ABBREVIATIONS

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A, B, C, etc.—The names of individuals.

A.R.R.—Committee on Appeals and Review recommendation.

A.T.—Alcohol and tobacco tax ruling.

B.T.A.—Board of Tax Appeals.

C.B.—Cumulative Bulletin.

C.F.R.—Code of Federal Regulations.

Ct. D.—Court Decision.

Del. Order—Delegation Order.

D.C.—Treasury Department circular.

E.O.—Executive Order.

E.T.—Estate and gift tax ruling.

Em. T.—Employment tax ruling.

F.A.A.A.—Federal Alcohol Administration Act.

F.R.—Federal Register.

G.C.M.—Chief Counsel's memorandum (formerly General Counsel's memorandum).

I.R.B.—Internal Revenue Bulletin.

IR-Mim.—Published IR-Mimeograph.

I.T.—Income tax ruling.

M, N, X, Y, Z, etc.—The names of corporations, places or businesses, according to context.

M.T.—Miscellaneous tax ruling.

Mim.—Published mimeograph.

O.D.—Office Decision.

P.L.—Public Law.

P.S.—Pension, profit-sharing, stock bonus or annuity plan ruling.

Rev. Proc.—Revenue Procedure.

Rev. Rul.—Revenue Ruling.

R.S.—Revised Statute.

S.M.—Solicitor's Memorandum.

Sol. Op.—Solicitor's Opinion.

S.P.R.—Statement of Procedural Rules.

S.R.—Solicitor's Recommendation.

S.S.T.—Social Security Tax.

S.T.—Sales tax ruling.

Stat.—Statutes at Large.

T.C.—The Tax Court of the United States.

T.D.—Treasury Decision.

TIR—Technical Information Release.

U.S.C.—United States Code.

x and *y* used to represent certain numbers and when used with the word "dollars" represents sums of money.

INTRODUCTION

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for the announcement of official rulings and procedures of the Internal Revenue Service, and for the publication of Treasury Decisions, Executive Orders, tax conventions, legislation, and court decisions pertaining to internal revenue matters. Other items considered to be of general interest are also published in the Bulletin, such as announcements relating to proposed regulations published with notice of proposed rulemaking, announcements relating to decisions of The Tax Court of the United States, announcements of the disbarment and suspension of attorneys and agents from practice before the Treasury Department, supplements to the Cumulative List of Organizations contributions to which are deductible under section 170 of the Internal Revenue Code of 1954, Delegation Orders, etc.

It is the policy of the Service to publish in the Bulletin all substantive and procedural rulings of importance or of general interest, the publication of which is considered necessary to promote a uniform application of the laws administered by the Service. It is also the policy to publish all rulings and statements of procedures which supersede, revoke, modify, or amend any published ruling or procedure. Except where otherwise indicated, published rulings and procedures apply retroactively. Rulings and statements of procedures relating solely to matters of internal management are not published. However statements of internal practices and procedures affecting rights or duties of taxpayers, or industry regulation, which appear in internal management documents, are published. Revenue Rulings and Revenue Procedures are based upon rulings and internal management documents prepared in the various divisions of the National Office, including the Office of the Chief Counsel for the Internal Revenue Service. In the preparation of these, caution is exercised to conceal the identity of the taxpayer, as well as any confidential personal and business information.

Revenue Rulings and Revenue Procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations (including Treasury Decisions), but are published to provide precedents to be used in the disposition of other cases and may be cited and relied upon for that purpose. No unpublished ruling or decision will be cited or relied upon by any officer or employee of the Internal Revenue Service as a precedent in the disposition of other cases.

Since each published ruling represents the conclusion of the Service as to the application of the law to the entire state of facts involved, Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same. In applying rulings and procedures pub-

lished in the Bulletin, personnel of the Service and others concerned must consider the effect of subsequent legislation, regulations, court decisions, rulings, and procedures.

Each published ruling is designated as a "Revenue Ruling," and each published procedure is designated as a "Revenue Procedure." These should be cited by reference to the year of issuance and the Bulletin and page where reported. Thus, Revenue Ruling No. 20 for 1962 should be cited as "Rev. Rul. 62-20, C.B. 1962-1, 21." Similarly, Revenue Procedure No. 4 for 1962 should be cited as "Rev. Proc. 62-4, C.B. 1962-1, 425." Revenue Rulings are keyed to the applicable sections of the Internal Revenue Code and Regulations.

The regulations, rulings, decisions, procedures, etc., published in the weekly Internal Revenue Bulletins 1962-27 through 1962-53 have been consolidated and are published in Internal Revenue Cumulative Bulletin 1962-2.

Internal Revenue Cumulative Bulletin 1962-3 contains the Public Laws pertaining to internal revenue matters enacted during the Second Session of the 87th Congress on or after May 24, 1962, together with their related Committee Reports, and a digest of tax legislation enacted during the Second Session. A topical index to such Public Laws is also included.

Cumulative Bulletin 1962-3 is prepared in three parts, as follows:

- I. Part I contains a digest of tax legislation enacted during the Second Session of the 87th Congress (January 1, 1962-December 31, 1962).
- II. Part II contains the Public Laws pertaining to internal revenue matters enacted during the Second Session of the 87th Congress on or after May 24, 1962.
- III. Part III contains Committee and Conference Reports related to the legislation published in Part II. House, Senate, and Conference Committee Reports printed in the Bulletin do not include the portion entitled "Changes in Existing Law."

PART I

DIGEST OF PUBLIC LAWS

DIGEST OF PUBLIC LAWS ENACTED DURING THE SECOND SESSION OF THE 87TH CONGRESS WHICH PERTAIN TO INTERNAL REVENUE MATTERS

Public laws pertaining to internal revenue matters which were enacted during the second session of the 87th Congress are as follows:

Public law number	Date approved	Digested on page	Public law number	Date approved	Digested on page

INTERNAL REVENUE CODE of 1939

188----- 87-834 26

OTHER ACTS

<i>Act and section</i>	<i>Public law number</i>
Renegotiation Act of 1951-----	87-520
War Claims Act of 1958, Section 208(b)-----	87-846
Section 3 of Public Law 85-235; Public Law 86-37-----	87-859

Following is a brief explanation of the provisions of the above public laws and the respective Code sections amended thereby. The statements explaining Code sections before amendments and the amendments thereto are not intended as interpretations but are intended merely to indicate the general nature or effect of the provisions involved. Alcohol, tobacco and firearms tax provisions are omitted.

AMENDMENTS TO THE 1954 CODE

PUBLIC LAW 87-403 (C.B. 1962-1, 370).

1111

Return of capital treatment to qualifying shareholders.—Section 1 of this Act amends subchapter 0 of chapter 1 by adding a new section 1111, the language of which provides, in effect, that in the case of a “qualifying shareholder” of Du Pont or Christiana Securities Company (a 29 percent shareholder of Du Pont) a distribution of General Motors stock required to be divested by such corporations under the Du Pont antitrust decree shall be treated for tax purposes as though neither corporation had any available earnings and profits. Thus, the distribution will not result in a dividend tax nor in a reduction of the earnings and profits of either distributing corporation. Such shareholders will generally receive the GM stock as a return of capital,

paying a capital gains tax on the excess received over their basis of the underlying stock. Section 111(c) voids the "return of capital" relief treatment if one of the principal purposes is the distribution of earnings. The language of section 1111(d), in effect, limits the Act to the Du Pont case by defining the term "antitrust order" so that it coincides only with the time aspects of the Du Pont case. Section 1111(e) defines the stock permitted special tax treatment under the Act in language which, in effect, confines it to GM stock required to be divested by Du Pont or Christiana under the court decree. Under the provision, distribution must be completed within a 3-year period in order for the benefits of the Act to apply.

301(f)

Distribution to corporations parties to the antitrust suit.—Section 2 of the Act provides a new section 301(f), the language of which, in effect, provides that the amount of the distribution by Du Pont to Christiana of GM stock shall be measured by fair market value rather than by the adjusted basis of the stock in the hands of Du Pont as would have occurred under pre-existing law. There is also, in effect, provided under section 301(f) (3) a compensatory adjustment of the basis of the distributed stock in the hands of Christiana in view of the increased amount of the distribution subject to tax.

312(k)

Adjustment of earnings necessitated by section 301(f).—Section 3(a) of the Act amends section 312 by adding a subsection (k), the language of which, in effect, gives the Secretary or his delegate the power to make proper adjustment to the earnings and profits of Christiana when it disposes of the GM stock received as a distribution from Du Pont, to avoid distortion.

535(b) (9), 535(b) (10), 543(a) (1), 543(d), 545(b) (10), 545(b) (11), 556(b) (7), 556(b) (8), 561(b)

Adjustment to special types of income under subchapter G.—Section 3 (b) through (f) of the Act amends various sections in subchapter G of the Code, in effect, to ensure that special types of income will receive proper adjustment upon receipt of stock distributions under the Act and subsequent disposal thereof.

These amendments apply with respect to distributions made after February 2, 1962.

PUBLIC LAW 87-426 (C.B. 1962-1, 374).

165(h)

Disaster loss deduction.—Section 2 of Public Law 87-426 amends section 165 to allow a taxpayer an election to deduct disaster losses for the taxable year immediately preceding the taxable year in which the disaster occurred if the disaster occurred after the close of the taxable year and on or before the time prescribed by law for filing the income return for that year (determined without regard to any extension of time for filing the return). To qualify for this treatment the disaster must have occurred in an area subsequently determined by the President to be an area warranting assistance by Federal

Government under sections 1855-1855(g) of title 42, U.S.C. This amendment is effective with respect to any disaster occurring after December 31, 1961.

PUBLIC LAW 87-456 (page 57).

4501, 4504, 4511, 4512, 4513, 4514, 4521, 4531, 4532, 4541, 4542, 4551, 4552, 4553, 4561, 4562, 4571, 4572, 4581, 4582, 4601, 4602, 4603, 6412(d), 6418(b), 7511

Excise taxes on the manufacture of sugar and the importation of certain items.—Section 302(a) of this Act amends section 4501(a) so as to tax domestically manufactured sugar at 0.53 cent per pound of the total sugar therein. The present tax is levied upon total product weight at rates varying with sugar content. Further, sections 302 (b) and (d) repeal existing excise taxes on imported sugar, the first domestic processing of coconut and palm oil, and on the importation of petroleum products, coal, copper, lumber, animal oils, seeds and seed oils, and manufactures and compounds. These repealed taxes will be assimilated into new tariff schedules to be administered by the Bureau of Customs. The amendment made by section 302(a) will become effective on the tenth day after the date the President issues the proclamation provided for in section 102 of this Act, and the amendments made by sections 302 (b) and (d) are effective with respect to articles entered, or withdrawn from warehouse, for consumption on or after the tenth day following the date of such proclamation.

PUBLIC LAW 87-508 (page 58).

11(b), 821(a) (1) (A), 821(b) (1)

Extension for one year of the existing corporate normal-tax rate.—Section 2 of this Act extends the corporate normal-tax rate of 30 percent for an additional year to July 1, 1963.

4061, 4251(b) (2), 5001(a) (1), 5001(a) (3), 5022, 5041(b), 5051(a), 5063, 5701(c) (1), 5707(a), 5707(b), 6412(a) (1)

Extension for one year of certain excise tax rates.—Section 3(a) of the Act postpones until July 1, 1963, the excise tax rate reductions on the following taxable articles which were to become effective on July 1, 1962: Passenger automobiles, automobile parts and accessories, distilled spirits, imported perfumes containing distilled spirits, cordials and liqueurs containing wine, wines, beer, and cigarettes. This section also postpones the termination of the tax on general telephone service from July 1, 1962 to July 1, 1963. Section 3(b) provides that the floor stock credits or refunds which would have been applicable to all of the taxable articles listed above on hand as of July 1, 1962, except automobile parts and accessories for which no floor stock credit or refund is provided, are postponed for one year. A similar extension to July 1, 1963, is provided in the case of refund for articles from foreign trade zones.

4252(e), 4253

Exemption from communications tax of certain private line services used in the conduct of trade or business.—Section 4(a) of the Act

amends section 4252(e) by redefining wire mileage service so as to exclude from tax amounts paid for wire mileage service which is used in the conduct of a trade or business. Section 4(b) adds subsection (j) to section 4253 to provide an exemption from tax for amounts paid for a telephone or radio telephone line or channel which constitutes general telephone service if such line or channel is furnished between specified locations in different political subdivisions of a State and if the line or channel is used in the conduct of a trade or business. Section 4(c) provides that the amendments made by section 4 (a) and (b) are applicable with respect to communication services furnished on or after January 1, 1963.

4261, 4262, 4263, 4264

Changes in tax on transportation of persons.—Section 5(a) of the Act continues the 10 percent tax on amounts paid for the transportation of persons by rail, motor vehicle, water, or air which begins before November 16, 1962. Prior to the amendment made by section 5(a) this 10 percent rate was scheduled to be reduced to 5 percent on amounts paid on or after July 1, 1962 for such transportation. Section 5(b) amends subchapter C of chapter 33 of the Code so as to repeal the tax on the transportation of persons by rail, motor vehicle, and water with respect to transportation which begins after November 15, 1962, and to continue the tax on the transportation of persons by air at a reduced rate of 5 percent with respect to transportation which begins after November 15, 1962 and before July 1, 1963. The tax on transportation of persons by air is scheduled to be terminated on July 1, 1963. Section 4262 has been amended so as to exclude from taxable transportation, air transportation from one port or station in the United States to another port or station in the United States provided the United States portion is part of “uninterrupted international air transportation.” Uninterrupted international air transportation consists of air transportation which does not begin and end in the United States or in the 225-mile zone and (1) the scheduled interval between the beginning or end of the United States portion of such transportation and the end or beginning of the remaining air transportation does not exceed six hours and (2) the scheduled interval between the beginning or end and the end or beginning of any two segments of the United States portion of the transportation does not exceed six hours. Section 4263 also has been amended to eliminate certain exemptions which had application only to transportation by rail, motor vehicle, or water. Section 4264(c) has been amended to provide a special rule relating to the payment of tax in the event the qualifying six-hour scheduled interval for uninterrupted international air transportation is extended beyond six hours subsequent to the beginning of the transportation.

6416(b) (2) (H), 6421(b), 6421(d) (2)

Certain conforming amendments.—Section 5(c) of the Act makes conforming amendments to sections 6416(b) (2) (H), 6421(b) and 6421(d) (2) because of the repeal of the tax on transportation of persons by rail, motor vehicle, or water. Section 5(d) contains the effective dates with respect to the conforming amendments made by section 5(c).

Special credit or refund of transportation tax.—Section 5(e) of the Act contains special provisions for the allowance of a credit or refund in any case where tax on an amount paid for transportation of persons has been collected at the rate in effect before the effective date of the change in tax rate (November 16, 1962 or July 1, 1963) but the transportation does not begin until after such effective date. To be entitled to a credit or refund, the transportation company which collected the tax must establish that the amount of such excess tax has been repaid to the person from whom the tax was collected or consent of such person to the allowance of the credit or refund has been obtained. The repayment must be made or consent obtained before the transportation has begun. Section 5(e) provides that for purposes of this credit or refund transportation shall not be considered to have begun on or after November 16, 1962, or on or after July 1, 1963, as the case may be, if any part of the transportation paid for or for which payment has been obligated commenced before such date.

PUBLIC LAW 87-535 (page 65).

4501(c), 6412(d)

Excise taxes on sugar extended.—Section 18(a) of this Act amends Code section 4501(c) to postpone the termination of excise taxes on the manufacture and importation of sugar from December 31, 1962 to June 30, 1967. Section 18(b) amends section 6412(d) of the Code to provide that floor stock refunds shall be permitted for excise taxes paid on sugar held by importers on June 30, 1967, rather than December 31, 1962, and that claims for such refunds must be filed on or before September 30, 1967, rather than March 31, 1962. (Note: Under Public Law 87-456 approved May 24, 1962, the excise tax on the importation of sugar and the floor stock refunds permitted to sugar importers (section 6412(d)) will be repealed effective on the tenth day after the date of the issuance of a specified Presidential proclamation relating to tariffs.)

PUBLIC LAW 87-682 (page 68).

6015(f), 6073(a), 6073(b), 6153(b), 6654(b), 6654(d) (1) (C)

Extension to fishermen of the same treatment accorded farmers in relation to estimated income tax.—Section 1 of this Act extends to fishermen the same treatment accorded farmers in relation to estimated income tax. The principal advantage to taxpayers having income from farming, which the Act extends to those having income from fishing, is the privilege of filing the declaration of estimated tax, and paying the estimated tax by January 15 of the succeeding taxable year (in the case of a calendar-year taxpayer), rather than filing the declaration by the prior April 15 and making quarterly payments of estimated tax. Taxpayers other than farmers, instead of making their fourth installment payment of estimated tax on January 15 of the succeeding taxable year (in the case of calendar-year taxpayers), are permitted to file their regular income tax return and make their final tax payment by January 31 of the succeeding taxable year. Farmers have until February 15 of the succeeding taxable year to file their regular return and pay their final tax in lieu of filing a declara-

tion and paying the estimated tax by January 15. Under this Act fishermen will also have until February 15 to file their regular return and pay their final tax in lieu of filing a declaration and paying estimated tax by January 15. Section 2 of the Act provides that the amendments to the Code made by section 1 shall apply only with respect to taxable years beginning after December 31, 1962.

PUBLIC LAW 87-710 (page 69).

172

Seven-year net operating loss carryover for regulated transportation corporations.—This Act amends section 172 to provide a 7-year net operating loss carryover (in lieu of the existing 5-year carryover available to all taxpayers) for losses incurred for taxable years ending after December 31, 1955, by a regulated transportation corporation. The term “regulated transportation corporation” includes most corporations (other than pipeline companies) which derive 80 percent or more of their gross income from the furnishing or sale of transportation subject to governmental regulation. Also included are railroad corporations which have leased their railroad properties to another railroad and holding companies for operating railroads. The term also embraces other corporations which are members of an affiliated group which derives 80 percent of its aggregate gross income from the qualified transportation and which file consolidated income tax returns. To qualify for the full 7-year carryover a taxpayer must be a regulated transportation corporation for both the loss year and for the sixth and seventh taxable years following the loss year. There is an apportionment rule provided for losses incurred for taxable years beginning in 1955 and ending in 1956 designed to implement the December 31, 1955, effective date.

PUBLIC LAW 87-722 (page 70).

Rules of general application to banking institutions, relating to definition of bank and definitions pertaining to common trust funds.—This Act authorizes and empowers the Comptroller of the Currency to grant by special permit to national banks applying therefor the right to act in various fiduciary capacities under certain specified conditions. On and after September 28, 1962, the exercise of fiduciary powers by national banks are subject to the authority granted by the Act. Section 3 of the Act repeals subsection (k) of section 11 of the Federal Reserve Act (12 U.S.C. 248(k)).

581, 584(a)(2)

In order to conform the Internal Revenue Code of 1954 to the provisions of the Act, section 4 thereof amends section 584(a)(2) of the Code to add “or the Comptroller of the Currency” after “the Board of Governors of the Federal Reserve System”; and section 5 of the Act amends section 581 of the Code by striking out “section 11(k) of the Federal Reserve Act (38 Stat. 262; 12 U.S.C. 248(k))” and inserting in lieu thereof “authority of the Comptroller of the Currency.”

PUBLIC LAW 87-768 (page 85).

542(c) (7)

Exceptions to the tax on personal holding companies defined in section 542(a).—In general, section 542(c) (7), prior to this amendment, exempts from personal holding company tax a lending company authorized to engage in the small loan business, if certain other specified requirements are also satisfied. Such other specified requirements include the requirements that the lending company must derive at least 80 percent of its gross income from loans (1) maturing in not more than 36 months; (2) the interest and all other authorized charges on any individual loan must not exceed the amount equal to simple interest computed at the rate of 3 percent per month not payable in advance and only on unpaid balances; and (3) at least 60 percent of its gross income must be derived from loans to individuals each of whose indebtedness to the company does not exceed the limit prescribed by applicable State law or, if there is no such limit, \$500. This Act amends section 542(c) (7) so as to delete the requirements in items (1) and (2) mentioned in the preceding sentence and increases the \$500 limitation mentioned in item (3) to \$1,500. In addition, section 542(c) (7) is amended so that the 80 percent of gross income need not be derived solely from loans but also may include lawful income received from domestic subsidiaries (in which the corporation has at least 80 percent of the voting power of all classes of stock and owns at least 80 percent of the nonvoting stock) if the subsidiaries are themselves exempted from personal holding company tax under sections 542(c) (6), (7), (8), or (9). The amendment also makes clear that the term "small loan business" includes a "consumer finance business" so as to encompass consumer finance loans generally; and require that the organization be not only "authorized" to engage in the small loan or consumer finance business but must also be "actively and regularly engaged in" such business. The amendment applies with respect to taxable years beginning after December 31, 1961.

PUBLIC LAW 87-770 (page 86).

4216(f) (4) (C)

Addition of magazines and outdoor advertising signs and posters as media of local advertising charges for which may qualify for exclusion from sale price for purposes of manufacturers excise taxes.—Section 4216(f) (4) of the Code contains a definition of the term "local advertising" for purposes of the exclusion of charges for local advertising from the sale price of taxable articles. Subsection (C) of section 4216(f) (4) limits the advertising to that which is broadcast over a radio or television station or appears in a newspaper. Section 2 of this Act amends section 4216(f) (4) (C) to add magazines and outdoor advertising signs and posters as qualifying advertising media for purposes of this exclusion. This amendment applies with respect to articles sold on or after January 1, 1963.

PUBLIC LAW 87-790 (page 88).

809(d)(6), 815(c)(2)(C)

Life Insurance Company Deduction for Certain Accident and Health Insurance and Group Life Insurance Contracts.—Section 3 of this Act amends section 809(d)(6) (relating to the deduction for group life, accident and health insurance) and section 815(c)(2)(C) (relating to the policyholders surplus account) by extending the deduction to individual as well as group accident and health insurance contracts and group life insurance contracts. These amendments are applicable to taxable years beginning after December 31, 1962.

PUBLIC LAW 87-792 (page 89).

37(c), 62(7), 72(d), 72(m), 72(n), 101(b), 104(a), 105(g), 172(d), 401(a), 401(c), 401(d), 401(e), 401(f), 401(g), 402(a), 403(a), 404(a), 404(e), 404(f), 405, 503(j), 805(d), 1361(d), 2039(c), 2517(a), 2517(b), 3306(b), 3401(a), 6047, 7207

SELF-EMPLOYED INDIVIDUALS TAX RETIREMENT ACT OF 1962

Under the provisions of the Act self-employed individuals may establish pension or profit-sharing plans covering themselves. Contributions to the plan are deductible and income earned by the plan is not taxed until withdrawal from the fund. An owner-employee, however, cannot be covered by the plan unless all full-time employees with more than 3 years service are covered. An owner-employee is one who owns all of an unincorporated business or is a partner owning more than a 10-percent interest in the capital or profits of the business. For each taxable year a self-employed individual, whether or not an owner-employee, may deduct one-half the deductible contributions made for his own benefit. These contributions are limited to the lesser of \$2,500 or 10 percent of "earned income," the maximum deduction being \$1,250. If other employees are covered by the plan, a self-employed individual may also make additional nondeductible contributions on the same basis as the other employees. In the case of owner-employees, however, these additional contributions are also limited to the lesser of \$2,500 or 10 percent of earned income. "Earned income" generally means professional fees and other compensation for personal services. Where invested capital is a material income-producing factor, the term means not more than 30 percent of the net profits of the business, but, when the self-employed person renders full-time personal services, not less than the first \$2,500 of the net profits shall be considered "earned income." Plans covering owner-employees must also provide that contributions for all employees are nonforfeitable when made; that benefits to owner-employees must not be paid before age 59½, except in case of death or permanent disability; and that distribution to owner-employees must begin by age 70½. Lump-sum distributions to self-employed individuals are subject to an averaging provision, but other employees receive capital gains treatment.

The trustee of a pension or profit-sharing trust benefiting owner-employees must be a bank or other specified financial institution, unless annuity, endowment, or life insurance contracts are used exclusively

to fund the trust. Custodial accounts with banks may be used, or the plan may be funded by the direct purchase of a new series of Government bonds. Income realized on the redemption of these special bonds, however, is always taxed at ordinary rates and a lump-sum distribution under a qualified bond plan does not result in capital gains treatment for any employee. Integration with social security is allowed, subject to certain restrictions. Penalties are provided for excess contributions, premature distributions, and engaging in certain prohibited transactions.

Self-employed individuals do not qualify either for the \$5,000 death benefit exclusion or for the sick-pay exclusion, nor do they qualify for the estate and gift tax exclusion generally allowed to employees under qualified plans. A self-employed individual may exclude from his gross income, however, amounts received through accident or health insurance to the extent attributable to his own nondeductible contributions. Distributions to self-employed individuals under qualified plans qualify as retirement income for purposes of the retirement income credit.

The Act also amends the Code with regard to existing plans to provide that the rights of all covered employees must vest when the plan terminates or contributions cease and that forfeitures under a pension plan may not be used to increase the benefits that any employee would otherwise receive.

For purposes of the Federal unemployment tax and the withholding of income tax from wages, the Act provides an exclusion from wages for payments under or to an annuity plan described in section 403(a) or a qualified bond purchase plan described in section 405(a). These exclusions supersede the existing exclusion from such wages for payments under or to employee annuity plans which meet the requirements of section 401(a) (3), (4), (5), and (6). The Act does not affect the taxes under the Federal Insurance Contributions Act.

The amendments made by this Act apply to taxable years beginning after December 31, 1962.

PUBLIC LAW 87-794 (page 107).

172, 6501(h), 6511(d) (2) (A)

TRADE EXPANSION ACT OF 1962

Extended net operating loss carryback for taxpayers injured by increased imports.—The Trade Expansion Act of 1962 provides several forms of adjustment assistance for firms certified to be eligible because of serious injury by increased imports resulting from trade agreement concessions. Section 317 of this Act amends section 172 by extending the period to which a net operating loss may be carried back, from 3 years to 5 years, for a firm certified for tax assistance by the Secretary of Commerce. Prior to certification, the Secretary of Commerce is to determine that tax assistance will materially contribute to the economic adjustment of the firm, and if the firm carries on more than one trade or business, the Secretary of Commerce must further determine that the loss arose predominantly out of carrying on the import-injured trade or business. The firm is to apply to the

Secretary of Commerce for tax assistance within 24 months after the close of the loss year and is to notify the Service that it has filed the application. After issuance of the certification, by the Secretary of Commerce, the firm is to file a copy with the Service and must also consent in writing to the assessment of a deficiency for any year attributable to the disallowance of a deduction already allowed for the same net operating loss under the usual net operating loss rules. The 5-year carryback will apply only for net operating losses incurred in taxable years ending on or after December 31, 1962. The carryback period for a net operating loss of a partner or a shareholder in a subchapter S corporation is extended to 5 years only if the net operating loss of the taxpayer is predominantly attributable to certified losses. With respect to amounts attributable to a loss for which a certification has been issued, the period for assessing a deficiency is not to expire before 18 months after the taxpayer files a copy of the certification with the Service, and the period for claiming credit or refund is not to expire before 6 months after the certification is issued.

PUBLIC LAW 87-834 (page 111).

38, 46, 48, 181, 1016

REVENUE ACT OF 1962

Credit for investment in certain depreciable property.—Under new section 38, a taxpayer's income tax liability will be reduced by a credit for investment in certain depreciable property. The new investment credit is not merely a deduction allowed in computing income on which tax is imposed; rather, it is a credit against the income tax imposed. New section 38 (section 38 of prior law was redesignated section 39) provides that the amount of the credit is to be determined under sections 46, 47, and 48.

Under new section 46, the credit is 7 percent of the "qualified investment" in "section 38 property" placed in service during a taxable year ending after December 31, 1961. In the case of public utility property, the effective rate of the credit is three percent. Section 38 property is tangible personal property, and certain real property, which is depreciable property having a useful life of 4 years or more, and which is acquired or constructed after December 31, 1961. Real property that may qualify is property (other than a building) used as an integral part of manufacturing, production, extraction, or certain public service activities, and research or storage facilities used in connection with any of the enumerated activities. Section 38 property does not include buildings, livestock, most property used outside the U.S., property used in furnishing lodging (other than by a hotel or motel), and property used in tax-exempt activities. Section 38 property may be either new or used, but not more than \$50,000 of investment in used property will qualify for the credit. In general, "qualified investment" in section 38 property is determined by multiplying the basis of the property (or the cost in case of used property) by 100 percent if the useful life of the property is 8 years or more, 66 $\frac{2}{3}$ percent if the useful life is 6 but less than 8 years, and 33 $\frac{1}{3}$ percent if the useful life is 4 but less than 6 years.

The investment credit allowed for any year is subject to a limitation based on the taxpayer's liability for tax (as defined in section 46(a)) for that year. The credit may never exceed the tax liability, nor may it exceed an amount equal to \$25,000 of tax liability plus 25 percent of the tax liability over that amount. Special rules govern the applicability of this \$25,000 amount in the case of certain married persons filing separate returns, affiliated groups, and certain special taxpayers such as mutual savings banks, etc.

The amount of the credit which exceeds the limitation may be carried back three years (but not to a year ending before January 1, 1962) and forward five years. For purposes of depreciation, and gain or loss, the basis of qualified property is reduced by an amount equal to 7 percent of the qualified investment in the property. This basis adjustment is not made for purposes of computing the investment credit. A deduction is allowed under new section 181 for any investment credit unused either at the end of the five-year carryover period or upon death or cessation of existence of the taxpayer. In general, a lessor of new property may make an election permitting the lessee to take the credit. If the lessor makes the election, the credit is computed by reference to the useful life and the basis of the property in the hands of the lessor. If the property was constructed by the lessor, the credit is computed by using the fair market value of the property. No basis adjustment is necessary where the lessee is allowed the credit, but the lessee, in computing his taxable income, must reduce his deductions for rent by an amount equal to the credit.

47

New section 47 requires a recomputation of the investment credit (with certain limited exceptions) when property on which the credit was allowed is disposed of or otherwise ceases to qualify as section 38 property before the expiration of the period claimed as the estimated useful life of the asset in the computation of the credit. The credit is recomputed by using the actual period the property was held rather than the estimated useful life assigned to the property in the original computation. Any reduction in the investment credit first affects any carryovers of unused investment credits and then may result in the imposition of additional tax for the year of disposition. No recomputation is necessary in case of a transfer by reason of death, transfers in certain corporate acquisitions, or certain changes in the form of doing business (such as incorporation of a sole proprietorship).

381(c)

Section 381(c) is amended by adding thereto a new paragraph (23) to provide for the carryover in certain corporate acquisitions of the investment credit attributes of the transferor corporation.

6501, 6511, 6601, 6611

The statutory provisions relating to statutes of limitations and interest have been amended to permit orderly administration of the 3-year unused investment credit carryback provision.

162(e)

Appearances, etc., with respect to legislation.—Under prior law expenses in connection with any legislative activities were nondeductible

as was that portion of any dues paid to an organization which was attributable to such activities, if a substantial part of the organization's activities consisted of legislative activities. This was so even though such expenses might otherwise be ordinary and necessary business expenses. New section 162(e), as added by section 3 of the Act, permits a deduction for certain legislative expenses if they are ordinary and necessary business expenses and if they are concerned with legislation or proposed legislation of direct interest to a taxpayer (or an organization of which he is a member). A deduction will be allowed for such expenses which are directly connected with: appearances before, submission of statements to, or sending communications to individual legislators, committees, or legislative bodies of all levels of government; and, the communication of information between a taxpayer and an organization of which he is a member (or vice versa). Dues paid by a business taxpayer to an organization engaging in the foregoing activities are deductible to the extent attributable thereto. However, no deduction will be allowed for: any amount paid or incurred for participation or intervention in a political campaign in support of or in opposition to, any candidate; and, any expenditure to influence the general public, or segments thereof (by advertising or otherwise), with respect to legislative matters, elections, or referendums (e.g., so-called grassroot campaigns). This provision shall apply to taxable years beginning after December 31, 1962.

274, 162(a)(2)

Disallowance of certain entertainment, etc., expenses.—Section (4) of this Act amends subchapter B of chapter 1 of the Code by adding a new section 274 which disallows in whole or in part certain expenses which were fully deductible under prior law. The requirements imposed are in addition to the requirements for deductibility under sections 162 and 212. Section (4) also amends section 162(a)(2) with respect to travel expenses.

Under prior law entertainment and related expenses were deductible if they were shown to be ordinary and necessary in the carrying on of the taxpayer's trade or business. Under new section 274(a) no deduction is allowed for entertainment expenses unless the taxpayer establishes that the expense was directly related to the active conduct of his trade or business, except that entertainment which directly precedes or follows a substantial and bona fide business discussion is deductible if it is associated with the active conduct of his trade or business. No deduction is allowed for expenses with respect to entertainment facilities, including club dues, unless the taxpayer establishes that the facility was used primarily for the furtherance of the taxpayer's trade or business and that such expense was directly related to the active conduct of his trade or business.

The disallowance provisions of new section 274(a) do not apply to certain categories of expenses (set forth in new section 274(e)), which might be considered to constitute entertainment, such as certain business meals, employee recreation, employee and stockholder business meetings, etc. However, such expenses must be substantiated.

Generally under prior law the cost of a business gift was deductible by the donor if it was shown to be ordinary and necessary in the carry-

ing on of the donor's trade or business. Under new section 274(b) gifts deductible under prior law are limited to \$25 per recipient per year but the following items are excluded from this limitation:

- (1) certain advertising specialty gifts costing the donor \$4 or less;
- (2) certain advertising material used on the business premises in connection with the recipient's business; and
- (3) certain employee awards costing \$100 or less.

Under prior law traveling expenses away from home (including the entire amount spent for meals and lodging) were deductible if the primary purpose of the trip was connected with business. New section 274(c) requires an allocation of the expenses to and from one's destination where the trip is for both business and pleasure. The non-business portion of the allocation is not deductible. No such allocation is required, and the primary purpose test of prior law applies, where the trip is for 1 week or less, or if the trip exceeds 1 week and less than 25 percent of the time spent is unrelated to business. Also section 162(a)(2) is amended to disallow the portion of expenses for meals and lodging incurred while traveling away from home in pursuit of a trade or business which is considered to be lavish or extravagant.

Under prior law where travel, entertainment, gifts and related expenditures were not substantiated but there was evidence that some expenditures were made, the courts, using the rule of the *George M. Cohan* case, have allowed a deduction for what was determined to be a reasonable approximation of such expenditures. New section 274(d) supersedes the *Cohan* rule and requires all taxpayers to substantiate such expenditures in detail by adequate records or by sufficient evidence corroborating their own statements in order to obtain a deduction for such expenditures.

The new provisions apply with respect to taxable years ending after December 31, 1962, but only in respect of periods after such date.

301(b)(1)(C)

Certain corporate distributees of foreign corporation.—Section 5(a) of this Act amends section 301(b)(1) of the Code by adding a new subparagraph (C) which provides that property (other than money) distributed by a foreign corporation to a corporate shareholder is to be taken into account at its fair market value. A partial exception is made, however, to this rule when a deduction with respect to such a distribution is allowable under section 245 (relating to 85 percent dividends received deduction on income from United States sources). In the latter case, the amount taken into account is determined by an apportionment based on the lower of adjusted basis or fair market value of the property to the extent the distribution is attributable to income from United States sources and on the fair market value of the property to the extent the distribution is attributable to income from sources without the United States. This amendment applies to distributions made after December 31, 1962.

301(d)(3)

Basis of certain corporate distributees of foreign corporation.—Section 5(b) of this Act amends section 301(d) by adding a new paragraph (3) which provides that the basis of property received by

corporate shareholder from a foreign corporation is determined under new subparagraph (C) of section 301(b)(1). This amendment applies to distributions made after December 31, 1962.

245(b)

Distributions of property received from certain foreign corporations.—Section 5(c) of this Act amends section 245 by designating existing section 245 as subsection (a) and adding new subsection (b) which provides that for purposes of computing the dividends received deduction under section 245(a), the amount of the distribution of property other than money is to be determined by applying the existing rule of section 301(b)(1)(B). This amendment applies to distributions made after December 31, 1962.

593

Reserves for losses on loans of mutual savings institutions.—Section 6(a) of the Act provides new rules for the calculation of additions to the reserves for bad debts of mutual savings institutions. The institutions subject to these rules are (i) mutual savings banks not having capital stock represented by shares, (ii) domestic building and loan associations, and (iii) cooperative banks without capital stock organized and operated for mutual purposes and without profit. Beginning in 1963, the allowable deduction for additions to reserves for bad debts is the sum of two amounts—an amount added to a reserve for losses on nonqualifying loans and an amount added to a reserve for losses on qualifying real property loans. Qualifying real property loans are defined as any loan secured by an interest in improved real property or by real property which is to be improved out of the proceeds of the loan, providing the loan is (i) not evidenced by a security (as defined in section 165(g)(2)(C)), (ii) not the primary obligation of a government, bank, or affiliated organization, (iii) not secured by a deposit or share of the institution, or (iv) not acquired and disposed of within a 60-day period. Nonqualifying loans are all other loans.

The addition to the reserve for losses on nonqualifying loans is an amount determined under section 166(c) to be a reasonable addition based upon the amount of loans outstanding, the amount already in the reserve, the experience of the institution and other appropriate factors.

The addition to the reserve for losses on qualifying real property loans is any amount determined by the taxpayer to be a reasonable amount, but such amount may not exceed the largest of three amounts, computed under three different methods, as follows:

(1) *Percentage of taxable income method.*—Sixty percent of taxable income (computed without regard to any bad debt deduction, and without regard to any amount added by reason of a distribution with respect to nonwithdrawable shares) reduced by the addition to the nonqualifying reserve. However, the addition under this method may not result in increasing the reserve to more than 6 percent of qualifying loans.

(2) *Percentage of real property loans method.*—An amount necessary to increase the reserve to 3 percent of qualifying loans. Mutual companies which are less than 10 years old may build

reserves to 5 percent of the first \$4,000,000 of their qualifying loans and 3 percent of loans in excess of \$4,000,000 unless they have any amount in the supplemental reserve for losses on loans (see below).

(3) *Experience method*.—An amount determined under section 166(c) (without regard to section 593) to be a reasonable addition to the reserve.

Unless the addition to the qualifying reserve is computed under the experience method, the addition, when added to the addition to the nonqualifying reserve, may not exceed the maximum addition which could have been made under former section 593. Former section 593 provided that the addition to the reserve could not exceed the amount by which 12 percent of deposits or withdrawable accounts at the close of the year exceeds the sum of the surplus, undivided profits, and reserves at the beginning of the year.

In the case of certain savings and loan associations whose assets of the type described in section 7701(a)(19)(D)(ii) exceed 36 percent of the total assets, the addition under the percentage of taxable income method and the percentage of loans method shall be reduced by $\frac{1}{2}$ thereof respectively for each percentage point (or fraction thereof) in excess of 36 percent but less than 42 percent.

Provision is made for the allocation of reserves accumulated before 1963 in the reserve for bad debts to the nonqualifying reserve and the qualifying reserve on the basis of amounts which would have been accumulated if the institution had been making additions under the experience method or the percentage of loans method of the new law (whichever would have produced the larger reserve). Any excess is allocated to a supplemental reserve for losses on loans. The latter reserve is treated as a bad debt reserve, but it is not taken into account in determining additions to the two other reserves except in the case of new institutions which might claim amounts to build the qualifying reserve up to 5 percent of the first \$4,000,000 of qualifying loans. Amounts accumulated before 1952 will not be allocated to the three reserves except to the extent that post-1951 accumulations are not sufficient to increase the qualifying reserve to 3 percent of loans or a reasonable amount, if greater. When so allocated, the pre-1952 reserves will be considered solely for the purpose of computing future additions to the qualifying reserves.

Although the bad debt provisions of the Act are effective for taxable years ending after December 31, 1962, a special provision relating to fiscal years beginning in 1962 and ending in 1963 has the effect of applying the old law to the portion of the taxable year falling in 1962 and the new law to the portion of the taxable year falling in 1963.

Special rules relating to distributions of property made with respect to nonwithdrawable accounts provide for the order of charging distributions and for the determination of the amount so charged.

595

Foreclosure on property securing loans.—Section 6(b) of the Act changes existing rules where a mutual savings institution (referred to in section 593) bids in real property on foreclosure, or otherwise re-

ceives, pursuant to agreement or process of law, real property which was security for a loan. The new rules, effective for transactions occurring after December 31, 1962, provide that no gain or loss and no bad debt shall be recognized as a result of foreclosure. The foreclosed property shall acquire the basis of the debt and be treated as the debt. Amounts realized with respect to the property shall be treated as payment on account of the loan, and, upon ultimate disposition, any loss shall be treated as a bad debt.

7701(a) (19)

Definition of domestic building and loan association.—The general definition of “domestic building and loan association” in section 7701 (a) (19) is changed to require that, for years beginning after October 16, 1962, an association meet three types of tests. One test provides that the savings association must either have its accounts insured by the Federal Savings and Loan Insurance Corporation or be subject by law to supervision and examination by State or Federal authority. The second test requires that substantially all the business of the association must consist of acquiring the savings of the public and investing in real estate loans and certain assets closely associated with such business. The third test is a series of percentage requirements which sets forth the minimum percentages of assets which must consist of certain types of loans. In general, real estate mortgage loans are most favored under these requirements, with special emphasis on mortgages given on property containing 1 to 4 family units. In certain situations an institution may deviate from one of the percentage requirements for a year by up to 5 percentage points. (But the special deduction for additions to the reserve for bad debts under the percentage of taxable income method or the percentage of real property loans method is reduced.)

591

Deduction for dividends paid on deposits.—Dividends or interest paid on deposits or withdrawable accounts by savings institutions chartered and supervised as savings and loan or similar associations under Federal or State law are deductible even though they do not come within the definition of domestic building and loan associations.

Repeal of exemption of Federal savings and loan associations from Federal taxes.—Section 6(e) (1) of this Act amends section 5(h) of the Home Owner's Loan Act of 1933 so as to eliminate entirely the exemption previously accorded Federal savings and loan associations from those Federal taxes, the legal incidence of which would fall upon them. These Federal taxes include, among others, the excise taxes on amounts paid for communication services and for the transportation of persons. In the case of the tax on communication services this amendment is effective with respect to amounts paid pursuant to bills rendered after December 31, 1962, and in the case of the tax on the transportation of persons the amendment is effective with respect to transportation which begins after December 31, 1962.

4382(a) (2)

Amendment of exemption from documentary stamp tax for domestic building and loan associations.—Section 6(e) (2) amends Code

section 4382(a) (2) to limit the Federal documentary stamp tax exemption now available to domestic building and loan associations (as defined in paragraph 19 of section 7701(a) as amended by section 6(c) of this Act) and cooperative banks to shares or certificates of stock issued by such associations and banks which represent deposits or withdrawable accounts. Thus, the exemption will not apply to shares or certificates of stock issued by such associations and banks which represent their capital stock or to certificates of indebtedness issued by these associations and banks. The amendment made by section 6(e) (2) is effective January 1, 1963.

643(a) (6), 643(d), 665, 666(a), 668(a), 669, 6048, 6677, 7701(a) (30), 7701(a) (31)

Distributions by foreign trusts.—Under the law prior to this amendment foreign trusts could be established for the benefit of U.S. beneficiaries by U.S. grantors or settlors in such a way that little or no tax on the foreign trust's income would be paid to the United States. Section 7 of the Act amends several sections of the Code in order to tax U.S. beneficiaries of foreign trusts to which U.S. persons have transferred money or property in approximately the same manner as if the income had been distributed to the beneficiary currently as earned. Only that portion of a foreign trust which was created by a United States person or to which a U.S. person transferred property, will be affected by these new provisions. Section 643, relating to definitions for estates and trusts, is amended to provide special rules for foreign trusts, the most important one being that in computing the distributable net income of a foreign trust, any excess of capital gains over capital losses shall be taken into account. Section 665, relating to definitions concerning the treatment of excess distributions by trusts, is amended to provide that an accumulation distribution, in the case of a foreign trust created by a U.S. person, is any distribution in excess of current distributable net income. Under section 666, as amended, the restriction of the throwback rule to the 5 preceding taxable years of the trust is removed for foreign trusts created by a U.S. person. Instead an unlimited throwback is provided, applying however only to years governed by the 1954 Code. Section 669, a new section relating to special rules applicable to certain foreign trusts, is added to subchapter J of chapter 1. It provides special rules relating to the treatment of excess distributions by foreign trusts created by U.S. persons. If the beneficiary furnishes certain information relating to the operation and accounts of the foreign trust, he may elect to compute his tax liability under either of two methods. If these methods are not elected, he must compute his liability in the ordinary way by including in income the entire amount of an accumulation distribution. The first method, known as the "exact method," is similar to that provided for domestic trusts except the restriction of the throwback rule to the 5 preceding taxable years has been removed and replaced by an unlimited throwback. The second method, known as the "short-cut method," in effect averages the tax attributable to the distribution over the same number of years which equal the number in which the income was earned by the trust. An average amount is included in the ben-

eficiary's income for the current year and each of the two immediately preceding years. From these three years the average additional tax for one year is determined and then multiplied by the number of years of the total accumulation. The new section specifies how the beneficiary may change from one method to the other and provides other rules for situations where the new methods must be adjusted to fit the unusual facts of a particular distribution. The Act also adds two new sections to the Code relating to information returns and penalties for failure to file them. New section 6048 requires that a United States person who either creates a foreign trust or transfers money or property to a foreign trust must file an information return and new section 6677 provides a civil penalty for those persons who fail to file the return required by section 6048, unless it is shown that such failure is due to reasonable cause.

821, 822, 823, 824, 825, 826, 831, 832

Taxation of mutual fire and casualty insurance companies.—Section 8 of this Act amends Part II of subchapter 6 of chapter 1 of the Code to provide that mutual fire and casualty insurance companies, previously subject to a tax either on net investment income or gross investment income and premiums, shall be subject to a tax upon a total income base at ordinary corporate rates. Mutual insurance company taxable income is to be comprised of investment income and statutory underwriting income. Certain small companies with total receipts not exceeding \$150,000 are tax exempt. Those companies with gross receipts between \$150,000 and \$500,000 are taxed at corporate rates only on investment income. Those companies with total receipts not exceeding \$1,100,000 receive a diminishing \$6,000 special deduction against underwriting income. This special deduction vanishes when total receipts equal \$1,100,000. A special transitional rule applies to companies which experienced underwriting losses in years prior to 1962.

Statutory underwriting income is underwriting income less a special deduction consisting of one percent of the year's incurred losses and 25 percent of the year's underwriting income. The special deduction amounts are set aside in a protection against loss account for a five-year period to be available to pay extraordinary losses. If not absorbed by such losses within five years, a portion of the amount set aside is then taxed as underwriting income and the balance remains permanently in the protection against loss account to pay any extraordinary losses. Losses exceeding investment income and amounts in the protection against loss account are treated like net operating loss carrybacks and carryovers. Special treatment concerning the size of protection against loss accounts is given companies underwriting certain windstorm risks.

Reciprocal underwriters, previously taxed only upon investment income exceeding \$50,000, are now taxed like other mutuals. In addition they may elect to take a credit for taxes paid by their attorney-in-facts. Factory mutuals, in the past treated as mutuals, are now taxed as though they are stock companies. Mutual marine companies, previously taxed as stock companies, will continue to be taxed like stock companies.

These amendments apply to taxable years beginning after December 31, 1962.

78, 902(a), 902(b), 902(c), 902(d), 902(e), 861(a)(2)(B)

Foreign tax credit gross-up of dividends.—In general, prior to section 9 of this Act, a domestic corporation (owning 10 percent or more of the stock of a foreign corporation) was permitted a partial double allowance for foreign taxes paid by its subsidiary with respect to the dividends distributed. This resulted from the fact that the foreign taxes were excluded from the income of the parent, as dividends are paid on an after-tax basis, and a partial credit was also allowed under section 902 for the same foreign taxes to the extent applicable to the actual distribution.

Section 9 of this Act adds a new section 78 to provide, in effect, that if a domestic corporation elects to take a credit (rather than a deduction) for taxes paid by a foreign subsidiary (other than a less developed country corporation) it must, in addition to the dividend received, take into income the foreign taxes paid with respect to the profits on which such dividend was distributed, that is, gross-up the dividends received. The amendment to section 902 provided by this Act, in effect, allows as a foreign tax credit (within existing limitations) the foreign tax paid on this "grossed-up" amount (the total arrived at under section 78), rather than only that tax which is allocable to the actual dividend under the rule enunciated by the court in the *American Chicle Company* case, 316 U.S. 450 (1942).

This section, by repealing section 902(d), discontinues the treatment of certain royalties paid in lieu of dividends, as dividends for the purpose of the foreign tax credit.

Section 861(a)(2)(B) has also been amended by this section to treat as U.S. source income the 15 percent of the dividends remaining in income after taking the 85-percent dividends received deduction which is available, under certain circumstances, to a domestic parent where its foreign subsidiary had U.S. source income. The amendment changes the present rule which permitted this 15-percent excess to be treated as foreign source income for the purpose of limitations on the foreign tax credit.

These amendments apply in respect of any distributions received after December 31, 1964. They also apply to distributions received before January 1, 1965, but only to the extent they are made from the accumulated profits of the subsidiary for its taxable years beginning after December 31, 1962.

904

Separate limitation on foreign tax credit with respect to certain interest income.—Section 10 of this Act amends section 904, relating to limitations on the foreign tax credit, by redesignating subsection (f) as subsection (g) and by inserting after subsection (e) a new subsection (f) relating to special rules in case of interest income. Under section 904, an unused foreign tax credit results when the foreign rate of tax is higher than the U.S. rate on the same income. To offset this unused foreign tax credit, U.S. taxpayers often transfer short-term capital abroad to countries where the interest income from the investment will be taxed at a rate lower than the U.S. tax on

such income. New subsection (f) provides that the limitation on the foreign tax credit is to be applied separately to certain interest income as opposed to the rest of a taxpayer's income and further provides that the limitation with respect to the interest income always must be applied on a per-country basis. The provision is made applicable to all interest income, except interest—(1) derived from transactions directly related to the active conduct of a trade or business in a foreign country or U.S. possession; (2) derived in the conduct of a banking, financing, or similar business; (3) received from a corporation in which the taxpayer owns at least 10 percent of the voting stock; (4) and interest received on obligations acquired where it was necessary to dispose of an active trade or business carried on in a foreign country or United States possession or to dispose of securities in a foreign subsidiary corporation in which the taxpayer has had at least a 10 percent voting interest. Transitional rules are provided for computing carrybacks and carryovers where any year involved is a year to which the new provision is not applicable. The new subsection applies with respect to taxable years beginning after the date of enactment of the Act but only with respect to interest resulting from transactions consummated after April 2, 1962.

Earned income from sources without the United States.—Section 11 of this Act amends section 911, relating to taxability of earned income from sources without the United States, by placing an additional limitation on the amount of earned income which certain United States citizens living abroad may exclude from their gross income. In general, section 911, prior to this amendment, provided that an individual citizen of the United States who is a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year may exclude from his United States tax base his entire earned income from sources outside of the United States. In addition an individual who lives abroad, but does not establish a foreign residence, may exclude from his United States tax base his earned income up to \$20,000 a year if he remains abroad for a period of 17 out of 18 consecutive months. Under the new provision, the exemption for bona fide residents of foreign countries will be limited to \$20,000 a year for the first 3 years, the same limitation as for those physically present abroad for a period of 17 out of 18 consecutive months. After a bona fide resident has been abroad for 3 consecutive years, the limitation is raised to \$35,000. Prior law is also changed by providing that amounts received shall be considered received in the taxable year in which the services to which the amounts are attributable are performed. However, no amount may be excluded under either limitation unless it is received before the close of the taxable year following the taxable year in which the services were performed. Regarding the treatment of earned income which is held to be community property under local law, the statute now provides that the aggregate amount excludable under either limitation from the gross income of a husband and wife shall equal the amount which would be excludable if the income did not constitute community income. There are 2 provisions in section 11 which relate to pensions and annuities. The first provides that no amount received as a pension or annuity may be excluded under either limitation. The second

relates to amounts contributed by an employer to certain nonqualified pension plans. It provides that where amounts must be included in an employee's gross income under sections 402(b), 403(c), and 403(d), they may not be excluded by reference to section 911. A new provision in section 911 now provides that if an individual asserts and is held not subject to foreign income tax by the foreign authorities concerned on the grounds that he is not a resident of the country involved, this shall be conclusive evidence that he is not a bona fide resident of such country for purposes of section 911(a)(1), relating to bona fide residence. Another provision relating to fringe benefits which are noncash in nature, such as the use of a home or car, states that these fringe benefits will be entirely excluded from taxable income for a taxable year ending in 1963, excluded to the extent of two-thirds for years ending in 1964, and excluded to the extent of one-third for years ending in 1965. After 1965, these amounts must be included in gross income to the extent that they, together with any other income earned from foreign sources, exceed the applicable limitation. In general, the amendments to section 911 are effective with respect to all amounts received after March 12, 1962, which are attributable to services performed after December 31, 1962. They also apply to amounts received after December 31, 1962, which are attributable to services performed on or before December 31, 1962, unless there existed a right to receive such amounts on March 12, 1962.

Section 11 of this Act also amends section 72(f), relating to special rules for computing employee's contributions in connection with annuities. The amendment changes prior law by providing that, in general, amounts contributed after December 31, 1962, to a plan by an employer no longer shall be considered as part of the employee's contribution by reason of the application of section 911 unless the services were performed before January 1, 1963. This amendment to section 72 is effective for taxable years ending after December 31, 1962.

Controlled foreign corporation.—Section 12 of this Act amends the Code by adding subparts F (sections 951-963) and G (sections 970-971) to Part III of subchapter N of chapter 1 (relating to income from sources without the United States). Prior to this amendment profits earned by foreign corporations were not taxed to United States shareholders until they were distributed as dividends. This section of the Act provides that certain types of income of foreign corporations controlled by United States shareholders are included in income of such shareholders in the year the income is earned, whether or not distributed.

951

Amounts included in gross income of United States shareholders.—Section 951 provides that if a foreign corporation is a controlled foreign corporation, hereafter termed CFC (as defined in section 957), for at least 30 consecutive days during its taxable year, then every United States shareholder who owns stock in such corporation on the last day in such year on which the corporation is a CFC must include:

1. His prorata share of the CFC's subpart F income (as defined in section 952),

2. His prorata share of the CFC's previously excluded subpart F income withdrawn from investment in less developed countries (as determined in section 955), and

3. His prorata share of the CFC's increase in earnings invested in United States property (as determined in section 956).

The earnings of a CFC classified as subpart F income or as investments in United States property give rise to taxable income to a United States shareholder only for the portion of the earnings represented by the portion of the year in which the foreign corporation was a CFC. Generally, if CFC stock is transferred by any person to a United States shareholder and the transferor receives a distribution during the taxable year, the acquiring shareholder may reduce the amount of subpart F income for the current taxable year which he would otherwise be required to include in gross income, by the amount of such dividend.

A United States shareholder who is a qualified shareholder of an electing foreign investment company (section 1247 as added by section 14 of this Act) or is subject to tax under section 551(b) (relating to foreign personal holding company income) for any taxable year is not required to include under gross income, for such year, any amount of income under this section with respect to the foreign investment company or foreign personal holding company.

A United States shareholder is defined as a citizen, resident alien, or any domestic entity who owns directly or indirectly through attribution rules of section 958(a) or (b) at least 10 percent of the voting stock of a CFC.

952

Subpart F income defined.—Subpart F income means the sum of (1) the income derived from the insurance of United States risks (section 953) and (2) the foreign base company income (section 954). Such income does not include income within the United States and taxed under United States law. The subpart F income for any taxable year is limited to the earnings and profits for such year.

953

Income from insurance of United States risks.—Generally, income derived from insurance (or reinsurance) of United States risks is included as subpart F income if the premiums thereon exceed five percent of the CFC's total premiums for the taxable year and if such income would (subject to certain modifications) be taxed under subchapter L of chapter 1 of the Code if the CFC were a domestic insurance corporation. Certain sections of subchapter L are either modified or inapplicable in determining underwriting income as well as net investment income.

954

Foreign base company income.—The second element comprising subpart F income is foreign base company income. This section defines foreign base company income as the sum of three items each reduced by deductions properly allocable under regulations. These items are:

1. Foreign personal holding company income as modified in section 954(c),

2. Foreign base company sales income (defined in section 954(d)) which generally involves income derived from the purchase or sale of personal property from or to a related person. This provision does not apply, however, if the property is manufactured, produced, grown, or extracted in the country where the CFC is organized, or if the property purchased outside such country is sold for use or consumption in such country, and

3. Foreign base company service income (defined in section 954(d)) which generally involves compensation derived in connection with technical or similar services performed for a related person outside the country in which the CFC is organized.

Certain types of income are excepted from foreign base company income. They include (1) dividends, interest, and capital gains received from qualified investments in less developed countries, limited, however, to the increase in such investments for the taxable year; (2) income from certain shipping and air transportation; and (3) income received by a CFC where it is established to the satisfaction of the Secretary or his delegate that the CFC is not availed of to reduce taxes. In addition, special rules apply where the foreign base company income is less than 30 percent or more than 70 percent of the CFC's gross income.

955

Withdrawal of previously excluded subpart F income from qualified investment.—This section of the Code provides rules for the inclusion in a United States shareholder's gross income of amounts withdrawn from investments in less developed countries which were at one time excluded from subpart F income. Qualified investments in a less developed country include stock and certain obligations of a less developed country corporation, ten percent of whose voting stock is directly owned by the CFC, and obligations of a less developed country. Property disposed of within 6 months after acquisition does not qualify as such property. This section of the Code also defines a less developed country corporation as a foreign corporation engaged in business and at least 80 percent of whose income and property is generally in less developed countries or foreign shipping or aircraft corporations meeting certain requirements. A less developed country means any foreign country (other than an area within the Sino-Soviet bloc) or a United States possession which is so designated by Executive Order. Certain countries are specifically excluded.

956

Investment of earnings in United States property.—This section of the Code provides rules for determining the United States shareholder's share of CFC's increase in earnings invested in United States property. United States property is defined as certain property located in the United States and acquired after December 31, 1962. Certain exceptions are provided.

