.14 If a request for a ruling or determination letter does not comply with all the provisions of this revenue procedure, the request will be acknowledged, and the requirements that have not been met will be pointed out. If a request for a ruling lacks essential information, the taxpayer will be told that if the information is not received within 30 calendar days, the request will be closed. If the information is received after the request is closed, it will be reopened and treated as a new request as of the date the essential information is received. A request for a ruling letter sent to the District Director that does not comply with the provisions of this revenue procedure will be returned by the District Director for corrections before it is sent directly to the National Office.

.15 A taxpayer who wants to have a conference on the issue or issues involved should indicate this in writing when, or soon after, filing the request.

.16 The Service processes requests for ruling and determination letters in regular order and as expeditiously as possible. Consideration of a request for processing ahead of its regular order, or by a specified time, delays the processing of other matters. Requests for processing ahead of the regular order must be made in writing, preferably in a separate letter with, or soon after, the request. If the request is not made in a separate letter, then the letter in which the request is made should say, at the top of the first page: "Expeditious Handling Is Requested. See page ___ of this letter." The request should give a compelling need for such treatment. The Service cannot give assurance that any letter will be processed by the time requested. For example, the scheduling of a closing date for a transaction or a meeting of the board of directors or shareholders of a corporation, without regard for the time it may take to obtain a ruling or determination letter, will not be considered sufficient reason for handling a request ahead of its regular order. Nor will the possible effect of fluctuation in the market price of stocks on a transaction be considered sufficient reason for handling a request out of order. Requests by telegram will be treated in the same manner as requests by letter. Ruling and determination letters ordinarily are not issued by telegram. A request for expeditious handling will not cause the Communications and Records Unit to route the case to the Ruling Branch ahead of normal-processing; and a request for expeditious handling will not be considered until the underlying ruling request has been found to satisfy the section 6110 requirements.

.17 The Assistant Chief Counsel (Corporate) has primary responsibility for providing basic principles and rules for uniform interpretation and application of the federal tax laws in those areas involving distributions in connection with corporate organizations, reorganizations, and liquidations; consolidated returns; allocation of income and deductions among taxpayers; acquisitions made to evade or avoid income tax; and, income taxes and earnings and profits of corporate taxpayers.

.18 The Assistant Chief Counsel (Employee Benefits and Exempt Organizations) has primary responsibility for providing basic principles and rules for uniform interpretation and application of the federal tax laws in those areas involving: income tax and other tax aspects of executive compensation and employee benefit programs (other than those within the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations)); and employment taxes and taxes on self-employment income.

.19 The Assistant Chief Counsel (Financial Institutions and Products) has primary responsibility for providing basic principles and rules for the uniform application of the federal income tax laws in those areas involving: income taxes of banks, savings and loan associations, real estate investment trusts (REITs), regulated investment companies (RICs), real estate mortgage investment conduits (REMICs), tax exempt obligations, insurance companies and products, and financial products.

.20 The Assistant Chief Counsel (Income Tax and Accounting) has primary responsibility for providing basic principles and rules for uniform application of the federal income tax laws in those areas involving: recognition and timing of income and deductions of individuals and corporations, sales and exchanges, capital gains and losses, administrative provisions, accounting methods and periods, installment sales, equipment leasing, inventories, and the alternative minimum tax.

.21 The Assistant Chief Counsel (Passthroughs and Special Industries) has primary responsibility for providing basic principles and rules for uniform interpretation and application of the federal income tax laws in those areas involving income taxes of S corporations (except accounting periods and methods) and certain noncorporate taxpayers (including partnerships and trusts); estate, gift, generation-skipping transfer, and certain excise taxes; depreciation, depletion, and other engineering issues; cooperative housing corporations; farmers' cooperatives (under section 521), the low-income housing credit, research and experimental expenditures, shipowners' protection and indemnity associations (under section 526), and certain homeowners associations.

.22 A taxpayer may obtain information regarding the status of a request by calling the person whose name and telephone number is shown on the acknowledgment of receipt of the request.

.23 After receiving the notice under section 6110(f)(1) of the Code of intention to disclose the ruling or determination letter (including a copy of the version proposed to be open to public inspection and notation of third-party communications under section 6110(d)), the person requesting the ruling or determination letter may protest the disclosure of certain information in the ruling or determination letter. That person must within 20 calendar days send a written statement to the Internal Revenue Service office indicated on the notice of intention to disclose identifying those deletions that the Service has not made and that the person requesting the ruling or determination letter believes should have been made. That person must also submit a copy of the versions of the ruling or determination letter proposed to be open to public inspection on which the person indicates, by use of brackets, the deletions proposed by the taxpayer that have not been made by the Service. Generally, the Service will not consider the deletion under this subparagraph of any material that the taxpayer did not propose to be deleted before the ruling or determination letter was issued. Within 20 days after it receives the response to the notice under section 6110(f)(1), the Service will mail to that person its final administrative conclusion regarding the deletions to be made. The taxpayer does not have the right to a conference to resolve any disagreements concerning material to be deleted from the text of the ruling. However, these matters may be taken up at any conference that is otherwise scheduled regarding the request.

.24 After receiving the notice under section 6110(f)(1) of the Code of intention to disclose (but not later than 60 calendar days after the notice is mailed), the person requesting a ruling or determination letter may send a request for delay of public inspection under either section 6110(g)(3) or (4). The request for delay must be sent to the Internal Revenue Service office indicated on the notice of intention to disclose. A request for delay under section 6110(g)(3) must contain the date on which it is expected that the underlying transaction will be completed. The request for delay under section 6110(g)(4) must contain a statement from which the Commissioner may determine that there are good reasons for the delay.

.25 A taxpayer who receives a ruling or determination letter before filing a return about any transaction that has been consummated and that is relevant to the return being filed should attach a copy of the ruling or determination letter to the return when it is filed.

.26 For appeal procedures with regard to adverse determination letters under section 521 of the Code and revocation or modification of exemption rulings and determination letters under section 521, see Rev. Proc. 84-46, 1984-1 C.B. 541, as amplified by Rev. Proc. 84-47, 1984-1 C.B. 545, and modified by Rev. Proc. 85-32, 1985-2 C.B. 415.

.27 In those situations when the National Office believes that the taxpayer's representative is not in compliance with Treasury Department Circular No. 230, the National Office will bring the matter to the attention of the Director of Practice.

SEC. 9. HANDLING OF RULING REQUESTS

.01 Within 21 calendar days after a ruling request is received in the Branch, Service personnel will contact the taxpayers to discuss informally the procedural and substantive issues in the ruling request.

.02 The following subject matters are included in the 21 calendar day procedure:

1. All matters within the jurisdiction of the Assistant Chief Counsel (Corporate).

2. All matters within the jurisdiction of the Assistant Chief Counsel (Employee Benefits and Exempt Organizations) involving

(a) Stock options,

(b) Employment and self-employment taxes (except ruling requests from individuals for employment status submitted on Forms SS-8), and

(c) Rental value of parsonages

3. All matters within the jurisdiction of the Assistant Chief Counsel (Financial Institutions and Products) except cases concerning insurance issues requiring actuarial computations.

4. All matters within the jurisdiction of the Assistant Chief Counsel (Income Tax and Accounting), except cases involving a request for change in accounting methods or periods, generally governed by Rev. Proc. 84-74, 1984-2 C.B. 736.

5. All matters within the jurisdiction of the Assistant Chief Counsel (Passthroughs and Special Industries).

.03 Procedures to be followed regarding ruling requests are:

1. Within 21 calendar days after a ruling request has been received in the Branch having jurisdiction, a representative of the Branch will contact the taxpayer to discuss the procedural issues in the ruling requests covered by this procedure. Considering the complexity of

some cases or the number of issues involved, it may not be possible for the Branch representative to discuss the substantive issues in the ruling request during this initial contact. However, when possible, as to each issue coming within the jurisdiction of the Branch, the Branch representative will tell the taxpayer:

(a) whether the Branch representative will recommend the Service rule as the taxpayer requested, rule adversely on the matter, or not rule;

(b) whether the taxpayer should submit additional information or representations to enable the Service to rule on the matter; or

(c) whether because of the nature of the transaction, or the issue presented, a tentative conclusion on the issue cannot be reached.

2. When the rulings requested involve matters within the jurisdiction of more than one Branch, a representative of the Branch that received the original ruling request will tell the payer within the initial 21-calendar-day contact period: (1) that the rulings requested involving matters within the jurisdiction of another Branch have been referred to the other Branch for consideration, and (2) that a representative of the other Branch will contact the taxpayer within 21 calendar days after receiving the referral to informally discuss the procedural and, to the extent possible, the substantive issues if covered by this procedure.

3. If something less than a fully favorable ruling is indicated, the Branch representative will tell the payer if minor modifications of the transaction or adherence to certain published positions will warrant the issuance of a favorable ruling. In addition, the Branch representative may tell the taxpayer what representations must be furnished in a document to comply with the requirements of the Service. However, the Branch representative will not suggest precise changes that would materially alter the form of the proposed transaction. If, at the conclusion of the discussion, the Branch representative determines that a meeting in the National Office would better serve the purpose of developing or exchanging information, a meeting will be offered and an early meeting date arranged. This meeting will not be the taxpayers conference of right, as described in this revenue procedure.

4. The Service will not be bound by the informal opinion expressed by the Branch representative or any other authorized Service representative under this procedure, and such an opinion cannot be relied upon as a basis for obtaining retroactive relief under the provisions of section 7805(b) of the Code.

5. The ruling request will then be processed under present procedures.

SEC. 10. CONFERENCES IN THE NATIONAL OFFICE

.01 A taxpayer may request a conference only in connection with a ruling request. Normally, a conference is scheduled only when the National Office considers it to be helpful in deciding the case or when an adverse decision is indicated. If conferences are being arranged for more than one request for a ruling involving the same taxpayer, they will be scheduled so as to cause the least inconvenience to the taxpayer. If a conference has been requested, the taxpayer will be notified by telephone, if possible, of the time and place of the conference. The conference must be held within 21 calendar days after such contact has been made. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those stated in section 8.06.

.02 A taxpayer is entitled, as a matter of right, to only one conference in the National Office unless one of the circumstances discussed in section 10.06 develops. This conference normally will be held at the Branch level and will be attended by a person who, at the time of the conference, has authority to sign the ruling letter in his or her own name or for the Branch Chief in the case being discussed. When more than one Branch has taken an adverse position on an issue within its jurisdiction presented in a ruling request, or when the position ultimately adopted by one Branch will affect another Branch's determination, a representative from each Branch with the authority to sign in his or her own name or for the Branch Chief will attend the conference. If more than one subject is to be discussed at the conference, the discussion will constitute a conference on each subject. In order to promote a free and open discussion of the issues, the conference usually will be held after the Branch has had an opportunity to study the case. However, at the request of the taxpayer or representative, the conference of right may be held at an earlier stage in the consideration of the case than the Service ordinarily would designate. No taxpayer has a "right" to appeal the action of a Branch to an Assistant Chief Counsel or to any other official of the Service.

.03 In employment tax matters, only the party entitled to the ruling is entitled to a conference

.04 Since conference procedures are informal, no tape, stenographic, or other verbatim recording of a conference will be made.

.05 The senior Service representative present at the conference insures that the taxpayer has full opportunity to present views on all of the issues that are in question. The Service representative explains the Service's tentative decision on the substantive issues and the reason for that decision. If the taxpayer advances prospective application under section 7805(b) of the Code, the Service representative will discuss the tentative recommendation concerning the request for relief and the reason for the tentative recommendation. No commitment will be made as to the conclusion that the Service will finally adopt.

.06 An invitation to an additional conference will be extended if, after the conference of right, an adverse holding is proposed but on a new issue or on the same issue but on different grounds from those discussed at the first conference. There is no right to another conference when a proposed holding is reversed at a higher level with a result less favorable to the taxpayer if the ground or arguments on which the reversal is based were discussed at the conference of right. The provision of this revenue procedure limiting the number of conferences to which a taxpayer is entitled will not prevent a taxpayer from attending further conferences when, in the opinion of National Office personnel. such conferences are necessary. All additional conferences of the type discussed in this paragraph are held only at the invitation of the Service.

.07 It is the responsibility of the taxpayer to furnish in writing to the National Office any additional data, lines of reasoning, precedents, etc., that are proposed by the taxpayer and discussed at the conference but that were not previously or adequately presented in writing. The taxpayer must furnish the additional information within 21 calendar days. If the additional information is not received within that time, a ruling will be issued on the basis of the information on hand or, if appropriate, no ruling will be issued. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those stated in section 8.06.

.08 In certain instances, it will be advantageous to both the Service and the taxpayer to hold a conference prior to submission of a ruling request to discuss substantive or procedural issues relating to a proposed transaction. Where the taxpayer intends to file a ruling request, pre-submission conferences will be held on a time-available basis, and generally the taxpayer will be requested to provide a draft ruling request or other detailed written description of the proposed transaction prior to the conference. Any discussion of substantive issues at a pre-submission conference is advisory only, is not binding on the Service, and cannot be relied upon as a basis for obtaining retroactive relief under the provisions of section 7805(b) of the Code. A ruling request submitted following the pre-submission conference will not necessarily be assigned to the Branch that held the pre-submission conference.

SEC. 11. DISTRICT OFFICE REFERRAL OF MATTERS TO THE NATIONAL OFFICE

.01 Request for determination letters received by District Directors that, under the provisions of this revenue procedure, may not be acted upon by a District Office, will be forwarded to the National Office for reply. The District Office will let the taxpayer know that this action has been taken. District Directors will also refer to the National Office any request for a determination letter that in their judgment should have the attention of the National Office.

.02 If the request involves an issue on which the Service will not issue a ruling or determination letter, the request will not be forwarded to the National Office. The District Office will let the taxpayer know that the Service will not issue a ruling or a determination letter on the issue. See section 7.01 of this revenue procedure.

SEC. 12. REFERRAL OF MATTERS TO DISTRICT OFFICES

Request for rulings received by the National Office that, under section 5 of this revenue procedure, may not be acted upon by the National Office will be forwarded to the District Office that has examination jurisdiction over the taxpayer's return. The taxpayer will be notified of this action. If the request is on an issue or in an area of the type discussed in section 7.01 and it is decided not to issue a ruling or an information letter, the National Office will let the taxpayer know and the request will then be forwarded to the appropriate District Office for association with the related return.

SEC. 13. REVIEW OF DETERMINATION LETTERS

Determination letters issued under section 6.01 are not reviewed by the National Office before they are issued. If a taxpayer believes that a determination letter of this type is in error, the taxpayer may ask the District Director to reconsider the matter. The taxpayer may also ask the District Director to request technical advice from the National Office. In such an event the procedures in Rev. Proc. 89-2 must be followed.

SEC. 14. WITHDRAWAL OF REQUESTS

A request for a ruling or determination letter may be withdrawn at any time before the signing of the letter of reply. If a request for a ruling is withdrawn, the National Office may give its views on the subject matter of the request to the District Director whose office will have examination jurisdiction over the taxpayer's return for consideration in connection with any later examination of the taxpayer's return. Even though a request is withdrawn, all correspondence and exhibits will be kept by the Service and will not be returned to the taxpayer. In appropriate cases, the Service may publish its findings in a revenue ruling or revenue procedure.

SEC. 15. ORAL ADVICE TO TAXPAYERS

.01 The Service does not issue rulings or determination letters on oral requests. However, personnel in the branches ordinarily will discuss with taxpayers or their representatives inquiries regarding: substantive tax issues; whether the Service will rule on particular issues; and questions relating to procedural matters about submitting ruling requests (including the application of section 8, of this revenue procedure, to a particular case). Any discussion of substantive issues will be at the discretion of the Service on a time available basis, will not be binding on the Service, and cannot be relied upon as a basis for obtaining retroactive relief under the provisions of section 7805(b) of the Code.

.02 A taxpayer may seek oral technical assistance from a Taxpayer Service Representative in a District Office or Service Center when preparing a return or report, under other established procedures. Oral advice is advisory only, and the Service is not bound to recognize it in the examination of the taxpayer's return.

SEC. 16. EFFECT OF RULINGS

.01 A taxpayer may not rely on a ruling issued to another taxpayer. A ruling, except to the extent incorporated in a closing agreement, may be revoked or modified at any time under appropriate circumstances. See section 4.08 for the effect of a closing agreement. If a ruling is revoked or modified, the revocation or modification applies to all years open under the statutes, unless the Commissioner or the Commissioner's delegate exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the revocation or modification. The manner in which the authority generally is exercised is given later in this section. For information on rulings relating to the sale or lease of articles subject to the manufacturer's excise tax and the retailer's excise tax, see section 16.08.

.02 When determining a taxpayer's liability, the District Director must ascertain whether (1) any ruling previously issued to the taxpayer has been properly applied, (2) the representations upon which the ruling was based reflected an accurate statement of the material facts, and (3) the transaction actually was carried out substantially as proposed. If, in the course of determining the tax liability, the District Director finds that a ruling should be modified or revoked, the findings and recommendations of the District Director will be forwarded to the National Office for consideration before further action. Such a referral to the National Office will be treated as a request for technical advice and the procedures of Rev. Proc. 89-2 will be followed. Otherwise, the ruling is to be applied by the District Office in its determination of the taxpayer's liability.

.03 Appropriate coordination with the National Office will be undertaken if any field official having jurisdiction over a return or other matter proposes to reach a conclusion contrary to a ruling previously issued to the taxpayer.

.04 Except to the extent incorporated in a closing agreement, a ruling found to be in error or not in accord with the current views of the Service may be modified or revoked. Modification or revocation of a ruling may be made by (1) a notice to the taxpayer to whom the ruling was issued, (2) an enactment of legislation or ratification of a tax treaty, (3) a decision of the United States Supreme Court, (4) the issuing of temporary or final regulations, or (5) the issuing of a revenue ruling, a revenue procedure, or other statement published in the Internal Revenue Bulletin. Consistent with these provisions, if a ruling relates to a continuing action or a series of actions, the ruling will ordinarily be applied until any one of the actions described above has taken place, or until specifically withdrawn. Publication of a notice of proposed rulemaking will not affect the application of any ruling issued under the procedures stated in this revenue procedure.

.05 Except in rare or unusual circumstances, the revocation or modification of a ruling will not be applied retroactively to the taxpayer for whom the ruling was issued or to a taxpayer whose tax liability was directly involved in the ruling if (1) there has been no misstatement or omission of material facts, (2) the facts at the time of the transaction are not materially different from the facts on which the ruling was based, (3) there has been no change in the applicable law, (4) the ruling was originally issued with respect to a prospective or proposed transaction, and (5) the taxpayer directly involved in the ruling acted in good faith in reliance upon the ruling and the retroactive revocation would be to the taxpayer's detriment. For example, the tax liability of each shareholder is directly involved in a ruling on the reorganization of a corporation. However, the tax liability of members of an industry is not directly involved in a ruling issued to one of the members, and the holding in a revocation or modification of a ruling to one member of an industry may be retroactively applied to other members of the industry. By the same reasoning, a tax practitioner may not obtain the non-retroactive application to one client of a modification or revocation of a ruling previously issued to another client. If a ruling is revoked by letter with retroactive effect, the letter will, except in fraud cases, state the grounds upon which the revocation is being made and the reasons why the revocation is being applied retroactively.

.06 A ruling issued on a particular transaction represents a holding of the Service on that transaction only. Furthermore, except in rare or unusual circumstances, the application of that ruling to the transaction will not be affected by the later issuance of regulations (either temporary or final), if the conditions specified in section 16.05 are met. However, if the ruling is later found to be in error or no longer in accord with the position of the Service, it will not give the taxpayer protection for a like transaction in the same year or later year.

.07 However, if a ruling is issued covering a continuing action or series of actions and it is determined that the ruling was in error, or no longer in accord with the position of the Service, the Associate Chief Counsel (Technical) ordinarily will limit the retroactivity of the revocation or modification to a date that is not earlier than that on which the ruling is modified or revoked. To illustrate, if a taxpayer receives a ruling that certain payments are excludable from gross income for federal income tax purposes and it is later determined that the ruling is in error or no longer in accord with the position of the Service, the Associate Chief Counsel (Technical) ordinarily will restrict the retroactive application of the revocation or modification of the ruling. If a taxpayer rendered service or provided a facility that is subject to the excise tax on services or facilities, and in reliance on a ruling issued to the same taxpayer did not pass the tax on to the user of the service of the facility, the Associate Chief Counsel (Technical) ordinarily will restrict retroactive application of the revocation or modification of the ruling. If an employer incurred liability under the Federal Insurance Contributions Act, but in reliance on a ruling made to the same employer, neither collected the employee tax nor paid the employee and employer taxes under the Act, the Associate Chief Counsel (Technical) ordinarily will restrict the retroactive application of the revocation or modification of the ruling for both the employer tax and the employee tax. In the last situation, however, the restriction of retroactive application ordinarily will be conditioned on the furnishing by the employer of wage data, as may be required by section 31.6011(a)-1 of the Employment Tax Regulations.

.08 A ruling holding that the sale or lease of a particular article is subject to the manufacturer's excise tax or the retailer's excise tax may not retroactively revoke or modify an earlier ruling holding that the sale or lease of such an article was not taxable, if the taxpayer to whom the ruling was issued, in reliance upon the earlier ruling, parted with possession or ownership of the article without passing the tax on to the customer. Section 1108(b), Revenue Act of 1926.

.09 For rulings involving completed transactions other than those described in sections 16.07 and 16.08, taxpayers will not be given the protection against retroactive revocation provided in section 16.05, since they will not have entered into the transactions in reliance on the ruling.

SEC. 17. EFFECT OF DETERMINATION LETTERS

A determination letter issued by a District Director has the same effect as a ruling issued to a taxpayer under section 16 of this revenue procedure. However, if the District Director is of the opinion that a conclusion contrary to that expressed in the determination letter is indicated, the matter need not be referred to the National Office. A District Director may not limit the modification or revocation of a determination letter but may refer the matter to the National Office for the possible exercise by the Commissioner or the Commissioner's delegate of the authority to limit the modification or revocation.

SEC. 18. EFFECT OF INFORMATION LETTERS

An information letter issued by the National Office or by a District Director is advisory only and the provisions of section 16 do not apply.

SEC. 19. PROCEDURE FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF RULINGS AND DETERMINATION LETTERS

.01 Pursuant to section 7805(b) of the Code, it is within the discretion of the Commissioner or the Commissioner's delegate to prescribe the extent, if any, to which any ruling (including determination letters) will be applied without retroactive effect.

A taxpayer to whom a ruling or determination letter has been issued may request that the Associate Chief Counsel (Technical), the Commissioner's delegate, exercise the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of any subsequent revocation or modification of the ruling or determination letter.

.02 In the case of a ruling, a request to limit the retroactive effect of the revocation or modification of a ruling must be in the form of, and meet the requirements for, a ruling request generally. These requirements are set forth in section 8 of this revenue procedure. Specifically, the request must state that it is being made pursuant to section 7805(b), contain a statement of the relief sought and an explanation of the reasons and arguments in support of the relief requested, and also be accompanied by any documents bearing on the request. The explanation support of the application of section 7805(b) should include a discussion of the five items enumerated in section 16.05 of this revenue procedure as they relate to the taxpayer's particular situation.

A request for the application of section 7805(b) of the Code may take the form of a separate request for a ruling when, for example, a revenue ruling has the effect of modifying or revoking a ruling previously issued to the taxpayer or when the Service notifies the taxpayer of a change in position that will have the effect of revoking or modifying such a ruling. However, when such notice is given by the District Director during the course of an examination of the taxpayer's return, or during consideration by the Chief, Appeals Office, a request to limit the retroactive effect of the modification or revocation of a ruling must be made in the form of a request for technical advice. See section 12.03 of Rev. Proc. 89-2. When germane to a pending ruling request, a request for the application of section 7805(b) may be made as part of the request, either initially or at any time before the ruling is issued. When a ruling that concerns a continuing transaction is modified or revoked by, for example, a subsequent revenue ruling, a request to limit the retroactive effect of the modification or revocation of the ruling must be made before the return is examined that contains the transaction that is the subject of the request for a ruling.

.03 When a request for the application of section 7805(b) of the Code is made in a separate ruling request, the taxpayer has the right to a conference in the National Office in accordance with the provisions of section 10 of this revenue procedure. If the request is made initially as part of a pending ruling request or is made before the conference of right is held on the substantive issues, the section 7805(b) issue will be discussed at the taxpayer's one conference of right. (See section 10.05 of this revenue procedure). If the request for the application of section 7805(b) is made as part of a pending ruling request after a conference has been held on the substantive issue, and the Service determines that there is justification for having delayed the request, then the taxpayer will have the right to one conference of right concerning the application of section 7805(b) with the conference limited to discussion of this issue.

.04 In the case of a determination letter that the District Director proposes to modify or revoke, a request to limit the modification or revocation of the determination letter must be made by requesting the District Director who issued the determination letter to seek technical advice from the National Office, since a District Director has not been delegated authority under section 7805(b) of the Code to limit the modification or revocation of a determination letter. See section 12.03 of Rev. Proc. 89-2. The taxpayer's request must state that it is being made pursuant to section 7805(b), contain a statement of the relief sought and an explanation of the reasons and arguments in support of the relief requested, and also be accompanied by any documents bearing on the request. The explanation in support of the application of section 7805(b) should include a discussion of the five items enumerated in section 16.05 of this revenue procedure as they relate to the taxpayer's particular situation.

.05 When technical advice is requested with respect to the application of section 7805(b) of the Code under the circumstances set forth in section 19.04 above, the taxpayer has a right to a conference in the National Office to the same extent as does any taxpayer who is the subject of a technical advice request. See section 8 of Rev. Proc. 89-2.

SEC. 20. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 88-1 and 88-6 are superseded. Rev. Procs. 88-8, 88-18, 88-50, 88-32, and 88-33 are not superseded.

---

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement, determination of correct tax liability.

Rev. Proc. 89-2

CONTENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 88-2, 1988-1 C.B. 571, which provides revised procedures for furnishing technical advice to District Directors and Chiefs, Appeals Office, by the Associate Chief Counsel (Technical). It also tells taxpayers about their rights when a District Director or a Chief, Appeals Office, requests such advice. Changes to this revenue procedure will be incorporated annually in a new revenue procedure published as the second revenue procedure of the year.

SEC. 2. SCOPE

.01 The Chief Counsel through the Associate Chief Counsel (Technical) provides principles and rules for uniformly interpreting and applying the federal tax laws under the jurisdiction of the Associate Chief Counsel (Technical.) The procedures for obtaining technical advice on specific issues involving the interpretation or application of the federal income tax laws and income tax treaties relating to international transactions are not contained in this revenue procedure but are contained in Rev. Proc. 87-5, 1987-1 C.B. 535. The procedures for obtaining technical advice specifically applicable to federal firearms, alcohol and tobacco taxes under subtitle E of the Internal Revenue Code are under the jurisdiction of the Bureau of Alcohol, Tobacco and Firearms. The procedures for obtaining technical advice specifically on issues under the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations) are found in Rev. Proc. 80-26, 1980-1 C.B. 671, as modified by Rev. Proc. 83-41, 1983-1 C.B. 775. The procedures that apply to technical advice for employee plans and exempt organizations are followed in obtaining technical advice on exemption of farmers' cooperatives from tax under section 521 of the Code, even though the Associate Chief, Counsel (Technical) has jurisdiction for issuing technical advice under this section. The Associate Chief Counsel (Technical) also has the jurisdiction for issuing technical advice under section 526, on shipowners' protection and indemnity associations; and section 528, on certain homeowners associations, under this revenue procedure.

.02 In the Office of the Associate Chief Counsel (Technical), the authority to issue technical advice has been largely redelegated to the Branch Chiefs in the offices of the Assistant Chief Counsel (Corporate), The Assistant Chief Counsel (Employee Benefits and Exempt Organizations), the Assistant Chief Counsel (Financial Institutions and Products), the Assistant Chief Counsel (Income Tax and Accounting), and the Assistant Chief Counsel (Passthrough and Special Industries).

SEC. 3. CHANGES

.01 References throughout the revenue procedure to the Associate Chief Counsel (Technical, and International) are changed to the Associate Chief Counsel (Technical) to reflect that separate Associate Chief Counsel positions have been established for the Technical and International Organizations.

.02 Section 8.01 is amended to provide that an extension of the 21-day period for conferences must be approved by the Branch Chief, Senior Technician Reviewer or Assistant to the Branch Chief of the Branch to which the case is assigned.

.03 Section 8.07 is amended to provide that an extension of the 21-day period for post-conference submissions must be approved by the Branch Chief, Senior Technician Reviewer, or Assistant to the Branch Chief of the Branch to which the case is assigned.

SEC. 4. DEFINITIONS AND NATURE OF TECHNICAL ADVICE

.01 For purposes of this revenue procedure, the word "taxpayer" includes all persons subject to any provision of the Internal Revenue Code and, when appropriate, their representatives and issuers of section 103 obligations.

.02 Any reference to the National Office means only the Office of the Associate Chief Counsel (Technical).

.03 Any reference to District Director or District Office includes the office of the Director of the Foreign Operations District, where appropriate. Any reference to Chief, Appeals Office, includes Associate Chief, Appeals Office.

.04 "Technical advice" means advice or guidance furnished by the National Office upon requests of a District or an Appeals Office in response to any technical or procedural question that develops during any stage of any proceeding on the interpretation and proper application of tax law, tax treaties, regulations, revenue rulings, or other precedents published by the National Office to a specific set of facts. Such proceedings include (1) the examination of a taxpayer's return, (2) consideration of a taxpayer's claim for refund or credit, or (3) any other matter involving a specific taxpayer under the jurisdiction of the Chief, Examination Division, such as the consideration of a taxpayer's application to enter into an agreement about the useful life method, and rate of depreciation of business property provided by section 167(d) of the Code. These proceedings include an examination to determine whether obligations issued are described in section 103(a). They also include processing and considering nondocketed cases in an Appeals Office. Technical advice is furnished as a way of helping Service personnel close cases and establish and maintain consistent holdings throughout the Internal Revenue Service. A District Director or an Appeals Office may raise an issue in any tax period, even though technical advice may have been asked for and furnished for the same or a similar issue for another tax period. Technical advice does not include memoranda on matters of general technical application furnished to District or Appeals Offices when the issues are not raised in connection with a proceeding involving a specific taxpayer.

.05 If a District Director, Chief, Appeals Office, or a taxpayer requests technical advice on a determination letter under section 521 of the Code, the procedures under Rev. Proc. 80-26, 1980-1 C.B. 671, and Rev. Proc. 84-46, 1984-1 C.B. 541, as modified by Rev. Proc. 85-32, 1985-2 C.B. 414, as well as section 501.201(n) of the Statement of Procedural Rules, must be followed.

.06 Only the National Office can revoke a ruling letter. Therefore, if a District Director or a Chief, Appeals Office, thinks that a ruling letter previously issued to a taxpayer should be modified or revoked, including a ruling that involves a matter that is the subject of or is otherwise closely related to a criminal or civil fraud investigation or a jeopardy or termination assessment, the procedures in section 5 of this revenue procedure must be followed.

.07 The provisions of this revenue procedure apply only to a case under the jurisdiction of a District Director or Chief, Appeals Office. Technical advice may be requested on issues considered in a prior Appeals disposition, not based on mutual concessions for the same tax period of the same taxpayer, if the Appeals Office that had the case concurs in the request. A District Director may not request technical advice on an issue if an Appeals Office is currently considering an identical issue of the same taxpayer (or of a related taxpayer within the meaning of section 267 of the Code or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504). A case remains under the jurisdiction of the District Director even through an Appeals Office has the identical issue under consideration in the case of another taxpayer (not related within the meaning of sections 267 and 1504, respectively) in an entirely different transaction. With respect to the same taxpayer or the same transaction, when the issue is under the jurisdiction of an Appeals Office, and the applicability of more than one kind of tax is dependent upon the resolution of that issue, a District Director may not request technical advice on the applicability of any of the taxes involved.

SEC. 5. REQUESTING TECHNICAL ADVICE

.01 The District Director or Chief, Appeals Office is responsible for determining whether to request technical advice on any issue being considered. Each request must be submitted through channels and signed by a person who is authorized to sign for the District Director or Chief, Appeals Office, and should include, in writing, a statement of applicable law and the arguments submitted by the District or Appeals Office in support of its position on the issue or issues. All requests for technical advice from Appeals Offices should be submitted to the Associate Chief Counsel (Technical) through the National Director of Appeals, CC:AP:PT. However, while the case is under the jurisdiction of the District Director or the Chief, Appeals Office, a taxpayer may request that an issue be referred to the national Office for technical advice. All requests for technical advice should be made at the earliest possible stage of the proceedings. The grounds for a request are that a lack of uniformity exists on the disposition of the issue or that the issue is unusual or complex enough to warrant consideration by the National Office. Taxpayers may also request technical advice when seeking an extension of time fixed by regulations for making an election or application for relief pursuant to section 1.9100-1 of the Income Tax Regulations. See section 5.11 of this revenue procedure for additional information. Although taxpayers are encouraged to make written requests setting forth the facts, law, and argument on the issue, and reasons for requesting National Office technical advice, they may make the request orally. If, after considering the taxpayer's request, the examining officer or Appeals Officer thinks that the circumstances do not warrant referral of the case to the National Office, the examining officer or Appeals Officer will tell the taxpayer. (See section 6 for taxpayer's appeal rights when an examining officer or an Appeals Officer declines to request technical advice).

.02 When technical advice is going to be requested, whether or not on the request of the taxpayer, the taxpayer will be told about it and given a copy of the arguments submitted by the District Director or Chief, Appeals Office, in support of its position on the issue or issues, except as noted in section 5.10. If the examining Officer or the Appeals Officer initiates the action, the Service will give the taxpayer a copy of the statement of the pertinent facts and the questions proposed for submission to the National Office. The request for technical advice should be worded to avoid possible misunderstanding in the National Office of the facts or the specific points at issue.

.03 If the Service initiates the request for technical advice, the taxpayer has 10 calendar days after receiving the statement of facts and specific questions to indicate in writing any disagreement about them. The taxpayer must justify in writing an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office. Every effort should be made to reach agreement on the facts and the specific points at issue. If agreement cannot be reached, the taxpayer may send, within 10 calendar days after receipt of notice, a statement of the taxpayer's understanding of the new specific points at issue. This statement will be forwarded to the National Office with the request for technical advice. The taxpayer must justify in writing an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office. When the District Director or the Chief, Appeals Office and the taxpayer cannot agree on material facts, the national Office, at its discretion, may refuse to provide technical advice.

.04 If the taxpayer initiates the action to request technical advice and the taxpayer's statement of the facts and point at issue is not wholly acceptable to the District or Appeals Office, the Service will tell the taxpayer in writing what the areas of disagreement are. The taxpayer has 10 calendar days after receiving the written notice to reply to it. The taxpayer must justify in writing an extension of beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division or the Chief, Appeals Office. If agreement cannot be reached, both the statements of the taxpayer and the District or Appeals Office will be forwarded to the National Office with the request for technical advice. When the disagreement involves material facts essential to the preliminary assessment of the case, the District Director or Chief, Appeals Office, may, at its discretion, refuse referral to the National Office of a taxpayer initiated request for technical advice or, alternatively, the National Office may refuse to provide technical advice.

.05 If it has not already been done, the taxpayer may submit a statement explaining the taxpayer's position on the issues and citing precedents that the taxpayer believes will bear on the case. This statement will be forwarded to the National Office with the request for technical advice. If the taxpayer's statement is received after the request for technical advice has been forwarded to the National Office, it will be forwarded there to be associated with the request for technical advice. The taxpayer is encouraged to comment on any legislation, tax treaties, regulations, revenue rulings, revenue procedures, or court decisions contrary to the taxpayer's position.

.06 At the time the taxpayer is told that the matter is being referred to the National Office, the taxpayer will also be told about the right to a conference in the National Office if an adverse decision is indicated and will be asked to say whether such a conference is desired.

.07 In connection with requests for technical advice, the taxpayer also has the same 10 days as in sections 5.03 and 5.04 to submit the statement described in section 5.09 of proposed deletions under section 6110(c) of the Code. If the taxpayer does not submit the statement, the District Director or the Chief, Appeals Office, will tell the taxpayer that such a statement is required. If the District Director or the Chief, Appeals Office, does not receive that statement within 10 days after such notification, the District Director or the Chief, Appeals Office, may decline to submit the request for technical advice. If the District Director or the Chief. Appeals Office, decides to request technical advice in a case in which the taxpayer has not submitted the statement or proposed deletions, the National Office will make those deletions that the Commissioner determines are required by section 6110(c).

.08 The requirements for submitting statements and other material or proposed deletions in technical advice memoranda before public inspection is allowed do not apply to requests for any documents to which section 6104 of the Code applies.

.09 To help the National Office make the deletions required by section 6110(c) of the Code in technical advice memoranda to be made open to public inspection under section 6110(a), a deletions statement must accompany requests. The statement must either state that no information other than names, address, and identifying numbers need be deleted, or if more information is proposed to be deleted, the statement must indicate the deletions proposed by the taxpayer,. If the latter alternative is chosen, the statement must be made in a separate document, and it must be accompanied by a copy of all statements of facts and supporting documents that are submitted to the National Office under sections 5.03 and 5.04. The material that the taxpayer wants deleted must be shown in brackets. The statement of proposed deletions must show the statutory basis, under section 6110(c), for each proposed deletion. The statement of proposed deletions must not appear or be referred to anywhere in the request for technical advice. If the taxpayer decides to request additional deletions under section 6110(c) before the National Office replies to the request for technical advice, the taxpayer may submit additional statements. The procedures in this paragraph also apply to additional information submitted during consideration of the technical advice request.

.10 The provisions of this section (about referring issues upon the taxpayer's request, telling the taxpayer about the referral of issues, giving the taxpayer a copy of the arguments submitted by the District Director or Chief, Appeals Office, in support of its position on the issue or issues, submitting proposed deletions, and granting conferences in the national Office) do not apply to a technical advice memorandum, described in section 6110(g)(5)(A) of the Code, that involves a matter that is the subject of or is otherwise closely related to a criminal or civil fraud investigation or a jeopardy or termination assessment. However, in these cases after all proceedings in the investigations or assessments are complete but before the Commissioner mails the notice, under section 6110(f)(1), of intention to disclose the technical advice memorandum, a copy of the technical advice memorandum will be furnished to the taxpayer and the taxpayer may provide the statement of proposed deletions to the National Office.

.11 See Rev. Proc. 79-63, 1979-2 C.B. 578, which concerns applications for extension of time for making an election or application for relief pursuant to section 1.9100-1 of the Income Tax Regulations. If a taxpayer requests an extension of time under section 1.9100-1 during an examination or when being considered by an Appeals Office, the procedures of Rev. Proc. 89-2 are applicable, except for section 6. The examination officer or Appeals Officer is not authorized to deny consideration of a request for technical advice that involves section 1.9100-1 relief. All such requests must be referred to the National Office. See section 4.03 of Rev. Proc. 79-63.

.12 Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

.13 Any authorized representative, as described in section 8.11 of Rev. Proc. 89-1, whether or not enrolled to practice, must comply with the conference and practice requirements of the Statement of Procedural Rules (26 CFR 601). Form 2848, Power of Attorney, and Form 2848-D, Authorization and Declaration, may be used with regard to requests for technical advice under this revenue procedure.

SEC. 6. APPEAL BY TAXPAYERS OF DISTRICT OR APPEALS OFFICE DETERMINATION NOT TO SEEK TECHNICAL ADVICE

.01 If the examining officer or Appeals Officer thinks that a taxpayer's request for referral of an issue to the National Office for technical advice does not warrant referral, the examining officer or Appeals Officer will tell the taxpayer.

.02 The taxpayer may appeal the decision of the examining officer or the Appeals Officer not to request technical advice by submitting to that official, within 10 calendar days after being told of the decision, a statement of the facts, law, and arguments on the issue, and the reasons why the taxpayer believes the matter should be referred to the National Office for technical advice. The tax payer must justify in writing a request for an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office.

.03 The examining officer or the Appeals Officer submits the taxpayer's statement through channels to the Chief, Examination Division, or the Chief, Appeals Office, along with the examining officer's or the Appeals Officer's statement of why the issue should not be referred to the National Office. The Chief determines, on the basis of the statement, whether technical advice will be requested. If the Chief determines that technical advice is not warranted and proposes to deny the request, the taxpayer is told in writing about the determination. In the letter to the taxpayer, the Chief states the reasons for the proposed denial (except in unusual situations when doing so would be prejudicial to the best interests of the Government). The taxpayer has 10 calendar days after receiving the letter to notify the Chief of agreement or disagreement with the proposed denial. The taxpayer may not appeal the decision of the Chief, Examination Division, or the Chief, Appeals Office, not to request technical advice from the National Office. However, if the taxpayer does not agree with the proposed denial, all data on the issue for which technical advice has been sought, including, the taxpayer's written request and statements, will be submitted to the Assistant Commissioner (Examination) or the National Director of Appeals for review. If the Assistant Commissioner (Examination) or the National Director of Appeals thinks the circumstances warrant it, he or she may consult the Associate Chief Counsel (Technical) or his or her representatives. After this review, the District Office or the Appeals Office is notified whether the proposed denial is approved or disapproved, and, in turn, the District Office or the Appeals Office will notify the taxpayer.

.04 While the matter is being reviewed, the District Office or the Appeals Office suspends action on the issue (except when the delay would prejudice the Government's interest) until it is notified that the proposed denial is approved or disapproved. This notification is made within 45 calendar days after receipt of the data. The review is solely on the basis of the written record and no conference is held on the matter.

SEC. 7. WITHDRAWAL OF REQUESTS

.01 Only a District Director or Chief, Appeals Office, may withdraw a request for technical advice, even a request initiated by the taxpayer. The withdrawal request may be made at any time before the responding transmittal memorandum is signed. The District Director or Chief, Appeals Office, must notify the taxpayer in writing of an intent to withdraw the request for technical advice except (1) when the period of limitation on assessment is about to expire and the taxpayer has declined to sign a consent to extend the period or (2) when such notification would be prejudicial to the best interests of the Government. If the taxpayer does not agree that the request for technical advice should be withdrawn, the procedure in section 6 of this revenue procedure must be followed.

.02 When a request for technical advice is withdrawn, the National Office may send its views to the District Director or the Chief, Appeals Office, when acknowledging the withdrawal request. In an Appeals case, acknowledgment of the withdrawal request should be sent to the appropriate Appeals Office, through the National Director of Appeals, CC:AP:PT. In appropriate cases, the subject matter may be published as a revenue ruling or as a revenue procedure.

SEC. 8. CONFERENCES IN THE NATIONAL OFFICE

.01 If after an analysis of the technical advice request it appears that advice adverse to the taxpayer will be given, and if a conference has been requested, the taxpayer will be told, by telephone if possible, the time and place of the conference. The conference must be held within 21 calendar days after such contact has been made. If conferences are being arranged for more than one request for technical advice for the same taxpayer, they will be scheduled to cause the least inconvenience to the taxpayer. An extension of the 21-day period will be granted only if the taxpayer justifies it in writing and the Branch Chief, Senior Technician Reviewer, or Assistant to the Branch Chief of the Branch to which the case is assigned approves it. Because the purpose of these procedures is to facilitate the technical advice process, requests for extensions should be justified by compelling facts and circumstances. The request for extension should be submitted before the end of the 21-day period. If unusual circumstances near the end of the 21-day period make a written request impractical, within the 21-day period the National Office should be told orally about the problem and of the forthcoming written request for extension. These requests must be promptly submitted. The taxpayer or taxpayer's representative will be told promptly and later in writing of the approval or denial of the requested extension. There is no right to appeal the denial of an extension request. If it is not advised of problems with meeting the 21-day period, or if the request is not sent promptly after the National Office is notified of problems with meeting the 21-day period the, Service will process the case on the basis of the existing record.

.02 A taxpayer is entitled by right to only one conference in the National Office unless one of the circumstances discussed in this section exists. This conference is normally held at the Branch level. It is attended by a person who has authority to sign the transmittal memorandum discussed in section 9.09 on behalf of the Branch Chief. When more than one branch has taken an adverse position on an issue within its jurisdiction presented in a request for technical advice, or when the position ultimately adopted by one Branch will affect another Branch's determination, a representative from each Branch with authority to sign for the Branch Chief will attend the conference. In appropriate cases, the examining officer or the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference for each subject. To promote a free and open discussion of the issues, the conference usually is held after the Branch has an opportunity to study the case. However, the taxpayer may request that the conference of right be held at a stage earlier in the consideration of the case than the Service would ordinarily designate. The taxpayer has no right to appeal the action of a Branch to an Assistant Chief Counsel or to any other official of the Service.

.03 In order to issue technical advice memoranda in a more efficient manner, the Branch representatives may offer the taxpayer an option of delaying the conference in order to submit a brief requesting section 7805(b) relief, discussed in section 12 of this revenue procedure, in the event of a final adverse determination by the Service. In such cases, a conference on the tentatively adverse position and the section 7805(b) relief request will be scheduled within 10 days of receipt of the taxpayer's section 7805(b) request.

.04 Because conference procedures are informal, no tape, stenographic, or other verbatim recording of a conference is made.

.05 The senior Service representative at the conference ensures that the taxpayer has full opportunity to present views on all the issues in question. The Service representatives explain the Service's tentative decision on the substantive issues and the reasons for it. If prospective application under section 7805(b) of the Code is advocated by the taxpayer, the Service representative will discuss the tentative recommendation concerning the request for relief and the reason for the tentative recommendation. No commitment will be made as to the conclusion that the Service will finally adopt.

.06 An invitation to an additional conference is made if, after the conference of right, an adverse holding is proposed either (1) on a new issue or (2) on the same issue but on grounds different from those discussed at the first conference. When a proposed holding is reversed at a higher level with a result less favorable to the taxpayer, the taxpayer has no right to another conference if the grounds or arguments on which the reversal is based were discussed at the conference of right. The limitation on the number of conferences to which a taxpayer is entitled does not prevent inviting a taxpayer to attend further conferences when National Office personnel think they are necessary. These additional conferences are held only at the invitation of the National Office.

.07 The taxpayer is responsible for furnishing in writing to the National Office within 21 calendar days after the conference any additional data, lines of reasoning, precedents, etc., that the taxpayer proposed and that were discussed at the conference but not previously or adequately presented in writing. A copy of the additional material submitted by the taxpayer must be sent by the taxpayer to the District Director or the Chief, Appeals Office, for comment. If the additional information is not received within 21 days, the technical advice memorandum will be issued on the basis of the existing record. An extension of the 21-day period may be granted only if the taxpayer justifies it in writing and the Branch Chief, Senior Technician Reviewer, or the Assistant to the Branch Chief of the Branch to which the case is assigned approves it. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those in section 8.01. Any additional material should be submitted in duplicate to the National Office. If the additional information would have a significant impact on the facts in the request for technical advice, the National Office will send a copy to the District Director or the Chief, Appeals Office, for comment on the facts contained in the additional information submitted. The District Director or the Chief, Appeals Office, gives the matter prompt attention.

.08 A taxpayer may get information on the status of the request for technical advice by contacting the District or Appeals Office that requested the technical advice.

.09 A District Director or a Chief, Appeals Office, may get current information on the status of the request for technical advice by calling the person whose name and telephone number are shown on the acknowledgement of receipt of his request for technical advice.

SEC. 9. PREPARATION OF TECHNICAL ADVICE MEMORANDUM BY THE NATIONAL OFFICE

.01 Requests for technical advice generally are given priority and processed expeditiously. At soon as the request for technical advice is assigned, the technical employee analyzes the file to see whether it meets all requirements of section 5. If it does not comply with the requirements of section 5.09 relating to the statement of proposed deletions, the National Office makes the deletions from the technical advice memorandum that the Commissioner determines are required by section 6110(c) of the Code.

.02 Usually, within 21 calendar days after the Branch receives the request for technical advice, a representative of the Branch telephones the District or Appeals Office to discuss the procedural and substantive issues in the request that come within the Branch's jurisdiction. The Branch representative informs the District or Appeals Office:

(a) that the case is being returned because substantial additional information is required to resolve an issue, because significant unresolved factual variances exist between the statement of facts submitted by the District or Appeals Office and the taxpayer, or because major procedural problems cannot be resolved by phone (A request for technical advice will not be returned or reply delayed merely because additional information not essential to the preliminary assessment of the case is needed.); or

(b) that the case is not being returned but more information is needed or minor procedural deficiencies exist; or

(c) What the Branch representative's tentative conclusion is and the estimated date that the technical advice memorandum will be mailed; or

(d) that a tentative conclusion has not been reached because of the complexity of the issue and the estimated date the tentative conclusion will be made.

.03 Within 21 calendar days after the Branch receives the additional information requested in section 9.02(b), the Branch representative telephones the District or Appeals Office to discuss the procedural and substantive issues in the request that come within the jurisdiction of the Branch. The representative indicates either (1) the tentative conclusion and the estimated date the technical advice memorandum will be mailed, or (2) the fact that a tentative conclusion has not been reached because of the complexity of the issue and the estimated date the tentative conclusion will be made.

.04 Because the Branch representative's tentative conclusion may change during the preparation and review of the technical advice memorandum, it is not, under any circumstances, considered final. The District or Appeals Office may not tell the taxpayer what the tentative conclusion is.

.05 When the technical advice request concerns matters within the jurisdiction of more than one Branch, a representative of the Branch that received the original technical advice request informs the District or Appeals Office within the initial 21-calendar day period: (1) that the matters within the jurisdiction of another Branch have been referred to the other Branch or office for consideration, and (2) that a representative of the other Branch will contact the District or Appeals Office about the referral of the technical advice request within 21 calendar days after receiving it in accordance with section 9.02.

.06 If during the analysis and development of the case it is determined after discussion with the Branch Chief or reviewer, that additional information essential to the preliminary assessment of the case is needed, a Branch representative will obtain the additional information in the most expeditious manner possible from the taxpayer or the District Director or Chief, Appeals Office. Any additional information requested from the taxpayer by the National Office must be submitted by letter appended by a penalties of perjury statement within 21 calendar days after the request for information is made. A written request for an extension of time to submit additional material must be received by the National Office within the 21-day period, setting forth compelling facts and circumstances justifying the proposed extension. The Branch Chief Senior Technician Reviewer, or Assistant to the Branch Chief of the Branch to which the case is assigned will determine whether to grant or deny the request for an extension of the 21-day period. There is no right to appeal the denial of an extension request. If the National Office does not receive the submission within the period of 21 days, plus any extensions granted by the Branch Chief, Senior Technician Reviewer, or Assistant to the Branch Chief the National Office will issue the technical advice memorandum based on the existing record.

.07 Any additional information submitted by the taxpayer should be sent to the National Office and a copy sent to either the District Director or the Chief, Appeals office, for comments on the additional information. If the District Director or Chief, Appeals Office, has comments, they must be furnished promptly to the appropriate Branch in the office of the Associate Chief Counsel (Technical).

.08 Generally, before replying to the request for technical advice, the National Office informs the taxpayer orally or in writing of the material likely to appear in the technical advice memorandum that the taxpayer proposed be deleted but that the Service determined should not be deleted. If so informed, the taxpayer may submit within 10 calendar days any further information, arguments, or other material that should be deleted. The Service attempts, if possible, to resolve all disagreements about proposed deletions before the National Office replies to the request for technical advice. However, the taxpayer does not have the right to a conference to resolve any disagreements about material to be deleted from the text of the technical advice memorandum. These matters, however, may be considered at any conference otherwise scheduled for the request.

.09 Replies to requests for technical advice are addressed to the District Director or the Chief, Appeals Office. When a request for technical advice is from Appeals, the response to the appropriate Appeals Office will be routed through the National Director of Appeals, CC:AP:PT. The replies to technical advice requests are in two parts. Each part identifies the taxpayer by name, address, identification number, and year or years involved. The first part of the reply is a transmittal memorandum. In unusual cases it is a way of giving the District or Appeals Office administrative information or other information that under the nondisclosure statues or for other reasons, may not be discussed with the taxpayer. The second part (the ''technical advice memorandum'') contains: (1) a statement of the issues; (2) a statement of the pertinent facts with respect to the issues; (3) a statement of the pertinent law, tax treaties, regulations, revenue rulings and other precedents published in the Bulletin, and court decisions; (4) a discussion of the rationale developed by the National Office; and (5) the conclusions of the National Office. The conclusions give direct answers, whenever possible, to the specific questions of the District or Appeals Office. The discussion of the issues is in enough detail so the District or Appeals officials know the reasoning underlying the conclusion. Accompanying the technical advice memorandum is a notice, under section 6110(f)(1) of the Code, of intention to disclose a technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications under section 6110(d)). The District Director or the Chief, Appeals Office, forwards this notice to the taxpayer when the District Director or the Chief, Appeals Office, gives a copy of the technical advice memorandum to the taxpayer according to section 9.08.

.10 A copy of the technical advice memorandum will be given to the taxpayers only after it has been adopted by the District Director or the Chief, Appeals Office. However, in the case of technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum is not given to the taxpayer until all proceedings in the investigations or assessments are completed.

.11 After receiving the notice under section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum, the taxpayer may protest the disclosure of certain information in it. The taxpayer must submit a written statement within 20 calendar days identifying those deletions not made by the Service that the taxpayer believes should have been made. The taxpayer must also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection with brackets around deletions that are proposed by the taxpayer but that have not been made by the National Office. Generally, the National Office does not consider the deletion of any material that the taxpayer has not proposed be deleted before the National Office reply is sent to the request for technical advice to the District Director or the Chief, Appeals Office. Within 20 days after it receives the taxpayer's response to the notice under section 6110(f)(1), the National Office must mail the taxpayer its final administrative conclusion about the deletions to be made.

SEC.10. ACTION ON TECHNICAL ADVICE IN DISTRICT AND APPEALS OFFICE

.01 The District Director or the Chief, Appeals Office, must process the taxpayer's case on the basis of the conclusions in the technical advice memorandum unless (1) the District Director or the Chief, Appeals Office, thinks that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered, or (2) the Chief, Appeals Office, in the case of technical advice unfavorable to the taxpayer, decides to settle the issue in the usual manner under existing authority.

.02 The District Director or the Chief Appeals Office, gives the taxpayer (1) a copy of the technical advice memorandum described in section 9.09 , and (2) the notice under section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications under section 6110(d)). This requirement does not apply to technical advice memoranda involving civil fraud or criminal investigations; jeopardy or termination assessments, as described in section 5.10; or documents to which section 6104 applies.

.03 In those cases in which the National Office tells the District Director of the Chief, Appeals Office, that a copy of the technical advice memorandum should not be given to the taxpayer, the District Director or the Chief, Appeals Office tells this to the taxpayer if the taxpayer requests a copy.

SEC. 11. EFFECT OF TECHNICAL ADVICE

.01 A taxpayer may not rely on a ruling issued to, or a technical advice memorandum received from the Service by, another taxpayer. Except in rare or unusual circumstances, a holding in a technical advice memorandum that is favorable to the taxpayer is applied retroactively. Moreover, since technical advice, as described in section 4.04 of this revenue procedure, is issued only on closed transactions, a holding that is adverse to the taxpayer is also applied retroactively unless the Associate Chief Counsel (Technical) exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding.

.02 A holding that modifies or revokes a holding in a prior technical advice memorandum is applied retroactively, with one exception. If the new holding is less favorable to the taxpayer than the earlier one, it generally is not applied to the period in which the taxpayer relied on the prior holding in situations involving continuing transactions.

.03 If a technical advice memorandum relates to a continuing action or a series of actions, it is ordinarily applied until specifically withdrawn or until the conclusion is modified or revoked by enactment of legislation, ratification of a tax treaty, or issuance of a United States Supreme Court decision, regulations (temporary or final), a revenue ruling, or other statement published in the Internal Revenue Bulletin. Publication of a notice of proposed rulemaking does not affect the application of a technical advice memorandum.

.04 Generally, a technical advice memorandum that revokes or modifies a letter ruling or another technical advice memorandum is not applied retroactively for either the taxpayer to whom or for whom the ruling or memorandum was originally issued or for a taxpayer whose tax liability was directly involved in such ruling or memorandum if: (1) there has been no misstatement or omission of material facts; (2) the facts at the time of the transaction are not materially different from the facts on which the ruling or memorandum was based; (3) there has been no change in the applicable law; (4) in the case of a ruling, it was originally issued on a prospective or proposed transaction; and (5) the taxpayer directly involved in the ruling or memorandum acted in good faith in relying on the ruling or memorandum and the retroactive revocation would be to the taxpayer's detriment. For example, the tax liability of each shareholder is directly involved in a ruling or memorandum on the reorganization of a corporation. However, the tax liability of members of an industry is not directly involved in a ruling or memorandum issued to one of the members, and the holding in a revocation or modification of a ruling or memorandum to one member of an industry may be retroactively applied to other members of the industry. By the same reasoning, a tax practitioner may not obtain the nonretroactive application to one client of a modification or revocation of a ruling or memorandum previously issued to another client. When a ruling to a taxpayer or a memorandum involving a taxpayer is revoked with retroactive effect, the notice to the taxpayer, except in fraud cases, sets forth the grounds on which the revocation is being made and the reasons why the revocation is being applied retroactively.

SEC. 12. PROCEDURES FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF TECHNICAL ADVICE

.01 pursuant to section 7805(b) of the Code, it is within the discretion of the Commissioner or the Commissioner's delegate to prescribe the extent, if any, to which any ruling (including technical advice) will be applied without retroactive effect.

A taxpayer who has received a technical advice memorandum or with respect to whom a technical advice request is pending may request that the Associate Chief Counsel (Technical), the Commissioner's delegate, exercise the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of any holding stated in the technical advice memorandum or to limit the retroactive effect of any subsequent modification or revocation of the technical advice memorandum.

.02 When a technical advice memorandum that concerns a continuing transaction is modified or revoked by, for example, a subsequent revenue ruling or final regulations, a request to limit the retroactive effect of the modification or revocation of the technical advice memorandum must be made in the form of a request for a ruling when the request is submitted before the return is examined that contains the transaction that is the subject of the request for ruling. See secion 19.02 of Rev. Proc. 89-1, page 740, this Bulletin.

.03 When a taxpayer is informed of the modification or revocation of a technical advice memorandum, ruling letter, or determination letter during the course of an examination of the taxpayer's return by the District Director or during consideration by the Chief, Appeals Office, a request to limit the retroactive application of the modification or revocation of the technical advice memorandum, ruling letter, or determination letter must itself be made in the form of a request for technical advice. See section 5 of this revenue procedure. However, the taxpayer must also submit a statement, which will be forwarded to the National Office with the request for technical advice, that the request for technical advice, that the request for technical advice is being made pursuant to section 7805(b) of the Code. This statement must also set forth the relief sought and an explanation of the reasons and arguments in support of the relief requested, and it must be accompanied by any documents bearing on the request. The explanation in support of the application of section 7805(b) should include a discussion of the five items enumerated in section 11.04 of this revenue procedure as they relate to the taxpayer's particular situation. The taxpayer's request for relief pursuant to section 7805(b) must be forwarded by the District Director or the Chief, Appeals Office to the National Office for consideration.

.04 A request to limit the retroactive effect of a holding in a technical advice memorandum that does not modify or revoke a technical advice memorandum may be made as part of that technical advice request, either initially, or at any time before the technical advice memorandum is issued by the National Office. In such a case, the taxpayer must also submit a statement in support of the application of section 7805(b) of the Code, as described in .03 above.

.05 When a request for technical advice concerns only the application of section 7805(b) of the Code, the taxpayer has the right to a conference in the National Office in accordance with the provisions of section 8 of this revenue procedure. If the request for application of section 7805(b) is included in the request for technical advice on the substantive issues or is made before the conference of right on the substantive issues, the section 7805(b) issues will be discussed at the taxpayers one conference of right. If the request for the application of section 7805(b) is made as part of a pending technical advice request after a conference has been held on the substantive issue, and the Service determines that there is justification for having delayed the request, then the taxpayer will have the right to one conference of right concerning the application of section 7805(b) with the conference limited to discussion of this issue.

SEC. 13. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 88-2 is superseded.

26 CFR 601.201: Rulings and determination letters:

Rev. Proc. 89-3

SECTION 1. PURPOSE AND NATURE OF CHANGES

.01 The purpose of this revenue procedure is to update Rev. Proc. 88-3, 1988-1 C.B. 579, as amplified and modified by subsequent revenue procedures, by providing a revised list of those areas of the Internal Revenue Code under the jurisdiction of the Associate Chief Counsel (Technical) relating to issues in which the Internal Revenue Service will not issue advance rulings or determination letters. For a list of areas under the jurisdiction of the Associate Chief Counsel (International) relating to international issues in which the Service will not issue advance rulings or determination letters, see Rev. Proc. 87-6, 1987-1 C.B. 541, as amplified by Rev. Proc. 87-39, 1987-2 C.B. 514, and Rev. Proc. 87-61, 1987-2 C.B. 765. When applicable, the Tax Reform Act of 1986 will be referred to as "TRA 1986", and the Tax Equity and Fiscal Responsibility Act of 1982 will be referred to as "TEFRA."

.02 Changes

1. Old sections 3.019, 3.0136, and 3.0138 have been deleted as a result of Rev. Rul. 88-27, 1988-1 C.B. 331.

2. New section 3.0123 modifies old section 3.0124. See Rev. Proc. 88-25, 1988-1 C.B. 803.

3. Old sections 3.0127 and 3.0128 have been deleted to reflect changes to the Code in TRA 1986 and the Revenue Act of 1987.

4. Old section 3.023 has been modified. See Rev. Proc. 88-50, 1988-2 C.B. 711.

5. New sections 4.014 and 4.017 modify old sections 4.014 and 4.017. See Rev. Proc. 88-26, 1988-1 C.B. 804.

6. Old section 4.015 has been deleted. See Rev. Proc. 88-47, 1988-2 C.B. 635.

7. New section 4.016 refers to section 141 of the Code, while old section 5.05 has been deleted. See Rev. Proc. 88-57, 1988-2 C.B. 727.

8. New section 4.019 refers to sections 162 and 262 of the Code, while old section 5.08 has been deleted. See Rev. Proc. 88-45, 1988-2 C.B. 634.

9. New sections 4.0112, 4.0125, 4.0128, and 4.0129 refer to sections 170, 642, 2055, and 2522 of the Code respectively. See Rev. Proc. 88-54, 1988-2 C.B. 715.

10. New sections 4.0114, 4.0123, and 4.0127 refer to sections 216, 351, and 1502 of the Code respectively, while old sections 5.10, 5.19, and 5.32 have been deleted. See Rev. Proc. 88-46, 1988-2 C.B. 634.

11. Old section 5.09 has been deleted. See Rev. Proc. 88-35, 1988-1 C.B. 837.

12. Old section 5.14 has been deleted. See Rev. Proc. 88-34, 1988-1 C.B. 837.

13. Old section 5.22 has been deleted. See Rev. Proc. 88-38, 1988-2 C.B. 562.

14. Old section 5.24 has been deleted. See Rev. Proc. 88-51, 1988-2 C.B. 711.

15. Old section 5.37 has been deleted. See Rev. Proc. 88-44, 1988-2 C.B. 634.

SEC. 2. BACKGROUND AND SCOPE OF APPLICATION

.01 Background

Whenever appropriate in the interest of sound tax administration, it is the policy of the Service to answer inquiries of individuals and organizations regarding their status for tax purposes and the tax effects of their acts or transactions, prior to the filing of returns or reports that are required by the revenue laws.

There are, however, certain areas in which, because of the inherently factual nature of the problems involved, or for other reasons, the Service will not issue advance rulings or determination letters. These areas are set forth in three sections of this revenue procedure. Section 3 reflects those areas in which advance rulings and determinations will not be issued. Section 4 sets forth those areas in which they will not ordinarily be issued. "Not ordinarily" connotes that unique and compelling reasons must be demonstrated to justify the issuance of a ruling or determination letter. Those sections reflect a number of specific questions and problems as well as general areas. Section 5 lists specific areas for which the Service is temporarily not issuing advance rulings and determinations because those matters are under extensive study. See Rev. Proc. 89-1, particularly section 7 captioned "Discretionary Authority to Issue Rulings and Determination Letters" for general instructions and other situations in which the Service will not or ordinarily will not issue rulings or determination letters.

With respect to the items listed, revenue rulings or revenue procedures may be published in the Internal Revenue Bulletin from time to time to provide general guidelines regarding the position of the Service.

Additions or deletions to this revenue procedure as well as restatement of items listed will be made by modification of this revenue procedure. Changes will be published as they occur throughout the year and will be incorporated annually in a new revenue procedure published as the third revenue procedure of the year. These lists should not be considered all-inclusive. Decisions not to rule on individual cases, as contrasted with those that present significant pattern issues, are not reported in this revenue procedure and will not be added to subsequent revisions.

.02 Scope of Application

This revenue procedure is not to be considered as precluding the submission of requests for technical advice to the National Office from the Office of a District Director of the Internal Revenue or a Chief, Appeals Office.

SEC. 3. AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED.

.01 Specific questions and problems.

1. Section 79.—Group Term Life Insurance Purchased for Employees.—Whether a group insurance plan for 10 or more employees qualifies as group-term insurance if the amount of insurance is not computed under a formula that would meet the requirements of section 1.79-1(c)(2)(ii) of the Income Tax Regulations if the group consisted of fewer than 10 employees.

2. Section 83.—Property Transferred in Connection with Performance of Services.—Whether a restriction constitutes a substantial risk of forfeiture if the employee is a controlling shareholder. Also, whether a transfer has occurred if the amount of the property involves a nonrecourse obligation.

3. Section 105(h).—Amount Paid to Highly Compensated Individuals under Discriminatory Self-Insurance Medical Expense Reimbursement Plan.—Whether, following a determination that a self-insured medical expense reimbursement plan is discriminatory, that plan had previously made reasonable efforts to comply with tax discrimination rules.

4. Section 117.—Scholarships and Fellowship Grants.—Whether an employer-related scholarship or fellowship grant is excludable from the employee's gross income if there is no intermediary private foundation distributing the grants, as there was in Rev. Proc. 76-47, 1976-2 C.B. 670.

5. Section 119.—Meals or Lodging Furnished for the Convenience of the Employer.—Whether the value of meals or lodging is excludable from gross income by an employee who is a controlling shareholder of the employer.

6. Sections 121 and 1034.—One-Time Exclusion of Gain from Sale of Principal Residence by Individual Who Has Attained Age 55; Rollover of Gain on Sale of Principal Residence.—Whether property qualifies as the taxpayer's principal residence.

7. Section 162.—Trade or Business Expenses.—Whether compensation is reasonable in amount. Also, whether an action is "gross misconduct" within the meaning of section 162(k)(3)(B) (See section 3.05 of Rev. Proc. 87-28, 1987-1 C.B. 770, 771).

8. Section 163.—Interest.—The income tax consequences of transactions involving "shared appreciation mortgage" (SAM) loans in which a taxpayer, borrowing money to purchase real property, pays a fixed rate of interest on the mortgage loan below the prevailing market rate and will also pay the lender a percentage of the appreciation in value of the real property upon termination of the mortgage. This applies to all SAM arrangements where the loan proceeds are used for commercial or business activities, or where used to finance a personal residence if the facts are not similar to those described in Rev. Rul. 83-51, 1983-1 C.B. 48. (Also sections 61, 451, 461, 856, 1001, and 7701).

9. Section 170.—Charitable, Etc., Contributions and Gifts.—Whether a taxpayer who advances funds to a charitable organization and receives therefore a promissory note may deduct as contributions, on one taxable year or in each of several years, amounts forgiven by the taxpayer in each of several years by endorsement on the note.

10. Section 213(a).—Medical, Dental, Etc., Expenses.—Whether a capital expenditure for an item that is ordinarily used for personal, living, or family purposes, such as a swimming pool, has as its primary purpose the medical care of the taxpayer or the taxpayer's spouse or dependent, or is related directly to such medical care.

11. Section 264(b).—Certain Amounts Paid in Connection with Insurance Contracts.—Whether "substantially all" the premiums of a contract of insurance are paid within a period of 4 years from the date on which the contract is purchased. Also, whether an amount deposited is in payment of a "substantial number" of future premiums on such a contract.

12. Section 264(c)(1).—Certain Amounts Paid in Connection with Insurance Contracts.—Whether section 264(c)(1) of the Code applies.

13. Section 269.—Acquisitions Made to Evade or Avoid Income Tax.—Whether an acquisition is within the meaning of section 269 of the Code.

14. Section 274.—Disallowance of Certain Entertainment, Etc., Expenses.—Whether a taxpayer who is traveling away from home on business may, in lieu of substantiating the actual cost of meals, deduct a fixed per-day amount for meal expenses that differs from the amount prescribed in Rev. Proc. 83-71, 1983-2 C.B. 590, or any later revenue procedure that modifies Rev. Proc. 83-71.

15. Section 302.—Distributions in Redemption of Stock.—Whether section 302(b) of the Code applies when the consideration given in redemption by a corporation consists entirely or partly of its notes payable, and the shareholder's stock is held in escrow or as security for payment of the notes with the possibility that the stock may or will be returned to the shareholder in the future, upon the happening of specified defaults by the corporation.

16. Section 302.—Distributions in Redemption of Stock.—Whether section 302(b) of the Code applies when the consideration given in redemption by a corporation in exchange for a shareholder's stock consists entirely or partly of the corporation's promise to pay an amount based on, or contingent on, future earnings of the corporation, when the promise to pay is contingent on working capital being maintained at a certain level, or any other similar contingency.

17. Section 302.—Distributions in Redemption of Stock.—Whether section 302(b) of the Code applies to a redemption of stock if after the redemption the distributing corporation uses property that is owned by the shareholder from whom the stock is redeemed and the payments by the corporation for the use of the property are dependent upon the corporation's general creditors. Payments for the use of property will not be considered to be dependent upon future earnings merely because they are based on a fixed percentage of receipts or sales.

18. Section 302.—Distributions in Redemption of Stock.—Whether the acquisition or disposition of stock described in section 302(c)(2)(B) of the Code has, or did not have, as one of its principal purposes the avoidance of federal income taxes within the meaning of that section, unless the facts and circumstances are materially identical to those set forth in Rev. Rul. 56-556, 1956-2 C.B. 177, Rev. Rul. 56-584, 1956-2 C.B. 179, Rev. Rul. 57-387, 1957-2 C.B. 225, Rev. Rul. 77-293, 1977-2 C.B. 91, Rev. Rul. 79-67, 1979-1 C.B. 128, or Rev. Rul. 85-19, 1985-1 C.B. 94.

19. Sections 302(b)(4) and (e) (pre-TEFRA sections 346(a)(2) and (b)).—Partial Liquidation.—The amount of working capital attributable to a business or portion of a business terminated that may be distributed in partial liquidation.

20. Sections 311 and 336 (pre-TRA 1986).—Taxability of Corporation on Distribution; General Rule.—Upon distribution of property in kind by a corporation to its shareholders, in complete liquidation under section 331 of the Code (when under the facts a sale of the property by the corporation would not qualify under pre-TRA 1986 section 337) and section 346(a) (pre-TEFRA section 346(a)(1)), in partial liquidation under section 302(b)(4) and (e) (pre-TEFRA sections 346(a)(2) and (b)) or in redemption of stock under section 302(a), followed by a sale of the property, whether the sale can be deemed to have been made by the corporation under the doctrine of *Commissioner v. Court Holding Company*, 324 U.S. 331 (1945), 1945 C.B. 58.

21. Section 312.—Effect on Earnings and Profits.—The determination of the amount of earnings and profits of a corporation.

22. Section 368(a)(1)(B).—Definitions Relating to Corporate Reorganizations.—The acceptability of an estimation procedure or the acceptability of a specific sampling procedure to determine the basis of stock acquired by an acquiring corporation in a reorganization described in section 368(a)(1)(B).

23. Section 368(a)(1)(E).—Definitions Relating to Corporate Reorganizations.—Whether a transaction constitutes a corporate recapitalization within the meaning of section 368(a)(1)(E) of the Code (or a transaction that also qualified under section 1036) when either (i) the transaction involves a closely-held corporation or (ii) the issues involved are substantially similar to those described in the following revenue rulings:

Rev. Rul. 82-34, 1982-1 C.B. 59 (continuity of business enterprise);

Rev. Rul. 77-479, 1977-2 C.B. 119 (continuity of shareholder interest);

Rev. Rul. 77-238, 1977-2 C.B. 115 (conversion of shares of one class of stock into shares of another class, as permitted by certificate of incorporation);

Rev. Rul. 74-269, 1974-1 C.B. 87 (major shareholder's exchange of common stock for preferred stock);

Rev. Rul. 56-654, 1956-2 C.B. 216 (corporate charter amended to provide preferred stock with increased redemption and liquidation value, where common and preferred stock held pro rata);

Rev. Rul. 55-112, 1955-1 C.B. 344 (common stock exchanged for preferred stock); and

Rev. Rul. 54-482, 1954-2 C.B. 148 (old common stock exchanged for new common stock). The above no-ruling area does not apply, however, to any corporate recapitalization that is an integral part of a larger transaction if it is impossible to determine the tax consequences of the larger transaction without making a determination with regard to the recapitalization.

24. Section 451.—General Rule for Taxable Year of Inclusion.—The tax consequences of a nonqualified unfunded deferred compensation arrangement with respect to a controlling shareholder employee eligible to participate in the arrangement.

25. Sections 451 and 457.—General Rule for Taxable Year of Inclusion; Deferred Compensation Plans with Respect to Service for State and Local Governments.—The tax consequences to unidentified independent contractors in nonqualified unfunded deferred compensation plans. This applies to plans established under section 451 of the Code by employers in the private sector and to eligible state plans under section 457. However, a ruling with respect to a specific independent contractor's participation in such a plan may be issued.

26. Section 641.—Imposition of Tax.—Whether the period of administration or settlement of an estate is reasonable or unduly prolonged.

27. Section 642(c).—Deduction for Amounts Paid or Permanently Set Aside for a Charitable Purpose.—Allowance of an unlimited deduction for amounts set aside by a trust or estate for charitable purposes when there is a possibility that the corpus of the trust or estate may be invaded.

28. Section 704(e).—Family Partnerships.)—Matters relating to the validity of a family partnership when capital is not a material income producing factor.

29. Section 856.—Definition of a Real Estate Investment Trust.—Whether a corporation whose stock is "paired" with or "stapled" to stock of another corporation will qualify as a real estate investment trust under section 856 of the Code if the activities of the corporations are integrated.

30. Section 1221.—Capital Asset Defined.—Whether specialty stock allocated to an investment account by a registered specialist on a national securities exchange is a capital asset.

31. Section 1551.—Disallowance of Surtax Exemption and Accumulated Earnings Credit.—Whether a transfer is within section 1551 of the Code.

32. Section 2031.—Definition of Gross Estate.—Actuarial factors for valuing interests in the prospective gross estate of a living person.

33. Section 2512.—Valuation of Gifts.—Actuarial factors for valuing prospective or hypothetical gifts of a donor.

34. Section 7701.—Definitions.—Whether a foreign arrangement that is a participant in a domestic arrangement classified as a partnership for U.S. tax purposes will itself be classified as a partnership.

35. Section 7701.—Definitions.—Whether a foreign limited liability company will be classified as a partnership if the taxpayer requests classification as a partnership and (1) the taxpayer is a corporation and less than 20 percent of the interests in the limited liability company are held by independent parties or (2) the taxpayer is not a corporation and independent parties hold only a nominal interest in the company.

36. Section 7701.—Definitions.—Whether an organization, formed in a state that has a statute corresponding to the Uniform Limited Partnership Act or the Revised Uniform Limited Partnership Act, lacks the corporate characteristic of continuity of life where, in the case of the removal of a general partner, the partnership agreement allows less than a majority in interest of limited partners to elect a new one to continue the partnership.

37. Section 7701.—Definitions.—Whether a limited partnership will be classified as a partnership if the partnership agreement does not provide that, notwithstanding anything to the contrary that may be expressed or implied in the agreement, the interests of all of the general partners, taken together, in each material item of partnership income, gain, loss, deduction, or credit is equal to at least one percent of each such item at all times during the existence of the partnership. In determining the general partners' interests in such items, limited partnership interests owned by the general partners shall not be taken into account.

38. Section 7701.—Definitions.—Whether a limited partnership will be classified as a partnership if the partnership agreement does not expressly provide that, upon the dissolution and termination of the partnership, the general partners will contribute to the partnership an amount equal to: (a) the deficit balances in their capital accounts; or (b) the excess of 1.01 percent of the total capital contributions of the limited partners over the capital previously contributed by the general partners; or (c) the lesser of (a) or (b).

.02 General Areas

1. The results of transactions that lack bona fide business purpose or have as their principal purpose the reduction of federal taxes.

2. A matter upon which a court decision adverse to the government has been handed down and the question of following the decision or litigating further has not yet been resolved.

3. A matter involving the prospective application of the estate tax to the property or the estate of a living person, to the extent provided in section 4.04 of Rev. Proc. 88-50, 1988-2 C.B. 711. Rev. Proc. 88-50 generally provides for the issuance of advance estate tax rulings on a test basis until December 31, 1989.

4. A matter involving alternate plans of proposed transactions or involving hypothetical situations.

5. A matter involving the federal tax consequences of any proposed federal, state, local or municipal legislation. The Service may provide general information in response to an inquiry.

6. Whether under Subtitle F (Procedure and Administration) of the Code reasonable cause, due diligence, good faith, clear and convincing evidence or other similar terms that require a factual determination exist.

7. Whether a proposed transaction would subject the taxpayer to a criminal penalty.

8. A request that does not comply with the provisions of Rev. Proc. 89-1.

9. Whether, under the common law rules applicable in determining the employer-employee relationship, a professional staffing corporation (loan-out

corporation) or the subscriber is the employer of individuals if:

(a) the loan-out corporation hires employees of the subscriber and assigns the employees back to the subscriber or;

(b) the loan-out corporation assigns individuals to subscribers for more than a temporary period (1 year or longer).

SEC. 4. AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT ORDINARILY BE ISSUED

.01 Specific questions and problems.

1. Sections 38, 39, 46, and 48.—Investment Tax Credit.—Application of these sections where the formal ownership of property is in a party other than the taxpayer, except when title is held merely as security.

2. Section 61.—Gross Income Defined.—Determination as to who is the true owner of property in cases involving the sale of securities, or participation interests therein, where the purchaser has the contractual right to cause the securities, or participation interests therein, to be purchased by either the seller or a third party.

3. Sections 61 and 163.—Gross Income Defined; Interest.—Determinations as to who is the true owner of property or the true borrower of money in cases in which the formal ownership of the property or liability for the indebtedness is in another party.

4. Section 103.—Interest on State and Local Bonds.—Whether the interest on state and local bonds will be excludable from gross income under section 103(a) of the Code if the proceeds of issues of bonds (other than advance refunding issues) are placed in escrow or otherwise not expended for a governmental purpose for an extended period of time even though the proceeds are invested at a yield that will not exceed the yield on the state and local bonds prior to their expenditure.

5. Section 103.—Interest on Certain Governmental Obligations.—Whether an issue of industrial development bonds is exempt under section 103(b) of the Code when 10 percent or more of the proceeds of the issue (minus "neutral costs," as described in Rev. Rul. 80-171, 1980-2 C.B. 44) are used to finance a facility in which an owner (or a related person) or a lessee (or a related person), who was a user of the facility at any time before the bonds were issued, will be a user of the facility after the bonds are issued.

6. Section 141.—Private Activity Bond; Qualified Bond.—With respect to requests made pursuant to Rev. Proc. 88-33, 1988-1 C.B . 835, whether state or local bonds will meet the "private business use tests" and the "private security or payment test" under section 141(b)(1) and (2) of the Code in situations where the proceeds are used to finance certain output facilities and, pursuant to a contract to take, or take or pay for, a nongovernmental person purchases 30 percent or more of the actual output of the facility but 10 percent or less of the subparagraph (5) output of the facility as defined in section 1.103-7(b)(5)(ii)(*b*) of the regulations (issued under former section 103(b) of the Code). In similar situations, the Service will not ordinarily issue rulings or determination letters concerning questions arising under paragraphs (3), (4), and (5) of section 141(b).

7. Section 148.—Arbitrage.—Whether amounts received as proceeds from the sale of municipal bond financed property and pledged to the payment of debt service or pledged as collateral for the municipal bond issue are sinking fund proceeds within the meaning of section 1.103-13(g) of the regulations (issued under former section 103(c) of the Code) or replaced proceeds described in section 148(a)(2) of the Code (or former section 103(c)(2)(B)).

8. Section 162.—Trade or Business Expenses.—Whether the requisite risk shifting and risk distribution necessary to constitute insurance are present for purposes of determining the deductibility under section 162 of the Code of amounts paid (premiums) by a taxpayer for insurance, unless the facts of the transaction are within the scope of Rev. Rul. 77-316, 1977-2 C.B. 53, or Rev. Rul. 78-338, 1978-2 C.B. 107.

9. Sections 162 and 262.—Commuting Expenses.—Whether expenses are nondeductible commuting expenses.

10. Section 167.—Depreciation.

(a) Useful lives of assets.

(b) Depreciation rates.

(c) Salvage value of assets.

11. Sections 167 and 168.—Depreciation; Accelerated Cost Recovery System.—Application of those sections where the formal ownership of property is in a party other than the taxpayer, except when title is held merely as security.

12. Section 170.—Charitable, Etc., Contributions and Gifts.—Whether a transfer to a pooled income fund described in section 642(c)(5) of the Code qualifies for a charitable deduction under section 170(f)(2)(A).

13. Section 170(c).—Charitable, Etc., Contributions and Gifts.—Whether a taxpayer who transfers property to a charitable organization and thereafter leases back all or a portion of the transferred property, may deduct the fair market value of the property transferred and leased back as a charitable contribution.

14. Section 216.—Deduction of Taxes, Interest, and Business Depreciation by Cooperative Housing Corporation Tenant Stockholder.—If a cooperative housing corporation (CHC), as defined in section 216(b)(1) of the Code, transfers an interest in real property to a corporation (not a CHC) in exchange for stock or securities of the transferee corporation, which engages in commercial activity with respect to the real property interest transferred, whether (1) the income of the transferee corporation derived from the commercial activity, and (2) any cash or property (attributable to the real property interest transferred) distributed by the transferee corporation to the CHC will be considered as gross income of the CHC for the purpose of determining whether 80 percent or more of the gross income of the CHC is derived from tenant-stockholders within the meaning of section 216(b)(1)(D).

15. Section 302.—Distribution in Redemption of Stock.—The tax effect of the redemption of stock for notes, when the payments on the notes are to be made over a period in excess of 15 years from the date of issuance of such notes.

16. Sections 302(b)(4) and (e) (pre-TEFRA section 346(a)(2)).—Partial Liquidation.—Whether a distribution will qualify as a distribution in partial liquidation under section 302(b)(4) and (e)(1)(A) (pre-TEFRA section 346(a)(2)) of the Code, unless it results in a 20 percent or greater reduction in (1) gross revenue, (2) net fair market value of assets, and (3) employees.

17. Sections 302(b)(4) and (e) (pre-TEFRA sections 346(a)(2) and (b)), 331, 332, pre-TRA 1986 section 333 and section 346(a) (pre-TEFRA section 346(a)(1)).—Effects on Recipients of Distributions in Corporate Liquidations.—The tax effect of the liquidation of a corporation preceded or followed by the reincorporation of all or a part of the business and assets when more than a nominal amount of the stock (that is, more than 20 percent in value) of both the liquidating corporation and the transferee corporation is owned by the same shareholders; or when a liquidation is followed by the sales of the corporate assets by the shareholders to another cor-

poration in which such shareholders own more than a nominal amount of the stock (that is, more than 20 percent in value).

18. Section 306.—Disposition of Certain Stock.—Whether the distribution or disposition or redemption of "section 306 stock" in a closely held corporation is in pursuance of a plan having as one of its principal purposes the avoidance of federal income taxes within the meaning of section 306(b)(4) of the Code.

19. Sections 331 and 346(a).—Gain or Loss to Shareholders in Corporate Liquidations.—The tax effect of the liquidation of a corporation by a series of distributions, when the distributions in liquidation are to be made over a period in excess of 3 years from the adoption of the plan of liquidation.

20. Section 336 (pre-TRA 1986 section 337).—Gain or Loss: Certain Liquidations.—The application of this section to a corporation upon the sale of property, in connection with its liquidation, to another corporation, when more than a nominal amount of the stock (that is, more than 20 percent in value) of both the selling corporation and the purchasing corporation is owned by the same persons.

21. Section 341.—Collapsible Corporations.—Whether a corporation will be considered to be a "collapsible corporation," that is, whether it was "formed or availed of" with the view of certain tax consequences. However, ruling requests will be considered on this matter when the enterprise (1) has been in existence for at least 20 years or has clearly demonstrated that it has realized two-thirds of the taxable income to be derived from the manufacturing, constructing, producing, or purchasing of property as stated in section 341(b)(1)(A) of the Code and as described in Rev. Rul. 72-48, 1972-1 C.B. 102; (2) has had an aggregate change in the shareholders' interests of not more than 10 percent during that period (except for transfers among family members, as defined in section 267(c)(4), or redemptions of stock to pay death taxes pursuant to section 303); and (3) has conducted substantially the same trade or business during that period. The period referred to in (2) and (3) above is the lesser of 20 years of corporate existence or the period in which the enterprise has realized two-thirds of the taxable income from activities specified in section 341(b)(1)(A).

22. Section 351.—Transfers to a Controlled Corporation.—The tax effect of the transfer when part of the consideration received by the transferors consists of an instrument that is a bond, debenture, or any other evidence of indebtedness of the transferee and either (1) the terms of the instrument permit, at the option of the issuer or holder, the payment of all or part of the principal on the instrument in less than 10 years from its issuance, or (2) a determination as to whether the "indebtedness" is properly classified as debt or equity is required in order to establish that the requirements of section 351 of the Code are met.

23. Section 351.—Transfer to Corporation Controlled by Transferor.—Whether section 351 of the Code applies to the transfer of an interest in real property by a cooperative housing corporation (as described in section 216(b)(1)) to a corporation in exchange for stock or securities of the transferee corporation if the transferee engages in commercial activity with respect to the real property interest transferred.

24. Section 355.—Distribution of Stock and Securities of a Controlled Corporation.—Whether the active business requirement of section 355(b) of the Code is met when, within the 5-year period described in section 355(b)(2)(B), a distributing corporation acquired control of a controlled corporation as a result of the distributing corporation transferring cash or other liquid or inactive assets to the controlled corporation in a transaction in which gain or loss was not recognized as a result of the transfer meeting the requirements of section 351(a) or 368(a)(1)(D).

25. Section 642.—Pooled Income Funds.—Whether a pooled income fund satisfies the requirements described in section 642(c)(5) of the Code.

26. Section 816.—Definition of Life Insurance Company.—Whether the requisite risk shifting and risk distribution necessary to constitute insurance are present for purposes of determining if a company is an "insurance company" under section 1.801-3(a) of the regulations, unless the facts of the transaction are within the scope of Rev. Rul. 77-316, 1977-2 C.B. 53, or Rev. Rul. 78-338, 1978-2 C.B. 107.

27. Section 1502.—Regulations.—Whether a parent cooperative housing corporation (as defined in section 216(b)(1) of the Code) will be permitted to file a consolidated income tax return with its transferee subsidiary if the transferee engages in commercial activity with respect to the real property interest transferred to it by the parent.

28. Section 2055.—Transfers for Public, Charitable and Religious Uses.—Whether a transfer to a pooled income fund described in section 642(c)(5) of the Code qualifies for a charitable deduction under section 2055(e)(2)(A).

29. Section 2522.—Charitable and Similar Gifts.—Whether a transfer to a pooled income fund described in section 642(c)(5) of the Code qualifies for a charitable deduction under section 2522(c)(2)(A).

30. Section 7701.—Definitions.—Whether what is generally known as a foreign corporation will be classified as a partnership for U.S. tax purposes if the taxpayer requests classification as a partnership.

31. Section 7701.—Definitions.—Whether a foreign partnership will be classified as an association for U.S. tax purposes if the taxpayer requests classification as an association.

.02 General areas.

1. Any matter in which the determination requested in primarily one of fact, e.g., market value of property, or whether an interest is a corporation is to be treated as stock or indebtedness.

2. The tax effect of any transaction to be consummated at some indefinite future time.

3. Any matter dealing with the question of whether property is held primarily for sale to customers in the ordinary course of trade or business.

4. The tax effect of a transaction if any part of the transaction is involved in litigation among the parties affected by the transaction; except for transactions involving bankruptcy reorganizations.

SEC. 5. AREAS UNDER EXTENSIVE STUDY IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED UNTIL THE SERVICE RESOLVES THE ISSUE THROUGH PUBLICATION OF A REVENUE RULING, REVENUE PROCEDURE, REGULATIONS OR OTHERWISE.

.01 Section 61.—Gross Income Defined.—Whether amounts voluntarily deferred by a taxpayer under a deferred compensation plan maintained by an organization described in section 501 of the Code are currently includable in the taxpayer's gross income.

.02 Sections 61 and 162.—Gross Income Defined; Trade or Business Expenses.—The tax consequences with respect to a salary reduction arrangement under which an employee receives and returns salary amounts to the employer. (Also sections 3121, 3306 and 3401).

.03 Section 79.—Group-Term Life Insurance Purchased for Employees.—Whether life insurance provided for employers under a "retired lives reserve" plan will be considered group-term insurance (also sections 61, 72, 83, 101, 162, 264, and 641).

.04 Section 101.—Certain Death Benefits.—Whether proceeds of "self-insured" life and survivor benefit plans established through a trust qualified under section 501(c)(9) of the Code are excludable from the beneficiary's gross income as amounts paid by reason of the death of the insured under section 101(a).

.05 Section 105.—Amounts Received Under Accident and Health Plans.—Whether a medical reimbursement plan, funded by employer contributions, containing a provision allowing unused amounts to be carried over and accumulated in an employee's account qualifies as an accident and health plan under section 105 of the Code.

.06 Section 162.—Trade or Business Expenses.—Whether payments paid or accrued by a corporation to an exempt organization as described in sections 501(c)(7), (c)(9), (c)(17), or (c)(20) of the Code, are deductible under section 162.

.07 Sections 302(b)(4) and (e) (also pre-TEFRA section 346(a)(2) and (b)).—Partial Liquidation.—Whether the absence of an actual redemption of stock is a meaningless gesture within the meaning of Rev. Rul. 79-257, 1979-2 C.B. 136, as amplified by Rev. Rul. 81-3, 1981-1 C.B. 125, when:

(i) The corporation has outstanding more than one class of stock and there are priorities as to dividend or liquidating distributions or any other differences in stock rights, or

(ii) Either under the terms of the stock or as established contractually, there are outstanding any rights affecting the corporation's stock, such as, but not limited to, warrants, options, convertible securities, shareholder agreements, or rights of first refusal.

.08 Section 306(b)(4).—Transactions Not in Avoidance.—Whether section 306(b)(4) of the Code applies to the distribution and disposition or redemption of "section 306 stock" that is subject to mandatory redemption.

.09 Section 331, pre-TRA 1986 section 337, and sections 453 and 1239.—The Tax Effects of Installment Sales of Property Between Entities with Common Ownership.—The tax effects of a transaction in which there is a transfer of property by a corporation to a partnership or other noncorporation entity (or the transfer of stock to such entity followed by a liquidation of the corporation) when more than a nominal amount of the stock of such corporation and the capital or beneficial interests in the purchasing entity (that is, more than 20 percent in value) is owned by the same persons, and the consideration to be received by the selling corporation or the selling shareholders includes an installment obligation of the purchasing entity.

.10 Section 334(b)(2) (pre-TEFRA).—Liquidation of Subsidiary.—Whether an acquiring corporation may treat the life insurance reserves received in the liquidation as unsecured liabilities assumed.

.11 Section 336 (pre-TEFRA).—Distribution of Property in Liquidation.—Whether the liquidation of a life insurance subsidiary is a termination pursuant to section 815(d)(2) as in effect before the enactment of the Tax Reform Act of 1984.

.12 Section 338 (pre-TEFRA section 334(b)(2)).—Certain Stock Purchases Treated as Asset Acquisitions.—The tax consequences, under subchapter L, from the stock purchase and the deemed purchase of the assets of a life insurance subsidiary.

.13 Section 351.—Transfer to Corporation Controlled by Transferor.—Whether section 351 of the Code applies to the transfer of widely held developed or undeveloped real property or interests therein; widely held oil and gas properties or interests therein; or any similarly held properties or interests to a corporation in exchange for shares of stock of such corporation when (i) the transfer is the result of solicitation by promoters, brokers, or investment houses, or (ii) the transferee corporation's stock is issued in a form designed to render it readily tradable.

.14 Section 368.—Definitions Relating to Corporate Reorganizations.—Whether a transaction qualifies under either section 368(a)(1)(B) or section 351(a) of the Code by reason of Rev. Rul. 67-448, 1967-2 C.B. 144, when the same transaction is structured under sections 368(a)(1)(A) and 368(a)(2)(E) (as a reverse triangular merger) and fails to qualify for an advance ruling under those sections merely because the "substantially all" requirement set forth in section 3.01 of Rev. Proc. 77-37, 1977-2 C.B. 568, as amplified by Rev. Proc. 86-42, 1986-2 C.B. 722, is not met.

.15 Section 422A.—Incentive Stock Options.—Whether Holding (1) of Rev. Rul. 80-244, 1982 C.B. 234, relating to section 1036, applies to incentive stock options.

.16 Section 671.—Trust Income, Deductions, and Credits Attributable to Grantors and Others as Substantial Owners.—Whether the grantor will be considered the owner of any portion of a trust when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies of insurance on the life of the grantor or the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, and (4) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.17 Section 721.—Nonrecognition of Gain or Loss on Contribution.—Whether section 721 applies to the contribution of widely held developed or undeveloped real property or interests therein; widely held oil and gas properties or interests therein; or any similarly held properties or interests to a partnership in exchange for an interest in the partnership when (i) the contribution is the result of solicitation by promoters, brokers, or investment houses, or (ii) the interest in the transferee partnership is issued in a form designed to render it readily tradable.

.18 Section 801(b).—Life Insurance Company Taxable Income Defined.—Whether the liquidation of a life insurance subsidiary pursuant to either section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination under section 815(d)(2) (as in effect before the enactment of the Tax Reform Act of 1984) causing a distribution from the subsidiary's policyholders surplus account.

.19 Section 805(a)(8).—Other Deductions.—Whether a portion of the purchase price of the stock of the life insurance subsidiary is properly allocable to insurance in force.

.20 Section 811(b)(34).—Amortization of Premium and Accrual of Discount-Exception.—Whether the difference between the face value of bonds held by a life insurance subsidiary liquidating under section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) and the amount allocable to such bonds pursuant to the liquidation is market discount and need not be accrued.

.21 Section 815(d)(2) as in effect before the enactment of the Tax Reform Act of 1984.—Termination as Life Insurance Company.—Whether the liquidation of a life insurance subsidiary pursuant to section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination requiring the application of section 801(c) or section 802(b)(3) as in effect before the enactment of the Tax Reform Act of 1984.

.22 Section 816(b).—Life Insurance Reserves Defined.—Whether the life insurance reserves acquired in the liquidation of a life insurance subsidiary qualify as unsecured liabilities assumed by the acquiring corporation for purposes of section 334(b)(2) (pre-TEFRA) and section 338 (added by TEFRA).

.23 Section 818(b).—Treatment of Capital Gains and Losses, etc.—Whether the purchase of the stock of a life insurance subsidiary and its subsequent liquidation under section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is, in fact, a purchase of the subsidiary's insurance contracts.

.24 Section 2503.—Taxable Gifts.—Whether the transfer of property to a trust will be a gift of a present interest in property when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies of insurance on the life of the grantor or the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, (4) the trust beneficiaries have the power to withdraw, on demand, any additional transfers made to the trust, and (5) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.25 Section 2514.—Powers of Appointment.—If the beneficiaries of a trust permit a power of withdrawal to lapse, whether section 2514(e) of the Code will be applicable to each beneficiary in regard to the power when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies of insurance on the life of the grantor or the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, (4) the trust beneficiaries have the power to withdraw, on demand, any additional transfers made to the trust, and (5) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.26 Sections 3121, 3306, and 3401.—Employment Taxes.—Who is the employer of an "employee-owner" as defined in section 269A of the Code.

.27 Section 7701.—Definitions.—The classification of arrangements formed as trusts under local law, in which the trust borrows money to purchase equipment or property and leases it to third parties, and in which the grantor or grantors have a beneficial interest in the trust and the power to manage the activities of the trust.

.28 Section 7701.—Definitions.—The classification of separately tradable instruments that are issued by a corporation as a unit, the components of which collectively contain the attributes of stock.

.29 Section 7701.—Definitions.—The classification of an instrument that has certain voting and liquidation rights in an issuing corporation but whose dividend rights are determined by reference to the earnings of a segregated portion of the issuing corporation's assets, including assets held by a subsidiary.

SEC. 6. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Procs. 88-3, 88-25, 88-26, 88-34, 88-35, 88-38, 88-44, 88-45, 88-46, 88-47, 88-51, 88-54, and 88-57 are superseded. Rev. Proc. 88-50 is not superseded.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-4

SECTION 1. PURPOSE

This revenue procedure makes certain changes in the user fee program of the Internal Revenue Service that was established pursuant to section 10511 of the Revenue Act of 1987 (Title X of the Omnibus Budget Reconciliation Act of 1987), Public Law 100-203, enacted December 22, 1987. The program, which requires the payment of user fees to the Service for requests for rulings, opinion letters, and determination letters, and for similar requests, was first described in Rev. Proc. 88-8, 1988-1 C.B. 628.

SEC. 2. CHANGES

.01. Revenue Procedure 88-8 invited the public to submit written comments regarding the user fee program and provided that, if the comments reflected a need, a public meeting would be held to discuss the comments. Written comments were received, and a public meeting was held on May 19, 1988. The Service has given consideration to all comments, written and oral, that were received. Some of these comments, the Service's disposition of these comments, and other changes made to Revenue Procedure 88-8 are discussed below.

.02 *Limitation of Amount of Fees Applicable to Certain Mass Submitter Plan Adoptions.* Comments were received objecting to the fee of $100 per adoption agreement charged for a sponsor's word-for-word identical adoption of a mass submitter's plan. The fee schedule in section 4.03 of Rev. Proc. 88-8 has been modified to reduce the $100 fee to $50. There is also a $15,000 cap on the aggregate amount of such fees payable by the mass submitter on behalf of such sponsoring organizations within each 12-month period ending January 31.

.03 *Volume Submitter Plans.* The Service received comments that the fee for adoption of a volume submitter plan (a plan that conforms to a volume submitter specimen or lead plan according to procedures established by IRS district offices), which was subject to the fees under Rev. Proc. 88-8 applicable to individually designed plans, should be reduced. Under the revised fee schedule, volume submitter plans are no longer subject to the fees for individually designed plans. Instead, the term "volume submitter plan" has been defined solely for the purpose of determining the user fee that must be submitted with an application for a determination letter as to the qualification of such a plan. The fee applicable to volume submitter specimen or lead plans is $1,000; the fee applicable to adoptions of volume submitter plans is $100.

.04 *Computation of Exclusion Allowance under Section 72(b).* The Service received comments objecting to the $50 user fee for the calculation of the exclusion ratio for annuity payments under section 72(b) of the Code. The Service considered these comments, but decided to leave the $50 fee unchanged. However, the Service recently issued Notice 88-118, 1988-2 C.B. 450, which provides a simplified safe-harbor method for determining the tax-free and taxable portions of certain annuity payments that may be used by annuitants such as federal retirees for income tax purposes and by payors for reporting purposes. It is expected that most annuitants will be able to calculate the simplified safe-harbor method on their own, and will not need to ask the Service for this calculation.

.05 *Fee Increases for Employee Plans Determination and Notification Letter Program.* Consistent with section 10511 of OBRA '87 relating to the average fee to be received by each program of the Service, the fees have been increased for certain categories of requests under the Employee Plans Determination and Notification Letter Program. Specifically, the $400 and $600 fees have been increased to $450 and $750, respectively; the $500 fee for requests from collectively bargained plans has been increased to $550; and the $200 and $350 fees for terminating plans have been increased to $225 and $450, respectively.

.06 *New Exempt Organization Ruling Fee Category.* A new exempt organization ruling fee category has been added for advance approval of scholarship grant-making procedures of a private foundation that has an agreement for the administration of the scholarship program with the National Merit Scholarship Corp., or similar organization administering a scholarship program shown to meet Service requirements. The fee for these requests will be $100.

.07 *Reduced Fee for Small Exempt Organizations.* Rev. Proc. 88-8 provided a reduced fee of $150 for an initial application for exemption under section 501 of the Code for organizations that had average annual gross receipts over the preceding four years of not more than $5,000, and for new organizations that did not anticipate having gross receipts during each of their first four years of more than $5,000. Comments were received that the $5,000 threshold was too low, so that the reduced fee was not available to many organizations that had been intended to benefit from the reduced fee. Thus, the threshold has been raised from $5,000 to $10,000 in order to broaden the availability of the reduced fee.

.08 *Exemption for Requests Submitted on Form SS-8.* An exemption from the user fee has been provided with respect to requests submitted on Form SS-8, Information for Use in Determining Whether a Worker is an Employee for Federal Employment Taxes and Income Tax Withholding.

.09 *Discontinuance of Interim Practice with Respect to Certain Submissions.* Effective February 1, 1989, with respect to applications for determination letters as to the qualification of employee plans in categories for which the fee has not been increased, the Service will return to the submitter any request that is not accompanied by a properly completed check or money order for the correct amount. With respect to applications involving categories for which the user fee has been increased, until March 31, 1989, applications that are not accompanied by the correct amount will not be returned for this reason, but will be processed as described in Section 6.08(2) of this revenue procedure. With respect to all other requests, the Service will exercise discretion in deciding whether to immediately return submissions that are deficient with regard to the user fee.

SEC. 3. BACKGROUND

.01 Section 10511 of the Revenue Act of 1987 ("Act") provides that the Secretary of the Treasury or his delegate ("Secretary") shall establish a program requiring the payment of user fees for requests to the Service for rulings, opinion letters, determination letters, and similar requests. Section 10511 provides that such fees shall apply with respect to requests made on or after the 1st day of the second calendar month beginning after the date of enactment and before September 30, 1990. The fees charged under the program are to vary according to categories (or subcategories) established by the Secretary; they are to be determined after taking into account the average time for, and difficulty of, complying with requests in each category and subcategory; and they are to be payable in advance. The Secretary is to provide for such exemptions and reduced fees under the program as he determines to be appropriate, but the average fee applicable to each category must not be less than the amount specified in the statute.

.02 Rev. Proc. 88-8, which established the user fee program mandated by Section 10511 of the Act, was modified by Rev. Proc. 88-13, 1988-1 C.B. 639, and Rev. Proc. 88-27, 1988-1 C.B. 804.

.03 Rev. Proc. 88-8 invited the public to submit written comments on the user fee program and stated that, if the comments reflected a need, a public meeting would be held to discuss suggested changes. A public meeting for that purpose was held on May 19, 1988, pursuant to Announcement 88-69, 1988-15 I.R.B. 50.

SEC. 4. RELATED REVENUE PROCEDURES

.01 Rev. Proc. 89-1, page 740, this Bulletin, provides, other than for international issues, procedures for issuing rulings and information letters and for entering into closing agreements on specific issues involving the interpretation or application of the federal tax laws under the jurisdiction of the Associate Chief Counsel (Technical). It also provides, other than for international issues, procedures for issuing determination letters on matters that relate to sections of the Code under the jurisdiction of the Associate Chief Counsel (Technical).

.02 Concerning international issues, Rev. Proc. 87-4, 1987-1 C.B. 529, as modified by Rev. Proc. 88-4, 1988-1 C.B. 586, provides procedures for obtaining rulings, closing agreements, and information letters on federal tax issues under the jurisdiction of the Associate Chief Counsel (International) and provides information concerning determination letters under the jurisdiction of the Assistant Commissioner (International) and the District Directors.

.03 Rev. Proc. 78-37, 1978-2 C.B. 540, sets forth the procedure by which a plan administrator or plan sponsor may obtain approval of the Secretary of the Treasury for a change in funding method as provided by section 412(c)(5) of the Code and section 302(c)(5) of the Employee Retirement Income Security Act of 1974 (ERISA).

.04 Rev. Proc. 79-18, 1979-1 C.B. 525, outlines the procedure by which a plan administrator or plan sponsor may file notice with and obtain approval from the Secretary of the Treasury for a retroactive plan amendment described in section 412(c)(8) of the Code and section 302(c)(8) of ERISA.

.05 Rev. Proc. 79-61, 1979-2 C.B. 575, outlines the procedure by which a plan administrator or plan sponsor may request and obtain approval for an extension of an amortization period in accordance with section 412(e) of the Code and section 304(a) of ERISA.

.06 Rev. Proc. 79-62, 1979-2 C.B. 576, outlines the procedure by which a plan sponsor or administrator may request a determination that a plan amendment is reasonable and provides for only de minimis increases in plan liabilities in accordance with section 412(f)(2)(A) of the Code and section 304(b)(2)(A) of ERISA.

.07 Rev. Proc. 80-30, 1988-1 C.B. 685, sets forth the general procedures of the various offices of the Service pertaining to the issuance of determination letters on the qualification of pension, annuity, profit-sharing and stock bonus plans involving sections 401, 403(a), 409 and 4975(e)(7) of the Code, and the status for exemption of any related trusts or custodial accounts under section 501(a).

.08 Rev. Proc. 83-36, 1983-1 C.B. 763, as modified by Rev. Proc. 87-40, 1987-2 C.B. 514, sets forth the general procedures of the Service in issuing rulings, determination letters, opinion letters, notification letters, and information letters to taxpayers and in entering into closing agreements on specific issues as to the interpretation or application of the federal tax laws in the employee plan and exempt organization areas.

.09 Rev. Proc. 83-41, 1983-1 C.B. 775, as modified by Rev. Proc. 88-5, 1988-1 C.B. 587, and Rev. Proc. 88-29, 1988-1 C.B. 828, outlines the procedures of the Service with respect to applications for waivers of the minimum funding standard under either section 412(d) of the Code or section 303 of ERISA.

.10 Rev. Proc. 84-23, 1984-1 C.B. 457, sets forth the procedures of the Service pertaining to the issuance of opinion letters relating to master or prototype pension, annuity, and profit-sharing plans involving sections 401 and 403(a) of the Code, as amended by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), and the status for exemption of related trusts or custodial accounts under section 501(a).

.11 Rev. Proc. 84-46, 1984-1 C.B. 541, provides procedures for applications for recognition of exemption from federal income tax under sections 501 and 521 of the Code.

.12 Rev. Proc. 84-86, 1984-2 C.B. 787, sets forth the procedures of the Service for issuing notification letters and determination letters relating to the qualification of certain defined contribution and defined benefit plans and any related trusts or custodial accounts under sections 401, 403(a), and 501(a) of the Code, as amended by TEFRA, the Tax Reform Act of 1984 (TRA '84), and the Retirement Equity Act of 1984 (REA). Rev. Proc. 84-86 establishes a means whereby certain "sponsors" may submit "uniform plans" to key district directors for approval as to form.

.13 Rev. Proc. 87-50, 1987-2 C.B. 647, updates and consolidates in one revenue procedure the procedures of the Service relating to the issuance of rulings and opinion letters with respect to the establishment of individual retirement accounts and annuities (IRAs) under section 408 of the Code, the entitlement to exemption of related trusts or custodial accounts under section 408(e), and the acceptability of the form of prototype simplified employee pension (SEP) agreements under sections 408(k) and 415.

SEC. 5. SCOPE

Except as provided in section 6.10 below, all requests for rulings, determination letters or opinion letters submitted on or after February 1, 1989, and before September 30, 1990, by or on behalf of taxpayers, sponsoring organizations or other entities must be accompanied by the appropriate user fee as determined from the schedule set forth in section 6.03 below. Except as provided in section 6.10, user fees apply to all requests for reconsideration of rulings, determination letters or opinion letters, but may be refunded in certain situations (see section 6.09(2) below). User fees do not apply to requests for information letters.

SEC. 6. PROCEDURE

.01 *Definitions*. The terms "ruling," "determination letter," "opinion letter," "notification letter," "information letter," "master plan," "prototype plan," "sponsoring organization," "mass submitter," "basic plan document," "adoption agreement," and "uniform plan" as used in this revenue procedure have the same meaning as they have in the pertinent revenue procedure referred to in section 4 above. The term "volume submitter plan" has the meaning given in subsection .02 below.

.02 *Volume Submitter Plan*. The following definition is effective February 1, 1989, and applies solely for the purpose of determining the amount of the user fee that is required to be submitted with an application for a determination letter as to the qualification of a volume submitter plan: A "volume submitter plan" is a pension, profit-sharing or stock bonus plan the form of which meets certain criteria established by an individual key district and which is submitted pursuant to procedures established by the key district for filing determination letter applications under the district's volume submitter program. At a minimum:

(1) The determination letter application submitted by a practitioner on behalf of an employer must relate to a plan that is substantially identical in form to a specimen or "lead" plan of the same practitioner, the form of which was previously approved by the key district to which the application is submitted, and

(2) The practitioner must have certified at the time of submission of the specimen or lead plan that he or she would submit no fewer than 30 determination letter applications described in paragraph (1) immediately above for each type of plan (for example, unit benefit plan, fixed benefit plan, profit-sharing plan, stock bonus plan) following the district's approval of the specimen or lead plan.

.03 *Fee Schedule*. The amount of the user fee payable with respect to each category or subcategory of submission is as set forth in the following schedule:

(1) *Associate Chief Counsel (Technical) and Associate Chief Counsel (International) Rulings*

Applications with respect to accounting periods (Forms 1128 and 2553)	$150
Change in accounting method (Form 3115)	$200
All other rulings (which includes accounting period, accounting method, and earnings and profits requests other than those submitted on Forms 1128, 2553, 3115 and 5452)	$300

(2) *Employee Plans Rulings and Opinion Letters*

(a) *Rulings*

Computation of exclusion for annuitant under section 72	$50
Change in plan year (Form 5308)	$150
Change in funding method	$200
Requests for approval to become a nonbank trustee (see section 1.401-12(n) of the Income Tax Regulations)	$1,000
Waiver of minimum funding:	
$1,000,000 and over	$1,000
Under $1,000,000	$750
All other rulings	$400

(b) *Opinion Letters on Master and Prototype Plans*

(The terms "mass submitter," "word-for-word identical adoption," and "minor modification" as used in this subcategory are explained in section 17 of Rev. Proc. 84-23.)

Mass submission, per basic plan document (new or amended, regardless of number of adoption agreements) $1,000

Sponsoring organization's word-for-word identical adoption of mass submitter's basic plan document, per adoption agreement (mass submitters which are sponsoring organizations in their own right are liable for this fee).................$50

NOTE: Beginning February 1, 1989, if a mass submitter submits, in any 12-month period ending January 31, more than 300 applications on behalf of word-for-word adopters with respect to a particular adoption agreement, only the first 300 such applications will be subject to the fee; no fee will apply to those in excess of the first 300 such applications submitted within the 12-month period.

Sponsoring organization's minor modification of mass submitter's plan document, per affected document $400

Non-mass submission by sponsoring organization, per adoption agreement................$1,000

Sponsoring organization's adoption of model section 401(k) amendment, per adoption agreement $100

(c) *Opinion Letters on Prototype Individual Retirement Accounts/Annuities and Simplified Employee Plans*

(The terms "mass submitter," "word-for-word identical adoption," and "minor modification" as used in this subcategory are explained in section 7 of Rev. Proc. 87-50.)

Mass submission, per plan document, new or amended........$1,000

Sponsoring organization's word-for-word identical adoption of mass submitter's prototype IRA or SEP, per plan document.......................$50

NOTE: Beginning February 1, 1989, if a mass submitter submits, in any 12-month period ending January 31, more than 300 applications on behalf of word-for-word adopters with respect to a particular adoption agreement, only the first 300 such applications will be subject to the fee; no fee will apply to those in excess of the first 300 such applications submitted within the 12-month period.

Sponsoring organization's minor modification of mass submitter's prototype IRA or SEP, per plan document $400

Non-mass submission by sponsoring organization, per plan document....................$1,000

(3) *Exempt Organization Rulings*

Change in accounting period (Form 1128)...................$150

Change in accounting method (Form 3115)...................$200

Advance approval of scholarship grant-making procedures of a private foundation that has an agreement for the administration of the scholarship program with the National Merit Scholarship Corp., or similar organization administering a scholarship program shown to meet Service requirements...................$100

All other rulings................$400

(4) *Employee Plans Determination Letters and Notification Letters*

Defined benefit and defined contribution plans (Forms 5300 and 5301):

Under 100 participants.........$450

100 or more participants $750

(For user fee purposes, the total number of participants referred to in this subcategory is the same as the number referred to on transmittal Form 8717, User Fee for Employee Plan Determination Letter Request.)

Collectively bargained plans (Form 5303)...................$550

Adopters of master and prototype plans, volume submitter plans, uniform plans, or other pre-approved plans as designated by the Assistant Commissioner (Employee Plans and Exempt Organizations) (Form 5307)........................$100

Terminating plans (Form 5310):

(The fee applies only if Form 5310 is being used to request a determination letter; it does not apply if the form is being used merely to notify the Service of a merger, consolidation or transfer of plan assets or liabilities.)

Under 100 participants.........$225

100 or more participants $450

(For user fee purposes, the total number of participants referred to in this subcategory is the same as the number referred to on transmittal Form 8717, User Fee for Employee Plan Determination Letter Request.)

Short amendments (Form 6406) ...$100

Volume submitter specimen or lead plans (Form 5300, 5301 or 5303)......................$1,000

Uniform plans (Form 4461).......$500

Group trusts contemplated by Rev. Rul. 81-100, 1981-1 C.B. 326 ....$400

(5) *Exempt Organization Determination Letters*

Initial application for exemption under section 501 from organizations (other than pension, profit-sharing, and stock bonus plans described in section 401) that have had annual gross receipts averaging not more than $10,000 during the preceding four years, or new organizations which anticipate gross receipts averaging not more than $10,000 during their first four years $150

(Organizations seeking this reduced fee must sign a certification with their application that the receipts are or will be not more than the indicated amounts.)

Initial application for exempt status from organizations otherwise described above whose actual or anticipated gross receipts exceed the $10,000 average annually................$300

Request for termination of private foundation status............$200

(6) *Other Determination Letters*

Determination letters governed by Rev. Proc. 89-1 and Rev. Proc. 87-4 concerning income tax, estate tax, gift tax, excise tax, employment tax, and administrative matters............$200

.04 *Submissions Involving Several Offices, Subcategories, Issues, or Unrelated Transactions.* If a request dealing with only one transaction involves more than one of the offices within the National Office of the Service (for example, one issue is under the jurisdiction of the Associate Chief Counsel (Technical) and another issue is under the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations)), or if a ruling request is within more than one subcategory, only one fee applies, namely the highest fee that otherwise would apply to each of the offices or subcategories involved. A separate fee will apply with respect to each unrelated transaction where a request involves several unrelated transactions or the request is changed by the addition of an unrelated transaction not contained in the initial submission. However, the addition of a new issue relating to the same transaction will not result in an additional fee, except when the issue places the transaction in a higher fee category.

.05 *Method of Payment.* Each request to the Service for a ruling, determination letter or opinion letter must be accompanied by a check or money order, payable to the Internal Revenue Service, in the appropriate amount. (However, the user fee check or money order should not be attached to the Form 2553, Election by a Small Business Corporation, when it is filed at the Service Center. If on the Form 2553 the corporation requests a ruling that it be permitted to use a fiscal year under section 6.03 of Rev. Proc. 87-32, the Service Center will forward such request to the National Office. When the National Office receives the Form 2553 from the Service Center, it will notify the taxpayer that the fee is due.) Requesters should not send cash.

.06 *Mailing Address for Requesting Rulings, Determination Letters, etc.*

(1) A request for a ruling letter submitted pursuant to Rev. Proc. 89-1 should be sent to the Internal Revenue Service, Associate Chief Counsel (Technical). Attention: CC:CORP:T, P.O. Box 7604, Ben Franklin Station, Washington, D.C. 20044. Requests may be hand-delivered to Room 6561, 1111 Constitution Avenue, N.W., Washington, D.C., by 4:00 p.m. on business days; after 4:00 p.m., such requests may be deposited in the lock box located just within the entrance on the 12th Street side of the building.

(2) A request for a ruling letter submitted pursuant to Rev. Proc. 87-4 should be sent to the Internal Revenue Service, Associate Chief Counsel (International), Attention: CC:CORP:T, P.O. Box 7604, Ben Franklin Station, Washington, D.C. 20044. Requests may be hand-delivered to Room 6561, 1111 Constitution Avenue, N.W., Washington, D.C., or deposited in the lock box as described above.

(3) A request for a determination letter submitted pursuant to Rev. Proc. 89-1 or Rev. Proc. 87-4 should be sent to the District Director of Internal Revenue whose office has or will have examination jurisdiction over the taxpayer's return.

(4) Requests for rulings or opinion letters submitted pursuant to Rev. Proc. 78-37, 79-18, 79-61, 79-62, 83-36, 83-41, 84-23 or 87-50 should be sent to the address set forth below. Such requests may be hand-delivered to Room 6052, 1111 Constitution Avenue, N.W., Washington, D.C., by 4:00 p.m. on business days; after 4:00 p.m., such requests may be deposited in the lock box located just within the entrance on the 12th Street side of the building.

(a) *Employee Plans Rulings*
Internal Revenue Service
Assistant Commissioner (Employee Plans and Exempt Organizations)
Attention: E:EP:R
P.O. Box 14073, Ben Franklin Station
Washington, D.C. 20044

(b) *Exempt Organizations Rulings*
Internal Revenue Service
Assistant Commissioner (Employee Plans and Exempt Organizations)
Attention: E:EO
P.O. Box 120, Ben Franklin Station
Washington, D.C. 20044

(c) *Employee Plans Opinion Letters*
Internal Revenue Service
Assistant Commissioner (Employee Plans and Exempt Organizations)
Attention: E:EP:Q
P.O. Box 14073, Ben Franklin Station
Washington, D.C. 20044

(5) Requests for determination letters submitted pursuant to Rev. Procs. 80-30, 83-36, 84-46, or 84-86, and requests for notification letters submitted pursuant to Rev. Proc. 84-86, should be sent to the following address:

If entity is in this IRS District:	*Send request for determination letter or notification letter to this address:*

.07 *Transmittal Forms.* Form 8717, User Fee for Employee Plan Determination Letter Request, and Form 8718, User Fee for Exempt Organization Determination Letter Request, are intended to be used as attachments to determination letter applications. Space is reserved for the attachment of the applicable user fee check or money order. No similar form has been designed to be used in connection with requests for rulings, opinion letters or notification letters.

.08 *Effect of Nonpayment or Payment of Incorrect Amount.* It will be the general practice of the Service that:

(1) Beginning February 1, 1989, if a request for a determination letter as to the qualification of an employee plan in a category for which the fee has not been increased is not accompanied by a properly completed check or money order (for example, a check has not been signed), or if the request is accompanied by a check or money order for less than the correct amount, the entire submission will be returned to the submitter, along with the check or money order. With respect to submissions received prior to February 1, 1989, key district offices will exercise discretion in deciding, on a case-by-case basis, whether to immediately return such submissions or to return them only after the submitter has been contacted and given a reasonable amount of time to submit the proper fee, if the fee has not been received within that time.

(2) Until March 31, 1989, submissions involving categories for which the user fee has been increased that are not accompanied by the correct fee will not be returned for this reason. Instead, the submitter will be contacted and given a reasonable time to submit the proper fee. If the fee is not received in a reasonable time, the entire submission will be returned. However, the Service, in its discretion, may defer substantive consideration of the submission until proper payment has been received.

(3) The return of a submission to the submitter may adversely affect substantive rights if the submission is not perfected and resubmitted to the Service within 30 days of the date of the cover letter returning the submission. For example, where an application for a determination letter is submitted prior to the expiration of the remedial amendment period under section 401(b) of the Code and is returned because no user fee was attached, the submission will be timely if it is resubmitted by the expiration of the remedial amendment period or, if later, within 30 days after the application was returned.

(4) If a check or money order is for more than the correct amount, the submission will be accepted and the amount of the excess payment will be returned to the submitter.

(5) An application for a determination letter will not be returned merely because Form 8717 or Form 8718 was not attached.

(6) Except in the case of requests received on or after February 1, 1989, for determination letters as to the qualification of employee plans (see paragraph (1) above), or in the case of requests involving categories for which the fee has been increased (see paragraph (2) above), the respective offices within the Service that are responsible for issu-

ing rulings, determination letters, etc. will exercise discretion in deciding whether to immediately return submissions that are not accompanied by a properly completed check or money order or that are accompanied by a check or money order for less than the correct amount. In those instances where the submission is not immediately returned, the submitter will be contacted and given a reasonable amount of time to submit the proper fee. If the proper fee is not received within a reasonable amount of time, the entire submission will then be returned. However, the respective offices of the Service, in their discretion, may defer substantive consideration of a submission until proper payment has been received.

.09 *Refunds*. In general, the fee will not be refunded unless the Service declines to rule on all issues for which a ruling is requested.

(1) The following are examples of situations in which the fee will not be refunded:

(a) The request for a ruling, determination letter, etc. is withdrawn at any time subsequent to its receipt by the Service.

(b) The request is procedurally deficient, although accompanied by the proper fee or an overpayment and is not timely perfected by the submitter. Where there is a failure to timely perfect the request, the case will be considered closed and the failure to perfect will be treated as a withdrawal for purposes of this revenue procedure.

(c) A ruling, determination letter, etc. is revoked in whole or in part at the initiative of the Service. The fee paid at the time the original ruling, determination letter, etc. was requested will not be refunded.

(d) The request contains several issues and the Service rules on some, but not all, of the issues. The highest fee applicable to the issues on which the Service rules will not be refunded.

(e) The taxpayer asserts that a ruling the taxpayer received covering a single issue is erroneous or not responsive (other than with respect to any issue on which the Service has declined to rule) and requests reconsideration. The Service, upon reconsideration, does not agree that the ruling is erroneous or not responsive. The fee accompanying the request for reconsideration will not be refunded.

(f) The situation is the same as described in subparagraph (e) immediately above except that the ruling covered several unrelated transactions. The Service, upon reconsideration, does not agree with the taxpayer that the ruling is erroneous or not responsive with respect to all of the transactions, but does agree that it is erroneous with respect to one transaction. The fee accompanying the request for reconsideration will not be refunded except to the extent applicable to the transaction with respect to which the Service agrees the ruling was in error.

(g) The request is for a supplemental ruling, determination letter, etc. concerning a change in facts (whether significant or not) relating to the transaction ruled on.

(h) The request is for reconsideration of an adverse or partially adverse ruling or a final adverse determination letter, and the taxpayer submits arguments and authorities not submitted before the original ruling or determination letter was issued.

(2) The following are examples of situations in which the fee will be refunded:

(a) In a situation to which section 6.09(1)(h) above does not apply, the taxpayer asserts that a ruling the taxpayer received covering a single issue is erroneous or not responsive (other than with respect to any issue on which the Service declined to rule) and requests reconsideration. The Service agrees, upon reconsideration, that the ruling is erroneous or not responsive. The fee accompanying the taxpayer's request for reconsideration will be refunded.

(b) In a situation to which section 6.09(1)(h) above does not apply, the taxpayer requests a supplemental ruling, determination letter, etc. to correct a mistake that the Service agrees it made in the original ruling, determination letter, etc., such as a mistake in the statement of facts or in the citation of a Code section. Once the Service agrees that it made a mistake, the fee accompanying the request for the supplemental ruling will be refunded.

(c) The taxpayer requests and is granted relief under section 7805(b) of the Code in connection with the revocation in whole or in part, of a previously issued ruling, determination letter, etc. The fee accompanying the request for relief will be refunded.

.10 *Exemptions*.

(1) The user fee requirement of this revenue procedure shall not apply to departments, agencies, or instrumentalities of the United States that certify that they are seeking a ruling, determination letter, opinion letter or similar letter on behalf of a program or activity funded by federal appropriations. The fact that a user fee is not charged shall have no bearing on whether an applicant is treated as an agency or instrumentality of the United States for purposes of any provision of the Internal Revenue Code.

(2) The user fee requirements of this revenue procedure shall not apply to requests as to whether a worker is an employee for federal employment taxes and income tax withholding purposes (chapters 21, 22, 23, and 24, subtitle C, of the Internal Revenue Code) submitted on Form SS-8, Information for Use in Determining Whether a Worker Is an Employee for Federal Employment Taxes and Income Tax Withholding, or its equivalent.

SEC. 7. QUESTIONS AS TO APPLICABILITY OR AMOUNT OF FEE

A taxpayer or organization that believes the user fee charged by the Service for its request for a ruling, determination letter, etc. is either not applicable or incorrect may request reconsideration and, if desired, the opportunity for an oral discussion by sending a letter to the Internal Revenue Service at the applicable Post Office Box or other address given in section 6.06 above. Both the incoming envelope and the letter requesting such reconsideration should be prominently marked "USER FEE RECONSIDERATION REQUEST," and the request should be marked for the attention of:

If the matter involves primarily:	*Mark for attention of:*
Associate Chief Counsel (Technical) ruling requests submitted pursuant to Rev. Proc. 89-1	Assistant Chief Counsel ( ) (complete by using whichever of the following designations applies) (Corporate) (Financial Institutions and Products) (Employee Benefits & Exempt Organizations) (Income Tax and Accounting) (Passthroughs and Special Industries)
Associate Chief Counsel (International) ruling requests submitted pursuant to Rev. Proc. 87-4	Assistant Chief Counsel (International)
Employee plan ruling and opinion letter requests	Chief, Rulings Branch E:EP:R
Exempt organization ruling requests	Chief, Rulings Branch E:EO:R
Employee plan and/or exempt organization determination letter requests	Chief, Technical Staff ________Key District Office (add name of key district office handling the request)
Determination letter requests submitted pursuant to Rev. Proc. 89-1 or Rev. Proc. 87-4	Chief, Examination Division __________District Office (add name of district office handling the request)

SEC. 8. EFFECT ON OTHER DOCUMENTS

.01 Rev. Procs. 80-30, 83-36, 84-23, 84-46, 84-86, 87-4, 87-50, and 89-1 are modified and amplified to the extent that this revenue procedure provides for an additional requirement that must be satisfied in requesting a ruling, determination letter or opinion letter pursuant to those revenue procedures.

.02 Rev. Procs. 88-8, 88-13 and 88-27 are superseded with respect to requests for rulings, determination letters, etc. postmarked or, if not mailed, received by the Service on or after February 1, 1989. Rev. Proc. 88-8, as modified by Rev. Procs. 88-13 and 88-27, continues to be in effect with respect to requests for rulings, determination letters, etc., received on or after February 1, 1988, and before February 1, 1989.

SEC. 9. EFFECTIVE DATE

Except for paragraph (2) of Section 6.10, which is effective February 1, 1988, this revenue procedure is effective as of February 1, 1989. It does not apply to requests filed on or after September 30, 1990.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 103; 1.103-14.)

Rev. Proc. 89-5

SECTION 1. PURPOSE

This revenue procedure provides that, in general, the Internal Revenue Service will not issue rulings to persons that wish to extend the temporary period during which the proceeds of certain state and local bonds are arbitraged and are seeking rulings that the extension will not cause the bonds to be taxable "arbitrage bonds" within the meaning of former section 103 (c)(2) of the Internal Revenue Code. In addition, however, this procedure describes a class of situations in which such rulings may be issued (see section 5), and it prescribes the information that must be submitted as part of any request for such a ruling (see section 6).

SEC. 2. BACKGROUND

.01 Under former section 103(c)(1) of the Code a bond is an arbitrage bond, and thus interest paid thereon is not tax-exempt, if a major portion of the proceeds of the issue is invested in taxable obligations or securities with a yield that is materially higher than the yield on the governmental obligation (that is, the bond proceeds are arbitraged). However, under former section 103(c)(4)(A) of the Code and section 1.103-14(b) of the Income Tax Regulations, an issuer could arbitrage proceeds of a non-refunding bond for a temporary period prior to their expenditure for the governmental purpose of the issue if certain requirements are met. One of these requirements is that an amount equal to 85 percent of the spendable proceeds of the issue be spent by the end of the three-year period following issuance of the bonds. In the case of certain construction issues, a five-year period may be used if the issuer, by means of a certification of an independent architect or engineer, establishes that a longer period not exceeding five years is needed to expend 85 percent of the spendable proceeds. Sections 1.103-13(a)(2)(ii)(E) and 1.103-14(b)(5)(ii) of the regulations.

.02 The exception for temporary period investment, however, is not available if the issuer (or another party with a material financial interest in the issuance of the bonds) deliberately acts to prolong the period between issuance of the bonds and expenditure of the proceeds by issuing (or having the issuer issue) the bonds prematurely. Rev. Rul. 80-204, 1980-2 C.B. 51. Similarly, the exception for temporary period investment is not available if bonds are issued prematurely to avoid requirements of new federal, state, or local laws, to earn additional arbitrage profits, or for other reasons not consistent with ordinary financial practice.

.03 Depending on the particular circumstances, the foregoing restrictions are of practical importance primarily for bonds that were issued before January 1, 1985, January 1, 1986, or September 1, 1986, which were the effective dates for former section 103(c)(6) of the Code and section 148(f).

SEC. 3. SCOPE

This revenue procedure applies to requests that the Service issue a ruling or determination letter concluding that a state or local governmental obligation is not an arbitrage bond solely by reason of the investment of the bond proceeds in acquired nonpurpose obligations at a materially higher yield more than three years after issuance of the bonds, or five years after issuance of the bonds in the case of a construction issue described in section 1.103-13(a)(2)(ii)(E) of the regulations.

SEC. 4. PROCEDURE

.01 The Service will not issue a ruling described in section 3 unless the bonds meet the requirements in section 5.

.02 Any request for a ruling to which this revenue procedure applies, in addition to meeting all other applicable requirements, must contain the information described in section 6.

SEC. 5. REQUIREMENTS

.01 A bond issue meets the requirements of this section if the following circumstances apply:

(1) The proceeds of the issue of which the bonds are a part were expected as of the date of issue to be used to finance a construction project. An issue of bonds does not fail the requirements of this paragraph merely because an amount of original proceeds of the issue not exceeding 40 percent of the net original proceeds was expected to be used for the acquisition of land or equipment that is directly related and integral to the operation of the buildings or structures that are part of the construction project. For purposes of this revenue procedure, net original proceeds are original proceeds as defined in section 1.103-13(b)(2)(i) of the regulations, minus amounts deposited in a reasonably required reserve or replacement fund as defined in section 1.103-14(d).

(2) By the end of the three-year period, an amount of original proceeds equal to more than 15 percent of the net original proceeds of the issue of bonds was spent for costs relating to construction of the project (including acquisition of any land and equipment described in paragraph (1)). If the bonds are part of a construction issue described in section 1.103-13(a)(2)(ii)(E) of the regulations, the preceding sentence shall be applied by substituting "five-year period" for "three-year period" and "25 percent" for "15 percent." For purposes of this paragraph, expenditures of bond proceeds are considered made first from investment earnings (earnings from investments in both acquired nonpurpose obligations and tax-exempt bonds) and then from original proceeds.

(3) By the end of the applicable three-year or five-year period, an amount of original proceeds equal to more than 5 percent of the net original proceeds of the issue of bonds was spent for direct costs of labor, equipment, and materials used on the construction site (for example, the cost of site preparation or foundation construction but not capitalized interest).

(4) The failure to expend 85 percent of the spendable proceeds by the end of the applicable three-year or five-year period was caused by events that were not reasonably anticipated at the time of issue and were beyond the control of the governmental issuer or true obligor on the bonds.

(5) Due diligence was exercised and will continue to be exercised in expending the proceeds of the bonds in a manner consistent with the intended purpose of the financing. To meet the condition imposed by this paragraph, there must be established with reasonable certainty a specific reasonable date by which all bond proceeds, other than a minor portion, will be expended in a manner consistent with the intended purpose of the bonds. If the issuer or true obligor proposes to invest the bond proceeds in materially higher yielding acquired nonpurpose obligations for a period of more than three years after the end of the original applicable three-year or five-year period, then there is a rebuttable presumption that the issuer or true obligor will take deliberate and intentional actions to produce arbitrage within the meaning of Rev. Rul. 80-91, 1980-1 C.B. 30, Rev. Rul. 80-92, 1980-1 C.B. 31, and Rev. Rul. 80-188, 1980-2 C.B. 47.

(6) If bonds are to be secured, directly or indirectly, primarily by revenues from the project being financed with bond proceeds and, pending generation of such revenues, the bond proceeds, directly or indirectly, provide part or all of the security for the bonds, then the bonds must satisfy the following additional conditions:

(a) Within six months after issuance of the bonds, the governmental issuer or true obligor on the bonds entered into a binding contract to incur expenditures that exceeded 10 percent of the cost of construction of the project to be financed with proceeds of the issue of bonds.

(b) Construction of the project commenced within one year after issuance of the issue of bonds. Construction commences when physical work on the project begins.

.02 For purposes of section 5, if original proceeds were used to make prepayments prior to the time when payment is customary, then those prepayments are not considered spent prior to that customary time.

.03 If an issue of bonds finances more than one project, then the portion of the proceeds being used to finance each such project shall be treated as a separate issue of bonds for purposes of applying the requirements of paragraphs (1), (2), (3), (5), and (6) of section 5.01. If any project fails to meet the requirements as so applied, then no ruling will be issued with respect to the entire issue of bonds. Whether a bond issue finances more than one project will be determined on a case by case basis. This determination shall be made with reference to factors such as whether the buildings and structures were expected to be (a) used as part of an integrated operation, (b) owned and operated by the same person, (c) located on a single or contiguous parcel(s) of land, and (d) placed in service for federal income tax purposes within 12 months of one another.

SEC. 6. REQUIRED INFORMATION

.01 Any request for a ruling described in section 3 of this revenue procedure, must (a) meet the requirements of Rev. Proc. 88-33, 1988-1 C.B. 835, (b) meet the requirements of any other revenue procedures that relate to submission to the Service of requests for rulings, for example, Rev. Proc. 89-1, and (c) contain all of the information specified in subsection .02.

.02 The information specified in this subsection is:

(1) Copies of studies discussing the feasibility of the project, the economic viability of the project, the feasibility of the plan of bond financing, and other similar matters.

(2) A copy of the final official statement that was prepared in connection with the issuance of the bonds.

(3) A copy of the certificate as to arbitrage that was prepared in connection with the issuance of the bonds.

(4) A description of the acquired nonpurpose obligations that were purchased with the original and investment proceeds of the bonds, including the yield on such obligations.

(5) The yield on the governmental obligations, determined on the basis of the issue price within the meaning of sections 1273 and 1274 of the Code.

(6) A statement setting forth (a) the gross amount earned on investment of

the original proceeds of the bonds and the investment of such earnings during each year of the applicable three-year or five-year period and (b) the principal and interest paid on the bonds during each year of such three year or five-year period.

(7) A list detailing the type and amount of costs of issuance of the bonds, including underwriters' discount.

(8) Copies of the original construction and expenditure schedule for the project and the current construction and expenditure schedule for the project.

SEC. 7. MODIFICATION OF REV. PROC. 89-3

This revenue procedure modifies section 4.01 of Rev. Proc. 89-3, page 761, this Bulletin, relating to areas in which rulings or determination letters will not ordinarily be issued, by adding the following new paragraph:

> Section 103.—Interest on Certain Governmental Obligations.—Whether a state or local governmental obligation that does not meet the criteria of section 5 of Rev. Proc. 89-5 is an "arbitrage bond" within the meaning of former section 103(c)(2) of the Code solely by reason of the investment of the bond proceeds in acquired nonpurpose obligations at a materially higher yield more than three years after issuance of the bonds or five years after issuance of the bonds in the case of construction issues described in section 1.103-13(a)(2)(ii)(E) of the regulations.

SEC. 8. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is modified.

SEC. 9. EFFECTIVE DATE

This revenue procedure is effective with respect to any ruling requests currently under consideration by the Service and ruling requests received after this time.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-6

SECTION I. PURPOSE AND NATURE OF CHANGES

.01 Purpose.

The purpose of this revenue procedure is to update Rev. Proc. 87-6, 1987-1 C.B. 45, as amplified and amended by subsequent revenue procedures, by providing a list of subject matters under the jurisdiction of the Associate Chief Counsel (International) in which the Internal Revenue Service will not issue advance rulings or determination letters. Rev. Proc. 89-3, page 761, this Bulletin, amplified by Rev. Proc. 89-7, page 778, this Bulletin, lists the subject matters under the jurisdiction of the Associate Chief Counsel (Technical) in which the Service will not issue advance rulings or determination letters.

.02 Changes.

1. Old section 3.012 has been deleted because the regulations on which it was based have been amended.

2. New section 3.012 refers to section 954 of the Code. See Rev. Proc. 87-61, 1987-2 C.B. 765.

3. New section 3.021 modifies old section 3.021. See Rev. Proc. 88-50, 1988-2 C.B. 711.

4. New section 3.022 modifies old section 3.022.

5. New section 3.026 refers to issues subject to the taxpayer's pending request for competent authority assistance under a United States tax treaty.

6. New section 4.011 refers to section 367 of the Code.

7. New section 4.013 modifies old section 4.012.

8. New section 4.014 refers to section 882 of the Code.

9. New section 4.016 refers to section 892 of the Code.

10. New section 4.017 refers to section 893 of the Code.

11. New section 4.0112 refers to section 894 of the Code. See Rev. Proc. 87-39, 1987-2 C.B. 514.

12. New section 4.0113 refers to section 894 of the Code. See Rev. Proc. 87-39, 1987-2 C.B. 514.

13. Old section 4.019 has been deleted because regulations have been issued under section 897(e) of the Code.

14. New section 4.0115 refers to section 985 of the Code.

15. New section 4.0116 refers to section 989 of the Code.

16. Old section 4.0111 has been deleted as obsolete.

17. New section 4.0117 modifies old section 4.013.

18. New section 4.0118 modifies old sections 4.0112 and 4.0113.

19. New section 4.0119 refers to section 7701 of the Code.

20. New section 4.02 refers to a taxpayer's business purpose for a transaction or arrangement.

SEC. 2. BACKGROUND AND SCOPE OF APPLICATION

01. Background.

Whenever appropriate to sound tax administration, the Service answers inquiries from individuals and organizations about their status for tax purposes and the tax effects of their acts or transactions, before the filing of returns or reports that are required by the Internal Revenue Code. There are, however, areas where the Service will not issue advance rulings or determination letters, either because the issues are inherently factual or for other reasons. This revenue procedure lists those areas.

Section 3 gives areas in which advance rulings and determinations will not be issued under any circumstances. Section 4 gives areas in which they will not ordinarily be issued; in these areas, unique and compelling reasons may justify issuing a ruling or determination letter. The Service may provide a general information letter in response to inquiries in areas on either list.

These lists are not all-inclusive. Future revenue procedures may add or delete items. The Service may also decline to rule on an individual case for reasons peculiar to that case; such decisions will not be announced in the Bulletin.

02. Scope of Application.

This revenue procedure does not preclude District Directors, the Assistant Commissioner (International), or Appeals Offices from submitting requests for technical advice in the areas listed to the National Office.

SEC. 3 AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED

01. Specific Questions and Problems.

1. Section 871(g).—Special Rules for Original Issue Discount.—Whether a debt instrument having original issue discount within the meaning of section 1273 of the Internal Revenue Code of 1986 is not an original issue discount obligation within the meaning of section 871(g)(1)-(B)(i) when the instrument is payable 183 days or less from the date of original issue (without regard to the period held by the taxpayer) and the instrument is issued by a domestic corporation and purchased by its controlled foreign corporation.

2. Section 954.—Foreign Base Company Income.—The effective rate of tax that a foreign country will impose on income.

3. Section 7701.—Definitions.— Whether a foreign arrangement that is a participant in a domestic arrangement classified as a partnership for United States tax purposes will itself be classified as a partnership.

4. Section 7701.—Definitions.— Whether a foreign limited liability company will be classified as a partnership, if a taxpayer who holds an interest therein seeks the partnership classification and (1) the taxpayer is a corporation and independent parties hold less than 20 percent of the interests in the limited liability company, or (2) the taxpayer is not a corporation and independent parties hold only a nominal interest in the company.

02. General Areas.

1. The prospective application of the estate tax to the property or the estate of a living person, except that rulings may be issued on any international issues in a ruling request accepted pursuant to Rev. Proc. 88-50, 1988-2 C.B. 711.

2. The federal tax consequences of proposed federal, state, local, municipal, or foreign legislation.

3. Whether reasonable cause exists under Subtitle F (Procedure and Administration) of the Code.

4. Whether a proposed transaction would subject a taxpayer to criminal penalties.

5. Any area, where the ruling request does not comply with the requirements of Rev. Proc. 87-4, 1987-1 C.B. 33, as modified by Rev. Proc. 88-4, 1988-1 C.B. 586, and modified and amplified by Rev. Proc. 88-8, 1988-1 C.B. 628 (as modified by Rev. Proc. 88-13, 1988-1 C.B. 639, and Rev. Proc. 88-27, 1988-1 C.B. 804 and Rev. Proc. 89-4, page 767, this Bulletin.

6. Any area, where the same issue is the subject of the taxpayer's pending request for competent authority assistance under a United States tax treaty.

SEC. 4. AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT ORDINARILY BE ISSUED

01. Specific Questions and Problems.

1. Section 367(a).—Transfers of Property from the United States.—Whether an oil or gas working interest is transferred from the United States for use in the active conduct of a trade or business for purposes of section 367(a)(3) of the Code; and whether any other property is so transferred, where the determination requires extensive factual inquiry.

2. Section 367(b).—Other Transfers.— Whether a foreign corporation is considered a corporation for purposes of any nonrecognition provision listed in section 367(b), and related issues, unless the ruling presents a significant legal issue. (These matters are dealt with in detail in section 7.367(b) of the Temporary Income Tax Regulations.)

3. Section 864.—Definitions and Special Rules.—Whether a taxpayer is engaged in a trade or business within the United States, and whether income is effectively connected with the conduct of a trade or business within the United States; and in particular, whether a taxpayer trading in stocks, securities, or commodities is engaged in a trade or business within the United States under section 1.864-2(c) and (d) of the regulations.

4. Section 882.—Tax on Income of Foreign Corporations Connected with United States Business.—Under section 1.882-5(b) of the regulations, whether a taxpayer using the actual ratio may change to the fixed ratio, and whether a taxpayer electing either the branch book/dollar pool method or the separate currency pools method may change methods.

5. Section 892.—Income of Foreign Governments and of International Organizations.—Whether income received by local governmental authorities of the United Kingdom from certain United States investments of money allocable to their super annuation funds is exempt from federal income taxation.

6. Section 892.—Income of Foreign Governments and of International Organizations.—Whether a foreign government is engaged in commercial activities for purposes of section 892, and whether income received by a foreign government is derived from the conduct of such commercial activities.

7. Section 893.—Compensation of Employees of Foreign Governments and International Organizations.—Whether a foreign government is engaged in commercial activities for purposes of section 893, and whether the services of an employee of a foreign government are primarily in connection with such commercial activities.

8. Section 894.—Income Affected by Treaty.—Whether a taxpayer has a permanent establishment in the United States for purposes of any United States income tax treaty.

9. Section 894.—Income Affected by Treaty.—Whether the income received by a nonresident alien student for services performed for a university or other educational institution is exempt from federal income tax or withholding under United States income tax treaties with Belgium, China, Cyprus, Egypt, Finland, France, Iceland, Japan, Korea, Morocco, the Netherlands, Norway, Pakistan, the Philippines, Poland, Romania, and Trinidad and Tobago.

10. Section 894.—Income Affected by Treaty.—Whether the income received by a nonresident alien performing research or teaching at a university is exempt from federal income tax or withholding under United States income tax treaties with Belgium, China, Egypt, Finland, France, Hungary, Iceland, Italy, Jamaica, Japan, Korea, Luxembourg, the Netherlands, Norway, the Philippines, Poland, Romania, Sweden, Trinidad and Tobago, the Union of Soviet Socialist Republics, and the United Kingdom.

11. Section 894.—Income Affected by Treaty.—Whether the income received by a nonresident alien teaching at a university is exempt from federal income tax or withholding under United States income tax treaties with Austria, Denmark, the Federal Republic of Germany, Greece, Ireland, Pakistan, and Switzerland.

12. Section 894.—Income Affected by Treaty.—Whether a foreign recipient of payments made by a United States person is ineligible to receive the benefits of a United States tax treaty under the principles of Rev. Rul. 84-152, 1984-2 C.B. 381, and Rev. Rul. 84-153, 1984-2 C.B. 383.

13. Section 894.—Income Affected by Treaty.—Whether a recipient of payments is or has been a resident of a country for purposes of any United States tax treaty. Pursuant to section 1.884-5T(f) of the temporary regulations, however, the Service will rule whether a corporation representing that it is a resident of a country is a qualified resident thereof for purposes of section 884.

14. Section 901.—Taxes of Foreign Countries and of Possessions of United States.—Whether a person claiming a credit has established, based on all of the relevant facts and circumstances, the amount (if any) paid by a dual capacity taxpayer under a qualifying levy that is not paid in exchange for a specific economic benefit. See section 1.901-2A(c)(2) of the regulations.

15. Section 985.—Functional Currency.—Whether a currency is the functional currency of a qualified business unit.

16. Section 989(a).—Qualified Business Unit.—Whether a unit of the taxpayer's trade or business is a qualified business unit.

17. Section 7701.—Tax on Nonresident Alien Individuals.—Whether an alien individual is either a resident or nonresident of the United States, in situations where the determination depends on facts that cannot be confirmed until the close of the taxable year (including, for example, the length of the alien's stay or the nature of the alien's activities).

18. Section 7701.—Definitions.—Whether a foreign corporation will be classified as a partnership for United States tax purposes, if the taxpayer seeks the partnership status; and whether a foreign partnership will be classified as an association for United States tax purposes, if the taxpayer seeks the association status. Requests for advance rulings about the classification of foreign entities should be submitted according to Rev. Proc. 89-1, page 740, this Bulletin. The Office of the Associate Chief Counsel (Technical) coordinates the response to such requests with the Office of the Associate Chief Counsel (International).

19. Section 7701.—Definitions.—Whether an estate or trust is a foreign estate or trust for federal income tax purposes.

02. General Areas.

Whether a taxpayer has a business purpose for a transaction or arrangement.

SEC. 5. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 87-6, Rev. Proc. 87-39, and Rev. Proc. 87-61 are superseded.

SEC. 6. EFFECTIVE DATE

This revenue procedure applies to all ruling requests on file in the National Office on February 27, 1989, and to all requests received thereafter.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-7

SECTION 1. BACKGROUND

Rev. Proc. 89-3, page 761, this Bulletin sets forth areas in which advance rulings or determination letters will not be issued by the Internal Revenue Service. Section 5 of Rev. Proc. 89-3 is entitled "Area Under Extensive Study In Which Rulings Or Determination Letters Will Not Be Issued Until The Service Resolves The Issue Through Publication Of A Revenue Ruling, Revenue Procedure, Regulations Or Otherwise."

SEC. 2. PROCEDURE

Rev. Proc. 89-3 is hereby amplified by adding to section 5 the following new section:

Sections 3121 and 3306. - Definitions. - Whether payments made to former employees in the event of a plant closing, layoff, or reduction in force are wages for purposes of the Federal Insurance Contributions Act (FICA) and the Federal Unemployment Tax Act (FUTA).

SEC. 3. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests on hand in the National Office on January 17, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin, as well as to requests received thereafter.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is amplified.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-8

SECTION 1. PURPOSE

.01 This revenue procedure sets forth the procedures that the Internal Revenue Service and taxpayers will use to resolve issues arising when a taxpayer is or may be subject to inconsistent tax treatment by the Service and the tax authorities of Puerto Rico, the Virgin Islands, American Samoa, or Guam. The issues generally involve: (1) allocations of income, deductions, credits, or allowances between related persons; (2) determinations of residency; and (3) determinations of the source of income and related expenses. This revenue procedure does not provide procedures to be used by the tax authorities of any possession.

.02 An Implementation Agreement between the United States and the Virgin Islands was signed on February 24, 1987, and took effect on that date. This agreement superseded the prior Coordination Agreement (Announcement 78-21, 1978-7 I.R.B. 42). Article 6 of the Implementation Agreement deals with the mutual agreement procedure on potential double taxation.

.03 An Implementation Agreement between the United States and American Samoa was signed by the Government of American Samoa on December 10, 1987, and by the Government of the United States on January 7, 1988; it generally became effective on January 1, 1988. Article 6 of the Implementation Agreement deals with the mutual agreement procedure on potential double taxation.

.04 The 1977 Agreement on Coordination of Tax Administration entered into between the United States and Guam has been amended to add section 10. The amendment was signed by the Government of Guam on January 10, 1985, and by the Government of the United States on July 12, 1985. Section 10 deals with the mutual agreement procedure on potential double taxation.

.05 This revenue procedure supersedes Rev. Proc. 80-57, 1980-2 C.B. 852, as supplemented by Rev. Proc. 85-23, 1985-1 C.B. 557.

SEC. 2. BACKGROUND

.01 The Service has entered into agreements for coordinating tax administration (the Agreements) with the Commonwealth of Puerto Rico (Announcement 79-84, 1979-23 I.R.B. 19); the Virgin Islands, as described in Section 1.02; American Samoa, as described in Section 1.03; and Guam, as described in Section 1.04. The tax authorities of the other parties to the Agreements are hereinafter referred to as the "possession tax agencies." In accordance with the Agreements, the Service has established cooperative programs to resolve tax disputes arising from inconsistent positions taken by the Service and a possession tax agency. The procedures under these cooperative programs are hereinafter referred to as the "mutual agreement procedures."

.02 The Agreements provide that the Assistant Commissioner (International) is the person in charge of exchanging United States tax returns and tax return information with a possession and developing and coordinating cooperative programs designed to improve the administration and enforcement of the tax laws of the United States and the possessions.

.03 The Agreements provide generally that when, by reason of inconsistent positions taken by the Service and a possession tax agency, a taxpayer is or may be subject to inconsistent tax treatment by the two jurisdictions, the Assistant Commissioner (International) and the designated possession tax official shall seek to avoid double taxation. In particular, but not by way of limitation, the parties may exchange views to reach agreement on: (a) the same allocation of income, deductions, credits, or allowances between related persons; (b) the same determination of residency of a particular taxpayer; and (c) the same determination of the source of particular items of income.

SEC. 3. PROCEDURES TO BE FOLLOWED

.01 A taxpayer, or a related person in a possession, that is potentially subject to double taxation because of inconsistent tax treatment by the Service and a possession tax agency may request assistance in accordance with this revenue procedure.

.02 In addition to the tax assistance request, the taxpayer should file a claim for credit or refund of any overpayment of United States tax that was paid on the income in question, provided the period of limitations prescribed under section 6511 of the Internal Revenue Code, with respect to the claim for credit or refund, has not expired. The taxpayer, or a related person in a possession, should also take whatever steps are required under a possession tax code to prevent the expiration of the period of limitations with respect to a claim for credit or refund of a possession tax.

.03 When, in conjunction with a request for assistance under this revenue procedure, a taxpayer seeks relief in the form of a credit or refund of tax due to either a possession or the United States, the allowance of such relief is subject to the applicable tax and procedural rules of the possession and the United States.

.04 A United States income tax claim is to be made, as appropriate, on: Form 1040X, Amended U.S. Individual Income Tax Return; Form 1120X, Amended U.S. Corporation Income Tax Return; or Form 1041, U.S. Fiduciary Income Tax Return. The taxpayer should indicate on the appropriate form that a request for assistance under the mutual agreement procedure with the possession has been filed pursuant to this revenue procedure and should attach a copy of the request to that form.

.05 Similarly, if any tax issues subject to consideration under a mutual agreement procedure are expected to recur, the taxpayer should, before the statute of limitations expires, file a protective claim for credit or refund of any United States tax that was paid with respect to the issue. The claim should describe the action or expected action of the possession tax agency and state that the taxpayer has filed or plans to file a request for assistance under the mutual agreement procedure. The taxpayer should send a copy to the Assistant Commissioner (International). If the taxpayer later decides not to file the request for assistance, the Assistant Commissioner (International) should be promptly notified by the taxpayer. The taxpayer, or a related person in a possession, should also take whatever steps are required under the possession tax code to prevent the expiration of the period of limitations with respect to a claim for credit or refund of a possession tax.

.06 With respect to the computation of the foreign tax credit, either Form 1116, Computation of Foreign Tax Credit — Individual, Fiduciary, or Nonresident Alien Individual (which also covers credits for foreign tax on income received from foreign partnerships and other business organizations), or Form 1118, Computation of Foreign Tax Credit — Corporations, must be attached to the Form 1040X, Form 1120X, or Form 1041.

.07 The taxpayer should file a written request for assistance with the Assistant Commissioner (International), Internal Revenue Service, 950 L'Enfant Plaza South SW, Washington, D.C. 20024, as soon as it appears that the taxpayer is or may be subject to inconsistent tax treatment by the Service and a possession tax agency. Prompt action will: (1) insure consideration while the facts are more easily obtainable; (2) insure adequate time for the representatives of the two jurisdictions to exchange views to reach an agreement before any procedural barriers under the law of the United States or a possession are imposed; and (3) avoid unnecessary delay in the final determination of tax liability.

.08 Without the consent of the Chief Counsel of the Service, the Assistant Commissioner (International) will not accept any taxpayer's request for consideration of a case that is pending in court. If the case is pending in the United States Tax Court, the Chief Counsel may in appropriate cases request the court to delay trial pending mutual agreement action. If the case is pending in any other court, the Chief Counsel will consult with the Department of Justice. In all cases the final decision to delay trial rests with the court. The suspension of litigation pending any mutual agreement consideration will not relieve the United States taxpayer from any obligation to act with respect to that litigation.

.09 A request for assistance under this revenue procedure must be signed by the taxpayer or a person having authority to sign the taxpayer's United States income tax return; contain a statement that assistance is requested under the mutual agreement procedure with the possession; and include the following:

1 the taxpayer's name, address, and employer identification number or social security number, and (where a related person in the possession is involved) the name, address, and employer identification number or social security number of the related person;

2 the tax year or years in question and the Service Center where the taxpayer's federal income tax return was filed or, if no return was filed, a statement to that effect;

3 if income tax is involved, the type of income at issue (such as salary, dividends, or interest); a description of the transaction, activities, or other circumstances pertinent to the issue; and the respective positions taken by a possession tax agency and the taxpayer on the issue raised;

4 the amount of the particular item involved in the issue raised and the amount of tax the possession assessed or proposed for assessment;

5 when applicable, a description of the control and business relationships between the United States taxpayer and the related person in the possession;

6 when applicable, a statement of the status of the tax liability of the taxpayer and the related person in the possession for the year or years in question, as well as a statement whether the taxpayer or related person is entitled to any possession tax incentive or subsidy program benefits for the year or years in question;

7 a copy of any relevant correspondence received from the possession tax agency and copies of any briefs, protests, and other relevant material submitted to the possession tax agency;

8 a copy of the possession tax returns for the year or years in question;

9 a statement whether the federal tax return of the taxpayer and, when applicable, the tax return of the related person in the possession, for the year or years in question were examined, or are being examined;

10 a statement whether a foreign tax credit was claimed on the taxpayer's federal tax return for the tax year or years in question and, if a credit was claimed, whether the credit was claimed for all or part of the possession tax paid or accrued with respect to the particular item that is the subject of the request for assistance;

11 on a separate document, a statement signed and dated by a person having authority to sign the taxpayer's United States tax return that the United States taxpayer consents to the disclosure to the designated possession tax official of any or all of the items of information set forth in, or enclosed with, the request for assistance under this revenue procedure; and

12 other pertinent material the taxpayer may wish to submit.

SEC. 4. NOTIFICATION TO TAXPAYER

.01 The taxpayer will be notified whether the facts submitted provide a basis for assistance under the mutual agreement procedure.

.02 The Assistant Commissioner (International) will not assist the taxpayer if:

1 under the facts and circumstances the taxpayer is not entitled to such assistance (for example, the facts do not indicate that inconsistent positions have been taken by the Service and a possession tax agency);

2 the taxpayer is unwilling to accept an agreement under the mutual agreement procedure except under conditions that are clearly unreasonable or unfairly prejudicial to the interests of the United States; or

3 the taxpayer does not furnish, upon request, sufficient information to determine the applicability of the mutual agreement procedure or otherwise fails to act as required by this revenue procedure.

.03 If the Assistant Commissioner (International) accepts a request for assistance, the continuing cooperation of the taxpayer is essential. The taxpayer must submit any additional information needed to resolve the case and keep the Assistant Commissioner (International) informed of proceedings in the possession and any other pertinent developments. The taxpayer may also be requested to execute a consent extending the period of limitations for assessment of tax for the tax year or years in question.

.04 The Assistant Commissioner (International) will notify a taxpayer requesting assistance under this revenue procedure of any agreement or partial agreement that the Service and a possession tax agency reach with respect to the taxpayer's request. If the agreement or partial agreement is not acceptable to the taxpayer, the taxpayer may pursue all rights to administrative and judicial review otherwise available under the laws of the possession and the United States.

.05 When appropriate, in cases covered by this revenue procedure, the taxpayer will be requested to enter into a closing agreement in accordance with sections 6.07 and 6.17 of Rev. Proc. 68-16, 1968-1 C.B. 770.

.06 Rev. Proc. 65-17, 1965-1 C.B. 833, provides that a taxpayer who desires the treatment provided by that revenue procedure must request it in writing with the appropriate district director before any closing action is taken on issues arising under section 482 of the Code. Accordingly, if a taxpayer desires both assistance under this revenue procedure and the benefits provided by Rev. Proc. 65-17, a statement should be made in the request filed under this revenue procedure that the taxpayer desires the benefits of Rev. Proc. 65-17.

SEC. 5. OTHER APPLICATIONS OF THIS REVENUE PROCEDURE

At the time of publication of this revenue procedure, the United States is negotiating agreements with Puerto Rico, Guam, and the Commonwealth of the Northern Mariana Islands that may provide for mutual agreement procedures. When any such agreements become effective, the procedures set forth in this revenue procedure must be followed by taxpayers seeking relief.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective January 23, 1989.

SEC. 7. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 80-57 and Rev. Proc. 85-23 are superseded.

Rev. Proc. 89-9

Table of Contents

SECTION 1. PURPOSE

This revenue procedure updates Rev. Proc. 84-23, 1984-1 C.B. 457, to set forth the procedures of the Internal Revenue Service pertaining to the issuance of opinion letters relating to master or prototype (M&P) pension, profit-sharing and annuity plans involving sections 401 and 403(a) of the Internal Revenue Code, as amended by the Tax Reform Act of 1986 (TRA '86), Pub. L. 99-514, 1986-3 (Vol.1) C.B. 1, the Omnibus Budget Reconciliation Act of 1986 (OBRA '86), Pub. L. 99-509, the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), Pub. L. 100-203, and the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), Pub. L. 100-647, and to the status for exemption of related trusts or custodial accounts under section 501(a) of the Code.

SEC. 2. GENERAL INFORMATION

.01 Rev. Proc. 83-36, 1983-1 C.B. 763, as modified by Rev. Proc. 87-40, 1987-2 C.B. 514, sets forth the general procedures of the Service relating to the issuance of rulings, determination letters, opinion letters, and notification letters on Employee Plans and Exempt Organization matters.

.02 Rev. Proc. 80-30, 1980-1 C.B. 685, sets forth the general procedures relating to the issuance of determination letters on the qualification of pension, profit-sharing, and stock bonus plans under sections 401(a) and 403(a), and the status for exemption of any related trusts or custodial accounts under section 501(a) of the Code.

.03 Rev. Proc. 84-23, as modified by Rev. Proc. 84-83, 1984-2 C.B. 781, sets forth the general procedures relating to the issuance of opinion letters by the National Office as to the acceptability of the form of master and prototype plans.

.04 Rev. Proc. 89-4, page 767, this Bulletin, sets forth the procedures relating to the payment of user fees for requests to the Service for rulings, opinion letters, determination letters, and similar requests.

.05 TRA '86 substantially altered the requirements that a plan must meet in order to be qualified under section 401(a) of the Code. Many of the TRA '86 qualification changes are effective for years beginning after December 31, 1986. Other TRA '86 qualification requirements are not effective until years beginning after December 31, 1988. OBRA '86 and OBRA '87 also altered the requirements that a plan must meet in order to be qualified. The qualification requirements under OBRA '86 and OBRA '87 are generally effective for plan years beginning after December 31, 1987. TAMRA contains technical corrections to TRA '86, OBRA '86, and OBRA '87, as well as other changes affecting qualified plans.

.06 Section 1140 of TRA '86 provides that a qualified plan must be amended retroactively, not later than the first plan year beginning on or after January 1, 1989, to comply with the requirements of TRA '86. Section 1.401(b)-1 of the Income Tax Regulations extends until the end of the remedial amendment period described therein the time by which plans must be amended to comply with provisions of TRA '86 that are effective before the first day of the first plan year beginning after December 31, 1989, provided certain conditions are satisfied. In general, the remedial amendment period described in section 1.401(b)-1 of the regulations also applies in the case of amendments necessary to conform to the requirements of OBRA '86, OBRA '87, and other changes to the qualification requirements described in section 5.11. The Service has issued substantive guidelines, including those cited later in this revenue procedure, for conforming plans to the TRA '86, OBRA '86, and OBRA '87 requirements.

SEC. 3. DEFINITIONS

.01 Master Plan — A "master plan" is a plan (including a plan covering self-employed individuals) that is made available by a sponsoring organization (see section 3.07) for adoption by employers and for which a single funding medium (for example, a trust or custodial account) is established, as part of the plan, for the joint use of all adopting employers. A master plan consists of two separate documents, a basic plan document and an adoption agreement (see sections 3.03 and 3.04).

.02 Prototype Plan — A "prototype plan" is a plan (including a plan covering self-employed individuals) which is made available by a sponsoring organization for adoption by employers and under which a separate funding medium is established for each adopting employer. A prototype plan consists of two separate documents, a basic plan document and an adoption agreement.

.03 Basic Plan Document — A "basic plan document" is the portion of the plan containing all the non-elective provisions applicable to all adopting employers. No options (including blanks to be completed) may be provided in the basic plan document, except as provided in section 18.031 of this revenue procedure regarding flexible plans.

.04 Adoption Agreement — For purposes of this revenue procedure, with respect to an adopting employer, an "adoption agreement" is the portion of the M&P plan containing all the options that may be selected by such adopting employer.

.05 Opinion Letter — An "opinion letter" is a written statement issued by the National Office to a sponsoring organization pursuant to this revenue procedure as to the acceptability of the form of a master or prototype plan and any related trust or custodial account under sections 401, 403(a), and 501(a) of the Code.

.06 Favorable TEFRA Opinion Letter — A "favorable TEFRA opinion letter" is a favorable opinion letter issued by the National Office after July 18, 1985, under Rev. Proc. 84-23, which considers the effect of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), Pub. L. 97-248, 1982-2 C.B. 462, the Deficit Reduction Act of 1984, Pub. L. 98-369, 1984-3 (Vol. 1) C.B. 1, and the Retirement Equity Act of 1984, Pub. L. 98-397.

.07 Sponsoring Organization — A "sponsoring organization" is a bank (as defined in section 581 of the Code), an insured credit union within the meaning of section 101(6) of the Federal Credit Union Act, a person that has been approved by the Service in accordance with section 1.401-12(n) of the regulations, to act as a nonbank trustee, an insurance company, a regulated investment company (as defined in section 851 of the Code), an investment advisor that has an advisory contract with one or more regulated investment companies, or a principal underwriter that has a principal underwriting contract with one or more regulated investment companies. The term "sponsoring organization" also includes a trade or professional organization having characteristics similar to those described in section 1.501(c)(6)-1 of the regulations which markets its plan only to its members in their capacity as adopting employers. (See sections 6.03 and 12 regarding the effect of adoption of a plan sponsored by a trade or professional organization by an employer that is not a bona fide member of such organization.)

.08 Standardized Form Plan — A "standardized form plan" is a master or prototype plan which meets the following requirements:

1 The provisions governing eligibility and participation are such that the plan by its terms must cover all employees described in section 5.09 (regardless of whether any employer is treated as operating separate lines of business under section 414(r)) except those that may be excluded under sections 410(a)(1) or (b)(3) of the Code. For example, a plan providing full and immediate vesting may exclude employees who do not have at least two years of service. However, the adoption agreement may provide options as to whether some or all of the employees described in sections 410(a)(1) or (b)(3) are to be excluded.

2 The eligibility requirements under the plan are not more favorable for highly compensated employees (as defined in section 414(q) of the Code) than for other employees.

3 The vesting schedule in the plan provides vesting at a rate at least as favorable for every year as would be required by the schedules set forth in section 416(b)(1)(A) or (B) of the Code if the plan were top-heavy for every year after 1983.

4 Except for contributions made under a qualified cash or deferred arrangement, as defined in section 401(k) of the Code and the regulations (including proposed) thereunder, the contributions (including forfeitures) provided under the plan (if a defined contribution plan other than a target benefit plan) or the benefits (if a defined benefit plan or a target benefit plan that complies with Rev. Rul. 76-464, 1976-2 C.B. 115) are a uniform percentage of total compensation within the meaning of section 414(s) of the Code, excluding compensation in excess of the limitation under section 401(a)(17). A plan will not be treated as failing to meet this requirement merely because it involves integration with Social Security benefits or contributions provided (a) the form of the plan meets the permitted disparity limitations of section 401(l), or (b) the plan is a defined benefit plan with a final pay limitation that satisfies the requirements of section 401(a)(5)-(D). Also, this section does not preclude a sponsoring organization from submitting a standardized defined benefit or target benefit plan which uses a unit benefit formula based on years of service. (See Section 8 of this revenue procedure for rules governing contributions made under a cash or deferred arrangement.)

.09 Paired Plans — "Paired plans" are either a combination of two or more defined contribution standardized form plans or a combination of one or more defined contribution standardized form plans and one defined benefit standardized form plan (for example, a money purchase pension plan, a profit-sharing plan and a unit benefit or flat benefit pension plan), so designed that if any single plan, or combination of plans, is adopted by an employer, each plan by itself, or the plans together, will meet the anti-discrimination rules set forth in section 401(a)(4) of the Code, the contribution and benefit limitations set forth in section 415 of the Code, and the top-heavy provisions set forth in section 416 of the Code. Paired plans must have the same sponsoring organization. In addition, only one of the paired plans that an employer adopts may provide for disparity in contributions or benefits that is permitted under section 401(l). If one of the paired plans is a defined benefit plan that includes a final pay limitation as described in section 401(a)(5)(D), then the paired defined contribution plan(s) may not provide for disparity in contributions.

.10 Replacement Plan — A "replacement plan" is a plan submitted by a sponsoring organization pursuant to this revenue procedure which restates or amends a prior plan (or plans) of that sponsoring organization for which a favorable TEFRA opinion letter has been issued. Except to the extent permitted under regulations sections 1.401(a)-4 and 1.411(d)-4, a replacement plan must preserve all section 411(d)(6) protected benefits which were provided under the replaced plan(s) (see section 5.03). The replacement plan must be the same type of plan as the plan(s) replaced (e.g., both plans are money purchase pension plans or both plans are profit-sharing plans). Thus, if a basic plan document with two profit-sharing plan adoption agreements is replaced by a basic plan document with one profit-sharing plan adoption agreement and one money purchase pension plan adoption agreement, only the profit-sharing adoption agreement may be considered as a replacement plan for both prior profit-sharing plans. In addition, the prior basic plan document can only be replaced by one amended or restated basic plan document, although each prior adoption agreement may be replaced by more than one amended, restated or additional adoption agreement. Thus, for example, a basic plan document with one profit-sharing adoption agreement could be replaced by one amended or restated basic plan document with one or more profit-sharing adoption agreements, but could not be replaced by two or more basic plan documents each with profit-sharing adoption agreements.

.11 National Sponsoring Organization — A national sponsoring organization is a sponsoring organization which has either (a) 30 or more adopting employers in each of 30 or more states (treating, for this purpose, the District of Columbia as a state) or (b) 3000 or more adopting employers. The determination as to whether there are 3000 or more adopting employers or 30 or more adopting employers in each of 30 or more states may be made on any one date during the 12 month period ending on the date 90 days after the effective date of this revenue procedure. For this purpose, an adopting employer is any employer that has adopted any M&P plan of the sponsoring organization which plan has a favorable TEFRA opinion letter.

SEC. 4. OVERVIEW OF THE REVENUE PROCEDURE

.01 Except as described in this section or as required because of changes to plan qualification rules, this revenue procedure generally preserves the structure and requirements of the M&P opinion letter program as set forth in Rev. Proc. 84-23.

.02 Reliance — As under Rev. Proc. 84-23, whether an employer who adopts an M&P plan with a favorable opinion letter receives reliance on the opinion letter (i.e., automatic assurance that any disqualification of the plan on account of the form of the plan will ordinarily be non-retroactive) without the need to obtain a favorable determination letter depends on the form of the M&P plan the employer adopts.

1 An employer who adopts a standardized form defined contribution plan, or paired standardized form defined contribution plans, will not, except under certain circumstances, have to obtain a determination letter because the qualification of such plans does not depend on the particular facts and circumstances of the employer.

2 An employer who adopts a standardized form defined benefit plan, or paired standardized form defined benefit and defined contribution plans may rely on the opinion letter(s) issued to the sponsoring organization with respect to such plan(s) only if the employer's standardized (paired) defined benefit plan satisfies one of the safe-harbors provided in regulations under section 401(a)(26) with respect to its prior benefit structure or is deemed to satisfy section 401(a)(26) under such regulations. However, in connection with the initial adoption or amendment by an employer of a standardized (paired) defined benefit plan, such employer may request a determination letter if the employer wishes to have reliance as to whether its plan satisfies section 401(a)(26) with respect to its prior benefit structure.

3 In all other cases (i.e., the adoption of non-standardized form plans), the employer must obtain a favorable determination letter in order to have reliance.

.03 Continued, Interim, and Extended Reliance —

1 This revenue procedure provides that an employer who adopts a master or prototype plan which received a favorable TEFRA opinion letter under Rev. Proc. 84-23 may continue to rely on such a letter provided the sponsoring organization submits to the Service a replacement plan which meets the

requirements of this revenue procedure by March 31, 1990, and the employer adopts the approved replacement plan by the later of the last day of the twelfth month beginning after a favorable opinion letter is issued under this procedure, or the end of the remedial amendment period under section 401(b) of the Code and the regulations thereunder. To be entitled to this reliance, certain other conditions must be satisfied, including, for example, the condition that a plan must comply operationally, as of the applicable effective dates, with those requirements of TRA '86 that are effective before 1989. This reliance is not provided in the case of a plan which did not receive a favorable opinion letter under Rev. Proc. 84-23.

2 This revenue procedure also provides a period of extended reliance in the case of any M&P plan (including a new plan) which is submitted in accordance with the requirements of this procedure by March 31, 1990, and is subsequently approved by the Service. An employer who adopts such a plan and is otherwise entitled to reliance under this revenue procedure or under Rev. Proc. 80-30 may rely on the favorable opinion letter issued under this procedure (or on a determination letter, if required) until the earlier of the date established for plan amendment by subsequent legislation or the last day of the last plan year beginning before January 1, 1995.

.04 Mass Submitter Program —

1 Under this revenue procedure, the mass submitter program is established as a permanent program to provide expedited review of plans submitted in accordance with the requirements of section 18 of this revenue procedure. Under this revenue procedure, an entity must submit, along with its initial submission of the mass submitter plan, applications for at least 10 sponsoring organizations that will sponsor a plan which is word-for-word identical to the mass submitter's plan, as approved by the Service. Once the mass submitter submits applications for at least 10 identical adopters, it may submit additional applications for sponsoring organizations that will sponsor the mass submitter's plan with minor modifications, as provided in section 18.032.

2 Under this revenue procedure, the Service will issue opinion letters to mass submitters with respect to flexible plans. A "flexible plan" is a mass submitter plan which contains certain optional provisions which an adopting sponsoring organization may choose to include in or delete from the plan it makes available to adopting employers. (See section 18.031(b) for a list of the types of optional provisions which may be included in a flexible plan.) A sponsoring organization's adoption of a plan which differs from the mass submitter's flexible plan only because the sponsoring organization has deleted certain optional provisions will be deemed to be an adoption of a plan that is word-for-word identical to the mass submitter's plan. If the sponsoring organization's plan differs in any other way from the mass submitter's plan, such difference(s) must constitute a minor modification under section 18.032 or the sponsoring organization's plan will not receive expedited review.

3 If a mass submitter wishes to amend its plan, it must notify the Service of its intent to amend the plan. The Service will then send a list to the mass submitter showing all sponsoring organizations that have adopted the mass submitter's plan prior to its amendment. The mass submitter must then identify each of the sponsoring organizations that are adopting the amended plan. Those sponsoring organizations that wish to adopt the amended plan and are identified by the mass submitter will, for purposes of issuing new opinion letters, automatically be deemed to have made such amendments while those not so identified will no longer be considered to have adopted a plan that is identical to or a minor modification of a mass submitter's plan. (But see section 18.031(c) for the procedures relating to the addition of certain optional provisions to a mass submitter's approved flexible plan.)

4 Within 30 days after the effective date of this revenue procedure, the Service will mail to each entity which was approved as a mass submitter under Rev. Proc. 84-23 a list of those sponsoring organizations that have previously adopted plans that are word-for-word identical to the mass submitter's plans along with such plans' file folder numbers. Mass submitters should use these lists, in accordance with the instructions provided with such lists, in applying for opinion letters under this procedure with respect to those sponsoring organizations' plans.

5 In order to reduce the paperwork burdens on mass submitters and sponsoring organizations which use mass submitter plans, the Service has designed a simplified application form, Form 4461-B, to be used to request applications on behalf of sponsoring organizations which are adopting plans that are identical to or minor modifications of mass submitter plans. This form should be used in those circumstances where the aforementioned list may not be used (e.g., in the case of new sponsoring organizations, new plans or minor modifier plans). Form 4461-B will be processed using optical scanning equipment and must therefore be prepared as described in this revenue procedure (see section 18.02).

.05 Multiple Plans —

1 A sponsoring organization may utilize one basic plan document with respect to several plans. For example, a sponsoring organization may submit four plans with respect to a given defined benefit basic plan document (an integrated standardized form plan, a non-integrated standardized form plan, a non-integrated non-standardized form plan, and an integrated non-standardized form plan). A sponsoring organization may also use one defined contribution basic plan document for a money purchase plan, a target benefit plan, and a profit-sharing plan. One basic plan document may not be used with respect to both defined benefit and defined contribution plans. A separate adoption agreement and completed application form must be submitted with respect to each defined benefit plan and each defined contribution plan. In the case of a simultaneous submission of plans using the same basic plan document, only one copy of the basic plan document need be provided. If the requests are not simultaneous, the sponsoring organization must submit a copy of the basic plan document with each submission and include a cover letter identifying the original submission. The number of such basic plan document must remain the same as in the prior submission.

2 Paired plans (as defined in section 3.09) must be submitted simultaneously. Paired plans are paired by the basic plan documents. Two defined contribution plans that are paired (for example, a profit-sharing plan and a money purchase plan) must share one basic plan document.

3 Under Rev. Proc. 84-23, a sponsor was limited to one set of paired plans. This revenue procedure eliminates the limitation on the number of sets of paired plans which a sponsor may adopt. However, each set may include no more than two basic plan documents as provided above. In addition, this rev-

enue procedure provides that only one of the paired plans which an employer adopts may provide for disparity in contributions or benefits that is permitted under section 401(l).

.06 Special Provisions Required in Master and Prototype Plans —

1 Because of the nature of the M&P program, this revenue procedure requires that special provisions be included in every master or prototype plan. Section 5 includes some of these requirements. Thus, for example, M&P plans must contain language permitting the sponsor to amend the plan. Furthermore, provisions must be included to ensure compliance with section 411(a)(10) and (d)(6) of the Code, such as in the event an adopting employer amends the plan by revising the options selected in the adoption agreement. The plan language is required in order that the employer's plan may remain in the M&P program and still satisfy the requirements of sections 411(a)(10) and (d)(6).

2 This revenue procedure requires every master or prototype plan to include in the adoption agreement the address and telephone number of the sponsoring organization or the sponsoring organization's authorized representative. The purpose of this requirement is to ensure that the sponsoring organization is available to answer employer inquiries regarding plan provisions, adoption of the plan, and the effect of an opinion letter. This requirement does not oblige a sponsoring organization to provide legal advice or administrative services to adopting employers.

3 Under this revenue procedure, the Service will not issue an opinion letter with respect to any plan (other than a plan which includes a qualified cash or deferred arrangement (CODA) under section 401(k) of the Code or a master plan (i.e., a plan with a single master trust for all adopting employers) that designates the sponsoring organization as plan administrator) that provides for contributions which are subject to the special non-discrimination requirements of section 401(m).

4 Master and prototype plans may be adopted by an employer that has other plans covering the same employees. Such plans must be aggregated for purposes of section 415 of the Code. Aggregation may also be required under section 416 of the Code. It is impossible for sponsors of M&P plans to include form language that properly aggregates such M&P plan with any other plan of an adopting employer. Therefore, provision is made to enable adopting employers to add additional language to an M&P plan.

.07 Special Requirements for Plans That Include a Cash or Deferred Arrangement — Under Rev. Proc. 84-23, the National Office did not issue opinion letters with respect to plans containing a cash or deferred arrangement (CODA) as described in section 401(k) of the Code. Rev. Proc. 87-18, 1987-1 C.B. 709, modified Rev. Proc. 84-23 to provide for the issuance of opinion letters with respect to plans which are drafted or amended to contain CODAs. This revenue procedure supersedes Rev. Proc. 87-18 and provides that in order to receive a favorable opinion letter, a master or prototype plan which includes a CODA must comply with the special requirements set forth in section 8.

.08 Submission Period for Master and Prototype Applications — Generally, no applications for approval of master or prototype plans may be submitted prior to July 7, 1989. However, mass submitters (as defined in section 18.01) and national sponsoring organizations (as defined in section 3.11) may submit applications beginning April 10, 1989.

SEC. 5. PROVISIONS REQUIRED IN EVERY MASTER OR PROTOTYPE PLAN

.01 Sponsor Amendments — Master or prototype plans must provide a procedure for sponsor amendment, so that changes in the Code, regulations, revenue rulings, other statements published by the Internal Revenue Service, or corrections of prior approved plans may be applied to all employers who have adopted the plan.

.02 Employer Amendments — An employer that amends any provision of an approved master or prototype plan including its adoption agreement (other than to change the choice of options, if the plan permits or contemplates such a change) or an employer that chooses to discontinue participation in a plan as amended by its sponsoring organization and does not substitute another approved master or prototype plan is considered to have adopted an individually designed plan. However, this rule does not apply in the case of amendments permitted under section 5.04, and certain model amendments published by the Service, which specifically provide that their adoption by an adopter of an M&P plan will not cause such plan to be treated as individually designed. An employer that amends a master or prototype plan because of a waiver of the minimum funding requirement under section 412(d) of the Code will also be considered to have an individually designed plan. The procedures stated in Rev. Proc. 80-30 relating to the issuance of determination letters for individually designed plans, will then apply to the plan as adopted by the employer.

.03 Anti-Cutback Provisions — Master and prototype plans must specifically provide for the protection provided under section 411(a)(10) and (d)(6) of the Code in the event that the employer amends the plan in any manner such as by revising the options selected in the adoption agreement or by adopting a new master or prototype plan. An M&P sponsor may not amend its plan in a manner that could result in the elimination of a benefit protected under section 411(d)(6) with respect to the plan of any adopting employer, unless permitted to do so under regulation sections 1.401(a)-4 and 1.411(d)-4. In addition, a master or prototype plan that does not contain vesting for all years which is at least as favorable to participants as that provided in section 416(b) of the Code, must specifically provide that any vesting which occurs while the plan is top-heavy will not be cut back if the plan ceases to be top-heavy.

.04 Adopting Employer Modification to Satisfy Sections 415 and 416 — Master or prototype plans must provide that the plan provisions may be amended by overriding plan language completed by the employer in the adoption agreement where such language is necessary to satisfy section 415 or 416 of the Code because of the required aggregation of multiple plans under these sections. In the event of such an amendment the adopting employer must obtain a determination letter in order to continue reliance on the plan's qualified status. Generally, a space should be provided in the adoption agreement with instructions for the employer to add such language as necessary to satisfy sections 415 and 416. In addition, a space must be provided in the adoption agreement for the employer to specify the interest rate and mortality tables used for purposes of establishing the present value of accrued benefits in order to compute the top heavy ratio under section 416. Such a space must be included in both defined contribution plans and defined benefit plans.

.05 Defined Contribution Section 415 Aggregation — Plan language must be incorporated that aggregates all defined contribution master and prototype plans to satisfy section 415(c) and (f) of the Code. Sample language provided in the

Employee Plans Technical & Actuarial Division's Listing of Required Modifications may be obtained by writing to the Internal Revenue Service, Employee Plans Technical & Actuarial Division, Washington, D.C. 20224, Attention E:EP:Q.

