition to tax attributable to erroneous written advice furnished to a taxpayer by an officer or employee of the Internal Revenue Service, acting in such officer's or employee's official capacity. Changes to the applicable law were made by the Omnibus Taxpayer Bill of Rights provisions of the Technical and Miscellaneous Revenue Act of 1988. The regulations affect all taxpayers, and provide guidance regarding the definition of "advice" and the procedures that must be followed to obtain an abatement. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced in the Notice of Proposed Rulemaking in * * * [IA-24-89, page 1021, this Bulletin].

EFFECTIVE DATE: The temporary regulations are effective with respect to advice requested on or after January 1, 1989.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

This regulation is being issued without prior notice and public procedure pursuant to the Administrative Procedure Act (5 U.S.C. 553). For this reason, the collection of information requirement contained in this regulation has been reviewed and, pending receipt and evaluation of public comments, approved by the Office of Management and Budget (OMB) under control number 1545-0024. The time estimates for the reporting and recordkeeping requirements contained in this regulation are included in the burden of Form 843.

For further information concerning the collection of information, where to submit comments on the collection of information, and suggestions for reducing the burden, please refer to the preamble to the cross-reference notice of proposed rulemaking published elsewhere in * * * [IA-24-89, page 1021, this Bulletin].

Background

This document contains temporary regulations amending the Procedure and Administration Regulations (26 CFR Part 301) under section 6404 of the Internal Revenue Code of 1986 (Code). The amendments would conform the regulations to section 6229 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647, 102 Stat. 3342).

In general

Section 6404(f) provides that the Internal Revenue Service shall abate any portion of any penalty or addition to tax attributable to erroneous advice furnished to a taxpayer in writing by an officer or employee of the Service, acting in such officer's or employee's official capacity. The Service will abate a portion of any penalty or addition to tax under section 6404(f) only if (a) the written advice was reasonably relied upon by the taxpayer; (b) the written advice was in response to a specific written request of the taxpayer; and (c) the portion of the penalty or addition to tax did not result from a failure by the taxpayer to provide the Service with adequate or accurate information. Section 6404(f) is effective for advice requested on or after January 1, 1989.

Reliance on written advice

The written advice from the Service must have been reasonably relied upon by the taxpayer in order for any penalty to be abated under section 6404(f). Thus, in the case of written advice from the Service that relates to an item included on a federal tax return of a taxpayer, if such advice is received subsequent to the date on which the taxpayer filed such return, the taxpayer did not reasonably rely on the written advice in filing such return. However, if a taxpayer files an amended return that conforms with written advice received from the Service, the taxpayer will be considered to have reasonably relied on the advice for purposes of the position set forth in the amended return. In the case of written advice that does not relate to an item included on a federal tax return (for example, advice relating to the payment of estimated taxes), if such written advice is received by the taxpayer subsequent to the act or omission that is the basis of the penalty or addition to tax, then the taxpayer shall not be considered to have reasonably relied on such written advice.

If the written advice relates to a continuing action or series of actions, the taxpayer may rely on that advice until put on notice that the advice no longer represents Service position and, thus, is no longer valid. Correspondence from the Service to the taxpayer stating that the advice no longer represents Service position is sufficient to put the taxpayer on notice. Further, any of the following events, occurring subsequent to the issuance of advice, that set forth a position contrary to the position of the written advice will serve to put the taxpayer on notice that the advice is no is no longer valid: (a) legislation or a tax treaty; (b) a United States Supreme Court decision; (c) temporary or final regulations; and (d) a revenue ruling, a revenue procedure, or other statement published in the Internal Revenue Bulletin.

Definitions

For purposes of section 6404(f) and the temporary regulations thereunder, a written response issued to a taxpayer by an officer or employee of the Service shall constitute "advice" if, and only if, the response applies the tax laws to the specific written facts submitted by the taxpayer and provides a conclusion regarding the tax treatment to be accorded the taxpayer upon the application of the tax laws to those facts. The regulations define the terms "penalty" and "addition to tax" as any liability of a particular taxpayer imposed under Subtitle F, Chapter 68, Subchapter A and Subchapter B of the Internal Revenue Code, and the liabilities imposed by sections 6038(b), 6038(c), 6038A(d), 6038B(b), 6039E(c), and 6332(d)(2). In addition the terms "penalty" and "addition to tax" shall include any liability resulting from the application of other provisions of the Code where the Commissioner of Internal Revenue has designated by regulation, revenue ruling, or other guidance published in the Internal Revenue Bulletin that such provision shall be considered a penalty or addition to tax for purposes of section 6404(f). The terms "penalty" and "addition to tax" shall also include interest imposed with respect to any penalty or addition to tax. The Service welcomes any comments concerning which provisions, if any, not included in the definition of "penalty" and "addition to tax" should be considered a penalty or an addition to tax for purposes of section 6404(f) and the regulations thereunder.

Procedures for abatement

Section 301.6404-3T(d) provides that taxpayers entitled to an abatement of a penalty or addition to tax pursuant to section 6404(f) should complete and file Form 843. If the erroneous advice received relates to an item on a federal tax return, taxpayers should submit Form 843 to the Internal Revenue Service Center where the return was filed. If the erroneous advice does not relate to an item on a federal tax return, Form 843 should be submitted to the Service Center where the taxpayer's return was filed for the taxable year in which the taxpayer relied on the erroneous advice. Form 843 must be accompanied by copies of: (a) the taxpayer's written request for advice; (b) the erroneous written advice furnished by the Service to the taxpayer and relied on by the taxpayer; and (c) the report (if any) of tax adjustments that identifies the penalty or addition to tax and the item relating to the erroneous written advice.

Period for requesting abatement

An abatement of any penalty or addition to tax pursuant to section 6404(f) and §301.6404-3T shall be allowed only if the request for abatement is submitted within the period allowed for collection of such penalty or addition to tax, or, if the penalty or addition to tax has been paid, the period allowed for claiming a credit or refund of such penalty or addition to tax.

Regulatory Impact Analysis

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required.

Issuance of Proposed Regulation and Submission to Small Business Administration

The rules contained in this document are also being issued as proposed regulations by the notice of proposed rulemaking on this subject in * * * [IA-24-89, page 1021, this Bulletin]. Pursuant to section 7805(f) of the Internal Revenue Code, a copy of the rules will be submitted to the Administrator of the Small Business Administration for comment on their impact on small businesses.

* * * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 301 and 602 are amended as follows:

Paragraph 1. The authority for Part 301 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * Section 301.6404-3T is also issued under 26 U.S.C. 6404(f)(3).

Par. 2. The following new section is added immediately following §301.6403-1 to read as follows:

§301.6404-0T Table of contents (temporary).

This section lists the paragraphs contained in sections 301.6404-1T - 301.6404-3T.

§301.6404-1 Abatements.

§301.6404-2T Definition of ministerial act (temporary).

(a) In general.

(b) Ministerial act.

(1) Definition.

(2) Examples.

(c) Effective date.

§301.6404-3T Abatement of penalty or addition to tax attributable to erroneous written advice of the Internal Revenue Service (temporary).

(a) General rule.

(b) Requirements.

(1) In general.

(2) Advice was reasonably relied upon.

(i) In general.

(ii) Advice relating to a tax return.

(iii) Amended returns.

(iv) Advice not related to a tax return.

(v) Period of reliance.

(3) Advice was in response to written request.

(4) Taxpayer's information must be adequate and accurate.

(c) Definitions.

(1) Advice.

(2) Penalty and addition to tax.

(d) Procedures for abatement.

(e) Period for requesting abatement.

(f) Examples.

(g) Effective date.

Par. 3. The following new section is added immediately following §301.6404-2T to read as follows:

§301.6404-3T Abatement of penalty or addition to tax attributable to erroneous written advice of the Internal Revenue Service (temporary).

(a) *General rule.* Any portion of any penalty or addition to tax that is attributable to erroneous advice furnished to the taxpayer in writing by an officer or employee of the Internal Revenue Service (Service), acting in his or her official capacity, shall be abated, provided the requirements of paragraph (b) of this section are met.

(b) *Requirements*—(1) *In general.* Paragraph (a) of this section shall apply only if—

(i) The written advice was reasonably relied upon by the taxpayer;

(ii) The advice was issued in response to a specific written request for advice by the taxpayer; and

(iii) The taxpayer requesting advice provided adequate and accurate information.

(2) *Advice was reasonably relied upon*—(i) *In general.* The written advice from the Service must have been reasonably relied upon by the taxpayer in order

for any penalty to be abated under Paragraph (a) of this section.

(ii) *Advice relating to a tax return.* In the case of written advice from the Service that relates to an item included on a federal tax return of a taxpayer, if such advice is deceived by the taxpayer subsequent to the date on which the taxpayer filed such return, the taxpayer shall not be considered to have reasonably relied upon such written advice for purposes of this section, except as provided in paragraph (b)(2)(iii) of this section.

(iii) *Amended returns.* If a taxpayer files an amended federal tax return that conforms with written advice received by the taxpayer from the Service, the taxpayer will be considered to have reasonably relied upon the advice for purposes of the position set forth in the amended return.

(iv) *Advice not related to a tax return.* In the case of written advice that does not relate to an item included on a federal tax return (for example, the payment of estimated taxes), if such written advice is received by the taxpayer subsequent to the act or omission of the taxpayer that is the basis for the penalty or addition of tax, then the taxpayer shall not be considered to have reasonably relied upon such written advice for purposes of this section.

(v) *Period of reliance.* If the written advice received by the taxpayer relates to a continuing action or series of actions, the taxpayer may rely on that advice until the taxpayer is put on notice that the advice is no longer consistent with Service position and, thus, no longer valid. For purposes of this section, the taxpayer will be put on notice that written advice is no longer valid if the taxpayer receives correspondence from the Service stating that the advice no longer represents Service position. Further, any of the following events, occurring subsequent to the issuance of the advice, that set forth a position that is inconsistent with the written advice received from the Service shall be deemed to put the taxpayer on notice that the advice is no longer valid—

(A) Enactment of legislation or ratification of a tax treaty;

(B) A decision of the United States Supreme Court;

(C) The issuance of temporary or final regulations; or

(D) The issuance of a revenue ruling, a revenue procedure, or other statement published in the Internal Revenue Bulletin.

(3) *Advice was in response to written request.* No abatement under paragraph (a) of this section shall be allowed unless the penalty or addition to tax is attributable to advice issued in response to a specific written request for advice by the taxpayer. For purposes of the preceding sentence, a written request from a representative of the taxpayer shall be considered a written request by the taxpayer only if—

(i) The taxpayer's representative is an attorney, a certified public accountant, an enrolled agent, an enrolled actuary, or any other person permitted to represent the taxpayer before the Service and who is not disbarred or suspended from practice before the Service; and

(ii) The written request for advice either is accompanied by a power of attorney that is signed by the taxpayer and that authorizes the representative to represent the taxpayer for purposes of the request, or such a power of attorney is currently on file with the Service.

(4) *Taxpayer's information must be adequate and accurate.* No abatement under paragraph (a) of this section shall be allowed with respect to any portion of any penalty or addition to tax that resulted because the taxpayer requesting the advice did not provide the Service with adequate and accurate information. The Service has no obligation to verify or correct the taxpayer's submitted information.

(c) *Definitions*—(1) *Advice.* For purposes of section 6404(f) and the regulations thereunder, a written response issued to a taxpayer by an officer or employee of the Service shall constitute "advice" if, and only if, the response applies the tax laws to the specific facts submitted in writing by the taxpayer and provides a conclusion regarding the tax treatment to be accorded the taxpayer upon the application of the tax law to those facts.

(2) *Penalty and addition to tax.* For purposes of section 6404(f) and the regulations thereunder, the terms "penalty" and "addition to tax" refer to any liability of a particular taxpayer imposed under Subtitle F, Chapter 68, Subchapter A and Subchapter B of the Internal Revenue Code, and the liabilities imposed by sections 6038(b), 6038(c), 6038A(d), 6038B(b), 6039E(c), and 6332(d)(2). In addition, the terms "penalty" and "addition to tax" shall include any liability resulting from the application of other provisions of the Code where the Commissioner of Internal Revenue has designated by regulation, revenue ruling, or other guidance published in the Internal Revenue Bulletin that such provision shall be considered a penalty or addition to tax for purposes of section 6404(f). The terms "penalty" and "addition to tax" shall also include interest imposed with respect to any penalty or addition to tax.

(d) *Procedures for abatement.* Taxpayers entitled to an abatement of a penalty or addition to tax pursuant to section 6404(f) and this section should complete and file Form 843. If the erroneous advice received relates to an item on a federal tax return, taxpayers should submit Form 843 to the Internal Revenue Service Center where the return was filed. If the advice does not relate to an item on a federal tax return, the taxpayer should submit Form 843 to the Service Center where the taxpayer's return was filed for the taxable year in which the taxpayer relied on the erroneous advice. At the top of Form 843 taxpayers should write, "Abatement of penalty or addition to tax pursuant to section 6404(f)." Further, taxpayers must state on Form 843 whether the penalty or addition to tax has been paid. Taxpayers must submit, with Form 843, copies of the following—

(1) The taxpayer's written request for advice;

(2) The erroneous written advice furnished by the Service to the taxpayer and relied on by the taxpayer; and

(3) The report (if any) of tax adjustments that identifies the penalty or addition to tax and the item relating to the erroneous written advice.

(e) *Period for requesting abatement.* An abatement of any penalty or addition to tax pursuant to section 6404(f) and this section shall be allowed only if the request for abatement described in paragraph (d) of this section is submitted within the period allowed for collection of such penalty or addition to tax, or, if the penalty or addition to tax has been paid, the period allowed for claiming a credit or refund of such penalty or addition to tax.

(f) *Examples.* The following examples illustrate the application of section 6404(f) of the Code and the regulations thereunder:

Example 1. In February 1989, an individual submitted a written request for advice to an Internal Revenue Service Center and included adequate and accurate information to consider the request. The question posed by the taxpayer concerned whether a certain amount was includible in income on the taxpayer's 1989 federal income tax return. An employee of the Service Center issued the taxpayer a written response that concluded that based on the specific facts submitted by the taxpayer, the amount was not includible in income on the taxpayer's 1989 return. Since the response provided a conclusion regarding the tax treatment accorded the taxpayer on the basis of the facts submitted, the response constitutes "advice" for purposes of section 6404(f). The taxpayer filed his 1989 return and, relying on the Service's advice, did not include the item in income. Upon examination, it was determined that the item should have been included in income on the taxpayer's 1989 return. Because the taxpayer reasonably relied upon erroneous written advice from the Service, any penalty or addition to tax attributable to the erroneous advice will be abated by the Service. However, the erroneous advice will not affect the amount of any taxes and interest owed by the taxpayer (except to the extent interest relates to a penalty or addition to tax attributable to the erroneous advice) due to the fact that the item was not included in income

Example 2. In March 1989, an individual submitted a written request to the National Office of the Internal Revenue Service regarding whether a certain activity constitutes a passive activity within the meaning of section 469 of the Code. The request did not meet the procedural requirements set forth by the National Office for consideration of the submission as a private letter ruling request and, thus, was not treated as such by the Service. The Service furnished the taxpayer with a written response that transmitted various published provisions of section 469 and the regulations thereunder relevant to the determination of whether an activity is passive within the meaning of those provisions. The Service also included a Publication regarding the tax treatment of passive activities. However, the Service's response contained no opinion or determination regarding whether the taxpayer's described activity was or was not passive under section 469. The Service's response is not advice within the meaning of section 6404(f), and cannot be relied upon for purposes of an abatement of a portion of a penalty or addition to tax under that section.

Example 3. On April 1, 1989, an individual submitted a written request for advice to an Internal Revenue Service Center. The advice related to an item included on a federal tax return. The individual filed a federal income tax return with the appropriate Service Center on April 15, 1989. Subsequently, on May 1, 1989, the individual received advice from the Service Center concerning the written request made on April 1. Because the individual filed his tax return prior to the date on which written advice from the Service was received, the individual did not rely on the Service's written advice for purposes of section 6404(f). If, however, the individual amends his tax return to conform with the written advice received from the Service, the individual will be considered to have reasonably relied upon the Service's advice.

Example 4. Individual A, on May 1, 1989, received advice from the Service that concluded that interest paid by the taxpayer with respect to a specific loan was interest paid or accrued in connection with a trade or business, within the meaning of section 163(h)(2)(A) of the Code. The advice relates to a continuing action. Therefore, provided the facts submitted by the taxpayer to obtain the advice remain adequate and accurate (that is, the circumstances relating to the indebtedness do not change), Individual A may rely on the Service's advice for subsequent taxable years until the individual is put on notice that the advice no longer represents Service position and, thus, is no longer valid.

Example 5. An individual, on June 1, 1989, received advice from the Service that concluded that no gain or loss would be recognized with respect to a transfer of property to his spouse under section 1041. The advice does not relate to a continuing action. Therefore, the taxpayer may not rely on the advice of the Service for transfers other than the transfer discussed in the taxpayer's written request for advice.

(g) *Effective date*. Section 6404(f) shall apply with respect to advice requested on or after January 1, 1989.

Par. 4. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805

Par. 5. Section 602.101(c) is amended by inserting in the appropriate place in the table:

"§301.6404-3T(d) ....1545-0024."

The provisions contained in this Treasury decision are needed to provide immediate guidance. For this reason, it is found impracticable and contrary to public interest to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Michael J. Murphy,
Acting Commissioner of Internal Revenue.

Approved May 8, 1989.

John G. Wilkins,
Acting Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on May 15, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 16, 1989, 54 F.R. 21055)

Chapter 67.—Interest
Subchapter A.—Interest on Underpayments

Section 6601.—Interest on Underpayment, Nonpayment, or Extensions of Time for Payment of Tax

26 CFR 301.6601-1: Interest on underpayments. (Also Sections 6166, 6621; 20.6166-1, 301.6621-1.)

Interest rate; estate tax; closely held business. If the time for payment of estate tax is extended under section 6166 of the Code and a deficiency is assessed after the estate has timely made one or more interest payments, the 4-percent rate prescribed by section 6601(j) is applied to determine the amount of interest that should have been paid in each annual payment. Interest on any underpayment of interest thus determined accrues at the prevailing rate under section 6601(a) from the date the interest should have been paid under section 6166(f)(1) had the return shown the correct tax liability. Rev. Rul. 67-161 clarified and amplified.

Rev. Rul. 89-32

ISSUE

If the time for payment of estate tax is extended under section 6166 of the Internal Revenue Code and a deficiency is assessed after the estate has timely made one or more annual interest payments, at what rate does interest accrue on unpaid interest that should have been paid on each past annual interest payment date?

LAW AND ANALYSIS

Section 6166(a)(1) of the Code provides generally that if the value of an interest in a closely held business is included in determining the gross estate of a decedent and exceeds 35 percent of the adjusted gross estate, the executor may elect to pay all or part of the estate tax in up to 10 equal installments.

Section 6166(a)(3) of the Code provides generally that if the time for payment of estate tax is extended under section 6166, the first annual installment of tax must be paid on or before the date selected by the executor, which cannot be more than 5 years after the date prescribed by section 6151(a) for payment of estate tax.

Under section 6166(e) of the Code, if an election under section 6166(a) has been made and if a deficiency has been assessed, the deficiency shall (subject to the limitation provided by section 6166(a)(2)) be prorated to the installments payable under section 6166(a). Section 6166(e) does not apply if the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax.

Section 6166(f) of the Code prescribes the time for payment of interest when the time for payment of tax has been extended pursuant to a section 6166(a) election. Under section 6166(f)(1), interest payable under section 6601 must be paid annually on any unpaid portion of the tax attributable to the first 5 years after the date prescribed by section 6151(a) for payment of the tax.

Section 6166(g)(3) of the Code provides generally that if any payment of principal or interest is not paid within 6 months of the date fixed for its payment under section 6166, the unpaid portion of the tax payable in installments must be paid upon notice and demand from the Secretary.

Section 6601(a) of the Code provides generally that if any amount of tax is not paid on or before the last date prescribed for payment, interest on the unpaid amount must be paid at an annual rate established under section 6621 for the period from such last date to the date paid.

Under section 6601(e)(1) of the Code, any reference in the Code (except subchapter B of chapter 63, relating to deficiency procedures) to any tax imposed by the Code shall be deemed also to refer to interest imposed by section 6601 on such tax.

Section 6601(j)(1) of the Code provides generally that if the time for payment of an amount of estate tax, including any deficiency, is extended as provided in section 6166, interest on the 4-percent portion of the amount shall (in lieu of the annual rate provided by section 6601(a)) be paid at the rate of 4 percent.

Section 6601(j)(2) of the Code provides that the "4-percent portion" means the lesser of —

(A) $345,800 reduced by the amount of the credit allowable under section 2010(a); or

(B) the amount of the tax imposed by chapter 11 that is extended as provided in section 6166.

Through the statutory provisions described above, Congress has provided liquidity relief to an estate in which the decedent's interest in a closely held business is a significant part of the gross estate. If an election is made under section 6166 of the Code, the estate makes only annual interest payments during the initial five-year period on the tax attributable to the closely held business during which time payment of the tax is deferred. Moreover, within the limits of section 6601(j)(2), interest accrues during the period of deferral under section 6601(j)(1) at the rate of 4 percent rather than under section 6601(a) at the prevailing rate.

If a deficiency is assessed during the five-year deferral period, and the deficiency is attributable to the decedent's interest in a closely held business and is within the limits of section 6601(j)(2) of the Code, the deficiency is prorated to the scheduled installments of tax, and interest is imposed at the rate of 4 percent. Sections 6166(e) and 6601(j).

The question presented is how interest is calculated if the deficiency is assessed after one or more annual interest payments have been made. In such case, the interest payments that were made before assessment of the deficiency will have been less than the payments that would have been made had the correct liability been shown on the return. If the 4-percent rate of interest were applied to the interest that should have been paid in past annual interest payments from the date such interest was due until the date of notice and demand for such interest, the estate would be in a better position than if the tax liability had been reported correctly on the return.

Under section 6166(f)(1) of the Code, interest on any unpaid deferred tax attributable to the first 5 years after the date prescribed by section 6151(a) for payment of tax must be paid annually. Because a deficiency represents a portion of the unpaid tax, interest attributable to a deficiency that qualifies for deferral must also be paid annually under section 6166(f)(1). When a deficiency is assessed after an annual interest payment date, the fact that the correct amount of interest was not paid within 6 months of the past annual interest payment date does not cause acceleration of the unpaid tax under section 6166(g)(3) if the additional interest is paid within 6 months of notice and demand. This does not mean, however, that the 4-percent rate of interest applies to the underpayment of interest until there is notice and demand.

The operation of what is now designated as section 6601(j) of the Code was explained by Congress in H.R. Rep. No. 2198, 85th Cong., 1st Sess. 20-21 (1958), 1959-2 C.B. 709, 723:

> *Rate of Interest.*—... [T]he bill amends subsection (b) of section 6601 [presently subsection (j)] of the 1954 Code, relating to interest on extension of time to pay estate tax, to provide that interest shall be payable on any amount of estate tax, including a deficiency, which comes within the scope of section 6166, at the rate of 4 percent per annum instead of the normal rate .... which is provided by subsection (a) of section 6601. However, if any amount of such tax is not paid on or before the expiration of the period of extension applicable thereto, the [normal] rate will apply from the date of such expiration to the date the tax is paid.

Under section 6166(f)(1) of the Code, an estate is obligated to pay the interest on the full amount of its unpaid tax annually, and the 4-percent rate of interest prescribed by section 6601(j) extends only to the date on which the interest should have been paid. Congress did not intend that an estate with a deficiency be entitled to the 4-percent rate of interest for any period beyond the date on which the annual interest payment on the full amount of unpaid tax was due. Because interest is considered part of the tax under section 6601(a), interest on any underpayment of interest accrues at the prevailing rate under section 6601(e) from the date the interest should have been paid under section 6166(f)(1) had the return shown the correct tax liability.

The above principles are illustrated with the following example:

D died on March 31, 1982. *E*, the executor, timely filed *D*'s estate tax return on December 31, 1982. The estate elected to pay $200,000 of the estate tax attributable to an interest in a closely held business in 10 equal installments under section 6166(a) of the Code. The first installment of tax is due December 31, 1987. The first interest payment of $8,161.66 as determined under Rev. Proc. 83-7, 1983-1 C.B. 583, which provides tables and procedures for computing interest using the daily compounding rules, was due December 31, 1983, and *E* made the payment timely.

$200,000 × .040808298 (Table 10) for the period: (1-1-83 to 12-31-83) 365 days at 4 percent	=	$8,161.66

Subsequently, the Internal Revenue Service asserted a deficiency of $40,000 against the estate, all of which qualified under section 6166(a). Notice and demand was sent to *E* on August 31, 1984.

The entire deferred deficiency accrues interest at 4 percent because the limits imposed under section 6601(j)(2) of the Code have not been reached, and the date has not passed for payment of any portion of the deficiency. However, the date for payment of the first annual interest payment was December 31, 1983, and interest attributable to the deficiency was not paid. This unpaid interest accrues interest under section 6601(a) at the prevailing rate from the date it was due (December 31, 1983) until paid. The total additional interest payable as of August 31, 1984, as reflected in the notice and demand, is:

Interest on $40,000 for the period: (1-1-83 to 12-31-83) 365 days at 4 percent $40,000 × 040808298 (Table 10)	$1,632.33
(1-1-84 to 6-30-84) 182 days at 11 percent/leap years $1,632.33 × .056214263 (Table 41) =	$ 91.76
(7-1-84 to 8-31-84) 62 days at 11 percent/leap years $1 724.09 × .018805661 (Table 41)	$ 32.42
Total	$1,756.51

This amount must be paid within 6 months of notice and demand in order to avoid the acceleration provisions of section 6166(g)(3)(A).

Interest for 1984 on the principal amount of the deficiency will be paid on December 31, 1984, as part of the annual interest payment due under section 6166(f).

HOLDING

If the time for payment of estate tax is extended under section 6166 of the Code and a deficiency is assessed after the estate has timely made one or more interest payments, the 4-percent rate prescribed by section 6601(j) is applied to determine the amount of interest that should have been paid in each annual payment. Interest on any underpayment of interest thus determined accrues at the prevailing rate under section 6601(a) from the date the interest should have been paid under section 6166(f)(1) had the return shown the correct tax liability.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 67-161, 1967-1 C.B. 342, concludes that the 4-percent rate provided in former section 6601(b) of the Code, now section 6601(j)(1), applies to a deficiency prorated under section 6166 to tax installments, both past and future. However, Rev. Rul. 67-161 does not address the period of time during which the 4-percent rate applies. The portion of a deficiency prorated to an installment accrues interest at 4 percent (if within the 4-percent limitations) from the date prescribed by section 6151(a) for payment of the tax until the date prescribed by section 6166(a)(3) for payment of the installment to which the portion of the deficiency is prorated. Thereafter, the portion of the deficiency accrues interest under section 6601(a). Rev. Rul. 67-161 is clarified and amplified.

Subchapter C.—Determination of Interest Rate; Compounding of Interest

Section 6621.—Determination of Rate of Interest

26 CFR. 301.6621-1: Interest rate.

Interest rates; underpayments and overpayments. The rate of interest determined under section 6621 of the Code for the calendar quarter beginning April 1, 1989, will increase to 11 percent for overpayments and 12 percent for underpayments.

Rev. Rul. 89-36

Section 6621 of the Internal Revenue Code establishes differential rates for allowance of interest on tax overpayments and assessment of interest on tax underpayments. Under section 6621(a)(1), the overpayment rate is the sum of the federal short-term rate plus 2 percentage points. Under section 6621(a)(2), the underpayment rate is the sum of the federal short-term rate plus 3 percentage points.

Section 6621(b)(1) of the Code provides that the Secretary shall determine the federal short-term rate for the first month in each calendar quarter.

Section 6621(b)(2)(A) of the Code provides that the federal short-term rate determined under section 6621(b)(1) for any month shall apply during the first calendar quarter beginning after such month.

Section 6621(b)(2)(B) of the Code provides that in determining the addition to tax under section 6654 for failure to pay estimated tax for any taxable year, the federal short-term rate which applies during the third month following such taxable year shall also apply during the first 15 days of the fourth month following such taxable year.

Section 6621(b)(3) of the Code provides that the federal short-term rate for any month shall be the federal short-term rate determined during such month by the Secretary in accordance with section 1274(d), rounded to the nearest full percent (or, if a multiple of ½ of 1 percent, the rate shall be increased to the next highest full percent).

Notice 88-59, 1988-1 C.B. 546, announced that in determining the quarterly interest rates to be used for overpayments and underpayments of tax under section 6621 of the Code, the Internal Revenue Service will use the federal short-term rate based on daily compounding because that rate is most consistent with section 6621 which, pursuant to section 6622, is subject to daily compounding.

Rounded to the nearest full percent, the federal short-term rate based on daily compounding determined during the month of January 1989 is 9 percent. Accordingly, an overpayment rate of 11 percent and an underpayment rate of 12 percent are established for the calendar quarter beginning April 1, 1989. These rates apply to amounts bearing interest during that calendar quarter except that, pursuant to section 6621(b)(2)(B) of the Code, the 11 percent rate applicable to underpayments for the calendar quarter beginning January 1, 1989, continues to be applicable to individual estimated tax underpayments from April 1, 1989, through April 15, 1989. For April 16, 1989, through June 30, 1989, the 12 percent underpayment rate applies to such individual estimated tax underpayments.

Interest factors for daily compound interest for annual rates of 11 percent and 12 percent were published in Tables 17 and 18 of Rev. Proc. 83-7, 1983-1 C.B. 583, 600, 601.

Annual interest rates to be compounded daily pursuant to section 6622 of the Code that apply for prior periods are set forth in the accompanying tables.

26 CFR 301.6621-1: Interest rate.

Interest rates; underpayments and overpayments. The rate of interest determined under section 6621 of the Code for the calendar quarter beginning July 1, 1989, will increase to 11 percent for overpayments and 12 percent for underpayments.

Rev. Rul. 89-69

Section 6621 of the Internal Revenue Code establishes differential rates for allowance of interest on tax overpayments and assessment of interest on tax underpayments. Under section 6621(a)(1), the overpayment rate is the sum of the federal short-term rate plus 2 percentage points. Under section 6621(a)(2), the underpayment rate is the sum of the federal short-term rate plus 3 percentage points.

Section 6621(b)(1) of the Code provides that the Secretary shall determine the federal short-term rate for the first month in each calendar quarter.

Section 6621(b)(2)(A) of the Code provides that the federal short-term rate determined under section 6621(b)(1) for any month shall apply during the first calendar quarter beginning after such month.

Section 6621(b)(2)(B) of the Code provides that in determining the addition to tax under section 6654 for failure to pay estimated tax for any taxable year, the federal short-term rate which applies during the third month following such taxable year shall also apply during the first 15 days of the fourth month following such taxable year.

Section 6621(b)(3) of the Code provides that the federal short-term rate for any month shall be the federal short-term rate determined during such month by the Secretary in accordance with section 1274(d), rounded to the nearest full percent (or, if a multiple of ½ of 1 percent, the rate shall be increased to the next highest full percent).

Notice 88-59, 1988-1 C.B. 546, announced that in determining the quarterly interest rates to be used for overpayments and underpayments of tax under section 6621 of the Code, the Internal Revenue Service will use the federal short-term rate based on daily compounding because that rate is most consistent with section 6621 which, pursuant to section 6622, is subject to daily compounding.

Rounded to the nearest full percent, the federal short-term rate based on daily compounding determined during the month of April 1989 is 9 percent. Accordingly, an overpayment rate of 11 percent and an underpayment rate of 12 percent are established for the calendar quarter beginning July 1, 1989.

Interest factors for daily compound interest for annual rates of 11 percent and 12 percent were published in Tables 17 and 18 of Rev. Proc. 83-7, 1983-1 C.B. 583, 600, 601.

Annual interest rates to be compounded daily pursuant to section 6622 of the Code that apply for prior periods are set forth in the accompanying tables.

Subchapter A.—Additions to the Tax and Additional Amounts

Section 6652.-Failure to File Certain Information Returns, Registration Statements, Etc.

Guidance is provided for computing the income limits applicable to exempt facility bonds issued to provide for qualified residential rental projects under section 142 of the Code and to low-income housing credits under section 42. See Rev. Rul. 89-24, page 24.

Section 6661.—Substantial Understatement of Liability

26 CFR 1.6661-4: Disclosure of certain information.

Guidance is provided as to when information provided on a return in accordance with the applicable forms and instructions will be adequate disclosure for purposes of reducing an understatement of income tax under section 6661 of the Code. See Rev. Proc. 89-11, page 797.

26 CFR 1.6661-5: Items relating to tax shelters. (Also Sections 170, 262, 501; 1.170A-1, 1.262-1, 1.501(c)(3)-1.)

Substantial understatement penalty; "mail order" churches. ''Churches'' such as those described in Rev. Ruls. 78-232 and 81-94 are ''tax shelters'' for purposes of the substantial understatement penalty imposed by section 6661 of the Code. Rev. Ruls. 78-232 and 81-94 amplified.

Rev. Rul. 89-74

ISSUE

Are ''churches'' such as those described in Rev. Rul. 78-232, 1978-1 C.B. 69, and Rev. Rul. 81-94, 1981-1 C.B. 330, ''tax shelters'' within the meaning of section 6661 of the Internal Revenue Code?

FACTS

In Rev. Rul. 78-232, the taxpayer, claiming to be a duly ordained minister, formed a ''church.'' The original members of the church consisted of the taxpayer, the taxpayer's spouse and two minor children, and a few family friends. The taxpayer was employed full-time by a state government, and continued in this employment after the church was formed. The taxpayer's salary checks were received by the taxpayer and deposited into the church's bank account. The funds from the church bank account, however, were primarily used to furnish the taxpayer with lodging, food, clothing, and other living expenses in a manner comparable to that which the taxpayer previously enjoyed.

In Rev. Rul. 81-94, a professional nurse formed a ''church'' and became its minister by purchasing a ''certificate of ordination'' and a church charter from an organization selling such certificates and charters. Pursuant to a vow of poverty, all the nurse's assets, including a house and an automobile, were transferred to the church. In addition, the nurse's wage income was deposited into the church bank account. In return, the church assumed all the nurse's existing liabilities, such as the home mortgage and all outstanding credit card balances. The church also provided the nurse with a full living allowance sufficient to maintain or improve the nurse's standard of living and permitted the nurse to use the house and automobile for personal purposes.

LAW AND ANALYSIS

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for religious or charitable purposes, no part of the net earnings of which inures to the benefit of any private shareholder or individual. Section 1.501(c)(3)-1(d)(1)(ii) of the Income Tax Regulations provides that an organization described in section 501(c)-(3) must serve a public rather than a private interest. For example, such an organization cannot be organized or operated for the purpose of benefiting certain designated individuals or the creator or the creator's family.

Sections 170(a)(1) and 170(c) of the Code provide a deduction for any ''charitable contribution.'' A ''charitable contribution'' is defined to include a contribution or a gift to or for the use of an organization organized and operated exclusively for religious or charitable purposes, no part of the net earnings of which inures to the benefit of any private shareholder or individual.

Section 262 of the Code provides, in general, that no deduction shall be allowed for personal, living, or family expenses.

Section 6661(a) of the Code imposes a penalty if there is a substantial understatement of income tax. The penalty is equal to 25 percent of the underpayment attributable to such understatement.

Section 6661(b)(1) of the Code provides that a substantial understatement exists if the understatement exceeds the greater of 10 percent of the tax required to be shown on the return or $5,000 ($10,000 in the case of certain corporations).

Section 6661(b)(2)(B) of the Code provides that the amount of the understatement shall be reduced by the portion of the understatement which is attributable to (i) the tax treatment of any item by the taxpayer if there is or was substantial authority for such treatment, or (ii) any item with respect to which the relevant facts affecting the item's tax treatment are adequately disclosed in the return or in a statement attached to the return.

In the case of any understatement attributable to a tax shelter, section 6661(b)(2)(C)(i) of the Code provides that the taxpayer must be able to show that there is or was substantial authority for the tax treatment taken *and* that the taxpayer reasonably believed that the tax treatment was more likely than not the proper tax treatment. That section further provides that the adequate disclosure exception in section 6661(b)(2)(B)(ii) does not apply to any item attributable to a tax shelter.

Section 6661(b)(2)(C)(ii) of the Code and the underlying regulations define the term "tax shelter," for purposes of section 6661, to mean a partnership or other entity (such as a corporation or trust), any investment plan or arrangement, or any other plan or arrangement, if the principal purpose of such partnership, entity, plan, or arrangement is the avoidance or evasion of federal income tax.

Section 1.6661-5(c) of the regulations provides that an item of income, gain, loss, deduction or credit will be considered a "tax shelter item" if the item is directly or indirectly attributable to the principal purpose of a tax shelter to avoid or evade federal income tax.

Rev. Proc. 89-11, page 797, this Bulletin, provides, in section 4(a)(4), that merely disclosing "the name of an organization to which the taxpayer makes a donation and the amount of the donation (for which a charitable contribution deduction is claimed) will not constitute adequate disclosure for purposes of section 6661 of the Code if the taxpayer receives a substantial benefit from the donation shown." This revenue procedure has no applicability, however, if the organization to which the donation is being made is a "tax shelter" under section 6661(b)(2)(C)(ii), since the adequate disclosure exception does not apply in such cases.

In *Tweeddale v. Commissioner*, 92 T.C. No. 31 (March 22, 1989), the petitioner claimed on his individual income tax return that his income was exempt from tax because he was a "minister" in the Basic Bible Church of America. For the purchase price of $1200, the petitioner received a letter certifying him to be a minister of the Basic Bible Church, a certificate of ordination, a certificate of Doctor of Divinity, a letter from the "Archbishop" of the Church outlining the minister's obligations and duties, and a vow of poverty. Petitioner attached the documents to his individual income tax return for 1983. The court concluded that the principal purpose for establishing the ministry was tax avoidance and that the ministry was a tax shelter for purposes of section 6661 of the Code. Accordingly, the adequate disclosure exception to the penalty did not apply.

Rev. Rul. 78-232 holds that the amount of the salary checks deposited by the taxpayer in the church bank account is not deductible as a charitable contribution under section 170 of the Code on two alternative grounds. First, the contribution is not a "charitable contribution" within the meaning of section 170 because the transfer was made with the expectation of procuring a benefit in return. Second, the church is not an organization described in section 170(c) because it was operated for the private purposes of the taxpayer and not exclusively for religious or other charitable purposes.

Rev. Rul. 81-94 holds that the church is not an exempt organization under section 501(c)(3) of the Code because it was operated to serve the private interests of the taxpayer rather than a public interest and therefore was not operated exclusively for religious or charitable purposes. The church was merely a vehicle for handling the taxpayer's personal financial transactions.

The churches in Rev. Rul. 78-232 and Rev. Rul. 81-94 were formed for the principal purpose of avoiding federal income taxes. These churches thus come within the definition of "tax shelter" under section 6661 of the Code.

HOLDING

"Churches" such as those described in Rev. Rul. 78-232 and Rev. Rul. 81-94 are "tax shelters" within the meaning of section 6661 of the Code. Therefore, in the case of any understatement of income tax attributable to such a church, the adequate disclosure exception in section 6661(b)(2)(B)(ii) is not available to reduce such a taxpayer's understatement of income tax for purposes of applying the substantial understatement penalty.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 78-232 and Rev.Rul. 81-94 are amplified.

SUPREME COURT OF THE UNITED STATES
No. 87-1064

United States, Petitioner v. Philip George Stuart, Sr. et al.

[—U.S.—]

On Writ of Certiorari to The United States Court of Appeals for The Ninth Circuit

February 28, 1989

Syllabus

Articles XIX and XXI of the 1942 Convention Respecting Double Taxation (1942 Convention) between the United States and Canada require the United States, upon request and consistent with United States revenue laws, to obtain and convey information to Canadian authorities to assist them in determining a Canadian taxpayer's income tax liability. Respondent Canadian citizens and residents maintained accounts in a bank in the United States. In attempting to ascertain their Canadian income tax liability for certain years, the Canadian Department of National Revenue (Revenue Canada), pursuant to Articles XIX and XXI, requested the Internal Revenue Service (IRS) to provide pertinent bank records. After the IRS Director of Foreign Operations concluded that the requests fell within the 1942 Convention's scope and that it would be appropriate for the United States to honor them, the IRS served on the bank administrative summonses for the requested information, but, at respondents' request, the bank refused to comply. Respondents then petitioned the Federal District Court to quash the summonses, contending that because under 26 U.S.C. §7602(c) the IRS may not issue a summons to further its investigation of a United States taxpayer when a Justice Department referral for possible criminal prosecution is in effect and because Revenue Canada's investigation of respondents was "a criminal investigation, preliminary stage," United States law proscribed the use of a summons to obtain information for Canadian authorities regarding respondents' American bank accounts. This argument was rejected, and the District Court ordered the bank to comply with the summonses. The Court of Appeals reversed, holding that before the IRS may honor a request for information under the 1942 Convention it must determine that Revenue Canada's investigation has not reached a stage analogous to a Justice Department referral by the IRS and that here the affidavit submitted by the IRS failed to state that such a determination had been made with respect to Revenue Canada's investigation of respondents.

Held: Neither the 1942 Convention nor domestic legislation requires the IRS to attest that a Canadian tax investigation has not reached a stage analogous to a Justice Department referral by the IRS in order to obtain enforcement of a summons issued pursuant to a request by Canadian authorities under the 1942 Convention. So long as the IRS satisfies the requirements of good faith set forth in *United States* v. *Powell,* 379 U.S. 48, 57-58—that the investigation be conducted for and relevant to a legitimate purpose, that the information sought not be already in the IRS's possession, and that the statutorily required administrative steps have been followed—and complies with applicable statutes, it is entitled to enforcement of its summons, whether or not the Canadian tax investigation is directed towards criminal prosecution under Canadian law.

(a) Aside from whether the 1942 Convention, in conjunction with 26 U.S.C. §7602(c), narrows the class of legitimate purposes for which the IRS may issue an administrative summons, the IRS's affidavits plainly satisfied the requirements of good faith set forth in *United States* v. *Powell, supra.*

(b) Section 7602(c) does not, by its terms, apply to the summonses challenged in this case, for its speaks only to investigation into possible violations of United States revenue laws, forbidding the issuance of a summons "if a Justice Department referral is in effect." Therefore, §7602(c) does not itself appear to bar enforcement of the summonses in question. This conclusion is supported by §7602(c)'s legislative history indicating that Congress did not intend to make enforcement of a treaty summons contingent upon the foreign tax investigation's not having reached a stage analogous to a Justice Department referral. The concerns that prompted Congress to enact §7602(c)—particularly that of preventing the IRS from encroaching upon the rights of potential criminal defendants—are not present when the IRS issues summonses at the request of most foreign governments conducting investigations into possible violations of their own tax laws. This is especially so where none of the countries, including Canada, with whom the United States has tax treaties providing for exchanges of information employ grand juries and criminal discovery procedures differ considerably among those countries.

(c) Articles XIX and XXI of the 1942 Convention on their face do not support respondents' argument that because the IRS would not be able, under American law, to issue an administrative summons to gather information for use by the Government once a Justice Department referral was in effect, the IRS is not in a position to obtain such information once Canadian authorities have reached a corresponding stage in their investigation. Those Articles both refer to information that the IRS may obtain under American law, but that law does not contain the restriction respondents claim. Section 7602(c) only limits the issuance of a summons when a Justice Department referral is in effect and says nothing about foreign officials' decisions to investigate possible violations of their countries' laws with a view to criminal prosecution outside the United States. The elements of good faith outlined in *United States* v. *Powell, supra,* do not constitute such a restriction, nor does the reasoning in *United States* v. *LaSalle National Bank,* 437 U.S. 298, whose principal holding was codified in §7602(c), favor respondents' position, since the provision of information to Canadian authorities could not curtail the rights of potential criminal defendants in this country by undermining American discovery rules or diminishing the grand jury's role. Moreover, the purpose behind Articles XIX and XXI—the reduction of tax evasion by allowing signatories to demand information from each other—counsels against interpreting those provisions to limit inquiry in the manner respondents desire; the Government's regular compliance with Canadian authorities' requests for information without inquiring whether they intend to use the information for criminal prosecution weighs in favor of its reading of Articles XIX and XXI; and the result urged by respondents would contravene Congress' main reason for laying down as easily administrable test in §7602(c).

813 F.2d 243, reversed and remanded.

BRENNAN, J., delivered the opinion of the Court, in which REHNQUIST, C.J., AND WHITE, MARSHALL, BLACKMUN, and STEVENS, J.J., joined, and in all but Part II-C of which O'CONNOR and KENNEDY, J.J., joined. KENNEDY, J., filed an opinion concurring in part and concurring in the judgment, in which O'CONNOR, J., joined. SCALIA, J., filed an opinion concurring in the judgment.

JUSTICE BRENNAN delivered the opinion of the Court.

Articles XIX and XXI of the Convention Respecting Double Taxation, Mar. 4, 1942, United States-Canada, 56 Stat. 1405-1406, T.S. No. 983, oblige the United States, upon request and consistent with United States revenue laws, to obtain and convey information to Canadian authorities to assist them in determining a Canadian taxpayer's income tax liability. The question presented is whether the United States Internal Revenue Service may issue an administrative summons pursuant to a request by Canadian authorities only if it first determines that the Canadian tax investigation has not reached a stage analogous to a domestic tax investigation's referral to the Justice Department for criminal prosecution. We hold that neither the 1942 Convention nor domestic legislation imposes this precondition to issuance of an administrative summons. So long as the summons meets statutory requirements and is issued in good faith, as we defined that term in *United States* v. *Powell,* 379 U.S. 48, 57-58 (1964) [Ct.D. 1891, 1965-1 C.B. 336], compliance is required, whether or not the Canadian tax investigation is directed toward criminal prosecution under Canadian law.

I

Respondents are Canadian citizens and residents who maintained bank accounts with the Northwestern Commercial Bank in Bellingham, Washington. In attempting to ascertain their Canadian income tax liability for 1980, 1981, and 1982, the Canadian Department of National Revenue (Revenue Canada) asked the Internal Revenue Service (IRS) in January 1984 to secure and provide pertinent bank records. Revenue Canada made its requests pursuant to Articles XIX and XXI of the 1942 Convention.[1] The IRS Director of Foreign Operations—the "competent authority" under Article XIX—concluded that Revenue Canada's requests fell within the scope of the Convention and that it would be appropriate for the United States to honor them. App. 27-28. Specially, he found that "the requested information is not within the possession of the Internal Revenue Service or the Canadian tax authorities; that the requested information may be relevant to a determination of the correct tax liability of [respondents] under Canadian law; and that the same type of information can be obtained by tax authorities under Canadian law." *Id.*, at 28. Thus, on April 2, 1984, the IRS served on Northwestern Commercial Bank administrative summonses for the requested information.

At respondents' behest, the bank refused to comply. In accordance with 26 U.S.C. §7609(b)(2), respondents petitioned the United States District Court for the Western District of Washington to quash the summonses. Only one of their claims is before us. Respondents contended that because the IRS may not issue a summons to further its investigation of a United States taxpayer when a Justice Department referral is in effect, 26 U.S.C. §7602(c), and because Revenue Canada's investigation of each of them was, in the words of the IRS Director of Foreign Operations, "a criminal investigation, preliminary stage," App. 28, United States law proscribed the use of a summons to obtain information for Canadian authorities regarding respondents' American bank accounts. The Magistrate who held a consolidated hearing on respondents' claims rejected this argument. Without addressing their contention that the IRS may not issue a summons pursuant to a request by Revenue Canada once a Canadian tax investigation has reached a stage equivalent to a Justice Department referral for criminal prosecution, the Magistrate found that, even if respondents' legal claims were assumed to have merit, they had failed to carry their burden of showing that the Canadian authorities' investigation had advanced that far. App. to Pet. for Cert. 31a. Upon considering the Magistrate's report and respondents' objections to it, the District Court ordered the bank to comply with the summonses. *Id.*, at 25a-26a, 34a-35a.

After the Court of Appeals for the Ninth Circuit stayed the enforcement orders pending appeal, a divided panel of the court reversed. 813 F. 2d 243 (1987). The Ninth Circuit held that a summons issued pursuant to a request under the 1942 Convention, like one issued as part of a domestic tax investigation, will be enforced only if it was issued in good faith. The Court of Appeals further stated that the elements of good faith we described in *United States* v.*Powell,* 379 U.S., at 57-58, are not exhaustive; rather, in light of our subsequent decision in *United States* v. *LaSalle National Bank,* 437 U.S. 298 (1978) [Ct.D. 1994, 1978-2 C.B. 336], and Congress' enactment of what is now 26 U.S.C. §7602(c) good faith in domestic tax investigations also requires that the IRS not have referred the case to the Justice Department for possible criminal prosecution. Finally, and most significantly for purposes of this litigation, the Ninth Circuit ruled that the IRS acts in good faith in complying with a request for information under the 1942 Convention only when Canadian authorities act in good faith in seeking IRS assistance, and that the good faith of Canadian authorities should be judged by the same standard applicable to the IRS when it conducts a domestic investigation. Hence, the Court of Appeals concluded, before the IRS may honor a request for information it must determine that Revenue Canada's investigation has not reached a stage analogous to a Justice Department referral by the IRS. In addition, the Court of Appeals said, "in order to establish its prima facie case by affidavit, the IRS must make an affirmative statement" that Canadian authorities are acting in good faith and that their investigation has not yet reached that stage; the burden of proof on this point rests initially with the IRS rather than the taxpayer attempting to quash a summons, the court held, because the IRS "can consult with Canada's competent authority and can be expected to have greater familiarity with Canadian administrative procedures." 813 F. 2d, at 250. The Court of Appeals reversed the District Court's decisions because the affidavits submitted by the IRS failed to state that Revenue Canada's investigation of respondents had not yet reached a point analogous to an IRS referral to the Justice Department.

We granted certiorari, 485 U.S. ______ (1988), to resolve a conflict between the Ninth Circuit's decision in this case and the Second Circuit's holding in *United States* v. *Manufacturers & Traders Trust Co.*, 703 F. 2d 47 (1983). We now reverse.

II

A

In *United States* v. *Powell, supra,* we rejected the claim that the IRS must show probable cause to obtain enforcement of an administrative summons issued in connection with a domestic tax investigation. See 379 U.S., at 52-57. We held instead that the IRS need only demonstrate good faith in issuing the summons, which we defined as follows:

> "[The IRS Commissioner] must show that the investigation will be conducted pursuant to a legitimate purpose, that the inquiry may be relevant to the purpose, that the information sought is not already within the Commissioner's possession, and that the administrative steps required by the Code have been followed—in particular, that the 'Secretary of his delegate," after investigation, has determined the further examination to be necessary and has notified the taxpayer in writing to the effect." *Id.*, at 57-58.

Once the IRS has made such a showing, we stated, it is entitled to an enforcement order unless the taxpayer can show that the IRS is attempting to abuse the court's process. "Such an abuse would take place," we said, "if the summons had been issued for an improper purpose, such as to harass the taxpayer or to put pressure on him to settle a collateral dispute, or for any other purpose reflecting on the good faith of the particular investigation." *Id.*, at 58. See also *United States* v. *Bisceglia,* 420 U.S. 141, 146 (1975) [Ct.D. 1970, 1975-1 C.B. 379]. The taxpayer carries the burden of proving an abuse of the court's process. 379 U.S., at 58.

Leaving aside the question whether the 1942 Convention, in conjunction with 26 U.S.C. §7602(c), narrows the class of legitimate purposes for which the IRS may issue an administrative summons, the affidavits the IRS submitted in respondents' cases plainly satisfied the requirements of good faith we set forth in *Powell* and have repeatedly reaffirmed. See, *e.g., Tiffany Fine Arts, Inc.* v. *United States,* 469 U.S. 310, 321 (1985) [Ct.D. 2029, 1985-1 C.B. 386]; *United States* v. *Arthur Young & Co.*, 465 U.S. 805, 813, n. 10 (1984) [Ct.D. 2026, 1984-1 C.B. 270]. The IRS Director of Foreign Operations stated under oath that the information sought was not within the possession of American or Canadian tax authorities, that it might be relevant to the computation of respondents' Canadian tax liabilities, and that the same type of information could be obtained by Canadian authorities under Canadian law. App. 28. He further noted that the "[e]xchanged information may only be disclosed as required in the normal administrative or judicial process operative in the administration of the tax system of the requesting country," and that improper use of exchanged information would be protested. *Ibid.* In addition, the IRS issued its summonses in conformity with applicable statutes and duly informed respondents of their issuance. In their petitions to quash, respondents nowhere alleged that the IRS was trying to use the District Court's process for some improper purpose, such as harassment or the acquisition of bargaining power in connection with some collateral dispute. See *id.*, at 18-20. Nor does it appear that they later sought to prove abuse of process. Unless 26 U.S.C. §7602(c) or the 1942 Convention imposes more stringent requirements on the enforcement of the administrative summonses issued in this case, the IRS was entitled to enforcement orders under the rule laid down in *Powell.*

B

Section 7602(c) does impose an additional constraint on the issuance of summonses to further domestic tax investigations.[2] By its terms, however, it does not apply to the summonses challenged by respondents, for it speaks only to investigations into possible violations of

United States revenue laws. Section 7602(c) forbids the issuance of a summons "if a Justice Department referral is in effect" with respect to a person about whom information is sought by means of the summons. At the time of the District Court's decision, no Justice Department referral was in effect with regard to respondents; indeed, the IRS agent seeking the bank records to fulfill Revenue Canada's request said in her affidavit that no domestic tax investigation of any kind was pending. See App. 30. Section 7602(c) therefore does not itself appear to bar enforcement of the summonses at issue here.[3]

The legislative history of §7602(c) supports this conclusion. Prior to its enactment, we held in *United Stats* v. *LaSalle National Bank*, 437 U.S. 298 (1978), that the IRS may not issue a summons once it has recommended prosecution to the Justice Department, nor may it circumvent this requirement by delaying such a recommendation in order to gather additional information. We based our holding in large part on our finding that "[n]othing in §7602 or its legislative history suggests that Congress intended the summons authority to broaden the Justice Department's right of criminal litigation discovery or to infringe on the role of the grand jury as a principal tool of criminal accusation." *Id.*, at 312 (citations omitted). When Congress codified the essence of our holding in §7602(c), it apparently shared our concern about permitting the IRS to encroach upon the rights of potential criminal defendants. The Report of the Senate Finance Committee noted that "the provision is in no way intended to broaden the Justice Department's right of criminal discovery or to infringe on the role of the grand jury as a principal tool of criminal prosecution." S. Rep. No. 97-494, vol. 1, p. 286 (1982).

This explanation for the restriction embodied in §7602(c) suggests that Congress did not intend to make the enforcement of a treaty summons contingent upon the foreign tax investigation's not having reached a stage analogous to a Justice Department referral. None of the civil-law countries with whom the United States has tax treaties providing for exchanges of information employ grand juries, and Canada has ceased to use them.[4] Moreover, criminal discovery procedures differ considerably among countries with whom we have such treaties.[5] The concerns that prompted Congress to pass §7602(c) are therefore not present when the IRS issues summonses at the request of most foreign governments conducting investigations into possible violations of their own tax laws. If Congress had intended §7602(c) to impose a restriction on the issuance of summonses pursuant to treaty requests parallel to the restriction it expressly imposes on summonses issued by the IRS in connection with domestic tax investigations, it would presumably have offered some reason for extending the sweep of the section beyond its plain language. In addition, Congress would likely have discussed the appropriateness of extending the protections afforded by United States law to citizens of other countries who are not subject to criminal prosecution here, and would doubtless have considered the problems posed by the application of §7602(c) to requests by treaty partners, in particular the difficulty of determining when a foreign investigation has progressed to a point analogous to a Justice Department referral.[6] Respondents have not directed us, however, to anything in the legislative history of §7602(c) suggesting that Congress intended it to apply to summonses issued pursuant to treaty requests, or to any reference to the problems its application would have occasioned. We therefore see no reason to think that §7602(c) means more than it says.

C

The only conceivable foundation for the Ninth Circuit's rule that an IRS summons issued at the request of Canadian authorities may not be enforced unless the IRS provides assurance that the Canadian investigation has not proceeded to a stage analogous to a Justice Department referral is therefore the language of the 1942 Convention itself. Article XIX obliges the competent authority for the United States to furnish, upon request, relevant information that it is "in a position to obtain under its revenue laws." Article XXI repeats this clause almost verbatim, permitting the IRS Commissioner to supply Canadian authorities with relevant information he "is entitled to obtain under the revenue laws of the United States of America." Respondents contend that because the IRS would not be able, under American law, to issue an administrative summons to gather information for use by the Government once a Justice Department referral was in effect, the IRS is not in a position to obtain such information once Canadian authorities have reached a corresponding stage in their investigation.

(1)

We are not persuaded by this argument. "The clear import of treaty language controls unless 'application of the words of the treaty according to their obvious meaning effects a result inconsistent with the intent or expectations of its signatories.'" *Sumitomo Shoji America, Inc.* v. *Avagliano*, 457 U.S. 176, 180 (1982), quoting *Maximov* v. *United States*, 373 U.S. 49, 54 (1964) [Ct.D. 1880, 1963-2 C.B. 689]. Articles XIX and XXI both refer to information that the IRS may obtain under American law. American law, however, does not contain the restriction respondents claim to find there. Section 7602(c) only limits the issuance of summonses when a Justice Department referral is in effect; it says nothing about decisions by foreign tax officials to investigate possible violations of their countries' tax laws with a view to criminal prosecution outside the United States. The elements of good faith we outlined in *United States* v. *Powell*, 379 U.S. 48 (1964), do not contain such a restriction. Nor does our reasoning in *United States* v. *LaSalle National Bank*, 437 U.S. 298 (1978), favor the result respondents urge, because the provision of information to Canadian authorities could not curtail the rights of potential criminal defendants in this country by undermining American discovery rules or diminishing the role of the grand jury. And respondents have not suggested that some other segment of American law, such as the law of privilege, prevents the IRS from issuing an administrative summons pursuant to a treaty request once a treaty partner has embarked on a tax investigation leading to a foreign criminal prosecution. Articles XIX and XXI of the 1942 Convention on their face therefore lend no support to respondents' position.

(2)

Nontextual sources that often assist us in "giving effect to the intent of the Treaty parties," *Sumitomo, supra*, at 185, such as a treaty's ratification history and its subsequent operation, further fail to sustain respondents' claim. The Senate Committee on Foreign Relations did not hold hearings on the Convention prior to its ratification in 1942, and the Committee Report did not even mention the provisions for exchange of information. See S. Exec. Rep. No. 3, 77th Cong., 2d Sess. (1942), 1 Legislative History of United States Tax Conventions (Committee Print compiled by the

Staff of the Joint Committee on Internal Revenue Taxation) (Leg. Hist.), 455 (1962). The sole reference to these provisions during the brief floor debate in the Senate contained no hint that the 1942 Convention was intended to incorporate domestic restrictions on the issuance of summonses by the IRS in connection with American tax investigations, such as the limitation later codified in §7602(c).[7] The President's message accompanying transmittal of the proposed treaty to the Senate, see S. Exec. Doc. B, 77th Cong., 2d Sess. (1942), reprinted in Leg. Hist. 445, and the President's proclamation at the time the Convention was signed, see Leg. Hist. 475, similarly contain no language supporting respondents' argument. Indeed, given that a treaty should generally be "construe[d] ... liberally to give effect to the purpose which animates it" and that "[e]ven where a provision of a treaty fairly admits of two constructions, one restricting, the other enlarging, rights which may be claimed under it, the more liberal interpretation is to be preferred," *Bacardi Corp. of America* v. *Domenech*, 311 U.S. 150, 163 (1940) (citations omitted), the evident purpose behind Articles XIX and XXI—the reduction of tax evasion by allowing signatories to demand information from each other—counsels against interpreting those provisions to limit inquiry in the manner respondents desire. In any event, nothing in the history of the Convention's ratification buttresses respondents' claim.[8]

(3)

Nor do other aids to interpretation strengthen their case. The practice of treaty signatories counts as evidence of the treaty's proper interpretation, since their conduct generally evinces their understanding of the agreement they signed. See *Trans World Airlines, Inc.* v. *Franklin Mint Corp.*, 466 U.S. 243, 259 (1984); *Factor* v. *Laubenheimer*, 290 U.S. 276, 294-295 (1933). The Government's regular compliance with requests for information by Canadian authorities without inquiring whether they intend to use the information for criminal prosecution therefore weighs in favor of its reading of Articles XIX and XXI. Similarly, "[a]lthough not conclusive, the meaning attributed to treaty provisions by the Government agencies charged with their negotiation and enforcement is entitled to great weight." *Sumitomo*, 457 U.S., at 184-185. See also *Kolovrat* v. *Oregon*, 366 U.S. 187, 194 (1961). The IRS's construction of the 1942 Convention repudiates rather than confirms the interpretation respondents ask us to adopt. Finally, the result urged by respondents would contravene Congress' main reason for laying down an easily administrable test in §7602(c): "summons enforcement proceedings should be summary in nature and discovery should be limited." S. Rep. No. 97-494, vol. 1, p. 285 (1982). If respondents had their way, disputes would inevitably arise over whether a Canadian tax investigation had progressed to a point analogous to a Justice Department referral when Revenue Canada made its request for information, thereby "spawn[ing] protracted litigation without any meaningful results for the taxpayer." *Ibid.* It seems unlikely that Congress would have welcomed this result when it ratified the 1942 Convention, or that Congress intended it when it approved the bill containing what is presently §7602(c).

III

We conclude that the IRS need not attest that a Canadian tax investigation has not yet reached a stage analogous to a Justice Department referral by the IRS in order to obtain enforcement of a summons issued pursuant to a request by Canadian authorities under the 1942 Convention. So long as the IRS itself acts in good faith, as that term was explicated in *United States* v. *Powell*, 379 U.S., at 57-58, and complies with applicable statutes, it is entitled to enforcement of its summons. Accordingly, the judgment of the Court of Appeals is reversed, and the case is remanded for further proceedings consistent with this opinion.

It is so ordered.

Notes

[1]Articles XIX and XXI of the Convention Respecting Double Taxation, Mar. 4, 1942, United States-Canada, 56 Stat. 1405-1406, T.S. No. 983, provide in part:

"ARTICLE XIX

"With a view to the prevention of fiscal evasion, each of the contracting States undertakes to furnish to the other contracting State, as provided in the succeeding Articles of the Convention, the information which its competent authorities have at their disposal or are in a position to obtain under its revenue laws in so far as such information may be of use to the authorities of the other contracting State in the assessment of the taxes to which this Convention relates.

"The information to be furnished under the first paragraph of this Article, whether in the ordinary course or on request, may be exchanged directly between the competent authorities of the two contracting States."

"ARTICLE XXI

"1. If the Minister in the determination of the income tax liability of any person under any of the revenue laws of Canada deems it necessary to secure the cooperation of the Commissioner, the Commissioner may, upon request, furnish the Minister such information bearing upon the matter as the Commissioner is entitled to obtain under the revenue laws of the United States of America."

[2]Section 7602(c) of Title 26 reads:

"(c) No administrative summons when there is Justice Department referral

"(1) Limitation of authority

"No summons may be issued under this title, and the Secretary may not begin any action under section 7604 to enforce any summons, with respect to any person if a Justice Department referral is in effect with respect to such person.

"(2) Justice Department referral in effect

"For purposes of this subsection—

"(A) In general

"A Justice Department referral is in effect with respect to any person if—

"(i) the Secretary has recommended to the Attorney General a grand jury investigation of, or the criminal prosecution of, such person for any offense connected with the administration or enforcement of the internal revenue laws, or

"(ii) any request is made under section 6103(h)(3)(B) for the disclosure of any return or return information (within the meaning of section 6103(b)) relating to such person.

"(B) Termination

"A Justice Department referral shall cease to be in effect with respect to a person when—

"(i) the Attorney General notifies the Secretary, in writing, that—

"(i) the Attorney General notifies the Secretary, in writing, that—

"(I) he will not prosecute such person for any offense connected with the administration or enforcement of the internal revenue laws,

"(II) he will not authorize a grand jury investigation of such person with respect to such an offense, or

"(III) he will discontinue such a grand jury investigation.

"(ii) a final disposition has been made of any criminal proceeding pertaining to the enforcement of the internal revenue laws which was instituted by the Attorney General against such person, or

"(iii) the Attorney General notifies the Secretary, in writing, that he will not prosecute such person for any offense connected with the administration or enforcement of the internal revenue laws relating to the request described in subparagraph (A)(ii).

"(3) Taxable years, etc., treated separately

"For purposes of this subsection, each taxable period (or, if there is no taxable period, each taxable event) and each tax imposed by a separate chapter of this title should be treated separately."

[3]We need and do not decide whether the IRS could issue a summons to honor a treaty request if the individual under investigation by the requesting foreign government were also under investigation by American authorities and a Justice Department referral were in effect with respect to him. Nor do

we address the question whether the IRS could use in a criminal prosecution evidence it obtained from Canadian authorities pursuant to a treaty request made while a Justice Department referral was in effect.

[4]See the Criminal Law Amendment Act, 1985, ch. 19, §§113-115, reprinted in Revised Statutes of Canada, ch. 27, §§113-115 (Supp. I 1985). See also *Re McKibbon and the Queen,* 6 D.L.R. (4th) 1, 20-35 (1984) (recounting the history of grand juries in Canada). Other common-law countries have eliminated the grand jury as well. See, *e.g., Saywell* v. *Attorney-General,* [1982] 2 N.Z.L.R. 97, 100-105 (discussing consequences for presentation of indictment of abolition of grand juries in New Zealand, England, and Australia).

[5]As of September 30, 1988, the United States had in force income tax conventions containing exchange of information provisions with over 30 countries, ranging from France to Poland to Japan. Fogarasi, Gordon, Venuti, & Renfroe, Current Status of U.S. Tax Treaties, 17 Tax Mgmt. Int'l J. 507, 509 (1988). Not all of those countries distinguish between civil and criminal prosecutions for tax offenses as does the United States. In some Swiss Cantons, for example, tax fraud—the most severe offense—is prosecuted in the administrative rather than in the criminal courts, and a single administrative agency investigates and prosecutes all tax offenses. See Meier, Banking Secrecy in Swiss and International Taxation, 7 Int'l Law. 16, 26 (1973).

[6]The difficulty of finding the equivalent of a Justice Department referral is particularly acute in Canadian tax investigations. Although criminal prosecution is centered in Canadian attorneys-general, just as criminal prosecution in the United States falls within the province of the Justice Department, "[t]he similarity appears to stop there." Scheim & Cantillon, Stuart v. United States: Standards for Section 7602 Summons in Treaty Matters, 17 Tax Mgmt. Int'l J. 479, 482 (1988). Revenue Canada routinely gathers virtually all of the information necessary for criminal prosecution before turning a case over to the Canadian Justice Department, see *id.,* at 482-484, and available Canadian agency manuals suggest "that a case is referred to Justice only when it is already in a stage amenable to Court presentation, and that some degree of cooperation continues after that point." *Id.,* at 482. Scheim and Cantillon conclude: "It appears therefore that [Revenue Canada] adopts an institutional posture tilted towards prosecution well before referral." *Ibid.* If this conclusion is correct, then it might be difficult in at least some cases to determine whether a Canadian tax investigation has reached a point analogous to a Justice Department referral by the IRS.

[7]Contrary to JUSTICE SCALIA'S suggestion, see *post,* at 8, the Solicitor General relied on the preratification Senate debate in his brief, see Brief for United States 29, and n. 11, pointing out that the only reference to intergovernmental exchanges of information came in the following colloquy:

"Mr. Taft ...

"In other words, if an American citizen were using a Canadian bank deposit to evade income taxation, I think the convention would permit the United States Government to ask the Canadian Government to obtain information from its own bank and furnish it to this Government in connection with the enforcement of our internal-revenue laws.

"Mr. George. It does provide for exchange of information, as the Senator from Ohio points out." 88 Cong. Rec. 4714 (1942).

Nor is reliance on the Senate's preratification debates and reports improper. As JUSTICE SCALIA acknowledges, the American Law Institute's most recent Restatement counsels consideration of such materials. See Restatement (Third) of the Foreign Relations Law of the United States §314, Comment *d* (1987) ("indication that ... the Senate ascribed a particular meaning to the treaty is relevant"); *id.,* §325, Reporter's Note 5 ("A court ... is required to take into account ... (i) Committee reports, debates, and other indications of meaning that the legislative branch has attached to an agreement ..."). Consultation of these materials is eminently reasonable. *Pace* JUSTICE SCALIA, reviewing preratification Senate debates and reports is not akin to "determining the meaning of a bilateral contract between two corporations on the basis of what the Board of Directors of one of them thought it meant when authorizing the Chief Executive Officer to conclude it." *Post,* at 4. Senate debates do not occur behind closed doors, out of earshot of proposed treaty partners, nor are preratification Senate reports kept under seal. Both are public statements. They therefore bear no resemblance to the private deliberations of a Board of Directors prior to the Board's decision whether to authorize the Chief Executive Officer to sign an agreement. Insofar as the contract analogy is apt, the better comparison is to a meeting of the Board whose minutes and position papers the other corporation's Board and Chief Executive Officer are invited to peruse. It is hornbook contract law that the proper construction of an agreement is that given by one of the parties when "that party had no reason to know of any different meaning attached by the other, and the other had reason to know the meaning attached by the first party." Restatement (Second) of Contracts §201(2)(b) (1981). See also E. Farnsworth, Contracts 487-488 (1982). A treaty's negotiating history, which JUSTICE SCALIA suggests would be a better interpretive guide than preratification Senate materials, see *post,* at 4, would in fact be a worse indicator of a treaty's meaning, for that history is rarely a matter of public record available to the Senate when it decides to grant or withhold its consent.

[8]A new United States-Canada Income Tax Convention became effective August 16, 1984, after the summonses involved in this case were issued. 1986-2 Cum. Bull. 258. Article XXVII of the new Convention closely resembles Articles XIX and XXI of the 1942 Convention. Yet neither the new Convention nor its supplementary protocols suggest any limitation on United States compliance with a treat request dependent upon the status of a Canadian tax investigation. The hearing before the Senate Foreign Relations Committee, see Hearing on Tax Treaties before the Senate Committee on Foreign Relations, 97th Cong., 1st Sess., 1-115 (1981), the technical explanation of the new Convention, see 1986-2 Cum. Bull. 275, 294, and the perfunctory ratification debate in the Senate, see 130 Cong. Rec. S8563-S8567, S8571-S8573 (June 28, 1984), are similarly silent on this point. Thus, the Senate apparently did not believe that in ratifying the new Convention it was giving respondents' claim the force of law, just as it did not appear to think, from the legislative history it left behind, that section 7602(c) accomplished that end on its own.

Section 7701.—Definitions

(Also Section 593; 1.593-11.)

Domestic building and loan association; loan secured by cooperative housing corporation stock. A loan made for the purchase of stock in a cooperative housing corporation, and secured by such stock, qualifies as a loan described in section 7701(a)(19)(C)(v) of the Code if the house or apartment that the stock entitles the stockholder to occupy is to be used as a residence.

Rev. Rul. 89-59

ISSUES

(1) Does a loan that is made for the purchase of stock in a cooperative housing corporation described in section 216(b) of the Internal Revenue Code, and is secured by such stock, qualify as a loan described in section 7701(a)(19)(C)-(v) of the Code?

(2) Does such a loan constitute a qualifying real property loan within the meaning of section 593(d)(1) of the Code?

FACTS

S is a savings and loan association. Some of the loans made or acquired by *S* are loans made for the purchase of stock in a cooperative housing corporation described in section 216(b) of the Code. Each of these loans is secured by the stock purchased with the loan proceeds. The house or apartment that ownership of this stock entitles the stockholder to occupy is to be used as a residence.

LAW

Section 216(b)(1) of the Code defines a cooperative housing corporation, in part, as a corporation each of the stockholders of which is entitled, solely by reason of ownership of stock in the corporation, to occupy for dwelling purposes a house, or an apartment in a building, owned or leased by the corporation.

Section 1.216-1(d)(2) of the Income Tax Regulations describes this right of occupancy as follows:

> Each stockholder of the corporation ... must be entitled to occupy for dwelling purposes an apartment in a building or a unit in a housing development owned or leased by such corporation.... [The right to occupy the

premises] must be conferred on each stockholder solely by reason of his ownership of stock in the corporation, that is, the stock must entitle the owner thereof either to occupy the premises or to a lease of the premises.

Section 7701(a)(19) of the Code requires that, in order for an entity to qualify as a domestic building and loan association, at least 60 percent of the entity's total assets must consist of assets of a type listed in section 7701(a)(19)-(C). One such type of asset, described in section 7701(a)(19)(C)(v), is a loan secured by an interest in residential real property. Section 7701(a)(19)(C)(v) provides that, for this purpose, residential real property includes single or multifamily dwellings.

Section 301.7701-13A(d) of the Regulations on Procedure and Administration provides that, for purposes of the 60-percent asset test, it is immaterial whether the taxpayer originated the loans or purchased or otherwise acquired them from another.

Section 593(a)(2) of the Code provides that, in order to deduct an addition to a reserve for bad debts under section 593, an otherwise eligible entity must meet the requirements of section 7701(a)(19)(C).

Section 593(b)(1) of the Code provides that the reasonable addition to a reserve for bad debts is an amount equal to the sum of a reasonable addition to the reserve for losses on nonqualifying loans plus a reasonable addition to the reserve for losses on qualifying real property loans.

Section 593(d)(1) of the Code defines the term "qualifying real property loan," with certain exceptions, as a loan secured by an interest in improved real property.

Section 1.593-11(b)(3) of the Income Tax Regulations provides that, for purposes of section 593(d)(1) of the Code, the word "interest" means an interest in real property which, under the law of the jurisdiction in which the property is situated, constitutes any one of several types of interest. For example, the interest may be an interest in fee in the property; or, in the case of a mobile unit, an ownership interest; or a long-term leasehold interest in the property, as described in the regulations.

Section 1.593-11(b)(4) of the regulations provides that, for purposes of section 593(d)(1) of the Code, the term "improved real property" includes land on which any building of a permanent nature is located, provided that the value of the building is substantial in relation to the value of the land.

ANALYSIS

In the present case, the loans held by *S* are loans made for the purchase of stock in a cooperative housing corporation described in section 216(b) of the Code. Each loan is secured by the stock purchased with the loan proceeds, and the house or apartment that this stock entitles the stockholder to occupy is to be used as a residence.

Each stockholder of a cooperative housing corporation described in section 216(b) is entitled, solely by reason of ownership of stock in the corporation, to occupy for dwelling purposes a house, or an apartment in a building, owned or leased by the corporation. That is, ownership of stock in the corporation entitles the stockholder either to occupy the house or apartment or to a lease of the house or apartment. In other words, the stockholder is entitled to dwell in the house or apartment as long as the stockholder owns the stock.

Assets described in section 7701(a)-(19)(C)(v) of the Code include loans secured by an interest in residential real property, and section 7701(a)(19)(C)(v) specifically provides that, for this purpose, residential real property includes single or multifamily dwellings. Since ownership of stock in a cooperative housing corporation described in section 216(b) entitles the stockholder to dwell in a house or apartment, and since the house or apartment underlying each loan in the present case is to be used as a residence, the loans in this case are loans described in section 7701(a)(19)(C)(v).

A qualifying real property loan, as defined in section 593(d)(1) of the Code, is a loan secured by an interest in improved real property. Section 1.593-11(b)(3) of the regulations provides that the word "interest" for this purpose includes an interest in fee, an ownership interest, or a long-term leasehold interest. Section 1.593-11(b)(4) provides that the term "improved real property" includes land which is the site of any building of a permanent nature, if the value of the building is substantial in relation to the value of the land. Since ownership of stock in the cooperative housing corporation entitles the stockholder to dwell in a house or apartment, such stock constitutes an interest in improved real property within the meaning of section 593(d)(1). Accordingly, loans made for the purchase of, and secured by, such stock are qualifying real property loans for purposes of section 593.

The treatment of loans secured by cooperative housing corporation stock under other sections of the Code supports these conclusions. For example, a loan secured by stock in a cooperative housing corporation described in section 216(b) is treated as a loan secured by an interest in real property for purposes of section 856(c). In Rev. Rul. 76-101, 1976-1 C.B. 186, an unincorporated trust, otherwise qualifying as a real estate investment trust under section 856, invested in notes that were secured by stock in a cooperative housing corporation. In order to qualify as a real estate investment trust, the trust was required by section 856(c) to derive at least 75 percent of its gross income from, among other items, interest on obligations secured by mortgages on interests in real property. The ruling concludes that since the owner of the stock in the cooperative housing corporation was entitled, solely by reason of the stock ownership, to occupy a specified unit for dwelling purposes pursuant to a proprietary lease, the stock qualified as an interest in real property within the meaning of section 856(c)(6)(C). Accordingly, the ruling holds that interest on the notes secured by the stock qualified as interest on obligations secured by mortgages on interests in real property for purposes of section 856(c)(3).

HOLDINGS

(1) A loan that is made for the purchase of stock in a cooperative housing corporation described in section 216(b) of the Code, and is secured by such stock, qualifies as a loan described in section 7701(a)(19)(C)(v) if the house or apartment that the stock entitles the stockholder to occupy is to be used as a residence.

(2) A loan that is made for the purchase of stock in a cooperative housing corporation described in section 216(b) of the Code, and is secured by such stock, is a qualifying real property loan within the meaning of section 593(d)(1).

Limited partnerships. The state of Virginia is added to the list of states that have enacted legislation that corresponds to the Uniform Limited Partnership Act for purposes of section 301.7701-2 of the regulations. Rev. Rul. 84-80 amplified.

Rev. Rul. 89-38

In Rev. Rul. 84-80, 1984-1 C.B. 275, as amplified by Rev. Rul. 84-180, 1984-2 C.B. 314, Rev. Rul. 85-178, 1985-2 C.B. 338, Rev. Rul. 86-30, 1986-1 C.B. 370, Rev. Rul. 86-112, 1986-2 C.B. 214, Rev. Rul. 88-23, 1988-1 C.B. 404, and Rev. Rul. 88-43, 1988-1 C.B. 404, the Internal Revenue Service listed several states that revised their limited partnership statutes following the promulgation of the Revised Uniform Limited Partnership Act. The Service determined that the legislation enacted by those states corresponds to the Uniform Limited Partnership Act (ULPA) for purposes of section 301.7701-2 of the Procedure and Administration Regulations.

The Service has determined that Virginia has enacted legislation that, as of its effective date, corresponds to the ULPA for purposes of section 301.7701-2 of the regulations:

Virginia:

VA. Code Ann.

Sections 50-73.1 through 50-73.77. (Supp.1987) effective January 1, 1987.

EFFECT ON OTHER RULINGS

Rev. Rul. 84-80 is amplified.

Section 7702.—Life Insurance Contract Defined

Whether the Service will rule as to whether proceeds of 'self-insured'' life and survivor benefit plans established through a trust qualified under section 501(c)(9) of the Code are excludable from the beneficiary's gross income as amounts received under a life insurance contract that are paid by reason of the death of the insured under section 101(a). See Rev. Proc. 89-36, page 919.

Subchapter 80.—General Rules
Subchapter A.—Applications of Internal Revenue Laws

Section 7805.—Rules and Regulations

26 CFR 301.7805-1: Rules and regulations.

Shareholder's pro rata share of a controlled foreign corporation's increase in earnings invested in U.S. property. Rev. Rul. 71-373 that provides that a debt incurred by a wholly owned foreign corporation to a foreign bank reduces the amount of investment in U.S. property where the domestic parent issues a promissory note to guarantee the debt, is obsolete for investments in U.S. property made on or after June 14, 1988.

Rev. Rul. 89-12

T.D. 8209, 1988-2 C.B. 174, published in the Federal Register on June 14, 1988, provides temporary and proposed regulations that amend the specific charge rule under section 1.956-1(e) of the Income Tax Regulations with respect to investments in U.S. property made on or after June 14, 1988. Section 1.956-1T(e)(5) of the regulations, provides that, in the case of an investment in U.S. property that is an obligation of a related person, a liability will not be recognized as a specific charge reducing the investment in U.S. property if the liability representing the charge is with recourse with respect to the general credit or other assets of the investing controlled foreign corporation.

In Rev. Rul. 71-373, 1971-2 C.B. 275, a domestic corporation desired to obtain funds from a bank in country *W*. Such funds were available to the domestic corporation's country *W* subsidiary at an interest rate below that prevailing in the United States, a rate not available to the domestic parent. Consequently, the parent delivered its own promissory note to its country *W* subsidiary in the desired amount. Under the banking practices in country *W*, the bank required parent's note as collateral for the loan to the subsidiary. Upon delivery of the parent's note to the country *W* bank, the funds were delivered to the subsidiary, which in turn forwarded them to its parent.

The United States property involved in Rev. Rul. 71-373 is the promissory note given by the domestic parent to provide collateral for the subsidiary's loan from the country *W* bank. The revenue ruling held that, because the subsidiary had a liability to the country *W* bank identical to its United States property (the parent's note) that was contemporaneously incurred with the acquisition of such property, and because the subsidiary was required to discharge the obligation to the bank at the same time as the parent paid its note to the subsidiary, there was a specific charge against the property that was a liability within the meaning of section 1.956-1(e)(1) of the regulations. Therefore, in determining the amount of the subsidiary's investment in United States property for purposes of sections 951(a)(1)(B) and 956 of the Internal Revenue Code, the revenue ruling held that the debt incurred by the subsidiary to the country *W* bank reduced the amount of the subsidiary's investment in United States property in accordance with section 1.956-1(e)(1).

Rev. Rul. 71-373 is silent about whether the subsidiary's debt to the country *W* bank was with or without recourse. Accordingly, pursuant to the authority contained in section 7805 of the Internal Revenue Code of 1986, Rev. Rul. 71-373 is declared obsolete for investments made on or after June 14, 1988.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 71-373 is obsolete for investments in United States property made on or after June 14, 1988.

---

26 CFR 301.7805-1: Rules and regulations.

Rulings; obsolete. For taxable years ending after October 4, 1976, expenses incurred in the sale of property by an estate, not as a dealer, may not be used to offset the amount of the sales price of the property in determining gain or loss for federal income tax purposes if the expenses are allowed as a deduction for federal estate tax purposes. Rev. Rul. 71-173 obsoleted.

Rev. Rul. 89-75

ISSUE

Periodically, the Internal Revenue Service has obsoleted revenue rulings which, although not specifically revoked or superseded, are not considered determinative with respect to future transactions because (1) the applicable statutory provisions have been changed or repealed; (2) the ruling position is specifically covered by statute, regulations, or a subsequent published position; or (3) the facts set forth no longer exist or are not sufficient to permit application of the current statute.

The revenue ruling listed below is hereby declared to be obsolete:

Rev. Rul.	*No.*
71-173	1971-1 C.B. 204

The purpose of this declaration of obsoleteness is to make clear to all concerned that the above listed revenue ruling is not determinative with respect to taxable years ending after October 4, 1976.

Section 7811.—Taxpayer Assistance Orders

26 CFR 301.7811-1T: Authority to issue taxpayer assistance orders (temporary).

T.D. 8246

DEPARTMENT OF THE TREASURY
Internal Revenue Service
26 CFR Part 301

Taxpayer Assistance Orders

AGENCY: Internal Revenue Service, Treasury

ACTION: Temporary regulations

SUMMARY: This document contains temporary regulations relating to the issuance of taxpayer assistance orders. The Technical and Miscellaneous Revenue Act of 1988 added new section 7811 to the Internal Revenue Code of 1986. The regulations provide the public with guidance concerning the procedures for filing an application for a taxpayer assistance order, the terms of such order, and the effect of such an order on applicable statutes of limitations. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced in the notice of proposed rulemaking in * * * [GL-75-89, page 1012, this Bulletin].

EFFECTIVE DATE: The regulations take effect as of February 8, 1989.

SUPPLEMENTARY INFORMATION: This document contains temporary regulations for the Procedure and Administration Regulations (26 CFR Part 301) under section 7811 of the Internal Revenue Code. The regulations reflect the addition of section 7811 by section 6230 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647).

Explanation of Provisions

As added by section 6230 of the Technical and Miscellaneous Revenue Act of 1988, section 7811 provides that upon application filed by a taxpayer or the taxpayer's duly authorized representative, the Ombudsman's office may issue a taxpayer assistance order if it determines that the taxpayer is suffering or is about to suffer a "significant hardship" as a result of the manner in which the Service is administering the internal revenue laws. To the extent authorized by Internal Revenue Service delegation orders, the authority exercisable by the Ombudsman under section 7811 may be exercised by Problem Resolution Officers in regional and district offices and at service and compliance centers. The terms of the taxpayer assistance order may require the Service to release levied property, or to stop any action or refrain from taking any action with respect to the taxpayer regarding collection, the immediate assessment of deficiencies in bankruptcies and receiverships, the issuance of administrative summonses and the discovery of liability, or any other similar provision in the Internal Revenue Code that is specifically described by the Ombudsman in the order. The taxpayer assistance order may be modified or rescinded only by the Ombudsman, a district director, a service center director, a compliance center director, a regional director of appeals, or the superior of those officials. All applicable statutes of limitations with respect to an action that is subject to a taxpayer assistance order are suspended from the date the taxpayer's written application is received by the Ombudsman until the later of the date of the Ombudsman's decision regarding the application or the date on which review of the Ombudsman's decision to issue a taxpayer assistance order is completed by an official authorized by section 7811(c) to modify or rescind the order. The statute of limitations will also be suspended for any additional period specified by the Ombudsman in the taxpayer assistance order. The Ombudsman may issue a taxpayer assistance order without an application by the taxpayer. However, the statute of limitations is not suspended if the Ombudsman issues a taxpayer assistance order in the absence of a written application by the taxpayer.

The regulations specify the time, form and manner of an application seeking a taxpayer assistance order. The application must be made on a signed Internal Revenue Service Form 911 or in a signed written statement which identifies the taxpayer and, where possible, the Service personnel and office involved, and which describes the Service's action and the significant hardship which has occurred or will occur as a result of the manner in which the internal revenue laws are being administered.

The regulations define "significant hardship" by reference to the effect that the manner in which the internal revenue laws are being administered has or will have on the taxpayer as well as the resultant perception of the Service's action or proposed action by taxpayers in general. The term is defined as more than an inconvenience to the taxpayer or a financial hardship, as such, but rather as a hardship from which the resultant disruption caused or to be caused to the taxpayer by the Internal Revenue Service's action or proposed action is such that it would offend the sense of fairness of taxpayers in general were they aware of all of the surrounding facts and circumstances.

The regulations specify that upon a determination of significant hardship, the Ombudsman may issue a taxpayer assistance order which requires the Service to release levied property to the extent that the Internal Revenue Service may release such property. In the absence of an overpayment there is, for example, no authority under which the Internal Revenue Service may release sums which have been credited against the taxpayer's liability and deposited into the Treasury of the United States. On the other hand, since bank levies issued after July 1, 1989 are subject to a 21-day freeze before they are honored under section 6332(c), and in most cases more than 21 days will expire before seized tangible property is sold, the taxpayer should have sufficient time after notice of the levy and before funds are credited against an account to apply for a taxpayer assistance order where a significant hardship arises as a result of such levy. The Service solicits comments as to whether there are instances where the inability to release funds that are not an overpayment will create significant hardship, and if so, whether the statute or regulations require amendment.

The regulations also specify that upon a determination of significant hardship, the Ombudsman may issue a taxpayer assistance order which requires the Service to stop or refrain from taking further action against a taxpayer under specific chapters of the Internal Revenue Code, or under other sections of the Internal Revenue Code under which the Service is taking or is about to take administrative action against the taxpayer that causes or would cause a significant hardship.

Under the regulations, a taxpayer assistance order may not require an affirmative action on the part of the Service with the exception of a release of levy. A taxpayer assistance order generally may not be issued to enjoin a criminal tax investigation because it is not the type of Service activity described in section 7811 nor one to which that section was meant to apply. Further, the regulations provide that the activities of the Office of Chief Counsel (with the exception of Appeals) generally may not be the subject of a taxpayer assistance order since neither the statute nor the legislative history appear to cover cases referred to Counsel (for example, no official of the Office of Chief Counsel, other than a regional director of appeals, is listed as one who may modify or rescind a Taxpayer Assistance Order), and taxpayers are otherwise protected by judicial remedies, including the possible award of attorney's fees. On the other hand, because the legislative history of section 7811 does not indicate that application of the section to Chief Counsel activities was specifically addressed by Congress, the Service welcomes comments on whether and to what extent acts of the Office of Chief Counsel should be subject to a taxpayer assistance order. The regulations further provide that a taxpayer assistance order may not be issued to contest the merits of any tax liability, and is not to be used as a substitute for or in addition to established administrative or judicial review procedures.

Finally, the regulations specify that all applicable statutes of limitations which are affected by any action which is the subject of a taxpayer assistance order are suspended from the date the Ombudsman receives the application until the later of the date on which the Ombudsman makes a determination with respect to the application or the date on which review of the Ombudsman's decision to issue a taxpayer assistance order is completed by an official authorized by section 7811(c) to modify or rescind the order. The statute of limitations will also be suspended for any additional period specified by the Ombudsman in the taxpayer assistance order. However, if the Ombudsman issues a taxpayer assistance order in the absence of a written application by the taxpayer, the statute of limitations is not suspended. Unless modified or rescinded, the taxpayer assistance order is binding on the Service.

Nothing in section 7811 or these regulations is to be construed as restricting or otherwise limiting taxpayer assistance practices of Problem Resolution Offices pursuant to existing delegation orders and Internal Revenue Manual provisions.

Special Analyses

These rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It is hereby certified that these regulations will not have a significant economic impact on a substantial number of small entities. Therefore, a Regulatory Flexibility Analysis is not required.

* * * * * *

Adoption of Addition to the Regulations

Accordingly, Title 26, Part 301 of the Code of Federal Regulations is amended as follows:

Paragraph 1. The authority for part 301 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 301.7811-1T is added to read as follows:

§301.7811-1T. Authority to issue taxpayer assistance orders (temporary).

(a) *Authority to issue*—(1) *In general.* When an application is filed by the taxpayer or the taxpayer's duly authorized representative, in the form, manner and time specified in paragraph (b) of this section, the Ombudsman may issue a taxpayer assistance order if, in the determination of the Ombudsman, the taxpayer is suffering or is about to suffer a significant hardship as a result of the manner in which the internal revenue laws are being administered by the Internal Revenue Service.

(2) *Issuance without an application.* The Ombudsman may issue a taxpayer assistance order in the absence of an application under section 7811(a).

(3) *Duly authorized taxpayer's representative.* A "duly authorized taxpayer's representative" is any attorney, certified public accountant, enrolled actuary, or any other person permitted to represent the taxpayer before the Internal Revenue Service who is not disbarred or suspended from practice before the Internal Revenue Service and who has a written power of attorney executed by the taxpayer.

(4) *Significant hardship*—(i) *Determination required.* A determination of significant hardship is required to be made by the Ombudsman prior to the issuance of a taxpayer assistance order.

(ii) *Term defined.* The term "significant hardship" means a serious privation caused or about to be caused to the taxpayer as the result of the particular manner in which the internal revenue laws are being administered by the Internal Revenue Service. The term means more than an inconvenience to the taxpayer. Further, the term means more than financial hardship alone. Instead, even where financial hardship is involved, a finding of "significant hardship" will depend on an examination of the action taken, or to be taken, by the Internal Revenue Service which produces or would produce the financial hardship. The action or proposed action must be such that it would offend the sense of fairness of taxpayers in general were they aware of all the surrounding facts and circumstances.

(b) *Application for taxpayer assistance order.*—(1) *Form.* The application for a taxpayer assistance order shall be made on a Form 911 (Application for Taxpayer Assistance Order to Relieve Hardship) available from any local office of the Internal Revenue Service or in a written statement which shall contain the following information:

(i) Name, social security number (or the employer identification number), and current mailing address of the taxpayer submitting the application.

(ii) Kind of tax (individual, corporate, etc.) and tax period or periods involved.

(iii) Description of the Internal Revenue Service action or proposed action which is causing or is about to cause a significant hardship to the taxpayer and, if known, the Internal Revenue Service office and personnel involved.

(iv) Description of the specific hardship caused or about to be caused and the kind of relief requested.

(v) Signature of the taxpayer/applicant or duly authorized representative.

(2) *Manner*. An application for a taxpayer assistance order shall be filed with the Internal Revenue Service Problem Resolution Office in the district where the taxpayer resides. Overseas applicants having an A.P.O. or F.P.O. address shall file applications with the Internal Revenue Service, Problem Resolution Office where the return was filed. All other overseas applicants shall file applications with the Internal Revenue Service, Problem Resolution Office, Assistant Commissioner (International), Washington, D.C. Where appropriate, these Problem Resolution offices may refer an application for a taxpayer assistance order to another office of the Internal Revenue Service.

(3) *Time*. An application for a taxpayer assistance order shall be submitted within a reasonable time after the taxpayer becomes aware of the significant hardship or the potential significant hardship.

(c) *Contents of Taxpayer Assistance Orders*—(1) *Terms of order*. Upon determination that a taxpayer is suffering or about to suffer a significant hardship as a result of the manner in which the internal revenue laws are being administered, the Ombudsman may issue a taxpayer assistance order requiring the Internal Revenue Service to—

(i) Release levied property (to the extent that the Internal Revenue Service may by law release such property), or

(ii) Stop any action or refrain from taking further action against a taxpayer pursuant to:

(A) Chapter 64 (relating to collection),

(B) Chapter 70, subchapter B (relating to bankruptcy and receiverships),

(C) Chapter 78 (relating to discovery of liability and enforcement of title), or

(D) Any other section of the Internal Revenue Code under which the Internal Revenue Service is taking or is about to take administrative action against the taxpayer that causes or will cause a significant hardship.

(2) *Binding effect*. A taxpayer assistance order is binding on the Internal Revenue Service unless reversed by an official authorized to modify or rescind such an order as provided in paragraph (d) of this section.

(3) *Scope*. The terms of a taxpayer assistance order may require the release from levy of property of the taxpayer to the extent that the Internal Revenue Service may by law release such property. In the absence of an overpayment there is, for example, no authority under which the Internal Revenue Service may release sums which have been credited against the taxpayer's liability and deposited into the Treasury of the United States. A taxpayer assistance order may generally not be issued with respect to the investigation of any criminal tax violation and generally may not be issued to enjoin an act of the Office of Chief Counsel (with the exception of Appeals). A taxpayer assistance order may not be issued to contest the merits of any tax liability nor is a taxpayer assistance order intended to be a substitute for or an addition to any established administrative or judicial review procedure.

(d) *Authority to modify or rescind*. A taxpayer assistance order may be modified or rescinded only by the Ombudsman, a district director, a service center director, a compliance center director, a regional director of appeals, or the superiors of such officials. A modification or rescission by one of these designated officials may be elevated by the Ombudsman to the superior of such official.

(e) *Suspension of statutes of limitations*. (1) *In general*. The running of the applicable period of limitations for any action which is the subject of a taxpayer assistance order shall be suspended for the period beginning on the date the Ombudsman receives an application for a taxpayer assistance order in the form, manner, and time specified in paragraph (b) of this section and ending on the date on which the Ombudsman makes a determination with respect to the application, and for any additional period specified by the Ombudsman in an order issued pursuant to a taxpayer's application. For the purpose of computing the period suspended, all calendar days except the date of receipt of the application shall be included.

(2) *Date of determination*. The "date on which the Ombudsman makes a determination with respect to the application" is the date on which the taxpayer's request for a taxpayer assistance order is denied, or agreement is reached with the involved function of the Service, or a taxpayer assistance order is issued (except that when the taxpayer assistance order is reviewed by an official who may modify or rescind the taxpayer assistance order as provided in paragraph (d) of this section, the determination date is the date on which such review is completed).

(3) *Periods suspended*. The periods of limitations which are suspended under section 7811(d) are those which apply to the taxable periods to which the application for a taxpayer assistance order relate or the taxable periods specifically indicated in the terms of a taxpayer assistance order.

Example (1). On August 31, 1989, the Internal Revenue Service levies on funds in the taxpayer's checking account. On September 1, 1989, (at which time 7 months remain before the period of limitations on collection after assessment will expire on April 1, 1990) the Ombudsman receives the taxpayer's written application for a taxpayer assistance order. Subsequently, on September 6, 1989, the Ombudsman determines that the levy has caused a significant hardship and the Internal Revenue Service function which served the levy agrees to release the levy. The levy is released. As a result of the application and the decision by the Ombudsman and the involved function of the Service resolving the hardship, the statute of limitations on collection after assessment is suspended from the date the Ombudsman received the application, September 1, 1989, until the date on which the decision was made to release the levy, September 6, 1989. Therefore, the statute on limitations on collection after assessment will not expire until after April 6, 1990, which is 7 months plus 5 days after the date on which the application for a taxpayer assistance order was received by the Ombudsman.

Example (2). The facts are the same as in example (1) except that the Internal Revenue Service function which served the levy does not agree to release the levy, and the Ombudsman, having made a determination that the levy is causing a significant hardship, issues a taxpayer assistance order on September 6, 1989, in which the levy is ordered to be released and specifies that the statute of limitations on collection after assessment is suspended for an additional 15 days. The period of limitations on collection after assessment will therefore not expire until after April 21, 1990, which is 7 months and 20 days (5 days plus 15 days) after the application for the taxpayer assistance order was received by the Ombudsman.

Example (3). The facts are the same as in example (2) except that the Ombudsman does not specifically suspend the statute of limitations on collection after assessment for an additional number of days in the taxpayer assistance order, but rather the function seeks modification or rescission of the taxpayer assistance order and the appropriate official charged with that responsibility completes his consideration of the assistance order on September 8, 1989. The period of limitations on collection after assessment will therefore not expire until after April 8, 1990, which is 7 months and 7 days after the application for the taxpayer assistance order was received by the Ombudsman.

(4) *Absence of a written application*. The statute of limitations is not suspended in cases where the Ombudsman issues an order in the absence of a written application for relief by the taxpayer or the taxpayer's duly authorized representative.

(f) *Independent action of Ombudsman*. The Ombudsman may take any of the actions described in section 7811(b) in the absence of an application by the taxpayer.

(g) *Ombudsman*. The term "Ombudsman" includes any designee of the Ombudsman, such as Problem Resolution Officers in Internal Revenue Service regional and district offices and at Internal Revenue Service compliance and service centers.

(h) *Effective date*. These regulations are effective as of February 8, 1989.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved February 24, 1989.

Dennis E. Ross,
Acting Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on March 21, 1989, 8:45 a.m., and published in the issue of the Federal Register for March 22, 1989, 54 F.R. 11699)

Subchapter C.—Provisions Affecting More Than One Subtitle

Section 7872.—Treatment of Loans with Below-Market Interest Rates

Loans; loan limit adjusted for inflation. The loan limit specified by section 7872(g)(2) of the Code is adjusted for inflation for the years 1987, 1988, and 1989.

Rev. Rul. 89-48

This revenue ruling contains the amount, increased by the inflation adjustments for 1987, 1988, and 1989, that section 7872(g) of the Internal Revenue Code permits a taxpayer to lend to a qualifying continuing care facility without incurring imputed interest.

Section 7872 of the Code generally treats loans bearing a below-market interest rate as if they bear interest at the market rate.

Section 7872(g)(1) of the Code provides that section 7872 does not apply for any calendar year to any below-market loan made by a lender to a qualified continuing care facility pursuant to a continuing care contract if the lender (or the lender's spouse) attains age 65 before the close of the year.

Section 7872(g)(2) of the Code provides that section 7872(g)(1) shall apply only to the extent that the aggregate outstanding amount of any loan to which section 7872(g) applies (determined without regard to section 7872(g)(2)), when added to the aggregate outstanding amount of all other previous loans between the lender (or the lender's spouse) and any qualified continuing care facility to which section 7872(g)(1) applies, does not exceed $90,000.

Section 7872(g)(5) of the Code provides that for loans made during any calendar year after 1986 to which section 7872(g)(1) applies, the $90,000 limit specified in section 7872(g)(2) shall be increased by an inflation adjustment. The inflation adjustment for any calendar year is the percentage (if any) by which the Consumer Price Index (CPI) for the preceding calendar year exceeds the CPI for calendar year 1985. Section 7872(g)(5) states that the CPI for any calendar year is the average of the CPI as of the close of the 12-month period ending on September 30 of such calendar year.

Table 1 sets forth the amount specified in section 7872(g)(2) of the Code, increased by the inflation adjustment for the years 1987, 1988, and 1989.

Table 1
Limit under 7872(g)(2)
Adjusted for inflation

Year	*Adjusted Amount*
1987	$92,200
1988	$94,800
1989	$98,800

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of January 1989. See Rev. Rul. 89-1, page 260.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of February 1989. See Rev. Rul. 89-15, page 262.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of March 1989. See Rev. Rul. 89-34, page 263.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of April 1989. See Rev. Rul. 89-39, page 264.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of May 1989. See Rev. Rul. 89-65, page 265.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of June 1989. See Rev. Rul. 89-77, page 266.

Part II. Treaties and Tax Legislation

Subpart A.—Tax Conventions

Subpart B.—Legislation and Related Committee Reports

Subpart A.—Tax Conventions

UNITED STATES-BERMUDA CONVENTION RELATING TO INSURANCE ENTERPRISES AND MUTUAL ASSISTANCE[1]

Convention signed at Washington, D.C., July 11, 1986;

Diplomatic Notes to the Convention;

Ratified by the Senate of the United States of America October 1988;

Proclaimed by the President of the United States of America November 28, 1988;

Protocol of Exchange of Instruments of Ratification December 2, 1988;

CONVENTION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND (ON BEHALF OF THE GOVERNMENT OF BERMUDA) RELATING TO THE TAXATION OF INSURANCE ENTERPRISES AND MUTUAL ASSISTANCE IN TAX MATTERS

The Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda), desiring to conclude a convention with respect to the taxation of insurance enterprises and mutual assistance in tax matters, have agreed as follows:

Article 1
General Definitions

1. In this Convention, unless the context otherwise requires:

(a) (i) the term "United States" means the United States of America, but does not include Puerto Rico, the Virgin Islands, Guam, or any other United States possession or territory; and

(ii) the term "Bermuda" means the islands in the Atlantic Ocean known as Bermuda;

(b) the term "person" includes an individual, an estate, a trust, a company, a partnership, and any other body of persons;

(c) the term "company" means any body corporate or any entity which is treated as a body corporate for tax purposes;

(d) the term "enterprise of insurance" means an enterprise of which the predominant business activity during the taxable year is the issuing of insurance or annuity contracts or acting as the reinsurer of risks underwritten by insurance companies, together with the investing or reinvesting of assets held in respect of insurance reserves, capital, and surplus incident to the carrying on of the insurance business;

(e) the terms "enterprise of a Covered Jurisdiction" and "enterprise of the other Covered Jurisdiction" mean respectively an enterprise carried on by a resident of a Covered Jurisdiction and an enterprise carried on by a resident of the other Covered Jurisdiction;

(f) the term "competent authority" means:

(i) in the case of the United States, the Secretary of the Treasury or his delegate; and

(ii) in the case of Bermuda, the Minister of Finance or his delegate;

(g) the term "insurance obligation" means any obligation which, in accordance with normal industry practice, an insurer undertakes under the terms of a contract of insurance, to make payments or incur expenses in connection with the insurance protection offered under the contract, including any such obligation to pay claims to or for the benefit of the insured resulting from damages connected with the covered risk, to pay interest on such claims, and to pay the costs of defending an insured against such damages, but in no event including any obligation to pay premiums or other costs of reinsuring the covered risk; and

(h) the term "Covered Jurisdiction" means the United States or Bermuda, as the context requires.

2. As regards the application of the Convention by a Covered Jurisdiction, any term not defined therein shall, unless the context otherwise requires or the competent authorities agree to a common meaning, have the meaning which it has under the laws of that Jurisdiction. For purposes of the United States, the preceding sentence shall refer to laws concerning taxes. The competent authorities may agree to a common meaning of a term for purposes of this Convention.

Article 2
Residence

For purposes of this Convention, the term "resident" of a Covered Jurisdiction means:

(a) in the case of the United States:

(i) any person, other than a company, resident in the United States for the purpose of United States tax; but in the case of a partnership, estate or trust, only to the extent that the income derived by such partnership, estate or trust is subject to United States tax as the income of a resident, either in its hands or in the hands of its partners or beneficiaries; and

(ii) a company created under the laws of the United States or a political subdivision thereof; and

(b) in the case of Bermuda:

(i) an individual who has the status of a legal resident of Bermuda; and

(ii) a company, partnership, trust, or association created under the laws of Bermuda.

Article 3
Permanent Establishment

1. For the purposes of Article 4, except as otherwise specified in this Article, the term "permanent establishment" means a regular place of business through which the business of an enterprise of insurance is wholly or partly carried on.

2. The term "permanent establishment" shall include especially a place of management, a branch, an office, and premises used as a sales outlet.

3. The term "permanent establishment" shall also include the furnishing of services, including consultancy, management, technical and supervisory services, within a Covered Jurisdiction by an enterprise of insurance through employees or other persons but only if:

(a) activities of that nature continue within the Jurisdiction for a period or periods aggregating more than 90 days in a twelve-month period, provided that a permanent establishment shall not exist in any taxable year in which such services are rendered in that Jurisdiction for a period or periods aggregating less than 30 days in the taxable year; or

[1] Treasury Department Technical Explanation, page 334.

(b) the services are performed within the Jurisdiction for an associated enterprise.

For purposes of this paragraph, two enterprises shall be "associated" if either participates directly or indirectly in the management, control, or capital of the other, or if the same persons participate directly or indirectly in the management, control, or capital of both.

4. Notwithstanding the preceding provisions of this Article, the term "permanent establishment" shall be deemed not to include any one or more of the following:

(a) the maintenance of a regular place of business solely for the purpose of purchasing goods or merchandise, or of collecting information, for the enterprise of insurance; or

(b) the maintenance of a regular place of business solely for the purpose of advertising, for the supply of information, for scientific research or for similar activities which have a preparatory or auxiliary character, for the enterprise.

5. Notwithstanding the provisions of paragraphs 1, 2, and 3, a person (other than an agent of independent status to whom paragraph 6 applies) acting in a Covered Jurisdiction on behalf of an enterprise of insurance of the other Covered Jurisdiction shall be deemed to be a permanent establishment of that enterprise in the first-mentioned Jurisdiction if he has and habitually exercises in the first-mentioned Jurisdiction an authority to conclude contracts on behalf of the enterprise, unless his activities are limited to those mentioned in paragraph 4 which, if exercised through a regular place of business, would not make that regular place of business a permanent establishment under the provisions of that paragraph.

6. An enterprise of insurance shall not be deemed to have a permanent establishment in a Covered Jurisdiction merely because it carries on business in that Jurisdiction through a broker, general commission agent, or any other agent of an independent status, provided that such persons are acting in the ordinary course of their business. However, when the activities of such person are devoted substantially on behalf of that enterprise, he shall not be considered an agent of independent status within the meaning of this paragraph if the transactions between the agent and the enterprise were not made under arm's length conditions.

7. The fact that a company which is a resident of a Covered Jurisdiction controls or is controlled by a company which is a resident of the other Covered Jurisdiction, or which carries on business in that other Jurisdiction (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

Article 4
Taxation of Insurance Enterprises

1. The business profits of an enterprise of insurance of a Covered Jurisdiction derived from carrying on the business of insurance (including insubstantial amounts of income incidental to such business) shall not be taxable in the other Covered Jurisdiction unless the enterprise carries on or has carried on business in the other Jurisdiction through a permanent establishment situated therein. If the enterprise carries on or has carried on business as aforesaid, the business profits of the enterprise may be taxed in the other Jurisdiction but only so much of them as is attributable to that permanent establishment. Nothing in this Convention shall prevent the United States from taxing its residents (as determined under Article 2(a)) and its citizens as if this Convention had not entered into force.

2. Where an enterprise of insurance of one of the Covered Jurisdictions carries on or has carried on business through a permanent establishment in the other Jurisdiction, there shall in each Covered Jurisdiction be attributed to the permanent establishment business profits which would reasonably be expected to have been derived by it, if it were a distinct and independent enterprise engaged in the same or similar activities under the same or similar conditions. In determining the business profits of a permanent establishment in a Covered Jurisdiction through which an enterprise of insurance of the other Jurisdiction carries on or has carried on business, there shall be allowed as deductions, for purpose of tax imposed by the first-mentioned Jurisdiction other than excise taxes on premiums paid to foreign insurers, expenses which are incurred for the purposes of the permanent establishment, including a reasonable allocation of executive and general administrative expenses, research and development expense, interest, and other expenses incurred for the enterprise of insurance as a whole (or the part thereof which includes the permanent establishment), whether incurred in the Jurisdiction in which the permanent establishment is situated or elsewhere. For the purposes of this paragraph, the business profits to be attributed to a permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary. Nothing in this Article shall affect taxation by a Covered Jurisdiction of dividends, interest, royalties, gains or compensation for services beneficially owned by a resident of the other Covered Jurisdiction if such items of income are not attributable to a permanent establishment of the beneficial owner of such income in the first-mentioned Jurisdiction.

3. A person which is a resident of a Covered Jurisdiction and which derives income from sources within the other Covered Jurisdiction shall not be entitled, in the other Covered Jurisdiction, to relief from taxation under this Article if:

(a) 50 percent or less of the beneficial ownership of such person is owned, directly or indirectly, by any combination of one or more individual residents of a Covered Jurisdiction or citizens of the United States; or

(b) the income of such person is used in substantial part, directly or indirectly, to make distributions (where such distributions are made with respect to beneficial ownership interests and are substantially disproportionate to such interests) to, or to meet liabilities (including liabilities for interest, royalties, or other expenses, but not including liabilities, whether or not for interest or other expenses, which constitute insurance obligations) to, persons who are neither residents of either of the Covered Jurisdictions nor citizens of the United States.

If one of the Covered Jurisdictions proposes to deny benefits to a resident of the other Covered Jurisdiction by reason of this paragraph, the competent authorities of the Covered Jurisdictions shall, upon request of the competent authority of the other Covered Jurisdiction, consult each other.

4. The provisions of paragraph 3 shall not apply if the person deriving the income is a company which is a resident of a Covered Jurisdiction in whose principal class of shares there is substantial and regular trading on a recognized stock exchange. For purposes of the preceding sentence, the term "recognized stock exchange" means:

(a) the NASDAQ System owned by the National Association of Securities

Dealers, Inc. and any other stock exchange registered with the Securities and Exchange Commission as a national securities exchange for purposes of the Securities Exchange Act of 1934; and

(b) any other stock exchange agreed upon by the competent authorities of the Covered Jurisdictions.

5. Nothing in this Convention shall limit any provisions of the law of either Covered Jurisdiction which permit the distribution, apportionment, or allocation of income, deductions, credits, or allowances between persons, whether or not residents of a Covered Jurisdiction, owned or controlled directly or indirectly by the same interests when necessary in order to prevent evasion of taxes or clearly to reflect the income of any of such persons.

6. The existing taxes to which this Article shall apply in the United States are the Federal income taxes imposed by the Internal Revenue Code (but excluding the accumulated earnings tax and the personal holding company tax), and the excise taxes imposed on insurance premiums paid to foreign insurers. This Article shall, however, apply to the excise taxes imposed on insurance premiums paid to foreign insurers only to the extent that the risks covered by such premiums are not reinsured with a person not entitled to the benefits of this or any other convention which applies to these taxes. This Article shall also apply to any identical or substantially similar taxes which are imposed by the United States after the date of signature of the Convention in addition to, or in place of, the existing taxes, and shall also apply to any tax imposed by Bermuda after the date of signature of the Convention which is identical or substantially similar to the existing United States taxes to which this Article applies, to the same extent as it applies to those existing taxes. The competent authorities of the Covered Jurisdictions shall notify each other of any significant changes which have been made in their respective taxation laws and of any official published material concerning the application of the Convention, including explanations, regulations, rulings, or judicial decisions.

7. The taxation on a permanent establishment which an enterprise of insurance of a Covered Jurisdiction has in the other Covered Jurisdiction shall not be less favorably levied in that other Jurisdiction than the taxation levied on enterprises of insurance of that other Jurisdiction carrying on the same activities. This provision shall not be construed as obliging a Covered Jurisdiction to grant to residents of the other Covered Jurisdiction any personal allowances, reliefs, and reductions for taxation purposes on account of civil status or family responsibilities which it grants to its own residents. The provisions of this paragraph shall not be construed to prevent the United States from imposing an additional tax on the income of a permanent establishment maintained by a resident of Bermuda in the United States. Except where the provisions of paragraph 5 apply, interest, royalties, and other disbursements paid by a resident of a Covered Jurisdiction to an enterprise of insurance of the other Covered Jurisdiction shall, for purposes of determining the taxable profits of such resident, be deductible under the same conditions as if they had been paid to an enterprise of insurance of the first-mentioned Jurisdiction. For purposes of this paragraph, the term ''taxation'' means taxes which are the subject of this Convention.

Article 5
Mutual Assistance in Tax Matters

The competent authorities of the Covered Jurisdictions shall provide assistance as appropriate in carrying out the laws of the respective Covered Jurisdictions relating to the prevention of tax fraud and the evasion of taxes. In addition, the competent authorities shall, through consultations, develop appropriate conditions, methods, and techniques for providing, and shall thereafter provide, assistance as appropriate in carrying out the fiscal laws of the respective Covered Jurisdictions other than those relating to tax fraud and the evasion of taxes.

Article 6
Confidentiality

Any matters subject to assistance under Article 5 shall be treated as confidential in the same manner as such matters or items would be under the domestic laws of the Covered Jurisdiction requesting the assistance and, in any event, shall be disclosed only:

(a) in the case of the United States, to persons or authorities (including courts and administrative bodies) involved in the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes, and

(b) in the case of Bermuda, to the competent authority of Bermuda.

Such persons or authorities shall use such matters or items only for purposes of the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes. Such matters or items may be disclosed in public court proceedings or public decisions, but shall not be disclosed to any country other than one of the Covered Jurisdictions for any purpose.

Article 7
Entry into Force and Termination

1. This Convention shall be subject to ratification in accordance with the applicable procedures of each party and instruments of ratification shall be exchanged as soon as possible.

2. The Convention shall enter into force upon the exchange of instruments of ratification and its provisions shall have effect:

(a) in respect of excise taxes on insurance premiums paid to foreign insurers, for premiums paid or credited on or after January 1, 1986;

(b) in respect of income taxes imposed on the business profits derived by an enterprise of insurance, for such profits derived in taxable years beginning on or after the first day of the calendar year in which this Convention enters into force;

(c) in respect of mutual assistance covered by the first sentence of Article 5, for taxable years not barred by the statute of limitations of the Covered Jurisdiction requesting such assistance; provided, however, that neither Covered Jurisdiction shall be required by Article 5 to provide such assistance with respect to taxable years beginning prior to January 1, 1977; and

(d) in respect of mutual assistance covered by the second sentence (and not also described in the first sentence) of Article 5, for taxable years not barred by the statute of limitations of the Covered Jurisdiction requesting such assistance; provided, however, that neither Covered Jurisdiction shall be required by Article 5 to provide such assistance with respect to:

(i) taxable years beginning prior to January 1, 1977; or

(ii) taxable years beginning prior to the entry into force of the Convention if the provisions of such assistance would cause or result in the breach of an obligation to maintain confidentiality of information under the laws of such Jurisdiction in effect on the date of signature of the Convention.

2. The Convention shall continue in force indefinitely, but either party may give notice of termination to the other party on or after June 30 of the year following the calendar year in which this Convention enters into force and in such event the Convention shall terminate on the first day of the seventh full calendar month following that in which the notice is given.

Done at Washington, in duplicate, this Eleventh day of July, 1986.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

(John L. Whitehead)

FOR THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND (ON BEHALF OF THE GOVERNMENT OF BERMUDA):

(John Swan)

Department of State
Washington, July 11, 1986

The Department of State refers the British Embassy to the Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the, Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters (the "Convention"), signed today. In the course of discussions involving the Convention, the following understandings were reached between representatives of the United States and Bermuda (each referred to herein as a "Covered Jurisdiction"):

(1) The United States Government noted that in order to implement the relief from excise taxes pursuant to paragraph 1 of Article 4 of the Convention it would be necessary to establish procedures which would, *inter alia,* ensure that companies claiming the benefits of that paragraph are entitled to such benefits and, in the case of refunds, that the amount and recipient of such refunds are properly determined. Representatives of Bermuda assured the representatives of the United States Government of Bermuda's willingness to establish such procedures as may be mutually agreed to ensure that relief from the excise tax is obtained by appropriate persons.

(2) The United States Government noted that paragraph 3 of Article 4 of the Convention limits the availability of the exemption granted to insurance enterprises by either Covered Jurisdiction under the Convention to persons resident in the other Covered Jurisdiction which (i) are more than 50 percent owned, directly or indirectly, by individual residents of the Covered Jurisdictions or U.S citizens; and (ii) do not use their income in substantial part, directly or indirectly, to make certain payments to persons who are neither residents of a Covered Jurisdiction nor U.S. citizens. The United States Government indicated that, for purposes of the ownership test in that provision, it would not treat any individual as owning "indirectly" through an intermediary entity any beneficial interest in an entity resident in one of the Covered Jurisdictions if the evidence of and rights to the ownership of any interest in such intermediary entity are in bearer form. For purposes of the second test, the term "liabilities" refers to payments which reduce gross premiums or are deductible against gross income, and includes interest, royalties, and premiums paid in connection with reinsuring risks. Also, if the sum of (i) the ratio which reinsurance premium payments bears to gross premiums less return premiums and (ii) the ratio which payments of other liabilities bears to (a) gross premiums less return premiums and less reinsurance premium payments plus (b) gross income from all other activities, is no more than 50 percent, such payments will not generally be considered "substantial," provided that in appropriate circumstances a lower aggregate percentage will be considered "substantial."

(3) The United States Government expressed its concern that the obligations of a Covered Jurisdiction not be construed to establish an obligation to provide assistance with respect to matters other than those relating to the domestic laws of a Covered Jurisdiction respecting taxes. The representatives of the United States and Bermuda agreed that the intended scope of Article 5 of the Convention is limited to assistance relating to the domestic laws of the Covered Jurisdictions concerning taxes.

(4) Representatives of Bermuda expressed concerns as to the policies of the United States Government regarding assistance that might relate to persons not resident in one of the two Covered Jurisdictions and matters that do not constitute a criminal investigation. The representatives of the United States Government discussed with the representatives of Bermuda the United States' policies relating to information exchange. The representatives of the United States and Bermuda agreed that, where the United States requests assistance with respect to a matter which (i) relates to a person not resident in one of the two Covered Jurisdictions or (ii) does not constitute a United States criminal or tax fraud investigation, a senior official designated by the Secretary of the Treasury shall certify such request as being relevant to and necessary for the determination of the tax liability of a United States taxpayer, or the criminal tax liability of a person under the laws of the United States. The representatives of the United States and Bermuda further agreed that, in connection with any assistance relating to persons not resident in one of the two Covered Jurisdictions, it shall be established to the satisfaction of the competent authority of the requested Jurisdiction that such assistance is necessary for the proper administration and enforcement of the fiscal laws of the requesting Jurisdiction. Where such necessity has been duly established, the competent authorities shall consult as to the appropriate form of such assistance.

(5) The representatives of the United States and Bermuda agreed that, subject to the limitations described in and agreement to procedures referred to in paragraph (4) above, it is intended that the

mutual assistance to be provided under Article 5 of the Convention come into effect under the limitations of Article 7 as follows:

(i) Subject to paragraph (iv), Bermuda's obligation under the Convention to provide assistance with respect to civil and criminal tax matters relating to taxable years of a taxpayer beginning after the entry into force of the Convention will not be limited by any confidentiality restrictions of Bermudian law, other than those relating to solicitor-client privilege.

(ii) With respect to matters relating to taxable years of a taxpayer beginning before the entry into force of the Convention (but beginning on or after January 1, 1977 and not barred by the statute of limitations), paragraph 2 (d)(ii) of Article 7 limits Bermuda's obligation to provide assistance with respect to civil tax matters (other than civil fraud) if the provision of such assistance would entail breach of an obligation to maintain confidentiality of information under the laws of Bermuda in effect on the date of signature of the Convention. Under this standard, confidential information would only include information protected by Bermudian statutory and common law. It is understood that under Bermudian common law confidential information would include information protected by the common law solicitor-client privIlege and banker-client privilege. It was agreed that if a taxpayer claims that other categories of information are protected under Bermudian common law, and if the United States so requests, the Government of Bermuda will have such a claim determined in the courts of Bermuda.

(iii) Bermuda's obligation under subparagraph 2 (c) of article 7 to provide assistance with respect to criminal tax matters (and tax matters involving civil fraud) relating to taxable years of a taxpayer beginning before the entry into force of the Convention (but on or after January 1, 1977 and not barred by the statute of limitations) would only be limited by the confidentiality obligations of the solicitor-client privilege.

(iv) Bermuda's obligation under the Convention to provide assistance with respect to civil tax matters (other than civil fraud) relating to a taxpayer's taxable years beginning after the entry into force of the Convention will not require it to cause any person to breach a legal obligation to maintain confidentiality of documents or information, properly asserted by such person under the laws of Bermuda as in effect on the date of signature of the Convention, where such documents or information were created in or derived from periods prior to the date of entry into force of the Convention. However, the limitation on Bermuda's obligation described in the preceding sentence will not apply to documents or information created in or derived from a date preceding the entry into force of the Convention that are relevant to a request relating to taxable years after the entry into force of the Convention and are of a kind that have a continuing operational effect. For example, if assistance is requested with respect to a taxpayer's bank transactions occurring after the entry into force of the Convention and the signature card for the account in question was executed prior to the entry into force of the Convention, Bermuda's obligation to provide assistance with respect to such a signature card would not be affected by confidentiality restrictions. Similarly, if a taxpayer's depreciation deduction for a year after entry into force of the Convention is under examination, Bermuda's obligation to provide assistance with respect to information about the purchase price of the property in question, if such property was acquired before the entry into force of the Convention, would not be affected by any confidentiality restrictions of Bermudian law.

(6) The representatives of the United States Government expressed concerns regarding whether assistance would be provided in a form which would permit its use in judicial or administrative proceedings. The representatives of the United States and Bermuda agreed that under Article 5 of the Convention, it was intended that, if specifically requested by a competent authority of a Covered Jurisdiction, the competent authority of the other Covered Jurisdiction shall provide information in the form of depositions of witnesses and authenticated copies of original documents (including books, papers, statements, records, accounts and writings) to the same extent such depositions and documents can be obtained under the laws and administrative practices of that other Jurisdiction.

(7) Representatives of Bermuda also expressed concerns as to the scope for use of unilateral compulsory measures by one Covered Jurisdiction to obtain documents, records, or other materials located in the territory of the other Covered Jurisdiction, and within the scope of assistance under the Convention, after entry into force of the Convention. In this context the representatives of the United States Government confirmed that, with respect to documents, records, or other materials in the custody of a resident of a Covered Jurisdiction and located in the territory of that Jurisdiction, it shall be the policy of the United States, where practicable, to request assistance pursuant to the provisions of the Convention before using unilateral measures.

(8) The representatives of the United States Government inquired whether shares of a company organized under the laws of Bermuda could be issued in bearer form. The representatives of Bermuda informed the United States representatives that the laws of Bermuda did not permit the issuance of company shares to an unnamed person.

(9) The United States representatives sought clarification that matters that were the subject of assistance under the Convention but that are made public in accordance with Article 6 of the Convention would not be further subject to Article 6. The representatives of the United States and Bermuda agreed that matters that are the subject of assistance under the Convention but that are made public in accordance with the Convention would not be further subject to Article 6.

(10) The representatives of the Government of the United States observed that, under the legal system applicable in Bermuda, the Convention is not self-executing and that legislation would be required in order to implement the provisions of the Convention. The representatives of Bermuda understood that instruments of ratification would not be exchanged until such legislation as may be required to implement the provisions of the Convention has been enacted. It was further understood that the Convention would be ratified and other necessary steps, such as the adoption of implementing legislation necessary to meet the obligations of the Convention, would be taken so as to permit the exchange of instruments of ratification at the earliest possible date.

(11) The representatives of Bermuda inquired whether, following the entry into force of the Convention, the Secretary of the Treasury of the United States would be prepared to certify that assistance under the Convention, and subject to the understandings of this Note, would

be satisfactory for purposes of section 927(e)(3) of the Internal Revenue Code of 1954, as amended (the "Code"), relating to countries qualifying as a jurisdiction in which a Foreign Sales Corporation (FSC) may be organized. The representatives of Bermuda also inquired whether the assistance provided for in the Convention, subject to the understandings of this Note, would be satisfactory for purposes of eligibility for convention tax benefits under section 274(h)(6) of the Code.

The representatives of the United States stated that upon entry into force of the Convention, and subject to the understandings contained in this Note, the Secretary of the Treasury, or his delegate, will be prepared to certify Bermuda for purposes of section 927(e)(3) of the Code such that a company organized under the laws of Bermuda may qualify as a FSC. Such certification would be published in the Federal Register and may be terminated effective six months after the date of publication of a notice of termination in the Federal Register. The United States Government also stated that, upon entry into force of the Convention, the Secretary of the Treasury, or his delegate, will be prepared to execute on behalf of the United States Government an executive agreement satisfying the requirements of section 274(h)(6) of the Code, which would incorporate by cross-reference the provisions of Articles 5 and 6 of the Convention and this Note, and would allow persons incurring expenses for attending business conventions in Bermuda to claim deductions for such expenses as though Bermuda were included as part of the "North American area."

(12) The representatives of Bermuda emphasized the necessity of including in the Convention additional provisions intended to prevent changes in U.S. income tax treaty policy from adversely affecting the economic position of Bermuda's insurance and tourism industries relative to those of U.S. treaty partners in similar circumstances under current U.S. tax treaty policy. The United States representatives were not able to accept such provisions. However, the United States Government recognizes that insurance and tourism currently play a vital role in the Bermudian economy. If, in the future, the income tax treaty policies of the United States change in a manner which would have a material, adverse effect on such Bermudian business activities, compared with existing circumstances, the United States Government would be prepared to reopen the discussions in order to take account of such change in policies.

The Department of State confirms that the foregoing understandings are in accord with the view of the Government of the United States and are approved by it. The Department of State would appreciate confirmation that such understandings are acceptable to the Government of the United Kingdom on behalf of Bermuda.

Embassy of the United Kingdom
and Northern Ireland
July 11, 1986

Her Britannic Majesty's Embassy present their compliments to the Department of State and have the honour to refer to the Department's Note of 11 July regarding the Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters (the "Convention"), signed today. The Department's Note states that in the course of discussions involving the Convention, the following understandings were reached between representatives of the United States and Bermuda (each referred to herein as a "Covered Jurisdiction"):

(1) The United States Government noted that in order to implement the relief from excise taxes pursuant to paragraph 1 of Article 4 of the Convention it would be necessary to establish procedures which would, *inter alia,* ensure that companies claiming the benefits of that paragraph are entitled to such benefits and, in the case of refunds, that the amount and recipient of such refunds are properly determined. Representatives of Bermuda assured the representatives of the United States Government of Bermuda's willingness to establish such procedures as may be mutually agreed to ensure that relief from the excise tax is obtained by appropriate persons.

(2) The United States Government noted that paragraph 3 of Article 4 of the Convention limits the availability of the exemption granted to insurance enterprises by either Covered Jurisdiction under the Convention to persons resident in the other Covered Jurisdiction which (i) are more than 50 percent owned, directly or indirectly, by individual residents of the Covered Jurisdictions or US citizens; and (ii) do not use their income in substantial part, directly or indirectly, to make certain payments to persons who are neither residents of a Covered Jurisdiction nor US citizens. The United States Government indicated that, for purposes of the ownership test in that provision, it would not treat any individual as owning "indirectly" through an intermediary entity any beneficial interest in an entity resident in one of the Covered Jurisdictions if the evidence of and rights to the ownership of any interest in such intermediary entity are in bearer form. For purposes of the second test, the term "liabilities" refers to payments which reduce gross premiums or are deductible against gross income, and includes interest, royalties, and premiums paid in connection with reinsuring risks. Also, if the sum of (i) the ratio which reinsurance premium payments bears to gross premiums less return premiums and (ii) the ratio which payments of other liabilities bears to (a) gross premiums less return premiums and less reinsurance premium payments plus (b) gross income from all other activities, is no more than 50 percent, such payments will not generally be considered "substantial," provided that in appropriate circumstances a lower aggregate percentage will be considered "substantial."

(3) The United States Government expressed its concern that the obligations of a Covered Jurisdiction not be construed to establish an obligation to provide assistance with respect to matters other than those relating to the domestic laws of a Covered Jurisdiction respecting taxes. The representatives of the United States and Bermuda agreed that the intended scope of Article 5 of the Convention is limited to assistance relating to the domestic laws of the Covered Jurisdictions concerning taxes.

(4) Representatives of Bermuda expressed concerns as to the policies of the United States Government regarding assistance that might relate to persons not resident in one of the two Covered Jurisdictions and matters that do not constitute a criminal investigation. The representatives of the United States Government discussed with the representatives of Bermuda the United States' policies relating to information exchange. The representatives of the United States and Bermuda agreed that, where the United States requests assistance with respect to a matter which (i) relates to a

person not resident in one of the two Covered Jurisdictions or (ii) does not constitute a United States criminal or tax fraud investigation, a senior official designated by the Secretary of the Treasury shall certify such request as being relevant to and necessary for the determination of the tax liability of a United States taxpayer, or the criminal tax liability of a person under the laws of the United States. The representatives of the United States and Bermuda further agreed that, in connection with any assistance relating to persons not resident in one of the two Covered Jurisdictions, it shall be established to the satisfaction of the competent authority of the requested Jurisdiction that such assistance is necessary for the proper administration and enforcement of the fiscal laws of the requesting Jurisdiction. Where such necessity has been duly established, the competent authorities shall consult as to the appropriate form of such assistance.

(5) The representatives of the United States and Bermuda agreed that, subject to the limitations described in and agreement to procedures referred to in paragraph (4) above, it is intended that the mutual assistance to be provided under Article 5 of the Convention come into effect under the limitations of Article 7 as follows:

(i) Subject to paragraph (iv), Bermuda's obligation under the Convention to provide assistance with respect to civil and criminal tax matters relating to taxable years of a taxpayer beginning after the entry into force of the Convention will not be limited by any confidentiality restrictions of Bermudian law, other than those relating to solicitor-client privilege.

(ii) With respect to matters relating to taxable years of a taxpayer beginning before the entry into force of the Convention (but beginning on or after January 1, 1977 and not barred by the statute of limitations), paragraph 2(d)(ii) of Article 7 limits Bermuda's obligation to provide assistance with respect to civil tax matters (other than civil fraud) if the provision of such assistance would entail breach of an obligation to maintain confidentiality of information under the laws of Bermuda in effect on the date of signature of the Convention. Under this standard, confidential information would only include information protected by Bermudian statutory and common law. It is understood that under Bermudian common law confidential information would include information protected by the common law solicitor-client privilege and banker-client privilege. It was agreed that if a taxpayer claims that other categories of information are protected under Bermudian common law, and if the United States so requests, the Government of Bermuda will have such a claim determined in the courts of Bermuda.

(iii) Bermuda's obligation under subparagraph 2(c) of Article 7 to provide assistance with respect to criminal tax matters (and tax matters involving civil fraud) relating to taxable years of a taxpayer beginning before the entry into force of the Convention (but on or after January 1, 1977 and not barred by the statute of limitations) would only be limited by the confidentiality obligations of the solicitor-client privilege.

(iv) Bermuda's obligation under the Convention to provide assistance with respect to civil tax matters (other than civil fraud) relating to a taxpayer's taxable years beginning after the entry into force of the Convention will not require it to cause any person to breach a legal obligation to maintain confidentiality of documents or information, properly asserted by such person under the laws of Bermuda as in effect on the date of signature of the Convention, where such documents or information were created in or derived from periods prior to the date of entry into force of the Convention. However, the limitation on Bermuda's obligation described in the preceding sentence will not apply to documents or information created in or derived from a date preceding the entry into force of the Convention that are relevant to a request relating to taxable years after the entry into force of the Convention and are of a kind that have a continuing operational effect. For example, if assistance is requested with respect to a taxpayer's bank transactions occurring after the entry into force of the Convention and the signature card for the account in question was executed prior to the entry into force of the Convention, Bermuda's obligation to provide assistance with respect to such a signature card would not be affected by confidentiality restrictions. Similarly, if a taxpayer's depreciation deduction for a year after entry into force of the Convention is under examination, Bermuda's obligation to provide assistance with respect to information about the purchase price of the property in question, if such property was acquired before the entry into force of the Convention, would not be affected by any confidentiality restrictions of Bermudian law.

(6) The representatives of the United States Government expressed concerns regarding whether assistance would be provided in a form which would permit its use in judicial or administrative proceedings. The representatives of the United States and Bermuda agreed that under Article 5 of the Convention, it was intended that, if specifically requested by a competent authority of a Covered Jurisdiction, the competent authority of the other Covered Jurisdiction shall provide information in the form of depositions of witnesses and authenticated copies of original documents (including books, papers, statements, records, accounts and writings) to the same extent such depositions and documents can be obtained under the laws and administrative practices of that other Jurisdiction.

(7) Representatives of Bermuda also expressed concerns as to the scope for use of unilateral compulsory measures by one Covered Jurisdiction to obtain documents, records, or other materials located in the territory of the other Covered Jurisdiction, and within the scope of assistance under the Convention, after entry into force of the Convention. In this context the representatives of the United States Government confirmed that, with respect to documents, records, or other materials in the custody of a resident of a Covered Jurisdiction and located in the territory of that Jurisdiction, it shall be the policy of the United States, where practicable, to request assistance pursuant to the provisions of the Convention before using unilateral measures.

(8) The representatives of the United States Government inquired whether shares of a company organized under the laws of Bermuda could be issued in bearer form. The representatives of Bermuda informed the United States representatives that the laws of Bermuda did not permit the issuance of company shares to an unnamed person.

(9) The United States representatives sought clarification that matters that were the subject of assistance under the Convention but that are made public in accordance with Article 6 of the Convention would not be further subject to Article 6. The representatives of the United States and Bermuda agreed that matters that are the subject of assistance under

the Convention but that are made public in accordance with the Convention would not be further subject to Article 6.

(10) The representatives of the Government of the United States observed that, under the legal system applicable in Bermuda, the Convention is not self-executing and that legislation would be required in order to implement the provisions of the Convention. The representatives of Bermuda understood that instruments of ratification would not be exchanged until such legislation as may be required to implement the provisions of the Convention has been enacted. It was further understood that the Convention would be ratified and other necessary steps, such as the adoption of implementing legislation necessary to meet the obligations of the Convention, would be taken so as to permit the exchange of instruments of ratification at the earliest possible date.

(11) The representatives of Bermuda inquired whether, following the entry into force of the Convention, the Secretary of the Treasury of the United States would be prepared to certify that assistance under the Convention, and subject to the understandings of this Note, would be satisfactory for purposes of section 927(e)(3) of the Internal Revenue Code of 1954, as amended (the "Code"), relating to countries qualifying as a jurisdiction in which a Foreign Sales Corporation (FSC) may be organised. The representatives of Bermuda also enquired whether the assistance provided for in the Convention, subject to the understandings of this Note, would be satisfactory for purposes of eligibility for convention tax benefits under section 274(h)(6) of the Code.

The representatives of the United States stated that upon entry into force of the Convention, and subject to the understandings contained in this Note, the Secretary of the Treasury, or his delegate, will be prepared to certify Bermuda for purposes of section 927(e)(3) of the Code such that a company organized under the laws of Bermuda may qualify as a FSC. Such certification would be published in the Federal Register and may be terminated effective six months after the date of publication of a notice of termination in the Federal Register. The United States Government also stated that, upon entry into force of the Convention, the Secretary of the Treasury, or his delegate, will be prepared to execute on behalf of the United States Government an executive agreement satisfying the requirements of section 274(h)(6) of the Code, which would incorporate by cross-reference the provisions of Articles 5 and 6 of the Convention and this Note, and would allow persons incurring expenses for attending business conventions in Bermuda to claim deductions for such expenses as though Bermuda were included as part of the "North American area."

(12) The representatives of Bermuda emphasized the necessity of including in the Convention additional provisions intended to prevent changes in US income tax treaty policy from adversely affecting the economic position of Bermuda's insurance and tourism industries relative to those of US treaty partners in similar circumstances under current US tax treaty policy. The United States representatives were not able to accept such provisions. However, the United States Government recognises that insurance and tourism currently play a vital role in the Bermudian economy. If, in the future, the income tax treaty policies of the United States change in a manner which would have a material, adverse effect on such Bermudian business activities, compared with existing circumstances, the United States Government would be prepared to reopen the discussions in order to take account of such change in policies.

Her Britannic Majesty's Embassy have the honour to confirm to the Department of State that such understandings are acceptable to the Government of the United Kingdom of Great Britain and Northern Ireland on behalf of Bermuda.

The Embassy avail themselves of this opportunity to renew to the Department of State their assurances of their highest considerations.

RONALD REAGAN

PRESIDENT OF THE UNITED STATES OF AMERICA

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETING:

CONSIDERING THAT:

The Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters, with a Related Exchange of Notes, was signed at Washington on July 11, 1986; and

The Senate of the United States of America by its resolution of October 22, 1988, two-thirds of the Senators present concurring therein, gave its advice and consent to ratification of the Convention and exchange of notes, subject to the following reservations:

(1) Effective January 1, 1990, said Convention shall not operate to prevent the imposition by the United States of any excise taxes on insurance premiums paid to foreign insurers, whether or not such premiums constitute income of an enterprise of insurance of a Covered Jurisdiction; and

(2) Said Convention shall in no event operate to prevent the imposition by the United States of any excise taxes on insurance premiums paid to foreign insurers except with respect to insurance premiums that either:

(a) constitute income of an enterprise of insurance of a Covered Jurisdiction carried on by a company in a taxable year in which the company is a controlled foreign corporation within the meaning of section 957(a) or (b) of title 26 of the United States Code as in effect for such taxable year; or

(b) constitute income of an enterprise of insurance of a Covered Jurisdiction carried on by a company in a taxable year in which:

(i) the company is subject to the rules of the section 953(c) of the Internal Revenue Code of 1986, and

(ii) the company is a controlled foreign corporation within the meaning of section 957(a) of the Internal Revenue Code of 1986 as modified by section 953(c)(1) of said Code, and

the premiums constitute related person insurance income within the meaning of section 953(c) of the Internal Revenue Code of 1986.

NOW, THEREFORE, I, Ronald Reagan, President of the United States of America, ratify and confirm the said Convention and related exchange of notes, subject to the aforesaid reservations.

IN TESTIMONY WHEREOF, I have signed this instrument of ratification and caused the Seal of the United States of America to be affixed.

DONE at the city of Washington this twenty-eighth day of November in the year of our Lord one thousand nine hundred eighty-eight and of the Independence of the United States of America the two hundred thirteenth.

By the President:
(Ronald Reagan)

(George P. Shultz)
GEORGE P. SHULTZ
Secretary of State

PROTOCOL OF EXCHANGE OF INSTRUMENTS OF RATIFICATION

The undersigned, George P. Shultz, Secretary of State of the United States of America, and John Swan, Premier of Bermuda, being duly authorized for the purpose by their respective Governments, have met for the purpose of exchanging instruments of ratification of the Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters, with a Related Exchange of Notes, signed at Washington on July 11, 1986. The United States ratification is subject to the following reservations:

(1) Effective January 1, 1990, said Convention shall not operate to prevent the imposition by the United States of any excise taxes on insurance premiums paid to foreign insurers, whether or not such premiums constitute income of an enterprise of insurance of a Covered Jurisdiction; and

(2) Said Convention shall in no event operate to prevent the imposition by the United States of any excise taxes on insurance premiums paid to foreign insurers except with respect to insurance premiums that either:

(a) constitute income of an enterprise of insurance of a Covered Jurisdiction carried on by a company in a taxable year in which the company is a controlled foreign corporation within the meaning of section 957(a) or (b) of title 26 of the United States Code as in effect for such taxable year; or

(b) constitute income of an enterprise of insurance of a Covered Jurisdiction carried on by a company in a taxable year in which:

(i) the company is subject to the rules of the section 953(c) of the Internal Revenue Code of 1986, and
(ii) the company is a controlled foreign corporation within the meaning of section 957(a) of the Internal Revenue Code of 1986 as modified by section 953(c)(1) of said Code, and

the premiums constitute related person insurance income within the meaning of section 953(c) of the Internal Revenue Code of 1986.

The respective instruments of ratification having been compared and found to be in due form, the exchange took place this day.

IN WITNESS WHEREOF, the respective Plenipotentiaries have signed the present Protocol of Exchange of Instruments of Ratification.

DONE in duplicate in the English language at Washington this second day of December, 1988.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

(George P. Shultz)
GEORGE P. SHULTZ

FOR THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND (ON BEHALF OF THE GOVERNMENT OF BERMUDA):

(John Swan)
JOHN SWAN

TREASURY DEPARTMENT'S TECHNICAL EXPLANATION OF THE U.S.-BERMUDA INSURANCE ENTERPRISES AND MUTUAL ASSISTANCE TAX TREATY SIGNED ON JULY 11, 1986.

INTRODUCTION

This is a technical explanation of the Convention between the United States and the United Kingdom (on behalf of Bermuda) signed on July 11, 1986 (the ''Convention''). This explanation is an official guide to the Convention. It reflects policies behind particular Convention provisions, as well as understandings reached with respect to the interpretation and application of the Convention. This explanation also refers to the provisions of the diplomatic notes (the ''Note'') exchanged by the United States and the United Kingdom at the time of signing the Convention.

Article 1. GENERAL DEFINITIONS

Paragraph 1 defines the principal terms used in the Convention. Unless the context otherwise requires, a term defined in this paragraph has a uniform meaning throughout the Convention. A number of important terms are, however, defined in other Articles. For example, the terms ''resident'' and ''permanent establishment'' are defined in Articles 2 (Residence) and 3 (Permanent Establishment), respectively. The term ''United States'' is defined to mean the United States of America. Neither Puerto Rico, the Virgin Islands, Guam, nor any other U.S. possession or territory is within the definition of the United States.

The term ''Bermuda'' means the islands in the Atlantic Ocean known as Bermuda.

The term ''person'' is defined to include an individual, an estate, a trust, a company, a partnership, and any other body of persons. The term ''company'' means any body corporate or any entity which is treated as a body corporate for tax purposes.

The term ''enterprise of insurance'' means an enterprise of which the predominant business activity during the taxable year is the issuing of insurance of annuity contracts or acting as the reinsurer of risks underwritten by insurance companies, together with the investing or reinvesting of assets held in respect of insurance reserves, capital, and surplus incident to the carrying on of the insurance business.

The terms "enterprise of a Covered Jurisdiction" and "enterprise of the other Covered Jurisdiction" mean an enterprise carried on by a resident, as defined in Article 2, of the United States or Bermuda, as the context requires.

The term "competent authority" is defined to mean, in the case of the United States, the Secretary of the Treasury or his delegate. In the case of Bermuda, the term means the Minister of Finance or his delegate.

The term "insurance obligation" is defined to mean any obligation which, in accordance with normal industry practice, an insurer undertakes under the terms of a contract of insurance, to make payments or incur expenses in connection with the insurance protection offered under the contract, including any such obligation to pay claims to or for the benefit of the insured resulting from damages connected with the covered risk, to pay interest on such claims, and to pay the costs of defending an insured against such damages, but in no event including any obligation to pay premiums or other costs of reinsuring the covered risk. The obligation to pay premiums or other costs of reinsuring a risk covered under an insurance contract is, thus, excluded from the definition of insurance obligation, regardless of whether such obligation arises under or outside of the insurance contract covering the risk.

The term "Covered Jurisdiction" is defined to mean the United States or Bermuda, as the context requires.

Paragraph 2 provides that in the case of a term not defined in the Convention, the domestic law of the Covered Jurisdiction applying the Convention shall control, unless the context in which the term is used requires otherwise or the competent authorities reach agreement on a meaning pursuant to the third sentence of paragraph 2. Where the United States is the Covered Jurisdiction applying the Convention, the domestic tax law shall be the domestic law referred to in the preceding sentence. The term "context" refers to the purpose and background of the provisions in which the term appears. An agreement by the competent authorities with respect to the meaning of a term used in the Convention would supersede conflicting meanings in the domestic laws of the Covered Jurisdictions.

Article 2. RESIDENCE

This Article sets forth rules for determining the residence of individuals, companies, and other persons for purposes of the Convention. Article 2 is important because, except as otherwise provided, only a resident of a Covered Jurisdiction may claim benefits under the Convention. A determination of residence under this Article applies for all other provisions of the Convention. In general, the determination of residence in the case of the United States begins with a person's liability to tax as a resident under the taxation laws of the United States. In the case of Bermuda, the determination depends upon other factors, as discussed below. The Convention definition is, of course, exclusively for purposes of the Convention.

The term "resident of Bermuda" is defined as an individual who has the status of a legal resident of Bermuda, or a company, partnership, trust, or association created under the laws of Bermuda.

The term "resident of the United States" is defined as a person (except a company) resident in the United States for purposes of its tax. This includes a resident alien individual, who is subject to tax by the United States on his worldwide income, or an alien present in the United States who makes an election under Internal Revenue Code ("Code") section 6013(g) or (h), as well as a resident U.S. citizen. The term also includes a company which is created or organized under the laws of the United States or a political subdivision thereof.

This Article also provides that a partnership, estate, or trust is a resident of the United States only to the extent that the income derived by such person is subject to tax by the United States as the income of a resident, either in its hands or in the hands of its partners or beneficiaries. For example, under current United States law, a partnership is never, and an estate or trust is often not, taxed as such. Thus, under the Convention, a partnership, estate, or trust not taxed as such will be treated as a resident of the United States only to the extent that income derived by such partnership, estate, or trust is subject to tax in the hands of its partners or beneficiaries as the income of a U.S. resident.

Article 3. PERMANENT ESTABLISHMENT

This Article defines the term "permanent establishment" which is relevant particularly to the taxation of business profits of an enterprise of insurance under Article 4 (Taxation of Insurance Enterprises). Paragraph 1 defines the term "permanent establishment" as a regular place of business through which the business of an enterprise of insurance is wholly or partly carried on. No difference in meaning is intended between the use of the term "regular place of business" in the Convention and the more commonly used term "fixed place of business".

Paragraph 2 provides an illustrative list of regular places of business which constitute a permanent establishment. The list includes: a place of management; a branch; an office; and premises used as a sales outlet. The term "place of management" is used in the OECD Model Income Tax Convention. Since a place of management would in most cases require an office, which is specifically listed in paragraph 2, the insertion of "place of management" will generally not cause a regular place of business to be a permanent establishment if it would not otherwise be a permanent establishment. The reference to premises used as a "sales outlet" does not mean that premises used by an enterprise of insurance for the mere delivery of insurance contracts or related documents is a permanent establishment; additional significant activity by the enterprise at the premises, such as the negotiation of contracts, is necessary for the premises to constitute a "sales outlet" and a permanent establishment of the enterprise.

Paragraph 3 provides that the furnishing of services, including consultancy, management, technical and supervisory services, within a Covered Jurisdiction by an enterprise of insurance through employees or other persons constitutes a permanent establishment, but only if: the activities continue within that Jurisdiction for a period or periods aggregating more than 90 days in any 12 month period (and for 30 days or more in the taxable year); or the services are performed within that Jurisdiction for an associated enterprise. For this purpose, any two enterprises are considered "associated" if either participates directly or indirectly in the management, control, or capital of the other, or if the same persons participate directly or indirectly in the management, control, or capital of both.

Paragraph 4 overrides paragraphs 1 and 2 to provide that a regular place of business may be used for one or more of the following activities and not be a permanent establishment:

(a) the maintenance of a regular place of business solely for the purpose of purchasing goods or merchandise, or of collecting information, for the enterprise of insurance; or

(b) the maintenance of a regular place of business solely for the purpose of advertising, for the supply of information, for scientific research or for similar activities which have a preparatory or auxiliary character, for the enterprise.

The reference in subparagraph (b) to advertising, scientific research, and the supply of information is not intended to suggest that such activities are always auxiliary or that other activities cannot be auxiliary.

Paragraphs 5 and 6 describe the permanent establishment implications of employees and agents. Under paragraph 5, a person (other than an agent of independent status to whom paragraph 6 applies) acting in a Covered Jurisdiction on behalf of an enterprise of insurance of the other Covered Jurisdiction shall be deemed to be a permanent establishment of that enterprise in the first-mentioned Jurisdiction if he has and habitually exercises in the first-mentioned Jurisdiction an authority to conclude contracts on behalf of the enterprise, unless his activities are limited to those listed in paragraph 4.

Paragraph 6 provides that if an enterprise of insurance of one Covered Jurisdiction merely carries on business in the other Covered Jurisdiction through a broker, a general commission agent, or any other agent of independent status acting in the ordinary course of his business, the enterprise will not thereby be considered to have a permanent establishment in that other Jurisdiction. Paragraph 6 also provides, however, that such broker or agent will not be considered independent, and paragraph 6 shall not apply, if all his activities are devoted wholly, or almost wholly, on behalf of that enterprise and the transactions between the two are not conducted under arm's-length conditions.

Paragraph 7 provides that the fact that a company which is a resident of one Covered Jurisdiction either controls or is controlled by a company which is a resident of the other Covered Jurisdiction, or which is a resident of any Jurisdiction and carries on business in that other Covered Jurisdiction, does not automatically render either company a permanent establishment of the other.

Article 4. TAXATION OF INSURANCE ENTERPRISES

This Article provides rules for the taxation by a Covered Jurisdiction of income derived by a resident of the other Jurisdiction from carrying on the business of insurance in the first-mentioned Jurisdiction.

Paragraph 1 provides that the business profits of an enterprise of insurance of a Covered Jurisdiction derived from carrying on the business of insurance (including insubstantial amounts of income incidental to such business) shall not be taxable in the other Covered Jurisdiction unless the enterprise carries on or has carried on business in the other Jurisdiction through a permanent establishment situated therein. The term "permanent establishment" is defined in Article 3 (Permanent Establishment). If the enterprise of insurance does have a permanent establishment in the other Covered Jurisdiction, that Jurisdiction may tax that portion of the enterprise's business profits which is attributable to the permanent establishment. Paragraph 1 also contains the traditional "savings clause" under which the United States reserves the right to tax its residents, as determined under Article 2 (Residence), and its citizens as if the Convention had not come into effect.

Paragraph 2 provides that the profits to be attributed to the permanent establishment itself are those which it might be expected to make if it were a distinct and independent enterprise engaged in the same or similar activities under the same or similar conditions. The term profits "attributable to" a permanent establishment means that the limited "force-of-attraction" rule of Code section 864(c)-(3) does not apply for U.S. tax purposes under the Convention. Profits may, however, be from sources within or without a Covered Jurisdiction and be "attributable to" a permanent establishment. Thus, items of income described in section 864(c)(4)(C) of the Code which are attributable to a permanent establishment in the United States of an enterprise of insurance are subject to tax by the United States.

Paragraph 2 also provides that in computing the business profits of a permanent estalishment, there shall be allowed as deductions (for purposes of tax other than the excise tax imposed on premiums paid to foreign insurers) those expenses incurred for the purposes of the permanent establishment, whether incurred in the Jurisdiction where the permanent establishment is situated or elsewhere. Deductible expenses include a reasonable allocation to the permanent establishment of administrative expenses, research and development expenses, interest, and other expenses incurred for the purposes of the enterprise. For purposes of the excise tax imposed on premiums paid to foreign insurers, the business profits of an enterprise of insurance means the gross premiums paid to the enterprise.

Paragraph 2 also provides that the same method for determining the profits attributable to a permanent establishment shall be used each year unless there is good and sufficient reason to change. In the United States, such a change may be a change of accounting method requiring the approval of the Internal Revenue Service.

Paragraph 2 further provides that where business profits include dividends, interest, royalties, gains, or compensation for services beneficially owned by a resident of a Covered Jurisdiction, Article 4 shall not affect the taxation of such items by the other Covered Jurisdiction unless the items are attributable to a permanent establishment of such beneficial owner in such other Jurisdiction.

Paragraph 3 ensures that the source basis tax benefits granted by a Covered Jurisdiction pursuant to the Convention are ultimately enjoyed by the intended beneficiaries—the residents of the other Covered Jurisdiction—and not by residents of their Jurisdictions not having a substantial business and tax nexus with the other Jurisdiction.

The first sentence of paragraph 3 provides the general rule, subject to the exception in paragraph 4 as described below, that a resident of a Covered Jurisdiction which derives income from the other Covered Jurisdiction is not entitled to relief from taxation in such other Jurisdiction under Article 4 if either of two conditions is present:

(1) Treaty benefits will not be granted if 50 percent or less of the beneficial interest in the resident is owned, directly or indirectly, by any combination of one or more individual residents of the United States or Bermuda or U.S. citizens. In other words, the treaty benefits will not be granted unless more than 50 percent of the beneficial interest in the resident is owned, directly or indirectly, by any combination of individual residents of the Covered Jurisdictions or U.S. citizens. For purposes of this test, the United States will not treat any individual as owning an interest "indirectly"

through an intermediary entity if the evidence of and rights to the ownership of any interest in such intermediary entity are in bearer form.

(2) Treaty benefits will also not be granted if the income of the resident is used in substantial part, directly or indirectly, to make disproportionate distributions to, or to meet liabilities to, persons who are neither residents of the United States or Bermuda nor U.S. citizens. The term "disproportionate distributions" means distributions made with respect to beneficial ownership interests which are disproportionate to such interests. The term "liabilities" refers to payments which reduce gross premiums or are deductible against gross income, and it includes liabilities for interest, royalties, and other expenses, including premiums paid in connection with reinsuring risks. It does not, however, include liabilities, whether for interest or other expenses, which meet the definition of "insurance obligations" contained in Article 1 (General Definitions). The term "substantial" is not defined. If, however, the sum of (i) the ratio which reinsurance premium payments bears to gross premiums less return premiums and (ii) the ratio which payments of other liabilities bears to (a) gross premiums less return premiums and less reinsurance premium payments plus (b) gross income from all other activities, is no more than 50 percent, such payments will not generally be considered "substantial"; provided, however, that in appropriate circumstances a lower aggregate percentage will be considered "substantial".

Paragraph 3 also provides for competent authority consultation with respect to the denial of benefits in any particular case if the competent authority of the Jurisdiction of residence of the person which has been denied benefits so requests. This provision does not require prior agreement of the competent authorities before benefits may be denied.

Paragraph 4 contains an exception to the general denial of benefits rules of paragraph 3. A company which is a resident of a Covered Jurisdiction and which would not be entitled to benefits by virtue of paragraph 3 would, under paragraph 4, be entitled to the benefits of Article 4 if there is substantial and regular trading in its principal class of shares on a recognized stock exchange. A recognized stock exchange is defined to mean: (1) the NASDAQ System, owned by the National Association of Securities Dealers, Inc.; (2) any stock exchange registered with the Securities and Exchange Commission as a national securities exchange for purposes of the Securities Exchange Act of 1934; and (3) any other stock exchange which the competent authorities may agree is a recognized exchange.

Paragraph 5 provides that no provision of the Convention shall limit the application of any internal law provisions in either Covered Jurisdiction designed to place transactions between related enterprises on an arm's-length basis. Thus, the Convention does not limit the right of the United States to apply section 482 of the Code.

Paragraph 6 identifies the existing taxes to which Article 4 applies. In the United States, these taxes are the Federal income taxes imposed by the Code, but excluding the accumulated earnings tax (Code section 531) and the personal holding company tax (Code section 541). Paragraph 6 also covers the U.S. excise taxes on insurance premiums paid to foreign insurers; provided, however, that such excise taxes are covered only to the extent that risks covered by the premiums are not reinsured with a person not entitled to relief from such taxes under this or any other U.S. Convention. Paragraph 6 further provides that Article 4 shall also apply to any taxes imposed by the United States subsequent to July 11, 1986 which are identical or substantially similar to the taxes existing on that date and covered by the Article. Paragraph 6 does not apply to any existing taxes in Bermuda. If, however, Bermuda should impose any taxes which are identical or substantially similar to the existing U.S. taxes to which the Article applies, those Bermudian taxes would be covered by the Article to the same extent as the existing U.S. taxes. The competent authorities agree to notify each other of any significant changes in their respective tax laws and of any official published material relating to the application of the Convention, including this technical explanation.

Paragraph 7 provides that a Covered Jurisdiction may not impose more burdensome taxes on a permanent establishment in that Jurisdiction of an enterprise of insurance of the other Covered Jurisdiction than the first-mentioned Jurisdiction imposes on its own enterprises of insurance carrying on the same activities. The paragraph clarifies that the basic rule of the preceding sentence is not to be construed as obliging a Covered Jurisdiction to grant to residents of the other Covered Jurisdiction any personal allowances, reliefs, and tax reductions on account of civil status or family responsibilities which it grants to its own residents.

Notwithstanding the prohibition against discriminatory taxation with respect to permanent establishments, paragraph 7 also provides that it shall not be construed to prevent the United States from imposing an additional tax, such as the branch profits tax, on the income of a permanent establishment maintained by a resident of Bermuda in the United States.

Paragraph 7 also prohibits discrimination in the matter of deductions. Interest, royalties, and other disbursements paid by a resident of a Covered Jurisdiction to an enterprise of insurance of the other Covered Jurisdiction must be deductible disbursements for determining taxable profits of such resident in the first-mentioned Covered Jurisdiction as if they had been paid to an enterprise of insurance of such first-mentioned Jurisdiction. An exception to this rule applies where the provisions of paragraph 5 of Article 4, relating to associated enterprises, apply. The term "other disbursements" includes a reasonable allocation of executive and general administrative expenses, research and development expenses, and other expenses incurred for the benefit of a group of related enterprises.

The non-discrimination rules of paragraph 7 apply to taxes which are identified in paragraph 6 as the taxes to which Article 4 applies.

Article 5. MUTUAL ASSISTANCE IN TAX MATTERS

This Article provides that the competent authorities shall provide assistance as appropriate in carrying out the domestic laws concerning taxation. The scope of Article 5 is limited to assistance relating to the domestic tax laws of the Covered Jurisdictions. The text of Article 5 is quite brief, but a number of provisions in the Note contain further details as to the obligation to provide assistance. The provisions of the Note have the same force in law as the Convention provisions themselves. Unless otherwise indicated, references in this explanation are to the provisions of the Convention.

The first sentence of Article 5 provides that the competent authorities of the Covered Jurisdictions shall provide assistance as appropriate in carrying out the laws of the respective Covered Jurisdictions relating to the prevention of tax fraud and the evasion of taxes. The term "tax fraud" is intended to include civil tax fraud, and the term "evasion of taxes" is intended to refer to all tax crimes.

The second sentence provides that the competent authorities shall, through consultations, develop appropriate conditions, methods, and techniques for providing, and shall thereafter provide, assistance as appropriate in carrying out the fiscal laws of the respective Covered Jurisdictions other than those relating to tax fraud and the evasion of taxes. This zzsentence is intended to apply to all civil tax matters other than tax fraud.

The assistance to be provided under this Article shall particularly include the provision of information relating to tax matters. The information to be provided shall not be limited to information relating to persons resident in either of the two Covered Jurisdictions (Note, paragraph 4).

The Covered Jurisdictions have agreed that, if specifically requested by a competent authority of one Covered Jurisdiction, the competent authority of the other Covered Jurisdiction shall provide information in specified forms to be admissible in judicial proceedings of the requesting Jurisdiction (Note, paragraph 6). The specified forms include depositions of witnesses and authenticated copies of original documents (including books, papers, statements, records, accounts, and writings), but only to the extent that such depositions and documents can be obtained under the laws and administrative practices of the requested Jurisdiction. It is intended that, in appropriate cases, the United States be permitted to conduct depositions in Bermuda. Bermuda has enacted legislation which authorizes its competent authority to provide information pursuant to the Convention in the form of depositions of witnesses and authenticated copies of documents to the extent authority exists under Bermuda's laws and administrative practices to make depositions and authenticate copies (U.S.A.-Bermuda Tax Convention Act 1986, enacted August 29, 1986 (the "Bermuda Act")).

It is intended that the competent authorities of the Covered Jurisdictions use any powers available to them under their domestic law, including compulsory measures, to obtain information which is requested under the Convention. The recently enacted Bermuda Act confirms that the competent authority of Bermuda shall use such powers to implement Bermuda's information obligations under the Convention.

Where documents, records, or other materials are in the custody of a resident of Bermuda and are located in Bermuda, the United States shall, where practicable, request assistance of the competent authority of Bermuda pursuant to the provisions of the Convention before resulting to unilateral compulsory measures to obtain such information (Note, paragraph 7).

In cases where the United States requests information with respect to a matter which does not constitute a U.S. criminal or tax fraud investigation, it is intended that a senior official designated by the Secretary of the Treasury shall certify such request as being relevant to and necessary for the determination of the tax liability of a U.S. taxpayer, or the criminal tax liability of a person under the laws of the United States (Note, paragraph 4). It is currently intended that this official be a senior official in the Internal Revenue Service, the Assistant Commissioner (International).

In cases where the United States requests information with respect to a matter, whether civil or criminal, which relates to a person not resident in the United States or Bermuda, it is also intended that a senior official designated by the Secretary of the Treasury shall certify such request as being relevant to and necessary for the determination of the tax liability of a U.S. taxpayer, or the criminal tax liability of a person under the laws of the United States (Note, paragraph 4)). In addition, the U.S. competent authority shall establish to the satisfaction of the competent authority of Bermuda that such assistance is necessary for the proper administration of the fiscal laws of the United States. Where such necessity has been duly established, the competent authorities shall consult as to the appropriate form of the assistance to be provided (Note, paragraph 4).

The United States has agreed, based upon the information exchange provisions of the Convention and the Note, that the Secretary of the Treasury or his delegate will be prepared, upon the entry into force of the Convention, to certify Bermuda for purposes of section 927(e)-(3) of the Code such that a company organized under the laws of Bermuda may qualify as a Foreign Sales Corporation (FSC) (Note, paragraph 11). The United States has also agreed that, upon entry into force of the Convention, the Secretary of the Treasury or his delegate will be prepared to execute on behalf of the United States Government an executive agreement satisfying the requirements of section 274(h)(6)(C) of the Code, which would incorporate by reference the provisions of Articles 5 and 6 of the Convention and of the Note, and would allow persons incurring expenses for attending business conventions in Bermuda to claim deductions for such expenses as though Bermuda were included as part of the "North American area" (Note, paragraph 11).

The parties have agreed that the provisions of Article 5 shall not impose on Bermuda the obligation to provide information which, in the hands of the person from whom the information is sought, is subject to the common law solicitor-client privilege in Bermuda (Note, paragraph 5).

As of the date of signature of the Convention, Bermuda did not have in force any taxation laws which would serve as the basis for a request for assistance under the Convention.

Article 6. CONFIDENTIALITY

This Article provides that the assistance provided (including the information exchanged) pursuant to the provisions of Article 5 (Mutual Assistance in Tax Matters) shall be treated as confidential in the same manner as such matters or items would be under the domestic laws of the Covered Jurisdiction requesting the assistance. Thus, the limitations on disclosure of any tax return or return information under section 6103 of the Code shall apply to information received from Bermuda. The Convention provides, in addition, that the disclosure and use of such information shall be limited in the United States to those persons or authorities (including courts and administrative bodies) involved in the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes. In Bermuda, information can be disclosed only to the Minister of Finance or his delegate. The persons to whom information is disclosed in either Jurisdiction may use such information only for purposes of the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes. Such information may be disclosed in public court proceedings or public decisions, but shall not be disclosed to any country other than one of the Covered Jurisdictions for any purpose.

The provisions of Article 6 authorize the U.S. competent authority to allow access to information to persons involved in the administration of taxes covered in the Convention. Such persons include legislative bodies involved in the administration of taxes and their agents, such as, for example, the General Accounting Office (GAO), when the GAO is engaged in a study of the administration of U.S. tax laws pursuant to a directive of Congress. The secrecy requirements of Article 6 must, however, be met. Also, matters that are the subject of assistance under the Convention but that are made public in accordance with the Convention shall not be further subject to Article 6 (Note, paragraph 9).

Article 7. ENTRY INTO FORCE AND TERMINATION

Paragraph 1 provides that the Convention be subject to ratification in accordance with the applicable procedures of each party, and that the instruments of ratification be exchanged as soon as possible. The parties intend that instruments of ratification not be exchanged until Bermuda has enacted such legislation as may be required to implement the provisions of the Convention. The Bermuda Act meets this requirement.

Paragraph 2 provides, that the Convention will enter into force upon the exchange of instruments of ratification. Once the Convention enters into force it shall have effect:

1. in respect of excise taxes on insurance premiums paid to foreign insurers, for premiums paid or credited on or after January 1, 1986;

2. in respect of income taxes imposed on the business profits derived by an enterprise of insurance, for such profits derived in taxable years beginning on or after the first day of the calendar year in which the Convention enters into force;

3. in respect of mutual assistance covered by the first sentence of Article 5 (Mutual Assistance in Tax Matters) (i.e., the sentence relating to tax fraud and the evasion of taxes), for taxable years not barred by the statute of limitations of the Covered Jurisdiction requesting such assistance; provided, however, that neither Covered Jurisdiction shall be required by Article 5 to provide such assistance with respect to taxable years beginning prior to January 1, 1977, and

4. in respect of mutual assistance covered by the second sentence of Article 5 and not also described in the first sentence (i.e., the sentence relating to nonfraudulent civil tax matters), for taxable years not barred by the statute of limitations of the Covered Jurisdiction requesting such assistance; provided, however, that neither Covered Jurisdiction shall be required by Article 5 to provide such assistance with respect to:

a. taxable years beginning prior to January 1, 1977; or

b. taxable years beginning prior to the entry into force of the Convention if the provisions of such assistance would cause or result in the breach of an obligation to maintain confidentiality of information under the laws of such Jurisdiction in effect on the date of signature of the Convention.

Thus, for purposes of Article 5 (Mutual Assistance in Tax Matters), Bermuda is not required to provide any information relating to taxable years beginning before January 1, 1977. For any requests involving criminal or civil tax fraud matters, Bermuda is required to provide information pursuant to Article 5 with respect to any taxable years beginning on or after January 1, 1977 (subject to the solicitor-client privilege exception noted above).

With respect to information requests involving nonfraudulent civil tax matters, Bermuda is required to provide information relating to taxable years beginning on or after January 1, 1977 but before the entry into force of the Convention only if the provision of such information would not cause or result in the breach, by the person from whom the information is sought, of any obligation to maintain confidentiality of information pursuant to the laws of Bermuda in existence on July 11, 1986. This protection extends only to information protected by Bermudian statutory and common law. Thus, information properly subject to the Bermudian common law solicitor-client or banker-client privilege would be eligible for such protection. If a taxpayer claims that other categories of information are protected under the common law of Bermuda, it is agreed that the Government of Bermuda will have such a claim determined in the courts of Bermuda if the United States so requests.

For requests relating to nonfraudulent civil tax matters arising in taxable years beginning after the entry into force of the Convention, Bermuda would be required to provide any information not protected by the solicitor-client privilege unless:

1. the documents or information sought was created in or derived from periods prior to the entry into force of the Convention;

2. the provision of such assistance would require Bermuda to cause the person from whom such documents or information is sought to breach a legal obligation to maintain confidentiality of such documents or information, properly asserted by such person under the laws of Bermuda as in effect on July 11, 1986; and

3. such documents or information is not of a kind that has a continuing operational effect (Note, paragraph 5(iv)).

However, the Note provides that if such pre-existing documentation is relevant to a request involving a post-effective date taxable year and does have a continuing operational effect, it will be subject to information exchange under the Convention. For example, if assistance is requested with respect to a taxpayer's bank transactions occurring after the entry into force of the Convention and the signature card for the account in question was executed prior to the entry into force of the Convention, Bermuda's obligation to provide assistance with respect to such a signature card would not be affected by confidentiality restrictions. Similarly, if a taxpayer's depreciation deduction for a year after entry into force of the Convention is under examination, Bermuda's obligation to provide assistance with respect to information about the purchase price of the property in question, if such property was acquired before the entry into force of the Convention, would not be affected by any confidentiality restrictions of Bermudian law.

Paragraph 2 provides that the Convention shall remain in force indefinitely unless terminated by one of the parties. Either party may terminate the Convention by giving notice to the other party on or after June 30 of the year following the calendar year in which the Convention enters into force. In that event, the Convention shall terminate on the first day of the seventh full calendar month following that in which the notice is given.

September 22, 1986

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND (ON BEHALF OF THE GOVERNMENT OF BERMUDA) FOR THE EXCHANGE OF INFORMATION WITH RESPECT TO TAXES

The Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda), in order to implement the Mutual Assistance in Tax Matters provisions of the Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters, with a related exchange of notes, signed at Washington on July 11, 1986, desire to conclude an Agreement for the exchange of information with respect to taxes (hereinafter referred to as the "Agreement"), and have agreed as follows:

ARTICLE 1
TAXES COVERED

1. This Agreement shall apply to the following taxes imposed by or on behalf of a Covered Jurisdiction:

a) in the case of the United States of America,

(i) Federal income taxes,

(ii) Federal taxes on self-employment income,

(iii) Federal taxes on transfers to avoid income tax,

(iv) Federal estate and gift taxes,

(v) Federal excise taxes; and

b) in the case of Bermuda,

(i) any tax imposed by Bermuda which is substantially similar to the existing United States taxes to which this Agreement applies.

2. This Agreement shall apply also to any identical or substantially similar taxes imposed after the date of signature of this Agreement in addition to or in place of the existing taxes. The competent authority of a Covered Jurisdiction shall notify the competent authority of the other Covered Jurisdiction of any significant changes in laws which may affect the obligations of that Covered Jurisdiction pursuant to the Agreement and of any official published material relating to the application of the Agreement.

3. This Agreement shall not apply to the extent that an action or proceeding concerning taxes covered by this Agreement is barred by the applicant Jurisdiction's statute of limitations.

4. This Agreement shall not apply to taxes imposed by states, municipalities or other political subdivisions, or possessions of a Covered Jurisdiction.

ARTICLE 2
DEFINITIONS

1. In this Agreement, unless otherwise defined:

a) The term "company" means any body corporate or any entity which is treated as a body corporate for tax purposes.

b) The term "competent authority" means:

(i) in the case of the United States of America, the Secretary of the Treasury or his delegate; and

(ii) in the case of Bermuda, the Minister of Finance or his delegate.

c) The term "Covered Jurisdiction" means the United States of America or Bermuda, as the context requires.

d) The term "national" means:

(i) in the case of the United States, any United States citizen and any legal person, partnership, company, trust, estate, association, or other entity deriving its status as such from the laws in force in the United States; and

(ii) in the case of Bermuda, any legal person, partnership, company, trust, estate, association, or other entity deriving its status as such from the laws in force in Bermuda.

e) The term "resident" means:

(i) in the case of the United States:

(a) any person, other than a company, resident in the United States for the purpose of United States tax; but in the case of a partnership, estate or trust, only to the extent that the income derived by such partnership, estate or trust is subject to United States tax as the income of a resident, either in its hands or in the hands of its partners or beneficiaries; and

(b) a company created under the laws of the United States or a political subdivision thereof; and

(ii) in the case of Bermuda:

(a) an individual who has the status of a legal resident of Bermuda; and

(b) a company, partnership, trust, or association created under the laws of Bermuda.

f) The term "person" includes an individual and a partnership, company, trust, estate, association or other legal entity.

g) For purposes of determining the geographical area within which jurisdiction to require production of information may be exercised,

(i) the term "United States" means the United States of America, but does not include Puerto Rico, the Virgin Islands, Guam or any other United States possession or territory, and

(ii) the term "Bermuda" means the islands in the Atlantic Ocean known as Bermuda.

h) The term "tax" means any tax to which the Agreement applies.

i) The term "information" means any fact or statement, in any form whatever, that is relevant or material to tax administration and enforcement, including (but not limited to):

(i) testimony of an individual, and

(ii) documents or records of a person or Covered Jurisdiction.

j) The terms "applicant Jurisdiction" and "requested Jurisdiction" mean, respectively, the Covered Jurisdiction applying for or receiving information and the Covered Jurisdiction providing or requested to provide such information.

2. Any term not defined in this Agreement, unless the context otherwise requires or the competent authorities agree to a common meaning, shall have the meaning which it has under the laws of the Covered Jurisdiction relating to the taxes which are the subject of this Agreement.

3. To the extent that any requirement contained in Articles 3 or 5 of this Agreement conflicts with the provisions of the Convention between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland (on behalf of the Government of Bermuda) relating to the Taxation of Insurance Enterprises and Mutual Assistance in Tax Matters, (the "Convention",) with a related exchange of notes, signed at Washington on July 11, 1986, the provisions of said Convention and said notes shall prevail.

ARTICLE 3
EXCHANGE OF INFORMATION

1. The competent authorities of the Covered Jurisdictions shall provide assistance as appropriate in carrying out the laws of the respective Covered Jurisdic-

tions relating to the prevention of tax fraud and the evasion of taxes.

2. The competent authorities of the Covered Jurisuictions shall, through consultations, develop appropriate conditions, methods, and techniques for providing, and shall thereafter provide, assistance as appropriate in carrying out the fiscal laws of the respective Covered Jurisdictions other than those relating to tax fraud and the evasion of taxes.

3. Where a Covered Jurisdiction requests information with respect to a matter which (i) relates to a person not resident in one of the Covered Jurisdictions or (ii) does not constitute a criminal or tax fraud investigation, a senior official designated by the Secretary of the Treasury or the Minister of Finance respectively, of the applicant Jurisdiction shall certify such request as being relevant to and necessary for the determination of the tax liability of a taxpayer of the applicant Jurisdiction, or the criminal tax liability of a person under the laws of the applicant Jurisdiction. If information is requested relating to persons not resident in one of the two Covered Jurisdictions, it also shall be established to the satisfaction of the competent authority of the requested Jurisdiction that such information is necessary for the proper administration and enforcement of the fiscal laws of the applicant Jurisdiction. Where such necessity has been duly established, the competent authorities shall consult as to the appropriate form of assistance.

4. If specifically requested by the competent authority of one of the Covered Jurisdictions, the competent authority of the other Covered Jurisdiction shall provide information in specified forms to be admissible in judicial or administrative proceedings of the applicant Jurisdiction to the same extent that such specified forms can be obtained under the laws and administrative practices of the requested Jurisdiction. The specified forms shall include depositions of witnesses and authenticated copies of original documents, including books, papers, statements, records, accounts, and writings.

5. Where documents, records, or other materials are in the custody of a resident of a Covered Jurisdiction and are located in such Covered Jurisdiction, the other Covered Jurisdiction shall, where practicable, request assistance of the competent authority of the Covered Jurisdiction where such documents, records, or other materials are located before resorting to unilateral compulsory measures to obtain such information.

6. The provisions of this Article shall not impose on either Covered Jurisdiction the obligation to provide information which is subject to the solicitor-client (or attorney-client) privilege in the hands of the person from whom the information is sought. Notwithstanding paragraph 9(b) of this Article, and except as provided in Article 5, no other privilege or confidentiality restriction shall be recognized for the purposes of this Agreement. Claims of privilege under the laws or practices of the applicant Jurisdiction shall be determined exclusively by the courts of that Jurisdiction, and claims of privilege under the laws or practices of the requested Jurisdiction shall be determined exclusively by the courts of that Jurisdiction.

7. The information received by an applicant Jurisdiction pursuant to this Agreement shall be treated as confidential in the same manner as such information or matters would be treated under the domestic laws of the applicant Jurisdiction.

8. The disclosure and use of information exchanged pursuant to this Agreement shall be limited to those persons or authorities (including courts and administrative bodies) involved in the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes. The persons to whom such information is disclosed may use the information only for purposes of the assessment, collection, or administration of, the enforcement or prosecution in respect of, or the determination of appeals in relation to, taxes. Information exchanged pursuant to this Agreement may be disclosed in public court proceedings or public decisions of either Covered Jurisdiction but shall not be disclosed to any country, for any purpose, other than one of the Covered Jurisdictions.