957

Controlled foreign corporations; United States person.—This section of the Code is a definitional section. A controlled foreign corporation (CFC) means generally any foreign corporation of which more than 50 percent of its voting stock is owned directly or through attribution by United States shareholders (10 percent owners) on any day during the taxable year of such CFC. A CFC also means certain foreign corporations receiving insurance premiums attributable to United States risks. Certain corporations organized in Puerto Rico, Virgin Islands, or United States possessions meeting certain requirements are not treated as CFC's. This section of the Code also defines United States person as a citizen or United States resident or any domestic entity. However, certain individuals of Puerto Rico, Virgin Islands, or United States possession are excepted.

958

Rules for determining stock ownership.—This section of the Code provides two separate sets of attribution rules. One provides a limited rule of stock ownership for determining the amount taxable to a United States shareholder. In such case, a United States shareholder owns stock in a foreign corporation which he owns proportionally through foreign entities. The other provides rules of constructive ownership based, with certain exceptions and modifications, on section 318. The purpose of the second rule is to determine whether a United States shareholder has the requisite ownership to be liable for tax under section 951(a); to treat a person as a related person for purpose of the foreign base company sales income; and to make a corporation a CFC under section 957.

959

Exclusion from gross income of previously taxed earnings and profits.—This section of the Code provides that earnings and profits of a foreign corporation attributable to amounts once included in gross income under section 951(a) are not again included in gross income when actually distributed. Also, this section prevents including in gross income under section 951(a)(1)(B) any increase in earnings invested in United States property to the extent such increase can be considered as attributable to income taxable under section 951(a)(1)(A). Further, rules are provided for allocation of distributions to earnings and profits whereby actual dividends are treated first as being paid out of earnings invested in United States property, then out of subpart F income, and finally out of earnings and profits which have not previously been taxed to the United States shareholders.

960

Special rules for foreign tax credit.—This section of the Code provides rules, consistent with section 902 (as amended by section 9 of this Act), for treating foreign taxes paid by CFC's on undistributed earnings which are included in the gross income of domestic corpora-

tions under section 951(a) as deemed paid by such domestic corporations. Rules are also provided to prevent doubling of the foreign tax credit when actual dividends are paid and to increase the section 904 limitation in the year of actual distributions so that a credit will be allowed for foreign taxes imposed on the income distributed after it was included in gross income under section 951. Refunds are allowed if the increase in the section 904 limitation exceeds the United States tax in the year of actual distribution.

961

Adjustment to basis of stock in controlled foreign corporations and of other property.—Section 961 of the Code in general provides rules for the adjustment to basis of a United States shareholder's stock in a CFC by the amount included in gross income under section 951 and by the amount which is excluded from gross income under section 959(a). Special rules are provided in the case of an individual shareholder who has made an election under section 962.

962

Election by individuals to be subject to tax at corporate rates.—This section of the Code provides an election for an individual United States shareholder to be taxed at corporate rates on the undistributed earnings included in his gross income under section 951(a). Such shareholder is entitled to the foreign tax credit under section 960 similar to a corporation. An allocation rule is provided for the surtax exemption and special rules apply in the taxable year actual distributions are made.

963

Receipt of minimum distributions by domestic corporations.—Section 963 of the Code provides that no amount is to be included in gross income under section 951(a)(1)(A)(i) for the taxable year with respect to the subpart F income of a CFC if a United States shareholder which is a domestic corporation consents to all the regulations prescribed under section 963 prior to the last day prescribed by law for filing its return and if such shareholder receives its share of the minimum distribution of the earnings and profits for the taxable year of such CFC. A schedule of minimum distribution is provided. This schedule indicates the required minimum distribution of earnings and profits, as a percentage, for each category of effective foreign tax rate. In general, the effective foreign tax rate is the percentage that foreign taxes paid or accrued by a CFC with respect to its earnings and profits for the taxable year ending in or with the taxable year of the domestic corporate shareholder bears to the sum of such earnings and profits and such foreign taxes.

In general, this section may apply to a CFC in which a domestic corporate shareholder owns stock directly; to a chain of CFCs in which such shareholder owns stock under section 958(a)(2) to the extent the shareholder so elects; and to all CFCs in which such shareholder owns stock under section 958(a)(2), except, upon election by the shareholder, certain less developed country corporations. For purposes of the last category, certain foreign branches of a domestic

corporate shareholder may be elected to be included. An affiliated group of domestic corporations which makes a consolidated return under section 1501 may elect to be treated as a single United States shareholder.

964

Miscellaneous provisions.—In general, this section of the Code provides that for purposes of subpart F, earnings and profits of any foreign corporation is to be determined under rules substantially similar to those applicable to domestic corporations. Earnings and profits of a CFC for any taxable year are not to be included in earnings and profits for purposes of section 952 (relating to subpart F income defined), section 955 (relating to withdrawal of previously excluded subpart F income from qualified investments), and section 956 (relating to investment of earnings in United States property) if such earnings could not be distributed to United States shareholders because of currency or other restrictions of any foreign country.

970

Reduction of subpart F income of export trade corporations.—Section 970 of the Code provides in general, that the subpart F income of a CFC which for the taxable year is an export trade corporation (ETC) is reduced by the export trade income of such corporation for such year to the extent it constitutes foreign base company income (as defined in section 954). However, the reduction in subpart F income is limited to the lesser of:

1. One and one-half times the export promotion expenses (as defined in section 971(d)) for the taxable year, or
2. Ten percent of the gross receipts for the taxable year from the sale, installation, operation, maintenance, or use of property from which the ETC derived export trade income.

The reduction under (1) or (2) above may not exceed an amount which bears the same ratio to the increase in investments in export trade assets of an ETC as the export trade income which constitutes foreign base company income bears to the entire export trade income for the taxable year. Generally a decrease in the investments in export trade assets results in an inclusion of income in the U.S. shareholder's gross income under section 951(a)(1)(A)(ii).

971

Definitions.—This section of the Code is a definitional section. In general, a CFC is an export trade corporation (ETC) if for three years preceding the taxable year it derived at least 90 percent of its gross income from sources without the United States and at least 75 percent of its gross income constituted export trade income.

In very general terms, export trade income means net income from the sale to an unrelated person for use outside the United States of export property; commissions, etc. from services performed in connection with the use by an unrelated person outside the United States of patents, etc. owned by the United States manufacturer of export property, but only if the CFC derived export trade income from the sale of such property; commissions, etc. from the use of export property by an unrelated person or from the use of export property in the

rendition of technical, etc. services to an unrelated person; and interest from export trade assets.

170, 301, 312, 341, 453, 751, 1245

Gain from dispositions of certain depreciable property.—Under prior law, the excess of gains over losses from the sale or exchange of most depreciable property used in a trade or business was treated as capital gain under section 1231. Under new section 1245, gain upon the sale, exchange, or other disposition of certain depreciable property will be ordinary income to the extent that the basis of the property in the hands of the taxpayer has been reduced by deductions for depreciation (or amortization under section 168) for periods after December 31, 1961. Any gain in excess of ordinary income recognized under section 1245 will continue to be treated as gain to which section 1231 applies. New section 1245 also provides for recognition of ordinary income in certain cases where gain was not recognized under prior law. Property to which the section applies is called “section 1245 property.” Such property is depreciable property (other than livestock) which is personal property, or which is tangible real property (other than a building) if used as an integral part of manufacturing, production, extraction, or in certain public service activities, or is a research or storage facility used in connection with one of the enumerated activities. Subsection (b) of new section 1245 provides certain exceptions to the general rule. Under subsection (b) no ordinary income will result by reason of a transfer at death, or a disposition by gift. Section 170 is amended, however, to provide that if section 1245 property is given to a charitable organization, the deduction for charitable contributions is to be reduced by the amount of ordinary income that would have been recognized under section 1245 if the property had been sold at its fair market value. Under subsection (b), ordinary income will result upon certain tax-free transfers (contributions of property to a corporation or partnership, certain corporation liquidations, etc.), like-kind exchanges, and involuntary conversions of depreciable property, only to the extent that gain is recognized without regard to section 1245. A special rule governs the application of new section 1245 to partnership distributions, etc. New section 1245 applies only to dispositions during a taxable year beginning after December 31, 1962.

167

Section 167, relating to depreciation, is amended to permit taxpayers to elect to change from a declining balance or sum of the years-digits method to the straight line method of depreciating property subject to section 1245. The election (to be made in a manner prescribed by regulations) may be made on or before the due date for filing the income tax return for the first taxable year beginning after December 31, 1962. Section 167 is also amended to allow a reduction of salvage value required to be taken into account for purposes of computing depreciation. The salvage value of depreciable personal property (other than livestock) with a useful life of 3 years or more may be reduced by an amount equal to 10 percent of the basis of the property. The salvage value amendment applies only to taxable years

beginning after December 31, 1961, and to property acquired after October 16, 1962.

613

Section 613(a), relating to percentage depletion, is amended to provide that, for purposes of computing the limitation on allowable percentage depletion to 50 percent of taxable income from the property, expenses of mining will be reduced by any ordinary income under section 1245 which is properly attributable to the property. The amendment to section 613(a) is applicable to taxable years beginning after December 31, 1962.

1246

Gain on foreign investment company stock.—Section 14 of this Act adds new sections 1246 and 1247 to the Code. Generally, section 1246 treats the gain on a sale or exchange after December 31, 1962, of stock in a foreign corporation which was a foreign investment company at any time during the period which the taxpayer held such stock as gain from the sale or exchange of property which is not a capital asset. This provision also applies to certain redemptions and distributions under sections 302 and 331. Such ordinary income treatment applies only to the extent of the taxpayer's ratable share of earnings and profits of the foreign investment company for taxable years beginning after December 31, 1962, and during the period that the taxpayer held such stock. This section does not apply to short-term capital gains.

The burden is on the taxpayer to establish the amount of the accumulated earnings and profits of the foreign investment company and his share of such earnings and profits for the period during which the taxpayer held such stock. Failure to establish this information will result in treating all the gain from the sale or exchange of stock in such company as ordinary income.

A foreign investment company for purposes of section 1246 means a foreign corporation (1) which is registered under the Investment Company Act of 1940 either as a management company or as a unit investment trust, or (2) which is not so registered, is engaged in the investment business, and more than 50 percent of the voting power or value of the stock is held directly or indirectly by United States persons (as defined in section 7701(a)(30)). The second category does not apply to brokers, banks, and small loan companies.

Rules relating to stock having transferred or substituted basis apply and the holding period for such stock is determined under section 1223. Special rules are provided for stock acquired from a decedent and stock of a foreign investment company held through a domestic corporation or through a domestic trust to which section 677 (relating to income for benefit of grantor) applies. Every United States person owning 5 percent in value of stock of a foreign investment company must furnish with respect to such foreign corporation such information as the Secretary or his delegate prescribes by regulations.

1247

Election by foreign investment companies to distribute income currently.—This section of the Code provides that if a registered foreign investment company (described in section 1246(b)(1)) elects on or

before December 31, 1962, with respect to each taxable year beginning after December 31, 1962, to (1) distribute at least 90 percent of its taxable income currently (computed as though it were a domestic corporation) with certain modifications, (2) inform its shareholders in writing their proportionate amount of long-term gains, whether or not distributed, and (3) provide information required under regulations then section 1246 will not apply to those shareholders (designated qualified shareholders) who include in their income their pro rata share of long-term capital gains, whether or not distributed. The election terminates with the failure to comply with the terms of the election unless there is reasonable cause, or when the company becomes a foreign personal holding company, or when the company ceases to be a foreign investment company. The company can elect within two and one-half months after the end of the taxable year to consider distributions made within that period as distributed during such taxable year.

An electing foreign investment company may under certain conditions elect to pass through its foreign income taxes to its shareholders. Under such election, the foreign taxes will not be allowed as a deduction to the foreign investment company and each qualified shareholder must include his share of such foreign taxes in income but he will be entitled to a foreign tax credit. The shareholder's share of the foreign taxes must be designated by the company in a written notice to the shareholder within 45 days after the end of the company's taxable year.

Provisions are made for adjustments to earnings and profits and the shareholder's basis to reflect the inclusion of the undistributed capital gains in the shareholder's income. Any loss from the sale of stock held six months or less will be treated as a long-term capital loss to the extent that the basis of such stock was increased by reported and undistributed long-term capital gains.

312

Allocation within affiliated group.—Section 14(b)(1) of this Act amends section 312 by adding a new subsection (1). Paragraphs (1) and (2) of subsection (1) provide that earnings and profits of an affiliated group in which the foreign investment company is a member, are to be allocated. Paragraph (3) of subsection (1) provides rules governing the reduction of earnings and profits of a foreign investment company as a result of amounts it distributes after December 31, 1962, in a partial liquidation or in a redemption to which section 302(a) or 303 applies.

751(d)(2)(C) and (D)

Sale or exchange of interest in partnership.—Section 14(b)(2) of this Act amends section 751(d)(2) by striking subparagraph (C) and adding new subparagraphs (C) and (D) which treat as an inventory item for purposes of subchapter K of the Code certain stock of a foreign investment company.

1223(10)

Holding period of property.—Section 14(b)(3) of this Act amends section 1223 by redesignating paragraph (10) as paragraph (11) and

adding a new paragraph (10) which includes the period foreign investment company stock is held by a trust or by a corporation covered by section 1246(d).

Effective date. The amendments made by section 14 of the Act apply to taxable years beginning after December 31, 1962.

1248

Gain from certain sales or exchanges of stock in certain foreign corporations.—Section 15(a) adds section 1248 to apply with respect to sales or exchanges of stock in a foreign corporation occurring after December 31, 1962. Generally, section 1248(a) provides that gain recognized on the sale or exchange of stock by a U.S. person owning 10 percent or more of the voting stock of a foreign corporation shall be included in gross income of such person as a dividend to the extent of the earnings and profits of the foreign corporation attributable to the period the stock sold or exchanged was held by such person while the foreign corporation was a controlled foreign corporation. In determining stock ownership the attribution rules of new section 958 are applicable. Section 1248(b) provides a limitation on the amount of tax payable by a U.S. person who is an individual in the case of a sale of a capital asset held in excess of 6 months, and subsections (c) and (d) provide rules for determining earnings and profits for purposes of this section. Generally, earnings and profits of the foreign corporation include earnings and profits of its subsidiaries for the periods the subsidiaries were controlled foreign corporations, but exclude (1) earnings and profits attributable to income taxed under section 951, (2) earnings and profits attributable to gain from the sale or exchange of property in pursuance of a plan of complete liquidation, (3) earnings and profits accumulated by a foreign corporation while it was a less developed country corporation, (4) income from U.S. sources while engaged in business there, and (5) earnings and profits of the foreign corporation which was a foreign investment company for taxable years in which the U.S. shareholder whose stock is sold or exchanged was a qualified shareholder as defined in section 1247. Subsection (e) provides rules relating to the sale or exchange of stock of certain domestic corporations. Subsection (f) provides certain exceptions to this section. These are generally any amount treated under the 1954 Code as a dividend, gain from the sale of non-capital assets, and short-term capital gains; distributions to which section 303 applies; and gain realized on section 356 exchange. Subsection (g) places the burden on the taxpayer to establish the amount of earnings and profits. Failure to establish this amount will result in treating all of the gain as a dividend under subsection (a). Also, unless the taxpayer establishes the amount of foreign taxes required under subsection (b) of this section the limitation provided in subsection (b) is not to apply.

1249

Gain from certain sales or exchanges of patents, etc., to certain foreign corporations.—Section 16 of this Act amends part IV of subchapter P of chapter 1 of the Code by adding section 1249 which provides that gain from the sale or exchange after December 31, 1962, of a pat-

ent, invention, model, or design (whether or not patented), copyright, secret formula or process, or other similar property right by a United States person (as defined in new section 7701(a)(30)) to a foreign corporation which such person controls is considered as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231. For this rule to apply, such gain must (but for this section) be gain from the sale or exchange of a capital asset or of property described in section 1231. For purposes of this section, a United States person controls a foreign corporation if he owns directly or indirectly, using the constructive ownership rules of new section 958, more than 50 percent of the voting stock of such corporation. This section applies to taxable years beginning after December 31, 1962.

1381(a), 1381(b), 1382(a), 1382(b), 1382(c), 1382(d), 1382(e), 1382(f), 1383(a), 1383(b), 1385(a), 1385(b), 1385(c), 1388(a), 1388(b), 1388(c), 1388(d), 1388(e), 521(a), 522, 6072(d)

Tax treatment of cooperatives and patrons.—Section 17(a) of this Act adds a new subchapter T consisting of parts I, II, and III (relating to cooperatives and their patrons) to chapter 1 of the Code, so as to impose, upon either the cooperatives or on their patrons, a single tax on the income of the cooperatives.

Part I (consisting of sections 1381, 1382, and 1383 (relates to the tax treatment of cooperatives. Section 1381(a) specifies those organizations to which such part applies; that is, so-called tax-exempt farmers' cooperatives (section 521), other farm and consumer cooperatives, and any corporation operating on a cooperative basis. Such part I does not apply to mutual savings banks, building and loan associations, mutual insurance companies, mutual ditch, irrigation or REA cooperatives, or to organizations which furnish electric energy or provide telephone service to persons in rural areas. Section 1381(b) continues the rule that so-called tax-exempt farmers' cooperatives (section 521) are subject to the taxes imposed by section 11 or 1201.

Section 1382 (relating to taxable income of cooperatives) provides in subsection (a) that "gross income" is to be determined without any adjustment by reason of any allocation or distribution to a patron out of the net earnings of the organization; any amount which is "not taken into account" in computing taxable income under subsection (b) is to be treated in the same manner as if it were an item of gross income and a deduction therefrom. Subsection (b) provides that, in computing "taxable income" of the cooperative, there is not to be taken into account patronage dividends paid with respect to patronage occurring during the taxable year or amounts paid in redemption of nonqualified written notices of allocation (paid during the "payment period" for the taxable year). In addition, deductions are allowed for amounts paid as dividends on capital stock of so-called tax-exempt farmers' cooperatives and, to such organizations only, amounts paid on a patronage basis on earnings derived from business done with the United States or its agencies or from sources other than patronage as well as amounts paid in redemption of certain nonqualified written notices of allocation. Under subsection (d), "payment period" for any taxable

year is the period beginning with the first day of such taxable year and ending with the fifteenth day of the ninth month after the close of such year. A "qualified check" issued during such payment period will be treated as an amount paid in money if it is endorsed and cashed on or before the ninetieth day after the close of such period. Subsection (e) provides that, in the case of pooling arrangements for the marketing of products, the patronage shall be treated as occurring during the year the pool closes (under regulations prescribed by the Secretary or his delegate). Under subsection (f), earnings received after patronage occurs will be considered to have been received with respect to patronage in the year in which such earnings are includible in gross income.

Section 1383 (relating to computation of tax where the cooperative redeems nonqualified written notices of allocation) provides in subsection (a) that if a deduction is allowable for amounts paid in redemption of nonqualified written notices of allocation, the tax imposed shall be the lesser of (1) the tax for the taxable year computed with such deduction, or (2) an amount equal to the tax for the taxable year computed without such deduction minus the decrease in tax for any prior year which would result solely from treating such nonqualified written notices as qualified written notices. If the decrease in tax so ascertained exceeds the tax for the taxable year computed without the deduction, such excess is to be credited or refunded as provided in subsection (b).

Part II (consisting of section 1385) relates to the tax treatment of patrons of patronage dividends. Section 1385 (relating to amounts includible in patrons' gross income) provides in subsection (a) that each person shall include in gross income the amount of any patronage dividend as well as any amount which he receives with respect to earnings from business done with the United States, etc., during the taxable year. Subsection (b) excludes from gross income any amount which is taken into account as an adjustment to basis of property or is attributable to personal living or family items. Under subsection (c), the basis of nonqualified written notices of allocation in the hands of the patron is zero; if acquired from a decedent its basis is the basis in the hands of the decedent. A gain on the redemption, sale, or other disposition of such notices of allocations are to be considered as a gain from the sale or exchange of property which is not a capital asset.

Part III (consisting of section 1388) provides definitions and special rules for purposes of the new subchapter T. Subsection (a) of section 1388 defines "patronage dividend" as an amount paid to a patron on the basis of quantity or value of business done with or for such patron, under an obligation (existing before the amount was received by the cooperative) to pay such amount, and which is determined with reference to the net earnings of the organization. The term does not include any amount paid out of earnings from business other than with or for patrons, or any amount which is out of earnings from business done with or for other patrons to whom no amounts (or smaller amounts) are paid. Subsection (b) defines "written notice of allocation" as capital stock, revolving fund certificate, retain certificate, certificate of indebtedness, letter of advice, or other written notice, which discloses the stated dollar amount allocated and the

amount which is a patronage dividend. Subsection (c) defines "qualified written notice of allocation" as a written notice which may be redeemed in cash within 90 days after it is issued, and a written notice which the distributee has consented to take into account at its stated dollar amount. However, such term does not include any written notice of allocation unless at least 20 percent of the amount of the patronage dividend, or other payment, is paid in money or by qualified check. The consent required of the patron may be given in writing by the patron, by obtaining or retaining membership in the cooperative under bylaws providing that membership constitutes consent (a copy of such bylaws must be furnished to the member), or by endorsing and cashing a qualified check. Written consent will be effective for all subsequent years but may be revoked before the end of the year in which the patronage occurs. The so-called bylaw consent cannot be revoked. A "qualified check" includes only a check or other instrument issued to a patron who has not otherwise consented with respect to the distribution of which the check or other instrument is a part and on which is clearly imprinted a statement that the endorsement and cashing of the check constitutes consent of the payee to include in gross income the stated dollar amount of the patronage dividend. Subsection (d) defines "nonqualified written notice of allocation" as any written notice of allocation which is not a qualified written notice of allocation or a qualified check which is not cashed on or before a specific day.

Under subsection (e), property (other than a written notice of allocation) is to be taken into account at its fair market value, and a qualified written notice of allocation is to be taken into account at its stated dollar amount.

Section 17(b) of this Act makes technical amendments to sections 521(a) and 6072(d) and repeals section 522, so as to conform, and give proper effect to, the new subchapter T. Section 521(a) is amended merely to substitute "part I of subchapter T (section 1381 and following)" for "section 522". Section 522 is repealed as no longer necessary for taxable years to which subchapter T applies since all the rules provided in section 522 are reflected in such new subchapter T. Section 6072(d) is amended to permit the filing of returns within eight and one-half months after the close of the taxable year by, not only the so-called tax-exempt farmers' cooperatives, but also any cooperative which is under an obligation to pay (or has paid) at least 50 percent of its net earnings as patronage dividends, as provided in paragraph (2) of such section 6072(d).

Section 17(c) of this Act sets forth the effective dates applicable to the amendments made by subsections (a) and (b). For the cooperative, such amendments apply to taxable years beginning after December 31, 1962; for the patrons, section 1385 applies to amount paid by cooperatives in taxable years beginning after December 31, 1962. With respect to amounts paid or allocated by cooperatives before the first day of the first taxable year beginning after December 31, 1962, or on or after such first day with respect to patronage occurring before such first day, the tax treatment shall be made without regard to the new subchapter T.

2031(a), 2033, 2034, 2035(a), 2036(a), 2037(a), 2038(a), 2040, 2041(a)

Inclusion of foreign real property in gross estate.—Section 18 of this Act amends sections 2031(a), 2033, 2034, 2035(a), 2036(a), 2037(a), 2038(a), 2040, and 2041(a) of the Code to eliminate the exclusion from the gross estate of real property situated outside the United States. The amendment results in the inclusion in the gross estate of decedents who are citizens or residents of the United States of the fair market value of their interests in foreign real property. The amendment is effective with respect to estates of decedents who die after October 16, 1962, but permits the continued exclusion of the value of certain foreign real property in estates of decedents who die after October 16, 1962, and before July 1, 1964. In this latter situation the exclusion applies to foreign real property (1) acquired by the decedent prior to February 1, 1962, or (2) acquired by the decedent after January 31, 1962, by gift or from a prior decedent by devise or inheritance, or by reason of death, form of ownership or other conditions (including the exercise or non-exercise of a power of appointment), but only if the donor or prior decedent had acquired the property or interest which passed from him to the decedent or had possessed a power to appoint such property or interest to the decedent before February 1, 1962.

6041, 6042, 6044, 6049, 6652, 6678

Changes in provisions governing reporting of payments of dividends, patronage dividends, and interest.—Section 19 of the Act changes the requirements of the Code for the reporting of payments of dividends, patronage dividends, and interest by amending sections 6041, 6042, and 6044 and by adding a new section 6049. In general, the new provisions require that persons making payments of dividends, patronage dividends (and certain other distributions by cooperatives), or interest aggregating \$10 or more to any person during the calendar year shall file annual returns reporting such payments. Persons who receive payments of dividends or interest as nominees for other persons and who make payments to such other persons aggregating \$10 or more per person during a calendar year in respect of the dividends or interest so received also are required to make returns with respect to annual payments of \$10 or more per person. In addition to the returns required to be filed with the Government, annual statements are required to be furnished by the payers (including nominees) to all recipients of dividend, patronage dividend, or interest payments of \$10 or more a year, showing the amount of the payments reported to the Government and the name and address of the payer. Civil penalties for failure of compliance with the requirements for furnishing returns to the Government and statements to payees with respect to payments of \$10 or more are provided in an amendment of section 6652 and in a new section 6678. The penalty with respect to returns to the Government and statements to payees is \$10 for each failure with a maximum of \$25,000 for all failures during any calendar year. The new provisions apply to payments of interest or dividends made on or after January 1, 1963, and to payments by cooperatives made on or after January 1, 1963, with respect

to patronage occurring on or after the first day of the first taxable year of the cooperative beginning on or after January 1, 1963.

318, 6038

Information with respect to certain foreign corporations.—Section 20(a) of the Act amends section 6038 to provide that information returns, previously required only from domestic corporations, be submitted by all United States persons in control of foreign corporations. In addition to the items of information with regard to those corporations specified in the statute, the new law gives the Secretary or his delegate authority to require the submission of other similar or related information. Prior law required the supplying of information only with respect to a foreign subsidiary or a subsidiary of that subsidiary. Information is now required with respect to all foreign corporations controlled, regardless of the number of tiers involved. The definition of control has been broadened to include most of the constructive ownership rules of section 318 and certain modifications and limitations have been imposed on the penalty provisions provided for failure to comply. All amendments apply only with respect to annual information returns required for accounting periods of foreign corporations beginning after December 31, 1962. Information may be required under this section only with respect to annual accounting periods for which regulations under this section are in effect from the first day of such period. Section 318 is amended by section 20(d) of the Act by adding a cross-reference to section 6038.

6046, 6679

Returns as to organization or reorganization of foreign corporations and as to acquisitions of their stock.—Section 20 of the Act amends section 6046 of the Code to require that information returns be made by (1) each United States citizen or resident who is on January 1, 1963, or who at any time thereafter becomes, an officer or director of a foreign corporation, 5 percent or more in value of the stock of which is owned by a United States person, (2) each United States person who owns on January 1, 1963, 5 percent or more in value of the stock of a foreign corporation, or who at any time thereafter acquires stock which added to any stock owned on January 1, 1963, equals 5 percent or more in value of the stock of a foreign corporation, or who at any time thereafter acquires an additional 5 percent or more in value of the stock of a foreign corporation, and (3) each person who after January 1, 1963, becomes a United States person while owning 5 percent or more in value of the stock of a foreign corporation. The term “United States person”, as defined in section 7701(a)(30), is so used in this section.

The Secretary or his delegate is authorized to prescribe by forms or regulations that the returns required under this section set forth such information regarding the foreign corporation as is necessary for carrying out the provisions of the income tax laws. However, the information which the Secretary or his delegate may require from the officers or directors, as such, of a foreign corporation is limited to the names and addresses of the United States persons described in paragraph (2) of subsection (a).

Under this section persons are required to take into account stock which they own directly or indirectly. Stock owned by an individual's brothers or sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants is considered owned by such individual.

The time for filing a return under this section is on or before the 90th day after the day on which the liability to file such return arises.

Under a limitation in this section where a liability to file a return arises on or after January 1, 1963, and before June 1, 1963—

(1) unless regulations under this section are in effect on or before March 1, 1963, no information shall be required to be furnished, and

(2) If regulations become effective on a day after such liability arises, the date for filing the return under this section shall be on or before the 90th day after the effective date of the regulations.

Also, with respect to liabilities arising on or after June 1, 1963, no information shall be required to be furnished, unless regulations under this section have been in effect for at least 90 days before the date on which such liability arises.

This Act also adds a new section 6679 to the Code. Such section imposes a civil penalty of \$1,000 on any person required to file a return under section 6046 who fails to do so at the time provided in such section, or who files a return but fails to show the information required, unless it is shown that either failure is due to reasonable cause.

It is also provided in section 6679 that the deficiency procedures, provided for in subchapter B of chapter 63 of the Code, shall not apply in the assessment or collection of this penalty.

182, 263(a) (1)

Deduction by farmers of expenditures incurred in the clearing of land.—Section 21 of the Act adds a new section 182 which permits taxpayers engaged in the business of farming to make an annual election for taxable years beginning after December 31, 1962, to deduct expenditures not otherwise allowable (including depreciation charges) incurred to eradicate trees and stumps or to accomplish similar objectives for the purpose of making land suitable for use by the taxpayer for the production of crops or for other agricultural purposes. The deduction for any taxable year is limited to the lesser of \$5,000, or 25 percent of the taxpayer's gross income from farming reduced by the business expenses allocable thereto. Expenditures incurred in excess of the applicable limitation for a taxable year must, as in the past, be capitalized. This section of the Act also amends section 263(a) (1) to insure that expenditures covered by section 182 will be removed from the operation of the general rule applicable to capital expenditures.

1307(e)

Election with respect to charitable contributions.—Section 22 of the Act adds to the Code a special rule for determining the amount of charitable contributions deductible by an individual when his "bunched income" is to be spread under the special "averaging" provisions of the tax law. Under this rule the limitation on charitable contribu-

tions made in the year in which the bunched income is received may be applied before the income is spread over the years to which it is attributable. Only the net amount of bunched income remaining after the charitable contribution has been deducted will in effect be spreadback over the year to which attributable.

This provision is to apply with respect to amounts received or accrued in taxable years beginning after December 31, 1961.

Retroactive application of section 1371(c), relating to stock owned by husband and wife in an electing small business corporation under subchapter S.—Section 23 of this Act provides that section 1371(c) (relating to the determination of the number of shareholders of a small business corporation where stock is owned by a husband and wife) is, subject to the provisions for filing of election and consents, to apply to taxable years beginning after December 31, 1957, and before January 1, 1960. Prior to such amendment, section 1371(c) applied only to taxable years beginning after December 31, 1959. Section 23 of this Act provides a 1-year period within which an otherwise qualifying small business corporation may make a special election to have the earlier effective date of section 1371(c) apply. For the special election to be valid, a corporation must have previously made a valid election to have its income taxed directly to its shareholders, and each person who is a shareholder at the time of the special election (as well as each person who was a shareholder for any taxable year beginning after December 31, 1957, and ending before the date on which the special election is made) must give his consent. In addition, where a special election (and the requisite consents) has been made, the statute of limitations for assessing additional tax against the corporation or the shareholders attributable to the earlier effective date of section 1371(c), and the statute of limitations for allowing a credit or refund of any overpayment of tax by the corporation or its shareholders attributable to the earlier effective date of section 1371(c), is to remain open, or be opened, for 1 year following the date of the election.

Certain losses sustained in converting from street railway to bus operations.—Section 24 of this Act provides an additional 5-year carryover period, beginning with 1960, for net operating losses incurred in the calendar years 1953 and 1954 principally as the result of conversion from street railway to bus operations. This section applies only to a corporation for years in which (i) it is engaged in the furnishing or sale of transportation and (ii) its rates for the transportation are established or approved by a regulatory body.

Retroactive tax exemption for International Hod Carriers' Building and Common Laborers' Local 435 pension fund.—Section 25 of this Act provides that the union-negotiated pension plan of Local Union No. 435 of the International Hod Carriers' Building and Common Laborers' Union of America is to be treated as a qualified, tax-exempt trust for the period beginning May 1, 1960, and ending April 20, 1961, if it is shown to the satisfaction of the Secretary of the Treasury that the trust was not operated during this period in a manner which would jeopardize the interests of its beneficiaries. This will permit employers to deduct contributions made to this trust in this period.

Exclusion of awards on Japanese-American evacuation claims.—Section 27 of this Act provides an exclusion for awards received by Americans of Japanese ancestry pursuant to the act allowing claims for damages they suffered as a result of being evacuated under military orders from the West coast during World War II.

The exclusion applies to taxable years ending after July 2, 1948, which is the date of enactment of the Japanese-American Evacuation Claims Act. This section provides for the allowance of refund or credit of overpayments resulting from its enactment in cases which have become barred, if claim is filed within one year after date of enactment. In these cases the amount of the refund will not be diminished by any credit or set-off based upon any item other than the award. No interest is allowed on the refund.

216

Deduction for business depreciation by cooperative tenant-stockholder.—Section 28 of this Act adds a new subsection (c) to section 216 of the Code. Prior to this amendment, under section 216, a tenant-stockholder in a cooperative housing corporation was allowed a deduction for his share of the taxes and interest paid by the corporation but was not permitted any deduction for amortization or depreciation where the premises were used in a trade or business or for the production of income. This result was due to the fact that what he owned was merely stock in a corporation; he had no depreciable interest in the real estate and could not amortize his right of tenancy as it is an integral part of the stock for which no separable basis could be ascribed.

This amendment, which is applicable to taxable years beginning after December 31, 1961, allows a depreciation deduction under section 167(a) on so much of the basis of the stock as is allocable, under regulations prescribed by the Secretary or his delegate, to the right of tenancy used by the taxpayer in his trade or business or for the production of income.

Deduction for contributions to certain judicial reform organizations.—Section 29 of this Act allows a charitable deduction under section 170 for amounts contributed to any nonprofit organization created and operated exclusively to consider proposals for the reorganization of the judicial branch of any State or local government and to provide information, make recommendations and seek public support or opposition to these proposals. The organization may not, however, participate in any political campaign on behalf of any candidate for public office.

The charitable deduction is allowed for contributions or gifts made after December 31, 1961, with respect to a referendum occurring during 1962.

Retroactive application of section 1374(b), relating to the allowance of deduction of net operating loss of a subchapter S corporation.—Prior to enactment of section 30 of this Act, a shareholder in an electing small business corporation was allowed a deduction in his final taxable year for his pro rata share of the net operating loss of the corporation for the year of the corporation ending after his death only if he died after September 23, 1959. Section 30 of this Act al-

lows a deduction in the final taxable year of a deceased shareholder of his pro rata share of the net operating loss of the corporation for the year of the corporation ending after his death if he died after September 2, 1958.

Treaties.—Section 31 of the Act provides that section 7852(d) of the Code (relating to treaty obligations) shall not apply to any amendment made by the Revenue Act of 1962. Section 7852(d) provides that no provision of the 1954 Code shall apply where it conflicts with any treaty obligation of the United States in effect on August 16, 1954, the date on which the 1954 Code was enacted.

PUBLIC LAW 87-858 (page 206).

4216(b) (2) (C)

Expanded use of special constructive sale price for purposes of manufacturers' excise taxes.—Section 4216(b)(2) of the Code provides, subject to certain limitations, for a special constructive sales price for the purpose of computing excise tax liability in the case of sales of taxable articles by the manufacturer thereof at retail, to retailers, or to special dealers. One of the limitations is contained in subparagraph (C) of this section of the Code, namely, that the normal method of sales for the articles within the industry is not to sell such articles at retail or to retailers or both. Section 1 of this Act amends subparagraph (C) so that this limitation as to the normal method of sales within the industry, applies only in respect of sales of automobiles, trucks and buses, business machines, and matches. The amendment applies with respect to articles sold by the manufacturer, producer, importer on or after October 1, 1962.

170(b) (1)

Limitation of charitable deductions.—Section 2 of this Act amends section 170(b) of the Code to expand the list of organizations to which deductible contributions may be made in excess of the general 20 percent limitation. Section 170(b)(1)(B) limits the amount of an individual's charitable contribution deductions to 20 percent of his adjusted gross income. Section 170(b)(1)(A) provides for an additional deduction (not to exceed 10 percent of adjusted gross income) for contributions made to churches, educational organizations and hospitals. This amendment adds to the list of organizations qualifying for the additional 10 percent deduction an organization which qualifies under section 503(b)(3) of the Code which is organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a college or university which is an agency or instrumentality of a State or political subdivision thereof, or is owned or operated by a State or political subdivision thereof, or is owned or operated by an agency or instrumentality of one or more States or political subdivisions. An example of an organization that could fit this description is an endowment foundation established by an alumni association to benefit a State University.

A conforming amendment to section 170(b)(1)(B) is also made. This amendment is effective for taxable years beginning after December 31, 1960.

801(g).

Life insurance company contracts with reserves based on segregated asset accounts.—Section 3(a) of this Act amends section 801(g) (relating to variable annuities) to continue the present treatment of variable annuities for the future, without a termination date, and to provide that income allocated to segregated asset accounts (including capital gains income in the case of qualified pension contracts) is not to be taxed to the life insurance company. This amendment is applicable to taxable years beginning after December 31, 1961.

802(a) (2)

Tax in case of capital gains of life insurance companies.—Section 3(b) of this Act amends section 802(a) (2) to provide that if the net long-term capital gain exceeds the net short-term capital loss, a life insurance company is to determine its tax as the lesser of the taxes computed under two methods—a regular method and an alternative method. The regular method requires that the excess be included, in effect, in life insurance company taxable income. The alternative method requires that the tax be determined by adding 25 percent of such excess to the partial tax computed on the life insurance company taxable income determined without the inclusion of such excess. This amendment is applicable to taxable years beginning after December 31, 1961.

809(f) (2)

Limitation on certain deductions of life insurance companies.—Section 3(c) of this Act amends section 809(f) (2) (relating to the application of limitation on certain deductions) to apply the limitation provided by section 809(f) (1) in a new order of priority. This amendment provides that the limitation shall apply first to the deduction allowed under section 809(d) (3) (policyholder dividends), then to the deduction allowed under section 809(d) (6) (the deduction for group insurance premiums), and finally to the deduction allowed under section 809(d) (5) (the deduction for nonparticipating insurance contracts). This amendment is applicable to taxable years beginning after December 31, 1961.

812(e) (2) (B)

New companies qualifying for 8-year loss carryover.—Section 3(d) of this Act amends section 812(e) (2) (B) (relating to a nonqualified corporation) to provide that a new life insurance company will not be disqualified from the 8-year operations loss carryover if such new company is connected through stock ownership only with a corporation taxable as an insurance company other than as a life insurance company. This amendment applies to all losses to which the Life Insurance Company Income Tax Act of 1959 would have applied, if it had originally contained this provision, except that a loss arising in 1955 shall not by reason of this amendment be an operations loss carryover to 1961 and there shall be no reduction in the amount of such loss which may be carried to 1962 or 1963 by reason of an offset for 1961.

815(a)

Certain distributions of stock of subsidiaries.—Section 3(e) of this Act amends section 815(a) (relating to the distributions made to shareholders of a stock life insurance company) to provide that after December 31, 1961, and before January 1, 1964, section 815(a) will not apply to a distribution of stock of a controlled corporation, if (1) the distribution meets the requirements of a tax-free distribution under section 355 (2) the controlled corporation is an insurance company subject to tax under section 831 (relating to tax on certain insurance companies other than life and certain mutuals), and (3) control was acquired before January 1, 1963, in a stock-for-stock transaction qualifying as a reorganization under section 368(a)(1)(B).

PUBLIC LAW 87-863 (page 210).

213(c), 213(g)

Medical expense deductions.—Section 1 of this Act amends sections 213(c) and 213(g) to increase the maximum allowable medical expense deductions for individuals. Formerly, section 213(c) provided that the medical expense deduction of those who were both under 65 and not disabled could not exceed \$2,500 multiplied by the number of exemptions (excluding those for age and blindness) they were allowed for the taxable year under section 151. In addition section 213(c)(1) limited the deduction for medical expense of an individual making a separate return to \$5,000, and those making joint, head of household, or surviving spouse returns to \$10,000. This amendment increases the per exemption limitation from \$2,500 to \$5,000. It also increases the separate return limitation from \$5,000 to \$10,000, and the joint, head of household and surviving spouse return limitations from \$10,000 to \$20,000.

Section 213(g) formerly limited the maximum medical expense deduction of an individual to \$15,000, if he had attained the age of 65 and was disabled or if his spouse had attained the age of 65, was disabled, and did not file a separate return. Section 213(g) also formerly limited the maximum medical expense deduction of a taxpayer and his spouse to \$30,000 if both were over 65 and disabled, provided that they made a joint return. This amendment Act increases these limitations to \$20,000 and \$40,000 respectively.

These amendments are effective for taxable years beginning after December 31, 1961.

401(h), 404(a)

Qualification of pension plans which provide certain medical and other benefits to retired employees.—Prior to this Act, the inclusion of medical benefits in a pension plan precluded qualification of the plan under section 401 of the Code. Section 2 of this Act amends section 401 to permit qualification of pension or annuity plans which provide for the payment of sickness, accident, hospitalization, and medical expenses of retired employees, their spouses and their dependents. However, the plan will qualify only if the medical benefits are subordinate to the retirement benefits, are funded in a separate account, the contributions are reasonable and ascertainable, the funds can be

used for no other purpose under the plan, and any excess is returned to the employer when all liabilities are satisfied. Section 2 of this Act also amends section 404 to make it clear that this provision applies to insured plans as well as to trustee plans. These amendments are effective for all taxable years beginning after October 23, 1962.

New option to deduct intangible drilling and development costs.—Section 3 of this Act permits taxpayers to exercise a new option to deduct intangible drilling and development costs as expenses if they had previously exercised an option to capitalize these costs for a tax year to which the Internal Revenue Code of 1939 applies under the regulations approved by Congress in H. Con. Res. 50, or under section 39.23(m)–16 of Regulations 118. This new option, if exercised, applies only for taxable years ending after October 22, 1962, and must be exercised at the time the income tax return is filed for the first taxable year ending after that date. The new option if exercised shall be binding for all future years.

7608

Authority of internal revenue enforcement officers.—This Act amends section 7608 of the Code, relating to the enforcement of subtitle E of the Code and other laws pertaining to liquor, tobacco, and firearms, by adding new provisions under which special agents of the Intelligence Division and inspectors of the Internal Security Division of the Service are authorized in the performance of their duties to execute and serve search warrants and arrest warrants and to serve subpoenas and summonses issued under authority of the United States. These officers of the Service are also authorized to make an arrest without a warrant for any United States internal revenue offense committed in their presence, or for such an offense that is a felony, if they have reason to believe the person to be arrested has committed or is committing any such felony. Finally, they may seize property which, under internal revenue laws, is subject to forfeiture.

These amendments became effective on October 24, 1962.

1341(b)

Computation of tax where taxpayer restores substantial amount held under claim of right.—Section 1341 provides for a computation of tax for a taxable year in which the taxpayer restores an amount held under a claim of right under either of the two methods prescribed which produces the lesser amount of tax. Prior to the amendment made to subsection (b) of section 1341, made by section 5 of the Act, taxpayers could find themselves in a worse position than if section 1341 had not been enacted, by reason of the treatment of a net operating loss (or a capital loss) for either the taxable year or for prior years.

Section 5 of the Act added two new paragraphs ((4) and (5)) at the end of subsection (b) of section 1341 which provide more liberal rules for the treatment of such losses. Under such provisions, in computing the amount of tax under section 1341(a)(4) (the first method) a net operating loss for the taxable year is to be carried back to the extent and in the manner provided under section 172; similarly, in

computing the amount of tax under section 1341(a)(5) (the second method) a net operating loss (or capital loss) for a prior taxable year is to be carried back and carried over to the extent and in the manner provided under section 172 (or 1212), except that no carryover beyond the taxable year shall be taken into account. This treatment of net operating loss (or capital loss) is only for the purpose of determining which method (section 1341(a)(4) or (5)) results in the lesser amount of tax for the taxable year. Once that has been determined, a net operating loss resulting from the computation under section 1341(a)(4), or a net operating loss (or capital loss) resulting from the computation under section 1341(a)(5), as the case may be, is to be taken into account under section 172 (or 1212) for taxable years after the taxable year to the same extent and in the same manner as a net operating loss sustained in the taxable year if section 1341(a)(4) is applied or as a net operating loss (or capital loss) sustained in the prior taxable year (or years) if section 1341(a)(5) is applied. The provision in section 1341(b)(3) is not changed; thus, if the tax is determined under section 1341(a)(5), the deduction described in section 1341(a)(2) is not to be taken into account for any other purpose of the Code, such as, for computing (or increasing) a net operating loss for the taxable year.

The amendment made by this Act is effective for taxable years beginning on or after January 1, 1962.

PUBLIC LAW 87-870 (page 213).

281

Terminal railroad corporations and their shareholders.—Prior to this amendment, a corporation operating a railroad terminal and providing terminal and switching facilities and services primarily to railroad corporations may have been taxed on its profits even though it used these profits by charging its shareholder railroads for services at less than cost. In addition, each shareholder railroad may have been allowed a deduction for the full cost of services rendered to it and treated as if it had received a dividend in the amount of the undercharge. Section 1 of this Act adds a new section 281 to the Code which provides that if, pursuant to a written agreement, as a result of taking income related to the operation of a railroad terminal into account a terminal railroad corporation either (i) reduces the amount that it would have charged for terminal services performed for any railroad corporation, or (ii) reduces a charge it had previously made for such services, then the terminal railroad corporation is to be neither taxed on, nor disallowed a deduction for, the portion of the charge which is so reduced. Similarly, a railroad shareholder of the terminal railroad corporation is not to be treated as having received a dividend, nor is it to be allowed a deduction, for the portion of the charge which is so reduced. For years ending after enactment, section 281 is not to apply to the extent that it would create (or increase) a net operating loss of the terminal railroad corporation. For years ending before enactment, section 281 is to apply only to the extent that the terminal railroad corporation and each shareholder originally reported its taxable income as if it were then law. Special rules are

provided for application to closed years. Section 2 of this Act makes section 281 applicable to all years to which the Internal Revenue Codes of 1954 and 1939 apply.

7515, 7516, 7809

Moneys received in payment for certain services to be deposited in a separate account which may be used to reimburse appropriations which bore the cost of such services.—Section 3 of this Act adds new sections 7515 and 7516, which authorize the Secretary or his delegate, upon request and payment of the costs of the work, to make special statistical studies and compilations involving data from returns and Service records, and to supply training and training aids to employees of States, United States possessions, and foreign governments. This section of the Act also amends section 7809 to provide, as an exception to the general rule that collections received under authority of any internal revenue law shall be paid into the general funds, that moneys received in payment for such statistical studies or such training and training aids shall be deposited in a separate account which may be used to reimburse appropriations which bore the costs of such services. This provision for deposit in a separate account which may be used to reimburse appropriations is also made applicable to moneys received in payment for work or services performed for a State or a department or agency of the Federal Government in supplying (subject to all provisions of law and regulations governing disclosure of information) copies of, or data from, returns and other documents filed with the Service or records maintained by the Service.

6512(b) (2)

Correction of procedural defect in the operation of Code sections 6512(b) (2) and 7422(e).—Section 4 of this Act corrects a procedural defect in the operation of Code sections 6512(b) (2) and 7422(e). Before amendment section 6512(b) (2) provided that no refund of an overpayment determined by the Tax Court shall be allowed unless the Tax Court also determines that the overpayment was paid either (1) after the mailing of the notice of deficiency which originally gave jurisdiction to the Tax Court, or (2) at such a time that the taxpayer could have filed a timely claim for refund on the date the notice of deficiency was mailed. This provision worked satisfactorily in all cases except where the period of limitation on the Commissioner's right to issue a deficiency notice was longer than the period of limitation on filing a claim for refund. In the latter case, however, a refund based on a timely claim could have been barred by the technical wording of section 6512(b) (2) because, even though an actual claim for refund had been filed before the mailing of the notice of deficiency, the period of limitation on filing a claim could have expired by the time the notice of deficiency was mailed. This amendment corrects this defect by adding provisions to section 6512(b) (2) which specifically protect the taxpayer who has previously filed a valid claim.

7701(a) (32)

Section 5 of this Act adds a new paragraph to section 7701(a) of the Code to define the term "cooperative bank". As so defined, a cooperative bank is an institution without capital stock organized and operated

for mutual purposes and without profit which meets the same general conditions prescribed for qualification of an institution as a domestic building and loan association under section 7701(a)(19) of the Code, as amended by section 6(c) of the Revenue Act of 1962. The amendment is effective for taxable years beginning after October 16, 1962.

PUBLIC LAW 87-876 (page 217).

37(d)

Limitation on retirement income.—Section 37 of the Code was originally enacted to give those who have retirement income, but do not receive social security or similar types of tax-exempt benefit payments, a tax exemption of approximately the same size as that received by social security beneficiaries. At the time of enactment the terms of the retirement income credit corresponded approximately with those of the social security benefits. This Act amends section 37(d) so as to update the credit under section 37 to more nearly correspond to the social security program. The maximum amount of retirement income which may be taken into account in computing the credit is raised from \$1,200 to \$1,524. In addition, instead of earned income in excess of \$1,200 reducing the retirement income eligible for the credit (on a dollar-for-dollar basis) the dollar-for-dollar reduction under the amendment made by the Act will occur only for earnings above \$1,700; for earnings between \$1,200 and \$1,700, the retirement income will be reduced by 50 cents for every dollar of earnings. Moreover, for those retiring under public retirement programs, this new reduction for earned income will apply to those age 62 or over rather than 65 or over as under prior law; for those under a public retirement program below age 62, the \$900 floor for a reduction arising from earned income continues to apply, the same as under prior law.

The amendments made by the Act are applicable in computing the retirement income credit under section 37 for taxable years ending after October 24, 1962.

461

Dividends or interest paid on certain withdrawable accounts.—Section 3 of this Act amends section 461 of the Code to provide, for taxable years ending after December 31, 1962, for the disallowance as a deduction for a taxable year of amounts paid or credited, by building and loan associations, etc., to the accounts of depositors or holders of accounts as dividends or interest on their deposits or withdrawable accounts which are for periods representing more than 12 months. Any amount not allowed as deduction for a taxable year may be allowed as a deduction for such other taxable year as the Secretary or his delegate may determine.

INTERNAL REVENUE CODE OF 1939

PUBLIC LAW 87-834 (page 111).

188

Continuation of a partnership year for surviving partner in a two-man partnership where one dies.—Section 188 of the 1939 Code is

amended to provide that the death of one of the partners in a two-man partnership will not result in the termination of the partnership or the closing of the partnership taxable year with respect to the surviving partner, if the surviving partner so elects within one year after October 16, 1962. The provisions applies to partnership taxable years beginning after December 31, 1946, to which the Internal Revenue Code of 1939 applies. Provision is made for application to closed years.

MISCELLANEOUS PUBLIC LAWS

PUBLIC LAW 87-520 (page 64).

Extension of Renegotiation Act of 1951.—This Act provides for a 2-year extension of the Renegotiation Act of 1951 from June 30, 1962, to June 30, 1964. It also modifies section 108A of the Renegotiation Act by authorizing the review of Tax Court decisions in renegotiation cases by the United States Courts of Appeals, but only with respect to cases in which the petition for redetermination is filed with the Tax Court after July 3, 1962.

PUBLIC LAW 87-629 (page 65).

Termination of Federal Jurisdiction of the Ponca Indians.—This Act provides for the termination of Federal jurisdiction of the Ponca Tribe of Native Americans of Nebraska. The Secretary of the Interior is directed to prepare a roll of the members of the Ponca Tribe who are on the census roll of April 1, 1934, as supplemented as of January 1, 1935, and their descendants of at least one-quarter degree Indian blood of the Ponca Tribe living on the date of this Act. If a majority of the adult members of the tribe enrolled agree to a division of the tribal assets as the Act provides, each member on the final roll would be entitled to an equal share of the tribe's assets held in trust by the United States. Section 8 of the Act provides that the property distributed under the Act may not be subject to Federal or State income tax; but after distribution, the property and income from it are subject to the same State and Federal taxes as it would be for non-Indians. For the purpose of capital gains or losses, the basis of the property will be the value of the property when distributed to the grantee.

PUBLIC LAW 87-734 (page 71).

Payments by the United States to the Lower Brule Sioux Indians.—This Act exempts from all forms of State and Federal taxation all funds paid by the United States under authority of the Act to the Lower Brule Sioux Tribe and individual Indians. Part of the funds are for the taking of certain tribally- and individually-owned Indian lands, excluding interests in all minerals except gravel, on the Lower Brule Sioux Reservation, South Dakota. These lands are within the taking area of the Big Bend Dam and Reservoir Project authorized by the Flood Control Act of December 22, 1944 (58 Stat. 887, 891). United States interests in such minerals in land previously taken for the Big Bend Project are revested in the former owners under the Act. Also, this Act authorizes the appropriation of \$1,968,750 for generally improving the economic and social conditions of the

members of the tribe enrolled on the date of its enactment. The Secretary of the Army is directed to relocate Indian cemeteries, tribal monuments, etc., that are within the taking area using funds appropriated for the Big Bend Project. Individual Indians and the tribe, up to within 60 days before they are required to vacate the taking area, may salvage timber and improvements from their respective lands. The Secretary of the Treasury is directed, upon certification by the Secretary of the Interior, to reimburse the tribe for expenses incurred in regard to the taking of the reservation lands within the Big Bend Project.

PUBLIC LAW 87-735 (page 78).

Payments by the United States to the Crow Creek Sioux Indians.—This Act exempts from all forms of State and Federal taxation all funds paid by the United States under authority of the Act to the Crow Creek Sioux Tribe and individual Indians. Part of the funds are for the taking of certain tribally- and individually-owned Indian lands, excluding interests in all minerals except gravel, on the Crow Creek Sioux Reservation, South Dakota. These lands are within the taking area of the Big Bend Dam and Reservoir Project authorized by the Flood Control Act of December 22, 1944 (58 Stat. 887, 891). United States interests in such minerals in land previously taken for the Big Ben Project are revested in the former owners under the Act. Also, this Act authorizes the appropriation of \$3,802,500 for generally improving the economic and social conditions of the members of the tribe enrolled on the date of its enactment. The Secretary of the Army is directed to relocate Indian Cemeteries, tribal monuments etc., that are within the taking area using funds appropriated for the Big Bend Project. Individual Indians and the tribe, up to within 60 days before they are required to vacate the taking area, may salvage timber and improvements from their respective lands. The Secretary of the Treasury is directed, upon certification by the Secretary of the Interior, to reimburse the tribe for expenses incurred in regard to taking of the reservation lands within the Big Bend Project.

PUBLIC LAW 87-775 (page 86).

Disposition of Certain Judgment Funds of the Cherokee Nation or Tribe of Indians of Oklahoma.—This Act directs the Secretary of the Interior to distribute certain judgment funds on a per capita basis to persons named on the rolls of the Cherokee Nation or their heirs or legatees. These rolls were closed as of March 4, 1907. The funds were appropriated by the Act of September 30, 1961 (75 Stat. 733), to satisfy a judgment obtained by the Cherokee Tribe in the Indian Claims Commission against the United States. The Act further provides that the funds distributed are not subject to Federal or State income tax or held to be "other income and resources" as this term is used in sections 2(a)(10)(A), 402(a)(7), 1002(a)(8), and 1402(a)(8) of the Social Security Act (42 U.S.C. 302(a)(10)(A), 602(a)(7), 1202(a)(8), and 1352(a)(8)).

PUBLIC LAW 87-846 (page 205).

Exemption of Certain War Claims Act Awards.—Section 206(b) of this Act provides an exemption from tax for certain awards received by a corporation under the War Claims Act of 1948 (as amended). The Act provides that awards in excess of \$10,000 shall be reduced by the tax benefit realized by the corporation as a result of the deduction from income of the losses with respect to which the claim is filed. Any payments received on an award so reduced are exempt from tax.

PUBLIC LAW 87-859 (page 210).

Extended suspension of the excise tax on the first domestic processing of coconut oil, palm oil, palm-kernel oil, and fatty acids, salts, and combinations or mixtures thereof.—This Act amends section 3 of Public Law 85-235, approved August 30, 1957 (C.B. 1957-2, 1061) and Public Law 86-37, approved May 29, 1959 (C.B. 1959-2, 654) so as to extend the present suspension of the tax imposed under section 4511 (a) of the Code, relating to the first domestic processing of coconut oil, palm oil, palm-kernel oil, etc., from June 30, 1963 to June 30, 1966. (Note: Under Public Law 87-456 approved May 24, 1962 (page 57), Code section 4511 will be repealed effective on the tenth day after the date of the issuance of a specified Presidential proclamation relating to tariffs.)

PART II

TAX LEGISLATION

PUBLIC LAW 87-456
EIGHTY-SEVENTH CONGRESS, MAY 24, 1962
H.R. 10607¹

An Act to amend the Tariff Act of 1930 and certain related laws to provide for the restatement of the tariff classification provisions, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Tariff Classification Act of 1962".

TITLE I—ADOPTION OF REVISED TARIFF SCHEDULES

* * * * *

SEC. 102. At the earliest practicable date, the President shall take such action as he deems necessary to bring the United States schedules annexed to foreign trade agreements into conformity with the Tariff Schedules of the United States and, after such action is completed, the President shall proclaim—

(1) the rates of duty in rate column numbered 1 of schedules 1 to 7, inclusive, and the other provisions of the Tariff Schedules of the United States, which are required or appropriate to carry out the foreign trade agreements to which the United States is a contracting party;

(2) the temporary modifications set forth in part 2 of the appendix to the tariff schedules (that is, those modifications proclaimed pursuant to the provisions of section 7 of the Trade Agreements Extension Act of 1951, as amended (19 U.S.C. 1364), and of other trade-agreements legislation);

(3) the additional import restrictions set forth in part 3 of the appendix to the tariff schedules (that is, those restrictions proclaimed pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624)); and

(4) the nations or areas and countries set forth in general head-note 3(d) of the Tariff Schedules of the United States (relating to the treatment of products of certain Communist-dominated nations or areas and countries discriminating against American commerce).

* * * * *

¹ This publication of the law is restricted to excerpts involving internal revenue matters; House Report No. 1415, and Senate Report No. 1317, are not published herein.

TITLE III—AMENDMENTS AND REPEALS

* * * * * *

SEC. 302. (a) The first sentence of section 4501(a) of the Internal Revenue Code of 1954 is amended to read as follows: "There is hereby imposed upon manufactured sugar manufactured in the United States, a tax, to be paid by the manufacturer at the rate of 0.53 cent per pound of the total sugars therein."