.06 Top-Heavy Requirements — Except to the extent described in section 7.03, relating to paired plans, each plan must either provide that all the additional requirements applicable to top-heavy plans (described in section 416 of the Code) apply at all times or provide that such requirements apply automatically if the plan is top-heavy regardless of how the adoption agreement is completed. In any case where the latter option is chosen, all the requirements for determining whether the plan is top-heavy must be included in the plan. (See Questions T-35 and T-36 of regulation section 1.416-1.)

.07 Additional Top-Heavy Minimums to Satisfy Section 415(e) — Each plan must provide automatically or by optional provisions the additional minimums described in section 416(h)(2)(A) of the Code.

.08 Provisions Required in Adoption Agreements — In order to avoid unnecessary confusion as to the scope of an opinion letter, sponsoring organizations must include in the adoption agreement of all master or prototype plans (other than standardized form and paired plans), in close proximity to the signature blank, a statement that adopting employers may not rely on an opinion letter issued by the National Office with respect to the qualification of that plan and should apply to the appropriate key district for a determination letter in order to obtain reliance. Standardized form and paired plans must also include a similar statement in the adoption agreement that the adopting employer may not rely on the opinion letter issued by the National Office and should apply for a determination letter if the employer maintains or later adopts another plan in addition to the standardized form plan or paired plans. In the case of a standardized defined benefit plan, this statement must also advise the adopting employer that the opinion letter may be relied on with respect to whether the plan meets the minimum participation requirements of section 401(a)(26) of the Code only if the plan satisfies one of the safe-harbors provided in regulations under section 401(a)(26) with respect to its prior benefit structure or is deemed to satisfy section 401(a)(26) under such regulations. However, in connection with the initial adoption or amendment by an employer of a standardized (paired) defined benefit plan, such employer may request a determination letter if the employer wishes to have reliance as to whether its plan satisfies section 401(a)(26) with respect to its prior benefit structure. For this purpose, a plan that is properly replaced by the adoption of a standardized form plan is not considered another plan. The adoption agreement must state that it is to be used with one and only one specific basic plan document. In addition, the adoption agreement must contain a cautionary statement to the effect that the failure to properly fill out the adoption agreement may result in disqualification of the plan. The adoption agreement must also contain a statement which provides that the sponsoring organization will inform the adopting employer of any amendments made to the plan or of the discontinuance or abandonment of the plan.

.09 Definition of Employee / Sections 414(b), (c), (m), (n) and (o) — Each master or prototype plan must include a definition of employee as any employee of the employer maintaining the plan or any other employer aggregated under section 414(b), (c), (m) or (o) of the Code and the regulations thereunder. The definition of employee shall also include any individual deemed under section 414(n) (or under regulations under section 414(o)) to be an employee of any employer described in the previous sentence.

.10 Definition of Service / Sections 414(b), (c), (m), (n), and (o) — Each master or prototype plan must specifically credit all service with any employer aggregated under section 414(b), (c), (m) or (o) of the Code and the regulations thereunder as service with the employer maintaining the plan. In addition, in the case of an individual deemed under section 414(n) (or under regulations under section 414(o)) to be the employee of any employer described in the previous sentence, service with such employer must be credited to such individual.

.11 Other requirements — In addition to the requirements listed in section 10.07 and any other substantive requirements, master or prototype plans must comply with the requirements of all revenue rulings, notices, legislation, and regulations including:

1 Final regulations under the Retirement Equity Act of 1984 (REA);

2 Final regulations under sections 401(a)(4) and 411(d)(6) of the Code on limitations on availability of benefits;

3 If the plan includes a cash or deferred arrangement, final regulations under section 401(k) of the Code;

4 If the plan is an integrated defined benefit plan, Rev. Rul. 86-74, 1986-1 C.B. 205 (modifications to guidelines for social security integration under Rev. Rul. 71-446) with respect to plan years beginning after the relevant effective date specified in section 6 of the revenue ruling and before January 1, 1989.

.12 Sponsoring Organization Telephone Numbers — Master or prototype plan adoption agreements must include the sponsoring organization's address and telephone number (or a space for the address and telephone number of the sponsoring organization's authorized representative) for inquiries by adopting employers regarding the adoption of the plan, the sponsoring organization's intended meaning of any plan provisions, or the effect of the opinion letter.

SEC. 6. STANDARDIZED FORM PLANS

.01 Reliance — An employer adopting a standardized form plan or paired plans may rely on its opinion letter, except as provided in subsections .02, .03, and .04, below, if the provisions of section 15.011 of Rev. Proc. 80-30, as modified by section 19.03 of this revenue procedure, are satisfied.

.02 Non-Reliance by Employer Maintaining More than One Plan — Except in the case of a combination of paired plans, an employer may not rely on opinion letters for standardized form plans, without obtaining a determination letter, if the employer maintains at any time, or has maintained at any time, another plan, including a standardized form plan, that was qualified or determined to be qualified covering some of the same participants. For this purpose, a plan that has been properly replaced by the adoption of a standardized form plan is not considered another plan. The plan that has been replaced and the standardized form plan must be of the same type (e.g., both money purchase pension plans) in order for the employer to be able to rely on the standardized form plan without obtaining a determination letter.

.03 Reliance by Employer Adopting a Standardized Defined Benefit Plan — An employer that has adopted a standardized defined benefit master or prototype plan may rely on an opinion letter only if the plan satisfies one of the safe-harbors provided in regulations under section 401(a)(26) with respect to its prior benefit structure or is deemed to satisfy section 401(a)(26) under such regulations.

However, in connection with the initial adoption or amendment by an employer of a standardized (paired) defined benefit plan, such employer may request a determination letter if the employer wishes to have reliance as to whether the plan satisfies section 401(a)(26) with respect to its prior benefit structure.

.04 Reliance by Employers Adopting Standardized Plans Sponsored by Trade or Professional Organizations — A standardized form plan sponsored by a trade or professional organization which is adopted by an employer that is not a bona fide member of such organization will be considered an individually designed plan and the procedures in Rev. Proc. 80-30 regarding the issuance of determination letters for individually designed plans will apply to the employer's plan.

.05 Sharing Basic Plan Document By Standardized and Non-Standardized Plans — A sponsoring organization may establish a basic plan document that applies to both a standardized form plan and a non-standardized form plan. Such plans may differ only by the different adoption agreements. For example, the adoption agreement for the plan that is a non-standardized form plan may have additional coverage options.

SEC. 7. SPECIAL REQUIREMENTS FOR PAIRED PLANS

.01 Limits of Section 415(e) Must Be Provided in Defined Benefit Plan Only — The benefits under a defined benefit plan in a combination of paired plans must be limited by the requirements of section 415(e) of the Code relating to the aggregation of defined benefit and defined contribution plans. Adjustments to satisfy the requirements of section 415(e) may only be provided in the defined benefit plan with respect to benefits thereunder.

.02 Section 416(h) Adjustment to Section 415(e) Limits — Paired plans that include a defined benefit plan must compute the denominators of defined benefit and defined contribution fractions in a manner satisfying section 416(h)(1) of the Code unless the requirements of section 416(h)(2) are satisfied. Paired plans providing the unreduced section 415(e) limits must provide, regardless of how the adoption agreement is completed, the additional top-heavy minimums described in section 416(h)(2)(A) and provide that the unreduced section 415(e) limits will not apply if the plan is super top-heavy as described in question T-33 of section 1.416-1 of the Income Tax Regulations. In testing for super top-heavy, all the requirements of questions T-35 and T-36 of section 1.416-1 of the regulations must be included in the plan.

.03 Coordination of Minimum Benefits and Contributions Under Top-Heavy Plans — Paired plans, subject to the limits of section 415 of the Code, may provide duplication of the minimum benefits and contributions in each of the plans being paired. The paired plans (when they become top-heavy) may, however, provide minimum contributions and benefits that are not duplicative. In that case, only two methods may be used:

1 The defined benefit plan must provide the 2% (3% if the unreduced section 415(e) limit is used) defined benefit minimum for all its participants. The defined contribution plan must provide the defined contribution minimum for participants in the defined contribution plan who are not participants in the paired defined benefit plan, or

2 The defined contribution plan must provide a contribution not less than 5% (7 1/2% if the unreduced section 415(e) limit is used) with respect to any participant who is a participant in a paired defined benefit plan and a contribution not less than 3% (4% if the unreduced section 415(e) limit is used) for any participant who is not a participant in the paired defined benefit plan. The defined benefit plan must provide the 2% minimum (3% if the unreduced section 415(e) limit is used) with respect to any participant who is not in the defined contribution plan or who does not receive the entire defined contribution allocation.

.04 Pairing Provisions Must be in the Basic Plan Document — In the case of paired plans, all provisions necessary to coordinate the plans (other than the reliance statement required under section 5.08 of this revenue procedure) must be set forth in the basic plan document and not in the adoption agreement.

.05 Paired Plans Limited to Two Different Basic Plan Documents — While the sponsoring organization is not limited in the number of sets of paired plans it may adopt, each set must be limited to two different basic plan documents: one for defined benefit plans and one for defined contribution plans. The pairing of defined contribution plans requires only one basic plan document such as a profit-sharing plan and a money purchase plan containing the identical basic plan document and two different adoption agreements. A sponsoring organization may provide a pairing of defined benefit and defined contribution plans in such a manner that with two different basic plan documents and three adoption agreements, an adopting employer may adopt a profit-sharing plan, a money purchase plan, and a defined benefit plan.

SEC. 8. SPECIAL REQUIREMENTS FOR PLANS THAT INCLUDE A CASH OR DEFERRED ARRANGEMENT

.01 Required Provisions — In order to receive a favorable opinion letter, a master or prototype plan which includes a cash or deferred arrangement (CODA) must be a profit-sharing plan or a rural electric cooperative plan, as defined in section 401(k)(7) of the Internal Revenue Code, and must include provisions which comply with the following list:

1 The CODA must include a mechanism whereby an eligible employee may make a cash or deferred election with respect to employer contributions, within the meaning of section 401(k).

2 The minimum number of years of service required for participation in the cash or deferred arrangement cannot exceed 1.

3 Separate accounts must be maintained for each participant's

(a) elective deferrals, as described in section 402(g)(3)(A) of the Code;

(b) qualified nonelective contributions, as described in section 401(m)(4)(C), and qualified matching contributions used to satisfy the test provided in section 401(k)(3);

(c) employee contributions; and

(d) matching contributions, as described in section 401(m)(4)(A) of the Code, that are not used to satisfy the test provided in section 401(k)(3).

4 Elective deferrals, employee contributions, qualified nonelective contributions, and qualified matching contributions must be nonforfeitable at all times.

5 Amounts attributable to elective deferrals (other than excess deferrals or excess contributions), qualified nonelective contributions, and qualified matching contributions used to satisfy the test provided in section 401(k)(3), may not be withdrawn prior to the occurrence of one of the events specified in section 401(k)(2)(B).

6 If the plan provides for hardship distributions, then for plan years beginning after December 31, 1988, amounts attributable to qualified nonelective contributions and qualified matching contributions may not be distributed merely

on account of hardship. Also, income allocated to elective deferrals after December 31, 1988 may not be distributed on account of hardship.

7 If the plan provides for hardship distributions of amounts attributable to elective deferrals, then, for the purpose of determining the existence of an immediate and heavy financial need and the amount necessary to meet that need, the plan must adopt the safe-harbor standards set forth in sections 1.401(k)-1(d)(2)(ii)(B) and (iii)(B) of the regulations.

8 The CODA provisions may not be integrated with social security.

9 Elective deferrals under the plan may not exceed $7000 (or such greater amount as subsequently determined in accordance with increases provided under section 415(d)) for any taxable year.

10 A mechanism must be provided by which a participant may notify the plan administrator of an allocation of excess elective deferrals, and upon which notice such excess elective deferrals, and the applicable earnings, will be distributed to the participant by April 15 of the year following the taxable year of deferral.

11 The Actual Deferral Percentage (ADP) test set forth in section 401(k)(3) of the Code must be contained in the plan.

12 Definitions of highly compensated employee and family member, as described in section 414(q) of the Code, and compensation as described in section 414(s), must be contained in the plan.

13 The method or methods by which the plan may correct contributions in excess of those allowed under the ADP test must be described in the plan. The plan must provide that the employer will maintain records to demonstrate compliance with the nondiscrimination requirements of 401(k), including the extent to which qualified nonelective contributions and qualified matching contributions are taken into account.

14 An explanation of the 10% excise tax imposed by section 4979 of the Code upon employers that have not distributed (within 2 1/2 months following the end of the plan year) or recharacterized contributions in excess of the amount allowed by the ADP test must be contained in the plan.

15 A mechanism must be provided to assure the proper ordering of tests as described in section 401(m)(6)(D) of the Code.

16 Provisions to satisfy the top-heavy requirements as set forth in section 416 must be contained in the plan. For plan years beginning on or after January 1, 1989, plans may not include elective deferrals or matching contributions as employer contributions for the purpose of satisfying the minimum contribution requirements.

17 The plan must provide that if contributions subject to section 401(m) are made pursuant to the plan containing the CODA or any other plan maintained by the same employer, such employer must designate the method of correction to be used and the plan to be corrected if a multiple use of the alternative limitation (within the meaning of section 401(m)(9) of the Code) occurs.

.02 Optional Provisions — Master or prototype plans that include CODA provisions may also include some or all of the following items:

1 Matching employer contributions or employee contributions. If such contributions are made, the plan must contain the Actual Contribution Percentage (ACP) non-discrimination test set forth in section 401(m)(2) of the Code, and must describe the method or methods by which the plan will correct contributions made in excess of the section 401(m)(2) limits. The plan must provide that the employer will maintain records to demonstrate compliance with the nondiscrimination requirements under section 401(m), including the extent to which qualified nonelective contributions and elective contributions are taken into account. The plan must also contain an explanation of the 10% excise tax imposed by section 4979 of the Code upon employers that have not corrected contributions in excess of the amount allowed by the ACP test within 2½ months following the end of the plan year;

2 qualified nonelective contributions (QNECs);

3 recharacterization of elective contributions in excess of the ADP test as voluntary employee contributions subject to section 401(m);

4 employer contributions, including elective deferrals, to be made regardless of profits;

5 use of QNECs to satisfy the ADP test;

6 use of qualified matching contributions to satisfy the test set forth in section 401(k); and

7 distributions on account of participant hardship (but see sections 8.016 and 8.017).

.03 Additional Requirements for Standardized Form Plans —

1 A standardized form plan that includes a CODA must, in addition to satisfying the requirements listed in section .02 above, provide a minimum qualified nonelective contribution of 3% of compensation.

2 The requirement that contributions be a uniform percentage of each participant's compensation does not apply to elective deferrals, QNECs or matching contributions (if any) under the CODA. However, all other requirements of sections 3.08 and 6 of this revenue procedure apply to a standardized form plan that contains a CODA.

SEC. 9. OPINION LETTERS — SCOPE

.01 Issuance Only to Appropriate Sponsors — Opinion letters will be issued only to sponsoring organizations or mass submitters (as provided in section 18.01) and do not constitute rulings or determinations as to either the qualification of the plans as adopted by particular employers, or, in the case of prototype plans, the exempt status of related trusts or custodial accounts.

.02 Nonapplicability of the Procedure to IRAs and SEPs — Opinion letters will not be issued under this revenue procedure for prototype plans intended to meet the requirements for individual savings programs or simplified employee pension programs under section 408 of the Code (see Rev. Proc. 87-50, 1987-2 C.B. 647).

.03 Areas Not Covered by Opinion Letters — Opinion letters will not be issued for:

1 Any plan under which the rules of section 401(a), 410 or 411 are applied by treating the employees of more than one employer as employed by a single employer, and any plan which has been negotiated pursuant to a collective bargaining agreement and submitted to the Service as a plan maintained pursuant to a collective bargaining agreement. For this purpose, the term "one employer" includes all employers aggregated under section 414(b), (c), (m) or (o). This does not preclude a master or prototype plan, by its terms, from covering employees of the employer who are included in a unit covered by a collectively bargained agreement or the adoption of a master or prototype plan pursuant to such agreement as a single employer plan which covers only employees of the employer. However, the Service will not issue an opinion letter with respect to an M&P plan if any provision therein would cause a plan

that is not described in section 413(b) of the Code to fail to be qualified. Furthermore, an opinion letter may not be relied on with respect to whether a plan satisfies any requirement that is applicable to a plan described in section 413(b) but inapplicable to other plans;

2 Stock bonus plans;

3 Bond purchase plans;

4 Employee stock ownership plans (see Rev. Proc. 75-48, 1975-2 C.B. 583);

5 Pooled fund arrangements contemplated by Rev. Rul. 81-100, 1981-1 C.B. 326;

6 Annuity contracts under section 403(b) of the Code;

7 Uniform plans (see Rev. Proc. 84-86, 1984-2 C.B. 787);

8 Defined contribution plans (except for target benefit plans) under which the test for prohibited discrimination under section 401(a)(4) of the Code is made by reference to benefits rather than contributions;

9 Plans that involve integration with Social Security benefits or contributions other than plans that, in form, meet the permitted disparity limitations of section 401(l) or that satisfy the requirements of section 401(a)(5)(D).

10 Plans described in section 414(k) of the Code (relating to a defined benefit plan which provides a benefit derived from employer contributions which is based partly on the balance of the separate account of a participant);

11 Defined contribution plans (other than any CODA portion of such a plan) that allocate contributions or forfeitures to the account of any participant in any manner other than on the basis of total compensation within the meaning of section 414(s);

12 Target benefit and defined benefit plans that provide benefits on the basis of compensation where compensation is not defined as total compensation within the meaning of section 414(s);

13 Governmental plans described in section 414(d) of the Code;

14 Church plans described in section 414(e) of the Code that have not made the election provided by section 410(d);

15 Plans, other than master plans (i.e., plans with a single master trust for all adopting employers) that designate the M&P sponsoring organization as plan administrator and plans which include a qualified CODA under section 401(k) of the Code, which permit contributions which are subject to the special nondiscrimination requirements of section 401(m). However, this does not prohibit mandatory employee contributions in a defined benefit plan. In the case of a plan which includes a qualified CODA, such plan may provide for after-tax employee contributions and matching contributions in addition to elective deferrals.

16 Plans which contain or may contain a multi-tiered benefit structure (other than an integrated benefit formula). Thus, a plan may not provide different benefit formulas for different employees, such as two percent of compensation for salaried employees and one percent for hourly employees.

17 Any plan under which the section 415 limitations are incorporated by reference.

18 Any plan under which the ADP test under section 401(k)(3) or the ACP test under section 401(m)(2) is incorporated by reference. However, a plan which prohibits contributions subject to the requirements of section 401(m) pursuant to subsection .0315, but which allowed such contributions in a plan year to which section 401(m) applies, may incorporate the section 401(m)(2) test by reference for such prior year's contributions.

.04 Nontransferability of Opinion Letters — An opinion letter issued to a sponsoring organization is not transferable to any other entity. For this purpose, a change of employer identification number is deemed to be a change of entity.

SEC. 10. OPINION LETTERS — INSTRUCTIONS TO SPONSORING ORGANIZATIONS

.01 National Office Issues Opinion Letters — The National Office will, upon the request of a sponsoring organization, issue an opinion letter as to the acceptability under section 401 of the Code of the form of a master or prototype plan and any related trust or custodial account.

.02 Forms and Address for Requesting Opinion Letters — A request for an opinion letter relating to a master or prototype plan must be submitted on the current version of Form 4461, Application for Approval of Master or Prototype Defined Contribution Plan, Form 4461-A, Application for Approval of Master or Prototype Defined Benefit Plan, or Form 4461-B, Application for Approval of Master or Prototype Plan Mass Submitter Adopting Sponsor, as appropriate. All information on the first page of the application must be typed and no photocopies of the first page will be accepted. The request is to be sent to the Internal Revenue Service, Assistant Commissioner (Employee Plans and Exempt Organizations), Attention: E:EP:Q, P.O. Box 14073, Ben Franklin Station, Washington, D.C. 20044. The Service reserves the right to review applications in any order which will expedite the processing of such opinion letter applications. To expedite the review of substantially identical plans which are not described in section 18, relating to mass submitter plans, the Service encourages plan drafters and sponsoring organizations to include in each opinion letter application where it is appropriate a covering letter setting forth the following information:

1 The name and file folder number (if available) of the plan which, for review purposes, the plan drafter designates as the "lead plan" (including the name and EIN of the sponsoring organization);

2 A list of all plans written by the plan drafter which are substantially identical to the lead plan (including the information described in paragraph 1);

3 A description of each place where the plan for which the application is being submitted is not word-for-word identical to the language of the lead plan, including an explanation of the purpose and effect of each such difference;

4 A certification, made under penalty of perjury by the plan drafter, that the information described in paragraph 3 is true and complete. If the sponsoring organization or plan drafter is aware that a lead plan or any substantially identical plan has been assigned for review to a specific tax law specialist, the covering letter should also indicate the name of the tax law specialist. To the extent feasible, lead plans and substantially identical plans should be submitted together. The Service will regard the information and certification described in paragraphs 3 and 4 above as a material representation for purposes of issuing an opinion letter.

.03 Replacement of plans — If the plan is intended to be a replacement plan, as defined in section 3.10 of this revenue procedure, the sponsoring organization must identify the replaced plan(s) by the file folder number(s). After October 31, 1989, the Service will issue a list of all replacement plans which have been submitted on or before such date (see section 13.042). A sponsoring organization will then have 60 days from the date such list is published to identify any replacement plan which was properly submitted but which does not appear on the list. Failure to identify a proper replacement plan within the 60 day period will preclude the sponsoring organization from later claiming that the TEFRA approved plan was in fact properly replaced.

.04 Separate Applications Required for Different Categories of Master or Prototype Plans — An application for a master or prototype plan shall not contain any combination of profit-sharing, money purchase (other than target benefit), target benefit, non-integrated defined benefit, or integrated defined benefit plan features. However, separate defined contribution plans may have the same basic plan document but the provisions of such basic plan document must be identical for both plans (i.e. no elective or optional features).

.05 Sample Language — A Listing of Required Modifications (LRM) containing sample language to be used in drafting master or prototype plans is available from the Employee Plans Technical & Actuarial Division of the Internal Revenue Service. Such language is not automatically required in master or prototype plans but should be used as a guide in drafting such plans. An LRM may be obtained by writing to the Internal Revenue Service, Employee Plans Technical & Actuarial Division, Washington, D.C. 20224, Attention E:EP:Q. To expedite the review of their plans, sponsoring organizations are encouraged to use LRM language and to identify where such language is being used in their plan documents.

.06 Additional Information May Be Requested — The Service may, at its discretion, require any additional information that it deems necessary. If a letter, requesting changes to plan documents, is sent to the plan's sponsoring organization or authorized representative, the changes must be received no later than 30 days from the date of the letter. If the changes are not received within 30 days, the application may be considered withdrawn. An extension of the 30 day time limit will only be granted for good cause. Any request for an extension is to be made in writing prior to the expiration of the 30 day period and must be approved by the Chief of the Qualifications Branch, Employee Plans Technical & Actuarial Division.

.07 Inadequate Submissions — The Service will return, without further action, plans which are not in substantial compliance with the qualification requirements or plans that are so deficient that they cannot be reviewed in a reasonable amount of time. A plan may be considered not to be in substantial compliance if, for example, it omits any of the requirements set forth below, or merely incorporates these requirements by reference to the applicable Code section. The Service will not consider these plans until after they are revised, and they will be treated as new requests as of the date they are resubmitted. No additional user fee will be charged under Rev. Proc. 89-4 if an inadequate submission is amended to be in substantial compliance and is resubmitted to the Service within 30 days following the date the sponsor is notified of such inadequacy. The following are some examples of qualification requirements, the omission of which may cause a plan to be regarded as not being in substantial compliance:

1 Section 401(a)(9) of the Code, as amended by section 1121 of TRA '86, relating to required distributions from qualified plans (see section 1.401(a)-(9)-1 and 2 of the proposed regulations);

2 Section 401(a)(11) of the Code, as amended by section 1898 of TRA '86, and section 417 of the Code, as amended by sections 1139 and 1898 of TRA '86, and the regulations thereunder, relating to minimum survivor annuity requirements;

3 Section 415 of the Code, as amended by sections 1106, 1108, 1114, 1852, 1875, and 1898 of TRA '86, relating to contribution and benefit limits for qualified plans (see Notice 87-21, 1987-1 C.B. 458);

4 Section 416 of the Code, as amended by sections 1106, 1118, and 1852 of TRA '86, containing special rules for top-heavy plans;

5 If the plan provides for disparity in contributions or benefits, section 401(l) of the Code, as amended by section 1111 of TRA '86, relating to nondiscriminatory coordination with Social Security benefits (see sections 1.401(l)-1 through 1.401(l)-4 of the proposed regulations);

6 Section 414(m) of the Code, as amended by section 1114 of TRA '86, relating to employees of affiliated service groups;

7 Section 414(n) of the Code, as amended by sections 1146 and 1151 of TRA '86, relating to leased employees;

8 Section 414(o) of the Code, as added by section 1146 of TRA '86, and the regulations thereunder;

9 Sections 401(c) and (d) of the Code, unless the plan precludes participation by self-employed individuals;

10 Section 411(a)(2) of the Code, as amended by section 1113 of TRA '86, and the temporary regulations thereunder, relating to vesting of employer contributions;

11 If the plan contains a cash or deferred arrangement, section 401(k) of the Code, as amended by sections 1116 and 1879(g) of TRA '86, and the regulations thereunder (see section 1.401(k)-1 of the final and proposed regulations);

12 If the plan permits, or permitted in any plan year beginning after 1986, employee or matching contributions (other than mandatory contributions under a defined benefit plan), section 401(m) of the Code, as added by section 1117(a) of TRA '86, relating to the nondiscrimination test for employee and matching contributions (see section 1.401(m)-1 and 2 of the proposed regulations, and also see section 9.0315 of this revenue procedure for rules as to which plans may permit such contributions);

13 Section 410(a) of the Code, as amended by section 1113 of TRA '86 and section 9203 of OBRA '86, relating to minimum participation standards (see section 1.410(a)-4A of the proposed regulations);

14 Sections 411(b)(1)(H) and 411(b)(2) of the Code, as added by section 9202 of OBRA '86, relating to accruals and allocations after a specified age (see section 1.411(b)-2 of the proposed regulations);

15 If the plan is a contributory defined benefit plan, section 411(c)(2) of the Code, as amended by section 9346(b) of OBRA '87, relating to an employee's accrued benefit derived from employee contributions;

16 Section 401(a)(17) of the Code, as added by section 1106 of TRA '86, relating to the limitation on annual compensation that may be taken into account; and

17 Section 401(a)(26) of the Code, as added by section 1112 of TRA '86, relating to additional participation requirements (see the proposed regulations under section 401(a)(26)).

.08 Material Furnished to Adopting Employers — A sponsoring organization must furnish each adopting employer with a copy of the approved plan, copies of any subsequent amendments, and the most recently issued Internal Revenue Service opinion letter.

.09 Nonidentification of Questionable Issues May Cause Delay — If the plan document submitted as part of an opinion letter request contains a provision that gives rise to an issue for which contrary published authorities exist, failure to disclose and address significant contrary authorities may result in requests for additional information, which will delay action on the request (see section 7.06 of Rev. Proc. 83-36).

.10 Material Furnished to Key District Offices — Each mass submitter and sponsoring organization of a non-mass submitter plan must furnish a copy of the approved master or prototype plan and the Internal Revenue Service opinion letter to each Internal Revenue Service key district office in whose jurisdiction there are employers who adopt the plan. In addition, each mass submitter must submit a list to the appropriate key district office of all sponsoring organizations that have adopted a word-for-word identical plan of the mass submitter and a copy of any plan which contains minor modifications. Each mass submitter and sponsoring organization of a non-mass submitter plan must also furnish key district offices with a copy of all amendments subsequently approved as to form by the National Office. Copies of word-for-word identical plans of mass submitters, as described in section 18.01 of this revenue procedure, need not be submitted to the key district offices.

SEC. 11. AMENDMENTS

.01 Opinion Letters for Sponsor Amendments — A sponsoring organization may amend or restate its previously approved plan (including any related trust or custodial account) and the National Office will entertain a request for a written opinion as to the acceptability, for purposes of sections 401, 403, and 501(a) of the Code, of the form of the plan as amended. If the sponsoring organization is amending its plan, it must, except as provided in section 18.02 and 18.04, submit a Form 4461 or Form 4461-A, as applicable, to the National Office, together with a copy of the amendment(s), a cover letter summarizing the changes to the plan effected by such amendment(s), and a copy of the plan which is being amended. If the sponsoring organization is restating its plan, it must, except as provided in sections 18.02 and 18.04, submit the restated plan, with the changes highlighted, along with a Form 4461 or 4461-A, as applicable. No more than four consecutive amendments may be submitted without restating the plan. In addition, the Service may, at its discretion, require plan restatement at any time that it deems necessary to adequately review a plan. Opinion letters issued by the Service with respect to the restatement or amendment of plans to comply with TRA '86 will not distinguish between restated or amended plans.

.02 No Opinion Letters for Certain Amendments — A master or prototype plan will not lose its qualified status and, except as provided in section .024 below, no opinion letter will be issued merely because amendments are made which solely cover the following:

1 Amendments to conform a plan to the requirements of section 402(a) of Title I of the Employee Retirement Income Security Act of 1974 (ERISA), Pub. L. 93-406, 1974-3 C.B. 1, relating to named fiduciaries.

2 Amendments to conform a plan to requirements of section 503 of ERISA, relating to claims procedures.

3 Amendments that merely adjust the maximum limitations under section 415, 402(g), and 401(a)(17) to reflect annual cost-of-living increases, other than amendments that add an automatic cost-of-living adjustment provision to the plan.

4 Amendments that merely reflect a change of a sponsoring organization's name. However, a sponsoring organization must notify the Service, in writing, of the change in name and must certify that it is still a proper sponsoring organization under this revenue procedure. No opinion letter will be issued and no user fee will be required for a mere change in name. However, if the sponsoring organization wants a new opinion letter, it will have to submit a new Form 4461, 4461-A or 4461-B and pay the appropriate user fee. (Also see section 9.04 regarding changes in employer identification numbers.)

SEC. 12. DETERMINATION LETTER PROCEDURES

Except as provided in section 6, approval by the Service of the form of a master or prototype plan under this revenue procedure does not constitute a determination that an employer who adopts the plan will have a qualified plan. Therefore, such an adopting employer should request a determination letter in accordance with the procedures set forth in Rev. Proc. 80-30. For this purpose, a master or prototype plan sponsored by a trade or professional organization which is adopted by an employer that is not a bona fide member of such organization will be considered an individually designed plan.

SEC. 13. CONTINUED AND INTERIM RELIANCE

.01 Continued Reliance for Pre-Effective Date M&P Plan Adopters — An employer who has adopted a master or prototype plan with a favorable TEFRA opinion letter prior to the effective date of this revenue procedure, and who either was entitled to rely on such opinion letter pursuant to the procedures in effect before such date or receives a favorable determination letter, may continue to rely on such opinion or determination letter for plan years beginning after December 31, 1988 only if the conditions described in section 13.03 are satisfied.

.02 Interim Reliance for Post-Effective Date M&P Plan Adopters — An employer who adopts a master or prototype plan with a favorable TEFRA opinion letter or a replacement plan (as described in section 3.10) on or after the effective date of this revenue procedure, will have reliance, beginning with the first plan year for which such plan is timely adopted, only if:

1 the conditions described in section 13.03 are satisfied;

2 in the case of a replacement plan, the plan's sponsoring organization submits it to the Service in accordance with the requirements of sections 5 and 10 on or before the earlier of the date of the employer's adoption of the plan or March 31, 1990; and

3 in the case of a master or prototype or replacement plan which amends or restates a plan of the employer, the employer is entitled to rely on a favorable opinion or determination letter issued with respect to the plan that is amended or restated at the time of adoption of such master or prototype or replacement plan.

For this purpose, a master or prototype or replacement plan is timely adopted for a plan year if it is adopted on or before the last day of the remedial amendment period provided by regulations under section 401(b) of the Code that includes such year. However, this does not permit a plan to be made retroactively effective for a taxable year prior to the taxable year of the employer in which the plan was first adopted by the employer.

.03 Conditions for Continued or Interim Reliance / Proper Amendment by Sponsoring Organization — Except as provided in section 13.05, the following conditions must be satisfied in order for the employer to obtain the continued or interim reliance described in this section:

1 The employer must operate its plan in accordance with those requirements

of TRA '86, OBRA '86, OBRA '87, and the regulations and revenue ruling described in section 5.11 that are effective for plan years beginning before 1989 as of the effective dates of such requirements.

2 The sponsoring organization of the TEFRA approved plan described in section 13.01 or 13.02 must submit a replacement plan to the Service in accordance with the requirements of sections 5 and 10 on or before March 31, 1990. (However, also see section 13.05.)

3 Unless section 13.05 applies, the employer must adopt the Service approved version of such replacement plan and, except as provided in section 6, request a determination letter on or before the later of the last day of the twelfth calendar month beginning after the date the Service issues a favorable opinion letter under this procedure with respect to such replacement plan or the end of any remedial amendment period under section 401(b) of the Code applicable to the employer's plan. Plan provisions necessary to comply with the requirements of sections 5 and 10 must be made retroactively effective to the extent required by the relevant legislation, regulations, revenue rulings and notices.

.04 Lists of Plans to be Published by the Service — The Service will publish in the Internal Revenue Bulletin

1 After March 31, 1990, a cumulative list of all sponsoring organizations and their related replacement plans which have been submitted in accordance with this revenue procedure on or before such date. If a sponsoring organization believes that a replacement plan has been omitted from the cumulative list, it may, within 60 days of publication of such list, notify the Service by writing to the address in section 10.02, including in its notification the file folder numbers of the replacement plan and the plan(s) it replaces. Thereafter, the Service will publish an addendum to the cumulative list, if necessary. A plan that is not listed on the cumulative list or addendum will in no event be considered a replacement plan for purposes of this revenue procedure.

2 Periodically, a list of sponsoring organizations and their related replacement plans which have been submitted to the Service on or before March 31, 1990 and which

(a) receive favorable opinion letters (and the respective date issued),

(b) receive unfavorable opinion letters, or

(c) withdraw their requests for opinion letters.

.05 Conditions for Continued or Interim Reliance / No Proper Amendment by Sponsor — This subsection applies if the sponsoring organization of the TEFRA approved plan described in section 13.01 or 13.02 fails to submit a proper replacement plan by March 31, 1990, or if it subsequently withdraws its application or receives an unfavorable opinion letter. In order to obtain the continued or interim reliance described in this section, an employer whose master or prototype plan is not included in the list described in subsection .041 or whose master or prototype plan is included in one of the lists described in subsection .042(b) or (c) must operate its plan in compliance with those requirements described in sections 5 and 10 that are effective before 1989 as of the relevant effective dates, adopt all required amendments retroactive to their effective dates, and satisfy either of the following conditions:

1 By the last day of the twelfth calendar month beginning after publication of the relevant list, the employer must adopt another master or prototype plan with a favorable TEFRA opinion letter, or a replacement plan, that is included in the lists described in subsection .041. The employer must then satisfy section 13.033 with respect to the Service approved version of this plan. For this purpose, the twelve month period described in section 13.033 will start with the first month beginning after the later of the date of the favorable opinion letter issued under this procedure or the date of publication of the relevant list showing that the employer's original master or prototype plan was not properly amended.

2 By the later of the last day of the twelfth calendar month beginning after publication of the relevant list or the end of any applicable remedial amendment period, the employer must amend its plan to satisfy the requirements of section 5.11 and section 10 (in which case the plan will be treated as individually designed) and request a determination letter.

.06 Adoption of Another Master or Prototype Plan — An employer will not be treated as having failed to satisfy the conditions set forth in section 13.03 merely because, instead of adopting the Service approved version of the replacement plan described therein, it adopts another master or prototype plan with a favorable TEFRA opinion letter or its replacement plan (a "substitute plan"), provided such plan has been submitted to the Service in accordance with the requirements of sections 5 and 10 on or before March 31, 1990. If the employer's initial adoption of the substitute plan precedes the date of issuance of a favorable opinion letter under this procedure with respect to the replacement plan described in section 13.03, then the twelve month period provided therein will begin with the first month after the date of the favorable opinion letter issued under this procedure with respect to the substitute plan. Furthermore, an employer will not be treated as having failed to satisfy section 13.03 merely because, instead of adopting the Service approved version of the replacement plan described therein, it adopts individually designed amendments intended to comply with the requirements of section 5.11 and section 10, provided such amendments are adopted and a determination letter application is filed within the time set forth in section 13.033.

.07 Adopters of Plans Without Favorable TEFRA Opinion Letters — Any employer who adopts a master or prototype plan which has no favorable TEFRA opinion letter (other than a master or prototype plan which amends or replaces a plan with a favorable TEFRA opinion letter), will not receive the reliance provided by this section.

.08 Reliance for Plan Years Beginning Before 1989 — Notwithstanding any other provision of this section, whether an employer may rely on a favorable TEFRA opinion letter for plan years beginning after December 31, 1986 and before January 1, 1989 will be determined in accordance with Notice 87-28, 1987-1 C.B. 472, and, if the sponsoring organization has adopted model amendments issued by the Service, Notice 8733, 1987-1 C.B. 480, and, if applicable, Notice 87-34, 1987-1 C.B. 490. (Also see section 1140 of TRA '86.)

.09 Examples —

1 Employer X adopted Plan A, a nonstandardized master or prototype profit-sharing plan with a favorable TEFRA opinion letter, in July 1988, and received a favorable determination letter in December 1988. The sponsoring organization of Plan A properly submits a replacement plan to the Service by March 31, 1990. In 1990, before Plan A receives its TRA opinion letter, X amends its plan by adopting Plan B, a standardized profit-sharing plan which replaces a prototype plan with a favorable TEFRA opinion letter and which

has also received a favorable TRA opinion letter when it is adopted by X.

(a) X will be entitled to continued reliance under this revenue procedure if it adopts the Service approved version of replacement Plan B not later than the later of the end of the twelfth month beginning after Plan B receives its TRA '86 opinion letter or the end of any section 401(b) remedial amendment period applicable to X's plan provided the other requirements of section 13.03 have been complied with. X is not required to request a determination letter with respect to Plan B unless it has maintained another plan in addition to this profit-sharing plan.

(b) If replacement Plan A receives its favorable TRA '86 opinion letter before X adopts Plan B, X would be required to adopt a replacement plan with a favorable TRA '86 opinion letter by the later of the end of the twelfth month beginning after Plan A receives its favorable TRA '86 opinion letter or the end of the remedial amendment period.

2 Employer Y, a calendar year taxpayer, establishes a new calendar year plan with a January 1, 1990 effective date in December 1990 by adopting a non-standardized prototype plan which replaces a prototype plan with a favorable TEFRA opinion letter and which has been properly submitted to the Service by March 31, 1990. This replacement plan receives a favorable TRA '86 opinion letter on January 1, 1991. Y will have reliance beginning with the 1990 plan year if it adopts the Service approved version of the replacement plan and requests a determination letter by January 31, 1992, or the end of any applicable remedial amendment period, if later, provided the other requirements of section 13.03 are satisfied.

3 Employer Z adopted an individually designed plan which received a favorable determination letter in 1983 but was not amended as required to comply with the Retirement Equity Act of 1984 (REA). Z amends its plan by adopting a standardized plan with a favorable TEFRA opinion letter in 1989. The sponsoring organization of the prototype plan properly submits a replacement plan to the Service by March 31, 1990. Z is not entitled to continued reliance under this section because Z was not entitled to rely on a favorable determination letter with respect to its individually designed plan at the time it was replaced by the prototype plan.

4 Employer X adopted Plan A, a standardized plan with a favorable TEFRA opinion letter, in 1986. The sponsoring organization of Plan A fails to submit a replacement plan to the Service by March 31, 1990. On June 30, 1990, the Service publishes a final cumulative list of all replacement plans that have been submitted to the Service by March 31, 1990. On June 30, 1991, X amends its plan by adopting Plan B, another standardized replacement plan which has been properly submitted to the Service by March 31, 1990. Plan B receives a favorable TRA '86 opinion letter on July 15, 1991. X will be entitled to continued reliance under this section if it adopts the Service approved version of replacement Plan B by July 31, 1992 or the end of any applicable remedial amendment period, if later, and the other requirements of section 13.03 are satisfied.

5 Employer Y establishes a new plan in 1990 by adopting Plan C, a standardized plan which was submitted to the Service for approval under this revenue procedure by March 31, 1990. Plan C does not have a favorable TEFRA opinion letter and does not replace a plan with such a letter. Employer Y is not entitled to continued or interim reliance under this section.

6 Employer Z adopts an individually designed plan in 1986 and requests and receives a favorable determination letter. Employer Z retroactively amends its plan to comply with TRA '86, OBRA '86, and OBRA '87 by adopting a prototype plan which has received a favorable opinion letter under this revenue procedure. Employer Z's adoption of the prototype plan occurs within 12 months after the prototype plan receives its opinion letter under this procedure but after the last date on which the employer could timely adopt individually designed amendments intended to comply with TRA '86, OBRA '86, and OBRA '87. Employer Z is not entitled to continued or interim reliance under this section because it is not entitled to rely on a favorable determination letter with respect to its individually designed plan at the time it is amended through adoption of the prototype plan.

SEC. 14. APPROVED PLANS — MAINTENANCE OF APPROVED STATUS

.01 Revocation of Opinion Letter by the Service — An opinion letter found to be in error or not in accord with the current views of the Service may be revoked. However, except in rare or unusual circumstances, such revocation letter will not be applied retroactively if the conditions set forth in section 14.05 of Rev. Proc. 83-36 are met. For this purpose, such opinion letters will be given the same effect as rulings. Revocation may be effected by a notice to the sponsoring organization to which the letter was originally issued, or by a regulation, revenue ruling or other statement published in the Internal Revenue Bulletin. The sponsor should then notify each adopting employer of the revocation.

.02 Subsequent Required Amendments — Except as provided in section 17.03, an approved master or prototype plan must be amended by the sponsoring organization and, if necessary, the employer, to retain its approved status if any provisions therein fail to meet the requirements of law, regulations, or other rules and guidelines affecting qualification that become effective subsequent to the issuance of an opinion letter.

.03 Amendments Following Revenue Rulings — If an approved master or prototype plan is required to be amended to retain its approved status as a result of publication by the Service of a revenue ruling, notice or similar statement in the Internal Revenue Bulletin (I.R.B.), then, unless section 17.03 is applicable or unless specifically stated otherwise in this revenue ruling, etc., the time by which the sponsoring organization must amend its master or prototype plan to conform to the requirements of the revenue ruling, etc. and request a new opinion letter shall be the end of the one-year period after its publication in the I.R.B., and with respect to any adopting employer's plan the effective date of such amendment shall be the first day of the first plan year beginning within such one-year period.

SEC. 15. WITHDRAWAL OF REQUESTS

.01 Notification and Effect — A sponsoring organization may withdraw its request for an opinion letter at any time prior to the issuance of such letter by notifying the National Office in writing of such withdrawal. The sponsoring organization must also notify each employer who adopted the plan that the request has been withdrawn. Such an employer will be deemed to have an individually designed plan to which Rev. Proc. 80-30 applies.

.02 Service Retains Information — Even though a request is withdrawn, the National Office will retain all correspondence and documents associated with that request and will not return them to the sponsoring organization. The National Office may furnish its views concerning the qualified status of the plan to District Directors who have or will have audit jurisdiction of the returns of any employers who have adopted the plan.

SEC. 16. ABANDONED PLANS

.01 Notification to the Service — A sponsoring organization should notify the National Office in writing of an approved master or prototype plan that is no longer used by any employer and that the sponsoring organization no longer intends to offer for adoption. Such written notification should be filed with the Commissioner of Internal Revenue, Washington, D.C. 20224, Attention: E:EP:Q: and should refer to the file folder number appearing on the latest opinion letter issued.

.02 Notification to Employers — A sponsoring organization that intends to abandon an approved master or prototype plan that is in use by any adopting employer must inform each adopting employer that the form of the plan has been terminated, that the employer's plan will become an individually designed plan (unless the employer adopts another approved M&P plan), and that any employer with a determination letter may continue to rely on such letter (or if the plan is standardized, may continue to rely as if it had received a determination letter) on the date the form of the plan is terminated but only until a change in law or other change in the qualification requirements. After so informing all adopting employers, the sponsoring organization should notify the National Office in accordance with subsection .01 above.

SEC. 17. SPECIAL PROVISIONS RELATED TO TRA

.01 Delayed Submissions — Effective immediately, no applications for the approval of master and prototype plans (other than those plans submitted pursuant to section 17.02 of this revenue procedure) may be submitted after the effective date of this revenue procedure and prior to July 7, 1989. Any application received more than 10 days after the effective date of this revenue procedure and prior to July 7, 1989, will be returned. The National Office will continue to process all master and prototype applications received not later than 10 days after the effective date of this revenue procedure in accordance with the provisions of Rev. Proc. 84-23, and any opinion letter issued to such a plan will not consider the effect of TRA '86.

.02 Early Submission Period for Mass Submitters and National Sponsoring Organizations — Mass submitters (as defined in section 18.01) and national sponsoring organizations (as defined in section 3.11) may submit applications for approval of master or prototype plans at any time on or after April 10, 1989, and will not be subject to the delayed submission requirement of section 17.01. In the case of a national sponsoring organization, each application submitted during this early submission period must be accompanied by the sponsoring organization's certification, made under penalty of perjury, that it maintains a list of adopting employers which establishes that it is a national sponsoring organization as described in section 3.11. The Service reserves the right to request a copy of such list in order to verify that these requirements have been met.

.03 Extended Reliance —

1 A sponsoring organization that submits a master or prototype plan which has been amended in accordance with the requirements specified in sections 5 and 10 of this revenue procedure (and other requirements that are in effect on the date the application is submitted) on or before March 31, 1990, and receives a favorable opinion letter under this revenue procedure, will not be required to amend its plan for subsequent regulations under TRA '86, OBRA '86, OBRA '87, or for revenue rulings, revenue procedures, or other Service releases issued after the date of the application, before the earlier of:

(a) December 31, 1994, or

(b) the date the plan is otherwise required to be amended by subsequent legislation.

2 Solely for purposes of this subsection, a master or prototype plan which is submitted to the Service after March 31, 1990 as a word-for-word identical adoption of a mass submitter plan that has been amended in accordance with the requirements specified in sections 5 and 10 of this revenue procedure (and all other requirements in effect on the date of the mass submitter's application) and that has been submitted to the Service on or before March 31, 1990, will be deemed to have been submitted to the Service on the date of the mass submitter's application.

3 Any employer which adopts a plan described in paragraph 1 or 2 above, and is otherwise entitled to reliance, may continue to rely on the opinion letter, or determination letter, if applicable, until the earlier of:

(a) the last day of the last plan year commencing prior to January 1, 1995, or

(b) the date established for plan amendment by any subsequent legislation.

4 In unusual circumstances, the Service may require M&P plans to be amended for, or operationally comply with, qualification requirements issued by the Service after a request for an opinion letter or determination letter is submitted but prior to the end of this extended reliance period. The Service will require this action only in cases where it is necessary to correct a fundamental error or omission that is likely to affect participants' rights or tax revenues in a significant number of plans. Any rule or regulation remedying an omission or correcting an error will generally be made effective prospectively, for plans which have met the requirements for extended reliance. However, the Service reserves the right to make such a rule or regulation applicable to such plan during the entire extended reliance period. Upon termination of an employer's master or prototype plan prior to the end of the extended reliance period, the plan must be amended retroactively to the effective date of any intervening change with respect to which operational compliance was required in order to correct a fundamental error or omission. This extended reliance period will not prevent the Service from requiring a plan to be amended to correct any defect in the plan which was not discovered upon prior review by the Service.

SEC. 18. MASS SUBMITTERS

.01 Opinion Letters Issued to Mass Submitters — Notwithstanding anything to the contrary, opinion letters will be issued to any person, whether or not such person is a sponsoring organization, that submits applications for at least 10 sponsoring organizations which will sponsor the identical master or prototype plan. Any such mass submitter that meets the requirements for a sponsoring organization may submit an application on its own behalf as one of the 10 adopting sponsoring organizations. Each sponsoring organization must sponsor a plan that is word-for-word identical to the mass submitter plan. For purposes of this revenue procedure a flexible plan (as defined in section 18.031) which is adopted by a sponsoring organization will be considered a word-for-word identical plan. After the initial submission (with applications for at least 10 identical adopters), the mass submitter may submit additional applications on behalf of sponsoring organizations that wish to adopt a word-for-word identical plan or a plan which contains minor modifications from the mass submitter plan, as provided in section 18.032. With respect to its plan, the mass submitter must submit a completed Form 4461 or 4461-A, as applicable, to the National Office. The first page of the Form 4461 or 4461-A must be typed and no photocopies of the first page will be accepted. Opinion letters issued to a mass submitter will apply only to the mass submitter and may be made available by the mass submitter to an adopting employer only if the mass submitter is also a sponsoring organization defined in section 3.07. All other sponsoring organizations must obtain an opinion letter.

.02 Reduced Procedural Requirements for Sponsoring Organizations Which Use Mass Submitter Plans — A sponsoring organization of a master or prototype plan of a mass submitter must obtain an opinion letter. For initial qualification, or where the sponsoring organization's plan includes minor modifications, the mass submitter on behalf of the sponsoring organization must submit a completed Form 4461-B to the Service which contains a declaration by the mass submitter under penalty of perjury that the sponsoring organization has adopted a master or prototype plan that is word-for-word identical, within the meaning of this section, to a plan of the mass submitter, or plan that is a minor modification of the mass submitter's plan. Such form must be typed and no photocopies will be accepted. If the mass submitter's plan has been approved by the Service, the sponsoring organization's request for an opinion letter must identify the letter serial number and date of the opinion letter issued to the mass submitter with respect to that plan. If the sponsoring organization has previously received an opinion letter with respect to a plan that is identical to the mass submitter's plan, the procedures described in sections 4.044 and 18.04, as applicable, should be followed. If the sponsoring organization is sponsoring a word-for-word identical plan (including a flexible plan), a copy of the plan need not be submitted. If the mass submitter submits a plan with minor modifications, it must comply with the requirements of section 18.032. Upon receipt of the request for an opinion letter, described above, the Service will, as soon as clerically feasible, issue an opinion letter to the sponsoring organization.

.03 Special Definitions —

1 Flexible Plan —

(a) In general — A "flexible plan" is a plan submitted by a mass submitter which contains optional provisions (as defined in subsection (b) below). Sponsoring organizations that adopt the flexible plan may include or delete any optional provision which is designated as such in the mass submitter's plan, provided the inclusion or deletion of specific optional provisions conforms to the mass submitter's written representation to the Service concerning the choices available to sponsoring organizations and the coordination of optional provisions. A mass submitter must bracket and identify the optional provisions when submitting such plan to the National Office and must also provide the Service a written representation describing the choices available to sponsoring organizations and the coordination of optional provisions. Thus, such a representation must indicate whether a sponsoring organization's plan may contain only one of a certain group of optional provisions, may contain only a specific combination of provisions, or may exclude the provisions entirely. Similarly, if the inclusion (or deletion) of a specific optional provision in a sponsoring organization's plan will automatically result in the inclusion (or deletion) of any other optional provision, this must be set forth in the mass submitter's representation. A flexible plan may contain only optional provisions which meet the requirements of subsection (b) and must be drafted so that the qualification of any sponsoring organization's plan will not be affected by the inclusion or deletion of optional provisions. For example, if a sponsoring organization's defined contribution plan contains an optional provision which allows a portion of a participant's account to be invested in life insurance, then under the terms of the sponsoring organization's plan, the application of the proceeds must meet the requirements of sections 401(a)(11) and 417 of the Code. A flexible plan adopted by a sponsoring organization which differs from the mass submitter plan only because the sponsoring organization has deleted certain optional provisions from its plan in conformance with the mass submitter's representation described above will be treated as a word-for-word identical plan to the mass submitter plan. The Service encourages mass submitters to limit the number of optional provisions described in subparagraph (b)(i) and (ii) below which they provide under a flexible plan to six investment provisions and six administrative provisions.

(b) Optional Provisions — A flexible plan may contain only optional provisions which comply with the requirements set forth below. The optional provisions may be arranged as separate optional articles or as separate optional provisions within a single article. A flexible plan may also contain optional provisions in the adoption agreement. For example, if a mass submitter flexible plan basic plan document contains an optional provision which would allow for loans under a sponsoring organization's master or prototype plan, the adoption agreement could also include an optional provision which would enable an adopting employer to elect whether loans will be available under the plan it adopts. If the sponsoring organization does not wish to enable adopting employers to make loans available under their plans, both the basic plan document optional provision and the adoption agreement optional provision would be deleted from the sponsoring organization's master or prototype plan. Sponsoring organizations may include or delete optional provisions of mass submitter plans, but once the sponsoring organization has decided to include an optional provision, it must offer that provision to all adopting employers. Any optional provision which the Service determines does not meet the requirements for a proper optional provision will have to be changed to a non-optional provision or deleted from the mass submitter's plan. The following is an exclusive list of the allowable optional provisions which a flexible plan may contain:

(i) Investment Provisions — A mass submitter may offer a variety of investment provisions in its plan for sponsoring organizations to include or delete from their version of the plan. However, the plan as adopted by the sponsoring organization must provide some method for investing trust assets. Investment provisions are those provisions which describe the plan's methods of investing the trust or custodial funds, including provisions such as the availability of loans and investments in insurance contracts or other funding media, and self-directed investments.

(ii) Administrative Provisions — A mass submitter may offer a variety of administrative provisions in its plan for sponsoring organizations to include or delete from their version of the plan. However, the plan as adopted by the sponsoring organization must describe how the plan will be administered. Administrative provisions are those provisions which describe the administration of the plan, including the powers, duties, and responsibilities of a plan's custodian, trustee, administrator, employer, and other fiduciaries. Administrative provisions include the allocation of responsibilities among fiduciaries, the resignation or replacement of fiduciaries, claims procedures under the plan, and record-keeping requirements. However, procedural provisions which are required for plan qualification are not administrative provisions under this section. For example, provisions which provide for the notice to participants required by section 417 of the Code and record-keeping required by regulations under sections 401(k) and (m) are not administrative provisions for purposes of this revenue procedure, and may not be optional provisions.

(iii) Cash or Deferred Arrangement — A mass submitter may include a self-contained cash or deferred arrangement (as defined in section 401(k) of the Code) which meets the requirements of section 8 for sponsors to include or delete.

(c) Addition of Optional Provisions by the Mass Submitter — A mass submitter may add additional optional provisions to its plan after a favorable opinion letter is issued. Generally, the addition of such optional provisions will not be treated as a plan amendment for purposes of this revenue procedure, Rev. Proc. 80-30, and Rev. Proc. 89-4, and sponsoring organizations and adopting employers will not be required to obtain new opinion and determination letters in order to preserve reliance. (However, the addition of a cash or deferred arrangement or any change to the language of the adoption agreement subsequent to the issuance of an opinion letter will be treated as a plan amendment to the mass submitter's plan and the requirements of subsection .04 will then apply.) The mass submitter must submit such additional optional provisions to the Service, along with a completed Form 4461 or 4461-A, as applicable, and a check or money order payable to the Internal Revenue Service in the amount specified in Rev. Proc. 89-4, as modified by section 19.04 of this revenue procedure. No opinion letter will be issued to the mass submitter or any adopting sponsoring organization with respect to the addition of these optional provisions. Instead, an advisory letter will be issued to the mass submitter notifying it that the addition of such optional provisions will not affect the status of favorable opinion and determination letters issued to sponsoring organizations and adopting employers.

(d) Notification to Employer — If a mass submitter adds optional provisions, as described in subsection (c) above, all adopting sponsors who wish to include the additional optional provisions must furnish each adopting employer with a copy of the plan which includes such additional provisions in accordance with section 10.08. If a sponsoring organization decides to include or delete an optional provision after it initially adopted the plan, it must also furnish each adopting employer with a copy of the new plan in accordance with section 10.08. However, if such inclusion or deletion results in a change to the language of the adoption agreement, such change will be treated as a plan amendment and the sponsoring organization and its adopting employers may not continue to rely on previously issued opinion or determination letters.

2 Minor Modification — A "minor modification" is a minor change to an otherwise word-for-word identical plan of the mass submitter which does not require an in-depth technical review. For example, a change from 5 year 100% vesting to 3 year 100% vesting is a minor modification. On the other hand, a plan which is modified to change the method of accrual of benefits would not be considered a minor modification. A minor modification must be submitted by the mass submitter on behalf of the sponsoring organization which will adopt the modified plan. Such submissions will be reviewed on an expedited basis and opinion letters will be issued to the sponsoring organization as soon as possible. However, the Service reserves the right to determine if such changes are actually minor. If it is determined that the changes are extensive or require an in-depth technical review, the plan will not be entitled to expedited review but will be treated as a non-mass submitter plan. (In such event, the Service will notify the mass submitter in writing of its determination. Within 30 days following the date of such communication, either the mass submitter may revise the plan so that the modifications are minor and resubmit the revised plan, or the sponsoring organization may submit an additional user fee in an amount equal to the difference between a non-mass submitter plan application user fee and a minor modifier application user fee. If, after such 30 day period neither action has been taken, the application may be considered withdrawn.) To qualify for the expeditious review, the mass submitter must submit a completed Form 4461-B. Such form must be typed and no photocopies will be accepted. In addition, the mass submitter must submit a copy of the mass submitter's plan with the minor modifications highlighted, as well as a statement indicating the location and effect of each change. The mass submitter must certify under penalty of perjury that the plan of the sponsoring organization except for the delineated changes is word-for-word identical, within the meaning of this section, to the plan for which the mass submitter received a favorable opinion letter. If a mass submitter fails to identify each modification, such failure will be considered a material misrepresentation and an employer may not rely on any opinion or determination letter that may be issued with respect to the plan. If a mass submitter repeatedly fails to identify such modifications, the Service may deny permission to that mass submitter to submit additional minor modifications.

.04 Amendments of Mass Submitter Plans — Any plan submitted by a mass submitter must include language designating the mass submitter as agent for the sponsoring organization for purposes of making plan amendments (see section 14.02). Any sponsoring organization which does not wish to make the amendments made by a mass submitter may switch to another mass submitter or may submit an application for an opinion letter on its own behalf. If the mass submitter makes any change to the plan, other than the addition of optional provisions pursuant to section 18.031(c) or an amendment described in section 11.02, it must comply with the requirements of section 11.01 of this revenue procedure. In addition, prior to submitting an amendment to the National Office, the mass submitter must notify the Service of its intention to amend the plan. Such notification should be submitted, in writing, to the Commissioner of Internal Revenue, Washington, D.C. 20224, Attention: E:EP:Q. The Service will then mail a list to the mass submitter showing all sponsoring organizations which have adopted plans that are identical to the mass submitter's plans, as well as the specific plans adopted by each sponsoring organization. The mass submitter must then submit the amended plan to the National Office for approval, along with a list identifying all adopting sponsoring organizations' plans which will be amended, a user fee form for each such sponsoring organization, and the appropriate user fee required under Rev. Proc. 89-4. All sponsoring organizations which have adopted the mass submitter's plan, are identified on the list submitted to the Service, and for which a user fee has been submitted, will be considered to have made such amendments and will be issued opinion letters. In the case of minor modifier plans, separate Form 4461-B applications must be filed along with copies of the plans as amended, user fee forms, and the user fee required by Rev. Proc. 89-4 for minor modifier applications. Copies of the amended plan must be sent to adopting employers and key district offices in accordance with section 10. Any adopting sponsor which is not included on the list submitted to the Service (or in the case of a minor modifier, for which a Form 4461-B application has not been filed) or which notifies the Service of its desire not to adopt such amendment will no longer participate as a mass submitter plan but must apply for an opinion letter on its own behalf to retain its status as a master or prototype plan.

.05 Expeditious Processing Accorded Mass Submitter Plans — All mass submitter plans, including the adoption of approved mass submitter plans by sponsoring organizations, will be accorded more expeditious processing than master and prototype plans submitted by non-mass submitters, to the extent administratively feasible.

.06 Substitution of Mass Submitter Plans for Non-Mass Submitter Plans — A sponsoring organization which has submitted to the Service a non-mass submitter replacement plan (as defined in section 3.10) may substitute a word-for-word identical plan of a mass submitter which is of the same type as the non-mass submitter plan at any time prior to receiving its favorable TRA '86 opinion letter, and such plan will be considered a replacement plan for purposes of section 13. However, if a sponsoring organization which has submitted a non-mass submitter replacement plan substitutes a minor modifier plan after the Service has begun reviewing the non-mass submitter plan, then the minor modifier will not be considered a replacement plan under section 13. A non-mass submitter that intends to switch to a minor modifier should contact the Inventory Control Unit of the Employee Plans Technical and Actuarial Division (Qualifications Branch) by calling (202) 566-4576 (not a toll-free call) to determine whether review of the non-mass submitter plan has begun.

SEC. 19. EFFECT ON OTHER DOCUMENTS

.01 Rev. Proc. 84-23 and Rev. Proc. 84-83 are hereby superseded.

.02 Rev. Proc. 87-18 is hereby superseded.

.03 Section 15.01 of Rev. Proc. 80-30 is modified by renumbering paragraph 4 as 2 after replacing paragraphs 1, 2, and 3 with the following:

1 A standardized form plan or paired plans as defined in sections 3.08 and 3.09 of Rev. Proc. 89-9 provided that:

(a) the sponsoring organization of such plan or plans has a currently valid favorable opinion letter from the National Office,

(b) the employer has followed the terms of the plan(s), and the coverage and contributions or benefits under the plan(s) are not more favorable for highly compensated employees (as defined in Code section 414(q)),

(c) the employer has properly notified all interested parties of the adoption of the plan(s) in accordance with sections 7 and 8, above, and

(d) the employer has not received, within 120 days after the date of adoption of the plan(s), notice from the Service that the plan(s) will not be treated as qualified pursuant to this subsection. (In this regard, see section 4.145, above).

.04 Section 6.032 of Rev. Proc. 89-4 is hereby modified by amending the title of subparagraph (b) to read "Opinion and Advisory Letters on Master and Prototype Plans" and adding at the end of such subparagraph the following: Mass submitter's addition of optional provisions following issuance of a favorable opinion letter, per basic document (regardless of the number of adoption agreements). $400

SEC. 20. EFFECTIVE DATE

This revenue procedure is effective February 6, 1989, the date it is published in the Internal Revenue Bulletin.

---

26 CFR 601.204: Changes in accounting periods and in methods of accounting.
(Also Part I, Section 472; 1.472-2; 1.472-3.)

Rev. Proc. 89-10

SECTION 1. PURPOSE

This revenue procedure sets forth the application of section 472(c) and section 472(e)(2) of the Internal Revenue Code in the examination of federal income tax returns when a taxpayer, with the consent of the Commissioner, changes from the last-in, first-out (LIFO) inventory method of accounting to another inventory method and is required by Accounting Principles Board Opinion No. 20 (APB 20) to restate financial statements for prior years under the new inventory method.

SEC. 2. BACKGROUND

.01 Section 472(c) of the Code requires a taxpayer using the LIFO method to use no procedure other than the LIFO method specified in section 472(b)(1) and (3) in inventorying its goods to ascertain the income, profit, or loss of the first tax year for which the LIFO method is to be used, for the purpose of a report or statement covering such tax year to shareholders, partners, or other proprietors, or to beneficiaries, or for credit purposes.

Section 472(e)(2) of the Code imposes a requirement similar to that set forth in section 472(c) for tax years subsequent to the year of the LIFO election. Under section 472(e), the Secretary may require a taxpayer to discontinue the use of the LIFO method if the taxpayer violates this requirement.

Collectively, the provisions of section 472(c) and section 472(e)(2) of the Code are called the "LIFO conformity requirement."

.02 Section 1.472-3(d) of the Income Tax Regulations provides that whether or not the taxpayer's use of the LIFO method, once adopted, may be continued, will be determined by the Commissioner in connection with the examination of the taxpayer's income tax returns.

.03 APB 20 was issued by the Accounting Principles Board of the American Institute of Certified Public Accountants in July 1971. For financial reportinq purposes, any change in accounting principle must be reported in accordance with the requirements of APB 20. Paragraph 27 of APB 20 provides that, if there is a change from the LIFO inventory method to any other inventory method, financial statements of all prior periods presented in current reports should be restated under the new inventory method.

SEC. 3. SCOPE

This revenue procedure applies to taxpayers that change from the LIFO method to another method with the consent of the Commissioner and are required by APB 20 to restate prior years' financial statements under the new inventory method.

SEC. 4. APPLICATION

The restatement of financial statements for prior years on a non-LIFO inventory method in the current year's annual financial statement is a violation of the LIFO conformity requirement. However, in the examination of returns, the Service, under the discretionary authority contained in section 472, will not disallow a taxpayer's LIFO election or require a change from the taxpayer's LIFO method for the prior years solely because of the application of paragraph 27 of APB 20.

SEC. 5. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and be addressed to the Commissioner of Internal Revenue, Attention CC:IT&A, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SEC. 6. EFFECTIVE DATE

This revenue procedure applies to all tax years beginning after July 31, 1971.

---

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.
(Also Part I, Section 6661; 1.6661-4.)

Rev. Proc. 89-11

SECTION 1. PURPOSE

.01 This revenue procedure updates Rev. Proc. 88-37, 1988-2 C.B. 560, and identifies circumstances under which the disclosure on a taxpayer's return of an item or a position taken is adequate disclosure for the purpose of reducing the understatement under section 6661 of the Internal Revenue Code.

.02 This procedure applies to 1988 tax forms filed for all taxable years beginning in 1988. It also applies to 1988 forms filed in 1989 for short taxable years beginning in 1989.

SEC. 2. CHANGES FROM PREVIOUS YEAR

.01 Section 4(b) has been revised to include certain expenses related to the rental of property as trade or business expenses for purposes of this revenue procedure.

.02 Section 4(d)(1) reflects the change in the name of Form 2119 from Sale or Exchange of Principal Residence to Sale of Your Home.

.03 Section 4(d)(4) reflects the change in the name of Form 4136 from Computation of Credit for Federal Tax on Gasoline and Special Fuels to Computation of Credit for Federal Tax on Fuels.

.04 Section 4(e)(2), relating to subpart F income shown on Form 5471, Information Return with Respect to a Foreign Corporation, has been deleted.

.05 Section 4(e)(3), relating to intercompany transactions shown on Form 5471, Schedule M, has been deleted.

.06 Section 4(e)(4), relating to Form 1116, Computation of Foreign Tax Credit, in the case of individuals, and Form 1118, Computation of Foreign Tax Credit, Corporations, has been deleted.

SEC. 3. BACKGROUND

.01 Section 6661(a) of the Code imposes a penalty in situations in which there is a substantial understatement of income tax. The rate is 25 percent for penalties assessed after October 21, 1986. Section 6661(b)(1) provides that there is a substantial understatement of income tax if the amount of the understatement exceeds the greater of 10 percent of the amount required to be shown on the return or $5,000 ($10,000 in the case of a corporation other than an S corporation or a personal holding company). Section 6661(b)(2) defines an understatement as the difference between the amount of tax required to be shown on the return for the taxable year and the amount of the tax that is actually shown on the return (reduced by any rebate within the meaning of section 6211(b)(2)).

.02 In the case of an item not attributable to a tax shelter, section 6661(b)(2)(B) of the Code provides that the amount of the understatement is reduced by the amount of the understatement attributable to any item if the taxpayer discloses, in the return or in an attachment, the identity and amount of the item as well as the specific facts or the position taken relevant to the tax treatment of the item. Disclosure on a return of items attributable to a tax shelter does not reduce an understatement.

.03 Section 6661(c) of the Code allows the Secretary to waive all or part of the penalty provided by section 6661(a) if the taxpayer shows that there was reasonable cause for all or part of the understatement and that the taxpayer acted in good faith.

.04 In general, rules providing guidance on the adequacy of disclosure for purposes of reducing an understatement under section 6661 of the Code are set forth in the regulations under section 6661. Section 1.6661-4(c) of the Income Tax Regulations gives the Commissioner authority to prescribe by revenue procedure the circumstances under which information provided on the return, in accordance with the applicable forms and instructions, is adequate disclosure for purposes of section 6661. The taxpayer must furnish all required information in accordance with the applicable forms and instructions, and the money amounts entered on these forms must be verifiable. This revenue procedure provides guidance in determining when such disclosure is adequate. Guidance for returns filed in 1983, 1984, 1985, 1986, 1987, and 1988 is provided in Rev. Proc. 83-21, 1983-1 C.B. 680, Rev. Proc. 84-19, 1984-1 C.B. 433, Rev. Proc. 85-19, 1985-1 C.B. 520, Rev. Proc. 86-22, 1986-1 C.B. 562, Rev. Proc. 87-48, 1987-2 C.B. 645, and Rev. Proc. 88-37, respectively.

SEC. 4. PROCEDURE

Additional disclosure of facts relevant to, or positions taken with respect to, issues involving any of the items set forth below is unnecessary for purposes of reducing any understatement of tax under section 6661 of the Code, provided, however, that the forms and attachments are completed in a clear manner and in accordance with the instructions. Pursuant to the forms and instructions, items must not be combined but must be separately stated on the appropriate line. The money amounts entered on the forms must be verifiable, and the information on the return must be disclosed in the manner described below. For purposes of this revenue procedure, a number is verifiable if, on audit, the taxpayer can demonstrate the origin of the number (even if that number is not ultimately accepted by the Internal Revenue Service) and the taxpayer can show good faith in entering that number on the applicable form.

(a) Form 1040, Schedule A, Itemized Deductions:

(1) Medical and Dental Expenses: Complete lines 1-4 supplying all required information. Line 1b must list each item and the amount paid.

(2) Taxes: Complete lines 5-8 supplying all required information. Line 7 must list each type of tax and the amount paid.

(3) Interest Expense: Complete lines 9-13 supplying all required information. This section of the procedure does not apply to (i) amounts disallowed under section 163(d) of the Code unless Form 4952, Investment Interest Expense Deduction, is completed, or (ii) any amounts disallowed under section 265 of the Code.

(4) Contributions: Complete lines 14-17 supplying all required information. Merely entering the name of an organization to which the taxpayer makes a donation and the amount of the donation on Schedule A, however, will not constitute adequate disclosure for purposes of section 6661 of the Code if the taxpayer receives a substantial benefit from the donation shown. If a contribution of property other than cash is made and the amount claimed as a deduction exceeds $500, a properly completed Form 8283, Noncash Charitable Contributions, must be attached to the return.

(5) Casualty and Theft Losses: Form 4684, Casualties and Thefts, must be completed and attached to the return. Each item or article for which a casualty or theft loss is claimed must be listed on Form 4684.

(6) Moving Expenses: Complete Form 3903, Moving Expenses, or Form 3903F, Foreign Moving Expenses, and attach to the return.

(b) Certain Trade or Business Expenses (which, for purposes of this revenue procedure, include the following six expenses as they relate to the rental of property):

(1) Casualty and Theft Losses: The procedure outlined in (a)(5) above must be followed.

(2) Legal Fees: The amount paid must be stated.

(3) Specific Bad Debt Charge-off: The amount written off must be stated.

(4) Reasonableness of Officers' Compensation: Form 1120, Schedule E, must be completed when required by instructions. The time devoted to business must be expressed as a percentage as opposed to "part" or "as needed." This does not apply to "golden parachute" compensation prohibited by section 280G of the Code.

(5) Repair as Opposed to Capital Expenditure: The amount of repairs must be stated.

(6) Taxes (other than foreign taxes): The amount of taxes must be stated.

(c) Form 1120, Schedule M-1, Reconciliation of Income Per Books With Income Per Return:

An item clearly identified on Form 1120, Schedule M-1, but only if—

(1) The amount of the deviation from the financial books and records is not the result of a computation that includes the netting of items; and

(2) The information provided reasonably may be expected to apprise the Service of the nature of the potential controversy concerning the tax treatment of the item.

(d) Other:

(1) Sale or Exchange of Your Main Home: Complete Form 2119, Sale of Your Home, and attach to the return.

(2) Employee Business Expenses: Complete Form 2106, Employee Business Expenses, and attach to the return.

(3) General Business Credit Carryforwards: Amounts shown on Line 7, Form 3800, General Business Credit.

(4) Fuels Credit: Amounts shown on Form 4136, Computation of Credit for Federal Tax on Fuels.

(5) Investment Credit: Complete Form 3468, Computation of Investment Credit, and attach to the return.

(e) Foreign Tax Items:

(1) International Boycott Transactions: Transactions disclosed on Form 5713, International Boycott Report.

(2) Intercompany Transactions: Transactions and amounts shown on Form 5471, Schedule G.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective for returns filed on 1988 tax forms for all taxable years beginning in 1988, and 1988 forms filed in 1989 for short taxable years beginning in 1989.

---

26 CFR 601.201: Rulings and determination letters. (Also Part I, Section 7701; 301.7701-2, 301.7701-3.)

Rev. Proc. 89-12

SECTION 1. PURPOSE

.01 This revenue procedure specifies the conditions under which the Internal Revenue Service will consider a ruling request that relates to classification of an organization, for federal tax purposes, as a partnership. The following revenue procedures are hereby modified and superseded: Rev. Proc. 72-13, 1972-1 C.B. 735 (limited partnership with a corporation as the sole general partner); Rev. Proc. 74-17, 1974-1 C.B. 438 (limited partnerships that raise factual questions as to whether their principal purpose is the reduction of federal taxes); and Rev. Proc. 75-16, 1975-1 C.B. 676 (frequently omitted required information). Rev. Proc. 89-1, page 740, this Bulletin, is modified by deleting the reference in section 8.06 to Rev. Proc. 72-13, Rev. Proc. 74-17, and Rev. Proc. 75-16. Rev. Proc. 89-3, page 761, this Bulletin, is modified by deleting section 3.0136 (continuity of life for removal of a general partner); section 3.0137 (1-percent general partner interest in each material item); and section 3.0138 (general partner contributions).

.02 Organizations covered by this revenue procedure include both those formed as partnerships and other organizations seeking partnership classification. In the case of an organization not formed as a partnership, references to "partnership" documents, including the "partnership agreement," apply to the organization's comparable documents, however designated. Any reference to a "limited partnership" includes an organization formed as a limited partnership under applicable state law and any other organization formed under a law that limits the liability of any member for the organization's debts and other obligations to a determinable fixed amount. References to "general partners" and "limited partners" appply also to comparable members of an organization not designated as a partnership under controlling law and documents; the "general partners" of such an organization will ordinarily be those with significant management authority relative to the other members. In the case of a foreign organization, "state" and "federal" references in the information requirements of section 3 apply to any relevant foreign jurisdictions. This revenue procedure does not apply to a publicly traded partnership treated as a corporation under section 7704 of the Internal Revenue Code.

.03 The provisions of this revenue procedure are not intended to be substantive rules for the determination of partner and partnership status and are not to be applied upon audit of taxpayers' returns.

.04 The Service may decline to issue a ruling under this revenue procedure whenever warranted by the facts and circumstances of a particular case and whenever appropriate in the interest of sound tax administration.

SEC. 2. BACKGROUND

.01 Section 7701(a)(2) of the Code defines the term "partnership" to include a syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not, within the meaning of the Code, a trust or estate or a corporation. Sections 301.7701-2 and 301.7701-3 of the Procedure and Administration Regulations set forth rules for determining whether an organization is classified, for federal tax purposes, as a partnership or as an association taxable as a corporation.

.02 Rev. Proc. 89-1, page 740, this Bulletin, as updated annually, sets forth procedures for the taxpayer request and Service issuance of advance rulings. The Service generally issues rulings on prospective transactions and on completed transactions for which the applicable return has not been filed. Section 5.01 of Rev. Proc. 89-1, however, provides that the Service will also consider ruling requests concerning the classification of an existing organization as a partnership. A ruling issued in response to such a request will be effective prospectively. *See* Rev. Proc. 86-12, 1986-1 C.B. 534. Rev. Proc. 89-3, page 761, this Bulletin, as updated annually, lists areas in which the Service will not issue, or will not ordinarily issue, advance rulings. Additional ruling guidelines, on the classification of partnerships, have been contained in Rev. Proc. 72-13, 1972-1 C.B. 735; Rev. Proc. 74-17, 1974-1 C.B. 438; and Rev. Proc. 75-16, 1975-1 C.B. 676.

SEC. 3. INFORMATION TO BE SUBMITTED

.01 Section 8 of Rev. Proc. 89-1 outlines general requirements concerning the information to be submitted as part of a ruling request, including a classification ruling request. For example, a partnership classification ruling request must contain a complete statement of all the facts relating to the classification issue. Among those facts are the items of information specified in this revenue procedure. The ruling request must therefore provide all items of information specified below, or at least account for all such items. As an example of accounting for an item, if no registration statement is required to be filed with the Securities and Exchange Commission (section 3.04(3)), the ruling request should so state.

.02 Submission of the documents and supplementary materials required by section 3.04 herein does not satisfy the information requirements contained in section 3.03 herein or in section 8 of Rev. Proc. 89-1. Thus, all material facts in documents, including those items required by section 3.03, must be included in the letter requesting a ruling and not merely incorporated by reference. All submitted documents and supplementary materials must contain applicable exhibits, attachments, and amendments.

.03 Required General Information.

(1) The name and identification number of the organization.

(2) The business of the organization.

(3) The date and place of filing the partnership certificate, or the anticipated date and place.

(4) The state whose law controls the formation and operation of the organization, and whether or not the controlling law is a statute corresponding to, as applicable, the Uniform Partnership Act, the Uniform Limited Partnership Act (1916), or the Revised Uniform Limited Partnership Act (1976) with or without amendments.

(5) If the Service has not determined that the controlling state statute corresponds to the applicable Uniform Act for purposes of section 301.7701-2 of the regulations, a list of all substantial differences.

(6) A representation that the organization has been, and will be at all times, in conformance with the controlling state statute.

(7) The nature, amount, and timing of the capital contributions made and to be made by both the general partners and the limited partners.

(8) The extent of participation of the general partners and the limited partners in profits and losses, including any possible shift in the profit and loss sharing ratios over time.

(9) A description of the relationships, direct and indirect, between the limited partners and the general partners that suggest that the general partners, individually or in the aggregate, may not at all times act independently (because of individual or aggregate limited partner influence or control). Such relationships include: (a) ownership by limited partners of 5 percent or more of the stock or other beneficial interests in a general partner; (b) control by limited partners of 5 percent or more of the voting power in a general partner; (c) ownership of 5 percent or more of the stock or other beneficial interests in any general partner and in any limited partner by the same person or persons acting as a group; and (d) control of 5 percent or more of the voting power in any general partner and in any limited partner by the same person or persons acting as a group. For purposes of the preceding sentence, a person shall be considered to own any beneficial interest owned by a related person and shall be considered to control any voting power controlled by a related person; a person shall be treated as related to another person if they bear a relationship specified in section 267(b) or section 707(b)(1) of the Code. The relationships defined in the first sentence of this section 3.03(9) may also include a debtor-creditor relationship and an employer-employee relationship.

(10) A representation of the net worth (based on assets at current fair market value) of each general partner, excluding interests in the partnership, a description of all general partner assets and liabilities arising from transactions with the partnership or with a person related to any general partner under section 267(b) or section

707(b)(1) of the Code, and a description of all other partnerships in which any of the general partners has an interest.

(11) If, and to the extent that, section 4 of this revenue procedure applies to the organization, a detailed description of how each of the applicable provisions therein is satisfied.

.04 Required Copies of Documents and Supplementary Materials.

(1) The partnership agreement.

(2) The partnership certificate filed or to be filed with the state in which the organization is formed.

(3) The registration statement filed or to be filed with the Securities and Exchange Commission. (A draft is acceptable.)

(4) If a registration statement is not required to be filed with the Securities and Exchange Commission, then documents filed or to be filed with any federal or state agency engaged in the regulation of securities and any private offering memorandum. (Drafts are acceptable.)

(5) A copy of the applicable state statutes, and amendments, under which the organization was or will be formed.

(6) An outline or copies of all promotional material used to sell interests in the organization, highlighting statements about probable tax consequences and the effect of the requested ruling upon the tax consequences.

SEC. 4. PROVISIONS APPLICABLE TO LIMITED PARTNERSHIPS

The Service will ordinarily consider a ruling request that relates to classification of a limited partnership as a partnership, for federal tax purposes, only if the conditions in this section 4 are satisfied. Section 4.05, however, relates solely to the corporate characteristic of continuity of life described in section 301.7701-2(b) of the regulations. Similarly, section 4.06 relates solely to the corporate characteristic of centralization of management described in section 301.7701-2(c). Therefore, failure to satisfy section 4.05 or section 4.06 will preclude a specific ruling that continuity of life or centralized management is lacking, but will not necessarily preclude the issuance of a partnership classification ruling. Section 4.07 provides a safe harbor, generally applicable to a limited partnership with at least one corporate general partner, that relates to the corporate characteristic of limited liability described in section 301.7701-2(d).

.01 Unless exempted by section 4.02 below or the provisions of this section 4.01, the interests (including limited partnership interests) of all the general partners, taken together, in each material item of partnership income, gain, loss, deduction, or credit must be equal to at least 1 percent of each such item at all times during the existence of the partnership, and the partnership agreement must expressly so provide. If the 1-percent standard will not be satisfied because of a temporary allocation required under section 704(b) of the Code, section 704(c), or corresponding Income Tax Regulations (a qualified income offset or minimum gain chargeback, for example), this will generally not be considered a violation of this section 4.01, but the ruling request must describe any such allocation and explain why the allocation is required under section 704(b) or (c), as appropriate. Any other temporary nonconformance with the 1-percent standard will be considered a violation of this section 4.01 unless it is demonstrated that the general partners' interest in net profits and losses over the anticipated life of the partnership is material. For this purpose, a profits interest generally will not be considered material unless it is substantially in excess of 1 percent and will be in effect for a substantial period of time during which it is reasonably expected that the partnership will generate profits. For example, a 20-percent interest in profits that begins 4 years after partnership formation and continues for the life of the partnership would generally be considered material if the partnership is expected to generate profits for a substantial period beyond the 4 years.

.02 If the limited partnership has total contributions exceeding $50 million, the general partners need not meet the 1-percent standard in section 4.01. However, except for a temporary allocation or nonconformance specified in section 4.01, the general partners' aggregate interest at all times in each material item must be at least 1 percent divided by the ratio of total contributions to $50 million, and the partnership agreement must expressly incorporate at least the computed percentage. For example, if total contributions are $125 million, the interest in each material item must be at least .4 percent, that is, 1 percent divided by 125/50. In no event, however, other than as a result of a temporary allocation or nonconformance specified in section 4.01, may the general partners' aggregate interest at any time in any material item be less than .2 percent.

.03 Unless section 4.04 applies, the general partners, taken together, must maintain a minimum capital account balance equal to either 1 percent of total positive capital account balances for the partnership or $500,000, whichever is less. Whenever a limited partner makes a capital contribution, the general partners must be obligated to contribute immediately capital equal to 1.01 percent of the limited partner's capital contribution or a lesser amount (including zero) that causes the sum of the general partners' capital account balances to equal the lesser of 1 percent of total positive capital account balances for the partnership or $500,000. If no limited partner capital account has a positive balance, the general partners, taken together, need not have a positive capital account balance to satisfy this section 4.03. Capital accounts and the value of contributions are determined by application of the capital accounting rules in section 1.704-1(b)(2)(iv) of the regulations.

.04 If at least one general partner has contributed or will contribute substantial services in its capacity as a partner, apart from services for which guaranteed payments under section 707(c) of the Code are made, then the general partners need not meet the capital account standard in section 4.03. However, the partnership agreement must expressly provide that, upon the dissolution and termination of the partnership, the general partners will contribute to the partnership an amount equal to: (a) the deficit balances, if any, in their capital accounts; or (b) the excess of 1.01 percent of the total capital contributions of the limited partners over the capital previously contributed by the general partners; or (c) the lesser of (a) or (b). Those services that do not relate to day-to-day operations in the partnership's primary business activity, such as services relating to organization and syndication of the partnership, accounting, financial planning, and general business planning, and those that are in the nature of investment management will be closely scrutinized to determine if they are in fact substantial services. In making this determination, the Service will consider the nature of the partnership and its activities.

.05 For a limited partnership formed in a state with a statute corresponding to the Uniform Limited Partnership Act or the Revised Uniform Limited Partnership Act, in the case of the removal of a general partner, the partnership agreement may not permit less than a majority in interest of limited partners to elect a new general partner to continue the partnership, or the Service will not rule that the partnership lacks continuity of life.

.06 Limited partner interests, excluding those held by general partners, may not exceed 80 percent of the total interests in the partnership, or the Service will not rule that the partnership lacks centralized management. In addition, the Service will consider all the facts and circumstances, including limited partner control of the general partners (whether direct or indirect), in determining whether the partnership lacks centralized management.

.07 If the net worth of corporate general partners at the time of the ruling request equals at least 10 percent of the total contributions to the limited partnership and is expected to continue to equal at least 10 percent of the total contributions throughout the life of the partnership, then, for advance ruling purposes, the partnership will generally be deemed to lack limited liability. In the case of a limited partnership in which the only general partners are corporations that do not satisfy the safe harbor described in the preceding sentence, close scrutiny will be applied to determine whether the partnership lacks limited liability. In that connection, it must be demonstrated either that a general partner has (or the general partners collectively have) substantial assets (other than the partner's interest in the partnership) that could be reached by a creditor of the partnership or that the general partners individually and collectively will act independently of the limited partners.

SEC. 5. EFFECT ON OTHER REVENUE PROCEDURES

The following revenue procedures are modified and superseded: Rev. Proc. 72-13, 1972-1 C.B. 735; Rev. Proc. 74-17, 1974-1 C.B. 438; and Rev. Proc. 75-16, 1975-1 C.B. 676. Rev. Proc. 89-1, page 740, this Bulletin, is modified by deleting the reference in section 8.06 to Rev. Proc. 72-13, Rev. Proc. 74-17, and Rev. Proc. 75-16. Rev. Proc. 89-3, page 761, this Bulletin, is modified by deleting sections 3.0136, 3.0137, and 3.0138.

SEC. 6. EFFECTIVE DATE

This revenue procedure applies to all ruling requests received in the National Office after February 13, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-13

Table of Contents

SECTION 1. PURPOSE

This revenue procedure sets forth the procedures of the Internal Revenue Service for issuing notification letters relating to the qualification, as to form, of certain regional prototype defined contribution plans and defined benefit plans, and provides guidance with respect to the issuance of determination letters to employers adopting such plans as to whether the plans as adopted qualify under sections 401 and 403(a) of the Internal Revenue Code and as to whether any related trusts or custodial accounts are exempt under section 501(a).

SEC. 2. BACKGROUND AND GENERAL INFORMATION

.01 Rev. Proc. 83-36, 1983-1 C.B. 763, as modified by Rev. Proc. 87-40, 1987-2 C.B. 514, sets forth the general procedures of the Service relating to the issuance of rulings, determination letters, opinion letters, and notification letters on employee plans and exempt organization matters.

.02 Rev. Proc. 80-30, 1980-1 C.B. 685, sets forth general procedures for the issuance of determination letters by key district directors on the qualification of pension, profit-sharing, stock bonus, and annuity plans involving sections 401 and 403(a) of the Code, and the status for exemption of any related trusts or custodial accounts under section 501(a).

.03 Rev. Proc. 84-86, 1984-2 C.B. 787, sets forth procedures whereby certain "sponsors" may submit "uniform plans" to key district directors for approval as to form.

.04 Rev. Proc. 88-42 , 1988-2 C.B. 613, sets forth procedures of the Service relating to the issuance of determination letters and notification letters that consider provisions of the Tax Reform Act of 1986 (TRA 86), Pub. L. 99-514, 1986-3 (Vol. 1) C.B. 1, the Omnibus Budget Reconciliation Act of 1986 (OBRA 86), Pub. L. 99-509, and the Omnibus Budget Reconciliation Act of 1987 (OBRA 87), Pub. L. 100-203, that are effective for plan years beginning before 1989.

.05 Rev. Proc. 89-9, page 780, this Bulletin, updates Rev. Proc. 84-23, 1984-1 C.B. 457, to set forth the current procedures of the Service pertaining to the issuance of opinion letters relating to master or prototype (M & P) pension, annuity and profit-sharing plans involving sections 401(a) and 403(a) of the Code as amended by TRA 86, OBRA 86, OBRA 87, and the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), Pub. L. 100-647, and to the status for exemption of related trusts or custodial accounts under section 501(a).

.06 Rev. Proc. 89-4, page 767, this Bulletin, sets forth procedures relating to the payment of user fees for requests to the Service for rulings, opinion letters, determination letters, and similar requests.

.07 TRA 86 substantially altered the requirements that a plan must meet in order to be qualified under section 401(a) of the Code. Many of the TRA 86 qualification changes are effective for plan years beginning after December 31, 1986. Other TRA 86 qualification requirements are not effective until plan years beginning after December 31, 1988. OBRA 86 and OBRA 87 also altered the requirements that a plan must meet in order to be qualified. The qualification requirements under OBRA 86 and OBRA 87 are generally effective for plan years beginning after December 31, 1987. TAMRA contains technical corrections to TRA 86, OBRA 86, and OBRA 87, as well as other changes affecting qualified plans.

.08 Section 1140 of TRA 86 provides that a qualified plan must be amended retroactively, not later than the end of the first plan year beginning on or after January 1, 1989, to comply with the requirements of TRA 86. Section 1.401(b)-1 of the Income Tax Regulations extends until the end of the remedial amendment period described therein the time by which plans must be amended to comply with provisions of TRA 86 that are effective before the first day of the first plan year beginning after December 31, 1989, provided certain conditions are satisfied. In general, the remedial amendment period described in section 1.401(b)-1 of the regulations also applies in the case of amendments necessary to conform to the requirements of OBRA 86, OBRA 87, and other changes to the qualification requirements described in section 5.11. The Service has issued substantive guidelines, including those cited later in this procedure, for conforming plans to the TRA 86, OBRA 86, and OBRA 87 requirements.

SEC. 3. OVERVIEW

.01 *In General.* This revenue procedure replaces the uniform plans procedure set forth in Rev. Proc. 84-86 with a regional prototype program which eliminates many of the restrictions that applied to uniform plans. For example, notification letters were not issued under Rev. Proc. 84-86 with respect to plans containing a cash or deferred arrangement but will be issued with respect to such plans under this revenue procedure; also, while uniform plans had to provide that the vesting requirements applicable to top-heavy plans described in section 416 of the Code applied at all times regardless of whether the plan was top-heavy, that requirement does not apply to regional prototype plans under this revenue procedure (other than standardized regional prototype plans described in section 4.11). In addition, this revenue procedure enables adopters of regional prototype plans to retain their prototype status and reliance subsequent to changes in law, provided certain requirements are met.

.02 *Effect on Sponsors of Uniform Plans.* Sponsors of uniform plans will meet the definition of regional prototype plan sponsor if they satisfy the requirement of this revenue procedure as to the number of expected adopters; if they do not have a sufficient number of expected adopters, they will be able to meet the definition by adopting a mass submitter regional prototype plan as defined in section 4.04 below.

.03 *Features of the Regional Prototype Program.* The principal features of the regional prototype program are:

(1) Greater flexibility in the elections available to adopting employers;

(2) Reciprocity (see section 5.04), so that a regional prototype plan approved in one region of the Service will be automatically accepted in other regions;

(3) A mass submitter program (see section 9), under which the National Office of the Service may approve plans of mass submitters and such plans may then be adopted by regional prototype plan sponsors;

(4) Provision for standardized regional prototype plans (see section 4.11 and section 11), with respect to which adopting employers generally do not need to request a determination letter in order to obtain reliance as to the qualified status of the plan as adopted, and paired standardized defined contribution regional prototype plans;

(5) A sponsor registration program (see section 14) that provides continued reliance to adopting employers in the event amendments are needed because of subsequent changes in plan qualification requirements; and

(6) Modification of the user fee schedule set forth in section 6.03 of Rev. Proc. 89-4 by adding new subcategories and related fees (see section 17).

.04 *Multiple Plans.* Under this revenue procedure, combinations of certain categories of plans are not permitted. See section 10.01. However, the sponsor may use one basic plan document for a combination of several defined contribution plans and one basic plan document for a combination of several defined benefit plans. The only differences will be in the adoption agreements and, if applicable, the trust or custodial account documents. See sections 4.09, 4.10, and 4.13 for definitions of "adoption agreement," "basic plan document" and "trust or custodial account document," respectively. A sponsor, for example, may use one basic plan document for a money purchase plan (other than a target benefit plan), a target benefit plan, and a profit-sharing plan. Similarly, a sponsor may use one basic plan document for several defined benefit plans (for example, an integrated standardized plan, a non-integrated standardized plan, an integrated non-standardized plan, and a non-integrated non-standardized plan. See section 4.11 for the definition of "standardized form plan." A separate adoption agreement and completed application form must be submitted with respect to each defined benefit plan and each defined contribution plan. Paired plans (as defined in section 4.12) must share one basic plan document and must be submitted simultaneously.

.05 *Special Requirements for Regional Prototype Plans.*

(1) Because of the nature of the regional prototype program, this revenue procedure requires that special provisions be included in every regional prototype

plan. Section 6 includes some of these requirements. Thus, for example, regional prototype plans must include language permitting the sponsor to amend the plan. Furthermore, provisions must be included to ensure compliance with section 411(a)(10) and (d)(6) of the Code, such as in the event an adopting employer amends the plan by revising the options selected in the adoption agreement. The plan language is required in order that the employer's plan may remain in the regional prototype program and still satisfy the requirements of section 411(a)(10)) and (d)(6).

(2) Under this revenue procedure, the Service will approve regional prototype plans that include a qualified cash or deferred arrangement (CODA) under section 401(k) of the Code. Section 7 sets forth some of the required provisions that must be included in such plans as well as optional provisions that may be included.

(3) The Service will not issue notification letters with respect to certain types of plans. Thus, for example, the Service will not issue a notification letter with respect to ESOPs or with respect to plans (other than plans that include a qualified CODA) that provide for contributions which are subject to the special nondiscrimination requirements of section 401(m).

(4) Regional prototype plans may be adopted by an employer that has other plans covering the same employees. Such plans must be aggregated for purposes of section 415 of the Code. Aggregation may also be required under section 416 of the Code. It is impossible for sponsors of regional prototype plans to include form language that properly aggregates such regional prototype plan with any other plan of an adopting employer. Therefore, provision is made to enable adopting employers to add additional language to a regional prototype plan.

.06 *Provisions Relating to TRA 86.*

(1) Generally, no applications for approval of regional prototype plans may be submitted prior to July 14, 1989. However, mass submitters (as defined in section 4.05) may submit applications to the National Office of the Service beginning April 17, 1989.

(2) This revenue procedure provides a period of extended reliance in the case of any regional prototype plan which is submitted in accordance with the requirements of this procedure by March 31, 1990 and is subsequently approved by the Service. An employer who adopts such a plan and is otherwise entitled to reliance under this procedure or under Rev. Proc. 80-30 may rely on the favorable notification letter issued under this procedure (or on a determination letter, if required) until the earlier of the date established for plan amendment by subsequent legislation or the last day of the last plan year beginning before January 1, 1995.

(3) This revenue procedure also provides a method for an employer to extend its remedial amendment period in the event such an extension is necessary because a regional prototype sponsor has not received a favorable notification letter by the time the employer is required to amend its plan to comply with TRA 86.

SEC. 4. DEFINITIONS

.01 *Regional Prototype Plan.* A "regional prototype plan" is a defined contribution plan or a defined benefit plan that is made available by a regional "sponsor," as defined in section 4.02 below, for adoption by employers. A regional prototype plan consists of an "adoption agreement," as defined in section 4.09 below, a "basic plan document," as defined in section 4.10, and, except in the case where the basic plan document incorporates a trust or custodial account agreement the provisions of which are applicable to all adopting employers, a "trust or custodial account document," as defined in section 4.13.

.02 *Sponsor.* The term "sponsor," for purposes of this revenue procedure, means a firm (other than a sponsoring organization as defined in section 3.07 of Rev. Proc. 89-9) which: (1) has an established place of business in the United States where it is accessible during every business day, and (2) either has at least 30 clients that have their principal place of business within the jurisdiction of not more than two regions of the Service and are expected to adopt the sponsor's regional prototype plan, or has at least three clients that are expected to adopt a "mass submitter regional prototype plan," as defined in section 4.04 below, with respect to which a favorable notification letter has been issued to its sponsor. A sponsor may submit any number of adoption agreements so long as each will be adopted by at least 10 clients and the total number of adopting clients is at least 30. The Service reserves the right at any time to request from the sponsor a list of the clients that the sponsor asserts are expected to adopt the plan, including their business addresses and employer identification numbers.

.03 *Firm.* As used in the definition of "sponsor" above, "firm" means a partnership or corporation at least one of whose members or employees is authorized to practice before the Internal Revenue Service with respect to employee plans matters, or an individual who is so authorized. The term "firm" also includes any other individual, partnership, or corporation, if such individual, or a member or employee of such partnership or corporation, certifies that he or she has read and understands Rev. Proc. 89-13, and agrees, on behalf of the firm, to comply with the requirements contained therein. Such certification must be submitted to the Key District Office along with the sponsor's application for a notification letter. The Service reserves the right to deny a firm the right to participate in the regional prototype program if it learns that the firm does not comply with the requirements contained therein. In such a case, any favorable notification letters issued to such firm may be revoked.

.04 *Mass Submitter Regional Prototype Plan.* A "mass submitter regional prototype plan" is a defined contribution plan or a defined benefit plan that is made available to sponsors by a "mass submitter," as defined in section 4.05 below, and that would otherwise meet all of the requirements applicable to regional prototype plans under this revenue procedure.

.05 *Mass Submitter.* A "mass submitter," for purposes of this revenue procedure, is any person, whether or not such person is a sponsor within the meaning of section 4.02 above, which can establish that, if it receives a favorable notification letter with respect to a regional prototype plan it has submitted to the Service, there are at least 50 unaffiliated sponsors that will adopt the plan on a word-for-word identical basis. To establish that this criterion is satisfied, the mass submitter must submit to the Service a list of the sponsors that, to the best of the mass submitter's knowledge, are unaffiliated. In general, corporations that are members of a controlled group under section 414(b) of the Code, and partnerships, proprietorships, etc. which are under common control under section 414(c) will be considered affiliated for this purpose. However, without regard to whether section 414(b) or section 414(c) applies, persons such as the following will be considered to be affiliated: each partner or associate of a law firm, accounting firm, or actuarial consulting firm, with such firm, and all branch offices of the firm. Each adoption agreement will be considered a separate plan with respect to which the numerical requirement must be separately satisfied.

.06 *Notification Letter.* A "notification letter," for purposes of this revenue procedure, is a letter issued by the Service to a sponsor or to a mass submitter informing the sponsor or mass submitter that the sponsor's or mass submitter's plan is acceptable as to form.

.07 *Defined Contribution Plan.* "Defined contribution plan" means a plan described in section 414(i) of the Code.

.08 *Defined Benefit Plan.* "Defined benefit plan" means a plan described in section 414(j) of the Code.

.09 *Adoption Agreement.* For purposes of this revenue procedure, with respect to an adopting employer, an "adoption agreement" is the portion of a regional prototype plan that contains all of the options that may be selected by such adopting employer. (Also, see section 4.13, below.)

.10 *Basic Plan Document.* A "basic plan document," for purposes of this revenue procedure, is the portion of a regional prototype plan that contains all of the nonelective provisions applicable to all adopting employers. No options (including blanks to be completed) may be provided in the basic plan document. The same basic plan document may be used for both standardized (including paired) and nonstandardized regional prototype plans (see subsections .11 and .12 below). Such plans may differ only by the different adoption agreements and, if applicable, different trust or custodial account agreements (see section 4.13).

.11 *Standardized Regional Prototype Plan.* A "standardized regional prototype plan," for purposes of this revenue procedure, is a regional prototype plan that meets the following requirements:

(1) The provisions governing eligibility and participation are such that the plan by its terms must cover all employees described in section 6.01(10) (regardless of whether any employer is treated as operating separate lines of business under section 414(r)) except those that may be excluded under section 410(a)(1) or (b)(3) of the Code. For example, a plan providing full and immediate vesting may exclude employees who do not have at least two years of service. However, the adoption agreement may provide options as to whether some or all of the employees described in section 410(a)(1) and (b)(3) are to be excluded.

(2) The eligibility requirements under the plan are not more favorable for highly compensated employees (as defined in section 414(q) of the Code) than for other employees.

(3) The vesting schedule in the plan provides vesting at a rate at least as favorable for every year as would be required by the schedules set forth in section 416(b)(1)(A) or (B) of the Code if the plan was top-heavy for every year after 1983.

(4) Except for contributions made under a qualified cash or deferred arrangement (CODA) as defined in section 401(k) of the Code and the regulations (including proposed) thereunder, the contributions (including forfeitures) provided under the plan (if a defined contribution plan other than a target benefit plan) or the benefits (if a defined benefit plan or a target benefit plan that complies with Rev. Rul. 76-464, 1976-2 C.B. 115) are a uniform percentage of total compensation within the meaning of section 414(s) of the Code, excluding compensation in excess of the limitation under section 401(a)(17). A plan will not be treated as failing to meet this requirement merely because it involves integration with Social Security benefits or contributions provided (a) the form of the plan meets the permitted disparity limitations of section 401(l), or (b) the plan is a defined benefit plan with a final pay limitation that satisfies the requirements of section 401(a)(5)(D). This paragraph does not preclude a sponsor from submitting a defined benefit plan or a target benefit plan that uses a unit benefit formula based on years of service. (See section 7 of this revenue procedure for rules governing contributions made under a CODA.)

.12 *Paired Regional Prototype Plans.* "Paired regional prototype plans," for purposes of this revenue procedure, are a combination of two or more defined contribution standardized regional prototype plans (for example, a money purchase pension plan and a profit-sharing plan), so designed that if any single plan, or combination of plans, is adopted by an employer, each plan by itself, or the plans together, will meet the nondiscrimination rules set forth in section 401(a)(4) of the Code, the contribution limitations set forth in section 415, and the top-heavy provisions set forth in section 416. In addition, paired regional prototype plans must meet the following requirements:

(1) Regional prototype plans can only be paired with plans of the same sponsor.

(2) Only one of the paired plans that an employer adopts may provide for disparity in contributions that is permitted under section 401(l).

(3) If the paired plans do not provide duplication of minimum contributions, then each plan must provide, in any year in which it is top-heavy, the top-heavy minimum contribution for all participants in the plan who do not participate in the other paired plan(s) and must also state which of the paired plans will provide the top-heavy minimum contribution for participants who also participate in one or more of the other paired plans.

(4) All of the provisions necessary to coordinate the plans (other than the reliance statement required under section 6.01(9)) must be set forth in the basic plan document and not in the adoption agreement.

.13 *Trust or Custodial Account Document.* (*Note: This definition is inapplicable if the basic plan document includes a trust or custodial account agreement the provisions of which apply to all adopting employers.*) A "trust or custodial account document," for purposes of this revenue procedure, is the portion of a regional prototype plan that contains the trust agreement or custodial account agreement and includes provisions covering such matters as the powers and duties of trustees, investment authority, and the kinds of investments that may be made. Except as provided in section 6.01(5) and below, all provisions of the trust or custodial account document must be applicable to all adopting employers and no options may be provided in the trust or custodial account document. A sponsor or mass submitter may provide up to five separate trust or custodial account documents that are intended for use with any single basic plan document. Thus, for example, several employers that adopt a sponsor's standardized regional prototype plan may have plans with different trust or custodial account documents. In addition, a sponsor or mass submitter may provide a trust or custodial account document, designated for use only by adopters of nonstandardized plans, which provides for blanks to be completed with respect to administrative provisions of the trust or custodial account agreement. Any trust or custodial account document (including one to be used by adopters of standardized regional prototype plans) may provide for blanks to be completed that merely enable the adopting employer to specify the names of the plan, employer, trustee or custodian, plan administrator and other fiduciaries, the trust year, and the name of any pooled trust in which the plan's trust will participate.

SEC. 5. NOTIFICATION LETTERS

.01 *Scope of Notification Letters.* Except as provided in section 11, a notification letter does not constitute a ruling or determination as to either the qualification of the plan as adopted by a particular employer, or the exempt status of its related trust or custodial account.

.02 *Matters Not Covered by Notification Letters.* Notification letters will not be issued for:

(1) Any plan under which the rules of section 401(a), 410 or 411 of the Code are applied by treating the employees of more than one employer as employed by a single employer, and any plan which has been negotiated pursuant to a collective bargaining agreement and submitted to the Service as a plan maintained pursuant to a collective bargaining agreement. For this purpose, the term "one employer" includes all employers aggregated under section 414(b), (c), (m) or (o). This does not preclude a regional prototype plan, by its terms, from covering employees of the employer who are included in a unit covered by a collectively bargained agreement or the adoption of a regional prototype plan pursuant to such agreement as a single employer plan which covers only employees of the employer. However, the Service will not issue a notification letter with respect to a regional prototype plan if any provision therein would cause a plan that is not described in section 413(b) of the Code to fail to be qualified. Furthermore, a notification letter may not be relied on with respect to whether a plan satisfies any requirement that is applicable to a plan described in section 413(b) but inapplicable to other plans;

(2) Stock bonus plans;

(3) Employee stock ownership plans;

(4) Pooled fund arrangements contemplated by Rev. Rul. 81-100, 1981-1 C.B 326;

(5) Annuity contracts under section 403(b) of the Code;

(6) Master and prototype plans (see Rev. Proc. 89-9, (page 780, this Bulletin).

(7) Defined contribution plans (except target benefit plans) under which the test for prohibited discrimination under section 401(a)(4) of the Code is made by reference to benefits rather than contributions;

(8) Plans that involve integration with social security benefits or contributions, other than plans that, in form, meet the permitted disparity limitations of section 401(l) or that satisfy the requirements of section 401(a)(5)(D);

(9) Plans described in section 414(k) of the Code (relating to a defined benefit plan that provides a benefit derived from employer contributions that is based partly on the balance of the separate account of a participant);

(10) Defined contribution plans (other than any CODA portion of such a plan) that allocate contributions or forfeitures to the account of any participant in any manner other than on the basis of total compensation within the meaning of section 414(s);

(11) Target benefit and defined benefit plans that provide benefits on the basis of compensation where compensation is not defined as total compensation within the meaning of section 414(s);

(12) Governmental plans described in section 414(d) of the Code;

(13) Church plans described in section 414(e) of the Code that have not made the election provided by section 410(d);

(14) Plans (other than plans including a qualified CODA under section 401(k)) that permit contributions subject to the special nondiscrimination requirements of section 401(m). However, this does not prohibit mandatory employee contributions in a defined benefit plan. In the case of a plan which includes a qualified CODA, such plan may provide for after-tax employee contributions and matching contributions in addition to elective deferrals;

(15) Plans which contain, or may contain, a multi-tiered benefit structure (other than an integrated benefit formula). Thus, a plan may not provide different benefit formulas for different employees, such as two percent of compensation for salaried employees and one percent for hourly employees;

(16) Any plan under which the section 415 limitations are incorporated by reference; and

(17) Any plan under which the ADP test under section 401(k)(3) or the ACP test under section 401(m)(2) is incorporated by reference. (However, also see section 10.04(12).)

.03 *Notification Letter Numbers.* The office issuing a notification letter will assign a number to each approved plan. This number will identify the Service's issuing office and provide a means of identifying the plan. All correspondence with the Service regarding a regional prototype plan must refer to the plan's latest notification letter number.

.04 *Reciprocity.* A favorable notification letter issued by a key district director with respect to a regional prototype plan will be accepted throughout the particular region of the Service and any other region within whose jurisdiction clients of the sponsor have their principal place of business. A notification letter issued by the National Office with respect to a mass submitter's regional prototype plan will be accepted throughout each region of the Service.

.05 *Nontransferability of Notification Letters.* A notification letter issued to a sponsor is not transferable to any other person. For this purpose, the sponsor is the person that has made the agreement described in section 14.05.

SEC. 6. REQUIREMENTS THAT APPLY TO EVERY REGIONAL PROTOTYPE PLAN

.01 *Required Provisions.* A regional prototype plan must include all of the provisions described in this subsection. The adoption agreement may not permit the employer to override any of such provisions.

(1) *Sponsor Amendments.* Regional prototype plans must provide a procedure for sponsor amendment, so that changes in the Code, regulations, revenue rulings, and other guidelines published by the Internal Revenue Service, or corrections of prior approved plans, may be applied to all employers that have adopted the plan.

(2) *Employer Amendments.* Except for amendments permitted under paragraph (4) and (5) below, an employer that amends any provision of an approved regional prototype plan, including its adoption agreement (other than to change the choice of options, if the plan permits or contemplates such a change), or an employer that chooses to discontinue participation in a plan as amended by its sponsor and does not substitute another approved regional prototype plan or an approved master or prototype plan is considered to have adopted an individually designed plan. An employer that amends a regional prototype plan because of a waiver of the minimum funding requirement under section 412(d) of the Code will also be considered to have an individually designed plan. The procedure stated in Rev. Proc. 80-30, relating to the issuance of determination letters for individually designed plans, will then apply to the plan as adopted by the employer.

(3) *Anti-cutback Provisions.* The plan must specifically provide for the protection of section 411(a)(10) and (d)(6) of the Code in the event that the employer amends the plan in any manner such as by revising the options selected

in the adoption agreement or by adopting a new regional prototype plan. A regional prototype sponsor may not amend its plan in a manner that could result in the elimination of a benefit protected under section 411(d)(6) with respect to the plan of any adopting employer, unless permitted to do so under regulation sections 1.401(a)-4 and 1.411(d)-4. In addition, a regional prototype plan that does not contain vesting for all years which is at least as favorable to participants as that provided in section 416(b) of the Code, must specifically provide that any vesting which occurs while the plan is top-heavy will not be cut back if the plan ceases to be top-heavy.)

(4) *Adopting Employer Modification to Satisfy Sections 415 and 416.* Regional prototype plans must provide that the plan provisions may be amended by overriding plan language completed by the employer in the adoption agreement, where such language is necessary to satisfy section 415 or 416 of the Code because of the required aggregation of multiple plans under those sections. In the event of such an amendment, the adopting employer must obtain a determination letter in order to continue reliance on the plan's qualified status. Generally, a space should be provided in the adoption agreement to enable the employer to add such language as necessary to satisfy sections 415 and 416. In addition, a space must be provided in the adoption agreement for the employer to specify the interest rate and mortality tables used for purposes of establishing the present value of accrued benefits in order to compute the top-heavy ratio under section 416. Such a space must be included in both defined contribution plans and defined benefit plans.

(5) *Adopting Employer Modification of Trust or Custodial Account Document.* An employer that has adopted a regional prototype plan other than a standardized plan (or paired plans) will not be considered to have an individually designed plan merely because the employer amends administrative provisions of the trust or custodial account document (such as provisions relating to investments and the duties of trustees), so long as the amended provisions are not in conflict with any other provision of the plan and do not cause the plan to fail to qualify under section 401(a) of the Code. For this purpose, an amendment includes modification of the language of the trust or custodial account document and the addition of overriding language. An employer that has adopted a standardized regional prototype plan may amend the trust or custodial account document provided such amendment merely involves the specification of the names of the plan, employer, trustee or custodian, plan administrator and other fiduciaries, the trust year, or the name of any pooled trust in which the plan's trust will participate.

(6) *Defined Contribution Section 415 Aggregation.* Plan language must be incorporated that aggregates all defined contribution regional prototype plans to satisfy section 415(c) and (f) of the Code. Sample language may be obtained by writing to the Internal Revenue Service, Employee Plans Technical and Actuarial Division, Washington, D.C. 20224, Attention: E:EP:Q.

(7) *Top-heavy Requirements.* Except to the extent described in section 4.12, relating to paired plans, each plan must provide that all the additional requirements applicable to top-heavy plans (described in section 416 of the Code) apply at all times, or must provide that such requirements apply automatically if the plan is top-heavy regardless of how the adoption agreement is completed. In any case where the latter option is chosen, all the requirements for determining whether the plan is top-heavy must be included in the plan. See section 1.416-1 of the Income Tax Regulations.

(8) *Additional Top-heavy Minimums to Satisfy Section 415(e).* Each plan must provide automatically or by optional provisions the additional minimums described in section 416(h)(2)(A) of the Code.

(9) *Provision in Adoption Agreement on Extent of Reliance.* In order to avoid unnecessary confusion as to the effect of a notification letter, sponsors must include in the adoption agreement of all regional prototype plans (other than standardized and paired regional prototype plans), in close proximity to the signature blank, a statement that adopting employers may not rely on the notification letter with respect to the qualification of that plan and must apply to the appropriate key district office for a determination letter in order to obtain reliance. Standardized and paired regional prototype plans must also include a similar statement in the adoption agreement, that the adopting employer may not rely on the notification letter and should apply for a determination letter if the employer maintains or later adopts another plan in addition to the standardized plan or paired plans. In the case of a standardized defined benefit plan, this statement must also advise the adopting employer that the notification letter may be relied on with respect to whether the plan meets the minimum participation requirements of section 401(a)(26) of the Code only if the plan satisfies one of the safe-harbors provided in regulations under section 401(a)(26) with respect to its prior benefit structure or is deemed to satisfy section 401(a)(26) under such regulations. However, in connection with the initial adoption or amendment by an employer of a standardized defined benefit plan, such employer may request a determination letter if the employer wishes to have reliance as to whether its plan satisfies section 401(a)(26) with respect to its prior benefit structure. For purposes of this paragraph, a plan that is properly replaced by the adoption of a standardized plan of the same type (for example, both are profit-sharing plans) is not considered another plan. The adoption agreement must state that it is to be used with one and only one specific basic plan document.

(10) *Definition of "Employee": Section 414(b), (c), (m), (n) and (o).* Each plan must include a definition of employee as any employee of the employer maintaining the plan or of any other employer aggregated under section 414(b), (c), (m) or (o) of the Code and the regulations thereunder. The definition of employee shall also include any individual deemed under section 414(n) or under regulations under section 414(o) to be an employee of any employer described in the previous sentence.

(11) *Definition of "Service": Section 414(b), (c), (m), (n) and (o).* Each plan must specifically credit all service with any employer aggregated under section 414(b), (c), (m) or (o) of the Code and the regulations thereunder as service with the employer maintaining the plan. In addition, in the case of an individual deemed under section 414(n) or under the regulations under section 414(o) to be the employee of any employer described in the preceding sentence, service with such employer must be credited to such individual.

.02 *Other Requirements.* In addition to the requirements listed in section 10.04 and any other substantive requirements, regional prototype plans must comply with the requirements of all revenue rulings, notices, legislation, and regulations including:

(1) Final regulations under the Retirement Equity Act of 1984 (REA), Pub. L. 98-397, 1984-2 C.B. 433;

(2) Final regulations under sections 401(a)(4) and 411(d)(6) of the Code, on limitations on availability of benefits;

(3) If the plan includes a cash or deferred arrangement, final regulations under section 401(k) of the Code; and

(4) If the plan is an integrated defined benefit plan, Rev. Rul. 86-74, 1986-1 C.B. 205 (modifications to guidelines for social security integration under Rev. Rul. 71-446) with respect to plan years beginning after the relevant effective date specified in section 6 of the revenue ruling and before January 1, 1989.

SEC. 7. SPECIAL REQUIREMENTS FOR REGIONAL PROTOTYPE PLANS THAT INCLUDE A CASH OR DEFERRED ARRANGEMENT

.01 *Required Provisions.* In order to receive a favorable notification letter, a regional prototype plan that includes a CODA must be a profit-sharing plan and must include provisions that comply with the following list:

(1) The CODA must include a mechanism whereby an eligible employee may make a cash or deferred election with respect to employer contributions, within the meaning of section 401(k);

(2) The minimum number of years of service required for participation in the CODA cannot exceed 1;

(3) Separate accounts must be maintained for each participant's —

- (a) elective deferrals, as described in section 402(g)(3)(A);
- (b) qualified nonelective contributions, as described in section 401(m)(4)(C), and qualified matching contributions used to satisfy the test provided in section 401(k)(3);
- (c) matching contributions, as described in section 401(m)(4)(A), that are not used to satisfy the test provided in section 401(k)(3); and
- (d) employee contributions.

(4) Elective deferrals, employee contributions, qualified nonelective contributions, and qualified matching contributions must be nonforfeitable at all times;

(5) Amounts attributable to elective deferrals, other than excess deferrals, and qualified nonelective contributions and qualified matching contributions used to satisfy the actual deferral percentage test under section 401(k)(3) may not be withdrawn prior to one of the events specified in section 401(k)(2)(B);

(6) If the plan provides for hardship distributions, then for plan years beginning after December 31, 1988, amounts attributable to qualified nonelective contributions and qualified matching contributions may not be distributed merely on account of hardship. Also, income allocated to elective deferrals after December 31, 1988 may not be distributed on account of hardship.

(7) If the plan provides for hardship distributions of amounts attributable to elective deferrals, then, for the purpose of determining the existence of an immediate and heavy financial need and the amount necessary to meet that need, the plan must adopt the safe-harbor standards set forth in sections 1.401(k)-1(d)(2)(ii)(B) and (iii)(B) of the regulations.

(8) The CODA provisions may not be integrated with social security;

(9) Elective deferrals under the plan may not exceed $7,000 (or such greater amount as subsequently determined in accordance with increases provided under section 415(d)) for any taxable year;

(10) A mechanism must be provided by which a participant may notify the plan administrator of an allocation of excess elective deferrals, upon which notice such excess elective deferrals, and the applicable earnings, will be distributed to the participant by April 15 of the year following the calendar year of deferral;

(11) The actual deferral percentage (ADP) test set forth in section 401(k)(3) of the Code must be contained in the plan;

(12) Definitions of "highly compensated employee" and "family member," as described in section 414(q) of the Code, and "compensation," as described in section 414(s), must be contained in the plan;

(13) The method or methods by which the plan may correct contributions in excess of those allowed under the ADP test must be described in the plan. The plan must provide that the employer will maintain records to demonstrate compliance with the nondiscrimination requirements of section 401(k), including the extent to which qualified nonelective contributions and qualified matching contributions are taken into account;

(14) The plan must contain an explanation of the 10% excise tax which section 4979 of the Code imposes on employers that have not, within $2\frac{1}{2}$ months following the end of the plan year, distributed contributions in excess of the amount allowed by the ADP test (see paragraph (8) above), or have not recharacterized such contributions;

(15) A mechanism must be provided to assure the proper ordering of tests described in section 401(m)(6)(D) of the Code and the regulations thereunder;

(16) The plan must contain provisions to satisfy the top-heavy requirements set forth in section 416; beginning January 1, 1989, plans may not include elective deferrals or matching contributions as employer contributions for the purpose of satisfying the minimum contribution requirement; and

(17) The plan must provide that if contributions subject to section 401(m) are made pursuant to the plan containing the CODA or any other plan maintained by the same employer, such employer must designate the method of correction to be used and the plan to be corrected if a multiple use of the alternative limitation (within the meaning of section 401(m)(9) of the Code) occurs.

.02 *Optional Provisions.* Regional prototype plans that include a CODA may also provide for some or all of the following items:

(1) Matching contributions or employee contributions. If such contributions are made, the plan must contain —

- (a) The average contribution percentage (ACP) nondiscrimination test described in section 401(m)(2) of the Code;
- (b) A description of the method or methods by which the plan will correct contributions made in excess of the section 401(m)(2) limits;
- (c) A provision that the employer will maintain records to demonstrate compliance with the nondiscrimination requirements under section 401(m), including the extent to which qualified nonelective contributions and elective contributions are taken into account; and
- (d) An explanation of the 10% excise tax imposed by section 4979 of the Code upon employers that have not corrected contributions in excess of amount allowed by the ACP test within $2\frac{1}{2}$ months

following the end of the plan year.

(2) Qualified nonelective contributions (QNECs);

(3) Recharacterization of excess contributions as voluntary employee contributions subject to section 401(m);

(4) Use of QNECs to satisfy the ADP test;

(5) Use of qualified matching contributions to satisfy the test set forth in section 401(k); and

(6) Distribution of amounts attributable to elective contributions on account of participant hardship (but see sections 7.016 and 7.017).

.03 *Additional Requirements for Standardized Regional Prototype Plans.*

(1) A standardized regional prototype plan that includes a CODA must, in addition to satisfying the requirements listed in section 7.01 above, provide a minimum qualified nonelective contribution of 3% of compensation.

(2) The requirement that contributions be a uniform percentage of each participant's compensation does not apply to elective deferrals, QNECs or matching contributions (if any) under the CODA. However, all other requirements of sections 7 and 11 of this revenue procedure apply to a standardized regional prototype plan that contains a CODA.

SEC. 8. INSTRUCTIONS TO SPONSORS REQUESTING NOTIFICATION LETTERS WITH RESPECT TO NONMASS SUBMITTER REGIONAL PROTOTYPE PLANS

.01 *Applicability of this Section.* The instructions in this section apply to regional sponsors that have at least 30 clients, located in not more than two regions of the Service, that are expected to adopt a regional prototype plan which is not a mass submitter plan. Regional sponsors that have the requisite number of such clients (and thus do not need to adopt a mass submitter's plan in order to qualify as sponsors under this revenue procedure) may nevertheless choose to adopt a mass submitter's regional prototype plan and make it available for adoption by their clients. In that case, the instructions contained in section 9 below are applicable, relating to notification letter applications by mass submitters and sponsors whose clients will adopt a mass submitter regional prototype plan.

.02 *Key District Office Issues Notification Letters.* The key district director will, upon a request by a plan sponsor that meets the requirements of this revenue procedure, issue a notification letter as to the acceptability of the form of the sponsor's plan and any related trust or custodial account under sections 401(a), 403(a) or 501(a).

.03 *Request for Notification Letter.* A sponsor's request for a notification letter under this revenue procedure must be submitted to the key district office within the region of the Service where the sponsor has its principal place of business. Such requests should be sent to the same address as that set forth in section 6.06(5) of Rev. Proc. 89-4, with reference to requests for notification letters submitted pursuant to Rev. Proc. 84-86. Sponsors may not file separate notification letter requests in more than one region. The request must include the application form, adoption agreement, basic plan document and trust or custodial account document(s), the written agreement relating to registration of regional prototype plans described in section 14.05, and a statement that the sponsor has not filed in any other region. Upon receipt of the notification letter, the sponsor must furnish a copy of the plan and notification letter to the key district office in each other region where the sponsor has clients that will adopt the plan.

.04 *Forms for Requesting Notification Letters.* A request for a notification letter as to the acceptability of a regional prototype plan should be submitted on Form 4461, Application for Approval of Master or Prototype Defined Contribution Plan, or Form 4461-A, Application for Approval of Master or Prototype Defined Benefit Plan, whichever is appropriate. The ''Regional Prototype Plan'' box on the form should be checked. Such requests must include a copy of the plan (the adoption agreement and basic plan document) and the trust or custodial account document(s). A sponsor's request for a notification letter must be accompanied by a covering letter requesting application of this revenue procedure and containing a representation that the sponsor can reasonably expect the submitted regional prototype plan (basic plan document) to be adopted by at least 30 employers (and each submitted adoption agreement to be adopted by no fewer than 10 employers) whose principal place of business is located within not more than two regions of the Service.

SEC. 9. INSTRUCTIONS TO MASS SUBMITTERS AND SPONSORS UTILIZING MASS SUBMITTER PLANS

.01 *Applicability of this Section.* The instructions in this section apply to mass submitters of regional prototype plans and to sponsors that have any clients that are expected to adopt a mass submitter regional prototype plan.

.02 *National Office Issues Notification Letter to Mass Submitter.* The National Office will, upon a request by a mass submitter as defined in section 4.05, issue a notification letter as to the acceptability of the form of the mass submitter's regional prototype plan and the form of any related trust or custodial account under sections 401(a), 403(a) or 501(a) of the Code.

.03 *Requirements for Mass Submitter's Notification Letter Request.* A mass submitter's request for a notification letter as to the acceptability of its regional prototype plan is to be submitted on Form 4461 or Form 4461-A, whichever is appropriate. The phrase ''Mass Submitter Regional Prototype Plan'' must be printed in bold letters in the upper right-hand corner of the first page of the application. The application form must be accompanied by a covering letter in which the mass submitter certifies that at least 50 sponsors are expected to sponsor the identical plan and which lists the names and addresses of such sponsors. For this purpose and as used throughout this revenue procedure, ''identical'' means the plan is word-for-word identical to another plan except for differences in the names of employers, sponsors, and trustees or custodians, and permitted differences in the trust or custodial account document(s). The request must include a copy of the plan (the adoption agreement and basic plan document) and the trust or custodial account document(s), and should be filed with the Internal Revenue Service, Assistant Commissioner (Employee Plans and Exempt Organizations), Attention: E:EP:Q, P.O. Box 14073, Ben Franklin Station, Washington, D.C. 20044.

.04 *Separate Notification Letters Required for Sponsors Utilizing Mass Submitter Regional Prototype Plans.* A sponsor that has adopted a mass submitter's regional prototype plan and intends to make it available to employers must obtain a notification letter from the key district office where the sponsor has its principal place of business. (A mass submitter which is also a sponsor must also apply for a notification letter from the key district office in order to make its plan available directly to adopting employers.) The sponsor's request for a notification letter must be filed by the mass submitter on behalf of the sponsor. Upon receiving the notification letter from the key district office, the sponsor must furnish a copy of the plan and notification letter to the key district office in each other region of the Service where the sponsor has clients that will adopt the plan. Because notification letter applications filed in the key district offices with respect to mass submitter plans will not require technical review, such applications will receive priority processing.

.05 *Requirements for Sponsor's Request for Notification Letter Relating to Mass Submitter's Regional Prototype Plan.* A request for a notification letter filed by a mass submitter on behalf of a sponsor that has adopted the mass submitter's regional prototype plan must contain a declaration by the mass submitter that the sponsor has adopted a particular word-for-word identical regional prototype plan of the mass submitter. The plan must be identified by the letter serial number and date of the notification letter issued by the National Office to the mass submitter with respect to the plan, and a copy of the plan and trust or custodial account document(s) must be submitted. (However, also see section 15.03.) The mass submitter on behalf of the sponsor must complete Part I of Form 4461 or Part I of Form 4461-A, whichever is appropriate. In addition, the request must include the written agreement (signed by the sponsor) relating to the registration of regional prototype plans described in section 14.05.

SEC. 10. INSTRUCTIONS THAT APPLY TO ALL MASS SUBMITTERS AND SPONSORS OF REGIONAL PROTOTYPE PLANS

.01 *Requests Involving Different Categories of Plans.* A plan will not be acceptable as a regional prototype plan if it combines features of plans in different categories, such as those of a profit-sharing plan, a money purchase pension plan (other than target benefit), a target benefit plan, a non-integrated defined benefit plan, or an integrated defined benefit plan. However, separate defined contribution plans may have the same basic plan document. Similarly, separate integrated and nonintegrated defined benefit plans may have the same basic plan document.

.02 *Multiple Plans Submitted by One Sponsor.* A sponsor of a regional prototype plan may receive separate notification letters for more than one defined contribution plan and more than one defined benefit plan. (See section 4.02 regarding the minimum number of clients which must adopt each plan in the event such plan is not identical to a mass submitter plan.) However, a separate application must be filed for each plan. The sponsor must assign a three-digit number to each plan, which may not be changed or used for any other plan of the sponsor. The three-digit number assigned to each plan should start with 001, and each additional plan should be numbered in sequence.

.03 *Additional Information May Be Requested.* The Service may, at its discretion, require any additional information that it considers necessary.

.04 *Inadequate Submissions.* The Service will return, without further processing, plans that are not in substantial compliance with the qualification requirements, or plans that are so deficient they cannot be reviewed in a reasonable amount of time. A plan may be considered not to be in substantial compliance if, for example, it omits or otherwise fails to comply with any of the requirements set forth below, or merely incorporates those requirements by reference to the applicable Code section. The Service will not consider these plans until after they are revised, and they will be treated as new requests as of the date they are resubmitted. The following are some examples of qualification requirements the omission of which may cause a plan to be regarded as not being in substantial compliance:

(1) Section 401(a)(9) of the Code, as amended by section 1121 of TRA 86, relating to required distributions from qualified plans (see section 1.401(a)(9)-1 and 2 of the proposed regulations).

(2) Section 401(a)(11) of the Code, as amended by section 1898 of TRA 86, and section 417 of the Code, as amended by sections 1139 and 1898 of TRA 86, and the regulations thereunder, relating to minimum survivor annuity requirements.

(3) Section 415 of the Code, as amended by sections 1108, 1114, 1852, 1875, and 1898 of TRA 86, relating to contribution and benefit limits for qualified plans (see Notice 87-21, 1987-1 C.B. 458).

(4) Section 416 of the Code, as amended by sections 1106, 1118, and 1852 of TRA 86, containing special rules for top-heavy plans.

(5) If the plan provides for disparity in contributions or benefits, section 401(l) of the Code, as amended by section 1111 of TRA 86, relating to nondiscriminatory coordination with Social Security benefits (see sections 1.401(l)-1 through 1.401(l)-4 of the proposed regulations).

(6) Section 414(m) of the Code, as amended by section 1114 of TRA 86, relating to employees of affiliated service groups.

(7) Section 414(n) of the Code, as amended by sections 1146 and 1151 of TRA 86, relating to leased employees.

(8) Section 414(o) of the Code, as amended by section 1146 of TRA 86, and the regulations thereunder.

(9) Section 401(c) and (d) of the Code, unless the plan precludes participation by self-employed individuals.

(10) Section 411(a)(2), as amended by section 1113 of TRA 86, and the temporary regulations thereunder, relating to vesting of employer contributions.

(11) If the plan contains a CODA, section 401(k) of the Code, as amended by sections 1116 and 1879(g) of TRA 86, and the regulations thereunder (see section 1.401(k)-1 of the final and proposed regulations).

(12) If the plan permits, or permitted in any plan year beginning after 1986, employee or matching contributions (other than mandatory contributions under a defined benefit plan), section 401(m) of the Code, as added by section 1117(a) of TRA 86, relating to the nondiscrimination test for employee and matching contributions (see section 1.401(m)-1 and 2 of the proposed regulations, and also see section 5.02(14) above as to which plans may permit such contributions). Since a regional prototype plan may be adopted as an amendment to a plan which permitted employee or matching contributions in a plan year beginning after December 31, 1986, all regional prototype plans must contain language which satisfies the requirements of section 401(m). However, if a regional prototype plan (other than one with a CODA that provides for employee or matching contributions) precludes such contributions after its adoption by an employer, this requirement may be satisfied by incorporating the rules of section 401(m) by reference.

(13) Section 410(a) of the Code, as amended by section 1113 of TRA 86 and

section 9203 of OBRA 86, relating to minimum participation standards (see section 1.410(a)-4A of the proposed regulations).

(14) Sections 411(b)(1)(H) and 411(b)(2) of the Code, as added by section 9202 of OBRA 86, relating to accruals and allocations after a specified age (see section 1.411(b)-2 of the proposed regulations).

(15) If the plan is a contributory defined benefit plan, section 411(c)(2) of the Code, as amended by section 9346(b) of OBRA 87, relating to an employee's accrued benefit derived from employee contributions.

(16) Section 401(a)(17) of the Code, as added by section 1106 of TRA 86, relating to the limitation on annual compensation that may be taken into account.

(17) Section 401(a)(26) of the Code, as added by section 1112 of TRA 86, relating to additional participation requirements (see the proposed regulations under section 401(a)(26)).

.05 *Material that Sponsor must Furnish to Adopting Employers.* A sponsor must furnish each adopting employer with a copy of the approved plan (including the trust or custodial account document) and notification letter.

.06 *Failure to Identify Questionable Issues May Cause Delay.* If the plan document submitted with the request for a notification letter contains a provision that gives rise to an issue for which contrary published authorities exist, failure to disclose and distinguish significant contrary authorities may result in requests for additional information, which will delay action on the request. (See section 7.06 of Rev. Proc. 83-36.)

.07 *Sample Language.* A Listing of Required Modifications (LRM) containing sample language to be used in drafting regional prototype plans is available from the Employee Plans Technical & Actuarial Division of the Internal Revenue Service. Such language is not automatically required in regional prototype plans but should be used as a guide in drafting such plans. An LRM may be obtained by writing to the Internal Revenue Service, Employee Plans Technical & Actuarial Division, Washington, D.C. 20224, Attention E:EP:Q. To expedite the review of their plans, sponsors are encouraged to use LRM language and to identify where such language is being used in their plan documents.

SEC. 11. EMPLOYER RELIANCE; STANDARDIZED REGIONAL PROTOTYPE PLANS

.01 *Reliance.* An employer adopting a standardized regional prototype plan may rely on its sponsor's notification letter, except as provided in subsections .02 and .03 below, if the following conditions are satisfied:

(1) The employer has followed the terms of the plan, and the coverage and contributions or benefits under the plan are not more favorable for highly compensated employees (as defined in section 414(q) of the Code) than for other employees;

(2) The employer has properly notified all interested parties of the adoption of the plan in accordance with rules similar to those set forth in section 8 of Rev. Proc. 80-30; and

(3) The employer has not received, within 120 days after the date the plan was adopted, notice from the Service that the plan will not be treated as qualified pursuant to this subsection. (In this regard, see section 4.14 of Rev. Proc. 80-30.)

.02 *Nonreliance by Employer Maintaining More than One Plan.* Except in the case of a combination of paired regional prototype plans, if an employer maintains at any time, or has maintained at any time, any other plan, including a regional prototype plan, that was qualified or determined to be qualified covering some of the same participants, the employer may not rely on a notification letter issued with respect to a standardized regional prototype plan but, in order to have reliance that the plan is qualified under section 401(a) of the Code, must obtain a favorable determination letter. However, if the plan is qualified under section 401(a) of the Code, an employer may rely on a notification letter issued with respect to a standardized regional prototype plan without obtaining a determination letter if the only other plan maintained by that employer was a plan that was replaced by the standardized regional prototype plan for which reliance is sought. Both such plans must be of the same type (for example, both money purchase plans) in order for such reliance to be available.

.03 *Reliance by Employer Adopting a Standardized Defined Benefit Plan.* An employer that has adopted a standardized defined benefit regional prototype plan may rely on a notification letter only if the plan satisfies one of the safe-harbors provided in regulations under section 401(a)(26) with respect to its prior benefit structure or is deemed to satisfy section 401(a)(26) under such regulations. However, in connection with the initial adoption or amendment by an employer of a standardized defined benefit plan, such employer may request a determination letter if the employer wishes to have reliance as to whether its plan satisfies section 401(a)(26) with respect to its prior benefit structure.

SEC. 12. DETERMINATION LETTERS AND INSTRUCTIONS TO ADOPTING EMPLOYERS

.01 *Determination Letters in General.* Except as provided in section 11, the issuance of a favorable notification letter does not imply that employers adopting the sponsor's plan have a qualified plan. In order to have reliance, such employers must obtain a favorable determination letter from the appropriate key district office. They should file a request in accordance with Rev. Proc. 80-30.

.02 *Submission of Determination Letter Requests.* An employer requesting a determination letter with respect to its adoption of a sponsor's regional prototype plan should file Form 5307, Short Form Application for Determination for Employee Benefit Plan. The application should be submitted to the key district director for the district in which the employer's principal place of business is located, as specified in section 6.06(5) of Rev. Proc. 89-4. The employer must include a copy of the notification letter that the sponsor received and a certification by the sponsor that the notification letter has not been withdrawn and is still in effect with respect to the plan being submitted. (However, also see section 15.03.) The submission must include an adoption agreement showing which elections the employer is making with respect to the elective provisions contained in the plan as well as a copy of the employer's trust or custodial account document.

SEC. 13. MAINTENANCE OF APPROVED STATUS

.01 *Revocation of Notification Letter by the Service.* A notification letter found to be in error or not in accord with the current views of the Service may be revoked. However, except in rare or unusual circumstances, such revocation will not be applied retroactively if the conditions set forth in section 14.05 of Rev. Proc. 83-36 are met. For this purpose, such notification letters will be given the same effect as rulings. Revocation may be effected by a notice to the sponsor of the plan to whom such letter was originally issued, or by regulation, revenue ruling or other statement published in the Internal Revenue Bulletin. The sponsor should then notify each adopting employer of the revocation.

.02 *Subsequent Required Amendments.* Approved regional prototype plans must be amended by the sponsor and, if necessary, the employer, to retain their approved status if any provisions therein fail to meet the requirements of law, regulations, or other issuances and guidelines affecting qualification that become effective subsequent to the issuance of a notification letter. See section 14 and section 15.02 below regarding the time by which such amendments must be adopted and other requirements relating to the amendment of regional prototype plans.

SEC. 14. REGISTRATION/RELIANCE

.01 *General Description of this Section.* The provisions of this section enable employers that have adopted approved regional prototype plans to continue to rely on favorable notification or determination letters subsequent to changes in law that affect plan qualification, provided certain conditions are satisfied. Among these conditions are requirements, set forth in subsection .05, that adoptions of regional prototype plans be registered with key district offices and that sponsors provide certain notices to adopting employers and key district offices. The key district offices will not issue a notification letter with respect to a regional prototype plan unless the sponsor has agreed to comply with these registration and notice requirements. If a sponsor subsequently fails to comply with these requirements, employers that have adopted the sponsor's regional prototype plan will be considered to have individually designed plans and will not be entitled to the reliance described in this section. A sponsor is not prohibited from including the substance of these requirements in its regional prototype plan.

.02 *Employer Reliance.* An employer that has received a favorable determination letter with respect to a regional prototype plan, or is entitled to rely on a notification letter pursuant to section 11, may not continue to rely on such determination letter or notification letter subsequent to the effective date with respect to its plan of a change in the Code or regulations or the publication by the Service of revenue rulings or other guidelines affecting the plan's qualified status unless the requirements of subsections .04 and .05 below are satisfied.

.03 *Issuance of Determination Letters during Interim Period.* Where an employer adopts an approved regional prototype plan subsequent to a change in law affecting plan qualification, key district offices will not, during the period described in subsection .04(1) below, refuse to issue a determination letter with respect to the plan unless the plan should not previously have been approved as to form because of an existing defect. However, the employer will not be entitled to rely on such determination letter or on a notification letter (if section 11 applies) unless the requirements of subsections .04 and .05 are satisfied.

.04 *Requirements for Reliance.* An employer will be entitled to the reliance described in subsections .01 and .02 only if the following requirements are satisfied:

(1) On or before the end of the 12-month period beginning with the earliest date on which the change in the qualification requirements becomes effective with respect to any plan (or such other date described in subsection .06 or section 15.02 or provided by notice in the Internal Revenue Bulletin), the sponsor amends the regional prototype plan and requests a notification letter with respect to such amendment.

(2) In the case of a mass submitter's regional prototype plan, this requirement will be satisfied if, by the end of the period described in paragraph (1), the mass submitter amends its regional prototype plan, requests a notification letter from the National Office with respect to such amendment, and, on behalf of each adopting sponsor, submits to the appropriate key district office an application for a notification letter along with a copy of the mass submitter's amendment and a covering letter certifying that the amendment has been submitted to the National Office for approval and that the sponsor intends to submit the approved amendment to the appropriate key district office within 60 days following the issuance of a notification letter by the National Office.

(3) The sponsor furnishes each adopting employer with a copy of the approved amendment and the key district office's notification letter within 60 days following the issuance of such notification letter.

(4) With regard to any adopting employer's plan, the amendment is effective as of the date the change in the qualification requirements became effective with respect to the plan. (In this regard, see subsection .07 and section 15.02 below.)

(5) If the amendment changes any provision of the adoption agreement or requires changes to any employer elections in the adoption agreement (or in the trust or custodial account document), the employer executes a new adoption agreement (and, if necessary, amends or modifies the trust or custodial account document) by the later of the end of the sixth calendar month beginning after issuance of the new notification letter or the end of any applicable remedial amendment period provided by regulations under section 401(b) of the Code.

(6) Except as provided in section 11, the employer requests a determination letter by the later of the two dates described in the preceding paragraph. Such a determination letter request may be made on Form 5307 and must include a copy of the new notification letter.

(7) To the extent that the employer's plan has not operationally complied with the change in the qualification requirements during the entire period for which the change has been effective with respect to the plan, the employer retroactively corrects such noncompliance (for example, through restoration of benefits) by the last day of the first plan year beginning after the latest of (a) the plan year in which the change first became effective with respect to the plan, (b) the plan year in which the new notification letter was issued, or (c) the plan year in which a new determination letter was issued.

(8) The sponsor complies with the registration requirements of subsection .05.

.05 *Registration Requirements.* A sponsor complies with the requirements of this subsection if, as part of its initial notification letter request, it agrees in writing, and subsequently abides by its agreement, to:

(1) Notify the key district office on each anniversary of the date of issuance of the initial notification letter as to whether the sponsor has made any changes to the plan and whether the sponsor intends to continue to make the plan available for adoption by employers;

(2) Provide the key district office on each such anniversary date with (a)

cumulative lists of the names, business addresses and taxpayer identification numbers of all employers (both in and outside the region): (i) that adopted the plan and are currently maintaining it (if the sponsor is continuing its sponsorship of the plan with respect to those employers), and (ii) that previously adopted the plan (if the sponsor has discontinued its sponsorship of the plan with respect to those employers during the prior 12-month period), and (b) a certification that it is in current compliance with the notification requirements in paragraphs (3) and (4) below.

(3) Notify each employer that had adopted the plan, but with respect to whom the sponsor has discontinued its sponsorship of the plan, by certified mail as soon as possible after such discontinuance (but not later than 60 days thereafter) that the employer's plan will be treated as an individually designed plan if the employer is continuing to maintain it and has not replaced it with another regional prototype plan (see Item 1 of the Appendix for a pattern notice that may be used);

(4) Notify each adopting employer annually, in writing, as to whether the sponsor continues to be a sponsor, whether any amendments have been made to the regional prototype plan, and, if amendments have been made, the requirements the employer must satisfy in order to be entitled to reliance (see pattern notice in Item 2 of the Appendix);

(5) Notify both the key district office and all adopting employers at the earliest possible date if the sponsor intends to discontinue its sponsorship of the regional prototype plan (see pattern notices in Item 3 of the Appendix); and

(6) Furnish to the key district office, upon request, copies of the notifications described in paragraphs (3), (4) and (5).

.06 *Amendments Following Publication of Revenue Rulings, etc.* If an approved regional prototype plan is required to be amended to retain its approved status as a result of publication by the Service of a revenue ruling, notice or similar statement in the Internal Revenue Bulletin (I.R.B.), then, unless section 15.02 is applicable or unless specifically stated otherwise in the revenue ruling, etc., for purposes of subsection .04 above, the time by which the sponsor must amend its regional prototype plan to conform to the requirements of the revenue ruling, etc. and request a new notification letter shall be the end of the one-year period after its publication in the I.R.B., and with respect to any adopting employer's plan the effective date of such amendment shall be the first day of the first plan year beginning within such one-year period.

SEC. 15. SPECIAL PROVISIONS RELATING TO TRA 86

.01 *Delayed Submissions.* Except with respect to applications that are filed with the National Office of the Service for notification letters relating to mass submitter regional prototype plans, applications for notification letters submitted under this revenue procedure will not be accepted prior to July 14, 1989. Applications filed with the National Office relating to mass submitter regional prototype plans will not be accepted prior to April 17, 1989.

.02 *Extended Reliance.* A sponsor which submits a regional prototype plan that has been amended in accordance with the requirements specified in sections 6 and 10 of this revenue procedure (and all other requirements that are in effect on the date the application is submitted) on or before March 31, 1990, and receives a favorable notification letter under this procedure, will not be required to amend its plan for subsequent regulations under TRA 86, OBRA 86, OBRA 87, or for revenue rulings, revenue procedures or other Service releases issued after the date of the application, before the earlier of December 31, 1994 or the date the plan is otherwise required to be amended by subsequent legislation. Solely for purposes of this subsection, a regional prototype plan which is submitted to the Service after March 31, 1990 as a word-for-word identical adoption of a mass submitter plan that has been amended in accordance with the requirements specified in sections 6 and 10 of this revenue procedure (and all other requirements in effect on the date of the mass submitter's application) and that has been submitted to the Service on or before March 31, 1990, will be deemed to have been submitted to the Service on the date of the mass submitter's application. Any employer that adopts a plan described above, and is otherwise entitled to reliance, may continue to rely on the determination letter (or notification letter, if applicable) until the earlier of the last day of the last plan year commencing before January 1, 1995 or the date established for plan amendment by any subsequent legislation. In unusual circumstances, the Service may require regional prototype plans to be amended for, or operationally comply with, qualification requirements issued by the Service after a request for a notification letter or determination letter is submitted but prior to the end of this extended reliance period. The Service will require this action only in cases where it is necessary to correct a fundamental error or omission that is likely to affect participants' rights or tax revenues in a significant number of plans. Any rule or regulation remedying an omission or correcting an error will generally be made effective prospectively for plans which have met the requirements for extended reliance. However, the Service reserves the right to make such a rule or regulation applicable to such plan during the entire extended reliance period. Upon termination of an employer's regional prototype plan prior to the end of the extended reliance period, the plan must be amended retroactively to the effective date of any intervening change with respect to which operational compliance was required in order to correct a fundamental error or omission. This extended reliance period will not prevent the Service from requiring a plan to be amended to correct any defect in the plan which was not discovered upon prior review by the Service.

.03 *Procedure for Extension of Remedial Amendment Period Pending Issuance of Notification Letter.* In the event that an employer establishing a new plan or amending an existing plan to comply with TRA 86 by adopting a regional prototype plan cannot file a determination letter request under this procedure prior to the expiration of its remedial amendment period under section 1.401(b)-1 of the regulations solely because the sponsor of the regional prototype plan has not as of such time received a favorable notification letter, then the end of such remedial amendment period under section 1.401(b)-1(c)(2) of the regulations shall be deemed to be the date on which the employer actually files a determination letter request under this procedure provided all of the following conditions are satisfied:

(1) In the case where the employer is adopting a nonmass submitter regional prototype plan, the sponsor's application for a notification letter was submitted to the Service on or before March 31, 1990, and was still pending with the Service as of the date 30 days preceding the date the employer's remedial amendment period would expire without regard to this section. In the case where the

employer is adopting a mass submitter regional prototype plan, the mass submitter's application was submitted to the Service on or before March 31, 1990, the sponsor's name was included on the mass submitter's list described in section 9.03 (or on a follow-up list submitted on or before March 31, 1990), and (a) the mass submitter's application was still pending with the National Office on the date 60 days preceding the end of the remedial amendment period , or (b) the sponsor's application was pending with the key district office on the date 30 days preceding the end of the remedial amendment period.

(2) The employer and the sponsor execute a written certification in the form set forth in Item 4 of the Appendix. Such written certification must be executed by both the employer and the sponsor by no later than the date on which the employer's remedial amendment period would expire without regard to this section.

(3) The employer files an application for a determination letter with respect to its adoption of the sponsor's approved regional prototype plan in accordance with this procedure by no later than the 60th day following the date of the favorable notification letter issued to the sponsor and attaches to its application the certification described in subsection .03(2), above. In the case of an employer not otherwise required to file a request for a determination letter pursuant to section 11, such employer may, under the circumstances described in subsection .03(1), above, extend its remedial amendment period until the 60th day after the date a favorable notification letter is issued to the sponsor provided the certification described above is timely executed and retained by the employer as evidence of extension of the remedial amendment period and the employer adopts the sponsor's approved regional prototype plan by no later than the 60th day after the date of the favorable notification letter. Sponsors and employers should note that nothing contained herein permits a plan to be made retroactively effective for a taxable year prior to the taxable year of the employer in which the plan was first adopted by the employer.

SEC. 16. WITHDRAWAL OF REQUESTS

.01 *Notification and Effect.* A sponsor may withdraw its request for a notification letter at any time prior to the issuance of such letter by giving written notice of such withdrawal to the office in which the request is pending.

.02 *Service Retains Information.* Even though a request is withdrawn, the Service will retain all correspondence and documents associated with the request and will not return them to the sponsor of the plan.

SEC. 17. USER FEES

Pursuant to section 10511 of OBRA 87, the following user fees have been established with respect to the notification letters and determination letters provided for in this revenue procedure:

Mass submission of regional prototype plan, per basic plan document (new or amended, regardless of number of adoption agreements)	$1,000
Sponsor's identical adoption of mass submitter's regional prototype plan basic plan document, per adoption agreement (mass submitters that are sponsors in their own right are liable for this fee)	$50
Nonmass submission by sponsor of regional prototype plan, per adoption agreement	$1,000
Adopters of regional prototype plans (Form 5307)	$100

SEC. 18. EFFECT ON OTHER DOCUMENTS

.01 Rev. Proc. 84-86 is superseded.

.02 Rev. Proc. 89-4 is modified by establishing the new subcategories and related fees described in section 17 above.

SEC. 19. EFFECTIVE DATE

This revenue procedure is effective February 13, 1989, the date of its publication in the Internal Revenue Bulletin.

APPENDIX

1. *Pattern notice that may be used to notify employer that its plan will be treated as an individually designed plan*

NOTICE

To: (Name of Employer)

On (date plan was adopted) you adopted the (name of plan) regional prototype plan. As of (date of discontinuance), we have discontinued our sponsorship of the plan as adopted by you. The purpose of this notice is to advise you that if you are continuing to maintain the plan and have not replaced it with another approved regional prototype plan or an approved master or prototype plan, the plan will be treated by the Internal Revenue Service as an individually designed plan. As a consequence, if it becomes necessary to amend the plan because of a change in the law or because of regulations or other guidelines issued by the Service, you will not be entitled to continue to rely on any determination letter you received from the Service as to the regional prototype plan's qualified status (or, in the case of a standardized plan, on the notification letter we received). In order to continue such reliance, you must obtain a favorable determination letter as to the qualified status of the individually designed plan.

(signature) date)

2. *Pattern notice that may be used to notify employer annually as to whether sponsor continues to be a sponsor, whether any amendments have been made, and, if amendments have been made, what requirements must be satisfied for reliance*

NOTICE

To: (Name of Employer)

On (date of adoption) you adopted the (name of plan) regional prototype plan sponsored by us. The purpose of this notice is to advise you that, as of December 31, 19 , we are continuing our sponsorship of the plan and that [the plan has not been amended in the year ending on that date.]/[the plan has been amended as follows in the year ending on that date: (describe amendment)]. The requirements that you must satisfy in order to be able to continue to rely on any favorable determination letter you received from the Internal Revenue Service as to the plan's qualified status (or, in the case of a standardized plan, on the notification letter issued to us) are set forth in section 14.04 of Rev. Proc. 89-13, page 801, this Bulletin.

(signature) (date)

3. *Pattern notices that may be used to notify key district office and all adopting employers that sponsor intends to discontinue sponsorship of plan*

NOTICE

To: Chief, EP/EO Division

____________ Key District

This is to inform you, in accordance with section 14.05(5) of Rev. Proc. 89-13, page 801, this Bulletin, that we intend to discontinue our sponsorship of the ________ regional prototype plan as of ______, 19__. The plan was approved by you on ______, 19__, by notification letter number ______.

(signature) (date)

NOTICE

To: (Name of Employer)

This is to inform you that, as of ______, 19__, we intend to discontinue our sponsorship of the (name of plan) regional prototype plan, which you adopted on (date of adoption). If you continue to maintain the plan and do not adopt another approved regional prototype plan or an approved master or prototype plan to replace it, the plan will be treated by the Internal Revenue Service as an individually designed plan. In that case, if it becomes necessary to amend the plan because of a change in the law or because of regulations or other guidelines issued by the Service, you must obtain a favorable determination letter from the appropriate key district office in order to have continued reliance as to the plan's qualified status.

(signature) (date)

4. *Certification to extend remedial amendment period in accordance with section 15.03*

(To be completed by employer)

I, (name of signatory), hereby certify under penalty of perjury that (name of adopting employer if different from name of signatory / I) intend(s) to adopt the regional prototype plan sponsored by (name of sponsor) once it has been approved by the Internal Revenue Service, and that I make this certification on the date set forth below for the purpose of extending the remedial amendment period under section 1.401(b)-1 of the Income Tax Regulations.

(Signature / Title) (Date signed)

(Name of employer)

(Business address)

(EIN)

(To be completed by sponsor)

I, (name of signatory), hereby certify under penalty of perjury that (name of sponsor if different from name of signatory / I)received the above certification on (date) in (its / my) capacity as a sponsor of a regional prototype plan, and that such certification was made under the circumstances described in section 15.03(1) of Rev. Proc. 89-13.

(Signature / Title) (Date signed)

(Name of sponsor)

(Business address) (EIN)

Rev. Proc. 89-14

SECTION 1. PURPOSE

This revenue procedure supersedes Rev. Proc. 86-15, 1986-1 C.B. 544, and makes the changes described in section 2 below. The revenue procedure restates the objectives of, and sets forth the standards for, the publication of revenue rulings and revenue procedures in the Internal Revenue Bulletin.

SEC. 2. CHANGES

Section 7.01(5) of Rev. Proc. 86-15 provides that because each revenue ruling represents the conclusion of the Service as to the application of the law to the entire statement of facts involved, taxpayers, Service personnel, and others concerned are cautioned against reaching the same conclusion in other cases unless the facts and circumstances are substantially the same. This caution, which now appears in section 7.01(6) of this revenue procedure, has been clarified. It now explicitly warns that, if from the facts, legal analysis, or other discussion it is clear that the federal tax law conclusion of the revenue ruling or revenue procedure is predicated upon a certain provision or interpretation of law other than federal tax law, then those seeking to rely on that conclusion must check to see whether such relevant nontax law has changed materially from that used in the revenue ruling or revenue procedure.

Section 7.01(7) of the revenue procedure is revised to add a statement which encourages all interested parties to submit suggestions of generic issues that would be appropriately addressed in revenue rulings or revenue procedures.

Section 8.01 is revised to reflect the fact that the Assistant Commissioner (Taxpayer Service and Returns Processing) is now responsible for publishing the Internal Revenue Bulletin.

SEC. 3. DEFINITIONS

.01 A "revenue ruling" is an official interpretation by the Service of the internal revenue laws and related statutes, treaties, and regulations, that has been published in the Bulletin. Revenue rulings are issued only by the National Office and are published for the information and guidance of taxpayers, Service officials, and others concerned.

.02 A "revenue procedure" is an official statement of a procedure published in the Bulletin that either affects the rights or duties of taxpayers or other members of the public under the Internal Revenue Code and related statutes, treaties, and regulations or, although not necessarily affecting the rights and duties of the public, should be a matter of public knowledge.

SEC. 4. BACKGROUND

.01 The Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for the publication of official rulings and procedures of the Service, including all rulings and statements of procedure that supersede, revoke, modify, amend, or affect any previously published ruling or procedure. The Service also announces in the Bulletin the Commissioner's acquiescence or nonacquiescence in decisions of the United States Tax Court (other than decisions in memorandum opinions), and publishes Treasury Decisions, Executive Orders, tax conventions, legislation, court decisions, and other items considered to be of general interest.

.02 The Bulletin is published weekly. In order to provide a permanent reference source, the contents of the Bulletin are consolidated semiannually into an indexed Cumulative Bulletin. These materials are sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402-9325.

SEC. 5. OBJECTIVES

The purpose of publication of revenue rulings and revenue procedures in the Bulletin is to promote uniform application of the tax laws by Service employees and to assist taxpayers in attaining maximum voluntary compliance by informing Service personnel and the public of National

Office interpretations of the internal revenue laws, related statutes, treaties, and regulations, and statements of Service procedures affecting the rights and duties of taxpayers.

SEC. 6. PUBLICATION STANDARDS

.01 It is the policy of the Service to publish in the Bulletin issues and answers involving substantive tax laws under the jurisdiction of the Service, except those involving—

(1) Issues answered by statute, treaties, or regulations;

(2) Issues answered by rulings, opinions, or court decisions previously published in the Bulletin;

(3) Issues that are of insufficient importance or interest to warrant publication;

(4) Determinations of fact rather than interpretations of law;

(5) Informers and informers' rewards; and

(6) Disclosure of secret formulas, processes, business practices, and similar information.

.02 It is the policy of the Service to publish in the Bulletin procedures affecting taxpayers' rights or duties that relate to matters under the jurisdiction of the Service.

SEC. 7. FORM AND EFFECT OF PUBLICATION

.01 *Revenue Rulings.*

(1) Rulings and other communications involving substantive tax law published in the Bulletin are published in the form of revenue rulings. The conclusions expressed in a revenue ruling will be directly responsive to, and limited in scope by, the pivotal facts stated in the revenue ruling. Revenue rulings arise from various sources, including rulings to taxpayers, technical advice to district offices, court decisions, suggestions from tax practitioner groups, publications, etc.

(2) If the revenue ruling arises from the circumstances of a particular taxpayer, the Service publishes as much as is necessary for an understanding of the position stated. However, identifying details, including the names and addresses of persons involved, and information of a confidential nature are not included, to prevent unwarranted invasions of personal privacy and to comply with statutory provisions, such as 18 U.S.C. section 1905 and 26 U.S.C. sections 6103 and 7213, dealing with disclosure of information obtained from members of the public.

(3) A revenue ruling, other than one relating to the qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans, applies retroactively, unless it includes a specific statement indicating, under the authority of section 7805(b) of the Code, the extent to which it is to be applied without retroactive effect. When revenue rulings revoke or modify rulings previously published in the Bulletin, the authority of section 7805(b) ordinarily is invoked to provide that the new rulings will not be applied retroactively to the extent that the new rulings have adverse tax consequences to taxpayers. Section 7805(b) provides that the Secretary of the Treasury may prescribe the extent to which any ruling is to be applied without retroactive effect. That authority has been delegated to the Commissioner and has been redelegated to the Associate Chief Counsel (Technical), the Associate Chief Counsel (International), and the Assistant Commissioner (Employee Plans and Exempt Organizations) and to each of their deputies. The exercise of this authority requires an affirmative action. For the effect of revenue rulings on determination letters and opinion letters issued with respect to the qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans, see section 13 of Rev. Proc. 80-30, 1980-1 C.B. 685.

(4) Revenue rulings published in the Bulletin do not have the force and effect of Treasury Department regulations (including Treasury Decisions), but are published to provide precedents to be used in the disposition of other cases, and may be cited and relied upon for that purpose. No unpublished ruling or decision will be relied on, used, or cited, by any officer or employee of the Service as a precedent in the disposition of other cases.

(5) Taxpayers generally may rely upon revenue rulings and revenue procedures published in the Bulletin in determining the tax treatment of their own transactions and need not request specific rulings applying the principles of a published revenue ruling or revenue procedure to the facts of their particular cases. However, taxpayers, Service personnel, and others concerned are also cautioned to determine whether a revenue ruling or revenue procedure on which they seek to rely has been revoked, modified, declared obsolete, distinguished, clarified, or otherwise affected by subsequent legislation, treaties, regulations, revenue rulings, revenue procedures or court decisions.

(6) Each revenue ruling represents the conclusion of the Service as to the application of the law to the entire statement of facts involved. Therefore, taxpayers, Service personnel, and others concerned are cautioned against reaching the same conclusion in other cases unless the facts and circumstances are substantially the same. For example, occasionally, from the facts, legal analysis, or other discussion it is clear that the federal tax law conclusion of the revenue ruling or revenue procedure is predicated upon a certain provision or interpretation of law other than federal tax law. If so, taxpayers, Service personnel, and others concerned are also cautioned to determine whether such relevant nontax law has changed materially from that used in the revenue ruling or revenue procedure on which they seek to rely. In some cases, if the conclusion of a revenue ruling or revenue procedure is so predicated on such nontax law, the ruling or procedure may caution taxpayers by referring to this paragraph of this revenue procedure. Any absence, however, of such a caution does not prevent the principles stated here from applying to that revenue ruling or revenue procedure.

(7) All interested parties, including teachers, professional associations, and trade or business groups are encouraged to submit suggestions of generic issues that would be appropriately addressed in revenue rulings or revenue procedures. Also, comments and suggestions from taxpayers, taxpayer groups, or other interested parties, on revenue rulings or revenue procedures being prepared for publication in the Bulletin may be solicited if justified by special circumstances. Conferences on revenue rulings or revenue procedures being prepared for publication will not be granted except when the Service determines that such action is justified by special circumstances.

.02 *Revenue Procedures.* When revenue procedures reflect the contents of internal management documents, it is Service practice to publish as much of the internal management document as is necessary for an understanding of the procedure. When publication of the substance of a revenue procedure in the Federal Register is required pursuant to 5 U.S.C. section 552, it will usually be accomplished by an amendment of the Statement of Procedural Rules (26 C.F.R. Part 601).

SEC. 8. RESPONSIBILITIES

.01 The Chief Counsel is responsible for administering the Service's revenue ruling and revenue procedure publication program including the standards for style and format of revenue rulings and revenue procedures. The Assistant Commissioner (Taxpayer Service and Returns Processing) is responsible for publishing the Internal Revenue Bulletin weekly and for consolidating the contents of the Bulletin semiannually into an indexed Cumulative Bulletin.

.02 In accordance with the standards set forth in section 6 of this revenue procedure, the Associate Chief Counsel (Technical), the Associate Chief Counsel (International), and the Assistant Commissioner (Employee Plans and Exempt Organizations) are responsible for the preparation and appropriate referral for publication of revenue rulings reflecting interpretations of substantive tax law made by their respective offices.

.03 In accordance with the standards set forth in section 6 of this revenue procedure, all Assistant Commissioners and the Chief Counsel are responsible for the determination of whether procedures established by any office under their jurisdiction should be published as revenue procedures and for the initiation, content, and appropriate referral for publication of such revenue procedures.

SEC. 9. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 86-15 is superseded.

---

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.

Rev. Proc. 89-15

SECTION 1. PURPOSE

This revenue procedure provides guidance for computing depreciation allowances for tangible property under section 168 of the Internal Revenue Code when (1) property is placed in service in a taxable year of less than 12 full months (a short taxable year), (2) property is disposed of prior to the end of the recovery period, or (3) the recovery period for the property includes all or part of a short taxable year other than the year property is placed in service.

SEC. 2. BACKGROUND

In general, section 168 of the Code determines the amount and timing of depreciation deductions for tangible property placed in service after December 31, 1986.

The applicable depreciation methods under section 168(b) of the Code are:

(1) for 3-year, 5-year, 7-year, and 10-year property (except any tree or vine bearing fruit or nuts), the 200 percent declining balance method, switching to the straight line method for the first taxable year for which using the straight line method with respect to the adjusted basis as of the beginning of such year will yield a larger allowance,

(2) for 15-year and 20-year property, any property used in a farming business (within the meaning of section 263A(e)(4)), and any property (other than property to which the straight line method applies) subject to an election under section 168(b)(2)(C) and (5), the 150 percent declining balance method, switching to the straight line method for the first taxable year for which using the straight line method with respect to the adjusted basis as of the beginning of such year will yield a larger allowance, and

(3) for residential rental property, nonresidential real property, any railroad grading or tunnel bore, property subject to an election under section 168(b)(3)(D) and (5), any tree or vine bearing fruit or nuts, and property subject to the alternative depreciation system of section 168(g), the straight line method.

The applicable recovery periods are determined under sections 168(c) and 168(g)(2)(C) of the Code.

Section 168(d) of the Code prescribes the conventions used to determine, for purposes of section 168, when property is treated as placed in service or disposed of. These conventions are used in computing depreciation allowances for the taxable year in which property is placed in service or disposed of.

Section 168(d)(1) of the Code provides that, in general, the applicable convention is the half-year convention. Section 168(d)(4)(A) defines the half-year convention as a convention that treats all property placed in service during any taxable year (or disposed of during any taxable year) as placed in service (or disposed of) on the mid-point of the taxable year.

Section 168(d)(2) of the Code provides that, for nonresidential real property, residential rental property, and any railroad grading or tunnel bore, the applicable convention is the mid-month convention. Section 168(d)(4)(B) defines the mid-month convention as a convention that treats all property placed in service during any month (or disposed of during any month) as placed in service (or disposed of) on the mid-point of the month.

Section 168(d)(3) of the Code generally provides that, if during a taxable year (i) the aggregate basis of property to which section 168 applies that is placed in service in the last 3 months of the taxable year exceeds (ii) 40 percent of the aggregate basis of property to which section 168 applies that is placed in service during such taxable year, then the applicable convention for all property to which section 168 applies that is placed in service during such taxable year is the mid-quarter convention.[1] Nonresidential real property and residential rental property are not taken into account for purposes of determining whether the mid-quarter convention applies, nor does that convention apply to such property even if the convention is otherwise applicable. Section 168(d)(4)(C) of the Code defines the mid-quarter convention as a convention that treats all property placed in service during any quarter of a taxable year (or disposed of during any quarter of a taxable year) as placed in service (or disposed of) on the mid-point of the quarter.

In determining whether section 168(d)(3) of the Code requires use of the mid-quarter convention, the taxpayer must look to the aggregate basis of property placed in service in the last 3 months of the taxable year, whatever the length of the taxable year. Thus, if a short taxable year consists of 3 months or less, the mid-quarter convention applies regardless of when the depreciable property is placed in service during the taxable year.

The half-year, mid-quarter, and mid-month conventions prescribed by section 168(d) of the Code establish deemed placed-in-service dates and deemed disposition dates. Depreciation is allowable only for the portion of a taxable year the property is treated as in service.[2] The

---

[1]*See* section 203(d) of the Tax Reform Act of 1986, 1986-3 C.B. (Vol. 1) 63, as amended by section 1002(c) of the Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647, 102 Stat. 3358, for the treatment of transition rule property under section 168(d)(3) of the Code.

[2]However, *see* section 168(i)(4) with respect to general asset accounts.

recovery period begins on the placed-in-service date prescribed by section 168(d). The remaining recovery period as of the beginning of the taxable year following the taxable year in which the property is placed in service is equal to the full applicable recovery period less the fraction of the first taxable year for which depreciation is allowable. Section 4.01 of this revenue procedure provides procedures for determining placed-in-service dates and disposition dates in short taxable years.

Depreciation allowances are determined on a taxable year basis. In contrast, the applicable recovery periods under section 168(c) of the Code are based on recovery years without regard to the taxpayer's underlying taxable year. The number of years in the recovery period determines the applicable depreciation rate under each of the methods provided in section 168(b). The product of (1) the annual applicable depreciation rate and (2) the adjusted basis of the property as of the beginning of the recovery year is the depreciation attributable to that recovery year.

Because of the applicable placed-in-service conventions, an asset's recovery year generally will not coincide with the taxpayer's taxable year. The depreciation attributable to a recovery year is consequently allocated to the taxable years that include the recovery year. For the taxable year in which the recovery period begins, the property is deemed in service for only a portion of the taxable year, and the depreciation allowance must be adjusted accordingly. The depreciation allowances for subsequent taxable years must account for the difference between recovery years and taxable years. Section 4.02 and section 4.03 of this revenue procedure provide rules for allocating depreciation allowances to taxable years when the recovery period includes a short taxable year or when the property is disposed of prior to the end of the recovery period.

Section 5 of Rev. Proc. 87-57, 1987-2 C.B. 687, describes the use of the applicable conventions when property is placed in service during a taxable year of 12 full months. The tables in section 8 of Rev. Proc. 87-57 take into account the applicable conventions and assume that the taxable year in which the property is placed in service and all subsequent taxable years in the recovery period are full taxable years. The tables further assume that the property is not disposed of during the recovery period. If at any time during the recovery period the taxpayer has a short taxable year or disposes of property, the tables in section 8 of Rev. Proc. 87-57 are inapplicable and this revenue procedure must be followed.

SEC. 3. SCOPE

.01 Except as provided in section 3.02, this revenue procedure applies in any taxable year in which property subject to section 168 of the Code is treated as in service for fewer than 12 full months or has been so treated for some prior taxable year in the recovery period. Thus, if, before the end of the recovery period, the taxpayer has a short taxable year or disposes of the property before the end of the recovery period, the procedures provided in section 4 of this revenue procedure apply in computing the depreciation allowances.

.02 If the taxable year in which property is placed in service is 12 full months, the fact that the applicable conventions treat such property as in service for less than 12 full months shall not be grounds for applying this revenue procedure. Rev. Proc. 87-57 provides rules for implementing the applicable conventions in taxable years of 12 full months.

SEC. 4. PROCEDURES

.01 *Property Placed in Service or Disposed of during a Short Taxable Year.*

(1) *Applicable Conventions.* Section 168(d)(4) of the Code applies both the half-year convention and the mid-quarter convention to the "taxable year." Consideration of the taxable year of the taxpayer is thus necessary in establishing the date property is treated as placed in service or disposed of. The mid-month convention, however, is applied without regard to the taxpayer's taxable year.

(a) *Half-year convention.* Property subject to the half-year convention is deemed placed in service or disposed of on the mid-point of the taxable year in which the property is placed in service or disposed of. For purposes of determining the date property subject to the half-year convention is deemed placed in service or disposed of, the following additional rules apply:

(i) For a short taxable year that begins on the first day of a month or ends on the last day of a month, the taxable year, for purposes of section 168 of the Code, shall consist of the number of months in the taxable year. (For this purpose, if the short taxable year includes part of a month, the entire month shall, in general, be included in the number of months in the taxable year.) The mid-point of the taxable year is then determined by dividing the number of months in the taxable year by 2. For example, a short taxable year that begins on June 20 and ends on December 31 consists of 7 months and the mid-point of the taxable year is the middle of September. Property is treated as placed in service or disposed on this mid-point.

However, no month shall be taken into account more than once. Thus, if a taxpayer has successive short taxable years, with one taxable year ending and the following taxable year beginning in the same calendar month, the first short taxable year shall be treated, for this purpose, as not including the month in which the first short taxable year terminates. For example, if a taxpayer had a short taxable year beginning on June first and ending on October 15 followed by a short taxable year beginning on October 16 and ending on May 31, the first short taxable year would thus consist of four months and its mid-point would be the end of July. The second short taxable year would consist of eight months and its mid-point would be the end of January.

(ii) For a short taxable year that begins on a day other than the first day of a month and ends on a day other than the last day of a month, the taxable year shall be measured by the number of days in the short taxable year. The arithmetical mid-point of the taxable year is then determined by dividing the number of days in the taxable year by 2. If the arithmetical mid-point of the taxable year is a day other than the first or the mid-point of a month, property is treated as placed in service or disposed of on the nearest preceding first or mid-point of the month.

Thus, under these rules, property subject to the half-year convention is always treated as placed in service or disposed of on either the first day or the mid-point of a month.

(b) *Mid-quarter convention.* Property subject to the mid-quarter convention is deemed placed in service or disposed of on the mid-point of the quarter of the taxable year in which the property is placed in service or disposed of. The taxpayer must divide a short taxable year into four quarters and then determine the mid-point of each quarter. For purposes of determining the date property subject to the mid-quarter convention is deemed placed in service or disposed of, the following additional rules apply:

(i) For a short taxable year that consists of four or eight full calendar months, the taxpayer determines quarter's on the basis of whole months. Thus, the mid-point of each quarter is either the first or the mid-point of a month, and property is treated as placed in service or disposed of on the mid-point.

(ii) For a short taxable year that consists of anything other than four or eight full calendar months, the taxpayer determines the number of days in the taxable year, divides by 4 to determine the length of each quarter, and determines the arithmetical mid-point by dividing the number of days in each quarter by 2. If the arithmetical mid-point of a quarter is a day other than the first or the mid-point of a month, property is treated as placed in service or disposed of on the nearest preceding first or mid-point of the month.

Thus, under these rules, property subject to the mid-quarter convention is always treated as placed in service or disposed of on either the first or the mid-point of a month.

(c) *Mid-month Convention.* Property subject to the mid-month convention is deemed placed in service or disposed of on the mid-point of the calendar month in which the property is placed in service or disposed of.

.02 *Depreciation Allowance for First Taxable Year in the Recovery Period.* To determine the depreciation allowance for the first taxable year in the recovery period, the taxpayer must initially determine the depreciation attributable to the first recovery year. The depreciation attributable to the first recovery year is obtained by multiplying the taxpayer's basis in the property by the applicable depreciation rate. The depreciation allowance allocable to the first taxable year is then obtained by multiplying the depreciation attributable to the first recovery year by a fraction, the numerator of which is the number of months (including fractions of months) the property is deemed to be in service during the taxable year (taking into account the applicable convention) and the denominator of which is 12.

.03 *Depreciation Allowances for Subsequent Taxable Years in the Recovery Period.* Taxpayers may use either the allocation method or the simplified method in computing depreciation allowances for subsequent years in the recovery period. The method adopted must be consistently applied until the year of switch to the straight line method.

(1) *Allocation Method.* The depreciation allowance for each subsequent taxable year is calculated by allocating to the taxable year the depreciation attributable to each recovery year, or portion thereof, that falls within the taxable year. Thus, whether the taxable year is a 12-month or a short taxable year, the depreciation allowance is calculated by determining which recovery years are included in the taxable year. For each recovery year included, the depreciation attributable to each recovery year is multiplied by a fraction, the numerator of which is the number of months (including fractions of months) that are in both the taxable year and the recovery year and the denominator of which is 12.

In the case of property disposed of before the end of the recovery period, the applicable conventions, as described in section 4.01, determine when the property is treated as disposed of.

(2) *Simplified Method.* In lieu of the allocation method described above, the taxpayer may calculate depreciation allowances for subsequent taxable years by multiplying the unrecovered basis of the property as of the beginning of the taxable year by the applicable depreciation rate. If a subsequent taxable year during the recovery period is a short taxable year or is a year in which the taxpayer disposes of the property, the depreciation allowance for the taxable year must be adjusted in a manner similar to that described in section 4.02, above. Thus, in the case of a subsequent short taxable year, the depreciation allowance is obtained by multiplying the unrecovered basis of the property as of the beginning of the taxable year by the applicable depreciation rate, and then multiplying the product by a fraction, the numerator of which is the number of months (including fractions of months) in the taxable year and the denominator of which is 12. In the case of a disposition before the end of the recovery period, the applicable convention determines when property is treated as disposed of for purposes of section 168 of the Code. The depreciation allowance for such property is obtained by multiplying the unrecovered basis of the property as of the beginning of the taxable year by the applicable depreciation rate, and then multiplying the product by a fraction, the numerator of which is the number of months (including fractions of months) the property is deemed in service during the taxable year and the denominator of which is 12. This simplified approach is consistent with section 6.06 of Rev. Proc. 87-57.

(3) *Declining Balance Method with Switch to Straight Line Method.* If the taxpayer depreciates property by use of the applicable depreciation method provided by section 168(b)(1) or (2) of the Code, the taxpayer must switch to the straight line method for the first taxable year that the straight line method produces a larger allowance. Therefore, for each taxable year, the taxpayer must compare the depreciation allowance calculated under the declining balance method with the depreciation allowance calculated under the straight line method. Under the straight line method, the applicable depreciation rate for each taxable year, except the last taxable year in the recovery period, is determined by dividing 1 by the number of years (including fractions of years) in the applicable recovery period remaining as of the beginning of such taxable year. For the taxable year in which the recovery period ends, the applicable depreciation rate under the straight line method is 100 percent. The applicable depreciation rate is then applied to the unrecovered basis of the property as of the beginning of that taxable year.

.04 *Alternative Minimum Tax.* In calculating the adjustment to taxable income under section 56 of the Code, depreciation allowances should reflect short taxable years in a manner consistent with that described above.

.05 *Depreciation Deductions for Short Taxable Years for which a Return has been Filed.* In the case of property subject to the half-year or mid-quarter convention that was placed in service or disposed of during a short taxable year for which a return was filed before the publication of this revenue procedure, taxpayers should file amended returns in a timely manner. However, if the depreciation deduction(s) claimed reflect placed-in-service dates and disposition dates on a more exact basis than this revenue procedure, the Service will not disturb this treatment on examination. Taxpayers not filing amended returns should compute depreciation deductions for subsequent taxable years in the recovery period consistent with the placed-in-service dates adopted on the return for the year the property was placed in service.

SEC. 5. EXAMPLES

.01 *Half-year convention.*

Example

FACTS. Corporation *X*, a calendar year taxpayer, was incorporated and began business on March 15, 1988. During its 1988 taxable year, *X* placed in service tangible personal property subject to an allowance for depreciation determined under section 168 of the Code. Assume that the applicable convention is the half-year convention.

ANALYSIS. *X* has a short taxable year that begins March 15, 1988, and ends

December 31, 1988, and thus is treated as having a 10-month taxable year under section 4.01(1)(a)(i), above. The property placed in service during the short taxable year is therefore treated as placed in service on the first day after the 5th month in the taxable year, that is, on August 1, 1988.

.02 *Mid-quarter convention.*

Example (1)

FACTS. Assume the same facts as in section 5.01, except that the applicable convention is the mid-quarter convention.

ANALYSIS Section 4.01(1)(b)(ii), above, applies to the property. *X*'s short taxable year consists of 292 days. Each quarter is 73 days, and the arithmetic mid-point of each quarter is the 37th day of the quarter. The arithmetic mid-point of the first quarter is thus April 20, 1988. Under section 4.01(1)(b)(ii), the mid-point of the first quarter is the middle of April. Table 1 illustrates the application of section 4.01(1)(b)(ii) under these facts.

Rev. Proc. 89-15, Table 1
Example of application of the mid-quarter convention in a short taxable year beginning March 15, 1988 and ending December 31. 1988.

	Quarter	*Arithmetic Mid-point of the Quarter*	*Deemed Placed-in-Service Date*
1.	March 15 to May 26, 1988	April 20, 1988	Middle of April
2.	May 27 to August 7, 1988	July 2, 1988	Beginning of July
3.	August 8 to October 19, 1988	September 13, 1988	Beginning of September
4.	October 20 to December 31, 1988	November 25, 1988	Middle of November

Example (2)

FACTS. Corporation *Z*, a calendar year taxpayer, was incorporated and began business on December 1, 1988. During its 1988 taxable year, *Z* placed in service tangible personal property subject to an allowance for depreciation under section 168 of the Code. *Z* has a short taxable year that begins December 1, 1988, and ends December 31, 1988. The applicable convention is the mid-quarter convention.

ANALYSIS. *X* has a 31-day short taxable year. Table 2 illustrates the application of section 4.01(1)(b)(ii) of this revenue procedure under these facts.

Rev. Proc. 89-15, Table 2
Example of application of the mid-quarter convention in a short taxable year of 1 month.

	Quarter	*Arithmetic Mid-point of the Quarter*	*Deemed Placed-in-Service Date*
1.	December 1 to December 8, 1988	December 5, 1988	Beginning of December
2.	December 9 to December 15, 1988	December 12, 1988	Beginning of December
3.	December 16 to December 23, 1988	December 20, 1988	Middle of December
4.	December 24 to December 31, 1988	December 28, 1988	Middle of December

.03 *Computation—Allocation Method.*

Example (1)—Initial Short Taxable Year.

FACTS. Assume the same facts as in section 5.01, above. In addition, assume that the property *X* placed in service during the taxable year was 5-year property with a cost basis of $100 and that *X* made no elections under section 168 of the Code.

ANALYSIS.

(1) *Applicable recovery period*. Under section 168(c) of the Code, the applicable recovery period for 5-year property is 5 years. The recovery period begins August 1, 1988, the date the property is deemed placed in service under section 168(d). Assuming that *X* does not retire the property before January 1, 1994, the recovery period ends July 31, 1993.

(2) *Applicable depreciation method*. Under section 168(b)(1) of the Code, the applicable depreciation method for *X*'s 5-year property is the 200 percent declining balance method, switching to the straight line method for the first taxable year in which using the straight line method produces a larger depreciation allowance. The applicable depreciation rate for the property is 40 percent, that

is, 200 percent divided by 5, the number of years in the recovery period. *See* section 6.04 of Rev. Proc. 87-57.

(3) *First taxable year in the recovery period.* For its taxable year ending December 31, 1988, *X* is entitled to 5 months of depreciation. The depreciation allowance is calculated by applying the applicable depreciation rate (40 percent) to the basis of the property ($100) and then multiplying the product by a fraction, the numerator of which is the number of months the property is deemed in service during the taxable year (5) and the denominator of which is 12. Thus, the depreciation allowance for the 1988 short taxable year is $16.67.

(4) *Depreciation allowances for subsequent taxable years.* Assume that *X* has no other short taxable years during the recovery period. For the taxable year beginning January 1, 1989, and ending December 31, 1989, *X* is entitled to 12 months of depreciation for the property. A recovery year for the property extends from August 1 to July 31. Seven months of the first recovery year and 5 months of the second recovery year fall within *X*'s 1989 taxable year. The depreciation allowance for *X*'s 1989 taxable year is the sum of (1) the depreciation attributable to the first recovery year times 7/12 and (2) the depreciation attributable to the second recovery year times 5/12; that is, 40 percent times $100 times 7/12, plus 40 percent times $60 times 5/12, equals $33.33. For the remaining portion of the applicable recovery period, *X* calculates its depreciation allowances under the declining balance method as shown in Table 3.

(5) *Switch to straight line method.* To determine the taxable year to switch to the straight line method, for each taxable year *X* must compare the depreciation allowance calculated under the declining balance method with the depreciation allowance calculated under the straight line method. *See* section 6.06 of Rev. Proc. 87-57.