9. The provisions of the preceding paragraphs shall not be construed so as to impose on a Covered Jurisdiction the obligation:

(a) to carry out administrative measures at variance with the laws and administrative practices of that Jurisdiction or of the other Covered Jurisdiction;

(b) to supply particular items of information which are not obtainable under the laws of that Jurisdiction or of the other Covered Jurisdiction;

(c) to supply information which would disclose any trade, business, industrial, commercial or professional secret or trade process;

(d) to supply information, the disclosure of which would be contrary to public policy;

(e) to supply information requested by the applicant Jurisdiction to administer or enforce a provision of the tax laws of the applicant Jurisdiction, or any requirement connected therewith, which discriminates against a national of the requested Jurisdiction. A provision of tax law, or connected requirement, will be considered to be discriminatory against a national of the requested Jurisdiction if it is more burdensome with respect to a national of the requested Jurisdiction than with respect to a national of the applicant Jurisdiction in the same circumstances. For the purposes of the preceding sentence, a national of the applicant Jurisdiction who is subject to tax on worldwide income is not in the same circumstances as a national of the requested Jurisdiction who is not subject to tax on worldwide income. The provisions of this subparagraph shall not be construed to prevent the exchange of information with respect to the taxes imposed by a Covered Jurisdiction on branch profits or the excess interest of a branch or on the premium income of foreign insurers.

Except as provided in this paragraph, the provisions of Article 3 shall be construed so as to impose on a Covered Jurisdiction the obligation to use all legal means and its best efforts to execute a request.

ARTICLE 4
OTHER APPLICATIONS OF THE AGREEMENT

This Agreement is consistent with the standards for an exchange of information agreement described in Section 274(h)(6)(C) of the United States Internal Revenue Code of 1986 (the "Code") (relating to deductions for attendance at foreign conventions), and referred to by cross-reference in Section 927(e)(3)(A) of the Code (relating to foreign sales corporations).

ARTICLE 5
ENTRY INTO FORCE

1. This Agreement shall enter into force upon signature by the duly authorized representatives of the Covered Jurisdictions and its provisions shall have effect:

(a) in respect of information covered by paragraph 1 of Article 3, for taxable years not barred by the statute of limitations of the applicant Jurisdiction, provided, however, that neither Covered Jurisdiction shall be required to provide information with respect to taxable years beginning prior to January 1, 1977;

(b) in respect of information covered by paragraph 2 (and not also covered by paragraph 1) of Article 3, for taxable years not barred by the statute of limitations of the applicant Jurisdiction, provided that such assistance is not with respect to:

(i) taxable years beginning prior to January 1, 1977; or

(ii) taxable years beginning prior to the entry into force of this Agreement (but beginning on or after January 1, 1977) if the provision of such assistance would cause or result in the breach of an obligation to maintain confidentiality of information under the laws of the requested Jurisdiction in effect on the date of signature of the Convention. For purposes of this subsection, confidential information includes information protected by the common law solicitor-client privilege and banker-client privilege. If a taxpayer claims that other categories of information are protected under the common law of the requested Jurisdiction, and if the applicant Jurisdiction so requests, the government of the requested Jurisdiction shall have such claim determined in the courts of the requested Jurisdiction; and

(c) in respect of information covered by paragraph 2 (and not also covered by paragraph 1) of Article 3, for taxable years beginning after the entry into force of this Agreement unless:

(i) the document or information sought was created in or derived from periods prior to the entry into force of this Agreement;

(ii) the provision of such assistance would require the requested Jurisdiction to cause the person from whom such document or information is sought to breach a legal obligation to maintain confidentiality of such document under the laws of the requested Jurisdiction as in effect on July 11, 1986; and

(iii) such document or information is not of a kind that has a continuing operational effect.

ARTICLE 6
AMENDMENT AND TERMINATION

1. This Agreement may be modified or amended by the mutual consent of the competent authorities of the Covered Jurisdictions.

2. This Agreement shall continue in force indefinitely, but either party may give notice of termination to the other party on or after June 30 of the year following the calendar year in which this Agreement is executed and in such event the Agreement shall terminate on the first day of the seventh full calendar month following that in which the notice is given.

Done at Washington, in duplicate, this second day of December, 1988.

TAX IMPLEMENTATION AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND GUAM

The Government of the United States of America and the Government of Guam desiring to conclude an Agreement (hereinafter referred to as the "Agreement") for the exchange of information and mutual assistance with respect to taxes in order to prevent the evasion or avoidance of United States or Guam taxes have agreed as follows:

Article 1
SCOPE OF AGREEMENT

This Agreement is intended to provide for mutual assistance in tax matters, including exchanges of information, for purposes of administering the tax laws of the respective Governments and especially to prevent avoidance or evasion of the Governments' respective fiscal laws. This Agreement is the implementing agreement described in Sections 1271 and 1277 of the Tax Reform Act of 1986, Public Law 99-514. The provisions of this Agreement are subject to provisions of the statutes, regulations, and published procedures of the Contracting Governments.

Upon entry into force, this Agreement replaces any and all prior tax coordination agreements and implementing agreements between the respective Governments.

Article 2
TAXES COVERED

1. This Agreement shall apply to the following taxes imposed by or on behalf of a Contracting Government:

a. in the case of the United States of America, all taxes imposed by the Code, and

b. in the case of Guam, all taxes imposed by the Code as it applies in Guam and all income taxes imposed by Guam as authorized by the Tax Reform Act of 1986.

2. This Agreement shall apply also to any identical or substantially similar taxes imposed after the date of signature of the Agreement in addition to or in place of the existing taxes. The competent authority of each Government shall notify the other of significant changes in laws which may affect the obligations of that Government pursuant to this Agreement.

3. This Agreement shall not apply to the extent that an action or proceeding concerning taxes covered by this Agreement is barred by the applicant Government's statute of limitations.

Article 3
DEFINITIONS

1. In this Agreement, unless otherwise defined:

a. The term "Code" shall mean the Internal Revenue Code of 1986, as amended, and any predecessor or successor statutes.

b. The term "competent authority" means:

i. in the case of the United States of America, the Secretary of the Treasury or his delegate, and

ii. in the case of Guam, the Director of the Department of Revenue and Taxation or his delegate.

c. The term "Contracting Government" means the United States or Guam as the context requires.

d. The term "non-Guam source income" means income for which the source (under source rules set forth in the Code or promulgated consistently with the Code by the Internal Revenue Service) is not Guam.

e. The term "person" includes an individual and a partnership, corporation, company, trust, estate, association or other legal entity.

f. The term "tax" means any tax to which the Agreement applies.

g. The term "taxpayer" means:

i. in the case of the United States, any person subject to the provisions of the Code, and

ii. in the case of Guam, any person subject to the provisions of the Code as it applies in Guam or any income tax laws imposed by Guam.

h. For purposes of determining the geographical area in respect of which jurisdiction to compel production of information under this Agreement may be exercised, the term "United States" means the United States of America, including Puerto Rico, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and any other United States possession or territory and the territorial waters thereof, but not including Guam. Such jurisdiction may be exercised if the information or the custodian of the information is located within the United States.

i. For purposes of determining the geographical area in respect of which jurisdiction to compel production of information under this Agreement may be exercised, the term "Guam" means the territorial domain, lands and waters acquired by the United States through cession of the Territory of Guam by the Treaty of Paris between the United States of America and Spain entered into in 1898. Such jurisdiction may be exercised if the information or the custodian of the information is located within Guam.

2. Any term not defined in this Agreement, unless the context otherwise requires or the competent authorities agree to a common meaning pursuant to the provisions of Article 5, shall have the meaning which it has under the laws of the Contracting Governments relating to the taxes which are the subject of this Agreement.

Article 4
EXCHANGE OF INFORMATION

1. The competent authorities of the Contracting Governments shall exchange information to administer and enforce the domestic laws of the Contracting Governments concerning taxes covered by this Agreement. Information shall be exchanged to fulfill the purposes of this Agreement without regard to whether the information relates to, or is held by a taxpayer of a Contracting Government. Procedures for exchange of information are set forth in Appendix A, Limitations on Disclosure of Tax Information, which is incorporated by reference and made a part of this Agreement.

2. The competent authorities of the Contracting Governments shall automatically transmit information to each other for the purposes referred to in paragraph 1. The competent authorities shall determine the items of information to be exchanged pursuant to this paragraph and the procedures to be used to exchange such items of information.

a. It is intended that the United States shall routinely supply to Guam the following information, to the extent available and subject to the tolerances and criteria to be agreed upon by the competent authorities:

i. copies of reports of individual, partnership, corporate, and employment audit changes (with associated reports of experts) that disclose information relevant to Guam;

ii. copies of Forms 5335 (Income Subject to Withholding under Chapter 3, Internal Revenue Code, as reported on Form 1042S, and any successor or comparable forms) that disclose information relevant to Guam;

iii. copies of Schedule K-1 of Form 1065 (U.S. Partnership Return of Income) and audit results, when the partnership return is examined and it appears the examination will affect returns of Guam taxpayers;

iv. copies of responses to Forms 4901, 4902, and 4903, Requests for Information About Tax Forms, where such reply indicates that the taxpayer has filed a return with Guam;

v. copies of Forms 1099 and all other information returns where the recipient of income is a Guam resident or lists a Guam address or the income is from Guam sources;

vi. copies of the W-2 combined wage reporting tape summarizing Forms W-2G (Guam Wage and Tax Statement) and Forms W3SS (Transmittal of Wage and Tax Statements) filed with the Social Security Administration by employers in Guam, which tape is provided annually to the Internal Revenue Service by the Social Security Administration; and

vii. copies of Forms 8279 (Election to be Treated as a FSC or as a Small FSC) that indicate creation or organization of any Foreign Sales Corporation (as defined in Section 922 of the Code) in Guam.

b. It is intended that Guam shall routinely supply to the United States the following information, to the extent available and subject to the tolerances and criteria to be agreed upon by the competent authorities:

i. copies of reports of individual partnership, corporate, and employment audit changes (with associated reports of experts) that disclose information relevant to the United States;

ii. information about the ownership interests of all corporations subject to the Guam tax with non-Guam source income that receive a rebate, subsidy or reduction of Guam taxes;

iii. information about any taxpayer subject to the Guam tax with non-Guam source income who files an income tax return with Guam claiming for the first time to be a Guam resident;

iv. all corporate information about ownership interests in any Foreign Sales Corporation (as defined in Section 922 of the Code) established in Guam;

v. such information about corporations electing application of Section 936 of the Code as may be agreed upon by the competent authorities; and

vi. information about any rebates, subsidies or reductions of tax provided by Guam for income derived by a Guam taxpayer from other United States possessions.

c. The competent authorities of the Contracting Governments may agree to expand or limit the information to be routinely exchanged.

3. The competent authority of a Contracting Government shall spontaneously transmit to the competent authority of the other Government information which has come to the attention of the first-mentioned Government and which is likely to be relevant to, and bear significantly on, administration and enforcement of the domestic laws concerning taxes of the second-mentioned Government. The competent authorities shall determine the information to be exchanged pursuant to this paragraph and take such measures

and implement such procedures as are necessary to ensure that the information is forwarded to the competent authority of the other Government.

4. The competent authority of the requested Government shall endeavor to provide information upon request by the competent authority of the applicant Government for the administration and enforcement of the domestic laws of the Contracting Governments concerning taxes. If the information available in the tax files of the requested Government is not sufficient to enable compliance with the request, that Government shall take the necessary measures to provide the applicant Government with the information requested. If information is requested by a Contracting Government in accordance with this Article, the other Contracting Government shall obtain the information to which the request relates in the same manner (including issuance and enforcement of administrative summonses) and to the same extent as if the tax of the first-mentioned Government were the tax of that other Government and were being imposed by that other Government. Notwithstanding the foregoing, the United States may exercise its rights under Section 7602 *et. seq.* of the Code to obtain information in Guam without resorting to the procedures set forth in this Agreement. However, in the event the United States so exercises its rights within the territory of Guam, it shall notify the competent authority of Guam prior to taking action or as soon as practicable, unless the competent authorities agree to limit notification with respect to certain classes of cases.

5. The provisions of the preceding paragraphs shall not be construed so as to impose on a Contracting Government the obligation:

a. to supply particular items of information which are not obtainable under the laws of that Government or of the other Contracting Government;

b. to supply information which would disclose any trade, business, industrial, commercial or professional secret or trade process;

c. to supply information, the disclosure of which would be contrary to public policy; or

d. to disclose information if such disclosure would identify a confidential informant or seriously impair a civil or criminal tax investigation.

6. Any information received by a Contracting Government shall be subject to Appendix A, Limitations on Disclosure of Tax Information.

Article 5
MUTUAL AGREEMENT PROCEDURE AND COSTS

1. The competent authorities of the Contracting Governments shall implement a program to carry out the purposes of this Agreement. In particular, the competent authorities of the Contracting Governments may amend Appendix A, by mutual agreement, as they deem necessary within the limitations of this Agreement and the Code.

2. The competent authorities of the Contracting Governments shall endeavor to resolve by mutual agreement any difficulties or doubts arising as to the interpretation or application of this Agreement and may communicate directly for this purpose. In particular, the competent authorities may agree to the common meaning of a term and may determine when costs are extraordinary for purposes of this Article.

3. Unless the competent authorities of the Contracting Governments otherwise agree, ordinary costs incurred in providing assistance shall be borne by the requested Government and extraordinary costs incurred in providing assistance shall be borne by the applicant Government. The competent authorities of the Contracting Governments may agree not to charge each other for the costs of reproduction of information routinely exchanged.

Article 6
MUTUAL AGREEMENT PROCEDURE ON POTENTIAL DOUBLE TAXATION

1. When by reason of inconsistent positions taken by the Contracting Governments, a taxpayer is or would be subject to inconsistent tax treatment by the two jurisdictions, the competent authorities of the Contracting Governments shall endeavor to agree upon the facts and circumstances necessary to achieve consistent application of the tax laws of the respective Governments. In particular, but not by way of limitation, the competent authorities of the Contracting Governments may consult together to endeavor to agree:

a. To the same allocation of income under Section 482 of the Code;

b. To the same determination of residency of a particular taxpayer; or

c. To the same determination of the source of particular items of income.

Article 7
OTHER APPLICATIONS OF AGREEMENT

1. The Contracting Governments agree that when they have knowledge that a taxpayer has changed residence from one taxing jurisdiction to the other and seeks to change methods of accounting (or to make an initial election), no such change or election shall be permitted until the competent authorities have consulted and determined that such change or election will not lead to the evasion or avoidance of taxes imposed by either of the Contracting Governments. This paragraph includes initial adoption of an accounting method or an election inconsistent with a method or election previously utilized in the other jurisdiction by the taxpayer.

2. The Contracting Governments agree that a Guam corporation owned or controlled directly or indirectly by a person whose beneficial ownership is undisclosed (such as through bearer shares) shall be treated as owned or controlled to that extent by a foreign person for purposes of the respective Governments' tax laws.

3. The Contracting Governments agree that for purposes of determining whether a person qualifies as a bona-fide resident of Guam under Section 931 of the Code the definition to be used shall be the definition contained in the then-applicable regulations promulgated by the United States.

4. The Contracting Governments agree that the United States may use its regulatory authority over sourcing rules under Sections 931(d)(2) and 7654(e) of the Code to determine that certain income is U.S. source income. The United States will consult as appropriate with the competent authority of Guam before issuing final regulations under Sections 931 or 7654 of the Code that affect Guam taxation.

5. Any taxpayer information disclosed to the United States shall become "taxpayer return information" as defined by Section 6103(b)(3) of the Code and may be redisclosed only in accordance with provisions of the Code or an applicable treaty.

6. Subject to the restrictions and other provisions of this Agreement and the availability of enforcement resources, the competent authorities will develop a cooperative return selection and examination program with the objective of avoiding unnecessary duplication of examination coverage.

7. Subject to the restrictions and other provisions of this Agreement, the Contracting Governments will develop a simultaneous examination program for both civil and criminal investigations.

8. To the extent permitted by law and subject to the availability of enforcement resources, the United States will assist in collecting taxes, together with interest and additions to tax, owed to Guam by Guamanian taxpayers present in the United States. The competent authorities will discuss appropriate procedures for facilitating such collections. Any taxes collected shall be remitted to Guam, less the reasonable expenses incurred in collection.

9. In addition to the exchange of tax and other information, the competent authorities will, to the extent feasible, extend to each other assistance in other tax administration matters. This may include such activities as taxpayer assistance, stocking tax forms for the public, training of personnel, preparing special statistical studies and compilations of data, lending of skilled personnel for limited periods, conducting public education programs with regard to tax law changes made by the Tax Reform Act of 1986 and subsequent legislative revisions, and development and improvement of tax administration systems and procedures, as well as such other activities as may improve tax administration.

Article 8

ENTRY INTO FORCE

This Agreement shall enter into force on January 1, 1991 or on such earlier date as may be mutually agreed to by the Contracting Governments.

Article 9

AMENDMENT AND TERMINATION

1. This Agreement may be modified or amended by mutual consent of the Contracting Governments.

2. This Agreement shall remain in force until terminated by one of the Contracting Governments. Either Contracting Government may terminate the Agreement at any time after the Agreement enters into force provided that at least six (6) months' prior notice of termination has been given.

3. Any unauthorized use or disclosure of Federal returns or Federal return information as defined by Section 6103(b)(1) and (2) of the Code furnished pursuant to this Agreement or inadequate procedures for safeguarding the confidentiality of such returns and return information, constitutes grounds for immediate termination of this Agreement and the exchange of information thereunder, subject to the rights of administrative appeal as provided by regulations prescribed by Section 6103(p)(7) of the Code.

DONE by the Government of Guam at Agana, Guam, In duplicate, this 3rd day of April, 1989.

FOR THE GOVERNMENT OF GUAM

JOSEPH F. ADA,
Governor of Guam.

JOAQUIN G. BLAZ,
Director, Department of
Revenue and Taxation
Government of Guam.

DONE by the Government of the United States of America at Washington, D.C., in duplicate, this 5th day of April, 1989.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA

J.G. WILKINS,
Assistant Secretary (Tax Policy)
Department of the Treasury.

APPENDIX A
LIMITATIONS ON DISCLOSURE OF TAX INFORMATION

SECTION 1. Definitions

For purposes of this appendix, the following definitions apply:

1.1 Department. The term **"Department"** means the Department of Revenue and Taxation, Government of Guam and any successor agency.

1.2 The term **"IRS"** means the Internal Revenue Service, U.S. Department of Treasury.

1.3 Possession Audit Agency. The term **"Possession Audit Agency"** means the agency, body or commission which is charged under the laws of Guam with the responsibility of auditing Possession revenues and programs.

1.4 Possession. The term **"Possession"** means Guam.

1.5 Department Representative. The term **"Department Representative"** means a Department officer or employee designated in writing by the head of the Department, to the Assistant Commissioner (International) at Washington, D.C. and the Service Center Director at Philadelphia, PA, as an individual who is to inspect or receive Federal returns or Federal return information on behalf of the Department as provided by Section 6103(d) of the Code, but only so long as the duties and employment of such officer or employee require access to Federal returns and Federal return information for purposes of Possession tax administration.

1.6 IRS Representative. The term **"IRS Representative"** means an officer or employee of the IRS who has been designated in writing to the head of the Department by the Assistant Commissioner (International) at Washington, D.C., or the Service Center Director at Philadelphia, PA, as an individual who is to inspect or receive Possession returns or Possession return information on behalf of the IRS, but only so long as the duties and employment of such officer or employee require access to Possession returns and return information for the purpose of Federal tax administration.

1.7 Federal Return. The term **"Federal Return"** is defined in the same manner as provided in Section 6103(b)(1) of the Code.

1.8 Federal Return Information. The term **"Federal Return Information"** is defined in the same manner as provided in Section 6103(b)(2) of the Code. However, "Federal Return Information" does not include information in the hands of the Possession which it obtained wholly from sources independent from the IRS.

1.9 Possession Return. The term **"Possession Return"** is defined in the same manner as provided in Section 6103(b)(1) of the Code as it applies in Guam.

1.10 Possession Return Information. The term **"Possession Return Information"** means a taxpayer's identity, the nature, source, or amount of his/her income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability, tax withheld, deficiencies, overassessments, or tax payments, whether the taxpayer's Possession return was, is being, or will be examined or subject to other investigation or processing, or any other data received by, recorded by, prepared by, furnished to, or collected by the Department with respect to a Possession return or with respect to determination of the existence, or possible existence, of liability (or the amount thereof) of any person under the internal revenue laws, or related statutes, of the Possession, for any tax, penalty, interest, fine, forfeiture, or other imposition, or offense.

1.11 Inspection. The term **"Inspection"** means any examination of a return or return information.

1.12 Disclosure. The term **"Disclosure"** means the making known to any person in any manner whatever a return or return information.

1.13 Possession Tax Administration. The term **"Possession Tax Administration."**

a. means ...

i. the administration, management, conduct, direction, and supervision of the execution and application of the revenue laws, or related statutes of the Possession, and

ii. the development and formulation of Possession tax policy relating to existing or proposed internal revenue laws, or related statutes, of the Possession; and

b. includes assessment, collection, enforcement, litigation, publication, and statistical-gathering functions under such laws or statutes.

1.14 Code. The term **"Code"** means the Internal Revenue Code of 1986, as amended, and any predecessor or successor statutes.

SECTION 2. Disclosure of Federal Returns and Federal Return Information

2.1 Pursuant to the laws of the Possession, the Department is charged with the responsibility for the administration of Possession taxes imposed on income, inheritance, gifts, gross receipts from the conduct of a trade or business, real property and excise taxes on imports used in the conduct of a trade or business. Federal returns, and Federal return information (whether originals, paper copy, photocopy, microfilm, magnetic media, or any other form) received from the IRS will be used for the purpose of, and only to the extent necessary in, Possession tax administration.

2.2 This Agreement and Appendix constitute the requisite authorization pursuant to Section 6103(d)(1) of the Code for the IRS to disclose to, and permit inspection by, a Department Representative of Federal returns and Federal return information relating to taxes imposed by chapters one, two, six, eleven, twelve, twenty-one, twenty-three, twenty-four, thirty-one, thirty-two, forty-four, forty-five, fifty-one, fifty-two, and subchapter D of chapter thirty-six of the Code.

2.3 Upon the occurrence of any change in employment, duties, or other relevant matters affecting a Department Representative's right to access to Federal returns and Federal return information or status as a Department Representative, the head of the Department shall promptly advise in writing the Assistant Commissioner (International) at Washington, D.C. and the Service Center Director at Philadelphia, PA, that such individual is no longer a Department Representative.

2.4 A Department Representative to whom a Federal return or Federal return information has been disclosed may thereafter disclose such return or return information:

a. to another employee of the Department for the purpose of and only to the extent necessary in the administration of the Possession tax laws for which the Department is responsible;

b. to a person described in Section 6103(n) of the Code or to any officer or employee of such person, solely for the purpose of Possession tax administration and in a manner consistent with applicable regulations, published rules or procedures, or written communications;

c. to a legal representative of the Department personally and directly engaged in, and solely for use in, preparation for a civil or criminal proceeding (or investigation which may result in a proceeding) before a Possession administration body, grand jury, or court in a matter involving Possession tax administration, if the returns and return information satisfy one or more of the criteria established in Section 6103(h)(4)(A), (B) or (C); and

d. to an officer or employee of the Possession Audit Agency for the purpose of and only to the extent necessary in making an audit of the Department.

2.5 A Federal return or Federal return information may be disclosed in a judicial or administrative proceeding pertaining to Possession tax administration, but only if the criteria established in Section 6103(h)(4)(A), (B) or (C) of the Code are met.

2.6 Notwithstanding any other provision of this section, the IRS will not disclose a Federal return or Federal return information under this section if such disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax investigation. The Department agrees that neither it nor its legal representatives will make any further use or disclosure of a Federal return or Federal return information disclosed to a Department Representative by the IRS if the IRS notifies the head of the Department in writing that such further use or disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax investigation. The Department further agrees that prior to the disclosure of any Federal return or Federal return information in a Possession judicial proceeding or to any party other than the taxpayer or his/her designee in a Possession administrative proceeding if the return or return information satisfies one or more of the criteria established in Section 6013(h)(4)(A), (B) or (C) of the Code, the head or legal representative of the Department will notify in writing the Service Center Director or Assistant Commissioner (International), from whom the return or return information was received, of the intention to make such disclosure. No officer, employee or legal representative shall disclose a Federal return or Federal return information in a Possession judicial or administrative proceeding if the Service Center Director or Assistant Commissioner (International) or their delegate, within 30 days following receipt of such written notice, informs the head or legal representative of the Department that such disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax Investigation.

2.7 Additionally, the Department agrees that it will notify the Assistant Commissioner (International) when, during an audit of the Department by the Possession Audit Agency, Federal returns and Federal return information are disclosed to the Possession Audit Agency and such information is made part of the Possession Audit Agency's workpapers.

SECTION 3. Disclosure of Possession Returns and Possession Return Information

3.1 This Agreement and Appendix constitute the requisite authorization for the Department to disclose to, and permit inspection by, IRS Representatives of Possession returns and Possession return information for the purpose of, and only to the extent necessary in the administration of the internal revenue laws, or related statutes, of the United States. Any Possession returns and Possession return information so disclosed to, or inspected by, an IRS Representative become, in the hands of the IRS, "taxpayer return information" as defined by Section 6013(b)(3) of the Code and may be redisclosed by the IRS only in accordance with provisions of the Code or an applicable treaty.

SECTION 4. Safeguards and Other Requirements

4.1 As an express condition for the inspection and disclosure of Federal returns and Federal return information, the Department agrees to comply with the safeguards and requirements prescribed by Section 6103(p)(4) of the Code and any implementation of such safeguards and requirements as may be provided by regulations and published procedures including:

a. furnishing an annual report to the IRS describing the procedures established and utilized by the Department ensuring the confidentiality of such returns and return information;

b. permitting the IRS to review the extent to which the Department is complying with the requirements of this paragraph; and

c. informing in writing all Department Representatives and other persons to or by whom disclosure or inspection of Federal returns or Federal return information is authorized of the criminal penalties and civil liability provided by Sections 7213 and 7431 of the Code for a disclosure of such returns and return information which is unauthorized by the Code.

4.2 As an express condition for the inspection and disclosure of Possession returns and Possession return information, the IRS agrees to comply with the safeguards and requirements prescribed by Section 6013(p)(4) of the Code and any implementation of such safeguards and requirements as may be provided by regulations and published procedures.

4.3 Processing of Federal returns and Federal return information received by the Department from the IRS in the form of microfilms, photo-impressions, magnetic media or other format (including reformatting or reproduction, or conversion to magnetic media, punch cards, or hard copy printout) and transmission and storage of such Federal returns or Federal return information by or on behalf of the Department may be performed by Department owned and/or operated computer facilities, facilities shared by the Department with other Possession agencies, or by any other person described in Section 6103(n) of the Code. In those cases where such facilities used by the Department are shared with other Possession agencies or operated by any other person described in Section 6103(n) of the Code, the Department will insure the confidentiality of the Federal returns and Federal return information provided to such shared facility or person. As part of this responsibility, the terms of any contract or agreement between the Department and a shared computer facility or other person to whom Federal returns or Federal return information is or may be disclosed for a purpose described in this subsection, will provide, or will be amended to provide, that such person, and officers and employees of the person, will comply with the applicable safeguard conditions contained in regulations, published rules and procedures, or written communications.

4.4 Because some taxpayers may be unaware that Department tax officials are authorized under Federal law to obtain Federal returns and Federal return information for Possession tax administration purposes, the Department will publicize, in a manner satisfactory to the IRS, that such returns or return information were obtained pursuant to specific authority granted by the Code. Similar publicity will be provided by the IRS for Possession tax information furnished to the IRS pursuant to Possession law.

SECTION 5. Limitations

5.1 Pursuant to the provisions of section 6103(p)(2) of the Code, and of Possession law, if any, charges for furnishing returns and return information shall be governed by Article 5, paragraph 3 of the Agreement.

5.2 Under no circumstances will the Department permit any Federal return or Federal return information to be inspected by or disclosed to an individual who is the chief executive officer of the Possession or any person other than one described in Section 2 of this Appendix.

5.3 Notwithstanding any other provision of this Appendix, the IRS will not disclose or make known in any manner whatever to any person other than one described in Section 2 of this Appendix:

a. any original, copy, or abstract of any return, payment, or registration made pursuant to chapter 35 of the Code (relating to taxes on wagering);

b. any record required for making any such return, payment, or registration made or required pursuant to chapter 35 which the IRS is permitted by the taxpayer to examine or which is produced pursuant to Section 7602 of the Code (relating to the examination of books and witnesses); or

c. any information obtained by the exploitation of any such return, payment, registration, or record made or required pursuant to chapter 35.

5.4 Notwithstanding any other provision of this Agreement or Appendix, the Internal Revenue Service will disclose or make known in any manner to any person described in Section 2 of this Appendix taxpayer information which was obtained pursuant to a tax convention or exchange of information agreement between the United States and a foreign government only if such disclosure is authorized by both the relevant convention or agreement and the Code.

SECTION 6. Officials to Contact for Obtaining Information

6.1 Requests by the Department for Federal returns and Federal return information should be made to the officials named below:

a. Requests by the Department for Federal return information in magnetic media should be made to the Assistant Commissioner (International), Attn: Disclosure Officer, who will be responsible for coordinating the requests with the IRS National Office;

b. Requests for physical inspection or copying of Federal returns, or requests for audit abstracts and reports pertaining to such returns, showing addresses within the possession should be made to the Director, Internal Revenue Service Center, Philadelphia, PA, Attn: Disclosure Officer, who will be responsible for making the proper arrangements for inspection or copying; and

c. Requests by the head of the Department for Federal returns of taxpayers or Federal return information relating to taxpayers showing addresses outside the possession should be made to the Assistant Commissioner (International), Attn: Disclosure Officer.

6.2 Requests by authorized officers and employees of the IRS for inspection or copying of Possession Returns and Possession Return Information should be made to the Director of the Department of Revenue and Taxation of the Government of Guam.

TAX IMPLEMENTATION AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND THE VIRGIN ISLANDS

The Government of the United States of America and the Government of the Virgin Islands desiring to conclude an Agreement (hereinafter referred to as the "Agreement") for the exchange of information and mutual assistance with respect to taxes in order to prevent the evasion or avoidance of United States or Virgin Islands taxes have agreed as follows:

Article 1

SCOPE OF AGREEMENT

This Agreement is intended to provide for mutual assistance in tax matters, including exchanges of information, for purposes of administering the tax laws of the respective Governments and especially to prevent avoidance or evasion of the Governments' respective fiscal laws. This Agreement is the implementing agreement described in section 1277 of the Tax Reform Act of 1986, Pub. L. No. 99-514. The provisions of this Agreement are subject to provisions of the statutes, regulations, and published procedures of the Contracting Governments.

Upon entry into force, this Agreement replaces any and all prior tax coordination agreements and implementing agreements between the respective Governments.

Article 2

TAXES COVERED

1. This Agreement shall apply to the following taxes imposed by or on behalf of a Contracting Government:
   a) in the case of the United States of America, all taxes imposed by the Code, and
   b) in the case of the Virgin Islands, all taxes imposed by the Code as it applies in the Virgin Islands and all local income taxes imposed by the Virgin Islands as authorized by the Tax Reform Act of 1986.

2. This Agreement shall apply also to any identical or substantially similar taxes imposed after the date of signature of the Agreement in addition to or in place of the existing taxes. The competent authority of each Government shall notify the other of significant changes in laws which may affect the obligations of that Government pursuant to this Agreement.

3. This Agreement shall not apply to the extent that an action or proceeding concerning taxes covered by this Agreement is barred by the applicant Government's statute of limitations.

Article 3

DEFINITIONS

1. In this Agreement, unless otherwise defined:
   a) The term "Code" shall mean the Internal Revenue Code of 1986, as amended, and any predecessor or successor statutes.
   b) The term "competent authority" means:
      (i) in the case of the United States of America, the Secretary of the Treasury or his delegate, and
      (ii) in the case of the Virgin Islands, the Director, Virgin Islands Bureau of Internal Revenue or his delegate.
   c) The term "Contracting Government" means the United States or the Virgin Islands as the context requires.
   d) The term "non-Virgin Islands source income" means income for which the source (under source rules promulgated by the U.S. Internal Revenue Service) is not the Virgin Islands.
   e) The term "person" includes an individual and a partnership, corporation, company, trust, estate, association or other legal entity.
   f) The term "tax" means any tax to which the Agreement applies.
   g) The term "taxpayer" means:
      (i) in the case of the United States, any person subject to the provisions of the Code, and
      (ii) in the case of the Virgin Islands, any person subject to the provisions of the Code as it applies in the Virgin Islands or any local income tax laws imposed by the Virgin Islands.
   h) For purposes of determining the geographical area within which jurisdiction to compel production of information under this Agreement may be exercised, the term "United States" means the United States of America, including Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other United States possession or territory and the territorial waters thereof, but not including the Virgin Islands. Such jurisdiction may be exercised if the information or the custodian of the information is located within the United States.
   i) For purposes of determining the geographical area within which jurisdiction to compel production of information under this Agreement may be exercised, the term "Virgin Islands" means the territorial domain, lands and waters acquired by the United States through cession of the Danish West Indian Islands by the Convention between the United States of America and His Majesty the King of Denmark entered into August 4, 1916, and ratified by the Senate on September 7, 1916 (39 Stat. 1706). Such jurisdiction may be exercised if the information or the custodian of the information is located within the Virgin Islands.

2. Any term not defined in this Agreement, unless the context otherwise requires or the competent authorities agree to a common meaning pursuant to the provisions of Article 5, shall have the meaning which it has under the laws of the Contracting Governments relating to the taxes which are the subject of this Agreement.

Article 4

EXCHANGE OF INFORMATION

1. The competent authorities of the Contracting Governments shall exchange information to administer and enforce the domestic laws of the Contracting Governments concerning taxes covered by this Agreement. Information shall be exchanged to fulfill the purposes of this Agreement without regard to whether the information relates to, or is held by, a taxpayer of a Contracting Government. Procedures for exchange of information are set forth in Appendix A, Limitations on Disclosure of Tax Information, which is incorporated by reference and made a part of this Agreement.

2. The competent authorities of the Contracting Governments shall automatically transmit information to each other for the purposes referred to in paragraph 1. The competent authorities shall determine the items of information to be exchanged pursuant to this paragraph and the procedures to be used to exchange such items of information.
   a) It is intended that the United States shall routinely supply to the Virgin Islands the following information, to the extent available and subject to the tolerances and criteria to be agreed upon by the competent authorities:
      (i) copies of reports of individual, partnership, corporate,

and employment audit changes that disclose information relevant to the Virgin Islands;

(ii) copies of Forms 5335 (Income Subject to Withholding under Chapter 3, Internal Revenue Code as reported on Form 1042S, and any successor forms) that disclose information relevant to the Virgin Islands;

(iii) copies of Schedule K-1 of Form 1065 (U.S. Partnership Return of Income) and audit results, when the partnership return is examined and it appears the examination will affect returns of Virgin Islands taxpayers;

(iv) copies of responses to Forms 4901, 4902, and 4903, Requests for Information About Tax Forms, where such reply indicates that the taxpayer has filed a return with the Virgin Islands;

(v) copies of Forms 1099 and all other information returns where the recipient of income is a Virgin Islands resident or lists a Virgin Islands address or the income is from Virgin Islands sources;

(vi) copies of the W-2 combined wage reporting tape summarizing Forms W-2VI (U.S. Virgin Islands Wage and Tax Statement) and Forms W-3SS (Transmittal of Wage and Tax Statements) filed with the Social Security Administration by employers in the Virgin Islands, which tape is provided annually to the Internal Revenue Service by the Social Security Administration; and

(vii) copies of Forms 8279 (Election to be Treated as a FSC or as a Small FSC) that indicate creation or organization of any Foreign Sales Corporation (as defined in Section 922 of the Code) in the Virgin Islands.

b) It is intended that the Virgin Islands shall routinely supply to the United States the following information, to the extent available and subject to the tolerances and criteria to be agreed upon by the competent authorities:

(i) copies of reports of individual, partnership, corporate, and employment audit changes that disclose information relevant to the United States;

(ii) information about the ownership interests of all corporations subject to Virgin Islands tax with non-Virgin Islands source income that receive a rebate, subsidy or reduction of Virgin Islands taxes;

(iii) information about any taxpayer subject to Virgin Islands tax with non-Virgin Islands source income who files an income tax return with the Virgin Islands claiming for the first time to be a Virgin Islands resident;

(iv) all corporate information about ownership interests in any Foreign Sales Corporation (as defined in section 922 of the Code) established in the Virgin Islands;

(v) such information about corporations electing application of section 936 of the Code as may be agreed upon by the competent authorities; and

(vi) information about any rebates, subsidies or reductions of tax provided by the Virgin Islands for income derived by a Virgin Islands taxpayer from other United States possessions and territories.

c) The competent authorities of the Contracting Governments may agree to expand or limit the information to be routinely exchanged.

3. The competent authority of a Contracting Government shall spontaneously transmit to the competent authority of the other Government information which has come to the attention of the first-mentioned Government and which is likely to be relevant to, and bear significantly on, administration and enforcement of the domestic laws concerning taxes of the second-mentioned Government. The competent authorities shall determine the information to be exchanged pursuant to this paragraph and take such measures and implement such procedures as are necessary to ensure that the information is forwarded to the competent authority of the other Government.

4. The competent authority of the requested Government shall endeavor to provide information upon request by the competent authority of the applicant Government for the administration and enforcement of the domestic laws of the Contracting Governments concerning taxes. If the information available in the tax files of the requested Government is not sufficient to enable compliance with the request, that Government shall take the necessary measures to provide the applicant Government with the information requested. Notwithstanding the foregoing, the United States may exercise its rights under section 7602 et seq. of the Code to obtain information in the Virgin Islands without resorting to the procedures set forth in this Agreement. However, in the event the United States so exercises its rights within the Virgin Islands it shall notify the competent authority of the Virgin Islands prior to taking action or as soon as practicable, unless the competent authorities agree to limit notification with respect to certain classes of cases.

5. The provisions of the preceding paragraphs shall not be construed so as to impose on a Contracting Government the obligation:

a) to supply particular items of information which are not obtainable under the laws of that Government or of the other Contracting Government;

b) to supply information which would disclose any trade, business, industrial, commercial or professional secret or trade process;

c) to supply information, the disclosure of which would be contrary to public policy; or

d) to disclose information if such disclosure would identify a Confidential informant or seriously impair a civil or criminal tax investigation.

6. Any information received by a Contracting Government shall be subject to Appendix A, Limitations on Disclosure of Tax Information.

Article 5

MUTUAL AGREEMENT PROCEDURE AND COSTS

1. The competent authorities of the Contracting Governments shall imple-

ment a program to carry out the purposes of this Agreement. In particular, the competent authorities of the Contracting Governments may amend Appendix A as they deem necessary within the limitations of this Agreement and the Code.

2. The competent authorities of the Contracting Governments shall endeavor to resolve by mutual agreement any difficulties or doubts arising as to the interpretation or application of this Agreement and may communicate directly for this purpose. In particular, the competent authorities may agree to the common meaning of a term and may determine when costs are extraordinary for purposes of this Article.

3. Unless the competent authorities of the Contracting Governments otherwise agree, ordinary costs incurred in providing assistance shall be borne by the requested Government and extraordinary costs incurred in providing assistance shall be borne by the applicant Government. The competent authorities of the Contracting Governments may agree not to charge each other for the costs of reproduction of information routinely exchanged.

Article 6

MUTUAL AGREEMENT PROCEDURE ON POTENTIAL DOUBLE TAXATION

1. When by reason of inconsistent positions taken by the Contracting Governments, a taxpayer is or would be subject to inconsistent tax treatment by the two jurisdictions, the competent authorities of the Contracting Governments shall endeavor to agree upon the facts and circumstances necessary to achieve consistent application of the tax laws of the respective Governments. In particular, but not by way of limitation, the competent authorities of the Contracting Governments may consult together to endeavor to agree:

a) To the same allocation of income under section 482 of the Code;

b) To the same determination of residency of a particular taxpayer; or

c) To the same determination of the source of particular items of income.

Article 7

OTHER APPLICATIONS OF AGREEMENT

1. The Contracting Governments agree that when they have knowledge that a taxpayer has changed residence from one taxing jurisdiction to the other and seeks to change methods of accounting (or to make an initial election), no such change or election shall be permitted until the competent authorities have consulted and determined that such change or election will not lead to the evasion or avoidance of taxes imposed by either of the Contracting Governments. This paragraph includes initial adoption of an accounting method or an election inconsistent with a method or election previously utilized in the other jurisdiction by the taxpayer.

2. The Contracting Governments agree that a Virgin Islands corporation owned or controlled directly or indirectly by a person whose beneficial ownership is undisclosed (such as through bearer shares) shall be treated as owned or controlled to that extent by a U.S. person for purposes of the respective Governments' tax laws.

3. The Contracting Governments agree that for purposes of determining whether a person qualifies as a bona fide resident of the Virgin Islands under section 932 of the Code the definition to be used shall be the definition contained in the then applicable regulations promulgated by the United States.

4. The Contracting Governments agree that the United States may use its regulatory authority over sourcing rules to determine that certain income (such as income from the sale of property) earned by certain former residents of the United States who become residents of the Virgin Islands is U.S.-source income for purposes of section 934(b) of the Code and therefore tax on such income may not be reduced or rebated by the Virgin Islands.

5. Any taxpayer information disclosed to the United States shall become "taxpayer return information" as defined by section 6103(b)(3) of the Code and may be redisclosed only in accordance with provisions of the Code or an applicable treaty.

6. Subject to the restrictions and other provisions of this Agreement and the availability of enforcement resources, the competent authorities will develop a cooperative return selection and examination program with the objective of avoiding unnecessary duplication of examination coverage.

7. Subject to the restrictions and other provisions of this Agreement, the Contracting Governments will develop a simultaneous examination program for both civil and criminal investigations.

8. To the extent permitted by law and subject to the availability of enforcement resources, the United States will assist in collecting taxes owed to the Virgin Islands by Virgin Islands taxpayers present in the United States. The competent authorities will discuss appropriate procedures for facilitating such collection. Any taxes collected shall be remitted to the Virgin Islands, less the reasonable expenses incurred in collection.

9. In addition to the exchange of tax and other information, the competent authorities will, to the extent feasible, extend to each other assistance in other tax administration matters. This may include such activities as taxpayer assistance, stocking tax forms for the public, training of personnel, preparing special statistical studies and compilations of data, development and improvement of tax administration systems and procedures, as well as such other activities as may improve tax administration.

Article 8

ENTRY INTO FORCE

This Agreement shall enter into force upon signature by the duly authorized representatives of the Contracting Governments.

Article 9

AMENDMENT AND TERMINATION

1. This Agreement may be modified or amended by mutual consent of the Contracting Governments.

2. This agreement shall remain in force until terminated by one of the Contracting Governments. Either Contracting Government may terminate the Agreement at any time after the Agreement enters into force provided that at least 6 months prior notice of termination has been given.

3. Any unauthorized use or disclosure of Federal returns or Federal return information as defined by section 6103(b)(1) and (2) of the Code furnished pursuant to this Agreement or inadequate procedures for safeguarding the confidentiality of such returns and return information, constitutes grounds for immediate termination of this Agreement and the exchange of information thereunder, subject to the rights of administrative appeal as provided by regulations prescribed by section 6103(p)(7) of the Code.

DONE at Washington, D.C., in duplicate, this 24th day of February, 1987.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA

J. Roger Mentz

Assistant Secretary (Tax Policy)
Department of Treasury

FOR THE GOVERNMENT OF THE VIRGIN ISLANDS OF THE UNITED STATES

Alexander A. Farrelly

Governor of the Virgin Islands

Anthony P. Olive

Director, Bureau of Internal Revenue of the Virgin Islands

APPENDIX A
LIMITATIONS ON DISCLOSURE OF TAX INFORMATION

Section 1. Definitions

For purposes of this appendix, the following definitions apply:

1.1 Bureau. The term "Bureau" means the V.I. Bureau of Internal Revenue and any successor agency.

1.2 IRS. The term "IRS" means the Internal Revenue Service, U.S. Department of Treasury.

1.3 Possession Audit Agency. The term "Possession Audit Agency" means the agency, body or commission which is charged under the laws of the Virgin Islands with the responsibility of auditing Possession revenues and programs.

1.4 Possession. The term "Possession" means the Virgin Islands of the United States.

1.5 Bureau Representative. The term "Bureau Representative" means a Bureau officer or employee designated in writing by the head of the Bureau, to the Assistant Commissioner (International) at Washington, D.C. and the Service Center Director at Philadelphia, PA, as an individual who is to inspect or receive Federal returns or Federal return information on behalf of the Bureau as provided by section 6103(d) of the Code, but only so long as the duties and employment of such officer or employee require access to Federal returns and Federal return information for purposes of Possession tax administration.

1.6 IRS Representative. The term "IRS Representative" means an officer or employee of the IRS who has been designated in writing to the head of the Bureau by the Assistant Commissioner (International) at Washington, D.C., or the Service Center Director at Philadelphia, PA, as an individual who is to inspect or receive Possession returns or Possession return information on behalf of the IRS, but only so long as the duties and employment of such officer or employee require access to Possession returns and return information for the purpose of Federal tax administration.

1.7 Federal Return. The term "Federal Return" is defined in the same manner as provided in section 6103(b)(1) of the Code.

1.8 Federal Return Information. The term "Federal Return Information" is defined in the same manner as provided in section 6103(b)(2) of the Code. However, "Federal Return Information" does not include information in the hands of the Possession which it obtained wholly from sources independent from the IRS.

1.9 Possession Return. The term "Possession Return" is defined in the same manner as provided in section 6103(b)(1) of the Code as it applies in the Virgin Islands.

1.10 Possession Return Information. The term "Possession Return Information" means a taxpayer's identity, the nature, source, or amount of his/her income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability, tax withheld, deficiencies, overassessments, or tax payments, whether the taxpayer's Possession return was, is being, or will be examined or subject to other investigation or processing, or any other data received by, recorded by, prepared by, furnished to, or collected by the Bureau with respect to a Possession return or with respect to determination of the existence, or possible existence, of liability (or the amount thereof) of any person under the internal revenue laws, or related statutes, of the Possession, for any tax, penalty, interest, fine, forfeiture, or other imposition, or offense.

1.11 Inspection. The term "Inspection" means any examination of a return or return information.

1.12 Disclosure. The term "Disclosure" means the making known to any person in any manner whatever a return or return information.

1.13 Possession Tax Administration. The term "Possession Tax Administration"

(a) means—
  (i) the administration, management, conduct, direction, and supervision of the execution and application of the revenue laws, or related statutes of the Possession, and
  (ii) the development and formulation of Possession tax policy relating to existing or proposed internal revenue laws, or related statutes, of the Possession; and

(b) includes assessment, collection, enforcement, litigation, and statistical-gathering functions under such laws or statutes.

1.14 Code. The term "Code" means the Internal Revenue Code of 1986, as amended, and any predecessor or successor statutes.

SECTION 2. Disclosure of Federal Returns and Federal Return Information

2.1 Pursuant to the laws of the Possession, the Bureau is charged with the responsibility for the administration of Possession taxes imposed on income, inheritance, gifts, gross receipts from the conduct of a trade or business, real property and excise taxes on imports used in the conduct of a trade or business. Federal returns, and Federal return information (whether originals, paper copy, photocopy, microfilm, magnetic media, or any other form) received from the IRS will be used for the purpose of, and only to the extent necessary in, Possession tax administration.

2.2 This Agreement and Appendix constitute the requisite authorization pursuant to section 6103(d)(1) of the Code for the IRS to disclose to, and permit inspection by, a Bureau Representative of Federal returns and Federal return information relating to taxes imposed by chapters one, two, six, eleven, twelve, twenty-one, twenty-three, twenty-four, thirty-one, thirty-two, forty-four, forty-five, fifty-one, fifty-two, and subchapter D of chapter thirty-six of the Code.

2.3 Upon the occurrence of any change in employment, duties, or other relevant matters affecting a Bureau Representative's right to access to Federal returns and Federal return information or status as a Bureau Representative, the head of the Bureau shall promptly advise in writing the Assistant Commissioner (International) at Washington, D.C. and the Service Center Director at Philadelphia, PA, that such individual is no longer a Bureau Representative.

2.4 A Bureau Representative to whom a Federal return or Federal return information has been disclosed, may thereafter disclose such return or return information:

(a) to another employee of the Bureau for the purpose of and only to the extent necessary in the administration of the Possession tax laws for which the Bureau is responsible;

(b) to a person described in section 6103(n) of the Code or to any officer or employee of such person, solely for the purpose of Possession tax administration and in a manner consistent with applicable regulations, published rules or procedures, or written communications;

(c) to a legal representative of the Bureau personally and directly engaged in, and solely for use in, preparation for a civil or criminal proceeding (or investigation which may result in a proceeding) before a Possession administration body, grand jury, or court in a matter involving Possession tax administration, if the returns and return information satisfy one or more of the criteria established in section 6103(h)(4)(A), (B) or (C); and

(d) to an officer or employee of the Possession audit agency for the purpose of and only to the extent necessary in making an audit of the Bureau.

2.5 A Federal return or Federal return information may be disclosed in a judicial or administrative proceeding pertaining to Possession tax administration, but only if the criteria established in section 6103(h)(4)(A), (B) or (C) of the Code are met.

2.6 Notwithstanding any other provision of this section, the IRS will not disclose a Federal return or Federal return information under this section if such disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax investigation. The Bureau agrees that neither it nor its legal representative will make any further use or disclosure of a Federal return or Federal return information disclosed to a Bureau Representative by the IRS if the IRS notifies the head of the Bureau in writing that such further use or disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax investigation. The Bureau further agrees that prior to the disclosure of any Federal return or Federal return information in a Possession judicial proceeding or to any party other than the taxpayer or his/her designee in a Possession administrative proceeding if the return or return information satisfies one or more of the criteria established in section 6103(h)(4)(A), (B) or (C) of the Code, the head or legal representative of the Bureau will notify in writing the Service Center Director or Assistant Commissioner (International), from whom the return or return information was received, of the intention to make such disclosure. No officer, employee or legal representative shall disclose a Federal return or Federal return information in a Possession judicial or administrative proceeding if the Service Center Director or Assistant Commissioner (International) or their delegate, within 30 days following receipt of such written notice, informs the head or legal representative of the Bureau that such disclosure would identify a confidential informant or seriously impair a Federal civil or criminal tax investigation.

2.7 Additionally, the Bureau agrees that it will notify the Assistant Commissioner (International) when, during an audit of the Bureau by the Possession Audit Agency, Federal returns and Federal return information are disclosed to the Possession Audit Agency and such information is made part of the Possession Audit Agency's workpapers.

SECTION 3. Disclosure of Possession Returns and Possession Return Information

3.1 This Agreement and Appendix constitute the requisite authorization for the Bureau to disclose to, and permit inspection by, IRS Representative of Possession returns and Possession return information for the purpose of, and only to the extent necessary in the administration of the internal revenue laws, or related statutes, of the United States. Any Possession returns and Possession return information so disclosed to, or inspected by, an IRS Representative become, in the hands of the IRS, ''taxpayer return information'' as defined by section 6103(b)(3) of the Code and may be redisclosed by the IRS only in accordance with provisions of the Code or an applicable treaty.

SECTION 4. Safeguards and Other Requirements

4.1 As an express condition for the inspection and disclosure of Federal returns and Federal return information, the Bureau agrees to comply with the safeguards and requirements prescribed by section 6103(p)(4)) of the Code and any implementation of such safeguards and requirements as may be provided by regulations and published procedures including:

(a) furnishing an annual report to the IRS describing the procedures established and utilized by the Bureau for ensuring the confidentiality of such returns and return information;

(b) permitting the IRS to review the extent to which the Bureau is complying with the requirements of this paragraph; and

(c) informing in writing all Bureau Representatives and other persons to or by whom disclosure or inspection of Federal returns or Federal return information is authorized of the criminal penalties and civil liability provided by sections 7213 and 7431 of the Code for a disclosure of such returns and return information which is unauthorized by the Code.

4.2 As an express condition for the inspection and disclosure of Possession returns and Possession return information, the IRS agrees to comply with the safeguards and requirements prescribed by section 6103(p)(4) of the Code and any implementation of such safeguards and requirements as may be provided by regulations and published procedures.

4.3 Processing of Federal returns and Federal return information received by the Bureau from the IRS in the form of microfilms, photo-impressions, magnetic media or other format (including reformatting or reproduction, or conversion to magnetic media, punch cards, or hard copy printout) and transmission and storage of such Federal returns or Federal return information by or on behalf of the Bureau may be performed by Bureau owned and/or operated computer facilities, facilities shared by the Bureau with other Possession agencies, or by any other person described in section 6103(n) of the Code. In those cases where such facilities used by the Bureau are shared with other Possession agencies or operated by any other person described in section 6103(n) of the Code, the Bureau will insure the confidentiality of the Federal returns and Federal return information provided to such shared facility or person. As part of this responsibility, the terms of any contract or agreement between the Bureau and a shared computer facility or other person to whom Federal returns or Federal return information is or may be disclosed for a purpose described in this subsection, will provide, or will be amended to provide, that such person, and officers and employees of the person, will comply with the applicable safeguard conditions contained in regulations, published rules and procedures, or written communications.

4.4 Because some taxpayers may be unaware that Bureau tax officials are authorized under Federal law to obtain Federal returns and Federal return information for Possession tax administration purposes, the Bureau will publicize, in a manner satisfactory to the IRS, that such returns or return information were obtained pursuant to specific authority granted by the Code. Similar publicity will be provided by the IRS for Possession tax information furnished to the IRS pursuant to Possession law.

SECTION 5. Limitations

5.1 Pursuant to the provisions of section 6103(p)(2) of the Code, and of Possession law, if any, charges for furnishing returns and return information shall be governed by Article 5, paragraph 3 of the Agreement.

5.2 Under no circumstances will the Bureau permit any Federal return or Federal return information to be inspected by, or disclosed to an individual who is the chief executive officer of the Possession or any person other than one described in section 2 of this Appendix.

5.3 Notwithstanding any other provision of this Appendix, the IRS will not disclose or make known in any manner whatever to any person other than one described in section 2 of this Appendix—

(a) any original, copy, or abstract of any return, payment, or registration made pursuant to chapter 35 of the Code (relating to taxes on wagering);

(b) any record required for making any such return, payment, or registration made or required pursuant to chapter 35 which the IRS is permitted by the taxpayer to examine or which is produced pursuant to section 7602 of the Code (relating to the examination of books and witnesses); or

(c) any information obtained by the exploitation of any such return, payment, registration, or record made or required pursuant to chapter 35.

5.4 Notwithstanding any other provision of this Agreement or Appendix, the Internal Revenue Service will disclose or make known in any manner to any person described in section 2 of this Appendix taxpayer information which was obtained pursuant to a tax convention or exchange of information agreement between the United States and a foreign government only if such disclosure is authorized by both the relevant convention or agreement and the Code.

SECTION 6. Officials to Contact for Obtaining Information

6.1 Requests by the Bureau for Federal returns and Federal return information should be made to the officials named below:

(a) Requests by the Bureau for Federal return information in magnetic media should be made to the Assistant Commissioner (International), who will be responsible for coordinating the requests with the IRS National Office;

(b) Requests for physical inspection or copying of Federal returns, or requests for audit abstracts and reports pertaining to such returns, showing addresses within the possession should be made to the Director, Internal Revenue Service Center, Philadelphia, PA, who will be responsible for making the proper arrangements for inspection or copying; and

(c) Requests by the head of the Bureau for Federal returns of taxpayers or Federal return information relating to taxpayers showing addresses outside the possession should be made to the Assistant Commissioner (International).

6.2 Requests by authorized officers and employees of the IRS for inspection or copying of possession returns and possession return information should be made to the Director, Virgin Islands Bureau of Internal Revenue.

United States-United Kingdom Income Tax Convention

1980-1 C.B. 394

(Also income tax conventions between the United States and Austria, Belgium, Denmark, Egypt, West Germany, Finland, France, Greece, Hungary, Iceland, Ireland, Italy, Jamaica, Japan, Korea, Luxembourg, Netherlands, Norway, Pakistan, Philippines, Poland, Romania, Sweden, Switzerland, Trinidad and Tobago, and the Union of Soviet Socialist Republics.)

Teachers - Researchers. The first day of the period of exemption is the date of the individuals last entry into the U.S. before beginning the teaching or research services.

Rev. Rul. 89-5

ISSUE

What is the first day of a period of tax exemption under Article 20(1) of the United States-United Kingdom Income Tax Convention, 1980-1 C.B. 394 (the "Convention"), under the circumstances described below?

FACTS

A, an individual, is a citizen of the United Kingdom. During all of 1986, *A* was a resident of the United Kingdom as defined in Article 4 of the Convention. On August 1, 1986, *A* arrived in the United States for the purpose of taking a personal vacation. On August 25, 1986, *A* left the United States and entered a foreign country. On August 31, 1986, *A* entered the United States for the purpose of teaching at a recognized educational institution within the United States. *A* began teaching on September 1, 1986. During the period from August 1, 1986, through August 31, 1986, *A* derived no income from any source within the United States. *A* was not a resident of the United States for United States tax purposes at any time during 1986. Before August 31, 1986, *A* had not claimed any benefit under the Convention.

LAW AND ANALYSIS

Article 20(1) of the Convention provides a two-year period of tax exemption for certain income earned by an individual who visits the United States for two years or less for the purpose of teaching or engaging in research at a recognized educational institution, if the individual was a United Kingdom resident immediately before the visit. The period of exemption begins on the date the individual first visits the United

States for the purpose of teaching or engaging in research. For *A*, that date was August 31, 1986, and A's period of exemption begins on that date if *A* is otherwise qualified to claim the treaty benefit. The period of exemption is not affected by earlier visits to the United States for other purposes, such as personal vacations, during which no treaty benefits were claimed.

HOLDING

For an individual otherwise eligible for exemption under Article 20(1) of the Convention, the first day of the period of exemption is the date of the individual's last entry into the United States before beginning the teaching or research services, provided that the individual had claimed no benefits under the Convention before that date.

Tax treaties with the following countries contain provisions that for purposes of this revenue ruling are similar to Article 20(1) of the Convention: Austria (Article XII); Belgium (Article 20); Denmark (Article XIV); Egypt (Article 22); Federal Republic of Germany (Article XII); Finland (Article 20); France (Article 17); Greece (Article XII); Hungary (Article 17); Iceland (Article 21); Ireland (Article XVIII); Italy (Article 20); Jamaica (Article 22); Japan (Article 19); Korea (Article 20); Luxembourg (Article XIII); Netherlands (Article XVII); Norway (Article 15); Pakistan (Article XII); Philippines (Article 21); Poland (Article 17); Romania (Article 19); Sweden (Article XII); Switzerland (Article XII); Trinidad and Tobago (Article 18); and the Union of Soviet Socialist Republics (Article VI). The holding of this revenue ruling applies to individuals claiming a teacher's or researcher's exemption under these treaties.

Public Law 100–360
100th Congress[1]

An Act

To amend title XVIII of the Social Security Act to provide protection against catastrophic medical expenses under the medicare program, and for other purposes.

July 1, 1988
[H.R. 2470]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Medicare Catastrophic Coverage Act of 1988.
Aged persons.
Insurance.
Health and medical care.
Health care facilities.
42 USC 1305 note.

SECTION 1. SHORT TITLE; REFERENCES IN ACT; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Medicare Catastrophic Coverage Act of 1988".

(b) AMENDMENTS TO THE SOCIAL SECURITY ACT.—Except as otherwise specifically provided, whenever in this Act an amendment is expressed in terms of an amendment to or repeal of a section or other provision, the reference shall be considered to be made to that section or other provision of the Social Security Act.

(c) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

[1]Conference Report 100-661, page 490.

TITLE I—PROVISIONS RELATING TO PART A OF MEDICARE PROGRAM AND SUPPLEMENTAL MEDICARE PREMIUM

Subtitle A—Expansion of Medicare Part A Benefits

SEC. 101. EXPANDING SCOPE OF BENEFITS UNDER PART A.

Section 1812 (42 U.S.C. 1395d) is amended—

(1) in subsection (a), by striking paragraphs (1) through (4) and inserting the following:

"(1) inpatient hospital services;

"(2) extended care services for up to 150 days during any calendar year;

"(3) home health services; and

"(4) in lieu of certain other benefits, hospice care with respect to the individual during up to two periods of 90 days each, a subsequent period of 30 days, and a subsequent extension period with respect to which the individual makes an election under subsection (d)(1).";

(2) by amending subsection (b) to read as follows:

"(b) Payment under this part for services furnished to an individual may not be made for—

"(1) extended care services furnished to the individual during a calendar year after such services have been furnished to the individual for 150 days during that year, or

"(2) inpatient psychiatric hospital services furnished to the individual after such services have been furnished to the individual for a total of 190 days during his lifetime.";

(3) by amending subsection (c) to read as follows:

"(c)(1) If an individual is an inpatient of a psychiatric hospital on the first day of medicare entitlement (as defined in paragraph (4)(A)) payment may not be made under this part during the period described in paragraph (2) for inpatient mental health services (as defined in paragraph (4)(B)) in excess of the number of days specified in paragraph (3).

"(2) The period described in this paragraph—

"(A) begins on the first day of medicare entitlement, and

"(B) ends at the end of the first period of 60 consecutive days thereafter on each of which the individual is not receiving inpatient mental health services.

"(3) The number of days specified in this paragraph for an individual is 150 days less the number of days (during the 150-day period immediately before the first day of medicare entitlement) during which the individual was an inpatient of a psychiatric hospital.

"(4) In this subsection:

"(A) The term 'first day of medicare entitlement' means, for an individual, the first day of the first month for which the individual is entitled to benefits under this part.

"(B) The term 'inpatient mental health services' means—

"(i) inpatient psychiatric hospital services, and

"(ii) inpatient hospital services for an individual who is an inpatient primarily for the diagnosis or treatment of mental illness.";

(4) in subsection (d)—

(A) in paragraph (1), by striking "and one subsequent period of 30 days" and inserting ", a subsequent period of 30 days, and a subsequent extension period", and

(B) in paragraph (2)(B), by inserting "or a subsequent extension period" after "30-day period";

(5) in subsection (e), by striking "post-hospital"; and

(6) by striking subsections (f) and (g).

SEC. 102. DEDUCTIBLES AND COINSURANCE UNDER PART A.

Section 1813 (42 U.S.C. 1395e) is amended—

(1) by amending paragraphs (1) through (3) of subsection (a) to read as follows:

"(1)(A) Subject to subparagraph (C), the amount payable for inpatient hospital services furnished to an individual during the individual's first period of hospitalization to begin during a calendar year shall be reduced by a deduction equal to the inpatient hospital deductible for that year or, if less, the charges imposed with respect to such individual for such services, except that, if the customary charges for such services are greater than the charges so imposed, such customary charges shall be considered to be the charges so imposed.

"(B) For purposes of subparagraph (A), the term 'period of hospitalization' means, with respect to an individual, the period beginning on the first day the individual is furnished inpatient hospital services and ending on the individual's date of discharge (as established by the Secretary for purposes of section 1886) from the hospital (or, in the case of a transfer, hospitals) involved.

"(C) In the case of an individual with respect to whom—

"(i) a period of hospitalization begins during December of any calendar year,

"(ii) an inpatient hospital deductible is imposed with respect to such period of hospitalization, and

"(iii) a period of hospitalization begins during January of the following calendar year,

no inpatient hospital deductible shall be imposed with respect to a period of hospitalization beginning in January of such following year (but such period of hospitalization shall not be taken into account in determining the application of an inpatient hospital deductible for any period of hospitalization beginning for such individual after January 31 of such following year).

Contracts.

"(D) If the Secretary terminates a contract under section 1876 during a year, no inpatient hospital deductible shall be imposed during the remainder of the year in the case of an individual who can demonstrate to the satisfaction of the Secretary that, during a period of enrollment with the organization in the year, the individual was admitted to a hospital for inpatient hospital services for which the organization was obligated to make payment under such section.

"(2)(A) The amount payable to any provider of services under this part for services furnished an individual shall be further reduced by a deduction equal to the expenses incurred for the first three pints of whole blood (or equivalent quantities of packed red blood cells, as defined under regulations) furnished to the individual during each calendar year, except that such deductible for such blood shall in accordance with regulations be appropriately reduced to the extent that there has been a replacement of such blood (or equivalent quantities of packed red blood cells, as so defined); and for such purposes blood (or equivalent quantities of packed red blood cells, as so defined) furnished such individual shall be deemed replaced when the institution or other person furnishing such blood (or such equivalent quantities of packed red blood cells, as so defined) is given one pint of blood for each pint of blood (or equivalent quantities of packed red blood cells, as so defined) furnished such individual with respect to which a deduction is made under this sentence.

"(B) The deductible under subparagraph (A) for blood or blood cells furnished an individual in a year shall be reduced to the extent that a deductible has been imposed under section 1833(b) to blood or blood cells furnished the individual in the year.

"(3)(A) The amount payable for extended care services furnished an individual in any calendar year shall be reduced by the coinsurance amount (promulgated under subparagraph (C) for that year) for each day (before the 9th day) on which he is furnished such services during the year.

"(B) Before September 1 of each year (beginning with 1988), the Secretary shall estimate the national average per diem reasonable cost recognized under this title for extended care services which will be furnished in the succeeding calendar year.

"(C) The Secretary shall, in September of each year (beginning with 1988) promulgate the coinsurance amount which shall apply to extended care services furnished in the succeeding year. Such amount shall be equal to 20 percent of the national average per diem cost estimated under subparagraph (B) in that year. If the coinsurance amount determined under the preceding sentence is not a multiple of 50 cents, it shall be rounded to the nearest multiple of 50 cents (or, if it is a multiple of 25 cents but not a multiple of 50 cents, to the next higher multiple of 50 cents)."; and

(2) by striking paragraph (3) of subsection (b).

SEC. 103. PART A PREMIUM FOR MEDICARE BUY-INS.

Subsection (d) of section 1818 (42 U.S.C. 1395i) is amended to read as follows: 42 USC 1395i-2.

"(d)(1) The Secretary shall, during September of each year (beginning with 1988), estimate the monthly actuarial rate for months in the succeeding year. Such actuarial rate shall be one-twelfth of the amount which the Secretary estimates (on an average, per capita basis) is equal to 100 percent of the benefits and administrative costs which will be payable from the Federal Hospital Insurance Trust Fund for services performed and related administrative costs incurred in the succeeding year with respect to individuals age 65 and over who will be entitled to benefits under this part during that entire year.

"(2) The Secretary shall, during September of each year determine and promulgate the dollar amount which shall be applicable for premiums for months occurring in the following year. Such amount shall be equal to the monthly actuarial rate determined under paragraph (1) for that following year. Any amount determined under the preceding sentence which is not a multiple of $1 shall be rounded to the nearest multiple of $1 (or, if it is a multiple of 50 cents but not a multiple of $1, to the next higher multiple of $1).

"(3) Whenever the Secretary promulgates the dollar amount which shall be applicable as the monthly premium under this section, he shall, at the time such promulgation is announced, issue a public statement setting forth the actuarial assumptions and bases employed by him in arriving at the amount of an adequate actuarial rate for individuals 65 and older as provided in paragraph (1).". Public information.

SEC. 104. EFFECTIVE DATES, TRANSITION, AND CONFORMING AMENDMENTS.

(a) Effective Date.— 42 USC 1395d note.

(1) In general.—Except as provided in paragraphs (2) and (3), the amendments made by this subtitle shall take effect on January 1, 1989, and shall apply—

(A) to the inpatient hospital deductible for 1989 and succeeding years,

(B) to care and services furnished on or after January 1, 1989,

(C) to premiums for January 1989 and succeeding months, and

(D) to blood or blood cells furnished on or after January 1, 1989.

(2) ELIMINATION OF POST-HOSPITAL REQUIREMENT FOR EXTENDED CARE SERVICES.—The amendments made by this subtitle, insofar as they eliminate the requirement (under section 1812(a)(2) of the Social Security Act) that extended care services are only covered under title XVIII of such Act if they are post-hospital extended care services, shall only apply to extended care services furnished pursuant to an admission to a skilled nursing facility occurring on or after January 1, 1989.

42 USC 1395e note.

(b) HOLD HARMLESS PROVISIONS.—In the case of an individual for whom a spell of illness (as defined in section 1861(a) of the Social Security Act, as in effect on December 31, 1988) began before January 1, 1989, and had not yet ended as of such date—

(1) the amendment made to section 1813(a)(1) of such Act shall not apply to services furnished during that spell of illness during 1989 or 1990, and

(2) the amount of any deductible under section 1813(a)(2) of such Act (as amended by this subtitle) shall be reduced during that spell of illness during 1989 or 1990 to the extent the deductible under such section was applied during the spell of illness.

42 USC 1395ww note.

(c) ADJUSTMENTS IN PAYMENTS FOR INPATIENT HOSPITAL SERVICES.—

(1) PPS HOSPITALS.—In adjusting DRG prospective payment rates under section 1886(d) of the Social Security Act, outlier cutoff points under section 1886(d)(5)(A) of such Act, and weighting factors under section 1886(d)(4) of such Act for discharges occurring on or after October 1, 1988, the Secretary of Health and Human Services shall, to the extent appropriate, take into consideration the reductions in payments to hospitals by medicare beneficiaries resulting from the elimination of a day limitation on medicare inpatient hospital services (under the amendments made by section 101).

(2) PPS-EXEMPT HOSPITALS.—In adjusting target amounts under section 1886(b)(3) of the Social Security Act for cost reporting periods beginning on or after October 1, 1988, the Secretary shall, on a hospital-specific basis, take into consideration the reductions in payments to hospitals by medicare beneficiaries resulting from the elimination of a day limitation on medicare inpatient hospital services (under the amendments made by section 101).

(d) MISCELLANEOUS CONFORMING AMENDMENTS.—

(1) Section 1811 (42 U.S.C. 1395c) is amended by striking "hospital, related post-hospital" and inserting "inpatient hospital services, extended care services".

(2) Section 1814 (42 U.S.C. 1395f) is amended—

(A) in paragraphs (2)(B) and (6) of subsection (a), by striking "post-hospital" each place it appears;

(B) in subsection (a)(2)(B), by striking ", for any of the conditions" and all that follows up to the semicolon;

(C) in subsection (a)(7)(A)—

(i) by striking "and" at the end of clause (i),

(ii) by striking the semicolon at the end of clause (ii) and inserting ", and", and

(iii) by adding at the end the following new clause: "(iii) in a subsequent extension period, the medical director or physician described in clause (i)(II) recertifies at the beginning of the period that the individual is terminally ill;"; and

(D) in subsection (d)(3)—

(i) by striking "60 percent" and "80 percent" and inserting "100 percent" both places, and

(ii) by striking "two-thirds of".

(3) Section 1832(b) (42 U.S.C. 1395k(b)) is amended by striking " 'spell of illness'," and the comma before "and".

(4) Section 1861 (42 U.S.C. 1395x) is amended—

(A) by striking subsection (a);

(B) in subsection (e)—

(i) in the matter before paragraph (1), by striking "paragraph (7) of this subsection, and subsection (i) of this section" and inserting "and paragraph (7) of this subsection",

(ii) in the third sentence, by striking "section 1814(f)(2), and subsection (i) of this section" and inserting "and section 1814(f)(2)",

(iii) in the fifth sentence, by striking ", except for purposes of subsection (a)(2),", and

(iv) by striking the second sentence;

(C) by striking subsection (i);

(D) in subsections (v)(1)(G)(i), (v)(2)(A), and (v)(3), by striking "post-hospital" each place it appears; and

(E) in subsection (y)—

(i) by striking "Post-Hospital" in the heading and by striking "post-hospital" each place it appears,

(ii) in paragraph (1), by striking "(except for purposes of subsection (a)(2))",

(iii) in paragraphs (2) and (3), by striking "spell of illness" and "spell" each place either appears and inserting "year",

(iv) in paragraph (2)(A)(i), by striking "30 days" and inserting "45 days",

(v) in paragraph (3), by striking "one-eighth" and all that follows through "31st day" and inserting "the coinsurance amount established under section 1813(a)(3)(C) for each day before the 46th day", and

(vi) by striking paragraph (4).

(5) Section 1866(d) (42 U.S.C. 1395cc(d)) is amended by striking "post-hospital" each place it appears.

(6) Subsections (d)(1) and (f) of section 1883 (42 U.S.C. 1395tt) are amended by striking "post-hospital" each place it appears.

Subtitle B—Supplemental Medicare Premium

SEC. 111. IMPOSITION OF SUPPLEMENTAL MEDICARE PREMIUM.

(a) General Rule.—Subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to determination of tax liability) is amended by adding at the end thereof the following new part:

Taxes.

"PART VIII—SUPPLEMENTAL MEDICARE PREMIUM

26 USC 59B.

"SEC. 59B. SUPPLEMENTAL MEDICARE PREMIUM.

"(a) IMPOSITION OF PREMIUM.—In the case of an individual to whom this section applies, there is hereby imposed (in addition to any other amount imposed by this subtitle) for each taxable year a supplemental premium equal to the annual premium for such year determined under subsection (c).

"(b) INDIVIDUALS SUBJECT TO PREMIUM.—This section shall apply to an individual for any taxable year if—

"(1) such individual is a medicare-eligible individual for more than 6 full months beginning in the taxable year, and

"(2) such individual's adjusted income tax liability for the taxable year equals or exceeds $150.

"(c) DETERMINATION OF AMOUNT OF SUPPLEMENTAL PREMIUM.—For purposes of this section—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, the annual premium determined under this subsection with respect to any individual for any taxable year shall be equal to the product of—

"(A) the supplemental premium rate determined under subsection (d) or (e) (whichever applies) for the taxable year, multiplied by

"(B) the amount determined by dividing—

"(i) the individual's adjusted income tax liability for the taxable year, by

"(ii) $150.

"(2) LIMITATION ON ANNUAL PREMIUM.—

"(A) YEARS BEFORE 1994.—In the case of any taxable year beginning before 1994, the annual premium determined under this subsection with respect to any individual shall not exceed the limitation determined under the following table:

"In the case of taxable years beginning in:	The limitation is:
1989	$800
1990	850
1991	900
1992	950
1993	1,050.

"(B) YEARS AFTER 1993.—In the case of any taxable year beginning in a calendar year after 1993, the annual premium determined under this subsection with respect to any individual shall not exceed—

"(i) the limitation which would be in effect under this paragraph for taxable years beginning in the preceding calendar year without regard to the last sentence of this subparagraph, increased by

"(ii) the percentage (if any) by which—

"(I) the medicare-part B value for the 2nd preceding calendar year, exceeds

"(II) such value for the 3rd preceding calendar year.

If the limitation determined under the preceding sentence is not a multiple of $50, such limitation shall be rounded to the nearest multiple of $50.

"(C) MEDICARE-PART B VALUE.—

"(i) IN GENERAL.—For purposes of subparagraph (B), the term 'medicare-part B value' means, with respect to any calendar year, an amount equal to the excess of—

"(I) the average per capita part B outlays for the year, over

"(II) 12 times the monthly premium for months in such calendar year established under section 1839 of such Act (without regard to subsections (b), (f), (g)(4), and (g)(5) thereof).

"(ii) AVERAGE PER CAPITA PART B OUTLAYS.—For purposes of clause (i), the term 'average per capita part B outlays' means, with respect to a calendar year—

"(I) the outlays under part B of title XVIII of the Social Security Act for the year, divided by

"(II) the average number of individuals covered under such part during the year.

"(iii) SPECIAL RULE FOR COVERED OUTPATIENT DRUGS.—In applying the limitation under subparagraph (B) with respect to taxable years beginning in any calendar year before 1998, for purposes of this subparagraph—

"(I) the term 'outlays' does not include outlays for covered outpatient drugs (as defined in section 1861(t)(2) of the Social Security Act), and

"(II) the monthly premium shall be computed under clause (i)(II) excluding premiums under section 1839(g) of such Act attributable to the prescription drug monthly premium.

"(3) TABLES.—The annual premium shall be determined under tables which shall be prescribed by the Secretary. Such tables shall be based on the foregoing provisions of this subsection; except that such tables may have adjusted income tax liability brackets of less than $150.

"(d) DETERMINATION OF SUPPLEMENTAL PREMIUM RATE FOR YEARS BEFORE 1994.—In the case of any taxable year beginning before 1994, the supplemental premium rate determined under this subsection shall be the sum of the catastrophic coverage premium rate and the prescription drug premium rate determined under the following table:

"In the case of any taxable year beginning in:	The catastrophic coverage premium rate is:	The prescription drug premium rate is:
1989	$22.50	0
1990	27.14	$10.36
1991	30.17	8.83
1992	30.55	9.95
1993	29.55	12.45.

"(e) SUPPLEMENTAL PREMIUM RATE FOR YEARS AFTER 1993.—

"(1) IN GENERAL.—In the case of any taxable year beginning in a calendar year after 1993, except as provided in paragraph (2), the supplemental premium rate determined under this subsection shall be the sum of—

"(A) the catastrophic coverage premium rate (which would be in effect under this section for taxable years beginning in the preceding calendar year if paragraph (2) did not apply to any preceding calendar year) adjusted by the percentage determined under paragraph (3) for the calendar year in which the taxable year begins, and

"(B) the prescription drug premium rate (which would be in effect under this section for taxable years beginning in the preceding calendar year if paragraph (2) did not apply to any preceding calendar year) adjusted by the percentage determined under paragraph (4) for the calendar year in which the taxable year begins.

"(2) SUPPLEMENTAL PREMIUM RATE CANNOT GO DOWN, AND CANNOT GO UP BY MORE THAN $1.50.—

"(A) IN GENERAL.—In no event shall the supplemental premium rate determined under this subsection for any taxable year beginning in a calendar year after 1993—

"(i) be less than, or

"(ii) exceed by more than $1.50,

the supplemental premium rate in effect under this section for taxable years beginning in the preceding calendar year.

"(B) DETERMINATION OF COMPONENT RATES WHERE SUBPARAGRAPH (A) APPLIES.—If subparagraph (A) affects the supplemental premium rate determined under this subsection for taxable years beginning in any calendar year, the supplemental premium rate determined after the application of subparagraph (A) shall be allocated between the catastrophic coverage premium rate and the prescription drug premium rate on the basis of the respective amounts of such rates without regard to the application of subparagraph (A).

"(3) PERCENTAGE ADJUSTMENT FOR CATASTROPHIC COVERAGE PREMIUM RATE.—

"(A) IN GENERAL.—The percentage determined under this paragraph for any calendar year shall be the sum of—

"(i) the outlay-premium percentage, and

"(ii) the reserve account percentage.

For purposes of the preceding sentence, negative percentages shall be taken into account as negatives.

"(B) OUTLAY-PREMIUM PERCENTAGE.—

"(i) IN GENERAL.—Except as otherwise provided in this subparagraph, the outlay-premium percentage for any calendar year is—

"(I) the percentage by which the per capita catastrophic outlays in the 2nd preceding calendar year exceed such outlays in the 3rd preceding calendar year, reduced (including below zero) by

"(II) the percentage by which the per capita catastrophic coverage premium liability for the 2nd preceding calendar year exceeds such liability for the 3rd preceding calendar year (determined as if the catastrophic coverage premium rate for the 2nd preceding calendar year were the same as the rate in effect for the 3rd preceding calendar year).

If there is no excess described in subclause (I) or (II), such subclause shall be applied by substituting 'is less than' for 'exceeds' and the percentage determined with such substitution shall be taken into account as a negative percentage.

"(ii) ADJUSTMENT FOR MORE RECENT INCREASES IN COST-OF-LIVING.—If—

"(I) the percentage increase in the CPI for the 12-month period ending with May of the preceding calendar year, exceeds (or is less than)

"(II) such increase for the 12-month period ending with May of the 2nd preceding calendar year,

by at least 1 percentage point, the percentage determined under clause (i) for the calendar year shall be adjusted up (or down, respectively) by ½ of the amount by which such excess (or shortage, respectively) exceeds 1 percent.

"(C) RESERVE ACCOUNT PERCENTAGE.—

"(i) IN GENERAL.—The reserve account percentage for any calendar year is the percentage which the rate change determined under clause (ii) is of the catastrophic coverage premium rate which would be in effect under this section for taxable years beginning in the preceding calendar year if paragraph (2) did not apply to any preceding calendar year. If there is an excess determined under clause (iii), the percentage determined under the preceding sentence shall be taken into account as a negative percentage.

"(ii) DETERMINATION OF RATE CHANGE.—The rate change determined under this clause for any calendar year is the adjustment in the catastrophic coverage premium rate (otherwise in effect for taxable years beginning in the 2nd preceding calendar year) which the Secretary determines would have resulted in an aggregate increase (or decrease) in the premiums imposed by this section for such taxable years equal to 63 percent of the shortfall or excess determined under clause (iii) for the calendar year.

"(iii) DETERMINATION OF SHORTFALL OR EXCESS.—The shortfall (or excess) determined under this clause for any calendar year is the amount by which—

"(I) 20 percent of the outlays during the 2nd preceding calendar year from the Medicare Catastrophic Coverage Account created under section 1841B of the Social Security Act, exceeds (or is less than)

"(II) the balance in such Account as of the close of such 2nd preceding calendar year (determined by taking into account previous premium increases by reason of the reserve account percentage under this subsection or by reason of section 1839(g)(2) of the Social Security Act but not credited to the Account).

"(D) DEFINITIONS.—For purposes of this paragraph—

"(i) PER CAPITA CATASTROPHIC OUTLAYS.—The term 'per capita catastrophic outlays' means, with respect to any calendar year, the amount (as determined by the Secretary of Health and Human Services) equal to—

"(I) the outlays during such year from the Medicare Catastrophic Coverage Account created under section 1841B of the Social Security Act, divided by

"(II) the average number of individuals entitled to receive benefits under part A of title XVIII of the Social Security Act during such calendar year.

"(ii) PER CAPITA CATASTROPHIC COVERAGE PREMIUM LIABILITY.—The term 'per capita catastrophic coverage premium liability' means, with respect to any calendar year, the amount (as determined by the Secretary) equal to—

"(I) the aggregate premiums imposed by this section for taxable years beginning in such calendar year to the extent attributable to the catastrophic coverage premium rate, divided by

"(II) the number of individuals who had premium liability under this section for such taxable years.

"(iii) PERCENTAGE INCREASE IN CPI.—The percentage increase in the CPI for any 12-month period shall be the percentage by which the Consumer Price Index (as defined in section 1(f)(5)) for the last month of such period exceeds such Index for the last month of the preceding 12-month period.

"(4) PERCENTAGE ADJUSTMENT FOR PRESCRIPTION DRUG PREMIUM RATE.—The percentage determined under this paragraph for any calendar year shall be determined under rules similar to the rules of paragraph (3); except that—

"(A) in determining the prescription drug premium rate for any calendar year before 1998, the following percentages shall be substituted for 20 percent in paragraph (3)(C)(iii)(I):

"In the case of calendar year:	The percentage is:
1994	75
1995	50
1996	25
1997	25,

"(B) no adjustment by reason of the outlay-premium percentage shall be made for any calendar year before 1998,

"(C) any reference to the Medicare Catastrophic Coverage Account shall be treated as a reference to the Federal Catastrophic Drug Insurance Trust Fund, and

"(D) any reference to the catastrophic coverage premium rate shall be treated as a reference to the prescription drug premium rate.

"(f) DEFINITIONS AND SPECIAL RULES.—

"(1) MEDICARE-ELIGIBLE INDIVIDUAL.—For purposes of this section—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the term 'medicare-eligible individual' means, with respect to any month, any individual who is entitled to (or, on application without the payment of an additional premium, would be entitled to) benefits under part A of title XVIII of the Social Security Act for such month.

"(B) EXCEPTIONS.—The term 'medicare-eligible individual' shall not include for any month—

"(i) any individual who is entitled to benefits under part A of title XVIII of the Social Security Act for such month solely by reason of the payment of a premium under section 1818 of such Act, or "(ii) any qualified nonresident.

"(2) SPECIAL RULES FOR JOINT RETURNS.—In the case of a joint return—

"(A) WHERE PREMIUM APPLIES TO BOTH SPOUSES.—If both spouses meet the requirements of subsection (b)(1) for the taxable year—

"(i) such spouses shall be treated as 1 individual for purposes of applying this section, except that

"(ii) the limitation of subsection (c)(2) shall be twice the amount which would otherwise apply.

"(B) WHERE PREMIUM APPLIES TO ONLY 1 SPOUSE.—If only 1 spouse meets the requirements of subsection (b)(1) for the taxable year—

"(i) this section shall be applied separately with respect to such spouse, and

"(ii) the adjusted income tax liability of such spouse shall be determined under paragraph (4)—

"(I) by taking into account one-half of the income tax liability determined with respect to the joint return, and

"(II) by taking into account under clause (ii) of paragraph (4)(C) only amounts attributable to such spouse.

"(3) SEPARATE RETURNS BY MARRIED INDIVIDUALS.—If an individual is married as of the close of the taxable year (within the meaning of section 7703) but does not file a joint return for the taxable year and such individual does not live apart from his spouse at all times during the taxable year—

"(A) the limitation of subsection (c)(2) shall be twice the amount which would otherwise apply if both the individual and the spouse of the individual meet the requirements of subsection (b)(1) with respect to the calendar year in which the taxable year begins (determined without regard to subparagraph (B) of this paragraph),

"(B) if such individual does not otherwise meet the requirements of subsection (b)(1), such individual shall be treated as meeting the requirements of subsection (b)(1) for the taxable year if the spouse of such individual meets such requirements with respect to the calendar year in which the taxable year begins, and

"(C) in applying subparagraph (C) of paragraph (4)—

"(i) the dollar limitation of clause (i) thereof shall be ½ of the amount which applies to a joint return where both spouses meet the requirements of subsection (b)(1), and

"(ii) the individual shall be deemed to receive social security benefits during the taxable year in an amount not less than ½ of the aggregate social security benefits received by such individual and his spouse during the taxable year.

"(4) ADJUSTED INCOME TAX LIABILITY.—For purposes of this section—

"(A) IN GENERAL.—The term 'adjusted income tax liability' means an amount equal to the income tax liability, reduced by the excess (if any) of—

"(i) 15 percent of the governmental retiree exclusion amount (if any) determined under subparagraph (C) for the taxable year, over

"(ii) the amount of the credit allowable under section 22 for the taxable year.

"(B) INCOME TAX LIABILITY.—The term 'income tax liability' means—

"(i) the tax imposed by this chapter (determined without regard to this section), reduced by

"(ii) the credits allowed under part IV of this subchapter (other than under sections 31, 33, and 34).

"(C) GOVERNMENTAL RETIREE EXCLUSION AMOUNT.—The governmental retiree exclusion amount for any taxable year is the lesser of—

"(i) $6,000 ($9,000 in the case of a joint return where both spouses meet the requirements of subsection (b)(1) for the taxable year), or

"(ii) the amount which is received as an annuity (whether for a period certain or during 1 or more lives) under a governmental plan (as defined in the 1st sentence of section 414(d)) and which is includible in gross income under section 72 for the taxable year.

The amount determined under the preceding sentence shall be reduced by the social security benefits (as defined in section 86(d)) received during the taxable year.

"(D) INDEXING.—In the case of any taxable year beginning in a calendar year after 1989, subparagraph (C)(i) shall be applied by substituting for each dollar amount contained in such subparagraph an amount equal to—

"(i) the dollar amount which would be in effect under subparagraph (C)(i) for taxable years beginning in the preceding calendar year without regard to the last sentence of this subparagraph, increased by

"(ii) the cost-of-living adjustment determined under section 215(i) of the Social Security Act for the calendar year in which the taxable year begins.

Any amount determined under the preceding sentence shall be rounded to the nearest multiple of $50.

"(5) QUALIFIED NONRESIDENT.—

"(A) IN GENERAL.—For purposes of paragraph (1), the term 'qualified nonresident' means, with respect to any month during the taxable year, any individual if—

"(i) such individual is not furnished during such taxable year or any of the 4 preceding taxable years any service for which a claim for payment is made under part A of title XVIII of the Social Security Act,

"(ii) such individual is not entitled to benefits under part B of title XVIII of the Social Security Act at any time during such taxable year or any of the 4 preceding taxable years, and

"(iii) such individual is present in a foreign country or countries for at least 330 full days during—

"(I) the 12-month period ending at the close of the taxable year, and

"(II) each of the 4 consecutive preceding 12-month periods.

"(B) SPECIAL RULE FOR INDIVIDUALS WHO DIE DURING THE TAXABLE YEAR.—An individual who dies during the taxable year shall be treated as meeting the requirement of subparagraph (A)(iii)(I) if such individual is present in a foreign country or countries for at least a number of full days equal to 90 percent of the days during such taxable year before the date of death.

"(6) COORDINATION WITH OTHER PROVISIONS.—

"(A) NOT TREATED AS MEDICAL EXPENSE.—For purposes of section 213, the supplemental premium imposed by this section for any taxable year shall not be treated as an expense paid for medical care.

"(B) NOT TREATED AS TAX FOR CERTAIN PURPOSES.—The supplemental premium imposed by this section shall not be treated as a tax imposed by this chapter for purposes of determining—

"(i) the amount of any credit allowable under this chapter, or

"(ii) the amount of the minimum tax imposed by section 55.

"(C) TREATED AS TAX FOR SUBTITLE F.—For purposes of subtitle F, the supplemental premium imposed by this section shall be treated as if it were a tax imposed by section 1.

"(D) SECTION 15 NOT TO APPLY.—Section 15 shall not apply to the supplemental premium imposed by this section.

"(7) SECTION NOT TO AFFECT LIABILITY TO POSSESSIONS, ETC.—This section shall not apply for purposes of determining liability to any possession of the United States. For purposes of sections 932 and 7654, the supplemental premium imposed by this section shall not be treated as a tax imposed by this chapter.

"(8) SHORT TAXABLE YEARS.—In the case of a taxable year of less than 12 months, this section shall be applied under regulations prescribed by the Secretary."

(b) INFORMATION REPORTING.—

(1) Subsection (a) of section 6050F of such Code is amended by striking "and" at the end of paragraph (1), by redesignating paragraph (2) as paragraph (3), and by inserting after paragraph (1) the following new paragraph: 26 USC 6050F.

"(2) whether any individual meets the requirements of section 59B(b)(1) with respect to the calendar year (determined without regard to section 59B(f)(1)(B)(ii)), and".

(2) Section 6050F(b) of such Code is amended—

(A) by inserting "or making the determination under subsection (a)(2)" after "payments" in paragraph (1), and

(B) by inserting "and the information required under subsection (a)(2)," after "reductions," in paragraph (2).

(3) Section 6050F(c)(1)(A) of such Code is amended by inserting "and the information required under subsection (a)(2)" after "section 86(d)(1)(A)".

(c) CLERICAL AMENDMENT.—The table of parts for subchapter A of chapter 1 of such Code is amended by adding at the end thereof the following new item:

"Part VIII. Supplemental medicare premium."

(d) ANNOUNCEMENT OF SUPPLEMENTAL PREMIUM RATE.—In the case of calendar year 1993 or any calendar year thereafter— 26 USC 59B note.

(1) not later than July 1 of such calendar year, the Secretary of the Treasury or his delegate shall make an announcement of the estimated supplemental premium rate under section 59B of the Internal Revenue Code of 1986 for taxable years beginning in the following calendar year, and

(2) not later than October 1 of such calendar year, the Secretary of the Treasury or his delegate shall make an announcement of the actual supplemental premium rate under such section for such taxable years.

26 USC 59B note.

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to taxable years beginning after December 31, 1988.

(2) WAIVER OF ESTIMATED TAX REQUIREMENT FOR YEARS BEGINNING IN 1989.—In the case of a taxable year beginning in 1989, the premium imposed by section 59B of the Internal Revenue Code of 1986 (as added by this section) shall not be treated as a tax for purposes of applying section 6654 of such Code.

SEC. 112. ESTABLISHMENT OF FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND.

(a) IN GENERAL.—Part A of title XVIII is amended by inserting after section 1817 the following new section:

"FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND

42 USC 1395i-1a.

"SEC. 1817A. (a)(1) There is hereby created on the books of the Treasury of the United States a trust fund to be known as the 'Federal Hospital Insurance Catastrophic Coverage Reserve Fund' (in this section referred to as the 'Reserve Fund'). The Reserve Fund shall consist of such gifts and bequests as may be made as provided in section 201(i)(1) and amounts appropriated under paragraph (2).

"(2) There are hereby appropriated to the Reserve Fund, from the supplemental premiums imposed by section 59B of the Internal Revenue Code of 1986 attributable to the supplemental catastrophic premium rate, amounts equivalent to 100 percent of the amount of outlays made under this part attributable to the amendments made by the Medicare Catastrophic Coverage Act of 1988. The amounts appropriated by the preceding sentence shall be transferred from time to time (not less frequently than monthly) from the general fund in the Treasury to the Reserve Fund, such amounts to be determined on the basis of estimates by the Secretary of the Treasury of the premiums, specified in the preceding sentence, paid to or deposited into the Treasury and on the basis of outlays, specified in the previous sentence, made; and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or were less than the appropriate amounts specified in such sentence. At the close of each year, the transfers under this subsection shall reflect all premiums (described in this paragraph) paid or deposited into the Treasury in the year.

"(3) With respect to monies transferred to the Reserve Fund, no transfers, authorizations of appropriations, or appropriations are permitted.

"(b) The provisions of subsections (b) through (e) of section 1817 shall apply to the Reserve Fund in the same manner as they apply to the Federal Hospital Insurance Trust Fund, except that the Board of Trustees and Managing Trustee of the Reserve Fund shall be composed of the members of the Board of Trustees and the Managing Trustee, respectively, of the Federal Hospital Insurance Trust Fund.

"(c) In this part, with respect to the Reserve Fund, the terms 'outlays' and 'receipts' mean, with respect to a quarter or other period, gross outlays and receipts, as such terms are employed in the 'Monthly Treasury Statement of Receipts and Outlays of the United States Government (MTS)', as published by the Department of the Treasury, for months in such quarter or other period.".

(b) INTEREST ADJUSTMENT.—In July 1990, the Secretary of the Treasury shall calculate the interest lost to the Federal Hospital Insurance Catastrophic Coverage Reserve Fund due to the lag between the outlays (attributable to the amendments made by this Act) from the Federal Hospital Insurance Trust Fund during 1989 and the transfers made to such Reserve Fund to cover such outlays. Appropriations under section 1817A(a)(2) of the Social Security Act (as inserted by subsection (a)) shall include the amount calculated under the previous sentence. 42 USC 1395i-1a note.

SEC. 113. STUDY OF TAX INCENTIVES FOR PURCHASE OF COVERAGE FOR LONG-TERM CARE.

(a) IN GENERAL.—The Secretary of the Treasury (in this section referred to as the "Secretary") shall conduct a study of Federal tax policies to promote the private financing of long-term care (as defined in subsection (d)). The study shall identify alternative methods of creating incentives, through the tax system, to encourage individuals to purchase insurance coverage for long-term care. The study shall also consider the cost to the United States Treasury and the potential benefits to consumers, including whether the incentives would benefit all or most of the population requiring protection.

(b) CONSULTATION.—The Secretary shall conduct the study required by subsection (a) in consultation with representatives of the insurance industry, providers of long-term care, and consumers.

(c) REPORT.—The Secretary shall report the results of the study required by subsection (a) to the Congress not later than November 30, 1988, together with the Secretary's recommendations for any changes in Federal law that the Secretary determines to be appropriate to promote the private financing of long-term care.

(d) LONG-TERM CARE DEFINED.—For purposes of this section, the term "long-term care" includes care and services provided by nursing homes, home health agencies, and other mechanisms for the delivery of long-term care services.

TITLE II—PROVISIONS RELATING TO PART B OF THE MEDICARE PROGRAM AND TO MEDICARE SUPPLEMENTAL HEALTH INSURANCE

Subtitle A—Expansion of Medicare Part B Benefits

SEC. 201. LIMITATION ON MEDICARE PART B COST-SHARING.

(a) IN GENERAL.—Section 1833 (42 U.S.C. 1395l) is amended—

(1) in subsection (c)—

(A) by striking "subsections (a) and (b)" and inserting "subsection (a) through (c)",

(B) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B),

(C) by striking "this subsection" and inserting "this paragraph", and

(D) by striking "(c)" and inserting "(d)(1)";

(2) by redesignating subsection (d) as paragraph (2);

(3) in subsection (g), by striking "(a) and (b)" and inserting "(a) through (c)"; and

(4) by inserting after subsection (b) the following new subsection:

"(c)(1) Notwithstanding subsections (a) and (b), if an individual has incurred out-of-pocket part B cost sharing (as defined in paragraph (2)) in a calendar year (beginning with 1990) in an amount equal to the part B catastrophic limit (established under paragraph (3)) for the year, payment under this part with respect to any additional incurred expenses in the calendar year shall be made as if—

"(A) the deduction described in the second sentence of subsection (b) (relating to blood) no longer applied, and

"(B) '100 percent' and '0 percent' were substituted for '80 percent' and '20 percent', respectively, each place either appears in subsections (a) and (i)(2), in sections 1834(a)(1)(A), 1834(e)(1)(C), 1835(b)(2), and 1866(a)(2)(A), and in subsections (b)(2) and (b)(3) of section 1881, except as such provisions may apply to in-home care.

"(2) In this subsection, the term 'out-of-pocket part B cost sharing' means, with respect to an individual covered under this part, the amounts of expenses that the individual incurs that are attributable to—

"(A) the deductions established under subsection (b), and

"(B) the difference between the payment amount provided under this part and the payment amount that would be provided if '100 percent' and '0 percent' were substituted for '80 percent' and '20 percent', respectively, each place either appears in subsections (a) and (i)(2), in sections 1834(a)(1)(A), 1834(e)(1)(C), 1835(b)(2), and 1866(a)(2)(A), and in subsections (b)(2) and (b)(3) of section 1881.

"(3)(A) The part B catastrophic limit for 1990 is $1,370. The part B catastrophic limit for any succeeding year shall be such an amount (rounded to the nearest multiple of $1) as the Secretary estimates will result, in that succeeding year, in 7 percent of the average number of individuals enrolled under this part (other than individuals enrolled with an eligible organization under section 1876 or an organization described in subsection (a)(1)(A)) during the year becoming entitled to benefits under this subsection.

"(B) Not later than September 1 of each year (beginning with 1990), the Secretary shall promulgate the part B catastrophic limit under this paragraph for the succeeding year.

Contracts.

"(4) In the case of an organization receiving payment under clause (A) of subsection (a)(1) or under a reasonable cost reimbursement contract under section 1876, in applying paragraph (1), the Secretary shall provide for an appropriate adjustment in the payment amounts otherwise made to reflect the aggregate increase in payments that would otherwise be made with respect to enrollees in such an organization if payments were made other than under such clause or such a contract on an individual-by-individual basis.

"(5)(A) Except as provided in subparagraph (B), expenses incurred by a medicare beneficiary for out-of-pocket part B cost-sharing shall be counted (consistent with subparagraph (C)) whether or not, at the time the expenses were incurred, the beneficiary was enrolled in a plan under section 1833(a)(1)(A) or under section 1876. In this paragraph, with respect to a medicare beneficiary enrolled in such a plan, the term 'out-of-pocket part B cost-sharing' includes deductibles and coinsurance under the plan for items and services covered under this part.

"(B) In the case of a medicare beneficiary enrolled in a month in a buy-out plan (as defined in subparagraph (D))—

"(i) expenses incurred by the beneficiary for items and services reimbursed under the plan shall not be treated as out-of-pocket part B cost-sharing for purposes of paragraph (1), but

"(ii) the beneficiary is deemed to have incurred, for each month of such enrollment, expenses for out-of-pocket part B cost-sharing in an amount equal to the actuarial value (with respect to a month in the year involved) of the deductible and coinsurance amounts under part B (as computed by the Secretary for purposes of section 1876(e)(1), other than with respect to covered outpatient drugs) applicable on the average to individuals in the United States.

"(C) The Secretary may not enter into a contract with an organization under section 1876, or provide for payment under section 1833(a)(1)(A) with respect to an organization, with respect to a plan that is not a buy-out plan, unless the organization provides assurances, satisfactory to the Secretary, that— Contracts.

"(i) the organization will maintain and make available, for its enrollees and in coordination with the appropriate carriers under this part, an accounting of expenses incurred in each year under the plan for out-of-pocket part B cost-sharing (as defined in subparagraph (A)); and

"(ii) the organization will not undertake to charge a beneficiary during a year for services for which payment may be made under this part (other than for covered outpatient drugs) after the individual has incurred (whether through the organization or otherwise) out-of-pocket part B cost sharing in the year in an amount equal to the part B catastrophic limit established under paragraph (1) for the year.

"(D) In this paragraph, the term 'buy-out plan' means a plan under section 1833(a)(1)(A) or offered by an organization under section 1876 and with respect to which—

"(i) the actuarial value of the coinsurance and deductibles under the plan with respect to benefits (other than covered outpatient drugs) under this title (as determined by the Secretary),

is less than 50 percent of—

"(ii) the actuarial value of the coinsurance and deductibles for such benefits for all medicare beneficiaries (as determined by the Secretary) applicable on the average to individuals in the United States.

"(E) In this subsection, the term 'medicare beneficiary' means, with respect to a month, an individual covered for benefits under this part for the month.".

(b) LIMITATION ON CHARGES WHEN CATASTROPHIC LIMIT REACHED.—Section 1866(a)(2)(A) (42 U.S.C. 1395cc(a)(2)(A)) is amended by adding at the end the following new sentence: "A provider of services may not impose a charge under the first sentence of this subparagraph for services for which payment is made to the provider pursuant to section 1833(c) (relating to catastrophic benefits).".

(c) NOTICE FOR BENEFICIARIES REACHING CATASTROPHIC LIMIT.—Section 1842(b)(3) (42 U.S.C. 1395u(b)(3)) is amended—

(1) by striking "and" at the end of subparagraph (G),

(2) by inserting "and" at the end of subparagraph (H), and

(3) by inserting after subparagraph (H) the following new subparagraph:

"(I) will provide each individual, who is determined to have incurred (or has had paid on the individual's behalf) sufficient out-of-pocket part B cost sharing in a calendar year to qualify for payment for additional incurred expenses to be made pursuant to section 1833(c), with a notice that states that the individual has reached the part B catastrophic limit on out-of-pocket cost sharing for the year;".

(d) CONFORMING AMENDMENT.—The second sentence of section 1866(a)(2)(A) (42 U.S.C. 1395cc(a)(2)(A)) is amended by striking "1833(c)" and inserting "1833(d)(1)".

SEC. 202. COVERAGE OF CATASTROPHIC EXPENSES FOR PRESCRIPTION DRUGS AND INSULIN.

(a) DESCRIPTION OF COVERED OUTPATIENT DRUGS.—Section 1861 (42 U.S.C. 1395x) is amended—

(1) by amending subparagraph (J) of subsection (s)(2) to read as follows:

"(J) covered outpatient drugs (as defined in subsection (t)); and", and

(2) in subsection (t)—

(A) by inserting "and paragraph (2)" after "subsection (m)(5)",

(B) by inserting "(1)" after "(t)", and

(C) by adding at the end the following new paragraphs:

"(2) Subject to paragraph (3), the term 'covered outpatient drug' means—

"(A) a drug which may be dispensed only upon prescription and—

"(i) which is approved for safety and effectiveness as a prescription drug under section 505 or 507 of the Federal Food, Drug, and Cosmetic Act or which is approved under section 505(j) of such Act;

"(ii)(I) which was commercially used or sold in the United States before the date of the enactment of the Drug Amendments of 1962 or which is identical, similar, or related (within the meaning of section 310.6(b)(1) of title 21 of the Code of Federal Regulations) to such a drug, and (II) which has not been the subject of a final determination by the Secretary that it is a 'new drug' (within the meaning of section 201(p) of the Federal Food, Drug, and Cosmetic Act) or an action brought by the Secretary under section 301, 302(a), or 304(a) of such Act to enforce section 502(f) or 505(a) of such Act; or "(iii)(I) which is described in section 107(c)(3) of the Drug Amendments of 1962 and for which the Secretary has determined there is a compelling justification for its medical need, or is identical, similar, or related (within the meaning of section 310.6(b)(1) of title 21 of the Code of Federal Regulations) to such a drug, and (II) for which the Secretary has not issued a notice of an opportunity for a hearing under section 505(e) of the Federal Food, Drug, and Cosmetic Act on a proposed order of the Secretary to withdraw approval of an application for such drug under such section because the Secretary has determined that the drug is less than effective for all conditions of use prescribed, recommended, or suggested in its labeling;

"(B) a biological product which—

"(i) may only be dispensed upon prescription,

"(ii) is licensed under section 351 of the Public Health Service Act, and

"(iii) is produced at an establishment licensed under such section to produce such product; and

"(C) insulin certified under section 506 of the Federal Food, Drug, and Cosmetic Act.

"(3)(A) The term 'covered outpatient drug' does not include any drug, biological product, or insulin provided as, as part of, or as incident to, any of the following (and for which payment may be included under this title):

"(i) Inpatient hospital services (described in subsection (b)(2)).

"(ii) Extended care services (described in subsection (h)(5)).

"(iii) Physicians' services under subparagraph (A) or (B) of subsection (s)(2).

"(iv) Dialysis supplies under subsection (s)(2)(F).

"(v) Antigens under subsection (s)(2)(G).

"(vi) Blood clotting factors for hemophiliacs under subsection (s)(2)(I).

"(vii) Services of a physician assistant under subsection (s)(2)(K)(ii).

"(viii) Pneumococcal, hepatitis B, or influenza vaccines under subsection (s)(10).

"(ix) Rural health clinic services (under subsection (aa)(1)).

"(x) Comprehensive outpatient rehabilitation facility services (under subsection (cc)(1)).

"(xi) Hospice care (as defined in subsection (dd)(1)).

"(xii) Certified nurse-midwife service (as defined in subsection (gg)(1)).

"(xiii) A covered surgical procedure in an ambulatory surgical center (under section 1832(a)(2)(F)(i)).

"(B) With respect to covered outpatient drugs dispensed in 1990, the term 'covered outpatient drug' is limited—

"(i) to drugs described in paragraph (2)(A) used in immunosuppressive therapy, and

"(ii) to covered home IV drugs (as defined in paragraph (4)).

"(C) The term 'covered outpatient drug' does not include a drug that is intravenously administered in a home setting unless it is a covered home IV drug.

"(4)(A) The term 'covered home IV drug' means a covered outpatient drug dispensed to an individual that—

"(i) is intravenously administered in a place of residence used as the individual's home, and

"(ii)(I) is an antibiotic drug and the Secretary has not determined, for the specific drug or for the indication to which it is applied, that the drug cannot generally be administered safely and effectively in a home setting, or

"(II) is not an antibiotic drug and the Secretary has determined, for the specific drug and the indication for which the drug is being applied, that the drug can generally be administered safely and effectively in a home setting.

"(B) Not later than January 1, 1990 (and periodically thereafter), the Secretary shall publish a list of the drugs, and indications for such drugs, that are covered home IV drugs (as defined in subparagraph (A)), with respect to which home intravenous drug therapy may be provided under this title.".

(b) DEDUCTIBLE AND PAYMENT AMOUNTS.—Part B is amended—

(1) in subsection (a)(1) of section 1833 (42 U.S.C. 1395l(b)), as amended by section 411(h)(7)(A)(v)(I) of this Act—

(A) by striking "and" before "(L)", and

(B) by adding at the end the following: "and (M) with respect to expenses incurred for covered outpatient drugs, the amounts paid shall be the amounts determined under section 1834(c)(2)";

(2) in subsection (a)(2) of such section by inserting "(other than covered outpatient drugs)" after "(2) in the case of services";

(3) in subsection (b) of such section—

(A) in clause (1), by inserting "or for covered outpatient drugs" after "1861(s)(10)(A)", and

(B) in clause (2), by inserting "or with respect to covered outpatient drugs" after "home health services"; and

(4) by adding at the end of section 1834 (42 U.S.C. 1395m) the following new subsection:

"(c) PAYMENT FOR COVERED OUTPATIENT DRUGS.—

"(1) DEDUCTIBLE.—

"(A) APPLICATION.—

"(i) IN GENERAL.—Except as provided in clauses (ii) and (iii), payment shall be made under paragraph (2) only with respect to expenses incurred by an individual for covered outpatient drugs during a calendar year on or after such date in the year as the Secretary determines that the individual has incurred expenses in the year for covered outpatient drugs (during a period in which the individual is entitled to benefits under this part) equal to the amount of the catastrophic drug deductible specified in subparagraph (C) for that year.

"(ii) DEDUCTIBLE NOT APPLIED FOR POST-HOSPITAL HOME INTRAVENOUS DRUG THERAPY.—The catastrophic drug deductible established under this paragraph shall not apply to covered home IV drugs dispensed in conjunction with home intravenous drug therapy services which are part of a continuous course of such therapy initiated while the individual was an inpatient in a hospital.

"(iii) DEDUCTIBLE NOT APPLIED TO 1ST YEAR IMMUNOSUPPRESSIVES.—The catastrophic drug deductible established under this paragraph shall not apply to drugs described in section 1861(t)(2)(A) used in immunosuppressive therapy and furnished, to an individual who receives an organ transplant for which payment is made under this title, within 1 year after the date of the transplant.

"(B) RESPONSE TO APPLICATION.—If the system described in section 1842(o)(4) has not been established and an individual applies to the Secretary to establish that the individual has met the requirement of subparagraph (A), the Secretary shall promptly notify the individual (and, if the application was submitted by or through a participating pharmacy, the pharmacy) as to the date (if any) as of which the individual has met such requirement.

"(C) CATASTROPHIC DRUG DEDUCTIBLE AMOUNT.—

"(i) IN GENERAL.—Subject to subparagraph (D), the catastrophic drug deductible specified in this subparagraph for—

"(I) 1990 is $550,

"(II) 1991 is $600,

"(III) 1992 is $652, and

"(IV) any succeeding year, is such an amount as the Secretary determines will result in 16.8 percent of the average number of individuals covered under this part (other than individuals enrolled with an eligible organization under section 1876 or an organization described in section 1833(a)(1)(A)) during that succeeding year having incurred expenses for covered outpatient drugs sufficient to meet the catastrophic drug deductible so determined.

"(ii) ROUNDING.—Any amount determined under this subparagraph which is not a multiple of $1 shall be rounded to the nearest multiple of $1.

"(iii) PUBLICATION.—Before May 1 of each year (beginning with 1992) the Secretary shall publish in the Federal Register a proposed regulation establishing the amount of the catastrophic drug deductible under this subparagraph for the following year. During the last 3 days of September of such year, the Secretary shall publish in the Federal Register the final regulation establishing the amount of such deductible for the following year, which amount may not be greater than the amount specified in the proposed regulation. Federal Register, publication. Regulations.

"(2) PAYMENT AMOUNT.—

"(A) IN GENERAL.—Subject to the catastrophic drug deductible established under paragraph (1)(A) and except as provided in subparagraph (C), the amounts payable under this part with respect to a covered outpatient drug is equal to the payment percent (specified in subparagraph (B)) of the lesser of—

"(i) the actual charge for the drug, or

"(ii) the applicable payment limit established under paragraph (3).

"(B) PAYMENT PERCENT.—For purposes of subparagraph (A), the payment percent is 100 percent minus the applicable coinsurance percent (specified in subparagraph (C)).

"(C) COINSURANCE PERCENT.—For purposes of subparagraph (B), the coinsurance percent—

"(i) for covered home IV drugs and for drugs described in paragraph (1)(A)(iii) (relating to immunosuppressive therapy during the 1st year after transplant), is 20 percent; and

"(ii) for other covered outpatient drugs dispensed—

"(I) in 1990 or 1991, is 50 percent,

"(II) in 1992 is 40 percent, and

"(III) in 1993 or a succeeding year is 20 percent.

Contracts.

"(D) TREATMENT OF CERTAIN COST-BASED PREPAID ORGANIZATIONS.—In applying subparagraph (A) in the case of an organization under a reasonable cost reimbursement contract under section 1876 and in the case of an organization receiving payment under section 1833(a)(1)(A) and providing coverage of covered outpatient drugs, the Secretary shall provide for an appropriate adjustment in the payment amounts otherwise made to reflect the aggregate increase in payments that would otherwise be made with respect to enrollees in such an organization if payments were made other than under such clause or such a contract on an individual-by-individual basis.

"(3) PAYMENT LIMITS.—

"(A) PAYMENT LIMIT FOR NON-MULTIPLE SOURCE DRUGS AND MULTIPLE-SOURCE DRUGS WITH RESTRICTIVE PRESCRIPTIONS.—In the case of a drug that either is not a multiple source drug (as defined in paragraph (9)(A)) or is a multiple source drug and has a restrictive prescription (as defined in paragraph (9)(B)), the payment limit for the drug under this paragraph for a payment calculation period is equal to the lesser of—

"(i) the 90th percentile of the actual charges (computed on a statewide basis, carrier-wide basis, or other appropriate geographic area basis, as specified by the Secretary) for the drug for the second previous payment calculation period, adjusted (as the Secretary determines to be appropriate) to reflect the number of tablets (or other dosage units) dispensed; or

"(ii) the amount of the administrative allowance (established under paragraph (4)) plus the product of—

"(I) the number of tablets (or other dosage units) dispensed, and

"(II) the per tablet or unit average wholesale price for such drug (as determined under subparagraph (C) for the period for purposes of this subparagraph);

except that clause (i) shall not apply to covered outpatient drugs dispensed before January 1, 1992.

"(B) PAYMENT LIMIT FOR MULTIPLE SOURCE DRUGS WITHOUT RESTRICTIVE PRESCRIPTIONS.—In the case of a drug that is a multiple source drug but does not have a restrictive prescription, the payment limit for the drug under this paragraph for a payment calculation period is equal to the amount of the administrative allowance (established under paragraph (4)) plus the product of—

"(i) the number of tablets (or other dosage units) dispensed, and "(ii) the unweighted median of the per tablet or unit average wholesale prices (determined under subparagraph (C) for purposes of this subparagraph) for such drug for the period.

"(C) DETERMINATION OF UNIT PRICE.—

"(i) IN GENERAL.—For purposes of this paragraph, the Secretary shall determine, with respect to the dispensing of a covered outpatient drug in a payment calculation period (beginning on or after January 1, 1990), the per tablet or unit average wholesale price for the drug.

"(ii) BASIS FOR DETERMINATIONS.—

"(I) DETERMINATION FOR NON-MULTIPLE-SOURCE DRUGS.—For purposes of subparagraph (A), such determination shall be based on a biannual survey conducted by the Secretary of a representative sample of direct sellers, wholesalers, or pharmacies (as appropriate) of wholesale (or comparable direct) prices (excluding discounts to pharmacies); except that if, because of low volume of sales for the drug or other appropriate reasons or in the case of covered outpatient drugs during 1990, the Secretary determines that such a survey is not appropriate with respect to a specific drug, such determination shall be based on published average wholesale (or comparable direct) prices for the drug.

"(II) DETERMINATION FOR MULTIPLE-SOURCE DRUGS.—For purposes of subparagraph (B), the Secretary may base the determination under this subparagraph on the published average wholesale (or comparable direct) prices for the drug or on a biannual survey conducted by the Secretary of a representative sample of direct sellers, wholesalers, or pharmacists (as appropriate) of wholesale (or comparable direct) prices (excluding discounts to pharmacies).

"(III) COMPLIANCE WITH SURVEY REQUIRED.—If a wholesaler or direct seller of a covered outpatient drug refuses, after being requested by the Secretary, to provide the information required in a survey under this clause, or deliberately provides information that is false, the Secretary may impose a civil money penalty of not to exceed $10,000 for each such refusal or provision of false information. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to civil money penalties under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). Information gathered pursuant to the survey shall not be disclosed except as the Secretary determines to be necessary to carry out the purposes of this part.

Law enforcement and crime.

Classified information.

"(iii) QUANTITY AND TIMING.—Such determination shall be based on the price or prices for purchases in reasonable quantities and shall be made for a payment calculation period based on prices for the first day of the first month of the previous payment calculation period.

"(iv) GEOGRAPHIC BASIS.—The Secretary shall make such determination, and calculate the payment limits under this paragraph, on a national basis; except that the Secretary may make such determination, and calculate such payment limits, on a regional basis to take account of limitations on the availability of drug products and variations among regions in the average wholesale prices for a drug product.

"(4) ADMINISTRATIVE ALLOWANCE FOR PURPOSES OF PAYMENT LIMITS.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), for drugs dispensed in—

"(i) 1990 or 1991, the administrative allowance under this paragraph is—

"(I) $4.50 for drugs dispensed by a participating pharmacy, or

"(II) $2.50 for drugs dispensed by another pharmacy; or

"(ii) a subsequent year, the administrative allowance under this paragraph is the administrative allowance under this paragraph for the preceding year increased by the percentage increase (if any) in the implicit price deflator for gross national product (as published by the Department of Commerce in its 'Survey of Current Business') over the 12-month period ending with August of such preceding year.

Any allowance determined under the clause (ii) which is not a multiple of 1 cent shall be rounded to the nearest multiple of 1 cent.

"(B) ADJUSTMENT IN ALLOWANCE FOR MAIL SERVICE PHARMACIES.—The Secretary may, by regulation and after consultation with pharmacists, elderly groups, and private insurers, reduce the administrative allowances established under subparagraph (A) for any drug dispensed by a mail service pharmacy (as defined by the Secretary) based on differences between such pharmacies and other pharmacies with respect to operating costs and other economies.

"(5) ASSURING APPROPRIATE PRESCRIBING AND DISPENSING PRACTICES.—

Health care professionals.

"(A) IN GENERAL.—The Secretary shall establish a program to identify (and to educate physicians and pharmacists concerning)—

"(i) instances or patterns of unnecessary or inappropriate prescribing or dispensing practices for covered outpatient drugs,

"(ii) instances or patterns of substandard care with respect to such drugs, and

"(iii) potential adverse reactions.

Safety.

"(B) STANDARDS.—In carrying out the program under subparagraph (A), the Secretary shall establish for each covered outpatient drug standards for the prescribing of the drug which are based on accepted medical practice. In establishing such standards, the Secretary shall incorporate standards from such current authoritative compendia as the Secretary may select; except that the Secretary may modify such a standard by regulation on the basis of scientific and medical information that such standard is not consistent with the safe and effective use of the drug.

"(C) PROHIBITION OF FORMULARY.—Nothing in this title (including paragraph (8)), other than sections 1861(t)(4)(A) and 1862(c), shall be construed as authorizing the Secretary to exclude from coverage or to deny payment—

"(i) for any specific covered outpatient drug, or specific class of covered outpatient drug, or

"(ii) for any specific use of such a drug for a specific indication unless such exclusion is pursuant to section 1862(a)(1) based on a finding by the Secretary that such use is not safe or is not effective. Safety.

"(6) TREATMENT OF CERTAIN PREPAID ORGANIZATIONS.—

"(A) GENERAL RULE COUNTING PREPAID PLAN EXPENSES TOWARDS THE CATASTROPHIC DRUG DEDUCTIBLE.—Except as provided in subparagraph (B), expenses incurred by (or on behalf of) a medicare beneficiary for covered outpatient drugs shall be counted (consistent with subparagraph (C)) toward the catastrophic drug deductible established under paragraph (1) whether or not, at the time the expenses were incurred, the beneficiary was enrolled in a plan under section 1833(a)(1)(A) or under section 1876.

"(B) TREATMENT OF DRUG BUY-OUT PLAN EXPENSES.—In the case of a medicare beneficiary enrolled in a month in a drug buy-out plan (as defined in subparagraph (D))—

"(i) expenses incurred by the beneficiary for covered outpatient drugs reimbursed under the plan shall not be counted towards the catastrophic drug deductible, but

"(ii) if the individual disenrolls from the plan during the year, the beneficiary is deemed to have incurred, for each month of such enrollment, expenses for covered outpatient drugs in an amount equal to the actuarial value (with respect to such month) of the deductible for covered outpatient drugs (as computed by the Secretary for purposes of section 1876(e)(1)) applicable on the average to individuals in the United States.

"(C) TREATMENT OF EXPENSES FOR COVERED OUTPATIENT DRUGS INCURRED WHILE ENROLLED IN A PREPAID PLAN OTHER THAN A DRUG BUY-OUT PLAN.—The Secretary may not enter into a contract with an organization under section 1876, or provide for payment under section 1833(a)(1)(A) with respect to an organization which provides reimbursement for covered outpatient drugs, with respect to a plan that is not a drug buy-out plan, unless the organization provides assurances, satisfactory to the Secretary, that—

"(i) the organization will maintain and make available, for its enrollees and in coordination with the appropriate carriers under this part, an accounting of expenses incurred by (or on behalf of) enrollees under the plan for covered outpatient drugs; and

"(ii) the organization will take into account, in any deductibles established under the plan in a year with respect to covered outpatient drugs under this part, the amounts of expenses for covered outpatient drugs incurred in the year by (or on behalf of) the beneficiary and otherwise counted towards the catastrophic drug deductible in the year.

"(D) DRUG BUY-OUT PLAN DEFINED.—In this paragraph, the term 'drug buy-out plan' means a plan under section 1833(a)(1)(A) or offered by an organization under section 1876 and with respect to which—

"(i) the amount of any deductible under the plan with respect to covered outpatient drugs under this title,

is less than 50 percent of—

"(ii) the catastrophic drug deductible specified in paragraph (1)(C).

"(E) MEDICARE BENEFICIARY DEFINED.—In this subsection, the term 'medicare beneficiary' means, with respect to a month, an individual covered for benefits under this part for the month.

"(F) TREATMENT OF PLAN CHARGES.—In the case of covered outpatient drugs furnished by an eligible organization under section 1876(b) or an organization described in section 1833(a)(1)(A) which does not impose charges on covered outpatient drugs dispensed to its members, for purposes of this subsection the actual charges of the organization shall be the organization's standard charges to members, and other individuals, not entitled to benefits with respect to such drugs.

"(7) PHYSICIAN GUIDE.—

"(A) IN GENERAL.—The Secretary shall develop, and update annually, an information guide for physicians concerning the comparative average wholesale prices of at least 500 of the most commonly prescribed covered outpatient drugs. Such guide shall, to the extent practicable, group covered outpatient drugs (including multiple source drugs) in a manner useful to physicians by therapeutic category or with respect to the conditions for which they are prescribed. Such guide shall specify the average wholesale prices on the basis of the amount of the drug required for a typical daily therapeutic regimen.

"(B) MAILING GUIDE.—The Secretary shall provide for mailing, in January of each year (beginning with 1991), a copy of the guide developed and updated under subparagraph (A)—

"(i) to each hospital with an agreement in effect under section 1866,

"(ii) to each physician (as defined in section 1861(r)(1)) who routinely provides services under this part, and

"(iii) to Social Security offices, senior citizen centers, and other appropriate places.

"(8) REPORTS ON OUTLAYS AND RECEIPTS; SPECIAL COST CONTROLS.—

"(A) COMPILATION OF INFORMATION.—The Secretary shall compile information on—

"(i) manufacturers' prices for covered outpatient drugs, and on charges of pharmacists for covered outpatient drugs, and

"(ii) the use of covered outpatient drugs by individuals entitled to benefits under this part.

The information compiled under clause (i) shall include a comparison of the increases in prices and charges for covered outpatient drugs during each 6 month period (beginning with January 1987) with the semiannual average increase in such prices and charges during the 6 years beginning with 1981.

"(B) REPORTS.—The Secretary shall submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance of the Senate a report, in May and November of 1989 and 1990 and in May of each succeeding year, providing the information compiled under subparagraph (A). For each such report submitted after 1991, the report shall include an explanation of the extent to which the increases in outlays for covered outpatient drugs under this part are due to the factors described in subparagraphs (A)(i) and (A)(ii).

"(C) MONTHLY REPORTS ON OUTLAYS AND RECEIPTS.—Within 30 days after the end of each month (beginning with October 1991 and ending with April 1993), the Secretary shall report to Congress on the outlays and receipts of the Federal Catastrophic Drug Insurance Trust Fund (in this paragraph referred to as the 'Trust Fund') in the month.

"(D) BUDGETARY INFORMATION.—

"(i) IN GENERAL.—In each report submitted under subparagraph (B) after 1991, the Secretary shall include information on—

"(I) the projected budgetary status of the Trust Fund for the succeeding year,

"(II) the projected increases in manufacturers' prices for covered outpatient drugs and in charges of pharmacists for covered outpatient drugs,

"(III) the projected level of utilization of covered outpatient drugs by medicare beneficiaries, and

"(IV) the projected administrative costs relating to covered outpatient drugs.

"(ii) DETERMINATION AND PUBLICATION OF ANY OUTLAY CONTROLS FOR 1993 AND 1994.—For each such report in 1992 and 1993, the Secretary—

"(I) shall determine in the report whether the anticipated outlays and receipts of the Trust Fund for the succeeding year will provide for at least the minimum contingency margin specified in subparagraph (F) for that succeeding year, and

"(II) if not, shall include in the report (and shall publish in the Federal Register by May 1 of the year a proposed regulation to carry out) changes in the provisions of this part (consistent with subparagraph (E)) in order to reduce outlays from the Trust Fund in that succeeding year sufficiently to provide for the minimum contingency margin specified in subparagraph (F).

Federal Register, publication. Regulations.

Any changes described in subclause (II) in such report shall reflect appropriately each of the anticipated causes of increased or unanticipated outlays for covered outpatient drugs.

Federal Register, publication.

"(iii) EFFECTIVENESS OF REGULATORY CHANGES.—If proposed regulations are published under clause (ii)(II) in 1992 or 1993, during the last 3 days of September of such year, the Secretary shall publish in the Federal Register a final regulation to implement the changes described in such clause. Notwithstanding any other provision of this part, but subject to subparagraph (E) and unless otherwise provided by law, such changes shall become effective on January 1 of the succeeding year and shall apply only during that succeeding year. Such final regulation may not revise the proposed regulation in a manner that would result in a greater reduction in outlays than would have been the case under the proposed regulation.

"(E) LIMITATION ON CHANGES.—In making regulatory changes under subparagraph (D), the Secretary may not—

"(i) provide for a formulary (in violation of paragraph (5)(C));

"(ii) change the methodology for determining whether for a year an individual has met the catastrophic drug deductible established under paragraph (1)(A); or

"(iii) increase the coinsurance percent under paragraph (2)(C) for a year above the coinsurance percent in effect during the previous year.

Clause (ii) shall not be construed as prohibiting the Secretary from increasing the amount of the catastrophic drug deductible under paragraph (1)(A).

"(F) MINIMUM CONTINGENCY MARGIN DEFINED.—In this paragraph, the term 'minimum contingency margin' means—

"(i) for 1993, 50 percent, and

"(ii) for 1994, 25 percent.

Such margin shall be determined as of the close of each calendar year and shall be determined based on the total outlays from the Trust Fund during the year.

"(9) DEFINITIONS.—In this subsection:

"(A) MULTIPLE SOURCE DRUG.—

"(i) IN GENERAL.—The term 'multiple source drug' means, with respect to a payment calculation period, a covered outpatient drug for which there are 2 or more drug products which—

"(I) are rated as therapeutically equivalent (under the Food and Drug Administration's most recent publication of 'Approved Drug Products with Therapeutic Equivalence Evaluations'),

"(II) except as provided in clause (ii), are pharmaceutically equivalent and bioequivalent, as defined in clause (iii) and as determined by the Food and Drug Administration, and

"(III) are sold or marketed during the period.

"(ii) EXCEPTION.—Subclause (II) of clause (i) shall not apply if the Food and Drug Administration changes by regulation (after an opportunity for public comment of 90 days) the requirement that, for purposes of the publication described in clause (i)(I), in order for drug products to be rated as therapeutically equivalent, they must be pharmaceutically equivalent and bioequivalent, as defined in clause (iii).

"(iii) DEFINITIONS.—For purposes of this subparagraph:

"(I) PHARMACEUTICALLY EQUIVALENT.—Drug products are pharmaceutically equivalent if the products contain identical amounts of the same active drug ingredient in the same dosage form and meet compendial or other applicable standards of strength, quality, purity, and identity.

"(II) BIOEQUIVALENT.—Drugs are bioequivalent if they do not present a known or potential bioequivalence problem or, if they do present such a problem, are shown to meet an appropriate standard of bioequivalence.

"(III) SOLD OR MARKETED.—A drug is considered to be sold or marketed during a period if it is listed in the publications referred to in clause (i)(I), unless the Secretary determines that such sale or marketing is not actually taking place.

"(B) RESTRICTIVE PRESCRIPTION.—A drug has a 'restrictive prescription' only if—

"(i) in the case of a written prescription, the prescription for the drug indicates, in the handwriting of the physician or other person prescribing the drug and with an appropriate phrase (such as 'brand medically necessary') recognized by the Secretary, that the particular drug must be dispensed, or

"(ii) in the case of a prescription issued by telephone—

"(I) the physician or other person prescribing the drug (through use of such an appropriate phrase) states that the particular drug must be dispensed, and

"(II) the physician or other person submits to the pharmacy involved, within 30 days after the date of the telephone prescription, a written confirmation which is in the handwriting of the physician or other person prescribing the drug and which indicates with such appropriate phrase that the particular drug was required to have been dispensed.

"(C) PAYMENT CALCULATION PERIOD.—The term 'payment calculation period' means the 6-month period beginning with January of each year and the 6-month period beginning with July of each year.

"(D) OUTLAYS; RECEIPTS.—The terms 'outlays' and 'receipts' mean, with respect to a year or other period, gross outlays and receipts, as such terms are employed in the 'Monthly Treasury Statement of Receipts and Outlays of the United States Government (MTS)', as published by the Department of the Treasury, for months in such year or other period.".

(c) PARTICIPATING PHARMACIES; CIVIL MONEY PENALTIES.—

(1) PARTICIPATING PHARMACIES.—Section 1842 (42 U.S.C. 1395t) is amended— 42 USC 1395u.

(A) in subsection (h)(1), by inserting before the period at the end of the second sentence the following: ", except that, with respect to a supplier of covered outpatient drugs, the term 'participating supplier' means a participating pharmacy (as defined in subsection (o)(1))";

(B) in subsection (h)(4), is amended by adding at the end the following: "In publishing directories under this paragraph, the Secretary shall provide for separate directories (wherever appropriate) for participating pharmacies."; and

(C) by adding at the end the following new subsection:

"(o)(1) For purposes of this section, the term 'participating pharmacy' means, with respect to covered outpatient drugs dispensed on or after January 1, 1991, an entity which is authorized under a State law to dispense covered outpatient drugs and which has entered into an agreement with the Secretary, providing at least the following:

"(A) The entity agrees to accept payment under this part on an assignment-related basis for all covered outpatient drugs dispensed to an individual entitled to benefits under this part (in this subsection referred to as a 'medicare beneficiary') during a year after—

"(i) the Secretary has notified the entity, through the electronic system described in subparagraph (D)(i), or

"(ii) in the absence of such a system, the entity is otherwise notified that the Secretary has determined,

that the individual has met the catastrophic drug deductible with respect to such drugs under section 1834(c)(1) for the year.

"(B) The entity agrees—

"(i) not to refuse to dispense covered outpatient drugs stocked by the entity to any medicare beneficiary, and

"(ii) not to charge medicare beneficiaries (regardless of whether or not the beneficiaries are enrolled under a prepaid health plan or with eligible organization under section 1876) more for such drugs than the amount it charges to the general public (as determined by the Secretary in regulations).

"(C) The entity agrees to keep patient records (including records on expenses) for all covered outpatient drugs dispensed to all medicare beneficiaries.

"(D) The entity agrees to submit information (in a manner specified by the Secretary to be necessary to administer this title) on all purchases of covered outpatient drugs dispensed to medicare beneficiaries.

"(E) The entity agrees—

"(i) to offer to counsel, or to offer to provide information (consistent with State law respecting the provision of such information) to, each medicare beneficiary on the appropriate use of a drug to be dispensed and whether there are potential interactions between the drug and other drugs dispensed to the beneficiary; and

"(ii) to advise the beneficiary on the availability (consistent with State laws respecting substitution of drugs) of therapeutically equivalent covered outpatient drugs.

"(F) The entity agrees to provide the information requested by the Secretary in surveys under section 1834(c)(3)(C)(ii).

Nothing in this paragraph shall be construed as requiring a pharmacy operated by an eligible organization (described in section 1876(b)) or an organization described in section 1833(a)(1)(A) for the exclusive benefit of its members to dispense covered outpatient drugs to individuals who are not members of the organization.

"(2) The Secretary shall provide to each participating pharmacy—

"(A) a distinctive emblem (suitable for display to the public) indicating that the pharmacy is a participating pharmacy, and

"(B) upon request, such electronic equipment and technical assistance (other than the costs of obtaining, maintaining, or expanding telephone service) as the Secretary determines may be necessary for the pharmacy to submit claims using the electronic system established under paragraph (4). Claims.

"(3) The Secretary shall provide for periodic audits of participating pharmacies to assure—

"(A) compliance with the requirements for participation under this title, and

"(B) the accuracy of information submitted by the pharmacies under this title.

"(4) The Secretary shall establish, by not later than January 1, 1991, a point-of-sale electronic system for use by carriers and participating pharmacies in the submission of information respecting covered outpatient drugs dispensed to medicare beneficiaries under this part. Science and technology. Communications and telecommunications.

"(5) Notwithstanding subsection (b)(3)(B), payment for covered outpatient drugs may be made on the basis of an assignment described in clause (ii) of that subsection only to a participating pharmacy.".

(2) CIVIL MONEY PENALTIES FOR VIOLATION OF PARTICIPATION AGREEMENT, FOR EXCESSIVE CHARGES FOR NONPARTICIPATING PHARMACIES AND FOR FAILURE TO PROVIDE SURVEY INFORMATION.—Section 1128A(a) (42 U.S.C. 1320a-7a(a)) is amended—

(A) by striking "or" at the end of paragraph (1),

(B) in paragraph (2)(C), by inserting "or to be a participating pharmacy under section 1842(o)" after "1842(h)(1)",

(C) by striking ", or" at the end of paragraph (2) and inserting a semicolon,

(D) by adding "or" at the end of paragraph (3), and

(E) by inserting after paragraph (3) the following new paragraph:

"(4) in the case of a participating or nonparticipating pharmacy (as defined for purposes of part B of title XVIII)—

"(A) presents or causes to be presented to any person a request for payment for covered outpatient drugs dispensed to an individual entitled to benefits under part B of title XVIII and for which the amount charged by the pharmacy is greater than the amount the pharmacy charges the general public (as determined by the Secretary in regulations), or

"(B) fails to provide the information requested by the Secretary in a survey under section 1834(c)(3)(C)(ii);".

(d) LIMITATION ON LENGTH OF PRESCRIPTION.—Section 1862(c) (42 U.S.C. 1395y(c)) is amended—

(1) by redesignating subparagraphs (A) through (D) of paragraph (1) as clauses (i) through (iv), respectively;

(2) in paragraph (2)(A), by striking "paragraph (1)" and inserting "subparagraph (A)";

(3) by redesignating subparagraphs (A) and (B) of paragraph (2) as clauses (i) and (ii), respectively;

19-139 0 - 88 (360) - 2

(4) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively;

(5) by inserting "(1)" after "(c)"; and

(6) by adding at the end the following new paragraph:

"(2) No payment may be made under part B for any expense incurred for a covered outpatient drug if the drug is dispensed in a quantity exceeding a supply of 30 days or such longer period of time (not to exceed 90 days, except in exceptional circumstances) as the Secretary may authorize.".

(e) USE OF CARRIERS, FISCAL INTERMEDIARIES, AND OTHER ENTITIES IN ADMINISTRATION.—

(1) AUTHORIZING USE OF OTHER ENTITIES IN ELECTRONIC CLAIMS SYSTEM.—Section 1842(f) (42 U.S.C. 1395u(f)) is amended—

(A) by striking "and" at the end of paragraph (1),

(B) by striking the period at the end of paragraph (2) and inserting "; and", and

(C) by adding at the end the following new paragraph:

"(3) with respect to implementation and operation (and related functions) of the electronic system established under subsection (o)(4), a voluntary association, corporation, partnership, or other nongovernmental organization, which the Secretary determines to be qualified to conduct such activities.".

(2) ADDITIONAL FUNCTIONS OF CARRIERS.—Section 1842(b)(3) (42 U.S.C. 1395u(b)(3)), as amended by section 201(c) of this Act, is amended—

(A) by striking "and" at the end of subparagraph (H), and

(B) by inserting after subparagraph (I) the following new subparagraphs:

"(J) if it makes determinations or payments with respect to covered outpatient drugs, will—

"(i) receive information transmitted under the electronic system established under subsection (o)(4), and

"(ii) respond to requests by participating pharmacies (and individuals entitled to benefits under this part) as to whether or not such an individual has met the catastrophic drug deductible established under section 1834(c)(1)(A) for a year; and

Contracts.

"(K) will enter into such contracts with organizations described in subsection (f)(3) as the Secretary determines may be necessary to implement and operate (and for related functions with respect to) the electronic system established under subsection (o)(4) for covered outpatient drugs under this part;".

(3) SPECIAL CONTRACT PROVISIONS FOR ELECTRONIC CLAIMS SYSTEM.—

(A) PAYMENT ON OTHER THAN A COST BASIS.—Section 1842(c)(1)(A) (42 U.S.C. 1395u(c)(1)(A)) is amended—

(i) by inserting "(i)" after "(c)(1)(A)",

(ii) in the first sentence, by inserting ", except as provided in clause (ii)," after "under this part, and", and

(iii) by adding at the end the following new clause:

"(ii) To the extent that a contract under this section provides for implementation and operation (and related functions) of the electronic system established under subsection (o)(4) for covered outpatient drugs, the Secretary may provide for payment for such activities based on any method of payment determined by the Secretary to be appropriate.".

(B) APPLICATION OF DIFFERENT PERFORMANCE STANDARDS.—The Secretary of Health and Human Services, before entering into contracts under section 1842 of the Social Security Act with respect to the implementation and operation (and related functions) of the electronic system for covered outpatient drugs, shall establish standards with respect to performance with respect to such activities. The provisions of section 1153(e)(2), and paragraphs (1) and (2) of section 1153(h), of such Act shall apply to such activities in the same manner as they apply to contracts with peer review organizations, instead of the requirements of the last 2 sentences of section 1842(b)(2) of such Act. Contracts. 42 USC 1395u note.

(C) USE OF REGIONAL CARRIERS.—Section 1842(b)(2) is amended by adding at the end the following new sentence: "With respect to activities relating to implementation and operation (and related functions) of the electronic system established under subsection (o)(4), the Secretary may enter into contracts with carriers under this section to perform such activities on a regional basis.". Contracts.

(4) ADJUSTMENT OF CARRIER OBLIGATIONS.—

(A) NO TOLL-FREE TELEPHONE NUMBER REQUIRED OF LIMITED CARRIERS.—Section 1842(h)(2) (42 U.S.C. 1395u(h)(2)) is amended by inserting "(other than a carrier described in subsection (f)(3))" after "Each carrier".

(B) DELAY IN APPLICATION OF COORDINATED BENEFITS WITH MEDIGAP.—The provisions of subparagraph (B) of section 1842(h)(3) of the Social Security Act shall not apply to covered outpatient drugs (other than drugs described in section 1861(s)(2)(J) of such Act as of the date of the enactment of this Act) dispensed before January 1, 1993. 42 USC 1395u note.

(5) BATCH PROMPT PROCESSING OF CLAIMS.—Section 1842(c) (42 U.S.C. 1395u(c)) is amended—

(A) in paragraphs (2)(A) and (3)(A), by striking "Each" and inserting "Except as provided in paragraph (3), each";

(B) by adding at the end the following new paragraph:

"(4)(A) Each contract under this section which provides for the disbursement of funds, as described in subsection (a)(1)(B), with respect to claims for payment for covered outpatient drugs shall provide for a payment cycle under which each carrier will, on a monthly basis, make a payment with respect to all claims which were received and approved for payment in the period since the most recent date on which such a payment was made with respect to the participating pharmacy or individual submitting the claim. Contracts. Claims.

"(B) If payment is not issued, mailed, or otherwise transmitted within 5 days of when such a payment is required to be made under subparagraph (A), interest shall be paid at the rate used for purposes of section 3902(a) of title 31, United States Code (relating to interest penalties for failure to make prompt payments) for the period beginning on the day after such 5-day period and ending on the date on which payment is made.".

(f) MODIFICATION OF HMO/CMP CONTRACTS.—

(1) SEPARATE ACTUARIAL DETERMINATION FOR COVERED OUTPATIENT DRUG BENEFIT.—Section 1876(e)(1) (42 U.S.C. 1395mm(e)(1)) is amended by adding at the end thereof the following new sentence: "The preceding sentence shall be applied separately with respect to covered outpatient drugs.".

(2) ADDITIONAL OPTIONAL BENEFITS.—Section 1876(g)(3)(A) (42 U.S.C. 1395mm(g)(3)(A)) is amended by striking "rate" and inserting "rates".

(g) REQUIRING SUBMISSION OF DIAGNOSTIC INFORMATION.—Section 1842 (42 U.S.C. 1395u), as amended by subsection (c)(1)(C), is amended by adding at the end the following new subsection:

Health care professionals.

"(p)(1) Each request for payment, or bill submitted, for an item or service furnished by a physician for which payment may be made under this part shall include the appropriate diagnosis code (or codes) as established by the Secretary for such item or service.

"(2) In the case of a request for payment for an item or service furnished by a physician on an assignment-related basis which does not include the code (or codes) required under paragraph (1), payment may be denied under this part.

Law enforcement and crime.

"(3) In the case of a request for payment for an item or service furnished by a physician not submitted on an assignment-related basis and which does not include the code (or codes) required under paragraph (1)—

"(A) if the physician knowingly and willfully fails to provide the code (or codes) promptly upon request of the Secretary or a carrier, the physician may be subject to a civil money penalty in an amount not to exceed $2,000, and

"(B) if the physician knowingly, willfully, and in repeated cases fails, after being notified by the Secretary of the obligations and requirements of this subsection, to include the code (or codes) required under paragraph (1), the physician may be subject to the sanction described in section 1842(j)(2)(A).

The provisions of section 1128A (other than subsections (a) and (b)) shall apply to civil money penalties under subparagraph (A) in the same manner as they apply to a penalty or proceeding under section 1128A(a).".

(h) CONFORMING AMENDMENTS.—

(1) The first sentence of section 1866(a)(2)(A) (42 U.S.C. 1395cc(a)(2)(A)) is amended—

(A) by inserting "1834(c)," after "1833(b),", and

Drugs and drug abuse.

(B) by inserting "and in the case of covered outpatient drugs, applicable coinsurance percent (specified in section 1834(c)(2)(C)) of the lesser of the actual charges for the drugs or the payment limit (established under section 1834(c)(3))" after "established by the Secretary".

(2) Section 1903(i)(5) (42 U.S.C. 1396b(i)(5)) is amended by striking "section 1862(c)" and inserting "section 1862(c)(1)".

42 USC 1395m note.

(i) REPORTS ON MEDICARE BENEFICIARY DRUG EXPENSES.—

(1) HHS.—The Secretary of Health and Human Services, by not later than April 1, 1989—

(A) using data from the 1987 National Medical Expenditures Survey (conducted by the National Center for Health Services Research and Health Care Technology Assessment), shall report to Congress on expenses incurred by medicare beneficiaries for outpatient prescription drugs, and

(B) shall provide the Director of the Congressional Budget Office with such data from that Survey as the Director may request to make the estimates required under paragraph (2).

(2) REESTIMATION OF COSTS.—The Director of the Congressional Budget Office shall transmit to the Congress, not later

than June 1, 1989, or, if later, 60 days after the date of providing data requested under paragraph (1)(B), the Director's estimate of the outlays which will be made (in each of fiscal years 1990, 1991, 1992, and 1993) under the medicare program for covered outpatient drugs (under the amendments made by this section).

(j) PRESCRIPTION DRUG PAYMENT REVIEW COMMISSION.—Part B is amended by adding at the end the following new section:

"PRESCRIPTION DRUG PAYMENT REVIEW COMMISSION

"SEC. 1847. (a)(1) The Director of the Congressional Office of Technology Assessment (in this section referred to as the 'Director' and the 'Office', respectively) shall provide for the appointment of a Prescription Drug Payment Review Commission (in this section referred to as the 'Commission'), to be composed of individuals with expertise in the provision and financing of covered outpatient drugs appointed by the Director (without regard to the provisions of title 5, United States Code, governing appointments in the competitive service). 42 USC 1395w-3.

"(2) The Commission shall consist of 11 individuals. Members of the Commission shall first be appointed by no later than January 1, 1989, for a term of 3 years, except that the Director may provide initially for such shorter terms as will insure that (on a continuing basis) the terms of no more than 4 members expire in any one year.

"(3) The membership of the Commission shall include recognized experts in the fields of health care economics, medicine, pharmacology, pharmacy, and prescription drug reimbursement, as well as at least one individual who is a medicare beneficiary.

"(b)(1) The Commission shall submit to Congress an annual report no later than May 1 of each year, beginning with 1990, concerning methods of determining payment for covered outpatient drugs under this part. Reports.

"(2) Such report, in 1992 and thereafter, shall include, with respect to the previous year, information on—

"(A) increases in manufacturers' prices for covered outpatient drugs and in charges of pharmacists for covered outpatient drugs,

"(B) the level of utilization of covered outpatient drugs by medicare beneficiaries, and

"(C) administrative costs relating to covered outpatient drugs.

"(3) Such report, in 1992 and thereafter, shall include comments on the budgetary status of the Federal Catastrophic Drug Insurance Trust Fund and recommendations for any reductions in outlays that may be required to achieve the contingency margin (established under section 1841A(d) for the following year), taking into account each of the causes of increased or unanticipated outlays for covered outpatient drugs in the year.

"(c) Section 1845(c)(1) shall apply to the Commission in the same manner as it applies to the Physician Payment Review Commission.

"(d) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. Such sums shall be payable from the Federal Catastrophic Drug Insurance Trust Fund.". Appropriation authorization.

(k) ADDITIONAL STUDIES.— Reports.

(1) HHS.—The Secretary of Health and Human Services (in this section referred to as the "Secretary") shall conduct the 42 USC 1395m note.

following studies, and report to Congress on the results of each such study by the following dates:

Diseases.

(A) A study of the possibility of including drugs which have not yet been approved under section 505 or 507 of the Federal Food, Drug, and Cosmetic Act and biological products which have not been licensed under section 351 of the Public Health Service Act but which are commonly used in the treatment of cancer or in immunosuppressive therapy and other experimental drugs and biological products as covered outpatient drugs under the medicare program, for which a report shall be made by January 1, 1990. The study under this subparagraph shall be conducted in consultation with an advisory board of consumers, experts in the fields of cancer chemotherapy and immunosuppressive therapy, representatives of pharmaceutical manufacturers, and such other individuals as the Secretary may select.

Mail.

(B) A study to evaluate the potential to use mail service pharmacies to reduce costs to the medicare program and to medicare beneficiaries, for which a report shall be made by January 1, 1990.

(C) A study of methods to improve utilization review of covered outpatient drugs, for which a report shall be made by January 1, 1993.

(D) A longitudinal study, to be conducted as a follow-up to the data collected under the survey referred to in subsection (i)(1)(A), on the use of outpatient prescription drugs by medicare beneficiaries with respect to medical necessity, potential for adverse drug interactions, cost (including whether lower cost drugs could have been used), and patient stockpiling or wastage, for which a report shall be made by January 1, 1993.

(2) GAO.—The Comptroller General shall conduct the following studies, and report to Congress on the results of each such study by not later than May 1, 1991:

(A) A study comparing average wholesale prices with actual pharmacy acquisition costs by type of pharmacy.

(B) A study to determine the overhead costs of retail pharmacies.

(C) A study of the discounts given by pharmacies to other third-party insurers.

Records.

Pharmacies which fail to provide the Comptroller General with reasonable access to necessary records to carry out the studies under this paragraph are subject to exclusion from the medicare and medicaid programs under section 1128(a) of the Social Security Act.

42 USC 1395m note.

(l) Development of Standard Medicare Claims Form.—

(1) The Secretary shall develop, in consultation with representatives of pharmacies and other interested individuals, a standard claims form (and a standard electronic claims format) to be used in requests for payment for covered outpatient drugs under the medicare program and other third-party payors.

(2) Not later than October 1, 1989, the Secretary shall distribute official sample copies of the format developed under paragraph (1) to pharmacies and other interested parties and by not later than October 1, 1990, shall distribute official sample copies of the form developed under paragraph (1) to pharmacies and other interested parties.

(m) EFFECTIVE DATES.— 42 USC 1395u note.

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to items dispensed on or after January 1, 1990.

(2) CARRIERS.—The amendments made by subsection (e) shall take effect on the date of the enactment of this Act; except that the amendments made by subsection (e)(5) shall take effect on January 1, 1991, but shall not be construed as requiring payment before February 1, 1991.

(3) HMO/CMP ENROLLMENTS.—The amendment made by subsection (f) shall apply to enrollments effected on or after January 1, 1990.

(4) DIAGNOSTIC CODING.—The amendment made by subsection (g) shall apply to services furnished after March 31, 1989.

(5) TRANSITION.—With respect to administrative expenses (and costs of the Prescription Drug Payment Review Commission) for periods before January 1, 1990, amounts otherwise payable from the Federal Catastrophic Drug Insurance Trust Fund shall be payable from the Federal Supplementary Medical Insurance Trust Fund and shall also be treated as a debit to the Medicare Catastrophic Coverage Account.

SEC. 203. COVERAGE OF HOME INTRAVENOUS DRUG THERAPY SERVICES.

(a) IN GENERAL.—Section 1832(a)(2)(A) (42 U.S.C. 1395k(a)(2)(A)) is amended by inserting "and home intravenous drug therapy services" before the semicolon.

(b) HOME INTRAVENOUS DRUG THERAPY SERVICES DEFINED.—Section 1861 (42 U.S.C. 1395x) is amended by adding at the end the following new subsection:

"(jj)(1) The term 'home intravenous drug therapy services' means the items and services described in paragraph (2) furnished to an individual who is under the care of a physician—

"(A) in a place of residence used as such individual's home;

"(B) by a qualified home intravenous drug therapy provider (as defined in paragraph (3)) or by others under arrangements with them made by such provider; and

"(C) under a plan established and periodically reviewed by a physician.

"(2) The items and services described in this paragraph are such nursing, pharmacy, and related services (including medical supplies, intravenous fluids, delivery, and equipment) as are necessary to conduct safely and effectively an intravenously administered drug regimen through use of a covered home IV drug (as defined in subsection (t)(4)), but do not include such covered outpatient drugs.

"(3) The term 'qualified home intravenous drug therapy provider' means any entity that the Secretary determines meets the following requirements:

"(i) The entity is capable of providing or arranging for the items and services described in paragraph (2) and covered home IV drugs.

"(ii) The entity maintains clinical records on all patients.

"(iii) The entity adheres to written protocols and policies with respect to the provision of items and services.

"(iv) The entity makes services available (as needed) seven days a week on a 24-hour basis.

"(v) The entity coordinates all services with the patient's physician.

"(vi) The entity conducts a quality assessment and assurance program, including drug regimen review and coordination of patient care.

"(vii) The entity assures that only trained personnel provide covered home IV drugs (and any other service for which training is required to safely provide the service).

"(viii) The entity assumes responsibility for the quality of services provided by others under arrangements with the agency or entity.

"(ix) In the case of an entity in any State in which State or applicable local law provides for the licensing of entities of this nature, (I) is licensed pursuant to such law, or (II) is approved, by the agency of such State or locality responsible for licensing entities of this nature, as meeting the standards established for such licensing.

"(x) The entity meets such other requirements as the Secretary may determine are necessary to assure the safe and effective provision of home intravenous drug therapy services and the efficient administration of the home intravenous drug therapy benefit.".

(c) PAYMENT.—

(1) IN GENERAL.—Part B is amended—

(A) in subsection (a)(2)(B) of section 1833 (42 U.S.C. 1395l), by striking "or (E)" and inserting "(E), or (F)";

(B) in subsection (a)(2)(D) of such section, by striking "and" at the end;

(C) in subsection (a)(2)(E) of such section, by striking the semicolon and inserting "; and";

(D) by inserting after subsection (a)(2)(E) of such section the following new subparagraph:

"(F) with respect to home intravenous drug therapy services, the amounts described in section 1834(d)(1);";

(E) in subsection (b) of such section, by striking "services, (3)" and inserting "services and home intravenous drug therapy services, (3)"; and

(F) by adding at the end of section 1834, as amended by section 202(b)(4) of this Act, the following new subsection:

42 USC 1395m.

"(d) HOME INTRAVENOUS DRUG THERAPY SERVICES.—

"(1) IN GENERAL.—With respect to home intravenous drug therapy services, subject to paragraph (3), payment under this part shall be made in an amount equal to the lesser of the actual charges for such services or the fee schedule established under paragraph (2).

Regulations.

"(2) ESTABLISHMENT OF FEE SCHEDULE.—The Secretary shall establish by regulation before the beginning of calendar year 1990 and each succeeding calendar year a fee schedule for home intravenous drug therapy services for which payment is made under this part. A fee schedule established under this subsection shall be on a per diem basis.

"(3) LIMITATION ON ACCEPTANCE OF, AND PAYMENTS FOR, CERTAIN REFERRALS.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), a home intravenous drug therapy provider may not provide home intravenous drug therapy services under this part to an individual if the individual's referring physician (as defined in subparagraph (D)), or an immediate family member of the physician—

"(i) has an ownership interest in the provider, or
"(ii) receives compensation from the provider.
"(B) EXCEPTIONS.—
"(i) Subparagraph (A)(i) shall not apply—
"(I) if the ownership interest is the ownership of stock which is traded over a publicly-regulated exchange and was purchased on terms generally available to the public, or
"(II) if the provider is a sole home intravenous drug therapy provider (as defined by the Secretary) in a rural area.
"(ii) Subparagraph (A)(ii) shall not apply if the compensation is reasonably related to items or services actually provided by the physician and does not vary in proportion to the number of referrals made by the referring physician, but such exception shall not apply to compensation provided for direct patient care services.
"(iii) Subparagraph (A) shall not be construed to apply to a referring physician whose only ownership or financial relationship with the provider is as an uncompensated officer or director of the provider.
"(iv) Subparagraph (A) also shall not apply in such cases, established by the Secretary in regulations, in which the nature of the ownership or compensation does not pose a substantial risk of program abuse.
"(C) SANCTIONS.—
"(i) DENIAL OF PAYMENT.—No payment may be made under this part for home intravenous drug therapy services which are provided in violation of subparagraph (A).
"(ii) CIVIL MONEY PENALTY FOR IMPROPER CLAIMS.—Any person (including a home intravenous drug therapy provider or physician) that presents or causes to be presented a claim for an item or service that such person knows or should know is for an item or service for which payment may not be made under subparagraph (A) shall be subject to a civil money penalty of not more than $15,000 for each such item or service. The provisions of section 1128A (other than the first sentence of subsection (a) and other than subsection (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).
"(D) REFERRING PHYSICIAN DEFINED.—In this paragraph, the term 'referring physician' means, with respect to providing home intravenous drug therapy services to an individual, a physician who—
"(i) prescribed the covered home IV drug for which the services are to be provided, or
"(ii) established the plan of care for such services.".

(2) PROPAC STUDY.—The Prospective Payment Assessment Commission shall conduct a study, and make recommendations to Congress and the Secretary of Health and Human Services by not later than March 1, 1991, concerning appropriate adjustment to the payment amounts provided under section 1886(d) of the Social Security Act for inpatient hospital services to account 42 USC 1395ww note.

for reduced costs to hospitals resulting from the amendments made by this section.

Health care professionals.

(3) INSPECTOR GENERAL REPORT ON POTENTIALLY ABUSIVE OWNERSHIP OR COMPENSATION ARRANGEMENTS.—The Inspector General of the Department of Health and Human Services shall study and report to Congress, by not later than May 1, 1989, concerning—

(A) physician ownership of, or compensation from, an entity providing items or services to which the physician makes referrals and for which payment may be made under the medicare program;

(B) the range of such arrangements and the means by which they are marketed to physicians;

(C) the potential of such ownership or compensation to influence the decision of a physician regarding referrals and to lead to inappropriate utilization of such items and services; and

Law enforcement and crime.

(D) the practical difficulties involved in enforcement actions against such ownership and compensation arrangements that violate current antikickback provisions.

Such report shall include such recommendations as may be appropriate to strengthen current law provisions to prevent program abuse.

(d) CERTIFICATION.—

(1) IN GENERAL.—Section 1835(a)(2) (42 U.S.C. 1395n(a)(2)) is amended—

(A) by striking "and" at the end of subparagraph (E);

(B) by striking the period at the end of subparagraph (F) and inserting "; and"; and

(C) by inserting after subparagraph (F) the following new subparagraph:

"(G) in the case of home intravenous drug therapy services, (i) such services are or were required because the individual needed such services for the administration of a covered home IV drug, (ii) a plan for furnishing such services has been established and is reviewed periodically by a physician, (iii) such services are or were furnished while the individual is or was under the care of a physician, (iv) such services are administered in a place of residence used as such individual's home, and (v) with respect to such services initiated before January 1, 1993, such services have been reviewed and approved by a utilization and peer review organization under section 1154(a)(16) before the date such services were initiated (or, in the case of services first initiated on an outpatient basis, within 1 working day (except in exceptional circumstances) of the date of initiation of the services).".

(2) PRO PRIOR APPROVAL REQUIRED.—Section 1154(a) (42 U.S.C. 1320c-3(a)) is amended by adding at the end the following new paragraph:

"(16) The organization shall perform the review described in paragraph (1) with respect to home intravenous drug therapy services (as defined in section 1861(jj)(1)) initiated before January 1, 1993, within 1 working day of the date of the organization's receipt of a request for such review. The Secretary shall establish criteria to be used by such an organization in conducting reviews with respect to the appropriateness of home intravenous drug therapy services under this paragraph.".

(e) CERTIFICATION OF HOME INTRAVENOUS DRUG THERAPY PROVIDERS; INTERMEDIATE SANCTIONS FOR NONCOMPLIANCE.—

(1) TREATMENT AS PROVIDER OF SERVICES.—Section 1861(u) (42 U.S.C. 1395x(u)) is amended by inserting "home intravenous drug therapy provider," after "hospice program,".

(2) CONSULTATION WITH STATE AGENCIES AND OTHER ORGANIZATIONS.—Section 1863 (42 U.S.C. 1395z) is amended by striking "and (dd)(2)" and inserting "(dd)(2), and (jj)(3)".

(3) USE OF STATE AGENCIES IN DETERMINING COMPLIANCE.—Section 1864(a) (42 U.S.C. 1395aa(a)) is amended—

(A) in the first sentence, by inserting "or a home intravenous drug therapy provider," after "hospice program", and

(B) in the second sentence, by striking "or hospice program" and inserting "hospice program, or home intravenous drug therapy provider".

(4) APPLICATION OF INTERMEDIATE SANCTIONS.—Section 1846 (42 U.S.C. 1395w-2) is amended—

(A) in the heading, by adding "AND FOR QUALIFIED HOME INTRAVENOUS DRUG THERAPY PROVIDERS" at the end;

(B) in subsection (a), by inserting "or that a qualified home intravenous drug therapy provider that is certified for participation under this title no longer substantially meets the requirements of section 1861(jj)(3)" after "under this part"; and

(C) in subsection (b)(2)(A)(iv) by inserting "or home intravenous drug therapy services" after "clinical diagnostic laboratory tests".

(f) USE OF REGIONAL INTERMEDIARIES IN ADMINISTRATION OF BENEFIT.—Section 1816 (42 U.S.C. 1395h) is amended by adding at the end thereof the following new subsection:

"(k) With respect to carrying out functions relating to payment for home intravenous drug therapy services and covered home IV drugs, the Secretary may enter into contracts with agencies or organizations under this section to perform such functions on a regional basis.". Contracts.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply to items and services furnished on or after January 1, 1990. 42 USC 1320c-3 note.

SEC. 204. COVERAGE OF SCREENING MAMMOGRAPHY.

(a) IN GENERAL.—Section 1861 (42 U.S.C. 1395x) is amended—

(1) in subsection (s)—

(A) by redesignating paragraphs (13) and (14) as paragraphs (14) and (15), respectively,

(B) by striking "and" at the end of paragraph (11),

(C) by striking the period at the end of paragraph (12) and inserting "; and", and

(D) by inserting after paragraph (12) the following new paragraph:

"(13) screening mammography (as defined in subsection (kk)).''; and

(2) by adding at the end the following new subsection:

"Screening Mammography

"(kk) The term 'screening mammography' means a radiologic procedure provided to a woman for the purpose of early detection of breast cancer and includes a physician's interpretation of the results of the procedure.".

(b) PAYMENT AND COVERAGE.—Section 1834 (42 U.S.C. 1395m), as amended by sections 202(b)(4) and 203(c)(1)(F) of this Act, is amended—

(1) in subsection (b)(1)(B), by inserting "and subject to subsection (e)(1)(A)" after "conversion factors", and

(2) by adding at the end the following new subsection:

"(e) PAYMENTS AND STANDARDS FOR SCREENING MAMMOGRAPHY.—

"(1) IN GENERAL.—Notwithstanding any other provision of this part (except as provided in section 1833(c)), with respect to expenses incurred for screening mammography (as defined in section 1861(kk))—

"(A) payment may be made only for screening mammography conducted consistent with the frequency permitted under paragraph (2);

"(B) payment may be made only if the screening mammography meets the quality standards established under paragraph (3); and

"(C) the amount of the payment under this part shall, subject to the deductible established under section 1833(b), be equal to 80 percent of the least of—

"(i) the actual charge for the screening,

"(ii) the fee schedule established under subsection (b) with respect to both the professional and technical components of the screening mammography, in the case of screening mammography subject to such schedule but for this paragraph, or

"(iii) the limit established under paragraph (4) for the screening mammography.

"(2) FREQUENCY COVERED.—

"(A) IN GENERAL.—Subject to revision by the Secretary under subparagraph (B)—

"(i) No payment may be made under this part for screening mammography performed on a woman under 35 years of age.

"(ii) Payment may be made under this part for only 1 screening mammography performed on a woman over 34 years of age, but under 40 years of age.

"(iii) In the case of a woman over 39 years of age, but under 50 years of age, who—

"(I) is at a high risk of developing breast cancer (as determined pursuant to factors identified by the Secretary), payment may not be made under this part for a screening mammography performed within the 11 months of a previous screening mammography, or

"(II) is not at a high risk of developing breast cancer, payment may not be made under this part for a screening mammography performed within the 23 months after a previous screening mammography.

"(iv) In the case of a woman over 49 years of age, but under 65 years of age, payment may not be made under this part for screening mammography performed within 11 months after a previous screening mammography.

"(v) In the case of a woman over 64 years of age, payment may not be made for screening mammography performed within 23 months after a previous screening mammography.

"(B) REVISION OF FREQUENCY.—

"(i) REVIEW.—The Secretary, in consultation with the Director of the National Cancer Institute, shall review periodically the appropriate frequency for performing screening mammography, based on age and such other factors as the Secretary believes to be pertinent.

"(ii) REVISION OF FREQUENCY.—The Secretary, taking into consideration the review made under clause (i), may revise from time to time the frequency with which screening mammography may be paid for under this subsection, but no such revision shall apply to screening mammography performed before January 1, 1992.

"(3) QUALITY STANDARDS.—The Secretary shall establish standards to assure the safety and accuracy of screening mammography performed under this part. Such standards shall include the requirements that— Safety.

"(A) the equipment used to perform the mammography must be specifically designed for mammography and must meet radiologic standards established by the Secretary for mammography;

"(B) the mammography must be performed by an individual who—

"(i) is licensed by a State to perform radiological procedures, or

"(ii) is certified as qualified to perform radiological procedures by such an appropriate organization as the Secretary specifies in regulations;

"(C) the results of the mammography must be interpreted by a physician—

"(i) who is certified as qualified to interpret radiological procedures by such an appropriate board as the Secretary specifies in regulations, or

"(ii) who is certified as qualified to interpret screening mammography procedures by such a program as the Secretary recognizes in regulation as assuring the qualifications of the individual with respect to such interpretation; and

"(D) with respect to the first screening mammography performed on a woman for which payment is made under this part, there are satisfactory assurances that the results of the mammography will be placed in permanent medical records maintained with respect to the woman. Records.

"(4) LIMIT.—

"(A) $50, INDEXED.—Except as provided by the Secretary under subparagraph (B), the limit established under this paragraph—

"(i) for screening mammography performed in 1990, is $50, and "(ii) for screening mammography performed in a subsequent year is the limit established under this paragraph for the preceding year increased by the percentage increase in the MEI for that subsequent year.

"(B) REDUCTION OF LIMIT.—The Secretary shall review from time to time the appropriateness of the amount of the limit established under this paragraph. The Secretary may, with respect to screening mammography performed in a year after 1991, reduce the amount of such limit as it applies nationally or in any area to the amount that the Secretary estimates is required to assure that screening mammography of an appropriate quality is readily and conveniently available during the year.

"(C) APPLICATION OF LIMIT IN HOSPITAL OUTPATIENT SETTING.—The Secretary shall provide for an appropriate allocation of the limit established under this paragraph between professional and technical components in the case of hospital outpatient screening mammography (and comparable situations) where there is a claim for professional services separate from the claim for the radiologic procedure.

Claims.

"(5) LIMITING CHARGES OF NONPARTICIPATING PHYSICIANS.—

"(A) IN GENERAL.—In the case of mammography screening performed on or after January 1, 1990, for which payment is made under this subsection, if a nonparticipating physician or supplier provides the screening to an individual entitled to benefits under this part, the physician or supplier may not charge the individual more than the limiting charge (as defined in subparagraph (B), or, if applicable and if less, as defined in subsection (b)(5)(B)).

"(B) LIMITING CHARGE DEFINED.—In subparagraph (A), the term 'limiting charge' means, with respect to screening mammography performed—

"(i) in 1990, 125 percent of the limit established under paragraph (4),

"(ii) in 1991, 120 percent of the limit established under paragraph (4), and

"(iii) after 1991, 115 percent of the limit established under paragraph (4).

"(C) ENFORCEMENT.—If a physician or supplier knowing and willfully imposes a charge in violation of subparagraph (A), the Secretary may apply sanctions against such physician or supplier in accordance with section 1842(j)(2).".

(c) CERTIFICATION OF SCREENING MAMMOGRAPHY QUALITY STANDARDS.—

(1) Section 1863 (42 U.S.C. 1395z) is amended by inserting "or whether screening mammography meets the standards established under section 1834(e)(3)," after "1832(a)(2)(F)(i),".

(2) The first sentence of section 1864(a) (42 U.S.C. 1395aa(a)) is amended by inserting before the period the following: ", or whether screening mammography meets the standards established under section 1834(e)(3)".

(3) Section 1865(a) (42 U.S.C. 1395bb(a)) is amended by inserting "1834(e)(3)," after "1832(a)(2)(F)(i),".

(d) CONFORMING AMENDMENTS.—

(1) Section 1833(a)(2)(E) (42 U.S.C. 1395l(a)(2)(E)) is amended by inserting ", but excluding screening mammography" after "imaging services".

(2) Section 1862(a) (42 U.S.C. 1395y(a)) is amended—

(A) in paragraph (1)—

(i) in subparagraph (A), by striking "subparagraph (B), (C), (D), or (E)" and inserting "a succeeding subparagraph",

(ii) in subparagraph (D), by striking "and" at the end,

(iii) in subparagraph (E), by striking the semicolon at the end and inserting ", and", and

(iv) by adding at the end the following new subparagraph:

"(F) in the case of screening mammography, which is performed more frequently than is covered under section 1834(e)(2) or which does not meet the standards established under section 1834(e)(3);"; and

(B) in paragraph (7), by inserting "or under paragraph (1)(F)" after "(1)(B)".

(3) Sections 1864(a), 1865(a), 1902(a)(9)(C), and 1915(a)(1)(B)(ii)(I) (42 U.S.C. 1395aa(a), 1395bb(a), 1396a(a)(9)(C), 1396n(a)(1)(B)(ii)(I)) are each amended by striking "paragraphs (13) and (14)" and inserting "paragraphs (14) and (15)".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to screening mammography performed on or after January 1, 1990. Paragraph (5) of section 1834(e) of the Social Security Act shall only apply until such time as the Secretary of Health and Human Services implements the physician fee schedules based on relative value scale developed under section 1845(e) of such Act. 42 USC 1395m note.

(f) REPORTS.— 42 USC 1395m note.

(1) The Physician Payment Review Commission shall study and report, by July 1, 1989, to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance of the Senate concerning the cost of providing screening mammography in a variety of settings and at different volume levels.

(2) The Comptroller General shall study and report, by July 1, 1989, to the Committees specified in paragraph (1) concerning the quality of care of screening mammography in a variety of settings.

SEC. 205. IN-HOME CARE FOR CERTAIN CHRONICALLY DEPENDENT INDIVIDUALS.

(a) IN GENERAL.—Section 1832(a) (42 U.S.C. 1395k(a)) is amended—

(1) in paragraph (2)(A)—

(A) by inserting "(i)" after "(A)", and

(B) by inserting before the semicolon at the end the following: ", and (ii) in-home care for a chronically dependent individual for up to 80 hours in any 12-month period described in section 1861(ll)(4), but not to exceed 80 hours in any calendar year;"; and

(2) by adding at the end the following new sentence:

"In the case of in-home care (described in paragraph (2)(A)(ii)) provided to a chronically dependent individual on any day, such care provided for 3 hours or less on the day shall be counted (for purposes of the limitation in such paragraph) as 3 hours of such care.".

(b) IN-HOME CARE FOR CHRONICALLY DEPENDENT INDIVIDUAL DEFINED.—Section 1861 (42 U.S.C. 1395x), as amended by section 204(a)(2) of this Act, is amended by adding at the end the following new subsection:

"In-Home Care; Chronically Dependent Individual

"(ll)(1) The term 'in-home care' means the following items and services furnished, under the supervision of a registered professional nurse, to a chronically dependent individual (as defined in paragraph (2)) during the period described in paragraph (4) by a home health agency or by others under arrangements with them made by such agency in a place of residence used as such individual's home:

"(A) Services of a homemaker/home health aide (who has successfully completed a training program approved by the Secretary).

"(B) Personal care services.

"(C) Nursing care provided by a licensed professional nurse.

"(2) The term 'chronically dependent individual' means an individual who—

"(A) is dependent on a daily basis on a primary caregiver who is living with the individual and is assisting the individual without monetary compensation in the performance of at least 2 of the activities of daily living (described in paragraph (3)), and

"(B) without such assistance could not perform such activities of daily living.

"(3) The 'activities of daily living', referred to in paragraph (2), are as follows:

"(i) Eating.

"(ii) Bathing.

"(iii) Dressing.

"(iv) Toileting.

"(v) Transferring in and out of a bed or in and out of a chair.

"(4) The 12-month period described in this paragraph is the 1-year period beginning on the date that the Secretary determines that a chronically dependent individual either—

"(A) has become entitled to benefits under section 1833(c) (relating to having incurred out-of-pocket part B cost sharing equal to the part B catastrophic limit), or

"(B) has become entitled to have payments made for covered outpatient drugs under section 1834(c).

In the case of an individual who qualifies under subparagraph (A) or (B) within 12 months after previously qualifying, the subsequent qualification shall begin a new 12-month period under this paragraph. In the case of an individual enrolled in a buy-out plan (as defined in section 1833(c)(5)(D)) or a drug buy-out plan (as defined in section 1834(c)(6)(D)), the Secretary shall establish such procedures as may be appropriate to identify individuals who are deemed to be described in subparagraph (A) or (B), respectively, for purposes of the provision of in-home care under the plan.".

(c) PAYMENT.—Section 1833(a) (42 U.S.C. 1395l(a)) is amended—

(1) in paragraph (2), by inserting "(A)(ii)," after "subparagraphs" the first place it appears,

(2) in paragraph (3), by striking "(D)" and inserting "(A)(ii), (D),", and

(3) by adding at the end the following:

"Payment for in-home care for chronically dependent individuals shall be paid on the basis of an hour of such care provided. In applying paragraph (2) in the case of an organization receiving payment under clause (A) of paragraph (1) or under a reasonable cost reimbursement contract under section 1876 and providing coverage of in-home care, the Secretary shall provide for an appropriate adjustment in the payment amounts otherwise made to reflect the aggregate increase in payments that would otherwise be made with respect to enrollees in the organization if payments were made other than under such clause or such a contract if payments were to be made on an individual-by-individual basis.". Contracts.

(d) CERTIFICATION.—Section 1835(a)(2) (42 U.S.C. 1395n(a)(2)), as amended by section 203(d) of this Act, is amended—

(1) by striking "and" at the end of subparagraph (F);

(2) by striking the period at the end of subparagraph (G) and inserting in lieu thereof "; and"; and

(3) by inserting after subparagraph (G) the following new subparagraph:

"(H) in the case of in-home care provided to a chronically dependent individual during a 12-month period, the individual was a chronically dependent individual during the 3-month period immediately preceding the beginning of the 12-month period.".

(e) STANDARDS FOR UTILIZATION.—

(1) Section 1862(a) (42 U.S.C. 1395y(a)), as amended by section 204(d)(2) of this Act, is amended—

(A) in paragraph (1)—

(i) by striking "and" at the end of subparagraph (E),

(ii) by adding "and" at the end of subparagraph (F), and

(iv) by adding at the end the following new subparagraph:

"(G) in the case of in-home care for chronically dependent individuals, which is not reasonable and necessary to assure the health and condition of the individual is maintained in the individual's noninstitutional residence;"; and

(B) in paragraph (6), by inserting "and except, in the case of in-home care, as is otherwise permitted under paragraph (1)(G)" after "paragraph (1)(C)".

(2) The Secretary of Health and Human Services shall take appropriate efforts to assure the quality, and provide for appropriate utilization of, in-home care for chronically dependent individuals under the amendments made by this section. 42 USC 1395k note.

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to items and services furnished on or after January 1, 1990. 42 USC 1395k note.

(g) STUDY OF ALTERNATIVE OUT-OF-HOME SERVICES.—The Secretary of Health and Human Services shall study, and report to Congress, not later than 18 months after the date of the enactment of this Act, on the advisability of providing, to chronically dependent individuals eligible for in-home care under the amendments made by this section, out-of-home services (such as adult day care services or nursing facility services) as alternative services to in-home care. Reports. 42 USC 1395k note.

SEC. 206. EXTENDING HOME HEALTH SERVICES.

(a) IN GENERAL.—Section 1861(m) (42 U.S.C. 1395x(m)) is amended by adding at the end the following new sentence: "For purposes of paragraphs (1) and (4) and sections 1814(a)(2)(C) and 1835(a)(2)(A), nursing care and home health aide services shall be considered to be provided or needed on an 'intermittent' basis if they are provided or needed less than 7 days each week and, in the case they are provided or needed for 7 days each week, if they are provided or needed for a period of up to 38 consecutive days.".

42 USC 1395x note.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to services furnished in cases of initial periods of home health services beginning on or after January 1, 1990.

42 USC 1395b-1 note.

SEC. 207. RESEARCH ON LONG-TERM CARE SERVICES FOR MEDICARE BENEFICIARIES.

(a) IN GENERAL.—The Secretary of Health and Human Services, from the funds appropriated under subsection (b), shall provide for research on issues relating to the delivery and financing of long-term care services for medicare beneficiaries. Such research shall include research into at least the following areas:

(1) The financial characteristics of medicare beneficiaries who receive or need long-term care services, including whether such beneficiaries are eligible for medicaid benefits for such services.

(2) How the financial and other characteristics of medicare beneficiaries affect their utilization of institutional and noninstitutional long-term care services.

(3) How relatives of medicare beneficiaries are affected financially and in other ways because the beneficiaries require or receive long-term care services.

(4) The quality of long-term care services (in community-based and custodial settings) and how the provision of long-term care services may reduce expenditures for acute health care services.

Consumer protection.

(5) The effectiveness of, and need for, State and Federal consumer protections which assure adequate access to and protect the rights of medicare beneficiaries who are provided long-term care services (other than in a nursing facility).

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated, in equal parts from the Federal Hospital Insurance Trust Fund and from the Federal Supplementary Medical Insurance Trust Fund, $5,000,000 for each of fiscal years 1989, 1990, 1991, 1992, and 1993 to carry out the research described in subsection (a).

(c) LONG-TERM CARE SERVICES DEFINED.—In this section, the term "long-term care services" includes nursing home care, home care, community-based services, and custodial care.