(b) Section 4501(b) of such Code is hereby repealed. Subsection (c) of section 4501 of such Code is redesignated as subsection (b), and such subsection is amended—

(1) by striking out "manufacture, use, or importation" in the first sentence thereof and inserting in lieu thereof "manufacture or use"; and

(2) by striking out "subsection (a) or (b)" in the second sentence thereof and inserting in lieu thereof "subsection (a)".

(c) Section 6418(b) of such Code is amended by striking out "; except that no such payment shall be allowed with respect to any manufactured sugar, or article, upon which, through substitution or otherwise, a drawback of any tax paid under section 4501(b) has been or is to be claimed under any provisions of law made applicable by section 4504".

(d) Sections 4504, 4511, 4512, 4513, 4514, 4521, 4531, 4532, 4541, 4542, 4551, 4552, 4553, 4561, 4562, 4571, 4572, 4581, 4582, 4601, 4602, 4603, 6412(d) and 7511 of such Code are hereby repealed and the tables of sections for such Code are correspondingly amended.

* * * * * *

TITLE V—EFFECTIVE DATE

SEC. 501. (a) Except as provided in subsection (b), the repeal of titles I and II of the Tariff Act of 1930 and the substitution of a new title I therefor, as provided for in title I of this Act, and the provisions of title III of this Act shall become effective with respect to articles entered, or withdrawn from warehouse, for consumption on or after the 10th day following the date of the proclamation of the President provided for in section 102.

(b) The amendment made by section 302(a) shall become effective on the 10th day following the date of the proclamation of the President provided for in section 102.

Approved May 24, 1962.

PUBLIC LAW 87-508
EIGHTY-SEVENTH CONGRESS, JUNE 28, 1962
H.R. 11879 ²

An Act to provide a one-year extension of the existing corporate normal-tax rate and of certain excise-tax rates, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Tax Rate Extension Act of 1962".

² House Report No. 1738, page 221, this Bulletin; Senate Report No. 1616, page 228, this Bulletin; Conference Report No. 1935, page 235, this Bulletin; Senate Report No. 1604, not published herein.

SEC. 2. ONE-YEAR EXTENSION OF CORPORATE NORMAL-TAX RATE.

Section 11(b) (relating to corporate normal tax), section 821(a) (1) (A) (relating to mutual insurance companies other than interinsurers), and section 821(b) (1) (relating to interinsurers) of the Internal Revenue Code of 1954 are amended as follows:

- (1) By striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963";
- (2) By striking out "July 1, 1962" each place it appears and inserting in lieu thereof "June 30, 1963".
- (3) By striking out "June 30, 1962" each place it appears and inserting in lieu thereof "June 30, 1963"; and
- (4) By striking out "June 30, 1962" each place it appears and inserting in lieu thereof "June 30, 1963."

SEC. 3. ONE-YEAR EXTENSION OF CERTAIN EXCISE-TAX RATES.

(a) **EXTENSION OF RATES.**—The following provisions of the Internal Revenue Code of 1954 are amended by striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963"—

- (1) section 4061 (relating to motor vehicles);
- (2) section 4251(b) (2) (relating to termination of tax on general telephone service);
- (3) section 5001(a) (1) (relating to distilled spirits);
- (4) section 5001(a) (3) (relating to imported perfumes containing distilled spirits);
- (5) section 5022 (relating to cordials and liqueurs containing wine);
- (6) section 5041(b) (relating to wines);
- (7) section 5051(a) (relating to beer); and
- (8) section 5701(c) (1) (relating to cigarettes).

(b) **TECHNICAL AMENDMENTS.**—The following provisions of the Internal Revenue Code of 1954 are amended as follows:

(1) Section 5063 (relating to floor stocks refunds on distilled spirits, wines, cordials, and beer) is amended by striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963", and by striking out "October 1, 1962" and inserting in lieu thereof "October 1, 1963".

(2) Subsections (a) and (b) of section 5707 (relating to floor stocks refunds on cigarettes) are amended by striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963", and by striking out "October 1, 1962" and inserting in lieu thereof "October 1, 1963".

(3) Section 6412(a) (1) (relating to floor stocks refunds on automobiles) is amended by striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963", by striking out "October 1, 1962" and inserting in lieu thereof "October 1, 1963", and by striking out "November 10, 1962" each place it appears and inserting in lieu thereof "November 10, 1963".

Section 497 of the Revenue Act of 1951 (relating to refunds on articles from foreign trade zones), as amended, is amended by striking out "July 1, 1962" each place it appears and inserting in lieu thereof "July 1, 1963".

SEC. 4. EXEMPTION FROM COMMUNICATIONS TAX OF CERTAIN PRIVATE LINE SERVICES USED IN CONDUCT OF TRADE OR BUSINESS.

(a) **WIRE MILEAGE SERVICE.**—Section 4252(e) of the Internal Revenue Code of 1954 (relating to definition of wire mileage service) is amended by striking out paragraphs (1) and (2) and inserting in lieu thereof the following:

"(1) any telephone or radiotelephone service not used in the conduct of a trade or business, and

"(2) any other wire or radio circuit service not used in the conduct of a trade or business."

(b) **GENERAL TELEPHONE SERVICE.**—Section 4253 of such Code (relating to exemptions from the communications tax) is amended by adding at the end thereof the following new subsection:

"(j) **CERTAIN PRIVATE COMMUNICATIONS SERVICES.**—No tax shall be imposed under section 4251 on any amount paid for the use of any telephone or radio-telephone line or channel which constitutes general telephone service (within the meaning of section 4252(a)), if—

"(1) such line or channel is furnished between specified locations in different States or between specified locations in different counties, municipalities, or similar political subdivisions of a State, and

"(2) such use is in the conduct of a trade or business."

(c) **EFFECTIVE DATE.**—The amendments made by subsections (a) and (b) shall apply with respect to services furnished on or after January 1, 1963.

SEC. 5. EXTENSION THROUGH NOVEMBER 15, 1962, OF TAX ON TRANSPORTATION OF PERSONS, AND FURTHER EXTENSION OF TAX ON TRANSPORTATION OF PERSONS BY AIR AT 5-PERCENT RATE FOR PERIOD NOVEMBER 16, 1962, THROUGH JUNE 30, 1963.

(a) **TEMPORARY EXTENSION OF TAX.**—Section 4261 of the Internal Revenue Code of 1954 (relating to the imposition of tax on the transportation of persons) is amended—

(1) by striking out everything after "equal to" in subsections (a) and (b) and inserting in lieu thereof "10 percent of the amount so paid for transportation which begins before November 16, 1962."; and

(2) by striking out everything after "equivalent to" in subsection (c) and inserting in lieu thereof "10 percent of the amount so paid in connection with transportation which begins before November 16, 1962."

(b) **TAX APPLICABLE TO TRANSPORTATION OF PERSONS BY AIR FOR PERIOD NOVEMBER 16, 1962, TO JULY 1, 1963.**—Effective with respect to transportation beginning after November 15, 1962, subchapter C of chapter 33 of such Code (relating to the tax on the transportation of persons) is amended to read as follows:

"Subchapter C—Transportation of Persons by Air

"Sec. 4261. Imposition of tax.

"Sec. 4262. Definition of taxable transportation.

"Sec. 4263. Exemptions.

"Sec. 4264. Special rules.

"SEC. 4261. IMPOSITION OF TAX.

"(a) **AMOUNTS PAID WITHIN THE UNITED STATES.**—There is hereby imposed upon the amount paid within the United States for taxable transportation (as defined in section 4262) of any person by air a tax equal to 5 percent of the amount so paid for transportation which begins after November 15, 1962, and before July 1, 1963.

"(b) **AMOUNTS PAID OUTSIDE THE UNITED STATES.**—There is hereby imposed upon the amount paid without the United States for taxable transportation (as defined in section 4262) of any person by air, but only if such transportation begins and ends in the United States, a tax equal to 5 percent of the amount so paid for transportation which begins after November 15, 1962, and before July 1, 1963.

"(c) **SEATS, BERTHS, ETC.**—There is hereby imposed upon the amount paid for seating or sleeping accommodations in connection with transportation with respect to which a tax is imposed by subsection (a) or (b) a tax equivalent to

5 percent of the amount so paid in connection with transportation which begins after November 15, 1962, and before July 1, 1963.

"(d) **BY WHOM PAID.**—Except as provided in section 4264, the taxes imposed by this section shall be paid by the person making the payment subject to the tax.

"SEC. 4262. DEFINITION OF TAXABLE TRANSPORTATION.

"(a) **TAXABLE TRANSPORTATION; IN GENERAL.**—For purposes of this subchapter, except as provided in subsection (b), the term 'taxable transportation' means—

"(1) transportation which begins in the United States or in the 225-mile zone and ends in the United States or in the 225-mile zone; and

"(2) in the case of transportation other than transportation described in paragraph (1), that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States, but only if such portion is not a part of uninterrupted international air transportation (within the meaning of subsection (c) (3)).

"(b) **EXCLUSION OF CERTAIN TRAVEL.**—For purposes of this subchapter, the term 'taxable transportation' does not include that portion of any transportation which meets all 4 of the following requirements:

"(1) such portion is outside the United States;

"(2) neither such portion nor any segment thereof is directly or indirectly—

"(A) between (i) a point where the route of the transportation leaves or enters the continental United States, or (ii) a port or station in the 225-mile zone, and

"(B) a port or station in the 225-mile zone;

"(3) such portion—

"(A) begins at either (i) the point where the route of the transportation leaves the United States, or (ii) a port or station in the 225-mile zone, and

"(B) ends at either (i) the point where the route of the transportation enters the United States, or (ii) a port or station in the 225-mile zone; and

"(4) a direct line from the point (or the port or station) specified in paragraph (3) (A), to the point (or the port or station) specified in paragraph (3) (B), passes through or over a point which is not within 225 miles of the United States.

"(c) **DEFINITIONS.**—For purposes of this section—

"(1) **CONTINENTAL UNITED STATES.**—The term 'continental United States' means the District of Columbia and the States other than Alaska and Hawaii.

"(2) **225-MILE ZONE.**—The term '225-mile zone' means that portion of Canada and Mexico which is not more than 225 miles from the nearest point in the continental United States.

"(3) **UNINTERRUPTED INTERNATIONAL AIR TRANSPORTATION.**—The term 'uninterrupted international air transportation' means any transportation by air which is not transportation described in subsection (a) (1) and in which—

"(A) the scheduled interval between (i) the beginning or end of the portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States and (ii) the end or beginning of the other portion of such transportation is not more than 6 hours, and

"(B) the scheduled interval between the beginning or end and the end or beginning of any two segments of the portion of such transportation referred to in subparagraph (A) (i) is not more than 6 hours.

"SEC. 4263. EXEMPTIONS.

"(a) **COMMUTATION TRAVEL, ETC.**—The tax imposed by section 4261 shall not apply to amounts paid for transportation which do not exceed 60 cents, to amounts paid for commutation or season tickets for single trips of less than 30 miles, or to amounts paid for commutation tickets for one month or less.

"(b) **CERTAIN ORGANIZATIONS.**—The tax imposed by section 4261 shall not

apply to the payment for transportation or facilities furnished to an international organization, or any corporation created by Act of Congress to act in matters of relief under the treaty of Geneva of August 22, 1864.

"(c) MEMBERS OF THE ARMED FORCES.—The tax imposed by section 4261 shall not apply to the payment for transportation or facilities furnished under special tariffs providing for fares of not more than 2.5 cents per mile applicable to round-trip tickets sold to personnel of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard traveling in uniform of the United States at their own expense when on official leave, furlough, or pass, including authorized cadets and midshipmen, issued on presentation of properly executed certificate.

"(d) SMALL AIRCRAFT ON NONESTABLISHED LINES.—The tax imposed by section 4261 shall not apply to transportation by aircraft having—

"(1) a gross takeoff weight (as determined under regulations prescribed by the Secretary or his delegate) of less than 12,500 pounds, and

"(2) a passenger seating capacity of less than ten adult passengers, including the pilot,

except when such aircraft is operated on an established line.

"SEC. 4264. SPECIAL RULES.

"(a) PAYMENTS MADE OUTSIDE THE UNITED STATES FOR PREPAID ORDERS.—If the payment upon which tax is imposed by section 4261 is made outside the United States for a prepaid order, exchange order, or similar order, the person furnishing the initial transportation pursuant to such order shall collect the amount of the tax.

"(b) TAX DEDUCTED UPON REFUNDS.—Every person who refunds any amount with respect to a ticket or order which was purchased without payment of the tax imposed by section 4261 shall deduct from the amount refundable, to the extent available, any tax due under such section as a result of the use of a portion of the transportation purchased in connection with such ticket or order, and shall report to the Secretary or his delegate the amount of any such tax remaining uncollected.

"(c) PAYMENT OF TAX.—Where any tax imposed by section 4261 is not paid at the time payment for transportation is made, then, under regulations prescribed by the Secretary or his delegate, to the extent that such tax is not collected under any other provision of this subchapter—

"(1) such tax shall be paid by the person paying for the transportation or by the person using the transportation;

"(2) such tax shall be paid within such time as the Secretary or his delegate shall prescribe by regulations after whichever of the following first occurs:

"(A) the rights to the transportation expire; or

"(B) the time when the transportation becomes subject to tax; and

"(3) payment of such tax shall be made to the Secretary or his delegate, to the person to whom the payment for transportation was made, or, in the case of transportation other than transportation described in section 4262(a) (1), to any person furnishing any portion of such transportation.

"(d) APPLICATION OF TAX.—The tax imposed by section 4261 shall apply to any amount paid within the United States for transportation of any person by air unless the taxpayer establishes, pursuant to regulations prescribed by the Secretary or his delegate, at the time of payment for the transportation, that the transportation is not transportation in respect of which tax is imposed by section 4261.

"(e) ROUND TRIPS.—In applying this subchapter to a round trip, such round trip shall be considered to consist of transportation from the point of departure to the destination, and of separate transportation thereafter.

"(f) TRANSPORTATION OUTSIDE THE NORTHERN PORTION OF THE WESTERN HEMISPHERE.—In applying this subchapter to transportation any part of which is outside the northern portion of the Western Hemisphere, if the route of such transportation leaves and reenters the northern portion of the Western Hemisphere, such transportation shall be considered to consist of transportation to a point outside such northern portion, and of separate transportation thereafter. For purposes of this subsection, the term 'northern portion of the Western Hemisphere' means the area lying west of the 30th meridian west of Greenwich, east of the international dateline, and north of the Equator, but not including any country of South America."

(c) CONFORMING AMENDMENTS.—

(1) The table of subchapters for chapter 33 of such Code is amended by striking out

“SUBCHAPTER C. Transportation of persons.”

and inserting in lieu thereof

“SUBCHAPTER C. Transportation of persons by air.”

(2) Section 6421 of such Code (relating to gasoline used for certain nonhighway purposes or by local transit systems) is amended as follows:

(A) Subsection (b) (relating to use by local transit systems) is amended—

(i) by striking out “tax-exempt passenger fare revenue” and inserting in lieu thereof “commuter fare revenue” each place it appears therein; and

(ii) by striking out “(not including the tax imposed by section 4261, relating to the tax on transportation of persons)” each place it appears therein.

(B) Subsection (d)(2) (defining tax-exempt passenger fare revenue) is amended to read as follows:

“(2) COMMUTER FARE REVENUE.—The term ‘commuter fare revenue’ means revenue attributable to fares derived from the transportation of persons and attributable to—

“(A) amounts paid for transportation which do not exceed 60 cents,

“(B) amounts paid for commutation or season tickets for single trips of less than 30 miles, or

“(C) amounts paid for commutation tickets for one month or less.”

(3) Section 6416(b)(2)(H) of such Code (relating to special cases in which tax payments considered overpayments for credit or refund purposes) is amended—

(A) by striking out “tax-exempt passenger fare revenue” and inserting in lieu thereof “commuter fare revenue”; and

(B) by striking out “(not including the tax imposed by section 4261, relating to the tax on transportation of persons)”.

(d) EFFECTIVE DATES.—The amendment made by subsection (c)(1) shall apply only with respect to transportation beginning after November 15, 1962. The amendments made by subsection (c)(2) shall apply only in respect of claims filed with respect to gasoline used on or after November 16, 1962. The amendments made by subsection (c)(3) shall apply only in respect to the use or sale of special fuels made on or after November 16, 1962.

(e) SPECIAL CREDIT OR REFUND OF TRANSPORTATION TAX.—Notwithstanding any other provision of law, in any case in which tax has been collected—

(1) before November 16, 1962, for or in connection with the transportation of persons which begins on or after November 16, 1962, or

(2) after November 15, 1962, and before July 1, 1963, for or in connection with the transportation of persons by air which begins on or after July 1, 1963,

the person who collected the tax shall pay the same over to the United States; but credit or refund (without interest) of the tax collected in excess of that applicable (by reason of the amendments made by this section) shall be allowed to the person who collected the tax as if

such credit or refund were a credit or refund under the applicable provision of the Internal Revenue Code of 1954, but only to the extent that, before the time such transportation has begun, he has repaid the amount of such excess to the person from whom he collected the tax, or has obtained the consent of such person to the allowance of the credit or refund. For the purpose of this subsection, transportation shall not be considered to have begun on or after November 16, 1962, or on or after July 1, 1963, as the case may be, if any part of the transportation paid for (or for which payment has been obligated) commenced before such date.

Approved June 28, 1962.

PUBLIC LAW 87-520
EIGHTY-SEVENTH CONGRESS, JULY 3, 1962
H.R. 12061³

An Act to extend the Renegotiation Act of 1951, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 102(c) (1) of the Renegotiation Act of 1951, as amended (50 U.S.C. App. 1212(c) (1)), is amended by striking out "June 30, 1962" and inserting in lieu thereof "June 30, 1964".

SEC. 2. (a) Section 108A of the Renegotiation Act of 1951, as amended (50 U.S.C., App., sec. 1218a), is amended to read as follows:

SEC. 108A. REVIEW OF TAX COURT DECISIONS IN RENEGOTIATION CASES

(a) **JURISDICTION.**—Except as provided in section 1254 of title 28 of the United States Code, the United States Courts of Appeals shall have exclusive jurisdiction to review decisions by the Tax Court of the United States under section 108 of this Act in the same manner and to the same extent as decisions of the district courts in civil actions tried without a jury, except as otherwise provided in this section. In no case shall the question of the existence of excessive profits, or the extent thereof, be reviewed, and findings of fact by the Tax Court shall be conclusive unless such findings are arbitrary or capricious. The judgment of any such court shall be final except that it shall be subject to review, under the limitations herein provided for, by the Supreme Court of the United States upon certiorari, in the manner provided in section 1254 of title 28 of the United States Code.

(b) **POWERS.**—Upon such review, such courts shall have only the power to affirm the decision of the Tax Court or to reverse such decision on questions of law and remand the case for such further action as justice may require, except that such court shall not reverse and remand the case for error of law which is immaterial to the decision of the Tax Court.

(c) **VENUE OF APPEALS FROM TAX COURT DECISIONS IN RENEGOTIATION CASES.**—A decision of the Tax Court of the United States under section 108 of this Act may, to the extent subject to review, be reviewed by—

(1) the United States Court of Appeals for the circuit in which is located the office to which the contractor or subcontractor made his Federal income tax return for the taxable year which corresponds to the fiscal year with respect to which such decision of the Tax Court was made, or if no such return was made for such taxable year, then by the United States Court of Appeals for the District of Columbia, or

(2) any United States Court of Appeals designated by the Attorney General and the contractor or subcontractor by stipulation in writing.

(b) The second sentence of section 108 of such Act is amended to read as follows: "Upon such filing, such court shall have exclusive jurisdiction, by order, to determine the amount, if any, of such excess-

³ Senate Report No. 1669, page 239, this Bulletin.

sive profits received or accrued by the contractor or subcontractor, and such determination shall not be reviewed or redetermined by any court or agency except as provided in section 108A."

(c) Section 105(b)(2) of such Act is amended by striking out the last sentence thereof.

(d) The amendments made by this section shall apply only with respect to cases in which the petition for redetermination is filed with the Tax Court of the United States after the date of the enactment of this Act.

Approved July 3, 1962.

PUBLIC LAW 87-629
EIGHTY-SEVENTH CONGRESS, SEPTEMBER 5, 1962
H.R. 3174⁵

An Act to provide for the division of the tribal assets of the Ponca Tribe of Native Americans of Nebraska among the members of the tribe, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior shall, with the advice and assistance of the Ponca Tribe of Native Americans of Nebraska and pursuant to such regulations as he may prescribe, prepare a roll of the members of the tribe and record thereon persons whose names appeared on the census roll of April 1, 1934, and the supplement thereto of January 1, 1935, and their descendants of not less than one-quarter degree Indian blood of the Ponca Tribe, regardless of place of residence, who are living on the date of

⁴ This publication of the law is restricted to excerpts involving internal revenue matters: House Report No. 1828, Senate Report No. 1631 and Conference Report No. 1957 are not published herein.

⁵ House Report No. 2076 and Senate Report No. 1623 are not published herein.

this Act. He shall provide a reasonable opportunity for any person to protest against the inclusion or omission of any name on or from the roll and his decision on such protests shall be final and conclusive. After all protests are disposed of, the roll shall be published in the Federal Register. The Secretary shall thereupon give the adult members of the tribe whose names appear on the roll an opportunity to indicate their agreement or disagreement with a division of tribal assets in accordance with the provisions of this Act. If a majority of those indicating agreement or disagreement are favorable to such division, the Secretary shall publish in the Federal Register a notice of the fact and the roll prepared by him shall thereupon become final and the following sections of this Act shall become effective.

SEC. 2. Each member whose name appears on the final roll of the tribe as published in the Federal Register shall be entitled to receive in accordance with the provisions of this Act an equal share of the tribe's assets that are held in trust by the United States. This right shall constitute personal property which may be inherited or bequeathed, but it shall not otherwise be subject to alienation or encumbrance.

SEC. 3. (a) All property of the United States used for the benefit of the Ponca Tribe of Native Americans of Nebraska is hereby declared to be a part of the assets of the tribe, and all of the tribe's assets shall be distributed in accordance with the provisions of this section. The distribution shall be completed within three years from the date of this Act, or as soon thereafter as practicable.

(b) The tribe shall designate any part of the tribe's property that is to be set aside for church, park, playground, or cemetery purposes, and the Secretary is authorized to convey such property to trustees or agencies designated by the tribe for that purpose and approved by the Secretary.

(c) Each member may select for homesite purposes and receive title to not to exceed five acres of tribal land that is being used for homesite purposes by such member. The member shall pay the current market value of the homesite selection excluding any improvements or repairs constructed by such member, his wife, children, or ancestor, as determined by the Secretary of the Interior.

(d) All assets of the tribe that are not selected and conveyed to members shall be sold by competitive bid at not less than the current market value, and any member shall have the right to purchase property offered for sale for a price not less than the highest acceptable bid therefor. If more than one member exercises such right, the property shall be sold to the member exercising the right who offers the highest price.

(e) The net proceeds of all sales of tribal property, and all other tribal funds, shall be used to pay, as authorized by the Secretary, any debts of the tribe. The remainder of such proceeds and funds shall be divided equally among the members whose names are on the final roll, or their heirs or legatees. Any debt owed by a member, heir, or legatee to the tribe or to the United States may be set off as authorized by the Secretary against the distributive share of such person. Any member of the tribe who purchases tribal property in accordance with this section may apply on the purchase price his

share of the proceeds of all sales of tribal property, and the Secretary of the Interior shall adopt sales procedures that permit such action.

SEC. 4. (a) The Secretary of the Interior is authorized to partition or to sell the complete interest (including any unrestricted interest) in any land in which an undivided interest is owned by a member of the Ponca Tribe of Native Americans of Nebraska in a trust or restricted status, provided the partition or sale is requested by the owners of a 25 per centum interest in the land, and the partition or sale is made within three years from the date of this Act. Any such sale shall be by competitive bid, except that with the concurrence of the owners of a 25 per centum interest in the land any owner of an interest in the land shall have the right to purchase the land within a reasonable time fixed by the Secretary of the Interior prior to a competitive sale at not less than its current market value. If more than one preference right is exercised, the sale shall be by competitive bid limited to the persons entitled to a preference. If the owners of a 25 per centum interest in the land so request, mineral rights may be reserved to the owners in an unrestricted status. The Secretary of the Interior may represent for the purposes of this section any Indian owner who is a minor, or who is non compos mentis, and, after giving reasonable notice of the proposed partition or sale by publication, he may represent an Indian owner who cannot be located.

(b) All restrictions on the alienation or taxation of interests in land that are owned by members of the Ponca Tribe of Native Americans of Nebraska three years after the date of this Act shall be deemed removed by operation of law, and an unrestricted title shall be vested in each such member.

SEC. 5. The Secretary of the Interior is authorized to make such land surveys and to execute such conveyancing instruments as he deems necessary to convey marketable and recordable title to the individual and tribal assets disposed of pursuant to this Act. Each grantee shall receive an unrestricted title to the property conveyed.

SEC. 6. Nothing in this Act shall affect any claims heretofore filed against the United States by the Ponca Tribe of Native Americans of Nebraska.

SEC. 7. Nothing in this Act shall affect the rights, privileges, or obligations of the tribe and its members under the laws of Nebraska.

SEC. 8. No property distributed under the provisions of this Act shall at the time of distribution be subject to any Federal or State income tax. Following any distribution of property made under the provisions of this Act, such property and income derived therefrom by the distributee shall be subject to the same taxes, State and Federal as in the case of non-Indians: *Provided*, That for the purpose of capital gains or losses the base value of the property shall be the value of the property when distributed to the grantee.

SEC. 9. Such amounts of tribal funds as may be needed to meet the expenses of the tribe under this Act, as approved by the Secretary of the Interior, shall be available for expenditure. There is authorized to be appropriated out of any moneys in the Treasury not otherwise appropriated such sums as may be necessary to reimburse the tribe for

such expenditures, and carry out the responsibilities of the Secretary under the provisions of this Act.

SEC. 10. When the distribution of tribal assets in accordance with the provisions of this Act has been completed, the Secretary of the Interior shall publish in the Federal Register a proclamation declaring that the Federal trust relationship to such tribe and its members has terminated. Thereafter, the tribe and its members shall not be entitled to any of the special services performed by the United States for Indians or Indian tribes because of their Indian status, all statutes of the United States that affect Indians or Indian tribes because of their Indian status shall be inapplicable to them, and the laws of the several States shall apply to them in the same manner they apply to other persons or citizens within their jurisdiction. Nothing in this Act, however, shall affect the status of any Indian as a citizen of the United States.

Approved September 5, 1962.

PUBLIC LAW 87-682
EIGHTY-SEVENTH CONGRESS, SEPTEMBER 25, 1962
H.R. 6413 ⁶

An Act to extend to fishermen the same treatment accorded farmers in relation to estimated income tax.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the following provisions of the Internal Revenue Code of 1954 are amended by inserting "or fishing" after "from farming" each place it appears:

(1) Section 6015(f) (relating to treatment of return as declaration or amendment).

(2) Section 6073(b) (relating to time for filing declarations of estimated income tax by individuals).

(3) Section 6153(b) (relating to installment payments of estimated income tax by individuals who are farmers).

(4) Subsections (b) and (d) (1) (C) of section 6654 (relating to additions to tax for failure by individual to pay estimated income tax).

(b) Section 6073(a) of the Internal Revenue Code of 1954 (relating to time for filing declarations of estimated income tax by individuals other than farmers) is amended by striking out "individuals not regarded as farmers" and inserting in lieu thereof "individuals regarded as neither farmers nor fishermen".

(c) The headings of subsections (a) and (b) of section 6073, and subsection (b) of section 6153, of the Internal Revenue Code of 1954 are each amended by inserting "OR FISHERMEN" after "FARMERS".

SEC. 2. The amendments made by the first section of this Act shall apply only with respect to taxable years beginning December 31, 1962.

Approved September 25, 1962.

PUBLIC LAW 87-710
EIGHTY-SEVENTH CONGRESS, SEPTEMBER 27, 1962
H.R. 12526⁷

An Act to amend section 172 of the Internal Revenue Code of 1954 to provide a seven-year net operating loss carryover for certain regulated transportation corporations.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subsection (b) of section 172 of the Internal Revenue Code of 1954 (relating to net operating loss deduction) is amended to read as follows:

(b) NET OPERATING LOSS CARRYBACKS AND CARRYOVERS.—

(1) YEARS TO WHICH LOSS MAY BE CARRIED.—A net operating loss for any taxable year—

(A) ending after December 31, 1957, shall be a net operating loss carryback to each of the 3 taxable years preceding the taxable year of the loss, and

(B) ending after December 31, 1955, shall (except as provided in subparagraph (C)) be a net operating loss carryover to each of the 5 taxable years following the taxable year of such loss, or

(C) ending after December 31, 1955, in the case of a taxpayer which is a regulated transportation corporation (as defined in subsection (j) (1)), shall (except as provided in subsection (j)) be a net operating loss carryover to each of the 7 taxable years following the taxable year of such loss.

(2) AMOUNT OF CARRYBACKS AND CARRYOVERS.—Except as provided in subsections (i) and (j), the entire amount of the net operating loss for any taxable year (hereinafter in this section referred to as the "loss year") shall be carried to the earliest of the taxable years to which (by reason of paragraph (1)) such loss may be carried. The portion of such loss which shall be carried to each of the other taxable years shall be the excess, if any, of the amount of such loss over the sum of the taxable income for each of the prior taxable years to which such loss may be carried. For purposes of the preceding sentence, the taxable income for any such prior taxable years shall be computed—

(A) with the modifications specified in subsection (d) other than paragraphs (1), (4), and (6) thereof; and

(B) by determining the amount of the net operating loss deduction without regard to the net operating loss for the loss year or for any taxable year thereafter, and the taxable income so computed shall not be considered to be less than zero.

(b) Section 172 of such Code is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

(j) CARRYOVER OF NET OPERATING LOSS FOR CERTAIN REGULATED TRANSPORTATION CORPORATIONS.—

(1) DEFINITION.—For purposes of subsection (b)(1)(C), the term "regulated transportation corporation" means a corporation—

(A) 80 percent or more of the gross income of which (computed without regard to dividends and capital gains and losses) for the taxable year is derived from the furnishing or sale of transportation described in subparagraph (A), (C)(i), (E), or (F) of section 1503

(c) (1) and taken into account for purposes of section 1503(c) (2),

(B) which is described in section 1503(c) (3), or

(C) which is a member of a regulated transportation system.

⁷ Senate Report No. 2041, page 243, this Bulletin; since House Report No. 2252 is substantially the same as the Senate Report, it is not published herein.

(2) **REGULATED TRANSPORTATION SYSTEM.**—For purposes of this subsection, a corporation shall be treated as a member of a regulated transportation system for a taxable year if—

(A) it is a member of an affiliated group of corporations making a consolidated return for such taxable year, and

(B) 80 percent or more of the aggregate gross income of the members of such affiliated group (computed without regard to dividends and capital gains and losses) for such taxable year is derived from sources described in paragraph (1) (A).

For purposes of subparagraph (B), income derived by a corporation described in section 1503(c) (3) from leases described in subparagraph (A) thereof shall be considered as derived from sources described in paragraph (1) (A).

(3) **LIMITATION.**—For purposes of subsection (b) (1) (C)—

(A) a net operating loss may not be a net operating loss carryover to the 6th taxable year following the loss year unless the taxpayer is a regulated transportation corporation for such 6th taxable year; and

(B) a net operating loss may not be a net operating loss carryover to the 7th taxable year following the loss year unless the taxpayer is a regulated transportation corporation for the 6th taxable year following the loss year and for such 7th taxable year.

(4) **TAXABLE YEARS BEGINNING IN 1955 AND ENDING IN 1956.**—In the case of a net operating loss for a taxable year beginning in 1955 and ending in 1956, the amount of such loss which may be carried—

(A) to the 6th taxable year following the loss year shall be the amount which bears the same ratio to the amount which (but for this paragraph) would be carried to such 6th taxable year as the number of days in the loss year after December 31, 1955, bears to the total number of days in the loss year, and

(B) to the 7th taxable year following the loss year shall be the amount (if any) by which (i) the amount carried to the 6th taxable year (determined under subparagraph (A)), exceeds (ii) the taxable income (computed as provided in subsection (b) (2)) for such 6th taxable year.

SEC. 2. The amendments made by the first section of this Act shall apply only with respect to net operating losses for taxable years ending after December 31, 1955.

Approved September 27, 1962.

EIGHTY-SEVENTH CONGRESS, OCTOBER 3, 1962
H.R. 5144⁹

An Act to provide for the acquisition of and the payment for individual Indian and tribal lands of the Lower Brule Sioux Reservation in South Dakota, required by the United States for the Big Bend Dam and Reservoir project on the Missouri River, and for the rehabilitation, social, and economic development of the members of the tribe, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in furtherance of the Big Bend Dam and Reservoir project authorized by the Flood Control Act of December 22, 1944 (58 Stat. 887, 891)—

(a) The entire interest, including gravel but excluding the interest in oil, gas, and all other minerals of any nature whatsoever, in approximately 14,299.03 acres of land within the taking area described in this Act in the Lower Brule Sioux Reservation in South Dakota, in which the Lower Brule Sioux Tribe or individual Indians have a trust or restricted interest, and any interest the tribe or Indians may have within the bed of the Missouri River so far as it is within the boundaries of the reservation are hereby taken by the United States for the Big Bend Dam and Reservoir project on the Missouri River, and in consideration thereof and for trust or restricted lands heretofore acquired by the United States in condemnation proceedings for the Big Bend project the United States will pay to the tribe and the individual Indian owners, out of funds available for the Big Bend Dam and Reservoir project—

(1) a sum aggregating \$825,000, to be disbursed in accordance with the provisions of schedules prepared pursuant to section 2(b) of this Act; and

(2) the amount of \$400,715, which shall be in settlement of all claims, rights, and demands of the tribe and individual Indians arising out of the taking under this Act, to be disbursed in accordance with the provisions of section 2 hereof.

(b) Upon a determination by the Secretary of the Army, within two years from the date of enactment of this Act, filed among the

⁹ House Report No. 852 and Senate Report No. 1636 are not published herein.

appropriate land records of the Department of the Interior, that any of the lands described in this Act are not required for Big Bend project purposes, title to such land shall be revested in the former owner.

SEC. 2. (a) The payments authorized by section 1 of this Act, less the amounts heretofore deposited by the United States in the case entitled United States of America, Plaintiff against 867.50 acres of land, etc., and Crow Creek Tribe of Sioux Indians et al., Defendants, civil numbered 335, filed in the United States District Court for the District of South Dakota, for trust property acquired in the taking area described in this Act, shall be deposited to the credit of the tribe in the Treasury of the United States and shall draw interest on the principal at the rate of 4 per centum per annum until expended.

(b) The amount paid pursuant to section 1(a)(1) of this Act shall be allocated in accordance with Indian ownership schedules prepared by the Secretary of the Interior, after consultation with the Lower Brule Tribal Council to correct known errors and to insure fair and equitable allocation. These schedules shall reflect the amount agreed upon by the Secretary of the Army and the Secretary of the Interior as the basis for negotiation, after appropriate acreage adjustments, increased by a uniform percentage to equal the amount paid. The amounts allocated for payment of property owned by individual Indians shall be credited to their respective individual Indian money accounts. No part of the compensation provided for in section 1 shall be subject to any lien, debt, or claim of any nature whatsoever against the tribe or the individual Indian owners entitled to the compensation, except delinquent debts owed to the United States by the tribe, or delinquent debts owed to the tribe or to the United States by the individual Indians entitled to the compensation: *Provided*, That such compensation shall not be applied to the payment of such individual delinquent debts unless the Secretary of the Interior first determines and certifies that no hardship will result from the payment of such delinquent debts.

(c) The tribal council, with the approval of the Secretary of the Interior, shall make available from the funds authorized by section 1(a)(2) of this Act not to exceed \$247,325, to pay the expenses, costs, losses, and damages incurred by members of the tribe as a direct result of moving themselves and their possessions, including dwellings and other buildings owned by the individual members, on account of the acquisition referred to in section 1 of this Act. The balance of the amount paid pursuant to section 1(a)(2) shall be consolidated with the appropriation authorized by section 3 of this Act and shall be expended in accordance with the provisions of section 3.

SEC. 3. There is authorized to be appropriated the additional sum of \$1,968,750 which shall be deposited in the Treasury of the United States to the credit of the tribe and which shall draw interest on the principal at the rate of 4 percentum per annum until expended, for the purposes of developing individual and family plans, relocating, reestablishing, and providing other assistance designed to improve the economic and social conditions of enrolled members of the tribe on the date of enactment of this Act. The funds authorized by this section shall be expended in accordance with plans and programs

approved by both the tribal council and the Secretary of the Interior: *Provided*, That \$400,000 shall be allocated exclusively for industrial development on the reservation or within fifty miles of any exterior boundary of the reservation with preferential right of employment for members of the tribe. Nothing in this Act shall be construed to prevent cooperative action with the Crow Creek Sioux Tribe on industrial development or other programs: *And provided further*, That no part of such funds shall be used for per capita payments, or for the purchase of land by the tribe except for the purpose of resale to individual Indians in furtherance of the rehabilitation program authorized by this section, which resale is hereby authorized.

SEC. 4. The Secretary of the Army, out of funds appropriated for the Big Bend project other than funds provided by this Act, is authorized and directed to relocate and reestablish such Indian cemeteries, tribal monuments, and shrines within the taking area of the Big Bend project as the tribal council, with the approval of the Secretary of the Interior, shall select and designate: *Provided*, That reinterment of individual remains, but not entire cemeteries, outside the reservation boundaries is authorized if desired by the next of kin and approved by the tribal council, but in no event will reinterment be made to a site which exceeds the equivalent distance from the disinterment site to the farthest point at which reinterment could be made within the reservation boundaries.

SEC. 5. The Secretary of the Army is authorized and directed out of funds appropriated for the Big Bend project other than funds provided by this Act to protect, replace, relocate, or reconstruct any existing essential governmental and agency facilities on the reservation, including schools, hospitals, Public Health Service and Bureau of Indian Affairs offices, facilities, service buildings, and employees' quarters, roads, bridges, and incidental matters or facilities in connection therewith, which the Secretary of the Interior determines will be impaired or required by reason of the Big Bend project: *Provided, however*, That the design criteria employed shall be reasonably comparable to that of the presently existing roads, bridges, and facilities.

SEC. 6. The Secretary of the Army, under plans approved by the Secretary of the Interior after consultation with the Lower Brule Tribal Council, is authorized and directed, out of funds appropriated for the Big Bend project other than funds provided by this Act, to locate, lay out, and construct on tribal land on a site provided by the Lower Brule Sioux Council with the approval of the Secretary of the Interior a townsite for the new town of Lower Brule, including substitute and replacement streets, utilities, including water, sewerage, and electricity, taking into account the relocation and replacement of the governmental and agency facilities as provided for in section 5 of this Act and the reasonable future growth of the new town: *Provided, however*, That the design criteria employed shall be reasonably comparable to that of the existing town streets, utilities, and facilities. The tribal council is authorized, with the approval of the Secretary of the Interior (a) to convey, with or without compensation, tribal land, exclusive of minerals, for church or cemetery purposes for so long as the land is used for such purposes, and (b) to sell unimproved lots, exclusive of minerals, in the relocated town of Lower Brule at

competitive sale to the highest qualified bidder but for not less than the appraised value, pursuant to such terms and conditions as the Secretary of the Interior may prescribe.

SEC. 7. All minerals of any kind whatsoever, including oil and gas, but excluding gravel, in the lands taken by this Act are hereby reserved for the benefit of the tribe or individual Indian owners as their interests may appear. All right, title, and interest of the United States in such minerals in trust or restricted land heretofore acquired by the United States for the Big Bend project are hereby reverted in the former owners. All such minerals in trust or restricted land hereafter acquired by the United States for the Big Bend project shall be reserved for the benefit of the owners as their interests may appear. Notwithstanding the foregoing provisions of this section the exploration and development of such minerals, including oil and gas, within the taking area shall be subject to all reasonable regulations of the Secretary of the Army necessary for the protection of the Big Bend project.

SEC. 8. Members of the Lower Brule Sioux Tribe now residing within the taking area of the Big Bend project shall have the right without charge to remain on and use the lands taken by this Act until required to vacate at such times as may be fixed by the Secretary of the Army, with the approval of the Secretary of the Interior: *Provided*, That the time for vacating in any event will not extend beyond July 1, 1963.

SEC. 9. Individual Indians and the tribe are authorized without charge to retain timber and improvements removed by them from their respective trust or restricted lands on the reservation acquired by this Act and heretofore acquired by the United States for the Big Bend project. Up to sixty days before the individual Indian landowners and the tribe are required to vacate the taking area in accordance with this Act, they shall have the right, without charge, to cut and remove all timber and to salvage any improvements on their respective lands, but, if such rights are not exercised or are waived within the time prescribed, the tribe, through its tribal council, may exercise such rights: *Provided*, That the timber cut and the salvage permitted by this section shall not be construed to be compensation.

SEC. 10. Subject to the right of the United States to occupy, use, and control trust and restricted lands acquired by this Act and heretofore acquired in condemnation action civil numbered 335 for the construction, operation, and maintenance of the Big Bend Dam and Reservoir project pursuant to the Flood Control Act of 1944, approved December 22, 1944, and amendatory laws, as determined necessary by the Secretary of the Army adequately to serve said purposes, the Lower Brule Sioux Tribe shall be permitted, after the Big Bend Dam gates are closed and the waters of the Missouri River impounded, to graze stock without charge on such of the land described in this section as lies between the level of the reservoir and the taking line described in section 16 of this Act and as the Secretary of the Army determines is not devoted to other beneficial uses and to lease such land for grazing purposes to members or nonmembers of the tribe on such terms and conditions as the Secretary of the Interior may prescribe. The tribe

and members thereof shall have without cost the right of free access to the shoreline of the reservoir including the right to hunt and fish in and on the aforesaid shoreline and reservoir, subject, however, to regulations governing the corresponding use by other citizens of the United States.

SEC. 11. Notwithstanding any other provision of law, for the purposes of (1) providing substitute land for individual Indians who owned land within the taking area of the Fort Randall or Big Bend projects, (2) consolidating landholdings, and (3) eliminating fractionated heirship interests within the reservation, the Secretary of the Interior is authorized to purchase, with funds made available by such individual Indians or by the tribe, land or interests in land, and to sell tribal land upon request of the tribe, but no service charge shall be made by the United States. The land selected by and purchased for individual Indians may be either inside or outside the boundaries of the reservation. Title to any land or interests in land acquired within the boundaries of the reservation shall be taken in the name of the United States in trust for the tribe or the individual Indian for whom the land is acquired, and title to any land or interests in land acquired outside the boundaries of the reservation shall be taken in the name of the individual for whom it is acquired: *Provided*, That title to lands outside the exterior boundaries of the reservation acquired by the tribe shall be taken in the name of the tribe subject to a restriction against alienation without the consent of the Secretary of the Interior, but shall not be exempt from taxation.

For the purposes of this section, the Secretary of the Interior is authorized to partition or sell individually owned lands in which all interests are held in trust or restricted status (1) upon the request of the owners of not less than a 25 per centum interest in such land where ten persons or more own or claim interests in the land, or (2) upon the request of the owners of not less than a 50 per centum interest in such land where fewer than ten persons own or claim interests in the land. For the purpose of this section, the Secretary of the Interior may represent any Indian owner who is a minor or who is under any other legal disability, and the Secretary, after first giving reasonable notice by publication of the proposed sale, is authorized to represent any Indian owner or claimant who cannot be located after reasonable and diligent search. Sales of all Indian trust or restricted interests in land shall be in accordance with the following procedure:

(a) Upon receipt of requests from the required ownership interests, the Secretary shall notify the tribe and each owner of an undivided Indian interest in the land by a letter directed to his last known address that each such owner and the tribe has a right to purchase the land for its appraised value, unless one of the owners objects within the time fixed by the Secretary, or for a lower price if all of the owners agree, and that if more than one owner or if one owner and the tribe wants to purchase the land it will be sold on the basis of sealed competitive bids restricted to the owners of undivided interests in the land and the tribe.

(b) If no Indian owner of an undivided interest in the land elects to purchase the land within the time fixed by the Secretary, and the tribe owns no interest in the land, the Secretary shall offer to sell

the land at its appraised value to the tribe, unless one of the Indian owners or his authorized representative objects within the time fixed by the Secretary to a sale to the tribe at the appraised value.

(c) If any Indian owner or his authorized representative objects to a sale to the tribe at the appraised value, the Secretary shall offer the land for sale by sealed competitive bid with a preferential right in the tribe or any Indian owner to meet the high bid, unless one of the Indian owners or his authorized representative objects within the time fixed by the Secretary to the grant of such preferential right. All bids shall be rejected if no bid substantially equal to the appraised value is received.

(d) If any Indian owner or his authorized representative objects to a sale by sealed competitive bid with a preferential right to meet the high bid, the Secretary shall offer the land for sale by sealed bids without such preferential right: *Provided*, That, if at any time before sealed bids are invited the tribe or one of the Indian owners asks that the land be sold at auction, then after notice to all interested parties, including the tribe, the land shall be sold at auction immediately after the opening of the sealed bids and auction bidding shall be limited to the Indian owners, the tribe, and persons who submitted sealed bids in amounts not less than 75 per centum of the appraised value of the land. The highest sealed bid shall be considered the opening auction bid. No sale shall be made unless the price is equal to the highest sealed bid and substantially equal to the appraised value.

(e) The Secretary may, when he deems it in the best interests of the Indian owners, obtain a power of attorney from the owner of a non-Indian interest in the land to be sold authorizing the Secretary to sell and convey the interest of the non-Indian owner in accordance with any part of the procedure provided in this section.

SEC. 12. The Secretary of the Treasury, upon certification by the Secretary of the Interior, shall reimburse the tribe for fees and expenses incurred in connection with the taking of Indian lands within the reservation for the Big Bend project: *Provided*, That such reimbursable fees and expenses shall not exceed in the aggregate, \$75,000: *Provided further*, That attorney fees shall be paid under the terms of a contract approved by the Secretary of the Interior.

SEC. 13. (a) Any individual Indian who has been duly tendered payment in accordance with the schedules prepared pursuant to section 2(b) of this Act, shall have the right to reject the sum tendered by filing a notice of rejection with the Chief of Engineers, United States Army, Washington, District of Columbia, or with the superintendent of the Pierre Indian Agency, Pierre, South Dakota, within one year from the date of enactment of this Act or within ninety days after the tender is made, whichever date is later. For the purpose of this section, the Secretary of the Interior and the tribe are authorized to represent any Indian entitled to payment who is a minor, or under any other legal disability, or who cannot be located after a reasonable and diligent search, and any person who is an undetermined heir or devisee of a deceased Indian.

(b) If the land of any Indian rejecting payment is included in condemnation proceedings heretofore instituted, the court in those

proceedings shall proceed to determine the just compensation to which the individual is entitled and, if the land is not included in such condemnation proceedings, jurisdiction is hereby conferred upon the United States District Court for the District of South Dakota to determine just compensation in accordance with procedures applicable to the determination of just compensation in condemnation proceedings. No court or statutory costs, but all other costs and expenses, including attorney's fees, shall be at the contesting individual's expense. Suit may be brought on behalf of any individual rejecting payment within one year after the date of the rejection. If a notice of rejection of the tender of payment is filed, at least 10 per centum of the tender deposited in the individual Indian money account shall be withheld from disbursement pending a final determination under this subsection.

SEC. 14. No part of any expenditure made by the United States under any of the provisions of this Act shall be charged by the United States as an offset or counterclaim against any tribal claim against the United States which has arisen prior to the date of enactment of this Act. The payment of Sioux benefits as provided for in section 17 of the Act of March 2, 1889 (25 Stat. 888), as amended, shall be continued under the provisions of section 14 of the Indian Reorganization Act of June 18, 1934 (48 Stat. 984), on the basis now in operation without regard to the loss of tribal land within the taking area for the Big Bend project.

SEC. 15. There is hereby authorized to be appropriated such amounts as may be necessary for the purposes of this Act.

SEC. 16. The land taken by section 1 of this Act, embracing approximately 14,299.03 acres, and the land heretofore acquired in condemnation proceedings by civil numbered 335, embracing approximately 310.00 acres, are the lands identified and delimited on a map entitled, "A map delimiting tribal and individual Indian trust and restricted land of the Lower Brule Sioux Reservation acquired by the United States for the Big Bend Dam and Reservoir project for the sum of \$825,000". Legal descriptions of the lands shown therein shall be prepared by the Secretary of the Army and attached thereto. The map and descriptions shall be prepared by the Secretary of the Army and shall be filed among the land records of the Bureau of Indian Affairs in Washington, District of Columbia, and a duplicate original filed and maintained at the agency in Pierre, South Dakota. A true and correct copy of the map and descriptions shall be furnished without cost to the tribe. The Secretary of the Army shall prepare and furnish the Secretary of the Interior and the tribe tract by tract legal descriptions of trust and restricted land acquired by this Act within two years of enactment of this Act: *Provided*, That within ninety days after notice of rejection is filed pursuant to subsection 13(a) the Secretary of the Army shall furnish to the individual Indian and to the Superintendent of the Pierre Indian Agency a legal description of the lands covered by the rejection.

SEC. 17. All funds authorized by this Act paid to the tribe and individual Indians shall be exempt from all forms of State and Federal taxation.

SEC. 18. The Secretary of the Army is authorized and directed to pay to any bona fide lessee or permittee owning improvements situated on Indian tribal land the fair value, as determined by the Secretary, or by a court of competent jurisdiction, of any such improvements which will be rendered inoperative or be otherwise adversely affected by the construction of the Big Bend Dam and Reservoir project.

Approved October 3, 1962.

PUBLIC LAW 87-735
EIGHTY-SEVENTH CONGRESS, OCTOBER 3, 1962
H.R. 5165¹⁰

An Act to provide for the acquisition of and the payment for individual Indian and tribal lands of the Crow Creek Sioux Reservation in South Dakota, required by the United States for the Big Bend Dam and Reservoir project on the Missouri River, and for the rehabilitation, social, and economic development of the members of the tribe, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in furtherance of the Big Bend Dam and Reservoir project authorized by the Flood Control Act of December 22, 1944 (58 Stat. 887, 891)—

(a) The entire interest, including gravel but excluding the interest in oil, gas, and all other minerals of any nature whatsoever, in approximately 6,283.57 acres of land within the taking area described in this Act in the Crow Creek Sioux Reservation in South Dakota, in which the Crow Creek Sioux Tribe or individual Indians have a trust or restricted interest, and any interest the tribe or Indians may have within the bed of the Missouri River so far as it is within the boundaries of the reservation are hereby taken by the United States for the Big Bend Dam and Reservoir project on the Missouri River, and in consideration thereof and for 132.61 acres of trust or restricted lands heretofore acquired by the United States in condemnation proceedings for the Big Bend project the United States will pay to the tribe and the individual Indian owners, out of funds available for the Big Bend Dam and Reservoir project—

(1) a sum aggregating \$355,000 to be disbursed in accordance with the provisions of schedules prepared pursuant to section 2(b) of this Act; and

(2) the amount of \$209,302, which shall be in settlement of all claims, rights, and demands of the tribe and individual Indians arising out of the taking under this Act, to be disbursed in accordance with the provisions of section 2 hereof.

(b) Upon a determination by the Secretary of the Army, within two years from the date of enactment of this Act, filed among the appropriate land records of the Department of the Interior, that any of the lands described in this Act are not required for Big Bend project purposes, title to such land shall be revested in the former owner.

SEC. 2. (a) The payments authorized by section 1 of this Act, less the amounts heretofore deposited by the United States in the case

¹⁰ House Report No. 853 and Senate Report No. 1637 are not published herein.

entitled United States of America, Plaintiff, against 867.50 acres of land, etc., and Crow Creek Tribe of Sioux Indians et al., Defendants, civil numbered 335, filed in the United States District Court for the District of South Dakota, for trust property acquired in the taking area described in this Act, shall be deposited to the credit of the tribe in the Treasury of the United States and shall draw interest on the principal at the rate of 4 per centum per annum until expended: *Provided*, That there shall not be deducted from the payments authorized by section 1 of this Act amounts deposited as compensation in the aforesaid case for improvements located on lands not owned by the individual Indian owner of the improvements.

(b) The amount paid pursuant to section 1(a) (1) of this Act shall be allocated in accordance with Indian ownership schedules prepared by the Secretary of the Interior, after consultation with the Crow Creek Tribal Council to correct known errors and to insure fair and equitable allocation. These schedules shall reflect the amount agreed upon by the Secretary of the Army and the Secretary of the Interior as the basis for negotiation, after appropriate acreage adjustments, increased by a uniform percentage to equal the amount paid. The amounts allocated for payment of property owned by individual Indians shall be credited to their respective individual Indian money accounts. No part of the compensation provided for in section 1 shall be subject to any lien, debt, or claim of any nature whatsoever against the tribe or the individual Indian owners entitled to the compensation, except delinquent debts owed to the United States by the tribe, or delinquent debts owed to the tribe or to the United States by the individual Indians entitled to the compensation: *Provided*, That such compensation shall not be applied to the payment of such delinquent debts unless the Secretary of the Interior first determines and certifies that no hardship will result from the payment of such delinquent debts.

(c) The tribal council with the approval of the Secretary of the Interior shall make available from the funds authorized by section 1(a) (2) of this Act not to exceed \$77,550, to pay the expenses, costs, losses, and damages incurred by members of the tribe as a direct result of moving themselves and their possessions, including dwellings and other buildings owned by the individual members, on account of the acquisition referred to in section 1 of this Act. The balance of the amount paid pursuant to section 1(a) (2) shall be consolidated with the appropriation authorized by section 3 of this Act and shall be expended in accordance with the provisions of section 3.

SEC. 3. There is authorized to be appropriated the additional sum of \$3,802,500 which shall be deposited in the Treasury of the United States to the credit of the tribe and which shall draw interest on the principal at the rate of 4 per centum per annum until expended, for the purposes of developing individual and family plans, relocating, reestablishing, and providing other assistance designed to improve the economic and social conditions of enrolled members of the tribe on the date of enactment of this Act. The funds authorized by this section shall be expended in accordance with plans and programs approved by both the tribal council and the Secretary of the Interior: *Provided*, That \$400,000 shall be allocated exclusively for industrial

development on the reservation or within fifty miles of any exterior boundary of the reservation with preferential right of employment for members of the tribe. Nothing in this Act shall be construed to prevent cooperative action with the Lower Brule Sioux Tribe on industrial development or other programs: *And provided further*, That no part of such funds shall be used for per capita payments, or for the purchase of land by the tribe except for the purpose of resale to individual Indians in furtherance of the rehabilitation program authorized by this section, which resale is hereby authorized.

SEC. 4. The Secretary of the Army, out of funds appropriated for the Big Bend project other than funds provided by this Act, is authorized and directed to relocate and reestablish such Indian cemeteries, tribal monuments, and shrines within the taking area of the Big Bend project as the tribal council, with the approval of the Secretary of the Interior, shall select and designate: *Provided*, That reinterment of individual remains, but not entire cemeteries, outside the reservation boundaries is authorized if desired by the next of kin and approved by the tribal council, but in no event will reinterment be made to a site which exceeds the equivalent distance from the disinterment site to the farthest point at which reinterment could be made within the reservation boundaries.

SEC. 5. The Secretary of the Army is authorized and directed out of funds appropriated for the Big Bend project other than funds provided by this Act to protect, replace, relocate, or reconstruct any existing essential governmental and agency facilities on the reservation, including schools, hospitals, Public Health Service and Bureau of Indian Affairs offices, facilities, service buildings, and employees' quarters, roads, bridges, and incidental matters or facilities in connection therewith, which the Secretary of the Interior determines will be impaired or required by reason of the Big Bend project: *Provided, however*, That the design criteria employed shall be reasonably comparable to that of the presently existing roads, bridges, and facilities.

SEC. 6. The Secretary of the Army, under plans approved by the Secretary of the Interior after consultation with the Crow Creek Tribal Council, is authorized and directed out of funds appropriated for the Big Bend project other than funds provided by this Act, to locate and construct on tribal land selected by the Crow Creek Tribal Council with the approval of the Secretary of the Interior, a townsite adequate for fifty homes, including streets, utilities, including water, sewage, and electricity, taking into account the reasonable future growth of the townsite, a community center containing space and facilities for community gatherings, tribal offices, tribal council chamber, Bureau of Indian Affairs and Public Health Service offices and quarters and a combination gymnasium and auditorium: *Provided*, That not to exceed \$350,000 shall be withdrawn from funds of the tribe authorized under section 3 of this Act, and transferred to funds available for the Big Bend Dam and Reservoir project upon request of the Secretary of the Army after completion of the work.

The tribal council is authorized with the approval of the Secretary of the Interior (a) to convey, with or without compensation, tribal land, exclusive of minerals, for church or cemetery purposes for so long as the land is used for such purposes, and (b) to sell unimproved lots

in the townsite, exclusive of minerals, at competitive sale to the highest qualified bidder but for not less than the appraised value, pursuant to such terms and conditions as the Secretary may prescribe.

SEC. 7. All minerals of any kind whatsoever, including oil and gas, but excluding gravel, in the lands taken by this Act are hereby reserved for the benefit of the tribe or individual Indian owners as their interests may appear. All right, title, and interest of the United States in such minerals in trust or restricted land heretofore acquired by the United States for the Big Bend project, are hereby revested in the former owners. All such minerals in trust or restricted land hereafter acquired by the United States for the Big Bend project shall be reserved for the benefit of the owners as their interests may appear. Notwithstanding the foregoing provisions of this section the exploration and development of such minerals, including oil and gas, within the taking area shall be subject to all reasonable regulations of the Secretary of the Army necessary for the protection of the Big Bend project.

SEC. 8. Members of the Crow Creek Sioux Tribe now residing within the taking area of the Big Bend project shall have the right without charge to remain on and use the lands taken by this Act until required to vacate at such times as may be fixed by the Secretary of the Army, with the approval of the Secretary of the Interior: *Provided*, That the time for vacating in any event will not extend beyond July 1, 1963.