For the taxable year beginning August 1, 1988, and ending December 31, 1988, the applicable depreciation rate under the straight line method, taking into account the 5 year recovery period, is 20 percent (1 divided by 5). This results in a depreciation allowance of $8.33 (20 percent times $100 times 5/12). Because the depreciation allowance calculated under the declining balance method produces a larger allowance ($16.67), *X* does not use the straight line method for taxable year 1988.

For the taxable year beginning January 1, 1989, and ending December 31, 1989, the applicable depreciation rate under the straight line method, taking into account the 4 years and 7 months remaining in the recovery period, is 21.82 percent [1 divided by (4 plus 7/12)]. This results in a depreciation allowance of $18.18 (21.82 percent times $83.33). Because the depreciation allowance calculated under the declining balance method produces a larger allowance ($33.33), *X* does not switch to the straight line method for taxable year 1989.

Table 3 shows, for comparison purposes, the depreciation allowances calculated under the straight line method if *X* switches from the 200 percent declining balance method to the straight line method in the taxable year identified.

The taxable year beginning January 1, 1992, and ending December 31, 1992, is the first taxable year in which the straight line method produces a depreciation allowance larger than the declining balance method. Thus, *X* switches to the straight line method for taxable year 1992. For that taxable year, *X* is entitled to a depreciation deduction of $11.37. Under the straight line method, the applicable depreciation rate for the taxable year in which the recovery period ends is 100 percent. Thus, for the taxable year ending December 31, 1993, *X* is entitled to a depreciation deduction of $6.63; this represents the remaining unrecovered basis in the property as of the beginning of the taxable year.

Rev. Proc. 89-15, Table 3
Computation of the Depreciation Allowance

Allocation Method—Declining Balance

Taxable Year	*Depreciation Allowance*
1988	[40% × $100.00 × 5/12] = $16.67
1989	[40% × $100.00 × 7/12] + [40% × $60.00 × 5/12] = $33.33
1990	[40% × $60.00 × 7/12] + [40% × $36.00 × 5/12] = $20.00
1991	[40% × $36.00 × 7/12] + [40% × $21.60 × 5/12] = $12.00
1992	[40% × $21.60 × 7/12] + [40% × $12.96 × 5/12] = $ 7.20
1993	[40% × $12.96 × 7/12] = $ 3.02

Determination of the Year of Switch
to the Straight Line Method
(compare depreciation allowances)

Taxable Year	*Basis Adjusted for Depreciation Allowable*	*Straight × Line Rate*	*Short year × adjustment =*	*Depreciation Allowance*
1988	$100.00	1/5	5/12	$ 8.33
1989	$ 83.33	1/(4 + 7/12)	12/12	$18.18
1990	$ 50.00	1/(3 + 7/12)	12/12	$13.95
1991	$ 30.00	1/(2 + 7/12)	12/12	$11.61
1992	$ 18.00	1/(1 + 7/12)	12/12	$11.37
1993	$ 6.63	1	12/12	$ 6.63

Example (2)—Subsequent short taxable years.

FACTS. Corporation *Y*, a calendar year taxpayer, incorporated and began business on May 1, 1987. On that date *Y* placed in service 5-year property acquired for $100. At the close of business on June 30, 1988, all of the stock of *Y* was acquired by Corporation *Z*, a fiscal year taxpayer with a June 30 year end. *Y* and *Z* elected in accordance with section 1501 of the Code to file a consolidated return.

ANALYSIS. When a taxpayer has a short taxable year other than the first taxable year in the recovery period, the depreciation allowance for that short taxable year must account for the difference between recovery years and taxable years.

Y has a short taxable year from May 1, 1987, to December 31, 1987. The property is treated as placed in service on September 1, 1987, the mid-point of *Y*'s first taxable year. For the first taxable year in the recovery period, *Y* calculates its depreciation allowance in the manner described in section 5.03(3) above. Thus, for the taxable year ending December 31, 1987, *Y* is entitled to 4 months of depreciation. The depreciation allowance is calculated under the declining balance method by determining the amount of depreciation attributable to the first recovery year that is allocable to *Y*'s first taxable year. Because the first recovery year runs from September 1, 1987 to August 31, 1988, 4 months of depreciation attributable to the first recovery year is allocable to the taxable year ending December 31, 1987. Thus, *Y*'s depreciation allowance for the taxable year is $13.33 (40 percent times $100 times 4/12).

Because of *Y*'s acquisition by *Z*, and *Y* and *Z*'s election to file a consolidated return, *Y*'s second taxable year ending June 30, 1988, is also a short taxable year. For the taxable year beginning January 1, 1988, and ending June 30, 1988, *Y* is entitled to 6 months of depreciation. Thus, *Y*'s depreciation allowance for the taxable year ending June 1988, is $20 (40 percent times $100 times 6/12). Two months of depreciation attributable to the first recovery year is allocable to the 12-month taxable year beginning July 1, 1989. In addition, 10 months of depreciation attributable to the second recovery year is allocable to that taxable year. Thus, *Y*'s depreciation allowance for the taxable year beginning July 1, 1989, is $26.67 [(40 percent times $100 times 2/12) plus (40 percent times $60 times 10/12)].

Example (3)—Disposition before the end of the recovery period.

FACTS. Assume the same facts as in section 5.01 above, except that *X* disposes of the property on December 28, 1989.

ANALYSIS. When a taxpayer disposes of depreciable property before the end of the recovery period, the depreciation allowance for the taxable year of disposition must reflect the premature end of the recovery period. Because the half-year convention applies to this property, the property is deemed disposed of on July 1, 1989, the mid-point of *X*'s second taxable year. For this taxable year, *X* is entitled to 6 months of depreciation for the property. Because the first recovery year extends from August 1, 1988, to July 31, 1989, 6 months of depreciation attributable to the first recovery year is allocable to the period during the second taxable year that the property was deemed in service. Thus, *X*'s depreciation allowance for the second taxable year is $20 (40 percent times $100 times 6/12).

.04 *Computation—Simplified Method*. The simplified method for calculating depreciation allowances is illustrated below. In most cases, the allocation method and the simplified method result in the same depreciation allowances. However, if prior to the switch to the straight line method (but after the first taxable year) the taxpayer has a short taxable year or disposes of the property, the depreciation allowance under the simplified method for that year will be less than under the allocation method.

Example (1)—Initial Short Taxable Year.

FACTS. Assume the same facts as in section 5.03 Example (1) above.

ANALYSIS.

(1) *First taxable year in the recovery period*. Under the simplified method, the depreciation allowance for the first taxable year in the recovery period is calculated in the same manner as under the allocation method. *See* section 5.03 Example (1) above.

(2) *Depreciation allowances for subsequent taxable years*. In lieu of allocating a portion of the depreciation attributable to the first recovery year and a portion of the depreciation attributable to the second recovery year to the taxable year beginning January 1, 1989, and ending December 31, 1989 (*see* section 5.03-(4)), *X* may calculate its depreciation allowance under the declining balance method by applying the applicable depreciation rate (40 percent) to the unrecovered basis of the property as of the beginning of the taxable year ($83.33). Thus, *X*'s depreciation allowance for its 1989 taxable year is $33.33. For the remaining portion of the applicable recovery period, *X* may calculate its depreciation allowances under the declining balance method as shown in Table 4.

Rev. Proc. 89-15, Table 4

Computation of Depreciation Allowances
under the Simplified Method-Declining Balance

Taxable Year	*Depreciation Allowance*
1988	[40% × $100.00 × 5/12] = $16.67
1989	40% × $83.33 = $33.33
1990	40% × $50.00 = $20.00
1991	40% × $30.00 = $12.00
1992	40% × $18.00 = $ 7.20
1993	[40% × $10.80 × 7/12] = $ 2.52

Determination of the Year of Switch
to the Straight Line Method
(compare depreciation allowances)

Taxable Year	*Basis Adjusted for Depreciation Allowable*	*Straight × Line Rate*	*Short year × adjustment =*	*Depreciation Allowance*
1988	$100.00	1/5	5/12	$ 8.33
1989	$ 83.33	1/(4 + 7/12)	12/12	$18.18
1990	$ 50.00	1/(3 + 7/12)	12/12	$13.95
1991	$ 30.00	1/(2 + 7/12)	12/12	$11.61
1992	$ 18.00	1/(1 + 7/12)	12/12	$11.37
1993	$ 6.63	1	12/12	$ 6.63

(3) *Switch to straight line method.* The taxable year *X* switches to the straight line method is determined as provided in section 5.03 Example (1) above.

Example (2)—Subsequent short taxable years.

FACTS. Assume the same facts as in section 5.03 Example (2) above, except that *Y* uses the simplified method described in section 4.03(2), above.

ANALYSIS. For the first taxable year in the recovery period, *Y* calculates its depreciation allowance in the manner described in section 5.03. Thus, its depreciation allowance for the taxable year ending December 31, 1987, is $13.33.

Because of *Y*'S acquisition by *Z*, and *Y* and *Z*'s election to file a consolidated return, *Y*'s second taxable year ending June 30, 1988, is also a short taxable year. For this short taxable year, *Y* calculates its depreciation allowance by multiplying the unrecovered basis of the property as of the beginning of the taxable year ($86.67) by the applicable depreciation rate (40 percent), and then multiplying the product by a fraction, the numerator of which is the number of months and fractions of months in the taxable year (6) and the denominator of which is 12. Thus, under the simplified method, *Y*'s depreciation allowance for the second short taxable year in the recovery period is $17.34; that is, $86.67 times 40 percent times (6/12).

Example (3)—Disposition before the end of the recovery period.

FACTS. Assume the same facts as in sections 5.01 and 5.03 Example (3) above, except that *X* uses the simplified method described in section 4.03(2), above.

ANALYSIS. For the first taxable year in the recovery period, *X* calculates its depreciation allowance in the manner described in section 5.03 Example (1); thus, its depreciation allowance for the taxable year ending December 31, 1988, is $16.67. The half-year convention applies when *X* disposes of the property in the second taxable year. Under the simplified method, *X* calculates its depreciation allowance by multiplying the unrecovered basis of the property at the beginning of the taxable year ($83.33) by the applicable depreciation rate (40 percent), and then multiplying the product by 6/12. Thus, under the simplified method *X*'s depreciation allowance for the second taxable year in the recovery period is $16.67.

SEC. 6. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 87-57 is amplified and clarified.

SEC. 7. EFFECTIVE DATE

This revenue procedure is effective for property and taxable years subject to section 168 of the Code as amended by section 201 of the Tax Reform Act of 1986, 1986-3 (Vol. 1) C.B. 38. However, for property subject to the half-year or mid-quarter convention that was placed in service or disposed of during a short taxable year for which a return has been filed, see section 4.05 above.

26 CFR 601.204: Changes in accounting period and in methods of accounting.
(Also Part I, Sections 165, 167, 263, 263A, 446, 481; 1.165-2, 1.167(a)-3, 1.263(a)-2, 1.263A-1T, 1.446-1, 1.481-5.)

Rev. Proc. 89-16

SECTION 1. PURPOSE

This revenue procedure allows certain taxpayers to obtain expeditious consent from the Commissioner to change their method of accounting for package design costs (as defined in section 2 of this revenue procedure) to a capitalization method in accordance with Rev. Rul. 89-23, page 844, this Bulletin. The required method change is with respect to package design costs incurred prior to January 1, 1987 (change in method of accounting made pursuant to section 263 of the Internal Revenue Code) and package design costs incurred after December 31, 1986 (change in method of accounting made pursuant to section 263A), to the extent the amounts were previously deducted or amortized and the related package designs are still in use in the taxpayer's trade or business on the first day of the tax year of change (year of change). *See* Notice 88-78, 1988-2 C.B. 394, which provides guidance and procedural information to taxpayers that fail to change their method of accounting in order to conform to the uniform capitalization rules in accordance with the effective date provisions of section 263A.

SEC. 2. DEFINITIONS

For purposes of this revenue procedure, the term "package design" means an asset that is created by a specific graphic arrangement or design of shapes, colors, words, pictures, lettering, and so forth on a given product package, or the design of a container with respect to its shape or function.

The term "package design cost", as used in this revenue procedure, means the cost of package designs. If the taxpayer develops the package design, the term includes the cost of materials, labor, and overhead associated with the package design. If an independent contractor performs the work, the term includes all billings related to the development of the particular package design. Whether a package design is created in-house or is created by an independent contractor, the term includes all design exploration and study, refinement of the basic design selected, testing, and preparation of the final master comprehensive design. If the taxpayer purchases the package design, the term includes the purchase price. (*See also* section 1.263A-1T(a)(5)(ii) of the regulations that treats a taxpayer purchasing a package design as also producing such design to the extent the taxpayer incurs costs with respect to the design). The term, however, does not include costs associated with coupon inserts, refund offers, and other promotion-related changes, nor does it include costs that are unrelated to the package design itself, such as a change to the list of ingredients. Moreover, the term does not include costs that would have qualified as "trademark or trade name expenditures" under section 177 of the Internal Revenue Code of 1954 (the 1954 Code).

SEC. 3. BACKGROUND

.01 Section 263(a) of the Internal Revenue Code provides that no deduction shall be allowed for any amount paid for new buildings or for permanent improvements or betterments made to increase the value of any property or estate. Section 1.263(a)-2 of the Income Tax Regulations provides in the examples of capital expenditures the costs of acquiring property having a useful life substantially beyond the taxable year.

.02 An expenditure generally must be capitalized under section 263 of the Code if the expenditure creates, enhances, or is part of the cost of acquiring a tangible or intangible asset with a useful life greater than one year. *See Commissioner v. Lincoln Savings and Loan Association v. Commissioner*, 403 U.S. 345 (1971), 1971-2 C.B. 116; *Central Texas Savings and Loan Association v. United States*, 731 F.2d 1181 (5th Cir. 1984); *Ellis Banking Corp. v. Commissioner*, 688 F.2d 1376 (11th Cir. 1982), *cert. denied*, 463 U.S. 1207 (1983); and *Cleveland Electric Illuminating Company v. United States*, 7 Cl. Ct. 220 (1985). Generally, taxpayers must capitalize package design costs incurred prior to January 1, 1987, under section 263 because such costs create intangible assets with useful lives in excess of one year. See Rev. Rul. 89-23.

.03 Section 263A of the Code, as enacted by the Tax Reform Act of 1986, section 803(a), 1986-3 (Vol. 1) C.B. 267, provides, in part, for the nondeductibility of certain direct and indirect costs with respect to tangible property produced by the taxpayer. Section 1.263A-1T of the temporary Income Tax Regulations provides that all costs that are incurred with respect to real or tangible personal property that is produced are to be capitalized with respect to such property. Section 1.263A-1T(a)(5)(ii) of the temporary regulations provides that the term "produce" includes construct, build, install, manufacture, develop, improve, create, raise or grow. Although section 263A of the Code does not require the costs of producing intangible personal property to be capitalized, section 263A(b) defines tangible personal property to include a film, sound recording, video tape, book, or similar property. For this purpose, tangible personal property includes property embodying words, ideas, concepts, images, or sounds. See section 1.263A-1T(a)(5)(iii) of the temporary regulations; see also 2 H.R. Conf. Rep. No. 841, 99th Cong., 2d Sess. II-308 (1986), 1986-3 (Vol. 4) C.B. 308. Section 1.263A-1T(a)(5)(iii) applies to the production of tangible personal property within the meaning of paragraph (a)(5)(iii) without regard to whether such property is treated as tangible or intangible under other provisions of the Code. For example, the requirements of section 1.263A- 1T(a)(5)(iii) apply to the cost of the properties enumerated therein although such costs may consist of copyrights, licenses, manuscripts, and other items which may be treated as intangible for other purposes of the Code. The above-indicated provisions of section 263A and the temporary Income Tax Regulations thereunder require that expenses incurred after December 31, 1986, in connection with the development and design of product packages must be capitalized under section 263A for tax years ending after such date. See Rev. Rul. 89-23.

.04 As indicated in Rev. Rul. 89-23, package designs generally do not have an ascertainable useful life and, therefore, no depreciation or amortization is allowed under section 167 of the Code and the regulations thereunder. See section 1.167(a)-3 of the regulations. Only when such a package design is abandoned may the accumulated costs be deducted. See section 165 of the Code and section 1.165-2(a) of the regulations.

.05 Taxpayers currently deducting package design costs in a manner inconsistent with Rev. Rul. 89-23 are required to change their method of accounting, under sections 446 and 481 of the Code and the regulations thereunder, to a capitalization method consistent with Rev. Rul. 89-23. The required method change, pursuant to section 263 of the Code with respect to costs incurred prior to January 1, 1987, and pursuant to section 263A with respect to costs incurred after December 31, 1986, is for all amounts previously deducted or amortized with respect to all package designs still in use in the taxpayer's trade or business on the first day of the tax year of change. *See* sections 6.01 and 6.02 of this revenue procedure, which discuss the section 481(a) adjustment and the section 481(a) adjustment period, respectively, with respect to this method change.

.06 Section 446(e) of the Code provides that, except as otherwise provided, a taxpayer that changes the method of accounting on the basis of which it regularly computes its income in keeping its books shall, before computing its taxable income under the new method, secure the consent of the Secretary. Section 1.446-1(e)(2)(ii)(*a*) of the regulations provides that a change in the method of accounting includes a change in the overall plan of accounting for gross income or deductions or a change in the treatment of any material item used in such overall plan. Section 1.446-1(e)(ii)(*a*) defines a material item as any item that involves the proper time for the inclusion of the item in income or the taking of a deduction. Section 1.446-1(e)(3)(i) provides generally that in order to obtain the consent of the Commissioner for an accounting method change, a taxpayer must file an application on Form 3115, Application for Change in Method of Accounting, within 180 days after the beginning of the tax year for which the proposed change is to be made. Section 1.446-1(e)(3)(ii) authorizes the Commissioner to prescribe administrative procedures setting forth the limitations, terms, and conditions deemed necessary to permit taxpayers to obtain consent to change their method of accounting in accordance with section 446(e).

.07 Section 481(a) of the Code provides that if a taxpayer's taxable income for any tax year is computed under a method of accounting different from the method used to compute taxable income in the preceding tax year, the taxpayer must take into account those adjustments necessary to prevent amounts from being duplicated or omitted by reason of such change in method. Section 481(c) and section 1.481-5 of the regulations provide that the adjustments required by section 481(a) may be taken into account in determining taxable income in the manner and subject to the conditions agreed to by the Commissioner and the taxpayer.

SEC. 4. SCOPE

.01 Except as provided in section 4.02 below, this revenue procedure applies to any taxpayer that has a method of accounting of currently deducting or amortizing package design costs (as defined in section 2 of this revenue procedure) in a manner inconsistent with Rev. Rul. 89-23 and, therefore, is required to change to a capitalization method consistent with Rev. Rul. 89-23. This required change is for all package design costs that (1) were currently deducted or amortized in tax years prior to the year of change, and (2) relate to package designs that were not abandoned prior to the year of change (whether or not the package design was placed in service prior to the start of the year of change). Any taxpayer to which this revenue procedure applies may not use Rev. Proc. 84-74, 1984-2 C.B. 736, but must use this revenue procedure for changing its method of accounting to a capitalization method in accordance with Rev. Rul. 89-23 and this revenue procedure.

.02 This revenue procedure does not apply to a taxpayer if, as of the date of filing Form 3115 with the National Office, as required by section 8.01, the taxpayer:

(1) Has been contacted in any manner by a representative of the Service for the purpose of scheduling an examination of the taxpayer's federal income tax return for any year and such examination has not been completed, unless the taxpayer has obtained an agreement (which must be attached to the Form 3115) from the Service's examining agent that there is no objection to the proposed change in method of accounting;

(2) Is before an appeals office of the Service with respect to an examination of the taxpayer's federal income tax return(s) for any year, unless the taxpayer has obtained an agreement (which must be attached to the Forms 3115) from the appeals officer that there is no objection to the proposed change in method of accounting;

(3) Is before any federal court with respect to an income tax issue arising in any tax year unless the taxpayer has obtained an agreement (which must be attached to the Form 3115) from counsel for the Government that there is no objection to the proposed change in method of accounting; or

(4) Is the subject of a criminal investigation or proceeding concerning, directly or indirectly, (i) the taxpayer's federal tax liability for any year, or (ii) the possibility of false or fraudulent statements made by the taxpayer with respect to any issue relating to its federal tax liability for any year.

.03 If a taxpayer desires to change its method of accounting for package design costs and this revenue procedure does not apply, the taxpayer must comply with the requirements of section 1.446-1(e)(3) of the regulations and Rev. Proc. 84-74, 1984-2 C.B. 736. *See*, however, Notice 88-78, 1988-2 C.B. 394, which modifies the provisions of Rev. Proc. 84-74 with respect to certain changes in method of accounting under section 263A.

SEC. 5. APPLICATION

.01 *The Capitalization Method.* The costs of developing a package design as defined in section 2 of this revenue procedure must be capitalized if the asset created by those costs has a useful life greater than one year. These costs may be deducted only upon the subsequent disposition (including abandonment) of the package design. *See* Rev. Rul. 89-23.

.02 *Method of Accounting.* The treatment of the costs of developing a package design, as defined in section 2 of this revenue procedure, in accordance with the capitalization method, as defined in section 5.01 of this revenue procedure, constitutes a method of accounting.

.03 *Consent.* In accordance with section 1.446-1(e)(3)(ii) of the regulations, the Commissioner hereby waives the 180-day rule, and, in accordance with section 1.446-1(e)(2)(i), hereby grants consent to a taxpayer to change its method of accounting for package design costs to the capitalization method defined in section 5.01 of this revenue procedure, provided the taxpayer complies with the provisions and conditions of this revenue procedure. *See* section 7 of this revenue procedure regarding compliance with the conditions of this revenue procedure. This consent is granted for the tax year (year of change) for which a taxpayer requests a change by filing a current Form 3115 in the manner described in section 8 of this revenue procedure.

.04 *Section 481(a) adjustment.* The section 481(a) adjustment shall be taken into account in the manner set forth in section 6 of this revenue procedure.

SEC. 6. SECTION 481(a) ADJUSTMENT.

.01 *Computation of section 481(a) adjustment.* Section 481(a) of the Code prescribes the rules to be followed in computing taxable income in cases in which the taxable income of a taxpayer is computed under a method of accounting different from the method used to compute the taxable income for the preceding tax year. An adjustment is required to prevent duplication or omission of items when a taxpayer changes its method of accounting. In the present situation, the section 481(a) adjustment, which will be positive, will restore to income (1) the total amounts previously deducted or amortized with respect to all package designs still in use in the taxpayer's trade or business on the first day of the tax year of change, and (2) the total amounts previously deducted or amortized with respect to all package designs not yet placed in service on the first day of the tax year of change, and not abandoned. The section 481(a) adjustment is the difference at the beginning of the tax year of change between the basis of such property determined under the taxpayer's present method and the basis redetermined by applying the provisions of section 263 and the regulations thereunder to costs incurred before January 1, 1987, and section 263A and the regulations thereunder to costs incurred after December 31, 1986 (regardless of the taxpayer's taxable year). The section 481(a) adjustment shall be taken into account in computing taxable income in the manner provided in section 6.02 below. For purposes of determining the amount of the section 481(a) adjustment, the approved change shall be considered a change in method of accounting initiated by the taxpayer; therefore, the section 481(a) adjustment is not to be reduced in any way by a pre-1954 amount.

.02 *Section 481(a) adjustment period.*

(1) With respect to taxpayers who have previously complied, on a timely basis, in accounting for package design costs under the provisions of section 263A of the Code or, alternatively, who comply in accounting for package design costs under the provisions of section 263A by filing an amended return as provided in Notice 88-78, 1988-2 C.B.

394, the appropriate period (adjustment period) for taking into account the positive adjustment (which will be attributable solely to costs incurred prior to January 1, 1987) referred to in section 6.01, is determined as follows:

(a) If the entire amount of the adjustment is attributable to the tax year immediately preceding the year of change (first preceding year), the total adjustment is to be taken into account in computing taxable income for the year of change. The amount attributable to the tax year immediately preceding the year of change is the amount of the adjustment determined under section 481(a) of the Code for the year of change less the amount of the adjustment that would have been required under section 481(a) if the same change in method of accounting had been made for such preceding year.

(b) If subparagraph (a) of this section 6.02(1) does not apply, the method of accounting that is being changed has been used for more than 4 tax years, and 67 percent or more of the adjustment is attributable to the 1-tax-year period, 2-tax-year period, or 3-tax-year period immediately preceding the year of change, the highest percent attributable to such 1-, 2-, or 3-tax year period is to be taken into account ratably over a 3-tax-year period beginning with the year of change. Any remaining balance is to be taken into account ratably over an additional period equal to the remainder of the number of tax years the taxpayer has used the method of accounting that is being changed. However, the total adjustment period shall not exceed 6 tax years. The amount attributable to the 1-, 2-, or 3-tax-year period immediately preceding the year of change is the amount of the adjustment determined under section 481(a) of the Code for the year of change less the amount that would have been required under section 481(a) if the same change had been made at the beginning of such preceding 1-, 2-, or 3-tax-year period. If the method of accounting being changed has been used for 4 tax years, 75 percent shall be substituted for 67 percent.

(c) In all other situations described in this section 6.02(1) to which subparagraphs (a) and (b) of this section 6.02(1) do not apply, the adjustment is to be taken into account ratably over the lesser of (1) the number of years the taxpayer has used the method of accounting that is being changed or (2) 6 tax years.

(2) With respect to taxpayers who have not previously complied, on a timely basis, in accounting for package design costs under the provisions of section 263A of the Code, and have not complied and will not comply in accounting for package design costs under the provisions of section 263A by filing an amended return as provided in Notice 88-78, 1988-2 C.B. 394, the positive adjustment will be attributable to costs incurred both before January 1, 1987, and after December 31, 1986. The portion of the section 481(a) adjustment referred to in section 6.01 that is attributable to costs incurred before January 1, 1987, shall be taken into account in accordance with the provisions of section 6.02(1)(a), (b) and (c), and the portion of the section 481(a) adjustment referred to in section 6.01 that is attributable to costs incurred after December 31, 1986 shall be taken into account in full in the tax year of change. See section II of Notice 88-78, 1988-2 C.B. 394.

(3) In applying section 6.02(1), if a taxpayer's books and records do not contain sufficient information to compute the section 481(a) adjustment that would have been required if the same change had been made at the beginning of such preceding 1-, 2-, or 3-tax-year period, the taxpayer may reasonably estimate these amounts, attach the computations upon which the estimates are based, and also sign the following statement and attach it to the Form 3115:

> Under penalties of perjury, I hereby certify that:
> (a) The books and records of [name of the taxpayer] do not contain sufficient information to permit a computation of the section 481(a) adjustment attributable to the 1-tax-year period, 2-tax-year period, or 3-tax-year period immediately preceding the year of change as required by section 6.02(1) of Rev. Proc. 89-16.
> (b) Based on the information that is contained in such records, to the best of my knowledge and belief, the entire amount of the section 481(a) adjustment for the year of change [indicate either "is" or "is not," as the case may be] attributable to the tax year immediately preceding the year of change, and 67 percent [or "75 percent," in applicable cases] or more of the section 481(a) adjustment for the year of change [indicate "is" or "is not," as the case may be] attributable to the 1-tax-year period, 2-tax-year period, or 3-tax-year period immediately preceding the year of change.

(4) For examples of the application of the rules prescribed in section 6.02(1) with respect to the appropriate period for taking into account the section 481(a) adjustment, see section 5.14 of Rev. Proc. 84-74.

.03 *Ceasing to engage in the trade or business.*

(1) With respect to a corporation:

If a corporation ceases to engage in the trade or business to which the adjustment described in section 6.01 relates at any time prior to the expiration of the adjustment period referred to in section 6.02, the taxpayer shall take into account in that year the balance of the adjustment not previously taken into account in computing taxable income. *See* Rev. Rul. 80-39, 1980-1 C.B. 112, which holds that, in the case of a corporation with a different division for each trade or business, if the corporation ceases to engage in the trade or business of a division that has been granted a change in method of accounting, the remaining portion of the section 481(a) adjustment applicable to that trade or business must be taken into account in computing income in the year the corporation ceases to engage in that trade or business. For purposes of section 6.03, the taxpayer is not considered to have ceased to engage in a trade or business if its assets have been acquired by another corporation in a transaction to which section 381 of the Code applies, but in that case the acquiring corporation shall continue to be subject to this revenue procedure as though it were the acquired corporation.

(2) With respect to a partnership:

In the event a partnership terminates (within the meaning of section 708(b) of the Code) or ceases to engage in the trade or business to which the adjustment described in section 6.01 relates at any time prior to the expiration of the adjustment period referred to in section 6.02, the balance of the adjustment not previously taken into account in computing ordinary income shall be taken into account in that year. A partnership is treated as ceasing to engage in a trade or business upon the incorporation of the trade or business in a transaction to which section 351 of the Code applies (see Rev. Rul. 85-134, 1985-2 C.B. 160).

(3) With respect to a sole proprietor:

If an individual (sole proprietor) ceases to engage in the trade or business to which the adjustment described in section 6.01 relates at any time prior to the expiration of the adjustment period referred to in section 6.02, the balance of the adjustment not previously taken into account in computing taxable income shall be taken into account in that year. A sole proprietor is treated as ceasing to engage in a trade or business upon the incorporation of the trade or business in a transaction to which section 351 of the Code applies (see Rev. Rul. 77-264, 1977-2 C.B. 187). A sole proprietorship is not treated as ceasing to engage in a trade or business upon the sale of a partial interest in the proprietorship if the individual who was the sole proprietor continues to be actively engaged in the management of the business and it is subsequently operated as a partnership. The section 481(a) adjustment remaining at the time the partnership is formed is taken into account by the sole proprietor in computing the sole proprietor's own taxable income as though there had been no change in ownership (see Rev. Rul. 66-206, 1966-2 C.B. 206).

.04 *Permanent reduction in account for package design costs.*

If, on the last day of any tax year of the adjustment period referred to in section 6.02, the balance of the taxpayer's account for capitalized and unamortized package design costs to which the adjustment described in section 6.01 relates is reduced by more than 33 1/3 percent of the account balance at the beginning of the first tax year of the adjustment period and is so reduced by at least such percentage at the end of the following tax year, the remaining balance of the adjustment must be taken into account in determining taxable income in the year succeeding the year of reduction. If the balance of the account for package design costs does not remain reduced for one year, the reduction is not considered permanent and the provisions of this paragraph do not apply.

.05 *Net operating loss carryovers and net operating losses.*

No part of any (consolidated or separate) net operating loss (NOL) carryover available at the beginning of the year of change may be used as an offset against the portion of the positive section 481(a) adjustment taken into account in the year of change. That is, the NOL carryover available at the beginning of the year of change may be offset only against income (other than the section 481(a) adjustment) generated in the year of change. This condition does not apply to years subsequent to the year of change. Any portion of the positive section 481(a) adjustment attributable to the year of change may be offset against any NOL otherwise incurred in the year of change as well as against any future NOL carryback under section 172(b) of the Code.

.06 *Credit carryover.*

No part of any (consolidated or separate) credit carryover available at the beginning of the year of change may be used to reduce the federal income tax liability resulting from, or attributable to, the inclusion in income of a portion of the section 481(a) adjustment in the year of change.

SEC. 7. COMPLIANCE WITH CONDITIONS

A taxpayer making a change in method of accounting from currently deducting package design costs to capitalizing such costs without complying with all the conditions of this revenue procedure has made a change in method of accounting without obtaining the consent of the Commissioner that is required under section 446(e) of the Code.

SEC. 8. MANNER OF EFFECTING THE CHANGE

.01 A taxpayer applying for a change in method of accounting pursuant to this revenue procedure must complete and file a current Form 3115 in duplicate.

(1) The original shall be attached to the taxpayer's timely filed (determined with regard to extensions) federal income tax return for the year of change.

(2) A copy of the Form 3115 shall be filed with the National Office addressed to the Commissioner of Internal Revenue, P.O. Box 7616, Benjamin Franklin Station, Washington, D.C. 20044, (a) within 270 days after the beginning of the tax year of change or (b) if later, on or before September 2, 1989, which is 180 days after the publication of this revenue procedure in the Internal Revenue Bulletin. If the taxpayer is described in section 4.02(1) through (3) of this revenue procedure (concerning taxpayers that must obtain special consent in order to use this revenue procedure), then "October 2, 1989" shall be substituted in the prior sentence in lieu of "September 2, 1989". No user fee is required for an application filed under this revenue procedure.

.02 In addition to including all of the information required on the Form 3115, the taxpayer must: (1) state that it agrees to all of the conditions of Rev. Proc. 89-16 and that it proposes to take the section 481(a) adjustment into account over the appropriate period required by section 6.02(1); and (2) indicate the period over which the section 481(a) adjustment will be taken into account and the basis for such conclusion. If the Service finds that the taxpayer does not qualify for the change in method of accounting under this revenue procedure, the National Office or the district director will so advise the taxpayer.

.03 In order to assist in the processing of these changes in method of accounting and to insure proper handling, reference to this revenue procedure shall be made a part of the Form 3115 by either typing or legibly printing the following statement at the top of page 1 of Form 3115: "FILED UNDER REV. PROC. 89-16."

.04 The signature of the person requesting the change in method of accounting and authorized to sign the Form 3115 must appear in the space provided for it on the Form 3115. For example, an officer must sign on behalf of a corporation, a general partner on behalf of a partnership, a trustee on behalf of a trust, or the individual taxpayer on behalf of a sole proprietorship. *See* the signature requirements set forth in the General Instructions attached to a current Form 3115 for those who are to sign.

.05 If the taxpayer is a member of an affiliated group that has elected to file a consolidated federal income tax return, a Form 3115 submitted on behalf of the taxpayer must be signed by a duly authorized officer of the common parent. *See* section 1.1502-77 of the regulations.

.06 If an agent is authorized to represent the taxpayer before the Service, to receive the original or copy of correspondence concerning the request, or to perform any other act(s) regarding the application on behalf of the taxpayer, a power of attorney reflecting such authorization(s) must be attached to the application. A taxpayer's representative without a power of attorney to represent the taxpayer as indicated in this subsection will not be given any information regarding the application.

.07 For early applications, except as stated below, see section 5.03 of Rev. Proc. 84-74. The statement (described in section 8.02 of this revenue procedure) to be typed or legibly printed at the top of page 1 of the Form 3115 should read: "EARLY APPLICATION FILED UNDER REV. PROC. 89-16." Within the first 270 days after the beginning of the year of change, the taxpayer must file with the National Office a copy of a complete and perfected Form 3115. The original of the complete and perfected Form 3115 is to be attached to the taxpayer's timely filed (determined with regard to extensions) federal income tax return for the year of change. Unlike the early application procedure under Rev. Proc. 84-74, the taxpayer will not be notified during the 270-day period if the early application has not been perfected.

SEC. 9. INQUIRIES

Inquiries regarding this revenue procedure may be addressed to the Commissioner of Internal Revenue, CC:C:4, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SEC. 10. EFFECTIVE DATE

This revenue procedure is effective March 6, 1989, the date of its publication. Any request for change in method of accounting filed under the provisions of Rev. Proc. 84-74 that qualifies under this revenue procedure and is received in the National Office after the effective date will be returned to the taxpayer. Any taxpayer that has timely filed a Form 3115 under Rev. Proc. 84-74 with the National Office prior to the effective date of this revenue procedure and that has not filed its federal income tax return for the year of change may use the automatic provisions of this revenue procedure if such taxpayer otherwise qualifies under this revenue procedure and will be notified to this effect by the National Office.

26 CFR 601.204: Changes in accounting period and in methods of accounting.
(Also Part I, Sections 167, 263, 263A, 446, 481; 1.167(a)-3, 1.263(a)-2, 1.263A-1T, 1.446-1, 1.481-5.)

Rev. Proc. 89-17

SECTION 1. PURPOSE

This revenue procedure allows taxpayers that incur package design costs (as defined in section 2 of this revenue procedure) to deem the useful lives of certain package designs to be 60 months.

SEC. 2. DEFINITIONS

For purposes of this revenue procedure, the term "package design" means an asset that is created by a specific graphic arrangement or design of shapes, colors, words, pictures, lettering, and so forth on a given product package, or the design of a container with respect to its shape or function.

The term "package design cost", as used in this revenue procedure, means the cost of package designs. If the taxpayer develops the package design, the term includes the cost of materials, labor, and overhead associated with the design. If an independent contractor performs the work, the term includes all billings related to the development of the particular package design. Whether a package design is created in-house or is created by an independent contractor, the term includes all design exploration and study, refinement of the basic design selected, testing, and preparation of the final master comprehensive design. If the taxpayer purchases the package design, the term includes the purchase price. (*See also* section 1.263A-1T(a)(5)(ii) of the regulations that treats a taxpayer purchasing a package design as also producing such design to the extent the taxpayer incurs costs with respect to the design). the term, however, does not include costs associated with coupon inserts, refund offers,and other promotion-related changes, nor does it include costs that are unrelated to the package design itself, such as a change to the list of ingredients. Moreover, the term does not include costs that would have qualified as "trademark or trade name expenditures" under section 177 of the Internal Revenue Code of 1954 (the 1954 Code).

SEC. 3. BACKGROUND

.01 Because intangible assets created by package design costs generally have useful lives greater than one year, those costs generally must be capitalized, either under section 263A of the Code (for purchase costs and production costs incurred after December 31, 1986) or section 263 (for purchase costs and production costs incurred prior to January 1, 1987). See Rev. Rul. 89-23, page 85, this Bulletin. Rev. Rul. 89-23 also notes that, in general, the cost of package designs may not be amortized because their useful lives cannot be ascertained.

.02 To minimize disputes regarding the useful lives of individual package designs, the Service, as a matter of administrative convenience, will allow taxpayers to elect to deem the useful lives of certain package designs to be 60 months.

SEC. 4. SCOPE

This revenue procedure applies only to package designs (as defined in section 2 of this revenue procedure) placed in service in a tax year for which the taxpayer files its federal income tax return properly using a capitalization method of accounting with respect to its package design costs (as defined in section 2 of this revenue procedure). *See* Rev. Proc. 89-16, page 822, this Bulletin, which automatically grants the Commissioner's consent to certain taxpayers that are required to change to a capitalization method of accounting with respect to their package design costs, both with respect to package design costs incurred prior to January 1, 1987 (change in method of accounting made pursuant to section 263 of the Code) and package design costs incurred after December 31, 1986 (change made pursuant to section 263A). *See also* Notice 88-78, 1988-2 C.B 394, which provides guidance and procedural information to taxpayers that fail to change their method of accounting in order to conform to the uniform capitalization rules in accordance with the effective date provisions of section 263A.

SEC. 5 APPLICATION

.01 As a condition to a taxpayer electing pursuant to this revenue procedure to deem the useful lives of certain of its package designs to be 60 months, the taxpayer first must change its method of accounting for package design costs to a capitalization method (to the extent it is not already on a capitalization method). The required change in method of accounting is both with respect to package design costs incurred prior to January 1, 1987, and package design costs incurred after December 31, 1986. *See* Rev. Proc. 89-16.

.02 If an election has been made under this revenue procedure, with respect to a package design, the useful life of that package design is deemed to be 60 months. Thus, in computing taxable income, the cost of the package design would be allowed as a deduction ratably over a 60-month period, beginning with the month the design is placed in service. If the package design is disposed of or abandoned within the 60-month period, the taxpayer would be permitted to deduct the unamortized portion of the cost of the design in the taxable year of disposition or abandonment.

.03 With respect to one or more package designs described in section 4 that are placed in service in a tax year, a taxpayer makes an election under this revenue procedure as follows:

(1) The taxpayer must attach a statement to its timely filed (determined with regard to extensions) federal income tax return for the year in which the package designs are placed in service.

(2) The statement must indicate that, for specified package designs, the taxpayer is electing the 60-month deemed useful life provided in Rev. Proc. 89-17.

(3) The statement must provide a description of the particular package design(s) with respect to which the election is made, the date on which each was placed in service, and the cost basis of each.

.04 If no election is timely made for a package design, that package design remains subject to the federal income tax treatment described in Rev. Rul. 89-23.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective for package designs placed in service in tax years ending on or after March 6, 1989, the date of publication.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-18

SECTION 1. PURPOSE

.01 As of January 31, 1988, the Internal Revenue Service will begin to maintain an automated file of Reporting Agents Authorization (RAAs) for client/taxpayers whose returns can be filed on magnetic tape. The purpose of this file, known as the Reporting Agents File (RAF), is twofold:

1) to permit rapid verification of the identity of a reporting agent when the need to discuss a taxpayer's account arises.
2) to permit the issuance of duplicate copies of official notices to the authorized agent as well as the taxpayer.

.02 The purpose of this Revenue Procedure is to provide instructions for the preparation and submission of Form 8655, Reporting Agent Authorization.

.03 The Reporting Agent Authorization (RAA) is a multi-use form that allows taxpayers to designate reporting agents:

1) to file certain employment tax returns on magnetic tape,
2) to submit federal tax deposits on magnetic tape for certain employment tax returns

.04 If a taxpayer has designated a reporting agent to file certain employment tax returns on magnetic tape, then the taxpayer may authorize the agent to receive copies of notices and correspondence with respect to those employment tax returns.

.05 Currently, agents designated to submit federal tax deposits on behalf of a taxpayer are not authorized to receive notices and copies of correspondence, if they are not also authorized to file the tax return on magnetic tape.

SECTION 2. REPORTING AGENT AUTHORIZATION

.01 The RAA may be submitted on Form 8655 (see exhibit #1), which is available on request; or any other instrument which clearly states that the reporting agent is granted the authority to file and sign the return or submit federal tax deposits. The RAA filed under this revenue procedure is not subject to the rules contained in the Conference and Practice Requirements (Treasury Regulation 601.502). If desired, the RAA may cover both the filing of returns on magnetic tape and the submission of federal tax deposits on magnetic tape. It is the responsibility of the reporting agent to ensure that the requirements specified in this revenue procedure are met for those authorizations currently on file and those submitted in the future.

.02 The taxpayer, or his/her authorized representative, must sign the RAA. If, however, "authorized representative" includes the holder of a general power of attorney, additional precautions are needed to assure that the person executing the RAA has been specifically authorized, himself/herself, to sign returns on behalf of the taxpayer. If the taxpayer wishes to authorize the reporting agent to receive employment return notices, correspondence, and transcripts from the Internal Revenue Service, the authorized representative must be someone with authority both to receive, and to designate others to receive, return information of the taxpayer. The signed document will remain in effect until such time as it is revoked by written notification from the taxpayer, the reporting agent, or terminated by the Internal Revenue Service.

1. The following persons may execute an RAA on behalf of a corporation or other business taxpayer: .
   (a) The individual, if the person required to make the return is an individual;
   (b) The corporate president, chief executive officer or an officer authorized by law to bind the corporation, if the entity required to make the return is a corporation. These individuals may designate recipients of return information on behalf of a corporation. Additionally, with attestation by the corporation's secretary or other officer, any principal officer of the corporation may designate recipients of the corporation's return information;
   (c) A responsible and duly authorized member or officer having knowledge of its affairs, if the person required to make the return is a partnership or other unincorporated organization. A nonpartner officer of a partnership or other unincorporated organization may designate recipients of return information only if that officer has been granted authority to receive, and to re-delegate authority to receive, the return information of the partnership or organization;
   (d) The fiduciary, if the entity required to make the return is a trust or estate; or
   (e) An agent who is duly authorized in accordance with section 31.6011(a)-7 of the Employment Tax Regulations, provided the authorization explicitly states that the agent may both receive and designate recipients of the taxpayer's return information, if the form is used to designate the reporting agent as a recipient of return information.

.03 The scope of the RAA for magnetic tape filing of certain employment tax returns will be governed by the following instructions:

1. RAA will delegate to the reporting agent the power to sign and file appropriate federal tax returns.
2. The RAA becomes effective for the tax period designated by the agent/taxpayer and remains in effect for subsequent periods until revoked, or terminated. The RAA must be submitted timely and the Service must validate it prior to returns being filed by the agent (see Section 3).
3. The receipt of an RAA for magnetic tape filing revokes all prior reporting agent authorizations but has no effect on any other

power of attorney or authorization.

4. The RAA may authorize the reporting agent to receive copies of notices, correspondence and transcripts with respect to employment returns filed by the designee.
5. Requests from a reporting agent for information or adjustments on an account for which the taxpayer has authorized magnetic tape filing will be honored by the service center.

.04 The scope of the RAA for submission of federal tax deposits on magnetic tape will be governed by the following instructions:

.1 The RAA will delegate to the reporting agent the power to prepare and submit FTDs for taxes reported on Forms 940, 941 and 943.

.2 The RAA becomes effective for the tax period the agent/taxpayer notifies the Service that he/she is responsible for submitting federal tax deposits and remains in effect until revoked or terminated. The RAA must be submitted timely and the Service must validate it prior to any submission of federal tax deposits by the agent (see Section 3).

.3 An RAA that is limited to submitting FTDs for a taxpayer does not entitle the agent to receive copies of notices and correspondence for a taxpayer. It does permit an agent to request information or submit information on the deposits submitted by the agent. This includes any penalties that may result from such deposits.

.05 An RAA can be prepared to cover both functions, magnetic tape filing of certain employment tax returns and magnetic tape submission of federal tax deposits in payment of the taxes reported on certain employment tax returns.

.1 If the RAA covers both functions, the taxpayer may authorize the agent to receive copies of notices and correspondence with respect to employment tax returns filed by the designee.

.2 If one function of the RAA (either magnetic tape filing or FTD submission) is revoked, the other remains in effect. However, if a return is added to a function, a new RAA must be submitted.

.06 Requests for taxpayer address changes may not be made by the reporting agent. Requests for address changes for taxpayers that are reported under magnetic tape filing will be processed only if they originate with one of the following:

(a) The taxpayer,

(b) An employee of the Service, or

(c) An attorney-in-fact if the attorney has a full Power of Attorney for all tax matters concerning a taxpayer, and has filed a copy of the Power of Attorney with the Service.

SECTION 3. SUBMISSION OF REPORTING AGENT AUTHORIZATIONS

.01 Reporting Agents (RAs) who desire to file client/taxpayer employment tax returns on magnetic tape or make magnetic tape submission of federal tax deposits relating to employment taxes must formally apply to the Internal Revenue Service for these privileges. Currently, the required information for these applications is contained within Revenue Procedures for Form 940 magnetic tape filing, for Forms 941/941E magnetic tape filing, and for submission on magnetic tape of Federal Tax Deposits for employment taxes. Contact the Internal Revenue Service at the addresses listed in section 6 for copies of the current revenue procedures.

.02 The applications governed by the referenced revenue procedures must be accompanied by the individual RAAs and a list of client/taxpayers for whom magnetic tape returns will be filed and/or federal tax deposits will be made.

.03 The list must be accompanied by a copy of the reporting agent authorizations (RAAs) signed by the taxpayer or authorized representative (See Section 2.01). A photocopy is acceptable. If, however, ''authorized representative'' includes the holder of a general power of attorney, additional precautions are needed to assure that the person executing the RAA has been specifically authorized, himself/herself, to sign returns on behalf of the taxpayer. The authorized representative must be someone with authority both to receive, and to designate others to receive, return information of the taxpayer.

.04 There are two methods of submitting the list of taxpayers for whom magnetic tape returns will be filed and/or federal tax deposits will be submitted; magnetic tape and paper listings. If the reporting agent wishes, he/she may always file the list on magnetic tape, but if the number of client/taxpayers for filing of magnetic tape returns exceeds 100, then the list must be filed on magnetic tape.

.05 Lists submitted on magnetic tape must be submitted in accordance with the specifications in sections 7 and 8. Magnetic tapes submitted with a significant number of errors will be returned to the Reporting Agent (RA) for correction. The magnetic tape file list can contain information on both magnetic tape return filing and magnetic tape submission of FTDs.

.06 Lists submitted on paper must be submitted in duplicate using the format indicated in exhibit #2 for both magnetic tape filing of returns and for submission of federal tax deposits.

.07 If in the course of business, the reporting agent wishes to add or delete client/taxpayers from his/her current authorized list, the format for both the magnetic tape file and the paper list is the same as for the initial listing submission.

.08 The list of additions or deletions should not exceed 500. Once an inventory of 500 is reached, it should be forwarded to the Service. If the submission exceeds 500, we cannot guarantee the records will be processsed within 30 days.

.09 The list of taxpayers to be added to the magnetic tape filing system and magnetic tape FTD submission system must be submitted by certain deadlines. This is because the Service requires time to validate the information on the list and the associated RAAs and to return a validated listing to the reporting agent.

.10 The deadlines must be met to enable the Service to return a validated listing to the Reporting Agent with a name control for each taxpayer listed. Under no circumstance should the Reporting Agent submit a taxpayer's return or FTD submission on magnetic tape without return of the validated listing from the Service with a name control for each taxpayer. The validated listing is the confirmation that the RAA has been accepted. In addition, the Service will notify the reporting agent if the taxpayer's return should be filed at a different service center from the one at which the taxpayer's last return was filed. If the Service has agreed to let the reporting agent consolidate filing in one Service Center, no additional confirmation will be made.

.11 The deadlines for the lists on paper or magnetic tape are the same, the first day of the last month of the tax period (period covered by the return). As an example, lists for RAAs involving Forms 940 and 943 must be submitted by the first day of December. Lists for RAAs involving Forms 941/941E must be submitted by the first day of the last month of the calendar quarter.

.12 When the reporting agent determines that he/she will no longer be filing tax returns or making FTD submissions for a taxpayer, action should be taken to notify the service center which accepted the RAA of one of the following conditions. This is done in association with submission of a delete list.

1. The delete list (paper or magnetic tape) should be accompanied by a statement (signed by the taxpayer or the reporting agent) for each taxpayer stating the taxpayer is out of business (state the effective date) and will no longer be liable for filing returns (Final Return) or making deposits.
2. The delete list (paper or magnetic) should be accompanied by a statement indicating the reporting agent will no longer be submitting returns or deposits on magnetic tape for the taxpayer who is still in business and is still liable for such returns (Discontinued Clients). This item may be included on the transmittal letter.

.13 The preparation of a paper listing (exhibit #2) is reasonably self explanatory. The following addresses questions that might arise. Examples of entries are provided on the exhibit.

1. Name and Address of Reporting Agent — self explanatory.
2. Agent Identifying Number — Two digit number assigned by IRS to reporting agents who submit federal tax deposits (not Employer Identification Number).
3. Agent Employer Identification Number — self explanatory.
4. List Type — Either Additions or Deletions. Separate paper lists must be prepared for additions and deletions.
5. Name of Agents Contact Point.
6. Phone Number of Agents Contact Point.
7. Client Account Number — Optional for benefit of agents.
8. Employer Identification Number — Of taxpayer.
9. Name Control — Blank when submitted by Agent. Will be filled in when returned to agent by IRS.
10. Taxpayer Name and Address — self explanatory.
11. RAA submitted for
    a) Return Filing 940 — Enter YYMM if RAA covers it. (see Section 7 for YYMM explanation)
    b) Return Filing 941 or 941E — Enter YYMM if RAA covers it.
    c) FTD submission 940 — Enter YYMM if RAA covers it.
    d) FTD submission 941 — Enter YYMM if RAA covers it.
    e) FTD submission 943 — Enter YYMM if RAA covers it.
    f) Notice to Agent — Put X if RAA covers it, but only if Return Filing is also covered.
12. Local Service Center — Service Center where taxpayer last filed taxreturns. Use the following abbreviations:
    ANSC = Andover, ATSC = Atlanta, AUSC = Austin, BSC = Brookhaven, CSC = Cincinnati, FSC = Fresno, KCSC = Kansas City, MSC = Memphis, OSC = Ogden, PSC = Philadelphia

SECTION 4. REPORTING AGENTS FILE

.01 By October 1, 1987, the service centers will be prepared to accept magnetic tape submissions from reporting agents. By November 1, 1987, all current reporting agents must submit lists of their current client/taxpayers using the format specified in Sections 7 and 8 (magnetic tape format). No copies of the authorizations need be submitted with these special lists. Delay in submitting these lists will delay the inclusion of the RAAs on the RAF and delay the receipt of benefits to be derived from it.

.02 The taxpayer record described in Exhibit 11 needs some clarification in its application to the special November 1, 1987 submission. The use of the fields is as described in Exhibit 11 with the following clarifications:

1. Positions 1-116 — Use as described in Exhibit 11.
2. Position 117 — Enter "Y", if Forms 940 are authorized to be filed on magnetic tape.
3. Positions 118-121 — Enter YYMM date of earliest return filed by taxpayer through magnetic tape for which you would wish to receive notices.
4. Position 122 — Enter "A".
5. Position 123 — Enter "Y", if Forms 941 are authorized to be filed on magnetic tape.
6. Position 124-127 — Enter YYMM date of earliest return filed by taxpayer through magnetic tape for which you would wish to receive notices.
7. Position 128 — Enter "A"
8. Positions 129-158 — Blank fill.
9. Positions 159-168 — Client Account Number, Optional use.
10. Position 169 — Enter "N" for all taxpayers for which an RAA is on file authorizing you to receive notices.
11. Positions 170-173 — Blank fill.
12. Positions 174-200 — Blank fill.

.03 The Internal Revenue Service will reconcile their existing files with the special submissions of the agents and will notify the agents of discrepancies with respect to missing authorizations and to authorizations no longer on the current list.

SECTION 5. FTD ONLY REPORTING AGENTS AUTHORIZATIONS

.01 At present, the Service will continue to manually maintain a file of RAAs that authorize federal tax deposit magnetic tape submissions without authorizing magnetic tape filing.

.02 These authorizations will be used to verify the right of an agent to discuss a taxpayer's account as it relates to federal tax deposits.

SECTION 6. ADDITIONAL INFORMATION

Requests for additional copies of this revenue procedure, requests for copies of appropriate input record element specifications, and requests for tape filing information should be addressed to the Director, Internal Revenue Service Center, at one of the following addresses:

1. North-Atlantic Region
    (a) Andover Service Center
    Management Support
    Branch, Mail Stop 105
    310 Lowell Street
    Andover, MA 05501
    (b) Brookhaven Service Center
    Management Support
    Branch, Mail Stop 110
    1040 Waverly Avenue
    Holtsville, NY 11742

2. Mid-Atlantic Region
   (a) Philadelphia Service Center
   Taxpayer Relations Branch,
   Drop Point 535
   P.O. Box 245
   Bensalem, PA 19020
3. Central Region
   (a) Cincinnati Service Center
   Management Support
   Branch, Mail Stop 2
   P.O. Box 267
   Covington, KY 41019
4. Southeast Region
   (a) Atlanta Service Center
   Management Support
   Branch, Mail Stop 30
   P.O. Box 47-421
   Doraville, GA 30362
   (b) Memphis Service Center
   Management Support
   Branch, Mail Stop 32
   P.O. Box 30309
   Airport Mail Facility
   Memphis, TN 38130
5. Midwest Region
   (a) Kansas City Service Center
   Management Support
   Branch, Mail Stop 3
   P.O.Box 24551
   Kansas City, MO 64131
6. Southwest Region
   (a) Austin Service Center
   Management Support
   Branch, Mail Stop 1055
   P.O. Box 934
   Austin, TX 78767
   (b) Ogden Service Center
   Management Support
   Branch, Mail Stop 1055
   1160 West 1200 South
   Ogden, UT 84201
7. Western Region
   (a) Fresno Service Center
   Management Support
   Branch, Mail Stop 28
   P.O. Box 12866
   Fresno, CA 93779

SECTION 7. CONVENTIONS AND DEFINITIONS

.01 Conventions

(a) Reporting Agents who submit their initial or add and delete lists on magnetic tape must conform to Level 3 of the ANSI Standard X3.27-1978 (Magnetic Tape Labels and File Structure for Information Interchange). Specifically this calls for recognition of the following label types: VOL1,HDR1, HDR2, EOV1, EOV2, EOF1, and EOF2 (see Exhibits 3 through 9 for specific label specifications). There will be no user labels or non-labeled tapes accepted for processing.

(b) Record Mark

No restrictions apply to record marks.

(c) Tape Mark

The tape marks will be automatically generated for an interchange tape (defined in Section 7.01). An example is provided in Section 8. Magnetic Tape Specifications .02.

.02 Definitions

Element	Description
Blocked Records	Two or more records grouped together between interrecord gaps.
Blocking Factors	The number of records grouped together to form a block.
b	Denotes a blank position.
EIN	Employer Identification Number.
File	A file consists of all tape records submitted by a reporting agent.
FTD	Federal Tax Deposit.
POA	Power of Attorney.
RAA	Reporting Agent Authorization.
Record	A group of related fields of information, treated as a unit.
Record Mark	Special character used either to limit the number of characters in data transfer or to separate blocked records on tape.
Reel	A spool of magnetic tape.
Reporting Agent	Person or organization preparing and filing magnetic tape equivalents of Federal tax returns and/or submitting federal tax deposits.
Reporting Agent List	List of additions or deletions.
Special Character	Any character that is not a numeral, letter, or blank.
Tape Mark	Special character that is written on tape.
Taxpayer	Persons or organization liable for the payment of tax. The taxpayer will be held responsible for the completeness, accuracy and timely submission of the magnetic tape files.
Unblocked Records	Single records written between interrecord gaps.
YYMM	Year Year Month Month of ending month of tax period in digits. Example: first quarter 1987 returns = 8703, fourth quarter 1987 = 8712, calendar year 1987 = 8712.
YYDDD	Year Year Day Day Day — Last two digits of year plus Julian Day (e.g. January 1st 1988 = 88001, January 31, 1988 = 88031).

SECTION 8. MAGNETIC TAPE SPECIFICATIONS

.01 These specifications prescribe the required format and content of the records to be included in the file, but not the methods or equipment to be used in their preparation. A physical tape reel must have the following physical characteristics:

Type of tape	½ inch Mylar base, oxide coated
Recording density	1600 BPI (bytes per inch)
Parity	Odd
Interrecord Gap	.6 inch for 1600 BPI
Recording Mode	ASCII
Track	9-Track
Recording Format	Reporting Agent will use a recording format of "F" (fixed length records).

.02 An acceptable file will contain, for each reporting agent, the following:

VOL1

HDR1

HDR2

TAPEMARK

REPORTING AGENT RECORD

TAXPAYER RECORD — as many as required, one for each RAA submitted.

END OF FILE TRAILER RECORD

TAPEMARK

EOF1

EOF2

TAPEMARK

TAPEMARK

.03 All records including headers and trailers, if used, must be written at the same density.

.04 Affix an external label to each tape with the following information:

1. Name of reporting agent,
2. Number of RAAS entries (submitted or deleted) on file (even if more than one reel comprises file),
3. Density (1600),
4. Channel (9),
5. Parity (odd),
6. Sequence number of reel and total number of reels in file (for example, 1 of 3).
7. Write in large type:

EXPEDITE
RAA MAGNETIC
TAPE SUBMISSION
DELIVER TO TAPE LIBRARY

.05 Record Length

The tape records prescribed in the specifications must be blocked at one record per block (200 tape character positions).

.06 Data

Only character data may be used. This means numeric fields cannot use overpunched signs and should be right justified with remaining unused positions zero filled. Special characters should be limited to -, &, % or / and can only be used in the name line fields and the street address fields of Reporting Agent ''RA'' Record and Taxpayer ''TP'' Record. Otherwise, characters must be numeric or alphabetic. All numeric data should be in unsigned ASCII characters (no binary data).

.07 Reporting Agent Record

Identifies the reporting agent who prepares and transmits the tape file and the RAAs (see Exhibit 10). The Agent Record must precede the first Taxpayer record reported on the first reel of the file. Contact the Magnetic Tape Coordinator for Business Tax Returns for additional details, if necessary.

.08 Client/Taxpayer Records

1. Taxpayer records contain information for each filer reported by the reporting agent (see Exhibit 11). The number of Taxpayer Records appearing on one tape file will depend on the number of taxpayers represented.
2. All records will be blocked individually with no other records in the block. Records should have a blocking factor for which blocks will not exceed 200 tape character positions. All records must be fixed length. Fields identified as indicators should always carry a value. Other fields must be left justified and blank filled on right with blank filling of non-significant fields.

.09 End of File Trailer Record

This record contains a count of all Taxpayer Records (see Exhibit 12). The Trailer record must be the last record on the agent's tape file. It can be followed only by a tape mark.

SECTION 9. EFFECTIVE DATE

This revenue procedure is completely effective January 31, 1988. However, section 4, which relates to the establishment of the Reporting Agents File and related technical specifications is effective October 1, 1987.

SECTION 10. EFFECT ON OTHER DOCUMENTS

The instructions contained in this revenue procedure supersede authorization information contained in Revenue Procedures for Form 940 magnetic tape filing, for Forms 941/941E magnetic tape filing, and for submissions on magnetic tape of Federal Tax Deposits for employment taxes.

EXHIBIT 1

Form **8655** (July 1988)

Department of the Treasury — Internal Revenue Service

Reporting Agent Authorization

OMB No. 1545-1058
Expires: 06-30-91

1. Taxpayer name	2. Taxpayer identifying number
3. Address	4. City, State, and ZIP code
5. Reporting agent name *(Reporting agents file returns on magnetic tape and/or file Federal tax deposits for a taxpayer.)*	6. Identifying number
7. Reporting agent address	8. City, State, and ZIP code

____________________ is hereby appointed as reporting agent with authority to sign and file Federal employment tax returns on magnetic tape and/or make Federal tax deposits *(FTD)* for the above stated taxpayer.

☐ Check here if the reporting agent is authorized as a designee of the taxpayer to receive copies of notices, correspondence, and transcripts with respect to employment tax returns filed by the designee. This does not apply to authorizations limited to FTD submissions. *(Strike out any language that does not apply.)*

This authorization shall include the following Federal employment tax returns, beginning with the tax period indicated and remaining in effect through subsequent tax periods until notified by the taxpayer or the designee of termination or revocation of this authorization. Indicate which tax forms and/or Federal tax deposits apply.

Magnetic Tape Return Forms Filed	Beginning Period	FTD Payments	Beginning Period
☐ 941	________	☐ 941	________
☐ 941E	________	☐ 943	________
☐ 940	________	☐ 940	________

This reporting agent authorization revokes all earlier reporting agent authorizations but has no effect on any other power of attorney or authorization.

Signature of Taxpayer or Authorized Representative

If the reporting agent is to be authorized to receive notices, correspondence, and transcripts from the Internal Revenue Service, this document must be signed by someone who has authority to receive, and to designate a recipient of, the return information of the taxpayer.

Signature *(Required)*	Title *(If applicable)*	Date *(Required)*

If signed by a corporate officer, partner, or fiduciary on behalf of the taxpayer, I certify that I have the authority to execute this reporting agent authorization on behalf of the taxpayer.

Reporting Agent's List

NAME of AGENT ______________________________

STREET ADDRESS ______________________________

CITY, STATE, ZIP ______________________________

Agent Identifying Number (Assigned by IRS) ______________________________

Agent Employer Identification Number ______________________________

List Type (Additions or Deletions) ______________________________

Name of Agent Contact Person ______________________________

Phone Number of Agent Contact Person ______________________________

CLIENT ACCOUNT NUMBER (Optional)	EMPLOYER IDENTI-FICATION NUMBER	NAME CONTROL (IRS SUPPLIED)	TAXPAYER NAME & ADDRESS	RAA SUBMITTED FOR: RETURN FILING 940	RETURN FILING 941	FTD SUBMISSION 940	FTD SUBMISSION 941	FTD SUBMISSION 943	NOTICE TO AGENT	LAST SERVICE CENTER OF FILING
10035	11-3578549		ABC Corp. 111 1st St. NY NY 10024	8812	8803	8812	8803	8812	X	BSC
10037	13-9363939		XYZ Corp. 555 5th Ave. NY NY 10036				8812	8812		BSC

Examples

1) The agent is submitting ABC Corp.'s RAA with the authority to file Forms 940 and 941 and submit FTDs for Forms 940, 941 and 943 with the right to receive copies of notices.

2) The agent is submitting XYZ Corp.'s RAA with the authority to submit FTDs for Forms 941 and 943. No right to receive notices is specified because no returns are being filed.

EXHIBIT 3

VOL1 Label

Character Postion		Acceptable values
1-4	*	VOL1
5-10		"6" digit reel number
11-79	*	Blanks
80	*	3 (indicates current level of ANSI standard)

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 4

HDR1 Label

Character Position		Acceptable values
1-4	*	HDR1
5-21		This is the file identifier. It is incumbent upon the Reporting Agent to supply this information. Entries must be left justified with blanks in remaining positions. Valid entry is RAF5001.
22-27		''6'' digit reel number
28-31	*	0001
32-35	*	0001
36-39		Specifies the current stage in bracket version in the succession of one file generation by the next. Generally will be 0001.
40-41		01
42-47		Creation Date. This date should be generated by the operating system and have the date the tape was created. The format is ''bYYDDD'' (Julian Date) a lower case ''b'' denotes a blank position.
48-53		Purge Date. This date should be generated by the operating system and have the date the tape will be purged. The format is ''bYYDDD'' (Julian Date) - a lower case ''b'' denotes a blank position. For Service use, specify the purge date as one year after the creation date.
54	*	blanks
55-60	*	zeros (''000000'')
61-80	*	blanks

* Asterisk indicates positions (fields) that are generally system enerated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 5

HDR2 Label

Character Position		Acceptable values
1-4	*	HDR2
5		F (indicator for fixed length records)
6-10		''00200''
11-15	*	All records will be 00200 in length.
16-50	*	blanks
51-52	*	Specify the buffer offset before the first record in the block. This should be 00.
53-80	*	blanks

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 6

EOF1 Label

Character Position		Acceptable values
1-4	*	EOF1
5-21		This is the file identifier. It is incumbent upon the Reporting Agent to supply this information. Entries must be left justified and blank filled. Valid entry is RAF5001.
22-27		''6'' digit reel number
28-31	*	0001
32-35	*	0001
36-39		Specifies the current stage in bracket version in the succession of one file generation by the next. Generally will be 0001.
40-41		01
42-47		Creation Date. This date should be generated by the operating system and have the date the tape was created. The format is ''bYYDDD'' (Julian Date) — a lower case ''b'' denotes a blank position.
48-53		Purge Date. This date should be generated by the operating system and have the date the tape will be purged. The format is ''bYYDDD'' (Julian Date) — a lower case ''b'' denotes a blank position. For Service use, specify the purge date as one year after the creation date.
54	*	blanks
55-60	*	The number of blocks on the tape reel
61-80	*	blanks

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 7

EOF2 Label

Character Position		Acceptable values
1-4	*	EOF2
5		F (indicator for fixed length records)
6-10	*	''00200''
11-15	*	All records will be 00200 in length.
16-50	*	blanks
51-52	*	Specify the buffer offset before the first record in the block. This should be 00.
53-80	*	blanks

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 8

EOV1 Label

Character Position		Acceptable values
1-4	*	EOV1
5-21		This is the file identifier. It is incumbent upon the Reporting Agent to supply this information. Entries must be left justified and blank filled. Valid entry is RAF5001.
22-27		"6" digit reel number
28-31	*	0001
32-35	*	0001
36-39		Specifies the current stage in bracket version in the succession of one file generation by the next. Generally will be 0001.
40-41	01	
42-47		Creation Date. This date should be generated by the operating system and have the date the tape was created. The format is "bYYDDD" (Julian Date) a lower case "b" denotes a blank position.
48-53		Purge Date. This date should be generated by the operating system and have the date the tape will be purged. The format is "bYYDDD" (Julian Date) a lower case "b" denotes a blank position. For Service use, specify the purge date as one year after the creation date.
54	*	blanks
55-60	*	The number of blocks on the tape reel
61-80	*	blanks

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 9

EOV2 Label

Character Position		Acceptable values
1-4	*	EOV2
5		F (indicator for fixed length records)
6-10		"00200"
11-15	*	All records will be 00200 in length.
16-50	*	blanks
51-52	*	Specify the buffer offset before the first record in the block. This should be 00.
53-80	*	blanks

* Asterisk indicates positions (fields) that are generally system generated (Vendors may differ somewhat). The reporting agent should make entries in all other fields.

EXHIBIT 10

REPORTING AGENT RECORD

General Information

The Reporting Record identifies the Reporting Agent who is submitting the file of client/taxpayers. This record must precede the first Taxpayer Record reported on the first reel of the tape file.

Tape Position	Element Name	Entry or Definition
1-2	Record Type	Enter "RA" to indicate reporting agent header record.
3-4	RA-ID Number	Enter the two digit number assigned by IRS. If none assigned, enter blanks.
5-13	RA-EIN	Enter nine numeric characters of reporting agent's EIN. Do not include hyphen.
14-48	RA-Name	Enter first name line of reporting agent. Valid characters are A-Z, 0-9, ampersand, hyphen, right hand bracket and one blank between each word. The comma, period, number sign, apostrophe and multiple blanks are invalid characters. Left justify and blank fill.
49-83	RA-Second Name Line	Enter second name line of reporting agent, if desired (for Doing Business As (DBA) or Trading As (TA)). Valid characters are A-Z, 0-9, ampersand, hyphen, right hand bracket and one blank. Left justify and blank fill.
84-118	RA Street Address	Enter street address of reporting agent. Valid characters are A-Z, 0-9, ampersand, hyphen, slash "/", percent sign "%" and one blank between each word. Invalid characters are the number sign, period, apostrophe and multiple blanks. Left justify and blank fill.
119-138	RA City	Enter City of reporting agent. Valid characters are A-Z, 0-9, hyphen and one blank. Left justify and blank fill.
139-140	RA State Code	Enter State Code of reporting agent.
141-149	RA Zip Code	Enter zip code of reporting agent.
150-159	RA Phone Number	Enter ten numerics of reporting agent's phone number. Do not include hyphens.
160-195	RA Contact Point	Name of individual to serve as Reporting Agent's primary contact point.
196-200	Reserved	Enter blanks.

EXHIBIT 11

TAXPAYER RECORD

General Information

A Taxpayer record is required for each taxpayer.

See instructions for special November 1987 submission in Section 4.

Tape Position	Element Name	Entry or Description
1-2	Taxpayer Record Type	Enter "TP" to indicate a taxpayer record.
3-11	Taxpayer EIN	Enter 9 numerics of taxpayer EIN. Do not enter hyphens.
12-46	Taxpayer Name	Enter name of taxpayer. Valid characters are A-Z, 0-9, ampersand, hyphen, right hand bracket and one blank between each word. The comma, period, number sign, apostrophe and multiple blanks are invalid characters. Left justify and blank fill.
47-50	Taxpayer Name Control	Enter Name Control of taxpayer as provided by IRS. Use only on delete submissions.
51-85	Taxpayer Street Address	Enter address of taxpayer. Valid characters are A-Z, 0-9, ampersand, hyphen, slash "/", percent "%" and one blank between each word. Invalid charachters are the number sign, period, apostrophe and multiple blanks. Left justify and blank fill.
86-105	Taxpayer City	Enter city of taxpayer. Valid characters are A-Z, 0-9, hyphen and one blank. Left justify and blank fill.
106-107	Taxpayer State Code	Enter State Code of taxpayer.
108-116	Taxpayer Zip Code	Enter zip code of taxpayer.
117	940 Indicator	Enter "Y" if RAA submitted for filing Form 940 on magnetic tape. Enter blank if not.
118-121	940-Tax Period	Enter four digit numeric YYMM tax period for Form 940. Use beginning YYMM if RAA being submitted. Use YYMM of last return to be filed if RAA is being withdrawn. Leave blank if 940 indicator is blank. The earliest valid tax period is 8612.
122	940 Action Code	Enter "A" if RAA is being submitted. Enter "D" if RAA is being withdrawn. Leave blank if 940 indicator is blank.
123	941/941E Indicator	Enter "Y" if RAA submitted for filing Form 941/941E on magnetic tape. Enter blank if not.
124-127	941-Tax Period	Enter four digit numeric YYMM tax period for Form 941/941E. Use beginning YYMM if RAA is being submitted. Use YYMM of last return to be filed if RAA is being withdrawn. Leave blank if 941/941E indicator is blank. The earliest valid tax period is 6903.
128	941/941E Action Code	Enter "A" if RAA is being submitted. Enter "D" if RAA is being withdrawn. Leave blank if 941/941E indicator is blank.
129-140	Reserved for future use. Blank fill.	
141	940 FTD Indicator	Enter "Y" if RAA is for FTD for Form 940. Blank if it does not cover FTDs for Form 940.
142-145	940 FTD Tax Period	Enter four digit numeric YYMM tax period for FTD for Form 940. Use beginning YYMM if RAA being submitted.Use YYMM of last return to be filed if RAA is being withdrawn. Leave blank if 940 FTD indicator is blank.
146	940 FTD Action Code	Enter "A" if RAA is being submitted. Enter "D" if RAA is being withdrawn. Leave blank if 940 FTD indicator is blank.
147	941 FTD Indicator	Enter "Y" if RAA is for FTD for Form 941. Blank if it does not cover FTDs for Form 941.
148-151	941 FTD Tax Period	Enter four digit numeric YYMM tax period for FTD for Form 941. Use beginning YYMM if RAA being submitted. Use YYMM of last return to be filed if RAA is being withdrawn. Leave blank if 941 FTD indicator is blank.
152	941 FTD Action Code	Enter "A" if RAA is being submitted. Enter "D" if RAA is being withdrawn. Leave blank if 941 FTD indicator is blank.

EXHIBIT 11 (Continued)

Tape Position	Element Name	Entry or Description
153	943 FTD Indicator	Enter "Y" if RAA is for Form 943. Blank if it does not cover FTDs for Form 943.
154-157	943 FTD Tax Period	Enter the four digit numeric YYMM tax period for Form 943. Use beginning YYMM if RAA is being submitted. Use YYMM of last return to be filed if RAA is being withdrawn. Leave blank if 943 FTD indicator is blank.
158	943 FTD Action Code	Enter "A" if RAA is being submitted. Enter "D" if RAA is being withdrawn. Leave blank if 943 FTD indicator is blank.
159-168	Client Account Number	Enter Client account number if desired. Left justify and blank fill. Field may be left blank if desired.
169	Notice Indicator	Enter "N" if authorized to receive a copy of taxpayers notices. If not, blank fill.
170-173	Last Service Center	Enter one of the four character representations listed below for Service Center where client filed last tax return: ANSC = Andover FSC = Fresno ATSC = Atlanta KCSC = Kansas City AUSC = Austin MSC = Memphis BSC = Brookhaven OSC = Ogden CSC = Cincinnati PSC = Philadelphia
174-200	Reserved	Enter blanks.

EXHIBIT 12

END OF FILE TRAILER RECORD

General Information

The End of File Trailer Record. This record type must be the last record on the agent's tape file. It can be followed only by a tape mark.

Tape Position	Element Name	Entry or Definition
1	Record Type	Enter "E".
2-7	Number of TP Records	Enter the sum of TP Records you are reporting on the file. Zero fill on left. Use numeric characters without a sign representation.
8-200	Reserved	Enter blanks.

26 CFR 601.201: Rulings and determination letters. (Also Part I, Sections 170, 664, 2522; 1.170A-6, 1.664-2, 1.664-3, 25.2522(c)-3.)

Rev. Proc. 89-19

SECTION 1. BACKGROUND

Rev. Proc. 89-21, page 842, this Bulletin, makes available a sample declaration of trust that meets the applicable requirements under section 664(d)(1) of the Internal Revenue Code for an inter vivos charitable remainder annuity trust providing for annuity payments during one life.

Rev. Proc. 89-20, this page, this Bulletin, makes available a sample declaration of trust that meets the applicable requirements under section 664(d)(2) of the Code for an inter vivos charitable remainder unitrust providing for unitrust payments during one life.

Rev. Proc. 89-3, page 761, this Bulletin, sets forth areas of the Internal Revenue Code under the jurisdiction of the Associate Chief Counsel (Technical) in which the Internal Revenue Service will not issue advance rulings or determination letters. Section 4 of Rev. Proc 89-3 lists areas in which rulings or determination letters will not ordinarily be issued.

SEC. 2. PROCEDURE

Rev. Proc. 89-3 is amplified by adding to section 4 the following:

Section 170—Charitable, Etc., Contributions and Gifts.— Whether a transfer to an inter vivos charitable remainder trust described in section 664 of the Code that provides for annuity or unitrust payments for one measuring life qualifies for a charitable deduction under section 170(f)(2)(A).

Section 664—Charitable Remainder Trusts.—Whether an inter vivos charitable remainder annuity trust or unitrust that provides for annuity or unitrust payments for one measuring life satisfies the requirements described in section 664 of the Code.

Section 2522—Charitable and Similar Gifts.—Whether a transfer to an inter vivos charitable remainder trust described in section 664 of the Code that provides for annuity or unitrust payments for one measuring life qualifies for a charitable deduction under section 2522(c)(2)(A).

SEC. 3. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests received in the National Office after February 27, 1989, the date of publication of this revenue procedure.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is amplified.

---

26 CFR 601.201: Rulings and determination letters. Also Part I, Sections 170, 664, 2522; 1.170A-6, 1.664-3, 25.2522(c)-3.)

Rev. Proc. 89-20

SECTION 1. PURPOSE

This revenue procedure makes available a sample form of declaration of trust that meets the requirements for a charitable remainder unitrust as described in section 664(d)(2) of the Internal Revenue Code.

SEC. 2. BACKGROUND

The Internal Revenue Service receives and responds to requests for rulings dealing with the qualification of trusts as charitable remainder trusts and the availability of deductions for contributions made to such trusts. In many of these requests, the trust instruments and charitable objectives are very similar. Consequently, in order to provide a service to taxpayers and to save the time and expense involved in requesting and processing a ruling on a proposed charitable remainder unitrust, taxpayers who make transfers to a trust that substantially follows the sample trust instrument contained herein can be assured that the Service will recognize the trust as meeting all of the requirements of a charitable remainder unitrust, provided the trust operates in a manner consistent with the terms of the trust instrument and provided it is a valid trust under applicable local law.

SEC. 3. SCOPE AND OBJECTIVE

The sample declaration of trust made available by section 4 of this revenue procedure meets all of the applicable requirements under section 664(d)(2) of the Code for an inter vivos charitable remainder unitrust providing for unitrust payments during one life, followed by distribution of the trust assets to the charitable remainder beneficiary, if the trust document also creates a valid trust under local law. If the trust instrument makes reference to this revenue procedure and adopts a document substantially similar to the sample, the Service will recognize the trust as satisfying all of the applicable requirements of section 664(d)(2) of the Code and the corresponding regulations. Moreover, for transfers to a qualifying charitable remainder unitrust, the remainder interest will be deductible under sections 170(f)(2)(A) and 2522(c)(2)(A) for income and gift tax purposes, respectively. Therefore, it will not be necessary for a taxpayer to request a ruling as to the qualification of a substantially similar trust, and the Service generally will not issue such a ruling. See Rev. Proc. 89-19, this page, this Bulletin. The Service, however, will continue to issue rulings to taxpayers who create trusts that are not substantially similar to the sample trusts.

SEC. 4. SAMPLE CHARITABLE REMAINDER UNITRUST

On this ___ day of ________, 19_____, I, ______________, (hereinafter referred to as "the Donor") desiring to establish a charitable remainder unitrust, within the meaning of Rev. Proc. 89-20 and section 664(d)(2) of the Internal Revenue Code (hereinafter referred to as "the Code") hereby create the ____________ Charitable Remainder Unitrust and designate __________________ as the initial Trustee.

1. *Funding of Trust.* The Donor transfers to the Trustee the property described in Schedule A, and the Trustee accepts such property and agrees to hold, manage and distribute such property of the Trust under the terms set forth in this Trust instrument.

2. *Payment of Unitrust Amount.* The Trustee shall pay to [a living individual] (hereinafter referred to as "the Recipient") in each taxable year of the Trust during the Recipient's life a unitrust amount equal to [*at least five*] percent of the net fair market value of the assets of the Trust valued as of the first day of each taxable year of the Trust (the "valuation date"). The unitrust amount shall be paid in equal quarterly amounts from income and, to the extent that income is not sufficient, from principal. Any income of the Trust for a taxable year in excess of the unitrust amount shall be added to principal. If the net fair market value of the Trust assets is incorrectly determined, then within a reasonable period after the value is finally determined for Federal tax purposes, the Trustee shall pay to the Recipient (in the case of an undervaluation) or receive from the Recipient (in the case of an overvaluation) an amount equal to the difference between the unitrust amount properly payable and the unitrust amount actually paid.

3. *Proration of the Unitrust Amount.* In determining the unitrust amount, the Trustee shall prorate the same on a daily basis for a short taxable year and for the taxable year of the Recipient's death.

4. *Distribution to Charity.* Upon the death of the Recipient, the Trustee shall distribute all of the then principal and income of the Trust (other than any amount due Recipient or Recipient's estate, under paragraphs 2 and 3, above) to __________ (hereinafter referred to as the Charitable Organization). If the Charitable Organization is not an organization described in sections 170(c), 2055(a), and 2522(a) of the Code at the time when any principal or income of the Trust is to be distributed to it, then the Trustee shall distribute such principal or income to such one or more organizations described in sections 170(c), 2055(a), and 2522(a) as the Trustee shall select in its sole discretion.

5. *Additional Contributions.* If any additional contributions are made to the Trust after the initial contribution, the unitrust amount for the year in which the additional contribution is made shall be [*the same percentage as in paragraph 1*] percent of the sum of (a) the net fair market value of the Trust assets as of the first day of the taxable year (excluding the assets so added and any income from, or appreciation on, such assets) and (b) that proportion of the value of the assets so added that was excluded under (a) that the number of days in the period that begins with the date of contribution and ends with the earlier of the last day of the taxable year or the Recipient's death bears to the number of days in the period that begins on the first day of such taxable year and ends with the earlier of the last day in such taxable year or the Recipient's death. In the case where there is no valuation date after the time of contribution, the assets so added shall be valued at the time of contribution.

6. *Prohibited Transactions.* The income of the Trust for each taxable year shall be distributed at such time and in such manner as not to subject the Trust to tax under section 4942 of the Code. Except for the payment of the unitrust amount to the Recipient, the Trustee shall not engage in any act of self-dealing, as defined in section 4941(d), and shall not make any taxable expenditures, as defined in section 4945(d). The Trustee shall not make any investments that jeopardize the charitable purpose of the Trust, within the meaning of section 4944, or retain any excess business holdings, within the meaning of section 4943.

7. *Successor Trustee.* The Donor reserves the right to dismiss the Trustee and to appoint a successor Trustee.

8. *Taxable Year.* The taxable year of the Trust shall be the calendar year.

9. *Governing Law.* The operation of the Trust shall be governed by the laws of the State of __________. However, the Trustee is prohibited from exercising any power or discretion granted under said laws that would be inconsistent with the qualification of the Trust under section 664(d)(2) of the Code and the corresponding regulations.

10. *Limited Power of Amendment.* The Trust is irrevocable. However, the Trustee shall have the power, acting alone, to amend the Trust in any manner required for the sole purpose of ensuring that the Trust qualifies and continues to qualify as a charitable remainder unitrust within the meaning of section 664(d)(2) of the Code.

11. *Investment of Trust Assets.* Nothing in this Trust instrument shall be construed to restrict the Trustee from investing the Trust assets in a manner that could result in the annual realization of a reasonable amount of income or gain from the sale or disposition of Trust assets.

IN WITNESS WHEREOF __________ and __________ [TRUSTEE] by its duly authorized officer have signed this agreement the day and year first above written.

____

[DONOR]

____

[TRUSTEE]

By ______________________________

[Acknowledgements, Witnesses, etc.]

SEC. 5 APPLICATION

The Service will recognize a trust as meeting all of the requirements of a qualified charitable remainder unitrust under section 664(d)(2) of the Code if the trust instrument makes reference to this document and is substantially similar to the sample provided in section 4, provided the trust operates in a manner consistent with the terms of the trust instrument and provided it is a valid trust under applicable local law. A trust that contains substantive provisions in addition to those provided by section 4 (other than provisions necessary to establish a valid trust under applicable local law) or that omits any of these provisions will not necessarily be disqualified, but neither will it be assured of qualification under the provisions of this revenue procedure.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective for ruling requests received in the National Office after February 27, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

---

26 CFR 601.201: Rulings and determination letters. (Also Part I, Sections 170, 664, 2522; 1.170A-6, 1.664-2, 25.2522(c)-3.)

Rev. Proc. 89-21

SECTION 1. PURPOSE

This revenue procedure makes available a sample form of declaration of trust that meets the requirements for a charitable remainder annuity trust as described in section 664(d)(1) of the Internal Revenue Code.

SEC. 2. BACKGROUND

The Internal Revenue Service receives and responds to requests for rulings dealing with the qualification of trusts as charitable remainder trusts and the availability of deductions for contributions made to such trusts. In many of these requests, the trust instruments and charitable objectives are very similar. Consequently, in order to provide a service to taxpayers and to save the time and expense involved in requesting and processing a ruling on a proposed charitable remainder annuity trust, taxpayers who make transfers to a trust that substantially follows the sample trust instrument contained herein can be assured that the Service will recognize the trust as meeting all of the requirements of a charitable remainder annuity trust, provided the trust operates in a manner consistent with the terms of the trust instrument and provided it is a valid trust under applicable local law.

SEC. 3. SCOPE AND OBJECTIVE

The sample declaration of trust made available by section 4 of this revenue procedure meets all of the applicable requirements under section 664(d)(1) of the Code for an inter vivos charitable remainder annuity trust providing for annuity payments during one life, followed by distribution of the trust assets to the charitable remainder beneficiary, if the trust document also creates a valid trust under local law. If the trust instrument makes reference to this revenue procedure and adopts a document substantially similar to the sample, the Service will recognize the trust as satisfying all of the applicable requirements of section 664(d)(1) of the Code and the corresponding regulations. Moreover, for transfers to a qualifying charitable remainder annuity trust, the remainder interest will be deductible under sections 170(f)(2)(A) and 2522(c)(2)(A) for income and gift tax purposes, respectively. Therefore, it will not be necessary for a taxpayer to request a ruling as to the qualification of a substantially similar trust, and the Service generally will not issue such a ruling. See Rev. Proc. 89-19, page 841, this Bulletin. The Service, however, will continue to issue rulings to taxpayers who create trusts that are not substantially similar.

SEC. 4. SAMPLE CHARITABLE REMAINDER ANNUITY TRUST

On this ___ day of _______________, 19___, I, _____________________ (hereinafter referred to as "the Donor") desiring to establish a charitable remainder annuity trust, within the meaning of Rev. Proc. 89-21 and section 664(d)(1) of the Internal Revenue Code (hereinafter referred to as "the Code") hereby create the _____________________ Charitable Remainder Annuity Trust ("the Trust") and designate _______________ as the initial Trustee.

1. *Funding of Trust.* The Donor transfers to the Trustee the property described in Schedule A, and the Trustee accepts such property and agrees to hold, manage and distribute such property of the Trust under the terms set forth in this Trust instrument.

2. *Payment of Annuity Amount.* The Trustee shall pay to [a living individual] (hereinafter referred to as "the Recipient") in each taxable year of the Trust during the Recipient's life an annuity amount equal to [*at least five*] percent of the net fair market value of the assets of the Trust as of this date. The annuity amount shall be paid in equal quarterly amounts from income and, to the extent income is not sufficient, from principal. Any income of the Trust for a taxable year in excess of the annuity amount shall be added to principal. If the net fair market value of the Trust assets is incorrectly determined, then within a reasonable period after the value is finally determined for Federal tax purposes, the Trustee shall pay to the Recipient (in the case of an undervaluation) or receive from the Recipient (in the case of an overvaluation) an amount equal to the difference between the annuity amount(s) properly payable and the annuity amount(s) actually paid.

3. *Proration of the Annuity Amount.* In determining the annuity amount, the Trustee shall prorate the same on a daily basis for a short taxable year and for the taxable year of the Recipient's death.

4. *Distribution to Charity.* Upon the death of the Recipient, the Trustee shall distribute all of the then principal and income of the Trust (other than any amount due Recipient or Recipient's estate under paragraphs 2 and 3, above) to ___________ (hereinafter referred to as the Charitable Organization). If the Charitable Organization is not an organization described in sections 170(c), 2055(a), and 2522(a) of the Code at the time when any principal or income of the Trust is to be distributed to it, then the Trustee shall distribute such principal or income to such one or more organizations described in sections 170(c), 2055(a), and 2522(a) as the Trustee shall select in its sole discretion.

5. *Additional Contributions.* No additional contributions shall be made to the Trust after the initial contribution.

6. *Prohibited Transactions.* The income of the Trust for each taxable year shall be distributed at such time and in such manner as not to subject the Trust to tax under section 4942 of the Code. Except for the payment of the annuity amount to the Recipient, the Trustee shall not engage in any act of self-dealing, as defined in section 4941(d), and shall not make any taxable expenditures, as defined in section 4945(d). The Trustee shall not make any investments that jeopardize the charitable purpose of the Trust, within the meaning of section 4944, or retain any excess business holdings, within the meaning of section 4943.

7. *Successor Trustee.* The Donor reserves the right to dismiss the Trustee and to appoint a successor Trustee.

8. *Taxable Year.* The taxable year of the Trust shall be the calendar year.

9. *Governing Law.* The operation of the Trust shall be governed by the laws of the State of ___________. However, the Trustee is prohibited from exercising any power or discretion granted under said laws that would be inconsistent with the qualification of the Trust under section 664(d)(1) of the Code and the corresponding regulations.

10. *Limited Power of Amendment.* The Trust is irrevocable. However, the Trustee shall have the power, acting alone, to amend the Trust in any manner required for the sole purpose of ensuring that the Trust qualifies and continues to qualify as a charitable remainder annuity trust within the meaning of section 664(d)(1) of the Code.

11. *Investment of Trust Assets.* Nothing in this Trust instrument shall be construed to restrict the Trustee from investing the Trust assets in a manner that could result in the annual realization of a reasonable amount of income or gain from the sale or disposition of Trust assets.

IN WITNESS WHEREOF __________ and _____________ [TRUSTEE] by its duly authorized officer have signed this agreement the day and year first above written.

[Acknowledgements, Witnesses, etc.]

SEC. 5. APPLICATION

The Service will recognize a trust as meeting all of the requirements of a qualified charitable remainder annuity trust under section 664(d)(1) of the Code if the trust instrument makes reference to this document and is substantially similar to the sample provided in section 4, provided the trust operates in a manner consistent with the terms of the trust instrument and provided it is a valid trust under applicable local law. A trust that contains substantive provisions in addition to those provided by section 4 (other than provisions necessary to establish a valid trust under applicable local law) or that omits any of these provisions will not necessarily be disqualified, but neither will it be assured of qualification under the provisions of this revenue procedure.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective for ruling requests received in the National Office after February 27, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

---

26 CFR 601.201. Rulings and determination letters.

Rev. Proc. 89-22

SECTION 1. BACKGROUND

Rev. Proc. 89-3, page 761, this Bulletin, sets forth areas in which advance rulings or determination letters will not be issued by the Internal Revenue Service. Section 5 of Rev. Proc. 89-3 is entitled "Areas Under Extensive Study In Which Rulings Or Determination Letters Will Not Be Issued Until The Service Resolves The Issue Through Publication Of A Revenue Ruling, Revenue Procedure, Regulations Or Otherwise."

SEC. 2. PROCEDURE

Rev. Proc. 89-3 is amplified by adding to section 5 the following new paragraph:

Sections 83 and 451.—Property Transferred in Connection with Performance of Services; General Rule for Taxable Year of Inclusion.—When compensation is realized by a person who, in connection with the performance of services, is granted a nonstatutory option without a readily ascertainable fair market value to purchase stock at a price that is less than the fair market value of the stock on the date the option is granted.

SEC. 3. EFFECTIVE DATE

This revenue procedure applies to all ruling requests on hand in the National Office on March 6, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin, as well as to requests received thereafter.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is amplified.

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.
(Also Part I, Sections 170, 509; 1.170A-9, 1.509(a)-3.)

Rev. Proc. 89-23

SECTION 1. PURPOSE

The purpose of this revenue procedure is to set forth guidelines under which grant-making private foundations will not be considered to be responsible for substantial and material changes in the sources of financial support of recipient organizations that are described in sections 170(b)(1)(A)(vi) or 509(a)(2) of the Internal Revenue Code.

SEC. 2. BACKGROUND

01. Generally, under sections 1.170A-9(e)(4)(v)(b), 1.170A-9(e)(5)(iii)(c), 1.509(a)-3(c)(1)(iii), and 1.509(a)-3(e)-(3) of the Income Tax Regulations, when an organization has received a ruling or determination letter, or an advance ruling or determination letter, that it has been classified as a publicly supported organization described in sections 170(b)(1)-(A)(vi) or 509(a)(2) of the Code, the treatment of grants and contributions and the status of grantors and contributors to the organization under sections 170, 507, 545(b)(2), 556(b)(2), 642(c), 4942, 4945, 2055, 2106(a)(2), and 2522 will not be affected by a subsequent loss of classification as a publicly supported organization until notice of loss of classification is published. However, a grantor or contributor may not rely on such an organization's classification if the grantor or contributor is responsible for or aware of a substantial and material change in the organization's sources of support that subsequently results in the organization's loss of classification as a publicly supported organization. For example, a substantial and material change in sources of support may result from the receipt of an unusually large contribution that does not qualify as an unusual grant under sections 1.170A-9(e)(6)(ii) or 1.509(a)-3(c)(3). See Sec. 2.01 of Rev. Proc. 81-6, 1981-1 C.B. 620.

02. If in any taxable year there is a substantial and material change in an organization's sources of support, the computation period used to determine whether the organization meets the requirements of the section 170(b)(1)(A)-(vi) or 509(a)(2) financial support tests consists of the taxable year in question and the four immediately preceding taxable years rather than the four immediately preceding taxable years. If an organization has been in existence for less than five taxable years, the computation period consists of the taxable year in question and the number of years preceding that taxable year that the organization has been in existence. This computation period is in lieu of the usual computation period rules. See sections 1.170A-9(e)-(4)(v) and 1.509(a)-3(c)(1)(ii) of the regulations and Sec. 2.02 of Rev. Proc. 81-6.

03. Gifts, grants and contributions made by a private foundation to another private foundation are not qualifying distributions under section 4942(g) of the Code unless the recipient is either (i) an operating foundation under section 4942(j)(3) or (ii) a pass-through foundation under section 4942(g)(3) from which the grantor obtains the records required by section 4942(g)(3)(B). Therefore, a private foundation may not be able to count a grant, for instance, as a qualifying distribution if the grant causes the recipient organization to loss its classification as a public charity.

04. Gifts, grants and contributions made by a private foundation to another private foundation are taxable expenditures under section 4945(d)(4) of the Code unless either (i) the recipient is an exempt operating foundation under section 4940(d)(2) or (ii) the grantor exercises expenditure responsibility under section 4945(h). Therefore, a private foundation may be subject to the section 4945(a) tax on taxable expenditures if it has not followed the expenditure responsibility requirements of section 4945(d)-(4) in regard to a grant that causes the recipient organization to lose its classification as a public charity.

05. Rev. Proc. 81-6 set forth guidelines under which a grantor or contributor will not be considered to be responsible for substantial and material changes in an organization's sources of support. Generally, these guidelines provide that a grantor or contributor will not be considered to be responsible for a substantial and material change in an organization's support if the aggregate of gifts, grants, or contributions received from such grantor or contributor for a taxable year is 25 percent or less of the aggregate support received by the donee organization from all sources other than that donor for the four taxable years immediately preceding such taxable year, or, if the donee organization has been in existence for fewer than five taxable years, the number of years for which the organization has been in existence prior to the taxable year being tested.

06. In 1984, Congress directed the Treasury Department to amend its regulations to permit greater reliance by private foundations on Internal Revenue Service classifications of new organizations in the first five years of their existence and in any other circumstances in which Treasury concludes that greater reliance is appropriate. H.R. Conf. Rep. No. 861, 98th Cong., 2d Sess. 1090 (1984), 1984-3 (Vol. 2) C.B. 344. Pending the issuance of regulations implementing the above directions, the Internal Revenue Service will follow the guidelines set forth below.

SEC. 3. GUIDELINES

01. Private foundations may continue to rely on the status of recipient organizations that have received rulings or determination letters to the extent provided in sections 1.170A-9(e)(4)(v)(b) and 1.509(a)-3(c)(1)(iii) of the regulations, and on the status of recipient organizations that have received advance rulings or determination letters to the extent provided in sections 1.170A-9(e)-(5)(iii)(c) and 1.509(a)-3(e)(3).

02. All grantors and contributors, including private foundations, may continue to rely on the guidelines set forth in Rev. Proc. 81-6.

03. In addition, a private foundation's gift, grant or contribution will not cause the private foundation to be considered to be responsible for, or aware of, a sub-

stantial and material change in the recipient organization's sources of support that results in the loss of the recipient organization's status under sections 170(b)(1)(A)(vi) or 509(a)(2) of the Code if the following conditions are met at the time of the making of the gift, grant or contribution:

(1) The recipient organization has received a ruling or determination letter, or an advance ruling or determination letter, that it is described in sections 170(b)(1)(A)(vi) or 509(a)(2);

(2) Notice of a change of the recipient organization's status under sections 170(b)(1)(A)(vi) or 509(a)(2) has not been made to the public (such as by publication in the Internal Revenue Bulletin), and the private foundation has not acquired knowledge that the Internal Revenue Service has given notice to the recipient organization that it will be deleted from such status; and

(3) The recipient organization is not controlled directly or indirectly by the private foundation. A recipient organization is controlled by a private foundation for this purpose if the private foundation and disqualified persons (defined in section 4946(a)(1)(A) through (G)) with reference to the private foundation, by aggregating their votes or positions of authority, may require the recipient organization to perform any act which significantly affects its operations or may prevent the recipient organization from performing such act.

SEC. 4 AREAS NOT COVERED BY THIS REVENUE PROCEDURE

01. This revenue procedure does not apply to situations in which gifts, grants, or contributions are made by persons other than private foundations.

02. This revenue procedure does not affect Rev. Proc. 81-7, 1981-1 C.B. 621, under which grants will be considered to be unusual grants.

SEC. 5. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 81-6, 1981-1 C.B. 620, is amplified.

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective for grants made after March 13, 1989.

---

26 CFR 601.403: Miscellaneous excise taxes collected by return.

Rev. Proc. 89-24

SECTION 1. PURPOSE

This revenue procedure provides instructions for claiming a refund of an overpayment of excise tax on insurance policies when the claim is based on the provisions of the Convention Between The Government Of The United Kingdom Of Great Britain And Northern Ireland (On Behalf Of The Government Of Bermuda) And The Government Of The United States Of America Relating To The Taxation Of Insurance Enterprises And Mutual Assistance In Tax Matters (the "Treaty"), signed at Washington, D.C. on July 11, 1986, and effective January 1, 1986 with respect to the excise tax on certain insurance premiums.

SECTION 2. BACKGROUND

.01 Section 4371 of the Internal Revenue Code of 1986* imposes a tax on each policy of insurance or reinsurance issued by any foreign insurer or reinsurer.

.02 Section 4374 of the Code provides that the tax imposed by section 4371 shall be paid by any person who makes, signs, issues, or sells any of the documents and instruments subject to the tax, or for whose use or benefit the same are made, signed, issued or sold.

.03 Section 46.4374-1(a) of the Excise Tax Regulations provides that, in the case of premiums paid on or after January 1, 1966, the tax imposed by section 4371 of the Code shall be paid on the basis of a return. Such tax shall be remitted by the person who makes the payment of the premium to a foreign insurer or reinsurer or to any nonresident agent, solicitor, or broker. The phrase "person who makes the payment" means the resident person who actually transfers the money, check, or its equivalent to the foreign insurer or reinsurer (including transfers to any bank, trust fund, or similar recipient designated by the foreign insurer or reinsurer), or to any nonresident agent, solicitor, or broker.

.04 Pursuant to Article 4(1) of the Treaty, policies issued by an insurer or reinsurer that is a resident of Bermuda may be exempt from the tax imposed by section 4371 of the Code. This exemption applies to certain insurance premiums paid or credited on or after January 1, 1986. However, the exemption from excise tax available under Article 4(1) of the Treaty does not apply to premiums allocable to insurance coverage for periods beginning on or after January 1, 1990. Senate Resolution of Ratification (Oct. 21, 1988); *cf.* Technical and Miscellaneous Revenue Act of 1988, P.L. No. 100-647, section 6139, 102 Stat. 3342 (1988).

SECTION 3. REQUIREMENTS FOR REFUND OF EXCISE TAX

.01 A refund of section 4371 tax may be claimed only if the tax was attributable to a premium paid or credited to a Bermuda insurer or reinsurer who is certified by the Bermuda Registrar of Companies as having been a resident of Bermuda for the entire taxable period for which the refund is sought. Such certification may be in the form of a list compiled by the Registrar of Companies of all insurers or reinsurers that were residents on or after January 1, 1986. A copy of such a list or of an individual certification must be filed with any claim for refund of the insurance premium excise tax. For purposes of this revenue procedure, "taxable period" means the quarter (or part of a quarter) for which a return was filed reporting and paying the insurance premium excise tax for which the refund is sought.

.02 A refund of section 4371 tax may not be claimed with respect to premiums paid or credited to a Bermuda insurer or reinsurer to the extent that the risks covered by the premiums were reinsured by the Bermuda insurer or reinsurer with a person not entitled to the benefits of the Treaty or any other convention that provides an exemption for these taxes (Article 4(6) of the Treaty).

.03 A refund of section 4371 tax may be claimed with respect to premiums paid or credited to a Bermuda insurer or reinsurer only if at all times during the taxable period more than 50 percent of the number of shares of each class of the company's shares is owned, directly or indirectly, by one or more individual residents of Bermuda or the United States or citizens of the United States (Article 4(3)(a) of the Treaty). In applying this test, shares that are not registered to a named shareholder (that is, bearer shares) will be considered as owned by an individual who is neither a resident of Bermuda nor a citizen or resident of the United States.

*Any reference to the Internal Revenue Code of 1986 includes the Internal Revenue Code of 1954.

.04 A refund of section 4371 tax may not be claimed with respect to premiums paid to a Bermuda insurer or reinsurer if its income for the taxable period for which a refund is sought was used in substantial part, directly or indirectly, to make distributions with respect to beneficial ownership interests and are substantially disproportionate to such interests, or to meet liabilities to persons who were neither residents of Bermuda nor citizens or residents of the United States (Article 4(3)(b) of the Treaty).

For purposes of this test, the term "liabilities" refers to payments that reduce gross premiums or are deductible against gross income, including interest, royalties, and premiums paid in connection with reinsuring risks. To determine whether a taxpayer has paid a substantial part of its income to persons who were neither residents of Bermuda nor citizens or residents of the United States, the following computation is made on either an accrual or cash basis depending on the method of accounting that the taxpayer normally uses to keep its books and records:

Line 1 -Compute reinsurance premiums paid or accrued to all persons.

Line 2 -Compute gross premiums received or accrued.

Line 3 -Compute return premiums paid or accrued.

Line 4 -Subtract line 3 from line 2.

Line 5 -Divide the number from line 4 into the number from line 1.

Line 6 -Compute all liabilities paid to all persons. Do not include reinsurance premium liabilitiesc.

Line 7 -Add lines 3 and 1.

Line 8 -Subtract the number in line 7 from line 2.

Line 9 -Compute total gross income from non-insurance activities.

Line 10-Add lines 8 and 9.

Line 11-Divide the number in line 10 into the number from line 6.

Line 12-Add lines 11 and 5.

If line 12 is equal to or less than .50, the Service will generally not consider a taxpayer to have paid a substantial part of its income to meet liabilities to persons who were neither residents of Bermuda nor citizens or residents of the United States.

In the case of the payment of liabilities test set forth above, a lesser percentage may be applied upon examination.

.05 A refund of section 4371 tax may not be claimed with respect to premiums paid to a Bermuda insurer or reinsurer unless (1) the insurance premiums constitute income of an insurance company that was a controlled foreign corporation within the meaning of section 957(b) of the Code for the relevant taxable period; or (2) the insurance premiums constituted income of an insurance company that was subject to the rules of section 953(c) and was a controlled foreign corporation within the meaning of section 957(a), as modified by section 953(c)(1), and the premiums constituted related person insurance income within the meaning of section 953(c).

A refund of section 4371 tax may only be claimed with respect to premiums and tax paid or credited on or before December 31, 1989, for insurance coverage for periods prior to January 1, 1990.

SECTION 4. REFUND PROCEDURE

.01 A refund of section 4371 tax attributable to premiums paid to a Bermuda insurer or reinsurer may be claimed by either the Bermuda insurer or reinsurer, or by the United States insured or broker that reported and paid the tax to the Service, but not by both. No claim for refund will be paid or credited by the Internal Revenue Service, unless a Statement Under Penalties Of Perjury In Support Of Claim For Refund Of Insurance Premium Excise Tax described in sections 4.03 and 4.04 of this revenue procedure, whichever is applicable, is filed with the claim for refund.

.02 A claim filed by the Bermuda insurer or reinsurer for refund of insurance premium excise taxes must include a copy of a residency certificate issued by the Registrar of Companies establishing that the insurer or reinsurer was a resident of Bermuda for each quarter for which refund is claimed. In lieu of an individual certificate, the claimant may attach a list, prepared by the Registrar of Companies, of companies that were residents of Bermuda establishing that the claimant was a Bermuda resident for each quarter for which refund is claimed.

The claim for refund must include a list of names and addresses of the claimant's shareholders (or policyholders in the case of a mutual company), including, in the event that any direct shareholders (or policyholders in the case of a mutual company) are persons other than individuals, the names and addresses of those individuals who hold shares indirectly through such direct shareholders or policyholders. However, in the case of a claimant or shareholder of a claimant the principal class of shares of which are subject to substantial and regular trading on a recognized stock exchange in the United States or Bermuda, the names and addresses of individual beneficial owners need not be provided. The claim for refund must also include, with respect to each quarter for which refund is sought, information as to the percentage of outstanding shares of each class of stock owned by each shareholder and the computation described in section 3.04 of this revenue procedure.

In addition, the claim for refund must include information to establish that the Bermuda insurer or reinsurer was a controlled foreign corporation within the meaning of section 957(b) or section 953(c) of the Code, and that the income was treated as subpart F income to the United States shareholders of the Bermuda insurer or reinsurer.

The claim for refund must include information to enable the Service to identify the tax account(s) to which the excise tax for which a refund is sought was deposited at the time of payment. At a minimum, this information must include a schedule of the names, addresses, and taxpayer identification numbers of the person or persons filing the return on which the excise tax was reported; policy numbers; amount of taxable premiums per policy by quarter; amount of tax paid per quarter; and amount of refund requested per quarter. In addition, a claim must include the name, address, and taxpayer identification number of each insured; the policy number and term; the date the premium was paid; the amount of the premium; the amount of the excise tax paid on the premium; and the date the tax was paid to the Internal Revenue Service.

.03 A claim for refund filed by a Bermuda insurer or reinsurer must include, in addition to the documents and information required by section 4.02 of this revenue procedure, the following Statement Under Penalties of Perjury:

STATEMENT UNDER PENALTIES OF PERJURY IN SUPPORT OF CLAIM FOR REFUND OF INSURANCE PREMIUM EXCISE TAX

Under penalties of perjury, (Name and address of Bermuda insurer or reinsurer claiming refund); and (name(s), address(es), and taxpayer identification number(s) of United States insured(s) [and/or broker(s)] that reported and paid the tax for which refund is sought) represent:

(1) That this Statement is filed in support of a claim for refund of insurance premium excise tax imposed by section 4371 *et seq.* of the Internal Revenue Code of 1986*, pursuant to the exemption provided by Article 4 of the United States-Bermuda Insurance Enterprises and Mutual Assistance Tax Treaty ("Treaty"), as modified by the Senate reservation;

(2) That (Name of Bermuda insurer or reinsurer) was eligible for benefits under the Treaty for the quarters ended ________________________;

(3) That none of the risks for which premiums were paid by the insured(s) [and/or broker(s)] and for which claims for refund of the excise tax have been filed, were reinsured with a person not entitled to exemption from such tax under the Treaty or another treaty that applies to such taxes;

(4) That the United States insured(s) [and/or broker(s)] withheld the following insurance premium excise tax from the premiums paid to (name of Bermuda insurer or reinsurer) [or paid the following insurance premium excise tax on the premiums paid to (name of Bermuda insurer or reinsurer)] and filed Quarterly Federal Excise Tax Returns, Forms 720, reporting and paying such tax to the Internal Revenue Service:

Insured's [and/or Broker's] Name

Quarter	Amount of Tax Paid

(5) That the Bermuda insurer or reinsurer and the insured(s) [and/or broker(s)] request refund of the insurance premium excise tax that has been reported and paid to the Internal Revenue Service for quarters ended ________________________;

(6) That the Bermuda insurer or reinsurer has timely filed one or more Claim, Form 843, for refund of the insurance premium excise tax;

(7) That the Bermuda insurer or reinsurer has filed powers of attorney from the insured(s) [and/or broker(s)] specifically authorizing the Internal Revenue Service to mail to the representative of the Bermuda insurer or reinsurer any check for refund resulting from allowance of the claim filed for insurance premium excise tax (*see* Statement of IRS Procedural Rules, §601.506(b)(1));

(Name of Bermuda insurer or reinsurer) and (name(s) of United States insured(s) and/or broker(s)) agree:

(1) That the sole person(s) beneficially entitled to refund of the insurance premium excise tax for quarters ended ____________________, is (are) the insured(s) [and/or broker(s)] [or that the sole person beneficially entitled to refund of the insurance premium excise tax for quarters ended ________________, is the Bermuda insurer or reinsurer].

(2) That neither (name of Bermuda insurer or reinsurer) and (name(s) of the insured(s) [and/or broker(s)]) nor any other person affiliated with them will make any claim outside this Agreement with respect to refund of the amount of insurance premium excise tax claimed in any Form 843 filed in connection with this Agreement.

(3) That any refund of tax, plus statutory interest, made by the Internal Revenue Service resulting from allowance of the claim for refund of insurance premium excise tax filed by the Bermuda insurer or reinsurer will be mailed to the insured(s) [and/or broker(s)] in care of the representative of the Bermuda insurer or reinsurer in accordance with the power of attorney that the insured(s) [and/or broker(s)] have given to such representative;

(4) That, for purposes of Internal Revenue Service verification of any or all facts and representations made in connection with the claim for refund of the insurance premium excise tax, the Bermuda insurer or reinsurer and the insured(s) [and/or broker(s)] will maintain for a period of 5 years from the date of this Agreement, accounts and records of items of insurance and reinsurance that will be made available upon written request by the Internal Revenue Service at the place mutually agreed upon by the Service and the Bermuda insurer or reinsurer and the insured(s) [and/or broker(s)]. The Bermuda insurer or reinsurer will also maintain for 5 years and make available for inspection records to establish eligibility for Treaty benefits, including records about the ownership of its outstanding stock as described in section 3.03 of this revenue procedure; about payment of liabilities as described in section 3.04 of this revenue procedure; and to confirm that its premium income received from the insured(s) [and/or broker(s)] was treated as subpart F income to United States shareholders of the Bermuda insurer or reinsurer as described in section 3.05 of this revenue procedure.

Under penalties of perjury, the undersigned representatives of [name of Bermuda insurer or reinsurer] and [names of insured(s) and/or broker(s)] declare that they have examined this Statement, including accompanying documents, and, to the best of their knowledge and belief, the facts presented in the Statement and documents are true, correct, and complete.

IN WITNESS WHEREOF, the above parties have subscribed their names to these presents, in triplicate.

Signed this (Date) day of (Month), (Year)

.04 A refund claim filed by the insured(s) and/or broker(s) must include, in addition to the documents and information required by section 4.02 of this revenue procedure, the following Statement Under Penalties of Perjury:

STATEMENT UNDER PENALTIES OF PERJURY IN SUPPORT OF CLAIM FOR REFUND OF INSURANCE PREMIUM EXCISE TAX

Under penalties of perjury, (Name, address, and taxpayer identification number of United States insured or broker that reported and paid the tax for which refund is sought and that filed the claim for refund) (hereinafter "taxpayer"); and (name and address of Bermuda insurer or reinsurer to which the premiums were paid) represent:

(1) That this Statement is filed in support of a claim for refund of insurance premium excise tax imposed by section 4371 *et seq.* of the Internal Revenue Code of 1986*, pursuant to the exemption provided by Article 4 of the United States-Bermuda Insurance Enterprises and Mutual Assistance Tax Treaty ("Treaty"), as modified by the Senate reservation;

(2) That (name of Bermuda insurer or reinsurer) was eligible for benefits under the Treaty for the quarters ended ________________________;

(3) That none of the risks for which premiums were paid by the taxpayer and for which claims for refund of the excise tax

*Any reference to the Internal Revenue Code of 1986 includes the Internal Revenue Code of 1954.

*Any reference to the Internal Revenue Code of 1986 includes the Internal Revenue Code of 1954.

have been filed, were reinsured with a person not entitled to exemption from such tax under the Treaty or another treaty that applies to such taxes;

(4) That the taxpayer withheld the following insurance premium excise tax from the premiums paid to (name of Bermuda insurer or reinsurer) [or paid the following insurance premium excise tax on the premiums paid to (name of Bermuda insurer or reinsurer)] and filed Quarterly Federal Excise Tax Returns, Form 720, reporting and paying such tax to the Internal Revenue Service:

Taxpayer's Name	Quarter	Amount of Tax Paid

(5) That the taxpayer and the Bermuda insurer or reinsurer request refund of the insurance premium excise tax that has been reported and paid to the Internal Revenue Service for quarters ended ______________;

(6) That the taxpayer has timely filed one or more Claim, Form 843, for refund of the insurance premium excise tax;

(Name of United States insured or broker) and (name of Bermuda insurer or reinsurer) agree:

(1) That the sole person beneficially entitled to refund of the insurance premium excise tax for quarters ended ______________, is the taxpayer [or that the sole person beneficially entitled to refund of the insurance premium excise tax for quarters ended ______________, is the Bermuda insurer or reinsurer].

(2) That neither (name of Bermuda insurer or reinsurer) and (name(s) of the insured(s)[and/or broker(s)]) nor any person affiliated with them will make any claim outside this Agreement with respect to refund of the amount of insurance premium excise tax claimed in any Form 843 filed in connection with this Agreement.

(3) That any refund of tax, plus statutory interest, made by the Internal Revenue Service resulting from allowance of the claim for refund of insurance premium excise tax filed by taxpayer will be made to taxpayer.

(4) That, for purposes of Internal Revenue Service verification of any or all facts and representations made in connection with the claim for refund of the insurance premium excise tax, the taxpayer and the Bermuda insurer or reinsurer will maintain for a period of 5 years from the date of this Agreement, accounts and records of items of insurance and reinsurance that will be made available upon written request by the Internal Revenue Service at the place mutually agreed upon by the Service and the taxpayer and the Bermuda insurer or reinsurer. The Bermuda insurer or reinsurer will also maintain for 5 years and make available for inspection records to establish eligibility for Treaty benefits, including records about the ownership of its outstanding stock as described in section 3.03 of this revenue procedure; about payment of liabilities as described in section 3.04 of this revenue procedure; and to confirm that its premium income received from the taxpayer was treated as subpart F income to the United States shareholders of the Bermuda insurer or reinsurer, as described in section 3.05 of this revenue procedure.

Under penalties of perjury, the undersigned representative of [name of Bermuda insurer or reinsurer] and [names of insured(s) and/or broker(s)] declare that they have examined this Statement, including accompanying documents, and, to the best of their knowledge and belief, the facts presented in the Statement and documents are true, correct, and complete.

IN WITNESS WHEREOF, the above parties have subscribed their names to these presents, in triplicate.

Signed this (Date) day of (Month), (Year)

.05 Any taxpayer or Bermuda insurer or reinsurer requesting a refund of insurance premium excise tax should submit a Claim, Form 843, in accordance with this revenue procedure, to the following address

Philadelphia Service Center
P.O. Box 245
Bensalem, PA 19020
Drop Point 102C

The claim must be accompanied by the required Statement and two copies of the Certificate of residency, or a list of resident insurance companies, issued by the Registrar of Companies of Bermuda.

SECTION 5. EFFECTIVE DATE

This revenue procedure is effective March 20, 1989, the date of its publication in the Internal Revenue Bulletin.

26 CFR 601.601: Rules and regulations.

Rev. Proc. 89-25

CONTENTS

PART B. MAGNETIC TAPE SPECIFICATIONS

PART A. GENERAL

SECTION 1. PURPOSE

.01 The purpose of this Revenue Procedure is to provide the requirements and conditions for filing pre-offset address request, annual certification, weekly update and agency address records on magnetic tape for federal debts which are eligible for the Federal Income Tax Refund Offset Program. This Revenue Procedure is issued under the authority contained in Section 7805 of the Internal Revenue Code of 1954 (68A STAT. 1153; 26 U.S.C 7805) and in Section 3720A of Subchapter 37 of Title 31 United States Code (98 STAT. 1153; 31 U.S.C. 3720A). See Exhibit A.1-1 for overview of project. The authorizations for the Refund Offset Program are as follows:

1. Deficit Reduction Act of 1984 - PL 98 369; Section 2653

2. Omnibus Budget Reconciliation Act of 1987 - PL 97-35; Section 2331

3. Child Support Enforcement Amendments of 1984, PL 98-378; Section 21

4. 26 U.S.C. 6402 (c)(d)

5. The Family Support Act of 1988, H.R. 1720

.02 Included in this Revenue Procedure are requirements for:

(a) submitting Pre-Offset Address Request records to secure the address from the taxpayer's latest income tax return to be used by the agency when notifying a taxpayer of a potential offset.

(b) submitting Annual Certification records for inclusion on the Debtor Master File.

(c) submitting Federal Agency's addresses and contacts on magnetic tape for inclusion on IRS offset notices to taxpayers.

(d) submitting Weekly Updates to 1) delete or decrease a previously certified debt or 2) indicate that the federal agency has refunded a previous federal income tax refund offset to a taxpayer.

.03 The Internal Revenue Service (IRS), upon receipt of Annual Certification records, will mark matching individual taxpayer accounts to prohibit refunding of overpayments to the taxpayer. When refundable credits (usually resultant from the filing of a current year tax return) are processed, an offset record is generated to the agency for the amount of obligation or the amount of the refund, whichever is less. This offset record will also reflect current taxpayer identifying information valid for the offset tax year, *i.e.*, SSN, name(s), and current address. Claims may be filed by an "injured spouse" to recover their portion of any joint overpayment which is not subject to offset by submitting Form 1040X and Form 8379.

.04 See Section 12 Part A for Information regarding Disclosure and Safeguards Requirements. .05 Specifications for the following agency submitted records are contained in this Revenue Procedure:

(a) Transmitter-Annual Pre-Offset Address Request Record

(b) Transmitter-Annual Pre-Offset Data Control Record

(c) Transmitter-Annual Certification Record

(d) Transmitter-Annual Certification Data Control Record

(e) Transmitter-Agency Address Record

(f) Transmitter-Agency Address Data Control Record

(g) Transmitter-Weekly Update Record

(h) Transmitter-Weekly Update Data Control Record

.06 Specifications for the following IRS records returned to the Federal Agency are contained in this Revenue Procedure:

(a) Service-Annual Pre-Offset Unprocessable Record

(b) Service-Annual Pre-Offset Address Request Record

(c) Service-Annual Pre-Offset Data Control Record

(d) Service-Annual Unprocessable Certification Record

(e) Service-Annual No Match Record

(f) Service-Annual No Match Data Control Record

(g) Service-Weekly Unprocessable Update Record

(h) Service-Weekly Collection (Offset/Claim) Record

(i) Service-Weekly Collection (Offset/Claim) Data Control Record

.07 Specifications for Header records are contained in Section 22 for Transmitter files and Section 23 for IRS files.

SEC. 2. NATURE OF CHANGES

.01. A new post office box has been assigned just for DMF. (P.O. Box 909 Kearneysville, WV. 25430)

.02. The addition of a milestone activity chart. (Part A. Sect. 4)

.03. The addition of a deceased indicator. (Part A. Sect. 3, Sect. 7.06), (Part B. Sect. 8,13)

.04. The addition of a Judgement Debt Indicator. (Part A. Sect. 3), (Part B. Sect. 5,10)

.05. The Delinquent Date definition has been reworded. (Part A. Sect. 3)

.06. The Agency Location Code definition is reworded. (Part A. Sect. 3)

.07. The Spousal Claim definition is reworded (Part A. Sect. 3) The explanation concerning injured spouse claims has been reworded. (Part A. Sect. 10.05)

.08. The symbols for the DMF Project Staff have been changed to TR:R:A.

.09. The current CP 47 is included (Overpaid Tax applied to Past-Due Obligation). Exhibit A.10-4. Offset Notice (Part A. Sect. 10)

.10. There is a requirement now to write in the replacement tape number on the transmittal letter. Exhibit A.4-1. Transmittal Letter. (Part A. Sect. 4.08)

.11. The Reporting schedule has been updated to reflect the 1989 shipping dates. (Part A. Sect. 4.01)

.12. Field Name in Service-Weekly Collection Data Control Record changed from ''Transfer Amount'' to ''Excess Offset Amount''.

.13. New refund adjustment record processing, TC 131 type 2 record. (Part B. Sect. 17), (Part B. Sect. 18), (Part. B. Sect. 19)

.14. Authorizations for the Refund Offset Program. (Part A. Sect. 1)

.15. Problem Case Referral Form added. Exhibit A.11-1. (Part A. Sect. 11.03))

.16. All references to NCC and National Computer Center have been changed to MCC and Martinsburg Computing Center.

.17. The Spousal Definition was changed. (Part A. Sect. 3)

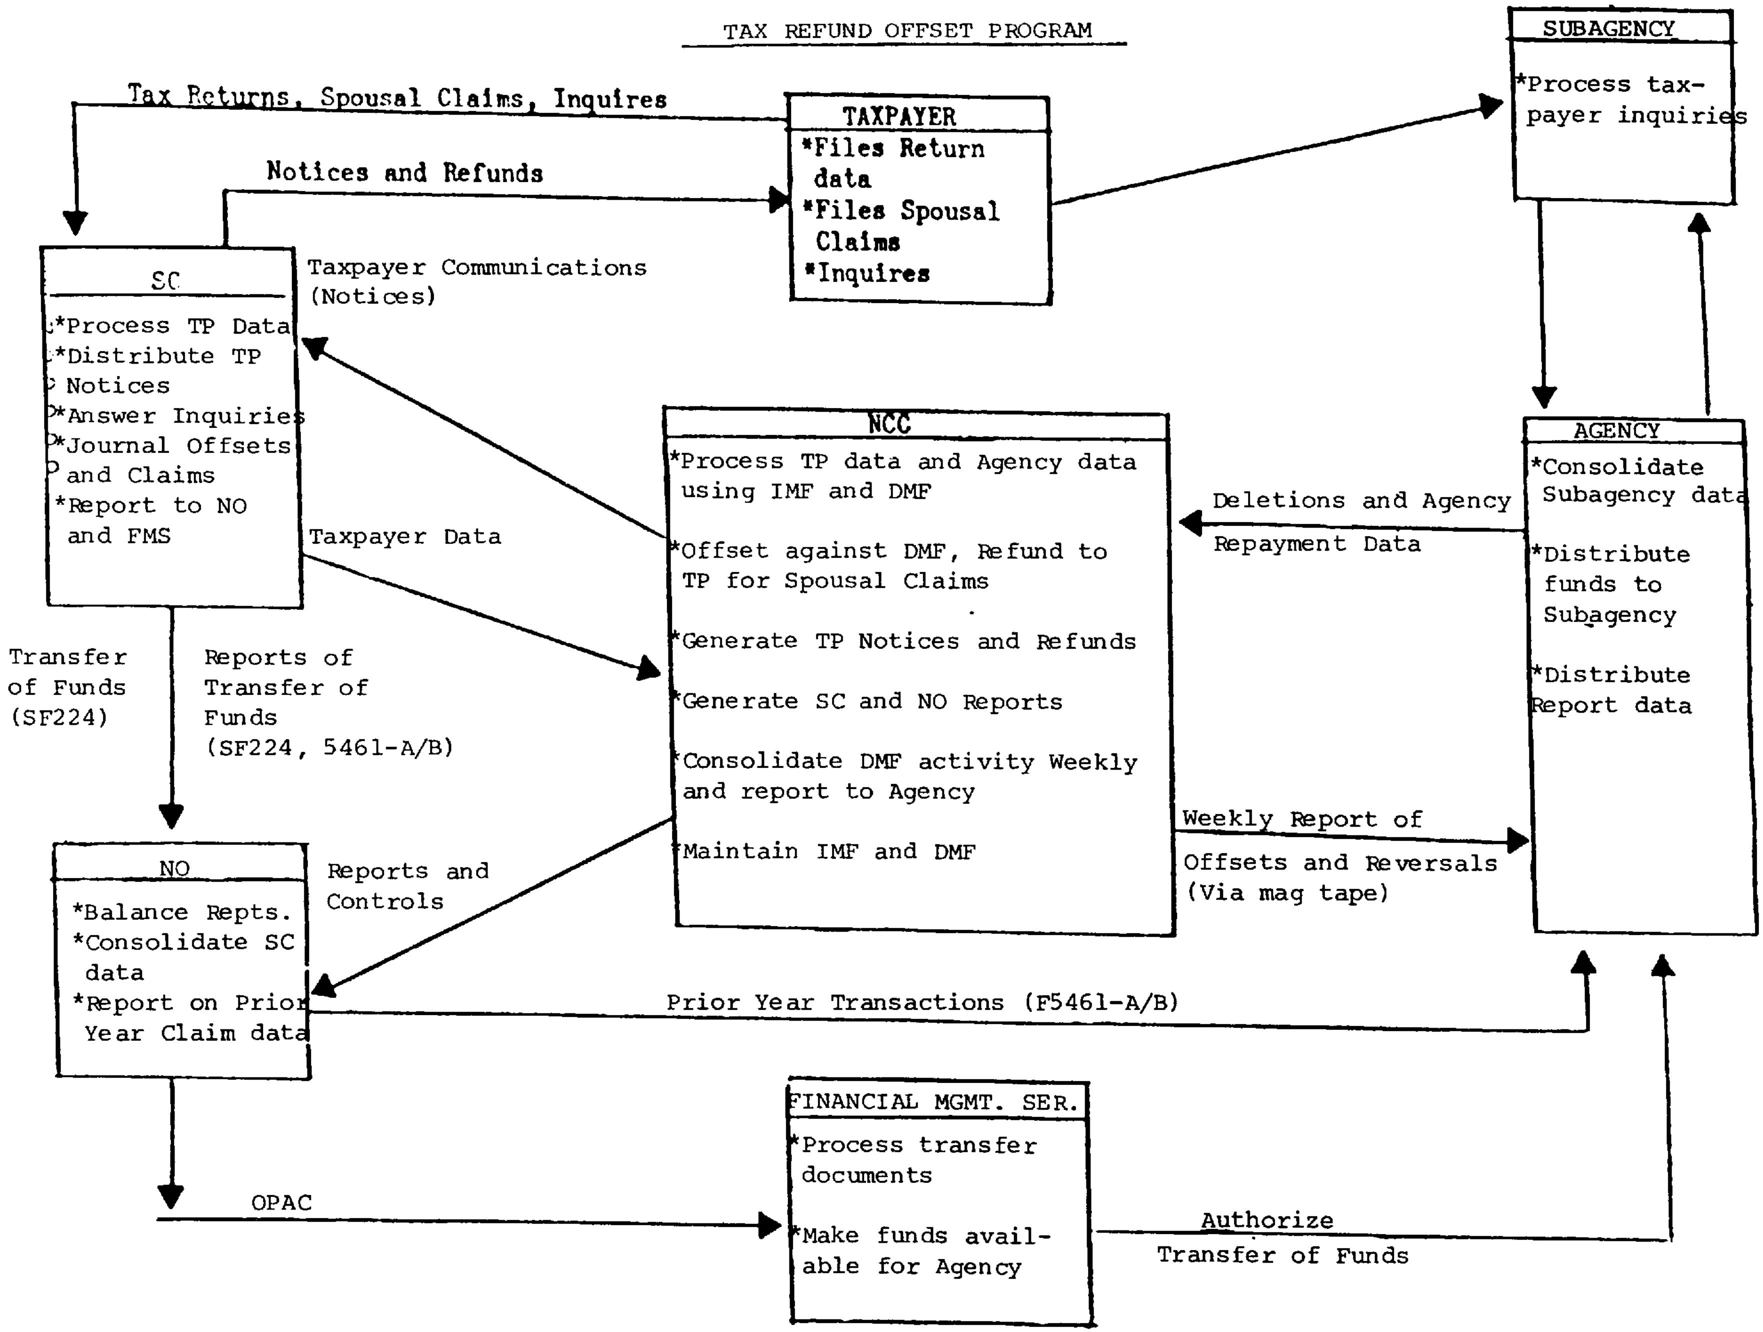
.18. Added line to backup file explanation, but not concerning form 3220. (Part A. Sect. 5.05)

.19 Various editorial changes.

Exhibit A.1-1

WEEKLY PROCESSING

TAX REFUND OFFSET PROGRAM



SEC. 3. DEFINITIONS

ELEMENT	DESCRIPTION
Agency Code	This is a two digit numeric code assigned by IRS to identify the Federal Agency involved. The term "agency", as used in this document, is meant to be the Department level within the Federal Government. One agency code will be assigned to an Agency (Department). Different functions within a Department may be assigned a sub-agency code or a series of sub-agency codes (see definition below). Records submitted for a unique agency code must be consolidated prior to being sent to IRS. IRS will return consolidated records to a single Data Processing center.
Agency Case Number	This is the identifying number of the obligor's file at the submitting agency. Field is optional. Use is recommended when an agency does not use the SSN as the primary account/case number.
Agency Locator Code(ALC)	The Agency Location Code is a unique identifier assigned to every government agency for the purpose of reporting receipts and disbursments for each agency. An ALC is necessary to participate in the OPAC system.
Deceased Indicator	An indicator set by the IMF to show that the obligor is deceased.
Delinquent Date	Date the obligation became delinquent. Certification records with a delinquent date 10 yrs old or more by the first offset cycle effective date will be returned (except OCSE Debts and Judgement Debts)
DMF Account	A record that has been created as a result of certification by a federal agency's claim that has matched an account on the Individual Master File. This record consists of an entity section and at least one agency subsection.
File	For the purpose of this revenue procedure, a file consists of all tape records submitted by a Transmitter.
GOALS	The Government On-Line Accounting Link System is an automated accounting system designed by the Department of Treasury through which federal agencies can transmit and receive accounting and financial data.
IMF	The Individual Master File is a comprehensive file containing entity information and transaction activity for each individual taxpayer account.
Invalid Segment	The portion of the IMF which contains all SSN's which are currently considered invalid. Records submitted for invalid SSN's will be returned to the submitting agency and will not cause a refund freeze or allow a refund offset.
Judgement Debt	A debt arising from a judicial decision and therefore not subject to the 10 year statute of limitations for offsetting.
Local Code	This is a three digit code used to associate an Agency Address Record (Agency Name, Address, telephone numbers) with an individual obligor for use on IRS offset notices. A local code of "000" is required for each subagency.
MCC	Martinsburg Computing Center P.O. Box 909 Kearneysville, WV. 25430 FTS 937-8345 NON-FTS (304) 267-2911 EXT 345
Name Control	When cases (original certifications and updates) are submitted to the IRS for processing, the SSN and Name Control are used for matching against the taxpayer's account. Records that do not match exactly on SSN and Name Control will be returned to the submitting agency. To ensure that submissions are processable, the following examples demonstrate the proper manner to derive the Name Control field.

NAME	NAME CONTROL	NAME	NAME CONTROL
John Brown	BROW	Mark D'Allesandro	DALL
John A. Lee	LEE *	Pedro Torres-Lopes	TORR
James P. En Sr.	EN *	Joe McCarthy	MCCA
John O'Neill	ONEI	Mr. Eng U	U *
Mary Van Buren	VANB	Mary X-Williams	X-WI
John Diben Edetto	DIBE	Juan De Jesus	DEJE
John A. El-Roy	EL-R		

*Name Controls of less than four (4) significant characters must be left justified and blank filled. Embedded blanks are not allowed. A single hyphen is allowed in all but the first digit of the name control.

Obligor	The person against whom a Federal Agency has certified a delinquent debt.
OPAC	The On-Line Payment and Collection System option of GOALS is an automated accounting system used to transfer the funds weekly to the participating agencies.
Service	The Internal Revenue Service.
Special Character	Any character that is not a numeral, a letter or a blank.
Spousal Claim	An amended return filed by a spouse whose share of a joint overpayment was applied to the other spouse's debt. The allowable amount of the claim will be refunded to the non-obligated spouse and deducted from the offsetting agency. The refund will be addressed to both taxpayers.
SSA	Social Security Administration
SSN	Social Security Number assigned by SSA.
Subagency Code	This is a two digit alpha-numeric code assigned by the agency. The agency must consider the types of delinquent accounts an obligor may have. If multiple accounts are present, a separate subagency code must be used to collect each debt. This code may be any alpha numeric combination. Zero is a valid subagency code. All subagency codes assigned by an agency must be approved by IRS.
Transmitter	Participating Federal Agencies preparing tape files.

SEC. 4. MILESTONE CHART/REPORTING SCHEDULES/TRANSMITTAL FORMS

.01 MILESTONE ACTIVITY CHART

ACTIVITY	TARGET/COMPLETION DATES
1) Annual Pre-Offset Address Request Record Tape	Aug. 11,1988(TEST) Aug. 25,1988(PRODUCTION)
2) Annual Certification Record Tape	Nov. 15,1988(TEST) Jan. 5,1989(PRODUCTION)
3) Agency Address File Tape or Record Tape	Dec. 6,1988(TEST) Jan. 9,1989(PRODUCTION)
4) Weekly Update Record Tape	Dec. 13,1988(TEST) Jan. 26,1989(PRODUCTION)

.02 *Weekly REPORTING/TRANSFER OF ON-Line Payment and Collection System (OPAC) Schedule* - The Debtor Master File Program is a reimbursable progam and all participating agencies reimburse the IRS for all administrative costs. This is accomplished through the On-Line Payment and Collection (OPAC) System option on the Government On-Line Accounting Link System (GOALS). The actual transfer of funds in this program is coordinated by the IRS DMF Coordinator, Returns Processing and Accounting Division (TR:R:A), 1111 Constitution Avenue, N.W., Room 7516, Washington, D.C. 20224,(FTS 343-0145; non-FTS (202) 343-0145), and each participating agency.

Each Monday, through the OPAC system, the net collections are transferred from the IRS Clearing Account 20F3875.11 to each agency's ALC number. The money is available as soon as the transfer is effected; however, the agency will not "see" it on OPAC until the next workday as the data base is updated overnight. The IRS provides the agencies with a transaction file containing collection (offset/claim) information in the form of magnetic tapes (Service-Weekly Collection (Offset/Claim) File) on a cycle basis. The weekly OPAC transfer of funds should match the amounts contained on the Weekly Collection Tape. The following chart shows each offset cycle (week) and the effective date (transfer of funds) for that cycle. Note that these are all Monday dates. If the dates happen to fall on a holiday, the transfer of funds will take place the next workday. Also included are the due dates for the Weekly Update tapes and approximate shipping dates for the Weekly Unprocessable and Collection files.

SCHEDULE

DATE 1 = Weekly update due date(THURSDAY)

DATE 2 = Approximate shipping date for Unprocessable File(SATURDAY)

DATE 3 = Approximate shipping date for Collection File(THURSDAY)

DATE 4 = Effective date of Offsets and OPAC Transfer(MONDAY)

CYCLE	DATE 1	DATE 2	DATE 3	DATE 4

8952	12/21/89	12/23/89	12/28/89	01/08/90

.03 WEEKLY UPDATE SCHEDULE Each agency may submit weekly update information to either delete or decrease an obligation amount or to indicate an agency refund/repayment has been made. These tapes must be received by the Martinsburg Computing Center no later than Thursday night of each week in order to meet MCC's weekly update cycle. Any tape received after this time may not be input until the following week. IRS will return any records found unprocessable to the participating agency within seven days. NOTE: Agencies must send weekly updates as timely as possible to prevent erroneous offsets or refunds from occurring.

.04 TRANSMITTAL LETTER - Tapes submitted to IRS must be accompanied by a letter as detailed in Exhibit A.4-1 in Part A, Section 4.08 below. Use the following chart to determine run title and file name. The symbol ## in the file name is replaced with your agency code (*i.e.*, 01) as assigned by IRS.

TYPE OF DATA	RUN TITLE	FILE NAME
Pre-Offset Address Request Records	440-03 Annual Pre-Offset	440-PO-##
Annual Certification Records	440-03 Annual	440-AC-##
Agency Address Records	440-20 Agency Address	440-AA-##
Agency Address Update Records	480-15 Agency Add. Update	480-AA-##
Weekly Update Records	445-12 Weekly	445-WK-##

IRS will acknowledge receipt of Agency tapes by returning a signed copy of the transmittal letter. If the Agency does not receive the acknowledgment within one week, they must contact the MCC Debtor Master File Coordinator at FTS 937-8345 (NON-FTS (304) 267-2911 EXT 345) to verify receipt of tape. NOTE: For tapes being returned to MCC (not an agency generated production or test file) please mark the transmittal "returned".

.05 TAPE TRANSMITTAL FORM IRS/MCC will supply each agency with pre-printed forms (Form 3220) to be completed and shipped along with each Weekly Update tape file sent to IRS. Do not ship tapes and transmittal documents separately. This form is in addition to the Transmittal Letter outlined in Part A, Section 4.04 above. This transmittal form will be supplied for use with the TRANSMITTER WEEKLY UPDATE PRODUCTION file only. See Exhibit A.4-2 in Part A, Sec. 4.08 below.

.06 Upon Shipment of Production tapes, the Debtor Master File Coordinator at the IRS Martinsburg Computing Center must be notified on FTS 937-8345 (NON-FTS (304)-267-2911 EXT 345). Please limit these calls to Monday through Friday between the hours of 8:00 AM and 4:00 PM (Eastern Time).

.07 EXPRESS MAIL - ALL TAPES SENT TO MCC MUST USE EXPRESS MAIL NEXT DAY SERVICE.(USPS). Any deviations regarding tape shipment must be coordinated with the DMF COORDINATOR AT THE MCC ON FTS 937-8345 (NON-FTS (304)-267-2911 EXT 345). Please limit these calls to Monday through Friday between the hours of 8:00 AM and 4:00 PM (Eastern Time).

EXHIBIT A.4-2 - TAPE TRANSMITTAL FORM 3220 CON'T

Four items must be filled in prior to shipping a tape file:

Item A	insert a Transmittal Number here. This number can be used as reference when calling MCC to verify receipt of tapes.
Item B	insert original reel number. (Upon receipt, MCC will assign a number of its own under Serial No.)
Item C	insert number of records on the file. This should include data records only.
Item D	insert number of data blocks on the file.
Item E	insert name of person contacted at MCC regarding shipment of this tape.
Item F	insert date of contact in item E.
Item G	insert time of contact in item E.

Additional notes for Form 3220

The ## symbols will be the actual agency code assigned by IRS.

A unique number for each agency will be assigned and placed in box 17.

* MCC may add a 2 or 3 digit literal to the file I.D. for each agency.

SEC. 5. SUBMISSION DATES FOR MAGNETIC TAPES

.01 IRS requires participating agencies to provide test tapes for the purpose of compatibility testing as soon as possible after July 1. Tapes must be mailed to:

Internal Revenue Service
Martinsburg Computing Center
P.O. Box 909
Kearneysville, WV. 25430
ATTN: DEBTOR MASTER FILE COORDINATOR

.02 The following final due dates have been established for the submission of TEST tapes and PRODUCTION tapes. Please note that all tapes must be *received* at MCC no later than the final dates shown below. Submission of tapes prior to these dates is acceptable and encouraged. A TEST tape must be submitted prior to a PRODUCTION tape.

	TAPE FILE	FINAL Due Dates for	
		TEST TAPE(s)	PROD TAPE(s)
(a)	Transmitter-Annual Pre-Offset Address Request Record Tape	Aug. 11,1988	Aug. 25,1988
(b)	Transmitter-Annual Certification Record Tape	Nov. 15, 1988	* Jan. 5, 1989
(c)	Transmitter Agency Address File Tape or Letter	Dec. 6,1988	Jan. 9, 1989
(d)	Transmitter-Weekly Update Record Tape	Dec. 13,1988	Starting Jan. 26,1989 and every Thursday evening thereafter

*If a Transmitter-Annual Certification Record Tape is received after this date, there is no guarantee it will be included in the annual certification processing. If it is not so included, the accounts on those tapes will not be subject to offset for the entire calendar year.

SERVICE TEST TAPES- will be created and sent to the agency approximately one week after the receipt of the agency test tape.

.03 Pre-Offset Address Request processing will begin in July and continue on an "as needed" basis thru August 25, 1988. The agency must schedule their participation with the DMF Project Staff. A minimum of one weeks lead time is required. Tape files are due at MCC by Thursday evening prior to the scheduled cycle. The following is the Pre-Offset Schedule:

SCHEDULE

DATE 1 = Tape Due at Martinsburg Computing Center(THURSDAY)

DATE 2 = Approximate MCC shipping date of Unprocessable File(SAT.)

DATE 3 = Approximate MCC shipping date of Pre-Offset Address File(THURSDAY)

CYCLE	DATE 1	DATE 2	DATE 3
8827	06/30/88	07/02/88	07/07/88
8829	07/14/88	07/16/88	07/21/88
8831	07/28/88	07/30/88	08/04/88
8833	08/11/88	08/13/88	08/18/88
8835	08/25/88	08/27/88	09/01/88

.04 Upon Shipment of Production Tapes, the Debtor Master File Coordinator at the IRS Martinsburg Computing Center must be notified on FTS 937-8345 (NON-FTS (304)-267-2911 EXT 345). Please limit these calls to Monday through Friday between the hours of 8:00 AM and 4:00 PM Eastern Time).

.05 *BACKUP TAPE FILES* - It is suggested that a backup of the Production Transmitter-Annual Certification Records file be sent to IRS. This will minimize the chance of an agency not being included in the year's certification in the event the original tape is lost, damaged or unreadable. Any paperwork accompanying the backup file should be annotated that it is a backup file.

NOTE: A backup tape should be sent for the Annual Certification file only.

SEC. 6. INTERNAL REVENUE PROCESSING OF MAGNETIC TAPES

.01 All tapes submitted must conform exactly to this Revenue Procedure. IF TAPES ARE UNPROCESSABLE, THEY WILL BE RETURNED TO THE SUBMITTING AGENCY FOR CORRECTION AND REPLACEMENT. Files received from agencies that contain any of the following error conditions will be returned in their entirety as unprocessable. The Martinsburg Computing Center will contact the Agency when an unprocessable file is being returned.

(a) A record contains an invalid money amount field (non-numeric).

(b) The control record does not balance with the data records on count and/or amount.

(c) An unprocessable tape header is encountered.

.02 Each unprocessable record will be returned intact with an error code inserted in the record explaining the reason for its return. Part B Sec. 7, 12 and 19 contain the Unprocessable Record layouts which include explanations for each error code.

SEC. 7. PRE-OFFSET ADDRESS REQUEST PROCESSING

.01 Prior to submission of Annual Certification Records, Federal agencies must obtain the latest IRS address information from an individual's tax account by submitting Annual Pre-Offset Address Request Records to IRS. Transmitter-Annual Pre-Offset Address Request Records must contain all elements as specified in Part B, Sec. 5 & 6 of this Revenue Procedure. Agencies must contact the IRS DMF Program Coordinator, Returns Processing & Accounting Division (TR:R:A), 1111 Constitution Ave. NW, Washington, D.C. 20224, (FTS 343-0145, NON-FTS (202) 343-0145,), to schedule their participation in Pre-Offset Processing. This processing will begin in July. Pre-Offset TEST tapes must be received no later than August 11, 1988. Pre-Offset PRODUCTION tapes must be received no later than August 25, 1988, to be included in the last scheduled processing cycle. See exhibits A.7-1 and A.7-2.

The purpose of this processing is to obtain address information for use in making a reasonable attempt to notify the obligor of the agencies intent to refer their case to IRS. A reasonable attempt to notify the debtor means that the Agency may use the address they maintain for the debtor if they believe that to be the most current. However, if the notice comes back undeliverable, then the agency must attempt to notify the debtor at the mailing address obtained from the Service. The agency must use the address received from the Service pursuant to section 6103(m)(2), (m)(4) or (m)(5) of the Code as appropriate within a period of one year preceding the attempt to notify the debtor.

NOTE: REGARDLESS OF WHICH ADDRESS THE AGENCY PLANS TO USE, PARTICIPATION IN PRE-OFFSET ADDRESS PROCESSING IS MANDATORY.

.02 Upon receipt of a file containing Transmitter-Annual Pre-Offset Address Request Records, IRS will validate all records. Those records deemed unprocessable will be returned to the submitting agency containing all elements as specified in Part B, Sec. 7 of this Revenue Procedure. Processable records will be matched against the Individual Master File (IMF).

.03 Files received from agencies that contain any of the following error conditions will be returned in their entirety as unprocessable. The Martinsburg Computing Center will contact the Agency when an unprocessable file will be returned.

(a) A record contains an invalid money amount field (non-numeric).

(b) The control record does not balance with the data records on count and/or amount.

(c) An unprocessable tape header is encountered.

.04 Records not matching the IMF on SSN and Name Control will be returned to the submitting agency containing all elements as specified in Part B, Sec. 8 & 9.

.05 Records matching the IMF on SSN but not on Name Control will cause extraction of the name line for the SSN as contained on the IMF. The format of the record returned from IRS is specified in Part B, Sec. 8 & 9.

NOTE: The return by IRS of a name line does NOT imply the SSN is correct and the agency name control field is wrong. The agency MUST examine each of these records manually (*i.e.*, not via a computer program!) to determine if the name line IRS has is truly the obligor the agency is attempting to obtain an address for and subsequently certify for offset. Under NO circumstances may an agency routinely use the name and/or name control supplied by IRS.

.06 Records matching the IMF on both SSN and Name Control will cause extraction of the Street Address, City, State and ZIP Code as contained on the IMF. The format of the record returned from IRS is specified in Part B, Sec. 8 & 9. In addition, an indicator will be set if the IMF indicates the obligor is deceased.

.07 Because of the similarity in the Pre-Offset and Annual Certification Process, participation in Pre-Offset will allow Federal Agencies to not only receive obligors addresses but also test and review the condition of their data prior to Annual Certification. The submitting agency will be able to review the Unprocessable and No-Match records prior to Annual Certification. Records failing any validity checks at Annual Certification will result in the loss of a potential offset(s) for that processing year.

.08 Agencies are reminded that using any data provided by IRS for other than this program is a conflict with Disclosure provisions and can result in suspension from the program. (See Part A Section 12 Disclosure & Safeguard Requirements.)

SEC. 8. ANNUAL DEBTOR MASTER FILE PROCESSING

.01 The federal agencies participating in this program must submit their Annual Certification records in accordance with the specifications in Part B, Sec. 10 & 11 of this Revenue Procedure. A TEST tape of Annual Certification records must be received no later than November 15, 1988. The PRODUCTION file must be received no later than January 5, 1989. See exhibits A.8-1, A.8-2.

.02 Upon receipt of a tape containing the Annual Certification records, IRS will validate all records. Those deemed unprocessable will be returned on a separate tape file to the submitting agency containing all elements as specified in Part B, Sec. 12 of this Revenue Procedure including the error reason code. Processable records will be matched against the Individual Master File (IMF).

.03 Tapes received from agencies that contain any of the following error conditions will be returned in their entirety as unprocessable. The Martinsburg Computing Center will contact the Agency when an unprocessable tape is being returned.

(a) A record contains an invalid money amount field (non-numeric).

(b) The control record does not balance with the data records on count and/or amount.

(c) An unprocessable tape header is encountered.

.04 Those records that do not find a match on the Individual Master File (IMF) will be returned on a separate tape file to the submitting agency containing all elements as specified in Part B, Sec. 13 & 14 of this Revenue Procedure.

.05 Records finding a match on the IMF will create a refund freeze condition. The Debtor Master File (DMF) is initialized annually only from processable certification records that match the IMF. The DMF file can be updated on a weekly basis through offsets and claims from the IMF, and through decreases, deletes and agency refund repayments from the submitting agencies. New accounts cannot be added to the file after the beginning of the calendar year, nor can obligation amounts be increased.

.06 Records finding a match and with an indication on the IMF that the obligor is deceased will cause an error code 05 information record to be returned on the No-Match File.

.07 Accounts on the DMF will be prioritized and federal income tax refunds offset based on the following criteria:

(a) Office of Child Support Enforcement (AFDC)-Aid to Families with Dependent Children claims and state foster care and adoption assistance program claims.

(b) All other participating agencies based on the earliest delinquent date. In the event the delinquency date is the same, the account with the larger obligation will be subject to offset first.

(c) Office of Child Support Enforcement-(non-AFDC) NON-Aid to Families with Dependent Children claims.

SEC. 9. AGENCY ADDRESS FILE

.01 An Agency Address File will be created annually by IRS and will contain address and contact point information which will be included on all related IRS generated taxpayer correspondences. A central address (local code ''000'') for each Subagency and at the option of the agency, local addresses (additional local codes), must be provided for inclusion on IRS notices. Agencies will have the ability to correct/update address information throughout the processing year. The first line of the address (Agency Name field) must contain the name of the participating agency (*i.e.*, U.S. Department of Education, Office of Child Support Enforcement, etc.). This field will display as the first address line on the notice the taxpayer receives at the time his refund is offset and must clearly identify which agency has received the collection.(See Example below) No reference will be made to IRS within the Agency Address. At least one address with local code ''000'' is required for each subagency. See Exhibit A.9-1.

Example: Agency Certification Record:

Obligor = Marjorie Mixon
Agency Code = 01
Subagency Code = GA
Local Code = 029

Agency Address Record
Agency Code = 01
Subagency Code = GA
Local Code = 029
Agency Address Info. = Child Support Office
Atlantic Judicial Circuit
941 E.G. Miles Parkway
P.O. Box 9
Hinesville, Georgia 31313

Agency Phone Info. = (912) 876-4154 (LOCAL)
(814) 555-1212 (Collect)
1-800-626-2912 (Toll Free)
(Nationwide/Toll Free)

When an offset for the above obligor occurs, an offset notice will be generated as in Exhibit A.10.4.

It is required by IRS that the Agency supply at least one toll- free or collect telephone number. Space is provided for three phone numbers. More than one toll-free or collect number may be used.

NOTE: The telephone number(s) do not have to be different for each local code. The Agency may assign one toll-free number for all subagencies.

Initial address information must be submitted on magnetic tape except as noted below. A TEST tape MUST be submitted no later than December 6, 1988. The PRODUCTION tape must be submitted no later than January 9, 1989. All magnetic media address information must conform to the specifications in Part B, Sec. 15 & 16 of this Revenue Procedure.

NOTE: If an Agency has 5 or less Address records, the address information may be submitted via the Updates to Agency Address File procedure as described in 9.02 below.

.02 Updates to Agency Address File VIA Memorandum

Revisions to the Agency Address file submitted at the beginning of the processing year may be submitted whenever necessary. A memorandum must be mailed to the National Office, Returns Processing & Accounting Division, Attn: Debtor Master File Coordinator, in the format outlined in 9.03 below. Agencies will be notified when the update(s) have been completed. NOTE: Complete address information, including telephone number, must be submitted for all updates (additions and changes).

.03 CHANGE OF ADDRESS LETTER - A memorandum, in the format shown in Exhibit A.9-2 below, must be used to notify IRS of changes or additions to the Agency Address File.

.04 Updates to Agency Address File Via Tape File - Revisions to the Agency Address file may be submitted via a tape file. The format is identical to the initial address (Part B, sections 15 & 16) except that the ''update indicator'' must be appropriately set. A memorandum letter (Exhibit A.9-2) must be submitted to the DMF Coordinator with an attached listing of the address changes on the tape file.

SEC. 10. WEEKLY DEBTOR MASTER FILE PROCESSING

.01 Federal Agencies are encouraged to submit Transmitter Weekly Update Records. These records must be in accordance with specifications in Part B, Sections 17 & 18 of this Revenue Procedure. A TEST file must be received no later than December 13, 1988. PRODUCTION files must be received no later than each THURSDAY night, beginning January 26, 1989, if they are to be timely processed that week. Tapes received later than Thursday may not be processed until the following week. See exhibit A.10-1.

.02 Weekly updates can include the following types of records:

(a) DECREASES - the record used by the submitting agency to reduce a previously certified amount of obligation. IRS will reduce the current amount of obligation by the amount reflected in the DECREASE record. The remaining obligation will be subject to refund offset whenever credits become available.

(b) DELETES this record is basically the same as a DECREASE record except that when the amount of decrease is applied to the outstanding obligation amount, as reflected by IRS, the result is $25.00 or less. In this case, IRS will consider the record as a DELETE. A DELETE record must be used whenever a submitting agency intends to eliminate a previously certified case from the DMF.

It should be noted that whenever IRS processes a DELETE record, the obligor will no longer be subjected to the refund offset program for that agency/subagency combination, for the remainder of the processing year.

(c) AGENCY REFUND RECORD - this record is used to alert IRS that an agency has directly repaid either a portion or the entire amount of an IRS offset. This record should be forwarded to IRS at the earliest possible date. Failure to send this record to IRS whenever this situation arises could result in IRS erroneously allowing an injured spousal claim and billing the agency for the amount. The amount of refund by the agency is included in the record.

(d) AGENCY REFUND CORRECTION this record is used to correct (DECREASE) the amount of an incorrect Agency Refund Record(s) previously submitted to and processed by IRS. Failure to send this record to IRS may result in IRS erroneously disallowing all or a portion of an injured spouse claim.

.03 Upon receipt of the tape containing the Transmitter Weekly Update Records, IRS will validate all records. Those deemed unprocessable will be returned to the submitting agency intact with an error code inserted into the record as specified in Part B, Sec. 19 of this Revenue Procedure. Processable records will be used to update the Debtor Master File.

.04 Files received from agencies that contain any of the following error conditions will be returned in their entirety as unprocessable. The Martinsburg Computing Center will contact the Agency when an unprocessable file is being returned.

(a) A record contains an invalid money amount field (non-numeric).

(b) The control record does not balance with the data records on count and/or amount.

(c) An unprocessable tape header is encountered.

.05 Each week IRS will process individual income tax data including 1040 tax returns, injured spouse claims and other tax related reversals. These actions will be reflected on the Debtor Master File as follows:

(a) Offsets are made on individual income tax return refunds where the taxpayer has a liability on the Debtor Master File. A notice(CP-47) advising the taxpayer of the offset will be generated by IRS (see Exhibit A.10-4). Individual offset records will be sent weekly to the submitting federal agency on the Service-Weekly Collection (Offset/Claim) Record File as specified in Part B, Sec. 20 & 21 of this Revenue Procedure.

OVERPAID TAX APPLIED TO PAST-DUE OBLIGATION AFDC GA

AS REQUIRED BY SECTION 6402(C) OR (D) OF THE INTERNAL REVENUE CODE, WE HAVE APPLIED ALL OR PART OF YOUR REFUND TO FULLY OR PARTIALLY SATISFY A PAST-DUE OBLIGATION REFERRED TO US BY ANOTHER GOVERNMENT AGENCY. IF YOU HAVE QUESTIONS ABOUT THIS OBLIGATION OR BELIEVE THE AMOUNT IS IN ERROR, YOU MUST CONTACT THAT AGENCY AT THE ADDRESS OR TELEPHONE NUMBER AS SHOWN IN THE UPPER RIGHT OF THIS NOTICE.

IF YOU ARE MARRIED FILING A JOINT RETURN AND ONE OF YOU INCURRED THIS DEBT SEPARATELY FROM YOUR SPOUSE, WHO HAS NO LEGAL RESPONSIBILITY FOR THE DEBT, BUT WHO HAS INCOME, WITHHOLDING AND/OR ESTIMATED TAX PAYMENTS, THAT SPOUSE MAY BE ENTITLED TO HIS OR HER SHARE OF THE JOINT REFUND.

IF YOUR SPOUSE MEETS THE REQUIREMENTS SHOWN ABOVE, HE OR SHE MAY RECEIVE HIS OR HER SHARE OF THE JOINT REFUND BY FILING FORM 8379, INJURED SPOUSE ALLOCATION, AND FORM 1040X, AMENDED U.S. INDIVIDUAL INCOME TAX RETURN. THE FORM 1040X SHOULD SHOW THE SAME "MARRIED FILING JOINT RETURN" STATUS AND THE SAME SOCIAL SECURITY NUMBERS OF BOTH SPOUSES IN THE SAME ORDER AS THEY APPEAR ON THE ORIGINAL TAX RETURN. PLEASE ADD THE WORDS "INJURED SPOUSE" AT THE TOP OF THE FORM 1040X AND MAIL BOTH FORMS TO THE INTERNAL REVENUE SERVICE CENTER WHERE YOU FILED YOUR INCOME TAX RETURN. ALSO, YOU SHOULD CLEARLY INDICATE HOW ANY INCOME, ITEMIZED DEDUCTIONS, EXEMPTIONS, CREDITS AND TAX PAYMENTS AS ORIGINALLY CLAIMED SHOULD BE DIVIDED BETWEEN THE TWO SPOUSES. YOU MUST FURNISH THIS INFORMATION BEFORE ANY ADJUSTMENT CAN BE MADE. THE INJURED SPOUSE MUST SIGN THE RETURN. WE WILL FIGURE AND ISSUE THE INJURED SPOUSE PORTION OF THE JOINT REFUND. IN COMMUNITY PROPERTY STATES THE JOINT REFUND MUST BE DIVIDED ACCORDING TO STATE LAW.

IF YOU HAVE ANY QUESTIONS ABOUT THE INJURED SPOUSE CLAIM OR NEED HELP IN COMPLETING THE FORMS 8379 AND 1040X PLEASE CALL YOUR LOCAL INTERNAL REVENUE SERVICE OFFICE AT THE TELEPHONE NUMBER IN THE LOWER LEFT CORNER.

1-800-424-1040 OTHER GA

(b) Injured spouse claims are filed as amended returns by a non -obligated spouse who files a joint return with a debtor who has been certified for offset by a state or federal agency. The non-obligated spouse may be entitled to all or a portion of the refund, depending on his/her share of the income earned and credits claimed. The claim may be filed at the same time the Federal Income Tax Return is filed in order to receive his/her refund *prior* to offset. However, it may also be filed after the offset has occurred. If the claim is filed with the Federal Income Tax Return, the IRS will process the claim and refund the appropriate amount to the injured spouse. Any remaining overpayment would then be offset to the agency which certified the debtor. Injured spouses have 6 years to file a claim. Therefore, a claim record may be generated for a prior year offset.

(c) If the claim is filed after an offset occurs, the IRS will process the claim as above and refund the appropriate amount to the injured spouse. The amount allowed (refunded) will in turn be charged to the submitting agency and reflected on the Service-Weekly Collection (Offset/Claim) Record file as specified in Part B, Sec. 20 &21. Other tax related reversals of offsets, such as bankruptcy cases or erroneous offsets of payments received in response to proposed tax assessments, will also be included on this file.

.06 The Weekly Update Records for the last offset cycle are due on December 21, 1989. This will be the last update file processed for the 1989 program.

.07 Each week the Debtor Master File Coordinator at MCC must be notified on FTS 937-8347 (NON-FTS (304)-267-2911 EXT 347) whether or not a weekly update tape has/will be shipped.

SEC. 11 PROBLEM RESOLUTION CONTACTS

.01. This section explains the procedures for contacting appropriate IRS personnel. The agency will use the two contact points listed below depending on the nature of the problem or question.

.02. CONTACT POINTS

AGENCY CONTACT AND PHONE NUMBER:

SEC. 12 DISCLOSURE & SAFEGUARD REQUIREMENTS

.01 Sections 6103(l)(10)(b) and 6103(l)(11)(B) of the Internal Revenue Code explicitly restrict participating agencies' use of return information provided in connection with agencies' requests for reductions under IRC 6402(c) and (d). Agencies are permitted to use return information "only for the purpose of, and to the extent necessary in, establishing appropriate agency records or in the defense of any litigation or administrative procedure ensuing from a reduction made under Section 6402(c) or (d)." Agencies using the information for other than the Federal Tax Refund Offset Program can be suspended from the program.

02. Officers and employees of federal agencies who disclose return information in a manner or for a purpose not authorized by sections 6103(l)(10) or 6103(l)(11) of the Code are subject to the criminal penalty provisions of section 7213. Federal agencies who disclose return information in a manner or for a purpose not authorized by sections 6103(l)(10) or 6103(l)(11) are also subject to the civil damages provisions of section 7431.

03. Any unauthorized disclosure of return information must be reported to the nearest Internal Revenue Service Regional Inspector. The name, address, and telephone number of this individual may be obtained from the DMF Project Staff.

04. Return information which is obtained by an agency under sections 6103(l)(10) or 6103(l)(11) of the Code is subject to the safeguard, recordkeeping, and reporting requirements of section 6103(p)(4). If the return information becomes a part of the agency case file regarding a specific taxpayer, the case file must be segregated to the maximum extent possible and safeguarded under the terms and conditions of section 6103(p)(4). Destruction of returns or return information is also governed by section 6103(p)(4).

05. An agency which receives return information pursuant to sections 6103(l)(10) or 6103(l)(11) of the Code must submit a safeguard procedures report within 30 days of initial receipt of the return information. The report will detail the security accorded the information, the individuals who may request and have access to the information, the flow of the information once the agency has received it, as well as other information which will give a comprehensive picture of the need for, the use of, and the disposal of the return information. Publication 1075 gives additional information about the safeguard procedures report and may be obtained from the Internal Revenue Service district disclosure officer in the district in which the agency is located.

.06 The agency must also submit an annual safeguard activity report giving current information on its safeguard program. The information required for this report is also detailed in Publication 1075. Pursuant to section 6103(p)(4) of the Code and the regulation thereunder, the Service has the authority to conduct its own safeguard reviews if it believes that return information is not being properly safeguarded.

.07 It is the responsiblility of any agency which uses a contractor to make certain that all safeguards are in place and utilized by the contractor.

PART B. MAGNETIC TAPE SPECIFICATIONS

SECTION 1. INTRODUCTION

.01 The magnetic tape specifications define the required format and contents of the records to be included in the file. These specifications must be adhered to. Deviations from these requirements must be preapproved by IRS. These specifications are for the participating agency that sends the magnetic tapes to MCC and is not intended to mandate subagency to agency specifications.

.02 IRS will accept tapes from and return tapes to one Data Processing Center for each Agency.

SEC. 2. TAPE AND FILE SPECIFICATIONS

.01 All records will be fixed length and conform to the given Record Specifications provided herein.

.02 All records except the Header and Trailer Labels must be blocked.

.03 All files must be in 9 channel ASCII (American National Standard Code For Information Interchange) with odd parity.

.04 All files must contain ANSI (American National Standard Institute) Header and Trailer Labels. Specific Header Label file information is specified in Part B, Sec. 22 & 23.

.05 Tape Density (BPI) must be as follows:

(a) 1600 or 6250 for tapes submitted to IRS (preferably 6250)

(b) 1600 for all tapes created by IRS for the Agency

.06 All tape files must have the following characteristics:

(a) Type of tape - ½ inch Mylar base, oxide coated, and

(b)Interblock Gap - ¾ inch.

.07 The logical record size (LRECL) and blocksize (BLKSIZE) for TRANSMITTER FILES are as follows:

FILE	LRECL	BLKSIZE
Annual Pre-Offset Address Request File	150	Note 1
Annual Certification File	150	Note 1
Agency Address File (Original and Update)	300	Note 1
Weekly Update File	50	Note 1

Note 1: BLKSIZE can be any multiple of the LRECL but may not exceed 32,000.

.08 The logical record size (LRECL) and blocksize (BLKSIZE) for SERVICE FILES are as follows:

FILE	LRECL	BLKSIZE
Annual Pre-Offset Unprocessable File	150	1950
Annual Pre-Offset Address Request File	215	1935
Annual Unprocessable Certification File	150	1950
Annual No-Match File	185	2035
Weekly Unprocessable Update File	50	2000
Weekly Collection (Offset/Claim) File	250	2000

.09 IRS programs may be capable of accommodating some minor deviations from these specifications. Federal Agencies that do require minor deviations, must contact the DMF Project Coordinator at the National Office on FTS 343-0151 (NON-FTS (202) 343-0151). Tapes from participating agencies will be submitted to:

IRS
Martinsburg Computing Center
P.O. Box 909
Kearneysville, WV. 25430
ATTN: DEBTOR MASTER FILE COORDINATOR

Under no circumstances may tapes deviating from the specifications in this Revenue Procedure be submitted without prior written approval from IRS.

SEC. 3. LOGICAL SEQUENCE OF FILES

.01 The data on Transmitter FILES may be in any logical sequence as long as the DATA CONTROL record is the very last record of each file.

.02 SERVICE FILES

(a) SERVICE-ANNUAL PRE-OFFSET UNPROCESSABLE FILE will be in the same sequence as received on the Transmitter-Annual Pre-Offset Address Request File. NOTE: there will NOT be a Data Control record on this file.

(b) SERVICE-ANNUAL PRE-OFFSET ADDRESS REQUEST FILE will be in Social Security Number (SSN) order.

(c) SERVICE-ANNUAL UNPROCESSABLE FILE will be in the same sequence as received on the Transmitter-Annual Certification File. NOTE: there will NOT be a Data Control record on this file.

(d) SERVICE-ANNUAL NO MATCH FILE will be in Social Security Number (SSN) order.

(e) SERVICE-WEEKLY UNPROCESSABLE FILE will be in the same sequence as received on the Transmitter-Weekly Update File. NOTE: there will NOT be a Data Control record on this file.

(f) SERVICE-WEEKLY COLLECTION (OFFSET/CLAIM) FILE will be in Social Security Number (SSN) within Subagency order. NOTE: There will be a Data Control record (CNTL) following the data for each Subagency. In addition, there will be a Cumulative Control record (CUM) present as the very last record on the file.

SEC. 4. RESERVED

SEC. 5. TRANSMITTER-ANNUAL PRE-OFFSET ADDRESS REQUEST RECORD

The Annual Pre-Offset Address Request Record contains information on potential obligors. These records are formatted identically to the Annual Certification Record and are used by the agency as a means for obtaining the latest address information and checking status of data. The address will be appended to the end of the incoming record. All records will be returned to the participating agency. ONLY ONE RECORD ALLOWED PER SSN WITH THE SAME AGENCY CODE AND SUBAGENCY CODE. RECORDS WITH THE SAME SSN, AGENCY CODE , SUBAGENCY CODE WILL CAUSE THE FIRST RECORD TO BE ACCEPTED AND THE SUBSEQUENT RECORDS TO BE REJECTED AS DUPLICATES.

RECORD NAME : TRANSMITTER-ANNUAL PRE-OFFSET ADDRESS REQUEST RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	REQUIRED. Code assigned to Agency by IRS
3-4	Subagency Code	2	REQUIRED. Code Assigned by Agency and recognized and appoved by IRS. (See Definitions Part A, Sec. 3)
5	Subagency Priority Code	1	REQUIRED. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled for all other agencies.
6-9	Name Control	4	REQUIRED. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters must be left justified filling the unused positions with blanks. Embedded blanks must be removed. (See Definitions - Part A, Sec. 3)
10-19	SSN	10	REQUIRED. Enter the obligor's Social Security Number as assigned by SSA. Right justify. The first numeric will be zero.
20-39	Last Name	20	REQUIRED. Enter the obligors Last Name. Left justify and fill with blanks. It may contain embedded blanks. Hyphens and apostrophes are allowed but no other special characters.
40-54	First Name	15	REQUIRED. Enter the obligor's First Name. Left justify and fill with blanks. It may contain embedded blanks but no numerics. Hyphens are allowed but no other special characters.
55-64	Amount Owed	10	REQUIRED. Enter the amount owed by the obligor. The amount must be entered in dollars and cents. Do not enter dollar signs, commas, decimal points or sign amounts. The Amount Owed must be right justified and unused positions must be zero filled.
65-66	Agency	2	OPTIONAL. For Agency use. If not used, fill with blanks.
67-69	Local Code	3	REQUIRED. FIPS code for OCSE only. Must be numeric. If not available or if agency/subagency has only one Local Code, fill with zeros (See Definitions, Part A, Sec. 3).
70-84	Agency Case Number	15	OPTIONAL. Identifies account for agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	Filler	2	RESERVED. Fill with Blanks.
87-92	Delinquent Date	6	REQUIRED. The date at which the obligation wàs delinquent. Format of YYMMDD. Required for all obligations, including Judgement Debts. Zero fill for agencies 01 and 02. (See Definitions,Part A,Sect.3).
93	Judgement Debt Indicator	1	REQUIRED. Blank fill unless it is a Judgement Debt. A 'J' identifies a Judgement Debt excluding it from the 10 year statute of limitations requirement. (See Definitions,Part A, Sect.3).

RECORD NAME : TRANSMITTER-ANNUAL PRE-OFFSET ADDRESS REQUEST RECORD - continued

Tape Position	Field Title	Length	Description and Remarks
94	Reserved	1	RESERVED. Blank fill.
95-150	Filler	56	RESERVED. Fill with blanks.

SEC. 6. TRANSMITTER-ANNUAL PRE-OFFSET DATA CONTROL RECORD

Identifies the cumulative counts and amounts for all records on the Transmitter Annual Pre-Offset tape file. This record must appear as the last data record on the tape file which is submitted to IRS. If the Record Count or Obligation Amount does not balance when the tape is processed, the complete tape file will be rejected, causing that agency not to be able to participate in Pre-Offset.

RECORD NAME :TRANSMITTER-ANNUAL PRE-OFFSET CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	REQUIRED. Enter the constant ''CNTL''. This identifies the end of processable records.
5-12	Record Count	8	REQUIRED. Enter record count of Annual Pre-Offset records.
13-24	Obligation Amount	12	REQUIRED. Enter the cumulative total amount for all records, right justified, zero filled.
25-150	Filler	126	REQUIRED. Fill with Blanks.

SEC. 7. SERVICE-ANNUAL PRE-OFFSET UNPROCESSABLE RECORD

Identifies records which were found to be unprocessable during validity processing. All fields remain the same as input on the Transmitter Annual Pre-Offset Address Request Record except in positions 85 & 86 where IRS inserts an error code.

RECORD NAME : SERVICE-ANNUAL PRE-OFFSET UNPROCESSABLE RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	PRESENT. Code assigned to Agency by IRS.
3-4	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions, Part A, Sec. 3.)
5	Subagency Priority Code	1	PRESENT. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled for other agencies.
6-9	Name Control	4	PRESENT. The first 4 significant characters of the obligor's last name. Last names of less than four characters will be left justified filling the unused positions with blanks. (See Defintions, Part A, Sec. 3.)
10-19	SSN	10	PRESENT. The obligor's Social Security Number as assigned by SSA. Right justify. The first numeric must be zero.
20-39	Last Name	20	PRESENT. The obligors Last Name. Left justified and filled with blanks.
40-54	First Name	15	PRESENT. Enter the obligor's First Name. Left justified and filled with blanks. It must not contain any embedded blanks or numerics.
55-64	Amount Owed	10	PRESENT. The amount owed by the obligor. The amount will be entered in dollars and cents. The Amount Owed will be right justified and unused positions must be zero filled.
65-66	Agency Information	2	PRESENT. Information as provided by by each agency and approved by IRS.
67-69	Local Code	3	PRESENT. FIPS code used by OCSE. For other agencies as approved by IRS.

Tape Position	Field Title	Length	Description and Remarks
70-84	Agency Case Number	15	PRESENT. Identifies account number for agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	Error Code	2	GENERATE. IRS will insert the appropriate error code: 01-invalid agency code 02-invalid subagency code 03-invalid name control 04-invalid SSN 05-obligation (Amount Owed field) is less than tolerance 06-delinquent date too old 07-invalid delinquent date format 08-priority code not 0 or 1 09-duplicate record (same SSN, agency, and subagency) 10-Last and First Name blank 11-15-RESERVED.
87-92	Delinquent Date	6	PRESENT. From input record.
93	Judgement Debt Indicator	1	PRESENT. From input record.
94	Reserved	1	RESERVED. Blank fill.
95-150	FILLER	56	REQUIRED. Fill with blanks.

SEC. 8. SERVICE-ANNUAL PRE-OFFSET ADDRESS REQUEST RECORD

This Service Annual Pre-Offset Address Request Record contains address information for all obligor accounts that have been matched to the IMF. The Error Code will be set and the address or nameline may be appended to the end of the incoming record. These records will be returned to the participating agency annually.

RECORD NAME : SERVICE-ANNUAL PRE-OFFSET ADDRESS REQUEST RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	PRESENT. Code assigned to Agency by IRS
3-4	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions, Part A Sec. 3)
5	Subagency Priority Code	1	PRESENT. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled for all other agencies.
6-9	Name Control	4	PRESENT. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters should be left justified filling the unused positions with blanks. Embedded blanks must be removed. (See Definitions, Part A Sec. 3)
10-19	SSN	10	PRESENT. Enter the obligor's Social Security Number as assigned by SSA. Right justify. The first numeric will be zero.
20-39	Last Name	20	PRESENT. Enter the obligors Last Name as provided by the agency. Left justified and filled with blanks.
40-54	First Name	15	PRESENT. Enter the obligor's First Name as provided by the agency. Left justified and filled with blanks.

Tape Position	Field Title	Length	Description and Remarks
55-64	Amount Owed	10	PRESENT. Enter the amount owed by the obligor. The amount must be entered in dollars and cents. Do not enter dollar signs, commas, decimal points or negative amounts. The Amount Owed must be right justified and unused positions must be zero filled.
65-66	Agency Information	2	PRESENT. For use by each agency. If not used, fill with blanks.
67-69	Local Code	3	PRESENT. FIPS code for OCSE. For other agencies, as approved by IRS.
70-84	Agency Case Number	15	PRESENT. Identifies account number for agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	Error Code	2	GENERATED. IRS will insert the appropriate code from the table below. ERROR CODE EXPLANATION: 00 Record matched to IMF, Address information follows. 01 SSN does not match IMF. 02 SSN matches IMF but Name Control does not match. IMF Name-line data follows. 03 SSN is listed on invalid segment of the IMF or another condition causes the record to go unpostable. 04-10 RESERVED.
87-92	Delinquent Date	6	PRESENT. From input record.
93	Judgement Debt Indicator	1	PRESENT. From input record.
94	Deceased Indicator	1	Generated. Value of 'D' indicates obligor deceased per IRS records. Otherwise blank.
95-150	FILLER	56	PRESENT. Filled with blanks.
151-185	Street Address/ Name	35	PRESENT. If the Error Code is 00, field contains latest mailing address of obligor. NOTE: The street address may be blank. If the Error Code is 02, the entire name as it appears on the IMF, formatted Last Name, First Name. (Example Public, John & Mary) will appear in this field. For Error Codes 01 and 03, this field will be filled with blanks.
186-210	City and State	25	PRESENT. The obligor's city and state of residence if the Error Code is 00; otherwise blanked filled. Note: the City/State field may contain City/Country for foreign address.
211-215	ZIP Code	5	PRESENT. The obligor's ZIP Code if the Error Code equals 00; otherwise blanked filled.

SEC. 9. SERVICE-ANNUAL PRE-OFFSET DATA CONTROL RECORD

Identifies the cumulative counts of all matched and unmatched records on IRS Annual Pre-Offset Address Request tape file. This record will appear as the last data record on the tape file that IRS will return to the participating agency.

RECORD NAME : SERVICE-ANNUAL PRE-OFFSET CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	PRESENT. Enter the constant "CNTL". This identifies the end of processable records.
5-12	Total Match	8	PRESENT. Enter the cumulative record count for all records that have been correctly matched with a corresponding IMF account.

RECORD NAME : SERVICE-ANNUAL PRE-OFFSET CONTROL RECORD - continued

Tape Position	Field Title	Length	Description and Remarks
13-20	Total No Match	8	PRESENT. Enter the cumulative record count for all records unable to be correctly matched with a corresponding IMF account.
21-215	Filler	195	PRESENT. Filled with blanks.

SEC. 10. TRANSMITTER-ANNUAL CERTIFICATION RECORD

Records submitted to initialize the Debtor Master File identifying the obligor and amount of obligation. These records are submitted annually by the Agency for each obligor having a delinquent debt to that agency. ONLY ONE RECORD ALLOWED PER SSN WITH THE SAME AGENCY CODE AND SUBAGENCY CODE. RECORDS WITH THE SAME SSN, AGENCY CODE, SUBAGENCY CODE WILL CAUSE THE FIRST RECORD TO BE ACCEPTED AND THE LATER RECORDS TO BE REJECTED AS DUPLICATES.

RECORD NAME : TRANSMITTER-ANNUAL CERTIFICATION RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	REQUIRED. Code assigned to Agency by IRS
3-4	Subagency Code	2	REQUIRED. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A Sec. 3)
5	Subagency Priority Code	1	REQUIRED. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled by other agencies
6-9	Name Control	4	REQUIRED. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters should be left justified filling the unused positions with blanks. Apostrophes and embedded blanks must be removed, a hyphen is allowed in position 2, 3 or 4. (See Definitions, Part A, Sec. 3)
10-19	SSN	10	REQUIRED. Enter the obligors Social Security Number as assigned by SSA. Right justify. The first numeric must be zero.
20-39	Last Name	20	REQUIRED. Enter the obligors Last Name. Left justify and fill with blanks. It may contain embedded blanks. Hyphens and apostrophes are allowed but no other special characters.
40-54	First Name	15	REQUIRED. Enter the obligor's First Name. Left justify and fill with blanks. It may contain embedded blanks but no numerics. Hyphens are allowed but no other special characters.
55-64	Amount Owed	10	REQUIRED. Enter the amount owed by the obligor. The amount must be entered in dollars and cents and must be unsigned. The Amount Owed must be right justified and unused positions must be zero filled. Amount owed may never be less than $25.00. Higher minimum obligation amounts may be assigned by agency and recognized and approved by IRS.
65-66	Agency Information	2	OPTIONAL. For Agency use.
67-69	Local Code	3	REQUIRED. FIPS code for OCSE only. Must be numeric. If not available or if agency/subagency has only one Local Code, fill with zeros (See Definitions, Part A, Sec. 3).
70-84	Agency Case Number	15	OPTIONAL. Identifies account number for agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	FILLER	2	REQUIRED. Fill with Blanks.
87-92	Delinquent Date	6	REQUIRED. The date at which the obligation was delinquent. Format of YYMMDD. Required for all obligations, including Judgement Debts. Zero fill for agencies 01 and 02. (See Definitions, Part A, Sect.3).

RECORD NAME : TRANSMITTER-ANNUAL CERTIFICATION RECORD - continued

Tape Position	Field Title	Length	Description and Remarks
93	Judgement Debt Indicator	1	REQUIRED. Blank fill unless it is a Judgement Debt. A 'J' identifies a Judgement Debt excluding it from the 10 year statute of limitations requirement. (See Definitions,Part A, Sect.3).
94	reserved	1	RESERVED. Blank fill.
95-150	FILLER	56	REQUIRED. Fill with blanks.

SEC. 11. TRANSMITTER-ANNUAL CERTIFICATION DATA CONTROL RECORD

Identifies the cumulative counts and amounts for all records on the Transmitter Annual Certification tape file. This record must appear as the last data record on the tape file which is submitted to IRS. If the Record Count or Obligation Amount does not balance when the tape is processed, the complete tape file will be rejected, potentially resulting in that agency not being able to participate for that year.

RECORD NAME : TRANSMITTER-ANNUAL CERTIFICATION CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	REQUIRED. Enter the constant "CNTL". This identifies the end of processable records tape file.
5-12	Record Count	8	REQUIRED. Enter the number of Annual Certification records. Right justify and fill with zeroes.
13-24	Obligation Amount	12	REQUIRED. Enter the cumulative total of Amount Owed for all obligors. The amount must be entered in dollars and cents. Do not enter dollar signs, commas, decimal points or negative amounts. The Obligation Amount must be right justified and unused positions must be zero filled.
25-150	FILLER	126	RESERVED. Fill with Blanks.

SEC. 12. SERVICE-ANNUAL UNPROCESSABLE CERTIFICATION RECORD

Identifies records which were found to be unprocessable during validity processing. All fields remain the same as input on the Transmitter Annual Certification Record except in positions 85 & 86 where IRS inserts an error code.

RECORD NAME : SERVICE-ANNUAL UNPROCESSABLE CERTIFICATION RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	PRESENT. Code assigned to Agency by IRS
3-4	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A, Sec. 3)
5	Subagency Priority Code	1	PRESENT. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled by other agencies.
6-9	Name Control	4	PRESENT. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters will be left justified filling the unused positions with blanks. Apostrophes and embedded blanks must be removed, hyphens are allowed in position 2, 3 or 4. (See Definitions - Part A, Sec. 3)
10-19	SSN	10	PRESENT. The obligor's Social Security Number as assigned by SSA. Right justify and first numeric must be zero.
20-39	Last Name	20	PRESENT. The obligor's Last Name. Left justified and filled with blanks. It will contain last name of obligor as submitted by the agency.
40-54	First Name	15	PRESENT. Enter the obligor's First Name. Left justified and filled with blanks. It will contain first name of obligor as submitted by the agency.