(d) REPORTS.—The Secretary of Health and Human Services shall submit interim reports by December 1, 1990, and by December 1, 1992, and a final report by June 1, 1994, concerning the demonstration projects conducted under this section.

42 USC 1395ll note.

SEC. 208. STUDY OF ADULT DAY CARE SERVICES.

(a) SURVEY OF CURRENT ADULT DAY CARE SERVICES.—The Secretary of Health and Human Services shall conduct a survey of adult day care services in the United States to collect information concerning—

(1) the scope of such services and the extent of their availability;

(2) the characteristics of entities providing such services;

(3) licensure, certification, and other quality standards that are applied to those providing such services;

(4) the cost and financing of such services; and

(5) the characteristics of the people who use such services.

(b) REPORT.—The Secretary shall report to Congress, by not later than 1 year after the date of the enactment of this Act, on the information collected in the survey. Based on such information, the Secretary shall include in the report recommendations concerning appropriate standards for coverage of adult day care services under medicare, including defining chronically dependent individuals, defining services included in adult day care services, establishing qualifications of providers of adult day care services, and establishing a reimbursement mechanism.

(c) ADULT DAY CARE SERVICES DEFINED.—In this section, the term "adult day care services" means medical or social services provided in an organized nonresidential setting to chronically impaired individuals who are not inpatients in a medical institution.

Subtitle B—Medicare Part B Monthly Premium Financing

SEC. 211. ADJUSTMENT IN MEDICARE PART B PREMIUM.

Prescription drugs.

(a) IN GENERAL.—Section 1839 (42 U.S.C. 1395r) is amended by adding at the end the following new subsection:

"(g)(1)(A) Except as provided in this paragraph, paragraphs (4) and (5), and subsections (b) and (f), the monthly premium for each individual enrolled under this part otherwise determined, without regard to this subsection, shall be increased by the sum of the catastrophic coverage monthly premium and the prescription drug monthly premium for months in the year determined under the following table (for months occurring in 1989 through 1993) or determined in accordance with paragraphs (2) and (3) (for months after December 1993):

"In the case of:	The catastrophic coverage monthly premium is:	The prescription drug monthly premium is:
1989	$4.00	0
1990	$4.90	0
1991	$5.46	$1.94
1992	$6.75	$2.45
1993	$7.18	$3.02.

"(B)(i) Except as provided in subparagraph (C), if the amount of the supplemental premium rate otherwise determined under section 59B of the Internal Revenue Code of 1986 for taxable years beginning in a calendar year is increased as a result of subsection (e)(2)(A)(i) of such section or is reduced as a result of subsection (e)(2)(A)(ii) of such section, the monthly premium increase otherwise determined under this paragraph shall be reduced or increased, respectively, by an amount equal to—

"(I) 1/12th of the excess or shortfall, respectively, determined under clause (ii) for the year, as adjusted under clause (iv), divided by

"(II) the average number of individuals covered under this part during the preceding year.

"(ii) The excess or shortfall determined under this clause for a year is the excess or shortfall, determined by the Secretary of the Treasury, of—

"(I) the total amount of the supplemental premiums imposed under section 59B of the Internal Revenue Code of 1986 in the 2nd preceding year, over

"(II) the total amount of such premiums which would have been imposed in such year if the supplemental premium rate under such section had been increased by the shortfall rate, or decreased by the excess rate, described in clause (iii).

"(iii) The excess rate or shortfall rate under this clause for a year is the excess or shortfall of—

"(I) the supplemental premium rate established under section 59B of the Internal Revenue Code of 1986 for taxable years beginning in the year, and

"(II) the amount of such supplemental rate if determined without regard to subsection (e)(2)(A) of such section.

"(iv) The amount determined under clause (i)(I) for a year shall be increased by the percentage by which the per capita catastrophic coverage premium liability (as determined in section 59B(e)(3)(D)(ii) of the Internal Revenue Code of 1986) for the second preceding year exceeds such liability for the fourth preceding year (determined as if the catastrophic coverage premium rate for the second preceding calendar year were the same as the rate in effect for the fourth preceding calendar year).

"(C) In no event shall the monthly premium increase in effect under this paragraph for months in a year after 1993 be less than the monthly premium increase in effect under this paragraph for months in the preceding year.

"(D) If subparagraph (B) or subparagraph (C), or both, affects the increase in the monthly premium determined under this paragraph for a year, the increase in the monthly premium determined after the application of such subparagraph or subparagraphs shall be allocated between the catastrophic coverage monthly premium and the prescription drug monthly premium on the basis of the respective amounts of such premiums without regard to the application of either such subparagraph.

"(2)(A) In the case of months in a year after 1993, the catastrophic coverage monthly premium is the catastrophic coverage monthly premium (in effect under paragraph (1) or this paragraph for months in the preceding year, determined without regard to paragraph (1)(B) or (1)(C)) adjusted by the percentage determined under subparagraph (B) for the year.

"(B) The percentage determined under this subparagraph for a year shall be the sum of—

"(i) the outlay-premium percentage, and

"(ii) the reserve account percentage.

For purposes of the preceding sentence, negative percentages shall be taken into account as negatives.

"(C)(i) Except as provided in clause (ii), the outlay-premium percentage for any year is the percentage by which—

"(I) the per capita catastrophic outlays in the 2nd preceding year exceeds

"(II) such outlays in the 3rd preceding calendar year.

If there is no excess, this clause shall be applied by substituting 'is less than' for 'exceeds' and the percentage determined with such substitution shall be taken into account as a negative percentage.

"(ii) If—

"(I) the percentage increase in the CPI for the 12-month period ending with May of the preceding calendar year, exceeds (or is less than)

"(II) such increase for the 12-month period ending with May of the 2nd preceding calendar year,

by at least 1 percentage point, the percentage determined under clause (i) for any year shall be adjusted up (or down, respectively) by ½ of the amount by which such excess (or shortage, respectively) exceeds 1 percent.

"(D)(i) The reserve account percentage for any calendar year is the percentage which the premium change determined under clause (ii) is of the catastrophic coverage monthly premium in effect under paragraph (1) or this paragraph for the preceding year (determined without regard to paragraph (1)(B) or (1)(C)). If there is an excess determined under clause (iii), the percentage determined under the preceding sentence shall be taken into account as a negative percentage.

"(ii) The premium change determined under this clause for any year is the adjustment in the catastrophic coverage monthly premium (otherwise in effect for the 2nd preceding year) which the Secretary determines would have resulted in an aggregate increase (or decrease) in the premiums imposed by this subsection for such year equal to 37 percent of the shortfall or excess determined under clause (iii) for the calendar year.

"(iii) The shortfall (or excess) determined under this clause for any year is the amount by which—

"(I) 20 percent of the outlays during the 2nd preceding calendar year from the Medicare Catastrophic Coverage Account created under section 1841B, exceeds (or is less than)

"(II) the balance in such Account as of the close of such 2nd preceding calendar year (determined by taking into account previous premium increases by reason of the reserve account percentage under this paragraph or section 59B(e) of the Internal Revenue Code of 1986 which have not been credited into such Account).

"(3) In the case of months in a year after 1993, the prescription drug monthly premium shall be determined under rules similar to the rules of paragraph (2); except that—

"(A) in determining the prescription drug monthly premium for any month in a year before 1998, the following percentages shall be substituted for 20 percent in paragraph (2)(D)(iii)(I):

"In the case of year:	The percentage is:
1994	75
1995	50
1996	25
1997	25;

"(B) no adjustment by reason of the outlay-premium percentage shall be made for any calendar year before 1998;

"(C) any reference to the Medicare Catastrophic Coverage Account shall be treated as a reference to the Federal Catastrophic Drug Insurance Trust Fund; and

"(D) any reference to the catastrophic coverage monthly premium shall be treated as a reference to the prescription drug monthly premium.

"(4)(A) In the case of an individual who is a resident of Puerto Rico or who is a resident of another U.S. commonwealth or territory during a month, instead of the premium increase provided under Territories, U.S.

paragraph (1), subject to subsection (b), the monthly premium for each individual enrolled under this part otherwise determined, without regard to this subsection, shall be increased by the sum of—

"(i) the catastrophic coverage monthly premium determined under subparagraph (B) for such resident for the year, and

"(ii) the prescription drug monthly premium determined under subparagraph (C) for the resident for the year.

"(B) The catastrophic coverage monthly premium for months—

"(i) in 1989 is $1.30 for a resident of Puerto Rico and $2.10 for a resident of another U.S. commonwealth or territory;

"(ii) in 1990 is $3.56 for a resident of Puerto Rico and $5.78 for a resident of another U.S. commonwealth or territory; and

"(iii) in a subsequent year, with respect to a resident of Puerto Rico or a resident of another U.S. commonwealth or territory, is the catastrophic coverage monthly premium established under this subparagraph for the preceding year with respect to such a resident increased by the same percentage (estimated by the Secretary in September of that preceding year) by which—

"(I) the per capita catastrophic outlays for the year, will exceed

"(II) the per capita catastrophic outlays for that preceding year.

"(C) The prescription drug monthly premium for months—

"(i) in 1990 is $0.14 for a resident of Puerto Rico and $0.22 for a resident of another U.S. commonwealth or territory;

"(ii) in 1991 is $1.21 for a resident of Puerto Rico and $1.93 for a resident of another U.S. commonwealth or territory; and

"(iii) in a subsequent year, with respect to a resident of Puerto Rico or a resident of another U.S. commonwealth or territory, is the prescription drug monthly premium established under this subparagraph for the preceding year with respect to such a resident increased by the same percentage (estimated by the Secretary in September of that preceding year) by which—

"(I) the per capita prescription drug outlays for the year, will exceed

"(II) the per capita prescription drug outlays for that preceding year.

"(5)(A) In the case of a part B only individual (as defined in paragraph (8)(F)) during a month, instead of the premium increase provided under paragraph (1), subject to subsection (b), the monthly premium otherwise determined, without regard to this subsection, shall be increased by the sum of—

"(i) the catastrophic coverage monthly premium determined under subparagraph (B) for the year, and

"(ii) the prescription drug monthly premium determined under subparagraph (C) for the year.

"(B) The catastrophic coverage monthly premium for months—

"(i) in 1990 is $8.57, and

"(ii) in a subsequent year is 1/12th of the average actuarial expenses that the Secretary estimates (during September before the year) will be incurred during the year for benefits and administration costs (other than benefits and costs attributable to part A) for which outlays may be made from the Medicare Catastrophic Coverage Account.

"(C) The prescription drug monthly premium for months—

"(i) in 1990 is $0.53,

"(ii) in 1991 is $4.61, and

"(iii) a subsequent year is 1/12th of the average actuarial expenses that the Secretary estimates (during September before the year) will be incurred during the year for benefits and administration costs for which outlays may be made from the Federal Catastrophic Drug Insurance Trust Fund.

"(6)(A) If any premium increase for a month under this subsection is not a multiple of 10 cents, the Secretary shall round the increase to the nearest multiple of 10 cents.

"(B) If the Secretary so rounds the premium increase, the amount of such increase shall be allocated between the catastrophic coverage monthly premium and the prescription drug monthly premium on the basis of the respective amounts of such premiums without regard to the application of subparagraph (A).

"(7)(A) The Secretary and the Secretary of the Treasury shall jointly—

Federal Register, publication. Regulations.

"(i) publish in the Federal Register by not later than July 1 of each year (beginning with 1993) a proposed regulation to establish premium increases under this subsection for months in the following year,

Reports.

"(ii) report to Congress, by not later than September 1 of such year, on the final premiums to be published under clause (iii), and

Federal Register, publication. Regulations.

"(iii) publish in the Federal Register, during the last 3 days of September of each such year, a final regulation establishing monthly premiums under this subsection for months in the following year.

Reports. Territories, U.S.

"(B) The Secretary shall report to Congress, in 1993, respecting the appropriateness of the level of premium increases established under paragraph (4) for residents of Puerto Rico and of other U.S. commonwealths and territories.

"(8) For purposes of this subsection:

"(A) The term 'per capita catastrophic outlays' means, with respect to any year, the amount (as determined by the Secretary) equal to—

"(i) the outlays during such year from the Medicare Catastrophic Coverage Account, divided by

"(ii) the average number of individuals entitled to receive benefits under part A during such year.

"(B) The term 'per capita prescription drug outlays' means, with respect to any year, the amount (as determined by the Secretary) equal to—

"(i) the outlays during such year from the Federal Catastrophic Drug Insurance Trust Fund, divided by

"(ii) the average number of individuals entitled to receive benefits under part A during such year.

"(C) The percentage increase in the CPI for any 12-month period shall be the percentage by which the Consumer Price Index (as defined in section 1(f)(5) of the Internal Revenue Code of 1986) for the last month of such period exceeds such Index for the last month of the preceding 12-month period.

"(D) The term 'Medicare Catastrophic Coverage Account' refers to such Account as created under section 1841B.

"(E) The term 'U.S. commonwealth or territory' means Puerto Rico, the United States Virgin Islands, Guam, American Samoa, or the Northern Mariana Islands.

"(F) The term 'part B only individual' means, with respect to a month, an individual who—

"(i) is not a resident of a U.S. commonwealth or territory (as defined in subparagraph (E)) during the month,

"(ii) is entitled to benefits under this part, and

"(iii) is not entitled to (or, on application without payment of an additional premium, would not be entitled to) benefits under part A or is entitled to benefits under such part only because of payment of a premium under section 1818.".

(b) EXTENSION OF HOLD-HARMLESS PROVISION.—Subsection (f) of section 1839 (42 U.S.C. 1395r) is amended to read as follows:

"(f) For any calendar year after 1988, if an individual is entitled to monthly benefits under section 202 or 223 or to a monthly annuity under section 3(a), 4(a), or 4(f) of the Railroad Retirement Act of 1974 for November and December of the preceding year, and if the monthly premium of the individual under this section for December and for January is deducted from those benefits under section 1840(a)(1) or section 1840(b)(1), the monthly premium otherwise determined under this section for an individual for that year shall not be increased, pursuant to this subsection, to the extent that such increase would reduce the amount of benefits payable to that individual for that January below the amount of benefits payable to that individual for that December (after the deduction of the premium under this section). For purposes of this subsection, retroactive adjustments or payments and deductions on account of work shall not be taken into account in determining the monthly benefits to which an individual is entitled under section 202 or 223 or under the Railroad Retirement Act of 1974.".

(c) CONFORMING AMENDMENTS.—

(1) Section 1839 (42 U.S.C. 1395r) is amended—

(A) in the second sentence of subsections (a)(1) and (a)(4), by inserting "(other than costs relating to the amendments made by the Medicare Catastrophic Coverage Act of 1988)" before the period;

(B) by inserting before the period at the end of the last sentence of subsections (a)(1) and (a)(4) the following: ", but shall not take into account any amounts in the Trust Fund that may be attributable to receipts or outlays relating to the Medicare Catastrophic Coverage Account";

(C) in subsection (a)(2), by striking "and (e)" and inserting ", (e), and (g)";

(D) in subsection (a)(3), by striking "subsection (e)" and inserting "subsections (e) and (g)";

(E) in subsection (b), by striking "determined under subsection (a) or (e)" and inserting "otherwise determined under this section (without regard to subsections (f) and (g)(6))"; and

(F) in subsection (e)(1), by inserting "except as provided in subsection (g)," after "subsection (a)".

(2) Section 1844(a) (42 U.S.C. 1395w(a)) is amended by adding at the end the following:

"In computing the amount of aggregate premiums and premiums per enrollee under paragraph (1), there shall not be taken into account premiums attributable to section 1839(g) or section 59B of the Internal Revenue Code of 1986.".

42 USC 1395mm.

(3) Section 1876(a)(5) (42 U.S.C. 1395ff(a)(5)) is amended—

(A) by striking "and the Federal Supplementary Medical Insurance Trust Fund" and inserting ", the Federal Supplementary Medical Insurance Trust Fund, and the Federal Catastrophic Drug Insurance Trust Fund", and

(B) by amending the second sentence to read as follows: "The portion of that payment to the organization for a month to be paid by each trust fund shall be determined as follows: Contracts.

"(A) In regard to expenditures by eligible organizations having risk-sharing contracts, the allocation shall be determined each year by the Secretary based on the relative weight that benefits from each fund contribute to the adjusted average per capita cost.

"(B) In regard to expenditures by eligible organizations operating under a reasonable cost reimbursement contract, the initial allocation shall be based on the plan's most recent budget, such allocation to be adjusted, as needed, after cost settlement to reflect the distribution of actual expenditures.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply (except as otherwise specified in such amendments) to monthly premiums for months beginning with January 1989. 42 USC 1395r note.

SEC. 212. ESTABLISHMENT OF FEDERAL CATASTROPHIC DRUG INSURANCE TRUST FUND; FUND TRANSFERS.

(a) IN GENERAL.—Part B of title XVIII is amended by inserting after section 1841 the following new section:

"FEDERAL CATASTROPHIC DRUG INSURANCE TRUST FUND

"SEC. 1841A. (a)(1) There is hereby created on the books of the Treasury of the United States a trust fund to be known as the 'Federal Catastrophic Drug Insurance Trust Fund' (in this section referred to as the 'Trust Fund'). The Trust Fund shall consist of such gifts and bequests as may be made as provided in section 201(i)(1) and amounts transferred to it in accordance with section 1841(j) or under paragraph (2). 42 USC 1395t-1.

"(2) There are hereby appropriated to the Trust Fund amounts equivalent to 100 percent of the supplemental premiums imposed by section 59B of the Internal Revenue Code of 1986 which are attributable to the prescription drug rate. The amounts appropriated by the preceding sentence shall be transferred from time to time (not less frequently than monthly) from the general fund in the Treasury to the Trust Fund, such amounts to be determined on the basis of estimates by the Secretary of the Treasury of the premiums, specified in the preceding sentence, paid to or deposited into the Treasury; and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or were less than the premiums specified in such sentence. At the close of each year, the transfers under this subsection shall reflect all premiums paid or deposited (as specified in this subsection) into the Treasury in the year.

"(b) The provisions of subsections (b) through (i) of section 1841 shall apply to the Trust Fund in the same manner as they apply to the Federal Supplementary Medical Insurance Trust Fund.

"(c) Notwithstanding any other provision of this title, all payments under this part on or after January 1, 1990, for benefits and administrative costs relating to covered outpatient drugs shall be made from the Trust Fund. Effective date.

Federal Register, publication.

"(d)(1) The Secretary of the Treasury, in consultation with the Board of Trustees of the Trust Fund, shall publish in the Federal Register—

"(A) not later than July 1 of each year (beginning with 1992), information on—

"(i) the outlays made from the Trust Fund in the preceding year, and

"(ii) the balance in the Trust Fund as of the close of the preceding year; and

"(B) during the last 3 days of September of each such year, the prescription drug monthly premiums to be established under section 1839(g) for months in the succeeding year.

Reports.

"(2) The Secretary shall report to Congress, not later than July 1 of each year (beginning with 1992), respecting the distribution of outlays from the Trust Fund in the previous year among major spending categories. The Comptroller General shall report, not later than September 1 of each year, to Congress concerning the completeness and accuracy of the Secretary's report under the previous sentence and of the premiums established under section 1839(g) and under section 59B of the Internal Revenue Code of 1986.

"(e) In this part, with respect to the Trust Fund and the Medicare Catastrophic Coverage Account, the terms 'outlays' and 'receipts' mean, with respect to a quarter or other period, gross outlays and receipts, as such terms are employed in the 'Monthly Treasury Statement of Receipts and Outlays of the United States Government (MTS)', as published by the Department of the Treasury, for months in such quarter or other period.".

(b) TRANSFERS OF CERTAIN PREMIUMS.—

(1) TRANSFER OF FLAT PRESCRIPTION DRUG PREMIUMS TO FEDERAL CATASTROPHIC DRUG INSURANCE TRUST FUND.—Section 1840 (42 U.S.C. 1395s) is amended by adding at the end the following new subsection:

"(i) Notwithstanding the previous provisions of this subsection, premiums collected under this part which are attributable to a prescription drug monthly premium established under section 1839(g) shall, instead of being transferred to (or being deposited to the credit of) the Federal Supplemental Medical Insurance Trust Fund, be transferred to (or deposited to the credit of) the Federal Catastrophic Drug Insurance Trust Fund.".

(2) TRANSFER OF SUPPLEMENTAL CATASTROPHIC COVERAGE PREMIUMS INTO THE SMI TRUST FUND.—Section 1841(a) (42 U.S.C. 1395t(a)) is amended by adding the following: "There are hereby appropriated to the Trust Fund amounts equivalent to 100 percent of the supplemental premiums imposed by section 59B of the Internal Revenue Code of 1986 which are attributable to the catastrophic coverage rate and which are not otherwise appropriated under section 1817A(a)(2) to the Federal Hospital Insurance Catastrophic Coverage Reserve Fund. The amounts appropriated by the preceding sentence shall be transferred from time to time (not less frequently than monthly) from the general fund in the Treasury to the Trust Fund, such amounts to be determined on the basis of estimates by the Secretary of the Treasury of the premiums, specified in the preceding sentence, paid to or deposited into the Treasury; and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or were less than the premiums specified in such sentence. At the close of each

year, the transfers under this subsection shall reflect all premiums under section 59B of the Internal Revenue Code of 1986 paid or deposited into the Treasury in the year.".

(c) CONFORMING AMENDMENTS.—

(1)(A) Section 201(g)(1)(A) (42 U.S.C. 401(g)(1)(A)) is amended by striking "and the Federal Supplementary Medical Insurance Trust Fund" and inserting ", Federal Supplementary Medical Insurance Trust Fund, and the Federal Catastrophic Drug Insurance Trust Fund".

(B) Section 201(i)(1) (42 U.S.C. 401(i)(1)) is amended by striking "and the Federal Supplementary Medical Insurance Trust Fund" and inserting ", Federal Hospital Insurance Catastrophic Coverage Reserve Fund, Federal Supplementary Medical Insurance Trust Fund, and the Federal Catastrophic Drug Insurance Trust Fund".

(2) Section 1833(a) (42 U.S.C. 1395l(a)) is amended, in the matter before paragraph (1), by inserting "or, as provided in section 1841A(c), from the Federal Catastrophic Drug Insurance Trust Fund" after "Medical Insurance Trust Fund".

(3) Section 1817(b) (42 U.S.C. 1395i(b)) is amended by inserting after the sixth sentence the following: "Such report shall also identify (and treat separately) those outlays from the Trust Fund which are also outlays from the Medicare Catastrophic Coverage Account created under section 1841B and those outlays for which there are amounts transferred into the Federal Hospital Insurance Catastrophic Coverage Reserve Fund.".

(4) Section 1841(b) (42 U.S.C. 1395t(b)) is amended by inserting after the sixth sentence the following: "Such report shall also identify (and treat separately) those receipts and outlays in the Trust Fund which are also receipts and outlays in the Medicare Catastrophic Coverage Account created under section 1841B.".

SEC. 213. CREATION OF MEDICARE CATASTROPHIC COVERAGE ACCOUNT.

(a) IN GENERAL.—Part B of title XVIII is amended by inserting after section 1841A, as inserted by section 212, the following new section:

"MEDICARE CATASTROPHIC COVERAGE ACCOUNT

"SEC. 1841B. (a) For purposes of carrying out certain provisions of this title, and section 59B of the Internal Revenue Code of 1986, there is hereby created on the books of the Treasury of the United States an account to be known as the 'Medicare Catastrophic Coverage Account' (in this section referred to as the 'Account'), to be maintained by the Secretary of the Treasury in consultation with the Boards of Trustees of the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. No funds shall actually be transferred into or paid out of the Account, but, for other purposes of this part and for purposes of section 59B of the Internal Revenue Code of 1986, amounts credited to the Account shall be considered receipts of the Account and amounts debited to the Account shall be considered outlays from the Account. 42 USC 1395t-2.

"(b)(1) The Account shall be—

"(A) credited for receipts of the Federal Supplementary Medical Insurance Trust Fund attributable to the portion of supplemental premiums under section 59B of the Internal Revenue Code of 1986, and the premiums under section 1839(g), attributable to the catastrophic coverage premium rate or catastrophic coverage monthly premium,

"(B) credited for receipts of the Federal Hospital Insurance Catastrophic Coverage Reserve Fund, and

"(C) debited for outlays made under this title that are attributable to the amendments made by the Medicare Catastrophic Coverage Act of 1988 (other than outlays relating to covered outpatient drugs and related administrative costs).

"(2) In addition, the Account shall be—

"(A) credited with interest (at the rate used for purposes of the Federal Supplementary Medical Insurance Trust Fund) on any positive average balance maintained in the Account in a calendar quarter, and

"(B) debited with interest (at the rate used for purposes of the Federal Supplementary Medical Insurance Trust Fund) on any negative average balance maintained in the Account in a calendar quarter.

"(3) Credits and debits under this subsection shall be made as of the last date of each month based upon receipts and outlays occurring during the month, as estimated by the Secretary and the Secretary of the Treasury.

"(4) The Account shall also identify (and treat separately) those credits and debits in the Account which are also receipts and outlays in the Federal Supplementary Medical Insurance Trust Fund, those receipts which are also receipts of the Federal Hospital Insurance Catastrophic Coverage Reserve Fund, and those outlays that are also outlays from the Federal Hospital Insurance Trust Fund.

Federal Register, publication.

"(c)(1) The Secretary of the Treasury shall publish in the Federal Register—

"(A) not later than July 1 of each year (beginning with 1990), information on—

"(i) the outlays made from the Account in the preceding year, and

"(ii) the balance in the Account as of the close of the preceding year; and

"(B) during the last 3 days of September of each such year, the catastrophic coverage monthly premiums to be established under section 1839(g) for months in the succeeding year.

Reports.

"(2) The Secretary shall report to Congress, not later than July 1 of each year (beginning with 1990), respecting the distribution of outlays from the Account in the previous year among major spending categories. The Comptroller General shall report, not later than September 1 of each year, to Congress concerning the completeness and accuracy of the Secretary's report under the previous sentence and of the premiums established under section 1839(g) and under section 59B of the Internal Revenue Code of 1986.

Reports.

"(d) The Secretary of the Treasury shall report to Congress in April of each year on the status of the Account created under this section.".

Subtitle C—Miscellaneous Provisions

SEC. 221. VOLUNTARY CERTIFICATION OF MEDICARE SUPPLEMENTAL HEALTH INSURANCE POLICIES.

(a) Free-Look Period.—Section 1882 (42 U.S.C. 1395ss) is amended—

(1) in subsection (b)(1)(B), by striking "and (3)" and inserting "through (4)", and

(2) in subsection (c)—

(A) by striking "and" at the end of paragraph (2),

(B) by striking the period at the end of paragraph (3) and inserting "; and", and

(C) by adding at the end thereof the following:

"(4) may, during a period of not less than 30 days after the policy is issued, be returned for a full refund of any premiums paid (without regard to the manner in which the purchase of the policy was solicited).".

(b) Reporting of Information Relating to Loss Ratios.—Section 1882(b)(1), as amended by subsection (a), is further amended—

(1) in subparagraph (C), by striking "(A) and (B)" and inserting "(A), (B), and (C)",

(2) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively, and

(3) by inserting after subparagraph (B) the following new subparagraph:

"(C) provides that—

"(i) information with respect to the actual ratio of benefits provided to premiums collected under such policies will be reported to the State on forms conforming to those developed by the National Association of Insurance Commissioners for such purpose, or

"(ii) such ratios will be monitored under the program in an alternative manner approved by the Secretary;".

(c) Consumer Information.—Section 1882(e) is amended— 42 USC 1395ss.

(1) by inserting "(1)" after "(e)", and

(2) by adding at the end thereof the following:

"(2) The Secretary shall—

"(A) inform all individuals entitled to benefits under this title (and, to the extent feasible, individuals about to become so entitled) of—

"(i) the actions and practices that are subject to sanctions under subsection (d), and

"(ii) the manner in which they may report any such action or practice to an appropriate official of the Department of Health and Human Services (or to an appropriate State official), and

"(B) publish the toll-free telephone number for individuals to report suspected violations of the provisions of such subsection. Law enforcement and crime.

"(3) The Secretary shall provide individuals entitled to benefits under this title (and, to the extent feasible, individuals about to become so entitled) with a listing of the addresses and telephone numbers of State and Federal agencies and offices that provide information and assistance to individuals with respect to the selection of medicare supplemental policies.".

(d) Revision of Model Standards; Transition.—Section 1882 is further amended—

(1) in the third sentence of subsection (a), by striking "Such certification" and inserting "Subject to subsection (k)(3), such certification";

(2) in subsection (b), by striking "(for so long as" and inserting "(subject to subsection (k)(3), for so long as"; and

(3) by adding at the end thereof the following new subsections:

State and local governments. Effective date.

"(k)(1)(A) If, within the 90-day period beginning on the date of the enactment of this subsection, the National Association of Insurance Commissioners (in this subsection referred to as the 'Association') amends the NAIC Model Regulation adopted on June 6, 1979 (as it relates to medicare supplemental policies), with respect to matters such as minimum benefit standards, loss ratios, disclosure requirements, and replacement requirements and provisions otherwise necessary to reflect the changes in law made by the Medicare Catastrophic Coverage Act of 1988, subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to the Model Regulation as amended by the Association in accordance with this paragraph (in this subsection and subsection (l) referred to as the 'amended NAIC Model Regulation').

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the amended NAIC Model Regulation or 1 year after the date the Association first adopts such amended Regulation.

Effective date.

"(2)(A) If the Association does not amend the NAIC Model Regulation within the 90-day period specified in paragraph (1)(A), the Secretary shall promulgate, not later than 60 days after the end of such period, Federal model standards (in this subsection and subsection (l) referred to as 'Federal model standards') for medicare supplemental policies to reflect the changes in law made by the Medicare Catastrophic Coverage Act of 1988, and subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to Federal model standards.

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the Federal model standards or 1 year after the date the Secretary first promulgates such standards.

"(3) Notwithstanding any other provision of this section (except as provided in subsection (l))—

"(A) no medicare supplemental policy may be certified by the Secretary pursuant to subsection (a),

"(B) no certification made pursuant to subsection (a) shall remain in effect, and

"(C) no State regulatory program shall be found to meet (or to continue to meet) the requirements of subsection (b)(1)(A),

unless such policy meets (or such program provides for the application of standards equal to or more stringent than) the standards set forth in the amended NAIC Model Regulation or the Federal model standards (as the case may be) by the date specified in paragraph (1)(B) or (2)(B) (as the case may be).

State and local governments.

"(l)(1) Until the date specified in paragraph (3), in the case of a qualifying medicare supplemental policy described in paragraph (2) issued—

"(A) before January 1, 1989, the policy is deemed to remain in compliance with this section if the insurer issuing the policy complies with the NAIC Model Transition Regulation (including giving notices to subscribers and filing for premium adjustments with the State as described in section 5.B. of such Regulation) by January 1, 1989; or

"(B) on or after January 1, 1989, the policy is deemed to be in compliance with this section if the insurer issuing the policy complies with the NAIC Model Transition Regulation before the date of the sale of the policy.

"(2) In paragraph (1), the term 'qualifying medicare supplemental policy' means a medicare supplemental policy—

"(A) issued in a State which—

"(i) has not adopted standards equal to or more stringent than the NAIC Model Transition Regulation by January 1, 1989, and

"(ii) has not adopted standards equal to or more stringent than the amended NAIC Model Regulation (or Federal model standards) by January 1, 1989; and

"(B) which has been issued in compliance with this section (as in effect on June 1, 1988).

"(3)(A) The date specified in this paragraph is the earlier of—

"(i) the first date a State adopts, after January 1, 1989, standards equal to or more stringent than the NAIC Model Transition Regulation or equal to or more stringent than the amended NAIC Model Regulation (or Federal model standards), as the case may be, or

"(ii) the later of (I) the date specified in subsection (k)(1)(B) or (k)(2)(B) (as the case may be), or (II) the date specified in subparagraph (B).

"(B) In the case of a State which the Secretary identifies as—

"(i) requiring State legislation (other than legislation appropriating funds) in order for medicare supplemental policies to meet standards described in subparagraph (A)(i), but

"(ii) having a legislature which is not scheduled to meet in 1989 in a legislative session in which such legislation may be considered,

the date specified in this subparagraph is the first day of the first calendar quarter beginning after the close of the first legislative session of the State legislature that begins on or after January 1, 1989, and in which legislation described in clause (i) may be considered. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

"(4) In the case of a medicare supplemental policy in effect on January 1, 1989, and offered in a State which, as of such date—

"(A) has adopted standards equal to or more stringent than the amended NAIC Model Regulation (or Federal model standards), but

"(B) does not have in effect standards equal to or more stringent than the NAIC Model Transition Regulation (or otherwise requiring notice substantially the same as the notice required in section 5.B. of such Regulation),

the policy shall not be deemed to meet the standards in subsection (c) unless each individual who is entitled to benefits under this title and is a policyholder under such policy on January 1, 1989, is sent such a notice in any appropriate form by not later than January 31, 1989, that explains—

"(A) the improved benefits under this title contained in the Medicare Catastrophic Coverage Act of 1988, and

"(B) how these improvements affect the benefits contained in the policies and the premium for the policy.

"(5) In this subsection, the term 'NAIC Model Transition Regulation' refers to the standards contained in the 'Model Regulation to Implement Transitional Requirements for the Conversion of Medicare Supplement Insurance Benefits and Premiums to Conform to Medicare Program Revisions' (as adopted by the National Association of Insurance Commissioners in September 1987).

Reports.

"(6) The Secretary shall report to the Congress in March 1989 and in July 1990 on actions States have taken in adopting standards equal to or more stringent than the NAIC Model Transition Regulation or the amended NAIC Model Regulation (or Federal model standards).".

42 USC 1395ss.

(e) REQUIRED SUBMISSION OF ADVERTISING.—Section 1882(b) is further amended by adding at the end the following new paragraph:

State and local governments.

"(3) Notwithstanding paragraph (1), a medicare supplemental policy offered in a State shall not be deemed to meet the standards and requirements set forth in subsection (c), with respect to an advertisement (whether through written, radio, or television medium) used (or, at a State's option, to be used) for the policy in the State, unless the entity issuing the policy provides a copy of each advertisement to the Commissioner of Insurance (or comparable officer identified by the Secretary) of that State for review or approval to the extent it may be required under State law.".

(f) APPOINTMENT OF SUPPLEMENTAL HEALTH INSURANCE PANEL MEMBERS.—Section 1882(b)(2)(A) is amended by striking "appointed by the President" and inserting "appointed by the Secretary".

42 USC 1395ss note.

(g) EFFECTIVE DATES.—

(1) Except as provided in paragraphs (2) and (3), the amendments made by this section shall take effect on the date of the enactment of this Act.

(2) The amendments made by subsections (a) and (b) shall become effective on the date specified in subsection (k)(1)(B) or (k)(2)(B) of section 1882 of the Social Security Act (as added by subsection (c) of this section).

(3) The amendment made by subsection (f) shall apply to medicare supplemental policies as of January 1, 1989, with respect to advertising used on or after such date.

(4) The Secretary of Health and Human Services shall provide for the reappointment of members to the Supplemental Health Insurance Panel (under section 1882(b)(2) of the Social Security Act) by not later than 90 days after the date of the enactment of this Act.

42 USC 1395mm note.

SEC. 222. ADJUSTMENT OF CONTRACTS WITH PREPAID HEALTH PLANS.

The Secretary of Health and Human Services shall—

(1) modify contracts under sections 1833(a)(1)(A) and 1876 of the Social Security Act, for portions of contract years occurring after December 31, 1988, to take into account the amendments made by this Act; and

(2) require such organizations to make appropriate adjustments (including adjustments in premiums and benefits) in the terms of their agreements with medicare beneficiaries to take into account such amendments.

The Secretary shall also provide for appropriate modifications of contracts with health maintenance organizations under section 1876(i)(2)(A) of the Social Security Act (as in effect before February 1, 1985), under section 402(a) of the Social Security Amendments of 1967, or under section 222(a) of the Social Security Amendments of

1972, for portions of contract years occurring after December 31, 1988, so as to apply to such organizations and contracts the requirements imposed by the amendments made by this Act upon an organization with a risk-sharing contract under section 1876 of the Social Security Act.

SEC. 223. MAILING OF NOTICE OF MEDICARE BENEFITS AND INFORMATION DESCRIBING PARTICIPATING PHYSICIAN PROGRAM.

(a) DISTRIBUTION OF NOTICES.—Title XVIII is amended by inserting after section 1803 the following new section:

"NOTICE OF MEDICARE BENEFITS

"SEC. 1804. The Secretary shall prepare (in consultation with groups representing the elderly and with health insurers) and provide for distribution of a notice containing— 42 USC 1395b-2.

"(1) a clear, simple explanation of the benefits available under this title and the major categories of health care for which benefits are not available under this title,

"(2) the limitations on payment (including deductibles and coinsurance amounts) that are imposed under this title, and

"(3) a description of the limited benefits for long-term care services available under this title and generally available under State plans approved under title XIX.

Such notice shall be mailed annually to individuals entitled to benefits under part A or part B of this title and when an individual applies for benefits under part A or enrolls under part B.".

(b) DISTRIBUTION OF INFORMATION DESCRIBING PARTICIPATING PHYSICIAN PROGRAM.—Section 1842(h)(5) (42 U.S.C. 1395u(h)(5)) is amended—

(1) by inserting "through an annual mailing" after "under this part",

(2) by striking the last sentence,

(3) by inserting "(A)" after "(5)", and

(4) by adding at the end the following new subparagraph:

"(B) The annual notice provided under subparagraph (A) shall include—

"(i) a description of the participation program,

"(ii) an explanation of the advantages to beneficiaries of obtaining covered services through a participating physician or supplier,

"(iii) an explanation of the assistance offered by carriers in obtaining the names of participating physicians and suppliers, and

"(iv) the toll-free telephone number under paragraph (2)(A) for inquiries concerning the program and for requests for free copies of appropriate directories.".

(c) REVISION OF EXPLANATION OF MEDICARE BENEFITS.—Section 1842(h)(7) (42 U.S.C. 1395u(h)(7)) is amended—

(1) in subparagraph (A)—

(A) by inserting "prominent" before "reminder", and

(B) by striking "), and" and inserting "and a clear statement of any amounts charged for the particular items or services on the claim involved above the amount recognized under this part),";

(2) in subparagraph (B), by striking the period at the end and inserting ", and"; and

19-139 0 - 88 (360) - 3

(3) by adding at the end the following new subparagraph:

"(C) shall include (i) an offer of assistance to such an individual in obtaining the names of participating physicians of appropriate specialty and (ii) an offer to provide a free copy of the appropriate participating physician directory.".

(d) EFFECTIVE DATES.—

42 USC 1395b-2 note.

(1) The Secretary of Health and Human Services shall first distribute the notice required by the amendment made by subsection (a) not later than January 31, 1989.

42 USC 1395u note.

(2) The amendments made by subsection (b) shall apply to annual notices beginning with 1989.

42 USC 1395u note.

(3) The amendments made by subsection (c) shall first apply to explanations of benefits provided for items and services furnished on or after January 1, 1989.

SEC. 224. CHANGES IN CIVIL MONEY PENALTIES FOR CERTAIN PRACTICES OF HEALTH MAINTENANCE ORGANIZATIONS AND COMPETITIVE MEDICAL PLANS.

Section 1876(i)(6)(B)(i) (42 U.S.C. 1395mm(i)(6)(B)(i)) is amended by adding at the end the following: "plus, with respect to a determination under subparagraph (A)(ii), double the excess amount charged in violation of such subparagraph (and the excess amount charged shall be deducted from the penalty and returned to the individual concerned), and plus, with respect to a determination under subparagraph (A)(iv), $15,000 for each individual not enrolled as a result of the practice involved,".

TITLE III—PROVISIONS RELATING TO THE MEDICAID PROGRAM

SEC. 301. REQUIRING MEDICAID BUY-IN OF PREMIUMS AND COST-SHARING FOR INDIGENT MEDICARE BENEFICIARIES.

(a) REQUIREMENT.—

(1) Section 1902(a)(10)(E) (42 U.S.C. 1396a(a)(10)(E)) is amended by striking "at the option of a State, but".

(2) Section 1905(p)(1)(B) (42 U.S.C. 1396d(p)(1)(B)) is amended by striking "and the election of the State".

(b) PHASING-IN REQUIRED INCOME STANDARD TO 100 PERCENT OF POVERTY LEVEL.—Section 1905(p)(2)(A) (42 U.S.C. 1396d(p)(2)(A)) is amended—

(1) by striking "may not exceed a percentage (not more than 100 percent)" and inserting "shall be at least the percent provided under clause (ii) (but not more than 100 percent)",

(2) by inserting "(i)" after "(2)(A)", and

(3) by adding at the end the following new clause:

"(ii) Except as provided in clause (iii), the percent provided under this clause, with respect to eligibility for medical assistance on or after—

"(I) January 1, 1989, is 85 percent,

"(II) January 1, 1990, is 90 percent,

"(III) January 1, 1991, is 95 percent, and

"(IV) January 1, 1992, is 100 percent.

"(iii) In the case of a State which has elected treatment under section 1902(f) and which, as of January 1, 1987, used an income standard for individuals age 65 or older which was more restrictive than the income standard established under the supplemental security income program under title XVI, the percent provided under clause (ii), with respect to eligibility for medical assistance on or after—

"(I) January 1, 1989, is 80 percent,

"(II) January 1, 1990, is 85 percent,

"(III) January 1, 1991, is 90 percent,

"(IV) January 1, 1992, is 95 percent, and

"(V) January 1, 1993, is 100 percent.".

(c) RESOURCE STANDARD.—Section 1905(p) (42 U.S.C. 1396d(p)) is amended—

(1) in paragraph (1)(C), by striking "(2)(A)" and inserting "(2)";

(2) in paragraph (1)(D), by striking "(except as provided in paragraph (2)(B))" and inserting "twice"; and

(3) in paragraph (2)—

(A) in subparagraph (A), by striking "(2)(A)" and inserting "(2)", and

(B) by striking subparagraph (B).

(d) MEDICARE COVERAGE.—Section 1905(p) (42 U.S.C. 1396d(p)) is amended—

(1) in paragraph (3)(A), by striking "under part B and (if applicable) under section 1818" and inserting "under title XVIII (including under part B and, if applicable, under section 1818)";

(2) by amending subparagraphs (B) and (C) of paragraph (3) to read as follows:

"(B) Coinsurance under title XVIII (including coinsurance described in section 1813).

"(C) Subject to paragraph (4), deductibles established under title XVIII (including those described in section 1813, 1833(b), and section 1834(c)(1)).''; and

(3) by adding at the end the following new paragraph:

State and local governments. Prescription drugs.

"(4) In a State which provides medical assistance for prescribed drugs under section 1905(a)(12), instead of providing to qualified medicare beneficiaries, under paragraph (3)(C), medicare cost-sharing with respect to the annual deductible for covered outpatient drugs under section 1834(c)(1), the State may provide to such beneficiaries, before charges for covered outpatient drugs for a year reach such deductible amount, benefits for prescribed drugs in the same amount, duration, and scope as the benefits made available under the State plan for individuals described in section 1902(a)(10)(A)(i).".

(e) CONFORMING AMENDMENTS.—

(1) Section 1843 (42 U.S.C. 1395v) is amended by inserting "or after 1988" in subsections (a), (g)(1), and (h)(1) after "during 1981".

(2) Section 1902 (42 U.S.C. 1396a) is amended—

(A) in subsection (a)(10)(A)(ii)(X), by striking "subject to subsection (m)(3),",

(B) in subsection (a)(10)(E), by striking "subject to subsection (m)(3),";

(C) in subsection (a)(17), by striking "(m)(4), and (m)(5)" and inserting "(m)(3), and (m)(4)", and

(D) in subsection (m), by striking paragraph (3) and by redesignating paragraphs (4) and (5) as paragraphs (3) and (4), respectively.

Effective dates. 42 USC 1395v note.

(3) The amendment made by paragraph (1) shall take effect on January 1, 1989, and the amendments made by paragraph (2) shall take effect on July 1, 1989.

Effective date.

(f) TECHNICAL AMENDMENT.—Effective as though included in the enactment of the Omnibus Budget Reconciliation Act of 1986, paragraph (2) of section 9403(g) of such Act is amended to read as follows:

"(2) PAYMENT OF MEDICARE COST-SHARING.—Section 1903(a)(1) (42 U.S.C. 1396b(a)(1)) is amended by inserting 'including expenditures for medicare cost-sharing and' before 'including expenditures'.".

42 USC 1396a note.

(g) TREATMENT OF CERTAIN STATES.—

(1) STATES OPERATING UNDER DEMONSTRATION PROJECTS.—In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115(a) of the Social Security Act, the Secretary of Health and Human Services shall require the State to meet the requirement of section 1902(a)(10)(E) of the Social Security Act in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under title XIX of such Act.

(2) COMMONWEALTHS AND TERRITORIES.—Section 1905(p) (42 U.S.C. 1396d(p)), as amended by subsection (d)(3), is further amended by adding at the end the following new paragraph:

"(5) Notwithstanding any other provision of this title, in the case of a State (other than the 50 States and the District of Columbia)—

"(A) the requirement stated in section 1902(a)(10)(E) shall be optional, and

"(B) for purposes of paragraph (2)(A), the State may substitute for the percent provided under clause (ii) of such paragraph any percent.".

42 USC 1396a note.

(h) EFFECTIVE DATE.—(1) The amendments made by this section apply (except as provided in subsections (e) and (f) and under paragraph (2)) to payments under title XIX of the Social Security Act for calendar quarters beginning on or after January 1, 1989, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date, with respect to medical assistance for—

(A) monthly premiums under title XVIII of such Act for months beginning with January 1989, and

(B) items and services furnished on and after January 1, 1989.

State and local governments.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation (other than legislation appropriating funds) in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first session of the State legislature that begins after the date of the enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

State and local governments.

SEC. 302. COVERAGE AND PAYMENT FOR PREGNANT WOMEN AND INFANTS WITH INCOMES BELOW POVERTY LINE.

(a) PREGNANT WOMEN AND INFANTS UNDER AGE 1.—

(1) REQUIRING COVERAGE.—Section 1902(a)(10) (42 U.S.C. 1396a(a)(10)) is amended—

(A) in subparagraph (A)(i), by striking "or" at the end of subclause (II), by striking the semicolon in subclause (III) and inserting ", or", and by adding at the end the following new subclause:

"(IV) who are described in subparagraph (A) or (B) of subsection (l)(1) and whose family income does not exceed the minimum income level the State is required to establish under subsection (l)(2)(A) for such a family;";

(B) by amending subclause (IX) of subparagraph (A)(ii) to read as follows:

"(IX) who are described in subsection (l)(1) and are not described in clause (i)(IV);"; and

(C) in clause (VII) in the matter after and below subparagraph (E), by inserting "(A)(i)(IV) or" before "(A)(ii)(IX)".

(2) DESCRIPTION OF INDIVIDUALS REQUIRED TO BE COVERED.—Section 1902(l) (42 U.S.C. 1396a(l)) is amended—

(A) in paragraph (1)(C)—

(i) by inserting "at the option of the State," after "(C)", and

(ii) by striking "and" after "1983,"; and

(B) in paragraph (2)(A)—

(i) by striking "not more than 185 percent)" and inserting "(not less than the percentage provided under clause (ii) and not more than 185 percent)";

(ii) by inserting "(i)" after "(2)(A)"; and

(iii) by adding at the end the following new clause:

"(ii) Subject to clause (iii), the percentage provided under this clause, with respect to eligibility for medical assistance on or after—

"(I) July 1, 1989, is 75 percent, and

"(II) July 1, 1990, is 100 percent.

"(iii) In the case of a State which, as of the date of the enactment of this clause, has elected to provide, and provides, medical assistance to individuals described in this subsection or has enacted legislation authorizing, or appropriating funds, to provide such assistance to such individuals before July 1, 1989, the percentage provided under clause (ii) shall not be less than—

"(I) the percentage specified by the State in an amendment to its State plan (whether approved or not) as of the date of the enactment of this clause, or

"(II) if no such percentage is specified as of the date of the enactment of this clause, the percentage established under the State's authorizing legislation or provided for under the State's appropriations;

but in no case shall this clause require the percentage provided under clause (ii) to exceed 100 percent.".

(b) COVERAGE OF MEDICALLY NECESSARY SERVICES FOR INFANTS AND ASSURING ADEQUATE PAYMENT FOR INPATIENT HOSPITAL SERVICES FOR INFANTS IN DISPROPORTIONATE SHARE HOSPITALS.—

(1) COVERAGE OF MEDICALLY NECESSARY SERVICES FOR INFANTS.—Section 1902(a)(10) (42 U.S.C. 1396a(a)(10)) is amended, in the matter after and below subparagraph (E)—

(A) by striking "and" before "(IX)", and

(B) by inserting before the semicolon at the end the following: ", and (X) if the plan provides for any fixed durational limit on medical assistance for inpatient hospital services (whether or not such a limit varies by medical condition or diagnosis), the plan must establish exceptions to such a limit for medically necessary inpatient hospital services furnished with respect to individuals under one year of age in a hospital defined under the State plan, pursuant to section 1923(a)(1)(A), as a disproportionate share hospital and subparagraph (B) (relating to comparability) shall not be construed as requiring such an exception for other individuals, services, or hospitals".

(2) ASSURING ADEQUATE PAYMENT FOR INPATIENT HOSPITAL SERVICES FOR INFANTS IN DISPROPORTIONATE SHARE HOSPITALS.—Section 1923(a)(2), as redesignated pursuant to the amendment made by section 411(k)(6)(B) of this Act, is amended by adding at the end the following new subparagraph:

42 USC 1396r-4.

"(C) If a State plan under this title provides for payments for inpatient hospital services on a prospective basis (whether per diem, per case, or otherwise), in order for the plan to be considered to have met such requirement of section 1902(a)(13)(A) as of July 1, 1989, the State must submit to the Secretary by not later than April 1, 1989, a State plan amendment that provides, in the case of hospitals defined by the State as disproportionate share hospitals under paragraph (1)(A), for an outlier adjustment in payment amounts for medically necessary inpatient hospital services provided on or after July 1, 1989, involving exceptionally high costs or exceptionally long lengths of stay for individuals under one year of age.".

(c) CERTAIN STATE PLAN REQUIREMENTS.—

(1) IN GENERAL.—Subsection (c) of section 1902 (42 U.S.C. 1396a) is amended to read as follows:

"(c) Notwithstanding subsection (b), the Secretary shall not approve any State plan for medical assistance if—

"(1) the State has in effect, under its plan established under part A of title IV, payment levels that are less than the payment levels in effect under such plan on May 1, 1988; or

"(2) the State requires individuals described in subsection (l)(1) to apply for benefits under such part as a condition of applying for, or receiving, medical assistance under this title.".

(2) ELIMINATING DUPLICATE REQUIREMENT.—Section 1902(l) (42 U.S.C. 1396a(l)) is amended by striking paragraph (4).

(3) MAINTENANCE OF EFFORT TO RECEIVE MEDICAL ASSISTANCE FOR OPTIONAL COVERAGE OF PREGNANT WOMEN AND CHILDREN.—Section 1903(i) (42 U.S.C. 1396b(i)) is amended—

(A) by striking the period at the end of paragraph (8) and inserting "; or", and

(B) by inserting after paragraph (8) the following new paragraph:

"(9) with respect to any amount of medical assistance for pregnant women and children described in section 1902(a)(10)(A)(ii)(IX), if the State has in effect, under its plan established under part A of title IV, payment levels that are less than the payment levels in effect under such plan on July 1, 1987.".

(d) TREATMENT OF CERTAIN STATES AND TERRITORIES.—Section 1902(l) (42 U.S.C. 1396a(l)) is amended by adding at the end the following new paragraph:

"(4)(A) In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the

Secretary shall require the State to provide medical assistance for pregnant women and infants under age 1 described in subsection (a)(10)(A)(i)(IV) in the same manner as the State would be required to provide such assistance for such individuals if the State had in effect a plan approved under this title.

"(B) In the case of a State which is not one of the 50 States or the District of Columbia, the State need not meet the requirement of subsection (a)(10)(A)(i)(IV) and, for purposes of paragraph (2)(A), the State may substitute for the percentage provided under clause (ii) of such paragraph any percentage.".

(e) CONFORMING AMENDMENTS.—

(1) Section 1902(e)(6) (42 U.S.C. 1396a(e)(6)) is amended to read as follows:

"(6) At the option of a State, in the case of a pregnant woman described in subsection (a)(10) who, because of a change in income of the family of which she is a member, would not otherwise continue to be described in such subsection, the State plan may nonetheless treat the woman as being an individual described in subsection (a)(10)(A)(i)(IV) and subsection (l)(1)(A) without regard to such change of income through the end of the month in which the 60-day period (beginning on the last day of her pregnancy) ends.".

(2) Section 1902(e)(7) (42 U.S.C. 1396a(e)(7)) is amended—

(A) by striking "If a State plan provides medical assistance for individuals under subsection (a)(10)(A)(ii)(IX), in" and inserting "In",

(B) by inserting "or paragraph (2) of section 1905(n)" after "subsection (l)(1)" the first place it appears, and

(C) by striking "subsection (a)(10)(A)(ii)(IX) and subsection (l)(1)" and inserting "such respective provision".

(3) Section 1902(l) (42 U.S.C. 1396a(l)) is amended—

(A) in the matter after and below subparagraph (C) of paragraph (1), by inserting "any of subclauses (I) through (III) of" after "who are not described in", and

(B) in paragraph (3), in the matter before subparagraph (A), by inserting "(a)(10)(A)(i)(IV) or" before "(a)(10)(A)(ii)(IX)".

(4) Section 1903(f)(4) (42 U.S.C. 1396b(f)(4)) is amended, in the matter before subparagraph (A), by inserting "1902(a)(10)(A)(i)(IV)," before "1902(a)(10)(A)(ii)(IX)".

(f) EFFECTIVE DATE.— 42 USC 1396a note.

(1) IN GENERAL.—The amendments made by this section apply (except as provided in this subsection) to payments under title XIX of the Social Security Act for calendar quarters beginning on or after July 1, 1989, with respect to eligibility for medical assistance on or after such date, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(2) PAYMENT ADJUSTMENT.—The amendments made by subsection (b)(2) shall take effect on the date of the enactment of this Act.

(3) DELAY FOR STATE LEGISLATION.—In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation (other than legislation appropriating funds) in order for the plan to meet the additional requirements imposed by the amendments made by this section (other than subsection (b)(2)), the State plan shall not be regarded as failing

to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act. For purposes of the previous sentence, in the case of a State that has a regular legislative session of 2 years, each year of such session shall be deemed to be a separate regular session of the State legislature.

SEC. 303. PROTECTION OF INCOME AND RESOURCES OF COUPLE FOR MAINTENANCE OF COMMUNITY SPOUSE.

(a) IN GENERAL.—

(1) Title XIX, as amended by the amendment made by section 411(k)(6)(B) of this Act, is amended—

42 USC 1396s. (A) by redesignating section 1924 as section 1925, and

(B) by inserting after section 1923 the following new section:

"TREATMENT OF INCOME AND RESOURCES FOR CERTAIN INSTITUTIONALIZED SPOUSES

42 USC 1396r-5. "SEC. 1924. (a) SPECIAL TREATMENT FOR INSTITUTIONALIZED SPOUSES.—

"(1) SUPERSEDES OTHER PROVISIONS.—In determining the eligibility for medical assistance of an institutionalized spouse (as defined in subsection (h)(1)), the provisions of this section supersede any other provision of this title (including sections 1902(a)(17) and 1902(f)) which is inconsistent with them.

"(2) NO COMPARABLE TREATMENT REQUIRED.—Any different treatment provided under this section for institutionalized spouses shall not, by reason of paragraph (10) or (17) of section 1902(a), require such treatment for other individuals.

"(3) DOES NOT AFFECT CERTAIN DETERMINATIONS.—Except as this section specifically provides, this section does not apply to—

"(A) the determination of what constitutes income or resources, or

"(B) the methodology and standards for determining and evaluating income and resources.

"(4) APPLICATION IN CERTAIN STATES AND TERRITORIES.—

"(A) APPLICATION IN STATES OPERATING UNDER DEMONSTRATION PROJECTS.—In the case of any State which is providing medical assistance to its residents under a waiver granted under section 1115, the Secretary shall require the State to meet the requirements of this section in the same manner as the State would be required to meet such requirement if the State had in effect a plan approved under this title.

"(B) NO APPLICATION IN COMMONWEALTHS AND TERRITORIES.—This section shall only apply to a State that is one of the 50 States or the District of Columbia.

"(b) RULES FOR TREATMENT OF INCOME.—

"(1) SEPARATE TREATMENT OF INCOME.—During any month in which an institutionalized spouse is in the institution, except as provided in paragraph (2), no income of the community spouse shall be deemed available to the institutionalized spouse.

"(2) ATTRIBUTION OF INCOME.—In determining the income of an institutionalized spouse or community spouse, after the institutionalized spouse has been determined to be eligible for medical assistance, except as otherwise provided in this section and regardless of any State laws relating to community property or the division of marital property, the following rules apply:

"(A) NON-TRUST PROPERTY.—Subject to subparagraphs (C) and (D), in the case of income not from a trust, unless the instrument providing the income otherwise specifically provides—

"(i) if payment of income is made solely in the name of the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse;

"(ii) if payment of income is made in the names of the institutionalized spouse and the community spouse, one-half of the income shall be considered available to each of them; and

"(iii) if payment of income is made in the names of the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse's interest (or, if payment is made with respect to both spouses and no such interest is specified, one-half of the joint interest shall be considered available to each spouse).

"(B) TRUST PROPERTY.—In the case of a trust—

"(i) except as provided in clause (ii), income shall be attributed in accordance with the provisions of this title (including sections 1902(a)(17) and 1902(k)), and

"(ii) income shall be considered available to each spouse as provided in the trust, or, in the absence of a specific provision in the trust—

"(I) if payment of income is made solely to the institutionalized spouse or the community spouse, the income shall be considered available only to that respective spouse;

"(II) if payment of income is made to both the institutionalized spouse and the community spouse, one-half of the income shall be considered available to each of them; and

"(III) if payment of income is made to the institutionalized spouse or the community spouse, or both, and to another person or persons, the income shall be considered available to each spouse in proportion to the spouse's interest (or, if payment is made with respect to both spouses and no such interest is specified, one-half of the joint interest shall be considered available to each spouse).

"(C) PROPERTY WITH NO INSTRUMENT.—In the case of income not from a trust in which there is no instrument establishing ownership, subject to subparagraph (D), one-half of the income shall be considered to be available to the institutionalized spouse and one-half to the community spouse.

"(D) REBUTTING OWNERSHIP.—The rules of subparagraphs (A) and (C) are superseded to the extent that an institutionalized spouse can establish, by a preponderance of the evidence, that the ownership interests in income are other than as provided under such subparagraphs.

"(c) RULES FOR TREATMENT OF RESOURCES.—

"(1) COMPUTATION OF SPOUSAL SHARE AT TIME OF INSTITUTIONALIZATION.—

"(A) TOTAL JOINT RESOURCES.—There shall be computed (as of the beginning of a continuous period of institutionalization of the institutionalized spouse)—

"(i) the total value of the resources to the extent either the institutionalized spouse or the community spouse has an ownership interest, and

"(ii) a spousal share which is equal to ½ of such total value.

State and local governments. Records.

"(B) ASSESSMENT.—At the request of an institutionalized spouse or community spouse, at the beginning of a continuous period of institutionalization of the institutionalized spouse and upon the receipt of relevant documentation of resources, the State shall promptly assess and document the total value described in subparagraph (A)(i) and shall provide a copy of such assessment and documentation to each spouse and shall retain a copy of the assessment for use under this section. If the request is not part of an application for medical assistance under this title, the State may, at its option as a condition of providing the assessment, require payment of a fee not exceeding the reasonable expenses of providing and documenting the assessment. At the time of providing the copy of the assessment, the State shall include a notice indicating that the spouse has right to a fair hearing under subsection (e)(2)(E) with respect to the determination of the community spouse resource allowance, to provide for an allowance adequate to raise the spouse's income to the minimum monthly maintenance needs allowance.

"(2) ATTRIBUTION OF RESOURCES AT TIME OF INITIAL ELIGIBILITY DETERMINATION.—In determining the resources of an institutionalized spouse at the time of application for benefits under this title, regardless of any State laws relating to community property or the division of marital property—

"(A) except as provided in subparagraph (B), all the resources held by either the institutionalized spouse, community spouse, or both, shall be considered to be available to the institutionalized spouse, and

"(B) resources shall not be considered to be available to an institutionalized spouse, to the extent that the amount of such resources does not exceed the amount computed under subsection (f)(2)(A) (as of the time of application for benefits).

"(3) ASSIGNMENT OF SUPPORT RIGHTS.—The institutionalized spouse shall not be ineligible by reason of resources determined under paragraph (2) to be available for the cost of care where—

"(A) the institutionalized spouse has assigned to the State any rights to support from the community spouse;

"(B) the institutionalized spouse lacks the ability to execute an assignment due to physical or mental impairment but the State has the right to bring a support proceeding against a community spouse without such assignment; or

"(C) the State determines that denial of eligibility would work an undue hardship.

"(4) SEPARATE TREATMENT OF RESOURCES AFTER ELIGIBILITY FOR BENEFITS ESTABLISHED.—During the continuous period in which an institutionalized spouse is in an institution and after the month in which an institutionalized spouse is determined to be eligible for benefits under this title, no resources of the community spouse shall be deemed available to the institutionalized spouse.

"(5) RESOURCES DEFINED.—In this section, the term 'resources' does not include—

"(A) resources excluded under subsection (a) or (d) of section 1613, and

"(B) resources that would be excluded under section 1613(a)(2)(A) but for the limitation on total value described in such section.

"(d) PROTECTING INCOME FOR COMMUNITY SPOUSE.—

"(1) ALLOWANCES TO BE OFFSET FROM INCOME OF INSTITUTIONALIZED SPOUSE.—After an institutionalized spouse is determined to be eligible for medical assistance, in determining the amount of the spouse's income that is to be applied monthly to payment for the costs of care in the institution, there shall be deducted from the spouse's monthly income the following amounts in the following order:

"(A) A personal needs allowance (described in section 1902(q)(1)), in an amount not less than the amount specified in section 1902(q)(2).

"(B) A community spouse monthly income allowance (as defined in paragraph (2)), but only to the extent income of the institutionalized spouse is made available to (or for the benefit of) the community spouse.

"(C) A family allowance, for each family member, equal to at least ⅓ of the amount by which the amount described in paragraph (3)(A)(i) exceeds the amount of the monthly income of that family member.

"(D) Amounts for incurred expenses for medical or remedial care for the institutionalized spouse (as provided under section 1902(r)).

In subparagraph (C), the term 'family member' only includes minor or dependent children, dependent parents, or dependent siblings of the institutionalized or community spouse who are residing with the community spouse.

"(2) COMMUNITY SPOUSE MONTHLY INCOME ALLOWANCE DEFINED.—In this section (except as provided in paragraph (5)), the 'community spouse monthly income allowance' for a community spouse is an amount by which—

"(A) except as provided in subsection (e), the minimum monthly maintenance needs allowance (established under and in accordance with paragraph (3)) for the spouse, exceeds

"(B) the amount of monthly income otherwise available to the community spouse (determined without regard to such an allowance).

"(3) ESTABLISHMENT OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—

"(A) IN GENERAL.—Each State shall establish a minimum monthly maintenance needs allowance for each community State and local governments.

spouse which, subject to subparagraph (C), is equal to or exceeds—

"(i) the applicable percent (described in subparagraph (B)) of 1/12 of the nonfarm income official poverty line (defined by the Office of Management and Budget and revised annually in accordance with sections 652 and 673(2) of the Omnibus Budget Reconciliation Act of 1981) for a family unit of 2 members; plus

"(ii) an excess shelter allowance (as defined in paragraph (4)).

A revision of the official poverty line referred to in clause (i) shall apply to medical assistance furnished during and after the second calendar quarter that begins after the date of publication of the revision.

"(B) APPLICABLE PERCENT.—For purposes of subparagraph (A)(i), the 'applicable percent' described in this paragraph, effective as of—

"(i) September 30, 1989, is 122 percent,

"(ii) July 1, 1991, is 133 percent, and

"(iii) July 1, 1992, is 150 percent.

"(C) CAP ON MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—The minimum monthly maintenance needs allowance established under subparagraph (A) may not exceed $1,500 (subject to adjustment under subsections (e) and (g)).

"(4) EXCESS SHELTER ALLOWANCE DEFINED.—In paragraph (3)(A)(ii), the term 'excess shelter allowance' means, for a community spouse, the amount by which the sum of—

"(A) the spouse's expenses for rent or mortgage payment (including principal and interest), taxes and insurance and, in the case of a condominium or cooperative, required maintenance charge, for the community spouse's principal residence, and

"(B) the standard utility allowance (used by the State under section 5(e) of the Food Stamp Act of 1977) or, if the State does not use such an allowance, the spouse's actual utility expenses,

exceeds 30 percent of the amount described in paragraph (3)(A)(i), except that, in the case of a condominium or cooperative, for which a maintenance charge is included under subparagraph (A), any allowance under subparagraph (C) shall be reduced to the extent the maintenance charge includes utility expenses.

"(5) COURT ORDERED SUPPORT.—If a court has entered an order against an institutionalized spouse for monthly income for the support of the community spouse, the community spouse monthly income allowance for the spouse shall be not less than the amount of the monthly income so ordered.

"(e) NOTICE AND FAIR HEARING.—

State and local governments.

"(1) NOTICE.—Upon—

"(A) a determination of eligibility for medical assistance of an institutionalized spouse, or

"(B) a request by either the institutionalized spouse, or the community spouse, or a representative acting on behalf of either spouse,

each State shall notify both spouses (in the case described in subparagraph (A)) or the spouse making the request (in the case described in subparagraph (B)) of the amount of the community spouse monthly income allowance (described in subsection (d)(1)(B)), of the amount of any family allowances (described in subsection (d)(1)(C)), of the method for computing the amount of the community spouse resources allowance permitted under subsection (f), and of the spouse's right to a fair hearing under this subsection respecting ownership or availability of income or resources, and the determination of the community spouse monthly income or resource allowance.

"(2) FAIR HEARING.—

"(A) IN GENERAL.—If either the institutionalized spouse or the community spouse is dissatisfied with a determination of—

"(i) the community spouse monthly income allowance;

"(ii) the amount of monthly income otherwise available to the community spouse (as applied under subsection (d)(2)(B));

"(iii) the computation of the spousal share of resources under subsection (c)(1);

"(iv) the attribution of resources under subsection (c)(2); or

"(v) the determination of the community spouse resource allowance (as defined in subsection (f)(2));

such spouse is entitled to a fair hearing described in section 1902(a)(3) with respect to such determination. Any such hearing respecting the determination of the community spouse resource allowance shall be held within 30 days of the date of the request for the hearing.

"(B) REVISION OF MINIMUM MONTHLY MAINTENANCE NEEDS ALLOWANCE.—If either such spouse establishes that the community spouse needs income, above the level otherwise provided by the minimum monthly maintenance needs allowance, due to exceptional circumstances resulting in significant financial duress, there shall be substituted, for the minimum monthly maintenance needs allowance in subsection (d)(2)(A), an amount adequate to provide such additional income as is necessary.

"(C) REVISION OF COMMUNITY SPOUSE RESOURCE ALLOWANCE.—If either such spouse establishes that the community spouse resource allowance (in relation to the amount of income generated by such an allowance) is inadequate to raise the community spouse's income to the minimum monthly maintenance needs allowance, there shall be substituted, for the community spouse resource allowance under subsection (f)(2), an amount adequate to provide such a minimum monthly maintenance needs allowance.

"(f) PERMITTING TRANSFER OF RESOURCES TO COMMUNITY SPOUSE.—

"(1) IN GENERAL.—An institutionalized spouse may, without regard to section 1917, transfer to the community spouse (or to another for the sole benefit of the community spouse) an amount equal to the community spouse resource allowance (as defined in paragraph (2)), but only to the extent the resources of the institutionalized spouse are transferred to (or for the sole benefit of) the community spouse. The transfer under the preceding sentence shall be made as soon as pacticable after the date of the initial determination of eligibility, taking into account such time as may be necessary to obtain a court order under paragraph (3).

"(2) COMMUNITY SPOUSE RESOURCE ALLOWANCE DEFINED.—In paragraph (1), the 'community spouse resource allowance' for a community spouse is an amount (if any) by which—

"(A) the greatest of—

"(i) $12,000 (subject to adjustment under subsection (g)), or, if greater (but not to exceed the amount specified in clause (ii)(II)) an amount specified under the State plan,

"(ii) the lesser of (I) the spousal share computed under subsection (c)(1), or (II) $60,000 (subject to adjustment under subsection (g)),

"(iii) the amount established under subsection (e)(2); or

"(iv) the amount transferred under a court order under paragraph (3);

exceeds

"(B) the amount of the resources otherwise available to the community spouse (determined without regard to such an allowance).

"(3) TRANSFERS UNDER COURT ORDERS.—If a court has entered an order against an institutionalized spouse for the support of the community spouse, section 1917 shall not apply to amounts of resources transferred pursuant to such order for the support of the spouse of a family member (as defined in subsection (d)(1)).

"(g) INDEXING DOLLAR AMOUNTS.—For services furnished during a calendar year after 1989, the dollar amounts specified in subsections (d)(3)(C), (f)(2)(A)(i), and (f)(2)(A)(ii)(II) shall be increased by the same percentage as the percentage increase in the consumer price index for all urban consumers (all items; U.S. city average) between September 1988 and the September before the calendar year involved.

"(h) DEFINITIONS.—In this section:

"(1) The term 'institutionalized spouse' means an individual who—

"(A) is in a medical institution or nursing facility or who (at the option of the State) is described in section 1902(a)(10)(A)(ii)(VI), and

"(B) is married to a spouse who is not in a medical institution or nursing facility;

but does not include any such individual who is not likely to meet the requirements of subparagraph (A) for at least 30 consecutive days.

"(2) The term 'community spouse' means the spouse of an institutionalized spouse.".

(2) Section 1919(c)(1)(B)(i) (42 U.S.C. 1396r(c)(1)(B)(i)) is amended by inserting "and of the requirements and procedures for establishing eligibility for medical assistance under this title, including the right to request an assessment under section 1924(c)(1)(B)" before the semicolon.

(b) TAKING INTO ACCOUNT CERTAIN TRANSFERS OF ASSETS.—Subsection (c) of section 1917 (42 U.S.C. 1396p) is amended to read as follows:

State and local governments.

"(c)(1) In order to meet the requirements of this subsection (for purposes of section 1902(a)(51)(B)), the State plan must provide for a period of ineligibility in the case of an institutionalized individual (as defined in paragraph (3)) who, at any time during the 30-month period immediately before the individual's application for medical assistance under the State plan, disposed of resources for less than fair market value. The period of ineligibility shall begin with the month in which such resources were transferred and the number of months in such period shall be equal to the lesser of—

"(A) 30 months, or

"(B)(i) the total uncompensated value of the resources so transferred, divided by (ii) the average cost, to a private patient at the time of the application, of nursing facility services in the State or, at State option, in the community in which the individual is institutionalized.

"(2) An individual shall not be ineligible for medical assistance by reason of paragraph (1) to the extent that—

"(A) the resources transferred were a home and title to the home was transferred to— Real property.

"(i) the spouse of such individual;

"(ii) a child of such individual who is under age 21, or (with respect to States eligible to participate in the State program established under title XVI) is blind or permanently and totally disabled, or (with respect to States which are not eligible to participate in such program) is blind or disabled as defined in section 1614; Children and youth. Blind persons. Handicapped persons.

"(iii) a sibling of such individual who has an equity interest in such home and who was residing in such individual's home for a period of at least one year immediately before the date of the individual's admission to the medical institution or nursing facility; or

"(iv) a son or daughter of such individual (other than a child described in clause (ii)) who was residing in such individual's home for a period of at least two years immediately before the date of such individual's admission to the medical institution or nursing facility, and who (as determined by the State) provided care to such individual which permitted such individual to reside at home rather than in such an institution or facility;

"(B) the resources were transferred to (or to another for the sole benefit of) the community spouse, as defined in section 1924(h)(2), or the individual's child who is blind or permanently and totally disabled; Children and youth. Blind persons. Handicapped persons.

"(C) a satisfactory showing is made to the State (in accordance with any regulations promulgated by the Secretary) that (i) the individual intended to dispose of the resources either at fair market value, or for other valuable consideration, or (ii) the resources were transferred exclusively for a purpose other than to qualify for medical assistance; or

"(D) the State determines that denial of eligibility would work an undue hardship.

"(3) In this subsection, the term 'institutionalized individual' means an individual who is an inpatient in a medical institution or nursing facility.

"(4) A State (including a State which has elected treatment under section 1902(f)) may not provide for any period of ineligibility for an individual due to transfer of resources for less than fair market value except in accordance with this subsection.".

(c) New SSI Policy Regarding Disposal of Resources for Less Than Fair Market Value.—

(1) Elimination of SSI penalty; notification of medicaid policy limiting eligibility of institutionalized individuals for benefits based on such disposal of resources.—Subsection (c) of section 1613 (42 U.S.C. 1382b) is amended to read as follows:

"Notification of Medicaid Policy Restricting Eligibility of Institutionalized Individuals for Benefits Based on Disposal of Resources for Less Than Fair Market Value

"(c)(1) At the time an individual (and the individual's eligible spouse, if any) applies for benefits under this title, and at the time the eligibility of an individual (and such spouse, if any) for such benefits is redetermined, the Secretary shall—

"(A) inform such individual of the provisions of section 1917(c) providing for a period of ineligibility for benefits under title XIX for individuals who make certain dispositions of resources for less than fair market value, and inform such individual that information obtained pursuant to subparagraph (B) will be made available to the State agency administering a State plan under title XIX (as provided in paragraph (2)); and

"(B) obtain from such individual information which may be used by the State agency in determining whether or not a period of ineligibility for such benefits would be required by reason of section 1917(c) if such individual (or such spouse, if any) enters a medical institution or nursing facility.

State and local governments.

"(2) The Secretary shall make the information obtained under paragraph (1)(B) available, on request, to any State agency administering a State plan approved under title XIX.".

(2) Conforming amendment.—Subparagraph (B) of section 1611(e)(1) (42 U.S.C. 1382(e)(1)) is amended by adding after and below clause (iii) the following new sentence:

"For purposes of this subsection, a hospital, extended care facility, nursing home, or intermediate care facility which is a 'medical institution or nursing facility' within the meaning of section 1917(c) shall be considered to be receiving payments with respect to an individual under a State plan approved under title XIX during any period of ineligibility of such individual provided for under the State plan pursuant to section 1917(c).".

(d) Disregarding Payments for Certain Medical Expenses by Institutionalized Individuals.—Section 1902 (42 U.S.C. 1396), as amended by the amendment made by section 411(n)(3) of this Act, is amended by adding at the end the following new subsection:

42 USC 1396a

"(r) For purposes of sections 1902(a)(17) and 1924(d)(1)(D) and for purposes of a waiver under section 1915, with respect to the post-eligibility treatment of income of individuals who are institutionalized or receiving home or community-based services under such a waiver, there shall be taken into account amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including—

"(A) medicare and other health insurance premiums, deductibles, or coinsurance, and

"(B) necessary medical or remedial care recognized under State law but not covered under the State plan under this title, subject to reasonable limits the State may establish on the amount of these expenses.".

(e) CONFORMING AMENDMENT.—Section 1902 (42 U.S.C. 1396a), as amended by the amendment made by section 411(n)(3) of this Act, is amended—

(1) in subsection (a)(10)(C)(i)(III), by striking "the same" each place it appears and inserting "no more restrictive than the";

(2) by striking "and" at the end of subsection (a)(49);

(3) by striking the period at the end of subsection (a)(50) and inserting "; and";

(4) by inserting after paragraph (50) of subsection (a) the following new paragraph:

"(51)(A) meet the requirements of section 1924 (relating to protection of community spouses), and (B) meet the requirement of section 1917(c) (relating to transfer of assets)."; and

(5) in subsection (r), as added by subsection (d)—

(A) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively,

(B) by inserting "(1)" after "(r)", and

(C) by adding at the end the following new paragraph:

"(2)(A) The methodology to be employed in determining income and resource eligibility for individuals under subsection (a)(10)(A)(i)(III), (a)(10)(A)(i)(IV), (a)(10)(A)(ii), (a)(10)(C)(i)(III), or under subsection (f) may be less restrictive, and shall be no more restrictive, than the methodology—

"(i) in the case of groups consisting of aged, blind, or disabled individuals, under the supplemental security income program under title XVI, or

Blind persons. Handicapped persons.

"(ii) in the case of other groups, under the State plan most closely categorically related.

"(B) For purposes of this subsection and subsection (a)(10), methodology is considered to be 'no more restrictive' if, using the methodology, additional individuals may be eligible for medical assistance and no individuals who are otherwise eligible are made ineligible for such assistance.".

(f) TREATMENT OF HOMESTEAD EXEMPTION IN MISSOURI.—The State medical assistance plan of Missouri shall not be in compliance with the requirements of title XIX of the Social Security Act as of October 1, 1989, unless such plan is amended to provide that, in determining the resources of any aged, blind, or disabled individual in the State who applies for medical assistance under such plan on or after such date, the State will not consider the home of the individual as a resource, regardless of the value of the home.

Blind persons. Handicapped persons.

(g) EFFECTIVE DATE.—

42 USC 1396r-5 note.

(1)(A) The amendments made by this section apply (except as provided in this subsection) to payments under title XIX of the Social Security Act for calendar quarters beginning on or after September 30, 1989, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(B) Section 1924 of the Social Security Act (as inserted by subsection (a)) shall only apply to institutionalized individuals who begin continuous periods of institutionalization on or after September 30, 1989, except that subsections (b) and (d) of such section (and so much of subsection (e) of such section as relates to such other subsections) shall apply as of such date to individuals institutionalized on or after such date.

(2)(A) The amendment made by subsection (b) and section 1902(a)(51)(B) of the Social Security Act, apply (except as provided in paragraph (5)) to payments under title XIX of the Social Security Act for calendar quarters beginning on or after July 1, 1988, or the date of the enactment of this Act, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(B) Section 1917(c) of the Social Security Act, as amended by subsection (b) of this section, shall apply to resources disposed of on or after July 1, 1988.

State and local governments.

(C) Notwithstanding subparagraphs (A) and (B), a State may continue to apply the policies contained in the State plan as of June 30, 1988, with respect to resources disposed of before July 1, 1988.

(3) The amendments made by subsection (c) shall apply to transfers occurring on or after July 1, 1988, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(4) The amendment made by subsection (d) is effective on and after April 8, 1988. The final rule of the Health Care Financing Administration published on February 8, 1988 (53 Federal Register 3586) is superseded to the extent inconsistent with the amendment made by subsection (d).

State and local governments.

(5) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation (other than legislation appropriating funds) in order for the plan to meet the additional requirements imposed by the amendments made by this section (other than subsection (e)), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

(6) The amendments made by paragraphs (1) and (5) of subsection (e) shall apply to medical assistance furnished on or after October 1, 1982.

TITLE IV—UNITED STATES BIPARTISAN COMMISSION ON COMPREHENSIVE HEALTH CARE, OBRA TECHNICAL CORRECTIONS, AND MISCELLANEOUS PROVISIONS

Subtitle A—United States Bipartisan Commission on Comprehensive Health Care

SEC. 401. ESTABLISHMENT.

42 USC 1395b note.

There is established a commission to be known as the United States Bipartisan Commission on Comprehensive Health Care (in this title referred to as the "Commission").

SEC. 402. DUTIES.

42 USC 1395b note.

(a) IN GENERAL.—The Commission shall—

(1) examine shortcomings in the current health care delivery and financing mechanisms that limit or prevent access of all individuals in the United States to comprehensive health care, and

(2) make specific recommendations to the Congress respecting Federal programs, policies, and financing needed to assure the availability of—

(A) comprehensive long-term care services for the elderly and disabled,

(B) comprehensive health care services for the elderly and disabled, and

(C) comprehensive health care services for all individuals in the United States.

(b) CONSIDERATIONS IN RECOMMENDATIONS.—In making its recommendations, the Commission shall consider—

(1) the amount and sources (consistent with principles of social insurance) of Federal funds to finance the needed services, including reallocations of existing Federal program funds, and

(2) the most efficient and effective manner of administering such programs.

(c) DEFINITIONS.—In this title:

(1) The term "comprehensive health care services" includes—

(A) inpatient hospital services (including mental health services);

(B) skilled nursing facility services, intermediate care facility services, home health services, and other long-term health care services;

(C) physician services and other outpatient health care services (including mental health services);

(D) periodic general physical examinations, eye examinations, hearing examinations, dental examinations, foot examinations, and other preventive health care services; and

(E) prescription drugs, eyeglasses, hearing aids, orthopedic equipment, and dentures (both complete and partial).

(2) The term "comprehensive long-term care services" includes custodial and noncustodial services in facilities, as well as home and community-based services.

42 USC 1395b note.

SEC. 403. MEMBERSHIP.

(a) APPOINTMENT.—The Commission shall be composed of 15 members appointed as follows:

President of U.S.

(1) The President shall appoint 3 members.

(2) The President pro tempore of the Senate shall appoint, after consultation with the minority leader of the Senate, 6 members of the Senate, of whom not more than 4 may be of the same political party.

(3) The Speaker of the House of Representatives shall appoint, after consultation with the minority leader of the House of Representatives, 6 members of the House, of whom not more than 4 may be of the same political party.

(b) CHAIRMAN AND VICE CHAIRMAN.—The Commission shall elect a chairman and vice chairman from among its members.

(c) VACANCIES.—Any vacancy in the membership of the Commission shall be filled in the manner in which the original appointment was made and shall not affect the power of the remaining members to execute the duties of the Commission.

(d) QUORUM.—A quorum shall consist of 8 members of the Commission, except that 4 members may conduct a hearing under section 405(a).

(e) MEETINGS.—The Commission shall meet at the call of its chairman or a majority of its members.

(f) COMPENSATION AND REIMBURSEMENT OF EXPENSES.—Members of the Commission are not entitled to receive compensation for service on the Commission. Members may be reimbursed for travel, subsistence, and other necessary expenses incurred in carrying out the duties of the Commission.

42 USC 1395b note.

SEC. 404. STAFF AND CONSULTANTS.

(a) STAFF.—The Commission may appoint and determine the compensation of such staff as may be necessary to carry out the duties of the Commission. Such appointments and compensation may be made without regard to the provisions of title 5, United States Code, that govern appointments in the competitive services, and the provisions of chapter 51 and subchapter III of chapter 53 of such title that relate to classifications and the General Schedule pay rates.

(b) CONSULTANTS.—The Commission may procure such temporary and intermittent services of consultants under section 3109(b) of title 5, United States Code, as the Commission determines to be necessary to carry out the duties of the Commission.

42 USC 1395b note.

SEC. 405. POWERS.

(a) HEARINGS AND OTHER ACTIVITIES.—For the purpose of carrying out its duties, the Commission may hold such hearings and undertake such other activities as the Commission determines to be necessary to carry out its duties.

(b) STUDIES BY GENERAL ACCOUNTING OFFICE.—Upon the request of the Commission, the Comptroller General shall conduct such studies or investigations as the Commission determines to be necessary to carry out its duties.

(c) COST ESTIMATES BY CONGRESSIONAL BUDGET OFFICE.—

(1) Upon the request of the Commission, the Director of the Congressional Budget Office shall provide to the Commission such cost estimates as the Commission determines to be necessary to carry out its duties.

(2) The Commission shall reimburse the Director of the Congressional Budget Office for expenses relating to the employment in the office of the Director of such additional staff as may be necessary for the Director to comply with requests by the Commission under paragraph (1).

(d) DETAIL OF FEDERAL EMPLOYEES.—Upon the request of the Commission, the head of any Federal agency is authorized to detail, without reimbursement, any of the personnel of such agency to the Commission to assist the Commission in carrying out its duties. Any such detail shall not interrupt or otherwise affect the civil service status or privileges of the Federal employee.

(e) TECHNICAL ASSISTANCE.—Upon the request of the Commission, the head of a Federal agency shall provide such technical assistance to the Commission as the Commission determines to be necessary to carry out its duties.

(f) USE OF MAILS.—The Commission may use the United States mails in the same manner and under the same conditions as Federal agencies.

(g) OBTAINING INFORMATION.—The Commission may secure directly from any Federal agency information necessary to enable it to carry out its duties, if the information may be disclosed under section 552 of title 5, United States Code. Upon request of the Chairman of the Commission, the head of such agency shall furnish such information to the Commission.

(h) ADMINISTRATIVE SUPPORT SERVICES.—Upon the request of the Commission, the Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(i) ACCEPTANCE OF DONATIONS.—The Commission may accept, use, and dispose of gifts or donations of services or property.

SEC. 406. REPORT.

42 USC 1395b note.

(a) REPORT ON COMPREHENSIVE LONG-TERM CARE SERVICES FOR THE ELDERLY AND DISABLED.—The Commission shall submit to Congress a report, not later than 6 months after the date of the enactment of this Act, containing its findings and recommendations regarding comprehensive long-term care services for the elderly and disabled. The report shall include detailed recommendations for appropriate legislative initiatives respecting such services.

(b) REPORT ON COMPREHENSIVE HEALTH CARE SERVICES.—The Commission shall submit to Congress a report, not later than 1 year after the date of the enactment of this Act, containing its findings and recommendations regarding comprehensive health care services for the elderly and disabled and comprehensive health care services for all individuals in the United States. The report shall include detailed recommendations for appropriate legislative initiatives respecting such services.

SEC. 407. TERMINATION.

42 USC 1395b note.

The Commission shall terminate 30 days after the date of submission of the report required in section 406(b).

42 USC 1395b note.

SEC. 408. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated $1,500,000 to carry out this title.

Subtitle B—OBRA Technical Corrections

SEC. 411. TECHNICAL CORRECTIONS TO CERTAIN HEALTH CARE PROVISIONS IN THE OMNIBUS BUDGET RECONCILIATION ACT OF 1987.

1 USC 106 note.

(a) REFERENCE TO OBRA AND EFFECTIVE DATES.—

(1) REFERENCE.—In this section, the term "OBRA" refers to the Omnibus Budget Reconciliation Act of 1987 (Public Law 100-203).

(2) EFFECTIVE DATE.—Except as specifically provided in this section, the amendments made by this section, as they relate to a provision in OBRA, shall be effective as if they were included in the enactment of that provision in OBRA.

(3) RATIFICATION OF ENROLLMENT CORRECTIONS AND PRINTED ENROLLMENT.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the enrollment corrections noted in footnotes numbered 9 through 72 of OBRA are hereby ratified and shall be considered to have been enacted as part of OBRA. The printed enrollment of title IV of OBRA, as prepared and printed under section 8004 of OBRA (including the footnote corrections described in subparagraph (B) and as incorporating the clarifications described in subparagraph (C)), shall be deemed to constitute title IV of OBRA as enacted.

42 USC 1320a-7b.

(B) FOOTNOTE CORRECTIONS.—(i) With respect to the reference to which footnote 28 relates (101 Stat. 1330-81), the reference shall be deemed to have read "1320a-7b)".

42 USC 1395m.

(ii) With respect to the word to which footnote 30 relates (101 Stat. 1330-91), the word shall be deemed to have read "the".

42 USC 1396b.

(iii) With respect to the designation to which footnote 52 relates (101 Stat. 1330-151), the designation shall be deemed to have read "(F)".

42 USC 1395u.

(C) CLARIFICATIONS OF ILLEGIBLE MATTER.—(i) Section 1842(n)(1)(A) of the Social Security Act, as added by section 4051(a) of OBRA (101 Stat. 1330-93), is deemed to have the phrase "the supplier's reasonable charge to individuals enrolled under this part for the test" immediately after "or, if lower, the".

42 USC 1395m.

(ii) Section 1834(a)(7)(B)(i) of the Social Security Act, as inserted by section 4062(b) of OBRA (101 Stat. 1330-103), is deemed to have a reference to "1987" immediately after "December".

(b) CORRECTIONS RELATING TO PART 1 OF SUBTITLE A OF TITLE IV (PART A OF THE MEDICARE PROGRAM).—

42 USC 1395ww.

(1) SECTION 4002.—(A) Subclauses (III) and (IV) of section 1886(b)(3)(B)(i) of the Social Security Act, as amended by section 4002(a) of OBRA, are amended by striking "other hospitals" and inserting "for hospitals located in other urban areas".

(B) Section 1886(b)(3)(B)(i)(IV) of the Social Security Act, as amended by section 4002(a) of OBRA, is amended by striking "percent" each place it appears and inserting "percentage points".

(C) Section 1886(b)(3)(B)(i)(V) of the Social Security Act, as amended by section 4002(a) of OBRA, is amended by inserting "increase" after "market basket percentage". 42 USC 1395ww.

(D) The second sentence of section 1886(d)(2)(D) of the Social Security Act, as amended by section 4002(b) of OBRA, is amended by striking "the publication described in subsection (e)(5)(B)" and inserting "the publications described in subsection (e)(5)".

(E) Section 4002(c)(1)(B)(iii) of OBRA is amended, in the matter stricken, by striking the comma after "available". 42 USC 1395ww.

(F) Section 1886(d)(3)(A)(ii) of the Social Security Act, as amended by section 4002(c)(1)(C) of OBRA, is amended by striking "in urban areas" and inserting "in other urban areas". Urban areas.

(G) Section 1886(d)(1)(A)(iii) of the Social Security Act, as amended by section 4002(d) of OBRA, is amended by striking "if greater" and inserting "if the average standardized amount (described in clause (i)(I) or clause (ii)(I) of paragraph (3)(D)) for hospitals within the region of, and in the same rural, large urban, or other urban area as, the hospital is greater than the average standardized amount (described in the respective clause) for hospitals within the United States in that type of area". Urban areas. Rural areas.

(H)(i) Section 1886(d)(2)(D) of the Social Security Act is amended by striking the last sentence (added by section 4002(f)(1)(A) of OBRA).

(ii) Section 4002(f) of OBRA is amended by adding at the end the following new paragraph:

"(3) The second sentence of section 1813(b)(1) of the Social Security Act (42 U.S.C. 1395e(b)(1)) is amended by striking 'applicable percentage increase' and all that follows through 'is applied' and inserting 'Secretary's best estimate of the payment-weighted average of the applicable percentage increases (as defined in section 1886(b)(3)(B)) which are applied'.".

(iii) The amendment made by clause (ii) shall apply to the inpatient hospital deductible for years beginning with 1989. Effective date. 42 USC 1395e note.

(I) Section 4002(g) of OBRA is amended— 42 USC 1395ww note.

(i) in paragraph (1)(A), by striking "1886(a)(1)(A)(iii)" and inserting "1886(d)(1)(A)(iii)",

(ii) in paragraphs (1)(B) and (2)(B), by striking "1886(d)(3)(B)" and inserting "1886(b)(3)(B)", and

(iii) in paragraph (6), by striking "1886(d)(10)(B)" and inserting "1886(d)(1)(B)".

(2) SECTION 4003.—Section 4003(d) of OBRA is amended— 101 Stat. 1330-46.

(A) in paragraph (2)—

(i) by inserting "(other than under section 1886(d)(5)(F) of such Act)" after "receives payments", and

(ii) by inserting "of such services" after "reasonable costs"; and

(B) in the matter following paragraph (2), by inserting "the" after "facilities of".

(3) SECTION 4004.—Section 4004(a) of OBRA is amended by inserting "(1)" after "SURVEY.—" and by adding at the end the following new paragraph: 42 USC 1395ww.

"(2) Section 1886(d)(9)(C)(iv) of such Act is amended by adding at the end the following new sentence: 'The second and third sentences Puerto Rico.

of paragraph (3)(E) shall apply to subsection (d) Puerto Rico hospitals under this clause in the same manner as they apply to subsection (d) hospitals under such paragraph and, for purposes of this clause, any reference in such paragraph to a subsection (d) hospital is deemed a reference to a subsection (d) Puerto Rico hospital.'.".

(4) SECTION 4005.—(A) Section 1886(d)(8)(B) of the Social Security Act, as added by section 4005(a)(1)(D) of OBRA, is amended— 42 USC 1395ww.

(i) by striking "The Secretary" and inserting "For purposes of this subsection, the Secretary", and

(ii) by striking all that follows "if" and inserting the following: "the rural county would otherwise be considered part of an urban area, under the standards for designating Metropolitan Statistical Areas (and for designating New England County Metropolitan Areas) published in the Federal Register on January 3, 1980, if the commuting rates used in determining outlying counties (or, for New England, similar recognized areas) were determined on the basis of the aggregate number of resident workers who commute to (and, if applicable under the standards, from) the central county or counties of all contiguous Metropolitan Statistical Areas (or New England County Metropolitan Areas).". Rural areas.

(B) Section 1886(d)(8)(C) of the Social Security Act, as added by section 4005(a)(1)(D) of OBRA, is amended by striking "standardized amount" and inserting "standardized amounts".

101 Stat. 1330-47. (C) Section 4005(a) of OBRA is amended—

(i) in paragraph (1)(D), by striking "subparagraph" and inserting "subparagraphs", and

42 USC 1395ww note. (ii) in paragraph (3), by striking "This section, and the amendments made by paragraph (1)," and inserting "This subsection".

(D) Section 1883(d)(3) of the Social Security Act, as added by section 4005(b)(2)(B) of OBRA, is amended by inserting before the period at the end the following: ", except that such payment shall continue to be made in the period for those patients who are receiving extended care services at the time the hospital reaches the limit specified in this paragraph". 42 USC 1395tt.

(5) SECTION 4006.—(A) Section 1886(g)(3)(A)(iv) of the Social Security Act, as amended by section 4006(a) of OBRA, is amended by inserting "for payments attributable" after "15 percent".

42 USC 1395ww. (B) Section 4006(a) of OBRA is amended—

(i) by adding "and" at the end of subparagraph (A), and

(ii) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2), respectively.

42 USC 1395ww note. (6) SECTION 4007.—Section 4007 of OBRA is amended—

(A) in the second sentence of subsection (a), by striking "updata" and inserting "updated";

(B) by amending subsection (b) to read as follows:

"(b) REQUIRING REPORTING OF STANDARDIZED COST REPORT ELECTRONICALLY.—

"(1) IN GENERAL.—Section 1886(f)(1) of the Social Security Act (42 U.S.C. 1395ww(f)(1)) is amended—

"(A) by striking ', for a period ending not earlier than September 30, 1988,',

"(B) by inserting '(A)' after '(f)(1)', and

"(C) by adding at the end the following new subparagraph:

" '(B)(i) Subject to clause (ii), the Secretary shall place into effect a standardized electronic cost reporting format for hospitals under this title.

" '(ii) The Secretary may delay or waive the implementation of such format in particular instances where such implementation would result in financial hardship (in particular with respect to hospitals with a small percentage of inpatients entitled to benefits under this title).'.

"(2) EFFECTIVE DATE.—The amendment made by paragraph (1)(C) shall apply to hospital cost reporting periods beginning on or after October 1, 1989."; and 42 USC 1395ww note.

(C) in subsection (c)— 42 USC 1395ww note.

(i) in paragraph (1)—

(I) by striking "3-year", and

(II) by striking "contracting" and inserting "conducting";

(ii) in paragraph (2), by striking "by category of service and" in subparagraphs (A) and (B);

(iii) in paragraph (2)(C), by striking "(by category of service)";

(iv) in paragraph (2), by striking subparagraph (D) and redesignating subparagraphs (E) through (L) as subparagraphs (D) through (K), respectively;

(v) by amending subparagraph (I), as so redesignated, to read as follows:

"(I) Bad debt and charity care.";

(vi) in paragraph (2), by adding at the end the following:

"The Secretary shall develop a definition of 'outpatient visit' for purposes of reporting hospital information.";

(vii) in paragraph (5), by striking "paragraph (3)" and inserting "paragraph (2)";

(viii) in paragraph (5)(A), by striking "The terms" and all that follows through "as" and inserting "The term 'bad debt and charity care' has such meaning as";

(ix) in paragraph (5)(B)—

(I) by inserting "at least" after "to payors",

(II) by striking "title VIII" and inserting "title XVIII", and

(III) by striking "self-paying individuals" and inserting "and other persons (including self-paying individuals)"; and

(x) in paragraph (6)—

(I) by striking "$1,000,000 for each of" and inserting "a total of $3,000,000 for",

(II) by inserting "or from operation funds" after "research funds",

(III) by striking ", and at least" and all that follows through "operations funds" and inserting "and", and

(IV) by striking "over 3 years".

(7) SECTION 4008.—Section 4008(d)(1)(B) of OBRA is amended by striking "1886" and inserting "1886(d)". 42 USC 1395ww note.

(8) SECTION 4009.—(A) Section 4009(a) of OBRA is amended— 42 USC 1395dd.

(i) by striking paragraphs (1) and (2) and inserting the following:

"(1) INCREASE IN CIVIL MONETARY PENALTY AND EXCLUSION OF RESPONSIBLE PHYSICIAN VIOLATORS.—Section 1867(d)(2) of the Social Security Act (42 U.S.C. 1395dd(d)(2)) is amended—

"(A) in the second sentence—

"(i) by redesignating such sentence as subparagraph (C),

"(ii) by striking 'previous sentence' and inserting 'this paragraph', and

"(iii) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively; and

"(B) by striking the first sentence and inserting the following: '(A) A participating hospital that knowingly violates a requirement of this section is subject to a civil money penalty of not more than $50,000 for each such violation. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under this subparagraph in the same manner as such provisions apply with respect to a penalty or proceeding under section 1128A(a).

"'(B) The responsible physician in a participating hospital with respect to the hospital's violation of a requirement of this subsection is subject to the sanctions described in section 1842(j)(2), except that, for purposes of this subparagraph, the civil money penalty with respect to each violation may not exceed $50,000, rather than $2,000.'"; and

42 USC 1395dd note. (ii) by redesignating paragraph (3) as paragraph (2).

42 USC 1395ww. (B) Section 4009(d)(1)(A) of OBRA is amended, in the matter inserted by such section, by striking the comma after "representatives".

42 USC 1395ww note. (C) Section 4009(i) of OBRA is amended by striking "New England county metropolitan areas" and "4001(b)" and inserting "urban areas in New England" and "4002(b)", respectively.

(D) Section 4009(j) of OBRA is amended by adding at the end the following new paragraphs:

"(9) Section 1818(c) of the Social Security Act (42 U.S.C. 1395i-2(c)) is amended by striking paragraph (4) and redesignating paragraphs (5) through (7) as paragraphs (4) through (6), respectively.

100 Stat. 1988. "(10) Section 9305(d) of the Omnibus Budget Reconciliation Act of 1986 is amended by striking '2 years after the date of the enactment of this Act' and inserting 'January 1, 1990'.".

(c) CORRECTIONS RELATING TO SUBPART A OF PART 2 OF SUBTITLE A OF TITLE IV (HEALTH MAINTENANCE ORGANIZATION REFORMS).—

42 USC 1395mm. (1) SECTION 4011.—Subparagraph (F) of section 1876(c)(3) of the Social Security Act, as added by the amendment made by section 4011(a)(1) of OBRA, is amended by moving its indentation 4 ems to the left so its left margin is aligned with the left margin of subparagraph (G) of that section, as added by section 4011(b)(1) of OBRA.

Contracts. 42 USC 1395cc. (2) SECTION 4012.—(A)(i) Section 1866(a)(1)(O) of the Social Security Act, as inserted by section 4012(a) of OBRA, is amended by striking "with a risk-sharing contract under section 1876" and inserting "(i) with a risk-sharing contract under section 1876, under section 1876(i)(2)(A) (as in effect before

February 1, 1985), under section 402(a) of the Social Security Amendments of 1967, or under section 222(a) of the Social Security Amendments of 1972, and (ii) which does not have a contract establishing payment amounts for services furnished to members of the organization".

(ii) The amendment made by clause (i) shall apply to admissions occurring on or after the first day of the fourth month beginning after the date of the enactment of this Act. Effective date. 42 USC 1395cc note.

(B) Section 4012(c) of OBRA is amended by striking "paragraph (2)" and inserting "subsection (a)". 42 USC 1395mm note.

(3) SECTION 4013.—Section 4013 of OBRA is amended by striking "(a) IN GENERAL" and all that follows through the end and inserting the following: 42 USC 1395mm.

"Section 2350(b)(3) of the Deficit Reduction Act of 1984 is amended by striking 'four years after the date of the enactment of this Act' and inserting 'September 30, 1990'.". 42 USC 1395mm note.

(4) SECTION 4014.—Section 1876(i)(6) of the Social Security Act, as amended by section 4014 of OBRA, is amended— 42 USC 1395mm.

(A) in subparagraph (A), by inserting ", in addition to any other remedies authorized by law," after "the Secretary may provide", and

(B) in the last sentence of subparagraph (B), by striking "under that section" and inserting "or proceeding under section 1128A(a)".

(5) SECTION 4018.—Section 1876(f)(3)(A) of the Social Security Act, as inserted by section 4018(a) of OBRA, is amended—

(A) by inserting "enrollment and residency requirements under this section and for" after "for purposes of", and

(B) by striking "of the subdivision" and inserting "described in subparagraph (B)(iii) who receive services through the subdivision".

(d) CORRECTIONS RELATING TO SUBPART B OF PART 2 OF SUBTITLE A OF TITLE IV (HOME HEALTH QUALITY).—

(1) SECTION 4021.—(A) Section 1891(a) of the Social Security Act, as added by section 4021(b) of OBRA, is amended— 42 USC 1395bbb.

(i) in paragraph (3)(A), by striking "who is not a licensed health care professional (as defined in subparagraph (F))",

(ii) in paragraph (3)(F), by inserting "physical or occupational therapy assistant," after "occupational therapist,", and Health care professionals.

(iii) by striking paragraph (4) and by redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

(B)(i) Section 1861(n) of the Social Security Act (42 U.S.C. 1395x(n)) is amended by inserting before the period at the end the following: "; except that such term does not include such equipment furnished by a supplier who has used, for the demonstration and use of specific equipment, an individual who has not met such minimum training standards as the Secretary may establish with respect to the demonstration and use of such specific equipment".

(ii) The amendment made by clause (i) shall apply to equipment furnished on or after the effective date provided in section 4021(c) of OBRA. Effective date.

(2) SECTION 4022.—(A) The third sentence of section 1891(c)(1) of the Social Security Act, as added by section 4022(a) of OBRA, is amended by inserting "(other than subsections (a) and (b))" after "1128A".

42 USC 1395bbb. (B) Section 1891(d)(2)(A) of the Social Security Act, as added by section 4022(a) of OBRA, is amended by striking "1991" and inserting "1992".

42 USC 1395bbb. (3) SECTION 4023.—(A) Section 4023 of OBRA is amended by inserting "(a) IN GENERAL.—" before "Section 1891".

(B) Section 1891(f)(2)(A) of the Social Security Act, as added by section 4023 of OBRA, is amended—

(i) by moving the indentation of clauses (i) through (iii) (and the sentence following clause (iii)) 2 ems to the left,

(ii) in clause (i), by striking "for each day of noncompliance" and inserting "in an amount not to exceed $10,000 for each day of noncompliance", and

(iii) by inserting after and below clause (iii), the following: "The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under clause (i) in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).".

(C) Section 4023(b) of OBRA is amended by inserting before the period at the end the following: ", and no intermediate sanction described in section 1891(f)(2)(A) of such Act shall be imposed for violations occurring before such effective date".

42 USC 1395aa. (4) SECTION 4025.—(A) Section 1864(a) of the Social Security Act is amended—

(i) in the first sentence added by section 4025(a) of OBRA, by striking "most recent accreditation survey conducted with respect to the agency," and inserting "most recent accreditation survey conducted by a State agency or private accreditation agency under section 1865 with respect to the home health agency,", and

(ii) in the second sentence so added—

(I) by inserting "such State or local" before "agency" the first place it appears, and

(II) by striking "section 1864" and inserting "section 1865".

42 USC 1395aa note. (B) Section 4025 of OBRA is amended—

(i) in subsection (b), by striking "subsection (a)" and inserting "this section" and by redesignating such subsection as subsection (c), and

(ii) by inserting after subsection (a) the following new subsection:

"(b) CONFORMING AMENDMENT.—The last sentence of section 1865(a) of such Act (42 U.S.C. 1395bb(a)) is amended by inserting '(other than a survey with respect to a home health agency' after 'any accreditation survey'.".

42 USC 1395x. (5) SECTION 4026.—(A) Section 1861(v)(1)(L)(iii) of the Social Security Act, as added by section 4026(a)(1) of OBRA, is amended—

(i) by striking "audited" each place it appears and inserting "verified", and

(ii) by adding at the end the following:

Wages. "In the case of a home health agency that refuses to provide data, or deliberately provides false data, respecting wages for purposes of this clause upon the request of the Secretary, the Secretary may withhold up to 5 percent of the amount of the payments otherwise payable to the agency under this title until such date as the Secretary determines that such data has been satisfactorily provided.".

(B) Section 4026(a)(2) of OBRA is amended by striking "July 1, 1988" and inserting "July 1, 1989". 42 USC 1395x note.

(C) Section 4026(b) of OBRA is amended by striking "June 1, 1988" and inserting "June 1, 1989".

(6) SECTION 4027.—Section 4027(a) of OBRA is amended by striking "July 1, 1988" and inserting "April 1, 1989". 42 USC 1395n note.

(e) CORRECTIONS RELATING TO SUBPART C OF PART 2 OF SUBTITLE A OF TITLE IV (OTHER MEDICARE PART A AND B PROVISIONS).—

(1) SECTION 4032.—(A) Section 4032 of OBRA is amended by striking "AND PHYSICIAN REVIEW" in the heading of subsection (a) and by striking "AND CARRIERS" in the heading of subsection (b). 42 USC 1395h.

(B) Section 1816(j)(2) of the Social Security Act, as added by section 4032(a) of OBRA, is amended— 42 USC 1395h.

(i) by inserting "in the case of a request for reconsideration of a denial," after "(2)", and

(ii) by inserting "the" before "disposition".

(C) Section 4032(c)(1)(B) of OBRA is amended by striking "claims filed" and inserting "reconsiderations requested". 42 USC 1395h note.

(2) SECTION 4033.—Section 4033 of OBRA is amended—

(A) by striking "(a) IN GENERAL.—"; 42 USC 426.

(B) by redesignating paragraphs (1) and (2) (and subparagraphs (A) and (B) of paragraph (2)) as subsections (a) and (b) (and paragraphs (1) and (2) of subsection (b)), respectively; and 42 USC 426 note.

(C) by aligning the left margins of the matter in such section flush left.

(3) SECTION 4039.—Section 4039 of OBRA is amended by adding at the end the following new subsection:

"(h) TECHNICAL CORRECTIONS.—

"(1) Section 1128A(b) of the Social Security Act (42 U.S.C. 1320a-7a(b)) is amended—

(VI) in subsection (b), by striking the period at the end and inserting "; or" and by adding at the end the following:

"(2) owed by an individual to the United States by reason of a loan covered by Federal loan insurance under subpart I of part C of title VII of the Public Health Service Act and payment for which has not been cancelled, waived, or suspended by the Secretary under such subpart.". Loans.

(ii) Section 733(f) of the Public Health Service Act (42 U.S.C. 294f(f)) is amended by adding at the end the following: "Procedures for reduction of payments under the medicare program are provided under section 1892 of the Social Security Act.".

(iii) The amendments made by this subparagraph shall be effective 30 days after the date of the enactment of this Act. Effective date. 42 USC 294f note.

(11) SECOND SECTION 4052.—(A) The second section 4052(a) of OBRA is amended by striking "is amended" and all that follows through the end and inserting the following: "is amended by inserting before the period at the end of the next-to-last sentence the following: ', and shall remain at such prevailing charge level until the prevailing charge for a year (as adjusted by economic index data) equals or exceeds such prevailing charge level'.". 42 USC 1395u.

(B) The second section 4052(b) of OBRA is amended by striking "January" and inserting "April". 42 USC 1395u note.

(12) SECTION 4054.—(A) Section 4054 of OBRA is amended to read as follows: 42 USC 1395*l* note.

"SEC. 4054. APPLYING COPAYMENT AND DEDUCTIBLE TO CERTAIN OUTPATIENT PHYSICIANS' SERVICES.

"(a) IN GENERAL.—Section 1833 of the Social Security Act (42 U.S.C. 1395l) is amended—

"(1) in subsection (a)(1), by striking clause (F),

"(2) in subsection (b), by striking paragraph (3) and by redesignating paragraphs (4) and (5) as paragraphs (3) and (4), respectively, and

"(3) in subsection (i), by striking paragraph (4).

"(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to services furnished on or after April 1, 1988.".

(B) The item relating to section 4054 in the table of contents of title IV of OBRA is amended to read as follows:

"Sec. 4054. Applying copayment and deductible to certain outpatient physicians' services.".

(13) SECTION 4055.—Section 4055 of OBRA is amended—

(A) in subsection (a)(2), by striking "such list" and inserting "such definitions", and 42 USC 1395u note.

(B) in subsection (b)(1), by striking "dermatology,". 42 USC 1395w-1 note.

(14) REDESIGNATION.—The second section 4052 of OBRA and sections 4053, 4054, and 4055 of OBRA are redesignated as sections 4053 through 4056, respectively. 42 USC 1395u, 1395u notes, 1395*l*, 1395*l* notes, 1395w-1 note.

(g) CORRECTIONS RELATING TO SUBPART B OF PART 3 OF SUBTITLE A OF TITLE IV (PAYMENTS FOR OTHER PART B SERVICES).—

(1) SECTION 4062.—(A) The heading of section 1834 of the Social Security Act, as inserted by section 4062(b) of OBRA, is amended by inserting "ITEMS AND" after "PARTICULAR". 42 USC 1395m.

(B) Subsection (a) of section 1834 of the Social Security Act, as so inserted, is amended—

(i) in paragraph (1)(C), by inserting "or under part A to a home health agency" after "under this part";

(ii) in the second sentence of paragraph (2)(A), by striking "rental" before "payments";

(iii) in paragraph (2)(B)(i), by striking "allowed" and inserting "reasonable", and in paragraphs (3)(B)(i) and (8)(A)(i)(I), by striking "allowable" and inserting "reasonable";

(iv) in paragraph (3)(A), by striking the extra space after "ventilators";

(v) in paragraph (4), by inserting after "individual patient" the following: ", and for that reason cannot be grouped with similar items for purposes of payment under this title,";

(vi) in paragraph (4), by inserting "(A)" after "in a lump-sum amount" and by inserting "(B)" after "for that item, and";

(vii) in paragraph (4), by striking "maintenance and service" each place it appears and inserting "maintenance and servicing", in paragraph (7)(A)(iii), by striking "service and maintenance" and inserting "maintenance and servicing", and in paragraphs (7)(A)(ii) and (11)(A), by striking "servicing" and inserting "maintenance and servicing";

(viii) in paragraph (7)(A)(iii)(I), by striking "fee established by the carrier" and inserting "fee or fees established by the Secretary ";

(ix) in paragraph (9)(A)(ii)(I), by striking "12-month period" and inserting "6-month period";

(x) in paragraph (9)(A)(ii)(II), by striking "and to 1991" and inserting ", 1991, and 1992";

(xi) in paragraphs (9)(B)(i) and (10)(B)(i), by striking the comma after "1991";

(xii) in paragraph (9)(C)(i), by striking "subparagraph (A)(ii)(I)" and inserting "subparagraph (A)(ii)";

(xiii) in paragraph (10)(B), by inserting before the period the following: "and payments under this subsection as such provisions apply to physicians' services and physicians and a reasonable charge under section 1842(b)";

(xiv) in the last sentence of paragraph (11)(A), by striking "under subsection (j)(2)" and inserting "under section 1842(j)(2)";

(xv) in paragraph (12), by striking "(as defined in section 1886(d)(2)(D))"; and

(xvi) by striking paragraph (14).

42 USC 1395m note.

(C) Section 4062(c)(4) of OBRA is amended—

(i) by inserting "and payment of a reasonable copying fee which the Secretary may establish" after "upon written request", and

(ii) by inserting before the period at the end the following: ", but only in a form which does not permit identification of individual suppliers".

42 USC 1395cc.

(D) The last sentence of section 1866(a)(2)(A) of the Social Security Act, as added by section 4062(d)(4) of OBRA, is amended by striking "section 1834(a)(2)" and inserting "section 1834(a)(1)(B)".

42 USC 1395*l*.

(E) The matter added by section 4062(d)(3)(A)(ii) of OBRA is amended by striking "and" before "(I)".

(2) SECTION 4063.—(A) Section 1842(b)(11)(C)(ii) of the Social Security Act, as amended by section 4063(a)(1)(A) of OBRA, is amended— 42 USC 1395u.

(i) by striking "implanted" and inserting "inserted", and

(ii) by inserting "or subsequent to" after "during".

(B) Subclause (IV) of section 1842(j)(1)(D)(ii) of the Social Security Act, as inserted by section 4063(a)(2)(A) of OBRA, is redesignated as subclause (V) and is amended by striking "is".

(C) Section 4063(a)(2)(B) of OBRA is amended by striking clause (ii) and by redesignating clauses (iii) and (iv) as clauses (ii) and (iii), respectively. 42 USC 1395*l*.

(D) Section 1833(i)(2)(A)(iii) of the Social Security Act, as inserted by section 4063(b)(3) of OBRA, is amended— 42 USC 1395*l*.

(i) by striking "implantation" and inserting "insertion", and

(ii) by inserting "or subsequent to" after "during".

(E) Section 4063 of OBRA is amended by adding at the end the following new subsection:

"(e) PREVENTION OF ADDITIONAL BILLINGS FOR IOLs.—

"(1) Section 1833(i) of the Social Security Act (42 U.S.C. 1395l(i)) is amended by adding at the end the following new paragraph:

" '(6) Any person, other than a facility having an agreement under section 1832(a)(2)(F)(i), who knowingly and willfully presents, or causes to be presented, a bill or request for payment, for an intraocular lens inserted during or subsequent to cataract surgery for which payment may be made under paragraph (2)(A)(iii), is subject to a civil money penalty of not to exceed $2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).'. Contracts. Claims. Law enforcement and crime.

"(2) Section 1832(a)(2)(F)(i) of such Act (42 U.S.C. 1395k(a)(2)(F)(i)) is amended by inserting '(including intraocular lens in cases described in section 1833(i)(2)(A)(iii))' after 'services' each place it appears.".

(3) SECTION 4064.—(A) Section 4064(a) of OBRA is amended by striking all that follows the first dash and inserting the following: "Paragraph (2) of section 1833(h) of the Social Security Act (42 U.S.C. 1395l(h)) is amended— 42 USC 1395*l* note.

"(1) by inserting '(A)(i)' after '(2)';

"(2) in the second sentence—

"(A) by redesignating clauses (A) and (B) as clauses (i) and (ii), respectively, and

"(B) by designating such sentence as subparagraph (B); and

"(3) by adding at the end of subparagraph (A)(i), as designated under paragraph (1), the following new clause:

" '(ii) Notwithstanding any other provision of this subsection—

" '(I) any change in the fee schedules which would have become effective under this subsection for tests furnished on or after January 1, 1988, shall not be effective for tests furnished during the 3-month period beginning on January 1, 1988, and

" '(II) the Secretary shall not adjust the fee schedules under clause (i) to take into account any increase in the consumer price index for 1988.'.".

(B) Section 4064(b)(1) of OBRA is amended—

(i) by striking "1833(h)(2) of the Social Security Act (42 U.S.C. 1395l(h)(2))" and inserting "1833(h)(2)(A) of the Social Security Act (42 U.S.C. 1395l(h)(2)(A)), as amended by subsection (a),";

(ii) by striking "the following: 'In establishing fee schedules under the first sentence of this paragraph with respect to" and inserting "the following new clause:

" '(iii) In establishing fee schedules under clause (i) with respect to"; and

(iii) by moving the indentation of all the matter added following "with respect to" 2 ems to the left.

42 USC 1395*l*.

(C) The clause added by section 4064(b)(1) of OBRA, as amended by subparagraph (A), is amended by inserting before the period at the end the following: ", and such reduced fee schedules shall serve as the base for 1989 and subsequent years".

42 USC 1395*l*.

(D) Section 1833(h)(4)(B)(ii) of the Social Security Act, as amended by section 4064(b)(2)(B) of OBRA, is amended by inserting "after" before "March".

(E) Section 4064(c) of OBRA is amended by striking all that follows the dash and inserting the following: "Section 1833(h)(1)(D) of such Act is amended by inserting ', in a sole community hospital (as defined in the last sentence of section 1886(d)(5)(C)(ii)),' after 'a hospital laboratory'.".

(F) Section 4064(c) of OBRA is amended by inserting "(1)" after the dash and by adding at the end the following new paragraph:

Effective date. 42 USC 1395*l* note.

"(2) The amendment made by paragraph (1) shall apply with respect to diagnostic laboratory tests furnished on or after April 1, 1988.".

42 USC 1395w-2.

(G) Section 1846 of the Social Security Act, as added by section 4064(d)(1) of OBRA, is amended—

(i) in subsection (a)—

(I) by striking "certified" and "certification" and inserting "approved" and "approval", respectively,

(II) by inserting "or for coverage" after "conditions of participation", and

(III) by striking "cancelling immediately the certification of the provider or clinical laboratory" and inserting "terminating immediately the provider agreement or cancelling immediately approval of the clinical laboratory";

(ii) in subsections (b)(1)(A) and (b)(2)(A)(iv), by striking "certified";

Law enforcement and crime.

(iii) in subsection (b)(2)(A)(ii), by striking "civil fines and penalties" and inserting "civil money penalties in an amount not to exceed $10,000 for each day of substantial noncompliance";

(iv) in subsection (b)(2)(A), by adding at the end the following new sentence:

Law enforcement and crime.

"The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under clause (ii) in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).";

(v) in subsection (b)(2)(A)(iii), by striking "certification";

(vi) in subsection (b)(2)(A)(iv), by striking "provided on or after the date in" and inserting "furnished on or after the date on"; and

(vii) in subsection (b)(3), by striking "fines" and inserting "penalties" each place it appears.

(H) The matter inserted in section 1861(s) of the Social Security Act by section 4064(e)(1) of OBRA is amended by inserting a comma after "year". 42 USC 1395x.

(4) SECTION 4066.—(A) The heading of section 4066 of OBRA is amended by inserting "AND OTHER DIAGNOSTIC TESTS" after "RADIOLOGY".

(B) The item relating to section 4066 in the table of contents of title IV of OBRA is amended to read as follows:

"Sec. 4066. Payments to hospital outpatient departments for radiology and other diagnostic tests.".

(C) Section 1833(n) of the Social Security Act, as added by section 4066(a)(2) of OBRA, is amended— 42 USC 1395l.

(i) in paragraph (1)(A), by striking "beginning on or after October 1, 1988, under this part for services described in subsection (a)(2)(E)" and inserting "for services described in subsection (a)(2)(E)(i) furnished under this part on or after October 1, 1988, and for services described in subsection (a)(2)(E)(ii) furnished under this part on or after October 1, 1989,";

(ii) in paragraph (1)(B)(i)(II), by inserting "or (for services described in subsection (a)(2)(E)(i) furnished on or after January 1, 1989) the fee schedule amount established" after "the prevailing charge"; and

(iii) by amending subclauses (I) and (II) of paragraph (1)(B)(ii) to read as follows:

"(I) The term 'cost proportion' means 50 percent, except that such term means 65 percent in the case of outpatient radiology services for portions of cost reporting periods which occur in fiscal year 1989 and in the case of diagnostic procedures described in subsection (a)(2)(E)(ii) for portions of cost reporting periods which occur in fiscal year 1990.

"(II) The term 'charge proportion' means 100 percent minus the cost proportion.".

(5) SECTION 4067.—Section 1833(f) of the Social Security Act, as inserted by section 4067(a) of OBRA, is amended by striking "medicare economic index (referred to in the fourth sentence of section 1842(b)(3)) applicable to physicians' services" and inserting "MEI (as defined in section 1842(i)(3)) applicable to primary care services (as defined in section 1842(i)(4))".

(6) SECTION 4068.—The last sentence of section 1135(d)(3) of the Social Security Act, as added by section 4068(b)(1) of OBRA, is amended by striking "speciality" and inserting "specialty". 42 USC 1320b-5.

(h) CORRECTIONS RELATING TO SUBPART B OF PART 3 OF SUBTITLE A OF TITLE IV (PART B ELIGIBILITY AND BENEFITS CHANGES).—

(1) SECTION 4070.—(A) The last sentence of section 1833(c) of the Social Security Act, as added by section 4070(a)(2) of OBRA, is amended by striking "prescribing or monitoring prescription drugs" and inserting "monitoring or changing drug prescriptions". Prescription drugs.

(B) Section 1861(ff) of the Social Security Act, as added by section 4070(b)(2) of OBRA, is amended—

(i) by inserting before such subsection the following heading:

"Partial Hospitalization Services", and

(ii) in paragraph (3), by striking "hospital-based or hospital-affiliated (as defined by the Secretary)" and inserting "furnished by a hospital to its outpatients".

(2) SECTION 4071.—Section 1861(s)(10)(A) of the Social Security Act, as amended by section 4071(a) of OBRA, is amended by inserting ", subject to section 4071(b) of the Omnibus Budget Reconciliation Act of 1987," before "influenza vaccine". 42 USC 1395x.

(3) SECTION 4072.—(A) Section 1861(s)(12) of the Social Security Act, as amended by section 4072(a) of OBRA, is amended by inserting "subject to section 4072(e) of the Omnibus Budget Reconciliation Act of 1987," after "(12)".

42 USC 1395*l*. (B) Section 4072(b) of OBRA is amended—

(i) by striking "by inserting after subsection (e)" and inserting "by adding at the end, as previously amended,", and

(ii) by redesignating the subsection added by such section as subsection (o).

(4) SECTION 4073.—Section 4073 of OBRA is amended—

42 USC 1395k. (A) by striking paragraph (1) of subsection (b);

42 USC 1395*l*. (B) in paragraph (2) of subsection (b)—

(i) by redesignating such paragraph as paragraph (1);

(ii) by inserting "and" at the end of subparagraph (A);

(iii) by striking subparagraph (B);

(iv) in the matter added by subparagraph (C)—

(I) by striking "and (I)" and inserting "(K)",

(II) by inserting "80 percent of the lesser of the actual charge for the services or" after "amounts paid shall be",

(III) by striking "but in no event more than" and inserting "but in no event shall such fee schedule exceed", and

(IV) by striking the semicolon and inserting a comma; and

(v) by redesignating subparagraph (C) as subparagraph (B);

(C) in paragraph (3) of subsection (b)—

(i) by inserting ", as previously amended," after "at the end",

(ii) by redesignating such paragraph as paragraph (2),

(iii) by redesignating the subsection added by such paragraph as subsection (p), and

Claims. Law enforcement and crime.

(iv) by adding at the end of the subsection added by such paragraph the following: "Except for deductible and coinsurance amounts applicable under section 1833, whoever knowingly and willfully presents, or causes to be presented, to an individual enrolled under this part a bill or request for payment for services described in the previous sentence, is subject to a civil money penalty of not to exceed $2,000 for each such bill or request. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).";

(D) in the subsection added by subsection (c)— 42 USC 1395x.

(i) by redesignating such subsection as subsection (gg), and

(ii) in paragraph (1), by striking "his" and inserting "the nurse-midwife's" and by striking "physician's" and inserting "physicians' "; and

(E) in the matter inserted by subsection (d)(1), by striking "section 1861(ff)" and inserting "section 1861(gg)". 42 USC 1396d.

(5) SECTION 4074.—Section 4074 of OBRA is amended— 42 USC 1395x.

(A) in the matter inserted by subsection (a)(1), by striking "(ff)" and inserting "(hh)", and

(B) by redesignating the subsection added by subsection (b) as subsection (hh).

(6) SECTION 4076.—Subsection (a) of section 4076 of OBRA is amended to read as follows:

"(a) SERVICES COVERED.—Section 1861(s)(2)(K) of the Social Security Act (42 U.S.C. 1395x(s)(2)(K)) is amended by inserting '(I)' before 'in a hospital' and by striking 'or as an assistant at surgery' and inserting ', (II) as an assistant at surgery, or (III) in a rural area (as defined in section 1886(d)(2)(D)) that is designated, under section 332(a)(1)(A) of the Public Health Service Act, as a health manpower shortage area,'.". Rural areas.

(7) SECTION 4077.—Section 4077(b) of OBRA is amended—

(A) in paragraph (1), by inserting "by section 4073(a) of this title" after "as amended"; 42 USC 1395x.

(B) by striking paragraph (2); 42 USC 1395k.

(C) in paragraph (3)— 42 USC 1395*l*.

(i) by striking "1395k(a)(1))" and inserting "1395l(a)(1)),

(ii) by striking subparagraphs (A) and (B),

(iii) in subparagraph (C), by striking "(I)" and inserting "(K)" and by redesignating such subparagraph as subparagraph (A),

(iv) in subparagraph (D), by striking "subparagraph:" and inserting "clause:" and by redesignating such subparagraph as subparagraph (B), and

(v) in the matter added by subparagraph (B), as so redesignated—

(I) by striking "(J)" and inserting "(L)", and

(II) by inserting "80 percent of the lesser of the actual charge for the services or" after "amounts paid shall be";

(D) in paragraph (4), by striking "section 4073(b)(3)" and inserting "4073(b)(2)"; 42 USC 1395*l*.

(E) in paragraph (5), by redesignating the subsection (gg) added by such paragraph as subsection (ii); and 42 USC 1395x.

(F) by redesignating paragraphs (3) through (6) as paragraphs (2) through (5), respectively. 42 USC 1395*l*, 1395x, 1395k note.

(8) SECTION 4079.—Section 4079(c)(1) of OBRA is amended by striking "subsection (d)" and inserting "subsection (e)". 42 USC 1395mm note.

(i) PROVISIONS RELATING TO SUBPART D OF PART 3 OF SUBTITLE A OF TITLE IV (OTHER PART B PROVISIONS).—

(1) SECTION 4081.—(A) Section 1842(h)(3)(B) of the Social Security Act, as added by section 4081(a) of OBRA, is amended— 42 USC 1395u.

(i) in the second sentence—

(I) by striking "claims" and inserting "payment", and

(II) by striking "including such information as the Secretary determines is generally provided" and inserting "shall include an explanation of benefits and any additional information that the Secretary may determine to be appropriate in order";

(ii) in the third sentence, by striking "arrangements" and inserting "agreements"; and

(iii) in the fourth sentence—

(I) by inserting "by a carrier" after "under this subparagraph", and

(II) by inserting before the period at the end the following: ", and such user fees shall be collected and retained by the carrier".

42 USC 1395ss.

(B) Section 4081(b)(2) of OBRA is amended by redesignating subparagraphs (A) through (C) as subparagraphs (B) through (D), respectively, and by inserting before subparagraph (B), as so redesignated, the following:

"(A) in the matter before paragraph (1), by inserting '(or, with respect to paragraph (3), the issuer of the policy)' after 'he finds that such policy',".

42 USC 1395ss.

(C) Section 1882(c)(3) of the Social Security Act, as inserted by section 4081(b)(2)(C) of OBRA, is amended—

(i) in subparagraph (A), by striking "claims form" each place it appears and inserting "claim form" in the first 2 places and "notice" in the third place,

(ii) in subparagraph (B)(i), by inserting "under the policy" after "payment determination", and

(iii) in subparagraph (B)(ii), by striking "appropriate payment" and inserting "payment covered by such policy".

42 USC 1395ss note.

(D) Section 4081(c)(2)(B)(i) of OBRA is amended by striking "medical" and inserting "medicare".

(E) Section 4081(c)(2)(B)(ii) of OBRA is amended by inserting "or which has not enacted such legislation before July 1, 1988," after "in which such legislation may be considered".

42 USC 1395u.

(2) SECTION 4082.—Section 4082(c) of OBRA is amended—

(A) by striking "1842(b)(5) of such Act (42 U.S.C. 1395u(b)(5)" and inserting "1842(b)(2) of such Act (42 U.S.C. 1395u(b)(2))", and

(B) in paragraph (1), by striking "(5)" and inserting "(2)".

(3) SECTION 4084.—Section 4084 of OBRA is amended by adding at the end the following new subsection:

"(c) ADDITIONAL TECHNICAL CORRECTIONS.—

"(1) Section 1861(bb)(2) of the Social Security Act (42 U.S.C. 1395x(bb)(2)) is amended by adding at the end the following: 'Such term also includes, as prescribed by the Secretary, an anesthesiologist assistant.'.

"(2) Section 1833(a)(1)(H) of such Act (42 U.S.C. 1395l(a)(1)(H)) is amended by striking 'lesser of the actual charge' and inserting 'least of the actual charge, the prevailing charge that would be recognized if the services had been performed by an anesthesiologist,'.

Effective date. 42 USC 1395l note.

"(3) The amendments made by this subsection shall apply to services furnished after December 31, 1988.".

42 USC 1395w-1.

(4) SECTION 4085.—(A) Section 1845(f) of the Social Security Act, as added by section 4085(a) of OBRA, is amended—

(i) in paragraph (1), by striking "October 1st" and inserting "December 31st", and

(ii) in paragraph (2), by striking "July 1st of the following year" and inserting "the later of (A) July 1st of the following year, or (B) 45 days after the date of a reasonable charge update".

(B) Subparagraph (D) of section 1833(h)(5) of the Social Security Act, as added by section 4085(b)(1) of OBRA, is amended— 42 USC 1395*l*.

(i) by striking "If a person" and all that follows through "under subparagraph (C)" and inserting the following: "A person may not bill for a clinical diagnostic laboratory test performed by a laboratory, other than a rural health clinic, other than on an assignment-related basis. If a person knowingly and willfully and on a repeated basis bills for a clinical diagnostic laboratory test in violation of the previous sentence", and

(ii) by striking "section 1842(j)(2)" and inserting "paragraphs (2) and (3) of section 1842(j) in the same manner such paragraphs apply with respect to a physician".

(C) Section 4085(i) of OBRA is amended—

(i) in the matter inserted by paragraph (1)(A), by inserting a comma after "assignment-related basis"; 42 USC 1395*l*.

(ii) in paragraph (1), by striking subparagraph (B);

(iii) in paragraph (11), by striking "9367(a)" and inserting "4072(a)"; 42 USC 1395x.

(iv) in paragraph (21)(D)(i), by inserting "by" after "(i)"; 42 USC 1395*l*.

(v) in paragraph (21)(D)(ii), by striking "and by" and all that follows up to the semicolon; and 42 USC 1395*l* note.

(vi) by adding at the end the following:

"(22)(A) Section 1832(a)(2)(F)(ii) of the Social Security Act (42 U.S.C. 1395k(a)(2)(F)(ii)) is amended by striking 'an assignment described in section 1842(b)(3)(B)(ii)' and inserting 'payment on an assignment-related basis'.

"(B) Section 1833(h)(5) of such Act (42 U.S.C. 1395l(h)(5)) is amended, in each of subparagraphs (A) and (C), by striking 'on the basis of an assignment' and all that follows through '1870(f)(1),' and inserting 'on an assignment-related basis'.

"(C) Section 1842(b)(7)(B)(iii) of such Act (42 U.S.C. 1395u(b)(7)(B)(ii)) is amended by striking 'the basis of' and all that follows through '1870(f)(1)' and inserting 'an assignment-related basis'.

"(23) Section 1833(l)(5)(B)(ii) of such Act (42 U.S.C. 1395k(l)(5)(B)(ii)) is amended— 42 USC 1395*l*.

"(A) in the first sentence by striking 'monetary' and inserting 'money', and

"(B) by amending the second sentence to read as follows: 'The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).'.

"(24) The fourth sentence of section 1842(b)(3) of such Act (42 U.S.C. 1395u(b)(3)) is amended by striking 'physician services' and 'physicians services' and inserting 'physicians' services' in both places.

"(25) Section 1842(b)(12)(C) of such Act (42 U.S.C. 1395u(b)(12)(C)) is amended—

"(A) in the first sentence by striking 'monetary' and inserting 'money', and

"(B) by amending the second sentence to read as follows: 'The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).'.

"(26) Section 1842(j)(2) of such Act (42 U.S.C. 1395u(j)(2)(B)) is amended—

"(A) by striking 'title' each place it appears and inserting 'Act', and

"(B) in subparagraph (B)—

"(i) by striking 'the imposition of',

"(ii) by inserting 'and assessments' after 'such penalties', and

"(iii) by amending the second sentence to read as follows: 'The provisions of section 1128A (other than the first 2 sentences of subsection (a) and other than subsection (b)) shall apply to a civil money penalty and assessment under subparagraph (B) in the same manner as such provisions apply to a penalty, assessment, or proceeding under section 1128A(a), except to the extent such provisions are inconsistent with subparagraph (A) or paragraph (3).'.

"(27) Section 1842(l)(1)(C)(i) of such Act (42 U.S.C. 1395u(l)(1)(C)(i)) is amended by inserting 'the physician establishes that' after '(i)'.

"(28) Section 1866(g) of such Act (42 U.S.C. 1395cc(g)) is amended—

"(A) in the first sentence by striking 'monetary' and inserting 'money', and

"(B) by amending the second sentence to read as follows: 'The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).'.".

(D)(i) Section 1862(e) of the Social Security Act (42 U.S.C. 1395y(e)) is amended—

(I) by striking "or section 1128A" and inserting ", 1128A, 1156, 1842(j)(2), or 1867(d)",

(II) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), and

(III) by inserting "(1)" after "(e)".

(ii) Section 1890 of the Social Security Act, as added by section 10 of Public Law 100-93, is amended— 42 USC 1395aaa.

(I) by striking its heading;

(II) by striking "Sec. 1890" and inserting "(2)";

(III) by inserting "1842(j)(2)," before "1862(d),";

(IV) by striking "or 1866" and inserting "1866, or 1867(d)"; and

(V) by transferring and adding such provision at the end of section 1862(e) of such Act. 42 USC 1395y.

(j) Corrections to Part 4 of Subtitle A of Title IV (Relating to Peer Review Organizations).—

42 USC 1320c-2 note.

(1) Section 4091.—Section 4091(a)(1)(B) of OBRA is amended by striking "renewals occurring" and inserting "contracts expiring".

(2) SECTION 4093.—Section 1154(a)(3) of the Social Security Act, as amended by section 4093(a) of OBRA, is amended by amending the last sentence to read as follows: 42 USC 1320c-3. Health care professionals.

"(C) The discussion and review conducted under subparagraph (B)(ii) shall not affect the rights of a practitioner or provider to a formal reconsideration of a determination under this part (as provided under section 1155).".

(3) SECTION 4094.—(A) Section 4094(a) of OBRA is amended by striking "subparagraph (B)" and inserting "subparagraph (A)". 42 USC 1320c-3.

(B) Section 1154(a)(15) of the Social Security Act, as added by section 4094(b) of OBRA, is amended by striking "at at" and inserting "in at".

(4) SECTION 4096.—(A) Section 4096(a)(1)(A) of OBRA is amended by striking "(b)(3)(ii)" and inserting "(b)(3)(B)(ii)". 42 USC 1395u.

(B) Section 1870(f) of the Social Security Act, as amended by section 4096(a)(2) of OBRA, is amended by striking "specified in subclauses (I) and (II) of " and inserting "of assignment specified in". 42 USC 1395gg.

(C) Sections 1154(e)(3)(A)(i) and 1154(e)(3)(B) (42 U.S.C. 1320c-3(e)(3)(A)(i), 1320c-3(e)(2)(B)), as amended by section 4096(c) of OBRA, are each amended by striking "or (2)" before "paragraph (2)".

(5) SECTION 4097.—Section 4097(b) of OBRA is amended by striking "1866(a)(4)(C)(ii) of such Act (42 U.S.C. 1395cc(a)(4)(C)(ii))" and inserting "1866(a)(3)(C)(ii) of such Act (42 U.S.C. 1395cc(a)(3)(C)(ii))". 42 USC 1395cc.

(k) CORRECTIONS TO SUBTITLE B OF TITLE IV (RELATING TO MEDICAID).—

(1) TABLE OF CONTENTS.—The table of contents of title IV of OBRA is amended by striking the item relating to section 4105 and by redesignating the items relating to sections 4106 and 4107 as relating to sections 4105 and 4106, respectively.

(2) SECTION 4101.—Section 1916(c)(1) of the Social Security Act, as inserted by section 4101(d)(1)(C) of OBRA, is amended by striking "nonfarm". 42 USC 1396o.

(3) SECTION 4102.—(A) Section 1915(d)(5)(B) of the Social Security Act, as amended by section 4102(a)(1)(B) of OBRA, is amended— 42 USC 1396n.

(i) in clause (iii)(III), by striking "75" and inserting "65", and

(ii) by inserting before "Effective on" the following: "The Secretary shall develop (by not later than October 1, 1989) a method for projecting, on a State-specific basis, the percentage increase in the number of residents in each State who are over 75 years of age for any period.".

(B) Section 1915(d)(5)(C)(i) of the Social Security Act, as amended by section 4102(a)(1)(B) of OBRA, is amended—

(i) by striking "(4)(B)," and inserting "(4), and", and

(ii) by striking ", and services furnished" and all that follows through "subsection (c)".

(4) SECTION 4103.—Section 1905(a)(5)(B) of the Social Security Act, as inserted by section 4103(a) of OBRA, is amended by striking "subparagraph" and inserting "clause". 42 USC 1396d.

(5) SECTION 4104.—(A) Paragraph (1) of section 4104(1) of OBRA is amended to read as follows: 42 USC 1396a.

"(1) by striking ', or' at the end of subclause (IX) and inserting a semicolon and by inserting 'or' at the end of subclause (X); and".

42 USC 1396a.

(B) Section 1902(a)(10)(A)(ii)(XI) of the Social Security Act, as added by section 4104(2) of OBRA, is amended—

(i) by striking "are more restrictive" and inserting "may be more restrictive", and

(ii) by striking the period at the end and inserting a semicolon.

42 USC 1396a note.

(6) SECTION 4112.—(A) Section 4112 of OBRA is amended—

(i) in subsection (a)(2)(A)—

(I) by striking "such date" and inserting "April 1, 1989", and

Effective date.

(II) by inserting ", effective for inpatient hospital services provided on or after July 1, 1989" before the period;

(ii) in subsection (a)(2)(B)—

(I) by striking "such date" and inserting "April 1, 1990", and

Effective date.

(II) by inserting ", effective for inpatient hospital services provided on or after July 1, 1990" before the period;

(iii) the undesignated paragraph at the end of subsection (a) is amended—

State and local governments.

(I) by striking "June 30 of each year in which the State is required to submit" and inserting "90 days after the date a State submits",

(II) by indenting all of such paragraph 2 ems, and

(III) by designating the first two sentences thereof as paragraph (3) and the last sentence thereof as paragraph (4);

(iv) in subsection (b)(2), by striking "the State plan" and inserting "a State plan";

(v) in subsection (b)(3)(B)(i), by inserting ", less the portion of any cash subsidies described in clause (i)(II) in the period reasonably attributable to inpatient hospital services" after "charity care in a period";

(vi) in subsection (c)—

(I) by striking "paragraphs (2)(A) and (2)(B)" and inserting "paragraphs (1)(B) and (2)(A) of subsection (a)",

(II) by striking "paragraph (2)(A)" and "paragraph (2)(B)" and inserting "such paragraph (1)(B)" and "such paragraph (2)(A)", respectively,

(III) in paragraph (1), by inserting "at least" after "equal to",

(IV) in paragraph (2), by inserting "(without regard to the election made by a State under subsection (b)(1))" after "payment) and",

(V) in the matter after paragraph (2), by inserting "at least" before "one-third" and before "two-thirds", and

Children and youth.

(VI) by adding at the end the following new sentences: "In the case of a hospital described in subsection (d)(2)(A)(i) (relating to children's hospitals), in computing the hospital's disproportionate share adjustment percentage for purposes of paragraph (1)(B) of this subsection, the disproportionate patient percentage (defined in section 1886(d)(5)(F)(vi)) shall be computed by substituting for the fraction described in subclause (I) of such section the fraction described in subclause (II) of that section. If a State elects in a State plan amendment under subsection (a) to provide the payment adjustment described in paragraph (2), the State must include in the amendment a detailed description of the specific methodology to be used in determining the specified additional payment amount (or increased percentage payment) to be made to each hospital qualifying for such a payment adjustment and must publish at least annually the name of each hospital qualifying for such a payment adjustment and the amount of such payment adjustment made for each such hospital."; and

State and local governments.

(vii) in subsection (e)—

(I) by inserting "(1)" after "SPECIAL RULE.—",

(II) by inserting "based on a pooling arrangement involving a majority of the hospitals participating under the plan" after "payment adjustments", and

(III) by adding at the end the following new paragraph:

"(2) In the case of a State that used a health insuring organization before January 1, 1986, to administer a portion of its plan on a Statewide basis, during the 3-year period beginning on July 1, 1988—

State and local governments. Effective date.

"(A) the requirements of subsections (b) and (c) shall not apply if the aggregate amount of the payment adjustments under the plan for disproportionate share hospitals (as defined under the State plan) is not less than the aggregate amount of payment adjustments otherwise required to be made if such subsections applied, and

"(B) subsection (d)(2)(B) shall apply to hospitals located in urban areas, as well as in rural areas.".

Urban areas. Rural areas. 42 USC 1396a note.

(B) Section 4112 of OBRA is further amended—

(i) by striking "(a) IMPLEMENTATION OF REQUIREMENT.—" and inserting the following:

"(a) IN GENERAL.—Title XIX of the Social Security Act is amended—

"(1) by redesignating section 1923 as section 1924, and

42 USC 1396s.

"(2) by inserting after section 1922 the following new section:

" 'ADJUSTMENT IN PAYMENT FOR INPATIENT HOSPITAL SERVICES FURNISHED BY DISPROPORTIONATE SHARE HOSPITALS

" 'SEC. 1923. (a) IMPLEMENTATION OF REQUIREMENT.—";

42 USC 1396r-4.

(ii) in subsection (a)(1), by striking "A State's plan under title XIX of the Social Security Act" and inserting "A State plan under this title";

(iii) in subsection (a)(1), by striking "of such Act";

(iv) in subsection (a), by striking "of Health and Human Services" each place it appears;

(v) in the matter following paragraph (2)(B) of subsection (a), by striking "of the Social Security Act";

(vi) in subsections (b) and (c), by striking "under title XIX of the Social Security Act" each place it appears and inserting "under this title";

(vii) in subsection (d)(2)(B), by striking "of the Social Security Act";

(viii) in subsections (b)(2), (b)(3), and (d)(2)(B), by striking double quotation marks enclosing terms and inserting single quotation marks;

(ix) by placing opening double quotation marks at the beginning of any matter with an initial paragraph indentation (beginning with subsection (a)(1)) and closing double quotation marks at the end of subsection (e); and

(x) by adding at the end the following:

Disadvantaged persons.

"(b) CONFORMING AMENDMENT.—Section 1903(i)(3) of such Act (42 U.S.C. 1396b(i)(3)) is amended by inserting '(other than amounts attributable to the special situation of a hospital which serves a disproportionate number of low income patients with special needs)' before 'to the extent'.".

(7) SECTION 4113.—Section 4113 of OBRA is amended—

42 USC 1396b.

(A) in the matter inserted by subsection (a)(1)(B)—

(i) by moving the left margin of the matter 2 ems to the left, and

(ii) by striking "subparagraph (G)" and inserting "subparagraph (E) or (G)";

42 USC 1396a.

(B) in the matter inserted by subsection (a)(2), by striking "paragraph (2)(G) or (6)" and inserting "paragraph (2)(B)(iii), (2)(E), (2)(G), or (6)";

42 USC 1396a.

(C) in subsection (b)(2)(ii), by striking "such"; and

42 USC 1396a, 1396b.

(D) by striking subsection (d) and redesignating subsection (e) as subsection (d).

42 USC 1396d.

(8) SECTION 4114.—(A) Section 4114 of OBRA is amended in paragraph (1), by striking " '(1)' " and inserting " '(o)(1)' ".

42 USC 1396d.

(B) Section 1905(o)(1)(B) of the Social Security Act, as added by section 4114(3) of OBRA, is amended—

(i) by striking "only", and

(ii) by striking "immunodeficiency syndrome" and inserting "immune deficiency syndrome (AIDS)".

101 Stat. 1330–153.

(9) SECTION 4115.—(A) Section 4115 of OBRA is amended—

(A) in subsection (b)(4)(B), by striking "program" and inserting "Program",

(B) in subsection (c)—

(i) by inserting "under section 9121 of this Act" after "Upon approval", and

(ii) by striking "1916, and 1924" and inserting "1902(e)(1), and 1916", and

(C) by adding at the end the following:

"(d) EXTENSION OF TEXAS STATE WAIVER.—Section 9523(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985 is amended by striking 'January 1, 1989' and inserting 'January 1, 1990'.".

100 Stat. 217.

(10) SECTION 4118.—(A) Section 1915(c)(10) of the Social Security Act, as added by section 4118(b) of OBRA, is amended—

42 USC 1396n.

(i) by striking "No waiver under this subsection shall limit by an amount less than 200" and inserting "The Secretary shall not limit to fewer than 200", and

(ii) by striking "under such waiver" and inserting "under a waiver under this subsection".

42 USC 1320a-7a note.

(B) Section 4118(e) of OBRA is amended—

(i) in paragraph (3), by striking "amendment" and inserting "amendments", and

(ii) in paragraph (1)—

(I) by inserting "(A)" after "(1)",
(II) by striking "1128A(a)(1)" and "1320a-7(a)(1))" and inserting "1128(a)" and "1320a-7(a))", respectively, and 42 USC 1320a-7a, 1320a-7.
(III) by adding at the end the following:
"(B) Section 1128A of such Act is amended by adding at the end the following new subsection: 42 USC 1320a-7a.
" '(l) A principal is liable under this section for the actions of the principal's agent acting within the scope of the agency.' ".
(C) Section 1128(d)(3)(B)(ii) of the Social Security Act, as added by section 4118(e)(2)(B) of OBRA, is amended by striking "under a program". 42 USC 1320a-7.
(D) Section 4118(e) of OBRA is amended by redesignating paragraph (3) as paragraph (14) and by inserting after paragraph (2) the following new paragraphs: 42 USC 1320a-7a note.
"(3) Section 1128(b)(8)(A)(i) of such Act is amended by inserting after '(A)(i)' the following: 'who has a direct or indirect ownership or control interest of 5 percent or more in the entity or'.
"(4) Section 1128(d) of such Act is amended—
"(A) in paragraph (1), by striking 'subsection (b)' and inserting 'this section and section 1128A', and
"(B) in paragraph (3)(A), by striking 'under a program'.
"(5) Section 1128(i) of such Act is amended—
"(A) in the matter before paragraph (1), by striking 'a physician or other individual' and inserting 'an individual or entity',
"(B) in paragraphs (1) through (4), by striking 'physician or other individual' each place it appears and inserting 'individual or entity', and
"(C) in paragraph (4), by striking 'first offender or other program' and inserting 'first offender, deferred adjudication, or other arrangement or program'.

"(A) by striking 'excluded under' and inserting 'excluded from', and
"(B) by inserting 'or as a result of the application of the provisions of section 1842(j)(2) or section 1867(d)(2)' after 'or 1866(b)'.
"(7) The second sentence of section 1128A(c)(1) of such Act is amended—
"(A) by inserting ', request for payment, or other occurrence described in this section' after 'any claim', and
"(B) by inserting ', the request for payment was made, or the occurrence took place' after 'claim was presented'.
"(8) Section 1128A(i) of such Act is amended, in the matter before paragraph (1), by striking 'subsection' and inserting 'section'.
"(9) Section 1128A(i)(1) of such Act is amended by inserting 'or title XX' after 'title V'.
"(10) Section 1128A of such Act is further amended—
"(A) in the matter in subsection (a) before paragraph (1), by inserting ', but excluding a beneficiary, as defined in subsection (i)(5)' after 'other entity',
"(B) in subsection (i)(2), by striking 'submitted by' and all that follows through the end and inserting 'for payments for items and services under title V, XVIII, XIX, or XX of this Act.', and

"(C) by adding at the end the following new paragraph:

" '(5) The term "beneficiary" means an individual who is eligible to receive items or services for which payment may be made under title V, XVIII, XIX, or XX but does not include a provider, supplier, or practitioner.'.

"(11) Section 1903(i)(2) of such Act (42 U.S.C. 1396b(i)(2)) is amended—

"(A) in subparagraph (A), by striking 'in the State plan under this title pursuant to section 1128 or section 1128A' and inserting 'under title V, XVIII, or XX or under this title pursuant to section 1128, 1128A, 1156, 1842(j)(2), or 1867(d)(2)', and

"(B) in subparagraph (B), by striking 'pursuant to section 1128 or section 1128A from participation in the program under this title' and inserting 'from participation under title V, XVIII, or XX or under this title pursuant to section 1128, 1128A, 1156, 1842(j)(2), or 1867(d)(2)'.

"(12) Section 504(b)(6) of such Act (42 U.S.C. 704(b)(6)) is amended by striking 'pursuant to section 1128 or section 1128A from participation in the program under this title' each place it appears and inserting 'under this title or title XVIII, XIX, or XX pursuant to section 1128, 1128A, 1156, 1842(j)(2), or 1867(d)(2)'.

"(13) Section 2005(a)(9) of such Act (42 U.S.C. 1397d(a)(9)) is amended by striking 'pursuant to section 1128 or section 1128A from participation in the program under this title' each place it appears and inserting 'under this title or title V, XVIII, or XIX pursuant to section 1128, 1128A, 1156, 1842(j)(2), or 1867(d)(2)'.".

42 USC 1396j.

(E) Section 4118(f)(1) of OBRA is amended by striking "4111(g)(8)" and inserting "4211(h)(8)".

(F) Section 4118(g)(1)(B) of OBRA is amended by striking "insert" and inserting "inserting".

(G) Section 4118(h) of OBRA is amended—

(i) by inserting a dash after "Expenses.";

(ii) in paragraph (1), by striking "Section 1902(a)(17) of the Social Security Act (42 U.S.C. 1396a(a)(17)) is amended" and inserting "Sections 1902(a)(17) and 1903(f)(2) of the Social Security Act (42 U.S.C. 1396a(a)(17), 1396b(f)(2)) are each amended";

42 USC 1396a note.

(iii) in paragraph (2), by striking "(2) The amendment made by paragraph (1)" and inserting "(3) The amendments made by this subsection", and

(iv) by inserting after paragraph (1) the following new paragraph:

State and local governments.

"(2) The first sentence of section 1902(f) of such Act (42 U.S.C. 1396a(f)) is amended by inserting after 'as recognized under State law' the following: 'regardless of whether such expenses are reimbursed under another public program of the State or political subdivision thereof'.".

42 USC 1396n.

(H) Section 1915(c)(7)(B) of the Social Security Act, as added by section 4118(k) of OBRA, is amended by inserting before the period at the end the following: ", without regard to the availability of beds for such inpatients".

42 USC 1396n.

(I) Section 4118(l)(1) of OBRA is amended by inserting ", as redesignated by section 4102(a)," after "1396n(h))".

(J) Section 9414(b)(3) of the Omnibus Budget Reconciliation Act of 1986, as amended by section 4118(o)(1)(C) of OBRA, is amended by striking "nonfarm".

(K) Section 4118(o)(2)(A) of OBRA is amended by inserting "each place it appears" before "and inserting".

(L) Section 4118(p)(9) of OBRA is amended by striking "1925(a)" and "(4111(a))" and inserting "1923(a)" and "4211(a)", respectively. 42 USC 1396s.

(M) Section 4118(p) of OBRA is amended by adding at the end the following new paragraph:

"(11) Paragraph (5) of section 9432(c) of the Omnibus Budget Reconciliation Act of 1986 is amended to read as follows: 42 USC 1396a note.

" '(5) The Secretary shall submit an interim report on the results of the study, including an analysis of the geographic variations under paragraph (2), to the Congress not later than January 1, 1990, and shall report the final results of the study to the Congress not later than January 1, 1992.'.". Reports.

(11) OMITTED SECTION.—(A) Part 2 of subtitle B of title IV of OBRA is amended by adding at the end the following new section:

"SEC. 4119. STUDY OF MEANS OF RECOVERING COSTS OF NURSING FACILITY SERVICES FROM ESTATES OF BENEFICIARIES.

"The Secretary of Health and Human Services shall study the means of recovering amounts from estates of deceased medicaid beneficiaries (or the estates of the spouses of such deceased beneficiaries) to pay for the medical assistance for skilled nursing facility or intermediate care facility services furnished, under title XIX of the Social Security Act, to such medicaid beneficiaries. The Secretary shall report to Congress, not later than December 31, 1988, on such means, and include appropriate recommendations for changes in legislation.". Reports.

(B) The table of contents of title IV of OBRA is amended by inserting after the item relating to section 4118 the following new item:

"Sec. 4119. Study of means of recovering costs of nursing facility services from estates of beneficiaries.".

(12) MEDICAID CONFORMING AMENDMENT TO SECTION 4014 OF OBRA.—(A) Paragraph (5) of section 1903(m) of the Social Security Act (42 U.S.C. 1396b(m)) is amended to read as follows:

"(5)(A) If the Secretary determines that an entity with a contract under this subsection— Contracts.

"(i) fails substantially to provide medically necessary items and services that are required (under law or under the contract) to be provided to an individual covered under the contract, if the failure has adversely affected (or has substantial likelihood of adversely affecting) the individual;

"(ii) imposes premiums on individuals enrolled under this subsection in excess of the premiums permitted under this title;

"(iii) acts to discriminate among individuals in violation of the provision of paragraph (2)(A)(v), including expulsion or refusal to re-enroll an individual or engaging in any practice that would reasonably be expected to have the effect of denying or discouraging enrollment (except as permitted by this subsection) by eligible individuals with the organization whose medical condition or history indicates a need for substantial future medical services; or

"(iv) misrepresents or falsifies information that is furnished—

"(I) to the Secretary or the State under this subsection, or

"(II) to an individual or to any other entity under this subsection,

the Secretary may provide, in addition to any other remedies available under law, for any of the remedies described in subparagraph (B).

Law enforcement and crime.

"(B) The remedies described in this subparagraph are—

"(i) civil money penalties of not more than $25,000 for each determination under subparagraph (A), or, with respect to a determination under clause (iii) or (iv)(I) of such subparagraph, of not more than $100,000 for each such determination, plus, with respect to a determination under subparagraph (A)(ii), double the excess amount charged in violation of such subparagraph (and the excess amount charged shall be deducted from the penalty and returned to the individual concerned), and plus, with respect to a determination under subparagraph (A)(iii), $15,000 for each individual not enrolled as a result of a practice described in such subparagraph, or

State and local governments. Contracts.

"(ii) denial of payment to the State for medical assistance furnished under the contract under this subsection for individuals enrolled after the date the Secretary notifies the organization of a determination under subparagraph (A) and until the Secretary is satisfied that the basis for such determination has been corrected and is not likely to recur.

The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under clause (i) in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).".

Effective date. 42 USC 1396b note.

(B) The amendment made by subparagraph (A) shall apply to actions occurring on or after the date of the enactment of this Act.

(13) TREATMENT OF EDUCATIONALLY-RELATED SERVICES.—(A) Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by inserting after subsection (b) the following new subsection:

Children and youth. Handicapped persons.

"(c) Nothing in this title shall be construed as prohibiting or restricting, or authorizing the Secretary to prohibit or restrict, payment under subsection (a) for medical assistance for covered services furnished to a handicapped child because such services are included in the child's individualized education program established pursuant to part B of the Education of the Handicapped Act or furnished to a handicapped infant or toddler because such services are included in the child's individualized family service plan adopted pursuant to part H of such Act.".

Effective date. 42 USC 1396b note.

(B) The amendment made by subparagraph (A) shall take effect on the date of the enactment of this Act.

(14) CLARIFICATION OF TERM "INSTITUTION FOR MENTAL DISEASES".—(A) Section 1905 of the Social Security Act (42 U.S.C. 1396d) is amended by inserting after subsection (h) the following new subsection:

"(i) The term 'institution for mental diseases' means a hospital, nursing facility, or other institution of more than 16 beds, that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services.".

(B) The amendment made by subparagraph (A) shall take effect on the date of the enactment of this Act. Effective date. 42 USC 1396d note.

(15) ELIGIBILITY VERIFICATION TECHNICAL CORRECTION.—(A) Section 1137 of the Social Security Act (42 U.S.C. 1320b-7) is amended by adding at the end the following new subsection:

"(f) Subsections (a)(1) and (d) shall not apply with respect to aliens seeking medical assistance for the treatment of an emergency medical condition under section 1903(v)(2).". Aliens.

(B) The amendment made by subparagraph (A) shall apply as if it were included in the enactment of section 9406 of the Omnibus Budget Reconciliation Act of 1986. Effective date. 42 USC 1320b-7 note.

(16) TECHNICAL CORRECTIONS RELATING TO PRESUMPTIVE ELIGIBILITY.—(A) Section 1920(d)(1)(B) of the Social Security Act (42 U.S.C. 1396r-1(d)(1)(B)) is amended by striking "by a qualified provider" and inserting "by a provider that is eligible for payments under the State plan".

(B) Section 1920(b)(2)(D) of such Act (42 U.S.C. 1396r-1(b)(2)(D)) is amended—

(i) in clause (i)—

(I) in subclause (I), by striking "or section 330" and inserting ", 330, or 340" and by striking "or" at the end,

(II) in subclause (II), by striking the semicolon at the end and inserting ", or", and

(III) by adding after subclause (II) the following new subclause:

"(III) title V of the Indian Health Care Improvement Act;";

(ii) in clause (ii), by striking "or" at the end; and

(iii) by adding at the end the following new clause:

"(iv) is the Indian Health Service or is a health program or facility operated by a tribe or tribal organization under the Indian Self-Determination Act (Public Law 93-638).". Indians.

(C) The amendments made by this paragraph shall be effective as if they were included in section 9407(b) of the Omnibus Budget Reconciliation Act of 1986. Effective date. 42 USC 1396r-1 note.

(17) WAIVER FOR CHILDREN INFECTED WITH AIDS OR DRUG DEPENDENT AT BIRTH.—(A) Section 1915 of the Social Security Act (42 U.S.C. 1396n) is amended—

(i) by redesignating subsection (f) as paragraph (2);

(ii) in subsection (e), by striking paragraph (2) and by redesignating such subsection as subsection (f);

(iii) by inserting after subsection (d) the following new subsection:

"(e)(1)(A) Subject to paragraph (2), the Secretary shall grant a waiver to provide that a State plan approved under this title shall include as 'medical assistance' under such plan payment for part or all of the cost of nursing care, respite care, physicians' services, prescribed drugs, medical devices and supplies, transportation services, and such other services requested by the State as the Secretary may approve which are provided pursuant to a written plan of care to a child described in subparagraph (B) with respect to whom there has been a determination that but for the provision of such services the infants would be likely to require the level of care provided in a State and local governments. Prescription drugs. Children and youth. Transportation.

hospital or nursing facility the cost of which could be reimbursed under the State plan.

"(B) Children described in this subparagraph are individuals under 5 years of age who—

AIDS.

"(i) at the time of birth were infected with (or tested positively for) the etiologic agent for acquired immune deficiency syndrome (AIDS),

"(ii) have such syndrome, or

Drugs and drug abuse.

"(iii) at the time of birth were dependent on heroin, cocaine, or phencyclidine,

and with respect to whom adoption or foster care assistance is (or will be) made available under part E of title IV.

State and local governments.
Public health and safety.

"(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that—

"(A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services;

"(B) under such waiver the average per capita expenditure estimated by the State in any fiscal year for medical assistance provided with respect to such individuals does not exceed 100 percent of the average per capita expenditure that the State reasonably estimates would have been made in that fiscal year for expenditures under the State plan for such individuals if the waiver had not been granted; and

"(C) the State will provide to the Secretary annually, consistent with a data collection plan designed by the Secretary, information on the impact of the waiver granted under this subsection on the type and amount of medical assistance provided under the State plan and on the health and welfare of recipients.

"(3) A waiver granted under this subsection may include a waiver of the requirements of section 1902(a)(1) (relating to statewideness) and section 1902(a)(10)(B) (relating to comparability). A waiver under this subsection shall be for an initial term of 3 years and, upon the request of a State, shall be extended for additional five-year periods unless the Secretary determines that for the previous waiver period the assurances provided under paragraph (2) have not been met.

"(4) The provisions of paragraph (6) of subsection (d) shall apply to this subsection in the same manner as it applies to subsection (d)."; and

(iv) in subsection (h), by striking "or (d)" and inserting "(d), or (e)".

(B) Section 1902(a)(10)(A)(ii)(VI) of such Act (42 U.S.C. 1396a(a)(10)(A)(ii)(VI)) is amended by striking "(c) or (d)" each place it appears and inserting "(c), (d), or (e)".

(l) CORRECTIONS RELATING TO SUBTITLE C OF TITLE IV (NURSING HOME REFORM).—

42 USC 1395i-3.

(1) SECTION 4201.—(A) Section 1819 of the Social Security Act, as added by section 4201(a)(3) of OBRA, is amended—

(i) in subsection (b)(3)(C)(i)(I), by striking "October 1, 1990" the second place it appears and inserting "January 1, 1991";

(ii) in subsection (b)(4)(C)(i)—

(I) by inserting "licensed" after "24-hour",

(II) by striking "employ" and inserting "use", and

(III) by striking "during the day tour of duty (of at least 8 hours a day)" and inserting "at least 8 consecutive hours a day,";

(iii) in subsection (b)(5)(A), by striking "October 1, 1989" and all that follows through "July 1, 1989)" and inserting "January 1, 1990";

(iv) in subsection (e)(1)(A), by striking "March 1, 1989" and inserting "January 1, 1989";

(v) in subsection (e)(1)(B), by striking "March 1, 1990" and inserting "January 1, 1990";

(vi) in subsection (e)(2)(A), by striking "March 1, 1989" and inserting "January 1, 1989";

(vii) in subsection (e)(3), by striking "October 1, 1990" and inserting "October 1, 1989";

(viii) in subsection (e)(5), by striking "July 1, 1989" and inserting "July 1, 1990";

(ix) in subsection (f)(3), by striking "October 1, 1989" and inserting "October 1, 1988";

(x) in subsection (f)(6)(A), by striking "July 1, 1989" and inserting "January 1, 1989"; and

(xi) in subsection (f)(6)(B), by striking "October 1, 1990" and inserting "April 1, 1990".

(B) Section 4201(d) of OBRA is amended— 42 USC 1395x.

(i) by striking "AMENDMENT.—" and inserting "AMENDMENTS.—(1)",

(ii) by striking "1919(a)(2)" and inserting "1819(a)(1)", and

(iii) by adding at the end the following new paragraph:

"(2) Section 1861(n) of such Act (42 U.S.C. 1395x(n)) is amended by striking 'or (j)(1) of this section' and inserting 'or of section 1819(a)(1)'.".

(2) SECTIONS 4201 AND 4211.—(A) Sections 1819(b)(3)(A)(iv) and 1919(b)(3)(A)(iv) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are amended by striking "in the case of a resident eligible for benefits under part A of this title" and by striking "in the case of a resident eligible for benefits under part A of title XVIII", respectively. 42 USC 1395i-3, 1396r.

(B) Sections 1819(b)(3)(A)(iii) and 1919(b)(3)(A)(iii) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are amended by striking "in the case of a resident eligible for benefits under title XIX," and "in the case of a resident eligible for benefits under this title,", respectively.

(C) Subclause (III) of each of sections 1819(b)(3)(B)(ii) and 1919(b)(3)(B)(ii) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, is amended to read as follows:

"(III) The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under this clause in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).".

(D) Sections 1819(b)(5) and 1919(b)(5) of the Social Security Act, as added by section 4201(a)(3) of OBRA and as inserted by section 4211(a)(3) of OBRA, respectively, are each amended—

(i) in subparagraph (A), by striking ", who is not a licensed health care professional (as defined in subparagraph (E)),",

(ii) in subparagraph (A)(ii), by striking "such services" and inserting "nursing or nursing-related services", and

(iii) in subparagraph (G), by inserting "physical or occupational therapy assistant," after "occupational therapist,".

Effective date. 42 USC 1395x note. 42 USC 1395x.

(E) Effective as of the date of the enactment of this Act and until the effective date of section 1819(c) of such Act, section 1861(j) of the Social Security Act is deemed to include the requirement described in section 1819(c)(3)(A) of such Act (as added by section 4201(a)(3) of OBRA).

42 USC 1395i-3, 1396r.

(F) Sections 1819(c)(2)(A)(v) and 1919(c)(2)(A)(v) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are each amended by striking "an allowable charge" and all that follows through the semicolon and inserting "for a stay at the facility;".

(G) Sections 1819(c)(6) and 1919(c)(6) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are each amended—

(i) in subparagraph (A)(ii), by striking "once the facility accepts" and inserting "upon", and

(ii) in subparagraph (B), by striking "a facility's acceptance of".

(H) Sections 1819(e)(2)(B) and 1919(e)(2)(B) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively are each amended by inserting after the first sentence the following sentence: "The State shall make available to the public information in the registry.".

State and local governments. Public information. Records.

(I) Sections 1819(e)(3), 1819(f)(3), 1919(e)(3), and 1919(f)(3) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, are each amended—

(i) by inserting "AND DISCHARGES" after "TRANSFERS", and

(ii) by inserting "and discharges" after "transfers".

(J) Sections 1819(f)(2)(A)(i)(I) and 1919(f)(2)(A)(i)(I) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are each amended by striking "cognitive, behavioral and social care" and inserting "recognition of mental health and social service needs".

(K) Sections 1819(f)(7) and 1919(f)(7) of the Social Security Act, as added by section 4201(a)(3) and as inserted by section 4211(a)(3) of OBRA, respectively, are each amended by striking "patients" and inserting "residents".

(L)(i) Section 1819(f)(7)(B) of the Social Security Act, as added by section 4201(a)(3), is amended by striking "shall not" and inserting "shall".

(ii) Section 1919(f)(7)(B) of the Social Security Act, as inserted by section 4211(a)(3) of OBRA, is amended by striking "do not".

42 USC 1396a.

(D) Section 4212(e)(1)(B) of OBRA is amended by inserting "provided" after "services" each place it appears.

(E) Section 4212(e) of OBRA is amended by adding at the end the following new paragraph:

42 USC 1396r-3.

"(5) Section 1922(e) of such Act, as redesignated and transferred by section 4211(a)(2) of this Act, is amended by striking '1910(c)' in paragraphs (1) and (2)(A) and inserting '1910(b)'.".

(7) SECTIONS 4203 AND 4213.—(A) Sections 1819(h)(2)(B)(ii) and 1919(h)(3)(C)(ii) of the Social Security Act, as added by sections 4203(a)(2) and 4213(a) of OBRA, respectively, are each amended by striking "and the Secretary" and all that follows through "1128A." and inserting the following: ". The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).". 42 USC 1395i-3, 1396r.

(B) Sections 1819(h)(6) and 1919(h)(9) of the Social Security Act, as added by sections 4203(a)(2) and 4213(a) of OBRA, respectively, are each amended by inserting "by such facilities" after "shall be made available".

(8) SECTION 4213.—(A) Section 4213(a) of OBRA is amended by striking "as inserted by section 4201 and amended by section 4202" and inserting "as inserted by section 4211 and amended by section 4212". 42 USC 1396r.

(B) Section 1919(h) of the Social Security Act, as added by section 4213(a) of OBRA, is amended—

(i) in the last sentence of paragraph (1), by striking "(2)(A)(i)" and inserting "(2)(A)(ii)",

(ii) in the second sentence of paragraph (2)(B)(i), by striking "or otherwise", and

(iii) in paragraph (5), by striking "State and the Secretary" and inserting "State or the Secretary, respectively".

(C) Paragraph (1) of section 4213(b) of OBRA is amended by striking "1902" and all that follows through the end and inserting the following: "1902(i) of such Act (42 U.S.C. 1396a(i)) is amended— 42 USC 1396a.

"(A) in paragraph (1), by striking 'skilled nursing facility or intermediate care facility' and inserting 'intermediate care facility for the mentally retarded';

"(B) in paragraph (1), by striking 'the provisions of section 1861(j) or section 1905(c), respectively,' and inserting 'the requirements for such a facility under this title'; and

"(C) in paragraphs (2) and (3), by striking 'the provisions of section 1861(j) or section 1905(c) (as the case may be)' and inserting 'the requirements for such a facility under this title'.".

(9) SECTION 4204.—(A) Section 4204(a) of OBRA is amended by striking "extended care". 42 USC 1395i-3 note.

(B) Section 4204 of OBRA is amended—

(i) in subsection (a), by striking "made by this part" and inserting "made by sections 4201 and 4202 (relating to skilled nursing facility requirements and survey and certification requirements)",

(ii) by redesignating subsection (c) as subsection (d), and

(iii) by inserting after subsection (a) the following new subsection:

"(b) ENFORCEMENT.—(1) Except as otherwise specifically provided in section 1819 of the Social Security Act, the amendments made by section 4203 of this Act apply January 1, 1988, without regard to whether regulations to implement such amendments are promulgated by such date. Effective date.

"(2) In applying the amendments made by section 4203 of this Act for services furnished by a skilled nursing facility before October 1, 1990, any reference to a requirement of subsection (b), (c), or (d), of section 1819 of the Social Security Act is deemed a reference to the provisions of section 1861(j) of such Act.".

42 USC 1396r note.

(10) SECTION 4214.—Section 4214 of OBRA is amended—

(A) by striking "(c) TRANSITIONAL RULE.—" and inserting "(2)",

(B) by inserting "of section 1919 of the Social Security Act" after "(b), (c), or (d)", and

(C) by redesignating subsection (d) as subsection (c).

(m) CORRECTIONS TO SUBTITLE E OF TITLE IV (RELATING TO RURAL HEALTH).—

Rural areas. 42 USC 912.

(1) SECTION 4401.—Section 711(b)(1) of the Social Security Act, as added by section 4401 of OBRA, is amended by striking "section 4083 of the Omnibus Budget Reconciliation Act of 1987" and inserting "section 4403 of the Omnibus Budget Reconciliation Act of 1987 (as such section pertains to rural health issues)".

42 USC 1395b-1 note.

(2) SECTION 4403.—(A) Section 4403 of OBRA is amended—

(i) in the heading, by striking "EXPERIMENTS AND DEMONSTRATION PROJECTS RELATING TO RURAL HEALTH CARE ISSUES" and inserting "RESEARCH AND DEMONSTRATION PROJECTS ON RURAL AND INNER-CITY HEALTH ISSUES";

(ii) in subsection (a)—

(I) by striking "SET ASIDE.—" and inserting "SET ASIDES FOR ISSUES OF HEALTH CARE IN RURAL AREAS AND IN INNER-CITY AREAS.—(1)",

(II) by striking "expended in each fiscal year" and all that follows through "1972" and inserting "annually appropriated to, and expended by, the Health Care Financing Administration for the conduct of research and demonstration projects in fiscal years 1988, 1989, and 1990",

(III) by striking "experiments" and inserting "research";

(iii) by adding at the end the following new paragraph:

Research and development. Urban areas.

"(2) Not less than ten percent of the total amounts annually appropriated to, and expended by, the Health Care Financing Administration for the conduct of research and demonstration projects in fiscal years 1988, 1989, and 1990 shall be expended for research and demonstration projects relating exclusively or substantially to issues of providing health care in inner-city areas, including (but not limited to) the impact of the payment methodology under section 1886(d) of the Social Security Act on the financial viability of inner-city hospitals and the impact of medicare policies on access to (and the quality of) health care in inner-city areas."; and

(iv) in subsection (b)—

(I) by striking "of experiments" and inserting "of research",

(II) by inserting "or to inner-city health issues" after "rural health issues", and

(III) by striking "experiments and".

(B) The item in the table of contents of OBRA relating to section 4403 is amended to read as follows:

"Sec. 4403. Set aside for research and demonstration projects on rural and inner-city health issues.".

(n) CORRECTIONS TO CERTAIN HEALTH-RELATED PROVISIONS IN TITLE IX.—

(1) SECTION 9010.—The last sentence of section 226(b) of the Social Security Act, as added by section 9010(e)(3) of OBRA, is amended to read as follows: "In determining when an individual's entitlement or status terminates for purposes of the preceding sentence, the term '36 months' in the second sentence of section 223(a)(1), in section 202(d)(1)(G)(i), in the last sentence of section 202(e)(1), and in the last sentence of section 202(f)(1) shall be applied as though it read '15 months'.". 42 USC 426.

(2) SECTION 9115.—Section 9115(b) of OBRA is amended by striking "1902(l)" and inserting "1902(o)". 42 USC 1396a.

(3) SECTION 9119.—Section 9119 of OBRA is amended by adding at the end the following new subsection:

"(d) CONFORMING AMENDMENTS TO MEDICAID PROGRAM FOR THE MEDICALLY NEEDY.—(1) Section 1902 of the Social Security Act (42 U.S.C. 1396a) is amended—

"(A) in subsection (a)—

"(i) by striking 'and' at the end of paragraph (48),

"(ii) by striking the period at the end of paragraph (49) and inserting '; and', and

"(iii) by inserting after paragraph (49) the following new paragraph:

" '(50) provide, in accordance with subsection (q), for a monthly personal needs allowance for certain institutionalized individuals and couples.'; and

"(B) by adding at the end the following new subsection:

" '(q)(1)(A) In order to meet the requirement of subsection (a)(50), the State plan must provide that, in the case of an institutionalized individual or couple described in subparagraph (B), in determining the amount of the individual's or couple's income to be applied monthly to payment for the cost of care in an institution, there shall be deducted from the monthly income (in addition to other allowances otherwise provided under the State plan) a monthly personal needs allowance— State and local governments.

" '(i) which is reasonable in amount for clothing and other personal needs of the individual (or couple) while in an institution, and

" '(ii) which is not less (and may be greater) than the minimum monthly personal needs allowance described in paragraph (2).

" '(B) In this subsection, the term "institutionalized individual or couple" means an individual or married couple—

" '(i) who is an inpatient (or who are inpatients) in a medical institution or nursing facility for which payments are made under this title throughout a month, and

" '(ii) who is or are determined to be eligible for medical assistance under the State plan.

" '(2) The minimum monthly personal needs allowance described in this paragraph is $30 for an institutionalized individual and $60 for an institutionalized couple (if both are aged, blind, or disabled, and their incomes are considered available to each other in determining eligibility).'. Blind persons. Handicapped persons.

"(2) The amendments made by paragraph (1) apply to payments under title XIX of the Social Security Act for calendar quarters beginning on or after July 1, 1988, without regard to whether or not Effective date. 42 USC 1396a note.

final regulations to carry out such amendments have been promulgated by such date.".

(o) SUBTITLE D OF TITLE IV.—

(1) SECTION 4303.—Section 2115 of the Public Health Service Act is amended—

42 USC 300aa-15.

(A) in subsection (i)(1), as added by section 4303(a) of OBRA, by striking "from appropriations under subsection (i)" and inserting "by the Secretary from appropriations under subsection (j)", and

(B) in subsection (j), as added by section 4303(b) of OBRA, by inserting "to the Department of Health and Human Services" after "to be appropriated".

42 USC 300aa-12.

(2) SECTION 4307.—Section 4307(3)(C) of OBRA is amended by striking "subsection (g)" and inserting "subsection (e), as redesignated by section 4303(d)(2)(A),".

(3) SECTION 4308.—(A) Subtitle D of title IV of OBRA is amended by adding at the end the following new section:

"SEC. 4308. TECHNICAL AMENDMENTS RELATING TO COURT OF CLAIMS PROCEDURES.

"(a) DUTIES OF SPECIAL MASTERS.—Section 2112(c)(2) of the Public Health Service Act (42 U.S.C. 300aa-12(a)) is amended—

"(1) by inserting ', shall prepare and submit to the court proposed findings of fact and conclusions of law,' after 'adjunct to the court',

"(2) by inserting 'and' at the end of subparagraph (C),

"(3) by striking ', and' at the end of subparagraph (D) and inserting a period, and

"(4) by striking subparagraph (E).

"(b) REQUIRING FILING OF APPEALS WITHIN 60 DAYS.—Section 2112(e) of such Act (42 U.S.C. 300aa-12(e)), as redesignated by section 4303(d)(2)(A), is amended by inserting 'within 60 days of the date of the judgment' after 'petition filed'.

"(c) CLARIFICATION ON TIMING OF BRINGING ADDITIONAL ACTIONS.—The second sentence of section 2121(a) of such Act (42 U.S.C. 300aa-21(a)) is amended by striking 'the entry of the court's judgment' and inserting 'the court's final judgment'.".