SEC. 9. Individual Indians and the tribe are authorized without charge to retain timber and improvements removed by them from their respective trust or restricted lands on the reservation acquired by this Act and heretofore acquired by the United States for the Big Bend project. Up to sixty days before the individual Indian landowners and the tribe are required to vacate the taking area in accordance with this Act, they shall have the right, without charge, to cut and remove all timber and to salvage any improvements on their respective lands but, if such rights are not exercised or are waived within the time prescribed, the tribe, through its tribal council, may exercise such rights: *Provided*, That the timber cut and the salvage permitted by this section shall not be construed to be compensation.

SEC. 10. Subject to the right of the United States to occupy, use, and control trust and restricted lands acquired by this Act and heretofore acquired in condemnation action civil numbered 335 for the construction, operation, and maintenance of the Big Bend Dam and Reservoir project pursuant to the Flood Control Act of 1944, approved December 22, 1944, and amendatory laws, as determined necessary by the Secretary of the Army adequately to serve said purposes, the Crow Creek Sioux Tribe shall be permitted, after the Big Bend Dam gates are closed and the waters of the Missouri River impounded, to graze stock without charge on such of the land described in this section as lies between the level of the reservoir and the taking line described in section 16 of this Act and as the Secretary of the Army determines is not devoted to other beneficial uses and to lease such land for grazing purposes to members or nonmembers of the tribe on such terms and conditions as the Secretary of the Interior may prescribe. The tribe

and members thereof shall have without cost the right of free access to the shoreline of the reservoir including the right to hunt and fish in and on the aforesaid shoreline and reservoir, subject, however, to regulations governing the corresponding use by other citizens of the United States.

SEC. 11. Notwithstanding any other provision of law, for the purposes of (1) providing substitute land for individual Indians who owned land within the taking area of the Fort Randall or Big Bend projects, (2) consolidating land holdings, and (3) eliminating fractionated heirship interests within the reservation, the Secretary of the Interior is authorized to purchase, with funds made available by such individual Indians or by the tribe, land or interests in land, and to sell tribal land upon request of the tribe, but no service charge shall be made by the United States. The land selected by and purchased for individual Indians may be either inside or outside the boundaries of the reservation. Title to any land or interests in land acquired within the boundaries of the reservation shall be taken in the name of the United States in trust for the tribe or the individual Indian for whom the land is acquired, and title to any land or interests in land acquired outside the boundaries of the reservation shall be taken in the name of the individual for whom it is acquired: *Provided*, That title to lands outside the exterior boundaries of the reservation acquired by the tribe shall be taken in the name of the tribe subject to a restriction against alienation without the consent of the Secretary of the Interior, but shall not be exempt from taxation.

For the purposes of this section, but without limiting the authority contained in the Act of June 25, 1910 (36 Stat. 855), as amended, the Secretary of the Interior is authorized to partition or sell individually owned lands in which all interests are held in trust or restricted status (1) upon the request of the owners of not less than a 25 per centum interest in such land where ten persons or more own or claim interests in the land, or (2) upon the request of the owners of not less than a 50 per centum interest in such land where fewer than ten persons own or claim interests in the land. For the purpose of this section, the Secretary of the Interior may represent any Indian owner who is a minor or who is under any other legal disability, and the Secretary, after first giving reasonable notice by publication of the proposed sale, is authorized to represent any Indian owner or claimant who cannot be located after reasonable and diligent search. Sales of all Indian trust or restricted interests in land shall be in accordance with the following procedure:

(a) Upon receipt of requests from the required ownership interests, the Secretary shall notify the tribe and each owner of an undivided Indian interest in the land by a letter directed to his last known address that each such owner and the tribe has a right to purchase the land for its appraised value, unless one of the owners objects within the time fixed by the Secretary, or for a lower price if all of the owners agree, and that if more than one owner or if one owner and the tribe wants to purchase the land it will be sold on the basis of sealed competitive bids restricted to the owners of undivided interests in the land and the tribe.

(b) If no Indian owner of an undivided interest in the land elects to purchase the land within the time fixed by the Secretary, and the tribe owns no interest in the land, the Secretary shall offer to sell the land at its appraised value to the tribe, unless one of the Indian owners or his authorized representative objects within the time fixed by the Secretary to a sale to the tribe at the appraised value.

(c) If any Indian owner or his authorized representative objects to a sale to the tribe at the appraised value, the Secretary shall offer the land for sale by sealed competitive bid with a preferential right in the tribe or any Indian owner to meet the high bid, unless one of the Indian owners or his authorized representative objects within the time fixed by the Secretary to the grant of such preferential right. All bids shall be rejected if no bid substantially equal to the appraised value is received.

(d) If any Indian owner or his authorized representative objects to a sale by sealed competitive bid with a preferential right to meet the high bid, the Secretary shall offer the land for sale by sealed bids without such preferential right: *Provided*, That, if at any time before sealed bids are invited the tribe or one of the Indian owners asks that the land be sold at auction, then after notice to all interested parties including the tribe, the land shall be sold at auction immediately after the opening of the sealed bids and auction bidding shall be limited to the Indian owners, the tribe, and persons who submitted sealed bids in amounts not less than 75 per centum of the appraised value of the land. The highest sealed bid shall be considered the opening auction bid. No sale shall be made unless the price is equal to the highest sealed bid and substantially equal to the appraised value.

(e) The Secretary may, when he deems it in the best interests of the Indian owners, obtain a power of attorney from the owner of a non-Indian interest in the land to be sold authorizing the Secretary to sell and convey the interest of the non-Indian owner in accordance with any part of the procedure provided in this section.

SEC. 12. The Secretary of the Treasury, upon certification by the Secretary of the Interior, shall reimburse the tribe for fees and expenses incurred in connection with the taking of Indian lands within the reservation for the Big Bend project: *Provided*, That such reimbursable fees and expenses shall not exceed in the aggregate \$75,000: *Provided further*, That attorney fees shall be paid under the terms of a contract approved by the Secretary of the Interior.

SEC. 13. (a) Any individual Indian who has been duly tendered payment in accordance with the schedules prepared pursuant to section 2(b) of this Act, shall have the right to reject the sum tendered by filing a notice of rejection with the Chief of Engineers, United States Army, Washington, District of Columbia, or with the superintendent of the Pierre Indian Agency, Pierre, South Dakota, within one year from the date of enactment of this Act or within ninety days after the tender is made, whichever date is later. For the purpose of this section, the Secretary of the Interior and the tribe are authorized to represent any Indian entitled to payment who is a minor, or under any other legal disability, or who cannot be located after a reasonable and diligent search, and any person who is an undetermined heir or devisee of a deceased Indian.

(b) If the land of any Indian rejecting payment is included in condemnation proceedings heretofore instituted, the court in those proceedings shall proceed to determine the just compensation to which the individual is entitled and, if the land is not included in such condemnation proceedings, jurisdiction is hereby conferred upon the United States District Court for the District of South Dakota to determine just compensation in accordance with procedures applicable to the determination of just compensation in condemnation proceedings. No court or statutory costs but all other costs and expenses including attorney's fees shall be at the contesting individual's expense. Suit may be brought on behalf of any individual rejecting payment within one year after the date of the rejection. If a notice of rejection of the tender of payment is filed, at least 10 per centum of the tender deposited in the individual Indian money account shall be withheld from disbursement pending a final determination under this subsection.

SEC. 14. No part of any expenditure made by the United States under any of the provisions of this Act shall be charged by the United States as an offset or counterclaim against any tribal claim against the United States which has arisen prior to the date of enactment of this Act. The payment of Sioux benefits as provided for in section 17 of the Act of March 2, 1889 (25 Stat. 888), as amended, shall be continued under the provisions of section 14 of the Indian Reorganization Act of June 18, 1934 (48 Stat. 984), on the basis now in operation without regard to the loss of tribal land within the taking area for the Big Bend project.

SEC. 15. There are hereby authorized to be appropriated such amounts as may be necessary for the purposes of this Act.

SEC. 16. The land taken by section 1 of this Act, embracing approximately 6,283.57 acres, and the land heretofore acquired in condemnation proceedings by civil numbered 335, embracing approximately 132.61 acres, are the lands identified and delimited on a map entitled, "A map delimiting tribal and individual Indian trust and restricted land of the Crow Creek Sioux Reservation acquired by the United States for the Big Bend Dam and Reservoir project for the sum of \$355,000". Legal descriptions of the lands shown therein shall be prepared by the Secretary of the Army and attached thereto. The map and descriptions shall be prepared by the Secretary of the Army and shall be filed among the land records of the Bureau of Indian Affairs in Washington, District of Columbia, and a duplicate original filed and maintained at the agency in Pierre, South Dakota. A true and correct copy of the map and descriptions shall be furnished without cost to the tribe. The Secretary of the Army shall prepare and furnish the Secretary of the Interior and the tribe tract by tract legal descriptions of trust and restricted land acquired by this Act within two years of enactment of this Act: *Provided*, That within ninety days after notice of rejection is filed pursuant to subsection 13(a) the Secretary of the Army shall furnish to the individual Indian and to the Superintendent of the Pierre Indian Agency a legal description of the lands covered by the rejection.

SEC. 17. All funds authorized by this Act paid to the tribe and individual Indians shall be exempt from all forms of State and Federal taxation.

SEC. 18. The Secretary of the Army is authorized and directed to pay to any bona fide lessee or permittee owning improvements situated on Indian tribal land the fair value, as determined by the Secretary, or by a court of competent jurisdiction, of any such improvements which will be rendered inoperative or be otherwise adversely affected by the construction of the Big Bend Dam and Reservoir project.

Approved October 3, 1962.

EIGHTY-SEVENTH CONGRESS, OCTOBER 9, 1962
H.R. 8824¹¹

An Act to modify the application of the personal holding company tax in the case of consumer finance companies.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 542(c) (7) of the Internal Revenue Code of 1954 (relating to exceptions to the term "personal holding company") is amended to read as follows:

(7) a lending company, not otherwise excepted by this subsection, authorized to engage in and actively and regularly engaged in the small loan business (consumer finance business) under one or more State statutes providing for the direct regulations of such business, 80 percent or more of the gross income of which consists of either or both of the following—

(A) lawful interest, discount, or other authorized charges received from loans made to individuals in accordance with the provisions of applicable State law, and

(B) lawful income received from domestic subsidiary corporations (of which stock possessing at least 80 percent of the voting power of all classes of stock and of which at least 80 percent of each class of the nonvoting stock is owned directly by such lending company), which are themselves excepted under this paragraph or paragraph (6), (8), or (9) of this subsection,

if at least 60 percent of the gross income is lawful interest, discount, or other authorized charges received from loans made in accordance with the provisions of such small loan (consumer finance) laws to individuals, each of whose indebtedness to such company did not at any time during the taxable year exceed in principal amount the limit prescribed for small loans by such law (or, if there is no such limit, \$1,500), and if the deductions allowed to such company under section 162 (relating to trade or business expenses), other than for compensation for personal services rendered by shareholders (including members of the shareholder's

¹¹ Senate Report No. 2047, page 248, this Bulletin; since House Report No. 1811 is substantially the same as the Senate Report, it is not published herein.

family as described in section 544(a)(2)), constitute 15 percent or more of its gross income, and the loans to a person, who is a shareholder in such company during the taxable year by or for whom 10 percent or more in value of its outstanding stock is owned directly or indirectly (including, in the case of an individual, stock owned by the members of his family as defined in section 544(a)(2)), outstanding at any time during such year do not exceed \$5,000 in principal amount;”.

SEC. 2. The amendment made by the first section of this Act shall apply with respect to taxable years beginning after December 31, 1961.

Approved October 9, 1962.

An Act to provide for the exemption of fowling nets from duty,
and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That paragraph 1725 of the Tariff Act of 1930, as amended (U.S. Code, title 19, sec. 1201, par. 1725), is hereby further amended to read as follows:

PAR. 1725. (a) Nets or finished sections of nets for use in otter trawl fishing, if composed wholly or in chief value of manila.

(b) Nets or sections or parts of nets, finished or unfinished, of whatever material or materials composed, for use in taking wild birds under license issued by an appropriate Federal or State governmental authority.

SEC. 2. (a) Section 4216(f)(4)(C) of the Internal Revenue Code of 1954 (relating to the definition of local advertising) is amended by striking out “or appears in a newspaper” and inserting in lieu thereof “, appears in a newspaper or magazine, or is displayed by means of an outdoor advertising sign or poster”.

(b) The amendment made by subsection (a) shall apply with respect to articles sold on or after the first day of the first calendar quarter beginning more than 20 days after the date of the enactment of this Act.

An Act to provide for the disposition of judgment funds of the
Cherokee Nation or Tribe of Indians of Oklahoma.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior is authorized and directed to distribute per capita to

¹² Senate Report No. 1607, page 254, this Bulletin; Conference Report No. 2412, page 256, this Bulletin; since House Report No. 1258 contains no internal revenue matters, it is not published herein.

¹³ House Report No. 2077 and Senate Report No. 2173 are not published herein.

all persons whose names appear on the rolls of the Cherokee Nation, which rolls were closed and made final as of March 4, 1907, pursuant to the Act of April 26, 1906 (34 Stat. 137), and subsequent additions thereto, all funds which were appropriated by the Act of September 30, 1961 (75 Stat. 733), in satisfaction of a judgment that was obtained by the Cherokee Tribe in the Indian Claims Commission against the United States in docket numbered 173, together with the interest accrued thereon, except \$1,432,084.17 which by stipulation of the parties has been set aside for the payments of any offsets that are finally determined to be due the United States, and except the amount allowed for attorney fees and expenses.

SEC. 2. (a) Except as provided in subsections (b) and (c) of this section, a share or proportional share payable to a living adult shall be paid directly to such adult; (b) a share payable to a deceased enrollee shall be distributed to his heirs or legatees upon the filing of proof of death and inheritance satisfactory to the Secretary of the Interior, or his authorized representative, whose findings and determinations upon such proof shall be final and conclusive: *Provided*, That proportional shares of deceased heirs amounting to \$10 or less shall not be distributed, and no inherited share amounting to \$5 or less shall be paid, and the money shall revert to the tribe; (c) a share or proportional share payable to a person under twenty-one years of age or to a person under legal disability shall be paid in accordance with such procedures as the Secretary determines will adequately protect the best interests of such persons.

SEC. 3. (a) All claims for per capita shares, whether by a living enrollee or by the heirs or legatees of a deceased enrollee, shall be filed with the Area Director of the Bureau of Indian Affairs, Muskogee, Oklahoma, not later than three years from the date of approval of this Act. Thereafter, all claims and the right to file same shall be forever barred and the unclaimed shares shall revert to the tribe.

(b) Tribal funds that revert to the tribe pursuant to this Act, including interest and income therefrom, may be advanced or expended for any purpose that is authorized by the principal chief of the Cherokee Nation and approved by the Secretary of the Interior.

SEC. 4. No part of any funds which may be distributed in accordance with the provisions of this Act shall be subject to Federal or State income tax.

SEC. 5. No part of any of the funds which may be so distributed shall be subject to any lien, debt, or claim of any nature whatsoever against the tribe or individual Indians except delinquent debts owed by the tribe to the United States, or owed by individual Indians to the tribe or to the United States.

SEC. 6. Payments made under this Act shall not be held to be "other income and resources", as that term is used in sections 2(a)(10)(A), 402(a)(7), 1002(a)(8), and 1402(a)(8) of the Social Security Act (42 U.S.C. 302(a)(10)(A), 602(a)(7), 1202(a)(8), and 1352(a)(8)).

SEC. 7. All costs incident to making the payments authorized by this Act shall be paid by appropriate withdrawals from the judgment fund and interest on the judgment fund, using the interest fund first.

SEC. 8. The Secretary of the Interior is authorized to prescribe rules and regulations to carry out the provisions of this Act.

Approved October 9, 1962.

EIGHTY-SEVENTH CONGRESS, OCTOBER 10, 1962
H.R. 12180¹⁴

An Act to extend for a temporary period the existing provisions of law relating to the free importation of personal and household effects brought into the United States under Government orders, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That subsection (b) of the first section of the Act entitled "An Act relating to the free importation of personal and household effects brought into the United States under Government orders, and for other purposes", approved June 30, 1955 (Public Law 126, Eighty-fourth Congress; 69 Stat. 242), as amended, is amended by striking out "July 1, 1962" and inserting in lieu thereof "July 1, 1964".

SEC. 2. (a) Section 201 of the Tariff Act of 1930 (19 U.S.C. 1201) is amended by adding at the end thereof the following new paragraph:

PAR. 1829. Monofilament gill nets for use in fish sampling, under such rules and regulations as the Secretary of the Treasury may prescribe.

(b) The amendment made by subsection (a) shall be effective with respect to articles entered or withdrawn from warehouse for consumption on and after the day following the date of enactment of this Act.

SEC. 3. (a) Section 809(d)(6) of the Internal Revenue Code of 1954 (relating to deduction for group life, accident, and health insurance) is amended—

(1) by striking out "group life insurance contracts and group accident and health insurance contracts" and inserting in lieu thereof "accident and health insurance contracts (other than those to which paragraph (5) applies) and group life insurance contracts"; and

(2) by striking out the heading and inserting in lieu thereof

(6) CERTAIN ACCIDENT AND HEALTH INSURANCE AND GROUP LIFE INSURANCE—

(b) Section 815(c)(2)(C) of such Code (relating to policyholders surplus account) is amended by striking out "group life and group accident and health insurance contracts" and inserting in lieu thereof "accident and health insurance and group life insurance contracts".

(c) The amendments made by this section shall apply to taxable years beginning after December 31, 1962.

Approved October 10, 1962.

PUBLIC LAW 87-792
EIGHTY-SEVENTH CONGRESS, OCTOBER 10, 1962
H.R. 10¹⁵

An Act to encourage the establishment of voluntary pension plans
by self-employed individuals.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Self-Employed Individuals Tax Retirement Act of 1962".

SEC. 2. QUALIFICATION OF PLANS.

Section 401 of the Internal Revenue Code of 1954 (relating to qualified pension, profit-sharing, and stock bonus plans) is amended—

(1) by adding at the end of paragraph (5) of subsection (a) the following new sentence: "For purposes of this paragraph and paragraph (10), the total compensation of an individual who is an employee within the meaning of subsection (c) (1) means such individual's earned income (as defined in subsection (c) (2)), and the basic or regular rate of compensation of such an individual shall be determined, under regulations prescribed by the Secretary or his delegate, with respect to that portion of his earned income which bears the same ratio to his earned income as the basic or regular compensation of the employees under the plan bears to the total compensation of such employees.";

(2) by adding at the end of subsection (a) the following new paragraphs:

(7) A trust shall not constitute a qualified trust under this section unless the plan of which such trust is a part provides that, upon its termination or upon complete discontinuance of contributions under the plan, the rights of all employees to benefits accrued to the date of such termination or discontinuance, to the extent then funded, or the amounts credited to the employees' accounts are nonforfeitable. This paragraph shall not apply to benefits or contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by paragraph (4), may not be used for designated employees in the event of early termination of the plan.

(8) A trust forming part of a pension plan shall not constitute a qualified trust under this section unless the plan provides that forfeitures must not be applied to increase the benefits any employee would otherwise receive under the plan.

(9) In the case of a plan which provides contributions or benefits for employees some or all of whom are employees within the meaning of subsection (c) (1), a trust forming part of such plan shall not constitute a qualified trust under this section unless, under the plan, the entire interest of each employee—

(A) either will be distributed to him not later than his taxable year in which he attains the age of 70½ years, or, in the case of an employee other than an owner-employee (as defined in subsection (c) (3)), in which he retires, whichever is the later, or

(B) will be distributed, commencing not later than such taxable year, (i) in accordance with regulations prescribed by the Secretary or his delegate, over the life of such employee or over the lives of such employee and his spouse, or (ii) in accordance with such regulations, over a period not extending beyond the life expectancy of such employee or the life expectancy of such employee and his spouse.

¹⁵ House Report No. 378, page 261, this Bulletin; Senate Report No. 992, page 303, this Bulletin; and Conference Report No. 2411, page 367, this Bulletin.

A trust shall not be disqualified under this paragraph by reason of distributions under a designation, prior to the date of the enactment of this paragraph, by any employee under the plan of which such trust is a part, of a method of distribution which does not meet the terms of the preceding sentence.

(10) In the case of a plan which provides contributions or benefits for employees some or all of whom are owner-employees (as defined in subsection (c) (3))—

(A) paragraph (3) and the first and second sentences of paragraph (5) shall not apply, but—

(i) such plan shall not be considered discriminatory within the meaning of paragraph (4) merely because the contributions or benefits of or on behalf of employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, and

(ii) such plan shall not be considered discriminatory within the meaning of paragraph (4) solely because under the plan contributions described in subsection (e) (3) (A) which are in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a) (10)) for the taxable year may be made on behalf of any owner-employee; and

(B) a trust forming a part of such plan shall constitute a qualified trust under this section only if the requirements in subsection (d) are also met; and

(3) by redesignating subsection (c) as subsection (h) and inserting after subsection (b) the following new subsections:

(c) DEFINITIONS AND RULES RELATING TO SELF-EMPLOYED INDIVIDUALS AND OWNER-EMPLOYEES.—For purposes of this section—

(1) EMPLOYEE.—The term “employee” includes, for any taxable year, an individual who has earned income (as defined in paragraph (2)) for the taxable year. To the extent provided in regulations prescribed by the Secretary or his delegate, such term also includes, for any taxable year—

(A) an individual who would be an employee within the meaning of the preceding sentence but for the fact that the trade or business carried on by such individual did not have net profits for the taxable year, and

(B) an individual who has been an employee within the meaning of the preceding sentence for any prior taxable year.

(2) EARNED INCOME.—

(A) IN GENERAL.—The term “earned income” means the net earnings from self-employment (as defined in section 1402(a)) to the extent that such net earnings constitute earned income (as defined in section 911(b) but determined with the application of subparagraph (B)), but such net earnings shall be determined—

(i) without regard to paragraphs (4) and (5) of section 1402(c),

(ii) in the case of any individual who is treated as an employee under sections 3121(d) (3) (A), (C), or (D), without regard to paragraph (2) of section 1402(c), and

(iii) without regard to items which are not included in gross income for purposes of this chapter, and the deductions properly allocable to or chargeable against such items.

For purposes of this subparagraph, sections 911(b) and 1402, as in effect for a taxable year ending on December 31, 1962, and subparagraph (B), as in effect for a taxable year beginning on January 1, 1963, shall be treated as having been in effect for all taxable years ending before such date.

(B) EARNED INCOME WHEN BOTH PERSONAL SERVICES AND CAPITAL ARE MATERIAL INCOME-PRODUCING FACTORS.—In applying section 911(b) for purposes of subparagraph (A), in the case of an individual who is an employee within the meaning of paragraph (1) and who is engaged in a trade or business in which both personal services and capital are material income-producing factors and with respect to which the individual actually renders personal services on a full-time, or substantially full-time, basis, so much of his share of the net profits of such trade or business as does not exceed \$2,500 shall be considered as earned income. In the case of any such individual who is engaged in more than one

trade or business with respect to which he actually renders substantial personal services, if with respect to all such trades or businesses he actually renders personal services on a full-time, or substantially full-time, basis, there shall be considered as earned income with respect to the trades or businesses in which both personal services and capital are material income-producing factors—

(i) so much of his share of the net profits of such trades or businesses as does not exceed \$2,500, reduced by

(ii) his share of the net profits of any trade or business in which only personal services is a material income-producing factor.

The preceding sentences shall not be construed to reduce the share of net profits of any trade or business which under the second sentence of section 911(b) would be considered as earned income of any such individual.

(3) OWNER-EMPLOYEE.—The term “owner-employee” means an employee who—

(A) owns the entire interest in an unincorporated trade or business, or

(B) in the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership.

To the extent provided in regulations prescribed by the Secretary or his delegate, such term also means an individual who has been an owner-employee within the meaning of the preceding sentence.

(4) EMPLOYEE.—An individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. A partnership shall be treated as the employer of each partner who is an employee within the meaning of paragraph (1).

(5) CONTRIBUTIONS ON BEHALF OF OWNER-EMPLOYEES.—The term “contribution on behalf of an owner-employee” includes, except as the context otherwise requires, a contribution under a plan—

(A) by the employer for an owner-employee, and

(B) by an owner-employee as an employee.

(d) ADDITIONAL REQUIREMENTS FOR QUALIFICATION OF TRUSTS AND PLANS BENEFITING OWNER-EMPLOYEES.—A trust forming part of a pension or profit-sharing plan which provides contributions or benefits for employees some or all of whom are owner-employees shall constitute a qualified trust under this section only if, in addition to meeting the requirements of subsection (a), the following requirements of this subsection are met by the trust and by the plan of which such trust is a part:

(1) In the case of a trust which is created on or after the date of the enactment of this subsection, or which was created before such date but is not exempt from tax under section 501(a) as an organization described in subsection (a) on the day before such date, the trustee is a bank, but a person (including the employer) other than a bank may be granted, under the trust instrument, the power to control the investment of the trust funds either by directing investments (including reinvestments, disposals, and exchanges) or by disapproving proposed investments (including reinvestments, disposals, and exchanges). This paragraph shall not apply to a trust created or organized outside the United States before the date of the enactment of this subsection if, under section 402(c), it is treated as exempt from tax under section 501(a) on the day before such date; or, to the extent provided under regulations prescribed by the Secretary or his delegate, to a trust which uses annuity, endowment, or life insurance contracts of a life insurance company exclusively to fund the benefits prescribed by the trust, if the life insurance company supplies annually such information about trust transactions affecting owner-employees as the Secretary or his delegate shall by forms or regulations prescribe. For purposes of this paragraph, the term “bank” means a bank as defined in section 581, a corporation which under the laws of the State of its incorporation is subject to supervision and examination by the commissioner of banking or other officer of such State in charge of the administration of the banking laws of such State, and, in the case of a trust created or organized outside the United States, a bank or trust company, wherever incorporated, exercising fiduciary powers and subject to supervision and examination by governmental authority.

(2) Under the plan—

(A) the employees' rights to or derived from the contributions under the plan are nonforfeitable at the time the contributions are paid to or under the plan; and

(B) in the case of a profit-sharing plan, there is a definite formula for determining the contributions to be made by the employer on behalf of employees (other than owner-employees).

Subparagraph (A) shall not apply to contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by subsection (a) (4), may not be used to provide benefits for designated employees in the event of early termination of the plan.

(3) The plan benefits each employee having a period of employment of 3 years or more. For purposes of the preceding sentence, the term "employee" does not include any employee whose customary employment is for not more than 20 hours in any one week or is for not more than 5 months in any calendar year.

(4) Under the plan—

(A) contributions or benefits are not provided for any owner-employee unless such owner-employee has consented to being included under the plan; and

(B) no benefits may be paid to any owner-employee, except in the case of his becoming disabled (within the meaning of section 213(g)

(3)), prior to his attaining the age of 59½ years.

(5) The plan does not permit—

(A) contributions to be made by the employer on behalf of any owner-employee in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a)(10) for the taxable year;

(B) in the case of a plan which provides contributions or benefits only for owner-employees, contributions to be made on behalf of any owner-employee in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a)(10)) for the taxable year; and

(C) if a distribution under the plan is made to any employee and if any portion of such distribution is an amount described in section 72(m)

(5) (A) (i), contributions to be made on behalf of such employee for the 5 taxable years succeeding the taxable year in which such distribution is made.

Subparagraphs (A) and (B) shall not apply to any contribution which is not considered to be an excess contribution (as defined in subsection (e) (1)) by reason of the application of subsection (e) (3).

(6) Except as provided in this paragraph, the plan meets the requirements of subsection (a) (4) without taking into account for any purpose contributions or benefits under chapter 2 (relating to tax on self-employment income), chapter 21 (relating to Federal Insurance Contributions Act), title II of the Social Security Act, as amended, or any other Federal or State law. If—

(A) of the contributions deductible under section 404 (determined without regard to section 404(a)(10)), not more than one-third is deductible by reason of contributions by the employer on behalf of owner-employees, and

(B) taxes paid by the owner-employees under chapter 2 (relating to tax on self-employment income), and the taxes which would be payable under such chapter 2 by the owner-employees but for paragraphs

(4) and (5) of section 1402(c), are taken into account as contributions by the employer on behalf of such owner-employees,

then taxes paid under section 3111 (relating to tax on employers) with respect to an employee may, for purposes of subsection (a) (4), be taken into account as contributions by the employer for such employee under the plan.

(7) Under the plan, if an owner-employee dies before his entire interest has been distributed to him, or if distribution has been commenced in accordance with subsection (a) (9) (B) to his surviving spouse and such surviving spouse dies before his entire interest has been distributed to such surviving spouse, his entire interest (or the remaining part of such interest

if distribution thereof has commenced) will, within 5 years after his death (or the death of his surviving spouse), be distributed, or applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries of his surviving spouse) which will be payable for the life of such beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries) and which will be immediately distributed to such beneficiary or beneficiaries. The preceding sentence shall not apply if distribution of the interest of an owner-employee has commenced and such distribution is for a term certain over a period permitted under subsection (a) (9) (B) (ii).

(8) Under the plan—

(A) any contribution which is an excess contribution, together with the income attributable to such excess contribution, is (unless subsection (e) (2) (E) applies) to be repaid to the owner-employee on whose behalf such excess contribution is made;

(B) if for any taxable year the plan does not, by reason of subsection (e) (2) (A), meet (for the purposes of section 404) the requirements of this subsection with respect to an owner-employee, the income for the taxable year attributable to the interest of such owner-employee under the plan is to be paid to such owner-employee; and

(C) the entire interest of an owner-employee is to be repaid to him when required by the provisions of subsection (e) (2) (E).

(9) (A) If the plan provides contributions or benefits for an owner-employee who controls, or for two or more owner-employees who together control, the trade or business with respect to which the plan is established and who also control as an owner-employee or as owner-employees one or more other trades or businesses, such plan and the plans established with respect to such other trades or businesses, when coalesced, constitute a single plan which meets the requirements of subsection (a) (including paragraph (10) thereof) and of this subsection with respect to the employees of all such trades or businesses (including the trade or business with respect to which the plan intended to qualify under this section is established).

(B) For purposes of subparagraph (A), an owner-employee, or two or more owner-employees, shall be considered to control a trade or business if such owner-employee, or such two or more owner-employees together—

(i) own the entire interest in an unincorporated trade or business,

or

(ii) in the case of a partnership, own more than 50 percent of either the capital interest or the profits interest in such partnership.

For purposes of the preceding sentence, an owner-employee, or two or more owner-employees, shall be treated as owning any interest in a partnership which is owned, directly or indirectly, by a partnership which such owner-employee, or such two or more owner-employees, are considered to control within the meaning of the preceding sentence.

(10) The plan does not provide contributions or benefits for any owner-employee who controls (within the meaning of paragraph (9) (B)), or for two or more owner-employees who together control, as an owner-employee or as owner-employees, any other trade or business, unless the employees of each trade or business which such owner-employee or such owner-employees control are included under a plan which meets the requirements of subsection (a) (including paragraph (10) thereof) and of this subsection, and provides contributions and benefits for employees which are not less favorable than contributions and benefits provided for owner-employees under the plan.

(11) Under the plan, contributions on behalf of any owner-employee may be made only with respect to the earned income of such owner-employee which is derived from the trade or business with respect to which such plan is established.

(e) EXCESS CONTRIBUTIONS ON BEHALF OF OWNER-EMPLOYEES.—

(1) EXCESS CONTRIBUTION DEFINED.—For purposes of this section, the term “excess contribution” means, except as provided in paragraph (3)—

(A) if, in the taxable year, contributions are made under the plan only on behalf of owner-employees, the amount of any contribution made on behalf of any owner-employee which (without regard to this

subsection) is not deductible under section 404 (determined without regard to section 404(a)(10)) for the taxable year; or

(B) if, in the taxable year, contributions are made under the plan on behalf of employees other than owner-employees—

(i) the amount of any contribution made by the employer on behalf of any owner-employee which (without regard to this subsection) is not deductible under section 404 (determined without regard to section 404(a)(10)) for the taxable year;

(ii) the amount of any contribution made by any owner-employee (as an employee) at a rate which exceeds the rate of contributions permitted to be made by employees other than owner-employees;

(iii) the amount of any contribution made by any owner-employee (as an employee) which exceeds the lesser of \$2,500 or 10 percent of the earned income for such taxable year derived by such owner-employee from the trade or business with respect to which the plan is established; and

(iv) in the case of any individual on whose behalf contributions are made under more than one plan as an owner-employee, the amount of any contribution made by such owner-employee (as an employee) under all such plans which exceeds \$2,500; and

(C) the amount of any contribution made on behalf of an owner-employee in any taxable year for which, under paragraph (2) (A) or (E), the plan does not (for purposes of section 404) meet the requirements of subsection (d) with respect to such owner-employee.

For purposes of this subsection, the amount of any contribution which is allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account.

(2) EFFECT OF EXCESS CONTRIBUTION.—

(A) IN GENERAL.—If an excess contribution (other than an excess contribution to which subparagraph (E) applies) is made on behalf of an owner-employee in any taxable year, the plan with respect to which such excess contribution is made shall, except as provided in subparagraphs (C) and (D), be considered, for purposes of section 404, as not meeting the requirements of subsection (d) with respect to such owner-employee for the taxable year and for all succeeding taxable years.

(B) INCLUSION OF AMOUNTS IN GROSS INCOME OF OWNER-EMPLOYEES.—For any taxable year for which any plan does not meet the requirements of subsection (d) with respect to an owner-employee by reason of subparagraph (A), the gross income of such owner-employee shall, for purposes of this chapter, include the amount of net income for such taxable year attributable to the interest of such owner-employee under such plan.

(C) REPAYMENT WITHIN PRESCRIBED PERIOD.—Subparagraph (A) shall not apply to an excess contribution with respect to any taxable year, if, on or before the close of the 6-month period beginning on the day on which the Secretary or his delegate sends notice (by certified or registered mail) to the person to whom such excess contribution was paid of the amount of such excess contribution, the amount of such excess contribution, and the net income attributable thereto, is repaid to the owner-employee on whose behalf such excess contribution was made. If the excess contribution is an excess contribution as defined in paragraph (1)(A) or (B)(i), or is an excess contribution as defined in paragraph (1)(C) with respect to which a deduction has been claimed under section 404, the notice required by the preceding sentence shall not be mailed prior to the time that the amount of the tax under this chapter of such owner-employee for the taxable year in which such excess contribution was made has been finally determined.

(D) REPAYMENT AFTER PRESCRIBED PERIOD.—If an excess contribution, together with the net income attributable thereto, is not repaid within the 6-month period referred to in subparagraph (C), subparagraph (A) shall not apply to an excess contribution with respect to any taxable year beginning with the taxable year in which the person to whom such excess contribution was paid repays the amount of such excess contribution to the owner-employee on whose behalf such excess contribution

was made, and pays to such owner-employee the amount of net income attributable to the interest of such owner-employee which, under subparagraph (B), has been included in the gross income of such owner-employee for any prior taxable year.

(E) SPECIAL RULE IF EXCESS CONTRIBUTION WAS WILLFULLY MADE.—If an excess contribution made on behalf of an owner-employee is determined to have been willfully made, then—

(i) subparagraphs (A), (B), (C), and (D) shall not apply with respect to such excess contribution;

(ii) there shall be distributed to the owner-employee on whose behalf such excess contribution was willfully made his entire interest in all plans with respect to which he is an owner-employee; and

(iii) no plan shall, for purposes of section 404, be considered as meeting the requirements of subsection (d) with respect to such owner-employee for the taxable year in which it is determined that such excess contribution was willfully made and for the 5 taxable years following such taxable year.

(F) STATUTE OF LIMITATIONS.—In any case in which subparagraph (A) applies, the period for assessing any deficiency arising by reason of—

(i) the disallowance of any deduction under section 404 on account of a plan not meeting the requirements of subsection (d) with respect to the owner-employee on whose behalf an excess contribution was made, or

(ii) the inclusion, under subparagraph (B), in gross income of such owner-employee of income attributable to the interest of such owner-employee under a plan,

for the taxable year in which such excess contribution was made or for any succeeding taxable year shall not expire prior to one year after the close of the 6-month period referred to in subparagraph (C).

(3) CONTRIBUTIONS FOR PREMIUMS ON ANNUITY, ETC., CONTRACTS.—A contribution by the employer on behalf of an owner-employee shall not be considered to be an excess contribution within the meaning of paragraph (1), if—

(A) under the plan such contribution is required to be applied (directly or through a trustee) to pay premiums or other consideration for one or more annuity, endowment, or life insurance contracts on the life of such owner-employee issued under the plan.

(B) the amount of such contribution exceeds the amount deductible under section 404 (determined without regard to section 404(a)(10)) with respect to contributions made by the employer on behalf of such owner-employee under the plan, and

(C) the amount of such contribution does not exceed the average of the amounts which were deductible under section 404 (determined without regard to section 404(a)(10)) with respect to contributions made by the employer on behalf of such owner-employee under the plan (or which would have been deductible under such section if such section had been in effect) for the first 3 taxable years (i) preceding the year in which the last such annuity, endowment, or life insurance contract was issued under the plan and (ii) in which such owner-employee derived earned income from the trade or business with respect to which the plan is established, or for so many of such taxable years as such owner-employee was engaged in such trade or business and derived earned income therefrom.

In the case of any individual on whose behalf contributions described in subparagraph (A) are made under more than one plan as an owner-employee during any taxable year, the preceding sentence shall not apply if the amount of such contributions under all such plans for such taxable year exceed \$2,500. Any contribution which is not considered to be an excess contribution by reason of the application of this paragraph shall, for purposes of subparagraphs (B) (ii), (iii), and (iv) of paragraph (1), be taken into account as a contribution made by such owner-employee as an employee to the extent that the amount of such contribution is not deductible under section 404 (determined without regard to section 404(a)

(10)) for the taxable year, but only for the purpose of applying such subparagraphs to other contributions made by such owner-employee as an employee.

(f) CERTAIN CUSTODIAL ACCOUNTS.—

(1) TREATMENT AS QUALIFIED TRUST.—For purposes of this title, a custodial account shall be treated as a qualified trust under this section, if—

(A) such custodial account would, except for the fact that it is not a trust, constitute a qualified trust under this section;

(B) the custodian is a bank (as defined in subsection (d)(1));

(C) the investment of the funds in such account (including all earnings) is to be made—

(i) solely in regulated investment company stock with respect to which an employee is the beneficial owner, or

(ii) solely in annuity, endowment, or life insurance contracts issued by an insurance company;

(D) the shareholder of record of any such stock described in subparagraph (C)(i) is the custodian or its nominee; and

(E) the contracts described in subparagraph (C)(ii) are held by the custodian until distributed under the plan.

For purposes of this title, in the case of a custodial account treated as a qualified trust under this section by reason of the preceding sentence, the custodian of such account shall be treated as the trustee thereof.

(2) DEFINITION.—For purposes of paragraph (1), the term “regulated investment company” means a domestic corporation which—

(A) is a regulated investment company within the meaning of section 851(a), and

(B) issues only redeemable stock.

(g) ANNUITY DEFINED.—For purposes of this section and sections 402, 403, and 404, the term “annuity” includes a face-amount certificate, as defined in section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C., sec. 80a-2); but does not include any contract or certificate issued after December 31, 1962, which is transferable, if any person other than the trustee of a trust described in section 401(a) which is exempt from tax under section 501(a) is the owner of such contract or certificate.

SEC. 3. DEDUCTIBILITY OF CONTRIBUTIONS TO PLANS.

(a) INCLUSION OF SELF-EMPLOYED INDIVIDUALS.—Section 404(a) of the Internal Revenue Code of 1954 (relating to the deductibility of contributions to pension, annuity, profit-sharing, or stock bonus plans or plans of deferred compensation) is amended—

(1) by striking out in paragraph (2) “and (6),” and inserting in lieu thereof “(6), (7), and (8), and, if applicable, the requirements of section 401(a)(9) and (10) and of section 401(d) (other than paragraph (1),”; and

(2) by adding after paragraph (7) the following new paragraphs:

(8) SELF-EMPLOYED INDIVIDUALS.—In the case of a plan included in paragraph (1), (2), or (3) which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1), for purposes of this section—

(A) the term “employee” includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual is the person treated as his employer under section 401(c)(4);

(B) the term “earned income” has the meaning assigned to it by section 401(c)(2);

(C) the contributions to such plan on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall be considered to satisfy the conditions of section 162 or 212 to the extent that such contributions do not exceed the earned income of such individual derived from the trade or business with respect to which such plan is established, and to the extent that such contributions are not allocable (determined in accordance with regulations prescribed by the Secre-

tary or his delegate) to the purchase of life, accident, health, or other insurance; and

(D) any reference to compensation shall, in the case of an individual who is an employee within the meaning of section 401(c)(1), be considered to be a reference to the earned income of such individual derived from the trade or business with respect to which the plan is established.

(9) **PLANS BENEFITING SELF-EMPLOYED INDIVIDUALS.**—In the case of a plan included in paragraph (1), (2), or (3) which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1)—

(A) the limitations provided by paragraphs (1), (2), (3), and (7) on the amounts deductible for any taxable year shall be computed, with respect to contributions on behalf of employees (other than employees within the meaning of section 401(c)(1)), as if such employees were the only employees for whom contributions and benefits are provided under the plan;

(B) the limitations provided by paragraphs (1), (2), (3), and (7) on the amounts deductible for any taxable year shall be computed, with respect to contributions on behalf of employees within the meaning of section 401(c)(1)—

(i) as if such employees were the only employees for whom contributions and benefits are provided under the plan, and

(ii) without regard to paragraph (1)(D), the second and third sentences of paragraph (3), and the second sentence of paragraph (7); and

(C) the amounts deductible under paragraphs (1), (2), (3), and (7), with respect to contributions on behalf of any employee within the meaning of section 401(c)(1), shall not exceed the applicable limitation provided in subsection (e).

(10) **SPECIAL LIMITATION ON AMOUNT ALLOWED AS DEDUCTION FOR SELF-EMPLOYED INDIVIDUALS.**—Notwithstanding any other provision of this section, the amount allowable as a deduction under paragraphs (1), (2), (3), and (7) in any taxable year with respect to contributions made on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall be an amount equal to one-half of the contributions made on behalf of such individual in such taxable year which are deductible under such paragraphs (determined with the application of paragraph (9) and of subsection (e) but without regard to this paragraph). For purposes of section 401, the amount which may be deducted, or the amount deductible, under this section with respect to contributions made on behalf of such individual shall be determined without regard to the preceding sentence.

(b) **LIMITATIONS ON DEDUCTIBLE CONTRIBUTIONS ON BEHALF OF SELF-EMPLOYED INDIVIDUALS.**—Section 404 of the Internal Revenue Code of 1954 (relating to the deductibility of contributions to pension, annuity, profit-sharing, or stock bonus plans or plans of deferred compensation) is amended by adding after subsection (d) the following new subsections:

(e) **SPECIAL LIMITATIONS FOR SELF-EMPLOYED INDIVIDUALS.**—

(1) **IN GENERAL.**—In the case of a plan included in subsection (a)(1), (2), or (3), which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1), the amounts deductible under subsection (a) (determined without regard to paragraph (10) thereof) in any taxable year with respect to contributions on behalf of any employee within the meaning of section 401(c)(1) shall, subject to the provisions of paragraph (2), not exceed \$2,500, or 10 percent of the earned income derived by such employee from the trade or business with respect to which the plan is established, whichever is the lesser.

(2) **CONTRIBUTIONS MADE UNDER MORE THAN ONE PLAN.**—

(A) **OVERALL LIMITATION.**—In any taxable year in which amounts are deductible with respect to contributions under two or more plans on behalf of an individual who is an employee within the meaning of sec-

tion 401(c) (1) with respect to such plans, the aggregate amount deductible for such taxable year under all such plans with respect to contributions on behalf of such employee (determined without regard to subsection (a) (10)) shall not exceed \$2,500, or 10 percent of the earned income derived by such employee from the trades or businesses with respect to which the plans are established, whichever is the lesser.

(B) ALLOCATION OF AMOUNTS DEDUCTIBLE.—In any case in which the amounts deductible under subsection (a) (with the application of the limitations of this subsection) with respect to contributions made on behalf of an employee within the meaning of section 401(c) (1) under two or more plans are, by reason of subparagraph (A), less than the amounts deductible under such subsection determined without regard to such subparagraph, the amount deductible under subsection (a) (determined without regard to paragraph (10) thereof) with respect to such contributions under each such plan shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

(3) CONTRIBUTIONS ALLOCABLE TO INSURANCE PROTECTION.—For purposes of this subsection, contributions which are allocable (determined under regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account.

(f) CERTAIN LOAN REPAYMENTS CONSIDERED AS CONTRIBUTIONS.—For purposes of this section, any amount paid, directly or indirectly, by an owner-employee (within the meaning of section 401(c) (3)) in repayment of any loan which under section 72(m) (4) (B) was treated as an amount received under a contract purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) or purchased as a part of a plan described in section 403(a) shall be treated as a contribution to which this section applies on behalf of such owner-employee to such trust or to or under such plan.

SEC. 4. TAXABILITY OF DISTRIBUTIONS.

(a) EMPLOYEES' ANNUITIES.—Section 72(d) (2) of the Internal Revenue Code of 1954 (relating to employees' annuities) is amended to read as follows:

(2) SPECIAL RULES FOR APPLICATION OF PARAGRAPH (1).—For purposes of paragraph (1)—

(A) if the employee died before any amount was received as an annuity under the contract, the words "receivable by the employee" shall be read as "receivable by a beneficiary of the employee"; and

(B) any contribution made with respect to the contract while the employee is an employee within the meaning of section 401(c) (1) which is not allowed as a deduction under section 404 shall be treated as consideration for the contract contributed by the employee.

(b) SPECIAL RULES RELATING TO SELF-EMPLOYED INDIVIDUALS AND OWNER-EMPLOYEES.—Section 72 of the Internal Revenue Code of 1954 (relating to annuities, etc.) is amended by redesignating subsection (m) as subsection (o) and by inserting after subsection (l) the following new subsections:

(m) SPECIAL RULES APPLICABLE TO EMPLOYEE ANNUITIES AND DISTRIBUTIONS UNDER EMPLOYEE PLANS.—

(1) CERTAIN AMOUNTS RECEIVED BEFORE ANNUITY STARTING DATE.—Any amounts received under an annuity, endowment, or life insurance contract before the annuity starting date which are not received as an annuity (within the meaning of subsection (e) (2)) shall be included in the recipient's gross income for the taxable year in which received to the extent that—

(A) such amounts, plus all amounts theretofore received under the contract and includible in gross income under this paragraph, do not exceed

(B) the aggregate premiums or other consideration paid for the contract while the employee was an owner-employee which were allowed as deductions under section 404 for the taxable year and all prior taxable years.

Any such amounts so received which are not includible in gross income under this paragraph shall be subject to the provisions of subsection (e).

(2) COMPUTATION OF CONSIDERATION PAID BY THE EMPLOYEE.—In computing—

(A) the aggregate amount of premiums or other consideration paid for the contract for purposes of subsection (c) (1) (A) (relating to the investment in the contract),

(B) the consideration for the contract contributed by the employee for purposes of subsection (d) (1) (relating to employee's contributions recoverable in 3 years), and

(C) the aggregate premiums or other consideration paid for purposes of subsection (e) (1) (B) (relating to certain amounts not received as an annuity),

any amount allowed as a deduction with respect to the contract under section 404 which was paid while the employee was an employee within the meaning of section 401(c) (1) shall be treated as consideration contributed by the employer, and there shall not be taken into account any portion of the premiums or other consideration for the contract paid while the employee was an owner-employee which is properly allocable (as determined under regulations prescribed by the Secretary or his delegate) to the cost of life, accident, health, or other insurance.

(3) LIFE INSURANCE CONTRACTS.—

(A) This paragraph shall apply to any life insurance contract—

(i) purchased as a part of a plan described in section 403(a), or

(ii) purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) if the proceeds of such contract are payable directly or indirectly to a participant in such trust or to a beneficiary of such participant.

(B) Any contribution to a plan described in subparagraph (A) (i) or a trust described in subparagraph (A) (ii) which is allowed as a deduction under section 404, and any income of a trust described in subparagraph (A) (ii), which is determined in accordance with regulations prescribed by the Secretary or his delegate to have been applied to purchase the life insurance protection under a contract described in subparagraph (A), is includible in the gross income of the participant for the taxable year when so applied.

(C) In the case of the death of an individual insured under a contract described in subparagraph (A), an amount equal to the cash surrender value of the contract immediately before the death of the insured shall be treated as a payment under such plan or a distribution by such trust, and the excess of the amount payable by reason of the death of the insured over such cash surrender value shall not be includible in gross income under this section and shall be treated as provided in section 101.

(4) AMOUNTS CONSTRUCTIVELY RECEIVED.—

(A) ASSIGNMENTS OR PLEDGES.—If during any taxable year an owner-employee assigns (or agrees to assign) or pledges (or agrees to pledge) any portion of his interest in a trust described in section 401(a) which is exempt from tax under section 501(a) or any portion of the value of a contract purchased as part of a plan described in section 403(a), such portion shall be treated as having been received by such owner-employee as a distribution from such trust or as an amount received under the contract.

(B) LOANS ON CONTRACTS.—If during any taxable year, an owner-employee receives, directly or indirectly, any amount from any insurance company as a loan under a contract purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) or purchased as part of a plan described in section 403(a), and issued by such insurance company, such amount shall be treated as an amount received under the contract.

(5) PENALTIES APPLICABLE TO CERTAIN AMOUNTS RECEIVED BY OWNER-EMPLOYEES.—

(A) This paragraph shall apply—

(i) to amounts (other than any amount received by an individual in his capacity as a policyholder of an annuity, endowment, or life insurance contract which is in the nature of a dividend or similar distribution) which are received from a qualified trust described in

section 401(a) or under a plan described in section 403(a) and which are received by an individual, who is, or has been, an owner-employee, before such individual attains the age of 59½ years, for any reason other than the individual's becoming disabled (within the meaning of section 213(g)(3)), but only to the extent that such amounts are attributable to contributions paid on behalf of such individual (whether or not paid by him) while he was an owner-employee,

(ii) to amounts which are received from a qualified trust described in section 401(a) or under a plan described in section 403(a) at any time by an individual who is, or has been, an owner-employee, or by the successor of such individual, but only to the extent that such amounts are determined, under regulations prescribed by the Secretary or his delegate, to exceed the benefits provided for such individual under the plan formula, and

(iii) to amounts which are received, by an individual who is, or has been, an owner-employee, by reason of the distribution under the provisions of section 401(e)(2)(E) of his entire interest in all qualified trusts described in section 401(a) and in all plans described in section 403(a).

(B) (i) If the aggregate of the amounts to which this paragraph applies received by any person in his taxable year equals or exceeds \$2,500, the increase in his tax for the taxable year in which such amounts are received and attributable to such amounts shall not be less than 110 percent of the aggregate increase in taxes, for the taxable year and the 4 immediately preceding taxable years, which would have resulted if such amounts had been included in such person's gross income ratably over such taxable years.

(ii) If deductions have been allowed under section 404 for contributions paid on behalf of the individual while he is an owner-employee for a number of prior taxable years less than 4, clause (i) shall be applied by taking into account a number of taxable years immediately preceding the taxable year in which the amount was so received equal to such lesser number.

(C) If subparagraph (B) does not apply to a person for the taxable year, the increase in tax of such person for the taxable year attributable to the amounts to which this paragraph applies shall be 110 percent of such increase (computed without regard to this subparagraph).

(D) Subparagraph (A) (ii) of this paragraph shall not apply to any amount to which section 402(a)(2) or 403(a)(2) applies.

(E) For special rules for computation of taxable income for taxable years to which this paragraph applies, see subsection (n)(3).

(6) OWNER-EMPLOYEE DEFINED.—For purposes of this subsection, the term "owner-employee" has the meaning assigned to it by section 401(c)(3).

(n) TREATMENT OF CERTAIN DISTRIBUTIONS WITH RESPECT TO CONTRIBUTIONS BY SELF-EMPLOYED INDIVIDUALS.—

(1) APPLICATION OF SUBSECTION.—

(A) DISTRIBUTIONS BY EMPLOYEES' TRUST.—Subject to the provisions of subparagraph (C), this subsection shall apply to amounts distributed to a distributee, in the case of an employees' trust described in section 401(a) which is exempt from tax under section 501(a), if the total distributions payable to the distributee with respect to an employee are paid to the distributee within one taxable year of the distributee—

(i) on account of the employee's death,

(ii) after the employee has attained the age of 59½ years, or

(iii) after the employee has become disabled (within the meaning of section 213(g)(3)).

(B) ANNUITY PLANS.—Subject to the provisions of subparagraph (C), this subsection shall apply to amounts paid to a payee, in the case of an annuity plan described in section 403(a), if the total amounts payable to the payee with respect to an employee are paid to the payee within one taxable year of the payee—

(i) on account of the employee's death,

(ii) after the employee has attained the age of 59½ years, or

(iii) after the employee has become disabled (within the meaning of section 213(g)(3)).

(C) LIMITATIONS AND EXCEPTIONS.—This subsection shall apply—

(i) only with respect to so much of any distribution or payment to which (without regard to this subparagraph) subparagraph (A) or (B) applies as is attributable to contributions made on behalf of an employee while he was an employee within the meaning of section 401(c)(1), and

(ii) if the recipient is the employee on whose behalf such contributions were made, only if contributions which were allowed as a deduction under section 404 have been made on behalf of such employee while he was an employee within the meaning of section 401(c)(1) for 5 or more taxable years prior to the taxable year in which the total distributions payable or total amounts payable, as the case may be, are paid.

This subsection shall not apply to amounts described in clauses (ii) and (iii) of subparagraph (A) of subsection (m)(5) (but, in the case of amounts described in clause (ii) of such subparagraph, only to the extent that subsection (m)(5) applies to such amounts).

(2) LIMITATION OF TAX.—In any case to which this subsection applies, the tax attributable to the amounts to which this subsection applies for the taxable year in which such amounts are received shall not exceed whichever of the following is the greater:

(A) 5 times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income, or

(B) 5 times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under paragraph (3)(A).

(3) DETERMINATION OF TAXABLE INCOME.—Notwithstanding section 63 (relating to definition of taxable income), for purposes only of computing the tax under this chapter attributable to amounts to which this subsection or subsection (m)(5) applies and which are includible in gross income—

(A) the taxable income of the recipient for the taxable year of receipt shall be treated as being not less than the amount by which (i) the aggregate of such amounts so includible in gross income exceeds (ii) the amount of the deductions allowed for such taxable year under section 151 (relating to deductions for personal exemptions); and

(B) in making ratable inclusion computations under paragraph (5)(B) of subsection (m), the taxable income of the recipient for each taxable year involved in such ratable inclusion shall be treated as being not less than the amount required by such paragraph (5)(B) to be treated as includible in gross income for such taxable year.

In any case in which the preceding sentence results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by section 1 or 3 for such taxable year shall not be reduced by any credit under part IV of subchapter A (other than section 31 thereof) which, but for this sentence, would be allowable.

(c) CAPITAL GAINS TREATMENT OF CERTAIN EMPLOYEES' TRUST DISTRIBUTIONS.—Section 402(a)(2) of the Internal Revenue Code of 1954 (relating to capital gains treatment for certain distributions) is amended by adding at the end thereof the following new sentence:

This paragraph shall not apply to distributions paid to any distributee to the extent such distributions are attributable to contributions made on behalf of the employee while he was an employee within the meaning of section 401(c)(1).

(d) CAPITAL GAINS TREATMENT OF CERTAIN EMPLOYEES' ANNUITY PAYMENTS.—Section 403(a) of the Internal Revenue Code of 1954 (relating to taxability of a beneficiary under a qualified annuity plan) is amended—

(1) by striking out in paragraph (2)(A)(i) "which meets the requirements of section 401(a)(3), (4), (5), and (6)" and inserting in lieu thereof "described in paragraph (1)";

(2) by adding at the end of paragraph (2) (A) the following new sentence: "This subparagraph shall not apply to amounts paid to any payee to the extent such amounts are attributable to contributions made on behalf of the employee while he was an employee within the meaning of section 401(c) (1)."; and

(3) by adding after paragraph (2) the following new paragraph:

(3) **SELF-EMPLOYED INDIVIDUALS.**—For purposes of this subsection, the term "employee" includes an individual who is an employee within the meaning of section 401(c) (1), and the employer of such individual is the person treated as his employer under section 401(c) (4).

SEC. 5. PLANS FOR PURCHASE OF UNITED STATES BONDS.

(a) **QUALIFIED BOND PURCHASE PLANS.**—Part I of subchapter D of chapter 1 of the Internal Revenue Code of 1954 (relating to deferred compensation, etc.) is amended by adding at the end thereof the following new section:

"SEC. 405. QUALIFIED BOND PURCHASE PLANS.

(a) **REQUIREMENTS FOR QUALIFICATION.**—A plan of an employer for the purchase for and distribution to his employees or their beneficiaries of United States bonds described in subsection (b) shall constitute a qualified bond purchase plan under this section if—

(1) the plan meets the requirements of section 401(a) (3), (4), (5), (6), (7), and (8) and, if applicable, the requirements of section 401(a) (9) and (10) and of section 401(d) (other than paragraphs (1), (5) (B), and (8)); and

(2) contributions under the plan are used solely to purchase for employees or their beneficiaries United States bonds described in subsection (b).

(b) **BONDS TO WHICH APPLICABLE.**—

(1) **CHARACTERISTICS OF BONDS.**—This section shall apply only to a bond issued under the Second Liberty Bond Act, as amended, which by its terms, or by regulations prescribed by the Secretary under such Act—

(A) provides for payment of interest, or investment yield, only upon redemption;

(B) may be purchased only in the name of an individual;

(C) ceases to bear interest, or provide investment yield, not later than 5 years after the death of the individual in whose name it is purchased;

(D) may be redeemed before the death of the individual in whose name it is purchased only if such individual—

(i) has attained the age of 59½ years, or

(ii) has become disabled (within the meaning of section 213(g) (3)); and

(E) is nontransferable.

(2) **MUST BE PURCHASED IN NAME OF EMPLOYEE.**—This section shall apply to a bond described in paragraph (1) only if it is purchased in the name of the employee.

(c) **DEDUCTION FOR CONTRIBUTIONS TO BOND PURCHASE PLANS.**—Contributions paid by an employer to or under a qualified bond purchase plan shall be allowed as a deduction in an amount determined under section 404 in the same manner and to the same extent as if such contributions were made to a trust described in section 401(a) which is exempt from tax under section 501(a).