Tape Position	Field Title	Length	Description and Remarks
55-64	Amount Owed	10	PRESENT. The amount owed by the obligor. The amount will be entered in dollars and cents. The Amount Owed will be right justified and unused positions must be zero filled.
65-66	Agency Information	2	PRESENT. Information as provided by by each agency and approved by IRS.
67-69	Local Code	3	PRESENT. FIPS code for OCSE. For other agencies, as approved by IRS.
70-84	Agency Case Number	15	PRESENT. Identifies account number for agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	Error Code	2	PRESENT. IRS will insert error code which applies: 01-invalid agency code 02-invalid subagency 03-invalid name control 04-invalid SSN 05-obligation (Amount Owed field) less than tolerance 06-delinquent date too old 07-invalid delinquent date format 08-priority code not 0 or 1 09-duplicate record (same SSN, Agency and Subagency 10-Last and First Name Blank 11-15-RESERVED
87-92	Delinquent Date	6	PRESENT. From input record.
93	Judgement Debt Indicator	1	PRESENT. From input record.
94	reserved	1	RESERVED. Blank fill.
95-150	FILLER	56	PRESENT. Filled with blanks.

SEC. 13. SERVICE-ANNUAL NO MATCH RECORD

Identifies Transmitter Annual Certification Records which do not match the Individual Master File. The explanation for this can be found in the Error Code Field of the record. A fixed field is added to the end of the input record and the IRS Nameline is inserted on all no match code 02 records. All other fields remain the same as input on the Transmitter Annual Certification Record.

RECORD NAME : SERVICE-ANNUAL NO MATCH RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	PRESENT. Code assigned to Agency by IRS
3-4	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A, Sec. 3)
5	Subagency Priority Code	1	PRESENT. Indicates subagency with highest priority for OCSE. Must be 0 or 1 for agencies 01 or 02. Zero filled by other agencies.
6-9	Name Control	4	PRESENT. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters will be left justified filling the unused positions with blanks. Apos- trophes and embedded blanks will be removed, a hyphen is allowed in position 2, 3 or 4. (See Definitions - Part A, Sec. 3)
10-19	SSN	10	PRESENT. Enter the obligor's Social Security Number as assigned by SSA. Right justify and first numeric will be zero.

Tape Position	Field Title	Length	Description and Remarks
20-39	Last Name	20	PRESENT. Enter the obligors Last Name. Left justified and filled with blanks. It will contain last name of obligor as submitted by the agency.
40-54	First Name	15	PRESENT. The obligor's First Name. Left justified and filled with blanks. It will contain first name of obligor as submitted by the agency.
55-64	Amount Owed	10	PRESENT. The amount owed by the obligor. The amount must be entered in dollars and cents. Do not enter dollar signs, commas, decimal points or negative amounts. The Amount Owed must be right justified and unused positions must be zero filled.
65-66	Agency Information	2	PRESENT. Information as necessary to be determined by each agency and recognized and approved by IRS. If not used, fill with blanks.
67-69	Local Code	3	PRESENT. FIPS code used by OCSE. For other agencies, as approved by IRS.
70-84	Agency Case Number	15	PRESENT. Identifies account number for the agency files. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
85-86	Error Code	2	PRESENT. The IRS will insert the appropriate code from the table below. ERROR CODE EXPLANATION 01 SSN does not match IMF. 02 SSN matches IMF but Name Control does not match. 03 SSN is listed on the invalid segment of the IMF or another condition causes the record to go unpostable. 04 SSN matches IMF but Account contains Bankruptcy Freeze. 05 Information Record SSN matches IMF. Account frozen. IMF indicates obligor is deceased (Deceased Ind = D). 06-10 Reserved.
87-92	Delinquent Date	6	PRESENT. From input record.
93	Judgement Debt Indicator	1	PRESENT. From input record.
94	Deceased Indicator	1	Generated. Value of 'D' indicates obligor deceased per IRS records. Otherwise blank.
95-150	FILLER	56	PRESENT. Blank-filled.
151-185	IMF NAME LINE	35	PRESENT. Inserted by IRS on all no match code 02. Will be formatted Last name, First name *e.g.*, Public, John & Mary. Field will be blank filled on all other records.

SEC. 14. SERVICE-ANNUAL NO MATCH DATA CONTROL RECORD

Identifies the cumulative counts and amounts for all records on the Service Annual No Match tape file. This record will appear as the last data record on the tape file that IRS will return to the submitting agency.

RECORD NAME : SERVICE-ANNUAL NO MATCH CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	PRESENT. The constant "CNTL." This identifies the end of processable records.
5-12	Total No Match	8	PRESENT. The cumulative record count for all obligor SSN's which did not match the IMF. Right justified and filled with zeroes.

RECORD NAME : SERVICE-ANNUAL NO MATCH CONTROL RECORD - continued

Tape Position	Field Title	Length	Description and Remarks
13-24	Obligation Amount	12	PRESENT. The cumulative total in Amount Owed for all obligor SSN's which did not match the Individual Master File. The amount will be entered in dollars and cents. No dollar signs, commas, decimal points or negative amounts. The Obligation Amount will be right justified and unused portions will be zero filled.
25-185	FILLER	161	PRESENT. Filled with Blanks.

SEC. 15. TRANSMITTER-AGENCY ADDRESS RECORD

The Agency Address Record contains address information which will be included on Service notices to taxpayers. Agencies may submit a central address to refer all obligor inquiries or may submit local addresses.

RECORD NAME: AGENCY ADDRESS RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	REQUIRED Agency Code as assigned by IRS.
3-4	Subagency Code	2	REQUIRED. As assigned by Agency and recognized and approved by IRS. (See Definitions, Part A Sec. 3)
5-7	Local Code	3	REQUIRED. FIPS code for OCSE only. Must be numeric. At least one local code "000" required for each subagency. (See Definitions, Part A, Sec. 3).
8	CHANGE INDICATOR	1	Blank for Annual Address File. For Change Address File, Values are: C = change address A = add address D = Delete address
9-21	FILLER	13	REQUIRED. Blank fill.
22-56	Agency Name	35	REQUIRED. Name of Agency *e.g.*, Department of Education
57-91	Address Line #1	35	REQUIRED. Address Lines 1 through 4 should contain additional address information. Embedded blank lines are not allowed, all lines will be formatted from top to bottom.
92-126	Address Line #2	35	*e.g.*, Note the Agency Name field and the address lines will appear on the offset notice as follows: Agency Name - US Dept of Education
127-161	Address Line #3	35	Line #1- Federal Offset Program Line #2- J.J. Federal Building
162-196	Address Line #4	35	Line #3- 124 Main St. Line #4- Anywhere, WA 11111
197-199	FILLER	3	REQUIRED. Filler - Character Blank
200-225	Local Telephone Number	26	OPTIONAL - however, a local number is required if the toll-free number(s) is not available nationwide.
200	Telephone Type Indicator	1	REQUIRED - enter a '1' if a telephone number is present. Enter a '0' if number not present
201-214	*Telephone Number	14	REQUIRED - If TYPE is '0', blank fill. Otherwise, format '(202) 555-1212'
215	*Filler	1	REQUIRED - blank fill
216-225	*Identifier	10	REQUIRED additional information for local number or blank fill. Examples: 'LOCAL' 'BALT ONLY' 'EXT 451' 'LOCAL BALT'

RECORD NAME: AGENCY ADDRESS RECORD continued

Tape Position	Field Title	Length	Description and Remarks
226-251	Instate Toll-Free Number	26	OPTIONAL
226	Telephone Type Indicator	1	REQUIRED - enter a '2' if a telephone number is present. Enter a '0' if number not present
227-240	*Telephone Number	14	REQUIRED - If TYPE is '0', blank fill. Otherwise, format '(800) 555-1212' or '1-202-555-1212'
241	*Filler	1	REQUIRED - blank fill
242-251	*Identifier	10	REQUIRED - Example 'INSTATE XX' where XX is the state code for that number 'Toll Free' 'Collect'
252-277	Nationwide Toll-Free Number	26	REQUIRED
252	Telephone Type Indicator	1	REQUIRED - enter a '3' to indicate a nationwide toll-free number or a '4' for collect.
253-266	*Telephone Number	14	REQUIRED - Format'(800) 555-1212' or '1-202-555-1212'
267	*Filler	1	REQUIRED - blank fill
268-277	*Identifier	10	REQUIRED - Example 'NATIONWIDE' or 'TOLL-FREE' or 'Collect'
278-300	FILLER	23	REQUIRED - blank fill

* These 25 characters from each phone number segment will be displayed "as is" on IRS Offset Notices. See Exhibit A-4 in Part A, Sec. 10.05.

SEC. 16. TRANSMITTER-AGENCY ADDRESS DATA CONTROL RECORD

Identifies the cumulative count of agency address records on the Agency Address tape file. This record must appear as the last data record on the tape file.

RECORD NAME: AGENCY ADDRESS FILE CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	CNTL	4	REQUIRED. Constant "CNTL"
5-10	Record Count	6	REQUIRED. Number of Addresses on Tape. Right justified, zero filled.
11-300	FILLER	290	REQUIRED. Blank filled.

SEC. 17. TRANSMITTER-WEEKLY UPDATE RECORD

These records will be submitted on a weekly basis by the Transmitter. Each record must contain an SSN, agency code, subagency code, and name control for an obligor that was originally established on the DMF. The record will contain an indicator denoting either a decrease to the original obligation amount, an offset(s) previously turned over to the participating agency has been refunded (fully or partially) directly to the obligor, or an adjustment (decrease) to a previously submitted refund record.

RECORD NAME : TRANSMITTER-WEEKLY UPDATE RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	REQUIRED. Code assigned to Agency by IRS
3-4	Subagency Code	2	REQUIRED. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A, Sec. 3)
5-8	Name Control	4	REQUIRED. Enter the first 4 significant characters of the obligor's last name. Last names of less than four characters should be left justified filling the unused positions with blanks. Embedded blanks should be removed. This field must be identical to the Name Control as submitted on the Annual Certification Tape File for the obligor.(See Definitions - Part A, Sec. 3)

RECORD NAME : TRANSMITTER-WEEKLY UPDATE RECORD - continued

Tape Position	Field Title	Length	Description and Remarks
9-18	SSN	10	REQUIRED. Enter the obligor's Social Security Number as assigned by SSA. This field must be identical to the SSN as submitted on the Annual Certification Tape File for the obligor. Right justify and first numeric must be zero.
19	Type Indicator	1	REQUIRED. Enter the appropriate code from the table below TYPE INDICATOR EXPLANATION: 0 Decrease or deletion in amount of obligation. 1 Refund by agency to obligor. 2 Adjustment(decrease) of previously submitted Refund (Type 1) Record(s)
20-29	Amount of Adjustment	10	REQUIRED. Enter the amount of adjustment to the obligation amount. The amount must be significant and entered in dollars and cents. Do not enter positive or negative signs, signs, dollar signs, or decimal points. The amount of adjustment must be right justified and unused positions must be zero filled. If Type Indicator is '1', this field contains amount of agency refund. If Type Indicator is '2', this field contains amount to decrease previously filed refund (type '1') records. Must be the difference between the original refund record and the correct amount.
30-31	FILLER	2	REQUIRED. BLANK FILL
32-33	YEAR OF ORIGINAL OFFSET	2	Significant on input for Refund/Repayment Records, record type (1) otherwise zero (0), for record type (0)
34-50	FILLER	17	REQUIRED. Blank Fill

SEC. 18. TRANSMITTER-WEEKLY UPDATE DATA CONTROL RECORD

Identifies the cumulative counts and amounts for all records on the Transmitter Weekly Update tape file. This record must appear as the last data record on the tape file which is submitted to IRS. If the counts and amounts do not balance when the tape is validated, the complete file is rejected and update functions are not performed.

RECORD NAME : TRANSMITTER-WEEKLY UPDATE CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	REQUIRED. Enter the constant "CNTL". This identifies the end of processable records.
5-10	Agency Refund/ Correction Count	6	REQUIRED. Enter the cumulative record count of all records having a refund or correction to a refund. (Type Indicator = 1 or 2)
11-16	Delete/Decrease Count	6	REQUIRED. Enter the cumulative record count of all records having a decrease or deletion of the Amount Owed. (Type Indicator = 0)
17-28	Total Money Amounts	12	REQUIRED. Enter the cumulative total in Amount of Adjustment (TYPE 0, TYPE 1 and TYPE 2 records). The amount must be entered in dollars and cents. Do not enter dollar signs, commas, decimal points or negative amounts. This field must be right justified and unused positions must be zero filled.
29-50	FILLER	22	RESERVED. Fill with Blanks.

SEC. 19. SERVICE-WEEKLY UNPROCESSABLE UPDATE RECORD

Identifies Transmitter Weekly Update Records which are deemed unprocessable by IRS. The explanation for this can be found in the No Match Code field of the record. All fields (except No Match code field) will be the same as input on Transmitter Weekly Update record.

RECORD NAME : SERVICE-WEEKLY UNPROCESSABLE UPDATE RECORD

Tape Position	Field Title	Length	Description and Remarks
1-2	Agency Code	2	PRESENT. Code assigned to Agency by IRS
3-4	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A, Sec. 3)
5-8	Name Control	4	PRESENT. The first 4 significant characters of the obligor's last name. Last names of less than four characters will be left justified filling the unused positions with blanks. Special characters and embedded blanks will be removed. (See Definitions - Part A, Sec. 3)
9-18	SSN	10	PRESENT. The obligor's Social Security Number as assigned by SSA. Right justified and first numeric will be zero.
19	Type Indicator	1	PRESENT. The appropriate code from the table below TYPE INDICATOR EXPLANATION 0 Decrease or deletion in amount of obligation. 1 Refund by agency to obligor. 2 Adjustment(decrease) of previously submitted Refund(Type 1) Record(s).
20-29	Amount of Adjustment	10	PRESENT. The amount of adjustment to the obligation amount. The amount will be entered in dollars and cents. Dollar signs, commas, decimal points or negative amounts will not be present. The amount of adjustment will be right justified and unused positions will be zero filled.
30-31	Unprocessable Code	2	PRESENT.IRS will insert the appropriate code from the table below NO MATCH EXPLANATION: CODE 01 Invalid Agency Code 02 Invalid SSN or Name Control 03 Invalid Subagency Code 04 No matching record on the DMF 05 Delete previously processed for this obligor. 06 Agency Refund Repayment Record but no tax refund offset processed offset year 07 Invalid Type Indicator 08 Delete caused obligation to fall below zero ($00.00). (Delete records will be processed by IRS, no-match code returned for information only.) 09 Agency refund/repayment record amount in excess of offset(or original obligation if a delete or refund/repayment was previously processed). Record processed. 10 Amount of adjustment is zero 11 For IRS use only. 12 Duplicate record (same ssn, agency code,sub agency code & type). 13 Correction of refund record. Refund record not previously filed or amount of adjustment exceeds amount of previously filed refund. 14-20 Reserved
32-33	YEAR OF ORIGINAL OFFSET	02	PRESENT. From input.
34-50	FILLER	17	RESERVED. BLANK FILLED.

SEC. 20. SERVICE-WEEKLY COLLECTION (OFFSET/CLAIM) RECORD

Identifies DMF accounts which had in the current week either a federal income tax refund offset or a spousal claim and will contain the amount of that action. If the action is an offset, the latest address information will be inserted at the end of the record. If the action is a claim the record will be blank filled.

RECORD NAME : SERVICE-WEEKLY COLLECTION (OFFSET/CLAIM) RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Type Indicator	1	PRESENT. A code will be inserted from the table below. TYPE INDICATOR EXPLANATION 0 Claim by an injured spouse for a share of an offset: due to not being liable for an obligation amount; or reversal to correct processing error 1 Offset against the obligation amount.
2-3	Agency Code	2	PRESENT. Code assigned to Agency by IRS
4-5	Subagency Code	2	PRESENT. Code Assigned by Agency and recognized and approved by IRS. (See Definitions - Part A, Sec. 3)
6-15	SSN	10	PRESENT.The obligor's Social Security Number as assigned by SSA. Right justified. The first numeric will be zero.
16-25	Amount	10	PRESENT. The amount of offset or claim (depending upon Type Indicator). The amount will be dollars and cents. No dollars signs, commas, decimal points or negative amounts. The Amount is right justified and unused positions will be zero filled. If Type Indicator is '0', the amount will be for a claim. If Type Indicator is '1', the amount will be for an offset.
26-27	YEAR OF ORIGINAL OFFSET	2	PRESENT. Contains the last 2 digits of the year of the offset being reversed. This field is applicable if the Type Indicator field contains a "0', otherwise, it will be filled with zeroes. It will be the processing year of the offset that a claim is being processed against.
28-31	Tax Period	4	PRESENT. Will contain the tax period of the offset or claim. YYMM format.
32-51	Last Name	20	PRESENT. Contains the obligor's Last Name as submitted by agency. Left justified and filled with blanks.
52-66	First Name	15	PRESENT. Contains the obligor's First Name as submitted by agency. Left justified and filled with blanks.
67-81	Agency Case Number	15	PRESENT. Contains the obligor's case number as submitted by the agency. Use is recommended when an agency does not use the SSN as the primary account/case number. If not used, fill with blanks.
82	Filing Status*	1	PRESENT. Contains the appropriate code from the table below. FILING STATUS EXPLANATION 0 Other than Joint Return 2 Joint Return
83-117	Name*	35	PRESENT. For Type 1 Offset records, contains the name of obligor as it appears on the IMF, and will be formatted Last Name, First Name. *e.g., Public, John & Mary. Blank for Type 0 claim records*
118-152	Street Address*	35	PRESENT. For Type 1 Offset records, contains the current mailing address of the obligor. Left justified and blank filled. NOTE: the street address field may be blank. Blank for Type 0 claim records.
153-177	City and State*	25	PRESENT. For Type 1 Offset records, contains the obligor's city and state of residence. Left justified and blank filled. NOTE: the City/State field may contain City/Country for foreign addresses. Blank for Type 0 claim records.

Tape Position	Field Title	Length	Description and Remarks
178-182	ZIP Code*	5	PRESENT. For Type 1 Offset records, contains the obligor's ZIP Code. Blank for Type 0 claim records.
183-186	Name Control*	4	PRESENT. For Type 1 Offset records, contains the first 4 significant characters of the obligor's last name as found on IMF. Last names of less than four characters will be left justified filling the unused positions with blanks. Embedded blanks are removed (See Definitions - Part A, Sec. 3) Blank for Type 0 claim records.
*Note : These fields will be blank filled for Claim Type records. (Type Indicator = 0)			
187-190	OFFSET CYCLE	4	PRESENT. Format is YYCC
191	FILLER	1	PRESENT. Blank Fill.
192-197	EFFECTIVE DATE OF OFFSET	6	PRESENT. FORMAT IS MMDDYY.
198-248	FILLER	51	REQUIRED. Blank Fill.
249-250	AGENCY CODE	2	PRESENT.

SEC. 21. SERVICE-WEEKLY COLLECTION (OFFSET/CLAIM) DATA CONTROL RECORD

Identifies the cumulative counts and amounts for all records on the Service-Weekly Collection (Offset/Claim) tape file. This record will appear as the last data record for each subagency on the tape file that IRS will return to the submitting agency. Also present, as the last record on the file, will be a "CUM" control record containing counts and amounts of all records for the agency.

RECORD NAME : SERVICE-WEEKLY COLLECTION (OFFSET/CLAIM) CONTROL RECORD

Tape Position	Field Title	Length	Description and Remarks
1-4	Record ID	4	PRESENT. The constant "CNTL". This identifies the end of processable records for a subagency.
5-7	Block ID/ Subagency Code	3	PRESENT. The constant "CUM" or the appropriate subagency code. If "CUM" is used it will be the last record; otherwise, it will be a balancing record for all preceding records of same agency and subagency. Subagency code will be left justified.
8-15	Offset Record Count	8	PRESENT. The cumulative record count for all Offset records (Type Indicator = 1, on Service-Weekly Collection (Offset/Claim) Record) current for that week. Right justified and zero filled.
16-27	Offset Amount	12	PRESENT. The cumulative total of all Offset Amounts (Type Indicator = 1, on Service-Weekly Collection (Offset/Claim) Record). The amount will be entered in dollars and cents. No dollar signs, commas, decimal points or negative amounts. The Offset Amount will be right justified and unused positions will be zero filled.
28-35	Claim Record Count	8	PRESENT. The cumulative record count for all Claim records (Type Indicator = 0, on Service-Weekly Collection (Offset/Claim) Record) current for that week. Right justified and zero filled.
36-47	Claim Amount	12	PRESENT. The cumulative total of all Claim Amounts (Type Indicator = 0, on Service-Weekly Collection (Offset/Claim) Record). The amount will be entered in dollars and cents. No dollar signs, commas, decimal points or negative amounts. The Claim Amount will be right justified and unused positions will be zero filled.

Tape Position	Field Title	Length	Description and Remarks
48-59	Net Collections*	12	PRESENT. The absolute value of the Offset Amount minus the Claim Amount. The amount will be entered in dollars and cents. No dollar signs, commas, decimal points or negative amounts. This field will be right justified and unused positions will be zero filled.
60-71	Excess Offset** amount	12	PRESENT. The amount of credits available. If the Offset Amount exceeds the Claim Amount, this field reflects Net Collections; otherwise filled with zeros.
72-83	Excess Claim** Amount	12	PRESENT. The amount of claims in excess of Offset. If the Claim Amount exceeds the Offset Amount, this field reflects Excess Claim amount; otherwise it is filled with zeros.
84-186	FILLER	103	PRESENT. Filled with blanks.
187-190	Offset Cycle	4	PRESENT. Format is YYCC
191	FILLER	1	PRESENT. Blank filled.
192-197	Effective Date of Offset	6	PRESENT. Format is MMDDYY.
198-248	FILLER	51	PRESENT. Blanked Filled.
249-250	AGENCY CODE	2	PRESENT.

*Note: If the Offset Amount exceeds the Claim Amount, the Excess Offset Amount will contain the same value as the Net Collections. If the Claim Amount exceeds the Offset Amount, the Excess Claim Amount will contain the same value as the Net Collections.

**Note : When the Net Collections field is significant, only one of these fields will also be significant. In addition, the significant field will contain the same value as the Net Collections field.

SEC. 22. TRANSMITTER HEADER RECORDS

.01 The transmitter header records must be in ANSI standard label format.

.02 The File Identifier field (data set name - DSNAME) is in the HDR1 data set label. It is located in positions 5 thru 21 and must be left justified and blank filled. The File Identifier for the appropriate Agency files must be as follows:

RECORD TYPE	FILE NAME *@	FILE IDENTIFIER @
Pre-Offset Address Request	440-PO-##	I4403APO.AG##.IRS
Annual Certification	440-AC-##	I4403AAC.AG##.IRS
Agency Address	440-AA-##	I44020AA.AG##.IRS
Agency Address Update	48O-AA-##	I48015AA.AG##.IRS
Weekly Update	445-WK-##	I44512WK.AG##.IRS

* See Part A, Sec. 4.03, for reference to File Name.

@ ## is replaced with the appropriate Agency Code assigned by IRS.

e.g., Pre-Offset Address Request File Name = 440-PO-02

File Identifier = I4403APO.AG02.IRS

SEC. 23. SERVICE HEADER RECORDS

.01 The service header records will be in ANSI standard label format.

.02 The file identifier (data set name - DSNAME) in the HDR1 data set label for the appropriate files will be as follows:

Record Type	*File Name @*	*File Identifier @*
Pre-Offset Unprocessable Address Request	440-03-PO	O44003PO.AG##.IRS
Pre-Offset Address Request	440-14-PO	O44014PO.AG##.IRS
Annual Unprocessable Certification	440-03-AC	O44003AC.AG##.IRS
Annual Nomatch Certification	440-08-AC	O44008AC.AG##.IRS
Weekly Unprocessable Update	445-12-WK	O44512WK.AG##.IRS
Weekly Collection	445-17-WK	O44517WK.AG##.IRS

@ - ## is replaced with the appropriate Agency Code assigned by IRS.

e.g., Weekly Collection File Name = 445-17-WK

File Identifier = O44517WK.AG01.IRS

26 CFR 601.102: Rulings and determination letters.

Rev. Proc. 89-26

SECTION 1. BACKGROUND

Rev. Proc. 89-3, page 761, this Bulletin, sets forth areas in which the Internal Revenue Service will not issue advance rulings or determination letters. Section 5 of Rev. Proc. 89-3 is entitled "AREAS UNDER EXTENSIVE STUDY IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED UNTIL THE SERVICE RESOLVES THE ISSUE THROUGH PUBLICATION OF A REVENUE RULING, REVENUE PROCEDURE, REGULATIONS OR OTHERWISE." Section 5.27 concerns the classification of equipment leasing trusts for federal income tax purposes.

SEC. 2. PROCEDURE

Rev. Proc. 89-3 is modified by deleting section 5.27.

SEC. 3. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is modified.

SEC. 4. EFFECTIVE DATE

This revenue procedure is effective as of April 3, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

---

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Sections 25, 103, 143; 1.25-1T, 1.103-1, 6a.103A-2.)

Rev. Proc. 89-27

SECTION 1. PURPOSE

This revenue procedure supplements Rev. Proc. 88-48, 1988-2 C.B. 635, by adding "average area purchase price" safe harbor limitations for Guam and Puerto Rico.

SEC. 2. BACKGROUND

.01 Issuers of qualified mortgage bonds, as defined in section 143(a) of the Internal Revenue Code, and mortgage credit certificates, as defined in section 25(c), must satisfy several requirements if the interest on the bonds is to be excludable from gross income under section 103(a) or the credit attributable to the certificates is to be allowable against federal income tax. One of the requirements is that the cost of each residence financed must not exceed a certain percentage of the average area purchase price applicable to such residence. The average area purchase price with respect to any residence is the average purchase price of single-family residences in the statistical area in which the residence is located that were purchased during the most recent 12-month period for which sufficient statistical information is available.

.02 Prior to the enactment of the Tax Reform Act of 1986 (Act), section 1301, 1986-3 (Vol. 1) C.B. 519, former section 103A(f) of the Code provided that the acquisition cost of each residence could not exceed 110 percent (120 percent for a targeted area residence) of the average area purchase price. The Act repealed section 103A(f) and replaced it with section 143(e), which provides that the acquisition cost can not exceed 90 percent (110 percent for a targeted area residence) of the average area purchase price. The Act generally is effective with respect to bonds issued after August 15, 1986. The Technical and Miscellaneous Revenue Act of 1988, Pub. L. No. 100-647, section 4005(a), 102 Stat. 3342, extended the qualified mortgage bond provisions under section 143(a) and the mortgage credit certificate provisions under section 25(c) through December 31, 1989.

.03 Rev. Proc. 85-42, 1985-2 C.B. 496, as originally published, contained a list of the average area purchase price safe harbor limitations for areas within each state and the District of Columbia. Rev. Proc. 87-19, 1987-1 C.B. 712, supplemented Rev. Proc. 85-42 by adding safe harbor limitations for Guam, Puerto Rico, and the Commonwealth of the Northern Mariana Islands. The portion of Rev. Proc. 85-42 concerning safe harbor limitations for the states and the District of Columbia was obsoleted by Rev. Proc. 87-20, 1987-1 C.B. 713. Rev. Proc. 87-20 was obsoleted by Rev. Proc. 88-48. Section 3 of Rev. Proc. 87-19 provides that the safe harbor limitations for Guam, Puerto Rico, and the Commonwealth of the Northern Mariana Islands published in Rev. Proc. 87-19 may be relied on until new safe harbor limitations are published.

SEC. 3. APPLICATION AND EFFECTIVE DATE

.01 The average area purchase price safe harbor limitations for Guam and Puerto Rico are contained in this revenue procedure. Issuers may continue to rely on these safe harbor limitations until they are rendered obsolete by a new revenue procedure.

.02 Issuers of qualified mortgage bonds and mortgage credit certificates for residences in Guam and Puerto Rico may rely on the average area purchase price safe harbor limitations contained in this revenue procedure for the period beginning April 10, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin, and ending on the date that such safe harbor limitations are rendered obsolete by a new revenue procedure.

.03 Issuers may continue to rely on the average area purchase price safe harbor limitations for new residences in Puerto Rico added to Rev. Proc. 85-42 by Rev. Proc. 87-19 for mortgages financed with the proceeds of qualified mortgage bonds sold before May 10, 1989, 30 days after publication of this revenue procedure in the Internal Revenue Bulletin, if the commitments to provide financing for the mortgages are made before July 9, 1989, 90 days after publication of this revenue procedure in the Internal Revenue Bulletin.

.04 Issuers of mortgage credit certificates may continue to rely on the average area purchase price safe harbor limitations for new residences in Puerto Rico added to Rev. Proc. 85-42 by Rev. Proc. 87-19 for certificates issued with respect to bond authority exchanged before May 10, 1989, 30 days after publication of this revenue procedure in the Internal Revenue Bulletin, if commitments to issue the certificates are made before July 9, 1989, 90 days after publication of this revenue procedure in the Internal Revenue Bulletin.

.05 The issuers of qualified mortgage bonds and mortgage credit certificates in the Commonwealth of the Northern Mariana Islands may continue to rely on the average area purchase price safe harbor limitations added to Rev. Proc. 85-42 by Rev. Proc. 87-19 until new safe harbor limitations are published for that jurisdiction.

.06 The average area purchase price safe harbor limitations, which are set forth below, have not been adjusted to reflect either the 90 percent of the average area purchase price described in section 143(e)(1) of the Code or the 110 percent of the average area purchase price described in section 143 (e)(5).

STATE AND AREA DESIGNATION	AVERAGE AREA PURCHASE PRICE SAFE HARBOR LIMITATIONS FOR SINGLE-FAMILY RESIDENCES NEW	EXISTING
Guam		
All Areas	$59,200	$59,200
Puerto Rico		
All Areas	$43,800	$44,800

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 88-48 is supplemented, and Rev. Proc. 85-42, as supplemented by Rev. Proc. 87-19, is obsoleted except as provided in section 3.05 of this revenue procedure.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-28

SECTION 1. PURPOSE

The purpose of this revenue procedure is to amplify Rev. Proc. 86-41, 1986-2 C.B. 716, which sets forth the information that must be included in a request for a ruling under section 355 of the Internal Revenue Code.

SEC. 2. BACKGROUND

Section 355(a)(1)(D)(ii) of the Code requires that it be established to the satisfaction of the Secretary that a retention by the distributing corporation (Distributing) of stock in the controlled corporation (Controlled) was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income tax. This revenue procedure amplifies Rev. Proc. 86-41 by adding to section 4.02 4. guidelines which the Service uses in making a determination under section 355(a)(1)(D)(ii) of the Code and section 1.355-2(e) of the Regulations (formerly section 1.355-2(d)).

SEC. 3. PROCEDURE

Rev. Proc. 86-41 is amplified by adding after section 4.02 4.(a)(3) the following:

The Service will issue favorable rulings regarding the application of section 355(a)(1)(D)(ii), relating to the retention by Distributing of stock in Controlled, to transactions involving a widely held corporation that are not covered by Rev. Rul. 75-321, 1975-2 C.B. 123, if:

(1) a sufficient business purpose exists for the stock retention;

(2) none of Distributing's directors or officers will serve as a director or officer of Controlled as long as Distributing continues to hold Controlled stock;

(3) the retained stock will be disposed of as soon as a disposition is warranted consistent with the business purpose in (1) above but in no event later than 5 years after the distribution and;

(4) Distributing votes the retained stock in proportion to the votes cast by Controlled's other shareholders. For example, if subsequent to the distribution the other shareholders of Controlled vote 70 per cent in favor of a matter and 30 per cent against, then Distributing would be required to vote the retained stock 70 per cent in favor and 30 per cent against the matter.

SEC. 4. COMMENTS OR INQUIRIES

Comments or inquiries regarding this revenue procedure should be addressed to the Assistant Chief Counsel (Corporate), Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224.

SEC. 5. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 86-41 is amplified.

SEC. 6. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests on hand in the National Office on April 10, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin, as well as to requests received thereafter.

---

26 CFR 601.201: Rulings and determination letters. (Also Part I, Sections 401, 411.)

Rev. Proc. 89-29

SECTION 1. PURPOSE

This revenue procedure provides final guidelines resulting from the reconsideration of Rev. Proc. 75-49, 1975-2 C.B. 584.

SEC. 2. CHANGE

This revenue procedure provides that, effective for plan years beginning after December 31, 1988, the tests described in Rev. Proc. 75-49, as modified by Rev. Proc. 76-11, 1976-1 C.B. 550, will no longer apply.

SEC. 3. BACKGROUND

.01 Rev. Proc. 75-49, as modified by Rev. Proc. 76-11, provides guidelines that are followed by the Internal Revenue Service in determining, for purposes of an advance determination letter under section 601.201(o) of the regulations (Statement of Procedural Rules), whether the vesting schedule of an employee plan discriminates, or is likely to discriminate, in favor of employees who are officers, shareholders, or highly compensated (the "prohibited group"). Those guidelines are concerned only with the circumstances in which a faster rate of vesting than would otherwise be required is appropriate for advance determination purposes due to actual or potential discrimination in the accrual of benefits or forfeitures in favor of the prohibited group.

.02 Rev. Proc. 75-49 established tests (the "key employee test" and the "turnover test") by which such discrimination would be ascertained in connection with an advance determination letter. If an employer could not satisfy these tests (when applicable), an advance determination letter would in no event be issued if the plan provided vesting at a rate less rapid than 40 percent after four years of employment, an additional 5 percent for each of the next two years, and an additional 10 percent for each of the following five years ("four forty vesting"). A plan which satisfied the requirements of this test would not be required to satisfy the key employee test or the turnover test for purposes of an advance determination as to its qualified status.

.03 Comments received by the Service suggested that a large number of employers might not be able to show compliance with Rev Proc. 75-49 without the 4-40 vesting rate set forth therein. It was decided that Rev. Proc. 75-49 would be reconsidered by the Service.

.04 Pending completion of the reconsideration of Rev. Proc. 75-49, the Service has, for purposes of issuing favorable determination letters, treated the vesting schedule of a plan as satisfying the nondiscrimination requirements of section 401(a)(4) of the Code if the plan satisfies the minimum vesting requirements of section 411(a)(2) (if applicable) and, in addition, any one of three conditions set forth in section 3.01 of Rev. Proc. 76-11. Those conditions are as follows:

(1) the plan complies with the tests contained in Rev. Proc. 75-49, either by (i) adoption of 4-40 vesting, or (ii) satisfaction of the key employee test or the turnover test (whichever test or tests may be applicable); or

(2) in the case of any plan which had previously been the subject of a favorable advance determination letter that has not been revoked, the percentage of vesting of each participant provided under the plan, as amended, is not less (at every point) than that provided under the vesting schedule of the plan upon which such most recent prior determination letter was based; or

(3) there is a demonstration, to the satisfaction of the Service, on the basis of all the facts and circumstances, that there has not been, and there is no reason to believe there will be, an accrual of benefits or forfeitures tending to discriminate in favor of the prohibited group.

.05 Section 4 of Rev. Proc. 76-11 provides that, pending completion of the reconsideration of Rev. Proc. 75-49, an applicant may request in writing that its application be processed without regard to whether the vesting provisions of the plan satisfy the nondiscrimination requirement of section 401(a)(4) of the Code. However, a determination letter issued to such an applicant will contain a caveat to the effect that such letter is not a determination as to whether the vesting provisions of the plan satisfy the nondiscrimination requirements of section 401(a)(4). Upon publication of final guidelines resulting from the reconsideration of Rev. Proc. 75-49, an applicant that had been issued a determination letter containing such a caveat may request, upon satisfying such guidelines, to have the caveat deleted. Such a request will be considered a continuation of the previous request for a determination letter and will therefore not require either the filing of a new application or additional notification of interested parties.

.06 With regard to the situation in which a plan fails to satisfy any of the three conditions described in subsection .04 above and in which the alternative described in subsection .05 has not been requested, section 3.04 of Rev. Proc. 76-11 states that such plan shall not be required by the Service to provide a vesting schedule more rapid than 4-40 vesting as a condition to the issuance of a favorable advance determination letter, except, however, that, pursuant to section 411(d)(1) of the Code, the Service may require vesting more rapid than 4-40 vesting if there has been a pattern of abuse under the plan or actual misuse of the plan in operation which affects the qualified status of the plan or trust.

SEC. 4. SCOPE

This revenue procedure applies solely for purposes of advance determination letters, and therefore does not apply in cases where the qualified status of a plan or trust under section 401(a) or 403(a) of the Code is determined upon examination of its operations. This revenue procedure also does not apply in determining whether there has been a pattern of abuse under a plan (such as the intentional dismissal of employees to prevent vesting) or actual misuse in the operation of a plan which affects the qualified status of the plan or trust.

SEC. 5. LEGISLATIVE CHANGES AFFECTING VESTING

.01 *The Tax Reform Act of 1986 (TRA '86)*

(1) Section 1113(a) of TRA '86, 1986-3 (Vol. 1) C.B. 1, 363, changed the minimum vesting standards under section 411 of the Code. The changed standards provide that a plan is not a qualified plan unless a participant's employer-provided benefit vests at least as rapidly as under one of two alternative vesting schedules or, in the case of an employee covered by a multiemployer plan pursuant to a collective bargaining agreement, the employee has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions upon completion of 10 years of service. A plan satisfies the first alternative vesting schedule if a participant has a nonforfeitable right to 100 percent of the participant's accrued benefit derived from employer contributions upon completion of 5 years of service. A plan satisfies the second schedule if a participant has a nonforfeitable right to at least 20 percent of the participant's accrued benefit derived from employer contributions after 3 years of service, 40 percent at the end of 4 years of service, 60 percent at the end of 5 years of service, 80 percent at the end of 6 years of service, and 100 percent at the end of 7 years of service. This change is effective generally for plan years beginning after December 31, 1988.

(2) Section 1114(b)(10) of TRA '86 changed section 411(d)(1) of the Code, effective generally for years beginning after December 31, 1988, by substituting "employees who are highly compensated employees (within the meaning of section 414(q))" for "employees who are officers, shareholders, or highly compensated."

.02 *Special Rules for Top-Heavy Plans.* The Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), Pub. L. 97-248, 1982-2 C.B. 462, established requirements that must be met by a top-heavy plan as defined in section 416(g) of the Code. Such a plan must meet the vesting requirements of section 416(b) and the minimum benefit requirements of section 416(c). In order to meet the vesting requirements of section 416(b), a top-heavy plan must provide either "3-year vesting" or "6-year vesting."

(1) A top-heavy plan satisfies the 3-year vesting requirement under section 416(b)(1)(A) if an employee who has completed at least three years of service with the employer or employers maintaining the plan has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions.

(2) A top-heavy plan satisfies the 6-year vesting requirement under section 416(b)(1)(B) if an employee has a nonforfeitable right to a percentage of the employee's accrued benefit derived from employer contributions determined under the following table:

Years of Service	*Nonforfeitable percentage*
2	20
3	40
4	60
5	80
6	100

SEC. 6. FINAL GUIDELINES CONCERNING ISSUANCE OF DETERMINATION LETTERS

As the result of its reconsideration of Rev. Proc. 75-49, and in light of the legislative changes described in section 5 above, the Service has concluded that, for purposes of an advance determination as to whether a plan's vesting rate is rapid enough, the key employee test, the turnover test and the four-forty vesting test will not be applied with respect to plan years beginning after December 31, 1988. Instead, a plan that satisfies the minimum vesting standards under section 411(a)(2) as amended by TRA '86 or, in the case of a top-heavy plan, the requirements of section 416(b), will be deemed to provide a rapid enough rate of vesting for purposes of an advance determination letter unless there has been a pattern of abuse or actual misuse in the operation of the plan. The interim tests set forth in Rev. Proc. 76-11 will continue to apply until the effective date of this change.

SEC. 7. EFFECT ON OTHER DOCUMENTS

Rev. Procs. 75-49 and 76-11 are superseded for plan years beginning after December 31, 1988.

SEC. 8. EFFECTIVE DATE

This revenue procedure applies to determination letters issued with respect to plan years beginning after December 31, 1988.

---

26 CFR 601.201: Ruling and determination letters.

Rev. Proc. 89-30

SECTION 1. PURPOSE

This revenue procedure revokes section 5 of Rev. Proc. 77-37, 1977-2 C.B. 568, superseded in part by Rev. Proc. 79-14, 1979-1 C.B. 496, and amplified by Rev. Proc. 77-41, 1977-2 C.B. 574, Rev. Proc. 82-23, 1982-1 C.B. 474, Rev. Proc. 83-81, 1983-2 C.B. 598, Rev. Proc. 84-42, 1984-1 C.B. 521, and Rev. Proc. 86-42, 1986-2 C.B. 722. Rev. Proc. 77-37 contains operating rules for the issuance of advance rulings as to matters within the jurisdiction of the Assistant Chief Counsel (Corporate) of the Internal Revenue Service.

SEC. 2. BACKGROUND

.01 Section 306(a) of the Internal Revenue Code concerns the treatment of the amount realized on the disposition or redemption of section 306 stock, as defined in section 306(c). Section 306(b)(4) provides in part that section 306(a) shall not apply if it is established to the satisfaction of the Secretary that the distribution and the disposition or redemption of the section 306 stock wasnot in pursuance of a plan having as one of its principal purposes the avoidance of federal income tax.

.02 See Rev. Rul. 89-63, page 90, this Bulletin, for a clarification of the application of section 306(b)(4).

SEC. 3. PROCEDURE

Section 5 of Rev. Proc. 77-37 provides the usual requirements for obtaining a favorable ruling under section 306(b)(4) of the Code. The proper scope and function of section 306(b)(4) has been under extensive study and it has been determined that the requirements listed in section 5 do not adequately identify those cases which warrant the relief provided by section 306(b)(4). Therefore, section 5 is hereby revoked. The Service will continue to consider requests for rulings concerning the application of section 306(b)(4) pending completion of its study.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 77-37 is modified.

SEC. 5. EFFECTIVE DATE

The modification of Rev. Proc. 77-37 is effective May 1, 1989, the date of publication of this revenue procedure.

26 CFR 601.104: Collection functions.

Rev. Proc. 89-31

SECTION 1. PURPOSE AND SCOPE

This revenue procedure provides general guidance necessary to comply with section 1446 of the Internal Revenue Code, as amended by section 1012(s) of the Technical and Miscellaneous Revenue Act of 1988, P.L. 100-647, concerning certain withholding requirements applicable to partnerships with foreign partners. This revenue procedure is organized in the following manner:

Section 1 — PURPOSE AND SCOPE;

Section 2 — BACKGROUND (History of section 1446);

Section 3 — REQUIREMENT OF WITHHOLDING (Description of withholding requirements under section 1446);

Section 4 — WITHHOLDING AGENTS (Who is responsible for withholding under section 1446);

Section 5 — DETERMINATION OF WHETHER A PARTNER IS A FOREIGN PERSON (How to determine whether a partner is a foreign person subject to withholding);

Section 6 — EFFECTIVELY CONNECTED TAXABLE INCOME (Determination of amount of effectively connected taxable income allocable to foreign partners);

Section 7 — AMOUNT OF WITHHOLDING TAX (Determining the amount of withholding tax (including the applicable percentage) and the time for payment of that tax);

Section 8 — REPORTING AND PAYING OVER WITHHELD TAX (How to report and pay over withheld amounts);

Section 9 — TREATMENT OF PARTNERS (Effect of section 1446 withholding on partners);

Section 10 — PUBLICLY TRADED PARTNERSHIPS (Special rules for publicly traded partnerships); and

Section 11 — TIERED PARTNERSHIPS (Special rules for tiered partnerships).

SEC. 2. BACKGROUND

Section 1012(s)(1)(D) of the Technical and Miscellaneous Revenue Act of 1988 (the "1988 Act"), P.L. 100-647, retroactively amends section 1446 of the Internal Revenue Code of 1986, and provides that no amount of tax shall be required to be deducted and withheld under section 1446 of the 1986 Code as in effect prior to its amendment by the 1988 Act. Prior to its amendment, section 1446 of the 1986 Code, as enacted by section 1246 of the Tax Reform Act of 1986, P.L. 99-514, had required partnerships with a U.S. trade or business to withhold a 20 percent tax from certain distributions made after December 31, 1987 to their foreign partners. Rev. Proc. 88-21, 1988-1 C.B. 777 (declared obsolete by this revenue procedure).

As amended by the 1988 Act, section 1446 of the Code generally applies to U.S. and foreign partnerships in any taxable year beginning after December 31, 1987, in which they have effectively connected taxable income that is allocable to foreign partners. Under this revenue procedure, a partnership may have effectively connected taxable income with respect to some of its foreign partners but not others. Affected partnerships are no longer to withhold on distributions to foreign partners. These partnerships are now required to pay a withholding tax in the time and manner specified in this procedure, equal to the applicable percentage of the effectively connected taxable income allocable to its foreign partners. A publicly traded partnership is subject to the rules in Section 10 of this revenue procedure. Section 10 provides rules by which a publicly traded partnership is to determine the non-foreign status of partners, and for withholding, reporting, and paying over tax on distributions. Section 10 of this revenue procedure also provides an election under which a publicly traded partnership can pay a withholding tax based upon effectively connected taxable income allocable to its foreign partners under the general rules of this revenue procedure, instead of withholding on distributions.

SEC. 3. REQUIREMENT OF WITHHOLDING

If in any taxable year beginning after December 31, 1987, a foreign or domestic partnership (as defined in section 7701 of the Code, but excluding a partnership treated as a corporation under the general rule of section 7704(a) of the Code) has effectively connected taxable income allocable under section 704 to a foreign partner, then the partnership must pay a withholding tax equal to the applicable percentage (defined in Section 7.013 of this revenue procedure) of the effectively connected taxable income that is allocable to its foreign partners. A publicly traded partnership (excluding a partnership treated as a corporation under the general rule of section 7704(a) of the Code) is required to withhold on distributions in accordance with the rules set forth in Section 10 of this revenue procedure, unless it makes the election in Section 10 to pay a withholding tax under the general rules of this revenue procedure that apply to non-publicly traded partnerships.

SEC. 4. WITHHOLDING AGENTS

.01 *In general.* Section 1446, as amended by the 1988 Act, generally requires a partnership to pay a withholding tax with respect to effectively connected taxable income allocable to its foreign partners. The general partners of a partnership shall be jointly and severally liable as withholding agents for the partnership. For ease of reference, this revenue procedure refers to various requirements applicable to withholding agents as requirements applicable to partnerships themselves. This does not affect the legal incidence of liability. Additional rules applicable to publicly traded partnerships are provided in Section 10 of this revenue procedure.

.02 *Penalty for failure to withhold and pay over tax under section 1446.* A partnership (including a publicly traded partnership) that is required to pay a withholding tax under section 1446 of the Code is made liable for that tax under section 1461. Therefore, a partnership that is required to pay such tax, but fails to do so, may be held liable for the payment of the tax, any applicable penalties, and interest. A person that is required, but fails, to pay the withholding tax required by section 1446 may also be subject to civil and criminal penalties. Officers or other responsible persons of either a corporation that is a general partner or any other withholding agent may be subject to a civil penalty under section 6672 equal to the amount that should have been withheld and paid over.

SEC. 5. DETERMINATION OF WHETHER A PARTNER IS A FOREIGN PERSON

.01 *In general.* Section 1446 of the Code requires a partnership (including a publicly traded partnership) with effectively connected taxable income allocable to any partner that is a foreign person to pay a withholding tax with respect to that partner. Accordingly, a partnership must determine under the rules of this Section whether any partner is a foreign person subject to section 1446. For purposes of section 1446, a foreign person is a nonresident alien individual, foreign corporation, foreign partnership, or foreign trust or estate. A partnership may determine a partner's status by relying upon a certification of non-foreign status, under the rules of Section 5.02 of this revenue procedure, or any other means, under the rules of Section 5.03. Additional rules applicable to publicly traded partnerships are provided in Section 10 of this revenue procedure.

.02 *Certification of non-foreign status.*

1 *In general.* This Section provides rules pursuant to which a partnership can determine that a partner is not a foreign person by obtaining a certification of non-foreign status from the partner. A partnership that has obtained such a certification may rely upon it to establish the non-foreign status of a partner, as provided in paragraph 2, below.

2 *Effect of certification.* A partnership that has obtained a certification of non-foreign status in accordance with the rules of this Section may rely upon the certification to determine that the partner is not subject to withholding, but only if the partnership does not have actual knowledge that the certification is false. If a partnership relies in good faith upon a certification, but it is subsequently determined that the certification was false, the partnership shall not be subject to the liability described in Section 4.02 of this revenue procedure for a failure to pay the withholding tax under section 1446 of the Code. A certification that satisfies the requirements of this revenue procedure will also satisfy the requirements for a certificate of non-foreign status under section 1445. If a partnership has actual knowledge that a certification of non-foreign status is false, however, it shall not be entitled to rely on that certification at any time after obtaining that knowledge. For this purpose, the knowledge of any general partner will be imputed to the partnership to give rise to a withholding liability under section 4.01 of this revenue procedure. The knowledge of one of its limited partners will not be imputed to a partnership based solely upon that partner's status as a limited partner. A partnership shall be fully liable under section 1461 for any failure to pay the withholding tax under section 1446 for the taxable year in which it obtained knowledge that a certification of non-foreign status is false. However, a partnership will not be liable for penalties for failure to make timely payments of installments of the section 1446 withholding tax that were due prior to the time it obtained knowledge that a certification was false. The liability of a publicly traded partnership is set forth in Section 10 of this revenue procedure.

3 *Duration of certification.* A partnership may rely on a partner's certification of non-foreign status until the earliest of:

(a) the end of the third year after the taxable year of the partnership during which the certification was obtained;

(b) the date the partnership receives notice from the partner that it has become a foreign person; or

(c) the date the partnership has actual knowledge that the partner is, or has become, a foreign person.

4 *Form of certification.* No particular form is required for a certification of non-foreign status, nor is any particular language required. The certification must:

(a) State that the partner is not a foreign person,

(b) Set forth the partner's name, U.S. identifying number, and home address (in the case of an individual) or office address (in the case of an entity),

(c) Provide that the partner will notify the partnership within sixty (60) days of a change to foreign status, and

(d) Be signed under penalties of perjury. An individual's U.S. identifying number is the individual's social security number (or such other taxpayer identification number as may have been assigned to a foreign individual by the Internal Revenue Service), and any other person's U.S. identifying number is its U.S. employer identification number. A certification of non-foreign status must be verified as true and signed under penalties of perjury by a responsible corporate officer in the case of a corporation, by a general partner in the case of a partnership, and by a trustee, executor, or equivalent fiduciary in the case of a trust or estate. A certification of non-foreign status may also be signed by a person authorized under a power of attorney in proper form executed by the partner, provided the power of attorney accompanies the certification. Examples of acceptable certifications of non-foreign status are provided in Section 5.04 of this revenue procedure.

5 *Certifications under section 1445.* During a partnership's taxable years beginning before July 1, 1989, but not thereafter, the partnership may, except as provided in this section, rely on a certification of non-foreign status provided by a partner under section 1445 of the Code and section 1.1445-2 or 1.1445-5 of the regulations.

For purposes of section 1446 a partnership may not rely upon a certification of non-foreign status given by a foreign corporation that has based the certification on an election under section 897(i). A foreign corporation that has made an election under section 897(i) continues to be treated as a foreign person for all U.S. tax purposes other than sections 897, 1445, and 6039C. Thus, a partnership must withhold with respect to a foreign corporate partner without regard to whether that foreign corporation has made an election under section 897(i).

6 *Retention of certifications.* A partnership must retain a certification of non-foreign status until the end of the fifth taxable year after the last taxable year in which the partnership relied upon the certification.

7 *Special rule for widely held partnerships.* In addition to a certification of non-foreign status, a widely held partnership (a partnership which has more than 200 partners, including a publicly traded partnership that has elected to pay a withholding tax based on effectively connected taxable income allocable to its foreign partners instead of withholding on distributions), that seeks to determine whether or not any of its partners are foreign persons may rely on the information provided to it by partners on a Form 1001, Form W-8, or Form W-9. In addition, a widely held partnership may rely on a certification under penalties of perjury from a nominee about the non-foreign status of partners owning partnership interests through the nominee. No particular form is required for a certification from a nominee, but the certification should identify the partner for whom the certification is made, and indicate the basis for the certification. In making such a certification a nominee may also rely on a certification of non-foreign status provided by a foreign partner under the rules of Section 5.02, or may rely on information provided to it on Form 1001, Form W-8, or Form W-9 in determining whether a partner is a foreign person. Neither a partnership nor a nominee may directly or indirectly rely on information on a Form 1001, Form W-8, or Form W-9 after the date that such form must be re-executed, nor on a certification of non-foreign status based upon an election under section 897(i) of the Code.

A partnership that is permitted to rely on a certification of non-foreign status and the alternative forms of information (Forms 1001, W-8, or W-9) in determining non-foreign status, and that relies in good faith on any of those shall not be subject to the liability imposed by Section 4.02 of this revenue procedure for a failure to withhold under section 1446 of the Code. However, a partnership that has actual knowledge of the falsity of any of these forms of information shall not be entitled to rely on that form of information any time after obtaining that knowledge, and the partnership shall be fully liable under section 1461 for any failure to pay the withholding tax under section 1446 for the taxable year in which it obtained that knowledge. The partnership will not be liable for penalties for failure to make timely payments of installments of the section 1446 withholding tax that were due prior to the time it obtained knowledge that the information upon which it was entitled to rely was false.

In the case of a widely held partnership, the documentation used to determine the non-foreign status of a partner must be retained until the end of the fifth taxable year following the last taxable year in which the partnership properly relied upon the documentation as provided in this revenue procedure.

.03 *Use of means other than certification.* A partnership is not required to obtain a certification of non-foreign status under the rules of Section 5.02 of this revenue procedure, but may instead rely upon other means to ascertain the non-foreign status of the partner. If, however, the partnership relies upon other means not specified in Section 5.02 of this revenue procedure, and erroneously determines that the partner was not a foreign person, then the partnership is subject to the liability described in Section 4.02. A partnership is in no event required to rely upon other means to determine the non-foreign status of a partner and may demand a certification of non-foreign status. If a certification is not provided, the partnership may withhold tax under section 1446 of the Code and will be considered, for purposes of sections 1461 through 1463, to have been required to withhold such tax.

.04 *Sample certifications.* The following are examples of acceptable certifications under the rules of this revenue procedure.

(a) *Partners who are individuals.* "Section 1446 of the Internal Revenue Code provides that a partnership must pay a withholding tax to the Internal Revenue Service with respect to a partner's allocable share of the partnership's effectively connected taxable income, if the partner is a foreign person. To inform [name of partnership] that the provisions of section 1446 do not apply, I, [name of partner], hereby certify the following:

1. I am not a nonresident alien for purposes of U.S. income taxation;

2. My U.S. taxpayer identification number (social security number) is ______; and

3. My home address is ______.

I hereby agree that if I become a nonresident alien, I will notify the partnership within sixty (60) days of doing so. I understand that this certification may be disclosed to the Internal Revenue Service by the partnership and that any false statement I have made here could be punished by fine, imprisonment, or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct, and complete.

[Signature and Date]"

(b) *Partners that are entities*. "Section 1446 of the Internal Revenue Code provides that a partnership must pay a withholding tax to the Internal Revenue Service with respect to a partner's allocable share of the partnership's effectively connected taxable income, if the partner is a foreign person. To inform [name of partnership] that the provisions of section 1446 do not apply, the undersigned hereby certifies on behalf of [name of the entity] the following:

1. [Name of the entity] is not a foreign corporation, foreign partnership, foreign trust, or foreign estate (as those terms are defined in the Internal Revenue Code and Income Tax Regulations);

2. [Name of the entity]'s U.S. employer identification number is ______, and

3. [Name of the entity]'s office address is ______.

[Name of the entity] hereby agrees to notify the partnership within sixty (60) days of the date [name of the entity] becomes a foreign person. [Name of entity] understands that this certification may be disclosed to the Internal Revenue Service by the partnership and that any false statement contained herein could be punished by fine, imprisonment, or both.

Under penalties of perjury I declare that I have examined this certification and to the best of my knowledge and belief it is true, correct, and complete, and I further declare that I have authority to sign this document on behalf of [name of entity].

[Signature and Date]

[Title]"

SEC. 6. EFFECTIVELY CONNECTED TAXABLE INCOME

.01 *In general*. The term "effectively connected taxable income" means the excess of the gross income of the partnership that is effectively connected, under the principles of section 864 of the Code, or treated as effectively connected with the conduct of a trade or business in the United States, over the allowable deductions that are connected to such income, computed with the following adjustments:

(a) paragraph (1) of section 703 (a) of the Code shall not apply;

(b) the partnership shall be allowed a deduction for depletion with respect to oil and gas wells, but the amount of such deduction shall be determined without regard to sections 613 and 613A;

(c) there shall not be taken into account any item of income, gain, loss, or deduction to the extent allocable to any partner that is not a foreign partner, and

(d) a partnership shall not take into account net operating loss carryovers and charitable contributions.

The computation of a partnership's effectively connected taxable income includes partnership income subject to a partner's election under section 871(d) or 882(d) of the Code, any partnership income treated as effectively connected with the conduct of a U.S. trade or business pursuant to section 897, and other items of partnership income treated as effectively connected under other provisions of the Code, without regard to whether those amounts are taxable to the partner. A foreign partner that files Form 4224, which is used to claim an exemption from withholding under section 1441 and section 1442 of the Code, is deemed to have effectively connected income and is subject to withholding under section 1446.

.02 *Amount allocable to foreign partners*. The amount of withholding tax that a partnership is required to pay under section 1446 for the partnership's taxable year is based on the amount of the partnership's effectively connected taxable income allocable to the partnership's foreign partners for that taxable year. The amount of a partnership's effectively connected taxable income for the partnership's taxable year that is allocable to a foreign partner under section 704 of the Code is equal to the foreign partner's distributive share of effectively connected gross income of the partnership for the partnership's taxable year that is properly allocable to the partner under section 704, reduced by the foreign partner's distributive share of deductions of the partnership for such year that are connected with such income under section 873 or section 882(c)(1), and that are properly allocable to the partner under section 704. For purposes of the preceding sentence, a foreign partner's distributive share of effectively connected gross income and deductions connected with such income shall be computed by taking into account any adjustments to the basis of partnership property described in section 743 pursuant to the partnership's election under section 754. A partnership's effectively connected taxable income shall not be allocable to a foreign partner to the extent such amounts are exempt from U.S. tax with respect to that partner by operation of a treaty or reciprocal agreement to which the United States is a party, or a provision of the Internal Revenue Code.

SEC. 7. AMOUNT OF WITHHOLDING TAX

.01 *Calculation of payments of tax*.

1 *In general*. Under section 1446 of the Code, as amended, a partnership (other than a publicly traded partnership described in Section 10 of this revenue procedure) must make installment payments of withholding tax based on the amount of effectively connected taxable income of the partnership allocable to its foreign partners, as determined under Section 7.012 of this revenue procedure, without regard to whether distributions are made during the partnership's taxable year. Installment payments of this withholding tax are generally to be made at the times specified in Section 7.014 of this revenue procedure, and at the applicable percentage specified in Section 7.013 of this revenue procedure. A partner's liability for the tax imposed under section 884 of the Code and the partner's distributive share of the partnership's tax credits shall not be taken into account in determining the amount of a partnership's installment payments.

2 *Amount of effectively connected taxable income used to compute installment payment of withholding tax*. (i) *In general*. Installment payments of section 1446 withholding tax during the partnership's taxable year are to be based upon the effectively connected taxable income of the partnership year to which they relate. The amount of a partnership's installment payment is equal to the sum of the installment payments for each of the partnership's foreign partners. With respect to a foreign partner, the amount of an installment of the section 1446 withholding tax is to be computed by applying the principles of section 6655(e)(2) of the Code. Under these principles, the partnership's effectively connected income and deductions for each payment period are annualized, the foreign partner's allocable share of these amounts is determined, and the annualized section 1446 withholding tax is computed by applying the section 1446 applicable percentage to the partner's annualized effectively connected taxable income. The installment of section 1446 withholding tax with respect to that foreign partner equals the excess of

the section 6655(e)(2)(B)(ii) applicable percentage of this annualized section 1446 withholding tax over the aggregate of any amounts paid under section 1446 with respect to that partner in prior installments for the partnership's taxable year.

(ii) *Safeharbor.* No penalty will be imposed if (1) the amount of each installment payment equals 25 percent of the withholding tax that would be payable on the amount of its effectively connected taxable income allocable to foreign partners for the prior year, (2) the prior taxable year consisted of twelve months, (3) the partnership filed an information return under section 6031 of the Code for the prior year, and (4) the amount of effectively connected taxable income for the prior year was not less than 50 percent of the effectively connected taxable income as shown on the annual return of section 1446 withholding tax that must be filed for the current year.

3 *Applicable percentage.* In the case of partners that are taxable as corporations under the Internal Revenue Code, the section 1446 applicable percentage is the highest rate of tax specified in section 11(b) of the Code for income derived during the taxable year of the partnership described in Section 7.013 of this revenue procedure, currently 34 percent. In the case of partners that are not taxable as corporations under the Internal Revenue Code (*e.g.*, partnerships, individuals, estates), the applicable percentage is the highest rate of tax specified in section 1 for income derived during the taxable year of the partnership described in Section 7.013 of this revenue procedure, currently 28 percent.

A partnership's liability under section 1461 of the Code and the regulations thereunder includes any underpayment of tax caused by a failure to use the proper applicable percentage in computing and paying the withholding tax due under section 1446. For example, a partnership will be liable under section 1461 and the regulations thereunder if it incorrectly fails to pay any withholding tax for a foreign partner, or underpays a withholding tax for a foreign corporate partner by using the incorrect applicable percentage.

4 *Date payments are due.* Withholding under section 1446 of the Code is imposed on effectively connected taxable income derived through a partnership during a partnership's taxable year. Subject to the transition rules described in Section 8.08 of this revenue procedure, payments of the withholding tax under section 1446 must generally be made during the taxable year of the partnership in which such income is derived. A partnership must generally pay to the Internal Revenue Service a portion of its estimated annual section 1446 payment for each foreign partner on or before the 15th day of the fourth, sixth, ninth, and twelfth months of the partnership's taxable year for U.S. income tax purposes. Any additional amounts determined to be due are to be paid with the filing of the annual return of tax under section 1446, described in Section 8.03 of this revenue procedure.

.02 *Coordination with other withholding rules.*

1 *Interest, dividends, etc.* Fixed or determinable, annual or periodical income subject to tax only under section 871(a) or 881 of the Code is not included in the partnership's effectively connected taxable income under Section 6.01 of this revenue procedure. However, such amounts are independently subject to the withholding requirements of sections 1441 and 1442 and the regulations thereunder.

2 *Real property gains.* (i) *Domestic partnerships in general.* Domestic partnerships that are subject to the withholding requirements of section 1446 of the Code, shall not also be subject to the payment and reporting requirements of section 1445(e)(1) of the Code and the regulations thereunder with respect to income from the disposition of a U.S. real property interest. A domestic partnership's compliance with the requirement to pay a withholding tax under section 1446 satisfies the requirements under section 1445 with respect to dispositions of U.S. real property interests. However, a domestic partnership that would otherwise be exempt from section 1445 withholding by operation of a nonrecognition provision must continue to comply with the requirements of section 1.1445-5(b)(2) of the regulations. Rules coordinating the withholding liability of publicly traded partnerships under section 1445 of the Code and section 1446 are provided in Section 10 of this revenue procedure.

(ii) *Credit for section 1445(e)(1) withholding.* Any amounts withheld and paid over by a partnership under section 1445(e)(1) of the Code, during the partnership's taxable year with respect to transactions occurring during taxable years beginning after December 31, 1987, but prior to the filing of the annual return reporting section 1446 withholding for such years, shall be allowed as a credit against the partnership's section 1446 tax liability for that taxable year.

(iii) *Foreign partnerships.* A foreign partnership that is subject to withholding under section 1445(a) during a taxable year, shall be allowed to credit the amount withheld under section 1445(a) against its liability to pay the section 1446 withholding tax for that year.

SEC. 8. REPORTING AND PAYING OVER WITHHELD TAX

.01 *In general.* Except in the case of publicly traded partnerships that are withholding on distributions to foreign partners under the general rule of Section 10 of this revenue procedure, payments of withholding tax required to be made during a partnership's taxable year must be reported and paid over to the Internal Revenue Service by the appropriate payment date described in Section 7.014 of this revenue procedure. Until further guidance is published by the Internal Revenue Service, such payments are to be reported in the manner prescribed in this Section 8. In addition, a partnership (other than a publicly traded partnership subject to the reporting requirements in Section 10 of this revenue procedure) that has effectively connected taxable income (without regard to the amount if any allocable to foreign partners) is required to make an annual return of such tax on or before the date (including extensions) specified in section 1.6031-1(e)(2) of the regulations for filing Form 1065 and attachments. The annual return required under section 1446 is separate from Form 1065 and the attachments thereto, and is not to be filed as part of the partnership's Form 1065. Until further guidance is published by the Internal Revenue Service, an annual return under section 1446 of the Code is to be filed in accordance with Section 8.03 and Section 8.04 of this revenue procedure.

Pursuant to section 7502 of the Code and the regulations thereunder, the timely mailing of the withholding tax with the information specified in this Section shall be treated as timely filing.

.02 *Payments of tax during partnership taxable year.* Until further guidance is published by the Internal Revenue Service, the payments of withholding tax made during the partnership's taxable year shall be:

(a) made payable to the Internal Revenue Service in U.S. currency; and

(b) sent to the Internal Revenue Service, P.O. Box 21086, Philadelphia, PA 19114.

Until official Internal Revenue Service forms are available and obtained by a partnership, the payments made during the partnership's taxable year must be accompanied by a document containing the following heading and information:

Payment of Section 1446 Tax

1(a). Name of partnership:
(b). Employer identification number:
(c). Address (number and street):
(d). City, State, and ZIP code (or equivalent):
2. Due date of payment
3. Amount of payment

.03 *Annual return of Section 1446 tax*. Every partnership (except publicly traded partnerships subject to the reporting requirements in Section 10 of this revenue procedure) that has foreign partners and effectively connected gross income, without regard to the amount, if any, allocable to foreign partners for the taxable year, shall make an annual return under section 1446 containing the information prescribed in Section 8.03 and Section 8.04 of this revenue procedure. This return must be filed with attachments described in Section 8.04 identifying all foreign partners.

Any additional tax owed under section 1446 for the relevant taxable year of the partnership must be paid to the Internal Revenue Service with this annual return. Any additional tax remitted with the annual return shall be made payable to the Internal Revenue Service in U.S. currency; and sent with the annual return and attachments to the Internal Revenue Service, P.O. Box 21086, Philadelphia, PA 19114.

Until official Internal Revenue Service forms are available, the annual return must contain the following heading and information:

Section 1446 Withholding Tax on Income of Foreign Partners — PARTNERSHIP/WITHHOLDING AGENT

1(a). Name of partnership:
(b). Employer identification number:
(c). Address (number and street):
(d). City, State, and ZIP code (or equivalent):
2(a). Name of Withholding Agent (if withholding agent is also the partnership enter "SAME" and do not complete lines 2(b) — (d)):
(b). Employer identification number:
(c). Address (number and street):
(d). City, State, and ZIP code (or equivalent):
3. Partnership's taxable year end: (date)
4(a). Number of partners with respect to which the applicable rate of withholding tax is 28%:
(b). Total amount of effectively connected taxable income allocable to these partners:
(c). Tax owed at 28% (line 4(b) multiplied by 28%):
5(a). Number of partners with respect to which the applicable rate of withholding tax is 34%:
(b). Total amount of effectively connected taxable income allocable to these partners:
(c). Tax owed at 34% (line 5(b) multiplied by 34%):
6. Total Section 1446 tax owed (line 4(c) plus line 5(c)):
7(a). Amount of Section 1446 tax paid by partnership on line 1 during its taxable year on line 3:
(b). Amount of section 1446 tax withheld with respect to partnership on line 1 by another partnership in which partnership on line 1 is a direct or indirect partner during the taxable year on line 3:
(c). Amount of section 1445(a) tax withheld from partnership on line 1 during the taxable year on line 3 with respect to a disposition by that partnership:
(d). Amount of tax withheld by partnership under section 1445(e)(1):
(e). Estimated tax paid by partnership on behalf of partners without using Rev. Proc. 88-21 reporting (*e.g.*, the partnership filed a Form 1040-ES for partner):
(f). Total credits (sum of lines 7(a), 7(b), 7(c), 7(d) and 7(e)):
8. Additional tax owed and paid with this return (excess of line 6 over line 7(f)) (enter zero if line 7(f) is greater than line 6):

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief, it is true correct and complete. Declaration of preparer (other than withholding agent) is based on all information of which preparer has any knowledge.

Please Sign Here> ______ Date: _____

.04 *Information required to be reported for each foreign partner*. An attachment to the return described above in Section 8.03 of this revenue procedure must be supplied for each foreign partner. The full name (first, middle, last, without titles (*e.g.*, Dr., Mrs.)) of each individual partner must be indicated. If more than one name or U.S. tax identification number is reported on this attachment, the tax reported will be credited only to the first U.S. tax identification number shown. The partnership filing the attachment must file separate attachments for any joint owners of a partnership interest that seek to divide the credit for section 1446 tax reported. The attachment must contain the following heading and information in the format and order specified:

Section 1446 Withholding Tax on Income of Foreign Partners — FOREIGN PARTNER

1(a). Full name of partner:
(b). U.S. tax identification number of partner:
(c). Account number assigned by partnership (if any):
(d). Address (number and street):
(e). City, State, and ZIP code (or equivalent):
2(a). Type of partner (individual, corporation, partnership, other (specify)):
(b). Country code of Partner (see listing of codes in instructions for Form 1042S):
3(a). Partnership's name:
(b). Partnership's Employer Identification Number:
(c). Partnership taxable year to which section 1446 tax relates (date of year end):
4(a). Withholding agent's name (if withholding agent is the partnership enter "SAME" and do not complete line 4(b)):
(b). Withholding agent's Employer Identification Number:
5(a). Partnership effectively connected taxable income allocable to partner:
(b). Applicable tax rate (maximum rate under section 1, or section 11(b) as appropriate):
(c). Section 1446 tax liability (line 5(a) times line 5(b)):
(d). Partner's allocable share of total section 1445(a) tax withheld on partnership's disposition of U.S. real property during partnership's taxable year:
(e). Amount of tax withheld under section 1445(e)(1) with respect to foreign partner:

(f). Total section 1445 withholding with respect to partner (line 5(d) plus line 5(e)):

(g). Estimated tax payments made by partnership on behalf of partner without using Rev. Proc. 88-21 reporting (*e.g.*, the partnership filed a Form 1040-ES for partner):

(h). Total adjustments to section 1446 liability (line 5(f) plus line 5(g)):

(i). Net section 1446 liability (line 5(c) minus line 5(h)):

6(a). Dates of payment and partner's allocable amount of section 1446 tax paid by partnership during partner's taxable year beginning on or during the partnership's taxable year ending on date on line 3(c) (excluding estimated tax payments made by partnership on behalf of partner (line 5(g)):

(b). Total of amounts entered on line 6(a):

(c). Partner's allocable share of section 1446 tax withheld with respect to partnership on line 4 by another partnership in which partnership on line 4 is a partner during the taxable year on line 3(c):

(d). Partner's allocable portion of section 1446 payment made by partnership with partnership's annual return of section 1446 tax:

(e). Tax creditable by partner under section 1446 (sum of lines 6(b), 6(c), and 6(d)):

.05 *Reporting to partners*. Upon making an installment payment of withholding tax to the Internal Revenue Service under section 1446, a partnership must notify each foreign partner of its allocable share of any section 1446 tax paid to the Internal Revenue Service by the partnership. No particular form is required for this notification, but it must contain the name of the partnership and the amount being paid on behalf of the partner. The information on this statement is to be used by the partner to adjust the amount of estimated tax that the partner is otherwise required to pay to the Internal Revenue Service.

A partnership must annually provide foreign partners with a copy of the statement filed with the Service and described in Section 8.04 of this revenue procedure. This information must be supplied to foreign partners even if no withholding tax is paid by the partnership under section 1446 of the Code. This information must be delivered to the foreign partner by the date specified in section 6031(b) on which the partnership must report the partnership's tax return information to its partners.

.06 *Payment without Identifying Number*. A partnership that has not been assigned a U.S. identifying number (an Employer Identification Number ("EIN")) must obtain one, and must in any event pay a withholding tax to the Internal Revenue Service, P.O. Box 21086, Philadelphia, PA 19114, by the time provided in this revenue procedure. Accompanying any payment must be a statement containing the relevant information described above in Section 8.02 and indicating the date the EIN was applied for. Upon receipt of its EIN, the partnership must immediately provide that number to the Internal Revenue Service, P.O. Box 21086, Philadelphia, PA 19114.

.07 *Taxpayer identification numbers of partners*. To assure appropriate crediting of withheld amounts or quarterly payments, when reporting to the Internal Revenue Service, a partnership (including a publicly traded partnership described in Section 10 of this revenue procedure) must provide a U.S. taxpayer identification number or an EIN for each foreign partner. The partnership should therefore notify each of its foreign partners of the necessity of obtaining a U.S. identifying number.

A partnership must pay a withholding tax under section 1446 with respect to a foreign partner even if the partnership does not have a taxpayer identification number for that partner. Publicly traded partnerships that designate nominees to withhold tax under section 1446 as provided in Section 10 of this revenue procedure must supply this identification number to the nominee.

.08 *Transition rules for taxable years beginning in 1988*. Payments of withholding tax that would be required to have been made during 1988 for a partnership's first taxable year beginning during 1988, under section 1446 as amended by the 1988 Act and the general rules of this revenue procedure, will be considered timely paid if made on or before the later of June 15, 1989, or the date provided in Section 8.01 of this revenue procedure on which the partnership would otherwise be required to file its annual return under section 1446 for its 1988 taxable year. In the case of a partnership with a taxable year beginning and ending in 1988, such amounts are to be made and reported with the annual return required under Section 8.01 for that taxable year in 1988, and that return shall be due on the later of June 15. 1989, or the date (including extensions) by which the partnership must file the information return required under section 6031 of the Code for that year.

In the case of partnerships with taxable years beginning but not ending in 1988, and taxable years beginning in 1989, amounts that would have been required under the general rules of this section to have been paid during 1988, as well as any payment required under the general rules to have been made on or before June 15, 1989, will be considered timely if paid by June 15, 1989. These payments are to be reported under the general filing requirements contained in Section 8 of this revenue procedure. All payments due after June 15, 1989, under the general rules of this section are to be made at the time and in the manner provided in the general rules of this revenue procedure.

Any amounts withheld, under Revenue Procedure 88-21 and section 1446 as in effect prior to its amendment by the 1988 Act, on or after the first day of a partnership's first taxable year beginning during 1988, but prior to the date specified in Section 8.01 of this revenue procedure for filing any section 1446 annual return for 1988, shall be credited against the partnership's liability for the relevant taxable year.

The amount of a payment described below that is made as a payment of estimated tax under section 6654 or 6655 by a partnership on behalf of a foreign partner with respect to the partner's allocable effectively connected taxable income, instead of as a payment of tax under section 1446 and Rev. Proc. 88-21 as in effect prior to the 1988 Act, shall reduce the amount of the partnership's section 1446 withholding tax liability for the relevant taxable year of the partnership. The payments that qualify for this treatment are the payments made after the effective date of the amendment of section 1446 by the 1988 Act and prior to the date specified in Section 8.01 of this revenue procedure for the filing of the partnership's annual return under section 1446 for 1988.

SEC. 9. TREATMENT OF PARTNERS

.01 *In general*. A partnership's payment of section 1446 withholding tax on effectively connected taxable income allocable to a foreign partner relates to the partner's U.S. income tax liability for the partner's taxable year in which the partner is subject to U.S. tax on that income.

Withholding tax paid under section 1446 of the Code that is in excess of the partner's U.S. income tax liability, as established on the partner's tax return for that year, may be credited by the partner against the partner's U.S. income tax liability for other subsequent years. Amounts paid by the partnership under section 1446 of the Code with respect to effectively connected taxable income allocable to a partner shall be allowed to the partner as a credit under section 33 of the Code. The partner may not claim an early refund of these amounts under the estimated tax rules. Amounts paid by a withholding agent under section 1446 with respect to a partner are to be treated as distributions made to that partner on the last day of the partnership taxable year for which the amount was paid, or if earlier, the last day on which the partner owned an interest in the partnership during that year. The amounts paid are not refundable to the withholding agent.

.02 *Substantiation of credit.* A partner that seeks a credit against its U.S. income tax liability for amounts withheld and paid over under section 1446 of the Code must attach proof of payment to its U.S. income tax return for the taxable year in which it claims the credit. Proof of payment consists of a copy of the annual statement that the partnership is required to furnish under Section 8.05 of this revenue procedure, or copies of any official Internal Revenue Service form that may be prescribed.

In the case of partners of publicly traded partnerships that are subject to withholding on distributions under the general rules described in Section 10 of this revenue procedure, proof of payment consists of a copy of the Form 1042S supplied to them by the partnership.

SEC. 10. PUBLICLY TRADED PARTNERSHIPS

.01 *In general.* A publicly traded partnership, as described in this Section, that has effectively connected income, gain or loss must pay a tax under section 1446 of the Code by withholding from distributions to a foreign partner, unless it makes the election in Section 10.08 of this revenue procedure to instead pay a withholding tax based on effectively connected taxable income allocable to foreign partners. The amount of the withholding tax on distributions equals the applicable percentage, defined in this Section 10.01, of any distribution not excluded under this Section that is made during any partnership taxable year beginning after December 31, 1987. Publicly traded partnerships that withhold on distributions as described in this Section are to pay over and report any section 1446 withholding tax as provided in this Section 10, and are not to pay and report a withholding tax under the rules of section 7 and Section 8 of this revenue procedure.

The applicable percentage is 20 percent for all distributions made to foreign partners prior to June 16, 1989, and 28 percent for all distributions made to foreign partners on or after June 16, 1989.

.02 *Definition of publicly traded partnership.* For purposes of this revenue procedure, the term "publicly traded partnership" means a regularly traded partnership within the meaning of the regulations under section 1445(e)(1) of the Code, but not a publicly traded partnership treated as a corporation under the general rule of section 7704(a).

.03 *Time and manner of payment.* The withholding tax under section 1446 of the Code required under this Section to be paid from distributions by a publicly traded partnership, is to be paid over pursuant to the rules and procedures of section 1461, the regulations thereunder, and section 1.6302-2 of the regulations. A publicly traded partnership is to use Forms 1042 and 1042S to report withholding from distributions.

With respect to distributions made before December 31, 1989, a payment of tax under section 1446 of the Code is to be reported on Form 1042S under income code 25, which also applies to withholding under section 1445. With respect to distributions made after December 31, 1989, section 1446 withholding on distributions by publicly traded partnerships is to be reported on From 1042S under income code 27.

.04 *Rules for designation of nominees to withhold tax under section 1446.* For purposes of section 1446 of the Code, publicly traded partnerships may apply the rules of the regulations under section 1445(e)(1) that apply to regularly traded partnerships, with respect to the designation of nominees to act as withholding agents for the partnership.

.05 *Determining foreign status of partners.* In addition to a certification of non-foreign status described in Section 5 of this revenue procedure, a publicly traded partnership that seeks to determine whether or not any of its partners are foreign persons may rely on the information provided to it on Form 1001, Form W-8, or Form W-9. In addition, a publicly traded partnership may rely on a certification signed under penalties of perjury from a person about the non-foreign status of partners owning partnership interests through that person as nominee. No particular form is required for a certification from such a nominee, but the certification should identify the partner for whom the certification is made, and indicate the basis for the certification. In making such a certification a nominee may also rely on a certification of non-foreign status provided by a foreign partner under the rules of Section 5.02, or may rely on information provided to it on Form 1001, Form W-8, or Form W-9 in determining whether a partner is a foreign person. Neither a partnership nor a nominee may directly or indirectly rely on information on a Form 1001, Form W-8, or Form W-9 after the date that such form must be re-executed, nor on a certification of non-foreign status based upon an election under section 897(i) of the Code.

A publicly traded partnership that relies in good faith on a certification of non-foreign status or the alternative forms of information described in this paragraph in determining non-foreign status, shall not be subject to the liability imposed by Section 4.02 of this revenue procedure for a failure to withhold under section 1446 of the Code. However, a partnership that has actual knowledge of the falsity of any information relied upon shall not be entitled to rely on that information any time after obtaining that knowledge, and the partnership shall be fully liable under section 1461 for any failure to withhold tax as of the time it obtained that knowledge.

In the case of a publicly traded partnership, the documentation used to determine the non-foreign status of a partner must be retained until the end of the fifth taxable year following the last taxable year in which the partnership properly relied upon that documentation as provided in this revenue procedure. A publicly traded partnership is not required to obtain a certification of non-foreign status under the rules of Section 5.02 of this revenue procedure, nor, the approved alternate forms of information described in Section 10.05 of this revenue procedure, but may instead rely upon other means to ascertain the non-foreign status of the partner. If, however, the partnership relies upon other means not specified in Sections 5.02 or 10.05 of this revenue procedure, and erroneously determines that the partner was not a foreign person, then the partnership is subject to the liability described in Section 4.02. A partnership is in no event required to rely upon other means to determine the non-foreign status of a partner and may demand a certification of non-foreign status. If a certification is not provided, the partnership may withhold tax under section 1446 of the Code and will be considered, for purposes of sections 1461 through 1463, to have been required to withhold such tax.

.06 *Distributions subject to withholding.*

1 *In general.* Except as provided herein, a foreign or domestic partnership that is regularly traded within the meaning of the regulations under section 1445(e)(1) of the Code must withhold at the applicable percentage with respect to any actual distribution to a foreign partner. The amount of a distribution subject to section 1446 withholding includes the amount of any section 1446 tax required to be withheld and, in the case of a partnership that receives a partnership distribution from another partnership (a "tiered" structure described in section 11 of this revenue procedure), any section 1446 tax that was withheld from such distribution. For example, foreign publicly traded partnership A owns an interest in domestic publicly traded partnership B. Partnership B makes a section 1446 distribution of $100 to partnership A prior to June 16, 1989, and withholds 20 percent of that distribution under section 1446. Partnership A receives a net distribution of $80 which it immediately redistributes to its partners. Upon making an actual distribution of $80, partnership A is deemed to have also made a distribution of $100 to its partners for purposes of section 1446, consisting of $80 in cash and a $20 deemed distribution in the form of tax payments on behalf of all its (U.S. and foreign) partners. Partnership A has a liability to pay 20 percent of the total actual and deemed distribution to its foreign partners as a section 1446 withholding tax. Partnership A may credit the $20 withheld by partnership B against this liability. In addition, partnership A's (U.S. and foreign) partners may claim a credit against their U.S. income tax liability for their allocable share of this $20 section 1446 tax paid on their behalf.

If a distribution is made with property other than money, the partnership shall not release the property until it has funds sufficient to enable the partnership to pay over in money the tax required to be withheld under section 1446(a) of the Code on the entire amount of the section 1446 distribution to the foreign partner.

2 *Excluded amounts.* Distributions from partnerships are deemed to be paid first out of the following types of income in the order indicated, and are excluded from the term "section 1446 distribution" to the extent thereof:

(a) Amounts attributable to non-effectively connected income distributed by a partnership that have been or are subject to the withholding requirements of section 1441 or 1442 of the Code (without regard to whether any amount was or is required to be withheld because of a treaty or statutory exemption);

(b) Amounts attributable to recurring dispositions of crops and timber that are subject to withholding under section 1.1445-5(c)(3)(iv) of the regulations, which continue to be subject to the rules of section 1.1445-5(c)(3); and

(c) Amounts subject to withholding by the partnership in the manner required by section 1.1445-5(c)(1) upon the partnership's disposition of a U.S. real property interest.

3 *Coordination with section 1445.* Except as otherwise provided in this Section 10, a publicly traded partnership that complies with the requirements of withholding under section 1446 and this Section 10 will be deemed to have satisfied the requirements of section 1445(e)(1) and the regulations thereunder. Notwithstanding Section 10.062 of this revenue procedure, section 1446 distributions subject to withholding at the applicable rate described above, shall include:

(a) The fair market value of a U.S. real property interest distributed to a partner and potentially subject to withholding under section 1445(e)(4) of the Code;

(b) Amounts subject to withholding under section 1445(e)(1) upon distribution pursuant to an election under section 1.1445-5(c)(3) of the regulations; and

(c) Amounts not subject to withholding under section 1445 because the distributee is a partnership or is a foreign corporation that has made an election under section 897(i)).

.07 *Transition rules.* Any section 1446 withholding upon a distribution occurring in 1989 that is required under the general rules of this Section 10 to be made on or before June 15, 1989, will be considered timely if made by June 15, 1989. All payments due after June 15, 1989, under the general rules of this section are to be made at the time and in the manner provided in the general rules of this revenue procedure.

Any amounts withheld, under Revenue Procedure 88-21 and section 1446 as in effect prior to its amendment by the 1988 Act, on or after the first day of a partnership's first taxable year beginning during 1988, but prior to June 15, 1989, shall be credited against the partnership's section 1446 withholding tax liability for the relevant taxable year.

.08 *Election to withhold based upon effectively connected taxable income allocable to foreign partners instead of withholding on distributions.* A publicly traded partnership will not be required to withhold on distributions under the generally applicable rules of this Section 10 if it elects instead to comply with the requirements of Sections 3 through 9, and 11 of this revenue procedure (relating to withholding on the effectively connected taxable income allocable to foreign partners). This election is retroactive to the partnership's first taxable year beginning after December 31, 1987, and is revocable only with the consent of the Commissioner.

A publicly traded partnership shall make this election by complying with the payment and reporting requirements of Sections 7 and 8 of this revenue procedure, by the later of the date on which the annual return of section 1446 tax is due for the partnership's first taxable year beginning during 1989, or the date on which the annual return of section 1446 tax is due for the partnership's first taxable year. A partnership that makes this election must pay over all amounts that would have been withheld and paid over had this election been in effect on the later of June 15, 1989, or the 15th day of the fourth month of the first taxable year of the partnership (with extensions). A publicly traded partnership that makes this election must attach a statement to its first annual return of section 1446 tax indicating that the partnership is a publicly traded partnership that is electing not to withhold on distributions.

SEC. 11. TIERED PARTNERSHIPS

.01 *In general.* The term "tiered partnership" is used in this revenue procedure to describe the situation in which a partnership owns an interest in another partnership (the latter is hereafter referred to as a "subsidiary partnership"). A partnership that directly or indirectly owns a partnership interest in a subsidiary partnership shall be allowed a credit against its own section 1446 liability for any section 1446 tax paid by the subsidiary partnership with respect to that partnership interest.

.02 *Reporting requirements.*

1 *In general.* A partnership that directly or indirectly owns a partnership interest in a subsidiary partnership must comply with the reporting requirements of Section 8.02 and Section 8.04 of this revenue procedure (which applies in the absence of official Internal Revenue Service forms), with respect to its foreign partners. To the extent that a partnership is a direct or indirect partner in a subsidiary partnership and has had section 1446 payments made on its behalf, it will receive a copy of the statements required under Section 8.02 and 8.04 of this revenue procedure to be sent to partners, and must in turn file the statements required under Sections 8.02, 8.03, and 8.04 to the extent it is subject to section 1446, treating the amount withheld by the subsidiary partnership as a credit against its liability to withhold tax under section 1446. The foreign partnership must attach to the annual return it must file under Sections 8 of this revenue procedure, a copy of any statement under Section 8.04 that it receives from the subsidiary partnership in which it is a partner, and must in turn provide its partners with a copy of any statement it receives from the subsidiary partnership along with the information described in Section 8.02 and 8.04. These statements will enable the partners of the foreign partnership to obtain appropriate credit for amounts withheld by the foreign partnership and the lower tier partnership.

2 *Publicly traded partnerships.* A publicly traded partnership is required to notify its partners of the amount of section 1446 tax withheld after each distribution, and by supplying the partner with Form 1042S as required in section 1.1461-2 of the regulations.

EFFECTIVE DATE

This revenue procedure is effective for taxable years of partnerships beginning after December 31, 1987.

EFFECT ON OTHER ADMINISTRATIVE PRONOUNCEMENTS

Rev. Proc. 88-21, 1988-1 C.B. 777, is obsolete.

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Sections 25, 103, 143; 1.25-3T, 1.103-1, 6a.103A-2.)

Rev. Proc. 89-32

SECTION 1. PURPOSE

This revenue procedure provides issuers of qualified mortgage bonds, as defined in section 143(a) of the Internal Revenue Code, and issuers of mortgage credit certificates, as defined in section 25(c), with (1) the median gross income for the United States and (2) the average purchase prices for new and existing residences located in the United States.

SEC. 2. BACKGROUND

.01 Bonds issued by a state or local government to provide financing for owner-occupied residences must satisfy the requirements under section 143(a)(2) of the Code if the bonds are to be classified as "qualified mortgage bonds." The interest on qualified mortgage bonds is excludable from gross income under section 103(a) if certain additional requirements are satisfied. A state or local government may elect to exchange all or part of its qualified mortgage bond authority for authority to issue mortgage credit certificates. Recipients of mortgage credit certificates issued by a state or local government are allowed a credit against federal income tax for a portion of the interest paid or accrued on indebtedness used to finance owner-occupied residences provided that the income requirements of section 25 are satisfied. The income requirements that are imposed on the users of proceeds of qualified mortgage bonds are identical to those imposed on the recipients of mortgage credit certificates. Sections 143(f) and 25(c)(2)(A)(iii)(IV).

.02 Generally, under sections 143(f) and 25(c)(2)(A)(iii)(IV) of the Code, as amended by the Technical and Miscellaneous Revenue Act of 1988 (Act), Pub. L. No. 100-647, section 4005(b) and (c), 102 Stat. 3342, the income requirements are met if all owner financing under a qualified mortgage bond and all certified indebtedness amounts under a mortgage credit certificate program are provided to mortgagors whose family income is 115 percent or less of the applicable median family income. The income limitation is reduced to 100 percent if there are fewer than three members in the mortgagor's family.

.03 Section 143(f)(5) of the Code provides that the income requirement in certain statistical areas is adjusted based on the relation of housing costs to income. A statistical area is a "high housing cost area" if its housing cost/income ratio is greater than 1.2. The housing cost/income ratio is determined by dividing (a) the applicable housing price ratio by (b) the ratio that the area median gross income bears to the median gross income for the United States. The applicable housing price ratio is the new housing price ratio (new housing average area purchase price divided by the new housing average purchase price for the United States) or the existing housing price ratio (existing housing average area purchase price divided by existing housing average purchase price for the United States), whichever results in the housing cost/income ratio being closer to 1.

.04 Section 4005(h) of the Act provides, in general, that the amendments made by section 4005(b) and (c) will apply to bonds issued, and nonissued bond amounts elected, after December 31, 1988.

.05 The Department of Housing and Urban Development (HUD) has computed (1) the median gross income for the United States for the fiscal year ending September 30, 1989, and (2) the average purchase prices for new and existing residences located in the United States using data from calendar year 1987.

SEC. 3. APPLICATION

.01 When computing the housing cost/income ratio under section 143(f)(5) of the Code, issuers of qualified mortgage bonds and mortgage credit certificates must use as the median gross income for the United States a figure of $34,000 (estimated for the fiscal year ending September 30, 1989) and must use as the average purchase prices for residences located in the United States figures of $127,800 for new residences and $105,200 for existing residences (based on data from calendar year 1987).

.02 When computing the housing cost/income ratio under section 143(f)(5) of the Code, issuers of qualified mortgage bonds and mortgage credit certificates must use the area median gross income for the fiscal year ending September 30, 1989.

.03 When computing the housing cost/income ratio under section 143(f)(5) of the Code, an issuer of qualified mortgage bonds and mortgage credit certificates must use the average area purchase price safe harbor limitations contained in Rev. Proc. 88-48, 1988-2 C.B. 635, unless the issuer computes a different average area purchase price based on more accurate and comprehensive data. Any such computation of different average area purchase prices must use data from a 12-month period that does not begin earlier than July 1, 1986, or end later than June 30, 1988.

SEC. 4. EFFECTIVE DATES

.01 The median gross income for the United States set forth in section 3.01 is effective for (1) commitments to provide financing for mortgages with respect to bonds that are issued no sooner than January 1, 1989, and that are sold by the issuer not later than 29 days after the date the Internal Revenue Service publishes an updated figure in the Internal Revenue Bulletin, and (2) commitments to issue certificates with respect to nonissued bond amounts elected no sooner than January 1, 1989, and not later than 29 days after the date the Service publishes the updated figure in the Bulletin, but only if the commitments described in (1) and (2) are made not later than 89 days after the date the Service publishes the updated figure in the Bulletin.

.02 The average purchase prices for residences located in the United States set forth in section 3.01 are effective for bonds issued and nonissued amounts elected for the period beginning January 1, 1989, and ending on the date such average purchase prices are rendered obsolete by a new revenue procedure.

.03 Issuers of qualified mortgage bonds and mortgage credit certificates may rely on the fiscal year 1987 or 1988 national and area median gross income figures released by HUD for purposes of computing the housing cost/income ratio under section 143(f)(5) of the Code with respect to bonds sold and nonissued bond amounts elected not later than July 11, 1989, 29 days after the date of publication of this revenue procedure in the Internal Revenue Bulletin, if the commitments to provide financing for mortgages, in the case of qualified mortgage bonds or the commitments to issue certificates, in the case of mortgage credit certificate programs, are made not later than September 9, 1989, 89 days after the date of publication of this revenue procedure in the Internal Revenue Bulletin, but only if the issuer uses area median gross income figures released by HUD for the same period as those used for the median gross income for the United States.

---

26 CFR 601.701: Publicity of information

Rev. Proc. 89-33

SECTION 1. PURPOSE

The purpose of this revenue procedure is to notify officers and employees of Federal, state, and local agencies administering certain programs under the Social Security Act, the Food Stamp Act of 1977, and State unemployment compensation laws of the manner, time and place by which they may obtain certain return information from the Internal Revenue Service in accordance with Section 6103(l)(7) of the Internal Revenue Code.

SEC. 2. BACKGROUND

01. Section 6103(l)(7) of the Internal Revenue Code was amended by 651 of the Deficit Reduction Act of 1984, P.L. 98-369, to enable agencies administering certain programs under the Social Security Act, the Food Stamp Act and State unemployment laws to receive from the Service current return information with respect to unearned income for the purpose of determining eligibility for, or the correct amount of, benefits under these programs.

02. The return information will be extracted from the Information Return Master File (IRMF) for the latest processing year. This file contains information returns filed by payers of income such as interest and dividends reported on Forms 1099-INT and 1099-DIV. The information will be extracted on a monthly basis using magnetic tapes submitted by the coordinating State agency or the Federal agency with oversight responsibility for the particular program. The information will likewise be on magnetic tape when it is provided to the appropriate agency.

SEC. 3. AUTHORITY

Section 6103(l)(7) of the Internal Revenue Code requires the Service, upon written request, to disclose unearned income information to Federal, state, and local agencies administering the following programs:

(i) Aid to Families with Dependent Children (AFDC) provided under a State Plan approved under Part A of Title IV of the Social Security Act;

(ii) Medical assistance provided under a State plan approved under Title XIX of the Social Security Act;

(iii) Supplemental Security Income benefits provided under Title XVI of the Social Security Act, and federally administered supplementary payments of the type described in Section 1616(a) of such Act (including payments pursuant to an agreement entered into under Section 212(a) of Public Law 93-66, 87 Stat. 155);

(iv) Any benefits provided under a State plan approved under Titles I, X, XIV, or XVI of the Social Security Act (as those titles apply to Puerto Rico, Guam, and the Virgin Islands);

(v) Unemployment Compensation provided under a State law as described in Section 3304 of the Internal Revenue Code;

(vi) Assistance provided under the Food Stamp Act of 1977; and

(vii) State-administered supplementary payments of the type described in Section 1616(a) of the Social Security Act (including payments pursuant to an agreement entered into under Section 212(a) of Public Law 93-66).

Information may be disclosed by the Service only for the purposes of, and to the extent necessary in, determining eligibility for, or the correct amount of, benefits under the aforementioned programs.

SEC. 4. DEFINITIONS

Element	Description
DM-1 File	SSA file of all validly issued SSNs and their related names.
EBCDIC	Extended Binary Coded Decimal Interchange
EIN	Employer Identification Number which has been assigned by the Internal Revenue Service to the reporting entity.
File	For the purpose of this Revenue Procedure, a file consists of all magnetic media records submitted by a requesting agency.
IRMF	Information Return Master File.
Payee	Person(s) or organization(s) receiving payments from the reporting entity.
Payer	Person or organization, including paying agent, making payments.
SSA	Social Security Administration.
SSN	Social Security Number assigned by SSA.
TIN	Taxpayer Identification Number which may be either an EIN or SSN.

SEC. 5. APPLICATION FOR INCLUSION IN PROGRAM

01. Disclosures by the Service will be made on a reimbursable basis. This will be a magnetic media project in which the return information is accessed by magnetic tape supplied by the requesting agencies and is provided on magnetic tape by the Service. Input by paper will not be accepted and no disclosures will be made on paper.

02. Agencies wishing to receive data under Section 6103(l)(7) of the Code should submit their applications to:

Internal Revenue Service
Director, Office of Disclosure
Room 1603 EX:D
1111 Constitution Ave., NW
Washington, D.C. 20224

03. The application must be made in writing and be signed by the head of the Federal, state, or local agency.

04. The application must contain the following information:

1) an overview of how the information will be used, the programs for which the information will be used, who will conduct the eligibility verification, if any counties will have access to the information, and any other relevant information as to how the receiving agency will use the tax information;

2) the authorizing statute by which the agency qualifies to receive the information;

3) the name(s) and title(s) of the official(s) who is (are) authorized to request return information;

4) the actions which will be taken by the agency to comply with the safeguard and reporting requirements of Section 6103(p)(4) of the Code (see Section 7 of this Revenue Procedure and Internal Revenue Service Publication 1075, "Tax Information Security Guidelines");

5) a statement certifying that the safeguards to be employed will be in place at the time the agency makes its initial request for return information;

6) the name(s) and title(s) of the official(s) in the agency who has (have) responsibility for safeguarding the return information, and;

7) if appropriate, whether the agency will be acting as the coordinating State agency for purposes of requesting information or if it is an agency for whom a coordinating State agency will make requests for information (see Section 8.02). The agency should identify these other State agencies which are participating in that State's consolidated effort to obtain return information.

SEC. 6. MATCHING AGREEMENTS

01. Upon receipt and approval of an application from an agency, the Service will prepare a matching agreement in accordance with the Computer Matching and Privacy Protection Act of 1988, P.L. 100-503. The agreements will specify in detail the following information:

1) the purpose and legal authority for conducting the match program;

2) justification for the match program and anticipated results;

3) description of the records to be matched;

4) projected starting and completion dates of the match program;

5) procedures for providing notice to individuals that information provided by them may be subject to verification through matching programs;

6) procedures for verifying information produced in matching programs;

7) procedures for the retention and timely destruction of identifiable records created by the recipient agency in the matching program;

8) procedures for ensuring the administrative, technical, and physical security of the records matched and the results of such programs;

9) prohibitions on duplication and redisclosure of records;

10) procedures governing the use by a recipient agency of records provided in the matching program including return or destruction of records;

11) information on assessments made regarding the accuracy of the records used in the matching program, if available; and

12) that the Comptroller General may have access to all records of a recipient agency necessary in order to monitor or verify compliance with the agreement.

02. The requesting agency will be provided an original and copy of the prepared matching agreement for signature by the agency head or other delegated official authorized to request data. Both the original and the copy of the matching agreement must have an original signature.

03. The Service will receive the signed agreement from the agency. After the signature of the Service's approving official is obtained, a copy of the agreement will be returned to the requesting agency.

04. Matches may not take place until agreements have been signed by both agencies, copies provided to the appropriate Congressional Committees and notice published in the Federal Register. In addition, all matches must be approved by the Treasury Data Integrity Board.

05. The agreement will remain in effect for a period not to exceed 12 months and shall be effective 30 days after the date a copy is provided pursuant to Section 6.04.

SEC. 7. REIMBURSEMENT

01. All work done by the Service for agencies administering programs pursuant to Section 3 of this Revenue Procedure will be performed on a reimbursable basis. Billing will be based on the number of data records processed. The cost per data record is 1 cent per record submitted. The cost per Service tape, if used, will be $12. These charges are subject to change. Billings will be made directly to each agency that requests return information.

02. In addition to the matching agreements, the Service will prepare Form 5181, Agreement Covering Reimbursable Services (Exhibit 1) upon receipt of and approval of an application from an agency. The requesting agency will be provided an original and copy of the prepared agreement.

03. The requesting agency will complete boxes 5a, 5b, and 5c and 9a, 9b, and 9c of Form 5181. Federal agencies must provide their Agency Location Code (ALC) in block 6b. The person indicated in box 5a will be the person coordinating requests and receipt of data from the Service. The signature in box 9a must be that of the agency head or other delegated official authorized to request data. Both the original and copy of Form 5181 must have an original signature.

04. The Service will receive the signed agreement from the agency. After the signature of the Service's approving official is obtained, a copy of the agreement will be returned to the requesting agency. The Service will also provide an agency code to be used when making requests.

05. Upon receipt of the signed matching and reimbursable agreements and

pursuant to Section 6.04 of this Revenue Procedure, the agency may begin requesting return information as outlined in Section 10, Tape Submissions.

SEC. 8. SAFEGUARDS AND RECORDKEEPING REQUIREMENTS

01. Return information which is obtained by an agency under Section 6103(l)(7) of the Code is subject to the safeguard, recordkeeping, and reporting requirements of Section 6103(p)(4) of the Code. If the return information becomes a part of the agency case file regarding a specific taxpayer, the case file must be segregated to the maximum extent possible and safeguarded under the terms and conditions of Section 6103(p)(4). Destruction of returns or return information is also governed by Section 6103(p)(4).

02. An agency which receives return information pursuant to Section 6103(l)-(7) of the Code must submit a Safeguard Procedures Report within 30 days of initial receipt of the return information. The report will detail the security accorded the information, the individuals who may request and have access to the information, the flow of the information once the agency has received it, as well as other information which will give a comprehensive picture of the need for, the use of, and the disposal of the return information. Publication 1075 (Rev 1-86), "Tax Information Security Guidelines", gives additional information about the Safeguard Procedures Report and may be obtained by writing to the IRS official listed in Section 5.02.

03. The Safeguard Procedures Report will be submitted to the Federal agency which has oversight responsibility for the program(s). The address of the specific office the report must be sent to will be provided by the Service upon approval of the agency's application. The report is due within 30 days from the date the agency first receives return information pursuant to Section 6103(l)(7) of the Code.

04. The agency must also submit an Annual Safeguard Activity Report giving current information on its safeguard procedures. The information required for this report is also detailed in Publication 1075. The report will be submitted annually to the same Federal agency to whom the Safeguard Procedures Report is to be sent.

05. The Federal agency which receives these reports is responsible for insuring that all information required for the reports is included. Problems or concerns which cannot be resolved between the Federal agency and the agency which has the return information will be referred to the Director, Office of Disclosure, for resolution.

06. The oversight Federal agency is responsible for monitoring safeguard procedures employed by requesting agencies and reporting to the Service on an annual basis about its oversight of safeguards employed by requesting agencies.

07. Pursuant to Section 6103(p)(4) of the Code and the regulations thereunder, the Service has the authority to conduct its own safeguard reviews at the Federal, state, and local levels.

SEC. 9. LIMITATIONS

01. Officers and employees who are entitled to access return information generally must not disclose this information to any party outside the agency other than the taxpayer to whom the information relates, the taxpayer's duly appointed representative who has the explicit authority to obtain the return information, or employees of the Federal agency charged with oversight of the particular program the State or Local agency is administering. However, to the extent such disclosure is necessary to verify the eligibility for and the correct amount of benefits, including past benefits, under the programs listed in Section 3 of this Revenue Procedure, such disclosures may be made only when there is no other means of verifying the unearned income information and only to the extent necessary to verify the unearned income information.

02. Officers and employees who are entitled to access return information must not disclose this information to any other officer or employee within the agency whose official duties do not require this information to determine eligibility for, or the correct amount of, benefits under these programs.

03. Officers and employees of Federal, state, and local agencies who disclose return information in a manner or for a purpose not authorized by Section 6103(l)(7) are subject to the criminal penalty provisions of Section 7213 of the Code. Federal agencies and officers and employees of State and Local agencies who disclose return information in a manner or for a purpose not authorized by Section 6103(l)(7) are also subject to the civil damages provisions of Section 7431 of the Code.

04. Any unauthorized disclosure of return information must be reported to the nearest Internal Revenue Service Regional Inspector. The name, address, and telephone number of this individual may be obtained from the Disclosure Officer at the Internal Revenue Service district in which the agency is located.

05. Return information may be disclosed by the Service only for the purpose of, and to the extent necessary in, determining eligibility for, or the correct amount of, benefits for the programs listed in Section 3 of this Revenue Procedure.

06. Agencies which receive return information pursuant to Section 6103(l)-(7) may not reduce, suspend, terminate or deny aid or benefits until the agency has taken steps to independently verify the information, as provided for by the Deficit Reduction Act of 1984.

SEC. 10. TAPE SUBMISSIONS

01. The Service will only accept magnetic tapes from coordinating State agencies, the Social Security Administration (which will administer the Supplemental Security Income program) and those Federal agencies charged with oversight responsibility for the eligible programs who must use the information to review those programs to insure that State and Local agencies are paying out the correct amount of benefits.

02. The coordinating State agency is the single State agency responsible for tape submissions requesting return information to be used in any of the programs covered by Section 6103(l)(7) of the Code. If there is more than one agency in the State that wishes return information, one of the agencies must be designated as the coordinating State agency. However, each agency must complete a contract to receive information.

03. If there is more than one agency administering the programs listed in Section 3 of this Revenue Procedure, the coordinating State agency will consolidate the requests from the requesting agencies within the State and submit a single tape file, on a monthly basis, to the Service. The coordinating State agency will identify those other agencies it is representing on the transmittal sheet accompanying the magnetic tape.

04. Each tape submission must have an accompanying transmittal sheet from the requesting agency specifying the

number of reels being submitted, each reel's identification number, the number of records per reel, the assigned agency code, and the name and telephone number of an individual within the agency who can aid in reconciling shipping problems. A sample transmittal format is shown in Exhibit 2.

05. The tape submission must follow the format in Section 11 of this Revenue Procedure. Tapes which do not meet the format will be returned to the submitting agency. See Section 11.05 for label format. If the tape is received after the deadline for the monthly extract, the Service will run the tape the following month.

06. The Service will initially validate all Social Security Numbers (SSNs) and names provided by the requesting agency against the SSA-DM-1 file prior to running the agency's tape against the IRMF. Names of individuals with invalid SSNs will be returned on a separate tape file. See Sections 12.02 and 12.03 for output record format and explanation of error codes.

07. If more than one State agency is to receive return information, the output tape will be sent to the coordinating State agency and the coordinating State agency will send the individual agencies their own particular data.

08. Tape submissions must be received by specific dates in order for the Service to run an agency's tape in the corresponding month. The processing schedule is listed in Exhibit 3.

09. The program to extract the information from the IRMF was operational on July 1, 1985.

10. An agency should provide at least six magnetic tapes for the initial output when making initial input shipment. An input tape will be retained for approximately 90 days. After that time, the input tape will be scratched and the tape will be used for the agency's next output.

11. If agency tapes are not supplied and Service tapes must be used to provide output, new tapes will be used. The cost of these tapes will be reflected in the agency billing.

SEC. 11. INPUT MAGNETIC TAPE SPECIFICATIONS

01. General

1) The magnetic tape specifications contained in this section of the Revenue Procedure define the required format and contents of the records to be included in the file. The specifications must be adhered to unless deviations have been specifically granted by the Service in writing.

2) In most instances, the Service will be able to process any compatible tape files. Compatible tape files must be 9 channel, Standard Label/EBCDIC (Extended Binary Coded Decimal Interchange) with:

a) Standard Label, EBCDIC;

b) A file name of "DIFSLA";

c) ODD parity; and

d) A density of 6250 BPI.

3) All compatible tape files must have the following characteristics:

a) Type of tape — 0.5 inch (12.7 mm) wide, computer grade magnetic tape on reels of up to 2400 feet (731.52 m) within the following specifications:

1. Tape thickness:
   1.0 or 1.5 mils

2. Reel diameter:
   10.5 inches (26.67 cm),
   8.5 inches (21.59 cm),
   or 7 inches (17.78 cm).

b) Interrecord Gap — ¾ inch.

02. Record Length. The tape record may be blocked or unblocked, subject to the following:

1) A FIXED RECORD OF 92 POSITIONS IS REQUIRED.

2) All records except the Header and Trailer Labels may be blocked.

3) If records are blocked, we recommend a block size of 100. The maximum block size must be 9,200 tape positions in length.

4) When the block results in a short block (less than 20 records), all remaining positions of the block may be filled with 9's. Do not pad a block with blanks.

03. Options for Filing. For the purposes of this Revenue Procedure the following conventions must be used:

1) Header Label:

a) Agencies may use standard headers provided they begin with 1HDR, HDR1, VOL1, or VOL2; and

b) Consist of a maximum of 80 positions.

2) Trailer Label:

a) Standard trailer labels may be used provided that they begin with 1EOR, 1EOF, EOR1, EOV1, or EOV2; and

b) Consist of a maximum of 80 positions.

3) Tape Mark:

a) Used to signify the physical end of the recording on tape.

b) May follow the header label and precede and/or follow the trailer label.

04. Agency Request Record

Tape Position	Field Title	Length	Description and Remarks
1-3	Agency Code	3	REQUIRED This identifies the agency which originated the request. The number is supplied by the Service when a formal application is made to the Office of Disclosure.
4	Constant	1	REQUIRED. Insert a "0" (numeric) into this position.
5-13	SSN	9	REQUIRED. Enter the SSN of the requested individual. This field must be ALL NUMERICS.
14-22	Secondary SSN	9	OPTIONAL. Enter the SSN of individual's spouse. This field must be ALL NUMERICS if present. Otherwise zero fill.
23	Constant	1	REQUIRED. Enter a "1" (numeric) into this position.
24-25	Constant	2	REQUIRED. Enter "99" into these positions.
26-32	Welfare Codes	7	REQUIRED. Enter the code(s) for the welfare program(s) requesting information. Left justify and blank fill. *Code* *Welfare Program* 1 AFDC 2 Medicaid 3 SSI Benefits 4 Cash Assistance 5 Unemployment Comp. 6 Food Stamps 7 State Supplementary Payments
33-36	Name Control 1	4	REQUIRED. Enter the first four letters of the last name. Left justify and blank fill if the name is less than four letters.
37-40	Name Control 2	4	OPTIONAL. If the Secondary SSN is present in positions 14-22, Name Control 2 is REQUIRED. Enter the first four letters of the spouse's last name. Left justify and blank fill if the name is less than four letters.
41-61	Agency Requester Information	21	OPTIONAL. Agency supplied for agency use. It is an optional field which will be returned on the IRS tape at the end of each record.
62	Program Code	1	REQUIRED. Enter a "1" (numeric) in this position.
63-92	IRS Use Only	30	Must be blank filled.

05. Invalid Agency Request Records. The agency requests must follow the format in part 04 above. The tapes are processed through a diagnostic program to assure that they meet the format requirements. Tapes which do not meet the format requirements will be returned to the submitting agency unprocessed. The external label will be 405D101-XXX, where "XXX" is the full three digits of the assigned agency request number.

SEC. 12. OUTPUT MAGNETIC TAPE SPECIFICATIONS

01. General

1) The magnetic tape specifications contained in this section of the Revenue Procedure define the format and contents of the records to be included in the files which will be returned to the coordinating agencies.

2) The output tapes will be 9 track Standard Label/EBCDIC (Extended Binary Coded Decimal Interchange) with:

a) IBM Standard Label, EBCDIC;

b) The reel label will be as follows:

1. For valid tape matches, the external label will be 405D411-XX, where "XX" is the last two digits of the assigned agency request number. The internal label will have a File-ID equal to 405D411—XXX, where "XXX" is the full three digits of the assigned agency request number.

2. For the invalid numbers tape, the external label will be 405D311-XX, where "XX" is the last two digits of the assigned agency request number. The internal label will have a File-ID equal to 405D311—XXX, where "XXX" is the full three digits of the assigned agency request number.

c) ODD Parity; and

d) A density of 6250 BPI.

3) All output tape files will have the following characteristics:

a) Type of tape — 0.5 inch (12.7 mm) wide computer grade magnetic tape of reels of up to 2400 feet (731.52 m) within the following specifications:

1. Tape thickness:
1.0 or 1.5 mils

2. Reel diameter:
10.5 inches (26.67 cm);
8.5 inches (21.50) inches;
or 7 inches (17.78 cm)

b) Interrecord Gap — ¾ inch.

02. Record Length.

1) The invalid records will be blocked 100, subject to the following:

a) A FIXED RECORD OF 92 POSITIONS WILL BE OUTPUT.

b) All records except the Header and Trailer Labels will be blocked.

c) The block will be 9,200 tape positions in length.

d) When the block results in a short block (less than 20 records), all remaining positions of the block will be filled with 9's.

2) The unearned income information records will be blocked 20, subject to the following:

a) A FIXED RECORD OF 1011 POSITIONS WILL BE OUTPUT.

b) All records except the Header and Trailer Labels will be blocked.

c) The block will be 20,220 tape positions in length.

d) When the block results in a short block (less than 20 records), all remaining positions of the block will be filled with 9's.

03. Invalid Disclosure Requests Record.

Tape Position	Field Title	Length	Description and Remarks
(All information except position 66 is duplicated from the agency request record. These records are not processed against the IRMF.)			
1-3	Agency Code	3	The agency which originated the request.
4	Constant	1	"0" (numeric).
5-13	SSN	9	SSN of the requested individual.
14-22	Secondary SSN	9	SSN of spouse if present.
23	Constant	1	"1" (numeric) .
24-25	Constant	2	"99"
26-32	Welfare Codes	7	The welfare program(s) for which the request is being made. See Section 10.04 for explanation of codes.
33-36	Name Control 1	4	The first four letters of the last name.
37-40	Name Control 2	4	First four (4) letters of spouse's last name if Secondary SSN present.
41-61	Agency Requester Information	21	Agency supplied information agency use.
62	Program Code	1	"1" (numeric).
63-65	Agency Code	3	Agency which originated the request. Duplicated from positions 1-3 for sorting purposes.
66	Error Code	1	Code explaining the type of error that was encountered when the SSN was initially validated.
67-92	Reserved	27	IRS Use Only

Code	*Explanation*
1	Invalid Agency Code
2	SSN not all numeric
3	Secondary SSN not all numeric
4	Name Control #1 missing or in error
5	Invalid Program Code
6	Invalid SSN
7	Name Control does not match SSN

04. Payee Document Record

Tape Position	Field Title	Length	Description and Remarks
1-9	Payee TIN	9	Same as request SSN.
10-13	Payee Name Control	4	Same as the request Name Control for identifying the individual.
14-16	Agency Code	3	Same as the request Agency Code.
17-18	Tax Year	2	The year in which the income was paid. For requests received July 1989 through June 1990, the Tax Year is "88".
19-20	Document Type	2	The document on which the income was reported.

Document Type	*Document Name*
32	Form W-2G
65	Form 1065 Schedule K1
66	Form 1041 Schedule K1
67	Form 1120S Schedule K1
75	Form 1099-S
79	Form 1099-B
80	Form 1099-A
86	Form 1099-G
91	Form 1099-DIV
92	Form 1099-INT
95	Form 1099-MISC
96	Form 1099-OID
97	Form 1099-PATR
98	Form 1099-R
**	No matched record on IMRMF

T[illegible] Position	Field Title	Length	Description and Remarks
[illegible]-40	Account Number for Payee	20	The number assigned by the payee's account.
41-80	Payee Name Line 1	40	The name of the payee whose TIN is contained in position 1-9. If less than 40 characters, left justified and blank filled.
81-120	Payee Name Line 2	40	If the payee name required more than 40 characters or if there are other payees, this field will contain these names, left justified and blank filled.
121-160	Payee Mailing Address	40	The mailing address of the payee, left justified and blank filled.
161-200	Payee City	40	The payee's city, left justified and blank filled.
201-202	Payee State	2	The payee's state as abbreviated by the U. S. Postal Service.
203-211	Payee ZIP Code	9	The payee's ZIP Code, left justified and blank filled if it only 5 digits.
212-220	Payer TIN	9	The Payer's EIN or SSN.
221-260	Payer Name Line 1	40	The payer's name, left justified and blank filled.
261-300	Payer Name Line 2	40	Any additional payer name(s) information, left justified and blank filled.
301-340	Payer Address	40	The payer's address, left justified and blank filled.
341-380	Payer City/ State/Zip Code	40	The payer's city, state and zip code. Left justified and blank filled.
381-382	Reserved	2	Blank (alpha) filled.
(Money fields—all amounts are in dollars only.)			
383-394	Other Taxable Income	12	Other taxable income reported on Schedule K-1 of Forms 1041, 1065 and 1120S.
395-406	Interest	12	Interest reported on Forms 1099-INT, 1099-OID and Schedule K-1 of Forms 1041, 1065 and 1120S.
407-418	Dividends	12	Dividends reported on Forms 1099-DIV and Schedule K-1 of Forms 1041, 1065 and 1120S.
419-430	Patronage Dividends	12	Patronage dividends reported on Form 1099-PATR.
431-442	Non-Patronage Dividends	12	Non-patronage dividends reported on Form 1099-PATR.
443-454	Per-Unit Retain Allocations	12	Allocations reported on Form 1099-PATR.
455-466	Redemption of Non Qualified Notices and Retain Allocations	12	Redemption amounts reported on Form 1099-PATR.
467-478	Reserved	12	0 (numeric) filled.
479-490	Reserved	12	0 (numeric) filled.
491-502	Reserved	12	0 (numeric) filled.
503-514	Unemployment Compensation	12	Unemployment compensation Compensation reported on Form 1099-G.
515-526	Prior Year Refund	12	State and local tax refunds reported on Form 1099-G.
527-538	Discharge of Indebtedness	12	Discharge amounts reported on Form 1099-G.
539-550	Reserved	12	0 (numeric) filled.
551-562	Agricultural Subsidies	12	Agricultural subsidies reported on Form 1099-G.
563-574	Capital Gain Distributions	12	Capital gains distributions on Form 1099-DIV.
575-586	Non-Taxable Distributions	12	Non-taxable distributions reported on Form 1099-DIV.
587-598	Cash Liquidation Distribution	12	Cash liquidations reported on Form 1099-DIV.
599-610	Non-Cash	12	Non-cash liquidations reported on Form 1099-DIV.
611-622	Reserved	12	0 (numeric) filled.
623-634	Gross Winnings	12	Gambling winnings reported on Form W-2G.
635-646	Additional Winnings	12	Additional winnings from identical wager reported on Form W-2G.
647-658	Savings Bonds, etc.	12	U.S. savings bond and other Treasury obligations interest reported on Form 1099-INT.
659-670	Interest Forfeiture	12	Early withdrawal penalty reported on Forms 1099-INT and 1099-OID.
671-682	Substitute Payments	12	Substitute payments reported on Form 1099-MISC.
683-694	Stocks and Bonds	12	Sales of securities reported on Bonds Form 1099-B.
695-706	Reserved	12	0 (numeric) filled.
707-718	Aggregate Profit or Loss	12	Total profit/loss reported on Loss Form 1099-B.
719-730	Profit or Loss Realized	12	Profit/loss reported for current year on Form 1099-B.

Tape Position	Field Title	Length	Description and Remarks
731-742	Unrealized Profit/Loss from Prior year	12	Unrealized profit or loss from regulated futures contracts reported on Form year 1099-B.
743-754	Unrealized Profit/Loss from Current Year	12	Unrealized profit or loss from regulated futures from contracts reported on Form Year 1099-B.
755-766	Rents	12	Rents reported on Form 1099-MISC.
767-778	Royalties	12	Royalties reported on Form 1099-MISC.
779-790	Prizes and Awards	12	Prizes and awards reported on Awards Form 1099-MISC.
791-802	Reserved	12	0 (numeric) filled.
803-814	Reserved	12	0 (numeric) filled.
815-826	Reserved	12	0 (numeric) filled.
827-838	Original Issue Discount	12	Original issue discount reported on Form 1099-OID.
839-850	Total Pension Distribution	12	Lump sum distribution from a retirement plan as reported on Form 1099-R.
851-862	Other Pension Distribution	12	Actuarial value of annuity contract or retirement bond; retirement account exchange or death benefit payment as reported on Form 1099-R.
863-874	Reserved	12	0 (numeric) filled.
875-886	Reserved	12	0 (numeric) filled.
887-898	Reserved	12	0 (numeric) filled.
899-910	Real Estate Sales	12	Proceeds from real estate reported on Form 1099-S.
911-922	Reserved	12	0 (numeric) filled.
923-934	Debt Outstanding	12	Outstanding debt reported on Form 1099-A.
935-946	Debt Satisfied	12	Amount of debt satisfied reported on Form 1099-A.
947-958	Fair Market Value	12	Fair market value reported on Form 1099-A.
959-960	Blanks	2	Blank filled.
961	Amended Return Indicator	1	1 (numeric) if the information return was amended, otherwise blank.
(Identifying information duplicated from the request record.)			
962-970	Secondary SSN	9	Same as the Request Secondary SSN.
971-977	Welfare Codes	7	Same as Request Welfare Codes.
978-981	Name Control 1	4	Same as the Request Name Control 1.
982-985	Name Control 2	4	Same as the Request Name Control 2.
986-1006	Agency Requester Information.	21	Same as the Request Agency Information
1007-1011	Blanks	5	Blank filled.

SEC. 13. INQUIRIES

01. Any questions regarding the material in this Revenue Procedure may be addressed to the Director, Office of Disclosure, at the address listed in Section 5.02 of this Revenue Procedure.

02. Questions concerning tape receipt, processing, and shipping can be addressed to:

Internal Revenue Service
Production Control Officer
Systems Operations Division
Martinsburg Computing Center
P.O. Box 1208
Martinsburg, WV 25401

SEC. 14. EFFECTIVE DATE

This Revenue Procedure is effective July 1989 through June 1990.

Form **5181** (Rev. June 1985) Department of the Treasury Internal Revenue Service	**Agreement Covering Reimbursable Services** *See "Terms and Conditions" on reverse*	Project Number 9-066-2

1. Name of organization requesting services on reimbursable basis	2. Address

3. Project title or type of service requested

Extract from the Internal Revenue Service's Information Return Master File and Payer Master File subject to the terms and conditions of this contract, Section 6103(l)(7)(B) of the Internal Revenue Code and applicable Revenue Procedures published annually.

4. Internal Revenue Project Coordinator	5. Project Coordinator of Requesting Organization
a. Name and title Gwen Collins Program Analyst	a. Name and title
b. Address Office of Disclosure 1111 Constitution Ave., NW Room 1607 EX:D:D Washington, D.C. 20224	b. Shipping Address *(No., Street, City, State, ZIP Code)*
c. Telephone (202) 535-9749	c. Telephone

6. Cost and Financing	a. Total estimated cost of services .01 per record $
	b. Method of Billing ☐ In advance ☐ Actual cost to be billed as work is completed ☒ Other *(Explain)* Charges will be billed on actual number of records submitted.

Federal Government Agencies are required to make payment by Standard Form 1081, and must ensure inclusion of their Agency Locator Code (ALC). All other organizations, i.e., municipal, state governments and corporations, will send payment by check drawn to order of Accounting Section, Internal Revenue Service, 1111 Constitution Avenue, NW.
(Address) Washington, D.C. 20224

7. Period of Agreement	This agreement shall become effective on the date approved by the Government and shall not extend beyond the end of the Government fiscal year or June 1990. For a renewal, apply to the Internal Revenue Project Coordinator.

8. For Internal Revenue Use Only		9. For Use of Requesting Organization	
a. Approved by *(signature)*		a. Accepted by *(Signature of Authorized Official)*	
b. Title	c. Date	b. Title	c. Date

Terms and Conditions

1. The authority to perform services on a cost basis is contained in Section 6103(p)(2) and Section 6108(b) of the Internal Revenue Code (IRC). The performance of services is authorized only when consistent with the basic public obligations of the Internal Revenue Service (the Service). If necessary to fulfill its public obligations, the Service may reject or terminate any part of this agreement and return the unused balance of funds advanced.

2. Although every reasonable effort is made to avoid delays and errors in the performance of its work, the Service is not responsible for delays or errors in the services performed. The cost of data recompilations or corrections must be paid for by the requesting party.

3. Direct and indirect actual costs will be charged for reimbursable work. If funds advanced to the Service are more than the actual cost of performing the work, the difference will be returned. If an estimate is less than the actual costs incurred, the requesting organization agrees to pay for the actual costs incurred.

4a. Section 6103(p)(4) of the IRC provides specific requirements for Federal, state and local organizations to safeguard Federal returns and return information as a condition for receiving the information.

b. Section 7213 of the IRC makes illegal disclosure of returns or return information a felony punishable by a fine not to exceed $5000 or imprisonment of not more than 5 years, or both, together with the costs of prosecution. IRC Section 7431 makes persons liable for civil damages who knowingly or negligently disclose returns or return information illegally.

5. The Service reserves the right to use a copy of all data provided under this agreement.

6. The requester may cancel this agreement only by giving the Service written notice 30 days before cancellation. Payment to the Service shall include actual costs to the date of cancellation. The Service will exercise due diligence to prevent incurring costs after the cancellation date. However, payment shall also be made for unavoidable commitments up to the date the agreement would have expired.

There will be no January run of the IRMF. Tapes received after the cutoff date will be processed in the next monthly run. Tapes with matching data will be shipped approximately two weeks after the Request Due Date.

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-34

SECTION 1. BACKGROUND AND PURPOSE

.01 Rev. Proc. 89-1, page 740, this Bulletin, provides procedures for issuing ruling letters involving substantive areas under the jurisdiction of the Associate Chief Counsel (Technical). Section 7 indicates that the issuance of a letter ruling is discretionary with the Service and lists some broad grounds on which it will not issue rulings, such as requests presenting alternative plans of a proposed transaction or hypothetical situations.

.02 In order to devote its resources more efficiently to resolving issues in need of attention by the public in general through the issuance of regulations, revenue rulings, and other published guidance, and, ultimately, in order to speed up the issuance of letter rulings not covered by this modification of the Rev. Proc. 89-1, the Office of Associate Chief Counsel (Technical) is discontinuing, except in extraordinary circumstances, the issuance of letter rulings with respect to issues that are clearly and adequately addressed by published authorities.

SEC. 2. PROCEDURE

Rev. Proc. 89-1 is hereby modified as follows:

.01 A new section 7.02 is added to provide as follows: "The National Office ordinarily will not issue a ruling with respect to an issue that is clearly and adequately addressed by a statute, regulation, decision of the Supreme Court, tax treaty, revenue ruling, revenue procedure, notice, or other authority published in the Internal Revenue Bulletin except in extraordinary circumstances (*e.g.*, a request for a ruling required by a governmental regulatory authority in order to effectuate a transaction). *See* section 8.07 for a statement to be included in a request for a ruling. However, the National Office will issue an information letter, as defined in section 4.06, if it believes that providing general information would be helpful."

.02 Present sections 7.02, 7.03, and 7.04 are renumbered, respectively, sections 7.03, 7.04, and 7.05.

.03 A new section 8.07 is added to provide as follows: "A request for a ruling must contain a statement supporting the taxpayer's judgment that the issue in the ruling request is not clearly and adequately addressed by a statute, regulation, decision of the Supreme Court, tax treaty, revenue ruling, revenue procedure, notice, or other authority published in the Internal Revenue Bulletin. *See* section 7.02."

.04 Present sections 8.07 through 8.23 are renumbered consecutively sections 8.08 through 8.24.

SEC. 3. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-1 is modified.

SEC. 4. EFFECTIVE DATE

This revenue procedure applies to all ruling requests postmarked or, if not mailed, received 30 days or more after May 15, 1989, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-35

SECTION 1. PURPOSE AND SCOPE

.01 The purpose of this revenue procedure is to set forth a procedure by which a plan administrator or plan sponsor of a qualified defined benefit pension plan may under certain circumstances satisfy the requirement that a deduction under section 404 of the Code be disallowed by the Secretary of the Treasury, thereby fulfilling a condition under which a contribution may revert to the employer without adversely affecting the plan's qualified status.

.02 This revenue procedure applies only to employer contributions to qualified defined benefit pension plan that are made for a plan year beinning in 1988 (i.e., the 1988 plan year), or that are made to satisfy the quarterly contributions requirement of section 412(m) of the Code for the first plan year beginning after December 31, 1988 (see section 5).

.03 In general, contributions to which this revenue procedure applies must be effectively disallowed by obtaining a ruling letter, as described in subsection .06 of section 1 and in section 4 of this revenue procedure before the nondeductible contributions may be returned to the employer.

SEC. 2. BACKGROUND INFORMATION

.01 Section 401(a)(2) of the Internal Revenue Code generally requires a trust forming part of a pension, profit-sharing, or stock bonus plan to prohibit the diversion of corpus or income for purposes other than the exclusive benefit of the employees or their beneficiaries.

.02 Section 412(m) of the Code provides that for plan years beginning after December 31, 1988, quarterly estimated contributions must be made to any plan (other than a multiemployer plan) that is subject to the minimum funding requirements of section 412.

.03 Section 4072 of the Code provides that a 10 percent tax is to he imposed on nondeductible plan contributions. However, the section 4972 tax does not apply to the extent that contributions are returned to the taxpayer no later than the time prescribed by law for filing the tax return for such taxable year (including extensions filed for and granted).

. 04 In Rev. Rul. 77-200, 1977-1 C.B. 98, the Service held that plan language providing for the return of employer contributions under certain limited circumstances may be included in a plan intended to qualify under the Internal Revenue Code. One of those circumstances addresses situations in which the employer contribution is conditioned on its deductibility under section 404 of the Code and the deduction is disallowed by the Secretary of the Treasury. Under Rev. Rul 77-200, the return to the employer must take place within one year from the date of disallowance of the deduction.

.05 Rev. Proc. 83-36, 1983-1 C.B. 763; as modified by Rev. Proc. 87-40, 1987-2 C.B. 514, sets forth the general procedures of the Service relating to the issuance of rulings, determination letters. opinion letters, and notification letters on employee plans and exempt organization matters.

.06 Rev. Proc. 89-4, page 767, this Bulletin, sets forth the procedures relating to the payment of user fees for requests to the Service for rulings, opinion letters, determination letters, and similar requests.

.07 Notice 89-52, page 692, this Bulletin, provides guidance with respect to the quarterly estimated payments required by section 412(m). In addition. in light of the uncertainty asserted by taxpayers about the effective date of the change to a 5-year amortization period for experience gains and losses for calendar year plans, it provides limited relief under which an employer may apply a transitional rule.

SEC. 3. REQUESTS FOR RULING LETTERS TO DISALLOW THE DEDUCTIBILITY OF A CONTRIBUTION

.01 Who may Submit — Only a plan administrator within the meaning of section 414(g) of the Code), plan sponsor, or the authorized representative of either may make a request for a determination that the employer contribution to which this revenue procedure applies would be nondeductible if claimed as a deduction for purposes of determining whether such contribution may be returned to the employer in accordance with Rev. Rul. 77-200 without adversely affecting the qualified status of the plan.

.02 Where to Submit — Such requests with the appropriate user fee for a ruling pursuant to Rev. Proc. 89-4 shall be submitted to the Internal Revenue Service: Assistant Commissioner (Employee Plans and Exempt Organizations): Attention: E:EP:PA, P.O. Box 14071. Ben Franklin Station; Washington, DC 20044. The request must be made no later than 2½ months after the close of the plan year for which the disallowance of the deductibility of the employer contribution is requested or, if later, 120 days after publication of this procedure.

.03 Procedural Rules — The request must satisfy all of the requirements of Rev. Proc. 83-36, 1983-1 C.B. 761, including deletion instructions in compliance with section 6110 of the Code. Also, attention is called to section 7.10 of Rev. Proc. 81-16. which provides that a request for a ruling to which section 6110 of the Code applies must contain a declaration in the following form: "Under the penalties of perjury, I declare that I have examined this request, including accompanying documents, and to the best of my knowledge and belief, the facts presented in support of the request are true, correct, and complete." This declaration must be signed by the taxpayer (e.g., an authorized officer of a corporation). The signature of an individual with a power of attorney will not suffice for the declaration.

.04 Information Required — In addition to any information required by Rev. Proc. 83-36, the following information shall accompany the request:

(1) The location of the office of the District Director of Internal Revenue having jurisdiction over the plan, the employer identification number, the plan name and number, and the name and address of the plan administrator or plan sponsor.

(2) A copy of each of the last two actuarial valuation reports, and a copy of each of the last two Schedules B of Form 5500, including attachments thereto, that have been filed with the Internal Revenue Service.

(3) The plan year for which the request is made (e.g., January 1, 1988 December 31, 1988).

(4) A list of the employer contributions actually paid in each month, from the twenty-fourth month prior to the beginning of the plan year for which the disallowance is requested through the date of the request and the plan year to which the contributions were applied.

(5) A worksheet, signed by the enrolled actuary for the plan, showing how the amount of the reversion due to the employer as a result of the disallowance of the deduction of the employer contribution will be determined, and an explanation of why the contribution is not deductible. The maximum amount which may be returned to the employer is the excess of (1) the amount contributed over (2) the amount that would have been contributed had the contribution been limited to the amount that is deductible. Earnings attributable to the excess contribution may not be returned to the employer, but losses attributable thereto must reduce the amount to be so returned.

(6) A copy of the current plan document and a copy of the most recent summary plan description.

(7) Documentation must be provided that employer contributions are conditioned on deductibility. A copy of a board resolution will suffice for such documentation as will plan language providing that employer contributions are conditioned on deductibility.

(8) A reference to the appropriate section in the plan document which permits the return of employer contributions.

(9) A copy of the most recent determination letter issued to the plan.

.05 The Service may request additional information as needed.

.06 Approval Letter.

(1) If the request described in section 3.01 is approved, a form letter will be issued. A copy of this approval letter must be attached to the Schedule B of the Form 5500 that is filed for the plan year for which the disallowance is effective (see Appendix I Form Letter). The form letter will contain the caveat that the Service has considered the disallowance of employer contributions solely for the purpose of applying Rev. Rul. 77-200.

(2) The National Office will send a copy of the form letter to the Key District Director having jurisdiction over the plan.

SEC. 4. SPECIAL RULES FOR A PLAN YEAR COMMENCING IN 1988

For a ruling request for a plan year beginning in 1988, special rules of this section will apply. The National Office within 90 days from the receipt of a complete request will either contact the applicant to obtain more information or will issue a form letter approving the request with respect to employer contributions made to the plan for the plan year commencing in 1988. To expedite processing for 1988 plan years, taxpayers should specify in the upper right-hand corner of their requests the words "Rev. Proc. 89-35". If an approval letter is issued, a copy of the form letter must be attached to the next Schedule B of the Form 5500 filed (see Appendix I — Form Letter).

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective for contributions made for a plan year commencing in 1988, or for contributions made to satisfy the quarterly installments requirement for a plan year commencing on or after January 1, 1989, but not after December 31, 1989.

Appendix I—Form Letter

Significant Index No. 0404.00-00

In re: Plan Name
(Plan No. __
EIN:

Dear ______.

This letter is in response to your request with respect to the above-referenced defined benefit pension plan pursuant to Revenue Procedure 89-35 for the plan year commencing ________.

Rev. Proc. 89-35 sets forth the procedure whereby, under certain circumstances, a disallowance of the deduction of employer contributions to a qualified defined benefit pension plan may be obtained, thereby fulfilling a condition under which such contributions could revert to the employer.

Based upon the information submitted, we have determined that contributions amounting to $____ which were made for the plan year commencing ______ may be considered as disallowed solely for the purpose of applying Rev. Rul. 77-200. Therefore, the return of contributions not exceeding $ ____ would not adversely affect the qualified status of the plan, provided such reversion occurs no later than one year from the date of this letter. (However, if it is not returned by your tax filing date, including extensions filed for and granted, the tax under section 4972 would apply.) In granting this approval, we are not expressing any opinion as to the accuracy or acceptability of any calculations or other material submitted with your request.

When filing Form 5500 for the plan year commencing a copy of this letter must be attached to the Schedule B (Actuarial Information). A copy of this letter should be furnished to the enrolled actuary for the plan. We have sent a copy to the Key District Director in ———.

Sincerely yours,

James E. Holland, Jr.
Chief, Pension Actuarial Branch

(Also Part I, Sections 101, 334, 336, 338, 419, 801, 805, 811, 815, 816, 818, 7702; 1.101-1, 1.334-1, 1.336-1, 1.815-2.)

Rev. Proc. 89-36

SECTION 1. PURPOSE

Section 5 of Rev. Proc. 89-3, page 761, this Bulletin, contains a list of those areas of the Internal Revenue Code under the jurisdiction of the Associate Chief Counsel (Technical) in which advance rulings or determination letters will not be issued because the matter is under extensive study. This revenue procedure modifies Rev. Proc. 89-3 by deleting section 5.04, 5.10, 5.11, 5.12, 5.18, 5.19, 5.20, 5.21, 5.22, and 5.23. Section 5.04 concerns the treatment of proceeds received by a beneficiary from a "self-insured" life and survivor benefit plan established through a trust qualified under section 501(c)(9) of the Code as to whether such proceeds are excludable from the beneficiary's gross income as amounts paid by reason of death of the insured under section 101(a). Section 5.10, 5.11, 5.12, 5.18, 5.19, 5.20, 5.21, 5.22, and 5.23 concern the tax treatment of stock-purchase/liquidation transactions involving life insurance companies.

SEC. 2. BACKGROUND

The following paragraphs under section 5 of Rev. Proc. 89-3 were designated as areas under extensive study in which rulings or determination letters will not be issued:

.04 Section 101—Certain Death Benefits—Whether proceeds of "self-insured" life and survivor benefit plans established through a trust qualified under section 501(c)(9) of the Code are excludable from the beneficiary's gross income as amounts paid by reason of the death of the insured under section 101(a).

.10 Section 334(b)(2) (pre-TEFRA).—Liquidation of Subsidiary.—Whether an acquiring corporation may treat the life insurance reserves received in liquidation as unsecured liabilities assumed.

.11 Section 336 (pre-TEFRA).—Distribution of Property in Liquidation.—Whether the liquidation of a life insurance subsidiary is a termination pursuant to section 815(d)(2) as in effect before the enactment of the Tax Reform Act of 1984.

.12 Section 338 (pre-TEFRA section 334(b)(2)).—Certain Stock Purchases Treated as Asset Acquisitions.—The tax consequences, under subchapter L, from the stock purchase and the deemed purchase of assets of a life insurance subsidiary.

.18 Section 801(b).—Life Insurance Company Taxable Income Defined.—Whether the liquidation of a life insurance subsidiary pursuant to either section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination under section 815(d)(2) (as in effect before the Tax Reform Act of 1984) causing a distribution from the subsidiary's policyholders surplus account.

.19 Section 805(a)(8).—Other Deductions.—Whether a portion of the purchase price of the stock of the life insurance subsidiary is properly allocable to insurance in force.

.20 Section 811(b)(34).—Amortization of Premium and Accrual of Discount—Exception.—Whether the difference between the face value of bonds held by a life insurance subsidiary liquidating under section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) and the amount allocable to such bonds pursuant to the liquidation is market discount and need not be accrued.

.21 Section 815(d)(2) as in effect before the enactment of the Tax Reform Act of 1984—Termination as Life Insurance Company.—Whether the liquidation of a life insurance subsidiary pursuant to section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination requiring the application of section 801(c) or section 802(b)(3) as in effect before the enactment of the Tax Reform Act of 1984.

.22 Section 816(b).—Life Insurance Reserves Defined.—Whether the life insurance reserves acquired in the liquidation of a life insurance subsidiary qualify as unsecured liabilities assumed by the acquiring corporation for purposes of section 334(b)(2) (pre-TEFRA) and section 338 (added by TEFRA).

.23 Section 818(b).—Treatment of Capital Gains and Losses, etc.—Whether the purchase of the stock of a life insurance subsidiary and its subsequent liquidation under section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is, in fact, a purchase of the subsidiary's insurance contracts.

SEC. 3. PROCEDURE

Because the above-cited areas are no longer under study, the Internal Revenue Service will now rule on issues involving these areas.

Rev. Proc. 89-3 is modified by deleting section 5.04, 5.10, 5.11, 5.12, 5.18, 5.19, 5.20, 5.21, 5.22, and 5.23.

SEC. 4. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 89-3 is modified.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective May 30, 1989, the date of its publication in the Internal Revenue Bulletin.

---

26 CFR 601.602: Forms and instructions.
(Also Part I, Section 6109; 301.6109-1.)

Rev. Proc. 89-37

SECTION 1. PURPOSE

Rev. Proc. 70-22, 1970-1 C.B. 503, establishes procedures to permit certain fiduciaries or other persons to file consolidated applications to obtain employer identification numbers (EINs). This revenue procedure updates those procedures and provides guidance to fiduciaries or other persons who are authorized to represent ten or more estates or trusts in federal tax matters or to execute and file tax returns in their behalf, and who wish to file a consolidated application to request a block of EINs for such estates or trusts in advance of filing returns.

SEC. 2. BACKGROUND

.01 Under section 6109 of the Internal Revenue Code, any person required to make a return, statement, or other document must furnish an identifying number as required by the forms and related instructions.

.02 Under section 301.6109-1 of the Regulations on Procedure and Administration, EINs identify corporations, partnerships, nonprofit associations, trusts, and similar nonindividual persons. Under Rev. Rul. 64-99, 1964-1 (Part I) C.B. 482, and Rev. Rul. 64-113, 1964-1 (Part I) C.B. 483, an EIN is prescribed for use by an estate in filing any federal income tax return. Any person required to furnish an EIN must apply for one on Form SS-4, Application for Employer Identification Number.

.03 Except for cases under Chapter 13 of the Bankruptcy Code (adjustment of debts of an individual with regular income), a bankrupt individual's estate is treated as a separate entity for federal income tax purposes. *See* section 1398 of the Code; *see also*, S. Rep. No. 1035, 96th Cong., 2d. Sess. 4, 1980-2 C.B. 620, 622. A receiver or trustee of a bankrupt individual's estate must request a separate EIN for each such estate. Pursuant to section 1399 of the Code, however, separate taxable entities are not created for a bankrupt corporation or partnership. A receiver or trustee of a bankrupt corporation or partnership must use the EIN of the corporation or partnership. However, if a trust is established in connection with the liquidation of a bankrupt corporation or partnership, an EIN is needed for the trust unless the corporation or partnership is the trustee and can revoke the trust. *See* section 301.6109-1(a)(2) of the regulations.

.04 A fiduciary or other person serving in a representative capacity, such as a bank, trust company, attorney, or agent, may be authorized to act for numerous estates or trusts. In order to minimize the burden of filing a separate application on Form SS-4 for each estate or trust, a fiduciary or other person who is authorized to represent ten or more estates or trusts needing EINs may request a series or block of EINs by following the procedures outlined in section 3 of this revenue procedure.

.05 A financial institution may request blocks of numbers for newly created mortgage pools (such as pools created under the mortgage-backed security programs administered by the Federal National Mortgage Association (''Fannie Mae'') or the Government National Mortgage Association (''Ginnie Mae'')), if the pools qualify as trusts for federal income tax purposes. However, when a pool is traded from one financial institution to another, a new entity is not created; therefore, a new EIN should not be requested. The EIN is transferred with the pool.

.06 A person applying for an EIN for estates or trusts that are subject to employment or excise taxes must file a separate application on Form SS-4 for each estate or trust and may not use the procedures outlined in this revenue procedure.

SEC. 3. PROCEDURE

.01 The fiduciary or other authorized representative must request the EINs from the Entity Control Section of the Internal Revenue Service Center for the region in which the fiduciary or other authorized representative has his or her legal residence or principal place of business. The request must be in writing and may be for an approximate number of EINs. EINs will only be supplied by the service center in consecutive series, or blocks, of 10, 25, 50, 75, or 100.

.02 Within 30 days of receipt of the block of EINs, the fiduciary or other authorized representative must assign the EINs to specific estates or trusts and must submit a list of the estates or trusts with the assigned pre-supplied numbers. The following information must be provided with the list:

(1). The name of the party submitting the request, and the capacity in which the party is acting. If there is a co-fiduciary, or if the submitting party is merely acting for or on behalf of an actual fiduciary, that party's name and title should also be included;

(2). Whether the EIN is for an estate or a trust, and if it is for a trust, the type of trust;

(3). The exact name of the estate or trust;

(4). The name of the grantor or decedent;

(5). The name of the beneficiary, if applicable;

(6). The date the estate or trust was established; and

(7). A statement indicating that none of the named entities have previously applied for or been assigned an EIN and that none are subject to employment or excise taxes.

.03 The list must be submitted in duplicate to the service center specified in section 3.01. The service center will acknowledge its receipt of the list and will return a copy of the list to the submitting fiduciary. Unassigned pre-supplied numbers outstanding 45 days after issuance by the service center will be cancelled by the service center.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 70-22 is modified and, as modified, is superseded.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective for consolidated applications that request a block of EINs for trusts or estates filed after May 30, 1989.

---

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.
(Also Part I, Sections 469, 7805; 1.469-4T, 301.7805-1.)

Rev. Proc. 89-38

SECTION 1. PURPOSE

01. This revenue procedure sets forth lines of business for purposes of applying section 1.469-4T(f)(4) of the Temporary Income Tax Regulations. This revenue procedure is promulgated pursuant to the authority granted in section 7805 of the Internal Revenue Code, section 469(l)(1) of the Code, and section 1.469-4T(f)(4)(iv) of the regulations. For the text of section 1.469-4T, see 54 FR 20527, T.D. 8253, beginning on page 121 of this Bulletin.

SEC. 2. BACKGROUND

01. Section 1.469-4T of the regulations provides rules under which a taxpayer's business and rental operations are treated as one or more separate activities for purposes of section 469 of the Code and the regulations thereunder.

02. Section 1.469-4T(f) of the regulations provides rules under which a taxpayer's interests in two or more trade or business undertakings (within the meaning of section 1.469-4T(f)(1)(ii)) that are similar (within the meaning of section 1.469-4T(f)(4)) and controlled by the same interests (within the meaning of section 1.469-4T(j)) are treated as part of the same activity of the taxpayer.

03. Section 1.469-4T(f)(4)(i) of the regulations provides that two trade or business undertakings are similar for purposes of section 1.469-4T(f) if and only

if (A) there are predominant operations in each such undertaking, and (B) the predominant operations of both undertakings are in the same line of business. For purposes of this rule, there are predominant operations in an undertaking if more than 50 percent of the undertaking's gross income is attributable to operations in a single line of business.

04. Section 1.469-4T(f)(4)(iv) of the regulations provides that the Commissioner shall establish, by revenue procedure, lines of business for purposes of applying section 1.469-4T(f)(4).

SEC. 3. SCOPE

This revenue procedure applies to all persons to whom the rules in section 1.469-4T of the regulations apply.

SEC. 4. APPLICATION

The lines of business listed in this revenue procedure are derived from the Standard Industrial Classification codes (the "SIC" codes) set forth in Executive Office of the President, Office of Management and Budget, *Standard Industrial Classification Manual* (1987). The SIC codes are arranged by divisions, two-digit major groups of industries, three-digit industry groups, and four-digit industries. The SIC code or codes to which a particular line of business corresponds are set forth in parentheses following the name of the line of business. Except as otherwise indicated, each line of business is intended to have the same content as the SIC code or codes from which it is derived.

The Internal Revenue Service anticipates that these lines of business may be modified from time to time to reflect technological, institutional, and other changes in the economy, taxpayers' and the Service's experiences in working with the lines of business, and changes in the SIC codes from which they are derived. In addition, section 1.469-4T(f)(4)(iv) of the regulations provides that business and rental operations that are not included in the lines of business established by the Commissioner shall nonetheless be included in a single line of business or multiple lines of business on a basis that reasonably reflects (A) similarities and differences in the property or services provided pursuant to such operations and in the markets to which such property or services are offered, and (B) the treatment within the lines of business established by the Commissioner of operations that are comparable in their similarities and differences.

Lines of business for purposes of applying section 1.469-4T(f)(4) of the regulations are set forth below.

01. Agricultural (including production of crops and livestock, services, and forestry) (01, 02, 07, and 08).

02. Fishing, hunting, and trapping (09).

03. Metal mining (10).

04. Coal mining (12).

05. Oil and gas extraction (13).

06. Mining—nonmetallic minerals, except fuels (14).

07. Real estate development and services (15, 65).

08. Heavy construction (except buildings) (16).

09. Manufacturing—food and kindred products (20).

10. Manufacturing—tobacco products (21).

11. Manufacturing—textile mill products (22).

12. Manufacturing—apparel (23).

13. Manufacturing—lumber and wood products (24).

14. Manufacturing—furniture and fixtures (25).

15. Manufacturing—paper and allied products (26).

16. Printing and publishing (27).

17. Manufacturing—chemicals and allied products (28).

18. Manufacturing—petroleum and coal products (29).

19. Manufacturing—rubber and miscellaneous plastics products (30).

20. Manufacturing—leather and leather products (31).

21. Manufacturing—stone, clay, and glass products (32).

22. Manufacturing—primary metals (33).

23. Manufacturing—fabricated metal products (34).

24. Manufacturing—industrial machinery and equipment (35).

25. Manufacturing—electronic and other electric equipment (36).

26. Manufacturing—transportation equipment (37).

27. Manufacturing—instruments and related products (38).

28. Railroad transportation (40).

29. Local and interurban passenger transit (41).

30. Trucking and warehousing (42).

31. Water transportation (44).

32. Air transportation (45).

33. Transportation pipelines (except natural gas) (46).

34. Transportation services (47).

35. Communications (48).

36. Electric, gas, and sanitary services (49).

37. Wholesale trade—durable goods (50).

38. Wholesale trade—nondurable goods (51).

39. Retailing—building materials and garden supplies (52).

40. General merchandise stores (53).

41. Food stores (54).

42. Automotive dealers and service stations (55).

43. Apparel and accessory stores (56).

44. Furniture and homefurnishings stores (57).

45. Eating and drinking places (58).

46. Drug stores and proprietary stores (591).

47. Liquor stores (592).

48. Used merchandise stores (593).

49. Miscellaneous shopping goods stores (594).

50. Nonstore retailers (596).

51. Fuel dealers (598).

52. Depository financial institutions (60).

53. Nondepository financial institutions (61).

54. Security and commodity brokers (62).

55. Insurance carriers (63).

56. Insurance agents, brokers, and service (64).

57. Holding and other investment offices (67).

58. Hotels and other lodging places (70).

59. Laundry, cleaning, and garment services (721).

60. Photographic studios (including portrait)(722).

61. Beauty and barber shops (723, 724).

62. Shoe repair and shoeshine parlors (725).

63. Funeral service and crematories (726).

64. Advertising (731).

65. Credit reporting and collection (732).

66. Mailing, reproduction, and stenographic services (733).

67. Services to buildings (734).

68. Miscellaneous equipment rental and leasing (735).

69. Personnel supply services (736).

70. Computer and data processing services (737).

71. Auto repair, services, and parking (75).

72. Electrical repair shops (762).

73. Watch, clock, and jewelry repair (763).

74. Reupholstery and furniture repair (764).

75. Motion picture services (78).

76. Amusement and recreation facilities (793, 799).

77. Commercial sports (794).

78. Educational services (82).

79. Social services (83).

SEC. 5. INQUIRIES

Taxpayers may send inquiries and comments about this revenue procedure to the following address: Office of Chief Counsel, 1111 Constitution Avenue, N.W., Room 4429, Washington, D.C. 20224 (Attn: CC:CORP:T:R (PS-001-89)).

SEC. 6. EFFECTIVE DATE

This revenue procedure is effective for taxable years to which section 1.469-4T of the regulations applies. See sections 1.469-4T(p) and 1.469-11T.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 89-39

SECTION 1. BACKGROUND

Rev. Proc. 89-3, page 761, this Bulletin, sets forth areas in which advance rulings will not be issued by the Internal Revenue Service. Section 3 of Rev. Proc. 89-3 is entitled, AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED.

SEC. 2. PROCEDURE

Rev. Proc. 89-3 is amplified by adding to section 3.01 the following new subsection.

Section 355.—Distribution of Stock and Securities of a Controlled Corporation.—The determination of whether the corporate business requirement of section 1.355-2(b) of the Income Tax Regulations is satisfied in the following situations:

1. Whether the reduction of non Federal taxes is substantially coextensive with the reduction of Federal taxes.

2. If a transaction has the potential of avoiding Federal taxes but has another corporate business purpose, whether the non-avoidance purpose is the "substantial" motivation for the transaction.

3. If a transaction has the potential of avoiding Federal taxes but the stated purpose is to reduce foreign taxes.

SEC. 3. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests received in the National Office after June 19, 1989, the date of publication of this revenue procedure.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 89-3 is amplified.

Social Security Contribution and Benefit Base

Under authority contained in the Social Security Act, the Secretary, Department of Health and Human Services, has determined and announced (53 F.R. 43934, dated October 31, 1988) that the contribution and benefit base for remuneration paid in 1989 and self-employment income earned in taxable years beginning in 1989 is $48,000.

Notice of Proposed Rulemaking

CONTENTS

The "Proposed regulations" heading in the index contains a list of Code sections affected, the subject matter and the number and page.

Notice of Proposed Rulemaking

Consolidated Return Regulations—Distributions After the Sale of Stock of a Subsidiary

CO-5-89

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary and final regulations.

SUMMARY: In * * * [T.D. 8245, page 270, this Bulletin] the Internal Revenue Service is issuing temporary and final regulations to provide rules relating to a dividend or other distribution subject to section 301 that is declared with respect to stock of a subsidiary member of an affiliated group filing consolidated federal income tax returns if the stock of that subsidiary member is disposed of before the distribution is made, but after the selling member becomes entitled to the distribution. The text of the temporary and final regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: The regulations are proposed to apply to a distribution subject to section 301 that is declared in a taxable year for which the due date (without extensions) of the federal income tax return is after March 14, 1989. Written comments and requests for public hearing must be delivered or mailed by May 15, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (CC:CO-5-89), Room 4429, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Background

The temporary regulations published in * * * [T.D. 8245, page 270, this Bulletin] amend temporary regulations §1.1502-32T and add cross-references to §§1.1502-14(a) and 1.1502-32(b) and (c) of Part 1 of Title 26 of the Code of Federal Regulations (CFR). The final regulations that are proposed to be based on these temporary regulations would be added to Part 1 of Title 26 of the CFR. Those final regulations would provide rules relating to a dividend or other distribution subject to section 301 that is declared with respect to stock of a subsidiary member of an affiliated group filing consolidated federal income tax returns if the stock of that subsidiary member is disposed of before the distribution is made, but after the selling member becomes entitled to the distribution. For the text of the new temporary regulations, see T.D. 8245 * * * [page 270, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Special Analyses

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. These rules, if issued, will not have a significant economic impact on a substantial number of small entities. These rules apply only to affiliated groups of corporations that have elected to file consolidated returns, which tend to be larger businesses. These rules would not significantly alter the reporting or record keeping duties of small entities. Therefore, an initial Regulatory Flexibility Analysis under the Regulatory Flexibility Act (5 U.S.C. Chapter 6) is not required.

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably nine copies) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who also submits written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on March 14, 1989, 8:45 a.m., and published in the issue of the Federal Register for March 16, 1989, 54 F.R. 11007)

Notice of Proposed Regulations

Disclosure of Information

D-1398-88

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed amendments to the Income Tax Regulations relating to the disclosure, under section 6103(n) of the Internal Revenue Code, of returns and return information, in connection with the procurement of property and services for purposes of tax administration. These proposed amendments give to the Tax Division, Department of Justice, the authority to make these disclosures under section 6103(n) for federal tax administration purposes. These proposed amendments affect all disclosures by the Tax Division, Department of Justice, made to any person(s) described in section 6103(n). These proposed amendments apply to all disclosures made after the effective date of this amended regulation.

DATES: These proposed amendments to the regulations are proposed to be effective March 6, 1989. Written comments and requests for a public hearing must be delivered or mailed by February 2, 1989.

ADDRESS; Send comments and requests for a public hearing to: Internal Revenue Service, Attention: CC:CORP:T:R, Room 4429, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations relating to the disclosure of returns and return information under section 6103(n) of the Internal Revenue Code (26 CFR §301.6103(n)-1).

Explanation of Provisions

Section 6103(n) of the Code authorizes the disclosure, pursuant to Treasury Regulations, of returns and return information to the extent necessary and in connection with the processing, storage, transmission, and reproduction of returns and return information, and the programming, maintenance, repair, testing, and procurement of equipment, for purposes of tax administration. Section 6103(b)(4) of the Code defines "tax administration" to include litigation arising under the Internal Revenue laws.

Existing §301.6103(n)-1 of the regulations authorizes disclosures to third parties under section 6103(n) only by officers or employees of the Treasury Department, a State tax agency, or the Social Security Administration, for tax administration purposes. Under the current regulations, the Tax Division, Department of Justice, cannot make disclosures to third parties. These proposed amendments would give disclosure authority to the Tax Division, Department of Justice, in order to allow the Tax Division to disclose tax returns and return information for purposes of obtaining litigation support services during the course of litigation arising under the Code. This authority is deemed necessary to enable the Tax Division to procure services from outside contractors in connection with Tax Division's tax litigation responsibilities.

Special Analyses

The proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comments, the notice and public procedure requirements of 5 U.S.C. §553 do not apply because the regulations proposed herein are interpretative. Therefore, an initial Regulatory Flexibility Analysis is not required by the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Comments and Request for a Public Hearing

Before adopting the proposed amendments to the regulations, consideration will be given to any written comments that are submitted (preferably a signed original and eight copies) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing may be scheduled and held upon written request by any person who submits written comments. If a public hearing is scheduled, notice of the time and place will be published in the Federal Register.

* * * * * *

Accordingly, Title 26, Part 301 of the Code of Federal Regulations, is proposed to be amended as follows:

PART 301, Procedure and Administration.

Paragraph 1. The authority for Part 301 is amended by adding the following citation:

Authority; 26 U.S.C 7805; * * * Section 301.6103(n)-1 also issued under 26 U.S.C. 6103(n).

Paragraph 2. Section 301. 6103(n)-1(a) is amended as follows:

In §301.6103(n)-1, the first sentence of paragraph (a) is amended by removing the language "or" immediately following the phrase "State tax agency", and by adding, immediately following the phrase "the Social Security Administration", the language, "or the Tax Division, Department of Justice".

Also in paragraph (a), the first full sentence of the flush language following paragraph (a)(2) is amended by removing the language "or" immediately following the phrase "State tax agency", and by adding, immediately following the phrase "the Social Security Administration", the language, "or the Tax Division, Department of Justice".

Paragraph 3. Section 301.6103(n)-1(d) is amended as follows:

In §301.6103(n)-1, the second sentence of paragraph (d) is amended by removing the language "or" immediately following the phrase "State tax agency", and by adding, immediately following the phrase "the Social Security Administration", the language, "or the Tax Division, Department of Justice".

Paragraph 4. Section 301.6103(n)-1(d) is further amended as follows:

In §301.6103(n)-1, paragraph (d)(2) is amended by adding, immediately following the phrase "State tax agency", the language "or to the Tax Division, Department of Justice".

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 30, 1988, 8:45 a.m., and published in the issue of the Federal Register for January 3, 1989, 54 F.R. 39)

Notice of Proposed Rulemaking

Lobby by Public Charities; Lobbying by Private Foundations; Amendment of Notices of Proposed Rulemaking

EE-154-78

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking and notice of public hearing.

SUMMARY: This document revises proposed regulations published in 1986 and also supersedes portions of proposed regulations published in 1980. The proposed regulations relate to lobbying expenditures by certain tax-exempt public charities and by private foundations. Changes to the tax laws governing lobbying by public charities were made by the Tax Reform Act of 1976 (the "Act") [Pub. L. 99-514, 1986-3 C.B. (Vol. 1)]. The proposed regulations will provide organizations the guidance needed to comply with the Act, and will affect public charities electing the expenditure test under section 501(h) of the Internal Revenue Code of 1986 ("electing public charities"). The proposed regulations will also provide organizations with clearer guidance needed to comply with the requirements of section 4945 (relating to lobbying expenditures by private foundations). Finally, in light of the unique charitable and educational purposes shared by all organizations described in section 501(c)(3) as well as the similarity of the statutory schemes governing lobbying by private foundations and by electing public charities, the regulations ensure that the rules regarding lobbying by private foundations are consistent with the rules regarding lobbying by electing public charities. However, these proposed regulations are not applicable to lobbying by ineligible or nonelecting public charities, which continue to be covered by the "substantial part" test regarding lobbying activities.

DATES: Written comments and/or requests to appear (with an outline of the oral comments to be presented) at a public hearing scheduled for Monday, April 3, 1989, at 10:00 a.m., and continuing, if necessary, at the same time on Tuesday, April, 4, 1989, must be delivered or mailed by March 23, 1989. The proposed regulations published in the Federal Register on November 5, 1986 (51 FR 40211), as amended by this document, are proposed to be effective for tax years beginning after the publication of final regulations.

ADDRESS: Send comments, requests to appear at the public hearing, and outlines of oral comments to be presented at the public hearing to: Commissioner of Internal Revenue, Attention: CC:CORP: T:R (EE-154-78), Washington, D.C. 20224. The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C.

SUPPLEMENTARY INFORMATION:

PRIOR LAW

A publicly supported charity is not an organization described in section 501(c)(3) ("a section 501(c)(3) organization") if its lobbying activities are more than an insubstantial part of its activities. If it is determined that a substantial part of a publicly supported section 501(c)(3) organization's activities consists of attempts to influence legislation, the organization will lose its tax-exempt status as a charity. Before the passage of the Tax Reform Act of 1976, there was uncertainty about what constituted a "substantial part" of an organization's activities. Congress was aware both of the severity of loss of tax exemption as a sanction and of the belief that the vague standards of the substantial part test tended to create uncertainty and allow subjective and selective enforcement.

EXPENDITURE TEST

Under sections 501(h) and 4911, which were added by section 1307 of the Tax Reform Act of 1976, certain publicly supported section 501(c)(3) organizations may elect to spend up to a certain percentage of their "exempt purpose expenditures" to influence legislation without incurring tax or losing qualification for tax-exempt status. Thus, if an eligible organization elects the "expenditure test" of sections 501(h) and 4911, specific statutory dollar limits on the organization's lobbying expenditures apply. Under the expenditure test, there are limits both upon the amount of the organization's grass roots lobbying expenditures and upon the total amount of the organization's direct and grass roots lobbying expenditures. In contrast to the substantial part test, however, the expenditure test imposes no limit on lobbying activities that do not require expenditures, such as certain unreimbursed lobbying activities conducted by bona fide volunteers. In general, if either or both of the expenditure test limits are exceeded, a 25 percent excise tax is imposed upon the greater of: (1) the amount by which the organization's grass roots lobbying expenditures exceed its grass roots lobbying limit, or (2) the amount by which an organization's total direct and grass roots lobbying expenditures exceed its total lobbying limit. Additionally, if an organization's grass roots expenditures or total lobbying expenditures normally exceed 150 percent of the applicable limitation on its lobbying expenditures, the organization will cease to be described in section 501(c)(3), and, therefore, will cease to be exempt from income tax and will no longer be eligible to receive tax deductible charitable contributions.

BACKGROUND

On November 25, 1980, the Federal Register published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 162, 6001, and 6033 of the Internal Revenue Code of 1954 (relating to grass roots lobbying expenditures by business corporations) and to the Foundation and Similar Excise Taxes (26 CFR Part 53) under section 4945 of the Internal Revenue Code of 1954 (relating to lobbying expenditures by private foundations) (45 FR 78167) ("the 1980 NPRM").

On November 5, 1986, the Federal Register published proposed amendments to the Income Tax Regulations (26 CFR Part 1), Temporary Income Tax Regulations under the Tax Reform Act of 1976 (26 CFR Part 7), Estate Tax Regulations (26 CFR Part 20), Gift Tax Regulations (26 CFR Part 25), and Foundation and Similar Excise Taxes (26 CFR Part 53), and also proposed regulations on Public Charity Excise Taxes (26 CFR Part 56), under sections 170, 501(c)(3), 501(c)(4), 501(h), 504, 2055, 2522, 4911, 4945, 6001, 6011, and 6033 of the Internal Revenue Code of 1954 (51 FR 40211) ("the 1986 NPRM") [EE-154-78, 1986-2 C.B. 750].

This document supersedes a portion of the 1980 NPRM and revises portions of the 1986 NPRM. Specifically, it supersedes that portion of the 1980 NPRM that proposed amendments to the regulations under section 4945 of the Internal Revenue Code (relating to lobbying expenditures by private foundations). It revises portions of the 1986 NPRM relating to proposed regulations on Public Charity Excise Taxes (26 CFR Part 56) under section 4911 of the Internal Revenue Code. In addition, it revises portions of the 1986 NPRM that proposed amendments to the regulations under sections 501(h) and 4945. Thus, where this document proposes to amend any portion of the regulations under section 501(h) or section 4945, the proposed amendment in this document supersedes any proposed amendment of that portion of the regulations that was published in the 1986 NPRM.

The amendments to the Foundation and Similar Excise Taxes are necessary to provide guidance to organizations that must comply with the requirements of section 4945 and will also ensure that the regulations regarding lobbying by private foundations are consistent with the regulations regarding lobbying by electing public charities. The amendments proposed on November 5, 1986, as amended in this document, are proposed to conform the regulations to section 1307 of the Tax Reform Act of 1976 (90 Stat. 1720) as well as to ensure consistency between the similar schemes governing lobbying expenditures by electing public charities and by private foundations. The proposed regulations are to be issued under the authority in sections 501(h)(6), 504(b), 4911(f)(3) and 7805 of the Internal Revenue Code of 1986 (26 U.S.C. 501(h)(6). 504(b), 4911(f)(3), 7805).

PUBLIC COMMENT PROCESS OF PREVIOUS NOTICES OF PROPOSED RULEMAKING

Several thousand written comments were received concerning the 1986 NPRM. Numerous written comments were also received concerning the 1980 NPRM. In addition, on May 11 and 12, 1987, the Internal Revenue Service ("Service") held public hearings concerning the 1986 NPRM.

The numerous public comments and the two days of public hearings have been helpful in formulating this revised notice of proposed rulemaking. In addition, possible revisions of the controversial sections of the proposed regulations have been discussed at length with the Commissioner's Exempt Organizations Advisory Group (comprised of legal and other representatives of exempt organizations as well as academics) at public meetings held on September 17, 1987, and February 26, 1988.

Every effort has been made in the drafting of this revised notice of proposed rulemaking to be as responsive as possible to the many comments received from the public. This effort required a careful balancing of the statutory mandate limiting the amount of lobbying expenditures by section 501(c)(3) organizations with the desire of the affected organizations and individuals to involve themselves in the public policymaking process to the greatest extent consistent with that statutory mandate. Extensive revisions have been made to the prior notices of proposed rulemaking in an effort to achieve this difficult balance. For example, the proposed regulations contain a definition of grass roots lobbying that is less inclusive than is permitted by the broad statutory language defining grass roots lobbying.

Numerous portions of the 1986 NPRM were not controversial, however, and gave rise to little or no public comment. Those portions of the proposed regulations have been retained and are, in general, not affected by the revisions proposed in this document. For example, proposed §§1.501(h)-1 and 1.501(h)-3, proposed in the 1986 NPRM, describe the application of the expenditure test to electing public charities, including that an electing public charity may undertake a certain amount of lobbying expenditures without being subject to tax or having its tax-exempt status revoked. With minor exceptions, these portions of the proposed regulations are not affected by the revisions proposed in this document.

SUMMARY OF COMMENTS RECEIVED ON THE PREVIOUS NOTICES OF PROPOSED RULEMAKING AND EXPLANATION OF PROVISIONS

1. *Proposed Effective Date*

Many of the comments on the 1986 NPRM's proposed regulations regarding lobbying expenditures by electing public charities opposed the proposed effective date of the proposed regulations (generally for tax years beginning after December 31, 1976). On April 9, 1987, the Service issued an information release, IR-87-49, stating that final regulations will be effective only prospectively from the date of publication of final regulations. Accordingly, the amendments proposed in this document and in the 1986 NPRM, as revised by this document, are hereby proposed to be effective on a prospective-only basis for tax years beginning after the date of publication of final regulations.

2. *Definition of Grass Roots Lobbying*

The 1986 NPRM proposed to define grass roots lobbying as a communication that:

(i) Pertains to legislation being considered by a legislative body, or seeks or opposes legislation,

(ii) Reflects a view with respect to the desirability of the legislation (for this purpose, a communication that pertains to legislation but expresses no explicit view on the legislation shall be deemed to reflect a view on legislation if the communication is selectively disseminated to persons reasonably expected to share a common view of the legislation), and

(iii) Is communicated in a form and distributed in a manner so as to reach individuals as members of the general public, that is, as voters or constituents, as opposed to a communication designed for academic, scientific, or similar purposes. A communication may meet this test even if it reaches the public only indirectly, as in a news release submitted to the media.

Most commentators expressed opposition to the breadth of the definition of grass roots lobbying contained in the 1986 NPRM. The primary objections were that the definition did not require a communication to have a "call to action" or some other encouragement to action on the part of the communication's recipients; that the definition considered an otherwise balanced discussion of a piece of legislation to reflect a view on that legislation based on the persons to whom the discussion was disseminated; and that the definition did not require the legislation to be pending or imminently to be introduced. Several commentators also expressed concern that the third part of the proposed definition of grass roots lobbying, regarding communications that reach the public only indirectly, could include testimony on a bill before a legislative committee if the press was in attendance.

In response to the numerous comments on the 1986 NPRM, this document substantially revises the proposed definition of grass roots lobbying. The modifications include the removal of the phrases "pertains to," "seeks or opposes legislation," and "selectively disseminated to persons reasonably expected to share a common view of the legislation."

In place of the definition contained in the 1986 NPRM, this document proposes to define the term "grass roots lobbying communication" (except with regard to a limited number of mass media communications discussed below) to include only those communications that: (1) refer to specific legislation; (2) reflect a view on such legislation; and (3) encourage the recipient of the communication to take action with respect to such legislation.

Thus, under the rules proposed in this document, a communication is not a grass roots lobbying communication unless the communication's reference to legislation is to "specific legislation." As indicated in this document, this term includes both legislation that has already been introduced in a legislative body and a specific legislative proposal that the organization either supports or opposes.

The rules proposed in this document also indicate that a communication is not a grass roots lobbying communication unless it encourages its recipients to take action with respect to the specific legislation. As indicated in this document, a communication encourages its recipients to take action only if the communication:

(1) states that the recipient should contact a legislator or an employee of a legislative body, or should contact any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of urging contact with the government official or employee is to influence legislation);

(2) states the address, telephone number, or similar information of a legislator or an employee of a legislative body;

(3) provides a petition, tear-off postcard or similar material for the recipient to communicate his or her views to a legislator or an employee of a legislative body, or to any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of so facilitating contact with the government official or employee is to influence legislation); or

(4) specifically identifies one or more legislators who will vote on the legislation as: (a) opposing the communication's view with respect to the legislation; (b) being undecided with respect to the legislation; (c) being the recipient's representative in the legislature; or (d) being a member of the legislative committee that will consider the legislation. Encouraging the recipient to take action under this fourth category does not include naming the main sponsor(s) of the legislation for purposes of identifying the legislation.

Communications that are described in categories (1) through (3) above are deemed not only to encourage action with respect to legislation, but also to "directly encourage" action with respect to legislation. This distinction is important because only communications in category (4), which encourage the recipient to take action with respect to legislation without "directly encouraging" such action, may be within the exception for nonpartisan analysis, study or research and, as a result, not be grass roots lobbying communications.

This revised definition is a major modification to the definition proposed in the 1986 NPRM. The lobbying definition contained in this document (with an exception for a limited number of mass media communications discussed below) not only requires that the communication contain a reference to specific legislation, but also requires that the communication both reflect a view with respect to such legislation and encourage the recipient to take action. Under such a definition, communications could advocate or oppose specific legislation and not be considered lobbying, so long as the communications do not encourage the recipients to take action with respect to the legislation. The 1986 NPRM, in contrast, included within the definition of lobbying certain communications that did not encourage the recipient to take action with respect to legislation. Also in contrast to this document's definition, the definition proposed in 1986 provided that a communication not directly taking a position on legislation could be lobbying based upon the selective dissemination of the communication.

The one exception to the above three-part definition of lobbying is a special rule for certain mass media communications. If within two weeks before a vote by a legislative body, or committee thereof, on a highly publicized piece of legislation, an organization makes a communication in the mass media that reflects a view on the general subject of such legislation and either (1) refers to the highly publicized legislation or (2) encourages the public to communicate with their legislators on the general subject of such legislation, then the communication will be presumed to be a grass roots lobbying communication. An organization can rebut this presumption by demonstrating that the communication is a type of communication regularly made by the organization in the mass media without regard to the timing of legislation (that is, a customary course of business exception) or that the timing of the communication was for reasons unrelated to the upcoming legislative action. For purposes of this special rule, the term "mass media" means television, radio, and certain general circulation newspapers and magazines. Any mass media communication that is not made within two weeks before a legislative vote on a highly publicized piece of legislation will be tested by the general three-part test for grass roots lobbying.

Under the proposed regulations, testimony on a bill before a legislative committee, which is often a direct lobbying communication, is not grass roots lobbying merely because the testimony indirectly reached the public through press coverage of the organization's testimony.

In addition to the rules discussed above, numerous examples are provided to assist organizations in evaluating the facts and circumstances of each individual case. In general, those examples amplify the rule that a communication that advocates or opposes specific legislation is generally not a grass roots lobbying communication unless it encourages the recipient to take action with respect to the legislation, such as by requesting recipients to contact legislators or by providing the names of undecided legislators.

As noted above, under the proposed regulations, a communication will be considered to encourage recipients to take action with respect to legislation only if the communication is described in one of the four listed categories. The Service will, however, continue to study communications and, if other methods of encouraging recipients to take action are identified, will propose amendments to the regulations.

In order to achieve the balance between the statutory mandate limiting expenditures for grass roots lobbying and the desire of many charitable organizations to participate in the public policy process, the definition of grass roots lobbying proposed in this document is a less inclusive definition than is permitted by the broad statutory language defining grass roots lobbying. The Service believes that any definition of grass roots lobbying less inclusive than that proposed in this document could, in effect, eliminate the statutory limitation Congress has placed on grass roots lobbying expenditures by electing public charities.

3. *Definition of Direct Lobbying*

Some commentators criticized the definition of direct lobbying contained in the 1986 NPRM in that the definition was based on the grass roots lobbying definition. The primary objections were that the definition considered an otherwise balanced discussion of a piece of legislation to reflect a view on legislation based on the dissemination of the communication, and that the definition did not require the legislation to be pending or imminently to be introduced.

This document proposes to modify the definition of direct lobbying by removing the phrases "pertains to," "seeks or opposes legislation," and "selectively disseminated to persons reasonably expected to share a common view of the legislation." In place of the definition contained in the 1986 NPRM, this document proposes to define the term "direct lobbying communication" to include only those communications to legislators or certain other government officials that (1) refer to specific legislation, and (2) reflect a view on such legislation.

4. *Allocation Rules*

Many commentators expressed concern about the allocation rules proposed in the 1986 NPRM, particularly the special rules relating to advertising, fundraising, and mixed lobbying purposes.

This document revises the proposed allocation rules. Under the allocation rule proposed in this document, a mixed grass roots and direct lobbying expenditure is to be treated as a grass roots expenditure, except to the extent that the organization demonstrates that the expenditure was incurred *primarily* (rather than the *solely* standard contained in the 1986 NPRM) for direct lobbying purposes, in which case a reasonable allocation shall be made between the direct and grass roots lobbying purposes served by the communication.

This document removes the two special rules with respect to fundraising and advertising contained in the 1986 NPRM. For lobbying communications that also serve a bona fide nonlobbying purpose, this document proposes two different allocation rules. Which rule is used depends upon whether the communication is sent primarily to members or nonmembers.

For communications that are sent primarily to bona fide members (that is, for communications sent to more members than nonmembers), an organization must make a reasonable allocation between the amount expended for the lobbying purpose and the amount spent for the nonlobbying purpose. Including as a lobbying expenditure only the amount expended for the specific sentence or sentences that encourage the recipient to action is not considered a reasonable allocation.

For lobbying communications that are not sent primarily to bona fide members, all costs attributable to those parts of the communication that are on the same specific subject as the lobbying message must be included as lobbying expenditures for allocation purposes. Under the rules proposed in this document, however, the costs attributable to parts of a lobbying communication that are not on the same specific subject as the lobbying message are not considered lobbying expenditures. Whether or not a portion of a communication is on the same specific subject as the lobbying message will depend on the surrounding facts and circumstances. In general, a portion of a communication will be on the same specific subject as the lobbying message if that portion discusses an activity that would be directly affected by the proposed legislation that is the subject of the lobbying message. Moreover, discussion of the background or consequences of either the proposed legislation or of an activity directly affected by the proposed legislation will also be considered to be on the same specific subject as the lobbying communication.

5. *Research and Preparation Costs*

Some commentators expressed concern that, under the 1986 NPRM, the research and preparation costs incurred in producing a nonlobbying communication could be treated as a lobbying expenditure because of subsequent use of the communication in a lobbying campaign by that organization, a related organization, or an unrelated organization.

This document attempts to make clear that the costs of researching and preparing nonlobbying communications would be treated as lobbying expenditures only in cases of abuse. Except in such cases, the regulations proposed in this document would not treat as lobbying expenditures the research and preparation costs of a communication that is not itself a lobbying communication merely because the communication was also used in a lobbying campaign.

A communication that reflects a view on specific legislation but that is not a lobbying communication will be treated as a lobbying communication because of subsequent use of the communication in a lobbying effort only if the primary purpose of the organization in preparing the communication was for use in lobbying. The primary purpose of an organization in preparing a document is not lobbying if, prior to or contemporaneously with the use of the communication in lobbying, the organization makes a substantial nonlobbying distribution of the communication.

Where a communication's nonlobbying distribution is not substantial, all of the facts and circumstances must be weighed to determine the organization's primary purpose in preparing the communication. Two factors of particular importance are (1) the relative scope of the nonlobbying and subsequent lobbying distributions, and (2) whether the subsequent lobbying distribution is made by the organization itself, a related organization or an unrelated organization. Where the subsequent distribution is made by an unrelated organization, clear and convincing evidence will be required to establish that the primary purpose for preparing the communication was for use in lobbying.

6. *Communications with Members*

With respect to the exception for an organization's communications with its members, many commentators stated that their organizations have only a mailing list of supporters, without a formal membership, or have a single mailing list that includes both formal members and nonmember supporters.

This document does not revise the proposed definition of membership because the statutory use of the term "bona fide member', combined with the legislative history, indicates Congress intended that the exception for communications with members not include persons simply included on a mailing list or those whose financial support of the organization is in the distant past. However, the proposed regulations relating to communications with members have been slightly modified to reflect the revisions to the definition of direct and grass roots lobbying.

7. *Exception for Nonpartisan Analysis, Study or Research*

Some commentators expressed concern that the statutory exception for nonpartisan analysis should apply to some of the examples under the 1986 NPRM's general definition section for grass roots lobbying.

The section 4945 regulations currently provide that engaging in and making available nonpartisan analysis, study or research does not constitute lobbying. This same exception was included in the 1986 NPRM's proposed section 4911 regulations by cross-reference to the section 4945 regulations. This document proposes to include in the section 4911 regulations the full text of the section 4945 regulations' exception for nonpartisan analysis, study or research, rather than merely a cross-reference to the section 4945 regulations. As requested by the comments, the examples proposed in this document note where the nonpartisan analysis exception clearly applies. As a result of the narrow definition of grass roots lobbying proposed in this document, many communications addressing legislation will not be grass roots lobbying communications. Because fewer communications will be lobbying communications, organizations will not have to depend on the nonpartisan analysis exception to the extent necessary under the 1986 NPRM. That is to say, under the rules proposed in this document, many communications that address legislation will fail to be lobbying communications as a result of the narrow definition of lobbying rather than because of the nonpartisan analysis exception.

The comments received by the Service indicated some confusion regarding the scope of the nonpartisan analysis exception. To remove this confusion, this document proposes to clarify in both the section 4945 and section 4911 regulations that a communication is not within the nonpartisan analysis exception if the communication *directly* encourages recipients of the communication to contact legislators or certain other governmental officials in favor of or in opposition to specific legislation. As stated above, a communication would encourage the recipient to take action with respect to legislation, but not *directly* encourage such action, if the communication does no more than specifically identify legislators as: opposing the communication's view with respect to the legislation; being undecided with respect to the legislation; being the recipient's representative in the legislature; or being a member of the legislative committee that will consider the legislation.