(B) The table of contents relating to title IV of OBRA is amended by inserting after the item relating to section 4307 the following new item:

"Sec. 4308. Technical amendments relating to Court of Claims procedures.".

Subtitle C—Miscellaneous Provisions

Employment and unemployment.
42 USC 1395b note.

SEC. 421. MAINTENANCE OF EFFORT.

(a) IN GENERAL.—

(1) DUPLICATIVE PART A BENEFITS.—If an employer described in subsection (b)(1) provides, as of the date of the enactment of this Act, health care benefits to an employee or retired former employee that are duplicative part A benefits (as defined in paragraph (3)(A)), the employer shall, during the period described in subsection (c)(1), provide to the employee or retired former employee an amount of additional benefits or refunds, or combination of such benefits and refunds, that total at least the

actuarial value of the duplicative part A benefits during the period described in subsection (c)(1)(A).

(2) DUPLICATIVE PART B BENEFITS.—If an employer described in subsection (b)(2) provides, as of the date of the enactment of this Act, health care benefits to an employee or retired former employee that are duplicative part B benefits (as defined in paragraph (3)(B)), the employer shall, during the period described in subsection (c)(2), provide to the employee or retired former employee an amount of additional benefits or refunds, or combination of such benefits and refunds, that total at least the actuarial value of the duplicative part B benefits during the period described in subsection (c)(1)(B).

(3) DUPLICATIVE BENEFITS DEFINED.—In this section:

(A) The term "duplicative part A benefits" means benefits which are duplicative of benefits under part A of title XVIII of the Social Security Act (as amended by this Act as of January 1, 1989), but which were not duplicative of such benefits as such part was in effect before the date of the enactment of this Act.

(B) The term "duplicative part B benefits" means benefits which are duplicative of benefits under part B of title XVIII of the Social Security Act (as amended by this Act as of January 1, 1990, but excluding any such benefits with respect to covered outpatient drugs), but which were not duplicative of such benefits as such part was in effect before the date of the enactment of this Act.

(C) Duplicative part A benefits and duplicative part B benefits shall be determined under this section net of any premiums payable by employees (or retired former employees) attributable to the respective duplicative benefits.

(b) EMPLOYERS COVERED.—

(1) DUPLICATIVE PART A BENEFITS.—An employer is described in this paragraph if the employer (including a public employer, other than an employer to which section 422 applies) provides, as of the date of the enactment of this Act, duplicative part A benefits the actuarial value of which is at least 50 percent of the national average actuarial value (discounted to the value as of the date of the enactment of this Act) of the duplicative part A benefits.

(2) DUPLICATIVE PART B BENEFITS.—An employer is described in this paragraph if the employer (including a public employer, other than an employer to which section 422 applies) provides, as of the date of the enactment of this Act, duplicative part B benefits the actuarial value of which is at least 50 percent of the national average actuarial value (discounted to the value as of the date of the enactment of this Act) of the duplicative part B benefits.

(3) ELECTION.—For purposes of this section—

(A) IN GENERAL.—An employer may elect to compute the actuarial value of duplicative part A benefits and duplicative part B benefits either—

(i) on the basis of average actuarial values published by the Secretary under subparagraph (B)(i), or

(ii) on the basis of the actuarial value with respect to that employer, computed using guidelines published by the Secretary under subparagraph (B)(ii).

(B) COMPUTATION OF ACTUARIAL VALUES.—The Secretary of Health and Human Services, before the beginning of each of 4 years (beginning with 1989 for duplicative part A benefits and beginning with 1990 for duplicative part B benefits) shall—

(i) calculate and publish the national average actuarial value of duplicative part A benefits and duplicative part B benefits for 1988 and the year involved, and

(ii) guidelines for employers to use, under subparagraph (A)(ii), in computing the actuarial value of such duplicative benefits with respect to each employer for such years.

The guidelines published under clause (ii) shall include instructions to assist employers in determining whether or not employers are described in paragraph (1) or (2) of this subsection.

(c) EFFECTIVE PERIOD.—

(1) IN GENERAL.—

(A) DUPLICATIVE PART A BENEFITS.—Subsection (a)(1) shall only be effective during the period beginning on January 1, 1989, and ending on December 31, 1989, or, if later, the date specified in paragraph (2).

(B) DUPLICATIVE PART B BENEFITS.—Subsection (a)(2) shall only be effective during the period beginning on January 1, 1990, and ending on December 31, 1990, or, if later, the date specified in paragraph (2).

(2) EXTENSION TO COVER CURRENT COLLECTIVE BARGAINING AGREEMENTS.—In the case of employees or retired former employees who are provided duplicative part A benefits or duplicative part B benefits under a collective bargaining agreement that is in effect on the date of enactment of this Act, the date specified in this paragraph is the date of the expiration of the agreement (determined without regard to any extension thereof agreed to after the date of the enactment of this Act).

(d) EXCLUSION OF MULTI-EMPLOYER PLANS.—This section shall not apply with respect to duplicative benefits provided under a plan—

(1) to which more than one employer is required to contribute, and

Contracts.

(2) which is maintained pursuant to one or more collective bargaining agreements between one or more employee organizations and more than one employer.

5 USC 8902 note.

SEC. 422. RATE REDUCTION FOR MEDICARE ELIGIBLE FEDERAL ANNUITANTS.

(a) IN GENERAL.—

(1) The Office of Personnel Management shall, in consultation with carriers offering health benefits plans contracted pursuant to section 8902 of title 5, United States Code, reduce the rates charged medicare eligible individuals participating in such health benefit plans, by the amount, prorated for each covered medicare eligible individual, of the estimated cost of medical services and supplies which, but for the amendments made by subtitle A of title I and subtitle A of title II of this Act, would have been payable by such plans.

Effective dates.

(2) The reduced rates as provided under paragraph (1), shall apply as of the effective dates of the respective amendments.

(b) AUTHORIZATION OF AVAILABILITY OF EMPLOYEE HEALTH BENEFITS FUND FOR RATE REDUCTION.—Funds in the Employees Health Benefits Fund established under section 8909 of title 5, United States Code, are available without fiscal year limitation for costs incurred by the Office of Personnel Management in making rate reductions provided under this section.

(c) DEFINITION.—For purposes of this section the term "medicare eligible individual" means any annuitant, survivor of an annuitant, or former spouse of an annuitant—

(1) who is—

(A) otherwise eligible for benefits under chapter 89 of title 5, United States Code;

(B) eligible for benefits under part A of title XVIII of the Social Security Act; and

(C) covered by the insurance program established under part B of such title; and

(2) for whom benefits paid under title XVIII of the Social Security Act are the primary source of health care benefits.

SEC. 423. STUDY AND REPORTS BY THE OFFICE OF PERSONNEL MANAGEMENT ON OFFERING MEDICARE SUPPLEMENTAL PLANS TO FEDERAL MEDICARE ELIGIBLE INDIVIDUALS, AND OTHER CHANGES.

(a) STUDY AND REPORT.—

(1) No later than April 1, 1989, the Director of the Office of Personnel Management shall conduct a study and submit a report to the Committee on Governmental Affairs of the Senate and the Committee on Post Office and Civil Service of the House of Representatives regarding changes to the health benefits program established under chapter 89 of title 5, United States Code, that may be required to incorporate plans designed specifically for medicare eligible individuals and to improve the efficiency and effectiveness of the program.

(2) Any medicare supplemental plan recommended by the Director of the Office of Personnel Management shall not duplicate benefits for which payment may be made under title XVIII of the Social Security Act, however such recommendation—

(A) shall cover expenses which are not payable under such title by reason of deductibles or coinsurance amounts; and

(B) may offer additional reimbursement—

(i) where benefits under such title are limited by fee schedule; and

(ii) for benefits not covered under such title which may be of value to medicare eligible individuals.

(b) FEASIBILITY STUDY AND REPORT.—No later than April 1, 1989, the Director of the Office of Personnel Management shall report to the appropriate committees of the Congress whether it is feasible to adopt such standards as issued by the National Association of Insurance Commissioners as required by section 1882 of the Social Security Act (42 U.S.C. 1395ss) for medicare supplemental policies, when providing medicare supplemental plans as a type of health benefits plan available for Federal employees pursuant to chapter 89 of title 5, United States Code.

Voluntarism.
42 USC 1395b-2 note.

SEC. 424. BENEFITS COUNSELING AND ASSISTANCE DEMONSTRATION PROJECT FOR CERTAIN MEDICARE AND MEDICAID BENEFICIARIES.

(a) TRAINING AND TECHNICAL ASSISTANCE.—

Contracts.

(1) The Secretary of Health and Human Services (in this section referred to as the "Secretary") shall establish a demonstration project through an agreement with a private or public nonprofit agency or organization, which demonstrates, to the satisfaction of the Secretary, that its volunteers are adequately trained and competent to render effective benefits counseling and assistance to the elderly, for the purpose of providing training and technical assistance to prepare volunteers to provide to elderly individuals receiving benefits under title XVIII or XIX of the Social Security Act counseling with respect to eligibility for such benefits and assistance in preparing such documentation as may be required to fully receive such benefits.

(2) In addition to any other forms of technical assistance provided under this subsection, the Secretary is authorized to provide to the project—

(A) material to be used in making elderly persons aware of the availability of assistance under volunteer assistance programs under this section; and

(B) technical materials and publications to be used by such volunteers.

(b) POWERS OF THE SECRETARY.—Under the demonstration project under this section, the Secretary is authorized—

(1) to provide for the training of volunteers, and assist in such training, to insure that volunteers are qualified to provide benefits and counseling assistance (as described in paragraph (1)) to the elderly;

(2) to provide reimbursement to volunteers through the agency or organization for transportation, meals, and other expenses incurred by them in training or providing benefits counseling and assistance under this section, and such other support and assistance as the Secretary determines to be appropriate in carrying out the provisions of this section; and

(3) to provide for the use of services, personnel, and facilities of Federal executive agencies and of State and local public agencies with their consent, with or without reimbursement therefor.

(c) EMPLOYMENT OF VOLUNTEERS.—

(1) Service as a volunteer in the demonstration project carried out under this section shall not be considered service as an employee of the United States. Volunteers under the project shall not be considered Federal employees and shall not be subject to the provisions of law relating to Federal employment, except that the provisions of section 1905 of title 18, United States Code, shall apply to volunteers as if they were employees of the United States.

Taxes.

(2) Amounts received by volunteers serving in any program carried out under this section as reimbursement for expenses are exempt from taxation under chapters 1 and 21 of the Internal Revenue Code of 1986.

(d) DEFINITION.—For purposes of this section, the term "elderly individual" means an individual who has attained the age of 60 years.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated, in appropriate parts from the Federal Hospital Insurance Trust Fund and from the Federal Supplementary Medical Insurance Trust Fund, for fiscal years 1989, 1990, and 1991 such sums as may be necessary to carry out the provisions of this section.

SEC. 425. CASE MANAGEMENT DEMONSTRATION PROJECTS.

Contracts.
42 USC 1395b-1 note.

(a) IN GENERAL.—Within 12 months after the date of the enactment of this Act, the Secretary of Health and Human Services (in this section referred to as the "Secretary") shall establish 4 demonstration projects under which an appropriate entity agrees to provide case management services to medicare beneficiaries with selected catastrophic illnesses, particularly those with high costs of health care services. At least one such demonstration project shall be conducted through an agreement with a utilization and quality control peer review organization with a contract with the Secretary under part B of title XI of the Social Security Act.

(b) PURPOSE OF PROJECTS.—It is the purpose of the demonstration projects established under this section to provide the Secretary and the Congress with the information necessary—

(1) to evaluate the appropriateness of providing case management services under the medicare program for medicare beneficiaries with high costs of medical care, and

(2) to determine the most effective approach to implementing a case management system under the program for such beneficiaries.

(c) AGREEMENT.—The agreement entered into under subsection (a) shall specify—

(1) the high cost cases with respect to which case management services will be provided under the project,

(2) the payments to be made to the entity conducting the project for carrying out the project, and

(3) such other terms and conditions as the Secretary and the entity conducting the project may agree to.

(d) WAIVERS.—The Secretary shall waive—

(1) such provisions of part B of title XI of the Social Security Act, and

(2) such provisions of title XVIII of such Act as relate to limitations or restrictions on benefits under such title,

as the Secretary determines to be appropriate for the conduct of demonstration projects under this section.

(e) DURATION.—

(1) Except as provided in paragraph (2), a demonstration project under this section shall be conducted for a 2-year period.

(2) The Secretary may terminate a demonstration project before the end of the 2-year period specified in paragraph (1) if the Secretary determines that the entity conducting the project is not in substantial compliance with the terms of the agreement entered into under subsection (a).

(f) INFORMATION AND REPORTS.—

(1) An entity with an agreement under subsection (a) shall furnish the Secretary with such information as the Secretary determines to be necessary to evaluate the results of that project.

(2)(A) The Secretary shall submit to the Congress an interim report on the projects conducted under this section based upon information that is derived from the first year of project operations and shall set forth any interim findings, recommendations, and conclusions that the Secretary determines to be appropriate.

(B) The Secretary shall submit to the Congress a final report on the demonstration projects conducted under this section based upon data derived from the projects and shall update the findings, recommendations, and conclusions set forth in the interim report submitted under paragraph (1).

(g) AUTHORIZATION TO USE CERTAIN FUNDS.—The Secretary shall provide for the transfer, from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Insurance Trust Fund in such proportions as the Secretary determines to be appropriate, of not to exceed $2,000,000 in each of 2 fiscal years for administrative costs in carrying out the demonstration projects under this section. Such amounts shall be transferred without regard to amounts appropriated in advance in appropriation Acts.

SEC. 426. EXTENSIONS OF EXPIRING PROVISIONS.

42 USC 1395y note.

(a) HOSPICE WAIVER OF LIABILITY PROVISION.—Section 9305(f)(2) of the Omnibus Budget Reconciliation Act of 1986 is amended by striking "November 1, 1988" and inserting "November 1, 1990".

42 USC 1395y note.

(b) SKILLED NURSING FACILITY WAIVER OF LIABILITY PRESUMPTION.—The second sentence of section 9126(c) of the Consolidated Omnibus Budget Reconciliation Act of 1985 is amended—

(1) by striking "30-month", and

(2) by inserting before the period at the end the following: "and ending on October 31, 1990".

42 USC 1395pp note.

(c) HOME HEALTH SERVICES WAIVER OF LIABILITY PRESUMPTION.—Section 9305(g)(3) of the Omnibus Budget Reconciliation Act of 1986 is amended by striking "October 1, 1989" and inserting "November 1, 1990".

42 USC 1395y note.

(d) HOME HEALTH WAIVER OF LIABILITY PRESUMPTION.—The second sentence of section 9205 of the Consolidated Omnibus Budget Reconciliation Act of 1985 is amended by striking all that follows "until" and inserting "November 1, 1990.".

42 USC 1395ww note.

(e) PROHIBITION ON NEW COST-SAVING REGULATIONS.—Section 4039(d) of the Omnibus Budget Reconciliation Act of 1987 is amended—

(1) by striking "October 15, 1988" and inserting "October 15, 1989", and

(2) by inserting "or in fiscal year 1990" after "in fiscal year 1989".

42 USC 1395h note.

SEC. 427. ADVISORY COMMITTEE ON MEDICARE HOME HEALTH CLAIMS.

(a) ESTABLISHMENT.—The Administrator of the Health Care Financing Administration (in this section referred to as the "Administrator") shall, within 90 days after the date of the enactment of this Act, establish an advisory committee to be known as the Advisory Committee on Medicare Home Health Claims (in this section referred to as the "Advisory Committee").

(b) MEMBERSHIP.—The Advisory Committee shall be composed of 11 members appointed by the Administrator for the life of the Committee. Of the members appointed—

(1) at least 5 shall be representatives of home health or visiting nurse agencies, and

(2) the remaining members shall be representative of fiscal intermediaries, physician groups, and senior citizen groups, but

no more than 3 of such members may be representative of fiscal intermediaries.

Members shall be appointed so as to be representative of all geographic areas of the United States.

(c) DUTIES.—The Advisory Committee shall study the reasons for the increase in the denial of claims for home health services during 1986 and 1987, the ramifications of such increase, and the need to reform the process involved in such denials.

(d) REPORT.—The Advisory Committee shall report to the Administrator, the Committees on Ways and Means and Energy and Commerce of the House of Representatives, and the Committee on Finance of the Senate, not later than one year after the date of the enactment of this Act, on its study under subsection (c), the findings of its study, and its recommendations for changes in the regulations under title XVIII of the Social Security Act as they relate to denial of claims for home health services.

(e) MISCELLANEOUS PROVISIONS.—

(1) The Advisory Committee shall elect one of its members to serve as Chairman.

(2)(A) A majority of the members of the Advisory Committee shall constitute a quorum for the transaction of business.

(B) The Advisory Committee shall meet at the call of the Chairman, or at the call of a majority of its members.

(3) Members of the Advisory Committee shall serve without compensation, but shall be entitled to reimbusement for travel, subsistence, and other necessary expenses incurred in the performance of their duties as members of the Committee.

(4) The Advisory Committee may appoint and fix the compensation of such personnel as it deems advisable, in accordance with the provisions of title 5, United States Code, governing appointments to the competitive service, and the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates.

(5) In carrying out its duties, the Advisory Committee is authorized to hold such hearings, sit and act at such times and places, and take such testimony, with respect to matters for which is has a responsibility under this section, as the Committee may deem advisable.

(6) The Advisory Committee may secure directly from any department or agency of the United States such data and information as may be necessary to carry out its responsibilities. Upon request of the Committee, any such department or agency shall furnish any such data or information.

(7) The General Services Administration shall provide to the Commission, on a reimbursable basis, such administrative support services as the Advisory Committee may request.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 428. PROHIBITION OF MISUSE OF SYMBOLS, EMBLEMS, OR NAMES IN REFERENCE TO SOCIAL SECURITY OR MEDICARE.

(a) IN GENERAL.—Part A of title XI is amended by adding at the end the following new section:

"PROHIBITION OF MISUSE OF SYMBOLS, EMBLEMS, OR NAMES IN REFERENCE TO SOCIAL SECURITY OR MEDICARE

Law enforcement and crime.
42 USC 1320b-10.

"SEC. 1140. (a) No person may use, in connection with any item constituting an advertisement, solicitation, circular, book, pamphlet, or other communication, or a play, motion picture, broadcast, telecast, or other production, alone or with other words, letters, symbols, or emblems—

"(1) the words 'Social Security', 'Social Security Account', 'Social Security System', 'Social Security Administration', 'Medicare', 'Health Care Financing Administration', the letters 'SSA' or 'HCFA', or any other combination or variation of such words or letters, or

"(2) a symbol or emblem of the Social Security Administration (including the design of, or a reasonable facsimile of the design of, the social security card issued pursuant to section 205(c)(2)(E), the check used for payment of benefits under title II, or envelopes or other stationery used by the Social Security Administration) or of the Health Care Financing Administration, or any other combination or variation of such symbols or emblems,

in a manner which such person knows or should know would convey the false impression that such item is approved, endorsed, or authorized by the Social Security Administration, the Health Care Financing Administration, or the Department of Health and Human Services or that such person has some connection with, or authorization from, the Social Security Administration, the Health Care Financing Administration, or the Department of Health and Human Services.

"(b)(1) Subject to paragraph (2), the Secretary may, pursuant to regulations, impose a civil money penalty not to exceed—

"(A) except as provided in subparagraph (B), $5,000, or

"(B) in the case of a violation consisting of a broadcast or telecast, $25,000,

against any person for each violation by such person of subsection (a).

"(2) The total amount of penalties which may be imposed under paragraph (1) with respect to multiple violations in any one year period consisting of substantially identical communications or productions shall not exceed $100,000.

"(c)(1) Subsections (c), (d), (e), (g), (j), and (k) of section 1128A shall apply with respect to violations under subsection (a) and penalties imposed under subsection (b) in the same manner and to the same extent as such subsections apply with respect to claims in violation of section 1128A and penalties imposed under section 1128A(a).

Claims.

"(2) Penalties imposed against a person under subsection (b) may be compromised by the Secretary and may be recovered in a civil action in the name of the United States brought in the district court of the United States for the district in which the violation occurred or where the person resides, has its principal office, or may be found, as determined by the Secretary. Amounts recovered under this section shall be paid to the Secretary and shall be deposited as miscellaneous receipts of the Treasury of the United States. The amount of such penalty when finally determined, or the amount agreed upon in compromise, may be deducted from any sum then or later owing by the United States to the person against whom the penalty has been imposed.".

(b) AUTHORIZING CIVIL MONEY PENALTIES FOR CERTAIN VIOLATIONS RELATING TO MEDICAL SUPPLEMENTAL POLICIES.—Section 1882(d) (42 U.S.C. 1395ss(d)) is amended—

(1) by striking "shall be guilty" and all that follows through "or both" in each of paragraphs (1), (2), (3)(A), and (4)(A), and inserting in each case the following: "shall be fined under title 18, United States Code, or imprisoned not more than 5 years, or both, and, in addition to or in lieu of such a criminal penalty, is subject to a civil money penalty of not to exceed $5,000 for each such prohibited act", and

(2) by adding at the end the following new paragraph:

"(5) The provisions of section 1128A (other than subsections (a) and (b)) shall apply to civil money penalties under paragraphs (1), (2), (3)(A), and (4)(A) in the same manner as such provisions apply to penalties and proceedings under section 1128A(a).".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act and shall apply only with respect to violations occurring on or after such date. 42 USC 1320b-10 note.

SEC. 429. DEMONSTRATION PROJECTS WITH RESPECT TO CHRONIC VENTILATOR-DEPENDENT UNITS IN HOSPITALS. 42 USC 1395b-1 note.

(a) IN GENERAL.—The Secretary of Health and Human Services shall provide for up to 5 demonstration projects, for up to 3 years each, to review the appropriateness of classifying chronic ventilator-dependent units in hospitals as rehabilitation units. Such projects shall be conducted in consultation with the Prospective Payment Assessment Commission.

(b) WAIVER AUTHORITY.—In conducting demonstration projects under this section for units, the Secretary may treat such a unit as a rehabilitation unit described in section 1886(d)(1)(B) of the Social Security Act for purposes of such section.

Approved July 1, 1988.

MEDICARE CATASTROPHIC COVERAGE ACT OF 1988

MAY 31, 1988.—Ordered to be printed

Mr. ROSTENKOWSKI, from the committee of conference, submitted the following

CONFERENCE REPORT

[To accompany H.R. 2470][1]

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2470) to amend title XVIII of the Social Security Act to provide protection against catastrophic medical expenses under the medicare program, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

1. Short Title; References in Act; Table of Contents (Section 1 of House bill; Section 1 of Senate amendment)

Present law

No provision.

House bill

Specifies that the act may be cited as the "Medicare Catastrophic Protection Act of 1987." Specifies that, except as otherwise specifically provided, whenever an amendment in this act is stated as an amendment or repeal of a section or provision, the reference is to the Social Security Act. Includes a table of contents.

Senate amendment

Similar provision, except specifies that act may be cited as the "Medicare Catastrophic Loss Prevention Act of 1987."

Conference agreement

The conference agreement specifies that the Act may be cited as the Medicare Catastrophic Coverage Act of 1988.

[1]Public Law 100-360, page 355, this Bulletin.

2. Inpatient Hospital Services (Section 101 of House bill; Sections 2 and 3 of Senate amendment)

Present law

(a) Deductible/Spell of Illness.—During each "spell of illness", beneficiaries are required to pay an inpatient hospital deductible ($540 in 1988). A spell of illness is defined as beginning when a beneficiary enters a hospital and ending when he or she has not been in a hospital or skilled nursing facility for 60 days.

(b) Limitation on Covered Inpatient Days.—(1) A beneficiary is entitled to 90 days of inpatient hospital services during each spell of illness. An additional lifetime reserve of 60 days may be drawn upon when an individual exceeds 90 days in a spell of illness. Medicare payment ceases after a beneficiary has used 90 days in a benefit period and exhausted the lifetime reserve days.

(2) The program includes an inpatient psychiatric carryover restriction for persons who are inpatients of a psychiatric hospital on the first day of Medicare entitlement. Days during the immediately preceding 150 days that the individual is an inpatient of a psychiatric hospital are subtracted from the 150 days that would otherwise be available in the initial spell of illness for inpatient psychiatric services.

(c) Coinsurance.—Beneficiaries are liable for daily coinsurance charges, equal to one-quarter of the inpatient hospital deductible for days 61–90 in a spell of illness ($135 in 1988). In addition, beneficiaries are liable for daily coinsurance charges, equal to one-half of the inpatient hospital deductible, for the 60 lifetime reserve days ($270 in 1988).

(d) Part A Premium.—Individuals aged 65 or over who are not automatically entitled to Part A may voluntarily enroll in the program if they pay a monthly premium. The premium amount, updated annually for the following year, is equal to $33 multiplied by the ratio of the inpatient hospital deductible for the following year to the inpatient hospital deductible in 1973.

(e) Adjustment in PPS Payment Rates.—Annual adjustments are made in payment amounts to PPS and PPS-exempt hospitals. Beginning in fiscal year 1988, the Secretary is required to adjust annually hospital weighting factors. Adjustments to outlier cutoff points are made periodically.

House bill

(a) Deductible/Spell of Illness.—Specifies that the deductible is to be applied to the first period of continuous hospitalization that begins in a calendar year. A beneficiary is required to pay only one deductible in a calendar year.

Eliminates "spell of illness" concept.

Specifies that beneficiaries whose "spell of illness" (for which a deductible is imposed) began before January 1, 1988, and had not yet ended as of such date, would not be required to pay an additional deductible for that spell of illness in 1988 or 1989.

(b) Limitation on Covered Inpatient Days.—

(1) Repeals limitations on number of covered inpatient days.

(2) Specifies that the psychiatric carryover restriction applies for the period beginning on the first day of Medicare entitle-

ment and ending at the end of the first period of 60 consecutive days on which the individual is not receiving inpatient psychiatric hospital services. The 150-day limitation is retained.

(c) Coinsurance.—Repeals coinsurance requirements, including, those required for emergency hospital services provided by a hospital that does not participate in Medicare.

(d) Part A Premium.—Requires the Secretary in September of each year (beginning in 1987), to establish the Part A monthly premium amount for the following year equal to the estimated actuarial value of the Part A benefit for such year (rounded to the nearest dollar). The actuarial value equals one-twelfth of the estimated average per capita amount payable from the Federal Hospital Insurance Trust Fund for services and related administrative costs incurred with respect to persons aged 65 and over for Part A benefits for the entire year. The Secretary is required, when the premium amount is promulgated, to issue a public statement setting forth the actuarial assumptions and bases employed in arriving at an adequate actuarial rate.

(e) Adjustment in PPS Payment Rates.—Requires the Secretary (when adjusting payment rates for PPS and non-PPS hospitals, the target amounts, the weighting factors, and the outlier cutoff points), when appropriate, to take into account reductions in beneficiary payments to hospitals resulting from the repeal of the day limitation on inpatient hospital services.

Effective date.—(a) Applies to the deductible for 1988 and succeeding years. (b) and (c) apply to inpatient hospital services furnished on or after January 1, 1988. (d) Applies to premiums for months beginning with January 1, 1988. Conforming amendments effective January 1, 1988. (e) Effective on enactment.

Senate amendment

(a) Deductible/Spell of Illness.—Similar provision, except limited to persons covered under both Part A and Part B. The deductible applies to the first "period of hospitalization" beginning in a calendar year. "Period of hospitalization" is defined as beginning on the first day the individual is furnished inpatient hospital services and ending on the date of discharge from the hospital (or, in the case of a transfer, hospitals) involved.

Eliminates "spell of illness" for persons covered under both Parts A and B.

Specifies that beneficiaries whose period of hospitalization (for which a deductible is imposed) begins during December of a calendar year would not be required to pay an additional deductible for a hospitalization beginning in January of the following year.

(b) Limitation on Covered Inpatient Days.—

(1) Similar provision, except limited to persons covered under both Parts A and B.

(2) Repeals psychiatric carryover restriction for persons covered under both Parts A and B.

(c) Coinsurance.—Similar provision, except limited to persons covered under both Parts A and B. Coinsurance requirements for services furnished outside the United States are also eliminated for these persons.

(d) Part A Premium.—No provision.

(e) Adjustment in PPS Payment Rates.—No provision.

Effective date.—Applies to items and services furnished after December 31, 1987, Beneficiaries (covered under both Parts A and B) whose spell of illness begins before January 1, 1988 and whose period of hospitalization included in that spell of illness begins on or after January 1, 1988 and before February 1, 1988 would not have an inpatient hospital deductible imposed for that period of hospitalization.

(a) *Deductible/Spell of Illness.*—The conference agreement includes the House provision with an amendment. The agreement provides that a beneficiary, whose period of hospitalization (for which a deductible is imposed) begins during December of a calendar year, would not be required to pay an additional deductible for a hospitalization beginning in January of the following year.

The agreement provides that, if the Secretary terminates a contract with a health maintenance organization (HMO) or competitive medical plan (CMP) during a year, no inpatient hospital deductible will be imposed for the remainder of the year on a beneficiary who can demonstrate that he or she, while enrolled in the organization during the year, had an inpatient hospital admission paid for by the HMO or CMP.

(b) *Limitation on Covered Inpatient Days.*—The conference agreement includes the House provision.

(c) *Coinsurance.*—The conference agreement includes the Senate amendment with an amendment deleting the requirement that individuals be enrolled in both Parts A and B.

(d) *Part A Premium.*—The conference agreement includes the House provision with an amendment specifying that the Secretary is first required to establish the monthly premium in September of 1988 which will be in effect for calendar year 1989.

(e) *Adjustment in PPS Payment Rates.*—The conference agreement includes the House provision with an amendment. Under the agreement, the Secretary shall adjust the target amounts for each non-PPS hospital to reflect reductions in beneficiary payments to hospitals resulting from the enactment of this legislation.

(f) *Chronic Ventilator-Dependent Units in Hospitals.*—The conference agreement includes a provision requiring the Secretary to establish up to five demonstration projects for up to three years each to review the appropriateness of classifying chronic ventilator-dependent units in hospitals as rehabilitation units. The Secretary is authorized to treat such units as rehabilitation units for reimbursement purposes.

The conferees expect that the Secretary will establish criteria for the demonstration projects which will assure that (1) the units will serve patients who have recently undergone tracheostomy and are newly ventilator-dependent; (2) there is reasonable expectation at admission that the patient will be able to return home or to the community at discharge; (3) the major diagnoses of patients will include spinal cord injury, head trauma, advanced lung disease, Guillain-Barre syndrome, musuclar dystrophy—Duchenne type, polyomyositis and dermatomyositis, and phrenic nerve paralysis secondary to surgical trauma; (4) the rehabilitation programs within the units will include physcial therapy, patient and family instruction in the use of ventilator equipment, self-suctioning and medications, and psychological counseling; (5) expected length of stay within the units will be typically two to four months; and (6) other factors which the Secretary finds relevant.

In establishing the demonstrations the Secretary is required to consult with the Prospective Payment Assessment Commission. In addition, the conferees expect that the Secretary will consult with appropriate professional groups such as the American Thoracic Society and the American College of Chest Physicians.

Effective date.—The Conference agreement applies to the deductible for 1989 and succeeding years. Other provisions apply to care and services occurring on or after January 1, 1989, except that (d) is effective and applies to premiums for January 1989 and succeeding months and (e) is effective for PPS hospital discharges on or after January 1, 1989, and for non-PPS hospitals, for cost reporting periods beginning on or after October 1, 1989.

3. Extended Care Service (Section 102 of House bill; Sections 2 and 3 of Senate amendment)

Present law

(a) Coinsurance.—Beneficiaries are required to pay a daily coinsurance charge (equal to one-eighth of the inpatient hospital deductible) for days 21–100 of post-hospital extended care services furnished during each spell of illness.

(b) Limitation on Covered Days.—The program covers up to 100 days of post-hospital extended care services in a spell of illness.

(c) Prior Hospitalization Requirement.—In order to have payment made for extended care services, the beneficiary must have been an inpatient of a hospital for at least three consecutive calendar days and have been transferred to a participating SNF usually within 30 days. The law has authorized the Secretary to provide coverage for extended care services in a SNF without regard to the 3-day prior hospitalization requirement when he determines that such coverage will not lead to an increase in cost and will not alter the acute nature of the benefit; however, this provision has not been implemented.

House bill

(a) Coinsurance.—

(1) Eliminates current coinsurance requirements. Imposes a daily coinsurance charge for days 1–7 of post-hospital extended care services furnished in a calendar year.

(2) Requires the Secretary, before September 1 of each year (beginning in 1987), to estimate the national average per diem reasonable cost recognized under Part A for post-hospital extended care services which will be furnished in the succeeding calendar year. In September of each calendar year (beginning in 1987) the Secretary is required to promulgate the coinsurance amount for the following year. The amount equals 20 percent (rounded to the nearest $0.50) of the national average per diem reasonable cost estimated by the Secretary. The reference to "post-hospital" is deleted beginning January 1, 1989.

(b) Limitation on Covered Days.—Provides coverage for 150 days of extended care services in a calendar year.

(c) Prior Hospitalization Requirement.—Eliminates prior hospitalization requirement and reference to authority to provide coverage without regard to this requirement.

(d) Spell of Illness.—Repeals spell of illness concept.

Effective date.—Applies to extended care services furnished on or after January 1, 1988, except that elimination of prior hospitalization requirements (and related conforming changes) apply to extended care services furnished pursuant to an admission to a SNF occurring on or after January 1, 1989.

Senate amendment

(a) Coinsurance.—

(1) Similar provision, except limited to persons covered under both Parts A and B. The daily coinsurance charge is imposed on the first 10 days the beneficiary is furnished extended care services during any stay in a skilled nursing facility (SNF), but in no event can a coinsurance amount be imposed for more than 10 days in a calendar year.

(2) Similar provision, except coinsurance equals 15 percent (rounded to the nearest $1.00) of the estimated amount. Eliminates reference to "post-hospital".

(b) Limitation on Covered Days.—Similar provision, except limited to persons covered under both Part A and Part B.

(c) Prior Hospitalization Requirement.—Similar provisions, except limited to persons covered under both Parts A and B.

(d) Spell of Illness.—Similar provisions, except limited to persons covered under Parts A and B.

Effective date.—Applies to extended care services furnished after December 31, 1987. For beneficiaries receiving post-hospital extended care services on December 31, 1987, current law provisions will continue to apply until the spell of illness has ended.

Conference agreement

(a) *Coinsurance.*—The conference agreement includes the House provisions with a modification. The agreement provides that coinsurance charges are to be imposed on the first eight days of extended care services in a calendar year. The amount of the coinsurance is equal to 20% (rounded to the nearest $0.50) of the estimated national average per diem reasonable cost recognized under Part A of Medicare for extended care services.

The agreement extends the current coverage of extended care services in a Christian Science sanatoria from a maximum of 30 days per benefit period to 45 days per calendar year. As under current law, coinsurance would be applied for each day of covered care.

(b) *Limitation on Covered Days.*—The conference agreement includes the Senate amendment with an amendment deleting the requirement that individuals be enrolled in both Parts A and B.

(c) *Prior Hospitalization Requirement.*—The conference agreement includes the House provision.

(d) *Spell of Illness.*—The conference agreement includes the Senate amendment with amendments. The requirement that individuals be enrolled in both Parts A and B is deleted. Beneficiaries whose "spell of illness" began before January 1, 1989, and had not yet ended as of such date, would not be required to pay an additional hospital deductible for that spell of illness in 1989 and 1990.

Effective date.—The conference agreement applies to extended care services furnished on or after January 1, 1989.

4. Hospice Care (Section 103 of House bill; Section 12 of Senate amendment)

Present law

A beneficiary who is terminally ill may elect to receive hospice services for two 90-day periods and one subsequent 30-day period for a total of 210 days during his lifetime. Beneficiaries making this election must choose to receive services through a hospice and give up most other Medicare benefits.

House bill

Provides for a subsequent extension period beyond the current 210-day limit, if the beneficiary is recertified as terminally ill by the medical director or the physician member of the interdisciplinary group of the hospice program.

Effective date.—Applies to hospice care furnished on or after January 1, 1988.

Senate amendment

Similar provision.

Effective date.—Applies with respect to services furnished on or after date of enactment.

Conference agreement

The conference agreement includes the House provision with an amendment to further extend the favorable presumption under the waiver of liability provision for hospice care through October 1990.

Effective date.—The conference agreement applies to hospice care furnished on or after January 1, 1989.

5. Blood Deductible (Section 104 of House bill; Section 3 of Senate amendment)

Present law

Payment may not be made under Part A for the first 3 pints of whole blood (or equivalent quantities of packed red blood cells, as defined in regulations) furnished to a beneficiary during a spell of illness. A similar deductible is applied under Part B on a calendar year basis. Under Part B, the deductible (in accordance with regulations) is appropriately reduced to the extent that there has been a replacement of such blood (or equivalent quantities of packed red blood cells). For these purposes, blood furnished to an individual is deemed to be replaced when the institution or other person furnishing blood is given one pint of blood for each pint of blood furnished such individual for which the deductible is applicable.

The Part A and Part B blood deductibles are applied separately.

House bill

Specifies that the Part A blood deductible is applied on a calendar year basis. Replacement provisions (identical to those specified for Part (B) are added to Part A. The Part A blood deductible is to be reduced by any blood deductible imposed with respect to Part B.

Specifies that in the case of a beneficiary whose spell of illness begins before January 1, 1988 (and ends after that date), any Part A blood deductible required would be reduced during that spell of illness (during 1988 or 1989) to the extent that a Part A blood deductible had already been imposed for that spell of illness.

Effective date.—Applies to blood or blood cells furnished on or after January 1, 1988.

Senate amendment

Specifies that the Part A blood deductible is to be applied on a calendar year basis for persons covered under both Parts A and B.

Effective date.—Applies to items and services finished after December 31, 1987.

Conference agreement

The conference agreement includes the House provision.

Effective date.—The conference agreement applies to blood or blood cells furnished on or after January 1, 1989.

6. Home Health Benefits (Section 105 of House bill)

Present law

Home health services are covered under Parts A and B. Payments for home health services are always made under Part A except in cases where the beneficiary is enrolled under Part B, but is not entitled to Part A. In these cases, payment is made under Part B.

House bill

Provides that payments for home health services are to be made under Part A only in cases where the individual provided the services is not entitled to Part B in that month. Otherwise, payments are to be made under Part B.

Effective date.—Applies to home health services furnished on or after January 1, 1989.

Senate amendment

No provision.

Conference agreement

The conference agreement does not include the House provision.

7. Imposition of Supplemental Medicare Premium (Section 106 of House bill; Sections 6 and 27 of Senate amendment)

Present law

(a) and (b) In General and Applicability.—The following individuals are eligible for coverage under the Hospital Insurance (Part A) program of Medicare without payment of any premium: (1) those

who have attained age 65 and are eligible for monthly Social Security retirement or survivor benefits, (2) individuals of any age who have been entitled for not less than 24 months to Social Security or Railroad Retirement benefits on the basis of disability (and certain related individuals), (3) individuals of any age who have end-stage renal disease, and (4) certain Federal, State, and local Government employees who have attained age 65. Individuals age 65 or over who are not entitled to Part A benefits because they do not meet the above conditions may enroll in Part A if they pay a monthly premium.

All individuals age 65 and older may elect to enroll in the Supplementary Medical Insurance (Part B) program of Medicare by paying a monthly premium, which is $24.80 in 1988. Individuals who have not attained age 65 but who are eligible for the Part A program by virtue of disability or end-stage renal disease may also elect to enroll in Part B by paying the monthly premium.

(c) Premium Amount.—No provision.

(d) Calculation for Governmental Retirees.—Currently, the pensions of most government retirees are, for the most part, treated as income subject to taxation, while Social Security benefits are tax-exempt unless they exceed a certain threshold (i.e., if adjusted gross income plus 50 percent of the Social Security benefit exceeds $25,000 for individuals, or $32,000 for married couples filing joint returns). These differences in tax treatment of pension income result in larger adjusted gross incomes and tax liabilities for government retirees than for retirees with Social Security.

(e) Premium Indexing.—No provision.

(f) Maximum Supplemental Premium.—No provision.

(g) Joint Returns.—Provides rules for the filing of joint returns for married individuals under section 6013 of the Internal Revenue Code of 1986.

(h) Coordination with Tax Code Provisions.—Section 213 of the Internal Revenue Code of 1986 provides that expenses for medical care (including prescribed drugs or insulin), not compensated for by insurance or otherwise, may be deducted for Federal income tax purposes to the extent that they exceed 7.5 percent of adjusted gross income. Medical care includes insurance payments and Medicare Part B premiums.

House bill

(a) In General.—Amends the Internal Revenue Code of 1986 to impose an annual income-related supplemental premium on Medicare-eligible individuals (generally, those entitled to Part A who file a Federal tax return, except (1) individuals required to pay a premium for Part A coverage, (2) residents of U.S. possessions, and (3) qualified nonresidents) for each taxable year.

(b) Applicability.—Defines a "Medicare-eligible individual" who is liable for payment of the supplemental Medicare premium as an individual who, in any month, is entitled to (or, on application without the payment of an additional premium, would be entitled to) benefits under Part A of Medicare for such month. Provides for the following exceptions: (1) individuals entitled to Part A benefits solely by reason of the payment of the Part A premium, (2) residents of U.S. commonwealths and territories who pay a special

Part B premium and individuals who are enrolled under Part B but are not entitled to benefits under Part A, and (3) qualified nonresidents.

Defines a "qualified nonresident" as an individual who: (1) is not furnished any service for which payment was or will be made under Medicare Part A during the taxable year or any of the 4 preceding taxable years, (2) is not entitled to benefits under Medicare Part B at any time during the taxable year or any of the 4 preceding taxable years, and (3) is present in a foreign country or countries for at least 330 full days during the 12-month period ending at the close of the taxable year and each of the 4 consecutive preceding 12-month periods. An individual who dies during the taxable year is treated as meeting the 330-day test in that year if the individual spent at least 90 percent of the days before the date of death as full days in a foreign country or countries.

Provides that an individual (other than a nonresident alien) who has attained age 65 will be treated as a Medicare-eligible individual for the month in which he attains age 65 and any subsequent month unless he establishes to the satisfaction of the Secretary that he is not a Medicare-eligible individual for the month concerned.

(c) Premium Amount.—

Provides that for 1988, the premium is as follows:

If the adjusted gross income for the taxable year is: Over:	But not over:	The annual premium for the taxable year is:
$0	$6,000	$0
6,000	6,143	10
6,143	6,287	20
6,287	6,430	30
6,430	6,573	40
6,573	6,716	50
6,716	6,860	60
6,860	7,003	70
7,003	7,146	80
7,146	7,289	90
7,289	7,433	100
7,433	7,576	110
7,576	7,719	120
7,719	7,862	130
7,862	8,006	140
8,006	8,149	150
8,149	8,292	160
8,292	8,436	170
8,436	8,579	180
8,579	8,722	190
8,722	8,865	200
8,865	9,009	210
9,009	9,152	220
9,152	9,295	230
9,295	9,438	240
9,438	9,582	250
9,582	9,725	260
9,725	9,868	270
9,868	10,011	280
10,011	10,155	290
10,155	10,298	300
10,298	10,441	310

If the adjusted gross income for the taxable year is: Over:	But not over:	The annual premium for the taxable year is:
10,441	10,585	320
10,585	10,728	330
10,728	10,871	340
10,871	11,014	350
11,014	11,158	360
11,158	11,301	370
11,301	11,444	380
11,444	11,587	390
11,587	11,731	400
11,731	11,874	410
11,874	12,017	420
12,017	12,160	430
12,160	12,304	440
12,304	12,447	450
12,447	12,590	460
12,590	12,734	470
12,734	12,877	480
12,877	13,020	490
13,020	13,163	500
13,163	13,307	510
13,307	13,450	520
13,450	13,593	530
13,593	13,736	540
13,736	13,880	550
13,880	14,023	560
14,023	14,166	570
14,166		580

Provides that if an individual is not a Medicare-eligible individual for each month during the taxable year, the annual premium determined from the above table would be prorated based on the number of months an individual is a Medicare-eligible individual during the taxable year. A similar rule applies in the case of a taxable year of less than 12 months, except that the individual's adjusted gross income for the taxable year would be annualized.

(d) Calculation for Governmental Retirees.—No provision.

(e) Premium Indexing.—

(1) In General.—Requires the Secretary of the Treasury, not later than December 15 of 1988 and each subsequent calendar year, to prescribe a table of the supplemental premium amounts which will apply, instead of the 1988 table, with respect to taxable years beginning in the succeeding calendar year.

Requires that each premium dollar amount in the 1988 table be increased by the sum of the Medicare inflation factor and the prescription drug factor for the calendar year, and each other dollar amount in the table (i.e., the bracket amount and the threshold amount) be increased by the cost-of-living adjustment used to index the income tax brackets. If any increase is not a mulitple of $1, it is to be rounded to the nearest multiple of $1.

(2) Catastrophic Coverage Benefit.—Provides that the Medicare inflation factor is the percentage (if any) by which the Medicare value for a calendar year exceeds the Medicare value

for 1988. The Medicare value for any calendar year is the sum for January of such year of (a) 50 percent of the monthly actuarial rate promulgated under section 1818(d)(1) of the Social Security Act for such month (i.e., the Medicare Part A value), and (b) the excess of twice the monthly Part B actuarial rate under section 1839(a)(1) of the Social Security Act, over the amount of the monthly Part B premium under section 1839 (i.e., the Medicare Part B value).

(3) Prescription Drug Benefit.—Provides that the prescription drug factor for 1988 is zero percent, for 1989 is 5.5 percent, and subsequent years is determined as follows: The Secretary of the Treasury in September of each year (beginning with 1989) is required to determine a percent estimated to be necessary so that the total amount of supplemental premiums attributable to the prescription drug factor estimated to be collectible in the next year is equal to 25 percent of the total of the benefits and related administrative costs estimated by the Secretary of HHS under new section 1839(g)(2)(C) of the Social Security Act to be necessary to pay for covered outpatient drugs in the next year.

Requires the Secretary of the Treasury in September of each year (beginning with 1991) to determine whether the amount of the supplemental premium attributable to the prescription drug factor estimated to be collectible (for taxable years beginning in calendar years after 1988 and before the previous calendar year) is greater or less than 25 percent of the total benefits and administrative costs paid for covered outpatent drugs.

If there is a surplus or deficit, the Secretary of the Treasury is required to adjust the prescription drug factor so as to reduce or increase, respectively, the aggregate amount of the additional premiums which are estimated to be collected by the amount of the surplus or deficit, taking into account the effect of any previous adjustments.

Provides that, notwithstanding the adjustment described above, the prescription drug factor for a year after 1990 cannot exceed 120 percent of such factor for the previous year.

(f) Maximum Supplemental Premium.—Provides that the maximum supplemental premium in 1988 is $580. The Joint Committee on Taxation estimates that the maximum supplemental premium in future years would be: for the taxable year beginning in 1989, $737; in 1990, $842; in 1991, $934; and in 1992, $1,017.

(g) Joint Returns.—Provides that in the case of a joint return, the premium amounts according to the table are applied separately to each spouse, and the adjusted gross income of each spouse is one-half of their combined adjusted gross income.

(h) Coordination with Tax Code Provisions.—

(1) Medical Expense Deduction.—Provides that the supplemental premium cannot be treated as a medical expense for purposes of section 213 of the Internal Revenue Code of 1986.

(2) Not Treated as a Tax for Certain Purposes.—Provides that the supplemental premium is not treated as a tax imposed by chapter 1 (income taxes) of the Internal Revenue Code of 1986 for purposes of determining the amount of any credit allowed

under that chapter or the amount of the alternative minimum tax imposed by section 55.

(3) Treated as a Tax for Subtitle F.— Provides that the supplemental premium is treated as if it were an income tax for administrative purposes, such as estimated payments and collection.

(4) Section 15 Not to Apply.—Provides that section 15 (procedures for applying changes in tax rates) does not apply to the supplemental premium.

(i) Reporting Requirements.—Requires the Secretary of HHS to make a return to the Secretary of the Treasury (at such time and in such form as determined by the Secretary of the Treasury) stating the name, address, and taxpayer identification number of each individual entitled to Medicare Part A benefits for any month during the calendar year and the number of months so entitled. The provision does not apply with respect to those who pay a premium under section 1818 for Part A coverage, residents of U.S. commonwealths and territories paying a special Part B premium, and individuals enrolled under Part B but not entitled to benefits under Part A.

(j) Transfer to Trust Funds.—No provision.

Effective date.—Applies to taxable years beginning after December 31, 1987.

Senate amendment

(a) In General.—Amends the Social Security Act to require individuals covered by Medicare Part B to pay an annual income-related supplemental premium if their Federal tax liability for taxable years is not less than $150.

(b) Applicability.—Provides that any individual who is covered by Medicare Part B for any portion of any taxable year occurring after December 31, 1987, and who has Federal income tax liability for such taxable year in an amount not less than $150 must pay the applicable supplemental premium.

(c) Premium Amount.—Provides that the "applicable supplemental premium" equals the number of months in the taxable year during which the individual was covered by Part B, multiplied by the supplemental premium. The "supplemental premium" is defined as the premium rate for the taxable year ($1.09 for the 1988 taxable year), multipled by the amount determined by dividing the individual's adjusted Federal income tax liability for the taxable year by $150.

If the latter amount is not a whole number, it is to be rounded to the next lowest whole number.

(d) Calculation for Governmental Retirees.—For purposes of calculating the supplemental premium, defines "Federal income tax liability" as the tax imposed by chapter 1 (income tax) of the Internal Revenue Code of 1986, reduced by credits allowed under part IV of subchapter A, excluding the following refundable credits: Section 31 (wage withholding for income tax purposes); section 33 (tax withheld at source on nonresident aliens and foreign corporations); and section 34 (certain uses of gasoline and special fuels).

For purposes of calculating the supplemental premium, defines "adjusted Federal income tax liability" as an amount equal to Federal income tax liability, reduced by the following amount. The reduction is the excess (if any) of:

(1) 15 percent of the lesser of (a) the qualified Social Security exclusionary amount, or (b) the amount received as an annuity (whether for a period certain or during 1 or more lives) under a governmental plan which is includible in gross income under section 72 of the Internal Revenue Code of 1986, over

(2) the amount of credit allowed under the tax credit for the elderly and the permanently and totally disabled (section 22 of the Internal Revenue Code of 1986).

Defines "qualified Social Security exclusionary amount" as the excess (if any) of $6,000 ($9,000 in the case of married individuals filing a joint tax return) over the Social Security benefits (as defined in section 86(d) of the Internal Revenue Code of 1986) received during the taxable year. For taxable years beginning after Dec. 31, 1988, the $6,000 and $9,000 amounts are increased from the previous year's amounts by the Social Security cost-of-living adjustment for the calender year in which the taxable year begins.

(e) Premium Indexing.—

(1) In General.—Provides that the premium rate for any taxable year (beginning in a calendar year after 1988) is the previous year's rate, increased or decreased by (a) the premium rate adjustment used to index the monthly catastrophic coverage premium amount in years after 1988, and (b) the drug premium rate adjustment (for taxable years beginning in calendar years after 1989).

(2) Catastrophic Coverage Benefit.—The premium rate adjustment used to update the monthly catastrophic coverage premium amount is:

(a) the percentage (if any) necessary to increase the estimated total revenues collectable from the monthly catastrophic coverage premiums and the supplemental premiums (determined without regard to the drug premium rate adjustment amount) so that they equal the estimated total catastrophic coverage benefits and related administrative costs (including administrative costs for outpatient drug coverage), plus

(b) for calendar years before 1993, the percentage necessary to establish before 1993 a contingency fund equal to 20 percent or, if greater, a reserve fund equal to 5 percent.

(3) Prescription Drug Benefit.—Provides that the drug premium rate adjustment for taxable years beginning in a calendar year after 1989 is an amount equal to:

(a) 50 percent (60 percent for calendar year 1990 and 55 percent for calendar year 1991, as provided in Section 27 of the bill) of the modified per enrollee actuarial catastrophic drug benefit amount for that year plus

(b)(1) for any taxable year beginning in calendar year 1990, an amount necessary to cover 7.5 percent of the modified per enrollee actuarial catastrophic drug benefit amount for 1991, and

(2) for taxable years beginning in calendar years after 1990, an amount (when added to any unexpended amount determined for any preceding year) necessary to cover 7.5

percent of the modified per enrollee actuarial catastrophic drug benefit amount for the calendar year.

Defines "modified per enrollee actuarial catastrophic drug benefit amount" to mean (a) the total catastrophic drug coverage benefits and related administrative costs estimated to be paid in cash outlays from the Federal Catastrophic Drug Insurance Trust Fund divided by the total number of individuals estimated to be enrolled under Part B for the year, or (b) the reestimated per enrollee actuarial catastrophic drug benefit amount that reflects any adjustment the Secretary may make to the drug coverage benefit because the drug benefit premium amount was determined to exceed the premium limit for that year.

(f) Maximum Supplemental Premium.—Provides that the applicable supplemental premium for any individual cannot exceed the number of months in the taxable year the individual was covered by Part B divided by 12, multiplied by the appropriate amount, as follows: for the taxable year beginning in 1988, $800; in 1989, $850; in 1990, $900; in 1991, $950; and in 1992, $1,000.

For taxable years beginning in a calendar year after 1992, the applicable supplemental premium cannot exceed 65 percent of the product of the number of months in the taxable year the individual was covered by Part B, multiplied by the excess of:

(a) the sum of (1) 200 percent of the monthly actuarial basic rate for Part B enrollees age 65 and over (i.e., 200 percent of one-half of the benefit and administrative costs, including a contingency margin, payable for the aged from the Part B trust fund for Part B costs excluding the catastrophic coverage), plus (2) the monthly per enrollee actuarial comprehensive catastrophic benefit amount (i.e., the estimated monthly catastrophic coverage benefits and related administrative costs payable from the Federal Catastrophic Health Insurance Trust Fund divided by the estimated number of Part B enrollees) for the calendar year, over

(b) the sum of the basic and catastrophic monthly premiums for the year, determined without regard to current and new certain hold harmless provisions (which provide limits to any increases in the Part B and catastrophic premiums based on cost-of-living increases in Social Security benefits).

(g) Joint Returns.—Provides that for married individuals (as defined in section 7703 of the Internal Revenue Code of 1986), the supplemental premium is determined by treating such individuals as one individual if they: (1) file a joint return (under section 6013 of such Code) and (2) one or both of them are covered by Part B for any portion of the taxable year and have Federal income tax liability of not less than $150. The number of months of Part B coverage is determined according to the spouse covered for the longer period during the taxable year. When married individuals are treated as one individual in order to calculate the supplemental premium, the limit on such premium equals the sum of the limits computed separately for each spouse.

(h) Coordination With Tax Code Provisions.—

(1) Medical Expense Deduction.—Provides that the supplemental premium is treated as a premium paid under Medicare

Part B in the taxable year following the taxable year to which the premium relates for purposes of section 213(d)(1)(C) of the Internal Revenue Code of 1986.

(2) Not Treated as a Tax for Certain Purposes.—Similar provision.

(3) Treated as a Tax for Subtitle F.—Similar provision.

(4) Section 15 Not to Apply.—Similar provision.

(i) Reporting Requirements.—Requires that the Secretary of HHSA include on the current return to the Secretary of the Treasury relating to Social Security benefits, the number of months any individual is covered under Medicare Part B for the calendar year. Requires the Secretary of HHS to include on the statements sent to Social Security beneficiaries information on the name of the agency making the determination and the number of months of coverage under Medicare Part B.

(j) Transfer to Trust Funds.—Requires the Secretary of the Treasury, from time to time, to transfer from the general fund of the Treasury to the Federal Catastrophic Health Insurance Trust Fund amounts equal to the aggregate monthly supplemental premiums paid (excluding the drug premium rate adjustment), plus the amount the Secretary of the Treasury estimates Federal outlays are reduced under the Medicaid program because of the catastrophic provisions of this bill (after taking into account the provisions of Section 14 of the bill related to Medicaid savings and State requirements). Such transfers are to be appropriately adjusted to the extent that prior transfers were in excess of or less than amounts required to be transferred.

Also requires the Secretary of the Treasury, from time to time, to transfer from the general fund of the Treasury to the Federal Catastrophic Drug Insurance Trust Fund amounts equal to the aggregate drug premium rate adjustment paid, adjusted to the extent that prior transfers were in excess of less than the amounts required to be transferred.

Effective date.—Applies to taxable years ending after December 31, 1987. The supplemental premium rate for any taxable year beginning before 1988 and ending after December 31, 1987, is the rate applicable to 1987.

Conference agreement

(a) *In General.*—Under the conference agreement, medicare Part A eligible individuals are required to pay a new tax-related supplemental premium. The supplemental premium is intended to provide approximately 63 percent of catastrophic coverage and prescription drug benefit financing on a calendar year liability basis, with flat monthly premiums financing the remaining 37 percent (subject to limitations on increases and decreases in the supplemental premium, described below).

The supplemental premium is drafted in the tax Code, collected with income tax payments, and after 1989 subject to income tax estimated payments. Medicare Part A eligible individuals with less than $150 of income tax liability are exempt from the supplemental premium.

To reduce confusion among beneficiaries, the conferees intend that the Secretary of the Treasury is to (1) implement the supplemental premium in an easy to understand manner (including the use of premium tables in lieu of taxpayer calculations, and separate tables as necessary for government retirees), (2) identify the supplemental premium on the applicable forms, worksheets, tables, and instructions as a premium to pay for a portion of the cost of new medicare catastrophic and prescription drug coverage, and (3) seek comments and advice from medicare enrollees and their representatives regarding the design of such forms, worksheets, tables, and instructions.

(b) *Applicability.*—The definition of medicare Part A eligible individuals generally follows the House bill, except that no special proration rule is provided for residents of U.S. commonwealths and territories. Residents of U.S. commonwealths and territories who do not have U.S. income tax liability are not subject to the supplemental premium. An individual is liable for the supplemental premium if such individual is medicare Part A eligible for more than 6 full months during the taxable year and has $150 or more of adjusted U.S. source income tax liability.

Unlike the House bill, individuals who attain the age of 65 during the taxable year are not presumed to be medicare eligible for the purposes of paying the supplemental premium. The conferees intend that the Internal Revenue Service will inform taxpayers that they are liable for the supplemental premium if they are eligible for Part A of Medicare even if they have not actually enrolled.

(c) *Premium Amount.*—For taxable years beginning before 1994, the supplemental premium rate is the sum of the catastrophic coverage and prescription drug premium rates shown below:

SUPPLEMENTAL PREMUIM RATES, 1989–93

[Per $150 of adjusted Federal income tax liability]

	Catastrophic coverage premium rate	Prescription drug premium rate	Total supplemental premium rate
Year in which taxable year begins:			
1989	$22.50	$0	$22.50
1990	27.14	10.36	37.50
1991	30.17	8.83	39.00
1992	30.55	9.95	40.50
1993	29.55	12.45	42.00

The supplemental premium is to be determined under tables (similar to the income tax tables) prescribed by the Secretary of the Treasury which may provide income tax liability brackets of less than $150.

For purposes of computing the supplemental premium, adjusted Federal income tax liability is defined as under the Senate amendment.

The conferees have determined these premium rates to raise sufficient revenue with reference to the tax rates and other important features of the tax Code that determine the liability of the medicare Part A eligible population. The conferees intend that if tax rates or these features are changed in future legislation, the premium rates should be recalibrated.

84-648 - 88 - 6

(d) *Calculation for Government Retirees.*—The Conference agreement generally follows the Senate amendment with changes designed to conform the adjustment for government retirees with the computation of the credit for the elderly and disabled. For government retirees, tax liability is adjusted by subtracting 15 percent of the excess (if any) of (1) the lesser of (i) $6,000 ($9,000 in the case of a joint return where both spouses are medicare eligible for more than 6 full months, and $4,500 for married individuals filing separate returns), or (ii) government annuities includible in gross income during the taxable year, the lower quantity then reduced by social security benefits received during the taxable year; over (2) the credit for the elderly and disabled allowable for the taxable year. After 1989, the $4,500, $6,000 and $9,000 amounts are increased by social security cost-of-living adjustments ("COLAs") determined for calendar years after 1989, and rounded to the nearest multiple of $50.

In the case of a joint return where only one spouse is medicare eligible for more than 6 full months during the taxable year, only government annuities attributable to such spouse are taken into account for purposes of the adjustment for government retirees. In the case of a married individual filing a separate return, such individual shall be treated as receiving not less than half of the social security benefits received by both spouses.

(e) *Premium Indexing.*—(1) *In general.* The method of indexing the supplemental catastrophic coverage and prescription drug premiums was selected by the conferees (1) to assure that premium receipts will be sufficient to pay for all catastrophic coverage and prescription drug benefits (i.e., budget neutrality), and (2) to minimize the Treasury Secretary's discretion over the adjustment of supplemental premium rates.

The indexing formula minimizes discretion by using information on prior year program costs and receipts, rather than subjective projections, and by limiting the amount by which the supplemental premium can be increased in any year.

The indexing machanism seeks to assure budget neutrality by several means: (1) prescription drug outlays may only be made from a new Federal Catastrophic Drug Insurance Trust Fund which is entirely financed by monthly and supplemental prescription drug premiums (and interest on fund balances); (2) monthly and supplemental catastrophic coverage premiums are increased to recoup with interest shortfalls in prior years (monthly premiums are increased to make up for any limitation on the increase in the supplemental premium); and (3) a contingency margin of at lest 20 percent is built into catastrophic coverage and prescription drug premiums.

For taxable years beginning after 1993, the supplemental premium rate is the sum of the adjusted catastrophic coverage premium rate and the adjusted prescription drug premium rate, subject to two limitations. The supplemental premium rate may not (1) be less than the rate in effect for the preceding year; and (2) be more than $1.50 per $150 of tax liability higher than the rate in effect for the preceding year. If either of these two limitations are applicable, the supplemental premium rate is allocated between the catastrophic coverage and prescription drug premium rates in proportion to the respective amounts of these premium rates without regard to the limitations.

(2) *Catastrophic coverage premium.*—The adjusted catastrophic coverage premium rate for any calendar year after 1993 is equal to the rate for the preceding calendar year, without regard to the two limitations on the supplemental premium described above in any prior year, adjusted by a percentage equal to the sum of the outlay-premium and reserve account percentages.

The outlay-premium percentage is designed to index the supplemental catastrophic coverage premium rate by the difference between the projected growth rates of catastrophic coverage outlays and premiums. For years after 1993, the growth in outlays and premiums is projected by a formula which uses data available for the second and third preceding years, plus more recent information on trends in the consumer price index.

The outlay-premium percentage for any calendar year is (1) the percentage change in per capita catastrophic outlays from the third to the second preceding calendar year; minus (2) the percentage change in per capita catastrophic coverage premium liability from the third to the second preceding calendar year (determined as if the supplemental premium rate had not changed from the third to the second preceding year).

The per capita catastrophic outlay for any calendar year, as determined by the Secretary of HHS, is equal to outlays debited from the Medicare Catastrophic Coverage Account (the "Account," see section 17, below) for such year, divided by the average number of individuals entitled to receive Part A benefits during such year.

The per capita catastrophic coverage premium liability for any calendar year, as determined by the Secretary of the Treasury, is equal to supplemental premium liability attributable to the catastrophic coverage premium for taxable years beginning in such year, divided by the number of individuals who had premium liability for taxable years beginning in such year.

The outlay-premium percentage, described above, is adjusted up (or down) by 50 percent of the amount by which the consumer price index ("CPI") inflation rate in the second preceding year exceeds (or is less than) one percentage point.

The CPI inflation rate for any year is defined as the percentage by which the CPI for May of such year exceeds such index for May of the preceding year. The CPI means the last CPI for all-urban consumers published by the Department of Labor, which is most consistent with the CPI for calendar year 1986.

The reserve account percentage is designed to adjust the supplemental catastrophic coverage premium rate to recoup 63 percent of any cumulative shortfall or deficit in the catastrophic coverage program (the other 37 percent is recouped by a corresponding adjustment in the flat premium). For years after 1993, the shortfall or surplus in the catastrophic coverage program is determined from data available for the second proceding year.

The reserve account percentage for any calendar year is the ratio of (1) the change in the catastrophic coverage premium rate for the second preceding year which the Secretary determines would have increased (or decreased) supplemental premium liability for such year by an amount equal to 63 percent of the shortfall (or surplus) in the Account in such year, over (2) the catastrophic coverage premium rate for the preceding calendar year, without regard to the two limitations on the supplemental premium described above.

The shortfall (or surplus) in the Account for any calendar year is determined as (1) 20 percent of catastrophic outlays debited against the Account; minus (2) the Account balance at the end of such year (including flat and supplemental premium increase amounts attributable to reserve account percentages in prior years that have not yet been credited to the account.

(3) *Prescription Drug Premium.*—The adjusted prescription drug premium rate for any calendar year after 1993 is equal to the rate for the preceding calendar year, without regard to the two limitations, described above, which may have applied to the supplemental premium for any prior year, adjusted by a percentage determined in a manner similar to the catastrophic coverage premium, with the following changes: (1) in determining the premium-outlay percentage, prescription drug outlays rather than catastrophic outlays are used; (2) in determining the reserve account percentage, the Federal Catastrophic Drug Insurance Trust Fund balance (see section 16, below) is used rather than the Account balance; (3) the reserve account percentage is 75 percent for 1994, 50 percent for 1995, and 25 percent for 1996 and 1997, instead of 20 percent; and (4) the outlay-premium percentage is deemed to be zero for calendar years before 1998.

For calendar years after 1992 the following procedure is to be followed for announcing supplemental premium rate changes. The Secretary of the Treasury shall: (1) not later than July 1, announce the preliminary increase in the supplemental premium for the following year; and (2) not later than October 1, announce the actual supplemental premium rates for the following year. (For additional detail see sections 16 and 17, below).

(f) *Maximum Supplemental Premium.*—For taxable years beginning before 1994, the maximum supplemental premium for an individual filing a single return is $800 in 1989, $850 in 1990, $900 in 1991, $950 in 1992, and $1050 in 1993.

For calendar years after 1993, the maximum supplemental premium is equal to such maximum in the preceding year (before rounding) increased by the percentage (if any) by which the medicare-part B value for the second preceding year exceeds such value for the third preceding year. The maximum supplemental premium is rounded to the nearest multiple of $50. The conferees designed the formula to maintain the miximum supplemental premium as a constant fraction of the value of Part B benefits not paid for by monthly premiums.

The midicare-part B value for any calendar year is defined as the excess of per capita Part B outlays the year over 12 times the generally applicable monthly Part B premium for months in such calendar year. Per capita Part B outlays are outlays from Part B of title XVIII of the Social Security Act divided by the average number of individuals covered under such part during the year. In computing the maximum supplemental premium for years before 1988, the medicare-Part B value is computed by excluding outlays and monthly premiums for covered outpatient drugs.

(g) *Joint and Separate Returns.*—(1) *Joint returns.*—In the case of a joint return where both spouses are medicare Part A eligible for more than 6 full months during the taxable year, such spouses are treated as a single individual, except that the maximum supplemental premium is twice the amount that applies for single returns.

In the case of a joint return where only one spouse is medicare eligible for more than 6 full months during the taxable year, income tax liability for the medicare-eligible spouse is determined as one-half of the tax liability of the joint return.

(2) *Separate Returns.*—In the case of a married individual filing a separate return who did not live apart from his or her spouse at all times during the taxable year, such individual is treated as medicare Part A eligible for 6 full months during the taxable year if the individual or the individual's spouse was so eligible. In addition, the maximum supplemental premium is twice the amount that applies for single returns if, without regard to this provision, both spouses are Medicare Part A eligible for 6 full months during the taxable year.

These rules are intended to prevent the supplemental premium from creating an incentive for separate filing.

(h) *Coordination with Tax Code Provisions.*—(1) *Medical expense deduction.*—As under the House bill, the supplemental premium is not deductible as an itemized medical expense.

(2) *Not treated as a tax for certain purposes.*—As under the House bill and the Senate amendment, the supplemental premium is not treated as an income tax for purposes of determining the amount of any tax credit or the amount of the alternative minimum tax. Revenues from the supplemental premium are not covered over to any possession of the United States, and the supplemental premium is not automatically reflected in the tax laws of territories that "mirror" the U.S. tax Code. In the case of a taxable years of less than 12 months, the supplemental premium shall be applied under regulations prescribed by the Secretary.

(3) *Treated as a Tax for Subtitle F.*—The supplemental premium generally is treated as if it were an income tax for administrative purposes, such as estimated payment and collection. The conference agreement provides that estimated tax penalties do not apply with respect to supplemental premium liability for taxable years beginning in 1989. The conferees intend that the Internal Revenue Service will where appropriate exercise its discretion to provide relief from estimated tax penalties in the first year in which an individual becomes liable for the supplemental premium (similar relief already is provided for newly retired or disabled individuals in sec. 6654(e)(3)(B)).

(4) *Section 15 not to Apply.*—The supplemental premium is not treated as a change in income tax rate.

(i) *Reporting Requirements.*—The Secretary of HHS shall include in the existing return to the Secretary of the Treasury relating to social security benefits, a determination of whether any individual was medicare Part A eligible for more than 6 full months during the year. The Secretary of HHS is to include the same information on the statements sent to social security and railroad retirement beneficiaries, as well as the name of the agency which determines medicare eligibility.

The Secretary of HHS may provide such additional information to the Secretary of the Treasury as is required to assure compliance with the supplemental premium.

(j) *Transfer to Trust Funds.*—Receipts attributable to the supplemental prescription drug premium rate are appropriated to the CDI trust fund. The Secretary of the Treasury is to transfer these appropriated amounts from the general fund to the CDI trust fund not less frequently than monthly, and at the close of the calendar year, determined on the basis of estimates; adjustments are made in subsequent transfers to take account of estimating errors. For individuals paying the maxmium supplemental premium, receipts are allocated between the supplemental prescription drug and catastrophic coverage premiums pro rata on the basis of the respective premium rates.

Receipts attributable to the supplemental catastrophic coverage premium rate, which are not otherwise appropriated to the Federal Hospital Insurance Catastrophic Coverage Reserve Fund (the "Reserve Fund") are appropriated to the SMI trust fund. The Secretary of the Treasury is to transfer these appropriated amounts from the general fund to the SMI trust fund not less frequently than monthly, and at the close of the calendar year, determined on the basis of estimates; adjustments are made in subsequent transfers to take account of estimating errors. For individuals paying the maximum supplemental premium, receipts are allocated between the supplemental prescription drug and catastrophic coverage premiums pro rata on the basis of the respective premium rates.

Effective date.—The supplemental premium is effective for taxable years beginning after December 31, 1988.

8. Delay in Organ Procurement Requirements (Section 26 of Senate amendment)

Present law

The Omnibus Budget Reconciliation Act of 1986 provided that Medicare payments for organ procurement would not be made unless: (a) the organ procurement agency involved met specified requirements and was designated by the Secretary as the sole procurement agency in its service area, and (b) hospitals establish protocols for making a routine inquiry for organ donation by potential donors, and are members of the National Organ Procurement and Transplantation Network.

Under the Omnibus Budget Reconciliation Act of 1986, these provisions were to be effective as of October 1, 1987. The Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 changed this effective date to November 21, 1987. The Omnibus Budget Reconciliation Act of 1987 extends the effective date for item (a) to March 31, 1988.

House bill

No provision.

Senate amendment

Extends to December 31, 1988, the date by which the Secretary must complete the organ procurement agency designation process, the effective date of the requirements for hospital protocols for organ procurement, and the effective date for requiring hospitals to be members of the National Organ Procurement Network.

Effective date.—Enactment.

Conference agreement

The conference agreement does not include the Senate provision. The conferees note that a related provision was included in the Omnibus Budget Reconciliation Act of 1987.

9. Limitation on Medicare Out-of-Pocket Expenses (Section 201 of House bill; Sections 4 and 29 of Senate amendment)

Present law

Under current law, beneficiaries are liable for specified cost-sharing charges, in form of deductibles and coinsurance amounts, in connection with their use of inpatient hospital, skilled nursing facility, and hospice services, and blood under Part A.

Beneficiaries enrolling in Part B are required to pay a monthly premium. The program generally pays 80 percent of the reasonable charge for physicians and other covered medical services (including immunosuppressive drugs furnished within one year of a covered organ transplant) after the beneficiary has met the $75 deductible. The beneficiary is liable for the remaining 20 percent of the reasonable charge (coinsurance). In addition, where a physician does not accept assignment (i.e., does not agree to accept Medicare's determination of reasonable charge amount as payment in full for covered services), the beneficiary is liable for the difference between Medicare's reasonable charge and the physician's actual charge (the "balance billed amount"). The beneficiary is also liable for a separate Part B deductible.

There is no upper limit on the amount of cost-sharing charges beneficiaries are required to pay in connection with covered Medicare services.

House bill

(a) In General.—Establishes an annual limit on beneficiary out-of-pocket expenses (not including balance billed amounts) for covered part B services.

(b) Payment When Limit Has Been Reached.—Provides that if an individual has incurred out-of-pocket Part B expenses in a calendar year (beginning in 1989) equal to the Part B catastrophic limit for that year, the program will pay 100 percent of Part B reasonable charges (or costs) for covered Part B services (including physicians' services, ambulatory surgical center services, and dialysis services). In addition, after the beneficiary has reached the limit, no further blood deductible is required.

(c) Expenses Counting Toward the Catastrophic Limit.—Specifies that the following beneficiary expenses count toward the catastrophic limit:

(1) the Part B deductible, and blood deductible;
(2) Part B coinsurance charges; and
(3) a maximum of $250 in covered outpatient mental health expenses.

(d) Catastrophic Limit.—Specifies that the Part B catastrophic limit for 1989 is $1,043. The limit for any succeeding year is the limit for the preceding year increased by the Social Security cost-of-living adjustment (COLA), rounded to the nearest dollar. The Secretary is required to promulgate the Part B catastrophic limit by November 15 of each year (beginning with 1988) that will be in effect for the following year.

(e) Payments to Prepaid Health Plans Paid on a Reasonable Cost Basis.—Requires the Secretary to provide for an appropriate adjustment to payment rates for prepaid health plans paid on a reasonable cost basis to reflect the new catastrophic protection. The adjustment is to reflect: (1) the aggregate increase in payments which would otherwise be made for enrollees if they were not enrolled in the organization; or (2) the amount that would be paid to the organization or a facility if payments were made on an individual by individual basis. The organization is required to provide assurances, satisfactory to the Secretary, that it will not undertake to charge an individual during a year for covered services after the individual has reached the catastrophic limit (whether through the organization facility, or otherwise). [See Item 19(b)]

(f) Limitation on Charges When Catastrophic Limit Reached.—Specifies that providers (i.e., hospitals, skilled nursing facilities, comprehensive outpatient rehabilitation facilities, home health agencies, or hospice programs) with agreements with the Medicare program may not charge beneficiaries for services for which catastrophic benefit payments are made to the provider.

(g) Notice for Beneficiaries Reaching Catastrophic Limit.—Requires Medicare carriers to provide individuals, who have incurred sufficient out-of-pocket expenses, to qualify for catastrophic benefits, with a notice in a form appropriate for presentation to a physician. The notice is to: (1) state that the individual has reached the Part B catastrophic limit for the year; and (2) encourage the physician not to charge the individual amounts in excess of Medicare's reasonable charge and to accept payment on an assignment related basis for the remainder of the year.

(h) No provision.

Effective date.—Enactment (applies to items and services furnished after December 31, 1988).

Senate amendment

(a) In General.—Establishes an annual limit on beneficiary out-of-pocket expenses (not including balance billed amounts) for covered Part A and B services and entitles a Part B beneficiary to have payment made to him or on his behalf for specific catastrophic medical expenses.

(b) Payment When Limit Has Been Reached.—Provides for payment of 100 percent of catastrophic medical expenses. "Catastrophic medical expenses" are defined with respect to an individual for a calendar year (beginning with 1988) as any beneficiary cost sharing amounts incurred by an individual after the individual has in-

curred specific out-of-pocket medical expenses equal to the catastrophic limit. The program will pay beneficiary cost sharing amounts for: (1) the hospital deductible, SNF coinsurance charges, hospice coinsurance charges, and the Part A blood deductible; (2) the Part B deductible and Part B blood deductible; and (3) Part B coinsurance charges.

(c) Expenses Counting Toward the Catastrophic Limit.—Specifies that the following beneficiary expenses count toward the catastrophic limit:

(1) the Part A hospital deductible, SNF coinsurance charges, hospice coinsurance charges, and blood deductible;

(2) the Part B deductible and blood deductible;

(3) Part B coinsurance charges;

(4) amounts expended for qualified services for the prevention of illness or injury. A service meets this definition if:

(A) The service is one of the following: glaucoma screening by tonometry, cholesterol screening, a "Pap" test for detecting breast cancer, an immunization or booster for tetanus, influenza, or bacterial pneumonia, an occult blood stool test, or tuberculosis sensitivity testing;

(B) The service has not been provided to the beneficiary in the preceding 12 months; and

(C) The service is provided incident to a comprehensive physical which is performed by a physician, which includes a full history and other specified components, and which meets such other requirements as the Secretary may prescribe, including requirements to ensure a comprehensive approach for preventive health services.

Requires the Secretary to establish guidelines for the described preventive services no later than January 1, 1989.

(d) Catastrophic Limit.—Specifies that the Medicare catastrophic limit is $1,850 for 1988 and $2,030 for 1989. The limit for any succeeding year is the limit for the preceding year increased by the percentage, as determined by the Secretary, which will ensure that the percentage of Part B eligibles (other than those enrolled in HMOs or CMPs) whose out-of-pocket costs are projected to exceed the limit during that year will be the same as the percentage whose costs exceeded the limit in 1989. The Secretary is required to promulgate the limit by November 15 of each year (beginning with 1987) that will be in effect for the following year.

(e) Payments to Prepaid Health Plans Paid on a Reasonable Cost Basis.—Similar provision. Adjustments in payment rates are also applicable for renal dialysis facilities. Assurances to the Secretary specify that the organization or facility will not charge the individual during a year for any catastrophic medical expense incurred during that year.

(f) Limitation on Charges When Catastrophic Limit is Reached.—Similar provision.

(g) Notice for Beneficiaries Reaching Catastrophic Limit.—No provision.

(h) Beneficiary Costs of Catastrophic Insurance.—

(1) Findings.—States that the Senate finds that: (A) Medicare catastrophic insurance will provide beneficiaries with important and far-reaching protection, greatly reducing out-of-pocket

liability for those who incur high medical expenses; (B) the new benefits will be financed through premiums collected from all beneficiaries; (C) the Department has announced that the Part B premium will increase by 38.5 percent in January, 1988; (D) Medicare beneficiaries already are liable for Medicare premiums equal to 2.9 percent of their median income; and (E) it is the responsibility of Congress to ensure that the additional premiums for catastrophic coverage do not reach such levels as to unreasonably increase the out-of-pocket liability of Medicare beneficiaries.

(2) Sense of the Senate.—Expresses that it is the sense of the Senate that conferees take all necessary steps to ensure that cost controls on new benefits, particularly coverage of prescription drugs, are sufficient to protect program integrity, prevent escalation of costs, and reduce amounts required for premium financing. In addition, it is the sense of the Senate that Senate conferees be instructed to take all feasible steps to minimize beneficiary costs by keeping premiums at the lowest possible level, ensuring that year-to-year premium increases are gradual and predictable, ensuring that the income related premiums do not unduly burden middle-income older Americans, and ensuring that the combined basic and supplemental premiums do not exceed the value of the program to beneficiaries.

Effective date.—(a)-(g) Applies to items and services furnished after December 31, 1987. In determining whether an individual has incurred out-of-pocket medical expenses in 1988 equal to the catastrophic limit, only expenses incurred on or after July 1, 1988, are taken into account. (h) Effective on enactment.

Conference agreement

(a) *In General.*—The conference agreement includes the House provision with an amendment.

(b) *Payment When Limit Has Been Reached.*—The conference agreement includes the House provision.

(c) *Expenses Counting Toward the Catastrophic Limit.*—The conference agreement includes the Senate amendment with a modification. The agreement does not include expenses for Part A cost-sharing, or for preventive services in the calculation of expenses counting toward the catastrophic limit.

The conference agreement, in section 204, provides coverage of screening mammography (including associated professional and technical services) effective January 1, 1990, subject to frequency limitations, quality standards, and special payment rules.

The agreement provides coverage for a biennial screening mammography for women aged 65 and over. For disabled women under age 65, a baseline screening would be available between age 35 and 40. Between ages 40 and 49, screenings would be available every other year, except that screenings could be provided each year for high risk women. Between ages 50 and 64 screenings could be provided on an annual basis.

The agreement requires the Secretary, in consultation with the Director of the National Cancer Institute, to review periodically the appropriate frequency for performing screening mammographies, based on age or other factors. The Secretary, on the basis of this review, may revise the frequency for covered screenings performed on or after January 1, 1992.

The agreement requires the Secretary to establish standards to assure the safety and accuracy of screening mammographies. The standards must include the following requirements: (i) the equipment used must be specifically designed for mammography and must meet radiologic standards established by the Secretary; (ii) the screening must be performed by an individual who is either licensed by the State to perform radiologic procedures or is certified as qualified to perform such procedures by an appropriate organization recognized by the Secretary; (iii) the results of the mammography must be interpreted by a physician who either is certified by the American Board of Radiology or is otherwise certified by a program recognized by the Secretary by regulation as assuring that the physician is qualified to interpret the results of screening mammography; and (iv) there must be assurances that the results of the first screening paid for by Medicare will be placed in permanent medical records maintained for the woman.

The conferees understand that a bilateral four-view procedure is currently considered to be the standard of care in the United States for screening mammography. The conferees therefore anticipate that this would be initially included in the quality standards to be developed by the Secretary as a requirement for coverage, subject to change with new technology and additional medical information. The conferees also note that the reimbursement level provided for under this provision is premised on the understanding that a four-view procedure would be provided.

State survey and certification agencies and private accreditation programs (if approved) could be used to verify compliance with required quality standards.

Payment would be 80% of the least of: (i) the actual charge, (ii) the fee schedule allownce (with respect to both the professional and technical components of screening mammography) established under Section 1834(b) of the Social Security Act, or (iii) a reasonable charge limit. The limit would be $50 in 1990 and would be indexed thereafter by the percent increase in the Medicare Economic Index (MEI).

Beginning January 1, 1992, the Secretary may reduce the reasonable charge limit, as it applies nationally or in an area, if the Secretary finds such action both appropriate and consistent with maintaining convenient access for beneficiaries to screening services.

The agreement provides for an appropriate allocation of the reasonable charge limit between professional and technical components in the case of hospital outpatient screening mammographies (and comparable situations) where there is a claim for professional services separate from the claim for associated technical services. In these cases, payment for the technical component would be based on the allocated reasonable charge limit.

The agreement sets maximum allowable actual charge (MAAC) limits for screening mammographies performed by nonparticipating physicians. These MAAC limits are based on the fee schedule established for radiologists under Section 1834(b) of the Act.

The MAAC limits are 125% of the reasonable charge limit in 1990, 120% of the reasonable charge limit in 1991, and 115% of the reasonable charge limit in 1991 and subsequent years. The Secretary is empowered to impose sanctions against physicians or suppliers who knowingly and willfully impose charges in excess of the limits.

The MAAC limits would be in effect until such time as the Secretary implements a fee schedule for physicians' services based on the relative value scale mandated under Section 1845(e) of the Social Security Act.

The conferees are aware of concern that the $50 reasonable charge limit might limit the availability of mammography in physicians' offices even though the procedure may be available at clinics, hospital outpatient departments, and outpatient radiology facilities. Accordingly, the conference agreement requires the Physician Payment Review Commission to study the cost of providing screening mammography in a variety of settings and at different volume levels. The report would be submitted to Congress by July 1, 1990.

Finally, the conference agreement requires GAO to conduct a study of the quality of screening mammography provided in clinics, hospital outpatient departments, and outpatient radiology facilities as compared with physician offices. This report would also be due by July 1, 1990.

(d) *Catastrophic Limit.*—The conference agreement includes the Senate amendment with a modification. The agreement sets the Part B catastrophic limit for 1990 at $1370. The agreement requires the Secretary to set the limit for future years at an amount necessary to ensure that the percentage of Part B enrollees (not including enrollees in health maintenance organizations) whose expenses are expected to exceed the cap during that year is 7 percent.

The conference agreement requires the Secretary to promulgate, not later than September 1 of each year (beginning in 1990), the catastrophic limit which will be in effect for the following calendar year.

(e) *Payments to Prepaid Health Plans Paid on a Reasonable Cost Basis.*—The conference agreement includes the House provision, with amendments. The provisions relating to charges for covered services after an individual has reached the catastrophic limit apply to organizations with a risksharing contract, as well as to those paid on a reasonable cost basis. Different rules apply depending on whether the organization does or does not "buy out" Part B deductible and coinsurance charges for enrolled beneficiaries. A plan is deemed to be a buy-out plan if the actuarial value of the coinsurance and deductible charges it imposes on enrollees for Part B services (other than for outpatient drugs) is less than 50 percent of the national average actuarial value of the Part B coinsurance and deductible for all Medicare beneficiaries.

In the case of a buy-out plan, actual cost-sharing amounts for Part B services incurred by a beneficiary while enrolled in the plan are not counted towards the catastrophic limit. However, the enrollee is deemed to have incurred Part B cost-sharing expenses for each month of enrollment equal to the monthly national average actuarial value of Part B deductible and coinsurance amounts.

In the case of a plan than is not a buy-out plan, cost-sharing amounts for Part B services incurred by a beneficiary while enrolled in the plan are counted towards the catastrophic limit. The plan may not enter into a Medicare contract or receive Medicare payment unless it provides assurance satisfactory to the Secretary that: (i) it will maintain, in coordination with the appropriate Part B carriers, accounts of Part B cost-sharing expenses incurred by enrollees during each year, including out-of-plan services; (ii) it will make the accounts available to an enrollee and to the carrier if an enrollee disenrolls during the year (or at any time, in the case of an organization paid under section 1833); and (iii) it will not undertake to charge any enrollee for Part B services (other than outpatient drugs) after the enrollee has incurred cost-sharing expenses, whether through the organization or otherwise, equal to the catastrophic limit for the year.

The conferees expect that the Secretary, in establishing contracts with Part B carriers under section 1842, will require the carriers to provide information on expenses for out-of-plan services to the plans without charge.

If a beneficiary is enrolled in a plan which has its contract terminated by the Secretary during a year, no inpatient hospital deductible will be imposed on an individual who can demonstrate to the satisfaction of the Secretary that he or she was admitted to a hospital during the calendar year.

(f) *Limitation on Charges When Catastrophic Limit Reached.*—The conference agreement includes the Senate amendment.

(g) *Notice for Beneficiaries Reaching Catastrophic Limit.*—The conference agreement includes the House provision with a modification. The required notice is to state that the individual has reached the Part B catastrophic limit for the year.

(h) *Beneficiary Costs of Catastrophic Insurance.*—The conference agreement does not include the Senate amendment. The amendment expressed the sense of the Senate, and was duly passed by the Senate.

Effective date.—The conference agreement applies to items and services furnished on and after January 1, 1990.

10. Coverage of Catastrophic Expenses for Prescription Drugs (Section 202 of House bill; Sections 11 and 28 of Senate amendment)

Present law

Medicare generally does not cover outpatient prescription drugs which can be self-administered by the patient. The program covers under Part B immunosuppressive drugs which are furnished within one year of an organ transplant covered by Medicare.

House bill

(a) In General.—Adds "covered outpatient drugs" to services included within the definition of "medical and other health services". Defines a "covered outpatient drug" as one that is: (1) approved for safety and effectiveness under the Federal Food, Drug, and Cosmetic Act, or, in the case of a drug which is a biological product, is licensed under the Public Health Service Act; and (2) insulin certi-

fied under the Federal Food, Drug, and Cosmetic Act. The term does not include any drug or insulin provided to an inpatient as part of inpatient hospital services, extended care services, or incident to physicians' services. The term does not include immunosuppressive drugs which are furnished within 1 year of a covered organ transplant.

(b) Phase-In Coverage.—No provision.

(c) Deductible.—

(1) Provides that expenses for covered outpatient drugs do not count toward the Part B deductible and that the Part B deductible is not applicable for covered outpatient drugs.

(2) Requires the individual, before the program makes payments for covered outpatient drugs, to establish that he has incurred (or has had paid in his behalf) expenses for covered outpatient drugs during the year equal to the drug deductible. The Secretary is required, upon application by the individual, to promptly notify the individual (and, if submitted by or through a participating pharmacy, the pharmacy) as to whether he has met the deductible.

(3) Sets the deductible at $500 in 1989. The increase in 1990 and 1991 is equal to the increase in the medical care component of the consumer price index (for the 1-year period ending the previous August). In future years, it is increased by the percentage increase in the outpatient prescription drug index established by the Secretary. The base point of the index is the prices of covered outpatient drugs as of August 1990. In September of each year (beginning in 1991), the Secretary is to determine the percentage change for the preceding 12 months (rounded to the nearest dollar). The Secretary is required to publish the deductible each year beginning in 1989.

(d) Adjustment in Deductible.—Provides for an adjustment if the Secretary's estimate of the additional Part B premium needed to finance the drug benefit indicates an increase of more than 20 percent over the previous year. In this case, the Secretary would increase the deductible by an amount sufficient to reduce the costs of the program to the level that would be financed by a 20 percent premium increase. (The premium is to cover 75 percent of total costs of the drug benefit; see Item 15.)

(e) Authority to Reduce Deductible—No provision.

(f) Payment Amount.—

(1) Specifies that, subject to the deductible, the amount paid with respect to a covered outpatient drug is equal to lesser of the actual charge or the applicable payment limit minus 20 percent of the actual charge. The payment amounts are also applicable for payments for immunosuppressive drugs during the first year following a covered organ transplant.

(2) Specifies that the payment calculation periods are the 6-month periods beginning with January and July of each year.

(3) Requires the Secretary, (before each 6-month payment calculation period beginning on or after January 1, 1989), to provide information on payment limits to participating pharmacies and groups representing or assisting beneficiaries.

(4) Requires the Secretary to provide for an appropriate adjustment to payment rates for prepaid health plans paid on a

reasonable cost basis to reflect the new catastrophic drug benefit. The adjustment is to reflect: (A) the aggregate increase in payments which would otherwise be made for enrollees if they were not enrolled in the organization; or (B) the amount that would be paid to the organization or a facility if payments were made on an individual by individual basis. The organization is required to provide assurances, satisfactory to the Secretary, that it will not undertake to charge an individual more than 20 percent of the reasonable cost plus any amount needed to satisfy the deductible.

(g) Payment Limits for Non-Multiple Source Drugs and Drugs With Restrictive Prescriptions.—

(1) Provides that the payment limit for a drug which is either not a multiple source drug or a multiple source drug with a restrictive prescription is the sum of: (A) the product of the number of dosage units or tablet units and the average per tablet or unit wholesale price; plus (B) an administrative allowance.

(2) Requires the Secretary to determine (with respect to dispensing a covered outpatient drug in a payment calculation period beginning on or after January 1, 1989) the average per tablet or unit wholesale price based on the average wholesale price for purchases in reasonable quantities. The determination is to be based on wholesale prices for the first day of the third month before the beginning of the payment calculation period. The determination and calculation of the payment limits are to be made on a national basis, except that the determination and calculation may be done on a regional basis to take into account limitations in availability or variations in average wholesale prices for a drug product.

(3) Specifies that a drug has a restrictive prescription only if the prescription indicates, in the handwriting of the physician (or other person prescribing the drug), and with an appropriate phrase recognized by the Secretary, that the particular drug must be dispensed. An appropriate phrase may be "brand medically necessary)."

(h) Payment Limit for Multiple Source Drugs Without Restrictive Prescriptions.—

(1) Provides that the payment limit for a multiple source drug without a restrictive prescription is the sum of: (A) the product of the number of tablets or dosage units and the unit limit, plus (B) the administrative allowance. Specifies that the unit limit is 50 percent of the brand name reference price for the reference drug product for the period.

(2) Requires the Secretary to establish a brand name reference price for each reference drug product for each payment calculation period. For the 6-month period beginning January 1, 1987, the brand name reference price for a drug product is the average per tablet or unit wholesale price (based on purchases of reasonable quantities) as of January 1, 1987.

Specifies that for each subsequent 6-month payment calculation period, the reference price is increased by the increase in the consumer price index (for the 6-month period ending in the third month of the previous calculation period).

Specifies that for a reference drug product which was not available on January 1, 1987, the base period is the first month of the first payment calculation period in which it is available.

Specifies that brand name reference prices are to be established on a national basis, except that the prices may be established on a regional basis to take into account limitations in availability or variations in the average wholesale price for a drug product.

(3) Defines a multiple source drug as a covered outpatient drug for which (during the payment calculation period) there are 2 or more drug products which: (A) are rated thereapeutically equivalent under the Food and Drug Administration's most recent publication of "Approved Drug Products With Therapeutic Equivalence Evaluations" which is available on the first day of the third month before the beginning of the period; and (B) are sold or marketed during the period.

Specifies that a drug is considered as sold or marketed if it listed in the FDA publication unless the Secretary determines that the sale or marketing is not actually taking place.

(4) Defines a "reference drug period" as a multiple source drug in reference to which other drug products are rated as therapeutically equivalent in the FDA publication.

(i) Administrative Allowance.—Specifies that the administrative allowance is $4.50 for drugs dispensed in a payment calculation period beginning in 1989. For each subsequent payment calculation period, the administrative allowance is increased by the percentage increase (if any) in the implicit price deflator for gross national product.

(j) Assuring Appropriate Utilization.—

(1) Provides that the Secretary may provide that payment for covered outpatient drugs may not be made if they are prescribed or dispensed with excessive frequency or in excessive quantities. The Secretary is required to establish a utilization review program for covered outpatient drugs to identify instances of unnecessary or inappropriate prescribing or dispensing practices and to identify quality of care problems.

(2) No provision.

(k) Treatment of Certain Prepaid Organizations.—Establishes rules with respect to prepaid organizations which do not impose charges on covered outpatient drugs. For purposes of the drug provision, the actual charges of the organization are the organization's standard charges to members and other persons not entitled to drug benefits. The standard charges are to be used for purposes of the drug deductible.

(l) Physician Guide.—Requires the Secretary to develop, and update annually an information guide for physicians on the comparative average wholesale prices of at least 500 of the most commonly prescribed covered outpatient prescription drugs. To the extent practicable, the guide is to group drugs in a manner useful to physicians by therapeutic category or conditions for which they are prescribed. The guide is to specify the wholesale prices on the basis of the amount required for a typical daily therapeutic regimen. The Secretary is required to mail the guide by March 1 of each year (beginning in 1989) to each hospital with a provider

agreement with Medicare and each physician who routinely provides Medicare services.

(m) Special Cost-control Measures.—No provision. See Item 10(d) on adjustment in deductible for requirement that Secretary increase drug benefit deductible to prevent excessive increase in premiums.

(n) High Volume Pharmacies.—No provision.

(o) Report on Payment Limits.—Requires the Secretary to review the payment limits established for covered outpatient drugs and report to Congress by April 1, 1989, on the appropriateness of the limits, together with any recommendations for change.

(p) Report on Covered Outpatient Drug Index.—Requires the Secretary to report to Congress by January 1, 1991, on the covered outpatient drug index.

(q) Participating Pharmacies.—

(1) Defines a participating pharmacy as one which is authorized under State law to dispense covered outpatient drugs and which has entered into an agreement with the Secretary. Under the agreement, the entity agrees:

(A) Not to refuse to dispense covered outpatient drug items, stocked by the entity, to Medicare Part B beneficiaries and not to charge them more for such drugs than charged to the general public;

(B) To keep patient records (including records on expenses incurred by beneficiaries) for all covered outpatient drugs dispensed to beneficiaries;

(C) To assist beneficiaries in determining whether they have met the drug deductible including providing the necessary documentation;

(D) To provide, upon request of a beneficiary, a copy of his records to another participating pharmacy or Medicare carrier;

(E) To offer to counsel or offer to provide information to each beneficiary on the appropriate use of a dispensed drug and whether there are potential interactions between this drug and others dispensed to the beneficiary;

(F) To advise the beneficiary on the availability (consistent with State drug substitution laws) of therapeutically equivalent covered outpatient prescription drugs; and

(G) To submit, effective January 1, 1992, all claims requests electronically, except this requirement may be waived by the Secretary in cases of undue hardship.

Pharmacies operated by prepaid organizations for the exclusive benefit of its members are not required to dispense covered outpatient drugs to nonmembers.

(2) Requires the Secretary to provide each participating pharmacy with a distinctive emblem and, before each payment calculation period, information on payment limits established under the drug benefit.

(3) Requires the Secretary to provide for periodic audits of participating pharmacies to insure that they do not impose charges on beneficiaries in excess of those charged to the general public.

(4) Payments for covered outpatient drugs may only be made on an assignment basis in the case of participating pharmacies.

(r) Civil Monetary Penalty.—No provision.

(s) Limitation to 60 Day Prescription.—Prohibits Part B payments for covered outpatient drugs if dispensed in excess of a 60-day supply.

(t) Additional Premium for Prescription Drug Benefit.—Refers to section 106(a) of the bill. (See Item 15.)

(u) Use of Carriers in Administration.—

(1) Requires carriers making determinations or payments with respect to covered outpatient drugs to: (A) offer to receive payment requests electronically; and (B) respond to requests by participating pharmacies as to whether an individual has met the deductible. The Secretary may enter into agreements for processing of drug claims on a regional basis.

(2) No provision.

(v) Modification of HMO/CMP Provisions.—

(1) Requires HMOs and CMPs with Medicare risk sharing contracts to take into account drug expenses incurred in a year by individuals who enroll after January 1 of a year.

(2) No provision.

(3) No provision.

(w) Medicaid Requirements.—See Item 33.

(x) Beneficiary Drug Cost Survey and CBO Report.—

(1) Requires the Secretary to conduct a statistically valid survey, and report to Congress by March 1, 1989, on expenses incurred by beneficiaries for covered outpatient drugs. The Secretary is required to consult with the General Accounting Office (GAO) and the Congressional Budget Office (CBO) concerning survey design. The survey is to provide information on the distribution of expenses for covered outpatient drugs for Medicare beneficiaries generally and the distribution of expenses by age, sex, income, and institutional status.

(2) Requires the CBO (within 2 months of submission of the report) to estimate Medicare expenditures for fiscal year 1990–93 for covered outpatient drugs.

(3) No provision.

(y) Prescription Drug Payment Review Commission.—Requires the Director of the Office of Technology Assessment (OTA) to provide for the appointment of a Prescription Drug Payment Review Commission to be composed of individuals with expertise in the provision and financing of covered outpatient prescription drugs. The Director of OTA shall appoint the 11 Commission members by October 1, 1988, for staggered 3-year terms. The membership must include recognized experts in health care economics, medicine, pharmacology, pharmacy, and prescription drug reimbursement, as well as one Medicare beneficary. The Commission is required to make annual recommendations to the Secretary.

(z) Additional Studies.—

(1) Requires the Secretary to conduct studies on:

(A) Extent of private or other third-party drug coverage for beneficiaries;

(B) Comparison of published average wholesale price and actual pharmacy acquisition costs by type of pharmacy;

(C) Overhead costs of retail pharmacies;

(D) Potential application of new claims processing and billing technologies;

(E) Methods for utilization review;

(F) Alternative payment methodologies that promote greater program efficiencies; and

(G) Potential for induced demand resulting from the drug benefit.

(2) Requires the Secretary, as part of the studies, to conduct a longitudinal study on the use of covered outpatient drugs by beneficiaries with respect to medical necessity, potential for adverse drug interactions, and patient stockpiling or wastage. The Secretary is required to report to Congress on the results of the studies by January 1, 1991.

(3) No provision.

(aa) Study of Treatment of Prescription Drugs.—No provision.

(bb) Simplification of Recordkeeping.—No provision.

Effective date.—Applies to drugs dispensed on or after January 1, 1989. (u) and (y) effective on enactment. (v) applies to new enrollments effected on or after January 1, 1989.

Senate amendment

(a) In General.—Adds "covered outpatient drugs" to services included within the definition of "medical and other health services". Defines a covered outpatient drug as one which is: (1) approved for safety and effectiveness under the Federal Food, Drug, and Cosmetic Act, or is recognized in the "United States Pharmacopoeia" (and is available only under a prescription); or (2) in the case of a prescription drug which is a biological product, is licensed under the Public Health Service Act. The term does not include any drug or biological which would have been paid for under Medicare prior to enactment of this law. The term does not include immunosuppressive drugs which are furnished during the first year following a covered transplant.

(b) Phase-In Coverage.—

(1) Specifies that in 1990, the term covered outpatient drug includes a drug which is an intraveneously administered anti-infective agent, a cancer chemotherapeutic agent (including a drug used to enhance the safety and efficacy or counteract the toxicity of anticancer drugs) or immunosuppressive drugs after the first year following a covered organ transplant.

(2) Specifies that in 1991 and 1992, the term covered outpatient drug includes drugs specified under item (1) and any cardiovascular or diuretic drug.

(c) Deductible.—

(1) Similar provision.

(2) Identical provision.

(3) Sets the deductible at $600 in 1990. In subsequent years, it is increased by the percentage by which the Part B beneficiary drug expenditure amount for the 12-month period ending the previous August exceeds such amount for the preceding 12 months (rounded to the nearest dollar). [See Item 15 below for definition of beneficiary drug expenditure amount.] The Secre-

tary is required to publish each September (beginning in 1990) the deductible for the following year.

(d) Adjustment in Deductible.—No provision.

(e) Authority to Reduce Deductible.—Provides that if the Secretary determines there is sufficient revenue to pay all of the benefits and administrative costs, and to provide an adequate contingency margin (as determined by the Secretary), the Secretary may reduce the deductible amount to $500 in 1991, $400 in 1992, and $300 in 1993.

(f) Payment Amount.—

(1) Similar provision, except specifies that the applicable payment limit is subject to reductions applied to high volume pharmacies.

(2) Specifies that the payment calculation period is the 12-month period beginning every January (after 1989).

(3) Similar provision except: (A) applies to payment calculation periods beginning on or after January 1, 1990; and (B) also requires provision of information on any reductions applied for high volume pharmacies.

(4) Permits a prepaid health plan paid on a reasonable cost basis to elect to be paid 80 percent of the reasonable cost of immunosuppressive and covered outpatient drugs. Such organization may not charge individuals more than 20 percent of the reasonable cost plus any amount needed to satisfy the deductible.

(g) Payment Limits for Non-Multiple Source Drugs and Drugs With Restrictive Prescriptions.—

(1) Similar provision.

(2) Similar provision except: (A) applies to determinations for payment calculation periods beginning on or after January 1, 1990; (B) specifies that the average per tablet or unit wholesale price is the most recently published figure; and (C) requires the calculation to be made on a national basis if the drug is available on a national basis.

(3) Similar provision, except applies to written prescriptions. Specifies that for telephone prescriptions, the physician or other person (through the use of an appropriate phrase) states that the particular drug must be dispensed.

(h) Payment Limit for Multiple Source Drugs Without Restrictive Prescriptions.—

(1) Provides that the payment limit for a multiple source drug without a restrictive prescription is the sum of (A) the product of the number of tablets (or other dosage units) and 150 percent of the lowest average per tablet or unit wholesale price for the drug; and (B) the administrative allowance.

(2) Requires the Secretary to determine with respect to covered outpatient drugs for the payment calculation period (beginning on or after January 1, 1990) the average per tablet or per unit wholesale price for the drug for purchases in reasonable quantities. Specifies that for the period beginning January 1, 1987, the average is the average per tablet or per unit wholesale price for the drug as of January 1, 1987.

Specifies that for subsequent payment calculation periods, the amount is the lesser of: (A) the most recently published average per tablet or per unit wholesale price; or (B) the average per tablet or unit price established for the previous payment calculation period increased by the percentage change in the Consumer Price Index for the 12-month period ending the preceding August.

Requires the Secretary to establish the average per tablet or per unit wholesale price, in the case of a covered outpatient drug which is not available as of January 1, 1987, for the first month of the first payment calculation period in which it is available.

Requires the Secretary to make determinations on a national basis if the drug is available on a national basis. If not, the Secretary may make determinations and calculate payment limits on a regional basis to take into account the availability of drug products and variations in average wholesale prices.

(3) Defines a multiple source drug as a covered outpatient drug for which (during the payment calculation period), there are 2 or more drug products (or in the case of a covered outpatient drug subject to a patent, 3 or more drug products) generally available to beneficiaries through retail pharmacies which the Secretary determines are: (A) pharmaceutically equivalent, bioequivalent, adequately labeled, and manufactured in compliance with the Current Good Manufacturing Practice regulations; and (B) sold or marketed during the period.

Specifies that drug products are pharmaceutically equivalent if the products contain identical amounts of the same active drug ingredient in the same dosage form and meet compendial or other applicable standards of strength, quality, purity, and identity. Drugs are bioequivalent if they do not present a known or potential bioequivalence problem, or if they do present such a problem, are shown to meet an appropriate bioequivalence standard.

Specifies that a drug is considered to be sold or marketed during a period if it is listed in the Food and Drug Administration's most recent publication of "Approved Drug Products With Therapeutic Equivalance Evaluations" for the third month before the beginning of the period, unless the Secretary determines that such sale or marketing is not actually taking place.

(4) No provision.

(i) Administrative Allowance.—Similar provision, except: (A) administrative allowance is $3.50 for nonparticipating pharmacies for the payment calculation period beginning January 1, 1990; and (B) the amounts are increased annually rather than biannually.

(j) Assuring Appropriate Utilization.—

(1) Provides that the Secretary may provide that payment for covered outpatient drugs may not be made in specific instances if they are prescribed or dispensed with excessive frequency or in excessive quantities. The Secretary is required to establish a utilization review program for covered outpatient drugs to identify patterns of unnecessary or inappropriate prescribing or dispensing practices, including excessive charging in the dispensing of drugs and to identify patterns of substandard care.

(2) Requires the Secretary in carrying out the utilization review program, to use diagnosis and indication codes and establish standards for the prescribing, dispensing, and utilization for each covered outpatient drug. In establishing the standards, the Secretary (after providing notice in the Federal Register and not less than a 60-day comment period) may incorporate standards from current authoritative medical references as he may select.

(k) Treatment of Certain Prepaid Organizations.—Identical provision.

(l) Physician Guide.—Similar provision, except guide must be mailed by January 1 of each year (beginning in 1990).

(m) Special Cost-Control Measures.—Requires the Secretary to institute necessary cost control measures if he determines that the monthly catastrophic drug benefit premium will exceed the limits established under this bill. (See Item 15.) In carrying out this provision, the Secretary may not exclude from coverage or limit payment for any specific covered outpatient drug or specific class of covered outpatient drugs or change the methodology for calculating whether the individual has met the deductible. However, the Secretary may exclude from coverage all drugs listed in a major classification of the most recently issued version of Veterans' Administration Medication Classification System.

(n) High Volume Pharmacies.—Authorizes the Secretary, after 1990, to reduce by regulation the payment limits established (both for nonmultiple source and multiple source drugs) dispensed by a high volume pharmacy (as defined by the Secretary). The reductions are to be based on differences between high volume pharmacies and other pharmacies with respect to operating costs, quantity discounts, and other economies. The Secretary is required to consult with high volume pharmacists, elderly groups and private insurers in making such adjustments. A minimum 90-day public comment period is required for proposed regulations.

(o) Report on Payment Limits.—Requires the OTA and the Secretary to submit to the Congress before beginning of the calendar year (for years after 1990) recommendations for adjustments to the payment limits. The Secretary is required to request the National Academy of Sciences, acting through the Institute of Medicine, to enter into a contract to make such recommendations. Each is required to consult with pharmacists, pharmaceutical manufacturers, elderly groups, and private insurers in making such recommendations.

(p) Report on Covered Outpatient Drug Index.—No provision.

(q) Participating Pharmacies.—

(1) Similar provision except:

(A) Does not apply in the case of any entity which dispenses covered outpatient drugs exclusively to beneficiaries enrolled in HMOs and CMPs;

(B) Identical provision;

(C) To assist beneficiaries in determining whether or not their expenses for covered outpatient drugs exceed the deductible and to certify to the Secretary, with respect to such beneficiaries that their expenses exceed the deductible and make available supporting documentation. Nothing is to be construed as authorizing the Secretary to require submission of the documentation with respect to prescriptions other than pursuant to an audit, upon certification under this provision, or for monitoring purposes from a sample of up to 7.5 percent of participating pharmacies;

(D) Identical provision;

(E) Specifies that the provision of information to beneficiaries is to be consistent with State law respecting the provision of such information;

(F) Identical provision;

(G) Changes the effective date to January 1, 1991.

(2) Identical provision.

(3) Identical provision.

(4) Identical provision.

(r) Civil Monetary Penalty.—Provides that civil monetary penalties may be imposed in the case of participating or nonparticipating pharmacy which presents, or causes to be presented, a request for payment for covered outpatient drugs at a charge greater than that charged the general public.

(s) Limitation to 60 Day Prescription.—Similar provision except permits up to a 90 day supply in the case of an individual receiving chronic maintenance drug therapy as defined by the Secretary.

(t) Additional Premium for Prescription Drug Benefit.—No specific cross reference (See Item 15).

(u) Use of Carriers in Administration.—

(1) Similar provision, except includes fiscal intermediaries in title.

(2) Specifies that 95 percent of clean claims for covered outpatient drugs are to be paid within 45 days of receipt.

Specifies that contracts with carriers shall provide that no payment shall be issued, mailed, or otherwise transmitted for covered outpatient drugs within 30 days after the claim is received.

(3) Authorizes the Secretary to enter into contracts with intermediaries and carriers for performance of functions relating to home intravenous drug therapy on a regional basis.

(v) Modification of HMO/CMP Provisions.—

(1) Identical provision.

(2) Specifies that the calculation of the premium rate and the actuarial value of the deductible and coinsurance for individuals enrolled only in Part A or Part B is to be made separately for the drug benefit.

(3) Specifies that additional benefits required to be provided by an HMO/CMP may include reduction of premium rate or other charges made with respect to drugs.

(w) Medicaid Requirements.—See Item 33.

(x) Beneficiary Drug Cost Survey and CBO Report.—

(1) Similar provision, except requires the Secretary also to consult with consumer groups and representatives of the pharmaceutical and pharmacist industries. Report on survey due by January 19, 1989.

(2) Identical provision.

(3) Requires the GAO (within 2 months of submission of the report) to report on the validity of the survey and the extent to

which pharmacies accept assignment and barriers, if any, to such acceptance.

(y) Prescription Drug Payment Review Commission.—No provision.

(z) Additional Studies.—

(1) Similar provision, except does not include Item B. Adds study requirement on the possibility of including drugs which have not yet been approved under the Federal Food, Drug, and Cosmetic Act, but which are commonly used in the treatment of cancer or immunosuppressive therapy as covered outpatient drugs. The study shall be conducted in consultation with an advisory board of consumers, experts in the field of cancer therapy and immunosuppressive therapy, representatives of pharmaceutical manufacturers, and such other individuals as the Secretary may select.

(2) Similar provision except requires an interim report by not later than January 1989.

(3) Requires the Secretary and the GAO to each conduct and periodically update a study on comparison of published average wholesale prices and actual pharmacy acquisition costs by type of pharmacy. A report is to be sumitted to Congress on the results of each study and update with the first report due no later than January 1, 1989.

(aa) Study of Treatment of Prescription Drugs.—

(1) Requires the OTA to conduct a study to identify additional or alternative covered outpatient drugs that can be included under the Medicare definition for 1991 and 1992.

(2) Requires the Secretary to request the National Academy of Sciences, through the Institute of Medicine, to enter into a contract under which the Institute, in consultation with representatives of appropriate research and health care organizations, will also conduct the study described in (1). The Secretary is to be responsible for related expenses incurred by the Academy.

Specifies that in conducting the study, the Office and the Institute are to give particular attention to those drugs that meet any or all of the following criteria:

(A) The drug is used by a large number of beneficiaries;

(B) The drug can be covered without significant administrative difficulties;

(C) Coverage will provide useful information with respect to utilization and cost of covered outpatient drugs under Medicare;

(D) Coverage will not cause an unreasonble increase in premiums under Medicare;

(E) The drug is expensive when used as part of a chronic drug regimen.

Requires the OTA and the Institute to submit to the Secretary and appropriate congressional committees an interim report within 6 months of enactment, and a final report containing specific findings and recommendations within 12 months.

(bb) Simplification of Recordkeeping.—Requires the Secretary, by October 1, 1988, to enter into an agreement with two or more pri-

vate entities to conduct demonstration projects to test the use of magnetic cards, electronic billing, and other technological devices in the administration of the drug benefit.

Specifies that the Secretary shall select among applications submitted by entities in the form prescribed by the Secretary. The Secretary shall determine the time necessary to carry out the project and submit a report within 6 months of completion.

Specifies that the projects are to be conducted at statistically relevant locations and be used for providing quick data for projecting total cost of the drug benefit.

Requires the Secretary to develop, in consultation with representatives of participating pharmacies, consumers, and other interested individuals, a standard receipt to be used by Medicare beneficiaries in making purchases from participating pharmacies. The receipt is to be distributed by January 1, 1990. The Secretary is to take appropriate steps to insure that such pharmacies used the receipt.

Effective date.—Enactment.

Conference agreement

(a) *In General.*—The conference agreement includes the House provision with an amendment. The agreement includes coverage for two additional categories of prescription drugs. The first category includes those drugs (i) which were commercially used or sold prior to the Drug Amendments of 1962 and (ii) which are identical, similar or related to those described in clause (i) provided that the Secretary has not made a final determination that the drugs described in clause (i) or (ii) are "new drugs." These drugs are the so-called "pre-1938" drugs and are not subject to current requirements regarding pre-market approval by the Food and Drug Administration (FDA) for safety and efficacy.

The conference agreement also includes coverage for certain so-called DESI drugs. Under the provisions of the 1962 amendments to the Federal Food, Drug, and Cosmetic Act, all new drugs must be shown to be effective and safe rather than just safe as had been required previously. This legislation also applied retroactively to all drugs approved as safe from 1938 to 1962. The program established to review the effectiveness of these drugs was named the Drug Efficacy Study Implementation (DESI) program. Under the program, drugs were labelled effective, probably effective, possibly effective, or ineffective. The FDA reviewed any additional evidence submitted by the manufacturer for those drugs determined to be less than effective. If the FDA decides that a drug product lacks substantial evidence of effectiveness for the conditions it is intended to treat, it publishes a notice of opportunity for hearing in the Federal Register on a proposal to withdraw approval for marketing. This affords the manufacturer an opportunity for a hearing before a final determination is made. The conference agreement includes coverage for DESI drugs for which the Secretary has not issued a notice for an opportunity for a hearing and for which the Secretary has determined there is compelling justification for its medical need. Also included are identical, similar or related drugs. It is the understanding of the conferees that the only DESI drug which would be covered by this provision, because a notice for an opportunity for a hearing has not been issued, is nitroglycerin patches.

The agreement further clarifies that the term "covered outpatient drugs" does not include drugs which are already being reimbursed under current law because they are provided as part of, or incident, to other covered services.

(b) *Phase-in Coverage.*—The conference agreement includes the Senate amendment with modifications. The agreement provides coverage for two categories of drugs in 1990—drugs used in immunosuppressive therapy and covered home intravenous (IV) drugs.

Drugs used in immunosuppressive therapy are currently covered for only one year after a transplant that is covered by Medicare. The conference agreement would retain this coverage, which would remain subject to current rules on coinsurance. The conference agreement would add subsequent coverage as well, irrespective of whether the transplant was covered by Medicare. This subsequent coverage would be subject to the same rules regarding deductible and coinsurance as apply to other newly covered prescription drugs.

The agreement provides for coverage of all "covered outpatient prescription drugs" effective January 1, 1991. The agreement provides for a phase-in of the benefit by reducing the requisite beneficiary coinsurance over a three-year period.

Coinsurance is set at 50% in FY 1990 and FY 1991, 40% in FY 1992, and 20% in FY 1993 and each year thereafter. The agreement limits coinsurance to 20%, starting in 1990 with no phase-in, for home IV drugs and immunosuppressive drugs used during the first year after a Medicare covered transplant. (For subsequent use of immunosuppressive drugs, coinsurance would be determined by the general rule.)

The agreement defines a covered home IV drug as one that is intravenously administered in a home setting. The term includes antibiotic drugs, unless the Secretary has determined, for a specific drug or for the indication for which it is applied, that it cannot generally be safely or effectively administered in a home setting. The term includes additional IV drugs (other than antibiotics) only if the Secretary determines that for the specific drug and the indication for which it is being applied, that it can generally be administered safely and effectively in a home setting. The Secretary could establish guidelines or precautions necessary to assure the safety and effectiveness of specific IV drugs in a home setting.

The agreement does not require the Secretary to consult with an advisory panel in making these determinations. The conferees note that the Secretary could refer review of safety and effectiveness issues to the Public Health Service's Office of Health Technology Assessment.

The conferees expect that the Secretary will complete a review of the safety and effectiveness of home IV cancer chemotherapy drugs as soon as possible.

A drug, which would otherwise be covered as an outpatient drug, is excluded from coverage if the drug is intravenously administered in a home setting and does not satisfy the definition of a covered home IV drug.

(c) *Deductible.*—

(1) The conference agreement includes the Senate amendment.

(2) The conference agreement includes the House provision. In determining whether a beneficiary has met the deductible, the Secretary would count all expenses paid on behalf of the beneficiary, such as those paid pursuant to an insurance policy. In calculating the deductible, the Secretary must include amounts actually paid by the beneficiary (or on the beneficiary's behalf) and may not reduce such amounts by applying Medicare payment screens below the deductible.

(3) The conference agreement includes the Senate amendment with a modification. The agreement sets the deductible at $550 in 1990, $600 in 1991, and $652 in 1992. In future years the deductible will be indexed so as to ensure that the percentage of Part B enrollees (not including enrollees in health maintenance organizations) whose expenses for covered outpatient drugs are expected to exceed the deductible during that year is 16.8%. This is the same percentage as the percentage of enrollees whose costs are expected to exceed the deductible in 1991. The conference agreement specifies a deductible for 1992 in the law rather than relying on indexing by the Secretary, because actual program data necessary for reliable indexation would not be available in time for setting the 1992 deductible.

The agreement requires the Secretary to publish by May 1 of each year (beginning in 1992) a proposed regulation establishing the deductible for the next year. The Secretary would be required to publish a final regulation during the last 3 days of September. The final deductible established in September may not exceed deductible proposed in May.

The conference agreement provides that the drug deductible will not apply for home IV drugs dispensed as part of a continuous course of therapy initiated while the beneficiary was a hospital inpatient. Further, the drug deductible does not apply with respect to immunosuppressive drugs furnished within one year following a covered organ transplant.

(d) *Adjustment in Deductible.*—The conference agreement does not include the House provision.

(e) *Authority To Reduce Deductible.*—The conference agreement does not include the Senate amendment. Because the deductible after 1992 will be indexed to ensure that 16.8% of beneficiaries reach the deductible, the Secretary would be authorized to lower or raise the deductible.

(f) *Payment Amount.*—

(1) The conference agreement includes the Senate amendment with a modification. The agreement specifies that the amount paid for a covered outpatient drug is equal to the "payment percent" multiplied by the lesser of the actual charge or the applicable payment limit. The payment percent is 100% minus the required coinsurance. Thus, in 1990 (and thereafter), the payment percent is 80% for home IV drugs and for immunosuppressive drugs used during the first year post transplant. The payment percent for other covered outpatient drugs is 50% in 1990 and 1991, 60% in 1992, and 80% thereafter.

The agreement deletes the reference to high volume pharmacies.

(2) The conference agreement includes the House provision with an amendment specifying that the first payment calculation period begins January 1, 1990.

(3) The conference agreement deletes the Senate amendment requiring that the information on payment limits be provided on a list sent to pharmacies. The conferees note, however, that this information will be available through the electronic system. The reference to high volume pharmacies also is deleted.

(4) The conference agreement includes the Senate amendment, with modifications. The provisions relating to charges for covered services after an individual has met the catastrophic deductible for outpatient drugs apply to organizations with a risk-sharing contract and those paid on a reasonable cost basis as well as to those health care prepayment plans that have elected to provide the catastrophic drug benefit. Different rules apply depending on whether the organization does or does not "buy out" drug charges below the catastrophic deductible amount for enrolled beneficiaries. A plan is deemed to be a buy-out plan if the deductible charge it imposes on enrolles for covered outpatient drugs is less than 50 percent of the Medicare catastrophic deductible for outpatient drugs.

In the case of a buy-out plan, actual expenses for outpatient drugs incurred by a beneficiary while enrolled in the plan are not counted towards the catastrophic limit. However, if an enrollee disenrolls during a year, he or she is deemed to have incurred expenses for covered drugs during each month of enrollment during the year equal to the monthly national average drug expenses during that year for all Medicare beneficiaries. The Secretary is required, in December of each year, to estimate the national average expense for covered drugs for the following year.

In the case of a plan that is not a buy-out plan, expenses for covered outpatient drugs incurred by a beneficiary while enrolled in the plan are counted towards the catastrophic limit. The plan may not enter into a Medicare contract or receive Medicare payment unless it provides assurances satisfactory to the Secretary that: (i) it will maintain, in coordination with the Part B carriers, accounts of expenses for covered drugs incurred by or on behalf of enrollees during each year, and will make the accounts available to an enrollee and to the carrier if an enrollee disenrolls during the year; and (ii) in determining whether an enrollee has met any deductible under its own plan, the organization will take into account all those expenses for covered drugs that are to be counted towards the catastrophic drug deductible.

The conferees expected that the Secretary, in establishing contracts with Part B carriers under section 1842, will require the carriers to provide information on expenses for out-of-plan services to the plans without charge.

(g) *Payment Limits for Non-Multiple Source Drugs and Multiple Source Drugs With Restrictive Prescriptions.—*

(1) The conference agreement includes the House provision with a modification. The Medicare payment limit for a single

source drug or a multiple source drugs with a restrictive prescription is the lessor of:

(A) the 90th percentile of actual charges for the drug adjusted (as appropriate by the Secretary) to reflect the number of dosage units or tablet units dispensed; or

(B) the administrative allowance plus the number of tablets or dosage units dispensed times the per tablet or per unit average wholesale price. The agreement specifies that the 90th percentile limit would be computed on a statewide, carrier-wide or other appropriate geographic area basis (as determined by the Secretary) using charge data from the second previous payment calculation period. The 90th percentile limit would not be used before January 1, 1992 because the necessary data would not be available.

(2) The conference agreement includes the House provision with an amendment. The agreement requires the Secretary to conduct a biannual survey of a representative sample of direct sellers, wholesalers, or pharmacists (as appropriate) to determine the applicable average wholesale price or comparable direct price for each single source drug as of the first day of the first month of the previous payment calculation period. The Secretary would be prohibited from taking into account any discounts that might be provided by wholesalers or direct sellers to pharmacies in determining the applicable average wholesale or direct prices.

Because the survey is a necessary part of the drug benefit and is vital to ensuring the integrity of reimbursement limits, the conference agreement permits the Secretary to impose civil money penalties of up to $10,000 if a wholesaler or direct seller refuses, after a request by the Secretary, to provide information required for the survey or provides information that is false. The conference agreement also requires pharmacies to cooperate with the survey and provides penalties for non-compliance. (*See* subparagraph (g), below.) Information gathered pursuant to the survey would be confidential and could not be disclosed by the Secretary, except as the Secretary determines to be necessary to administer the drug benefit.

The Secretary would not be required to conduct a survey with respect to a specific drug if the Secretary determines that such a survey would not be appropriate because of low volume of sales or other appropriate reason. The survey requirement could also be waived for covered outpatient drugs dispensed during 1990. In these circumstances, the Secretary would rely on published average wholesale prices from reliable sources and would have the authority to set the average wholesale price on the basis of the lowest reliable published price.

The agreement specifies that the Secretary shall make the determination of the average wholesale price based on the price or prices of purchases in reasonable quantities. The Secretary is further required to make the determinations and calculate the payment limit on a national basis. However, the Secretary could make such determinations on a regional basis to take into account limitations on the availability of drug products and variations in average wholesale prices among regions.

(3) The conference agreement includes the Senate amendment with an amendment. In the case of telephone prescriptions, a drug would only be subject to a restrictive prescription if the physician (or other person) through use of an appropriate phrase (as required for written prescriptions) states that a particular brand must be dispensed and submits a written confirmation to the pharmacy involved within thirty days after the date of the telephone prescription. If such confirmation is not submitted, payment would be based on limits for the corresponding multiple source drug.

(h) *Payment Limit For Multiple Source Drugs Without Restrictive Prescriptions.—*

(1) The conference agreement includes the Senate amendment with an amendment. The payment limit for a multiple source drug without a restrictive prescription is the sum of: (A) the product of the number of dosage units or tablet units dispensed and the unweighted median of the per unit average wholesale prices of the available drug products plus (B) an administrative allowance.

To determine the median, the Secretary would array the average wholesale prices (by appropriate dosage or tablet unit) for all FDA approved drug products that are rated by the FDA as therapeutically equivalent, including the corresponding brand name drug. (*See* subparagraph (3), below.

(2) The conference agreement includes the Senate amendment with a modification. In calculating the unweighted median, the Secretary is generally expected to use the average wholesale price for multiple source drugs based on reliable published sources. However, where appropriate, the Secretary may conduct a biannual survey of average wholesale prices of specific multiple source drugs. Such a survey is comparable to (and could be conducted in conjunction with) the annual survey of such prices for single source drugs. The conferees intend that the Secretary may exclude a drug from the calculation of the median if it is not being actively marketed.

(3) The conference agreement includes the House provision with an amendment. The agreement provides that in order for drugs to be multiple source drugs, the FDA must determine that they are pharmaceutically equivalent and bioequivalent as defined by the Medicare statute. This definition is the same as that currently used by the FDA. The agreement assumes that such FDA determination would be made at the time FDA approves the drug; it does not require a new or subsequent determination.

If the FDA changes the definition of therapeutic equivalence through a formal rule-making procedure (including a 90 day comment period), the requirement of pharmaceutical equivalence and bioequivalence as contained in the Medicare statute would not apply and the drug would only be required to meet the revised FDA definition of therapeutic equivalence.

(4) The conference agreement does not include the House provision.

(i) *Administrative Allowance.*—The conference agreement includes the Senate amendment with an amendment setting the administrative allowance for participating pharmacies at $4.50 in 1990 and 1991 and for nonparticipating pharmacies at $2.50 in 1990 and 1991. Thereafter, the allowances are indexed by the GNP price deflator.

(J) *Assuring Appropriate Utilization.*—

(1) The conference agreement includes the Senate amendment with modifications. The agreement does not include the provision authorizing the Secretary to deny payment for drugs prescribed or dispensed with excessive frequency or in excessive quantities. The conferees note that such new authority is unnecessary. The Secretary already has authority under Section 1862(a)(1) of the Social Security Act to deny payment for items and services that are not reasonable and necessary for the diagnosis or treatment of illness or injury. Pursuant to this authority, the Secretary could deny payment for drugs prescribed or dispensed with excessive frequency or in excessive quantities.

The conference agreement requires the Secretary to establish a program to identify: (i) instances and patterns of unnecessary or inappropriate prescribing or dispensing practices; (ii) instances or patterns of substandard care; and (iii) potential adverse drug reactions.

The conferees expect that participating pharmacists will review the medication profile of beneficiaries for potential adverse reactions before filling prescriptions. The conferees further intend that carriers will review claims retrospectively to identify practitioners exhibiting a pattern of inappropriate drug prescribing or dispensing.

The conference agreement also requires the Secretary to establish an educational program to educate physicians and pharmacists about inappropriate prescribing and dispensing practices. This program is expected to include a range of educational interventions, ranging from written to face-to-face communications.

(2) The conference agreement includes the Senate amendment with modifications.

The conference agreement does not include the Senate provision which would have required the use of diagnosis codes on all prescriptions. The conferees believe this requirement would have been unduly burdensome for physicians. Instead, the conference agreement requires physicians to report the appropriate diagnosis code (or codes) on all claims for services they provide. This information would be available for immediate use for utilization review of physician services (and could be used for prepayment screens) and could be used in the future to facilitate drug utilization review by merging Part B with drug claims data.

To enforce the requirement of submission of diagnosis codes, the Secretary would be authorized to deny payment on assigned claims if the required diagnostic information is not provided. In the case of non-assigned claims, if a physician knowingly and willfully fails to respond to a request by a carrier to provide required information not initially included, the physician could be subject to civil money penalties of up to $2,000. Moreover, if a physician knowingly and willfully continues not to provide the required diagnostic information on the initial claims after being notified of the specific obligation to provide such information, the physician could be subject to civil monetary penalties and or exclusion from Medicare under Section 1842(j)(2)(A) of the Social Security Act.

The conferees intend that the Secretary will take appropriate measures to insure the confidentiality of patient-specific information which has been obtained.

The conference agreement includes the Senate provision on drug utilization review standards with modifications. The Secretary would be required to establish standards for the use of each covered outpatient drug based on accepted medical practice. In establishing these standards, the Secretary would be required to incorporate standards from one (or more) current authoritative compendia as the Secretary may select.

The conferees expect that included among the compendia the Secretary will consider for use are the United States Pharmacopoeia Dispensing Information, volume 1 (Drug Information for the Health Care Professional), the American Medical Association's Drug Evaluations, and American Hospital Formulary Service Drug Information. The conferees expect that the Secretary will use only those compendia which base such standards on a review of published scientific and medical information, which provide for a public comment and review process, and which provide adequate assurances that the panelists who establish standards are free of financial (or other) conflicts of interest.

The Secretary, through rule-making, may modify these standards, for use in the Medicare program, on the basis of published scientific and medical information indicating that such standards are not consistent with the safe and effective use of such drug.

The conference agreement also specifies that nothing in Title XVIII of the Social Security Act should be construed as authorizing the Secretary to establish a formulary by excluding from coverage: (i) any specific covered outpatient drug or class of drugs or (ii) the specific use of any covered outpatient drug with respect to a specific indication, unless the exclusion is pursuant to Section 1862(a)(1) and is based on a finding by the Secretary that such use is not safe or effective. The Secretary could, however, exclude certain drugs pursuant to Section 1862(c), relating to exclusions for drugs subject to a proposed order by the FDA to withdraw marketing approval, or 1861(t)(4)(A), relating to the definition of covered home IV therapy drugs (*See* subparagraph (b), above).

(k) *Treatment of Certain Prepaid Organizations.*—The conference agreement does not include the House provision or the Senate amendment. (*See* subparagraph (q), below.)

(l) *Physician Guide.*—The conference agreement includes the Senate amendment with a clarification. The Secretary is required to mail the guide by January 1 of each year, beginning in 1991, to participating hospitals, to each physician who routinely provides Part B services, to Social Security offices, to senior citizen centers, and to other appropriate places.

(m) *Special Cost Control Measures.*—The conference agreement includes the Senate amendment with a modification. The agreement requires the Secretary, immediately upon enactment, to begin compiling information on prices charged by manufacturers and by retail pharmacies for covered outpatient drugs. The Secretary shall compare increases in drug prices for each six month period beginning January 1, 1987, with the average semi-annual increase in such prices during the January 1, 1981 to January 1, 1987 period. The agreement also requires the Secretary to review all available information on the use of prescription drugs by Medicare beneficiaries. The conference agreement requires the Secretary to file a report with the House Committees on Ways and Means and Energy and Commerce and the Senate Committee on Finance in May and November of 1989 and 1990 and in May of each succeeding year containing this information.

Each report submitted after 1991 will also include an explanation of the extent to which increases in expenditures for covered outpatient drugs are the result of price increases by manufacturers and pharmacists and increased drug use by beneficiaries and will include information: (i) on the projected budgetary status of the prescription drug trust fund for the succeeding year; (ii) projected increases in manufacturer's and pharmacists' prices; (iii) the projected level of utilization of covered outpatient drugs by beneficiaries; and (iv) projected administrative costs.

The conference agreement requires the Secretary to submit monthly reports to the Congress, from October 1991 through April 1993, showing monthly outlays and receipts of the Federal Catastrophic Drug Insurance Trust Fund.

The agreement further specifies that the Secretary's May 1, 1992 and 1993 reports will determine whether the anticipated outlays and receipts of the new trust fund are sufficient to achieve the established contingency reserve margin for 1993 and 1994. If not, the report will recommend necessary changes (which will also be published in the Federal Register by May 1 as a proposed regulation). Any such recommended changes should appropriately address each of the causes of increased or unanticipated costs for the program.

If the Secretary has published a proposed regulation by May 1 of 1992 or 1993, the Secretary may publish a final regulation during the last 3 days of September of such year to implement the changes proposed. Such changes will become effective as of January 1 of the next year and will apply only during such year and will take effect notwithstanding any other provisions of this part.

Several limitations, however, would apply to the Secretary's cost control authority. First, the final regulation may not provide for a net reduction in outlays in excess of the net reduction provided in the proposed regulation. Second, the Secretary may not provide for a formulary in violation of the prohibition contained in subparagraph (j). Third, the Secretary may not change the methodology for calculating whether the drug deductible has been met (but could change the level of the deductible). Finally, the Secretary could not increase the coinsurance above the level in effect during the previous year.

The conferees intend that, in designing any cost control recommendations, the Secretary will attempt to insure that beneficiary access will not be adversely affected.

The conferees expect and encourage the Secretary to make other recommendations concerning legislative changes that would improve the administration of the new outpatient prescription drug

84-648 - 88 - 7

benefit. Such recommendations would be subject to approval by the Congress as part of the normal legislative process.

The conferees understand that the proposed and final regulations will not be reflected in the Congressional Budget Office's August baseline for FY 1993 and FY 1994.

(n) *High Volume Pharmacies.*—The conference agreement includes the Senate amendment with a modification limiting the Secretary's authority to reducing the administrative allowance for mail service pharmacies. Such reductions (if any) must be based on differences between mail service pharmacies and other pharmacies with respect to operating costs and other economies.

(o) *Report on Payment Limits.*—The conference agreement deletes this provision. The conferees intend to request, by letter, the Office of Technology Assessment to prepare a study on possible alternative payment methodologies.

(p) *Report on Covered Outpatient Drug Index.*—The conference agreement does not include the House provision.

(q) *Participating Pharmacies.*—

(1)(A).—The conference agreement includes the Senate amendment. The conferees note that some prepaid health plans operate pharmacies which charge members of the plan less than the pharmacy charges members of the general public. In this case, the conferees intend that the test of compliance with this provision be based on the pharmacy's charges to members of the general public who are not members of the prepaid health plan.

(1)(B).—The conference agreement includes the House provision.

(1)(C).—The conference agreement includes the House provision with a modification. The Secretary would be required by January 1, 1991 to establish an electronic point-of-sale claims processing system for use by carriers and participating pharmacies. Participating pharmacies would be required to transmit information regarding all covered outpatient drugs dispensed to Medicare beneficiaries by such pharmacies regardless of deductible status.

The conferees consider the electronic billing system integral to the smooth administration of the prescription drug benefit. The conferees expect that the Secretary will devote the necessary resources to make the electronic system fully and successfully operational by January 1, 1991. Moreover, the conferees expect that the system will be thoroughly tested prior to that date.

(1)(D).—The conference agreement does not include the House or Senate provision.

(1)(E).—The conference agreement includes the Senate amendment.

(1)(F).—The conference agreement includes the Senate amendment.

(1)(G).—The conference agreement includes the Senate amendment with an amendment deleting the exemption for undue hardship. As noted above, the agreement requires the Secretary to implement an electronic point-of-sale system by January 1, 1991. The agreement further requires the Secretary to provide, upon request, such electronic equipment and technical assistance (other than costs associated with obtaining, maintaining, or expanding telephone service) as the Secretary determines may be necessary for a pharmacy to submit claims through the electronic system. Because the equipment would be provided where necessary an exemption for hardship cases is not needed.

The conference agreement requires participating pharmacies to provide information requested by the Secretary in conjunction with biannual surveys conducted by the Secretary to determine average wholesale prices. (see Item 10g).

All of the preceding requirements for participating pharmacies would be first effective for covered outpatient drugs dispensed on or after January 1, 1991. Claims for drugs dispensed during 1990 would be handled by existing Medicare carriers and the beneficiary's deductible status would be determined by these carriers as under current law.

The Secretary would have authority to specify claims processing and payment procedures in the event of temporary failure of the electronic claims processing system.

(2).—The conference agreement includes the Senate amendment with an amendment deleting the requirement that the Secretary submit lists of payment limit to pharmacies in advance of the payment calculation period.

(3).—The conference agreement includes the Senate amendment with a modification. The agreement provides that the audits would assure compliance with requirements for participation and would assure the accuracy of information submitted by pharmacies.

(4).—The conference agreement includes the Senate amendment with an amendment clarifying that the requirement to accept assignment begins at the point where the Secretary, through the electronic point-of-sale system or otherwise, notifies the pharmacy that the beneficiary has met the deductible.

(r) *Civil Monetary Penalty.*—The conference agreement includes the Senate amendment authorizing civil monetary penalties for pharmacies that charge Medicare beneficiaries more than they charge the general public. For purposes of this provision, the price charged to the general public is the pharmacy's price to a customer who is not a member of any group which has obtained a discounted price from that pharmacy, such as an HMO.

The conference agreement also authorizes civil monetary penalties for pharmacies that fail to provide information requested by the Secretary as part of the biannual survey of wholesale prices (see Item 10g).

(s) *Limitation to 60 Day Prescription.*—The conference agreement includes the Senate amendment with an amendment. No payment may be made for any expense incurred for a covered outpatient drug if it is dispensed in a quantity exceeding a 30 day supply, except that the Secretary may authorize a longer supply (not exceeding 90 days, except in exceptional circumstances). Such extended supply policies may apply to specific drugs or classes of drugs and may be subject to appropriate conditions as the Secretary may establish.

(t) *Additional Premium for Prescription Drug Benefit.*—See Item No. 15.

(u) *Use of Carriers in Administration.*—

(1) The conference agreement includes the Senate amendment with modifications.

Current law requires that a Medicare carrier be an insurer of health care services. The conference agreement waives this requirement and authorizes the Secretary to contract with other entities for implementation and operation of the electronic point-of-sale claims processing system and for related functions. Such entities include voluntary associations, corporations, partnerships, or other nongovernmental organizations. Such contracts may be on a regional basis.

If the Secretary requires a carrier to subcontract with such an entity for this purpose, the conferees expect the Secretary to take this arrangement into account in evaluating the carrier's performance. The failure of such entity to properly carry out its responsibilities should not adversely affect the carrier's performance rating.

The conferees further intend that the term "related functions" would apply to functions closely related to the implementation and operation of the electronic system, such as initial claims denials made through the system. Other functions, such as the handling of beneficiary inquiries and carrier fair hearings, would remain with the traditional Medicare carriers.

The agreement permits the Secretary to use fixed-price contracts for electronic claims processing (and related functions) but requires the Secretary to: (i) publish in the Federal Register general criteria and standards used for evaluating contractors and provide opportunity for public comment; (ii) publish in the Federal Register any new policy or procedure that substantially affects the performance of contracts 30 days before such policy or procedure is to take effect; and (iii) negotiate necessary contractual modifications with contractors before requiring them to perform any additional functions.

The conferees expect that the Secretary would initially contract with more than one entity to establish more than one electronic system.

The agreement specifies that current law requirements regarding coordination of benefits payments with Medicare supplemental insurers will not apply to covered outpatient drugs until January 1, 1993.

(2) The conference agreement includes the Senate amendment with a modification. The agreement requires contractors processing claims for prescription drugs to provide for a monthly payment cycle. All claims received and approved for each participating pharmacy or individual submitting claims in the period since the previous payment date would be paid at the end of the payment cycle.

The conferees understand that under this system, claims would be paid, on average, 15 days after receipt. If payment is delayed more than 5 days after the requisite payment date, interest shall accrue until payment is made.

(3) The conference agreement includes the Senate amendment.

(v) *Modification of HMO/CMP Provisions.*—

(1) The conference agreement does not include the House provision or the Senate amendment.

(2) The conference agreement includes the Senate amendment.

(3) The conference agreement includes the Senate amendment.

(w) *Medicaid Requirements.*—See Item No. 33.

(x) *Beneficiary Drug Cost Survey and CBO Report.*—

(1) The conference agreement includes the Senate amendment with a modification. Data obtained from the 1987 National medical Expenditure Survey (NMES) would be used in lieu of conducting a new survey. Based on this data, the Secretary would submit a report on expenses incurred by Medicare beneficiaries for outpatient drugs to Congress by April 1, 1989. Also by this date, the Secretary would provide the Director of the Congressional Budget Office any data from the survey that the Director may request to make the estimates required under subparagraph (2) below.

(2) The conference agreement includes the Senate amendment with an amendment specifying the CBO report is due by June 1, 1989, or 60 days after the date the Secretary provides the requested data under subparagraph (1). The report is to include estimated outlays and revenues (with projected trust fund balances) for the period from FY 1990 through FY 1993.

(3) The conference agreement does not include the Senate amendment.

(y) *Prescription Drug Payment Review Commission.*—The conference agreement includes the House provision with an amendment. The Commission is to be established by January 1, 1989. The conferees expect that one of the eleven commissioners would be associated with a brand name drug manufacturer while another would be associated with a generic drug manufacturer.

The Commission is directed to submit an annual report to Congress by May 1 of each year, beginning May 1, 1990. The report would concern methods of determining payment for the outpatient prescription drug benefit authorized under this legislation. Beginning in 1992, the annual report must include comments on both the budgetary status of the Federal Catastrophic Drug Insurance Trust Fund and recommendations for any changes necessary to reduce outlays in order to achieve the established contingency margin for the following year. These recommendations are to take into account the causes of increased or unanticipated outlays for covered drugs in the year.

Beginning in 1992, the annual report would also include information on increases in manufacturers' prices for prescription drugs, increases in pharmacies' charges for such drugs, utilization of the outpatient prescription drug benefit by beneficiaries, and administrative costs associated with the benefit.

(z) *Additional Studies.*—The conference agreement includes the Senate amendment with modifications. The requirement for a report on third party coverage is not included. The conferees note that under subparagraph (x) the Secretary is required to conduct a study of drug expenditures by the elderly. It is expected that the issue of third party coverage will be addressed in that study.

The conference agreement provides for a one-time study by the GAO which would include: (i) a comparison of average wholesale drug prices and actual acquisition costs by type of pharmacy; (ii) an analysis of the discounts offered by pharmacies to other third-party insurers; and (iii) an analysis of overhead costs of retail pharmacies. The study would be due to Congress by May 1, 1991.

Pharmacies participating in Medicare or Medicaid would be required to provide the GAO with reasonable access to records needed to conduct the study; non-compliance would be subject to exclusion from Medicare or Medicaid under Section 1128(a) of the Social Security Act. The conferees expect that the GAO would not release any data from the study in a manner which could be identified with individual pharmacies.

The conference agreement does not include a requirement for a study on the potential application of new claims processing and billing technologies. The conferees note that the agreement requires the Secretary to implement an electronic point-of-sale claims processing system.

The conference agreement requires a study of methods to improve utilization review of covered outpatient drugs. The study is due to the Congress by January 1, 1993.

The conference agreement does not include the requirement that the Secretary study alternative payment methodologies for covered outpatient drugs. The conferees note that under subparagraph (o) above, the conferees intend to request the Office of Technology Assessment to conduct a similar study.

The conference agreement also does not include the study on induced demand. The conferees expect that this issue will be addressed in the study required under subparagraph (x).

The conference agreement specifies that the longitudinal study of the use of covered outpatient drugs by Medicare beneficiaries is to be conducted as a follow-up to the 1987 NMES study. The report is due January 1, 1993.

The conference agreement expands the scope of the requisite study on experimental cancer drugs to include other experimental drugs and biologicals. This report is due January 1, 1990.

The conference agreement also requires the Secretary to study the potential of mail service pharmacies to reduce the cost of covered outpatient drugs for beneficiaries and for the Medicare program and to report to Congress by January 1, 1990.

(aa) *Study of the Treatment of Prescription Drugs.*—The conference agreement does not include the Senate amemdment.

(bb) *Simplification of Recordkeeping.*—The conference agreement includes the Senate amendment with modifications. The agreement requires the Secretary to develop a standard claims form and a standard format for electronically submitted claims to be used by Medicare and other third parties for covered outpatient drugs. The Secretary would consult with representatives of pharmacies and other interested individuals in developing these standards. The Secretary would be required to distribute official sample copies by October 1, 1989.

The conference agreement does not include the requirement for demonstration projects testing various electronic billing systems. The conferees note that the Secretary is required to implement a point-of-sale electronic claims processing system.

Effective Date.—Applies to items dispensed on or after January 1, 1990, except for the following.

Prompt payment requirements for carriers take effect on January 1, 1991, but are not to be construed as requiring payment before February 1, 1991, thereby permitting implementation of staggered billing cycles.

Provisions relating to modification of HMO/CMP contracts apply to new enrollments effective on or after January 1, 1990.

Diagnostic coding requirements apply to services furnished on or after April 1, 1989.

11. Coverage of Home Intravenous Drug Therapy (Section 7A of Senate amendment)

Present Law

(a) General.—Drugs and biologicals, which cannot be self-administered and which are furnished as an incident to a physician's professional service, are included within the definition of "medical and other health services," and are covered under Part B. Such coverage also includes antigens prepared by a physician and administered by or under the supervision of a physician.

(b) Payment.—No provision.

(c) Certification.—Except for certain inpatient or outpatient services provided by hospitals, payments for services to providers under Part B may only be made if a physician certifies (and recertifies where such services are furnished over an extended period) that the services are necessary.

(d) Certification of Providers.—The Secretary, in carrying out his functions related to determination of conditions of participation of providers of services, shall consult with appropriate national listing and accreditation bodies, and may consult with appropriate local agencies. If a State imposes higher requirements on institutions as a condition of payment under titles I, XVI, or XIX (Medicaid) of the Social Security Act, the Secretary shall impose like requirements under Medicare.

(e) Intermediate Sanctions for Home Intravenous Drug Therapy Providers.—No provision.

(f) Publication Requirement.—No provision.

House bill

No provision.

Senate amendment

(a) General.—Provides for Medicare coverage of intravenous drug therapies provided in the home. Home intravenous therapy is defined as items and services that: (1) are provided to an individual who is under the care of a physician; (2) are provided in the residence used as the individual's home; (3) are provided by a qualified home intravenous drug therapy provider or by others under ar-

rangement with such provider; and (4) are provided under a plan established and periodically reviewed by a physician.

Coverage for home intravenous drug therapy includes nursing, pharmacy and related services as are necessary to safely and effectively conduct an intravenously administered anti-infective or cancer chemotherapeutic drug regimen through the use of a covered outpatient drug or use of any other intravenously administered drug which the Secretary (in consultation with providers, clinicians and consumers) determines may be safely provided in the home.

A qualified home intravenous drug therapy provider is defined as a home health agency certified by the Secretary as meeting certain conditions of particpation, or other entity certified by the Secretary as meeting certain conditions of participation. The conditions of participation require that the home health agency or other entity: (1) is capable of providing or arranging for the provision of home intravenous drug therapy; (2) maintains clinical records; (3) has written policies to govern the provision of services; (4) makes services available 24 hours per day, seven days a week as necessary; (5) coordinates all services with the patient's physician; (6) conducts a quality assessment and assurance program, including drug regimen review and coordination of patient care; (7) assures that only trained personnel provide chemotherapy or any other service where training is required to safely provide the service; (8) assumes responsibility for the quality of services provided by others under arrangements; and (9) meets such other conditions as the Secretary determines are necessary for the safe and effective provision of services and as necessary for the efficient administration of the benefit.

(b) Payment.—Requires the Secretary to establish a fee schedule for home intravenous drug therapy prior to the beginning of each calendar year, beginning prior to calendar year 1990. The fee schedule is to be established on a per diem basis. The fee schedule is to be based on a study of current reimbursement for similar items and services provided under Medicare, on the customary charges for such therapy, and on such other information as the Secretary deems appropriate.

Reimbursement for home intravenous drug therapy is 100 percent of the lesser of the actual charge and the fee schedule amount. Payments for these items and services is not subject to the annual Part B deductible amount.

(c) Certification.—Provides that coverage for home intravenous drug therapy is limited to cases in which a physician certifies that (1) such therapy is required by the individual, (2) a plan for furnishing the therapy has been established and is periodically reviewed by a physician, (3) the therapy is furnished while the individual is under the care of a physician, and (4) the therapy is provided in a place of residence used as the individual's home.

(d) Certification of Providers.—Adds home intravenous drug therapy providers to the list of providers for which the Secretary shall consult with appropriate State agencies and recognized national listing or accrediting bodies, and appropriate local agencies in determining the conditions of participation.

(e) Intermediate Sanctions for Home Intravenous Drug Therapy Providers.—Provides that the Secretary shall develop and implement "intermediate sanctions," in lieu of canceling the certification of the provider, that may be imposed for a period of up to one year against home intravenous drug therapy providers that are determined by the Secretary to no longer meet the conditions of participation. The Secretary shall provide appropriate appeals procedures relating to the imposition of such intermediate sanctions. The intermediate sanctions shall include civil money penalties and suspension of all or part of reimbursement amounts that would otherwise be made under Medicare. Such sanctions are in addition to sanctions otherwise available under State or Federal law.

The Secretary shall develop and implement specific procedures with respect to when and how each of the intermediate sanctions may be imposed, the amount of any fines and the severity of each penalty. The procedures are to be designed to minimize the time between the identification of violations and imposition of the sanction, and shall provide for the imposition of increasingly severe fines for repeated or uncorrected deficiencies.

(f) Publication Requirement.—Provides that the Secretary shall publish a list of categories of drugs that are considered covered outpatient drugs with respect to home intravenous drug therapy not later than January 1, 1990.

Effective date.—Applies to items and services furnished on or after January 1, 1990

Conference agreement

(a) *General.*—The conference agreement includes the Senate amendment with amendments.

Covered home IV drug therapy services include nursing, pharmacy, and related items and services (such as medical supplies, IV fluids, delivery, and equipment) as are necessary for the safe and effective administration of covered home IV drugs. Drug therapy services would not be subject to the Part B deductible or to coinsurance.

Drugs used for home IV drug therapy are not included in the definition of covered home IV drug therapy services, and are not included in the reimbursement for these services. Instead, these drugs are covered and reimbursed under the catastrophic prescription drug benefit. (See Item 10 concerning coverage of IV drugs).

A qualified home IV drug therapy provider must comply with requirements contained in the Senate provision. The conference agreement adds the requirement that the provider must adhere to written protocols with respect to provision of services and expands the requirement pertaining to use of trained personnel to cover provision of all home IV drugs. Further, the entity must be licensed, or approved as meeting the requirements for licensure, if State or local law provides for licensure of home IV drug providers.

A home health agency may qualify as a home IV drug therapy provider if it meets these requirements. In this case, the home health agency would not have to be recertified with respect to any conditions that it had previously met to be certified as a home health agency.

(b) *Payment.*—The conference agreement includes the Senate amendment with amendments. Under the agreement, Medicare payment would be the lower of the provider's actual charge or the fee schedule amount.

The fee schedule would be established by the Secretary by regulation before January 1, 1990 and would provide payment on a per diem basis. In establishing the fee schedule, the Secretary could consider cost information, charge information, and payment rates for similar items and services covered under Medicare. The Secretary could not, however, require routine cost reporting.

The conference agreement provides the Secretary with broad flexibility in establishing the fee schedule. The conferees expect that the Secretary will use this flexibility to establish a fee schedule which assures adequate access to services while preventing excessive payments. The conferees note that exclusive reliance on customary charges has previously resulted in excessive reimbursement levels for similar services.

The conferees expect that the availability of home IV therapy will facilitate shorter hospital lengths of stay for a variety of illnesses. The conference agreement therefore requires the Prospective Payment Assessment Commission to study and report to the Congress and the Secretary by March 1, 1991 concerning adjustments to DRG payments which may be appropriate in view of the expected savings to hospitals.

Finally, the conference agreement prohibits a home IV therapy provider from providing services to a Medicare beneficiary based on a referral from a physician who has an ownership interest in, or receives compensation from, the provider. The prohibition would also apply to ownership or compensation arrangements involving an immediate family member of the referring physician. The referring physician is the physician who prescribes the home IV drug therapy or establishes the plan of care for such therapy.

Several exceptions to this prohibition are provided: (i) ownership of publicly traded stock purchased on terms available to the general public; (ii) sole community rural home IV therapy providers as defined by the Secretary; (iii) compensation reasonably related to items or services actually provided by the physician which does not vary in proportion to the number of referrals made; (iv) physicians whose only relationship with the provider is as an uncompensated officer or director of the provider; and (v) other exceptions established by the Secretary by regulation, for ownership or compensation arrangements which the Secretary determines do not pose a substantial risk of program abuse. The exception under clause (iii) would not apply for compensation paid by the home IV provider to the referring physician for direct patient care services. It is expected that the physician would bill Medicare (or the beneficiary) for such services.

Payment would be denied for services provided pursuant to a prohibited referral. The home IV provider would also be prohibited from billing for such services on an unassigned basis. Moreover, a physician who knowingly and willfully makes a prohibited referral or a provider who knowingly and willfully accepts such a referral would subject to civil monetary penalties of up to $15,000 for each such referral and/or exclusion from the Medicare program.

The conferees intend that this prohibition not be construed in any way as altering (or reflecting on) the scope and application of the anti-kickback provisions contained in Section 1128B of the Social Security Act.

The conferees are aware of the growing prevalence of physician ownership and compensation arrangements which are developed and marketed by providers of medical services. These arrangements are often initiated with the intent of binding together the financial interests of referring physicians with those of the providers.

Because of the resulting economic alliance, physicians are less likely to exercise independent judgment in making referral recommendations. Moreover, such alliances pose a risk of inducing over utilization even if the physician's income does not vary in proportion to the number of referrals made.

Some of these arrangements may involve indirect referral fees. Investment opportunities may be restricted to physicians who are able refer substantial business to the provider, and such investments often have returns which are substantially higher than what would be expected for comparable investments.

For these reasons, the conference agreement includes a requirement that the HHS Inspector General conduct a study of physician owneship of, and compensation by, other suppliers of Medicare covered services to which they make referrals. The report would (i) include a description of the full range of such arrangements and the means by which they are marketed to physicians; (ii) evaluate the potential of such arrangements to influence physician decisionmaking and to result in inappropriate utilization; (iii) assess the practical difficulties involved in enforcement actions under current anti-kickback provisions; and (iv) make recommendations regarding possible changes in the law to strengthen protections against program abuse. The report would be due to Congress by May 1, 1989.

(c) *Certification.*—The conference agreement includes the Senate amendment with an amendment.

The conference agreement requires that all home IV therapy services be reviewed and approved for medical necessity and quality by a Peer Review Organization (PROs) during a three-year period (1990–1992).

Prior approval by a PRO is required for home IV therapy initiated immediately upon hospital discharge. Except in exceptional circumstances (specified by the Secretary), home IV therapy services initiated on an outpatient basis (without a preceding hospital stay) must be approved by the PRO within one working day after the initiation of therapy. PROs would be required to complete reviews within one working day of receipt of a request for review.

To assure the validity and uniformity of PRO reviews, the conference agreement requires the Secretary to establish criteria that would be used by PROs in conducting reviews with respect to the appropriateness of home IV therapy services. Such criteria should assure that beneficiaries are discharged from hospitals to home IV therapy only if this is appropriate from a medical standpoint and the patient (or a family member) is able to carry out the home care regimen properly.

The conferees expect that after 1982, the Secretary could require PROs to conduct some focused reviews and could require prior approval in appropriate circumstances.

(d) *Certification of Providers.*—The conference agreement includes the Senate amendment with a clarifying amendment specifying that a home IV drug therapy provider is a "provider" of services as defined under Medicare.

The conference agreement further requires the Secretary, in consultation with State agencies and other organizations to develop conditions of participation for home IV drug theraphy providers.

(e) *Intermediate Sanctions for Home Intravenous Drug Therapy Providers.*—The conference agreement includes the Senate amendment.

(f) *Publication Requirement.*—The conference agreement includes the Senate amendment.

Effective date.—Applies to services furnished on or after January 1, 1990.

12. In-Home Care for Certain Chronically Dependent Individuals (Section 203 of House bill)

Present law

No provision.

House bill

(a) Services Covered.—Adds a new benefit to Part B of Medicare: in-home care for a chronically dependent individual for up to 80 hours in any calendar year. [Such care provided on any day for 3 hours or less is counted as 3 hours.]

Defines "in-home care" as including (1) services of a homemaker/home health aide (who has successfully completed a training program approved by the Secretary); (2) personal care services; and (3) nursing care provided by a licensed professional nurse. Requires that these services be furnished, under the supervision of a registered professional nurse, by a home health agency or others under arrangements with the agency. Also requires that the services be furnished in a place of residence used as the chronically dependent individual's home.

(b) Persons Eligible.—Provides that the above services be available to chronically dependent individuals who are Medicare beneficiaries. Defines "chronically dependent individual" as a person who (1) is dependent on a daily basis on a primary caregiver who is living with the individual and is assisting the individual without monetary compensation in the performance of at least 2 specified activities of daily living (ADLs); and (2) without this assistance could not perform these ADLs. Specifies that the individual be dependent in at least 2 of the following ADLs: eating, bathing, dressing, toileting, or transferring in and out of a bed or in and out of a chair.

(c) Payment.—Provides that payment for in-home services be made on the basis of hourly rates based on reasonable costs of furnishing care.

Requires the Secretary to provide for an appropriate adjustment to payment rates for prepaid health plans paid on a reasonable cost basis to reflect the new catastrophic protection. The adjustment is to reflect: (1) the aggregate increase in payments which would otherwise be made for enrollees if they were not enrolled in the organization; or (2) the amount that would be paid to the organization or facility if payments were made on an individual by individual basis. The organization is required to provide assurances, satisfactory to the Secretary, that it will not undertake to charge an individual more than 20 percent of reasonable costs plus any deductible amounts.

(d) Certification.—Requires a physician to certify, in the case of in-home services provided to a chronically dependent individual during a 12-month period, that the individual was chronically dependent during the immediately preceding 3-month period.

(e) Standards for Utilization.—Specifies that payment may not be made for in-home care for chronically dependent individuals unless such care is reasonable and necessary to assure the health and condition of the individual is maintained in the individual's non-institutional residence. The Secretary is required to take appropriate efforts to assure the quality and provide for the appropriate utilization of in-home care for chronically dependent individuals.

(f) Study of Alternative Out-of-Home Services.—Requires the Secretary to study and report to Congress, within 18 months of enactment, on the advisability of providing to chronically dependent individuals (eligible for services under this provision) with out-of-home services (such as adult day health services or nursing facility services) as an alternative to in-home care.

(g) Study of In-Home Care.—Requires the Secretary to study and report to Congress by June 1, 1991, on the extent of use, cost, and effectiveness of in-home care provided chronically dependent individuals under this provision. [See also item 25]

Effective date.—(a) through (e) apply to items and services furnished on or after January 1, 1989, and before January 1, 1992. Study provisions (f) and (g) effective on enactment.

Senate amendment

No provision.

Conference agreement

(a) *Services Covered.*—The conference agreement includes the House provision, with the amendment noted below regarding the 12 month period of eligibility for the services.

(b) *Persons Eligible.*—The conference agreement includes the House provision, with an amendment. It retains the definition of chronically dependent individual. However, such an individual qualifies for these services only if the individual has been determined either: (i) to have incurred expenses for Part B coinsurance and deductible payments in an amount equal to the catastrophic limit on Part B cost-sharing for the year; or (ii) to have incurred expenses for covered outpatient drugs equal to the outpatient drug deductible for the year. In-home services would then be available to such a beneficiary for 12 months from the date the beneficiary was determined by the Medicare carrier to have incurred such expenses.

If a beneficiary met a second limit within twelve months after meeting a prior limit, this would initiate a new twelve month period of eligibility. In this situation, the beneficiary would be entitled to receive up to 80 hours of care during the new eligibility period, but could not carry over any hours not used during the prior eligibility period. Moreover, in no event could a beneficiary receive more than 80 hours of care during a calendar year.

An individual receiving these services would be responsible for 20 percent coinsurance, notwithstanding that he or she had already met the Part B catastrophic limit in the current year. However, these coinsurance payments could be counted towards the catastrophic limit, during the calendar year in which they were incurred.

The Secretary would be required to take appropriate measures to assure that HMO members who would otherwise qualify for this benefit are properly identified.

(c) *Payment.*—The conference agreement includes the House provision.

(d) *Certification.*—The conference agreement includes the House provision.

(e) *Standards for Utilization.*—The conference agreement includes the House provision.

(f) *Study of Alternative Out-of-Home Services.*—The conference agreement includes the House provision.

(g) *Study of In-Home Care.*—The conference agreement does not include the House provision.

Effective Date.—The conference agreement applies to services furnished on or after January 1, 1990.

13. Extending Home Health Services (Section 204 of House bill; Sections 7 and 8 of Senate amendment)

Present law

(a) Intermittent/Daily Home Health Care.—Home health services are covered under Medicare if the services are required because the individual is homebound and requires skilled nursing care on an intermittent basis or physical or speech thereapy. Current program guidelines specify that to meet the requirement for intermittent skilled nursing care, an individual must have medically predicable recurring need for skilled nursing services. The guidelines define "intermittent" as permitting daily skilled nursing visits for up to eight hours a day for up to two or three weeks if medically reasonable and necessary. Daily is defined as five, six, or seven days per week.

(b) Homebound.—Comparable provision included in the Omnibus Budget Reconciliation Act of 1987, section 4024 of Public Law 100-203.

House bill

(a) Intermittent/Daily Home Health Care.—Specifies that nursing care and home health aide services are considered intermittent if they are furnished less than 7 days a week. These services may be provided 7 days a week for an initial period up to 35 consecutive days. More than 35 consecutive days may be covered if the physi-

cian certifies that exceptional circumstances require additional care on a daily basis.

Effective date.—(a) Applies to services furnished on or after January 1, 1989.

Senate amendment

(a) Intermittent/Daily Home Health Care.—Provides that nursing care and home health aide services may be provided 7 days a week (with one or more visits per day) for up to 21 days with a physician's certification of the need for such care. For a beneficiary enrolled in Part B, up to 45 days of consecutive care would be allowed if he was discharged from a hospital or skilled nursing home within 30 days prior to beginning home health care.

Effective date.—(a) Applies to items and services furnished after December 31, 1987.

Conference agreement

(a) *Intermittent/Daily Home Health Care.*—The conference agreement includes the Senate amendment with a modification. The agreement provides that nursing care and home health aide services may be provided 7 days a week (with one or more visits per day) for up to 38 consecutive days. The conferees intend that current coverage policies which allow for additional days of care under unusual circumstances would continue to be covered under Medicare.

The conference agreement further extends the favorable presumption under the waiver of liability provisions for skilled nursing facilities and home health agencies. The Secretary is prohibited from modifying the presumption criteria for these waivers through October 1990.

The conference agreement requires the Administrator of the Health Care Financing Administration to appoint an 11 member Advisory Committee on Home Health Claims. At least five members shall be representatives of home health agencies or visiting nurse associations. The remaining members are to be representative of physicians' groups, senior citizens' groups and fiscal intermediaries, with no more than 3 members representative of fiscal intermediaries. The advisory committee is to study the reasons for the increase in the denial rate for home health claims during 1986 and 1987, the ramifications of such increase, and the need to reform the process involved in such denials. A report on the committee's findings is due to the Health Care Financing Administration and to the Congress within one year of enactment.

(b) *Homebound.*—The conference agreement does not include the Senate provision. The conferees note that a comparable provision was included in the Omnibus Budget Reconciliation Act of 1987.

Effective date.—The conference agreement applies to home health services furnished on or after January 1, 1990.

14. Increase in Maximum Payment Allowed for Outpatient Mental Health Services (Section 205 of House bill)

Present law

A special limit is applicable with respect to expenses incurred in a calendar year in connection with the treatment of a mental, psychoneurotic or personality disorder of a beneficiary who is not an inpatient of a hospital at the time services are rendered. Medicare recognizes 62.5 percent of reasonable charges for such services. It pays 80 percent of the recognized amount up to a maximum of $250. The Omnibus Budget Reconciliation Act of 1987 increases the maximum payment amount to $450 in 1988 and $1,100 in 1989.

House bill

Increases the medicare outpatient mental health payment limit to $1,000.

A maximum of $250 in out-of-pocket expenses may be counted toward the catastrophic limit. The effective beneficiary coinsurance rate remains the same.

Effective date.—Applies to expenses incurred for services furnished on or after January 1, 1989.

Senate amendment

No provision.

Conference agreement

The conference agreement does not include the House provision. The conferees note that a provision was included in Section 4070 of the Omnibus Budget Reconciliation Act of 1987 which increased the maximum payment amount for mental health services beyond that provided in this legislation.

15. Adjustments in Medicare Part B Premium (Section 206 of House bill; Sections 5 and 27 of Senate amendment)

Present law

(a) Part B Premiums.—Under current law, premiums for Medicare Part B are charged to Part B enrollees on a monthly basis according to an amount established in advance for each calendar year. The monthly Part B premium for 1988 is $24.80.

During September of each year, the Secretary determines the monthly actuarial rate for the succeeding calendar year for Part B enrollees age 65 and over equal to one-half of the benefits and administrative costs for aged Part B enrollees, including a contingency margin.

The Secretary also determines during September of each year the monthly actuarial rate for disabled enrollees under age 65 for the succeeding calendar year equal to one-half of the benefits and administrative costs estimated to be payable from the Part B trust fund for services and related administrative costs for disabled enrollees under age 65, including a contingency margin.

The current method of determining the monthly premium (temporarily in effect for 1984-89) is to use a formula that sets the premium rate at 50 percent of the monthly actuarial rate for enrollees age 65 and over (i.e., 25 percent of the amount needed to cover program costs for aged beneficiaries). Disabled enrollees pay the same premium.

If there is no Social Security cost-of-living increase (COLA) in a year, the Part B premium is not increased that year. For 1986–89, a beneficiary who has his Part B premium deducted from his Social Security check and experiences a premium increase that is greater than the COLA adjustment, the premium increase is reduced to avoid a reduction in the individual's Social Security check.

Beginning January 1, 1990, the premium will be calculated according to prior law, which provided that the premium would be the lower of: (1) an amount sufficient to cover one-half of the costs of the program for the aged, or (2) the current premium amount increased by the Social Security COLA.

(b) Catastrophic Coverage Premium.—No provision.

(c) Premium for Prescription Drug Benefit.—No provision.

(d) Benefit Premium for In-Home Care Benefit.—No provision.

(e) Monthly Premiums for Residents of U.S. Commonwealths and Territories.—All Medicare beneficiaries voluntarily enrolled in Part B are subject to the same Part B premium payment rules and receive the same Medicare benefits, including those residing in the U.S. commonwealths and territories. An individual need not be entitled to Part A benefits to voluntarily enroll in Part B.

(f) Monthly Premiums for Individuals Enrolled Under Part B But Not Entitled to Benefits Under Part A.—All Medicare beneficiaries voluntarily enrolled in Part B are subject to the same Part B premium payment rules and receive the same Medicare benefits, including those not entitled to benefits under Part A.

(g) Transfers to Catastrophic Health Insurance Trust Fund.—No provision.

House bill

(a) In General.—Provides for increases to the monthly Part B premium to finance the catastrophic coverage benefit (through the transitional adjustment in 1991 and 1992), the prescription drug benefit (beginning in 1989), and the in-home care benefit (in 1989, 1990, and 1991.)

(b) Catastrophic Coverage Premium.—

(1) Premium Amount.—Provides for a transitional adjustment increase to the monthly Part B premium otherwise determined of $1.00 in 1991 and $1.30 in 1992.

(2) Indexing.—Provides that the transitional increase in 1991 will not be taken into account when determining Part B increases in subsequent years under section 1839(a)(3), but the transitional increase in 1992 will be taken into account when determining Part B increases in 1993 and each subsequent year.

(c) Premium for Prescription Drug Benefit.—Amends section 1839 (amount of the Part B premium) to provide for an additional monthly premium for the prescription drug benefit.

(1) Premium Amount.—Provides that the basic monthly drug premium increase for a year is, subject to certain limits, the monthly actuarial rate. The monthly actuarial rate for the prescription drug benefit for 1989 is $2.30.

Provides that for subsequent years, the Secretary will determine in September of each year, beginning with 1989, (a) the total benefits and administrative costs estimated to be paid from the Part B trust fund for each succeeding year for covered outpatient drugs and related administrative costs, and (b) a monthly actuarial rate for covered outpatient drugs applicable for the succeeding calendar year estimated so that the aggregate amount of the increase in drug premiums collected or received for such year will equal 75 percent of the total estimated cost of drug benefits and administrative costs.

Requires the Secretary to determine in September of each year, beginning in 1990, the aggregate amount of the increase in drug premiums collected or received during the previous year, the total benefits and administrative costs paid from the Part B trust fund during the previous year for covered outpatient drugs and related administrative costs, and whether the premiums were greater or less than 75 percent of the total paid from the Part B trust fund for drugs. Provides that if the Secretary determines that there was a surplus or deficit in the previous year, the monthly actuarial rate for covered outpatient drugs for the succeeding calendar year must be adjusted by the amount of the surplus or deficit.

If the drug premium increase is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents.

Requires the Secretary in September of each year beginning with 1989 to determine, for purposes of calculating the prescription drug factor used to adjust the supplemental premium yearly, the total monthly drug premium increases estimated to be collected or received in the succeeding year. The calculation is to be made as if the monthly actuarial rate (without regard to any adjustment for surplus or deficit in the previous year) were substituted for the basic monthly drug premium increase.

(2) Limit on Drug Benefit Premium Amount.—Provides a limit on the basic monthly drug premium amount as follows: not to exceed $3.40 in 1990, and in 1991 and subsequent years, not to exceed 120 percent of the basic monthly drug premium increase for months in the preceding year.

(3) Definitions.—No provision.

(4) Report on Projected Excess Premium Increases.—Requires the Secretary to report to Congress in May of each year beginning with 1990 concerning whether the Secretary anticipates that the monthly actuarial rate for the drug benefit for the succeeding year will exceed the limit on the basic monthly drug premium increase for that year. If so, the Secretary is required to include in the report recommendations for changes in policies under Part B sufficient to reduce Part B expenditures for covered outpatient drugs for the succeeding year so that the monthly actuarial rate (as reduced by such expenditure reductions) will not exceed the limit on the basic monthly drug premium amount for the year.

(d) Premium for In-Home Care Benefit.—

(1) Premium Amount.—Requires the Secretary, during September of 1988, 1989, and 1990, to determine (1) the total benefits and related administrative costs estimated to be paid from

the Part B trust fund in the succeeding calendar year for in-home care, and (2) a monthly actuarial rate for in-home care applicable in the succeeding calendar year. The monthly actuarial rate, subject to the adjustment described below, is an amount the Secretary estimates would be necessary so that the aggregate amount of the increase in premiums collected or paid for the year will equal 100 percent of the total benefits and administrative costs paid from the Part B trust fund.

Requires the Secretary in September of 1990, to determine the aggregate amount of the monthly premium increases collected or received for the in-home care benefit during the previous year, the total benefits and administrative costs which were paid in the previous year from the Part B trust fund for in-home care, and whether the amount of the premiums is greater or less than 100 percent of the total costs.

Provides that if the Secretary determines that there was a surplus or deficit in 1989, the Secretary must adjust the monthly actuarial rate otherwise determined for in-home care for 1991 to reduce or increase the aggregate amount of the monthly premium increase accordingly.

Provides that the monthly Part B premium of each individual enrolled in Part B for each month in a year after December 1988 and before January 1992 will be increased by the monthly actuarial rate for that year for the in-home care benefit, except that if the increase is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents.

(2) Limit on In-Home Care Benefit Premium Amount.—Provides that the increase in the monthly premium for the in-home benefit may not exceed in 1989, $0.30; in 1990, $0.50; and in 1991, 120 percent of the monthly premium increase in 1990. If the monthly actuarial rate for 1991 exceeds 120 percent of the monthly premium increase in 1990, the Secretary is required to decrease the maximum number of hours of in-home care in 1991 by such an amount that will assure that the aggregate amount of the monthly premium increase collected or paid for 1991 for all enrollees is equal to the total benefits and administrative costs estimated to be paid from the Part B trust fund in 1991 for in-home care.

Provides for certain conforming amendments.

(e) Monthly Premiums for Residents of U.S. Commonwealths and Territories.—

(1) Part B Premium.—Provides a separate Part B premium calculation for Medicare beneficiaries who are residents of a commonwealth or territory, defined as Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Northern Mariana Islands.

For such residents during a month in 1988 or 1989, their monthly Part B premium otherwise determined is increased by one-twelfth of the product of: the average per capita additional benefits and related administrative costs due to the amendments in this bill, excluding benefits under section 202 (prescription drugs and insulin) and section 203 (in-home care), as determined by the Secretary during September of the previous year, times the following ratio. The ratio (determined by the

Secretary for that commonwealth or territory during September 1987) is (1) the per capita actuarial value of Medicare benefits for residents of the commonwealth or territory who are entitled to both Part A and Part B benefits, divided by (2) the per capita actuarial value of the Medicare benefits for residents of the United States who are entitled to both Part A and Part B benefits.

Provides that for 1990, the monthly Part B premium for such residents would be the monthly Part B premium otherwise determined for months in 1989, plus the increase for 1989 described above, increased by the Social Security COLA percentage increase for 1990.

For succeeding years, the Part B premium is the previous year's monthly amount, increased by the Social Security COLA for that year.

Provides that if any premium amount is not a multiple of 10 cents, it is rounded to the nearest multiple of 10 cents.

(2) Drug Premium for Residents of Commonwealth or Territories.—Provides that for residents of a commonwealth or territory, the monthly Part B premium is increased by the product of 133⅓ percent of the basic monthly drug premium for that year, times the ratio determined by the Secretary for that commonwealth or territory. The ratio is the per capita actuarial value of Medicare benefits for residents of the commonwealth or territory entitled to Medicare Part A and Part B, divided by the per capita actuarial value of Medicare benefits for residents of the United States entitled to Medicare Part A and Part B.

(f) Monthly Premiums for Individuals Enrolled Under Part B But Not Entitled to Benefits Under Part A.—

(1) Part B Premium.—Provides a separate Part B premium calculation for Part B only individuals. Defines such persons as those who: (1) are not residents of a commonwealth or territory as defined in the bill; (2) are entitled to Part B benefits; and (3) are not entitled to, or on application without payment of an additional premium would not be entitled to, benefits under Part A.

Provides that in 1989, the monthly Part B premium is the monthly Part B premium otherwise determined under current law, increased by one-twelfth of the per capita additional benefits and related administrative costs that the Secretary estimates will be paid under Part B during 1989 because of the amendments made by this bill, excluding benefits under section 202 (prescription drugs and insulin) and section 203 (inhome care).

Provides that in 1990, the monthly Part B premium is the 1989 monthly premium otherwise determined under section 1839(a)(3), plus the increase for 1989 determined above, increased by the percentage increase in the Social Security COLA for 1990. For succeeding years, provides that the monthly Part B premium is the amount for months in the previous year increased by the percentage increase in the Social Security COLA for that year. If any amount is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents.

(2) *Drug Premium for Part B Only Individuals.*—Provides that for individuals enrolled under Part B but not entitled to benefits under Part A, the monthly Part B premium will be increased by 133⅓ percent of the basic monthly drug premium increase for that year.

(g) *Transfers to Catastrophic Health Insurance Trust Fund.*—No provision.

Effective date.—Provides that the transitional adjustment described in (b), above, applies to monthly premiums for months beginning with January 1991; (c) (related to premiums for the prescription drug benefit) applies to monthly premiums for months beginning with January 1989; (d) (related to premiums for in-home care) applies to monthly premiums for months beginning with January 1989 and ending with December 1991; (e) (related to premiums for residents of commonwealths and territories) applies to monthly premiums for months beginning with January 1988; and (f) (related to premiums for Part B only individuals, and for the conforming amendments) applies to monthly premiums for months beginning with January 1989.

Senate amendment

(a) *In General.*—Provides for increases to the monthly Part B premium to finance the catastrophic coverage benefit (beginning in 1988) and the prescription drug benefit (beginning in 1990).