(d) **TAXABILITY OF BENEFICIARY OF QUALIFIED BOND PURCHASE PLAN.**—

(1) **GROSS INCOME NOT TO INCLUDE BONDS AT TIME OF DISTRIBUTION.**—For purposes of this chapter, in the case of a distributee of a bond described in subsection (b) under a qualified bond purchase plan, or from a trust described in section 401(a) which is exempt from tax under section 501(a), gross income does not include any amount attributable to the receipt of such bond. Upon redemption of such bond, the proceeds shall be subject to taxation under this chapter, but the provisions of section 72 (relating to annuities, etc.) and section 1232 (relating to bonds and other evidences of indebtedness) shall not apply.

(2) **BASIS.**—The basis of any bond received by a distributee under a qualified bond purchase plan—

(A) if such bond is distributed to an employee, or with respect to an employee, who at the time of purchase of the bond, was an employee other than an employee within the meaning of section 401(c)(1), shall be the amount of the contributions by the employee which were used to purchase the bond, and

(B) if such bond is distributed to an employee, or with respect to an employee, who, at the time of purchase of the bond, was an employee within the meaning of section 401(c)(1), shall be the amount of the contributions used to purchase the bond which were made on behalf of such employee and were not allowed as a deduction under subsection (c).

The basis of any bond described in subsection (b) received by a distributee from a trust described in section 401(a) which is exempt from tax under section 501(a) shall be determined under regulations prescribed by the Secretary or his delegate.

(e) **CAPITAL GAINS TREATMENT NOT TO APPLY TO BONDS DISTRIBUTED BY TRUSTS.**—Section 402(a)(2) shall not apply to any bond described in subsection (b) distributed to any distributee and, for purposes of applying such section, any such bond distributed to any distributee and any such bond to the credit of any employee shall not be taken into account.

(f) **EMPLOYEE DEFINED.**—For purposes of this section, the term “employee” includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual shall be the person treated as his employer under section 401(c)(4).

(g) **PROOF OF PURCHASE.**—At the time of purchase of any bond to which this section applies, proof of such purchase shall be furnished in such form as will enable the purchaser, and the employee in whose name such bond is purchased, to comply with the provisions of this section.

(h) **REGULATION.**—The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the provisions of this section.

(b) **CLERICAL AMENDMENT.**—The table of sections for such part is amended by adding at the end thereof the following new item:

Sec. 405. Qualified bond purchase plans.

SEC. 6. PROHIBITED TRANSACTIONS.

Section 503 of the Internal Revenue Code of 1954 (relating to prohibited transactions) is amended by adding at the end thereof the following new subsection:

(j) **TRUSTS BENEFITING CERTAIN OWNER-EMPLOYEES.**—

(1) **PROHIBITED TRANSACTIONS.**—In the case of a trust described in section 401(a) which is part of a plan providing contributions or benefits for employees some or all of whom are owner-employees (as defined in section 401(c)(3)) who control (within the meaning of section 401(d)(9)(B)) the trade or business with respect to which the plan is established, the term “prohibited transaction” also means any transaction in which such trust, directly or indirectly—

(A) lends any part of the corpus or income of the trust to;

(B) pays any compensation for personal services rendered to the trust to;

(C) makes any part of its services available on a preferential basis to; or

(D) acquires for the trust any property from, or sells any property to;

any person described in subsection (c) or to any such owner-employee, a member of the family (as defined in section 267(c)(4)) of any such owner-employee, or a corporation controlled by any such owner-employee through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

(2) **SPECIAL RULE FOR LOANS.**—For purposes of the application of paragraph (1)(A), the following rules shall apply with respect to a loan made before the date of the enactment of this subsection which would be a pro-

hibited transaction if made in a taxable year beginning after December 31, 1962:

(A) If any part of the loan is repayable prior to December 31, 1965, the renewal of such part of the loan for a period not extending beyond December 31, 1965, on the same terms, shall not be considered a prohibited transactions.

(B) If the loan is repayable on demand, the continuation of the loan beyond December 31, 1965, shall be considered a prohibited transaction.

SEC. 7. OTHER SPECIAL RULES, TECHNICAL CHANGES, AND ADMINISTRATIVE PROVISIONS.

(a) **RETIREMENT INCOME CREDIT.**—Section 37(c) (1) of the Internal Revenue Code of 1954 (relating to definition of retirement income) is amended—

(1) by striking out subparagraph (A) and inserting in lieu thereof the following:

(A) pensions and annuities (including, in the case of an individual who is, or has been, an employee within the meaning of section 401(c) (1), distributions by a trust described in section 401(a) which is exempt from tax under section 501(a)); and

(2) by striking out “and” at the end of subparagraph (C), by striking out “or” at the end of subparagraph (D) and inserting in lieu thereof “and”, and by adding after subparagraph (D) the following new subparagraph:

(E) bonds described in section 405(b) (1) which are received under a qualified bond purchase plan described in section 405(a) or in a distribution from a trust described in section 401(a) which is exempt from tax under section 501(a), or.

(b) **ADJUSTED GROSS INCOME.**—Section 62 of the Internal Revenue Code of 1954 (relating to the definition of adjusted gross income) is amended by inserting after paragraph (6) the following new paragraph:

(7) **PENSION, PROFIT-SHARING, ANNUITY, AND BOND PURCHASE PLANS OF SELF-EMPLOYED INDIVIDUALS.**—In the case of an individual who is an employee within the meaning of section 401(c) (1), the deductions allowed by section 404 and section 405(c) to the extent attributable to contributions made on behalf of such individual.

(c) **DEATH BENEFITS.**—Section 101(b) of the Internal Revenue Code of 1954 (relating to employees' death benefits) is amended—

(1) by striking out clause (ii) of paragraph (2) (B) and inserting in lieu thereof the following:

“(ii) under an annuity contract under a plan described in section 403(a), or”; and

(2) by adding at the end thereof the following new paragraph:

(3) **SELF-EMPLOYED INDIVIDUAL NOT CONSIDERED AN EMPLOYEE.**—For purposes of this subsection the term “employee” does not include an individual who is an employee within the meaning of section 401(c) (1) (relating to self-employed individuals).

(d) **AMOUNTS RECEIVED THROUGH ACCIDENT OR HEALTH INSURANCE.**—Section 104(a) of the Internal Revenue Code of 1954 (relating to compensation for injuries or sickness) is amended by adding at the end thereof the following new sentence:

For purposes of paragraph (3), in the case of an individual who is, or has been, an employee within the meaning of section 401(c) (1) (relating to self-

employed individuals), contributions made on behalf of such individual while he was such an employee to a trust described in section 401(a) which is exempt from tax under section 501(a), or under a plan described in section 403(a), shall, to the extent allowed as deductions under section 404, be treated as contributions by the employer which were not includible in the gross income of the employee.

(e) **AMOUNTS RECEIVED UNDER ACCIDENT AND HEALTH PLANS.**—Section 105 of the Internal Revenue Code of 1954 (relating to amounts received under accident and health plans) is amended by adding at the end thereof the following new subsection:

(g) **SELF-EMPLOYED INDIVIDUAL NOT CONSIDERED AN EMPLOYEE.**—For purposes of this section, the term "employee" does not include an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

(f) **NET OPERATING LOSS DEDUCTION.**—Section 172(d)(4) of the Internal Revenue Code of 1954 (relating to nonbusiness deductions of taxpayers other than corporations) is amended—

- (1) by striking out "and" at the end of subparagraph (B);
- (2) by striking out the period at the end of subparagraph (C) and inserting "; and"; and
- (3) by adding after subparagraph (C) the following new subparagraph:

(D) any deduction allowed under section 404 or section 405(c) to the extent attributable to contributions which are made on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall not be treated as attributable to the trade or business of such individual.

(g) **CERTAIN LIFE INSURANCE RESERVES.**—Section 805(d)(1) of the Internal Revenue Code of 1954 (relating to pension plan reserves) is amended—

- (1) by striking out in subparagraph (B) "meeting the requirements of section 401(a) (3), (4), (5), and (6) or" and inserting in lieu thereof "described in section 403(a), or plans meeting"; and
- (2) by striking out in subparagraph (C) "and (6)" and inserting in lieu thereof "(6), (7), and (8)".

(h) **UNINCORPORATED BUSINESSES ELECTING TO BE TAXED AS CORPORATIONS.**—Section 1361(d) of the Internal Revenue Code of 1954 (relating to unincorporated business enterprises electing to be taxed as domestic corporations) is amended by inserting before the period at the end thereof the following: "other than an employee within the meaning of section 401(c)(1) (relating to self-employed individuals), or for purposes of section 405 (relating to qualified bond purchase plans) other than an employee described in section 405(f)".

(i) **ESTATE TAX EXEMPTION OF EMPLOYEES' ANNUITIES.**—Section 2039 of the Internal Revenue Code of 1954 (relating to exemption from the gross estate of annuities under certain trusts and plans) is amended—

- (1) by striking out in subsection (c)(2) "met the requirements of section 401(a) (3), (4), (5), and (6)" and inserting "was a plan described in section 403(a)"; and
- (2) by adding at the end of subsection (c) the following new sentence: "For purposes of this subsection, contributions or payments on behalf of the decedent while he was an employee within

the meaning of section 401(c)(1) made under a trust or plan described in paragraph (1) or (2) shall be considered to be contributions or payments made by the decedent."

(j) **GIFT TAX EXEMPTION OF EMPLOYEES' ANNUITIES.**—Section 2517 of the Internal Revenue Code of 1954 (relating to exclusion from gift tax in case of certain annuities under qualified plans) is amended—

(1) by striking out in subsection (a)(2) "met the requirements of section 401(a)(3), (4), (5), and (6)" and inserting in lieu thereof "was a plan described in section 403(a)"; and

(2) by adding at the end of subsection (b) the following new sentence: "For purposes of this subsection, payments or contributions on behalf of an individual while he was an employee within the meaning of section 401(c)(1) made under a trust or plan described in subsection (a)(1) or (2) shall be considered to be payments or contributions made by the employee."

(k) **FEDERAL UNEMPLOYMENT TAX ACT.**—Section 3306(b)(5) of the Internal Revenue Code of 1954 (relating to definition of wages) is amended by striking out subparagraph (B) and inserting in lieu thereof the following new subparagraphs:

(B) under or to an annuity plan which, at the time of such payment, is a plan described in section 403(a); or

(C) under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in section 405(a).

(l) **WITHHOLDING OF INCOME TAX.**—Section 3401(a)(12) of the Internal Revenue Code of 1954 (relating to definition of wages) is amended by striking out subparagraph (B) and inserting in lieu thereof the following new subparagraphs:

(B) under or to an annuity plan which, at the time of such payment, is a plan described in section 403(a); or

(C) under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in section 405(a).

(m) **INFORMATION REQUIREMENTS.**—

(1) **IN GENERAL.**—Subpart B of part III of subchapter A of chapter 61 of the Internal Revenue Code of 1954 (relating to information concerning transactions with other persons) is amended by adding after section 6046 the following new section:

SEC. 6047. INFORMATION RELATING TO CERTAIN TRUSTS AND ANNUITY AND BOND PURCHASE PLANS.

(a) **TRUSTEES AND INSURANCE COMPANIES.**—The trustee of a trust described in section 401(a) which is exempt from tax under section 501(a) to which contributions have been paid under a plan on behalf of any owner-employee (as defined in section 401(c)(3)), and each insurance company or other person which is the issuer of a contract purchased by such a trust, or purchased under a plan described in section 403(a), contributions for which have been paid on behalf of any owner-employee, shall file such returns (in such form and at such times), keep such records, make such identification of contracts and funds (and accounts within such funds), and supply such information, as the Secretary or his delegate shall by forms or regulations prescribe.

(b) **OWNER-EMPLOYEES.**—Every individual on whose behalf contributions have been paid as an owner-employee (as defined in section 401(c)(3))—

(1) to a trust described in section 401(a) which is exempt from tax under section 501(a), or

(2) to an insurance company or other person under a plan described in section 403(a),

shall furnish the trustee, insurance company, or other person, as the case may be, such information at such times and in such form and manner as the Secretary or his delegate shall prescribe by forms or regulations.

(c) **EMPLOYEES UNDER QUALIFIED BOND PURCHASE PLANS.**—Every individual in whose name a bond described in section 405(b) (1) is purchased by his employer under a qualified bond purchase plan described in section 405(a), or by a trust described in section 401(a) which is exempt from tax under section 501(a), shall furnish—

(1) to his employer or to such trust, and

(2) to the Secretary (or to such person as the Secretary may by regulations prescribe),
such information as the Secretary or his delegate shall by forms or regulations prescribe.

(d) **CROSS REFERENCE.**—For criminal penalty for furnishing fraudulent information, see section 7207.

(2) **CLERICAL AMENDMENT.**—The table of sections for such subpart B is amended by adding after the reference to section 6046 the following:

Sec. 6047. Information relating to certain trusts and annuity and bond purchase plans.

(3) **PENALTY.**—Section 7207 of the Internal Revenue Code of 1954 (relating to fraudulent returns, statements, or other documents) is amended by adding at the end thereof the following new sentence: "Any person required pursuant to section 6047 (b) or (c) to furnish any information to the Secretary or any other person who willfully furnishes to the Secretary or such other person any information known by him to be fraudulent or to be false as to any material matter shall be fined not more than \$1,000, or imprisoned not more than 1 year, or both."

SEC. 8. EFFECTIVE DATE.

The amendments made by this Act shall apply to taxable years beginning after December 31, 1962.

Approved October 10, 1962.

PUBLIC LAW 87-794 EIGHTY-SEVENTH CONGRESS, OCTOBER 11, 1962 H.R. 11970¹⁶

An Act to promote the general welfare, foreign policy, and security of the United States through international trade agreements and through adjustment assistance to domestic industry, agriculture, and labor, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—SHORT TITLE AND PURPOSES

SEC. 101. SHORT TITLE.

This Act may be cited as the "Trade Expansion Act of 1962".

* * * * *

¹⁶ This publication of the law is restricted to excerpts involving internal revenue matters; House Report No. 1818, page 397, this Bulletin; Conference Report No. 2518, page 401, this Bulletin; Senate Report No. 2059 is not published herein.

TITLE III—TARIFF ADJUSTMENT AND OTHER ADJUSTMENT ASSISTANCE

* * * * *

SEC. 317. TAX ASSISTANCE.

(a) If—

(1) to carry out an adjustment proposal of a firm certified pursuant to section 311, such firm applies for tax assistance under this section within 24 months after the close of a taxable year and alleges in such application that it has sustained a net operating loss for such taxable year,

(2) the Secretary of Commerce determines that any such alleged loss for such taxable year arose predominantly out of the carrying on of a trade or business which was seriously injured, during such year, by the increased imports which the Tariff Commission has determined to result from concessions granted under trade agreements, and

(3) the Secretary of Commerce determines that tax assistance under this section will materially contribute to the economic adjustment of the firm,

then the Secretary of Commerce shall certify such determinations with respect to such firm for such taxable year. No determination or certification under this subsection shall constitute a determination of the existence or amount of any net operating loss for purposes of section 172 of the Internal Revenue Code of 1954.

(b) Effective with respect to net operating losses for taxable years ending after December 31, 1955, subsection (b) of section 172 of the Internal Revenue Code of 1954 (relating to net operating loss carrybacks and carryovers) is amended to read as follows:

(b) NET OPERATING LOSS CARRYBACKS AND CARRYOVERS.—

(1) YEARS TO WHICH LOSS MAY BE CARRIED.—

(A) (i) Except as provided in clause (ii), a net operating loss for any taxable year ending after December 31, 1957, shall be a net operating loss carryback to each of the 3 taxable years preceding the taxable year of such loss.

(ii) In the case of a taxpayer with respect to a taxable year ending on or after December 31, 1962, for which a certification has been issued under section 317 of the Trade Expansion Act of 1962, a net operating loss for such taxable year shall be a net operating loss carryback to each of the 5 taxable years preceding the taxable year of such loss.

(B) Except as provided in subparagraph (C), a net operating loss for any taxable year ending after December 31, 1955, shall be a net operating loss carryover to each of the 5 taxable years following the taxable year of such loss.

(C) In the case of a taxpayer which is a regulated transportation corporation (as defined in subsection (j) (1)), a net operating loss for any taxable year ending after December 31, 1955, shall (except as provided in subsection (j)) be a net operating loss carryover to each of the 7 taxable years following the taxable year of such loss.

(2) **AMOUNT OF CARRYBACKS AND CARRYOVERS.**—Except as provided in subsections (i) and (j), the entire amount of the net operating loss for any taxable year (hereinafter in this section referred to as the "loss year") shall be carried to the earliest of the taxable years to which (by reason of paragraph (1)) such loss may be carried. The portion of such loss which shall be carried to each of the other taxable years shall be the excess, if any, of the amount of such loss over the sum of the taxable income for each of the prior taxable years to which such loss may be carried. For purposes of the preceding sentence, the taxable income for any such prior taxable year shall be computed—

(A) with the modifications specified in subsection (d) other than paragraphs (1), (4), and (6) thereof; and

(B) by determining the amount of the net operating loss deduction without regard to the net operating loss for the loss year or for any taxable year thereafter,

and the taxable income so computed shall not be considered to be less than zero.

(3) SPECIAL RULES.—

(A) Paragraph (1) (A) (ii) shall apply only if—

(i) there has been filed, at such time and in such manner as may be prescribed by the Secretary or his delegate, a notice of filing of the application under section 317 of the Trade Expansion Act of 1962 for tax assistance, and, after its issuance, a copy of the certification under such section, and

(ii) the taxpayer consents in writing to the assessment, within such period as may be agreed upon with the Secretary or his delegate, of any deficiency for any year to the extent attributable to the disallowance of a deduction previously allowed with respect to such net operating loss, even though at the time of filing such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

(B) In the case of—

(i) a partnership and its partners, or

(ii) an electing small business corporation under subchapter S and its shareholders,

paragraph (1) (A) (ii) shall apply as determined under regulations prescribed by the Secretary or his delegate. Such paragraph shall apply to a net operating loss of a partner or such a shareholder only if it arose predominantly from losses in respect of which certifications under section 317 of the Trade Expansion Act of 1962 were filed under this section.

(c) Subsection (h) of section 6501 of the Internal Revenue Code of 1954 (relating to limitations on assessment and collection in the case of net operating loss carrybacks) is amended by inserting before the period: “, or within 18 months after the date on which the taxpayer files in accordance with section 172(b) (3) a copy of the certification (with respect to such taxable year) issued under section 317 of the Trade Expansion Act of 1962, whichever is later”.

(d) Section 6511(d) (2) (A) of the Internal Revenue Code of 1954 (relating to special period of limitation on credit or refund with respect to net operating loss carrybacks) is amended to read as follows:

(A) PERIOD OF LIMITATION.—If the claim for credit or refund relates to an overpayment attributable to a net operating loss carryback, in lieu of the 3-year period of limitation prescribed in subsection (a), the period shall be that period which ends with the expiration of the 15th day of the 40th month (or the 39th month, in the case of a corporation) following the end of the taxable year of the net operating loss which results in such carryback, or the period prescribed in subsection (c), in respect of such taxable year, whichever expires later; except that—

(i) with respect to an overpayment attributable to a net operating loss carryback to any year on account of a certification issued to the taxpayer under section 317 of the Trade Expansion Act of 1962, the period shall not expire before the expiration of the sixth month following the month in which such certification is issued to the taxpayer, and

(ii) with respect to an overpayment attributable to the creation of, or an increase in, a net operating loss carryback as a result of the elimination of excessive profits by a renegotiation (as defined in section 1481(a) (1) (A)), the period shall not expire before September 1, 1959, or the expiration of the twelfth month following the month in which the agreement or order for the elimination of such excessive profits becomes final, whichever is the later.

In the case of such a claim, the amount of the credit or refund may exceed the portion of the tax paid within the period provided in subsection (b) (2) or (c), whichever is applicable, to the extent of the amount of the overpayment attributable to such carryback.

SEC. 318. PROTECTIVE PROVISIONS.

(a) Each recipient of adjustment assistance under section 313, 314, or 317 shall keep records which fully disclose the amount and disposition by such recipient of the proceeds, if any, of such adjustment assistance, and which will facilitate an effective audit. The recipient shall also keep such other records as the Secretary of Commerce may prescribe.

(b) The Secretary of Commerce and the Comptroller General of the United States shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient pertaining to adjustment assistance under sections 313, 314, and 317.

(c) No adjustment assistance shall be extended under section 313, 314, or 317 to any firm unless the owners, partners, or officers certify to the Secretary of Commerce—

(1) the names of any attorneys, agents, and other persons engaged by or on behalf of the firm for the purpose of expediting applications for such adjustment assistance, and

(2) the fees paid or to be paid to any such person.

(d) No financial assistance shall be provided to any firm under section 314 unless the owners, partners, or officers shall execute an agreement binding them and the firm for a period of 2 years after such financial assistance is provided, to refrain from employing, tendering any office or employment to, or retaining for professional services any person who, on the date such assistance or any part thereof was provided, or within one year prior thereto, shall have served as an officer, attorney, agent, or employee occupying a position or engaging in activities which the Secretary of Commerce shall have determined involve discretion with respect to the provision of such financial assistance.

* * * * *

SEC. 323. WEEKLY AMOUNTS.

* * * * *

(g) (1) If unemployment insurance is paid under a State law to an adversely affected worker for a week for which—

(A) he receives a trade readjustment allowance, or

(B) he makes application for a trade readjustment allowance and would be entitled (determined without regard to subsection

(c) or (e)) to receive such allowance,

the State agency making such payment shall, unless it has been reimbursed for such payment under other Federal law, be reimbursed from funds appropriated pursuant to section 337, to the extent such payment does not exceed the amount of the trade readjustment allowance which such worker would have received, or would have been entitled to receive, as the case may be, if he had not received the State payment. The amount of such reimbursement shall be determined by the Secretary of Labor on the basis of reports furnished to him by the State agency.

(2) In any case in which a State agency is reimbursed under paragraph (1) for payments of unemployment insurance made to an adversely affected worker, such payments, and the period of unemploy-

ment of such worker for which such payments were made, may be disregarded under the State law (and for purposes of applying section 3303 of the Internal Revenue Code of 1954) in determining whether or not an employer is entitled to a reduced rate of contributions permitted by the State law.

* * * * *

SEC. 338. DEFINITIONS.

For purposes of this chapter—

* * * * *

(10) The term "State law" means the unemployment insurance law of the State approved by the Secretary of Labor under section 3304 of the Internal Revenue Code of 1954.

(c) **AMENDMENT OF 1954 CODE.**—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SEC. 2. CREDIT FOR INVESTMENT IN CERTAIN DEPRECIABLE PROPERTY.

(a) **ALLOWANCE OF CREDIT.**—Part IV of subchapter A of chapter 1 (relating to credits against tax) is amended by redesignating section 38 as section 39 and by inserting after section 37 the following new section:

SEC. 38. INVESTMENT IN CERTAIN DEPRECIABLE PROPERTY.

(a) **GENERAL RULE.**—There shall be allowed, as a credit against the tax imposed by this chapter, the amount determined under subpart B of this part.

(b) **REGULATIONS.**—The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this section and subpart B.

(b) **RULES FOR COMPUTING CREDIT.**—Part IV of subchapter A of chapter 1 is amended by adding at the end thereof the following new subpart:

Subpart B—Rules for Computing Credit for Investment in Certain Depreciable Property

Sec. 46. Amount of credit.

Sec. 47. Certain dispositions, etc., of section 38 property.

Sec. 48. Definitions; special rules.

SEC. 46. AMOUNT OF CREDIT.

(a) DETERMINATION OF AMOUNT.—

(1) **GENERAL RULE.**—The amount of the credit allowed by section 38 for the taxable year shall be equal to 7 percent of the qualified investment (as defined in subsection (c)).

(2) **LIMITATION BASED ON AMOUNT OF TAX.**—Notwithstanding paragraph (1), the credit allowed by section 38 for the taxable year shall not exceed—

(A) so much of the liability for tax for the taxable year as does not exceed \$25,000, plus

(B) 25 percent of so much of the liability for tax for the taxable year as exceeds \$25,000.

(3) **LIABILITY FOR TAX.**—For purposes of paragraph (2), the liability for tax for the taxable year shall be the tax imposed by this chapter for such year, reduced by the sum of the credits allowable under—

(A) section 33 (relating to foreign tax credit),

(B) section 34 (relating to dividends received by individuals),

(C) section 35 (relating to partially tax-exempt interest), and

(D) section 37 (relating to retirement income).

For purposes of this paragraph, any tax imposed for the taxable year by section 531 (relating to accumulated earnings tax) or by section 541 (relating to personal holding company tax) shall not be considered tax imposed by this chapter for such year.

(4) **MARRIED INDIVIDUALS.**—In the case of a husband or wife who files a separate return, the amount specified under subparagraphs (A) and (B) of paragraph (2) shall be \$12,500 in lieu of \$25,000. This paragraph shall not apply if the spouse of the taxpayer has no qualified investment for, and no unused credit carryback or carryover to, the taxable year of such spouse which ends within or with the taxpayer's taxable year.

(5) **AFFILIATED GROUPS.**—In the case of an affiliated group, the \$25,000 amount specified under subparagraphs (A) and (B) of paragraph (2) shall

be reduced for each member of the group by apportioning \$25,000 among the members of such group in such manner as the Secretary or his delegate shall by regulations prescribe. For purposes of the preceding sentence, the term "affiliated group" has the meaning assigned to such term by section 1504(a), except that all corporations shall be treated as includible corporations (without any exclusion under section 1504(b)).

(b) CARRYBACK AND CARRYOVER OF UNUSED CREDITS.—

(1) ALLOWANCE OF CREDIT.—If the amount of credit determined under subsection (a) (1) for any taxable year exceeds the limitation provided by subsection (a) (2) for such taxable year (hereinafter in this subsection referred to as "unused credit year"), such excess shall be—

(A) An investment credit carryback to each of the 3 taxable years preceding the unused credit year, and

(B) an investment credit carryover to each of the 5 taxable years following the unused credit year,

and shall be added to the amount allowable as a credit by section 38 for such years, except that such excess may be a carryback only to a taxable year ending after December 31, 1961. The entire amount of the unused credit for an unused credit year shall be carried to the earliest of the 8 taxable years to which (by reason of subparagraphs (A) and (B)) such credit may be carried, and then to each of the other 7 taxable years to the extent that, because of the limitation contained in paragraph (2), such unused credit may not be added for a prior taxable year to which such unused credit may be carried.

(2) LIMITATION.—The amount of the unused credit which may be added under paragraph (1) for any preceding or succeeding taxable year shall not exceed the amount by which the limitation provided by subsection (a) (2) for such taxable year exceeds the sum of—

(A) the credit allowable under subsection (a) (1) for such taxable year, and

(B) the amounts which, by reason of this subsection, are added to the amount allowable for such taxable year and attributable to taxable years preceding the unused credit year.

(3) EFFECT OF NET OPERATING LOSS CARRYBACK.—To the extent that the excess described in paragraph (1) arises by reason of a net operating loss carryback, subparagraph (A) of paragraph (1) shall not apply.

(4) TAXABLE YEAR BEGINNING BEFORE JANUARY 1, 1962.—For purposes of determining the amount of an investment credit carryback that may be added under paragraph (1) for a taxable year beginning before January 1, 1962, and ending after December 31, 1961, the amount of the limitation provided by subsection (a) (2) is the amount which bears the same ratio to such limitation as the number of days in such year after December 31, 1961, bears to the total number of days in such year.

(c) QUALIFIED INVESTMENT.—

(1) IN GENERAL.—For purposes of this subpart, the term "qualified investment" means, with respect to any taxable year, the aggregate of—

(A) the applicable percentage of the basis of each new section 38 property (as defined in section 48(b)) placed in service by the taxpayer during such taxable year, plus

(B) the applicable percentage of the cost of each used section 38 property (as defined in section 48(c) (1)) placed in service by the taxpayer during such taxable year.

(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage for any property shall be determined under the following table:

If the useful life is—	The applicable percentage is—
4 years or more but less than 6 years.....	33 $\frac{1}{3}$
6 years or more but less than 8 years.....	66 $\frac{2}{3}$
8 years or more.....	100

For purposes of this paragraph, the useful life of any property shall be determined as of the time such property is placed in service by the taxpayer.

(3) PUBLIC UTILITY PROPERTY.—

(A) In the case of section 38 property which is public utility property, the amount of the qualified investment shall be $\frac{3}{7}$ of the amount determined under paragraph (1).

(B) For purposes of subparagraph (A), the term 'public utility property' means property used predominantly in the trade or business of the furnishing or sale of—

(i) electrical energy, water, or sewage disposal services,

(ii) gas through a local distribution system,

(iii) telephone service, or

(iv) telegraph service by means of domestic telegraph operations (as defined in section 222(a)(5) of the Communications Act of 1934, as amended; 47 U.S.C., sec. 222(a)(5)),

if the rates for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof, by an agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of any State or political subdivision thereof.

(4) CERTAIN REPLACEMENT PROPERTY.—For purposes of paragraph (1), if section 38 property is placed in service by the taxpayer to replace property which was—

(A) destroyed or damaged by fire, storm, shipwreck, or other casualty, or

(B) stolen,

the basis of such section 38 property (in the case of new section 38 property), or the cost of such section 38 property (in the case of used section 38 property), which (but for this paragraph) would be taken into account under paragraph (1) shall be reduced by an amount equal to the amount received by the taxpayer as compensation, by insurance or otherwise, for the property so destroyed, damaged, or stolen, or to the adjusted basis of such property, whichever is the lesser. No reduction in basis or cost shall be made under the preceding sentence in any case in which the reduction in qualified investment attributable to the substitution required by section 47(a)(1) with respect to the property so destroyed, damaged, or stolen (determined without regard to section 47(a)(4)) is greater than the reduction described in the preceding sentence.

(d) LIMITATIONS WITH RESPECT TO CERTAIN PERSONS.—

(1) IN GENERAL.—In the case of—

(A) an organization to which section 593 applies,

(B) a regulated investment company or a real estate investment trust subject to taxation under subchapter M (sec. 851 and following), and

(C) a cooperative organization described in section 1381(a),

the qualified investment and the \$25,000 amount specified under subparagraphs (A) and (B) of subsection (a)(2) shall equal such person's ratable share of such items.

(2) RATABLE SHARE.—For purposes of paragraph (1), the ratable share of any person for any taxable year of the items described therein shall be—

(A) in the case of an organization referred to in paragraph (1) (A), 50 percent thereof,

(B) in the case of a regulated investment company or a real estate investment trust, the ratio (i) the numerator of which is its taxable income and (ii) the denominator of which is its taxable income computed without regard to the deduction for dividends paid provided by section 852(b)(2) (D) or 857(b)(2)(C), as the case may be, and

(C) in the case of a cooperative organization, the ratio (i) the numerator of which is its taxable income and (ii) the denominator of which is its taxable income increased by amounts to which section 1382 (b) or (c) applies and similar amounts the tax treatment of which is determined without regard to subchapter T (sec. 1381 and following).

For purposes of subparagraph (B) of the preceding sentence, the term "taxable income" means in the case of a regulated investment company its

investment company taxable income (within the meaning of section 852(b) (2)), and in the case of a real estate investment trust its real estate investment trust taxable income (within the meaning of section 857(b) (2)).

SEC. 47. CERTAIN DISPOSITIONS, ETC., OF SECTION 38 PROPERTY.

(a) GENERAL RULE.—Under regulations prescribed by the Secretary or his delegate—

(1) EARLY DISPOSITION, ETC.—If during any taxable year any property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer, before the close of the useful life which was taken into account in computing the credit under section 38, then the tax under this chapter for such taxable year shall be increased by an amount equal to the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from substituting, in determining qualified investment, for such useful life the period beginning with the time such property was placed in service by the taxpayer and ending with the time such property ceased to be section 38 property.

(2) PROPERTY BECOMES PUBLIC UTILITY PROPERTY.—If during any taxable year any property taken into account in determining qualified investment becomes public utility property (within the meaning of section 46(c) (3) (B)), then the tax under this chapter for such taxable year shall be increased by an amount equal to the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from treating the property, for purposes of determining qualified investment, as public utility property (after giving due regard to the period before such change in use). If the application of this paragraph to any property is followed by the application of paragraph (1) to such property, proper adjustment shall be made in applying paragraph (1).

(3) CARRYBACKS AND CARRYOVERS ADJUSTED.—In the case of any cessation described in paragraph (1) or any change in use described in paragraph (2), the carrybacks and carryovers under section 46(b) shall be adjusted by reason of such cessation (or change in use).

(4) PROPERTY DESTROYED BY CASUALTY, ETC.—No increase shall be made under paragraph (1) and no adjustment shall be made under paragraph (3) in any case in which—

(A) any property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer, on account of its destruction or damage by fire, storm, shipwreck, or other casualty, or by reason of its theft,

(B) section 38 property is placed in service by the taxpayer to replace the property described in subparagraph (A), and

(C) the reduction in basis or cost of such section 38 property described in the first sentence of section 46(c) (4) is equal to or greater than the reduction in qualified investment which (but for this paragraph) would be made by reason of the substitution required by paragraph (1) with respect to the property described in subparagraph (A).

(b) SECTION NOT TO APPLY IN CERTAIN CASES.—Subsection (a) shall not apply to—

(1) a transfer by reason of death, or

(2) a transaction to which section 381(a) applies.

For purposes of subsection (a), property shall not be treated as ceasing to be section 38 property with respect to the taxpayer by reason of a mere change in the form of conducting the trade or business so long as the property is retained in such trade or business as section 38 property and the taxpayer retains a substantial interest in such trade or business.

(c) SPECIAL RULE.—Any increase in tax under subsection (a) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit allowable under subpart A.

SEC. 48. DEFINITIONS; SPECIAL RULES.

(a) SECTION 38 PROPERTY.—

(1) IN GENERAL.—Except as provided in this subsection, the term "section 38 property" means—

(A) tangible personal property, or

(B) other tangible property (not including a building and its structural components) but only if such property—

(i) is used as an integral part of manufacturing, production, or extraction or of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services, or

(ii) constitutes a research or storage facility used in connection with any of the activities referred to in clause (i).

Such term includes only property with respect to which depreciation (or amortization in lieu of depreciation) is allowable and having a useful life (determined as of the time such property is placed in service) of 4 years or more.

(2) PROPERTY USED OUTSIDE THE UNITED STATES.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the term “section 38 property” does not include property which is used predominantly outside the United States.

(B) EXCEPTIONS.—Subparagraph (A) shall not apply to—

(i) any aircraft which is registered by the Administrator of the Federal Aviation Agency and which is operated to and from the United States;

(ii) rolling stock, of a domestic railroad corporation subject to part I of the Interstate Commerce Act, which is used within and without the United States;

(iii) any vessel documented under the laws of the United States which is operated in the foreign or domestic commerce of the United States;

(iv) any motor vehicle of a United States person (as defined in section 7701(a)(30)) which is operated to and from the United States;

(v) any container of a United States person which is used in the transportation of property to and from the United States; and

(vi) any property (other than a vessel or an aircraft) of a United States person which is used for the purpose of exploring for, developing, removing, or transporting resources from the outer Continental Shelf (within the meaning of section 2 of the Outer Continental Shelf Lands Act, as amended and supplemented: 43 U.S.C., sec. 1331).

(3) PROPERTY USED FOR LODGING.—Property which is used predominantly to furnish lodging or in connection with the furnishing of lodging shall not be treated as section 38 property. The preceding sentence shall not apply to—

(A) nonlodging commercial facilities which are available to persons not using the lodging facilities on the same basis as they are available to persons using the lodging facilities, and

(B) property used by a hotel or motel in connection with the trade or business of furnishing lodging where the predominant portion of the accommodations is used by transients.

(4) PROPERTY USED BY CERTAIN TAX-EXEMPT ORGANIZATIONS.—Property used by an organization (other than a cooperative described in section 521) which is exempt from the tax imposed by this chapter shall be treated as section 38 property only if such property is used predominantly in an unrelated trade or business the income of which is subject to tax under section 511.

(5) PROPERTY USED BY GOVERNMENTAL UNITS.—Property used by the United States, any State or political subdivision thereof, any international organization, or any agency or instrumentality of any of the foregoing shall not be treated as section 38 property.

(6) LIVESTOCK.—Livestock shall not be treated as section 38 property.

(b) NEW SECTION 38 PROPERTY.—For purposes of this subpart, the term “new section 38 property” means section 38 property—

(1) The construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1961, or

(2) Acquired after December 31, 1961, if the original use of such property commences with the taxpayer and commences after such date.

In applying section 46(c)(1)(A) in the case of property described in paragraph (1), there shall be taken into account only that portion of the basis which is

properly attributable to construction, reconstruction, or erection after December 31, 1961.

(c) USED SECTION 38 PROPERTY.—

(1) IN GENERAL.—For purposes of this subpart, the term “used section 38 property” means section 38 property acquired by purchase after December 31, 1961, which is not new section 38 property. Property shall not be treated as “used section 38 property” if, after its acquisition by the taxpayer, it is used by a person who used such property before such acquisition (or by a person who bears a relationship described in section 179(d)(2) (A) or (B) to a person who used such property before such acquisition).

(2) DOLLAR LIMITATION.—

(A) IN GENERAL.—The cost of used section 38 property taken into account under section 46(c)(1)(B) for any taxable year shall not exceed \$50,000. If such cost exceeds \$50,000, the taxpayer shall select (at such time and in such manner as the Secretary or his delegate shall by regulations prescribe) the items to be taken into account, but only to the extent of an aggregate cost of \$50,000. Such a selection, once made may be changed only in the manner, and to the extent, provided by such regulations.

(B) MARRIED INDIVIDUALS.—In the case of a husband or wife who files a separate return, the limitation under subparagraph (A) shall be \$25,000 in lieu of \$50,000. This subparagraph shall not apply if the spouse of the taxpayer has no used section 38 property which may be taken into account as qualified investment for the taxable year of such spouse which ends within or with the taxpayer's taxable year.

(C) AFFILIATED GROUPS.—In the case of an affiliated group, the \$50,000 amount specified under subparagraph (A) shall be reduced for each member of the group by apportioning \$50,000 among the members of such group in accordance with their respective amounts of used section 38 property which may be taken into account.

(D) PARTNERSHIPS.—In the case of a partnership, the limitation contained in subparagraph (A) shall apply with respect to the partnership and with respect to each partner.

(3) DEFINITIONS.—For purposes of this subsection—

(A) PURCHASE.—The term “purchase” has the meaning assigned to such term by section 179(d)(2).

(B) COST.—The cost of used section 38 property does not include so much of the basis of such property as is determined by reference to the adjusted basis of other property held at any time by the person acquiring such property. If property is disposed of (other than by reason of its destruction or damage by fire, storm, shipwreck, or other casualty, or its theft) and used section 38 property similar or related in service or use is acquired as a replacement therefor in a transaction to which the preceding sentence does not apply, the cost of the used section 38 property acquired shall be its basis reduced by the adjusted basis of the property replaced. The cost of used section 38 property shall not be reduced with respect to the adjusted basis of any property disposed of if, by reason of section 47, such disposition involved an increase of tax or a reduction of the unused credit carrybacks or carryovers described in section 46(b).

(C) AFFILIATED GROUP.—The term “affiliated group” has the meaning assigned to such term by section 1504(a), except that—

(i) the phrase “more than 50 percent” shall be substituted for the phrase “at least 80 percent” each place it appears in section 1504(a), and

(ii) all corporations shall be treated as includible corporations (without any exclusion under section 1504(b)).

(d) CERTAIN LEASED PROPERTY.—A person (other than a person referred to in section 46(d)) who is a lessor of property may (at such time, in such manner, and subject to such conditions as are provided by regulations prescribed by the Secretary or his delegate) elect with respect to any new section 38 property to treat the lessee as having acquired such property for an amount equal to—

(1) if such property was constructed by the lessor (or by a corporation which controls or is controlled by the lessor within the meaning of section 368(c)), the fair market value of such property, or

(2) if paragraph (1) does not apply, the basis of such property to the lessor.

The election provided by the preceding sentence may be made only with respect to property which would be new section 38 property if acquired by the lessee. For purposes of the preceding sentence and section 46(c), the useful life of property in the hands of the lessee is the useful life of such property in the hands of the lessor. If a lessor makes the election provided by this subsection with respect to any property, the lessee shall be treated for all purposes of this subpart as having acquired such property. If a lessor makes the election provided by this subsection with respect to any property, then, under regulations prescribed by the Secretary or his delegate, subsection (g) shall not apply with respect to such property and the deductions otherwise allowable under section 162 to the lessee for amounts paid to the lessor under the lease shall be adjusted in a manner consistent with the provisions of subsection (g).

(e) **SUBCHAPTER S CORPORATIONS.**—In the case of an electing small business corporation (as defined in section 1371)—

(1) the qualified investment for each taxable year shall be apportioned pro rata among the persons who are shareholders of such corporation on the last day of such taxable year; and

(2) any person to whom any investment has been apportioned under paragraph (1) shall be treated (for purposes of this subpart) as the taxpayer with respect to such investment, and such investment shall not (by reason of such apportionment) lose its character as an investment in new section 38 property or used section 38 property, as the case may be.

(f) **ESTATES AND TRUSTS.**—In the case of an estate or trust—

(1) the qualified investment for any taxable year shall be apportioned between the estate or trust and the beneficiaries on the basis of the income of the estate or trust allocable to each,

(2) any beneficiary to whom any investment has been apportioned under paragraph (1) shall be treated (for purposes of this subpart) as the taxpayer with respect to such investment, and such investment shall not (by reason of such apportionment) lose its character as an investment in new section 38 property or used section 38 property, as the case may be, and

(3) the \$25,000 amount specified under subparagraphs (A) and (B) of section 46(a)(2) applicable to such estate or trust shall be reduced to an amount which bears the same ratio to \$25,000 as the amount of the qualified investment allocated to the estate or trust under paragraph (1) bears to the entire amount of the qualified investment.

(g) **ADJUSTMENTS TO BASIS OF PROPERTY.**—

(1) **IN GENERAL.**—The basis of any section 38 property shall be reduced, for purposes of this subtitle other than this subpart, by an amount equal to 7 percent of the qualified investment as determined under section 46(c) with respect to such property.

(2) **CERTAIN DISPOSITIONS, ETC.**—If the tax under this chapter is increased for any taxable year under paragraph (1) or (2) of section 47(a) or an adjustment in carrybacks or carryovers is made under paragraph (3) of such section, the basis of the property described in such paragraph (1) or (2), as the case may be (immediately before the event on account of which such paragraph (1), (2), or (3) applies), shall be increased by an amount equal to the portion of such increase and the portion of such adjustment attributable to such property.

(h) **CROSS REFERENCE.**—For application of this subpart to certain acquiring corporations, see section 381(c)(23).

(c) **DEDUCTION FOR UNUSED CREDIT.**—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by adding at the end thereof the following new section:

SEC. 181. DEDUCTION FOR CERTAIN UNUSED INVESTMENT CREDIT.

If the amount of the credit determined under section 46(a)(1) for any taxable year exceeds the limitation provided by section 46(a)(2) for such taxable year and if the amount of such excess has not, after the application of section 46(b), been allowed to the taxpayer as a credit under section 38 for any taxable year, then an amount equal to the amount of such excess not so allowed as a credit shall be allowed to the taxpayer as a deduction for the first taxable year following the last taxable year in which such excess could under section 46(b) have been allowed as a credit. If a taxpayer dies or ceases to exist prior to the first taxable year following the last taxable year in which the excess described in the preceding sentence could under section 46(b) have been allowed as a credit, the amount described in the preceding sentence, or the proper portion thereof, shall, under regulations prescribed by the Secretary or his delegate, be allowed to the taxpayer as a deduction for the taxable year in which such death or cessation occurs.

(d) **CERTAIN CORPORATE ACQUISITIONS.**—Section 381(c) (relating to items taken into account in certain corporate acquisitions) is amended by adding at the end thereof the following new paragraph:

(23) **CREDIT UNDER SECTION 38 FOR INVESTMENT IN CERTAIN DEPRECIABLE PROPERTY.**—The acquiring corporation shall take into account (to the extent proper to carry out the purposes of this section and section 38, and under such regulations as may be prescribed by the Secretary or his delegate) the items required to be taken into account for purposes of section 38 in respect of the distributor or transferor corporation.

(e) **STATUTES OF LIMITATIONS AND INTEREST RELATING TO INVESTMENT CREDIT CARRYBACKS.**—

(1) **ASSESSMENT AND COLLECTION.**—Section 6501 (relating to limitations on assessment and collection) is amended by redesignating subsection (j) as subsection (k), and inserting after subsection (i) the following new subsection:

(j) **INVESTMENT CREDIT CARRYBACKS.**—In the case of a deficiency attributable to the application to the taxpayer of an investment credit carryback, such deficiency may be assessed at any time before the expiration of the period within which a deficiency for the taxable year of the unused investment credit which results in such carryback may be assessed.

(2) **CREDIT OR REFUND.**—Subsection (d) of section 6511 (relating to limitations on credit or refund) is amended by adding after paragraph (3) thereof the following new paragraph:

(4) **SPECIAL PERIOD OF LIMITATION WITH RESPECT TO INVESTMENT CREDIT CARRYBACKS.**—

(A) **PERIOD OF LIMITATION.**—If the claim for credit or refund relates to an overpayment attributable to an investment credit carryback, in lieu of the 3-year period of limitation prescribed in subsection (a), the period shall be that period which ends with the expiration of the 15th day of the 40th month (or 39th month, in the case of a corporation) following the end of the taxable year of the unused investment credit which results in such carryback, or the period prescribed in subsection (c) in respect of such taxable year, whichever expires later. In the case of such a claim, the amount of the credit or refund may exceed the portion of the tax paid within the period provided in subsection (b)(2) or (c), whichever is applicable, to the extent of the amount of the overpayment attributable to such carryback.

(B) **APPLICABLE RULES.**—If the allowance of a credit or refund of an overpayment of tax attributable to an investment credit carryback is otherwise prevented by the operation of any law or rule of law other than section 7122, relating to compromises, such credit or refund may be allowed or made, if claim therefor is filed within the period provided in

subparagraph (A) of this paragraph. In the case of any such claim for credit or refund, the determination by any court, including the Tax Court, in any proceeding in which the decision of the court has become final, shall not be conclusive with respect to the investment credit, and the effect of such credit, to the extent that such credit is affected by a carryback which was not in issue in such proceeding.

(3) **INTEREST ON UNDERPAYMENTS.**—Section 6601(e) (relating to interest on underpayment, nonpayment, or extensions of time for payment, of tax) is amended to read as follows:

(e) **INCOME TAX REDUCED BY CARRYBACK.**—

(1) **NET OPERATING LOSS CARRYBACK.**—If the amount of any tax imposed by subtitle A is reduced by reason of a carryback of a net operating loss, such reduction in tax shall not affect the computation of interest under this section for the period ending with the last day of the taxable year in which the net operating loss arises.

(2) **INVESTMENT CREDIT CARRYBACK.**—If the credit allowed by section 38 for any taxable year is increased by reason of an investment credit carryback, such increase shall not affect the computation of interest under this section for the period ending with the last day of the taxable year in which the investment credit carryback arises.

(4) **INTEREST ON OVERPAYMENTS.**—Section 6611(f) (relating to interest on overpayments) is amended to read as follows:

(f) **REFUND OF INCOME TAX CAUSED BY CARRYBACK.**—

(1) **NET OPERATING LOSS CARRYBACK.**—For purposes of subsection (a), if any overpayment of tax imposed by subtitle A results from a carryback of a net operating loss, such overpayment shall be deemed not to have been made prior to the close of the taxable year in which such net operating loss arises.

(2) **INVESTMENT CREDIT CARRYBACK.**—For purposes of subsection (a), if any overpayment of tax imposed by subtitle A results from an investment credit carryback, such overpayment shall be deemed not to have been made prior to the close of the taxable year in which such investment credit carryback arises.

(f) **TECHNICAL AMENDMENT.**—Section 1016(a) (relating to adjustments to basis) is amended—

(1) by striking out the period at the end of paragraph (18) and inserting in lieu thereof a semicolon; and

(2) by adding after paragraph (18) the following new paragraph:

(19) to the extent provided in section 48(g) in the case of property which is or has been section 38 property (as defined in section 48(a)) ;

(g) **CLERICAL AMENDMENTS.**—

(1) Part IV of subchapter A of chapter 1 is amended by inserting after the heading and before the table of sections the following:

Subpart A. Credits allowable.

Subpart B. Rules for computing credit for investment in certain depreciable property.

Subpart A—Credits Allowable

(2) The table of sections for part IV of subchapter A of chapter 1 is amended by striking out

Sec. 38. Overpayments of tax.

and inserting in lieu thereof

Sec. 38. Investment in certain depreciable property.

Sec. 39. Overpayments of tax.

(3) The table of sections for part VI of subchapter B of chapter 1 is amended by adding at the end thereof the following:

Sec. 181. Deduction for certain unused investment credit.

(h) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to taxable years ending after December 31, 1961.

SEC. 3. APPEARANCES, ETC., WITH RESPECT TO LEGISLATION.

(a) **IN GENERAL.**—Section 162 (relating to trade or business expenses) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

(e) **APPEARANCES, ETC., WITH RESPECT TO LEGISLATION.**—

(1) **IN GENERAL.**—The deduction allowed by subsection (a) shall include all the ordinary and necessary expenses (including, but not limited to, traveling expenses described in subsection (a) (2) and the cost of preparing testimony) paid or incurred during the taxable year in carrying on any trade or business—

(A) in direct connection with appearances before, submission of statements to, or sending communications to, the committees, or individual members, of Congress or of any legislative body of a State, a possession of the United States, or a political subdivision of any of the foregoing with respect to legislation or proposed legislation of direct interest to the taxpayer, or

(B) in direct connection with communication of information between the taxpayer and an organization of which he is a member with respect to legislation or proposed legislation of direct interest to the taxpayer and to such organization,

and that portion of the dues so paid or incurred with respect to any organization of which the taxpayer is a member which is attributable to the expenses of the activities described in subparagraphs (A) and (B) carried on by such organization.

(2) **LIMITATION.**—The provisions of paragraph (1) shall not be construed as allowing the deduction of any amount paid or incurred (whether by way of contribution, gift, or otherwise)—

(A) for participation in, or intervention in, any political campaign on behalf of any candidate for public office, or

(B) in connection with any attempt to influence the general public, or segments thereof, with respect to legislative matters, elections, or referendums.

(b) **EFFECTIVE DATE.**—The amendments made by this section shall apply to taxable years beginning after December 31, 1962.

SEC. 4. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES.

(a) **DENIAL OF DEDUCTIONS.**—

(1) Part IX of subchapter B of chapter 1 (relating to items not deductible in computing taxable income) is amended by adding at the end thereof the following new section:

SEC. 274. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES.

(a) **ENTERTAINMENT, AMUSEMENT, OR RECREATION.**—

(1) **IN GENERAL.**—No deduction otherwise allowable under this chapter shall be allowed for any item—

(A) **ACTIVITY.**—With respect to an activity which is of a type generally considered to constitute entertainment, amusement, or recreation, unless the taxpayer establishes that the item was directly related to, or, in the case of an item directly preceding or following a substantial and bona fide business discussion (including business meetings at a convention or otherwise), that such item was associated with, the active conduct of the taxpayer's trade or business, or

(B) **FACILITY.**—With respect to a facility used in connection with an activity referred to in subparagraph (A), unless the taxpayer estab-

lishes that the facility was used primarily for the furtherance of the taxpayer's trade or business and that the item was directly related to the active conduct of such trade or business, and such deduction shall in no event exceed the portion of such item directly related to, or, in the case of an item described in subparagraph (A) directly preceding or following a substantial and bona fide business discussion (including business meetings at a convention or otherwise), the portion of such item associated with, the active conduct of the taxpayer's trade or business.

(2) SPECIAL RULES.—For purposes of applying paragraph (1)—

(A) Dues or fees to any social, athletic, or sporting club or organization shall be treated as items with respect to facilities.

(B) An activity described in section 212 shall be treated as a trade or business.

(b) GIFTS.—

(1) LIMITATIONS.—No deduction shall be allowed under section 162 or section 212 for any expense for gifts made directly or indirectly to any individual to the extent that such expense, when added to prior expenses of the taxpayer for gifts made to such individual during the same taxable year, exceeds \$25. For purposes of this section, the term "gift" means any item excludable from gross income of the recipient under section 102 which is not excludable from his gross income under any other provision of this chapter, but such term does not include—

(A) an item having a cost to the taxpayer not in excess of \$4.00 on which the name of the taxpayer is clearly and permanently imprinted and which is one of a number of identical items distributed generally by the taxpayer,

(B) a sign, display rack, or other promotional material to be used on the business premises of the recipient, or

(C) an item of tangible personal property having a cost to the taxpayer not in excess of \$100 which is awarded to an employee by reason of length of service or for safety achievement.

(2) SPECIAL RULES.—

(A) In the case of a gift by a partnership, the limitation contained in paragraph (1) shall apply to the partnership as well as to each member thereof.

(B) For purposes of paragraph (1), a husband and wife shall be treated as one taxpayer.

(c) TRAVELING.—In the case of any individual who is traveling away from home in pursuit of a trade or business or in pursuit of an activity described in section 212, no deduction shall be allowed under section 162 or section 212 for that portion of the expenses of such travel otherwise allowable under such section which, under regulations prescribed by the Secretary or his delegate, is not allocable to such trade or business or to such activity. This subsection shall not apply to the expenses of any travel away from home which does not exceed one week or where the portion of the time away from home which is not attributable to the pursuit of the taxpayer's trade or business or an activity described in section 212 is less than 25 percent of the total time away from home on such travel.

(d) SUBSTANTIATION REQUIRED.—No deduction shall be allowed—

(1) under section 162 or 212 for any traveling expense (including meals and lodging while away from home),

(2) for any item with respect to an activity which is of a type generally considered to constitute entertainment, amusement, or recreation, or with respect to a facility used in connection with such an activity, or

(3) for any expense for gifts,

unless the taxpayer substantiates by adequate records or by sufficient evidence corroborating his own statement (A) the amount of such expense or other item, (B) the time and place of the travel, entertainment, amusement, recreation, or use of the facility, or the date and description of the gift, (C) the business purpose of the expense or other item, and (D) the business relationship to the taxpayer of persons entertained, using the facility, or receiving the gift. The Secretary or his delegate may by regulations provide that some or all of the requirements of the preceding sentence shall not apply in the case of an expense which does not exceed an amount prescribed pursuant to such regulations.

(e) **SPECIFIC EXCEPTIONS TO APPLICATION OF SUBSECTION.**—(a).—Subsection (a) shall not apply to—

(1) **BUSINESS MEALS.**—Expenses for food and beverages furnished to any individual under circumstances which (taking into account the surroundings in which furnished, the taxpayer's trade, business, or income-producing activity and the relationship to such trade, business, or activity of the persons to whom the food and beverages are furnished) are of a type generally considered to be conducive to a business discussion.

(2) **FOOD AND BEVERAGES FOR EMPLOYEES.**—Expenses for food and beverages (and facilities used in connection therewith) furnished on the business premises of the taxpayer primarily for his employees.

(3) **EXPENSES TREATED AS COMPENSATION.**—Expenses for goods, services, and facilities, to the extent that the expenses are treated by the taxpayer, with respect to the recipient of the entertainment, amusement, or recreation, as compensation to an employee on the taxpayer's return of tax under this chapter and as wages to such employee for purposes of chapter 24 (relating to withholding of income tax at source on wages).

(4) **REIMBURSED EXPENSES.**—Expenses paid or incurred by the taxpayer, in connection with the performance by him of services for another person (whether or not such other person is his employer), under a reimbursement or other expense allowance arrangement with such other person, but this paragraph shall apply—

(A) where the services are performed for an employer, only if the employer has not treated such expenses in the manner provided in paragraph (3), or

(B) where the services are performed for a person other than an employer, only if the taxpayer accounts (to the extent provided by subsection (d)) to such person.

(5) **RECREATIONAL, ETC., EXPENSES FOR EMPLOYEES.**—Expenses for recreational, social, or similar activities (including facilities therefor) primarily for the benefit of employees (other than employees who are officers, shareholders or other owners, or highly compensated employees). For purposes of this paragraph, an individual owning less than a 10-percent interest in the taxpayer's trade or business shall not be considered a shareholder or other owner, and for such purposes an individual shall be treated as owning any interest owned by a member of his family (within the meaning of section 267(c) (4)).

(6) **EMPLOYEE, STOCKHOLDER, ETC., BUSINESS MEETINGS.**—Expenses incurred by a taxpayer which are directly related to business meetings of his employees, stockholders, agents, or directors.

(7) **MEETINGS OF BUSINESS LEAGUES, ETC.**—Expenses directly related and necessary to attendance at a business meeting or convention of any organization described in section 501(c) (6) (relating to business leagues, chambers of commerce, real estate boards, and boards of trade) and exempt from taxation under section 501 (a).

(8) **ITEMS AVAILABLE TO PUBLIC.**—Expenses for goods, services, and facilities made available by the taxpayer to the general public.

(9) **ENTERTAINMENT SOLD TO CUSTOMERS.**—Expenses for goods or services (including the use of facilities) which are sold by the taxpayer in a bona fide transaction for an adequate and full consideration in money or money's worth.

For purposes of this subsection, any item referred to in subsection (a) shall be treated as an expense.

(f) **INTEREST, TAXES, CASUALTY LOSSES, ETC.**—This section shall not apply to any deduction allowable to the taxpayer without regard to its connection with his trade or business (or with his income-producing activity). In the case of a taxpayer which is not an individual, the preceding sentence shall be applied as if it were an individual.

(g) **TREATMENT OF ENTERTAINMENT, ETC., TYPE FACILITY.**—For purposes of this chapter, if deductions are disallowed under subsection (a) with respect to any portion of a facility, such portion shall be treated as an asset which is used for personal, living, and family purposes (and not as an asset used in the trade or business).

(h) **REGULATORY AUTHORITY.**—The Secretary or his delegate shall prescribe such regulations as he may deem necessary to carry out the purposes of this section, including regulations prescribing whether subsection (a) or subsection (b) applies in cases where both such subsections would otherwise apply.

(2) The table of sections for such part IX is amended by adding at the end thereof the following:

Sec. 274. Disallowance of certain entertainment, etc., expenses.

(b) **TRAVELING EXPENSES.**—Section 162(a)(2) (relating to traveling expenses) is amended by striking out “(including the entire amount expended for meals and lodging)” and inserting in lieu thereof “(including amounts expended for meals and lodging other than amounts which are lavish or extravagant under the circumstances)”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to taxable years ending after December 31, 1962, but only in respect of periods after such date.