This document proposes an additional amendment to the regulations regarding the nonpartisan analysis, study or research exception. Under the rules proposed in this document, analysis, study or research that reflects a view on specific legislation is not nonpartisan if an organization's primary purpose for undertaking the analysis, study or research is for use in lobbying *and* the analysis, study or research is subsequently used as, or with, a lobbying communication that directly encourages recipients to take action with respect to specific legislation. However, the primary purpose of the organization in undertaking analysis, study or research will not be considered to be lobbying if, prior to or contemporaneously with the use of the analysis, study or research in lobbying, the organization makes a substantial distribution of the analysis, study or research (without an accompanying lobbying message). Whether a distribution is substantial will be determined by reference to all of the facts and circumstances, including the normal distribution pattern of similar nonpartisan analyses, studies, or research.

8. *Exception for Discussion of Broad Social, Economic and Similar Problems*

Some commentators requested that the "discussion of broad social, economic and similar problems" exception to the definition of lobbying be included in the text of the section 4911 regulations (relating to lobbying expenditures by electing public charities). The section 4945 regulations currently provide that discussions of broad social, economic and similar problems are not lobbying activities. This document proposes that the full text of the exception be included in the section 4911 regulations. In response to confusion about the scope of the exception, this document proposes that the exception, for purposes of both section 4945 and section 4911, does not apply where a communication directly encourages recipients of the communication to contact legislators or certain other government officials in favor of or in opposition to specific legislation. Because of the revised definition of grass roots lobbying proposed in this document, many communications will not be grass roots lobbying, and thus very few, if any, communications that actually constitute grass roots lobbying communications will be within the exception for discussion of broad social, economic and similar problems. That is, the revised definition of grass roots lobbying will reduce or eliminate the need for organizations to depend upon the exception for discussion of broad social, economic and similar problems.

9. *Grants by Private Foundations to Electing Public Charities*

Some commentators noted that the 1986 NPRM would expand certain rules relating to restrictions on grants by private foundations to electing public charities beyond the scope of a private letter ruling issued by the Service in 1977. These commentators suggested that the additions to the Service's 1977 private ruling are inappropriate and unnecessary.

With respect to grants by private foundations to electing public charities, this document revises the 1986 NPRM to conform to the Service's 1977 private letter ruling by removing the additional restrictions. Additionally, this document states that a private foundation can rely on the assertions of the grantee regarding the nonlobbying nature of the funded activities, unless the private foundation doubts or, in light of all the facts and circumstances, reasonably should doubt the accuracy or reliability of the documents provided by the grantee.

10. *Effect on 1980 Notice of Proposed Rulemaking*

In the 1980 NPRM, the Service proposed amendments to the regulations on Foundations and Similar Excise Taxes in order to provide clearer guidance to organizations that must comply with the requirements of section 4945, relating to the making of lobbying expenditures by private foundations. Regulations under section 162(e)(2) were also proposed to be amended in that same notice of proposed rulemaking. This document proposes to revise the regulations regarding lobbying by private foundations by conforming them to the regulations governing lobbying by electing public charities. It does not propose any revisions to the regulations under section 162(e)(2).

11. *Rules Regarding Affiliated Organizations*

Several commentators objected to the 1986 NPRM's standard that organizations are affiliated where the governing instruments of the "controlled" organization require that the "controlled" organization "take into account" the position of the "controlling" organization on a legislative issue.

In response to those comments, this document slightly modifies the affiliation rules by removing the "take into account" language and directly tracking the statutory language.

12. *Definition of Term "Separate Fundraising Units."*

Several commentators objected to the use of the term "substantial" in the 1986 NPRM's definition of the term "separate fundraising units." Their objections were with regard to both the term's lack of precision and its expansive scope.

In response to such objections, this document slightly modifies the proposed rule to include only those persons who spend a majority, rather than a substantial part, of their time on fundraising for the organization.

13. *Miscellaneous Technical Revisions*

Finally, some commentators suggested that, for a variety of reasons, certain portions of the proposed regulations needed minor technical changes. In response to those comments, this document proposes several minor technical revisions to the 1986 NPRM. The Service specifically welcomes further comments suggesting any additional technical revisions necessary for proper implementation of the underlying statutes.

Several sections in the regulations have been reserved. This is simply for the convenience of the FEDERAL REGISTER reader.

RULINGS REGARDING APPLICATION OF THE REGULATIONS

Under its ruling program (see Rev. Proc. 83-36, 1983-1 C.B. 763 and Rev. Proc. 88-8, 1988-1 C.B. 628), the Service will consider requests for private letter rulings to clarify the application of these regulations to particular fact patterns.

COMMENTS, REQUESTS TO APPEAR AT THE PUBLIC HEARING, AND OUTLINE OF ORAL COMMENTS TO BE PRESENTED AT THE PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably nine copies) to the Commissioner of Internal Revenue. All comments, requests to appear at, and outlines of oral comments to be presented at the public hearing will be available for public inspection and copying. In light of the extensive comments upon and full discussion of the issues in this document since the enactment of the Tax Reform Act of 1976 and the publication of the 1986 NPRM, the Service has scheduled a public hearing to be held on Monday, April 3, 1989, at 10:00 a.m., and continuing, if necessary, at the same time on Tuesday, April, 4, 1989, in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required. Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

SUPERSESSION

These regulations, when published in final form in the Federal Register, will supersede §7.0(c)(4) of the Temporary Income Tax Regulations under the Tax Reform Act of 1976. This document supersedes that portion of the notice of proposed rulemaking published in the Federal Register on November 25, 1980 (45 FR 78167) that proposed amendments to the regulations on Foundations and Similar Excise Taxes (26 CFR Part 53). Where this document proposes to amend any portion of the regulations under Title 26 of the Code of Federal Regulations, the proposed amendment in this document supersedes any proposed amendment of that portion of the regulations that was previously published in the Federal Register on November 5, 1986 (51 FR 40211).

* * * * * *

Proposed Amendments to the Regulations

Accordingly, (I) the proposed amendments to 26 CFR Part 53 that were published on November25, 1980 (45 FR 78167) are withdrawn, and (II) the notice of proposed rulemaking (to amend 26 CFR Parts 1 and 53 and add a new Part 56) that was published on November 5, 1986 (51 FR 40211), is amended, and additional amendments of Part 53 are proposed, as follows:

INCOME TAX REGULATIONS (26 CFR Part 1)

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 1.504-1 and 1.504-2 also issued under 26 U.S.C. 504(b).

Par. 2. Proposed §1.501(h)-2 is amended by revising paragraph (b)(2)(vi) to read:

§1.501(h)-2 Electing the expenditure test.

* * * * * *

(b) *Organizations eligible to elect the expenditure test.* * * *

(2) *Certain organizations listed.* * * *

(vi) Section 509(a)(3) (relating to organizations supporting public charities), except that for purposes of this paragraph (b)(2), section 509(a)(3) shall be applied without regard to the last sentence of section 509(a).

* * * * * *

Par. 3. Proposed §1.501(h)-3 is amended by revising paragraph (c)(4) and adding new Examples (4) and (5) to paragraph (e), to read:

§1.501(h)-3 Lobbying or grass roots expenditures normally in excess of ceiling amount.

* * * * * *

(c) *Definitions.* * * *

(4) The term "grass roots expenditures" means expenditures for grass roots lobbying communications as defined in section 4911(c)(3) or section 4911(f)(4)(A) and §§56.4911-2 and 3.

* * * * * *

(e) *Examples.* * * *

Example (4). Organization M made the expenditure test election under section 501(h) effective for taxable years beginning with 1977 and has not revoked the election. M has $500,000 of exempt purpose expenditures during each of the years 1981 through 1984. In addition, during each of those years, M spends $75,000 for direct lobbying and $25,000 for grass roots lobbying. Since the amount expended for M's lobbying (both total lobbying and grass roots lobbying) is within the respective nontaxable expenditure limitations, M is not liable for the 25 percent excise tax imposed under section 4911(a) upon excess lobbying expenditures, nor is M denied tax-exempt status by reason of section 501(h).

Example (5). Assume the same facts as in Example (4), except that, on behalf of M, numerous unpaid volunteers conduct substantial lobbying activities with no reimbursement. Since the substantial lobbying activities of the unpaid volunteers are not counted towards the expenditure limitations and the amount expended for M's lobbying is within the respective nontaxable expenditure limitations, M is not liable for the 25 percent excise tax under section 4911, nor is M denied tax-exempt status by reason of section 501(h).

FOUNDATION AND SIMILAR EXCISE TAXES(26 CFR Part 53)

Par. 4. The authority citation for Part 53 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 5. Section 53.4945-2 is amended as follows:

1. Paragraph (a)(1) is revised, paragraph (a)(2) is removed and reserved, proposed paragraph (a)(6) is revised, and, in proposed paragraph (a)(7)(ii), Examples (1), (2), and (3) are revised and new Examples(10) through (13) are added, and the introductory text is republished to read as set forth below.

2. Paragraphs (b) and (c) are removed and reserved.

3. Paragraph (d)(1)(i) is revised to read as set forth below.

4. In paragraph (d)(1)(iv), the last sentence is revised to read as set forth below.

5. Paragraph (d)(1)(v), *Examples*, is redesignated as paragraph (d)(1)(vii), Examples (4) and (5) are revised, and new Examples (8) through (11) are added, to read as set forth below.

6. New paragraphs (d)(1)(v) and (d)(1)(vi) are added, to read as set forth below.

7. Paragraph (d)(4) is revised to read as set forth below.

§53.4945-2 Propaganda influencing legislation.

(a) *Propaganda influencing legislation, etc.*—(1) *In general.* Under section 4945(d)(1) the term "taxable expenditure" includes any amount paid or incurred by a private foundation to carry on propaganda, or otherwise to attempt, to influence legislation. An expenditure is an attempt to influence legislation if it is for a direct or grass roots lobbying communication, as defined in §56.4911-2 (without reference to §§56.4911-2(b)(3) and 56.4911-2(c)) and §56.4911-3. See, however, paragraph (d) of this section for exceptions to the general rule of this paragraph (a)(1).

(2) [Reserved]

* * * * * *

(6) *Grants to public organizations that attempt to influence legislation*—(i) *General Support Grant.* A general support grant by a private foundation to an organization described in section 509(a)(1), (2), or (3) (a "public charity" for purposes of paragraphs (a)(6) and (7) of this section) does not constitute a taxable expenditure under section 4945(d)(1) to the extent that the grant is not earmarked, within the meaning of §53.4945-2(a)(5)(i), to be used in an attempt to influence legislation. The preceding sentence applies without regard to whether the public charity has made the election under section 501(h).

(ii) *Specific Project Grant.* A grant by a private foundation to fund a specific project of a public charity is not a taxable expenditure by the foundation under section 4945(d)(1) to the extent that—

(A) The grant is not earmarked, within the meaning of §53.4945-2(a)(5)(i), to be used in an attempt to influence legislation, and

(B) The amount of the grant, together with other grants by the same private foundation for the same project for the same year, does not exceed the amount budgeted, for the year of the grant, by the grantee organization for activities of the project that are not attempts to influence legislation. If the grant is for more than one year, the preceding sentence applies to each year of the grant with the amount of the grant divided equally between years, or as otherwise actually disbursed by the private foundation. This paragraph (a)(6)(ii) applies without regard to whether the public charity has made the election under section 501(h).

(iii) *Reliance upon grantee's budget.* For purposes of determining the amount budgeted by a prospective grantee for specific project activities that are not attempts to influence legislation under paragraph (a)(6)(ii) of this section, a private foundation may rely on budget documents or other sufficient evidence supplied by the grantee organization (such as a signed statement by an authorized officer, director or trustee of such grantee organization) showing the proposed budget of the specific project, unless the private foundation doubts or, in light of all the facts and circumstances, reasonably should doubt the accuracy or reliability of the documents.

(7) *Grants to organizations that cease to be described in 501(c)(3)*— * * *

(ii) *Examples.* The provisions of paragraphs (a)(6) and (a)(7) of this section are illustrated by the following examples:

Example (1). W, a private foundation, makes a general support grant to Z, a public charity described in section 509(a)(1). Z informs W that, as an insubstantial portion of its activities, Z attempts to influence the State legislature with regard to changes in the mental health laws. The use of the grant is not earmarked by W to be used in a manner that would violate section 4945(d)(1). Even if the grant is subsequently devoted by Z to its legislative activities, the grant by W is not a taxable expenditure under section 4945(d).

Example (2). X, a private foundation, makes a specific project grant to Y University for the purpose of conducting research on the potential environmental effects of certain pesticides. X does not earmark the grant for any purpose that would violate section 4945(d)(1) and there is no oral or written agreement or understanding whereby X may cause Y to engage in any activity described in section 4945(d)(1), (2), or (5), or to select any recipient to which the grant may be devoted. Further, X determines, based on budget information supplied by Y, that Y's budget for the project does not contain any amount for attempts to influence legislation. X has no reason to doubt the accuracy or reliability of the budget information. Y uses most of the funds for the research project; however, Y expends a portion of the grant funds to send a representative to testify at Congressional hearings on a specific bill proposing certain pesticide control measures. The portion of the grant funds expended with respect to the Congressional hearings is not treated as a taxable expenditure by X under section 4945(d)(1).

Example (3). M, a private foundation, makes a specific project grant of $150,000 to P, a public charity described in section 509(a)(1). In requesting the grant from M, P stated that the total budgeted cost of the project is $200,000, and that of this amount $20,000 is allocated to attempts to influence legislation related to the project. M relies on the budget figures provided by P in determining the amount P will spend on influencing legislation and M has no reason to doubt the accuracy or reliability of P's budget figures. In making the grant, M did not earmark any of the funds from the grant to be used for attempts to influence legislation. M's grant of $150,000 to P will not constitute a taxable expenditure under section 4945(d)(1) because M did not earmark any of the funds for attempts to influence legislation and because the amount of its grant ($150,000) does not exceed the amount allocated to specific project activities that are not attempts to influence legislation ($200,000 − $20,000 = $180,000).

* * * * * *

Example (10). X, a private foundation, makes a specific project grant to Y, a public charity described in section 509(a). In requesting the grant, Y stated that it planned to use the funds to purchase a computer for purposes of computerizing its research files and that the grant will not be used to influence legislation. Two years after X makes the grant, X discovers that Y has also used the computer for purposes of maintaining and updating the mailing list for Y's lobbying newsletter. Because X did not earmark any of the grant funds to be used for attempts to influence legislation and because X had no reason to doubt the accuracy or reliability of Y's documents representing that the grant would not be used to influence legislation, X's grant is not treated as a taxable expenditure.

Example (11). G, a private foundation, makes a specific project grant of $300,000 to L, a public charity described in section 509(a)(1) for a three-year specific project studying child care problems. L provides budget material indicating that the specific project will expend $200,000 in each of three years. L's budget materials indicate that attempts to influence legislation will amount to $10,000 in the first year, $20,000 in the second year and $100,000 in the third year. G intends to pay its $300,000 grant over three years as follows: $200,000 in the first year, $50,000 in the second year and $50,000 in the third year. Since the amount of the grant in each of the three years, when divided equally between the three years ($100,000 for each year), is not more than the nonlobbying expenditures of L on the specific project for any of the three years, none of the grant is treated as a taxable expenditure under section 4945(d)(1).

Example (12). P, a private foundation, makes a $120,000 specific project grant to C, a public charity described in section 509(a) for a three-year project. P intends to pay its grant to C in three equal annual installments of $40,000. C provides budget material indicating that the specific project will expend $100,000 in each of three years. C's budget materials, which P reasonably does not doubt, indicate that the project's attempts to influence legislation will amount to $50,000 in each of the three years. After P pays the first annual installment to C, but before P pays the second installment to C, reliable information comes to P's attention that C has spent $90,000 of the project's $100,000 first-year budget on attempts to influence legislation. This information causes P to doubt the accuracy and reliability of C's budget materials. Because of the information, P does not pay the second-year installment to C. P's payment of the first installment of $40,000 is not a taxable expenditure under section 4945(d)(1) because the grant in the first year is not more than the nonlobbying expenditures C projected in its lobbying materials that P reasonably did not doubt.

Example (13). Assume the same facts as in Example (12), except that P pays the second-year installment of $40,000 to C. In the project's second year, C once again spends $90,000 of the project's $100,000 annual budget in attempts to influence legislation. Because P doubts or reasonably should doubt the accuracy or reliability of C's budget materials when P makes the second-year grant payment, P may not rely upon C's budget documents at that time. Accordingly, although none of the $40,000 paid in the first installment is a taxable expenditure, only $10,000 ($100,000 minus $90,000) of the second-year grant payment is not a taxable expenditure. The remaining $30,000 of the second installment is a taxable expenditure within the meaning of section 4945(d)(1).

* * * * * *

(b) [Reserved]

(c) [Reserved]

(d) * * *

(1) * * *

(i) *In general.* A communication is not a direct lobbying communication described in §56.4911-2(b)(1) or a grass roots lobbying communication described in §56.4911-2(b)(2) if the communication constitutes engaging in nonpartisan analysis, study or research and making available to the general public or a segment or members thereof or to governmental bodies, officials, or employees the results of such work. Accordingly, an expenditure for such a communication does not constitute a taxable expenditure under section 4945(d)(1) and §53.4945-2(a)(1).

(ii) * * *

(iii) * * *

(iv) *Making available results of nonpartisan analysis, study, or research.* * * * For purposes of this paragraph (d)(1)(iv), such communications may not be limited to, or be directed toward, persons who are interested solely in one side of a particular issue.

(v) *Subsequent lobbying use of nonpartisan analysis, study or research.* For purposes of this paragraph, a nonlobbying communication is any communication that reflects a view on specific legislation but that is not a lobbying communication as described in §56.4911-2(b). This §56.4945-2(d)(1)(v) governs any nonlobbying communication that is nonpartisan analysis, study or research (within the meaning of §56.4945-2(d)(1)) *and* that is: subsequently used with an accompanying lobbying communication that directly encourages recipients to take action with respect to legislation; or subsequently altered so that it is itself a lobbying communication that directly encourages recipients to take action with respect to legislation. In such a case, the communication is not within the exception for nonpartisan analysis, study or research and will be treated as a lobbying communication if the organization's primary purpose in preparing the communication was for use in lobbying; consequently, the expenses of preparing and distributing the communication will be treated as lobbying expenditures. The primary purpose of the organization in undertaking analysis, study, or research will not be considered to be for use in lobbying if, prior to or contemporaneously with the use of the analysis, study, or research in lobbying, the organization makes a substantial distribution of the analysis, study, or research (without an accompanying lobbying message). Whether a distribution is substantial will be determined by reference to all of the facts and circumstances, including the normal distribution pattern of similar nonpartisan analyses, studies, or research. Where the nonlobbying distribution of a communication governed by this paragraph is not substantial, all of the facts and circumstances must be weighed to determine whether the organization's primary purpose in preparing the communication was for use in lobbying. While not the only factor, the extent of the organization's nonlobbying distribution of the communication is particularly relevant, especially when compared to the extent of the communication's distribution with the lobbying message. Another particularly relevant factor is whether the subsequent lobbying use of a communication is by the organization that prepared the document, a related organization, or an unrelated organization. Where the subsequent lobbying distribution is made by an unrelated organization, clear and convincing evidence will be required to establish that the primary purpose for preparing the communication was for use in lobbying.

(vi) *Directly encouraging action by recipients of a communication.* A communication that reflects a view on specific legislation is not within the nonpartisan analysis, study or research exception of this §53.4945-2(d)(1) if the communication directly encourages the recipient to take action with respect to such legislation. For purposes of this section, a communication directly encourages the recipient to take action with respect to legislation if the communication is described in §56.4911-2(b)(2)(iii)-(A) through (C). As described in §56.4911-2(b)(2)(iv), a communication would encourage the recipient to take action with respect to legislation, but not *directly* encourage such action, if the communication does no more than specifically identify one or more legislators who will vote on the legislation as: opposing the communication's view with respect to the legislation; being undecided with respect to the legislation; being the recipient's representative in the legislature; or being a member of the legislative committee that will consider the legislation.

(vii) *Examples.* * * *

Example (4). P publishes a bi-monthly newsletter to collect and report all published materials, ongoing research, and new developments with regard to the use of pesticides in raising crops. The newsletter also includes notices of proposed pesticide legislation with impartial summaries of the provisions and debates on such legislation. The newsletter does not encourage recipients to take action with respect to such legislation, but is designed to present information on both sides of the legislative controversy and does present such information fully and fairly. It is within the exception for nonpartisan analysis, study, or research.

Example (5). X is satisfied that A, a member of the faculty of Y University, is exceptionally well qualified to undertake a project involving a comprehensive study of the effects of pesticides on crop yields. Consequently, X makes a grant to A to underwrite the cost of the study and of the preparation of a book on the effect of pesticides on crop yields. X does not take any position on the issues or control the content of A's output. A produces a book which concludes that the use of pesticides often has a favorable effect on crop yields, and on that basis argues against pending bills which would ban the use of pesticides. A's book contains a sufficiently full and fair exposition of the pertinent facts, including known or potential disadvantages of the use of pesticides, to enable the public or an individual to form an independent opinion or conclusion as to whether pesticides should be banned as provided in the pending bills. The book does not directly encourage readers to take action with respect to the pending bills. Consequently, the book is within the exception for nonpartisan analysis, study, or research.

Example (6). * * *

Example (7). * * *

Example (8). Organization Z researches, writes, prints and distributes a study on the use and effects of pesticide X. A bill is pending in the U.S. Senate to ban the use of pesticide X. Z's study leads to the conclusion that pesticide X is extremely harmful and that the bill pending in the U.S. Senate is an appropriate and much needed remedy to solve the problems caused by pesticide X. The study contains a sufficiently full and fair exposition of the pertinent facts, including known or potential advantages of the use of pesticide X, to enable the public or an individual to form an independent opinion or conclusion as to whether pesticides should be banned as provided in the pending bills. In its analysis of the pending bill, the study names certain undecided Senators on the Senate committee considering the bill. Although the study meets the three part test for determining whether a communication is a grass roots lobbying communication, the study is within the exception for nonpartisan analysis, study or research, because it does not directly encourage recipients of the communication to urge a legislator to oppose the bill.

Example (9). Assume the same facts as in Example (8), except that, after stating support for the pending bill, the study concludes: "You should write to the undecided committee members to support this crucial bill." The study is not within the exception for nonpartisan analysis, study or research because it directly encourages the recipients to urge a legislator to support a specific piece of legislation.

Example (10). Organization X plans to conduct a lobbying campaign with respect to illegal drug use in the United States. It incurs $5,000 in expenses to conduct research and prepare an extensive report primarily for use in the lobbying campaign. Although the detailed report discusses specific pending legislation and reaches the conclusion that the legislation would reduce illegal drug use, the report contains a sufficiently full and fair exposition of the pertinent facts to enable the public or an individual to form an independent conclusion regarding the effect of the legislation. The report does not encourage readers to contact legislators regarding the legislation. Accordingly, the report does not, in and of itself, constitute a lobbying communication.

Copies of the report are available to the public at X's office, but X does not actively distribute the report or otherwise seek to make the contents of the report available to the general public. Whether or not X's distribution is sufficient to meet the requirement in §53.4945-2(d)(1)(iv) that a nonpartisan communication be made available, X's distribution is not substantial (for purposes of §53.4945-2(d)(1)(v)) in light of all of the facts and circumstances, including the normal distribution pattern of similar nonpartisan reports. X then mails copies of the report, along with a letter, to 10,000 individuals on X's mailing list. In the letter, X requests that individuals contact legislators urging passage of the legislation discussed in the report. Because X's research and report were primarily undertaken by X for lobbying purposes and X did not make a substantial distribution of the report (without an accompanying lobbying message) prior to or contemporaneously with the use of the report in lobbying, the report is a grass roots lobbying communication that is not within the exception for nonpartisan analysis, study or research. Thus, the expenditures for preparing and mailing both the report and the letter are taxable expenditures under section 4945.

Example (11). Assume the same facts as in Example (10), except that before using the report in the lobbying campaign, X sends the research and report (without an accompanying lobbying message) to universities and newspapers. At the same time, X also advertises the availability of the report in its newsletter. This distribution is similar in scope to the normal distribution pattern of similar nonpartisan reports. In light of all of the facts and circumstances, X's distribution of the report is substantial. Because of X's substantial distribution of the report, X's primary purpose will be considered to be other than for use in lobbying and the report will not be considered a grass roots lobbying communication. Accordingly, only the expenditures for copying and mailing the report to the 10,000 individuals on X's mailing list, as well as for preparing and mailing the letter, are expenditures for grass roots lobbying communications, and are thus taxable expenditures under section 4945.

* * * * * *

(4) *Examinations and discussions of broad social, economic, and similar problems.* Examinations and discussions of broad social, economic, and similar problems are neither direct lobbying communications under §56.4911-2(b)(1) nor grass roots lobbying communications under §56.4911-2(b)(2) even if the problems are of the type with which government would be expected to deal ultimately. Thus, under §§56.4911-2(b)(1) and (2), lobbying communications do not include public discussion, or communications with members of legislative bodies or governmental employees, the general subject of which is also the subject of legislation before a legislative body, so long as such discussion does not address itself to the merits of a specific legislative proposal and so long as such discussion does not directly encourage recipients to take action with respect to legislation. For example, this paragraph excludes from grass roots lobbying under §56.4911-2(b)(2) an organization's discussions of problems such as environmental pollution or population growth that are being considered by Congress and various State legislatures, but only where the discussions are not directly addressed to specific legislation being considered, and only where the discussions do not directly encourage recipients of the communication to contact a legislator, an employee of a legislative body, or a government official or employee who may participate in the formulation of legislation.

PUBLIC CHARITY EXCISE TAXES (Proposed 26 CFR Part 56)

Par. 6. Proposed §§56.4911-1 through 56.4911-3 are revised to read:

§56.4911-1 Tax on excess lobbying expenditures.

(a) *In general.* Section 4911(a) imposes an excise tax of 25 percent on the excess lobbying expenditures (as defined in paragraph (b) of this section) for a taxable year of an organization for which the expenditure test election under section 501(h) is in effect. The limit on expenditures for influencing legislation on which no tax is due from an organization for a taxable year is the lobbying nontaxable amount, or, on expenditures for influencing legislation through grass roots lobbying, the grass roots nontaxable amount (see paragraph (c) of this section). For rules concerning the application of the excise tax imposed by section 4911(a) to the members of an affiliated group of organizations (as defined in §56.4911-7(e)), see §56.4911-8.

(b) *Excess lobbying expenditures.* For any taxable year for which the expenditure test election under section 501(h) is in effect, the amount of an organization's excess lobbying expenditures is the greater of—

(1) The amount by which the organization's lobbying expenditures (within the meaning of §56.4911-2(a)) exceed the organization's lobbying nontaxable amount, or

(2) The amount by which the organization's expenditures for grass roots lobbying communications (within the meaning of §§56.4911-2 and -3)) exceed the organization's grass roots nontaxable amount.

(c) *Nontaxable amounts*—(1) *Lobbying nontaxable amount.* Under section 4911(c)(2), the lobbying nontaxable amount for any taxable year for which the expenditure test election is in effect is the lesser of—

(i) $1,000,000, or

(ii) To the extent of the organization's exempt purpose expenditures (within the meaning of §56.4911-4) for that year, the sum of 20 percent of the first $500,000 of such expenditures, plus 15 percent of the second $500,000 of such expenditures, plus 10 percent of the third $500,000 of such expenditures, plus 5 percent of the remainder of such expenditures.

(2) *Grass roots nontaxable amount.* Under section 4911(c)(4), an organization's grass roots nontaxable amount for any taxable year is 25 percent of its lobbying nontaxable amount for that year.

(d) *Examples.* The provisions of this section are illustrated by the examples in §1.501(h)-3.

§56.4911-2 Lobbying expenditures, direct lobbying communications, and grass roots lobbying communications.

(a) *Lobbying expenditures.* If an organization has in effect for any year the expenditure test election under section 501(h), its lobbying expenditures for that year are the sum of its expenditures during that year for direct lobbying communications ("direct lobbying expenditures") plus its expenditures during that year for grass roots lobbying communications ("grass roots expenditures").

(b) *Influencing legislation: direct and grass roots lobbying communications defined*—(1) *Direct lobbying communication*—(i) *Definition.* A direct lobbying communication is any attempt to influence any legislation through communication with:

(A) any member or employee of a legislative body; or

(B) any government official or employee (other than a member or employee of a legislative body) who may participate in the formulation of the legislation, but only if the principal purpose of the communication is to influence legislation.

(ii) *Required elements.* A communication with a legislator or government official will be treated as a direct lobbying communication under this §56.4911-2(b)(1) only if the communication:

(A) refers to specific legislation; and

(B) reflects a view on such legislation.

(iii) *Definition of specific legislation.* For purposes of paragraphs (b)(1) and (b)(2) of this section, specific legislation includes both legislation that has already been introduced in a legislative body and a specific legislative proposal that the organization either supports or opposes.

(2) *Grass roots lobbying communication*—(i) *Definition.* A grass roots lobbying communication is any attempt to influence any legislation through an attempt to affect the opinions of the general public or any segment thereof.

(ii) *Required elements.* A communication will be treated as a grass roots lobbying communication under this §56.4911-2(b)(2) only if the communication:

(A) Refers to specific legislation;

(B) Reflects a view on such legislation; and

(C) Encourages the recipient of the communication to take action with respect to such legislation.

(For special rules regarding certain mass media communications, see §56.4911-2(b)(5)).

(iii) *Definition of encouraging recipient to take action.* For purposes of this section, encouraging a recipient to take action with respect to legislation means that the communication:

(A) States that the recipient should contact a legislator or an employee of a legislative body, or should contact any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of urging contact with the government official or employee is to influence legislation);

(B) States the address, telephone number, or similar information of a legislator or an employee of a legislative body;

(C) Provides a petition, tear-off postcard or similar material for the recipient to communicate his or her views to a legislator or an employee of a legislative body, or to any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of so facilitating contact with the government official or employee is to influence legislation); or

(D) Specifically identifies one or more legislators who will vote on the legislation as: opposing the communication's view with respect to the legislation; being undecided with respect to the legislation; being the recipient's representative in the legislature; or being a member of the legislative committee that will consider the legislation. Encouraging the recipient to take action under this paragraph (D) does not include naming the main sponsor(s) of the legislation for purposes of identifying the legislation.

(iv) *Definition of directly encouraging recipient to take action.* Communications described in §§56.4911-2(b)(2)(iii)(A) through (C) not only "encourage," but also "directly encourage" the recipient to take action with respect to legislation. Communications described in §56.4911-2(b)(2)(iii)(D), however, do not directly encourage the recipient to take action with respect to legislation. Thus, a communication would encourage the recipient to take action with respect to legislation, but not *directly* encourage such action, if the communication does no more than identify one or more legislators who will vote on the legislation as: opposing the communication's view with respect to the legislation; being undecided with respect to the legislation; being the recipient's representative in the legislature; or being a member of the legislative committee that will consider the legislation. Communications that encourage the recipient to take action with respect to legislation but that do not *directly* encourage the recipient to take action with respect to legislation may be within the exception for nonpartisan analysis, study or research (see §56.4911-2(c)(1)) and thus not be grass roots lobbying communications.

(v) *Subsequent lobbying use of nonlobbying communication that is not nonpartisan analysis, study or research.* For purposes of this paragraph, a nonlobbying communication is any communication that reflects a view on specific legislation but that is not a lobbying communication as described in §56.4911-2(b). This §56.4911-2(b)(2)(v) governs any nonlobbying communication that is not nonpartisan analysis, study or research (within the meaning of §56.4911-2(c)(1)) *and* that is subsequently used with an accompanying lobbying communication or is altered so that it is itself a lobbying communication. In such a case, the communication will be treated as a lobbying communication if the organization's primary purpose in preparing the communication was for use in lobbying, and the expenses of preparing and distributing the communication will be treated as lobbying expenditures. The primary purpose of the organization in preparing a communication governed by this paragraph will not be considered to be for use in lobbying if, prior to or contemporaneously with the use of the communication in lobbying, the organization makes a substantial distribution of the communication (without an accompanying lobbying message). Whether a distribution is substantial will be determined by reference to all of the facts and circumstances. Solely for purposes of this paragraph (v), the nonlobbying distribution of a communication will not be considered "substantial" unless that distribution is at least as extensive as the lobbying distribution of the communication. Where the nonlobbying distribution of a communication governed by this paragraph is not substantial, all of the facts and circumstances must be weighed to determine whether the organization's primary purpose in preparing the communication was for use in lobbying. While not the only factor, the extent of the organization's nonlobbying distribution of the communication is particularly relevant, especially when compared to the extent of the communication's distribution with the lobbying message. Another particularly relevant factor is whether the lobbying use of a communication is by the organization that prepared the document, a related organization, or an unrelated organization. Where the subsequent lobbying distribution is made by an unrelated organization, clear and convincing evidence will be required to establish that the primary purpose for preparing the communication was for use in lobbying. To illustrate this paragraph, assume a nonlobbying "report" (that is not nonpartisan analysis, study or research) is prepared by an organization, but distributed to only 50 people. The organization then sends the report to 10,000 people along with a letter urging recipients to write their Senators about the legislation discussed in the report. Because the report's nonlobbying distribution is not as extensive as its lobbying distribution, the report's nonlobbying distribution is not substantial for purposes of this paragraph. Accordingly, the organization's primary purpose in preparing the report must be determined by weighing all of the facts and circumstances. In light of the relatively minimal nonlobbying distribution and the fact that the lobbying distribution is by the preparing organization rather than by an unrelated organization, and in the absence of evidence to the contrary, both the report and the letter are grass roots lobbying communications. Accordingly, the organization's expenditures for preparing and mailing the two documents are grass roots lobbying expenditures.

(3) *Exceptions to the definition of influencing legislation.* A communication is not a direct or grass roots lobbying communication under §56.4911-2(b)(1) or (2) if it falls within one of the exceptions listed in paragraph (c) of this section. See paragraph (c)(1), Nonpartisan analysis, study or research; paragraph (c)(2), Examinations and discussions of broad social, economic and similar problems; paragraph (c)(3), Requests for technical advice; and paragraph (c)(4), Communications pertaining to self-defense by the organization. In addition, see §56.4911-5, which provides special rules regarding the treatment of certain lobbying communications directed in whole or in part to members of an electing public charity.

(4) *Examples.* This paragraph (b)(4) provides examples to illustrate the rules set forth in this section regarding direct and grass roots lobbying. Except where otherwise explicitly stated, the expenditure test election under section 501(h) is assumed to be in effect for all organizations discussed in the examples in this paragraph (b)(4). In addition, it is assumed that the special rules of §56.4911-5, regarding certain of a public charity's communications with its members, do not apply to any of the examples in this paragraph (b)(4).

(i) *Direct lobbying.* The provisions of this section regarding direct lobbying communications are illustrated by the following examples:

Example (1). Organization P's employee, X, is assigned to approach members of Congress to gain their support for a pending bill. X drafts and P prints a position letter on the bill. P distributes the letter to members of Congress. Additionally, X personally contacts several members of Congress or their staffs to seek support for P's position on the bill. The letter and the personal contacts are direct lobbying communications.

Example (2). Organization M's president writes a letter to the Congresswoman representing the district in which M is headquartered, requesting that the Congresswoman write an administrative agency regarding proposed regulations recently published by that agency. M's president also requests that the Congresswoman's letter to the agency state the Congresswoman's support of M's application for a particular type of permit granted by the agency. The letter written by M's president is not a direct lobbying communication.

Example (3). Organization Z prepares a paper on a particular state's environmental problems. The paper does not reflect a view on any specific pending legislation or on any specific legislative proposal that Z either supports or opposes. Z's representatives give the paper to a state legislator. Z's paper is not a direct lobbying communication.

Example (4). State X enacts a statute that requires the licensing of all day care providers. Agency B in State X is charged with preparing rules to implement the bill enacted by State X. One week after enactment of the bill, organization C sends a letter to Agency B providing detailed proposed rules that organization C suggests to Agency B as the appropriate standards to follow in implementing the statute on licensing of day care providers. Organization C's letter to Agency B is not a lobbying communication.

Example (5). Organization B researches, prepares and prints a code of standards of minimum safety requirements in an area of common electrical wiring. Organization B sells the code of standards booklet to the public and it is widely used by professionals in the subject area. A number of states have codified all, or part, of the code of standards as mandatory safety standards. On occasion, B lobbies state legislators for passage of the code of standards for safety reasons. The research, preparation, printing and public distribution of the code of standards is not an expenditure for a direct (or grass roots) lobbying communication. Costs incurred in lobbying state legislators for passage of the code of standards into law are expenditures for direct lobbying communications.

Example (6). On the organization's own initiative, representatives of organization F present written testimony to a Congressional committee. The news media reports on the testimony of organization F, detailing F's opposition to a pending bill. The testimony is a direct lobbying communication but is not a grass roots lobbying communication.

(ii) *Grass roots lobbying.* The provisions of this section regarding grass roots lobbying communications are illustrated in paragraph (b)(4)(ii)(A) of this section by examples of communications that are not grass roots lobbying communications and in paragraph (b)(4)(ii)(B) by examples of communications that are grass roots lobbying communications. The provisions of this section are further illustrated in paragraph (b)(4)(ii)(C), with particular regard to the exception for nonpartisan analysis, study, or research:

(A) *Communications that are not grass roots lobbying communications.*

Example (1). Organization L places in its newsletter an article that asserts that lack of new capital is hurting State W's economy. The article recommends that State W residents either invest more in local businesses or increase their savings so that funds will be available to others interested in making investments. The article is an attempt to influence opinions with respect to a general problem that might receive legislative attention and is distributed in a manner so as to reach and influence many individuals. However, the article does not refer to specific legislation that is pending in a legislative body, nor does the article refer to a specific legislative proposal the organization either supports or opposes.

Example (2). Assume the same facts as Example (1), except that the article refers to a bill pending in State W's legislature that is intended to provide tax incentives for private savings. The article praises the pending bill and recommends that it be enacted. However, the article does not encourage readers to take action with respect to the legislation.

Example (3). Organization B sends a letter to all persons on its mailing list. The letter includes an update on numerous environmental issues with a discussion of general concerns regarding pollution, proposed federal regulations affecting the area, and several pending legislative proposals. The letter endorses two pending bills and opposes another pending bill, but does not name any legislator involved (other than the sponsor of one bill, for purposes of identifying the bill), nor does it otherwise encourage the reader to take action with respect to the legislation.

Example (4). A pamphlet distributed by organization Z discusses the dangers of drugs and encourages the public to send their legislators a coupon, printed with the statement "I support a drug-free America." The term "drug-free America" is not widely identified with any of the many specific pending legislative proposals regarding drug issues. The pamphlet does not refer to any of the numerous pending legislative proposals, nor does the organization support or oppose a specific legislative proposal.

Example (5). A pamphlet distributed by organization B encourages readers to join an organization and "get involved in the fight against drugs." The text states, in the course of a discussion of several current drug issues, that organization B supports a specific bill before Congress that would establish an expanded drug control program. The pamphlet does not encourage readers to communicate with legislators about the bill (such as by including the names of undecided or opposed legislators).

Example (6). Organization E, an environmental organization, routinely summarizes in each edition of its newsletter the new environment-related bills that have been introduced in Congress since the last edition of the newsletter. The newsletter identifies each bill by a bill number and the name of the legislation's sponsor. The newsletter also reports on the status of previously introduced environment-related bills. The summaries and status reports do not encourage recipients of the newsletter to take action with respect to legislation, as described in paragraphs (b)(2)(iii)(A) through (D) of this section. Although the summaries and status reports refer to specific legislation and often reflect a view on such legislation, they do not encourage the newsletter recipients to take action with respect to such legislation.

(B) *Communications that are grass roots lobbying communications.*

Example (1). A pamphlet distributed by organization Y states that the "President's plan for a drug-free America," which will establish a drug control program, should be passed. The pamphlet encourages readers to "write or call your senators and representatives and tell them to vote for the President's plan." No legislative proposal formally bears the name "President's plan for a drug-free America," but that and similar terms have been widely used in connection with specific legislation pending in Congress that was initially proposed by the President. Thus, the pamphlet refers to specific legislation, reflects a view on the legislation, and encourages readers to take action with respect to the legislation.

Example (2). Assume the same facts as in Example (1), except that the pamphlet does not encourage the public to write or call representatives, but does list the members of the committee that will consider the bill.

Example (3). Assume the same facts as in Example (1), except that the pamphlet encourages readers to "write the President to urge him to make the bill a top legislative priority" rather than encouraging readers to communicate with members of Congress.

Example (4). Organization B, a nonmembership organization, includes in one of three sections of its newsletter an endorsement of two pending bills and opposition to another pending bill and also identifies several legislators as undecided on the three bills. The section of the newsletter devoted to the three pending bills is a grass roots lobbying communication.

Example (5). Organization D, a nonmembership organization, sends a letter to all persons on its mailing list. The letter includes an extensive discussion concluding that a significant increase in spending for the Air Force is essential in order to provide an adequate defense of the nation. Prior to a concluding fundraising request, the letter encourages readers to write their Congressional representatives urging increased appropriations to build the B-1 bomber.

Example (6). State Y plans to conduct a binding voter referendum on a proposition to permit gambling in the state. Organization Z places an advertisement in a general circulation newspaper encouraging voters to vote against the proposition.

Example (7). Organization F mails letters requesting that each recipient contribute money to or join F. In addition, the letters express F's opposition to a pending bill that is to be voted upon by the U.S. House of Representatives. Although the letters are form letters sent as a mass mailing, each letter is individualized to report to the recipient the name of the recipient's congressional representative.

(C) *Additional examples.*

Example (1). The newsletter of an organization concerned with drug issues is circulated primarily to individuals who are not members of the organization. A story in the newsletter reports on the prospects for passage of a specifically identified bill, stating that the organization supports the bill. The newsletter story identifies certain legislators as undecided, but does not state that readers should contact the undecided legislators. The story does not provide a full and fair exposition sufficient to qualify as nonpartisan analysis, study or research. The newsletter story is a grass roots lobbying communication.

Example (2). Assume the same facts as in Example (1), except that the newsletter story provides a full and fair exposition sufficient to qualify as nonpartisan analysis, study or research. The newsletter story is *not* a grass roots lobbying communication because it is within the exception for nonpartisan analysis, study or research.

Example (3). Assume the same facts as in Example (2), except that the newsletter story explicitly asks readers to contact the undecided legislators. Because the newsletter story directly encourages readers to take action with respect to the legislation, the newsletter story is not within the exception for nonpartisan analysis, study or research. Accordingly, the newsletter story is a grass roots lobbying communication.

Example (4). Assume the same facts as in Example (1), except that the story does not identify any undecided legislators. The story is not a grass roots lobbying communication.

Example (5). X organization places an advertisement that specifically identifies and opposes a bill that X asserts would harm the farm economy. The advertisement is not a mass media communication described in §56.4911-2(b)(5)(ii) and does not directly encourage readers to take action with respect to the bill. However, the advertisement does state that Senator Y favors the legislation. Because the advertisement refers to and reflects a view on specific legislation, and also encourages the readers to take action with respect to the legislation by specifically identifying a legislator who opposes X's views on the legislation, the advertisement is a grass roots lobbying communication.

Example (6). Assume the same facts as in Example (5), except that instead of identifying Senator Y as favoring the legislation, the advertisement identifies the "junior Senator from State Z" as favoring the legislation. The advertisement is a grass roots lobbying communication.

Example (7). Assume the same facts as in Example (5), except that instead of identifying Senator Y as favoring the legislation, the advertisement states: "Even though this bill will have a devastating effect upon the farm economy, most of the Senators from the Farm Belt states are inexplicably in favor of the bill." The advertisement does not specifically identify one or more legislators as opposing the advertisement's view on the bill in question. Accordingly, the advertisement is not a grass roots lobbying communication because it does not encourage readers to take action with respect to the legislation.

(5) *Mass media communications*—(i) *In general.* All mass media communications, other than those described in paragraph (b)(5)(ii) of this section, are evaluated by the three-part grass roots lobbying definition contained in paragraph (b)(2) of this section.

(ii) *Special rule for certain mass media communications.* If within two weeks before a vote by a legislative body, or committee thereof, on a highly publicized piece of legislation, an organization makes a communication in the mass media that reflects a view on the general subject of such legislation and either: refers to the highly publicized legislation; or encourages the public to communicate with legislators on the general subject of such legislation, then the communication will be presumed to be a grass roots lobbying communication. An organization can rebut this presumption by demonstrating that the communication is a type of communication regularly made by the organization in the mass media without regard to the timing of legislation (that is, a customary course of business exception) or that the timing of the communication was unrelated to the upcoming legislative action. Notwithstanding the fact that an organization successfully rebuts the presumption, a mass media communication described in this paragraph (b)(5)(ii) is a grass roots lobbying communication if the communication would be a grass roots lobbying communication under the rules contained in paragraph (b)(2) of this section.

(iii) *Definitions*—(A) *Mass media.* For purposes of this paragraph (b)(5), "mass media" means television, radio, and general circulation newspapers and magazines. General circulation newspapers and magazines do not include newspapers or magazines published by an organization for which the expenditure test election under section 501(h) is in effect, except where both: the total circulation of the newspaper or magazine is greater than 100,000; and fewer than one-half of the recipients are members of the organization (as defined in §56.4911-5(f)).

(B) *Highly publicized.* For purposes of this paragraph (b)(5), "highly publicized" means frequent coverage on television, radio, and general circulation newspapers and magazines during the two weeks preceding the vote by the legislative body.

(iv) *Examples.* The special rule of this paragraph (b)(5) is illustrated by the following examples. The expenditure test election under section 501(h) is assumed to be in effect for all organizations discussed in the examples in this paragraph (b)(5)(iv):

Example (1). Organization X places a television advertisement advocating one of the President's major foreign policy initiatives, as outlined by the President in a series of speeches. The initiative is popularly known as "the President's World Peace Plan," and is voted upon by the Senate four days after X's advertisement. The advertisement concludes: "SUPPORT THE PRESIDENT'S WORLD PEACE PLAN!" The President's plan and position are highly publicized during the two weeks before the Senate vote, as evidenced by: coverage of the plan on several nightly television network news program; more than one article about the plan on the front page of a majority of the country's ten largest daily general circulation newspapers; and an editorial about the plan in four of the country's ten largest daily general circulation newspapers. Although the advertisement does not encourage readers to contact legislators or other government officials, the advertisement does refer to specific legislation and reflect a view on the general subject of the legislation. The communication is presumed to be a grass roots lobbying communication.

Example (2). Assume the same facts as in Example (1), except that the advertisement appears three weeks before the Senate's vote on the plan. Because the advertisement appears more than two weeks before the legislative vote, the advertisement is *not* within the scope of the special rule for mass media communications on highly publicized legislation. Accordingly, the advertisement is a grass roots lobbying communication only if it is described in the general definition contained in paragraph (b)(2) of this section. Because the advertisement does not encourage recipients to take action with respect to the legislation in question, the advertisement is not a grass roots lobbying communication.

Example (3). Organization Y places a newspaper advertisement advocating increased government funding for certain public works projects the President has proposed and that are being considered by a legislative committee. The advertisement explains the President's proposals and concludes: "SUPPORT FUNDING FOR THESE VITAL PROJECTS!" The advertisement does not encourage readers to contact legislators or other government officials nor does it name any undecided legislators, but it does name the legislation being considered by the committee. The issue of funding public works, however, is not highly publicized during the two weeks before the vote: there has been little coverage of the issue on nightly television network news programs, only one front-page article on the issue in the country's ten largest daily general circulation newspapers, and only one editorial about the issue in the country's ten largest daily general circulation newspapers. Two days after the advertisement appears, the committee votes to approve funding of the projects. Although the advertisement appears less than two weeks before the legislative vote, the advertisement is *not* within the scope of the special rule for mass media communications on highly publicized legislation because the issue of funding for public works projects is not highly publicized. Thus, the advertisement is a grass roots lobbying communication only if it is described in the general definition contained in paragraph (b)(2) of this section. Because the advertisement does not encourage recipients to take action with respect to the legislation in question, the advertisement is not a grass roots lobbying communication.

Example (4). A binding referendum is held in State X. At issue is Proposition 1, a citizen initiated proposition that, if enacted, would ban the manufacture and sale of handguns in State X. The proposition is controversial and highly publicized during the two weeks preceding the vote, as evidenced by numerous front-page articles, editorials, and letters to the editor published in the state's general circulation daily newspapers, as well as frequent coverage of the proposition by the television and radio stations serving the state. During the two weeks before the election, Organization Y places advertisements on radio stations serving the state. The advertisements do not encourage listeners to vote against the proposition, but do attack the legislation as being unconstitutional and ineffective.

Because the advertisements are mass media communications made within two weeks of a vote on highly publicized legislation and because the advertisements refer to that highly publicized legislation and reflect a view on the general subject of such legislation, the advertisements are presumed to be grass roots lobbying communications.

(c) *Exceptions to the definitions of direct lobbying communication and grass roots lobbying communication*—(1) *Nonpartisan analysis, study, or research exception*—(i) *In general.* Engaging in nonpartisan analysis, study, or research and making available to the general public or a segment or members thereof or to governmental bodies, officials, or employees the results of such work constitute neither a direct lobbying communication under §56.4911-2(b)(1) nor a grass roots lobbying communication under §56.4911-2(b)(2).

(ii) *Nonpartisan analysis, study, or research.* For purposes of this section, "nonpartisan analysis, study, or research" means an independent and objective exposition of a particular subject matter, including any activity that is "educational" within the meaning of §1.501(c)(3)-1(d)(3). Thus, "nonpartisan analysis, study, or research" may advocate a particular position or viewpoint so long as there is a sufficiently full and fair exposition of the pertinent facts to enable the public or an individual to form an independent opinion or conclusion. The mere presentation of unsupported opinion, however, does not qualify as "nonpartisan analysis, study, or research." Activities of a noncommercial educational broadcasting station or network (television or radio) constitute "nonpartisan analysis, study, or research" if the station or network adheres to the Federal Communications Commission regulations and its "fairness doctrine," interpreted as in effect on January 1, 1987 (requiring balanced, fair, and objective presentation of issues).

(iii) *Presentation as part of a series.* Normally, whether a publication or broadcast qualifies as "nonpartisan analysis, study, or research" will be determined on a presentation-by-presentation basis. However, if a publication or broadcast is one of a series prepared or supported by an electing organization and the series as a whole meets the standards of paragraph (c)(1)(ii) of this section, then any individual publication or broadcast within the series is not a direct or grass roots lobbying communication even though such individual broadcast or publication does not, by itself, meet the standards of paragraph (c)(1)(ii) of this section. Whether a broadcast or publication is considered part of a series will ordinarily depend upon all the facts and circumstances of each particular situation. However, with respect to broadcast activities, all broadcasts within any period of six consecutive months will ordinarily be eligible to be considered as part of a series. If an electing organization times or channels a part of a series which is described in this paragraph (c)(1)(iii) in a manner designed to influence the general public or the action of a legislative body with respect to a specific legislative proposal, the expenses of preparing and distributing such part of the analysis, study, or research will be expenditures for a direct or grass roots lobbying communication, as the case may be.

(iv) *Making available results of nonpartisan analysis, study, or research.* An organization may choose any suitable means, including oral or written presentations, to distribute the results of its nonpartisan analysis, study, or research, with or without charge. Such means include distribution of reprints of speeches, articles and reports; presentation of information through conferences, meetings and discussions; and dissemination to the news media, including radio, television and newspapers, and to other public forums. For purposes of this paragraph (c)(1)(iv), such communications may not be limited to, or be directed toward, persons who are interested solely in one side of a particular issue.

(v) *Subsequent lobbying use of nonpartisan analysis, study or research.* For purposes of this paragraph, a nonlobbying communication is any communication that reflects a view on specific legislation but that is not a lobbying communication as described in §56.4911-2(b). This §56.4911-2(c)(1)(v) governs any nonlobbying communication that is nonpartisan analysis, study or research (within the meaning of §56.4911-2(c)(1)) *and* that is: subsequently used with an accompanying lobbying communication that directly encourages recipients to take action with respect to legislation; or subsequently altered so that it is itself a lobbying communication that directly encourages recipients to take action with respect to legislation. In such a case, the communication is not within the exception for nonpartisan analysis, study or research and will be treated as a lobbying communication if the organization's primary purpose in preparing the communication was for use in lobbying; consequently, the expenses of preparing and distributing the communication will be treated as lobbying expenditures. The primary purpose of the organization in undertaking analysis, study, or research will not be considered to be for use in lobbying if, prior to or contemporaneously with the use of the analysis, study, or research in lobbying, the organization makes a substantial distribution of the analysis, study, or research (without an accompanying lobbying message). Whether a distribution is substantial will be determined by reference to all of the facts and circumstances, including the normal distribution pattern of similar nonpartisan analyses, studies, or research. Where the nonlobbying distribution of a communication governed by this paragraph is not substantial, all of the facts and circumstances must be weighed to determine whether the organization's primary purpose in preparing the communication was for use in lobbying. While not the only factor, the extent of the organization's nonlobbying distribution of the communication is particularly relevant, especially when compared to the extent of the communication's distribution with the lobbying message. Another particularly relevant factor is whether the lobbying use of a communication is by the organization that prepared the document, a related organization, or an unrelated organization. Where the subsequent lobbying distribution is made by an unrelated organization, clear and convincing evidence will be required to establish that the primary purpose for preparing the communication was for use in lobbying.

(vi) *Directly encouraging action by recipients of a communication.* A communication that reflects a view on specific legislation is not within the nonpartisan analysis, study, or research exception of this paragraph (c)(1) if the communication directly encourages the recipient to take action with respect to such legislation. For purposes of this section, a communication directly encourages the recipient to take action with respect to legislation if the communication is described in §56.4911-2(b)(2)(iii)(A) through (C). As described in §56.4911-2(b)(2)(iv), a communication would encourage the recipient to take action with respect to legislation, but not *directly* encourage such action, if the communication does no more than specifically identify one or more legislators who will vote on the legislation as: opposing the communication's view with respect to the legislation; being undecided with respect to the legislation; being the recipient's representative in the legislature; or being a member of the legislative committee that will consider the legislation.

(vii) *Examples*. The provisions of this paragraph (c)(1) may be illustrated by the following examples:

Example (1). Organization M establishes a research project to collect information for the purpose of showing the dangers of the use of pesticides in raising crops. The information collected includes data with respect to proposed legislation, pending before several State legislatures, which would ban the use of pesticides. The project takes favorable positions on such legislation without producing a sufficiently full and fair exposition of the pertinent facts to enable the public or an individual to form an independent opinion or conclusion on the pros and cons of the use of pesticides. This project is not within the exception for nonpartisan analysis, study, or research because it is designed to present information merely on one side of the legislative controversy.

Example (2). Organization N establishes a research project to collect information concerning the dangers of the use of pesticides in raising crops for the ostensible purpose of examining and reporting information as to the pros and cons of the use of pesticides in raising crops. The information is collected and distributed in the form of a published report which analyzed the effects and costs of the use and nonuse of various pesticides under various conditions on humans, animals and crops. The report also presents the advantages, disadvantages, and economic cost of allowing the continued use of pesticides unabated, of controlling the use of pesticides, and of developing alternatives to pesticides. Even if the report sets forth conclusions that the disadvantages as a result of using pesticides are greater than the advantages of using pesticides and that prompt legislative regulation of the use of pesticides is needed, the project is within the exception for nonpartisan analysis, study, or research since it is designed to present information on both sides of the legislative controversy and presents a sufficiently full and fair exposition of the pertinent facts to enable the public or an individual to form an independent opinion or conclusion.

Example (3). Organization O establishes a research project to collect information on the presence or absence of disease in humans from eating food grown with pesticides and the presence or absence of disease in humans from eating food not grown with pesticides. As part of the research project, O hires a consultant who prepares a "fact sheet" which calls for the curtailment of the use of pesticides and which addresses itself to the merits of several specific legislative proposals to curtail the use of pesticides in raising crops which are currently pending before State Legislatures. The "fact sheet" presents reports of experimental evidence tending to support its conclusions but omits any reference to reports of experimental evidence tending to dispute its conclusions. O distributes ten thousand copies to citizens' groups. Expenditures by O in connection with this work of the consultant are not within the exception for nonpartisan analysis, study, or research.

Example (4). P publishes a bi-monthly newsletter to collect and report all published materials, ongoing research, and new developments with regard to the use of pesticides in raising crops. The newsletter also includes notices of proposed pesticide legislation with impartial summaries of the provisions and debates on such legislation. The newsletter does not encourage recipients to take action with respect to such legislation, but is designed to present information on both sides of the legislative controversy and does present such information fully and fairly. It is within the exception for nonpartisan analysis, study, or research.

Example (5). X is satisfied that A, a member of the faculty of Y University, is exceptionally well qualified to undertake a project involving a comprehensive study of the effects of pesticides on crop yields. Consequently, X makes a grant to A to underwrite the cost of the study and of the preparation of a book on the effect of pesticides on crop yields. X does not take any position on the issues or control the content of A's output. A produces a book which concludes that the use of pesticides often has a favorable effect on crop yields, and on that basis argues against pending bills which would ban the use of pesticides. A's book contains a sufficiently full and fair exposition of the pertinent facts, including known or potential disadvantages of the use of pesticides, to enable the public or an individual to form an independent opinion or conclusion as to whether pesticides should be banned as provided in the pending bills. The book does not directly encourage readers to take action with respect to the pending bills. Consequently, the book is within the exception for nonpartisan analysis, study, or research.

Example (6). Assume the same facts as Example (2), except that, instead of issuing a report, X presents within a period of 6 consecutive months a two-program television series relating to the pesticide issue. The first program contains information, arguments, and conclusions favoring legislation to restrict the use of pesticides. The second program contains information, arguments, and conclusions opposing legislation to restrict the use of pesticides. The programs are broadcast within 6 months of each other during commensurate periods of prime time. X's programs are within the exception for nonpartisan analysis, study, or research. Although neither program individually could be regarded as nonpartisan, the series of two programs constitutes a balanced presentation.

Example (7). Assume the same facts as in Example (6), except that X arranged for televising the program favoring legislation to restrict the use of pesticides at 8:00 on a Thursday evening and for televising the program opposing such legislation at 7:00 on a Sunday morning. X's presentation is not within the exception for nonpartisan analysis, study, or research, since X disseminated its information in a manner prejudicial to one side of the legislative controversy.

Example (8). Organization Z researches, writes, prints and distributes a study on the use and effects of pesticide X. A bill is pending in the U.S. Senate to ban the use of pesticide X. Z's study leads to the conclusion that pesticide X is extremely harmful and that the bill pending in the U.S. Senate is an appropriate and much needed remedy to solve the problems caused by pesticide X. The study contains a sufficiently full and fair exposition of the pertinent facts, including known or potential advantages of the use of pesticide X, to enable the public or an individual to form an independent opinion or conclusion as to whether pesticides should be banned as provided in the pending bills. In its analysis of the pending bill, the study names certain undecided Senators on the Senate committee considering the bill. Although the study meets the three part test for determining whether a communication is a grass roots lobbying communication, the study is within the exception for nonpartisan analysis, study or research, because it does not directly encourage recipients of the communication to urge a legislator to oppose the bill.

Example (9). Assume the same facts as in Example (8), except that, after stating support for the pending bill, the study concludes: "You should write to the undecided committee members to support this crucial bill." The study is not within the exception for nonpartisan analysis, study or research because it directly encourages the recipients to urge a legislator to support a specific piece of legislation.

Example (10). Organization X plans to conduct a lobbying campaign with respect to illegal drug use in the United States. It incurs $5,000 in expenses to conduct research and prepare an extensive report primarily for use in the lobbying campaign. Although the detailed report discusses specific pending legislation and reaches the conclusion that the legislation would reduce illegal drug use, the report contains a sufficiently full and fair exposition of the pertinent facts to enable the public or an individual to form an independent conclusion regarding the effect of the legislation. The report does not encourage readers to contact legislators regarding the legislation. Accordingly, the report does not, in and of itself, constitute a lobbying communication.

Copies of the report are available to the public at X's office, but X does not actively distribute the report or otherwise seek to make the contents of the report available to the general public. Whether or not X's distribution is sufficient to meet the requirement in §56.4911-2(c)(1)(iv) that a nonpartisan communication be made available, X's distribution is not substantial (for purposes of §56.4911-2(c)(1)(v)) in light of all of the facts and circumstances, including the normal distribution pattern of similar nonpartisan reports. X then mails copies of the report, along with a letter, to 10,000 individuals on X's mailing list. In the letter, X requests that individuals contact legislators urging passage of the legislation discussed in the report. Because X's research and report were primarily undertaken by X for lobbying purposes and X did not make a substantial distribution of the report (without an accompanying lobbying message) prior to or contemporaneously with the use of the report in lobbying, the report is a grass roots lobbying communication that is not within the exception for nonpartisan analysis, study or research.

Example (11). Assume the same facts as in Example (10), except that before using the report in the lobbying campaign, X sends the research and report (without an accompanying lobbying message) to universities and newspapers. At the same time, X also advertises the availability of the report in its newsletter. This distribution is similar in scope to the normal distribution pattern of similar nonpartisan reports. In light of all of the facts and circumstances, X's distribution of the report is substantial. Because of X's substantial distribution of the report, X's primary purpose will be considered to be other than for use in lobbying and the report will not be considered a grass roots lobbying communication. Accordingly, only the expenditures for copying and mailing the report to the 10,000 individuals on X's mailing list, as well as for preparing and mailing the letter, are expenditures for grass roots lobbying communications.

(2) *Examinations and discussions of broad social, economic, and similar problems*. Examinations and discussions of broad social, economic, and similar

problems are neither direct lobbying communications under §56.4911-2(b)(1) nor grass roots lobbying communications under §56.4911-2(b)(2) even if the problems are of the type with which government would be expected to deal ultimately. Thus, under §§56.4911-2(b)(1) and (2), lobbying communications do not include public discussion, or communications with members of legislative bodies or governmental employees, the general subject of which is also the subject of legislation before a legislative body, so long as such discussion does not address itself to the merits of a specific legislative proposal and so long as such discussion does not directly encourage recipients to take action with respect to legislation. For example, this paragraph excludes from grass roots lobbying under §56.4911-2(b)(2) an organization's discussions of problems such as environmental pollution or population growth that are being considered by Congress and various State legislatures, but only where the discussions are not directly addressed to specific legislation being considered, and only where the discussions do not directly encourage recipients of the communication to contact a legislator, an employee of a legislative body, or a government official or employee who may participate in the formulation of legislation.

(3) *Requests for technical advice.* A communication is neither a direct lobbying communication under §56.4911-2(b)(1) nor a grass roots lobbying communication under §56.4911-2(b)(2) if the communication is the providing of technical advice or assistance to a governmental body, a governmental committee, or a subdivision of either in response to a written request by the body, committee, or subdivision, as set forth in §53.4945-2(d)(2).

(4) *Communications pertaining to "self-defense" by the organization.* A communication is neither a direct lobbying communication under §56.4911-2(b)(1) nor a grass roots lobbying communication under §56.4911-2(b)(2) if:

(i) The communication is an appearance before, or communication with, any legislative body with respect to a possible action by the body that might affect the existence of the organization, its powers and duties, its tax-exempt status, or the deductibility of contributions to the organization, as set forth in §53.4945-2(d)(3);

(ii) The communication is by a member of an affiliated group of organizations (within the meaning of §56.4911-7(e)), and is an appearance before, or communication with, a legislative body with respect to a possible action by the body that might affect the existence of any other member of the group, its powers and duties, its tax-exempt status, or the deductibility of contributions to it;

(iii) The communication is by an organization that has a membership consisting solely of other organizations that are described in section 501(c)(3), and is an appearance before, or communication with, any legislative body with respect to a possible action by the body which might affect the existence of one or more of the member organizations, their powers, duties, or tax-exempt status, or the deductibility of contributions to one or more of the member organizations; or

(iv) The communication is by an organization that is a member of a limited affiliated group of organizations under §56.4911-10, and is an appearance before, or communication with, the Congress of the United States with respect to a possible action by the Congress that might affect the existence of any member of the limited affiliated group, its powers and duties, tax-exempt status, or the deductibility of contributions to it.

(d) *Certain transfers treated as lobbying expenditures*—(1) *Transfer earmarked for grass roots purposes.* A transfer is a grass roots expenditure to the extent that it is earmarked (as defined in §56.4911-4(f)(4)) for grass roots lobbying purposes and is not described in §56.4911-4(e).

(2) *Transfer earmarked for direct and grass roots lobbying.* A transfer that is earmarked for direct lobbying purposes or for direct lobbying and grass roots lobbying purposes is treated as a grass roots expenditure in full except to the extent the transferor demonstrates that the amounts transferred were expended for direct lobbying purposes. This paragraph (d)(2) shall not apply to any expenditure described in §56.4911-4(e).

(3) *Certain transfers to organizations that lobby.* A transfer that is neither a controlled grant (as defined in §56.4911-4(f)(3)) nor an expenditure described in §56.4911-4(e), and that is made to an organization not described in section 501(c)(3) that engages in attempts to influence legislation, is treated as a grass roots expenditure to the extent of the lesser of the amount of the transfer or the transferee's expenditures for grass roots lobbying. If the amount of the transfer exceeds the transferee's expenditures for grass roots lobbying, the excess will be treated as an expenditure for direct lobbying to the extent of the transferee's expenditures for direct lobbying. In applying the two preceding sentences, the expenditures of the transferee will be determined as if the regulations under section 4911 applied to the transferee.

(e) *Definitions.* For purposes of section 4911 and the regulations thereunder—

(1) *Legislation.* "Legislation" includes action by the Congress, any state legislature, any local council, or similar legislative body, or by the public in a referendum, initiative, constitutional amendment, or similar procedure. "Legislation" includes a proposed treaty required to be submitted by the President to the Senate for its advice and consent from the time the President's representative begins to negotiate its position with the prospective parties to the proposed treaty.

(2) *Action.* The term "action" is limited to the introduction, amendment, enactment, defeat or repeal of Acts, bills, resolutions, or similar items.

(3) *Legislative body.* "Legislative body" does not include executive, judicial, or administrative bodies.

(4) *Administrative bodies.* "Administrative bodies" includes school boards, housing authorities, sewer and water districts, zoning boards, and other similar Federal, State, or local special purpose bodies, whether elective or appointive. Thus, for example, for purposes of section 4911, the term "any attempt to influence any legislation" does not include attempts to persuade an executive body or department to form, support the formation of, or to acquire property to be used for the formation or expansion of, a public park or equivalent preserves (such as public recreation areas, game, or forest preserves, and soil demonstration areas) established or to be established by act of Congress, by executive action in accordance with an act of Congress, or by a State, municipality or other governmental unit described in section 170(c)(1), as compared with attempts to persuade a legislative body, a member thereof, or other governmental official or employee, to promote the appropriation of funds for such an acquisition or other legislative authorization of such an acquisition. Therefore, for example, an organization would not be influencing legislation for purposes of section 4911, if it proposed to a Park Authority that it purchase a particular tract of land for a new park, even though

such an attempt would necessarily require the Park Authority eventually to seek appropriations to support a new park. However, in such a case, the organization would be influencing legislation, for purposes of section 4911, if it provided the Park Authority with a proposed budget to be submitted to a legislative body, unless such submission is described by one of the exceptions set forth in paragraph (c) of this section.

§56.4911-3. Expenditures for direct and/or grass roots lobbying communications.

(a) *Definition of term "expenditures for"*—(1) *In general.* Expenditures for a direct or grass roots lobbying communication ("lobbying expenditures") include amounts paid or incurred as current or deferred compensation for an employee's services attributable to the direct or grass roots lobbying communication, and the allocable portion of administrative, overhead, and other general expenditures attributable to the direct or grass roots lobbying communication. Except as otherwise indicated in this paragraph (a), all costs of preparing a direct or grass roots lobbying communication are included as expenditures for direct or grass roots lobbying. For example, except as otherwise provided in this paragraph (a), all expenditures for researching, drafting, reviewing, copying, publishing and mailing a direct or grass roots lobbying communication, as well as an allocable share of overhead expenses, are included as expenditures for direct or grass roots lobbying.

(2) *Allocation of mixed purpose expenditures*—(i) *Nonmembership communications.* Except as provided in paragraph (a)(2)(ii) of this section, lobbying expenditures for a communication that also has a bona fide nonlobbying purpose must include all costs attributable to those parts of the communication that are on the same specific subject as the lobbying message. All costs attributable to those parts of the communication that are not on the same specific subject as the lobbying message are not included as lobbying expenditures for allocation purposes. Whethe- or not a portion of a communication is on the same specific subject as the lobbying message will depend on the surrounding facts and circumstances. In general, a portion of a communication will be on the same specific subject as the lobbying message if that portion discusses an activity or specific issue that would be directly affected by the proposed legislation that is the subject of the lobbying message. Moreover, discussion of the background or consequences of the proposed legislation, or discussion of the background or consequences of an activity or specific issue affected by the proposed legislation, is also considered to be on the same specific subject as the lobbying communication.

(ii) *Membership communications.* In the case of lobbying expenditures for a communication that also has a bona fide nonlobbying purpose and that is sent only or primarily to members, an organization must make a reasonable allocation between the amount expended for the lobbying purpose and the amount expended for the nonlobbying purpose. An organization that includes as a lobbying expenditure only the amount expended for the specific sentence or sentences that encourage the recipient to take action with respect to legislation has not made a reasonable allocation. For purposes of this paragraph, a communication is sent only or primarily to members if more than half of the recipients of the communication are members of the organization making the communication within the meaning of §56.4911-5. See §56.4911-5 for separate rules on communications sent only or primarily to members. Nothing in this paragraph shall change any allocation required by §56.4911-5.

(3) *Allocation of mixed lobbying.* If a communication (to which §56.4911-5 does not apply) is both a direct lobbying communication and a grass roots lobbying communication, the communication will be treated as a grass roots lobbying communication except to the extent that the organization demonstrates that the communication was made primarily for direct lobbying purposes, in which case a reasonable allocation shall be made between the direct and the grass roots lobbying purposes served by the communication.

(b) *Examples.* The provisions of paragraph (a) of this section are illustrated by the following examples. Except where otherwise explicitly stated, the expenditure test election under section 501(h) is assumed to be in effect for all organizations discussed in the examples in this paragraph (b). See §56.4911-5 for special rules applying to the member communications described in some of the following examples.

Example (1). Organization R makes the services of E, one of its paid executives, available to S, an organization described in section 501(c)(4) of the Code. E works for several weeks to assist S in developing materials that urge voters to contact their congressional representatives to indicate their support for specific legislation. In performing this work, E uses office space and clerical assistance provided by R. R pays full salary and benefits to E during this period and receives no reimbursement from S for these payments or for the other facilities and assistance provided. All expenditures of R, including allocable office and overhead expenses, that are attributable to this assignment are grass roots expenditures because E was engaged in an attempt to influence legislation.

Example (2). An organization distributes primarily to nonmembers a pamphlet with two articles on unrelated subjects. The total cost of preparing, printing and mailing the pamphlet is $11,000, $1,000 for preparation and $10,000 for printing and mailing. The cost of preparing one article, a nonlobbying communication, is $600. The article is printed on three of the four pages in the pamphlet. The cost of preparing the second article, a grass-roots lobbying communication that addresses only one specific subject, is $400. This article is printed on one page of the four page pamphlet. In this situation, $400 of preparation costs and $2,500 (25% of $10,000) of printing and mailing costs are expenditures for a grass roots lobbying communication.

Example (3). Assume the same facts as in Example (2), except that the pamphlet is distributed only to members. In addition, assume the second article states that the recipient members should contact their congressional representatives. The organization allocates $400 of preparation costs and $2,500 of printing and mailing costs as expenditures for direct lobbying (see §56.4911-5(c)). The allocation is reasonable for purposes of §56.4911-3(a)(2)(ii).

Example (4). Organization J places a full-page advertisement in a newspaper. The advertisement urges passage of pending legislation to build three additional nuclear powered submarines, and states that readers should write their Congressional representatives in favor of the legislation. The advertisement also provides a general description of J's purposes and activities, invites readers to become members of J and asks readers to contribute money to J. Except for the cost of the portion of the advertisement describing J's purposes and activities and the portion specifically seeking members and contributions, the entire cost of the advertisement is an expenditure for a grass roots lobbying communication, because the entire advertisement, except for the lines specifically describing J and specifically seeking members and contributions, is on the same specific subject as the grass roots lobbying message.

Example (5). Assume the same facts as in Example (4), except that J places in the newspaper two separate half-page advertisements instead of one full-page advertisement. One of the two advertisements discusses the need for three additional nuclear powered submarines and urges readers to write their Congressional representatives in favor of the pending legislation to build the three submarines. The other advertisement contains only the membership and fundraising appeals, along with a general description of J's purposes and activities. The half-page advertisement urging readers to write to Congress is a grass roots lobbying communication and all of J's expenditures for producing and placing that advertisement are expenditures for a grass roots lobbying communication. J's expenditures for the other half-page advertisement are not expenditures for a grass roots or direct lobbying communication.

Example (6). Assume the same facts as in Example (4), except that the communication by J is in a letter mailed only to members of J, rather than in a newspaper advertisement, and the invitation to become a member of J is an invitation to join a new membership category. In addition, assume that the communication states that the member recipients should ask nonmembers to write their Congressional representatives. J allocates one-half of the cost of the mailing as an expenditure for a grass roots lobbying communication (see §56.4911-5(d)). Because the communication had both bona fide nonlobbying (e.g., membership solicitation and fundraising) purposes as well as lobbying purposes, J's allocation of one-half of the cost of the communication to grass roots lobbying and one-half to nonlobbying is reasonable for purposes of §56.4911-3(a)(2)(ii).

Example (7). A particular monthly issue of organization X's newsletter, which is distributed mainly to nonmembers of X, has three articles of equal length. The first article is a grass roots lobbying communication, the sole specific subject of which is pending legislation to help protect seals from being slaughtered in certain foreign countries. The second article discusses the rapid decline in the world's whale population, particularly because of the illegal hunting of whales by foreign countries. The third article deals with air pollution and the acid rain problem in North America. Because the first article is a grass roots lobbying communication, all of the costs allocable to that article (e.g., one-third of the newsletter's printing and mailing costs) are lobbying expenditures. The second article is not a lobbying communication and the pending legislation relating to seals addressed in the first article does not affect the illegal whale hunting activities. Because the second and third articles are not lobbying communications and are also not on the same specific subject as the first article, no portion of the costs attributable to those articles is a grass roots lobbying expenditure.

Example (8). Organization T, a nonmembership organization, prepares a three page document that is mailed to 3,000 persons on T's mailing list. The first two pages of the three page document, titled "The Need for Child Care," support the need for additional child care programs, and include statistics on the number of children living in homes where both parents work or in homes with a single parent. The two pages also make note of the inadequacy of the number of day care providers to meet the needs of these parents. The third page of the document, titled "H.R. 1," indicates T's support of H.R. 1, a bill pending in the U.S. House of Representatives. The document states that H.R. 1 will provide for $10,000,000 in additional subsidies to child care providers, primarily for those providers caring for lower income children. The third page of the document also notes that H.R. 1 includes new federal standards regulating the quality of child care providers. The document ends with T's request that recipients contact their congressional representative in support of H.R. 1. The entire three page document is on the same specific subject, and, therefore, all expenditures of preparing and distributing the three page document are grass roots lobbying expenditures.

Example (9). Assume the same facts as in Example (8), except that T is a membership organization, 75 percent of the recipients of the three page document are members of T, and 25 percent of the recipients are nonmembers and are not subscribers within the meaning of §56.4911-5(f)(5). Assume also that the document states that readers should write to Congress, but does not state that the readers should urge nonmembers to write to Congress. T treats the document as having a bona fide nonlobbying purpose, the purpose of educating its members about the need for child care. Accordingly, T allocates one-half of the cost of preparing and distributing the document as a lobbying expenditure (see §56.4911-5(e)(2)(i)), of which 75 percent is a direct lobbying expenditure (see §56.4911-5(e)(2)(iii)) and 25 percent is a grass roots lobbying expenditure (see §56.4911-5(e)(2)(ii)). The remaining one-half is allocated as a nonlobbying expenditure. T's allocation is reasonable for purposes of §56.4911-3(a)(2)(ii) and is correct for purposes of §56.4911-5(e).

Example (10). Assume the same facts as in Example (9), except that T allocates one percent of the cost of preparing and distributing the document as a lobbying expenditure (for purposes of §56.4911-5(e)(2)) and 99 percent as a nonlobbying expenditure. T's allocation is based upon the fact that out of 200 lines in the document, only two lines state that the recipient should contact legislators about the pending legislation. T's allocation is unreasonable for purposes of §56.4911-3(a)(2)(ii).

Example (11). Organization F, a nonmembership organization, sends a one page letter to all persons on its mailing list. The only subject of the letter is the organization's opposition to a pending bill allowing private uses of certain national parks. The letter requests recipients to send letters opposing the bill to their congressional representatives. A second one page letter is sent in the same envelope. The second letter discusses the broad educational activities and publications of the organization in all areas of environmental protection and ends by requesting the recipient to make a financial contribution to organization F. Since the separate second letter is on a different subject from the lobbying letter, and the letters are of equal length, 50 percent of the mailing costs must be allocated as an expenditure for a grass roots lobbying communication.

Example (12). Assume the same facts as in Example (11), except that F is a membership organization and the letters in question are sent primarily (90 percent) to members. The other 10 percent of the recipients are nonmembers and are not subscribers within the meaning of §56.4911-5(f)(5). Assume also that the first letter does not state that readers should urge nonmembers to write to legislators. F allocates one-half of the mailing costs as a lobbying expenditure, of which 90 percent is a direct lobbying expenditure and 10 percent is a grass roots lobbying expenditure (see §56.4911-5(e)(2)). F's allocation is reasonable for purposes of §56.4911-3(a)(2)(ii) and is correct for purposes of §56.4911-5.

Par. 7. Proposed §56.4911-4 is amended by revising paragraphs (b)(2), (b)(5), (b)(6), (c)(7), and (f)(2) to read as follows:

§56.4911-4 Exempt purpose expenditures.

* * * * * *

(b) *Included expenditures.* * * *

(2) Amounts paid or incurred as current or deferred compensation for an employee's services for a purpose enumerated in section 170(c)(2)(B).

* * * * * *

(b) *Included expenditures.* * * *

(5) Amounts paid or incurred for activities described in §56.4911-3,

(6) Amounts paid or incurred for activities described in §56.4911-5 that are not lobbying expenditures, and

* * * * * *

(c) *Excluded expenditures.* * * *

(7) Amounts paid or incurred for the production of income, whether or not described in section 512(a)(1).

* * * * * *

(f) *Definitions.*

* * * * * *

(2) For purposes of paragraph (c) of this section, a separate fund raising unit of any organization must consist of either two or more individuals a majority of whose time is spent on fund raising for the organization, or any separate accounting unit of the organization that is devoted to fund raising.

* * * * * *

Par. 8. Proposed §56.4911-5 is amended as follows, to read as set forth below:

1. Paragraphs (a) through (d) and paragraph (e)(1) are revised to read as set forth below.

2. Paragraph (f)(6) is revised to read as set forth below.

3. A new paragraph (f)(8) is added, to read as set forth below.

§56.4911-5 Communications with members.

(a) *In general.* For purposes of section 4911 and §56.4911-2, expenditures for certain communications between an organization and its members are treated as expenditures for direct lobbying, as expenditures for grass roots lobbying, or as other than lobbying expenditures in accordance with this section.

(b) *Communication directed only to members; excepted communication.* Expenditures for a communication that refers to, and reflects a view on, specific legislation are not lobbying expenditures if the communication satisfies the following requirements:

(1) The communication is directed only to members of the organization,

(2) The specific legislation the communication refers to, and reflects a view on, is of direct interest to the organization and its members;

(3) The communication does not directly encourage the member to engage in direct lobbying (whether individually or through the organization); and

(ii) The communication does not directly encourage the member to engage in grass roots lobbying (whether individually or through the organization).

(c) *Communication directed only to members: expenditures for direct lobbying.* Expenditures for a communication that refers to, and reflects a view on, specific legislation and that satisfies the requirements of paragraphs (b)(1), (b)(2), and (b)(4) of this section, but does not satisfy the requirements of paragraph (b)(3) of this section, are treated as expenditures for direct lobbying.

(d) *Communication directed only to members; grass roots expenditures.* Expenditures for a communication that refers to, and reflects a view on, specific legislation and that satisfies the requirements of paragraphs (b)(1) and (b)(2) of this section, but does not satisfy the requirements of paragraph (b)(4) of this section, are treated as grass roots expenditures (whether or not the communication satisfies the requirements of paragraph (b)(3) of this section.

(e) *Written communications directed to members and nonmembers*—(1) *In general.* Expenditures for any written communication that is designed primarily for members of an organization (but not directed only to members) and that refers to, and reflects a view on, specific legislation of direct interest to the organization and its members, are treated as expenditures for direct or grass roots lobbying in accordance with paragraph (e)(2) or (e)(3) of this section. For purposes of this section, a communication is designed primarily for members of an organization if more than half of the recipients of the communication are members of the organization.

* * * * * *

(f) *Definitions and special rules.* * * *

* * * * * *

(6) *Directly encourages*—(i) *Direct lobbying*—(A) *In general.* For purposes of this section, a communication directly encourages a recipient to engage in direct lobbying, whether individually or through the organization, if the communication:

(*1*) States that the recipient should contact a legislator or an employee of a legislative body, or should contact any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of urging contact with the government official or employee is to influence legislation);

(*2*) States the address, telephone number, or similar information of a legislator or an employee of a legislative body; or

(*3*) Provides a petition, tear-off postcard or similar material for the recipient to communicate his or her views to a legislator or an employee of a legislative body, or to any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of so facilitating contact with the government official or employee is to influence legislation).

(B) *"Self-defense" exception for communications with members.* Notwithstanding the provisions of paragraph (f)(6)(i)(A) of this section, for purposes of paragraphs (b)(3), (e)(2)(i), and (e)(3)(ii) of this section, a communication that directly encourages a member to engage in direct lobbying activities that are described in section 4911(d)(2)(C) and that would not be attempts to influence legislation if engaged in directly by the organization is treated as a communication that does not directly encourage a member to engage in direct lobbying.

(ii) *Grass roots lobbying.* For purposes of paragraphs (b)(4) and (e)(3)(i) of this section, a communication directly encourages recipients to engage individually or collectively (whether through the organization or otherwise) in grass roots lobbying if the communication:

(A) States that the recipient should encourage any nonmember to contact a legislator or an employee of a legislative body, or to contact any other government official or employee who may participate in the formulation of legislation (but only if the principal purpose of urging contact with the government official or employee is to influence legislation);

(B) States that the recipient should provide to any nonmember the address, telephone number, or similar information of a legislator or an employee of a legislative body; or

(C) Provides (or requests that the recipient provide to nonmembers) a petition, tear-off postcard or similar material for the recipient (or nonmember) to use to ask any nonmember to communicate views to a legislator or an employee of a legislative body, or to any other government official or employee who may participate in the formulation of legislation, but only if the principal purpose of so facilitating contact with the government official or employee is to influence legislation. For purposes of this paragraph, a petition is provided for the recipient to use to ask any nonmember to communicate views if, for example, the petition has an entire page of preprinted signature blocks. Similarly, for purposes of this paragraph, where a communication is distributed to a single member and provides several tear-off postcards addressed to a legislator, the postcards are presumed to be provided for the member to use to ask a nonmember to communicate with the legislator.

* * * * * *

(8) *Reasonable allocation rule.* In the case of lobbying expenditures for a communication that also has a bona fide nonlobbying purpose and that is sent only or primarily to members, an organization must make a reasonable allocation between the amount expended for the lobbying purpose and the amount expended for the nonlobbying purpose. See §56.4911-3(a)(2)(ii).

Par. 9. Proposed §56.4911-6, paragraphs (a)(3), (a)(4), (b)(2), and (b)(3), are revised to read as follows:

§56.4911-6 Records of lobbying and grass roots expenditures.

(a) *Records of lobbying expenditures.* * * *

(3) The portion of amounts paid or incurred as current or deferred compensation for an employee's services for direct lobbying;

(4) Amounts paid for out-of-pocket expenditures incurred on behalf of the organization and for direct lobbying, whether or not incurred by an employee;

* * * * * *

(b) *Records of grass roots expenditures.* * * *

* * * * * *

(2) The portion of amounts paid or incurred as current or deferred compensation for an employee's services for grass roots lobbying;

(3) Amounts paid for out-of pocket expenditures incurred on behalf of the organization and for grass roots lobbying, whether or not incurred by an employee;

* * * * * *

Par. 10. Proposed §56.4911-7 is amended by revising paragraph (c) to read:

§56.4911-7 Affiliated group of organizations.

* * * * * *

(c) *Governing instrument*. One organization (the "controlling" organization) is affiliated with a second organization (the "controlled" organization) by reason of the governing instruments of the controlled organization if the governing instruments of the controlled organization expressly or by implication limit the independent action of the controlled organization on legislative issues by requiring it to be bound by decisions of the other organization on legislative issues.

* * * * * *

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 22, 1988, 8:45 a.m. and published in the issue of the Federal Register for December 23, 1988, 53 F.R. 51826)

Notice of Proposed Rulemaking

Benefits Provided Under Certain Employee Benefit Plans

EE-130-86

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to benefits provided under certain employee benefit plans under sections 89 and 125 of the Internal Revenue Code of 1986. The regulations reflect changes made by the Revenue Act of 1978 [1978-3 C.B. (Vol. 1) 1], the Tax Reform Act of 1984 [1984-3 C.B. (Vol.1) 1], the Tax Reform Act of 1986 [1986-3 C.B. (Vol.1) 1], and the Technical and Miscellaneous Revenue Act of 1988. The regulations provide the public with guidance on the nondiscrimination and qualification requirements for certain employee benefit plans and affect sponsors of, and participants in, a variety of types of plans, including accident and health plans, group-term life insurance, and dependent care assistance programs.

DATES: Written comments and requests for a public hearing must be delivered or mailed on or before May 8, 1989. The amendments are generally proposed to apply to plan years beginning after December 31, 1988.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:CORP:T:R (EE-130-86), Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

PAPERWORK REDUCTION ACT

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collections of information should be sent to the Office of Management and Budget, Paperwork Reduction Project, Washington, DC 20503, with copies to the Internal Revenue Service, Attention: IRS Reports Clearance Officer TR:FP, Washington, DC 20224.

The collections of information in these regulations are in §1.89(a)-1 and §1.89(k)-1. Certain of this information is required by the Internal Revenue Service to memorialize the method of testing used by the employer in determining whether it meets the requirements of section 89(a) and correctly reports an employee's wages on the Form W-2. Additional requirements include the preparation of a written plan document, a notice relating to benefits (both required under section 89(k)). The likely respondents/recordkeepers are employers who provide welfare benefit programs to their employees.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual recordkeepers may require more or less time, depending on their particular circumstances.

The burden estimates represent an estimation of the actual time for recordkeeping, learning about the law, computations and testings.

The estimated total annual reporting and/or recordkeeping burden: 9,000,000 hours. With respect to learning about the law, testing and making any written elections, the estimated annual burden per respondent/recordkeeper varies from 1 hour to 40 hours, depending on individual circumstances, with an estimated average of 10 hours. The estimated number of respondents and/or recordkeepers: 750,000. With respect to physically preparing the written plan, notice and statement relating to employees, the estimated annual burden per respondent/recordkeeper varies from 30 minutes to 4 hours, depending on individual circumstances, with an estimated average of 2 hours. The estimated number of respondents and/or recordkeepers: 750,000. Estimated annual frequency of response (for reporting requirements only): as necessary.

BACKGROUND

This document contains proposed additions to the Income Tax Regulations (26 CFR Part 1) under sections 89 and 125 of the Internal Revenue Code of 1986 (Code). The additions with respect to section 89 are proposed to conform the regulations to section 1151 of the Tax Reform Act of 1986 (TRA '86) (100 Stat. 2494), and section 3021 of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA '88) (102 Stat. 3625). The additions with respect to section 125 are proposed pursuant to section 134 of the Revenue Act of 1978 (92 Stat. 2763), section 101 of the Technical Corrections Act of 1979 (92 Stat. 2227), section 226 of the Miscellaneous Revenue Act of 1980 (94 Stat. 3525), section 531(b)(4) of the Tax Reform Act of 1984 (96 Stat. 494), section 1151 of the Tax Reform Act of 1986 (TRA '86) (100 Stat. 2494), and section 1011B of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA '88) (102 Stat. 3485).

Section 89 was intended, in part, to discourage employers from offering health plans and other welfare benefits that disproportionately favor highly compensated employees either as to coverage or extent of benefits. A principal objective of this legislation was to extend health coverage for employees not now covered. The sanction for failing to meet nondiscrimination criteria outlined in the statute and this implementing rule is the taxation of the excess value of highly compensated employees' benefits.

To help provide an improved basis for evaluation of the specific content and effect of the statute and these regulations, comments are invited on changes in plan provisions, the numbers and types of employees eligible for plans affected by these regulations, and employee participation rates that may be associated with one or more changes proposed in these regulations. Information indicating the effect on particular groups of employees identified by wage levels, occupations, industries or other characteristics would be especially useful. Comments also are invited on the expected effect on costs to employers and health providers which result from particular requirements.

EXPLANATION OF RULES

The proposed regulations include guidance in three general areas. First, they provide information with respect to miscellaneous matters relating to the nondiscrimination rules of section 89(a). Second, the proposed regulations contain detailed guidance with respect to the qualification requirements of section 89(k). Finally, the proposed regulations include questions and answers relating to section 125 (cafeteria plans) and supplementing the existing proposed regulations contained at §1.125-1 (49 FR 19321) [1984-1 C.B. 563]. The proposed regulations include a variety of special rules to facilitate the application of and compliance with sections 89 and 125, particularly for plan years beginning in 1989.

1. *In general.*

These proposed regulations constitute the issuance of comprehensive section 89 rules on which taxpayers may rely. Nevertheless, until the later of January 1, 1990, or the beginning of the second testing year beginning after December 31, 1988, if an employer reasonably and in good faith complies with the requirements of section 89 (including the legislative history thereto), the employer will be treated as having satisfied section 89. After this transition period, this standard of compliance will not apply to the extent that these proposed regulations address issues under section 89. Whether compliance is reasonable and in good faith is to be determined on the basis of all the facts and circumstances, including whether the employer makes a reasonable and good faith effort to collect and analyze the necessary data and information, and whether the employer consistently resolves unclear issues in its favor.

These questions and answers do not provide comprehensive guidance on certain issues. For example, no guidance is provided on the special multiemployer plan rules adopted in TAMRA '88. In addition, this guidance does not address the separate line of business rules of section 414(r) or the extent to which additional employer disaggregation is available under section 89. In addition, the proposed regulations generally do not address the application of section 89 to group-term life insurance. These matters will be addressed in future guidance.

The proposed regulations also do not address certain issues with regard to the application of section 89 to former employees and with regard to who is an excludable employee under section 89(h). Nevertheless, under the excludable employee rules, if any employee included in a collective bargaining unit receives any employer-provided benefit, no employee in that collective bargaining unit may be treated as an excludable employee merely because the employee is a member of the collective bargaining unit. This is the case without regard to the fact that the employer-provided benefit is in the form of an employer contribution under a collective bargaining agreement to a multiemployer plan. See section 1151(k) of TRA '86 and paragraph (a)(2) of Question and Answer (Q&A) 10 of the proposed regulation for the effective date of section 89 for certain collectively bargained plans.

The proposed regulations provide that, in general, section 414(n) applies to employee benefit plans covered by section 89 in the same manner as it applies to qualified plans covered by section 401(a). They also include a delegation to the Commissioner to provide guidance in the form of revenue rulings, notices or other publications of general applicability on the extent to which the differing nature of these types of plans require different rules. The Service invites comments on the manner in which the leased employee rules apply to plans covered by section 89 and, in particular, on the extent to which different rules are appropriate.

The proposed regulations also clarify that plans are not exempt from section 89 merely because they are maintained by the federal government, state or local governments, or employee organizations. In addition, plans maintained by tax-exempt entities are subject to the requirements of section 89, with the exception that a plan maintained exclusively for church employees by an entity described in section 3121(w) is not required to satisfy the requirements of section 89.

If the public wishes to comment on the content and timing of additional guidance that may be required to implement the law, the Service will consider these comments in developing further guidance. In particular, the Service invites comments regarding the exclusion of certain classes of employees for purposes of applying the nondiscrimination rules of section 89 (e.g., prisoners incarcerated in federal or state institutions or clients in sheltered workshops maintained by charitable entities) similar to the exclusion provided in the safe harbors in Notice 89-23, page 654, this Bulletin.

2. *Nondiscrimination Requirements*

Section 89(a) is generally applicable to accident and health plans within the meaning of sections 105 and 106 (health plans) and group-term life insurance plans within the meaning of section 79. In addition, an employer may elect to treat certain other plans as subject to section 89(a). The term "benefit" appears throughout the proposed regulations. Unless indicated otherwise, the term "benefit" in connection with the nondiscrimination requirements of section 89(a) means the value of the coverage provided under the plan in the case of insurance type plans and, in the case of noninsurance type plans, the value of the payments, reimbursements, services and products provided under the plan. The proposed regulation contained at §1.89(a)-1 includes questions and answers relating to nondiscrimination rules for purposes of section 89.

Q&A-1 of §1.89(a)-1 sets forth in general terms the nondiscrimination tests applicable under section 89(a). In general, an employer has two approaches to nondiscrimination testing under section 89. Under the first approach, an employer's employee benefit plan satisfies section 89(a) only if (i) at least 50 percent of the employees eligible to participate in a plan are nonhighly compensated employees (the 50 percent eligibility test); (ii) at least 90 percent of the nonhighly compensated employees are eligible to participate in the plan or plans of the same type that, on an aggregate basis, are at least 50 percent as valuable as the combined value of the plans of the same type that are available to any highly compensated employee (the 90 percent/50 percent eligibility test); and (iii) the average benefit received by nonhighly compensated employees under all plans of the same type is at least 75 percent of the average benefit received by highly compensated employees under such plans (the 75 percent benefits test).

Under the second approach, an employer's employee benefit plan satisfies section 89(a) only if it benefits at least 80 percent of the employer's nonhighly compensated employees (the 80 percent coverage test). An employer may elect to test its health and group-term life insurance plans (and determine excess benefits, if any) under the 80 percent coverage test notwithstanding the fact that the first approach would produce different amounts of excess benefits.

Under either of the two approaches, a plan fails to satisfy section 89(a) if the plan contains any provision that by its terms, operation or otherwise discriminates in favor of highly compensated employees (the nondiscriminatory provisions test).

For 1989 and 1990, an employer may decide to adopt an alternative to the 75 percent benefits test for its health plans. Under this alternative, set forth in Q&A-2 an employer must treat as includible in gross income (i.e., as discriminatory excess benefits) all employer-provided coverage under its health plans with respect to certain highly compensated employees. Also, if an employer adopts this alternative for 1989, the employer may use a modified version of the 90 percent/50 percent eligibility test under which at least 80 percent of the nonhighly compensated employees must be eligible to participate in plans of the same type that, on an aggregate basis, are at least 66 percent as valuable as the aggregate value of the plans of the same type available to any highly compensated employee. For testing years ending in 1990, this modified version of the 90 percent/50 percent eligibility test is not available and the class of highly compensated employees who are considered to receive taxable employer-provided health coverage under the alternative to the 75 percent benefits test is broadened.

Q&A-2 also provides a permanent alternative to the general nondiscrimination tests for certain large employers whose employees are substantially all nonhighly compensated employees. Under this alternative, an employer's health plans satisfy section 89(a) if the employer employs at least 5,000 individuals; at least 90 percent of the full-time active employees are nonhighly compensated employees; less than 0.75 percent of all active employees have compensation in excess of twice the section 414(q)(1)(C) amount ($50,000 indexed); at least 80 percent of those employees eligible to participate in each plan are nonhighly compensated employees and 80 percent of the nonhighly compensated employees have available to them under all health plans a health benefit that is at least 80 percent as valuable as the largest such benefits available to any highly compensated employee; and at least 66 percent of all nonhighly compensated employees receive core health benefits that are at least 66 percent as valuable as the largest such benefit available to any highly compensated employee. In addition, the nondiscriminatory provisions test must be satisfied. This alternative is only available to determine if any employer's health plan or plans are discriminatory: it is not available to determine the amount of excess benefits.

Core health coverage generally means comprehensive major medical and hospitalization coverage. Dental, vision and health coverages provided under flexible spending arrangements (see paragraph (c) of Q&A-7 of proposed §1.125-2) are not core health benefits. Note that the definition of "core health coverage" under section 89 is not necessarily the same as the definition of "core coverage" under section 4980B (COBRA continuation coverage) and, therefore, no inference should be drawn from these proposed regulations with respect to the meaning of such term under section 4980B.

Q&A-3 details the treatment of family and other coverage under section 89 and the extent to which such coverages may be tested separately from employee-only coverage. Included in Q&A-3 is guidance relating to the use of sworn statements when employee-only coverage is to be tested separately. The proposed regulations state that a sworn statement need not be notarized but, for testing years commencing on or after January 1, 1990, a sworn statement must be made under penalty of perjury. An example of a sworn statement is provided.

Q&A-4 sets forth rules relating to health plan comparability and health plan aggregation for the purposes of the 50 percent eligibility test and the 80 percent coverage tests. These rules were changed extensively by TAMRA '88. The comparability rules in the proposed regulations generally enable health plans that fail the 50 percent eligibility test or the 80 percent coverage test on an individual basis to satisfy such tests on a group basis.

Q&A-5 and Q&A-6 of the proposed regulation set forth the method for nondiscrimination testing. Q&A-5 states that testing for compliance with the nondiscrimination requirements of section 89(a) is done by reference to the employees employed on, and benefits provided for, a single day (the testing day), and such results are then annualized for the entire testing year with adjustments to reflect certain benefit changes during the testing year (both before and after the testing day). In general, the facts on the testing day must be adjusted to reflect benefit changes due to changes in plan terms and, in the case of highly compensated employees, changes in elections by such employees. If the terms of available plans change during an open season, benefit changes that occur due to elections during that open season are considered changes due to changes in plan terms. The proposed regulation contains a transition rule for 1989 that generally allows benefit changes prior to July 1, 1989 to be disregarded.

The employer must designate a uniform 12-month testing period for all its plans of the same type. In certain circumstances, an employer may elect a short testing year. To the extent that the employer elects to test plans of different types together for purposes of certain nondiscrimination tests, all these plans must be tested on a uniform testing year. Thus, if an employer tests its group-term life insurance plans with its dependent care assistance programs for purposes of the 75 percent benefits test, all such plans and programs must be tested on the same 12-month period. The same rule applies where the employer aggregates its health plans with its group-term life insurance plans to enable its group-term life insurance plans to satisfy the requirements of the 75 percent benefits test.

As set forth in Q&A-6, the first testing year of an employer with respect to plans of the same type generally must begin on the first day of the first plan year that any plan of that type is subject to section 89. Also, the employer may use an earlier testing year, including the calendar year, for 1989. Thus, for testing years beginning in 1989, the employer is required to test all its plans of the same type together even though not all of such plans are subject to the requirements of section 89 for the entire testing year. In these circumstances, the proposed regulation requires an employer to test all benefits under the plans as if they were subject to section 89 for the entire testing year. However, in determining any excess benefits under the plans, Q&A-6 contains rules under which an employer may prorate the amount of any excess to reflect the extent to which coverage is subject to section 89.

Q&A-7 sets forth rules relating to valuing coverage under a health plan. These rules apply until the Service publishes valuation procedures under section 89(g)(3)(B). Q&A-7 provides that an employer may use any reasonable method for valuing a health plan and specifies that the cost of the health plan is a reasonable method of valuation. Specifically, in valuing coverage an employer is permitted to use the cost of the applicable premium under section 4980B(f)(4) for continuation coverage under a group health plan and is permitted to adjust the premium for differences related to geographic locale, the demographics of the participant population, and utilization. No inference should be drawn from Q&A-7 concerning the method that may be used to determine the applicable premium under section 4980B(f)(4).

The proposed regulation clarifies that cost containment features may be disregarded under a reasonable method of valuation. Similarly, the fact that a delivery system used by a plan is different from a delivery system used by another plan should not affect the values of such plans. Thus, the fact that one plan is provided through a health maintenance organization and another through a traditional indemnity program should not cause the value of the plans to differ as long as the coverage under both plans is substantially similar.

The method of valuing health plans used by an employer for purposes of section 89 must be applied consistently for all the employer's health plans, except that the employer may use the cost method described in section 89(g)(3)(E) for multiemployer plans.

When determining the amount of excess benefits under section 89(b), an employer is required to use the cost method used for determining the applicable premium under section 4980B(f)(4), even if that was not the valuation method the employer used for testing purposes. This method must be used for calculating both the highly and nonhighly compensated employees' employer-provided benefits when excess benefits for highly compensated employees are determined. The only permissible adjustment to this method is for differences in the premium due to utilization.

Q&A-7 also sets forth the method of valuing coverage under flexible spending arrangements that provide health benefits. See Q&A-7 of §1.125-2 of the proposed regulation for the definition of a flexible spending arrangement. Such coverage is to be valued on the basis of its cost (in general, the premium required for the health coverage under the arrangement). As is the case with any valuation method, the fact that a premium is not paid does not affect the value of the coverage so long as the coverage is provided.

Q&A-8 of the proposed regulation contains an explanation of the treatment of salary reduction contributions under the nondiscrimination tests of section 89. Salary reduction contributions generally are defined as elective, pre-tax contributions under a cafeteria plan. TAMRA '88 contains a provision allowing, in certain cases, salary reduction contributions to be taken into account as employer contributions in performing the 90 percent/50 percent eligibility test. In addition to this provision, the proposed regulation describes circumstances in which certain salary reduction contributions by highly compensated employees must be taken into account as employer contributions and circumstances in which certain salary reduction contributions by nonhighly compensated employees must be treated as after-tax employee contributions. This mandatory treatment of salary reduction contributions applies to testing years beginning after 1989.

Q&A-9 sets forth the method by which excess benefits provided under a discriminatory employee benefit plan are to be calculated.

Q&A-10 contains guidance relating to the effective dates of the nondiscrimination and qualification requirements. Generally, the requirements apply to plans for plan years that commence on or after January 1, 1989. With respect to health plans, a special rule applies if the designated plan year of such a plan begins later in calendar year 1989 than the plan year for such health plan began in 1988.

Section 89 provides a later effective date that may apply with respect to collectively bargained plans. In the case of a plan maintained pursuant to a collective bargaining agreement ratified before March 1, 1986, the rules under section 89 do not apply to employees covered by such agreement in years beginning before the earlier of January 1, 1991, or the date on which the last collective bargaining agreement relating to the plan expires (determined without regard to any extension thereof after February 28, 1986). Thus, such a collectively bargained plan is not subject to section 89 before the date determined under the preceding sentence, and collectively bargained employees under such a plan may be treated as excludable employees until such date for purposes of applying section 89 to those other plans of the same type of the employer that are subject to section 89. The proposed regulation provides that the employer may elect to take all such otherwise excludable collectively bargained employees under a plan into account and, in so doing, to accelerate the effective date with respect to the collectively bargained plan for purposes of the nondiscrimination tests.

3. *Qualification Requirements Under Section 89(k)*

Unless statutory employee benefit plans and certain other plans meet the requirements of section 89(k) employer-provided benefits received under such plans are includible in an employee's gross income, notwithstanding the fact that the employer-provided benefits are otherwise excludable under the Code. The term "benefit" for purposes of the section 89(k) qualification requirements, in contrast to the definition of the term "benefit" for purposes of the nondiscrimination tests, means the value of the payments, reimbursements, services and products provided under the plan.

In order to meet the requirements of section 89(k), a plan must be in writing, legally enforceable, maintained for the exclusive benefit of employees, and established with the intent that it will be maintained for an indefinite period of time. In addition, an employer must provide those who are eligible to participate in the plan with reasonable notice of benefits available under the plan.

Section 89(k) applies to statutory employee benefit plans and certain other types of plans maintained by an employer. Section 89(k) generally applies to the following types of plans, regardless of whether such plans are subject to nondiscrimination testing under section 89(a): accident and health plans; group-term life insurance plans; dependent care assistance programs; qualified tuition reduction programs; cafeteria plans; fringe benefit programs providing no-additional-cost services, qualified employee discounts, or employer-operated eating facilities, the benefits from which are otherwise excludable from the gross income of the beneficiary; and plans to which section 505 applies. The list of specific kinds of plans contained in the proposed regulation that are of a type to which section 89(k) applies is not intended to be exhaustive.

The proposed regulation contains several special rules with respect to accident or health plans. In general, an accident or health plan is not subject to section 89(k) unless the employer-provided benefits under the plan are (or are intended to be) excludable from gross income under section 105(b) or (c). Thus, for example, sick pay and disability plans are generally not subject to the rules of section 89(k).

Because coverages under accidental death and dismemberment (AD&D plans) plans and business travel accidental death plans are eligible for the exclusion under section 106, benefits provided pursuant to such coverages are excludable under sections 101 and 105(c). Thus, such plans are subject to the provisions of section 89(k). The coverages and benefits under these plans, like other accident or health plans the coverage of which is excludable (or of a kind that is excludable) under section 106, may not be excluded under section 132. If a death benefit under an AD&D plan is not conditioned on the accidental death of the employee, that benefit is not part of an AD&D plan.

The proposed regulation states that a plan that is a part of an organization described in section 501(c)(9) or 501(c)(17) must meet the requirements of section 89(k) and that, to the extent that the plan provides benefits of the type provided by statutory employee benefit plans, such benefits must be considered in nondiscrimination testing under section 89. If a plan does not meet the requirements of section 89(k), the related organization is not exempt from tax under section 501(a). Section 89 applies to the plan that is part of a voluntary employees' beneficiary association (VEBA) even if the VEBA is a collectively bargained VEBA as described in section 505(a)(2).

Section 89(k)(1)(A) provides that a plan must be in writing. The proposed regulation provides that all of the material terms of a plan must be contained in a single written document. However, the document may incorporate material terms by reference to other documents rather than setting forth such terms in full. The proposed regulation also clarifies that a single written document may satisfy the writing requirement for several plans. Similarly, material terms contained in one document related to several plans may be incorporated in each of the single written documents for such plans. These rules have been included to give employers the flexibility to group their plans in written documents in various ways so long as all of the coverage is in fact in writing.

Both the proposed regulation and section 89 require that an employer's elections with respect to nondiscrimination testing be in writing. If any such election is not in writing it is waived. For example, if no testing year is designated in writing with regard to any health plan, all health plans must be tested on the calendar year. The nondiscrimination testing elections are not required to be in the single written document. Consequently, the failure to make an election in writing does not cause a plan to fail to meet the writing requirement.

The proposed regulation provides that a plan must be in writing prior to the first day on which coverage or benefits are available under the plan. There is a transition rule under which a plan is not required to meet the writing requirement of section 89(k) before the later of the beginning of the first day of the second plan year beginning after December 31, 1988, and the end of the 12-month period beginning on the first day of the first plan year that the plan is subject to section 89.

Section 89(k)(1)(B) provides that a plan must be legally enforceable. The intent of this provision is to ensure that the employer cannot exercise excessive discretion. Therefore, the proposed regulation provides that, in general, the conditions required for an employee to participate in or obtain a benefit under a plan must be definitely determinable and the employee must be able to compel the coverage or payment of benefits described in the plan. Except in certain circumstances, a plan fails the enforceability requirement if coverage or a benefit available under the plan is subject to the discretion of the employer, either in operation or under the terms of the plan. Nevertheless, the proposed regulation permits employer discretion relating to certain administrative acts. In addition, an employer generally may expand coverage on a retroactive basis if the employer memorializes such expansion in writing, provides notice of such expansion, and meets the permanence requirements of section 89(k) with regard to the expanded coverage. The fact that such limited employer discretion does not violate the enforceability requirement of section 89(k) does not mean that, under certain circumstances, such employer discretion would not cause the plan to fail the nondiscrimination tests of section 89, in particular the nondiscriminatory provisions test of section 89(d)(1)(C).

The proposed regulation contemplates that many cost containment features existing in the health care industry today do not violate the enforceability requirements of section 89(k). For example, a managed care program that allows an insurer to grant a benefit not otherwise available under the plan in lieu of a benefit described in the plan does not violate the enforceability requirement if the patient, the employer and the insurance company consent to such alternative, a physician recommends or concurs with such alternative, and the plan describes the possibility of such alternative as well as the general criteria under which such alternative is available and may be selected. Similarly, health benefits may be conditioned on a medical opinion of a physician.

The proposed regulation contains a transition rule with regard to the enforceability rules of section 89(k). A plan is not required to satisfy the enforceability rules outlined in the proposed regulation before the first day of the second plan year that the plan is subject to section 89.

Section 89(k)(1)(C) provides that employees must be provided reasonable notification of benefits available in a plan. The purpose of this requirement is to inform an individual who is eligible to participate in the plan of its essential features. Therefore, the proposed regulation requires that individuals eligible for coverage or benefits under a plan be provided with a summary explanation of these features, including directions concerning the method by which individuals may receive more information. Such notice must be given to an individual prior to the initial availability of coverage or benefits to such individual.

The proposed regulation states that the employer must provide the notice. In the case of a multiemployer plan, the plan administrator must provide the notice. Nevertheless, the notice requirements are satisfied if an insurance company or other health care insurer or provider (e.g., a health maintenance organization) provides the notice.

The proposed regulation provides a transition rule for the notice requirement for plan years commencing in 1989. Under this rule, an employer is not required to provide notice to employees for any such plan year until July 1, 1989. Thus, for example, an employer is first required to provide notice under section 89(k) with respect to a calendar year plan by July 1, 1989. Similarly, with respect to a plan that uses a September 1 through August 30 plan year, notice under section 89(k) is first required by September 1, 1989. The delay in the notice to employees under this rule does not preclude the transitional relief providing for a delay in the requirement that a plan be in writing.

The reporting, notification and written plan requirements under this regulation are in addition to, and not in lieu of, reporting, disclosure, notification and written plan requirements which may otherwise apply under Title I of the Employee Retirement Income Security Act of 1974 [1974-3 C.B. 1] or any other law.

Section 89(k)(1)(D) provides that a plan must be maintained for the exclusive benefit of employees. The purpose of the exclusive benefit requirement is to preclude an employer from extending its plan to individuals who have no current or prior employment-type relationship with the employer. The proposed regulation provides, in general, that a plan must be maintained for the exclusive benefit of those employees who are described in the plan as eligible to participate. A plan may fail this requirement by its terms or through its operation.

The proposed regulation provides rules concerning who may participate under a plan. In general, only individuals who are or who are treated as employees (or former employees) of the employer or who otherwise perform services for the employer may participate under a plan of the employer. The proposed regulation does not have any effect on any other existing or future eligibility rule concerning who may participate in a plan. Thus, for example, a self-employed individual described in section 401(c)(1) cannot be a participant in a cafeteria plan even though such individual is treated as an employee for purposes of section 89(k).

There is a transition rule relating to the applicability of the exclusive benefit requirement. The proposed regulation provides that an employer is not required to meet the exclusive benefit requirement until the first day of the second plan year that the plan is subject to section 89.

Section 89(k)(1)(E) requires that a plan must be established with the intention that it will be maintained for an indefinite period of time. The proposed regulation focuses on the operation of the plan, as opposed to the plan terms, in determining whether the plan was intended to be maintained for an indefinite period of time. Accordingly, if a plan is materially amended or terminated and the coverage has been in effect for at least a consecutive 12-month period, the requirement of section 89(k)(1)(E) is satisfied, regardless of any terms of the plan which may provide that the employer has the right to change or terminate the plan. However, if a plan is materially amended or terminated before the coverage has been in effect for a consecutive 12-month period, the plan is considered to have been established with the intent of being temporary, unless the employer can demonstrate that there is a substantial business purpose for such termination or amendment.

The proposed regulation contains several rules relating to the sanction under section 89(k). In general, the proposed regulation provides that if a plan fails to satisfy the qualification requirements of section 89(k), the value of the employer-provided benefits received (rather than the value of the coverage provided), is not excludable from gross income. Thus, for example, the exclusions provided in sections 101 and 105 are generally not available with respect to benefits provided under an accident or health plan. All employees who receive benefits are subject to this sanction without regard to whether they are highly compensated employees within the meaning of section 414(q).

The proposed regulation contains a rule that allows correction of failures to comply with section 89(k) in certain circumstances. If there is a de minimis failure to comply with certain requirements, the employer may correct the failure within 90 days of its occurrence. If the employer timely corrects the failure, the plan does not fail section 89(k) merely because of such failure. A failure is not de minimis under this rule if correction requires the amendment of the plan document to reduce coverage on a retroactive basis to conform the document to the operation of the plan.

The proposed regulation clarifies the definition of a plan with respect to the sanction under section 89(k). In the case of a health plan, to the extent that the coverage providing the benefit taxable by reason of section 89(k) may reasonably be separated from other plan coverage, the proposed regulation permits the failed portion of the plan to be treated as a separate plan.

The proposed regulation provides for a limitation on the amount that must be included in the income of an employee as a result of section 89(k). The limitation is the sum of the following (dollar amounts are indexed in accordance with section 414(q)(1)(C)): 10 percent of the first $50,000 of the employee's compensation; 25 percent for amounts of such compensation in excess of $50,000 and up to $100,000; 75 percent for amounts of such compensation in excess of $100,000 and up to $150,000; and 100 percent of compensation in excess of $150,000. In addition, the Commissioner, through revenue rulings, notices or other publication of general applicability, is authorized to adjust the amounts of the sanction where such adjustment is appropriate and is not inconsistent with the purposes of section 89(k). Section 213 governs whether the amount includible in income as a result of section 89(k) is deductible.

If the sanction under section 89(k) is imposed with regard to a benefit under coverage that is determined under section 89(a) to discriminate in favor of a highly compensated employee, the proposed regulation provides for the coordination of the two sanctions. In general, the higher of the two taxable amounts must be included in the gross income of the highly compensated employee.

4. *Miscellaneous matters relating to section 125.*

Proposed §1.125-2 contains seven questions and answers that supplement and, in part, update the questions and answers contained in proposed regulations under §1.125-1 that were published on May 7, 1984 (49 FR 19321), and amended on December 31, 1984 (49 FR 50733). Q&A-1 of proposed §1.125-2 provides that Q&A-2 through Q&A-6 of that section are generally effective in accordance with the effective date provisions of section 89 (generally plan years commencing after December 31, 1988). In addition, Q&A-1 provides that Q&A-7 of proposed §1.125-2 (relating to flexible spending arrangements subject to sections 106 and 105) applies to plan years beginning after December 31, 1989.

Many of the questions and answers under §1.125-2 clarify previously proposed §1.125-1 as well as §1.125-2T of the Temporary Regulations published on February 4, 1986 (51 FR 4318). To the extent the provisions of proposed §1.125-2 clarify the provisions of proposed §1.125-1 or §1.125-2T and are less restrictive, the Service will apply them as if contained in those regulations. However, consistent with the statement in the preamble to the May 7, 1984 Notice of Proposed Rulemaking, to the extent that the provisions of proposed §1.125-2 clarify the provisions of proposed §1.125-1 and §1.125-2T and are more restrictive, the Service will apply them only as set forth in Q&A-1 of proposed §1.125-2.

Q&A-2 and Q&A-3 of the proposed regulation under §1.125-2 restate the general requirements of section 125. Q&A-4 sets forth what benefits are treated as qualified benefits and what benefits constitute cash under a cafeteria plan. For example, Q&A-4 provides that a benefit that is taxable because it is determined to be an excess benefit under section 89(b) or because the plan fails to satisfy section 89(k) remains a qualified benefit under section 125. As a result of this provision a cafeteria plan may provide such taxable benefits.

The proposed regulation provides further guidance with regard to the rule that a cafeteria plan may not operate to defer compensation. Thus, under Q&A-5, to the extent that a benefit carries over to the following plan year, such benefit may not be offered under a cafeteria plan. For example, life or health insurance with a savings or investment feature (e.g., so-called whole-life or whole-health insurance) may not be offered in a cafeteria plan. Q&A-5 also contains a rule to determine the extent to which the inclusion of elective vacation days under a cafeteria plan operates to permit the deferral of compensation.

A cafeteria plan may permit employees to make elective contributions under a qualified cash or deferred arrangement described in section 401(k). Similarly, a cafeteria plan does not impermissibly allow the deferral of compensation merely because, as an option under the plan, employees may make after-tax employee contributions under a qualified plan that is subject to section 401(m). Finally, the deferred compensation prohibition does not prevent an employer from providing employer matching contributions subject to section 401(m) with respect to elective contributions under section 401(k) or after-tax employee contributions subject to section 401(m).

Q&A-6 clarifies and expands the rule contained in proposed §1.125-1 concerning when an employee may revoke a benefit election and make a new election under a cafeteria plan. In general, Q&A-6 provides that a plan may allow such a revocation and subsequent election in the following circumstances: when a third-party health care insurer or provider significantly increases the cost to the employee of coverage or significantly curtails or ceases coverage; when the participant has a change in family status; or when the participant has separated from service. In addition, a cafeteria plan may provide that a benefit ceases if the participant has ceased making required premium payments. Finally, a cafeteria plan may allow a revocation or modification with respect to elective contributions subject to section 401(k) and after-tax employee contributions subject to section 401(m), to the extent such modification or revocation is permitted under section 401(k) or 401(m).

Q&A-7 contains special rules applicable to health plans that are flexible spending arrangements (FSAs). These rules are intended to protect the integrity of the distinction between the taxable treatment of personal medical expenses (subject to the rules of section 213) and the more favorable tax treatment of employer-provided health plan coverage and benefits under section 106 or 105, including benefits received under employee-purchased accident or health coverage under section 104.

In general, if a health plan has a low maximum limitation on benefits and the amount of the premium for coverage is the same or similar to this limitation on benefits, there is a significant concern that the plan operates primarily to exclude from income amounts paid for personal medical expenses that would otherwise only be deductible under section 213 to the extent that they exceed 7.5 percent of adjusted gross income. This concern is greater if, with respect to such plan, there is no person, such as an employer or insurance company, who bears a risk of experience loss with respect to the health plan and thus has an interest in regulating the arrangement to minimize adverse selection and substantiate claimed expenses. In order to limit the extent to which health FSAs effectively operate to exclude amounts paid for personal medical expenses, Q&A-7 applies requirements to health FSAs that are similar to the requirements that an independent health insurer with a meaningful risk of loss would apply to protect against adverse selection and the inappropriate reimbursement of expenses. Thus, the requirements in the proposed regulation are consistent with those features that are commonly associated with arrangements that exhibit the basic risk-shifting and risk-spreading characteristics of insurance.

Q&A-7 clarifies that an employee's salary reduction contributions under a health FSA are payments of a premium by the employee for health coverage with respect to which the maximum reimbursement amount is the same or similar to the amount of the required premium. Therefore, health FSAs are bona fide plans and are not separate, employee-by-employee, health expense reimbursement accounts that operate in a manner similar to employee-funded, defined contribution plans. The maximum amount of reimbursement available under a health FSA at any particular time with respect to an individual cannot be based on the amount of premium that the individual has paid as of such time. Rather, the maximum reimbursement amount must be uniform throughout the coverage period. In addition, health FSAs cannot reimburse employees for premiums for other health coverage. Finally, because there is no party directly involved in an FSA with an interest in assuring that claims are bona fide, the proposed regulation imposes certain claims substantiation requirements for FSAs.

Under the proposed regulation, experience gains under health FSAs (i.e., premiums in excess of claims paid plus expenses) may be treated as gains under bona fide health plans. Thus, such gains may be available to pay reasonable and bona fide dividends or premium refunds to the premium payers. Similarly, experience gains may be used to reduce required premiums for coverage in future years. For example, experience gains for one year may be used in a second year to permit the health FSA to charge all eligible employees only a $490 premium for coverage with a $500 reimbursement maximum. In no case, however, may the treatment of experience gains under a health FSA have the effect, directly or indirectly, of reimbursing employees based on their individual claims.

RELIANCE ON THESE PROPOSED REGULATIONS

Taxpayers may rely on these proposed regulations for guidance pending the issuance of final regulations. Because these proposed regulations are generally effective for years beginning after December 31, 1988, the Service will apply these proposed regulations in issuing rulings and in examining returns with respect to taxpayers and plans after that date. If future regulations are more restrictive than these proposed regulations, such regulations will be applied without retroactive effect.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required. Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, the proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

TABLE OF CONTENTS

LIST OF SUBJECTS IN 26 CFR 1.61-1 through 1.281-1

Deductions, Exemptions, Income taxes, Taxable income.

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

INCOME TAX REGULATIONS (26 CFR Part 1)

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 §§1.89(a)-1 and 1.89(k)-1 also issued under 26 U.S.C. 89(m).

Par. 2. New §§1.89(a)-1 and 1.89(k)-1 are added immediately after §1.88-1 to read as follows:

§1.89(a)-1 Miscellaneous questions and answers relating to nondiscrimination rules for certain employee benefit plans.

The following is a list of the questions addressed in this section:

Q-1: What are the section 89 nondiscrimination rules?

Q-2: What transitional and special rules are available to health plans under section 89?

Q-3: Under what circumstances may employees be disregarded for purposes of section 89 when the employees receive health coverage from other employers or when employees do not have a family or have a family whose members receive health coverage from another employer?

Q-4: What is a health plan under the section 89 nondiscrimination rules and to what extent are health plans comparable or aggregated for purposes of such rules?

Q-5: What is the testing methodology for applying the nondiscrimination rules under section 89?

Q-6: What is the period for testing whether the

nondiscrimination rules of section 89 are satisfied?

Q-7: For purposes of applying section 89 to an employer's health plan, what rules apply for determining the employer-provided benefits and calculating the excess benefits?

Q-8: How are salary reduction contributions treated for purposes of the section 89 nondiscrimination tests?

Q-9: How is an excess benefit under the section 89 nondiscrimination rules to be determined with respect to health plans?

Q-10: What are the effective dates of the section 89 nondiscrimination and qualification rules?

Q-1: What are the section 89 nondiscrimination rules?

A-1: (a) *Nondiscrimination rules*—(1) *In general.* Section 89(a) provides that, notwithstanding any other provision of the tax law specifically excluding items from gross income (e.g., sections 79 and 106), the gross income of a highly compensated employee (as defined in section 414(q)) includes an amount equal to the employee's employer-provided benefit that is found to be discriminatory under the rules provided in this section. See paragraph (f)(3) of this Q&A-1 for the definition of "employer-provided benefit" for these nondiscrimination rules. The nondiscrimination requirements of section 89(a), however, do not affect the exclusion from gross income of death benefits under section 101(a) and accident and health benefits under sections 104 and 105.

(2) *Timing of inclusion and deduction.* The excess benefit for a testing year generally is treated as received on the last day of the testing year. Thus, the excess benefit for a testing year generally is included in a highly compensated employee's gross income for the employee's taxable year with or within which the testing year ends. Similarly, the excess benefit for a testing year generally is treated as paid by the employer on the last day of the testing year. Thus, the excess benefit for a testing year is deductible by the employer only for the taxable year of the employer with or within which the testing year ends. Also, for purposes of determining the deductibility of both employer-provided benefits that are not excess benefits and employer-provided benefits that are excess benefits, excess benefits are deemed to be attributable to the employer-provided benefits provided latest during the testing year. For purposes of determining the treatment of excess benefits under section 404, excess benefits are treated as paid under a plan or arrangement that defers the receipt of compensation or benefits to the extent that, under the rule of this paragraph (a)(2), the excess benefits are received after the end of the employer's taxable year in which the services creating the right to such compensation or benefits are performed. For these purposes excess benefits are deemed to be attributable to employees' services performed latest in such testing year. Excess benefits are treated as paid under such a plan or arrangement even if they are received not more than a brief period (e.g., 2½ months) after the end of the employer's taxable year (see §1.404(b)-1T) and even if the employer elects the rule of section 89(a)(2)(B) with respect to excess benefits. An employer's election of the rule of section 89(a)(2)(B) for a testing year must be made in writing by January 31 of the first calendar year following the calendar year in which the testing year ends. Such election, when made, must apply for all plans of the same type.

(b) *Discriminatory employee benefit plan*—(1) *In general.* A statutory employee benefit plan is a discriminatory employee benefit plan for a testing year unless, for such year, the plan satisfies the requirements of paragraphs (c) and (d) of this Q&A-1. Alternatively, in lieu of the requirements of paragraph (d) of this Q&A-1, an employer may elect to apply the requirements of paragraph (e) of this Q&A-1 to a statutory employee benefit plan. However, for testing years beginning in 1989, a statutory employee benefit plan is not treated as a discriminatory employee benefit plan for purposes of section 4976 if the excess benefits with respect to such plan are properly reported in accordance with section 89(l).

(2) *Disability coverage.* Generally, a plan (or portion thereof) that provides disability coverage is not subject to the requirements of paragraphs (c), (d) or (e) of this Q&A-1 for a testing year and, thus, may not be taken into account in determining whether any other accident or health plan satisfies the requirements of such paragraphs. For example, short-term sick pay, short-term and long-term disability plans, worker's compensation plans (as defined in paragraph (f)(1)((v) of this Q&A-1), plans described in section 104(a)(4) and (5) and similar wage continuation plans are not subject to the requirements of paragraphs (c), (d) or (e) of this Q&A-1, even if there are significant employer-provided benefits with respect to such plans. This paragraph (b)(2) does not apply with respect to disability coverage the benefits of which are excludable from gross income under section 105(b) or (c).

(3) *No employer-provided benefit.* If there is no employer-provided benefit (other than by reason of coverage under such plan being considered excess benefit) for a testing year, with respect to a plan that is otherwise subject to the nondiscrimination rules of section 89, such plan is not subject to the requirements of paragraphs (c), (d) or (e) of this Q&A-1 for such testing year. See Q&A-7 of this section to determine a plan's employer-provided benefit. An employer cannot take into account a plan (or portion thereof) providing no employer-provided benefit in determining whether other plans meet the requirements of paragraphs (c), (d) or (e) of this Q&A-1.

(4) *Employers with only highly compensated employees.* A statutory employee benefit plan is not subject to the requirements of paragraphs (c), (d) or (e) of this Q&A-1 for a testing year if such plan is maintained by an employer that, for such year, only has employees who are highly compensated employees.

(c) *Nondiscriminatory provisions requirement*—(1) *In general.* A plan satisfies the requirement of this paragraph (c) and section 89(d)(1)(C) only if the plan does not contain any provision that (by its terms, operation, or otherwise) discriminates in favor of highly compensated employees. In making this determination, an employer must take into account all plans of the same type. For purposes of this requirement, an employer's election with respect to testing (e.g., designation of a testing day) is subject to the nondiscriminatory provisions requirement even though it is not required to be in the single written document required under section 89(k)(1)(A).

(2) *Waiting periods under core health plans.* If an employer has two or more core health plans with different waiting periods, the core health plans do not satisfy the nondiscriminatory provisions test of this paragraph (c) unless each plan satisfies the 50 percent eligibility test of paragraph (d)(3) of this Q&A-1 either on an individual basis or by inclusion in a group of comparable plans, under paragraph (b) of Q&A-4 of this section, that includes only one or more additional core health plans that have the same or shorter waiting periods. If a plan fails to satisfy this paragraph (c) by reason of this paragraph (c)(2), the excess benefit attributable to this failure is the employer-provided benefit under the plan that relates to the period of coverage that prevents the plan from being included in a group of comparable plans under the preceding sentence.

(3) *Examples.* The provisions of this paragraph (c) are illustrated in the following examples:

Example 1. Assume that an employer has 25 employees, 5 of whom are highly compensated employees. Two of the 20 nonhighly compensated employees have families. The employer provides employee-only health coverage with an employer-provided benefit of $2,000 to all employees, and provides the highly compensated employees with an additional plan providing employee-only coverage with an employer-provided benefit of $2,200. In addition, the employer provides family-only health coverage (with an employer-provided benefit of $2,000) to all of the nonhighly compensated employees, but makes such family-only coverage available to the highly compensated employees only if they pay the total cost of such coverage on an after-tax employee contribution basis. Thus, the highly compensated employees receive no employer-provided benefit with respect to such family-only coverage. The employer decides to treat all of its employees as having a family (see Q&A-3 of this section). The family-only coverage that is treated as received by employees without families may be used under the comparability rule of paragraph (c)(2) of Q&A-4 of this section to support the additional $2,200 employee-only coverage provided to highly compensated employees. Although after the application of the comparability rule, the $2,200 employee-only coverage for the highly compensated passes the 80 percent coverage test set forth in paragraph (e) of this Q&A-1, the nondiscriminatory provisions test is violated. This is because the coverage of 18 of the 20 nonhighly compensated employees is not meaningful because they are not in fact receiving benefits under the family-only coverage.

Example 2. A school district selects July 1 as its testing day. On that day, the school district has no part-time employees and only administrative personnel, regular faculty and maintenance personnel on its payroll. The designation of July 1 as the testing day does not constitute the designation of a testing day that is fairly representative of the employee pool and business operation of the school district and, therefore, such designation violates the nondiscriminatory provisions test.

Example 3. An employer that operates a department store selects July 1 as its testing day. Traditionally, the number of the employees employed by the employer on July 1 does not reasonably reflect the number of the employer's employees employed during most of its fiscal year. This designation violates the nondiscriminatory provisions test.

Example 4. Assume that an employer maintains numerous health plans (both core and noncore plans) for its 5,000 employees. All but one core health plan, Plan X, provides for a 3-month waiting period for new employees. Plan X provides coverage after 1 month of employment for certain executive personnel. This 1-month waiting period provision violates the nondiscriminatory provisions test of this paragraph (c) unless Plan X satisfies the 50 percent eligibility test of paragraph (d)(3) of this Q&A-1 either on an individual basis or by inclusion with another core health plan or plans with the same or shorter waiting periods in a group of comparable plans under paragraph (b) of Q&A-4 of this section. If the 1-month waiting period provision fails the nondiscriminatory provisions test of this paragraph (c), then the employer-provided benefit under Plan X that relates to coverage for the period between the first and third months of employment is treated as an excess benefit of each highly compensated employee eligible for coverage under Plan X after 1 month of employment.

(d) *Eligibility and benefit requirements*—(1) *In general.* A plan satisfies the requirements of this paragraph (d) only if the tests of paragraphs (d)(2), (d)-(3), and (d)(4) of this Q&A-1 are satisfied.

(2) *90 percent/50 percent eligibility test*—(i) *In general.* A plan satisfies this test only if at least 90 percent of all nonhighly compensated employees have available under all plans of the same type an employer-provided benefit that is at least 50 percent of the largest employer-provided benefit available under all such plans to any highly compensated employee. To the extent that an employee is eligible to be covered under two or more plans of different types (see paragraph (f)(2)(i) of this Q&A-1), but not fully under all such plans, the employee cannot be treated as eligible for the full employer-provided benefit of each plan for purposes of the 90 percent/50 percent test. Instead, the employer must use a reasonable, uniform, and nondiscriminatory allocation method to allocate to such employee only a reasonable portion of each plan's full employer-provided benefit. Whether a plan is available to an employee is determined under all of the facts and circumstances. For example, an HMO at a location distant from the location of the employer might not, under the facts and circumstances, be reasonably available to employees at the location of the employer. See Q&A-8 of this section for the treatment of salary reduction contributions under this test. Also, see Q&A-2 of this section for a transition rule for the 1989 testing year.

(ii) *Example.* The provisions of this paragraph (d)(2) are illustrated in the following example:

Example. An employer has 12 employees, 10 of whom are nonhighly compensated employees. The employer maintains two health plans. Plan A has an employer-provided benefit of $1,000 It is available to 9 of the 10 nonhighly compensated employees and both of the highly compensated employees. Plan B, a dental plan,has an employer-provided benefit of $500. It is available only to the two highly compensated employees. The health plans meet the requirements of this paragraph (d)(2). This is the result since 90 percent of the nonhighly compensated employees (9 of 10) have available to them an employer-provided benefit of $1,000, which is more than 50 percent of $1,500, the largest employer-provided benefit available to any highly compensated employee. Note that the dental plan in this example fails the 50 percent eligibility test set forth in paragraph (d)(3) of this Q&A-1.

(3) *50 percent eligibility test*—(i) *In general.* A plan satisfies this test only if the plan satisfies the requirement of either paragraph (d)(3)(ii) or paragraph (d)(3)(iii) of this Q&A-1. An employee is eligible to participate in a plan only if, under all of the facts and circumstances, the employee is reasonably eligible to participate in such plan. See Q&A-4 of this section with respect to rules relating to the comparability and aggregation of health plans.

(ii) *50 percent eligibility.* A plan satisfies the requirement of this paragraph (d)(3)(ii) only if at least 50 percent of the employees eligible to participate in the plan are nonhighly compensated employees.

(iii) *Nondiscriminatory ratio.* A plan satisfies the requirements of this paragraph (d)(3)(iii) only if the highly compensated eligibility percentage does not exceed the nonhighly compensated eligibility percentage. The highly compensated eligibility percentage is the percentage determined by dividing the number of highly compensated employees eligible to participate in the plan by the total number of highly compensated employees. The nonhighly compensated eligibility percentage is the percentage determined by the same method substituting nonhighly compensated employees for highly compensated employees.

(iv) *Example.* The provisions of this paragraph (d)(3) are illustrated in the following example:

Example. An employer maintains a plan providing for medical diagnostic examinations to a group of management personnel. Of this group, 10 percent are nonhighly compensated employees. Unless the plan can be treated as part of a group of comparable plans that passes the 50 percent eligibility test (see paragraph (b) of Q&A-4 of this section), the plan fails the tests described in this paragraph (d)(3).

(4) *75 percent benefits test*—(i) *In general.* A plan satisfies the test of this paragraph (d)(4) only if the average employer-provided benefit actually received under all plans of the same type by nonhighly compensated employees is at least 75 percent of the average employer-provided benefit actually received under all plans of the same type by highly compensated employees. See paragraph (f)-(2)(ii) of this Q&A-1 for a rule under which, in certain circumstances, plans that are not of the same type may be treated as plans of the same type for purposes of this paragraph (d)(4). Also, see Q&A-2 of this section for transition rules for the 1989 and 1990 testing years.

(ii) *Example.* The provisions of this paragraph (d)(4) are illustrated in the following example:

Example. An employer has 5 highly compensated employees and 15 nonhighly compensated employees. The employer maintains only one health plan with an employer-provided benefit of $1,500. All of the highly compensated employees and 10 of the nonhighly compensated employees participate in the plan. The employer's health plan does not meet the requirements of this paragraph (d)(4) since the average employer-provided benefit of the nonhighly compensated employees is only $1,000 ((10 × $1,500)/15), and this amount is less than 75 percent of the average employer-provided benefit of the highly compensated employees, which is $1,500 ((5 × $1,500)/5). In order to meet the requirements of this paragraph (d)(4), the average employer-provided benefit of the nonhighly compensated employees must be at least $1,125

(75 percent of $1,500) or the average employerprovided benefit of the highly compensated employees must be no more than $1,333.33 ($1000 is 75 percent of $1333.33).

(e) *80 percent coverage test.* A plan that is a health plan or a group-term life insurance plan satisfies the requirements of this paragraph (e) only if at least 80 percent of the nonhighly compensated employees are covered under such plan and the plan meets the requirements of paragraph (c) of this Q&A-1 (the nondiscriminatory provisions test). Plans of the same type may pass the 80 percent test separately or together (e.g., by reason of health plans being comparable). See Q&A-4 of this section with respect to rules relating to comparability and aggregation. If any of an employer's plans of the same type are tested under this paragraph (e), all plans of the same type must be tested under the requirements of this paragraph (e). The employer must elect in writing to use this 80 percent test.

(f) *Definitions*—(1) *Statutory employee benefit plan*—(i) *In general.* The term "statutory employee benefit plan" means an accident or health plan (within the meaning of sections 106 and 105) or a group-term life insurance plan (within the meaning of section 79). Also, under section 89(i)(2), an employer may treat certain other plans as statutory employee benefit plans.

(ii) *Health plan.* In general, the term "health plan" means an accident or health plan under section 105 or 106, except to the extent the plan is a disability plan (see paragraph (b)(2) of this Q&A-1). In addition, a plan that provides payments for accidental death and dismemberment, or business travel accident insurance, is an accident or health plan because coverage under such plan is eligible for the exclusion under section 106. Furthermore, plan that provides for medical diagnostic procedures or physical examination is an accident or health plan because the plan is eligible for the exclusion under section 106.

(iii) *Church plans.* The term "statutory employee benefit plan" does not include a plan maintained by a church (as defined in section 3121(w)(3)(A)), including a qualified church-controlled organization within the meaning of section 3121(w)(3)(B)), if the plan is maintained exclusively for clergy and church employees, and their spouses and dependents.

(iv) *Plans maintained by governments.* A plan does not fail to be a statutory employee benefit plan merely because it is maintained by a state or local government or political subdivision or instrumentality thereof, by the District of Columbia, or by the federal government or a political subdivision or instrumentality thereof.

(v) *Worker's compensation.* The term "statutory employee benefit plan" does not include a worker's compensation plan that pays amounts from a sickness and disability fund maintained for employees under the laws of the United States, a state or the District of Columbia (i.e., a fund maintained pursuant to a worker's compensation act or statute in the nature of a worker's compensation act, the benefits from which are excludable under section 104(a)(1)). Thus such a plan is not subject to the nondiscrimination requirements of section 89. An employer may not take into account a worker's compensation plan (or portion thereof) in determining whether other plans meet the requirements of paragraphs (c), (d) or (e) of this Q&A-1. However, accident or health plans maintained by a government (as defined in paragraph (f)(1)(iv) of this Q&A-1) that provide benefits that are excludable from the income of the employee solely by reason of section 105(b) or (c) are not worker's compensation plans within the meaning of the first sentence of this paragraph (f)(1)(v) and thus are subject to the nondiscrimination requirements of section 89.

(2) *Plans of the same type*—(i) *In general.* Two or more plans are treated as plans of the same type if all of such plans are included in only one of the following categories: accident or health plans (sections 106 and 105); group-term life insurance (section 79); qualified group legal services plans (section 120); educational assistance programs (section 127); or dependent care assistance programs (section 129).

(ii) *Election.* For purposes of applying the requirements of paragraph (d)(4) of this Q&A-1 (the 75 percent benefits test) to plans of the same type other than health plans for a testing year, an employer may elect in writing to treat all plans of the types specified in the election as plans of the same type. Although this election is not available for purposes of determining whether the health plans of the employer satisfy the 75 percent benefits test, if such plans satisfy the 75 percent benefits test they may be taken into account in determining whether plans of the same type (e.g. group-term life insurance plans), other than health plans, satisfy such test. For any testing year, if an employer elects to take health plans into account in determining whether two or more plans of another type or types satisfy the 75 percent benefits test, all of the employer's health plans must be taken into account with all other plans of the type or types subject to the election. Thus, for example, if an employer elects to take its health plans into account in testing its group-term life insurance plans and dependent care assistance programs for purposes of the 75 percent benefits test, all such plans must be tested on an aggregated basis under the 75 percent benefits test.

(3) *Employer-provided benefit.* In the case of any health or group-term life insurance plan, the employer-provided benefit for purposes of this section is the value of the coverage under the plan that is attributable to employer contributions. For example, in the case of a health plan, the employer-provided benefit is the employer-provided portion of the value of the entitlement to receive payment on account of personal injury or sickness including medical care or reimbursements of specified medical expenses or other medical benefits, subject to various conditions and limits, rather than the value of the reimbursements, products, services and other benemployreceived pursuant to the health coverage. See Q&A-7 of this section for guidance relating to the value of health coverage. See section 89(g)(3)(C) for rules with respect to the value of coverage under a group-term life insurance plan. In the case of any other statutory employee benefit plan, an employee's employer-provided benefit under section 89 is the employer-provided portion of the value of the reimbursements, products, services and other benefits provided under the plan (rather than the value of the coverage or the entitlement to such benefits).

(4) *Highly compensated employee.* The term "highly compensated employee" is defined as that term is defined in section 414(q). For purposes of determining who is a highly compensated employee under section 89, the testing year is the determination year.

(5) *Nonhighly compensated employee.* The term "nonhighly compensated employee" is defined as each employee other than a highly compensated employee.

(6) *Employee*—(i) *In general.* The term "employee" generally means an individual who performs service for the employer maintaining the plan and who is either a common law employee of the

employer, a self-employed individual treated as an employee under section 401(c)(1), or an individual who is treated as an employee with respect to the employer for purposes of the provision (e.g., section 106) that provides for the exclusion of the benefit being tested under section 89.

(ii) *Leased employees*—(A) *In general.* The term "employee" includes a leased employee who is treated as an employee of the employer-recipient pursuant to the provisions of section 414(n)(1)(A) or section 414(o)(2) and the regulations thereunder. In general, section 414(n) applies with respect to employee benefit plans covered by section 89 in the same manner as it applies with respect to qualified plans covered by section 401(a). Thus, the rule of section 414(n)(1)(B) permitting a recipient to take into account certain benefits provided by a leasing organization is available with respect to benefits subject to section 89. The safe harbor exception of section 414(n)(5), however, is not available with respect to section 89. In addition, the rule of §1.414(n)-1(b)(10) regarding services performed on a "substantially full-time basis" is to be applied by appropriately adjusting the hour of service requirements to reflect the 6-month period of service requirement. Nevertheless, a leaseemployoyee may be disregarded by an employer-recipient when testing its health plans if the employer-recipient treats the health coverage received by the leased employee from the leasing organization as health coverage received from another employer and, on such basis, applies the rules of Q&A-3 of this section with respect to such leased employee. Notwithstanding the immediately preceding sentence, no leased employee described in this paragraph (f)(6)(ii) may be disregarded as having coverage from another employer unless the value of employer-provided core health benefits actually received by the leased employee from the leasing organization under its plan is at least 50 percent as valuable as the highest employer-provided core health benefit available to any highly compensated employee of the employer-recipient.

(B) *Additional rules.* The differing natures of employee benefit plans covered by section 89 and qualified plans covered by section 401(a) may require different rules in certain circumstances. The Commissioner may provide such rules, to the extent appropriate, through revenue rulings, notices, and other guidance of general applicability.

(iii) *Excluded employees.* In general, the term "employee" does not include employees who are excluded employees under section 89(h) and thus who are excluded from consideration in applying the nondiscrimination rules of section 89 with respect to other employees. For example, employees who are included in a unit of employees covered by a collective bargaining agreement are excluded employees only if there is evidence that the type of benefits provided under the plan being tested under section 89 was the subject of good faith bargaining and no employee in such collective bargaining unit of employees is eligible to receive or does receive any benefit under the plan or any plan of the same type.

(7) *Core health benefits.* Except as provided otherwise in this section, the terms "core health benefits," "core health coverage," and "core health plan" generally refer to coverage providing comprehensive major medical and hospitalization benefits and similar types of health benefits. Dental care, vision care, accidental death and dismemberment, and disability coverage are examples of health benefits that generally are not core health plans. Also, any health coverage provided through a flexible spending arrangement (as defined in Q&A-7 of §1.125-2) is not a core health benefit.

(g) *Written election.* In general, unless specifically provided otherwise, an election required to be in writing under this section must be in writing by January 31 of the first calendar year following the calendar year in which excess benefits for the testing year (without regard to whether there are such excess benefits for such year) would be treated as received under paragraph (a)(2) of this Q&A-1. However, if an employer makes an election under section 89(a)(2)(B) to delay the inclusion of excess benefits in income for one year, then any other written elections must be in writing by January 31 of the first calendar year following the calendar year in which excess benefits for the testing year (without regard to whether there are such excess benefits for such year) are treated as received under paragraph (a)(2) of this Q&A-1. See Q&A-1(a)(2) for the time for making the section 89(a)(2)(B) election. The elections must be written in a manner that will allow a reconstruction of the employer's method of testing.

Q-2: What transitional and special rules are available to health plans under section 89?

A-2: (a) *Transition rule for 75 percent benefits test*—(1) *In general.* With respect to the 1989 and 1990 testing years, an employer's health plans are deemed to satisfy paragraph (d)(4) of Q&A-1 of this section (the 75 percent benefits test) with respect to active employees for a testing year if the requirements of paragraphs (a)(2), (a)(3), and (a)(4) of this Q&A-2 are satisfied with respect to such testing year.

(2) *Testing years ending in 1989 and 1990.* The requirement of this paragraph (a)(2) is satisfied only if the testing year ends in either the 1989 calendar year or the 1990 calendar year. For purposes of this paragraph (a), a testing year that ends in 1989 is a 1989 testing year and a testing year that ends in 1990 is a 1990 testing year.

(3) *Employer election.* The requirement of this paragraph (a)(3) is satisfied only if the employer elects in writing the application of the transition rule in this paragraph (a) with respect to a testing year.

(4) *Includible coverage for applicable group of employees*—(i) *In general.* The requirement of this paragraph (a)(4) is satisfied for a testing year only if the employer-provided benefits (including the portion attributable to salary reduction contributions) under all health plans of the employer received by the applicable group of employees for the testing year are treated as excess benefits for such testing year. If an employer makes an election under paragraph (a) of this Q&A-2, then in determining whether the requirements of paragraphs (d)(2) and (d)(3) of Q&A-1 of this section (the 90 percent/50 percent eligibility test and the 50 percent eligibility test, respectively) are met, the employer may treat benefits that are includible in gross income by reason of this paragraph (a)(4) as attributable to after-tax employee contributions.

(ii) *Applicable group of employees*—(A) *1989 testing year.* For a 1989 testing year, the applicable group of employees includes all active employees of the employer for such year who had more than a 5 percent ownership interest in the employer (determined in accordance with section 416(i)) at any time between January 1, 1988, and the end of the testing year, and the applicable number of the highly compensated active employees of the employer who receive the most compensation for the 1989 testing year. The applicable number for the preceding sentence is the number of employees representing 20 percent of the highly compensated active employees of the employer for the testing year, but in no event greater than 1,000 highly compensated employees and in no event less than 10 employees (or the total number of highly compensated employees of the employer if less than 10).

(B) *1990 testing year*. For a 1990 testing year, the applicable group of employees includes all highly compensated active employees of the employer for such year who had more than a 5 percent ownership interest in the employer (determined in accordance with section 416(i)) at any time between January 1, 1989, and the end of the testing year, and the applicable number of highly compensated active employees of the employer (or all highly compensated active employees if the employer has fewer than the applicable number of such employees) who receive the most compensation for the 1990 testing year. The applicable number for the preceding sentence is the number of employees representing 40 percent of the highly compensated active employees of the employer for the testing year, but in no event greater than 2,000 highly compensated employees and in no event less than 50 employees (or the total number of highly compensated employees of the employer if less than 50).

(C) *Compensation*. For purposes of identifying those highly compensated employees who receive the greatest amount of compensation, "compensation" means "compensation" as defined in section 414(q)(7). In the case of two or more employees with the same amount of compensation, the employer may decide which of such employees is to be treated as receiving more compensation.

(b) *Transition rule for 90 percent/50 percent eligibility test*. If an employer's health plans are deemed to satisfy paragraph (d)(4) of Q&A-1 of this section (the 75 percent benefits test) by reason of paragraph (a) of this Q&A-2 for a testing year ending in 1989, then, for such testing year, such employer may elect in writing to apply the 90 percent/50 percent eligibility test of paragraph (d)(2) of Q&A-1 of this section with respect to active employees for such testing year by substituting "80 percent" for "90 percent" and by substituting "66 percent" for "50 percent" (i.e., the test may be treated as an 80 percent/66 percent eligibility test). The rule of this paragraph (b) is not applicable for purposes of determining excess benefits under section 89(b).

(c) *Special rule for certain large employers*—(1) *In general*. An employer's health plans are deemed to satisfy the requirements of paragraph (d) of Q&A-1 of this section (the eligibility and benefit requirements) with respect to active employees for a testing year if all of the requirements of paragraphs (c)(2) through (c)(7) of this Q&A-2 are satisfied for such testing year. In applying the requirements of paragraphs (c)(2) through (c)(7) of this Q&A-2, only nonexcludable employees are taken into account and, for such purpose, the excluded employee rules of section 89(h)(1)(A), (B), (C), and (D) are to be applied without regard to the last sentence of section 89(h)(1) and without regard to sections 89(h)(2) and 89(h)(3). Thus, for example, differences in eligibility waiting periods do not result in the loss of an employee's status as an excludable employee to the extent that the period with respect to such employee does not exceed the maximum period allowed under section 89(h) (e.g., 6 months for core health coverage). The nondiscriminatory provisions test of paragraph (c) of Q&A-1 of this section does not apply to waiting periods under core health plans as discussed in paragraph (c)(2) of Q&A-1 of this section with respect to plans tested under this paragraph (c). The rules of this paragraph (c) are not applicable for purposes of determining excess benefits under section 89(b).

(2) *Employer election*. The requirement of this paragraph (c)(2) is satisfied with respect to a testing year only if the employer elects in writing the application of the rule of this paragraph (c) with respect to such testing year. If any of an employer's health plans are tested under this paragraph (c), all of such employer's health plans must be tested under this paragraph (c).

(3) *Minimum number of employees*. The requirement of this paragraph (c)(3) is satisfied for a testing year only if the employer employs at least 5,000 active employees on at least 1 day in each quarter of such testing year.

(4) *Minimum percentage of nonhighly compensated employees*. The requirement of this paragraph (c)(4) is satisfied only if at least 90 percent of the employer's active employees are nonhighly compensated employees.

(5) *Maximum percentage of highly compensated employees*. The requirement of this paragraph (c)(5) is satisfied only if fewer than 3/4 percent (0.75 percent) of the employer's active employees have annual compensation (within the meaning of section 414(q)(7)) in excess of 200 percent of the dollar amount in effect under section 414(q)(1)(C) for the testing year.

(6) *Health plan eligibility*—(i) *In general*. The requirement of this paragraph (c)(6) is satisfied only if both of the tests in paragraphs (c)(6)(ii) and (c)(6)(iii) are satisfied. For purposes of this paragraph (c)(6) the comparability rules of paragraph (c) of Q&A-1 of this section are available.

(ii) *80 percent eligibility test*. This test is satisfied only if at least 80 percent of the employees eligible to participate in each health plan of the employer are nonhighly compensated employees. For purposes of this paragraph (c)(6)(ii) the comparability rules of Q&A-4(b) of this section and the family eligibility test rules of Q&A-3(b) of this section are available.

(iii) *80 percent/80 percent eligibility test*. This test is satisfied only if at least 80 percent of the nonhighly compensated employees of the employer have available to them under all health plans an employer-provided benefit that is at least 80 percent as valuable as the largest employer-provided benefit available under all such health plans to any highly compensated employee. The rules relating to the application of the 90 percent/50 percent eligibility test apply in making this determination.

(7) *Benefits test*. The requirement of this paragraph (c)(7) is satisfied only if at least 66 percent of the nonhighly compensated employees of the employer actually receive core health coverage with an employer-provided benefit that is at least 66 percent as valuable as the largest employer-provided benefit available under all health plans (including both core and noncore health coverage) to any highly compensated employee. In determining the largest employer-provided benefit available to a highly compensated employee, the rules applicable to the 75 percent benefits test apply, except that for this purpose salary reduction contributions are treated as employer contributions. For purposes of this paragraph (c)(7), the coverage rules of Q&A-3(c) of this section are available.

Q-3: Under what circumstances may employees be disregarded for purposes of section 89 when the employees receive health coverage from other employers or when employees do not have a family or have a family whose members receive health coverage from another employer?

A-3: (a) *In general*. For purposes of determining whether health plans providing coverage to the spouse and dependents (if any) of an employee (i.e., family-only coverage) satisfy the requirements of paragraph (d)(2) (the 90 percent/50 percent eligibility test) and paragraph (d)(3) (the 50 percent eligibility test) of Q&A-1 of this section, an employer may elect in writing to apply the rules of paragraph (b) of this Q&A-3. Also, for purposes of determining whether health plans satisfy the requirements of paragraph (d)(4) (the 75 percent benefits test) or paragraph (e) (the 80 percent coverage test) of Q&A-1 of this section, the employer may elect in writing to apply the rules of paragraph (c) of this Q&A-3.

(b) *Eligibility tests.* An employee who is eligible to receive family-only coverage under a health plan or would be eligible under the same terms and conditions as other eligible employees if the employee had a spouse and dependents may be treated as eligible to receive such family-only coverage without regard to whether the employee has a spouse and dependents. This is the case without regard to whether there is a requirement of an employee contribution or other employee election under the plan so long as any such election is uniformly available. If the employer applies the rule of this paragraph (b) with regard to any employee or any health plan, the employer must apply the rule uniformly with regard to all employees and health plans except to the extent such application would cause a plan to fail the nondiscriminatory provisions test of paragraph (c) of Q&A-1 of this section.

(c) *75 percent benefits test and 80 percent coverage test*—(1) *Separate testing.* Except as otherwise provided in this paragraph (c), an employer may elect in writing to apply the requirements of paragraph (d)(4) or (e) of Q&A-1 of this section for a testing year by testing its health plan or plans that provide employee-only coverage separately from the health plan or plans that provide family-only coverage. If the employer tests family only coverage separately from employee only coverage all family only coverage must be tested together under this paragraph (c). Therefore, an employer may not separately test coverage provided to a spouse from coverage provided to a dependent. Separate testing may be elected under this paragraph (c)(1) without regard to the fact that family-only coverage is not available as a separate option to employees (i.e., the employee-only and family-only coverages are available or provided only as a package to the employee). No amendment to a written plan document is required to test separately under this paragraph (c)(1).

(2) *Presumption of family status.* In applying the requirements of paragraph (d)(4) or (e) of Q&A-1 of this section for a testing year to a health plan that provides family-only coverage, an employee does not fail to be treated as receiving family-only coverage merely because the employee does not have a spouse or dependents. This is the case without regard to whether the employer has elected separate testing in accordance with paragraph (c)(1) of this Q&A-3. Thus, for example, if an employer automatically provides an employee with family-only coverage (i.e., such coverage is provided on a nonelective, noncontributory basis) or automatically provides an employee with family-only coverage if the employee purchases employee-only coverage and the employee does purchase such employee-only coverage, the employee may be treated as having received the family-only coverage even though the employee does not have a spouse or dependents. However, see paragraph (c) of Q&A-1 of this section with respect to the application of the nondiscriminatory provisions test to certain plans that provide family-only coverage.

(3) *Other core health coverage*—(i) *Employer does not elect separate testing.* If an employer does not elect to test plans providing employee-only coverage separately from plans that provide family-only coverage (as permitted under paragraph (c)(1) of this Q&A-3), an employee who has a family (as determined under this paragraph (c)) may be disregarded for purposes of applying the requirements of paragraphs (d)(4) and (e) of Q&A-1 of this section the following two requirements are met. First, such employee and family members (if any) all receive core health coverage from another employer or from the spouse's or a dependent's employer or if the employer does not provide a health plan that includes employer-provided, family-only coverage. Second, the employee receives core health coverage from another employer or from the spouse's or a dependent's employer.

(ii) *Employer elects separate testing.* If an employer elects to test employee-only coverage separately from family-only coverage (as permitted under paragraph (c)(1) of this Q&A-3), an employee may be disregarded for purposes of applying the requirements of paragraphs (d)(4) and (e) of Q&A-1 of this section with respect to the family-only coverage if such employee does not have a family (as determined under this paragraph (c)) or if such employee has a family and the family members all receive core health coverage from another employer or from the spouse's or a dependent's employer. Similarly, for purposes of applying the requirements of paragraphs (d)(4) and (e) of Q&A-1 of this section with respect to the employee-only coverage, an employee may be disregarded if the employee receives core health coverage from another employer or from the spouse's or a dependent's employer. In testing only the health plan or plans that provide employee-only coverage, employees are taken into account without regard to whether they have families.

(4) *Sworn statements*—(i) *In general.* An employer may not elect the rules of paragraph (c)(3) of this Q&A-3 unless the employer obtains and maintains adequate sworn statements that satisfy the requirements of paragraph (c)(4)(ii) of this Q&A-3. In the absence of an adequate sworn statement with respect to an employee or the application of paragraph (c)(4)(iii) of this Q&A-3, certain presumptions, set forth in section 89(g)(2)-(C), are to be applied with respect to those facts that would otherwise have been provided on the sworn statement.

(ii) *Adequate sworn statement.* An adequate sworn statement must contain sufficient information to indicate whether the employee has a spouse or any dependents and, if so, the number of dependents and the current receipt by the employee and any spouse and dependents of core health coverage under a plan of another employer or the employer of the spouse or dependent. An employer cannot rely on sworn statements for testing years beginning after 1989 unless such statements are made under penalty of perjury and contain a designation of the employer-provided health coverage currently received by the employee under the employer's health plan or plans. In lieu of including information about the employer-provided health coverage being received by an employee under the employer's health plans, an employer may use any other reasonable method to enable it to determine, for each testing year, the extent to which an employee who is receiving core health coverage under a plan of another employer is also receiving employer-provided health coverage from the employer. A sworn statement is not required to be notarized or on a form approved in advance by the

Commissioner. The rule of this paragraph (c)(4)(ii) is illustrated by the following example:

Example. As part of its open season on the selection of health plan coverage, an employer requests that an employee complete a form providing information about the employee's family status, number of dependents and whether the employee or the employee's spouse or dependents receive core health coverage through another employer or the employer of the spouse or a dependent. If the employee does receive other core health coverage, the form also requests the name of the other employer and, if applicable, the insurance company administering the program or providing the other coverage. At the bottom of the form, just above the signature block and date, is the following phrase: "Under penalties of perjury, I declare that the information I have furnished above, to the best of my knowledge and belief, is true, correct, and complete." This form satisfies the sworn statement requirement of section 89(g)(2)(B) and this Q&A-3 provided that the employer also is able to determine for each testing year, by other reasonable means, the extent to which employees who receive other core health coverage also receive health coverage from the employer.

(iii) *Exception*. If an employee is eligible to receive employee-only coverage under a core health plan of the employer with a substantial employer-provided benefit at no cost to the employee and such employee does not elect to receive any employee-only coverage under a core health plan of the employer, the employer may treat such employee as having completed an adequate sworn statement that the employee has core health coverage from another employer. Similarly, if an employee is eligible to receive family-only coverage under a core health plan of the employer with a substantial employer-provided benefit and at no cost, and such employee does not elect to receive any family-only coverage under a core health plan of the employer, the employer may treat such employee as having completed an adequate sworn statement that the employee has no family or has a family all the members of which receive other core health coverage. Even if a sworn statement is deemed to have been completed under this paragraph (c)(4)(iii), the employer must establish by other reasonable methods the extent to which employees described in this paragraph (c)(4)(iii) receive health coverage from such employer. For purposes of this paragraph (c)(4)(iii), the plan has a cost to the employee if the employee is required to make any after-tax or salary reduction contributions or to waive any other benefit (taxable or otherwise) in order to obtain the health coverage.

(iv) *Frequency of sworn statements*. An employer that elects to use sworn statements as permitted under this paragraph (c)(4) must obtain such statements on no less frequent a basis than once each 3-consecutive years. If the employer does not obtain sworn statements from substantially all of its employees or from a statistically valid random sample of all of its employees determined under statistical standards consistent with those in paragraph (d) of Q&A-5 of this section, the employer must obtain such sworn statements on an annual basis.

(5) *Certain highly compensated employees*. A highly compensated employee cannot be disregarded under paragraph (c)(3) of this Q&A-3 if such employee receives an employer-provided benefit under all health plans of the employer that is greater than 133⅓ percent of the average employer-provided benefit under all such health plans received by nonhighly compensated employees (after applying the rule of paragraph (c)(6) of this Q&A-3). The rule of this paragraph (c)(5) is applied separately with respect to employee-only coverage and family-only coverage if the employer elects under paragraph (c)(1) of this Q&A-3 to test such coverages separately.

(6) *Certain nonhighly compensated employees*. A nonhighly compensated employee may not be disregarded under paragraph (c)(3) of this Q&A-3 because of other core health coverage unless, at the time such other coverage ceases, such employee is eligible to elect coverage under any core health plan of the employer for which the employee was eligible (through election or otherwise) during the immediately preceding period in which the employee could have elected such coverage (e.g. an open season). The election period for purposes of the rule in this paragraph (c)(6) must be no shorter than 30 days). This paragraph (c)(6) applies without regard to the reason for the cessation of the employee's other core health coverage and without regard to whether the employer's health plans otherwise permit employees to commence coverage at other than an open season. Similarly, a nonhighly compensated employee may not be disregarded as having no family or having a family with other coverage under paragraph (c)(3) of this Q&A-3 unless such employee is eligible to elect (on the same conditions set forth in the preceding two sentences) family-only coverage, upon a change in family status in which the employee acquires a family or upon a loss of such other coverage for a member of the family. This paragraph (c)(6) does not require that an employee be eligible to participate under a plan for which the employee would not previously have been eligible. In addition, any otherwise applicable eligibility conditions that would have barred participation during the immediately preceding open season, such as insurability, may continue to be applied with respect to eligibility resulting under this paragraph (c)(6) but only if such conditions exist at the time the other core health coverage ceases and such conditions are applied on a uniform, consistent and nondiscriminatory basis. However, in no event may an employer impose conditions on eligibility that were not previously applicable to such employee during the immediately preceding open season. Conditions that were previously applicable, may be applied with regard to the facts in existence either at the time of previously eligibility or at the time the other core coverage ceases, as long as such application is on a uniform, consistent and nondiscriminatory basis. This paragraph (c)-(6) is applicable only for plan years beginning after December 31, 1990.

(7) *Eligibility requirement*. An employer may not disregard employees under paragraph (c)(3) of this Q&A-3 for purposes of applying paragraph (e) of Q&A-1 of this section (the 80 percent coverage test) unless paragraph (e) of Q&A-1 of this section would be satisfied without use of the rules contained in such paragraph (c)(3) of this Q&A-3 on the basis of eligibility to participate instead of coverage received.

Q-4: What is a health plan under the section 89 nondiscrimination rules and to what extent are health plans comparable or aggregated for purposes of such rules?

A-4: (a) *In general*. Except as otherwise provided in this section, a health plan is a uniform entitlement provided to employees with respect to payments on account of personal injury or sickness, including specified medical claims, expenses, products or services. Any difference in entitlement creates separate health plans. In addition, any difference in cost to different groups of employees, including the fact that salary reduction contributions are required for coverage that is identical to coverage that is otherwise employer-provided, creates separate plans. Each option as to coverage is treated as a separate health plan for purposes of section 89. However, paragraphs (b) through (f) of this Q&A-4 provide testing rules under which comparable health plans may be treated as a single health plan, rules when two or more health plans must be aggregated and treated as a single plan, and rules when separate health plans may be restructured. These rules apply solely for purposes of testing an employer's health plans under the section 89 nondiscrimination rules, and do not require that the single written document required by Q&A-3 of proposed §1.89(k)-1 relating to any of such plans be modified to conform to the testing status of such plans under these rules.

(b) *Comparable health plans for 50 percent eligibility test.* For purposes of applying paragraph (d)(3) of Q&A-1 of this section (the 50 percent eligibility test), two or more health plans included in a group of comparable plans may be treated as a single health plan. A group of plans is comparable if the smallest employer-provided benefit available to any employee in any plan in the group is at least 95 percent of the largest employer-provided benefit available to any employee in any plan in the group. See paragraph (d) of this Q&A-4 for mandatory aggregation rules that may be applicable before the application of this paragraph (b).

(c) *Comparable health plans for 80 percent coverage test*—(1) *In general.* Except as otherwise provided in this paragraph (c), for purposes of applying paragraph (e) of Q&A-1 (the 80 percent coverage test) of this section, two or more health plans included in a group of comparable plans, may be treated as a single health plan. A group of plans is comparable if the smallest employer-provided benefit available to any employee in any plan in the group is at least 90 percent of the largest employer-provided benefit available to any employee in any plan in the group. See paragraph (e) of this Q&A-4 for mandatory aggregation rules that may be applicable before the application of this paragraph (c).

(2) *Alternative general comparability rule.* At the employer's written election, a group of plans is comparable for purposes of applying paragraph (e) of Q&A-1 (the 80 percent coverage test) if the smallest employer-provided benefit available to any employee in any plan in the group is at least 80 percent of the largest employer-provided benefit available to any employee in any plan in the group. This alternative general comparability rule is available only if the employer applies the requirements of paragraph (e) of Q&A-1 by substituting "90 percent" for "80 percent." Thus, this alternative general comparability rule applies only if at least 90 percent of the nonhighly compensated employees are covered under the health plan or group of comparable plans being tested.

(3) *Restriction on general comparability.* If a plan fails to satisfy paragraph (d)(3) of Q&A-1 of this section (the 50 percent eligibility test), the failed plan may not be included with any other plan in a group of comparable plans under paragraphs (c)(1) or (c)(2) of this Q&A-4 unless the following two requirements are met. First, themployoyer-provided benefit of the group of comparable plans is within at least 95 percent of the employer-provided benefit of the failed plan. Second, the failed plan and the group of comparable plans, considered together, are comparable under paragraph (c)(1) or (c)(2) of this Q&A-4. The following example illustrates the rules of this paragraph (c)(3)(iii):

Example. Assume that an employer with 25 employees, 5 of whom are highly compensated employees, provides all nonhighly compensated employees with a health plan with an employer-provided benefit of $3,000. In addition, the employer provides a health plan with an employer-provided benefit of $3,750 only to its highly compensated employees. The employer tests its health plans under the 80 percent coverage test of paragraph (e) of Q&A-1 of this section. Because the additional $3,750 health plan is available only to highly compensated employees and thus fails the 50 percent eligibility test, such plan may not be aggregated with the $3,000 plan unless the employer-provided benefit under the $3,750 plan is reduced to $3,158 ($3,000 is 95 percent of $3,158) or the employer-provided benefit under the other plan is increased to $3,562 (95 percent of $3,750).

(4) *Deemed comparability rule*—(i) *Health plan outside comparability range.* A health plan (or a group of health plans treated as a single health plan) that is not otherwise included with another health plan in a group of comparable plans (determined under paragraph (c)(1) through (3) of this Q&A-4) may be included in such group if the employer-provided benefit under the former health plan (or group of health plans) is greater than the employer-provided benefit under the latter health plan (or group of plans); the former health plan's nonhighly compensated coverage percentage is at least 80 percent of its highly compensated coverage percentage; and, after the inclusion of the former plan in a group with the latter plan, the nonhighly compensated coverage percentage remains at least 80 percent the of highly compensated coverage percentage for such group. No plan can be included under this rule if a plan with a smaller employer-provided benefit has previously been included in the group of comparable plans under this rule. If the employer elects the alternative general comparability rule of paragraph (c)(2) of this Q&A-4, "90 percent" must be substituted for "80 percent" in the preceding sentence. The deemed comparability rule of this paragraph (c)(4) is applied by treating the resulting group of comparable plans as a single health plan. The employer-provided benefit for such single health plan, except as provided in paragraph (c)(5)(i) of this section, is the largest employer-provided benefit of any plan included in the group.

(ii) *Coverage percentages.* For purposes of this paragraph (c)(4), a health plan's (or group's) nonhighly compensated coverage percentage is the percentage determined by dividing the number of nonhighly compensated employees covered by the plan (or the group) by the total number of nonhighly compensated employees of the employer. A health plan's (or group's) highly compensated coverage percentage is the percentage determined in the same manner by reference only to highly compensated employees.

(iii) *Examples.* The following examples illustrate the application of the rules of this paragraph (c)(4):

Example 1. Assume that an employer maintains four health plans that constitute a group of comparable plans under the general comparability rule of paragraph (c)(1) of this Q&A-4. The employer also maintains another health plan that has too large an employer-provided benefit to permit it to be included in the group of comparable plans under the general comparability rule. Under this paragraph (c)(4), if the nonhighly compensated coverage percentage with respect to such plan is at least 80 percent of the highly compensated coverage percentage for such plan and if after inclusion of the plan with the group of four comparable plans, the resulting group of plans has a nonhighly compensated coverage percentage that is at least 80 percent of the highly compensated coverage percentage, then the plan may be included in the group of comparable health plans to form a new group of comparable plans.

Example 2. Assume the same facts as in Example 1, except that the *other* health plan has too small an employer-provided benefit to permit it to be included in a group of comparable plans under the general comparability rule of paragraph (c)(1) of this Q&A-4. If the nonhighly compensated coverage percentage for the group of comparable plans is at least 80 percent of the highly compensated coverage percentage for such group, and if, after inclusion of the other plan with the group of comparable plans, the resulting group of plans has a nonhighly compensated coverage percentage that is at least 80 percent of the highly compensated coverage percentage, then the group of comparable plans may be included with the other plan to form a new group of comparable plans.

(5) *Employee cost comparability*—(i) *In general.* Health plans may be treated as a group of comparable plans if such plans are available to all of the employees who are covered under any of such plans on the same terms and conditions

and the difference in the annual employee costs between the plan in the group with the largest employee cost and the plan in the group with the smallest employee cost is not greater than $100 (adjusted for testing years beginning after 1989 in accordance with section 89(g)(1)(E)(v)). Two or more plans generally are not available on the same terms if the employee cost for one plan is in the form of after-tax employee contributions and the employee cost for another plan is in the form of salary reduction contributions. A health plan is available to an employee only if, under all of the facts and circumstances, the plan is reasonably available to such employee. The employer-provided benefit for a group of comparable plans determined under this paragraph (c)(5)(i) is deemed to be the largest employer-provided *core health* benefit of any plan included in the group under this paragraph (c)(5)(i). If both salary reduction contributions and after-tax employee contributions are required under each of the plans, the plans may be treated as comparable if the maximum total amount of such contributions under each plan does not differ from the maximum total amount of such contributions under any of the other plans by more than $100. The rules of this paragraph (c)(5)(i) are illustrated by the following examples:

Example 1. Assume that an employer maintains two health plans, Plan X and Plan Y. Plan X is provided to employees at no employee cost. Plan Y is available to employees under a cafeteria plan for $100 a year, to be paid through salary reduction contributions. These plans may not be treated as part of a group of comparable plans under an analysis that compares the after-tax employee contributions required for Plan X ($0) with the after-tax employee contributions required for Plan Y ($0) because Plan Y is not actually available for only $0 in after-tax employee contributions, but rather is available for $100 in salary reduction contributions. However, these plans may be treated as part of a group of comparable plans under an analysis that compares the salary reduction contributions of Plan X ($0) with the salary reduction contributions of Plan Y ($100) because the salary reduction contributions under each plan do not differ by more than $100 and neither plan has any required after-tax contributions.

Example 2. Assume that an employer maintains two health plans, Plan V and Plan W. Plan V is provided to employees for an after-tax employee contribution of $20 a year and a salary reduction contribution of $20 a year. Plan W is provided to employees for an after-tax employee contribution of $100 and a salary reduction contribution of $100. These two plans may not be treated as part of a group of comparable plans under this paragraph (c)(5)(i) because the maximum total amount of after-tax and salary reduction contributions under Plan V ($40) differs from the maximum total amount of after-tax and salary reduction contributions for Plan W ($200) by more than $100.

(ii) *Coordination rule.* A health plan that is not included in a group of comparable plans under paragraph (c)(5)(i) of this Q&A-4 may be included with such group of comparable plans under the comparability rules of paragraphs (c)(1) through (c)(4) of this Q&A-4 if such plan and the group are otherwise comparable under such rules. The employer-provided benefit under the group of plans is to be determined under the rule of paragraph (c)(5)(i) of this Q&A-4.

(iii) *Special employee cost rule.* A health plan that is not otherwise included in a group of comparable plans may be included in a group with respect to an employee if the employer-provided benefit under the plan to be included is less than the employer-provided benefit of the plan within the group of comparable plans with the largest employer-provided benefit and, in the case of a nonhighly compensated employee, the employee is eligible on the same terms and conditions as other employees to participate in the plan in such group with the largest employer-provided benefit and the annual employee cost for the employee under the plan to be included is equal to or greater than the greatest employee cost for the employee under any plan in the group of comparable plans minus $100. Thus, the rule of this paragraph (c)(5)(iii) applies if a nonhighly compensated employee may choose a more expensive plan with a lesser employer-provided benefit than any plan in the group so long as the conditions of this paragraph (c)(5)(iii) are satisfied. A health plan is available to an employee only if, under all of the facts and circumstances, the plan is reasonably available to such employee. This paragraph (c)(5)(iii) may be applied with respect to a health plan and a group of comparable plans or with respect to two groups of comparable plans otherwise determined under paragraph (c)(1) or (c)(5) of this Q&A-4. In such case, the employer-provided benefit of the group of comparable plans is the largest employer-provided benefit of any plan (whether or not that plan is a core health plan) in such group and the lowest employee cost permitted within the group of comparable plans is equal to the employee cost for the plan in such group with the largest employee cost minus $100. The rules of this paragraph (c)(5)(iii) are illustrated by the following examples:

Example 1. Assume that an employer permits all of its employees to elect coverage under one of two health plans: Plan A (with an employer-provided benefit of $3,000 and an employee contribution of $300) and Plan B (with an employer-provided benefit of $2,200 and an employee contribution of $500). These two plans may form a group of comparable plans under this paragraph (c)(5)(iii) because Plan B's employer-provided benefit is less than Plan A's employer-provided benefit and Plan B's required employee contribution of $500 is greater than $200 (i.e., Plan A's required employee contribution minus $100).

Example 2. Assume that an employer permits all of its employees to elect coverage under any one of four health plans: Plan A (with an employer-provided benefit of $2,000 and an employee contribution of $125); Plan B (with an employer-provided benefit of $2,500 and an employee contribution of $225); Plan C (with an employer-provided benefit of $3,000 and an employee contribution of $200); and Plan D (with an employer-provided benefit of $2,500 and an employee contribution of $300). Plans A, B, and C may be included in a group of comparable plans under the rules of paragraph (c)(5)(i). Plan D may be included in such group under the rules of paragraph (c)(5)(iii) with respect to all employees because Plan D's employer-provided benefit of $2,500 is less than Plan C's employer-provided benefit of $3,000 and Plan D's required employee contribution of $300 is greater than $125 (i.e., Plan B's required employee contribution of $225 minus $100).

Example 3. Assume that an employer permits all of its employees to elect coverage under one of three health plans: Plan A (with an employer-provided benefit of $3,000 and an employee contribution of $500); Plan B (with an employer-provided benefit of $2,700 and an employee contribution of $350); and Plan C (with an employer-provided benefit of $2,500 and an employee contribution of $450). Plans A and B are included in a group of comparable plans determined under paragraph (c)(1) of this Q&A-4 (i.e., 90 percent of $3,000 is $2,700). Plan C may be included in such group under the rules of this paragraph (c)(5)(iii) because Plan C's employer-provided benefit of $2,500 is less than Plan A's employer-provided benefit of $3,000 and Plan C's required employee contribution of $450 is greater than $400 (i.e., Plan A's required employee contribution of $500 minus $100).

(iv) *Employee cost.* For purposes of this paragraph (c)(4), the term "employee cost" refers to both the employee's after-tax employee contributions and salary reduction contributions that are required in order for the employee to receive coverage under the health plan. The de minimis employee cost comparability rule of this paragraph (c)(5) may be applied on the basis of either after-tax employee contributions or salary reduction contributions under a cafeteria plan, but not both. Thus, for example, health Plan X that is available for $50 in after-tax employee contributions and health Plan Y that is available for $100 in salary reduction contributions under a cafeteria plan may not be treated as comparable plans under this paragraph (c)(5).

(d) *Mandatory aggregation of plans for the 50 percent eligibility test*—(1) *In general.* For purposes of applying paragraph (d)(3) of Q&A-1 of this section (the 50 percent eligibility test), if an employee may receive coverage under two or more health plans the rules of this paragraph (d) must be applied with respect to such plans. In addition, such plans may not be included in a group of comparable plans under paragraph (b) of this Q&A-4 with regard to such employee until the rules of this paragraph (d) have been applied with respect to such plans. Such health plans must be aggregated into an additional, single health plan that provides all of the coverage provided under any of the separate plans. The additional plan is treated as having an employer-provided benefit equal to the sum of the employer-provided benefits of each of the included plans (with an appropriate adjustment to eliminate the multiple inclusion of overlapping coverage). A nonhighly compensated employee is treated as eligible for both the additional plan and the separate plans. A highly compensated employee is treated as eligible only for the additional plan and is no longer treated as eligible for the separate plans.

(2) *Special rule for salary reduction contributions*. Any employer-provided benefit that is a non-core health benefit and is attributable to salary reduction contributions available to any nonhighly compensated employee under a non-core health plan of the employer that, after application of paragraph (d)(1) of this Q&A-4, exceeds the greater of $2,000 (adjusted for testing years beginning after 1989 in accordance with 89(g)(1)-(E)(v)) or the employees' actual salary reduction contribution is not considered available to such employee. This paragraph (d)(2) is effective for plan years beginning after December 31, 1989.

(3) *Examples*. The provisions of this paragraph (d) are illustrated in the following examples:

Example 1. Assume that, under an employer's health program, an employee is permitted to elect coverage under one plan from among two health indemnity plans provided through insurance companies and two HMO plans. The indemnity and HMO plans are four alternative health coverages and thus an employer is not required to apply this paragraph (d).

Example 2. Assume the same facts as *Example 1*. In addition to electing one of the indemnity or HMO plans, an employee may also elect coverage under any one or more of the following plans: a dental plan, a vision plan and various levels of health coverage (up to and including $1000) under a health flexible spending arrangement (FSA). Under this paragraph (d), each of the indemnity and HMO plans must be aggregated with the 3 elective plans, before testing any of the plans under the 50 percent eligibility test.

Example 3. Employee X is a nonhighly compensated employee and may receive coverage under either Plan A or Plan B, each of which has an employer-provided benefit of $500, or under both Plans A and B. Under this paragraph (d), for Employee X, Plan A and Plan B must be aggregated to form an additional Plan AB for purposes of the 50 percent eligibility test. In addition, Plan AB is treated as having an employer-provided benefit equal to $1,000 (assuming no overlapping coverage). Thus, there are three health plans that each must pass the 50 percent eligibility test: Plan A ($500), Plan B ($500), and Plan AB ($1,000). Employee X is treated as eligible for all three plans.

Example 4. An employer maintains two health plans: Plan A ($500) and Plan B ($500). The following table illustrates all of the eligible employees for these two plans. In addition, HCE denotes a highly compensated employee and NCE denotes a nonhighly compensated employee.

Employee	*Plan A*	*Plan B*
HCE 1 500	500	
HCE 2	500	Not Elig.
HCE 3	Not Elig.	500
HCE 4	500	500
NCE 1	500	500
NCE 2	Not Elig.	500
NCE 3	500	Not Elig.
NCE 4	500	Not Elig.
NCE 5	Not Elig.	500

The following table reflects the plans after the application of this paragraph (d):

Employee	*Plan A*	*Plan B*	*Plan AB*
HCE 1	Not Elig.	Not Elig.	1000
HCE 2	500	Not Elig.	Not Elig.
HCE 3	Not Elig.	500	Not Elig.
HCE 4	Not Elig.	Not Elig.	1000
NCE 1	500	500	1000
NCE 2	Not Elig.	500	Not Elig.
NCE 3	500	Not Elig.	Not Elig.
NCE 4	500	Not Elig.	Not Elig.
NCE 5	Not Elig.	500	Not Elig.

After application of this paragraph (d), there are three plans that must satisfy the 50 percent eligibility test. Plan A and Plan B satisfy the 50 percent eligibility test, both as separate plans and as plans included in a group of comparable plans under paragraph (b) of this Q&A-4. However, Plan AB fails the 50 percent eligibility test. See Q&A-9 for rules relating to the determination of the excess benefit with respect to a plan that fails to satisfy the 50 percent eligibility test.

Example 5. An employer maintains two health plans: Plan A ($7,000) and Plan B($500). The following table illustrates all of the eligible employees for these two plans.

Employee	*Plan A*	*Plan B*
HCE 1	$1,000	$500
HCE 2	$1,000	$500
NCE 1-100	$1,000	Not Elig.

The following table reflects the plans after the application of this paragraph (d):

Employee	*Plan A*	*Plan B*	*Plan AB*
HCE 1	Not Elig.	Not Elig.	$1,500
HCE 2	Not Elig.	Not Elig.	$1,500
NCE 1-100	$1,000	Not Elig.	Not Elig.

After application of this paragraph (d), there are three plans that must pass the 50 percent eligibility test. Plan A passes the 50 percent eligibility test. Plan B is no longer available to any employee and is not required to be tested under the 50 percent eligibility test. However, Plan AB fails the 50 percent eligibility test. Under Q&A-9, an excess benefit must be imputed to HCEs 1 & 2 so that Plan AB may be included in a group of comparable plans under paragraph (b) of this Q&A-4.

(e) *Mandatory aggregation of plans for the 80 percent coverage test*—(1) *In general*. For purposes of applying paragraph (e) of Q&A-1 of this section (the 80 percent coverage test), if an employee receives coverage under two or more health plans the rules of this paragraph (e) must be applied with respect to such plans. In addition, such plans may not be included in a group of comparable plans under paragraph (c) of this Q&A-4 with regard to such employee until the rules of this paragraph (e) have been applied with respect to such plans. Such health plans must be aggregated into an additional, single health plan that provides all of the coverage that is provided under any of the separate plans. The additional plan is treated as having an employer-provided benefit equal to the sum of the employer-provided benefits of each of the included plans (with an appropriate adjustment to eliminate the multiple inclusion of overlapping coverage). A nonhighly compensated employee is treated as covered under both the additional plan and the separate plans. A highly compensated employee is treated as covered under the additional plan and not covered under the separate plans.