Provides that the Part B premium would be calculated as under current law, except that the monthly actuarial rate for aged enrollees and for disabled enrollees would be referred to as the monthly actuarial basic rate for each group, respectively, and that such rate would exclude the costs of comprehensive catastrophic coverage benefits (defined as those payable by Medicare as a result of the enactment of sections 2(a), 3(a), 7(b), 7A, and 11 of this bill) and related administrative costs.

Suspends hold harmless provision for 1988 and reimposes hold harmless for 1989 and thereafter.

(b) *Catastrophic Coverage Premium.*—

(1) *Premium Amount.*—Provides that the monthly catastrophic coverage premium amount for 1988 for individuals covered by Part A and Part B of Medicare is $4.

(2) *Indexing.*—Provides that the monthly coverage premium amount for succeeding calendar years is the previous year's amount, increased by the following percentage. The percentage equals:

(a) the percentage (if any) necessary to increase the estimated total revenues collectible from the monthly catastrophic coverage premiums and the supplemental premiums (determined without regard to the drug premium rate adjustment amount) for the succeeding year by the amount by which the estimated total catastrophic coverage benefits and related administrative costs (including administrative costs for outpatient drug coverage) for such succeeding year exceed such revenues, plus

(b) a percentage related to establishing and maintaining a contingency or a reserve fund.

Provides that the percentage increase for a contingency or a reserve fund for a calendar year before 1993 is the percentage the Secretary determines to be necessary to ensure that before 1993 there is established a contingency fund equal to 20 percent or (if greater) a reserve fund equal to 5 percent. For calendar years after 1992, the percentage is the percentage necessary to maintain either of such funds at such percentages.

Defines "contingency fund" for any calendar year as the percentage determined by dividing (1) the amount of unexpended catastrophic coverage premiums and supplemental premiums (without regard to the drug premium rate adjustment amount) as determined at the end of such year, by (2) the actuarial comprehensive catastrophic benefit amount for the succeeding calendar year.

Defines "reserve fund" for any calendar year as the percentage determined by dividing (1) the amount of unexpended and unobligated catastrophic coverage premiums and supplemental premiums (without regard to the drug premium rate adjustment amount) as determined at the end of such year, by (2) the actuarial comprehensive catastrophic benefit amount for the succeeding calendar year.

Provides that if any monthly premium amount is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents.

Defines "catastrophic coverage benefits" as the benefits payable by Medicare because of the enactment of the catastrophic coverage provisions in section 2(a), 3(a), 4 and 7(b) of this bill.

Defines "actuarial comprehensive catastrophic benefit amount" for any calendar year as the amount that the Secretary estimates will equal the total of the catastrophic coverage benefits (and related administrative costs) that will be payable from the Federal Catastrophic Health Insurance Trust Fund in that calendar year for Part B enrollees.

Provides that for calendar years after 1988, for enrollees who were entitled to Social Security benefits for November and December of the preceding year and who have the Part B premium deducted from their Social Security checks for December and January, their monthly Part B premium cannot be increased due to the catastrophic benefits if such increase would reduce their Social Security Benefits payable for that January below the benefits payable for that December (after the deduction of the Part B premium).

(c) Premium for Prescription Drug Benefit.—Amends Section 1839 (amount of the Part B premium) to provide that the Part B premium be increased by the monthly catastrophic drug benefit premium amount for the prescription drug benefit:

(1) Premium Amount.—Provides that the monthly catastrophic drug benefit premium amount for any calendar year after 1989 for individuals who are covered by Part B will be an amount equal to 50 percent (40 percent for calendar year 1990 and 45 percent for calendar year 1991, as provided in section 27 of the bill) of the per enrollee actuarial catastrophic drug benefit amount for such year, plus (a) in calendar year 1990, an amount necessary to cover 7.5 percent of the per enrollee

actuarial catastrophic drug benefit amount for 1991 (for a contingency fund), and (b) for calendar years after 1990, an amount (when added to any unexpended amount in the contingency fund for the previous year) necessary to cover 7.5 percent of the per enrollee actuarial catastrophic drug benefit amount for such calendar year.

Provides in section 27 of the bill that for calendar years after 1990, if the Secretary determines that (a) it is appropriate to increase the contingency fund to assure a smooth transition from cash outlays accounting to costs incurred accounting over a multiyear period, and (b) the monthly catastrophic drug benefit premium amount for that year is less than the drug premium limit, the Secretary is authorized to increase the drug premium by no greater than 15 percent, not to exceed the drug premium limits in the bill. Once the transition has been completed, requires the Secretary to maintain the drug benefit contingency fund on the basis of such cost incurred accounting method.

Provides that if the monthly drug benefit premium amount is not a multiple of 10 cents, if will be rounded to the nearest multiple of 10 cents.

(2) Limit on Drug Benefit Premium Amount.—Provides that in calendar years after 1991, the monthly catastrophic drug benefit premium amount cannot exceed $0.90 for 1990 (as provided in section 27 of the bill), $2.00 for 1991, $3.50 for 1992, $4.05 for 1993 (as provided in section 27 of the bill), and for any succeeding year, the amount for the preceding year increased by the percentage by which the Part B beneficiary drug expenditure amount for the 12-month period ending in August in that preceding year exceeds the Part B beneficiary drug expenditure amount for the 12-month period ending in August in the second preceding year.

(3) Definitions.—Defines "catastrophic drug coverage benefits" to mean benefits payable under Part B of Medicare because of the enactment of section 7A (coverage of home intravenous drug therapy) and section 11 (coverage of catastrophic expenses for prescription drugs) of this bill.

Defines "per enrollee actuarial catastrophic drug benefit amount" to mean, with respect to a year, an amount equal to the actuarial catastrophic drug benefit amount for the year divided by the total number of individuals that the Secretary estimates will be enrolled under Part B for the year.

Defines "actuarial catastrophic drug benefit amount" to mean, with respect to a calendar year, the amount that the Secretary estimates will equal the total of the catastrophic drug coverage benefits (and related administrative costs) that will be paid in cash outlays from the Federal Catastrophic Drug Insurance Trust Fund in such calendar year for Part B enrollees.

Defines "Part B beneficiary drug expenditure amount" to mean, with respect to a 12-month period, the average per capita amount expended for a period on outpatient prescription drugs by Part B enrollees (other than such enrolless enrolled in a health maintenance organization, a competitive medical plan, or a health care prepayment plan).

(4) Report on Projected Excess Premium Increases.—No provision. (See section 11 of the Senate amendment relating to Secretarial authority to institute cost control measures to assure that the drug premiums do not exceed the premium limits.)

(d) Premium for In-Home Care Benefit.—No provision.

(e) Monthly Premiums for Residents of U.S. Commonwealths and Territories.—No provision.

(f) Monthly Premiums for Individuals Enrolled Under Part B But Not Entitled to Benefits Under Part A.—

(1) Part B Premium.—Provides that the monthly castastrophic coverage premium amount (which is added to the monthly Part B premium otherwise determined) for individuals who are covered by Part B but not by Part A is an amount that bears the same ratio to the monthly catastrophic coverage premium amount for individuals covered by both Part A and Part B of Medicare, as the actuarial Part B catastrophic benefit amount for that year bears to the actuarial comprehensive catastrophic benefit amount for that year.

Defines the actuarial Part B catastrophic benefit amount for a calendar year as the amount the Secretary estimates will equal the catastrophic coverage benefits and related administrative costs payable from the Federal Catastrophic Health Insurance Trust Fund for that year with respect to such enrollees (excluding any amounts attributable to changes under Sections 2(a), 3(a), and 7(b) of this bill in services performed and related administrative costs incurred in that year for individuals covered under Part A).

Provides that if the monthly premium amount is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents.

(2) Drug Premium for Part B Only Individuals.—No provision. (The drug premium for Part B only individuals is calculated in the same manner as for Medicare beneficiaries covered by both Part A and Part B).

(g) Transfers to Catastrophic Health Insurance Trust Fund.—Provides that there will be transferred from time to time from the Part B trust fund to the Federal Catastrophic Health Insurance Trust Fund amounts from Part B premiums that are attributable to the catastrophic coverage changes in services performed and related administrative costs incurred in a calendar year (under sections 2(a), 3(a), and 7(b) of this bill).

Provides that there will be transferred from time to time from the Part B trust fund to the Federal Catastrophic Drug Insurance Trust Fund amounts from the catastrophic drug benefit premiums.

Effective date.—Applies to premiums for months beginning after December 31, 1987.

Conference agreement

(a) *In General.*—The conference agreement provides for increases to the monthly Part B premium otherwise determined to finance the catastrophic coverage benefit and the prescription drug benefit. For 1993, revenues from the additional flat Part B premium are estimated to provide approximately 37 percent of the financing for the catastrophic coverage and prescription drug benefits, with the supplemental premium (see section 7, above) providing an estimated 63 percent of revenues. After 1993, the conferees intend that the proportion contributed by the flat premium will be 37 percent; however, the proportion could vary as a result of limits on the allowable change in the supplemental premium.

The conference agreement requires the Secretary of Health and Human Services and the Secretary of the Treasury jointly to (1) publish in the Federal Register, by not later than July 1 of each year beginning with 1993, a notice of the proposed preliminary catastrophic coverage and prescription drug monthly premiums for the following year; (2) report to Congress by no later than September 1 of each year the final premiums for the following year; and (3) publish in the Federal Register during the last three days in September of each year the final premiums for the following year.

The flat premium is adjusted to account for any changes in the supplemental premium resulting from limits specified in this Act (see section 7 for a description of these limits). The adjustment to the flat rate premium is calculated in three steps. First, the current year actual supplemental premium rate is subtracted from what the supplemental premium rate would have been if it had not been adjusted by the limits. This difference is known as either the excess or the shortfall rate. Then, the total supplemental premiums imposed in the second preceding year are compared to the total supplemental premiums as adjusted by the excess or shortfall rate. Finally, this difference is adjusted by the percentage by which the per capita catastrophic coverage premium liability (see section 7) for the second preceding year exceeds or is less than such liability for the fourth preceding year. The resulting amount is then used to establish the new per person monthly flat premium.

The conference agreement provides that the sum of the additional monthly premiums for catastrophic coverage and prescription drug coverage for months after 1993 cannot be less than the sum of these additional premiums for months in the preceding year. If this combined monthly premium is affected by the application of this provision, the premium increase is allocated between the catastrophic coverage premiums and the prescription drug premiums in the same proportion as if this provision had not applied.

If any flat premium increase for a month is not a multiple of 10 cents, it will be rounded to the nearest multiple of 10 cents. If so rounded, premiums will be allocated between the catastrophic coverage monthly premium and the prescription drug monthly premium on the basis of their respective amounts determined without regard to any rounding.

The conference agreement includes the Senate amendment regarding the "hold harmless" provision with a modification that the provision applies to both social security benefits and Railroad Retirement benefits and that such benefits may not decrease due to an increase in the Part B premium in any year.

(b) *Catastrophic Coverage Premium.*—(1) Premium Amount.—The conference agreement provides that the monthly catastrophic coverage premium will be as follows for months occurring in 1989 through 1993:

1989	$4.00
1990	4.90
1991	5.46
1992	6.75
1993	7.18

(2) *Indexing.*—The conference agreement provides that for months in a year after 1993, the catastrophic coverage monthly premium will be the preceding year's premium (without regard to any increase in the premium because it was less than the previous years' premium or because of any adjustment due to limits on the supplemental premium), adjusted by a percentage representing the sum of: (i) the outlay premium percentage, and (ii) the reserve account percentage.

The outlay-premium percentage is the percent by which the per capita catastrophic outlays in the second preceding year exceed (or are less than) such outlays in the third preceding year. An adjustment is provided for changes in the Consumer Price Index (CPI) as follows:

If the CPI's inflation rate increased from the third to the second preceding year, the outlay-premium percentage is adjusted by adding 50 percent of the excess (if any) of (i) the excess of the CPI inflation rate in the second over the third preceding year, over (ii) one percentage point. If the CPI inflation rate decreased from the third to the second preceding year, the outlay-premium percentage is adjusted by subtracting 50 percent of the excess (if any) of (i) the excess of the CPI inflation rate in the third over the second preceding year, over (ii) one percentage point. For this purpose, the CPI inflation rate for any year is defined as the percentage by which the CPI for May of such year exceeds such index for May of the preceding year.

The reserve account percentage for any calendar year is the percentage change in the catastrophic coverage monthly premium for the second preceding year which the Secretary determines would have increased (or decreased) the flat premiums for such year by an amount equal to 37 percent of the shortfall (or surplus) in the Medicare Catastrophic Coverage Account (the "Account") in such year. The shortfall (or surplus) in the Account for any calendar year is determined as the amount by which 20 percent of the catastrophic outlays from the Account in the second preceding year exceed (or are less than) the Account balance at the end of such year (taking into account falt and supplemental premium increases attributable to reserve percentages in prior years that have not yet been credited to the Account).

(c) *Premium for Prescription Drug Benefit.*—The conference agreement provides that the monthly prescription drug premium will be as follows for months occurring in 1991 through 1993:

1991	$1.94
1992	2.45
1993	3.02

For months in a year after 1993, the prescription drug premium will be the preceding year's premium, (without regard to any increase because the premium was less than the previous year's premium or because of any adjustment due to the limits on the supplemental premium), adjusted by a percentage determined in a manner similar to that for the monthly catastrophic coverage premium, with the following changes: (1) in determining the outlay percentage, prescription drug outlays rather than catastrophic coverage outlays are used; (2) in determining the reserve percentage, the Federal Catastrophic Drug Insurance Trust Fund balance (see section 16, below) is used rather than the Account balance; (3) the reserve percentage is 75 percent for 1994, 50 percent for 1995, and 25 percent for 1996 and 1997, instead of 20 percent; and (4) the outlay percentage is deemed to be zero for calendar years before 1998.

(d) *Premium for In-Home Care Benefit.*—The conference agreement does not include the House provision. Revenues to fund the in-home (respite care) benefit are included in the monthly and supplemental catastrophic coverage premiums.

(e) *Monthly Premiums for Residents of U.S. Commonwealths and Territories.*—The conference agreement includes the House provision, with the following amendments. For individuals who are residents of Puerto Rico or of another U.S. commonwealth or territory (including the U.S. Virgin Islands, Guam, American Samoa, or the Northern Mariana Islands), the monthly Part B premium otherwise determined would be increased by a catastrophic coverage monthly premium and a prescription drug monthly premium.

For months in 1989, the catastrophic coverage monthly premium is $1.30 for a resident of Puerto Rico and $2.10 for a resident of another U.S. commonwealth or territory. For months in 1990, the catastrophic coverage monthly premium is $3.56 for a resident of Puerto Rico and $5.78 for a resident of another U.S. commonwealth or territory.

For months in a subsequent year, the catastrophic coverage monthly premium is the resident's preceding year's premium increased by the Secretary's estimate (in September of that preceding year) of the percentage increase in the per capita catastrophic outlays from the Catastrophic Account for the year over such outlays for the preceding year.

For months in 1990, the prescription drug monthly premium is $0.14 for a resident of Puerto Rico and $0.22 for a resident of another U.S. commonwealth or territory. For months in 1991, the prescription drug monthly premium is $1,21 for a resident of Puerto Rico and $1.93 for a resident of another U.S. commonwealth or territory.

For months in a subsequent year, the prescription drug monthly premium is the resident's preceding year's premium increased by the Secretary's estimate (in September of that preceding year) of the percentage increase in the per capita prescription drug outlays from the Federal Catastrophic Drug Insurance Trust Fund for the year over such outlays for the preceding year.

The Secretary is required to report to Congress, in 1993, on the appropriateness of the level of the Part M premium increases for residents of Puerto Rico and of other U.S. commonwealths and territories.

(f) *Monthly Premiums for Individuals Enrolled Under Part B But Not Entitled to Benefits Under Part A.*—The conference agreement includes the House provision, with amendments. The agreement provides that for individuals who are entitled to Part B of Medicare but are not entitled to Part A, or would not be entitled to Part A but for payment of the Part A premiums, and who are not residents of a commonwealth or territory, the monthly Part B premiums will be determined as follows. The monthly Part B premium otherwise determined will be increased by a catastrophic coverage monthly premium and a prescription drug monthly premium.

For months in 1990, the catastrophic coverage monthly premium is $8.57, and for months in a subsequent year the premium is one-twelfth of the average actuarial expenses that the Secretary estimates (during the previous September) will be incurred for benefits and administration costs attributable to Part B for which outlays may be made from the Medicare Catastrophic Coverage Account during the year.

The prescription drug monthly premium is $0.53 for months in 1990, $4.61 for months in 1991, and for months in a subsequent year the premium is one-twelfth of the average actuarial expenses that the Secretary estimates (during the previous September) will be incurred for benefits and administration costs attributable to Part B for which outlays may be made from the Federal Catastrophic Drug Insurance Trust Fund during the year.

(g) *Transfers to Catastrophic Health Insurance Trust Fund.*—The conference agreement does not include the Senate amendment. The catastrophic coverage monthly premium is credited to the Medicare Catastrophic Coverage Account and transferred to the SMI Trust Fund.

(h) *Conforming Amendments.*—The conference agreement provides for certain conforming amendments, including (1) those to disregard the receipts and outlays attributable to changes made by this Act when determining (i) the monthly actuarial rate used to establish the Part B premium for aged and disabled beneficiaries, and (ii) the appropriate contingency margin for the PART B trust fund; (2) a provision to disregard the flat and supplemental catastrophic coverage and prescription drug premiums when computing appropriations to the Part B trust fund from the Treasury; and (3) those authorizing payments from the Federal Catastrophic Drug Insurance Trust Fund to organizations with risk-sharing contracts and establishing a method for allocating payment to such organizations from the Part A, Part B, and the Federal Catastrophic Drug Insurance Trust Funds.

Effective Date.—The conference agreement applies (except as otherwise specified in such amendments) to monthly premiums for months beginning with January 1989.

16. Establishment of Federal Catastrophic Drug Insurance Trust Fund (Section 6A or Senate Amendment)

Present law

A separate trust fund exists in the Treasury of the United States for each part of the Medicare program: the Federal Hospital Insurance Trust Fund (Part A) and the Federal Supplementary Medical Insurance Trust Fund (Part B).

The Part A trust fund includes annual deposits of the hospital insurance taxes collected from employers, employees, and the self-employed, and the monthly Part A premiums from individuals not otherwise eligible for Part A. The Part B trust fund includes deposits of the monthly Part B premiums paid by or on behalf of Part B enrollees, and contributions by the Federal Government from general revenues.

Section 1841 of the Social Security Act applies to the Federal Supplementary Medical Insurance Trust Fund as follows: Section 1841(b) creates and specifies the duties of a board of trustees for the trust fund; section 1841(c) provides for the investment of certain trust fund funds; section 1841(d) authorizes the selling of certain obligations acquired by the trust fund; section 1841(e) provides for the crediting of interest on or proceeds from the sale or redemption of any obligations held by the trust fund; section 1841(f) provides for periodic transfers to the trust fund from the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Insurance Trust Fund, and the Railroad Retirement Account; section 1841(g) provides for payments from the trust fund for Part B benefit payments and related administrative costs; section 1841(h) provides for payment from the trust fund for costs incurred by the Office of Personnel Management in deducting Part B premiums from Federal annuities; and section 1841(i) provides for payment from the trust fund for certain costs incurred by the Railroad Retirement Board.

House bill

No provisions.

Senate amendment

Creates on the books of the Treasury of the United States a trust fund known as the Federal Catastrophic Drug Insurance Trust Fund.

Provides that such trust fund consists of (1) any gifts and bequests made to the trust fund or to the Department of Health and Human Services for the benefit of the trust fund or any activity financed by the trust fund, and (2) the following amounts transferred to such trust fund: (a) drug benefit premiums transferred from the Part B trust fund, and (b) the drug premium rate adjustment component of the Medicare supplemental premium transferred from the general fund of the Treasury.

Provides that subsections (b) through (i) of section 1841 of the Social Security Act apply to such trust fund in the same manner as they apply to the Part B trust fund.

Requires that all Medicare payments for the home intravenous drug therapy benefit and the prescription drug benefit be made from this trust fund.

Effective date.—Applies to items and services furnished after, and premiums for months beginning after, December 31, 1987.

Conference agreement

The Conference agreement generally follows the Senate amendment. All payments for benefits and administrative costs relating to covered outpatient drugs are to be made from the CDI Trust Fund. The CDI Trust Fund has no borrowing authority.

Receipts attributable to the supplemental prescription drug premium rate are appropriated to the CDI trust fund. The Secretary of the Treasury is to transfer these appropriated amounts from the general fund to the CDI trust fund not less frequently than monthly, and at the close of the calendar year, determined on the basis of estimates; adjustments are made in subsequent transfers to take account of estimating errors. For individuals paying the maximum supplemental premium, receipts are allocated between the supplemental prescription drug and catastrophic coverage premiums pro rata on the basis of the respective premium rates.

The Secretary of HHS shall transfer premiums attributable to the prescription drug monthly premium directly to the CDI trust fund rather than through the SMI Trust Fund.

The Secretaries of HHS and Treasury jointly shall: (1) not later than July 1 of 1993 and each year thereafter, announce the preliminary monthly and supplemental prescription drug premiums for the following year; (2) not later than July 1 of 1992 and each year thereafter, publish in the Federal Register the outlays from, and the year-end balance in the CDI trust fund for the preceding year; (3) during the last 3 days of September of 1993 and each year thereafter, publish in the Federal Register the monthly prescription drug premiums for the following year; and (4) not later than October of 1993 and end each year thereafter, announce the supplemental prescription drug premium rate for the following year. The Comptroller General shall report to Congress, not later than September 1 of 1992 and each year thereafter, on the completeness and accuracy of the July 1 Federal Register publication, and after 1992, on the July 1 premium announcement.

With respect to the CDI trust fund, "outlays" and "receipts" are defined as gross outlays and receipts within the meaning of the "Monthly Treasury Statement of Receipts and Outlays of the United States Government," as published by the Treasury Department.

Effective date.—The CDI trust fund provisions are effective after December 31, 1988.

17. Establishment of Federal Catastrophic Health Insurance Trust Fund (Section 6B of Senate Amendment)

Present law

A separate trust fund exists in the Treasury of the United States for each part of the Medicare program: the Federal Hospital Insurance Trust Fund (Part A) and the Federal Supplementary Medical Insurance Trust Fund (Part B).

The Part A trust fund includes annual deposits of the hospital insurance taxes collected from employers, employees, and the self-employed, and the monthly Part A premiums from individuals not otherwise eligible for Part A. The Part B trust fund includes deposits of the monthly Part B premiums paid by or on behalf of Part B enrollees, and contributions by the Federal Government from general revenues.

Section 1841 of the Social Security Act applies to the Federal Supplementary Medical Insurance Trust Fund as follows: Section 1841(b) creates and specifies the duties of a Board of Trustees for the trust fund; section 1841(c) provides for the investment of certain trust fund funds; section 1841(d) authorizes the selling of certain obligations acquired by the trust fund; section 1841(e) provides for the crediting of interest on or proceeds from the sale or redemption of any obligations held by the trust fund; section 1841(f) provides for periodic transfers to the trust fund from the Federal Old-Age and Survivors Insurance trust fund, the Federal Disability Insurance trust fund, and the Railroad Retirement Account; section 1841(g) provides for payments from the trust fund for Part B benefit payments and related administrative costs; section 1841(h) provides for payment from the trust fund for costs incurred by the Office of Personnel Management in deducting Part B premiums from Federal annuities; and section 1841(i) provides for payment from the trust fund for certain costs incurred by the Railroad Retirement Board.

House bill

No provision.

Senate amendment

Creates the books of the Treasury of the United States as a trust fund known as the Federal Catastrophic Health Insurance Trust Fund.

Provides that such trust fund consists of (1) any gifts and bequests made to the trust fund or to the Department of Health and Human Services for the benefit of the trust fund or any activity financed by the trust fund, and (2) the following amounts transferred to such trust fund: (a) amounts from the Part B premiums attributable to the catastrophic benefit changes (excluding the drug benefit) in this bill, transferred from the Part B trust fund, and (b) the aggregate monthly supplemental premiums (excluding the drug premium rate adjustment) plus the amount the Secretary of the Treasury estimates Federal outlays are reduced under Medicaid because of the catastrophic provisions of this bill (after taking into account the provisions of section 14 of the bill related to Medicaid savings and State requirements), transferred from the general fund of the Treasury.

Provides that subsections (b) through (i) of section 1841 of the Social Security Act apply to such trust fund in the same manner as they apply to the Part B trust fund.

Requires that all Medicare payments for the catastrophic benefits in sections 2(a), 3(a), 4, and 7(b) of this bill be made from this trust fund.

Effective date.—Applies to items and services furnished after, and premiums for months beginning after, December 31, 1987.

Conference agreement

(a) *Medicare Catastrophic Coverage Account.*—The conference agreement does not include the Senate amendment. A separate Medicare Catastrophic Coverage Account (the "Account") is established on the books of the Treasury of the United States, to be maintained by the Secretary of the Treasury.

No funds are transferred into or out of the account. The principal purpose of the Account is to index the monthly and supplemental catastrophic coverage premium rates and to assure that over time revenue from these premiums are at least as large as the outlays from the Parts A and B trust funds attributable to the Medicare Catastrophic Coverage Act of 1988. (See discussion of premium indexing under section 7 above.)

Under rules prescribed by the Secretary of HHS, the Account is to be debited for catastrophic outlays. Catastrophic outlays are defined as outlays from the HI and SMI trust funds estimated to be attributable to the Catastrophic Coverage Act of 1988; HI and SMI outlays are to be separately debited from the Account. The Account is to be credited for monthly catastrophic coverage premiums received in the SMI trust fund and supplemental catastrophic coverage premiums received in the SMI trust fund and the Reserve Fund. Such credits and debits shall be made as of the last date of each month based upon receipts and outlays occurring during such month, as estimated by the Secretaries of HHS and Treasury. Interest (at the rate used for purposes of the SMI trust fund) is credited on any positive average Account balance in a calendar quarter and debited on any negative average Account balance in a calendar quarter. Thus, if the Account balance is negative, the Account is debited for principal and interest deemed to be owed to the SMI trust fund.

The Secretaries of HHS and Treasury jointly shall: (1) not later than July 1 of 1993 and each year thereafter, announce the preliminary monthly and supplemental catastrophic coverage premiums for the following year; (2) not later than July 1 of 1990 and each year thereafter, publish in the Federal Register the outlays debited from, and the year-end balance in the Account for the preceding year; (3) during the last 3 days of October of 1993 and each year thereafter, publish in the Federal Register the monthly and catastrophic coverage premiums for the following year; and (4) not later than October 1 of 1993 and each subsequent year, announce the supplemental catastrophic coverage premium rate for the following year. The Comptroller General shall report to Congress, not later than September 1 of 1990 and each year thereafter, on the completeness and accuracy of the July 1 Federal Register publication and, after 1992, and July 1 premium announcement.

Catastrophic health insurance benefits, other than prescription drug and home intravenous therapy benefits, are paid out of the existing medicare Parts A and B trust funds.

Receipts attributable to the supplemental catastrophic coverage premium rate, which are not otherwise appropriated to the Federal Hospital Insurance Catastrophic Coverage Reserve Fund (the "Reserve Fund"), are appropriated to the SMI trust fund. The Secretary of the Treasury is to transfer these appropriated amounts from the general fund to the SMI trust fund not less frequently than monthly, and at the close of the calendar year, determined on the basis of estimates; adjustments are made in subsequent transfers to take account of estimating errors. For individuals paying the maximum supplemental premium, receipts are allocated between the supplemental prescription drug and catastrophic coverage premiums pro rata on the basis of the respective premium rates.

The Secretary of HHS shall transfer receipts from the monthly catastrophic coverage premium to the SMI trust fund in the same manner as the existing Part B monthly premium.

These supplemental and monthly catastrophic coverage premiums are intended to increase Federal government receipts by the cost of catastrophic coverage benefits (plus a contingency margin).

No additional revenues are transferred to the Part A trust fund.

Effective date.—The Account is effective after December 31, 1988.

(b) *Federal Hospital Insurance Catastrophic Coverage Reserve Fund.*—To prevent an adverse effect on the HI trust fund balance, a new trust fund, to be known as the "Federal Hospital Insurance Catastrophic Coverage Reserve Fund," (the "Reserve Fund") is established on the books of the Treasury of the United States. The Conferees anticipate that Congress may at some future time transfer funds from the Reserve Fund to the HI trust fund to bolster the solvency of the trust fund. No expenditures from the Reserve Fund are permitted.

The rules for managing the Reserve Fund generally are similar to the rules that apply to the SMI trust fund.

Beginning in 1989, supplemental catastrophic coverage premiums are appropriated to the Reserve Fund, but not exceeding the amount of outlays from the HI trust fund that are debited against the Account. The Secretary of the Treasury is to transfer these appropriated amounts from the general fund to the Reserve Fund not less frequently than monthly, and at the close of the calendar year, determined on the basis of estimates; adjustments are made in subsequent transfers to take account of estimating errors. For individuals paying the maximum supplemental premium, receipts are allocated between the supplemental prescription drug and catastrophic coverage premiums pro rata on the basis of the respective premium rates.

The Secretary shall in July 1990 transfer an amount of supplemental catastrophic coverage premiums to the Reserve Fund equal to interest deemed to accrue (at the rate used for purposes of the SMI trust fund) from the time HI outlays are debited from the Account in 1989, until the time an equal amount of supplemenal catastrophic coverage premiums are transferred to the Reserve Fund.

Receipts attributable to the supplemental catastrophic coverage premium are first transferred to the Reserve Fund and then, to the extent available, transferred to the SMI trust fund, as described in section 17, above. (Such premium receipts are credited to the Account, whether transferred to the Reserve Fund or the SMI trust fund.)

With respect to the Reserve Fund, "outlays" and "receipts" are defined as gross outlays and receipts within the meaning of the "Monthly Treasury Statement of Receipts and Outlays of the United States Government," as published by the Treasury Department.

Effective date.—The Federal Health Insurance Reserve Fund provisions are effective after December 31, 1988.

84-648 - 88 - 8

18. Trustee Comments on Actuarial Soundness of Basic and Supplemental Catastrophic Benefit Premiums (Section 18 of Senate amendment)

Present law

The Social Security Act currently requires that the Trustees of the Hospital Insurance (HI) and Supplementary Medical Insurance (SI) trust funds report to the Congress not later than April 1 of each year on the operation and status of the trust funds during the preceding fiscal year and on their expected operation and status during the current fiscal year and the next 2 fiscal years.

House bill

No provision.

Senate amendment

Amends section 1817(b) relating to the HI trust fund and 1841(b) relating to the SMI trust fund by inserting a requirement that the Trustees comment in their annual reports with respect to the extent to which the monthly catastrophic coverage premium and the supplemental premium cover the cost of the catastrophic benefits (as defined in section 1839(g)(2)(C)(i) added by this Act) and related administrative expenses payable from the trust funds.

Effective date.—Effective for trustees' annual reports beginning with those issued for fiscal year 1988.

Conference agreement

Under the Conference agreement, the Trustees annual reports on the HI and SMI trust funds are to identify those receipts and outlays in each trust fund which are deemed to be receipts and outlays in the Medicare Catastrophic Coverage Account (see section 17, above). In addition, the HI report is to include information pertaining to the Federal Hospital Insurance Catastrophic Coverage Reserve Fund.

The trustees of the CDI trust fund and the Account are to report to the Congress, not later than April 1 of each year, on the operation and status of the CDI trust fund and Account during the preceding fiscal year and on their expected operation and status during the current fiscal year and the next two fiscal years.

Effective date.—Effective for Trustees' annual reports beginning with those issued for fiscal year 1989.

19. Treatment of Prepaid Health Plans (Section 207 of House bill; Section 10 of Senate amendment).

Present law

Section 1876 of the Social Security Act, as amended by the Tax Equity and Fiscal Responsibility Act of 1982, provides for Medicare payments to Health Maintenance Organizations (HMOs) and Competitive Medical Plans (CMPs) on either a risk or a cost contracting basis. In general, risk contracting plans are financially responsible for the cost of all benefits their enrollees would otherwise be eligible for under Medicare. Reimbursement of HMOs and CMPs is determined based on estimates of the average adjusted per capita cost (AAPCC) and the adjusted community rate (ACR).

House bill

(a) Adjustment of AAPCC's and Contracts for Risk-Based Eligible Organizations.—Requires the Secretary to: (1) take into account amendments made by this act in estimating the AAPCC under section 1876(a) for eligible organizations with risk sharing contracts under section 1876(a) for portions of contract years occurring after December 31, 1987; (2) modify such contracts, for such portions of contract years, to reflect any adjustments made to the AAPCCs (as required above); and (3) require such organizations to make appropriate adjustments (including adjustments in premiums and benefits) in terms of their agreements with Medicare beneficiaries to take into account the changes in law required by this act.

(b) Provisions Applicable to Organizations Receiving Reasonable Cost Reimbursement.—Specifics that the following new provisions of this act apply to organizations reimbursed on the basis of reasonable costs: Section 201(a)(1) relating to payment for catastrophic benefits; section 202(b)(1)(C) relating to payment for covered out-patient drugs; section 203(c)(3) relating to payment for in-home care.

Requires the Secretary to provide for an appropriate adjustment in Medicare payment amounts to cost-based HMOs for added benefits.

Requires such organizations to assure the Secretary that they will not charge individuals eligible for:

Medicare catastrophic coverage for covered services after the individual has incurred out-of-pocket expenses equal to the catastrophic limit; or

More than 20 percent of reasonable cost of covered drugs plus amounts payable due to deductibile; or

More than 20 percent of reasonable costs of respite services plus an amount payable due to the deductible.

Effective date.—Enactment.

Senate amendment

(a) Adjustment of AAPCC's and Contracts for Risk-Based Eligible Organizations.—Similar provision except requires the Secretay to: (1) modify any AAPCC under section 1876(a) for an eligible organization with a risk-sharing contract to take into account the amendments made by section 2(a) of this bill relating to benefits for hospital inpatient services, section 3(a) relating to deductibles and coinsurance for individuals under parts A and B, section 4 relating to limitations on out-of-pocket expenses, section 7(b) relating to payment for in-home care, section 7A relating to home intravenous drug therapy, and section 11 relating to prescription drugs; (2) modify each such contract for portions of contract years occurring after December 31, 1987 to reflect the modifications made (as required above); and (3) require such organizations to make appropriate adjustments in terms of its agreements with Medicare beneficiaries to take into account such amendments.

(b) Provisions Applicable to Organizations Receiving Reasonable Cost Reimbursement.—No provision. See section 4 of the Senate amendment (Item 9e) relating to limitations on cost sharing.

Effective date.—Enactment.

Conference agreement

(a) *Adjustment of AAPCCs and Contracts for Risk-Based eligible Organizations.*—The conference agreement requires the Secretary to modify contracts under sections 1833 and 1976 for portions of contract years occurring after December 31, 1988. Prepaid plans are required to adjust their benefit packages to take the new benefits into account. The AAPCC will be adjusted to take the new beenfits into account under current authority. For provisions describing the treatment of copayments and deductibles when a beneficiary is enrolled in a pre-paid plan reimbursed on a risk basis, see item 9(e).

In assessing the value of benefits under prepaid plans paid on a risk basis the Secretary is required to make a separate actuarial determination for drug benefits and for all other covered benefits.

(b) *Provisions Applicable to Organizations Receiving Reasonable Cost Reimbursement.*—The conference agreement does not include the House provision. For provisions applicable to organizations reimbursed on a reasonable cost basis, see items 9(e), 10(f), and 12(c).

Effective date.—The conference agreement is effective on enactment.

20. Mailing of Notice of Medicare Benefits and Participating Physician Directories (Section 208 of the House bill; Section 9 of Senate amendment)

Present law

Under existing law, there is no requirement for an annual notice to Medicare beneficiaries about the scope of benefits available to them under the Medicare program. Information on Medicare coverage is generally available through the Social Security Administration district offices. As part of the participating physician program created by Public Law 98-369, the Deficit Reduction Act (DEFRA), HHS prepares directories of participating physicians, by area and specialty. These directories are made available in local Social Security offices, through hospitals, and through aging and consumer groups. Also, enrollees are informed by a notice in their Social Security check envelopes that they can obtain a copy free from their Medicare carrier. As of October 1, 1986, all "Explanation of Medicare Benefits" notices sent to beneficiaries on unassigned claims have to include a reminder of the participating physician and supplier program.

House bill

(a) Distribution of Notice of Medicare Benefits.—Amends the Medicare statute by adding new section 1804. Section 1804(a) requires the Secretary to distribute annually a notice containing: (1) a clear, simple explanation of the benefits available under Medicare and health care services for which benefits are not available under Medicare; and (2) a description of the limited benefits for

long-term care services available under this title and generally available under State plans approved under Medicaid. Requires the notice to be mailed annually to individuals entitled to Medicare Part A or Part B benefits.

(b) Authorization of Funds.—Amends the Medicare statute by adding a new provision (1804(b)) which authorizes, to be appropriated in equal portions from the HI and SMI trust funds, such sums as may be required to provide for the annual publication and distribution of the notice described in (a).

(c) Distribution of Participating Physician Directories.—Amends section 1842(h)(6) of the Medicare law relating to participating physician directories to require that an area directory of participating physicians be sent to each individual enrolled under Part B and residing in that area.

(d) Timing.—Requires the Secretary to provide notice annually.

(e) Consultation Required.—No provision.

Effective date.—First applies to annual rates and directories for 1988. The annual notice would be sent by January 31, 1988, or 3 months after the date of enactment of this legislation.

Senate amendment

(a) Distribution of Notice of Medicare Benefits.—Requires the Secretary to notify each individual who is entitled to benefits under Medicare of: (1) the benefits that are available under the insurance programs established under Medicare (and the major categories of health care that are not covered under those programs); (2) the limitations on payment (including deductibles and coinsurance amounts) that are imposed under such programs; and (3) the ways in which such limitations differ for individuals who are covered under the program established under Part B and individuals who are not covered under Part B.

(b) Authorization of Funds.—No provision.

(c) Distribution of Participating Physician Directories.—No provision.

(d) Timing.—Requires the Secretary to provide the notice described in (a) when an individual applies for benefits under Part A or enrolls under Part B, and annually thereafter.

(e) Consultation Required.—Requires the notices to be prepared in consultation with groups representing the elderly and with health insurers.

Effective date.—The requirement for notices for new beneficiaries is effective January 1, 1988. The notice to all beneficiaries applies to annual notices beginning for 1988.

Conference agreement

(a) *Distribution of Notice of Medicare Benefits.*—The conference agreement includes the House provision with modifications. The notice must include, in addition, information on Medicare's limitations on payment (including deductible and coinsurance amounts).

(b) *Authorization of Funds.*—The conference agreement does not include the House provision. General authority already exists in Section 201(g)(1)(A) of the Social Security Act to use Part A and Part B Trust Fund amounts for administrative expenses of the Medicare program.

(c) *Notice Concerning Participating Physicians.*—The conference agreement does not include the House provision requiring distribution of participating physicians directories, but instead modifies current law requirements for notice to beneficiaries regarding the participation program.

The agreement revised the reminder of the participation program currently required on the explanation of medical benefit (EOMB) notices for unassigned claims. The revised reminder would include: (i) a clear statement of the extra amounts (if any) charged by the physician above the Medicare approved charge; (ii) a brief statement of the advantages of receiving services from a participating physician; and (iii) the carrier's toll-free number with an offer of assistance in obtaining names of participating physicians of appropriate specialty and an offer of a free copy of the appropriate participating physician directory.

The conferees expect that the Secretary will consult closely with groups representing beneficiaries and physicians in developing the notice to assure that it can be easily understood by the elderly and conveys an accurate understanding of program policies.

The conferees expect that the revised reminder would be printed in a prominent type face (where possible) near the beginning of the explanation of medical benefits.

The conference agreement also modifies current requirements for an annual notice to beneficiaries concerning the participating physician program. The revised notice (which would be in the form of a brochure) would be mailed to each beneficiary each year and would contain: (i) a description of the participation program; and explanation of the advantages of obtaining services from a participating physician or supplier; (ii) an explanation of the assistance offered by carriers in obtaining the names of participating physicians and suppliers; and (iii) the local carrier's toll free number for inquiries concerning the program and for requests for free copies of appropriate directories.

The conferees note that the provisions are based on options developed by the Physician Payment Review Commission in its March 1988 report to Congress and are similar to measures used by private insurers to publicize and facilitate the use of their participating physician networks.

(d) *Timing.*—The conference agreement includes the House provision regarding distribution of the annual notice required under subparagraph (a) with an amendment that such notices must also be mailed annually when an individual applies for benefits under Part A or enrolls under Part B.

(e) *Consultation Required.*—The conference agreement specifies that the Secretary must first distribute the notice required under subparagraph (a) to beneficiaries not later than January 31, 1989. The revised EOMB notice applies to services furnished on or after January 1, 1989. The revised annual notice regarding the participation program would apply to annual notices beginning with 1989.

21. Benefits Counseling and Assistance for Certain Medicare and Medicaid Beneficiaries (Section 9A of Senate amendment)

Present law

No provision.

House bill

No provision.

Senate amendment

(a) Training and Technical Assistance.—Authorizes the Secretary to enter into agreements with private or public nonprofit agencies or organizations for the purpose of training volunteers. These volunteers are to provide counseling to elderly individuals, ages 60 and above, receiving benefits under Medicare or Medicaid with respect to eligibility for such benefits and are to provide assistance in preparing documentation that may be required to receive such benefits. In addition to other specified forms of technical assistance, the Secretary may provide material to be used in making elderly persons aware of the availability of assistance under volunteer assistance programs. The Secretary may also provide technical publications and materials to be used by the volunteers.

(b) Powers of the Secretary.—Authorizes the Secretary: (1) to provide assistance to organizations which demonstrate that their volunteers are adequately trained and competent to render effective benefits counseling and assistance to the elderly; (2) to provide for and assist in the training of such volunteers; (3) to provide reimbursement to volunteers for transportation, meals, and other expenses incurred by them during training or in providing counseling and assistance, and to provide such other support as the Secretary deems appropriate; (4) to provide for the use of services, personnel and facilities of the Federal executive agencies and of State and local public agencies with their consent, with or without reimbursement; and (5) to prescribe such rules and regulations as the Secretary deems necessary.

(c) Employment of Volunteers.—Provides that service as a volunteer under this section shall not be considered Federal employment. Volunteers are not subject to provisions of law relating to Federal employment, except that the volunteers are subject to the prohibition against the unauthorized disclosure of confidential information as if they were Federal employees. Reimbursement for expenses received by the volunteers are exempt from taxation.

(d) Authorization of Appropriations.—Authorizes to be appropriated $2.5 million for fiscal years after 1987.

Effective date.—Enactment.

Conference agreement

(a) *Training and Technical Assistance.*—The conference agreement includes the Senate amendment, with an amendment requiring the Secretary to establish a 3-year demonstration project with a private or public nonprofit agency or organization for the purpose of training volunteers.

(b) *Powers of the Secretary.*—The conference agreement includes the Senate amendment, with a modification that deletes the authority of the Secretary to prescribe rules and regulations deemed necessary to carry out the provisions of this section.

(c) *Employment of Volunteers.*—The conference agreement includes the Senate amendment.

(d) *Authorization of Appropiations.*—The conference agreement includes the Senate amendment, with an amendment authorizing appropriations, in appropriate parts from the HI and the SMI trust funds for fiscal years 1989, 1990, and 1991, such sums as may be necessary to conduct the demonstration project.

Effective date.—The conference agreement is effective for calendar years 1989, 1990 and 1991.

22. Case Management Demonstration Projects (Section 16 of Senate amendment)

Present law

"Case management" is a system under which a designated person or organization has responsibility for overseeing health care services for individuals assigned to the person or organization. Where case management is used, an insurer usually will not pay (or will pay less) for those services that are provided without permission of the case manager. Under current law, there are no requirements for Medicare beneficiaries to receive case management services, and case management is not a covered service under Medicare. Utilization and quality control peer review organizations (PROs) are responsible for reviewing the necessity and quality of services for Medicare beneficiaries.

House bill

No provision.

Senate amendment

(a) Description of Projects.—Requires HHS to establish not less than six demonstration projects under which a PRO agrees to provide case management services to Medicare beneficiaries with selected catastrophic illnesses.

(b) Purpose of Projects.—Specifies that the purpose of the demonstrations is to provide the Secretary and Congress with the information necessary (1) to evaluate the appropriateness of providing case management services under Medicare for individuals with catastrophic illnesses, and (2) to determine the most effective approach to implementing a case management system under the program for such individuals.

(c) Agreement.—Requires the agreement with the PRO to specify (1) the catastrophic illnesses for which case management services will be provided, (2) the payments to be made to the PRO for carrying out the project, and (3) such other terms and conditions as the Secretary and the PRO may agree to.

(d) Waivers.—Requires the Secretary to waive any provisions of Part B of title XI (relating to general provisions and Peer Review) and title XVIII of the Social Security Act (relating to Medicare) that the Secretary determines would prevent the establishment of a demonstration project under this provision.

(e) Duration.—Provides that the demonstration projects shall be conducted for a 1-year period. The Secretary may terminate the project before the end of the year if he determines that the State conducting the project is not in substantial compliance with the terms of the agreement with the PRO.

(f) Information and Reports.—(A) Requires a PRO with an agreement under section (a) to provide the Secretary with such information as the Secretary determines to be needed to evaluate the results of the project conducted by the PRO. (B) Requires the Secretary to submit an interim report based on information derived from the first 6 months of project operations, containing the findings, recommendations and conclusions of the evaluation of the project as described above.

(g) Authorization to Use Certain Funds.—Requires the Secretary to transfer from the HI and SMI trust funds amounts not to exceed $2 million to carry out the demonstration projects. Provides that amounts are to be transferred without regard to amounts appropriated in advance in appropriation acts. Requires payments from the trust funds to be made in such amounts as the Secretary determines to be fair and equitable.

Effective date.—Requires the Secretary to have the demonstrations in place 12 months after enactment. The interim reports are due 6 months from the date on which the demonstrations are initiated.

Conference agreement

(a) *Description of Projects.*—The conference agreement includes the Senate amendment, with an amendment requiring the Secretary to establish 4 demonstration projects under which an appropriate entity agrees to provide case management services to Medicare beneficiaries with selected catastrophic illnesses, particularly those with high costs of health care services. A further amendment requires that at least one of the demonstration projects be conducted by a peer review organization (PRO).

(b) *Purpose of Projects.*—The conference agreement includes the Senate amendment, with an amendment that the demonstration projects are to evaluate the appropriateness of, and determine the most effective approach of, providing case management services for Medicare beneficiaries with high costs of medical care.

(c) *Agreement.*—The conference agreement includes the Senate amendment, with an amendment that the demonstration project agreements must specify the high cost cases to which case management services will be provided.

(d) *Waivers.*—The conference agreeement includes the Senate amendment, with an amendment requiring the Secretary to waive (in addition to provisions of Part B of Title XI of the Social Security Act) any of Medicare's limitations or restrictions on benefits necessary to conduct the demonstration projects.

(e) *Duration.*—The conference agreement includes the Senate amendment, with an amendment that the data collection phase of the demonstration projects will be conducted for a 2-year period, with an additional period of time to write the report and submit it to Congress.

(f) *Information and Reports.*—The conference agreement includes the Senate amendment, with an amendment that the interim report will be based on information derived from the first year of project operations, and the final report will be based on data derived from the projects.

(g) *Authorization to Use Certain Funds.*—The conference agreement includes the Senate amendment, with an amendment requiring the Secretary to transfer, from the HI and the SMI trust funds in proportions the Secretary determines are appropriate, an amount not to exceed $2,000,000 in each of 2 years for administrative costs to carry out the demonstration projects.

Effective date.—The conference agreement requires the Secretary of HHS to establish the demonstration projects within 12 months after the date of enactment.

23. Changes in Certification of Medicare Supplemental Health Insurance Policies (Section 209 of House bill; Section 13 of Senate amendment)

Present law

(a) Establishment of New Medigap Standards.—Under section 1882 of the Social Security Act, insurers who market private insurance policies to fill the gaps in Medicare's coverage may have the policies certified as Medicare supplemental health insurance policies by the Secretary if the policies meet minimum standards. These standards were developed and approved by the National Association of Insurance Commissioners (NAIC) on June 6, 1979, and are incorporated by reference in section 1882 of the Social Security Act. Policies that are certified by the Secretary may be marketed as Medicare supplemental policies. However, if a State has adopted laws and/or regulations at least as stringent as those of the NAIC, policies regulated by the State are deemed to meet Federal requirements.

(b) Required Mailing of Notice.—Section 1882 (e) requires the Secretary to provide to individual Medicare beneficiaries information that will permit them to assess the value of the Medicare supplement policies to them and the relationship of any such policies to benefits under the Medicare program.

(c) Required Submission of Advertising.—There is currently no Federal requirement that insurance companies submit their Medigap advertisements for review to the State Commissioners of Insurance.

(d) Transition for Current Policies.—There is no present law relating to transition periods for current Medigap policies.

(e) Free Look Period.—Under the existing NAIC standards, Medigap policies are required to provide a "free look" period of 10 days for policies sold by mail, during which a policyholder may return the policy and get a full refund of any premium paid.

(f) Reporting of Information Relating to Loss Ratios.—Section 1882(b)(1) provides for loss ratio targets for Medicare supplemental policies that set a goal for the percentage of insurance premiums that must be returned to policyholders in the form of benefits. Medigap policies must be expected to pay benefits at least equal to 60

percent of the earned premiums for individual policies and 75 percent for group policies.

House Bill

(a) Establishment of New Medigap Standards.—

(1) Requires the Secretary to report to Congress not later than 150 days after the date of enactment of this act, on changes that should be made in the requirements of section 1882(c) of the Social Security Act for certification of Medicare supplemental policies to take into account the changes made by this act, and by any other pertinent acts enacted by the first session of the 100th Congress, and by any recommendations developed by the NAIC;

(2) Expresses the sense of Congress that: (A) Congress will promptly act on such recommendations and provide for appropriate changes in the requirements of 1882(c), and (B) States will be expected to adjust their laws in a timely manner to comply with changes in such requirements.

(b) Required Mailing of Notice.—Adds a new provision to section 1882 requiring that in order to meet the requirements for certification as a Medicare supplementary insurance policy, a policy offered in a State and in effect on January 1, 1988 must send a letter by January 31, 1988 to its policyholders who are entitled to Medicare, explaining: (a) the improved benefits resulting from this and other legislation enacted by the first session of the 100th Congress and (b) how these improvements affect the benefits contained in these policies and the premiums for these policies. Applies to Medicare supplemental policies as of February 1, 1988.

(c) Required Submission of Advertising.—Amends section 1882(b) to require that entities issuing Medigap policies submit their advertisements (whether through written, radio or television medium) used (or, at the option of the State, to be used) for the policy in the State, to the State Commissioner of Insurance for his or her review in accordance with State law.

(d) Transition for Current Policies.—

(1) Suspends (with the exception of Medigap policies sold in States described in (2) below) from January 1, 1988 through December 31, 1988, current Federal penalties under section 1882 for selling policies to Medicare beneficiaries which (a) were sold before the date of the enactment of this act, and (b) would not substantially duplicate health benefits to which they are otherwise entitled under Medicare but for the changes made by this act.

(2) Gives additional time to certain States (to be identified by the Secretary) in which penalties will be suspended. These are States which require legislation (other than legislation appropriating funds) in order for Medicare supplemental policies to be changed to avoid a penalty under section 1882, but the legislature of the State is not scheduled to meet in the 1988 legislative session in which such legislation may be considered. The exception in these States extends to the first day of the first calendar quarter beginning after the close of the first legislative session of the State legislature that begins on or after Jan-

uary 1, 1989, for which legislation described above may be considered.

(e) Free Look Period.—No provision.

(f) Reporting of Information Relating to Loss Ratios.—No provision.

Effective dates.—Enactment, except that (b) regarding notices to beneficiaries applies to Medicare supplemental policies as of February 1, 1988, and (c) applies to such policies with respect to advertising used on or after January 1, 1988.

Senate amendment

(a) Establishment of New Medigap Standards.—Amends section 1882 by making conforming changes and adding a new provision relating to NAIC amendments of its model regulation of Medicare supplemental (Medigap) policies to reflect the changes in law made by this Act:

(1) Provides that if the NAIC revises the existing model standards for Medigap policies within 90 days after enactment, then those standards will apply as the standard for certification, beginning 1 year later.

(2) Specifies that if the NAIC does not amend the standards within 90 days, the Secretary is required to issue Federal model standards for Medigap policies reflecting the changes in law made by this act, within 90 days, to become effective 1 year later.

(3) Specifies that no Medigap policy may be certified by the Secretary, no certification shall remain in effect and no State regulatory program will be found in compliance with Section 1882, unless such policy meets (or such program provides for the application of standards equal to or more stringent than) the standards set forth in the amended NAIC Model Regulation or the Federal model standards (as the case may be).

(b) Required Mailing of Notice.—Amends Section 1882(e) to require the Secretary to: (a) inform Medicare beneficiaries (and, to the extent feasible, individuals about to become entitled to Medicare) about current laws that prohibit certain marketing and sales abuses and the manner in which they may report any such action or practice to an appropriate official of HHS and (b) establish a toll-free telephone number for individuals to report suspected violations of the laws relating to Medigap standards. Also requires the Secretary to provide Medicare beneficiaries with a listing of the addresses and telephone numbers of State and Federal agencies and offices where information and assistance relating to Medicare supplemental policies may be obtained.

(c) Required Submission of Advertising.—No provision.

(d) Transition for Current Policies.—No provision.

(e) Free Look Period.—Section 1882(b)(1) is amended to require a uniform 30-day free look period for all Medicare supplemental policies, without regard to the manner in which the purchase of the policy was solicited.

(f) Reporting of Information Relating to Loss Ratios.—Amends section 1882(b)(1) to provide that information with respect to the actual ratio of benefits provided to premiums collected under Medigap policies will be reported to the State on forms conforming to

those developed by the NAIC for such purpose, or such ratios will be monitored under the program in an alternative manner approved by the Secretary.

Effective dates.—(a) is effective as provided in the amendment; (b) enactment; changes made by (e) and (f) are effective on the date on which the amended NAIC Model Standards (or Federal Model Standards) become effective under section 1882.

Conference agreement

(a) *Establishment of New Medigap Standards.*—The conference agreement includes the Senate amendment with amendments. The agreement provides for a procedure whereby the current National Association of Insurance Commissioner's (NAIC) model regulation would be amended or replaced as a standard for certification of Medicare Supplemental Insurance Policies. If the NAIC amends the model regulations within 90 days of enactment of this bill, in accordance with requirements in this section then the amended standards would apply as a standard for certification.

The NAIC has made available to the conferees both a model transition regulation, adopted in September 1987 in anticipation of the passage of this bill, and a draft of a new model minimum standards regulation. The conferees believe the transition regulation deals appropriately with the matter of adapting existing, certified policies to the amendments in Medicare made under this Act. The conferees also believe the draft model minimum standards regulation includes many appropriate provisions. The conferees intend and understand that the revised standards will continue to incorporate such provisions, including rules governing matters covered in the existing and draft model standards, such as minimum benefit standards, loss ratios, disclosure requirements and replacement requirements.

The conferees note that the NAIC model transition regulation contains an explicit prohibition on the inclusion of provisions in Medicare supplemental policies which duplicate the benefits covered under Medicare. The conferees believe such an explicit prohibition clarifies the meaning of the current requirements of Section 1882 that supplemental policies may not duplicate Medicare coverage. This amendment requires that the model standards include provisions otherwise necessary to reflect changes in law made by this Act. In enacting this provision, the conferees intend and understand that NAIC will include a similar provision precluding insurers from selling or maintaining Medicare supplemental policies which provide benefits covered by this Act in its final version of the model minimum standards regulation.

The conferees note in particular that Section 5B of the NAIC Transition Regulations provides for (1) a notice to the beneficiary, (2) the filing by the insurer of riders to the policy to eliminate duplication, and (3) the making of an appropriate refund or appropriate premium adjustment for duplicative coverage. The conferees intend and understand that such provisions will be included in the final model regulations. The conferees intend and understand that such appropriate refund or premium adjustments are to be made retroactive to the effective date of the new Medicare benefits enacted in this bill.

The conferees are particularly concerned about beneficiaries not paying for benefits under Medicare supplemental insurance policies that duplicate benefits covered under this Act. The conferees intend not merely to prevent such duplicative coverage from occurring, but also that beneficiaries receive appropriate premium adjustments where this has occurred.

If NAIC does not amend the regulations within 90 days, then the Secretary is directed to promulgate Federal model standards for certification of Medicare supplemental policies to reflect the changes in law made by this Act. Such Federal standards would then be the standards for certification. The conferees intend that such standards would incorporate all matters provided for in the bill and discussed above in this report with respect to the NAIC model standards.

The NAIC model standards (or the Federal model standards, as the case may be) would apply in a State effective on the earlier of (1) the date the State adopts standards equal to or more stringent than the amended NAIC standards (or the Federal standards), or (2) one year after the NAIC (or the Secretary, in the case of Federal standards) first adopts the standards.

The conference agreement also provides that the Secretary, rather than the President, will appoint the four State Commissioners or superintendents of insurance who, together with the Secretary, form the Supplemental Health Insurance Panel.

The conferees note that under this legislation, Medicare coverage of outpatient prescription drugs will begin in January 1991. The conferees do not intend for the enactment of this drug benefit to be construed as requiring current Medicare supplemental policies, which do not otherwise provide coverage for drugs to begin doing so upon enactment. Under the conference agreement, the NAIC (or the Secretary, as the case may be) will determine whether coverage of the drug deductible should be required for certification as a Medicare-certified policy.

(b) *Required Mailing of Notice.*—The conference agreement includes both the House provision and the Senate amendment, with modifications. In States which have enacted the NAIC Transition Regulations, beneficiaries will receive notices from insurers pursuant to the requirements of those regulations. In States which have enacted the final model standards, but not the transition regulations, insurers must send notices to beneficiaries in accordance with the requirements of this provision in order to remain certified. In States which have enacted neither the final model nor the transition regulations, insureers must follow the requirements described in (d) below. The House provision is modified to change each 1988 date to 1989. The Senate amendment is modified to require the Secretary (1) to inform Medicare beneficiaries of how they may report any marketing or sales abuses to HHS or to an appropriate State official, and (2) to publish the toll-free HHS telephone number for individuals to report suspected violations.

(c) *Required Submission of Advertising.*—The conference agreement includes the House provision, with a modification clarifying that the submission of advertisements to the State Commissioner of Insurance (or comparable officer identified by the Secretary) should be in accordance with review or approval as required under State law.

(d) *Transition for Current Policies.*—The conference agreement includes the House provision with amendments. The agreement does not include the provision which waives Federal penalties for knowingly selling policies with duplicative coverage. The agreement provides for the opportunity to sell or maintain certified Medicare supplemental health insurance policies during the period after enactment of the bill in those States which have not adopted standards by January 1, 1989 to reflect the changes in law made by this Act. The agreement provides that for policies sold prior to enactment (but in effect after enactment), a policy is deemed non-duplicative and may be deemed certified in the insurer selling the policy complies with the NAIC Model Transition Regulation by January 1, 1989, as discussed below. For policies sold after the date of enactment, such compliance would be required before the date of sale of the policy.

The conferees specifically intend that as a matter of Federal law, effective January 1, 1989 (for existing policies) or prior to sale (for policies later sold), Medicare supplemental insurance policies no longer include benefits that are provided for under this Act. Further, the conferees intend, that as a matter of Federal law, effective January 1, 1989, insurers whose policies would contain duplicate coverage but for such provision, notify the insured of such change in coverage, of any resulting premium refunds or adjustments, and when such refunds or adjustments will be made. The notice shall include the matters contained in Section 5(B)(1)(a), (b), and (c) of the NAIC model transition regulations and shall be mailed on the later of January 1, 1989 or the date the policy is sold. For this purpose, the insurer would not have to comply with the requirement of Section 5(B) that the notices be in a form approved by the State Insurance Commissioner.

Further, the conferees intend that insurers are required to take all necessary steps to effectuate such refunds or premium adjustments in the most expeditious possible manner, including immediately filing any appropriate riders to insurance policies. The conferees specifically intend and understand that all such appropriate refunds or premium adjustments will be made retroactive to January 1, 1989 or the date on which the policy is sold, whichever is earlier.

The conferees understand that insurers offering policies which are guaranteed renewable will conform their policies to prevent duplication of coverage in accordance with the provisions in this Act.

The conference agreement also requires the Secretary to report to Congress in March 1989 and in July 1990 on actions States have taken in adopting standards equal to or more stringent than the NAIC Model Transition Regulation or the amended NAIC model regulation (or Federal model standards).

(e) *Free Look Period.*—The conference agreement includes the Senate amendment.

(f) *Reporting of Information Relating to Loss Ratios.*—The conference agreement includes the Senate amendment.

(g) Prohibiting Misuse of Social Security or Medicare References.—The Conference agreement prohibits the use of the word "Social Security", "Social Security Account", "Social Security

System", "Social Security Administration", "Medicare", "Health Care Financing Administration", or any acronym, combination, or variation of such words, and any symbols or emblems of such agencies, in a manner which a person or an organization knew or should have known would convey the false impression that any advertisement or other item is authorized by the Social Security Administration, the Health Care Financing Administration or the Department of Health and Human Services.

The conference agreement authorizes the Secretary to impose civil money penalties of not more than $5,000, or $25,000 in the case of a broadcast or telecast, for violations of this prohibition. The total amount of penalties imposed for multiple violations consisting of substantially identical communications or productions could not exceed $100,000 a year. Those who are assessed penalties would be permitted to request a hearing before an Administrative Law Judge and to appeal thereafter to the U.S. District Court of Appeals. In assessing fines and pursuing violators, the Secretary would be required to coordinate his actions with the Justice Department.

The conferees intent that, to the extent feasible, the Secretary would use informal methods to deal with potential violations prior to initiating action under this provision. Such methods might include a letter which identifies a violation or which points out that the addition of a conspicuously-placed disclaimer of affiliation with the Social Security Administration could avoid the need for action under this provision.

The conferees also intend that the authorities established by this provision should supplement, not substitute for, existing authority of the U.S. Postal Service to take action against misleading and fraudulent references to the Social Security Administration in materials which re mailed.

(h) *Civil Money Penalties for Medigap Violations.*—The conference agreement authorizes civil montary penalties, in every case where only criminal penalties currently apply, for deceptive selling practices relating to Medicare supplemental health insurance (medigap) policies. Violations would be subject to a civil monetary penalty of up to $5,000 per violation.

Effective date.—The conference agreement provides that (a) applies as provided in the section and the Secretary is required to provide for the reappointment of members of the Supplemental Health Insurance Panel by not later than 90 days after the date of enactment. The provisions of (b) requiring the Secretary to provide consumer information apply on enactment; and the provision of (b) requiring health insurers to send informational letters to their policy holders apply to Medicare supplemental policies as of January 31, 1989. (c) applies to Medicare supplemental insurance policies as of Janaury 1, 1989, with respect to advertising used on or after such date. (d) applies as provided in the section. (e) and (f) apply on the date the amended NAIC Model Standards (or Federal model standards) become effective under Section 1882 of the Social Security Act. (g) and (h) are effective on enactment and apply only with respect to violations occurring after enactment.

24. Research on Long-Term Care Services for Medicare Beneficiaries (Section 211 of House bill; Section 15 of Senate amendment)

Present law

(a)-(b) Long-Term Care Services.—Medicare does not cover services required for individuals whose chronic conditions require long-term nursing home or home and community-based services. There is no current requirement that the Secretary provide for research relating to long-term care services nor is there any specific authorization for appropriations for such research.

(c) Institute of Medicine Study.—There is no current requirement that the IOM conduct a study on the financing of long-term care.

(d) Treasury Department Study of Tax Incentives for Long-Term Care.—There is no current requirement that the Secretary of Treasury conduct a study on the financing of long-term care. The President has asked the Department of Treasury to review tax policy as it affects the provision of catastrophic and long-term care health insurance.

House bill

(a) Health and Human Services Study.—Requires the Secretary to provide for research relating to the delivery and financing of long-term care services for Medicare beneficiaries. It shall include at least the following: (1) the financial characteristics of Medicare beneficiaries who receive or need long-term care services, including whether beneficiaries are eligible for Medicaid benefits for such services; (2) how financial and other characteristics of Medicare beneficiaries affect their utilization of institutional and noninstitutional services; (3) how relatives and Medicare beneficiaries are affected financially and in other ways because the beneficiaries require or receive long-term care services; (4) the quality of long-term care services (in community-based and custodial settings) and how the provision of such services may reduce expenditures for acute health care services; (5) the effectiveness of, and need for, State and Federal consumer protections which assure adequate access to and protect the rights of beneficiaries provided long-term care (other than in a nursing facility).

Defines long-term care services to include nursing home care, home care, community-based services, and custodial care.

(b) Authorization of Appropriations.—Authorizes to be appropriated, in equal parts from the HI and SMI trust funds, $5 million for each of fiscal years 1988, 1989, 1990, 1991, and 1992, to carry out the research described in (a).

(c) Institute of Medicine Study.—No provision.

(d) Treasury Department Study of Tax Incentives for Long-Term Care.—No provision.

Effective date.—Enactment.

Senate amendment

(a) Health and Human Services Study.—No provision.

(b) Authorization of Appropriations.—No provision.

(c) Institute of Medicine Study.—

(1) Requires the Secretary to request the National Academy of Sciences, through the Institute of Medicine (IOM), to contract for an IOM study to (a) explore options for private funding of a portion of long-term care (including methods by which changes in Federal laws, including tax laws, could facilitate such funding) and determine whether such options would be effective as compared to public financing alternatives and would be beneficial to the broad spectrum of populations (including children and adults who have attained and have not attained retirement age) requiring protection; (b) analyze the effect that provision of types of private funding of long-term care would have on public funding of such care; (c) review options for public sector coverage, both means-tested and universal, with respect to their effects on current and future Federal spending for health care; (d) review the effectiveness, quality of life provided, effect on family caregivers, and cost-implications of community-based long-term care, including types of limits necessary to assist beneficiaries and providers in preventing overutilization; (e) analyze, for each approach to provision of care, relative payments derived from users, non-utilizing elderly and employed persons (including both pre-funding and pay-as-you-go); and (f) review sources of financing and coverage of long-term care services in other developed nations and the implications of these findings on the development of similar policies in the United States.

(2) Requires the IOM study to take into account (a) the effect that impending demographic changes (near and long-term) will have on various approaches to service utilization and funding: (b) the impact of the various approaches to funding, both public and private, on access to long-term care services by individuals of all age groups (including children and adults who have attained and not attained retirement age), individuals of different socioeconomic and minority groups, and women; and (c) the effect that membership in these different groups has on the need, the ability to pay, and access to quality long-term care.

(3) Requires the Secretary to enter into appropriate arrangements with the Academy under which the Secretary will be responsible for expenses incurred for the study. Requires the Secretary to transfer from the HI and SMI trust funds amounts necessary to fund the study.

(4) Requires IOM to submit, by October 1, 1989 to the Secretary, the Senate Finance Committee and the House Energy and Commerce and Ways and Means Committees, a report that describes the study, includes a statement of the data obtained, and specifies administrative actions and changes in law that IOM considers to be appropriate to implement the study findings.

(d) Treasury Department Study of Tax Incentives for Long-Term Care.—Requires the Secretary of Treasury to conduct a study of Federal tax policies to promote the financing of long-term care. The study shall identify alternative methods of creating tax incentives to encourage individuals to purchase insurance for long-term care. Requires the study to consider also the cost to the U.S. Treas-

ury and the potential benefits to consumers, including whether the incentives would benefit all or most of the population requiring protection. Requires Secretary to consult with representatives of the insurance industry, providers of long-term care, and consumers. Requires the Secretary to report the results of the study and make recommendations to the Congress prior to April 1, 1988 of any changes in Federal law that the Secretary determines to be appropriate to promote financing of long-term care. Defines long-term care to include care and services provided by nursing homes, home health agencies and other mechanisms for long-term care delivery.

Effective date.—Enactment.

Conference agreement

(a) *Health and Human Services Study.*—The conference agreement includes the House provision with amendments. To the extent possible, the Secretary is to rely on research that has already been conducted or is underway by the Health Care Financing Administration or the National Center for Health Services Research and Health Care Technology (in their National Medical Expenditures Survey). The Secretary is required to submit interim reports by December 1990 and December 1992, and a final report by June 1994 to the House Committees on Energy and Commerce and Ways and Means, and the Senate Finance Committee describing the findings of the long-term care research required by this provision.

(b) *Authorization of Appropriations.*—The conference agreement includes the House provision.

(c) *Institute of Medicine Study.*—The conference agreement does not include the Senate amendment. The conferees note that the Secretary may contract with the Institute of Medicine to conduct the research required by Section 211(a) of the House provision.

(d) *Treasury Department Study of Tax Incentives for Long-Term Care.*—The conference agreement includes the Senate amendment, with an amendment that reporting date be changed to November 31, 1988.

Effective date.—The conference agreement is effective on enactment.

25. Study of Adult Day Care Services (Section 212 of House bill; Section 24 of Senate amendment)

Present law

Medicare does not provide coverage for adult day care services.

House bill

(a) Survey of Current Adult Day Care Services.—Requires the Secretary to survey adult day care services to collect information on (1) the scope of such services and the extent of their availability; (2) the characteristics of entities providing such services; (3) licensure, certification and other quality standards that are applied to those providing such services; (4) the cost and financing of such services; and (5) the characteristics of the people who use such services.

Defines adult day care services as medical or special services provided in an organized nonresidential setting to chronically impaired persons who are not inpatients in a medical institution.

(b) Report.—Requires the Secretary to report to Congress, within one year after enactment, on the information collected in the survey. Requires the report to include recommendations concerning appropriate standards for adult day care services under Medicare, including definitions of chronically dependent individuals and services in adult day care, establishing qualifications of providers of adult day care services, and establishing a reimbursement mechanism.

Effective date.—Enactment.

Senate amendment

(a) Survey of Current Adult Day Care Services.—Identical provision.

(b) Report.—Identical provision.

Effective date.—Enactment.

Conference agreement

(a) *Survey of Current Adult Day Care Services.*—Identical provision.

(b) *Report.*—Identical provision.

Effective date.—The conference agreement is effective on enactment.

26. U.S. Bipartisan Commission on Comprehensive Health Care (Sections 401-408 of House bill; Section 30 of Senate amendment)

Present law

No provision.

House bill

(a) Establishment/Duties.—Establishes a commission to be known as the U.S. Bipartisan Commission on Comprehensive Health Care. Requires that the Commission: (1) examine short-comings in the current health care delivery and financing mechanisms that limit or prevent access of all individuals to comprehensive health care; and (2) make specific recommendations to Congress on Federal programs, policies, and financing needed to assure the availability of comprehensive long-term care services for the elderly and disabled, comprehensive health care services for the elderly and disabled, and comprehensive health care services for all individuals in the United States. Requires the Commission to consider as it makes its recommendations: (1) the amount and sources (consistent with principles of social insurance) of Federal funds to finance the needed services, including reallocations of existing Federal program funds; and (2) the most efficient and effective manner of administering these programs.

Defines "comprehensive health care services" as including: (1) inpatient hospital services (including mental health services); (2) skilled nursing facility services, intermediate care facility services, home health services, and other long-term care services; (3) physician services and other outpatient health care services (including mental health services); (4) periodic general physical examinations; eye, hearing, dental, and foot examinations; and other preventive health care services; and (5) prescription drugs, eye-glasses, hearing aids, orthopedic equipment, and dentures (both complete and partial).

Defines "comprehensive long-term care services" as including custodial and noncustodial services in facilities, as well as home and community-based services.

(b) Membership.—Requires that the Commission be composed of 15 members appointed as follows: (1) the President will appoint 3 members; (2) the President Pro Tempore of the Senate will appoint, after consultation with the minority leader of the Senate, 6 Members of the Senate, of whom not more than 4 may be of the same political party; and (3) the Speaker of the House will appoint, after consultation with the minority leader of the House, 6 Members of the House, of whom not more than 4 may be of the same political party. The Commission will elect a chairman and vice chairman from among its members. Any vacancy in the membership of the Commission will be filled in the manner in which the original appointment was made and will not affect the power of the remaining members to execute the duties of the Commission.

(c) Meetings.—Specifies that the Commission will meet at the call of its chairman or a majority of its members; a quorum will consist of 8 members, except that 4 members may conduct a hearing. Members of the Commission may not receive compensation but may be reimbursed for travel, subsistence, and other necessary expenses incurred in carrying out the duties of the Commission.

(d) Staff.—Provides that the Commission may appoint and determine the compensation of staff, and may procure the temporary and intermittent services of consultants necessary to carry out the duties of the Commission.

(e) Powers.—Provides that the Commission may hold hearings and undertake such other activities as the Commission determines to be necessary to carry out its duties. The provision requires, upon request of the Commission: (1) the Comptroller General to conduct studies or investigations; (2) the Director of the Congressional Budget Office to provide cost estimates; (3) the head of a Federal agency to provide technical assistance; and (4) the Administrator of General Services to provide on a reimbursable basis administrative support services, which the Commission determines to be necessary to carry out its duties. The head of any Federal agency may detail to the Commission, without reimbursement, any personnel to assist the Commission in carrying out its duties. The Commission is authorized: (1) to use the U.S. mails; (2) to secure directly from any Federal agency information that may be disclosed to enable the commission to carry out its duties; and (3) to accept, use and dispose of gifts or donations of services or property.

(f) Reports.—

(1) Requires the Commission to submit not later than 6 months after enactment a report to Congress on its findings and recommendations regarding comprehensive long-term care services for the elderly and disabled. The report is to include detailed recommendations for appropriate legislative initiatives.

(2) Requires the Commission to submit not later than 1 year after enactment a report to Congress on its findings and recommendations regarding comprehensive health care services for the elderly and disabled and for all individuals in the United States. The report is to include detailed recommendations for appropriate legislative initiatives.

(g) Termination.—Specifies that the Commission shall terminate 30 days after the date it submits its report on comprehensive health care services.

(h) Authorization.—Authorizes $1.5 million for the Commission.

Effective date.—Enactment.

Senate amendment

(a) Establishment/Duties.—Identical provision.
(b) Membership.—Identical provision.
(c) Meetings.—Identical provision.
(d) Staff.—Identical provision.
(e) Powers.—Identical provision.
(f) Reports.—Identical provision.
(g) Termination.—Identical provision.
(h) Authorization.—Identical provision.
Effective date.—Enactment.

Conference agreement

Identical provision.

Effective date.—The conference agreement is effective on enactment.

27. Extension of Social HMO Demonstration Project (Section 210 of House bill)

Present Law

Section 2355 of DEFRA of 1984 (P.L. 99-369) required the Secretary to approve Medicare and Medicaid waivers needed to implement a demonstration project for social health maintenance organizations (SHMOS). These organizations are to provide an integrated package of health, long-term care, and social services on a prepaid capitation basis for persons who voluntarily enroll with the organization. There are currently four demonstration projects.

There is a comparable provision in section 4079 of Public Law 100-203.

House bill

Requires the Secretary to extend, without interruption, through September 30, 1992, the approval of waivers granted under Section 2355 of DEFRA of 1984 for the SHMO demonstration projects described in that provision, subject to the same terms and conditions (other than the duration of the project) established under that provision. It amends section 2355(b)(5) of DEFRA relating to Medicare's risk contract with the HMO to state that all payors will share risk for no more than 2 years, with the organization being at full risk in the 3rd year and in succeeding years. It requires the Secretary to send an interim report to Congress by December 1988 (rather than a final report, as in current law), and it requires the Secretary to submit a final report not later than March 31, 1993.

Effective date.—Enactment.

Senate amendment

No provision.

Conference agreement

The conference agreement does not include the House provision. A comparable provision was enacted in Section 4079 of P.L. 100-203.

28. Protection of Medicare Beneficiaries Enrolled in an Eligible Organization With a Risk-Sharing Contract Against Certain Practices (Section 10A of Senate amendment)

Present law

(a) Notice to Medicare Beneficiaries.—No provision.

(b) Civil Monetary Penalties and Intermediate Sanctions Against HMOs/CMPs.—HMOs/CMPs must provide assurances to the Secretary that they will not expel or refuse to reenroll any individual on the basis of health status or need for health services.

For each instance in which an HMO/CMP fails substantially to provide medically necessary items and services to a beneficiary, the Secretary may impose a $10,000 civil monetary penalty. No other sanctions short of contract termination are available for most other kinds of possible HMO/CMP contract or legal violations.

(Similar provision included in Omnibus Budget Reconciliation Act of 1987, except does not provide for refund to enrollee of excess charge and does not include extra $15,000 penalty for each individual not enrolled as a result of improper marketing practices.)

House bill

No provison.

Senate amendment

(a) Notice to Medicare Beneficiaries.—Requires an HMO or CMP with a Medicare risk-sharing contract to notify enrolled beneficiaries and potential enrollees that the organization may legally terminate or refuse to renew the contract, and that beneficiaries' enrollments may be terminated if this should occur. The notice would be included in any promotional materials furnished to potential enrollees and in information provided to all enrollees at the time of enrollment and annually thereafter. (Identical provision included in Omnibus Budget Reconciliation Act of 1987).

(b) Civil Monetary Penalties and Intermediate Sanctions Against HMOs/CMPs.—Increases the civil monetary penalty for failure to furnish medically necessary services to $25,000 for each failure. Provides for additional civil monetary penalties as follows:

(a) For each case in which an enrollee is charged a premium greater than permitted by law, $2,000 plus double the amount of the excess charge. The excess charge would be deducted from the penalty and returned to the enrollee.

(b) For each case in which the HMO/CMP expels or refuses to reenroll a beneficiary on the basis of health status, $15,000.

(c) For engaging in any practice which could reasonably be expected to result in denying or discouraging enrollment on the basis of health status, $100,000, plus $15,000 for each individual not enrolled as a result.

(d) For each case in which the HMO/CMP falsifies or misrepresents enrollment information furnished to the Secretary, any individual, or any other entity, or enrolls an individual without consent, or gives an individual a material inducement to enroll, $15,000. The penalty for each instance of false enrollment information furnished to the Secretary would be $100,000.

Provides that, in addition to or instead of imposing civil penalties, the Secretary may after notice to the organization suspend new enrollments or suspend payments to the HMO/CMP on behalf of new enrollees. Incorporates existing provisions on administration of civil monetary penalties.

Effective date.—(a) Applies to contracts entered into or renewed on or after the date of enactment.

(b) Becomes effective at the end of the 14 day period beginning on the date of enactment and does not apply to administrative proceedings commenced before the end of such period.

Conference agreement

The conference agreement includes the Senate amendment, with modifications. Only provisions not already enacted in the Omnibus Budget Reconciliation Act of 1987 (P.L. 100-203) are included. Excess premium charges collected from enrolleees are to be refunded, and an organization may be subject to a $15,000 civil monetary penalty for each case in which it expels or refuses to reenroll a beneficiary on the basis of health status.

29. Repeal of Authority to Administer Proficiency Examinations (Section 17 of Senate amendment)

Present law

Section 1123 of the Social Security Act allows the use of a testing program to determine the proficiency of individuals who desire to become skilled medical technicians. In the conduct of such tests, no individual who otherwise meets the proficiency requirements for the health care specialty can be denied a satisfactory proficiency rating solely because of his failure to meet formal educational or professional membership requirements. Currently, persons who are judged proficient as a result of this test may avoid going through an accredited education program designed to train such personnel.

House bill

No provision.

Senate amendment

Repeals section 1123, effective October 1, 1987. Provides that the repeal would not affect the authority of the Secretary to conduct the program established under 1123 prior to October 1, 1987 or the qualification of individuals to perform their duties and responsibilities who were certified by reason of previously administered exams.

Effective date.—October 1, 1987.

Conference agreement

The conference agreement includes the Senate amendment. The conferees note that this authority had already expired on September 30, 1987.

Although the authority would have allowed the Secretary to develop proficiency examinations for a variety of health personnel, the only examinations ever administered were those for clinical laboratory personnel. The conferees have been advised that there may develop a shortage of such personnel in the future. If this occurrs, the conferees anticipate that consideration could be given to the appropriateness of authorizing a new examination for such personnel.

Effective date.—The conference agreement is effective October 1, 1987.

30. Study and Reports by the Office of Personnel Management on Offering Medicare Supplemental Plans to Federal Medicare Eligible Individuals, and Other Program Changes (Section 23 of Senate amendment)

Present law

(a) Study and Report.—Under the Federal Employees Health Benefits (FEHB) Program, Federal employees and annuitants and their dependents are offered health benefits coverage from a range of participating health benefit plans. Since the FEHB program offers no plans that only supplement Medicare's coverage, the benefits available under the plans in the FEHB program duplicate certain benefits under the Medicare program.

(b) Feasibility Study and Report.—Under Section 1882 of the Social Security Act, the Secretary is required to establish a procedure by which Medicare supplemental policies may be certified by the Secretary as meeting minimum standards and requirements if they meet or exceed certain model standards developed and adopted by the National Association of Insurance Commissioners and meet certain loss ratio requirements. If a State establishes a regulatory program that provides for the application of these same minimum standards and requirements to Medicare supplemental policies, then such policies issued in that State are deemed to have met the requirements under the Secretary's certification program.

Section 1882 defines Medicare supplemental policies as health insurance policies or other health benefits plans offered by a private entity to individuals covered by Medicare that supplement Medicare's coverage; policies or plans of one or more employers or labor organizations are not included in this definition.

House bill

No provision.

84-648 - 88 - 9

Senate amendment

(a) Study and Report.—Requires the Director of the Office of Personnel Management (OPM), no later than April 1, 1989, to conduct a study and submit a report to the Senate Committee on Governmental Affairs and the House Committee on Post Office and Civil Service regarding changes to the Federal Employees Health Benefits Program that may be required to incorporate plans designed specifically for Medicare eligible individuals and to improve the efficiency and effectiveness of the program.

Prohibits any Medicare supplemental plan recommended by the Director of OPM from duplicating benefits for which payment is made under Medicare. However, any such recommended plan (1) must cover expenses that are not payable by Medicare because of deductible and coinsurance amounts, and (2) may offer additional reimbursement where Medicare benefits are limited by fee schedule and for benefits not covered by Medicare which may be of value to Medicare eligible individuals.

(b) Feasibility Study and Report.—Requires the Director of the Office of Personnel Management, no later than April 1, 1989, to report to the appropriate committees of Congress whether it is feasible to adopt such standards as issued by the National Association of Insurance Commissioners as required by section 1882 of the Social Security Act for Medicare supplemental policies, when providing Medicare supplemental plans as a type of health benefits plan available under the Federal Employees Health Benefits Program.

Effective date.—The reports required by (a) and (b) are due no later than April 1, 1989.

Conference agreement

(a) *Study and Report.*—The conference agreement includes the Senate amendment.

(b) *Feasibility Study and Report.*—The conference agreement includes the Senate amendment.

Effective date.—The conference agreement is effective upon enactment.

31. Rate Reduction For Medicare Eligible Federal Employees (Section 22 of Senate amendment)

Present law

Under the Federal Employees Health Benefits (FEHB) Program, Federal employees and annuitants and their dependents are offered health benefits coverage from a range of participating health benefit plans. The premiums for such coverage are shared by the Federal Government and by the enrollees. Premium payments are deposited in the Employees Health Benefits Fund, from which benefit and administrative costs are paid.

Since the FEHB Program offers no plans that only supplement Medicare's coverage, the benefits available under the plans in the FEHB Program duplicate certain benefits under the Medicare program.

House bill

No provision.

Senate amendment

Requires the Office of Personnel Management, in consultation with carriers offering health benefits plans under the Federal Employees Health Benefits Program, to reduce the rates charged to Medicare eligible individuals participating in such health plans by the amount, prorated for each covered Medicare eligible individual, of the estimated cost of medical services and supplies which would have been payable by such plans if the catastrophic coverage benefits (those in sections 2(a), 3(a), 4, and 7(b) of this bill) had not been enacted.

Defines "Medicare eligible individual" as any annuitant, survivor of an annuitant, or former spouse of an annuitant (1) who is otherwise eligible for benefits under the Federal Employees Health Benefits Program, eligible for benefits under Part A of Medicare, and covered by Part B of Medicare, and (2) for whom benefits paid under Medicare are the primary source of health care benefits.

Provides that funds in the Employees Health Benefits Fund for the Federal Employees Health Benefits Program are available without fiscal year limitation for costs incurred by the Office of Personnel Management in making such rate reductions.

Effective date.—Provides that the reduced rates apply as of the effective date of the Medicare catastrophic coverage (items and services furnished after, and premiums for months beginning after, December 31, 1987).

Conference agreement

The conference agreement includes the Senate amendment, with technical amendments to insure that all catastrophic benefits would be included in determining the rate reduction.

Effective date.—The conference agreement is for health benefit plans beginning January 1, 1989.

32. Maintenance of Effort (Section 21 of Senate amendment)

Present law

Many older, disabled and retired workers participate in employer-sponsor group health insurance plans. There are no current Federal requirements that employer-sponsored health plans provide specific benefits to plan participants. For those employer group plans who are also covered by Medicare, employer plans are generally coordinated to supplement Medicare benefits or provide benefits that Medicare does not cover.

The proposed Medicare catastrophic legislation would result in duplicative coverage for many of those individuals receiving both Medicare and employer-sponsored health benefits.

House bill

No provision.

Senate amendment

(a) In General.—Provides that for the 1-year period beginning on the date of enactment of this act, if an employer provides health benefits to an employee or retired former employee (including a Federal employee or retired Federal employee) that are duplicative of new or improved health care benefits provided under this act or the amendments made by this act, the employer shall: (1) provide additional benefits to the employee or retired former employee that are at least equal in value to the duplicative benefits; or (2) refund to the employee or retired former employee an amount equal to the actuarial present value of the duplicative benefits.

(b) Regulations.—Requires the Secretary of Labor to issue such regulations as are necessary to carry out this provision.

Effective date.—Effective (1) during the 1-year period beginning on the date of enactment of this act; or (2) in the case of an employer who is providing duplicative health care benefits to employees or retired former employees under a collective bargaining agreement that is in effect on the date of enactment, until the expiration of the agreement.

Conference agreement

(a) *In General.*—The conference agreement includes the Senate amendment with the following amendments. Employers who, on enactment, provide health care benefits to employees or retired former employees that duplicate Part A benefits or Part B benefits (excluding covered outpatient drugs) as amended by this Act must provide to the employees or retired former employees an amount of additional benefits (which could include payment of the part B premium) or refunds, or both, that total at least the actuarial value of the duplicative Part A benefits or Part B benefits (excluding covered outpatient drugs). Duplicative benefits are determined net of any premiums paid employees or retired former employees that are attributable to the duplicative benefits.

(b) *Employers Covered.*—Employers (including public employers other than the Federal government) affected by this provision include those who provide duplicative Part A benefits whose actuarial value is at least 50 percent of the actuarial value (discounted to the value as of the date of enactment) of the average Part A benefits provided under this bill.

Also, employers (including public employers other than the Federal government) affected by this provision include those who provide duplicative Part B benefits whose actuarial value is at least 50 percent of the actuarial value (discounted to the value as of the date of the enactment) of the average Part B benefits that will be provided under this bill.

The conferees intend that employers contributing to a multiemployer plan would be required to continue their contributions under their collective bargaining agreements.

Employers may elect to compute the actuarial value of duplicative Part A or Part B benefits on the basis of: (1) national average actuarial values, or (2) the actuarial value (net of employee premiums) with respect to that employer. The Secretary of Health and Human Services must calculate and publish for four years beginning with 1989 for duplicative Part A benefits, and 1990 for duplicative Part B benefits, the national average actuarial value of the duplicative benefits for 1988 and the year involved, and the employer guidelines for computing the actuarial value of duplicative benefits for such years.

(c) *Effective Period.*—The conference agreement includes the Senate amendment, with a modification that the maintenance of effort requirements with respect to duplicative Part A benefits are effective during 1989, and the maintenance of effort requirements with respect to duplicative Part B benefits are effective during 1990. However, where there is a collective bargaining agreement in effect of the date of enactment, the maintenance of effort requirements are in effect until the later of 1989 for Part A benefits and 1990 for Part B benefits or the expiration of the agreement, determined without regard to any extensions after enactment.

(d) *Effective date.*—The conference agreement is effective on enactment.

33. Medicaid Buy-In of Premiums and Cost-Sharing for Indigent Medicare Beneficiaries (Section 301 of House bill; Sections 14 and 14B of Senate amendment)

Present law

Most States have entered into a "buy-in" agreement under which they pay the Medicare Part B premiums on behalf of their Medicaid beneficiaries who are also eligible for Medicare.

The Omnibus Budget Reconciliation Act of 1986 (OBRA 86) permits States to cover Medicare premiums, deductibles, and coinsurance for aged and disabled persons with incomes up to a State-established level, which may be up to 100 percent of the Federal poverty line. A State choosing this option is required to use the resource standards of the Supplemental Security Income (SSI) program; except that if it has a medically needy program using higher standards it may use those standards. States electing this option are required to offer Medicaid coverage "to some or all" newly pregnant women and children below the Federal poverty line.

House bill

(a) In General.—Makes mandatory the current option for States to pay Medicare premiums, deductibles and coinsurance for all elderly and disabled persons with incomes at or below 100 percent of the Federal poverty level, except that resources would be set at or below twice the SSI standard. The requirement that States cover some newly eligible pregnant women and children is retained. A State which is providing medical assistance under a section 1115(a) waiver instead of under Medicaid is required to meet the mandatory coverage requirement. The coverage requirement is optional with the commonwealths and territories, and they may use an income level below 100 percent of the Federal poverty line.

(b) Drug Provisions.—(See Item 10, "Coverage of Catastrophic Prescription Drugs Under Medicare").

(1) Requires State Medicaid programs to cover incurred drug charges below the Medicare deductible for Medicare beneficiaries with incomes below poverty. Alternatively, a State may

provide the same drug coverage (up to the deductible) as is offered to categorically needy Medicaid beneficiaries in the State.

(2) No provision.

Effective date.—(a) Applies to calendar quarters beginning on or after July 1, 1988 (without regard to whether or not final regulations have been promulgated) with respect to medical assistance for monthly Medicare premiums beginning July 1, 1988, and items and services furnished on or after that date. Delay is permitted where State legislation is required.

(b) Applies for calendar quarters beginning on or after January 1, 1989 (without regard to whether or not final regulations have been promulgated) with respect to medical assistance for monthly Part B premiums beginning January 1, 1989, and covered outpatient drugs dispensed on or after that date; delay is permitted where State legislation required.

Senate amendment

(a) In General.—Requires the Secretary, before the beginning of each fiscal year, to estimate the amount that would have been expended from State funds that fiscal year for Medicaid in the absence of the catastrophic protection offered under the bill and to notify each State of the amount. Each State is required to use such estimated savings for one or more of the following:

(1) Paying for Medicare cost-sharing charges (other than those for covered outpatient drugs) for persons below the poverty line, pursuant to the provisions of OBRA 86 (except that requirements pertaining to additional coverage of pregnant women and children would not apply);

(2) Increasing the monthly maintenance needs allowance for community spouses of institutionalized individuals; or

(3) Increasing opportunities for elderly persons to participate in adult day health and other community-based services, if the State both: (A) has elected to provide coverage for Medicare cost-sharing charges for persons with incomes up to 100 percent of poverty, and (B) provides a minimum monthly income allowance for community spouses up to $500 per month.

The amounts expended by the State under this provision are in addition to any amounts that would have otherwise been expended for such purposes.

(b) Drug Provisions.—(See Item 10, "Coverage Catastrophic Drugs Under Medicare".)

(1) Similar provision.

(2) Permits States to cover Medicare prescription drug cost-sharing charges for persons whose income is between 100 and 200 percent of poverty. For persons with incomes up to 150 percent of poverty, the deductible can be up to $150 and the cost sharing amount up to 10 percent of any coinsurance amounts otherwise paid by the State. For persons with incomes above 150 percent of poverty, the deductible can be up to $300 and the coinsurance up to 15 percent.

Effective date.—(a) Applies for 12 successive calendar quarters beginning January 1, 1988, except delay is permitted where State legislation is required. In case of delay, the provision is also effective for 12 successive calendar quarters.

(b) Applies to Medicaid payments for calendar quarters beginning on or after January 1, 1990 (without regard to whether final regulations have been issued) with respect to monthly Medicare premiums and items and services furnished on and after January 1, 1990.

Conference agreement

(a) *In General.*—The conference agreement follows the House provision with modifications. Except with respect to certain "209(b)" States, the buy-in requirement would be phased in as follows: effective January 1, 1989, States would have to buy-in the elderly and disabled with incomes at or below 85 percent of the Federal poverty income guidelines ($5,770 per year in 1988 for an individual); effective January 1, 1990, at or below 90 percent; effective January 1, 1991, at or below 95 percent; and effective January 1, 1992, at or below 100 percent. With respect to those five "209(b)" States that, as of January, 1987, used more restrictive income eligibility standards with respect to the elderly than those applicable under SSI, the buy-in requirement would be phased in as follows: effective January 1, 1989, these States would be required to offer buy-in coverage to individuals with income at or below 80 percent of the Federal poverty income guidelines; effective January 1, 1990, at or below 85 percent; effective January 1, 1991, at or below 90 percent; effective January 1, 1992, at or below 95 percent; and effective January 1, 1993, at or below 100 percent. The conferees understand that five "209(b)" States qualify for this extended phase-in schedule: Hawaii, Illinois, North Carolina, Ohio, and Utah, (See CRS Report 87-986 EPW, Appendix B-2).

The conferees note that the current option to offer buy-in coverage would remain in effect during the phase-in period. Thus, States which currently offer buy-in coverage to the elderly or disabled with income at or below 100 percent of the Federal poverty guidelines but above the mandatory phase-in schedule (i.e., Florida, New Jersey, Rhode Island, and the District of Columbia) could continue to receive Federal matching payments for such coverage. Similarly, States that, over the next three years, wish to offer buy-in coverage to individuals with incomes above the mandatory phase-in schedule (but no higher than 100 percent of poverty) may do so.

The conference agreement clarifies the standard in the House bill that States cover "some or all" pregnant women and infants. Under the agreement, States are required, effective July 1, 1989, to extend coverage to pregnant women and infants up to age 1 with incomes at or below 75 percent of the Federal poverty income guidelines ($9,690 in 1988 for a family of 3); effective July 1, 1990, the requirement applies to all pregnant women and infants with incomes at or below 100 percent of poverty. In the case of pregnant women, coverage would be limited to pregnancy-related services; in the case of infants, coverage would extend to all Medicaid benefits offered be the State to cash assistance recipients. Those States that, as of enactment, offered overage to pregnant women and infants with incomes at or below 100 percent of the poverty level (or some lower income threshold higher than 75 percent) would be required to continue this coverage. This maintennance of effort requirement would also apply to States that, as of enactment, had enacted authorizing or appropriations legislation to establish such coverage but had not yet actually implemented the coverage. As under current law, States that elected to offer Medicaid coverage to pregnant women and infants above the mandatory income thresholds up to 185 percent of the Federal poverty level would not be permitted to reduce their cash assistance payment levels to families with dependent children below the levels in effect as of July 1, 1987. Similarly, to assure that the resources for mandatory coverage of pregnant women and infants up to 100 percent of poverty are not diverted from the Aid to Families with Dependent Children (AFDC) program, all States are prohibited from reducing their cash assistance payment levels to families with dependent children below the levels in effect on May 1, 1988.

The conference agreement also provides that states which impose durational limits on Medicaid payments for inpatient hospital services (e.g., 12 days per year, 14 days per admission, 30 days per spell of illness, 35 days for a particular diagnosis under a prospective payment system) must establish exceptions to any such limit for medically necessary inpatient services received by an infant (up to age 1) in a hospital designated as a disproportionate share hospital under the State's Medicaid plan. Thus, so long as the infant remains Medicaid-eligible and is receiving medically necessary inpatient services in a disproportionate share hospital, the State would be obligated to reimburse the hospital for such services without regard to any durational limit that might otherwise apply. The agreement further provides that, if a State pays for inpatient hospital services on a prospective basis (per diem, per case, or otherwise), the State must provide for an outlier adjustment for disproportionate share hospitals for medically necessary inpatient services delivered on or after July 1, 1989, involving exceptionally high cost or exceptionally long lengths of stay for infants up to age 1. States would have the discretion to define length of stay and cost outliers, and to determine the amount of adjustment to be paid for outlier cases; however, reimbursement to disproportionate share hospitals for these exceptionally high costs or exceptionally long length of stay infants would have to be reasonable and adequate. States are required to submit a plan amendment setting forth their outlier policy by April 1, 1989; the Secretary is required to review and approve or disapprove such amendment within 90 days. If the Secretary disapproves the amendment, the State is required to submit immediately a complying amendment. This requirement applies to all States, including those with "prudent buyer" contracting waivers under section 1915(b)(4) of the Social Security Act.

(b) *Drug Provisions.—*

(1) The conference agreement follows the House provision with a modification providing for a phase-in schedule corresponding to the schedule applicable to the general buy-in requirement described in (a), above. Thus, as of January 1, 1991, when the Medicare prescription drug benefit takes effect, most States will be required to buy-in the elderly and disabled with incomes at or below 95 percent of the Federal poverty level; in the five "209(b)" States for which a longer phase-in schedule is

specified, the 90 percent threshold will apply. The managers note that, if the State elects the option of providing its Medicaid drug benefits in order to satisfy the Medicare prescription drug deductible, the "charges for covered outpatient drugs" are the billed charges for the drugs that Medicaid covers, even though the beneficiary has not actually incurred the charge or paid the difference between the State's payment (plus any coinsurance requirement) and the pharmacist's charge.

(2) The conference agreement does not include the Senate provision.

Effective date.—Applies to calendar quarters beginning on or after January 1, 1989 (without regard to whether or not final regulations have been promulgated) with respect to medical assistance for monthly Medicare premiums beginning on that date, and items and services furnished on or after that date. Delay is permitted where specified State legislation is required. The disproportionate share hospital payment provision is effective on enactment.

34. Determination of Medicaid Drug Savings; State Plan Requirement (Section 14A of Senate amendment)

Present law

No provision.

House bill

No provision.

Senate amendment

Requires the Secretary before the beginning of each fiscal year (or portion thereof) to estimate and determine the amount that would have been spent in each State that fiscal year under Medicaid in the absence of the new outpatient drug coverage and intravenous drug coverage provisions, and to notify the State of the amount.

Requires each State plan to use any such savings for covering Medicare drug cost sharing charges for persons below the poverty line.

Effective date.—Applies with respect to any calendar quarter beginning on or after January 1, 1990.

Conference agreement

The conference agreement does not include the Senate provision.

35. Protection of Income and Resources of Couple for Maintenance of Community Spouse (Section 302 of House bill; Section 14C of Senate amendment)

Present law

(a) In General.—Eligibility of the aged and disabled for Medicaid is linked to actual or potential receipt of cash assistance under SSI. The SSI program employs certain criteria for the treatment of income and resources which are also used in States which cover all SSI recipients. ("209(b)" States which do not cover all SSI recipi-

ents, may employ more restrictive criteria, provided they are no more restrictive than those in effect in January 1972).

An institutionalized individual with a spouse in the community is permitted to keep an amount for the maintenance needs of his spouse; however this amount is set at welfare levels. As a result of Medicaid rules, both for determining eligibility and in the treatment of income after eligibility has been established, the spouse in the community may be left with income below the poverty level; this circumstance is referred to as spousal impoverishment.

(b) Rules for Treatment of Income.—Under SSI rules, if both spouses live together, their incomes and resources are considered available to each other whether or not they actually contributed to each other. Spouses are no longer considered to be living together if one is institutionalized for longer than one month in a facility certified to receive Medicaid payments. Only the income of the institutionalized spouse is considered for purposes of determining eligibility. In most states the "name on the instrument" rule applies in attributing income; i.e., income is considered to belong to the spouse whose name is on the check or other instrument conveying the funds. (In the case of Social Security checks, the amount attributable to each spouse is the individual's share of the couple's benefit.) A Federal Appeals Court has ruled that in California and Washington, community property principles, and not the "name on the instrument" rule, apply.

(c) Rules for Treatment of Resources.—Resources must be considered mutually available for 6 months following institutionalization if both spouses are SSI eligible and for 1 month if only one spouse is SSI eligible. Countable resources above specified amounts (including a minimum of $1,900 in liquid resources for an individual and $2,850 for a couple) must be applied to the costs of care. Excluded from the calculation is the couple's home and $2,000 in equity value of household goods or personal effects. If resources are held solely by the institutionalized spouse, they are attributed to him for eligibility purposes. If they are held jointly by the institutionalized spouse and the noninstitutionalized spouse, they are considered to belong entirely to the institutionalized spouse. If they are held solely by the spouse remaining in the community, none is considered available to the institutionalized spouse.

(d) Protecting Income for Community Spouse.—After an institutionalized individual has established eligibility, his income, after deduction of specified amounts known as "disregards," is applied to the cost of care. The disregards are applied to the resident's income in the following order:

(1) A monthly personal needs allowance (which must be at least $25) ($30 as of July 1, 1988);

(2) A monthly maintenance needs allowance for an individual with a spouse at home which may not exceed: (A) the SSI standard for an individual residing in his own home, (B) the highest income standard for State optional supplementary payments, or (C) the medically needy standard for one person. (A State not covering all SSI recipients cannot use a level higher than the more restrictive income standard or the medically needy standard);

(3) An additional allowance for an individual with a family at home.

(4) Amounts for medical expenses not covered by a third party, subject to reasonable limits. (The Health Care Financing Administration (HCFA) has issued a regulation that, effective April 8, 1988, makes this disregard optional with the State.

(e) Notice and Hearing.—No provision.

(f) Court Ordered Support.—In certain instances State or local courts have issued orders against institutionalized spouses requiring them to make monthly payments to the community spouse. However, notwithstanding such an order, the Health Care Financing Administration (HCFA) has determined that the income of the institutionalized spouse is available to him for purposes of determining his contribution to the cost of care.

(g) Transfer of Assets.—The fair market value of any resources (not including the individual's home) disposed of within the preceding 24 months must be taken into account in determining SSI eligibility (to which Medicaid eligibility is linked). States are permitted, but not required, to impose such a restriction for Medicaid provided it is not more restrictive than that for SSI, with one exception. In cases where the uncompensated value of disposed resources exceeds $12,000, the State may provide for a period of ineligibility exceeding 24 months, provided the period bears a reasonable relationship to the uncompensated value. States may waive the delay in Medicaid eligibility in cases of undue hardship.

States are also allowed to deny Medicaid eligibility for 24 months to institutionalized individuals who, within 24 months prior to application for Medicaid, disposed of their homes for less than fair market value even though such disposal would not make them ineligible for the SSI program. The provision does not apply if the individual intended to dispose of the home at fair market value or if title was transferred to a spouse or minor or handicapped child.

(h) Conforming Amendment.—Some States covering the aged and disabled medically needy use less restrictive income or resource methodologies than are applied under the SSI program. HCFA has interpreted current law to require that States use SSI income and resource methodologies. A moratorium on this interpretation enacted in section 2373(c) of P.L. 98-369, and clarified by section 9 of P.L. 100-93, is currently in effect.

(i) Study of Means of Recovering Costs of Nursing Facility Services From Estates of Beneficiaries.—Under certain circumstances, States may recover amounts paid on behalf of deceased beneficiaries who were nursing home residents or who were 65 or over when Medicaid payments were made.

House bill

(a) In General.—

(1) Adds a new Section 1921 to the Social Security Act entitled "Treatment of Income and Resources For Certain Institutionalized Spouses". The provisions of this section supersede other provisions of title XIX, to the extent they are inconsistent, for purposes of determining eligibility of an institutionalized spouse. Comparable treatment is not required for other groups of eligibles.

(2) Specifies that, except as specifically provided, the section does not apply to the determination of what constitutes income or resources or the methodology and standards for determining and evaluating them.

(3) Permits an institutionalized spouse to elect to be governed instead by the rules in effect in March 1987 in his State, except that the institutionalized spouse may not opt out of the new rules regarding treatment of resources at the time of initial eligibility determination.

(4) Specifies that the new section applies to a State operating under a section 1115 waiver but not to the commonwealths and territories.

(b) Rules for Treatment of Income.—

(1) Specifies that in any month in which a spouse is institutionalized, no income of the community spouse is considered available to the institutionalized spouse.

(2) Specifies that, regardless of State laws relating to community property or division of marital property, the following income attribution rules apply for non-trust property unless otherwise specifically provided on the instrument. Income paid solely to one spouse or another is considered to belong to that respective spouse. If the income is paid in both names, half is considered available to each spouse. If the income is paid in the name of either or both spouses and another person, an equal share of the income is considered available to each individual. The same principles apply for trust property unless the trust specifically provides otherwise. For non-trust property with no instrument, half of the income is considered available to each spouse.

(3) An institutionalized spouse can rebut the non-trust property attribution rules by establishing that ownership interests are otherwise.

(4) No provision.

(c) Rules for Treatment of Resources.—

(1) Provides for the computation, as of the beginning of a continuous period of institutionalization, of the spousal share which is equal to one-half the value of all the resources held by the institutionalized spouse, the community spouse, or both. The couple's house and all household goods and personal effects are to be excluded from the calculation.

(2) Provides that the determination of countable resources is to be made regardless of State laws relating to community property or division of marital property, at the time of application for benefits. All resources held by either spouse are considered available to the institutionalized spouse except that the resources held in the name of the community spouse are not considered available unless they exceed a community spouse resource allowance (as of the application date) or if greater, the amount retained under court order.

(3) No provision.

(4) Provides that after an institutionalized spouse has established eligibility, no resources of the community spouse shall be considered available to the institutionalized spouse.

(5) Specifies that if the spousal share is less than $12,000 (indexed to the CPI beginning in 1989), the institutionalized spouse is allowed to transfer an amount sufficient to enable the community spouse to hold $12,000 in his or her own name. If the spousal share is greater than $48,000 (indexed by the CPI beginning for 1989), the amounts in excess of $48,000 would be attributed to the institutionalized spouse.

(d) Protecting Income for Community Spouse.—Specifies that the following disregards are to be applied to the institutionalized individual's income in the following order:

(1) A monthly personal needs allowance as specified under current law;

(2) A minimum monthly maintenance needs allowance for the community spouse. The allowance is the amount needed to bring the community spouse's monthly income up to a minimum level (not to exceed $1,500, indexed to the CPI beginning for 1989) which is the sum of:

(A) 150 percent of the Federal poverty guidelines for a family of two;

(B) an excess shelter allowance (the amount by which mortgage expenses or rent, plus utility costs, exceed 30 percent of Item A); and

(C) one-half of the amount by which the income of the institutionalized spouse exceeds the sum of items A and B;

(3) A family allowance for each family member (minor or dependent child, dependent parent or dependent sibling residing with the community spouse) equal to at least one-third of the amount by which 150 percent of the Federal poverty line for a family of two exceeds the family income of that family member.

(4) Amounts for incurred medical expenses not subject to payments by a legally liable third party.

(e) Notice and Hearing.—

(1) Requires States to notify the institutionalized spouse of the community spouse monthly income allowance, the family allowance, the method for computing the amount of the community spouse resource allowance, and of the spouse's right to a fair hearing with respect to the determination of the community spouse monthly income allowance.

(2) Specifies that if the institutionalized spouse establishes that the minimum monthly maintenance needs allowance is inadequate to support the community spouse without financial duress, the amount is to be increased.

(f) Court Ordered Support.—

(1) Provides that if a court has entered an order against an institutionalized spouse for monthly income support for the community spouse, the community spouse monthly maintenance needs allowance must be at least as great as the court ordered amount.

(2) Provides that if a court has entered a support order against an institutionalized spouse requiring the spouse to transfer countable resources to the community spouse, such transfer will not be considered in violation of transfer of assets prohibitions.

(3) Provides that if a court has entered an order against an institutionalized spouse requiring the spouse to transfer resources, the community spouse resource allowance is the amount transferred up to the ceiling ($48,000 in 1988, indexed to the CPI in future years).

(g) Transfer of Assets.—

(1) Requires States to determine, at the time of application, whether an institutionalized individual has disposed, within the preceding 24 months, of resources for less than fair market value. If such a transfer has occurred, a period of ineligibility is established beginning with the month in which the resources were transferred. The number of months in such period equals the total uncompensated value at the time of transfer divided by the average cost of nursing home care to a private patient in the State or community.

(2) Specifies that the transfer prohibition does not apply if:

(A) the transfer was that of the applicant's home to his or her spouse, child under 21 or blind or disabled adult child;

(B) resources were transferred to the community spouse;

(C) a satisfactory showing is made that the individual intended to dispose of resources at fair market value or for other valuable consideration; or

(D) the State determines that denial of eligibility would work an undue hardship. States can only employ transfer of resources restrictions in accordance with these provisions.

(h) Conforming Amendment.—Provides that a State's methodology for determining eligibility for the medically needy may not be more restrictive than that under the appropriate cash assistance program. The methodology is considered to be no more restrictive if, in using the methodology, additional individuals may be eligible and no otherwise eligible individuals are made ineligible.

(i) Study of Means of Recovering Costs of Nursing Facility Services From Estates of Beneficiaries.—No provision.

Effective Date.—Applies to payments made for calendar quarters beginning on or after January 1, 1988, without regard to whether final regulations have been issued. Delay is permitted where State legislation required. The conforming amendment item (h) applies to medical assistance furnished on or after October 1, 1982.

Senate amendment

(a) In General.—Identical provision, except excludes item 3.

(b) Rules for Treatment of Income.—

(1) Identical provision.

(2) Similar provision except: (A) applies only to post-eligibility treatment of income; and (B) in the case of both trust and non-trust property where the income is paid in the name of either or both spouses and another person, the income is considered available to each spouse in proportion to the spouse's interest (or if payment is made with respect to both spouses and no such interest is specified, one-half of the joint interest shall be considered available to each spouse).

(3) Identical provision.

(4) Specifies that in the case of community property States that do not provide coverage for the medically needy, the amount of income considered available to each spouse, at the time of application for benefits, is equal to half of the combined income of the institutionalized and community spouse.

(c) Rules for Treatment of Resources.—

(1) Similar provision. Also excludes resources that are necessary to produce income that is available to the community spouse or the family allowance up to the limits established by this section (see (d) below).

Requires the State to provide an assessment and documentation of total joint resources at the request of either spouse, at the beginning of a continuous period of institutionalization. The assessment shall occur promptly on receipt of relevant documentation. A copy is to be provided to each spouse. A State may charge a reasonable fee for an assessment if it is not part of an application for Medicaid.

(2) Similar provision.

(3) Specifies that the institutionalized spouse is not considered ineligible by resources determined to be available where: (A) the institutionalized spouse has assigned to the State any rights to support from the community spouse; (B) the institutionalized spouse lacks the ability to excute an assignment due to physical or mental impairment but the State has a right to bring a support proceeding against a community spouse without such assignment; or (C) the State determines denial of eligibility could work an undue hardship.

(4) Identical provision.

(5) Similar provision, except: (A) a State, by law, practice, policy, or State plan (whether approved or not), may establish a higher amount than $12,000; and (B) specifies that a higher amount may be established by fair hearing or court order. Specifies that a transfer of resources to a community spouse must be made within 1 year after the date of the initial eligibility determination or such time as is necessary to obtain a court order (whichever is longer.)

(d) Protecting Income for Community Spouse.—Similar provision, except:

(1) The definition of personal needs allowance is tied to that specified under the bill.

(2) The minimum allowance for the community spouse may be increased by State law, policy, or State plan (whether approved or not):

(A) The minimum maintenance needs allowance is 122 percent of the poverty line;

(B) Similar provision.

(C) No provision.

(3) Similar provision, except family allowance linked to 122 percent of Federal poverty line.

(4) Similar provision.

(e) Notice and Hearing.—

(1) Similar provision, execpt requires specific notice to both spouses at the time of eligibility determination or to either spouse upon request. Also requires notification of the spouse's

right to a fair hearing respecting ownership or availability of income or resources, and respecting the community spouse monthly income or resource allowance.

(2) Specifies that if either spouse establishes that either the minimum monthly maintenance needs allowance or the community spouse resource allowance (in the relation to the amount of income generated by such allowance) is not adequate to support the community spouse without financial duress, the amount of either allowance is to be increased.

(f) Court Ordered Support.—

(1) Similar provision.

(2) Similar provision.

(3) Similar provision, except ceiling does not apply.

(g) Transfer of Assets.—Similar provision except that the State review covers the disposal of assets within the 26 months prior to application.

(2) Similar provision, except:

(A) specifies transfer prohibition does not apply (i) in the case of a sibling who has an equity interest in the home and was residing in the home for at least a year prior to the individual's admission to a nursing home, or

(ii) in the case of a son or daughter who was residing in the home for at least two years prior to the admission and was providing care which permitted the individual to reside at home.

(B) also permits transfer to the individual's child who is permanently or totally disabled.

(C) also permits a showing that resources were transferred exclusively for a purpose other than to qualify for medical assistance.

(D) Identical provisions.

(h) Conforming Amendment.—Identical provision.

(i) Study of Means of Recovering Costs of Nursing Facility Services From Estates of Beneficiaries.—Requires the Secretary to study the means for recovering the amounts from the estates of deceased beneficiaries (or the estates of spouses of deceased beneficiaries) to pay for SNF or ICF services furnished them under Medicaid. The Secretary is required to report to Congress, not later than December 31, 1988, on such means, and to include appropriate recommendations for changes.

Effective date.—Applies to payments made for calendar quarters beginning on or after January 1, 1988, without regard to whether final regulations have been issued. Delay is permitted where State legislation required. Provisions relating to treatment of resources, apply only to institutionalized individuals who begin continuous periods of institutionalization on or after January 1, 1988. Transfer of assets provisions, item (g) apply only to transfer of resources made on or after January 1, 1988.

Conference agreement.

(a) *In General.*—The conference agreement follows the Senate amendment.

(b) *Rules for Treatment of Income.*—The conference agreement follows the Senate amendment with a modification deleting the provision relating to community property States that do not offer coverage to the medically needy (item (4) of the Senate amendment).

(c) *Rules for Treatment of Resources.*—The conference agreement follows the Senate amendment with the following modifications. If the spousal share the couple's total resources is greater than $60,000 (indexed by CPI beginning in 1990), amounts in excess of $60,000 would be attributed to the institutionalized spouse. A level higher than $60,000 could be established by fair hearing or court order. The State, by amending its State plan, could raise the $12,000 minimum resource allowance for the community spouse to any level up to the $60,000 (subject to indexing) statutory maximum.

The agreement does not exclude from countable resources those assets necessary to produce income available to the community spouse or the family allowance. Instead, the agreement provides that either the institutionalized or the community spouse may request a fair hearing as to whether the community spouse resource allowance is adequate to generate sufficient income to raise the community spouse's income to the minimum monthly maintenance needs allowance. The State must grant such a hearing within 30 days of request. If the State, after such a hearing, determines that the community spouse resource allowance is inadequate, the State must allow the community spouse to retain an adequate amount of resources to provide the minimum monthly maintenance needs allowance (taking into account any other income attributable to the community spouse), notwithstanding the amount of the State-established resource allowance. If either spousel requests an assessment or resources at the time of institutionalization, the State must, in providing the assessment give notice to the requesting spouse of the right to a fair hearing with respect to the adequacy of the community spouse's resource allowance. The agreement also requires that nursing facilities inform newly-admitted residents of their right to request an assessment from the State agency.

The conference agreement specifies that a transfer of resources to a community spouse must be made as soon as practicable after the date of initial eligibility determination, with allowance for the time necessary to obtain a court order, where necessary. In determining what constitutes a "transfer" for this purpose, the conferees intend that State law govern. In addition, the agreement provides that the State of Missouri must not count as a resource the home (of any value) of an aged, blind, or disabled individual who applies for Medicaid on or after October 1, 1989. This requirement would apply only to the home; the State could, but would not be requird to, exclude the land that appertains to the house, as would be the case under SSI.

(d) *Protecting Income for Community Spouse.*—The conference agreement follows the Senate amendment with the following modifications. As under current law, the proposal needs allowance is $30, whether the resident is eligible for Medicaid on a categorically needy, optional categorically needy, or medically needy basis. The minimum monthly maintenance needs allowance is effective September 30, 1989, set at 122 percent of the monthly Federal poverty income guidelines for a 2-person household (which is 1988 would be $786). Effective July 1, 1991, the minimum allowance would be raised to 133 percent; effective July 1, 1992, to 150 percent. This schedule of percentage would also apply to the calculation of the family allowance. The community spouse monthly maintenance needs allowance may not exceed $1500, except where a higher level is determined to be necessary through a fair hearing or by a court order.

With respect to the deduction for incurred medical expenses, the conference agreement requires that, with respect to any Medicaid-eligible individual in an institution (regardless of whether the individual has a spouse in the community), States must take into account amounts for incurred expenses for medical or remedial care that are not subject to payment by a third party, including Medicare and other health insurance premiums, deductibles, or coinsurance, and, subject to reasonable limits a State may establish, necessary medical or remedial care recognized under State law but not covered under the State's Medicaid plan. The conferees note that, until recently, HCFA regulations required that Medicaid-eligible nursing home residents be allowed to deduct uncovered medical costs from their income before contributing toward the cost of nursing home care. However, a recent HCFA regulation, 53 *Fed. Reg.* 3586 (Feb. 8, 1988), altered this rule to allow States to limit this deduction substantially, or to eliminate it altogether. The conference agreement is intended to reinstate the previous rule, retroactive to the effective date of the recent change (April 8, 1988). As under the previous regulation, States will have the ability to place "reasonable limits" on a resident's expenditures for medical or remedial care. The conferees wish to emphasize that these limits must ensure that nursing home residents are able to use their own funds to purchase necessary medical or remedial care not covered by the State Medicaid program, while minimizing opportunities for providers to take financial advantage of either the program or the residents. For example, it would be reasonable for a State to provide that only uncovered services prescribed by a physician may be deducted. It would also be reasonable for States to impose specific dollar limits for specific services or items, provided that these limits reflect annual increases in the cost of medical care services and supplies. However, it would not be reasonable for States to set an overall dollar limit, such as $50 per month, for all noncovered services. Similarly, it would not be reasonable for States to impose a limit on the number of medically necessary services or items that an individual could deduct in any month. In providing these examples of "reasonable limits" for deductions of uncovered medical expenses incurred by nursing home residents, the conferees do not intend any approval of camparable limitations in the "spenddown" process for medically needy programs.

(e) *Notice and Hearing.*—The conference agreement follows the Senate amendment with the following modification. If either the community or institutionalized spouses establishes in a fair hearing that, due to exceptional circumstances resulting in significant financial duress, the community spouse needs income above the minimum monthly maintenance needs allowance, the State is required to increase the allowance to provide this amount, notwithstanding the $1500 statutory ceiling. Exceptional circumstances resulting in significant financial duress would include, but not be limited to, the financial burden of caring for a disabled child, sibling, or other immediate relative. If either spouse establishes in a fair hearing that the community spouse resource allowance (in relation to the income generated by such allowance) is inadequate to raise the income of the community spouse to the level of the minimum monthly maintenance needs allowance (taking into account any other income attributed to the community spouse), the State must provide for a resource allowance adequate in amount to generate that level of income for the community spouse.

(f) *Court-ordered Support.*—The conferences agreement follows the Senate amendment.

(g) *Transfer of Assets.*—The conference agreement follows the Senate amendment, with a modification. The transfer of assets prohibitions apply only with respect to individuals institutionalized in a medical institution or nursing facility. The term "medical institution" has the same meaning as under current regulations, 42 C.F.R. section 435.1009; the term "nursing facility" includes a skilled nursing facility or intermediate care facility (other than an ICF for the mentally retarded), until October 1, 1990, when these categories will be replaced by "nursing facility." States are required to determine whether these individuals made any prohibited resource transfers within 30 months prior to application for benefits. This requirement is effective with respect to applications for Medicaid eligibility occurring on or after July 1, 1988 and applies only with respect to resources transferred on or after July 1, 1988. Thus, in those States which do not have transfer or assets prohibitions in place prior to July 1, 1988, the State can look back only to transfers occurring on or after July 1, 1988. In those States that, prior to July 1, 1988, have exercised their option to penalize transfers of assets for less than fair market value, the State may continue to apply its pre-July 1 transfer policies and penalties with respect to resources transferred prior to July 1, 1988, even in cases where application for Medicaid benefits is made after on or after that date. However, with respect to resource transfers occurring on or after July 1, 1988, the rules set forth in the conference agreement regarding computation of the period of ineligibility and exceptions to the transfer prohibition will apply in all States, including the "209(b)" States which have elected the option to use more restrictive eligibility standards with respect to their aged, blind, and disabled beneficiaries than apply under SSI.

The conference agreement also repeals the provision in present SSI law which requires that the uncompensated value of resources transferred at less than fair market value within the preceding 24 months be counted toward the SSI resource limit. However, under the conference agreement, a transfer of resources at less than fair value by an SSI applicant or recipient will be considered in determining an individual's eligibility for Medicaid if and when the individual enters a medical institution or nursing facility. Such transfers may include, for example, the SSI applicant's or recipient's home even though at the time of the transfer the home was not a countable SSI resource. Therefore, the conference agreement will require that the Secretary inform SSI applicants in writing, at the time of application, and SSI recipients, at the time of redetermination of eligibility, of the provisions of Medicaid law with respect to transfer of assets. The Secretary will be required to request from the individual information about transfers and, at the time of such request, to inform the individual that such information may be shared with the State Medicaid agency. The Secretary will also be required to make this information available to a State Medicaid agency, upon request; the State may, at its option, use this information to determine whether and to what extent there will be a period of ineligibility for Medicaid because an individual transferred resources at less than fair market value.

(h) *Conforming Amendment.*—The conference agreement follows the House bill, which applies to States which cover the medically needy, with a modification extending its application to States which offer coverage to optional categorically needy individuals and to "209(b)" States as well. Under the moratorium imposed by section 2373(c) of P.L. 98-369, as clarified by section 9 of P.L. 100-93, States have flexibility to establish income and resource methodologies under medically needy programs, optional categorically needy programs, and under the "209(b)" option that are less restrictive, i.e. more generous, than those applied in the corresponding cash assistance programs. The conference agreement codifies this flexibility, retroactive to October 1, 1982.

(i) *Study of Means of Recovering Costs of Nursing Facility Services from Estates of Beneficiaries.*—The conference agreement includes a technical amendment reflecting the Senate amendment, the text of which had been agreed to in, but was inadvertently ommitted from, the Omnibus Budget Reconciliation Act of 1987, P.L. 100-203. The conference agreement includes additional OBRA '87 technical corrections and other miscellaneous provisions.

With respect to section 4112 of OBRA '87, relating to payment adjustments for disproportionate share hospitals, the conference agreement makes a number of technical corrections regarding the 3-year phase-in and other matters. It clarifies that the special rule in subsection 4112(e) applies only to New York, and adds a special rule providing that, for a 3-year period, Texas may use its own definition of disproportionate share hospital and its own payment adjustment rules so long as the aggregate amount payment adjustments to disproportionate share hospitals is not less than the amount that would be required by section 4112. During this 3-year period, in meeting the requirement that at least two obstetricians with staff privileges agree to provide obstetric services to Medicaid patients, a hospital in an urban area in Texas seeking disproportionate share status could substitute family practitioners, internists, or any other qualified physician with staff privileges.

The conference agreement clarifies that Federal Medicaid matching funds are available for the cost of health services, covered under a State's Medicaid plan, that are furnished to a handicapped child or a handicapped infant or toddler, even though such services are included in the child's individualized education program or individualized family service plan. Under the Education for All Handicapped Childeren Act of 1975, P.L. 94-142, children with handicaps are entitled to a free and appropriate public education in conformity with an individualized education program (IEP) which describes the educational and "related services" necessary to meet the child's unique needs. While the State education agencies are financially responsible for educational services, in the case of Medicaid-eligible handicapped child, State Medicaid agencies remain responsible for the "related services" indentified in the child's IEP if they are covered under the State's Medicaid plan, such as speech pathology and audiology, psychological services, physical and occupational therapy, and medical counseling and services for diagnostic and evaluation purposes.

The conference agreement defines an institution for mental diseases (IMD) as a hospital, nursing facility, or other institution of more than 16 beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases. This would clarify that Federal Medicaid matching funds would be available for services such as personal care and case management that are furnished through or by group homes or other small facilities serving the mentally ill, if those services are covered by the State under its Medicaid plan. The 16-bed limitation parallels current rules under the SSI program.

The conferees wish to clarify the requirements in sections 4201 and 4211 of P.L. 100–203 that nursing facilities with more than 120 beds must have at least one social worker (with at least a bachelor's degree in social work or similar professional qualification) employed full-time to provide or assure the provision of social services. Facilities could meet this requirement by employing either a person with a dregree in social work or with similar professional qualifications, such as a degree in a related field and previous supervised experience in meeting individual psycho-social needs. It is the intent of the conferees that the Secretary ensure that requirements regarding consultation and supervision of social work services be at least as stringent as those in effect prior to enactment of these changes.

The conferees also wish to clarify that it was the intent of sections 4201 and 4211 of P.L. 100–203 that the Secretary ensure that the requirements for dietary services be at least as stringent as those in effect prior to enactment of P.L. 100–203.

36. Technical Amendment Relating to Home and Community-Based Services (Section 19 of Senate amendment)

Present law

Comparable provision included in section 4418(a) of Public Law 100–203.

37. Technical Amendments Relating to New Jersey Respite Care Pilot Project (Section 20 of Senate amendment)

Present law

Comparable provision included in section 4418(o) of Public Law 100–203.

38. Treatment of Garden State Health Plan (Section 25 of Senate amendment)

Present law

Comparable provision included in section 4113 of Public Law 100–203.

39. Technical Amendments Relating to the Omnibus Budget Reconciliation Act of 1987

Conference agreement

PART A AND AMENDMENTS AFFECTING BOTH PARTS A AND B

The conference agreement includes a number of technical and conforming amendments to the Medicare Part A and Parts A and B provisions of OBRA–87. These include:

(1) The prohibition on the issuance by the Secretary of any regulation, instruction, or other policy which is estimated by the Secretary to result in a net reduction in expenditures of more than $50 million is extended to October 15, 1989;

(2) Clarification that the regional floor on hospital payment applies on a census region basis, not a wage area basis;

(3) Clarification that outlying counties of metropolitan areas can only be designated as urban if they meet the commuting rules and all other applicable standards for designation as part of an urban area;

(4) In the case of hospitals with more than 49 beds using swing beds, authorization is provided to continue payment for patients in the hospital receiving skilled mursing care when the hospital reaches its limit for swing bed care;

(5) Clarification that the hospital cost report is to be permanent;

(6) Revisions to the uniform hospital reporting demonstration program to (i) delete date elements on which it is not feasible to collect information at this time; (ii) allow additional time for the collection of data and the preparation of a report; and, (iii) extend the period of time during which funds may be expended for the demonstration;

(7) Amendments to conform anti-fraud and abuse provisions of OBRA '87 to existing statutory provisions;

(8) Extension of the date for submission of a report on hospital quality assurance required by OBRA '86 to January 1, 1990.

(9) Clarification that the rule regarding payment for hospital services by pre-paid plans under section 1876 applies to contracts established under pre-TEFRA demonstration authorities;

(10) Clarification that the hospital payment rule applies only in the case of a pre-paid which does not have a contract with the hospital or the skilled nursing facility seeking payment for its services. Most often, the rule would apply in the case of out-of-plan services or when contract negotiations have not been successful. The hospital or the skilled nursing facility are free to establish any level or type of payment they wish through negotiations pursuant to a contract;

(11) Clarification of the application of the 50/50 rule to H.I.P./Network.

PART B AND PROS

The conference agreement includes a number of technical and conforming amendments to the Medicare Part B and PRO provisions of OBRA–87. These include:

(1) Consolidation of definitions relating to physician payment in new Section 1842(i);

(2) Amendments clarifying that there is only one prevailing charge for payment of physicians' services calculated on the basis of customary charges of participating and non-participating physicians. The differential between participating and non-participating physicians continues without change;

(3) Clarifying that reductions in payment for cataract surgery and requirements relating to the use of an assistant at-surgery for cataract surgery also apply to insertion of an interocular lens subsequent to cataract removal;

(4) Conforming amendments regarding maximum allowable actual charge limits for reductions in payment for concurrent anesthesia services;

(5) Clarifying amendment to the purchase service provision, including an amendment to allow for billing for such services on an unassigned basis;

(6) Amendments clarifying that the scholarship loan default offset provision applies to non-physician defaulters and to physician and non-physician defaulters under the Health Education Assistance Loan program and the Physician Shortage Area Scholarship program;

(7) An amendment clarifying that the 1975 prevailing charge floor continues but is phased-out as it is no longer needed;

(8) Corrections and clarifying amendments to the durable medical equipment fee schedule;

(9) Clarifying penalties for improper billing of interocular lenses included in payment to ASCs;

(10) Consolidating amendments incorporating OBRA-87 policies regarding clinical labs into the Social Security Act and clarifying amendments related to the effective date for the elimination of the 2% differential for hospital laboratories;

(11) Clarifying amendments for new Section 1846;

(12) Clarification of provisions relating to payment of hospital outpatient departments for radiology services;

(13) Clarifying amendments that the standard coinsurance applies to services of nurse midwives and clinical psychologists and conforming amendments applying the same penalties for improper unassigned billings to these services as apply to the services of certified registered nurse anesthetists and physician assistants;

(14) Clarifying amendments to the provision requiring coordination of claims with Medigap insurers and an amendment delaying the effectiveness of this provision for Medigap policies sold in states which did not enact necessary changes prior to July 1, 1988.

NURSING HOME REFORM

The conference agreement includes a number of technical and correcting amendments to the Medicare and Medicaid Nursing Home Reform provisions of OBRA 87. These include amendments revising effective date and other requirements. The effective dates for certain Medicare requirements are changed from the first date noted to the second date noted as follows:

(1) requirement that skilled nursing facilities conduct resident assessments: from October 1, 1990 to January 1, 1991;

(2) required training of nurse aides used by facilities: from October 1, 1989 (or January 1, 1990, in the case of an individual used as a nurse aid before July 1, 1989) to January 1, 1990;

(3) requirement for States to specify approved nurse aide training and competency evaluation programs: from March 1, 1989 to January 1, 1989;

(4) requirement for States to review and reapprove nurse aide training and competency evaluation: from March 1, 1990 to January 1, 1990;

(5) requirement for States to establish nurse aide registries: from March 1, 1989 to January 1, 1989;

(6) requirement for States to provide for an appeals process for transfers: from October 1, 1990 to October 1, 1989;

(7) requirement for States to specify the resident assessment instrument: from July 1, 1989 to July 1, 1990;

(8) requirement for the Secretary to establish guidelines for States appeals process for transfers: from October 1, 1989 to October 1, 1988;

(9) requirement for the Secretary to specify a minimum data set of core elements and common definitions for resident assessments: from July 1, 1989 to January 1, 1989;

(10) requirement for the Secretary to designate one or more resident assessment instruments: from October 1, 1990 to April 1, 1990;

(11) requirement that a facility permit immediate access to any resident by any representative of the Secretary or State, by an ombudsman, or by the resident's individual physician: effective on the date of enactment;

(12) requirement for the Secretary to develop, test, and validate standard and extended survey protocols: from October 1, 1990 to January 1, 1990.

Certain Medicaid effective dates have also been revised:

(1) requirement for States to specify approved nurse aide training and competency evaluation programs: from September 1, 1988 to January 1, 1989;

(2) requirement for States to review and reapprove nurse aide training programs: from September 1, 1990 to January 1, 1990;

(3) agreement between State and Secretary for disposition of residents who require active treatment: from October 1, 1988 to April 1, 1989;

(4) requirement for the Secretary to establish requirements for the approval of nurse aide training and competency evaluation programs: from July 1, 1988 to September 1, 1988;

(5) requirement that a facility permit immediate access to any resident by any representative of the Secretary or State, by an ombudsman, or by the resident's individual physician: effective on the date of enactment.

These amendments also clarify that nursing facilities are required to manage the personal funds of residents if requested to do so by the resident. The amendments also require States to make available to the public information in nurse aide registries.

With regard to requirements for social workers included in the OBRA 87 amendments, the conferees intend that the Secretary ensure that requirements regarding consultation and supervision of social work services be at least as stringent as those in effect prior to enactment of the OBRA changes.

RURAL HEALTH

Clarifies that the set aside for demonstrations applies to both research and demonstrations but only to funds appropriated to and expended by the Health Care Financing Administration. Conforms statutory language to intent of conferees that there be equal ten percent set-asides for rural and for inner city research and demonstrations.

From the Committee on Ways and Means, for consideration of titles I, II, and IV of the House bill, and the entire Senate amendment (except for secs. 14, 14A, 14B, 14C, 19, 20, and 25), and modifications committed to conference:

DAN ROSTENKOWSKI,
PETE STARK,
BRIAN J. DONNELLY,
WILLIS D. GRADISON, Jr.

From the Committee on Energy and Commerce, for consideration of titles II, III, and IV of the House bill, and the Senate amendment (except for secs. 2, 3, 12, and 18(a)) and for sec. 6 of the Senate amendment insofar as consideration of such section entails changes in eligibility requirements to participate in part B of the Medicare program, and modifications committed to conference:

JOHN D. DINGELL,
HENRY A. WAXMAN,
RON WYDEN,
EDWARD R. MADIGAN (except for sec. 204 of the House bill and sec. 7 of the Senate amendment),

For consideration of sec. 204 of the House bill and sec. 7 of the Senate amendment:

MICHAEL BILIRAKIS,

From the Committee on Education and Labor, for consideration of sec. 21 of the Senate amendment, and modifications committed to conference:

GUS HAWKINS,
WILLIAM CLAY,
JAMES JEFFORDS,
Managers on the part of the House.

LLOYD BENTSEN,
MAX BAUCUS,
BILL BRADLEY,
GEORGE MITCHELL,
DAVID PRYOR,
JOHN H. CHAFEE,
JOHN HEINZ,
DAVID DURENBERGER,
Managers on the part of the Senate.

Part III. Administrative, Procedural and Miscellaneous

CONTENTS

Part III. Administrative, Procedural and Miscellaneous

Low-Income Housing Tax Credit—Election of Appropriate Percentage Month; Carryover of Post 1987 Low-Income Housing Credit Dollar Amounts

Notice 89-1

This Notice informs taxpayers of the requirements of two of the amendments to section 42 of the Internal Revenue Code (the Code) made by the Technical and Miscellaneous Revenue Act of 1988 (the 1988 Act) (Pub. L. 100-647). Those amendments relate to (1) an election by a taxpayer to use the appropriate percentage for a month other than the month in which a building is placed in service, and (2) carryover of post-1987 low-income housing credit dollar amounts.

ELECTION OF APPROPRIATE PERCENTAGE MONTH

Section 1002(1)(1)(A) of the 1988 Act amended section 42(b)(2)(A) of the Code to read as follows:

> In the case of any qualified low-income building placed in service by the taxpayer after 1987, the term "applicable percentage" means the appropriate percentage prescribed by the Secretary for the earlier of—
>
> (i) the month in which such building is placed in service, or
>
> (ii) at the election of the taxpayer—
>
> (I) the month in which the taxpayer and the housing credit agency enter into an agreement with respect to such building which is binding on such agency, the taxpayer, and all successors in interest as to the housing credit dollar amount to be allocated to such building, or
>
> (II) in the case of any building to which subsection (h)(4)(B) applies, the month in which the tax-exempt obligations are issued.
>
> A month may be elected under clause (ii) only if the election is made not later than the 5th day after the close of such month. Such an election, once made, shall be irrevocable.

For purposes of the election under section 42(b)(2)(A)(ii)(I) of the Code (as amended) as set forth above, an agreement between a taxpayer and a state housing credit agency is considered binding on the agency, the taxpayer, and all successors in interest if it:

(1) is in writing;

(2) specifies the housing credit dollar amount to be allocated to the building;

(3) specifies the type(s) of building(s) to which the housing credit dollar amount applies (e.g., newly constructed, existing, or substantial rehabilitation under section 42(e));

(4) is a binding contract under state law;

(5) is binding on all successors in interest to the taxpayer; and

(6) is dated and signed by the taxpayer and the agency during the month in which all the requirements of (1) through (5) are met.

A taxpayer may elect under section 42(b)(2)(A)(ii)(I) of the Code to use the appropriate percentage for a month other than the month in which a building is placed in service. If such an election is made, the applicable percentage will be the appropriate percentage for the month in which the binding agreement to allocate a specific housing credit dollar amount is made, assuming that the taxpayer has not previously made the election for a different month. Whether the appropriate percentage is the appropriate percentage for the 70 percent present value credit or the 30 percent present value credit will be determined under section 42(i)(2) when the building is placed in service. The election may be made either as part of the binding agreement to allocate a specific housing credit dollar amount or in a separate document. A proper election under section 42(b)-(2)(A)(ii)(I) must:

(1) be in writing;

(2) reference section 42(b)(2)(A)(ii)(I) of the Code;

(3) if it is in a separate document, reference the binding agreement to allocate the specific housing credit dollar amount that meets the requirements of (1) through (6) above;

(4) be signed by the taxpayer; and

(5) be notarized by the 5th day following the month in which the binding agreement was made. The notarization must be made on the last page of the election statement and may not be made on a separate page.

The original notarized document must be given to the housing credit agency before the close of the 5th calendar day of the month following the month in which the binding agreement was made. The taxpayer must retain a copy of the binding agreement and the election statement and file an additional copy with the taxpayer's Form 8609, Low-Income Housing Credit Allocation Certification, for the first taxable year in which the credit is claimed. The agency must retain a copy of the binding agreement and the election statement and file the original with the agency's Form 8610, Annual Low-Income Housing Credit Agencies Report, for the year the allocation is actually made. If the housing credit dollar amount ultimately allocated on Form 8609 differs from the amount previously agreed to in the binding agreement, an explanation should be furnished.

The housing credit dollar amount ultimately allocated to the building may not be less than the amount specified in the binding agreement, unless at the time the credit is allocated, the product of the building's actual or reasonably expected qualified basis and the appropriate percentage for the month in which the agreement was made is less than the amount specified in the binding agreement. If, at the time of the allocation, the product of the building's actual or reasonably expected qualified basis and the appropriate percentage for the month in which the agreement was made is greater than the housing credit dollar amount specified in the binding agreement, the agency may allocate a greater credit dollar amount if there is any additional housing credit dollar amount available to allocate for the calendar year of the allocation.

Example 1.

In January 1989 the taxpayer and the state housing credit agency enter into an agreement that meets the requirements for an agreement to be binding for purposes of section 42(b)(2)(A)(ii)(I) of the Code. In the agreement, the state housing credit agency agrees to allocate $100,000 of housing credit dollar amount to the low-income housing building being constructed by the taxpayer. This amount will be deducted from the state housing credit ceiling only during the calendar year in which the allocation is actually made. Before February 5, 1989, an election statement that meets the requirements for an election under section 42(b)(2)(A)(ii)(I) is signed by the taxpayer and is notarized so that the applicable percentage for the building will be the appropriate percentage for the month of January 1989. When the building is placed in service in August 1989, the product of the building's qualified basis and the appropriate percentage for the month of January 1989 is $150,000, rather than $100,000. Under the agreement the agency must allocate $100,000 of housing credit dollar amount. However, the agency may also allocate an additional $50,000 of housing credit dollar amount from its state housing credit fund for calendar year 1989 if the agency has credit available to allocate. The appropriate percentage for the month of January 1989 is the appropriate percentage to be used for the building, despite the fact that more housing credit dollar amount is allocated to the building when the building is placed in service than was previously agreed. Because the allocation of the $100,000 of housing credit dollar amount under the agreement and the $50,000 of additional housing credit dollar amount are made during the same calendar year, only one Form 8609 for the total amount allocated to the building must be completed.

The election under section 42(b)(2)(A)(ii)(II) of the Code pertains to buildings that are 70 percent or more financed by tax-exempt bonds subject to the volume cap of section 146. For those buildings, taxpayers may elect to apply the appropriate percentage for the month in which the tax-exempt bonds are issued. A proper election under section 42(b)(2)(A)(ii)(II) must:

(1) be in writing;
(2) reference section 42(b)(2)(A)(ii)(II) of the Code;
(3) specify the percentage of the aggregate basis of the building and the land on which the building is located that is financed by tax-exempt bonds subject to the volume cap of section 146;
(4) state the month in which the tax-exempt bonds are issued;
(5) state that the month in which the tax-exempt bonds are issued is the month elected for the appropriate percentage with respect to the building;
(6) be signed by the taxpayer; and
(7) be notarized by the 5th day following the month in which the bonds are issued. The notarization must be made on the last page of the election statement and may not be made on a separate page.

The taxpayer must provide the original notarized statement to the state housing credit agency before the close of the 5th calendar day of the month following the month in which the bonds are issued. If an agency, other than the state housing credit agency, issues the tax-exempt bonds, the taxpayer must also provide the state housing credit agency with a signed statement from the issuing authority that certifies the material in items (3) and (4). The taxpayer must retain a copy of the election statement and file an additional copy with the taxpayer's Form 8609 for the first taxable year in which the credit is claimed. The agency must retain a copy of the election statement and file the original with the agency's Form 8610 for the year an allocation is made.

Example 2.

A taxpayer plans to rehabilitate a low-income housing building in which 60 percent of the aggregate basis of the building and the land on which such building is located is financed by tax-exempt bonds subject to the volume cap under section 146 of the Code. The building does not meet the requirements of section 42(h)(4)(B) because less than 70 percent of such aggregate basis is financed by tax-exempt bonds subject to the volume cap under section 146. Therefore, the taxpayer may not elect under section 42(b)(2)(A)(ii)(II) to have the appropriate percentage for the month the tax-exempt bonds are issued apply to the low-income housing building. However, the taxpayer may enter into a binding agreement with the state housing credit agency under section 42(b)(2)(A)(ii)(I) as to the housing credit dollar amount to be allocated to the building and may elect to have the appropriate percentage for the month of the agreement apply to the building, assuming that no previous binding agreement exists as to the housing credit dollar amount to be allocated to the building.

If, under state law, a binding agreement for a specific housing credit dollar amount becomes null and void, and the taxpayer enters into another binding agreement for a specific housing credit dollar amount, the taxpayer may elect under section 42(b)(2)(A)(ii)(I) of the Code to apply the appropriate percentage for the month of the new binding agreement, assuming no such election was made with regard to the previous binding agreement.

If a taxpayer and the state housing credit agency entered into a binding agreement (which is still in effect under state law) for a specific housing credit dollar amount during calendar year 1988, the taxpayer may elect the appropriate percentage for the month in which the binding agreement was made by making an election statement in accordance with the requirements of this Notice before January 6, 1989.

If a taxpayer wishes to rely on a binding agreement or an election statement made prior to the date of release of this Notice, the taxpayer may do so if both such agreement and election statement (or solely the election statement in the case of an election made pursuant to section 42(b)(2)(A)(ii)(II) of the Code) are modified to conform to the requirements of this Notice before January 6, 1989. Such modified agreement and election statement shall relate back to the month in which the binding agreement was originally made or the month in which the tax-exempt bonds were issued, as appropriate. With respect to agreements made after December 31, 1988, and tax-exempt bonds issued after such date, the taxpayer has until the close of the 5th day after the month in which the agreement was made or the tax-exempt bonds were issued to elect to apply the appropriate percentage.

CARRYOVER OF POST-1987 LOW-INCOME HOUSING CREDIT DOLLAR AMOUNTS

Sections 1002(1)(14)(A) and 4003 of the 1988 Act amended section 42(h)(1) of the Code dealing with the allocation of housing credit dollar amounts by state housing credit agencies. Section 4003(a) provides an additional exception to the general rule in section 42(h)(1)(B) that allocations by state housing credit agencies must be made not later than the close of the calendar year in which a building is placed in service. The exception, which applies to "qualified buildings" not yet placed in service, is contained in section 42(h)(1)(E) and permits a qualified building to be placed in service in the year in which an allocation is received or in either of the 2 succeeding calendar years.

Section 42(h)(1)(E)(ii) of the Code defines a qualified building for purposes of section 42(h)(1)(E)(i) as any building that is part of a project if the taxpayer's basis in the project (as of the end of the calendar year in which the allocation is made) is more than 10 percent of the taxpayer's reasonably expected basis in the project (as of the end of the second calendar year succeeding the allocation year).

The following rules shall apply for purposes of the 10 percent basis exception in section 42(h)(1)(E) of the Code:

(1) Basis means the adjusted basis of land and depreciable real property, whether or not such amounts are includable in eligible basis; however, an allocation pursuant to section 42(h)(1)(E) of the Code is based upon items includable in eligible basis.

(2) A taxpayer has basis in land and other acquired real property when the benefits and burdens of ownership have been transferred to the taxpayer. In the case of purchased property, this transfer normally occurs at closing. For example, amounts paid to acquire an option to purchase land or a building are not includable in basis because the full benefits and burdens of ownership have not been transferred to the taxpayer; nor have the benefits and burdens of ownership been transferred merely because a nonrefundable downpayment is made.

(3) Whether a taxpayer has basis in construction costs depends upon the method of accounting used by the taxpayer. For example, the cost of construction services is included in the basis of an accrual method taxpayer when the services are performed, and in the basis of a cash method taxpayer when the bill for such services is paid.

(4) With respect to taxpayers who are members of partnerships or other flow-through entities, the accounting method of the flow-through entity shall be applied to determine whether the 10 percent exception applies.

Application of the foregoing rules may result in an answer different from that required by section 42(n) of the Code as it existed prior to the passage of the 1988 Act as interpreted by Notice 88-116. To the extent that the provisions of Notice 88-116 are inconsistent with this notice, Notice 88-116 is superseded.

Generally, an allocation is made when a state housing credit agency issues a Form 8609 to the taxpayer. However, an allocation pursuant to section 42(h)(1)(E) of the Code is an exception to this general rule. When an allocation is made pursuant to section 42(h)(1)(E), a Form 8609 is not issued by the state housing credit agency until the calendar year in which the building is placed in service. State housing credit agencies are responsible for issuing Forms 8609 to taxpayers in the calendar years that buildings are placed in service even if such years are later than the calendar years in which allocations are made pursuant to section 42(h)(1)(E). Thus, even though the state housing credit ceiling is zero for any calendar year after 1989, agencies are required to issue Forms 8609 after that date to taxpayers that received allocations pursuant to section 42(h)(1)(E) and placed buildings in service after December 31, 1989.

An allocation pursuant to section 42(h)(1)(E) of the Code reduces the state housing credit ceiling for the year in which the allocation is made, whether or not a Form 8609 is issued that year.

An allocation pursuant to section 42(h)(1)(E) of the Code is made when an allocation document containing the following information is completed, signed and dated by an authorized official of the housing credit agency:

(1) the address of the building, or if none exists, a specific description of its location;

(2) the name, address, and taxpayer identification number of the building owner receiving the allocation;

(3) the name and address of the housing credit agency;

(4) the taxpayer identification number of the agency;

(5) the date of the allocation;

(6) the housing credit dollar amount allocated to the building;

(7) the taxpayer's total reasonably expected basis in the project;

(8) the taxpayer's basis in the project as of the close of the calendar year in which the allocation is made and the percentage such basis bears to the total reasonably expected basis in the project;

(9) the expected date that the building will be placed in service; and

(10) the Building Identification Number (B.I.N.) to be assigned to the building when the building is placed in service. The B.I.N. should reflect the year the allocation is made, rather than the year the building is placed in service, unless the building is placed in service during the allocation year.

A building receiving an allocation pursuant to section 42(h)(1)(E) of the Code must be placed in service no later than the close of the second calendar year following the calendar year in which the allocation is made. If a building does not receive an allocation pursuant to section 42(h)(1)(E), the building must be placed in service by December 31, 1989, even if all or a portion of the building is financed with tax-exempt debt. Therefore, any building that is to be placed in service after December 31, 1989, must receive an allocation of credit pursuant to section 42(h)(1)(E) before the housing credit agency's authority to allocate credit expires.

When an allocation is made pursuant to section 42(h)(1)(E) of the Code, the taxpayer must retain a copy of the allocation document and file an additional copy with the Form 8609 that is issued to the taxpayer during the calendar year that the building is placed in service. Form 8609 must be filed for the first taxable year in which the credit is claimed. The agency must retain a copy of the allocation document and file the original with the agency's Form 8610, for the year an allocation is made.

If a taxpayer receives an allocation under section 42(h)(1)(E) of the Code and wishes to elect under section 42(b)(2)(A)(ii) to use the appropriate percentage for a month other than the month in which the building is placed in service, the requirements specified above for an effective election under section 42(b)(2)(A)(ii) must also be met.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Gasohol; Rules Effective January 1, 1989

Notice 89-2

The purpose of this notice is to inform gasohol blenders and sellers of gasoline that the transitional rules for registered gasohol blenders provided in Notice 88-2, 1988-1 C.B. 473, Notice 88-34, 1988-1 C.B. 516, and Notice 88-69, 1988-2 C.B. 369, for 1988 will continue in effect through September 30, 1989. Under the rules provided by Notices 88-2, 88-34 and 88-69 and all the conditions provided therein, the reduced rate of tax under section 4081(c)(1) of the Internal Revenue Code applies to all sales or removals of gasoline to registered gasohol blenders if the gasoline is, or will be, blended with alcohol to produce gasohol.

Registered gasohol blenders are reminded that they must file a Quarterly Federal Excise Tax Return, Form 720, for each of the first three quarters of 1989 (as was required for 1988) and maintain certain records if they purchase gasoline at the reduced rate of tax for blending with alcohol to produce gasohol. The retention of these records is necessary to enable taxpayers to establish that the gasoline purchased at the reduced rate of tax has been blended with alcohol. Registered gasohol blenders are reminded that use of a registration to buy gasoline that is not to be used to blend with alcohol to produce gasohol is a misuse of the registration and may lead to revocation or suspension of the registration.

Section 6104 of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. 100-647 ("1988 Act"), modifies section 4081(c)(1) of the Code effective October 1, 1989. Before that date, the Service will issue rules implementing the changes made by the 1988 Act.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Ordering Rules for the Allocation of Separate Limitation Losses, the Recapture of Overall Foreign Losses, the Recharacterization of Separate Limitation Income, and the Allocation of U.S Source Losses

Notice 89-3

This notice provides guidance relating to the amendments made to section 904(f) of the Internal Revenue Code of 1986 by the Tax Reform Act of 1986, 1986-3 (Vol. 1) C.B. 1 (the Act). Specifically, this notice provides ordering rules for the allocation of separate limitation losses, the recapture of overall foreign losses, the recharacterization of separate limitation losses, and the allocation of U.S source losses to separate limitation income.

The rules in this notice will be incorporated in regulations to be issued under the Act. In addition, those regulations will provide rules concerning the operation of the loss allocation and recapture provisions. This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

LAW

Prior to the Act, if a taxpayer sustained a foreign source loss in a separate limitation income category, the loss reduced the taxpayer's U.S. source income before reducing foreign source income subject to another separate limitation. Section 1203 of the Act amended section 904(f) of the Code by adding paragraph (5), which changed the order in which U.S. and foreign source income are reduced by a foreign source loss. In general, section 904(f)(5) provides that a foreign source loss with respect to any income category (a separate limitation loss) is to be allocated on a proportionate basis among (and operates to reduce) separate limitation income in other income categories for the taxable year before reducing U.S. source income. Section 904(f)(5) also provides that, if a separate limitation loss from an income category ("the loss category") was allocated to separate limitation income in any other category in a taxable year, and there is income in the loss category in a subsequent taxable year, then the income shall be recharacterized as separate limitation income in such other category in an amount equal to the prior reduction. In addition, section 904(f)(5) provides that a U.S. source loss shall be allocated to the separate limitation income of the taxpayer in each income category on a proportionate basis.

The amendments to section 904(f) of the Code made by the Act did not change the prior law requirement under section 904(f)(1) for the recapture of overall foreign losses.

ANALYSIS

Ordering rule for allocation of separate limitation losses, recapture of overall foreign losses, recharacterization of separate limitation income, and allocation of U.S. source losses. For taxable years beginning after December 31, 1986 (post-1986 taxable years), the following ordering rule shall apply for purposes of allocating separate limitation losses, recapturing overall foreign losses, recharacterizing separate limitation income, and allocating U.S. source losses.

(1) Net operating losses from a current taxable year are carried forward or back to a post-1986 taxable year in the following manner. Net operating losses that are carried forward, pursuant to section 172 of the Code, are combined with income or loss in the carryover year in the manner described in this paragraph (1). Net operating losses that are carried back, pursuant to section 172, shall be allocated to income in the earlier year in a manner consistent with the principles of paragraph (1)(b). The income in the carryback year is the foreign source income in each separate limitation category and the U.S. source income after the application of section 904(f) to income and loss in that previous year, including as a result of net operating loss carryforwards or carrybacks from taxable years prior to the current taxable year.

(a) This paragraph (1)(a) applies if the full net operating loss (that remains after carryovers to other taxable years) can be carried forward in its entirety to a particular taxable year. U.S. source losses and foreign source losses in separate limitation categories that are part of a net operating loss from a particular taxable year that is carried forward in its entirety shall be combined with the U.S. income or loss and the foreign source income or loss in the same separate limitation categories in the carryover year; the combined amounts shall then be subject to the ordering rules provided in paragraphs (2) through (5).

(b) This paragraph (1)(b) applies if the full net operating loss (that remains after carryovers to other taxable years) cannot be carried forward in its entirety to a particular taxable year.

(i) First, any U.S. source loss (not to exceed the net operating loss carryover) shall be carried over to the extent of any U.S. source income in the carryover year.

(ii) If the net operating loss carryover exceeds the U.S. source loss carryover determined under paragraph (1)(b)(i), then separate limitation losses that are part of the net operating loss shall be tentatively carried over to the extent of separate limitation income in the same category. If the sum of the separate limitation loss carryovers determined under the preceding sentence exceeds the amount of the net operating loss carryover reduced by any U.S. source loss carried over under paragraph (1)(b)(i), then the separate limitation loss carryovers shall be reduced pro rata so that their sum equals such amount.

(iii) If the net operating loss carryover exceeds the sum of the U.S. and separate limitation loss carryovers determined under paragraph (1)(b)(i) and (ii), then a proportionate part of the remaining loss from each separate limitation category shall be carried over to the extent of such excess. Any separate limitation losses carried over under this paragraph (1)(b)(iii) shall be allocated in accordance with section 904(f)(5).

(iv) If the net operating loss carryover exceeds the sum of all the loss carryovers determined under paragraph (1)(b)(i), (ii), and (iii), then any U.S. source loss not carried over under paragraph (1)(b)(i) shall be carried over to the extent of such excess and allocated in accordance with section 904(f)(5)(D).

(2) The taxpayer shall allocate separate limitation losses sustained during the taxable year (increased, if appropriate, by any net operating loss carryover computed under paragraph (1)), to its separate limitation income in other income categories on a proportionate basis.

(3) The taxpayer's U.S. source income shall be increased or decreased in the following manner:

(a) If the taxpayer's separate limitation losses for the year (including losses carried over under paragraph (1)) exceed the taxpayer's separate limitation income for the year, so that the taxpayer has separate limitation losses remaining after the application of paragraph (2), those losses shall be allocated to the taxpayer's U.S. source income for the taxable year, to the extent thereof. The taxpayer shall increase its overall foreign loss accounts appropriately.

(b) If the taxpayer's foreign source separate limitation income for the year (reduced by any losses carried over under paragraph (1)) exceeds the taxpayer's foreign source separate limitation losses for the year, so that the taxpayer has foreign source separate limitation income remaining after the application of paragraph (2), then the taxpayer shall recapture prior year overall foreign losses, if any. See generally section 1.904(f)-1 through 1.904(f)-6 and section 1.904(f)-13T of the regulations and the Conference Agreement to the Tax Reform Act of 1986 (H.R. Conf. Rep. 99-841, 99th Cong., 2nd Sess. 591 (1986)), which provides that foreign source separate limitation income shall be recaptured as U.S. source income under section 904(f) of the Code only to the extent that an overall foreign loss relates to that income category (that is, to the extent that U.S. source income was reduced by losses in that income category).

(4) The taxpayer shall recharacterize foreign source separate limitation income as income in other separate limitation categories to the extent that income in those other separate limitation categories was reduced by losses in the first category in a previous taxable year.

(5) The taxpayer shall allocate U.S. source losses sustained during the taxable year (increased, if appropriate, by any net operating loss carryover determined under paragraph (1) and decreased, if appropriate, by any recapture of an overall foreign loss determined under paragraph (3)) to foreign source separate limitation income on a proportionate basis.

Estate Tax Marital Deduction—Qualified Terminable Interest Property—Estate of Rose D. Howard

Notice 89-4

The purpose of this notice is to set forth the Internal Revenue Service's position with respect to the application of sections 2044, 2056(b)(7), 2519, and 2523(f)(2) in cases involving facts similar to those at issue in *Estate of Rose D. Howard*, 91 T.C. No. 26 (decided August 23, 1988).

BACKGROUND

In *Estate of Howard*, the United States Tax Court held that a trust does not satisfy the requirements for a qualified terminable interest property ("QTIP") trust under section 2056(b)(7) of the Internal Revenue Code unless the trustee is required by the terms of the trust or state law to pay the income accumulated between the last distribution date and the surviving spouse's death to the surviving spouse's estate or pursuant to the surviving spouse's exercise of a general power of appointment. In so holding, the Court embraced a position that is directly contrary to proposed regulations under section 2056(b)(7).

Section 2056(b)(7) allows an estate tax marital deduction for the value of property passing from a decedent to a trust in which the decedent's spouse has a "qualifying income interest for life" and with respect to which an election is made to treat the trust principal as QTIP. Correlatively, section 2044 provides that property for which a deduction is allowed under section 2056(b)(7) is includible in the spouse's gross estate.

Section 2056(b)(7)(B)(ii)(I) provides that a decedent's spouse has a qualifying income interest for life only if he or she is "entitled to all the income from the property, payable annually or at more frequent intervals. . . ." Proposed regulations under section 2056(b)(7) take the position that the spouse's interest may satisfy that requirement even though income accrued after the last distribution date prior to the spouse's death is payable to the remainder beneficiaries. Prop. Est. Tax Reg. section 20.2056(b)-(7)(c)(1).

The trust before the Court in *Estate of Howard* was funded with property passing from Rose Howard's husband, Volney Howard. The trustee was required to pay all of the income to Rose at quarterly or more frequent intervals and to pay any income undistributed at Rose's death to the remainder beneficiaries.

Consistent with the proposed regulations, Volney's estate elected to treat the trust as a QTIP trust and claimed a marital deduction for the value of the trust property. After Rose's death, Volney's estate filed an amended estate tax return on which it claimed that Rose's interest in the trust was not a "qualifying income interest for life" and therefore did not satisfy the requirements for a QTIP trust imposed by section 2056(b)(7). Consistent with that claim, Rose's estate took the position on its estate tax return that the trust property was not includible in Rose's gross estate under section 2044.

The Service determined that the QTIP election made by Volney's estate was effective and irrevocable and that the trust property was therefore includible in Rose's gross estate under section 2044. Rose's estate petitioned the Court for review of that determination.

In ruling in favor of Rose's estate, the Court rejected the Service's position that the requirements for a qualifying income interest for life are satisfied if the surviving spouse is entitled to all the income payable at the required intervals during his or her life. Instead, the Court found in the statutory language separate requirements: (1) the trustee must be required to distribute the income at annual or more frequent intervals; and (2) the surviving spouse must be entitled to all the income accrued through the date of his or her death. The Court added that the spouse is not "entitled" to the accrued but undistributed income unless that income is payable to his or her estate or pursuant to his or her exercise of a general power of appointment.

SERVICE'S POSITION

The Service continues to believe that the position reflected in the proposed regulations is correct. In response to the Tax Court's decision in *Estate of Howard*, the Service may take one or more of the following steps: (1) recommend appeal, (2) finalize the pertinent provisions of the proposed regulations, and (3) seek clarifying legislation.

The Service understands that because of *Estate of Howard* taxpayers and their representatives are concerned that the Service may abandon the position reflected in the proposed regulations and deny the marital deduction with respect to property passing to a trust that does not meet the requirements articulated by the Tax Court. To allay that concern, the Service has initiated an interim settlement procedure available with respect to any trust that presents the issue addressed in *Estate of Howard*, but otherwise meets the requirements of section 2056(b)(7) or 2523(f)(2). Under the procedure, the Service and the persons having an interest in the trust will formally acknowledge that the marital deduction is allowable for the property passing to the trust and that the spouse's interest in the trust is a "qualifying income interest for life" for purposes of sections 2044 and 2519.

The terms of the settlement will be embodied in a closing agreement under section 7121 signed by the Service's authorized representative and all persons having an interest in the trust. Ordinarily, those required to sign the agreement will include the trustee, the settlor's spouse, and the remainder beneficiaries. However, if it is demonstrated to the Service's satisfaction that under applicable local law the trustee or the settlor's spouse has power to bind the remainder beneficiaries, their signatures will not be required.

The settlement procedure is available with respect to any transfer in trust for which the applicable period of limitations remains open, including a transfer reported on a return that is the subject of a closing letter issued by the District Director. It will remain available with respect to any such transfer until the later of December 31, 1989, or the date that is ninety days after the date the District Director gives the taxpayer written notice of the availability of the procedure.

Ordinarily, the closing agreement will be executed in connection with the examination of the return on which the transfer is reported. In the case of a return that was previously or has not yet been examined, either the Service or the taxpayer may initiate the settlement procedure.

A taxpayer who fails to take advantage of the settlement procedure within the prescribed time period risks the possibility that the Service will change its position retroactively and disallow the marital deduction for the transfer in question. Of course, regardless of whether the Service changes its position or the taxpayer takes advantage of the settlement procedure, the Service will require inclusion in the surviving spouse's transfer tax base under sections 2044 and 2519 of any property for which the marital deduction was actually allowed.

If the Service changes its position with respect to the issue in *Estate of Howard*, it will terminate the settlement procedure only after a period of time sufficient to permit taxpayers to make conforming changes in their wills, revocable trusts, and other dispositive instruments. Moreover, it will continue to make the procedure available to estates of decedents who because of mental disability were unable to amend their dispositive instruments during the extension period.

PROCEDURAL INFORMATION

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3 (b)(2) of the regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Weighted Average Interest Rate Update

Notice 89-5

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weight average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
December	1988	8.81	7.93 to 9.69%

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Low-Income Housing Tax Credit— Utility Allowance Requirements, Determination of General Public Use, and Provision of Services

Notice 89-6

The purpose of this Notice is to inform taxpayers that regulations under section 42 of the Internal Revenue Code of 1986 (the "Code") relating to the Low-Income Housing Tax Credit will provide that—

1. Department of Housing and Urban Development (HUD) regulated buildings shall use HUD utility allowances for purposes of section 42(g)(2) of the Code. Other housing shall use the utility rates or schedules provided for the relevant area by the applicable Public Housing Authority (PHA). Special rules apply to buildings or tenants receiving Farmers Home Administration (FmHA) housing assistance.

2. Residential rental units will be considered to be "for use by the general public" if housing is provided in a manner consistent with federal housing policy governing nondiscrimination as determined under HUD rules and regulations.

3. Any services may be provided to low-income tenants in connection with their occupancy of residential rental units. However, the cost of any services that are required to be paid by a tenant as a condition of occupancy generally must be included in gross rent for purposes of applying the gross rent limitation of section 42(g)(2) of the Code.

UTILITY ALLOWANCES.

In order to qualify as a "rent-restricted unit" within the meaning of section

42(g) of the Code, the gross rent for such unit must not exceed 30 percent of the applicable income limitation. Failure to qualify as a rent restricted unit may result in ineligibility for the section 42 credit, reduction in the amount of the credit, and/or recapture of previously allowed credits. For this purpose, gross rent includes the cost of any utilities, other than telephone. If any utilities are paid directly by the tenant, section 42(g)(2)(B)(ii) requires the inclusion in gross rent of a utility allowance determined by the Secretary, after taking into account the procedures under section 8 of the United States Housing Act of 1937.

Regulations will provide that the owner of a HUD-regulated building—a building whose rents and utility allowances are reviewed by HUD on an annual basis—must use HUD utility allowances. For other buildings occupied by one or more tenants receiving HUD rental assistance payments ("HUD tenant assistance"), an owner must use the applicable Public Housing Authority (PHA) utility allowances established for the Section 8 Existing Housing Program. A building owner must apply FmHA utility allowances to any rent-restricted unit in a building where either the building or any tenant receives FmHA housing assistance. If a building is both HUD-regulated and FmHA assisted, then FmHA utility allowances must be used. Similarly, all low-income tenants receiving HUD rental assistance are subject to FmHA utility allowances where the building or any other tenant in the building receives FmHA assistance. For example, a low-income building receiving assistance under FmHA section 515 shall use Exhibit A-5 of FmHA Instruction 1944-E (or a successor method of determining utility allowances), regardless of whether the building is HUD regulated or any low-income tenant in the building receives HUD rental assistance. These rules will apply only for the purposes of section 42(g), and will not apply to the use of utility allowances by HUD or FmHA for their own internal purposes.

Regulations will also provide that a building owner must use the applicable Public Housing Authority (PHA) utility allowance for a building where there is neither (1) HUD tenant assistance, nor (2) an applicable HUD or FmHA utility allowance. In these cases, any interested party (e.g., a low-income tenant, building owner, or state housing authority) may obtain a letter from a local utility company providing the estimated cost of that utility for each unit of similar size and construction for the geographic area in which the low-income building is located. An interested party may obtain a letter from the local utility company at any time during the building's 15-year compliance period. Costs incurred in this process must be borne by the initiating party. The interested party must furnish a copy of the letter to the owner of the building and should retain the original. If the utility estimates provided by the local utility companies differ from the utility allowances provided by the PHA, the utility company estimates shall be used in calculating the gross rent limitation. If the utility estimates provided by the local utility companies are higher for one or more rent-restricted units, the building owner must adjust the rents of any rent-restricted unit where failure to do so would result in a violation of the gross rent limitation of section 42(g)(2). Finally, if at any time during the building's 15-year compliance period the building or a low-income tenant (1) becomes subject to HUD or FmHA utility allowances, or (2) receives HUD tenant assistance, all rent-restricted units in the building become subject to the appropriate HUD, FmHA, or PHA utility allowance.

A building owner who is required to use either HUD, FmHA, or PHA utility allowances must use such allowances to compute gross rents of rent-restricted units paid more than 90 days after the date of publication of this Notice in the Internal Revenue Bulletin. These allowances shall apply throughout the building's 15-year compliance period and shall be updated at the time rents are revised. A building owner who must apply a new utility allowance during the 15-year compliance period because a building or tenant receives HUD or FmHA assistance, or because local utility company estimates become applicable, must use such new utility allowances to compute gross rents of rent-restricted units paid 90 days after the date of occupancy of the federally-assisted tenant or 90 days from the post date of the last utility company estimate. These utility allowances shall also be updated when rents are revised.

In all cases, rent paid for occupancy after the deadline for applying the correct utility allowance must reflect the correct utility allowance. If application of the correct utility allowance results in a violation of the gross rent limitation of section 42(g)(2) for any low-income tenant, then the building owner must adjust that tenant's rent to claim a credit for the unit occupied by that tenant.

GENERAL PUBLIC USE REQUIREMENT.

The legislative history of section 42 of the Code provides that "Residential rental units must be for use by the general public.... Residential rental units are not for use by the general public, for example, if the units are provided only for members of a social organization or provided by an employer for its employees." H.R. Conf. Rep. No. 841, 99th Cong., 2d Sess. II-95 (the "Conf. Rep."), 1986-3 (Vol. 4) C.B. 95. Regulations will provide that the term "for use by the general public" shall be determined in a manner consistent with HUD housing policy governing non-discrimination as evidenced by HUD rules and regulations. See HUD Handbook 4350.3 (or its successor). Accordingly, owners of residential rental units that give preferences to certain classes of tenants (e.g., the homeless, disabled and/or handicapped) will not violate the general public use requirement if such preferences would not violate any HUD policy governing non-discrimination expressed in the HUD handbook. However, if residential rental units are restricted to a class of residents that would violate HUD housing policy (e.g., residential rental units provided solely for members of a social organization or by an employer for its employees) then the building in which these units are located will be ineligible for the credit.

PROVISION OF SERVICES.

Regulations will provide that, solely for purposes of section 42 of the Code, the furnishing to tenants of services other than housing (whether or not such services are significant) will not prevent property from qualifying as residential rental property. Regulations will also provide that, with the exception of certain federally-assisted projects for the elderly and handicapped (see below), any charges for services that are not optional to low-income tenants must be included in gross rent for purposes of section 42(g)(2)(A). A service is optional if payment for the service is not required as a condition of occupancy. Thus, in certain circumstances, a retirement-type facility may qualify under section 42 as residential rental property, notwithstanding that significant services other than housing are furnished to tenants. However, if continual nursing, medical, or psychiatric care is provided, it will be presumed that such services are mandatory. Such is generally the case with hospitals, nursing homes, sanitariums, and lifecare facilities.

For example, assume that meals and other services are provided to low-income tenants in a retirement home. Assume also that the cost of these services, when combined with rent and utility allowances, exceeds the 30 percent gross rent limitation. If any low-income tenants are required to pay for these services as a condition of occupancy, then the units occupied by these tenants are not rent-restricted units and are not included in qualified basis. However, if payment for these services is optional, then these units are rent-restricted units and are includible in qualified basis assuming that the gross rent limitation is otherwise satisfied. Where multiple services are provided, a building owner must decide which services are mandatory and included in the 30 percent gross rent limitation. All other services must be provided on an optional basis.

The cost of services must be included in the 30 percent gross rent limitation even if federal or state law requires that services be offered to tenants by project owners. A limited exception to this rule applies to existing federally-assisted projects for the elderly and handicapped that are authorized by 24 CFR 278 to provide a mandatory meals program. In these projects, mandatory meal charges will not be included in gross rent for purposes of section 42(g)(2)(A) if the provisions of 24 CFR 278 are otherwise complied with.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Children Liable for Income Tax

Notice 89-7

The Tax Reform Act of 1986 made important changes in the tax law as it applies to a child's income. A child who can be claimed as a dependent on another taxpayer's return may not claim a personal exemption and is entitled to a standard deduction limited to the greater of (i) $500 or (ii) the amount of his or her earned income up to the basic standard deduction. Also, the investment income of a child under age 14 that exceeds $1,000 is taxed to the child at the greater of the child's or parent's tax rate. As a result of these changes, many children had to file returns and pay tax for the first time for the 1987 calendar year.

The following questions and answers provide guidance regarding the tax return and payment requirements applicable to a child's income. They also describe the procedures the Internal Revenue Service will follow in dealing with a child or his or her parent or guardian with respect to the child's tax liability. See Publication 929, Tax Rules for Children and Dependents, for additional general guidance.

Q.1. Under what circumstances is a child required to file an income tax return?

A.1. Generally, a child who can be claimed as a dependent on another taxpayer's return must file an income tax return if (i) all of the child's income is earned income (such as wages) totaling more than the basic standard deduction amount ($2,540 in 1987, $3,000 in 1988) or (ii) the child has any unearned income (such as interest or dividends) and his or her total income (earned and unearned) is more than $500.

Q.2. Who is responsible for filing a child's return?

A.2. A child is responsible for filing his or her own return. If for any reason, such as age, the child is unable to file a return, the child's parent or guardian is responsible for filing the child's return on the child's behalf. The parent or guardian should sign the child's name on the return in the proper place followed by: "By (signature), Parent (or Guardian) for minor child."

Q.3. Who is liable for the tax shown as due on a child's return?

A.3. The child is liable for his or her own tax. The child's parents may also be liable for the child's tax to the extent it is attributable to income for personal services performed by the child.

Q.4. Who is liable for any penalties and interest imposed for failure to file a return or pay the tax with respect to a child's income?

A.4. The child is responsible for the payment of any penalties and interest imposed for failure to file a return or pay the tax with respect to his or her income. The child's parent is not responsible for the payment of penalties and interest merely because he or she is responsible for filing the return on the child's behalf.

Q.5. May a parent report a child's income on the parent's return and thereby relieve the child of the need to file a separate return?

A.5. For tax years beginning after 1988, a parent may elect under limited circumstances to report a child's gross income on the parent's return. If the parent makes the election, the child is not required to file a return.

The election is available only if (i) the child's income is comprised entirely of interest and dividends, (ii) the child's income is more than $500 and less than $5,000, and (iii) no tax payments have been made in the child's name and Social Security number. The Service intends to issue specific guidance on how to make this election.

Q.6. What should a child or the parent or guardian of a child do upon receipt of a notice from the Internal Revenue Service concerning the child's return or tax liability?

A.6. The recipient should immediately inform the Service that the notice concerns a child. The Service will then make a special effort to resolve questions or problems that may arise in connection with the child's return or tax liability. The name, address, and telephone number of the person to contact appear on the notice.

Q.7. What procedures will the Internal Revenue Service follow with respect to a child who fails to file a return or pay a tax liability?

A.7. The Service recognizes the special communication problems presented when dealing with a child concerning his or her tax liability. If the Service is informed that the taxpayer to whom a notice has been sent is a child (see A.6.), it will make every effort to resolve the matter with the parent or guardian of the child, consistent with A.8. Pending the outcome of that effort, the Service will suspend its usual collection procedures. Publication 586A, The Collection Process, provides more information concerning the collection of income tax accounts.

Q.8. Under what circumstance may the parent or guardian of a child deal with the Internal Revenue Service concerning a notice, examination, or collection matter pertaining to the child's return?

A.8. A parent or guardian who signs a return on a child's behalf may deal with the Service concerning all matters arising in connection with the return. A parent or guardian who does not sign the child's return may provide the Service with information concerning the return and pay the child's tax, but is not entitled to receive information from or otherwise deal with the Service unless designated as the child's representative by the child or the person signing the return on the child's behalf. Such a designation is made on Form 2848-D, Tax Information Authorization and Declaration of Representative.

While entitled to receive notices and information concerning the child's return, a parent or guardian named in Form 2848-D may not legally bind the child with respect to a tax liability unless authorized to do so by the law of the state in which the child resides.

PROCEDURAL INFORMATION

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied on to the same extent as a revenue ruling or a revenue procedure.

Application of Section 401(b) to Certain Amendments

Notice 89-8

PURPOSE

The purpose of this notice is to: (1) set forth the circumstances under which the Service will presume any applicable extension of time to file an employer's tax return for purposes of determining the end of the remedial amendment period under section 401(b) of the Internal Revenue Code for plan amendments resulting from certain changes in the law affecting qualified plan requirements; (2) set forth guidance for determining the end of the remedial amendment period in the case of organizations not required to file an employer's tax return; and (3) clarify certain other rules.

BACKGROUND

Amendments to the regulations under section 401(b) of the Code published in the Federal Register on August 8, 1988 (53 Fed. Reg. 29658, 29662) extended the deadline by which an employer maintaining a qualified plan must amend such plan to comply with the Tax Reform Act of 1986 (TRA '86) and the Omnibus Budget Reconciliation Acts of 1986 and 1987 (OBRA '86 and OBRA '87, respectively). In general, in the case of a plan maintained by one employer, amendments will not be required until the later of the due date (including extensions) for filing the employer's income tax return (or partnership return of income) for the taxable year in which the 1989 plan year begins, or the last day of the 1989 plan year. In the case of a plan maintained by more than one employer, amendments generally will not be required until the last day of the tenth month following the end of the first plan year beginning in 1989.

TAX RETURN FILING EXTENSIONS

Solely for purposes of section 401(b) of the Code, an individual, corporate, or partnership employer, other than an employer that is a tax-exempt organization, will be treated as having obtained an automatic extension of time for filing its tax return. The automatic extension periods for such employers are: (1) four months for individuals, (2) six months for corporations, and (3) three months for partnerships. No written application for an extension to file the employer's tax return is required to obtain this extended date. For all other purposes, including obtaining an additional extension of time to file beyond the automatic extension in the case of an individual or partnership employer, an employer must file a timely written application. Thus, the 401(b) period will not be extended to reflect an additional extension of time to file, unless the partnership or individual employer actually applies for and receives an automatic extension and an additional extension of time to file the tax return.