SEC. 5. AMOUNT OF DISTRIBUTION WHERE CERTAIN FOREIGN CORPORATIONS DISTRIBUTE PROPERTY IN KIND.

(a) **AMOUNT DISTRIBUTED.**—Section 301(b)(1) (relating to amount distributed to corporate distributees) is amended by adding at the end thereof the following new subparagraph:

(C) **CERTAIN CORPORATE DISTRIBUTEES OF FOREIGN CORPORATION.**—Notwithstanding subparagraph (B), if the shareholder is a corporation and the distributing corporation is a foreign corporation, the amount taken into account with respect to property (other than money) shall be the fair market value of such property; except that if any deduction is allowable under section 245 with respect to such distribution, then the amount taken into account shall be the sum (determined under regulations prescribed by the Secretary or his delegate) of—

(i) the proportion of the adjusted basis of such property (or, if lower, its fair market value) properly attributable to gross income from sources within the United States, and

(ii) the proportion of the fair market value of such property properly attributable to gross income from sources without the United States.

(b) **BASIS.**—Section 301(d) (relating to basis of property) is amended by adding at the end thereof the following new paragraph:

(3) **CERTAIN CORPORATE DISTRIBUTEES OF FOREIGN CORPORATION.**—In the case of property described in subparagraph (C) of subsection (b)(1), the basis shall be determined by substituting the amount determined under such subparagraph (C) for the amount described in paragraph (2) of this subsection.

(c) **DIVIDENDS RECEIVED FROM CERTAIN FOREIGN CORPORATIONS.**—

(1) Section 245 (relating to dividends received from certain foreign corporations) is amended by adding at the end thereof the following new subsection:

(b) **PROPERTY DISTRIBUTIONS.**—For purposes of subsection (a), the amount of any distribution of property other than money shall be the amount determined by applying section 301(b)(1)(B).

(2) Section 245 is amended by striking out “In the case of” and inserting in lieu thereof “(a) **GENERAL RULE.**—In the case of”.

(d) **EFFECTIVE DATE.**—The amendments made by this section shall apply to distributions made after December 31, 1962.

SEC. 6. MUTUAL SAVINGS BANKS, ETC.

(a) **RESERVES FOR LOSSES ON LOANS.**—Section 593 is amended to read as follows:

SEC. 593. RESERVES FOR LOSSES ON LOANS.

(a) **ORGANIZATIONS TO WHICH SECTION APPLIES.**—This section shall apply to any mutual savings bank not having capital stock represented by shares, domestic building and loan association, or cooperative bank without capital stock organized and operated for mutual purposes and without profit.

(b) **ADDITION TO RESERVES FOR BAD DEBTS.**—

(1) **IN GENERAL.**—For purposes of section 166(c), the reasonable addition for the taxable year to the reserve for bad debts of any taxpayer described in subsection (a) shall be an amount equal to the sum of—

(A) the amount determined under section 166(c) to be a reasonable addition to the reserve for losses on nonqualifying loans, plus

(B) the amount determined by the taxpayer to be a reasonable addition to the reserve for losses on qualifying real property loans, but such amount shall not exceed the amount determined under paragraph (2), (3), or (4), whichever amount is the largest, but the amount determined under this subparagraph shall in no case be greater than the larger of—

(i) the amount determined under paragraph (4), or

(ii) the amount which, when added to the amount determined under subparagraph (A), equals the amount by which 12 percent of the total deposits or withdrawable accounts of depositors of the taxpayer at the close of such year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of such year (taking into account any portion thereof attributable to the period before the first taxable year beginning after December 31, 1951).

(2) **PERCENTAGE OF TAXABLE INCOME METHOD.**—The amount determined under this paragraph for the taxable year shall be the excess of—

(A) an amount equal to 60 percent of the taxable income for such year, over

(B) the amount referred to in paragraph (1)(A) for such year, but the amount determined under this paragraph shall not exceed the amount necessary to increase the balance (as of the close of the taxable year) of the reserve for losses on qualifying real property loans to 6 percent of such loans outstanding at such time. For purposes of this paragraph, taxable income shall be computed (i) by excluding from gross income any amount included therein by reason of subsection (f), and (ii) without regard to any deduction allowable for any addition to the reserve for bad debts.

(3) **PERCENTAGE OF REAL PROPERTY LOANS METHOD.**—The amount determined under this paragraph for the taxable year shall be an amount equal to the amount necessary to increase the balance (as of the close of the taxable year) of the reserve for losses on qualifying real property loans to an amount equal to—

(A) 3 percent of such loans outstanding at such time, plus

(B) in the case of a taxpayer which is a new company and which does not have capital stock with respect to which distributions of property (as defined in section 317(a)) are not allowable as a deduction under section 591, an amount equal to—

(i) 2 percent of so much of the amount of such loans outstanding at such time as does not exceed \$4,000,000, reduced (but not below zero) by

(ii) the amount, if any, of the balance (as of the close of such taxable year) of the taxpayer's supplemental reserve for losses on loans.

For purposes of subparagraph (B), a taxpayer is a new company for any taxable year only if such taxable year begins not more than 10 years after the first day on which it (or any predecessor) was authorized to do business as an organization described in subsection (a).

(4) **EXPERIENCE METHOD.**—The amount determined under this paragraph for the taxable year shall be an amount equal to the amount determined under section 166(c) (without regard to this subsection) to be a reasonable addition to the reserve for losses on qualifying real property loans.

(5) **LIMITATION IN CASE OF CERTAIN DOMESTIC BUILDING AND LOAN ASSOCIATIONS.**—If the percentage of the assets of a domestic building and loan association which are not assets described in section 7701(a)(19)(D)(ii) exceeds 36 percent for the taxable year (as determined for purposes of section 7701(a)(19) for such year), the amount determined under paragraph (2), and the amount determined under paragraph (3), shall in each case be the amount (determined without regard to this paragraph but with regard to the limits contained in paragraphs (2), (3), and (1)(B)) reduced by the amount determined under the following table:

If the percentage exceeds—	but does not exceed—	the reduction shall be the following proportion of the amount so determined without regard to this paragraph—
36 percent---	37 percent----	$\frac{1}{12}$
37 percent---	38 percent----	$\frac{1}{6}$
38 percent---	39 percent----	$\frac{1}{4}$
39 percent---	40 percent----	$\frac{1}{3}$
40 percent---	41 percent----	$\frac{5}{12}$

(c) **TREATMENT OF RESERVES FOR BAD DEBTS.**—

(1) **ESTABLISHMENT OF RESERVES.**—Each taxpayer described in subsection (a) which uses the reserve method of accounting for bad debts shall establish and maintain a reserve for losses on qualifying real property loans, a reserve for losses on nonqualifying loans, and a supplemental reserve for losses on loans. For purposes of this title, such reserves shall be treated as reserves for bad debts, but no deduction shall be allowed for any addition to the supplemental reserve for losses on loans.

(2) **ALLOCATION OF PRE-1963 RESERVES.**—For purposes of this section, the pre-1963 reserves shall, as of the close of December 31, 1962, be allocated to, and constitute the opening balance of—

(A) the reserve for losses on nonqualifying loans.

(B) the reserve for losses on qualifying real property loans, and

(C) the supplemental reserve for losses on loans.

(3) **METHOD OF ALLOCATION.**—The allocation provided by paragraph (2) shall be made—

(A) first, to the reserve described in paragraph (2)(A), to the extent such reserve is not increased above the amount which would be a reasonable addition under section 166(c) for a period in which the nonqualifying loans increased from zero to the amount thereof outstanding at the close of December 31, 1962;

(B) second, to the reserve described in paragraph (2)(B), to the extent such reserve is not increased above the amount which would be determined under paragraph (3)(A) or (4) of subsection (b) (whichever such amount is the larger) for a period in which the qualifying real property loans increased from zero to the amount thereof outstanding at the close of December 31, 1962; and

(C) then to the supplemental reserve for losses on loans.

(4) **PRE-1963 RESERVES DEFINED.**—For purposes of this subsection, the term “pre-1963 reserves” means the net amount, determined as of the close of December 31, 1962 (after applying subsection (d)(1)), accumulated in the reserve for bad debts pursuant to section 166(c) (or the corresponding provisions of prior revenue laws) for taxable years beginning after December 31, 1951.

(5) **CERTAIN PRE-1952 SURPLUS.**—If after the application of paragraph (3), the opening balance of the reserve described in paragraph (2)(B) is less than the amount described in paragraph (3)(B), then, for purposes of this subsection, the term “pre-1963 reserves” includes so much of the surplus,

undivided profits, and bad debt reserves (determined as of December 31, 1962) attributable to the period before the first taxable year beginning after December 31, 1951, as does not exceed the amount by which such opening balance is less than the amount described in paragraph (3) (B). For purposes of the preceding sentence, the surplus, undivided profits, and bad debt reserves attributable to the period before the first taxable year beginning after December 31, 1951, shall be reduced by the amount thereof which is attributable to interest which would have been excludable from gross income under section 22(b)(4) of the Internal Revenue Code of 1939 (relating to interest on governmental obligations) or the corresponding provisions of prior laws. Notwithstanding the second sentence of paragraph (1), any amount which, by reason of the application of the first sentence of this paragraph, is allocated to the reserve described in paragraph (2) (B) shall not be treated as a reserve for bad debts for any purpose other than determining the amount referred to in subsection (b)(1)(B), and for such purpose such amount shall be treated as remaining in such reserve.

(6) CHARGING OF BAD DEBTS TO RESERVES.—Any debt becoming worthless or partially worthless in respect of a qualifying real property loan shall be charged to the reserve for losses on such loans, and any debt becoming worthless or partially worthless in respect of a nonqualifying loan shall be charged to the reserve for losses on nonqualifying loans; except that any such debt may, at the election of the taxpayer, be charged in whole or in part to the supplemental reserve for losses on loans.

(d) TAXABLE YEARS BEGINNING IN 1962 AND ENDING IN 1963.—In the case of a taxable year beginning before January 1, 1963, and ending after December 31, 1962, of a taxpayer described in subsection (a) which uses the reserve method of accounting for bad debts, the taxable income shall be the sum of—

(1) that portion of the taxable income allocable to the part of the taxable year occurring before January 1, 1963, reduced by the amount of the deduction for an addition to a reserve for bad debts which would be allowable under section 166(c) (without regard to the amendments made by section 6 of the Revenue Act of 1962) if such part year constituted a taxable year, plus

(2) that portion of the taxable income allocable to the part of the taxable year occurring after December 31, 1962, reduced by the amount of the deduction for an addition to a reserve for bad debts which would be allowed under section 166(c) (taking into account the amendments made by section 6 of the Revenue Act of 1962) if such part year constituted a taxable year.

For purposes of the preceding sentence, the taxable income shall be determined without regard to any deduction under section 166(c), and the portion thereof allocable to each part year shall be determined on the basis of the ratio which the number of days in such part year bears to the number of days in the entire taxable year.

(e) LOANS DEFINED.—For purposes of this section—

(1) QUALIFYING REAL PROPERTY LOANS.—The term "qualifying real property loan" means any loan secured by an interest in improved real property or secured by an interest in real property which is to be improved out of the proceeds of the loan, but such term does not include—

(A) any loan evidenced by a security (as defined in section 165(g) (2) (C));

(B) any loan, whether or not evidenced by a security (as defined in section 165(g) (2) (C)), the primary obligor on which is—

(i) a government or political subdivision or instrumentality thereof;

(ii) a bank (as defined in section 581); or

(iii) another member of the same affiliated group;

(C) any loan, to the extent secured by a deposit in or share of the taxpayer; or

(D) any loan which, within a 60-day period beginning in one taxable year of the creditor and ending in its next taxable year, is made or acquired and then repaid or disposed of, unless the transactions by which such loan was made or acquired and then repaid or disposed of are established to be for bona fide business purposes.

For purposes of subparagraph (B) (iii), the term "affiliated group" has the meaning assigned to such term by section 1504(a); except that (i) the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" each place it appears in section 1504(a), and (ii) all corporations shall be treated as includible corporations (without any exclusion under section 1504(b)).

(2) **NONQUALIFYING LOANS.**—The term "nonqualifying loan" means any loan which is not a qualifying real property loan.

(3) **LOAN.**—The term "loan" means debt, as the term "debt" is used in section 166.

(f) **DISTRIBUTIONS TO SHAREHOLDERS.**—

(1) **IN GENERAL.**—For purposes of this chapter, any distribution of property (as defined in section 317(a)) by a domestic building and loan association to a shareholder with respect to its stock, if such distribution is not allowable as a deduction under section 591, shall be treated as made—

(A) first out of its earnings and profits accumulated in taxable years beginning after December 31, 1951, to the extent thereof,

(B) then out of the reserve for losses on qualifying real property loans, to the extent additions to such reserve exceed the additions which would have been allowed under subsection (b) (4),

(C) then out of the supplemental reserve for losses on loans, to the extent thereof,

(D) then out of such other accounts as may be proper.

This paragraph shall apply in the case of any distribution in redemption of stock or in partial or complete liquidation of the association, except that any such distribution shall be treated as made first out of the amount referred to in subparagraph (B), second out of the amount referred to in subparagraph (C), third out of the amount referred to in subparagraph (A), and then out of such other accounts as may be proper.

(2) **AMOUNTS CHARGED TO RESERVE ACCOUNTS AND INCLUDED IN GROSS INCOME.**—If any distribution is treated under paragraph (1) as having been made out of the reserves described in subparagraphs (B) and (C) of such paragraph, the amount charged against such reserve shall be the amount which, when reduced by the amount of tax imposed under this chapter and attributable to the inclusion of such amount in gross income, is equal to the amount of such distribution; and the amount so charged against such reserve shall be included in gross income of the taxpayer.

(3) **SPECIAL RULES.**—

(A) For purposes of paragraph (1) (B), additions to the reserve for losses on qualifying real property loans for the taxable year in which the distribution occurs shall be taken into account.

(B) For purposes of computing under this section the amount of a reasonable addition to the reserve for losses on qualifying real property loans for any taxable year, any amount charged during any year to such reserve pursuant to the provisions of paragraph (2) shall not be taken into account.

(b) **FORECLOSURE ON PROPERTY SECURING LOANS.**—Part II of subchapter H of chapter 1 (relating to mutual savings banks, etc.) is amended by adding at the end thereof the following new section:

SEC. 595. FORECLOSURE ON PROPERTY SECURITY LOANS.

(a) **NONRECOGNITION OF GAIN OR LOSS AS A RESULT OF FORECLOSURE.**—In the case of a creditor which is an organization described in section 593(a), no gain or loss shall be recognized, and no debt shall be considered as becoming worthless or partially worthless, as the result of such organization having bid in at foreclosure, or having otherwise reduced to ownership or possession by agreement or process of law, any property which was security for the payment of any indebtedness.

(b) **CHARACTER OF PROPERTY.**—For purposes of sections 166 and 1221, any property acquired in a transaction with respect to which gain or loss to an organization was not recognized by reason of subsection (a) shall be considered as property having the same characteristics as the indebtedness for which such

property was security. Any amount realized by such organization with respect to such property shall be treated for purposes of this chapter as a payment on account of such indebtedness, and any loss with respect thereto shall be treated as a bad debt to which the provisions of section 166 (relating to allowance of a deduction for bad debts) apply.

(c) **BASIS.**—The basis of any property to which subsection (a) applies shall be the basis of the indebtedness for which such property was security (determined as of the date of the acquisition of such property), properly increased for costs of acquisition.

(d) **REGULATORY AUTHORITY.**—The Secretary or his delegate shall prescribe such regulations as he may deem necessary to carry out the purposes of this section.

(c) **DEFINITION OF DOMESTIC BUILDING AND LOAN ASSOCIATION.**—Paragraph (19) of section 7701(a) (definition of domestic building and loan association) is amended to read as follows:

(19) **DOMESTIC BUILDING AND LOAN ASSOCIATION.**—The term “domestic building and loan association” means a domestic building and loan association, a domestic savings and loan association, and a Federal savings and loan association—

(A) which either (i) is an insured institution within the meaning of section 401(a) of the National Housing Act (12 U.S.C., sec. 1724(a)), or (ii) is subject by law to supervision and examination by State or Federal authority having supervision over such associations:

(B) substantially all of the business of which consists of acquiring the savings of the public and investing in loans described in subparagraph (C);

(C) at least 90 percent of the amount of the total assets of which (as of the close of the taxable year) consists of (i) cash, (ii) obligations of the United States or of a State or political subdivision thereof, stock or obligations of a corporation which is an instrumentality of the United States or of a State or political subdivision thereof, and certificates of deposit in, or obligations of, a corporation organized under a State law which specifically authorizes such corporation to insure the deposits or share accounts of member associations, (iii) loans secured by an interest in real property and loans made for the improvement of real property, (iv) loans secured by a deposit or share of a member, (v) property acquired through the liquidation of defaulted loans described in clause (iii), and (vi) property used by the association in the conduct of the business described in subparagraph (B);

(D) of the assets of which taken into account under subparagraph (C) as assets constituting the 90 percent of total assets—

(i) at least 80 percent of the amount of such assets consists of assets described in clauses (i), (ii), (iv), and (vi) of such subparagraph and of loans secured by an interest in real property which is (or, from the proceeds of the loan, will become) residential real property or real property used primarily for church purposes, loans made for the improvement of residential real property or real property used primarily for church purposes, or property acquired through the liquidation of defaulted loans described in this clause; and

(ii) at least 60 percent of the amount of such assets consists of assets described in clauses (i), (ii), (iv), and (vi) of such subparagraph and of loans secured by an interest in real property which is (or, from the proceeds of the loan, will become) residential real property containing 4 or fewer family units or real property used primarily for church purposes, loans made for the improvement of residential real property containing 4 or fewer family units or real property used primarily for church purposes, or property acquired through the liquidation of defaulted loans described in this clause;

(E) not more than 18 percent of the amount of the total assets of which (as of the close of the taxable year) consists of assets other than

those described in clause (i) of subparagraph (D), and not more than 36 percent of the amount of the total assets of which (as of the close of the taxable year) consists of assets other than those described in clause (ii) of subparagraph (D); and

(F) except for property described in subparagraph (C), not more than 3 percent of the assets of which consists of stock of any corporation. The term "domestic building and loan association" also includes any association which, for the taxable year, would satisfy the requirements of the first sentence of this paragraph if "41 percent" were substituted for "36 percent" in subparagraph (E). Except in the case of the taxpayer's first taxable year beginning after the date of the enactment of the Revenue Act of 1962, the second sentence of this paragraph shall not apply to an association for the taxable year unless such association (i) was a domestic building and loan association within the meaning of the first sentence of this paragraph for the first taxable year preceding the taxable year, or (ii) was a domestic building and loan association solely by reason of the second sentence of this paragraph for the first taxable year preceding the taxable year (but not for the second preceding taxable year). At the election of the taxpayer, the percentages specified in this paragraph shall be applied on the basis of the average assets outstanding during the taxable year, in lieu of the close of the taxable year, computed under regulations prescribed by the Secretary or his delegate.

(d) **CLERICAL AMENDMENTS.**—The table of sections for part II of subchapter H of chapter 1 is amended—

(1) by striking out the third item and inserting in lieu thereof the following:

Sec. 593. Reserves for losses on loans.

and

(2) by adding at the end thereof the following:

Sec. 595. Foreclosure on property securing loans.

(e) **REPEAL OF EXEMPTION FROM CERTAIN TAXES.**—(1) **AMENDMENT TO HOME OWNERS' LOAN ACT OF 1933.**—Section 5(h) of the Home Owners' Loan Act of 1933, as amended (12 U.S.C. sec. 1464(h)), is amended to read as follows:

(h) No State, county, municipal, or local taxing authority shall impose any tax on such associations or their franchise, capital, reserves, surplus, loans, or income greater than that imposed by such authority on other similar local mutual or cooperative thrift and home financing institutions.

(2) **CERTAIN DOCUMENTARY STAMP TAXES.**—Section 4382(a)(2) (relating to exemptions from documentary stamp taxes) is amended to read as follows:

(2) **DOMESTIC BUILDING AND LOAN ASSOCIATIONS AND MUTUAL DITCH OR IRRIGATION COMPANIES.**—Shares or certificates of stock issued by domestic building and loan associations and cooperative banks, to the extent such shares or certificates represent deposits or withdrawable accounts; or shares or certificates of stock and certificates of indebtedness issued by mutual ditch or irrigation companies.

(f) **DEDUCTIONS FOR DIVIDENDS OR INTEREST PAID ON DEPOSITS.**—Section 591 (relating to deduction for dividends paid on deposits) is amended—

(1) by striking out "and domestic building and loan associations" and inserting in lieu thereof the following: "domestic building and loan associations, and other savings institutions chartered and supervised as savings and loan or similar associations under Federal or State law"; and

(2) by inserting after "dividends" the following: "or interest".
 (g) **EFFECTIVE DATES.**—

(1) The amendment made by subsection (a) shall apply to taxable years ending after December 31, 1962, except that section 593(f) of the Internal Revenue Code of 1954 shall apply to distributions after December 31, 1962, in taxable years ending after such date.

(2) The amendment made by subsection (b) shall apply to transactions described in section 595(a) of the Internal Revenue Code of 1954 occurring after December 31, 1962, in taxable years ending after such date.

(3) The amendment made by subsection (c) shall apply to taxable years beginning after the date of the enactment of this Act.

(4) Subsection (e) of this section shall become effective on January 1, 1963, except that—

(A) in the case of the tax imposed by section 4251 of the Internal Revenue Code of 1954, such subsection shall apply only with respect to amounts paid pursuant to bills rendered after December 31, 1962; and

(B) in the case of the tax imposed by section 4261 of such Code, such subsection shall apply only with respect to transportation beginning after December 31, 1962.

SEC. 7. DISTRIBUTIONS BY FOREIGN TRUSTS.

(a) **DEFINITIONS.**—

(1) **INCOME OF FOREIGN TRUST.**—Section 643(a)(6) (relating to modifications taken into account in computing distributable net income) is amended to read as follows:

(6) **INCOME OF FOREIGN TRUST.**—In the case of a foreign trust—

(A) There shall be included the amounts of gross income from sources without the United States, reduced by any amounts which would be deductible in respect of disbursements allocable to such income but for the provisions of section 265(1) (relating to disallowance of certain deductions).

(B) Gross income from sources within the United States shall be determined without regard to section 894 (relating to income exempt under treaty).

(C) Paragraph (3) shall not apply to a foreign trust created by a United States person. In the case of such a trust, (i) there shall be included gains from the sale or exchange of capital assets, reduced by losses from such sales or exchanges to the extent such losses do not exceed gains from such sales or exchanges, and (ii) the deduction under section 1202 (relating to deduction for excess of capital gains over capital losses) shall not be taken into account.

(2) **FOREIGN TRUSTS.**—Section 643 (relating to definitions) is amended by adding at the end thereof the following new subsection:

(d) **FOREIGN TRUSTS CREATED BY UNITED STATES PERSONS.**—For purposes of this part, the term "foreign trust created by a United States person" means that portion of a foreign trust (as defined in section 7701(a)(31)) attributable to money or property transferred directly or indirectly by a United States person (as defined in section 7701(a)(30)), or under the will of a decedent who at the date of his death was a United States citizen or resident.

(b) ACCUMULATION DISTRIBUTIONS OF FOREIGN TRUSTS.—

(1) Section 665(b) (relating to definitions applicable to subpart D) is amended by striking out “(b) ACCUMULATION DISTRIBUTION.—For purposes of this subpart,” and inserting in lieu thereof the following:

(b) ACCUMULATION DISTRIBUTIONS OF TRUSTS OTHER THAN CERTAIN FOREIGN TRUSTS.—For purposes of this subpart, in the case of a trust (other than a foreign trust created by a United States person).

(2) Section 665 is amended by redesignating subsections (c) and (d) as (d) and (e), respectively, and by inserting after subsection (b) the following new subsection:

(c) ACCUMULATION DISTRIBUTION OF CERTAIN FOREIGN TRUSTS.—For purposes of this subpart, in the case of a foreign trust created by a United States person, the term “accumulation distribution” for any taxable year of the trust means the amount by which the amounts specified in paragraph (2) of section 661(a) for such taxable year exceed distributable net income, reduced by the amounts specified in paragraph (1) of section 661(a). For purposes of this subsection, the amount specified in paragraph (2) of section 661(a) shall be determined without regard to section 666. Any amount paid to a United States person which is from a payor who is not a United States person and which is derived directly or indirectly from a foreign trust created by a United States person shall be deemed in the year of payment to have been directly paid by the foreign trust.

(c) ALLOCATION OF ACCUMULATION DISTRIBUTIONS TO PRECEDING YEARS.—Section 666(a) (relating to accumulation distribution allocated to 5 preceding years) is amended—

(1) by striking out “(a) AMOUNT ALLOCATED.—In the case of a trust” and inserting in lieu thereof the following:

(a) AMOUNT ALLOCATED.—In the case of a trust (other than a foreign trust created by a United States person); and

(2) by adding at the end thereof the following new sentence:

(2) In the case of a foreign trust created by a United States person, this subsection shall apply to the preceding taxable years of the trust without regard to any provision of the preceding sentences which would (but for this sentence) limit its application to the 5 preceding taxable years.

(d) AMOUNTS TREATED AS RECEIVED IN PRIOR YEARS.—Section 668

(a) (relating to amounts treated as received in prior taxable years) is amended by adding at the end thereof the following new sentence:

Except as provided in section 669, in the case of a foreign trust created by a United States person the preceding sentence shall not apply to any beneficiary who is a United States person.

(e) SPECIAL RULES FOR FOREIGN TRUSTS.—Subpart D of part I of subchapter J of chapter 1 (relating to treatment of excess distributions by trusts) is amended by adding at the end thereof the following new section:

SEC. 669. SPECIAL RULES APPLICABLE TO CERTAIN FOREIGN TRUSTS.**(a) LIMITATION ON TAX.—**

(1) GENERAL RULE.—At the election of a beneficiary who is a United States person (as defined in section 7701(a)(30) and who satisfies the requirements of subsection (b), the tax attributable to the amounts treated under section 668(a) as having been received by him from a foreign trust created by a United States person on the last day of a preceding taxable year of the trust shall not be greater than—

(A) the tax determined under the next to the last sentence of section 668(a), or

(B) the tax determined by multiplying by the number of preceding taxable years of the trust, on the last day of each of which an amount is deemed under section 666(a) to have been distributed, the average of the increase in tax attributable to recomputing the beneficiary's gross income for the taxable year and each of his 2 taxable years immediately preceding the year of the accumulation distribution by adding to the income of each of such years an amount determined by dividing the amount required to be included in income under section 668(a) by such number of preceding taxable years of the trust. The recomputation for the taxable year shall be made without regard to the inclusion in income required by section 668(a) of any amount other than pursuant to this paragraph.

(2) EXCEPTIONS.—

(A) When an accumulation distribution is deemed under section 666(a) to have been distributed on the last day of less than 3 taxable years of the trust, the taxable years of the beneficiary for which a recomputation is made under subsection (a)(1)(B) shall equal the number of years to which section 666(a) applies, commencing with the most recent taxable year of the beneficiary.

(B) If a beneficiary was not alive on the last day of each preceding taxable year of the trust with respect to which a distribution is deemed made under section 666(a), paragraph (1)(A) of this subsection shall not apply. In applying paragraph (1)(B) of this subsection, no recomputation shall be made for a beneficiary for a taxable year for which he was not alive; if he has no preceding taxable year, the recomputation shall be made on the basis of his taxable year without regard to the inclusion in income required by section 668(a) of any amount other than pursuant to paragraph (1)(B).

(3) EFFECT OF PRIOR ELECTION.—In computing the limitation on tax under paragraph (1) of this subsection for any beneficiary—

(A) SUBSEQUENT ELECTION UNDER PARAGRAPH (1)(A).—If an election has been made under paragraph (1)(B) of this subsection, for purposes of a subsequent election under paragraph (1)(A) the income of any year with respect to which an amount is deemed distributed to a beneficiary under section 666(a) shall include amounts previously deemed distributed to such beneficiary for such year as a result of an accumulation distribution with respect to which an election under paragraph (1)(B) was made.

(B) SUBSEQUENT ELECTION UNDER PARAGRAPH (1)(B).—If with respect to an accumulation distribution an election has been made under either paragraph (1)(A) or paragraph (1)(B) of this subsection, or the next to the last sentence of section 668(a) has applied, for purposes of a subsequent election under paragraph (1)(B) the number of preceding taxable years of the trust with respect to which an amount is deemed distributed to a beneficiary under section 666(a) shall be determined without regard to any such year with respect to which an amount was previously deemed distributed to such beneficiary.

(b) INFORMATION REQUIREMENT.—The election of a beneficiary to apply the limitations on tax provided in subsection (a) of this section shall not be effective unless the beneficiary at the time of making the election supplies such information with respect to the operation and accounts of the trust, for each taxable year on the last day of which an amount is deemed distributed under section 666(a), as the Secretary or his delegate may by regulations prescribe.

(f) INFORMATION RETURNS WITH RESPECT TO FOREIGN TRUST.—Subpart B of part III of subchapter A of chapter 61 (relating to information concerning transactions with other persons) is amended by adding at the end thereof the following new section :

SEC. 6048. RETURNS AS TO CREATION OF OR TRANSFERS TO CERTAIN FOREIGN TRUSTS.

(a) GENERAL RULE.—On or before the 90th day after—

- (1) the creation of any foreign trust by a United States person, or
- (2) the transfer of any money or property to a foreign trust by a United States person,

the grantor in the case of an inter vivos trust, the fiduciary of an estate in the case of a testamentary trust, or the transferor, as the case may be, shall make a return in compliance with the provisions of subsection (b).

(b) **FORM AND CONTENTS OF RETURNS.**—The returns required by subsection (a) shall be in such form and shall set forth, in respect of the foreign trust, such information as the Secretary or his delegate prescribes by regulation as necessary for carrying out the provisions of the income tax laws.

(c) **CROSS REFERENCES.**—

(1) For provisions relating to penalties for violations of this section, see sections 6677 and 7203.

(2) For definition of the term “foreign trust created by a United States person”, see section 643(d).

(g) **FAILURE TO FILE INFORMATION RETURNS.**—Subchapter B of chapter 68 (relating to assessable penalties) is amended by adding at the end thereof the following new section:

SEC. 6677. FAILURE TO FILE INFORMATION RETURNS WITH RESPECT TO CERTAIN FOREIGN TRUSTS.

(a) **CIVIL PENALTY.**—In addition to any criminal penalty provided by law, any person required to file a return under section 6048 who fails to file such return at the time provided in such section, or who files a return which does not show the information required pursuant to such section, shall pay a penalty equal to 5 percent of the amount transferred to a trust, but not more than \$1,000, unless it is shown that such failure is due to reasonable cause.

(b) **DEFICIENCY PROCEDURES NOT TO APPLY.**—Subchapter B of chapter 63 (relating to deficiency procedures for income, estate, and gift taxes) shall not apply in respect of the assessment or collection of any penalty imposed by subsection (a).

(h) **UNITED STATES PERSON DEFINED.**—Section 7701(a) is amended by adding at the end thereof the following new paragraphs:

(30) **UNITED STATES PERSON.**—The term “United States person” means—

(A) a citizen or resident of the United States,

(B) a domestic partnership,

(C) a domestic corporation, and

(D) any estate or trust (other than a foreign estate or foreign trust, within the meaning of section 7701(a)(31)).

(31) **FOREIGN ESTATE OR TRUST.**—The terms “foreign estate” and “foreign trust” mean an estate or trust, as the case may be, the income of which from sources without the United States is not includible in gross income under subtitle A.

(i) **TECHNICAL AMENDMENTS.**—

(1) The table of sections for subpart D of subchapter J of chapter 1 (relating to treatment of excess distributions by trusts) is amended by adding at the end thereof

Sec. 669. Special rules applicable to certain foreign trusts.

(2) The table of sections for subpart B of part III of subchapter A of chapter 61 (relating to information concerning transactions with other persons) is amended by adding at the end thereof

Sec. 6048. Returns as to creation of or transfers to certain foreign trusts.

(3) The table of sections for subchapter B of chapter 68 (relating to assessable penalties) is amended by adding at the end thereof

Sec. 6677. Failure to file information returns with respect to certain foreign trusts.

(j) **EFFECTIVE DATE.**—The amendments made by this section (other than by subsections (f), (g), and (h)) shall apply with respect to distributions made after December 31, 1962.

SEC. 8. MUTUAL INSURANCE COMPANIES (OTHER THAN LIFE, MARINE, AND CERTAIN FIRE OR FLOOD INSURANCE COMPANIES), ETC.

(a) **IMPOSITION OF TAX.**—So much of part II of subchapter L (relating to mutual insurance companies, other than life or marine or fire insurance companies issuing perpetual policies) of chapter 1 as precedes section 822 is amended to read as follows:

PART II—MUTUAL INSURANCE COMPANIES (OTHER THAN LIFE AND CERTAIN MARINE INSURANCE COMPANIES AND OTHER THAN FIRE OR FLOOD INSURANCE COMPANIES WHICH OPERATE ON BASIS OF PERPETUAL POLICIES OR PREMIUM DEPOSITS)

Sec. 821. Tax on mutual insurance companies to which part II applies.

Sec. 822. Determination of taxable investment income.

Sec. 823. Determination of statutory underwriting income or loss.

Sec. 824. Adjustments to provide protection against losses.

Sec. 825. Unused loss deduction.

Sec. 826. Election by reciprocal.

SEC. 821. TAX ON MUTUAL INSURANCE COMPANIES TO WHICH PART II APPLIES.

(a) **IMPOSITION OF TAX.**—A tax is hereby imposed for each taxable year beginning after December 31, 1962, on the mutual insurance company taxable income of every mutual insurance company (other than a life insurance company and other than a fire, flood, or marine insurance company subject to the tax imposed by section 831). Such tax shall consist of—

(1) **NORMAL TAX.**—

(A) **TAXABLE YEARS BEGINNING BEFORE JULY 1, 1963.**—In the case of taxable years beginning before July 1, 1963, a normal tax of 30 percent of the mutual insurance company taxable income, or 60 percent of the amount by which such taxable income exceeds \$6,000, whichever is the lesser;

(B) **TAXABLE YEARS BEGINNING AFTER JUNE 30, 1963.**—In the case of taxable years beginning after June 30, 1963, a normal tax of 25 percent of the mutual insurance company taxable income, or 50 percent of the amount by which such taxable income exceeds \$6,000, whichever is the lesser; plus

(2) **SURTAX.**—A surtax of 22 percent of the mutual insurance company taxable income (computed without regard to the deduction provided in section 242 for partially tax-exempt interest) in excess of \$25,000.

(b) **MUTUAL INSURANCE COMPANY TAXABLE INCOME DEFINED.**—For purposes of this part, the term “mutual insurance company taxable income” means, with respect to any taxable year, the amount by which—

(1) the sum of—

(A) the taxable investment income (as defined in section 822(a)(1)),

(B) the statutory underwriting income (as defined in section 823(a)(1)), and

(C) the amounts required by section 824(d) to be subtracted from the protection against loss account, exceeds

(2) the sum of—

(A) the investment loss (as defined in section 822(a)(2)),

(B) the statutory underwriting loss (as defined in section 823(a)(2)), and

(C) the unused loss deduction provided by section 825(a).

(c) **ALTERNATIVE TAX FOR CERTAIN SMALL COMPANIES.**—

(1) **IMPOSITION OF TAX.**—In the case of taxable years beginning after December 31, 1962, there is hereby imposed for each taxable year on the

income of each mutual insurance company to which this subsection applies a tax (which shall be in lieu of the tax imposed by subsection (a)) computed as follows:

(A) NORMAL TAX.—

(i) TAXABLE YEARS BEGINNING BEFORE JULY 1, 1963.—In the case of taxable years beginning before July 1, 1963, a normal tax of 30 percent of the taxable investment income, or 60 percent of the amount by which such taxable income exceeds \$3,000, whichever is the lesser;

(ii) TAXABLE YEARS BEGINNING AFTER JUNE 30, 1963.—In the case of taxable years beginning after June 30, 1963, a normal tax of 25 percent of the taxable investment income, or 50 percent of the amount by which such taxable income exceeds \$3,000, whichever is the lesser; plus

(B) SURTAX.—A surtax of 22 percent of the taxable investment income (computed without regard to the deduction provided in section 242 for partially tax-exempt interest) in excess of \$25,000.

(2) GROSS AMOUNT RECEIVED, OVER \$150,000 BUT LESS THAN \$250,000.—If the gross amount received during the taxable year from the items described in section 822(b) (other than paragraph (1)(D) thereof) and premiums (including deposits and assessments) is over \$150,000 but less than \$250,000, the tax imposed by paragraph (1) shall be reduced to an amount which bears the same proportion to the amount of the tax determined under paragraph (1) as the excess over \$150,000 of such gross amount received bears to \$100,000.

(3) COMPANIES TO WHICH SUBSECTION APPLIES.—

(A) IN GENERAL.—Except as provided in subparagraph (B), this subsection shall apply to every mutual insurance company (other than a life insurance company and other than a fire, flood, or marine insurance company subject to the tax imposed by section 831) which received during the taxable year from the items described in section 822(b) (other than paragraph (1)(D) thereof) and premiums (including deposits and assessments) a gross amount in excess of \$150,000 but not in excess of \$500,000.

(B) EXCEPTIONS.—This subsection shall not apply to a mutual insurance company for the taxable year if—

(i) there is in effect an election by such company made under subsection (d) to be taxable under subsection (a); or

(ii) there is any amount in the protection against loss account at the beginning of the taxable year.

(d) ELECTION TO INCLUDE STATUTORY UNDERWRITING INCOME OR LOSS.—

(1) IN GENERAL.—Any mutual insurance company which is subject to the tax imposed by subsection (c) may elect, in such manner and at such time as the Secretary or his delegate may by regulations prescribe, to be subject to the tax imposed by subsection (a).

(2) EFFECT OF ELECTION.—If an election is made under paragraph (1), the electing company shall be subject to the tax imposed by subsection (a) (and shall not be subject to the tax imposed by subsection (c)) for the first taxable year for which such election is made and for all taxable years thereafter unless the Secretary or his delegate consents to a revocation of such election.

(e) NO UNITED STATES INSURANCE BUSINESS.—Foreign mutual insurance companies (other than a life insurance company and other than a fire, flood, or marine insurance company subject to the tax imposed by section 831) not carrying on an insurance business within the United States shall not be subject to this part but shall be taxable as other foreign corporations.

(f) SPECIAL TRANSITIONAL UNDERWRITING LOSS.—

(1) COMPANIES TO WHICH SUBSECTION APPLIES.—This subsection shall apply to every mutual insurance company which has been subject to the tax imposed by this section (as in effect before the enactment of this subsection) for the 5 taxable years immediately preceding January 1, 1962, and has incurred an underwriting loss for each of such 5 taxable years.

(2) REDUCTION OF STATUTORY UNDERWRITING INCOME.—For purposes of this part, the statutory underwriting income of a company described in paragraph (1) for the taxable year shall be the statutory underwriting

income for the taxable year (determined without regard to this subsection) reduced by the amount by which—

(A) the sum of the underwriting losses of such company for the 5 taxable years immediately preceding January 1, 1962, exceeds

(B) the total amount by which the company's statutory underwriting income was reduced by reason of this subsection for prior taxable years.

(3) **UNDERWRITING LOSS DEFINED.**—For purposes of this subsection, the term “underwriting loss” means statutory underwriting loss, computed without any deduction under section 824(a) and without any deduction under section 832(c) (11).

(4) **YEARS TO WHICH SUBSECTION APPLIES.**—This subsection shall apply with respect to any taxable year beginning after December 31, 1962, and before January 1, 1968, for which the taxpayer is subject to the tax imposed by subsection (a).

(g) **CROSS REFERENCES.**—

(1) For exemption from tax of certain mutual insurance companies, see section 501(c) (15).

(2) For alternative tax in case of capital gains, see section 1201(a).

(b) **TAXABLE INVESTMENT INCOME.**—

(1) **IN GENERAL.**—Section 822 (relating to determination of mutual insurance company taxable income) is amended by striking out the heading and subsection (a) and inserting in lieu thereof the following:

SEC. 822. DETERMINATION OF TAXABLE INVESTMENT INCOME.

(a) **DEFINITIONS.**—For purposes of this part—

(1) The term “taxable investment income” means the gross investment income, minus the deductions provided in subsection (c).

(2) The term “investment loss” means the amount by which the deductions provided in subsection (c) exceed the gross investment income.

(2) **CONFORMING AMENDMENTS.**—Subsections (c) and (e) of section 822 are each amended by striking out “mutual insurance company taxable income” each place it appears and inserting in lieu thereof “taxable investment income”.

(3) **DIVIDENDS RECEIVED DEDUCTION.**—Section 822(c) (7) (relating to special deductions) is amended by adding at the end thereof the following new sentence: “In applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received) for purposes of this paragraph, the reference in such section to ‘taxable income’ shall be treated as a reference to ‘taxable investment income’.”

(4) **REDESIGNATION OF SECTION 823.**—Part II of subchapter L of chapter 1 is amended by striking out

SEC. 823. OTHER DEFINITIONS.

For purposes of this part—

and inserting in lieu thereof (at the end of section 822) the following:

(f) **DEFINITIONS.**—For purposes of this part—

(c) **STATUTORY UNDERWRITING INCOME OR LOSS.**—Part II of subchapter L of chapter 1 is amended by adding after section 822(f) (as redesignated by subsection (b) (4) of this section) the following new sections:

SEC. 823. DETERMINATION OF STATUTORY UNDERWRITING INCOME OR LOSS.

(a) **IN GENERAL.**—For purposes of this part—

(1) The term “statutory underwriting income” means the amount by which—

(A) the gross income which would be taken into account in computing taxable income under section 832 if the taxpayer were subject to the tax imposed by section 831, reduced by the gross investment income exceeds

(B) the sum of (i) the deductions which would be taken into account in computing taxable income if the taxpayer were subject to the tax imposed by section 831, reduced by the deductions provided in section 822(c), plus (ii) the deductions provided in subsection (c) and section 824(a).

(2) The term "statutory underwriting loss" means the excess of the amount referred to in paragraph (1)(B) over the amount referred to in paragraph (1)(A).

(b) MODIFICATIONS.—In applying subsection (a)—

(1) NET OPERATING LOSS DEDUCTION.—The deduction for net operating losses provided in section 172 shall not be allowed.

(2) INTERINSURERS.—In the case of a mutual insurance company which is an interinsurer or reciprocal underwriter—

(A) there shall be allowed as a deduction the increase for the taxable year in savings credited to subscriber accounts, or

(B) there shall be included as an item of gross income the decrease for the taxable year in savings credited to subscriber accounts.

For purposes of the preceding sentence, the term "savings credited to subscriber accounts" means such portion of the surplus as is credited to the individual accounts of subscribers before the 16th day of the third month following the close of the taxable year, but only if the company would be obligated to pay such amount promptly to such subscriber if he terminated his contract at the close of the company's taxable year. For purposes of determining his taxable income, the subscriber shall treat any such savings credited to his account as a dividend paid or declared.

(c) SPECIAL DEDUCTION FOR SMALL COMPANY HAVING GROSS AMOUNT OF LESS THAN \$1,100,000.—

(1) IN GENERAL.—If the gross amount received during the taxable year by a taxpayer subject to the tax imposed by section 821(a) from the items described in section 822(b) (other than paragraph (1)(D) thereof) and premiums (including deposits and assessments) does not equal or exceed \$1,100,000, then in determining the statutory underwriting income or loss for the taxable year there shall be allowed an additional deduction of \$6,000; except that if such gross amount exceeds \$500,000, such additional deduction shall be equal to 1 percent of the amount by which \$1,100,000 exceeds such gross amount.

(2) LIMITATION.—The amount of the deduction allowed under paragraph (1) shall not exceed the statutory underwriting income for the taxable year, computed without regard to any deduction under this subsection or section 824(a).

SEC. 824. ADJUSTMENTS TO PROVIDE PROTECTION AGAINST LOSSES.

(a) ALLOWANCE OF DEDUCTION.—

(1) IN GENERAL.—In determining the statutory underwriting income or loss for any taxable year there shall be allowed as a deduction the sum of—

(A) an amount equal to 1 percent of the losses incurred during the taxable year (as determined under section 832(b)(5)), plus

(B) an amount equal to 25 percent of the underwriting gain for the taxable year, plus

(C) if the concentrated windstorm, etc., premium percentage for the taxable year exceeds 40 percent, an amount determined by applying so much of such percentage as exceeds 40 percent to the underwriting gain for the taxable year.

For purposes of this paragraph, the term "underwriting gain" means statutory underwriting income, computed without any deduction under this subsection.

(2) SPECIAL RULE FOR COMPANIES HAVING CONCENTRATED WINDSTORM, ETC., RISKS.—For purposes of paragraph (1)(C), the term "concentrated windstorm, etc., premium percentage" means, with respect to any taxable year, the percentage obtained by dividing—

(A) the amount of the premiums earned on insurance contracts during the taxable year (as defined in section 832(b)(4)), to the extent attributable to insuring against losses arising, either in any one State or within 200 miles of any fixed point selected by the taxpayer, from windstorm, hail, flood, earthquake, or similar hazards, by

(B) the amount of the premiums earned on insurance contracts during the taxable year (as so defined).

(b) **PROTECTION AGAINST LOSS ACCOUNT.**—Each insurance company subject to the tax imposed by section 821(a) for any taxable year shall, for purposes of this part, establish and maintain a protection against loss account.

(c) **ADDITIONS TO ACCOUNT.**—There shall be added to the protection against loss account for each taxable year an amount equal to the amount allowable as a deduction for the taxable year under subsection (a)(1).

(d) **SUBTRACTIONS.**—

(1) **ANNUAL SUBTRACTIONS.**—After applying subsection (c), there shall be subtracted for the taxable year from the protection against loss account—

(A) first, an amount equal to the excess (if any) of the deduction allowed under subsection (a) for the taxable year over the underwriting gain (within the meaning of subsection (a)(1)) for the taxable year,

(B) then, the amount (if any) by which—

(i) the sum of the investment loss for such year and the statutory underwriting loss (reduced by the amount referred to in subparagraph (A)) for such year, exceeds

(ii) the sum of the statutory underwriting income for such taxable year and the taxable investment income for such taxable year,

(C) next (in the order in which the losses occurred), amounts equal to the unused loss carryovers to such year,

(D) next, any amount remaining which was added to the account for the fifth preceding taxable year, minus one-half of the amount remaining in the account for such taxable year which was added by reason of subsection (a)(1)(B), and

(E) finally, the amount by which the total amount in the account exceeds whichever of the following is the greater:

(i) 10 percent of premiums earned on insurance contracts during the taxable year (as defined in section 832(b)(4)) less dividends to policyholders (as defined in section 832(c)(11)), or

(ii) the total amount in the account at the close of the preceding taxable year.

(2) **RULES FOR CEILING ON PROTECTION AGAINST LOSS ACCOUNT.**—For purposes of paragraph (1)(E), the total amount in the account shall be determined—

(A) after the application of this section without regard to paragraph (1)(E), and

(B) without taking into consideration amounts remaining in the account which were added, with respect to all taxable years, by reason of subsection (a)(1)(C).

(3) **PRIORITIES.**—The amounts required to be subtracted from the protection against loss account—

(A) under subparagraphs (A), (B), and (C) of paragraph (1) shall be subtracted—

(i) first (on a first-in, first-out, basis) from amounts in the account with respect to the five preceding taxable years and the taxable year, and

(ii) then from amounts in the account with respect to earlier years,

(B) under subparagraph (E) of paragraph (1) shall be subtracted only from amounts in the account with respect to the taxable year, and

(C) under paragraphs (A), (B), (C), and (E) of paragraph (1) shall, if the amount to be subtracted from the total amounts in the account with respect to any taxable year is less than such total, be subtracted from each of the amounts (referred to in subsection (a)(1)) in the account with respect to such year in the proportion which each bears to such total.

(4) **TERMINATION OF TAXABILITY UNDER SECTION 821.**—If the taxpayer is not subject to tax under section 821 for any taxable year, the entire amount in the account at the close of the preceding taxable year shall be subtracted from the account in such preceding taxable year.

(5) **ELECTION TO SUBTRACT AMOUNT FROM ACCOUNT.**—

(A) A taxpayer may elect for any taxable year for which it is subject to tax under section 821 (a) to subtract from its protection against loss account any amount which, but for the application of this subparagraph, would be in such account as of the close of such taxable year.

(B) The election provided by subparagraph (A) for any taxable year shall be made (in such manner and in such form as the Secretary or his delegate may by regulations prescribe) after the close of such taxable year and not later than the time prescribed by law for filing the return (including extensions thereof) for the taxable year following such taxable year. Such an election, once made, may not be revoked.

SEC. 825. UNUSED LOSS DEDUCTION.

(a) **AMOUNT OF DEDUCTION.**—For purposes of this part, the unused loss deduction for the taxable year shall be an amount equal to the unused loss carryovers or carrybacks to the taxable year.

(b) **UNUSED LOSS DEFINED.**—For purposes of this part, the term “unused loss” means, with respect to any taxable year, the amount (if any) by which—

(1) the sum of the statutory underwriting loss and the investment loss, exceeds

(2) the sum of—

(A) the taxable investment income,

(B) the statutory underwriting income, and

(C) the amounts required by section 824(d) to be subtracted from the protection against loss account.

(c) **LOSS YEAR DEFINED.**—For purposes of this part, the term “loss year” means, with respect to any company subject to the tax imposed by section 821 (a), any taxable year in which the unused loss (as defined in subsection (b)) of such taxpayer is more than zero.

(d) **YEARS TO WHICH CARRIED.**—The unused loss for any loss year shall be—

(1) an unused loss carryback to each of the 3 taxable years preceding the loss year, and

(2) an unused loss carryover to each of the 5 taxable years following the loss year.

(e) **AMOUNT OF CARRYBACKS AND CARRYOVERS.**—The entire amount of the unused loss for any loss year shall be carried to the earliest of the taxable years to which such loss may be carried. The portion of such loss which shall be carried to each of the other taxable years shall be the excess (if any) of the amount of such loss over the sum of the offsets (as defined in subsection (f)) for each of the prior taxable years to which such loss may be carried.

(f) **OFFSET DEFINED.**—For purposes of subsection (e), the term “offset” means with respect to any taxable year (hereinafter referred to as the “offset year”)—

(1) in the case of an unused loss carryback from the loss year to the offset year, the mutual insurance company taxable income for the offset year; or

(2) in the case of an unused loss carryover from the loss year to the offset year, an amount equal to the sum of—

“(A) the amount required to be subtracted from the protection against loss account under section 824(d) (1) (C) for the offset year, plus

“(B) the mutual insurance company taxable income for the offset year.

For purposes of paragraphs (1) and (2) (B), the mutual insurance company taxable income for the offset year shall be determined without regard to any unused loss carryback or carryover from the loss year or any taxable year thereafter.

(g) **LIMITATIONS.**—For purposes of this part, an unused loss shall not be carried—

(1) to or from any taxable year beginning before January 1, 1963,

(2) to or from any taxable year for which the insurance company is not subject to the tax imposed by section 821 (a), nor

(3) to any taxable year if, between the loss year and such taxable year, there is an intervening taxable year for which the insurance company was not subject to the tax imposed by section 821(a).

SEC. 826. ELECTION BY RECIPROCAL.

(a) IN GENERAL.—Except as otherwise provided in this section, any mutual insurance company which is an interinsurer or reciprocal underwriter (hereinafter in this section referred to as a 'reciprocal') subject to the taxes imposed by section 821(a) may, under regulations prescribed by the Secretary or his delegate, elect to be subject to the limitation provided in subsection (b). Such election shall be effective for the taxable year for which made and for all succeeding taxable years, and shall not be revoked except with the consent of the Secretary or his delegate.

(b) LIMITATION.—The deduction for amounts paid or incurred in the taxable year to the attorney-in-fact by a reciprocal making the election provided in subsection (a) shall be limited to, but in no case increased by, the deductions of the attorney-in-fact allocable, in accordance with regulations prescribed by the Secretary or his delegate, to the income received by the attorney-in-fact from the reciprocal.

(c) EXCEPTION.—An election may not be made by a reciprocal under subsection (a) unless the attorney-in-fact of such reciprocal—

(1) is subject to the taxes imposed by section 11 (b) and (c);

(2) consents in such manner as the Secretary or his delegate shall prescribe by regulations to make available such information as may be required during the period in which the election provided in subsection (a) is in effect, under regulations prescribed by the Secretary or his delegate;

(3) reports the income received from the reciprocal and the deductions allocable thereto under the same method of accounting under which the reciprocal reports deductions for amounts paid to the attorney-in-fact; and

(4) files its return on the calendar year basis.

(d) SPECIAL RULE.—In applying section 824(d)(1)(D), any amount which was added to the protection against loss account by reason of an election under this section shall be treated as having been added by reason of section 824(a)(1)(A).

(e) CREDIT.—Any reciprocal electing to be subject to the limitation provided in subsection (b) shall be credited with so much of the tax paid by the attorney-in-fact as is attributable, under regulations prescribed by the Secretary or his delegate, to the income received by the attorney-in-fact from the reciprocal in such taxable year.

(f) SURTAX EXEMPTION DENIED.—Any increase in taxable income of a reciprocal attributable to the limitation provided in subsection (b) shall be taxed without regard to the surtax exemption provided in section 821(a)(2).

(g) ADJUSTMENT FOR REFUND.—If for any taxable year an attorney-in-fact is allowed a credit or refund for taxes paid with respect to which credit or refund to the reciprocal resulted under subsection (e), the taxes of such reciprocal for such taxable year shall be properly adjusted under regulations prescribed by the Secretary or his delegate.

(h) TAXES OF ATTORNEY-IN-FACT UNAFFECTED.—Nothing in this section shall increase or decrease the taxes imposed by this chapter on the income of the attorney-in-fact.

(d) EXEMPTION FROM TAX.—Section 501(c)(15) (relating to exemption from tax of certain mutual insurance companies) is amended by striking out "\$75,000" and in lieu thereof inserting "\$150,000".

(e) MUTUAL FIRE INSURANCE COMPANIES OPERATING ON BASIS OF PREMIUM DEPOSITS.—

(1) APPLICATION OF SECTION 831(a).—Section 831(a) (imposing a tax on certain mutual marine and fire insurance companies and on stock insurance companies which are not life insurance companies) is amended to read as follows:

(a) IMPOSITION OF TAX.—Taxes computed as provided in section 11 shall be imposed for each taxable year or the taxable income of—

- (1) every insurance company (other than a life or mutual insurance company),
- (2) every mutual marine insurance company, and
- (3) every mutual fire or flood insurance company—
 - (A) exclusively issuing perpetual policies, or
 - (B) whose principal business is the issuance of policies for which the premium deposits are the same, regardless of the length of the term for which the policies are written, if the unabsorbed portion of such premium deposits not required for losses, expenses, or establishment of reserves is returned or credited to the policyholder on cancellation or expiration of the policy.

(2) **TREATMENT OF UNABSORBED PREMIUM DEPOSITS.**—Section 832(b)(4) (relating to definition of premiums earned) is amended by adding at the end thereof the following new sentence: “For purposes of this subsection, unearned premiums of mutual fire or flood insurance companies described in section 831(a)(3)(B) means (with respect to the policies described in section 831(a)(3)(B)) the amount of unabsorbed premium deposits which the company would be obligated to return to its policyholders at the close of the taxable year if all of its policies were terminated at such time; and the determination of such amount shall be based on the schedule of unabsorbed premium deposit returns for each such company then in effect. Premiums paid by the subscriber of a mutual flood insurance company referred to in paragraph (3) of section 831(a) shall be treated, for purposes of computing the taxable income of such subscriber, in the same manner as premiums paid by a policyholder to a mutual fire insurance company referred to in such paragraph (3).”

(3) **CONFORMING AMENDMENT.**—Section 832(b)(1)(C) is amended by striking out “section 831(a),” and inserting in lieu thereof “section 831(a)(3)(A),”.

(4) **ADJUSTMENT OF PREMIUM DEPOSIT.**—Section 832(c)(11) is amended to read as follows:

(11) dividends and similar distributions paid or declared to policyholders in their capacity as such, except in the case of a mutual fire insurance company described in section 831(a)(3)(A). For purposes of the preceding sentence, the term “dividends and similar distributions” includes amounts returned or credited to policyholders on cancellation or expiration of policies described in section 831(a)(3)(B). For purposes of this paragraph, the term “paid or declared” shall be construed according to the method of accounting regularly employed in keeping the books of the insurance company; and.

(5) **ADDITIONAL ITEM OF INCOME.**—Section 832(b)(1) is amended by striking out “and” at the end of subparagraph (B), by striking out the period at the end of subparagraph (C) and inserting in lieu thereof “, and”, and by adding at the end thereof the following new subparagraph:

(D) in the case of a mutual fire or flood insurance company described in section 831(a)(3)(B), an amount equal to 2 percent of the premiums earned on insurance contracts during the taxable year with respect to policies described in section 831(a)(3)(B) after deduction of premium deposits returned or credited during the same taxable year.

(f) **ELECTION OF CERTAIN MUTUAL COMPANIES TO BE TAXED ON TOTAL INCOME.**—Section 831 is amended by redesignating subsection (c) as subsection (d), and by inserting after subsection (b) the following new subsection:

(c) **ELECTION FOR MULTIPLE LINE COMPANY TO BE TAXED ON TOTAL INCOME.**—

(1) **IN GENERAL.**—Any mutual insurance company engaged in writing marine, fire, and casualty insurance which for any 5-year period beginning after December 31, 1941, and ending before January 1, 1962, was subject to the tax imposed by section 831 (or the tax imposed by corresponding provisions of prior law) may elect, in such manner and at such time as the Secretary or his delegate may by regulations prescribe, to be subject to the tax imposed by section 831, whether or not marine insurance is its predominant source of premium income.

(2) **EFFECT OF ELECTION.**—If an election is made under paragraph (1), the electing company shall (in lieu of being subject to the tax imposed by section 821) be subject to the tax imposed by this section for taxable years beginning after December 31, 1961. Such election shall not be revoked except with the consent of the Secretary or his delegate.