(2) *Exception*. This paragraph (e) does not apply with respect to two or more health plans if at least 90 percent of the nonhighly compensated employees eligible for coverage under each plan are eligible for coverage under all of such plans on the same terms and conditions as other employees, and each plan (prior to application of the comparability rules of paragraph (c) of this Q&A-4) satisfies the 80 percent coverage test.

(3) *Examples*. The provisions of this paragraph (e) are illustrated by the following examples:

Example 1. Assume that an employer maintains two health plans, Plan A and Plan B. Each has an employer-provided benefit of $500. Also, each plan covers 45 percent of the employer's nonhighly compensated employees who are not covered by the other plan. Employee X, a highly compensated employee, and Employee Y, a nonhighly compensated employee, are covered by both Plan A and Plan B. Plan A and Plan B must be aggregated to form an additional single health plan because the exception of paragraph (e)(2) of this Q&A-4 does not apply. Thus, there are three health plans: Plan A ($500), Plan B ($500), and Plan AB ($1,000). The plans fail the 80 percent coverage test because Plan AB may not be included with Plan A and Plan B under any of the comparability rules of paragraph (c) of this Q&A-4. Thus, the employer provided benefit under Plan AB must be reduced to $526 with respect to Employee X for all plans to pass the 80 percent coverage test.

Example 2. Assume that an employer maintains two health plans, Plan A and Plan B. Each has an employer-provided benefit of $500. Each plan is available on the same terms to all employees of the employer and covers over 80 percent of the employer's nonhighly compensated employees. Because these plans qualify for the exception of paragraph (e)(2) of this Q&A-4, the employer is not required to aggregate the plans under this paragraph (e). Plan A and Plan B, each satisfy the 80 percent coverage test.

Example 3. An employer maintains two health plans. Plan A has an employer-provided benefit of $1,000 and Plan B has an employer-provided benefit of $500. The following table illustrates all of the eligible employees for these two plans. HCE denotes a highly compensated employee and NCE denotes a nonhighly compensated employee.

Employee	*Plan A*	*Plan B*
HCE 1	$1,000	$500
HCE 2	$1,000	Not Elig.
NCE 1	$1,000	$500
NCE 2-100	$1,000	Not Elig.

The following table reflects the plans after the application of this paragraph (e):

Employee	*Plan A*	*Plan B*	*Plan AB*
HCE 1	Not Elig.	Not Elig.	$1,500
HCE 2	$1,000	Not Elig.	Not Elig.
NCE 1	$1,000	$500	$1,500
NCE 2-100	$1,000	Not Elig.	Not Elig.

After application of this paragraph (e), there are three plans that must be comparable in order for the plans to pass the 80 percent coverage test. The plans fail the 80 percent coverage test even though Plans A and B may be included in a group of comparable plans under paragraph (c)(3) because Plan AB may not be included in a group of comparable plans with Plan A and Plan B under any of the rules of paragraph (c) of this Q&A-4 for inclusion in a group of comparable plans with Plans A and B. It does, however, pass the 50 percent eligibility test, and therefore Plan AB's employer-provided benefit may be reduced to $1,111 (1000 is 90 percent of $1,111) and the health plans are considered comparable.

(f) *Permissive plan restructuring*. For purposes of applying paragraphs (d)(3) and (e) of Q&A-1 of this section (the 50 percent eligibility test and the 80 percent coverage test, respectively) an employer may, in certain circumstances, restructure two or more health plans into two or more restructured health plans on the basis of the value of coverages under such plans. To the extent mandatory aggregation is applicable and if the employer decides to apply the comparability rules of this Q&A-4, such mandatory aggregation and comparability rules must be applied prior to the application of the permissive restructuring rule of this paragraph (f). Pursuant to this rule, two or more health plans may be restructured into one health plan of common value and two or more plans of distinct values. In all cases, to the extent the values of any plans being restructured are equivalent, the values may be restructured into only one plan. Thus, for example, if an employer has 3 plans (after the application of the mandatory aggregation and the comparability rules of this Q&A-4), Plan A with an employer-provided benefit of $7000, Plan B with an employer-provided benefit of $6000 and Plan C with an employer-provided benefit of $4000, and if the employer decides to restructure the three plans under this paragraph (f), then the plans are restructured into three plans with employer-provided benefits of $4000, $2000 and $1000 respectively.

(g) *Authority to issue additional requirements*. The Commissioner, in revenue rulings, notices and other publications of general applicability, may make any modification to, or issue such additional requirements for the application of, the rules contained in this Q&A-4 as may be necesary to ensure proper compliance with the intent of such rules and section 89(g)(1).

Q-5: What is the testing methodology for applying the nondiscrimination rules under section 89?

A-5: (a) *In general*. Except as otherwise provided in this Q&A-5, the determination of whether a statutory employee benefit plan is a discriminatory employee benefit plan for a testing year is made on the basis of all of the applicable facts with respect to the employees of the employer as of the testing day included within such testing year. Such facts generally are to be treated as in existence for the entire testing year.

(b) *Adjustments to facts on the testing day*—(1) *Changes in plan terms*. If the employer-provided benefit (actually provided or made available) of an employee who is taken into account on the testing day changes during the testing year (either before or after the testing day) in connection with any change in plan terms, the amount taken into account as such employee's employer-provided benefit for such testing year must be adjusted to reflect the employer-provided benefit for the portions of the testing year both before and after such change.

(2) *Election changes by highly compensated employees*—(i) *In general*. If the employer-provided benefit (actually provided or made available) of a highly compensated employee for a testing year who is taken into account on the testing day changes during the testing year (either before or after the testing day) solely on account of an election of the employee the amount taken into account as such employee's employer-provided benefit for such testing year must be adjusted to reflect the employer-provided benefit for the portions of the testing year both before and after such change.

(ii) *Special rule for the first quarter of each testing year*. An employer must make the adjustments otherwise required under this paragraph (b)(2) for election changes during the first quarter of a testing year only for those election changes by employees who were highly compensated employees for the immediately preceding testing year and employees who, for the current testing year, either are among the 100 highly compensated employees who receive the most compensation for the current testing year or are 5 percent owners of the employer (as determined under section 416(i)).

(3) *Distinction between changes in plan terms and election changes*. A change in an employee's employer-provided benefit is treated as an election change only if such change is exclusively attributable to an election change by the employee that is not in connection with or otherwise related to any change in the terms of the plan or other plans of the same type available to the employee. Changes in an employee's employer-provided benefit are treated as attributable to changes in plan terms even if the changes are pursuant to an election of the employee that occurs in conjunction with any change in the terms of the plan (or of another plan of the same type available to such employee). Thus, for example, if during an open season or election period an employee elects to change health plan coverage and there is any change to any one or more of the health plans available to such employee during the open season, such employee's change in employer-provided benefit is treated as in connection with a change in plan terms even if the employee is not covered, either before or after the open season, by a health plan that changed. An increase or decrease in the after-tax employee contributions or employer contributions, including salary reduction contributions, is treated as a change in plan terms.

(4) *Taking required adjustments into account*—(i) *In general*. Adjustments taken into account under this paragraph (b) are to be taken into account as of the effective date of the change in the employer-provided benefit.

(ii) *Adjustment period rule*—(A) *In general*. If the requirements of paragraph (b)(4)(ii)(B) and (C) of this Q&A-5 are satisfied, an employer may on a uniform and consistent basis treat employer-provided benefit changes as having become effective as of the first day of the applicable adjustment period or periods.

(B) *Adjustment period*. The requirement of this paragraph (b)(4)(ii)(B) is satisfied only if the employer uses at least 24 adjustment periods for its testing year. Adjustment periods must be regular, uniform periods throughout the testing year. For example, an employer may use each 2-week pay period as an adjustment period.

(C) *Applicable adjustment periods*. The requirement of this paragraph (b)(4)-(ii)(C) is satisfied only if, in the case of a nonhighly compensated employee, the lowest employer-provided benefit of such employee on any day during an adjustment period is taken into account for at least either the current adjustment period (i.e., the period during which the change in employer-provided benefit occurred) or the adjustment period immediately following the effective date of the benefit change. In the case of a highly compensated employee, the highest employer-provided benefit of such employee on any day during an adjustment period must be taken into account for at least either the current adjustment period or the adjustment period immediately following the effective date of the benefit change.

(5) *Transition rule for 1989*—(i) *In general*. For any testing year that begins prior to July 1, 1989, the employer may apply the nondiscrimination rules of section 89 (including the rules of Q&A-2 of this section) with respect to its health plans for such testing year in accordance with the rules in paragraph (b)(5)(ii) through (iv) of this Q&A-5.

(ii) *Partial testing year*. The facts with respect to all employees of the employer as of the testing day for the testing year are to be treated as in existence for the entire partial testing year. The partial testing year begins on the earliest of July 1, 1989; the testing day for such testing year; or the first day of the calendar month beginning three months before the end of the testing year. The last day of the partial testing year is the last day of such testing year.

(iii) *Adjustments*. The employer-provided benefit (received or made available) of an employee determined as of the testing day is to be adjusted for the partial testing year as required under this paragraph (b) for elections and plan design changes occurring during the partial testing year as if the partial testing year were the entire testing year.

(iv) *Annualization of employer-provided benefit*. The employer-provided benefit (received or made available) of an employee for the partial testing year (determined after the application of the other rules in this paragraph (b)(5)) is multiplied by the applicable fraction for the testing year and such product is deemed to be the employer-provided benefit (received or made available) of the employee for the testing year for purposes of applying the section 89 nondiscrimination tests to such testing year. The numerator of the applicable fraction for a testing year is the total number of calendar months in the testing year and the denominator of such fraction is the number of calendar months in the partial testing year.

(v) *Transition rule inapplicable with respect to certain plans*—(A) *Changes in plan terms*. The rule of this paragraph (b)(5) is not available with respect to a health plan that provides an employer-provided benefit for the partial testing year that is less, by more than a de minimis amount, than such plan's employer-provided benefit for the portion of the testing year that precedes the partial testing year. Thus, for example, the rule of this paragraph (b)(5) is not available if an employer amends its health plan to provide that employee contributions for coverage during the partial testing year are to be in the form of after-tax employee contributions rather than salary reduction contributions. See paragraph (c) of Q&A-1 of this section (the nondiscriminatory provisions test).

(B) *New plans*. The rule of this paragraph (b)(5) is not available with respect to a health plan that is first established, or coverage under a health plan that is first provided, on or after January 1, 1989, and that terminates or ceases to be provided before the end of the partial testing year. Also, such plan or coverage may fail to satisfy the requirement of section 89(k)(1)(E) (that a plan be established with the intention of being maintained for an indefinite period of time).

(C) *Certain discriminatory plans*. The rule of this paragraph (b)(5) is not applicable with regard to a plan unless, for the testing year, at least 25 percent of those employees eligible to participate in the plan are nonhighly compensated employees or such plan satisfies the alternative 50 percent eligibility test of paragraph (d)(3)(iii) of Q&A-1 of this section. The rules of Q&A-4 of this section are not available in determining whether a plan meets this 25 percent requirement.

(vi) *Example*. The rules of this paragraph (b)(5) are illustrated in the following example:

Example. Assume that an employer maintains several health plans, one of which has a plan year beginning on January 1, 1989. The employer elects to use a calendar year testing year for purposes of testing its health plans under section 89. Under this paragraph (b)(5), if the employer elects a testing day of July 1, 1989 (or any day after such date and before January 1, 1990), the employer may apply the testing day and benefit adjustment rules of section 89 to the period between July 1, 1989 and January 1, 1990 as if such period were the entire testing year. Thus, for example, only those benefit changes that occur during the partial testing year need to be taken into account under the rules of this paragraph (b). Then, employees' employer-provided benefits (received or made available) for the partial testing year are converted into employer-provided benefits for the full testing year by multiplying each of such benefits by two (i.e., 12/6, which is the applicable fraction, the numerator of which is the total number of calendar months in the testing year and the denominator of which is the number of calendar months in the partial testing year). The section 89 nondiscrimination tests are then applied with respect to such annualized employer-provided benefits.

(c) *Testing day*. The testing day is the single day within the testing year that is elected in writing as the testing day for purposes of applying the nondiscrimination tests of section 89 with respect to the testing year. The testing day is not required to be designated in the single written document required under section 89(k)(1)(A) (See Q&A-3 of §1.89(k)-1). If a testing day is not elected in writing, the testing day is the last day of the testing year. All plans of the same type, and plans that are not of the same type but are treated as of the same type for nondiscrimination testing under section 89, must have the same testing day. The testing day for any testing year beginning after December 31, 1990, is the same testing day used for the immediately preceding testing year unless a change in such testing day is made with the consent of the Commissioner or is in accordance with such rules as the Commissioner may provide with respect to changes in testing days. The election of a testing day is subject to the requirements of the nondiscriminatory provisions test of paragraph (c) of Q&A-1 of this section. Thus, an employer's testing day must reasonably reflect the employee pool of the employer and the business of the employer throughout the year.

(d) *Sampling*. For purposes of determining whether a statutory employee benefit plan is a discriminatory employee benefit plan, an employer may elect in writing to apply the rules of paragraphs (d) and (e) of Q&A-1 of this section (the general eligibility and benefits tests and the alternative 80 percent coverage test, respectively), paragraph (c) of Q&A-2 of this section (the special rule for certain large employers), and paragraph (c)(4) of Q&A-3 of this section (relating to sworn statements) on the basis of a statistically valid random sample of the employer's employees. A sample is statistically valid for purposes of this paragraph (d) only if the statistical method and sample size result in at least a 95 percent probability that the results of the sample with respect to the applicable requirements have a margin of error not greater than 3 percent. Also, the statistical validity of the sample and statistical method and analysis must be confirmed in a written opinion of a qualified and independent third party.

Q-6: What is the period for testing whether the nondiscrimination rule of section 89 are satisfied?

A-6: (a) *Testing year*—(1) *In general.* An employer must apply the nondiscrimination tests of section 89 to its health plans and other statutory employee benefit plans on the basis of a testing year that begins on the first day of a calendar month and ends on the last day of a calendar month, regardless of the beginning of the plan year or years of such plans. Unless the employer elects otherwise in accordance with paragraph (a)(2) of this Q&A-6, the testing year for all statutory employee benefit plans is the calendar year.

(2) *Election of different testing year.* An employer may elect a uniform 12-month testing year other than the calendar year for purposes of applying the section 89 nondiscrimination tests to all plans of the same type. Thus, for example, an employer may elect to apply the section 89 nondiscrimination tests to all of its health plans on the basis of an April 1 to March 30 testing year. In addition, if the 75 percent benefits test is applied on an aggregate basis to plans of different types (e.g., health plans, group-term life insurance plans, and dependent care assistance programs) as though such plans were plans of the same type, the same testing year must be used with respect to all such plans.

(3) *Election.* An employer must make the election of a testing year described in paragraph (a)(2) of this Q&A-6 in writing prior to the commencement of the testing year to which the election relates. See paragraph (b)(3) of this Q&A-6 for a transition rule for 1989.

(b) *First testing year in 1989*—(1) *In general.* Notwithstanding paragraph (a) of this Q&A-6, for the first testing year applicable with respect to plans of the same type, the employer may elect to apply the section 89 nondiscrimination tests with respect to all plans of the same type on the basis of any 12-month period beginning on the first day of any calendar month beginning on or after January 1, 1989, but no later than the first day that any plan of such type first becomes subject to the section 89 nondiscrimination tests. The rule of this paragraph (b) is applicable even though not all of the plans of the same type are subject to the section 89 nondiscrimination tests for the entire first testing year. See paragraph (c) of this Q&A-6 for special rules applicable to the section 89 nondiscrimination tests in such cases. The rule of this paragraph (b)(1) is illustrated in the following example:

Example. Assume that an employer maintains three health plans, Plan A, Plan B and Plan C. Plan A's plan year begins on March 1, Plan B's plan year begins on July 1, and Plan C's plan year begins on September 1. The section 89 nondiscrimination rules apply to plan years that begin after December 31, 1988. For these plans, the employer may elect as its first testing year under section 89 any 12-month period beginning on or after January 1, 1989, and on or before March 1, 1989. This is the case even though not all of the health coverage provided during any of these possible first testing years is subject to the section 89 nondiscrimination tests.

(2) *Short testing year.* An employer may elect to apply the section 89 nondiscrimination tests to its first testing year commencing in 1989 with respect to all plans of the same type on the basis of a first testing year that is shorter than 12 months in duration. However, if an employer applies the section 89 nondiscrimination tests on the basis of such a short first testing year, the second testing year for such employer for such plans must be 12 months in duration. In addition, in no case may any employer-provided benefit subject to the section 89 nondiscrimination tests either be excluded from consideration in a testing year or considered in more than one testing year. The rule of this paragraph (b)-(2) is illustrated in the following example:

Example. Assume that an employer's first testing year in 1989 for its health plans commences on March 1, 1989. The employer may elect to use a first testing year of March 1, 1989, to December 31, 1989, for all of its health plans. In such case, the employer's second testing year must commence on January 1, 1990, and must be 12 months in duration.

(3) *Election*—(i) *First day.* An employer must elect the first day of the first testing year beginning in 1989 with respect to plans of the same type in writing prior to the earlier of the first day of the second testing year for such plans or January 1, 1990. If an employer fails to make an election by such required date with respect to plans of the same type, the first day of the first testing year beginning in 1989 for all plans of such type is January 1, 1989.

(ii) *Last day.* If an employer uses a short testing year for the first testing year beginning in 1989 with respect to plans of the same type, the employer must elect the last day of such year in writing prior to such last day. Thus, for example, if an employer decides to begin the first testing year for its health plans on March 1, 1989, and, after such date, decides to use a calendar year testing year beginning in 1990, the employer must, before December 31, 1989, elect December 31, 1989, as the last day of the first testing year.

(c) *Testing where not all plans are subject to section 89*—(1) *In general.* If, during a testing year with respect to plans of the same type, there is any employer-provided benefit that is not subject to the section 89 nondiscrimination rules for the entire testing year, the rules of this paragraph (c) apply for purposes of testing and excess benefit calculations.

(2) *Testing.* All employer-provided benefits available or provided during the first testing year applicable with respect to plans of the same type are taken into account in applying the nondiscrimination tests of section 89. This is the case even if such employer-provided benefits are provided under a plan that is not yet subject to section 89. The rule of this paragraph (c)(2) is illustrated in the following example:

Example. Assume that an employer maintains three health plans. Plan A's plan year begins on March 1, Plan B's plan year begins on July 1, and Plan C's plan year begins on September 1. The section 89 nondiscrimination rules apply to plan years that begin after December 31, 1988. Assume further that the employer elects as its first testing year under section 89 the 12-month period beginning on March 1, 1989. For purposes of applying the nondiscrimination tests of section 89, all health coverage provided during this 12-month period, including coverage under Plans B and C from March 1, 1989, until July 1, 1989, and September 1, 1989, respectively, is taken into account.

(3) *Excess benefit calculation*—(i) *In general.* If, during a testing year with respect to plans of the same type, an employer-provided benefit under one plan is not yet subject to the section 89 nondiscrimination rules and another plan subject to section 89 fails to satisfy the nondiscrimination rules, the rules of this

paragraph (c)(3) apply for purposes of calculating the amount of excess benefit (if any) that is attributable to employer-provided benefits subject to section 89 for such testing year. Plans that are not of the same type but are being tested under the 75 percent benefits test as if they were of the same type are to be treated as plans of the same type for purposes of this paragraph (c)(3).

(ii) *Total excess benefit.* The excess benefit for the testing year with respect to plans of the same type is calculated with regard to an employee under the generally applicable rules of section 89 as if all employer-provided benefits provided under such plans during such year were subject to section 89. See Q&A-9 of this section for rules governing the determination of excess benefits.

(iii) *Excess benefit subject to section 89*—(A) *Determination with respect to the 90 percent/50 percent eligibility and 75 percent benefits tests.* For purposes of determining excess benefit resulting from the failure of the employer to meet the requirements of paragraph (d)(2) or (d)-(4) of Q&A-1 of this section, the portion of an excess benefit that is attributable to employer-provided benefits subject to section 89 for the testing year with respect to the plan or plans being tested is determined by multiplying the excess benefit determined under paragraph (c)-(3)(ii) of this Q&A-6 by a fraction. The numerator of the fraction is the total employer-provided benefit for the highly compensated employee under the plan or plans being tested that are subject to section 89, and the denominator is the total employer-provided benefit for the highly compensated employee under the plan or plans being tested for the first testing year, whether or not they are subject to section 89. The rule of this paragraph (c)(3)(iii)(A) is illustrated by the following example:

Example. Assume that an employer maintains two health plans, Plan A and Plan B. The plan years for these plans and the effective dates for these plans for purposes of section 89 are January 1, 1989, and July 1, 1989, respectively. Plan A provides health coverage with an annual, employer-provided benefit of $1,000, and Plan B provides health coverage with an annual employer-provided benefit of $2,000. In each case, the employer-provided benefit for the 1989 year is the same as the benefit for the prior year. With regard to its health plans, the employer uses a 12-month testing year beginning on January 1, 1989. Thus, in applying the section 89 nondiscrimination tests, all health coverage under Plan B for this testing year must be taken into account. Assume that, for the 1989 testing year, the employer determines that a highly compensated employee who was in Plan A and Plan B for the entire testing year has an excess benefit of $500 for the testing period. The applicable fraction for this employee is $2,000/$3,000. The $2,000 numerator represents the annual employer-provided benefit of Plan A ($1,000) because it was subject to section 89 for the entire testing year plus ½ of the annual employer-provided benefit of Plan B ($2,000) because it was only subject to section 89 for ½ of the testing year. The denominator is the annual employer-provided benefit of Plans A and B. Thus, the employee is treated as having received an excess benefit in the amount of $333.33 (i.e., 66⅔ percent of $500).

(B) *Determination with respect to 50 percent eligibility and 80 percent coverage tests.* If an excess benefit with regard to a highly compensated individual is attributable to a plan failing to meet the requirements of the 50 percent eligibility test or the 80 percent coverage test, then this paragraph (c)(3)(iii)(B) applies. The portion of an employee's excess benefit that is attributable to employer-provided benefits for the testing year with respect to the plan or plans being tested is determined by multiplying the excess benefit determined under paragraph (c)(3)(ii) of this Q&A-6 by a fraction. The numerator of the fraction is the number of months in the testing year that the plan or plans failing the applicable requirement is subject to section 89, and the denominator is the number of months that constitute such testing year. In the case of plans that have become subject to section 89 at different times during the testing year, which plans are aggregated under the mandatory aggregation requirements of paragraphs (d) and (e) of Q&A-4 of this section, the excess benefit is determined by calculating a weighted average for each of the originally separate plans in the aggregated plan and adding together such weighted averages. The weighted average for each plan is determined by multiplying the excess benefit by a fraction. The numerator of the fraction is the product of the total amount of the employer-provided benefit for the plan year (without regard to whether such coverage was subject to section 89 for the entire testing year) multiplied by the number of months that such plan has been subject to section 89. The denominator is the product of the total amount of the employer-provided benefit for all the separate plans in the aggregated plan (without regard to whether such coverage was subject to section 89 for the entire testing year) multiplied by the number of months in the testing year.

(d) *Changes in testing year*—(1) *In general.* Subject to paragraph (d)(2) of this Q&A-6, an employer may elect to change its testing year with respect to plans of the same type if such election is made in writing prior to the beginning of such new testing year. In no case may any such change result in any employer-provided benefit subject to the section 89 nondiscrimination tests not being included in any testing year or being included in more than one testing year. See also paragraph (b)(2) of this Q&A-6 (precluding changes in an employer's second testing year with respect to plans of the same type if the employer has elected a short first testing year for 1989).

(2) *Commissioner approval.* An employer's election to change its testing year with respect to plans of the same type subject to section 89 may be made without the prior approval of the Commissioner, provided that the first day of the new testing year is on or before January 1, 1991, such change otherwise meets the requirements of paragraph (d)-(1) of this Q&A-6, and such change has no discriminatory effect. For all subsequent changes in testing years, the employer must obtain the prior approval of the Commissioner or must meet such requirements as the Commissioner may otherwise prescribe.

(3) *Example.* The provisions of this paragraph (d) are illustrated as follows:

Example. An employer is using the calendar year as its testing year for its health plans. On October 3, 1990, the employer designates the 12-month period beginning each December 1 as its new testing year, effective December 1, 1990. This is a permissible change in testing year. The result of this designation is that the employer's testing year beginning on January 1, 1990, is a short year ending on November 30, 1990.

Q-7: For purposes of applying section 89(a) to an employer's health plan, what rules apply for determining the employer-provided benefit and calculating the excess benefits?

A-7: (a) *In general.* For purposes of nondiscrimination testing under section 89, the employer-provided benefit under a health plan is the value of the health coverage under the plan that is attributable to employer contributions, determined in accordance with the rules in this Q&A-7. See paragraph (h) of this Q&A-7 for rules governing the determination of the excess benefit (if any) under section 89.

(b) *Reasonable valuation methods.* (1) *In general.* Prior to the effective date of procedures prescribed by the Secretary in accordance with section 89(g)(3)(B), employers may use any reasonable valuation method for valuing health coverage under each plan for purposes of applying the nondiscrimination tests of section 89. The employer must be able to demonstrate that its method for valuing such health coverage is actuarially reasonable. All features of a health plan must be taken into account under a reasonable method. However, unless the employer is using a reasonable cost method to value health coverage (in accordance with paragraph (c) of this Q&A-7), a reasonable valuation method may disregard those features that have a de minimis effect on the total value of the coverage under the plan and are not disproportionately available to highly compensated employees. The features that are disregarded cannot, in the aggregate, result in a more than de minimis effect on the total value of the plan. If a feature is disregarded as de minimis with respect to one health plan, it must be disregarded with respect to all health plans. An entitlement to a periodic medical diagnostic or physical examination, whether or not required as a condition of employment, is not considered to have a de minimis effect on the total value of the health coverage under the plan and thus the entitlement must be taken into account in valuing coverage even if the plan is available to nonhighly compensated employees on the same or a more favorable basis than it is to highly compensated employees and even for employees who do not actually undergo the covered examinations.

(2) *Presumption where value is substantially unrelated to cost.* If the employer is not using a cost method permitted under section 4980B to value health coverage (in accordance with paragraph (c) of this Q&A-7), a valuation method is presumed to be unreasonable if the relative values of the plans determined under such method do not reasonably reflect the relative values that would be determined for the plans using a cost method permitted under section 4980B. However, the fact that the relative values of the plans determined by the employer reasonably reflect the relative values of such plans under a cost method permitted under section 4980B does not mean that the valuation method is necessarily reasonable. The provisions of this paragraph (b)(2) are illustrated in the following example:

Example. Assume that an employer maintains three health plans for its employees and does not use a cost method permitted under section 4980B for purposes of determining the employer-provided benefits with respect to these plans. The applicable premiums under the cost method used under section 4980B(f)(4) for these plans are as follows: Plan A, $2,500; Plan B, $2,000; and Plan C, $2,100. Thus, Plan B's value under the cost method is 80 percent of Plan A's value, and Plan C's value is 84 percent of Plan A's value. Under the employer's valuation method, the values of the plans are as follows: Plan A, $1,600; Plan B, $2,400; and Plan C, $400. Thus, under the employer's valuation method, Plan B's value is 150 percent of the value of Plan A, and Plan C's value is 25 percent of Plan A's value. These relative values do not reasonably reflect the relative values under the section 4980B cost method. Thus, the presumption of this paragraph (b)(2) applies, and unless the employer can demonstrate otherwise, its valuation method is not considered reasonable.

(3) *De minimis effect.* A feature does not have a de minimis effect on the total value of coverage unless it is demonstrably difficult to value such feature and, if it were valued, the feature would be insignificant in value.

(4) *Disproportionate ratio.* A de minimis feature of a health plan is not considered to be disproportionately available to highly compensated employees if that feature, treated as a separate plan, meets the requirements of paragraph (d)(3) of Q&A-1 of this section (the 50 percent eligibility test). For purposes of this paragraph (b)(4), the availability of the feature is determined based on all health plans of the employer.

(c) *Reasonable cost method—(1) In general.* An employer is deemed to be using a reasonable valuation method that satisfies the requirements of paragraph (b) of this Q&A-7 if the employer is using a reasonable cost method as described in this paragraph (c) to value its health coverage. The employer must be able to demonstrate that its method for determining the cost of health coverage is actuarially reasonable. The method that the employer uses to determine the applicable premium for purposes of the continuation coverage requirements for group health plans in accordance with section 4980B(f)(4) is deemed to be a reasonable cost method. If a health plan is not subject to the requirements of section 4980B, the employer may calculate cost on the basis of a method permitted to be used for determining an applicable premium under section 4980B(f)(4) as if such plan were subject to that section. A cost method does not fail to be a reasonable valuation method for purposes of section 89 merely because the calculation of cost takes into account the average annual cost under section 4980B(f)(4) of substantially similar coverage for the immediately preceding two years or the immediately preceding year if two years' data are not available or if data for the two years would not be reasonable to use under the facts and circumstances of the case.

(2) *Certain permitted adjustments*—(i) *In general.* An employer may elect in writing to make certain adjustments to the cost of health coverage in determining the value of such coverage under a reasonable cost method. These adjustments are intended to eliminate cost differences that are unrelated to the relative value of health coverage. These adjustments may be made only to the extent they have not already been taken into account (if permitted) under the method of determining the applicable premium under section 4980B. If an employer makes an adjustment of the type described in this paragraph (c)(2) with respect to one health plan, the employer must make that same type of adjustment for all health plans. Thus, if an employer maintains two plans providing identical coverage at two geographic locations and elects to make the geographic adjustment permitted in paragraph (c)(2)(ii) with respect to such plans, the employer must make a geographic adjustment to all plans at all locations since the values of these plans are compared to one another under the various tests contained in section 89.

(ii) *Geographic adjustment.* Costs may be adjusted to eliminate differences in cost solely attributable to the employer's operation in significantly separate geographic locations.

(iii) *Demographic adjustment.* Costs may be adjusted to eliminate differences in cost solely attributable to the different demographic characteristics (other than family status) of the participants in the plans.

(iv) *Utilization adjustment.* Costs may be adjusted to eliminate differences in costs solely attributable to differences in the utilization of coverage features common to two or more separate health plans. This adjustment must be made by allocating the total cost for a common feature among all the plans with such feature on the basis of the number of employees covered by such feature under each of the plans. The adjustment under this paragraph (c)(iv) is to be made only after all other adjustments that are permitted in this paragraph (c).

(d) *Certain cost containment features.* A valuation method is not unreasonable if it fails to make adjustments for bona fide cost containment features, such as second opinion requirements or requirements for physician approval prior to referral for specialized medical care. In addition, a valuation method generally is not reasonable if it makes adjustments based on the method of health benefit delivery (e.g., traditional indemnity plans, health maintenance organizations and preferred provider organizations).

(e) *Consistency rule.* With the exception of certain multiemployer plans (see section 89(g)(3)(E)), an employer must use the same valuation method (including any permitted adjustment under this Q&A-7) to value all of the health plans that are tested together under section 89.

(f) *Health coverage under flexible spending arrangements.* In the case of a health plan provided under a flexible spending arrangement (FSA) (as defined in Q&A-7 of §1.125-2), the value of the coverage for a year generally is equal to the total cost (i.e., required premium or payment) of the coverage for the year, whether or not such cost is paid through employer contributions, including salary reduction contributions, or after-tax employee contributions. If an employer is separately testing employee-only health coverage and family-only health coverage (in accordance with paragraph (c) of Q&A-3 of this section) and health coverage under an FSA is applicable to employees and their family members, the employer may elect to treat 40 percent of the value of the coverage under the health FSA as family-only coverage and 60 percent of such value as employee-only coverage. This election must apply with respect to all employees who have a spouse or dependent. The rule of this paragraph (f) is illustrated in the following example:

Example. Assume that an employer maintains a cafeteria plan under which an employee may elect to reduce his or her salary by any amount of compensation for a year, to a maximum of $2,000, for reimbursements for health expenses. Assume further that the maximum reimbursement for any particular employee under the arrangement for a year is equal to the amount the employee has elected to reduce his or her salary for the year. This arrangement is a health flexible spending arrangement (FSA). Each different amount by which an employee may elect to reduce his or her salary for a year is a separate health plan under the FSA. The salary reduction contributions are employee premium payments for the level of health coverage elected for the year. For purposes of the 90 percent/50 percent eligibility test (if salary reduction contributions are treated as employer contributions under the rules of Q&A-8 of this section), the health plan under the FSA with the largest employer-provided benefit is the plan with a $2,000 maximum reimbursement. Because all employees may elect any level of coverage under the health FSA, all of the health plans included in the health FSA satisfy the 50 percent eligibility test. For purposes of the 75 percent benefits test, if an employee elects to receive health coverage under the FSA providing for the reimbursement of up to $1,200 of health expenses for a year, the value of such coverage received for the year is $1,200. This is the case without regard to whether the employee actually pays the total required premium for the coverage, as long as the employee receives the coverage. Finally, for purposes of the 80 percent coverage test, each different level of coverage under the health FSA is a separate health plan with a value equal to the cost of such level of coverage.

(g) *Health coverage attributable to employer contributions*—(1) *In general.* The portion of the value of the health coverage of a plan that is attributable to employer contributions is determined by multiplying the value of the health coverage of the plan (determined under paragraphs (b) through (f) of this Q&A-7) by a fraction. The numerator of the fraction is the employer-paid cost of the health plan, and the denominator of the fraction is the sum of the employer-paid cost and the employee-paid cost of the health plan. For this purpose, the cost of a health plan is its actual cost determined under the same method the employer uses to determine the applicable premium (for the same coverage) for health continuation coverage purposes under section 4980B(f)(4) without regard to any of the adjustments permitted in paragraph (c) of this Q&A-7 (other than the adjustment for utilization differences). If a health plan is not subject to the requirements of section 4980B, the employer may calculate cost on the basis of a method permitted to be used for determining an applicable premium under section 4980B(f)(4) as if such plan were subject to that section. For purposes of this Q&A-7, health coverage of a self-employed individual is deemed attributable to employer contributions to the extent that a deduction under section 162(m) is allowable with respect to the coverage. Also, the determination of the extent to which health coverage is attributable to employer or employee contributions is to be made without regard to whether an employee is permitted a deduction with respect to employee contributions under section 213.

(2) *Exception.* If, for a particular health plan, the employer-paid portion of the cost (treating salary reduction contributions as employer contributions) is less than or equal to 2 percent of the sum of the employer-paid cost and the employee-paid cost of such health plan, the employer may treat such health plan as providing no employer-provide benefit.

(3) *Salary reduction contributions.* See Q&A-8 of this section for the treatment of salary reduction contributions under a cafeteria plan as either employer or employee contributions.

(h) *Calculation of excess benefit.* The amount of a highly compensated employee's excess benefit under section 89(b) with respect to a health plan is the cost of the excess benefit based on its actual cost determined under the same method the employer uses to determine the applicable premium for the same coverage for health continuation coverage purposes under section 4980B(f)(4) without regard to any of the adjustments permitted in paragraph (c) of this Q&A-7 (other than the adjustment for utilization differences). This rule applies with respect to both highly compensated and nonhighly compensated employees. Thus, an employed must use the method it uses to determine the applicable premium for all coverage provided in making the determination of excess benefits. See Q&A-9 of this section for further guidance with respect to the determination of excess benefits.

Q-8: How are salary reduction contributions treated for purposes of the section 89 nondiscrimination tests?

A-8: (a) *Treatment of salary reduction contributions*—(1) *In general.* Except as otherwise provided (see, e.g. , paragraphs (b) and (c) of this Q&A-8), salary reduction contributions are treated as employer contributions. Thus, for purposes of paragraph (d)(3) (the 50 percent eligibility test), paragraph (d)(4) (the 75 percent benefits test), and paragraph (e) (the 80 percent coverage test) of Q&A-1 of this section, the portion of the value of health coverage that is attributable to salary reduction contributions is treated as attributable to employer contributions and thus as an employer-provided benefit. See paragraph (d)(2) of Q&A-4 of this section for a special rule for the treatment of certain salary reduction contributions for purposes of the mandatory aggregation rule for the 50 percent eligibility test.

(2) *Definition of salary reduction contributions.* The term "salary reduction contributions" means all employer contributions that are excludable from the gross income of an employee by reason of section 125. Thus, all elective contributions under a cafeteria plan described in section 125 that are excludable from employees' gross incomes are salary reduction contributions, even if such amounts are available in cash or other taxable benefits only if the employee satisfies a specified condition under the plan (e.g., the completion of a statement that the employee has other health plan coverage). This is the case regardless of the manner in which such contributions are described under a plan. For example, amounts that are described as employer or company credits under a cafeteria plan are salary reduction contributions to the extent that such amounts are available to employees in cash or other taxable benefits under the plan, even if, for example, the plan defines salary reduction contri-

butions as only those contributions that are directly and explicitly deducted from employees' regular salaries.

(b) *90 percent/50 percent eligibility test*—(1) *In general.* Except as provided in paragraphs (b)(2) and (c) of this Q&A-8, for purposes of paragraph (d)(2) of Q&A-1 of this section (the 90 percent/50 percent eligibility test), salary reduction contributions are treated as employee contributions (rather than employer contributions) in computing the employer-provided benefit available to any employee.

(2) *Election to treat as employer contributions*—(i) *In general.* An employer may elect in writing to treat all salary reduction contributions as employer contributions for purposes of paragraph (d)(2) of Q&A-1 of this section (the 90 percent/50 percent eligibility test). An employer may not elect to treat some, but not all, salary reduction contributions as employer contributions. An employer election under this paragraph (b)(2) applies with respect to all salary reduction contributions with regard to plans of the same type whether or not the plans are part of the same cafeteria plan.

(ii) *Requirements to qualify for election*—(A) *In general.* In order to make an election under this paragraph (b)(2), an employer must meet the requirements of paragraphs (b)(2)(ii)(B) through (b)(2)(ii)(D) of this Q&A-8.

(B) *Plan must be available on same terms.* This requirement is satisfied only if all of the benefits available under each cafeteria plan are available on the same terms and conditions to all employees eligible to participate under such plans.

(C) *Nonhighly compensated employees may not comprise a disproportionate portion of those eligible to participate.* This requirement is satisfied only if the nonhighly compensated eligibility percentage for each cafeteria plan does not exceed the highly compensated eligibility percentage for each such plan. The nonhighly compensated eligibility percentage is the percentage determined by dividing the number of nonhighly compensated employees eligible to participate in the cafeteria plan by the total number of nonhighly compensated employees, and the highly compensated eligibility percentage is the percentage determined in the same manner by reference only to highly compensated employees.

(D) *No highly compensated employee with benefits outside cafeteria plan.* This requirement is satisfied only if no highly compensated employee eligible to participate in a cafeteria plan is eligible to participate in any other statutory employee benefit plan that is of the same type as a plan available under the cafeteria plan unless such other statutory employee benefit plan (whether inside or outside of a cafeteria plan) is available on the same terms and conditions to all nonhighly compensated employees that are eligible to participate in the cafeteria plan.

(c) *Mandatory treatment of salary reduction contributions*— (1) *In general.* Notwithstanding paragraphs (b)(1) and (b)(2) of this Q&A-8, if certain conditions set forth in paragraph (c)(2) or (c)(3) of this Q&A-8 are satisfied, an employer is required to treat some or all salary reduction contributions available to highly compensated employees as employer contributions, some or all salary reduction contributions available to nonhighly compensated employees as employee contributions, or both. Paragraphs (c)(2) and (c)(3) of this Q&A-8 are applied separately. This mandatory treatment applies only for purposes of applying the 90 percent/50 percent eligibility test of paragraph (d)(2) of Q&A-1 of this section (including the 80 percent/66 percent and 80 percent/80 percent eligibility test alternatives set forth in paragraphs (b) and (c)(6)(iii) of Q&A-2 of this section).

(2) *Highly compensated employees*—(i) *In general.* In computing the largest employer-provided benefit available to a highly compensated employee (and for purposes of the excess benefit calculation under paragraph (e) of Q&A-9 of this section), core health coverage attributable to salary reduction contributions is treated as attributable to employer contributions (rather than employee contributions) to the extent that the portion of the core health coverage attributable to salary reduction contributions exceeds 100 percent of the portion of the core health coverage attributable to employer contributions (excluding salary reduction contributions). The rule of this paragraph (c)(2) applies only if the employer has not made the election described in paragraph (b)(2) of this Q&A-8.

(ii) *Examples.* The rule of this paragraph (c)(2) is illustrated by the following examples:

Example 1. Assume that a highly compensated employee may elect coverage under one of two health plans: Plan A has an employer-provided benefit of $4,000, which is attributable to non-salary reduction, employer contributions; and Plan B (a core health plan) has a total employer-provided benefit of $5,200 (i.e., $3,200 attributable to non-salary reduction, employer contributions and $2,000 attributable to salary reduction contributions). This paragraph (c)(2) does not require that any of the salary reduction contributions for Plan B be treated as employer contributions for purposes of determining the plan with the largest employer-provided benefit available to this highly compensated employee. Thus, for purposes of the 90 percent/50 percent eligibility test and assuming that the employer has not made the election under paragraph (b)(2) of this Q&A-8, Plan A is the plan with the largest employer-provided benefit available to this employee.

Example 2. Assume the same facts as Example 1, except that Plan B's total employer-provided benefit of $5,200 is comprised of $2,500 attributable to non-salary reduction, employer contributions and $2,700 attributable to salary reduction contributions. This paragraph (c)(2) requires that $200 of the salary reduction contributions for Plan B (i.e., the excess of the salary reduction contributions over the non-salary reduction, employer contributions) be treated as employer contributions for purposes of determining the plan with the largest employer-provided benefit available to this highly compensated employee. Thus, for purposes of the 90 percent/50 percent eligibility test, Plan B is treated as having an employer-provided benefit of $2,700. However, Plan A still is the plan with the largest employer-provided benefit available to this highly compensated employee.

Example 3. Assume the same facts as in Example 1, except that Plan B has a total employer-provided benefit of $8,000 (i.e., $3,500 attributable to non-salary reduction, employer contributions and $4,500 attributable to salary reduction contributions). This paragraph (c)(2) requires that $1,000 of the salary reduction contributions for Plan B (i.e., the excess of the salary reduction contributions over the non-salary reduction, employer contributions) be treated as employer contributions for purposes of determining the plan with the largest employer-provided benefit available to this highly compensated employee. Thus, for purposes of the 90 percent/50 percent eligibility test, Plan B is treated as having an employer-provided benefit of $4,500 and, accordingly, is the plan with the largest employer-provided benefit available to this highly compensated employee.

Example 4. Assume the same facts as in Example 3, except that the highly compensated employee also may elect health coverage under a flexible spending arrangement (FSA) providing for health expense reimbursements up to and including $5,000. Because health FSAs are not core health plans, this FSA is disregarded in applying this paragraph (c)(2). Thus, the manner in which such health FSA, the employer-provided benefit of which is wholly attributable to salary reduction contributions, is taken into account for purposes of the 90 percent/50 percent eligibility test depends upon whether salary reduction contributions are generally disregarded or are generally taken into account as employer contributions for purposes of such test.

Example 5. Assume the same facts as Example 3, except that the highly compensated employee also has available Plan C, a dental plan not funded through salary reduction and with an employer-provided benefit of $500. Since the dental plan is not a core health plan, it is not considered in determining whether salary reduction contributions are treated as employer contributions under this paragraph (c)(2). However, the employer-provided benefit of the dental plan is added to the total employer-provided benefit available to the highly compensated employee in determining the largest employer-provided benefit available to any highly compensated employee.

(3) *Nonhighly compensated employees.* In computing the employer-provided benefit available to a nonhighly compensated employee, core health coverage attributable to salary reduction contributions is treated as attributable to employee contributions (rather than employer contributions) to the extent that the portion of the core health coverage attributable to salary reduction contributions exceeds 100 percent of the portion of the core health coverage attributable to employer contributions (excluding salary reduction contributions). The rule of this paragraph (c)(3) applies only if the employer has made the election described in paragraph (b)(2) of this Q&A-8.

(4) *Transition rule.* This paragraph (c) does not apply with respect to testing years beginning before January 1, 1990.

(d) *Certain part-time employees.* See section 89(g)(3)(D)(i) for the treatment of salary reduction contributions for employees described in section 89(j)(5).

Q-9: How is an excess benefit under the section 89 nondiscrimination rules to be determined with respect to health plans?

A-9: (a) *In general.* A highly compensated employee's excess benefit under a discriminatory employee benefit plan that is a health plan for a testing year generally is determined in accordance with the rules for applying the requirements of section 89 for the testing year and with the modifications set forth in this Q&A-9. Because the method for determining excess benefits thus differs from the method for applying the nondiscrimination tests of section 89, a statutory employee benefit plan that is a discriminatory employee benefit plan under the nondiscrimination tests may, in some circumstances, not have any excess benefit under this Q&A-9. Similarly, a statutory employee benefit plan is treated as not having an excess benefit under this Q&A-9 if such plan satisfies the applicable nondiscrimination tests of section 89 and thus is not a discriminatory employee benefit plan. See paragraph (b) of Q&A-1 of this section. This is the case even if such plan would be determined to have an excess benefit under the rules of this Q&A-9 if such rules were applicable to such plan. See paragraph (h) of Q&A-7 of this section for the requirement that, for purposes of determining the amount of excess benefit, the value of the benefit of all employees must be determined under the same method the employer uses for determining the applicable premium for health continuation coverage purposes under section 4980B(f)(4) and the nondiscrimination tests reapplied on such basis. In addition, see paragraph (c) of Q&A-6 for rules relating to the determination of excess benefits for testing years beginning in 1989 if some, but not all, of the employer-provided benefits for such years are subject to the section 89 nondiscrimination rules.

(b) *Determination made under failed requirements*—(1) *In general.* A highly compensated employee's excess benefit under a discriminatory employee benefit plan is determined under the failed requirements of paragraphs (c), (d) and (e) of Q&A-1 of this section. Thus, for example, if each health plan satisfies the 50 percent eligibility test, but the health plans collectively fail to satisfy the 75 percent benefits test, excess benefits are to be determined only under the 75 percent benefits test. However, an employer may elect in writing to use the 80 percent coverage test to determine excess benefits without regard to whether it used that test in determining compliance with section 89. Similarly, the employer may elect in writing to use the tests described in paragraphs (c) and (d) of Q&A-1 of this section to determine excess benefits even if it initially used the 80 percent coverage test to determine whether its plans are discriminatory.

(2) *Failure of more than one requirement.* Where an employer's health plans of the same type fail to meet more than one requirement of Q&A-1 of this section, the excess benefit calculations for the failed requirements are to be made in the following order: the 50 percent eligibility test; the 90 percent/50 percent eligibility test; and the 75 percent benefits test. If a highly compensated employee is determined to have an excess benefit under the 50 percent eligibility test, then for purposes of determining such employee's excess benefit (if any) under the 90 percent/50 percent eligibility test, such employee's employer-provided benefit for purposes of the 90 percent/50 percent eligibility test excess benefit calculation is first reduced by the amount of such employee's excess benefit determined under the 50 percent eligibility test excess benefit calculation. If a portion of the employer-provided benefit of the plan that failed the 50 percent eligibility test is attributable to salary reduction contributions, then the same portion of an employee's excess benefit with respect to such plan is treated as attributable to salary reduction contributions. For purposes of determining excess benefits under the 75 percent benefits test, a highly compensated employee's employer-provided benefit under the plan or plans that failed the 50 percent eligibility test or the 90 percent/50 percent eligibility test (or both) is first reduced by the amount of such employee's excess benefit with respect to such test or tests.

(c) *Highly compensated employees and the employer-provided benefit taken into account for purposes of determining excess benefit*—(1) *In general.* For purposes of making the excess benefit calculations under this Q&A-9, all highly compensated employees who receive employer-provided benefits for a testing year under a plan or plans that fail the applicable nondiscrimination test are eligible to be treated as receiving excess benefits. This is the case even though such highly compensated employees were not taken into account for any reason on the testing day for such testing year. In addition, only employer-provided benefits that highly compensated employees actually receive for a testing year under a plan or plans that fail the applicable nondiscrimination test may be treated as excess benefits. Thus, for example, a highly compensated employee does not have an excess benefit with respect to a plan that fails the 50 percent eligibility test merely because such employee is eligible to receive, but does not actually receive, employer-provided benefits (e.g., health plan coverage) under such plan. Similarly, employer-provided benefits that highly compensated employees do not actually receive but were treated as having received under the rules providing for the annualization and adjustment of the employer-provided benefits for the testing day are not treated as excess benefits.

(2) *Special rule.* In the case of the first testing year beginning in 1989 of an employer that is using the transition rule included in paragraph (b)(5) of Q&A-5 of this section, the excess benefits (if any) for such testing year may be determined by reference to those employer-provided benefits that highly compensated employees actually receive for the partial testing year, annualized for the entire testing year as provided in paragraph (b)(5)(iv) of Q&A-5 of this section. If an employer elects to determine excess benefits in accordance with the preceding sentence, the employer must provide those highly compensated employees having excess benefits an opportunity to demonstrate that they actually

received less employer-provided benefits during the portion of the testing year preceding the partial testing year than the deemed employer-provided benefits under paragraph (b)(5) of Q&A-5 of this section. If an employee makes such a demonstration, the employer must recalculate such employee's excess benefit based on the employer-provided benefits actually received for the entire testing year and make any amendments to required reports relating to such employee (e.g., Form W-2). This special rule is not available with respect to a plan for which paragraph (b)(5) of Q&A-5 of this section is inapplicable.

(d) *50 percent eligibility test.* A highly compensated employee's excess benefit under a health plan that fails to satisfy the 50 percent eligibility test of paragraph (d)(3) of Q&A-1 of this section is equal to that portion of the employer-provided benefit actually received by such employee under the plan that is in excess of the maximum employer-provided benefit that such plan may have and be included in a group of comparable plans under paragraph (b) of Q&A-4 of this section that satisfies the 50 percent eligibility test. The rule of this paragraph (d) is illustrated as follows:

Example. An employer maintains two health plans, Plan A and Plan B. Plan A has an employer-provided benefit of $3,000 and is automatically provided to all employees of the employer other than those eligible for Plan B. Plan B has an employer-provided benefit of $4,000 and is available to all employees who earn more than $100,000. Plan B fails to satisfy the 50 percent eligibility test. As a result, each highly compensated employee who actually receives coverage under Plan B is treated as receiving an excess benefit with respect to such plan. The employer-provided benefit under Plan B must be reduced by $842 to $3,158 ($3,000 is 95 percent of $3,158), in order for Plan B to be included in a group of comparable plans with Plan A under paragraph (b) of Q&A-4 of this section. Thus, for a highly compensated employee who received a full $4,000 employer-provided benefit under Plan B, the amount of the excess benefit with respect to Plan B is $842.

(e) *90 percent/50 percent eligibility test.* A highly compensated employee's excess benefit under plans of the same type that fail to satisfy the 90 percent/50 percent eligibility test of paragraph (d)(2) of Q&A-1 of this section is equal to that portion of the employer-provided benefit actually received by such employee under such plans that is in excess of 200 percent of the largest amount of employer-provided benefit available to at least 90 percent of the employer's nonhighly compensated employees. For this purpose, benefits attributable to salary reduction contributions by nonhighly compensated employees are not treated as employer-provided benefits, even if the employer has made the election provided under paragraph (b)(2) of Q&A-8 of this section. In addition, benefits with respect to highly compensated employees that are attributable to salary reduction contributions are not treated as employer-provided benefits except to the extent that such contributions are treated as employer contributions with regard to such employees under paragraph (c)(2) of Q&A-8 of this section. The rule of this paragraph (e) is illustrated as follows:

Example. Assume that an employer maintains numerous health plans for its employees. For a testing year, the largest employer-provided benefit available to any highly compensated employee, determined under the 90 percent/50 percent eligibility test, is $12,000. Because only 75 percent of the employer's nonhighly compensated employees have available to them an employer-provided benefit of at least $6,000, the employer's health plans fail to satisfy the 90 percent/50 percent eligibility test. As a result, the highly compensated employees who receive coverage under one or more health plans are treated as receiving an excess benefit. If, for this testing year, 90 percent of the employer's nonhighly compensated employees have available to them an employer-provided health benefit of at least $4,500, a highly compensated employee is treated as receiving an excess benefit to the extent such employee actually receives (rather than is eligible to receive) an employer-provided benefit under all health plans in excess of $9,000 (i.e., 200 percent of $4,500). If the largest amount of employer-provided benefit that is available to 90 percent of the employer's nonhighly compensated employees were $3,000 (instead of $4,500), a highly compensated employee's excess benefit would be the amount of such employee's employer-provided benefit that is in excess of $6,000. If no amount of employer-provided benefit is available to 90 percent or more of the nonhighly compensated employees, then all highly compensated employees have excess benefits equal to their total employer-provided benefits received for the testing year.

(f) *75 percent benefits test*—(1) *In general.* A highly compensated employee's excess benefit under plans of the same type that fail to satisfy the 75 percent benefits test of paragraph (d)(4) of Q&A-1 of this section is determined under the rules of this paragraph (f). If plans of different types are tested together under paragraph (f)(2)(ii) of Q&A-1 of this section, then such plans are treated as plans of the same type for purposes of this paragraph (f).

(2) *Reapply test.* The 75 percent benefits test is to be reapplied for the testing year with respect to those plans of the same type by taking into account, in accordance with paragraph (c) of this Q&A-9, all highly compensated employees of the employer and the employer-provided benefits that such employees actually received for the testing year. If upon such reapplication of the 75 percent benefits test, such test is satisfied, there are no excess benefits under section 89(b) with respect to such test.

(3) *Amount of excess benefit.* Excess benefits under the 75 percent benefits test are determined by reducing the employer-provided benefit of the highly compensated employee or employees with the highest amount of employer-provided benefit for the testing year, under the 75 percent benefits test as reapplied in accordance with this paragraph (f), until either such employee's employer-provided benefit is equal to the next highest amount of employer-provided benefit for any highly compensated employee or if no next highest such employee exists, until the employee no longer has any employer-provided benefit. This method of reduction is then applied with respect to additional highly compensated employees (beginning with highly compensated employees with the highest remaining amounts of employer-provided benefits) until the 75 percent benefits test is satisfied in accordance with this paragraph (f). A highly compensated employee's excess benefit is equal to the total amount of such employee's employer-provided benefit that is reduced under this paragraph (f).

(g) *80 percent coverage test*—(1) *In general.* A highly compensated employee's excess benefit under a plan that fails to satisfy the 80 percent coverage test of paragraph (e) of Q&A-1 of this section is equal to that portion of the employer-provided benefit received by such employee under the plan that is in excess of the maximum employer-provided benefit that such plan may have and be included in a group of comparable plans under paragraphs (c)(1) through (c)(4) of Q&A-4 of this section that satisfies the 80 percent coverage test.

(2) *Examples.* The rule of this paragraph (g) is illustrated in the following examples:

Example 1. An employer maintains numerous health plans. All but one of such employer's health plans are included in a group of comparable plans determined in accordance with paragraph (c)(5) of Q&A-4 of this section (employee cost comparability). Because over 80 percent of the employer's nonhighly compensated employees are covered by a plan included in the group of comparable plans, each of the plans in such group satisfies the 80 percent coverage test. The deemed employer-provided benefit for the group of comparable plans is $3,780. Plan F, which has an employer-provided benefit of $5,000, is not included in the group of comparable plans and thus such plan fails the 80 percent coverage test. If Plan F's employer-provided benefit were reduced by $800 to $4,200 ($3,780 is 90 percent of $4,200), it could be included in the group of comparable plans under the rules of paragraph (c)(1) of Q&A-4 of this section. Similarly, if Plan F's employer-provided benefit were reduced by $1,221 to $3,779, it could be included in the group of comparable plans under the rules of paragraph (c)(4) of Q&A-4 of this section. As a result, each highly compensated employee who receives coverage under Plan F is treated as receiving an excess benefit of $800 (the lesser of $800 and $1,221) with respect to such plan.

Example 2. Assume the same facts as Example 1 except that the plan that is not included in the group of comparable plans fails the 50 percent eligibility test of paragraph (b) of Q&A-4 of this section. Under paragraph (c)(3) of Q&A-4 of this section, the eligibility test must be satisfied before the plan may be included in a group of comparable plans in determining whether the 80 percent coverage test is satisfied. Thus, the excess benefit for Plan F must include the amount necessary to permit such plan to satisfy the 50 percent eligibility test. In this example, this would occur if Plan F's employer-provided benefit were reduced by $1,021 to $3,979 ($3,780 is 95 percent of $3,979).

Q-10: What are the effective dates of the section 89 nondiscrimination and qualification rules?

A-10: (a) *Effective date*—(1) *In general.* Except as otherwise provided in this Q&A-10, the nondiscrimination rules of sections 89(a)-(j) and 89(l)-(m) and the qualification rules of section 89(k) apply for plan years beginning after December 31, 1988.

(2) *Collectively bargained plans*—(i) *In general.* In the case of a collectively bargained plan that is adopted pursuant to one or more collective bargaining agreements ratified prior to March 1, 1986, section 89 does not apply to such plan with respect to employees included in a unit of employees covered by any of such collective bargaining agreements in years beginning before the earlier of January 1, 1991, or the date on which the last collective bargaining agreement relating to the plan expires (determined without regard to extensions after February 28; 1986).

(ii) *Definition of collectively bargained plan.* A collectively bargained plan is a plan covering only eligible individuals who are included in a unit of employees covered by an agreement that is a collective bargaining agreement entered into between employee representatives and one or more employers (as determined under section 7701(a)(46)). A plan that is maintained pursuant to two or more collective bargaining agreements is treated as two or more collectively bargained plans to the extent that the employer-provided benefits provided pursuant to the agreements are not uniform. Thus, for example, if a multiemployer plan is maintained pursuant to three collective bargaining agreements, two of which provide for an identical benefit structure and one of which provides for a different benefit structure, the plan is treated as two separate, collectively bargained plans for purposes of this paragraph (a)(2).

(iii) *Plans benefiting non-collectively bargained employees.* If a plan provides employer-provided benefits to employees who are included in a unit of employees covered by a collective bargaining agreement and to employees who are not included in any such unit of employees (i.e., non-collectively bargained employees), the non-collectively bargained employees are treated as covered by a plan that is not a collectively bargained plan for purposes of this paragraph (a)(2). Thus, the delayed effective date of paragraph (a)(2)(i) of this Q&A-10 is available only with respect to the portion of the plan that provides employer-provided benefits to the collectively bargained employees.

(iv) *Treatment of collectively bargained employees as excludable employees.* Unless the employer elects otherwise, employees who receive employer-provided benefits under a collectively bargained plan to which section 89 does not yet apply by reason of this paragraph (a)(2) are to be treated as excludable employees (i.e., as though they were described in section 89(h)) for purposes of applying the nondiscrimination tests of section 89 to plans that are subject to section 89. However, an employer may elect in writing not to treat such collectively bargained employees as excludable employees for purposes of applying section 89 to plans that are subject to section 89. Such an election must be made with respect to all collectively bargained employees, regardless of bargaining unit, and once made applies to all subsequent testing years. Such an election does not accelerate the otherwise applicable effective date with respect to the application of the qualification rules of section 89(k) to such collectively bargained plan or plans. However, if the employer makes an election under this paragraph (a)(2)-(iv), then the nondiscrimination rules of section 89 are effective with respect to such plan or plans and thus a highly compensated employee within the group of otherwise excludable employees (i.e., nonexcludable by reason of such election), may have an excess benefit under section 89(b).

(v) *Examples.* The provisions of this paragraph (a)(2) are illustrated by the following examples:

Example 1. A collective bargaining agreement ratified in January 1986 is scheduled to expire on December 31, 1992. Such agreement provides for contributions by an employer to a multiemployer plan providing health coverage. Assuming that no employee who is included in the collective bargaining unit receives health coverage from the employer other than coverage under the multiemployer plan, the collective bargaining employees and their health coverage may be disregarded by the employer in applying the section 89 nondiscrimination tests for any period before January 1, 1991.

Example 2. Employer X maintains two health plans, Plan A (covering non-collectively bargained employees) and Plan B (covering collectively bargained employees). Plan B is a multiemployer plan that has an effective date for purposes of section 89 of January 1, 1991. Plan A is an insurance plan with a policy that expires on June 30, 1989. The collectively bargained employees receiving benefits under Plan B may be treated as excludable employees until January of 1991 and their health coverage may be disregarded by Employer X in applying the nondiscrimination tests of section 89 until that date. However, before that date, Employer X may elect to take such collectively bargained employees (and their employer-provided benefits) into account for purposes of testing Plan A for periods prior to January of 1991.

(b) *Definition of plan year*—(1) *In general.* Except as provided in paragraph (b)(2) or (b)(3) of this Q&A-10, for purposes of determining the applicable effective date of section 89 with respect to a plan, the plan year is the year that is designated as the plan year in the written plan. For plans other than health and group-term life insurance plans, if there is no such designation, the plan year is the calendar year. For purposes of this rule, the designation of a plan year solely for purposes of filing the Form 5500 is to be disregarded.

(2) *Certain health and group-term life insurance plans*—(i) *Insured plans.* If a health or group-term life insurance plan's plan year is not clearly ascertainable from a written plan document adopted and in existence on January 1, 1989, and the plan is provided under an arrangement through an insurance company, the policy year is the applicable plan year for effective date purposes. If there is no policy year, the employer may elect in writing either the limit/deductible year, the calendar year, or the employer's fiscal year as the applicable plan year for effective date purposes. If the employer does not make such an election, the applicable plan year is the calendar year. An arrangement is not provided through an insurance company for purposes of this paragraph (b) if the insurance company provides merely administrative services under the arrangement.

(ii) *Self-insured plans.* If a health or group-term life insurance plan's plan year is not clearly ascertainable from a written plan document adopted and in existence on January 1, 1989, and the coverage under such plan is not provided under an arrangement through an insurance company, the employer may elect in writing either the limit/deductible year, the calendar year, or the employer's fiscal year as the applicable plan year for effective date purposes. If the employer does not make such an election, the applicable plan year is the calendar year.

(iii) *Limit/deductible year.* The limit/deductible year is the year with respect to which the plan's benefit and deductible limits are applied, except that if different years are used for benefit limit purposes and for deductible limit purposes, it means the limit or deductible year that commences earlier in the calendar year.

(3) *Special rule to prevent delay of the section 89 effective date*—(i) *In general.* Notwithstanding paragraphs (b)(1) and (b)(2) of this Q&A-10, in the case of a health or group-term life insurance plan with respect to which the first day of the first plan year beginning after December 31, 1988 (determined under paragraphs (b)(1) and (b)(2)), is later during the calendar year than the first day of the first plan year (also determined under such paragraphs) beginning in 1988, the first plan year beginning after December 31, 1988, is deemed to begin on the day that is 12 months after the first day of the plan's first plan year beginning in 1988. Thus, section 89 becomes effective with respect to such plan on the first anniversary date of the plan's first plan year beginning in 1988. In addition, for purposes of this Q&A-10, a plan's last plan year beginning in 1988 is not treated as longer than 12 months in duration. Thus, for example, an agreement between an employer and insurance company to extend for longer than 12 months the last plan year of a health plan beginning in 1988 is not recognized for purposes of determining the applicable section 89 effective date with respect to such plan. Such plan is treated as commencing a new plan year on the day that is 12 months after the first day of the last plan year commencing in 1988.

(ii) *Exceptions*—(A) *In general.* Except as provided in paragraph (b)(3)(iii) of this Q&A-10, paragraph (b)(3)(i) of this Q&A-10 does not apply to the extent that any of the tests described in this paragraph (b)(3)(ii)(B) through (D) are satisfied.

(B) *Three-month rule.* A plan is a health plan and the first day of the plan's first plan year beginning after December 31, 1988, is not more than 3 months later during the calendar year than the first day of the plan's first plan year beginning in 1988 and the selection of the new plan year was for bona fide business reasons unrelated to section 89 (e.g., by reason of a merger or acquisition).

(C) *New carrier rule.* A plan is a health plan and the health coverage for the plan's first plan year beginning after December 31, 1988, is provided through an insurance arrangement with an insurance company unrelated to any insurance company that provided health coverage under the plan for the first day of the plan's first plan year beginning in 1988 and such change in insurance carriers and the selection of the new plan year were for bona fide business reasons unrelated to section 89.

(D) *Uniform plan year.* The first day of the plan's first plan year beginning after December 31, 1988, is the same day during the calendar year on which commenced in 1988 the plan year or years of the plan or plans of the same type that provided, in the aggregate, at least 25 percent of the total employer-provided benefits provided under all plans of the same type during 1988 and the selection of the new plan year was for bona fide business reasons unrelated to section 89. This rule may be applied in the case of a merger or acquisition by treating such transaction as having occurred on December 31, 1987.

(iii) *Retroactive plan year changes.* This paragraph (b)(3) is to be applied by disregarding any change in a plan year that is made after the commencement of such plan year.

(iv) *Additional rules.* The Commissioner may, through revenue rulings, notices, and other guidance of general applicability, provide such additional exceptions to paragraph (b)(3)(i) of this Q&A-10 as are appropriate if such exceptions do not have the effect of permitting employers to delay significantly the effective date of section 89 with respect to their plans without any significant, independent business reason.

(4) *New plans.* For purposes of this Q&A-10, a plan is not treated as a new plan commencing in calendar year 1989, unless such plan provides coverage and benefits that are substantially different from the coverage and benefits previously provided by a plan in calendar year 1988.

(5) *Certain dispositions or acquisitions.* If a person becomes or ceases to be a member of a group described in section 414(b), (c), (m) or (o) on or before December 31, 1988, the transitional rule of section 89(j)(8) is not applicable with respect to any plan of such person or of any member of such group unless the requirements of section 89 were met immediately before such change in the group. This determination is to be made as though section 89 (and this section) were effective with respect to all such plans of such person. Alternatively, for testing years beginning in 1989, the nondiscrimination rules of section 89 may be applied separately to the separate portions of the group under section 414(b), (c), (m) and (o) involved in the change of the group as if such portions did not become part of the same group until December 31, 1989.

§1.89(k)-1 Qualification requirements for certain employee welfare benefit plans.

The following is a list of the questions addressed in this section.

Q-1: What is required under section 89(k)?

Q-2: What plans must meet the requirements of section 89(k)?

Q-3: What is required under the writing requirement of section 89(k)(1)(A)?

Q-4: When is a plan legally enforceable within the meaning of section 89(k)(1)(B)?

Q-5: What constitutes reasonable notification of employees under section 89(k)(1)(C)?

Q-6: How does an employer meet the exclusive benefit requirement of section 89(k)(1)(D)?

Q-7: How is it determined whether a plan is established with the intent of being maintained for an indefinite period of time?

Q-8: What are the sanctions for failure to meet the qualification requirements of section 89(k)?

Q-1: What is required under section 89(k)?

A-1: (a) *In general.* Section 89(k) imposes the following requirements on employers maintaining certain employee benefit plans as described in Q&A-2 of this section: the plan must be in writing; employees within the class of employees designated in the plan as eligible for participation must have a legally enforceable right to participate and, if covered under such plan, to receive benefits; employees who are eligible to participate must be provided reasonable notice of the benefits available under such plan; the plan must be maintained for the exclusive benefit of employees; and the plan must be established with the intent that it will be maintained for an indefinite period of time.

(b) *Definitions*—(1) *Benefit*. For purposes of section 89(k), the term ''benefit'' or ''benefits'' means those payments, reimbursements, products and services provided under the plan to a participant on account of such participant's claim, need or event that is covered under the plan. For example, the fair market value of the use of an on-site child care facility by a participant is the benefit under a dependent care assistance program described in section 129. Similarly, reimbursement of a participant's expense incurred for a covered surgical procedure is a benefit under a health plan. Another example of a benefit under a plan is the payment of a death benefit under a group-term life insurance plan to which section 79 applies.

(2) *Employer-provided benefit*. With respect to section 89(k), the term ''employer-provided benefit'' means that portion of the benefits received by an individual that is attributable to employer contributions, including salary reduction contributions under a cafeteria plan. See paragraph (f)(3) of Q&A-1 of §1.89(a)-1 for a definition of ''employer-provided benefit'' for purposes of the nondiscrimination rules under section 89.

(3) *ERISA*. The term ''ERISA'' refers to the Employee Retirement Income Security Act of 1974, as amended.

(4) *Salary reduction contributions*. The term ''salary reduction contributions'' means elective contributions under a cafeteria plan described in section 125 that would be taxable to an employee, but for section 125, by reason of such employee's right to receive such amounts as cash or other taxable benefits. See paragraph (a)(2) of Q&A-8 of §1.89(a)-1 for further guidance regarding the term ''salary reduction contributions.''

Q-2: What plans must meet the requirements of section 89(k)?

A-2: (a) *In general*—(1) *Types of plans subject to section 89(k)*. In general, the following plans are subject to section 89(k): an accident or health plan (sections 106 and 105); a plan of an employer providing group-term life insurance (section 79); a dependent care assistance program (section 129(d)); a qualified tuition reduction program (section 117(d)); a cafeteria plan (section 125(c)); a fringe benefit program providing no-additional-cost services, qualified employee discounts, or employer-operated eating facilities, the benefits from which are excludable from the gross income of the beneficiary under section 132; and a plan of which an organization covered by section 505 is a part. Section 89(k) applies to these plans without regard to whether they are statutory employee benefit plans subject to the nondiscrimination rules of section 89 and without regard to whether they are subject to Title I of ERISA. Also, section 89(k) applies to plans described in this paragraph (a)(1) even though they are maintained by employers that are state or local governments or by the federal government. Finally, except as provided in paragraph (f) of this Q&A-2, section 89(k) also applies to plans described in this paragraph (a)(1) even though they are maintained by organizations exempt from taxation under section 501(a).

(2) *Plans maintained by an employer*. For purposes of section 89(k), a plan ''maintained by an employer'' is any plan of, or subsidized by, an employer who employs participants in the plan. A plan is maintained by an employer even if the cost of such plan is borne by the employees through after-tax employee contributions, as long as the value of the coverage under the plan for any employee is greater than such employee's after-tax contributions. See section 79 and the regulations thereunder for rules relating to when a group-term life insurance plan is subject to section 79 and, therefore, to section 89(k). For purposes of this paragraph (a)(2), the term ''employee'' includes the spouse and dependents of an employee. See also Q&A-6 of this section with regard to individuals who may participate in a plan. In addition, plans of the type described in paragraph (a)(1) of this Q&A-2 that are maintained by one or more ''employee organizations,'' as that term is defined in section 3(4) of ERISA, or that are maintained pursuant to one or more collective bargaining agreements, are maintained by one or more employers and must meet the requirements of section 89(k).

(b) *Special rules with respect to accident or health plans*—(1) *In general*. For purposes of section 89(k), an accident or health plan providing coverage that is excludable under section 106 must meet the requirements of section 89(k) if benefits under the plan are to be excludable under section 105(b) or (c) or, in the case of a death benefit under a plan described in paragraph (b)(2) of this Q&A-2, under section 101. If employer-provided benefits under an accident or health plan are not excludable under section 105(b) or (c) or section 101 (other than by reason of section 89), the plan is not required to comply with section 89(k). Thus, for example, employer-provided health plans (including plans that provide medical diagnostic examinations) must satisfy section 89(k) in order for the benefits thereunder to be excludable under section 105(b) or (c). An accident or health plan the entire cost of which is borne by the employees on an after-tax contributory basis (as determined under Q&A-7 of §1.89(a)-1) is not required to meet the requirements of section 89(k). Thus, if employees' required after-tax contributions for health coverage are equal to or exceed the applicable premium for such coverage within the meaning of section 4980B(f)-(4), then the health plan does not have an employer-provided benefit (determined under Q&A-7 of §1.89(a)-1) and thus is not subject to section 89(k).

(2) *Accidental death and dismemberment*. In order for the employer-provided benefit under an accidental death and dismemberment plan to be excludable under section 101 or 105, the plan must meet the requirements of section 89(k). For purposes of section 89, an accidental death and dismemberment plan is a plan that provides insurance type coverage attributable to employer contributions that are excludable under section 106 and that provides only benefits excludable from income under either section 105(c) or section 101 (where the benefits are payable on account of, and conditioned principally upon, the accidental death of the employee). If a plan provides for a general death benefit (described in §1.79-1(a)(1)), it is not an accidental death and dismemberment plan.

(3) *Disability and other sick pay plans*. Sick pay plans and disability plans are subject to the requirements of section 89(k) only if employer-provided benefits under such plans are excludable from gross income upon receipt by the individual under section 105(b) or (c).

(4) *Worker's compensation*. A worker's compensation plan that pays amounts from a sickness and disability fund maintained for employees under the laws of the United States, a state or the District of Columbia (i.e., a fund maintained pursuant to a worker's compensation act or a statute in the nature of a worker's compensation act, the benefits from which are excludable under section 104(a)(1)) is not subject to the requirements of section 89(k). However, accident or health plans maintained by the

United States, a state or the District of Columbia that provide benefits that are excludable from the income of an employee solely by reason of section 105(b) or (c) are not worker's compensation funds within the meaning of the preceding sentence and thus are subject to the requirements of section 89(k).

(5) *Section 401(h) accounts.* A section 401(h) account contained in a pension or annuity plan is subject to the requirements of section 89(k) with regard to benefits provided through such account.

(c) *Special rules relating to dependent care assistance programs, group legal services plans and educational assistance programs.* A dependent care assistance program (within the meaning of section 129(d)) must comply with section 89(k) without regard to whether the employer elects to treat such program as a statutory employee benefit plan as allowed under section 89(i)(2). Similarly, qualified group legal services plans (within the meaning of section 120(b)) and educational assistance programs (within the meaning of section 127(b)) must satisfy section 89(k) requirements, provided the applicable statutory provisions are in effect.

(d) *Plans to which section 505 applies.* A plan of which an organization covered by section 505 is a part must satisfy the requirements of section 89(k). Such plans include plans providing benefits through organizations described in section 501(c)(9) or 501(c)(17). If section 120 is in effect, plans providing benefits through organizations described in section 501(c)(20) must satisfy the requirements of section 89(k). The requirements of section 89(k) must be met by a plan even if the related organization qualifies as an organization that is part of a plan maintained pursuant to a collective bargaining agreement as described in section 505(a)(2).

(e) *Multiemployer plans.* If a plan is otherwise subject to section 89(k) and is a multiemployer plan within the meaning of section 3(37) of ERISA, that plan is maintained by all contributing employers and is subject to the requirements of section 89(k).

(f) *Church plans.* Employee benefit plans of a type described in paragraph (a)(1) of this Q&A-2 that are maintained by organizations described in section 3121(w) (i.e., churches or church-controlled organizations) exclusively for their employees and clergy (including the spouse or dependents of employees or clergy) are not subject to the requirements of section 89(k).

(g) *Treatment of statutory employee benefit plans providing excess benefits.* A statutory employee benefit plan that provides any amount of employer-provided benefits is subject to the requirements of section 89(k) even though the plan fails to satisfy the nondiscrimination requirements of section 89(a). Thus, for example, an employer-provided health plan that covers medical diagnostic examinations is subject to section 89(k) even if such health plan fails to satisfy the 50 percent eligibility test of section 89 and the entire value of the employer-provided coverage with respect to such plan is treated as an excess benefit under section 89(b).

(h) *Dispositions and acquisitions.* The rule of section 89(j)(8) does not apply with respect to the requirements of section 89(k). Thus, a plan that is subject to section 89(k) must continue to satisfy such requirements during the transition period (defined under section 89(j)(8)) without regard to the fact that the employer maintaining the plan has been involved in a merger, consolidation, or similar transaction.

(i) *Effective date.* Generally, see Q&A-10 of §1.89(a)-1 for the effective date of the qualification requirements of section 89(k). However, the general effective date is subject to the transition rules set forth in this section.

(j) *Coordination with ERISA provisions.* The reporting, notification and written plan document requirements contained in this section are in addition to, and not in lieu of, any requirements otherwise imposed on employer-provided benefit plans by Title I of ERISA or any other provision of law. The rules contained herein apply for purposes of section 89(k) and no inference should be drawn therefrom regarding the requirements otherwise imposed by Title I of ERISA or any other law.

Q-3: What is required under the writing requirement of section 89(k)(1)(A)?

A-3: (a) *In general.* Section 89(k)(1)-(A) requires a plan to be in writing. Generally, this means that all material terms of the plan must be contained, by direct inclusion, by incorporation by reference, or by a combination of these methods, in a single written document.

(b) *Requirement of a single written document*—(1) *In general.* The writing requirement of section 89(k) must be met with respect to a plan by a single written document. One such document may satisfy the writing requirement for more than one plan.

(2) *Incorporation by reference.* Written documents relating to the plan are treated as part of the single written document if they are specifically incorporated by reference in the single written document. Section 89(k)(1)(A) is satisfied with respect to a plan if the single written document with regard to such plan either contains all of the plan's material terms or, to the extent a material term is not employned in the single written document, incorporates by reference the document containing such term. Examples of documents which may be so incorporated in the single written document are: contracts with insurance providers; contracts with any other provider of benefits under the plan; contracts with plan administrators of, or consultants to, the plan; documents creating a trust or other funding instrument related to the plan; resolutions of the employer's governing body relating to the creation, operation, maintenance or termination of the plan; collective bargaining agreements; pronouncements made by the employer, an agent of the employer, a plan administrator or other person relating to or concerning a material term in the plan; and all plan-related documents required to be provided to any employee or filed with any regulatory agency or instrumentality of any federal, state, or local governmental body by statute, rule, or regulation, including but not limited to the documentation required to be provided to employees by the notice requirement of section 89(k)(1)(C) (see Q&A-5 of this section). There is no limitation on the number of single written documents that may incorporate a document by specific reference.

(c) *Contents of single written document*—(1) *In general.* Certain minimum information must be included in the single written document in order for the plan to satisfy the writing requirement of section 89(k)(1)(A). All material terms of the plan must be included in the single written document. If a material term of an insured plan is not defined in the single written document of the plan or in a document incorporated therein by reference, and such term is stated in the insurance contract, the term has the meaning given it by the insurance company's usual practice. See paragraph (c)-(4) of this Q&A-3 for the definition of a material term of a plan. Further, the provisions required to be included in the single written document by paragraphs (c)(2) and (c)(3) of this Q&A-3 are deemed to be material terms.

(2) *Recitation of certain qualification requirements.* The single written document must contain a recitation of the qualification requirements contained in section 89(k)(1)(B) and (D). Thus, the single written document must state that the employer intends that the plan terms, including those relating to coverage and benefits, are legally enforceable and that the plan is maintained for the exclusive benefit of employees.

(3) *Additional requirements under specific exclusion provision.* The single written document must include any information or term required by any other applicable provision of the Code or accompanying regulation.

(4) *Definition of a material term of a plan.* The phrase "material term of a plan" generally means a term relating to an employee's rights to be covered by, participate in, or benefit under a plan. The following are examples of material terms of a plan: the eligibility rules governing plan participation; terms relating to the periods during which coverage or benefits are provided; descriptions of available benefits; the procedures governing participants' elections under the plan, including the period during which an election may be made, the extent to which elections are irrevocable, and the periods with respect to which elections are effective; the manner in which employer contributions may be made under the plan, such as by salary reduction agreements between a participant and the employer and by nonelective employer contributions, as well as any maximum limitation on employer contributions on behalf of any participant; terms relating to the timing or amount of salary reduction or employee contributions to the plan; terms relating to deductibles, copayments or similar requirements, including any dollar limit on any benefit; conditions precedent or subsequent with regard to a participant's qualification or continued qualification for any coverage or benefit, including any limitations or restrictions relating to benefits, such as a pre-existing condition limitation; provisions relating to the procedure under which claims are to be made and evaluated for reimbursement; provisions relating to health continuation coverage under section 4980B; and the procedures or circumstances under which the plan may be terminated, including a statement, if applicable, that the plan may be terminated at will by the employer.

(d) *Timing*—(1) *In general.* Except as set forth in paragraph (d)(2) or (d)(3) of this Q&A-3, the material terms of the plan, as well as any amendment, extension, or modification of any of such material terms of the plan, must be in writing prior to the first day for which coverage is provided under an insured or insurance-type plan, or benefits are available under any other type of plan, or prior to the effective date of any amendment, extension or modification of such material terms, as the case may be.

(2) *Certain plan modifications*—(i) *Clarifications of material terms.* Where a plan modification constitutes merely a clarification to a material term (i.e., if the change merely clarifies an existing term in the plan and will have a de minimis impact on the individuals eligible or covered under the plan), the plan document need not reflect such modification until 120 days after the effective date of the modification or, if there is no separate effective date, until 120 days after the adoption of such amendment. A clarifying change generally includes a change in the plan language (either by addition or amendment) that reflects the previous intention of the employer with respect to a term of the plan. Whether the change is a clarifying change is to be determined not only by reference to the existing plan provisions and the notices provided to the employees, but also with regard to all of the facts and circumstances including, but not limited to, whether and the extent to which the amended language is consistent with the previous operation of the plan.

(ii) *Extension of time where notice provided.* If the employer provides reasonable notice satisfying the requirements of section 89(k)(1)(C) relating to the material terms of a plan to those entitled to notice under Q&A-5 of this section prior to the effective date of the plan or prior to the effective date of any addition or amendment to any material term of the plan (including any amendment to the terms contained in documents that are incorporated in the single written document by reference), then the time by which the single written document must meet the requirements of paragraph (d)(1) of this Q&A-3 to reflect such notice (or the related additions or amendments) is extended until 120 days after the effective date of the new plan or modification. However, this rule is available only if the notice contains a statement that the terms of the notice are legally enforceable.

(iii) *Certain retroactive modifications*—(A) *In general.* A modification to a material term of a plan does not fail to satisfy section 89(k)(1)(A) or this section merely because such modification applies retroactively to periods prior to the date of adoption of such modification if all of the conditions set forth in paragraph (d)(2)(iii)(B) through (F) are satisfied.

(B) *Expansion of coverage or benefits.* The modification must constitute an expansion of coverage or benefits under the plan (i.e., results in the plan having a larger value).

(C) *Notification.* Employees under the plan (including all employees covered under the plan for any portion of the period to which the retroactive coverage applies, regardless of whether they are currently covered) must be reasonably notified (within the meaning of Q&A-5 of this section determined without regard to the last sentence of paragraph (g)(2) of Q&A-5) of the modification within 60 days after its adoption.

(D) *Plan amendment.* The single written document must be amended to reflect the modification no later than 120 days after the adoption of the modification.

(E) *Duration.* The modification must continue in effect with respect to all eligible individuals with respect to the plan from the effective date of the modification until 12 months after the date of adoption.

(F) *Nondiscrimination.* The modification must not discriminate in favor of highly compensated employees.

(iv) *Nonmaterial terms.* Modification to any term contained in the single written document that is not a material term must be incorporated in the document no later than 120 days after the effective date of the modification or, if there is no separate effective date, no later than 120 days after the adoption of such amendment. Thus, to the extent that the single written document includes nonmaterial terms of the plan, such writing must accurately reflect such nonmaterial terms and any modifications thereto must be incorporated in the single written document within the time set forth in the preceding sentence.

(v) *Examples.* The requirements of this paragraph (d) are illustrated by the following examples:

Example 1. A plan is amended to change the level of employee contributions required to participate. This constitutes an amendment to a material term of the plan. If the employer properly notifies the employees prior to the amendment being effective, the single written document need not be amended to reflect such change until 120 days after the effective date of such change as long as the notice contains a statement that its terms are legally enforceable.

Example 2. An administration agreement incorporated by reference in the plan document is amended to change the timing of fees paid to the plan administrator. Unless the circumstances indicate that this is a material term, no amendment to the plan document is required until 120 days after the effective date of the new fee agreement. In such case, the single written document must be amended to reflect by specific reference (by an addendum or otherwise) the date of execution of the new fee agreement.

(3) *Exception for certain on-site medical and eating facilities.* Certain on-site medical and eating facilities are exempt from the requirements of section 89(k)(1)(A). An on-site medical facility is described in this paragraph (d)(3) if it is located and operates exclusively on a work-site of the employer and there is no physician care provided at the site at any time. A wellness program sponsored by the employer may be considered an on-site medical facility. A medical facility is not described in this paragraph (d)(3) unless access to the facility is available on the same terms to each member of a group of employees that is defined under a reasonable classification set up by the employer that does not discriminate in favor of highly compensated employees. An eating facility is described in this paragraph (d)(3) if it is described in and meets the requirements of section 132(e)(2).

(4) *Transition rule.* A plan is not required to meet the writing requirement of section 89(k)(1)(A) with respect to the first plan year beginning in 1989. For the subsequent plan year, a plan is not required to meet the writing requirement of section 89(k)(1)(A) before the later of the first day of such plan year, and the day following the end of the 12-month period beginning on the first day of the first plan year in 1989 that the plan is subject to section 89. For purposes of this transition rule, the extension of time due to a notice that is described in paragraph (d)(2)(ii) of this Q&A-3 is not available.

Q-4: When is a plan legally enforceable within the meaning of section 89(k)(1)(B)?

A-4: (a) *In general.* A plan is considered legally enforceable only if the conditions required for an employee to participate, receive coverage and obtain a benefit are definitely determinable under the terms of the plan and an employee satisfying such conditions is able to compel such participation, coverage and benefit.

(b) *Employer discretion*—(1) *Impermissible discretion*—(i) *In general.* A plan generally is not considered legally enforceable if a decision as to whether to grant or deny participation, coverage or a benefit is discretionary with the employer either pursuant to the terms of the plan or through the operation of the plan. Thus, except as provided in paragraph (b)(2) of this Q&A-4, a plan that permits the employer, either directly or indirectly, through the exercise of discretion, to grant or deny an employee the right to participate, receive coverage or obtain a benefit under the plan for which the employee is otherwise eligible or ineligible (but for the employer's exercise of discretion) violates the requirement of section 89(k)(1)(B). An employer is deemed to have exercised discretion in a manner inconsistent with section 89(k)(1)(B) if the employer imposes conditions or limitations on eligibility for coverage that are not contained in the single written document comprising the plan and have not been included in the notice described in paragraph (d)(2)(ii) of Q&A-3 of this section. Likewise, except as provided in paragraph (c) of this Q&A-4, a plan violates section 89(k)(1)(B) if the employer waives an otherwise applicable condition, restriction or other term contained in the plan if the single written document does not contain objective, clearly ascertainable criteria and procedures under which such condition, restriction or term may be waived. Finally, a plan violates section 89(k)(1)(B) if participation, coverage or benefits under the plan are subject to objective conditions that are within the control of the employer.

(ii) *Employer.* For purposes of this Q&A-4, the term "employer" includes the plan administrator, fiduciary, trustee, actuary, independent third party, and other persons. Thus, if a plan grants any person the discretion to deny or limit the availability of a plan benefit for which the employee may otherwise be eligible under the plan (but for the exercise of such discretion), and such exercise is not provided for under the terms of the plan through objective criteria or otherwise permissible under this Q&A-4, then the plan violates section 89(k)(1)(B).

(2) *Permissible discretion*—(i) *In general.* A plan may permit discretion with respect to the administra tion of the plan, including the application of objective criteria specifically set forth in the plan. In addition, a plan does not fail to meet the requirements of this Q&A-4 merely because discretion is exercised in accordance with a qualified medical opinion of a physician. Also, if plan coverage or benefits are limited to those employees who satisfy certain objective conditions that are clearly set forth in the single written document and are not generally subject to the employer's discretion, an employer may exercise discretion to the extent reasonably necessary to determine whether the objective conditions have been met.

(ii) *Administrative discretion.* Administrative discretion means a determination by the employer with respect to participation in, or coverage or benefits under, a plan or with respect to the general operation of a plan to the extent the exercise of such discretion is based exclusively on clearly defined and ascertainable criteria contained in the single written document. The following provisions that permit limited administrative discretion are examples of provisions that do not violate section 89(k)(1)(B), provided that the provisions are described in the single written document prior to the date a claim is incurred by a participant who is affected by the administrative discretion and, when the provisions are made effective, they apply only to claims that have not yet been incurred: a provision allowing for the commencement of benefits under the plan as soon employinistratively feasible after a stated date or event; a provision granting the employer authority to determine whether an employee has satisfied the age and service requirements of the plan or is an excludable employee under section 89(h); and a provision stating that the benefits under the plan are limited to an amount equal to the reasonable and customary charge for such services.

(iii) *Medical discretion*—(A) *In general.* A health plan does not fail to be legally enforceable merely because coverage or benefits under the plan are conditioned on a qualified medical opinion of a physician. For example, the following plan provisions do not violate the requirements of this Q&A-4: the requirement of a qualified medical opinion of a physician that treatment or benefits are medically necessary or appropriate prior to the provision of such treatment or benefits under a health plan; the requirement of a second opinion or other cost-containment feature of a health plan that is conditioned on a qualified medical opinion of a physician; and the inclusion under the plan of a managed care program. This is the case even if the qualified opinion is provided by a physician who is an employee of the employer.

(B) *Managed care programs.* A managed care program is a program that permits the provision of alternative medical care not otherwise available under a health plan for medical conditions that are covered under the plan. A managed care program must operate pursuant to conditions and procedures clearly ascertainable under the plan. That is, the availability of the program as well as a description of the types of cases that may qualify under the program must be contained in the single written document. Also, the provision of alternative medical care must be based on the consent of the employee and a qualified medical opinion of a physician. Such program may also be conditioned upon the consent of the employer.

(iv) *Certain benefit limitations.* A health plan does not include impermissible discretion merely because the plan limits certain benefits, such as reimbursements, for specified medical claims to those benefits that constitute the "prevailing" or "reasonable and customary" charge for the claim if such charge is determined in accordance with a reasonable, uniform, consistent and nondiscriminatory method. In addition, a health plan does not include impermissible discretion merely because such plan reimburses medical claims in excess of a "prevailing" or "reasonable and customary" charge if such reimbursements are authorized in accordance with reasonable, uniform, consistent, and nondiscriminatory claims review and reimbursement procedures set forth in the single written document.

(c) *Certain retroactive modifications in the plan.* A modification to a plan's material terms does not fail to satisfy section 89(k)(1)(B) merely because such modification applies retroactively to periods prior to the date of adoption of such modification if all of the conditions set forth in paragraph (d)(2)(iii) of Q&A-3 of this section are satisfied with respect to such modification.

(d) *Examples.* The requirements of this Q&A-4 are illustrated as follows:

Example 1. A plan does not fail to meet the requirements of section 89(k)(1)(B) because the employer grants benefits to an employee with a pre-existing medical condition in contravention of a specific plan term excluding coverage for any pre-existing conditions if the single written document is amended to reflect such expanded coverage, it is provided in a nondiscriminatory manner, and the expanded coverage continues in effect for a period of at least 12 continuous months from such amendment.

Example 2. A plan includes a managed care program which provides that upon the recommendation of the attending physician and the consent of both the insurer and the participant, the plan will reimburse alternative care (e.g., home health care expenses) instead of continued hospitalization. This program does not cause the plan to fail to meet the requirements of section 89(k)(1)(B).

Example 3. An employer maintains a health plan for former employees who retire from the employer on or after age 55 with at least 10 years of service if the employer consents to such employee's separation from service. Conditioning participation in this health plan on the employer's consent to the employee's separation constitutes impermissible discretion and violates section 89(k)(1)(B).

(e) *Transition rule.* A plan that is otherwise subject to the rules contained in section 89(k) is not required to comply with section 89(k)(1)(B) prior to the first day of the plan year following the first plan year beginning in 1989.

Q-5: What constitutes reasonable notification of employees under section 89(k)(1)(C)?

A-5: (a) *In general.* The employer or, if the plan is a multiemployer plan (within the meaning of section 3(37) of ERISA), the plan administrator must provide reasonable notice of the terms of a plan in order to satisfy section 89(k)(1)(C). Such reasonable notice must be provided to all eligible individuals (other than those individuals deriving their eligibility solely through another individual, such as dependents who derive their eligibility in a health plan through an employee). An eligible individual is an individual who participates under the plan or is described in the plan as eligible to participate. An otherwise eligible individual is an eligible individual even if participation under the plan is conditioned upon an election not yet made by such individual or the passage of a waiting period required by the plan. For purposes of this paragraph (a), an eligible individual also includes an individual who is a qualified beneficiary (as defined in section 4980B(g)(1)) under a health plan by reason of an occurrence of a qualifying event described in section 4980B(f)(3)(A), (C) or (E). Thus, such a qualified beneficiary must receive notice separate from the employee through whom such beneficiary derived eligibility in the health plan. See paragraph (g) of this Q&A-5 for rules regarding the timing of notice.

(b) *Content of reasonable notice.* The notice must contain a fair and complete summary of the material terms of the plan that are reasonably likely to be of significance to an eligible individual. These terms include at least the following: a general description of who is eligible to participate in the plan; a general description of the coverage or coverages offered (including the general types of benefits provided under the plan, basic limitations on such benefits, and required deductibles and co-payments); the timing and method of any election to participate; the cost to the employee relating to the plan, whether by way of salary reduction or employee contributions; the method by which a copy of the plan may be obtained; and the name and means of contacting a person from whom to request further information about the plan.

(c) *Alternative form of compliance.* For any plan other than an accident or health plan, in lieu of a notice meeting the requirements of paragraph (b) of this Q&A-5, the employer (or plan administrator, if the plan is a multiemployer plan) may furnish each eligible individual with a copy of the single written document and all related documents that have been incorporated by reference. This alternative cannot be used unless the single written document complies in all material respects with the requirements of 29 CFR §2520.102-2 (style and format of summary plan description).

(d) *Specific rule as to dependent care assistance programs.* If a plan is a dependent care assistance program described in section 129, any notice to employees that is required for any plan year commencing on or after January 1, 1990, shall include a general description of the dependent care credit (under section 21), the relationship between the credit and participation in the dependent care assistance program, and the general circumstances under which the credit may be more advantageous to a taxpayer than the exclusion. If any other provision of law requires that a notice be provided to individuals eligible to participate in a dependent care assistance program, the requirements of this Q&A-5 are deemed satisfied to the extent such notice meets the requirements of this Q&A-5.

(e) *Maintenance of single written document.* The notice must contain a statement that the employer (or the plan administrator, if the plan is a multiemployer plan) shall make the single written document (including all related documents incorporated therein by reference) available for inspection upon reasonable notice. At a minimum, the following individuals shall be entitled to inspect and copy the single written document: any eligible individual; any other employee of the employer maintaining the plan; and any employee organization that represents employees of such employer. The document must be made available at no cost to the requesting individual at a reasonable time and place and, if a copy of the document is requested, a copy is to be provided at a cost no greater than that prescribed in §601.702(f)(5)(iv)(B) of this Title.

(f) *Method of notification.* Notification to eligible individuals must be provided by the employer (or the plan administrator, if the plan is a multiemployer plan). For purposes of this paragraph (f), notice that otherwise meets the requirements of this Q&A-5 and is provided by an insurance company, health maintenance organization or other health care entity is considered to be provided by the employer. Notice must be provided to all eligible individuals (other than those individuals deriving their eligibility solely through another individual, such as dependents who derive their eligibility in a health plan through an employee). Except as otherwise stated in the final sentence of this paragraph (f), notice must be made in a manner consistent in all material respects with 29 CFR §2520.104b-1(b)(1). If the employer elects to notify eligible individuals through the use of the alternative described in paragraph (c) of this Q&A-5, the notice must be provided to each such eligible individual either by hand or by mail with first class postage prepaid to the last known address of the eligible individual.

(g) *Timing of notice*—(1) *In general.* The notice required under section 89(k) must be provided prior to the first day on which coverage is provided under an insured or insurance-type plan or benefits are available under any other type of plan and prior to the effective date of any material amendment, extension or modification of such coverage or benefits, and no later than a reasonable time prior to the availability of any election with respect to participation under such plan. For purposes of this paragraph (g), the first date on which coverage is provided or benefits are available is the earliest date on which a claim may be incurred and be covered under coverage provided under a written document in existence on the date the claim is incurred.

(2) *Plan modifications.* If there is a modification to a material term of a plan (including any change in plan design that results in a modification of a material term), eligible individuals must be provided with notice of such modification no later than 60 days after the effective date of the modification. In addition, a notice of a retroactive modification will be treated as satisfying this paragraph (g)(2) if all of the conditions set forth in paragraph (d)(2)(iii) of Q&A-3 of this section are satisfied with respect to such modification.

(3) *New employees.* If an employee's participation in a plan is nonelective and begins within the employee's first 60 days of employment, the notice to such employee required under section 89(k)(1)(C) is not required prior to 60 days after the first day such employee is employed.

(4) *Transition rule.* With respect to a plan year beginning on or after January 1, 1989, a plan is not required to comply with this Q&A-5 prior to the later of July 1, 1989, or the first day of such plan year. The transition rule of this paragraph (g)(4) is solely for purposes of compliance with section 89(k)(1)(C). Use of the transition rule of this paragraph (g)(4) does not accelerate the first date by which the plan must meet the writing requirement of section 89(k)(1)(A).

(h) *Examples.* The requirements of this Q&A-5 are illustrated in the following examples:

Example 1. An employer has its open season relating to health plan selection from September 1 to October 1. Because the employer operates at several locations, employees are provided notice at different times. However, the employer ensures that all of its eligible individuals are notified during the period of time beginning 90 days before and ending on the first of September. The employer has notified eligible individuals on a timely basis.

Example 2. An election with respect to a plan is available on a continuous basis throughout the plan year. The employer provides the required notice to all eligible individuals 30 days prior to the beginning of the plan year. The employer has notified eligible individuals on a timely basis.

Example 3. A plan is amended effective June 1 to increase the maximum amount payable for a benefit provided under the plan. The amendment is adopted on May 1 and notice is provided to eligible individuals on that date. The amendment relates to a material term of the plan, and the employer has notified the eligible individuals on a timely basis.

Example 4. An employee begins employment on October 10. Under the terms of the employer's health plan, the employee becomes a participant in the plan as of the beginning of the next calendar month. If notice is provided to the employee no later than December 9, the employer has provided timely notice regardless of the fact that the employee becomes a participant on November 1.

Example 5. The facts are the same as in Example 4 except that the plan is elective. The notice is timely only if the employee is given notice prior to November 1.

Q-6: How does an employer meet the exclusive benefit requirement of section 89(k)(1)(D)?

A-6: (a) *In general.* A plan must be maintained for the exclusive benefit of those employees who participate in the plan. A plan may fail the requirement of this Q&A-6 by reason of its terms or operation. Whether this rule is satisfied is based on all of the facts and circumstances.

(b) *Requirements as to the individuals who may participate in a plan*—(1) *In general.* The exclusive benefit provisions are satisfied only if all of the participants in the plan or plans are common law employees of the employer or employers maintaining the plan. In the case of a voluntary employees' beneficiary association described in section 501(c)(9) (VEBA) that is part of a plan which must satisfy the requirements of section 89(k)(1)(D), those individuals who may participate in the plan include those who may be members of the VEBA under §1.501(c)(9)-2(a).

(2) *Deemed common law employees.* An individual who is not a common law employee of an employer maintaining the plan and who receives coverage or benefits under such plan is deemed to be an employee for purposes of paragraph (b)(1) if the exclusion from gross income that is granted under the relevant provision of the Code (e.g., sections 79, 105, 106, 129 and 132) is available to such individual on the same basis that it is available to a common law employee. In addition, a qualified beneficiary, as defined in section 4980B(g)(1), is treated as a common law employee for purposes of paragraph (b)(1) of this Q&A-6 with respect to a health plan under which the qualified beneficiary receives continuation coverage.

(3) *Certain nonemployees*—(i) *In general.* An individual who is not a common law employee of the employer maintaining the plan, but who performs significant services for the employer in a capacity other than as an employee, and receives coverage or benefits under such plan may be disregarded in applying paragraph (b)(1) of this Q&A-6 if such individual pays for such coverage entirely on an after-tax basis. Thus, a nonemployee participant may be disregarded in applying paragraph (b)(1) of this Q&A-6 with respect to a health plan if the participant performs significant services for the employer and purchases the full coverage under the plan with after-tax contributions.

(ii) *Self-employed individuals.* A self-employed individual who is treated as an employee under section 401(c)(1) is treated as a common law employee of the employer for purposes of applying paragraph (b)(1) of this Q&A-6.

(4) *Examples.* The requirements of this paragraph (b) are illustrated by the following examples:

Example 1. Under section 132(f)(3), certain use of air transportation by a parent of an employee is treated as use by the employee for purposes of determining the excludability of the value of air transportation. The parent of the employee is deemed to be a common law employee for purposes of applying section 89(k)(1)(D) to a plan providing such air transportation because the air transportation provided to the parent is excludable from gross income under section 132.

Example 2. A health plan provides coverage with respect to the spouse and dependents of a common law employee-participant. Because the value of such coverage is excludable under section 106 and the benefits are excludable under section 105(b), the spouse and dependent children are deemed to be common law employees and the plan does not violate the exclusive benefit requirement of section 89(k) by reason of such coverage.

Example 3. An employer allows an independent contractor to purchase health care continuation coverage under section 4980B. The plan does not fail to meet the requirements of section 89(k) by reason of the participation of the independent contractor.

Example 4. A full-time life insurance salesman within the meaning of section 7701(a)(20) participates in an accident or health plan of an insurance company. Since this individual is treated as an employee for purposes of sections 105 and 106, the inclusion of such an individual in the plan does not violate the exclusive benefit requirement of section 89(k).

Example 5. A former employee of Employer X participates in Employer X's accident or health plan. Because this individual is treated as an employee of Employer X for purposes of sections 105 and 106, the former employee's inclusion in the plan does not violate the exclusive benefit requirement of section 89(k).

Example 6. An individual who is a leased employee with respect to the recipient under section 414(n) of the individual's services is treated as an employee of the recipient for purposes of sections 105 and 106, and thus, the inclusion of such leased employee in an accident or health plan of the recipient does not violate the exclusive benefit requirement of section 89(k).

Example 7. An individual who provides significant services to another person for a year but who is not a leased employee under section 414(n) of such person and is not otherwise an employee of such person is not treated as that person's employee for purposes of sections 105 and 106. However, the inclusion of such individual in an accident or health plan maintained by the employer does not violate the exclusive benefit requirement of section 89(k) if such individual's participation in such plan is fully paid for by such individual with after-tax contributions.

(c) *Multiemployer plans.* A multiple employer plan or a multiemployer plan maintained by two or more employers does not fail to satisfy the requirements of section 89(k)(1)(D) merely because employees of contributing employers participate in such plan or because the plan includes employees of an employee organization or of the plan.

(d) *Rules under other sections of the Code relating to the individuals who may participate in a plan.* Nothing in this Q&A-6 modifies any other section of the Code or the regulations specifically relating to who may participate in a plan. To the extent this Q&A-6 is more restrictive than another section of the Code or regulations, this Q&A-6 applies only for purposes of section 89. Notwithstanding the preceding sentence, the rules relating to who may participate in plans provided through organizations to which section 505 applies (i.e., organizations described in sections 501(c)(9) and 501(c)(17)) continue to be applicable to such organizations. Similarly, in addition to the rules contained in this Q&A-6, the rule contained in section 125(c)(1)(A) remains applicable in determining who may participate in a cafeteria plan.

(e) *Example.* The provisions of this Q&A-6 are illustrated in the following example:

Example. A self-insured health plan is funded through a voluntary employees' beneficiary association (within the meaning of section 501(c)(9)) which accepts employee contributions. Under the plan, the experience gain for a year is used to fund a part of the cost of the program for the following year by reducing the employee cost of participation (i.e., employee premiums) for all participants. The provision does not violate the exclusive benefit rule of section 89(k).

(f) *Transition rule.* A plan that is subject to the rules contained in section 89(k) is not required to comply with section 89(k)(1)(D) prior to the first day of the plan year following the first plan year beginning in 1989. Q-7: How is it determined whether a plan is established with the intent of being maintained for an indefinite period of time?

A-7: (a) *In general.* Whether a plan is established with the intent that it will be maintained for an indefinite period of time as required by section 89(k)(1)(E) is to be determined on the basis of all of the facts and circumstances. For purposes of section 89(k)(1)(E), a plan generally is treated as established with the intent that it will be maintained for an indefinite period of time if it is established and maintained for at least a consecutive 12-month period.

(b) *Plan modifications and terminations*—(1) *In general.* Generally, a plan does not fail the requirement of section 89(k)(1)(E) merely because the employer reserves the right to modify or terminate the plan or because the plan is not renewed pursuant to a specific plan provision or is terminated. However, in certain circumstances, significant modifications in the coverage or benefits under the plan or a termination of coverage or benefits raises a presumption that the plan was not established with the intent that it continue for an indefinite period of time. A plan is not considered to be modified or terminated merely because of a change in the insurance carrier or health care provider if the coverage and benefits under the plan are not substantially changed.

(2) *Coverage in effect for at least 12 consecutive months.* The requirement of section 89(k)(1)(E) is not violated by reason of a material modification or termination of a plan, if such material modification or termination is effective on a prospective basis and the affected coverage (or substantially similar coverage) has been in effect for at least a consecutive 12-month period. This paragraph (b)(2) applies even if the plan contains a term specifying the intent of the employer to terminate the plan upon the expiration of a 12-month period.

(3) *Coverage in effect for less than 12 consecutive months.* For plan years beginning after December 31, 1989, special scrutiny will be given with respect to material modifications and terminations of a plan that occur before the terminated or modified coverage or benefits have been in effect for at least 12 consecutive months. Such a termination or modification will not violate the requirement of section 89(k)(1)(E) if the employer can demonstrate that there is a substantial, independent business reason for such termination or modification and that the termination or modification does not discriminate in favor of one or more highly compensated employees.

(4) *Certain modifications.* A retroactive modification to a plan does not cause the plan to fail to satisfy section 89(k)(1)(E) if all of the conditions set forth in paragraph (d)(2)(iii) of Q&A-3 of this section are satisfied with respect to such modification.

(c) *Examples.* The requirements of this Q&A-7 are illustrated in the following examples:

Example 1. An employer merges with another company. Pursuant to the merger and in order to consolidate operations, the surviving employer terminates the health coverage in mid-year for the merged company's employees and adds these employees to the plan maintained by the surviving company. The merger constitutes a valid business purpose for the termination of the health plan of the merged company and, thus, neither plan has failed the requirements of section 89(k)(1)(E).

Example 2. A dental plan is modified on July 1 to include coverage for certain orthodontic benefits. The plan year of the dental plan is the calendar year. The requirements of section 89(k)(1)(E) are not violated if the orthodontic benefits are eliminated from the plan on or after July 1 of the following year because the coverage would have been in effect for at least 12 consecutive months.

Example 3. An employer announces that employees who retire rom the employer on or after age 55 with at least 10 years of service will receive employer-provided health coverage for 1 year after separation if such employees retire during a specified 2-month period. This plan does not fail to satisfy section 89(k)(1)(E) merely because the retirement window is only 2 months long, because such window is a coverage eligibility condition rather than a limitation on the period of coverage under the plan.

Example 4. A health plan with a broad range of coverage provided to all nonhighly compensated employees of an employer is in existence for only one day in a year. The employer designates this day as the testing day for its health plans. Under the facts of the case, a reasonable inference may be made that the intention of the employer in granting the coverage under the health plan in existence only on the testing day is to enhance the likelihood that the employer's other health plan will satisfy the nondiscrimination requirements of section 89. This plan fails the requirement of section 89(k)(1)(E). These circumstances may also result in a finding by the Commissioner that the plan or plans fail the nondiscriminatory provisions test of section 89(d)(1)(C).

Example 5. The requirement of section 89(k)(1)(E) may be violated if a plan is established under circumstances in which it is likely to benefit only one individual. For example, assume that a plan is adopted after an illness is diagnosed with respect to an individual and that the coverage provided relates to this illness. If the plan is terminated after the payment of these expenses, the plan may fail the permanency requirement. If this individual is a highly compensated employee these circumstances may also result in a finding by the Commissioner that the plan fails the nondiscriminatory provisions test of section 89(d)(1)(C).

(d) *Exception for fringe benefits constituting no-additional-cost services and qualified employee discounts.* The requirements of section 89(k)(1)(E) and this Q&A-7 do not apply to any plan providing no-additional-cost services as described in section 132(b) or to any plan providing qualified employee discounts as described in section 132(c).

Q-8: What are the sanctions for failure to meet the qualification requirements of section 89(k)?

A-8: (a) *In general*—(1) *Employer provided benefits.* If a plan subject to section 89(k) fails to satisfy any of the requirements of that section, the employer-provided benefits under the plan generally are not eligible for any exclusion from gross income under Part III, Subchapter B, Chapter 1, Subtitle A, of the Code. For purposes of this Q&A-8, such benefits are termed "nonexcludable benefits". Thus, for example, employer-provided benefits provided under a health plan that fails to satisfy the requirements of section 89(k) are not excludable under section 105. See, however, the limit on the amount of the nonexcludable benefits under paragraph (c)(4) of this Q&A-8. In addition, see section 6652(k) with respect to certain sanctions that may be imposed on the employer with respect to the employer's responsibilities under section 89.

(2) *Employee-provided benefits.* Employee-provided benefits are not subject to section 89(k) and continue to be subject to any applicable exclusion including, for example, the exclusion provided in section 104(a)(3) with respect to accident and health plans.

(3) *Determination of includible benefit.* The includible benefit is determined by calculating the total amount of the benefits provided under the plan and then subtracting the amount of the employee-provided benefit. Determination of the amount of the employee-provided benefit must be made under the provisions of paragraph (d) of this Q&A-8 regarding the allocation of benefits.

(4) *Section 89(b) excess benefits.* Except as provided under paragraph (e) of this Q&A-8, benefits received under a plan that fails to satisfy section 89(k) include those benefits received under coverage that constitutes an excess benefit under section 89(b). That is, for example, sections 101 and 105(b) and (c) are not applicable to benefits received under a discriminatory accident or health plan that also fails to satisfy section 89(k). In addition, a plan's failure to satisfy section 89(k) does not, in and of itself, affect the extent to which the coverage provided with respect to such plan (as opposed to the benefits under the plan) is eligible for an exclusion from gross income. Thus, for example, coverage under a health plan does not fail to be excludable under section 106 merely because the plan fails to satisfy section 89(k).

(b) *De minimis failures to comply with section 89(k)(1)(A) and (C)*—(1) *In general.* If a plan fails to satisfy the writing or notice requirements of section 89(k) and such failure constitutes a de minimis failure (as defined in paragraph (b)(2) of this Q&A-8), then the plan will be deemed to have complied with the requirements of section 89(k) with respect to the failed requirement, provided that such failure is corrected within 90 days after the employer has notice of such failure.

(2) *Definition of de minimis failure to comply*—(i) *In general.* A failure constitutes a de minimis failure to comply only if the failure meets all of the requirements of paragraph (b)(2)(ii) of this Q&A-8. Whether a failure to comply is described in paragraph (b)(2)(ii) of this Q&A-8 is determined under all of the facts and circumstances.

(ii) *Requirements for qualifying as a de minimis failure*—(A) *Good faith effort.* The employer must have acted in good faith and must have made a reasonable effort to comply with the applicable requirement.

(B) *No discriminatory effect.* The failure must not have had the effect of causing the plan to discriminate in favor of one or more highly compensated employees.

(C) *No retroactive reduction of coverage.* Correction of the failure cannot require that coverage be reduced under the single written document (as that plan existed at the time of the failure). That is, a failure is not a de minimis failure if its correction requires that the coverage described in the single written document be reduced with retroactive effect to conform to the previous operation of the plan.

(iii) *Examples.* The requirements of paragraph (b)(2)(ii) of this Q&A-8 are illustrated by the following examples:

Example 1. An employer provides notice to its employees regarding a health plan. Despite the employer's good faith and reasonable efforts to provide timely notice, the notice is 1 week late. The notice complies with all other requirements of section 89(k). Provided that no facts or circumstances suggest otherwise, this is a de minimis failure to comply. The correction occurred when the notice was provided.

Example 2. Despite the employer's good faith and reasonable efforts, an employer fails to give notice to its employees with respect to nonelective coverage under a dental plan that has been added to the employer's health program. The employer has no knowledge (constructive or otherwise) of such failure. Only one employee incurs a covered expense under the dental program and the employee submits a claim to the employer notwithstanding the fact that the employee is not sure whether the claim is covered. If within 90 days of receiving notice of the failure the employer follows the single written document, reimburses the expense, and gives notice relating to such coverage (including the effective date of the dental plan), then the employer has corrected the failure to comply with the notice requirements.

(3) *Correction.* The terms "correct" and "correction" mean, with respect to a de minimis failure to comply, that the employer performs all the necessary acts in order to comply with section 89(k) and places the affected employees in a financial position not worse than that in which they would have been if the employer had been in full compliance with section 89(k). If a subsequent notice is given to correct a de minimis failure, such notice must reflect the original effective date relating to the coverage, benefit or other material term that is the subject of the notice and must indicate that the employer will honor (and the

employer must in fact honor) claims incurred after such effective date (including those prior to the date of such correcting notice). This paragraph (b)(3) is illustrated in the following example:

Example. Despite the good faith and reasonable efforts of the employer, a benefit is denied by a plan administrator in contravention of the written terms of the plan. If at a later date payment is made under the plan and the employer otherwise places the participant in a financial position no worse than if the employer had complied (e.g., by paying the benefit, interest if applicable and any fees incurred in compelling payment), then the failure is a de minimis failure and there has been correction. If the employee cannot be put in the same financial position as if the employer had complied, the failure cannot be corrected and the employer has failed to meet the requirements of section 89(k).

(c) *Determination of the amount of nonexcludable benefit*—(1) *In general*. The amount of a nonexcludable benefit with respect to an employee under a plan that fails to satisfy section 89(k) (including any insurance-type plan) is the value of the benefits (rather than the coverage) either received by the employee under the plan during the plan year or received thereafter but incurred under coverage in effect during the plan year. Thus, the calculation of the amount of the nonexcludable benefit under section 89(k) is based on the plan year of the failed plan and not, as is the case with the determination of excess benefit under section 89(b), on the testing year of the employer. To the extent that the single written document does not reflect a plan year, the determination of the plan year shall be based on paragraph (b) of Q&A-10 of §1.89(a)-1. Nonexcludable benefits under section 89(k) are treated as received by an employee at the time such benefits are actually received or, but for the employee's election to defer the receipt of such benefits, first become available for receipt. In no case, however, will the amount of a nonexcludable benefit with respect to an employee exceed the limit for such employee determined under paragraph (c)(4) of this Q&A-8.

(2) *Definition of plan*—(i) *In general*. The nonexcludable benefits with respect to a plan that fails to satisfy section 89(k) include all benefits received under such plan. Unless the special definition of plan set forth in paragraph (c)(2)(ii) of this Q&A-8 applies, the nonexcludable benefits are those benefits described in the single written document that relates to the failure under section 89(k).

(ii) *Severable coverage*. To the extent that the failure of a plan to satisfy section 89(k) is directly and exclusively related to a specific portion or aspect of coverage provided in a plan, such portion or aspect of the coverage may be treated as a separate plan for purposes of determining the nonexcludable benefits under a plan that fails to satisfy section 89(k). In such a case, the coverage remaining under the single written document after the severance of the coverage providing nonexcludable benefits does not fail to satisfy the requirements of section 89(k) solely by reason of the failure related to the severed coverage. This paragraph (c)(2)(ii) does not permit the severance of coverage of one individual from similar coverage provided to other individuals under the single written document.

(3) *Examples*. The requirements of paragraph (c)(1) and (2) of this Q&A-8 are illustrated by the following examples:

Example 1. An employer maintains a single health plan. During the plan year, the employer allows a claim for a pre-existing condition in direct contravention of a provision in the plan. If the plan is not modified in accordance with paragraph (d)-(2)(iii) of Q&A-3 of this section and if no correction occurs, coverage for that benefit is deemed to constitute a separate plan and the benefit thereunder is nonexcludable. However, unless a pattern or practice indicates that this provision was intended to be a part of the employer's health plan (e.g., by continuous operation in a similar manner), benefits properly paid with respect to the plan are not taxable by reason of the above described failure.

Example 2. An employer fails to notify certain eligible individuals who are not highly compensated employees concerning their eligibility to elect to have coverage under a health plan. Certain of the individuals fail to receive coverage under the plan and incur medical expenses that are not reimbursed due to the fact that the insurance company refuses to retroactively cover these individuals. The plan relating to the notice fails to comply with section 89(k) and all benefits described in the single written document that relates to the failure are nonexcludable to the recipients.

Example 3. A health program contained in a single written document is terminated. The plan provided core coverage and dental care. The portion of the program containing dental coverage recently became effective and the termination with respect to such coverage fails to meet the permanence requirement of section 89(k)(1)(E). The failed coverage under the dental program can reasonably be severed from the balance of the program. Thus, the dental coverage is treated as a separate plan and the benefits that were provided under such plan are nonexcludable. Other benefits provided under the single written document which relates to the failed plan however, are not affected by such failure.

Example 4. A benefit is mistakenly granted to a participant in that the benefit amount exceeds the dollar limitation described in the single written document. Unless the plan is modified in accordance with paragraph (d)(2)(iii) of Q&A-3 of this section, the operation of the plan in a manner inconsistent with the single written document violates the writing requirement of section 89(k). The amount of the benefit in excess of the dollar limitation may be treated as severable coverage and thus be nonexcludable without adverse impact upon the balance of the program.

Example 5. An employer maintains a core health plan. A participant incurs an expense that is determined by the plan administrator to be incurred for a benefit not covered by the plan. The benefit is denied by the plan administrator in contravention of the terms of the plan. Coverage for such benefit is actually available under the terms of the insurance contract that describes medical benefits and coverage. However, if the employer is not able to correct the failure on a timely basis, all benefits described in the single written document that relates to the failure are nonexcludable because the coverage involved is not reasonably severable from the general core coverage under the plan.

Example 6. A notice sent to participants fails to satisfy section 89(k). The notice contains a modification of a material term relating to cosmetic surgical procedures coverage. If the failure is not corrected, benefits received under the coverage of the type described in the notice are nonexcludable.

Example 7. A notice is sent to employee participants failing to disclose a material term of the plan. The material term does not relate to a particular coverage or benefit, but rather applies to all benefits under the plan. All benefits provided under the single written document related to the notice are nonexcludable unless such failure is corrected on a timely basis.

(4) *Limit on nonexcludable amount*. Notwithstanding any other provision of this Q&A-8, the amount of the employer-provided portion (see paragraph (d)(2) of this Q&A-8) of the nonexcludable benefits received by an employee (and the employee's spouse and dependents) during a taxable year of the employee under one or more accident and health plans that fail to satisfy section 89(k) (but do not fail to be accident or health plans under section 105 and 106) shall not exceed the sum of the following 4 amounts: 10 percent of the employee's compensation (before inclusion of the employer-provided benefit) from the employer maintaining the plan for the employee's taxable year, up to and including the dollar amount in effect for such year under section 414(q)(1)(C); 25 percent of the employee's compensation in excess of such dollar amount up to and including 200 percent of such dollar amount; 75 percent of the employee's compensation in excess of 200 percent of such dollar amount up to and including 300 percent of such dollar amount; and 100 percent of the employee's compensation in excess of 300 percent of such dollar amount. The limitation under this paragraph (c)(4) is applied after the determination of the employer-provided portion of the nonexcludable benefits described in paragraph (d)(2) of this Q&A-8, but before the coordination of nonexcludable benefits with excess benefits as described in paragraph (e) of this Q&A-8. Compensation of an employee as used in this paragraph (c)(4) is compensation as determined under section 414(q)(7) and with respect to the taxable

year of the employee in which the nonexcludable benefit is received. Thus, for example, if an employee with compensation from the employer of $25,000 for a calendar year also receives $20,000 in employer-provided benefits under a health plan that fails to satisfy section 89(k), the maximum amount of nonexcludable benefit for such employee for such year is $2,500 (i.e., 10 percent of $25,000). The remaining $17,500 in benefits under the plan that failed to satisfy section 89(k) may be excludable from gross income under section 105. Finally, this paragraph (c)(4) does not apply if, in addition to failing one or more of the requirements of section 89(k), a plan also fails to be an accident or health plan under sections 106 and 105.

(d) *Allocation between employer and employee contributions*—(1) *In general.* Section 89(k) generally eliminates the otherwise available exclusions only with regard to benefits attributable to the employer-provided portion of the benefits received. Thus, for example, if a portion of the coverage provided under a plan is attributable to after-tax employee contributions, an allocation of the benefits under such plan must be made on the basis of the relative cost to the employer and the employee for the plan. Allocation is permitted, however, only to the extent that a nonexcludable benefit is directly related to the portion of the coverage under the plan that is attributable to employee contributions.

(2) *Accident or health plans.* If coverage provided under an accident or health plan is partially attributable to after-tax employee contributions, an allocation of the benefits under such plan is made in accordance with a method set forth in paragraphs (c), (d) or (e) of § 1.105-1 and the method permitted to determine the applicable premium for a group health plan under section 4980B(f)(4) to determine the cost of a health plan. For purposes of this paragraph, coverage that is taxable by reason of being considered an excess benefit (as defined in section 89(b)) is not considered to be attributable to employee contributions to the plan. See paragraph (e) of this Q&A-8 for rules regarding coordination of sanctions.

(3) *Group-term life insurance plans.* The portion of coverage under a plan to which section 79 applies that is attributable to employee contributions must be computed in the manner set forth in § 1.79-3(e). In addition, the rule of paragraph (d)(1) of this Q&A-8 does not apply to certain benefits received under a group-term life insurance program subject to section 79. Thus, while the table value of coverage over $50,000 is taxable without regard to section 89, such coverage is not attributable to employee contributions for purposes of the rule in this paragraph (d). Similarly, coverage that is taxable by reason of being considered excess benefit (as defined in section 89(b)) is not considered to be attributable to employee contributions to the plan. See paragraph (e) of this Q&A-8 for rules regarding coordination of sanctions.

(4) *Example.* The following example illustrates the rule contained in this paragraph (d):

Example. Employer A maintains a plan under which it pays two-thirds of the annual premium cost on individual policies of accident and health insurance for its employees. The remainder of each employee's premium is paid through after-tax payroll deduction from the wages of the employee. The annual cost of coverage determined by the method permitted to determine the applicable premium (as defined in section 4980B(f)(4) for plans to which that section applies) for Employee X is $240, of which $160 is paid by the employer. Thus, two-thirds (160/240) of all amounts received by Employee X under such insurance policy are attributable to the contributions of the employer and are nonexcludable if the plan fails to meet the requirements of section 89(k).

(e) *Coordination rules*—(1) *Relationship between statutory employee benefit plans that fail to meet the section 89(k) requirements and nondiscrimination tests.* The employer-provided benefit (as defined in §1.89(a)-1 for purposes of the section 89 nondiscrimination tests) with respect to a statutory employee benefit plan must be taken into account for purposes of nondiscrimination testing under section 89 even though the plan has failed the requirements of section 89(k). That is, unless the coverage under a statutory employee benefit plan is purchased by the employee with after-tax employee contributions (or is treated as having been purchased with after-tax employee contributions), the coverage is subject to section 89 nondiscrimination testing. For the purposes of this paragraph (e), coverage that is taxable by reason of being an excess benefit under section 89(b) is not treated as purchased with after-tax employee contributions. Thus, employer-provided benefits (as defined in paragraph (b) of Q&A-1 of this section) that are attributable to such excess benefits are nonexcludable benefits if the plan also fails section 89(k). Also, a groupterm life insurance plan subject to section 79 must be considered for purposes of section 89 without regard to the fact that the cost of coverage is currently taxable to the extent provided in section 79 (those amounts in excess of $50,000) or by reason of being considered excess benefit under section 89(b).

(2) *Coordination of sanctions where there is a failure of section 89(k) related to discriminatory coverage*—(i) *In general.* If an individual has a nonexcludable benefit by reason of section 89(k), the treatment of that benefit and the related excess benefit under section 89(b) are coordinated by limiting the taxable amount of any employee to the greater of either the nonexcludable benefit or the excess benefit.

(ii) *Nonexcludable benefit must be related to discriminatory coverage.* Coordination of sanctions with respect to a nonexcludable benefit under section 89(k) and a discriminatory excess benefit under section 89(b) is available only when the nonexcludable benefit under section 89(k) is related to the excess benefit that is taxable by reason of its being contained in a discriminatory employee benefit plan under section 89(c). For this purpose, a plan means any specific option under the health program. The determination of relatedness is made on the basis of all of the facts and circumstances. Generally, if an employee is treated as having received an excess benefit under section 89(b) and the excess benefit relates to a failure to meet the requirements of paragraph (d)(2) (the 90 percent/50 percent eligibility test) or (d)-(4) (the 75 percent benefits test) of Q&A-1 of §1.89(a)-1, there is a presumption that such excess benefit does employlate to a plan (or portion thereof) that fails section 89(k). Thus, for example, an employee who receives employer-provided coverage with a value of $2,500 under an indemnity plan and employer-provided coverage with a value of $750 under a dental plan and who is treated as receiving an excess benefit of $1,000 under section 89(b) because these health plans fail to meet the requirements of the 75 percent benefits test or the 90 percent/50 percent eligibility test, and a nonexcludable benefit of $600 because the dental plan fails section 89(k), the entire $1,000 excess benefit is treated as attributable to the indemnity plan and the total includible amount would be $1,600 ($1,000 plus $600). If the employee received an excess benefit of $3,000 under section 89(b), then $500 of such excess benefit would be allocated to the dental plan and the total includible amount would be $3,100. If the dental plan failed the 50 percent eligibility test, then $750 of the excess benefit or the higher of the excess benefit if less than $750 of the excess benefit related to the dental plan under Q&A-9 of §1.89(a)-1) or the $600 nonexcludable benefit would be includible in the employee's gross income.

(iii) *Coordination where nonexcludable benefit received in taxable year other than the taxable year in which testing year ends.* If a nonexcludable benefit under section 89(k) is received in a taxable year of the employee other than that taxable year in which ends the testing year for which there is a related excess benefit under section 89(b) (including any additional time permitted by reason of an election under section 89(a)(2)(B)) and if the benefits otherwise qualify for the coordination described in this paragraph (e), the rules of this paragraph (e)-(2)(iii) apply. If the testing year ends in a later taxable year of the employee than the taxable year in which the nonexcludable benefit is received, the amount of the excess benefit that is included in gross income for the later taxable year is reduced (but not below zero) by the amount of nonexcludable benefit included in gross income for the earlier taxable year. Similarly, where the nonexcludable benefit is received in a later taxable year of the employee than the taxable year in which the testing year ends, the amount of the nonexcludable benefit included in gross income for the later year is reduced (but not below zero) by the amount of the excess benefit included for the earlier taxable year to which the nonexcludable benefit relates.

(iv) *Examples.* The provisions of this paragraph (e)(2) are illustrated by the following examples:

Example 1. Assume that an employer's testing year under section 89(a) is the calendar year. Plan A has a plan year beginning on July 1 and has an employer-provided benefit, based on its annual applicable premium, of $2,000. Employee X receives a reimbursement under Plan A on July 10 in the amount of $500. Assume that Plan A fails section 89(k). Assume further that Employee X has received $1,000 in excess benefit for the testing year, all of which relates to the total value of coverage under Plan A. For this calendar year, Employee X must include in gross income $1,000.

Example 2. Assume the same facts as in Example 1, except that the $500 reimbursement is $1,500. Employee X must include in income $1,500.

Example 3. Assume that an employer's testing year begins on July 1. Plan A has an applicable premium of $2,000 and its plan year is the 1991 calendar year. Employee X receives a reimbursement of $500 under Plan A on July 10, 1991. Assume that Plan A fails section 89(k). The employer determines that Employee X has $2,000 in excess benefit in the testing year that begins July 1, 1991, related to Plan A. For 1991, Employee X must include $500 in gross income. However, for 1992, Employee X may use that $500 as an offset against the amount of excess benefit related to the coverage under which the benefit was granted. Thus, Employee X is only required to include $1,500 in gross income for 1992 ($2,000 $500).

Example 4. Assume the same facts as Example 3, except that Employee X received the reimbursement on June 10, 1991. Unless other facts indicate otherwise, no offset is available since the reimbursement did not relate to excess benefit calculated with regard to the 1991 testing year.

(f) *Authority to limit nonexcludable benefits.* The Commissioner, in revenue rulings, notices and other publications of general applicability, may limit the nonexcludable benefit that would otherwise be determined under section 89(k) and this proposed regulation to the extent the facts and circumstances indicate that the elimination of the otherwise available exclusions from gross income would be inconsistent with the purposes underlying the requirements of section 89(k). Among the facts and circumstances to be taken into account are the relationship between the plan's failure under section 89(k) and the employee's receipt of benefits under such plan, the extent to which the plan's failure was attributable to a reckless or intentional disregard of the requirements of section 89(k), and whether the imposition of the full sanction under section 89(k) would impose a hardship on the employee that is not justified by the nature and degree of the plan's failure.

Par. 3. Proposed §1.125-1 as published in the Federal Register on May 7, 1984 (49 FR 19321), and amended on December 31, 1984 (49 FR 50733) [1985-1 C.B. 603], is amended by adding a new Q&A-30 at the end, to read as follows:

§1.125-1 Questions and Answers relating to cafeteria plans. * * * * *

Q-30: Are there additional rules for cafeteria plans?

A-30: Yes. Additional rules for cafeteria plans are contained in §1.125-2 and take effect as set forth in Q&A-1 of §1.125-2. To the extent that §1.125-2 and this §1.125-1 are inconsistent, §1.125-2 supersedes this §1.125-1.

Par. 4. New §1.125-2 is added to read as follows: §1.125-2 Miscellaneous Cafeteria Plan Questions and Answers

The following is a list of the questions addressed in this section.

Q-1: What are the effective dates of these cafeteria plan rules?

Q-2: What does section 125 of the Code provide?

Q-3: What is a cafeteria plan under section 125?

Q-4: What benefits constitute qualified benefits and what benefits constitute cash under a cafeteria plan?

Q-5: May a cafeteria plan include a benefit that defers the receipt of compensation?

Q-6: In what circumstances may participants revoke existing elections and make new elections under a cafeteria plan?

Q-7: How do the rules governing the tax-favored treatment of employer-provided benefits apply to plans that are flexible spending arrangements?

Q-1: What are the effective dates of these cafeteria plan rules?

A-1: Q&A-1 through Q&A-6 of this §1.125-2 apply to plan years of cafeteria plans as set forth in Q&A-10 of §1.89(a)-1 (regarding the effective date of section 89). Q&A-7 of this §1.125-2 (relating to flexible spending arrangements) applies to plan years beginning after December 31, 1989.

Q-2: What does section 125 of the Code provide?

A-2: In general, an employee who has an election among nontaxable benefits and taxable benefits (including cash) must include in gross income any taxable benefits that the employee could have actually received pursuant to the employee's election. The amount of these benefits is included in the employee's income in the year in which the employee would have actually received the taxable benefits if the employee had elected such benefits. This generally is the result even if the employee's election between the nontaxable benefits and taxable benefits is made prior to the year in which the employee would have actually received the taxable benefits. However, section 125 provides that cash (including certain taxable benefits) provided under a nondiscriminatory cafeteria plan will not be included in a participant's gross income merely because the participant has the opportunity, before the cash becomes currently available to the participant, to choose among cash and the nontaxable benefits under the cafeteria plan.

Q-3: What is a cafeteria plan under section 125?

A-3: A cafeteria plan is a plan maintained by an employer for the benefit of its employees that satisfies the requirements of section 89(k), under which all participants are employees, and under which each participant has the opportunity to choose among cash and qualified benefits. Additionally, a cafeteria plan satisfies the written plan document requirement of clause (v) of Q&A-3 of §1.125-1 only if the plan describes the maximum amount of elective contributions available to any employee under the plan either by stating the maximum dollar amount or maximum percentage of compensation that may be contributed as elective contributions under the plan by employees or by stating the method for determining the maximum amount or percentage of elective contributions that employees may make under the plan. The meaning of "elective contributions" under a cafeteria plan is the same as the meaning of "salary reduction contributions" under a cafeteria plan. See also paragraph (a)(2) of Q&A-8 of §1.89(a)-1.

Q-4: What benefits constitute qualified benefits and what benefits constitute cash under a cafeteria plan?

A-4: (a) *Qualified benefits*—(1) *In general.* A benefit is a qualified benefit under a cafeteria plan if the benefit does not defer the receipt of compensation and the benefit is not includible in an employee's gross income by reason of an express provision of Chapter 1 of the Code. In the case of insurance-type benefits, such as benefits provided under accident or health plans (sections 106 and 105) and group-term life insurance plans (section 79), the benefit is the coverage under the plan.

(2) *Items that constitute qualified benefits*—(i) *Accident or health plans.* Coverage under an accident or health plan is a qualified benefit to the extent that such coverage is excludable from income under section 106. Thus, for example, coverage under a long-term disability plan and coverage under an accidental death and dismemberment policy may be qualified benefits.

(ii) *Group-term life insurance.* Group-term life insurance coverage that is excludable from gross income under section 79 and group-term life insurance coverage that is includible in gross income solely because the death benefit payable thereunder is in excess of the dollar limit of section 79 are qualified benefits.

(iii) *Certain discriminatory benefits.* Accident or health plan coverage, group-term life insurance coverage, and benefits under a dependent care assistance employm do not fail to be qualified benefits under a cafeteria plan merely because they are includible in gross income solely because of section 89 or any other applicable nondiscrimination requirement (e.g., section 129(d)).

(iv) *Certain dependent care assistance benefits.* Benefits under a dependent care assistance program that would have been excludable from gross income under section 129 but for the elimination of overnight camp expenses from dependent care assistance under such section (effective January 1, 1988) or the reduction of the age limit on children qualifying as dependents under such section (effective January 1, 1989) do not fail to be qualified benefits merely because such changes in law cause such benefits to be taxable. However, the preceding sentence applies only if the benefits are provided under a program that otherwise qualifies as a dependent care assistance program under section 129, are taxable to the employee upon receipt, and are provided by the December 31 next following the effective date of the applicable change in law. After such date, such benefits will not constitute qualified benefits but may be treated as cash pursuant to paragraph (b) of this Q&A-4.

(b) *Currently taxable benefits treated as cash.* In general, a benefit is treated as cash if such benefit does not defer the receipt of compensation and an employee who receives such benefit purchases such benefit with after-tax employee contributions or is treated, for all purposes under the Code (including, for example, reporting and withholding purposes), as receiving, at the time that such benefit is received, cash compensation equal to the full value of such benefit at such time and then purchasing such benefit with after-tax employee contributions. Thus, for example, long-term disability coverage is treated as cash if the cafeteria plan provides that an employee may purchase the coverage under the plan with after-tax employee contributions, or provides that the employee receiving such coverage is treated as having received cash compensation equal to the value of the coverage and then as having purchased the coverage with after-tax employee contributions. Any taxable benefit that is not described in paragraph (a) of this Q&A-4 and is not treated as cash under this paragraph (b) may not be included in a cafeteria plan.

(c) *Qualified cash or deferred arrangements.* Elective contributions to a qualified cash or deferred arrangement (section 401(k)) are permitted under a cafeteria plan. In addition, after-tax employee contributions under a qualified plan subject to section 401(m) are permitted under a cafeteria plan. The right to make such contributions will not cause a plan to fail to be a cafeteria plan merely because, under the qualified plan, employer matching contributions are made with respect to elective or after-tax employee contributions.

(d) *Benefits that do not constitute qualified benefits or cash.* Benefits of the type described in section 117 or 132 do not constitute qualified benefits or cash and thus may not be included in a cafeteria plan regardless of whether any such benefit is purchased with after-tax employee contributions or on any other basis. Thus, for example, health diagnostic or examination plans are qualified benefits under a cafeteria plan because such plans are accident or health plans that are eligible for the exclusion under section 106 and are not, in any case, eligible for the exclusion under section 132.

Q-5: May a cafeteria plan include a benefit that defers the receipt of compensation?

A-5: (a) *In general.* A cafeteria plan may not include any plan that offers a benefit that defers the receipt of compensation. In addition, a cafeteria plan may not operate in a manner that enables employees to defer compensation. For example, a plan that permits employees to carry over unused elective contributions or plan benefits (e.g., accident or health plan coverage) from one plan year to another operates to defer compensation. This is the case regardless of how the contributions or benefits are used by the employee in the subsequent plan year (e.g., whether they are automatically or electively converted into another taxable or nontaxable benefit in the subsequent plan year or used to provide additional benefits of the same type). Similarly, a cafeteria plan operates to permit the deferral of compensation if the plan permits participants to use contributions for one plan year to purchase a benefit that will be provided in a subsequent plan year (e.g., life, health, disability, or long-term care insurance coverage with a savings or investment feature, such as whole life insurance). For example, a cafeteria plan operates to permit the deferral of compensation if the cafeteria plan includes a health plan that is a flexible spending arrangement (as defined in Q&A-7 of this section) and such health plan may reimburse participants' premium payments for other accident or employ coverage extending beyond the end of the plan year. See Q&A-7 of this section for the treatment of experience gains under a health plan that is a flexible spending arrangement.

(b) *Exceptions.* A plan does not fail to be a cafeteria plan merely because the plan permits participants to make elective contributions under a qualified cash or deferred arrangement under section 401(k) or permits participants employed by certain educational institutions to purchase retiree group-term life insurance. Similarly, a cafeteria plan does not include a benefit that defers the receipt of compensation merely because the cafeteria plan provides the opportunity to make after-tax employee contributions subject to section 401(m) under a qualified plan. In addition, a cafeteria plan will not be treated as including a benefit that defers the receipt of compensation merely because, under the qualified plan, employer matching contributions (as defined in section 401(m)-(4)(A)) are made with respect to such elective contributions or after-tax employee contributions. Finally, reasonable premium rebates or policy dividends paid with respect to benefits provided under a cafeteria plan do not constitute impermissible deferred compensation if such rebates or dividends are paid before the close of the 12-month period immediately following the plan year to which such rebates and dividends relate.

(c) *Treatment of paid vacation days under a cafeteria plan*—(1) *In general.* A cafeteria plan may include elective, paid vacation days by permitting participants to receive either additional or fewer paid vacation days than the employer otherwise provides to the employees on a nonelective basis, if the inclusion of elective vacation days under the plan does not operate to permit the deferral of compensation.

(2) *Ordering of elective and nonelective vacation days.* In determining whether a plan that provides for paid vacation days operates to permit the deferral of compensation, and thus fails to be a cafeteria plan, a participant is deemed to use nonelective vacation days (i.e., the vacation days with respect to which the employee had no election) before elective vacation days.

(3) *Cashing out unused elective vacation days.* A plan does not operate to permit the deferral of compensation merely because the plan permits a participant who has not used all elective, paid vacation days for a plan year to receive in cash the value of such unused days in exchange for such days if the participant receives the cash on or before the earlier of the last day of the plan year of the cafeteria plan or the last day of the employee's taxable year to which the elective contributions used to purchase the unused days relate.

(4) *Examples.* The following examples illustrate the rules of this paragraph (c):

Example 1. Assume that an employer provides an employee with 2 weeks of paid vacation for each calendar year and maintains a calendar year cafeteria plan that permits the employee to "purchase," with elective contributions, an additional week of paid vacation. Assume further that Employee A, with a calendar tax year, purchases 1 additional week of vacation. If Employee A uses only 2 weeks of vacation during the year, the employee is treated as having used the 2 nonelective weeks and as having retained the 1 elective week. If the 1 remaining week (i.e., the elective week) may be carried over to the next year (or the value thereof used for any other purpose in the next year), the plan operates to permit the deferral of compensation and thus is not a cafeteria plan. However, the cafeteria plan may permit the employee to receive the value of the unused elective vacation week in cash before the end of the applicable calendar year.

Example 2. The facts are the same as set forth in Example 1, except that Employee A uses only 1 week of vacation during the year. Thus, Employee A is treated as having used 1 nonelective week and as having retained 1 nonelective week as well as 1 elective week of vacation. Because the nonelective vacation days are not part of the cafeteria plan (i.e., the employer or plan does not permit participants to exchange regular vacation days for other benefits), Employee A may be permitted to carry over the 1 nonelective week of vacation to the next year. In addition, under the terms of the cafeteria plan, Employee A must either forfeit the remaining elective vacation week or receive in cash the value of such unused days before the end of the applicable calendar year.

Q-6: In what circumstances may participants revoke existing elections and make new elections under a cafeteria plan?

A-6: (a) *In general.* A plan is not a cafeteria plan unless the plan requires that participants make elections among the benefits offered under the plan. In general, an election will not be deemed to have been made if, after a participant has elected and begun to receive a benefit under the plan, the participant is permitted to revoke the election during the period of coverage under the plan, even if the revocation relates only to the remaining portion of the coverage period with respect to the benefit and even if the revocation is in response to a change in the tax treatment of such benefit. However, in the circumstances specified in paragraphs (b) through (g) of this Q&A-6, notwithstanding Q&A-8 of §1.125-1, the terms of a cafeteria plan may permit a participant to revoke an existing election and, in some cases, to make a new election with respect to the remaining portion of the period of coverage. If a new election is permitted under this Q&A-6, then such new election must be consistent with the reason that such change was permitted. In addition, a cafeteria plan may permit an election change to the extent required under paragraph (c)(6) of Q&A-3 of §1.89(a)-1. Such election changes will not cause taxable benefits offered under the cafeteria plan to be treated as currently available to employees. See Q&A-7 of this section for certain additional limits on election changes that relate to certain flexible spending arrangements.

(b) *Significant cost or coverage changes*—(1) *Cost changes.* If the cost of a health plan provided by an independent, third- party provider under a cafeteria plan increases or decreases during a plan year and under the terms of the cafeteria plan, employees are required to make a corresponding change in their premium payments, the cafeteria plan may, on a reasonable and consistent basis, automatically increase or decrease, as the case may be, all affected participants' elective contributions or after-tax employee contributions for such health plan. Alternatively, if the premium amount significantly increases, a cafeteria plan may permit participants either to make a corresponding change in their premium payments or to revoke their elections and, in lieu thereof, to receive on a prospective basis, coverage under another health plan with similar coverage. No elective adjustments of participants' contributions or revocations of participants' elections other than those provided for in the preceding sentence may be permitted under a cafeteria plan on account of changes in the cost of a health plan.

(2) *Coverage changes.* If the coverage under a health plan provided by an independent, third-party provider is signifiemploy curtailed or ceases during a period of coverage, a cafeteria plan may permit all affected participants to revoke their elections of the health plan and, in lieu thereof, to receive on a prospective basis coverage under another health plan with similar coverage.

(c) *Certain changes in family status.* A cafeteria plan may permit a participant to revoke a benefit election during a period of coverage and to make a new election for the remaining portion of the period if the revocation and new election are both on account of a change in family status and are consistent with such change in family status. For purposes of this paragraph (d), examples of changes in family status for which a benefit election change may be permitted include the marriage or divorce of the employee, the death of the employee's spouse or a dependent, the birth or adoption of a child of the employee, the termination of employment (or the commencement of employment) of the employee's spouse, the switching from part-time to full-time employment status or from full-time to part-time status by the employee or the employee's spouse, and the taking of an unpaid leave of absence by the employee or the employee's spouse. Election changes are also permitted where there has been a significant change in the health coverage of the employee or spouse attributable to the spouse's employment. Benefit election changes are consistent with family status changes only if the election changes are necessary or appropriate as a result of the family status changes.

(d) *Separation from service.* A cafeteria plan may permit an employee who separates from the service of the employer during a period of coverage to revoke existing benefit elections and terminate the receipt of benefits for the remaining portion of the coverage period. However, in such case, the plan must prohibit the employee, if the employee should return to service for the employer, from making new benefit elections for the remaining portion of the period of coverage.

(e) *Cessation of required contributions.* A cafeteria plan may provide that a benefit will cease to be provided to an employee if the employee fails to make the required premium payments with respect to the benefit (e.g., employee ceases to make premium payments for health plan coverage after a separation from service). However, in such case, the plan must prohibit the employee from making a new benefit election for the remaining portion of the period of coverage.

(f) *Elective contributions under a qualified cash or deferred arrangement.* A cafeteria plan may permit a participant who has elected to make elective contributions under a qualified cash or deferred arrangement (within the meaning of section 401(k)) to modify or revoke the election as permitted under section 401(k). Similarly, a cafeteria plan may permit a participant who has elected to make after-tax employee contributions subject to section 401(m) to modify or revoke the election as permitted under section 401(m). Thus, for example, a cafeteria plan may include a benefit option providing for elective contributions under a qualified cash or deferred arrangement which requires that, as a condition of a hardship distribution, the employee receiving the distribution cease making elective contributions under the arrangement for a specified period.

Q-7: How do the rules governing the tax-favored treatment of employer-provided benefits apply to plans that are flexible spending arrangements?

A-7: (a) *In general.* Health plans that are flexible spending arrangements as defined in paragraph (c) of this Q&A-7 (health FSAs) must conform to the generally applicable rules under sections 105 and 106 in order for the coverage and reimbursements under such plans to qualify for tax-favored treatment under such sections. Thus, health FSAs must qualify as accident or health plans. This means that, in general, while the health coverage under the FSA need not be provided through a commercial insurance contract, health FSAs must exhibit the risk-shifting and risk-distribution characteristics of insurance. Similarly, reimbursements under health FSAs must be paid specifically to reimburse the participant for medical expenses incurred previously during the period of coverage. employrmore, a health FSA cannot operate under a cafeteria plan in a manner that enables participants to receive coverage only for periods for which the participants expect to incur medical expenses if such periods constitute less than a plan year. A reimbursement is not paid specifically to reimburse the participant for medical expenses if the participant is entitled to these amounts, in the form of cash or any other taxable or nontaxable benefit (including health coverage for an additional period), without regard to whether or not the employee incurs medical expenses during the period of coverage. A health FSA will not qualify for tax-favored treatment under sections 105 and 106 of the Code if the effect of the reimbursement arrangement eliminates all, or substantially all, risk of loss to the employer maintaining the plan or other insurer. These rules apply with respect to a health plan without regard to whether the plan is provided through a cafeteria plan. See Q&A-17 of §1.125-1.

(b) *Special requirements*—(1) *In general.* A health FSA must satisfy the requirements set forth in this paragraph (b) in order for the employer-provided health coverage provided through the health FSA to qualify for the exclusion from income under section 106 and for the reimbursements and other benefits pursuant to the health FSA coverage to qualify for the exclusion from income under section 105.

(2) *Uniform coverage throughout coverage period.* The maximum amount of reimbursement under a health FSA must be available at all times during the period of coverage (properly reduced as of any particular time for prior reimbursements for the same period of coverage). Thus, the maximum amount of reimbursement at any particular time during the period of coverage cannot relate to the extent to which the participant has paid the required premiums for coverage under the health FSA for the coverage period. Similarly, the payment schedule for the required premiums for coverage under a health FSA may not be based on the rate or amount of covered claims incurred during the coverage period. Reimbursement will be deemed to be available at all times if it is paid at least monthly or when the total amount of the claims to be submitted is at least a specified, reasonable minimum amount (e.g., $50). If the employee revokes existing elections, the employer must reimburse the employee for any amount previously paid for coverage or benefits relating to the period after the date of the employee's separation from service regardless of the employee's claims or reimbursements as of such date. The following examples illustrate the rules of this paragraph (b)(2):

Example 1. Assume that an employee elects coverage under a health FSA providing coverage of up to $300 in medical expenses and the annual premium for a calendar year of coverage is $300. Assume also that the employee is permitted to pay the $300 premium through salary reduction of $25 per month throughout the coverage period. The employee must be eligible to receive the maximum amount of reimbursement of $300 at all times throughout the coverage period (reduced by prior reimbursements). Thus, if the employee incurs $250 of medical expenses in January, the full $250 must be available for reimbursement even though the employee has made only one premium payment. If the employee incurs another $50 in health expenses in February, the remaining $50 of the $300 maximum must be available for reimbursement. The employer or plan may not provide for an acceleration of the required premium payments based on the employee's incurred claims and reimbursements.

Example 2. Assume that an employee elects coverage under a health FSA with a maximum reimbursement limit of $500 for a calendar year of coverage and is required to pay the $450 premium for such coverage in two equal $225 installments, one at the beginning of the period of coverage and the second installment by the beginning of the sixth month of coverage. Assume further that the employee incurs a $400 medical expense in February and the FSA makes a $400 reimbursement to the employee in March. The employee does not incur any additional medical expenses before the end of June, at which time the employee separates from service. If the employee fails to make the second premium installment, the employee's coverage under the FSA may be terminated as of the end of June so that medical expenses incurred after June are not covered. If the employee pays the second premium installment, the employee's coverage under the FSA must continue, so that additional medical expenses (up to the remaining $100) incurred before the end of December are covered.

(3) *Twelve-month period of coverage.* The period of coverage under a health FSA must be 12 months or, in the case of a short first plan year or a short plan year of a cafeteria plan where the plan year is being changed, the entire short plan year. Election changes to increase or decrease the level of coverage under a health FSA during the 12-month period of coverage are not permitted with respect to health FSAs. However, a cafeteria plan may permit participants to make health FSA election changes for the remaining portion of the 12-month period of coverage on account of and consistent with certain family status changes. See Q&A-6 of this section. In addition, a cafeteria plan may provide that the period of coverage under a health FSA terminates if the employee ceases to make required premium payments; however, such employee may not be permitted to make a new health FSA benefit election for the remaining portion of the original coverage period. Also, a cafeteria plan may permit an employee who separates from the service of the employer during a period of coverage to revoke existing benefit elections and terminate receipt of benefits, including coverage under the health FSA. For the application of the health care continuation rules of section 4980B of the Code to health FSAs, see the regulations under section 4980B or its predecessor section 162(k) of the Code. The requirements of this paragraph (b)(3) are illustrated by the following example:

Example. Assume that an employee has elected a $300 calendar year health FSA, with monthly premium payments of $25 during the 12-month period of coverage. Such employee separates from service for the employer at the end of June and ceases to make additional premium payments. The cafeteria plan may provide that the FSA's period of coverage does not extend beyond June if the employee does not continue to make the required premium payments. However, if the employee makes the total premium payment for the 12-month period of coverage, the cafeteria plan may not terminate the FSA's period of coverage merely because the employee separated from service before the end of the coverage period.

(4) *Prohibited reimbursement.* A health FSA can only reimburse medical expenses as defined in section 213. Thus, for example, a health FSA cannot reimburse dependent care expenses. In addition, a health FSA may not treat participants' premium payments for other health coverage as reimbursable expenses. Thus, for example, a health FSA may not reimburse participants for premiums paid for other health plan coverage, including premiums paid for health coverage under a plan maintained by the employer of the employee's spouse or dependent. (See also Q&A-5 of this section with respect to whether the reimbursement of other premiums constitutes impermissible deferred compensation.) This paragraph (b)(4) does not prevent premiums for current health plan coverage (including coverage under a health FSA) from being paid on a salary reduction basis through the ordinary operation of the cafeteria plan.

(5) *Claims substantiation.* A health FSA may reimburse a medical expense only if the participant provides a written statement from an independent third party stating that the medical expense has been incurred and the amount of such expense and the participant provides a written statement that the medical expense has not been reimbursed or is not reimbursable under, any other health plan coverage. Thus, for example, as with any other flexible spending arrangement, a health FSA cannot make advance reimbursements of future or projected expenses. In determining whether, under all the facts and circumstances, employees are being reimbursed for inadequately substantiated claims, special scrutiny will be given to other arrangements such as employer-to-employee loans that are related to the employee premium payments or actual or projected employee claims.

(6) *Claims incurred.* Medical expenses reimbursed under a health FSA must be incurred during the participant's period of coverage under the FSA. Expenses are treated as having been incurred when the participant is provided with the medical care that gives rise to the medical expenses, and not when the participant is formally billed or charged for, or pays for the medical care. Also, expenses are not treated as incurred during a period of FSA coverage if such expenses are incurred before the later of the date the health FSA is first in existence or the participant first becomes enrolled under the health FSA.

(7) *FSA experience gains.* If a health FSA has an experience gain with respect to a year of coverage, the excess of the premiums paid (e.g., employer contributions, including salary reduction contributions and after-tax employee contributions) and income (if any) of the FSA over the FSA's total claims reimbursements and reasonable administrative costs for the year may be used to reduce required premiums for the following year or may be returned to the premium payers (the participants for premiums paid by salary reduction or employee contributions) as dividends or premium refunds. Such experience gains must be allocated among premium payers on a reasonable and uniform basis. It is permissible to allocate such amounts based on the different coverage levels under the FSA received by the premium payers. However, in no case may the experience gains be allocated among premium payers based (directly or indirectly) on their individual claims experience. The requirements of this paragraph (b)(7) are illustrated in the following example:

Example. Assume that an employer maintains a cafeteria plan under which its 1,200 employees may elect one of several different annual coverage levels under a health FSA in $100 increments from $500 to $2,000. For a plan year, 1,000 employees elect levels of coverage under the health FSA. For such year, the FSA has an experience gain of $5,000 (i.e., premium payments for the year exceed reimbursed claims plus administrative costs by $5,000). The $5,000 may be allocated to all premium payers for the year, as a premium refund, on a per capita basis weighted to reflect the participants' elected levels of coverage. Alternatively, the $5,000 may be used to reduce the required premiums under the health FSA for all eligible employees for the next plan year (e.g., a $500 health FSA for the next year might be priced at $480) or to reimburse claims incurred above the elective limit in such year as long as such reimbursements are made in a nondiscriminatory manner.

(8) *Dependent care assistance.* Analogous rules to this paragraph (b), with the exception of paragraph (b)(2) relating to uniform coverage throughout the coverage period, are applicable to dependent care assistance provided under section 129. See Q&A-18 of §1.125-1.

(c) *Definition of flexible spending arrangement.* A flexible spending arrangement (FSA) generally is a benefit program that provides employees with coverage under which specified, incurred expenses may be reimbursed (subject to reimbursement maximums and any other reasonable conditions) and under which the maximum amount of reimbursement that is reasonably available to a participant for a period of coverage is not substantially in excess of the total premium (including both employee-paid and employer-paid portions of the premium) for such participant's coverage. A maximum amount of reimbursement is not substantially in excess of the total premium if such maximum amount is less than 500 percent of the premium. A single FSA may provide participants with different levels of coverage and maximum amounts of reimbursement. However, for purposes of section 89, each different level of coverage under a FSA is a separate plan.

(d) *Effective date*. This Q&A-7 is effective for plan years beginning after December 31, 1989.

(e) *Authority to issue additional requirements*. The Commissioner, in revenue rulings, notices and other publications of general applicability, may make any modification to, or issue such additional requirements for the application of, the rules contained in this Q&A-7 as may be necessary to insure proper compliance with the intent of such rules.

(f) *Example*. The provisions of paragraph (c) of this Q&A-7 are illustrated by the following example:

Example 1. Assume that an employer with 1,000 employees maintains a cafeteria plan under which the employees may elect among several benefit options, including insured health plans and HMOs. The plan provides that the required premiums or contributions for the benefits are to be made by salary reduction. Even though the plan may characterize employees' premium payments and other contributions as flexible spending contributions or credits, the operation of a cafeteria plan to permit employees' contributions to be made on a salary reduction basis does not, standing alone, cause the plan (or any benefit thereunder) to be treated as a flexible spending arrangement.

Example 2. Assume that an employer with 1,000 employees maintains a cafeteria plan under which the employees may elect, among other benefits, a level of coverage under an arrangement that will reimburse medical expenses incurred during a year up to the specified amount elected by the employee. The maximum amount of reimbursement that can be deducted for a year is $5,000. Each employee's premium for such coverage is equal to the maximum reimbursement amount selected by the employee. Such an arrangement is a health FSA.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Notice of Proposed Rulemaking

Minimum Participation

EE-44-87

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to minimum participation standards under section 401(a)(26) of the Internal Revenue Code of 1986. They reflect changes made by section 1112(b) and (e) of the Tax Reform Act of 1986 [Pub. L. 99-514, 1986-3 (Vol. 1) C.B. 361]. These regulations will provide the public with guidance on the minimum participation standards and will affect sponsors of, and participants in, qualified pension, profit-sharing and stock bonus plans.

DATES: Written comments and requests for a public hearing must be delivered or mailed by April 17,1989. The proposed amendments generally apply to plan years beginning after December 31, 1988, except as otherwise specified in the Tax Reform Act of 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (EE-44-87), Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 401(a)(26) of the Internal Revenue Code of 1986 (Code). These amendments are proposed to conform the regulations to section 1112(b) and (e) of the Tax Reform Act of 1986. (TRA '86) (100 Stat. 2444).

AMENDMENTS TO QUALIFIED PLANS

Generally, section 401(a)(26) imposes new minimum participation requirements that plans must meet in order to be qualified under section 401(a). These rules are, in general, operational. To the extent that a plan does not meet the requirements of section 401(a)(26), the plan must be amended as of the date provided herein in order to retain qualification, such amendment to be effective as of the first day of the first plan year to which section 401(a)(26) applies.

ANALYSIS

In General

Section 401(a)(26) requires that a qualified plan benefit at least the lesser of 50 employees or 40 percent of all employees of the employer. Section 401(a)(26) applies separately to an employer's active employees and the employer's former employees. In addition, to the extent determined by the Secretary, section 401(a)(26) applies separately to certain separate benefit structures, trusts, and other arrangements. The minimum participation requirement may not be satisfied by aggregating separate plans, even if such plans are identical in all respects or are treated as a single plan for coverage and nondiscrimination purposes and, as such, are treated as providing nondiscriminatory employer contributions or benefits.

Pursuant to the grant of regulatory authority to provide that certain separate benefit structures may be treated as separate plans subject to section 401(a)(26), the proposed regulation provides that a plan satisfies section 401(a)(26) only if each current benefit structure under the plan satisfies section 401(a)(26) and, in the case of a defined benefit plan (but not a defined contribution plan), the plan's prior benefit structure satisfies section 401(a)(26). Under the regulation, a single current benefit structure exists with respect to each portion of a uniform benefit formula (either a formula for allocating contributions and forfeitures under a defined contribution plan or a formula for determining an employee's benefit attributable to the current year under a defined contribution plan) to the extent that subsidies, optional forms of benefit, rights and features are provided on a uniform basis to employees eligible to participate under such formula. Finally, each defined benefit plan (but not a defined contribution plan) includes a single prior benefit structure that includes all benefits accrued under the plan as of the end of the prior year.

Section 401(a)(26) generally is effective with respect to plan years beginning after December 31, 1988. A deferred effective date applies with respect to certain collectively bargained plans.

Significant Special and Transitional Rules

The proposed regulation includes a variety of permanent special rules designed to facilitate the application of and compliance with section 401(a)(26), and includes several transition rules for plan years beginning in 1989. The most significant of the special permanent rules are as follows:

1. A current benefit structure satisfies section 401(a)(26) even though the structure benefits less than 50 employees and less than 40 percent of the employer's employees as long as the structure benefits at least 20 employees who primarily are nonhighly compensated employees and the structure is included in a plan that currently provides meaningful benefit ac-

cruals to at least 50 total employees. If such a current benefit structure benefits only employees who become employed by the employer in connection with a corporate acquisition or similar transaction, the structure is treated as satisfying section 401(a)(26) for 5 plan years after the transaction even though the structure benefiting such employees may benefit fewer than 20 employees.

2. A current benefit structure satisfies section 401(a)(26) without regard to the number of employees that it benefits as long as such structure benefits only employees who are not, and have never been, highly compensated employees of the employer, and such structure (and the benefits thereunder) are not relied upon by any other plan or current benefit structure to satisfy sections 410(b) or 401(a)(4).
3. A defined contribution plan's prior benefit structure is deemed to satisfy section 401(a)(26). Thus, a frozen defined contribution plan satisfies section 401(a)(26) without regard to the number of employees who have benefits under the plan.
4. A defined benefit plan's prior benefit structure satisfies section 401(a)(26) if at least 100 active and former employees have more than de minimis benefits under the plan and no three highly compensated employees have more than 25 percent of the total accrued benefits under the plan.
5. A defined benefit plan's prior benefit structure satisfies section 401(a)(26) if the plan provides additional, meaningful benefit accruals under one or more current benefit structures for at least 50 employees or 40 percent of the employer's employees.
6. Most defined benefit plans that satisfy section 401(a)(26) with respect to prior benefit structures because the plans provide additional meaningful current benefit accruals will satisfy section 401(a)(26) in subsequent years with respect to the plan's prior structure without any requirement for retesting as long as the current benefit formula (including the rate of accrual) relied on remains in effect and continues to provide benefit accruals to a group of employees that satisfies the requirements of section 401(a)(26).

The most significant of the transition rules included in the proposed regulation for plan years beginning in 1989 are as follows:

1. A simplified definition of current benefit structure applies for the 1989 plan year so that only major plan benefit features need to be taken into account.
2. A reasonable compliance standard applies for the 1989 plan year for determining whether a defined benefit plan's prior benefit structure satisfies section 401(a)(26).
3. Certain plans may be terminated on or before May 31, 1989, without being amended to comply with section 401(a)(26).
4. Employer reversions with respect to certain defined benefit plans may qualify for the waiver of the excise tax under section 4980 even though the date of plan termination occurs after section 401(a)(26) becomes effective with respect to the plan as long the date of plan termination occurs on or before May 31, 1989, and plan assets are distributed to participants within a reasonable time after such termination.

Separate benefit structures

The proposed regulation provides that each single plan within the meaning of section 414(l) is a separate plan for purposes of section 401(a)(26) that must satisfy section 401(a)(26). In addition, the regulation provides that each separate benefit structure under a plan must satisfy section 401(a)(26).

The rules in the proposed regulation that govern the identification and testing of separate benefit structures are designed to reflect three basic policy objectives of section 401(a)(26):

1. Promote the integrity of the distinctions in the deduction limits and the contribution and benefit limits as they apply to defined benefit plans and defined contribution plans by limiting the extent to which a defined benefit plan generally may operate as an individual account for one or a small group of employees.
2. Promote the nondiscriminatory provision of benefits by limiting the extent to which an employer is able to design different benefit formulas for different employees in order to maximize benefit disparities in favor of highly compensated employees.
3. Limit the extent to which an employer maintaining a defined benefit plan that is not providing active employees with meaningful, additional benefits (e.g., a frozen or substantially frozen defined benefit plan) is able to delay plan termination in order to (i) increase the amount of its reversion upon plan termination, (ii) delay its receipt of the reversion to maximize its own benefit, or (iii) delay a benefit increase to favor a small group of highly compensated employees who remain with benefits under the plan.

The proposed regulation thus exercises the grant of regulatory authority to provide that certain separate benefit structures are to be treated as separate plans subject to section 401(a)(26). Instead of providing that such separate benefit structures are to be treated as separate plans, the proposed regulation directly applies section 401(a)(26) to such separate benefit structures. Thus, the proposed regulation provides that each current benefit structure that is included in a single plan (within section 414(l)) is a separate benefit structure that must satisfy section 401(a)(26). In addition, each defined benefit plan (within section 414(l)) includes a single prior benefit structure that must satisfy section 401(a)(26).

Pursuant to the proposed regulation, a single current benefit structure under a defined contribution plan comprises a uniform formula under which contributions and forfeitures are allocated among employees for the current year and uniform subsidies, optional forms of benefits, rights and features are provided. In the case of a defined benefit plan, a single current benefit structure comprises a uniform benefit formula under which an employee's benefit attributable to the current year of service is determined and uniform subsidies, optional forms of benefits, rights and features are provided to the participants benefiting under such structure. Thus, for example, a defined benefit plan that currently provides three different benefit formulas for determining the benefits of three different groups of employees is treated as having three separate current benefit structures each of which must separately satisfy section 401(a)(26). Similarly, a defined benefit plan which provides for a single benefit formula but makes a single sum distribution available to division A employees and not to division B employees is treated as having two separate current benefit structures each of which must separately satisfy section 401(a)(26). A current structure exists whenever there is an increase in accruals whether as a result of additional years of service, changes in compensation, or other factors. Such increases are treated as benefits attributable to the year of service in which they accrue.

Multiple employer plans must satisfy the requirements of section 401(a)(26) on an employer-by-employer basis rather than on the basis of participating employers in the aggregate. Failure to satisfy the requirements of section 401(a)-(26) with respect to any component of this testing process may result in disqualification of the plan for all participating employers. The proposed regulation does not provide an exception to this rule. However, in a proper case, the Commissioner could retain the plan's qualified status for innocent employers by requiring corrective and remedial action with respect to the plan such as allowing the withdrawal of an offending employer, allowing a disqualifying defect to be cured within a reasonable period of time after the plan administrator has or should have had knowledge of such disqualifying event or was otherwise notified by the Internal Revenue Service of the disqualifying defects, or requiring plan amendments to prevent future disqualifying events. To the extent that coverage under a multiemployer plan is treated as being provided, in whole or in part, under a multiple employer plan, this relief is applicable to the multiemployer plan.

Finally, the proposed regulation provides that a separate current benefit structure exists if any person has any priority, either under the terms of the plan or under any arrangement outside of the plan, with respect to any assets of a defined benefit plan, such as the right to some or all of a possible reversion. Essentially, the proposed regulations provide that if, under all the facts and circumstances, an arrangement (either under or outside the plan) has the effect of modifying any feature under the plan taken into account in determining an employee's benefit, providing any employee with any priority or greater interest in a portion of the assets in the plan, or linking any financial matter involving an employee to all or a portion of the assets in the plan in a way that has the effect of creating separate accounts, such arrangement will be treated as creating a separate current benefit structure within the plan.

Current benefit structure requirements

The proposed regulation provides that, in order for a plan to satisfy section 401(a)(26), each current benefit structure that benefits any active employee in the plan must benefit at least the lesser of 50 active employees or 40 percent of an employer's active employees. Similarly, a current benefit structure that benefits any former employee must benefit at least the lesser of 50 former employees or 40 percent of the employer's former employees. This approach to separate benefit structures is equivalent to providing that each current benefit structure is a separate plan that, as such, must satisfy section 401(a)(26).

The proposed regulation includes a special restructuring rule under which an employer may, solely for purposes of testing under section 401(a)(26), treat a benefit formula under a plan that would be a single current benefit structure but for differences in the rate of benefit accrual or contribution allocation into restructured separate benefit structures, one consisting of the lesser included portion of the formulas common to each of the benefit structures and one or more consisting of the portion(s) of the formula(s) that is not common to each of the benefit formulas. An employer may apply the rules of section 401(a)(26) to a plan's current benefit structures on the basis of this restructuring rule without amending the plan in any respect to reflect such restructuring. Thus, for example, a defined contribution plan that has a 10 percent of compensation allocation formula for one group of employees and a 15 percent of compensation allocation formula for another group of employees may be treated, under the restructuring rule, as having a 10 percent of compensation formula applicable to both groups of employees and a 5 percent of compensation formula applicable only to the group of employees subject to the explicit, 15 percent plan formula. Even though the plan explicitly includes the 10 percent and 15 percent formulas, the plan may be tested under section 401(a)(26) on the basis of the restructured 10 percent and 5 percent formulas.

The proposed regulation provides a special rule permitting a current benefit structure to satisfy section 401(a)(26) if such structure benefits at least the lesser of 20 active employees (rather than 50 active employees) or 40 percent of the employer's active employees. This special rule is available only if certain coverage and nondiscrimination requirements are satisfied and, in addition, the plan that includes the current benefit structure provides meaningful benefits (determined under the minimum current benefit structure test applicable with respect to prior benefit structures) to at least the lesser of 50 active employees or 40 percent of the employer's active employees.

The proposed regulation also includes special rules for certain current benefit structures that benefit only nonhighly compensated employees and for certain current benefit structures that benefit only employees "acquired" in connection with a merger or acquisition.

Prior benefit structure requirements

Under the proposed regulation, a defined benefit plan (but not a defined contribution plan) is required to satisfy section 401(a)(26) with respect to the plan's prior benefit structure. As it does with current benefit structures, the proposed regulation does not provide that a prior benefit structure is a separate plan that, as such, must satisfy section 401(a)(26). Rather, the proposed regulation provides that each defined benefit plan has a single prior benefit structure that is treated as satisfying section 401(a)(26) only if at least one of several alternative tests is satisfied. This approach to separate benefit structures does not result in the application of any requirement that could not also have been applied by providing a narrower definition of separate prior benefit structures and then providing that such structures are separate plans subject to section 401(a)(26).

For example, in lieu of providing that a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if the plan provides meaningful, additional benefit accruals to active employees, the proposed regulation could have been drafted to accomplish the same result by providing that a defined benefit plan does not have a prior benefit structure if the plan provides additional, meaningful benefits to active employees. Similarly, in lieu of providing that a frozen plan's prior benefit structure satisfies section 401(a)(26) if there are at least 50 active and former employees or 40 percent of the employer's active and former employees with meaningful benefits under the plan, the proposed regulation could have been drafted to provide that the portion of the frozen plan that includes employees with meaningful benefits is a separate benefit structure and that such separate structure is a separate plan which must benefit at least the lesser of 50 employees or 40 percent of the employer's employees.

The regulation includes six alternative tests under which a defined benefit plan's prior benefit structure may satisfy section 401(a)(26). These tests are designed to reflect the policy objectives of section 401(a)(26) without also requiring employers to track the many different benefit structures that may have been in effect at various times under their plans or to determine whether employees continue to have benefits under such different benefit structures.

A defined benefit plan need only satisfy one of the six alternative tests set forth in the proposed regulation. Thus, for example, in accordance with one of the alternative tests, if at least 100 active and former employees have at least de minimis benefits under a defined benefit plan and no three highly compensated employees have benefits in excess of 25 percent of the total benefits under the plan, the defined benefit plan's prior benefit structure satisfies section 401(a)(26). The employer need not satisfy any of the other alternative tests with respect to such plan's prior benefit structure.

The prior benefit structure tests fall into two general categories. The first category reflects the view that a defined benefit plan that is providing additional, meaningful, benefit accruals to active employees should not be forced either to improve benefits or to terminate simply because there is only a small number of employees with prior accrued benefits under the plan. The tests in this category thus provide that if a plan includes one or more current benefit structures for active employees that provide current benefit accruals that are meaningful relative to the benefits that have otherwise accrued under the plan, the plan's prior benefit structure is deemed to satisfy section 401(a)(26). (This is equivalent to providing that such plan does not include a prior benefit structure that must be treated as a separate plan subject to section 401(a)(26).)

The prior benefit structure tests in the second category are designed to determine whether a plan that does not include a meaningful current benefit structure (e.g., a frozen or substantially frozen defined benefit plan) nevertheless includes meaningful or more than de minimis accrued benefits for sufficient numbers of active and former employees. (These tests are equivalent to defining a plan's prior benefit structure to include only those employees with prior accrued benefits equal to or above a meaningful or de minimis level of benefits and then treating only such portion of the plan as a separate benefit structure that must separately satisfy section 401(a)(26).)

The first category of prior benefit structure tests includes four alternative tests. Under the minimum current accrual rate test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if at least 50 active employees or 40 percent of the employer's active employees have current accrual rates for the current year of service that are at least equal to 0.75 percent of final average compensation or 1.1 percent of career average compensation. Under the nondecreasing current benefit structure test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if at least 50 active employees or 40 percent of the employer's active employees (including the top three highly compensated employees of the employer) have hypothetical accrued benefits (determined by assuming that current benefit structures under the plan have always been in effect) equal to or greater than their actual accrued benefits under the plan. Under the minimum current benefit structure test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if the plan includes at least one current benefit structure that provides active employees with at least a minimum benefit accrued, which is determined by reference to the largest benefits under the plan for the highly compensated employees. Finally, under the benefit ratio test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if the sum of the accrued benefits of all active employees under the plan is less than 60 percent of the sum of the projected accrued benefits of all active employees under the plan and if the plan satisfies the concentration test (described below).

The second category of prior benefit structure tests includes two alternative tests, which are designed for plans that do not satisfy at least one of the four preceding tests. Under the minimum accrued benefit test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if there are at least 50 active and former employees or 40 percent of the employer's active and former employees with at least a minimum benefit, which is determined by reference to the largest benefits under the plan for the highly compensated employees. Under the minimum employee coverage test, a defined benefit plan's prior benefit structure satisfies section 401(a)(26) if at least 100 active and former employees of the employer have more than de minimis benefits under such plan and the plan satisfies the concentration test.

The concentration test, which applies under both the benefit ratio and the minimum employee coverage tests, is satisfied by a plan only if the sum of the benefits of the three highly compensated active and former employees of the employer with the largest benefits under the plan does not constitute more than 25 percent of the sum of the total benefits of all active and former employees under the plan.

In making these prior benefit structure determinations, an employee's accrued benefit under the plan being tested is the employee's actual accrued benefit under such plan. Thus, benefits provided under social security or similar Federal or state law, the permitted disparity under section 401(l), and benefits provided under any other plan generally are disregarded. However, the method for determining whether an employee's benefit is at least a minimum benefit relative to either the largest or other benefits under a plan is designed to take into account the permitted disparity under section 401(l) without regard to whether the plan being tested actually uses such permitted disparity.

Finally, the proposed regulation contains a delegation of authority to the Commissioner to prescribe additional tests under which a plan's prior benefit structure will satisfy section 401(a)(26). This delegation of authority, and similar delegations of authority in other sections of the proposed regulation, states that the delegation may be exercised only in the form of revenue rulings, notices or other documents of general applicability. No inferences should be drawn with respect to the manner in which the Commissioner may exercise other delegations of authority provided for in this or other regulations.

Exceptions

The proposed regulation includes three exceptions under which a plan is deemed to satisfy section 401(a)(26). First, the proposed regulation includes the statutory rule under which the portion of a multiemployer plan that benefits employees who are covered pursuant to a collective bargaining agreement is deemed to satisfy section 401(a)(26). However, this exception does not apply with respect to any collective bargaining agreement if more than two percent of the employees covered pursuant to such agreement are professional employees (e.g., doctors, lawyers, architects, and investment bankers).

In addition, the proposed regulation adopts a special rule described in the legislative history under which a plan is deemed to satisfy section 401(a)(26) if such plan does not benefit, either for the current year or for any of the five immediately preceding plan years, any employee who is or ever has been a highly compensated employee. This special rule is available only if the plan is not aggregated with any other plan for purposes of applying the minimum coverage or nondiscrimination rules to any such plan (including the average benefit test in section 410(b)(2)(A)(ii)).

Finally, the proposed regulation includes a limited exception for certain underfunded defined benefit plans. As set forth previously, if a defined benefit plan is frozen and does not include meaningful benefits for sufficient numbers of employees, section 401(a)(26) generally should operate to force the employer to wind up the plan when the number of employees with meaningful benefits under the plan is less than 50 employees or 40 percent of the employees of the employer. However, the proposed regulation provides that, in general, a defined benefit plan is deemed to satisfy section 401(a)(26) if such plan is subject to Title IV of ERISA or primarily benefits nonhighly compensated employees; the plan does not contain sufficient assets to satisfy all liabilities under the plan; all benefit accruals under the plan have ceased; and the plan does not rely on this rule for more than three years. In addition, a plan covered by Title IV of ERISA that would have failed section 401(a)(26) for the plan year containing August 16, 1986, if such section had been in effect for such year, can rely on this rule for plan years commencing before January 1, 1994.

RELIIANCE ON THESE PROPOSED REGULATIONS

Taxpayers may rely on these proposed regulations for guidance pending the issuance of final regulations. Because these regulations are generally effective for plan years beginning after 1988, the Service will apply these proposed regulations in issuing rulings and in examining returns with respect to taxpayers and plans. If future regulations are more restrictive, such guidance will be applied without retroactive effect.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required. Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C 553 do not apply. Accordingly, the proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR Part 1 are as follows:

INCOME TAX REGULATIONS (26 CFR Part 1)

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * Section 1.401(a)(26)-1 through-8 also issued under 26 U.S.C. 401(a)(26).* * *

Par. 2. The following new sections §1.401(a)(26)-0 through §1.401(a)(26)-8 are added to read as follows:

§1.401(a)(26)-0 Table of contents.

The following sections provide rules under section 401(a)(26):

§1.401(a)(26)-1 Minimum participation rule.

(a) *General rules.* A plan is a qualified plan (and a trust related to a plan is a qualified trust) for a plan year only if such plan satisfies section 401(a)(26) for such year. Generally, a plan will satisfy section 401(a)(26) only if the plan satisfies paragraph (b)(1) of this section with respect to each current benefit structure for active employees. Paragraph (c) of this section contains special rules regarding the application of paragraph (b) of this section to current benefit structures. If a plan includes a current benefit structure for former employees, the plan also must satisfy paragraph (b)(2) of this section with respect to such current benefit structure. Also, a defined benefit plan (but not a defined contribution plan) must satisfy the requirements of §1.401(a)(26)-6 with respect to its prior benefit structure. Finally, paragraph (d) of this section provides exceptions to section 401(a)(26) for plans that do not benefit any highly compensated employees, multiemployer plans, and underfunded defined benefit plans.

(b) *Current benefit structures*—(1) *Active employees*—(i) *General rule.* A plan satisfies this paragraph (b) for a plan year only if each current benefit structure included in the plan and benefiting active employees benefits at least the lesser of—

(A) 50 active employees of the employer, or

(B) 40 percent of the active employees of the employer. See paragraph (c) of this section for additional rules regarding the application of this paragraph (b)(1).

(ii) *Example.* The rule in this paragraph (b) is illustrated by the following example:

Assume that employer A employs 100 active employees and maintains one defined contribution plan (plan X) and one defined benefit plan (plan Y). All 100 employees benefit under plan X's current benefit structure, which provides all employees under the plan with a contribution allocation of 5 percent of compensation. This current benefit structure satisfies this paragraph (b) and plan X thus satisfies section 401(a)(26). Plan Y includes two current benefit structures, one of which (Y1) provides for a benefit of 1 percent per year of service times final average compensation, and the other of which (Y2) provides for a benefit of 2 percent per year of service times career average compensation. Current benefit structure Y1 benefits 75 active employees and thus satisfies this paragraph (b). Current structure Y2, however, benefits only 25 active employees and thus fails to satisfy this paragraph (b). Accordingly, defined benefit plan Y fails to satisfy section 401(a)(26) for the year.

(2) *Former employees.* A plan satisfies this paragraph (b)(2) for a plan year only if each current benefit structure included in the plan and benefiting former employees benefits at least the lesser of—

(i) 50 former employees of the employer, or

(ii) 40 percent of the former employees of the employer. See paragraph (c) of this section for additional rules regarding the application of this paragraph (b)(2).

(c) *Special rules for testing current benefit structures*—(1) *Restructured current benefit formulas*—(i) *In general.* In testing current benefit structures under paragraphs (b)(1) and (b)(2) of this section, an employer may, in certain circumstances, restructure two or more current benefit formulas under a plan that would constitute a single structure but for differences in the rate of benefit accrual or contribution allocation into restructured separate benefit structures, one consisting of the portion of the formulas that is common to each of the benefit structures and one or more consisting of the portion(s) of the formula that is not common to each of the benefit formulas. Each of the resulting restructured benefit structures must satisfy paragraph (b)(1) or (b)(2) of this section, whichever is applicable. See §1.401(a)(26)-2(e)(1) for rules governing the restructuring of current benefit formulas.

(ii) *Example.* The rule in paragraph (c)(1)(i) of this section may be illustrated by the following example.

Example. Defined benefit plan A includes two current benefit structures—one of which benefits the 200 active employees of division X and provides a benefit of 1½ percent times years of service times final average compensation, and the other of which benefits the 30 active employees of division Y and provides a benefit of 1 percent times years of service times final average compensation. In all other respects, employees have identical rights under the plan. Division X's current benefit structure satisfies paragraph (b)(1) of this section, but division Y's current benefit structure fails to satisfy such paragraph. However, the two current benefit structures may be retested on the basis of two restructured current benefit structures. (Under §1.401(a)-(26)-2(e)(1), an employer is not required to amend a plan to reflect the restructured current benefit structures in order to be able to use the restructuring method of testing under section 401(a)(26)). One restructured current benefit structure, which provides a benefit of 1 percent times years of service times final average compensation, benefits all 230 active employees of divisions X and Y. The other restructured current benefit structure, which provides a benefit of ½ percent times years of service times final average compensation, benefits division X's 200 active employees. Both of the restructured current benefit structures thus satisfy paragraph (b)(1) of this section.

(2) *Current benefit structures that benefit at least 20 active employees*—(i) *In general.* A plan may apply paragraph (b)(1)(i) of this section for a plan year by substituting "20 active employees" for "50 active employees" if the tests in paragraphs (c)(4)(ii) and (c)(4)(iii) of this section are satisfied for such plan year.

(ii) *Minimum nonhighly compensated employee test.* This test is satisfied for a plan year only if at least 70 percent of the active employees who benefit under the current benefit structure being tested are nonhighly compensated employees.

(iii) *Minimum participation test*—(A) *Defined benefit plans.* This test is satisfied with respect to a defined benefit plan for a plan year only if, as of the close of such year, at least the lesser of 50 active employees or 40 percent of the employer's active employees have future service benefit rates (or current accrual rates) under the plan that includes the current benefit structure being tested that are at least the minimum benefit rate (or the minimum current accrual rate) for such plan. See §1.401(a)(26)-6(b)(2)(iv)-(B) and (c)(2) for the definitions of future service benefit rate and minimum benefit rate. See §1.401(a)(26)-6(b)(2)-(ii)(C) and (D) for the definition of current accrual rate and minimum current accrual rate. This test is deemed to be satisfied for a plan year if, as of the close of such year, at least 100 active employees of the employer are currently accruing greater than de minimis benefits under an ongoing benefit formula under the plan that includes the current benefit structure being tested and the plan satisfies the concentration test set forth in paragraph (b)(4) of §1.401(a)(26)-6.