In addition, for purposes of section 401(b), the due date for filing the employer's tax return in the case of a tax-exempt organization that files an annual information return under section 6033 of the Code (generally Form 990) is deemed to be the due date for filing the annual information return. Employers for whom the section 401(b) remedial amendment period is determined by reference to the due date of the annual information return under section 6033 will not be treated as having obtained an extension of time for filing the annual information return unless such extension is actually applied for and granted. If an extension of time to file an annual information return under section 6033 is actually applied for and granted, the section 401(b) period will correspondingly be extended.

Rev. Rul. 79-227, 1979-2 C.B. 185, provides that in the case of a tax-exempt organization that is not required to file an annual information return but is required to file an annual return/report under section 6058 (generally Form 5500), the due date for filing the employer's tax return shall be deemed to be the due date for filing the return/report. Notwithstanding these rules, if a tax-exempt trust forming part of a single employer qualified plan under section 401(a) is also an employer maintaining a separate employee plan for its own employees which is intended to qualify under section 401(a), the relevant date for determining the end of the section 401(b) period shall be determined by reference to the due date of the annual return/report required to be filed for the employer-trust pursuant to section 6058, not the return/report filed by the employer-trust for its own plan. Solely for section 401(b) purposes, employers for whom the section 401(b) remedial amendment period is determined by reference to the due date of their return/report under section 6058 will be treated as having obtained any applicable automatic extension of time to file those returns. If an extension of time to file a return/report under section 6058 is actually applied for and granted, the section 401(b) period will correspondingly be extended.

In the case of any other employer that is not required to file either an employer's tax return, an annual information return under section 6033 of the Code or an annual return/report under section 6058, the due date for filing the employer's tax return for section 401(b) purposes is deemed to be the last day of the seventh month following the end of the plan year.

Section 7503 of the Code provides that when the last day for performing any act prescribed under the authority of the internal revenue laws falls on a Saturday, Sunday or legal holiday, such act shall be considered timely if performed on the next succeeding day that is not a Saturday, Sunday or legal holiday. Rev. Rul. 83-116, 1983-2 C.B. 264, provides that section 7503 applies only to acts required to be performed in connection with the determination, collection or refund of taxes. Therefore, if the deadline for making plan amendments described in this notice is determined by reference to the filing of any return, then, under the rules of section 7503 and Rev. Rul. 83-116, if such deadline falls on a Saturday, Sunday or legal holiday, the amendments will be considered as timely made if made on or before the next succeeding day that is not a Saturday, Sunday or legal holiday. However, if the deadline for making plan amendments is determined by reference to the end of the plan year, then plan amendments must be made by that deadline regardless of whether it falls on a Saturday, Sunday or legal holiday.

SECTION 401(b) RELIEF

Section 1140 of TRA '86, in general, gives employers until the last day of their 1989 plan year to amend their plans. Amendments required by OBRA '86 and OBRA '87 are provided the same delayed date. In addition, the Service, by various notices, has extended the date for making amendments to comply with certain other changes in the law in order to provide a common date for making plan amendments.

The regulations extend this common amendment date until the end of the section 401(b) period. The regulations also make clear that this extension also applies to amendments that are not required, but are integral to a qualification requirement changed by TRA '86, OBRA '86, or OBRA '87, or any requirement which is treated, directly or indirectly, by the Service as if section 1140 applied to it. An example of a provision to which the preceding sentence might apply is a plan amendment permitting contributions to a profit sharing plan whether or not the employer has profits.

In order to qualify for the section 401(b) period, the plan sponsor must satisfy three conditions. First, with respect to requirements effective before 1989, the plan sponsor must have operated the plan in accordance with such requirements from the date the requirement became effective. Second, the plan sponsor must amend the plan retroactively to the date the applicable requirements (including those effective after 1988) become effective. In the case of changed plan provisions that are not required but are integral to a qualification requirement changed by TRA '86, OBRA '86 or OBRA '87, or any requirement which is treated, directly or indirectly, by the Service as if section 1140 applied to it, the plan will be treated as meeting these two conditions if the plan operates in accordance with such changed provisions as of the effective date of such change under the plan. Finally, the section 401(b) extension for making plan amendments applies only to requirements that take effect prior to the first day of the first plan year beginning after December 31, 1989. For example, the deadline is not extended for amending a collectively bargained plan that does not have to meet the TRA '86 requirements until the 1990 or 1991 plan year.

EXAMPLES

The following examples illustrate the extension:

EXAMPLE 1: Corporation X operates on a calendar taxable year and maintains Plan Y on a calendar year basis. Under section 1140 of TRA '86, Corporation X must amend its plan by December 31, 1989 (the last day of the plan year beginning in 1989). The section 401(b) period ends on September 17, 1990 (the due date (including the automatic extension) for filing Corporation X's income tax return for the 1989 taxable year). Thus, Corporation X need not amend Plan Y until September 17, 1990. If, instead Plan Y is maintained by more than one employer, Plan Y need not be amended until October 31, 1990.

EXAMPLE 2: Same facts as example 1 except that the plan year for Plan Y begins on December 1 and ends on November 30. In this example, the last day of the plan year beginning in 1989 ends on November 30, 1990. The due date (including the automatic extension) for filing Corporation X's income tax return for the taxable year ending on December 31, 1989 (the taxable year in which the 1989 plan year begins) is September 17, 1990. Thus, Corporation X need not amend Plan Y until November 30, 1990. If Plan Y is maintained by more than one employer, Plan Y need not be amended until September 30, 1991.

EXAMPLE 3: Same facts as example 1 except that Corporation X operates on a taxable year beginning March 1. Thus, the taxable year in which the 1989 plan year begins is March 1, 1988 to February 28, 1989. In this example, the due date (including the automatic extension) for filing Corporation X's income tax return for the taxable year ending on February 28, 1989 is November 15, 1989. Corporation X, however, does not have to amend Plan Y until December 31, 1989 (the last day of the plan year beginning in 1989). If Plan Y is maintained by more than one employer, Plan Y need not be amended until October 31, 1990.

EXAMPLE 4: Partnership A operates on a calendar taxable year and maintains Plan Y on a calendar year basis. Under section 1140 of TRA '86, Partnership A must amend its plan by December 31, 1989 (the last day of the plan year beginning in 1989). Partnership A has not applied for an automatic extension and an additional extension of time to file its partnership return of income for the taxable year ending on December 31, 1989. The section 401(b) period ends on July 16, 1990 (the due date (including the automatic extension) for filing Partnership A's partnership return of income for the 1989 taxable year). Thus, Partnership A need not amend Plan Y until July 16, 1990. If Partnership A had applied for and received an automatic extension and an additional 3 month extension of time to file its partnership return of income, Partnership A would not need to amend Plan Y until October 15, 1990. If Plan Y is maintained by more than one employer, Plan Y need not be amended until October 31, 1990.

EXAMPLE 5: Same facts as example 4 except that the plan is maintained by Individual B. Under section 1140 of TRA '86, Individual B must amend his plan by December 31, 1989 (the last day of the plan year beginning in 1989). Individual B has not applied for an automatic extension and an additional extension of time to file his income tax return for the taxable year ending on December 31, 1989. The section 401(b) period ends on August 15, 1990 (the due date (including the automatic extension) for filing Individual B's income tax return for the 1989 taxable year). Thus, Individual B need not amend Plan Y until August 15, 1990. If Individual B had applied for and received an automatic extension and an additional 2 month extension of time to file his income tax return, Individual B would not need to amend Plan Y until October 15, 1990. If Plan Y is maintained by more than one employer, Plan Y need not be amended until October 31, 1990.

SCOPE OF NOTICE

The rules in this notice treating employers as having obtained an automatic extension of time to file certain returns and deeming a due date for the employer's income tax return for section 401(b) purposes in the case of an employer not filing such returns are solely for purposes of section 401(b) of the Code and are applicable only to changes in the law discussed in this notice. No inferences should be drawn with respect to any other provision of the Code nor, for section 401(b) purposes, to any other changes in the law.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or a revenue procedure.

Application of Section 141(b)(2) and 141(c) to State and Local Hazardous Waste Remediation Bonds

Notice 89-9

SECTION 1. SCOPE

This notice describes forthcoming regulations concerning the application of the private security or payment test of section 141(b)(2) of the Internal Revenue Code and the private loan financing test of section 141(c) to state and local bonds issued to finance the costs of hazardous waste clean-up activities conducted by state or local governments when some of the clean-up activities occur on privately owned land and reimbursement may be sought from private parties.

SEC. 2. BACKGROUND

.01 Section 6179 of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647, 102 Stat. 3342, provides that the Secretary of the Treasury or his delegate shall issue guidance concerning the application of the private security or payment test under section 141(b)(2) of the Code to tax-exempt bond financing by state and local governments of hazardous waste clean-up activities conducted by such governments where some of the activities occur on privately owned land.

.02 The specific concern raised by the state or local bonds issued to finance hazardous waste clean-up activities ("hazardous waste remediation bonds") on privately owned land is whether the bonds meet the private security or payment test of section 141(b)(2) of the Code if reimbursement of the costs of the remediation is sought from private parties. *Conference Report to Accompany H.R. 4333*, 2 H.R. Conf. Rep. No. 1104, 100th Cong., 2d Sess. II-204 (1988). The private parties from whom state or local governments may seek or require reimbursements for costs of the remediation may include the owner of the land or persons who are or were responsible for disposing of the hazardous waste. In addition, fees paid by private persons who are engaged in generating or handling hazardous waste, or in refining, producing, or transporting petroleum, may be used, directly or indirectly, to pay for costs of the remediation.

.03 Under section 103 of the Code, interest on a state or local bond generally is not tax-exempt if the bond is a private activity bond.

.04 Section 141(a) of the Code defines the term "private activity bond" as any bond issued as part of an issue which meets either the private business tests of section 141(b) or the private loan financing test of section 141(c). An issue meets the private business tests of section 141(b) only if the issue meets both the private business use test of section 141(b)(1) and the private security or payment test of section 141(b)(2).

.05 An issue meets the private business use test of section 141(b)(1) of the Code if more than 10 percent of the proceeds of such issue is to be used (directly or indirectly) in a trade or business carried on by any person other than a governmental unit.

.06 An issue meets the private security test of section 141(b)(2)(A) of the Code if the payment of the principal of, or the interest on, more than 10 percent of the proceeds of such issue is (under the terms of such issue or any underlying arrangement) directly or indirectly secured by any interest in property used or to be used for a private business use (or by any interest in payments in respect of such property).

.07 An issue meets the private payment test of section 141(b)(2)(B) of the Code if the payment of the principal of, or the interest on, more than 10 percent of the proceeds of such issue is (under the terms of such issue or any underlying arrangement) directly or indirectly to be derived from payments (whether or not to the issuer) in respect of property (or borrowed money) used or to be used for a private business use.

.08 The legislative history of section 141(b)(2) of the Code indicates that payments in respect of property (or borrowed money) financed with the proceeds of an issue need not be pledged as security for, or directly used to pay, debt service on the issue in order to be taken into account under section 141(b)(2). *See* 2 H.R. Conf. Rep. No. 841, 99th Cong., 2d Sess. II-688 (1986), 1986-3 C.B. (Vol. 4) 688. Thus, for purposes of section 141(b)(2)(B), the payment of the principal of, or the interest on, the proceeds of an issue generally is considered (under an underlying arrangement) to be derived from such payments.

.09 An issue meets the private loan financing test of section 141(c) of the Code if the amount of the proceeds of the issue which is to be used (directly or indirectly) to make or finance loans (with the exception of certain loans described in the following sentence) to persons other than governmental units exceeds the lesser of five percent of such proceeds or $5,000,000. A loan is described in this sentence if the loan enables the borrower to finance any governmental tax or assessment of general application for a specific essential governmental function or is a nonpurpose investment (within the meaning of section 148(f)(6)(A)).

SEC. 3. GUIDANCE

.01 Under regulations to be promulgated under section 141 of the Code regarding the application of the private security test of section 141(b)(2)(A) of the Code and the private payment test of section 141(b)(2)(B) to hazardous waste remediation bonds:

(1) Payments from private business persons who are not (other than coincidentally) either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site which payments secure the payment of principal of, or interest on, the bonds (directly or indirectly), under the terms of the bond issue are not taken into account for purposes of the private security test if such payments are made pursuant to either (a) a generally applicable state or local taxing statute or (b) a state or local statute that regulates or restrains activities on an industry-wide

basis of persons who are engaged in generating or handling hazardous waste, or in refining, producing or transporting petroleum, provided that such payments do not represent, in substance, payment for the use of bond proceeds. For purposes of the preceding sentence, a state or local statute that imposes payments that have substantially the same character as those described in Chapter 38 of the Code are treated as generally applicable taxes.

(2) Payments from private business persons who are either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site which payments do not secure the payment of principal of, or interest on, the bonds (directly or indirectly), under the terms of the bond issue are not taken into account in determining whether the private payment test is met if at the time the bonds are issued the payments from the private business persons are not material to the security for the bonds. For purposes of the preceding sentence, there is an irrebuttable presumption that payments are not material to the security for the bonds if (a) the payments from the private business persons are not required for the payment of debt service on the bonds, (b) the amount and timing of the payments are not structured or designed to reflect the payment of debt service on the bonds, (c) the receipt or the amount of the payments is uncertain, and (d)(i) if no judgment has been entered against a private business person by the time the bonds are issued, the payments from such person, when and if received, are used either to redeem bonds of the issuer in an equivalent principal amount or to pay for costs of any hazardous waste remediation project, or (ii) if a judgment (but not a final judgment) has been entered against a private business person by the time the bonds are issued, there are, as of the date of issue of the bonds, costs of hazardous waste remediation other than those financed with bond proceeds which may be financed with the payments and such payments, when and if received, are used either to redeem bonds of the issuer in an equivalent principal amount or to pay for costs of any hazardous waste remediation project.

.02 Under regulations to be promulgated under section 141 of the Code regarding the application of the private loan financing test of section 141(c) to hazardous waste remediation bonds, payments from private persons who are either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site which payments do not secure the payment of principal of, or interest on, the bonds (directly or indirectly), under the terms of the bond issue will not cause an issue to meet the private loan financing test of section 141(c) of the Code, where the conditions set forth in section 3.01(2) are satisfied.

RELIANCE

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Foreign Sales Corporation—Independent Prices

Notice 89-10

This Notice provides guidance concerning instances where an independent factory or production price ("IFP") exists under *Example (1)* of section 1.863-3(b)(2) of the Income Tax Regulations. If such a price exists, it must be used to determine the division between domestic and foreign sources of income from sales outside of the United States of inventory produced (in whole or in part) in the United States. *See* Rev. Rul. 88-73, 1988-2 C.B. 173. *See also* H. Rept. No. 426, 99th Cong. 1st Sess. 359 (1985) (income "generally is sourced" on 50/50 basis but IFP must be used if available).

The IFP method is set forth in *Example (1)* of section 1.863-3(b)(2). That example provides as follows:

> Where the manufacturer or producer regularly sells part of his output to wholly independent distributors or other selling concerns in such a way as to establish fairly an independent factory or production price — or shows to the satisfaction of the district director (or, if applicable, the Director of International Operations) that such an independent factory or production price has been otherwise established — unaffected by considerations of tax liability, and the selling or distributing branch or department of the business is located in a different country from that in which the factory is located or the production carried on, the taxable income attributable to sources within the United States shall be computed by an accounting which treats the products as sold by the factory or productive department of the business to the distributing or selling department at the independent factory price so established. In all such cases the basis of the accounting shall be fully explained in a statement attached to the return for the taxable year.

The principles below describe the application of *Example (1)*.

1. *An IFP may be derived only from sales of the manufacturer or producer unless the taxpayer chooses to show that an IFP has been otherwise established.*

Under *Example (1),* certain sales by the manufacturer or producer that establish fairly an IFP must be used to determine the division of income. (For purposes of this Notice, the term "manufacturer or producer" includes manufacturing or producing operations conducted by members of the same affiliated group.) An IFP may be otherwise established only if the manufacturer or producer makes a showing to that effect to the satisfaction of the Internal Revenue Service. Such a showing might be based, for example, on market prices, analysis of economic functions, or transactions of other taxpayers. Such other methods may not be used by the Service to determine the appropriate division of income between domestic and foreign sources under section 863(b) (except to the extent they are used to demonstrate that actual sales of the manufacturer or producer themselves establish an IFP). Thus, for example, sales of taxpayers that are not affiliated with the taxpayer making the sale under consideration may not be used to attempt to establish an IFP unless the taxpayer chooses to use them.

2. *An IFP may be established only on the basis of sales "regularly" made to independent businesses of "part" of the "output" of the manufacturer or producer.*

Under *Example (1),* an IFP may be established only if the manufacturer or producer "regularly sells part of his output" of the relevant product to wholly independent distributors or other selling concerns. An IFP may not be established by sales that are sporadic and occasional, or by sales that represent an insubstantial part of the total output of the relevant product of the manufacturer or producer.

3. *Sales used to establish an IFP must be to "distributors or other selling concerns."*

Under section 1.863-3(b)(2), the purchaser in any sale used to establish an IFP must be a distributor or other selling concern. The use of this language means that such purchaser must be a selling business with respect to the relevant product (or a product into which it is integrated or transformed). If the purchaser of the relevant product customarily retains it for its own use, and does not in turn sell the relevant product or a product into which the relevant product is integrated or transformed, such purchaser is not a distributor or other selling concern within the meaning of *Example (1)*.

4. *Such distributors or other selling concerns must be "wholly independent."*

Sales to distributors or other selling concerns will not be considered in establishing an IFP unless such concerns are wholly independent from the manufacturer or producer. For this purpose, the selling concern will not be treated as wholly independent of the manufacturer or producer if the former controls, or is controlled by, the latter within the meaning of section 482. Such control may be direct or indirect, and may be legally enforceable or control in fact. For this purpose, any sale to a foreign sales corporation (as defined in section 922) controlled by the manufacturer or producer will not be treated as made to a wholly independent selling concern.

5. *An IFP must be "fairly established."*

Example (1) seeks to determine the income attributable to manufacturing or production, and to characterize such income as from sources within the country of manufacture or production. In order for sales to establish an IFP, therefore, they must reasonably reflect the income earned from manufacturing or production. Sales to independent distributors or other selling concerns in certain circumstances, as described below, will not reasonably reflect the income from manufacturing or production.

A. *Significant non-production, income-generating activity.*

Sales will not establish an IFP if income-generating activity of the taxpayer other than manufacturing or production activity with respect to sales of the relevant product is significant in relation to manufacturing or production. For this purpose, if expenses of the manufacturer or producer attributable to non-production, income-generating activity with respect to sales of the relevant product are significant in relation to the gross receipts from such sales, such activity ordinarily will be considered significant. In applying this principle, non-production, income-generating activities shall include marketing and selling activities (at any stage of distribution), and similar activities. Expenses that are not attributable to non-production, income-generating activities shall include transportation, duties, excise taxes, insurance and similar expenses. (Such expenses must, however, be netted from the sales price to determine an IFP.) In addition, if expenses of the manufacturer or producer attributable to non-production, income-generating activity with respect to sales of the relevant product are significant in absolute amount (without regard to their relation to gross receipts), and the manufacturer or producer maintains a trademark with respect to the relevant product that has significant value, such activity ordinarily will be considered significant.

For purposes of determining expenses attributable to sales of the relevant product, the principles of section 1.861-8 shall apply. Such expenses may be allocated directly to sales income from the relevant product or to a class of sales income including sales income from the relevant product under the principles of that section. To the extent such expenses cannot be allocated to sales of the relevant product, such expenses shall be apportioned on the basis of gross receipts from such sales of the relevant product and of other products.

In the case of sales made with a foreign sales corporation acting as commission agent, the commission shall be treated as an expense relating to non-production, income-generating activity.

B. *Different Geographic Markets.*

As noted above, the goal of *Example (1)* is to establish an IFP that reasonably reflects income attributable to manufacturing or production. Sales made to independent distributors or other selling concerns in the country of manufacture or production that meet the other requirements noted above will generally accomplish this result. This will not be the case only if it can be demonstrated that (i) market conditions in the country of manufacture or production permit the taxpayer to earn a substantially higher profit margin from the sale of the relevant product than in the country of the sale to which *Example (1)* is being applied, and (ii) the taxpayer directly engages in substantial activity in connection with such sale in the country of sale that constitutes non-production, income-generating activity.

If a taxpayer produces goods in one country and exports them to two other countries, sales in one destination country will not establish an IFP with respect to sales in the other destination country if the two markets are materially different with respect to sales of the relevant product. Such a difference might arise, for example, because of the taxpayer's policy of selling to unrelated parties at the same level of distribution at a significantly lower price in a particular market to establish or maintain market share. The determination of whether the two markets are materially different shall take into account the prices at which the relevant product is sold in the two markets to unrelated parties at the same level of distribution (whether or not by the manufacturer or producer), after adjustments for transportation, insurance, excise taxes, duties and similar expenses, and after translation into U.S. dollars (if necessary) at the spot rate for the relevant foreign currency in effect as of the date of the relevant sale.

C. *Sales used to establish an IFP must be reasonably contemporaneous with the sales to which Example (1) is being applied.*

Generally, a reasonably contemporaneous sale is one that occurs in the taxable year of the sale to which *Example (1)* applies or in the prior taxable year. However, significant price instability during the period between the time of the sale being used to establish an IFP and the time of the sale to which *Example (1)* is potentially applicable may indicate that the prior sale does not fairly establish an IFP. Such price instability may be shown by reference to sales to independent parties (whether or not made by the manufacturer or producer) at the same level of distribution during the relevant period.

6. *The foregoing rules under Example (1) must be applied with reference to the group of products consisting of substantially similar products.*

An IFP may be established only on the basis of sales of products that are substantially similar in physical characteristics, function, and price of sale to unrelated parties at the same level of distribution. The rules contained in this Notice must, therefore, be applied in relation to sales of such substantially similar products. For example, the principles set forth in paragraph 5.A., above (relating to non-production, income-generating activities), shall be applied by treating all such sales as a statutory grouping under section 1.861-8.

This document is an "administrative pronouncement" as that term is used in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Definitions and Special Rules Relating to Foreign Sales Corporations

Notice 89-11

For purposes of determining the source of income from export sales of inventory, §1.863-3(b)(2) of the Income Tax Regulations requires the use of an independent factory or production price ("IFP") if available. *See* Rev. Rul. 88-73, 1988-2 C.B. 173. Further guidance concerning the definition of the term independent factory or production price is provided by Notice 89-10, issued simultaneously with this Notice. This Notice provides guidance concerning the application of §1.863- 3(b)(2) in the case of sales to a foreign sales corporation ("FSC") as defined under section 922 of the Internal Revenue Code.

Regulations to be issued under section 927 of the Code will provide that if inventory is sold to a FSC, or with a FSC acting as commission agent, *Example (2)* of §1.863-3(b)(2) will apply for purposes of determining the source of income of the related supplier to the FSC. However, the foreign source income of the related supplier will be subject to the limitation of section 927(e)(1). Thus, such income cannot exceed the amount that would have been earned had the sale been made to or by a domestic international sales corporation under the pricing rules of section 994.

Section 1.863-3(b)(2) permits a taxpayer to "otherwise" establish an IFP if its own non-FSC related sales do not establish such a price. Under the regulations to be issued under section 927, however, use of such an IFP will not be permitted in the case of sales involving a FSC.

This document is an "administrative pronouncement" as that term is used in §1.6661-3(b)(2) of the Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Carryforward Election

Notice 89-12

This notice describes forthcoming regulations regarding the date by which issuers of state and local bonds must file Form 8328, Carryforward Election of Unused Private Activity Bond Volume Cap.

BACKGROUND

Section 146(a) of the Internal Revenue Code provides that the aggregate face amount of private activity bonds issued during a calendar year must not exceed the volume cap of the issuing authority for that calendar year.

Section 146(f)(1) of the Code provides, in general, that if an issuing authority's volume cap for any calendar year exceeds the aggregate amount of tax-exempt private activity bonds it issues during the calendar year, the authority can elect to carry forward the excess amount.

Section 1.103(n)-4T of the Temporary Income Tax Regulations, which was issued under the predecessor of section 146 of the Code, requires the issuer to file the carryforward election with the Internal Revenue Service prior to the end of the calendar year in which the excess amount arises. The instructions to the current (March 1987) version of Form 8328 repeat this requirement that the form be filed by the end of the calendar year.

FORTHCOMING REGULATIONS

Regulations under section 146 of the Code will give the issuer of tax-exempt private activity bonds additional time to file the carryforward election. The regulations will require the issuer to file the carryforward election with the Internal Revenue Service by the earlier of (1) February 15 of the calendar year following the year in which the excess amount arises, or (2) the date of issue of bonds issued pursuant to the carryforward election. Accordingly, issuers may file their 1988 carryforward elections with the Internal Revenue Service on or before February 15, 1989 (or the date of issuance, if earlier), notwithstanding the due date stated in the instructions to Form 8328.

The regulations will also provide that the issuer will be bound by the carryforward amounts stated on the election form and will not be allowed to change those amounts (unless the change is merely to correct a clerical error).

COMMENTS

Comments regarding this notice should be sent to: Internal Revenue Service, Associate Chief Counsel, Attention: CC: FI&P, P.O. Box 7604, Ben Franklin Station, Washington, D.C. 20044.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Dependent Care Assistance

Notice 89-13

This notice provides guidance for reporting on Form W-2, Wage and Tax Statement, the amount of dependent care assistance furnished by an employer to an employee, based on the recent amendment of section 6051(a) of the Internal Revenue Code by section 1011B(c)(2)-(B) of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. 100-647 (Act).

Section 1011B(c)(2)(B) of the Act added a new paragraph (9) to section 6051(a) of the Code to require an employer to show on the written statement to employees required by this Code section the total amount incurred for dependent care assistance with respect to an employee under a dependent care assistance program described in section 129(d) of the Code. Section 1011B(c)-(2)(B) of the Act applies to tax years beginning after December 31, 1987.

For 1988, the dependent care assistance amount should be shown in Box 16 of Form W-2. However, because of the late imposition of this new reporting requirement by Congress, the Internal Revenue Service will consider the reporting requirement to be met for 1988 if the employer maintains adequate records concerning these amounts, and on or before January 31, 1989, a written statement is furnished to each employee showing the amount paid or expenses incurred with respect to 1988, in providing dependent care assistance to such employee as required by section 129(d)(6) of the Code. Information concerning dependent care assistance reporting requirements for subsequent years will be issued at a later date.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations, and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Extension of Date for Identification of Liabilities That Give Rise to Interest Paid by a U.S. Trade or Business Under Section 884

Notice 89-14

The Internal Revenue Service today announced that the date by which a foreign corporation must specifically identify liabilities that give rise to interest paid by trade or business, as provided under section 1.884-4T(b)(1)(i)(B) of the Temporary Income Tax Regulations, is extended from January 3, 1989, to September 15, 1989. This extension allows taxpayers additional time to identify liabilities in view of the rules announced in Notice 88-133, 1988-2 C.B. 559, relating to the definition of interest paid by a U.S. trade or business. Thus, a foreign corporation may specifically identify liabilities that give rise to interest paid by a U.S. trade or business on or before September 15, 1989, notwithstanding the fact that it did not specifically identify such liabilities on or before January 3, 1989, or identified other liabilities on or before January 3, 1989.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

The temporary regulations under section 884 will be amended to incorporate the rules of this notice, and such amendments will be effective for taxable years beginning after December 31, 1986.

Long-Term Contracts

Notice 89-15

This notice provides guidance with respect to section 460 of the Code, relating to the accounting for long-term contracts.

I. BACKGROUND

Section 804 of the Tax Reform Act of 1986, Pub. L. No. 99-514 (the "1986 Act"), added section 460 to the Internal Revenue Code, effective for contracts entered into after February 28, 1986. Section 10203 of the Revenue Act of 1987, Pub. L. No. 100-203 (the "1987 Act"), amended section 460, effective for contracts entered into after October 13, 1987 (except for certain ship contracts described in section 10203(b)(2) of the 1987 Act). Section 5041 of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647 (the "1988 Act") further amended section 460, effective for contracts entered into after June 20, 1988 (except for certain ship contracts, as provided in section 5041(e)-(1)(C) of the 1988 Act). The Questions and Answers in this notice discuss general rules under section 460, changes to section 460 made by the 1988 Act, and transitional rules under the 1988 Act. Previous guidance concerning section 460 was provided in Notice 87-61, 1987-2 C.B. 370, and Notice 88-66, 1988-1 C.B. 552.

Rules for determining whether a contract is a long-term contract within the meaning of section 460 are set forth in Q&A-2 through Q&A-8. The effective date of section 460 is discussed in Q&A-9 through Q&A-13. Rules for determining which of the two long-term contract methods must be used by a taxpayer are set forth in Q&A-14. Rules for applying the percentage of completion-capitalized cost method are set forth in Q&A-15 through Q&A-18. Question 17 addresses the application of the percentage of completion-capitalized cost method by a taxpayer using a LIFO method of valuing inventories. Rules for applying the percentage of completion method are set forth in Q&A-19 through Q&A-36. Q&A-37 and Q&A-38 address the rules that apply to severing and aggregating contracts. Rules for determining which costs are allocable to a long-term contract, and therefore taken into account under section 460, are set forth in Q&A-39 and Q&A-40. The exceptions applicable to certain construction contracts provided by section 460(e) are explained in Q&A-41 through Q&A-46. Rules governing changes in methods of accounting under section 460 are set forth in Q&A-7, Q&A-13, and Q&A-47 through Q&A-49.

The Internal Revenue Service expects to issue separate guidance relating to the look-back method of section 460(b). This notice does not address the look-back method. See Form 8697 and its instructions.

II. PERMISSIBLE METHODS OF ACCOUNTING FOR LONG-TERM CONTRACTS

Q-1: Under section 460 of the Internal Revenue Code, what methods of accounting are to be used for items of income from and costs allocable to long-term contracts?

A-1: With the exception of certain construction contracts (including certain home construction contracts entered into after June 20, 1988) described in section 460(e)(1) (see Q&A-42 through Q&A-44), section 460(a) requires that items of income from and costs allocable to a long-term contract be taken into account under either of two methods of accounting: (1) the percentage of completion method, or (2) the percentage of completion-capitalized cost method. Rules for determining which of these two methods must be used by a taxpayer are set forth in Q&A-14.

III. DEFINITION OF LONG-TERM CONTRACT

Q-2: What is a long-term contract for purposes of section 460?

A-2: In general, under section 460(f), a long-term contract is any contract for the manufacture, building, installation, or construction of property if the contract is not completed within the taxable year in which it is entered into. A contract for the manufacture of property, however, is not treated as a long-term contract unless certain additional conditions set forth in section 460(f)(2) (and explained in Q&A-5) are met. For these purposes, a contract for the production of personal property is generally considered to be a contract for the manufacture of property. In contrast, any contract for the production or installation of real property or any improvements to real property, is considered to be a contract for the building, installation, or construction of property.

In determining whether a contract is completed in the taxable year in which it is entered into, all activities of the taxpayer and any related parties in connection with the manufacture, building, installation, or construction must be taken into account. For additional rules applicable to related parties, see Q&A-8.

Q-3: In determining whether a contract is a long-term contract, is it relevant that the taxpayer reasonably believed at the time that the contract was entered into that it would be completed within the same taxable year?

A-3: No. A contract that satisfies the definition of a long-term contract set forth in Q&A-2 is considered a long-term contract even though the taxpayer expected that it would be completed within the taxable year.

Q-4: Is a contract considered to be for the "manufacture, building, installation, or construction of property," even though the contract provides that the contractor is to retain title to, control over, and risk of loss with respect to the property until it is completed and accepted by the customer, and even though the parties characterize the contract as a contract for the sale of property?

A-4: Such a contract is considered to be for the "manufacture, building, installation, or construction of property," if the manufacture, building, installation, or construction of the subject matter of the contract is necessary in order for the taxpayer's contractual obligations to be fulfilled, and if the manufacture, building, installation or construction has not been completed at the time that the contract is entered into. It is not relevant whether the customer has title to, control over, or risk of loss with respect to the property. Moreover, it is not relevant whether the parties characterize their agreement as a contract for the sale of property.

Example (1). Y notifies X, an aircraft manufacturer, that it wishes to purchase an aircraft of a particular type. At the time X receives the order, X has on hand several partially completed aircraft of this type; however, X does not have any completed aircraft of this type on hand. X and Y agree that Y will purchase one of these aircraft after it has been completed. X retains title to and risk of loss with respect to the aircraft until the sale takes place. The agreement between X and Y is a contract for the manufacture of property within the meaning of section 460(f)(1), even if characterized by the parties as a contract for the sale of property. (See Q&A-5 for additional conditions that must be met in order for a contract for the manufacture of property to be a long-term contract.)

Example (2). A, a calendar year builder with average annual gross receipts of more than $10 million, begins construction of a house in October 1988, on speculation that it will find a buyer. In November 1988, A enters into a contract with B under which B agrees to purchase the house upon completion of construction. The construction of the home is not complete on December 31, 1988. A's contract with B is a contract for the building or construction of property within the meaning of section 460(f)(1), even if characterized by the parties as a contract for the sale of the house, since A must build or construct property to comply with the contract. Assuming, however, that the contract is a "home construction contract" within the meaning of section 460(e)(1)(A) and (e)(6)(A), A is not required to use the percentage of completion method or the percentage of completion-capitalized cost method of accounting for regular tax purposes because A entered into the contract after June 20, 1988. See Q&A-42. A must account for the contract using the rules of section 263A and the regulations thereunder. In addition, because A's average annual gross receipts exceed $10 million, A is required to use the percentage of completion method for purposes of determining A's alternative minimum tax liability. See Q&A-46.

Example (3). The facts are the same as in Example (2) except that A begins construction of the house in October 1987 and enters into a contract with B in November 1987. A is required to use the percentage of completion or percentage of completion-capitalized cost method of accounting for the contract under section 460 as amended by the 1987 Act.

Example (4). The facts are the same as Example (3) except that A completes construction of the house and subsequently enters into a contract with B for the purchase of the house. Because A is not required to build or construct property to complete the contract, the contract is not a long-term contract subject to section 460.

Example (5). C, a calendar year home builder with average annual gross receipts of more than $10 million, enters into a contract with D on July 1, 1988 to build a house for D. D has title to the lot on which the house is built, provides C with all materials, and has title to the house while the house is under construction. The contract is completed in February 1989. The contract is a contract for the construction of property, notwithstanding the fact that C does not have title to the subject matter of the contract. The contract is, therefore, a long-term contract within the meaning of section 460(f). Assume that the contract is a "home construction contract" within the meaning of section 460(e)(1)(A). Because the contract was entered into after June 20, 1988, C is not required to use the percentage of completion method or the percentage of completion-capitalized cost method of accounting. C must account for the contract using the rules of section 263A and the regulations thereunder. Thus, C must capitalize all of its costs incurred in constructing the home, including labor costs, interest, and all indirect costs allocable to the construction activities under section 263A and the regulations thereunder. See section 460(e)(1). In addition, because C's average annual gross receipts exceed $10 million, C is required to use the percentage of completion method for purposes of determining C's alternative minimum tax liability.

Q-5: What additional conditions apply in determining whether a contract for the manufacture of property is a long-term contract within the meaning of section 460(f)?

A-5: Under section 460(f)(2), a contract for the manufacture of property is not treated as a long-term contract unless the contract involves the manufacture of either (A) a unique item of a type that is not normally included in the finished goods inventory of the taxpayer, or (B) an item that normally requires more than 12 calendar months to complete (without regard to the period of the contract).

Since the item must meet only one of these two criteria, a manufacturing contract that is not completed in the taxable year in which it is entered into is a long-term contract within the meaning of section 460(f) if it is for the manufacture of an item that normally requires more than 12 calendar months to complete, even if the item is not unique. In determining the time normally required for the manufacture of an item, all activities of the taxpayer and of any related party relating to the manufacture must be taken into account. See *H.R. Rep. No. 795, 100th Cong., 2d Sess.* 470 (1988). Thus, the time required to manufacture an item is not limited to the time required to assemble the item and includes the time required for activities such as production of components and subassemblies by the taxpayer or by any related party. For purposes of this paragraph, a related party is a person whose relationship to the taxpayer is described in section 707(b) or 267(b), determined without regard to section 267(f)(1)(A) and determined by substituting "80 percent" for "50 percent" with regard to the ownership of the stock of a C corporation in subsections (b)(2), (b)(8), (b)(10)(A) and (b)(12) of section 267.

The rule of this Q&A-5 that the activities of related parties are to be taken into account in determining the normal production period of an item shall, in general, apply only to contracts entered into on or after June 21, 1988. However, this rule shall apply to any contract entered into after February 28, 1986 if (i) the taxpayer has arranged for a party whose relationship with the taxpayer is described in section 267(b) or 707(b) (and regardless of whether the degree of ownership requirements of the applicable section are satisfied) to perform a portion of the activities required to fulfill the contract, and (ii) a principal purpose of that arrangement is to avoid characterization of the contract as a long-term contract.

Example. X, a construction equipment manufacturer that is a calendar year taxpayer, produces a type of crane. X purchases a number of the components of the crane from suppliers that are related parties. The manufacture of these components and their shipment to X normally takes 5 months to complete. Completion of a crane using these components normally requires an additional 8 months from the time X receives them. Therefore, the crane is an item of a type that normally requires more than 12 months to complete. X normally does not produce the cranes under contracts with particular customers, but instead produces the goods for finished goods inventory, and enters into contracts for sale of the cranes after they are completed. X begins work on several cranes on July 1, 1988. Notwithstanding X's normal practice of completing cranes before contracting for their sale, on December 1, 1988, X enters into a contract with buyers for the cranes. On February 1, 1989, X completes the cranes, one month ahead of schedule. The contract is a long-term contract within the meaning of section 460(f), even though the cranes are an item of a type that X normally includes in finished goods inventory, and even though the duration of the contract was only two months, because the crane is an item of a type that normally requires more than 12 calendar months to complete.

Q-6: Do the additional conditions set forth in Q&A-5 apply in determining whether a contract for the building, installation, or construction of property is a long-term contract?

A-6: No. A contract for the building, installation, or construction of property that is not completed in the taxable year in which it is entered into is a long-term contract even if the property is not unique and does not normally require more than 12 months to complete. Thus, for example, a contract to build a house or other building is a long-term contract if it is not completed in the taxable year in which it is entered into, because the requirements applicable to manufacturing (that the property must be unique or that each item normally require more than 12 months to complete) do not apply to building, construction, or installation contracts.

Q-7: For taxpayers that used a long-term contract method for contracts entered into prior to the effective date of section 460, what restrictions apply with respect to the criteria used by the taxpayer for determining whether similar contracts entered into on or after the effective date of section 460 are long-term contracts?

A-7: Any taxpayer that, immediately prior to the effective date of section 460, accounted for contracts based on the position that such contracts were long-term contracts under section 1.451-3(b) of the Income Tax Regulations, is required to account for such contracts (and any successor contracts) under section 460 unless the taxpayer obtains the consent of the Commissioner to change its method of accounting. This is true even if the taxpayer's position under prior law was based on an erroneous application of the definition of "long-term" contract in section 460(f) and this notice. For these purposes, the term "successor contracts" means all contracts which, under the criteria and methods used by the taxpayer prior to the effective date of section 460 in determining whether a contract was a long-term contract under section 1.451-3(b) of the regulations, would be or have been classified by such taxpayer as long-term contracts under section 1.451-3(b), regardless of whether those criteria and methods are correct. Thus, for example, it is anticipated that the criteria and methods used by a taxpayer in determining that items were "unique" prior to February 28, 1986, and thus were produced under long-term contracts, will continue to be used by the taxpayer unless the taxpayer obtains the consent of the Commissioner to change its method of accounting. *See H.R. Rep. No. 495, 100th Cong., 2d Sess.* 923 (1987).

Q-8: How does section 460 apply to activities performed by a taxpayer ("Y") for a related party ("X") that, considered by themselves, would not constitute a long-term contract between X and Y, but that benefit the performance of a long-term contract entered into by X with any customer of X?

A-8: If X has entered into a long-term contract after June 20, 1988, with a customer, and Y, a taxpayer that is related to X, performs any activities for or on behalf of X that benefit or are performed by reason of X's contract, then Y shall account under section 460 for its income and costs attributable to such activities. Such activities include, for example, the production of items, such as components or subassemblies, that are reasonably expected to be used in the production of the subject matter of X's contract. Y is required to account for such activities under section 460 regardless of whether Y's activities, considered by themselves, (i) constitute manufacture, building, construction, or installation of property, (ii) involve the manufacture of items that either are "unique" or require more than 12 months to complete, (iii) span the end of Y's taxable year, or (iv) are performed pursuant to a contract with X. For purposes of this paragraph, a related party is a person whose relationship to the taxpayer is described in section 707(b) or 267(b), determined without regard to section 267(f)(1)(A) and determined by substituting "80 percent" for "50 percent" with regard to the ownership of the stock of a C corporation in subsections (b)(2), (b)(8), (b)(10)(A) and (b)(12) of section 267.

In applying section 460, Y should treat as the total expected contract price the amount to be paid by X, if such amount represents an arm's length charge. If this amount does not represent an arm's length charge, then Y must use an arm's length charge as the total expected contract price. This arm's length charge must reflect both Y's contribution to the long-term contract being performed by X, and the contract price to be received by X. In addition, if Y treats as total expected contract price an arm's length charge that differs from the actual amount that X is obligated to pay, then X must treat that arm's length charge as the cost that X incurs with respect to Y's activities.

For purposes of determining its own percentage of completion, X shall take into account the amount that it accrues as payable to Y (or is treated as accruing as payable to Y under the preceding paragraph) at the time that X accrues such amount, rather than at the time that Y incurs costs to perform activities benefiting X's long-term contract.

The rule of this Q&A-8 requiring that certain activities of related parties such as Y be accounted for under section 460 even though such activities do not, by themselves, constitute a long-term contract shall in general apply only to contracts entered into by X on or after June 21, 1988. However, this rule shall apply to any contract entered into after February 28, 1986, if X has arranged for a party whose relationship with X is described in section 707(b) or 267(b) (and regardless of whether the degree of ownership requirements of the applicable section are satisfied) to perform a portion of the activities required to fulfill the contract, and a principal purpose of that arrangement is to avoid the application of section 460 to the income and expenses attributable to such activities.

Example. On July 1, 1988, X, an accrual method taxpayer, enters into a long-term contract within the meaning of section 460(f) to produce 5 aircraft for C. Y1, an 80-percent-owned subsidiary of X and also an accrual method taxpayer, incurs costs in 1988 and 1989 to perform research, development, engineering and design work necessary to produce the aircraft. Assume that, if X had performed these activities itself, the costs would have been properly allocable to the contract. This work is completed in 1989. Y2, also an 80-percent-owned subsidiary of X, and also an accrual method taxpayer, manufactures engines in 1989 and 1990 for the aircraft. Y2's work is completed in 1990. Assume that X pays Y1 and Y2 amounts that are arm's length charges as determined under the principles of section 482, with such charges reflecting both the contributions of Y1 and Y2 to the contract being performed by X and the price to be received by X.

Both Y1 and Y2 must account for their activities under section 460 regardless of whether (i) Y1's activities considered by themselves would constitute the manufacture of property, (ii) the aircraft engines are "unique" or require more than 12 months to complete, and (iii) Y1 and Y2 have entered into contracts with X. Y1 must include the amount to be payable by X in income in 1988 and 1989, and Y2 must include the amount to be payable by X in 1989 and 1990, under either the percentage of completion or percentage of completion-capitalized cost method, under the rules applicable to long-term contracts entered into on July 1, 1988. Y1 and Y2 must apply the look-back method in 1989 and 1990, respectively. Y1 and Y2 are subject to the cost allocation rules of section 460(b). X is not required to take the costs incurred by Y1 and Y2 into account in determining its own percentage of completion for 1988 through 1990. Instead, X takes into account the amounts that it accrues as payable to Y1 and Y2 in determining its percentage of completion at the time that X incurs such amounts. See Q&A-32 and Q&A-33.

IV. EFFECTIVE DATE OF SECTION 460

Q-9: When is section 460 effective?

A-9: Section 460 (including the interest allocation requirements of section 460(c)(3)) and the rules set forth in this notice are, except as expressly provided to the contrary in this notice, effective for long-term contracts entered into after February 28, 1986, beginning with taxable years ending after February 28, 1986. For rules governing the accounting for costs allocable to contracts entered into after February 28, 1986, but incurred in taxable years ending before March 1, 1986, see Q&A-29 and Q&A-36. No inference is intended concerning the extent to which the rules applicable after the effective date of section 460 would apply to issues arising under the law in effect before the enactment of section 460.

Q-10: Does section 460 apply to a contract that is entered into by the taxpayer before March 1, 1986, but is assigned by the taxpayer on or after that date to another person?

A-10: The assignee must account for such a contract under section 460 unless (i) none of the terms of the contract are changed in connection with the assignment, and (ii) the assignee agrees to perform all of the assignor's remaining obligations under the contract and becomes entitled to all remaining payments under the contract. If the conditions of the previous sentence are met, such a contract is not subject to section 460 even if the assignor does not remain liable to the customer after the assignment and even if the assignee becomes liable to the customer. This rule applies regardless of whether the assignor and assignee are related persons, and regardless of whether the assignment occurs in connection with a taxable sale or a nontaxable transaction. The assignee must account for contract income and costs using its "normal" method of accounting for long-term contracts (as defined in Q&A-18) as of the date of the transfer (which may or may not be the same as the normal method of accounting of the assignor), except as provided in section 381 of the Code, or any other applicable provision of the Code or regulations. If the assignee has not adopted a method of accounting for long-term contracts as of the time of the transfer (as may be the case if, for example, the assignee is a new taxpayer, or has never performed a long-term contract), the assignee generally may use any method of accounting for a long-term contract permitted under section 1.451-3 of the regulations (*e.g.*, the completed contract method or the accrual method). If, however, such an assignee has a relationship to the assignor described in section 267(b) or 707(b) immediately after the assignment, then the assignee must use the assignor's normal method. For this purpose, whether the assignee and assignor have a relationship described in section 267(b) shall be determined without regard to section 267(f)(1)(A) and by substituting "80 percent" for "50 percent" with regard to the ownership of the stock of a C corporation in subsections (b)(2), (b)(8), (b)(10)(A) and (b)(12) of section 267.

Example (1). On February 1. 1986 X Corporation enters into a construction contract with Y. On November 1. 1987, X sells the assets of its division that was performing the contract to Z corporation. As part of the asset sale. Z agrees to perform all of X's obligations under the contract, and X assigns to Z all of its rights under the contract, including the right to all remaining payments under the contract. Y agrees to release X from its obligations under the contract, and Z becomes legally obligated to Y. There is no change in the terms of the contract. Thus, Z does not agree to perform any additional work that X was not obligated to perform, and no adjustment is made in the contract price that Y is obligated to pay. Because X's contract with Y was entered into prior to March 1, 1986, Z is not subject to section 460 in accounting for contract income and costs.

Example (2). The facts are the same as in Example (1), except that the terms of the contract (*e.g.*, the total price to be paid by Y) are changed in connection with the transaction. Z is subject to section 460 in accounting for contract income and costs.

Q-11: Does section 460 apply to revenues and expenses attributable to a change order or other similar agreement entered into by the taxpayer and the customer after February 28, 1986 but relating to a contract entered into on or before that date?

A-11: A change order or other similar agreement entered into by the taxpayer and the customer after February 28, 1986, is subject to section 460 if it is treated as a separate contract under the rules for severing contracts described in Q&A-37 and Q&A-38.

Example. Y enters into a contract on February 1, 1986, with an agency of the Federal Government to build two submarines. On November 1, 1987, the customer and taxpayer agree to a change order providing for a third submarine of the same class to be built by Y. Because the change order is treated as a separate contract under the rules for severing contracts described in Q&A-37, Y must account for costs and income allocable to the third submarine in accordance with section 460.

Q-12: Is a contract considered to have been entered into even if the contract is subject to conditions that have not yet been met?

A-12: Yes. A contract is considered to have been entered into even if it is subject to conditions not within the control of the taxpayer that have not yet been met, so long as the contract is a binding contract under applicable law.

Example. On December 1, 1985, X, a builder, enters into a contract with Y to build a home. Although the contract is contingent on Y's obtaining financing, it is a binding contract under applicable law. Y obtains financing on March 1, 1986. The contract is not subject to section 460, because it was entered into before March 1, 1986, even though it was subject to a condition that was met on or after that date.

Q-13: If a taxpayer has failed to comply with section 460 with respect to one or more contracts entered into after February 28, 1986 for one or more tax years ending after that date, how should the taxpayer correct its method of accounting?

A-13: A taxpayer that has failed to comply with section 460 must change its method of accounting for long-term contracts to conform to section 460 under the following procedures. These procedures are to be used rather than the procedures provided in Rev. Proc. 84-74, 1984-2 C.B. 736. Under this notice, the taxpayer is directed to and is granted consent to conform its method of accounting to a method required under section 460, provided that (1) section 6501 (the applicable statute of limitations) would permit assessment of tax for all years for which the taxpayer has failed to report income and expenses in accordance with section 460, and (2) the taxpayer files amended returns for all such years.

If section 6501 would not permit assessment of tax for all tax years for which the taxpayer has failed to report income and expenses in accordance with section 460, then the taxpayer shall, pursuant to section 446, request the consent of the Commissioner to change its method of accounting for all contracts entered into after February 28, 1986 to a method required by section 460. Such change shall be effective for the earliest tax year for which section 6501 would permit assessment of tax. As a condition of such change, the taxpayer shall file amended returns for the year of change and all subsequent years. Any adjustment required under section 481 as a result of such change shall be taken into account under such terms as may be prescribed by the Commissioner.

V. DETERMINATION OF WHETHER PERCENTAGE OF COMPLETION OR PERCENTAGE OF COMPLETION-CAPITALIZED COST METHOD IS TO BE USED

Q-14: What rules apply in determining whether the percentage of completion method of accounting rather than the percentage of completion-capitalized cost method of accounting is to be used by a taxpayer for a particular long-term contract entered into after February 28, 1986?

A-14: If, immediately prior to the effective date of section 460, the taxpayer used the percentage of completion method of accounting for all long-term contracts within a particular trade or business, then the taxpayer is required to use the percentage of completion method of accounting (as modified by section 460 and explained in Q&A-19 through Q&A-36) for all items of income from and all costs allocable to all long-term contracts within that trade or business entered into after February 28, 1986, unless the taxpayer has obtained the consent of the Commissioner to use a different method of accounting.

If, immediately prior to the effective date of section 460, a taxpayer used a method of accounting other than the percentage of completion method for all long-term contracts within a particular trade or business, then the taxpayer shall use the percentage of completion-capitalized cost method for all long-term contracts within that trade or business (other than contracts exempt under section 460(e)(1)) entered into after February 28, 1986, unless one of the following conditions is met: (1) the taxpayer has changed its method of accounting to the percentage of completion method (*e.g.*, pursuant to Notice 87-61, 1987-2 C.B.

370, or Notice 88-66, 1988-1 C.B. 552, or Q&A-47) for all items under all long-term contracts within that trade or business entered into after February 28, 1986; (2) the taxpayer has changed its method of accounting (*e.g.*, pursuant to Notice 88-66 or Q&A-47) to the percentage of completion method for all items under all long-term contracts within that trade or business entered into after October 13, 1987; or (3) the taxpayer has changed its method of accounting (*e.g.*, pursuant to Q&A-47) to the percentage of completion method for all long-term contracts entered into after June 20, 1988; or (4) the taxpayer has obtained the consent of the Commissioner to use a different method of accounting.

Immediately prior to the effective date of section 460, under section 1.451-3(a)(1) of the regulations, some taxpayers were permitted to use the percentage of completion method for certain long-term contracts within a particular trade or business, but to use another method of accounting for other long-term contracts within that trade or business. For example, the taxpayer might have used the percentage of completion method for long-term contracts of substantial duration and an accrual method for long-term contracts of less than substantial duration. Such a taxpayer must use the percentage of completion method, as modified by section 460, to account for all items under all long-term contracts entered into after February 28, 1986 that are of a duration such that they would have been accounted for under the percentage of completion method, based on the standards applied by the taxpayer, prior to the effective date of section 460. Such a taxpayer must use the percentage of completion-capitalized cost method to account for all items under all long-term contracts entered into after February 28, 1986 that are of a duration such that they would have been accounted for under a method other than the percentage of completion method, based on the standards applied by the taxpayer prior to the effective date of section 460. The requirements of the two preceding sentences shall apply unless the taxpayer has changed to the percentage of completion method pursuant to Notice 87-61, Notice 88-66, or Q&A-47, or has obtained the consent of the Commissioner.

VI. PERCENTAGE OF COMPLETION-CAPITALIZED COST METHOD

Q-15: Under the percentage of completion-capitalized cost method, when are items of revenue from and items of cost allocable to a long-term contract taken into account?

A-15: Under the percentage of completion-capitalized cost method of accounting, a certain percentage of each item of revenue and each item of cost is taken into account at the time that such item would be taken into account using the percentage of completion method for the contract, and the remaining percentage is taken into account at the time that such item would be taken into account using the taxpayer's "normal" method of accounting for the contract. The percentage of each item to be taken into account under each of these two methods of accounting depends on the date that the contract was entered into. For contracts entered into after February 28, 1986, but before October 14, 1987, 40 percent of each item of revenue or cost is taken into account under the percentage of completion method and the remaining 60 percent is taken into account under the taxpayer's normal method of accounting (the "40/60 method"). In general, for contracts entered into after October 13, 1987, but before June 21, 1988, 70 percent of each item of revenue or cost is taken into account under the percentage of completion method and the remaining 30 percent is taken into account under the taxpayer's normal method of accounting (the "70/30 method"). In general, for contracts entered into on or after June 21, 1988, 90 percent of each item of revenue or cost is taken into account under the percentage of completion method and the remaining 10 percent is taken into account under the taxpayer's normal method of accounting (the "90/10 method").

The following exceptions apply to these general rules, however. First, certain ship contracts described in section 10203 of the Revenue Act of 1987 entered into after October 13, 1987, are not required to be accounted for under either the 70/30 method or the 90/10 method. Such ship contracts are required to be accounted for using either the percentage of completion method or the 40/60 method. Second, "residential construction contracts" entered into on or after June 21, 1988, are not required to be accounted for under the 90/10 method. Unless they meet the requirements of section 460(e)(1)(B), such residential construction contracts are required to be accounted for under either the percentage of completion method or the 70/30 method. Third, a contract is not required to be accounted for under the 90/10 method if the contract results from the acceptance of a bid made before June 21, 1988, and the bid could not have been revoked or altered at any time on or after June 21, 1988. Fourth, except for the interest capitalization requirements of section 460(c)(3), section 460 does not apply to any "home construction contract" entered into after June 20, 1988. Unless such a contract meets the requirements of section 460(e)(1)(B), the uniform capitalization rules of section 263A and the regulations thereunder will apply to it. See Q&A-41 through Q&A-44 for definitions and rules relating to "residential" and "home" construction contracts. See Q&A-46 for rules relating to the application of the alternative minimum tax to long-term contracts described in section 460(e).

Q-16: In applying the percentage of completion-capitalized cost method of accounting, is a taxpayer permitted to reduce the amount of contract revenue required to be taken into account in a particular year under the taxpayer's normal method of accounting by the amount of contract revenue taken into account under the percentage of completion method in that year and previous years?

A-16: No. The amount of contract revenue taken into account in a particular year under the taxpayer's normal method of accounting is not affected by the amount of contract revenue required to be taken into account in any year under the percentage of completion method. Similarly the amount of contract revenue taken into account under the percentage of completion method is not affected by the amount of contract revenue taken into account in any year under the taxpayer's normal method.

Example. After October 13, 1987, but before June 21, 1988, X enters into a long-term contract that is accounted for under the percentage of completion-capitalized cost method using the 70/30 method. X's normal method of accounting is an accrual method. Assume that if X were using the percentage of completion method for the contract, X would be required to take into account $500,000 of contract revenue in 1988. Assume that if X were using the accrual method, X would be required to take into account $200,000 of contract revenue in 1988. Under the percentage of completion-capitalized cost method, X is required to take into account the following amounts of contract revenue in 1988: 70 percent of $500,000, or $350,000, plus 30 percent of $200,000, or $60,000, for a total of $410,000.

Q-17: How should a taxpayer that (i) uses the percentage of completion-capitalized cost method of accounting, with an accrual method as its normal method, and (ii) uses the dollar value last-in, first-out (LIFO) method of valuing its inventories apply the LIFO method to value inventories in a pool that includes items being produced under a long-term contract?

A-17: The taxpayer should include in inventory only that percentage of each unit being produced under a long-term contract that is equal to the percentage (60%, 30%, or 10%) of income and costs for such contract that is accounted for under the taxpayer's normal method. To the extent that raw materials included in the pool have been dedicated to a long-term contract, only that portion of such raw materials that is equal to such fraction (*i.e.*, 60%, 30%, or 10%) should be treated as remaining in inventory. Thus, inventory will include fractional units of raw materials, goods in process, and finished goods (as well as whole units if the same pool includes items that are not being produced under a long-term contract).

The following example illustrates the use of the dollar-value LIFO inventory method in conjunction with the percentage of completion-capitalized cost method for long-term contracts:

Example. X is engaged in the manufacture of a single type of metal component for customers in the aerospace industry. The metal component normally takes more than 12 months to manufacture. Since it began business, X sold metal components to customers only from its inventory of finished goods. However, for financial reasons, X modified this practice in 1987 and decided to obtain contracts from a customer in some cases prior to completing the manufacture of a component. X continued to manufacture and sell approximately one-half of its components without first obtaining a contract.

X uses a calendar-year tax year and an overall accrual method to report taxable income. X accounts for the cost of its inventory using the dollar-value LIFO inventory method and the natural business unit pooling method. X uses the double-extension method to compute its LIFO index. X's metal components consist of one type of raw material, and each finished component requires 6 units of raw material and 10 units of labor. X's unit costs are determined on a fully capitalized basis and, therefore, reflect all indirect costs required to be capitalized. Moreover, X does not incur research and experimental expenses and, consequently, its unit costs for items produced under a contract and for items sold from inventory do not differ.

Assume that, since the year X began business, X's ending inventory has always consisted of 20 units of raw material, two half-completed components in work-in-process, and two completed components. Thus, at the beginning of 1987, the LIFO value of X's inventory equals the base-year cost of these items and, accordingly, represents a single LIFO layer accumulated in the base year as shown below in Table 1.

(Note: In the following tables, "M" represents materials, and "L" represents labor.)

TABLE 1

1987 Beginning Inventory:

		Units		Base-year Cost		
	%	M	L	M Value ($5 × Unit)	L Value ($10 × Unit)	Total
Raw Material	100%	20	—	$100 ×	—	$100 ×
Work-in-process:						
Noncontract C	100%	3	5	15 ×	50 ×	65 ×
Noncontract D	100%	3	5	15 ×	50 ×	65 ×
Finished Goods:						
Noncontract A	100%	6	10	30 ×	100 ×	130 ×
Noncontract B	100%	6	10	30 ×	100 ×	130 ×
Total Base-year cost = Total LIFO value						$490 ×

At the end of 1987, X's physical inventory consisted of the same number of components at the same stages of completion. However, the two components carried in ending work-in-process, which were one-half completed (Contract E, entered into in September 1987, and Contract F, entered into in November 1987) were being manufactured under long-term contracts that are subject to section 460.

Because X's components normally require more than 12 months to complete, X's contracts to manufacture the components meet the definition of a long-term contract under section 460(f) of the Code. Assuming that X uses an accrual method as its normal method of accounting for long-term contracts, X must account for the cost of components manufactured under a contract using the percentage of completion-capitalized cost method and, therefore, must apply the dollar-value LIFO inventory method to less than 100 percent (*i.e.*, 60%, 30%, or 10% depending on the date each particular long-term contract is entered into) of the cost of each of these components. Accordingly, assuming again that the volume and mix of raw materials, unfinished components and finished components remains unchanged at the end of 1987, the LIFO value of X's ending inventory will change because X is required by the operation of section 460 to include only a percentage of the cost of components manufactured under a long-term contract in its dollar-value LIFO pool as shown below in Table 2. Note, however, that X does not remove a percentage of the cost of any of the 20 units of raw material from the LIFO pool until those units are dedicated to one of its long-term contracts. See Q&A-35.

TABLE 2

1987 Ending Inventory:

		Units		Base-year Cost		
	%	M	L	M Value ($5 × Unit)	L Value ($10 × Unit)	Total
Raw Material	100%	20	—	$100 ×	—	$100 ×
Work-in-process:						
Contract E-9/87	60%	1.8	3.0	9 ×	30 ×	39 ×
Contract F-11/87	30%	.9	1.5	4.5 ×	15 ×	19.5 ×
Finished Goods:						
Noncontract C	100%	6	10	30 ×	100 ×	130 ×
Noncontract D	100%	6	10	30 ×	100 ×	130 ×
Total Base-year cost						$418.5 ×
Beginning-of-year Base-year cost						490.0 ×
Decrement in LIFO value						(71.5 ×)
Total LIFO value of ending inventory						$418.5 ×

For contracts entered into after the effective date of the 1988 Act (June 20, 1988), X must, for purposes of pricing the items in its dollar-value pool, further reduce the percentage of long-term contract items taken into account to 10 percent. Table 3 reflects the sale of Noncontract items C and D; the inclusion in work in process of the partially completed Contract G, entered into in July 1988, and the partially completed Noncontract item H: and the inclusion in finished goods of Noncontract items I and J, which were started and completed in 1988. Notwithstanding the fractional inclusion of components manufactured under long-term contracts, an increment in X's LIFO pool occurs in 1988 because one fractional component included in 1987 work in process is replaced by a whole component that is being manufactured without a long-term contract.

TABLE 3

1987 Ending Inventory:

	%	Units M	L	Current-year Cost M Value ($20 × Unit)	L Value ($40 × Unit)	Total
Raw Material	100%	20	—	$400 ×	—	$400 ×
Contract G-7/88	10%	.3	.5	6 ×	20 ×	26 ×
Noncontract H	100%	3.0	5.0	60 ×	200 ×	260 ×
Finished Goods:						
Noncontract I	100%	6	10	120 ×	400 ×	520 ×
Noncontract J	100%	6	10	120 ×	400 ×	520 ×
Total Current-year cost						$1726 ×

	%	Units M	L	Base-year Cost M Value ($5 × Unit)	L Value ($10 × Unit)	Total
Raw Material	100%	20	—	$100 ×	—	$100 ×
Work-in-process:						
Contract G-7/88	10%	.3	.5	1.5 ×	5 ×	6.5 ×
Noncontract H	100%	3.0	5.0	15 ×	50 ×	65 ×
Finished Goods:						
Noncontract I	100%	6	10	30 ×	100 ×	130 ×
Noncontract J	100%	6	10	30 ×	100 ×	130 ×
Total Base-year cost						$431.5 ×
Beginning Inventory-Base-year cost						418.5 ×
Increment—Base-year cost						13.0 ×
LIFO Index = $1726 × /$431.5 × × 4						
LIFO value of Increment = 4 × $13.0 =						52.0 ×
Ending Inventory LIFO value						$470.5 ×

As Table 3 demonstrates, the interaction of section 460 and the LIFO inventory method of accounting can cause changes in the value of LIFO layers, even if there is no change in the physical content of raw materials, work in process, and finished goods.

Q-18: What is meant by a taxpayer's "normal" method of accounting?

A-18: In general, a taxpayer's normal method of accounting is the method of accounting that the taxpayer used immediately prior to the effective date of section 460 to account for its long-term contracts within a particular trade or business. This method of accounting might have been, for example, the completed contract method provided by section 1.451-3(d) of the regulations, the cash method, an accrual method such as the accrual shipment, or accrual delivery method.

If, however, the taxpayer has been required by law or has obtained the consent of the Commissioner to change from its normal method to a new method of accounting, then the new method is treated as the taxpayer's normal method of accounting. For example, section 263A may require a change in the taxpayer's normal method of accounting. Similarly, section 448 may require a taxpayer that used the cash method of accounting for long-term contracts immediately prior to the effective date of section 460, to change from the cash method to another method of accounting pursuant to section 448. In this case, that other method of accounting becomes the taxpayer's normal method of accounting for purposes of applying the percentage of completion-capitalized cost method. Although section 448 generally requires that certain taxpayers change from the cash to the accrual method, section 1.448-1T(h)(3) of the regulations may permit a change to the completed contract method in certain cases.

VII. PERCENTAGE OF COMPLETION METHOD

Q-19: Under the percentage of completion method, what portion of the total price under a particular contract is required to be included in gross income in a particular taxable year?

A-19: Under the percentage of completion method, the taxpayer must include in gross income in each taxable year ending after the date that the contract is entered into an amount equal to the excess of (1) the product of (a) the total amount of revenue that the taxpayer estimates it will receive with respect to the contract, multiplied by (b) the cumulative percentage of the contract that has been completed as of the end of the taxable year, over (2) the total cumulative amount of contract revenue required to be included in gross income in all preceding taxable years. This amount may be expressed by the following formula:

$(TCR \times PC) - I$

where

TCR = the total amount of revenue that the taxpayer expects to receive with respect to the contract;

PC = the cumulative percentage of the contract that has been completed as of the end of the taxable year;

I = the total cumulative amount of contract revenue required to be included in gross income in all preceding taxable years.

It should be noted that total estimated contract revenues may be different for the different years of the contract. See Q&A-24.

If the total cumulative amount of contract revenue required to be included in gross income in all preceding taxable years exceeds the product of total expected contract revenues for the taxable year multiplied by the cumulative percentage of the contract completed as of the end of the taxable year, then the taxpayer shall be permitted to deduct the excess as a loss for the taxable year. This may occur, for example, as a result of increases in total estimated contract costs occurring after the end of the tax year in which the contract is entered into.

Q-20: How does a taxpayer determine the percentage of the contract that has been completed as of the end of the taxable year?

A-20: Unless the taxpayer uses the simplified method described in Q&A-22 and Q&A-23, the percentage of the contract considered completed as of the end of the taxable year is equal to the ratio of (a) the total cumulative amount of costs allocable to the contract and incurred in the taxable year and in all preceding taxable years, to (b) the total amount of costs allocable to the contract that the taxpayer expects to incur. The total estimated contract costs may be different for the different years of the contract. See Q&A-24.

Q-21: Should a taxpayer that properly uses the cash method as its over-all method of accounting treat a cost as incurred in the taxable year in which it is paid for purposes of determining the total amount of costs allocable to the contract incurred in a particular taxable year?

A-21: No. Section 460 provides that, in determining percentage of completion, costs are taken into account in the taxable year that they are incurred, regardless of the taxpayer's over-all method of accounting. Similarly, under the percentage of completion method, costs allocable to the contract are deductible in the year incurred, regardless of the taxpayer's overall method of accounting. For this purpose, an item is treated as incurred when it would properly be taken into account under an accrual method of accounting, including the rules of section 461(h). See Q&A-33 through Q&A-35 for further discussion.

Q-22: How is percentage of contract completion determined under the simplified method?

A-22: Under the simplified method, only certain costs are used in determining both (i) costs allocated to the contract and incurred before the close of the taxable year, and (ii) total estimated contract costs. These costs are: (a) direct material costs and direct labor costs, and (b) depreciation, amortization and cost recovery allowances on equipment and facilities (to the extent allowable as deductions under Chapter 1 of the Code) directly used to construct or produce the subject matter of the long-term contract. Direct material costs include the costs of materials such as raw materials, land, equipment and components that become an integral part of the subject matter of a long-term contract and the costs of those materials that are consumed in the ordinary course of building, constructing, installing, or manufacturing the subject matter of a long-term contract.

Q-23: Which taxpayers may use the simplified method?

A-23: The simplified method may be used by taxpayers using the percentage of completion method for all items under all long-term contracts in a particular trade or business. A taxpayer that, pursuant to Q&A-14, uses the percentage of completion method for long-term contracts of substantial duration and the percentage of completion-capitalized cost method for long-term contracts of less than substantial duration, may not use the simplified method for its long-term contracts of substantial duration.

A taxpayer using the percentage of completion-capitalized cost method that properly uses the cash method as its normal method of accounting may also use the simplified method. However, any such taxpayer must automatically change from the simplified method for the first taxable year that the taxpayer is required to change from the cash method under any provision of law, including section 448, unless the taxpayer properly changes its method of accounting to the percentage of completion method for all items under all long-term contracts in its trade or business.

Use of the simplified method is a method of accounting and may not be revoked without the consent of the Commissioner. The Commissioner may, by revenue procedure, or other administrative pronouncement, permit taxpayers to adopt the simplified method without obtaining consent. See, *e.g.*, Notice 87-61.

Q-24: In determining percentage of completion for a particular taxable year, when are total contract costs and total contract revenues to be estimated?

A-24: Total contract revenue and total contract costs are to be estimated based on the facts and reasonable estimates as of the last day of the taxable year. Events that occur after the end of the taxable year that were not reasonably subject to estimate as of the last day of the taxable year are not taken into account.

Example. X, a calendar year taxpayer, enters into a long-term contract on January 1, 1987 Based on the facts as of December 31, 1987, X reasonably estimates that total contract revenue will be $10m and total contract costs will be $5m. X's employees go on strike in February, 1988, causing X to increase its estimate of total contract costs to $6m. After the strike is settled, X receives an order from the customer for additional work under the contract. Assume that this order would not be treated as a separate contract under the rules for severing contracts set forth in Q&A-37. Based on this order, X increases its estimate of total contract costs to $8m, and increases its estimate of total contract revenues to $15m. In applying the percentage of completion method to determine the amount of contract revenue required to be included in gross income in 1987, reasonable estimates of total contract revenue and costs based on the facts as of December 31, 1987, are to be used. Revisions to these estimates based on the strike and the change order occurring in 1988 are not taken into account, even though these revisions were made before X filed its tax return for 1987.

Q-25: Are contingency allowances for extraordinary costs to be included in total estimated contract costs for purposes of computing percentage completion?

A-25: Total estimated contract costs do not include any contingency allowance for costs that, as of the end of the year for which the estimate is made, are unforeseeable or extraordinary and are not reasonably expected to be incurred in the performance of the contract. Thus, for example, total estimated costs do not include costs attributable to abnormal factors not reasonably foreseeable as of the end of the tax year for which the estimate is made, such as prolonged third-party litigation, abnormal weather conditions (considering the season and the job site), prolonged strikes, and prolonged delays in securing required permits and licenses, and other factors that, as of the end of the year for which the estimate is made, could not be reasonably anticipated considering the nature of the contract and prior experience of the taxpayer.

Q-26: Are estimated costs of performing other contracts (such as "follow-on contracts") that the taxpayer expects to enter into with the same customer as a result of having entered into a particular contract included in total estimated contract costs for the initial contract?

A-26: No. The estimated costs of performing such a contract are not included in total estimated contract costs for the initial contract unless the contract would not be treated as a separate contract under the severing and aggregating rules described in Q&A-37.

Q-27: For purposes of applying the percentage of completion method, are "retainages" and "holdbacks" included in total expected contract revenues?

A-27: Yes. All amounts that the taxpayer is or will be entitled to receive from the customer under the contract, or any other rule of law (including, for example, the contract law rule of quantum meruit, or other quasi-contractual remedies) must be included in total expected contract revenues, including amounts, such as retainages, that the customer has contracted to pay only upon satisfactory completion of the contract. (See also section 460(b)(2)(B), which requires that such amounts, including amounts received after contract completion, be included in total contract price for purposes of applying the look-back rule.)

Q-28: For purposes of applying the percentage of completion method, does a taxpayer include in total expected contract revenues award fees and similar incentive payments that the taxpayer is entitled to receive under the contract if certain requirements, in addition to satisfactory completion and acceptance, are met?

A-28: Payments such as award fees, or incentive payments, are to be included in total expected contract revenues at the time and to the extent that the taxpayer can reasonably predict that the corresponding performance objectives will be met.

Q-29: If a taxpayer incurs costs allocable to a contract in a taxable year ending prior to the date that the contract is entered into, does the percentage of completion method require inclusion of any portion of the expected contract revenue in gross income in such prior taxable year?

A-29: No. Under the percentage of completion method the taxpayer is not required to include any amount in gross income in any taxable year ending prior to the date that a contract is entered into, even if costs allocable to the contract are incurred in such a taxable year. With respect to costs incurred in a taxable year prior to the year a contract is entered into, if (i) it is reasonably foreseeable at the time that the costs are incurred that they relate to a long-term contract that will be entered into during a future year, and (ii) the costs are of a nature such that they would otherwise be allocable to the contract under section 460(c), then such costs are to be capitalized in the year in which they are incurred. If, in contrast, it is not reasonably foreseeable at the time that costs are incurred that they relate to a long-term contract that will be entered into during a future year, then such costs are to be accounted for and capitalized under the provisions of section 263A (if such costs are incurred in a taxable year to which section 263A applies). In either case, in the subsequent year in which the contract is entered into, all such costs are to be allocated to the contract and taken into account in determining the completion percentage and, thus, in determining the amount of contract revenue required to be taken into account in the subsequent taxable year in which the contract is entered into. See Q&A-36, which provides for the time for deducting such costs.

Q-30: For the purpose of computing percentage of completion, are nondeductible costs taken into account in determining (i) expected total costs allocable to a contract, or (ii) costs allocable to a contract and incurred through the end of the taxable year?

A-30: No. For these purposes, nondeductible costs are not taken into account, even if otherwise allocable to a contract under section 460(c) and Q&A-39 and Q&A-40. Thus, for example, the following costs would not be taken into account in computing percentage of completion: (i) any payments disallowed under section 162(c); and, (ii) meals and entertainment costs disallowed under section 274.

Q-31: Under the percentage of completion method, what is the treatment of amounts received or to be received by the taxpayer from the customer as reimbursements for costs incurred in performing a long-term contract?

A-31: These reimbursements are included in total contract price in determining the amount included in gross income in the taxable year under the percentage of completion method. Similarly, reimbursed costs allocable to a contract that have been incurred by the taxpayer are treated as contract costs in determining percentage of completion for the taxable year in which such costs are incurred. See Q&A-32 and Q&A-33.

Q-32: How are costs that are allocable to a contract taken into account under the percentage of completion method?

A-32: Under the percentage of completion method, costs that are allocable to a contract are allowable as deductions from gross income in computing taxable income in the year in which they are incurred. The preceding sentence shall not apply if such costs are disallowed permanently under any provision of the Code or regulations, including, for example, section 162(c) or section 274.

Q-33: Under the percentage of completion method, when is a cost that is allocable to a long-term contract treated as incurred, and therefore as deductible and taken into account in computing percentage of completion for the taxable year?

A-33: Regardless of the taxpayer's overall method of accounting, contract costs generally are treated as incurred in the taxable year in which the "all events" test of section 461 and section 1.461-1(a)(2) of the regulations, as modified by section 461(h), is met. Thus, costs that are not treated as incurred as of the end of the taxable year for failure to satisfy the economic performance rules of section 461(h) are not deductible. Similarly, such costs are not treated as contract costs incurred through the end of the taxable year in determining percentage of completion (although those costs are taken into account in determining total expected contract costs). See Q&A-35 for rules relating to the time at which costs of direct materials and supplies are allocable to a contract.

Q-34: When are the costs of materials and supplies deductible under the percentage of completion method?

A-34: These costs are deductible under the percentage of completion method for the first taxable year in which the costs both are allocable to the contract and have been incurred. See Q&A-33 for rules as to when a cost that is allocable to a contract are treated as incurred. See Q&A-35 for rules as to when costs of materials and supplies are allocable to a contract.

Q-35: When are costs of direct materials and supplies treated as allocable to the contract under the percentage of completion method?

A-35: The costs of direct materials and supplies that are purchased specifically for a particular long-term contract are allocable to the contract in the taxable year in which such costs are incurred. The costs of other direct materials and supplies (such as those previously held by the taxpayer) are allocable to the contract in the taxable year in which such materials and supplies are dedicated to the contract. Examples of dedication include the following: (i) delivery of materials to a job site (if only one contract is being performed at that site); (ii) association of materials with a specific contract (for example, by purchase order, entry on books and records, or shipping instructions); and, (iii) if not previously assigned, the physical incorporation of the materials into the subject matter of the contract, or the consumption of the materials in the production of the subject matter of the contract. The cost that is allocated to a contract is to be determined using the taxpayer's method of accounting for such materials or supplies (*e.g.*, specific identification, FIFO, or LIFO) based on the taxable year in which such items are dedicated to the contract.

Q-36: When are costs that are allocable to a long-term contract, but are incurred prior to the date that the contract is entered into, deductible and taken into account for purposes of determining degree of contract completion?

A-36: Such costs are treated as allocated to the contract and are deductible in the taxable year in which the contract is entered into. These costs might include, for example, bidding and proposal costs allocable to the contract, raw land purchased before a construction contract was entered into, and labor costs incurred in anticipation that a contract will be awarded. See Q&A-29 regarding accounting for income attributable to such costs.

Example. In 1988 X Corporation, a calendar year taxpayer using the percentage of completion method, incurs costs to prepare a bid and proposal for a manufacturing contract with an agency of the United States government. In anticipation that the contract will be awarded, X also begins work in 1988 to produce the property that is expected to be the subject matter of the contract, incurring labor, materials, storage costs incurred to store the raw materials, and other costs allocable to this property under section 263A and the regulations thereunder. Then, on February 1, 1989, the contract is awarded and becomes legally binding on both the taxpayer and the agency. None of the bidding and proposal costs are deductible in 1988. Similarly, none of the other costs allocable to the property that is expected to be the subject matter of the contract are deductible in 1988. All of these costs are allocated to the contract on February 1, 1989. Therefore, all of these costs (bidding and proposal costs, as well as labor, materials, storage costs incurred to store the raw materials, and indirect costs allocable under section 263A to the property that is expected to be the subject matter of the contract) are deductible by X in 1989, and are taken into account by X in determining percentage of completion for 1989.

VIII. SEVERING AND AGGREGATION OF CONTRACTS

Q-37: What standards apply in determining whether an agreement should be treated as more than one contract ("severed"), or whether two or more agreements should be treated as a single contract ("aggregated") under section 460(f)(3)?

A-37: Except as provided in Q&A-38, the rules set forth in section 1.451-3(e) of the regulations apply in making this determination.

Q-38: May the taxpayer sever and aggregate contracts, or may such action be taken only by the Commissioner?

A-38: Under section 460(f)(3), a taxpayer is permitted and required to sever and aggregate contracts, notwithstanding the statement to the contrary in section 1.451-3(e)(1)(i)(C) of the regulations, which does not apply to contracts subject to section 460 and this Notice. Forthcoming regulations may require any taxpayer that severs or aggregates contracts under this Q&A-38 to attach a statement to its Federal income tax return for the first year in which it has entered into two or more agreements that are properly treated as a single contract, or a single agreement that is properly treated as more than one contract. If required, such a statement would describe the criteria used by the taxpayer in determining to sever or aggregate the agreements.

IX. ALLOCATION OF COSTS TO CONTRACTS

Q-39: What costs are required to be allocated to a long-term contract?

A-39: All costs (including, where applicable, research and experimental costs and interest costs) that directly benefit or are incurred by reason of the long-term contract activities of the taxpayer must be allocated to those contracts in the same manner that costs are allocated to extended period long-term contracts under section 1.451-3(d) of the regulations. For purposes of section 460(c), costs included in the preceding sentence and thus allocated to long-term contracts include all storage, handling, and processing costs incurred with respect to the long-term contract activities of the taxpayer. (See section 263A and the regulations thereunder for definitions of storage, handling, and processing costs.) Moreover, in the case of a cost-plus long-term contract or a Federal long-term contract, any cost not otherwise allocated to the contract under the general rule of the preceding sentence shall be allocated to the contract if the cost is identified by the taxpayer (or a related person) as being attributable to such contract, pursuant to the contract or any Federal, State, or local law or regulation. If, under a Federal or a cost-plus contract, the costs identified under the contract include a charge for the time value of money, that amount shall be treated as allocable to the contract without regard to whether the property produced is "qualified" property (as defined in Notice 88-99) with respect to which interest is required to be capitalized under section 460(c)(3).

The following costs are not subject to the rules of section 460 and are not allocable to long-term contracts: independent research and development expenses (as defined in section 460(c)(5)); expenses for unsuccessful bids and proposals; and marketing, selling and advertising expenses. Therefore, such costs are not taken into account in determining degree of contract completion under the percentage of completion method, and no portion of such costs is required to be capitalized under the percentage of completion-capitalized cost method by a taxpayer using the completed contract method as its normal method of accounting.

The use, direct or indirect, of the practical capacity concept to account for the costs required to be allocated to long-term contracts is not permitted. The practical capacity concept is defined as any concept, method, procedure, or formula (such as the practical capacity concept described in section 1.471-11(d)(4) of the regulations) whereunder fixed costs are not capitalized or allocated to a contract because of the relationship between the actual production at the taxpayer's production facility and the "practical capacity" of such facility. For this purpose, the practical capacity of a facility shall include either the practical capacity or theoretical capacity of the facility (as defined in section 1.471-11(d)(4) of the regulations), or any other similar determination of productive or operating capacity.

Q-40: What methods are available in accounting for the indirect costs required to be allocated to long-term contracts?

A-40: The indirect costs required to be allocated to a long-term contract must be allocated to particular contracts using either a specific identification (or "tracing") method, the standard cost method, or a method using burden rates (such as ratios based on direct costs, hours, or other items, or similar formulas), so long as the method employed for such allocation reasonably allocates indirect costs among long-term contracts. The method used by the taxpayer to allocate a particular cost must be applied consistently with respect to all long-term contracts of the taxpayer. An allocation method will not be considered to be reasonable if the method does not result in the allocation (and, to the extent applicable, the capitalization) of all costs that directly benefit or are incurred by reason of the performance of the taxpayer's long-term contract activities. The taxpayer shall account for each long-term contract separately and, except as provided, both the direct and indirect costs incurred during the taxable year attributable to long-term contract activities shall be allocated to particular long-term contracts for the taxable year such costs are incurred. See Q&A-35 for special rules relating to when a cost is allocable to a contract.

X. TREATMENT OF CERTAIN CONSTRUCTION CONTRACTS

Q-41: What is a "residential construction contract" for purposes of section 460?

A-41: The term "residential construction contract" means any contract if 80 percent or more of the total estimated contract costs (as of the close of the taxable year in which the contract was entered into) are reasonably expected to be attributable to the building, construction, reconstruction, or rehabilitation of (i) dwelling units, and (ii) improvements to real property directly related to such dwelling units and located on the site of such dwelling units. All costs that are attributable to the building, construction, reconstruction, or rehabilitation under the contract of such dwelling units and improvements and that are allocable to the contract, including costs of materials and raw land, are taken into account towards meeting the 80-percent test. In the case of a contract to construct a mixed-use building (*e.g.*, a building expected to contain both apartments and offices), the portion of costs that is attributable to construction of dwelling units (and improvements directly related to such dwelling units) is equal to the sum of (i) all costs that are attributable solely to the dwelling units (and directly related improvements), and (ii) a pro rata portion of all costs other than costs either solely attributable to the dwelling units (and directly related improvements) or solely attributable to other uses of the building (and directly related improvements). The pro rata apportionment shall be based on the relative amount of space in the building expected to be used for dwelling units. Thus, for example, if 50 percent of the total space in a mixed-use building is expected to be used for apartments, then 50 percent of the cost of land would be considered attributable to dwelling units. However, all of the expected cost of appliances to be installed only in the apartments would be considered attributable to dwelling units, because this cost is attributable solely to dwelling units.

For purposes of this Q&A-41 and for purposes of Q&A-43, the term dwelling unit has the same meaning as in section 167(k)(3)(C). Thus, a dwelling unit is a house or apartment used to provide living accommodations in a building or structure, but does not include a unit in a hotel, motel, inn, or other establishment more than one-half of the units of which are used on a transient basis.

Q-42: Which long-term contracts are exempt under section 460(e) from the requirements of section 460?

A-42: Section 460(e) provides that, except for the interest capitalization requirement of section 460(c)(3), the rules of section 460 do not apply to (1) any home construction contract entered into after June 20, 1988, and (2) any other construction contract entered into by a taxpayer (i) who estimates (at the time such contract is entered into) that such contract will be completed within the 2-year period beginning on the commencement date of such contract, and (ii) whose average annual gross receipts for the 3 taxable years preceding the year in which such contract is entered into do not exceed $10 million.

Thus, except for the interest capitalization requirements of section 460(c)(3), the law in effect before the enactment of section 460 applies to any contract described in clause (2) of the preceding paragraph, regardless of whether the contract involves the construction of a home or of commercial property. In the case of a home construction contract that is not described in clause (2) of the preceding paragraph (*i.e.*, a contract that is not expected to be completed within two years of the commencement date, or a contract entered into by a taxpayer whose average annual gross receipts exceed $10 million), the provisions of section 263A and the regulations thereunder apply, except that the interest capitalization requirements specifically provided in section 460(c)(3) also apply. For purposes of clause (2) of the preceding paragraph, a construction contract is any contract for the building, construction, reconstruction, or rehabilitation of, or the installation of any integral component to, or improvements of, real property. Whether a particular contract is a construction contract under this definition is to be determined by applying the rules set forth in section 1.451-3(b)(3)(ii) of the regulations and Q&A-4.

Q-43: What is a "home construction contract" for purposes of section 460(e)?

A-43: For purposes of section 460(e) the term "home construction contract" means any construction contract if 80 percent or more of the estimated total contract costs (as of the close of the taxable year in which the contract was entered into) are reasonably expected to be attributable to the building, construction, reconstruction, or rehabilitation of (i) dwelling units (within the meaning of section 167(k)) contained in buildings (with each townhouse or rowhouse treated as a separate building) containing four or fewer units, and (ii) improvements to real property directly related to such dwelling units and located at the site of such dwelling units. All costs attributable to the building, construction, reconstruction, or rehabilitation under the contract of such dwelling units and improvements, and allocable to the contract, including costs of materials and land, are taken into account towards meeting the 80-percent test. For the treatment of a mixed-use building, see Q&A 41.

Q-44: For purposes of the 80-percent tests of Q&A-41 and Q&A-43, can costs that a developer expects to incur to construct, build, or install roads, sewers, and other common features not located on the sites of dwelling units ("off-site work") be treated as attributable to dwelling units that the developer is constructing under contract?

A-44: Yes. Assume, for example, that a developer enters into a contract for the construction and sale of a house. The costs of off-site work properly allocable to this contract are treated as attributable to the construction of the house for purposes of the 80-percent test.

Q-45: What rules apply in determining the gross receipts that are to be taken into account in applying section 460(e)-(1)(B)?

A-45: For purposes of applying section 460(e), the taxpayer must take into account the gross receipts of (i) all trades or businesses (regardless of the nature of such trades or businesses) under common control with the taxpayer (within the meaning of section 52(b)), and (ii) all members of any controlled group of corporations of which the taxpayer is a member. For purposes of this determination, the term "controlled group of corporations" has the meaning given to such term by section 1563(a), except that "more than 50 percent" shall be substituted for "at least 80 percent" each place it appears in section 1563(a)(1), and the determination shall be made without regard to paragraphs (a)(4) and (e)(3)(C) of section 1563.

Persons are treated as members of controlled groups within the meaning of section 1563(a), regardless of whether such persons would be treated as "component members" of such group under section 1563(b). (See section 1.52-1(c) of the regulations.) Thus, for example, the gross receipts of a franchised corporation or a foreign corporation that is treated as an excluded member for purposes of section 1563(b) would be included for purposes of the aggregation rules of the gross receipts test under section 460(e) if the corporation and the taxpayer are members of the same controlled group under section 1563(a).

With respect to the group of persons ("members") the gross receipts of which are included in the calculation of the taxpayer's gross receipts for a taxable year, the gross receipts of the taxpayer are determined by aggregating the gross receipts of all members of the group, excluding gross receipts attributable to transactions occurring between such members. Moreover, in determining the gross receipts of any member of the group for a taxable year of less than 12 months, the gross receipts shall be annualized by (i) multiplying the gross receipts for the short period by 12, and (ii) dividing the result by the number of months in the short period.

In addition, in determining the gross receipts of the group for the three taxable years preceding the taxable year in which the contract is entered into, the gross receipts of all persons (or their predecessors) who are members of the group as of the first day of the taxable year in which the contract is entered into are included in such determination, regardless of whether such persons were members of the group for any of the three preceding taxable years. Similarly, the gross receipts of persons that were members of the group for any or all of the three preceding taxable years, but who (including their successors) are not members of the group as of the first day of the taxable year in which the contract is entered into, are not included for purposes of determining the taxpayer's average gross receipts.

Example (1). Assume that a parent corporation (P) has continuously owned 100 percent of the stock of another corporation (S1) since 1983, and that P and S1 are calendar year taxpayers. S1 enters into a long-term contract in March of 1987. In addition, P acquired 100 percent of the stock of another calendar year corporation (S2) as of the beginning of business on January 1, 1987.

In determining whether S1's long-term contract is subject to the provisions of section 460, the gross receipts of P, S1, and S2 for 1984, 1985, and 1986 shall be aggregated, excluding the gross receipts attributable to transactions occurring between the three corporations. The gross receipts of S2 are taken into account because it was a member of the group on January 1, 1987.

Example (2). Assume that a parent corporation (P) has continually owned 100 percent of the stock of two other corporations, (S1) and (S2), since 1983, and that the three corporations are calendar year taxpayers. S1 enters into a long-term contract in April of 1987. On December 31, 1986, P sells all of its stock in S2. In determining whether S1's long-term contract is subject to the provisions of section 460 for the taxable year beginning January 1, 1987, only the gross receipts of P and S1 for 1984, 1985, and 1986 shall be aggregated, excluding the gross receipts attributable to transactions occurring between the two corporations. The gross receipts of S2 are not taken into account because it was not a member of the group on January 1, 1987. Similarly, gross receipts attributable to transactions between S1 and S2 are not excluded.

In addition to the rules set forth above, the rules of section 1.451-3(b)(3)(iii) of the regulations (to the extent not inconsistent with the rules set forth above) relating to the determination, aggregation and attribution of gross receipts apply for purposes of section 460(e).

Q-46: Does the exception provided by section 460(e) apply for purposes of the alternative minimum tax?

A-46: Section 56(a)(3) provides, in general, that the percentage of completion method of accounting (as modified by section 460) shall be used in determining the alternative minimum taxable income ("AMTI") of a taxpayer for all long-term contracts entered into on or after March 1, 1986, for taxable years beginning after December 31, 1986. This general rule does not apply, however, to any home construction contract that both (i) is entered into after June 21, 1988, and (ii) meets the requirements of section 460(e)(1)(B) (*i.e.*, the taxpayer estimates that such contract will be completed within the 2-year period beginning on the contract commencement date, and the taxpayer's average annual gross receipts for the three taxable years preceding the taxable year in which such contract is entered into do not exceed $10 million). Therefore, except for such home construction contracts, the requirement to use the percentage of completion method under section 56(a)(3) applies to all long-term contracts of the taxpayer, even if the contracts are exempted under section 460(e)(1) from the requirement to use the percentage of completion method or percentage of completion-capitalized cost method for regular tax purposes.

Under section 56(a)(3), as amended by section 1007(b)(1) of the 1988 Act, however, the percentage of contract completion for any contract described in section 460(e)(1) shall be determined using the simplified cost-to-cost method. (See Q&A-22 for a discussion of the simplified cost-to-cost method.)

Whether or not a contract is described in section 460(e)(1), a taxpayer may elect, as provided in Notice 87-61, solely for purposes of determining percentage of completion for purposes of the alternative minimum tax, to use either (1) the methods of accounting and costs applied in computing regular tax, or (2) the methods of accounting and costs used in computing alternative minimum taxable income. See Notice 87-61 for procedures for making this election.

XI. CHANGES IN METHODS OF ACCOUNTING

Q-47: If, as a result of the amendment of section 460 by the 1988 Act, a taxpayer wishes to change from the percentage of completion-capitalized cost method to the percentage of completion method, in what circumstances may the taxpayer do so without obtaining the consent of the Commissioner?

A-47: For purposes of section 460 of the Code, any taxpayer using a method of accounting other than the percentage of completion method as its normal method of accounting for long-term contracts (*e.g.*, a taxpayer using the completed contract, cash or an accrual method of accounting) may automatically change its method of accounting to the percentage of completion method (including, if elected, the simplified cost-to-cost method) for—

1) all items under all long-term contracts entered into by the taxpayer after June 20, 1988; or

2) all items under all long-term contracts entered into by the taxpayer after October 13, 1987; or

3) all items under all long-term contracts entered into by the taxpayer after February 28, 1986.

The effect of alternative (2), regarding contracts entered into after October 13, 1987, is to extend the time period set forth in Notice 88-66 within which taxpayers may elect to use the percentage of completion method for all such contracts. The effect of alternative (3), regarding contracts entered into after February 28, 1986, is to extend the period, initially set forth in Notice 87-61, within which taxpayers may elect to use the percentage of completion method for all such contracts. Thus, for example, a taxpayer may use the percentage of completion-capitalized cost method for all contracts entered into after February 28, 1986 and before June 21, 1988, and may, under the terms of this notice, automatically (*i.e.*, without requesting the consent of the Commissioner) change its method of accounting to the percentage of completion method for all long-term contracts entered into after June 20, 1988. Alternatively, a taxpayer may, under the terms of this notice, use the percentage of completion-capitalized cost method for all contracts entered into after February 28, 1986, and before October 14, 1987, and may, under the terms of this notice, automatically change its method of accounting to the percentage of completion method for all items under all contracts entered into after October 13, 1987. In addition, a taxpayer may, under the terms of this notice, use the percentage of completion method for all items under all long-term contracts entered into after February 28, 1986.

This automatic change in method of accounting for long-term contracts is conditioned on the filing of an amended return for any affected tax year for which a Federal income tax return has been filed (subject to the applicable statute of limitations). The period for filing amended returns for taxpayers changing their method of accounting to the percentage of completion method is provided in Q&A-49 of this notice. Any taxpayer changing its method under this Q&A-47 must follow the notification procedures in Q&A-49.

Any automatic change to a method of accounting permitted under this Q&A-47 shall be effectuated by using a "cut-off" method with respect to contracts entered into after February 28, 1986, or October 13, 1987, or June 20, 1988, as the case may be. Thus, there is no change in the accounting method used with respect to any contract entered into before the applicable effective date, and the taxpayer shall not compute a section 481(a) adjustment with respect to its use of the new method of accounting.

Any change in method of accounting to the percentage of completion method other than a change for—

1) all items under all long-term contracts entered into by the taxpayer after February 28, 1986, or

2) all items under all long-term contracts entered into by the taxpayer after October 13, 1987, or

3) all items under all long-term contracts entered into by the taxpayer after June 20, 1988,

will constitute a change in method of accounting that requires the consent of the Commissioner. For example, if a calendar year taxpayer wishes to change from the percentage of completion-capitalized cost method to the percentage of completion method for its taxable year beginning on January 1, 1989, such taxpayer is required to obtain the consent of the Commissioner with respect to such change in method of accounting. Moreover, in such a situation, any change in method of accounting approved by the Commissioner (and any resulting section 481(a) adjustment) shall not consist, in whole or in part, of a change in method of accounting required to initially comply with section 460. Therefore, any resulting adjustment computed pursuant to section 481(a) shall relate only to a change from one proper method under section 460 to another proper method under section 460. See Q&A-13 for rules regarding taxpayers that had not complied with section 460 prior to requesting a change in their method of accounting for long-term contracts.

Q-48: What procedures should taxpayers follow to effectuate (1) the change in the percentage of completion-capitalized cost method of accounting from the 70/30 method to the 90/10 method required by the 1988 Act, and (2) the change in method of accounting for home construction contracts pursuant to the 1988 Act?

A-48: These changes shall be effectuated by using a "cut-off" method with respect to contracts entered into after June 20, 1988, *i.e.*, the taxpayer shall not change its method of accounting for contracts entered into before June 21, 1988, and no adjustment under section 481(a) of the Code shall be computed. Taxpayers making these changes shall follow the notification procedures in Q&A-49 of this notice.

Q-49: What notification and filing procedures should be followed by taxpayers changing methods of accounting under either Q&A-47 or Q&A-48 of this notice?

A-49: Any taxpayer described in Q&A- 47 or Q&A-48 of this notice shall complete and file a statement notifying the Internal Revenue Service of its use of the various methods of accounting (including the simplified cost-to-cost method) permitted under this notice with the taxpayer's Federal income tax return for the first taxable year ending after June 20, 1988, for which the taxpayer is required to account under section 460 for long-term contracts. The taxpayer shall type or legibly print the following language at the top of the statement required to be filed: "NOTIFICATION PROCEDURES UNDER SECTION XI OF NOTICE 89-15." Any amended return filed by a taxpayer for the purpose, in whole or in part, of changing the taxpayer's method of accounting under Q&A-47 must be filed on or before August 14, 1989. The taxpayer shall type or legibly print the following language at the top of each amended return: "NOTIFICATION PROCEDURES UNDER SECTION XI OF NOTICE 89-15."

Notwithstanding the requirements of the preceding paragraph, if a taxpayer has (i) filed a Federal income tax return on which the statement described in the preceding paragraph was required to be included, (ii) failed to file the statement described in the preceding paragraph with such return, and (iii) otherwise properly used the method of accounting as required or allowed under this notice (including Q&A-47 and Q&A-48), the taxpayer may file a statement indicating the use of its method of accounting under the following procedures. This statement must be attached to the taxpayer's first Federal income tax return filed after May 15, 1989, for which the taxpayer is required to account under section 460 for long-term contracts. (A taxpayer, at its option, may attach the statement with any return filed before May 16, 1989.) The taxpayer shall type or legibly print the following language at the top of the statement required to be filed: "NOTIFICATION PROCEDURES UNDER SECTION XI OF NOTICE 89-15."

PROCEDURAL INFORMATION

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or a revenue procedure. It is expected that provisions of this notice will be included in forthcoming regulations to be issued under section 460. The Commissioner invites comments concerning the issues addressed in this notice, and other issues arising under section 460.

Nuclear Decommissioning Reserve Fund Requirements

Notice 89-16

This notice provides guidance concerning the criteria to be applied in determining whether nuclear decommissioning costs are considered included in the cost of service of a utility company.

On June 27, 1988, the Nuclear Regulatory Commission issued final regulations that set forth certain requirements for the decommissioning of nuclear power plants. 10 C.F.R. section 30.32(f) (53 F.R. 24018, 24044-45). These regulations effectively require a utility company with an ownership interest in a nuclear power plant to establish an external reserve fund to provide for the decommissioning of the power plant. These regulations affect a number of companies that had previously provided for the decommissioning of nuclear power plants through the maintenance of internal reserves.

Section 468A(a) of the Internal Revenue Code allows a deduction for any tax year for payments made by a taxpayer to a qualified nuclear decommissioning reserve fund provided the taxpayer satisfies certain requirements. Section 468A(b) provides that the amount a taxpayer may contribute to the fund shall not exceed the lesser of (1) the amount of nuclear decommissioning costs included in the taxpayer's cost of service for ratemaking purposes, or (2) the ruling amount applicable to such tax year.

Except as provided in certain transitional rules relating to tax years beginning before January 1, 1987, section 1.468A-2(b)(2) of the Income Tax Regulations provides that decommissioning costs shall generally not be considered included in cost of service for ratemaking purposes unless: (A) the order or opinion of the applicable public utility commission identifies the amount of decommissioning costs that is included in cost of service for ratemaking purposes; or (B) the written records of the ratemaking proceeding clearly and unambiguously indicate the amount of decommissioning costs that is included in cost of service for ratemaking purposes. Section 1.468A-8(b)(4)(i) provides that for tax years beginning before January 1, 1987, decommissioning costs shall be considered included in cost of service if such decommissioning costs can be accurately determined from information contained in the regulated books of account or other written records of the taxpayer.

Prior to the issuance of the regulations by the Nuclear Regulatory Commission on June 27, 1988, public utility commissions setting rates for companies that maintained internal reserves generally did not specifically identify in rate orders the amount of decommissioning costs included in cost of service for ratemaking purposes, or otherwise clearly indicate such amount in the written records of ratemaking proceedings. If the general requirements of section 1.468A-2(b)(2) of the regulations are applied to companies maintaining internal reserves for decommissioning their nuclear power plants, these companies will be unable to qualify for a deduction under section 468A of the Code until the effective date of their next rate orders.

The word "generally" in section 1.468A-2(b)(2) of the regulations gives the Internal Revenue Service discretion in the application of the requirements contained in that section. Accordingly, with respect to those companies that, prior to July 1, 1988, maintained an internal reserve to provide for the decommissioning of a nuclear power plant, the Service will, under the circumstances described below, apply the rule contained in section 1.468A-8(b)(4)(i) to determine whether decommissioning costs have been included in cost of service for ratemaking purposes.

With respect to these companies, for any tax year ending on or before December 31, 1993, if no amount of decommissioning costs is identified in an order or opinion of a public utility commission or clearly and unambiguously indicated in the written record of a ratemaking proceeding, then the requirements of section 1.468A-2(b)(2) of the regulations shall not apply unless the rates in effect during all of such tax year are determined in a base rate proceeding initiated on or after July 1, 1988. If the requirements of section 1.468A-2(b)(2) are inapplicable by reason of the preceding sentence then the Service will apply the requirements of section 1.468A-8(b)(4)(i) to determine whether decommissioning costs have been included in cost of service for ratemaking purposes. For tax years beginning after December 31, 1993, or for tax years in which the rates in effect were determined in a base rate proceeding initiated on or after July 1, 1988, the requirements of section 1.468A-2(b)(2) will apply.

This notice does not affect the requirement of section 468A(g) of the Code or section 1.468A-2(c) of the regulations establishing a deemed payment deadline for purposes of section 468A of the Code.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Definition of Diesel and Aviation Fuel Under Section 4091; Classification of Kerosene

Notice 89-17

The purpose of this notice is to (1) clarify the definitions of diesel and aviation fuel for purposes of the tax imposed by section 4091 of the Internal Revenue Code, and (2) describe special rules applicable to the sale and use of kerosene.

Section 10502 of the Revenue Act of 1987 (P.L. 100-203, 101 Stat. 1330) ("1987 Act") added section 4091 to the Code, which, beginning on April 1, 1988, moved the point of imposition of the tax on diesel and aviation fuel (collectively "taxable fuels") to the sale by the producer from the sale by the retailer. The 1987 Act also added section 4092, which defines the terms "taxable fuel" and "producer," and section 4093, which provides rules concerning exemptions from the tax, including the exemption for taxable fuel destined for use as heating oil. The Technical and Miscellaneous Revenue Act of 1988, P.L. 100-647 ("1988 Act"), provides additional categories of taxpayers who may buy taxable fuel tax free.

Notice 88-30, 1988-1 C.B. 497, as corrected by Announcement 88-64, 1988-16 I.R.B. 35, and modified by Notice 88-55, 1988-1 C.B. 539, and Notice 88-112, 1988-2 C.B. 447, provides interim rules for the administration of the tax on taxable fuels. Notice 88-132, 1988-2 C.B. 552, provides interim rules for the administration of the tax as amended by the 1988 Act. This notice supplements and modifies some of the rules of Notice 88-30.

I. Definition of Diesel Fuel and Aviation Fuel

Section 4092(a)(1) of the Code provides that the term "taxable fuel" means diesel fuel and aviation fuel. Section 4092(a)(2) provides that the term "diesel fuel" means any liquid (other than any product taxable under section 4081 (gasoline)) which is suitable for use as a fuel in a diesel-powered highway vehicle or a diesel-powered train. Section 4092(a)(3) provides that the term "aviation fuel" means any liquid (other than any product taxable under section 4081) which is suitable for use as a fuel in an aircraft.

The regulations will define the term "liquid ... which is suitable for use as a fuel in a diesel-powered highway vehicle or diesel-powered train" as any liquid that is commonly or commercially known or sold as a fuel that is suitable for use in a diesel-powered highway vehicle or diesel-powered train. Similarly, the term "any liquid ... which is suitable for use as a fuel in an aircraft" will be defined as any liquid that is commonly or commercially known or sold as a fuel that is suitable for use in an aircraft.

II. Special Rules Applicable to the Sale and Use of Kerosene

A. Background

Special rules will apply to the sale and use of kerosene. Kerosene is used widely in the aviation industry as a fuel for jet engines and used occasionally as a stand-alone fuel in diesel-powered highway vehicles or diesel-powered trains. Kerosene is used both as an additive to thin diesel fuel in cold weather and as a heating fuel.

B. Classification

As discussed in Section I above, regulations will provide that a taxable fuel will be considered suitable for use in a diesel-powered highway vehicle, a diesel-powered train, or an aircraft if the liquid is commonly or commercially known or sold as a fuel that is suitable for such use. Because kerosene is widely used in the aviation industry as a fuel for jet engines, it will therefore be classified as an aviation fuel. As described below, however, special rules will apply to kerosene sold for use as an additive to diesel fuel. Also, like other taxable fuel, kerosene destined for use as heating oil will be exempt from tax.

C. Tax Consequences of a Producer's Sale of Kerosene

A producer of aviation fuel who is registered with the Service on Form 637A, Registration for Tax-Free Sales and Purchases of Fuel Used in Aircraft Under Chapter 31 of the Internal Revenue Code, will be liable for the tax under section 4091 at the rate of 14.1 cents a gallon on its sale of kerosene unless one of the following requirements is met:

1. The producer's buyer is registered on Form 637 or Form 637A as a producer and the procedures described in section III(B)(1)(c) of Notice 88-30 for tax-free sales between producers are followed.

2. The producer's buyer intends to use the kerosene in an aircraft not in noncommercial aviation. The buyer must evidence such intent by following the registration/certification procedures described in section III(B)(2) of Notice 88-30. (Notice 88-112, however, extended until February 1, 1989, the date by which such buyers must be registered.) The producer is nonetheless liable for tax at the rate of 0.1 cent a gallon on its sale of kerosene to these buyers.

3. The producer's buyer is a heating oil retailer (that is, a person other than a producer or importer who buys taxable fuel for resale as fuel destined for use as heating oil) and the registration/certification procedures described in section III(B)(2) of Notice 88-30 and section II(D) of this notice are followed. (Notice 88-112, however, extended until February 1, 1989, the date by which heating oil retailers must be registered.)

4. The producer's buyer purchases the kerosene for its own use as heating oil.

5. The producer's buyer, when the buyer is not also a producer, certifies to the seller that the kerosene will be used by the buyer as a fuel additive rather than as a stand-alone fuel. Such certification should take the form prescribed for nontaxable uses described in section IV(B) of Notice 88-132. If the producer's buyer purchases the kerosene for resale for use as a fuel additive, tax of 14.1 cents a gallon will be imposed on the producer's sale.

D. Elimination of Registration Requirements for Certain Heating Oil Retailers

In order to reduce the paperwork burden for many small businesses, the regulations will provide, and Notice 88-30 is modified to provide, that heating oil retailers who would be classified as such because they resell kerosene, and not any other taxable fuel destined for use as heating oil, will not be required to register with the Service. These persons may continue to buy kerosene tax free by using the certification procedures of section III(B)(2)(a) of Notice 88-30. However, heating oil retailers who resell not only kerosene, but also other taxable fuel for use as heating oil, will be required to be registered by February 1, 1989, in order to continue to make tax free purchases of taxable fuel other than kerosene on and after that date.

The following examples illustrate the rules of this section II(D).

Example 1. *A*, a convenience store operator, buys kerosene from a producer and resells it to home owners for use in space heaters. *A* does not sell any other type of taxable fuel for use as heating oil. *A* is not registered with the Service on Form 637 or Form 637A, but has given its producer an exemption certificate stating that all of the kerosene will be resold for use as heating oil. *A* may buy the kerosene from the producer tax free and sell the kerosene to the home owners tax free.

Example 2. *B*, a convenience store operator, maintains a diesel fuel pump where diesel fuel is sold at retail to various users including heating oil users. *B* also buys kerosene from a producer and resells it to home owners for use in space heaters. *B* is not registered with the Service on Form 637 or Form 637A, but has given its producer an exemption certificate stating that all of the kerosene will be resold for use as heating oil. *B* may buy the kerosene from the producer tax free and resell the kerosene to the home owners tax free. The fact that *B* sells diesel fuel at retail does not affect this result. After January 31, 1989, *B* may not buy diesel fuel tax free for resale for use as heating oil if *B* has not registered on Form 637 as a heating oil retailer.

E. Tax Consequences of Using Kerosene Mixtures as Fuel

If any person produces a mixture of kerosene on which no tax has been paid and diesel fuel on which no tax has been paid and then uses such mixture as a fuel in a diesel-powered highway vehicle or a diesel-powered train, such person shall be liable for the tax imposed by section 4041 of the Code on the total volume of the blended product. The rate of tax is 15.1 cents a gallon for fuel used in a diesel-powered highway vehicle and 0.1 cent a gallon for fuel used in a diesel-powered train. The tax is reported on Form 720, Quarterly Federal Excise Tax Return. See the form and its instructions for information concerning filing and deposit requirements.

If any person produces a mixture of kerosene on which tax of 14.1 cents a gallon has been paid and diesel fuel on which tax of 15.1 cents a gallon has been paid and then uses such mixture as a fuel in diesel-powered highway vehicle, such person shall be liable for an additional tax of 1 cent a gallon on the total volume of the kerosene so used. The tax is reported on Form 720, Quarterly Federal Excise Tax Return. See the form and its instructions for information concerning filing and deposit requirements.

If any person either—

(a) produces a mixture of kerosene on which no tax has been paid and diesel fuel on which tax of 15.1 cents a gallon has been paid, or

(b) places or has placed kerosene directly into the fuel supply tank of its diesel-powered highway vehicle,

such person shall be liable for tax of 15.1 cents a gallon on the total volume of kerosene so used. The tax is reported on Form 720, Quarterly Federal Excise Tax Return. See the form and its instructions for information concerning filing and deposit requirements.

EFFECT ON OTHER DOCUMENTS

Notice 88-30 is modified.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Weighted Average Interest Rate Update

Notice 89-18

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weighted average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
January	1989	8.80	7.92 to 9.68

Administrative Pronouncement

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Sections 4986 and 4996; The Definition of "Crude Oil" for Purposes of the Windfall Profit Tax

Notice 89-19

I. BACKGROUND

The Internal Revenue Service has received many inquiries regarding whether certain liquid hydrocarbons, derived from the production of a natural gas well and recovered prior to August 23, 1988, are ''crude oil'' subject to the windfall profit tax (WPT) imposed by section 4986 of the Internal Revenue Code, as in effect prior to its repeal by section 1941 of the Omnibus Trade and Competitiveness Act of 1988. This notice provides guidance to taxpayers concerning the circumstances under which liquid hydrocarbons recovered from a natural gas stream constitute ''taxable crude oil'' for purposes of the WPT.

II. DEFINITION OF ''CRUDE OIL''

In many hydrocarbon producing areas the liquifiable portion of natural gas streams has sufficient value to justify installation of centralized processing facilities. Typically, natural gas rich in heavier hydrocarbons or natural gas commingled with liquid hydrocarbons is transported in a pressurized state via pipeline gathering systems from wells to the central facility where an initial separation of lighter hydrocarbons from heavier hydrocarbons is accomplished by mechanical means. Beyond this point of initial mechanical separation, both streams are usually subjected to additional processing.

In some circumstances, the additional processing of both streams is accomplished by application of various nonmechanical processes including adsorption, stripping, extraneous refrigeration, fractionation, and absorption.

Section 4986 of the Code imposed an excise tax on the windfall profit from ''taxable crude oil'' removed from the premises (or deemed removed) prior to August 23, 1988. Section 4996(b)(1) of the Code provides that the term ''crude oil'' has the meaning given to such term by the June 1979 energy regulations. Section 4996(b)(8)(A) of the Code provides that, in general, the term ''energy regulations'' means regulations prescribed under section 4(a) of the Emergency Petroleum Allocation Act of 1973 (15 U.S.C. 753(a)). Section 4996(b)(8)(C) of the Code, in pertinent part, defines the June 1979 energy regulations as: (i) the terms of the energy regulations as such terms existed on June 1, 1979, and (ii) including final action taken pursuant thereto before June 1, 1979.

In the Technical Corrections Act of 1982 (1982 TCA), Congress modified two provisions of the WPT. One modification clarified that crude oil produced from domestic gas wells was subject to the WPT. The second modification clarified the timing of the imposition of the tax on condensate that is recovered from a natural gas stream after removal of the stream from the well site. In such cases, the 1982 TCA provided that the tax would be imposed when the condensate is recovered from the gas stream rather than when the gas stream is removed from the premises.

In connection with these changes, the legislative history with respect to the 1982 TCA provided that:

> [N]o change is made on the operative definition of crude oil. Thus, condensate recovered from gas production by mechanical separators at any point at or before the inlet side of the gas processing plan[t] and natural gas liquids treated as crude oil under the June 1979 energy regulations remain subject to tax.... Similarly, if a gas stream is introduced directly into a gas processing plant so that no condensate is recovered no tax will be due because there will be no crude oil within the meaning of the June 1979 energy regulations.

S. Rep. No. 592, 97th Cong., 2d Sess. 44-45 (1982). *See also* H.R. Rep. 794, 97th Cong., 2d Sess. 35-36 (1982).

Section 212.31 of the June 1979 energy regulations provides that:

> ''Crude oil'' means a mixture of hydrocarbons that existed in liquid phase in underground reservoirs and remains liquid at atmospheric pressure after passing through surface separating facilities. ''Crude oil'' includes condensate recovered in associated or nonassociated [*i.e.*, gas] production by mechanical separators, whether

located on the lease, at central field facilities, or at the inlet side of a gas processing plant. [10 C.F.R. §212.31 (June 1979).]

The first sentence of the above-quoted definition does not encompass liquids recovered from gas production because such production did not exist in liquid phase in the underground reservoir. Therefore, whether such liquids are within the June 1979 energy regulation definition of "crude oil" turns on the interpretation of the second sentence. The Temporary Emergency Court of Appeals had occasion to interpret this sentence in *UPG, Inc. v. Edwards,* 647 F.2d 147 (TECA 1981). In *UPG,* the court concluded that the employment of a mechanical separator, per se, is not an indispensable element in the definition of condensate. The Court held that pipeline residue (drip condensate) separated by pipeline forces and extraction through drip and ball run tanks was crude oil.

The statutory provisions and legislative history of the WPT make it clear that liquid hydrocarbons separated from a natural gas stream will be taxable under the WPT if, and only if, such liquids are treated as "crude oil" under the June 1979 energy regulations. Treatment of liquids recovered from a natural gas stream by non-mechanical means at or prior to the inlet side of the gas processing plant as "crude oil" is consistent with the 1979 energy regulations.

Therefore, for purposes of the WPT, liquids recovered from natural gas streams are taxable crude oil if, and only if, such liquids are captured, saved, and sold (*i.e.,* "recovered") in liquid form at atmospheric pressure (i) at or before the inlet side of a gas processing plant, or (ii) prior to the application of non-mechanical processes. This notice does not address the definition of the phrase "inlet side of a gas processing plant."

Leaking Underground Storage Tank (LUST) Tax Changes

Notice 89-20

This Notice informs taxpayers of corrections made by the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647) (1988 Act) to some of the Leaking Underground Storage Tank (LUST) tax provisions and of procedures the Internal Revenue Service will follow in implementing the changes.

Gasoline Floor Stocks Tax

Section 1703(f) of the Tax Reform Act of 1986 (Pub. L. 99-514) (1986 Act) imposed a one-time tax of 9 cents a gallon on gasoline held by dealers on January 1, 1988, on which no tax under section 4081 of the Internal Revenue Code had been paid previously. It is imposed on dealers who are wholesalers, jobbers, distributors, or retailers.

Section 2001(d)(4)(A) of the 1988 Act provides that the LUST Trust Fund financing rate of 0.1 cent a gallon applies to the gasoline held by dealers on January 1, 1988, on which the one-time tax is imposed.

Notice 88-12, 1988-1 C.B. 481, advised taxpayers that the Technical Corrections Bill of 1987 would, if enacted, require payment of the additional 0.1 cent a gallon tax on gasoline or gasohol subject to the floor stocks tax. Any dealer who did not include the LUST tax in determining floor stocks tax liability must file a separate Form 720 for any additional liability. The form should be marked "Amended—1988 Act" at the top; March 31, 1988, should be used for the quarter ending date; the amount of LUST tax owing should be entered at IRS No. 73; and "floor stocks tax, IRS No. 65 & 67" should be written in on that same line. This amended Form 720 must be filed by March 31, 1989.

Tax on Fuel Used on Inland Waterways

Section 521(a)(3) of the Superfund Amendments and Reauthorization Act of 1986 (Pub. L. 99-499) (Superfund Act) amended section 4042 of the Code (relating to fuel used in commercial transportation on inland waterways) to add to the tax already imposed on any liquid used as a fuel in a vessel in commercial waterway transportation a 0.1 cent a gallon tax to be credited to the LUST Trust Fund. Inadvertently, the enactment of section 1404(a) of the Harbor Maintenance Revenue Act of 1986 (Pub. L. 99-662) repealed, before it became effective, the part of section 4042 of the Code that added the LUST tax.

Section 2002(a) of the 1988 Act provides that as of January 1, 1987, the LUST Trust Fund financing rate of 0.1 cent a gallon applies under section 4042 of the Code to fuel used in commercial transportation on inland waterways.

Notice 88-21, 1988-1 C.B. 488, advised taxpayers to pay the additional 0.1 cent a gallon tax on fuel used on inland waterways. Any taxpayer that did not include the LUST tax in determining tax liability under section 4042 for any quarter between January 1, 1987, and December 31, 1988, must file a separate Form 720 for any additional liability. The form should be marked "Amended—1988 Act" at the top; December 31, 1988, should be used as the quarter ending date; and the total amount of tax owing should be entered at IRS No. 76. A schedule must be attached to the amended Form 720 that identifies each past quarter for which the tax is being paid and the amount owing for such quarter. The total amount shown on this schedule is the amount to enter at IRS No. 76. This amended Form 720 must be filed by March 31, 1989.

Tax on Gasoline Used in Noncommercial Aviation

Section 4041(c)(2) of the Code imposes a tax at the retail level on gasoline sold for use or used as a fuel in an aircraft in noncommercial aviation. The tax imposed by section 4041(c) is deposited into the Airport and Airway Trust Fund. This tax is in addition to the tax of 9.1 cents a gallon of gasoline imposed under section 4081 on the refiner or terminal operator. Amendments made by the Superfund Act and the Revenue Act of 1987 (Pub. L. 100-203) to section 4041(c)(3) of the Code did not correctly adjust the amount credited to the Airport and Airway Trust Fund to account for the additional 0.1 cent a gallon LUST tax, thereby reducing the rate of tax to 2.9 cents a gallon from 3 cents a gallon effective as of April 1, 1988.

Section 2001(d)(2) of the 1988 Act provides that the retailer's tax imposed under section 4041(c)(3) of the Code on gasoline sold for use or used as a fuel in an aircraft in noncommercial aviation is 3 cents a gallon rather than 2.9 cents a gallon for sales on or after April 1, 1988. Taxpayers who owe an additional 0.1 cent a gallon tax for any quarter between April 1, 1988, and December 31, 1988, must file a separate Form 720 for such liability. The form should be marked "Amended—1988 Act" at the top; December 31, 1988, should be used as the quarter ending date; and the total additional amount of tax owing should be entered at IRS No. 14. A schedule must be attached to the amended Form 720 that identifies each past quarter for which the tax is being paid and the amount owing for such quarter. The total amount shown on this schedule is the amount to enter at IRS No. 14. The amended Form 720 must be filed by March 31, 1989.

Off-highway Business Use of Special Motor Fuels

Section 521(a)(2) of the Superfund Act amended section 4041 of the Code (relating to special motor fuels) to impose an additional 0.1 cent a gallon LUST tax on such fuels sold for use or used in motor vehicles or motorboats, effective January 1, 1987. Under section 4041(b), as amended by section 521(d)(1) of the Superfund Act, the only off-highway business use of a special motor fuel exempt from the LUST tax is use in a vessel employed in the fisheries or whaling business.

Section 2001(d)(3)(C) of the 1988 Act provides that, effective as of January 1, 1987, all off-highway business uses of special motor fuel exempt from the tax imposed under section 4041 of the Code are also exempt from the LUST tax.

Therefore, any purchaser of tax-paid special motor fuel that used the fuel in an off-highway business use may be eligible under section 6427 of the Code for credit (without interest) for the LUST tax paid on such purchases since January 1, 1987, provided no other claim for credit or refund of such amount has been filed. The claim for credit must be made on Form 4136, *Computation of Credit for Federal Tax on Fuels,* Line 8 and filed with the person's income tax return for the taxable year that includes November 10, 1988 (the date of enactment of the 1988 Act).

Treatment of Diesel Fuel Sold for Use or Used in an Off-highway Business Use Under Section 4041

Section 521(a)(2) of the Superfund Act amended section 4041 of the Code (relating to tax at the retail level on diesel fuel) to impose an additional 0.1 cent a gallon LUST tax on diesel fuel sold for use or used in a dieselpowered highway vehicle, effective January 1, 1987. Under section 4041(b), as amended by section 521(d)(1) of the Superfund Act, diesel fuel sold for use or used in an off-highway business use is exempt from the 15 cents a gallon tax under section 4041(a) of the Code, but only diesel fuel sold for use or used in off-highway business use in a vessel employed in the fisheries or whaling business is exempt from the 0.1 cent a gallon LUST tax imposed under section 4041(d).

Section 2001(d)(3)(C) of the 1988 Act provides that, effective January 1, 1987, diesel fuel used in any off-highway business use other than use in a train that is exempt from the tax imposed under section 4041(a) of the Code is also exempt from the LUST tax. This amendment does not apply to sales by producers of diesel fuel that are taxed under section 4091.

Generally, any person that purchased diesel fuel subject to tax under section 4041 of the Code before April 1, 1988, at a price that included the LUST tax and used the fuel in an off-highway business use other than use in a train may be eligible under section 6427 for a credit (without interest) for the LUST tax on such purchases made since January 1, 1987, provided that no other claim for credit or refund of such amount has been filed. The claim for credit must be made on Form 4136, *Computation of Credit for Federal Tax on Fuels,* Line 8 and filed with the person's income tax return for the taxable year that includes November 10, 1988 (the date of enactment of the 1988 Act).

Gasoline Used in Off-highway Business Uses

Section 521(c)(2) of the Superfund Act amended section 6421 of the Code (relating to credit or refund of tax on gasoline used for certain off-highway business uses) effective January 1, 1987, to provide that the only off-highway business use of gasoline eligible for credit or refund of the LUST tax is use in a vessel employed in the fisheries or in the whaling business.

Section 2001(d)(3)(E) of the 1988 Act provides that, as of January 1, 1987, all off-highway business uses of gasoline, not just use in a vessel employed in the fisheries or the whaling business, may be eligible for credit or refund under section 6421(a) of the Code of the LUST tax. This section also provides that, effective January 1, 1987, there is no credit or refund of the LUST tax imposed on gasoline that is used in a train or in an aircraft.

Therefore, any purchaser of tax-paid gasoline that used the gasoline in an off-highway business use, other than use in a train or an aircraft may be eligible for credit (without interest) for the LUST tax paid on such purchases since January 1, 1987, provided no other claim for credit or refund of such amount has been filed. The claim for credit must be made on Form 4136, *Computation of Credit for Federal Tax on Fuels,* Line 8 and filed with the person's income tax return for the taxable year that includes November 10, 1988 (the date of enactment of the 1988 Act).

See Notice 88-132, 1988-2 C.B. 552, for the rules relating to the exemption from the LUST tax for taxable fuel sold for use as "supplies for vessels and aircraft" as that term is defined under section 4221(d) of the Code.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Deferred Recognition of Income from Lump-Sum Payments in Connection with Notional Principal Contracts

Notice 89-21

This notice provides guidance with respect to the federal income tax treatment of lump-sum payments received in connection with interest rate and currency swap contracts, interest rate cap contracts, and similar financial products ("notional principal contracts").

Under section 446(b) of the Internal Revenue Code, if a taxpayer's method of accounting does not clearly reflect income, the computation of taxable income shall be made under such method as, in the opinion of the Secretary, does clearly reflect income. The Commissioner has broad authority to determine whether a method of accounting for a particular item of income or expense clearly reflects income. *See RCA Corporation v. United States,* 664 F.2d 881, 886 (2d Cir. 1981), *cert. denied,* 457 U.S. 1133 (1982).

In the case of a payment received during one taxable year with respect to a notional principal contract where such payment relates to the obligation to make a payment or payments in other taxable years under the contract, a method of accounting that properly recognizes such payment over the life of the contract clearly reflects income. Moreover, including the entire amount of such payment in income when it is received or deferring the entire amount of such payment to the termination of the contract does not clearly reflect income and is an impermissible method of accounting. The method of accounting prescribed in cases such as *Schlude v. Commissioner,* 372 U.S. 128 (1963), and *American Automobile Association v. United States,* 367 U.S. 687, (1961) does not clearly reflect income in the case of notional principal products.

Regulations will be issued under sections 61, 446(b), 451, 461, and 988 providing specific rules regarding the manner in which a taxpayer must amortize or take into account over the life of a notional principal contract payments made or received with respect to the contract. The regulations will provide similar rules governing the treatment of payments made or received in connection with the assignment of the right to receive future payments under a notional principal contract in the absence of a corresponding assumption of the obligations to make payments under the contract. The specific rules for the manner of amortization of payments made or received with respect to various types of notional principal contracts will generally be prospective. A mark-to-market system for dealers in notional principal contracts is also under consideration.

In the case of lump-sum payments made or received with respect to notional principal contracts entered into, or assignments made, prior to the effective date of the regulations (including contracts entered into prior to the publication of this notice), a method of accounting used by a taxpayer is a method that clearly reflects income only if the payments are taken into account over the life of the contract using a reasonable method of amortization. For contracts entered into prior to the effective date of the regulations, the Commissioner will generally treat a method of accounting as clearly reflecting income if it takes such payments into account over the life of the contract under a reasonable amortization method, whether or not the method satisfies the specific rules in the forthcoming regulations.

Taxpayers that have adopted a method of accounting that is inconsistent with the preceding paragraph of this notice must obtain the consent of the Commissioner and change to an acceptable method of accounting. A revenue procedure will be published shortly describing (1) the procedure for obtaining this consent, and (2) the manner in which a changing taxpayer must account for any adjustments under section 481. The revenue procedure will provide that notwithstanding any provision in Rev. Proc. 84-74, 1984-2 C.B. 736, the Service in examining a taxpayer's return may require that a method of accounting consistent with the preceding paragraph of this notice be adopted for the earliest year under examination, regardless of whether it was the taxpayer or the government that raised the issue and regardless of whether the issue was raised in the course of an examination or on a Form 3115 or otherwise.

No inference should be drawn from this notice as to the proper treatment of transactions that are not properly characterized as notional principal contracts, for instance, to the extent that such transactions are in substance properly characterized as loans. In addition, no inference should be drawn from this notice as to the characterization of a contract as an insurance contract or annuity contract or the proper treatment of payments made under insurance or annuity contracts.

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(3) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Four-year Spread of Items From a Common Trust Fund's Short Taxable Year

Notice 89-22

This notice provides guidance for the reporting of items from a common trust fund's short taxable year as a result of the common trust fund being required to adopt a calendar year.

Section 1008(e)(5)(A) of the Technical and Miscellaneous Revenue Act of 1988 (the Act) amended section 584 of the Internal Revenue Code by adding subsection (h). Section 584(h) provides that all common trust funds are required to use the calendar year as their taxable year. This provision is effective for taxable years beginning after December 31, 1987. As a result of this requirement, common trust funds that previously were fiscal year taxpayers had short taxable years in 1988. To prevent the participants in a common trust fund (participants) from including income from two taxable years of the common trust fund in their income for 1988, a spread period of four years is provided for the income from the short year.

Section 1008(e)(5)(B) of the Act provides that for purposes of section 806(e)(2) of the Tax Reform Act of 1986 (TRA) (the four-year spread provisions for partners), a participant in a common trust fund shall be treated in the same manner as a partner, except that a partner's election to include all of the income from the short taxable year in the year of the change is not available to a participant. To the extent that the 1988 Partner's Instructions for Schedule K-1 (Form 1065) provide otherwise, such instructions are superseded by this notice. The four-year spread rules for partners are set forth in section 1.702-3T(b)(1) of the Temporary Income Tax Regulations and provide that, if a partner's share of "income items" exceeds the partner's share of "expense items," the partner's share of each and every income and expense item shall be taken into account ratably (and retain its character) over the partner's first four taxable years with or within which the partnership's year of change ends.

Section 806(e)(2), as applied to common trust funds, provides that a participant must spread income in excess of expenses attributable to the common trust fund's short taxable year ratably over the participant's first four taxable years with or within which the common trust fund's year of change ends. All items, whether ordinary or capital, are subject to the spread provisions if the "income items" exceed the "expense items" that pass to the participant from the common trust fund's short taxable year. The items required to be spread include the participant's proportionate share of any "affected expenses" (within the meaning of section 1.67-2T(i) of the Temporary Income Tax Regulations) from the common trust fund's short taxable year. See section 1.67-2T(d), which provides that each affected investor shall be treated as having paid or incurred an expense described in section 212 in an amount equal to the affected investor's proportionate share of the common trust fund's affected expenses.

Section 1008(e)(10) of the Act amended section 806(e) of the TRA by adding section 806(e)(3). Section 806(e)(3) provides, in general, that if a partner disposes of any interest in the partnership before the four-year spread period has expired, the amounts that would have been included in subsequent taxable years on account of the spread and that are attributable to the interest disposed of shall be included in the partner's gross income for the taxable year in which the disposition occurs.

Similarly, if a participant terminates or withdraws from the common trust fund prior to the expiration of the four-year spread period, the participant must include the amounts that would have been included in subsequent taxable years on account of the spread in the taxable year in which the participant terminates or withdraws from the common trust fund.

Under certain circumstances, the participant is required to accelerate the reporting of all or a portion of the remaining spread amounts if the participant makes a partial withdrawal of its corpus investment in the common trust fund before the last taxable year in the four-year spread period. A fraction is utilized to determine whether an acceleration is required for the taxable year of the withdrawal. The numerator of the fraction is the value of any investments withdrawn during the spread period but on or before the end of such taxable year minus the value of any additional investments contributed during the spread period but on or before the end of such taxable year. The denominator of the fraction is the value of the participant's investment in the common trust fund at the end of the taxable year plus the value of any investments withdrawn during the spread period but on or before the end of such taxable year minus the value of any additional investments contributed during the spread period but on or before the end of such taxable year. Investments withdrawn or contributed during 1988 are used in the fraction only if they occurred during the common trust fund's short taxable year. This fraction indicates the portion of the participant's investment that has been withdrawn for the taxable year of the withdrawal

If the fraction computed above is less than 1/3 (the participant's continuing investment is greater than 2/3 of its investment in the common trust fund), the participant must continue to take the spread items into account ratably over the four-year spread period. If the fraction is equal to or greater than 1/3 but less than 2/3, the participant must, in addition to the ratable amount for the year, take into account 50 percent of the spread items that would otherwise remain unaccounted for at the end of the year. This particular provision will apply only once with respect to a participant's interest in a common trust fund. If the fraction is equal to or greater than 2/3 (the participant's continuing investment is less than 1/3 of its investment in the common trust fund), the participant must take into account the entire balance of the spread items in that year. See examples 4 and 5 below.

The amount to be spread will not be accelerated solely because the income beneficiary of the participant during the short year ceases to be an income beneficiary during the four-year spread period.

If, during any year of the four-year spread period, the participant or the income beneficiary of the participant is a foreign person and if withholding is required under section 1441 or section 1442 of the Code, the tax to be withheld is on the amount of income (including the spread amount) allocable to the nonresident alien. However, if the income from the common trust fund's short taxable year is distributed to a foreign person prior to the time it would be deemed to be earned under the spread rules, the amount to be spread will be accelerated to the extent of the amount distributed. The tax under section 1441 or section 1442, therefore, is required to be withheld on the amount distributed and shall not be refunded to the participant or the income beneficiary of the participant based upon the spread rules. If the tax is withheld on income before it is distributed, then withholding is not required when such income is subsequently distributed.

To ensure that the four-year spread of items from the common trust fund's short taxable year does not create taxable income to a participant that is a simple trust, the mechanics of subchapter J require that there be a deemed increase in trust accounting income during the spread period to accommodate the distributable net income (DNI) limitations in sections 651 and 652 of the Code. Thus, for purposes of sections 651(a) and 652(a), the amount of income required to be distributed currently shall be deemed to be increased, in each of the four years in the spread period, by one-fourth of the amount spread that is includible in DNI.

The provisions set forth above may be illustrated by the following examples. In each example, assume the common trust fund has not paid or incurred, during its short taxable year, any affected expenses and the participant is a trust that: (1) is required to distribute all of its income currently; (2) is not permitted to make charitable contributions; (3) allocates all gains and losses from capital transactions to corpus; and (4) uses the calendar year as its taxable year.

Example (1). The common trust fund makes monthly distributions to a participant of the participant's share of ordinary income less expenses. The common trust fund produces for the participant $12,000 of ordinary taxable income ratably during its fiscal year that ended on April 30, 1988, and $8,000 of ordinary taxable income ratably during the short year from May 1, 1988, to December 31, 1988. On its tax return for 1988, the participant takes into account $12,000 of ordinary taxable income from the common trust fund's fiscal year and, under the Act, $2,000 (1/4 of $8,000) of ordinary taxable income from the common trust fund's short year. The participant's distributable net income (DNI) under section 643(a) of the Code is $14,000. The participant, however, has received only $12,000 of section 643(b) income during its 1988 year. In computing the taxable income of a trust, a deduction is allowed under section 651 for the amount of income required to be distributed currently or DNI, if DNI is less. Without a deemed increase in trust accounting income, the deduction under section 651 would be limited to $12,000 and the participant would have taxable income in 1988 of $2,000 even though the participant is required to distribute all its income currently and would not normally have any taxable income. Accordingly, in each of the four years of the spread period, the trust accounting income will be deemed to be increased by $2,000 (1/4 of $8,000). In 1988, the participant deducts $14,000 under section 651 and the income beneficiary includes in gross income $14,000 of ordinary taxable income under section 652.

Example (2). In its 1988 short year, the common trust fund produces for the participant $10,000 of ordinary taxable income and $12,000 of long-term capital gains. In each of the four years beginning in 1988, the participant takes into account, with respect to the spread items, $2,500 (1/4 of $10,000) of ordinary taxable income and $3,000 (1/4 of $12,000) of long-term capital gains. The participant's accounting income will be deemed to be increased by $2,500 in each year during the spread period. In each year, the participant deducts $2,500 under section 651 of the Code and the income beneficiary includes in gross income $2,500 of ordinary taxable income under section 652.

Example (3). In its 1988 short year, the common trust fund produces for the participant $10,000 of ordinary taxable income and $12,000 of long-term capital losses. Because the income items do not exceed the expense items, the participant is not entitled to spread the recognition of these items. In 1988 the participant takes into account, with respect to items from the common trust fund's short taxable year, $10,000 of ordinary taxable income and $12,000 of long-term capital losses. The participant deducts $10,000 under section 651 of the Code and the income beneficiary includes in gross income $10,000 of ordinary taxable income under section 652.

Example (4). In its 1988 short year, the common trust fund produces for the participant $12,000 of ordinary taxable income so that the participant should take into account $3,000 of ordinary taxable income in 1988, 1989, 1990, and 1991. In 1989, the participant withdraws $110,000 of its investment in the common trust fund. The participant's investment in the common trust fund at the end of the taxable year is valued at $190,000. The participant has made no additional contributions to the common trust fund during the spread period. The numerator of the fraction that indicates the portion of the investment withdrawn is $110,000. The denominator of this fraction is $300,000 ($190,000, the value of the investment at the end of the year, plus $110,000, the amount withdrawn in 1989). The fraction is $110,000/$300,000 (or 11/30). Because the participant withdrew more than 1/3 but less than 2/3 of its investment, the participant must accelerate the reporting of 50 percent of the remaining spread items. Thus, the participant is required to report $6,000 of income in 1989 and $1,500 of income in 1990 and in 1991. The amount reported in 1989 consists of one-fourth of the amount initially spread (1/4 of $12,000) plus 50 percent of the amount that would be includible in subsequent years (1/2 of $6,000).

Example (5). The facts are the same as in example (4) except that in 1990, the participant withdraws $130,000 of its investment in the common trust fund. The participant's investment in the common trust fund at the end of the taxable year is valued at $80,000. The numerator of the fraction is $240,000 ($110,000 withdrawn in 1989 plus $130,000 withdrawn in 1990). The denominator of the fraction is $320,000 ($80,000, the value of the investment at the end of the year, plus $130,000, the amount withdrawn in 1990, plus $110,000, the amount withdrawn in 1989). Because the resulting fraction of $240,000/$320,000 (or ¾) is greater than ⅔, the participant must take into account the remaining spread items of $3,000 in 1990.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure. Taxpayers may rely upon this notice until regulations are published. The regulations will be effective for taxable years beginning after December 31, 1987.

Section 403(b) Annuities

Notice 89-23

I. BACKGROUND

Section 1120 of the Tax Reform Act of 1986 (TRA '86) amended the rules applicable to annuities qualifying for favorable tax treatment under section 403(b) of the Internal Revenue Code of 1986 to require that such annuities generally must be purchased under a plan that is nondiscriminatory within the meaning of section 403(b)(12) (the Technical and Miscellaneous Revenue Act of 1988 (TAMRA '88) redesignated section 403(b)(10), which was added by TRA '86, as section 403(b)(12)). The term "annuities" refers to annuity contracts, custodial accounts and retirement income accounts purchased under plans eligible for favorable tax treatment under section 403(b) (403(b) annuity plans). Section 403(b)(12) applies to all 403(b) annuity plans other than those contributed to or sponsored by churches or church-controlled organizations described in section 3121(w)(3). Thus, section 403(b)(12) is generally applicable to annuity contracts purchased for employees either by (1) an employer described in section 501(c)(3) that is exempt from tax under section 501(a) and (2) for employees (other than employees of an employer exempt under section 501(a) by reason of being described in section 501(c)(3)) who perform services for an educational organization described in section 170(b)(1)(A)(ii), an employer that is a State, political subdivision of a State, or an agency or instrumentality of any one or more of the foregoing that purchases such contract.

Section 403(b)(12)(ii) sets forth nondiscrimination rules for contributions made to 403(b) annuity plans pursuant to salary reduction agreements. Section 403(b)(12)(i) provides that certain nondiscrimination rules applicable to qualified plans apply to all contributions to 403(b) annuity plans other than those made pursuant to salary reduction agreements. If a 403(b) annuity plan provides for both salary reduction contributions and other contributions, such as matching contributions or employee contributions, the nondiscrimination rules of section 403(b)(12)(ii) apply to the plan with respect to assets attributable to the salary reduction contributions and the nondiscrimination rules of section 403(b)(12)(i) apply to the assets attributable to the other contributions.

This Notice provides that, until further guidance is published, section 403(b)(12) is satisfied if an employer operates its 403(b) annuity plan or plans in accordance with a reasonable, good faith interpretation of such section. Part II of this Notice describes some circumstances in which the Service will and will not consider an employer to be operating a 403(b) annuity plan in accordance with such an interpretation. Part V contains definitions of certain terms the Service will apply in determining whether an employer operates a 403(b) annuity plan in accordance with a reasonable, good faith interpretation of the statute.

The Service has determined that, because of the unique circumstances faced by many employers contributing to or sponsoring 403(b) annuity plans, transitional safe harbors are necessary to facilitate compliance with the nondiscrimination rules of section 403(b)(12). For the first time, an annuity contract purchased for one employee may be required to be considered together with annuity contracts covering other employees. In addition, changes to 403(b) annuity plans sponsored by public educational organizations sometimes require legislative approval and such approval often is delayed in the legislative process.

The safe harbors are set forth in Parts III and IV of this Notice and the definitions of significant terms used in the safe harbors are in Part V. Although section 6052(b) of TAMRA '88 permits an employer to use a statistically valid random sample of employees when applying the nondiscrimination rules of section 403(b)(12), an employer must take into account all of its employees in applying the safe harbors.

The safe harbors are designed to provide reasonable transition rules and are intended to be less restrictive than the permanent rules which will be set forth in regulations or other guidance. Thus, the Service cautions taxpayers not to draw any inferences regarding the provisions of future guidance from the contents of the transitional safe harbors.

II. REASONABLE INTERPRETATION

The Service will deem a 403(b) annuity plan to be in compliance with section 403(b)(12) if the employer operates the plan in accordance with a reasonable, good faith interpretation of section 403(b), as amended by TRA '86 and TAMRA '88, taking into account their legislative histories. This Notice provides certain definitions to aid the employer in interpreting section 403(b).

If contributions to a 403(b) annuity plan may be made pursuant to a salary reduction agreement within the meaning of section 3121(a)(5)(D), the plan meets the nondiscrimination requirements applicable to such contributions only if each participant who elects to make salary reduction contributions may elect to reduce annually his or her salary by more than $200 and the opportunity to make such contributions is available to all employees on a basis that does not discriminate in favor of highly compensated employees.

The Service will not consider it to be a reasonable, good faith interpretation of the statute and its legislative history if the employer treats contributions made pursuant to an employee's one-time, irrevocable election to reduce salary, made at the time of initial eligibility to participate in the plan, as salary reduction contributions subject to the nondiscrimination rules of section 403(b)(12)(ii). Such contributions are considered employer contributions and, thus, are subject to the nondiscrimination rules of section 403(b)(12)(i). If an employee upon initial eligibility to participate in a plan elects to make contributions pursuant to a salary reduction agreement and may subsequently elect to make contributions on an after-tax basis rather than a pre-tax basis or may elect not to participate, then the employee's initial election is not considered to be a one-time, irrevocable election.

In the case of all employer and employee contributions other than salary reduction contributions, a 403(b) annuity plan must satisfy the nondiscrimination requirements of sections 401(a)(4), (5), (17) and (26), 401(m) and 410(b) in the same manner as if the plan were described in section 401(a). The Service will not consider it to be a reasonable, good faith interpretation of the statute and its legislative history unless the employer, whether an organization described in section 501(c)(3) and exempt from federal income tax under section 501(a) or an educational organization described in section 170(b)(1)(A)-(ii), operates the plan in accordance with a reasonable, good faith interpretation of these sections, as amended by TRA '86 and TAMRA '88, taking into account their legislative histories.

III. SECTION 403(b)(12)(ii) SAFE HARBOR

A 403(b) annuity plan is deemed to satisfy the nondiscrimination requirements of section 403(b)(12)(ii) for a plan year only if each employee of the common law employer sponsoring or maintaining the plan is eligible to defer annually more than $200 pursuant to a salary reduction agreement within the meaning of section 3121(a)(5)(D) and the opportunity to make such contributions is available to all employees on the same basis. Contributions made pursuant to an employee's one-time, irrevocable election to reduce salary, made at the time of initial eligibility to participate in the plan, are not treated as deferrals made pursuant to a salary reduction agreement within the meaning of section 3121(a)(5)(D). Individuals, who are excludable employees (see Part V for definition of excludable employees), may be excluded in determining whether a 403(b) annuity plan satisfies this safe harbor. If a common law employer historically has treated its various geographically distinct units as separate for employee benefit purposes, then each unit, rather than the common law employer, may be considered a separate organization for purposes of this safe harbor, so long as the units are, on a day-to-day basis, operated independently. In general, for purposes of this rule, units of the same common law employer are not geographically distinct if such units are located within the same Standard Metropolitan Statistical Area (SMSA).

Examples. 1. The University of State X, a common law employer, has campuses in City A, City B and City C. Each campus is independently responsible for its day-to-day operations and has its own administrative staff. For many years, the University has maintained a separate health plan and a separate 403(b) annuity plan for employees performing services at each of its campuses. Since 1978, the University has contributed to a 403(b) annuity plan for eligible employees at each campus according to their elections made pursuant to salary reduction agreements. Those eligible to participate in the City A campus's 403(b) annuity plan are all of the full-time professors teaching at such campus. All employees at the City B campus are eligible to participate in the City B campus's 403(b) annuity plan. All employees at the City C campus are eligible to participate in the City C campus's 403(b) annuity plan. Each eligible employee has a one-time election to participate in the State X Retirement Plan, which is a profit sharing plan with a cash or deferred arrangement, rather than in the 403(b) annuity plan maintained for employees performing services at the same campus as the electing employee. The employees at each campus are as follows:

	Eligible to participate	Ineligible	Excludable
City A plan	75	200	50*
City B plan	150		2**
City C plan	350		5***

* elected to participate in the State X Retirement Plan.

** under the plan's maximum deferral percentage, such employees would not be able to defer more than $200.

*** student employees described in section 3121(b)(10).

Because the University has historically treated its three campuses which are located in separate, geographically distinct cities as separate for benefit purposes and the campuses are operated independently on a day-to-day basis, each campus may be considered a separate organization and, thus, each campus's 403(b) annuity plan may be tested separately for compliance with the safe harbor. The plan for City C employees satisfies the safe harbor because all employees performing services at the City C campus who are not excludable employees are eligible to participate in the City C plan. The plan for City B employees satisfies the safe harbor because all employees performing services at City B campus who are not excludable employees are eligible to participate in the City B plan. The plan for City A employees does not satisfy the safe harbor because the 200 employees ineligible to participate under the terms of the plan must be included.

2. X, an organization described in section 501(c)(3) and exempt from federal income tax under section 501(a), has two offices, one in City D and another in Suburb E, which is within the SMSA of City D. For eligible employees performing services at each of these offices, X sponsors a health plan and a 403(b) annuity plan. Under the 403(b) annuity plan for employees performing services in City D (403(b) annuity plan D), all of X's employees performing services at the office located in City D are eligible to defer annually 5% of their compensation. Under the 403(b) annuity plan for employees performing services in Suburb E (403(b) annuity plan E), all of X's employees performing services at the office located in City E who are full-time employees are eligible to defer annually 5% of their compensation. There are three part-time employees performing services at the office located in City E who normally work 25 hours per week. Because the offices located in Cities D and E are not geographically distinct from one another, X must test 403(b) annuity plan D and 403(b) annuity plan E on an aggregate basis. The plans fail the 403(b)(12)(ii) safe harbor because three employees performing services at the office located in City E are ineligible to participate.

IV. SECTION 403(b)(12)(i) SAFE HARBORS

A. In general. The Service will deem all of an employer's 403(b) annuity plans included in the employer's aggregated 403(b) annuity program to satisfy section 403(b)(12)(i) only if the aggregated 2 403(b) annuity program satisfies one of the following three safe harbors with respect to all contributions, other than matching contributions and employee contributions within the meaning of section 401(m), that are not made pursuant to a salary reduction agreement within the meaning of section 3121(a)(5)(D). In addition, if a plan or plans included in an aggregated 403(b) annuity program provides for matching contributions or employee contributions, or both, such plan or plans must satisfy section 401(m) and the regulations thereunder. For purposes of applying the regulations under section 401(m), contributions made pursuant to a salary reduction agreement to a 403(b) annuity plan may not be considered. Furthermore, in determining whether an aggregated 403(b) annuity program meets any of the following safe harbors, an employer may not take into account any social security benefits or contributions which may be taken into account under section 401(a)(4) or 401(a)(5) or any permitted disparity under section 401(l).

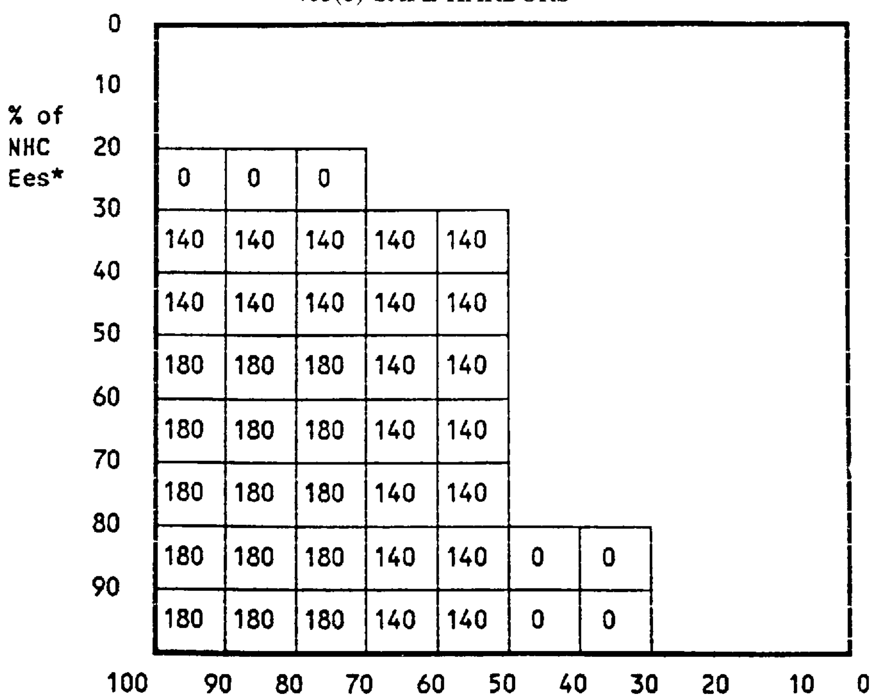
1. Maximum disparity safe harbor. This safe harbor is satisfied only if (i) the highest percentage of compensation for a year contributed on behalf of any highly compensated employee who is currently accruing benefits under a plan or plans included in the program is not more than 180% of the lowest percentage of compensation for a year contributed on behalf of any nonhighly compensated employee who is currently accruing benefits, (ii) at least 50% of the nonhighly compensated employees are currently accruing benefits under the plans included in the program, and (iii) the percentage of employees who are currently accruing benefits under the plans included in the program who are nonhighly compensated employees is at least 70%.

2. Lesser disparity safe harbor. This safe harbor is satisfied only if (i) the highest percentage of compensation for a year contributed on behalf of a highly compensated employee who is currently accruing benefits under the plans included in the program is not more than 140% of the lowest percentage of compensation for a year contributed on behalf of any nonhighly compensated employee who is currently accruing benefits, (ii) at least 30% of the nonhighly compensated employees are currently accruing benefits under the plans included in the program and (ii) the percentage of employees who are currently accruing benefits under a plans included in the program who are nonhighly compensated employees is at least 50%.

3. No disparity safe harbor. This safe harbor is satisfied only if the highest percentage of compensation for a year contributed on behalf of any highly compensated employee who is currently accruing benefits in a plan included in the program is not higher than the lowest percentage of compensation for a year contributed on behalf of any nonhighly compensated employee who is currently accruing benefits, and either one of the following two tests is satisfied. Under the first test, at least 20% of the nonhighly compensated employees must be currently accruing benefits under a plan or plans included in the program and the percentage of participants in the plans included in the program who are nonhighly compensated employees must be at least 70%. Under the second test, at least 80% of the nonhighly compensated employees must be currently accruing benefits under a plan or plans included in the program and the percentage of participants in the plans included in the program who are nonhighly compensated employees must be at least 30%.

4. Example. The employer contribution disparity safe harbors are illustrated in the chart below. The numbers in the blocks represent the benefit disparity (i.e., the ratio of the highest percentage of compensation contributed on behalf of any highly compensated employee who is currently accruing benefits under a plan or plans included in an employer's aggregated 403(b) annuity program to the lowest percentage of compensation contributed on behalf of any nonhighly compensated employee who is currently accruing benefits) permitted under the safe harbors.

403(b) SAFE HARBORS



% of all employees of the employer currently accruing benefits under the program who are nonhighly compensated.

* % of nonhighly compensated employees of the employer currently accruing benefits under the program.

For example, if 55% of an employers nonhighly compensated employees are currently accruing benefits under the program, and 50% of the employees currently accruing benefits under such program are nonhighly compensated employees, the program satisfies the lesser disparity safe harbor in subpart A.2. as long as the highest percentage of compensation for a year contributed on behalf of any highly compensated employee who is currently accruing benefits is not more than 140% of the lowest percentage of compensation for a year contributed on behalf of any nonhighly compensated employee who is currently accruing benefits.

B. Applications. In applying any of the safe harbors, the employer must apply the following principles and interpretations.

1. Testing date. The safe harbors in part IV.A. are to be applied as of the last day of the plan year, taking into account employees who are employed by the employer on such day. However, highly compensated employees of the employer who accrue benefits under the employer's aggregated 403(b) annuity program during the plan year but terminate from employment with the employer during the last quarter of such year must be considered to be currently accruing benefits and included for purposes of determining the highly compensated employee with the highest percentage of contributions in applying the disparity limitation in these safe harbors. Employees who are excludable employees may be excluded, as provided in Part V.B.

2. "Pick-up" contributions. If a government "picks-up' contributions (within the meaning of section 414(h)) to a plan included in an aggregated 403(b) annuity program, such contributions are deemed to be employer contributions.

3. Valuation. a. Vesting schedules. (i). Adjustment. If an employer chooses to include one or more plans described in sections 401(a), 403(a), 414(d) or 414(e) in its aggregated 403(b) annuity program, then, for the purpose of the section 403(b)(12)(i) safe harbors, the value of the benefits under each such plan must be adjusted to take into account the difference between the vesting schedules of such plan and the 403(b) annuity plan or plans. In the case of an included defined benefit plan, this adjustment is made by calculating each participant's benefit by projecting the participant's age and service to the earlier of the participant's attainment of age 65 or the normal retirement age under the plan and multiplying such benefit by the average vested percentage differential. The resultant amount is subtracted from the participant's benefit. In the case of an included defined contribution plan, the adjustment is made by multiplying the percentage of compensation contributed by or on behalf of any highly compensated employee for the plan year by the average vested percentage differential. The resultant amount is subtracted from the amount contributed for the plan year for or on behalf of the participant. This adjustment is based on the principles of Rev. Rul. 74-166, 1974-1 C.B. 97.

(ii). Average vested percentage. The average vested percentage is determined by dividing the sum of the vested percentage at the end of each year of service under the plan by the maximum years of service under the plan. The maximum years of service under the plan are the years of service during the period beginning at the later of age 18 or the earliest entry age under the plan and ending on the later of the normal retirement age under the plan and age 65.

(iii). Average vested percentage differential. The average vested percentage differential is 50% of the difference between the average vested percentage and 100%.

(iv). Vesting valuation example. An employer chooses to include a governmental plan in its aggregated 403(b) annuity program. The governmental plan provides for 0% vesting for the first 9 years of service and 100% vesting for each year thereafter. The earliest entry age under the plan is age 21 and the normal retirement age under the plan is age 65. Assume there are three participants in the governmental plan, participant A with 15 years of service and a projected annual benefit of $50,000, participant B with 2 years of service and a projected annual benefit of $45,000, and participant C with 5 years of service and a projected annual benefit of $30,000. The sum of the vested percentages for each year of service is 3500 [9(0) + 35(100)]. The average vested percentage is 79.55% (3500/44). The average vested percentage differential is 10.23% [(100% − 79.55%)/2]. Participant A's benefit must be adjusted by subtracting $5115 (10.23% times $50,000) from his projected benefit of $50,000. Participant B's benefit must be adjusted by subtracting $4603.50 from her projected benefit of $45,000. Participant C's benefit must be adjusted by subtracting $3069 from his projected benefit of $30,000.

b. Defined benefit plans. If the aggregated 403(b) annuity program includes one or more defined benefit plans, then the value of the contributions to such plan or plans with respect to any employee must be determined on a contribution basis under the rules contained in Treasury Regulation 1.403(b)-1(d)(4). The rules contained in such regulation are to be applied after any adjustment for differences in vesting schedules required by subparagraph a of this paragraph 3.

C. Examples. 1. Employer A, an organization described in section 501(c)(3) and exempt from federal income tax under section 501(a), has a headquarters office in State W and branch offices in States X, Y and Z. A sponsors a separate 403(b) annuity plan, which is a defined contribution plan, for its salaried employees performing services at each of its offices. Under each plan, an employee becomes a participant upon completion of one year of service. A contributes annually 8% of participants' compensation to the 403(b) annuity plan for its employees performing services at the State W office. To each other plan, A contributes annually 5% of participants' compensation. There are no 5% owners. The number of participants in each plan, the significant compensation levels of such participants and the number of nonexcludable employees who are ineligible because they are nonsalaried are set forth below.

	highly compensated employees	nonhighly compensated employees	ineligible, nonexcludable employees*
State W plan	19	45	55
State X plan	2	15	15
State Y plan	3	20	15
State Z plan	3	23	15
	27	103	100

* All of the nonsalaried employees who are ineligible under the plan are nonhighly compensated employees.

Employer A is required to include all of its 403(b) annuity plans in its aggregated 403(b) annuity program for purposes of this safe harbor. The aggregated 403(b) annuity program sponsored by A satisfies the maximum disparity safe harbor because the highest percentage of compensation contributed on behalf of any highly compensated employee is not more than 180% of that contributed on behalf of any nonhighly compensated employee currently accruing benefits (8% / 5% = 160%); at least 50% of the nonhighly compensated employees are currently accruing benefits (103/203 = 50.74%); and the percentage of participants who are nonhighly compensated employees is at least 70% (103/130 = 79.23%).

2. Assume the same facts as in Example 1, and, in addition, that A pays an annual premium for a 403(b) annuity contract for one of its highly compensated employees at the State W office, the Executive Director, who is not eligible to participate in the group annuity plan. The annual premium for the contract is equal to 15% of the Executive Director's annual compensation. Employer A's aggregated 403(b) annuity program must include all of the 403(b) annuity plans for its employees in States W, X, Y and Z and the individual annuity contract purchased for its Executive Director. The aggregated 403(b) annuity program does not satisfy any of the safe harbors because the contribution rate for the Executive Director is 300% of the contribution rate for participants in the 403(b) annuity plans for employees in States X, Y and Z.

3. School District No. 125 operates two schools, located in Boone County in State X, an elementary school for grades kindergarten through six, and a junior high for grades seven and eight. The District has the power to levy tax to provide funds for the elementary and junior high school. The District contributes for its administrative staff and the teachers employed at the schools to the State X Teachers' Retirement Plan, a 403(b) annuity plan which is a defined contribution plan, an amount equal to a percentage of each such employee's annual compensation. The percentage is determined by state statute. The current contribution percentage is 5%. The District contributes to a governmental plan, which is a defined benefit plan, for its janitors and cafeteria personnel in an amount that, after the required adjustments for vesting and plan type (see paragraph B. 3. of this Part IV), is the actuarial equivalent of 3% of each such employee's annual compensation. In addition, the District annually purchases a deferred annuity contract for its superintendent, who also participates in the 403(b) annuity plan. The premium paid each year, and thus the face amount of the annuity, varies from year to year as the school board of District No. 125 may determine. The contribution percentage for the current year is 15%. The District makes contributions either to the 403(b) annuity plan or the governmental plan on behalf of all of its employees. No employee is in both the 403(b) plan and the governmental plan. The number of employees currently accruing benefits under each plan and the number of highly compensated and nonhighly compensated employees in each are set forth below.

	highly compensated employees	nonhighly compensated employees
403(b) annuity plan	18	80
Governmental plan	0	30
Annuity contract	1	0

The aggregated 403(b) annuity program of District No. 125, which includes the 403(b) annuity plan and the annuity contract for the superintendent, does not satisfy any of the safe harbors because the highest percentage of compensation contributed on behalf of any highly compensated employee is more than 180% of the lowest percentage of compensation contributed on behalf of any nonhighly compensated employee currently accruing benefits (20%/5% = 400%).

4. Assume the same facts as in Example 3, except that 40 of the teachers eligible to participate in the 403(b) annuity plan who are not highly compensated employees elect not to participate and the District does not purchase a deferred annuity contract for its superintendent. If the District decides to include the governmental plan in its aggregated 403(b) annuity program, the program satisfies the maximum disparity safe harbor because the highest percentage of compensation contributed on behalf of any highly compensated employee is not more than 180% of the lowest percentage of compensation contributed on behalf of any nonhighly compensated employee (5%/3% = 166.67%); at least 50% of the nonhighly compensated employees are currently accruing benefits (70/110 = 63.64%); and the percentage of participants who are nonhighly compensated employees is at least 70% (70/88 = 79.55%).

5. Employer X maintains a section 403(b) plan. X requires all employees other than Executive Director, A, a highly compensated employee, to make a salary reduction contribution equal to at least 2% of compensation to the plan in order to receive a matching 10% contribution. A 10% employer contribution to A's account is made regardless of whether A makes any salary reduction contribution. There are no other contributions to the plan. All employer contributions, other than those for A, are treated as matching contributions. A is treated as receiving no matching contributions. This plan will satisfy section 401(m) for matching contributions (because only nonhighly compensated employees are eligible for the match); but it will fail the safe harbor for employer contributions because only A has employer contributions.

V. DEFINITIONS

A. In general. The definitions contained in this subpart A of Part V apply for all purposes under this Notice.

1. Highly compensated employees. Generally, the determination of which individuals are highly compensated employees is made under section 414(q) and the regulations thereunder. An employer may elect to include in its class of highly compensated employees only those employees who, during the plan year, are 5% owners of any entity within the same controlled group as the employer or receive compensation in excess of $50,000 (adjusted at the same time and in the same manner as under section 415(d), $54,480 in 1989).

2. Compensation. "Compensation" means compensation as defined in section 414(s) and the regulations thereunder and as limited under section 401(a)(17), ($200,000 for 1989) except that compensation includes only the

amount of compensation received for services performed for an organization described in section 501(c)(3) which is exempt from tax under section 501(a) or for an educational organization described in section 170(b)(1)(A)(ii) of a state, political subdivision of a state, or an agency or instrumentality of a state or political subdivision.

3. Plan year. If a plan document (e.g., an annuity contract) specifies a plan year, the plan year for purposes of this Notice is the plan year specified in the document. If no plan year is specified in the plan document, the plan year is the calendar year unless the employer designates in writing by December 31, 1989, that the plan year is a fiscal year of the employer. If an aggregated 403(b) annuity program has plans with plan years that end on different dates, the calendar year in which the plan years end will be the plan year for all of the plans for purposes of the transitional safe harbors unless the employer designates in writing by December 31, 1989, that the plan year of all of the plans in the program is either (i) the plan year specified in one of the plan documents or (ii) a fiscal year of the employer.

B. Safe harbor definitions. The definitions contained in this subpart B of Part V apply to the safe harbors contained in this Notice, as specified in each definition.

1. Aggregated 403(b) annuity program. For purposes of the section safe harbors set forth in part IV.A., the term 'aggregated 403(b) annuity program'' means all of the annuity contracts described in section 403(b)(1), all of the custodial accounts described in section 403(b)(7), and all of the retirement income accounts described in section 403(b)(9) to which an employer makes contributions. In addition, an employer may decide, in testing its aggregated 403(b) annuity program to include any one or more of the employer's plans described in section 401(a), annuity plans described in 403(a), governmental plans described in section 414(d) and church plans described in section 414(e) to which the employer contributes, to the extent that any such plan covers the employer's employees, so long as each plan that the employer decides to include in the program satisfies sections 410(b) and 401(a)(4). A plan that satisfies sections 410(b) and 401(a)(4) only when considered together with one or more comparable plans may be included in an employer's aggregated 403(b) annuity program only if the employer also includes the comparable plans such plan relied on in satisfying sections 410(b) and 401(a)(4) in the aggregated 403(b) annuity program.

Each non-403(b) plan that an employer decides to include in its aggregated 403(b) annuity program continues to be subject to the nondiscrimination rules applicable to such plans as if they were not included in the aggregated 403(b) annuity program. If an employer makes contributions only to one annuity contract described in section 403(b)(1), one custodial account described in section 403(b)(7), or one retirement income account described in 403(b)(9), then the employer's aggregated 403(b) annuity program is such contract or account and any of the employer's plans described in section 401(a), annuity plans described in 403(a), governmental plans described in section 414(d) and church plans described in section 414(e) that the employer includes in the program pursuant to the first sentence of this definition.

2. Employer. a. In general. For purposes of the section 403(b)(12)(i) safe harbors, the employer as defined in section 414(b), (c), (m) and (o) is deemed to be the entity contributing to or maintaining the 403(b) annuity plan (contributing employer) and each entity in the same controlled group as the contributing employer which, under section 403(b), may contribute to or maintain a 403(b) annuity plan. The controlled group includes each entity of which at least 80% of the directors, trustees or other individual members of the entity's governing body are either representatives of or directly or indirectly control, or are controlled by, the contributing employer. In addition, an entity is included in the same controlled group as the contributing employer if such entity provides directly or indirectly at least 80% of the contributing employer's operating funds and there is a degree of common management or supervision between the entities. A degree of common management or supervision exists if the entity providing the funds has the power to appoint or nominate officers, senior management or members of the board of directors (or other governing board) of the entity receiving the funds. A degree of common management or supervision also exists if the entity providing the funds is involved in the day-to-day operations of the entity.

b. Governmental entities. In addition to the entities described in paragraph a. of this definition, in the case of an educational organization described in section 170(b)(1)(A)(ii) of an employer which is a state, a political subdivision of a state, or an agency or instrumentality of any one or more of such entities (governmental entity), the term ''employer'' includes any other educational organization described in section 170(b)(1)(A)(ii) that has the power to levy tax to provide funds to the contributing employer or to set or review the contributing employer's budget (involvement in the budgetary process must consist of more than mere approval of a previously developed budget), and all other educational organizations described in section 170(b)(1)(A)(ii) that receive tax disbursements pursuant to the same tax levy of an educational organization. If the contributing employer receives a majority of its tax disbursements pursuant to a tax levy of one governmental entity, each other educational organization described in section 170(b)(1)(A)(ii) receiving at least 80% of its tax disbursements pursuant to the same levy is included in the term ''employer'' so long as its budget is set or reviewed by the same educational organization that sets or reviews the contributing employer's budget. Thus, for example, if a two-year college and a university each receive 80% or more of their tax disbursements pursuant to a tax or taxes levied by a state and each of their budgets is reviewed by an educational organization, then both educational organizations are one employer for purposes of the safe harbors provided in part IV.A.. For the purposes of this definition, an entity that is organized under a state statute and qualifies for an exemption under section 501(c)(3) is treated as described in section 170(b)(1)(A)(ii).

3. Excludable employees. a. In general. For purposes of applying any of the safe harbors contained in this Notice to a 403(b) annuity plan, the following individuals and employees of an employer are excludable employees: (i) employees who are nonresident aliens described in section 410(b)(3)(C); (ii) employees who are students performing services described in section 3121(b)(10); (iii) employees who normally work less than 20 hours per week; (iv) employees who make a one-time election to participate in a governmental plan described in 414(d) instead of a 403(b) annuity plan; (v) professors employed by an educational organization described in section 170(b)(1)-(A)(ii) (original employer) who are providing services on a temporary basis

to another educational organization described in section 170(b)(1)(A)(ii) and for whom a contribution to a 403(b) annuity plan or other tax-favored plan is being made at a rate no greater than the rate such professors would receive under the aggregated 403(b) annuity program of the original employer, provided that such professors are not excluded for this reason for more than one year; and (vi) employees who are affiliated with a religious order who have taken a vow of poverty and the religious order provides for such employees in their retirement. If an individual is eligible to participate in a 403(b) annuity plan even though the individual is included in a class of employees specified in the previous sentence, then the other individuals in such class may not be excluded for purposes of applying the safe harbors contained in this Notice.

b. Employees covered by collective bargaining agreements. For purposes of applying any of the safe harbors contained in this Notice to a 403(b) annuity plan, an employer may exclude employees whose retirement benefits were the subject of good faith bargaining between a representative of such employees and the employer (collectively bargained employees) in determining whether the safe harbor is satisfied with respect to employees whose retirement benefits were not the subject of such bargaining. Moreover, in determining whether any of the safe harbors is satisfied with respect to collectively bargained employees, an employer may exclude employees who are not collectively bargained employees and collectively bargained employees covered under an agreement that does not provide for benefits under the plan being tested.

c. Governmental employees. For purposes of applying any of the safe harbors contained in this Notice to a 403(b) annuity plan, an employer who is a state or a political subdivision, agency or instrumentality thereof may exclude the following individuals in addition to the excludable employees set forth in paragraphs a and b of this definition: (i) those individuals who were initially employed for the principal purpose of relieving unemployment and who have not become a part of the employer's regular workforce; (ii) inmates and patients of prisons, hospitals, homes and other institutions who perform services therein; and (iii) those individuals performing services on a temporary basis in case of fire, storm, snow, earthquake, flood or similar emergency.

d. Section 403(b)(12)(ii) safe harbor. In addition to those who are excludable employees under paragraphs a, b and c of this definition of excludable employees, the following employees of an employer are excludable employees for purposes of applying the 403(b)(12)(ii) safe harbor to a 403(b) annuity plan: (i) employees who are participants in an eligible deferred compensation plan within the meaning of section 457; (ii) employees who are eligible to participate in a qualified cash or deferred arrangement within the meaning of section 401(k)(2) or another 403(b) annuity plan sponsored or maintained by the employer which provides for contributions pursuant to a salary reduction agreement; and (iii) each employee whose contribution to the plan under its maximum deferral percentage would be $200 or less. If an employee is eligible to participate in a 403(b) annuity plan even though the employee is included in one of the classes of employees specified in the previous sentence, then all employees within that same class must be eligible to participate in the plan.

e. Section 403(b)(12)(i) safe harbors. (i) General age and service exclusion rule. In addition to those who are excludable employees under paragraphs a, b and c of this definition of excludable employees, for purposes of applying the 403(b)(12)(i) safe harbor to a 403(b) annuity plan, employees who have not satisfied the minimum age and service requirements set forth in the plan are excludable employees, so long as such requirements are permissible under section 410(a)(1) (assume plans not subject to section 410(a)(1) are subject to such section in determining those who are excludable employees) and all employees not meeting such requirements are excluded from participating in the plan.

(ii) Separate testing alternative to age and service exclusion rule. Employees who would be excludable under subparagraph (i) of this paragraph (e), but for the fact that they (or other employees with the same or lower age and service) are not excluded from coverage under the plan (otherwise excludable employees), may nevertheless be treated as an excludable employee if the employer provided benefits provided under such plan would satisfy the section 403(b)(12)(i) safe harbor by reference only to such employees and the benefits provided to such employees (expressed as percentages of compensation) are not greater than the benefits provided to the employees who are not otherwise excludable under the plan.

VI. EFFECTIVE DATE

Except as provided in the following sentence, section 403(b)(12) is effective for plan years beginning after December 31, 1988. In the case of a 403(b) annuity plan maintained pursuant to one or more collective bargaining agreements between employee representatives and one or more employers (a collectively bargained 403(b) annuity plan) that is ratified before March 1, 1986, section 403(b)(12) does not apply to plan years beginning before the earlier of (i) January 1, 1991, or (ii) the later of January 1, 1989, or the date on which the last of such collective bargaining agreements terminates (determined without regard to any extension thereof after February 28, 1986). Of course, if a collectively bargained 403(b) annuity plan is aggregated with other plans in an aggregated 403(b) annuity program, the delayed effective date applies only with respect to the collectively bargained 403(b) annuity plan.

The safe harbors set forth in this Notice apply for plan years commencing in the 1989 or 1990 calendar year.

VII. RELIANCE

Until additional guidance is published, this Notice may be relied upon by taxpayers to design and administer section 403(b) annuity plans and to determine the tax treatment of contributions. If such guidance is more restrictive than this Notice, then such guidance will be applied without retroactive effect.

This document serves as an ''administrative pronouncement'' as that term is described in Treasury Regulation 1.6661-3(b)(2) and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Valuation Tables

Notice 89-24

The purpose of this notice is to provide guidance to taxpayers in determining the present value of an annuity, an interest for life or for a term of years, or a remainder or reversionary interest under section 7520 of the Internal Revenue Code. The methods established under section 7520 and this notice apply for valuation purposes under several Code provisions that include sections 170, 642, 664, 2031, 2055, 2512, 2522, and 2624.

BACKGROUND

In general, actuarial factors used in determining the present value of an annuity, an interest for life, or a remainder or reversionary interest are, for federal estate, gift, and certain income tax purposes, based on two components: the life expectancy of a designated individual or individuals (the "mortality component") and the assumed rate of return (the "interest rate component"). Valuation factors for determining the present value of interests measured by a term certain are based on two components: a term of years component and an interest rate component. For gifts made before May 1, 1989, and for estates of decedents dying before that date, the mortality component is computed on the basis of Table 1 of United States Life Tables: 1969-71 and the interest rate component is assumed to be 10 percent per annum. Actuarial factors used in the valuation of interests that are measured by one life can be found in sections 1.642(c)-6(d)-(3) and 1.664-4(b)(5) of the Income Tax Regulations, section 20.2031-7(f) of the Estate Tax Regulations, and section 25.2512-5(f) of the Gift Tax Regulations. Actuarial factors used in the valuation of interests that are measured by two lives are contained in Internal Revenue Service (Service) Publication 723E (12-83), *Actuarial Values II: Factors at 10 Percent Involving One and Two Lives.* In addition, actuarial factors used in the valuation of charitable remainder unitrust interests and pooled income fund interests that are measured by two lives are contained in I.R.S. Publication 723C (9-84), *Actuarial Values I: Valuation of Last Survivor Charitable Remainders, Part C,* and I.R.S. Publication 723D (9-84), *Actuarial Values I: Valuation of Last Survivor Charitable Remainders, Part D,* respectively. The current method for determining actuarial factors, as described in this paragraph, is applicable to gifts made before May 1, 1989, and estates of decedents dying before May 1, 1989.

Section 5031 of the Technical and Miscellaneous Revenue Act of 1988 ((P.L. 100-647) 102 Stat. 3342) amended the Internal Revenue Code by adding section 7520. Generally, under section 7520, the value of an annuity, interest for life or for a term of years, or remainder or reversionary interest is determined under new tables that are to be prescribed by the Secretary. Section 7520 is applicable to gifts made after April 30, 1989, and to estates of decedents dying after that date.

INTEREST RATES AND SOURCE OF TABLES FOR TRANSFERS AFTER APRIL 30, 1989

With respect to the interest rate component, the new valuation tables under section 7520 of the Code are to be based, in part, on the interest rate that the Service announces monthly in a news release and publishes in a revenue ruling in the Internal Revenue Bulletin. This rate is 120 percent of the applicable federal midterm rate compounded annually (rounded to the nearest two-tenths of one percent) in effect under section 1274(d)(1) of the Code for the month in which the valuation date falls. For example, the applicable federal midterm interest rate for February 1989, as set forth in Rev. Rul. 89-15, page 00, this Bulletin, is 9.42 percent; 120 percent of this amount is 11.36 percent. Thus, if section 7520 were effective as of February 1, 1989 (instead of May 1, 1989), then the rate for February under section 7520 would be determined by rounding the rate of 11.36 to 11.4 percent.

With respect to the mortality component, the new valuation tables will be based on the most recent mortality experience available. The Service will publish these tables in publications that may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20404.

CHARITABLE CONTRIBUTIONS MADE AFTER APRIL 30, 1989

Section 7520(a) of the Code provides in part that, if an income, estate, or gift tax charitable contribution is allowed for any part of the property transferred, the taxpayer may use the federal midterm rate for the month of the transfer or for either of the 2 months preceding the month in which the valuation date falls. In the case of transfers of more than one interest in the same property, each interest must be valued on a basis consistent with the valuation of all other such interests. For example, if a taxpayer transfers property to a charitable remainder trust in October 1989, the taxpayer may use an interest rate based upon the federal midterm rate for August, September, or October 1989; however, the taxpayer must use the same rate for both the noncharitable lead interest and the charitable remainder interest. For charitable contributions made in May or June 1989, if the taxpayer elects to use the federal midterm rate for the preceding 2 months, which may include March and April, the valuation factors for March or April that involve the lives of one or more individuals will be computed on the basis of Table 1 of United States Life Tables: 1969-71 and interest at 120 percent of the applicable federal midterm rate for March or April. Thus, the March and April actuarial factors (in the case of contributions made in May or June) will not be based on the new mortality component.

Charitable contribution transfers and other transfers of partial interests in property actually made in March or April 1989 will continue to be valued with actuarial factors based solely on Table 1 of United States Life Tables: 1969-71 and an assumed interest rate of 10 percent per annum.

In the case of gifts made after April 30, 1989, and estates of decedents dying after that date, if no charitable deduction is allowable for any portion of the property transferred, then all interests therein must be valued on the basis of 120 percent of the applicable federal midterm rate for the month in which the transfer is made.