(g) **TECHNICAL AMENDMENTS, ETC.**

(1) **CREDIT FOR FOREIGN TAXES.**—Section 841 (relating to credit for foreign taxes) is amended by striking out “and” at the end of paragraph (1), by renumbering paragraph (2) as paragraph (3), and by inserting after paragraph (1) the following new paragraph:

(2) in the case of the tax imposed by section 821(a), the mutual insurance company taxable income (as defined in section 821(b)); and in the case of the tax imposed by section 821(c), the taxable investment income (as defined in section 822(a)), and.

(2) **ADJUSTMENTS TO BASIS FOR DEPRECIATION SUSTAINED.**—Section 1016(a)(3) (relating to adjustments to basis for depreciation, etc., sustained) is amended by striking out “and” at the end of subparagraph (B), by inserting “and” at the end of subparagraph (C), and by inserting after subparagraph (C) the following new subparagraph:

(D) since February 28, 1913, during which such property was held by a person subject to tax under part II of subchapter L (or the corresponding provisions of prior income tax laws), to the extent that paragraph (2) does not apply.

(3) **ALTERNATIVE TAX ON CAPITAL GAINS.**—Section 1201(a) (relating to alternative tax on corporations) is amended by striking out “821 (a) (1) or (b),” and inserting in lieu thereof “821 (a) or (c),”.

(4) **CLERICAL AMENDMENTS.**—

(A) The table of parts for subchapter L is amended by striking out the portion referring to part II and inserting in lieu thereof the following:

Part II. Mutual insurance companies (other than life and certain marine insurance companies and other than fire or flood insurance companies which operate on basis of perpetual policies or premium deposits.

(B) The heading to section 831 is amended to read as follows:

SEC. 831. TAX ON INSURANCE COMPANIES (OTHER THAN LIFE OR MUTUAL), MUTUAL MARINE INSURANCE COMPANIES, AND CERTAIN MUTUAL FIRE OR FLOOD INSURANCE COMPANIES.

(C) The Table of sections for part III of subchapter L is amended by striking out the portion referring to section 831 and inserting in lieu thereof the following:

Sec. 831. Tax on insurance companies (other than life or mutual), mutual marine insurance companies, and certain mutual fire or flood insurance companies.

(h) **EFFECTIVE DATE.**—The amendments made by this section (other than by subsection (f)) shall apply with respect to taxable years beginning after December 31, 1962.

SEC. 9. DOMESTIC CORPORATIONS RECEIVING DIVIDENDS FROM FOREIGN CORPORATIONS.

(a) **FOREIGN TAXES DEEMED PAID BY DOMESTIC CORPORATIONS.**—Section 902 (relating to credit for corporate stockholder in foreign corporations) is amended to read as follows:

SEC. 902. CREDIT FOR CORPORATE STOCKHOLDER IN FOREIGN CORPORATION.

(a) **TREATMENT OF TAXES PAID BY FOREIGN CORPORATION.**—For purposes of this subpart, a domestic corporation which owns at least 10 percent of the voting stock of a foreign corporation from which it receives dividends in any taxable year shall—

(1) to the extent such dividends are paid by such foreign corporation out of accumulated profits (as defined in subsection (c) (1) (A) of a year for which such foreign corporation is not a less developed country corporation, be deemed to have paid the same proportion of any income, war profits, or excess profits taxes paid or deemed to be paid by such foreign corporation to any foreign country or to any possession of the United States on or with respect to such accumulated profits, which the amount of such dividends (determined without regard to section 78) bears to the amount of such accumulated profits in excess of such income, war profits, and excess profits taxes (other than those deemed paid); and

(2) to the extent such dividends are paid by such foreign corporation out of accumulated profits (as defined in subsection (c) (1) (B)) of a year for which such foreign corporation is a less developed country corporation, be deemed to have paid the same proportion of any income, war profits, or excess profits taxes paid or deemed to be paid by such foreign corporation to any foreign country or to any possession of the United States on or with respect to such accumulated profits, which the amount of such dividends bears to the amount of such accumulated profits.

(b) **FOREIGN SUBSIDIARY OF FOREIGN CORPORATION.**—If such foreign corporation owns 50 percent or more of the voting stock of another foreign corporation from which it receives dividends in any taxable year, it shall be deemed to have paid the same proportion of any income, war profits, or excess profits taxes paid by such other foreign corporation to any foreign country or to any possession of the United States, on or with respect to the accumulated profits of the corporation from which such dividends were paid which—

(1) for purposes of applying subsection (a) (1), the amount of such dividends bears to the amount of the accumulated profits (as defined in subsection (c) (1) (A)) of such other foreign corporation from which such dividends were paid in excess of such income, war profits, and excess profits taxes, or

(2) for purposes of applying subsection (a) (2), the amount of such dividends bears to the amount of the accumulated profits (as defined in subsection (c) (1) (B)) of such other foreign corporation from which such dividends were paid.

(c) **APPLICABLE RULES.**—

(1) **ACCUMULATED PROFITS DEFINED.**—For purposes of this section, the term “accumulated profits” means with respect to any foreign corporation—

(A) for purposes of subsections (a) (1) and (b) (1), the amount of its gains, profits, or income computed without reduction by the amount of the income, war profits, and excess profits taxes imposed on or with

respect to such profits or income by any foreign country or any possession of the United States; and

(B), for purposes of subsections (a) (2) and (b) (2), the amount of its gains, profits, or income in excess of the income, war profits, and excess profits taxes imposed on or with respect to such profits or income.

The Secretary or his delegate shall have full power to determine from the accumulated profits of what year or years such dividends were paid, treating dividends paid in the first 60 days of any year as having been paid from the accumulated profits of the preceding year or years (unless to his satisfaction shown otherwise), and in other respects treating dividends as having been paid from the most recently accumulated gains, profits, or earnings.

(2) ACCOUNTING PERIODS.—In the case of a foreign corporation, the income, war profits, and excess profits taxes of which are determined on the basis of an accounting period of less than 1 year, the word "year" as used in this subsection shall be construed to mean such accounting period.

(d) LESS DEVELOPED COUNTRY CORPORATION DEFINED.—For purposes of this section, the term "less developed country corporation" means—

(1) a foreign corporation which, for its taxable year, is a less developed country corporation within the meaning of section 955(c) (1) or (2), and

(2) a foreign corporation which owns 10 percent or more of the total combined voting power of all classes of stock entitled to vote of a foreign corporation which is a less developed country corporation within the meaning of section 955(c) (1), and—

(A) 80 percent or more of the gross income of which for its taxable year meets the requirement of section 955(c) (1) (A); and

(B) 80 percent or more in value of the assets of which on each day of such year consists of property described in section 955(c) (1) (B).

A foreign corporation which is a less developed country corporation for its first taxable year beginning after December 31, 1962, shall, for purposes of this section, be treated as having been a less developed country corporation for each of its taxable years beginning before January 1, 1963.

(e) CROSS REFERENCES.—

(1) For inclusion in gross income of an amount equal to taxes deemed paid under subsection (a) (1), see section 78.

(2) For application of subsections (a) and (b) with respect to taxes deemed paid in a prior taxable year by a United States shareholder with respect to a controlled foreign corporation, see section 960.

(3) For reduction of credit with respect to dividends paid out of accumulated profits for years for which certain information is not furnished, see section 6038.

(b) INCLUSION IN GROSS INCOME OF AMOUNT EQUAL TO TAXES DEEMED PAID.—Part II of subchapter B of chapter 1 (relating to items specifically included in gross income) is amended by adding at the end thereof the following new section:

SEC. 78. DIVIDENDS RECEIVED FROM CERTAIN FOREIGN CORPORATIONS BY DOMESTIC CORPORATIONS CHOOSING FOREIGN TAX CREDIT.

If a domestic corporation chooses to have the benefits of subpart A of part III of subchapter N (relating to foreign tax credit) for any taxable year, an amount equal to the taxes deemed to be paid by such corporation under section 902(a) (1) (relating to credit for corporate stockholder in foreign corporation) or under section 960(a) (1) (C) (relating to taxes paid by foreign corporation) for such taxable year shall be treated for purposes of this title (other than section 245) as a dividend received by such domestic corporation from the foreign corporation.

(c) DETERMINATION OF SOURCE OF DIVIDENDS RECEIVED FROM CERTAIN FOREIGN CORPORATIONS.—Section 861(a) (2) (B) (relating to dividends from foreign corporations treated as income from sources within the United States) is amended by striking out "to the extent exceeding the amount of the deduction allowable under section 245 in respect of such dividends" and inserting in lieu thereof "to the

extent exceeding the amount which is 100/85ths of the amount of the deduction allowable under section 245 in respect of such dividends".

(d) **TECHNICAL AMENDMENTS.**—

(1) The table of sections for part II of subchapter B of chapter 1 is amended by adding at the end thereof the following:

Sec. 78. Dividends received from certain foreign corporations by domestic corporations choosing foreign tax credit.

(2) Section 535(b)(1) and the first sentence of section 545(b)(1) are each amended by striking out "accrued during the taxable year," and inserting in lieu thereof "accrued during the taxable year or deemed to be paid by a domestic corporation under section 902(a)(1) or 960(a)(C) for the taxable year,".

(3) Section 901(d) is amended by adding the following new paragraph:

(4) For reduction of credit for failure of a United States person to furnish certain information with respect to a foreign corporation controlled by him, see section 6038.

(e) **EFFECTIVE DATE.**—The amendments made by this section shall apply—

(1) in respect of any distribution received by a domestic corporation after December 31, 1964, and

(2) in respect of any distribution received by a domestic corporation before January 1, 1965, in a taxable year of such corporation beginning after December 31, 1962, but only to the extent that such distribution is made out of the accumulated profits of a foreign corporation for a taxable year (of such foreign corporation) beginning after December 31, 1962.

For purposes of paragraph (2), a distribution made by a foreign corporation out of its profits which are attributable to a distribution received from a foreign subsidiary to which section 902(b) applies shall be treated as made out of the accumulated profits of a foreign corporation for a taxable year beginning before January 1, 1963, to the extent that such distribution was paid out of the accumulated profits of such foreign subsidiary for a taxable year beginning before January 1, 1963.

SEC. 10. SEPARATE LIMITATION ON FOREIGN TAX CREDIT WITH RESPECT TO CERTAIN INTEREST INCOME.

(a) **LIMITATION ON FOREIGN TAX CREDIT.**—Section 904 (relating to limitations on foreign tax credit) is amended by redesignating subsection (f) as subsection (g) and by inserting after subsection (e) the following new subsection:

(f) **APPLICATION OF SECTION IN CASE OF CERTAIN INTEREST INCOME.**—

(1) **IN GENERAL.**—The provisions of subsections (a), (c), (d), and (e) of this section shall be applied separately with respect to—

(A) the interest income described in paragraph (2), and

(B) income other than the interest income described in paragraph (2).

(2) **INTEREST INCOME TO WHICH APPLICABLE.**—For purposes of this subsection, the interest income described in this paragraph is interest other than interest—

(A) derived from any transaction which is directly related to the active conduct of a trade or business in a foreign country or a possession of the United States,

(B) derived in the conduct of a banking, financing, or similar business,
 (C) received from a corporation in which the taxpayer owns at least 10 percent of the voting stock, or

(D) received on obligations acquired as a result of the disposition of a trade or business actively conducted by the taxpayer in a foreign country or possession of the United States or as a result of the disposition of stock or obligations of a corporation in which the taxpayer owned at least 10 percent of the voting stock.

(3) OVERALL LIMITATION NOT TO APPLY.—The limitation provided by subsection (a) (2) shall not apply with respect to the interest income described in paragraph (2). The Secretary or his delegate shall by regulations prescribe the manner of application of subsection (e) with respect to cases in which the limitation provided by subsection (a) (2) applies with respect to income other than the interest income described in paragraph (2).

(4) TRANSITIONAL RULES FOR CARRYBACKS AND CARRYOVERS.—

(A) CARRYBACKS TO YEARS PRIOR TO REVENUE ACT OF 1962.—Where, under the provisions of subsection (d), taxes (i) paid or accrued to any foreign country or possession of the United States in any taxable year beginning after the date of the enactment of the Revenue Act of 1962 are deemed (ii) paid or accrued in one or more taxable years beginning on or before the date of enactment of the Revenue Act of 1962, the amount of such taxes deemed paid or accrued shall be determined without regard to the provisions of this subsection. To the extent the taxes paid or accrued to a foreign country or possession of the United States in any taxable year described in clause (i) are not, with the application of the preceding sentence, deemed paid or accrued in any taxable year described in clause (ii), such taxes shall, for purposes of applying subsection (d), be deemed paid or accrued in a taxable year beginning after the date of the enactment of the Revenue Act of 1962, with respect to interest income described in paragraph (2), and with respect to income other than interest income described in paragraph (2), in the same ratios as the amount of such taxes paid or accrued with respect to interest income described in paragraph (2), and the amount of such taxes paid or accrued with respect to income other than interest income described in paragraph (2), respectively, bear to the total amount of such taxes paid or accrued to such foreign country or possession of the United States.

(B) CARRYOVERS TO YEARS AFTER REVENUE ACT OF 1962.—Where, under the provisions of subsection (d), taxes (i) paid or accrued to any foreign country or possession of the United States in any taxable year beginning on or before the date of the enactment of the Revenue Act of 1962 are deemed (ii) paid or accrued in one or more taxable years beginning after the date of the enactment of the Revenue Act of 1962, the amount of such taxes deemed paid or accrued in any year described in clause (ii) shall, with respect to interest income described in paragraph (2), be an amount which bears the same ratio to the amount of such taxes deemed paid or accrued as the amount of the taxes paid or accrued to such foreign country or possession for such year with respect to interest income described in paragraph (2) bears to the total amount of the taxes paid or accrued to such foreign country or possession for such year; and the amount of such taxes deemed paid or accrued in any year described in clause (ii) with respect to income other than interest income described in paragraph (2) shall be an amount which bears the same ratio to the amount of such taxes deemed paid or accrued for such year as the amount of taxes paid or accrued to such foreign country or possession for such year with respect to income other than interest income described in paragraph (2) bears to the total amount of the taxes paid or accrued to such foreign country or possession for such year.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to taxable years beginning after the date of the enactment of this Act, but only with respect to interest resulting from transactions consummated after April 2, 1962.

SEC. 11. EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES.

(a) **LIMITATION ON AMOUNT AND TYPE OF INCOME EXCLUDED.**—Section 911 (relating to earned income from sources without the United States) is amended to read as follows:

SEC. 911. EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES.

(a) **GENERAL RULE.**—The following items shall not be included in gross income and shall be exempt from taxation under this subtitle:

(1) **BONA FIDE RESIDENT OF FOREIGN COUNTRY.**—In the case of an individual citizen of the United States who establishes to the satisfaction of the Secretary or his delegate that he has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, amounts received from sources without the United States (except amounts paid by the United States or any agency thereof) which constitute earned income attributable to services performed during such uninterrupted period. The amount excluded under this paragraph for any taxable year shall be computed by applying the special rules contained in subsection (c).

(2) **PRESENCE IN FOREIGN COUNTRY FOR 17 MONTHS.**—In the case of an individual citizen of the United States who during any period of 18 consecutive months is present in a foreign country or countries during at least 510 full days in such period, amounts received from sources without the United States (except amounts paid by the United States or any agency thereof) which constitute earned income attributable to services performed during such 18-month period. The amount excluded under this paragraph for any taxable year shall be computed by applying the special rules contained in subsection (c).

An individual shall not be allowed, as a deduction from his gross income, any deductions (other than those allowed by section 151, relating to personal exemptions) properly allocable to or chargeable against amounts excluded from gross income under this subsection.

(b) **DEFINITION OF EARNED INCOME.**—For purposes of this section, the term "earned income" means wages, salaries, or professional fees, and other amounts received as compensation for personal services actually rendered, but does not include that part of the compensation derived by the taxpayer for personal services rendered by him to a corporation which represents a distribution of earnings or profits rather than a reasonable allowance as compensation for the personal services actually rendered. In the case of a taxpayer engaged in a trade or business in which both personal services and capital are material income-producing factors, under regulations prescribed by the Secretary or his delegate, a reasonable allowance as compensation for the personal services rendered by the taxpayer, not in excess of 30 percent of his share of the net profits of such trade or business, shall be considered as earned income.

(c) **SPECIAL RULES.**—For purposes of computing the amount excludable under subsection (a), the following rules shall apply:

(1) **LIMITATIONS ON AMOUNT OF EXCLUSION.**—The amount excluded from the gross income of an individual under subsection (a) for any taxable year shall not exceed an amount which shall be computed on a daily basis at an annual rate of—

(A) except as provided in subparagraph (B), \$20,000 in the case of an individual who qualifies under subsection (a), or

(B) \$35,000 in the case of an individual who qualifies under subsection (a) (1), but only with respect to that portion of such taxable year occurring after such individual has been a bona fide resident of a foreign country or countries for an uninterrupted period of 3 consecutive years.

(2) **ATTRIBUTION TO YEAR IN WHICH SERVICES ARE PERFORMED.**—For purposes of applying paragraph (1), amounts received shall be considered received in the taxable year in which the services to which the amounts are attributable are performed.

(3) **TREATMENT OF COMMUNITY INCOME.**—In applying paragraph (1) with respect to amounts received for services performed by a husband or wife which are community income under community property laws applicable to such income, the aggregate amount excludable under subsection (a) from the

gross income of such husband and wife shall equal the amount which would be excludable if such amounts did not constitute such community income.

(4) REQUIREMENT AS TO TIME OF RECEIPT.—No amount received after the close of the taxable year following the taxable year in which the services to which the amounts are attributable are performed may be excluded under subsection (a).

(5) CERTAIN AMOUNTS NOT EXCLUDABLE.—No amount—

(A) received as a pension or annuity, or

(B) included in gross income by reason of section 402(b) (relating to taxability of beneficiary of non-exempt trust), section 403(c) (relating to taxability of beneficiary under a non-qualified annuity), or section 403(d) (relating to taxability of beneficiary under certain forfeitable contracts purchased by exempt organizations), may be excluded under subsection (a).

(6) TEST OF BONA FIDE RESIDENCE.—A statement by an individual who has earned income from sources within a foreign country to the authorities of that country that he is not a resident of that country, if he is held not subject as a resident of that country to the income tax of that country by its authorities with respect to such earnings, shall be conclusive evidence with respect to such earnings that he is not a bona fide resident of that country for purposes of subsection (a) (1).

(7) CERTAIN NONCASH REMUNERATION.—If an individual who qualifies under subsection (a) (1) receives compensation from sources without the United States (except from the United States or any agency thereof) in the form of the right to use property or facilities, the limitation under paragraph (1) applicable with respect to such individual—

(A) for a taxable year ending in 1963 shall be increased by an amount equal to the amount of such compensation so received during such taxable year;

(B) for a taxable year ending in 1964, shall be increased by an amount equal to two-thirds of such compensation so received during such taxable year; and

(C) for a taxable year ending in 1965, shall be increased by an amount equal to one-third of such compensation so received during such taxable year.

(d) CROSS REFERENCES.—For administrative and penal provisions relating to the exclusion provided for in this section, see sections 6001, 6011, 6012(c), and the other provisions of subtitle F.

(b) COMPUTATION OF EMPLOYEES' CONTRIBUTIONS.—Section 72(f) (relating to special rules for computing employees' contributions) is amended by adding after paragraph (2) the following new sentences: "Paragraph (2) shall not apply to amounts which were contributed by the employer after December 31, 1962, and which would not have been includible in the gross income of the employee by reason of the application of section 911 if such amounts had been paid directly to the employee at the time of contribution. The preceding sentence shall not apply to amounts which were contributed by the employer, as determined under regulations prescribed by the Secretary or his delegate, to provide pension or annuity credits, to the extent such credits are attributable to services performed before January 1, 1963, and are provided pursuant to pension or annuity plan provisions in existence on March 12, 1962, and on that date applicable to such services.

(c) EFFECTIVE DATES.—

(1) AMENDMENT TO SECTION 911.—The amendment made by subsection (a) shall apply to taxable years ending after September 4, 1962, but only with respect to amounts—

(A) received after March 12, 1962, which are attributable to services performed after December 31, 1962, or

(B) received after December 31, 1962, which are attributable to services performed on or before December 31, 1962, unless on March 12, 1962, there existed a right (whether forfeitable or nonforfeitable) to receive such amounts.

(2) **AMENDMENT TO SECTION 72(f).**—The amendment made by subsection (b) shall apply to taxable years ending after December 31, 1962.

SEC. 12. CONTROLLED FOREIGN CORPORATIONS.

(a) **IN GENERAL.**—Part III of subchapter N of chapter 1 (relating to income from sources without the United States) is amended by adding at the end thereof the following new subparts:

Subpart F—Controlled Foreign Corporations

Sec. 951. Amounts included in gross income of United States shareholders.

Sec. 952. Subpart F income defined.

Sec. 953. Income from insurance of United States risks.

Sec. 954. Foreign base company income.

Sec. 955. Withdrawal of previously excluded subpart F income from qualified investment.

Sec. 956. Investment of earnings in United States property.

Sec. 957. Controlled foreign corporations; United States persons.

Sec. 958. Rules for determining stock ownership.

Sec. 959. Exclusion from gross income of previously taxed earnings and profits.

Sec. 960. Special rules for foreign tax credit.

Sec. 961. Adjustments to basis of stock in controlled foreign corporations and of other property.

Sec. 962. Election by individuals to be subject to tax at corporate rates.

Sec. 963. Receipt of minimum distributions by domestic corporations.

Sec. 964. Miscellaneous provisions.

SEC. 951. AMOUNTS INCLUDED IN GROSS INCOME OF UNITED STATES SHAREHOLDERS.

(a) AMOUNTS INCLUDED.—

(1) **IN GENERAL.**—If a foreign corporation is a controlled foreign corporation for an uninterrupted period of 30 days or more during any taxable year beginning after December 31, 1962, every person who is a United States shareholder (as defined in subsection (b)) of such corporation and who owns (within the meaning of section 958(a)) stock in such corporation on the last day, in such year, on which such corporation is a controlled foreign corporation shall include in his gross income, for his taxable year in which or with which such taxable year of the corporation ends—

(A) the sum of—

(i) except as provided in section 963, his pro rata share (determined under paragraph (2)) of the corporation's subpart F income for such year, and

(ii) his pro rata share (determined under section 955(a)(3)) of the corporation's previously excluded subpart F income withdrawn from investment in less developed countries for such year; and

(B) his pro rata share (determined under section 956(a)(2)) of the corporation's increase in earnings invested in United States property for such year (but only to the extent not excluded from gross income under section 959(a)(2)).

(2) **PRO RATA SHARE OF SUBPART F INCOME.**—The pro rata share referred to in paragraph (1)(A)(i) in the case of any United States shareholders is the amount—

(A) which would have been distributed with respect to the stock which such shareholder owns (within the meaning of section 958(a))

in such corporation if on the last day, in its taxable year, on which the corporation is a controlled foreign corporation it had distributed pro rata to its shareholders an amount (i) which bears the same ratio to its subpart F income for the taxable year, as (ii) the part of such year during which the corporation is a controlled foreign corporation bears to the entire year, reduced by

(B) the amount of distributions received by any other person during such year as a dividend with respect to such stock, but only to the extent of the dividend which would have been received if the distribution by the corporation had been the amount (i) which bears the same ratio to the subpart F income of such corporation for the taxable year, as (ii) the part of such year during which such shareholder did not own (within the meaning of section 958(a)) such stock bears to the entire year.

(3) **LIMITATION ON PRO RATA SHARE OF PREVIOUSLY EXCLUDED SUBPART F INCOME WITHDRAWN FROM INVESTMENT.**—For purposes of paragraph (1) (A) (ii), the pro rata share of any United States shareholder of the previously excluded subpart F income of a controlled foreign corporation withdrawn from investment in less developed countries shall not exceed an amount (A) which bears the same ratio to his pro rata share of such income withdrawn (as determined under section 955(a)(3)) for the taxable year, as (B) the part of such year during which the corporation is a controlled foreign corporation bears to the entire year.

(4) **LIMITATION ON PRO RATA SHARE OF INVESTMENT IN UNITED STATES PROPERTY.**—For purposes of paragraph (1) (B), the pro rata share of any United States shareholder in the increase of the earnings of a controlled foreign corporation invested in United States property shall not exceed an amount (A) which bears the same ratio to his pro rata share of such increase (as determined under section 956(a)(2)) for the taxable year, as (B) the part of such year during which the corporation is a controlled foreign corporation bears to the entire year.

(b) **UNITED STATES SHAREHOLDER DEFINED.**—For purposes of this subpart, the term "United States shareholder" means, with respect to any foreign corporation, a United States person (as defined in section 957(d)) who owns (within the meaning of section 958(a)), or is considered as owning by applying the rules of ownership of section 958(b), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such foreign corporation.

(c) **COORDINATION WITH ELECTION OF A FOREIGN INVESTMENT COMPANY TO DISTRIBUTE INCOME.**—A United States shareholder who, for his taxable year, is a qualified shareholder (within the meaning of section 1247(c)) of a foreign investment company with respect to which an election under section 1247 is in effect shall not be required to include in gross income, for such taxable year, any amount under subsection (a) with respect to such company.

(d) **COORDINATION WITH FOREIGN PERSONAL HOLDING COMPANY PROVISIONS.**—A United States shareholder who, for his taxable year, is subject to tax under section 551(b) (relating to foreign personal holding company income included in gross income of United States shareholders) on income of a controlled foreign corporation shall not be required to include in gross income, for such taxable year, any amount under subsection (a) with respect to such company.

SEC. 952. SUBPART F INCOME DEFINED.

(a) **IN GENERAL.**—For purposes of this subpart, the term "subpart F income" means, in the case of any controlled foreign corporation, the sum of—

(1) the income derived from the insurance of United States risks (as determined under section 953), and

(2) the foreign base company income (as determined under section 954).

(b) **EXCLUSION OF UNITED STATES INCOME.**—Subpart F income does not include any item includible in gross income under this chapter (other than this subpart) as income derived from sources within the United States of a foreign corporation engaged in trade or business in the United States.

(c) **LIMITATION.**—For purposes of subsection (a), the subpart F income of any controlled foreign corporation for any taxable year shall not exceed the earnings and profits of such corporation for such year reduced by the amount (if any) by which—

(1) an amount equal to—

(A) the sum of the deficits in earnings and profits for prior taxable years beginning after December 31, 1962, plus

(B) the sum of the deficits in earnings and profits for taxable years beginning after December 31, 1959, and before January 1, 1963 (reduced by the sum of the earnings and profits for such taxable years); exceeds

(2) an amount equal to the sum of the earnings and profits for prior taxable years beginning after December 31, 1962, allocated to other earnings and profits under section 959(c) (3).

For purposes of the preceding sentence, any deficit in earnings and profits for any prior taxable year shall be taken into account under paragraph (1) for any taxable year only to the extent it has not been taken into account under such paragraph for any preceding taxable year to reduce earnings and profits of such preceding year.

(d) SPECIAL RULE IN CASE OF INDIRECT OWNERSHIP.—For purposes of subsection (c), if—

(1) a United States shareholder owns (within the meaning of section 958(a)) stock of a foreign corporation, and by reason of such ownership owns (within the meaning of such section) stock of any other foreign corporation, and

(2) any of such foreign corporations has a deficit in earnings and profits for the taxable year.

then the earnings and profits for the taxable year of each such foreign corporation which is a controlled foreign corporation shall, with respect to such United States shareholder, be properly reduced to take into account any deficit described in paragraph (2) in such manner as the Secretary or his delegate shall prescribe by regulations.

SEC. 953. INCOME FROM INSURANCE OF UNITED STATES RISKS.

(a) GENERAL RULE.—For purposes of section 952(a) (1), the term "income derived from the insurance of United States risks" means that income which—

(1) is attributable to the reinsurance or the issuing of any insurance or annuity contract—

(A) in connection with property in, or liability arising out of activity in, or in connection with the lives or health of residents of, the United States, or

(B) in connection with risks not included in subparagraph (A) as the result of any arrangement whereby another corporation receives a substantially equal amount of premiums or other consideration in respect to any reinsurance or the issuing of any insurance or annuity contract in connection with property in, or liability arising out of activity in, or in connection with the lives or health of residents of, the United States, and

(2) would (subject to the modifications provided by paragraphs (1), (2), and (3) of subsection (b)) be taxed under subchapter L of this chapter if such income were the income of a domestic insurance corporation.

This section shall apply only in the case of a controlled foreign corporation which receives, during any taxable year, premiums or other consideration in respect of the reinsurance, and the issuing, of insurance and annuity contracts described in paragraph (1) in excess of 5 percent of the total of premiums and other consideration received during such taxable year in respect of all reinsurance and issuing of insurance and annuity contracts.

(b) SPECIAL RULES.—For purposes of subsection (a)—

(1) In the application of part I of subchapter L, life insurance company taxable income is the gain from operations as defined in section 809(b).

(2) A corporation which, would, if it were a domestic insurance corporation, be taxable under part II of subchapter L shall apply subsection (a) as if it were taxable under part III of subchapter L.

(3) The following provisions of subchapter L shall not apply:

(A) Section 809(d) (4) (operations loss deduction).

(B) Section 809(d) (5) (certain nonparticipating contracts).

(C) Section 809(d) (6) (group life, accident, and health insurance).

(D) Section 809(d) (10) (small business deduction).

(E) Section 817(b) (gain on property held on December 31, 1958, and certain substituted property acquired after 1958).

(F) Section 832(b) (5) (certain capital losses).

(4) The items referred to in—

(A) section 809(c) (1) (relating to gross amount of premiums and other considerations),

(B) section 809(c) (2) (relating to net decrease in reserves),

(C) section 809(d) (2) (relating to net increase in reserves), and

(D) section 832(b) (4) (relating to premiums earned on insurance contracts),

shall be taken into account only to the extent they are in respect of any reinsurance or the issuing of any insurance or annuity contract described in subsection (a) (1).

(5) All items of income, expenses, losses, and deductions (other than those taken into account under paragraph (4)) shall be properly allocated or apportioned under regulations prescribed by the Secretary or his delegate.

SEC. 954. FOREIGN BASE COMPANY INCOME.

(a) **FOREIGN BASE COMPANY INCOME.**—For purposes of section 952(a) (2), the term “foreign base company income” means for any taxable year the sum of—

(1) the foreign personal holding company income for the taxable year (determined under subsection (c) and reduced as provided in subsection (b) (5)),

(2) the foreign base company sales income for the taxable year (determined under subsection (d) and reduced as provided in subsection (b) (5), and

(3) the foreign base company services income for the taxable year (determined under subsection (e) and reduced as provided in subsection (b) (5)).

(b) **EXCLUSIONS AND SPECIAL RULES.**—

(1) **EXCLUSION OF CERTAIN DIVIDENDS, INTEREST, AND GAINS FROM QUALIFIED INVESTMENTS IN LESS DEVELOPED COUNTRIES.**—For purposes of subsection (a), foreign base company income does not include—

(A) dividends and interest received during the taxable year from investments which at the time of receipt are qualified investments in less developed countries (as defined in section 955(b)), or

(B) if the gains from the sale or exchange during the taxable year of investments which at the time of sale or exchange are qualified investments in less developed countries exceed the losses from the sale or exchange during the taxable year of such qualified investments, the amount by which such gains exceed such losses.

The preceding sentence shall apply only to the extent that the sum of the dividends and interest described in subparagraph (A) and the amount described in subparagraph (B) does not exceed the increase for the taxable year in qualified investments in less developed countries of the controlled foreign corporation (as determined under subsection (f)).

(2) **EXCLUSION OF CERTAIN SHIPPING INCOME.**—For purposes of subsection (a), foreign base company income does not include income derived from, or in connection with, the use (or hiring or leasing for use) of any aircraft or vessel in foreign commerce, or the performance of services directly related to the use of any such aircraft or vessel.

(3) **SPECIAL RULE WHERE FOREIGN BASE COMPANY INCOME IS LESS THAN 30 PERCENT OR MORE THAN 70 PERCENT OF GROSS INCOME.**—For purposes of subsection (a)—

(A) If the foreign base company income (determined without regard to paragraphs (1) and (5)) is less than 30 percent of gross income, no part of the gross income of the taxable year shall be treated as foreign base company income.

(B) If the foreign base company income (determined without regard to paragraphs (1) and (5)) exceeds 70 percent of gross income, the entire gross income of the taxable year shall, subject to the provisions of paragraphs (1), (2), (4), and (5), be treated as foreign base company income.

(4) **EXCEPTION FOR FOREIGN CORPORATIONS NOT AVAILABLE OF TO REDUCE TAXES.**—For purposes of subsection (a), foreign base company income does not include any item of income received by a controlled foreign corporation

if it is established to the satisfaction of the Secretary or his delegate with respect to such item that the creation or organization of the controlled foreign corporation receiving such item under the laws of the foreign country in which it is incorporated does not have the effect of substantial reduction of income, war profits, or excess profits taxes or similar taxes.

(5) DEDUCTIONS TO BE TAKEN INTO ACCOUNT.—For purposes of subsection (a), the foreign personal holding company income, the foreign base company sales income, and the foreign base company services income shall be reduced, under regulations prescribed by the Secretary or his delegate, so as to take into account deductions (including taxes) properly allocable to such income.

(c) FOREIGN PERSONAL HOLDING COMPANY INCOME.—

(1) IN GENERAL.—For purposes of subsection (a) (1), the term “foreign personal holding company income” means the foreign personal holding company income (as defined in section 553), modified and adjusted as provided in paragraphs (2), (3), and (4).

(2) RENTS INCLUDED WITHOUT REGARD TO 50 PERCENT LIMITATION.—For purposes of paragraph (1), all rents shall be included in foreign personal holding company income without regard to whether or not such rents constitute 50 percent or more of gross income.

(3) CERTAIN INCOME DERIVED IN ACTIVE CONDUCT OF TRADE OR BUSINESS.—For purposes of paragraph (1), foreign personal holding company income does not include—

(A) rents and royalties which are derived in the active conduct of a trade or business and which are received from a person other than a related person (within the meaning of subsection (d) (3)), or

(B) dividends, interest, and gains from the sale or exchange of stock or securities derived in the conduct of a banking, financing, or similar business, or derived from the investments made by an insurance company of its unearned premiums or reserves ordinary and necessary for the proper conduct of its insurance business, and which are received from a person other than a related person (within the meaning of subsection (d) (3)).

(4) CERTAIN INCOME RECEIVED FROM RELATED PERSONS.—For purposes of paragraph (1), foreign personal holding company income does not include—

(A) dividends and interest received from a related person which (i) is created or organized under the laws of the same foreign country under the laws of which the controlled foreign corporation is created or organized, and (ii) has a substantial part of its assets used in its trade or business located in such same foreign country;

(B) interest received in the conduct of a banking, financing, or similar business from a related person engaged in the conduct of a banking, financing, or similar business if the businesses of the recipient and the payor are predominantly with persons other than related persons; and

(C) rents, royalties, and similar amounts received from a related person for the use of, or the privilege of using, property within the country under the laws of which the controlled foreign corporation is created or organized.

(d) FOREIGN BASE COMPANY SALES INCOME.—

(1) IN GENERAL.—For purposes of subsection (a) (2), the term “foreign base company sales income” means income (whether in the form of profits, commissions, fees, or otherwise) derived in connection with the purchase of personal property from a related person and its sale to any person, the sale of personal property to any person on behalf of a related person, the purchase of personal property from any person and its sale to a related person, or the purchase of personal property from any person on behalf of a related person where—

(A) the property which is purchased (or in the case of property sold on behalf of a related person, the property which is sold) is manufactured, produced, grown, or extracted outside the country under the laws of which the controlled foreign corporation is created or organized, and

(B) the property is sold for use, consumption, or disposition outside such foreign country, or, in the case of property purchased on behalf of a related person, is purchased for use, consumption, or disposition outside such foreign country.

(2) **CERTAIN BRANCH INCOME.**—For purposes of determining foreign base company sales income in situations in which the carrying on of activities by a controlled foreign corporation through a branch or similar establishment outside the country of incorporation of the controlled foreign corporation has substantially the same effect as if such branch or similar establishment were a wholly owned subsidiary corporation deriving such income, under regulations prescribed by the Secretary or his delegate the income attributable to the carrying on of such activities of such branch or similar establishment shall be treated as income derived by a wholly owned subsidiary of the controlled foreign corporation and shall constitute foreign base company sales income of the controlled foreign corporation.

(3) **RELATED PERSON DEFINED.**—For purposes of this section, a person is a related person with respect to a controlled foreign corporation, if—

(A) such person is an individual, partnership, trust, or estate which controls the controlled foreign corporation;

(B) such person is a corporation which controls, or is controlled by, the controlled foreign corporation; or

(C) such person is a corporation which is controlled by the same person or persons which control the controlled foreign corporation.

For purposes of the preceding sentence, control means the ownership, directly or indirectly, of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote. For purposes of this paragraph, the rules for determining ownership of stock prescribed by section 958 shall apply.

(e) **FOREIGN BASE COMPANY SERVICES INCOME.**—For purposes of subsection (a) (3), the term "foreign base company services income" means income (whether in the form of compensation, commissions, fees, or otherwise) derived in connection with the performance of technical, managerial, engineering, architectural, scientific, skilled, industrial, commercial, or like services which—

(1) are performed for or on behalf of any related person (within the meaning of subsection (d) (3)), and

(2) are performed outside the country under the laws of which the controlled foreign corporation is created or organized.

The preceding sentence shall not apply to income derived in connection with the performance of services which are directly related to the sale or exchange by the controlled foreign corporation of property manufactured, produced, grown, or extracted by it and which are performed prior to the time of the sale or exchange, or of services directly related to an offer or effort to sell or exchange such property.

(f) **INCREASE IN QUALIFIED INVESTMENTS IN LESS DEVELOPED COUNTRIES.**—For purposes of subsection (b) (1), the increase for any taxable year in qualified investments in less developed countries of any controlled foreign corporation is the amount by which—

(1) the qualified investments in less developed countries (as defined in section 955(b)) of the controlled foreign corporation at the close of the taxable year, exceeds

(2) the qualified investments in less developed countries (as so defined) of the controlled foreign corporation at the close of the preceding taxable year.

SEC. 955. WITHDRAWAL OF PREVIOUSLY EXCLUDED SUBPART F INCOME FROM QUALIFIED INVESTMENT.

(a) **GENERAL RULES.**—

(1) **AMOUNT WITHDRAWN.**—For purposes of this subpart, the amount of previously excluded subpart F income of any controlled foreign corporation withdrawn from investment in less developed countries for any taxable year is an amount equal to the decrease in the amount of qualified investments in less developed countries of the controlled foreign corporation for such year, but only to the extent that the amount of such decrease does not exceed an amount equal to—

(A) the sum of the amounts excluded under section 954 (b) (1) from the foreign base company income of such corporation for all prior taxable years, reduced by

(B) the sum of the amounts of previously excluded subpart F income withdrawn from investment in less developed countries of such corporation determined under this subsection for all prior taxable years.

(2) **DECREASE IN QUALIFIED INVESTMENTS.**—For purposes of paragraph (1), the amount of the decrease in qualified investments in less developed countries of any controlled foreign corporation for any taxable year is the amount by which—

(A) the amount of qualified investments in less developed countries of the controlled foreign corporation at the close of the preceding taxable year, exceeds

(B) the amount of qualified investments in less developed countries of the controlled foreign corporation at the close of the taxable year, to the extent the amount of such decrease does not exceed the sum of the earnings and profits for the taxable year and the earnings and profits accumulated for prior taxable years beginning after December 31, 1962. For purposes of this paragraph, if qualified investments in less developed countries are disposed of by the controlled foreign corporation during the taxable year, the amount of the decrease in qualified investments in less developed countries of such controlled foreign corporation for such year shall be reduced by an amount equal to the amount (if any) by which the losses on such dispositions during such year exceed the gains on such dispositions during such year.

(3) **PRO RATA SHARE OF AMOUNT WITHDRAWN.**—In the case of any United States shareholder, the pro rata share of the amount of previously excluded subpart F income of any controlled foreign corporation withdrawn from investment in less developed countries for any taxable year is his pro rata share of the amount determined under paragraph (1).

(b) **QUALIFIED INVESTMENTS IN LESS DEVELOPED COUNTRIES.**—

(1) **IN GENERAL.**—For purposes of this subpart, the term “qualified investments in less developed countries” means property which is—

(A) stock of a less developed country corporation held by the controlled foreign corporation, but only if the controlled foreign corporation owns 10 percent or more of the total combined voting power of all classes of stock of such less developed country corporation;

(B) an obligation of a less developed country corporation held by the controlled foreign corporation, which, at the time of its acquisition by the controlled foreign corporation, has a maturity of one year or more, but only if the controlled foreign corporation owns 10 percent or more of the total combined voting power of all classes of stock of such less developed country corporation; or

(C) an obligation of a less developed country.

(2) **COUNTRY CEASES TO BE LESS DEVELOPED COUNTRY.**—For purposes of this subpart, property which would be qualified investment in less developed countries, but for the fact that a foreign country has, after the acquisition of such property by the controlled foreign corporation, ceased to be a less developed country, shall be treated as a qualified investment in less developed countries.

(3) **SPECIAL RULE.**—For purposes of this subpart, a United States shareholder of a controlled foreign corporation may, under regulations prescribed by the Secretary or his delegate, make the determinations under subsection (a) (2) of this section and under subsection (f) of section 954 as of the close of the years following the years referred to in such subsections, or as of the close of such longer period of time as such regulations may permit, in lieu of on the last days of such years. Any election under this paragraph made with respect to any taxable year shall apply to such year and to all succeeding taxable years unless the Secretary or his delegate consents to the revocation of such election.

(4) **EXCEPTION.**—For purposes of this subpart, property shall not constitute qualified investments in less developed countries if such property is disposed of within 6 months after the date of its acquisition.

(5) **AMOUNT ATTRIBUTABLE TO PROPERTY.**—The amount taken into account under this subpart with respect to any property described in paragraph (1) or (2) shall be its adjusted basis, reduced by any liability to which such property is subject.

(c) LESS DEVELOPED COUNTRY CORPORATIONS.—

(1) IN GENERAL.—For purposes of this subpart, the term “less developed country corporation” means a foreign corporation which during the taxable year is engaged in the active conduct of one or more trades or businesses and—

(A) 80 percent or more of the gross income of which for the taxable year is derived from sources within less developed countries; and

(B) 80 percent or more in value of the assets of which on each day of the taxable year consists of—

(i) property used in such trades or businesses and located in less developed countries,

(ii) money, and deposits with persons carrying on the banking business,

(iii) stock, and obligations which, at the time of their acquisition, have a maturity of one year or more, of any other less developed country corporation,

(iv) an obligation of a less developed country,

(v) an investment which is required because of restrictions imposed by a less developed country, and

(vi) property described in section 956(b)(2).

For purposes of subparagraph (A), the determination as to whether income is derived from sources within less developed countries shall be made under regulations prescribed by the Secretary or his delegate.

(2) SHIPPING COMPANIES.—For purposes of this subpart, the term “less developed country corporation” also means a foreign corporation—

(A) 80 percent or more of the gross income of which for the taxable year consists of—

(i) gross income derived from, or in connection with, the using (or hiring or leasing for use) in foreign commerce of aircraft or vessels registered under the laws of a less developed country, or from, or in connection with, the performance of services directly related to use of such aircraft or vessels, or from the sale or exchange of such aircraft or vessels, and

(ii) dividends and interest received from foreign corporations which are less developed country corporations within the meaning of this paragraph and 10 percent or more of the total combined voting power of all classes of stock of which are owned by the foreign corporation, and gain from the sale or exchange of stock or obligations of foreign corporations which are such less developed country corporations, and

(B) 80 percent or more of the assets of which on each day of the taxable year consists of (i) assets used, or held for use, for or in connection with the production of income described in subparagraph (A), and (ii) property described in section 956(b)(2).

(3) LESS DEVELOPED COUNTRY DEFINED.—For purposes of this subpart, the term “less developed country” means (in respect of any foreign corporation) any foreign country (other than an area within the Sino-Soviet bloc) or any possession of the United States with respect to which, on the first day of the taxable year, there is in effect an Executive order by the President of the United States designating such country or possession as an economically less developed country for purposes of this subpart. For purposes of the preceding sentence, an overseas territory, department, province, or possession may be treated as a separate country. No designation shall be made under this paragraph with respect to—

Australia
Austria
Belgium
Canada
Denmark
France
Germany (Federal Republic)
Hong Kong
Italy
Japan
Lichtenstein

Luxembourg
Monaco
Netherlands
New Zealand
Norway
Union of South Africa
San Marino
Sweden
Switzerland
United Kingdom

After the President has designated any foreign country or any possession of the United States as an economically less developed country for purposes of this subpart, he shall not terminate such designation (either by issuing an Executive order for that purpose or by issuing an Executive order under the first sentence of this paragraph which has the effect of terminating such designation) unless, at least 30 days prior to such termination, he has notified the Senate and the House of Representatives of his intention to terminate such designation.

SEC. 956. INVESTMENT OF EARNINGS IN UNITED STATES PROPERTY.

(a) **GENERAL RULES.**—For purposes of this subpart—

(1) **AMOUNT OF INVESTMENT.**—The amount of earnings of a controlled foreign corporation invested in United States property at the close of any taxable year is the aggregate amount of such property held, directly or indirectly, by the controlled foreign corporation at the close of the taxable year, to the extent such amount would have constituted a dividend (determined after the application of section 955(a)) if it had been distributed.

(2) **PRO RATA SHARE OF INCREASE FOR YEAR.**—In the case of any United States shareholder, the pro rata share of the increase for any taxable year in the earnings of a controlled foreign corporation invested in United States property is the amount determined by subtracting his pro rata share of—

(A) the amount determined under paragraph (1) for the close of the preceding taxable year, reduced by amounts paid during such preceding taxable year to which section 959(c) (1) applies, from

(B) the amount determined under paragraph (1) for the close of the taxable year.

The determinations under subparagraphs (A) and (B) shall be made on the basis of stock owned (within the meaning of section 958(a)) by such United States shareholder on the last day during the taxable year on which the foreign corporation is a controlled foreign corporation.

(3) **AMOUNT ATTRIBUTABLE TO PROPERTY.**—The amount taken into account under paragraph (1) or (2) with respect to any property shall be its adjusted basis, reduced by any liability to which the property is subject.

(b) **UNITED STATES PROPERTY DEFINED.**—

(1) **IN GENERAL.**—For purposes of subsection (a), the term “United States property” means any property acquired after December 31, 1962, which is—

(A) tangible property located in the United States;

(B) stock of a domestic corporation;

(C) an obligation of a United States person; or

(D) any right to the use in the United States of—

(i) a patent or copyright,

(ii) an invention, model, or design (whether or not patented),

(iii) a secret formula or process, or

(iv) any other similar property right,

which is acquired or developed by the controlled foreign corporation for use in the United States.

(2) **EXCEPTIONS.**—For purposes of subsection (a), the term “United States property” does not include—

(A) obligations of the United States, money, or deposits with persons carrying on the banking business;

(B) property located in the United States which is purchased in the United States for export to, or use in, foreign countries;

(C) any obligation of a United States person arising in connection with the sale or processing of property if the amount of such obligation outstanding at no time during the taxable year exceeds the amount which would be ordinary and necessary to carry on the trade or business of both the other party to the sale or processing transaction and the United States person had the sale or processing transaction been made between unrelated persons;

(D) any aircraft, railroad rolling stock, vessel, motor vehicle, or container used in the transportation of persons or property in foreign commerce and used predominantly outside the United States;

(E) an amount of assets of an insurance company equivalent to the unearned premiums or reserves ordinary and necessary for the proper

conduct of its insurance business attributable to contracts which are not contracts described in section 953(a)(1); and

(F) an amount of assets of the controlled foreign corporation equal to the earnings and profits accumulated after December 31, 1962, and excluded from subpart F income under section 952(b).

(c) **PLEDGES AND GUARANTEES.**—For purposes of subsection (a), a controlled foreign corporation shall, under regulations prescribed by the Secretary or his delegate, be considered as holding an obligation of a United States person if such controlled foreign corporation is a pledgor or guarantor of such obligation.

SEC. 957. CONTROLLED FOREIGN CORPORATIONS; UNITED STATES PERSONS.

(a) **GENERAL RULE.**—For purposes of this subpart, the term “controlled foreign corporation” means any foreign corporation of which more than 50 percent of the total combined voting power of all classes of stock entitled to vote is owned (within the meaning of section 958(a)), or is considered as owned by applying the rules of ownership of section 958(b), by United States shareholders on any day during the taxable year of such foreign corporation.

(b) **SPECIAL RULE FOR INSURANCE.**—For purposes only of taking into account income described in section 953(a) (relating to income derived from insurance of United States risks), the term “controlled foreign corporation” includes not only a foreign corporation as defined by subsection (a) but also one of which more than 25 percent of the total combined voting power of all classes of stock is owned (within the meaning of section 958(a)), or is considered as owned by applying the rules of ownership of section 958(b), by United States shareholders on any day during the taxable year of such corporation, if the gross amount of premiums or other consideration in respect of the reinsurance or the issuing of insurance or annuity contracts described in section 953(a)(1) exceeds 75 percent of the gross amount of all premiums or other consideration in respect of all risks.

(c) **CORPORATIONS ORGANIZED IN UNITED STATES POSSESSIONS.**—For purposes of this subpart, the term “controlled foreign corporation” does not include any corporation created or organized in the Commonwealth of Puerto Rico or a possession of the United States or under the laws of the Commonwealth of Puerto Rico or a possession of the United States if—

(1) 80 percent or more of the gross income of such corporation for the 3-year period immediately preceding the close of the taxable year (or for such part of such period immediately preceding the close of such taxable year as may be applicable) was derived from sources within the Commonwealth of Puerto Rico or a possession of the United States; and

(2) 50 percent or more of the gross income of such corporation for such period, or for such part thereof, was derived from the active conduct within the Commonwealth of Puerto Rico or a possession of the United States of any trades or businesses constituting the manufacture or processing of goods, wares, merchandise, or other tangible personal property; the processing of agricultural or horticultural products or commodities (including but not limited to livestock, poultry, or fur-bearing animals); the catching or taking of any kind of fish or the mining or extraction of natural resources, or any manufacturing or processing of any products or commodities obtained from such activities; or the ownership or operation of hotels.

For purposes of paragraphs (1) and (2), the determination as to whether income was derived from sources within the Commonwealth of Puerto Rico or a possession of the United States and was derived from the active conduct of a described trade or business within the Commonwealth of Puerto Rico or a possession of the United States shall be made under regulations prescribed by the Secretary or his delegate.

(d) **UNITED STATES PERSON.**—For purposes of this subpart, the term “United States person” has the meaning assigned to it by section 7701(a)(30) except that—

(1) with respect to a corporation organized under the laws of the Commonwealth of Puerto Rico, such term does not include an individual who is a bona fide resident of Puerto Rico, if a dividend received by such individual during the taxable year from such corporation would, for purposes of section 933(1), be treated as income derived from sources within Puerto Rico,

(2) with respect to a corporation organized under the laws of the Virgin Islands, such term does not include an individual who is a bona fide resident

of the Virgin Islands and whose income tax obligation under this subtitle for the taxable year is satisfied pursuant to section 28(a) of the Revised Organic Act of the Virgin Islands, approved July 22, 1954 (48 U.S.C. 1642), by paying tax on income derived from all sources both within and outside the Virgin Islands into the treasury of the Virgin Islands, and

(3) with respect to a corporation organized under the laws of any other possession of the United States, such term does not include an individual who is a bona fide resident of any such other possession and whose income derived from sources within possessions of the United States is not, by reason of section 931(a), includible in gross income under this subtitle for the taxable year.

SEC. 958. RULES FOR DETERMINING STOCK OWNERSHIP.

(a) DIRECT AND INDIRECT OWNERSHIP.—

(1) GENERAL RULE.—For purposes of this subpart (other than sections 955(b)(1) (A) and (B), 955(c)(2) (A) (ii), and 960(a)(1)), stock owned means—

(A) stock owned directly, and

(B) stock owned with the application of paragraph (2).

(2) STOCK OWNERSHIP THROUGH FOREIGN ENTITIES.—For purposes of subparagraph (B) of paragraph (1), stock owned, directly or indirectly, by or for a foreign corporation, foreign partnership, or foreign trust or foreign estate (within the meaning of section 7701(a)(31)) shall be considered as being owned proportionately by its shareholders, partners, or beneficiaries. Stock considered to be owned by a person by reason of the application of the preceding sentence shall, for purposes of applying such sentence, be treated as actually owned by such person.

(3) SPECIAL RULE FOR MUTUAL INSURANCE COMPANIES.—For purposes of applying paragraph (1) in the case of a foreign mutual insurance company, the term "stock" shall include any certificate entitling the holder to voting power in the corporation.

(b) CONSTRUCTIVE OWNERSHIP.—For purposes of sections 951(b), 954(d)(3), and 957, section 318(a) (relating to constructive ownership of stock) shall apply to the extent that the effect is to treat any United States person as a United States shareholder within the meaning of section 951(b), to treat a person as a related person within the meaning of section 954(d)(3), or to treat a foreign corporation as a controlled foreign corporation under section 957, except that—

(1) In applying paragraph (1)(A) of section 318(a), stock owned by a nonresident alien individual (other than a foreign trust or foreign estate) shall not be considered as owned by a citizen or by a resident alien individual.

(2) In applying the first sentence of subparagraphs (A) and (B), and in applying clause (i) of subparagraph (C), of section 318(a)(2), if a partnership, estate, trust, or corporation owns, directly or indirectly, more than 50 percent of the total combined voting power of all classes of stock entitled to vote of a corporation, it shall be considered as owning all the stock entitled to vote.

(3) Stock owned by a partnership, estate, trust, or corporation, by reason of the application of the second sentence of subparagraphs (A) and (B), and the application of clause (ii) of subparagraph (C), of section 318(a)(2), shall not be considered as owned by such partnership, estate, trust, or corporation, for purposes of applying the first sentence of subparagraphs (A) and (B), and in applying clause (i) of subparagraph (C), of section 318(a)(2).

(4) In applying clause (i) of subparagraph (C) of section 318(a)(2), the phrase "10 percent" shall be substituted for the phrase "50 percent" used in subparagraph (C).

(5) The second sentence of subparagraphs (A) and (B), and clause (ii) of subparagraph (C), of section 318(a)(2) shall not be applied so as to consider a United States person as owning stock which is owned by a person who is not a United States person.

SEC. 959. EXCLUSION FROM GROSS INCOME OF PREVIOUSLY TAXED EARNINGS AND PROFITS.

(a) EXCLUSION FROM GROSS INCOME OF UNITED STATES PERSONS.—For purposes of this chapter, the earnings and profits for a taxable year of a foreign corpora-

tion attributable to amounts which are, or have been, included in the gross income of a United States shareholder under section 951(a) shall not, when—

(1) such amounts are distributed to, or

(2) such amounts would, but for this subsection, be included under section 951(a) (1) (B) in the gross income of,

such shareholder (or any other United States person who acquires from any person any portion of the interest of such United States shareholder in such foreign corporation, but only to the extent of such portion, and subject to such proof of the identity of such interest as the Secretary or his delegate may by regulations prescribe) directly, or indirectly through a chain of ownership described under section 958(a), be again included in the gross income of such United States shareholder (or of such other United States person).

(b) **EXCLUSION FROM GROSS INCOME OF CERTAIN FOREIGN SUBSIDIARIES.**—For purposes of section 951(a), the earnings and profits for a taxable year of a controlled foreign corporation attributable to amounts which are, or have been, included in the gross income of a United States shareholder under section 951(a), shall not, when distributed through a chain of ownership described under section 958(a), be also included in the gross income of another controlled foreign corporation in such chain for purposes of the application of section 951(a) to such other controlled foreign corporation with respect to such United States shareholder (or to any other United States shareholder who acquires from any person any portion of the interest of such United States shareholder in the controlled foreign corporation, but only to the extent of such portion, and subject to such proof of identity of such interest as the Secretary or his delegate may prescribe by regulations).

(c) **ALLOCATION OF DISTRIBUTIONS.**—For purposes of subsections (a) and (b), section 316(a) shall be applied by applying paragraph (2) thereof, and then paragraph (1) thereof—

(1) first to earnings and profits attributable to amounts included in gross income under section 951(a) (1) (B) (or which would have been included except for subsection (a) (2) of this section),

(2) then to earnings and profits attributable to amounts included in gross income under section 951(a) (1) (A) (but reduced by amounts not included under section 951(a) (1) (B) because of the exclusion in subsection (a) (2) of this section), and

(3) then to other earnings and profits.

(d) **DISTRIBUTIONS EXCLUDED FROM GROSS INCOME NOT TO BE TREATED AS DIVIDENDS.**—Except as provided in section 960(a) (3), any distribution excluded from gross income under subsection (a) shall be treated, for purposes of this chapter, as a distribution which is not a dividend.

SEC. 960. SPECIAL RULES FOR FOREIGN TAX CREDIT.

(a) **TAXES PAID BY A FOREIGN CORPORATION.**—

(1) **GENERAL RULE.**—For purposes of subpart A of this part, if there is included, under section 951(a), in the gross income of a domestic corporation any amount attributable to earnings and profits—

(A) of a foreign corporation at least 10 percent of the voting stock of which is owned by such domestic corporation, or

(B) of a foreign corporation at least 50 percent of the voting stock of which is in turn owned by such domestic corporation,

then, under regulations prescribed by the Secretary or his delegate, such domestic corporation shall be deemed to have paid the same proportion of the total income, war profits, and excess profits taxes paid (or deemed paid) by such foreign corporation to a foreign country or possession of the United States for the taxable year on or with respect to the earnings and profits of such foreign corporation which the amount of earnings and profits of such foreign corporation so included in gross income of the domestic corporation bears to—

(C) if the foreign corporation at least 10 percent of the voting stock of which is owned by such domestic corporation referred to in subparagraph (A) or (B) is not a less developed country corporation (as defined in section 902(d)) for such taxable year, the entire amount of the earnings and profits of such foreign corporation for such taxable year, or

(D) if the foreign corporation at least 10 percent of the voting stock of which is owned by such domestic corporation referred to in subparagraph (A) or (B) is a less developed country corporation (as defined in section 902(d)) for such taxable year, the sum of the entire amount of the earnings and profits of such foreign corporation for such taxable year and the total income, war profits, and excess profits taxes paid by such foreign corporation to foreign countries or possessions of the United States for such taxable year.