(B) *Defined contribution plans.* This test is satisfied with respect to a defined contribution plan for a plan year only if, for such plan year, at least the lesser of 50 active employees or 40 percent of the employer's active employees receive contribution allocations or, in the case of a plan subject to section 401(k) or 401(m), are eligible to receive contribution allocations, under the plan that includes the current benefit structure being tested, that are greater than de minimis allocations.

(3) *Current benefit structures that do not benefit any highly compensated employees.* A current benefit structure is deemed to satisfy paragraph (b)(1) of this section for a plan year if such current benefit structure does not benefit any active employee who is or ever has been a highly compensated employee of the employer. This paragraph (c)(5) is available to a current benefit structure only if such structure is included in a plan that benefits at least the lesser of 50 employees or 40 percent of the employer's employees, and all plans of the employer (including the plan that includes the current benefit structure being tested) would satisfy sections 401(a)(4) and 410(b) (including the average benefit test of section 410(b)(2)(A)-(ii)) if the employees benefiting under the current benefit structure being tested were treated as accruing no benefits under such structure. For purposes of this paragraph (c)(5), employees who were highly compensated employees only for plan years ending before January 1, 1984, are treated as not having been highly compensated employees.

(4) *Qualified cash or deferred arrangements maintained by employers that include certain governmental or tax-exempt entities*—(i) *General rule.* In the case of a plan including a qualified cash or deferred arrangement under section 401(k) that is maintained by an employer which employs employees precluded from being eligible employees under the arrangement by reason of section 401(k)-(4)(B), the current benefit structure consisting of elective contributions under the arrangement is deemed to satisfy paragraph (b)(1) of this section if more than 95 percent of all active employees of the employer benefit under such current benefit structure. Solely for purposes of this determination, employees precluded from being eligible employees under the qualified cash or deferred arrangement by reason of section 401(k)(4)(B) are to be treated as excludable employees. This paragraph (c)(6) applies also to employer matching contributions that are subject to section 401(m) and are geared to elective contributions under a qualified cash or deferred arrangement that satisfies this paragraph (c)(6).

(ii) *Example.* The rule in this paragraph (c)(6) can be illustrated by the following example:

Assume that an employer (determined after application of sections 414(b), (c), (m), (o), and (r)) consists of one taxable entity that has 30 active employees and several tax-exempt entities that have, in the aggregate, 500 active employees. Assume further that the employer maintains a plan including a qualified cash or deferred arrangement for the 30 active employees of the taxable entity, and that section 401(k)(4)(B) precludes all of the 500 active employees of the tax-exempt entities from eligibility under the arrangement. Because 30 active employees is less than the lesser of 50 active employees or 40 percent of the employer's 530 active employees (i.e., 212 employees), the current benefit structure consisting of the cash or deferred arrangement fails to satisfy paragraph (b)(1) of this section. However, under this paragraph (c)(6), this current benefit structure is deemed to satisfy paragraph (b)(1) of this section because the current benefit structure benefits 100 percent of the employer's active employees, determined by disregarding all of the 500 active employees of the tax-exempt entities who are precluded from eligibility by reason of section 401(k)(4)(B).

(5) *Current benefit structures for former employees.* In the case of a plan that includes a current benefit structure for former employees (e.g., a plan that is amended to provide an ad hoc cost-of-living adjustment to the benefit provided former employees under the plan), such current benefit structure is deemed to satisfy paragraph (b)(2) of this section if at least five former employees benefit under such current benefit structure and either more than 95 percent of all former employees with benefits under the plan benefit under such current benefit structure or at least 60 percent of the former employees who benefit under such current benefit structure are not highly compensated former employees. Solely for purposes of this determination, a former employee who has a vested accrued benefit under the plan and is an excludable former employee under §1.401(a)-(26)-4(c)(3) solely because such employee's vested accrued benefit is not in excess of $3,500 is not treated as an excludable former employee.

(6) *Certain acquisitions or dispositions*—(i) *In general.* Under section 401(a)(26), rules similar to rules prescribed under section 410(b)(6)(C)(i) shall apply.

(ii) *Transition rule.* Where there has been a transaction described in section 410(b)(6)(C) in the year prior to the first year in which section 401(a)(26) becomes effective with respect to a plan, affected by such transaction, which plan includes a current benefit structure, the current benefit structure will satisfy section 401(a)(26) for the transition period commencing on the date of the transaction and ending on the last day of the first plan year beginning after the date of the transaction if either of the following two requirements is met:

(A) The current benefit structure satisfies section 401(a)(26) immediately before the transaction on the basis of only the applicable statutory provisions, without regard to the regulations under section 401(a)(26), in the manner provided in §1.401(a)(26)-8(c)(3). Thus, a current benefit structure satisfies the requirements of section 401(a)(26), immediately prior to the transaction, if such structure was part of a plan that benefited 50 employees or 40 percent of the employees of the employer without regard to current or prior benefit structures existing under the plan.

(B) The current benefit structure affected by the transaction satisfies the rule in paragraph (c)(7) of this section.

(7) *Acquisition current benefit structures.* A current benefit structure under a defined benefit plan that benefits only employees (acquisition employees) who become employed by the employer in connection with a corporate acquisition, merger or similar transaction (transaction) is deemed to satisfy paragraph (b)-(1) of this section for a plan year if all of the following requirements are satisfied for the plan year:

(i) The current benefit structure includes the same benefit formula that existed in the benefit structure under which such acquisition employees were benefiting immediately prior to the transaction or, if different, any difference reflects changes necessitated by changes in the applicable qualification requirements;

(ii) Immediately after the transaction, the current benefit structure satisfies the test of paragraph (c)(4)(ii) of this section;

(iii) The current benefit structure is included in a defined benefit plan that, as of the current plan year, satisfies the test of paragraph (c)(4)(iii) of this section; and

(iv) The transaction occurred either in the current plan year or any of the immediately preceding five plan years.

In the case of a transaction occurring prior to the effective date of section 401(a)(26) with respect to the plan, the requirements of paragraph (c)(3)(ii) of this section may be applied either immediately after the transaction or as of the first day of the first plan year for which section 401(a)(26) is effective, and the requirements of paragraph (c)(3)(iv) of this section may be applied as if the transaction occurred on December 31, 1988.

(d) *Exceptions*—(1) *Plans that do not benefit any highly compensated employees*—(i) *General rule.* A plan is deemed to satisfy section 401(a)(26) for a plan year if such plan is not a top-heavy plan under section 416 and such plan (and any predecessor plan) does not benefit, for such plan year and for any of the immediately preceding five plan years, any active or former employee who is or ever has been a highly compensated employee of the employer (either as an active employee, former employee, or both). This paragraph (d)-(1) is available to a plan being tested under section 401(a)(26) only if all other plans of the employer would satisfy sections 401(a)(4) and 410(b) (including section 410(b)(2)(A)(ii)) if the employees under the plan being tested are treated as though they have no benefits under such plan. For purposes of applying this rule, employees who were highly compensated employees only for plan years ending before January 1, 1984, are not treated as highly compensated employees.

(ii) *Example.* This paragraph (d)(1) can be illustrated by the following example:

Assume that an employer has 100 employees, only 5 of whom are highly compensated employees. The employer maintains two defined benefit plans during a particular year: plan X has a uniform, unit benefit formula and benefits the employer's 5 highly compensated employees and 70 of the nonhighly compensated employees, and plan Y benefits the remaining 25 nonhighly compensated employees. Plan X satisfies the ratio coverage test of section 410(b)(1)(B) and section 401(a)(4) without regard to plan Y. Also, plan X is not top-heavy. If none of the nonhighly compensated employees benefit under plan Y have ever been highly compensated employees of the employer, plan Y is deemed to satisfy section 401(a)(26) for the year even though only 25 employees benefit under such plan.

(2) *Multiemployer plan exception*—(i) *In general.* The portion of a multiemployer plan that, for a plan year, benefits only employees included in a unit of employees covered by a collective bargaining agreement is deemed to be a separate plan that satisfies section 401(a)-(26) for such plan year. If a multiemployer plan also benefits employees who are not included in any collective bargaining unit, the portion of the plan benefiting such employees must separately satisfy section 401(a)(26).

(ii) *Covered by a collective bargaining agreement.* An employee is covered by a collective bargaining agreement only if such employee is represented by a bona fide employee representative that is a party to the collective bargaining agreement or agreements under which the multiemployer plan is maintained.

Thus, for example, an employee of either the multiemployer plan or the employee representative is not included in a unit of employees covered pursuant to the collective bargaining agreement under which the plan is maintained merely because the employee is covered under the plan pursuant to an agreement entered into by the multiemployer plan or employee representative on behalf of the employee (other than in the capacity of an employee representative with respect to such employee). This is the case even if all such employees covered under the plan constitute only a de minimis percentage of the total employees benefiting under the plan.

(iii) *Multiemployer plans covering professional employees*. This paragraph (d)(2) does not apply for a plan year with respect to a collective bargaining agreement if, for such year, more than 2 percent of the employees who are covered pursuant to such agreement are professionals as defined in §1.401(a)(26)-7(g). This paragraph (d)(2)(iii) is applied separately with respect to each collective bargaining agreement. Thus, for example, if a multiemployer plan benefits a group of employees covered by collective bargaining agreement X and a group of employees covered by collective bargaining agreement Y and if more than 2 percent of the employees covered pursuant to agreement X are professionals (but not agreement Y), this paragraph (d)(2) applies with respect to employees covered pursuant to agreement Y, but not with respect to employees covered pursuant to agreement X.

(3) *Certain underfunded defined benefit plans*—(i) *In general*. A defined benefit plan is deemed to satisfy section 401(a)(26) for a plan year if all of the conditions of paragraphs (d)(3)(ii) through (d)(3)(v) of this section are satisfied with respect to such plan for such year.

(ii) *Eligible plans*. This condition is satisfied for a plan year only if the defined benefit plan is subject to Title IV of ERISA for such year or if, as of the close of such year, the sum of the accrued benefits of the nonhighly compensated employees under the plan is at least 50 percent of the sum of the accrued benefits for all employees under the plan. See paragraph (c)(1) of §1.401(a)(26)-6 for the definition of accrued benefit.

(iii) *Actuarial certification*. This condition is satisfied for a plan year only if an enrolled actuary provides the employer with an actuarial certification that, as of the last day of the immediately preceding plan year, the defined benefit plan does not have sufficient assets to satisfy all liabilities under the plan (determined in accordance with section 401(a)(2)). Such certification must be included with a timely filed actuarial report as required under section 6059.

(iv) *Cessation of all benefit accruals*. This condition is satisfied for a plan year only if, for such year, no employees accrue any additional benefits under the plan (including benefits attributable to increases in compensation or in the section 415 or section 401(a)(17) limits), except for the minimum benefits for non-key employees required by section 416.

(v) *Plan year limitation*. This condition is satisfied for a plan year only if the defined benefit plan does not rely on this paragraph (d)(3) to satisfy section 401(a)(26) for more than three plan years (including the current plan year). For plan years commencing before January 1, 1994, this condition may be applied by substituting "five plan years" for "three plan years" in the preceding sentence if the plan being tested was in existence on August 16, 1986; the plan would have failed to satisfy section 401(a)(26) for the plan year including August 16, 1986, if such section had applied with respect to such year; the plan fails to satisfy section 401(a)(26) for the first plan year for which section 401(a)(26) applies with respect to such plan; and the plan has not been involved in a plan merger, spinoff, asset or liability transfer or any similar transaction since August 16, 1986. The determination of whether a plan would have failed to satisfy section 401(a)(26) for the plan year including August 16, 1986 is to be made under the rules in §1.401(a)-(26)-8(c)(3).

§1.401(a)(26)-2. Definitions of plan, current benefit structure, and prior benefit structure.

(a) *Plan*. In general, the term "plan" refers to a plan described in section 401(a) that includes one or more trusts intended to be exempt from tax under section 501(a), and an annuity plan described in section 403(a). As described in paragraph (b) of this section, each single plan under section 414(l) is treated as a plan for purposes of section 401(a)-(26). Under paragraph (c) of this section, in certain cases (including certain outside arrangements), a plan that is a single plan under paragraph (b) may be treated as comprising separate plans for purposes of section 401(a)(26). Furthermore, in accordance with section 401(a)-(26)(I), section 401(a)(26) also must be satisfied with respect to current benefit structures and, in the case of defined benefit plans, prior benefit structures. Paragraphs (d) and (e) of this section set forth rules for identifying a plan's current benefit structures and prior benefit structure.

(b) *Separate asset pools are separate plans*. Each single plan within the meaning of section 414(l) is a separate plan for purposes of section 401(a)(26). See §1.414(l)-1(b). For example, if only a portion of the assets under a defined benefit plan is available, on an ongoing basis, to provide the benefits of certain employees and the remaining assets are available only in certain limited cases to provide such benefits (but are available, in all cases, for the benefits of other employees), there are two separate plans. A single plan under section 414(l) is a plan for purposes of section 401(a)(26) notwithstanding that such plan comprises separate, written plan documents and separate trusts, each of which have received separate determination letters from the Internal Revenue Service. A defined contribution plan does not comprise separate plans merely because it includes more than one trust or it provides for separate accounts and permits employees to direct the investment of the amounts allocated to their accounts. Further, a plan does not comprise separate plans merely because assets are invested in individual insurance or annuity contracts for employees.

(c) *Disaggregation of certain plans*—(1) *Plans that include individual account and defined benefit components*. The portion of a plan that provides benefits that are based solely on the contributions and other amounts allocated to employees' individual accounts (determined in accordance with section 414(i)) and the portion of the plan that provides benefits that are not based solely on the contributions and other amounts allocated to employees' individual accounts are to be treated as separate plans for purposes of section 401(a)(26). Thus, for example, a plan that provides benefits partly on the basis of defined benefits and partly on the basis of employees' individual accounts is to be treated as including both an individual account plan (with respect to those benefits based solely on employees' individual accounts) and a defined benefit plan (with respect to those benefits that are not based solely on employees' individual accounts), each of which must separately satisfy section 401(a)(26).

(2) *Plans benefiting collective bargaining employees.* An employer may treat the portion of a plan that benefits employees who are included in a unit of employees covered by a collective bargaining agreement and the portion of a plan that benefits employees who are not included in such a collective bargaining unit as separate plans for purposes of section 401(a)(26). Thus, for example, if a plan benefits employees who are included in collective bargaining unit A and employees who are not included in any collective bargaining unit, the employer may treat such plan as two separate plans for purposes of section 401(a)(26), even if all of such employees benefit under identical current benefit structures. This paragraph (c)(2) applies separately with respect to each collective bargaining agreement. Thus, for example, the portion of a plan that benefits employees included in a unit of employees covered by one collective bargaining agreement may be treated as a plan that is separate from the portion of the plan that benefits employees included in a unit of employees covered by another collective bargaining agreement.

(3) *ESOPS.* The portion of a plan that is an employee stock ownership plan described in section 4975(e)(7) (an ESOP) and the portion of such plan that is not an ESOP are to be treated as separate plans for purposes of section 401(a)-(26). An employer may treat the rule in this paragraph (c)(3) as effective for plan years commencing on or after January 1, 1990.

(4) *Plans benefiting otherwise excludable employees.* If, in accordance with §1.401(a)(26)-4(b)(1)(ii), an employer elects to apply section 401(a)(26) separately to the portion of a plan that benefits only employees who have failed to satisfy the highest minimum age and/or service conditions permissible under section 410(a)(1), such portion is to be treated as a separate plan for purposes of section 401(a)(26).

(5) *Plans maintained by more than one employer*—(i) *Multiple employer plans.* If a plan benefits employees of more than one employer and such employees are not included in a unit of employees covered by one or more collective bargaining agreements (a multiple employer plan), the plan is to be treated as comprising separate plans each of which is maintained by a separate employer and must separately satisfy section 401(a)(26) by reference only to such employer's employees.

(ii) *Multiemployer plans.* The portion of a multiemployer plan that benefits employees who are included in one or more units of employees covered by one or more collective bargaining agreements and the portion of such plan that benefits employees who are not included in a unit of employees covered pursuant to any collective bargaining agreement are to be treated as separate plans for purposes of section 401(a)(26). See §1.401(a)-(26)-1(d)(2) for a multiemployer plan exception. The portion of a multiemployer plan that benefits employees who are not included in a unit of employees covered by a collective bargaining agreement is to be treated as plan maintained by one or more employers, depending on whether such employees are employed by one or more employers. See §1.401(a)(26)-1(d)(2)(ii) for purposes of determining whether an employee is included in a unit of employees covered pursuant to a collective bargaining agreement.

(d) *Current benefit structures*—(1) *In general.* One or more current benefit structures exist whenever there is an allocation or benefit accrual whether as a result of additional years of service, changes in compensation, or other factors. Any such increases are treated as benefits attributable to the year of service in which they accrue. A single current benefit structure exists with respect to each portion of a uniform benefit formula (under which contributions and forfeitures are allocated with respect to a plan year in a defined contribution plan or under which an employee's benefit attributable to the current year of service is determined in a defined benefit plan) to the extent that subsidies, optional forms of benefits, rights and features (e.g. social security supplements, ancillary benefits, loans and investment options) are provided on a uniform basis to employees eligible to participate under such formula. To the extent that subsidies, optional forms of benefits, rights and features are not provided on a uniform basis, two or more single current benefit structures exist. An otherwise single current benefit structure comprises separate current benefit structures to the extent it is included in separate plans (as determined under paragraphs (b) and (c) of this section). See §1.401(a)(26)-8(b)-(1) for a transition rule with respect to the provisions taken into account in identifying a plan's current benefit structures for plan years beginning before January 1, 1990.

(2) *Uniform formula*—(i) *In general.* In determining whether a benefit formula is uniform all features in the plan affecting the availability of the benefit and the amount of benefits or contributions accrued must be taken into account. Factors taken into account in making this determination include the rate of accrual in a defined benefit plan and the basis of and conditions to contributions or benefits (e.g. hour-of-service minimums, year-of service requirements and limits, compensation definitions, benefit limits, employment conditions, vesting schedules, levels of mandatory employee contributions, eligibility requirements for participation).

(ii) *Difference in rates of allocation or benefit accrual.* In general, differences in rates of allocations or benefit accruals for different participants under plan will result in separate benefit structures under the plan. However, a formula does not fail to be a uniform formula merely because the rate of contribution allocations or benefit accruals (expressed as percentages of compensation or flat dollar amounts) varies, on a uniform basis for all employees, with years of service or participation (as, for example, in a formula that is backloaded to the extent permitted under section 411(b)(1)-(B)) or varies with entry age (as, for example, with a formula under which benefits accrue under the fractional rule of section 411(b)(1)(C)). Similarly, a formula does not fail to be uniform merely because the rate at which benefits accrue above a stated compensation level differs from the rate at which benefits accrue below such level, without regard to whether such formula satisfies the requirements of section 401(l). A formula does not fail to be a uniform formula merely because it provides that an employee will receive the greatest contribution allocation or benefit accrual produced under one of several formulas that are reasonably available to all employees covered by the formula. In addition, a formula does not fail to be uniform merely because it provides for an allocation on the basis of account balances.

(iii) *Permitted disparity.* A benefit formula under a plan does not fail to be uniform merely because of differences under the formula that are permissible under section 401(l) and, under such rules, are treated as uniform. Thus, for example, if the rates under a defined benefit excess plan's benefit formulas differ based solely on employees' social security retirement ages such that the disparities under such formulas are treated as uniform under section 401(l), such differences are disregarded in determining whether the benefit formulas constitute one or more current benefit structures.

(3) *Uniform subsidies, optional forms of benefits, rights and features*—(i) *In general*. Subsidies, optional forms of benefit, rights and features are provided on a uniform basis with respect to a benefit formula if each such subsidy, optional form of benefit, right and feature is provided on a uniform basis to all participants eligible to benefit under such benefit formula. A subsidy, optional form of benefit, right and feature is provided on a uniform basis only if it is identical with respect to its terms (i.e. frequency of use, dollar limitations, actuarial assumptions). In addition, in the case of a subsidy, optional form of benefit, right or feature, the availability of which is conditioned, the subsidy, optional form of benefit, right or feature is provided on a uniform basis only with respect to those participants with respect to whom the conditions are identical and who satisfy the conditions.

(ii) *Conditions on availability*—(A) *In general*. Whether a participant satisfies conditions on availability of a subsidy, optional form of benefit, right or feature is determined on the basis of the current facts and circumstances with respect to the employee (e.g. the employee's current job classification, division of employment or net worth). Thus, for example, the fact that an employee may, in the future satisfy a condition on availability generally does not cause the conditioned benefit, right or feature to be treated as currently available to such employee. However, to the extent provided in paragraphs (d)(3)(ii)(B) and (C) and subject to the limitations in paragraph (d)(12) with respect to individualized formulas, certain conditions on availability are treated as currently satisfied for purposes of determining whether a subsidy, optional form of benefit, right or feature is provided on a uniform basis.

(B) *Age and service conditions*. In general, for purposes of the rules in this paragraph (d)(3), age conditions and service conditions are treated as satisfied. This exception is not applicable to age or service conditions with respect to optional forms of benefit, rights and features that must be satisfied within a specified period of time, other than termination of employment. However, availability of an optional form of benefit, right or feature subject to such a limited age or service condition may be determined by projecting the age and service of employees to the last date on which such formula, right or feature is available under the plan. An employer's ability to project age and service to the last date on which the formula, right or feature is available under the plan is not cut off by a plan termination occurring prior to that date. Those employees who are not eligible for a benefit because they do not satisfy any applicable conditions during a specified time period are not treated as benefiting under a separate benefit structure.

(C) *Certain other conditions*. Conditions on the availability of benefit formulas, optional forms of benefit, rights or features requiring termination of employment, death, satisfaction of a specified health condition (or failure to meet such condition), disability, hardship, marital status, default on a plan loan secured by a participant's account balance, or execution of a covenant not to compete are treated as satisfied in determining the group of employees benefiting under the current benefit structure containing such formula, right or feature.

(4) *Sections 401(k) and 401(m)*—(i) *In general*. A plan (or portion thereof) that is subject to section 401(k) or 401(m) includes separate current benefit structures to the extent that there are differences in the availability and/or maximum rates of elective contributions subject to section 401(k), after-tax employee contributions subject to section 401(m), or matching contributions subject to section 401(m). Similarly, a plan (or portion thereof) that includes matching contributions subject to section 401(m) includes separate current benefit structures to the extent that the matching contributions are not allocated under a uniform formula with respect to employees' elective contributions or after-tax employee contributions.

(ii) *Elective contributions, employee contributions and matching contributions*. The portion of a plan to which elective contributions under a qualified cash or deferred arrangement (defined under section 401(k)) may be made is a separate benefit structure for purposes of section 401(a)(26). Similarly, the portion of a plan to which employee contributions subject to section 401(m) may be made is a separate benefit structure for purposes of section 401(a)(26). Finally, the portion of a plan to which matching contributions subject to section 401(m) may be made is a separate benefit structure for purposes of section 401(a)(26).

(iii) *Exceptions*. A plan (or portion thereof) that is subject to section 401(k) or 401(m) does not include separate current benefit structures merely because of differences in the allocation of elective contributions or after-tax employee contributions and matching contributions that are solely the result of employees' elections. Similarly, a plan (or portion thereof) that is subject to section 401(k) or 401(m) does not comprise separate current benefit structures merely because the plan imposes uniform limits on the elective contributions or employee contributions that may be made by highly compensated employees to facilitate compliance with the applicable nondiscrimination rules or imposes uniform limits on the elective contributions that any employee can make to assure compliance with the limits under section 402(g) and section 415. Also, separate current benefit structures do not arise merely because of the allocation of qualified nonelective contributions to some or all nonhighly compensated employees eligible under the plan (or portion thereof) subject to section 401(k) or 401(m) if such nonelective contributions both are taken into account for purposes of determining whether elective contributions, employee contributions, or matching contributions satisfy the requirements of section 401(k) or 401(m), as applicable, and are not taken into account in determining whether any other employer contributions satisfy sections 401(a)(4) and 410(b) (other than section 410(b)(2)(A)(ii)). The preceding sentence applies with respect to allocations of qualified nonelective contributions to nonhighly compensated employees without regard to whether such allocations are under a uniform formula.

(5) *Top-heavy contributions and benefits*—(i) *General rule*. A plan does not fail to provide a single current benefit structure merely because the plan includes a formula that provides non-key employees with contributions or benefits required under section 416.

(ii) *Examples*. This paragraph (d)(5) can be illustrated by the following examples:

Example 1. Assume that a defined benefit plan provides that all employees will receive a normal retirement benefit of 1 percent times years of service times final average compensation. However, the plan also provides that non-key employees who perform at least 1000 hours of service will receive a benefit of at least 2 percent times top-heavy years of service (not in excess of 10 years of service) times top-heavy compensation. In determining this plan's current benefit structures, the portion of the benefit formula that is required to comply with section 416 may be disregarded. Thus, this plan has one current benefit structure.

Example 2. Assume the same facts set forth in *Example 1*, except that the plan provides that, whether or not the plan is top-heavy, all employees (rather than only non-key employees) who perform at least 1000 hours of service will receive a benefit of at least 2 percent times years of service (not in excess of 10 years) times compensation. The portion of the formula that reflects the top-heavy requirements must be taken into account in determining this plan's current benefit structure. In this case, the plan is treated as including only one current benefit structure under which each employee earns the greater benefit under the two parts of the formula.

(6) *Contributions for participants who are permanently and totally disabled.* A plan does not fail to provide a single current benefit structure merely because the plan includes a formula that uniformly provides nonhighly compensated employees with contributions pursuant to the provisions of section 415(c)(3)(C).

(7) *Grandfathered benefits*—(i) *General rule.* A defined benefit plan's benefit formula does not fail to be a single current benefit structure merely because such formula provides that an employee will not accrue additional benefits under the current portion of the benefit formula until such employee has accrued under such portion a benefit in excess of such employee's benefit under one or more formulas in effect for prior years that are based wholly on prior years. Such prior benefit may have accrued under the same or a separate plan and may relate to service with the same or prior employers. Benefits fail to be treated as based wholly on prior years if they are based, directly or indirectly, on compensation earned after such prior years (including compensation earned in the current year). Benefits do not fail to be treated as based wholly on prior years merely because such benefits (e.g., early retirement benefits) are subject to an age or years-of-service condition and, in applying such condition or conditions, the current and prior years are taken into account. In addition, if a plan eliminates a right or feature (e.g., single sum distribution option or loan) with respect to future benefits, and provides that such right or feature remains available with respect to benefits accrued as of the date of elimination, the plan's grandfather of such right or feature with respect to prior accrued benefits does not create separate current benefit structures.

(ii) This paragraph (d)(7) can be illustrated by the following examples:

Example 1. Assume that an employer maintains a defined benefit plan under which an employee receives a benefit equal to 2 percent times years of service times final average compensation. Effective January 1, 1990, the plan is amended to provide that an employee receives the greater of (A) 2 percent times years of service up to January 1, 1990, times final average compensation as of December 31, 1989, and (ii) 1½ percent times all years of service times final average compensation as of separation from service. Even though the employees with service prior to 1990, are a closed group and may not accrue additional benefits under this two-part formula for one or more years after 1989 and the other employees will benefit immediately and in full under the latter part of the formula, this is a uniform formula that is a single current benefit structure.

Example 2. Assume the same facts set forth in *Example 1*, except that final average compensation under the former part of the two-part formula is determined based on compensation as of separation from service (i.e., final average compensation is determined by reference to compensation after 1989). Because employees with service prior to 1990, may accrue additional benefits under the former part of the formula, this formula comprises two current benefit structures, one for employees with pre-1990 service and one for employees without any pre-1990 service.

(8) *Benefit offset arrangements*—(i) *General rule.* A plan's contribution or benefit formula that provides for a benefit under the positive portion of the formula that is offset or reduced by contributions or benefits under another plan maintained by the same employer does not fail to comprise a single current benefit structure to the extent that all of the conditions of paragraph (d)(8)(i)(A) through (d)(8)(i)(C) of this section are satisfied. To the extent that these conditions are not satisfied, the contribution or benefit formula will not be treated as uniform and will comprise two or more current benefit structures. See §1.401(a)-(26)-3(b)(6) for the determination of who is benefiting under a current benefit structure that includes an offset or reduction.

(A) *Offset condition.* This condition is satisfied only if the formula being tested provides that contributions or benefits under its positive portion are offset or reduced by contributions or benefits accrued under another plan maintained by the same employer, and the contributions or benefits used to offset or reduce the contributions or benefits under the positive portion of the formula being tested were originally accrued under such other plan (or a predecessor plan). Thus, contributions or benefits transferred or rolled over to the other plan generally may not be used to offset the benefit under the positive portion of the formula being tested.

(B) *Benefiting condition.* This condition is satisfied only if the employees who benefit under the formula being tested also benefit, with respect to those contributions or benefits that are used to offset or reduce contributions or benefits under the formula being tested, under the other plan on a reasonable and uniform basis. If, with respect to employees who benefit under the formula being tested, some employees benefit and some employees do not benefit under the other plan, the formula being tested fails to be a single current benefit structure. Similarly, employees under the formula being tested do not benefit under the other plan on a reasonable and uniform basis if, for any year, the contributions or benefits used to offset or reduce contributions or benefits under the formula being tested are attributable to a benefit structure that is not uniform with respect to all such employees. Finally, employees do not benefit on a reasonable or uniform basis under the other plan if the method and assumptions for calculating the extent to which contributions or benefits under the other plan offset or reduce contributions or benefits under the formula being tested are not uniform with respect to such employees.

(C) *Anti-multiple use condition.* This condition is satisfied only if the contributions or benefits under the plan that are used to offset or reduce the contributions or benefits under the formula being tested are not used to offset or reduce contributions or benefits under any other plan or any other formula.

(D) *Examples.* This paragraph (d)(8) can be illustrated by the following examples.

Example 1. Assume that all 100 active employees in defined benefit plan A benefit under a benefit formula that provides a benefit equal to 1½ percent times years of service times final average compensation. However, with respect to 30 active employees, the benefit under this positive benefit of the formula is offset by the benefit under a single formula in plan B of the employer. With respect to another 25 active employees, the positive plan A benefit is offset by the benefit under a separate formula in plan C, and with respect to the remaining 45 participants, the positive plan A benefit is not offset by any other benefit. The benefit formula in plan A comprises three separate current benefit structures for purposes of section 401(a)-(26).

Example 2. Employer X, a partnership with two partners and seven common law employees, maintains two defined benefit plans (X and Y) and one defined contribution plan (Z). Partner X and the seven employees participate in defined benefit plan X, which has a single benefit formula that provides for an offset by any benefit provided under defined contribution plan Z. Partner Y and the seven employees participate in defined benefit plan Y, which has a single benefit formula (different from plan X's formula) that also provides for an offset by any benefit provided under plan Z. The seven employees (but not the partners) also participate in plan Z, which provides a uniform contribution allocation formula for all participants. Plans X and Y violate both the benefiting condition and the anti-multiple use condition. For both reasons, Plans X and Y each provide two separate benefit structures, one for the participating partner and another for the seven employees.

(9) *Exception for certain section 414(n) recipient employers.* For purposes

of the benefit-offset rule in paragraph (d)(8)(i) of this section, an employer-recipient within the meaning of section 414(n) and (o) that maintains a defined contribution plan covering leased employees (which employees are treated as employees of such employer-recipient within the meaning of section 414(n)(2) and 414(o)(2)) that is offset or reduced by contributions to defined contribution plan maintained by the leasing organization may treat such contributions as contributions to a plan maintained by the recipient organization for purposes of this paragraph (d)(8)(i)(A) and may treat employees of the recipient organization as benefiting under the plan of the leasing organization for purposes of this paragraph (d)(8)(i)(B) only if the following requirements are satisfied: the contributions relate to service with the recipient organization; the contributions are made to a money purchase plan that would be a safe-harbor plan within the meaning of section 414(n)(5) without regard to the 20-percent requirement applicable to such determination; and, the requirements in paragraph (d)(8)(i)(A) through (d)(8)(i)(C) of this section are otherwise satisfied with respect to such benefit offset arrangement. In applying the requirements of paragraph (d)(8)(i)(B) of this section, employees of the recipient who are not leased from the leasing organizations are not required to benefit under the plan of the leasing organization.

(10) *Inactive benefit formulas*—(i) *General rule.* If a plan includes a benefit formula but no employee is currently eligible to accrue any additional benefits under the formula, such formula is not a current benefit structure under the plan. Similarly, if a plan includes a benefit formula with respect to which one or more employees are eligible, but the benefit formula does not provide any additional benefit to such employees, such formula is not a current benefit structure.

(ii) *Certain profit-sharing plans.* A profit-sharing plan or stock bonus plan does not fail to have a current benefit structure merely because there is no allocation in the current year because the employer maintaining the plan fails to make a contribution. Any employee covered by such a profit-sharing or stock bonus plan is treated as benefiting under a current benefit structure in the profit-sharing plan for a plan year if such employee both satisfies all of the applicable conditions to receiving a maximum contribution allocation under such current benefit structure for such year and fails to receive such allocation merely because the employer fails to make a contribution to the plan for such year and there are no forfeited amounts for reallocation for such year.

(11) *Other arrangements that create separate current benefit structures*—(i) *In general.* If, under all the facts and circumstances, an arrangement (either under or outside the plan) has the effect of modifying any feature under the plan taken into account in determining an employee's benefit, providing any employee with any priority or greater interest in a portion of the assets in the plan, or linking any financial matter involving an employee to all or a portion of the assets in the plan in a way that has the effect of creating separate accounts, such arrangement will be treated as creating a separate current benefit structure within the plan. However, separate current benefit structures do not arise merely because a partnership agreement provides for allocation of the cost of funding a defined benefit plan or the allocation of surplus assets upon termination of such plan among partners in proportion to their partnership interest.

(ii) *Examples.* The following examples illustrate certain situations in which other arrangements will or will not be treated as creating separate benefit structures:

Example 1. Employer A maintains a defined benefit plan under which each highly compensated employee has the discretion and authority to direct the investment of a portion of the plan's assets that represent the accumulated contributions with respect to that employee's plan benefits. In addition, by agreement outside the plan, if the product of the employee's investment direction exceeds the value needed to fund that employee's benefits, Employer A agrees to make a special payment to the participant. In this case, each separate portion of the pool of assets over which an employee has investment authority is considered a separate current benefit structure for such employee.

Example 2. Employer B is a partnership that maintains a defined benefit plan. Under the partnership agreement, the cost of providing the current benefit accrual for each partner is allocated to such partner in determining such partner's distributive share of profit or loss. This plan does not include separate plans merely because of this arrangement.

Example 3. Employer C is a partnership that maintains a defined benefit plan. The partnership agreement provides that, upon termination of the plan, a special allocation is to be made to a partner representing the amount of the excess plan assets in proportion to such partner's accrued benefit under the plan. This arrangement results in the defined benefit plan being treated as including a separate current benefit structure for each partner. The same agreement modified to allocate excess plan assets after reversion to the partnership on the basis of partnership share does not create a separate benefit structure with respect to the partner.

(12) *Examples*—(i) *Defined contribution plans.* The following examples illustrate the meaning of current benefit structure with respect to defined contribution plans. Assume that the plans in the following examples provide identical benefits with respect to all participants except to the extent specifically described in the example. Also, assume that, based on all of the facts and circumstances, none of the formulas described in these examples comprise individualized formulas.

Example 1. Plan A allocates contributions and forfeitures uniformly on the basis of the ratio of each participant's compensation to the total compensation of all participants under the plan using the same definition of compensation for all participants. Plan A has one current benefit structure.

Example 2. Plan B benefits two categories of plan participants, category 1 and category 2. Category 1 participants are allocated contributions equal to 4 percent of compensation, while category 2 participants are allocated contributions equal to 10 percent of compensation. Plan B has two current benefit structures.

Example 3. All participants in Plan C receive contribution allocations equal to 5 percent of current compensation. However, forfeitures are allocated among category 1 participants on the basis of compensation and among category 2 participants on the basis of account balances. Plan C has two current benefit structures. The result would be the same if the allocation of forfeitures in plan C for category 1 participants was on the basis of the ratio of the participant's current compensation to the current compensation of all category 1 participants and among category 2 participants on the basis of the ratio of the participant's current compensation to the current compensation of all category 2 participants.

Example 4. Under Plan D, the employer contributions for category 1 participants and category 2 participants are determined separately—the contribution for category 1 participants is based on the profits in division A, while the contribution for category 2 participants is based on the profits in division B. The employer contributions for each category of participants are allocated among participants on a uniform basis. Plan D has two current benefit structures.

Example 5. Plan E allocates contributions among all participants under a uniform allocation formula which is based, in part, on a participant's years of service with the employer. Participants with 10 or fewer years of service receive allocations equal to 5 percent of compensation, and participants with additional years of service receive an additional allocation of 1 percent of compensation for every 2 additional years of service (in excess of 10 years) with the employer. Plan E has one current benefit structure.

Example 6. Plan F allocates contributions among all participants on the basis of units. Participants are credited with one unit for each $2500 of compensation and one unit for each year of service with the employer. Also, plan F allocates forfeitures among all participants on the basis of the ratio of a participant's compensation to the total compensation of all participants. Plan F has one current benefit structure.

Example 7. Plan G allocates contributions among all participants equal to 5 percent of compensation, but in no event less than $300. Plan G has one current benefit structure even though the actual allocation for particular participants may vary as a percentage of compensation due to the minimum allocation provision.

Example 8. Plan H is a target benefit plan that allocates contributions among all participants based on a uniform unit benefit formula providing a retirement benefit of 1 percent of compensation per year of service. A uniform method is used to derive the contribution allocation for each employee. Plan H has one current benefit structure, even though the contribution allocations for participants are not a uniform percentage of compensation.

(ii) *Defined benefit plans.* The following examples illustrate the meaning of current benefit structure with respect to defined benefit plans. Assume that the plans in the following examples provide identical benefits with respect to all participants except to the extent specifically described in the example. Also, assume that, based on all of the facts and circumstances, none of the formulas described in these examples comprise individualized formulas.

Example 1. Plan A has a uniform, unit benefit formula that provides an annual benefit commencing at normal retirement age of 1 percent of final average pay per year of service. Plan A has one current benefit structure.

Example 2. Plan B's benefit formula provides a benefit of $10 per month for each of a participant's first 10 years of service, $11 per month for each of the second 10 years of service, $12 per month for each of the next 10 years of service, and no additional benefit for any additional years of service. Because plan B's benefit formula provides for a uniform schedule of benefit accruals for all participants, plan B has one current benefit structure.

Example 3. Plan C's formula provides each employee with a benefit equal to 2 percent per year of service times final average pay for the first 15 years of service and 1 percent per year of service times final average pay for each additional year of service beyond 15 years. Plan C has one current benefit structure even though, under the formula for a year, different employees have different accrual rates.

Example 4. Plan D's benefit formula provides an annual pension amount for life for every participant equal to the greatest of (A) $500 for each year of service; (B) 2 percent of each year's compensation times years of service; or (C) $3,000. Plan D has one current benefit structure even though participants may benefit under different parts of the formula.

Example 5. Plan E's benefit formula provides all participants with a benefit of 35 percent of final average pay, which is accrued ratably under the fractional rule over years of plan participation until normal retirement age. Plan E has one current benefit structure even though the rates of annual accrual for participants differ.

Example 6. Plan F's benefit formula provides all participants with an annual benefit for life of 2 percent of average annual pay times years of service. Plan F also provides an unreduced joint and survivor annuity for married participants. Plan F has one current benefit structure, even though some participants are married and some participants are not married, because all participants are accruing benefits under a single benefit structure.

Example 7. Plan G's benefit formula provides all participants with an annual benefit for life equal to 2½ percent of compensation per year of service for compensation above covered compensation and 2 percent of compensation per year of service for compensation below covered compensation. Plan G has one current benefit structure even though the actual benefit rates for participants will differ based on the amounts of a participant's compensation above covered compensation.

Example 8. Plan H's benefit formula provides all participants an annual benefit for life of 45 percent of final average pay. Such benefit is accrued under the fractional rule for category 1 participants, with a 15 year minimum accrual period. For category 2 participants, the benefit is accrued under a unit benefit formula that provides an annual accrual of 3 percent times years of service (not in excess of 15 years) times final average pay. Plan H has two current benefit structures.

Example 9. Plan I's benefit formula provides for all participants an annual retirement benefit for life of 50 percent of final average pay. The retirement benefit is payable to category 1 participants at normal retirement age, with an actuarial reduction for early commencement. For category 2 participants, there is no actuarial reduction for early commencement if a participant has 30 years of service and has attained age 55. Plan I has two current benefit structures.

Example 10. Plan J's benefit formula provides for all participants an annual benefit for life of 2 percent of the participant's compensation times years of service. For category 1 participants, the compensation taken into account is career average compensation, while for category 2 participants the compensation is the annual average of the participant's final 5 years of service. Plan J has two current benefit structures.

Example 11. Plan K is a contributory defined benefit plan with a benefit formula that provides an annual benefit of 1 percent of final average compensation for each year of service for which the participant makes an employee contribution of one percent of compensation, and an additional ½ percent of final average compensation for each year of service for which the participant makes an additional employee contribution of 1 percent of compensation. Participants may make employee contributions of 0 percent, 1 percent, 2 percent, or 3 percent of compensation. Plan K does not separately account for the employee contributions. Because the special rule for plans subject to section 401(m) does not apply with respect to the employee contributions under plan K, such plan has three current benefit structures (i.e., employee contributions of 1 percent, 2 percent, and 3 percent). (In accordance with §1.401(a)(26)-1(c)(1), these three current benefit structures may be restructured as three current benefit structures, each one providing for an employee contribution of 1 percent.)

Example 12. Plan L is a defined benefit plan under which all participants earn an annual benefit for life, commencing at age 65, equal to 1 percent times years of service times final average compensation. In January 1990, the employer amends the plan to provide that any employee who is at least 55 years of age, has at least 25 years of service, and separates from service between July 1 and October 1 of 1990, may receive an unreduced annual benefit commencing upon separation from service. Plan L has two current benefit structures for 1990.

(13) *Retroactive benefits.* A benefit increase provided with respect to active employees in the current year is one or more current benefit structures even if the benefit increase is based on prior years of service. Similarly, a benefit increase provided to former employees (including, for example, ad hoc cost-of-living increases) is one or more current benefit structures for the year in which the increase is provided. Also, a provision that provides for the allocation, among employees under a terminating defined benefit plan, of assets in excess of the amount necessary to satisfy all of the plan's liabilities is one or more current benefit structures in the year of allocation, depending on the uniformity and characteristics of the allocation formula. A formula providing a retroactive benefit increase that differs with respect to years prior to a specified date (e.g., December 31, 1989, or plan years beginning before the first plan year beginning after December 31, 1989) and years after a specified date comprises two current benefit structures because all portions of the formula are not reasonably available to all employees.

(14) *Individualized formulas*—(i) *General rule.* Notwithstanding the rules provided in this section, an otherwise uniform formula, subsidy, optional form of benefit, right or feature may be treated as comprising separate current benefit structures if, under the facts and circumstances, the formula, subsidy, optional form of benefit, right or feature is based on significantly individualized factors or the effect of such formula, right or feature with respect to employees' allocation or benefit rates, or other rights under the plan is similar to the effect of separate formulas, rights or features.

(ii) *Examples.* This paragraph (d)(14) may be illustrated by the following examples:

Example 1. Assume that an employer with 500 active employees maintains a defined contribution plan under which contributions are allocated among all of the employer's active employees based on their years of service with the employer. Under the allocation formula, each employee receives a contribution allocation for a plan year equal to 5 percent of compensation, plus an additional 1 percent of compensation for each year of service with the employer. The maximum allocation for any year is 20 percent of compensation. Because, in this case, the number of employees under the plan substantially exceeds the number of different allocation rates under the plan's allocation formula and all allocation rates are reasonably available to all employees, the facts and circumstances indicate that the plan's formula does not comprise separate, individualized formulas.

Example 2. Assume that an employer with 5 active employees maintains a defined contribution plan under which contributions are allocated among all of the active employees based on their years of service with the employer. Under the allocation formula, each employee with fewer than 10 years of service receives an allocation of 7 percent of compensation and each employee with 10 or more years of service receives an allocation of 10 percent of compensation. One employee, who is the sole highly compensated employee of the employer, has over 10 years of service; the other four employees each have fewer than 5 years of service. In addition, no employees have separated from service with more than 10 years of service and, based on the facts and circumstances, it is not reasonable to expect that the four employees will remain with the employer for a full 10 years of service. Thus, these facts and circumstances indicate that this allocation formula comprises two individualized formulas and accordingly is treated as two separate current benefit structures.

(e) *Restructuring current benefit formulas*—(1) *General rule*. If two or more current benefit structures under a plan would constitute a single structure but for differences in the benefit formulas, and the formulas are identical in all respects except that the rates of accrual or contribution allocation are different (thus, for example, the formulas use the same compensation base, credit service in the same manner and have the same vesting schedule), an employer may restructure the benefit structures as two or more separate benefit structures, one including the portion of the formulas that is common to each of the benefit structures, and one or more benefit structures including the portion of the formula that is not common to each of the original benefit structures. For purposes of this paragraph (e), the common or lesser included benefit formula within a plan must be treated as a single current benefit structure with respect to such plan and each restructured benefit structure must be uniform with respect to the benefit formula. Thus, if a plan that is otherwise uniform with respect to all benefits, rights and features, provides a benefit of 50% final average pay for division A, 55% final average pay for division B, and 60% final average pay for division C, restructuring under this rule would result in a benefit structure of 50% of final average pay for employees of divisions A, B and C, 5% of final average pay for employees of division B and C, and 5% of final average pay for employees of division C. Restructuring under this paragraph (e) does not require that the employer actually amend a plan's provisions to reflect the restructuring. Rather, restructuring is merely one method of testing current benefit structures under section 401(a)(26). See §1.401(a)(26)-1(c)(1) for rules about testing two or more restructured current benefit formulas.

(2) *Examples*. The rule in this paragraph (e) may be illustrated by the following examples:

Example 1. Assume that a defined benefit plan includes two current benefit formulas—one of which benefits the 300 active employees of division A and provides a benefit of 1¼ percent times years of service times final average compensation, and the other of which benefits the 30 active employees of division B and provides a benefit of 1 percent times years of service times final average compensation. Solely for purposes of testing these current benefit structures under section 401(a)(26), such formulas may be restructured as one restructured current benefit formula providing a benefit of 1 percent times years of service times final average compensation (and benefits all 330 active employees of divisions A and B), and one restructured current benefit formula providing a benefit of ¼ percent times years of service times final average compensation (and benefits division A's 300 active employees).

Example 2. Employer B maintains a defined contribution plan that provides a 5 percent contribution for 100 Division A employees, and a 4 percent contribution for 30 Division B employees. All other rights and features under the plan are identical with respect to all employees. Solely for purposes of testing these current benefit formulas under section 401(a)(26), such formulas may be restructured the following two benefit formulas: A separate formula providing a 4 percent contribution to the 100 Division A employees and the 30 Division B employees, and a separate formula providing an additional 1 percent contribution to the 100 Division A employees.

Example 3. Employer C maintains a plan including a qualified cash or deferred arrangement in which both 70 division A employees and 30 division B employees are eligible to participate. Under the plan, the employer makes a matching contribution with respect to the first six percent of elective contributions: In the case of Division A employees the employer matching contribution is 50 percent of an employee's elective contributions, in the case of Division B employees, the employer matching contribution is 30 percent of an employee's elective contributions. In all other respects, all employees have identical rights under the plan. The plan includes three separate benefit structures: a cash or deferred arrangement benefiting 100 employees, a 50 percent matching arrangement benefiting 70 Division A employees, and a 30 percent matching arrangement benefiting 30 Division B employees. The 30 percent matching benefit structure fails to satisfy section 401(a)(26) because it benefits only 30 employees. The plan may be restructured and treated as if it contained the following three separate benefit formulas: a cash or deferred arrangement benefiting 100 employees, a 30 percent matching feature benefiting 100 employees (including the 30 division B employees and the 70 Division A employees), and an additional 20 percent matching feature benefiting the 70 Division A employees. As restructured, all three separate structures benefit at least 50 employees, and thus satisfy section 401(a)(26).

Example 4. Employer D maintains a defined benefit plan under which 100 employees benefit. The plan provides a normal retirement benefit of 2 percent of pay times final average compensation times years of service. All employees under the plan have identical rights except that the plan provides for an unreduced early retirement benefit for employees with at least 20 years of service and such early retirement benefit is available only to a group of 80 employees. The plan contains two separate benefit structures: one structure benefits 80 employees and includes the early retirement benefit, the second structure has no early retirement benefit and benefits 20 employees. The plan cannot be restructured and treated as if it contained two separate benefit structures, one benefit structure including all rights and features under the plan that benefits all 100 employees, and the other benefit structure including only the early retirement benefit that benefits 80 employees because rights and features cannot be restructured.

Example 5. Employer E maintains a defined contribution plan providing a 6 percent contribution for 30 division A employees, and a 3 percent contribution for 50 division B employees. The plan contains two separate benefit formulas, a 6 percent benefit formula, benefiting 30 employees, and a 3 percent benefit formula benefiting 50 employees. The 6 percent benefit formula fails to satisfy section 401(a)(26). Assume that the 6 percent formula does not satisfy the requirements of §1.401(a)-(26)-1(c)(4). The plan cannot be restructured into benefit structures that satisfy 401(a)(26). The plan can be restructured into a 3 percent benefit formula that benefits all 80 Division A and B employees, and a 3 percent benefit formula that benefits 30 Division A employees. Under this restructuring, the latter 3 percent benefit formula would fail to satisfy section 401(a)(26).

Example 6. Employer F maintains a defined benefit plan covering 100 employees that provides a benefit equal to 1 percent of final average compensation times years of service to 50 category 1 employees, and a benefit equal to 2 percent times career average compensation times years of service to 50 category 2 employees. A lump sum distribution option is available to 50 employees, including 25 category 1 employees and 25 category 2 employees. The plan includes four separate benefit structures: one benefiting 25 employees under the final average compensation formula who cannot receive a lump sum; one benefiting 25 employees under the final average compensation formula who may receive a lump sum; one benefiting 25 employees under the career average compensation formula who cannot receive a lump sum; and one benefiting 25 employees under the career average compensation formula who may receive a lump sum. The plan cannot be restructured in a manner that establishes that the plan satisfies section 401(a)(26) even though 50 employees benefit under the final average compensation formula and so under the career average compensation formula, and 50 employees may receive a lump sum.

(f) *Prior benefit structure*. The prior benefit structure under a defined benefit plan includes all benefit structures that, for prior years, were (or, prior to the first day for which section 401(a)(26) applies to such plan, would have been) current benefit structures under the plan (or under any other plan) and are or were taken into account at any time in determining any employee's benefit under the plan (including benefits originally accrued under another plan). This is the case even if the plan's prior benefit structure is identical to the plan's current benefit structure. Each defined benefit plan has only one prior benefit structure and all accrued benefits under the plan as of the beginning of a plan year (including benefits rolled over or transferred to such plan) are included in such prior benefit structure for such year.

(g) *Additional rules*. The Commissioner may, only in revenue rulings, notices or other documents of general applicability, prescribe such additional guidance as may be necessary or appropriate with respect to the application of this section.

§1.401(a)(26)-3 Employees who benefit under a plan and current benefit structure.

(a) *In general.* An employee is treated as benefiting under a current benefit structure under a plan only in accordance with the rules of paragraph (b) of this section. Also, in certain situations, it is necessary to determine whether an employee is benefiting under a plan (rather than under the plan's current benefit structure). Such determination may be made only in accordance with the rules of paragraph (c) of this section.

(b) *Benefiting under a current benefit structure*—(1) *Maximum benefit accrual rule*—(i) *General rule.* Except as otherwise provided in this paragraph (b), an employee is treated as benefiting under a current benefit structure for a plan year only if the employee actually accrues the maximum benefit that is available to such employee under the current benefit structure for such year. In the case of a defined contribution plan, an employee is treated as accruing the maximum benefit under a current benefit structure only if such employee actually receives the maximum contribution allocation that is available to such employee under the current benefit structure for such year. The maximum benefit or allocation under a current benefit structure for an employee for a plan year is to be determined under the structure by assuming that the employee satisfied all of the applicable accrual or allocation conditions relating to the current year (e.g., hour-of-service or employment conditions, and mandatory employee contributions). Failure to receive a maximum contribution or benefit allocation that arises solely because of a uniform and otherwise permissible entry date provision under a plan will not result in an employee being treated as failing to benefit under a current benefit structure.

(ii) *Examples.* The following are examples of benefiting within the meaning of paragraph (b)(1) of this section:

Example 1. An employer maintains a defined benefit plan under which all active employees accrue a benefit equal to 2 percent times years of service times final average compensation by making a mandatory employee contribution equal to 1 percent of compensation. Employees who fail to make the mandatory employee contribution, and thus do not accrue the benefit under the current benefit structure, are not treated as benefiting under the current benefit structure for the year.

Example 2. An employer maintains a defined benefit plan under which all employees who perform at least 1000 hours of service during the plan year accrue a benefit of 2 percent times years of service times final average compensation for the year. Only those employees who perform at least 1000 hours of service during the plan year are treated as benefiting under the current benefit structure for the year.

Example 3. An employer maintains a defined contribution plan under which all employees who are employed by the employer on the last day of the plan year receive a 10 percent of compensation allocation under a current benefit structure. Only employees who are employed by the employer on the last day of the plan year, and who thus receive an allocation, are treated as benefiting under the current benefit structure for the year.

Example 4. Plan M is a defined benefit plan under which all employees earn an annual benefit for life, commencing at age 65, equal to 1 percent times years of service times final average compensation. In January 1990, the employer amends the plan to provide that any employee who is at least 55 years of age, has at least 25 years of service, and separates from service between July 1 and October 1 of 1990, may receive an unreduced annual benefit commencing upon separation from service. Plan M has two current benefit structures for 1990. An employee who satisfies the applicable age and service eligibility conditions and thus who would receive the unreduced early retirement benefit if such employee separated from service during the applicable window period is treated as benefiting under the current benefit structure providing the unreduced early retirement benefit, without regard to whether the employee actually separates from service and receives the unreduced early retirement benefit.

(2) *Partial benefit accruals*—(i) *In general.* An employee is treated as benefiting under a current benefit structure under a defined benefit plan even though such employee fails to accrue the maximum benefit under the plan for the current year of service, if such failure was merely because the employee performed fewer than the required minimum number of hours of service for the maximum benefit for the year and, instead, the employee accrued a pro rata portion of the maximum benefit for such year. For purposes of this rule, in determining the pro rata portion of the maximum benefit for an employee for a year, the maximum benefit for the year is the maximum benefit available under the formula determined by assuming that all hour-of-service requirements are satisfied. Also, the pro rata portion of this maximum benefit must be determined as if such maximum benefit were available for the lesser of the actual number of hours of service required under the plan or 2080 hours of service.

(ii) *Examples.* The following are examples of the partial benefit accrual rules of this paragraph (b)(2):

Example 1. Defined benefit plan X's benefit formula provides that a participant who performs fewer than 1000 hours of service for a year does not accrue any benefit for such year, a participant who performs at least 2000 hours of service for a year accrues the maximum benefit for such year (i.e., 1 percent times final pay times years of service), and a participant who performs between 1000 and 2000 hours of service for a plan year accrues a partial benefit in such year based on a fraction, the numerator of which is the number of hours performed by the participant and denominator of which is 2000 hours. (An employee's pay is annualized under the plan formula.) Plan X has one current benefit structure. Participant A performs 900 hours of service for the year and thus does not accrue any benefit under the plan for such year. Participant B performs 1000 hours of service and, thus, accrues 50 percent of the maximum benefit. Participant C performs 1500 hours and thus accrues 75 percent of the maximum benefit for the year. Participant D performs over 2000 hours and thus accrues the maximum benefit for the year. Participant A is treated as not benefiting under the current benefit structure for such year, while participants B, C, and D are treated as having accrued the maximum benefit for the current year and thus as having benefited under the current benefit structure.

Example 2. Assume the same facts as in *Example 1*, except that the defined benefit plan's formula also provides that each participant accrues a minimum benefit of ¼ percent times career average compensation times years of service regardless of the participant's number of hours of service for any year. Such formula continues to be a single current benefit structure because each participant will accrue the greater of the benefit based on the participant's hours of service (in excess of 1,000 hours) or the minimum ¼ percent benefit. Nevertheless, even if participant A accrues an additional benefit for the current year, such participant did not accrue the maximum benefit and thus is not treated as benefiting for the year.

Example 3. Assume the same facts as in *Example 1*, except that the plan provides that a participant who performs at least 100 hours of service for a year will accrue a pro rata portion of the maximum benefit available under the formula, which is a full 1 percent for participants with at least 2000 hours. Participant A performed 900 hours of service and thus receives a benefit equal to 0.45 percent times final average pay for the current year. Participant A thus may be treated as benefiting under the plan's current benefit structure.

(3) *Section 401(k) and section 401(m).* (i) An employee is treated as benefiting under a current benefit structure that is subject to either section 401(k) or section 401(m) for a plan year only if such employee is an eligible employee with respect to such current benefit structure for such year. For example, an employee is treated as benefiting under a current benefit structure that is a qualified cash or deferred arrangement only if the employee is an eligible employee with respect to such arrangement for the year. This is the case without regard to whether the employee has a benefit under the plan and without regard to whether the employee makes elective contributions under the arrangement for such year. Similarly, an employee is treated as benefiting under a current benefit structure of a plan that accepts after-

tax employee contributions subject to section 401(m) only if such employee is an eligible employee with respect to such current benefit structure for such year.

(ii) *Example.* Defined contribution plan Z permits eligible employees to make after-tax employee contributions and provides for employer matching contributions equal to employee contributions up to 6 percent of compensation. This plan has two current benefit structures. For the current year, employee A is eligible to make employee contributions but declines to do so and, thus, is not credited with any employer matching contributions. Employee A may be treated as benefiting under both current benefit structures for the year.

(4) *Section 415 limits.* An employee may be treated as benefiting under a current benefit structure for a plan year if such employee both satisfies all of the applicable conditions for accruing the maximum benefit under the current benefit structure for such year and fails to accrue the maximum benefit merely because of the section 415 limits on annual contributions and benefits.

(5) *Certain plan limits.* (i) An employee may be treated as benefiting under a current benefit structure for a plan year if such employee both satisfies all of the applicable conditions to accruing the maximum benefit under such current benefit structure for such year and fails to accrue such maximum benefit merely because of a uniformly applicable benefit limit under the plan's current benefit structure.

(ii) The following example illustrates the rule of this paragraph (b)(5):

Example. Defined benefit plan Y has one current benefit structure that provides for an annual benefit for life equal to 1 percent times final average compensation times years of service. However, only an employee's first 30 years of service are taken into account under this formula. For the current year, employee Z is age 60 and has performed over 30 years of service. Employee Z may be treated as benefiting under the current benefit structure for the year even though Z is not credited with an additional year under the plan's current benefit structure because of the 30-year limit on years of service taken into account under plan.

(6) *Benefit offset arrangements.* In the case of a current benefit structure under a plan that provides that the benefit determined under the positive portion of the formula is offset or reduced by contributions or benefits under another plan, an employee is treated as accruing the maximum benefit under such structure for a plan year only if the current benefit structure that includes an offset or reduction for other benefits satisfies §1.401(a)(26)-2(d)(8), and the employee would have accrued the maximum benefit if the offset or reduction portion of the benefit formula were disregarded.

(7) *Certain grandfathered benefits.* An employee is treated as accruing the maximum benefit under a current benefit structure under a defined benefit plan that includes an offset or reduction for grandfathered benefits and satisfies §1.401(a)(26)-2(d)(7)(i) only if such employee accrues the maximum benefit under such current benefit structure for such year, or if such employee would have accrued the maximum benefit if the offset or reduction portion of the benefit formula were disregarded.

(c) *Benefiting under a plan.* An employee is treated as benefiting under a plan for a plan year only if the employee has a benefit under the plan at some time during the year. An employee who does not have a benefit under a plan at any time during the year is not treated as benefiting under the plan for such year. This is the case even if the employee is eligible to (but does not) accrue a benefit for the plan year and without regard to the reason for the failure of an employee to accrue a benefit. Thus, for example, an employee who, at the beginning of a plan year, does not have an accrued benefit will be treated as benefiting under the plan only if, during such year, the employee actually accrues a benefit under the plan. Similarly, an employee who, as of the beginning of a plan year, has an accrued benefit under a plan is treated as benefiting under the plan for the plan year even though such employee does not accrue, or is not eligible to accrue, an additional benefit under the plan for such year. An employee who receives a total distribution of his benefit during a plan year is treated as benefiting under the plan for such year.

(d) *Additional rules.* The Commissioner may, only in revenue rulings, notices or other documents of general applicability, prescribe such additional guidance as may be necessary or appropriate with respect to the application of this section.

§1.401(a)(26)-4 Excludable employees.

(a) *Employees*—(1) *In general.* Except as specifically provided otherwise in this section, in applying section 401(a)(26) with respect to either active employees, former employees, or both active and former employees, as applicable, all active employees (other than excludable active employees described in paragraph (b) of this section), all former employees (other than excludable former employees described in paragraph (c) of this section), or both, as the case may be, are to be taken into account.

(2) *Rules of application.* Except as specifically provided otherwise in this section, the rules of this section are to be applied by reference only to the plan, or current benefit structures, or prior benefit structure being tested. See §1.401(a)-(26)-2 for rules governing the identification of the plan, current benefit structures, and prior benefit structure for purposes of section 401(a)(26).

(b) *Excludable active employees.* An active employee is an excludable active employee if such employee is covered by one or more of the following exclusions:

(1) *Minimum age and service exclusions*—(i) *In general.* An employee who is excluded from consideration under section 410(b)(4)(A) (relating to employees not satisfying certain minimum age and service requirements) for purposes of determining whether a plan satisfies section 410(b) may be treated as an excludable employee with respect to such plan and the current and prior benefit structures included therein.

(ii) *Coverage extended to otherwise excludable employees.* An active employee who would be excludable under paragraph (b)(1)(i) of this section but for the fact that the employee (or another employee with the same age and service) is not excluded from coverage under the plan (i.e., an otherwise excludable employee) may nevertheless be treated as an excludable employee with respect to such plan and the current benefit structures and prior benefit structure included therein if each of the following conditions is satisfied:

(A) The plan under which the otherwise excludable employee benefits also benefits active employees who are not otherwise excludable.

(B) The plan and current benefit structure under which the otherwise excludable employee benefits satisfy §1.401(a)(26)-1(b), both by reference only to otherwise excludable employees and by reference only to active employees who are not otherwise excludable.

(C) The contributions or benefits provided to the otherwise excludable employees (expressed as percentages of compensation) are not greater than the contributions or benefits provided to the employees who are not otherwise excludable under the plan.

(D) No highly compensated employee is included in the group of otherwise excludable employees for more than one plan year.

(iii) *Examples.* The following examples illustrate certain of the minimum age and service exclusion requirements:

Example 1. Employer Y maintains Plan Y under which employees who have not completed 1 year of service are not eligible to participate. Employer Y has six employees, two of whom participate in Plan Y and four of whom have not completed 1 year of service and are, therefore, not eligible to participate in Plan Y. The four employees who have not completed 1 year of service are excludable employees and may be disregarded for purposes of applying the minimum participation test. Therefore, Plan Y meets the minimum participation requirements because both of the two employees who must be considered are participants in Plan Y.

Example 2. Employer X has 100 employees and maintains two plans, Plan 1 and Plan 2. Plan 1 has a minimum age and service requirement and Plan 2 does not. Twenty of X's employees do not meet the minimum age and service requirement under Plan 1. Each plan satisfies the 70-percent ratio test under section 410(b)(1)(B). In testing Plan 1 to determine whether it satisfies the minimum participation requirements, the 20 employees not meeting the minimum age and service requirement under Plan 1 are treated as excludable employees to the same extent that they are treated as excludable employees under section 410(b)(1). In testing Plan 2 to determine whether it satisfies the minimum participation requirements, no employees are treated as excludable employees because they are not treated as excludable employees in testing Plan 2 under section 410(b)(1).

Example 3. Employer Z has 10 employees and maintains a defined benefit plan that has no minimum age and service requirement. However, the plan provides for a lesser accrual for Z's 7 employees who have not met the minimum age and service requirements described in section 410(a)(1)(A). The plan is treated as consisting of two separate benefit structures. In general, none of Z's employees would be treated as excludable in determining whether each separate benefit structure satisfies the minimum participation requirements. However, Z may elect, under paragraph (b)(1) of this section, to exclude the 7 employees not meeting the minimum age and service requirements of the greater benefit structure, provided that the requirements of that section are met.

(2) *Certain air pilots*. An employee who is to be excluded from consideration under section 410(b)(3)(B) (relating to certain air pilots) with respect to a plan may be treated as an excludable employee with respect to such plan and the current and prior benefit structures included therein.

(3) *Certain nonresident aliens*. An employee who is to be excluded from consideration under section 410(b)(3)(C) (relating to certain nonresident aliens) with respect to a plan may be treated as an excludable employee with respect to such plan and the current and prior benefit structures included therein.

(4) *Certain employees covered pursuant to a collective bargaining agreement*—(i) *In general*. An employee who may be excluded from consideration under section 410(b)(3)(A) with respect to a plan (or with respect to any portion of a plan that is treated as a separate plan under paragraph (c) of §1.401(a)(26)-2) may be treated as an excludable employee with respect to such plan (or portion thereof) and the current and prior benefit structures included therein. This rule may be applied separately with respect to each collective bargaining agreement. See §1.401(a)(26)-1(d)(2)(ii) with respect to whether employees are covered pursuant to a collective bargaining agreement.

(ii) *Exception for professionals*. Paragraph (b)(4)(i) of this section does not apply to a collective bargaining agreement if more than 2 percent of the employees of the employer who are covered pursuant to such agreement are professionals (as defined in §1.401(a)(26)-7(g)).

(5) *Certain employees not covered pursuant to a collective bargaining agreement*. An employee who is not included in any group of employees who are covered under any plan pursuant to any collective bargaining agreement may be treated as an excludable employee with respect to any plan (including any portion of a plan that is treated as a separate plan under §1.401(a)(26)-2) that covers only employees who are included in a group of employees who are covered pursuant to one or more collective bargaining agreements.

(6) *Examples*. The following examples illustrate the excludable employee rules that relate to employees covered pursuant to collective bargaining agreements:

Example 1. Employer Z has 70 collectively bargained employees and 30 non-collectively bargained employees. Under Plan Z, only non-collectively bargained employees are eligible to participate. The 70 collectively bargained employees are treated as excludable employees and thus may be disregarded in applying section 401(a)(26) to Plan Z.

Example 2. Assume the same facts as *Example 1*, except that the Commissioner has determined that the employee representative is not a bona fide employee representative under section 7701(a)(46) and thus there are no "collectively bargained employees." In this case, all employees of Z must be considered in determining whether section 401(a)(26) is met.

Example 3. Employer X has 30 collectively bargained employees and 70 non-collectively bargained employees and maintains Plan X, which benefits only the 30 collectively bargained employees. Employer X may elect to treat the non-collectively bargained employees as excludable employees and disregard such excludable employees in applying section 401(a)(26) to the collectively bargained plan.

Example 4. Assume the same facts as *Example 3*, except that the Commissioner has determined that the employee representative is not a bona fide employee representative under section 7701(a)(46) and thus there is no recognized collective bargaining agreement. In this case, the employer may not elect to treat the non-collectively bargained employees of X as excludable employees.

Example 5. Assume the same facts as *Example 3*, except that 3 percent of the 30 collectively bargained employees are professionals. In this case, the employer may not elect to treat the non-collectively bargained employees of X as excludable employees.

Example 6. Employer W has 100 collectively bargained employees. Thirty of W's employees are represented by Collective Bargaining Unit 1 and covered under Plan 1. Seventy of W's employees are represented by Collective Bargaining Unit 2 and covered under Plan 2. In this case, the employees of each collective bargaining unit are tested separately. Thus, in testing Plan 1, only the 30 employees represented by Collective Bargaining Unit 1 are considered. In testing Plan 2, only the 70 employees represented by Collective Bargaining 2 are considered.

(c) *Excludable former employees*. A former employee is an excludable former employee with respect to a plan if such employee is within one or more of the following exclusions. Excludable former employees may be disregarded in determining the number of former employees that is equal to 40 percent of the former employees of the employer for purposes of applying §1.401(a)(26)-1(b)(2) and §1.401(a)(26)-6(b).

(1) *Minimum age and service and collective bargaining rules*. A former employee is an excludable former employee if the employee was excluded (or, if section 401(a)(26) was in effect, would have been excluded) from consideration under paragraph (b)(1)(i) of this section (relating to employees not satisfying certain minimum age and service requirements) at all times as an active employee or under paragraph (b)(4) of this section (relating to certain employees covered pursuant to collective bargaining agreements) at substantially all times as an active employee.

(2) *Rules analogous to excludable active employee rules*. A former employee is an excludable former employee if the former employee would qualify as an excludable active employee under rules of paragraphs (b)(1)(ii), (b)(2), (b)(3), or (b)(5) of this section if such former employee were an active employee. Thus, for example, a former employee who was a nonresident alien and received no earned income (under section 911(d)(2)) from the employer which constituted income from sources within the United States (within section 861(a)(3)) qualifies as an excludable former employee under this test.

(3) *Vested accrued benefits eligible for mandatory distribution*. A former employee is an excludable former employee if the present value of the former employee's vested accrued benefit is not in excess of $3,500. This determination

is to be made in accordance with the rules of sections 411(a)(11) and 417(e).

(d) *Special rule for governmental plans*—(1) *Grandfathered participants.* In the case of a governmental plan (within the meaning of section 414(d)) for plan years beginning before January 1, 1993, an employee who became a plan participant before July 15, 1988, may be treated as an excludable employee with respect to such plan and the current and prior benefit structures included therein. Consequently, a governmental plan will be deemed to satisfy section 401(a)(26) with respect to such participants for such years, and such participants need not be taken into account in determining whether or not any plan satisfies section 401(a)(26) with respect to other plan participants.

(2) *Special rule for certain police or firefighters.* An employer may apply section 401(a)(26) separately with respect to any classification of qualified public safety employees for whom a separate plan is maintained. Consequently, all employees other than those in that classification of qualified public safety employees are treated as excludable employees. Also, such employees need not be taken into account in determining whether or not any plan satisfies section 401(a)(26) with respect to other plan participants. For purposes of this paragraph (d)(2) the term "qualified public safety employee" means any employee of any police department or fire department organized and operated by a State or political subdivision if the employee provides police protection, firefighting services, or emergency medical services for any area within the jurisdiction of such State or political subdivision.

(e) *Additional rules.* The Commissioner may, only in revenue rulings, notices or other documents of general applicability, prescribe such additional guidance as may be necessary or appropriate with respect to the application of this section. §1.401(a)(26)-5 Testing methods.

(a) *Testing period*—(1) *Each day of the plan year.* A plan will satisfy section 401(a)(26) for a plan year only if such plan satisfies section 401(a)(26) on each day of the plan year. An employee benefits on a day if the employee is an active participant for such day and benefits under the plan for the year under the rules in §1.401(a)(26)-3(b).

(2) *Retroactive correction.* (i) If a plan fails to satisfy section 401(a)(26) for one or more days during a plan year, such plan may be amended by the last day of such plan year to retroactively satisfy section 401(a)(26), based on the facts as they existed on the day or days of failure, by expanding coverage or by improving benefits or contributions or by modifying eligibility conditions under the plan or a current benefit structure. Plans that are merged will not be treated as failing to satisfy section 401(a)(26) solely because the plans failed to satisfy §1.401(a)(26)-2(b) prior to the merger. The need to retroactively amend to satisfy section 401(a)(26) does not constitute a basis for eliminating or reducing a benefit in violation of section 411(d)-(6).

(ii) *Example.* Assume that an employer with 500 active employees maintains two defined benefit plans that each include one current benefit structure. During a plan year, only 45 active employees benefit under the current benefit structure under Plan A. Immediately before the end of the year, however, the employer expands the coverage of Plan A to include 20 additional active employees under the current benefit structure for the year. Thus, Plan A's current benefit structure satisfies paragraph (b)(1) of this section for the plan year. Alternatively, before the end of the year, the employer could merge Plan A with the other defined benefit plan and then, under the merged plan, either expand the coverage of active employees under Plan A's current benefit structure or, if Plan A's current benefit structure provides for a lower benefit than the current benefit structure of the other defined benefit plan, provide that the active employees who had been benefiting under Plan A will benefit for the year under the such more valuable current benefit structure.

(b) *Additional rules.* The Commissioner may, only in revenue rulings, notices or other documents of general applicability, prescribe such additional guidance as may be necessary or appropriate with respect to the application of this section, including additional guidance for testing compliance with section 401(a)(26) for a plan year.

§1.401(a)(26)-6 Testing of prior benefit structures in defined benefit plans.

(a) *General rule.* A defined benefit plan (but not a defined contribution plan) that does not satisfy section 401(a)(26) by means of satisfying the rules in §1.401(a)(26)-1(d) must satisfy the requirements of paragraph (b) of this section with respect to its prior benefit structure. Paragraph (c) of this section contains definitions and special rules regarding the application of paragraph (b) of this section with respect to prior benefit structures.

(b) *Prior benefit structure under a defined benefit plan*—(1) *General rules*—(i) *In general.* If the benefits currently accruing under a defined benefit plan for active employees for a plan year are meaningful relative to the benefits accrued under the plan, the defined benefit plan's prior benefit structure satisfies this paragraph (b) for the plan year. Whether the benefits currently accruing are meaningful relative to the benefits accrued under the plan is to be determined in accordance with paragraph (b)-(2) of this section. If the benefits currently accruing under a defined benefit plan for active employees are not meaningful relative to the benefits accrued under the plan, the plan's prior benefit structure satisfies paragraph (b) for a plan year only if the group of active and former employees with meaningful benefits under the plan satisfies section 401(a)(26). Whether the group of active and former employees with meaningful benefits under the plan satisfies section 401(a)(26) is to be determined in accordance with paragraph (b)(3) of this section. See paragraph (c) of this section for definitions of accrued benefit, minimum benefit rate, and compensation. Also, see §1.401(a)(26)-8(b)(2) for a transition rule with respect to the prior benefit structure determination for plan years beginning before January 1, 1990.

(ii) *Application of prior benefit structure requirements.* If a defined benefit plan satisfies any one of the six alternative tests set forth in paragraph (b)(2)(ii), (iii), (iv) and (v) of this section and paragraph (b)(3)(ii) and (iii) of this section for a plan year, the defined benefit plan satisfies this paragraph (b) with respect to its prior benefit structure for such plan year. For example, if, in accordance with the minimum employee coverage test of paragraph (b)(3)(iii) of this section, at least 100 employees have greater than de minimis accrued benefits under a defined benefit plan and the three highly compensated employees with the largest benefits under the plan do not have more than 25 percent of the total benefits under the plan, the defined benefit plan's prior benefit structure satisfies this paragraph (b). This is the case without regard to whether the defined benefit plan satisfies any of the other tests relating to prior benefit structures under this paragraph (b).

(2) *Meaningful current benefit accruals*—(i) *In general.* A defined benefit plan is treated as providing current benefit accruals for active employees that are meaningful relative to the benefits accrued under the plan only if the plan satisfies at least one of the tests set forth in paragraphs (b)(2)(ii), (b)(2)(iii), (b)(2)-(iv), and (b)(2)(v) of this section.

(ii) *Minimum current accrual rate test*—(A) *In general.* A plan satisfies this test for a plan year only if, as of the close of such year, at least the lesser of 50 active employees or 40 percent of the employer's active employees have current accrual rates that are equal to or greater than the minimum current accrual rate. Employees who do not have either greater than de minimus accrued benefits or greater than de minimus accrued benefit rates under the plan are treated as not having current accruals under the plan.

(B) *Deemed satisfaction of minimum current accrual rate test.* A plan that satisfies the minimum current accrual rate test in this paragraph (b)(2)(iii) for a plan year will be deemed to continue to satisfy such test with respect to its prior benefit structure on an ongoing basis without any requirement for retesting as long as both the current benefit formula and the rate of accrual relied on remain in effect and continue to provide benefit accruals to a group of employees that satisfies the requirements of section 401(a)(26).

(C) *Current accrual rates.* The current accrual rate for an active employee is the additional accrued benefit (expressed either as a percentage of final average compensation or as a percentage of career average compensation consistent with the plan's method of computing benefits) attributable to the employee's current year of service under a current benefit structure under the plan.

(D) *Minimum current accrual rate.* (*1*) If the plan determines benefits based on final average compensation, the minimum current accrual rate for a plan year is 0.75 percent times final average compensation. If the plan determines benefits based on career average compensation, the minimum current accrual rate for a plan year is 1.1 percent times career average compensation.

(*2*) In the case of a current benefit structure that provides employees with a flat accrued benefit (expressed as a percentage of compensation) that employees accrue over their years of participation, the minimum current accrual rate for a plan year is the annual rate resulting for such employee under a formula that provides a flat accrued benefit at normal retirement age of either 30 percent of final average compensation or 45 percent of career average compensation, depending on the compensation base on which the plan benefits are determined, accrued on a level basis over all years of plan participation.

(E) *Compensation.* (*1*) A plan that determines benefits based on the highest average annual compensation averaged over a specified period not exceeding 5 consecutive years (or a participant's entire period of service for the employer if shorter than such specified period) shall be considered to base benefits on final average compensation and a plan that determines benefits based on average annual compensation averaged over a specified period exceeding 5 consecutive years (or a participant's entire period of service for the employer, if shorter than such specified period) shall be considered to base benefits on career average compensation.

(*2*) Compensation shall be compensation as defined under the plan, provided that such definition is reasonable and is nondiscriminatory under section 414(s). A definition of compensation that is significantly less inclusive than the maximum amount of compensation that may be taken into account under section 414(s) and the regulations thereunder is not reasonable. In addition, a definition of compensation is not reasonable if it provides that compensation is a uniform percentage of a basic definition of compensation under section 414(s) and the regulations thereunder (e.g., 95 percent of W-2 compensation). For purposes of determining final average compensation under this rule, compensation for years commencing prior to January 1, 1989, may be defined as compensation taken into account under the plan in such year.

(iii) *Nondecreasing benefit structure test*—(A) *In general.* A plan satisfies this test for a plan year only if, as of the close of such year, the hypothetical accrued benefits of at least the lesser of 50 active employees or 40 percent of the employer's active employees benefiting under one or more current benefit structures included in the plan are equal to or greater than the employees' actual accrued benefits under the plan. This test is satisfied only if the group of active employees with hypothetical accrued benefits equal to or greater than actual accrued benefits includes the three highly compensated active employees of the employer with the largest amounts of accrued benefits under the plan. If there are fewer than three highly compensated active employees with accrued benefits under the plan, all highly compensated active employees with accrued benefits under the plan must be among the employees with hypothetical accrued benefits equal to or greater than actual accrued benefits.

(B) *Deemed satisfaction of nondecreasing benefit structure test.* A plan that satisfies the nondecreasing benefit structure test in this paragraph (b)(2)(ii) for a plan year will be deemed to continue to satisfy such test with respect to its prior benefit structure on an ongoing basis without any requirement for retesting as long as both the current benefit formula and the rate of accrual relied on remain in effect and continue to provide benefit accruals to a group of employees that satisfies the requirements of section 401(a)(26).

(C) *Hypothetical accrued benefit.* An employee's hypothetical accrued benefit as of the close of a plan year is computed by using only the current benefit structure applicable to such employee for such plan year and by assuming that such current benefit structure has been in effect for all years through the close of such year. In making this determination of an employee's hypothetical accrued benefit, an employee's actual accrued benefit under the plan is disregarded. In addition, employees who do not have either greater than de minimis accrued benefits or greater that de minimis accrued benefit rates under a plan are treated as not having any hypothetical accrued benefit under the plan.

(D) *Examples.* The following examples illustrate the rules of this paragraph (b)(2)(iii):

Example 1. Assume that an employer with 1,000 active employees has maintained a defined benefit plan for 20 years and that over 100 active employees currently benefit under the plan. During this entire period, the plan has had only one benefit structure—½ percent times years of service (not in excess of 30 years) times final average compensation. In this case, the hypothetical accrued benefit of each active employee benefiting under the plan equals such employee's actual accrued benefit. Thus, this defined benefit plan provides current benefits to active employees that are meaningful relative to the benefits accrued under the plan. If the employer were to amend the plan to improve the current benefit structure by increasing the rate from ½ to .6 percent, the plan would continue to provide benefits that are meaningful relative to the benefits accrued under the plan. This would be the case without regard to whether the increased rate applied to prior years of service under the plan.

Example 2. Assume the same facts as in *Example 1*, except that the employer amends the plan's formula for future years of service by increasing the rate from ½ to .6 percent, applying such higher rate to career average compensation (rather than final average compensation), and eliminating the 30 years of service limit. Whether this new current benefit structure provides benefits that are meaningful relative to the benefits accrued under the plan under the nondecreasing benefit structure test depends on whether there are at least 50 active employees with hypothetical accrued benefits (determined by applying the new current benefit structure using career average compensation to the current and all prior years) equal to or greater than actual accrued benefits under the plan.

(iv) *Minimum current benefit structure test*—(A) *In general*. A plan satisfies this test for a plan year only if, as of the close of such year, at least the lesser of 50 active employees or 40 percent of the employer's active employees benefiting under one or more current benefit structures under the plan have future service benefit rates that are equal to or greater than the plan's minimum benefit rate (as defined in paragraph (c)-(2) of this section).

(B) *Future service benefit rate*. The future service benefit rate for an active employee is the hypothetical, projected accrued benefit (expressed as a percentage of compensation) that would be accrued under the current benefit structure over the employee's future years of service, divided by such employee's future years of service under the plan. This determination is to be made on a basis consistent with the rules of paragraph (b)(2)(v)(B) of this section and by assuming that the employee commenced employment and plan participation at the beginning of the current plan year, assuming no change in the employee's annual compensation and annual hours of service and projecting the employee's age and service from the beginning of the current year to normal retirement age under the plan. This determination is to be made without projecting any increase in the annual limit on contributions and benefits under section 415. Also, in making this determination, the current year is to be taken into account as a future year of service. Finally, employees who do not have either greater than de minimis accrued benefits or greater than de minimis accrued benefit rates under a plan are treated as not having any future service benefit rate under the plan.

(C) *Examples*. The following examples illustrate the rules of this paragraph (b)(2)(iv):

Example 1. Assume that an employer maintains a defined benefit plan that currently benefits 100 active employees. During its 20 prior years of existence, the plan has had many different benefit structures. The plan's current benefit structure provides a benefit of 1 percent times years of service times career average compensation. The plan's minimum benefit rate for the plan is 85/100 percent times years of service times career average compensation. Accordingly, the benefits under the plan's current benefit structure are meaningful relative to the benefits accrued under the plan.

Example 2. Assume that an employer maintains a defined benefit plan that currently benefits 100 active employees. During its 20 prior years of existence, the plan has had many different benefit structures. The plan's current benefit structure provides a benefit of 35 percent times final average compensation and is accrued over employees' years of participation under the plan. The plan's minimum benefit rate for the plan is 1 1/10 percent times years of service times final average compensation. Based on the ages of the active employees currently benefiting under the plan, 60 of such employees have future service benefit rates of at least 1 1/10 percent times years of service times final average compensation. Thus, the benefits under the plan's current benefit structure are meaningful relative to the benefits accrued under the plan.

(v) *Benefit ratio test*—(A) *In general*. A plan satisfies this test for a plan year only if, as of the close of such year, the sum of the accrued benefits of all active employees under the plan is less than 60 percent of the sum of the projected accrued benefits of all active employees benefiting under the plan, and the plan satisfies the concentration test set forth in paragraph (b)(4) of this section.

(B) *Projected accrued benefit*. An employee's projected accrued benefit is determined by projecting the employee's accrued benefit to which the employee would be entitled at the plan's normal retirement age under the current benefit structure applicable to such employee under the plan, expressed in the form of an annuity for the life of the employee and assuming no change in the employee's annual compensation or in the annual hours of service. In determining an employee's projected accrued benefit under a current benefit structure, any change in such current benefit structure (e.g., a change in the accrual rate or in the definition of compensation) that does not currently apply to any individual who is or could be an employee under the current benefit structure is disregarded. This determination is to be made without projecting any increase in the annual limit on contributions and benefits under section 415. Also, in making this determination, the current year is to be taken into account. Thus, for example, in the case of an employee whose current age is equal to or greater than normal retirement age, the employee's projected accrued benefit includes the accrued benefit attributable to the current year of service. Finally, employees who do not have either greater than de minimis accrued benefits or greater than de minimis accrued benefit rates under a plan are treated as not having any projected accrued benefit under the plan.

(C) *Example*. The following example illustrates the rules of this paragraph (b)-(2)(v):

Example. Assume that an employer maintains a defined benefit plan that currently benefits 100 active employees. During its 20 prior years of existence, the plan has had many different benefit structures. In general, the benefit structures for prior years were richer than the current benefit structure, which provides a benefit of 1 percent times years of service times career average compensation. Also, for nearly all prior years, only about 10 active employees benefited under the plan for any year. In the current year, the plan benefits many more, generally younger employees. Because of the significant increase in the number of younger employees benefiting under the plan and in spite of the reduction in the plan's benefit structure, the sum of the accrued benefits of all active employees under the plan is less than 60 percent of the sum of the projected accrued benefits for all active employees under the plan. Thus, assuming that the plan also satisfies the concentration test set forth in paragraph (b)(4) of this section, this plan's current benefit structure is meaningful relative to the benefits under the plan.

(3) *Prior benefit structure requirement*—(i) *In general*. The group of active and former employees with meaningful benefits under a defined benefit plan satisfies section 401(a)(26) only if the plan satisfies at least one of tests set forth in paragraph (b)(3)(ii) and (b)(3)-(iii) of this section. These tests are applied by taking into account active and former employees with benefits under the plan.

(ii) *Minimum accrued benefit test*—(A) *In general*. A plan satisfies this test for a plan year only if, as of the close of such year, at least the lesser of 50 employees or 40 percent of the employer's employees benefiting under the plan have accrued benefit rates that are at least the plan's minimum benefit rate (determined in accordance with paragraph (c)(2) of this section).

(B) *Accrued benefit rate*. The accrued benefit rate for an employee for a plan year is the employee's accrued benefit under the plan (expressed as a percentage of compensation) as of the close of the plan year, divided by the years of service with the employer as of the close of such year. In making this determination, all of an employee's years of service taken into account under the plan are to be taken into account in determining the employee's accrued benefit rate. Alternatively, in making this determination, all of an employee's years of service with the employer may be taken into account (including years of service before and after the employee accrued benefits under the plan), other than years of service that both are not taken into account under the plan and may be disregarded under section 410(a)(1).

(C) *Example*. The following example illustrates the rules of this paragraph (b)-(3)(ii):

Example. Assume that an employer maintains a defined benefit plan that provides for no additional benefit accruals. Before becoming a frozen plan, the plan had many different benefit structures. Currently, 100 active and former employees have accrued benefits under the plan, and the plan is not top-heavy. The plan's minimum benefit rate is 1.1 percent times years of service times final average compensation. Based on the accrued benefits and years of service of the active and former employees with accrued benefits under the plan, 58 of the 100 employees have accrued benefit rates that are greater than the minimum benefit rate. Thus, the plan satisfies the minimum accrued benefit test of this paragraph (b)(3)(ii) and the plan's prior benefit structure satisfies this paragraph (b) for the plan year.

(iii) *Minimum employee coverage test*—(A) *General rule*. A plan satisfies this test for a plan year only if, as of the close of such year, at least 100 employees of the employer have accrued benefits or accrued benefit rates (or both) under the plan that are greater than de minimis and the plan satisfies the concentration test set forth in paragraph (b)-(4) of this section.

(B) *Example*. The minimum employee coverage test can be illustrated by the following example:

Assume that an employer maintains a defined benefit plan that benefits 500 active and former employees. The plan does not include a current benefit structure and thus the plan is a frozen plan. Also, the plan is not top-heavy. This plan has had many different benefit structures over its 25 years of existence. Assuming that at least 100 employees have either accrued benefits or accrued benefit rates that are greater than de minimis and the plan satisfies the concentration test of paragraph (b)(4) of this section, this plan satisfies the minimum employee coverage test of this paragraph (b)(3)(iii) and thus the plan's prior benefit structure satisfies this paragraph (b) for the plan year.

(4) *Concentration test*. (i) A plan satisfies this test for a plan year only if, as of the close of such year, the sum of the accrued benefits under the plan of the three employees who are or ever have been highly compensated employees (either as active employees, former employees or both) and who have the largest accrued benefits under the plan does not constitute more than 25 percent of the sum of the accrued benefits of all employees under the plan. If there are fewer than three employees with accrued benefits under the plan who are or ever have been highly compensated employees, this determination is to be made by reference to all employees with accrued benefits under the plan who are or ever have been highly compensated employees. This test is applied by taking into account all active and former employees with benefits under the plan.

(ii) *Example*. Assume that an employer maintains a frozen defined benefit plan under which 125 active and former employees have accrued benefits that are more than de minimis accrued benefits. However, because for its first 15 years of existence this plan benefited only three highly compensated employees and coverage under the plan was expanded under a significantly reduced benefit structure to 122 nonhighly compensated employees for only a year before the plan was frozen, the sum of the accrued benefits of the three highly compensated employees under the plan with the largest accrued benefits constitute over 25 percent of the total accrued benefits under the plan. This plan fails to satisfy the concentration test of this paragraph (b)(4).

(c) *Definitions for prior benefit structure tests*—(1) *Accrued benefit*—(i) *In general*. Solely for purposes of applying paragraph (b) of this section, an employee's accrued benefit under a defined benefit plan is the accrued benefit to which the employee is entitled commencing at the plan's normal retirement age, expressed as an annuity for such employee's life. Thus, the accrued benefit, for purposes of this paragraph (c)(1), is not adjusted to reflect benefit subsidies such as subsidized early retirement benefits or subsidized joint and survivor annuity provisions, whether or not the employee has satisfied the conditions for such benefit subsidy.

(ii) *Social security benefits and permitted disparity*. An employee's accrued benefit is to be determined based only on the employee's benefit under the plan being tested, without regard to benefits provided under social security or similar Federal or state law and without regard to the permitted disparity under section 401(l).

(iii) *Benefits under other plans*. An employee's accrued benefit is based only on the employee's benefit under the plan being tested. Thus, for example, if benefits under the plan being tested are reduced by benefits under another plan maintained by the employer maintaining the plan being tested (e.g., in a floor-offset arrangement) an employee's benefit under the plan being tested is determined after the reduction by benefits provided under such other plan. An employer may elect to disregard benefits under the plan being tested if such benefits were rolled over (rather than transferred) to such plan and such benefits are treated as voluntary employee contributions under such plan. A plan may not disregard benefits that were transferred to the plan being tested from any other plan, including a plan of an unrelated employer; or benefits that were originally accrued under another plan that was merged with the plan being tested.

(2) *Minimum benefit rate*—(i) *General rule*. The minimum benefit rate for a plan for a plan year is determined in the following manner. If the highly compensated benefit rate for such year is equal to or greater than 1½ percent, the minimum benefit rate is equal to 60 percent of the excess of the highly compensated benefit rate over ¾ percent. If the highly compensated benefit rate is less than 1½ percent, the minimum benefit rate is equal to 30 percent of the highly compensated benefit rate. If the minimum current accrual rate (determined under paragraph (b)(2)(ii) of this section) is less than the minimum benefit rate determined under the preceding two sentences, then the minimum benefit rate is such minimum current accrual rate.

(ii) *Highly compensated benefit rate*. (A) The highly compensated benefit rate for a plan year is the highest of the accrued benefit rates for the three active employees or former employees who are or ever were highly compensated employees of the employer (either as active employees, former employees, or both) with the largest accrued benefits under the plan as of the close of the plan year. For purposes of this rule, an employer may limit consideration of highly compensated former employees to those employees who had an hour of service with the employer during the plan year or any of the immediately preceding five plan years. In addition, the employer may disregard highly compensated former employees who became former employees prior to January 1, 1988. If more than three employees have the largest amounts of accrued benefits under the plan, all of such employees are taken into account in determining the highest accrued benefit rate. If there are fewer than three employees with accrued benefits under the plan who are or ever were highly compensated employees, this determination is to be made by reference to all employees with accrued benefits under the plan who are or ever were highly compensated employees. For purposes of applying this rule, employees who were highly compensated employees only for plan years ending before January 1, 1984, are not treated as highly compensated employees.

(B) *Example*. Assume that an employer maintains a defined benefit plan that benefits five active employees and five former employees who are or ever were highly compensated employees of the employer. To determine the plan's highly compensated benefit rate, the employer first must identify the 3 of these 10 employees who have the largest accrued benefits under the plan. Thus, if $90,000 is the largest accrued benefit for any employee under the plan and if 3 of the 10 employees each have a $90,000 accrued benefit, these 3 employees are taken into account in determining the plan's highly compensated benefit rate. If 4 of the 10 employees have $90,000 accrued benefits, all 4 are taken into account. Similarly, if 2 of the 10 employees have $90,000 accrued benefits and 2 of the 10 employees have $89,000 accrued benefits (the second largest amount under the plan), all 4 of these employees are taken into account in determining the plan's highly compensated benefit rate. Then, the employer must determine which of these employees who are taken into account has the highest accrued benefit rate, and such rate is the highly compensated benefit rate for the year.

(3) *Compensation*. An employee's compensation is compensation as defined by the plan for purposes of determining employees' benefits. Such definition must satisfy section 414(s) and the regulations thereunder. In applying the rules of paragraph (b) of this section, a plan must use a uniform definition of compensation and a uniform applicable period for determining compensation. Thus, for example, in applying the minimum current benefit structure test of paragraph (b)(2)(iii) of this section, a uniform definition of compensation must be used in determining the future service benefit rates and the minimum benefit rate. Similarly, in applying the minimum accrued benefit test of paragraph (b)(3)-(ii) of this section, a uniform definition of compensation must be used in determining the accrued benefit rates and the minimum benefit rate. Also, a plan may not take into account, for any plan year, compensation in excess of the amount that may be taken into account for such year under section 401(a)(17), and a plan may not project any increase in such amount.

(d) *Additional rules*. The Commissioner may, only in revenue rulings, notices or other documents of general applicability, prescribe such additional guidance as may be necessary or appropriate with respect to the application of this section.

§1.401(a)(26)-7 Definitions.

The following definitions are applicable for purposes of section 401(a)(26) and the regulations thereunder:

(a) *Collective bargaining agreement*. The term "collective bargaining agreement" refers to an agreement that the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and the employer, which agreement satisfies §301.7701-17T. Employees described in section 413(b)(8) who are employees of the union or the plan and are treated as employees of an employer are not considered to be employees covered pursuant to a collective bargaining agreement for purposes of section 401(a)(26) unless such employees are actually covered pursuant to such an agreement.

(b) *Employee*—(1) *In general*. The term "employee" means an individual who performs services for the employer who is either a common-law employee of the employer or a self-employed individual treated as an employee pursuant to section 401(c)(1). The term "employee" includes a leased employee who is treated as an employee of the employer-recipient pursuant to the provisions of section 414(n)(2) or section 414(o)(2), other than individuals who are excluded by reason of section 414(n)(5). Individuals that an employer treats as leased employees under section 414(n), pursuant to the requirements of section 414(o), are considered to be leased employees for purposes of this paragraph (b).

(2) *Active and former employees*. An active employee is an individual currently performing services as an employee for the employer. An individual ceases to be an active employee and is treated as a former employee commencing with the day after the day on which the employee terminates from service for the employer. Thus, an employee who terminates from service for an employer during a plan year is both an active employee and a former employee for such plan year.

(3) *Highly compensated employee*. The term "highly compensated employee" means a highly compensated employee within the meaning of section 414(q).

(4) *Nonhighly compensated employee*. The term "nonhighly compensated employee" means an employee who is not a highly compensated employee.

(c) *Employer*. For purposes of section 401(a)(26), except as specifically provided otherwise in the regulations under section 401(a)(26), the term "employer" means the employer maintaining the plan and those employers required to be aggregated with such employer under sections 414(b), (c), (m), or (o). An individual who owns the entire interest of an unincorporated trade or business is treated as an employer. Also, a partnership is treated as the employer of each partner and each employee of the partnership.

(d) *Defined contribution plan*. The term "defined contribution plan" means a defined contribution plan within the meaning of section 414(i).

(e) *Defined benefit plan*. The term "defined benefit plan" means a defined benefit plan within the meaning of section 414(j).

(f) *Multiemployer plan*. A multiemployer plan is a multiemployer plan within the meaning of section 414(f).

(g) *Professional*. The term "professional" means any individual who, on any day of the plan year, performs professional services for the employer as a certified or other public accountant, actuary, architect, attorney, chiropodist, chiropractor, executive, investment banker, medical doctor, dentist, optometrist, osteopath, podiatrist, engineer, psychologist, stockbroker, veterinarian or in such other professional capacity determined by the Commissioner in a notice or other document of general applicability to constitute the performance of services as a professional.

§1.401(a)(26)-8 Effective dates and transition rules.

(a) *In general*. Except as provided in paragraphs (b), (c), and (d) of this section, section 401(a)(26) and the regulations thereunder shall apply to plan years beginning after December 31, 1988.

(b) *Transition rules*—(1) *Current benefit structures*. Notwithstanding paragraph (a) of this section, for plan years beginning after December 31, 1988, and before January 1, 1990, the only rights and features to be taken into account in identifying current benefit structures under §1.401(a)(26)-2(d)(3) are the bases and conditions applicable to the determination of an employee's contribution allocation under a defined contribution plan and the bases and conditions applicable to the determination of an employee's normal retirement benefit, any early retirement benefit that is reduced by less than 3 percent for each year of early commencement, the employee's qualified joint and survivor annuity benefit and any accrual, availability and eligibility conditions related to these normal retirement, early retirement or joint and survivor annuity benefits. Thus, for example, except to the extent included in the preceding sentence, optional forms of benefit, loans, self-directed investment options and ancillary benefits are to be disregarded for purposes of identifying a plan's current benefit structures for plan years beginning in 1989. However, the rules relating to other arrangements that, in accordance with §1.401(a)(26)-2(d)-(1), may cause a defined benefit plan to be treated as comprising separate current benefit structures are effective for all plan years that are subject to section 401(a)(26) under paragraph (a) of this section, including those that begin before January 1, 1990.

(2) *Prior benefit structures*. Notwithstanding paragraph (a) of this section, for plan years beginning after December 31,

1988, and before January 1, 1990, if a defined benefit plan reasonably complies with the rules in §1.401(a)(26)-6(b)(2) applicable in determining whether the plan has a current benefit structure that is meaningful relative to the benefits accrued under the plan and whether a plan's prior benefit structure satisfies section 401(a)(26), such plan will be treated as satisfying such standards. Whether compliance is reasonable is to be determined on the basis of all facts and circumstances; precise application and satisfaction of the rules in §1.401(a)-(26)-6(b)(2) is not required. In making this determination, special emphasis will be placed on whether a defined benefit plan that fails to satisfy the rules set forth in §1.401(a)(26)-6(b)(2) is an ongoing plan providing meaningful, additional benefits to employees or whether such plan is substantially inactive and whether the plan's design or operation is consistent with an attempt to avoid or has the effect of avoiding the requirements, objectives, or effective dates of section 401(a)(26).

(3) *Certain plan terminations*—(i) *In general*. Except as provided in paragraph (b)(3)(ii) of this section, if a plan terminates after section 401(a)(26) becomes effective with respect to the plan (as determined under paragraph (a) of this section), the plan will not be treated as a qualified plan upon termination unless it complies with section 401(a)(26) and the regulations thereunder (to the extent they are applicable) for all periods for which section 401(a)(26) is effective with respect to the plan.

(ii) *Exception*. Notwithstanding paragraphs (a) and (b)(3)(i) of this section, a plan will not fail to be treated as a qualified plan upon termination merely because such plan fails to satisfy the requirements of section 401(a)(26) and the regulations thereunder if all of the following applicable conditions are satisfied:

(A) In the case of a defined benefit plan, no highly compensated employee has an accrued benefit under the plan in addition to the lesser of either the benefit such employee had accrued as of the close of the last plan year beginning before January 1, 1989, or the benefit such employee would have accrued as of the close of such last plan year under the terms of the plan in effect and applicable with respect to such employee on December 13, 1988.

(B) In the case of a defined contribution plan, no highly compensated employee receives a contribution allocation for any plan year beginning after December 31, 1988. For this purpose, a contribution allocation with respect to an employee for a plan year beginning before January 1, 1989, may be treated as a contribution allocation for a plan year beginning after December 31, 1988 if the allocation for the prior year is in excess of the allocation that the employee would have received for such year under the terms of the plan in effect and applicable with respect to such employee on December 13, 1988. An allocation of forfeitures to highly compensated employees with respect to contributions made for plan years beginning before January 1, 1988, will not cause a defined contribution plan to fail to satisfy the requirements in this paragraph (b)(2)-(ii)(B).

(C) The plan is terminated with a termination date on or before May 31, 1989.

(c) *Waiver of excise tax on reversions*—(1) *In general*. Pursuant to section 1112(e)(3) of the Tax Reform Act of 1986 (TRA'86), if certain conditions are satisfied, a waiver of the excise tax under section 4980 applies with respect to any employer reversion that occurs by reason of the termination or merger of a plan before the first year to which section 401(a)(26) applies to such plan. In general, the applicable conditions are that the plan must have been in existence on August 16, 1986; the plan would have failed to satisfy the requirements of section 401(a)(26) if such section were in effect for the plan year including August 16, 1986, and such plan continued to fail such requirements at all times thereafter; the plan satisfies the applicable conditions in paragraph (b)(3)(ii)(A) or (B) of this section; and certain requirements regarding asset or liability transfers and mergers and spinoffs involving such plan after August 16, 1986, are satisfied.

(2) *Termination date*. An employer reversion with respect to a plan will be eligible for the section 4980 excise tax waiver only if such employer reversion occurs by reason of the termination of the plan with a termination date, prior to the first plan year for which section 401(a)(26) applies to such plan. Solely for purposes of this waiver, the employer reversion will be treated as satisfying this paragraph (c)(2) even though the plan's termination date is during the first plan year for which section 401(a)(26) applies to such plan if the plan's termination date is on or before May 31, 1989. If the termination date occurs in the first plan year for which section 401(a)(26) applied to the plan and the employer receives a reversion that is eligible for the waiver of the section 4980 tax, the plan is subject to the interest rate restriction set forth in section 1112(e)(3)(B) of TRA'86.

(3) *Failure to satisfy section 401(a)-(26)*. An employer reversion with respect to a plan will be eligible for the excise tax waiver only if such plan was in existence on August 16, 1986 and, if section 401(a)(26) had applied to the plan for the plan year including such date, the plan would have failed to satisfy section 401(a)(26) for such plan year and continuously thereafter until such plan's termination or merger. For purposes of this paragraph (c), a plan will be treated as though it would have failed to satisfy section 401(a)(26) before such section actually applied with respect to the plan only if the plan (as defined under section 414(l)) failed to benefit at least the lesser of 50 active employees or 40 percent of the employer's active employees. In general, this determination is to be made on the basis of only the applicable statutory provisions, without regard to the regulations under section 401(a)(26). Thus, for example, the current and prior benefit structure rules in the regulations under section 401(a)(26) are not applicable in determining whether a plan would have failed to satisfy section 401(a)(26) for plan years prior to the effective date of section 401(a)(26) with respect to such plan. Similarly, the failure to benefit at least the lesser of 50 former employees or 40 percent of the employer's former employees does not cause the plan to be treated as failing to satisfy section 401(a)(26) for plan years prior to the effective date of section 401(a)(26) with respect to the plan.

(d) *Special rule for collective bargaining agreements*. In the case of a plan maintained pursuant to one or more collective bargaining agreements (as defined in §1.401(a)(26)-7(a)) that were ratified before March 1, 1986, section 401(a)-(26) and the regulations thereunder shall not apply to plan years beginning before the earlier of —

(1) The later of —

(i) January 1, 1989, or

(ii) The date on which the last of such collective bargaining agreements terminates, or

(2) January 1, 1991. For purposes of this paragraph (b) of this section, any extension or renegotiation of any collective bargaining agreement that is ratified after February 28, 1986 shall be

disregarded in determining the date on which such collective bargaining agreement terminates.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on February 13, 1989, 8:45 a.m., and published in the issue of the Federal Register for February 14, 1989, 54 F.R. 6710)

Notice of Proposed Rulemaking

Arbitrage Restrictions on Tax-Exempt Bonds

FI-91-86

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8252, page 25, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to arbitrage restrictions on tax-exempt bonds. Changes to the applicable law were made by the Tax Reform Act of 1986 and the Technical and Miscellaneous Revenue Act of 1988. The text of those temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: The amendments to the regulations are proposed to be effective generally for private activity bonds issued after December 31, 1985, and for bonds other than private activity bonds issued after August 31, 1986. Written comments and requests for a public hearing must be delivered or mailed by July 14, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attention: CC:CORP:T:R (FI-91-86), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collections of information should be sent to the Office of Management and Budget, Paperwork Reduction Project, Washington, D.C. 20503, with copies to the Internal Revenue Service, Attention: IRS Reports Clearance Officer TR:FR, Washington, D.C. 20224.

The collections of information in this regulation are in sections 1.148-0T, 1.148-1T, 1.148-3T, and 1.148-8T. This information is required by the Internal Revenue Service to properly credit the amount of arbitrage profits rebated to the United States by issuers of tax-exempt bonds pursuant to section 148(f) of the Internal Revenue Code of 1986. This information will be used to ensure that issuers of tax-exempt bonds are rebating arbitrage profits as required by section 148(f). The likely respondents are State and local governments.

The following estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances. The estimates below represent only the estimated time to physically prepare and maintain any writing requirement that may be imposed by sections 1.148-0T, 1.148-1T, 1.148-3T, and 1.148-8T. They do not represent an estimation of the time for making the decisions, judgments, and computations that may be necessary to satisfy the requirements of section 148(f) or to determine whether an election should be made. Estimated total annual reporting and recordkeeping burden not associated with Form 8038-T: 1,800 hours. The estimated annual burden per respondent varies from 60 minutes to 120 minutes, depending on individual circumstances, with an average of 90 minutes. Estimated number of respondents: 100. Estimated annual frequency of responses (for reporting requirements only): at most once every 5 years.

Submission to Small Business Administration

Pursuant to section 7805(f) of the Code, the rules proposed in this document will be submitted to the Administrator of the Small Business Administration for comment on their impact on small business.

Background

The temporary regulations (designated by a T following the section citations) in [T.D. 8252, page 25, this Bulletin] amend the Income Tax Regulations (26 CFR Part 1) to provide rules relating to arbitrage restrictions on tax-exempt bonds. The temporary regulations reflect the addition to section 148 and section 149(d) to the Internal Revenue Code by section 1301 of the Tax Reform Act of 1986 (100 Stat. 2602), amendments made by sections 1013, 4005(d), and 5035(b) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647), and the applicable effective date provisions of sections 1311-1314 of the Tax Reform Act of 1986 (100 Stat. 2659). This document proposes to adopt the temporary regulations as final regulations. Accordingly, the text of the temporary regulations serves as the comment document for this notice of proposed rulemaking. The preamble to the temporary regulations explains the proposed and temporary rules.

For the text of the temporary regulations, see T.D. 8252 * * * [page 25, this Bulletin].

Regulatory Impact Analysis

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required.

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably a signed original and seven copies) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing will be scheduled and held upon written request by any person who submitted comments on the proposed rules. If a public hearing is held, notice of the time and place will be published in the Federal Register.

26 CFR Part 602

Reporting and recordkeeping requirements.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on May 12, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 15, 1989, 54 F.R. 20861)

Notice of Proposed Rulemaking

Taxpayer Assistance Orders

GL-75-89

AGENCY: Internal Revenue Service, Treasury

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8246, page 320, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to the issuance of taxpayer assistance orders. The text of the temporary regulations also serves as a comment document for this notice of proposed rulemaking.

DATE: Written comments and requests for a public hearing must be delivered or mailed by May 22, 1989. The regulations are proposed to be effective as of February 8, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (GL-75-89), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Background

The temporary regulations in * * * [T.D. 8246, page 320, this Bulletin] amend the Procedure and Administration Regulations (26 CFR Part 301) under section 7811 of the Internal Revenue Code of 1986. The final regulations which are proposed to be based on the temporary regulations reflect the addition of section 7811 by section 6230 of the Technical and Miscellaneous Revenue Act of 1988. (Pub. L. 100-647). For the text of the temporary regulations see T.D. 8246 * * * [page 320, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Special Analyses

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required. It is hereby certified that these regulations will not have a significant economic impact on a substantial number of small entities. A regulatory flexibility analysis is therefore not required under the Regulatory Flexibility Act.

Comments and Requests for a Public Hearing

Before adopting these proposed regulations consideration will be given to any written comments that are submitted (preferably a signed original) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who also submits written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

List of Subjects

Administrative practice and procedure, Bankruptcy, Courts, Crime, Disclosure of information, Employment taxes, Estate tax, Excise taxes, Filing requirements, Gift tax, Income taxes, Investigations, Law enforcement, Penalties, Pensions, Statistics, Taxes.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on March 21, 1989, 8:45 a.m., and published in the issue of the Federal Register for March 22, 1989, 54 F.R. 11744)

Notice of Proposed Rulemaking

Administrative Appeal of the Erroneous Filing of Notice of Federal Tax Lien

GL-161-89

AGENCY: Internal Revenue Service, Treasury

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8250, page 301, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to the administrative appeal of the erroneous filing of notice of federal tax lien. The text of the temporary regulations also serves as a comment document for this notice of proposed rulemaking.

DATE: Written comments and requests for a public hearing must be delivered or mailed by June 22, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (GL-161-89), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Background

The temporary regulations in * * * [T.D. 8250, page 301, this Bulletin] amend the Procedure and Administration Regulations (26 CFR Part 301) pursuant to section 6326 of the Internal Revenue Code. The final regulations, which are proposed to be based on the temporary regulations, reflect the amendment of section 6326 by section 6238 of the Technical and Miscellaneous Revenue Act of 1988. (Pub. L. No. 100-647). For the text of the regulations see T.D. 8250 * * * [page 301, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Special Analysis

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is not required. The rule would not significantly alter the reporting or recordkeeping duties of the taxpayer. A regulatory flexibility analysis therefore is not required under the Regulatory Flexibility Act.

Comments and Request for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who submits written comments. If a public hearing is to be held, notice of time and place will be published in the Federal Register.

List of Subjects

Notice of Proposed Rulemaking

Changes with Respect to Prizes and Awards and Employee Achievement Awards

IA-111-86

AGENCY: Internal Revenue Service.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed amendments to the regulations relating to the excludability of certain prizes and awards and to the deductibility of certain employee awards. Changes to the applicable tax law were made by the Tax Reform Act of 1986. These amendments, if adopted, will provide the public with the guidance needed to comply with this Act.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 10, 1989. The amendments are proposed to be effective after December 31, 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224; Attention: CC:CORP:T:R, IA-111-86.

SUPPLEMENTARY INFORMATION:

PAPERWORK REDUCTION ACT

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collections of information should be sent to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503, attention: Desk Officer for the Internal Revenue Service. Copies of comments should also be sent to the Internal Revenue Service at the address previously specified.

The collections of information in this regulation are in 26 CFR §§1.74-1(c). This information is required by the Internal Revenue Service in order to verify that the proper amount of income is reported by taxpayers on their returns of tax. The likely respondents are individuals.

Estimated total annual reporting burden: 1,275 hours.

Estimated average annual burden per respondent: 15 minutes.

Estimated number of respondents: 5,100.

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 74, 102, and 274 of the Internal Revenue Code (Code). The amendments are proposed to conform the regulations to section 122 of the Tax Reform Act of 1986 (Pub. L. 99-514). [1986-3 (Vol. 1) C.B. 1, 26]. The proposed amendments, if adopted, will be issued under the authority contained in section 7805 of the Code (68A Stat. 917; 26 U.S.C. 7805).

GENERAL INFORMATION

Prior to the 1986 Code, section 74 stated that prizes and awards, other than certain types of fellowship grants and scholarships, were includible in gross income unless they were made primarily in recognition of religious, charitable, scientific, educational, artistic, literary, or civic achievement. To qualify for the exclusion, the recipient must have been selected without any action on his part and could not be required to render substantial services as a condition to receiving the prize or award.

Within the context of a business relationship, prizes and awards that would otherwise be includible in a recipient's gross income were excludable if they qualified as gifts under section 102. In general, section 274(b) disallowed an employer a business deduction for gifts to an employee to the extent that the total cost of all gifts of cash, tangible personal property, and other items to the same individual during the taxable year exceeded $25. A special exception to the $25 limitation was allowed for items of tangible personal property awarded to an employee for length of service, safety achievement, or productivity. The employer could deduct the cost of such an award up to $400. If the item was provided under a qualified award plan, the deductibility limitation was increased to $1600, provided the average cost of all plan awards made during the year did not exceed $400. A de minimis fringe benefit under section 132(e) was, and continues to be, excludable from gross income and is not subject to the requirements imposed upon prizes and awards under sections 74 and 274.

EXPLANATION OF PROVISIONS

These proposed amendments relate to the excludability of certain prizes and awards and to the deductibility of certain employee awards and reflect the substantial changes made by the Tax Reform Act of 1986 (the Act) to sections 74, 102 and 274 of the Internal Revenue Code (Code). Changes to the applicable sections of the Code and regulations, amended or newly incorporated by this document, are effective for awards made after December 31, 1986.

Under the Act, the section 74(b) exclusion for prizes or awards received in recognition of charitable achievement is available only if the payor transfers the prize or award to one or more entities described in paragraph (1) and/or (2) of section 170(c), pursuant to the direction of the recipient.

Section 1.74(c) of the proposed regulations requires that recipients of prizes and awards clearly designate, in writing, within 45 days of the date the item is granted that they wish to have the prize or award transferred to one or more qualifying donee organizations. The proposed regulations set forth requirements which, in certain instances, determine whether a qualifying designation has been made.

Section 1.74-1(d) of the proposed regulations clarifies that the exclusion under section 74(b) will not be available unless the prize or award is transferred by the payor to one or more qualified donee organizations before the recipient, or any person other than the grantor or a qualified donee organization, uses the item. In general, a transfer may be accomplished by any method that results in receipt of the prize or award by, or on behalf of, one or more qualified donee organizations.

Section 1.74-1(e) further clarifies the requirements of section 74(b) by defining certain terms. Definitions are included which determine what constitutes a "qualified donee organization," when a "disqualifying use" has taken place, and when an item is considered "granted."

Section 1.74-1(f) provides that neither the payor nor the recipient of the prize or award may claim a charitable contribution deduction for the value of any prize or award for which an exclusion is allowed under section 74(b).

All of the requirements of section 74(b) in existence prior to passage of the Act remain in effect and must be met in order for the award recipient to be eligible for the exclusion. Accordingly, rules and regulations governing these additional requirements, to the extent they are not inconsistent with the proposed regulations, will remain in effect.

New Code section 74(c) excludes certain employee achievement awards from gross income. The exclusion applies, subject to certain limitations, to the value of awards made by the employer for safety achievement or length of service achievement. The amount of the exclusion generally corresponds with the deduction given the employer under new section 274(j) for these "employee achievement awards." Thus, in general, the employee must include these awards in income to the extent that the fair market value of the award, or, if greater, the cost of the award to the employer, exceeds the amount deductible under section 274(j). The exclusion allows an employee to exclude the full fair market value of the award where the cost of the award is fully deductible by the employer.

Section 1.74-2(d) of the proposed regulations provides special rules for employee achievement awards applicable to sole-proprietors and tax-exempt employers.

Section 1.74-2(e) clarifies that an employee award, whether or not an employee achievement award, may be excludable from gross income as a de minimis fringe benefit under section 132(e).

Section 102(c) of the Code clarifies that, with the exception of employee achievement awards under section 74(c) and de minimis fringe benefits under section 132(e), an employee shall not exclude from gross income any amount transferred to the employee (or for the employee's benefit) by, or on behalf of, the employer in the form of a gift, bequest, devise, or inheritance. Therefore, while awards satisfying the requirements of section 74(c) and de minimis fringe benefits qualifying under section 132(e) will be excluded from gross income under those sections, no amounts (except in certain narrowly defined circumstances) transferred by, or on behalf of, an individual's employer will be excludable from gross income under section 102.

Section 1.102-1(f)(2) of the proposed regulations provides that for purposes of section 102(c), extraordinary transfers to the natural objects of one's bounty will not be considered transfers for the benefit of an employee if it can be shown that the transfer was not made in recognition of the transferee's employment. Thus, the rules set out in *Comm. v. Duberstein,* 363 U.S. 278 (1960), formerly applicable in the determination of whether all property transferred inter-vivos from an employer to an employee constitutes a gift, will only be applicable where the transferee employee would be the natural object of the employer's bounty.

From an employer's perspective, the Act substantially modifies an employer's ability to deduct the cost of certain employee awards. New section 274(j) defines deductible "employee achievement awards" to include only those awards made for length of service achievement or safety achievement. In addition, an employee achievement award must be an item of tangible personal property awarded as part of a meaningful presentation and made under conditions and circumstances that do not create a significant likelihood of the payment of disguised compensation.

Section 274(j) also establishes a limit on the amount that may be deducted by an employer. The annual deduction limitation per employee is $400 for employee achievement awards that are not awarded as part of a qualified award plan. The annual deduction limitation per employee is $1,600 for employee achievement awards that are awarded as part of a qualified award plan. In no event may an employer deduct more than $1,600 per employee for all employee achievement awards made during the year. An award is not a qualified plan award where the average cost of all employee achievement awards made by the employer pursuant to a plan exceeds $400 during the taxable year.

Section 1.274-8(b) of the proposed regulations clarifies that the $1,600 deduction limitation applies in the aggregate, so that the $1,600 limitation for qualified plan awards and the $400 limitation for employee achievement awards that are not qualified plan awards cannot be added together to allow deductions exceeding $1,600 for employee achievement awards made to an employee in a taxable year.

Section 1.274-8(c)(2) of the proposed regulations provides that tangible personal property does not include cash or any gift certificate other than a nonnegotiable gift certificate conferring only the right to receive tangible personal property. The proposed regulations also give examples of what will be considered to create a significant likelihood of the payment of disguised compensation. For example, the providing of employee achievement awards in a manner that discriminates in favor of highly paid employees will be considered to be payment of disguised compensation.

Section 1.274-8(c)(5) of the proposed regulations defines a "qualified plan award" as an employee achievement award presented pursuant to an established written award plan or program of the employer that does not discriminate as to eligibility or benefits.

Section 1.274-8(d)(1) of the proposed regulations states that the deduction limitations shall apply to a partnership as well as to each member of the partnership. Paragraph (d)(2) provides that the cost of length of service achievement awards (other than awards excludable under section 132(e)) may only be deducted by the employer if the employee has at least 5 years of service with the employer and has not received a length of service achievement award during that year or any of the 4 prior years. In addition, this paragraph clarifies that although a retirement award will be treated as having been provided for length of service achievement, it may also qualify for treatment as a de minimis fringe benefit under §132(e) of the Code. Paragraph (d)(3) provides guidance with respect to safety achievement awards. An employer may deduct the cost of safety achievement awards only when presented to no more than 10% of an employer's eligible employees. Eligible employees include any employee who has worked for the employer in a full time capacity for at least one year and who is not a manager, administrator, clerical employee, or other professional employee. Special rules clarify that in the case where more than 10% of an employer's eligible employees receive a safety achievement award, no award will be considered to be awarded for safety achievement if it cannot be determined that that award was presented before the 10% limitation was exceeded.

The Act specifically excludes awards qualifying as de minimis fringe benefits under section 132(e) from the requirements for length of service achievement and safety achievement. As a result, employers are not required to consider section 132(e) awards in determining whether employee achievement awards comply with the 5 year limitations for length of service achievement and the 10% eligible employee limitations for safety achievement.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. The Internal Revenue Service has concluded that although this document is a notice of proposed rulemaking that solicits public comment, the regulations proposed herein are interpretative and the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, no Regulatory Flexibility Analysis is required for this rule.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of time and place will be published in the FEDERAL REGISTER.

* * * * * *

PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

Part 1 [Amended]

§1.74-1 [Amended]

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.74-1 is amended as follows:

(a) Paragraph (a)(1) is amended by

(1) Removing the phrase "subsection (b)" and adding the phrase "subsections (b) and (c)" in its place, and

(2) Removing the word "any" in the last sentence and adding the word "most" in its place.

(b) Paragraph (b) is amended by

(1) Removing the word "and" from the first sentence, and

(2) Removing "award." at the end of the first sentence and adding the language set forth below in its place.

(c) Paragraph (c) is removed and new paragraphs (c), (d), (e), (f), and (g) are added directly following paragraph (b) to read as set forth below.

§1.74-1 Prizes and awards

(b) *Exclusion from gross income*... award; and (4) the payor transfers the prize or award (and the prize or award is, in fact, transferred) to one or more governmental units or organizations described in paragraph (1) or (2) of section 170(c) pursuant to a designation by the recipient. Accordingly, awards such as the Nobel prize and the Pulitzer prize will qualify for the exclusion if the award is transferred by the payor to one or more qualifying organizations pursuant to a qualified designation by the recipient.

(c) *Designation by recipient*—(1) *In general*. To qualify for the exclusion under this section, the recipient must make a qualifying designation, in writing, within 45 days of the date the prize or award is granted (see paragraph (e)(3) of this section for a definition of "granted"). A qualifying designation is required to indicate only that a designation is being made. The document does not need to state on its face that the organization(s) are entities described in paragraph (1) and/or (2) of section 170(c) to result in a qualified designation. Furthermore, it is not necessary that the document do more than identify a class of entities from which the payor may select a recipient. However, designation of a specific nonqualified donee organization or designation of a class of recipients that may include nonqualified donee organizations is not a qualified designation. The following example illustrates the application of this section:

A distinguished opthamologist, S, is awarded the Nobel prize for medicine. S may designate that the prize money be given to a particular university that is described in section 170(c)(1), or to any university that is described in that section. However, S cannot designate that the award be given to a donee that is not described in section 170(c)(1), such as a foreign medical school. Selection of such a donee or inclusion of such a donee on a list of possible donees on S's designation would disqualify the designation:

(2) *Prizes and awards granted before 60 days after date of publication of final regulations*. In the case of prizes and awards granted before 60 days after date of publication of final regulations, a qualifying designation may be made at any time prior to 105 days after date of publication of final regulations.

(d) *Transferred by payor*. An exclusion will not be available under this section unless the designated items or amounts are transferred by the payor to one or more qualified donee organizations. The provisions of this paragraph shall not be satisfied unless the items or amounts are transferred by the payor to one or more qualifying donee organizations no later than the due date of the return (without regard to extensions) for the taxable year in which the items or amounts would otherwise be includible in the recipient's gross income. A transfer may be accomplished by any method that results in the receipt of the items or amounts by one or more qualified donee organizations from the payor and does not involve a disqualifying use of the items or amounts. Delivery of items or amounts by a person associated with a payor (*e.g.*, a contractual agent, licensee, or other representative of the payor) will satisfy the requirements of this section so long as the items or amounts are received by, or on behalf of, one or more qualified donee organizations. Possession of a prize or an award by any person before a designation is made will not result in the disallowance of an exclusion unless a disqualifying use of the items or amounts is made before the items or amounts are returned to the payor for transfer to one or more qualified donee organizations (see paragraph (e)(2) of this section for a definition of "disqualifying use"). Accordingly, transfer of an item or amount to a nonqualified donee organization will not result in an ineffective transfer under this section if the item or amount is timely returned to the payor by the nonqualified donee organization before a disqualifying use of the item or amount is made and the item or amount is then transferred to a qualifying organization.

(e) *Definitions*—(1) For purposes of this section, "qualified donee organizations" means entities defined in section 170(c)(1) or (2) of the Code.

(2) For purposes of this section, the term "disqualifying use" means, in the case of cash or other intangibles, spending, depositing, investing or otherwise using the prize or award so as to enure to the benefit of the recipient or any person other than the grantor or an entity described in section 170(c)(1) or (2). In the case of tangible items, the term "disqualifying use" means physical possession of the item for more than a brief period of time by any person other than the grantor or an entity described in section 170(c)(1) or (2). Thus, physical pos-

session by the recipient or a person associated with the recipient may constitute a disqualifying use if the item is kept for more than a brief period of time. For example, receipt of an unexpected tangible award at a ceremony that otherwise comports with the requirements of this section will not constitute a disqualifying use unless the recipient fails to return the item to the payor as soon as practicable after receipt.

(3) For purposes of this section, an item will be considered "granted" when it is subject to the recipient's dominion and control to such an extent that it otherwise would be includible in the recipient's gross income.

(f) *Charitable deduction not allowable.* Neither the payor nor the recipient will be allowed a charitable deduction for the value of any prize or award that is excluded under this section.

(g) *Qualified scholarships.* See section 117 and the regulations thereunder for provisions relating to qualified scholarships.

Par. 3. New section 1.74-2 is added to immediately follow section 1.74-1 as set forth below.

§1.74-2 Special exclusion for certain employee achievement awards.

(a) *General rule*—(1) Section 74(c) provides an exclusion from gross income for the value of an employee achievement award (as defined in section 274(j) received by an employee if the cost to the employer of the award does not exceed the amount allowable as a deduction to the employer for the cost of the award. Thus, where the cost to the employer of an employee achievement award is fully deductible after considering the limitation under section 274(j), the value representing the employer's cost of the award is excludable from the employee's gross income.

(2) Where the cost of an award to the employer is so disproportionate to the fair market value of the award that there is a significant likelihood that the award was given as disguised compensation, no portion of the award will qualify as an employee achievement award excludable under the provisions of this section (see also §1.274-8(c)(1) and (4)).

(b) *Excess deduction award.* Where the cost to the employer of an employee achievement award exceeds the amount allowable as a deduction to the employer, the recipient must include in gross income an amount which is the greater of (1) the excess of such cost over the amount that is allowable as a deduction (but not to exceed the fair market value of the award) or (2) the excess of the fair market value of the award over the amount allowable as a deduction to the employer.

(c) *Examples.* The operation of this section may be illustrated by the following examples:

Example (1). An employer makes a qualifying length of service award to an employee in the form of a television set. Assume that the deduction limitation under §274(j)(2) applicable to the award is $400. Assume also that the cost of the television set to the employer was $350, and that the fair market value of the television set is $475. The amount excludable is $475 (the full fair market value of the television set). This is true even though the fair market value exceeds both the cost of the television set to the employer and the $400 deduction allowable to the employer for non-qualified plan awards under section 274(j)(2)(A).

Example (2). Assume the same facts as in example (1) except that the fair market value of the television set is $900. Under these circumstances, the fair market value of the television set is so disproportionate to the cost of the item to the employer that the item will be considered payment of disguised compensation. As a result, no portion of the award will qualify as an employee achievement award. Since no portion of the award is excludable by the employee, the employer must report the full fair market value of the award as compensation on the employee's Form W-2.

Example (3). An employer makes a qualifying safety achievement award to an employee in the form of a pearl necklace. Assume that the deduction limitation under section 274(j) is $400. Assume also that the cost of the necklace to the employer is $425 and that the fair market value of the necklace is $475. The amount includible by the employee in gross income is the greater of (a) $25 (the difference between the cost of the item ($425) and the employer's deductible amount of $400) or (b) $75 (the amount by which the fair market value of the award ($475) exceeds the employer's deductible amount of $400). Accordingly, $75 is the amount includible in the employee's gross income. The remaining portion of the fair market value of the award (*i.e,* the $400 amount allowable as a deduction to the employer) is not included in the gross income of the employee. If the cost of the pearl necklace to the employer was $500 instead of $425, then $100 would be includible in the employee's gross income because the excess of the cost of the award over $400 (*i.e.,* $100) is greater than the excess of the fair market value of the award over $400 (*i.e.,* $75). The employer must report the $75, which is includible in the employee's gross income, as compensation on the employee's Form W-2.

Example (4). An employer invites its employees to attend a party it is sponsoring to benefit a charity. In order to encourage the employees to attend the party and to make contributions to the charity, the employer promises to match the employees' contributions and also provides expensive prizes to be awarded to contributing employees selected at random. Each employee receiving a prize must include the full fair market value of the prize in gross income because the prizes are not qualifying achievement awards under section 274(j) or de minimis fringe benefits under section 132(e). Since the prizes are not excludable the employer must report the full fair market value of the prize as compensation on the employee's Form W-2.

(d) *Special rules*— (1) The exclusion provided by this section shall not be available for any award made by a sole-proprietorship to the sole proprietor.

(2) In the case of an employer exempt from taxation under Subtitle A of the Code, any reference in this section to the amount allowable as a deduction to the employer shall be treated as a reference to the amount which would be allowable as a deduction to the employer if the employer were not exempt from taxation under Subtitle A of the Code.

(e) *Exclusion for certain de minimis fringe benefits.* Nothing contained in this section shall preclude the exclusion of the value of an employee award that is otherwise qualified for exclusion under section 132(e).

Par. 4 Section 1.102-1 is amended as follows:

(a) The last sentence of paragraph (a) is removed.

(b) A new paragraph (f) is added immediately following paragraph (e) to read as follows.

§1.102-1 Gifts and inheritances.

* * * * * *

(f) *Exclusions*—(1) *In general.* Section 102 does not apply to prizes and awards (including employee achievement awards) (see section 74); certain de minimis fringe benefits (see section 132); any amount transferred by or for an employer to, or for the benefit of, an employee (see section 102(c)); or to qualified scholarships (see section 117).

(2) *Employer/Employee transfers.* For purposes of section 102(c), extraordinary transfers to the natural objects of an employer's bounty will not be considered transfers to, or for the benefit of, an employee if the employee can show that the transfer was not made in recognition of the employee's employment. Accordingly, section 102(c) shall not apply to amounts transferred between related parties (*e.g.,* father and son) if the purpose of the transfer can be substantially attributed to the familial relationship of the parties and not to the circumstances of their employment.

§1.274-1 [Amended]

Par. 5. Section 1.274-1 is amended by removing everything after the word "business" in the last sentence of paragraph (d) and adding in its place "activity, see §1.274-6."; revising paragraph (e) and adding paragraph (f) to read as follows: * * * (e) treatment of personal portion of entertainment facility, see §1.274-7, and (f) employee achievement awards, see §1.274-8.

§1.274-3 [Amended]

Par. 6. Section 1.274-3 is amended as follows:

(a) The last sentence of paragraph (b)-(1) is amended by substituting "subsections (b) and (c) of section 74" for "section 74(b)".

(b) The language "recipient, or" at the end of paragraph (b)(2)(ii) is replaced by the language "recipient."

(c) Subdivisions (iii) and (iv) of paragraph (b)(2) are removed.

(d) The first, second, and fourth sentences of the flush material immediately following subdivision (iv) are removed and the last sentence is amended by substituting "sections 61, 74, 102, and 132" for "sections 61, 74, and 102".

(e) Paragraph (d) is removed and paragraphs (e), (f), and (g) are redesignated as paragraphs (d), (e), and (f).

Par. 7. Section 1.274-8 is redesignated as

§1.274-9 and a new §1.274-8 is added immediately following

§1.274-7 to read as set forth below.

§1.274-8 Disallowance of certain employee achievement award expenses.

(a) *In general.* No deduction is allowable under section 162 or 212 for any portion of the cost of an employee achievement award (as defined in section 274(j)(3)(A)) in excess of the deduction limitations of section 274(j)(2).

(b) *Deduction limitations.* The deduction for the cost of an employee achievement award made by an employer to an employee: (1) which is not a qualified plan award, when added to the cost to the employer for all other employee achievement awards made to such employee during the taxable year which are not qualified plan awards, shall not exceed $400, and (2) which is a qualified plan award, when added to the cost to the employer for all other employee achievement awards made to such employee during the taxable year (including employee achievement awards which are not qualified plan awards), shall not exceed $1,600. Thus, the $1,600 limitation is the maximum amount that may be deducted by an employer for all employee achievement awards granted to any one employee during the taxable year.

(c) *Definitions*—(1) *Employee achievement award.* The term "employee achievement award", for purposes of this section, means an item of tangible personal property that is transferred to an employee by reason of the employee's length of service or safety achievement. The item must be awarded as part of a meaningful presentation, and under conditions and circumstances that do not create a significant likelihood of the payment of disguised compensation. For purposes of section 274(j), an award made by a sole proprietorship to the sole proprietor is not an award made to an employee.

(2) *Tangible personal property.* For purposes of this section, the term "tangible personal property" does not include cash or a certificate (other than a nonnegotiable certificate conferring only the right to receive tangible personal property). If a certificate entitles an employee to receive a reduction of the balance due on his account with the issuer of the certificate, the certificate is a negotiable certificate and is not tangible personal property for purposes of this section. Other items that will not be considered to be items of tangible personal property include vacations, meals, lodging, tickets to theater and sporting events, and stocks, bonds, and other securities.

(3) *Meaningful presentation.* Whether an award is presented as part of a meaningful presentation is determined by a facts and circumstances test. While the presentation need not be elaborate, it must be a ceremonious observance emphasizing the recipient's achievement in the area of safety or length of service.

(4) *Disguised compensation.* An award will be considered disguised compensation if the conditions and circumstances surrounding the award create a significant likelihood that it is payment of compensation. Examples include the making of employee achievement awards at the time of annual salary adjustments or as a substitute for a prior program of awarding cash bonuses, the providing of employee achievement awards in a manner that discriminates in favor of highly paid employees, or, with respect to awards the cost of which would otherwise be fully deductible by the employer under the deduction limitations of section 274(j)(2), the making of an employee achievement award the cost of which to the employer is grossly disproportionate to the fair market value of the item.

(5) *Qualified plan awards*—(i) *In general.* Except as provided in paragraph (c)(5)(ii) of this section, the term "qualified plan award" means an employee achievement award that is presented pursuant to an established written plan or program that does not discriminate in terms of eligibility or benefits in favor of highly compensated employees. See section 414(q) of the Code for the definition of highly compensated employees. Whether an award plan is established shall be determined from all the facts and circumstances of the particular case, including the frequency and timing of any changes to the plan. Whether or not an award plan is discriminatory shall be determined from all the facts and circumstances of the particular case. An award plan may fail to qualify because it is discriminatory in its actual operation even though the written provisions of the award plan are nondiscriminatory.

(ii) *Items not treated as qualified plan awards.* No award presented by an employer during the taxable year will be considered a qualified plan award if the average cost of all employee achievement awards presented during the taxable year by the taxpayer under any plan described in paragraph (c)(5)(i) of this section exceeds $400. The average cost of employee achievement awards shall be computed by dividing (A) the sum of the costs to the employer for all employee achievement awards (without regard to the deductibility of those costs) by (B) the total number of employee achievement awards presented. For purposes of the preceding sentence, employee achievement awards of nominal value shall not be taken into account in the computation of average cost. An employee achievement award that costs the employer $50 or less shall be considered to be an employee achievement award of nominal value.

(d) *Special rules*—(1) *Partnerships.* Where employee achievement awards are made by a partnership, the deduction limitations of section 274(j)(2) shall apply to the partnership as well as to each member thereof.

(2) *Length of service awards.* An item shall not be treated as having been provided for length of service achievement if the item is presented for less than 5 years employment with the taxpayer or if the award recipient received a length of service achievement award (other than an award excludable under section 132(e)(1)) during that year or any of the prior 4 calendar years. An award presented upon the occasion of a recipient's retirement is a length of service award subject to the rules of this section. However, under appropriate circum-

stances, a traditional retirement award will be treated as a de minimis fringe. For example, assume that an employer provides a gold watch to each employee who completes 25 years of service with the employer. The value of the gold watch is excluded from gross income as a de minimis fringe. However, if the employer provides a gold watch to an employee who has not completed lengthy service with the employer or on an occasion other than retirement, the value of the watch is not excludable from gross income under section 132(e).

(3) *Safety achievement awards*—(i) *In general.* An item shall not be treated as having been provided for safety achievement if—

(A) During the taxable year, employee achievement awards (other than awards excludable under section 132(e)-(1)) for safety achievement have previously been awarded by the taxpayer to more than 10 percent of the eligible employees of the taxpayer, or

(B) Such item is awarded to a manager, administrator, clerical employee, or other professional employee.

(ii) *"Eligible employee" defined.* An eligible employee is one not described in paragraph (d)(3)(i)(B) of this section and who has worked in a full-time capacity for the taxpayer for a minimum of one year immediately preceding the date on which the safety achievement award is presented.

(iii) *Special rules.* Where safety achievement awards are presented to more than 10 percent of the taxpayer's eligible employees, only those awards presented to eligible employees before 10 percent of the taxpayer's eligible employees are exceeded shall be treated as having been provided for safety achievement. Where the only safety achievement awards presented by an employer consist of items that are presented at one time during the calendar year, then, if safety achievement awards are presented to more than 10 percent of the taxpayer's eligible employees, the taxpayer may deduct an amount equal to the product of the cost of the item (subject to the applicable deduction limitation) and 10 percent of the taxpayer's eligible employees. Except as provided in the preceding sentence, no award shall be treated as having been provided for safety achievement except to the extent that it can be reasonably demonstrated that that award was made before the 10 percent limitation was exceeded.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 6, 1989, 8:45 a.m., and published in the issue of the Federal Register for January 9, 1989, 54 F.R. 627)

Notice of Proposed Rulemaking

Minimum Tax—Tax Benefit Rule

IA-56-87

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8249, page 15, this Bulletin] the Internal Revenue Service is issuing temporary regulations relating to the application of the tax benefit rule to the minimum tax. The text of the temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: Except as otherwise provided, the amendments are proposed to be effective for items of tax preference that are subject to the minimum tax imposed by section 56 of the Code and arise in taxable years beginning after December 31, 1975, and before January 1, 1987. Written comments and requests for a public hearing must be delivered or mailed by

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:R:T (IA-56-87), Room 4429, Washington, D. C. 20224.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504 (h)). Comments on the collections of information should be sent to the Office of Management and Budget, Paperwork Reduction Project, Washington, D.C. 20503, with copies to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:FP, Washington, D.C. 20224.

The collections of information in this regulation are contained in paragraphs (c)(5)(iii)(B) and (e)(3) of §1.58-9T. This information is required by the Internal Revenue Service to administer section 58(h). Respondents are taxpayers who are subject to the minimum tax and who file amended returns under §1.58-9T(e)(3), or who make the election under §1.58-9T(c)(5)(iii)(B).

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Estimated total annual reporting burden: 40 hours.

The estimated annual burden per respondent or recordkeeper varies from 10 minutes to 14 minutes, depending on individual circumstances, with an estimated average of 12 minutes.

Estimated number of respondents: 200.

Estimated annual frequency of responses: 1.

Background

The temporary regulations published in * * * [T.D. 8249, page 15, this Bulletin] amend the Income Tax Regulations (26 CFR Part 1) under section 58 of the Internal Revenue Code of 1954.

For the text of the temporary regulations, see T.D. 8249, published in * * * [page 15, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Special Analyses

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291, and that a Regulatory Impact Analysis therefore is not required. Furthermore, it has been certified that this rule, if issued, will not have a significant economic impact on a substantial number of small entities because the taxpayers that are subject to these regulations tend to be large corporations. It would not significantly alter the reporting or recordkeeping duties of small entities. A regulatory flexibility analysis is therefore not required under the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably eight copies) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who also submits written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

Michael J. Murphy,
Acting Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on May 4, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 5, 1989, 54 F.R. 19409)

Notice of Proposed Rulemaking

Reduction of Tax Overpayments by Amount of Past-Due Legally Enforceable Debt Owed to Federal Agency

IA-41-88

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8239, page 302, this Bulletin], the Internal Revenue Service is issuing temporary regulations amending temporary regulations which were published in the Federal Register on September 30, 1985. [T.D. 8053, 1985-2 C.B. 333 and LR-291-84, 1985-2 C.B. 839], and were amended May 13, 1987 [T.D. 8139, 1987-2 C.B. 280 and LR-72-86, 1987-2 C.B. 1030], relating to the reduction of a taxpayer's overpayment (*i.e.*, tax refund) by the amount of any past-due legally enforceable debt owed to a Federal agency by the taxpayer and referred by that agency to the Internal Revenue Service for offset. The text of the temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 7, 1989. The regulations are proposed to apply to refunds payable under section 6402 of the Internal Revenue Code of 1986 after December 31, 1985, and on or before January 10, 1994. However, if legislation is enacted extending the tax refund offset program beyond January 10 1994, the regulations are proposed to apply to refunds payable through the date to which such legislation extends the program.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attention: CC:CORP:T:R (IA-41-88), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION

BACKGROUND

The temporary regulations (designated by a "T" following the section citation) in * * * [T.D. 8239, page 302, this Bulletin] amend temporary Procedure and Administration Regulations (26 CFR Part 301) under section 6402(d) and (e) of the Internal Revenue Code of 1954, and section 3720A of subchapter II of chapter 37 of Title 31, United States Code. This document proposes to adopt the amendments to those temporary regulations as amendments to the final regulations; accordingly, the text of the temporary regulations serves as the comment document for this notice of proposed rulemaking. In addition, the preamble to the temporary regulations provides a discussion of the proposed and temporary amendments. For the text of the temporary regulations, see T.D. 8239 * * * [page 302, this Bulletin].

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that these proposed rules are not major rules as defined in Executive Order 12291 and, therefore, a regulatory impact analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably nine copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

* * * * * *

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 3, 1989, 2:39 p.m., and published in the issue of the Federal Register for January 6, 1989, 54 F.R. 428)

Notice of Proposed Rulemaking

Disclosure of Return Information to the Bureau of the Census

IA-42-88

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: This document contains proposed amendments to the regulations on Procedure and Administration to authorize the disclosure of three additional items of return information to the Bureau of the Census for use in certain statistical programs and to delete the authority to disclose those items of return information which the Bureau no longer needs. The proposed regulations will provide guidance to Internal Revenue Service personnel responsible for disclosing the information.

DATES: Written comments and requests for a public hearing must be delivered by January 13, 1989. The amendments to the regulations are proposed to be effective as of the date on which the Treasury decision adopting them is published in the FEDERAL REGISTER.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention CC:CORP:T:R (IA-42-88), Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the regulations on Procedure and Administration (26 CFR Part 301) under section 6103(j)(1) of the

Internal Revenue Code of 1986. Under section 6103(j)(1), upon written request from the Secretary of Commerce, the Internal Revenue Service is to furnish such tax return information as may be prescribed by Treasury regulations to the Bureau of the Census for statutorily authorized statistical activities. Section 301.6103(j)(1)-1 of the regulations currently provides an itemized description of the return information authorized to be disclosed for this purpose.

Periodically, the disclosure regulations are amended to reflect the changing statistical needs of the Bureau of the Census for tax information, and these proposed regulations would update those regulations.

EXPLANATION OF PROVISIONS

The request by the Secretary of Commerce for amendment of the regulations indicates that the Bureau of the Census needs the following three new data items from returns of individual taxpayers for use in its statutorily authorized postcensal population and per capita income estimates programs: (1) the type of tax return filed (i.e., Form 1040, Form 1040A, etc.); (2) whether the taxpayer itemized deductions for federal income tax purposes; and (3) whether the taxpayer received Social Security benefits. The Bureau needs this information to help them determine whether a taxpayer is over 65 years of age.

These proposed regulations would amend §301.6103(j)(1)-1 of the present regulations to add the above items to the list of disclosable tax return information. In addition, the proposed regulations would delete from the list certain items of return information which the Bureau of Census no longer needs.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

Although this document is a notice of proposed rulemaking that solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original and seven copies) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing will be scheduled and held upon written request by any person who submits written comments on the proposed rules. Notice of the time and place for the hearing will be published in the FEDERAL REGISTER.

LIST OF SUBJECTS IN 26 CFR 301

Administrative practice and procedure, Bankruptcy, Courts, Crime, Employment Taxes, Estate Taxes, Excise Taxes, Gift, Income Taxes, Investigations, Law Enforcement, Penalties, Pensions, Statistics, Taxes, Disclosure of information, Filing requirements.

Accordingly, Title 26, Part 301 of the Code of Federal Regulations is proposed to be amended as follows:

Paragraph 1. The authority for Part 301 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 301.6103(j)(1)-1 also issued under 26 U.S.C. 6103(j).

Par. 2. Section 301.6103(j)(1)-1 is amended by revising Paragraph (b)(1) to read as follows:

§301.6103(j)(1)-1 Disclosures of return information to officers and employees of the Department of Commerce for certain statistical purposes and related activities.

* * * * * *

(b) *Disclosure of return information to officers and employees of the Bureau of the Census*—(1) Officers or employees of the Service will disclose the following return information reflected on returns of an individual taxpayer to officers and employees of the Bureau of the Census for purposes of, but only to the extent necessary in, conducting and preparing, as authorized by chapter 5 of Title 13, United States Code, intercensal estimates of population and per capital income for all geographic areas included in the general revenue sharing program and demographic statistics programs, censuses and related program evaluation—

(i) Taxpayer identity information (as defined in section 6103(b)(6) of the Code), validity code with respect to the taxpayer identifying number (as described in section 6109), and taxpayer identifying number of spouse, if reported;

(ii) District office and service center codes;

(iii) Marital status;

(iv) Numbers and Classifications of reported exemptions;

(v) Adjusted gross income;

(vi) Wage and salary income;

(vii) Dividend income;

(viii) Interest income;

(ix) Gross rent and royalty income;

(x) Type of tax return filed;

(xi) Residence information from the revenue sharing question;

(xii) Code indicators for Form 1040; Schedules C, D, E, F, and SE;

(xiii) Julian date relative to filing;

(xiv) Whether deductions were itemized; and

(xv) Social Security benefits.

* * * * * *

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

Approved November 2, 1988.

O. Donaldson Chapoton,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on December 13, 1988, 8:45 a.m., and published in the issue of the Federal Register for December 1, 1988, 53 F.R. 50243)

Notice of Proposed Rulemaking

Imposition of Backup Withholding Due to Notification of an Incorrect Taxpayer Identification Number and the Due Diligence Exception to the Imposition of a Penalty for a Missing or an Incorrect Taxpayer Identification Number

IA-104-88

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8248, page 280, this Bulletin], the Internal Revenue

Service is issuing temporary regulations that would amend and clarify the rules concerning the requirement for payors to backup withhold and the actions that payors must take to exercise due diligence with respect to a missing or an incorrect taxpayer identification number due to notification of an incorrect taxpayer identification number. The text of the temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: The regulations are proposed to be effective for reportable payments made after December 31, 1983, and to information returns filed after December 31, 1984. However, the requirements of §35a.34061 are proposed to be effective on and after January 1, 1989. Written comments and requests for a public hearing must be delivered or mailed by June 12, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Attn: CC:CORP:TR (IA-104-88), Washington, D.C. 20044.

SUPPLEMENTARY INFORMATION:

Background

The temporary regulations published in * * * [T.D. 8248, page 280, this Bulletin] amend the rules set forth in §35a.3406-1 and §§35a.9999-1 and 35a.9999-3 in order to conform those rules to the changes made by Notice 88-77, 1988-2 C.B. 392, and Notice 88-89, 1988-2 C.B. 413. Further, the temporary regulations would provide a new due diligence standard for payors of certain accounts with post-1987 awaiting-TIN certifications, for payors of beneficiaries under life-insurance contracts, and for payors of certain payees who are exempt from the payment of the tax on self-employment income under Code section 1401 or the Federal Insurance Contributions Act tax on employers or employees under Code section 3111 or 3101, respectively. For the text of the new temporary regulations, see T.D. 8248 * * * [page 280, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Special Analyses

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comments, the notice and public procedure requirements of 5 U.S.C. §553 do not apply because the regulations proposed herein are interpretative. Therefore, an initial Regulatory Flexibility Analysis is not required by the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed copy and seven copies) to the Internal Revenue Service. All comments will be available for pubic inspection and copying in their entirety. A public hearing will be scheduled and held upon written request by any person who submits written comments on the proposed rules. Also, the Internal Revenue Service intends to publish a notice of proposed rulemaking in the near future that will provide comprehensive rules on backup withholding. Generally, the pertinent provisions of all the temporary regulations with respect to backup withholding will be incorporated in the notice of proposed rulemaking. The Internal Revenue Service intends to schedule one hearing to receive comments under these proposed rules and under the comprehensive proposed rules that will be published shortly. Notice of the time and place of the hearing will be published in the Federal Register. However, the notice and hearing will not cover any of the rules set forth in INTL-52-86. See 53 FR 5991 and 54 FR 11236.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on April 10, 1989, 8:45 A.M., and published in the issue of the Federal Register for April 11, 1989, 54 F.R. 14364)

Notice of Proposed Rulemaking

Abatement of Penalty or Addition to Tax Attributable to Erroneous Advice

IA-24-89

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8254, page 304, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to the abatement of a portion of any penalty or addition to tax attributable to erroneous written advice furnished to a taxpayer by the Service. The text of the temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: The regulations are proposed to be effective with respect to advice requested on or after January 1, 1989. Written comments and requests for a public hearing must be delivered or mailed by July 17, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, ATTN: CC:CORP:T:R (IA-24-89), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information contained in this notice of proposed rulemaking has been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collection of information should be sent to the Office of Management and Budget, Paperwork Reduction Project, Washington, D.C. 20503, with copies to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:FP, Washington, D.C. 20224.

The collection of information requirement in this regulation is contained in section 26 CFR 301.6404-3T. This information is required by the Internal Revenue Service in order to determine whether a taxpayer is entitled to an abatement of a penalty or addition to tax under section 6404(f). The likely respondents are individual taxpayers, businesses or other for-profit organizations, and small businesses or organizations.

The time estimates for the reporting and recordkeeping requirements contained in this regulation are included in the burden of Form 843.

Background

The temporary regulations published in * * * [T.D. 8254, page 304, this Bulletin] amend the Procedure and Administration Regulations under section 6404 of the Internal Revenue Code of 1986 by adding §301.6404-3T to Title 26 of the Code of Federal Regulations (CFR). For the text of the new temporary regulations, see T.D. 8254, published * * * [page 304, this Bulletin]. The preamble to the temporary regulations explains the regulations.

Regulatory Impact Analysis

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required.

Submission to Small Business Administration

Pursuant to section 7805(f) of the Code, the rules proposed in this document will be submitted to the Administrator of the Small Business Administration for comment on their impact on small business.

Comments and Requests for a Public Hearing

Before these temporary regulations are adopted, consideration will be given to any written comments that are submitted (preferably a signed original) to the Internal Revenue Service. All comments will be made available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who also submits written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

Michael J. Murphy,
Acting Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on May 15, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 16, 1989, 54 F.R. 21073)

Notice of Proposed Rulemaking

Limitation of Foreign Tax Credit for Foreign Oil and Gas Taxes

INTL-152-86

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: This document contains proposed Income Tax Regulations relating to the amendments made to the Internal Revenue Code by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA). The amendments require that foreign oil and gas extraction income and losses from all foreign countries be aggregated before computing the limit on creditability of foreign taxes. The amendments also repeal the separate application of the foreign tax credit limitation to taxes on foreign oil related income. In * * * [T.D. 8240, page 238, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to these matters. The text of those temporary regulations also serves as the comment document for this proposed rulemaking.

DATES: Written comments and request for a public hearing must be delivered or mailed by April 24, 1989. The amendments are proposed to be effective, generally, for taxable years beginning after December 31, 1982.

ADDRESS: Send comments and request for a public hearing to: Commissioner of Internal Revenue, (Attention: CC:COPP: T:R, INTL-152-86), Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary regulations published in * * * [T.D. 8240, page 238, this Bulletin] add new §§1.907(a)-0T, 1.907(c)-1T, 1.907(a)-0AT through 1.907(f)-1AT. The final regulations that are proposed to be based on the temporary regulations would amend 26 CFR Part 1 to conform the regulations to changes made to section 907 by section 211 (96 Stat. 448) of TEFRA. For the text of the temporary regulations, see T.D. 8240 published in * * * [page 238, this Bulletin].

SPECIAL ANALYSIS

It has been determined that these proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comments, the notice and public procedure requirements of 5 U.S.C. §553 do not apply because it has been determined that these proposed regulations are interpretative. Therefore, an initial Regulatory Flexibility Analysis is not required by the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original and seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written requests by any person who has submitted written comments on the proposed rules. Notice of the time and place for the hearing will be published in the FEDERAL REGISTER.

* * * * * *

Proposed amendments to the regulations

The temporary regulations T.D. 8240, published in * * * [page 238, this Bulletin], are hereby also proposed as final regulations under section 907 of the Internal Revenue Code of 1986.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 19, 1989, 8:45 a.m., and published in he issue of the Federal Register for January 23, 1989, 54 F.R. 3083)

Notice of Proposed Rulemaking

Subsidies Under Section 901(i)

INTL-942-86

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document provides proposed Income Tax Regulations relating to denial of foreign tax credits for subsidies provided by foreign governments through the use of taxing systems. These regulations are proposed to implement the Tax Reform Act of 1986.

DATES: Written comments and requests for a public hearing must be delivered or mailed before January 17, 1989. These rules would apply to amounts paid or accrued in taxable years beginning after December 31, 1986.

ADDRESS: Send comments and requests for a public hearing to Commissioner of Internal Revenue, Attention: CC:CORP: T:R (INTL-942-86) , Washington, DC 20224.

SUPPLEMENTAL INFORMATION:

BACKGROUND

This document contains proposed Income Tax Regulations (26 CFR Part 1) under section 901(i) of the Internal Revenue Code of 1986, as added by section 1204 of the Tax Reform Act of 1986 (100 Stat. 2085, 2532, Pub. L. 99-514).

The regulations are proposed to be issued under the authority contained in section 7805(a).

DISCUSSION

Section 901(i) was added to the Code to deny foreign tax credits where the amount paid or accrued (and designated as a "tax" by the foreign government) is used to provide a subsidy. The proposed regulations would clarify the circumstances under which the foreign tax credit is denied for such amounts.

Under the proposed regulations, the amount of the tax would be treated as a subsidy and not as an amount of tax paid or accrued if the amount is used, directly or indirectly, by the foreign country imposing the tax to provide a subsidy to the taxpayer, to a related person (within the meaning of section 482), to any party to the transaction, or to any party to a related transaction. The subsidy may be provided by any means but must be determined, directly or indirectly, by reference to the amount of the tax, or to the base used to compute the amount of the tax.

The proposed regulations state that the method of providing a subsidy may include, but is not limited to, a rebate, a refund, a credit, a deduction, a payment, a discharge of an obligation, or any other method. The term "subsidy" is defined to include any benefit conferred, directly or indirectly, by a foreign country. Examples are provided that describe specific circumstances which give rise to a subsidy as contemplated by the regulations.

Under the proposed regulations, the use of an official exchange rate under certain circumstances would not be a subsidy determined, directly or indirectly, by reference to the amount of the tax, or to the base used to compute the amount of tax. Rev. Rul. 84-143, 1984-2 C.B. 127, held that the use of the official exchange rate of the Mexican Exchange Control Decree, effective December 20, 1982, is not a subsidy under prior law. The official exchange rate rule in the proposed regulations adopts the holding of Rev. Rul. 84-143. The fact pattern of Rev. Rul. 84-143 is addressed in example (3).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations as final, consideration will be given to any written comments that are submitted (preferably nine copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

SPECIAL ANALYSES

It has been determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although this document is a notice of proposed rulemaking that solicits public comment, it has been determined that the proposed regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6) and a Regulatory Flexibility Analysis has not been prepared.

* * * * * *

Proposed amendments to the regulations

Accordingly, the proposed amendments to 26 CFR Part 1 are as follows:

INCOME TAX REGULATIONS (26 CFR Part 1)

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.901-2(e)(3) is revised to read as follows:

§1.901-2 Income, war profits, or excess profits tax paid or accrued.

* * * * * *

(e) *Amount of income tax that is creditable.*

* * * * * *

(3) Subsidies—(i) *General Rule.* An amount of foreign income tax is not an amount of income tax paid or accrued by a taxpayer to a foreign country to the extent that—

(A) The amount is used, directly or indirectly, by the foreign country imposing the tax to provide a subsidy by any means (including, but not limited to, a rebate, refund, credit, deduction, payment, discharge of an obligation, or other method) to the taxpayer, to a related person (within the meaning of section 482), to any party to the transaction, or to any party to a related transaction; and

(B) The subsidy is determined, directly or indirectly, by reference to the amount of the tax, or by reference to the base used to compute the amount of the tax.

(ii) *Subsidy.* The term "subsidy" includes any benefit conferred, directly or indirectly, by a foreign country to one of the parties enumerated in paragraph (e)(3)(i)(A) of this section. Substance and not form shall govern in determining whether a subsidy exists. The fact that the U.S. taxpayer may derive no benefit from the subsidy is irrelevant in determining whether a subsidy exists.

(iii) *Official exchange rate.* A subsidy described in paragraph (e)(3)(i)(B) of this section does not include the actual use of an official foreign government exchange rate converting foreign currency into dollars where a free exchange rate also exists if—

(A) The economic benefit represented by the use of the official exchange rate is not targeted to or tied to transactions that give rise to a claim for a foreign tax credit;

(B) The economic benefit of the official exchange rate applies to a broad range of international transactions, in all cases based on the total payment to be made without regard to whether the payment is a return of principal, gross income, or net income, and without regard to whether it is subject to tax; and

(C) Any reduction in the overall cost of the transaction is merely coincidental to the broad structure and operation of the official exchange rate.

In regard to foreign taxes paid or accrued in taxable years beginning before January 1, 1987, to which the Mexican Exchange Control Decree, effective as of December 20, 1982, applies, see Rev. Rul. 84-143, 1984-2 C.B. 127.

(iv) *Examples.* The provisions of this paragraph (e)(3) may be illustrated by the following examples:

Example (1). (i) Country X imposes a 30 percent tax on nonresident lenders with respect to interest which the nonresident lenders receive from borrowers who are residents of Country X, and it is established that this tax is a tax in lieu of an income tax within the meaning of §1.903-1(a). Country X remits to resident borrowers an incentive payment for engaging in foreign loans, which payment is an amount equal to 20 percent of the interest paid to nonresident lenders.

(ii) Because the incentive payment is based on the interest paid, it is determined by reference to the base used to compute the tax in lieu of an income tax that is imposed on the nonresident lender. The incentive payment is considered a subsidy under this paragraph (e)(3) since it is provided to a party (the borrower) to the transaction and is based on the amount of tax in lieu of an income tax that is imposed on the lender with respect to the transaction. Therefore, two-thirds (20 percent/30 percent) of the amount withheld by the resident borrower from interest payments to the nonresident lender is not a tax in lieu of an income tax.

Example (2). (i) A U.S. bank lends money to a development bank in Country X. The development bank relends the money to companies resident in Country X. A withholding tax is imposed by Country X on the U.S. bank with respect to the interest that the development bank pays to the U.S. bank. On the date that the tax is withheld, fifty percent of the tax is credited by Country X to an account of the development bank. Country X requires the development bank to transfer the amount credited to the borrowing companies.

(ii) The amount successively credited to the account of the development bank and then to the account of the borrowing companies is determined by reference to the amount of the tax and the tax base. Since the amount credited to the borrowing companies is a subsidy provided to a party (the borrowing companies) to a related transaction and is based on the amount of tax and the tax base, it is not a creditable tax (without regard to whether the U.S. bank derived any benefit from the subsidy).

Example (3). (i) A U.S. bank lends dollars to a Country X borrower. Country X imposes a withholding tax on the lender with respect to the interest. The tax is to be paid in Country X currency, although the interest is payable in dollars. Country X has a dual exchange rate system, comprised of a controlled official exchange rate and a free exchange rate. Priority transactions such as exports of merchandise, imports of merchandise, and payments of principal and interest on foreign currency loans payable abroad to foreign lenders are governed by the official exchange rate which yields more dollars per unit of Country X currency than the free exchange rate. The Country X borrower remits the net amount of dollar interest due to the U.S. bank (interest due less withholding tax), pays the tax withheld in Country X currency to the Country X government, and provides to the U.S. bank a receipt for payment of the Country X taxes.

(ii) The use of the official exchange rate by the U.S. bank to determine foreign taxes with respect to interest is not a subsidy described in paragraph (e)(3)(i)(B) of this section. The official exchange rate is not targeted to or tied to transactions that give rise to a claim for a foreign tax credit. The use of the official exchange rate applies to the interest paid and to the principal paid. Any benefit derived by the U.S. bank through the use of the official exchange rate is merely coincidental to the broad structure and operation of the official exchange rate.

(v) *Effective Date.* This paragraph (e)(3) shall apply to foreign taxes paid or accrued in taxable years beginning after December 31, 1986. For rules for taxable years beginning before January 1, 1987, see 26 C.F.R. §1.901-2(e)(3) (Revised as of April 1, 1987).

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on November 14, 1988, 8:45 a.m., and published in the issue of the Federal Register for November 15, 1988, 53 F.R. 45942)

Notice of Proposed Rulemaking

Requirements Relating to Certain Exchanges Involving a Foreign Corporation

INTL-988-86

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: This document provides proposed Income Tax Regulations concerning requirements relating to certain exchanges involving a foreign corporation. In * * * [T.D. 8243, page 108, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to these matters. The portions of the text of those temporary regulations that amend Part 7 of 26 CFR also serve as the comment document for this proposed rulemaking. When the regulations are made final, Part 7 will be amended by removing the temporary regulations and Part 1 will be amended by adding the final regulations to that part.

DATES: Written comments and requests for a public hearing must be delivered or mailed before May 5, 1989.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:CORP: T:R (INTL-988-86), Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary regulations published in * * * [T.D. 8243, page 108, this Bulletin], amend, in part, §§7.367(b)-2(d) and (f), 7.367(b)-7(c)(1) and 7.367(b)-9(b) of 26 CFR Parts 1 and 7. The final regulations that are proposed to be based on the temporary regulations would amend 26 CFR Parts 1 and 7. For the text of the temporary regulations, see paragraphs 2 through 4 of Treasury decision [T.D. 8243] published in * * * [page 108, this Bulletin].

Temporary regulations under §§7.367-(b)-2, 7.367(b)-7 and 7.367(b)-9 with cross-reference notice were originally published on December 20, 1977 (42 FR 65152, 65204) [1977-2 C.B. 112]. This document, therefore, also serves to amend that notice of proposed rulemaking.

SPECIAL ANALYSES

It has been determined that these proposed rules are not major rules as defined in Executive Order 12291, and a Regulatory Impact Analysis is therefore not required. Although this document is a notice of proposed rulemaking which solicits public comment, it has been concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations as final, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

LIST OF SUBJECTS IN 26 CFR §§1.301-1 through 1.385-6

Income taxes, Corporations, Corporate distributions, Corporate adjustments, Reorganizations.

LIST OF SUBJECTS IN 26 CFR Part 7

Income taxes, Tax Reform Act of 1976.

Proposal of regulations

Paragraphs 2 through 4 of the temporary regulations T.D. 8243 published in * * * [page 108, this Bulletin] are hereby also proposed as final regulations under section 367(b) of the Internal Revenue Code.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on March 3, 1989, 11:08 a.m., and published in the issue of the Federal Register for March 6, 1989, 54 F.R. 9236)

Notice of Proposed Rulemaking

Extension of Time to File for Taxpayers Outside the United States and Puerto Rico

INTL-461-87

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: This document provides proposed Income Tax Regulations relating to the extension of time to file federal income tax returns for United States citizens and U.S. residents who are outside of the United States and Puerto Rico. In * * * [T.D. 8241, page 297, this Bulletin] the Internal Revenue Service is issuing temporary regulations relating to these matters. The text of those temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed before April 24, 1989. These rules are proposed to apply to federal income tax returns due on or after April 15, 1988.

ADDRESS: Send comments and requests for a public hearing to Commissioner of Internal Revenue, Attention: CC:LR:T (INTL-461-87), Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

PAPERWORK REDUCTION ACT

The temporary regulations contain no new reporting or recordkeeping requirements but merely move existing requirements to the new temporary regulations section and, thus, are not subject to the Paperwork Reduction Act (44 U.S.C. 3501), as amended.

BACKGROUND

The temporary regulations published in the Rules and Regulations portion of * * * T.D. 8241 contain amendments to the Income Tax Regulations (26 CFR Part 1) under section 6081 of the Internal Revenue Code. For the text of the temporary regulations, see T.D. 8241 published in * * * [page 297, this Bulletin].

EXECUTIVE ORDER 12991 AND REGULATORY FLEXIBILITY ACT

The Commissioner of Internal Revenue has determined that these proposed rules are not major rules as defined in Executive Order 12991 and that a Regulatory Impact Analysis is therefore not required. Although this document is a notice of a proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

LIST OF SUBJECTS IN 26 CFR §§1.6001-1 through 1.6109-2

Income taxes, Administration and procedure, Filing requirements.

Proposed Amendments to the regulations

The temporary regulations, T.D. 8241, published in * * * [page 297, this Bulletin] are hereby also proposed as final regulations under section 6081 of the Internal Revenue Code of 1954.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on February 22, 1989, 8:45 a.m., and published in the issue of the Federal Register for February 23, 1989, 54 F.R. 7783)

Notice of Proposed Rulemaking

Allocation and Apportionment of Deduction for State Income Taxes

INTL-41-88

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8236, page 228, this Bulletin] the Internal Revenue Service is issuing temporary Income Tax Regulations relating to the allocation and apportionment of deductions for state income taxes in computing taxable income from sources inside and outside the United States. The text of those temporary regulations also serves as the text for this Notice of Proposed Rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by February 10, 1989. This regulation is proposed to be effective on the date that final regulations are published in the FEDERAL REGISTER.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:CORP:TR (INTL-41-88), Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary Income Tax Regulations in * * * [T.D. 8236, page 228, this Bulletin] supplement the Income Tax Regulations (26 CFR Part 1) under sections 861(b), 862(b), and 863(a) of the Internal Revenue Code. These temporary Income Tax Regulations add paragraph (e)(6) and examples (25) through (29) of paragraph (g) of §1.861-8T. Paragraph (e)(6)(i) of §1.861-8T as promulgated herein restates the previously promulgated general principle that state, local and foreign income, war profits and excess profits taxes are definitely related and allocable to the gross income with respect to which such taxes are imposed. Paragraph (e)(ii) of §1.861-8T refers to five examples of the application of the principle in paragraph (e)(6)(i) and provides that methods other than those illustrated in the examples may be more appropriate in facts that differ from those in the examples. Paragraph (e)(6)(iii) of §1.861-8T provides taxpayers with the option to apply the provisions of paragraph (e)(ii) of §1.861-8T and examples (25) through (29) of paragraph (g) of §1.861-8T to deductions for state tax incurred in taxable years beginning before January 1, 1988, which is the effective date of the temporary Income Tax Regulations. Paragraph (g) of §1.861-8T restates and supplements the language preceding the examples in §1.861-8(g), and adds examples (25) through (29) to provide five specific examples of the allocation and apportionment of the deduction for state income taxes.

SPECIAL ANALYSES

It has been determined that this proposed rule is not a major legislative regulation subject to Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking which solicits public comment, it has been concluded that the proposed regulations are interpretative and that the notice and public comment procedural requirements of 5 U.S.C. §553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting as final regulations these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is to be held, notice of the time and place will be published in the FEDERAL REGISTER.

LIST OF SUBJECTS IN 26 CFR §§1.861-1 THROUGH 1.997-1

Income taxes, Aliens, Exports, DISC, Foreign investment in United States, Foreign tax credit, FSC, Sources of income, United States investments abroad.

Proposal of regulations.

The temporary Income Tax Regulations, * * * [T.D. 8236, page 228, this Bulletin] * * * are hereby also proposed as final regulations under sections 861(b), 862(b), and 863(a) of the Internal Revenue Code.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 7, 1988, 3:39p.m., and published in the issue of the Federal Register for December 12, 1988, 53 F.R. 49893)

Notice of Proposed Rulemaking

Election, Revocation, Termination, and Tax Effect of Subchapter S Status

PS-260-82

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the election, revocation, termination, and corporate effect of electing subchapter S treatment as a result of the changes to the tax law made by the Subchapter S Revision Act of 1982, as amended by the Tax Reform Act of 1984, the Tax Reform Act of 1986, and the Technical and Miscellaneous Revenue Act of 1988. The regulations would provide guidance to persons seeking to elect, revoke, or terminate subchapter S status.

DATES: Written comments and requests for a public hearing must be mailed or delivered by February 27, 1989. The regulations are proposed to be effective for taxable years beginning after December 31, 1982, except for §1.1362-3(d) which is proposed to be effective for taxable years beginning after December 31, 1981, and except for that portion of §1.1362-1(c) relating to taxable years of 2½ months or less which is proposed to be effective for elections made after October 19, 1982. The portion of §1.1362-3(d)(5)(ii) relating to options or commodities dealers is proposed to be effective and shall apply to positions established after July 18, 1984, in taxable years ending after such date.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (PS-260-82), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collections of information should be sent to the Office of Information and Regulatory Affairs, Attention: Desk Officer for the Internal Revenue Service, Office of Management and Budget, Washington, D.C. 20503, with copies to the Internal Revenue Service at the address previously specified.

The collections of information in this regulation are §§1.1362-1, 1.1362-2, 1.1362-3, 1.1362-4, 1.1362-5 and 1.1362-6. This information is required by the Internal Revenue Service to effectuate the statutory provisions of section 1362. This information will be used to determine the eligibility of corporations and their shareholders to receive the special benefits of the Code under section 1362. The likely respondents are individuals or households, farms, business or other for-profit institutions, and small businesses or organizations.

Estimated total annual reporting and recordkeeping burden: 80,000 hours.

Estimated number of respondents: 80,000.

Estimated average annual burden per respondent: 1 hour.

Estimated annual frequency of responses: On occasion.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) with respect to the election, termination, and corporate effect of subchapter S status. These amendments are necessary to implement sections 1362 and 1363 of the Internal Revenue Code of 1986 as added by section 2 of the Subchapter S Revision Act of 1982 (98 Stat. 1669), as amended by sections 102 and 721 of the Tax Reform Act of 1984 (98 Stat. 623 and 966), sections 511, 632, and 701 of the Tax Reform Act of 1986 (100 Stat. 2244, 2275, and 2320), and sections 1006(f)-(6)-(7) and 1007(g)(9) of the Technical and Miscellaneous Revenue Act Revenue Act of 1988 (Pub. L. No. 100-647).

Explanation of provisions

Section 1362 provides that a corporation may file its subchapter S election at any time before the 16th day of the third month of its taxable year, at any time before the 16th day of the third month following the first day of the taxable year if the taxable year is 2½ months or less, or at any time during the preceding taxable year. Proposed §1.1362-1 provides rules with respect to the time and manner of making a subchapter S election. The proposed regulations define the term "month" to mean the period commencing with the beginning of the first day of the taxable year and ending with the close of the day preceding the numerically corresponding day of the succeeding taxable month.

Proposed §1.1362-2 contains the rules relating to the requirement that shareholders must consent to the subchapter S election. Provisions for an extension of time to file the required consents are provided in the proposed regulations.

Proposed §1.1362.3 provides rules with respect to the termination of a corporation's subchapter S election. An election may be revoked provided that shareholders holding more than 50 percent of the issued and outstanding shares of stock, including non-voting stock, consent to the revocation. A revocation made on or before the 15th day of the third month of the taxable year shall be effective on the first day of the taxable year unless the revocation states a prospective date. A revocation made after the 15th day of the third month of the taxable year shall be effective for the following taxable year unless the revocation states some other prospective date. The proposed regulations provide that a revocation, once made, may be rescinded prior to its effective date.

A corporation's election is terminated by its ceasing to be a small business corporation as described in proposed §1.1362-3(c). A corporation's election also is terminated whenever the corporation has subchapter C earnings and profits at the close of each of three consecutive taxable years, and has gross receipts for each of the three taxable years more than 25 percent of which are passive investment income as provided in §1.1362-3(d).

Passive investment income generally includes gross receipts derived from royalties, rents, dividends, interest, annuities, and sales or exchanges of stock or securities. This definition was not amended by the Subchapter S Revision Act of 1982 ("The 1982 Act"). However, the passive investment income limitation now only applies to S corporations with C corporation earnings and profits. The legislative history of this provision indicates that the purpose for retaining the rule is "to prevent the conversion of a regular corporation's operating company into a holding company whose income is not subject to a corporate level tax, without the imposition of any shareholder tax on accumulated corporate earnings as would occur if the corporation was liquidated." H.R. Rept. No. 826, 97th Cong., 2d Sess. 5 (1982). Consistent with this purpose, the proposed regulations provide that royalties do not include royalties that would not be personal holding company income under section 543(a) if the corporation remained a C corporation. Thus, proposed §1.1362-3(d)(5)(iii) provides that copyright royalties that are excluded from personal holding company income under section 543(a)(4), mineral, oil, or gas royalties excluded from personal holding company income under section 543(a)(3), and active computer software royalties (as defined in section 543(d), but determined without regard to section 543(d)(5)) are not treated as royalties for purposes of the passive investment income limitation. The Service invites public comment on the appropriate scope of the passive investment income limitation, including the use of these personal holding company rules to distinguish passive investment income from other types of income. In particular, the Service invites public comment on alternative definitions of passive investment income (*e.g.*, a definition that would distinguish between passive investment income and income earned in the active conduct of a trade or business.)

Proposed §1.1362-4 provides rules relating to the treatment of an "S termination year." Generally, section 1362(e) requires the pro rata allocation of items of income, loss, deduction, and credit for the taxable year to each of the short S and C years. Exceptions from the pro rata allocation method apply where (1) the corporation elects to have items assigned to each short year under its normal tax accounting method, (2) an election is made under section 338 with respect to the corporation to treat the purchase of its stock as an asset purchase, or (3) there is a sale or exchange of 50 percent or more of the stock of the S corporation during the S termination year. In such cases where the pro rata rules do not apply, the corporation must allocate items of income, gain, loss, deduction, and credit to the short S and short C years on the basis of normal tax accounting rules.

Section 1362(f) provides that the Secretary may waive certain inadvertent terminations of subchapter S elections. Proposed §1.1362-5 contains rules relating to the determination of inadvertence as well as the procedures for requesting a waiver of the terminating event.

Proposed §1.1363-1 sets forth rules relating to the general effect on the corporation that elects to receive subchapter S treatment.

Special Analyses

The Commissioner of Internal Revenue has determined that this proposed regulation is not a major regulation subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

The Commissioner of Internal Revenue has concluded that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, this proposed regulation is a regulation not subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who also submits written comments. If a public hearing is held, notice of time and place will be published in the Federal Register.

* * * * * *

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR, Chapter 1, Part 1 are as follows:

PART I—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1986

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 1.1362-0 through 1.1362-6, and 1.1363-1 are also issued under 26 U.S.C. 1377.

Par. 2. There are added immediately after §1.1361-0A the following new §§1.1362-0, 1.1362-1, 1.1362-2, 1.1362-3, 1.1362-4, 1.1362-5, 1.1362-6, and 1.1363-1:

§1.1362-0 Election, revocation, and termination of S corporation.

In order to facilitate use of §§1.1362-1 through 1.1362-6, this section lists the paragraphs, subparagraphs, and subdivisions contained in those sections.

§1.1362-1 Election to be an S corporation.

(a) In general.

(b) Manner of making election.

(c) Time of making election.

(1) In general.

(2) Elections made during the first 2½ months treated as made for the following taxable year.

(3) Definition of "month" and the beginning of the taxable year.

(4) Cross reference.

(d) Years for which election is effective.

(e) Examples.

§1.1362-2 Shareholders' consent.

(a) In general.

(b) Persons required to consent.

(1) In general.

(2) Special rules.

(c) Extension of time for filing consents.

§1.1362-3 Termination of election.

(a) In general.

(b) Revocation.

(1) In general.

(2) When effective.

(3) Revocations specifying a prospective revocation date.

(4) Effect on taxable year of corporation.

(5) Rescission of a revocation.

(6) Creation of an S termination year.

(7) Examples.

(c) Corporation ceasing to be a small business corporation.

(1) In general.

(2) When effective.

(3) Effect on taxable year of the corporation.

(4) Creation of an S termination year.

(5) Examples.

(d) Excess passive investment income.

(1) In general.

(2) When effective.

(3) Subchapter C earnings and profits.

(4) Gross receipts.

(i) In general.

(ii) Sales of capital assets, stock and securities.

(A) Sales of capital assets.

(B) Sales of stock or securities.

(iii) Other exclusions from gross receipts.

(iv) Examples.

(5) Passive investment income.

(i) In general.

(ii) Special rule for options or commodities dealer.

(A) Exclusion of certain capital gains.

(B) Definitions.

(*1*) Options dealer.

(*2*) Commodities dealer.

(*3*) Section 1256 contract.

(C) Effective date.

(iii) Royalties.

(A) In general.

(B) Copyright royalties.

(C) Mineral, oil, or gas royalties.

(D) Active business computer software royalties

(iv) Rents.

(v) Dividends.

(vi) Interest.

(vii) Annuities.

(viii) Gross receipts from the sale of stock or securities.

(ix) Treatment of certain lending or finance companies.

(6) Example.

§1.1362-4 Treatment of S termination year.

(a) In general.

(b) Pro rata allocation.

(c) Income, loss, deduction, and credit items assigned to each short taxable year under normal tax accounting rules.

(1) In general.

(2) Election.

(3) Pro rata allocation not to apply to certain items if purchase of stock treated as an asset purchase under section 338.

(i) In general.

(ii) Special rule.

(4) Pro rata allocation not to apply if 50 percent change in ownership during S termination year.

(i) In general.

(ii) Newly owned stock.

(iii) Stock acquired other than by sale or exchange.

(A) In general.

(B) Qualified transferor.

(iv) Special rule.

(v) Examples.

(5) Special rule for S corporation that is a partner in a partnership.

(d) Tax for the C short year.

(1) In general.

(2) Minimum tax.

(3) Example.

(e) Other special rules.

(1) Short year treated as taxable year.

(2) Year for carryover purposes.

(3) Due date for S year return.

(4) Year in which income from S short year is includible.

§1.1362-5 Inadvertent terminations.

(a) In general.

(b) Inadvertent termination.

(c) Corporation's request for determination of an inadvertent termination.

(d) Correction of terminating event.

(e) Consent to Commissioner's requirement.

(f) Adjustments.

(g) Status of corporation.

§1.1362-6 Election after termination.

(a) In general.

(b) Successor corporation.

(c) Special rule for certain terminations.

§1.1362-1 Election to be an S corporation.

(a) *In general.* Except as provided in §1.1362-6, for taxable years beginning after December 31, 1982 (and for taxable years beginning before January 1, 1983, with respect to which an election was made after October 19, 1982), a small business corporation (other than a qualified casualty insurance electing small business corporation described in section 6(c)(2) of the Subchapter S Revision Act of 1982, or a qualified oil corporation described in section 6 (c)(3) of that Act) may elect to be an S corporation under section 1362. For elections made under section 1372(a) (as in effect before the enactment of the Subchapter S Revision Act of 1982) see section 1379.

(b) *Manner of making election.* To make the election to be an S corporation, a small business corporation shall file Form 2553, containing all the information required by that form. The election form shall be signed by any person who is authorized to sign the return required to be filed under section 6037 and shall be filed with the service center designated in the instructions applicable to Form 2553. The election is not valid unless each shareholder who is required by §1.1362-2(b) to consent to the election of the corporation makes the consent in the manner provided in §1.1362-2(a).

(c) *Time of making election*—(1) *In general.* The election described in paragraph (a) of this section may be made by a small business corporation at any time during the taxable year that immediately precedes the taxable year for which the election is to be effective, or during the taxable year for which the election is to be effective provided that such election is made before the 16th day of the third month of such year.

If a corporation makes an election for a taxable year that meets all the requirements provided in this section, but the election is made at any time during the period beginning after the 15th day of the third month of such taxable year and ending before the 16th day of the third month of the following taxable year, the election is treated as being made for that following taxable year provided that the corporation meets all the requirements provided in section 1361(b) at the time the election is made. For taxable years of $2\frac{1}{2}$ months or less, an election made after October 19, 1982, and before the 16th day of the third month after the first day of the taxable year shall be treated as made during such year.

(2) *Elections made during the first $2\frac{1}{2}$ months treated as made for the following taxable year.* If a corporation makes the election described in paragraph (a) of this section during the taxable year for which the election is to be effective and such election is made before the 16th day of the third month of such year but—

(i) The corporation is not a small business corporation at any time during the portion of such taxable year which occurs before the date the election is made, or

(ii) Any person who held stock in the corporation at any time during the portion of such taxable year which occurs before the time the election is made, and who does not hold stock at the time the election is made, does not consent to the election,

the election is treated as made for the following taxable year provided that the corporation meets the requirements of section 1361(b) at the time the election is made.

(3) *Definition of "month" and beginning of the taxable year.* For purposes of this paragraph (c), the term "month" means a period commencing on the same numerical day of any calendar month as the day of the calendar month on which the taxable year began and ending with the close of the day preceding the numerically corresponding day of the succeeding calendar month or, if there is no such corresponding day, with the close of the last day of such succeeding calendar month. In addition, for purposes of this paragraph (c), the taxable year of a new corporation begins on the date that the corporation has shareholders, acquires assets, or begins doing business, whichever is the first to occur.