INITIAL GUIDANCE ON NEW VALUATION FACTORS

(a) *Valuation of Interests Measured by a Term Certain After April 30, 1989*

Although the Service publications setting forth the new tables of valuation factors are not yet available, many of these factors may be determined by taxpayers prior to issuance of the publications. Taxpayers who expect to make transfers after April 30, 1989, of partial interests in property measured by a term of years may find applicable term certain factors in commercially available financial publications that contain present value tables computed to six significant figures. Taxpayers may also compute the term certain valuation factors for valuing a remainder interest, an income interest, or an annuity interest. These computations are illustrated by the following examples:

Example 1: Computation of a Remainder Interest. Assume that a donor makes a gift of an interest in a trust for an 8-year term certain after April 30, 1989, and needs to value the remainder interest. Assume also that 120 percent of the applicable federal midterm rate for the month is 10.8 percent. The applicable factor for valuing a remainder interest based on a term of years may be determined by use of the following mathematical formula:

$$\text{Remainder Factor 1} = \frac{1}{(1 + i)^t}$$

where i equals 120 percent of the applicable federal midterm interest rate under section 7520 and the exponential power t equals the number of years in the term.

Based upon interest at 10.8 percent per annum, the present worth of \$1.00 due at the end of 8 years is \$0.440232.

Example 2: Computation of an Income Interest. Assume the same facts as in Example 1, except that the donor needs to value the income interest. The valuation factor for a term certain income interest may be computed by using this formula:

Income Factor = \$1.000000 − Remainder Factor

Thus, if 120 percent of the applicable federal midterm rate for the month is 10.8 percent and the remainder factor as computed in Example 1, above, is .440232, the income factor for an income interest in a trust for a term of 8 years is 1.000000 minus .440232, which equals .559768.

Example 3: Computation of an Annuity Interest. Assume that a donor makes a gift of an annuity interest for an 8-year term certain after April 30, 1989. Assume also that 120 percent of the applicable federal midterm rate for the month is 10.8 percent. The valuation factor for a term certain annuity interest may be computed by using this formula:

$$\text{Annuity Factor} = \frac{\text{Income Factor}}{i}$$

where i equals the applicable interest rate under section 7520.

Thus, if 120 percent of the applicable federal midterm rate for the month is 10.8 percent and the income factor, as computed in Example 2 above, is .559768, the valuation factor for an annuity interest for a term of 8 years is .559768 divided by 10.8 percent, which equals 5.1830.

Example 3 may be used to compute term certain valuation factors for charitable remainder annuity interests.

(b) *Valuation of Interests Measured by One or More Lives in the Case of Charitable Contributions Made in May and June 1989*

In valuing a charitable remainder interest in a transfer that is made to a pooled income fund after April 30, 1989, the federal midterm rate is disregarded. Instead, such interests are valued on the basis of the applicable yearly rate of return of the pooled income fund at the time of the transfer and the applicable mortality table. Taxpayers who plan to make charitable contributions to pooled income funds in May or June 1989 and who wish to rely on the actuarial factors that are applicable for the preceding 2 months, which may include March and April can, in the case of remainder interests that are measured by a single life, obtain the applicable factors from Table G of section 1.642(c)-6(d)(3) of the regulations. Thus, in the case of contributions in May or June, taxpayers are permitted to elect to use actuarial factors for the 2 months preceding the contribution, notwithstanding the fact that the federal midterm rate is disregarded in valuing pooled income funds.

Example 4: Computation of a Remainder Interest Transferred to a Pooled Income Fund. Assume that in May 1989 a donor, aged 45, transfers property to a pooled income fund, retaining the income interest for life. Assume also, that at the time of the transfer, the highest yearly rate of return of the fund for its three preceding taxable years is 10.2 percent and 120 percent of the applicable federal midterm rate for one of the 2 months before May is 11.4 percent. The donor elects to value the transfer based on the prior mortality experience contained in Table G. The applicable yearly rate of return for the fund is used when valuing a remainder interest transferred to a pooled income fund. The applicable valuation factor is .11121 that is found in Table G under the column for 10.2 percent yearly rate of return. The value of the transferred interest multiplied by this factor represents the present worth of the remainder interest in property transferred by a donor, aged 45, to a pooled income fund having a yearly rate of return of 10.2 percent.

The valuation factors for valuing transfers to pooled income funds based on two lives are found in Table G(2) of Service Publication 723D (9-84), cited above.

Taxpayers who make qualifying charitable contributions in May or June 1989 of certain partial interests in property (other than contributions to charitable remainder unitrusts and pooled income funds) that are measured by a single life, and who wish to elect under section 7520(a), can obtain the applicable factors for March and April for valuing many such interests from Table G, cited above.

Example 5: Computation of a Qualifying Remainder Interest in a Farm. Assume that a donor, aged 40, makes a gift to a charity of a remainder interest in farmland in May 1989. Assume, for purposes of illustration, that 120 percent of the applicable federal midterm rate for one of the 2 months before May, which the donor elects to use, is 11.4 percent. The applicable remainder interest actuarial factor, which may be found in Table G in the column listing factors for the yearly rate of return of 11.4 percent, is .06828. This is the present worth of \$1.00 due at the death of a person aged 40 based on an interest rate of 11.4 percent.

Taxpayers who plan to make contributions of certain partial interests in property to charity after April 30, 1989, and who wish to value remainder interests that are measured by two lives may obtain the applicable factors for the months of March and April 1989 from Table G(2), cited above.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Miscellaneous Taxability Issues

Notice 89-25

Introduction

This Notice provides further guidance, in the form of questions and answers, to certain provisions of the Tax Reform Act of 1986 (TRA '86) generally affecting the taxation of distributions from qualified employee plans, section 403(b) annuity contracts, and individual retirement arrangements (IRAs). Guidance has previously been issued in Notice 87-13, 1987-1 C.B. 432, and Notice 87-16, 1987-1 C.B. 446. This Notice is intended to clarify certain provisions of those Notices, and to provide guidance on other issues affecting employee plans, changes in plan valuation date, distributions to federal employees, and distributions of certain annuity contracts.

Until further guidance is published, the guidance provided by these questions and answers may be relied upon by taxpayers to design and administer plans and to determine the tax treatment of plan contributions and distributions. The Service will apply these questions and answers in issuing rulings and in examining returns with respect to taxpayers and plans. If future guidance is more restrictive than that provided in this Notice, such guidance will be applied without retroactive effect. No inference should be drawn, however, regarding issues not addressed in this Notice which may be suggested by a particular question and answer or as to why certain questions, and not others, are included.

Questions and Answers

Q-1: How does section 72(e)(8) of the Internal Revenue Code, which was added by TRA '86, affect the tax treatment of a distribution of employer securities having net unrealized appreciation?

A-1: Distributions from qualified plans are generally taxed according to the rules of section 72 (relating to annuities). However, section 402(a)(1) provides a specific rule that net unrealized appreciation (NUA) in employer securities attributable to employee contributions shall be excluded from the distributee's gross income. Section 402(e)(4)(J) also provides for the exclusion from gross income of all NUA in employer securities included as part of a lump sum distribution (determined without regard to section 402(e)(4)(H)).

Section 402(j) of the Code provides that the determination of NUA in employer securities shall be made without regard to any transaction in which the plan trustee exchanges the plan's securities for other such securities or disposes of employer securities and uses the proceeds of such disposition to acquire securities of the employer corporation within 90 days (or such longer period as the Secretary may prescribe). This change does not apply to any employee to whom a distribution of money was made after the disposition of securities and before the acquisition of other employer securities.

Section 402(e)(4)(J) of the Code as amended by TRA '86 also provides that a taxpayer may elect not to exclude NUA in employer securities distributed as part of a lump sum distribution (determined without regard to whether the employee has been a participant in the plan for five or more years). Such an election is to be made by attaching a signed statement to that effect to the income tax return (or amended return) filed for the year in which the distribution was received and by including the NUA as part of the distribution on the Form 4972, or, if no Form 4972 is filed, on line 16 of Form 1040.

The portion of NUA attributable to employee contributions is determined according to section 1.402(a)-1(b) of the Income Tax Regulations and the provisions of the plan document. Under these rules the employee contributions used to purchase the security shall be the amount of the employee contributions properly allocable to the employer security. Employee contributions are treated as properly allocable to employer securities that have been specifically earmarked as purchased with employee contributions. If employer securities cannot be so identified, a ratable allocation may be used. See section 1.402(a)-1(b)(3) of the regulations. Except as provided above, TRA '86 did not change the rules for allocating employee contributions to employer securities, or for excluding NUA received in a lump sum distribution pursuant to section 402(e)(4)(J).

NUA attributable to employee contributions in a distribution that is not a lump sum distribution is excludable from the distributee's gross income. The remainder of the distribution is taxed according to the rules of section 72. Prior to TRA '86, the remainder of a distribution received before the annuity starting date was excluded from gross income until the distributee's investment in the contract had been recovered. TRA '86 amended section 72 by adding section 72(e)(8), which provides for a pro-rata recovery of the employee's investment in the contract according to a ratio, the numerator of which is the employee's investment in the contract, and the denominator of which is the employee's account balance. Since NUA attributable to employee contributions is excluded under the rules of section 402(a)(1), the pro-rata rule of section 72(e)(8) is applied by reducing the employee's account balance by all NUA attributable to employee contributions, whether or not all of such securities are distributed. Notice 87-13, Q&A-11, is hereby modified to the extent that it states that the account balance is only reduced by the NUA portion of the distribution.

Example 1

Employee A has been a participant in Employer X's qualified profit-sharing plan since January 1, 1987. A contributes $6,000 to the plan over a five year period. All such contributions are invested in X securities, and the fair market value of these securities appreciates to $10,000. On January 1, 1992, A elects a distribution of X securities equal to one-half of his employee account balance, which has a value of $5,000. $2,000 of the distribution constitutes NUA, which is excluded from A's gross income. The remaining portion of the distribution ($3,000) is taxed according to the fraction determined under section 72(e)(8) after reducing the denominator of the fraction by the $4,000 NUA allocable to the account as follows:

$$\frac{\$6{,}000 \text{ employee contributions}}{(\$10{,}000 \text{ account balance} - \$4{,}000 \text{ NUA})} \times \$3{,}000 = \$3{,}000 \text{ recovery of basis}$$

Thus, A has no amount includible in gross income and has a basis in the securities distributed of $3,000.

On January 1, 1993, A receives an X securities distribution of his remaining account balance with a value of $5,000. $2,000 of the distribution constitutes NUA which is excluded from income. The remaining portion of the distribution ($3,000) is treated as a recovery of basis as follows.

$$\frac{\$3{,}000 \text{ employee contributions}}{(\$5{,}000 \text{ account balance} - \$2{,}000 \text{ NUA})} \times \$3{,}000 = \$3{,}000 \text{ recovery of basis}$$

Thus, A has no amount included in gross income as A has a basis in the securities of $3,000.

Example 2

Employee B has contributed $10,000 to his employer's qualified defined contribution plan since 1987. One-half of the employee's contributions is invested in a mutual fund and the other one-half is invested in employer securities. The mutual fund and the securities have a value of $10,000 each. Thus, B's basis in the plan, the NUA in employer securities, and the total value of B's account balance is as follows:

	Basis	*NUA*	*Value*
Employer Securities:	$5,000	$5,000	$10,000
Mutual Fund:	$5,000		$10,000
Total:	$10,000	$5,000	$20,000

The tax result of the following distributions under section 72(e)(8) is described below for each taxable year.

Year 1: The plan distributes employer securities which have a value of $3,000. $1,500 of the distribution constitutes NUA which is excludable from B's gross income. The amount of the distribution that is treated as a recovery of basis is determined as follows:

$$\frac{\$10{,}000 \text{ employee contributions}}{(\$20{,}000 \text{ account balance} - \$5{,}000 \text{ NUA})} \times \$1{,}500 = \$1{,}000 \text{ recovery of basis}$$

Thus, $1,000 is excluded from gross income as a recovery of basis, and $500 is included in income. After the distribution, the employer's account stands as follows:

	Basis	NUA	Value
Beginning Balance:	$10,000	$5,000	$20,000
Distribution:	($ 1,000)	($1,500)	($ 3,000)
Ending Balance:	$ 9,000	$3,500	$17,000

Year 2: The plan distributes mutual fund shares with a value of $3,000. The amount of the distribution that is treated as a recovery of basis is determined as follows:

$$\frac{\$9{,}000 \text{ employee contributions} \times \$3{,}000}{\$17{,}000 \text{ account balance} - \$\ 3{,}500 \text{ NUA})} \times \$2{,}000 \text{ recovery of basis}$$

Thus, $2,000 is excluded from gross income as a recovery of basis, and $1,000 is included in gross income. After the distribution, the employee's account stands as follows:

	Basis	NUA	Value
Beginning Balance:	$9,000	$3,500	$17,000
Distribution:	($2,000)	(0)	($ 3,000)
Ending Balance:	$7,000	$3,500	$14,000

Year 3: The plan distributes employer securities which have a value of $4,000. $2,000 of the distribution constitutes NUA which is excludable from B's gross income. The amount of the distribution that is treated as a recovery of basis is determined as follows:

$$\frac{\$7{,}000 \text{ employee contributions} \times \$2{,}000}{(\$14{,}000 \text{ account balance} - \$\ 3{,}500 \text{ NUA})} = \$1{,}333 \text{ recovery of basis}$$

Thus, $1,333 is excluded from gross income as a recovery of basis, and $667 is included in gross income. After the distribution, B's account stands as follows:

	Basis	NUA	Value
Beginning Balance:	$7,000	$3,500	$14,000
Distribution:	($1,333)	($2,000)	($ 4,000)
Ending Balance:	$5,667	$1,500	$10,000

Year 4: The plan distributes the remaining account balance consisting of $7,000 cash and $3,000 employer securities. $1,500 of the distribution constitutes NUA which is excludable from B's gross income. The amount of the distribution that is treated as a recovery of basis is determined as follows:

$$\frac{\$5{,}667 \text{ employee contributions} \times \$8{,}500}{(\$10{,}000 \text{ account balance} - \$\ 1{,}500 \text{ NUA})} = \$5{,}667 \text{ recovery of basis}$$

Thus, $5,667 would be excluded from gross income as a recovery of basis, and $2,833 would be included in gross income.

Q-2: What is the effective date of section 72(t) for section 403(b) annuity contracts?

A-2: In general, section 1123(e) of TRA '86 provides that the early distribution tax under section 72(t) will apply, with certain exceptions, to distributions under section 403(b) annuity contracts received in the taxable year of the individual taxpayer beginning after December 31, 1986. Section 72(t) applies to all distributions from plans described in section 4974(c) (as amended by TRA '86), which includes section 403(b) annuities. See also Q&A-22 of Notice 87-13.

Q-3: What withholding rules apply to qualified plan distributions to nonspouse alternate payees?

A-3: Section 3405 of the Code provides that federal income tax must be withheld from all designated distributions unless the individual elects not to have withholding apply. In general, a designated distribution is any payment or distribution from or under an employee deferred compensation plan but does not include the portion of a distribution which it is reasonable to believe is not includible in gross income.

Section 402(a)(9) of the Code provides that, for purposes of section 402(a)(1) and 72, any alternate payee who is the spouse or former spouse of the participant shall be treated as the distributee of any distribution or payment made to the alternate payee under a qualified domestic relations order as defined in section 414(p). The withholding rules therefore are applied as if the spouse or former spouse were the employee. However, there is no similar provision for distributions to nonspouse alternate payees. Therefore, distributions to a nonspouse alternate payee during the lifetime of the participant are not includible in such payee's gross income, but instead are included in the gross income of the plan participant. Consequently, amounts shall be withheld from the distribution as if the plan participant were the payee, unless the plan participant elects not to have the withholding rules apply.

Q-4: May a distribution to a nonspouse alternate payee be rolled over by the nonspouse alternate payee?

A-4: No. Section 402(a)(5) of the Code generally provides rollover treatment only if the distribution is paid to an employee and the employee transfers any portion of the property received to an eligible retirement plan; this rollover treatment applies only to the taxable portion of the distribution. However, a special rollover rule is provided under section 402(a)(6)(F). Under that special rollover rule, if the balance to the credit of the recipient by reason of a qualified domestic relations order (within the meaning of section 414(p)) is paid to the recipient within one taxable year, any portion of the distribution may be transferred to an individual retirement account or annuity in a qualifying rollover distribution. This treatment is available, however, only for a distribution that would otherwise be includible in the gross income of the recipient. Because the distribution to a nonspouse alternate payee is includible in the gross income of the participant under section 402(a)(9), no part of such a distribution may be rolled over by the nonspouse alternate payee. However, the participant may roll over such amounts by making a contribution to an eligible retirement plan if the requirements of section 402(a)(5) are otherwise satisfied.

Q-5: If an employee who has been cashed-out of a plan described in section 72(e)(8)(D) of the Code subsequently buys back into the plan, will the grandfathered investment in the contract be restored?

A-5: Section 72(e)(8)(D), as added by TRA '86, provides a special grandfather rule for pre-annuity starting date distributions from plans that on May 5, 1986, permitted withdrawal of any employee contributions before separation from service. Under this grandfather provision, the pro-rata rule of section 72(e)(8) will apply only to the extent that the amount of the nonannuity distribution is greater than the remaining amount of the participant's total investment in the trust or contract on December 31, 1986 (See Q&A-13 of Notice 87-13). Therefore, if an employee has been cashed-out of such a plan before January 1, 1987, a buyback after December 31, 1986, will not restore the grandfathered investment. In addition, a cash-out of a participant's interest after December 31, 1986, that reduced the participant's December 31, 1986, investment causes a permanent reduction in such grandfathered investment that may not be restored by a later buy-back.

Q-6: If an employee receives a distribution of a portion of the balance to the employee's credit after age 59½, is a subsequent distribution to the employee of the remainder of the balance to the credit in a later taxable year a lump sum distribution within the meaning of section 402(e)(4)(A)?

A-6: A lump sum distribution under section 402(e)(4)(A) is a distribution within a single taxable year of the entire balance to the credit of an employee which is paid to the recipient (a) on account of the employee's death, (b) after the employee attains age 59 ½, (c) on account of the employee's separation from service (in the case of an individual who is an employee without regard to section 401(c)(1)), or (d) after the employee has become disabled (in the case of an employee within the meaning of section 401(c)). The employee's balance to the credit is determined as of the first distribution received after such an event. Additional amounts that are credited to the employee after the date the balance is determined may be treated, but are not required to be treated, as part of the balance to the credit. For example, if in 1989 employee A receives $100,000 which represents A's entire balance as of January 1, 1989, A will be treated as having received the entire balance to his credit even though an additional $5,000 is allocated to A's account on December 31, 1989, on account of A's service in 1989.

Q-7: What is the tax treatment of distributions from an IRA containing nondeductible contributions when the participant's basis in the IRA exceeds the value of the IRA?

A-7: For purposes of determining the taxation of IRA distributions, all IRAs maintained for an individual must be aggregated and treated as one IRA. If the IRA owner has made nondeductible IRA contributions, a portion of a distribution from any IRA of such individual must be excluded from income as a return of nondeductible contributions according to a ratio, the numerator of which is the individual's total nondeductible contributions to all IRAs maintained for the individual, and the denominator of which is the total IRA account balance for all such IRAs. If the aggregate account balance of all IRAs is less than the aggregate nondeductible contributions to all IRAs, distributions are treated as consisting entirely of nondeductible contributions. A loss may be recognized if all IRA accounts have been distributed and the amounts distributed are less than the individual's unrecovered basis. Notice 87-16, D-5, is hereby clarified.

Q-8: How does the early distribution tax under section 72(t) of the Code apply to individuals who retire from the United States Government before age 55 and elect to receive the "lump sum credit" and alternative annuity pursuant to section 204 of the Federal Employees' Retirement System Act of 1986?

A-8: A federal retiree may elect to receive, in lieu of the normal monthly annuity retirement benefit, a "lump sum credit" (an amount generally equal to the retiree's after-tax contributions) and an actuarially reduced annuity. If a federal employee retires prior to the year in which he or she attains age 55, and elects to receive the lump sum credit, the 10-percent additional early distribution tax under section 72(t) will apply to the portion of the lump sum credit that is included in the retiree's gross income. However, this tax will not apply if the federal employee retires during or after the year in which he or she attains age 55. Furthermore, the additional tax will not apply to annuity payments paid after retirement, even if the federal employee retires prior to age 55 and receives his or her lump sum credit.

Q-9: May a federal employee who transfers from the Civil Service Retirement System to the Federal Employees' Retirement System roll over the taxable portion of a refund of employee contributions?

A-9: No. The taxable portion of a distribution may be rolled over into an eligible retirement plan only if the amount of the distribution is at least 50 percent of the employee's balance to the credit, and the distribution is made on account of the employee's death, separation from service, or disability. Since the distribution to federal employees who transfer to the Federal Employees' Retirement System will be less than 50 percent of the employee's balance to the credit, and is not made on account of any of the events described above, rollover treatment is not available.

Q-10: What amount is included in a plan participant's gross income when the participant receives a distribution from a qualified plan that includes a policy issued by an insurance company with a value substantially higher than the cash surrender value stated in the policy?

A-10: Subject to certain exceptions not here applicable, section 402(a) of the Code provides that the amount actually distributed by a qualified employees' trust shall be taxable to a plan participant in the year in which so distributed under section 72 (relating to annuities). Section 1.402(a)-1(a)(1)(iii) of the regulations provides that the amount includible in a plan participant's gross income by reason of the distribution of property by the plan shall be the fair market value of such property. Life insurance contracts constitute property within the meaning of this section. Section 1.402(a)-1(a)(2) of the regulations provides that a distributee must include in gross income the cash value of any retirement income, endowment, or other life insurance contract at the time of the distribution. Section 1.72-16(c)(2)(ii) of the regulations indicates that the reserve accumulation in a life insurance contract constitutes the source of and approximates the amount of such cash value.

Individuals who receive an insurance policy as a distribution from a qualified plan use the stated cash surrender value of the policy as its fair market value for purposes of determining the amount includible in their gross income under section 402(a) of the Code. However, this practice is not appropriate where the total policy reserves, including life insurance reserves (if any) computed under section 807(d), together with any reserves for advance premiums, dividend accumulations, etc., represent a much more accurate approximation of the fair market value of the policy than does the policy's stated cash surrender value. These circumstances are illustrated by the following example.

A is a participant in a qualified noncontributory defined benefit plan. On January 1, 1986, $400,000 of plan assets were used to purchase an insurance policy. The policy was distributed to A on January 1, 1988, two years after the date of purchase.

The policy provides a stated cash surrender value for each of the first five policy years, as set forth in the table below. The total end of year reserves held by the insurance company for the policy also are set forth in the table. These reserves may include life insurance reserves and any reserves for advance premiums, dividend accumulations, etc. Life insurance reserves, if any, are calculated using the rules in section 807(d) of the Code, which provides rules for determining the amount of those reserves for purposes of calculating the tax liability of the insurance company issuing the policy.

Year	Surrender Value	Reserves
1	$106,000	$406,949
2	$112,360	$426,596
3	$119,102	$447,052
4	$126,248	$468,178
5	$489,908	$489,908

As the total reserves for the policy at the end of year two, $426,597, substantially exceed the policy's cash surrender value, $112,360, the reserves represent a much more accurate approximation of the fair market value of the policy when distributed than does the policy's cash surrender value. Accordingly, the amount includible in A's gross income by reason of the distribution of the policy at the end of year two is an amount equal to the $426,597 reserve, not the $112,360 stated cash surrender value at that date.

In the case of a distribution in excess of A's accrued benefit, as defined in section 1.411(a)-7(a)(1) of the regulations, resulting from valuing the policy at $112,360 rather than $426,547, the distribution would not be treated as a distribution to A from a qualified plan and, depending upon the facts and circumstances of the case, could be treated as a reversion to the employer. Of course, depending on the facts and circumstances, such distributions could disqualify the plan because they raise a number of qualification issues under, for example, section 415 of the Code, limitations on benefits and contributions, section 401(a) requirements that benefits be definitely determinable, and section 401(a)(4), discrimination in contributions and benefits, particularly if A was a member of the group of employees in whose favor discrimination is prohibited and other employees were not provided with similar distributions.

Q-11: Does the 10-percent tax under section 72(t) apply to amounts that are included in a plan participant's gross income pursuant to section 72(m)(3)?

A-11: No. Section 72(m)(3) provides generally that employer contributions and trust income that are treated under regulations as having been applied to the purchase of life insurance protection for a plan participant must be included in the participant's gross income. However, such an amount is not treated as a distribution for purposes of section 72(t).

Q-12: In the case of an IRA or individual account plan, what constitutes a series of substantially equal periodic payments for purposes of section 72(t)(2)(A)(iv)?

A-12: Section 72(t)(1) imposes an additional tax of 10 percent on the portion of early distributions from qualified retirement plans (including IRAs) includible in gross income. However, section 72(t)(2)(A)(iv) provides that this tax shall not apply to distributions which are part of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the employee or the joint lives (or joint life expectancies) of the employee and beneficiary. Section 72(t)(4) provides that, if the series of periodic payments is subsequently modified within five years of the date of the first payment, or, if later, age 59 ½, the exception to the 10 percent tax under section 72(t)(2)(A)(iv) does not apply, and the taxpayer's tax for the year of modification shall be increased by an amount, determined under regulations, which (but for the 72(t)(2)(A)(iv) exception) would have been imposed, plus interest.

Payments will be considered to be substantially equal periodic payments within the meaning of section 72(t)(2)(A)(iv) if they are made according to one of the methods set forth below.

Payments shall be treated as satisfying section 72(t)(2)(A)(iv) if the annual payment is determined using a method that would be acceptable for purposes of calculating the minimum distribution required under section 401(a)(9). For this purpose, the payment may be determined based on the life expectancy of the employee or the joint life and last survivor expectancy of the employee and beneficiary.

Payments will also be treated as substantially equal periodic payments within the meaning of section 72(t)(2)(A)(iv) if the amount to be distributed annually is determined by amortizing the taxpayer's account balance over a number of years equal to the life expectancy of the account owner or the joint life and last survivor expectancy of the account owner and beneficiary (with life expectancies determined in accordance with proposed section 1.401(a)(9)-1 of the regulations) at an interest rate that does not exceed a reasonable interest rate on the date payments commence. For example, a 50 year old individual with a life expectancy of 33.1, having an account balance of $100,000, and assuming an interest rate of 8 percent, could satisfy section 72(t)(2)(A)(iv) by distributing $8,679 annually, derived by amortizing $100,000 over 33.1 years at 8 percent interest.

Finally, payments will be treated as substantially equal periodic payments if the amount to be distributed annually is determined by dividing the taxpayer's account balance by an annuity factor (the present value of an annuity of $1 per year beginning at the taxpayer's age attained in the first distribution year and continuing for the life of the taxpayer) with such annuity factor derived using a reasonable mortality table and using an interest rate that does not exceed a reasonable interest rate on the date payments commence. If substantially equal monthly payments are being determined, the taxpayer's account balance would be divided by an annuity factor equal to the present value of an annuity of $1 per month beginning at the taxpayer's age attained in the first distribution year and continuing for the life of the taxpayer. For example, if the annuity factor for a $1 per year annuity for an individual who is 50 years old is 11.109 (assuming an interest rate of 8 percent and using the UP-1984 Mortality Table), an individual with a $100,000 account balance would receive an annual distribution of $9,002 ($100,000/11.109 = $9,002).

Q-13: Will the Service grant automatic approval of a change in valuation date for certain plans maintained by partnerships, S corporations, and personal service corporations (hereinafter referred to a "employers") that change their taxable year pursuant to section 806 of TRA '86?

A-13: Yes, provided certain requirements are met. A change in valuation date is a change in funding method requiring approval by the Internal Revenue Service. If a change in plan year is made in order for the plan year to continue to coincide with the employer's new taxable year, the plan's valuation date may be changed, without requesting prior approval from the Service, provided the requirements set forth below are satisfied.

1. The employer's taxable year and the plan year must coincide both before and after the change in taxable year.
2. The plan's valuation date is either the first day of the plan year or the last day of the plan year, both before and after any change in plan year. For example, if the valuation date was the first day of the plan year before any change in plan year, the plan must continue to use the first day of of the plan year, including the first day of the short plan year, as the valuation date after the change in plan year.
3. The employer's taxable year was changed to comply with section 706 of the Code, as amended by section 806 of TRA '86.
4. The principles regarding the creation and maintenance of amortization bases stated in section 4 of Rev. Proc. 85-29, 1985-1 C.B. 581, must be followed.
5. There must be attached to the Schedule B for the plan year of change a statement signed by the plan administrator (within the

meaning of section 414(g) of the Code) or an authorized representative of the plan sponsor stating that the plan administrator or plan sponsor agrees to the change in funding method.

A change in valuation date made pursuant to the requirements described above constitutes a change in funding method in determining whether Rev. Proc. 85-29 may be used in future plan years. If the change is made as part of an overall process to conform the plan year to a new calendar taxable year adopted by the employer pursuant to section 806 of TRA '86, the change in valuation date will be timely if all the requirements for change in valuation date specified in Rev. Proc. 85-29 are satisfied by the later of the time for filing the employer's tax return for the year ended December 31, 1987, or [sixty days after the date of publication of this Notice in the Internal Revenue Bulletin] and all the requirements under Rev. Proc. 87-27, 1987-1 C.B. 769, for automatic approval of a change in plan year are satisfied by August 26, 1988 (*See* Announcement 88-97, 1988-26 I.R.B. 47).

Reliance

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Cost-of-Living-Adjustments—Defined Benefit Pension Plans

Notice 89-26[1]

The cost-of-living adjustments applicable to dollar limitations on benefits under qualified defined benefit pension plans and to other provisions affecting such plans are set forth.

Section 415 of the Internal Revenue Code provides for dollar limitations on benefits and contributions under these plans. It also requires that the Commissioner annually adjust these limits for cost-of-living increases. Effective Jan. 1, 1989, the maximum limitation for the annual benefit under section 415(b)(1)(A) for defined benefit plans is increased from $94,023 to $98,064.

The limitation for defined contribution plans under section 415(c)(1)(A) remains at $30,000 for 1989 since the law provides that it shall not be changed until the section 415(b)(1)(A) limit for benefits exceeds $120,000.

The Code provides that various other dollar amounts are to be adjusted at the same time and in the same manner as the dollar limitation of section 415(b)(1)(A) is adjusted. These dollar amounts and the adjusted amounts are as follows:

The special limitation for qualified police or firefighters under section 415(b)(2)(G) is increased from $52,235 to $54,480.

The limitation on the exclusion for effective deferrals under section 402(g)(1) is increased from $7,313 to $7,627.

The dollar amounts under section 409(o)(1)(C)(ii) for lengthening the distribution period of that section for tax credit employee stock ownership plans are increased from $104,470 to $108,960 and from $522,350 to $544,800.

The threshold amount under section 4980A(c)(1) regarding excess distributions is increased from $117,529 to $122,580.

The limitations used in the definition of highly compensated employee under section 414(q) of $75,000 and $50,000 are respectively increased to $81,720 and $54,480.

Because the $200,000 annual compensation limit under section 401(a)(17) and 404(1) of the Code is first effective for this year, such amounts will not be increased until 1990.

The compensation amount under section 408(k)(2)(C) regarding simplified employee pension plans (SEPs) is increased from $313 to $327. However, the compensation amount under section 408(k)(3)(C) is reduced, in accordance with the Technical and Miscellaneous Revenue Act of 1988, from $208,940 to $200,000.

Administrators of benefit or defined contribution plans that have received favorable determination letters should not request new determination letters solely because of yearly amendments to adjust maximum limitations in the plans.

[1]Based on News Release IR-89-10, dated January 26, 1989.

Weighted Average Interest Rate Update

Notice 89-27

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weighted average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
February	1989	8.79	7.91 to 9.66

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Election of Special Treatment for Certain Losses on Deposits in an Insolvent or Bankrupt Financial Institution

Notice 89-28

As a result of recently enacted tax legislation, certain taxpayers may be eligible to elect ordinary loss treatment for reasonably estimated losses on deposits in a qualified insolvent or bankrupt financial institution, the deposits in which are not federally insured. The election is limited to qualified individuals and is effective for taxable years beginning after December 31, 1981, thus providing retroactive relief for certain taxpayers. This notice provides guidance to affected taxpayers, including substantive rules relating to both this ordinary loss election and a related casualty loss election, and procedural rules for electing the special loss treatment.

I. Background

Section 165(l) of the Internal Revenue Code was amended by section 1009(d) of the Technical and Miscellaneous Revenue Act of 1988 ("TAMRA"), Pub. L. No. 100-647, 102 Stat. 3342, to provide, in new section 165(l)(5), an election to treat reasonably estimated losses incurred on deposits in insolvent or bankrupt financial institutions (the deposits in which are not federally insured), as ordinary losses.

An election under section 165(l)(5) of the Code is in lieu of any election under section 165(l)(1). Section 165(l)(1) was added to the Code by section 905(a) of the Tax Reform Act of 1986 ("1986 Act"), Pub. L. No. 99-514, 100 Stat. 2746, to provide an election to treat reasonably estimated losses on deposits in insolvent or bankrupt financial institutions as casualty losses.

Prior to the 1986 Act, individual taxpayers who incurred losses on deposits in a financial institution were generally limited to treatment of the loss as a bad debt under section 166 of the Code in the taxable year in which the loss was sustained. In general, such a loss would be sustained in the year in which the actual amount of nonrecovery could be determined (the "final determination year"). Unless the loss arose in connection with the taxpayer's trade or business, it was generally considered a short-term capital loss. Thus, the 1986 Act, as amended by TAMRA, provides special relief both in terms of timing and character of the loss claimed.

The alternative elections provided in sections 165(l)(1) and 165(l)(5) of the Code apply to amounts that are "reasonably estimated" and therefore apply to taxable years prior to the final determination year. However, the failure of a taxpayer to claim a loss under section 165(l) in the year in which the loss can first be reasonably estimated will not preclude the taxpayer from claiming such loss in a later taxable year that is prior to the final determination year.

II. Eligibility

Before making an election to claim a loss under section 165(l) of the Code (either as a casualty loss or an ordinary loss), a taxpayer must confirm that: (1) the taxpayer is a qualified individual, as defined in section 165(l)(2); and (2) the amount at stake is a deposit (within the meaning of section 165(l)(4)) in a qualified financial institution (as defined in section 165(l)(3)). In addition, a taxpayer who wishes to make the ordinary loss election provided in section 165(l)(5) must determine that no part of the taxpayer's deposits in the financial institution is federally insured. Generally, this requirement will be met only in cases where none of the deposits in the financial institution are federally insured.

In general, a "qualified individual" is an individual who is not: (1) a 1% or more owner of the financial institution; (2) an officer of the financial institution; or (3) a person who is related, within the meaning of section 165(l)(2)(C) or (D), to any such owner or officer.

The term "deposit" means any deposit, withdrawable account, or repurchasable share. The term "qualified financial institution' includes any commercial bank, thrift institution, insured credit union, or similar financial institution chartered and supervised under federal or state law.

III. Determination of amount, character and timing of loss

In the event of insolvency or bankruptcy of a qualified financial institution, a qualified individual must determine the amount of the reasonably estimated loss on deposits in such financial institution. The character of the loss will depend on whether the taxpayer makes an election under section 165(l) of the Code. If an election is made under section 165(l), the reasonably estimated loss is deductible (after all applicable limitations) as an itemized deduction.

An election under section 165(l) of the Code is made for the taxable year in which the amount of the loss can be reasonably estimated. The amount of the loss is determined by the difference between a taxpayer's basis in the deposit and the amount that is reasonably estimated to be recovered. A reasonable estimate might be based, for example, on the percentage of total deposits likely to be recovered by the depositors according to a determination made by the regulatory authority or trustee having responsibility over the institution. If the estimated loss is less than the amount ultimately determined, a taxpayer may claim the difference in the final determination year under section 166.

IV. Retroactivity and consent to revoke previous casualty loss election

Taxpayers should note that, as a result of TAMRA, the casualty loss election provided in section 165(l)(1) is available for taxable years beginning after December 31, 1981. The ordinary loss election provided in section 165(l)(5) is also available for taxable years beginning after December 31, 1981.

Section 1009(d)(4) of TAMRA provides that, notwithstanding a bar on refunds for an earlier taxable year by any other provision of law, a taxpayer may, nevertheless, make an election under either section 165(l)(1) or (5) on or before November 9, 1989.

The Internal Revenue Service is aware that certain taxpayers previously elected to treat estimated losses as casualty losses under section 165(l)(1) of the Code. Under section 165(l)(6), a taxpayer may only revoke an election under section 165(l) with the consent of the Secretary. Based on the broad relief provided through the changes in the law resulting from section 1009(d) of TAMRA, the Secretary has concluded that otherwise eligible taxpayers should be allowed to claim ordinary loss treatment, notwithstanding a previously made casualty loss election. Accordingly, the Secretary hereby consents to a revocation of an election under section 165(l)(1) by a taxpayer provided the taxpayer elects under section 165(l)(5) by November 9, 1989, to treat the reasonably estimated loss as an ordinary loss. For all other cases, in which a taxpayer desires to revoke an election under section 165(l), the taxpayer must request, in writing, the consent of the Secretary setting forth the pertinent facts surrounding the election and the reasons for requesting a revocation.

V. Limitations on amount of loss

There are several limitations that apply to elections under section 165(l) of the Code for reasonably estimated losses with respect to deposits in an insolvent or bankrupt institution.

First, a taxpayer may make only one election with respect to all reasonably estimated losses on deposits in a qualified financial institution for any particular taxable year. Thus, a taxpayer who makes an ordinary loss election under section 165(l)(5) of the Code may not make a casualty loss election under section 165(l)(1) with respect to losses on deposits in the same financial institution. Likewise, a taxpayer who makes a casualty loss election with respect to losses on deposits in a financial institution may not also make an ordinary loss election with respect to losses on deposits in the same financial institution. Any election under section 165(l) precludes the taxpayer from claiming the same loss as a bad debt under section 166.

Second, the ordinary loss treatment allowed under section 165(l)(5) of the Code is limited to $20,000 ($10,000 in the case of a separate return by a married individual) in aggregate losses on deposits in any one financial institution. For this purpose, a taxpayer must aggregate losses with respect to all types of deposits (e.g., separate demand and savings accounts, shares, and certificates) in the same institution for any taxable year in which an election is made under section 165(l)(5). Furthermore, the applicable dollar limit must be reduced by the amount of any insurance proceeds that can reasonably be expected to be received under any state law.

VI. Effect of election on final determination year.

A taxpayer who makes an election under either section 165(l)(1) or (5) of the Code for a taxable year must reduce the taxpayer's basis in the deposits to the extent that a loss is claimed. Thus, any additional loss with respect to the final determination year must be determined by reference to a reduced basis in the deposits.

If a taxpayer claims a loss pursuant to an election under either section 165(l)(1) or (5) of the Code that exceeds the actual loss sustained, the taxpayer will be required to include in income (in the final determination year) the excess loss claimed.

VII. Time and manner of election

Section 5h.5 of the temporary Income Tax Regulations, relating to the time and manner of making certain elections under the 1986 Act, contains rules relating to the casualty loss election(§5h.5(f), 1987-1 C.B. 362). This notice provides superseding procedural rules, as follows in this section VII, for any election made under section 165(l) of the Code. Thus, a taxpayer making an election under section 165(l) makes the election under the procedural rules contained in this notice in lieu of the rules contained in §5h.5(f). In addition, these new time and manner rules for section 165(l) (as well as rules regarding the revocation of an election under section 165(l)) will be included in forthcoming regulations relating to elections under TAMRA.

In general, an election pursuant to section 165(l) of the Code is made by claiming the loss (casualty or ordinary) on the income tax return for the taxable year in which a reasonable estimate of such loss can be made.

In the case of an income tax return for a taxable year with respect to which: (1) no election under section 165(l) of the Code was made; and (2) the period prescribed for filing a claim for refund or credit has not yet expired, the qualified individual may file an amended return (Form 1040X) by the end of the period for filing such claim for the year of loss to claim the loss for that taxable year.

In the case of an income tax return previously filed, with respect to which the claim for refund or credit is barred by another provision of law, the affected taxpayer may, nevertheless, file an amended return (Form 1040X) on or before November 9, 1989, to make the election.

The election should include any information requested in applicable forms and instructions (e.g., Form 4684, Casualties and Thefts). If the pertinent form and its instructions contain no guidance on this election for a particular situation (e.g., certain refund cases), the taxpayer should, on an appropriate line or space: (1) clearly indicate the name of the financial institution; (2) include the following language: "Insolvent Financial Institution Election;" and (3) include the calculation of the reasonably estimated loss claimed.

VIII. Examples of limitations on amounts claimed as a loss

To illustrate the limitations under section 165(l) of the Code, assume individual *A* had $10,000 and individual *B* had $100,000 in aggregate deposits on account in bank *X*, the deposits in which are not federally insured. Assume further that in 1983 the bank became insolvent and the trustee estimated that depositors will eventually recover 65% of the basis in their deposits, although the final determination of that amount has not yet occurred. Finally, assume that *A* filed a claim for refund under section 165(l)(1) during 1987 with respect to 1983, claiming a $3,500 (35 %) casualty loss (before any limitation under section 165(h) and assuming no previous casualty loss claim), and that *B* (who is single) has not filed any claim for refund of any loss.

Under the facts presented, *A* may revoke the prior election under section 165(l)(1) of the Code as provided in section IV of this notice. *A* may elect ordinary loss treatment with respect to the $3,500 for 1983 by filing a properly completed Form 1040X in accordance with section VII of this notice by November 9, 1989. If *A* makes an election under section 165(l), *A* must also reduce the basis in the deposits by $3,500. If the actual loss that is ultimately determined exceeds the estimated loss, then *A* may claim the excess amount as a bad debt under section 166.

B, based on the facts presented, may make an election under section 165(l)(5) of the Code to treat $20,000 of the estimated $35,000 loss (35%) as an ordinary loss incurred in 1983. If *B* so elects, the basis of the deposits is reduced by $20,000. By making an election under section 165(l)(5), B is precluded from claiming a casualty loss under section 165(l)(1) with respect to any losses on deposits in the same institution. Therefore, B may not claim a casualty loss for the remaining $15,000. If the loss actually sustained exceeds $20,000, in the final determination year *B* may claim such excess loss under section 166.

In the alternative, *B* may make an election under section 165
(l)(1) by November 9, 1989, to treat the entire estimated loss of $35,000 as a casualty loss incurred in 1983, subject to the generally applicable limitations of section 165(h).

IX. Administrative pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Gasoline Wholesalers; Credit or Refund under Section 6416

Notice 89-29

This Notice informs taxpayers of an amendment made by section 6102 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647) ("1988 Act") to the gasoline excise tax credit and refund provision under section 6416 of the Internal Revenue Code, and sets forth the procedures the Internal Revenue Service will adopt in regulations implementing this section of the 1988 Act. These procedures will be effective as of October 1, 1988. Section 6102 of the 1988 Act provides that, if certain conditions are met, a gasoline wholesale distributor will be treated as the person who paid the gasoline excise tax for purposes of claiming a credit or refund under section 6416 of the Code.

Section 6416(b)(2) of the Code provides that the person that paid gasoline excise tax to the government under section 4081 may receive a credit or refund of the amount of such tax if the gasoline is, by any person, exported, used or sold for use as supplies for vessels or aircraft, sold to a state or local government for its exclusive use, sold to a nonprofit educational organization for its exclusive use, or used or sold for use in the production of special fuels, ("exempt purposes").

Section 48.6416(a)-3(b) of the Manufacturers and Retailers Excise Tax Regulations conditions this credit or refund upon a showing that the person that paid the tax (1) has not included the tax in the price of the gasoline with respect to which it was imposed and has not collected the amount of the tax from a person that purchased such gasoline; or (2) has repaid or agreed to repay the amount of the tax to the ultimate vendor of the gasoline; or (3) has obtained the written consent of such ultimate vendor to the allowance of the credit or refund. Section 48.6416(b)(2)-3 sets forth the supporting evidence required for obtaining such credit or refund.

Effective for sales of gasoline on or after October 1, 1988, section 6102 of the 1988 Act added section 6416(a)(4) to the Code. Section 6416(a)(4) provides that a wholesale distributor who purchases gasoline tax paid and sells the gasoline directly to its ultimate purchaser is treated as the person (and the only person) who paid the gasoline tax to the government.

Under section 6416(a)(4)(B) of the Code, the term "wholesale distributor" includes any person who sells gasoline to producers, retailers, or to users who purchase in bulk quantities and deliver into bulk storage tanks. For this purpose, the term "producer" includes a refiner, compounder, blender, or wholesale distributor of gasoline, or a dealer selling gasoline exclusively to producers of gasoline. The term "wholesale distributor" does not include any person that is an importer, refiner, compounder, or blender of gasoline, or is a dealer selling gasoline exclusively to producers.

Therefore, if a wholesale distributor (1) purchases gasoline at a price that includes the tax, (2) sells such gasoline after September 30, 1988, directly to the ultimate purchaser for an exempt purpose (with an exporter treated as the ultimate purchaser in the case of exported gasoline), and (3) meets the other requirements of section 6416 of the Code and this Notice, then the wholesale distributor is treated as the person who paid the tax to the government and is the only person eligible to claim a credit or refund under section 6416. In such a case the person that actually paid the tax on the gasoline is not eligible to claim the credit or refund. However, if the tax is not included in the price of the gasoline purchased by the wholesale distributor, or the gasoline is not sold directly to the ultimate purchaser by the wholesale distributor, then only the person who actually paid the tax to the government may file a claim under section 6416.

Regulations will provide that, for purposes of section 6416(a)(4) of the Code, a sale charged on an oil company credit card issued to an exempt person is not considered a direct sale by the wholesale distributor to the ultimate purchaser (assuming that the wholesale distributor receives a reimbursement from the oil company with respect to such sale that is based on a price that includes the tax). Thus, the person who actually paid the tax is treated as the taxpayer eligible to claim a credit or refund for such sale.

Regulations will provide that, in order to qualify as a wholesale distributor for purposes of eligibility to claim a credit or refund under section 6416 of the Code, a person must (1) hold itself out to the public as being engaged in the trade or business of selling gasoline to producers of gasoline (including wholesale distributors), to retailers, or to users of gasoline who purchase in bulk quantities and accept delivery into bulk storage tanks; and (2) actually make more than casual sales of gasoline to the producers, retailers, or users described in (1). For purposes of determining whether a person meets this definition of wholesale distributor, a bulk storage tank is any tank that is not the fuel supply tank of an aircraft, train, vehicle, or vessel. Delivery into a bulk storage tank may be made by means of a "cardlock system" at an unattended location.

In order for the wholesale distributor to obtain a credit or refund under section 6416 of the Code for gasoline sold to an ultimate purchaser after September 30, 1988, the wholesale distributor must (1) submit a statement that it sold the gasoline at a price that did not include the tax, and did not otherwise collect the amount of the tax from a purchaser, and (2) obtain a certificate of ultimate purchaser as described in section 48.6416(b)(2)-3(b) of the Regulations. However, any wholesale distributor that provides a Statement of Ultimate Vendor, or transmits a certificate of ultimate purchaser, as described in section 48.6416(b)(2)-3(b), to its vendor, if such Statement or certificate is executed on or before March 31, 1989, for any sale of gasoline to which this amendment applies, is not treated as the taxpayer for such sale. If the wholesale distributor provides a Statement of Ultimate Vendor, or transmits a certificate of ultimate purchaser, to its vendor, then the person that actually paid the tax on gasoline for sales covered by such Statement or certificate is the person eligible to claim the credit or refund of such tax. Any wholesale distributor that is eligible to claim a credit or refund under section 6416 of the Code may not provide a Statement of Ultimate Vendor, or transmit a certificate of ultimate purchaser, to its vendor if such Statement or certificate is executed on or after April 1, 1989.

A claim for credit, up to the amount of the wholesale distributor's excise tax liability for the quarter (including, for example, liability for tax on sales of diesel fuel), is made on Form 720 ("*Quarterly Federal Excise Tax Return*"), Line 2. A claim for refund is made on Form 843 ("*Claim*"). Each claim for refund of gasoline excise tax imposed on any gasoline sold for an exempt purpose generally must be filed within three years of the date the excise tax return was filed by the person that actually paid the tax. A claim for credit or refund must be accompanied by the required supporting documents described in section 48.6416(b)(2)-3(a) of the Regulations and must include a statement that sets forth the basis for the claimant's eligibility to claim a credit or refund under section 6416 of the Code as a gasoline wholesale distributor.

A claim for credit or refund under section 6416 of the Code by the person that paid (or that is treated under this Notice as having paid) the tax to the government is an alternative to a claim for credit or refund under section 6421 by the ultimate purchaser. For any particular transaction, a claim may be filed under only one of these two sections. As provided in Notice 88-13, 1988-1 C.B. 481, the regulations under section 6416 as they relate to the gasoline excise tax will be amended to provide that the person that paid (or that is treated under this Notice as having paid) the tax to the government may not claim a credit or refund unless it has received from the ultimate purchaser a certification that the ultimate purchaser has not and will not claim a credit or refund under section 6421.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Amendments to Temporary Income Tax Regulations Under Section 367(b) of the Code

Notice 89-30

Concurrently with this Notice, section 7367(b)-9 of the temporary Income Tax Regulations is being amended to provide that a foreign corporation will not succeed to the earnings and profits or deficit in earnings and profits of another foreign corporation except to the extent provided in section 381(a) of the Internal Revenue Code of 1986 and the regulations under that section if the stock of the first corporation is received in an exchange subject to section 7.367(b)-9 of the temporary regulations, and a U.S shareholder described in section 7.367(b)-7 (b) or section 367(b)-8(c)(1) owns (applying the attribution rules of section 958 of the Code) more than 50 percent of either the total voting power or the total value of the stock of both the corporation whose stock is received in the exchange and the corporation whose stock is exchanged. The amendment is effective on or after the date it is filed with the Federal Register.

Since under the above amendment to the temporary regulations, the foreign corporation whose stock is received in the exchange will only succeed to the earnings and profits or deficit in earnings and profits of the acquired corporation and of lower-tier subsidiaries of the acquired corporation as provided in section 381(a) of the Code and the regulations thereunder, post exchange distributions of earnings and profits and sales of stock may in some circumstances result in double counting of section 1248 earnings. Regulations which will finalize the temporary regulations under section 367(b) will be issued to prevent this double counting of earnings and profits. The regulations with regard to this issue, when finalized, will be retroactive to the effective date of the above amendment.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Interest Rate for Pension Plan Funding

Notice 89-31

This notice provides guidance as to the reasonable interest rate within the permissible range that is to be used for purposes of determining the current liability component of the full funding limitation for plan years commencing after December 31, 1987, and prior to January 1, 1989.

Background

Section 412(c)(7) of the Internal Revenue Code, as amended by section 9301 of the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) provides that the full funding limitation of a pension plan for a plan year is the excess (if any) of (i) the lesser of (I) 150 percent of current liability, or (II) the accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan) over (ii) the lesser of (I) the fair market value of the plan's assets, or (II) the value of such assets determined under paragraph (2) of section 412(c).

Section 404(a)(1)(A) of the Code provides that the amount deductible with respect to a defined benefit pension plan may not exceed the full funding limitation of section 412 of the Code. Therefore, the changes made by section 9301 of OBRA 87, limit the maximum deductible amount with respect to plan years beginning after December 31, 1987, to the amount needed, if any, to increase the plan's assets to the lesser of 150 percent of current liability or the accrued liability under the plan.

Section 412(b)(5) of the Code, as amended by section 9307 of OBRA 87, provides that in determining current liability the interest rate to be used shall be within the permissible range which is not more than 10 percent above and not more than 10 percent below the weighted average of the 30-year Treasury securities and shall be consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under the plan.

Notice 88-73, 1988-2 C.B. 383, sets forth the methodology used to determine the permissible range. Also, Notice 88-73 provided the permissible range for plan years commencing in January and February 1988. Subsequent notices have provided the permissible range for plan years commencing during subsequent months of 1988. These notices did not provide guidance as to what rate within the permissible range is to be used to in determining the current liability of any plan.

Interest Rate

For plan years commencing after December 31, 1987, and prior to January 1, 1989, the interest rate within the permissible range that is to be used to determine current liability must be any interest rate that (1) is not less than the greater of (a) the interest rate that is 90 percent of the weighted average of 30-year Treasury securities (i.e. the lower end of the permissible range) and (b) 8 percent, and (2) is not greater than 110 percent of the weighted average of 30-year Treasury securities (i.e. the upper end of the permissible range). The interest rates specified in the previous sentence are deemed to be consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under a plan upon plan termination for the plan years commencing prior to January 1, 1989. No interest rate other than those specified in this notice may be used to compute current liability.

Examples

Example 1 The plan year of defined benefit plan *A* is the calendar year. For the 1988 calendar year, the permissible range is 8.25 percent to 10.09 percent. Accordingly, under this notice, the interest rate used to determine current liability must be any interest rate from 8.25 percent to 10.09 percent. No interest rate less than 8.25 percent (e.g. 8.00 percent or 8.24 percent) may be used and no interest rate greater than 10.09 percent (e.g. 10.10 percent or 10.25 percent) may be used.

Example 2 - The plan year of defined benefit plan *B* begins on October 1 of one calendar year and ends on September 30 of the following calendar year. For the plan year beginning October 1, 1988, the permissible range is 7.97 percent to 9.75 percent. Accordingly, under this notice, the interest rate used to determine current liability must be an interest rate from 8.00 percent to 9.75 percent. No interest rate less than 8.00 percent (e.g. 7.99 percent) may be used and no interest rate greater than 9.75 percent (e.g. 9.76 percent) may be used.

Administrative Pronouncement

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Employee Plans—Corrective Distributions

Notice 89-32

PURPOSE AND SCOPE

This Notice describes the reporting requirements of the Internal Revenue Code of 1986 (''Code'') for corrective distributions of excess deferrals under section 402(g), excess contributions under section 401(k), and excess aggregate contributions under 401(m). It applies to qualified plans described in section 401(a), section 401(k) cash or deferred arrangements, annuity plans described in section 403(a), section 403(b) salary reduction agreements, and salary reduction simplified employee pensions described in section 408(k)(6).

Notice 87-77, 1987-2 C.B. 385, and Notice 88-33, 1988-1 C..B. 513, summarize the reporting requirements for 1988 corrective distributions of excess amounts includible in gross income in 1987. Generally, those excess amounts, adjusted for any gains and losses (''income'') allocable to those amounts, are reported on Form W-2P (or, in rare circumstances, Form 1099-R) for 1988, the year in which the distribution was made. However, the 1988 Form W-2P (or Form 1099-R) should contain the distribution code ''P'' to indicate that the amounts (and income) are includible in gross income in the prior year, 1987.

The Technical and Miscellaneous Revenue Act of 1988, P.L. 100-647 (TAMRA), retroactively amended sections 402(g)(2) and 4979(f)(2) of the Code, which prescribe when excess deferrals, excess contributions and excess aggregate contributions (and the income allocable to such amounts) are includible in gross income. This Notice describes the effects of the TAMRA amendments on the corrective distribution reporting procedures of Notices 87-77 and 88-33.

TAMRA AMENDMENTS

Section 1011(c)(1)(B) of TAMRA retroactively amends section 402(g)(2)(C)(ii) of the Code, which governs the tax treatment of income allocable to excess deferrals. Effective for taxable years after 1986, the income allocable to a corrective distribution of an excess deferral shall be treated as earned and received in the year of distribution, rather than in the year of deferral. The principal amount of the excess deferral is still includible in gross income in the year of deferral. The transition rules applicable to this provision are described below in "EXCESS DEFERRALS."

Section 1011(1)(11) of TAMRA retroactively amends section 4979(f)(2) of the Code, by adding new subparagraph (B) for de minimis distributions of excess contributions and excess aggregate contributions, effective for plan years after 1986. Under this rule, certain corrective distributions of de minimis amounts (less than $100) of excess contributions and excess aggregate contributions (but not excess deferrals) are includible in gross income in the year distributed rather than in the year deferred. The conditions under which this de minimis rule applies are described below in "EXCESS CONTRIBUTIONS AND EXCESS AGGREGATE CONTRIBUTIONS."

REPORTING REQUIREMENTS

For corrective distributions in 1989 (and subsequent years until further guidance is issued), the reporting requirements in Notices 87-77 and 88-33 continue to apply, except as specifically modified by this Notice. Recipients of corrective distributions who may choose any alternative tax treatment permitted in this Notice may do so regardless of the treatment chosen by the plan administrator or payor for reporting purposes.

EXCESS DEFERRALS

Before TAMRA, both an excess deferral and any income allocable to the excess deferral were includible in gross income in the year of deferral, if they were distributed in a corrective distribution. After TAMRA, the income allocable to the excess deferral is includible in gross income in the year of the corrective distribution. TAMRA did not change the tax treatment of the principal amount of the excess deferral, which remains includible in gross income in the year of deferral.

In reliance on Notices 87-77 and 88-33, many plan administrators, payors, and recipients reported the income allocable to excess deferrals for 1987 (distributed timely in 1988) as income for 1987. Furthermore, many plan administrators and payors have applied the principles of those Notices to excess deferrals for 1988, notifying the recipient that the income on the excess deferrals (distributed timely in 1989) is includible in gross income for 1988. In such a case, the Service will consider the plan administrator or payor to have satisfied the reporting requirements of Notice 87-77 and Notice 88-33, provided that the excess deferral is distributed timely on or before April 17, 1989. Moreover, the income on such an excess deferral may be reported by the recipient, at his or her option, as income for either the year of distribution (TAMRA rule) or the year of deferral (pre-TAMRA rule), even if the plan administrator or payor has reported it as income for a different year.

For excess deferrals distributed after April 17, 1989, the pre-TAMRA rule may not be used. Thus, income on an excess deferral distributed in a corrective distribution after April 17, 1989, should be included in gross income only in the year of distribution.

Corrective Distributions of Excess Deferrals

If a corrective distribution of excess deferrals and income is made timely in the year after the year of the deferral, and the TAMRA rule is used to treat the income on the excess deferral as income for the year of distribution, two separate Forms W-2P must be filed for the year of distribution. The portion of the distribution representing the excess deferral (unadjusted for income) is reported in both the gross distribution box and the taxable amount box on one Form W-2P, and the appropriate distribution code (code "P" for the taxable year before the distribution year) is specified in the code box. The portion of the distribution representing the income on the excess deferral is reported in both the gross distribution box and the taxable amount box on a second Form W-2P, and a current year distribution code (code "8") is specified in the code box. If income on the excess deferral is negative (due to net losses), the reporting procedures described below under "*Loss on Excess Deferral*" should be followed.

If the corrective distribution is made in the same taxable year as the excess deferral, or if the pre-TAMRA rule is used to treat the income on an excess deferral for 1987 or 1988 as income for the year of deferral, only one Form W-2P (or, if applicable, Form 1099-R) must be filed as provided in Notice 87-77. The excess deferral (adjusted for income on the excess deferral) must be reported in both the gross distribution box and the taxable amount box on the Form W-2P (or Form 1099-R) for the year of the distribution and the appropriate distribution code must be specified.

Loss on Excess Deferral

If income allocable to an excess deferral is negative (as a result of allocation of losses to the excess deferral), Notice 88-33 permits the loss to be reported as a bracketed amount on the Other Income line, Form 1040. The full amount of the excess deferral (without reduction for the loss) is reported on Line 7, Wages, Salaries, Tips, Etc., of the Form 1040.

Prior to TAMRA, both amounts were reported on the Form 1040 for the year in which the elective deferral was made. After TAMRA, the income (whether positive or negative) allocable to the excess deferral is reportable in gross income for the year in which the corrective distribution is made. However, for corrective distributions of excess deferrals on or before April 17, 1989, recipients may report the loss on the Other Income line, Form 1040, either for the year of the deferral or for the year of the distribution.

For corrective distributions of excess deferrals after April 17, 1989, the recipient may not report the loss on the Form 1040 for the year of the deferral, unless the corrective distribution occurs in the same year. Thus, if the corrective distribution of an excess deferral is made in the year after the year of deferral, and a net loss has been allocated to the excess deferral, the loss is reported on the Other Income line, Form 1040, for the year in which the corrective distribution occurs, though the excess deferral (unadjusted for the loss) is reported on Line 7, Form 1040, for the year of the deferral. Since the corrective distribution amount cannot exceed the excess deferral adjusted for the loss, filers of Form W-2P should report the corrective distribution amount in both the gross distribution box and taxable amount box on Form W-2P for the year of the distribution, and the distribution code for the year in which the excess deferral is included in gross income should be specified. Filers of Form W-2P should provide the participant with a separate statement that an excess deferral, unadjusted for loss, is reportable on Line 7, Form 1040, for the year of deferral, and that the loss may be reported as a bracketed amount on the Other Income line, Form 1040, for the appropriate year (either the deferral year or the distribution year for corrective distributions on or before April 17, 1989; only the distribution year for corrective distributions after April 17, 1989).

Reporting Total Elective Deferrals on Form W-2

Instructions for Box 16 of the 1988 Form W-2, Wage and Tax Statement, require the filer to include in Box 16 the amount of elective deferrals made by an employee during 1988. This amount should be the total elective deferrals (including excess deferrals unadjusted for income) of the employee under the plan for the year. No portion of the elective deferrals (whether or not excess deferrals were made) should be reported as wages in Box 10 of Form W-2.

For example, Employee Smith receives an annual salary of $50,000. For 1988, he makes elective deferrals to a 401(k) plan totalling $8,313, reducing his salary to $41,687. His excess deferral to the plan for 1988 is $1,000 ($8,313 minus $7,313, the 1988 dollar limit). Mr. Smith's 1988 Form W-2 should reflect $41,687 in wages in Box 10, and $8,313 in elective deferrals in Box 16. Though the $41,687 wage amount, the $1,000 excess deferral, and any income on the excess deferral (to the extent includible in income in 1988) must be combined and reported as wages on Line 7 of Mr. Smith's 1988 Form 1040, Individual Income Tax Return, such amounts should not be combined in Box 10 of his 1988 Form W-2.

EXCESS CONTRIBUTIONS AND EXCESS AGGREGATE CONTRIBUTIONS

Before TAMRA, excess contributions and excess aggregate contributions (and allocable income) distributed within 2½ months after the close of the plan year were includible in the gross income of the employee in the earliest taxable year for which the employee could have received those contributions in cash. Under the TAMRA de minimis rule, if the principal amount of excess contributions and excess aggregate contributions under a plan for a plan year total less than $100, and are distributed to a recipient in a corrective distribution within 2½- months after the close of the plan year, the excess amounts (adjusted for any income on those amounts) are includible in gross income for the recipient's taxable year in which the corrective distribution is made.

This de minimis rule is retroactively effective for plan years after 1986. However, many plan administrators, payors, and recipients have relied on Notices 87-77 and 88-33 to treat deminimis amounts of excess contributions and excess aggregate contributions (adjusted for income) for 1987 or 1988 as includible in gross income for the year of the elective contribution, instead of the year of the corrective distribution. In such a case, the Service will consider the plan administrator or payor to have satisfied the reporting requirements of Notice 87-77 and 88-33, provided that the corrective de minimis distribution of excess contributions and excess aggregate contributions is made within 2½ months after the close of the plan year, but not later than April 17, 1989. Moreover, in such a case, the recipient may report the corrective de minimis distribution in gross income for either the year of distribution (TAMRA rule) or the year for which the contribution is made (pre-TAMRA rule), even if the plan administrator or payor has reported it as income for a different year.

If the pre-TAMRA rule is used, the procedures specified in Notice 87-77 for excess contributions and excess aggregate contributions should be followed even for amounts under $100. If the TAMRA rule is used, the de minimis total of excess contributions and excess aggregate contributions (adjusted for income) should be reported in the gross distribution box and the taxable amount box on Form W-2P for the year of the distribution, and the current year distribution code should be specified.

The pre-TAMRA rules may not be used for excess contributions and excess aggregate contributions distributed after April 17, 1989. Thus, a corrective de minimis distribution made after April 17, 1989, but within 2½ months after the close of the plan year must be included in gross income in the distribution year.

CORRECTIVE DISTRIBUTIONS IN SECOND YEAR AFTER ELECTION

For plan years commencing after October 15 and before January 1, a corrective distribution might be made timely in the second calendar year following the year in which it is includible in gross income. For example, a corrective distribution on February 15, 1989, from a plan with a plan year commencing December 1, 1987, is generally includible in the recipient's gross income in calendar year 1987. This distribution is reportable on the 1989 Form W-2P; new distribution code "D" for 1989 indicates that the amounts are includible in gross income for 1987.

RECHARACTERIZED EXCESS CONTRIBUTIONS

To the extent that regulations permit, excess contributions (but not excess deferrals or excess aggregate contributions) may be recharacterized as employee contributions instead of being distributed in a corrective distribution. The employer or plan administrator must promptly notify the employees to whom the excess contributions are attributable that the excess amounts are being recharacterized and must inform them of the tax consequences of the recharacterization. The date of the recharacterization is the date on which the last affected employee is notified. If notification is provided by the plan administrator, the plan administrator must inform the employer of the date of the recharacterization not later than 30 days after such date.

Recharacterized excess contributions must be reported on the Form W-2P for the taxable year of the recipient in which a corrective distribution would have occurred but for the recharacterization. The appropriate distribution code must be specified to identify the year for which the recharacterized amounts are included in gross income. In the event of recharacterization, no income is allocated to the excess contributions.

SEPARATE FORM 1099-R FOR CORRECTIVE DISTRIBUTION

Notices 87-77 and 88-33 and Form 1099-R instructions contemplate that Form 1099-R, instead of Form W-2P, may be used to report a corrective distribution if a total distribution of the employee's account is made in the same year. Since no portion of a corrective distribution is subject to lump-sum or rollover treatment, two Forms 1099-R should be used. One Form 1099-R should be used for the corrective distribution and another should be used for the balance of the total distribution.

If a recipient has rolled over a corrective distribution to an individual retirement arrangement (IRA), the amount should be withdrawn from the IRA under sections 408(d)(4) or 408(d)(5) of the Code to avoid adverse tax consequences. For more information, see Publication 590, Individual Retirement Arrangements (IRAs).

FORM 1040

Excess deferrals, excess contributions, and excess aggregate contributions are treated as wages for income tax purposes, but not for withholding purposes. Thus, any excess deferrals, excess contributions, and excess aggregate contributions must be combined with the recipient's wage income and reported on Line 7, Form 1040, for the recipient's appropriate taxable year, though not included in the wages box (Box 10) on Form W-2.

Income allocable to excess deferrals, excess contributions, and excess aggregate contributions is generally not treated as wages for income tax or withholding purposes. However, many recipients of corrective distributions will be unable to distinguish the income distributed from the excess distributed. Therefore, the recipient should report income (except for losses on excess deferrals), as well as the excess, on Line 7, Form 1040, for the appropriate taxable year, whether or not the amount of the income can be separately identified. Losses on excess deferrals are reported as a bracketed amount on the Other Income line, Form 1040, for the appropriate taxable year.

RELIANCE

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or a revenue procedure.

Guidance to Taxpayers Concerning the Retroactive Extension and Amendment of Educational Assistance Prorams Under Section 127 of the Internal Revenue Code of 1986

Notice 89-33

This notice provides guidance regarding the proper tax treatment of educational assistance received by employees in 1988 under section 127, 117 or 132 of the Internal Revenue Code of 1986, as amended by the Technical and Miscellaneous Revenue Act of 1988, Pub. L. 100-647 (Act).

EMPLOYER-PROVIDED EDUCATION

Section 4001 of the Act retroactively restores for an employee's first taxable year beginning after December 31, 1987, the exclusion from gross income for up to $5,250 of educational assistance provided under an educational assistance program described in section 127 of the Code. The section 127 exclusion for such educational assistance is not available for taxable years beginning after December 31, 1988. In addition, section 4001 of the Act retroactively amends the definition of ''educational assistance'' to provide that for years beginning after 1987 such term does not apply to graduate level courses. Specifically, the exclusion does not apply to any payment for, or the provision of any benefits with respect to, any course taken by an employee who has a bachelor's degree or is receiving credit toward a more advanced degree, if the particular course can be taken for credit by any individual in a program leading to a law, business, medical, or other advanced academic or professional degree. Section 127(c)(1).

As a result of these changes and due to administrative considerations for facilitating the filing of income tax returns, for calendar year 1988, the following special rules will apply to educational assistance of a type defined in section 127(c), as in effect on December 31, 1987, provided under educational assistance programs as defined in section 127, as in effect on December 31, 1987. To the extent the amount of any employment-related education, described in section 1.162-5(a) of the Treasury Regulations (relating generally to deductible educational expenses), is included in an employee's income on Form W-2, Wage and Tax Statement, the employee may deduct such amount from gross income in computing adjusted gross income. Employees should file Form 1040 and attach Form 2106, Employee Business Expenses. The amount of such educational assistance included in the employee's wages on Form W-2 should be entered on line 4 of Form 2106. This amount is not subject to Federal employment taxes, including income tax withholding, and employers should correct any underpayment or overpayment pursuant to the instructions provided in Circular E (Employers Tax Guide).

For taxable years beginning after December 31, 1987, any tuition reduction received by a graduate student engaged in teaching or research activities is not included in the graduate student's gross income, subject to the limitation provided in section 117(c), if the tuition reduction meets the requirements of section 117(d), as amended by section 4001 of the Act.

Educational assistance that is not excludible under section 117, section 127, or section 132 and that is not employment related education, as described in section 1.162-5(a), is includible in gross income and subject to Federal income tax and employment taxes. If amounts that are properly excludible under section 117, section 127, or section 132 are erroneously included in the employee's gross income on Form W-2, the employee may deduct such amount in computing adjusted gross income using Form 2106 in the manner described above.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Income Derived by Indians From Exercise of Fishing Rights

Notice 89-34

The purpose of this notice is to inform affected taxpayers that section 7873 of the Internal Revenue Code, added by section 3041 of the Technical and Miscellaneous Revenue Act of 1988 (the Act), Pub. L. No. 100-647, 102 Stat. 3342, exempts from federal income and employment taxes certain income derived by Indians from the exercise of their recognized tribal fishing rights. Under section 3042 of the Act, such income is also exempt from state and local taxation.

Section 7873 of the Code generally exempts from federal taxes income derived by an individual member of an Indian tribe, or by a ''qualified Indian entity'' of a tribe, from a ''fishing rights-related activity'' of the tribe, as these terms are defined below.

In general, a business entity is a qualified Indian entity of a tribe if it is (1) engaged in a fishing rights-related activity of the tribe, (2) 100% owned by one or more qualified Indian tribes, their members, or the spouses of members, and (3) managed by members of such tribes. If an entity is engaged in substantial processing or transporting of fish, it generally is not considered a qualified Indian entity unless 90 percent or more of its annual gross receipts are derived from fishing rights-related activities of one or more qualified Indian tribes each of which owns at least 10 percent of the equity interests in the entity. (For this purpose, ownership by members of a tribe and their spouses is treated as ownership by that tribe.)

An Indian tribe is a qualified Indian tribe with respect to an entity if the entity is engaged in a fishing rights-related activity of the tribe.

A fishing rights-related activity of an Indian tribe is any activity directly related to harvesting, processing, or transporting fish harvested in the exercise of a recognized fishing right of such tribe, or to selling such fish, if substantially all the harvesting was performed by members of such tribe.

Recognized fishing rights of an Indian tribe are fishing rights secured as of March 17, 1988, by a treaty, an executive order, or an Act of Congress.

In the case of a member of an Indian tribe having recognized fishing rights, income earned by that individual from a fishing rights-related activity of the tribe, either directly or through a qualified Indian entity, is exempt from both federal income tax and federal self-employment (SECA) tax. Any distribution with respect to an equity interest in a qualified Indian entity of an Indian tribe to a member of the tribe is treated as derived by the member from a fishing rights-related activity of the tribe, and thus is exempt from these taxes, to the extent the distribution is attributable to income derived by the entity from a fishing rights-related activity of the tribe. Income earned by a corporation, partnership, or other business entity from a fishing rights-related activity of a tribe also is exempt from federal income tax if the entity constitutes a qualified Indian entity of the tribe.

Wages paid to a member of a tribe employed by another member of the same tribe, or by a qualified Indian entity, for services performed in a fishing rights-related activity of the employee's tribe are exempt not only from federal income tax, but also from both the employer's and employee's share of social security (FICA) tax, and from unemployment compensation (FUTA) tax. Wages are not exempt from such taxes if paid by an employer who is not either a member of the same tribe or a qualified Indian entity, or if paid to an employee who is not a member of the tribe whose fishing rights are exercised.

The provisions of new section 7873 of the Code apply to all taxable periods beginning before, on, or after the date of enactment. Thus, all taxes with respect to which the period of limitations has not expired may be subject to claims for refund. In addition, the Internal Revenue Service will not collect any tax, penalty, or addition to tax, regardless of whether the period of limitations for assessing the underlying deficiency has expired, if the underlying deficiency is attributable to income that is exempt from tax under section 7873.

To recover income taxes or SECA taxes paid on fishing income that is now exempt, individual taxpayers should file Form 1040X, Amended U.S. Individual Income Tax Return. To recover income tax overpayments, corporations should file Form 1120X, Amended U.S. Corporation Income Tax Return. To obtain a refund of the employee and the employer portions of FICA taxes paid or withheld on remuneration to employees from fishing rights-related activities, the employer should obtain the employees' written consent to pursue such a refund and file Form 941c, Statement to Correct Information Previously Reported on the Employer's Federal Tax Return, and Form 843, Claim. Instead of filing for a refund, the employer may take an adjustment in the current quarter for the amount of overpaid FICA taxes by filing Form 941, Employer's Quarterly Federal Tax Return, and Form 941c. Regardless of whether the employer is taking an adjustment or pursuing a refund, the employer should file Form W-2c, Statement of Corrected Income and Tax Amounts, and Form W-3c, Transmittal of Corrected Income and Tax Statements, to correct wage information that was previously reported. If the employee does not consent to his or her employer's pursuit of a refund of FICA taxes on his or her behalf, such employee should individually file a refund claim using Form 843, and the employer's claim for refund or adjustment should cover only the employer's portion of the FICA tax.

To obtain a refund of the overpaid FUTA taxes, the employer should file Form 843. If the overpayment is in the current year, when filing Form 940, Employer's Annual Federal Unemployment (FUTA) Tax Return, for such year, the employer may apply the overpayment to the next year's return or request a refund.

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Allocation of Interest Expense in Connection with Passthrough Entities and Modification of 15-day Rules in Section 1.163-8T (Extension of Guidance in Notice 88-20)

Notice 89-35

I. PURPOSE

This notice provides guidance with respect to the allocation of interest expense in connection with certain transactions involving partnerships and S corporations (''passthrough entities'') and the allocation of interest expense on debt proceeds received in cash or deposited in an account.

II. BACKGROUND

Section 1.163-8T of the Income Tax Regulations (T.D. 8145, 52 FR 24,996) provides rules for allocating interest expense for purposes of applying the passive activity loss limitation in section 469 of the Code, the investment interest limitation in section 163(d), and the personal interest limitation in section 163(h). The regulation provides that debt generally is allocated by tracing disbursements of the debt proceeds to specific expenditures and that interest expense on such debt is allocated in the same manner as the debt to which such interest expense relates. Section 1.163-8T does not address the treatment of debt allocated to expenditures for interests in passthrough entities and debt of passthrough entities allocated to distributions by such entities. For purposes of this notice, the term ''expenditure'' has the same meaning as when used in section 1.163-8T.

Notice 88-20, 1988-1 C.B. 487, provides guidance on the allocation of interest expense in connection with (a) debt-financed contributions to the capital of, and purchases of interests in, passthrough entities (''debt-financed acquisitions'') and (b) debt-financed distributions by passthrough entities to owners of such entities (''debt-financed distributions''), for taxable years ending on or before December 31, 1987. Notice 88-20 also modifies certain rules for tracing debt proceeds received in cash or deposited in an account on or before December 31, 1987. Notice 88-37, 1988-1 C.B. 522, provides guidance on the reporting of interest expense with respect to debt-financed acquisitions and debt-financed distributions for taxable years beginning after December 31, 1986.

This notice expands the guidance provided in Notice 88-20 and Notice 88-37.

III. EFFECTIVE DATES

In the case of debt-financed acquisitions, owners of passthrough entities may rely on the guidance provided in this notice for taxable years of such owners ending after December 31, 1987, and on or before the date on which further guidance is published. In the case of debt-financed distributions, taxpayers may rely on the guidance provided in this notice for taxable years of passthrough entities ending after December 31, 1987, and on or before the date on which further guidance is published.

The Internal Revenue Service intends to issue regulations concerning the allocation of interest expense in connection with debt-financed acquisitions and debt-financed distributions. For taxable years ending after the date on which such regulations are issued, the regulations may require the allocation of interest expense in connection with such transactions in a manner different from that provided in Notice 88-20 or this notice, without regard to when the debt was incurred.

The Service recognizes that the flexible rules provided in this notice regarding the allocation of interest expense in connection with passthrough entities could allow taxpayers to use passthrough entities to avoid or circumvent the interest allocation rules of section 1.163-8T. Accordingly, the regulations concerning the allocation of interest expense in connection with passthrough entities will provide that, for taxable years beginning on or after January 1, 1989, the special rules described in this notice will not apply in any case in which a passthrough entity is formed or availed of by a taxpayer with a principal purpose of avoiding or circumventing the rules of section 1.163-8T. In such a case, interest expense incurred in connection with a passthrough entity shall be allocated among the expenditures of the taxpayer and the passthrough entity in a manner that reflects the way in which such interest expense would have been allocated among such expenditures under section 1.163-8T if the passthrough entity had not been formed or availed of to avoid or circumvent the rules of that section.

In the case of expenditures made from debt proceeds received in cash or deposited in an account, taxpayers may rely on the guidance provided in this notice with respect to debt proceeds received in cash or deposited in an account after December 31, 1987, and on or before the date on which further guidance is published.

IV. TREATMENT OF DEBT OF OWNERS OF PASSTHROUGH ENTITIES ALLOCATED TO EXPENDITURES FOR CONTRIBUTIONS TO OR PURCHASES OF INTERESTS IN SUCH ENTITIES (DEBT-FINANCED ACQUISITIONS)

A. *Allocation Rules*

In the case of debt proceeds allocated under section 1.163-8T to the purchase of an interest in a passthrough entity (other than by way of a contribution to the capital of the entity), the debt proceeds and the associated interest expense shall be allocated among all the assets of the entity using any reasonable method. Reasonable methods of allocating debt among the assets of a passthrough entity ordinarily include a pro-rata allocation based on the fair market value, book value, or adjusted basis of the assets, reduced by any debt of the passthrough entity or the owner allocated to such assets.

Interest expense on debt proceeds allocated under section 1.163-8T to a contribution to the capital of a passthrough entity shall be allocated using any reasonable method. Reasonable methods for this purpose ordinarily include allocating the debt among all the assets of the entity or tracing the debt proceeds to the expenditures of the entity under the rules of section 1.163-8T as if the contributed debt proceeds were the proceeds of a debt incurred by the entity. For purposes of this notice, a purchase of an interest in a passthrough entity shall be treated as a contribution to the capital of the entity if and to the extent that the entity receives proceeds from the purchase.

For purposes of this notice, the determination of whether a particular method of allocating debt proceeds used to purchase an interest in or to make a capital contribution to a passthrough entity is reasonable depends on the facts and circumstances including, without limitation, whether the taxpayer consistently applies the method from year to year.

In general, to the extent that debt proceeds are allocated under this section IV among the assets of a passthrough entity, such proceeds shall be reallocated among the assets of the entity as the assets of such entity, or the use of such assets, changes. In general, to the extent that debt proceeds are allocated under this section IV by tracing the debt proceeds to the expenditures of the entity under the rules of section 1.163-8T, the debt proceeds shall be reallocated, when necessary, under the rules of section 1.163-8T.

B. *Reporting Rules*

Individuals should report allowable interest expense paid or incurred in connection with debt-financed acquisitions on either Schedule E or Schedule A of Form 1040, depending on the type of expenditure to which the interest expense is allocated. Subject to any applicable changes in the underlying forms and schedules (or their instructions), specific instructions contained in Notice 88-37 should be followed for (a) interest expense allocated to trade or business expenditures, (b) interest expense allocated to passive activity expenditures, (c) interest expense allocated to investment expenditures, and (d) interest expense allocated to personal expenditures.

Taxpayers other than individuals should report interest expense on debt-financed acquisitions on the line for interest expense on their returns, in accordance with section IV.B. of Notice 88-37.

V. TREATMENT OF DEBT OF PASSTHROUGH ENTITIES ALLOCATED TO DISTRIBUTIONS BY SUCH ENTITIES (DEBT-FINANCED DISTRIBUTIONS)

A. *General Allocation Rule*

Unless the optional allocation rule is used, debt of passthrough entities and the associated interest expense shall be allocated under the rules of section 1.163-8T. In general, when debt proceeds of a passthrough entity are allocated under section 1.163-8T to distributions to owners of the entity, the debt proceeds distributed to any owner and the associated interest expense shall be allocated under section 1.163-8T in accordance with such owner's use of such debt proceeds. For example, if the owner uses distributed debt proceeds to purchase an interest in a passive activity, the owner's share of the interest expense on such debt proceeds is allocated to a passive activity expenditure (within the meaning of section 1.163-8T(b)(4)).

An owner's share of a passthrough entity's interest expense on debt proceeds allocated to distributions to owners may exceed the entity's interest expense on the portion of the debt proceeds distributed to that particular owner. In such cases, the entity shall allocate the owner's excess interest expense using any reasonable method. The determination of whether a particular method of allocating such excess interest expense is reasonable depends on the facts and circumstances including, without limitation, whether the entity consistently applies the method from year to year.

B. *Optional Allocation Rule*

A passthrough entity may allocate distributed debt proceeds and the associated interest expense to one or more expenditures (other than distributions) of the entity that are made during the same taxable year of the entity as the distribution, to the extent that debt proceeds (including other distributed debt proceeds) are not otherwise allocated to such expenditures. However, distributed debt proceeds must be allocated under the general allocation rule to distributions to owners of the entity to the extent that such distributed debt proceeds exceed the entity's expenditures (other than distributions) for the taxable year to which debt proceeds are not otherwise allocated. Once debt proceeds are allocated under this section V.B., the debt proceeds shall be reallocated, when necessary, under the rules of section 1.163-8T.

C. *Coordination with Repayment Rule*

Paragraph (d) of section 1.163-8T provides rules governing the treatment of debt repayments. Any repayment of debt of a passthrough entity allocated to distributions to owners of the entity and to one or more other expenditures may, at the option of the passthrough entity, be treated first as a repayment of the portion of the debt allocated to such distributions.

D. *Reporting Rules*

1. *Reporting Under the General Allocation Rule*

To the extent that debt proceeds of a passthrough entity are allocated to distributions to owners of the entity, the portion of an owner's share of the entity's interest expense on debt proceeds allocated to distributions to owners that does not exceed the entity's interest expense on the portion of the debt proceeds distributed to such owner should be included on the line on Schedule K-1 for other deductions. This interest expense should be identified on an attached schedule as "Interest expense allocated to debt-financed distributions." The manner in which the owner should report such interest expense depends on the types of expenditures that the owner makes with the distributed debt proceeds. For example, if the owner uses the debt proceeds to make a personal expenditure (within the meaning of section 1.163-8T(b)(5)), the owner should report the interest expense as personal interest on Schedule A.

To the extent that an owner's share of a passthrough entity's interest expense on debt proceeds allocated to distributions to owners exceeds the entity's interest expense on the portion of the debt proceeds distributed to such owner, the excess interest expense should be reported on Schedule K-1 in a manner consistent with the allocation of such interest expense by such entity.

2. *Reporting Under the Optional Allocation Rule*

If the passthrough entity uses the optional rule to allocate distributed debt proceeds and associated interest expense, the entity's interest expense on debt proceeds allocated to such other expenditures should be reported on Schedule K-1 in a manner consistent with the allocation of the debt proceeds. For example, if the passthrough entity allocates distributed debt and the associated interest expense to an expenditure in connection with a rental activity, the entity should take the interest expense on the debt into account in computing the income or loss from the rental activity that is reported to the owner on Schedule K-1.

Notice 88-37 provides additional guidance on the reporting of interest expense in connection with debt-financed distributions.

VI. EXTENSION OF MODIFICATION OF SINGLE ACCOUNT AND 15-DAY RULES

Paragraph (c)(4)(iii)(B) of section 1.163-8T provides, among other things, that a taxpayer may treat any expenditure made from an account within 15 days after debt proceeds are deposited in such account as made from such proceeds to the extent thereof. Paragraph (c)(5)(i) of section 1.163-8T provides a similar rule with respect to debt proceeds received in cash. In the case of debt proceeds deposited in an account, taxpayers may treat any expenditure made from any account of the taxpayer, or from cash, within 30 days before or 30 days after debt proceeds are deposited in any account of the taxpayer as made from such proceeds to the extent thereof. Similarly, in the case of debt proceeds received in cash, taxpayers may treat any expenditure made from any account of the taxpayer, or from cash, within 30 days before or 30 days after debt proceeds are received in cash as made from such proceeds to the extent thereof.

VII. ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Election to Treat Certain Pre-1987 Investment Interest as a Passive Activity Deduction

Notice 89-36

This notice provides guidance on making the election under section 1005(c)-(11) of the Technical and Miscellaneous Revenue Act of 1988 (the "1988 Act") to treat certain pre-1987 investment interest as interest expense properly allocable to a passive activity.

I. BACKGROUND

Prior to the Tax Reform Act of 1986 (the "1986 Act"), section 163(d) of the Internal Revenue Code limited a noncorporate taxpayer's deduction for investment interest for a taxable year to $10,000 ($5,000 in the case of a married individual filing a separate return), plus net investment income, plus the amount by which certain deductions attributable to property subject to a net lease exceeded the rental income from the property. Investment interest was defined as interest paid or accrued on indebtedness incurred or continued to purchase or carry property held for investment. For this purpose, property held for investment included certain property subject to a net lease. Investment interest that was disallowed for a taxable year was treated as investment interest paid or accrued in the succeeding taxable year.

The 1986 Act added section 469 to the Code. Section 469 disallows the passive activity loss of individuals, estates, nongrantor trusts, and certain corporations. The passive activity loss is the amount by which the taxpayer's passive activity deductions exceed the taxpayer's passive activity gross income for the taxable year (see section 1.469-2T(b) of the Income Tax Regulations). The 1986 Act also amended section 163(d) of the Code to provide that the amount allowed as a deduction for investment interest for any taxable year shall not exceed the taxpayer's net investment income for the taxable year.

Section 1.163-8T(a)(4)(i)(B) of the regulations provides that interest expense allocated to a passive activity expenditure is taken into account for purposes of section 469 of the Code in determining the income or loss from the activity to which the expenditure relates. Thus, interest expense allocated to a passive activity expenditure is treated as a passive activity deduction (within the meaning of section 1.469-2T(d)). Section 163(d)(3)(B)(ii) provides that the term "investment interest" shall not include any interest which is taken into account under section 469 in computing income or loss from a passive activity of the taxpayer.

As a result of the addition of section 469 to the Code and the amendments of section 163(d) by the 1986 Act, certain property that was treated as property held for investment before 1987 is now treated as property used in a passive activity, and interest expense paid or accrued after 1986 that is properly allocable to expenditures in connection with such property is treated as a passive activity deduction (see section 1.469-2T(d)(3) of the regulations). Section 163(d)(2) of the Code, however, treats investment interest that is disallowed for any taxable year as investment interest paid or accrued in the succeeding taxable year, and section 469 does not apply to any deduction carried forward from a taxable year beginning before January 1, 1987 (see section 501(c)(2) of the 1986 Act). Thus, under the 1986 Act, interest expense paid or accrued in a taxable year beginning before 1987 on indebtedness incurred or continued to purchase or carry property held for investment that was disallowed under section 163(d) of the Internal Revenue Code of 1954 (the "1954 Code") and carried forward to a taxable year beginning after 1986, continued to be treated as investment interest, even if the property is used in a passive activity for taxable years beginning after 1986.

II. 1988 ACT AMENDMENT

Section 1005(c)(11) of the 1988 Act provides that if—

(1) Any amount was disallowed as a deduction under section 163(d) of the 1954 Code (as in effect on the day before the date of the enactment of the 1986 Act);

(2) Such amount would (but for the making of an election under section 1005(c)(11)) be treated as investment interest paid or accrued by the taxpayer in the taxpayer's first taxable year beginning after December 31, 1986; and

(3) The taxpayer makes an election at such time and in such manner as the Secretary of the Treasury or his delegate shall prescribe,

to the extent such amount is attributable to an activity subject to the limitations of section 469 of the Code, such amount shall not be treated as investment interest but shall be treated as a deduction allocable to such activity for such first taxable year. Section 1005(c)(11) of the 1988 Act further provides that section 469(m) of the Code and section 501(c)(2) of the 1986 Act shall not apply to any amount so treated.

III. INTEREST EXPENSE TO WHICH ELECTION APPLIES

Section 1005(c)(11) of the 1988 Act applies to interest expense if and only if—

(1) A deduction for such interest expense was disallowed under section 163(d) of the 1954 Code for the taxpayer's last taxable year beginning before January 1, 1987; and

(2) Such interest expense was paid or accrued on indebtedness incurred or continued to purchase or carry property (the "related property") that—

(i) Was treated, in applying section 163(d) of the 1954 Code for any taxable year of the taxpayer beginning before January 1, 1987, as property held for investment; and

(ii) Was used in a passive activity (within the meaning of section 469(c) of the Code and section 1.469-1T(e) of the regulations) of the taxpayer for the taxpayer's first taxable year beginning after December 31, 1986.

In the case of a taxpayer having both interest expense to which section 1005(c)(11) of the 1988 Act applies and other investment interest expense the deduction for which was disallowed under section 163(d) of the 1954 Code for the taxpayer's last taxable year beginning before January 1, 1987, the amount of interest expense to which section 1005(c)(11) of the 1988 Act applies may be determined using any reasonable method. For purposes of this notice, the determination of whether a particular method of allocating such interest expense is reasonable depends on the facts and circumstances.

IV. REQUIREMENTS AND CONDITIONS FOR MAKING ELECTION

For the taxpayer's first taxable year beginning after December 31, 1986, the taxpayer may elect to treat interest expense to which section 1005(c)(11) of the 1988 Act applies as a passive activity deduction from the activity in which the related property was used for such year. No interest expense to which the election applies is treated as an item of deduction from a pre-enactment interest in a passive activity for purposes of computing the pre-enactment loss under section 1.469- 11T(b)(3) of the regulations. Thus, if the election is made, the interest expense is fully subject to the passive activity loss limitation without regard to the transition relief generally accorded losses and credits attributable to pre-enactment interests in activities. Furthermore, once the election is made, the interest expense is not treated as investment interest for any purpose. (Thus, for example, no amount of the interest is allowable under section 163(d)(6) of the Code (relating to the phase-in of section 163(d)) for taxable years beginning in 1987 through 1990.)

Only one election to treat investment interest as a passive activity deduction can be made, and the election applies to all interest expense of the taxpayer to which section 1005(c)(11) of the 1988 Act applies. Thus, no partial election relating to a portion of such interest expense is permitted. Because section 163(d) of the Code does not apply to corporate taxpayers, they are not eligible to make the election. The election is irrevocable. Making the election may affect the amount of the taxpayer's allowed and disallowed investment interest and passive activity deductions (and therefore tax liability) for taxable years subsequent to the taxable year for which the election is made.

V. ELECTION PROCEDURE AND DEADLINE

A noncorporate taxpayer that is subject to section 469 of the Code may make the election provided by section 1005(c)(11) of the 1988 Act by filing an amended return for (1) the taxpayer's first taxable year beginning after December 31, 1986, and (2) any subsequent taxable years with respect to which a return was filed prior to making the election. Individuals should file an amended return on Form 1040X, and estates and nongrantor trusts should file an amended return on Form 1041.

The amended return (or returns, as the case may be) must be filed on or before the later of (1) the due date (taking into account any extensions of time to file obtained by the taxpayer) for filing the income tax return of the taxpayer for the taxpayer's first taxable year beginning after December 31, 1987 (generally the taxpayer's 1988 return), or (2) August 15, 1989. The amended return (or returns, as the case may be) must reflect any change in tax liability that results from making the election. Any such change should be determined by adjusting Form 8582 (Passive Activity Loss Limitations) and Form 4952 (Investment Interest Expense Deduction) in the manner explained in the instructions to the 1988 versions of those forms.

VI. ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Notice of Intent to Promulgate Regulations Addressing Use of Partnerships to Avoid *General Utilities* Repeal

Notice 89-37

Section 631 of the Tax Reform Act of 1986 (the "1986 Act") was intended to repeal the *General Utilities* doctrine which, under certain circumstances, permitted a corporation to distribute appreciated assets to its shareholders without recognizing gain. Following the 1986 Act, the Internal Revenue Code generally requires a corporation to recognize gain upon the distribution of appreciated property (*see* sections 311(b) and 336(a)). Section 631 of the 1986 Act also added section 337(d) to the Code, as amended by section 1006(e)(5) of the Technical and Miscellaneous Revenue Act of 1988, to protect the integrity of the repeal of the *General Utilities* doctrine. Section 337(d) directs the Secretary to prescribe the regulations that may be necessary or appropriate to carry out the purposes of the 1986 Act's repeal of the *General Utilities* doctrine, including regulations to ensure that such purposes are not circumvented through the use of any provision of law or regulations.

The Service has determined that, in certain circumstances, the acquisition (or mere ownership) by a partnership of stock in one of its corporate partners (or stock of any member of the affiliated group of which such partner is a member) results in avoidance of *General Utilities* repeal. These circumstances are present to the extent the corporate partner, in substance, relinquishes an interest in appreciated property in exchange for an interest in its stock (or the stock of any member of the affiliated group of which such partner is a member). The Service intends to prescribe regulations under its general rulemaking authority and section 337(d) to provide for gain recognition by a corporate partner in such circumstances.

Application of section 311(b) notwithstanding section 731

The Service has determined that, in order to carry out the purposes of the repeal of the *General Utilities* doctrine, a partnership distribution to a corporate partner of the stock of such corporation (or the stock of any member of the affiliated group of which such partner is a member) should be characterized as a redemption of the corporate partner's stock with property consisting of its partnership interest. Therefore, the Service will issue regulations providing that section 311(b), rather than the general nonrecognition rule of section 731(a), will be applicable whenever a partner receives a distribution of its own stock (or the stock of any member of the affiliated group of which such partner is a member). Accordingly, under section 311(b), gain (but not loss) with respect to the partner's partnership interest will be recognized. This rule will apply to all such distributions of corporate stock occurring after March 9, 1989.

Deemed redemption

The Service also intends to adopt rules under which gain will be recognized at the time of, and to the extent that, any transaction (or series of transactions) has the economic effect of an exchange by a corporate partner of its interest in appreciated property for an interest in its stock (or the stock of any member of the affiliated group of which such partner is a member) owned or acquired by the partnership. In general, the gain that would be required to be recognized by the corporate partner under this rule would include the gain attributable to appreciation accruing during the period (i) before the property was contributed by the corporate partner to the partnership, and (ii) after the property was contributed to, or acquired by, the partnership and prior to the deemed redemption.

For example, if a corporation contributes appreciated property to a partnership in exchange for a thirty percent interest in the partnership and another person exchanges stock of the corporate partner for the other seventy percent interest in the partnership, the corporate partner can properly be treated as having relinquished seventy percent of its interest in the appreciated property in exchange for a thirty percent interest in its own stock at the time of the acquisition of such stock, without regard to whether such stock is or will be distributed to the corporate partner. Other transactions to which the deemed redemption rule may apply include, but are not limited to, partnership purchases of a corporate partner's stock, disproportionate distributions, and amendments to the partnership agreement. The Service is considering whether any exceptions, such as a de minimis rule, might be appropriate. The deemed redemption rule will apply to any transaction (or series of transactions) with the above described economic effect occurring after March 9, 1989.

Other principles and rules

Certain transactions that would be subject to the regulations to be issued, as described in this Notice, also may be subject to taxation under the "substance over form" principle or section 707(a)(2)(B). For example, the "substance over form" principle and section 707(a)(2)(B) are each relevant to the analysis of any transaction in which a corporate partner contributes appreciated property to a partnership that acquires (or owns) stock of the corporate partner pursuant to an understanding that such stock will be distributed to the corporate partner by the partnership.

No inference should be made based upon this Notice regarding the scope of the "substance over form" principle or the disguised sale rules of section 707(a)(2)(B).

Administrative pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or a revenue procedure. *See* Rev. Rul. 87-138, 1987-2 C.B. 287.

Modification of Notice 88-132

Notice 89-38

The purpose of this notice is to modify certain provisions of Notice 88-132.

1988-2 C.B. 552, including the definition of wholesale distributor. Notice 88-132 provides interim rules for the administration of the federal excise taxes on diesel and aviation fuel as amended by the Technical and Miscellaneous Revenue Act of 1988, P.L. 100-647.

I Requirements for Making Tax-Free and Tax-Reduced Sales

Section IV(A) of Notice 88-132 requires producers and importers to obtain and retain certain information in order to make tax-free or tax-reduced sales. Paragraph (3) of this section requires the producer or importer's record of sale to contain "a written statement clearly indicating that the entire quantity of the fuel purchased is purchased for the nontaxable use specified in the buyer's certification".

This provision does not permit producers to make a sale of fuel to a particular buyer for both taxable and nontaxable uses. Therefore, section IV(A)(3) is modified to read as follows:

"(3) The producer or importer's record of sale contains a written statement clearly stating the quantity of fuel that the buyer has bought for the nontaxable or tax-reduced use specified in the buyer's certification..."

II Definition of Wholesale Distributor

Section V(C) of Notice 88-132 defines the term "wholesale distributor" for purposes of the definition of the term "producer." This definition of wholesale distributor may exclude many distributors who sell substantial quantities of diesel fuel to farmers, fishermen, and other off-road users who are eligible to buy fuel tax free from producers. Therefore, section V(C) is modified to read as follows:

"C. Wholesale Distributor

"(1) Definition. For purposes of the definition of the term "producer," the regulations will provide that the term "wholesale distributor" includes any person who—

"(a) Holds itself out to the public as being engaged in the trade or business of selling taxable fuel to producers of taxable fuel (including wholesale distributors), to retailers, or to users of taxable fuel who purchase in bulk quantities and accept delivery into bulk storage tanks; and

"(b) Actually makes more than casual sales of taxable fuel to the producers, retailers, or users described in paragraph (a).

"(2) Special rules. For purposes of the definition of wholesale distributor, the regulations will further provide that—

"(a) The term "bulk storage tank" means a container that holds at least 50 gallons and is not the fuel supply tank of any engine that is mounted on, or attached to, a highway vehicle, a diesel-powered train, or an aircraft. Thus, for example, the term includes containers that hold at least 50 gallons and that serve as the fuel supply tank of a vessel or a home furnace, but the term does not include the fuel supply tank of an engine that powers a refrigeration unit mounted on a semi-trailer. For the definition of "highway vehicle," see section 48.4041-8(b) of the regulations. For the definition of "diesel-powered train," see section IV(D)(1) of Notice 88-30, 1988-1 C.B. 497.

"(b) The term "bulk quantities" means 25 gallons or more.

"(c) A person will be considered to make "more than casual sales" if—

"(i) At least 30 percent of its number of sales of taxable fuel during the preceding 12 month period (or some other period as determined by the District Director) is to the producers, retailers, or users described in paragraph (1)(a); or

"(ii) At least 50 percent of its volume of taxable fuel during the preceding 12 month period (or some other period as determined by the District Director) is sold to the producers, retailers, or users described in paragraph (1)(a), and at least 500 of its sales (or a proportional number if a period other than 12 months is used) are made to such buyers.

"(d) The term "wholesale distributor" also includes any person who holds itself out to the public as being engaged in the trade or business of selling taxable fuel to users for the nontaxable uses described in section II(D) of Notice 88-132 (for example, use on a farm for farming purposes or use as heating oil) and actually sells at least 70 percent of its volume of taxable fuel during the preceding 12 month period (or some other period as determined by the District Director) to such users.

"(e) A farmers' cooperative described in sections 521 or 1381 of the Code will be treated as holding "itself out to the public" even though it may sell taxable fuel only to its members.

"(3) Examples. The following examples illustrate these rules:

"*Example 1.* *A* operates a truck stop that sells diesel fuel at retail. *A* also advertises that it will make bulk sales of diesel fuel to farmers. During a representative period (as determined by the District Director), *A* made 1,000 sales of diesel fuel, 300 of which were to farmers for both on-road and off-road use. In each sale, *A* delivered at least 25 gallons into a 50 gallon tank in the bed of the buyer's pick-up truck. None of these tanks was the fuel supply tank to any engine on the truck. *A* meets the definition of wholesale distributor.

"*Example 2.* *B* operates a marina and advertises that it will make sales of diesel fuel to boaters. During the preceding 12 month period, *B* sold 85 percent of its volume of diesel fuel to fishermen and other boaters. *B* sold the remaining 15 percent of its volume at its convenience store to truckers. *B* meets the definition of wholesale distributor.

"*Example 3.* *C* sells diesel fuel at an unattended location through a "cardlock" system and advertises that it will make sales of diesel fuel for farming purposes. Each of *C*'s buyers has a "taxable" card (used to buy fuel for highway use) and a "nontaxable" card (used to buy fuel for off-highway use). During a representative period (as determined by the District Director), *C* sold 70 percent of its volume of diesel fuel to users of the "nontaxable" card. *C* meets the definition of wholesale distributor.

"*Example 4.* *D* operates a truck stop that sells diesel fuel at retail. *D* also advertises that it will make bulk sales of diesel fuel for off-road uses. During a representative 6 month period (as determined by the District Director), *D* made 6,000 sales of diesel fuel, 250 of which were to construction companies for their off-road use. In each sale to a construction company, *D* delivered 1,000 gallons into its buyer's 1,500 gallon tank trailer. The remaining 5,750 sales during the period were to truckers for their on-road use. In each of these sales, *D* delivered at least 60 gallons into its buyer's 70 gallon vehicle fuel supply tank. Although *D* made the requisite number of bulk sales to users during this period (250 in 6 months), less than 50 percent of its volume of diesel fuel was sold in bulk to users. Also, less than 70 percent of its volume was sold for nontaxable uses. Thus, *D* does not meet the definition of wholesale distributor."

III Taxable Fuel on Hand

Notice 88-132 does not describe the tax consequences of a producer's sale of tax-paid taxable fuel that such producer had in inventory at the time it received its Certificate of Registry. Therefore, Section V is amended by adding the following immediately after section V(C):

"D. Producer's Taxable Fuel On Hand

"A person is treated as a producer of all of the taxable fuel it has on hand as of the effective date of its Certificate of Registry even though tax has already been paid on such fuel. If an ultimate purchaser subsequently buys taxable fuel from a producer at a price that includes the tax and then uses the fuel in a nontaxable use, such purchaser may claim a credit or refund of the tax under section 6427 of the Code. Alternatively, a producer that has tax-paid taxable fuel on hand as of the effective date of its Certificate of Registry may claim a credit up to the amount of tax included in the price it paid for such fuel, but only against liability the producer incurs under section 4091 of the Code on its later sale of any taxable fuel, This credit must be claimed on Part II, Line 2, ("Adjustments") on Form 720, Quarterly Federal Excise Tax Return, and must be supported by records to substantiate the amount of tax paid fuel on hand."

IV Correction of Typographical Error

The first sentence of section VII(B) of Notice 88-132 contains an incorrect date. Thus, it is corrected to read as follows:

"Exempt users of diesel and aviation fuel bought and used tax paid after 1988 may claim a quarterly refund of such tax if—. . .

EFFECTIVE DATE

The rules of this notice are effective January 1, 1989.

EFFECT ON OTHER DOCUMENTS

Notice 88-132 is modified.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

At Risk Rules—Aggregation of Partnership and S Corporation Activities

Notice 89-39

Announcement 88-58, 1988-15 I.R.S. 46, informed taxpayers that they would be allowed to aggregate certain partnership and S corporation activities for purposes of the at-risk rules under section 465 of the Internal Revenue Code, based upon the rule contained in section 1.465-1T of the Income Tax Regulations, for taxable years that began in 1987. This notice extends the aggregation rule contained in section 1.465-1T to taxable years ending on or before the date on which further guidance is published.

Thus, as with taxable years beginning in 1985, 1986, and 1987, aggregation of partnership or S corporation activities in the manner described in section 1.465-1T will be allowed within each of four categories for taxable years ending in 1988 (and for any subsequent taxable year ending on or before the date on which further guidance is published). Those categories are films and video tapes, farms, oil and gas properties, and geothermal properties. For example, in applying the at-risk rules for 1988, partners and S corporation shareholders will be permitted to treat all of the partnership's or S corporation's films and video tapes as a single activity. Moreover, any additional rules imposing limits or conditions on the ability of taxpayers to aggregate activities within the four categories will apply only to taxable years ending after the date on which further guidance is published.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Rules for Determining the Source of Gain from the Sale of Personal Property by Bona Fide Puerto Rican Residents

Notice 89-40

SECTION 1. PURPOSE

This notice provides guidance under section 865 of the Internal Revenue Code concerning the sourcing of gain from sales of nondepreciable personal property by bona fide Puerto Rican residents. The rules contained in this notice will be incorporated in regulations to be promulgated under section 865 of the Code. This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or procedure. Any modification of the rules contained herein will be prospective only.

SEC. 2. BACKGROUND

Section 865(g)(2) of the Code provides that gains of a U.S. citizen resident outside the United States are U.S. sourced unless a foreign income tax of at least ten percent is imposed. Section 1012(d)(6)(B) of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), 102 Stat. 3497, added section 865(j)(3) to the Code. Section 865(j)(3) authorizes the Secretary to prescribe regulations providing that, subject to certain conditions (which may include provisions comparable to section 877) as may be provided in such regulations, section 865(g)(2) shall not apply for purposes of sections 931, 933, and 936.

SEC. 3. PERSONS COVERED

This notice applies only to bona fide Puerto Rican residents as defined in section 933 of the Code and the regulations thereunder. It does not apply to U.S. citizens or residents who are temporarily residents of Puerto Rico. For this purpose, rules analogous to section 877 will be applied to prohibit persons from establishing residency in Puerto Rico for the purpose of avoiding U.S. tax.

SEC. 4. SALES BY BONA FIDE RESIDENTS OF PUERTO RICO

Regulations issued under section 865(j)(3) of the Code will provide that section 865(g)(2) shall not apply to a person that is a bona fide resident of Puerto Rico for the entire taxable year. The source of income from the sale of personal property by such bona fide residents shall be determined under section 865 without regard to section 865(g)(2). Thus, for example, a bona fide resident of Puerto Rico who sells stock (that does not constitute inventory) will not be subject to the ten percent tax payment rule of section 865(g)(2), but, instead, will be subject to the general residence of the seller rule under section 865(a). Therefore, regardless of whether a tax equal to 10 percent of the gain is paid to Puerto Rico, the income from the stock sale will be treated as Puerto Rican (*i.e.*, foreign source) income.

The example on page 1 of Publication 1321, Special Instructions for Bona Fide Residents of Puerto Rico, which concludes that a bona fide Puerto Rican resident who sells nondepreciable personal property is subject to U.S. taxation under section 865(g)(2) of the Code, is incorrect for sales subject to the rules described in this notice.

SEC. 5. EFFECTIVE DATE

This notice is effective for taxable years beginning after December 31, 1986.

Procedures for Use by Partnerships and S Corporations Claiming a Refund Under Section 7519 of the Code for Taxable Years Beginning in 1988

Notice 89-41

The Internal Revenue Service understands that a number of partnerships and S corporations will be claiming a refund under section 7519 of the Internal Revenue Code (relating to payments required for the use of a taxable year elected under section 444 of the Code) with respect to a taxable year beginning in 1988. This notice provides procedural guidance to taxpayers regarding refunds of required payments under section 7519 of the Code claimed for taxable years beginning in 1988. Forthcoming regulations or other form of guidance will provide procedural rules for taxable years beginning after 1988.

I. Background

Sections 444, 7519 and 280H were added to the Internal Revenue Code by Section 10206 of the Revenue Act of 1987 (Pub. L. No. 100-203, 101 Stat. 1330) (the "1987 Act"). Section 444 allows certain partnerships, S corporations, and personal service corporations to make an election (a "section 444 election") to use a taxable year that is different from the taxable year that such entities would otherwise be required to use. Electing partnerships and S corporations are required to make payments under section 7519 ("required payments") to the federal government. Required payments are intended to represent the value of the tax deferral obtained by the owners of those entities through the use of a taxable year different from the required taxable year.

After an electing partnership or S corporation makes a required payment for a taxable year, the partnership or S corporation may be eligible for a refund of all or part of the required payment if there is a decrease in the deferral in a subsequent taxable year. Section 2004(e)(5) of the Technical and Miscellaneous Revenue Act of 1988 ("TAMPA") (Pub. L. No. 100-647, 102 Stat. 3342) made several changes to the refund rules of section 7519. Section 2004(e)(5) of TAMPA clarified that an electing partnership or S corporation will be eligible for a refund of required payments if the partnership or S corporation terminates its section 444 election or liquidates. In addition, section 2004(e)(5) of TAMRA specified the date on which a refund becomes payable.

On May 24, 1988, the Internal Revenue Service issued temporary regulations, T.D. 8205, 53 F.R. 19688, interpreting section 10206 of the 1987 Act. This notice provides procedural guidance for taxpayers eligible to claim a refund of a required payment. The guidance provided in this notice will be incorporated in forthcoming regulations.

II. Refund eligibility and procedure

A. In General

An electing partnership or S corporation is eligible for a refund of required payments to the extent that the amount determine under section 7519(b)(1) of the Code ("gross required payment") is less than the cumulative required payments for preceding years. In addition, if an electing partnership or S corporation terminates its section 444 election, the partnership or corporation is eligible for a refund of required payments.

A refund of a required payment shall be payable on the later of April 15 of the applicable calendar year, or 90 days after the date on which the claim for refund is filed.

In the case of a refund resulting from a termination of the section 444 election, the term "applicable calendar year" means the calendar year following the calendar year in which the final applicable election year ends. In the case of all other refunds, the term "applicable calendar year" means the calendar year following the calendar year in which the applicable election year giving rise to the refund begins.

Unlike, for example, a refund of a properly claimed overpayment of income tax by an individual on Form 1040, which can be paid at any time during the normal filing season, the Service is precluded by law from refunding a required payment before April 15 of the applicable calendar year, no matter how much earlier a taxpayer has the information necessary to determine that a refund may be claimed.

As provided in section IIB of this notice, partnerships and S corporations must use Form 720 (revised January 1989) to claim a refund of a required payment. The first-quarter 1989 Form 720 (labelled "Rev. January 1989") should be available to taxpayers in March 1989. Taxpayers should not attempt to file for a refund in any other manner (such as by using a prior version of the Form 720 or by using Form 843).

Because taxpayers did not receive the devised form before January 15, 1989, the Internal Revenue Service waives the 90-day period but only for first-quarter 1989 Forms 720 that are filed on or before April 30, 1989, for the 1989 applicable calendar year. Instead, properly completed first-quarter 1989 Forms 720 (filed on or before April 30, 1989) will be processed in the normal manner for such form. This should result in the payment of refunds before the end of the 90-day period.

B. Form 720 procedures

A partnership or S corporation that is entitled to make a claim for refund of a required payment for an applicable election year beginning in 1988, should file a first-quarter 1989 Form 720, "Quarterly Federal Excise Tax Return" (revised January 1989). In addition, the taxpayer must type or legibly print, at the top of the Form 720, whichever one of the following statements applies:

[A] "TERMINATION OF §444 ELECTION BY CHANGE TO REQUIRED YEAR"

[B] "TERMINATION OF §444 ELECTION OTHER THAN BY CHANGE TO REQUIRED YEAR"

[C] "CONTINUING SECTION 444 ELECTION"

In the case of any termination of a section 444 election, the taxpayer indicates its eligibility for a complete refund of any required payment currently on deposit by typing or printing "zero" on the line for "IRS No. 11" and including the amount paid with respect to the applicable election year beginning in 1987 on line 4(d), Part II of Form 720.

C. Form 843 previously filed

The Internal Revenue Service understands that prior to issuance of this notice certain taxpayers may have already pursued some other means of attempting to claim a refund under section 7519(c) of the Code (such as filing a Form 843). If the Form 843 (or other form of claim) is processible, such claim will be processed in the normal manner. However, if the Form 843 (or other form of claim) does not have sufficient information to allow the Service to process the claim, the Service will return the form used for the attempted claim. After the taxpayer receives the returned form, the taxpayer should file Form 720 (Rev. January 1989) pursuant to the procedures set forth in this notice.

D. Interest

Under Section 7519(f)(3) of the Code, no interest shall be allowed with respect to any refund of a required payment.

III. Examples

Example (1). Assume that XYZ, Inc. is an S corporation (and has been for all years in issue) that has historically used a June 30 taxable year. Also assume that XYZ, Inc. made a valid section 444 election to retain a year ending June 30, 1988 (its first "applicable election year"). Assume further that XYZ, Inc. properly filed Form 720, for the second quarter of 1988, on July 29, 1988, and transmitted therewith a check for $12,000, the amount of the required payment for the applicable election year July 1, 1987-June 30, 1988. Finally, assume that for its taxable year beginning July 1, 1988, XYZ, Inc. changes to a calendar year, its required year. Under section 1.444-1T(a)(5)(ii)(A) of the Income Tax Regulations, XYZ Inc.'s section 444 election is terminated effective July 1, 1988. XYZ, Inc. is eligible to claim a refund of the $12,000 amount on deposit by filing a first-quarter 1989 Form 720 (Rev. January 1989), in accordance with the procedures provided in this notice. The year ended June 30, 1988, is the last election year of XYZ, Inc. Therefore, for purposes of determining when a refund is payable, the applicable calendar year is 1989. Under the general rule provided in section IIA of this notice, the refund of $12,000 becomes payable on the later of (i) April 15, 1989, or (ii) 90 days after the date on which the claim for refund is filed. However, as also provided in section IIA of this notice, if XYZ, Inc. files its first-quarter 1989 Form 720 on or before April 30, 1989, the refund becomes payable on the date that follows the normal processing period for that Form 720.

Example (2). Assume the facts are the same as in example 1, except that instead of changing to the required year, XYZ, Inc. continues the section 444 election for the taxable year July 1, 1988 - June 30, 1989 (its second applicable election year). In addition, assume that XYZ, Inc.'s required payment for such year is $10,000. Accordingly, XYZ, Inc. is eligible to claim a refund of the $2,000 excess amount paid with respect to the first applicable election year. The current applicable election year is the year beginning July 1, 1988. Under section IIA of this notice, the applicable calendar year is 1989, the year following the year in which the applicable election year giving rise to the refund began. Under the general rule provided in section IIA of this notice, the refund of $2,000 becomes payable on the later of (i) April 15, 1989, or (ii) 90 days after the date on which the claim for refund is filed. However, as also provided in section IIA of this notice, if XYZ, Inc. files its first-quarter 1989 Form 720 on or before April 30, 1989, the refund becomes payable on the date that follows the normal processing period for that Form 720.

Example (3). The facts are the same as in example 2, except that XYZ, Inc. liquidates completely, for tax purposes, on January 15, 1989. The liquidation is a terminating event and is effective January 15, 1989. Although XYZ, Inc. liquidates, it is subject to section 7519 for the taxable year beginning July 1, 1988 (its second applicable election year). XYZ, Inc. is eligible to make a claim for the $2,000 excess payment for the applicable election year that began July 1, 1988. The $2,000 refund becomes payable on the date described in example 2.

In addition, XYZ, Inc. is eligible to make a separate claim for the $10,000 amount on deposit. Because XYZ, Inc. is terminating its election, the applicable calendar year is 1990, the calendar year following the calendar year in which the final applicable election year ends (1989). Accordingly, under the general rule provided in section IIA of this notice, a refund of the $10,000 will become payable the later of (i) April 15, 1990 or (ii) 90 days after the claim for refund is made.

IV. Administrative pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Required Beginning Date Under Section 401(a)(9)

Notice 89-42

This notice provides guidance with respect to the required beginning date for distributions mandated by section 401(a)(9) of the Internal Revenue Code of 1986 (the Code) for certain individuals who attained age 70½ in 1988 and had not separated from service by January 1, 1989.

BACKGROUND

Prior to the Tax Reform Act of 1986 (TRA 86), distributions from qualified plans for employees who were not 5 percent owners were required to begin not later than the April 1 of the calendar year following the later of (1) the calendar year in which the employee attained age 70½ or (2) the calendar year in which the employee retired. For 5 percent owners and for IRA participants, who are treated the same as 5 percent owners for purposes of the required beginning date, the required beginning date was, and remains, April 1 of the calendar year following the calendar year in which the owner attains age 70½, even if the owner remains employed.

TRA 86 amended section 401(a)(9) of the Code to provide a uniform required beginning date for all plan, IRA, and tax sheltered annuity participants. Under this rule, distributions from qualified plans and tax sheltered annuities are required to begin not later than April 1 of the calendar year following the calendar year in which the employee attains age 70½. This rule is generally effective for years beginning after December 31, 1988. However, the uniform required beginning date enacted under TRA 86 does not apply to an employee who attained age 70½ before January 1, 1988, unless the employee is a 5 percent owner. Under a grandfather rule provided in section 1121(d)(4) of TRA 86, an employee who is not a 5 percent owner is permitted to use the pre-TRA 86 required beginning date. Section 1.401(a)(9)-1B-2 of proposed regulations published in the Federal Register on July 27, 1987 (52 FR 28070) sets forth the rules on the required beginning dates specified under TRA 86. Proposed regulations section 1.401(a)(9)-1B-2(a) indicates that employees attaining age 70½ in 1988 must begin receiving distributions by April 1, 1989, even if they have not separated from service.

ANALYSIS

The grandfather rule of section 1121(d)(4) of TRA 86 for employees who are not 5 percent owners does not apply to employees who attained age 70½ during 1988. However, the retirement year delay under section 401(a)(9)(C)(ii) of the Code is not repealed until January 1, 1989, for calendar year taxpayers. Therefore, final regulations under section 401(a)(9) will provide that the effect of the repeal of the retirement year delay on January 1, 1989, is to treat an employee who attained age 70½ in 1988, who is not a 5 percent owner, and who had not retired by January 1, 1989, as having retired on January 1, 1989. Thus, 1989 is the first possible distribution calendar year for the employee, and April 1, 1990, is the employee's required beginning date. However, the employee's actual age in 1989 must be used in calculating the employee's life expectancy.

It should be noted that the required beginning date rules in section 1.401(a)(9)-1B-2(b) and (c) of the proposed regulations, for employees who attained age 70½ before January 1, 1988, remain unchanged, and the rule in section 1.401(a)(9)-1B-2(a), for employees who attain age 70½ after December 31, 1987, remains unchanged except as modified herein.

RELIANCE

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Weighted Average Interest Rate Update

Notice 89-43

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weighted average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
March	1989	8.78	7.90 to 9.66

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Filing of Protective Claims Under Rev. Proc. 89-24, 1989-12 I.R.B. 22, for Quarters Ended March 31, 1986 and June 30, 1986

Notice 89-44

Rev. Proc. 89-24, page 845, this Bulletin, provides instructions for claiming a refund of an overpayment of excise tax on insurance policies when the claim is based on the provisions of the Convention Between The Government Of The United Kingdom Of Great Britain And Northern Ireland (On Behalf Of The Government Of Bermuda) And The Government Of The United States Of America Relating To The Taxation Of Insurance Enterprises And Mutual Assistance In Tax Matters (the Treaty), signed at Washington, D.C. on July 11, 1986, and effective January 1, 1986, with respect to the excise tax on certain insurance premiums.

The Internal Revenue Service has concluded that it is appropriate to allow protective claims to be filed for refund of excise tax paid for quarters ended March 31, 1986, and June 30, 1986, so long as the protective claims are perfected in a timely manner to comply with the requirements set forth in Rev. Proc. 89-24. In order to qualify for refund of the excise tax, the Treaty requires a claimant to establish, inter alia, that the Bermuda insurance company, to which the insurance premiums were paid, qualified for benefits under the Treaty and also that the premiums constituted subpart F income of the insurance company.

The Internal Revenue Service will permit the filing of protective claims for the first and second quarters of 1986. The protective claim should be submitted on a Claim, Form 843, to the following address:

Philadelphia Service Center
P.O. Box 245
Bensalem, PA 19020
Drop Point 102C

A protective claim must be filed on or before the date that the statute of limitations expires for filing claims for these quarters and must state that the claimant is filing a protective claim for refund of insurance premium excise tax under the Treaty, the name of the Bermuda insurance company to which the premium was paid, and the name of the United States insured or broker that paid the premium. A protective claim may be filed by the insured or broker, depending on which is the taxpayer, or by the Bermuda insurance company. Although a protective claim must be filed within the statute of limitations for filing a claim for refund, the Internal Revenue Service will allow the taxpayer six months from the date a protective claim is filed to perfect the protective claim by submitting the information required by Rev. Proc. 89-24 to the address previously shown. After this six month period, the Internal Revenue Service will follow its normal administrative practices with respect to the claim, including possible disallowance.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Employee Plans—Application of Section 415(b)(5)(D)

Notice 89-45

Background

Section 415(b) of the Code limits the amount of retirement-type benefits that may be provided from qualified defined benefit plans. Thus, benefits may not be paid or accrued that are in excess of the limitations of section 415(b). Section 415(b)(5) provides that the dollar limitation of section 415(b)(1)(A) is reduced for participants with less than 10 years of participation in a defined benefit plan. In a given year, the dollar limitation applicable to a participant with less than ten years of participation is equal to the dollar limitation of section 415(b)(1)(A) in effect for such year multiplied by a fraction (not to exceed one), the numerator of which is the number of years (computed to fractional parts of a year) of participation in the plan, and the denominator of which is 10. (The resulting limitation for such year will be referred to as the initial ten-year phase-in limitation.) Thus, a participant's accrued benefit in any year may not exceed the initial ten-year phase-in limitation for such year. For example, assume that the section 415(b)(1)(A) dollar limitation in effect for a given year is $90,000. In the case of a participant who has 3 years of participation, the initial ten-year phase-in limitation for such participant would be $90,000 times 3/10, or $27,000.

Section 415(b)(5)(B) provides that the compensation limitation of section 415(b)(1)(B) and the special $10,000 benefit limitation of section 415(b)(4) are reduced for participants with less than 10 years of service with the employer. However, in no event will such adjustments for years of participation or service, as applicable, reduce the limitations of section 415(b)(1)(A), 415(b)(1)(B), or 415(b)(4) to amounts less than 1/10 of such limitation without such adjustments.

In addition, section 415(b)(5)(D) provides that the reductions specified in section 415(b)(5) apply separately to each change in benefit structure of a plan, to the extent specified in regulations. Q&A-7 of Notice 87-21 provided that any change in the benefit structure of a plan that is adopted and made effective prior to the issuance of regulations under section 415(b)(5)(D) would not be subject to section 415(b)(5)(D) , but that changes in benefit structure effective after regulations are issued would be subject to section 415(b)(5)(D) even if the change in benefit structure is adopted prior to the issuance of regulations.

Explanation of Section 415(b)(5)(D)

The initial ten-year phase-in limitation applies to a participant's total accrued benefit in the plan. If there is a change in the benefit structure applicable to such participant that increases the participant's benefits under the plan, then, pursuant to section 415(b)(5)(D), benefits attributable to such change are subject to a separate ten-year phase-in limitation that operates independently of the initial ten-year phase-in limitation. Thus, as of any year, benefits attributable to a change in benefit structure may not exceed the ten-year phase-in limitation for such change. Similarly, where there are multiple changes to the benefit structure applicable to a participant the effect of section 415(b)(5)(D) is to impose a separate ten-year phase-in limitation on benefits attributable to each such change so that as of any year, benefits attributable to each change in benefit structure may not exceed the ten-year phase-in limitation for such change.

Change in benefit structure. A change in the benefit structure of the plan generally includes any change increasing benefits subject to the limitation of section 415. A change is one that increases benefits if either the change has the effect of immediately increasing a participant's accrued benefit, or greater benefits accrue after the change than would have accrued had the change not been made. Examples of such changes include changes in the plan's benefit formula, rate(s) of accrual, definition of compensation, and definition of years of participation, except to the extent provided in regulations. Thus, for example, if a plan provides for accruals of 2 percent of each year's compensation and is amended effective with years beginning after 1989 to provide for accruals of 3 percent of compensation for years after 1989, the plan will be considered to have a change in benefit structure effective for years after 1989. A plan will not be considered to have a change in benefit structure merely because a participant's rate of accrual under the plan formula increases with increasing years of service or participation (as for example, in a plan that is backloaded to the extent permitted under section 411(b)(1)(B)).

Benefits attributable to a change in benefit structure. As of a date, a participants benefits attributable to a change in benefit structure equal the participant's accrued benefit under the plan as of such date reduced by the benefits that the participant would have accrued as of such date had the formula in effect under the plan immediately prior to the change in benefit structure remained in effect through such date. Thus, benefits attributable to a change in benefit structure as of a given date may be determined as follows: Step 1: determine the participant's accrued benefit under the plan (without regard to the limitation applicable to the change in benefit structure being tested). Step 2: determine the benefit that the participant would have accrued (subject to any applicable section 415(b)(5) phase-in limitations) as of such date had the formula in effect under the plan immediately prior to the change in benefit structure remained in effect through such date. The benefit attributable to the change in benefit structure is determined by subtracting the amount determined in step 2 from the amount determined in step 1. This benefit may not exceed the ten-year phase-in limitation for the change in benefit structure.

Ten-year phase-in for a change in benefit structure. For a given year, the ten-year phase-in limitation for a change in benefit structure is equal to the 415(b)(1)(A) limitation in effect for such year times a fraction (not to exceed one), the numerator of which is the participant's years (computed to fractional parts of a year) of participation in the plan subsequent to the first day of the plan year in which the change in benefit structure is effective, and the denominator of which is 10. However, with respect to an amendment changing the benefit structure of a plan, a year of participation will not be included in the numerator of the fraction in the preceding sentence unless the amendment is adopted no later than 2½ months after the end of the plan year in which the amendment is effective.

Multiple changes in benefit structure. Where there has been more than one change in benefit structure within a ten year period, the rules above apply in the same manner to each separate change in benefit structure. The benefit attributable to a change in benefit structure includes benefits attributable to such change and any subsequent change. Thus, as of a given year, the benefit attributable to a change in benefit structure equals the participant's benefit under the plan for such year (determined subject to phase-in limitations applicable to previous changes in benefit structures) reduced by the benefit that the participant would have accrued (subject to any applicable section 415(b)(5) phase-in limitations) as of such date had the formula in effect under the plan immediately prior to the change in benefit structure remained in effect through such date. The ten-year phase-in limitation is determined in the same manner as indicated above.

The effect of the ten-year phase-in limitations is that as of any given year, a participant's accrued benefit under the plan in such year may not exceed the lesser of (i) the initial ten-year phase-in limitation, and (ii) the smallest of the sums, determined separately for each change in benefit structure effective as of the current year or any of the preceding nine years, of (I) the ten-year phase in limitation for such change applicable to such participant in such year, and (II) the accrued benefit that the participant would have accrued (subject to any applicable section 415(b)(5) phase-in limitations) as of such year had the formula in effect under the plan immediately prior to the change in benefit structure remained in effect through such year.

Application of Section 415(b)(5)(D) to Funding. Pursuant to sections 404(j) and 415(b)(5), an accrual that exceeds the lesser of 1/10 of the dollar limitation of section 415(b)(1)(A) or 1/10 of the compensation limitation of section 415(b)(1)(B) (such amount is referred to as 1/10 of the applicable 415 limitation) may occur only if a participant has past years of participation or service, as applicable, and only to the extent permitted by section 415(b)(5). Under the unit credit funding method, the normal cost for a plan year is determined as the present value of benefits accruing under the method for the year. However, section 1.412(c)(3)-1(c)(5) of the regulations provides that under a reasonable funding method that allocates liabilities among different elements of past and future service, the allocation of liabilities must be reasonable. Thus, if the actual benefit accrual for a participant in a plan that uses the unit credit funding method exceeds 1/10 of the applicable 415 limitation, the benefit accrual which may be taken into account in determining the normal cost is limited to 1/10 of the applicable 415 limitation. The portion of the actual benefit accrual in excess of such amount is permitted solely due to the participant's past participation, or service, as applicable, and must be allocated to past service for funding and deduction purposes to meet the requirement that the allocation of liabilities among different elements of past and future service must be reasonable. See Rev. Rul. 85-131, 1985-2 C.B. 138.

The result of the separate phase-in rule for each change in benefit structure is to limit not only the total accrual benefit resulting from each amendment but also the total benefit that may be provided for past-service. Furthermore, under the application of the unit credit method, the result is to limit the amount of past service liability that may be provided at any point because the amount of the increase in past service benefits is limited by the phase-in limitations.

EXAMPLE: An employer establishes a plan in 1988 with a calendar plan year that provides a benefit equal to the sum of 1% of compensation for each year of service after 1987. Employee A commences participation in the plan beginning in 1988. Assume that A receives $200,000 in compensation for all years under the plan, and that the limitation in effect under 415(b)(1)(A) is $90,000 for all years. As of the end of 1988, A's accrued benefit under the plan (prior to application of the phase-in limitations) would be $2,000. This benefit would not exceed the initial ten-year phase-in limitation applicable to A, or $9,000 ($90,000 times 1/10).

Effective 1992, the plan is amended to provide a benefit equal to sum of 1% of compensation for each year of service after 1987 but before 1992, and 4% of compensation for each year of service after 1991. As of the end of 1992, A's accrued benefit under the plan (prior to application of the phase-in limitations) would be $16,000. This benefit would not exceed the initial ten-year phase-in limitation applicable to A, or $45,000 ($90,000 times 5/10). In addition, the benefit attributable to the change in benefit structure effective in 1992 may not exceed the ten-year phase-in limitation for such change applicable to A. This limitation is $9,000 in 1992 ($90,000 times 1/10). A's benefit attributable to such change is equal to $6,000: A's accrued benefit in 1992 ($16,000) less the benefit A would have accrued under the plan in effect prior to such change (1% time $200,000 times 5 years, or $10,000). Since the benefit attributable to the change ($6,000) is less than the separate ten-year phase-in limitation applicable to such change ($9,000), the limitation is satisfied.

Effective 1993, the plan is amended to provide a benefit equal to sum of 1% of compensation for each year of service after 1987 but before 1992, and 4% of compensation for each year of service after 1991 but before 1993, and 8% of compensation for each year of service after 1992. As of the end of 1993, A's accrued benefit under the plan (prior to application of the phase-in limitations) would be $32,000. This benefit would not exceed the initial ten-year phase-in limitation applicable to A, of $54,000 ($90,000 times 6/10). In addition, the benefit attributable to the change in benefit structure effective in 1992 may not exceed the ten-year phase-in limitation for such change applicable to A. This limitation is $18,000 in 1993 ($90,000 times 2/10) A's benefit attributable to such change is equal to $20,000: A's accrued benefit in 1993, determined without regard to the limitations of section 415(b)(5)(D), ($32,000) less the benefit A would have accrued under the plan in effect prior to such change (1% time $200,000 times 6 years, or $12,000). Since the benefit attributable to the change ($20,000) would exceed the separate ten-year phase-in limitation, A cannot accrue the full benefit. The plan must limit A's benefit attributable to the change in benefit structure to $18,000 instead of $20,000, which means that A's total accrued benefit as of the year cannot exceed $30,000.

Finally, the benefit attributable to the change in benefit structure effective in 1993 may not exceed the ten-year phase-in limitation for such change applicable to A. This limitation is $9,000 in 1993 ($90,000 times 1/10). A's benefit attributable to such change is equal to $6,000: A's accrued benefit in 1993 ($30,000)(determined after application of the relevant phase- in limitations to prior changes in benefit structure) less the benefit A would have accrued under the plan in effect prior to such change (1% times $200,000 times 4 years plus 4% times $200,000 times 2 years, or $24,000). Since the benefit attributable to the change ($6,000) does not exceed the separate ten-year phase-in limitation, the limitation is satisfied.

If the plan is funded using the unit credit method, only $9,000 of the increase in accrued benefit during 1993 is used to determine the normal cost of the plan. The remaining $5,000 is allocated to past service liability and gives rise to an amortization base for purposes of sections 404 and 412 of the Code.

Modification of Notice 87-21 Regarding Section 415(b)(5)(D)

Except to the extent otherwise specified in future regulations, the 10-year phase-in of section 415(b)(5)(D) will apply under future regulations to all changes in the benefit structure of a plan, other than changes adopted and made effective prior to the later of May 17, 1989, or the effective date of the amendments to section 415 of the Code made by TRA '86. Future regulations under section 415 may except certain changes increasing benefits which are not primarily for the benefit of highly compensated participants from the application of section 415(b)(5)(D). Thus, except as provided in future regulations, a plan amendment changing the benefit structure of a plan that is effective on or after the later of May 17, 1989, or the effective date of the amendments to section 415 of the Code made by TRA '86 will be subject to section 415(b)(5)(D) even if the amendment is adopted prior to such date.

Administrative Pronouncement

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure

---

Nonconventional Source Fuel Credit; Publication of Inflation Adjustment Factor and Reference Price for Calendar Year 1988

Notice 89-46

AGENCY: Internal Revenue Service, Treasury.

ACTION: Publication of inflation adjustment factor and reference price for calendar year 1988 as required by section 29(d)(2)(A) of the Internal Revenue Code (26 U.S.C. 29(d)(2)(A)) (formerly section 44D, renumbered by the Deficit Reduction Act of 1984).

SUMMARY: The inflation adjustment factor and reference price are used in determining the availability of the tax credit for production of fuel from nonconventional sources under section 29 of the Internal Revenue Code.

DATE: The 1988 inflation adjustment factor and reference price apply to qualified fuels sold during calendar year 1988.

Inflation factor: The inflation adjustment factor for calendar year 1988 is 1.5483.

*Price:*The reference price for all qualified fuels is $12.57 per equivalent barrel for the 1988 calendar year.

Because the above reference price does not exceed $23.50 multiplied by the inflation adjustment factor, the phaseout of credit provided for in section 29(b)(1) of the Internal Revenue Code does not occur for any qualified fuel based on the above reference price.

Kenneth Klein,

Acting Associate Chief Counsel (Technical).

(Filed by the Office of the Federal Register on March 20, 1989, 8:45 a.m., and published in the Issue of the Federal Register for March 21, 1989, 54 F.R. 11604)

Additional to Tax—Overstatement of Pension Liabilities

Notice 89-47

This Notice provides guidance in the form of questions and answers with respect to the addition to tax for the overstatement of pension liabilities imposed under section 6659A of the Internal Revenue Code of 1986 ("Code").

Q-1. *What does section 6659A of the Code provide?*

A-1. Section 6659A of the Code, which was added by section 1138 of the Tax Reform Act of 1986, Public Law 99-514, 1986-3 (Vol. 1) C.B. 1, 403, imposes an addition to tax on the taxpayer equal to a specified percentage of any income tax underpayment attributable to deductions for employer contributions to a defined benefit plan or retirement annuity plan where such deductions are based on an overstatement of liabilities under the plan.

Q-2. *When are pension liabilities considered to be overstated for purposes of applying the addition to tax imposed under section 6659A of the Code?*

A-2. There is an overstatement of pension liabilities if the actuarial determination of pension liabilities taken into account for deduction purposes, under section 404(a)(1) or (2) of the Code, exceeds the amount determined to be the correct amount of such liability. Pension liabilities are overstated, for example when the valuation of such liabilities is based on unreasonable actuarial assumptions or methods that accelerate deductions either in a manner that is inconsistent with the regulations under section 412 relating to acceptable funding methods, or by taking into account benefits in excess of those permitted under section 415. Also, an overstatement of pension liabilities may occur in any case where the Service has determined that deductions are to be disallowed because liabilities are overstated for other reasons based on the facts and circumstances.

Q-3. *How is the amount of the underpayment of income tax attributable to the overstatement of liabilities determined?*

A-3. The underpayment of income tax resulting from an overstatement of pension liabilities is the excess of the taxpayer's (1) tax liability (recalculated by substituting an acceptable valuation of pension liabilities for the overstated valuation) over (2) the tax liability including the deduction based on the overstated pension liabilities. The underpayment is to be determined after taking into account all other proper adjustments.

Q-4. *How is the applicable percentage that is applied to the underpayment of income tax for purposes of calculating the addition to tax determined?*

A-4. The applicable percentage is based on the magnitude of the disallowed excess deduction resulting from the overstatement of liabilities. The applicable percentage is determined by calculating what the "deduction claimed" is as a percentage of the "correct deduction". Thus, the deduction claimed is divided by the correct deduction. The "deduction claimed" is as a percentage of the "correct deduction". Thus, the deduction claimed is divided by the correct deduction. The "deduction claimed" is the deduction actually claimed on the taxpayer's return for contributions to a defined benefit plan or retirement annuity plan based on an overstatement of liabilities under the plan. The "correct deduction" is the maximum deduction that may be claimed for the contributions made to a plan under section 404(a)(1) or 404(a)(2) of the Code, based on an acceptable valuation of pension liabilities under the plan.

The applicable percentage of underpayment of tax due to the overstatement of pension liabilities is determined from the following table:

If the deduction claimed is the following percent of the correct deduction:	— the applicable — percentage is:
Less than 150 percent	0
150 percent or more but not more than 200 percent	10
More than 200 percent but not more than 250 percent	20
More than 250 percent	30

Q-5. *How is the addition to tax computed?*

A-5. The addition to tax is computed by multiplying the underpayment of tax attributable to the overstatement of pension liabilities described in Q-3 by the applicable percentage described in Q-4. The following example illustrates the calculation of the addition to tax.

Assume that the taxpayer's taxable income stated in Form 1120 is $300,000, and the tax liability on such income is $100,250.

In determining the amount of taxable income, the taxpayer accounted for various deductions including an $80,000 deduction for contributions to a defined benefit pension plan that the employer maintains for its employees. This deduction was calculated based on pension liabilities that were valued using a 5 percent interest assumption.

Upon examination of the taxpayer's return, the Service determined that the appropriate interest assumption for valuing liabilities under the plan was 8 percent. Based on an 8 percent interest assumption the taxpayer's maximum deduction for contributions to its plan was $45,000. There were no other adjustments to the return.

Step I. Calculate the Underpayment of Tax Attributable to the Overstatement of Pension Liabilities.

(a)	Taxable Income (as stated on the return)	$300,000
(b)	Tax Liability on (a)	$100,250
(c)	Amount of Overstated Pension Liability:	
	$80,000 ("deduction claimed")	
	− 45,000 ("correct deduction")	
	$35,000	$35,000
(d)	Adjusted Taxable Income (a) + (c)	$335,000
(e)	Tax Liability on (d)	$113,900
(f)	Underpayment of Tax (e) - (b)	$13,650

Step II. Calculate the Applicable Percentage.

(a)	Deduction Claimed	\$80,000
(b)	Correct Deduction	\$45,000
(c)	Deduction Claimed as a Percentage of the Correct Deduction ((a) divided by (b))	177.78%
(d)	Applicable Percentage of Underpayment of Tax (derived from table in Q-4)	10%

Step III. Calculate the Addition to Tax.

[Understatement of Tax Attributable to the Overstatement of Pension Liabilities]	multiplied by	[Applicable Percentage]	
		(\$13,650 × 10%)	\$1,365

Q-6. *Is the 10 percent excise tax on nondeductible contributions imposed under section 4972 of the Code applicable to contributions for which deductions are disallowed and which are subject to the addition to tax imposed under section 6659A?*

A-6. Yes, section 4972 of the Code provides for the imposition of a 10 percent excise tax on contributions to a qualified employee benefit plan that are in excess of the amount allowable as a deduction under section 404. No portion of the 10 percent excise tax may be offset against the addition to tax imposed under section 6659A. It should be noted that the mere acceptance of the payment of this addition to tax by the Service does not, of itself, constitute a determination by the Service that a deduction has been disallowed for purposes of determining whether any amounts may be returned to the employer.

Q-7. *Is there a de minimis exception to the addition to tax under section 6659A of the Code?*

A-7. Yes, if the underpayment of tax for a taxable year due to an overstatement of pension liabilities is less than \$1,000, then there is no addition to tax imposed by section 6659A of the Code.

Q-8. *Can the addition to tax be waived?*

A-8. Yes, the Secretary may waive all or any part of the addition to tax provided by section 6659A of the Code if the taxpayer can show to the satisfaction of the Service that there was a reasonable basis for the deduction claimed on the return and that such deduction was claimed in good faith.

Q-9. *Would the reliance on an enrolled actuary be considered a claim made in good faith?*

A-9. No, reliance on an enrolled actuary or another professional by an employer with respect to the proper amount of the deduction does not, of itself, constitute a reasonable basis or a good faith claim.

Q-10. *When does section 6659A of the Code become effective?*

A-10. The addition to tax imposed under section 6659A of the Code is effective for overstatements of pension liabilities made after October 22, 1986. An overstatement is made when an income tax return or amended income tax return is filed claiming a deduction for contributions made to fund overstated pension liabilities. Thus, the addition to tax applies to a deduction claimed on a tax return filed after October 22, 1986, whether or not the plan year upon which the deduction was based ended before October 22, 1986.

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Penalty for Failure by Income Tax Return Preparer to Sign Return—Facsimile Signatures

Notice 89-48

The Service is in the process of amending the regulations under section 6695(b) of the Internal Revenue Code to permit the use of facsimile signatures by preparers of Forms 1041, U.S. Fiduciary Income Tax Return. Section 6695(b) of the Code provides that income tax return preparers who are required by regulations to sign returns or claims for refund prepared by them and fail to do so, shall pay a penalty of \$25.00 for each such failure unless the failure is due to reasonable cause. Currently, section 1.6695-1(b)(1) of the Income Tax Regulations generally provides that income tax return preparers must manually sign returns or claims for refund prepared by them.

The Service is aware that the manual signature requirement can create hardships for income tax return preparers responsible for the preparation of large numbers of 1041 returns that, by virtue of section 645 of the Code, must be filed on a calendar year basis. Accordingly, in Notice 88-48, 1988-1 C.B. 531, the Service announced that, under certain conditions, a facsimile signature for signing Forms 1041 would be accepted. By its terms, Notice 88-48 applied only to 1987 Forms 1041.

Pending the revision of the regulations under section 6695(b) of the Code, the Service will continue the procedures outlined in Notice 88-48. Accordingly, with respect to Forms 1041 filed for taxable years ending after December 31, 1987, and on or before the date on which further guidance is published, the Service will not assert the penalty contained in section 6695(b) against a preparer of Forms 1041 for failure to sign a return provided the preparer uses a facsimile signature in signing the returns and meets the following conditions:

(1) the preparer submits to the Service with the Forms 1041 bearing the preparer's facsimile signature, a letter manually signed by the preparer (a) listing the taxpayer's name and identification number shown on each Form 1041 bearing the facsimile signature, and (b) containing a declaration, under penalties of perjury, that the facsimile signature appearing on each return is the signature used by the preparer to sign the return;

(2) after the facsimile signature is affixed, no person other than the preparer may alter any entries on the Form 1041 other than to correct arithmetic errors discernible on the return; and

(3)(a) the employer of the preparer, or (b) the partnership in which the preparer is a member, or (c) the preparer (if neither (a) nor (b) applies), retains and makes available, upon request by the Service, a manually signed copy of the letter submitted to the Service with the returns and a record of any arithmetic errors corrected.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Business Use of Automobiles by Rural Mail Carriers

Notice 89-49

PURPOSE

This notice provides guidance to employees of the United States Postal Service regarding the tax deduction for the costs of operating an automobile in the collection and delivery of mail on a rural route.

BACKGROUND

Section 162(a) of the Internal Revenue Code allows a deduction for all the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business. Under section 162(a)(and subject to any applicable limitations and restrictions in other provisions of the Code), an employee may deduct the cost of operating an automobile to the extent that it is used in a trade or business.

In order to relieve taxpayers of the burden of maintaining the detailed records necessary to compute the actual expense of operating an automobile for business purposes, the Internal Revenue Service allows taxpayers to compute the deductible costs of operating passenger automobiles (including vans, pickups, or panel trucks) under a simplified, optional method based on standard mileage rates.

Rev. Proc. 82-61, 1982-2 C.B. 849, contains the basic rules for using the optional method based on standard mileage rates. It provides that the costs attributable to business use of an automobile are computed by multiplying the business-use mileage by the cost per mile of use determined at the standard mileage rates for the period in which the use occurs.

Two standard mileage rates apply to the business use of an automobile. The business-use mileage to which the higher rate (the basic standard mileage rate) applies is limited to 15,000 miles per year (the 15,000-mile annual limitation) and to 60,000 miles over the life of the automobile (the 60,000-mile cumulative limitation). The lower rate (the lesser standard mileage rate) applies to business-use mileage that exceeds either of these limitations. The Service periodically issues revenue procedures adjusting the standard mileage rates. For 1988, Rev. Proc. 88-52, 1988-2 C.B. 711, provides that the basic standard mileage rate is 24 cents a mile and the lesser standard mileage rate is 11 cents a mile.

AMOUNT OF DEDUCTION FOR RURAL MAIL CARRIERS

For taxable years beginning after December 31, 1987, section 6008 of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647, 102 Stat. 3342 (the Act), allows employees of the United States Postal Service to use a special mileage rate in computing the amount allowable as a deduction for business use of an automobile in performing qualifying services. Qualifying services are services involving the collection and delivery of mail on a "rural route," as that term is defined by the Postal Service. The special mileage rate is equal to 150 percent of the basic standard mileage rate, and is 36 cents per mile for 1988 (150 percent of the basic standard mileage rate of 24 cents per mile). The special mileage rate applies to all business use of an automobile while performing qualifying services, including use that exceeds the 15,000-mile annual limitation or 60,000-mile cumulative limitation.

If an automobile that is used by a Postal Service employee to perform qualifying services is also used in another trade or business, the standard mileage rates may be used in computing the deductible automobile expenses attributable to that other trade or business. The mileage for which deductions are computed at the special mileage rate, although not subject to the 15,000-mile annual and 60,000-mile cumulative limitations, is counted against those limitations in determining the extent to which business-use mileage in the other trade or business qualifies for the basic standard mileage rate. For example, assume that Postal Service employee *A*, a calendar year taxpayer, owns an automobile and that deductions for 8,000 miles of business use of the automobile were computed at the basic standard mileage rate for taxable years prior to 1988. During 1988, *A* drives the automobile 9,000 miles in performing qualifying services and 7,000 miles in another trade or business, for a total of 16,000 miles of business use. For taxable year 1988, *A* may use the special mileage rate of 36 cents per mile for 9,000 miles, the basic standard mileage rate of 24 cents per mile for 6,000 (15,000 - 9,000) miles, and the lesser standard mileage rate of 11 cents per mile for 1,000 (16,000 - 15,000) miles. At the end of 1988, 23,000 (8,000 + 15,000) miles of business use are counted against the 60,000-mile cumulative limitation in determining the extent to which business-use mileage in the other trade or business qualifies for the basic standard mileage rate. If, for 1988, *A* had instead driven the automobile 18,000 miles in performing qualifying services and 2,000 miles in another trade or business, *A* would be able to use the special mileage rate of 36 cents per mile for 18,000 miles and the lesser standard mileage rate of 11 cents per mile for 2,000 miles. At the end of 1988, 26,000 (8,000 + 18,000) miles of business use would be counted against the 60,000-mile cumulative limitation in determining the extent to which business-use mileage in the other trade or business qualifies for the basic standard mileage rate.

A deduction computed using the special mileage rate is in lieu of all operating and fixed costs of the automobile allocable to business use of an automobile in performing qualifying services. Such items as depreciation, maintenance and repairs, tires, gasoline, oil, insurance, and registration fees are included in operating and fixed costs, and may not be deducted as separate items. However, interest and state and local taxes on the automobile are deductible as separate items to the extent they are otherwise allowable under sections 163 and 164 of the Code, respectively.

In determining the adjusted basis of an automobile used to perform qualifying services, depreciation is considered to be allowed only with respect to business-use mileage that qualifies for either the basic standard mileage rate or the special mileage rate. Depreciation with respect to such business-use mileage is considered to be allowed at the depreciation rate specified by the Service in the revenue procedure establishing the standard mileage rates for the period in which the use occurs. For 1988, section 2.02 of Rev. Proc. 88-52 provides that the depreciation rate is 10.5 cents a mile. An automobile will be considered fully depreciated, and no further adjustments for depreciation will be required, when its adjusted basis is reduced to zero.

AVAILABILITY OF THE SPECIAL MILEAGE RATE

Section 6008 of the Act provides that the special mileage rate is not available for any automobile if, for any taxable year beginning after December 31, 1987, the employee claims depreciation for such automobile. Depreciation means the deduction of any amount under section 167, 168, or 179 of the Code (including any such deduction attributable to use in a trade or business that does not involve the performance of qualifying services). The availability of the special rate is not affected by depreciation claimed for taxable years beginning before January 1, 1988. Thus, the special mileage rate is available even if the automobile was fully depreciated in taxable years beginning before January 1, 1988, and regardless of the year the automobile was placed in service.

For purposes of using the special mileage rate, the term ''automobile'' includes vans, pickups, or panel trucks. The employee must own the automobile for which the special mileage rate is claimed. If the employee uses more than one automobile to perform the qualifying services, the special mileage rate may be used to compute the amount allowable as a deduction for all such use of each of the automobiles.

MANNER OF DEDUCTION

Eligible Postal Service employees should file Form 2106, Employed Business Expenses, to use the special mileage rate. If other employee business expenses are to be claimed, the employee should file one Form 2106 for the other business expenses and a separate Form 2106 for the use of the special mileage rate. Form 2106 has not been amended to accommodate the use of the special mileage rate so the instructions contained in this notice should be followed insofar as they conflict with language on Form 2106 or in its instructions. The following modifications apply in the preparation of Form 2106 for use of the special mileage rate: (1) the total number of miles driven to perform qualifying services in the taxable year should be entered on line 3 of Part II Section A and also on line 11 of Part II Section B of Form 2106 even if that total number of miles is more than 15,000 miles; (2) on line 13 of Part II Section B, the total number of miles on line 11 should be multiplied by 36 cents rather than by 24 cents; (3) zeroes should be entered on lines 12 and 14 of Part II Section B.

SCOPE

The special mileage rate of 36 cents per mile is applicable to the business use of an automobile to perform qualifying services during 1988. As stated above, the amount of the basic standard mileage rate, on which the special mileage rate is based, is subject to periodic adjustment, and thus the special mileage rate is subject to a corresponding periodic adjustment.

PROCEDURAL INFORMATION

This notice serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Foreign Government Statement Claiming Exemption from Withholding

Notice 89-50

The purpose of this notice is to provide further guidance to taxpayers regarding the temporary and proposed regulations under sections 892 and 1441 of the Internal Revenue Code of 1986 that were published in the Federal Register as T.D. 8211 on June 27, 1988 (53 Fed. Reg. 24060).

Effective Date

The notice of proposed rulemaking by cross-reference to temporary regulations published in the Federal Register on June 27, 1988 (53 Fed. Reg. 24100), and the preamble to T.D. 8211 erroneously state that the temporary regulations are effective for taxable years beginning after June 30, 1986. As set forth in section 1.892.1T(b) of the Temporary Income Tax Regulations, the final regulations will clarify that they are effective with respect to income received after June 30, 1986.

Withholding

Sections 1.892-7T and 1.1441-8T(a) of the temporary regulations provide rules concerning the application of certain withholding taxes to foreign governments and international organizations (Foreign Governments). The regulations generally provide that no withholding is required under sections 1441 and 1442 of the Code on income exempt from taxation under section 892. The final regulations, when published, will modify and clarify the provisions of section 1.1441-8T(b) concerning the statements provided by Foreign Governments to withholding agents with regard to income that is exempt from taxation under section 892. In particular, the final regulations will provide the following:

1. Except in the circumstances described in (2) below, a withholding agent that obtains, pursuant to section 1.1441-8T(b) of the temporary regulations, a statement under penalties of perjury or a form prescribed by the Internal Revenue Service (Statement) from a Foreign Government is excused from any liability otherwise imposed under section 1461 with respect to the income covered by the Statement (even if it is later determined that the income was not in fact exempt). The Statement must describe the nature of the item(s) of income to which it applies. It does not have to specify the amount of income nor identify the income on an investment by investment basis.
2. A Statement does not protect a withholding agent from liability if the withholding agent knows or has reason to know at the time the payment is made that the income is not in fact exempt from taxation under section 892.
3. While, the receipt of a Statement is not mandatory, a withholding agent that fails to obtain a Statement and that fails to establish otherwise that the income was exempt under section 892 will remain fully liable under section 1461.
4. A withholding agent may demand that a Foreign Government provide a Statement as specified in the regulations (and modified by the above provisions) rather than relying on other means to determine that income qualifies for exemption under section 892. If a Foreign Government does not provide a Statement, the withholding agent may withhold tax under section 1441 or 1442, and will be considered for purposes of sections 1461 through 1463 to have been required to withhold such tax.

Prior to the issuance of final regulations, a taxpayer may rely on the above provisions regarding the filing of Statements claiming exemption from withholding under section 1.1441-8T(b) of the temporary regulations. The Internal

Revenue Service has developed Form 8709 for use by Foreign Governments in lieu of the written statement described in the regulations. Form 8709 is currently available and may be obtained by contacting the appropriate IRS Forms Distribution Center for the taxpayer's state.

Pension Trusts

Pursuant to section 1.892-5T(b)(3) of the temporary regulations a pension trust described in section 1.892-2T(c) shall not be treated as a controlled commercial entity if none of its income would be considered unrelated business taxable income (UBTI) (as defined in section 512(a)(1) of the Code) if the trust were a qualified trust described in section 401(a). If some, but not all of the income of the pension trust consists of UBTI, the determination of whether or not the trust is a controlled commercial entity will be made by applying the rules of section 1.892-4T taking into account all the facts and circumstances surrounding the activities of the trust.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Procedures Involving Taxpayer Interviews

Notice 89-51

This notice provides guidance with respect to the definition of a "taxpayer interview" and procedures for audio recording by taxpayers of taxpayer interviews, as authorized by section 7520 of the Internal Revenue Code. Section 7520 was enacted by the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), Public Law 100-647, as part of the Omnibus Taxpayer Bill of Rights, and is effective for taxpayer interviews conducted after February 9, 1989. Pursuant to section 7520, regulations are to be issued in 1989 to provide guidance with respect to "time and place of examination" as provided in section 7605(a).

Section 7520(a) of the Code provides that any officer or employee of the Internal Revenue Service, in connection with any in-person interview with any taxpayer relating to the determination or collection of any tax, shall, upon the advance request of such taxpayer, allow the taxpayer to make an audio recording of such interview at the taxpayer's own expense and with the taxpayer's own equipment. This section also provides for recording by Service personnel if the taxpayer is notified prior to the interview. The Service must provide the taxpayer with a transcript or copy of such recording upon request, but only if the taxpayer provides reimbursement for the cost of the transcript and reproduction of such transcript or copy.

In the case of an in-person interview relating to the determination or collection of any tax, section 7520(b)(1) of the Code provides that an employee of the Service must provide the taxpayer with an explanation of the audit process or the collection process, and the taxpayer's rights thereunder, prior to or at the initial interview.

Section 7520(b)(2) of the Code provides that if the taxpayer clearly states to an officer or employee of the Service at any time during any interview (other than an interview initiated by an administrative summons) that he or she wishes to consult with an attorney, certified public accountant, enrolled agent, enrolled actuary, or any other person permitted to represent the taxpayer before the Service, then such officer or employee must suspend the interview regardless of whether the taxpayer has answered one or more questions up to that point.

For purposes of section 7520 of the Code, the term "taxpayer interview" means a meeting between an officer or employee of the Examination function, the Employee Plans and Exempt Organization function, or the Collection function of the Service, and a taxpayer or authorized representative, as defined in section 7520(b)(2), when the determination or the collection of any tax is at issue.

PROCEDURES FOR AUDIO RECORDINGS OF TAXPAYER INTERVIEWS DURING EXAMINATION AND COLLECTION PROCEEDINGS:

(1) Requests by taxpayers or their authorized representatives to make audio recordings of examination or collection proceedings, will be approved by the Service official or employee conducting the interview under the following conditions:

(a) the taxpayer or authorized representative supplies the recording equipment;

(b) the Service may produce its own recording of the proceedings;

(c) the recording takes place in a suitable location, ordinarily in an Internal Revenue Service office where equipment is available to produce the Service's recording; and

(d) All participants in the proceeding other than Service personnel must consent to the making of the audio recording and all participants must identify themselves and their roles in the proceeding.

(2) Requests by taxpayers or authorized representatives to make audio recordings of examination proceedings or collection proceedings must be addressed to the officer or employee of the Service who is conducting the interview and must be received by the Service no later than 10 calendar days prior to the interview that is to be recorded. If 10 calendar days' advance notice of intent to record is not given, the Service may, in its discretion, conduct the interview as scheduled or set a new date.

(3) When the Service intends to record a taxpayer interview that is part of an examination or collection proceeding, it will so inform the taxpayer or authorized representative no later than 10 calendar days prior to the interview that is to be recorded. This requirement does not apply where the taxpayer has already submitted a request to make a recording and the Service is merely seeking to make its own recording.

(4) Requests by taxpayers or their authorized representatives for a copy or transcript of an audio recording produced by the Service must be addressed to the official or representative conducting the interview and must be received by the Service no later than 30 calendar days after the date of the recording. However, the Service will attempt to accommodate requests received at a later date. All requests must be accompanied by payment of the costs of duplication or transcription.

(5) At the outset of the recording, the official or employee conducting an examination or meeting that is to be recorded will identify himself or herself, the date, the time, the place, and the purpose of the proceeding.

(6) When written records are presented or discussed during the proceeding, they must be described in sufficient detail to make the audio recording a meaningful record when matched with the other documentation contained in the case file.

(7) At the conclusion of the proceeding, the Service official or employee will state that the proceeding has been completed and that the recording is ended.

LEGAL EFFECT: This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Required Quarterly Contributions; Amortization of Experience Losses (Gains)

Notice 89-52

This notice provides guidance, in the form of questions and answers, with respect to the requirement that contributions to pension plans be made in quarterly installments under section 412(m) of the Internal Revenue Code as added by section 9304(b) of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87). In addition, this notice provides a transitional rule regarding the amortization period for experience gains and losses determined in the valuation for plan years beginning on January 1, 1988.

BACKGROUND

Section 9304(a) of OBRA '87 amended section 412(c)(10) for plan years beginning after December 31, 1987, to provide that the minimum funding requirements for pension plans that are not multiemployer plans (''nonmultiemployer plans'') for a plan year is satisfied as of the last day of such plan year if the required payment is made within eight and one-half months after the last day of such plan year.

Section 9304(b) of OBRA '87 added section 412(m) for plan years beginning after December 31, 1988 to require that a portion of the required minimum funding for a nonmultiemployer plan for a plan year be contributed by the employer in quarterly installments within 15 days after the end of each quarter of the plan year.

Section 412(m)(2)(C) provides that contributions are credited against unpaid required installments in the order in which such installments are required to be paid.

Section 9307(a)(1) of OBRA '87 also amended section 412(b) for plan years beginning after December 31, 1987 to provide that experience losses and gains for nonmultiemployer plans be amortized over a 5-year period instead of a 15-year period.

QUESTIONS AND ANSWERS

Q-1: When are quarterly installments due?

A-1: Section 412(m)(3) requires that starting with the first plan year beginning in 1989, quarterly installments are due 15 days after the end of each quarter. For example, in the case of a calendar year plan, the first installment for the current plan year is due April 15th of such year.

Subsequent installments are due July 15th and October 15th of the current year and January 15th of the following plan year.

Q-2: What are the consequences of a late payment of a quarterly installment?

A-2: Section 412(b)(5) requires that the funding standard account (''FSA'') be charged with interest at the appropriate rate, consistent with the rate or rates of interest used under the plan to determine costs (the ''applicable interest rate for the FSA''). However, if there is a late payment of a quarterly installment, a portion of the interest charged to the FSA is based on the rate required under section 412(m)(1). The amount of interest charged to the FSA attributable to the late amount is based on 175% of the Federal mid-term rate (as in effect under section 1274 for the first month of the plan year) or if greater, the otherwise applicable interest rate for the FSA. The interest is charged from the due date to the date the late amount is actually contributed (regardless of the date such contribution is deemed to have been contributed under section 412(c)(10)). However, with respect to the first quarterly installment for the 1989 plan year, the interest rate under section 412(m)(1)-(A) (i.e., 175% of the Federal mid-term rate) will not apply until 30 days after the publication of this notice in the Internal Revenue Bulletin.

Furthermore, for a nonmultiemployer defined benefit plan, if the aggregate amount of all underpayments of quarterly installments and other payments required under section 412 exceeds $1,000,000, a lien in favor of the plan may arise under section 412(n) on the property of the person who failed to make the payment to the plan.

Example 1 — Assume for a calendar year plan year, a required installment of $6,250 is due April 15, 1989, but is not actually contributed until June 15, 1989. Further, assume that the interest rate under section 412(b)(5) is 8.00% and 175% of the Federal mid-term rate in effect on January 1, 1989 is 16.41%. (For purposes of this example, the extension of the date from which 412(m)(1)(A) applies is not considered.) The interest charge to the 1989 FSA, before reflecting the requirements of section 412(m), is based on 8.00%. However, for the two-month period of underpayment of the quarterly installment the rate used to determine the interest charge on the late installment is 16.41%. The amount of interest charged to the 1989 FSA, attributable to the two month period of underpayment of the $6,250 required installment, is $160 [($6,250 times $1.1641^{2/12}$) minus $6,250]. Had the required installment been timely contributed, the charge would have been $81 [($6,250 times $1.08^{2/12}$) minus $6,250]. (Of course, there would also have been an interest credit in the 1989 FSA of $81 on account of such contribution.) Therefore, an additional $79 [$160 — $81] is charged to the 1989 FSA as a result of the late payment.

Example 2 — Assume the same facts as in Example 1, except that the April 15th required installment of $6,250 is not paid until September 15, 1990. (For purposes of this example, the extension of the date from which section 412(m)(1)(A) applies is not considered.) Under section 412(b) interest is charged to the FSA only to the end of the plan year. Under section 412(m)(1), however, interest is charged for the full period of underpayment, or in this case, seventeen months. By applying the higher interest rate for the entire period of underpayment, the interest charged to the 1989 FSA attributable to the late installment is $1,501 [($6,250 times $1.1641^{17/12}$) minus $6,250]. Had the required installment been timely contributed, the charge would have been $350 [($6,250 times $1.08^{8.5/12}$) minus $6,250]. (Of course, there would also have been an interest credit in the 1989 FSA of $350 on account of such contribution.) Therefore, an additional $1,151 [$1,501 — $350] is charged to the FSA as a result of the late payment.

Q-3: Does the interest charge on late quarterly installments apply to money purchase pension plans?

A-3: No interest is charged under section 412(m)(1) on late or unpaid quarterly installments required for money purchase pension plans (including target benefit defined contribution plans).

Q-4: What is the amount of a quarterly installment?

A-4: In general, each quarterly installment is equal to the applicable percentage of the Required Annual Payment (''RAP''). Additional adjustments may be required in the case of a plan with an unpredictable contingent event liability. The RAP for any plan year is the lesser of 90% of the amount required to be contributed to the plan under section 412 for the current plan year (adjusted to the beginning of the plan year) or 100% of the amount required to be contributed to the plan for the preceding plan year. If the preceding plan year was not a twelve-month plan year, the RAP for the plan year is 90% of the amount required to be contributed under section 412 for the current plan year (See Example 3, Q&A-10).

The amount required to be contributed to the plan for a plan year (''minimum funding requirement'') is the amount necessary to avoid a funding deficiency as of the end of that plan year. This amount is generally determined by reference to the Schedule B filed for the applicable plan year. If the amount required to be contributed is restricted by the full funding limitation of section 412(c)(7), such limitation is the minimum funding requirement for such plan year. Contributions made for the preceding year are disregarded in determining 100% of the preceding year's minimum funding requirement and contributions made for the current year are disregarded in determining 90% of the current year's minimum funding requirement.

An example of the calculation of the amount of a quarterly installment is provided in Q&A-10.

Q-5: What is the applicable percentage of the RAP that must be paid in each quarterly installment?

A-5: Section 412(m)(4)(C) defines the applicable percentage to be 6.25% for plan years beginning in 1989, 12.5% for plan years beginning in 1990, 18.75% for plan years beginning in 1991 and 25% for plan years beginning after 1991.

Q-6: Is a credit balance taken into account in determining the RAP?

A-6: The minimum funding requirement for a plan year is determined without regard to any credit balance as of the beginning of such plan year.

For example, to calculate the RAP for a 1989 calendar plan year, a credit balance as of December 31, 1987 is disregarded in determining 100% of the preceding plan year's minimum funding requirement and a credit balance as of December 31, 1988 is disregarded in determining 90% of the current year's minimum funding requirement.

Q&A-12 addresses the issue of treating a credit balance as payment of all or a portion of a quarterly installment.

Q-7: Is an accumulated funding deficiency taken into account in determining the RAP?

A-7: In determining 100% of the preceding year's minimum funding requirement, the employer must take into account any accumulated funding deficiency that existed as of the beginning of such preceding plan year.

In determining 90% of the current year's minimum funding requirement, the employer must take into account any accumulated funding deficiency that existed at the beginning of the current plan year. However, because the first two quarterly installments are due before the end of the 8½ month period during which contributions may be made for the preceding plan year, the quarterly installment may be determined without reflecting such deficiency. If at the end of the 8½ month period, it is established that an accumulated funding deficiency did exist at the beginning of the current plan year, the employer must recalculate the quarterly installment amount taking into account such deficiency. To the extent that this recalculation indicates an underpayment of any installment previously made, the rules regarding interest charges and liens under section 412(m)(1) and (n) apply.

For example, for a plan year beginning on January 1, 1989, an employer may disregard an accumulated funding deficiency existing on such date in calculating the amount of the 1989 quarterly installments as long as the employer contributes an amount necessary to cure the deficiency on or before September 15, 1989. If the accumulated funding deficiency has not been cured on or before September 15, 1989, the amount of the quarterly installments for 1989 must be recalculated so that the 1989 minimum funding requirement will reflect any accumulated funding deficiency existing on January 1, 1989.

Q-8: Is a minimum funding requirement that was waived in accordance with section 412(d) taken into account in determining the RAP?

A-8: If the minimum funding requirement for the preceding plan year has been waived, the determination of 100% of the preceding year's minimum funding requirement is made as if no amount was waived. In addition, any amortization charges resulting from a funding waiver for an earlier plan year are included in the determination of the minimum funding requirement for both the current plan year and the preceding plan year.

For example, to calculate the RAP for a 1989 calendar plan year assuming a waiver was granted for a portion of the minimum funding requirement for 1988, such waiver is disregarded in determining 100% of the preceding year's minimum funding requirement. The amortization of the waived amount is included in determining 90% of the current year's minimum funding requirement.

The determination of 90% of the current year's minimum funding requirement should generally be made assuming that no waiver will be granted for the current plan year. If any amount is disregarded in anticipation of a waiver of such amount for the current plan year, and such waiver is subsequently denied, the rules regarding interest charges and liens under section 412(m)(1) and (n) apply.

Q-9: How is the current year's RAP determined if a plan used the alternative minimum funding standard described in section 412(g) in either the preceding plan year or the current plan year?

A-9: The RAP for any plan year is based on the funding standards used for the preceding plan year and current plan year. For example, assume that a plan uses the alternative minimum funding standard in 1988 and uses the regular funding standard in 1989. The 1989 RAP is the lesser of 100% of the minimum funding requirement for 1988, based on the alternative funding standard or 90% of the minimum funding requirement for 1989, based on the regular minimum funding standard.

Q-10: How is the amount of the first quarterly installment, as well as subsequent required installments, determined?

A-10: In general, the amount of each quarterly installment for a plan year is determined by multiplying the RAP by the applicable percentage for the plan year. Each installment made during the plan year is credited with the appropriate amount of interest to the FSA from the contribution date to the end of the plan year.

To the extent that a quarterly installment is made before the due date, interest credited for the period before such installment was due may be used to reduce the amount necessary to meet a future installment for the same plan year. Similarly, if an amount in excess of the quarterly installment is contributed, such excess (and interest credited with respect to such excess) may be used to reduce the amount needed to meet a future installment. Q&A-14 illustrates how this is done.

Example 3 — In determining the amount of the quarterly installments for the 1989 plan year for a calendar year plan, assume the 1988 minimum funding requirement as of December 31, 1988 is $100,000, and the 1989 minimum requirement as of December 31, 1989 is $125,000. First, adjust the $125,000 amount for 1989 by discounting at the appropriate interest rate(s) to determine the minimum funding requirement at the beginning of the plan year (8% for purposes of this example). Next determine the lesser of 90% of the discounted $125,000 amount for 1989 or 100% of the $100,000 amount for 1988. The final step is to multiply the lesser amount, the 1989 RAP, by the applicable percentage.

A summary follows:

(1) 1988 amount due 12/31/88 ...	.. $100,000
(2) 1989 amount due 12/31/89	$125,000
(3) 1989 amount discounted to 1/1/89 [(2)/1.08]	$115,741
(4) 90% of (3)	.. $104,167
(5) 1989 RAP [lesser of (1) or (4)]	... $100,000
(6) Applicable percentage	6.25%
(7) Amount of each quarterly installment [(5)x(6)]	$ 6,250

In this case, the amount of each quarterly installment for 1989 is equal to $6,250. The first installment is due on or before April 15, 1989. The required amount of each subsequent installment is also $6,250 and the respective due dates are July 15, 1989, October 15, 1989, and January 15, 1990.

Q-11: Are contributions made during the 8½ month period following the end of a plan year considered contributions for the prior plan year or the current plan year?

A-11: Contributions for a plan year may be contributed at any time during that plan year. In addition, section 412(c)(10) allows contributions made within the 8½ month period following the end of a plan year to be deemed to have been made on the last day of such plan year.

An employer may designate whether contributions made during the 8½ month period following the end of a plan year are made for the current plan year (the year in which the contributions were made) or the prior plan year, but not for a future plan year. Contributions may be designated for only one plan year. This designation is reported on Schedule B of Form 5500. If no designation is made, a contribution is treated as designated for the plan year in which it is made. The FSA for a plan year is credited with all contributions designated to be made for such plan year.

Example 4 — Assume the same facts as in Example 3. In addition, assume that the employer did not make any contribution for the 1988 plan year by the end of 1988. The employer contributed $6,250 on April 10, 1989, $6,250 on July 10, 1989, and $100,000 on September 10, 1989. The employer designated the first two of these contributions as being made for the 1989 plan year (amounts necessary to meet the requirements of section 412(m) for the 1989 plan year) and the third contribution as being made for the 1988 plan year.

Only the third contribution (the September 10, 1989 contribution) is credited to the 1988 FSA. The first two contributions are reported on the 1989 Schedule B and are credited to the 1989 FSA with the applicable interest adjustments.

This notice does not consider and has no effect on the designation of the year with respect to employer contributions for purposes of section 404(a)(1) or (6).

Q-12: May an employer treat all or a portion of a credit balance in a plan's FSA as a payment of a quarterly installment?

A-12: An employer may treat all or a portion of a credit balance in a plan's FSA as a payment of a quarterly installment.

Example 5 — Assume the same facts as Example 3, except that an amount in excess of the 1988 minimum funding requirement was contributed during 1988 and that such contribution resulted in a credit balance of $10,000 on December 31, 1988. It was determined in Example 3 that the amount of the first quarterly installment due on April 15, 1989 is $6,250. At that time, the credit balance, with three and a half months' interest, equals $10,227. Even if no contribution is made by April 15, 1989, the first installment requirement is satisfied because the credit balance with interest exceeds the amount of the quarterly installment due. The amount of excess, $3,977, with three months' interest to the due date of the second installment, is $4,054 and may be used to reduce the amount required to be contributed for the second installment. Therefore, as long as $2,196 [$6,250 — $4,054] is contributed by July 15, 1989, the second installment requirement will be satisfied. The full $6,250 must be contributed for the third and fourth installments unless additional contributions are made for the 1988 plan year on or before September 15, 1989.

Contributions for the prior plan year will not be reflected in the determination of any credit balance until they are actually contributed to the plan. The intent to contribute the required amount within 8½ months after the end of the prior plan year is not sufficient. For example, in the previous example, if no contribution for the 1988 plan year had been made by April 15, 1989, no credit balance could have been taken into account in determining the amount needed to satisfy the first installment requirement, unless the amount of credit balance as of December 31, 1987 was greater than the 1988 minimum required contribution.

Q-13: Are quarterly installments required for the first plan year to which section 412 applies?

A-13: Quarterly installments are not required for the first plan year to which section 412 applies.

Q-14: If the amount contributed is in excess of the required quarterly installment (either due to an overpayment or a contribution made prior to the due date with no interest adjustment), may such overpayment be used to reduce the payment of a subsequent quarterly installment?

A-14: The overpayment of a quarterly installment may be used to reduce the payment necessary to satisfy a subsequent quarterly installment for the same plan year.

Example 6 — Assume the same facts as in Example 3, except that the amount of a quarterly installment was initially determined based only on the prior year's minimum funding requirement, because the current year's requirement was not yet determined by April 15, 1989. In addition, assume that the fisrt two quarterly installments of $6,250 were contributed on April 15, 1989 and July 15, 1989. It is subsequently determined (upon completion of the current year's valuation) that the 1989 minimum funding requirement as of December 31, 1989 is $75,000 (instead of $125,000 as in Example 3). The correct quarterly installment amount is $3,906 [90% of($75,000 divided by 1.08) times .0625]. The first installment of $6,250 exceeded the required $3,906 by $2,344 as did the second. Reflecting the interest to be credited in the FSA to October 15, 1989 (the due date of the third installment), a total of $4,825 [$2,344 $\times$ $1.08^{6/12}$ plus $2,344 $\times$ $1.08^{3/12}$] has been overpaid. The third installment of $3,906 is entirely satisfied by such overpayment; the amount of overpayment is reduced to $919. After reflecting interest to December 31, 1989 (no interest is credited in the FSA after the end of the plan year), the overpayment is $934. The amount required to satisfy the final installment on January 15, 1989 is $2,972 [$3,906 − $934].

Q-15: If the 1989 valuation for a plan indicates that the quarterly installments made for the 1989 plan year exceed the deductible amount for the 1989 plan year, may the excess of the amount contributed over the deductible limit be designated as a contribution for the 1988 or 1990 plan year?

A-15: To the extent that the payments were made within the period allowed by section 412(c)(10) for the 1988 plan year, such contributions may be designated for the 1988 plan year. Contributions so designated are included in the determination of the maximum deductible amount for the 1988 plan year. Further, contributions of quarterly installments made in the 1990 plan year may be designated as contributions for the 1990 plan year.

Q-16: May all or part of the payment of a quarterly installment be returned to the employer as a mistake of fact merely because such payment is in excess of the deductible limits?

A-16: Rev. Rul. 77-200, 1977-1 C.B. 98, allows for the reversion of certain nondeductible contributions only if the amount to be returned was contributed as a result of a good faith mistake of fact. Nondeductibility is not a mistake of fact.

Future guidance will provide limited relief permitting reversions to employers of certain contributions.

Q-17: Because the first quarterly installment for any plan year is due 3½ months after the end of the preceding plan year and the amount of such installment is based on the minimum funding requirement for the preceding plan year, must the valuation for the preceding plan year be finalized within such 3½ month period, even though contributions for such plan year are not required to be made until 8½ months after the end of such plan year?

A-17: Valuations need not be finalized within the 3½ month period. However, if the final valuation indicates that a previously made installment was not sufficient to meet the requirements of section 412(m), the rules regarding interest charges and liens under section 412(m)-(1) and (n) apply.

Q-18: What is the amortization period for experience gains or losses determined in valuations for plan years beginning after December 31, 1987?

A-18: Prior to OBRA '87, experience gains and losses were amortized (in equal annual installments) over 15 plan years until fully amortized for purposes of the minimum funding standards for pension plans under section 412. OBRA'87 amended sections 412(b)(2)-(B)(iv) and 412(b)(3)(B)(ii) to provide that experience gains and losses are amortized (in equal annual installments) over 5 plan years until fully amortized (15 plan years in the case of a multi-employer plan). This change is effective for plan years beginning after December 31, 1987, and applies to experience gains and losses determined in valuations of a plan's liabilities for such years. Previously determined experience gains and losses continue to be amortized over 15 plan years.

For example, for a plan with a calendar plan year, the gain or loss determined in the valuation for the 1988 plan year is amortized over 5 plan years beginning with the 1988 plan year.