(4) *Cross-reference.* For rules relating to when an election is treated as made, see section 7502 and the regulations thereunder. For rules relating to the time for the making of the election where the last day prescribed for making the election falls on Saturday, Sunday, or a legal holiday, see section 7503 and the regulations thereunder.

(d) *Years for which election is effective.* An election under section 1362 is effective for the entire taxable year of the corporation for which it is made and for all succeeding taxable years of the corporation, unless it is terminated with respect to any taxable year. Thus, the election has a continuing effect and need not be renewed annually, although annual returns of information must be filed under section 6037.

(e) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A calendar year small business corporation begins its first taxable year on January 7, 1988. To be an S corporation beginning with its first taxable year, the corporation must make the election set forth in this section during the period that begins January 7, 1988, and ends before March 22, 1988. An election made earlier than January 7, 1988, will not be valid.

Example (2). Assume the same facts as in example (1), except that the corporation begins its first taxable year on November 8, 1988. To be an S corporation beginning with its first taxable year, the corporation must make the election set forth in this section during the period that begins November 8, 1988, and ends before January 23, 1989.

Example (3). On January 1, 1988, the first day of its taxable year, a subchapter C corporation had 15 shareholders. On January 30, 1988, two of the C corporation's shareholders, A and B, both individuals, sold their shares in the corporation to P, Q, and R, all individuals. On March 1, 1988, the corporation filed its election to be an S corporation for the 1988 taxable year. The election will be effective (assuming the other requirements of section 1361(b) are met) provided that all of the shareholders as of March 1, 1988, as well as former shareholders A and B, consent to the election.

Example (4). On January 1, 1988, two individuals and a partnership own all of the stock of a calendar year subchapter C corporation. On January 31, 1988, the partnership dissolved and distributed its shares in the corporation to its five partners, all individuals. On February 28, 1988, the seven shareholders of the corporation consented to the corporation's election of subchapter S status. The corporation files a properly completed Form 2553 on March 2, 1988. The corporation is not eligible to be a subchapter S corporation for the 1988 taxable year because during the period of the taxable year prior to the election it had an ineligible shareholder. The election is treated as made for the corporation's 1989 taxable year.

Example (5). On January 1, 1988, three individuals own all of the stock of a calendar year subchapter C corporation. On April 15, 1988, the corporation, in accordance with paragraph (b) of this section, files a properly completed Form 2553. The corporation anticipates that the election will be effective beginning January 1, 1989, the first day of the succeeding taxable year. On October 1, 1988, the three shareholders collectively sell 75% of their shares in the corporation to another individual. On January 1, 1989, the corporation has as shareholders the three original individuals as well as the new shareholder. Because the election was valid and binding when made, it is not necessary for the new shareholder to consent to the election. The corporation's subchapter S status will begin on January 1, 1989.

§1.1362-2 Shareholders' consent.

(a) *In general.* The consent of a shareholder to an election by a small business corporation must be made either on Form 2553 or on a separate statement signed by the shareholder in which the shareholder consents to the election of the corporation. The separate statement must set forth the name, address, and taxpayer identification number of the corporation, the name, address, and taxpayer identification number of the shareholder, the number of shares of stock owned by the shareholder, the date (or dates) on which the stock was acquired and the date on which the shareholder's taxable year ends. When a shareholder's consent is made on a separate statement, that statement must be attached to the election of the corporation. The shareholder's consent is binding and may not be withdrawn after a valid election is made by the corporation. Except as provided in paragraph (c) of this section, the election of the corporation is not valid if any consent required by paragraph (b) of this section is not filed in accordance with the rules contained in this paragraph (a).

(b) *Persons required to consent*—(1) *In general.* Each person who is a shareholder (including any person who is treated as a shareholder under section 1361(c)(2)(B)) at the time the election is made must consent to the election of the corporation. If the election is made before the 16th day of the third month of the taxable year and is intended to be effective for that year, each person who was a shareholder (including any person who was treated as a shareholder under section 1361(c)(2)(B)) at any time during the portion of that year which occurs before the time the election is made, and who is not a shareholder at the time the election is made, must also consent to the election. If the election is made to be effective for the following taxable year, no consent need be filed by any shareholder who is not a shareholder on the date of the election. For purposes of this paragraph (b), any person who is considered to be a shareholder for state law purposes solely by virtue of his or her status as an incorporator is not treated as a shareholder.

(2) *Special rules.* When stock of the corporation is owned by husband and

wife as community property (or the income from which is community property), or is owned by tenants in common, joint tenants, or tenants by the entirety, each person having a community interest in such stock and each tenant in common, joint tenant and tenant by the entirety must consent to the election. The consent of a minor must be made by the minor or by the legal representative of the minor (or by a natural or an adoptive parent of the minor if no legal representative has been appointed). The consent of an estate must be made by an executor or administrator thereof. In the case of a trust described in section 1361(c)(2)(A) (including a trust treated under section 1361(d)(1)(A) as a trust described in section 1361(c)(2)(A)(i)), only the person treated as the shareholder for purposes of section 1361(b)(1) must consent to the election.

(c) *Extension of time for filing consents.* An election that is timely filed for any taxable year, and that would be valid except for the failure of any shareholder to file a timely consent, is not invalid for such reason if—

(1) It is shown to the satisfaction of the district director or director of the service center with which the corporation files its income tax return that there was reasonable cause for the failure to file such consent and that the interests of the Government will not be jeopardized by treating such election as valid,

(2) Such shareholder files a proper consent to the election within such extended period of time as may be granted by the Internal Revenue Service, and—

(3) New consents are filed within such extended period of time as may be granted by the Internal Revenue Service by each person who was required to consent to the corporation's election pursuant to paragraph (b) of this section.

§1.1362-3 Termination of election.

(a) *In general.* An election in effect under section 1362(a) may be terminated for any year in any one of three ways described in section 1362(d)(1) through (3) and paragraphs (b) through (d) of this section.

(b) *Revocation*—(1) *In general.* An election made under section 1362(a) may be revoked by the corporation for any taxable year of the corporation, including the first taxable year for which the election is effective. A revocation may be made only with the consent of shareholders who, at the time the revocation is made, hold more than one-half of the number of issued and outstanding shares of stock (including non-voting stock) of the corporation. Such revocation shall be made by the corporation by filing a statement that the corporation revokes the election made under section 1362(a), which statement shall state the section 1362(a), which statement shall state the number of shares of stock (including non-voting stock) that are issued and outstanding at the time the revocation is made. For revocations which specify a prospective revocation date (as defined in paragraph (b)(3) of this section), the statement shall indicate the date on which the revocation is intended to be effective. The statement shall be signed by any person authorized to sign the return required to be filed under section 6037 and shall be filed with the service center with which the election was properly filed. In addition, there shall be attached to the statement of revocation a statement of consent, stating the name, address, and taxpayer identification number of each shareholder who consents to the revocation, and the number of issued and outstanding shares of stock (including non-voting stock) held by each shareholder (whether consenting or not) at the time of the revocation. The statement shall be signed by each shareholder who consents to the revocation. For purposes of this paragraph (b), a revocation is made once it is filed in accordance with section 7502 and the regulations thereunder with the service center with which the election was properly filed.

(2) *When effective.* Except as provided in paragraph (b)(3) of this section, a revocation made during the taxable year and before the 16th day of the third month of such taxable year shall be effective on the first day of such taxable year, and a revocation made after the 15th day of the third month of the taxable year shall be effective for the following year. Except as provided in paragraph (b)(3) of this section, if a corporation makes an election to be an S corporation which is to be effective beginning with the next taxable year (see §1.1362-1) and revokes such election prior to the first day of such next taxable year, such corporation will be deemed to have revoked its election on the first day of such next taxable year.

(3) *Revocations specifying a prospective revocation date.* In the case of a corporation that specifies a date for revocation which is on or after the day on which the revocation is made, such revocation shall become effective on and after the date so specified. The preceding sentence shall apply only if the prospective revocation date is expressed in terms of a stated day, month, and year rather than in terms of particular event.

(4) *Effect on taxable year of corporation.* In the case of a corporation that revokes its election to be an S corporation effective on the 1st day of the first taxable year for which such election was effective, any statement on the Form 2553 regarding a change in the taxable year of the corporation filed by such corporation with respect to such election will have no effect on such corporation's taxable year.

(5) *Rescission of a revocation.* A revocation under paragraph (b)(2) or (3) of this section may be rescinded by a corporation at any time before the revocation becomes effective. A rescission may be made only with the consent of each person who consented to the revocation and by each person who became a shareholder of the corporation within the period beginning on the first day after the date the revocation was made and ending on the date on which the rescission is made. Such rescission shall be made by the corporation by filing a statement that the corporation rescinds the revocation made under section 1362(d)(1). The statement shall contain the name, address, and taxpayer identification number of the corporation and shall be signed by any person authorized to sign the return required to be filed under section 6037. The statement shall be filed with the service center with which the revocation was properly filed. In addition, there shall be attached to the statement of rescission a statement of consent stating the name, address, and taxpayer identification number of each shareholder who consents to the rescission. The statement shall be signed by each shareholder who consents to the rescission. For purpose of this paragraph (b)(5), a rescission is made once it is filed in accordance with section 7502 and the regulations thereunder with the service center with which the revocation was properly filed.

(6) *Creation of an S termination year.* A corporation that specifies a prospective date for revocation that is other than the first day of the taxable year will create an S termination year and will be subject to the rules in section 1362(e) and §1.1362-4.

(7) *Examples.* The principles of this paragraph (b) may be illustrated by the following examples:

Example (1). A calendar year S corporation has issued and outstanding 40,000 shares of class A voting common stock and 20,000 shares of class B non-voting common stock. The corporation wishes to revoke its election of subchapter S status. Shareholders owning 11,000 shades of class A stock sign revocation consents and 29,000 do not. Shareholders owning 20,000 shares of class B stock sign revocation consents. The corporation has obtained the required shareholder consent to revoke its subchapter S election because shareholders owning more thar one-half of the total number of issued and outstanding shares of stock of the corporation consented to the revocation.

Example (2). In June 1988, a calendar year S corporation determines that it will revoke its subchapter S election effective August 1, 1988. To do so it must file its revocation statement with consents attached on or before August 1, 1988, indicating that the revocation is intended to be effective August 1, 1988.

Example (3). Corporation M, a subchapter C corporation that uses a June 30 taxable year, elects to be an S corporation for its taxable year beginning on July 1, 1988, by filing a properly completed Form 2553 on July 15, 1988. On the Form 2553, M states that it will change its taxable year to a calendar year. On September 15, 1988, M properly revokes its S election effective July 1, 1988. Because M revoked its election to be an S corporation effective on the first day for which its election to be an S corporation was effective, the statement on the Form 2553 regarding the change in M's taxable year will have no effect on M's taxable year. Therefore, M will retain a June 30 taxable year for its taxable year beginning July 1, 1988.

(c) *Corporation ceasing to be a small business corporation*—(1) *In general.* An election under section 1362(a) shall be terminated if at any time on or after the first day of the first taxable year for which the election is effective, the corporation ceases to be a small business corporation as defined in section 1361(b). Thus, for example, the election is terminated if a 36th person, a nonresident alien, an ineligible trust, a partnership, or a corporation becomes a shareholder. In the event of a termination under this paragraph (c)(1), the corporation shall immediately notify the service center with which the election under section 1362(a) was filed. Such notification shall set forth the cause of the termination and the date thereof. In addition, if the termination was caused by the transfer of stock to a 36th shareholder, to a nonresident alien, or to an ineligible trust, partnership, or corporation, the notification shall specify the number of shares transferred to such person, the name of such person (or in the case of a trust, the names of the trustee and beneficiary), and the name of the shareholder who transferred such stock to such person. If the termination was caused by the issuance of a second class of stock, the notification shall indicate the number of shares of such new class issued and shall describe the differentiating characteristics of the new class of stock.

(2) *When effective.* If an election terminates because of a specific event that causes the corporation to fail to meet the definition of a small business corporation, such termination is effective as of the date on which such event occurred. If a corporation makes an election to be an S corporation which is to be effective beginning with the next taxable year (see §1.1362-1), and fails to meet the definition of a small business corporation on the first day of such taxable year, its election will be treated as having terminated on such first day. For purposes of the preceding sentence, if a corporation meets the definition of a small business corporation on the first day of its taxable year for which the election is effective, there is no termination of its election as a result of the failure to meet such definition at any time during the period beginning after its election and before the first day of such year.

(3) *Effect on taxable year of the corporation.* In the case of a corporation that fails to meet the definition of a small business corporation on the first day of the first taxable year for which its election to be an S corporation was effective, any statement on the Form 2553 filed by such corporation with respect to such election regarding a change in such corporation's taxable year will have no effect on the taxable year of the corporation.

(4) *Creation of an S termination year.* A corporation that ceases to be a small business corporation on a date other than the first day of the taxable year will create an S termination year and will be subject to the rules in section 1362(e) and §1.1362-4.

(5) *Examples.* The principles of this paragraph (c) may be illustrated by the following examples:

Example (1). On January 1, 1988, the first day of its taxable year, a subchapter C corporation had three individuals as shareholders. On April 15, 1988, the corporation, in accordance with §1.1362-1A, filed a properly completed Form 2553. The corporation anticipated that the election would become effective January 1, 1989, the first day of the succeeding taxable year. On October 1, 1988, one of the shareholders sold 40 percent of his shares in the corporation to a partnership. On January 1, 1989, the corporation had as its shareholders, the original three individuals as well as the partnership. The corporation fails to meet the definition of a small business corporation on January 1, 1989, and its election will be treated as having terminated on that date. Because the corporation ceases to be a small business corporation on the first day of the taxable year an S termination year is not created.

Example (2). On July 15, 1988, Corporation M, a subchapter C corporation that uses a June 30 taxable year, files a properly completed Form 2553 to be an S corporation for its taxable year beginning on July 1, 1989. On the Form 2553, M states that it will use a calendar year as its taxable year. On June 15, 1989, one of the shareholders of M sells his entire interest in the corporation to a partnership. M fails to meet the definition of a small business corporation on July 1, 1989, and its election will be treated as having terminated on that date. Because M failed to meet the definition of a small business corporation on the first day of the first taxable year for which its election to be an S corporation was effective, the statement on the Form 2553 regarding the change in M's taxable year will have no effect on M's taxable year. Therefore, M will retain a June 30 taxable year for its taxable year beginning on July 1, 1989.

(d) *Excess passive investment income*—(1) *In general.* A corporation's election under section 1362(a) shall terminate if such corporation has subchapter C earnings and profits at the close of each of three consecutive taxable years and has gross receipts more than 25 percent of which for each of such taxable years are derived from passive investment income (as defined in paragraph (d)(5) of this section). For purposes of this paragraph (d), only taxable years beginning after December 31, 1981, for which the corporation was an S corporation (an electing small business corporation for taxable years beginning before January 1, 1983) will be taken into account in the determination of the consecutive three year period. For the tax imposed on the excess passive investment income of an S corporation with subchapter C earnings and profits, see section 1375 and the regulations thereunder.

(2) *When effective.* A termination under this paragraph (d) shall be effective on and after the first day of the first taxable year beginning after the third consecutive year in which the S corporation with subchapter C earning and profits had passive investment income in excess of 25 percent of gross receipts.

(3) *Subchapter C earnings and profits.* For purposes of this paragraph (d), the "subchapter C earnings and profits" of any corporation are its earnings and profits (within the meaning of section 312 and the regulations thereunder) for any period during which it was not an S corporation (or an electing small business corporation under prior law). The subchapter C earnings and profits of an S corporation shall be modified as required by section 1371(c).

(4) *Gross receipts*—(i) *In general.* The term "gross receipts" as used in section 1362(d)(3) is not synonymous with "gross income". The term "gross receipts" means the total amount received or accrued under the method of

accounting used by the corporation in computing its taxable income. Thus, the total amount of receipts is not reduced by returns and allowances, cost of goods sold, or deductions. For example, gross receipts will include the total amount received or accrued during the corporation's taxable year from the sale or exchange (including a sale or exchange to which section 337, as it existed prior to its amendment by the Tax Reform Act of 1986, applies) of any kind of property (except capital assets, stock, and securities), from investments, and for services rendered by the corporation.

(ii) *Sales of capital assets, stock and securities*—(A) *Sales of capital assets.* Gross receipts from the sales or exchanges of capital assets (as defined in section 1221 and the regulations thereunder), other than stock and securities, shall be taken into account only to the extent of the capital gain net income therefrom. For purposes of this paragraph (d), the term "capital gain net income" has the same meaning given such term in section 1222 and the regulations thereunder.

(B) *Sales of stock or securities.* In applying section 1362(d)(3), gross receipts from the sales or exchanges of stock or securities shall be taken into account only to the extent of gains therefrom. Thus, the gross receipts from the sale of a particular share of stock will be the excess (if any) of the amount realized over the adjusted basis of such share. Losses on sales or exchanges of stock or securities do not offset gains on the sales or exchanges of other stock or securities for purposes of computing gross receipts from such sales or exchanges. Gross receipts from the sale or exchange of stock and securities include gains received from such sales or exchanges by a corporation even though such corporation is a regular dealer in stocks and securities. However, gross receipts from the sale or exchanges of stock or securities does not include certain amounts which are treated under section 331 (relating to corporate liquidations) as payments in exchange for stock owned by the S corporation, if, on the date of the first distribution with respect to such liquidation, the S corporation owned more than 50 percent of each class of stock (whether voting or nonvoting) of the liquidating corporation. Shares of stock of the liquidating corporation held by a shareholder of the S corporation shall not be attributed to the S corporation. For purposes of this paragraph (d)(4)(ii), the term "stock or securities" includes shares or certificates of stock, stock rights or warrants, or an interest in any corporation (including any joint stock company, insurance company, association, or other organization classified as a corporation by the Code), an interest in any partnership, certificates of interest or participation in any profit-sharing agreement, or in any oil, gas, or other mineral property, or lease, collateral trust certificates, voting trust certificates, bonds, debentures, certificates of indebtedness, notes, car trust certificates, bills of exchange, or obligations issued by or on behalf of a State, Territory, or political subdivision thereof.

(iii) *Other exclusions from gross receipts.* For purposes of section 1362(d)(3), gross receipts does not include (A) amounts received in nontaxable sales or exchanges (other than those to which former section 337 applies), except to the extent that gain is recognized by the corporation on the sale or exchange, (B) amounts received as a loan, as a repayment of a loan, as a contribution to capital, or on the issuance by the corporation of its own stock, or (C) certain amounts which are treated under section 331 (relating to corporate liquidations) as payments in exchange for stock (see paragraph (d)(4)(ii)(B) of this section).

(iv) *Examples.* The meaning of the term "gross receipts" as used in section 1362(d)(3) may be further illustrated by the following examples:

Example (1). A corporation that uses an accrual method of accounting sells: (1) a depreciable asset, held for more than 6 months, which is used in the corporation's business, (2) a capital asset (other than stock and securities) for a gain, (3) a capital asset (other than stock and securities) for a loss, and (4) securities, and receives payment for each asset partly in money and partly in the form of a note payable at a future time. The corporation elects not to report the sales on the installment method. The amount of money and the face amount of the note received for the business asset would be considered gross receipts in the taxable year of sale and would not be reduced by the adjusted basis of the property, costs of sale or any other amount. With respect to the sale of the capital asset, gross receipts would include the cash down payment and face amount of any notes, but only to the extent of the corporation's capital gain net income. In the case of the sale of the securities, gross receipts would include the cash down payment and face amount of the notes, but only to the extent of gain on the sale. In determining gross receipts from sales of securities, losses would not be netted against gains.

Example (2). A corporation has a long-term contract as defined in paragraph (b) of §1.451-3 with respect to which it reports income according to the percentage-of-completion method as described in paragraph (c)(1) of §1.451-3. The portion of the gross contract price which corresponds to the percentage of the entire contract which has been completed during the taxable year shall be included in gross receipts for such year.

Example (3). For its 1983 taxable year, a corporation which regularly sells personal property on the installment plan elects to report its taxable income from the sale of such property (other than property qualifying as a capital asset or stock or securities) on the installment method in accordance with section 453A. The installment payment actually received in a given taxable year of the corporation shall be included in gross receipts for such year.

(5) *Passive investment income*—(i) *In general.* Except as provided in this paragraph (d)(5), the term "passive investment income" means gross receipts (as defined in paragraph (d)(4) of this section) derived from royalties, rents, dividends, interest, annuities, and gains from the sales or exchanges of stock or securities.

(ii) *Special rule for options or commodities dealers.* (A) *Exclusion of certain capital gains.* In the case of any options dealer or commodities dealer, passive investment income shall be determined by not taking into account any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from any section 1256 contract or property related to such a contract.

(B) *Definitions.* For purposes of this paragraph (d)(5)(ii)—

(*1*) *Options dealer.* The term "options dealer" has the meaning given to such term by section 1256(g)(8).

(*2*) *Commodities dealer.* The term "commodities dealer" means a person who is actively engaged in trading section 1256 contracts and is registered with a domestic board of trade which is designated as a contract market by the Commodities Future Trading Commission.

(*3*) *Section 1256 contract.* The term "section 1256 contract" has the meaning given to such term by section 1256(b).

(C) *Effective date.* This paragraph (d)(5)(ii) shall apply to positions established after July 18, 1984, in taxable years ending after such date.

(iii) *Royalties*—(A) *In general.* Except as provided in this paragraph (d)(5)(iii), the term "royalties" as used in section 1363 (d)(3)(D) means all royalties, including mineral, oil, and gas royalties, and amounts received for the privilege of using patents, copyrights, secret processes end formulas, good will, trademarks, tradebrands, franchises, and other like property. For purposes of this paragraph (d)(5)(iii), the gross amount of royalties shall not be reduced by any part of the cost of the rights under which they are received or by any amount allowable as a deduction in computing taxable income.

(B) *Copyright royalties.* The term "royalties" does not include copyright royalties if the income from such royalties would not be treated as personal holding company income under section 543(a)(4) if the corporation were a C corporation. For the definition of "copyright royalties," see paragraph (b)(12)-(iv) of §1.543-1.

(C) *Mineral, oil, or gas royalties.* The term "royalties" does not include mineral, oil, or gas royalties if the income from such royalties would not be treated as personal holding company income under section 543(a)(3) if the corporation were a C corporation. Moreover, the term "royalties" does not include amounts received upon disposal of timber, coal, or domestic iron ore with a retained economic interest with respect to which the special rules of section 631(b) and (c) apply. For the definition of "mineral, oil, or gas royalties," see paragraph (b)(11)(ii) and (iii) of §1.543-1.

(D) *Active business computer software royalties.* The term "royalties" does not include active computer software royalties as that term is defined in section 543(d) (without regard to paragraph (d)(5)).

(iv) *Rents.* The term "rents" as used in section 1362(d)(3)(D) means amounts received for the use of, or right to use, property (whether real or personal) of the corporation. The term "rents" does not include payments received for the use or occupancy of property if the corporation also performs significant services in return for such payments. Examples of payments not treated as rents for purposes of section 1362(d)(3)(D) include payments for the use or occupancy of rooms or other quarters in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist homes, motor courts, or motels. Generally, services are considered rendered to the occupant if they are primarily for his convenience and are other than those usually or customarily rendered in connection with the rental of rooms or other space for occupancy only. Maid service supplied by a hotel is an example of such services; in contrast, the furnishing of heat and light, the cleaning of public entrances, exits, stairways and lobbies, the collection of trash, and similar activities are not considered as services rendered to the occupant. Payments for the use or occupancy of entire private residences or living quarters in duplex or multiple housing units, of offices in an office building, etc., generally constitute "rents" under section 1362(d)(3)(D). Payments for the parking of automobiles ordinarily do not constitute rents. Payments for the warehousing of goods or for the use of personal property constitute rents unless significant services are rendered in connection with such payments.

(v) *Dividends.* The term "dividends" as used in section 1362(d)(3)(D) includes dividends as defined in section 316, amounts required to be included in gross income under section 551 (relating to foreign personal holding company income taxed to U.S. shareholders), and consent dividends as provided in section 565.

(vi) *Interest.* The term "interest" as used in section 1362(d)(3)(D) means any amounts received for the use of money (including tax-exempt interest and amounts treated as interest under section 483, 1272, 1274, or 7872). However, amounts received as interest on obligations acquired in the ordinary course of the corporation's trade or business from the sale of property described in section 1221(1) shall not constitute passive investment income.

(vii) *Annuities.* The term "annuities" as used in section 1362(d)(3)(D) means the entire amount received as an annuity under an annuity, endowment, or life insurance contract, regardless of whether only part of such amount would be includible in gross income under section 72.

(viii) *Gross receipts from the sale of stock or securities.* Gross receipts from sales or exchanges of stock or securities (to the extent of gains therefrom) as described in paragraph (d)(4)(ii)(B) of this section constitute passive investment income.

(ix) *Treatment of certain lending or finance companies.* An S corporation that is a lending or finance company as defined in section 542(c)(6) and the regulations thereunder shall not include in its passive investment income for the year gross receipts which are derived from the active and regular conduct of a lending or finance business, as defined in section 542(d)(1) and the regulations thereunder. The preceding sentence does not apply to gross receipts that are not directly derived from the active and regular conduct of a lending or finance business. Thus, the corporation's passive investment income will include amounts that are not directly related to the activities described in section 542(d)(1). Thus, for example, interest from the investment of idle funds in short-term securities, interest on judgments obtained on a defaulted loan and rent derived from property acquired by reason of a borrower's default on a loan do not constitute gross receipts derived directly from the conduct of the corporation's lending or finance business and therefore would not be excluded by section 1362(d)(3)(D)(iii). However, subject to the exception provided in section 542(d)-(1)(B), gross receipts from the sale or transfer of (A) notes acquired in the business of making loans and (B) accounts receivable, notes, or installment obligations acquired in the business of purchasing or discounting accounts receivable, notes, or installment obligations constitute gross receipts derived directly from the conduct of the corporation's lending or finance business and thus would be excluded from inclusion in such corporation's passive investment income.

(6) *Example.* The principles of this paragraph (d) may be illustrated by the following example:

Example. X, an S corporation with subchapter C earnings and profits, in the first taxable year for which its election was effective had gross income from business operations of $75,000 of which $5,000 was received from royalty payments with respect to a patent. In addition, X received $3,000 gross rental receipts, $1,000 gross interest receipts from inventory sales on open account, and $500 in gross dividend income. X recognized a gain of $2,500 on a sale of stock in P corporation and recognized a loss of $1,000 on a sale of stock in Q corporation. X also sold two parcels of land it had purchased and held for investment. The parcels sold for $10,000 each and carried a basis of $5,000 for parcel 1 and $11,000 for parcel 2. Finally, X sold a business asset for $3,000. X originally purchased the asset for $3,000 and had an adjusted basis of $2,805. The corporation's total gross receipts will be calculated as follows:

$75,000	Gross Receipts From Operations
3,000	Gross Rental Receipts
1,000	Gross Interest Receipts
500	Gross Dividend Receipts
2,500	Gain on Sale of P Stock (Loss on Q stock is not taken into account)
4,000	Net Gain on Sale of Parcels 1 and 2
3,000	Gross Receipt on Sale of Business Asset
$89,000	Total Gross Receipts

Passive investment income is determined as follows:

$ 5,000	Gross Patent Royalty Receipts
3,000	Gross Rental Receipts
500	Gross Dividend Receipts
2,500	Gain on Sale of P Stock (loss on Q stock is not taken into account)
$11,000	Total Passive Investment Income Gross Receipts

X's passive investment income percentage for its first year as an S corporation is 12.36 percent. This does not exceed 25 percent of X's gross receipts and consequently will not begin the running of the 3 year period for purposes of terminating the election under section 1362(d)(3).

§1.1362-4 Treatment of S termination year.

(a) *In general.* Terminations under §1.1362-3 that take effect during the taxable year on a date other than the first day of the taxable year will result in the creation of an S termination year. The portion of the S termination year ending on the close of the last day prior to the effective date of the termination shall be treated as a short taxable year for which the corporation is an S corporation and is hereinafter referred to as an S short year. The portion of the S termination year beginning on the first day the termination is effective shall be treated as a short taxable year for which the corporation is a C corporation and is hereinafter referred to as a C short year. Generally, the accounting books and records of a corporation do not have to be closed as of the termination date; rather, the corporation will allocate income or loss for the entire year on a pro rata basis. The pro rata allocation rules set forth in section 1362(e)(2) and paragraph (b) of this section will not apply (1) if the election under 1362(e)(3) and paragraph (c)(2) of this section is made by the corporation to have items assigned to each short taxable year under the corporation's normal tax accounting rules, (2) to any item resulting from an election made by an acquiring corporation to treat the purchase of the corporation's stock as an asset purchase under section 338, or (3) if there is a sale or exchange of 50 percent or more of the stock (as defined in paragraph (c)(4) of this section) of the corporation during an S termination year. Where the pro rata allocation rules do not apply, the corporation will allocate items of income, loss, deduction, and credit under normal tax accounting rules as set forth in paragraph (c) of this section.

(b) *Pro rata allocation.* Except as provided in paragraph (c) of this section, the items of income, gain, loss, deduction, and credit for an S termination year shall be allocated between the S short year and the C short year in the following manner:

(1) Determine, for the entire S termination year, the amount of each of the separately stated items of income, loss, deduction, or credit described in section 1366(a)(1)(A), and the amount of nonseparately computed income or loss described in section 1366(a)(2).

(2) Assign an equal ratable portion of each amount determined under paragraph (b)(1) to each day of the S termination year. For example, if a corporation has an S termination year in 1987 that consists of an S short year from January 1 through June 30 and a C short year from July 1 through December 31, it will make a pro rata allocation of 181/365 of its separately and nonseparately computed amounts to the S short year and will allocate 184/365 of such amounts to the C short year.

(c) *Income, loss, deduction, and credit items assigned to each short taxable year under normal accounting* rules—(1) *In general.* If paragraph (c)(2) or (4) of this section applies, or to the extent that paragraph (c)(3) of this section applies, then the rules of section 1363 (e)(2) and paragraph (b) of this section shall not apply, and the determination of the corporation's income, loss, deduction, and credit for its S short year and C short year shall be allocated under this paragraph (c). To the extent that this paragraph (c) applies, items of income, loss, deduction, and credit shall be assigned to each short taxable year on the basis of the corporation's method of accounting, as determined under section 446 and §1.446-1.

(2) *Election.* A corporation may elect under section 1362(e)(3) and this paragraph (c)(2) to allocate its S termination year income on the basis of its normal tax accounting method rather than under section 1362(e)(2). An election under this paragraph to have the rules of section 1362(e)(2) not apply can be made only with the consent of all persons who are or were shareholders in the corporation at any time during the S short year and all persons who are or were shareholders in the corporation at any time during the first day of the C short year. To make such election, a corporation shall file a statement that it elects under section 1362(e)(3) to have the rules provided in section 1362(e)(2) not apply. Such statement shall set forth the cause of the termination and the date thereof and shall be signed by any person authorized to sign the return required to be filed under section 6037. The statement shall be filed with the return for the short taxable year described in section 1362(e)(1)(B). In addition, there shall be attached to the statement of election a statement of consent, signed by each person who is or was a shareholder in the corporation at any time during the S short year and each person who is or was a shareholder of the corporation at any time during the first day of the C short year. The separate statement must set forth the name, address, and taxpayer identification number of the corporation, and the name, address, and taxpayer identification number of each person required to consent.

(3) *Pro rata allocation not to apply to certain items if purchase of stock treated as an asset purchase under section 338*—(i) *In general.* Section 1362(e)(2) and §1.1362-4(b) will not apply with respect to any item resulting from the application of section 338. In such case, the principles of section 1362(c)(3) and this paragraph (c) shall be applicable with respect to such items without election by the shareholders.

(ii) *Special rule.* Paragraph (c)(3)(i) of this section shall not apply to any item resulting from the application of section 338 if—

(A) Any portion of the qualified stock purchase under section 338 is pursuant to a binding contract entered into on or after October 19, 1982, and before July 18, 1984, and

(B) The purchasing corporation establishes by clear and convincing evidence that such contract was negotiated in contemplation that, with respect to the deemed sale under section 338, section 1362(e)(2) would apply.

(4) *Pro rata rule not to apply if 50 percent change in ownership during S termination year*—(i) *In general.* Section 1362(e)(2) and §1.1362-4(b) will not apply to an S termination year if at any time during such year, as a result of sales or exchanges of stock in the corporation during that year, 50 percent or more of the issued and outstanding shares of stock of the corporation (whether an S or C corporation) is newly owned stock within the meaning of paragraph (c)(4)(ii) of this section. In such case, the principles of section 1362(e)(3) and paragraph (c) of this section shall be applicable without any election by the shareholders.

(ii) *Newly owned stock.* For purposes of paragraph (c)(4)(i) of this section, the stock of a corporation owned by any person immediately after the close of any sale or exchange of stock shall be treated as newly owned stock to the extent that—

(A) The percentage of the corporation's issued and outstanding shares of stock (whether as an S or C corporation) owned by such person immediately after such sale or exchange, exceeds

(B) The percentage of the corporation's issued and outstanding shares of stock owned by such person on the last day of the taxable year immediately preceding the S termination year.

However, stock will not be treated as newly owned stock to the extent that such stock is treated as newly owned stock with respect to another person immediately after the close of any previous sale or exchange of stock.

(iii) *Stock acquired other than by sale or exchange*— (A) *In general.* For purposes of paragraph (c)(4)(ii) of this section, if a person acquired stock in the corporation after the last day of the taxable year immediately preceding the S termination year and such stock was acquired by such person from a qualified transferor other than by a sale or exchange, then such stock shall be treated as held on the last day of the taxable year immediately preceding the S termination year by the person that so acquired the stock from a qualified transferor.

(B) *Qualified transferor.* For purposes of paragraph (c)(4)(iii)(A) of this section, the term ''qualified transferor'' means a person—

(*1*) Who (or whose estate) held stock in the S corporation on the last day of the taxable year immediately preceding the S termination year, or

(*2*) Who acquired the stock in an acquisition which meets the requirements of paragraph (c)(4)(iii)(A) of this section.

(iv) *Special rule.* Paragraph (c)(4)(i) of this section shall not apply to an S termination year if—

(A) On or before July 18, 1984, 50 percent or more of the newly owned stock (as defined in paragraph (c)(4)(ii) of this section) was sold or exchanged in 1 or more transactions, and

(B) The person (or persons) acquiring such stock establishes by clear and convincing evidence that such acquisitions were negotiated in contemplation that section 1362(e)(2) would apply to the S termination year in which such sales or exchanges occurred.

(v) *Examples.* The provisions of this paragraph (c)(4) may be illustrated by the following examples:

Example (1). A, an individual, owns all 100 outstanding shares of stock of Corporation M, a calendar year S corporation. On January 31, 1988, A sells 60 shares of M stock to B, an individual. On June 1, 1988, A sells 5 shares of M stock to P, a partnership. M ceases to be a small business corporation on June 1, 1988, and pursuant to section 1362(d)(2) its S corporation election terminates effective on that date. All of the M stock acquired by B and P is newly owned stock because neither B nor P held such stock on December 31, 1987 Thus, 65 percent of the issued and outstanding shares of stock is treated as newly owned stock. Because more than 50 percent of the issued and outstanding shares of M stock is treated as newly owned stock, M must assign the items of income, loss, deduction, or credit for the S termination year to the two short taxable years on the basis of M's method of accounting.

Example (2). Assume the same facts as in example (1), except that A sells the 60 shares of M stock to B on July 1, 1988. Since 65 percent of the issued and outstanding shares of M stock is treated as newly owned stock, M must assign the items of income, loss, deduction, or credit for the S termination year to the two short taxable year on the basis of M's method of accounting.

Example (3). C and D are shareholders in Corporation N, a calendar year S corporation. Each owns 50 percent of the issued and outstanding shares of N on December 31, 1987. On March 1, 1988, C makes a gift of his entire shareholder interest to T, a trust not permitted as a shareholder under section 1361(c)(2). N ceases to be a small business corporation on March 1, 1988, and pursuant to section 1362(d)(2) its S corporation election terminates effective on that date. As a result of the gift, T owns 50 percent of N's issued and outstanding stock. However, because T acquired the stock by gift from C, a qualified transferor, the stock is treated as owned by T on December 31, 1987 Hence, the stock acquired by T is not treated as newly owned stock.

(5) *special rule for S corporation that is a partner in a partnership.* For purposes of section 706(c), if—

(i) A corporation's election under section 1362(a) is terminated under paragraph (b) or (c) of §1.1362-3;

(ii) Paragraph (c)(2) or (4) of this section applies to such corporation;

(iii) Such corporation is a partner in a partnership during any portion of the S short year; and

(iv) Any taxable year of such partnership ends with or within the C short year;

then such termination shall be treated as a sale or exchange of such corporation's entire interest in such partnership. A sale or exchange pursuant to the preceding sentence shall be deemed to occur on the last day of the S short year. For rules on determining each shareholder's share of the corporation's items of income, loss, deduction, or credit that are attributable to a partnership, see sections 1366 and 1377 and the regulations thereunder.

(d) *Tax for the C short year*—(1) *In general.* The tax liability for the C short year shall be a portion of the amount of tax that is determined on the annualized taxable income for the C short year. For purposes of this paragraph (d)(1), the annualized taxable income for the C short year is determined by multiplying the taxable income for such short year by the number of days in the S termination year and by dividing the result by the number of days in the C short year. The tax on the annualized taxable income is then computed according to the corporate rate brackets; this result is adjusted to determine the C short year tax liability. The adjustment is made by multiplying the tax on the annualized taxable income by the number of days in the C short year and dividing the result by the number of days in the S termination year.

(2) *Minimum tax.* For purposes of computing the corporation's liability for the corporate minimum tax with respect to the C short year, section 443(d) shall apply.

(3) *Example.* A corporation determines, under either paragraph (2) or (3) of section 1362(e), that it has taxable income of $4,000 for the C short year December 12, 1989 through December 31, 1989. The taxable income on an annual basis is $73,000 [($4,000 × 365)/20], tax on the annualized taxable income is $13,250 ($7,500 + $5,750), and the tax liability for the C short year is $726 [($13,250 × 20)/365].

(e) *Other special rules*—(1) *Short year treated as taxable year.* Except as otherwise provided in paragraph (e)(2) of this section, the short S and C years will be treated as two separate years for purposes of all provisions of the Code.

(2) *Year for carryover purposes.* The short S and C years will be treated as one year for purposes of determining the number of taxable years to which any item may be carried back or forward by the corporation.

(3) *Due date for S year return.* The due date for filing the return for the S short year shall be the same as the due date for filing the return for the C short year, including extensions thereof.

(4) *Year in which income from short S year is includible.* A shareholder shall include in taxable income for the year with or within which the S termination year ends the shareholder's pro rata share of the items described in section 1366(a) for the S short year.

§1.1362-5 Inadvertent terminations.

(a) *In general.* A corporation will be treated as continuing to be an S corporation during the period specified by the Commissioner if—

(1) A valid election under section 1362(a) is terminated under §1.1362-3(c) or (d),

(2) The Commissioner determines that the termination was inadvertent,

(3) Steps were taken by the corporation to return to small business corpo-

ration status within a reasonable period after discovery of the terminating event, and

(4) The corporation and shareholders agree to adjustments required by the Commissioner for such period.

Any reference in this section to steps taken by the corporation to return to small business corporation status shall include steps taken by the corporation so that it no longer violates the passive investment income limitations under §1.1362-3(d). For purposes of this section, consideration will be given only to terminating events occurring in taxable years beginning after December 31, 1982.

(b) *Inadvertent termination.* For purposes of this paragraph (b), the determination of whether a termination was inadvertent will be made by the Commissioner. The corporation has the burden of establishing that under the relevant facts and circumstances the Commissioner should determine that the termination was inadvertent. The fact that the terminating event was not reasonably within the control of the corporation and was not part of a plan to terminate the election, or the fact that the event took place without the knowledge of the corporation notwithstanding its due diligence in the course of its business to safeguard itself against such an event, tends to establish that the termination was inadvertent. For example, if a corporation, in good faith and using due diligence, determined that it had no subchapter C earnings and profits, but it was later determined on audit that its election terminated by reason of violating the passive investment income test for three consecutive years because the corporation in fact had accumulated earnings and profits, it may be appropriate for the Commissioner to find that the terminating event was inadvertent.

(c) *Corporation's request for determination of an inadvertent termination.* A corporation that believes its election was terminated inadvertently shall request a determination of inadvertent termination from the Commissioner. The request shall be made in the form of a ruling request and shall contain the information required by regulations and revenue procedures pertaining thereto. The request shall set forth all relevant facts pertaining to the event including, but not limited to, the facts described in paragraph (b) of this section, the date of the corporation's election under section 1362(a), a detailed explanation of the event causing termination, when and how such event was discovered, and the steps taken to return the corporation to small business corporation status. Send requests for a determination of inadvertent termination to: Internal Revenue Service, Associate Chief Counsel (Technical), Attention: CC:PS, 1111 Constitution Ave., N.W., Washington, D.C. 20224.

(d) *Correction of terminating event.* In order to satisfy paragraph (a) of this section, a corporation the election of which terminates by reason of a disqualifying event must, within a reasonable period of time after discovery of such event, take steps to correct the event so that the corporation is once more a small business corporation. For example, if the terminating event is one that causes the corporation to have more than one class of stock, the corporation must take steps to eliminate the second class of stock. If the election is terminated because the corporation had an ineligible shareholder, the corporation must take steps to terminate such shareholder's interest. If the cause of termination is excessive passive investment income, the corporation must reduce such excess income or eliminate its subchapter C earnings and profits. For purposes of this paragraph (d), a corporation will have discovered the terminating event when it has actual knowledge of such event, or at such time as a reasonable person would have had knowledge of such event. Before a waiver can become effective, the steps taken must be completed so that the corporation is once more a small business corporation.

(e) *Consent to Commissioner's requirement.* Before any waiver is granted, the corporation and the shareholders must consent to any adjustment required by the Commissioner for the specified period. The adjustments required must be consistent with the treatment of the corporation as an S corporation during the specified period. The period specified by the Commissioner may be retroactive either for all years or for the period in which the corporation again became eligible for treatment under subchapter S. All persons who were shareholders of the corporation at any time during the period specified by the Commissioner must consent to the Commissioner's adjustments. Shareholder and corporate consents shall be in the form of a statement setting forth the Commissioner's requirements, the period for which a waiver of the terminating event is given, and must be signed by the shareholder (in the case of a shareholder consent) or the person authorized to sign the return required by section 6037 (in the case of corporate consent). A shareholder's consent statement shall set forth the name, address, and taxpayer identification numbers of the corporation and shareholder, the number of shares of stock owned by the shareholder during the period, and the dates during the period on which such stock was owned. The corporate consent statement shall set forth the name, address, and taxpayer identification numbers of the corporation and each shareholder. The consent of the shareholders and of the corporation must be attached to the return for the period in which the adjustments are to be made.

(f) *Adjustments.* In the case of a transfer of stock to an ineligible shareholder which is treated as an inadvertent termination under section 1362(f), the Commissioner may require such an adjustment as will cause the ineligible shareholder to be treated as a shareholder of an S corporation during the period such shareholder actually held stock in the corporation. Moreover, the Commissioner may require such protective adjustments as will prevent any loss of revenue which may otherwise result because of a transfer of stock to an ineligible shareholder (*e.g.*, a transfer to a nonresident alien). The agreement to make the required adjustments may be reflected in a closing agreement entered into pursuant to the authority contained in section 7121.

(g) *Status of corporation.* The status of the corporation after the terminating event and before the determination of inadvertence shall be determined by the period of waiver specified by the Commissioner. A waiver may be granted retroactive for all years for which the terminating event was effective, in which case the corporation will be treated as if its election had not terminated. A waiver may be granted retroactive only for the period in which the corporation again became eligible for subchapter S treatment, in which case the corporation will be treated as a C corporation during the period for which the corporation was not eligible for subchapter S treatment.

§1.1362-6 Election after termination.

(a) *In general.* If a corporation has made a valid election and such election has been terminated, unless the Commissioner consents to a new election, such corporation (or any successor corporation) is not eligible to make a new election for any taxable year prior to its fifth taxable year which begins after the first taxable year for which such termination is effective. The burden will be on the corporation to establish that under the relevant facts the Commissioner should consent to a new election. The fact that more than 50 percent of the stock in the corporation is owned by persons who did not own any stock in the corporation on the date of the termination will tend to establish that consent should be granted. In the absence of such fact, consent will ordinarily be denied unless it can be shown that the event causing termination was not reasonably within the control of the corporation or shareholders having a substantial interest in the corporation, and was not part of a plan on the part of the corporation or of such shareholders to terminate the election.

(b) *Successor corporation.* The term "successor corporation" as used in section 1362(g) means any corporation—

(1) 50 percent or more of the stock of which is owned, directly or indirectly, by the same persons who, on the date of the termination, owned 50 percent or more of the stock of the small business corporation with respect to which the election was terminated, and

(2) (i) Which acquires a substantial portion of the assets of such small business corporation, or

(ii) A substantial portion of the assets of which were assets of such small business corporation.

(c) *Special rule for certain terminations.* The five year waiting period described in paragraph (a) of this section shall not apply to a corporation if the termination occurred because the corporation—

(1) Revoked its election effective on the first day of the first taxable year for which its election to be an S corporation was effective (see §1.1362-3(b)(2)), or

(2) Failed to meet the definition of a small business corporation on the first day of the first taxable year for which its election to be an S corporation was effective (see §1.1362-3(c)(2)).

Thus, for terminations described in this paragraph (c), a corporation is not required to wait five years for reelection and is not required to secure the consent of the Commissioner for such reelection.

§1.1363-1 Effect of election on corporation.

(a) *Exemption of corporation from income tax*—(1) *In general.* Except as provided in this paragraph (a), the effect on a small business corporation of a valid election under section 1362(a) is to exempt the corporation from the taxes imposed by chapter 1 of the Code with respect to taxable years of the corporation for which the election is in effect.

(2) *Taxable years beginning after December 31, 1986.* For taxable years beginning after December 31, 1986, an S corporation shall not be exempt from the tax imposed by section 47 (relating to the tax on the early disposition of section 38 property) or section 1375 (relating to the tax imposed when passive investment income of corporation having subchapter C earnings and profits exceeds 25 percent of gross receipts). An S corporation shall also not be exempt from the tax imposed by section 1374 (as amended by the Tax Reform Act of 1986 or as in effect prior to its amendment by the Act). See also section 1363(d) (relating to the recapture of LIFO benefits) for the rules regarding the payment by an S corporation of LIFO recapture amounts.

(3) *Taxable years beginning after December 31, 1982, and before January 1, 1987.* For taxable years beginning after December 31, 1982, and before January 1, 1987, an S corporation shall not be exempt from the tax imposed by section 47 and section 1375. An S corporation shall also not be exempt from the tax imposed by section 56 (relating to corporate minimum tax) and section 1374 (relating to tax imposed on certain capital gains), as those sections were in effect prior to their amendment by the Tax Reform Act of 1986.

(b) *Computation of corporate taxable income*—(1) *In general.* The taxable income of an S corporation shall be computed in the same manner as the taxable income of a individual except that section 248 shall apply and except as otherwise provided in this paragraph (b). An S corporation is required to state separately in its return the items of income (including tax-exempt income), loss, deduction, or credit the separate treatment of which could affect the tax liability of any shareholder.

(2) *Deductions not allowed.* An S corporation is not allowed the following deductions:

(i) The deductions for personal exemptions provided in section 151.

(ii) The deduction provided in section 164(a) for taxes, described in section 901, paid or accrued to foreign countries and to possessions of the United States.

(iii) The deduction for charitable contributions provided in section 170.

(iv) The net operating loss deduction provided in section 172.

(v) The additional itemized deductions for individuals provided in part VII of subchapter B, as follows: Expenses for production of income (section 212); medical, dental, etc., expenses (section 213); alimony, etc. payments (section 215); amounts representing taxes, interest and business depreciation of a cooperative housing corporation (section 216); moving expenses (section 217); retirement savings (section 219); and deduction for two-earner married couples (section 221) and adoption expenses (section 222), as sections 221 and 222 were in effect prior to their repeal by the Tax Reform Act of 1986.

(vi) The deduction for depletion with respect to oil and gas wells provided in section 611.

(3) *Corporate preference items.* Section 291 of the Code shall apply to the computation of the taxable income of an S corporation if the S corporation (or any predecessor) was a C corporation for any of the 3 immediately preceding taxable years.

(c) *Elections of the S corporation*—(1) *General rule.* Any elections (other than those described in paragraph (c)(2) of this section) affecting the computation of items derived from an S corporation shall be made by the corporation. For example, elections of methods of accounting, of computing depreciation, of treating soil and water conservation expenditures, and the option to deduct as expenses intangible drilling and development costs, shall be made by the corporation and not by the shareholders separately. All corporate elections are applicable to all shareholders.

(2) *Exceptions*—(i) Each shareholder shall add his pro rata share of expenses described in section 617 paid or accrued by the S corporation to any such expenses paid or accrued by him and shall treat the total amount according to his method of treating such expenses, notwithstanding the treatment of the expenses by the corporation.

(ii) Each shareholder shall add his pro rata share of taxes described in section 901 paid or accrued by the S corporation to foreign countries or possessions of the United States (according to its method of treating such taxes) to any such taxes paid or accrued by him (according to his method of treating such taxes), and may elect to use the total amount either as a credit against tax or as a deduction from income.

(iii) For shareholder taxable years beginning before January 1, 1987, each shareholder shall:

(A) Add his pro rata share of investment interest, paid or accrued by the S corporation, to any such interest paid by him,

(B) Add his pro rata share of investment income and expenses (exclusive of interest) incurred by the S corporation to those incurred by him, and

(C) Subject the total amounts to the rules provided in section 163(d).

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 23, 1988, 8:45 a.m., and published in the issue of the Federal Register for December 27, 1988, 53 F.R. 52190 as corrected by 54 F.R. 5939.)

Notice of Proposed Rulemaking

Golden Parachute Payments

PS-217-84

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to golden parachute payments. Changes to the applicable tax law were made by the Tax Reform Act of 1984, the Tax Reform Act of 1986, and the Technical and Miscellaneous Revenue Act of 1988. The regulations will provide guidance to taxpayers who must comply with section 280G of the Internal Revenue Code of 1986.

DATES: Written comments and requests for a public hearing must be delivered or mailed by July 5, 1989. Generally, these regulations are proposed to be effective for payments made under agreements entered into or renewed after June 14, 1984. These regulations also are proposed to be effective for certain payments under agreements entered into on or before June 14, 1984, and amended or supplemented in significant relevant respect after that date.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attention: CC:CORP:T:R (PS-217-84), Room 4429, Washington, D.C. 20024.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 280G of the Internal Revenue Code. These amendments are proposed to conform the Income Tax Regulations to section 67 of the Tax Reform Act of 1984 (Pub. L. No. 98-369; 98 Stat. 585) [1984-3 C.B. (Vol. 1) 1, 93], which added sections 280G and 4999 to the Code and amended Code sections 275(a)(6) and 3121(v)(2)(A), and to section 1804(j) of the Tax Reform Act of 1986 (Pub. L. No. 99-514; 100 Stat. 2807) [1986-3 C.B. (Vol. 1) 1, 724] and section 1018(d)(6)-(8) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647; 102 Stat. 3581), which amended Code section 280G. These provisions relate to golden parachute payments. Specifically, section 280G denies a deduction for any "excess parachute payment," section 4999 imposes a 20-percent excise tax on the recipient of any excess parachute payment, section 275(a)(6) denies a deduction for the section 4999 excise tax, and section 3121(v)(2)(A) relates to FICA.

Overview of Statutory Provisions

In applying the golden parachute provisions, the first step is to identify payments that constitute "parachute payments." Section 280G(b)(2)(A) defines a "parachute payment" as any payment that meets all of the following four conditions: (a) the payment is in the nature of compensation; (b) the payment is to, or for the benefit of, a disqualified individual; (c) the payment is contingent on a change in the ownership of a corporation, the effective control of a corporation, or the ownership of a substantial portion of the assets of a corporation ("change in ownership or control"); and (d) the payment has (together with other payments described above in (a), (b), and (c) with respect to the same individual) an aggregate present value of at least 3 times the individual's base amount.

For this purpose, an individual's base amount is, in general, the individual's average annualized includible compensation for the most recent 5 taxable years ending before the change in ownership or control.

Section 280G(b)(2)(B) provides that the term "parachute payment" also includes any payment in the nature of compensation to, or for the benefit of, a disqualified individual if the payment is pursuant to an agreement that violates any generally enforced securities laws or regulations ("securities violation parachute payment").

Once payments are identified as "parachute payments", the next step is to determine any "excess" portion of the payments. Section 280G(b)(1) defines the term "excess parachute payment" as an amount equal to the excess of any parachute payment over the portion of the disqualified individual's base amount that is allocated to such payment. For this purpose, the portion of the base amount allocated to a parachute payment is the amount that bears the same ratio to the base amount as the present value of the parachute payment bears to the aggregate present value of all such payments to the same disqualified individual.

Generally, excess parachute payments may be reduced by certain amounts of reasonable compensation. Section 280G(b)(4)(B) provides that except in the case of securities violation parachute payments, the amount of an excess parachute payment is reduced by any portion of the payment that the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services actually rendered by the disqualified individual before the date of change in ownership or control. Such reasonable compensation is first offset against the portion of the base amount allocated to the payment.

Exempt Payments

Section 280G specifically exempts several types of payments from the definition of the term "parachute payment."

Deductions for payments exempt from the definition of "parachute payment" are not disallowed by section 280G, and such exempt payments are not subject to the 20-percent excise tax of section 4999. In addition, such exempt payments are not taken into account in applying the three-times-base-amount test of section 280G(b)(2)(A)(ii).

Section 280G(b)(5) provides an exemption for payments with respect to certain corporations. Pursuant to that section, the term "parachute payment" does not include any payment made to a disqualified individual with respect to a corporation which, immediately before the change in ownership or control, was a small business corporation (as defined in section 1361(b) but without regard to paragraph (1)(C) thereof). In addition, the term "parachute payment" does not include any payment made with respect to a corporation if, immediately before the change in ownership or control, no stock in the corporation was readily tradable on an established securities market (or otherwise) and certain shareholder approval requirements are met with respect to the payment. For this purpose, stock that is described in section 1504-(a)(4) is not treated as being readily tradable on an established securities market if the payment does not adversely affect the shareholder's redemption and liquidation rights. The proposed regulations provide guidance on applying the exemptions contained in section 280G(b)(5).

Section 280G(b)(6) exempts certain payments under a qualified plan. Pursuant to that section, the term "parachute payment" does not include any payment to or from: (a) a plan described in section 401(a) which includes a trust exempt from tax under section 501(a); (b) an annuity plan described in section 403(a); or (c) a simplified employee pension as defined in section 408(k).

Finally, section 280G(b)(4)(A) exempts certain payments of reasonable compensation. Pursuant to that section, except in the case of securities violation parachute payments, the term "parachute payment" does not include the portion of any payment which the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services to be rendered on or after the date of the change in ownership or control. The proposed regulations provide guidance for determining amounts of reasonable compensation.

Disqualified Individuals

To be a parachute payment, a payment must be made to (or for the benefit of) a "disqualified individual." Section 280G(c) defines the term "disqualified individual" to include any individual who (a) is an employee or independent contractor who performs personal services for a corporation, and (b) is an officer, shareholder, or highly-compensated individual. The proposed regulations provide guidance on who will be treated as an "officer," a "shareholder," and a "highly-compensated individual" for this purpose.

Section 280G(c) provides that a "highly-compensated individual" with respect to a corporation only includes an individual who is (or would be if the individual were an employee) a member of the group consisting of the highest paid 1 percent of the employees of the corporation or, if less, the 250 highest paid employees of the corporation. The proposed regulations provide rules for applying this definition. In addition, the proposed regulations provide that no individual whose annual compensation is less than $75,000 will be treated as a highly compensated individual. The proposed regulations also provide an exception to the definition of "highly-compensated individual" to prevent fees earned by independent service providers (such as independent brokers, attorneys, and investment bankers) from becoming subject to section 280G when they perform services in connection with a change in ownership or control.

With respect to who will be treated as a "shareholder" for purposes of section 280G(c), the proposed regulations provide a *de minimis* rule. Pursuant to this rule, only an individual who owns stock of a corporation having a value that exceeds the lesser of $1 million, or 1 percent of the total value of the outstanding shares of all classes of the corporation's stock, is treated as a disqualified individual with respect to the corporation by reason of stock ownership. For purposes of determining the amount of the stock owned by an individual, the constructive ownership rules of section 318-(a) shall apply.

The proposed regulations also limit the number of employees who will be treated as disqualified individuals with respect to a corporation by reason of being "officers" of the corporation. The proposed regulations provide that no more than 50 employees (or, if less, the greater of 3 employees or 10 percent of the employees of the corporation) will be treated as disqualified individuals with respect to a corporation by reason of being an officer of the corporation. In the case of an affiliated group treated as one corporation, the previous sentence will be applied to each member of such group.

Contingent on Change

To be a parachute payment, a payment must be contingent on a change in ownership or control. The proposed regulations provide rules on when a payment will be treated as so "contingent."

In general, a payment will be treated as contingent on a change in ownership or control if the payment would not in fact have been made had no change in ownership or control occurred. A payment generally will be treated as one which would not in fact have been made in the absence of a change in ownership or control unless it is substantially certain, at the time of the change, that the payment would have been made whether or not the change occurred. In addition, a payment generally is treated as contingent on a change in ownership of control if (a) the payment is contingent on an event that is closely associated with such a change, (b) a change in ownership or control actually occurs, and (c) the event is materially related to the change in ownership or control. Some types of events that are considered closely associated with a change in ownership or control are the onset of a tender offer, the termination of the disqualified individual's employment, and a significant reduction in the disqualified individual's job responsibilities.

Moreover, a payment will be treated as contingent on a change in ownership or control if the change accelerates the time at which the payment is made. However, if it is substantially certain at the time of the change that the payment would have been made whether or not the change occurred, but the payment is treated as contingent on the change solely because the change accelerates the time at which the payment is made, only a portion of the payment will be treated as contingent on the change. In such case, the portion of the payment that will be treated as contingent on the change is the amount by which the amount of the accelerated payment exceeds the present value of the payment absent the acceleration. In addition, if a payment is accelerated by a change in ownership or control and the payment is substantially certain, at the time of the change, to have been made without regard to such change provided that the disqualified individual had continued to perform services for the corporation for a specified period of time, only a portion of the payment is treated as contingent on the change. The proposed regulations provide rules for determining the portion of the payment so treated. The proposed regulations provide that payments made pursuant to an agreement that is entered into after a change in ownership or control will not be treated as contingent on the change. However, for this purpose, an agreement that is executed after a change in ownership or control pursuant to a legally enforceable agreement that was entered into before the change will be considered to have been entered into before the change.

Presumption That Payment is Contingent on Change

Section 280G(b)(2)(C) provides a presumption that certain payments are contingent on a change in ownership or control. Specifically, this provision provides that any payment pursuant to an agreement (or an amendment of a previous agreement) that is entered into within one year before a change in ownership or control is presumed to be contingent on such change unless the contrary is established by clear and convincing evidence.

The proposed regulations provide that an amendment of a previous agreement triggers this presumption only if the previous agreement is amended "in any significant respect." The proposed regulations also provide that when the presumption is triggered by an amendment, only the portion of a payment that exceeds the amount of such payment that would have been made in the absence of the amendment is presumed, by reason of the amendment, to be contingent on the change in ownership or control.

In addition, the proposed regulations provide that if an agreement is entered into within one year before the date of a change in ownership or control, clear and convincing evidence that the agreement is (a) a nondiscriminatory employee plan or program; (b) a contract that replaces a prior contract entered into by the same parties more than one year before the change in ownership or control (if the new contract meets certain requirements); or (c) a contract between a corporation and a disqualified individual who did not perform services for the corporation prior to the individual's taxable year in which the change in ownership or control occurs (if the contract meets certain requirements); generally will rebut the presumption that payments under the agreement are contingent on the change.

Change in Ownership or Control

The proposed regulations also provide guidance on when a change in ownership or control will be considered to occur. The regulations provide that a change in the ownership of a corporation occurs when any one person, or more than one person acting as a group, acquires ownership of stock of the corporation that, together with stock held by such person or group, has more than 50 percent of the total fair market value or voting power of all of the corporation's outstanding stock. Section 318(a) will apply in determining stock ownership for this purpose.

The proposed regulations provide that a change in the ownership of a substantial portion of the assets of a corporation occurs when any one person, or more than one person acting as a group, acquires (or has acquired during the 12 months ending on the date of the most recent acquisition by such person or persons) assets from the corporation that have a total fair market value equal to or more than one third of the total fair market value of all of the assets of the corporation immediately prior to such acquisition or acquisitions. However, the proposed regulations provide that a transfer of assets by a corporation will not be treated as a change in ownership if the assets are transferred to certain shareholders of the corporation or to an entity at least 50 percent of the total value or voting power of which is owned by the corporation.

Under the proposed regulations, a change in the effective control of a corporation is presumed to occur when either of the following events occurs: (a) any one person, or more than one person acting as a group acquires (or has acquired during the 12 month period ending on the date of the most recent acquisition) ownership of stock of the corporation possessing 20 percent or more of the total voting power of the stock of the corporation; or (b) a majority of the members of the corporation's board of directors is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the corporation's board of directors prior to the appointment or election.

Under the proposed regulations, a taxpayer may rebut the presumption described in the preceding paragraph by establishing that such acquisition or acquisitions of the corporation's stock, or such replacement of the majority of the members of the corporation's board of directors, does not transfer the power to control (directly or indirectly) the management and policies of the corporation from any one person or group to another person or group.

Securities Violation Parachute Payments

The proposed regulation implement section 280G(b)(2)(B) by providing that the term "parachute payment" also includes any payment in the nature of compensation to (or for the benefit of) a disqualified individual if such payment is made (a) pursuant to an agreement that violates any generally enforced federal or state securities law or regulation, and (b) in connection with a potential or actual change in ownership or control. However, a violation will not be taken into account for this purpose if it is merely technical in character or is not materially prejudicial to shareholders or potential shareholders. Generally, a securities violation will be presumed not to exist unless the existence of the violation has been determined or admitted in a civil or criminal action (or an administrative action by a regulatory body charged with enforcing the particular securities law or regulation) which has been resolved by adjudication or consent.

Reasonable Compensation

As previously mentioned, section 280G(b)(4)(A) provides that except in the case of securities violation parachute payments, the amount of a payment treated as a parachute payment shall not include the portion of such payment which the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services to be rendered on or after the date of the change in ownership or control.

Section 280G(b)(4)(B) provides that except in the case of securities violation parachute payments, the amount of a payment treated as an excess parachute payment is reduced by any portion of the payment that the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services actually rendered by the disqualified individual before the date of the change in ownership or control. Such reasonable compensation is first offset against the portion of the base amount allocated to the payment.

The proposed regulations provide criteria for determining whether payments are reasonable compensation. In general, whether payments are reasonable compensation is determined on the basis of all the facts and circumstances in the particular case. Factors relevant to such a determination include the nature of the services rendered or to be rendered, the individual's historic compensation for performing such services, and the compensation of individuals performing comparable services in situations where the compensation is not contingent on the change. The proposed regulations also provide that payments made under certain nondiscriminatory employee plans or programs will generally be considered to be clear and convincing evidence that the payments are reasonable compensation.

Generally, clear and convincing evidence of reasonable compensation for personal services to be rendered on or after the change in ownership or control will not exist if the individual does not, in fact, perform the services. However, the proposed regulations provide that damages paid for the breach of an employment contract may be reasonable compensation for such services if certain factors are shown. One of these factors is that the damages must be reduced by mitigation. For this purpose, damages will be treated as being mitigated if the damages are reduced (or any payment of such damages is returned) to the extent of the disqualified individual's earned income during the remainder of the contract term. The proposed regulations do not provide a rule concerning the method of establishing mitigation of damages in other situations, such as where the disqualified individual does not accept alternative employment during the remainder of the contract term or where the individual and the corporation considered mitigation in determining the amount of a lump-sum settlement agreement, because the Service is concerned about the administrability of such a rule. Accordingly, the Service solicits comment on how a rule which would allow damages to be treated as mitigated in such cases could be administered.

Finally, the proposed regulations provide that for purposes of section 280G, severance payments will not be considered as reasonable compensation.

Issues on Which Comments are Requested

In addition to the issue concerning mitigation of damages, the Service solicits comment on the following issues:

(a) How the present value of a payment to be made in the future should be determined if such value depends on some uncertain future event or condition (and what adjustments, if any, are to be made if the amount of the actual payment differs from the amount used in determining present value). See Q/A-31, Q/A-32, and Q/A-33 of the proposed regulations.

(b) How the special rules of section 280G should interact with special income deferral rules such as those contained in section 83. See Q/A-12 and Q/A-13 of the proposed regulations.

(c) Whether the rules for identifying the disqualified individuals of a corporation (including the rules relating to the time period that should be utilized to determine who the disqualified individuals are and how the compensation for such a time period should be determined) could be simplified. See Q/A-20 and Q/A-21 of the proposed regulations.

(d) How severance payments should be treated. See Q/A-44 of the proposed regulations.

(e) Whether any of the rules contained in the proposed regulations should be given only prospective effect.

Special Analyses

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required.

Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted consideration will be given to any written comments that are submitted to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

List of Subjects

26 CFR §§1.61-1 — 1.281-4

Income taxes, Taxable income, Deductions, Exemptions.

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1986

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.280G-1 also issued under 26 U.S.C. 280G(b) and (e).

Par. 2. A new §1.280G-1 is added after §1.280F-6T to read as follows:

§1.280G-1 Golden parachute payments.

The following questions and answers relate to the treatment of golden parachute payments under section 280G of the Internal Revenue Code of 1986, as added by section 67 of the Tax Reform Act of 1984 (Pub. L. No. 98-369; 98 Stat. 585) and amended by section 1804-(j) of the Tax Reform Act of 1986 (Pub. L. No. 99-514; 100 Stat. 2807) and section 1018(d)(6)-(8) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647; 102 Stat. 3581).

The following is a table of contents for this section:

Overview

Q-1: What is the effect of Code section 280G?

A-1: Section 280G disallows a deduction for any "excess parachute payment" paid or accrued. For rules relating to the imposition of a nondeductible 20-percent excise tax on the recipient of any excess parachute payment, see Code sections 4999, 275(a)(6), and 3121(v)(2)(A).

Q-2: What is a "parachute payment" for purposes of section 280G?

A-2: (a) The term "parachute payment" means any payment (other than a payment with respect to certain corporations exempted under Q/A-6 of this section, a payment under a qualified plan exempted under Q/A-8 of this section, or a payment of reasonable compensation exempted under Q/A-9 of this section) that—

(1) Is in the nature of compensation;

(2) Is made or is to be made to (or for the benefit of) a "disqualified individual;"

(3) Is contingent on a change—

(i) In the ownership of a corporation,

(ii) In the effective control of a corporation, or

(iii) In the ownership of a substantial portion of the assets of a corporation; and

(4) Has (together with other payments described in paragraph (a)(1), (2), and (3) of this A-2 with respect to the same disqualified individual) an aggregate present value of at least 3 times the individual's "base amount."

Hereinafter, a change referred to in paragraph (a)(3) of this A-2 is referred to as a "change in ownership or control." For a discussion of the application of paragraph (a)(1), see Q/A-11 through Q/A-14; paragraph (a)(2), Q/A-15 through Q/A-21; paragraph (a)(3), Q/A-22 through Q/A-29; and paragraph (a)(4), Q/A-30 through Q/A-36.

(b) The term "parachute payment" also includes any payment in the nature of compensation to (or for the benefit of) a disqualified individual that is pursuant to an agreement that violates a generally enforced securities law or regulation. This type of parachute payment is referred to in this section as a "securities violation parachute payment." See Q/A-37 for the definition and treatment of securities violation parachute payments.

Q-3: What is an "excess parachute payment" for purposes of section 280G?

A-3: The term "excess parachute payment" means an amount equal to the excess of any parachute payment over the portion of the "base amount" allocated to such payment. Subject to certain exceptions and limitations, an excess parachute payment is reduced by any portion of the payment which the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services actually rendered by the disqualified individual before the date of the change in ownership or control. For a discussion of the computation of excess parachute payments and their reduction by reasonable compensation, see Q/A-38 through Q/A-44. For a discussion of the nonreduction of a securities violation parachute payment by reasonable compensation, see Q/A-37.

Q-4: What is the effective date of section 280G and this section?

A-4: In general, section 280G and this section apply to payments under agreements entered into or renewed after June 14, 1984. Section 280G and this section also apply to certain payments under agreements entered into on or before June 14, 1984, and amended or supplemented in significant relevant respect after that date. For a discussion of the application of the effective date, see Q/A-47 through Q/A-52.

Exempt Payments

Q-5: Are some types of payments exempt from the definition of the term "parachute payment"?

A-5: Yes. The following four types of payments are exempt from the definition of "parachute payment": (a) payments with respect to a small business corporation (described in Q/A-6 of this section); (b) certain payments with respect to a corporation no stock in which is readily tradable on an established securities market (or otherwise) (described in Q/A-6 of this section); (c) payments to or from a qualified plan (described in Q/A-8 of this section); and (d) certain payments of reasonable compensation (described in Q/A-9 of this section). Deductions for payments exempt from the definition of "parachute payment" are not disallowed by section 280G, and such exempt payments are not subject to the 20-percent excise tax of section 4999. In addition, such exempt payments are not taken into account in applying the three-times-base-amount test of Q/A-30 of this section.

Q-6: Which payments with respect to a corporation referred to in paragraph (a) or (b) of A-5 of this section are exempt from the definition of "parachute payment"?

A-6: (a) The term "parachute payment" does not include—

(1) Any payment to a disqualified individual with respect to a corporation

which (immediately before the change in ownership or control) was a small business corporation (as defined in section 1361(b) but without regard to paragraph (1)(C) thereof), or

(2) Any payment to a disqualified individual with respect to a corporation (other than a small business corporation described in paragraph (a)(1) of this A-6) if—

(i) Immediately before the change in ownership or control, no stock in such corporation was readily tradable on an established securities market or otherwise, and

(ii) The shareholder approval require ments described in Q/A-7 of this section are met with respect to such payment.

(b) For purposes of paragraph (a)(1) of this A-6, the members of an affiliated group are not treated as one corporation.

(c) The requirements of paragraph (a)-(2)(i) of this A-6 are not met if a substantial portion of the assets of any entity consists (directly or indirectly) of stock in such corporation and any ownership interest in such entity is readily tradable on an established securities market or otherwise. For this purpose, such stock constitutes a substantial portion of the assets of an entity if the total fair market value of the stock is equal to or more than one third of the total fair market value of all of the assets of the entity. If a corporation is a member of an affiliated group (which group is treated as one corporation under A-46 of this section), the requirements of paragraph (a)(2)(i) of this A-6 are not met if any stock in any member of such group is readily tradable on an established securities market or otherwise.

(d) For purposes of paragraph (a)(2)(i) of this A-6, the term "stock" does not include stock described in section 1504-(a)(4) if the payment does not adversely affect the redemption and liquidation rights of any shareholder owning such stock.

(e) For purposes of paragraph (a)(2)(i) of this A-6, stock shall be treated as readily tradable if it is regularly quoted by brokers or dealers making a market in such stock.

(f) For purposes of paragraph (a)(2)(i) of this A-6, the term "established securities market" means an established securities market as defined in §1.897-1-(m).

(g) The following examples illustrate the application of this exemption:

Example (1). A small business corporation (within the meaning of paragraph (a)(1) of this section) operates two businesses. The corporation sells the assets of one of its businesses, and these assets represent a substantial portion of the assets of the corporation. Because of the sale, the corporation terminates its employment relationship with persons employed in the business the assets of which are sold. Several of these employees are highly-compensated individuals to whom the owners of the corporation make severance payments in excess of 3 times each employee's base amount. Since the corporation is a small business corporation immediately before the change in ownership or control, the payments are not parachute payments.

Example (2). Assume the same facts as in example (1), except that the corporation is not a small business corporation within the meaning of paragraph (a)(1) of this section. If no stock in the corporation is readily tradable on an established securities market (or otherwise) immediately before the change in ownership or control and the shareholder approval requirements described in Q/A-7 of this section are met, the payments are not parachute payments.

Example (3). Seventy percent of the stock of Corporation S is owned by Corporation P, stock in which is readily tradable on an established securities market. The Corporation S stock represents a substantial portion of the assets of Corporation P. Corporation P sells all of its stock in Corporation S to Corporation X. Because of the sale, Corporation S makes severance payments to several of its highly-compensated individuals in excess of 3 times each individual's base amount. Since stock in Corporation P is readily tradable on an established securities market, the payments are not exempt from the definition of "parachute payments" under this A-6.

Q-7: How are the shareholder approval requirements referred to in paragraph (a)(2)(ii) of A-6 of this section met?

A-7: (a) The shareholder approval requirements referred to in paragraph (a)(2)(ii) of A-6 of this section are met with respect to any payment if—

(1) Such payment was approved by a separate vote of the persons who owned, immediately before the change in ownership or control, more than 75 percent of the voting power of all outstanding stock of the corporation, and

(2) There was adequate disclosure, to all persons entitled to vote under paragraph (a)(1) of this A-7, of all material facts concerning all material payments which (but for Q/A-6 of this section) would be parachute payments with respect to a disqualified individual.

The vote described in paragraph (a)(1) of this A-7 must determine the right of the disqualified individual to receive the payment, or, in the case of a payment made before the vote, the right of the disqualified individual to retain the payment.

(b) Approval of a payment by any shareholder that is not an individual ("entity shareholder") generally must be made by the person authorized by the entity shareholder to approve the payment. However, if a substantial portion of the assets of an entity shareholder consists (directly or indirectly) of stock in the corporation undergoing the change in ownership or control, approval of the payment by that entity shareholder must be made by a separate vote of the persons who hold, immediately before the change in ownership or control, more than 75 percent of the voting power of the entity shareholder. The preceding sentence does not apply if the value of the stock of the corporation owned, directly or indirectly, by or for the entity shareholder does not exceed 1 percent of the total value of the outstanding stock of the corporation. Where approval of a payment by an entity shareholder must be made by a separate vote of the owners of the entity shareholder, the normal voting rights of the entity shareholder determine which owners shall vote.

(c) In determining the persons who comprise the "more than 75 percent" group referred to in paragraph (a)(1) of this A-7, stock is not counted as outstanding stock if the stock is actually owned or constructively owned under section 318(a) by or for a disqualified individual who receives (or is to receive) payments that would be parachute payments if the shareholder approval requirements described in paragraph (a) of this A-7 were not met. Likewise, stock is not counted as outstanding stock if the owner is considered under section 318(a) to own any part of the stock owned directly or indirectly by or for a disqualified individual described in the preceding sentence. However, if all persons who hold voting power in the corporation or the entity shareholder are disqualified individuals or related persons described in either of the two preceding sentences, then stock owned by such persons is counted as outstanding stock.

(d) To be adequate disclosure for purposes of paragraph (a)(2) of this A-7, disclosure must be full and truthful disclosure of the material facts and such additional information as is necessary to make the disclosure not materially misleading at the time the disclosure was made. An omitted fact is considered a material fact if there is a substantial likelihood that a reasonable shareholder would consider it important.

(e) The following examples illustrate the application of this A-7:

Example (1). Corporation S has two shareholders—Corporation P, which owns 76 percent of the stock of Corporation S, and A, an individual who owns the remaining 24 percent. No stock of

Corporation P is readily tradable on an established securities market (or otherwise). Stock of Corporation S represents a substantial portion of the assets of Corporation P All of the stock of Corporation S is sold to Corporation M. Contingent on the change in ownership of Corporation S, severance payments are made to the officers of Corporation S in excess of 3 times each officer's base amount. If the payments are approved by a separate vote of the persons who hold, immediately before the sale, more than 75 percent of the voting power of the outstanding stock of Corporation P and the disclosure rules of paragraph (a)(2) of this A-7 are compiled with, the shareholder approval requirements of this A-7 are met, and the payments are exempt from the definition of "parachute payment" pursuant to A-6 of this section.

Example (2). Corporation M is wholly owned by Partnership P, no interest in which is readily tradable on an established securities market (or otherwise). Stock of Corporation M represents a substantial portion of the assets of Partnership P. Partnership P has one general partner and 200 limited partners. None of the limited partners are entitled to vote on issues involving the management of the partnership investments. If the payments are approved by the general partner and the disclosure rules of paragraph (a)(2) of this A-7 are complied with, the shareholder approval requirements of this A-7 are met, and the payments are exempt from the definition of "parachute payment" pursuant to A-6 of this section.

Q-8: Which payments under a qualified plan are exempt from the definition of "parachute payment"?

A-8: The term "parachute payment" does not include any payment to or from—

(a) A plan described in section 401-(a) which includes a trust exempt from tax under section 501(a),

(b) An annuity plan described in section 403(a), or

(c) A simplified employee pension (as defined in section 408(k)).

Q-9: Which payments of reasonable compensation are exempt from the definition of "parachute payment"?

A-9: Except in the case of securities violation parachute payments, the term "parachute payment" does not include any payment (or portion thereof) which the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services to be rendered by the disqualified individual on or after the date of the change in ownership or control. See Q/A-38 through Q/A-44 for rules on determining amounts of reasonable compensation. See Q/A-37 for the definition and treatment of securities violation parachute payments.

Payor of Parachute Payments

Q-10: Who may be the payor of parachute payments?

A-10: Parachute payments within the meaning of Q/A-2 of this section may be paid directly or indirectly by the corporation referred to in paragraph (a)(3) of A-2 of this section, by a person acquiring ownership or effective control of that corporation or ownership of a substantial portion of that corporation's assets, or by any person whose relationship to such corporation or other person is such as to require attribution of stock ownership between the parties under section 318(a).

Payments in the Nature of Compensation

Q-11: What types of payments are in the nature of compensation?

A-11: (a) In general, for purposes of this section, all payments—in whatever form—are payments in the nature of compensation if they arise out of an employment relationship or are associated with the performance of services. For this purpose, the performance of services includes holding oneself out as available to perform services and refraining from performing services (such as under a covenant not to compete or similar arrangement). Payments in the nature of compensation include (but are not limited to) wages and salary, bonuses, severance pay, fringe benefits, and pension benefits and other deferred compensation (including any amount characterized by the parties as interest thereon). However, payments in the nature of compensation do not include attorney's fees or court costs paid or incurred in connection with the payment of any amount described in paragraph (a)(1), (2), and (3) of A-2 of this section.

(b) Transfers of property are treated as payments for purposes of this A-11. See Q/A-12 for rules on determining when such payments are considered made and the amount of such payments. See Q/A-13 for special rules on transfers of nonqualified stock options.

Q-12: If a property transfer to a disqualified individual is a payment in the nature of compensation, when is the payment considered made (or to be made), and how is the amount of the payment determined?

A-12: (a) Except as provided in this A-12 and A-13 of this section, a transfer of property is considered a payment made (or to be made) in the taxable year in which the property transferred is includible in the gross income of the disqualified individual under section 83 and the regulations thereunder. Thus, in general, such a payment is considered made (or to be made) when the property is transferred (as defined in §1.83-3(a)) to the disqualified individual and becomes substantially vested as defined in §1.83-3(b)) in such individual. In such case, the amount of the payment is determined under section 83 and the regulations thereunder. Thus, in general, the amount of the payment is equal to the excess of the fair market value of the transferred property (determined without regard to any lapse restriction, as defined in §1.83-3(i)) at the time that the property becomes substantially vested, over the amount (if any) paid for the property.

(b) An election made by a disqualified individual under section 83(b) with respect to transferred property will not apply for purposes of this A-12. Thus, even if such an election is made with respect to a property transfer that is a payment in the nature of compensation, the payment is generally considered made (or to be made) when the property is transferred to and becomes substantially vested in such individual.

(c) See Q/A-13 for rules on applying this A-12 to transfers of nonqualified stock options.

(d) *Example.* On January 1, 1986, Corporation M gives to A, a disqualified individual, in connection with his performance of services to Corporation M, a bonus of 100 shares of Corporation M stock. Under the terms of the bonus arrangement A is obligated to return the Corporation M stock to Corporation M unless the earnings of Corporation M double by January 1, 1989, or there is a change in ownership or control of Corporation M before that date. A's rights in the stock are treated as substantially nonvested (within the meaning of §1.83-3(b)) during that period because A's rights in the stock are subject to a substantial risk of forfeiture (within the meaning of §1.83-3(c)) and are nontransferable (within the meaning of §1.83-3(d)). On January 1, 1988, a change in the ownership of Corporation M occurs. On that day, the fair market value of the Corporation M stock is $250 per share. Since A's rights in the Corporation M stock become substantially vested (within the meaning of §1.83-3(b)) on that day, the payment is considered made on that day, and the amount of the payment for purposes of this sectio is equal to $25,000 (100 × $250). See Q/A-39 for rules relating to the reduction of the excess parachute payment by the portion of the payment which is established to be reasonable compensation for personal services actually rendered before the date of a change in ownership or control.

Q-13: How are nonqualified stock options treated?

A-13: (a) For purposes of this section, if an option to which section 421 (relating generally to certain qualified and other options) does not apply has an ascertainable fair market value (whether or not readily ascertainable as defined in §1.83-7(b)) at the time the option becomes substantially vested (as defined in §1.83-3(b), the option shall be treated as property that is transferred not later than the time at which the option becomes substantially vested. Thus, for purposes of this section, the vesting of such an option is treated as a payment in the nature of compensation. The value of an option with a readily ascertainable fair market value at the time the option vests shall be determined by applying the rules set forth in §1.83-7(b). The value of an option with an ascertainable fair market value at the time the option vests is determined under all the facts and circumstances in the particular case. Factors relevant to such a determination include, but are not limited to: (1) the difference between the option's exercise price and the value of the property subject to the option the time of vesting; (2) the probability of the value of such property increasing or decreasing; and (3) the length of the period during which the option can be exercised. See Q/A-33 for the treatment of options the vesting of which is contingent on a change in ownership or control and that do not have an ascertainable fair market value at the time of vesting.

(b) Any money or other property transferred to the disqualified individual upon the exercise, or as consideration upon the sale or other disposition, of an option described in paragraph (a) of this A-14 after the time such option vests is not treated as a payment in the nature of compensation to the disqualified individual under A-11 of this section. Nonetheless, the amount of the otherwise allowable deduction under section 162 or 212 with respect to such transfer shall be reduced by the amount of the payment described in paragraph (a) of this section treated as an excess parachute payment.

(c) (The issue of whether an option to which section 421 applies will be treated as a payment for purposes of this section at the time of grant or at a later time is reserved for future regulations.)

Q-14: Are payments in the nature of compensation reduced by consideration paid by the disqualified individual?

A-14: Yes. To the extent not otherwise taken into account under Q/A-12 and Q/A-13 of this section, the amount of any payment in the nature of compensation is reduced by the amount of any money or the fair market value of any property (owned by the disqualified individual without restriction) that is (or will be) transferred by the disqualified individual in exchange for the payment. For purposes of the preceding sentence, the fair market value of property is determined as of the date the property is transferred by the disqualified individual.

Disqualified Individuals

Q-15: Who is a "disqualified individual"?

A-15: For purposes of this section, an individual is a disqualified individual with respect to a corporation if, at any time during the "disqualified individual determination period" (as defined in Q/A-20 of this section), the individual is an employee or independent contractor of the corporation and is, with respect to the corporation—

(a) A shareholder (but see Q/A-17),

(b) An officer (see Q/A-18), or

(c) A highly-compensated individual (see Q/A-19).

Q-16: Is a personal service corporation treated as an individual?

A-16: (a) Yes. For purposes of this section, a personal service corporation (as defined in section 269A(b)(1)), or a noncorporate entity that would be a personal service corporation if it were a corporation, is treated as an individual.

(b) *Example.* Corporation N, a personal service corporation (as defined in section 269A(b)(1)), has a single individual as its sole shareholder and employee. Corporation N performs personal services for Corporation M as an independent contractor. The compensation paid to Corporation N by Corporation M puts Corporation N within the group of the highly-compensated individuals of Corporation M as determined under A-18 of this section. Hence, Corporation N is treated as a highly-compensated individual with respect to Corporation M.

Q-17: Are all shareholders of a corporation considered shareholders for purposes of paragraph (a) of A-15 of this section?

A-17: No. Only an individual who owns stock of a corporation having a fair market value that exceeds the lesser of $1 million, or 1 percent of the total fair market value of the outstanding shares of all classes of the corporation's stock, is treated as a disqualified individual with respect to the corporation by reason of stock ownership. An individual who owns a lesser amount of stock may, however, be a disqualified individual with respect to the corporation by reason of being an officer or highly-compensated individual with respect to the corporation. For purposes of determining the amount of stock owned by an individual, the constructive ownership rules of section 318(a) shall apply.

Q-18: Who is an officer?

A-18: (a) For purposes of this section, whether an individual is an officer with respect to a corporation is determined upon the basis of all the facts and circumstances in the particular case (such as the source of the individual's authority, the term for which the individual is elected or appointed, and the nature and extent of the individual's duties). Generally, the term "officer" means an administrative executive who is in regular and continued service. The term "officer" implies continuity of service and excludes those employed for a special and single transaction. An individual who merely has the title of officer but not the authority of an officer is not considered an officer for purposes of this section. Similarly, an individual who does not have the title of officer but has the authority of an officer is an officer for purposes of this section.

(b) An individual who is an officer with respect to any member of an affiliated group that is treated as one corporation pursuant to Q/A-46 of this section is treated as an officer of such one corporation.

(c) No more than 50 employees (or, if less, the greater of 3 employees, or 10 percent of the employees (rounded up to the nearest integer)) of the corporation (in the case of an affiliated group treated as one corporation, each member of the affiliated group) shall be treated as disqualified individuals with respect to a corporation by reason of being an officer of the corporation. For purposes of the preceding sentence, the number of employees of the corporation is the greatest number of employees the corporation has during the disqualified individual determination period (as defined in Q/A-20 of this section). If the number of officers of the corporation exceeds the number of employees who may be treated as officers under the first sentence of this paragraph (c), then the employees who are treated as officers for purposes of this section are the highest paid 50 employees (or, if less, the greater of 3 employees, or 10 percent of the employees (rounded up to the nearest integer)) of the corporation when ranked on the basis of compensation (as determined under Q/A-21 of this section) paid during the disqualified individual determination period.

Q-19: Who is a "highly-compensated individual"?

A-19: (a) For purposes of this section, a "highly- compensated individual" with respect to a corporation is any individual who is, or would be if the individual were an employee, a member of the group consisting of the lesser of (1) the highest paid 1 percent of the employees of the corporation (rounded up to the nearest integer), or (2) the highest paid

250 employees of the corporation, when ranked on the basis of compensation (as determined under Q/A-21 of this section) paid during the disqualified individual determination period (as defined in Q/A-20 of this section). However, no individual whose annualized compensation during the disqualified individual determination period is less than $75,000 will be treated as a highly-compensated individual.

(b) An individual who is not an employee of the corporation is not treated as a highly-compensated individual with respect to the corporation on account of compensation received for performing services (such as brokerage, legal, or investment banking services) in connection with a change in ownership or control of the corporation, if the services are performed in the ordinary course of the individual's trade or business and the individual performs similar services for a significant number of clients unrelated to the corporation.

(c) In determining the total number of employees of a corporation for purposes of this A-19, employees are not counted if they normally work less than 17 1/2 hours per week (as defined in section 414(q)(8)(B) and the regulations thereunder) or if they normally work during not more than 6 months during any year (as defined in section 414(q)(8)(C) and the regulations thereunder). However, an employee who is not counted for purposes of the preceding sentence may still be a highly-compensated individual.

Q-20: What is the "disqualified individual determination period"?

A-20: (a) The "disqualified individual determination period" is the portion of the year of the corporation ending on the date of the change in ownership or control of the corporation (the "change in ownership period") and the twelve month period immediately preceding such change in ownership period. For purpose of this A-20, a corporation may elect to use its taxable year or the calendar year. For this purpose, the taxable year of an affiliated group treated as one corporation pursuant to Q/A-46 of this section is the taxable year of the common parent.

(b) The provisions of this A-20 may be illustrated by the following examples:

Example (1). A change in ownership of Corporation M, a calendar year corporation, takes place on June 12, 1988. The disqualified individual determination period of Corporation M begins on January 1, 1987 and ends on June 12, 1988.

Example (2). Assume the same facts as example (1), except that Corporation M is a fiscal year taxpayer with a taxable year ending on May 31. Corporation M may elect as its disqualified individual determination period either the period beginning on January 1, 1987, and ending on June 12, 1988, or the period beginning on June 1, 1987, and ending on June 12, 1988.

Q-21: How is "compensation" defined?

A-21: (a) For purposes of this section, the term "compensation" is the compensation which was payable by the corporation with respect to which the change in ownership or control occurs ("changed corporation"), by a predecessor entity, or by a related entity. Such compensation shall be determined without regard to sections 125, 402(a)(8), and 402(h)(1)(B), and in the case of employer contributions made pursuant to a salary reduction agreement, without regard to section 403(b). Thus, for example, compensation includes elective or salary reduction contributions to a cafeteria plan, cash or deferred arrangement or tax-sheltered annuity.

(b) For purposes of this section, a "predecessor entity" is any entity which, as a result of a merger, consolidation, purchase or acquisition of property or stock, corporate separation, or other similar business transaction transfers some or all of its employees to the changed corporation or to a related entity or to a predecessor entity of the changed corporation. The term "related entity" includes: (1) all members of a controlled group of corporations (as defined in section 414(b)) that includes the changed corporation or a predecessor entity; (2) all trades or business (whether or not incorporated) that are under common control (as defined in section 414(c)) if such group includes the changed corporation or a predecessor entity; (3) all members of an affiliated service group (as defined in section 414(m)) that includes the changed corporation or a predecessor entity; and (4) any other entities required to be aggregated with the changed corporation or a predecessor entity pursuant to section 414(o) and the regulations thereunder (except leasing organizations as defined in section 414(n)).

(c) For purposes of Q/A-18 and Q/A-19 of this section, compensation that was contingent on the change in ownership or control and that was payable in the year of the change shall not be treated as compensation.

Contingent on Change in Ownership or Control

Q-22: When is a payment "contingent" on a change in ownership or control?

A-22: (a) In general, a payment is treated as "contingent" on a change in ownership or control if the payment would not, in fact, have been made had no change in ownership or control occurred. A payment generally is to be treated as one which would not, in fact, have been made in the absence of a change in ownership or control unless it is substantially certain, at the time of the change, that the payment would have been made whether or not the change occurred. (But see Q/A-23 of this section regarding payments under agreements entered into after a change in ownership or control.) Property that becomes substantially vested (as defined in §1.83-3(b)) as a result of a change in ownership or control will not be treated as a payment which was substantially certain to have been made whether or not the change occurred.

(b) A payment is also generally treated as contingent on a change in ownership or control if—

(1) The payment is contingent on an event that is closely associated with a change in ownership or control,

(2) A change in ownership or control actually occurs, and

(3) The event is materially related to the change in ownership or control.

For purposes of paragraph (b)(1) of this A-22, a payment is treated as contingent on an event that is closely associated with a change in ownership or control unless it is substantially certain, at the time of the event, that the payment would have been made whether or not the event occurred. An event is considered closely associated with a change in ownership or control if the event is of a type often preliminary or subsequent to, or otherwise closely associated with, a change in ownership or control. For example, the following events are considered closely associated with a change in the ownership or control of a corporation: the onset of a tender offer with respect to the corporation; a substantial increase in the market price of the corporation's stock that occurs within a short period (but only if such increase occurs prior to a change in ownership or control); the cessation of the listing of the corporation's stock on an established securities market; the acquisition of more than 5 percent of the corporation's stock by a person (or more than one person acting as a group) not in control of the corporation; the voluntary or involuntary termination of the disqualified individual's employment; and a significant reduction in the disqualified individual's job responsibilities. Whether other events will be treated as closely associated with a change in ownership or control will be based on all the facts and circumstances of the particular case. For purposes of paragraph (b)(3) of this A-22, an event will be presumed to be materially related to a change in ownership or control if the event occurs within the period beginning one year before and ending one year after the date of change in ownership or control. If such event occurs outside of the period beginning one year before and ending one year after the date of change in ownership or control, the event will be presumed not to be materially related to the change in ownership or control.

(c) A payment that would in fact have been made had no change in ownership or control occurred is treated as contingent on a change in ownership or control if the change accelerates the time at which the payment is made. Thus, for example, if a change in ownership or control accelerates the time of payment of vested deferred compensation, the payment may be treated as contingent on the change. See Q/A-24 regarding the portion of a payment that is so treated. See also Q/A-8 regarding the exemption for certain payments under qualified plans and Q/A-40 regarding treatment of a payment as reasonable compensation.

(d) A payment is treated as contingent on a change in ownership or control even if the employment or independent contractor relationship of the disqualified individual is not terminated (voluntarily or involuntarily) as a result of the change.

(e) The following examples illustrate the principles of this A-22:

Example (1). A contract between a corporation and A, a disqualified individual, provides that a payment will be made to A if his employment with the corporation is terminated at any time over the succeeding 3 years. Eighteen months later, a change in the ownership of the corporation occurs. Six months after the change in ownership, A's employment is terminated and the payment is made to A. It was not substantially certain, at the time of A's termination, that the payment would have been made had A's employment not been terminated. Termination of employment is considered closely associated with a change in ownership or control. Because the termination occurred within one year after the date of the change in ownership the termination of A's employment is presumed to be materially related to the change in ownership. If this presumption is not rebutted, the payment will be treated as contingent on the change in ownership.

Example (2). A contract between a corporation and a disqualified individual provides that a payment will be made to the individual upon the onset of a tender offer for shares of the corporation's stock. A tender offer is made on December 1, 1988, and the payment is made to the disqualified individual. Although the tender offer is unsuccessful, it leads to a negotiated merger with another entity on June 1, 1989, which results in a change in the ownership of the corporation. It was not substantially certain, at the time of the onset of the tender offer, that the payment would have been made had no tender offer taken place. The onset of a tender offer is considered closely associated with a change in ownership or control. Because the tender offer occurred within one year before the date of the change in ownership of the corporation, the onset of the tender offer is presumed to be materially related to the change in ownership. If this presumption is not rebutted, the payment will be treated as contingent on the change in ownership. If no change in ownership or control had occurred, the payment would not be treated as contingent on a change in ownership or control; however, the payment still could be a parachute payment under Q/A-37 of this section if the contract violated a generally enforced securities law or regulation.

Example (3). A contract between a corporation and a disqualified individual provides that a payment will be made to the individual if the corporation's level of product sales or profits reaches a specified level. At the time the contract was entered into, the parties had no reason to believe that such an increase in the corporation's level of product sales or profits would be preliminary or subsequent to, or otherwise closely associated with, a change in ownership or control of the corporation. Eighteen months later, a change in the ownership of the corporation occurs and within one year after the date of the change, the corporation's level of product sales or profits reaches the specified level. Under these facts and circumstances (and in the absence of contradictory evidence), the increase in product sales or profits of the corporation is not an event closely associated with the change in ownership or control of the corporation. Accordingly, even if the increase is materially related to the change, the payment will not be treated as contingent on a change in ownership or control.

Q-23: May a payment be treated as contingent on a change in ownership or control if the payment is made under an agreement entered into after the change?

A-23: (a) No. Payments are not treated as contingent on a change in ownership or control if they are made (or to be made) pursuant to an agreement entered into after the change. For this purpose, an agreement that is executed after a change in ownership or control, pursuant to a legally enforceable agreement that was entered into before the change, will be considered to have been entered into before the change. (See Q/A-9 regarding the exemption for reasonable compensation for services rendered on or after a change in ownership or control.)

(b) The following examples illustrate the principles of this A-23:

Example (1). Assume that a disqualified individual is an employee of a corporation. A change in control of the corporation occurs, and thereafter the individual enters into an employment agreement with the acquiring company. Since the agreement is entered into after the change in control occurs, payments to be made under agreement are not treated as contingent on the change.

Example (2). Assume the same facts as in example (1), except that the agreement between the disqualified individual and the acquiring company is executed after the change in control, pursuant to a legally enforceable agreement entered into before the change. Payments to be made under the agreement may be treated as contingent on the change in control pursuant to Q/A-22 of this section. However, see Q/A-9 regarding the exemption from the definition of parachute payment for certain amounts of reasonable compensation.

Q-24: If a payment is treated as contingent on a change in ownership or control, is the full amount of the payment so treated?

A-24: (a) Generally, yes. However, in certain circumstances, described in paragraphs (b) and (c) of this A-24, only a portion of the payment is treated as contingent on the change.

(b) This paragraph (b) applies if it is substantially certain, at the time of the change, that the payment would have been made whether or not the change occurred, but the payment is treated as contingent on the change solely because the change accelerates the time at which the payment is made. In such case, the portion of the payment that is treated as contingent on the change in ownership or control is the amount by which the amount of the accelerated payment exceeds the present value of the payment absent the acceleration. If the amount of such a payment absent the acceleration is not reasonably ascertainable, and the acceleration of the payment does not significantly increase the present value of the payment absent the acceleration, the present value of the payment absent the acceleration shall be treated as equal to the amount of the accelerated payment. For rules on determining present value, see paragraph (d) of this A-24, and Q/A-32 and Q/A-33.

(c) (1) This paragraph (c) applies in the case of a payment that is accelerated by a change in ownership or control and that was substantially certain, at the time of the change, to have been made without regard to the change if the disqualified individual had continued to perform services for the corporation for a specified period of time. In such case, the portion of the payment that is treated as contingent on the change in ownership or control is the lesser of—

(i) The amount of the accelerated payment; or

(ii) The amount by which the amount of the accelerated payment exceeds the present value of the payment that was expected to be made absent the acceleration (determined without regard to the risk of forfeiture for failure to continue to perform services), plus an amount, as determined in paragraph (c)-(2) of this A-24, to reflect the lapse of the obligation to continue to perform services.

If the value of the payment that was expected to be made absent the acceleration is not reasonably ascertainable, the future value of such payment shall be deemed to be equal to the amount of the accelerated payment.

(2) The amount reflecting the lapse of the obligation to continue to perform services (described in paragraph (c)(1)(ii) of this A-24) will depend on all of the facts and circumstances. In no event, however, shall such amount be less than 1 percent of the amount of the accelerated payment multiplied by the number of full months between the date that the individual's right to receive the payment is not subject to any requirement or condition which would be treated as resulting in a substantial risk of forfeiture (within the meaning of §1.83-3(c)) and the date that, absent the acceleration the individual's right to receive the payment would not have been subject to any requirement or condition which would be treated as resulting in a substantial risk of forfeiture.

(d) For purposes of this A-24, the present value of a payment is determined as of the date on which the accelerated payment is made.

(e) The following examples illustrate the principles of this A-24:

Example (1). A corporation and a disqualified individual enter into a contract providing that, if a change in the ownership or control of the corporation occurs, all of the nonforfeitable deferred compensation the individual has earned prior thereto will be paid immediately. The deferred compensation otherwise will be paid when the individual reaches age 60. A change in the ownership of the corporation occurs, and the deferred compensation is immediately paid. Since the payment would have been made in any event when the individual reached age 60, it is substantially certain, at the time of the change, that the payments would have been made whether or not the change occurred. The payment is treated as contingent on the change in ownership or control solely because the change accelerates the time at which the payments are made. Therefore, the portion of the payment treated as contingent on the change is the amount by which the amount of the accelerated payment (*i.e.*, the amount paid to the individual because of the change in ownership or control) exceeds the present value of the payment absent the acceleration (*i.e.*, the value of the deferred compensation at the time of the change in ownership or control, if the compensation had remained nonpayable until age 60).

Example (2). A corporation grants a stock appreciation right to a disqualified individual. After the stock appreciation right vests and becomes exercisable, a change in the ownership of the corporation occurs, and the individual exercises the right. Neither the granting nor the vesting of the stock appreciation right was treated as a payment in the nature of compensation. Even if the change in ownership accelerates the time at which the right is exercised, no portion of the payment received upon exercise of the right is treated as contingent on the change, since the amount of the accelerated payment does not exceed the present value of the payment absent the acceleration.

Example (3). As a result of a change in the effective control of a corporation, a disqualified individual with respect to the corporation receives payment of his vested account balance in a nonqualified individual account plan. Actual interest and other earnings on the plan assets are credited to each account as earned and before distribution. Investment of the plan assets is not restricted in such a manner as would prevent the earning of a market rate of return on the plan assets. The date on which the individual would have received his vested account balance absent the change in control is uncertain, and the rate of earnings on the plan assets is not fixed. Thus, the amount of the payment absent the acceleration is not reasonably ascertainable. Under these facts, acceleration of the payment does not significantly increase the present value of the payment absent the acceleration, and the present value of the payment absent the acceleration shall be treated as equal to the amount of the accelerated payment. Accordingly, no portion of the payment is treated as contingent on the change.

Example (4). As a result of a change in the effective control of a corporation, a disqualified individual with respect to the corporation receives payment of the individual's vested benefits under a nonqualified pension plan which the individual otherwise would have received upon retirement. The amount of the benefits is not actuarially reduced to reflect its earlier payment. The payment is treated as contingent on the change in control solely because the change accelerates the time at which the payment is made. Therefore, the portion of the payment treated as contingent on the change is the amount by which the amount of the accelerated payment exceeds the present value of the payment absent the acceleration.

Example (5). On January 15, 1986, a corporation and a disqualified individual enter into a contract providing for a cash payment of $500,000 to be made to the individual on January 15, 1991. The payment is to be forfeited by the individual if he does not remain employed by the corporation for the entire 5-year period. However, the full amount of the payment is to be made immediately upon a change in the ownership or control of the corporation during the 5-year period. On January 15, 1989, a change in the ownership of the corporation occurs and the full amount of the payment ($500,000) is made on that date to the individual. Since the payment would have been made in the absence of the change if the individual had continued to perform services for the corporation until the end of the five year period, it is substantially certain, at the time of the change, that the payment would have been made in the absence of the change if the individual had continued to perform services for the corporation for a specified period of time. Therefore, only a portion of the payment is treated as contingent on the change. The portion of the payment that is treated as contingent on the change is the amount by which the amount of the accelerated payment (*i.e.*, $500,000, the amount paid to the individual because of the change in ownership) exceeds the present value of the payment that was expected to have been made absent the acceleration (*i.e.*, $406,838, the present value on January 15, 1989, of a $500,000 payment on January 15, 1991), plus an amount reflecting the lapse of the obligation to continue to perform services. Such amount will depend on all the facts and circumstances but in no event will such amount be less than $115,000 (1% × 23 months × $500,000). Accordingly, the minimum amount of the payment treated as contingent on the change in ownership or control is $208,162 ([$500,000 -$406,838] + $115,000). This result is not changed if the individual actually remains employed until the end of the 5-year period.

Example (6). (i) On January 15, 1986, a corporation gives to a disqualified individual, in connection with his performance of services to the corporation, a bonus of 1,000 shares of the corporation's stock. Under the terms of the bonus arrangement, the individual is obligated to return the stock to the corporation if she terminates her employment for any reason prior to January 15, 1991. However, if there is a change in the ownership or effective control of the corporation prior to January 15, 1991, she ceases to be obligated to return the stock. The individual's rights in the stock are treated as substantially nonvested (within the meaning of §1.83-3(b)) during that period. On January 15, 1989, a change in the ownership of the corporation occurs. On that day, the fair market value of the stock is $500,000.

(ii) Since the stock would have become substantially vested in the individual in the absence of the change if she had continued to perform services for the corporation through January 15, 1991, it is substantially certain, at the time of the change, that the payment would have been made in the absence of the change if the individual had continued to perform services for the corporation for a specified period of time. Thus, only a portion of the payment is treated as contingent on the change in ownership or control. The portion of the payment that is treated as contingent on the change is the amount by which the amount of the accelerated payment on January 15, 1989 ($500,000), exceeds the present value of the payment that was expected to have been made on January 15, 1991, plus an amount reflecting the lapse of the obligation to continue to perform services. Assuming that, at the time of the change, it cannot be reasonably ascertained what the value of the stock would have been on January 15, 1991, the future value of such stock on January 15, 1991, is deemed to be $500,000, the amount of the accelerated payment. The present value on January 15, 1989, of a $500,000 payment to be made on January 15, 1991, is $406,838. Thus, the portion of the payment treated as contingent on the change is $93,162 ($500,000 − $406,838), plus an amount reflecting the lapse of the obligation to continue to perform services. Such amount will depend on all the facts and circumstances but in no event will such amount be less than $115,000 [1% × 23 months × $500,000].

Example (7). (i) On January 15, 1986, a corporation grants to a disqualified individual nonqualified stock options to purchase 30,000 shares of the corporation's stock. The options do not have a readily ascertainable fair market value at the time of grant. The options will be forfeited by the individual if he fails to perform personal services for the corporation until January 15, 1989. The options will, however, substantially vest in the individual at an earlier date if there is a change in ownership or control of the corporation. On January 16, 1988, a change in the ownership of the corporation occurs and the options become substantially vested in the individual. On January 16, 1988, the options have an ascertainable fair market value of $600,000.

(ii) At the time of the change, it is substantially certain that the payment of the options to purchase

30,000 shares would have been made in the absence of the change if the individual had continued to perform services for the corporation until January 15, 1989. Therefore, only a portion of the payment is treated as contingent on the change. The portion of the payment that is treated as contingent on the change is the amount by which the amount of the accelerated payment on January 16, 1988 ($600,000) exceeds the present value on January 16, 1988, of the payment that was expected to have been made on January 15, 1989, absent the acceleration, plus an amount reflecting the lapse of the obligation to continue to perform services. Assuming that, at the time of the change, it cannot be reasonably ascertained what the value of the options would have been on January 15, 1989, the value of such options on January 16, 1988, is deemed to be $600,000, the amount of the accelerated payment. The present value on January 16, 1988, of a $600,000 payment to be made on January 15, 1989, is $549,964.13. Thus, the portion of the payment treated as contingent on the change is $50,035.87 ($600,000 − $549,964.13), plus an amount reflecting the lapse of the obligation to continue to perform services. Such amount will depend on all the facts and circumstances but in no event will such amount be less than $66,000 (1% × 11 months × $600,000).

Example (8). (i) The facts are the same as in example (7), except that the options become substantially vested periodically (absent a change in ownership of control), with one-third of the options vesting on January 15, 1987, 1988, and 1989, respectively. Thus, options to purchase 20,000 shares vest independently of the January 16, 1988, change in ownership and the options to purchase the remaining 10,000 shares vest as a result of the change.

(ii) At the time of the change, it is substantially certain that the payment of the options to purchase 10,000 shares would have been made without regard to the change if the individual had continued to perform services for the corporation until January 15, 1989. Therefore, only a portion of the payment is treated as contingent on the change. The portion of the payment that is treated as contingent on the change is the amount by which the amount of the accelerated payment on January 16, 1988 ($200,000) exceeds the present value on January 16, 1988, of the payment that was expected to have been made on January 15, 1989, absent the acceleration, plus an amount reflecting the lapse of the obligation to continue to perform services. Assuming that, at the time of the change, it cannot be reasonably ascertained what the value of the options would have been on January 15, 1989, the value of such options on January 16, 1988, is deemed to be $200,000, the amount of the accelerated payment. The present value on January 16, 1988, of a $200,000 payment to be made on January 15, 1989, is $183,328.38. Thus, the portion of the payment treated as contingent on the change is $16,671.62 ($200,000 − $183,328.38), plus an amount reflecting the lapse of the obligation to continue to perform services. Such amount will depend on all the facts and circumstances but in no event will such amount be less than $22,000 (1% × 11 months × $200,000).

Example (9). Assume the same facts as in example (7), except that the option agreement provides that the options will vest either upon the corporation's level of profits reaching a specified level, or if earlier, on the date on which there is a change in ownership or control of the corporation. The corporation's level of profits do not reach the specified level prior to January 16, 1988. In such case, the full amount of the payment, $600,000, is treated as contingent on the change because it was not substantially certain, at the time of the change, that the payment would have been made in the absence of the change if the individual had continued to perform services for the corporation for a specified period of time. See Q/A-39 for rules relating to the reduction of the excess parachute payment by the portion of the payment which is established to be reasonable compensation for personal services actually rendered before the date of a change in ownership or control.

Presumption That Payment is Contingent on Change

Q-25: Is there a presumption that certain payments are contingent on a change in ownership or control?

A-25: Yes. For purposes of this section, any payment pursuant to—

(a) An agreement entered into within one year before the date of a change in ownership or control, or

(b) An amendment that modifies a previous agreement in any significant respect, if the amendment is made within one year before the date of a change in ownership or control,

is presumed to be contingent on such change unless the contrary is established by clear and convincing evidence. In the case of an amendment described in paragraph (b) of this A-25, only the portion of any payment that exceeds the amount of such payment that would have been made in the absence of the amendment is presumed, by reason of the amendment, to be contingent on the change in ownership or control.

Q-26: How may the presumption described in Q/A-25 of this section be rebutted?

A-26: (a) To rebut the presumption described in Q/A-25 of this section, the taxpayer must establish by clear and convincing evidence that the payment is not contingent on the change in ownership or control. Whether the payment is contingent on such change is determined on the basis of all the facts and circumstances of the particular case. Factors relevant to such a determination include, but are not limited to: (1) the content of the agreement or amendment; and (2) the circumstances surrounding the execution of the agreement or amendment, such as whether it was entered into at a time when a takeover attempt had commenced and the degree of likelihood that a change in ownership or control would actually occur.

(b) In the case of an agreement described in paragraph (a) of A-25 of this section, clear and convincing evidence that the agreement is one of the three following types will generally rebut the presumption that payments under the agreement are contingent on the change in ownership or control:

(1) A "nondiscriminatory employee plan or program" as defined in paragraph (c) of this A-26;

(2) A contract between a corporation and an individual that replaces a prior contract entered into by the same parties more than one year before the change in ownership or control, if the new contract does not provide for increased payments (apart from normal increases attributable to increased responsibilities or cost of living adjustments), accelerate the payment of amounts due at a future time, or modify (to the individual's benefit) the terms or conditions under which payments will be made; or

(3) A contract between a corporation and an individual who did not perform services for the corporation prior to the individual's taxable year in which the change in ownership or control occurs, if the contract does not provide for payments that are significantly different in amount, timing, terms, or conditions from those provided under contracts entered into by the corporation (other than contracts that themselves were entered into within one year before the change in ownership or control and in contemplation of the change) with individuals performing comparable services.

However, even if the presumption is rebutted with respect to an agreement, payments under the agreement still may be contingent on the change in ownership or control pursuant to Q/A-22 of this section.

(c) For purposes of this section, the term "nondiscriminatory employee plan or program" means: a group term life insurance plan that meets the requirements of section 79(d); an employee benefit plan that meets the requirements of section 89(d) and (e); a self insured medical reimbursement plan that meets the requirements of section 105(h); a qualified group legal services plan (within the meaning of section 120); a cafeteria plan (within the meaning of section 125); an educational assistance program (within the meaning of section 127); and a dependent care assistance program (within the meaning of section 129). Payments under certain other plans are exempt from the definition of "parachute payment" under Q/A-8 of this section.

(d) The following examples illustrate the application of the presumption:

Example (1). A corporation and a disqualified individual who is an employee of the corporation enter into an employment contract. The contract replaces a prior contract entered into by the same parties more than one year before the change and the new contract does not provide for any increased payments other than a cost of living adjustment, does not accelerate the payment of amounts due at a future time, and does not modify (to the individual's benefit) the terms or conditions under which payments will be made. Clear and convincing evidence of these facts rebuts the presumption described in A-25 of this section. However, payments under the contract still may be contingent on the change in ownership or control pursuant to Q/A-22 of this section.

Example (2). Assume the same facts as in example (1), except that the contract is entered into after a tender offer for the corporation's stock had commenced and it was likely that a change in ownership would occur and the contract provides for a substantial bonus payment to the individual upon his signing the contract. The individual has performed services for the corporation for many years, but previous employment contracts between the corporation and the individual did not provide for a similar signing bonus. One months after the contract is entered into, a change in the ownership of the corporation occurs. All payments under the contract are presumed to be contingent on the change in ownership even though the bonus payment would have been legally required even if no change had occurred. Clear and convincing evidence of these facts rebuts the presumption described in A-25 of this section with respect to all of the payments under the contract with the exception of the bonus payment (which is treated as contingent on the change). However, such payments under the contract still may be contingent on the change in ownership or control pursuant to Q/A-22 of this section.

Change in Ownership or Control

Q-27: When does a change in the ownership of a corporation occur?

A-27: (a) For purposes of this section, a change in the ownership or control of a corporation occurs on the date that any one person, or more than one person acting as a group, acquires ownership of stock of the corporation that, together with stock held by such person or group,possesses more than 50 percent of the total fair market value or total voting power of the stock of such corporation. However, if any one person, or more than one person acting as a group, is considered to own more than 50 percent of the total fair market value or total voting power of the stock of a corporation, the acquisition of additional stock by the same person or persons is not considered to cause a change in the ownership of the corporation (or to cause a change in the effective control of the corporation (within the meaning of Q/A-28 of this section)). An increase in the percentage of stock owned by any one person, or persons acting as a group, as a result of a transaction in which the corporation acquires its stock in exchange for property will be treated as an acquisition of stock for purposes of this section.

(b) For purposes of paragraph (a) of this A-27, persons will not be considered to be "acting as a group" merely because they happen to purchase or own stock of the same corporation at the same time, or as a result of the same public offering. However, persons will be considered to be "acting as a group" if they are owners of an entity that enters into a merger, consolidation, purchase or acquisition of stock, or similar business transaction with the corporation.

(c) For purposes of this A-27, section 318(a) shall apply in determining stock ownership.

(d) The following examples illustrate the principles of this A-27:

Example (1). Corporation M has owned stock having a fair market value equal to 19 percent of the value of the stock of Corporation N (an otherwise unrelated corporation) for many years prior to 1986. Corporation M acquires additional stock having a fair market value equal to 15 percent of the value of the stock of Corporation N on January 1, 1986, and an additional 18 percent on February 21, 1987. As of February 21, 1987, Corporation M has acquired stock having a fair market value greater than 50 percent of the value of the stock of Corporation N. Thus, a change in the ownership of Corporation N is considered to occur on February 21, 1987 (assuming that Corporation M did not have effective control of Corporation N immediately prior to the acquisition on that date).

Example (2). All of the corporation's stock is owned by the founders of the corporation. The board of directors of the corporation decides to offer shares of the corporation to the public. After the public offering, the founders of the corporation own a total of 40 percent of the corporation's stock, and members of the public own 60 percent. If no one person (or more than one person acting as a group) owns more than 50 percent of the corporation's stock (by value or voting power) after the public offering, there is no change in the ownership of the corporation.

Example (3). Corporation P merges into Corporation O (a previously unrelated corporation). In the merger, the shareholders of Corporation P receive Corporation O stock in exchange for their Corporation P stock. Immediately after the merger, the former shareholders of Corporation P own stock having a fair market value equal to 60 percent of the value of the stock of Corporation O, and the former shareholders of Corporation O own stock having a fair market value equal to 40 percent of the value of the stock of Corporation O. The former shareholders of Corporation P will be treated as "acting as a group" in their acquisition of Corporation O stock. Thus, a change in the ownership of Corporation O occurs on the date of the merger.

Example (4). A, an individual, owns stock having a fair market value equal to 20 percent of the value of the stock of Corporation Q. On January 1, 1987, Corporation Q acquires in a redemption for cash all of the stock held by shareholders other than A. Thus, A is left as the sole shareholder of Corporation Q. A change in ownership of Corporation Q is considered to occur on January 1, 1987 (assuming that A did not have effective control of Corporation Q immediately prior to the redemption).

Example (5). Assume the same facts as in example (4), except that A owns stock having a fair market value equal to 51 percent of the value of all the stock of Corporation Q immediately prior to the redemption. There is no change in the ownership of Corporation Q as a result of the redemption.

Q-28: When does a change in the effective control of a corporation occur?

A-28: (a) For purposes of this section, a change in the effective control of a corporation is presumed to occur on the date that either—

(1) Any one person, or more than one person acting as a group, acquires (or has acquired during the 12 month period ending on the date of the most recent acquisition by such person or persons) ownership of stock of the corporation possessing 20 percent or more of the total voting power of the stock of such corporation; or

(2) A majority of members of the corporation's board of directors is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the corporation's board of directors prior to the date of the appointment or election.

This presumption may be rebutted by establishing that such acquisition or acquisitions of the corporation's stock, or such replacement of the majority of the members of the corporation's board of directors, does not transfer the power to control (directly or indirectly) the management and policies of the corporation from any one person (or more than one person acting as a group) to another person (or group). For purposes of this section, in the absence of an event described in paragraph (a)(1) or (2) of this A-28, a change in the effective control of a corporation is presumed not to have occurred.

(b) If any one person, or more than one person acting as a group, is considered to effectively control a corporation (within the meaning of this A-28), the acquisition of additional control of the corporation by the same person or persons is not considered to cause a change in the effective control of the corporation (or to cause a change in the ownership of the corporation within the meaning of Q/A-27 of this section).

(c) For purposes of this A-28, persons will not be considered to be "acting as a group" merely because they happen to purchase or own stock of the same corporation at the same time, or as a result of the same public offering. However, persons will be considered as "acting as a group" if they are owners of an entity that enters into a merger, consolidation, purchase or acquisition of stock, or similar business transaction with the corporation.

(d) Section 318(a) shall apply in determining stock ownership for purposes of this A-28.

(e) The following examples illustrate the principles of this A-28:

Example (1). Shareholder A acquired the following percentages of the voting stock of Corporation M (an otherwise unrelated corporation) on the following dates: 16 percent on January 1, 1985; 10 percent on January 10, 1986; 8 percent on February 10, 1986; 11 percent on March 1, 1987; and 8 percent on March 10, 1987. Thus, on March 10, 1987, A owns a total of 53 percent of M's voting stock. Since A did not acquire 20 percent or more of M's voting stock during any 12-month period, there is no presumption of a change in effective control pursuant to paragraph (a)(1) of this A-28. In addition, under these facts there is a presumption that no change in the effective control of Corporation M occurred. If this presumption is not rebutted (and thus no change in effective control of Corporation M is treated as occurring prior to March 10, 1987), a change in the ownership of Corporation M will be treated as having occurred on March 10, 1987 (pursuant to Q/A-27 of this section) since A had acquired more than 50 percent of Corporation M's voting stock as of that date.

Example (2). A minority group of shareholders of a corporation opposes the practices and policies of the corporation's current board of directors. A proxy contest ensues. The minority group presents its own slate of candidates for the board at the next annual meeting of the corporation's shareholders, and candidates of the minority group are elected to replace a majority of the current members of the board. A change in the effective control of the corporation is presumed to have occurred on the date the election of the new board of directors becomes effective.

Q-29: When does a change in the ownership of a substantial portion of a corporation's assets occur?

A-29: (a) For purposes of this section, a change in the ownership of a substantial portion of a corporation's assets occurs on the date that any one person, or more than one person acting as a group, acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person or persons) assets from the corporation that have a total fair market value equal to or more than one third of the total fair market value of all of the assets of the corporation immediately prior to such acquisition or acquisitions.

(b) A transfer of assets by a corporation is not treated as a change in the ownership of such assets if the assets are transferred to—

(1) A shareholder of the corporation (immediately before the asset transfer) in exchange for or with respect to its stock,

(2) An entity, 50 percent or more of the total value or voting power of which is owned, directly or indirectly, by the corporation,

(3) A person, or more than one person acting as a group, that owns, directly or indirectly, 50 percent or more of the total value or voting power of all the outstanding stock of the corporation, or

(4) An entity, at least 50 percent of the total value or voting power is owned, directly or indirectly, by a person described in paragraph (b)(3) of this A-29.

For purposes of this paragraph (b) (except as otherwise provided), a person's status is determined immediately after the transfer of the assets. For example, a transfer of assets pursuant to a complete liquidation of a corporation, a redemption of a shareholder's interest, or a transfer to a majority-owned subsidiary of the corporation is not treated as a change in the ownership of the assets of the transferor corporation.

(c) For purposes of this A-29, section 318(a) shall apply in determining stock ownership.

(d) The following examples illustrate the principles of this A-29:

Example (1). Corporation M acquires assets having a fair market value of $500,000 from Corporation N (an unrelated corporation) on January 1, 1986. The total fair market value of Corporation N's assets immediately prior to the acquisition was $3 million. Since the value of the assets acquired by Corporation M is less than one third of the fair market value of Corporation N's total assets immediately prior to the acquisition, the acquisition does not represent a change in the ownership of a substantial portion of Corporation N's assets.

Example (2). Assume the same facts as in example (1). Also assume that on November 1, 1986, Corporation M acquires from Corporation N additional assets having a fair market value of $700,000. Thus, Corporation M has acquired from Corporation N assets worth a total of $1.2 million during the 12-month period ending on November 1, 1986. Since $1.2 million is more than one third of the total fair market value of all of Corporation N's assets immediately prior to the earlier of these acquisitions ($3 million), a change in the ownership of a substantial portion of Corporation N's assets is considered to have occurred on November 1, 1986.

Example (3). All of the assets of Corporation P are transferred to Corporation O (an unrelated corporation). In exchange, the shareholders of Corporation P receive Corporation O stock. Immediately after the transfer, the former shareholders of Corporation P own 60 percent of the fair market value of the outstanding stock of Corporation O and the former shareholders of Corporation O own 40 percent of the fair market value of the outstanding stock of Corporation O. Because Corporation O is an entity more than 50 percent of the fair market value of the outstanding stock of which is owned by the former shareholders of Corporation P, the transfer of assets is not treated as a change in ownership of a substantial portion of the assets of Corporation P.

''Three Times Base Amount Test'' for Parachute Payments

Q-30: Are all payments that are in the nature of compensation, are made to a disqualified individual, and are contingent on a change in ownership or control, parachute payments?

A-30: (a) No. To determine whether such payments are parachute payments, they must be tested against the individual's ''base amount'' (as defined in Q/A-34 of this section). To do this, the aggregate present value of all payments in the nature of compensation that are made or to be made to (or for the benefit of) the same disqualified individual and are contingent on the change in ownership or control must be determined. If this aggregate present value equals or exceeds the amount equal to 3 times the individual's base amount, the payments are parachute payments. If this aggregate present value is less than the amount equal to 3 times the individual's base amount, no portion of the payments is a parachute payment. See Q/A-31, Q/A-32, and Q/A-33 for rules on determining present value. Parachute payments that are securities violation parachute payments are not included in the foregoing computation if they are not contingent on a change in ownership or control. See Q/A-37 for the definition and treatment of securities violation parachute payments.

(b) The following examples illustrate the principles of this A-30:

Example (1). A is a disqualified individual with respect to Corporation M. A's base amount is $100,000. Payments totalling $400,000 that are in the nature of compensation and contingent on a change in the ownership of Corporation M are made to A on the date of the change. The payments are parachute payments since they have an aggregate present value at least equal to 3 times A's base amount of $100,000 (3 × $100,000 = $300,000).

Example (2). Assume the same facts as in example (1), except that the payments contingent on the change in the ownership of Corporation M total $290,000. Since the payments do not have an aggregate present value at least equal to 3 times A's base amount, no portion of the payments is a parachute payment.

Q-31: As of what date is the present value of a payment determined?

A-31: Except as provided in this section, the present value of a payment is determined as of the date on which the change in ownership or control occurs, or, if a payment is made prior to such date, the date on which the payment is made.

Q-32: What discount rate is to be used to determine present value?

A-32: For purposes of this section, present value generally is determined by using a discount rate equal to 120 percent of the applicable Federal rate (determined under section 1274(d) and the regulations thereunder) compounded semiannually. The applicable Federal rate to be used for this purpose is the Federal rate that is in effect on the date as of which the present value is determined. See Q/As 24 and 31. However, for any payment, the corporation and the disqualified individual may elect to use the applicable Federal rate that is in effect on the date that the contract which provides for the payment is entered into, if such election is made in the contract.

Q-33: If the present value of a payment to be made in the future is contingent on an uncertain future event or condition, how is the present value of the payment determined?

A-33: (a) In certain cases, it may be necessary to apply the 3-times-base-amount test of Q/A-30 of this section or to allocate a portion of the base amount to a payment described in paragraph (a)-(1), (2), and (3) of A-2 of this section at a time when the aggregate present value of all such payments cannot be determined with certainty because the time, amount, or right to receive one or more such payments is contingent on the occurrence of an uncertain future event or condition. For example, a disqualified individual's right to receive a payment may be contingent on the involuntary termination of such individual's employment with the corporation. In such a case, a reasonable estimate of the time and amount of the future payment shall be made, and the present value of the payment will be determined on the basis of this estimate. For purposes of making this estimate, an uncertain future event or condition that may reduce the present value of a payment will be taken into account only if the possibility of the occurrence of the event or condition can be determined on the basis of generally accepted actuarial principles or can be otherwise estimated with reasonable accuracy.

(b) Whenever a payment described in paragraph (a) of this A-33 is actually made or becomes certain not to be made, the 3-times-base-amount test described in Q/A-30 of this section shall be reapplied (and the portion of the base amount allocated to previous payments shall be reallocated (if necessary) to such payments) to reflect the actual time and amount of the payment. Whenever the 3-times-base-amount test is applied (or whenever the base amount is allocated), the aggregate present value of the payments received or to be received by the disqualified individual is redetermined as of the date described in A-31 of this section, using the discount rate described in A-32 of this section. This redetermination may affect the amount of any excess parachute payment for a prior taxable year.

(c) The following examples illustrate the principles of this A-33:

Example (1). A, a disqualified individual with respect to Corporation M, has a base amount of $100,000. Under his employment agreement with Corporation M, A is entitled to receive a payment in the nature of compensation in the amount of $250,000 contingent on a change in the ownership of Corporation M. In addition, the agreement provides that if A's employment is terminated within 1 year after the change in ownership, A will receive an additional payment in the nature of compensation in the amount of $150,000, payable 1 year after the date of the change in ownership. A and Corporation M are calendar year taxpayers. A change in the ownership of Corporation M occurs and A receives the first payment of $250,000. At the time Corporation M files its income tax return for the year of the change in ownership, it reasonably estimates that there is a 50-percent probability that, as a result of the change, A's employment will be terminated within 1 year of the date of the change. For purposes of applying the 3-times-base-amount test (and if the first payment is determined to be a parachute payment, for purposes of allocating a portion of A's base amount to that payment), Corporation M shall assume that an additional payment of $75,000 (.5 × $150,000) will be made to A as a result of the change in ownership. The present value of the additional payment is determined under Q/A-31 and Q/A-32 of this section.

Example (2). B, a disqualified individual with respect to Corporation N, has a base amount of $100,000. Under her employment agreement with Corporation N, B is entitled to receive payments in the nature of compensation in the amount of $20,000 per month for a period of 24 months if B terminates employment with Corporation N as a result of a change in ownership of Corporation N. Such monthly payments are to be reduced by the amount of any compensation earned by B from unrelated employers during the 24-month period. B and Corporation N are calendar year taxpayers. On June 1, 1988, there is a change in the ownership of Corporation N. As a result of the change, B voluntarily terminates employment with Corporation N and begins to receive monthly payments under the agreement. Assume that the present value, determined as of June 1, 1988, of a stream of 24-monthly payments of $20,000, is $438,134. At the time Corporation N files its income tax return for 1988, it cannot be determined with reasonable accuracy whether B will earn any compensation from unrelated employers during the 24-month period. Accordingly, the present value of the payments to be received by B ($438,134) exceeds 3 times B's base amount ($300,000) and a portion of each of the 1988 payments will be treated as an excess parachute payment for the 1988 taxable year.

Example (3). Assume the same facts as in example (2), except that in April 1989 B becomes employed by an employer unrelated to Corporation N. At the time Corporation N files its income tax return for 1989, it has become certain that, due to the compensation earned by B from unrelated employers, the present value, determined as of June 1, 1988, of the stream of payments from Corporation N will not exceed $192,060. Because it has been redetermined that the present value of the payments received or to be received by B does not equal or exceed 3 times B's base amount, no portion of the payments made in 1988 or 1989 will be treated as excess parachute payments.

Q-34: What is the "base amount"?

A-34: (a) The base amount of a disqualified individual is the average annual compensation (as defined in Q/A-21 of this section) which was includible in the gross income of such individual for taxable years in the "base period" (or either was excludible from such gross income as "foreign earned income" within the meaning of section 911, or would have been includible in such gross income if such person had been a United States citizen or resident.) See Q/A-35 for the definition of "base period" and for examples of base amount computations.

(b) If the base period of a disqualified individual includes a short taxable year or less than all of a taxable year, compensation for such short or incomplete taxable year must be annualized before determining the average annual compensation for the base period. In annualizing compensation, the frequency with which payments are expected to be made over an annual period must be taken into account. Thus, any amount of compensation for such a short or incomplete taxable year that represents a payment that will not be made more often than once per year is not annualized.

(c) Because the base amount includes only compensation that is includible in gross income, the base amount does not include certain items that constitute parachute payments. For example, payments in the form of untaxed fringe benefits are not included in the base amount but may be treated as parachute payments.

Q-35: What is the "base period"?

A-35: (a) The "base period" of a disqualified individual is the most recent 5 taxable years of the individual ending before the date of the change in ownership or control. However, if the disqualified individual was not an employee or independent contractor of the corporation with respect to which the change in ownership or control occurs (or a predecessor entity or a related entity as defined in A-21 of this section) for this entire 5-year period, the individual's base period is the portion of such 5-year period during which the individual performed personal services for the corporation or predecessor entity or related entity.

(b) The following examples illustrate the principles of Q/A-34 of this section and this Q/A-35:

Example (1). A disqualified individual was employed by a corporation for 2 years and 4 months preceding his taxable year in which a change in ownership or control of the corporation occurs. The individual's includible compensation income from the corporation was $30,000 for the 4-month period, $120,000 for the first full year, and $150,000 for the second full year. The individual's base amount is

$$\$120,000 \left[\frac{(3 \times \$30,000) + \$120,000 + \$150,000}{3}\right].$$

Example (2). Assume the same facts as in example (1), except that the individual also received a $60,000 "sign-up" bonus when his employment with the corporation commenced at the beginning of the 4-month period. The individual's base amount is $140,000

$$\left[\frac{[\$60,000 + (3 \times \$30,000)) + \$120,000 + \$150,000]}{3}\right].$$

Since the bonus will not be paid more often than once per year, the amount of the bonus is not increased in annualizing the individual's compensation for the 4-month period.

Q-36: How is the base amount determined in the case of a disqualified individual who did not perform services for the corporation (or a predecessor entity or a related entity as defined in A-21 of this section), prior to the individual's taxable year in which the change in ownership or control occurs?

A-36: (a) In such a case, the individual's base amount is the annualized compensation (as defined in Q/A-21 of this section) which—

(1) Was includible in the individual's gross income for that portion, prior to such change, of the individual's taxable year in which the change occurred (or either was excludible from such gross income as "foreign earned income" within the meaning of section 911, or would have includible in such gross income if such person had been a United States citizen or resident),

(2) Was not contingent on the change in ownership or control, and

(3) Was not a securities violation parachute payment.

(b) The following examples illustrate the principles of this A-36:

Example (1). On January 1, 1986, A, an individual whose taxable year is the calendar year, enters into a 4-year employment contract with Corporation M as an officer of the corporation. A has not previously performed services for Corporation M (or any predecessor entity or related entity as defined in A-21 of this section). Under the employment contract, A is to receive an annual salary of $120,000 for each of the 4 years that he remains employed by Corporation M with any remaining unpaid balance to be paid immediately in the event that A's employment is terminated without cause. On July 1, 1986, after A has received compensation of $60,000, a change in the ownership of Corporation M occurs. Because of the change, A's employment is terminated without cause, and he receives a payment of $420,000. It is established by clear and convincing evidence that the $60,000 in compensation is not contingent on the change in ownership or control, but the presumption of Q/A-25 of this section is not rebutted with respect to the $420,000 payment. Thus, the payment of $420,000 is treated as contingent on the change in ownership of Corporation M. In this case, A's base amount is $120,000 (2 × $60,000). Since the present value of the payment which is contingent on the change in ownership of Corporation M ($420,000) is more than 3 times A's base amount of $120,000 (3 × $120,000 = $360,000), the payment is a parachute payment.

Example (2). Assume the same facts as in example (1), except that A also receives a "sign-up" bonus of $50,000 from Corporation M on January 1, 1986. It is established by clear and convincing evidence that the bonus is not contingent on the change in ownership. When the change in ownership occurs on July 1, 1986, A has received compensation of $110,000 (the $50,000 bonus plus $60,000 in salary). In this case, A's base amount is $170,000 [$50,000 + (2 × $60,000)]. Since the $50,000 bonus will not be paid more than once per year, the amount of the bonus is not increased in annualizing A's compensation. The present value of the potential parachute payment ($420,000) is less than 3 times A's base amount of $170,000 (3 × $170,000 = $510,000), and therefore no portion of the payment is a parachute payment.

Securities Violation Parachute Payments

Q-37: Must a payment be contingent on a change in ownership or control in order to be a parachute payment?

A-37: (a) No. The term "parachute payment" also includes any payment (other than a payment exempted under Q/A-6 or Q/A-8 of this section) that is in the nature of compensation and is to (or for the benefit of) a disqualified individual, if such payment is made or to be made—

(1) Pursuant to an agreement that violates any generally enforced Federal or State securities laws or regulations, and

(2) In connection with a potential or actual change in ownership or control. A violation is not taken into account under paragraph (a)(1) of this A-37 if it is merely technical in character or is not materially prejudicial to shareholders or potential shareholders. Moreover, a violation will be presumed not to exist unless the existence of the violation has been determined or admitted in a civil or criminal action (or an administrative action by a regulatory body charged with enforcing the particular securities law or regulation) which has been resolved by adjudication or consent. Parachute payments described in this A-37 are referred to in this section as "securities violation parachute payments."

(b) Securities violation parachute payments that are not contingent on a change in ownership or control within the meaning of Q/A-22 of this section are not taken into account in applying the 3-times-base-amount test of Q/A-30 of this section. Such payments are considered parachute payments regardless of whether such test is met with respect to the disqualified individual. Moreover, the amount of a securities violation parachute payment treated as an excess parachute payment shall not be reduced by the portion of such payment that is reasonable compensation for personal services actually rendered before the date of a change in ownership or control if such payment is not contingent on such change. Likewise, the amount of a securities violation parachute payment shall include the portion of such payment that is reasonable compensation for personal services to be rendered on or after the date of a change in ownership or control if such payment is not contingent on such change.

(c) The rules in paragraph (b) of this A-37 also apply to securities violation parachute payments that are contingent on a change in ownership or control if the application of these rules results in greater total excess parachute payments with respect to the disqualified individual than would result if the payments were treated simply as payments contingent on a change in ownership or control (and hence were taken into account in applying the 3-times-base-amount test and were reduced by, or did not include, any applicable amount of reasonable compensation).

(d) The following examples illustrate the principles of this A-37:

Example (1). A, a disqualified individual with respect to Corporation M, receives two payments in the nature of compensation that are contingent on a change in the ownership or control of Corporation M. The present value of the first payment is equal to A's base amount and is not a securities violation parachute payment. The present value of the second payment is equal to 1.5 times A's base amount and is a securities violation parachute payment. Neither payment includes any reasonable compensation. If the second payment is treated simply as a payment contingent on a change in ownership or control, the amount of A's total excess parachute payments is zero because the aggregate present value of the payments does not equal or exceed 3 times A's base amount. If the second payment is treated as a securities violation parachute payment subject to the rules of paragraph (b) of this A-37, the amount of A's total excess parachute payments is 0.5 times A's base amount. Thus, the second payment is treated as a securities violation parachute payment.

Example (2). Assume the same facts as in example (1), except that the present value of the first payment is equal to 2 times A's base amount. If the second payment is treated simply as a payment contingent on a change in ownership or control, the total present value of the payments is 3.5 times A's base amount, and the amount of A's total excess parachute payments is 2.5 times A's base amount. If the second payment is treated as a securities violation parachute payment, the amount of A's total excess parachute payments is 0.5 times A's base amount. Thus, the second payment is treated simply as a payment contingent on a change in ownership or control.

Example (3). B, a disqualified individual with respect to Corporation N, receives two payments in the nature of compensation that are contingent on a change in the control of Corporation N. The present value of the first payment is equal to 4 times B's base amount and is a securities violation parachute payment. The present value of the second payment is equal to 2 times B's base amount and is not a securities violation parachute payment. B establishes by clear and convincing evidence that the entire amount of the first payment is reasonable compensation for personal services to be rendered after the change in control. If the first payment is treated simply as a payment contingent on a change in ownership or control, it is exempt from the definition of "parachute payment" pursuant to Q/A-9 of this section. Thus, the amount of B's total excess parachute payment is zero because the present value of the second payment does not equal or exceed three times B's base amount. However, if the first payment is treated as a securities violation parachute payment, the amount of B's total excess parachute payments is 3 times B's base amount. Thus, the first payment is treated as a securities violation parachute payment.

Example (4). Assume the same facts as in example (3), except that B does not receive the second payment and B establishes by clear and convincing evidence that the first payment is reasonable compensation for services actually rendered before the change in the control of Corporation N. If the payment is treated simply as a payment contingent on a change in ownership or control, the amount of B's excess parachute payment is zero because the amount treated as an excess parachute payment is reduced by the amount that B establishes as reasonable compensation. However, if the payment is treated as a securities violation parachute payment, the amount of B's excess parachute payment is 3 times B's base amount. Thus, the payment is treated as a securities violation parachute payment.

Computation and Reduction of Excess Parachute Payments

Q-38: How is the amount of an excess parachute payment computed?

A-38: (a) The amount of an excess parachute payment is the excess of the amount of any parachute payment over the portion of the disqualified individual's base amount that is allocated to such payment. For this purpose, the portion of the base amount allocated to any parachute payment is the amount that bears the same ratio to the base amount as the present value of such parachute payment bears to the aggregate present value of all parachute payments made or to be made to (or for the benefit of) the same disqualified individual. Thus, the portion of the base amount allocated to any parachute payment is determined by multiplying the base amount by a fraction, the numerator of which is the present value of such parachute payment and the denominator of which is the aggregate present value of all such payments. See Q/A-31, Q/A-32, and Q/A-33 for rules on determining present value and Q/A-34 for the definition of "base amount".

(b) *Example.* An individual with a base amount of $100,000 is entitled to receive two parachute payments, one of $200,000 and the other of $400,000. The $200,000 payment is made at the time of the change in ownership or control, and the $400,000 payment is to be made at a future date. The present value of the $400,000 payment is $300,000 on the date of the change in ownership or control. The portions of the base amount allocated to these payments are $40,000 ([$200,000/$500,000] × $100,000) and $60,000 ([$300,000/$500,000] × $100,000), respectively. Thus, the amount of the first excess parachute payment is $160,000 ($200,000 − $40,000) and that of the second is $340,000 ($400,000 − $60,000).

Q-39: May the amount of an excess parachute payment be reduced by reasonable compensation for personal services actually rendered before the change in ownership or control?

A-39: (a) Generally, yes. Except in the case of payments treated as securities violation parachute payments, the amount of an excess parachute payment is reduced by any portion of the payment that the taxpayer establishes by clear and convincing evidence is reasonable compensation for personal services actually rendered by the disqualified individual before the date of the change in ownership or control. Services reasonably compensated for by payments that are not parachute payments (either because the payments are not contingent on a change in ownership or control and are not securities violation parachute payments, or because the payments are made pursuant to a contract entered into before June 15, 1984, which has not been renewed, or amended or supplemented in significant relevant respect after June 14, 1984) are not taken into account for this purpose. The portion of any parachute payment that is established as reasonable compensation is first reduced by the portion of the disqualified individual's base amount that is allocated to such parachute payment; any remaining portion of the parachute payment established as reasonable compensation then reduces the excess parachute payment.

(b) Reasonable compensation for personal services to be rendered by the disqualified individual on or after the date of the change in ownership or control is exempt from the definition of "parachute payment" pursuant to Q/A-9 of this section. For rules on determining amounts of reasonable compensation, see Q/A-40 through Q/A-43.

(c) The following examples illustrate the principles of this A-39:

Example (1). Assume that a parachute payment of $600,000 is made to a disqualified individual, and the portion of the individual's base amount that is allocated to the parachute payment is $100,000. Also assume that $300,000 of the $600,000 parachute payment is established as reasonable compensation for personal services actually rendered by the disqualified individual before the date of the change in ownership or control. Before the reasonable compensation is taken into account, the amount of the excess parachute payment is $500,000 ($600,000 − $100,000). In reducing the excess parachute payment by reasonable compensation, the portion of the parachute payment that is established as reasonable compensation ($300,000) is first reduced by the portion of the disqualified individual's base amount that is allocated to the parachute payment ($100,000), and the remainder ($200,000) then reduces the excess parachute payment. Thus, in this case, the excess parachute payment of $500,000 is reduced by $200,000 of reasonable compensation.

Example (2). Assume the same facts as in example (1), except that the full amount of the $600,000 parachute payment is established as reasonable compensation. In this case, the excess parachute payment of $500,000 is reduced to zero by $500,000 of reasonable compensation. As a result, no portion of any deduction for the payment is disallowed by section 280G, and no portion of the payment is subject to the 20-percent excise tax of section 4999.

Determination of Reasonable Compensation

Q-40: How is it determined whether payments are reasonable compensation?

A-40: In general, whether payments are reasonable compensation for personal services actually rendered, or to be rendered, by the disqualified individual is determined on the basis of all the facts and circumstances of the particular case. Factors relevant to such a determination include, but are not limited to, the following:

(a) The nature of the services rendered or to be rendered;

(b) The individual's historic compensation for performing such services; and

(c) The compensation of individuals performing comparable services in situations where the compensation is not contingent on a change in ownership or control.

Q-41: Is any particular type of evidence generally considered clear and convincing evidence of reasonable compensation for personal services?

A-41: Yes. A showing that payments are made under a nondiscriminatory employee plan or program (as defined in

Q/A-26 of this section) generally is considered to be clear and convincing evidence that the payments are reasonable compensation. This is true whether the personal services for which the payments are made are actually rendered before, or to be rendered on or after, the date of the change in ownership or control. Q/A-46 of this section (relating to the treatment of an affiliated group as one corporation) does not apply for purposes of this A-41. No determination of reasonable compensation is needed in order for payments under qualified plans to be exempt from the definition of "parachute payment" under Q/A-8 of this section.

Q-42: Is any particular type of evidence generally considered clear and convincing evidence of reasonable compensation for personal services to be rendered on or after the date of a change in ownership or control?

A-42: (a) Yes. If payments are made or to be made to (or on behalf of) a disqualified individual for personal services to be rendered on or after the date of a change in ownership or control, a showing that—

(1) The payments were made or are to be made only for the period the individual actually performs such personal services, and

(2) The individual's annual compensation for such services is not significantly greater than such individual's annual compensation prior to the change in ownership or control, apart from normal increase attributable to increased responsibilities or cost of living adjustments (or is not significantly greater than the annual compensation customarily paid by the employer or by comparable employers to persons performing comparable services),

generally is considered to be clear and convincing evidence that the payments are reasonable compensation for services to be rendered on or after the date of change in ownership or control. However, except as provided in paragraph (b) of this A-42, such clear and convincing evidence will not exist if the individual does not, in fact, perform the services.

(b) If the employment of a disqualified individual is involuntarily terminated before the end of a contract term and the individual is paid damages for the breach of the contract, a showing of the following factors generally is considered clear and convincing evidence that the payment is reasonable compensation for personal services to be rendered on or after the date of change in ownership or control:

(1) The contract was not entered into, amended, or renewed in contemplation of the change in ownership or control;

(2) The compensation the individual would have received under the contract would qualify as reasonable compensation under section 162;

(3) The damages do not exceed the present value (determined as of the date of receipt) of the compensation the individual would have received under the contract if the individual had continued to perform services for the employer until the end of the contract term;

(4) The damages are received because an offer to provide personal services was made by the disqualified individual but was rejected by the employer; and

(5) The damages are reduced by mitigation. Mitigation will be treated as occurring when such damages are reduced (or any payment of such damages is returned) to the extent of the disqualified individual's earned income (within the meaning of section 911(d)(2)(A)) during the remainder of the period in which the contract would have been in effect. See Q/A-44 for rules regarding damages for a failure to make severance payments.

(c) The following examples illustrate the principles of this A-42:

Example (1). A, a disqualified individual, has a three-year employment contract with Corporation M, a publicly traded corporation. Under this contract, A is to receive a salary for $100,000 for the first year of the contract and, for each succeeding year, an annual salary that is 10 percent higher than his prior year's salary. During the third year of the contract, Corporation N acquires all the stock of Corporation M. Prior to the change in ownership, Corporation N arranges to retain A's services by entering into an employment contract with him that is essentially the same as A's contract with Corporation M. Under the new contract, Corporation N is to fulfill Corporation M's obligations for the third year of the old contract, and, for each of the succeeding years, pay A an annual salary that is 10 percent higher than his prior year's salary. Amounts are payable under the new contract only for the portion of the contract term during which A remains employed by Corporation N. A showing of the facts described above (and in the absence of contradictory evidence) is regarded as clear and convincing evidence that all payments under the new contract are reasonable compensation for personal services to be rendered on or after the date of the change in ownership. Therefore, the payments under this agreement are exempt from the definition of "parachute payment" pursuant to Q/A-9 of this section.

Example (2). Assume the same facts as in example (1), except that the employment contract with Corporation N does not provide that amounts are payable under the contract only for the portion of the term for which A remains employed by Corporation N. Shortly after the change in ownership, and despite A's request to remain employed by Corporation N, A's employment with Corporation N is involuntarily terminated. Shortly thereafter, A obtains employment with Corporation O. A commences a civil action against Corporation N, alleging breach of the employment contract. In settlement of the litigation, A receives an amount equal to the present value of the compensation A would have received under the contract with Corporation N, reduced by the amount of compensation A otherwise receives from Corporation O during the period that the contract would have been in effect. A showing of the facts described above (and in the absence of contradictory evidence) is regarded as clear and convincing evidence that the amount A receives as damages is reasonable compensation for personal services to be rendered on or after the date of the change in ownership. Therefore, the amount received by A is exempt from the definition of "parachute payment" pursuant to Q/A-9 of this section.

Q-43: Is any particular type of payment generally considered reasonable compensation for personal services actually rendered before the date of a change in ownership or control?

A-43: (a) Yes. Payments of compensation earned before the date of a change in ownership or control generally are considered reasonable compensation for personal services actually rendered before the date of a change in ownership or control if they qualify as reasonable compensation under section 162.

Q-44: May severance payments be treated as reasonable compensation?

A-44: No. Severance payments are not treated as reasonable compensation for personal services actually rendered before, or to rendered on or after, the date of a change in ownership or control. Moreover, any damages paid for a failure to make severance payments are not treated as reasonable compensation for personal services actually rendered before, or to be rendered on or after, the date of such change. For purposes of this section, the term "severance payment" means any payment that is made to (or for the benefit of) a disqualified individual on account of the termination of such individual's employment prior to the end of a contract term, but shall not include any payment that otherwise would be made to (or for the benefit of) such individual upon the termination of such individual's employment, whenever occurring.

Miscellaneous Rules

Q-45: How is the term "corporation" defined?

A-45: For purposes of this section, the term "corporation" has the meaning prescribed by section 7701(a)(3) and shall include a publicly traded partnership treated as a corporation under section 7704(a).

Q-46: How is an affiliated group treated?

A-46: For purposes of this section, and except as otherwise provided in this section, all members of the same affiliated group (as defined in section 1504, determined without regard to section 1504(b)) are treated as one corporation. Rules affected by this treatment of an affiliated group include (but are not limited to) rules relating to exempt payments of certain corporations (Q/A-6, Q/A-7 (except as provided therein)), payor of parachute payments (Q/A-10), disqualified individuals (Q/A-15 through Q/A-21 (except as provided therein)), rebuttal of the presumption that payments are contingent on a change (Q/A-26 except as provide therein), change in ownership or control (Q/A-27, 28, 29), and reasonable compensation (Q/A-42, Q/A-43, and 44).

Effective Date

Q-47: What is the general effective date of section 280G and this section?

A-47: In general, section 280G and this section apply to payments under agreements entered into or renewed after June 14, 1984. Any agreement that is entered into before June 15, 1984, and is renewed after June 14, 1984, is to be treated as a new contract entered into on the day the renewal takes effect. (See Q/A-48 regarding application of section 280G and this section with respect to contracts entered into on or before June 14, 1984, and amended or supplemented after that date.)

Q-48: How is a contract that is cancellable at will treated for purposes of the effective date of section 280G and this section?

A-48: (a) For this purpose, a contract that is terminable or cancellable unconditionally at will by either party to the contract without the consent of the other, or by both parties to the contract, is treated as a new contract entered into on the date any such termination or cancellation, if made, would be effective. However, a contract is not treated as so terminable or cancellable if it can be terminated or cancelled only by terminating the employment relationship or independent contractor relationship of the disqualified individual.

(b) The following examples illustrate the principles of this A-48:

Example (1). Before June 15, 1984, a corporation and a disqualified individual enter into a contract providing for payments to the individual contingent on a change in the ownership or control of the corporation. The corporation may cancel the contract unconditionally at will by giving 3 months notice. Thus, the earliest date that any such cancellation after June 14, 1984, could be effective is September 15, 1984. The contract is treated as a new contract entered into on September 15, 1984, whether or not it is in fact cancelled. Therefore, section 280G and this section apply to all payments made or to be made under the contract in taxable years of the individual that end on or after September 15, 1984.

Example (2). On January 1, 1984, a corporation and a disqualified individual enter into a contract providing for payments to the individual contingent on a change in the ownership or control of the corporation. The corporation has a right to terminate the employment of the individual with or without cause, and the individual has the right to cease working for the corporation; otherwise, the contract is not terminable by either party. Since the contract is terminable only by terminating the employment relationship between the parties, it is not treated as terminable at will. Thus, since the contract was entered into on or before June 14, 1984, no payments under the contract are subject to section 280G or this section.

Q-49: Do section 280G and this section apply to payments under some agreements entered into on or before June 14, 1984, that are not renewed after this date?

A-49: Yes. Section 280G and this section apply to payments under a contract entered into on or before June 14, 1984, if the contract is amended or supplemented after June 14, 1984, in significant relevant respect. For this purpose, a "supplement" to a contract is defined as a new contract entered into after June 14, 1984, that affects the trigger, amount, or time of receipt of a payment under an existing contract.

Q-50: Under what circumstances is a contract considered to be amended or supplemented in significant relevant respect?

A-50: Except as otherwise provided in Q/A-51 of this section, a contract is considered to be amended or supplemented in significant relevant respect if provisions for payments contingent on a change in ownership or control ("parachute provisions"), or provisions in the nature of parachute provisions, are added to the contract, or are amended or supplemented to provide significant additional benefits to the disqualified individual. Thus, for example, a contract generally is treated as amended or supplemented in significant relevant respect if it is amended or supplemented:

(a) To add or modify, to the disqualified individual's benefit, a change in ownership or control trigger;

(b) To increase amounts payable that are contingent on a change in ownership or control (or, where payment is to be made under a formula, to modify the formula to the disqualified individual's advantage); or

(c) To accelerate, in the event of a change in ownership or control, the payment of amounts otherwise payable at a later date.

For purposes of this A-50, a payment will not be treated as being accelerated in the event of a change in ownership or control if the acceleration does not increase the present value of the payment.

Q-51: Will normal adjustments in an employment contract cause the contract to be treated as amended or supplemented in significant relevant respect?

A-51: No. A contract entered into on or before June 14, 1984, will not be treated as amended or supplemented in significant relevant respect merely by reason of normal adjustments in the terms of employment relationship or independent contractor relationship of the disqualified individual. Whether an adjustment in the terms of such a relationship is considered normal for this purpose depends on all of the facts and circumstances of the particular case. Relevant factors include, but are not limited to, the following: (a) the length of time between the adjustment and the change in ownership or control; (b) the extent to which the corporation, at the time of the adjustment, viewed itself as a likely takeover candidate; (c) a comparison of the adjustment with historical practices of the corporation; (d) the extent of overlap between the group receiving the benefits of the adjustment and those members of that group who are the beneficiaries of pre-June 15, 1984, parachute contracts; and (e) the size of the adjustment, both in absolute terms and in comparison with the benefits provided to other members of the group receiving the benefits of the adjustment.

Q-52: What are some examples illustrating the principles of Q/A-49, Q/A-50, and Q/A-51 of this section?

A-52: The following examples illustrate these principles:

Example (1). Corporation M grants a nonqualified stock option to a disqualified individual before June 15, 1984. After June 14, 1984, at a time when the option is currently vested and exercisable by the individual regardless of whether a change in ownership or control occurs, Corporation M amends the option to permit the individual to surrender it for cash or other property equal to the fair market value of the stock that would have been received if the option had been exercised (minus the exercise price of the option). Since the individual could have exercised the option and then sold the stock received upon the exercise, the amendment does not provide significant additional benefits to the individual. Hence, the amendment does not cause payments under the option to become subject to section 280G and this section.

Example (2). Corporation N and A, a disqualified individual, enter into an employment contract before June 15, 1984, that provides for a payment, contingent on a change in the ownership or control of Corporation N, equal to 4 times A's base amount. After June 14, 1984, and at a time when Corporation N did not view itself as a likely takeover candidate, Corporation N increases A's annual compensation by 25 percent to reflect additional managerial responsibilities. Such increase is consistent with the historical practices of Corporation N. Although the amount payable to A contingent on a change in ownership is increased, the employment contract is not treated as amended in significant relevant respect because, under these facts (and in the absence of contrary evidence), the amendment to the contract is treated as a normal adjustment in the terms of the employment relationship.

Example (3). Before June 15, 1984, Corporation O enters into contracts with disqualified individuals A, B, and C, providing for payments contingent on a change in the ownership of Corporation O equal to 4 times each individual's base amount. After June 14, 1984, Corporation O, consistent with its historical practices, grants identical nonvested stock options to numerous disqualified individuals, including A, B, and C. All of these new options provide that the vesting of all such options will be accelerated if a change in the ownership or control of Corporation O occurs. Section 280G and this section apply to payments under the options granted after June 14, 1984. However, the granting of these options does not cause the contracts that were entered into before June 15, 1984, to be treated as amended or supplemented in significant relevant respect because, under these facts (and in the absence of contrary evidence), the granting of options is treated as a normal adjustment in the terms of the employment relationship.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on May 4, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 5, 1989, 54 F.R. 19390 as corrected by 54 F.R. 25879 and further corrected by 54 F.R. 29061)

Notice of Proposed Rulemaking

Treatment of Partnership Liabilities; Allocations Attributable to Nonrecourse Liabilities

PS-229-84

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In *** [T.D. 8237, page 180, this Bulletin], the Internal Revenue Service is issuing final and temporary regulations concerning the treatment of partnership liabilities and the allocation of deductions attributable to nonrecourse debt. The temporary regulations reflect changes to the applicable tax law made by section 79 of the Tax Reform Act of 1984. The text of the temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 30, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (PS-229-84), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collections of information should be sent to the Office of Management and Budget, Paperwork Reduction Project, Washington, D.C. 20503, with copies to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:FP, Washington, D.C. 20224.

The collections of information in this regulation are in §§1.752-4T(c) and 1.704-1T(b)(4)(iv)(*m*)(2). This information is required by the Internal Revenue Service to administer sections 752 and 704(b). The respondents are partnerships who wish to make the elections under §§1.752-4T(c) and 1.704-1T(b)(4)(iv)-(*m*)(2).

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Estimated total annual reporting burden: 417 hrs.

The estimated annual burden per respondent varies from 3 minutes to 8 minutes, depending on individual circumstances, with an estimated average of 5 minutes.

Estimated number of respondents: 5,000

Estimated annual frequency of responses: 1

Background

The temporary regulations in [T.D. 8237, page 180, this Bulletin] amend the Income Tax Regulations (26 CFR Part 1) under sections 752 and 704(b) of the Internal Revenue Code of 1986.

For the text of the temporary regulations, see T.D. 8237 [page 180] ***. The preamble to the temporary regulations explains the amendments to the regulations.

Special Analyses

These rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. A general notice of proposed rulemaking is not required by 5 U.S.C. §553 for interpretative regulations. Therefore, these rules do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6) and a Regulatory Flexibility Analysis is not required.

Comments and Request for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing will be scheduled and held upon written request by any person who submits written comments on the proposed rules. Notice of the time and place for the hearing will be published in the Federal Register.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 29, 1988, 8:45 a.m., and published in the issue of the Federal Register for December 30, 1988, 53 F.R. 53174)

Notice of Proposed Rulemaking

Limitations on Passive Activity Losses and Credits— Definition of Activity

PS-001-89

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In * * * [T.D. 8253, page 121, this Bulletin], the Internal Revenue Service is issuing temporary regulations relating to the definition of "activity" for purposes of applying the limitations on passive activity losses and passive activity credits. The text of those temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: These regulations are proposed to be effective for taxable years beginning after December 31, 1986. Comments and requests for a public hearing must be delivered or mailed by August 31, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, 1111 Constitution Avenue, N.W., Room 4429, Washington, D.C. 20224 (Attn: CC:CORP:T:R (PS-001-89)).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

This notice of proposed rulemaking contains requirements for collecting information, which have been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1980 (44 U.S.C. 3504 (h)). Comments on the requirements should be sent to the Office of Management Budget, Paperwork Reduction Project, Washington, D.C. 20503, with copies to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:FP, Washington, D.C. 20224.

The collections of information in this regulation are in §1.469-4T(k) and (o). The Internal Revenue Service requires this information to identify certain undertakings that taxpayers elect to treat as separate activities and to ascertain that taxpayers have made proper, timely elections. This information will be used to verify that taxpayers have accounted for their interests in the separate activities as section 469 requires The likely respondents are individuals, farms, and businesses.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require more or less time, depending on their circumstances.

The estimated figures below represent only the estimated time for the physical preparation of any writing requirement that may be imposed by §1.469-4T(k) or (o). They do not represent an estimation of the actual time for making the decisions, judgments, computations, and studies that may be necessary to satisfy the requirements of section 469 or to determine whether an election should be made.

Estimated total annual reporting burden: 3,000 hours.

Estimated annual burden per respondent for making a written election varies from 5 minutes to 15 minutes, depending on individual circumstances, with an estimated average of 6 minutes.

Estimated number of respondents: 30,000.

Estimated annual frequency of responses: once (for each of two possible elections).

Submission to Small Business Administration

Pursuant to section 7805(f) of the Code, the rules proposed in this document will be submitted to the Administrator of the Small Business Administration for comment on their impact on small business.

Background

The temporary regulations in * * * [T.D. 8253, page 121, this Bulletin] add rules under §1.469-4T to Title 26 of the Code of Federal Regulations. Section 1.469-4T defines the term "activity" for purposes of applying the limitations on passive activity losses and passive activity credits. The temporary regulations also amend certain provisions of previously issued temporary regulations under section 469 (53 FR 5686, February 25, 1988 (T.D. 8175)[1988-1 C.B. 191]).

The temporary regulations reflect the amendment of the Internal Revenue Code by sections 501 and 502 of the Tax Reform Act of 1986 (Pub. L. 99-514) [1986-3 C.B. (Vol. 1) 1, 150, 158], section 10212 of the Revenue Act of 1987 (Pub. L. 100-203), and sections 1005(a) and 2004(g) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100-647). This document proposes to adopt the temporary regulations as final regulations. Accordingly, the text of the temporary regulations serves as the comment document for this notice of proposed rulemaking. In addition, the preamble to the temporary regulations explains the proposed and temporary rules.

For the text of the temporary regulations, see T.D. 8253, [page 121, this Bulletin].

Special Analyses

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required.

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably a signed original and seven copies) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be scheduled and held upon written request by any person who submits written comments on the proposed rules. Notice of the time and place for the hearing will be published in the Federal Register.

(Filed by the Office of the Federal Register on May 11, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 12, 1989, 54 F.R. 20606)

Notice of Proposed Rulemaking

Research and Experimental Expenditures

PS-002-89

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document revises and supersedes the amendments to the regulations proposed in 1983 under section 174 of the Internal Revenue Code. These proposed amendments primarily relate to the definition of "research and experimental expenditures" and the application of section 174 to computer software development costs. The proposed amendments will provide taxpayers with guidance on the type of expenditures that will qualify as "research and experimental expenditures" for purposes of section 41 and section 174 of the Code.

DATES: These amendments are proposed to be effective, for purposes of both section 41 and section 174, for taxable years beginning after the date the amendments become final regulations by publication of a Treasury decision in the Federal Register. Written comments and requests for a public hearing must be delivered or mailed by July 17, 1989.

ADDRESS: Send comments and requests for a public hearing to: Internal Revenue Service, Attn: CC:CORP:T:R (PS-002-89), Room 4429, Washington, D.C. 20224.

SUPPLEMENTARY INFORMATION:

Submission to Small Business Administration

Pursuant to section 7805(f) of the Code, the rules proposed in this document will be submitted to the Administrator of the Small Business Administration for comment on their impact on small business.

Background

On January 21, 1983, the Federal Register published (48 FR 2790) [LR-236-81, 1983-1 C.B. 1003] proposed amendments to the Income Tax Regulations (26 CFR Part 1) relating to the credit for increasing research activities and the treatment of "research and experimental expenditures" under section 174 of the Internal Revenue Code. A large number of comments were received and a public hearing was held on April 14, 1983.

This document proposes a more extensive set of amendments to the regulations under section 174 than those proposed in 1983. These regulations are proposed to clarify the definition of "research and experimental expenditures" undersection 174, and to provide guidance on the application of section 174 to the costs of developing computer software.

Explanation of Provisions

Section 1.174-2 of the regulations as proposed in 1983 included extensive clarifications of the regulations under section 174, including a clarification of the treatment of computer software.

Section 1.174-2(a)(3) of the 1983 proposed regulations provided that the costs of developing computer software are not "research or experimental expenditures" within the meaning of section 174 unless the computer software is new or significantly improved. The 1983 proposed regulations also provided that such term does not include costs paid or incurred for the development of software the operational feasibility of which is not seriously in doubt. A large number of comments were received that were critical of the proposed computer software provisions on the basis that the proposed regulations treated computer software differently from other products. On January 26, 1987, the Service announced in Notice 87-12 (1987-1 C.B. 432) that final regulations under section 174 would clarify that software development costs qualify as research expenses under the same standards as apply to the costs of developing other products or processes. The regulations proposed by this document revise and supersede the 1983 proposed amendments to the regulations.

These regulations contain a number of examples clarifying the application of section 174 to software development costs. The Service currently is studying the continuing validity of Rev. Proc. 69-21 (1969-2 C.B. 303) in light of the enactment of section 263A of the Code. Taxpayers are invited to comment on the proper treatment of computer software that does not qualify for section 174 treatment. Any change in the tax treatment of computer software will be prospective.

Section 1.174-2(a)(1)(iv) of the 1983 proposed regulations provided in part that the term "research or experimental expenditures" does not include the routine or periodic alteration or improvement of existing products, commercial existing products, commercial production lines, or other ongoing operations. A number of commentators suggested that the proposed regulations could be read to require a significant improvement for an activity to qualify under section 174. They suggested that such a reading would be overly restrictive because research and development activities may in many instances be part of an evolutionary process involving a series of minor improvements that, when taken together over a period of time, lead to a significantly improved product. The regulations proposed by this document do not include the reference to "routine" or "periodic" improvements. However, expenditures incurred after the point that a product or property (or component of the product or property) meets its basic design specifications related to function and performance level generally will qualify as research or experimental expenditures only if the expenditures relate to modifications to the basic design specifications for the purpose of curing significant defects in design, obtaining significant cost reductions or achieving significantly enhanced function or performance level. The regulations proposed by this document also modify the proposed regulations in certain other aspects.

Regulatory Impact Analysis

These proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required.

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Internal Revenue Service by any person who also submits written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

List of Subjects

26 CFR 1.61-1 through 1.281-4

Income taxes, Taxable income, Deductions, Exemptions.

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR Chapter I, Part 1 are as follows:

PART 1—[AMENDED]

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.174-2 is amended as follows:

1. Paragraph (a)(1) of §1.174-2 is revised to read as set forth below.

2. Paragraph (a)(2) is redesignated as paragraph (a)(7).

3. Paragraph (a)(3) is redesignated as paragraph (a)(8) and is amended by removing "subparagraph (2)" and adding in its place "paragraph (a)(7)".

4. New paragraphs (a)(2), (3), (4), (5) and (6) are added to read as set forth below.

§1.174-2 Definition of research and experimental expenditures.

(a) *In general.* (1) The term "research or experimental expenditures," as used in section 174, means expenditures incurred in connection with the taxpayer's trade or business which represent research and development costs in the experimental or laboratory sense. The term includes generally all such experimental or laboratory costs incident to the development or improvement of an experimental or pilot model, a plant process, a product, a formula, an invention, or a similar property. It includes research or experimentation aimed at the discovery of new knowledge and research or experimentation searching for new applications of either research or experimentation findings or other knowledge. However, not all of the expenditures incident to developing or improving a product or property will qualify as research or experimental expenditures within the meaning of section 174. Expenditures incurred after the point that the product or property (or component of the product or property) meets its basic design specifications related to function and performance level generally will not qualify as research or experimental expenditures under section 174 unless the expenditures relate to modifications to the basic design specifications for the purpose of curing significant defects in design, obtaining significant cost reductions or achieving significantly enhanced function or performance level.

(2) The following examples illustrate the application of the principles contained in paragraph (a) (1) of this section.

Example (1). Company B, a manufacturing company, decided to develop and market a new type of kitchen appliance. Company B incurred $500x of expenses relating to developing the basic performance and functional design specifications and constructing a prototype of the appliance based on these specifications. After B developed the product to the point where it met its basic design specifications, B incurred $250x of additional expenditures, including expenditures for minor modifications of the product to facilitate the manufacturing process, writing and printing an owner's manual, designing the case to contain the appliance, and performing quality control testing and market research. The $500x of expenses incurred to develop the appliance to meet its basic design specifications qualifies as research and experimental expenditures within the meaning of section 174. The $250x expended by B after the proposed product achieved its basic design specifications does not qualify as research or experimental expenditures within the meaning of section 174.

Example (2). Assume the same facts as in example (1) except that after the appliance has been fully developed and marketed, B discovers that the vibration level of the appliance could be reduced substantially and its useful life substantially extended by altering the basic design specifications. The costs incurred by B to alter the basic design specifications to reduce the vibration level and extend the useful life of the appliance are research or experimental expenditures within the meaning of section 174 because they relate to a modification of the basic design specifications of a component of a product.

(3) The term "research or experimental expenditure" does not include any cost incurred in connection with the following activities unless the expenditures relating to such activities separately qualify under section 174—

(i) Efficiency surveys or management studies;

(ii) Consumer surveys, market development, or market testing (including market research, advertising, or promotions);

(iii) The routine or ordinary testing or inspection of materials or products for quality control;

(iv) Activities relating to management functions or techniques developed primarily for internal use of the taxpayer in its trade or business and not generally intended for sale to customers;

(v) Activities not directed at the functional aspects of a product including expenses relating to style, taste, cosmetic, or seasonal design factors;

(vi) Activities relating to the implementation of commercial production;

(vii) The construction of duplicate prototypes used for market testing purposes or held for sale;

(viii) The adaptation of an existing capability to a particular requirement or customer's need;

(ix) Routine data collections;

(x) The acquisition of another person's patent, model, or production process; or

(xi) Literary, historical, or similar projects.

However, the term includes the costs of obtaining a patent, such as attorneys' fees expended in making and perfecting a patent application. See section 263A and the regulations thereunder for cost capitalization rules that apply to expenditures paid or incurred for research in connection with literary, historical or similar projects involving the production of property, including the production of films, sound recordings, video tapes, books, or similar properties.

(4) The following examples illustrate the application of the principles contained in paragraph (a)(3) of this section.

Example (1). M Corporation, a textile manufacturer, develops a new synthetic fiber for use in a variety of applications. After extensive testing, the corporation decides that fabric made of the new fiber meets its basic design specifications and is ready for production. After initial marketing of the fabric, the corporation discovers that flaws exist in a significant percentage of the marketed fabric. The corporation determines that the flaws can be eliminated by adjusting the weaving machines so as to slightly loosen the weave of the fabric. Section 1.174-2(a)(3)(vi) provides that the term "research and experimental expenditures" does not include activities relating to the implementation of commercial production unless such expenditures separately qualify under section 174. Since the expenses of modifying the production line were incurred implementing commercial production specifications and did not relate to modifications of the basic design specifications of the fabric, such expenses do not constitute section 174 expenses.

Example (2). O Corporation, a manufacturer of perfume, decides to create a new perfume to sell to teenage girls. In laboratory tests, O Corporation developed a variety of scents, evaluating the odor of each scent, as well as its physical properties, such as whether it causes an allergic reaction. After this laboratory testing yielded several satisfactory alternatives which met O Corporation's basic design specifications, the corporation conducted consumer surveys to determine the preferences of potential customers. Based on information from this consumer survey, O Corporation selected one scent to market as a new perfume. Under §1.174-2(a)(1), the term "research and experimental expenditures" means "research and development costs in the experimental and laboratory sense." Paragraph (a)(3)(v) of this section further provides that the term does not include "activities not directed at the functional aspects of a product including expenses relating to style, taste, cosmetic, or seasonal design factors." Although the expenditure relates to a consumer taste, the costs of developing the basic scent of the perfume will separately qualify under section 174 if they are research and experimental expenditures within the meaning of section 174. The costs of developing alternative perfumes to market to teenagers, however, do not constitute research or experimental expenditures under section 174 because the alternatives do not alter the basic design specifications of the perfume. However, the costs relating to the functional aspects of perfume, such as whether it causes an allergic reaction on certain persons, may qualify as section 174 expenses. Finally, the costs of conducting surveys to determine customer preferences with respect to the alternative perfumes do not constitute section 174 expenses because of the exclusion for consumer surveys or market testing activities.

Example (3). The facts are the same as in example (2), except that after the perfume was in production, O Corporation continued to test each batch of perfume to determine whether that batch is allergenic. The cost of performing such tests relate to quality control and do not constitute research or experimental expenditures under section 174.

Example (4). P Corporation, manufacturer of automobiles, decides to redesign the body of one of its existing models. This process typically involves a series of steps. Initially, the corporation's designers, working with certain basic design specifications, develop several alternative styles. From these alternative designs, the corporation's management will select one design which will then be tested by the corporation's engineers for a variety of functional specifications, including its aerodynamic efficiency and safety. Section 1.174-2(a)(3)(v) provides that section 174 does not include activities relating to the nonfunctional aspects of a product. Therefore, the costs of developing alternative designs for P corporation's new model do not constitute research or experimental expenditures under section 174. However, the costs relating to the aerodynamic testing and safety may constitute research or experimental expenditures under section 174.

Example (5). In 1987, S, a company that publishes general reference books for use by the general public, decides to publish textbooks for use in high schools throughout the country. To develop each textbook, S incurs expenses to develop the theme and topic of the textbook, obtain manuscripts from authors, edit the author's submission and obtain illustrations for the textbook. None of these expenses qualifies as research or experimental expenditures under section 174 by virtue of the exclusion for "literary, historical, or similar projects," and because they do not separately qualify as research and experimental expenditures within the meaning of section 174.

Example (6). G is a designer and manufacturer of specialized computer chips that will perform certain functions on a customer-designed hardware system in accordance with a customer's specifications. Each chip is custom-designed, through a process of experimentation, for a customer's specific order at G's risk. Each chip has a different basic design specification. The costs of designing and developing each chip are research and experimental expenditures within the meaning of section 174, even though the chips are intended for a specific customer because each chip has different basic design specifications.

Example (7). R, which is in the business of making cranes to be used for building construction, uses the same type of parts for each crane it manufactures. R designs and manufactures each crane in different configurations depending on the type of building being constructed, the situation of the building on the building site, and the distances between the site and the nearest streets. However, the cranes do not have different basic design specifications. The costs of designing and manufacturing the cranes are not research or experimental expenditures within the meaning of section 174 because they are costs of adapting an existing capability to a particular requirement or customer's need.

Example (8). B, a small manufacturer, develops a new employee training program for its business to conform to recent changes in management science. The costs of developing the employee training program do not qualify as research or experimentation because of the exclusion for management functions or techniques.

Example (9). C, a biotechnology firm, developed a new drug that substantially lowers blood pressure. Prior to marketing the drug, C incurs costs to test the product and obtain FDA approval of the drug. The costs incurred by C to develop, test, and receive government approval of the drug are research and experimental expenditures within the meaning of section 174.

Example (10). D, a manufacturer of tires, develops a new tire that is more puncture-resistant than any tire it has previously developed and marketed. Prior to production of the new tire, D constructs a number of duplicate prototypes for use in several different safety tests. After the safety tests are completed, D constructs additional duplicate prototypes to offer to car dealers for testing by their customers. D subsequently sold some of the tires that were used for safety or market testing. The costs of manufacturing the duplicate prototypes that were used for safety testing and were not held for sale to customers qualify for section 174 treatment. The costs relating to constructing the duplicate prototypes for market testing or sale to customers, however, do not qualify under section 174 because of the exclusion for duplicate prototypes. In addition, none of the costs of market testing qualifies under section 174 because of exclusion for market testing activities.

(5) The costs of developing computer software qualify as research or experimental expenditures within the meaning of section 174 under the same rules that apply to other products or properties.

(6) The following examples illustrate the application of the principles contained in paragraph (a)(5) of this section.

Example (1). F, a company in the business of developing software for sale to the public, intends to develop a new type of database management system for microcomputers. The new program will be different from any other product existing in the market and will contain new features and capabilities that previously were only available on programs designed for mainframe computers. Due to the differences between types of computers, F cannot use its existing technology for mainframe computers to produce database systems for microcomputers. To begin development of the program, F develops a detailed program design of the new program describing its functions and performance levels. Upon completion of the program design, F begins coding and testing the program as it is developed. After F had expended $500x, the program meets the basic design specifications. F then incurs $250x to prepare the program for market, including debugging, performing minor modifications to facilitate the manufacturing of the program, producing multiple copies of the software to send to outside consulting firms for further testing, and writing the documentation for users. The $500x expended to develop the program to meet its basic design specifications qualifies as a research or experimental expenditure within the meaning of section 174. The $250x expended after the program meets its basic design specifications does not qualify as a research or experimental expenditure.

Example (2). Assume the same facts as in example (1), except that two years after marketing the database management system, a number of B's customers reported errors that caused the system to shut down after extensive use. B recalled each system from its customers and replaced it with a system that the customers could use on a temporary basis. During this period, B's engineers conducted research to discover the source of the error. After months of research, B's engineers discovered a defect in the design of the system and redesigned the system to eliminate the problem. The expenses incurred to discover and correct the error are research and experimental expenditures within the meaning of section 174 because they relate to modifications to the basic design specifications for the purposes of curing significant defects in the original design of the product.

Example (3). D, a company in the business of developing software for sale to the public, currently markets a program that is used to analyze information derived from orbiting satellites. The existing software has been designed to operate on a specific computer system and with a specific operating system. Recent advances in satellite technology have changed the amount, type, and format of the data that is transmitted by satellites. These advances in satellite technology require a change in the design of the program to achieve an increase in processing rate, improvements in data handling capabilities, and a change in functional specifications to analyze the new data transmitted by satellites. Since the changes to be made to the existing software involve modifications to the performance levels and functions of the software, the costs incurred in connection with the development of the modifications to the basic design specifications of the software qualify as research or experimental expenditures within the meaning of section 174.

Example (4). E, a company in the business of developing software for sale to the public, currently markets a word processing program. The program entitled "Writer 1.0" has been marketed to the public for one year. Based on comments received from customers of the program, E decided to make changes to the program. Generally, these improvements involve adding some additional commands to the program. On completion of the changes, all new copies of the program delivered to customers contain the changes and are entitled "Writer 1.1." Previous customers of "Writer 1.0" are offered the opportunity to obtain copies of "Writer 1.1" for a nominal charge. Since the changes made to the existing software did not modify the basic design specifications relating to performance levels and functions of the software, the costs incurred in connection with the modifications to the program do not qualify as research or experimental expenditures within the meaning of section 174.

Example (5). C, a developer of software, develops and sells an inventory control software system. B, a customer of C, offers to buy C's software system but requires modification of the system to meet B's warehouse and distribution needs. Subsequently, C modifies the inventory software to expand the number of data fields and to design a custom data input screen. These changes to the software do not alter the basic design specifications of the software. C's expenditures to modify the software system do not qualify as research or experimental expenditures within the meaning of section 174 because they relate to the adaptation of an existing product to a particular customer's need.

Example (6). G, a manufacturing company, develops software that automatically prepares financial data and analysis for inclusion in the annual report to shareholders. The costs of developing the software system are not research and experimental expenditures because the software relates to internal management functions or techniques, and because they do not separately qualify as research and experimental expenditures within the meaning of section 174.

Example (7). K, a manufacturer of machine equipment, intends to automate its manufacturing process more fully. To this end, it begins development of an automated sorting system that will sort and test to determine whether components to be used in assembly of its products meet specifications. As part of the development of the new system, software is developed that will operate the sorting system. The software is developed by employees of K, written using standard computer programming language, and is not available for sale in the market. Although the software relates to the implementation of commercial production, the development of the software separately qualifies under section 174 because it relates to the development of a new plant process.

Example (8). C, publishing company, publishes a number of reference books including an encyclopedia. Due to the growing number of home computers, C decided that additional sales could be generated for the encyclopedia if it were published in electronic format. Therefore, C had the text of the encyclopedia coded onto data disks that can be read by personal home computers. The editorial content of the encyclopedia on the data disks is the same as the published edition. The costs of transferring the editorial content of the encyclopedia to the electronic media do not qualify as research or experimental expenditures within the meaning of section 174 because they were incurred in connection with development of a literary product, and because they do not separately qualify as research and experimental expenditures within the meaning of section 174.

Lawrence B. Gibbs,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on May 16, 1989, 8:45 a.m., and published in the issue of the Federal Register for May 17, 1989, 54 F.R. 21224)

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by, or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Date of Suspension
Geffner, Donald F.	Miami, FL	Attorney	Indefinite from October 27, 1988
Green, Dennis L.	Riverside, CA	Certified Public Accountant	Indefinite from October 27, 1988
Hammond, Allen	Irvine, CA	Certified Public Accountant	Indefinite from October 27, 1988
Johnson, M.B.	Little Rock, AR	Certified Public Accountant	Definite from October 7, 1988 to October 7, 1989
Burton, Melvin M., Jr.	Washington, DC	Attorney	Indefinite from Dec. 15, 1988
Fullmer, Ernest M., Jr.	Spokane, WA	Enrolled Agent	Indefinite from Dec. 6, 1988
Golletz, Victor H.	Country Club Hills, IL	Enrolled Agent	Indefinite from Dec. 16, 1988
Berman, Chester N.	Marietta, GA	Enrolled Agent	Indefinite from Jan. 1, 1989
Van Natter, James H.	Seattle, WA	Certified Public Accountant	Indefinite from Jan. 11, 1989
Brock, Charles Randall	Middletown, CT	Attorney	Indefinite from Feb. 21, 1989
Garavaglia, Michael J.	Vero Beach, FL	Attorney	Indefinite from Feb. 1, 1989
Hutchinson, Jr., Robert H.	Columbia, KY	Attorney	Definite from Jan. 24, 1989 to Jan. 23, 1990
Levy, Stanley	Philadelphia, PA	Certified Public Accountant	Indefinite from Jan. 31, 1989
Spina, Joseph P.	Miami, FL	Certified Public Accountant	Indefinite from Feb. 7, 1989
Van Miegham, Daniel J.	Santa Monica, CA	Enrolled Actuary	6 Months from March 1, 1989
DeMassa, Philip A.	San Diego, CA	Attorney	Indefinite from April 13, 1989

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name	Address	Status	Effective Date
Hailey, Louis	Jena, LA	Enrolled Agent	October 4, 1988

After due notice and opportunity for hearing, the following individual has been suspended from further practice before the Internal Revenue Service:

Name	Address	Designation	Date of Suspension
Wagner, Darrell E.	Canby, OR	Enrolled Agent	Indefinite from Nov. 6, 1988

Under Section 330, Title 31 of the United States Code (1970 ed), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any person who has violated the rules and regulations governing the recognition of attorneys, certified public accountants, enrolled agents or enrolled actuaries to practice before the Internal Revenue Service.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin in the names and addresses of practitioners who have been suspended from each practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension.

This announcement will appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing before an administrative law judge, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Date of Disbarment
Tedder, David L.	Beaufort, SC	Attorney	November 4, 1988
Bace, William C.	Baltimore, MD	Attorney	December 31, 1988
Judge, John E.	Redondo Beach, CA	Certified Public Accountant/Attorney	December 8, 1988
Padgett, Steven E.	Linton, IN	Certified Public Accountant	December 8, 1988
Wollarb, James E.	St. Louis, MO	Attorney	December 8, 1988
Keeney, Theodore M.	Kahului, HA	Attorney	March 27, 1989
Moore, Earcel, Jr.	London, KY	Certified Public Accountant	March 27, 1989

After due notice and hearing before an administrative law judge, the following individual has been suspended from further practice before the Internal Revenue Service.

Name	Address	Designation	Date of Suspension
Alexander, Harry T.	Washington, DC	Attorney	December 31, 1988