There has been some uncertainty regarding the effective date of the change to a 5-year amortization period for experience gains and losses for calendar year plans. Accordingly, an employer may apply an optional transitional rule with respect to to the amortization in the funding standard account of the experience gain or loss determined in the valuation for the plan year beginning in 1988 ("the transition loss (gain)"). This transitional rule may be used only if the plan had a calendar year plan year for 1988 and the valuation date for the 1988 plan year was January 1, 1988.

Under the transition rule, the amount charged (or credited in the case of an experience gain) to the 1988 funding standard account to amortize the transition loss (gain) may be based on a 15-year amortization period instead of a 5-year period. For plan years beginning in 1989, or later, the amount charged (or credited) to the funding standard account for the amortization of the transition loss (gain) shall be determined by amortizing the outstanding balance of the transition loss (gain) as of January 1, 1989, over 4 years (in equal annual installments) until fully amortized.

Example 7 — Assume a calendar year plan has a January 1, 1988 valuation date for the 1988 plan year. An experience loss of $100,000 was determined in the valuation as of such date. Under the transitional rule, the amount charged to the funding standard account for 1988 is a 15-year amortization of $100,000. Assuming an interest rate of 8%, this amount is $10,818 as of the beginning of 1988. The outstanding balance of the transition loss as of January 1, 1989 is $96,317 [($100,000 — $10,818) x 1.08]. The amount charged to the funding standard account for each of the years 1989-92 is a 4-year amortization of $96,317, or $26,926 (as of the beginning of the year).

If the transition rule is not used, the amount charged to the funding standard account for each of the years 1988-92 is a 5-year amortization of $100,000, or $23,190 as of the beginning of the year.

Q-19: What effect does the use of the transitional rule described above have on the determination of the required quarterly installment amount?

A-19: If the transitional rule is used, the required quarterly installments for the 1989 plan year are determined in the following manner. In determining 100% of the minimum funding requirement for the preceding plan year, the 15-year amortization of the transition loss(gain) is used. In determining 90% of the minimum funding requirement for the current plan year, the 4-year reamortized amount is used. However, as an element of the transitional rule, the first quarterly installment for the 1989 plan year may be determined as if 90% of the current year's minimum funding requirement included a 15-year amortization of the transition loss(gain) rather than the 4-year reamortized amount, provided the difference between the two is contributed to the plan (in addition to the second quarterly installment).

RELIANCE

Until further guidance is published by the Service, plan sponsors and participants may rely on this notice. If further guidance is more restrictive than the guidance provided by this notice, such further guidance will not have retroactive effect.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Weighted Average Interest Rate Update

Notice 89-53

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weighted average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
April	1989	8.79	7.91 to 9.67

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Weighted Average Interest Rate Update

Notice 89-54

Notice 88-73 provides guidelines for determining the weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of section 412(c)(7) of the Internal Revenue Code as amended by the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987).

The notice also provides that an announcement will be published monthly to provide the weighted average and the permissible range for the plan years beginning each month. The following rates were determined for the plan years beginning in the months shown below.

Month	Year	Weighted Average	Permissible Range
May	1989	8.79	7.91 to 9.67

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Year of Inclusion — Income Received on Account of Drought

Notice 89-55

The purpose of this notice is to provide guidance to farmers regarding the tax treatment of certain income received on account of drought.

I. *Background*

Section 451 of the Internal Revenue Code provides rules that govern the proper taxable year in which to include items in gross income. Generally, income is reported in the year it is received unless, under the method of accounting used to compute taxable income, the item is properly includible in another taxable year. However, section 451 also contains special rules permitting deferrals of income for certain amounts received by farmers for crops and livestock because of natural disaster and drought.

Specifically, section 451(d) of the Code allows taxpayers, in certain circumstances, to defer the reporting of insurance proceeds received as a result of the destruction of or damage to crops. Similarly, section 451(e) allows taxpayers to defer the reporting of income derived from the sale of livestock sold on account of drought, if certain requirements are met. Alternatively, section 1033(e) allows for nonrecognition of the gain realized on the sale of livestock sold solely on account of drought if the livestock are replaced and the requirements of section 1033 are met.

The Disaster Assistance Act of 1988 (Pub. L. No. 100-387, 102 Stat. 924), in part, provides for payments to farmers affected by drought. Under Title I of the Act, livestock producers may receive assistance in the form of cash reimbursements for feed and certain transportation expenses, and in the form of donations and below market purchases of feed. Under Title II of the Act, crop producers may receive payments for destroyed or damaged crops. Section 321 of Title III of the Act provides, in effect, for cost-sharing payments for approved conservation practices.

This notice explains the extent to which payments under the Disaster Assistance Act of 1988 and certain other income recognized on account of drought qualify for deferral under sections 451(d) and 451(e) of the Code. This notice also addresses the proper tax treatment of payments and other benefits received under the Act.

II. *Crop Loss Assistance*

Section 451(d) of the Code and section 1.451-6 of the Income Tax Regulations allow a taxpayer on the cash receipts and disbursements method of accounting who receives insurance proceeds for the destruction of or damage to crops to elect to include such proceeds in income for the taxable year following the year of destruction or damage if the taxpayer establishes that, under its normal business practice, income from the crops would have been reported in a year following the year of destruction or damage.

In order for a payment to constitute insurance for the destruction of or damage to crops, the insured must suffer actual loss. Agreements with insurance companies that provide for payments without regard to actual losses of the insured, *e.g.*, in the event that certain weather conditions occur or do not occur, do not constitute insurance payments for the destruction of or damage to crops. Accordingly, payments under such contracts will not qualify for deferral under section 451(d) of the Code.

Under section 451(d) of the Code, certain government payments for crop damage are treated as insurance proceeds. Specifically, payments received under the Agricultural Act of 1949 (as amended) for the destruction of or damage to crops caused by drought, flood, or other natural disaster, or the inability to plant crops because of such a natural disaster, will be treated as insurance proceeds received for the destruction of or damage to crops. Further, section 6033 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647, 102 Stat. 3342) amended section 451(d) to provide that payments received under Title II of the Disaster Assistance Act of 1988 as compensation for the destruction of or damage to crops, or the inability to plant crops, because of drought or any other natural disaster shall also be treated as insurance proceeds received as a result of the destruction of or damage to crops. Therefore, these payments may qualify for deferral under section 451(d).

Title II of the Disaster Assistance Act of 1988 establishes disaster payment programs for eligible farmers that, as a result of drought, hail, or related condition in 1988, are unable to harvest sufficient quantities of various crops. Accordingly, a cash method taxpayer may elect to include in gross income for 1989 such Title II payments that are received in 1988, if the taxpayer establishes that, under its normal business practice, the income from such crops would have been included in its gross income for any taxable year following 1988. All Title II payments are eligible for this elective deferral under section 451(d) of the Code, regardless of whether they are received before or after November 11, 1988, the date of enactment of the Technical and Miscellaneous Revenue Act of 1988.

A taxpayer must make an affirmative election to defer recognition of eligible payments under section 451(d) of the Code. A taxpayer receiving multiple eligible payments that are attributable to a single trade or business must treat those amounts in a consistent manner, either including the amounts in income in the year of receipt or electing to include the amounts in income in the year following the year of destruction or damage. The time and manner of making the election were not changed by the Technical and Miscellaneous Revenue Act of 1988 and are set forth in section 1.451-6(b) of the regulations. These rules are also generally explained in Publication 225, *Farmer's Tax Guide*. Rev. Rul. 74-145, 1974-1 C.B. 113, also provides guidance as to the manner of making this election. This election may also be made on an amended return.

III. *Gain from the Sale or Exchange of Livestock*

Section 451(e) of the Code and section 1.451-7 of the regulations allow a cash method taxpayer, whose principal trade or business is farming, to elect to defer for one year gain realized from the sale of livestock solely on account of drought. The amount of income that may be deferred is the income attributable to the excess of the number of livestock sold or exchanged over the number that would have been sold, following usual business practices, in the absence of a drought. See section 1.451-7(a) of the regulations for details of this computation.

The Technical and Miscellaneous Revenue Act of 1988 extends this one-year elective deferral to the gain realized from sales after December 31, 1987, of livestock held for draft, breeding, dairy, or sporting purposes regardless of the period of time that the livestock have been held. Before this change, a producer could not defer the gain realized from such sales if the livestock had been held for these purposes for 12 months or more (24 months in the case of cattle and horses).

For the sale to qualify under section 451(e) of the Code, the drought that caused the sale must have resulted in an area being designated as eligible for assistance by the Federal Government. The designation may be made by the President or by an agency or department of the Federal Government. Determinations by the Department of Agriculture or agencies within the Department of Agriculture, such as the Farmer's Home Administration or the Agriculture Stabilization and Conservation Service, are sufficient designations. Similarly, determinations by other federal agencies such as the Federal Emergency Management Agency or the Small Business Administration also satisfy the requirement.

The livestock may be sold before an area is designated as eligible for federal assistance so long as the drought that caused the sale also caused the area to be so designated. Evidence must be submitted, pursuant to section 1.451-7(g) of the regulations, explaining the relationship of the designated drought area to the taxpayer's early sale of the livestock.

To qualify for the one-year elective deferral, the livestock need not be raised, and the sale need not take place, in a drought area. The sale must occur, however, solely on account of drought conditions in the designated area, the existence of which affected the water, grazing, or other requirements of the livestock so as to necessitate the sale. This requirement generally will not be met if the costs of food, water, or other requirements of the livestock affected by the drought are not substantial in relation to the total costs of holding the livestock.

As an alternative to the one-year deferral of gain under section 451(e) of the Code, a producer may be eligible to defer gain under section 1033(e). Under the rules of section 1033, a taxpayer that disposes of an asset in an involuntary conversion and replaces it in a timely manner with qualifying replacement property may defer the gain from the involuntary conversion until the replacement property is disposed of. Section 1033(e) treats as an involuntary conversion the sale of livestock (other than poultry) held by a taxpayer for draft, breeding, or dairy purposes in excess of the number that the taxpayer would sell under usual business practices if such livestock is sold by the taxpayer solely on account of drought. Accordingly, the taxpayer may elect not to recognize the gain realized on the sale of the excess livestock if qualifying replacement property is purchased in a timely manner and the other requirements of section 1033 are met.

For details concerning other income eligible for deferral and for general information on other tax issues affecting farmers, see Publication 225, *Farmer's Tax Guide*.

IV. *Treatment of Feed Assistance, Payments and Other Benefits*

Title I of the Disaster Assistance Act of 1988 authorizes programs to provide feed assistance, reimbursement payments, and other benefits to qualifying livestock producers if, because of a natural disaster (such as drought, fire, hurricane, or earthquake), the Secretary of Agriculture determines that a livestock emergency exists. These programs include partial reimbursement for expenses incurred in purchasing feed and for certain transportation expenses, and the donation or sale at a below market price of feed owned by the Commodity Credit Corporation.

Title I payments are not proceeds from the sale of livestock and are not eligible for deferral under section 451(e) of the Code. Similarly, Title I payments are not eligible for deferral under section 451(d), which allows a one-year deferral for certain payments received for the destruction of or damage to crops raised by a taxpayer for sale, or for the inability to plant such crops because of a natural disaster. Although some Title I payments may be received for the loss of feed produced by a farmer for such farmer's livestock, no Title I payments are received for the destruction of or damage to crops raised for sale, or the inability to plant such crops. Thus, Title I payments are not compensation for the loss of crops the income from which would have been reported in a later taxable year and are not eligible for deferral under section 451(d).

In general, the reimbursement payments under Title I programs are includible in gross income in accordance with the recipient's method of accounting. A limited exception applies in the case of a taxpayer on the cash receipts and disbursements method of accounting whose application for reimbursement is approved prior to paying an expense that would be currently deductible under section 162 of the Code. Under these circumstances, a taxpayer is not required to include the reimbursement payment in gross income; the deduction for the expense, however, is limited to the amount that is not reimbursed. *See* Rev. Rul. 79-263, 1979-2 C.B. 82. In other circumstances, the reimbursement payment is includible in gross income, and the deduction for the expense is not so limited.

Donations and below market sales of feed under Title I are not arm's length transactions; the purpose of the programs is to confer relief benefits on the recipients and purchasers. Accordingly, the market value of donated feed is includible in gross income in accordance with the recipient's method of accounting. Similarly, a purchaser of feed at below market prices must include in gross income the difference between the price paid and the market value of the feed. In either case, however, a deduction is allowable for the market value of the feed to the extent that the farmer would have been permitted to deduct currently the cost of purchasing the feed at market value. *Cf.* Rev. Rul. 73-13, 1973-1 C.B. 42. Thus, to the extent that the farmer is permitted a current deduction for the purchase of the feed, inclusion of the value of the conferred benefit in the farmer's income is offset by a current deduction and has no tax effect other than increasing the amount of the gross receipts from farming. If, on the other hand, the farmer would have been required to capitalize the cost of purchased feed, the value of the donated feed or the amount of the price reduction must also be capitalized.

Treatment of these benefits in this manner is consistent with the treatment of cost-sharing payments under other government programs. For example, cost-sharing payments under a government conservation, restoration, or reclamation program are generally includible in gross income unless the program is specified in section 126 of the Code, in which case a recipient may exclude all or a portion of the payments. If payments are not excluded from gross income under section 126, a taxpayer is treated as paying or incurring a cost equal in amount to the payment and may recover this cost through deduction, or through depreciation, cost of goods sold, depletion, or amortization (as in the case of a capitalized cost), to the extent provided for in the Code. *See* Rev. Rul. 84-67, 1984-1 C.B. 28.

Prior to the Disaster Assistance Act of 1988, owners and operators of farms and ranches may have entered into contracts with the Secretary of Agriculture (under subtitle D of title XII of the Food Security Act of 1985, 16 U.S.C. 3831 *et seq.*) to devote croplands normally used for agricultural production to a less intensive use, such as pasture or permanent grass. In return, the owner or operator receives rental payments as compensation for devoting the land to a less intensive use. In an emergency, such as a drought, the Secretary may authorize the harvesting of the croplands that are subject to these contracts, in which case the rental payments for the harvested land are reduced.

Section 321 of Title III of the Disaster Assistance Act of 1988 provides that, with respect to any authorized harvesting of hay during the 1988 crop year on croplands subject to a conservation reserve program contract,there shall be no reduction in the rental payments, which would otherwise occur as a result of the harvesting, to the extent that the producer pays for additional approved conservation practices. The amount of the avoided reduction is limited to one-half of the costs incurred for the new conservation measures. For example, assume that a producer entitled to rental payments of \$100*x* per year would normally be subject to a reduction of \$25*x* in 1989 (and thus would receive only \$75*x*) if the producer harvested hay during 1988 pursuant to the emergency authorization. If the producer, however, pays at least \$50*x* for additional approved conservation measures, the producer will receive the full \$100*x* in 1989.

In effect, the avoided-reduction portion of the rental payment is a cost-sharing payment for the additional conservation measures. This portion, however, is not excludible from gross income because it is not made pursuant to a program specified in section 126 of the Code. The balance of the rental payment is also not excludible from gross income under section 126. A producer, therefore, should include the full rental payment in gross income. The conservation costs that the producer pays or incurs may be recovered under the normal rules applicable to costs incurred for such conservation measures (*e.g.*, through current deduction, depreciation, amortization or upon disposition). See section 175, which permits a current deduction of soil or water conservation expenses if certain requirements are met.

PROCEDURAL INFORMATION

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Waiver of Qualified Appraisal for Certain Charitable Contributions by Certain Corporations

Notice 89-56

This notice provides that, pursuant to authority granted under section 6281 of the Technical and Miscellaneous Revenue Act of 1988, 102 Stat. 3342, 3755, the requirement of a qualified appraisal from a third party in the case of certain charitable contributions of property by closely held corporations and personal service corporations will be waived under final regulations to be issued under section 170(a)(1) of the Internal Revenue Code.

These final regulations will include a special rule for certain contributions (which are "qualified contributions" for the care of the ill, the needy, or infants within the meaning of section 170(e)(3)-(A) of the Code) of inventory and other property described in section 1221(1) with a claimed value in excess of \$5000 that are made by closely held corporations and personal service corporations on or after November 10, 1988. This special rule will not require such a donor corporation to obtain a qualified appraisal from a third party, but instead will require that the donor's annual return contain certain summary information, such as a description of the inventory contributed and the method used to value the contribution.

As previously announced, these final regulations will also include a similar special rule for contributions by C corporations (other than closely held corporations or personal service corporations) of inventory and other property to which section 170(e)(3) or 170(e)(4) of the Code applies.

PROCEDURAL INFORMATION

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Revision of Temporary Regulations Pending Issuance of Final Regulations under Section 897 of the Internal Revenue Code of 1986

Notice 89-57

The purpose of this notice is to announce the temporary suspension of a requirement contained in the Temporary Income Tax Regulations issued under section 897(d) and (e) of the Internal Revenue Code. The temporary regulations under section 897(d) and (e) were published in the Federal Register for Thursday, May 5, 1988 (53 FR 16233).

Background

The temporary regulations under section 897(d) and (e) of the Code concern the transfer or distribution of U.S. real property interests by nonresident alien individuals or foreign corporations in dispositions that otherwise qualify for nonrecognition under the Code. Under the temporary regulations a condition of nonrecognition is that the filing requirements of paragraph (d)(1)(iii) of section 1.897-5T must be satisfied.

Section 1.897-5T(d)(1)(iii) of the temporary regulations provides that if a U.S. real property interest is distributed or transferred after December 31, 1987, the foreign transferor or distributor shall file an income tax return for the taxable year of the distribution or transfer in order to receive the nonrecognition treatment. It also provides that if a U.S. real property interest is distributed or transferred in a transaction before January 1, 1988, with respect to which nonrecognition treatment would not have been available under the express provisions of section 897(d) or (e) of the Code but is available under the provisions of section 1.897-5T or section 1.897-6T, then the person that would otherwise be subject to tax by reason of the operation of section 897 must file an income tax return or an amended return for the taxable year of the distribution or transfer by May 5, 1989, or by the date that the filing of the return is otherwise required. A statement providing certain information is required to be attached to the return.

Suspension of return filing requirement

The return filing requirement of section 1.897-5T(d)(1)(iii) of the temporary regulations is temporarily suspended for nonrecognition transfers and distributions by foreign transferors or distributors where (1) the transfer or distribution otherwise qualifies in its entirety for nonrecognition under the temporary regulations under section 897(d) and (e) of the Code; (2) the transferor or distributor does not have any other income that is effectively connected with a U.S. trade or business during the taxable year that includes the transfer or distribution subject to the temporary regulations under section 897(d) and (e); and (3) one of the following conditions is satisfied: (A) a withholding certificate is obtained pursuant to section 1.1445-3(a) of the regulations, (B) a notice of nonrecognition is submitted to the Service pursuant to the provisions of section 1.1445-2(d)(2) (or section 1.1445-2T(d)(2) of former temporary regulations), or (C) the transfer or distribution occurred before January 1, 1985. Additional guidance concerning the return filing requirement will be provided in the future.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Rules for Determining the Allocation of Bank Loan Losses under Section 865 of the Internal Revenue Code as Added by the Tax Reform Act of 1986

Notice 89-58

SECTION 1. PURPOSE

This notice provides guidance under section 865 of the Internal Revenue Code concerning the allocation and apportionment of losses incurred by banks with respect to certain loans made in the ordinary course of the bank's trade or business. Generally, this notice provides that losses recognized with respect to such loans shall be allocated to the class of interest income generated by such instruments, and shall be apportioned between U.S. source interest income and one or more separate limitation categories of foreign source interest income included within the class of interest income. The losses must be apportioned according to an asset method of apportionment that is based on the outstanding amount of loans generating interest income in such groupings.

The rules contained in this notice will be incorporated in regulations to be promulgated under section 865 of the Code. This document serves as an ''administrative pronouncement'' as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or procedure Any modification of the rules contained herein will be prospective only.

SEC. 2. BACKGROUND

Section 1211 of the Tax Reform Act of 1986, 1986-3 (Vol. 1) C.B. 1, 450, added section 865 to the Code. Section 865(j) directs the Secretary to prescribe regulations that may be necessary or appropriate to carry out the purpose of section 865 relating to the treatment of losses from sales of personal property.

SEC. 3. PERSONS COVERED

This notice applies only to banks as defined in section 4(a) of this notice.

SEC. 4. DEFINITIONS AND GENERAL RULES

(a) *Bank.* Solely for purposes of this notice, the term ''bank'' shall mean any bank as defined in section 585(a)(2) of the Code. In the case of a separate affiliated group consisting solely of banks as described in subsection (b) of this section 4, such separate affiliated group shall be treated as a ''bank'' that is a single corporation. With respect to banks described in section 585(a)(2)(B) (U.S. branches of foreign corporations), the rules of this notice apply only for purposes of determining the allocation and apportionment of losses incurred on loans, the interest on which is effectively connected with the conduct of a banking business within the United States. Therefore, as an initial matter, whether a loss incurred by a U.S. branch is subject to the rules of this notice depends upon whether the interest on the loan is effectively connected income.

(b) *Affiliated corporations.* Two or more banks that are members of an affiliated group (as defined in section 1.861-11T(d)(1) of the regulations) shall for purposes of this notice be treated as a separate affiliated group consisting solely of such banks.

(c) *Eligible loan.* Solely for purposes of this notice, the term ''eligible loan'' shall mean any eligible loan as defined in section 585(b)(4) of the Code and the regulations thereunder.

(d) *Special rules.* The Commissioner, by a ruling issued to the taxpayer, may include in an affiliated group of banks described in section 4(b) of this notice corporations that are financial service entities within the meaning of section 1.904-4(e)(3) of the regulations and that are members of the affiliated group under section 1.861-11T(d)(1). Regardless of whether a ruling is issued pursuant to the preceding sentence, the Commissioner, by ruling issued to the taxpayer, may make appropriate adjustments to the asset apportionment method described in section 5 of this notice as applied to any member of the affiliated group to include debt instruments other than eligible loans as assets includable in the apportionment formula. In considering either type of ruling request as described above, the Commissioner will consider whether the requested adjustments result in a distortion of income.

(e) *Priority.* The source of any foreign currency loss attributable to an eligible loan shall be determined under the rules of section 988 and the regulations thereunder and not under the rules of this notice.

SEC. 5. ALLOCATION AND APPORTIONMENT OF LOSSES

A loss derived by a bank from the disposition, or specific charge-off under section 166 of the Code, of an eligible loan shall be allocated to the class of gross interest income derived by the bank from its portfolio of eligible loans. Where such interest income includes both U.S. and foreign source income, or foreign source income includable within more than one separate limitation category under section 904(d)(1), such loss must be apportioned between or among these residual and statutory groupings. The apportionment shall be made according to the tax book value asset method as described in section 1.861-9T(g) of the regulations (relating to the apportionment of interest expense), subject to the following rules:

(a) In applying the asset apportionment method, the average value of eligible loans held by a bank shall be treated as its only assets. Accordingly, losses realized with respect to eligible loans will be apportioned among the statutory and residual groupings based on the proportion of the average value of eligible loans giving rise to income in such groupings.

(b) The average value of eligible loans outstanding within each statutory or residual grouping will be determined by utilizing the beginning of the year and end of the year averaging method described in section 1.861-9T(g)(2) of the regulations. The average value of eligible loans, however, shall not be computed utilizing the fair market value method of apportionment.

(c) The transition rules contained in section 1012(h)(7) of the Technical Corrections and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647, related to allocation and apportionment of interest expense are not applicable for purposes of this notice.

(d) Any loan that qualifies as an exempt asset as defined in section 1.861-8T(d)(2)(ii)(A) of the regulations shall not be treated as an eligible loan as defined in section 4, paragraph (c) of this notice.

(e) Eligible loans attributable to a foreign branch of a domestic corporation shall be taken into account as assets in a manner that is consistent with section 1.861-9T(f)(2) of the regulations, and losses on such loans shall be included in the amount of losses subject to allocation and apportionment under this notice.

(f) A loan to a related person within the meaning of section 267(b) shall not be treated as an eligible loan.

(g) In the case of an affiliated group that is eligible to file, but does not file, a consolidated return, allocation and apportionment of losses on eligible loans will be subject to adjustments similar to those described in section 1.861-11T(g) of the regulations.

SEC. 6. EFFECTIVE DATE

This notice shall be effective for taxable years beginning after December 31, 1986.

Deadline for Practical Capacity Extension Requests

Notice 89-59

Under section 1.9100-1(a) of the Income Tax Regulations, the Commissioner has discretionary authority to grant extensions of the time fixed by the regulations for making an election or application for relief. This authority applies to accounting method change requests filed more than 180 days after the beginning of the taxable year in which it is desired to make the change (the due date set in regulations section 1.446-1(e)(3)(i)).

Prior to the enactment of the Tax Reform Act of 1986, 1986-3 (Vol. 1) C.B. 1, section 1.471-11(d)(4) of the regulations permitted manufacturers of inventory to use the "practical capacity concept" in determining the amounts of fixed indirect production costs which were subject to inclusion in ending inventory. Section 1.263A-1T(b)(2)(vii) of the temporary regulations provides that the use, directly or indirectly, of the practical capacity concept is not permitted under section 263A of the Internal Revenue Code and the temporary regulations thereunder. Accordingly, use of the practical capacity method is prohibited. Section 263A of the Code is effective for costs incurred after December 31, 1986, and, in the case of property that is inventory in the hands of the taxpayer, for taxable years beginning after December 31, 1986.

A number of taxpayers have indicated their intent to litigate the repeal of the practical capacity method. Forms 3115, Applications for Change in Accounting Method, have been submitted to exhaust the taxpayers' administrative remedies prior to a formal challenge.

Since April of 1988, we have been accepting late Forms 3115 requesting permission to use the practical capacity method, effective for tax years to which Code section 263A applies, under the provisions of section 1.9100-1(a) of the regulations. As a matter of administrative practice, these extensions have been approved, principally because issuance of the temporary regulations prohibiting use of the practical capacity method did not occur until August 7, 1987, and, subsequently, a hearing with respect to such regulations was not held until December 7, 1987. Although the requests for extension have been approved, the underlying accounting method requests have been denied pursuant to the temporary regulations cited above.

Due to the period of time that has passed, effective July 31, 1989, approval of an extension with respect to the filing of a request to use the practical capacity method for the first tax year to which section 263A of the Code applies will generally not be granted. Such an extension request will only be granted if the taxpayer demonstrates unusual and compelling circumstances for not filing the request within this time period. See Rev. Proc. 79-63, 1979-2 C.B. 578, for information that must be provided.

Valuation Tables

Notice 89-60

In accordance with section 7520 of the Internal Revenue Code, this notice provides tables containing actuarial factors to be used in determining the present value of an annuity, an interest for life or for a term of years, or a remainder or reversionary interest. The tables set forth in this notice apply for valuation purposes under several Code provisions including sections 170, 642, 664, 2031, 2055, 2512, 2522, and 2624. A complete set of tables will be published by the Internal Revenue Service in the near future.

BACKGROUND

Section 5031 of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647, 102 Stat. 3342 (1988)) amended the Internal Revenue Code by adding section 7520. Generally, under section 7520, the value of an annuity, interest for life or for a term of years, or remainder or reversionary interest is determined under new tables that are to be prescribed by the Secretary. Section 7520 is applicable to gifts and certain other transfers made after April 30, 1989, and to estates of decedents dying after April 30, 1989. The new tables prescribed by section 7520 are to be based on an interest rate that is 120 percent of the applicable federal midterm rate for the month in which the valuation date falls and the most recent mortality experience available. Section 7520(c)(3) provides that, no later than December 31, 1989, the Service must revise existing tables to take into account the most recent mortality experience available as of the time of such revision. The Service published Notice 89-24, page 660, this Bulletin, on March 6, 1989, to provide temporary guidance to taxpayers in planning transfers that would take place after April 30, 1989. Notice 89-24 provides formulas for computing the value of transferred interests based on the appropriate applicable federal midterm interest rate and the prior mortality experience.

INTEREST RATES AND TABLES FOR TRANSFERS AFTER APRIL 30, 1989

The tables set forth below include many single life and term certain factors that are to be used for valuing interests in the case of gifts and certain other transfers taking place after April 30, 1989, and estates of decedents dying after that date. These new tables reflect the mortality experience based on the 1980 census. A complete set of tables, including two life and additional single life factors, will be published by the Service in the near future and will be available for purchase from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20404.

The new tables contain factors that are based upon several different interest rates. The appropriate factor for any particular transaction will be based on the interest rate the Service announces monthly in a news release and publishes in a revenue ruling in the Internal Revenue Bulletin. The interest rate for a particular month is the rate that is published as 120 percent of the applicable federal midterm rate (compounded annually) in effect under section 1274(d)(1) of the Code for the month in which the valuation date falls. That rate is then rounded to the nearest two-tenths of one percent. For example, the rate that is published as 120 percent of the applicable federal midterm rate (compounded annually) for May 1989 is 11.68 percent. That rate is then rounded to the nearest two-tenths of one percent, or 11.6 percent, for purposes of section 7520 of the Code.

As stated in Notice 89-24, if an income, estate, or gift tax charitable contribution deduction is allowed for any part of the property transferred, the taxpayer may use the federal midterm rate for the month of the transfer or for either of the two months preceding the month in which the valuation date falls. For charitable contributions made in May or June 1989, if the taxpayer elects to use the federal midterm rate for either of the preceding two months, which may include March and April, the valuation factors for March and April for interests based on the lives of one or more individuals will be computed on the basis of Table 1 of United States Life Tables: 1969-71 and interest at 120 percent of the applicable federal midterm rate for March or April. Thus, the March and April actuarial factors (in the case of charitable contributions made in May or June 1989) will not be based on the new term certain factors and mortality experience. The rates equal to 120 percent of the applicable federal midterm rate for March, April, and May 1989 are:

Valuation Month	*120 Percent of Applicable Federal Midterm Rate* *Compounded Annually*	*Rounded*
March	11.22	11.2
April	11.58	11.6
May	11.68	11.6

The following tables are included in this notice:

1. *Table 80CNSMT* — Mortality Table based on the 1980 census. This table supersedes Table LN, which is set forth in section 20.2031-7(f) of the Estate Tax Regulations.

2. *Table R(1)* — Single Life Remainder Factors for determining the present worth of a remainder interest based on a single life with interest rates between 8.2 percent and 12 percent. This table supersedes Table A, which is set forth in section 20.2031-7(f) of the regulations and section 25.2512-5(f) of the Gift Tax Regulations. Any remainder factor in Table R(1) may be converted to a factor for determining the present worth of an income interest or an annuity interest based on a single life by the method set forth in Notice 89-24. The remainder factors in Table R(1) are also applicable for determining the present worth of the remainder interest in property transferred to a pooled income fund having a yearly rate of return equal to the interest rates specified in the table. If a pooled income fund has been in existence less than three taxable years immediately preceding the taxable year in which the transfer of property to the fund is made, the highest yearly rate of return shall be deemed to be one percent less than the highest annual average of the monthly rates (prescribed by section 7520(a)(2) of the Code) for the 3 calendar years immediately preceding the year in which the fund is created (rounded to the nearest two-tenths of one percent). For funds created after April 30, 1989, and before January 1, 1990, the deemed rate of return is 9.4 percent. Table R(1) also supersedes Table G, which is set forth in section 1.642(c)-6(d)(3) of the Income Tax Regulations.

3. *Table K* — Adjustment factors based on timing and frequency of payments for annuities payable at the end of each interval. Table K supersedes the payout frequency factors set forth in sections 20.2031-7(b)(2) and 25.2512-5(b)(2) of the regulations.

4. *Table B* — Term Certain Remainder Factors for determining the present worth of a remainder interest postponed for a term certain. This table supersedes Table B, which is set forth in sections 20.2031-7(f) and 25.2512-5(f) of the regulations. A remainder factor may be converted to factors for determining the present worth of both an income interest and an annuity interest postponed for a term of years by the method set forth in Notice 89-24.

5. *Table U(1)* — Unitrust Single Life Remainder Factors for determining the present worth of a remainder interest in property based on a single life in the case of a transfer to a charitable remainder unitrust with an adjusted payout rate ranging from 4.2 percent to 6 percent. This table supersedes Table E, which is set forth in section 1.664-4(b)(5) of the regulations.

6. *Tables F(10.2-12.0)* — Tables of factors for computing the adjusted payout rate for certain charitable remainder unitrust valuations based on interest rates ranging from 10.2 to 12 percent.

Table D, which is not attached, is set forth in section 1.664-4(b)(5) of the regulations, and will continue to be effective for determining the present worth of a remainder interest postponed for a term of years in a charitable remainder unitrust for transfers made after April 30, 1989.

EFFECTIVE DATE

The tables and formulas contained in this notice apply to the valuation of interests in property for income, estate, gift, and generation-skipping transfer tax purposes in the cases of decedents dying after April 30, 1989, and gifts and certain other transfers made after that date.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Imported Substances; Rules for Filing a Petition

Notice 89-61

This Notice informs taxpayers of the procedures for filing a petition requesting that a substance be added to or removed from the list of taxable substances in section 4672(a)(3) (''List'') of the Internal Revenue Code (''Code''). These procedures will be adopted by the Internal Revenue Service in regulations implementing an amendment made by section 2001(b) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647) (''1988 Act'') to the tax on certain imported substances under section 4672 of the Code. These procedures will be effective as of May 9, 1989.

I. BACKGROUND

Section 4671 of the Code imposes a tax on the sale or use, after December 31, 1988, by the importer of any taxable substance. The rate of tax for each taxable substance is based upon the rate of tax on the taxable chemicals from which the taxable substance is derived. The amount of tax imposed on a taxable substance is equal to the amount of tax that would have been imposed on the taxable chemicals used as materials in the manufacture of the taxable substance if such substance had been manufactured in the United States.

Section 4672 of the Code provides that a substance shall be added to the List if the Secretary determines, in consultation with the Administrator of the Environmental Protection Agency and the Commissioner of Customs, that taxable chemicals constitute more than 50 percent of the weight or more than 50 percent of the value of the materials used to produce such substance (determined on the basis of the predominant method of production). The Secretary may remove from the List only substances that meet neither the weight nor the value test. If an importer or exporter of any substance requests that the Secretary determine whether such substance should be added to the List or removed from the List, the Secretary shall make such determination within 180 days after the date the request was filed.

II. DEFINITIONS

A *taxable substance* is any substance listed in section 4672(a)(3) of the Code. A *taxable chemical* is any chemical listed in section 4661(b) that is not exempted from the chemical tax by section 4662(b). For purposes of determining whether a manufacturer or importer has ''used'' a taxable chemical or a taxable substance and thus is subject to the tax imposed on ''sale or use,'' taxable chemicals and taxable substances are *used* when they are consumed, when they function as a catalyst, or when they change their characteristics or chemical composition. However, loss or destruction through spillage, fire, or other casualty is not considered a use. For purposes of computing the rate of tax for a taxable substance, the term ''*conversion factor*'' meansthe number of tons of each taxable chemical consumed in the manufacture of one ton of the taxable substance, and the term ''*percentage*'' means the percentage in the taxable substance of metal that is listed as a taxable chemical.

The types of taxable substances enumerated in section 4672(a)(3) of the Code reflect the intent of Congress that only chemicals that are intended for further chemical conversion and certain metals should be subject to the imported substances tax. Thus, petitions to add substances to the List will be entertained only for similar types of chemical derivatives and metals. Accordingly, for *synthetic organic chemicals*, the term ''*substance*'' excludes textile fibers, yarns, and staple, and fabricated products that are molded, formed, woven, or otherwise finished into end-use products. For *inorganic chemicals*, the term ''*substance*'' excludes fabricated products that are molded, formed, or otherwise finished into end-use products. For *metals*, the term ''*substance*'' includes certain wrought metal and scrap.

For petitions based on value, the term ''*value*'' means the average market price during the preceding twelve months of each material in the chemical formula describing the production of the substance.

The *importer* is the person who enters a taxable substance into the United States for consumption, use, or warehousing. A taxable substance is *entered* into the United States for consumption, use, or warehousing when an entry summary (Customs Form 7501) is filed with the appropriate customs officer, in proper form, with estimated duties attached. The person *entering* the taxable substance is the person who files the entry summary. If the person filing the entry summary is filing as an agent for another person (for example, the person filing the entry summary is a Customs broker engaged by the owner), then the principal for whom the agent is acting is deemed to be the person filing the entry summary. The *exporter* is the person named as shipper or consignor in the export bill of lading. The *United States* includes the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, any possession of the United States, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, the continental shelf areas (applying the principles of section 638 of the Code), and foreign trade zones.

III. REQUESTS FOR MODIFICATIONS TO THE LIST

An importer or exporter of any substance that is not on the List or an importer or exporter of any taxable substance may request that the List be modified by either adding or removing such substance. Any person other than an importer or exporter may write suggesting modifications to the List, but such person may not petition. Suggestion letters do not require a response, and any action taken on such information is at the discretion of the Secretary.

The request is made by petition to the Commissioner of the Internal Revenue Service. Any substance for which it is claimed that taxable chemicals constitute more than 50 percent of the weight or more than 50 percent of the value of the materials used to produce such substance (determined on the basis of the predominant method of production) may be the subject of a petition. A separate petition must be filed for each substance for which a claim is being made. A separate petition is required for each molecular form of any substance that can include more than one molecular form.

IV. FILING OF PETITIONS

Petitions must be addressed to the Commissioner of the Internal Revenue Service, Attn: CC:CORP:T:R (Petition), Room 4429, Washington, D.C. 20224.

A petition must be sent by certified mail, return receipt requested. A petition is not considered ''filed'' until it has been accepted. A petition will be accepted only if it includes all the required information. Each petition will be acknowledged by letter mailed within thirty days of the petition's receipt (as stamped on the return receipt from the

Post Office). The acknowledgement letter will either accept the petition, or reject and return it because of insufficient information. If the petition is accepted, its filing date is the date the petition was received. If rejected, the petition may be resubmitted with the additional required information, and the filing date would be the date the resubmitted petition is accepted.

In order to be accepted, the petition must include the following:

(1) The name of the substance, including its physical state and form, that is the subject of the petition.

(2) The Harmonized Tariff System (HTS) item number as officially classified by the United States Customs Service, the Schedule B item number, and if applicable the Chemical Abstract Service (CAS) number, for the substance.

(3) The names, and HTS and Schedule B numbers, and CAS numbers if applicable, of all the taxable chemicals that constitute the materials used in the production of the substance.

(4) The name of the process that the petitioner is claiming is the predominant method of production for the substance.

(5) The data supporting the petitioner's position that the production process selected as the basis for the petition is the predominant one.

(6) An explanation of the process chosen as the predominant method of production of the substance, emphasizing the overall chemical reaction from the taxable chemicals to the substance.

(7) The stoichiometric material consumption formula, assuming a 100-percent yield, based on the predominant method of production, for the substance that shows that taxable chemicals constitute over 50 percent of the molecular weight or over 50 percent of the value of the raw materials used to produce the substance. Included in the formula must be all materials, taxable chemicals, nontaxable chemicals, solvents and catalysts not recovered or recycled, that are consumed in the process. If the request is to remove a taxable substance from the List, the petitioner must show that the taxable substance meets neither the weight nor the value test.

(8) The unit quantities (UQ) on a weight basis of all materials involved in the production of a unit of substance. Materials recycled in the process would have a UQ based on the amount consumed, lost, purged, or destroyed per unit of substance produced.

(9) In the case of a petition based upon value, the value of the materials multiplied by the unit quantity of each material.

(10) The name, address, taxpayer identification number, and principal place of business of the petitioner; the name and official capacity in such business of the person filling out the petition; any Form 637 registration numbers held by the business or the individuals involved; and the district in which Form 720 is filed, if any. The petition must include an explanation of the petitioner's eligibility (as an importer or exporter of the substance that is the subject of the petition) to file a petition, including the type of business and how long such business has been conducted.

(11) The statement, signed under penalties of perjury, that the petitioner has examined the petition and to the best of petitioner's knowledge and belief, it is true, correct, and complete.

V. EXAMPLES OF REQUIRED INFORMATION

A. *Predominant method of production.*

The following are examples, according to industry sources, of information satisfying items (4) and (5) of the petition, relating to the predominant method of production.

(1) Ethylene oxide is generally produced by the direct oxidation of ethylene. Direct oxidation has replaced the chlorohydrin process as the predominant method.

(2) Ethylbenzene is produced by the Friedel-Crafts alkylation between benzene and ethylene. Only 3 percent of the ethylbenzene produced is isolated by superfractionation.

B. *Stoichiometric material consumption formula.*

The following is an example of a stoichiometric formula.

	C_6H_6 benzene	+	$CH_2=CH_2$ ethylene	= =	$C_6H_5CH_2CH_3$ ethylbenzene
molecular weight	78.1		28		106.1
unit quantities	0.75 lb.		0.28 lb.		1 lb.

C. *Rate of tax based upon conversion factors.*

The following is an example of how to calculate the rate of tax for a substance.

The rate of tax for ethylbenzene, based upon the unit quantity of each chemical consumed in production, is calculated as follows:

The rate of tax for benzene ($4.87 per ton) is multiplied by the conversion factor for benzene derived from the above equation (0.75) which equals $3.65. The rate of tax for ethylene ($4.87 per ton) is multiplied by the conversion factor for ethylene derived from the above equation (0.28) which equals $1.36. Thus, the rate of tax that would have been imposed on benzene and ethylene used in the United States to produce one ton of ethylbenzene equals $3.65 plus $1.36 or $5.01 per ton. Therefore, the rate of tax for ethylbenzene, based on the predominant method of production, is $5.01 per ton.

D. *Unit quantities formula.*

The following is an example of how to show, by using unit quantities, that taxable chemicals constitute more than 50 percent of the weight of all the materials used in the production of a unit of substance.

Assume that A, B, C, and D represent the materials used to produce substance E, and that A and C are taxable chemicals.

A	+	B	+	C	+	D	−	waste	=	E
0.4 lb.		0.3 lb.		*0.7 lb.*		0.7 lb.		1.1 lbs.		1.0 lb.

Thus, 2.1 pounds of materials were consumed to produce 1.0 pound of substance (0.4 + 0.3 + 0.7 + 0.7 = 2.1). Of the 2.1 pounds of materials consumed, 1.1 pounds were taxable chemicals (0.4 + 0.7 = 1.1). The ratio of the amount of taxable chemicals consumed (1.1) to the total amount of materials consumed (2.1), converted to percent, is the percentage by weight of taxable chemicals in the substance.

$$1.1 / 2.1 \times 100 = 52\%$$

Therefore, 52 percent of the weight of substance E is comprised of taxable chemicals.

VI. PUBLIC NOTICE, COMMENTS, REQUESTS FOR A PUBLIC HEARING

After a petition has been filed, a "Notice of Filing" summarizing the petition and requesting comments will be published in the Federal Register and in the Internal Revenue Bulletin. The complete petition will be available in the Internal Revenue Service Freedom of Information Reading Room for copying by the public. The Notice of Filing will be based upon the information provided by the petitioner. The Notice of Filing of the petition will include—

(1) the name of the substance that is the subject of the petition;
(2) the HTS and Schedule B number, and CAS number if applicable;
(3) the filing date of the petition;
(4) a brief description of the basis for the petition;
(5) the claimed predominant method of production for the substance;
(6) the stoichiometric material consumption formula for the substance;
(7) the identity of the petitioner; and
(8) the rate of tax for the substance, based upon the conversion factors derived from the unit quantities formula, that would apply if the determination were made to add the substance to the List.

Before the determination is made, consideration will be given to any written comments that are submitted to the Internal Revenue Service within sixty days of the date that the Notice of Filing is published in the Federal Register. In addition to substantive comments on the petition, the Service requests comments that identify the primary importers or exporters, as appropriate, known to have an adverse interest to the petition, to make it more likely that the principal interested parties will learn of the filing of the petition. All comments will be made available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person that also submits written comments. If a public hearing is scheduled, notice of the time and place will be published in the Federal Register.

VII. DETERMINATIONS

A determination on each petition filed will be made by the Secretary after public notice and an opportunity for comments, and after consultation with the Administrator of the Environmental Protection Agency and the Commissioner of Customs. A determination will be made within 180 days after the date the petition is filed. The determination period may be extended by agreement between the petitioner and the Commissioner.

When a decision is reached, a "Notice of Determination" will be published in the Federal Register and in the Internal Revenue Bulletin. This Notice will include—

(1) the determination of the Secretary;
(2) the identification of the substance, including HTS and Schedule B number, and CAS number if applicable;
(3) a synopsis of the reasons for the determination, including the technical data on which the determination is based;
(4) a synopsis of the material comments received for and against the petition;
(5) the date of the determination;
(6) the effective date for any modification to the List; and, in the case of substances added to the List,
(7) the identification of the predominant method of production of the substance; and
(8) the rate of tax prescribed by the Secretary for the substance based upon the predominant method of production.

VIII. EFFECTIVE DATE FOR MODIFICATIONS TO THE LIST

The date of the determination by the Secretary is not the date that a substance is added to or removed from the List. The effective date of any modification to the List will be as follows:

Determinations made between	*Listed as of*
July 1 and September 30	January 1
October 1 and December 31	April 1
January 1 and March 31	July 1
April 1 and June 30	October 1

As set forth in the above table, determinations made during a quarter will be reflected in the list of taxable substances as of the first day of the second quarter following the quarter in which the determination is made. The listing dates would thus provide at least 90 days' notice to persons that would be liable for tax upon their use or sale of the newly listed substance, and to persons that would no longer be eligible to claim a credit or refund of the tax paid on taxable chemicals used in the manufacture, for export, of substances removed from the List. The dates are chosen to correspond to the calendar quarters on Form 720, *Quarterly Federal Excise Tax Return*, which is the return filed by excise taxpayers.

IX. ADMINISTRATIVE PRONOUNCEMENT AND DRAFTING INFORMATION

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

The collection of information contained in this Notice has been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3507) under control number 1545-1117. The estimated average burden associated with the collection of information in this Notice is one hour per respondent.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents/recordkeepers may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Washington, D.C. 20224, Attention: IRS Reports Clearance Officer TR:FP; or to the Office of Management and Budget, Paperwork Reduction Project (1545-1117), Washington, D.C. 20503.

List of Countries Requiring Cooperation With an International Boycott

Notice 89-62[1]

In order to comply with the mandate of section 999(a)(3) of the Internal Revenue Code of 1954, the Department of the Treasury is publishing a current list of countries which may require participation in, or cooperation with, an international boycott [within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954]. The list is the same as the prior quarterly list published in the **Federal Register.**

On the basis of the best information currently available to the Department of the Treasury, the following countries may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954).

Bahrain
Iraq
Jordan
Kuwait
Lebanon
Libya
Oman
Qatar
Saudi Arabia
Syria
United Arab Emirates
Yemen, Arab Republic
Yemen, Peoples Democratic Republic of

Date: September 29, 1988.

O. Donaldson Chapoton,
Assistant Secretary for Tax Policy.

(Filed by the Office of the Federal Register on October 5, 1988, 8:45 a.m., and published in the issue of the Federal Register for October 6, 1988, 53 F.R. 39398).

Normalization of accelerated depreciation and cost recovery: inconsistent ratemaking procedures and adjustments

Notice 89-63

Regulations project PS-107-88 was opened in December 1988 under section 168(i)(9) of the Internal Revenue Code. The purpose of this project is to provide guidance as to the proper application of the normalization requirements for public utilities filing consolidated income tax returns. The regulations will address the use by public utilities of "effective tax rates" and "consolidated tax adjustments." These procedures are used in calculating the utility's income tax expense for ratemaking purposes by taking into consideration the tax deductions and credits of nonregulated affiliates with which the utility files a consolidated return. The general effect of these procedures is to decrease a utility's ratemaking tax expense.

The Internal Revenue Service is developing regulations that will prescribe the extent, if any, to which adjustments and procedures that reduce a utility's ratemaking tax expense to reflect the tax losses of nonregulated affiliated companies will be treated as inconsistent with the normalization rules. These regulations may provide that the normalization requirements are violated by reductions to total ratemaking tax expense achieved through use of an "effective tax rate," by application of a "consolidated tax adjustment," or by other adjustments to utility cost of service leading to similar results.

To the extent the regulations treat such ratemaking adjustments as inconsistent with the normalization requirements, they will apply to public utility rate orders that become "final determinations" (within the meaning of section 1.46-6(f)(8)(iii) of the regulations) on or after the effective date of the regulations. The effective date of the regulations will be no earlier than June 29, 1989, thirty days after publication of this notice in the Internal Revenue Bulletin. Any rate order that becomes a final determination before the effective date and contains such an adjustment will not be considered to violate the normalization requirements merely because it contains such an adjustment, provided that deferred tax expense is computed using the statutory rate.

Nonrecognition Exchange of U.S. Real Property Interests and Article XIII(9) of the United States-Canada Income Tax Convention

Notice 89-64

This notice provides guidance relating to nonrecognition distributions and exchanges by Canadian residents of U.S. real property interests (USRPIs) that qualify for reduced taxation under Article XIII(9) of the United States-Canada Income Tax Convention (the Treaty), 1986-2 C.B. 258, 264. The rules contained in this notice will be incorporated in final regulations to be issued under section 897(d) and (e) of the Internal Revenue Code, and will be effective for any period in which a USRPI may be disposed of with reduced taxation under Article XIII(9) of the Treaty.

A foreign person that disposes of a USRPI is generally subject to U.S. income taxation under section 897(a) of the Code. Article XIII(9) of the Treaty provides for a reduction in the amount of gain subject to U.S. taxation when a resident of Canada alienates certain USRPIs, to the extent the gain is attributable to the period before January 1, 1985. In order to qualify for the reduced U.S. income taxation under the Treaty, the Canadian resident had to own the USRPI on September 26, 1980, and be a resident of Canada on that date, or the USRPI had to be acquired by the Canadian resident in an alienation of property that qualified as a nonrecognition transaction for purposes of taxation in the United States.

Section 337 of the Code generally provides for nonrecognition treatment on the distribution of property in a distribution pursuant to section 332. The nonrecognition treatment provided under section 337 may be overridden by section 897(d)(1), which specifies that a foreign corporation shall recognize gain on the distribution of a USRPI except to the extent provided in regulations or in section 897(d)(2). Under the regulations implementing section 897(d), a Canadian corporation that distributes a USRPI, the gain inherent in which would qualify for reduced taxation under the Treaty, must recognize gain on the distribution unless the following requirements of section 1.897-5T(c)(2)(i) of the Temporary Income Tax Regulations are met: (1) the distributee must be subject to U.S. income taxation on a subsequent disposition of the USRPI; (2) the distributee's basis in the USRPI must be no greater than the Canadian corporation's basis in the USRPI before the distribution, increased by the amount of gain (if any) recognized by the Canadian corporation on the distribution and added to the adjusted basis under the otherwise applicable provision, and (3) the Canadian corporation must comply with the filing requirements of paragraph (d)(1)(iii) of section 1.897-5T.

corporation must comply with the filing requirements of paragraph (d)(1)(iii) of section 1.897-5T.

The Code also provides for nonrecognition treatment on the exchange of property in certain instances, including an exchange pursuant to section 351(a) of the Code. The nonrecognition treatment provided in those instances may be overridden by section 897(e). If a Canadian resident transfers a USRPI, the gain inherent in which would qualify for reduced taxation under the Treaty, and such transfer would, but for section 897(e), qualify for nonrecognition under the Code, the transferee must recognize gain realized on the transfer unless the transfer complies with the following requirements of section 897(e)(1) of the Code and section 1.897-6T(a)(1) of the temporary regulations: (1) the Canadian resident must receive a USRPI in the exchange that, immediately following the exchange, would be subject to U.S. taxation upon its disposition; and (2) the Canadian resident must comply with the filing requirements of paragraph (d)(1)(iii) of section 1.897-5T.

Section 1.897-5T(d)(1)(ii)(B) of the temporary regulations provides that, if a distributee of a USRPI in a distribution or a transferor in an exchange who receives a USRPI would be entitled to reduced U.S. taxation under a treaty upon the disposition of the USRPI, then only a portion of the USRPI received is treated as subject to U.S. taxation upon its disposition, and only that portion is entitled to nonrecognition treatment on the original distribution or transfer. The temporary regulation states that this provision is applicable to certain transfers of USRPIs qualifying for reduced taxation under Article XIII(9) of the Treaty. Thus, if a Canadian corporation distributes to a Canadian distributee a USRPI, the gain inherent in which would qualify for reduced taxation under Article XIII(9), and such distribution would otherwise qualify for nonrecognition under section 1.897-5T(c)(2)(i), the Canadian corporation is required to recognize gain on the distribution if the Canadian distributee would be entitled to reduced U.S. taxation under the Treaty on the subsequent disposition of the USRPI. Similarly, if a Canadian person transfers a USRPI, the gain inherent in which would qualify for reduced taxation under Article XIII(9), in an exchange that otherwise qualifies for nonrecognition under section 1.897-6T(a)(1), the transferor is required to recognize gain if it is a Canadian individual or corporation that would be entitled to reduced U.S. taxation under the Treaty on a subsequent disposition of the USRPI received in the exchange.

The final regulations under section 897(d) and (e) of the Code will be revised to provide generally that if a Canadian corporation distributes a USRPI, the gain inherent in which would qualify for reduced taxation under Article XIII(9) of the Treaty, in a liquidation under section 332(a), the Canadian corporation will not recognize gain solely because the distributee is a Canadian resident corporation qualifying for reduced taxation under Article XIII(9) in regard to the USRPI distributed. Thus, the distributee Canadian corporation will not be required to waive its U.S. treaty benefits under Article XIII(9) pursuant to section 1.897-5T(d)(1)(ii)(C) of the temporary regulations and any such waiver if filed shall be disregarded. All of the other provisions and requirements of the regulations under section 897 will apply to the liquidation under section 332(a).

The final regulations under section 897(d) and (e) of the Code will also be revised to provide generally that if a Canadian person transfers a USRPI, the gain inherent in which would qualify for reduced taxation under Article XIII(9) of the Treaty, to a U.S. corporation (or to a corporation that has made an election under section 897(i)) in exchange under section 351(a) for stock in such corporation that is a USRPI and also qualifies for reduced taxation under Article XIII(9), the transferor will not recognize gain on such exchange solely because the later transfer of the USRPI received in the exchange will qualify for reduced taxation under Article XIII(9). This exception will apply only where the Canadian person transfers solely USRPIs, the gain inherent in which would qualify in whole or in part for reduced taxation under Article XIII(9) of the Treaty (and such cash as is reasonably appropriate working capital), in actual (and not deemed) exchange for stock in such corporation that is equivalent in value to the USRPIs and the cash (if any) transferred. Thus, the Canadian transferor will not be required, in such case, to waive its U.S. treaty benefits under Article XIII(9) pursuant to section 1.897-5T(d)(1)(ii)(C) of the temporary regulations, and any such waiver if filed shall be disregarded.

These provisions of the final regulations under section 897(d) and (e) of the Code will apply to transfers, exchanges, distributions, and other dispositions occurring after June 18, 1980. Except as otherwise provided, all of the other provisions and requirements of the regulations under section 897 will apply to the transfer.

The final regulations to be issued under section 897(d) and (e) of the Code may provide other exceptions to section 1.897-5T(d)(1)(ii)(B) of the temporary regulations for gains from transfers of USRPIs which qualify for reduced taxation under the Treaty. Additionally, exceptions may also be provided for transfers or distributions that do not consist solely of USRPIs (and reasonable working capital) which qualify for reduced taxation under the Treaty.

Section 1.897-3(c)(4)(i) of the regulations provides that a foreign corporation must submit both a signed consent to the making of an election under section 897(i) of the Code and a waiver of U.S. treaty benefits with respect to any gain or loss from the disposition of an interest in the corporation from each person who holds an interest in the corporation on the date the election is made. Section 1.897-3(c)(4)(i) will be revised to provide that an interest-holder will not be required to waive benefits under Article XIII(9) upon the making of an election under section 897(i) by a Canadian corporation. This provision will apply to all elections under section 897(i) by Canadian corporations occurring after June 18, 1980.

ADMINISTRATIVE PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Section 89 Transitional Rules

Notice 89-65

PURPOSE

The purpose of this notice is to provide employers additional transitional relief to October 1, 1989, for testing relief to October 1, 1989, for testing their plans for compliance with the nondiscrimination rules of section 89(a) and the reasonable notice requirement of section 89(k). With respect to the testing requirements, the notice permits employers to use a partial testing year beginning on October 1, 1989, eliminates certain restrictions on the availability of this delayed partial testing year for health plans, and expands the availability of the October 1, 1989, partial testing year from health plans to all statutory employee benefit plans covered by section 89(a). This relief is provided to reduce taxpayer compliance burdens under current section 89.

REVISIONS TO TRANSITIONAL RULES

Section 89(a) nondiscrimination rules

Commencement of partial testing year.

Under section 89 and the proposed regulations, an employer generally applies the section 89 nondiscrimination rules to its statutory employee benefit plans based on applicable facts as of any testing day that occurs during a testing year selected by the employer. However, adjustments to the facts in existence on the testing day must be made for certain changes in plan terms and certain election changes by highly compensated employees occurring during the testing year both before and after the testing day.

Paragraph (b)(5) of Q&A-5 of the proposed regulations provides a special transition rule for 1989 that may be used by employers in testing their health plans under section 89 of the Code. Under the transition rule, for any testing year beginning before July 1, 1989, an employer may apply the nondiscrimination rules of section 89 with respect to its health plans based on a partial testing year. The facts with respect to all employees of the employer as of the testing day for the testing year are to be treated as in existence for the partial testing year. The partial testing year begins on the earliest of July 1, 1989, the testing day for such testing year, or the first day of the calendar month beginning three months before the end of the testing year. The last day of the partial testing year is the last day of such testing year.

Under the provisions of paragraph (b)(5) of Q&A-5, the employer-provided benefit (received or made available) of an employee determined as of the testing day is to be adjusted for elections and plan design changes occurring during the partial testing year as if the partial testing year were the entire testing year. The employer-provided benefit of an employee for the partial testing year, determined after application of the other rules in paragraph (b)(5) of Q&A-5, is then annualized for the entire testing year. Thus, an employer may limit most of the data collection and testing efforts to the partial testing year period and disregard changes in plan terms or election changes by highly compensated employees that occurred prior to the commencement of the partial testing year.

The final regulations under section 89 will amend Q&A-5 of section 1.89(a)-1 of the proposed regulations published March 7, 1989 (54 FR 9460) to substitute "October 1, 1989" for "July 1, 1989" in the first sentence of paragraph (b)(5)(i) and the second sentence of paragraph (b)(5)(ii). Therefore, an employer may apply the nondiscrimination rules of section 89 based on a partial testing year starting as late as October 1, 1989 and may disregard facts in existence prior to that date.

Waiver of restrictions on availability of partial testing year.

Under paragraph (b)(5)(v) of Q&A-5, the use of the partial testing year rule is not available in the following circumstances: (1) if a health plan provides an employer-provided benefit that for the partial testing year is less, by more than a de minimis amount, than the plan's employer-provided benefit for the portion of the testing year that precedes the partial testing year; (2) if a health plan that is first established, or coverage under a health plan that is first provided, on or after January 1, 1989, terminates or ceases to be provided before the end of the partial testing year; or (3) if less than 25 percent of the employees eligible for a health plan are nonhighly compensated employees and the plan does not satisfy the alternative eligibility percentage test of section 89(d)(2) of the Code and paragraph (d)(3)(iii) of Q&A-1 of the proposed regulations.

The final regulations under section 89 will amend Q&A-5 to delete paragraph (b)(5)(v) in its entirety, thereby eliminating these restrictions on the availability of the delayed partial testing year.

Availability of partial testing year extended to statutory benefit plans other than health plans.

The availability of the partial testing year provision in Q&A-5 of the proposed regulations is limited to health plans. The final regulations will amend Q&A-5 to substitute the term "statutory employee benefit plans" for "health plans" in paragraph (b)(5)(i). Thus, for example, employers may also apply the nondiscrimination rules of section 89(a) to group-term life insurance plans on the basis of a partial testing year beginning October 1, 1989.

Section 89(k) notice requirement.

Under section 89 and the proposed regulations, employees must be provided with reasonable notification of benefits available under plans subject to the requirements of section 89(k). Under section 1151 of the Tax Reform Act of 1986, this requirement became effective for years beginning after December 31, 1988. However, the proposed regulations, in paragraph (g)(4) of Q&A-5 of Treas. Reg. §1.89(k)-1, delayed the compliance date for the notice requirement to no earlier than July 1, 1989.

The final regulations under section 89 will amend paragraph (g)(4) of Q&A-5 to substitute "October 1, 1989" for "July 1, 1989". Therefore, a plan will not be required to comply with the notice requirement of section 89(k)(1)(C) until October 1, 1989.

ADDITIONAL REVISIONS FOR CONSISTENCY

To the extent other provisions, including examples, provided in Treas. Reg. §§1.89(a)-1 and 1.89(k)-1 are inconsistent with these changes, they will be modified in the final regulations.

RELIANCE

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure. Taxpayers may rely on this notice until the final regulations are published. No inference should be drawn, however, regarding any issue not specifically addressed in this notice.

List of Countries Requiring Cooperation With an International Boycott

Notice 89-66

In order to comply with the mandate of section 999(a)(3) of the Internal Revenue Code of 1954, the Department of the Treasury is publishing a current list of countries which may require participation in, or cooperation with, an international boycott [within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954]. The list is the same as the prior quarterly list published in the **Federal Register.**

On the basis of the best information currently available to the Department of the Treasury, the following countries may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954).

Bahrain
Iraq
Jordan
Kuwait
Lebanon
Libya
Oman
Qatar
Saudi Arabia
Syria
United Arab Emirates
Yemen, Arab Republic
Yemen, Peoples Democratic Republic of

Date: December 15, 1988.

O. Donaldson Chapoton,
Assistant Secretary for Tax Policy.

(Filed by the Office of the Federal Register on December 21, 1988, 8:45 a.m., and published in the issue of the Federal Register for December 22, 1988, 53 F.R. 51622).

Issues Relating to the Uniform Capitalization Rules under Section 263A

Notice 89-67

The purpose of this notice is to provide guidance regarding forthcoming regulations interpreting the uniform capitalization rules under section 263A of the Internal Revenue Code. Included in this notice is a discussion of the amendments to section 263A made by the Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647 (the "1988 Act"). Finally, this notice, 89-67, provides clarification relating to certain issues raised in other guidance previously published under section 263A of the Code.

I. BACKGROUND

Section 263A of the Code, enacted by the Tax Reform Act of 1986, Pub. L. No. 99-514 (the "1986 Act") provides uniform capitalization rules that apply to the production of property and the acquisition of property for resale.

Proposed and temporary regulations interpreting section 263A of the Code were published in the Federal Register on March 31, 1987, and August 7, 1987 (T.D. 8131, 1987-1 C.B. 98; T.D. 8148, 1987-2 C.B. 70). A public hearing on the regulations was held on December 7, 1987. Notice 88-24, 1988-1 C.B. 491, contains guidance relating to the application of section 263A to property produced in the trade or business of farming. Notice 88-62, 1988-1 C.B. 548, provides an elective simplified method for deducting the business expenses of authors, photographers, artists, and other similarly situated persons who incur expenses in producing creative properties. Notice 88-78, 1988-2 C.B. 394, provides guidance to taxpayers that fail to change their method of accounting in order to conform to the uniform capitalization provisions of section 263A. Notice 88-86, 1988-2 C.B. 401, contains additional guidance on a number of issues that will be addressed in the final regulations under section 263A. Notice 88-99, 1988-2 C.B. 422, relates to the interest capitalization requirements of section 263A. Notice 88-104, 1988-2 C.B. 443, contains guidance relating to the application of section 263A to foreign persons.

II. AMENDMENTS TO SECTION 263A UNDER THE 1988 ACT.

(A) *Simplified Resale Method.*

Section 1008(b)(8) of the 1988 Act provides that, for purposes of the simplified resale method provided in the regulations under section 263A of the Code, the allocation formula used for apportioning storage costs and related handling costs may be determined by dividing the amount of such costs by the beginning inventory balances and the purchases made during the year and by multiplying the resulting allocation ratio by the amount of purchases that, under the taxpayer's method of accounting for inventories, are treated as remaining in ending inventory. The method provided in section 1.263A-1T(d)(4) of the Temporary Treasury Regulations includes in the denominator of the allocation ratio only the current year's purchases. Beginning inventory balances are excluded from the calculation of the allocation ratio in the simplified resale method contained in the temporary regulations. As discussed in the preamble to the temporary regulations (52 Fed. Reg. 10055 (1987)), because under the simplified resale method the allocation ratio is not applied to purchases in ending inventory that are not treated as acquired during the current year (*i.e.*, beginning inventory balances), beginning inventory balances are similarly excluded from the ratio to provide consistency in the treatment of such balances for purposes of the simplified resale method.

An alternative simplified resale method was provided in Notice 88-86. Under the alternative simplified resale method, beginning inventory balances are included in the denominator of the allocation ratio, and the allocation ratio is applied to the taxpayer's total ending inventory, including amounts that were included in beginning inventory for the current year.

The temporary regulations will be amended to provide that, effective for taxable years beginning after December 31, 1986, taxpayers may elect the "modified resale" method permitted by section 1008(b)(8) of the 1988 Act. For purposes of section 263A of the Code, the election to use the modified resale method is a method of accounting and, except as provided in this notice, a change to or from the modified resale method is a change in method of accounting that requires the consent of the Commissioner. Other than the calculation of the allocation ratio, as provided herein, the application of the modified resale method shall be made in accordance with all of the provisions of section 1.263A-1T of the regulations.

In calculating the allocation ratio, for purposes of both the alternative simplified method and the modified resale method, beginning inventory amounts included in the denominator by a taxpayer using the last-in, first-out (LIFO) method of accounting for inventories are to be stated using the LIFO carrying value of such inventory and shall not be stated in current year dollars. Once the allocation ratio is determined, section 1.263A-1T(d)(4)(v) of the regulations provides that, if the taxpayer determines that there has been an inventory increment for the current year, then the taxpayer shall state the amount of the increment in current year dollars and multiply the resulting amount by the allocation ratio.

Example.

Year	*Base-year Cost*	*LIFO Index*	*LIFO Value*	*Inflator Index*	*Current Cost*
1984	$20,000	0.50	$10,000	4.00	$40,000
1985	6,667	0.75	5,000	2.67	13,333
1986	3,000	1.00	3,000	2.00	6,000
1987	2,667	1.50	4,000	1.33	5,333
1988	1,000	2.00	2,000	1.00	0,000
	$33,334		$24,000		$66,666

Current (1989) Storage and Handling Costs $ 5,000

Current (1989) Total Purchases $25,000

Allocation Ratio (using the modified resale method):

$\frac{\$5{,}000}{\$49{,}000} = 10.2\%$ (LIFO value of beginning inventory: $24,000 + current year's purchases: $25,000)

The simplified resale method, the alternative simplified resale method, and the modified resale method are available to taxpayers for the first taxable year beginning after December 31, 1986. Taxpayers wishing to elect the modified resale method may do so for either (i) the taxpayer's first taxable year ending after December 5, 1989, or (ii) the taxpayer's first taxable year beginning after December 31, 1986.

A taxpayer electing the modified resale method for its first taxable year ending after December 5, 1989 shall effect such election by applying the modified resale method in calculating the amount of additional section 263A costs required to be capitalized beginning with the year of change on a cut-off basis; *i.e.*, without restating beginning balances for the year of change, and without any corresponding adjustment under section 481(a) for any year, if and only if the previous method used by the taxpayer for prior taxable years for which 263A was effective was a correct method of accounting under section 263A and the regulations thereunder.

A taxpayer electing the modified resale method for its first taxable year beginning after December 31, 1986, shall effect such election by filing returns amended to reflect the election of the modified resale method, for the taxpayer's first taxable year beginning after December 31, 1986, and any subsequent year for which a Federal income tax return has already been filed. (Section III(A) of this Notice 89-67 contains the deadline for filing an amended return for any such year.) In filing amended returns for the purpose of electing the modified resale method, taxpayers shall recompute the adjustment under section 481(a) of the Code determined by revaluing inventory on hand at the beginning of the year of change pursuant to the provisions of section 1.263A-1T(e) of the regulations as if the modified resale method had been applied during all relevant prior periods.

The provisions of this section apply only to any taxpayer eligible to elect the simplified resale method or the alternative simplified resale method under section 1.263A-1T of the regulations, regardless of whether the taxpayer has elected either method for any taxable year.

(B) *Free-lance Authors, Photographers, and Artists.*

The uniform capitalization rules of section 263A of the Code apply to the production of all tangible personal property and to the acquisition of property for resale. ''Tangible personal property'' includes a film, sound recording, video tape, book, or similar property. Thus, for example, publishers and authors must capitalize the cost of researching, preparing, and writing literary works.

In Notice 88-62, the Internal Revenue Service provided an elective safe harbor method of accounting for ''qualified costs'' incurred by certain authors, photographers, artists, and other similarly situated individuals who incur expenses in producing creative properties. Under this method, eligible taxpayers may aggregate and capitalize all qualified creative costs incurred during each taxable year and may deduct 50 percent of such aggregate costs in the year they are incurred and 25 percent of such costs in each of the two succeeding years.

Section 6026(a) of the 1988 Act provides an exemption from the capitalization provisions of section 263A of the Code for ''qualified creative expenses'' incurred by free-lance authors, photographers, and artists, in the trade or business of being a writer, author, photographer or artist. ''Qualified creative expenses'' are any expenses which are otherwise deductible and which are paid or incurred by an individual engaged in the business of being an author, photographer, or artist. The exemption applies to an individual whose personal efforts create (or may reasonably be expected to create) a literary manuscript, musical composition, dance score, photograph, photographic negative or transparency, picture, painting, sculpture, statue, etching, drawing, cartoon, graphic design, or original print edition. The originality and uniqueness of the item created (or to be created) and the predominance of aesthetic value over utilitarian value of the item created (or to be created) will be considered in determining whether a qualified creative expense is paid or incurred by an artist. Thus, for example, any expense that is paid or incurred in producing jewelry, silverware, pottery, furniture, and other similar household items generally will not be considered as being paid or incurred in the business of an individual being an artist.

The exemption for qualified creative expenses does not apply to any expenses incurred by an individual in his or her capacity as an employee. However, expenses paid or incurred by a personal service corporation that directly relate to the activities of a qualified employee-owner qualify for the exception to the uniform capitalization rules to the extent that expenses would qualify if paid or incurred directly by the employee-owner. The exemption under section 6026(a) of the 1988 Act does not apply to any expense that is related to printing, photographic plates, motion picture films, sound recordings, video tapes, or similar items.

The exemption provided for qualified creative expenses in section 6026(a) of the 1988 Act is retroactive and effective as if included in the Tax Reform Act of 1986. Eligible taxpayers (including taxpayers who elected the safe harbor method provided in Notice 88-62 for any taxable year) may change from the method of accounting required under section 263A of the Code to any other method of accounting permitted under the Code for the costs incurred in the trade or business of such taxpayers by either (1) applying the provisions of section 6026(a) of the 1988 Act beginning with the first taxable year for which section 263A applied to the taxpayer (Section III(A) of this Notice 89-67 contains the deadline for filing an amended return for any such year), or (2) applying the provisions of section 6026(a) of the 1988 Act for its first Federal income tax return filed after the date September 5, 1989, or, if the taxpayer wishes, with a return filed before such date]. Costs capitalized by a taxpayer described in clause (2) in any return filed before the return described in the preceding sentence shall continue to be treated as capitalized costs and shall be recovered using the taxpayer's method of accounting for the recovery of such capitalized costs, *e.g.*, the income forecast method or, if elected, the safe harbor method provided in Notice 88-62.

(C) *Certain Producers of Animals in a Farming Business.*

The uniform capitalization provisions of section 263A of the Code apply to the production, growing, or raising of property in the trade or business of farming. As enacted by the 1986 Act, the uniform capitalization rules apply to plants and animals produced by a taxpayer in a farming business if (1) the plants or animal has a preproductive period of more than two years, or (2) the taxpayer engaged in the farming business is a corporation, partnership, or tax shelter that is required to use an accrual method of accounting.

Section 6026(b) of the 1988 Act exempts from the application of the uniform capitalization rules expenses incurred by a taxpayer in connection with the production of animals in an eligible farming business. An eligible farming business is a farming business which is not a corporation, partnership, or tax shelter that is required to use an accrual method of accounting under sections 447 or 448(a)(3). This exemption is prospective and applies only to costs incurred after December 31, 1988, in taxable years ending after such date. The exemption does not apply to costs incurred with respect to plants.

In Notice 88-24, the Internal Revenue Service provided an elective simplified method for capitalizing the costs of raising female cattle that are to be used principally for purposes of breeding (''beef cattle'') or for purposes of producing milk to be sold for consumption (''dairy cattle''). Under this method, available only to taxpayers other than those required to use an accrual method of accounting, a total of $340 for each beef cow, or $540 for each dairy cow, is to be capitalized over a period of three years beginning with the year in which the cow is born.

A taxpayer that elected, under section 263A(d)(3), not to apply the uniform capitalization rules to its farming business for a taxable year beginning before January 1, 1989, may, without the consent of the Commissioner, revoke such election for the taxpayer's first taxable year beginning after December 31, 1988. A taxpayer that initially elected not to apply the uniform capitalization rules for any taxable years beginning before January 1, 1989, must continue to apply the alternative depreciation method provided in section 168(g)(2) to property placed in service during such years. With respect to property placed in service in taxable years ending after December 31, 1988, an eligible taxpayer is not required to apply the alternative depreciation method, and may use any other depreciation method permissible with respect to such property, without obtaining the consent of the Commissioner. For costs incurred after December 31, 1988, the determination of whether costs are deductible shall be made under all other applicable provisions of the Code. A taxpayer that elected the safe harbor values provided in Notice 88-24 shall continue to amortize the costs capitalized in taxable years beginning before January 1, 1989, using the taxpayer's depreciation method applicable to such costs.

In the case of a taxpayer that elected the safe harbor method provided in Notice 88-24 and whose taxable year begins before December 31, 1988, and ends after January 1, 1989, the taxpayer may account for the costs incurred in such taxable year in one of two ways:

(1) The taxpayer may account for costs incurred using the safe harbor values for the entire taxable year, without regard to whether costs were incurred on, before or after January 1, 1989, or

(2) the taxpayer may account for costs incurred using the safe harbor values for the portion of its taxable year that includes only the number of months before January 1, 1989, and account for costs incurred on or after January 1, 1989, using the taxpayer's method of accounting for costs available under the applicable provisions of the Code other than section 263A. Thus, for example, a dairy farmer having a fiscal year ending on June 30, 1989, would account for costs using the safe harbor values for the first six months of its taxable year: $6/12 \times$ $135 for each cow born during the taxpayer's current taxable year, $6/12 \times$ $270 for each cow born in the taxpayer's taxable year ending June 30, 1988, and $6/12$ $\times$ $135 for each cow born in the taxpayer's taxable year ending, June 30, 1987. Section 263A (or the safe-harbor values) would not apply to costs incurred after December 31, 1988.

III. CLARIFICATION OF ISSUES.

(A) *Extension of Filing Dates for Amended Returns under Notice 88-78, Notice 88-86, Notice 88-99, and Notice 89-67.*

In order to minimize the administrative complexities that may be involved in complying with the additional guidance issued under section 263A of the Code, the dates by which an amended return filed for the purpose of changing a method of accounting in accordance with the provisions of Notice 88-78, Notice 88-86, Notice 88-99, or this notice, Notice 89-67 shall be extended, and the same date shall apply with respect to all notices. The date by which amended Federal income tax returns, for purposes of Notice 88-78, Notice 88-86, Notice 88-99, or this notice, Notice 89-67 must be filed is the later of (i) the due date (determined with regard to extensions) of the taxpayer's income tax return for the second taxable year that begins (or is deemed to begin) after December 31, 1986, or (ii) October 16, 1989. All terms and conditions (other than the date by which an amended return must be filed) contained in each of the above notices remain in effect with respect to each particular change in method of accounting provided in the applicable notice. Except as specifically provided to the contrary, any change in method of accounting with respect to a taxpayer's inventory for the year of change (generally, its first taxable year beginning after December 31, 1986), made in accordance with the provisions of the temporary regulations or notices issued under section 263A, is to be included in the taxpayer's calculation of the adjustment under section 481(a) pursuant to the automatic change in method of accounting to comply with section 263A provided in section 1.263A-1T(e) of the temporary regulations. Any amount that is required or permitted, for purposes of section 263A, to be included in the taxpayer's calculation of the adjustment under section 481(a) shall be taken into account in accordance with the provisions of section 1.263A-1T(e). However, if the taxpayer is under examination and receives written notification from the examiner that the method to be changed is an issue under consideration, and such notice is given prior to the taxpayer's timely filing of the Federal income tax return (including an amended return) for the year of change, the provisions of section 1.263A-1T(e) may not apply. Other administrative provisions such as Rev. Proc. 84-74, 1984-2 C.B. 736, or Notice 88-78 may instead be applicable.

(B) *Taxpayers subject to the Coordinated Examination Program.*

A taxpayer that is subject to the Coordinated Examination Program (CEP), for its first taxable year for which section 263A applies, and that has filed a Federal income tax return for such year will not be required to file an amended return, which, but for this paragraph (B), would be required in order to effect a change in method of accounting for purposes of Notice 88-78, Notice 88-86, Notice 88-99, Notice 88-104, or this notice, Notice 89-67, if the following conditions are met:

(i) The first taxable year for which section 263A applies shall be treated as the year of change for all purposes. Thus, in the case of inventory property, the adjustment under section 481(a) shall be redetermined as if the method of accounting adopted pursuant to one of the designated notices has been used by the taxpayer for all prior periods.

(ii) The taxpayer types or legibly prints on its timely filed (including extensions) Federal income tax return for the first taxable year after the year of change, a statement indicating that the taxpayer applied the procedures of Rev. Proc. 85-26, 1985-1 C.B. 580, (or any successor rulings or procedures), to effectuate the change in method of accounting for the preceding year (the year of change).

(iii) In its timely filed (including extensions) Federal income tax return for the first taxable year after the year of change (and any subsequent year for which the method is in effect), the taxpayer reports all items in accordance with the method of accounting adopted pursuant to one of the designated notices as if the method had been used by the taxpayer for the year of change and any subsequent year, including a redetermination of the portion of the adjustment under section 481(a) (where applicable) to be taken into account for each subsequent taxable year.

(iv) The taxpayer satisfies all requirements of Rev. Proc. 85-26 and any other administrative rules applicable to a taxpayer subject to the CEP.

(C) *Capitalization of period costs.*

Under section IV(E) of Notice 88-86, taxpayers are permitted to capitalize costs that otherwise would be treated as period costs, if such practice does not result in a material distortion of income; such costs are included in computing beginning inventory, ending inventory, and cost of goods sold; and the taxpayer consistently capitalizes such costs, treating the practice as a method of accounting under the Code. A cost may not be capitalized under section 263A with respect to production or resale property if no portion of such cost relates to the taxpayer's production or resale activity, or if the capitalization (or deduction) of such cost is prohibited by any other section of the Code. For example, because selling expenses, losses, or other items are not ordinarily used in computing the cost of goods sold, such costs may not be included in inventoriable costs for purposes of section 1.61-3(a) of the regulations, and, accordingly, such costs may not be capitalized with respect to property for purposes of section 263A of the Code. (For an exception to this rule, see Notice 88-99, relating to the capitalization of certain costs for purposes of the substitute cost method.)

A taxpayer may capitalize certain period costs if such capitalization does not result in a material distortion. For this purpose, a period cost may not be capitalized under section 263A of the Code if such capitalization results in a material distortion of a computation under any provision of the Code, including material distortions relating to the source, character, amount, or timing of the cost capitalized. Thus, for example, a taxpayer may not capitalize a period cost under section 263A of the Code if the capitalization would result in a material change in the computation of the foreign tax credit limitation under section 904 of the Code. In addition, the capitalization of interest that is not allocable to production activities under the avoided cost method of section 263A(f) generally results in a material distortion of income.

(D) *Expedited Procedures under Section VI of Notice 88-86.*

A number of comments have been received by the Service with respect to the availability of the expedited procedures contained in section VI (Expedited Changes in Methods of Accounting), of Notice 88-86. In Notice 88-86, the expedited procedures for effecting a change in method of accounting are available only with respect to certain provisions specified in the notice. (It should be noted that Notice 88-86 does not apply to any change for which the taxpayer applies, or is required to apply, the provisions of Notice 88-78.) Paragraph (1) of Section VI of Notice 88-86 contains details regarding expedited procedures applicable to a change in method of accounting beginning with the first taxable year in which section 263A is effective and requires an adjustment to the amount calculated under section 481(a) for such year. Expedited changes made according to paragraph (2) are available for the taxable year following the year of change, on a cut-off basis, without restating beginning balances for such year and without any corresponding section 481(a) adjustment. It has been suggested that these expedited procedures be made available to additional provisions contained in Notice 88-86. In response to these comments, Notice 88-86 is modified as follows—

(i) Only paragraph (1) of section VI of Notice 88-86 (and not paragraph (2)) is available with respect to the changes to the methods of accounting described in the following sections of Notice 88-86:

III(D) *Services Versus Property Acquired for Resale*, but only to the extent that the rules discussed in the third and fourth paragraphs of Section III(D) would require the capitalization of costs with respect to the types of property described therein.

III(E) *Capitalization of Handling Costs*, but only to the extent of any change in method required as a result of the application of the rule relating to costs required to be capitalized at any facility, as discussed in the third paragraph of Section III(E).

III(F) *Distribution Costs.*

III(G) *$10 Million Gross Receipts Exception for Certain Taxpayers*, but only to the extent of any change in method required as a result of a determination that, due to the application of the rules discussed in Section III(G), the taxpayer is not entitled to the exception from the general rules of section 263A provided in section 263A(b)(2)(B).

IV(A) *Deferred Intercompany Transactions.*

IV(C) *Intangible and Tangible Property*, but only to the extent that the taxpayer failed to apply the rules of section 263A with respect to intangible personal property acquired for resale.

IV(H) *Depletion.*

IV(I) *Prepublication Expenditures*, but only to the extent that the taxpayer failed to capitalize payments made to authors other than payments that relate to sales of books that have already taken place.

IV(J) *Dual Function Facilities.*

IV(K) *Materials and Supplies.*

IV(M) *Storage Costs.*

IV(N) *Lower of Cost or Market.*

(ii) In addition to the provisions for which the expedited procedures were initially available, both paragraphs (1) and (2) of section VI of Notice 88-86 shall be available with respect to the changes to the methods of accounting described in the following sections of Notice 88-86:

II(C) *Manufacturers and On-Site Storage.*

III(B) *Property Produced Under Contract for Subsequent Resale.*

III(C) *De Minimis Production Activities.*

III(D) *Services Versus Property Acquired for Resale*, but only to the extent of any change in method permitted as a result of the de minimis rule provided in the second paragraph of Section III(D).

III(E) *Capitalization of Handling Costs*, but only to the extent of any change in method permitted as a result of the application of the rules relating to certain on-site labor costs described in the second paragraph of Section III(E).

III(G) *$10 Million Gross Receipts Exception for Certain Taxpayers*, but only to the extent of any change in method of accounting resulting from a determination that, due to the application of the rules described in section III(G), the taxpayer is entitled to the exception from the general rules of section 263A provided in section 263A(b)(2)(B).

IV(C) *Intangible and Tangible Properties*, but only to the extent that a taxpayer applied the rules of section 263A to the production of personal property that pursuant to section IV(C) is not tangible personal property for purposes of section 263A.

IV(D) *Service Departments — Accounts Receivable.*

IV(G) *Warranty Costs and Products Liability Insurance.*

IV(I) *Prepublication Expenditures*, but only to the extent that, for purposes of section 263A, the taxpayer capitalized payments made to authors that relate to sales of books that have already taken place.

IV(L) *Allocation Methods and De Minimis Rule.*

V(A) *Farmers and Constructive Ownership Rules.*

(E) *Application of section 263A to Foreign Persons.*

A simplified method of accounting for the additional costs required to be capitalized by foreign persons for purposes of the uniform capitalization rules of section 263A of the Code (the "U.S. ratio method") was provided in Notice 88-104. Under the U.S. ratio method, the additional costs (other than interest) required to be capitalized by the foreign person under section 263A are to be allocated to property produced or property acquired for resale by a foreign person by applying the "U.S ratio" of the "applicable U.S. trade or business" to the cost (as determined by the foreign person before the application of the rules of section 263A) of the property produced or property acquired for resale. Under the U.S. ratio method, no adjustment to the U.S. ratio of the applicable U.S. trade or business or to the costs (as determined before the application of the rules of section 263A) of property produced or property acquired for resale by the foreign person, is permitted.

Notice 88-104 limited the election of the U.S. ratio method to taxable years beginning before January 1, 1988. The provisions of Notice 88-104 are extended to taxable years beginning after December 31, 1987, and will remain in effect until further guidance under section 263A is issued. A taxpayer that did not elect the U.S. ratio method for its first taxable year for which section 263A is effective may elect to apply the U.S. ratio method: (i) on its Federal income tax return adopting the use of the U.S. ratio method (including any necessary revisions of adjustments under section 481(a)) for its first taxable year for which section 263A is effective, including a Federal income tax return amended for the purpose of electing the U.S. ratio method, or (ii) on its Federal income tax return for its second taxable year for which section 263A is effective, if and only if the previous method used by the taxpayer for the prior taxable year was a correct method of accounting under section 263A and the regulations thereunder.

It is anticipated that forthcoming regulations will permit a taxpayer to elect the U.S. ratio method as provided therein regardless of whether the U.S. ratio method was elected for previous taxable years. In addition, it is anticipated that a taxpayer that elected the U.S. ratio method prior to the publication of the regulations will be permitted to elect to discontinue use of the U.S. ratio method under rules provided in the regulations.

PROCEDURAL INFORMATION

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied upon to the same extent as a revenue ruling or a revenue procedure.

Notice to Terminate and Amend Model Cash or Deferred Arrangements

Notice 89-68

Purpose

The purpose of this Notice is to provide a cut-off date of October 31, 1989, for adoption by sponsoring organizations of the model cash or deferred arrangement (CODA) set forth in Notice 87-34, 1987-1 C.B. 490, and to provide additional options to sponsoring organizations who have already adopted, or will adopt, such model amendment.

Background

Revenue Procedure 87-18, 1987-1 C.B. 709, sets forth procedures to enable a sponsoring organization to obtain an opinion letter for a master or prototype profit-sharing plan which includes a cash or deferred arrangement as described in section 401(k) of the Code. The Revenue Procedure includes a special expedited procedure for sponsoring organizations which adopt the model CODA amendment set forth in Notice 87-34.

Notice 87-34 provides a model CODA to be attached as an amendment to an existing master or prototype profit-sharing plan. Notice 87-51, 1987-2 C.B. 359, amended Notice 87-34 to allow sponsoring organizations more flexibility in the options they can offer adopting employers. Both Notices provide model language that could only be used on a word-for-word basis.

Model Amendments I and II provided by Notice 87-51 address hardship distributions. Model Amendment I is designed to be used when distributions on account of financial hardship are a desired feature of the plan, but the hardship provisions in the underlying plan do not meet the requirements of the regulations under section 401(k) of the Code. Model Amendment II is designed to permit hardship distributions when the underlying plan has no hardship provisions. Model Amendment III of Notice 87-51 permits adopters to satisfy the actual deferral percentage (ADP) nondiscrimination test of section 401(k)(3) of the Code by using qualified matching contributions.

Revenue Procedure 89-9, page 780, this Bulletin, provides for the opening of the master and prototype program with respect to the changes made by the Tax Reform Act of 1986 (TRA 86) and other provisions of law effective at the same time as the TRA 86 changes. In order to have continued reliance for its adopting employers, a sponsoring organization with a favorable TEFRA opinion letter (as defined in section 3 of such Revenue Procedure) must submit its replacement plan no later than October 31, 1989.

Adoption of Model

The model CODA was intended to provide sponsoring organizations with a simple and expeditious means of offering CODAs to their adopting employers. However, in light of the issuance of regulations under sections 401(k) and (m) of the Code and because sponsoring organizations must revise their underlying plans to reflect the changes made by TRA 86, the Service has decided to discontinue the model CODA program.

Accordingly, plans submitted pursuant to Rev. Proc. 89-9 will no longer be given any special priority or reliance because the plan includes language identical to the model CODA. Sponsoring organizations may, however, continue to use the language of the model as the basis for plan language. However, sponsors should be aware that the model language is not up-to-date with respect to all the requirements of the regulations that are effective beginning in 1989.

Sponsoring organizations may continue to apply for opinion letters with respect to the model CODA until they receive an opinion letter on a replacement plan submitted pursuant to Rev. Proc. 89-9; however in no case will any application for an opinion letter on the model CODA be accepted after October 31, 1989. Sponsoring organizations with opinion letters on the model CODA may continue to market such CODA until the Service acts on an opinion-letter request for a replacement plan, provided such replacement plan is submitted prior to November 1, 1989.

Further Model CODA Amendments

The model CODA amendments of Notices 87-34 and 87-51 were issued prior to the final and proposed regulations under sections 401(k) and (m) of the Code. Consequently, they allowed limited flexibility to adopting employers in certain cases. For the limited time the model is still available, some sponsoring organizations have indicated a desire to include additional options permitted by the regulations. The remainder of this Notice provides such options. In addition, the model CODA did not adequately deal with "gap period" income or loss on distributions of excess amounts. Part D of this Notice includes language to accomplish this. However, employers should note that even if Part D is not adopted by a sponsoring organization or an employer, gap period income or loss must be included when excess amounts are distributed.

The amendments provided by this Notice are divided into four parts: Part A provides language for hardship distributions pursuant to Code Section 401(k)(2); Part B provides language to permit recharacterization; Part C provides language permitting the use of elective deferrals in the ACP test; and Part D provides language for calculating income or loss on excess amounts.

Sponsoring organizations which have already adopted the model CODA may add any or all parts of this Notice, together with Model Amendment III of Notice 87-51, if desired, on a word-for-word basis and may continue to rely on an opinion letter obtained for the model CODA without further application to the Service. Similarly, sponsoring organizations wishing to adopt the model CODA for the first time may, if desired, include any or all parts of this Notice. Sponsoring organizations wishing to provide for hardship distributions may adopt the deeming rules for hardship specified in the regulations. Language to accomplish this is provided in Part A. The adoption of Part A of this Notice by a sponsoring organization which has previously adopted Model Amendment I or II of Notice 87-51 (and the elimination of the availability of such "facts-and-circumstances" hardship distribution by an adopting employer) will not violate section 411(d)(6) of the Code if the change is made effective as of the date the adopting employer first begins operating in accordance with Part A.

Employers wishing to take advantage of any of these amendments offered by the sponsoring organization must properly execute an addendum (to the previously-adopted model CODA) which incorporates by reference the plan as amended. Alternatively, the amendment to the plan may be consolidated in the model CODA and its adoption agreement and adopted by the employer in conformity with state law. Except for certain adopters of Part A, as described above, the amendment is effective for the plan year in which adopted by the employer but no earlier than the effective date of such employer's model CODA. Notice of the amendment must be provided by the employer to interested parties in accordance with sections 7 and 8 of Rev. Proc. 80-30, 1980-1 C.B. 685 (whether the plan is standardized or non-standardized), but the employer need not apply to the appropriate key district office on account of amendments contained in this Notice or in Notices 87-34 and 87-51 in order to maintain reliance on an otherwise-valid determination or opinion letter. However, a summary of material modifications may have to be filed with the Department of Labor and distributed to participants and beneficiaries pursuant to section 102 of the Employee Retirement Income Security Act of 1974 (ERISA), Pub. L. 93-406.

Part A

The provisions contained in this part are designed to permit an adopting employer to allow distributions to participants on account of financial hardship. Sponsoring organizations which previously adopted Model Amendment I or II of Notice 87-51 may delete adoption agreement section 7.2 from their existing model CODA and substitute or add, as appropriate, section 5.2 and adoption agreement section 7.1.e as contained in this part.

[Note: This section, by addition or substitution, becomes section 5.2 of the model CODA]

5.2. Distribution on Account of Financial Hardship

5.2(a). If elected by the Employer in section 7.1.e of the CODA adoption agreement, distributions of Elective Deferrals (plus earnings, if any, credited thereon as of December 31, 1988) may be made on account of financial hardship if the distribution is necessary in light of the immediate and heavy financial need of the Participant as described in (b), below. Such distribution shall not exceed the amount required to meet the immediate financial need created by the hardship and may not be made to the extent that distributions (other than hardship distributions) and non-taxable loans are still available under this and all other plans maintained by the Employer. Hardship distributions in plan years beginning before January 1, 1989 may include, in addition to Elective Deferrals, earnings, if any, on Elective Deferrals and Qualified Non-elective Contributions and earnings, if any, thereon.

5.2(b). A distribution is made on account of an immediate and heavy financial need of a Participant if and only if it is made on account of: medical expenses of the Participant or the Participant's spouse or dependents; the purchase (excluding mortgage payments) of a principal residence for the Participant; payment of tuition for the next term of post-secondary education for the Participant or the Participant's spouse, children or dependents; or the need to prevent the Participant's eviction from, or foreclosure on the mortgage of, the Participant's principal residence.

5.2(c). In addition, the Participant may not make any Elective Deferrals or Employee Contributions for twelve (12) months following receipt of the hardship distribution and may not make Elective Deferrals for the Participant's taxable year immediately following the taxable year of the distribution in excess of the applicable limit under section 402(g) of the Code for such year less the amount of Elective Deferrals made in the year of the distribution.

5.2(d). Unless circumstances indicate that it is unreasonable to do so, the Employer may rely on an employee's written certification of the existence of a need described in (b), above, and of the amount necessary to alleviate such need. Processing of applications and distributions of amounts under this section, on account of a bona fide financial hardship, must be made as soon as administratively feasible.

[Note: This section replaces section 7.1.e of the model CODA adoption agreement]

[ ] e. Upon the hardship of the Participant, to the extent provided for in section 5.2 of the CODA.

Part B

This part amends the model CODA by adding section 3.12 to permit adopting employers the option of having Excess Contributions recharacterized as after-tax Employee Contributions. This part can be adopted only if the underlying plan permits Employee Contributions by Participants.

[Note: This section adds section 3.12 to the model CODA]

3.12. For purposes of section 3.6 of the CODA amendment, the Employer may treat Excess Contributions as amounts distributed to Participants and recontributed to the plan as Employee Contributions. Amounts so recharacterized remain fully-vested and subject to the same restrictions on distribution as Elective Deferrals. In addition, such amounts are to be treated as Employee Contributions for purposes of section III of the CODA amendment and sections 72 and 6047 of the Code, but for all other purposes under the Code, they shall continue to be treated as Elective Deferrals.

Amounts may not be recharacterized to the extent such amounts would cause the plan's stated limit, if any, on Employee Contributions to be exceeded for any Highly Compensated Employee. Recharacterization must occur no later than two and one-half months after the end of the Plan Year with respect to which such Excess Contributions were made and is deemed to occur on the date the last Highly Compensated Employee is informed in writing of the amount recharacterized and the consequences thereof.

Recharacterized amounts will be taxable to the Participant for such Participant's taxable year containing the earliest dates in the Plan Year on which the Participant would have received these amounts had he or she originally elected to receive them in cash.

Part C

This part amends section 7.2 of the model CODA to allow a plan to use Elective Deferrals in the ACP test. Sponsors wishing to use this Part should add the following language as section 7.2(b)(1), or, if Model Amendment III was previously adopted, as section 7.2(b)(2).

[Note: This section adds section 7.2(b)(1) or (2), as appropriate, to the model CODA]

7.2(b)(1)[or(2)]. The Employer may treat all or part of the Elective Deferrals for the Plan Year as Matching Contributions for purposes of calculating the Contribution Percentage, provided the Average Actual Deferral Percentage test of section 3.6 is satisfied both including and excluding Elective Deferrals that are treated as Matching Contributions for purposes of the Average Contribution Percentage test of section 7.1.

Part D

This part provides replacement language for sections 3.5(a)(2), 3.8(b) (originally published as "3.8(a)" due to a typographical error) and 7.4(b) of the model CODA, relating to the determination of the income or loss which must accompany excess amounts distributed from the plan.

[Note: This section replaces 3.5(a)(2) of the model CODA]

3.5(a)(2). Determination of Income or Loss. Excess Elective Deferrals shall be adjusted for any income or loss up to the date of distribution. The income or loss allocable to Excess Elective Deferrals is the sum of:

(i) income or loss allocable to the Participant's Elective Deferral account for the Participant's taxable year for which the Excess Elective Deferrals occurred multiplied by a fraction, the numerator of which is the Participant's Excess Elective Deferrals for such taxable year and the denominator of which is the Participant's account balance attributable to Elective Deferrals as of the end of the taxable year without regard to any income or loss occurring during such taxable year; and

(ii) income or loss allocable to the Participant's Elective Deferral account for the period between the end of such taxable year and the date of distribution multiplied by the fraction determined under (i), above; or, at the option of the employer, ten (10) percent of the amount determined under (i) multiplied by the number of whole calendar months between the end of such taxable year and the date of distribution, counting the month of distribution if distribution occurs after the 15th of such month.

The amount of Excess Elective Deferrals that may be distributed with respect to a Participant shall be reduced by any Excess Contributions previously distributed or recharacterized with respect to such Participant for the Plan Year beginning with or within such taxable year. In no event may the amount distributed exceed the Participant's total Elective Deferrals for such taxable year.

[Note: This section replaces 3.8(b) [(a)] of the model CODA]

3.8(b). Determination of Income or Loss. Excess Contributions shall be adjusted for income or loss up to the date of distribution. The income or loss allocable to Excess Contributions is the sum of:

(1) income or loss allocable to the Participant's Elective Deferral account and Qualified Non-elective Contributions account for the Plan Year for which the Excess Contributions occurred multiplied by a fraction, the numerator of which is the Participant's Excess Contributions for such Plan Year and the denominator of which is the Participant's account balances attributable to Elective Deferrals and Qualified Non-elective Contributions as of the end of the Plan Year without regard to any income or loss occurring during such Plan Year; and

(2) income or loss allocable to the Participant's Elective Deferral account and Qualified Non-elective Contributions account for the period between the end of such Plan Year and the date of distribution multiplied by the fraction determined under (1), above; or, at the option of the employer, ten (10) percent of the amount determined under (1) multiplied by the number of whole calendar months between the end of such Plan Year and the date of distribution, counting the month of distribution if distribution occurs after the 15th of such month.

[Note: This section replaces 7.4(b) of the model CODA]

7.4(b). Determination of Income or Loss. Excess Aggregate Contributions shall be adjusted for income or loss up to the date of distribution. The income or loss allocable to Excess Aggregate Contributions is the sum of:

(1) income or loss allocable to the Participant's Employee Contribution account and Matching Contribution account for the Plan Year for which the Excess Aggregate Contributions occurred multiplied by a fraction, the numerator of which is the Participant's Excess Aggregate Contributions for such Plan Year and the denominator of which is the Participant's account balances attributable to Employee Contributions and Matching Contributions as of the end of the Plan Year without regard to any income or loss occurring during such Plan Year; and

(2) income or loss allocable to the Participant's Employee Contribution account and Matching Contribution account for the period between the end of such Plan Year and the date of distribution multiplied by the fraction determined under (1), above; or, at the option of the employer, ten (10) percent of the amount determined under (1) multiplied by the number of whole calendar months between the end of such Plan Year and the date of distribution, counting the month of distribution if distribution occurs after the 15th of such month.

Effect on Other Documents

Notices 87-34 and 87-51 are modified to the extent described above and Rev. Proc. 87-18 is modified to the extent it prohibits recharacterization in a standardized plan. Further, Notices 87-34 and 87-51 are obsoleted with respect to applications for opinion letters submitted after October 31, 1989.

Administrative Pronouncement

This Notice is an ''administrative pronouncement'' as that term is used in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

List of Countries Requiring Cooperation With an International Boycott

Notice 89-69

In order to comply with the mandate of section 999(a)(3) of the Internal Revenue Code of 1954, the Department of the Treasury is publishing a current list of countries which may require participation in, or cooperation with, an international boycott [within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954]. The list is the same as the prior quarterly list published in the Federal Register.

On the basis of the best information currently available to the Department of the Treasury, the following countries may require participation in, or cooperation with, an international boycott [within the meaning of section 999(b)(3) of the Internal Revenue Code of 1954]:

Bahrain
Iraq
Jordan
Kuwait
Lebanon
Libya
Oman
Qatar
Saudi Arabia
Syria
United Arab Emirates
Yeman, Arab Republic
Yeman, Peoples Democratic Republic of

Date: March 20, 1989.

Dennis E. Ross,
Acting Assistant Secretary for Tax Policy.

(Filed by the Office of the Federal Register on March 23, 1989; 8:45 a.m., and published in the issue of the Federal Register for March 24, 1989, 54 F.R. 12308)

Additional Integration Rules

Notice 89-70

The Tax Reform Act of 1986 (TRA '86) amended section 401(l) of the Internal Revenue Code to provide rules dealing with permitted disparity in contributions or benefits under qualified plans. Proposed regulations were issued under section 401(l) in the Federal Register on November 15, 1988 (53 Fed. Reg. 45917). This notice supplements the proposed regulations by providing additional guidance concerning certain aspects of permitted disparity under section 401(l) of the Code. Specifically, this notice provides (1) a modification of the definition of covered compensation stated in the proposed regulations, (2) additional alternatives for the choice of integration levels in both defined contribution excess plans and defined benefit excess plans, (3) additional alternatives for the choice of an offset in a defined benefit offset plan, (4) guidance concerning reliance on determination letters issued with respect to defined benefit plans that use an integration level other than covered compensation, an offset based on an amount other than covered compensation, or a uniform factor in determining the portion of a participant's benefits attributable to employee contributions, (5) additional methods by which certain types of career average plans may meet the permitted disparity requirements, and (6) additional guidance on adjustments for the payment of retirement benefits before social security retirement age.

I. *Definition of Covered Compensation*

Covered compensation is defined in section 1.401(l)-1(b)(9) of the regulations as the average (without indexing) of the taxable wage bases for the 35 calendar years ending with the year prior to the calendar year an individual attains social security retirement age (as defined in section 415(b)(8) of the Code). The final regulations will modify the definition of covered compensation to be the average of the taxable wage bases for the 35 calendar years ending with the year an individual attains social security retirement age. A 35-year period is used for all individuals regardless of the year of birth of the individual. In determining an individual's covered compensation for any particular plan year, it is assumed that the taxable wage base in effect at the beginning of the plan year will remain the same for all future years. Presented in Attachment I is the covered compensation table for plan years beginning in 1989 (the 1989 Covered Compensation Table).

In lieu of using the definition of covered compensation specified above, plans may use the definition of covered compensation as stated in the proposed regulations for plan years beginning prior to 1995. Thus, for plan years beginning in 1989 through 1994 plans may use the covered compensation table for each such year based upon the definition of covered compensation in the proposed regulations. Alternatively, pursuant to Alternative 2 of section III.B. below, the covered compensation table for 1989 based upon the definition of covered compensation in the proposed regulations may be used for plan years beginning in 1989 through 1994. Attachment II is the covered compensation table for plan years beginning in 1989 based upon the definition of covered compensation in the proposed regulations.

II. *Integration Level — Defined Contribution Excess Plans*

A. The permitted disparity requirements applicable to defined contribution plans are specified in section 1.401(l)-2 of the regulations. One of the requirements of such section is that, for any participant, the excess contribution percentage may not exceed the base contribution percentage by more than the maximum excess allowance. The maximum excess allowance is defined as the lesser of:

(i) the base contribution percentage, or

(ii) the greater of

(A) 5.7%, or

(B) the percentage rate of tax under section 3111(a) of the Code (in effect as of the beginning of the plan year) which is attributable to the old age insurance portion of the Old Age, Survivors and Disability Insurance provisions of the Social Security Act.

The base contribution percentage with respect to a defined contribution excess plan is defined in the regulations as the percentage of compensation at which employer contributions (and forfeitures) are allocated to the accounts of participants with respect to compensation of participants at or below the integration level specified in the plan. The excess contribution percentage with respect to a defined contribution excess plan is the percentage of compensation at which employer contributions (and forfeitures) are allocated to accounts of participants with respect to compensation of participants above the integration level specified in the plan. Section 1.401(l)-2(b)(4) of the regulations specifies that, in order to meet the permitted disparity requirements for defined contribution plans, the integration level of a plan must equal the taxable wage base in effect as of the beginning of the plan year. (See section 1.401(l)-1(b)(5) for the definitions of integration level and taxable wage base).

B. Pursuant to this notice, the following two alternative approaches for determining integration levels may be used in lieu of the taxable wage base:

(1) Provided all other permitted disparity requirements are met, an acceptable integration level is a uniform dollar amount for all participants no greater than the greater of $10,000 or 1/5 of the taxable wage base in effect as of the beginning of the plan year.

(2) Provided all other permitted disparity requirements are met, any uniform dollar amount greater than the amount in (1), above, that is less than the taxable wage base (TWB) in effect as of the beginning of the plan year is an acceptable integration level provided the limitation on the maximum excess allowance stated in section 1.401(l)-2(b)(5)(ii)(A) of the regulations (and II.A.(ii)(A) of this notice) of 5.7% is reduced in accordance with the table set forth below. A proportionate reduction is made in the limitation of section 1.401(l)-(b)(5)(ii)-(B) (and II.A.(ii)(B) of this notice) relating to the old age portion of the OASDI tax.

If the integration level		the 5.7 percent factor in the maximum excess allowance is reduced to
Is more than	But not more than	
X*	80% of TWB***	4.3%
80% " "	Y**	5.4%

* X = the greater of $10,000 or 20% of the TWB.

** Y = any amount more than 80% of the TWB but less than 100% of the TWB.

*** The 1989 taxable wage base is $48,000

Example. Employer X maintains a profit-sharing plan that has a plan year beginning July 1 of each year. For the plan year beginning July 1, 1989, the plan uses an integration level for all participants of $30,000, which is 62.5% of the taxable wage base of $48,000 for the 1989 calender year. Consequently, in applying the permitted disparity requirements, the 5.7% factor must be replaced by 4.3%.

III. *Integration Level — Defined Benefit Excess Plans*

A. The permitted disparity requirements applicable to defined benefit excess plans are stated in section 1.401(l)-3(b) of the regulations. One of the requirements of such section is that the excess benefit percentage may not exceed the base benefit percentage by more than the maximum excess allowance. The maximum excess allowance is defined as:

(A) With respect to employer-derived benefits provided under the plan for any year of credited service, the lesser of 3/4 of 1%, or the base benefit percentage for the plan year, and

(B) With respect to total employer-derived benefits provided under the plan for all years of credited service, the lesser of the 3/4 of 1% limitation determined under (A) multiplied by the participant's total years of credited service (not in excess of 35) or the base benefit percentage with respect to the total employer-derived benefit.

The base benefit percentage with respect to a defined benefit excess plan is the percentage of compensation at which employer-derived benefits are accrued with respect to compensation of participants at or below the integration level specified in the plan for the plan year. The excess benefit percentage with respect to a defined benefit excess plan is the percentage of compensation at which employer-derived benefits are accrued with respect to compensation of participants above the integration level specified in the plan.

The 3/4 of 1% limitation applies to benefits commencing at a participant's social security retirement age (as defined in section 415(b)(8) of the Code). If benefits commence prior to social security retirement age, the ¾ of 1% factor is reduced depending on the age at which benefits commence and the participant's social security retirement age. The appropriate reductions are specified in section 1.401(l)-3(e) of the regulations, relating to early benefit commencement.

In addition, the ¾ of 1% factor is applicable if the integration level for each participant is such participant's covered compensation.

Certain alternative integration levels are permitted under section 1.401(l)-3(b)(4) of the regulations. In order to use some of the alternative integration levels, it is necessary that the plan satisfy the demographic tests stated in sections 1.401(l)-3(b)(4)(iii)(B) and (C) of the regulations. However, the use of an integration level for any participant other than such participant's covered compensation may result in an adjustment to the ¾ of 1% factor. Rules for determining the adjustment are stated in section 1.401(l)-3(d)(1) of the regulations. Adjustments required under paragraphs (d)(1) and (e) of section 1.401(l)-3 are cumulative. (The safe harbor integration level for a plan year of a uniform dollar amount not exceeding the greater of $10,000 or one-half of the covered compensation of an individual attaining social security retirement age in the plan year does not require the use of the demographic tests and is not affected by this notice.)

B. Pursuant to this notice, the following additional alternatives for determining an integration level are acceptable provided all other permitted disparity requirements are met:

Alternative 1

Any uniform dollar amount that is greater than the safe harbor integration level of the greater of $10,000 or one-half of the covered compensation of an individual attaining social security retirement age in the plan year and that does not exceed the taxable wage base in effect as of the beginning of the plan year is an acceptable integration level, provided the limitation on the maximum excess allowance of ¾ of 1% is reduced to the lesser of (a) the adjusted amount determined in accordance with section 1.401(l)-3(d)(1) of the regulations, or (b) 80% of the otherwise applicable limitation determined without regard to section 1.401(l)-3(d)(1). The reduced limitation so determined is used in place of the ¾ of 1% limitation for all purposes in determining whether the permitted disparity rules for defined benefit excess plans are met. (Of course, any reduction to the ¾ of 1% factor required under section 1.401(l)-3(e) must also be made.)

Example. Employer X maintains a noncontributory defined benefit excess plan. The plan has a normal retirement age of 65. The plan uses the calendar year as its plan year. For the 1989 plan year, the plan uses an integration level of $20,000, which is 117.87% of the 1989 covered compensation of $16,968 for an individual reaching social security retirement age in 1989 (see Attachment I). Pursuant to this notice, such an integration level is acceptable without meeting the demographic tests specified in the regulations, provided the adjustment required under this alternative to the ¾ of 1% factor is made. Because the integration level exceeds the covered compensation of an individual reaching social security retirement age in the plan year but is not more than 125% of such covered compensation, the ¾ of 1% factor is replaced by .69% pursuant to section 1.401(l)-3(d)(1) of the regulations, relating to adjustments to the ¾ of 1% factor when the integration level is something other than the covered compensation of each participant. The .69% factor is 92% of the ¾ of 1% factor. Because the lesser of 80% and 92% is 80%, the ¾ of 1% factor is reduced to .6 of 1% (80% of ¾ of 1%) under this alternative. Such factor applies to benefits commencing at age 65 for a participant with a social security retirement age of 65. In determining projected benefits for participants with social security retirement ages of 66 or 67, the applicable factors for benefits commencing at age 65 are, respectively, .56 of 1% (80% of .7 of 1%) and .52 of 1% (80% of .65 of 1%).

Of course, an integration level of a uniform dollar amount may be used without the reduction in the ¾ of 1% factor required under this alternative provided the demographic tests of both sections 1.401(l)-3(b)(4)(iii)(B) and (C) are met.

Alternative 2 (Frozen Covered Compensation Table)

An amount for a participant equal to a participant's covered compensation for a plan year prior to the current plan year is an acceptable integration level for the participant, provided the plan year used is the same for all participants and is not earlier than the later of (1) the plan year 5 years prior to the current plan year, and (2) the plan year beginning in 1989. This alternative may be used without satisfying the demographic tests of section 1.401(l)-3(b)(4)(iii)(B) and (C) of the regulations. In addition, no adjustment to the ¾ of 1% factor is required under either section 1.401(l)-3(d)(1) of the regulations or this notice. However, pursuant to section 1.401(l)-1(c) of the regulations, any change in the integration level is subject to sections 411(d)(6) and 411(b)(1)(G) of the Code regarding impermissible reductions in accrued benefits. (Plans must include language that would prevent violations of sections 411(d)(6) or 411(b)(1)(G) resulting from changes in integration levels.)

Example. Employer X maintains a noncontributory defined benefit excess plan. The plan has a calendar plan year. For the 1989 plan year, the plan provides that the integration level for any participant is the covered compensation of the participant determined using the 1989 covered compensation table. The plan may continue to use the 1989 covered compensation table (provided the terms of the plan so specify) for each subsequent plan year through the 1994 plan year, without any adjustment to the ¾ of 1% factor for the use of an integration level other than current covered compensation and without meeting the demographic tests of the regulations. (Of course, the adjustments of section 1.401(l)-3(e) relating to benefits commencing prior to the social security retirement age must continue to be made.) To meet the requirements of section 401(l) of the Code (and this Alternative) the integration level would have to be changed for the 1995 plan year. Such a change in the integration level in the 1995 plan year is subject to sections 411(d)(6) and 411(b)(1)(G) of the Code regarding reductions in accrued benefits pursuant to 1.401-(l)-1(c) of the regulations.

IV. *Defined Benefit Offset Plans*

A. The permitted disparity requirements applicable to defined benefit offset plans are stated in section 1.401(l)-3(c) of the regulations. A defined benefit offset plan is a defined benefit plan that is not an excess plan and that provides that each participant's employer-derived benefit is reduced or offset by an amount specified (either directly or by formula) in the plan or by a specified percentage of the participant's final average compensation. A participant's final average compensation, as of a plan year, is the average of the participant's annual compensation from the employer for the 3-consecutive-year period ending with or within the plan year. For this purpose, compensation in excess of the taxable wage base for any year may not be considered.

The permitted disparity requirements applicable to defined benefit offset plans are stated in section 1.401(l)-3(c) of the regulations. One of the requirements of such section is that no participant's benefit is reduced by an offset that exceeds the maximum offset allowance.

The maximum offset allowance for any plan year is equal to:

(A) With respect to employer-derived benefits provided under the plan for any year of credited service, the lesser of

(1) ¾ of 1% multiplied by the participant's final average compensation (up to covered compensation), or

(2) one-half of the employer-derived benefit that would be provided,

prior to the application of the offset, with respect to the participant's average annual compensation not in excess of the participant's final average compensation (up to covered compensation), and

(B) With respect to total employer-derived benefits provided under the plan for all years of credited service, the offset determined under (A)(1), above, multiplied by the participant's total years of credited service (not in excess of 35).

The ¾ of 1% factor is applicable to benefits commencing at a participant's social security retirement age (as defined in section 415(b)(8) of the Code). If benefits commence prior to social security retirement age, the ¾ of 1% factor is reduced depending on the age at which benefits commence and the participant's social security retirement age. The appropriate reductions are specified in section 1.401(l)-3(e) of the regulations.

In addition, the ¾ of 1% factor is applicable if the offset for each participant is based on such participant's final average compensation up to covered compensation. Certain alternatives to the use of a participant's covered compensation in determining the offset applicable to a participant are permitted under section 1.401(l)-3(c)(4) of the regulations. In order to use some of the alternatives, it is necessary that the plan satisfy the demographic tests stated in sections 1.401(l)-3(c)(4)(iii)(B) and (C) of the regulations. (The safe harbor offset in the regulations based on final average compensation up to a uniform dollar amount not exceeding the greater of (1) $10,000 or (2) one-half of the covered compensation of an individual attaining social security retirement age in the plan year does not require the use of the demographic tests and is not affected by this notice). However, if the offset to a participant's benefit is based on final average compensation up to an amount other than the participant's covered compensation, an adjustment to the ¾ of 1% factor may need to be made. Rules for determining the adjustment are stated in section 1.401(l)-3(d)(2) of the regulations. Adjustments required under paragraphs (d)(2) and (e) of section 1.401-(l)-3 are cumulative.

B. Pursuant to this notice, provided all other permitted disparity requirements are met, the offset to a participant's benefit may be determined based on a participant's final average compensation up to the amount specified in the following alternatives:

Alternative 1

Any uniform dollar amount that is greater than the safe harbor amount of the greater of $10,000 or one-half of the covered compensation of an individual attaining social security retirement age in the plan year and that does not exceed the taxable wage base in effect as of the beginning of the plan year, provided the ¾ of 1% factor is reduced to the lesser of (a) the adjusted factor determined in accordance with section 1.401(l)-3(d)(2) of the regulations, or (b) 80% of the otherwise applicable limitation determined without regard to section 1.401(l)-3(d)-(2). The reduced limitation is used in place of the ¾ of 1% limitation for all purposes in determining whether the permitted disparity rules are satisfied. In addition, any reduction to the ¾ of 1% factor required under paragraph 1.401-(l)-3(e) must also be made.

Of course, an offset based on final average compensation up to a uniform dollar amount may be used without the reduction of the ¾ of 1% factor required under this alternative provided the tests of both paragraphs 1.401(l)-3(c)(4)(iii)-(B) and (C) are met.

Alternative 2 (Frozen Covered Compensation Table)

An amount for a participant equal to the participant's covered compensation for a plan year prior to the current plan year, provided the plan year used is the same for all participants and is not earlier than the later of (1) the plan year 5 years prior to the current plan year, or (2) the plan year beginning in 1989. This alternative may be used without satisfying the demographic tests of sections 1.401(l)-3(c)(4)(iii)(B) and (C) of the regulations. In addition, no adjustment to the ¾ of 1% factor is required under either section 1.401(l)-3(d)(2) of the regulations or this notice. However, pursuant to section 1.401(l)-1(c) of the regulations, any change in the offset is subject to sections 411(d)(6) and 411(b)(1)(G) of the Code regarding impermissible reductions in accrued benefits. (Plans must include language that would prevent violations of section 411(d)(6) or 411(b)(1)(G) resulting from changes in offsets.)

V. *Reliance Without Annual Demographic Tests*

A. Section 1.401(l)-3(b)(4) of the regulations provides alternatives for specifying an integration level in a defined benefit excess plan. Section 1.401(l)-3(c)(4) provides alternatives for specifying an offset in a defined benefit offset plan. Some of the alternatives require that the plan satisfy certain demographic tests stated in sections 1.401(l)-3(b)(4)-(iii)(B) and (C) of the regulations for excess plans and sections 1.401(l)-3(c)-(4)(iii)(B) and (C) for offset plans.

Section 1.401(l)-3(g) of the regulations states that benefits attributable to employee contributions in a defined benefit excess plan or a defined benefit offset plan are not taken into account in applying the permitted disparity requireapplying the permitted disparity requirements. Two methods were provided for determining the portion of a participant's benefit deemed attributable to employee contributions. The method in section 1.401(l)-3(g)(2) involved the use of a uniform factor. The proper uniform factor for a plan and the ability to use a uniform factor depended on the satisfaction of certain demographic standards.

B. An individually designed plan that (l) uses an integration level in an excess plan or an offset in an offset plan requiring the satisfaction of the demographic tests of the regulations, or (2) uses a uniform factor pursuant to the demographic standards of section 1.401(l)-3(g) of the regulations for determining the portion of a participant's benefits deemed attributable to employee contributions, and (3) receives a favorable determination letter based on employee census data for a particular plan year may rely on the favorable letter for subsequent plan years unless, effective for such year, there is a plan amendment or change in law affecting the application of the permitted disparity requirements to the plan. However, the reliance provided in this notice is not applicable if there is a significant change in material fact, such as a significant change in the workforce, in subsequent years. In addition, the reliance provided in this notice with respect to the use of a uniform factor for determining the portion of a participant's benefits deemed attributable to employee contributions does not apply to plan years ending after the sixth anniversary of the last day of the plan year for which the favorable determination letter was obtained.

VI. *Career Average Plans*

The final regulations will also provide that certain types of career average defined benefit plans that are not covered by the proposed regulations can satisfy the requirements of section 401(l). The types of career average plans are those that determine the retirement benefit of a participant based on each year of service separately and sum the benefit for each year to determine the total retirement benefit. If such plans are excess plans, the integration level for such plans may either be (1) the covered compensation of each participant for the particular year, (2) a uniform dollar amount for all participants that does not exceed the greater of $10,000 or one-half of the covered compensation of an individual who attains social security retirement age in the plan year, (3) a stated dollar amount uniformly applicable to all participants that does not exceed the taxable wage base for each year, provided the demographic tests specified in sections 1.401(l)-3(b)(4)(iii)(B) and (C) of the regulations are met, or (4) a uniform percentage (greater than 100 percent) of each participant's covered compensation (but not in excess of the taxable wage base in effect as of the beginning of the plan year).

If the integration level applicable to a participant for a plan year is not the participant's covered compensation, the adjustments found in the regulations will have to be made. Thus, for example, if the integration level is the taxable wage base, the adjustments in section 1.401-(l)-3(d)(1) of the regulations will have to be made to the ¾ of 1 percent factor.

In addition to the integration levels specified above, a career average plan may determine an integration level using Alternatives I or II of section III.B. of this notice, provided that the adjustments to the ¾ of 1% factor described in the alternatives are made.

Example. Plan A provides that the retirement benefit a participant earns for each year of service is 1 percent of the participant's compensation for that year not in excess of the taxable wage base for such year, plus 1 ¾ percent of the participant's compensation in excess of the taxable wage base for such year. Assume all participants have a social security retirement age of 65. In order to satisfy the requirements of the regulations, the ¾ of 1 percent difference will have to be reduced as provided in regulations for an integration level in excess of covered compensation.

Similar rules apply to the types of career average plans described above that are offset plans.

VII. *Early Retirement Adjustments*

Section 1.401(l)-3(e) of the proposed regulations provides adjustments to the ¾ of 1 percent factor for benefits payable under a defined benefit excess or a defined benefit offset plan prior to social security retirement age. Section 1.401-(l)-3(e)(3) of the proposed regulations provided tables showing the reductions in the ¾ of 1 percent factor applicable to benefits commencing on or after age 55 for a participant who has a social security age of 65, 66, or 67. The tables in the final regulations will be revised to use a reduction of 1/15 for each of the first five years that the benefits are payable before social security retirement age and a reduction of 1/30 for each of the next five years that the benefits are payable before social security retirement age, with an actuarial reduction used for any additional years. As revised the tables are as follows:

Social Security retirement age 67

Age at which benefits commence	Annual factor in maximum excess allowance and maximum offset allowance (percent)
66	0.70
65	0.65
64	0.60
63	0.55
62	0.50
61	0.475
60	0.45
59	0.425
58	0.40
57	0.375
56	0.344
55	0.316

Social Security retirement age 66

Age at which benefits commence	Annual factor in maximum excess allowance and maximum offset allowance (percent)
65	0.70
64	0.65
63	0.60
62	0.55
61	0.50
60	0.475
59	0.45
58	0.425
57	0.40
56	0.375
55	0.344

Social Security retirement age 65

Age at which benefits commence	Annual factor in maximum excess allowance and maximum offset allowance (percent)
64	0.70
63	0.65
62	0.60
61	0.55
60	0.50
59	0.475
58	0.45
57	0.425
56	0.40
55	0.375

VIII. *Early Retirement — Excess Plans*

Section 1.401(l)-3(b)(5) of the proposed regulations provides that in a defined benefit excess plan any optional form of benefit, ancillary benefit, actuarial factor or other right, benefit or feature provided under the plan with respect to employer-derived benefits attributable to compensation above the integration level is also provided under the plan on the same basis with respect to employer-derived benefits attributable to compensation at or below the integration level. This notice clarifies that such rights, benefits, or features provided with respect to employer-derived benefits attributable to compensation at or below the integration level may be provided either on the same basis or at least as favorable a basis as that provided with respect to employer derived benefits attributable to compensation above the integration level.

Example. Employer X maintains a noncontributory defined benefit excess plan with a normal retirement age of 65. The formula for determining benefits under the plan for participants with a social security retirement age of 65 provides a normal retirement benefit (for each year of credited service up to 35 years) of 1.25% of the participant's average annual compensation up to covered compensation plus 2.0% of the participant's average annual compensation in excess of the participant's covered compensation. (Such benefit may also be described as 1.25% of average annual compensation plus .75% of average annual compensation in excess of covered compensation.) The plan also provides an early retirement benefit at age 55 of 1.25% of average annual compensation plus .375% of average annual compensation in excess of covered compensation for each year of credited service up to 35 years. Such early retirement benefit meets the requirements of section 1.401(l)-3(b)(5) of the regulations because the early retirement factor applied to the benefit attributable to compensation below the integration level is at least as favorable as the factor applied to the benefit attributable to compensation above the integration level.

IX. *Early Retirement — Offset Plans*

Section 1.401(l)-3(e) of the regulations provides that in the case of a benefit payable to a participant commencing at an age before the participant's social security retirement age, the ¾ of 1 percent factor in the maximum offset allowance is reduced to at least a specified amount. Pursuant to this notice, in the case of a benefit commencing before social security retirement age, an offset plan satisfies the required reduction under paragraph 1.401(l)-3(e)(2) of the regulations if the benefit provided under the formula prior to the application of the offset is reduced by an amount (expressed as a percentage of average annual compensation) that is not less than the amount by which the offset must be reduced (expressed as a percentage of compensation used for determining the offset).

Example 1. Employer Y maintains a noncontributory defined benefit offset plan with a normal retirement age of 65. Pursuant to the formula for determining benefits under the plan for participants with a social security retirement age of 65, a participant accrues a normal retirement benefit (for each year of credited service up to 35 years) of 2% of the participant's average annual compensation offset by .75% of the participant's final average compensation (up to covered compensation). The plan also provides that the offset will not exceed 50% of the benefit the participant would have accrued under the plan for any plan year with respect to the participant's average annual compensation (up to covered compensation). The plan provides an early retirement benefit at age 55 for each year of credited service up to 35 years of 2% of average annual compensation offset by .375% of final average compensation (up to covered compensation). Thus, the offset portion of the formula is reduced for early retirement in accordance with the regulations (as modified by this notice), but the formula as stated prior to the application of the offset is not reduced for early retirement. Such early retirement benefit is in violation of the requirements of section IX of this notice. In addition, such early retirement benefit is larger than the normal retirement benefit not reduced for early retirement. Because the larger early retirement benefit is not taken into account in determining accruals prior to early retirement age, the plan's formula violates the accrual requirements of section 411 of the Code.

Example 2. Assume the same facts as in Example 1 except that the early retirement benefit at age 55 for each year of credited service up to 35 years is 1.625% of average annual compensation offset by .375% of final average compensation (up to covered compensation).

Because the benefit (prior to the application of the offset) is reduced by .375% (from 2.0% to 1.625%) of average annual compensation and this reduction is the same (determined as .75% to .375%) as that made in the offset expressed as a percentage of compensation used in determining the offset (final average compensation up to covered compensation), the early retirement benefit meets the requirements of section IX of this notice.

ADMINISTRATION PRONOUNCEMENT

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Furnishing Identification of Dependent Care Providers

Notice 89-71

This notice provides guidance on the new reporting requirements for taxpayers claiming the dependent care credit under section 21 of the Internal Revenue Code or taking the dependent care exclusion under section 129 of the Code.

Section 703(c) of the Family Support Act of 1988 (the Act), Pub. L. No. 100-485, amended sections 21 and 129 of the Code to require taxpayers claiming the credit for dependent care expenses under section 21, or taking the exclusion pursuant to a dependent care assistance program under section 129, to furnish the Internal Revenue Service (Service) with the name, address, and taxpayer identification number (TIN) of the care provider. (For individuals, their TIN is their social security number. For other entities, generally, their TIN is their employer identification number.) In the case of a care provider that is an organization described in section 501(c)(3) and exempt from tax under section 501(a), the taxpayer claiming such a credit or taking such an exclusion is required to furnish only the name and address of the care provider.

Act section 703(c) also amended section 6109(a)(2) of the Code to require care providers to furnish their TINs to taxpayers who need the TINs in order to claim the credit under section 21 or to take the exclusion under section 129. A care provider who fails to comply with this requirement is subject to a penalty under section 6676 of $50 for each such failure, unless the failure is due to reasonable cause and not to willful neglect. Care providers that are organizations described in section 501(c)(3) and exempt from tax under section 501(a) do not have to furnish TINs to taxpayers.

Taxpayers claiming the credit under section 21 of the Code or taking the exclusion under section 129 must furnish the required information on the federal income tax return on which the credit is claimed or to which the exclusion relates. Form 2441, Credit for Child and Dependent Care Expenses (filed with Form 1040), and Part I of Schedule 1, Credit for Child and Dependent Care Expenses, (filed with Form 1040A), will be retitled and revised to provide space and instructions for taxpayers claiming the credit or taking the exclusion to furnish the required information. In the case of a care provider that is an organization described in section 501(c)(3) and exempt from tax under section 501(a), taxpayers must write "tax-exempt" in the space in which the TIN of the care provider generally would be reported.

These new requirements are effective for taxable years beginning after December 31, 1988. Thus, taxpayers claiming the credit or taking the exclusion generally must furnish the required information on their federal income tax returns for 1989 and subsequent years (that is, beginning with returns due by April 16, 1990).

Taxpayers who do not furnish correct or complete information will not be allowed the dependent care credit or exclusion unless, upon the Service's request, they show that they exercised due diligence in attempting to furnish the required information. Any one of the following documents may be used to show that a taxpayer exercised due diligence in attempting to furnish the required information, unless the taxpayer knows or has reason to know that the information on the document is incorrect:

1. A completed Form W-10, Dependent Care Provider's Identification and Certification;
2. A copy of the care provider's social security card or driver's license (in a state where the license includes the social security number);
3. A recently printed letterhead or printed invoice of the care provider that contains the required information;
4. If the care provider is the taxpayer's household employee and has given the taxpayer a completed Form W-4, Employee's Withholding Allowance Certificate, a copy of that W-4; and
5. If the employer is the care provider in the case of a section 129 program, a copy of the statement furnished to the employee under section 129(d)(6) of the Code that contains the required information.

Taxpayers should request the required information from the care provider. In cases where the care provider does not comply with such a request, taxpayers should furnish whatever information they have (that is, a name, an address, and, if known and required, a TIN of the care provider) on the Form 2441 or Schedule F (whichever is applicable) Taxpayers should then include a statement on the Form 2441 or Schedule 1 (whichever is applicable) that they requested the required information from the care provider, and that the care provider did not comply with the request. This statement will show that the taxpayer exercised due diligence in attempting to furnish the required information, unless the taxpayer knows or has reason to know that the statement is incorrect.

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations, and may be relied upon to the same extent as a revenue ruling or revenue procedure.

New Information Reporting Requirements for Real Estate Mortgage Investment Conduits (REMICs) and Other Issuers of Collateralized Debt Obligations

Notice 89-72

The Service will soon issue temporary regulations that will establish new rules for information reporting by real estate mortgage investment conduits (REMICs) and other issuers of collateralized debt obligations (obligations described in section 1272(a)(6)(C)(ii) of the Internal Revenue Code). These new rules will replace those currently set out in temporary regulations that were published in the Federal Register on March 9, 1988 (53 F.R. 7504). The new rules will ensure that both the Service and investors will receive timely and accurate tax information.

In general, the existing temporary regulations require a chain of reporting if an investor holds a REMIC regular interest through a nominee, such as a broker or other middleman. A REMIC must annually report tax information to the Service and to each interest holder of record. If the interest holder of record is a nominee of another, then the nominee must report that information to the Service and to the person for whom it holds the REMIC regular interest. Often, several middlemen are interposed between the REMIC and the ultimate owner of the REMIC regular interest. Because each middleman in the chain is allowed 30 days from the time it receives the tax information until the time it must report that information, many REMIC regular interest holders may not receive the tax information until after the date their tax returns are due.

The new temporary regulations will differ from the existing temporary regulations in two important ways. First, the new regulations will contain information reporting rules not only for REMIC regular interests, but also for other collateralized debt obligations. Second, the new regulations will generally eliminate the chain of reporting by requiring only the nominee who holds an interest for the actual owner (the last middleman in the chain) to report tax information to the investor and to the Service.

The new regulations will require a REMIC or other issuer of collateralized debt obligations to file new Form 8811, Information Return for Real Estate Mortgage Investment Conduits (REMICs) and Issuers of Collateralized Debt Obligations, with the Service. On that form, the REMIC or other issuer must list its name, employer identification number, and the Committee on Uniform Security Identification Procedure (CUSIP) number assigned to each class of REMIC regular interest or collateralized debt obligation. In addition, the REMIC or other issuer must provide the name, address, and telephone number of a person who can be contacted by a broker or other middleman to obtain the tax information needed to fulfill its reporting obligation to the actual owner and to the Service.

The Service will compile the information submitted by REMICs and other issuers and publish it in January of each year in publication 938, *Real Estate Mortgage Investment Conduits (REMICs) Reporting Information (Including Other Issuers of Collateralized Debt Obligations)*. Brokers and other middlemen who will have a reporting obligation under the new regulations can refer to Publication 938 to find the appropriate contact person who will be required to provide tax information to them.

Generally, a REMIC must file Form 8811 within 30 days of its startup day, and other issuers of collateralized debt obligations must file Form 8811 within 30 days of the issuance of those obligations. The temporary regulations will require, however, that REMICs that are in existence on July 1, 1989, and other issuers that have issued collateralized debt obligations on or before July 1, 1989, must file Form 8811 with the Service by July 31, 1989. Because the new information reporting rules will be effective for information returns to be prepared for the 1989 taxable year, REMICs and other issuers must file Form 8811 by the July 31, 1989, deadline so that the Service can issue Publication 938 in January of 1990.

Form 8811 should be mailed to:

REMIC Publication Project
Internal Revenue Service
1111 Constitution Ave. N.W.
Room 5607
Washington, D.C. 20224

Copies of Form 8811 can be obtained from I.R.S. Forms Distribution Centers, or by calling 1-800-424-3676.

This notice will not apply to REMICs all of whose regular interests are owned by another REMIC.

ADMINISTRATIVE PRONOUNCEMENT

This notice serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

Branch Profits Tax: Rate under the French Income Tax Treaty

Notice 89-73

Section 1.884-1T(h)(4)(i)(B) of the Temporary Income Tax Regulations lists the rates of tax imposed under section 884 of the Internal Revenue Code of 1986 (the branch profits tax) on foreign corporations that (1) are residents of certain countries that have an income tax treaty with the United States and (2) qualify for treaty benefits with respect to the branch profits tax. The regulation reserved with respect to the rate of tax imposed on corporations resident in France. The regulation will be amended to specify a rate of 5 percent for corporations that are residents of France and are entitled to treaty benefits with respect to the branch profits tax.

Administrative Pronouncement

This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the Income Tax Regulations and may be relied upon to the same extent as a revenue ruling or revenue procedure.

Effective Date

This amendment will be effective for taxable years beginning after December 31, 1986.

Translation of the Income of a Foreign Branch

Notice 89-74

This notice provides guidance relating to the amendments made to the foreign currency rules by the Tax Reform Act of 1986, 1986-3 (Vol. 1) C.B. 1 (the Act), as amended by the Technical and Miscellaneous Revenue Act of 1988, P. L. 100-647, 100 Stat. 3342. Specifically, this notice provides rules for translating the income of a foreign branch of a United States taxpayer (a qualified business unit (QBU)) that has a functional currency other than the U.S. dollar when the taxpayer credits, rather than deducts, foreign taxes.

Section 1261(a) of the Act added sections 985 through 989 of the Internal Revenue Code of 1986 to provide rules for the treatment of foreign currency transactions. Section 985(a) provides that, unless otherwise provided in regulations, all determinations under subtitle A of the Code shall be made in the taxpayer's functional currency (as defined in section 985(b)). Under section 987, a taxpayer with one or more QBUs with a functional currency other than the dollar must compute the taxable income or loss of each QBU separately in the functional currency of the QBU before translating such income into dollars at the appropriate exchange rate. Under section 989(b)(4), the appropriate exchange rate for translating branch income is, except as provided in regulations, the weighted average exchange rate for the taxable year.

A taxpayer may elect either to credit or to deduct foreign taxes paid or accrued. In order to prevent a double benefit, section 275(a)(4) of the Code and section 1.901-1(c) of the Income Tax Regulations provide that a taxpayer is not allowed to deduct foreign income taxes if the taxpayer chooses to credit such taxes. Therefore, if a taxpayer credits foreign taxes, taxable income (or loss) attributable to a branch consists of two elements: a functional currency amount equal to the foreign taxes paid on branch income for which no deduction is allowed (the "tax equivalent amount") and a functional currency amount of "earnings" (or "deficit"). For this purposes the "earnings" (or "deficit") equal taxable income (or loss) minus taxes paid or accrued.

The regulations will provide that when a United States taxpayer with a foreign branch that has a functional currency other than the dollar credits rather than deducts the branch's foreign taxes, the taxpayer must translate the tax equivalent amount into dollars using the exchange rate at the time of payment of such taxes to a foreign country or possession of the United States. The regulations will also provide that the taxpayer will translate the branch's "earnings" (or "deficit") into dollars using the weighted average exchange rate.

In addition, to the extent there is a foreign tax redetermination, as defined in section 1.905-3T(c) of the Temporary Income Tax Regulations, the taxpayer will be required to recompute the taxable income, the "tax equivalent amount," and "earnings" attributable to the branch using the translation rules of this notice.

The following examples illustrate the rules of this notice. Assume in each example that all of *X*'s income is income generated by *M* that is foreign source general limitation income (income described in section 904(d)(1)(I) of the Code).

Example (1). M is a foreign branch of a calendar year domestic corporation *X*, that for 1988 credits its foreign taxes paid. *M* operates in foreign country *R* and is a QBU. *R*'s currency is the u and *M*'s functional currency is the u. In 1988, *M* has 100u of taxable income. *M* pays 20u of tax on that income to country *R* on December 31, 1988. For 1988, the weighted average exchange rate is 1u/$1. On December 31, 1988, the exchange rate is 1u/$1.2. The 20u of foreign tax is a creditable tax under section 901 of the Code and the regulations thereunder.

In 1988, *X*'s 100u of income attributable to *M* consists of 80u of earnings and 20u of a tax equivalent amount. The 80u of earnings is translated at the weighted average exchange rate for 1988 (1u/$1) to $80 and 20u is translated at the exchange rate when the taxes are paid (1u/$1.2) to $24. For 1988, *X*, therefore, has taxable income of $104 ($80 + $24) attributable to its branch *M* and has paid $24 of foreign taxes with respect to that income.

Example (2). The facts are the same as in *Example* 1, except that in 1989, there is a foreign tax redetermination with respect to *M*'s 1988 income that results in a 10u refund. Therefore, under section 1.905-3T(d) of the temporary regulations, *X* must redetermine its tax liability for 1988. The redetermination results in a change in the dollar amount of the taxable income of *X* attributable to *M*. *X* has 100u of taxable income attributable to *M* which, after the redetermination, consists of 90u of earnings and 10u of a tax equivalent amount. The 90u of earnings is translated at the weighted average exchange rate (1u/$1) to $90 and 10u is translated at the exchange rate on December 31, 1988, the time of the original payment of the foreign tax (1u/$1.2) to $12. Section 986(a)(1)(B)(ii) of the Code. *X*, therefore, has taxable income of $102 ($90 + $12) attributable to its branch *M* and has paid $12 of foreign taxes with respect to that income.

Example (3). The facts are the same as in *Example* 1, except that in 1988 *X* accrues, rather than pays, the 20u of foreign taxes. The December 31, 1988 rate (1u/$1.2) is the rate used to translate the accrued taxes in 1988. Section 1.905-3T(b)(1) of the temporary regulations. In 1989, when *X* pays the 20u of foreign taxes attributable to 1988, the exchange rate is 1u/$1.4. The difference in the dollar value of foreign taxes accrued and foreign taxes paid is a foreign tax redetermination. Section 1.905-3T(c)(3) of the temporary regulations. The redetermination results in a change in the dollar amount of *X*'s taxable income attributable to *M*. *X* has 100u of taxable income attributable to *M*, which after the redetermination consists of 80u of earnings translated at the 1u/$1 rate to $80 and 20u of a tax equivalent amount equal to foreign taxes paid translated at the 1u/$1.4 rate to $28. *X*, therefore, has taxable income of $108 ($80 + $28) attributable to *M* and has paid $28 of foreign taxes with respect to that income.

Example (4). The facts are the same as in *Example* 1, except that in 1989 there is a foreign tax redetermination within the meaning of section 1.905-3T(c) of the temporary regulations that results from an additional tax payment of 5u on *M*'s 1988 income. In 1989 *X* pays the additional 5u in foreign tax when the exchange rate is 1u/$1.4. The foreign tax redetermination results in a change in the dollar amount of *X*'s taxable income attributable to *M*. After the redetermination, *M* has 75u of earnings and 25u a tax equivalent amount. The 75u of earnings is translated at the 1u/$1 rate to $75, 20u is translated at the 1u/$1.2 rate to $24, and 5u is translated at the 1u/$1.4 rate to $7. Section 986(a)(1)(B)(i) of the Code. *X*, therefore, has taxable income of $106 ($75 + $24 + $7) attributable to *M* in 1988 and has paid $31 ($24 + $7) of foreign taxes with respect to that income.

Example (5) The facts are the same as in *Example* 1, except that *M* has 10u of taxable income and country *R* imposes 30u of tax on that income. *X*, therefore, has 10u of taxable income that consists of 30u of a tax equivalent amount and a deficit of 20u (taxable income minus foreign taxes). *X* translates 30u at the exchange rate as of the date of the payment of the taxes (1u/$1.2) to $36 and translates the 20u deficit at the weighted average rate (1u/$1) to <$20>. *X* has $16 ($36 + <20>) of taxable income attributable to branch *M* and has paid $36 of foreign taxes with respect to that income.

PROCEDURAL INFORMATION

The rules contained in this notice will be incorporated in regulations to be issued under the Act. This document serves as an "administrative pronouncement" as that term is described in section 1.6661-3(b)(2) of the regulations and may be relied on to the same extent as a revenue ruling or revenue procedure.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-1

CONTENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 88-1, 1988-1 C.B. 557, as amplified, modified, and supplemented, which provides procedures for issuing rulings, determination letters and information letters, and for entering into closing agreements on specific issues involving the interpretation or application of the federal tax laws. It also tells taxpayers and their representatives where to send requests for rulings, determination letters and information letters. It gives the steps to follow so that requests may be handled more efficiently. Changes to this revenue procedure will be incorporated annually in a new revenue procedure published as the first revenue procedure of the year.

SEC. 2. SCOPE

.01 The Chief Counsel through the Associate Chief Counsel (Technical) provides basic principles and rules for the uniform interpretation and application of the federal tax laws under the jurisdiction of the Associate Chief Counsel (Technical).

.02 This revenue procedure applies only to ruling requests, information letters, and closing agreements under the jurisdiction of the Associate Chief Counsel (Technical) and to requests for determination letters under the jurisdiction of field offices that relate to Code sections under the jurisdiction of the Associate Chief Counsel (Technical).

.03 The procedures for obtaining rulings, closing agreements, and information letters on specific tax issues involving the interpretation or application of the federal tax laws and income tax treaties relating to international transactions are contained in Rev. Proc. 87-4, 1987-1 C.B. 529, as modified by 88-4, 1988-1 C.B. 586.

.04 The procedures for obtaining rulings, etc., that apply specifically to federal firearms, alcohol and tobacco taxes under subtitle E of the Internal Revenue Code are under the jurisdiction of the Bureau of Alcohol, Tobacco and Firearms. The procedures for obtaining rulings, determination letters, etc., on employee plans and exempt organizations are under the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations). See Rev. Proc. 83-36, 1983-1 C.B. 763, as modified by Rev. Proc. 87-40, 1987-2 C.B. 514. However, the jurisdiction of the Associate Chief Counsel (Technical) includes section 521 of the Code, on exemption of farmer's cooperatives from tax; section 526, on shipowners' protection and indemnity associations; and section 528 on certain homeowners association.

SEC. 3. CHANGES

.01 References throughout the revenue procedure to the Associate Chief Counsel (Technical and International) are changed to the Associate Chief Counsel (Technical) to reflect that separate Associate Chief Counsel positions have been established for the Technical and International organizations.

.02 Section 5.02 is amended to provide that the National Office will consider prospective estate tax rulings on all issues, with certain limited exceptions, during a test period ending December 31, 1989. See Rev. Proc. 88-50, 1988-2 C.B. 711, which modified Rev. Proc. 88-1.

.03 Section 5.07 is amended to reflect the modifications made to that section by Rev. Proc. 88-18, 1988-1 C.B. 694.

.04 Section 8.03 is amended by redesignating such section 8.04 and by inserting a new section 8.03 that describes user fees and provides a schedule of fees.

.05 Section 8.06 is amended by the addition of language from Rev. Proc. 88-6, 1988-1 C.B. 589 (guidelines concerning requests involving public utilities), which amplified Rev. Proc. 88-1.

.06 Section 8.06 is amended to provide that an extension of the 21-day period for post-conference submissions must be approved by the Branch Chief, Senior Technician Reviewer, or Assistant to the Branch Chief of the Branch to which the case is assigned.

.07 Sections 8.16 through 8.18 are amended and sections 8.19 and 8.20 are redesignated as section 8.22 and 8.23. New sections 8.17 through 8.21 describe the primary responsibilities of the new Assistant Chief Counsels in the Technical organization.

.08 Section 10.08 has been added to describe pre-submission conferences.

SEC. 4. GENERAL PRACTICE AND DEFINITIONS

.01 The Service answers inquiries of individuals and organizations, when appropriate in the interest of sound tax administration, about their status for tax purposes and the tax effects of their acts or transactions. The National Office issues rulings in such matters.

.02 District Directors of the Internal Revenue Service apply the statutes and tax treaties, regulations, revenue rulings, and other precedents published in the Internal Revenue Bulletin in determining tax liability, collecting taxes, and issuing information letters and determination letters in answer to taxpayers' inquiries or requests. For purposes of this revenue procedure, any reference to District Director or District Office includes their respective offices or, when appropriate, the Director of an Internal Revenue Service Center.

.03 The word "taxpayer" includes all persons subject to any provision of the Internal Revenue Code and, when appropriate, their representatives and issuers of section 103 obligations. Any reference to National Office means only the Office of the Associate Chief Counsel (Technical).

.04 A "ruling" is a written statement issued to a taxpayer by the National Office that interprets and applies the tax laws to that taxpayer's specific set of facts. Rulings are issued only by the National Office, under the general supervision of the Associate Chief Counsel (Technical). Issuing rulings has been largely delegated to the Assistant Chief Counsel (Corporate), the Assistant Chief Counsel (Employee Benefits and Exempt Organizations), the Assistant Chief Counsel (Financial Institutions and Products), the Assistant Chief Counsel (Income Tax and Accounting), and the Assistant Chief Counsel (Passthroughs and Special Industries).

.05 A "determination letter" is a written statement issued by a District Director in response to a written inquiry by a taxpayer that applies the principles and precedents previously announced by the National Office to a specific set of facts. A determination letter is issued only when a determination can be made on the basis of clearly established rules in the statute or regulations, or by a position in a ruling, opinion, or court decision published in the Internal Revenue Bulletin that specifically answers the question presented. A determination letter will not be issued if a determination cannot be made, for example, when the question presents a novel issue, or if the matter is excluded from the jurisdiction of a District Director under section 6 of this revenue procedure.

.06 An "information letter" is a statement issued either by the national Office or by a District Director that calls attention to a well-established interpretation or principle of tax law, without applying it to a specific set of facts. It may be issued if the request indicates that the taxpayer is seeking general information. If the request does not meet the requirements of section 8 of this revenue procedure, but the Service thinks that the general information may help the individual or organization, it may issue an information letter.

.07 A "revenue ruling" is an interpretation by the Service that has been published in the Internal Revenue Bulletin. It is the conclusion of the Service on how the law is applied to an entire set of facts. Revenue rulings are issued only by the National Office and are published for the information and guidance of taxpayers. Internal Revenue Service officials, and other interested parties.

Since each revenue ruling represents the conclusion of the Service as to the application of the law to the entire statement of facts involved, taxpayers, Service personnel, and others concerned are cautioned against reaching the same conclusion in other cases unless the facts and circumstances are substantially the same. They should consider the effect of subsequent legislation, regulations, court decisions, and revenue rulings. See Rev. Proc. 86-15, 1986-1 C.B. 544.

.08 A "closing agreement" is an agreement between the Commissioner of Internal Revenue or the Commissioner's delegate and a taxpayer on a specific issue or issues or liability that is entered into under the authority in section 7121 of the Code. A closing agreement prepared in an office under the responsibility of the Associate Chief Counsel (Technical) is based on a ruling that has been signed by the Commissioner or the Associate Chief Counsel (Technical) that says that a closing agreement will be entered into on the basis of the holding of the ruling letter. Closing agreements are final, unless fraud, malfeasance, or misrepresentation of a material fact can be shown. Closing agreements may be entered into when it is advantageous to have the matter permanently and conclusively closed, or when a taxpayer can show good and sufficient reasons for an agreement and the government will sustain no disadvantage by its consummation. In appropriate cases, taxpayers may be asked to enter into a closing agreement as a condition to the issuing of a ruling. If, in a single case, closing agreements are requested for each of a number of taxpayers, such agreements are entered into only if the number of taxpayers is 25 or less. However, if the issue and holding are identical for all taxpayers and they number more than 25, a "mass closing agreement" will be entered into with the taxpayer who is authorized by the others to represent the entire group.

SEC. 5. RULINGS ISSUED BY THE NATIONAL OFFICE

.01 *In income and gift tax matters*, the National Office issues rulings on prospective transactions and on completed transactions that occurred before the return is filed for the year in which such transactions are consummated. However, see Rev. Proc. 79-63, 1979-2 C.B. 578, which concerns applications for extensions of the time for making an election or application for relief under section 1.9100-1 of the regulations. If a request for an extension of time under section 1.9100‹ is submitted after the return is filed but before the return is examined, the procedures under Rev. Proc. 89-1 are applicable. If an examination of the return has begun, or is being considered by an Appeals Office, the procedures of Rev. Proc. 89-2, page 753, this Bulletin, are applicable. The National Office issues rulings on the exempt status of organizations under section 521. See Rev. Proc. 84-46, 1984-1 C.B. 541. Specific instructions and guidelines relating to corporate distributions and the determination of the earnings and profits of corporate taxpayers are contained in Rev. Proc. 75-17, 1975-1 C.B. 677. In such matters only the provisions of sections 8.02, 8.10, 8.11, 8.14, 8.17, and 10 of this revenue procedure (Rev. Proc. 89-1) are applicable. Specific instructions and guidelines relating to a change in method of accounting for federal income tax purposes are contained in Rev. Proc. 84-74, 1984-2 C.B. 736. In such matters only the provisions of sections 7.02, 8.02, 803, 8.06, 8.09, 8.11, 8.12, 8.16, 8.18, 8.20, 8.21 8.24, 10, 14, 15 and 16 of this revenue procedure (Rev. Proc. 89-1) are applicable. In matters relating to accounting period changes only the provisions of sections 7.02, 8.02, 8.03, 8.06, 8.09, 8.11, 8.12, 8.16, 8.18, 8.20, 8.24, 10, 14, 15, and 16 of this revenue procedure (Rev. Proc. 89-1) are applicable. The National Office ordinarily does not issue rulings if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period, and (1) that issue is being examined by a District Director or is being considered by an Appeals Office, or (2) that issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of Tax has not expired, or a closing agreement covering the issue of liability has not been entered into by a District Director or by an Appeals Office. If a return dealing with an issue for a particular year is filed while a request for ruling on that issue is pending, the National Office will issue the ruling unless it is notified by the taxpayer that an examination of that issue or the identical issue on an earlier year's return has been started by a District Director. See section 8.07. However, even if an examination has begun, the National Office ordinarily will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued. The National Office does not issue rulings on the replacement of involuntarily converted property, whether or not replacement has been made, if the taxpayer has already filed a return for the tax year in which the property was converted. See section 6.03 for the District Director's authority to issue determination letters in this connection. In addition, the National Office generally does not issue rulings on the classification of an organization if a return has been filed for the organization for an earlier period. However, the National Office will consider ruling requests concerning the classification of an existing organization as a partnership. See Rev. Proc. 86-12, 1986-1 C.B. 534.

.02 *In estate tax matters,* the National Office issues rulings with respect to transactions affecting the estate tax of a living person and a decedent before the estate tax return is filed. With respect to ruling requests involving a decedent's estate tax, if the estate tax return is due to be filed before the ruling is issued, the taxpayer should secure an extension of time for filing the return for the maximum period of six months, and notify the National Office Branch considering the request for ruling that an extension has been secured. If the return is filed before the ruling is issued, the taxpayer must disclose on the return that a ruling has been requested, attach a copy of the pending ruling request to the return, and notify the National Office that the return has been filed. The National Office will make every effort to issue the ruling within three months of the day on which the return was filed. If the ruling cannot be issued within that three month period, the National Office will notify the District Director having jurisdiction of the return who may, by memorandum to the National Office, grant an additional period for the issuance of the ruling. In addition, pursuant to Rev. Proc. 88-50 The National Office requests for prospective estate tax rulings on a test basis until December 31, 1989. However, requests for prospective estate tax rulings involving computations of tax, actuarial factors and factual matters will not be considered.

1. *In matters involving additional tax under section 2032A(c)* the National Office issues rulings on prospective transactions and on completed transactions that occurred before the return is filed for the year in which such transactions are consummated.

.03 *In generation-skipping transfer tax matters,* the National Office issues rulings on transactions that affect the generation-skipping transfer tax before the return is filed. In the case of a generation-skipping trust, or trust equivalent, rulings are not issued until after the trust or trust equivalent has been established. Rulings may be issued on a generation-skipping transfer tax matter before a "direct skip" transfer takes place. Notwithstanding the foregoing, the National Office will issue rulings regarding the application of the generation-skipping transfer tax effective date rules (section 1433 of the Tax Reform Act of 1986, 1986-3 C.B. (Vol. 1) to wills, trusts and trust equivalents in existence on October 22, 1986, and to generation-skipping transfers taking place on or before October 22, 1986.

.04 *In employment and excise tax matters,* the National Office issues rulings on prospective transactions and on completed transactions either before or after the return is filed for those transactions. In employment tax matters, generally the taxpayer is the employer. However, if the worker asks for the ruling, both the worker and the employer are considered to be the taxpayer and both are entitled to the ruling. The National Office usually will not issue rulings if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period and (1) that issue is under examination by a District Director or under consideration by an Appeals Office, or (2) that issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director or by an Appeals Office. However, if a District Director began an examination of the issue involved in the ruling request, the National Office usually will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued.

.05 *In administrative provisions matters,* the National Office issues rulings on issues arising under the Internal Revenue Code, and related statutes, and the regulations thereunder, that relate primarily to the time, place, manner, and procedures, for reporting and paying taxes; assessing and collecting taxes (including interest and penalties); abating, crediting, or refunding over assessments or overpayments of tax; and filing information returns. Rulings ordinarily are not issued, if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period and (1) that issue is being considered by a District Director or an Appeals Office, or (2) that issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund, or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director or Appeals Office. If a return involving an issue for a particular year is filed while a request for a ruling on that issue is pending, the National Office will issue the ruling unless an examination of that issue or an examination of the identical issue on an earlier year's return has been started by a District Director. But, even if consideration has begun, the National Office ordinarily will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued.

.06 The National Office does not issue rulings to business, trade, or industrial associations or to similar groups concerning the application of the tax laws to members of the group. It may, however, issue rulings to these groups or associations on their own tax status or liability if the request meets the requirements of this section. Furthermore, such groups or associations may submit suggestions of generic issues that would be appropriately addressed in revenue rulings.

.07 Pending the adoption of regulations (either temporary or final) that interpret the provisions of any act, the issuing of rulings will be considered under the following conditions.

1. If the ruling request presents an issue on which the answer seems clear by applying the statute to the facts, a ruling will be issued under the usual procedures.

2. If the ruling request presents an issue on which the answer seems reasonably certain but not entirely free from doubt, a ruling will be issued.

3. Section 2.02 of Rev. Proc. 88-18, 1988-1 C.B. 694, which modified Rev. Proc. 88-1, provides that for Code sections enacted or amended by the Tax Reform Act of 1986 or the Revenue Act of 1987 the appropriate Branch will entertain all ruling requests and do its best to issue a ruling even if the answer does not seem reasonably certain.

However, if the ruling request presents an issue that cannot be readily resolved before regulations are issued, a ruling will not be issued. However, section 2.03 of Rev. Proc. 88-18 provides that where the Service has closed a regulations project or does not intend to open a regulations project, the appropriate Branch will entertain all ruling requests unless the issue is covered by section 7 of Rev. Proc. 89-1 or by Rev. Proc. 89-3, page 761, this Bulletin.

SEC. 6. DETERMINATION LETTERS ISSUED BY DISTRICT DIRECTOR

.01 District Directors issue determination letters only if the question presented is specifically answered by statute or regulation, or by a position stated in a ruling, opinion, or court decision published in the Internal Revenue Bulletin.

1. *In income and gift tax matters.* District Directors issue determination letters in response to taxpayers' written requests on completed transactions that affect returns over which they have examination jurisdiction. A determination letter usually is not issued for a question concerning a return to be filed by the taxpayer if the same question is involved in a return already filed. District Directors do not issue determination letters on the tax consequences of prospective or proposed transactions, except as provided in section 6.03.

2. *In estate tax matters.* District Directors issue determination letters in response to written requests affecting the estate tax returns over which they have examination jurisdiction. District Directors do not issue determination letters on matters concerning the application of the estate tax to property or the estate of a living person.

3. *In generation-skipping transfer tax matters,* District Directors issue determination letters in response to written requests affecting the generation-skipping transfer tax returns over which they have examination jurisdiction. District Directors do not issue determination letters on matters concerning the application of the generation-skipping transfer

tax before the distribution or termination takes place.

4. *In employment and excise tax matters,* District Directors issue determination letters on completed transactions in response to written requests from taxpayers over which they have examination jurisdiction.

.02 Notwithstanding the provisions of section 6.01, even though a request presents a question specifically answered by statute or regulation, or by a position stated in a ruling, opinion or court decision published in the Internal Revenue Bulletin, a District Director will not issue a determination letter in response to the request (1) if appears that the taxpayer has directed a similar inquiry to the National Office, (2) the same issue involving the same taxpayer is pending in a case before an Appeals Office, (3) the determination letter is requested by an industry, trade association, or similar group, or (4) the request involves an industry-wide problem. Under no circumstances will a District Director issue a determination letter unless it is clearly shown that the request concerns a return which has been filed or is required to be filed and over which the District Director has or will have examination jurisdiction. Notwithstanding the provisions of section 6.01, a District director will not issue a determination letter on an employment tax question if the specific question for the same taxpayer has been or is being considered by the Central office of the Social Security Administration or the Railroad Retirement Board. Nor will District Directors issue determination letters for determination of a constructive sales price under section 4216(b) or 4218(c) of the Code. The National Office, however, will issue rulings in this area. See section 7.04.

.03 District Directors issue determination letters on the replacement of involuntarily converted property under section 1033 even though the replacement has not been made, if the taxpayer has filed an income tax return for the year in which the property was involuntarily converted.

.04 A request received by a District Director on a question concerning an income, estate, or gift tax return already filed will be, in general, considered in connection with the examination of the return. If a response is made to such a request before the return is examined, it will be considered a tentative finding in any later examination of that return.

SEC. 7. DISCRETIONARY AUTHORITY TO ISSUE RULINGS AND DETERMINATION LETTERS

.01 The Service ordinarily will not issue rulings or determination letters in certain areas because of the factual nature of the problem involved, or for other reasons. Rev. Proc. 89-3, page 00, this Bulletin, provides a list of these areas. This list is not all inclusive, since the Service may decline to issue a ruling or a determination letter on other grounds, whenever warranted by the facts or circumstances of a particular case. The National Office and District Directors may, when it is considered appropriate and in the best interest of the Service, issue information letters calling attention to well-establishing principles of tax law.

.02 A ruling or a determination letter is not issued on alternative plans of proposed transactions or on hypothetical situations.

.03 The National Office ordinarily will not issue rulings on only part of an integrated transaction.

.04 The National Office will issue rulings in all cases on the determination of a constructive sales price under section 4216(b) or 4218(c) of the Code and in all other cases on prospective or future transactions if the law or regulations require a determination of the effect of a proposed transaction for tax purposes.

SEC. 8. INSTRUCTIONS TO TAXPAYER

.01 The taxpayer should submit a request for a ruling or a determination letter in duplicate if (1) more than one issue is presented in the request, or (2) a closing agreement is requested on the issue presented. It is not necessary to submit requests in duplicate under other circumstances except as set forth in section 8.10.

.02 A request for a ruling or determination letter and any factual information or change in the ruling request submitted at a later time must be accompanied by a declaration in the following form: "Under penalties of perjury, I declare that I have examined this request, including accompanying documents, and to the best of my knowledge and belief, the facts presented in support of the requested ruling or determination letter are true, correct, and complete." The declaration may not be made by the taxpayer's representative. It must be signed by the person or persons on whose behalf the request is made. The person who signs for a corporate taxpayer must be an officer of the corporate taxpayer who has personal knowledge of the facts. The officer must be one whose duties are not limited to obtaining a ruling or determination letter from the Service. Furthermore, if the corporate taxpayer is a member of an affiliated group filing consolidated returns, a penalties-of-perjury statement must also be submitted by the common parent of the group. The person signing for a trust or partnership must be a trustee or general partner who has personal knowledge of the facts. If multiple submissions of additional factual information are made, one declaration that refers specifically to each of the additional submissions may be provided.

.03 Section 10511 of the Revenue Act of 1987, Pub. L. 100-203, enacted December 22, 1987, requires the payment of user fees for requests for rulings, opinion letters, determination letter, and similar requests. Rev. Proc. 88-8, 1988-1 C.B. 628, which modified Rev. Proc. 88-1 and which was modified by Rev. Proc. 88-13, 1988-1 C.B. 639, and Rev. Proc. 88-27, 1988-1 C.B. 804, contains the schedule of fees and provides guidance for administering the user fee requirements. The amount of user fee payable with respect to each category of submission under the jurisdiction of the Associate Chief Counsel (Technical) is as follows:

Applications with respect to accounting periods (Forms 1128 and 2553)	$150
Change in accounting method (Form 3115)	$200
All other rulings (which includes accounting period, accounting method, and earnings and profits requests other than those submitted on Forms 1128, 2553, 3115, and 5452)	$300

.04 If more than one issue is presented in a request for a ruling, the Service generally will issue a single ruling letter. However, the taxpayer may request a separate ruling letter on any of the issues. Unless the Service determines that it is not feasible or not in the best interest of the Service to comply with such a request, it will issue separate ruling letters.

.05 When multiple issues are involved in a single factual situation and separate letters requesting rulings are submitted, a statement to this effect must be included in each ruling letter request. The Service in issuing each ruling will state that separate rulings have been issued or requests for rulings are pending.

.06 Each request for a ruling or a determination letter must contain a complete statement of all of the facts relating to the transaction. Such facts include: names, addresses, telephone numbers, and taxpayer identification numbers of all interested parties; the location of the District Office that has or will have examination jurisdiction over the return, not the Service Center where the return is filed and a full and precise statement of the business reasons for the transaction and a carefully detailed description of the transaction. (The term "all interested parties" does not mean that a list is required of all shareholders of a widely held corporation requesting a ruling relating to a reorganization, or a list of employees where a larger number may be involved.) If the request deals with only one step of a larger integrated transaction, the facts, circumstances, etc. relating to the entire transaction must be submitted. However, see section 7.03 of this revenue procedure (Rev. Proc. 89-1). In addition, true copies of all contracts, wills, deeds, agreements, instruments, and other documents in the transaction must be submitted with the request. Original documents, such as contracts wills, etc., should not be submitted because they become part of the Service's file and will not be returned. All material facts in documents must be included in the taxpayer's letter requesting a ruling or in supplemental letters, and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the provisions that apply. If the request concerns a corporate distribution, reorganization, or similar transaction, the corporate balance sheet and profit and loss statement should be submitted. If the request relates to a prospective transaction, the most recent balance sheet and profit and loss statement should be submitted.

Material facts furnished to the Service by telephone or orally at a conference must be promptly confirmed by letter to the Service with a declaration in the form described in section 8.02. This confirmation must be furnished within 21 calendar days to be considered part of the request. An extension of the 21-day period will be granted only if justified in writing by the taxpayer and approved by the Branch Chief, Senior Technician Reviewer, or Assistant to the Branch Chief of the Branch to which the case is assigned. A request for extension should be submitted before the end of the 21-day period. If unusual circumstances close to the end of the 21-day period make a written request impractical, within the 21-day period the National Office should be told of the problem and that the written request for extension will be coming soon. Such a request must be sent promptly. The taxpayer or taxpayer's representative will be told promptly and later in writing of the approval or denial of the requested extension. There is no right of appeal to a denial of an extension request. Because the purpose of these procedures is to speed up the ruling process, the taxpayer is encouraged to submit the required relevant material promptly. Therefore, requests for extension should be justified by compelling facts and circumstances. If the Service is not made aware, as provided above, of problems in meeting the 21-day period, or if the request is not sent promptly after the National Office is notified of problems in meeting the 21-day period, the Service will process the case on the assumption that no further submission will be received.

Specific guidelines for requesting rulings under certain Code sections follows: Rev. Proc. 88-32, 1988-1 C.B. 833, and Rev. Proc. 88-33, 1988-1 C.B. 835, supplementing Rev. Proc. 88-1 (guidelines for submitting request for rulings under sections 103 and 7478); Rev. Proc. 68-11, 1968-1 C.B. 761 (guidelines for a ruling request under section 117); Rev. Proc. 87-28, 1987-1 C.B. 770 (guidelines for a request for a ruling under section 162(k)); Rev. Proc. 86-18, 1986-1 C.B. 551 (guidelines concerning a request for a ruling under section 302 or 311); Rev. Proc. 81-68, 1981-2 C.B. 723 (guidelines concerning a request for a ruling under section 332, 334(b)(1) or 334(b)(2)); Rev. Proc. 86-16, 1986-1 C.B. 546 (guidelines concerning a request for a ruling under sections 331 and 337); Rev. Proc. 81-42, 1981-2 C.B. 611 (guidelines concerning a request for a ruling under section 302(b)(4)); Rev. Proc. 83-59, 1983-2 C.B. 575 (guidelines concerning a request for a ruling under section 351); Rev. Proc. 86-41, 1986-2 C.B. 716 (guidelines concerning a request for a ruling under section 355); Rev. Proc. 81-70, 1981-2 C.B. 729 (guidelines for estimating the basis of stock acquired in a section 368(a)(1)(B) reorganization); Rev. Proc. 81-60, 1981-2 C.B. 680 (guidelines concerning a request for a ruling under section 368(a)(1)(E)). See, however, section 3.0123 of Rev. Proc. 89-1, which describes circumstances under which the Service will not issue advance rulings or determination letters as to whether a transaction constitutes a corporate recapitalization within the meaning of section 368(a)(1)(E)(or a transaction that also qualifies under section 1036). Rev. Proc. 87-22, 1987-1 C.B. 718, and Rev. Proc. 77-37, 1977-2 C.B. 568, as superseded in part by Rev. Proc. 79-14, 1979-1 C.B. 469, and as amplified by Rev. Proc. 77-41, 1977-2 C.B. 574, Rev. Proc. 83-81, 1983-2 C.B. 598, Rev. Proc. 84-42, 1984-1 C.B. 521 and Rev. Proc. 86-42, 1986-2 C.B. 722 (certain other guidelines concerning requests for rulings handled by the office of the Assistant Chief Counsel (Corporate); Rev. Proc. 71-19, 1971-1 C.B. 698 (guidelines concerning requests for rulings on unfunded deferred compensation); Rev. Proc. 87-32, 1987-2 C.B. 396 (guidelines for requesting to adopt, retain or change an accounting period for partnerships, S corporations, and personal service corporations); Rev. Proc. 72-13, 1972-1 C.B. 735, Rev. Proc. 74-17, 1974-1 C.B. 438, and Rev. Proc. 75-16, 1975-1 C.B. 676 (guidelines on classification of limited partnerships); Rev. Proc. 82-58, 1982-2 C.B. 847 (guidelines on classification of organizations as liquidating trusts); Rev. Proc. 82-36, 1982-1 C.B. 490 (guidelines concerning requests for consent to elect not to defer gain or loss on deferred intercompany transactions); Rev. Proc. 79-63, 1979-2 C.B. 578 (factors considered and information needed for granting extensions under section 1.9100-1 of the Income Tax Regulation; Rev. Proc. 87-35, 1987-2 C.B. 456 (concerning requests for rulings under section 704(b); and Rev. Proc. 88-50, 1988-2 C.B. 711 (guidelines for requesting prospective estate tax rulings).

A ruling request that involves a question of whether a rate order, proposed or issued by a regulatory agency, will meet the normalization requirements of sections 46(f), 167(1), and 168(f)(2) (pre-Tax Reform Act of 1986, section 163(e)(3)) of the Code, ordinarily will not be considered unless the taxpayer states in the request for ruling whether:

(1) the regulatory authority responsible for establishing or approving the taxpayer's rates has reviewed the request and believes that the request is adequate and complete, and

(2) the taxpayer will permit the regulatory authority to participate in any National Office conference concerning the request. If the taxpayer or the regulatory authority informs a consumer advocate of the request for rulings and the advocate wishes to communicate with the Service regarding the request, any such communication should be sent to

Internal Revenue Service, Associate Chief Counsel (Technical), Attention CC:P&SI:6, Room 5112, 1111 Constitution Avenue N.W., Washington, D.C. 20224. These communications will be treated as third party contacts for purposes of section 6110 of the Code.

.07 The request must contain a statement of whether, to the best of the knowledge of the taxpayer and the taxpayer's representative(s), if any, the identical issue is in a prior return of the taxpayer (or in a return for any year of a related taxpayer within the meaning of section 267 of the Code, or of a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504). If so, the statement must specify whether the issue (1) is being examined by a District Director, (2) has been examined and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director, (3) is being considered by an Appeals Office in connection with the taxpayer's return for an earlier period, or has been considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by an Appeals Office, or (4) is pending in litigation in a case involving the taxpayer or a related taxpayer. The request must also contain a statement whether, to the best of the knowledge of the taxpayer and the taxpayer's representative(s), if any, (i) the identical or similar issue has been submitted to the Service, by the taxpayer or its predecessor, but withdrawn before a ruling was issued, or (ii) ruled on by the Service to the taxpayer or to the taxpayer's predecessor. If so, the statement must specify the date of submission, withdrawal, or ruling and other details of the Service's consideration of the issue. If, after the request is filed but before a ruling is issued, the taxpayer knows that an examination of the issue by a District Director has been started, the taxpayer must notify the National Office of such action. If a return is filed before a ruling is received from the National Office concerning the issue, a copy of the request must be attached to the return. This alerts the District Office and avoids premature District action on the issue.

.08 As an alternative procedure (known as the "two-part" ruling request procedure) for the issuance of rulings on prospective transactions, the taxpayer may submit a summary of the facts considered to be controlling the issue, in addition to the complete statement required for ruling requests by section 8.06. If the National Office agrees with the summary, the National Office will use it as the basis for the ruling. To use this procedure, the taxpayer should submit the following with the request for a ruling:

1. A complete statement of facts about the transaction, together with related documents, as required by section 8.06, and

2. A summary statement of the facts believed to be controlling in reaching the requested conclusion. When the taxpayer's statement of controlling facts is accepted, the Service will base its ruling on these facts and only this statement will ordinarily be incorporated in the ruling letter. It is emphasized, however, that:

(a) The taxpayer may elect this procedure for a "two-part" ruling request. It is not to be considered a required substitute for the regular procedures provided by this revenue procedure.

(b) The taxpayer's rights and responsibilities are the same under the "two-part" ruling request procedure as those provided in this revenue procedure.

(c) The Service reserves the right to rule on the basis of a more complete statement of facts it considers controlling and to seek more information in developing facts and restating them; and

(d) The "two-part" ruling request procedure will not apply, if it is inconsistent with other procedures, such as those dealing with request for permission to change accounting methods or periods; applications for recognition of exempt status under section 521 of the Code; or rulings on employment tax status.

.09 If the taxpayer advocates a particular conclusion, an explanation of the grounds for the assertion must be furnished, together with a statement of relevant authorities in support of the taxpayer's views. Even though the taxpayer is urging no particular tax treatment of a proposed or prospective transaction, the taxpayer's views on the tax results of the proposed action and a statement of relevant authorities to support those views must be furnished. In addition, the taxpayer is encouraged to inform the Service, and discuss the implications of any legislation, tax treaties, court decisions, regulations, revenue rulings or revenue procedures that the taxpayer determines to be contrary to the position advanced. If the taxpayer determines that there are no contrary authorities, a statement in the ruling request to this effect would be helpful. Identification and discussion of contrary authorities will generally enable Service personnel to arrive more quickly at a full understanding of the issue and the relevant authorities. There is a further advantage to the taxpayer. When Service personnel receive the request, they will have before them the taxpayer's thinking on the effect and applicability of contrary authorities. Such information should, therefore, make research easier and lead to earlier action by the Service. Conversely, failure to disclose and distinguish significant contrary authorities may result in requests for additional memoranda that will delay action on the ruling request.

.10 To assist the Service in making the deletions required by section 6110(c) of the Code from the text of rulings and determination letters, to be made open to public inspection under section 6110(a), a deletions statement must accompany each request. The statement must either state that no information other than names, addresses, and identifying numbers need be deleted or, if more information is proposed to be deleted, the statement must indicate the deletions proposed by the person requesting the ruling or determination letter. If the latter alternative is chosen, the statement must be made in a separate document, and it must be accompanied by a copy of the request for a ruling or determination letter and supporting documents, on which must be shown, by the use of brackets, the material that the person making the request believes should be deleted pursuant to section 6110(c). The statement of proposed deletions must indicate the statutory basis, under section 6110(c), for each proposed deletion. The statement of proposed deletions must not appear or be referred to anywhere in the request for a ruling or determination letter. If the person making the request decides to ask for additional deletions before the ruling or determination letter is issued, additional statements may be submitted. The procedures in this paragraph also apply to additional information that is submitted after the initial request.

.11 A request by or for a taxpayer must be signed by the taxpayer or the taxpayer's authorized representative. If the request is signed by a representative, or if the representative is to appear before the Service in connection with the request, the representative must be:

1. an attorney who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth, or the District of Columbia, and who files with the Service a written declaration that he or she is currently qualified as an attorney and is authorized to represent the taxpayer;

2. a certified public accountant who is qualified to practice in any state, possession, territory, commonwealth, or the District of Columbia, and who files with the Service a written declaration that he or she is currently qualified as a certified public accountant and is authorized to represent the taxpayer;

3. a person, other than an attorney or certified public accountant who is currently enrolled to practice before the Service, and who files with the Service a written declaration that he or she is currently enrolled (including in the declaration either the enrollment number or the expiration date of the enrollment card) and is authorized to represent the taxpayer. (See Treasury Department Circular No. 230 (31 CFR Part 10), 1983-2 C.B. 742, for the rules on who may practice before the Service); or

4. a foreign representative who has received a "Letter of Authorization" from the Director of Practice, pursuant to section 10.7(b) of Treasury Department Circular No. 230. Practitioners may make written request for a "Letter of Authorization" to: Office of Director of Practice, PM:HR:DP, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224. Section 10.7(b) of Circular No. 230 authorizes the Commissioner to allow any person to represent another without enrollment for the purpose of a particular matter. Without a "Letter of Authorization," the foreign representative may not represent the taxpayer before the Service.

The requirements above do not apply to an individual representing his or her fulltime employer, or to a bona fide officer, administrator, administratrix, trustee, etc., representing a corporation, trust, estate, association, or organized group. An unenrolled preparer of a return (other than an attorney or certified public accountant referred to in (1) and (2) above) who is not a full-time employee or a bona fide officer, administrator, administratrix, trustee, etc., may not represent a taxpayer in connection with a ruling or a determination letter.

Any authorized representative. whether or not enrolled to practice must also comply with the conference and practice requirements of the Statement of Procedural Rules (26 CFR 601). Form 2848, Power of Attorney, and Form 2848-D, Authorization and Declaration, may be used with regard to rulings, closing agreements, and determination letters requested under this revenue procedure.

.12 If a taxpayer has more than one representative, it is sufficient to send a copy of the ruling to any one of them. Copies of a ruling will be sent to no more than two representatives, provided that they are located at different mailing addresses. If a payer does not designate which representative is to receive a copy of the ruling, a copy of the ruling will be sent to the first representative named on the latest power of attorney. If the original of the ruling is to be sent to a representative, the power of attorney should contain a statement to that effect and designate the mailing address of the representative.

.13 A request for a ruling letter by the National Office should be sent to the Internal Revenue Service, Associate Chief Counsel (Technical), Attention CC:CORP:T, P.O. Box 7604. Ben Franklin Station, Washington, D.C. 20044. Requests may be hand delivered to Room, 6561, 1111 Constitution Avenue, N.W., Washington, DC 20224 between 8:30 a.m. and 4:00 p.m. on working days. A request for a determination letter should be sent to the District Director of Internal Revenue whose office has or will have examination jurisdiction over the taxpayer's return.