(2) **TAXES PREVIOUSLY DEEMED PAID BY DOMESTIC CORPORATION.**—If a domestic corporation receives a distribution from a foreign corporation, any portion of which is excluded from gross income under section 959, the income, war profits, and excess profits taxes paid or deemed paid by such foreign corporation to any foreign country or to any possession of the United States in connection with the earnings and profits of such foreign corporation from which such distribution is made shall not be taken into account for purposes of section 902, to the extent such taxes were deemed paid by a domestic corporation under paragraph (1) for any prior taxable year.

(3) **TAXES PAID BY FOREIGN CORPORATION AND NOT PREVIOUSLY DEEMED PAID BY DOMESTIC CORPORATION.**—Any portion of a distribution from a foreign corporation received by a domestic corporation which is excluded from gross income under section 959(a) shall be treated by the domestic corporation as a dividend, solely for purposes of taking into account under section 902 any income, war profits, or excess profits taxes paid to any foreign country or to any possession of the United States, on or with respect to the accumulated profits of such foreign corporation from which such distribution is made, which were not deemed paid by the domestic corporation under paragraph (1) for any prior taxable year.

(b) SPECIAL RULES FOR FOREIGN TAX CREDIT IN YEAR OF RECEIPT OF PREVIOUSLY TAXED EARNINGS AND PROFITS.—

(1) **INCREASE IN SECTION 904 LIMITATION.**—In the case of any taxpayer who—

(A) either (i) chose to have the benefits of subpart A of this part for a taxable year in which he was required under section 951(a) to include in his gross income an amount in respect of a controlled foreign corporation, or (ii) did not pay or accrue for such taxable year any income, war profits, or excess profits taxes to any foreign country or to any possession of the United States, and

(B) chooses to have the benefits of subpart A of this part for the taxable year in which he receives a distribution or amount which is excluded from gross income under section 959(a) and which is attributable to earnings and profits of the controlled foreign corporation which was included in his gross income for the taxable year referred to in subparagraph (A), and

(C) for the taxable year in which such distribution or amount is received, pays, or is deemed to have paid, or accrues income, war profits, or excess profits taxes to a foreign country or to any possession of the United States with respect to such distribution or amount, the applicable limitation under section 904 for the taxable year in which such distribution or amount is received shall be increased as provided in paragraph (2), but such increase shall not exceed the amount of such taxes paid, or deemed paid, or accrued with respect to such distribution or amount.

(2) **AMOUNT OF INCREASE.**—The amount of increase of the applicable limitation under section 904(a) for the taxable year in which the distribution or amount referred to in paragraph (1) (B) is received shall be an amount equal to—

(A) the amount by which the applicable limitation under section 904(a) for the taxable year referred to in paragraph (1) (A) was increased by reason of the inclusion in gross income under section 951(a) of the amount in respect of the controlled foreign corporation, reduced by

(B) the amount of any income, war profits, and excess profits taxes paid, or deemed paid, or accrued to any foreign country or possession of the United States which were allowable as a credit under section 901 for the taxable year referred to in paragraph (1) (A) and which would not have been allowable but for the inclusion in gross income of the amount described in subparagraph (A).

(3) **CASES IN WHICH TAXES NOT TO BE ALLOWED AS DEDUCTION.**—In the case of any taxpayer who—

(A) chose to have the benefits of subpart A of this part for a taxable year in which he was required under section 951(a) to include in his gross income an amount in respect of a controlled foreign corporation, and

(B) does not choose to have the benefits of subpart A of this part for the taxable year in which he receives a distribution or amount which is excluded from gross income under section 959(a) and which is attributable to earnings and profits of the controlled foreign corporation which was included in his gross income for the taxable year referred to in subparagraph (A),

no deduction shall be allowed under section 164 for the taxable year in which such distribution or amount is received for any income, war profits, or excess profits taxes paid or accrued to any foreign country or to any possession of the United States on or with respect to such distribution or amount.

(4) **INSUFFICIENT TAXABLE INCOME.**—If an increase in the limitation under this subsection exceeds the tax imposed by this chapter for such year, the amount of such excess shall be deemed an overpayment of tax for such year.

SEC. 961. ADJUSTMENTS TO BASIS OF STOCK IN CONTROLLED FOREIGN CORPORATIONS AND OF OTHER PROPERTY.

(a) **INCREASE IN BASIS.**—Under regulations prescribed by the Secretary or his delegate, the basis of a United States shareholder's stock in a controlled foreign corporation, and the basis of property of a United States shareholder by reason of which he is considered under section 958(a)(2) as owning stock of a controlled foreign corporation, shall be increased by the amount required to be included in his gross income under section 951(a) with respect to such stock or with respect to such property, as the case may be, but only to the extent to which such amount was included in the gross income of such United States shareholder. In the case of a United States shareholder who has made an election under section 962 for the taxable year, the increase in basis provided by this subsection shall not exceed an amount equal to the amount of tax paid under this chapter with respect to the amounts required to be included in his gross income under section 951(a).

(b) **REDUCTION IN BASIS.**—

(1) **IN GENERAL.**—Under regulations prescribed by the Secretary or his delegate, the adjusted basis of stock or other property with respect to which a United States shareholder or a United States person receives an amount which is excluded from gross income under section 959(a) shall be reduced by the amount so excluded. In the case of a United States shareholder who has made an election under section 962 for any prior taxable year, the reduction in basis provided by this paragraph shall not exceed an amount equal to the amount received which is excluded from gross income under section 959(a) after the application of section 962(d).

(2) **AMOUNT IN EXCESS OF BASIS.**—To the extent that an amount excluded from gross income under section 959(a) exceeds the adjusted basis of the stock or other property with respect to which it is received, the amount shall be treated as gain from the sale or exchange of property.

SEC. 962. ELECTION BY INDIVIDUALS TO BE SUBJECT TO TAX AT CORPORATE RATES.

(a) **GENERAL RULE.**—Under regulations prescribed by the Secretary or his delegate, in the case of a United States shareholder who is an individual and who elects to have the provisions of this section apply for the taxable year—

(1) the tax imposed under this chapter on amounts which are included in his gross income under section 951(a) shall (in lieu of the tax determined under section 1) be an amount equal to the tax which would be imposed under section 11 if such amounts were received by a domestic corporation, and

(2) for purposes of applying the provisions of section 960 (relating to foreign tax credit) such amounts shall be treated as if they were received by a domestic corporation.

(b) **ELECTION.**—An election to have the provisions of this section apply for any taxable year shall be made by a United States shareholder at such time and in such manner as the Secretary or his delegate shall prescribe by regula-

tions. An election made for any taxable year may not be revoked except with the consent of the Secretary or his delegate.

(c) **SURTAX EXEMPTION.**—For purposes of applying subsection (a) (1), the surtax exemption provided by section 11(c) shall not exceed, in the case of any United States shareholder, an amount which bears the same ratio to \$25,000 as the amounts included in his gross income under section 951(a) for the taxable year bears to his pro rata share of the earnings and profits for the taxable year of all controlled foreign corporations with respect to which such United States shareholder includes any amount in gross income under section 951(a).

(d) **SPECIAL RULE FOR ACTUAL DISTRIBUTIONS.**—The earnings and profits of a foreign corporation attributable to amounts which were included in the gross income of a United States shareholder under section 951(a) and with respect to which an election under this section applied shall, when such earnings and profits are distributed, notwithstanding the provisions of section 959(a) (1), be included in gross income to the extent that such earnings and profits so distributed exceed the amount of tax paid under this chapter on the amounts to which such election applied.

SEC. 963. RECEIPT OF MINIMUM DISTRIBUTIONS BY DOMESTIC CORPORATIONS.

(a) **GENERAL RULE.**—In the case of a United States shareholder which is a domestic corporation and which consents to all the regulations prescribed by the Secretary or his delegate under this section prior to the last day prescribed by law for filing its return of the tax imposed by this chapter for the taxable year, no amount shall be included in gross income under section 951(a) (1) (A) (i) for the taxable year with respect to the subpart F income of a controlled foreign corporation, if—

(1) in the case of a controlled foreign corporation described in subsection (c) (1), the United States shareholder receives a minimum distribution of the earnings and profits for the taxable year of such controlled foreign corporation;

(2) in the case of controlled foreign corporations described in subsection (c) (2), the United States shareholder receives a minimum distribution with respect to the consolidated earnings and profits for the taxable year of all such controlled foreign corporations; or

(3) in the case of controlled foreign corporations described in subsection (c) (3), the United States shareholder receives a minimum distribution of the consolidated earnings and profits for the taxable year of all such controlled foreign corporations.

(b) **MINIMUM DISTRIBUTIONS.**—For purposes of this section, a minimum distribution with respect to the earnings and profits for the taxable year of any controlled foreign corporation or corporations shall, in the case of any United States shareholder, be its pro rata share of an amount determined in accordance with the following table:

If the effective foreign tax rate is (percentage)—	The required minimum distribution of earnings and profits is (percentage)—
Under 10.....	90
10 or over but less than 20.....	86
20 or over but less than 28.....	82
28 or over but less than 34.....	75
34 or over but less than 39.....	68
39 or over but less than 42.....	55
42 or over but less than 44.....	40
44 or over but less than 46.....	27
46 or over but less than 47.....	14
47 or over.....	0

(c) AMOUNTS TO WHICH SECTION APPLIES.—

(1) **FOREIGN SUBSIDIARIES.**—Subsection (a) (1) shall apply to amounts which (but for the provisions of this section) would be included in the gross income of the United States shareholder under section 951(a) (1) (A) (i) by reason of its ownership, within the meaning of section 958(a) (1) (A), of stock of a controlled foreign corporation.

(2) **CHAIN OF CONTROLLED FOREIGN CORPORATIONS.**—Subsection (a) (2) shall apply to amounts which (but for the provisions of this section) would be included in the gross income of the United States shareholder under section 951(a) (1) (A) (i)—

(A) by reason of its ownership, within the meaning of section 958(a) (1) (A), of stock of a controlled foreign corporation, and

(B) to the extent that the United States shareholder so elects, by reason of its ownership, within the meaning of section 958(a)(2), of stock of any other controlled foreign corporation (on account of its ownership of the stock described in subparagraph (A) or of stock described in this subparagraph), but only if there is taken into account the earnings and profits of each foreign corporation, whether or not a controlled foreign corporation, by reason of which the United States shareholder owns, within the meaning of section 958(a)(2), stock of such controlled foreign corporation.

(3) **ALL CONTROLLED FOREIGN CORPORATIONS.**—Except as provided in paragraph (4), subsection (a)(3) shall apply to amounts which (but for the provisions of this section) would be included in the gross income of the United States shareholder under section 951(a)(1)(A)(i)—

(A) by reason of its ownership, within the meaning of section 958(a)(1)(A), of stock of all controlled foreign corporations in which it owns stock within the meaning of such section, and

(B) by reason of its ownership, within the meaning of section 958(a)(2), of stock of all controlled foreign corporations in which it owns stock within the meaning of such section, but only if there is taken into account the earnings and profits of each foreign corporation, whether or not a controlled foreign corporation, by reason of which the United States shareholder owns, within the meaning of section 958(a), stock of any such controlled foreign corporations.

(4) **EXCEPTIONS AND SPECIAL RULES.**—

(A) **LESS DEVELOPED COUNTRY CORPORATIONS.**—If the United States shareholder so elects, subsection (a)(3) and paragraph (3) of this subsection shall not apply to amounts which would be included in the gross income of such shareholder under section 951(a)(1)(A)(i) by reason of its ownership, within the meaning of section 958(a), of stock of controlled foreign corporations which are less developed country corporations (as defined in section 955(c)). This subparagraph shall not apply with respect to a less developed country corporation if, by reason of the ownership of the stock of such corporation, the United States shareholder owns, within the meaning of section 958(a)(2), stock of any other controlled foreign corporation which is not a less developed country corporation. Except as provided in the preceding sentence, an election under this subparagraph may be made only with respect to all controlled foreign corporations which are less developed country corporations and with respect to which the domestic corporation making the election is a United States shareholder.

(B) **FOREIGN BRANCHES.**—In applying subsection (a)(3) and paragraph (3) of this subsection, if a United States shareholder so elects, all branches maintained by such shareholder in foreign countries, the Commonwealth of Puerto Rico, or possessions of the United States shall, under regulations prescribed by the Secretary or his delegate, be treated as wholly owned subsidiary corporations of such shareholder organized under the laws of such foreign countries, the Commonwealth of Puerto Rico, or possessions of the United States, as the case may be. Each branch so treated shall, for purposes of this section, be considered to have distributed to the United States shareholder all of its earnings and profits for the taxable year. This subparagraph shall not apply to a branch maintained by a United States shareholder in the Commonwealth of Puerto Rico or a possession of the United States unless—

(i) such branch would be a controlled foreign corporation (as defined in section 957) if it were incorporated under the laws of the Commonwealth of Puerto Rico or the possession of the United States, as the case may be, and

(ii) the gross income of the United States shareholder for the taxable year includes income derived from sources within the Commonwealth of Puerto Rico and possessions of the United States.

(C) **BLOCKED FOREIGN INCOME.**—If a United States shareholder so elects, the provisions of subsection (a)(3) and of paragraph (3) of this subsection shall not apply with respect to any foreign corporation, if it is established to the satisfaction of the Secretary or his delegate that the earnings and profits of such foreign corporation could not have

been distributed to United States shareholders who own (within the meaning of section 958(a)) stock of such foreign corporation because of currency or other restrictions or limitations imposed under the laws of any foreign country.

(d) **EFFECTIVE FOREIGN TAX RATE.**—For purposes of this section, the term “effective foreign tax rate” means—

(1) with respect to a single controlled foreign corporation, the percentage which—

(A) the income, war profits, or excess profits taxes paid or accrued to foreign countries or possessions of the United States by the controlled foreign corporation for the taxable year on or with respect to its earnings and profits for the taxable year, is of

(B) the sum of (i) the earnings and profits of the controlled foreign corporation described in subparagraph (A) and (ii) and the taxes described in subparagraph (A); and

(2) with respect to two or more foreign corporations, the percentage which—

(A) the total income, war profits, or excess profits taxes paid or accrued to foreign countries or possessions of the United States by such foreign corporations for the taxable year on or with respect to the consolidated earnings and profits of such foreign corporations for the taxable year, is of

(B) the sum of (i) the consolidated earnings and profits of such foreign corporations described in subparagraph (A) and (ii) the taxes described in subparagraph (A).

For purposes of the preceding sentence, in the case of any United States shareholder, the computation of the effective foreign tax rate applicable with respect to any controlled foreign corporation or corporations shall be made without regard to distributions made by such controlled foreign corporation or corporations to such United States shareholder.

(e) **SPECIAL RULES.**—

(1) **YEAR FROM WHICH DISTRIBUTIONS ARE MADE.**—For purposes of this section, the second sentence of section 902(c) (1) shall apply in determining from the earnings and profits of what year distributions are made by any foreign corporation, except that the Secretary or his delegate may by regulations provide a period in excess of 60 days in lieu of the 60-day period prescribed in such section.

(2) **INSUFFICIENT DISTRIBUTIONS.**—If—

(A) a United States shareholder, in making its return of the tax imposed by this chapter for any taxable year, applies the provisions of this section with respect to any controlled foreign corporation,

(B) it is subsequently determined that this section did not apply with respect to such controlled foreign corporation for such taxable year due to the failure of the United States shareholder to receive a minimum distribution with respect to such controlled foreign corporation, and

(C) such failure is due to reasonable cause, then a subsequent distribution made with respect to such controlled foreign corporation may, if made at a time and in a manner prescribed by the Secretary or his delegate by regulations, be treated, for purposes of this chapter, as having been made for, and received in, the taxable year of the United States shareholder for which such shareholder applied the provisions of this section.

(3) **AFFILIATED GROUPS OF CORPORATIONS.**—An affiliated group of corporations which makes a consolidated return under section 1501 for the taxable year, may, if it so elects, be treated as a single United States shareholder for purposes of applying this section for the taxable year.

(f) **REGULATIONS.**—The Secretary or his delegate shall prescribe such regulations as he may deem necessary to carry out the provisions of this section, including regulations for the determination of the amount of foreign tax credit in the case of distributions with respect to the earnings and profits of two or more foreign corporations.

SEC. 964. MISCELLANEOUS PROVISIONS.

(a) **EARNINGS AND PROFITS.**—For purposes of this subpart, the earnings and profits of any foreign corporation, and the deficit in earnings and profits of any

foreign corporation, for any taxable year shall be determined according to rules substantially similar to those applicable to domestic corporations, under regulations prescribed by the Secretary or his delegate.

(b) **BLOCKED FOREIGN INCOME.**—Under regulations prescribed by the Secretary or his delegate, no part of the earnings and profits of a controlled foreign corporation for any taxable year shall be included in earnings and profits for purposes of sections 952, 955, and 956, if it is established to the satisfaction of the Secretary or his delegate that such part could not have been distributed by the controlled foreign corporation to United States shareholders who own (within the meaning of section 958(a)) stock of such controlled foreign corporation because of currency or other restrictions or limitations imposed under the laws of any foreign country.

(c) **RECORDS AND ACCOUNTS OF UNITED STATES SHAREHOLDERS.**—

(1) **RECORDS AND ACCOUNTS TO BE MAINTAINED.**—The Secretary or his delegate may by regulations require each person who is, or has been, a United States shareholder of a controlled foreign corporation to maintain such records and accounts as may be prescribed by such regulations as necessary to carry out the provisions of this subpart and subpart G.

(2) **TWO OR MORE PERSONS REQUIRED TO MAINTAIN OR FURNISH THE SAME RECORDS AND ACCOUNTS WITH RESPECT TO THE SAME FOREIGN CORPORATION.**—Where, but for this paragraph, two or more United States persons would be required to maintain or furnish the same records and accounts as may be required by regulations under paragraph (1) with respect to the same controlled foreign corporation for the same period, the Secretary or his delegate may by regulations provide that the maintenance or furnishing of such records and accounts by only one such person shall satisfy the requirements of paragraph (1) for such other persons.

Subpart G—Export Trade Corporations

Sec. 970. Reduction of subpart F income of export trade corporations.

Sec. 971. Definitions.

Sec. 972. Consolidation of group of export trade corporations.

SEC. 970. REDUCTION OF SUBPART F INCOME OF EXPORT TRADE CORPORATIONS.

(a) **EXPORT TRADE INCOME CONSTITUTING FOREIGN BASE COMPANY INCOME.**—

(1) **IN GENERAL.**—In the case of a controlled foreign corporation (as defined in section 957) which for the taxable year is an export trade corporation, the subpart F income (determined without regard to this subpart) of such corporation for such year shall be reduced by an amount equal to so much of the export trade income (as defined in section 971(b)) of such corporation for such year as constitutes foreign base company income (as defined in section 954), but only to the extent that such amount does not exceed whichever of the following amounts is the lesser:

(A) an amount equal to $1\frac{1}{2}$ times so much of the export promotion expenses (as defined in section 971(d)) of such corporation for such year as is properly allocable to the export trade income which constitutes foreign base company income of such corporation for such year, or

(B) an amount equal to 10 percent of so much of the gross receipts for such year (or, in the case of gross receipts arising from commissions, fees, or other compensation for its services, so much of the gross amount upon the basis of which such commissions, fees, or other compensation is computed) accruing to such export trade corporation from the sale, installation, operation, maintenance, or use of property in respect of which such corporation derives export trade income as is properly allocable to the export trade income which constitutes foreign base company income of such corporation for such year.

The allocations with respect to export trade income which constitutes foreign base company income under subparagraphs (A) and (B) shall be made under regulations prescribed by the Secretary or his delegate.

(2) **OVERALL LIMITATION.**—The reduction under paragraph (1) for any taxable year shall not exceed an amount which bears the same ratio to the increase in the investments in export trade assets (as defined in section 971(c)) of such corporation for such year as the export trade income which

constitutes foreign base company income of such corporation for such year bears to the entire export trade income of such corporation for such year.

(b) **INCLUSION OF CERTAIN PREVIOUSLY EXCLUDED AMOUNTS.**—Each United States shareholder of a controlled foreign corporation which for any prior taxable year was an export trade corporation shall include in his gross income under section 951(a)(1)(A)(ii), as an amount to which section 955 (relating to withdrawal of previously excluded subpart F income from qualified investment) applies, his pro rata share of the amount of decrease in the investments in export trade assets of such corporation for such year, but only to the extent that his pro rata share of such amount does not exceed an amount equal to—

(1) his pro rata share of the sum of (A) the amounts by which the subpart F income of such corporation was reduced for all prior taxable years under subsection (a), and (B) the amounts not included in subpart F income (determined without regard to this subpart) for all prior taxable years by reason of the application of section 972, reduced by

(2) the sum of the amounts which were included in his gross income under section 951(a)(1)(A)(ii) under the provisions of this subsection for all prior taxable years.

(c) **INVESTMENTS IN EXPORT TRADE ASSETS.**—

(1) **AMOUNT OF INVESTMENTS.**—For purposes of this section, the amount taken into account with respect to any export trade asset shall be its adjusted basis, reduced by any liability to which the asset is subject.

(2) **INCREASE IN INVESTMENTS IN EXPORT TRADE ASSETS.**—For purposes of subsection (a), the amount of increase in investments in export trade assets of any controlled foreign corporation for any taxable year is the amount by which—

(A) the amount of such investments at the close of the taxable year, exceeds

(B) the amount of such investments at the close of the preceding taxable year.

(3) **DECREASE IN INVESTMENTS IN EXPORT TRADE ASSETS.**—For purposes of subsection (b), the amount of decrease in investments in export trade assets of any controlled foreign corporation for any taxable year is the amount by which—

(A) the amount of such investments at the close of the preceding taxable year (reduced by an amount equal to the amount of net loss sustained during the taxable year with respect to export trade assets), exceeds

(B) the amount of such investments at the close of the taxable year.

(4) **SPECIAL RULE.**—A United States shareholder of an export trade corporation may, under regulations prescribed by the Secretary or his delegate, make the determinations under paragraphs (2) and (3) as of the close of the 75th day after the close of the years referred to in such paragraphs in lieu of on the last day of such years. A United States shareholder of an export trade corporation may, under regulations prescribed by the Secretary or his delegate, make the determinations under paragraphs (2) and (3) with respect to export trade assets described in section 971(c)(3) as of the close of the years following the years referred to in such paragraphs, or as of the close of such longer period of time as such regulations may permit, in lieu of on the last day of such years and in lieu of on the day prescribed in the preceding sentence. Any election under this paragraph made with respect to any taxable year shall apply to such year and to all succeeding taxable years unless the Secretary or his delegate consents to the revocation of such election.

SEC. 971. DEFINITIONS.

(a) **EXPORT TRADE CORPORATIONS.**—For purposes of this subpart, the term "export trade corporation" means—

(1) **IN GENERAL.**—A controlled foreign corporation (as defined in section 957) which satisfies the following conditions:

(A) 90 percent or more of the gross income of such corporation for the 3-year period immediately preceding the close of the taxable year (or such part of such period subsequent to the effective date of this subpart during which the corporation was in existence) was derived from sources without the United States, and

(B) 75 percent or more of the gross income of such corporation for such period constituted gross income in respect of which such corporation derived export trade income.

(2) SPECIAL RULE.—If 50 percent or more of the gross income of a controlled foreign corporation in the period specified in subsection (a) (1) (A) is gross income in respect of which such corporation derived export trade income in respect of agricultural products grown in the United States, it may qualify as an export trade corporation although it does not meet the requirements of subsection (a) (1) (B).

(b) EXPORT TRADE INCOME.—For the purposes of this subpart, the term “export trade income” means net income from—

(1) the sale to an unrelated person for use, consumption, or disposition outside the United States of export property (as defined in subsection (e)), or from commissions, fees, compensation, or other income from the performance of commercial, industrial, financial, technical, scientific, managerial, engineering, architectural, skilled, or other services in respect of such sales or in respect of the installation or maintenance of such export property;

(2) commissions, fees, compensation, or other income from commercial, industrial, financial, technical, scientific, managerial, engineering, architectural, skilled, or other services performed in connection with the use by an unrelated person outside the United States of patents, copyrights, secret processes and formulas, goodwill, trademarks, trade brands, franchises, and other like property acquired or developed and owned by the manufacturer, producer, grower, or extractor of export property in respect of which the export trade corporation earns export trade income under paragraph (1);

(3) commissions, fees, rentals, or other compensation or income attributable to the use of export property by an unrelated person or attributable to the use of export property in the rendition of technical, scientific, or engineering services to an unrelated person; and

(4) interest from export trade assets described in subsection (c) (4).

For purposes of paragraph (3), if a controlled foreign corporation receives income from an unrelated person attributable to the use of export property in the rendition of services to such unrelated person together with income attributable to the rendition of other services to such unrelated person, including personal services, the amount of such aggregate income which shall be considered to be attributable to the use of the export property shall (if such amount cannot be established by reference to transactions between unrelated persons) be that part of such aggregate income which the cost of the export property consumed in the rendition of such services (including a reasonable allowance for depreciation) bears to the total costs and expenses attributable to such aggregate income.

(c) EXPORT TRADE ASSETS.—For purposes of this subpart, the term “export trade assets” means—

(1) working capital reasonably necessary for the production of export trade income,

(2) inventory of export property held for use, consumption, or disposition outside the United States,

(3) facilities located outside the United States for the storage, handling, transportation, packaging, or servicing of export property, and

(4) evidences of indebtedness executed by persons, other than related persons, in connection with payment for purchases of export property for use, consumption, or disposition, outside the United States, or in connection with the payment for services described in subsections (b) (2) and (3).

(d) EXPORT PROMOTION EXPENSES.—For purposes of this subpart, the term “export promotion expenses” means the following expenses paid or incurred in the receipt or production of export trade income—

(1) a reasonable allowance for salaries or other compensation for personal services actually rendered for such purpose,

(2) rentals or other payments for the use of property actually used for such purpose,

(3) a reasonable allowance for the exhaustion, wear and tear, or obsolescence of property actually used for such purpose, and

(4) any other ordinary and necessary expenses of the corporation to the extent reasonably allocable to the receipt or production of export trade income.

No expense incurred within the United States shall be treated as an export promotion expense within the meaning of the preceding sentence, unless at least 90 percent of each category of expenses described in such sentence is incurred outside the United States.

(e) **EXPORT PROPERTY.**—For purposes of this subpart, the term “export property” means any property or any interest in property manufactured, produced, grown, or extracted in the United States.

(f) **UNRELATED PERSON.**—For purposes of this subpart, the term “unrelated person” means a person other than a related person as defined in section 954(d) (3).

SEC. 972. CONSOLIDATION OF GROUP OF EXPORT TRADE CORPORATIONS.

For purposes of this subpart and subpart F of this part, a United States shareholder of a controlled foreign corporation which is an export trade corporation may, under regulations prescribed by the Secretary or his delegate, treat as a single control foreign corporation—

- (1) such controlled foreign corporation,
- (2) all controlled foreign corporations which are export trade corporations and 80 percent or more of the total combined voting power of all classes of stock entitled to vote of which is owned by such controlled foreign corporation; and
- (3) all controlled foreign corporations which are export trade corporations and 80 percent or more of the total combined voting power of all classes of stock entitled to vote of which is owned by controlled foreign corporations described in paragraph (2).

(b) TECHNICAL AND CLERICAL AMENDMENTS.—

(1) Section 901 (relating to foreign tax credit) is amended by striking out “section 902” and inserting in lieu thereof “sections 902 and 960”.

(2) Section 904(g) (as redesignated by section 10(a) of this Act is amended to read as follows:

(g) CROSS REFERENCES.—

(1) For increase of applicable limitation under subsection (a) for taxes paid with respect to amounts received which were included in the gross income of the taxpayer for a prior taxable year as a United States shareholder with respect to a controlled foreign corporation, see section 960(b).

(2) For special rule relating to the application of the credit provided by section 901 in the case of affiliated groups which included Western Hemisphere trade corporations for years in which the limitation provided by subsection (a) (2) applies, see section 1503(d).

(3) The table of subparts for part III of subchapter N of chapter 1 is amended by adding at the end thereof the following:

Subpart F. Controlled foreign corporations.
Subpart G. Export trade corporations.

(4) Section 1016(a) (relating to adjustments to basis) is amended by adding after paragraph (19) (as added by section 2(f) of this Act) the following new paragraph:

(20) to the extent provided in section 961 in the case of stock in controlled foreign corporations (or foreign corporations which were controlled foreign corporations) and of property by reason of which a person is considered as owning such stock.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to taxable years of foreign corporations beginning after December 31, 1962, and to taxable years of United States share-

holders within which or with which such taxable years of such foreign corporations end.

SEC. 13. GAIN FROM DISPOSITIONS OF CERTAIN DEPRECIABLE PROPERTY.

(a) IN GENERAL.—

(1) Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by adding at the end thereof the following new section:

SEC. 1245. GAIN FROM DISPOSITIONS OF CERTAIN DEPRECIABLE PROPERTY.

(a) GENERAL RULE.—

(1) **ORDINARY INCOME.**—Except as otherwise provided in this section, if section 1245 property is disposed of during a taxable year beginning after December 31, 1962, the amount by which the lower of—

(A) the recomputed basis of the property, or

(B) (i) in the case of a sale, exchange, or involuntary conversion, the amount realized, or

(ii) in the case of any other disposition, the fair market value of such property, exceeds the adjusted basis of such property shall be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231. Such gain shall be recognized notwithstanding any other provision of this subtitle.

(2) **RECOMPUTED BASIS.**—For purposes of this section, the term “recomputed basis” means, with respect to any property, its adjusted basis recomputed by adding thereto all adjustments, attributable to periods after December 31, 1961, reflected in such adjusted basis on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for depreciation, or for amortization under section 168. For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed for depreciation, or for amortization under section 168, for any period was less than the amount allowable, the amount added for such period shall be the amount allowed.

(3) **SECTION 1245 PROPERTY.**—For purposes of this section, the term “section 1245 property” means any property (other than livestock) which is or has been property of a character subject to the allowance for depreciation provided in section 167 and is either—

(A) personal property, or

(B) other property (not including a building or its structural components) but only if such other property is tangible and has an adjusted basis in which there are reflected adjustments described in paragraph (2) for a period in which such property (or other property)—

(i) was used as an integral part of manufacturing, production, or extraction or of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services, or

(ii) constituted research or storage facilities used in connection with any of the activities referred to in clause (i).

(b) EXCEPTIONS AND LIMITATIONS.—

(1) **GIFTS.**—Subsection (a) shall not apply to a disposition by gift.

(2) **TRANSFERS AT DEATH.**—Except as provided in section 691 (relating to income in respect of a decedent), subsection (a) shall not apply to a transfer at death.

(3) **CERTAIN TAX-FREE TRANSACTIONS.**—If the basis of property in the hands of a transferee is determined by reference to its basis in the hands of the transferor by reason of the application of section 332, 351, 361, 371(a), 374(a), 721, or 731, then the amount of gain taken into account by the transferor under subsection (a) (1) shall not exceed the amount of gain recognized to the transferor on the transfer of such property (determined without regard to this section). This paragraph shall not apply to a disposition to an organization (other than a cooperative described in section 521) which is exempt from the tax imposed by this chapter.

(4) **LIKE KIND EXCHANGES; INVOLUNTARY CONVERSIONS, ETC.**—If property is disposed of and gain (determined without regard to this section) is not recognized in whole or in part under section 1031 or 1033, then the amount of gain taken into account by the transferor under subsection (a) (1) shall not exceed the sum of—

(A) the amount of gain recognized on such disposition (determined without regard to this section), plus

(B) the fair market value of property acquired which is not section 1245 property and which is not taken into account under subparagraph (A).

(5) **SECTION 1071 AND 1081 TRANSACTIONS.**—Under regulations prescribed by the Secretary or his delegate, rules consistent with paragraphs (3) and (4) of this subsection shall apply in the case of transactions described in section 1071 (relating to gain from sale or exchange to effectuate policies of FCC) or section 1081 (relating to exchanges in obedience to SEC orders).

(6) **PROPERTY DISTRIBUTED BY A PARTNERSHIP TO A PARTNER.**—

(A) **IN GENERAL.**—For purposes of this section, the basis of section 1245 property distributed by a partnership to a partner shall be deemed to be determined by reference to the adjusted basis of such property to the partnership.

(B) **ADJUSTMENTS ADDED BACK.**—In the case of any property described in subparagraph (A), for purposes of computing the recomputed basis of such property the amount of the adjustments added back for periods before the distribution by the partnership shall be—

(i) the amount of the gain to which subsection (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

(ii) the amount of such gain to which section 751(b) applied.

(c) **ADJUSTMENTS TO BASIS.**—The Secretary or his delegate shall prescribe such regulations as he may deem necessary to provide for adjustments to the basis of property to reflect gain recognized under subsection (a).

(d) **APPLICATION OF SECTION.**—This section shall apply notwithstanding any other provision of this subtitle."

(2) The table of sections for such part IV is amended by adding at the end thereof the following:

Sec. 1245. Gain from dispositions of certain depreciable property.

(b) **CHANGE IN METHOD OF DEPRECIATION.**—Subsection (e) of section 167 (relating to depreciation) is amended to read as follows:

(e) **CHANGE IN METHOD.**—

(1) **CHANGE FROM DECLINING BALANCE METHOD.**—In the absence of an agreement under subsection (d) containing a provision to the contrary, a taxpayer may at any time elect in accordance with regulations prescribed by the Secretary or his delegate to change from the method of depreciation described in subsection (b) (2) to the method described in subsection (b) (1).

(2) **CHANGE WITH RESPECT TO SECTION 1245 PROPERTY.**—A taxpayer may, on or before the last day prescribed by law (including extensions thereof) for filing his return for his first taxable year beginning after December 31, 1962, and in such manner as the Secretary or his delegate shall by regulations prescribe, elect to change his method of depreciation in respect of section 1245 property (as defined in section 1245(a) (3)) from any declining balance or sum of the years-digits method to the straight line method. An election may be made under this paragraph notwithstanding any provision to the contrary in an agreement under subsection (d).

(c) **SALVAGE VALUE OF PERSONAL PROPERTY.**—

(1) **AMOUNT TAKEN INTO ACCOUNT.**—Section 167 (relating to depreciation) is amended by redesignating subsections (f), (g), and (h) as (g), (h), and (i), respectively, and by inserting after subsection (e) the following new subsection:

(f) SALVAGE VALUE.—

(1) **GENERAL RULE.**—Under regulations prescribed by the Secretary or his delegate, a taxpayer may, for purposes of computing the allowance under subsection (a) with respect to personal property, reduce the amount taken into account as salvage value by an amount which does not exceed 10 percent of the basis of such property (as determined under subsection (g) as of the time as of which such salvage value is required to be determined).

(2) **PERSONAL PROPERTY DEFINED.**—For purposes of this subsection, the term “personal property” means depreciable personal property (other than livestock) with a useful life of 3 years or more acquired after the date of the enactment of the Revenue Act of 1962.

(2) CONFORMING AMENDMENTS.—

(A) Sections 179(d)(5) and 642(e) are each amended by striking out “167(g)” and inserting in lieu thereof “167(h)”.

(B) Section 179(d)(8) is amended by striking out “167(f)” and inserting in lieu thereof “167(g)”.

(d) **SPECIAL RULE FOR CHARITABLE CONTRIBUTIONS OF SECTION 1245 PROPERTY.**—Section 170 (relating to charitable, etc., contributions and gifts) is amended by redesignating subsections (e) and (f) as (f) and (g), respectively, and by inserting after subsection (d) the following new subsection:

(e) **SPECIAL RULE FOR CHARITABLE CONTRIBUTIONS OF SECTION 1245 PROPERTY.**—The amount of any charitable contribution taken into account under this section shall be reduced by the amount which would have been treated as gain to which section 1245(a) applies if the property contributed had been sold at its fair market value (determined at the time of such contribution).

(e) **COMPUTATION OF TAXABLE INCOME FOR PURPOSES OF LIMITATION ON PERCENTAGE DEPLETION DEDUCTION.**—Section 613(a) (relating to percentage depletion) is amended by inserting after the second sentence thereof the following new sentence: “For purposes of the preceding sentence, the allowable deductions taken into account with respect to expenses of mining in computing the taxable income from the property shall be decreased by an amount equal to so much of any gain which (1) is treated under section 1245 (relating to gain from disposition of certain depreciable property) as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231, and (2) is properly allocable to the property.”

(f) TECHNICAL AMENDMENTS.—

(1) **SPECIAL RULE FOR PARTNERSHIPS.**—Section 751(c) (relating to definition of “unrealized receivables” for purposes of subchapter K) is amended by adding after paragraph (2) the following:

For purposes of this section and sections 731, 736, and 741, such term also includes section 1245 property (as defined in section 1245 (a) (3)), but only to the extent of the amount which would be treated as gain to which section 1245 (a) would apply if (at the time of the transaction described in this section or section 731, 736, or 741, as the case may be) such property had been sold by the partnership at its fair market value.

(2) **CORPORATE DISTRIBUTION OF PROPERTY.**—Subsections (b) and (d) of section 301 (relating to amount distributed) are each amended by striking out “subsection (b) or (c) of section 311” and inserting in lieu thereof “subsection (b) or (c) of section 311 or under section 1245(a)”.

(3) **EFFECT ON EARNINGS AND PROFITS.**—Section 312(c)(3) (relating to adjustments of earnings and profits) is amended by strik-

ing out "subsection (b) or (c) of section 311" and inserting in lieu thereof "subsection (b) or (c) of section 311 or under section 1245(a)".

(4) **COLLAPSIBLE CORPORATIONS.**—Section 341 (e) (relating to collapsible corporations) is amended by inserting after paragraph (11) the following new paragraph:

(12) **NONAPPLICATION OF SECTION 1245 (a).**—For purposes of this subsection, the determination of whether gain from the sale or exchange of property would under any provision of this chapter be considered as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231(b) shall be made without regard to the application of section 1245 (a).

(5) **INSTALLMENT OBLIGATIONS IN CERTAIN LIQUIDATIONS.**—

(A) Section 453(d)(4)(A) (relating to distribution of installment obligations in section 332 liquidations) is amended by adding at the end thereof the following new sentence: "If the basis of the property of the liquidating corporation in the hands of the distributee is determined under section 334 (b)(2) then the preceding sentence shall not apply to the extent that under paragraph (1) gain to the distributing corporation would be considered as gain to which section 1245(a) applies."

(B) Section 453(d)(4)(B) (relating to distribution of installment obligations in liquidations to which section 337 applies) is amended by adding at the end thereof the following new sentence: "The preceding sentence shall not apply to the extent that under paragraph (1) gain to the distributing corporation would be considered as gain to which section 1245(a) applies."

(g) **EFFECTIVE DATES.**—The amendments made by this section (other than the amendments made by subsection (c)) shall apply to taxable years beginning after December 31, 1962. The amendments made by subsection (c) shall apply to taxable years beginning after December 31, 1961, and ending after the date of the enactment of this Act.

SEC. 14. FOREIGN INVESTMENT COMPANIES.

(a) **TREATMENT OF SALE OF STOCK OF FOREIGN INVESTMENT COMPANIES.**—

(1) **IN GENERAL.**—Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by adding after section 1245 (as added by section 13 of this Act) the following new sections:

SEC. 1246. GAIN ON FOREIGN INVESTMENT COMPANY STOCK.

(a) **TREATMENT OF GAIN AS ORDINARY INCOME.**—

(1) **GENERAL RULE.**—In the case of a sale or exchange (or a distribution which, under section 302 or 331, is treated as an exchange of stock) after December 31, 1962, of stock in a foreign corporation which was a foreign investment company (as defined in subsection (b)) at any time during the period during which the taxpayer held such stock, any gain shall be treated as gain from the sale or exchange of property which is not a capital asset, to the extent of the taxpayer's ratable share of the earnings and profits of such corporation accumulated for taxable years beginning after December 31, 1962.

(2) **RATABLE SHARE.**—For purposes of this section, the taxpayer's ratable share shall be determined under regulations prescribed by the Secretary or his delegate, but shall include only his ratable share of the accumulated earnings and profits of such corporation—

(A) for the period during which the taxpayer held such stock, but

(B) excluding such earnings and profits attributable to any amount previously included in the gross income of such taxpayer under section 951 (but only to the extent the inclusion of such amount did not result in an exclusion of any other amount from gross income under section 959).

(3) **TAXPAYER TO ESTABLISH EARNINGS AND PROFITS.**—Unless the taxpayer establishes the amount of the accumulated earnings and profits of the foreign investment company and the ratable share thereof for the period during which the taxpayer held such stock, all the gain from the sale or exchange of stock in such company shall be considered as gain from the sale or exchange of property which is not a capital asset.

(4) **HOLDING PERIOD OF STOCK MUST BE MORE THAN 6 MONTHS.**—This section shall not apply with respect to the sale or exchange of stock where the holding period of such stock as of the date of such sale or exchange is 6 months or less.

(b) **DEFINITION OF FOREIGN INVESTMENT COMPANY.**—For purposes of this section, the term "foreign investment company" means any foreign corporation which, for any taxable year beginning after December 31, 1962, is—

(1) registered under the Investment Company Act of 1940, as amended (15 U.S.C. 80a-1 to 80b-2), either as a management company or as a unit investment trust, or

(2) engaged (or holding itself out as being engaged) primarily in the business of investing, reinvesting, or trading in securities (within the meaning of section 3(a)(1) of such Act, as limited by paragraphs (2) through (10) (except paragraph (6)(C)) and paragraphs (12) through (15) of section 3(c) of such Act) at a time when more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or of the total value of shares of all classes of stock, was held, directly or indirectly (within the meaning of section 958(a)), by United States persons (as defined in section 7701(a)(30)).

(c) **STOCK HAVING TRANSFERRED OR SUBSTITUTED BASIS.**—To the extent provided in regulations prescribed by the Secretary or his delegate, stock in a foreign corporation, the basis of which (in the hands of the taxpayer selling or exchanging such stock) is determined by reference to the basis (in the hands of such taxpayer or any other person) of stock in a foreign investment company, shall be treated as stock of a foreign investment company and held by the taxpayer throughout the holding period for such stock (determined under section 1223).

(d) **RULES RELATING TO ENTITIES HOLDING FOREIGN INVESTMENT COMPANY STOCK.**—To the extent provided in regulations prescribed by the Secretary or his delegate—

(1) trust certificates of a trust to which section 677 (relating to income for benefit of grantor) applies, and

(2) stock of a domestic corporation, shall be treated as stock of a foreign investment company and held by the taxpayer throughout the holding period for such certificates or stock (determined under section 1223) in the same proportion that the investment in stock in a foreign investment company by the trust or domestic corporation bears to the total assets of such trust or corporation.

(e) **RULES RELATING TO STOCK ACQUIRED FROM A DECEDENT.**—

(1) **BASIS.**—In the case of stock of a foreign investment company acquired by bequest, devise, or inheritance (or by the decedent's estate) from a decedent dying after December 31, 1962, the basis determined under section 1014 shall be reduced (but not below the adjusted basis of such stock in the hands of the decedent immediately before his death) by the amount of the decedent's ratable share of the earnings and profits of such company accumulated after December 31, 1962. Any stock so acquired shall be treated as stock described in subsection (c).

(2) **DEDUCTION FOR ESTATE TAX.**—If stock to which subsection (a) applies is acquired from a decedent, the taxpayer shall, under regulations pre-

scribed by the Secretary or his delegate, be allowed (for the taxable year of the sale or exchange) a deduction from gross income equal to that portion of the decedent's estate tax deemed paid which is attributable to the excess of (A) the value at which such stock was taken into account for purposes of determining the value of the decedent's gross estate, over (B) the value at which it would have been so taken into account if such value had been reduced by the amount described in paragraph (1).

(f) **INFORMATION WITH RESPECT TO CERTAIN FOREIGN INVESTMENT COMPANIES.**—Every United States person who, on the last day of the taxable year of a foreign investment company beginning after December 31, 1962, owns 5 percent or more in value of the stock of such company shall furnish with respect to such company such information as the Secretary or his delegate shall by regulations prescribe.

(g) **CROSS REFERENCE.**—For special rules relating to the earnings and profits of foreign investment companies, see section 312(1).

SEC. 1247. ELECTION BY FOREIGN INVESTMENT COMPANIES TO DISTRIBUTE INCOME CURRENTLY.

(a) **ELECTION BY FOREIGN INVESTMENT COMPANY.**—

(1) **IN GENERAL.**—If a foreign investment company which is described in section 1246(b)(1) elects (in the manner provided in regulations prescribed by the Secretary or his delegate) on or before December 31, 1962, with respect to each taxable year beginning after December 31, 1962, to—

(A) distribute to its shareholders 90 percent or more of what its taxable income would be if it were a domestic corporation;

(B) designate in a written notice mailed to its shareholders at any time before the expiration of 45 days after the close of its taxable year the pro rata amount of the excess (determined as if such corporation were a domestic corporation) of the net long-term capital gain over the net short-term capital loss of the taxable year; and the portion thereof which is being distributed; and

(C) provide such information as the Secretary or his delegate deems necessary to carry out the purposes of this section, then section 1246 shall not apply with respect to the qualified shareholders of such company during any taxable year to which such election applies.

(2) **SPECIAL RULES.**—

(A) **COMPUTATION OF TAXABLE INCOME.**—For purposes of paragraph (1)(A), the taxable income of the company shall be computed without regard to—

(i) the excess of the net long-term capital gain over the net short-term capital loss referred to in paragraph (1)(B),

(ii) section 172 (relating to net operating losses), and

(iii) any deduction provided by part VIII of subchapter B (other than the deduction provided by section 248, relating to organizational expenditures).

(B) **DISTRIBUTIONS AFTER THE CLOSE OF THE TAXABLE YEAR.**—For purposes of paragraph (1)(A), a distribution made after the close of the taxable year and on or before the 15th day of the third month of the next taxable year shall be treated as distributed during the taxable year to the extent elected by the company (in accordance with regulations prescribed by the Secretary or his delegate) on or before the 15th day of such third month.

(C) **CARRYOVER OF CAPITAL LOSSES FROM NONELECTION YEARS DENIED.**—In computing the excess of the net long-term capital gain over the net short-term capital loss referred to in paragraph (1)(B), section 1212 shall not apply to losses incurred in or with respect to taxable years before the first taxable year to which the election applies.

(b) **YEARS TO WHICH ELECTION APPLIES.**—The election of any foreign investment company under this section shall terminate as of the close of the taxable year preceding its first taxable year in which any of the following occurs:

(1) the company fails to comply with the provisions of subparagraph (A), (B), or (C) of subsection (a)(1), unless it is shown that such failure is due to reasonable cause and not due to willful neglect,

(2) the company is a foreign personal holding company, or

(3) the company is not a foreign investment company which is described in section 1246(b)(1).

(c) **QUALIFIED SHAREHOLDERS.**—For purposes of this section—

(1) **IN GENERAL.**—The term “qualified shareholder” means any shareholder who is a United States person (as defined in section 7701(a)(30)), other than a shareholder described in paragraph (2).

(2) **CERTAIN UNITED STATES PERSONS EXCLUDED FROM DEFINITION.**—A United States person shall not be treated as a qualified shareholder for the taxable year if for such taxable year (or for any prior taxable year) he did not include, in computing his long-term capital gains in his return for such taxable year, the amount designated by such company pursuant to subsection (a)(1)(B) as his share of the undistributed capital gains of such company for its taxable year ending within or with such taxable year of the taxpayer. The preceding sentence shall not apply with respect to any failure by the taxpayer to treat an amount as provided therein if the taxpayer shows that such failure was due to reasonable cause and not due to willful neglect.

(d) **TREATMENT OF DISTRIBUTED AND UNDISTRIBUTED CAPITAL GAINS BY A QUALIFIED SHAREHOLDER.**—Every qualified shareholder of a foreign investment company for any taxable year of such company with respect to which an election pursuant to subsection (a) is in effect shall include, in computing his long-term capital gains—

(1) for his taxable year in which received, his pro rata share of the distributed portion of the excess of the net long-term capital gain over the net short-term capital loss for such taxable year of such company, and

(2) for his taxable year in which or with which the taxable year of such company ends, his pro rata share of the undistributed portion of the excess of the net long-term capital gain over the net short-term capital loss for such taxable year of such company.

(e) **ADJUSTMENTS.**—Under regulations prescribed by the Secretary or his delegate, proper adjustment shall be made—

(1) in the earnings and profits of the electing foreign investment company and a qualified shareholder's ratable share thereof, and

(2) in the adjusted basis of stock of such company held by such shareholder, to reflect such shareholder's inclusion in gross income of undistributed capital gains.

(f) **ELECTION BY FOREIGN INVESTMENT COMPANY WITH RESPECT TO FOREIGN TAX CREDIT.**—A foreign investment company with respect to which an election pursuant to subsection (a) is in effect and more than 50 percent of the value (as defined in section 851(c)(4)) of whose total assets at the close of the taxable year consists of stock or securities in foreign corporations may, for such taxable year, elect the application of this subsection with respect to income, war profits, and excess profits taxes described in section 901(b)(1) which are paid by the foreign investment company during such taxable year to foreign countries and possessions of the United States. If such election is made—

(1) the foreign investment company—

(A) shall compute its taxable income, for purposes of subsection (a)(1)(A), without any deductions for income, war profits, or excess profits taxes paid to foreign countries or possessions of the United States, and

(B) shall treat the amount of such taxes, for purposes of subsection (a)(1)(A), as distributed to its shareholders;

(2) each qualified shareholder of such foreign investment company—

(A) shall include in gross income and treat as paid by him his proportionate share of such taxes, and

(B) shall treat, for purposes of applying subpart A of part III of subchapter N, his proportionate share of such taxes as having been paid to the country in which the foreign investment company is incorporated, and

(C) shall treat as gross income from sources within the country in which the foreign investment company is incorporated, for purposes of applying subpart A of part III of subchapter N, the sum of his proportionate share of such taxes and any dividend paid to him by such foreign investment company.

(g) NOTICE TO SHAREHOLDERS.—The amounts to be treated by qualified shareholders, for purposes of subsection (f)(2), as their proportionate share of the taxes described in subsection (f)(1)(A) paid by a foreign investment company shall not exceed the amounts so designated by the foreign investment company in a written notice mailed to its shareholders not later than 45 days after the close of its taxable year.

(h) MANNER OF MAKING ELECTION AND NOTIFYING SHAREHOLDERS.—The election provided in subsection (f) and the notice to shareholders required by subsection (g) shall be made in such manner as the Secretary or his delegate may prescribe by regulations.

(i) LOSS ON SALE OR EXCHANGE OF CERTAIN STOCK HELD LESS THAN 6 MONTHS.—If—

(1) under this section, any qualified shareholder treats any amount designated under subsection (a)(1)(B) with respect to a share of stock as long-term capital gain, and

(2) such share is held by the taxpayer for less than 6 months, then any loss on the sale or exchange of such share shall, to the extent of the amount described in paragraph (1), be treated as loss from the sale or exchange of a capital asset held for more than 6 months.

(2) The table of sections for such part IV is amended by adding at the end thereof the following:

Sec. 1246. Gain on foreign investment company stock.

Sec. 1247. Election by foreign investment companies to distribute income currently.

(b) CONFORMING AMENDMENTS.—

(1) EARNINGS AND PROFITS OF FOREIGN INVESTMENT COMPANIES.—Section 312 (relating to effect on earnings and profits) is amended by adding after subsection (k) the following new subsection:

(1) EARNINGS AND PROFITS OF FOREIGN INVESTMENT COMPANIES.—

(1) ALLOCATION WITHIN AFFILIATED GROUP.—In the case of a sale or exchange of stock in a foreign investment company (as defined in section 1246 (b)) by a United States person (as defined in section 7701(a)(30)), if such company is a member of an affiliated group, then the accumulated earnings and profits of all members of such affiliated group shall be allocated, under regulations prescribed by the Secretary or his delegate, in such manner as is proper to carry out the purposes of section 1246.

(2) AFFILIATED GROUP DEFINED.—For purposes of paragraph (1) of this subsection, the term “affiliated group” has the meaning assigned to such term by section 1504(a); except that (A) “more than 50 percent” shall be substituted for “80 percent or more”, and (B) all corporations shall be treated as includible corporations (without regard to the provisions of section 1504(b)).

(3) PARTIAL LIQUIDATIONS AND REDEMPTIONS.—

(A) IN GENERAL.—If a foreign investment company (as defined in section 1246) distributes amounts in partial liquidation or in a redemption to which section 302(a) or 303 applies, the part of such distribution which is properly chargeable to earnings and profits shall be an amount which is not in excess of the ratable share of the earnings and profits of the company accumulated after February 28, 1913, attributable to the stock so redeemed.

(B) EFFECTIVE DATE.—Subparagraph (A) shall apply only with respect to distributions made after December 31, 1962.

(2) SALE OR EXCHANGE OF INTEREST IN PARTNERSHIP.—Section 751(d)(2) (relating to inventory items which have appreciated substantially in value) is amended by striking out “and” at the end of subparagraph (B), and by striking out subparagraph (C) and inserting in lieu thereof the following new subparagraphs:

(C) any other property of the partnership which, if sold or exchanged by the partnership, would result in a gain taxable under

subsection (a) of section 1246 (relating to gain on foreign investment company stock), and

(D) any other property held by the partnership which, if held by the selling or distributee partner, would be considered property of the type described in subparagraph (A), (B), or (C).

(3) **HOLDING PERIOD OF PROPERTY.**—Section 1223 (relating to holding period of property) is amended by redesignating paragraph (10) as paragraph (11) and inserting after paragraph (9) the following paragraph:

(10) In determining the period for which the taxpayer has held trust certificates of a trust to which subsection (d) of section 1246 applies, or the period for which the taxpayer has held stock in a corporation to which subsection (d) of section 1246 applies, there shall be included the period for which the trust or corporation (as the case may be) held the stock of foreign investment companies.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to taxable years beginning after December 31, 1962.

SEC. 15. GAIN FROM CERTAIN SALES OR EXCHANGES OF STOCK IN CERTAIN FOREIGN CORPORATIONS.

(a) **TREATMENT OF GAIN FROM THE REDEMPTION, CANCELLATION, OR SALE OF STOCK IN CERTAIN FOREIGN CORPORATIONS.**—Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by adding after section 1247 (as added by section 14 of this Act) the following new section:

SEC. 1248. GAIN FROM CERTAIN SALES OR EXCHANGES OF STOCK IN CERTAIN FOREIGN CORPORATIONS.

(a) **GENERAL RULE.**—If—

(1) a United States person sells or exchanges stock in a foreign corporation, or if a United States person receives a distribution from a foreign corporation which, under section 302 or 331, is treated as an exchange of stock, and

(2) such person owns, within the meaning of section 958(a), or is considered as owning by applying the rules of ownership of section 958(b), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such foreign corporation at any time during the 5-year period ending on the date of the sale or exchange when such foreign corporation was a controlled foreign corporation (as defined in section 957).

then the gain recognized on the sale or exchange of such stock shall be included in the gross income of such person as a dividend, to the extent of the earnings and profits of the foreign corporation attributable (under regulations prescribed by the Secretary or his delegate) to such stock which were accumulated in taxable years of such foreign corporation beginning after December 31, 1962, and during the period or periods the stock sold or exchanged was held by such person while such foreign corporation was a controlled foreign corporation.

(b) **LIMITATION ON TAX APPLICABLE TO INDIVIDUALS.**—In the case of an individual, if the stock sold or exchanged is a capital asset (within the meaning of section 1221) and has been held for more than 6 months, the tax attributable to an amount included in gross income as a dividend under subsection (a) shall not be greater than a tax equal to the sum of—

(1) a pro rata share of the excess of—

(A) the taxes that would have been paid by the foreign corporation with respect to its income had it been taxed under this chapter as a domestic corporation (but without allowance for deduction of, or credit for, taxes described in subparagraph (B)), for the period or periods the stock sold or exchanged was held by the United States person in taxable years beginning after December 31, 1962, while the foreign corporation was a controlled foreign corporation, adjusted for distributions and amounts previously included in gross income of a United States shareholder under section 951, over

- (B) the income, war profits, or excess profits taxes paid by the foreign corporation with respect to such income; and
- (2) an amount equal to the tax that would result by including in gross income, as gain from the sale or exchange of a capital asset held for more than 6 months, an amount equal to the excess of (A) the amount included in gross income as a dividend under subsection (a), over (B) the amount determined under paragraph (1).

(c) DETERMINATION OF EARNINGS AND PROFITS.—

(1) IN GENERAL.—For purposes of this section, the earnings and profits of any foreign corporation for any taxable year shall be determined according to rules substantially similar to those applicable to domestic corporations, under regulations prescribed by the Secretary or his delegate.

(2) EARNINGS AND PROFITS OF SUBSIDIARIES OF FOREIGN CORPORATIONS.—

If—

(A) subsection (a) applies to a sale or exchange by a United States person of stock of a foreign corporation and, by reason of the ownership of the stock sold or exchanged, such person owned within the meaning of section 958(a)(2) stock of any other foreign corporation; and

(B) such person owned, within the meaning of section 958(a), or was considered as owning by applying the rules of ownership of section 958(b), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such other foreign corporation at any time during the 5-year period ending on the date of the sale or exchange when such other foreign corporation was a controlled foreign corporation (as defined in section 957).

then, for purposes of this section, the earnings and profits of the foreign corporation the stock of which is sold or exchanged which are attributable to the stock sold or exchanged shall be deemed to include the earnings and profits of such other foreign corporation which—

(C) are attributable (under regulations prescribed by the Secretary or his delegate) to the stock of such other foreign corporation which such person owned within the meaning of section 958(a)(2) (by reason of his ownership within the meaning of section 958(a)(1)(A) of the stock sold or exchanged) on the date of such sale or exchange; and

(D) were accumulated in taxable years of such other corporation beginning after December 31, 1962, and during the period or periods—

(i) such other corporation was a controlled foreign corporation, and

(ii) such person owned within the meaning of section 958(a)(2) the stock of such other foreign corporation.

(d) EXCLUSIONS FROM EARNINGS AND PROFITS.—For purposes of this section, the following amounts shall be excluded, with respect to any United States person, from the earnings, and profits of a foreign corporation:

(1) AMOUNTS INCLUDED IN GROSS INCOME UNDER SECTION 951.—Earnings and profits of the foreign corporation attributable to any amount previously included in the gross income of such person under section 951, with respect to the stock sold or exchanged, but only to the extent the inclusion of such amount did not result in an exclusion of an amount from gross income under section 959.

(2) GAIN REALIZED FROM THE SALE OR EXCHANGE OF PROPERTY IN PURSUANCE OF A PLAN OF COMPLETE LIQUIDATION.—If a foreign corporation adopts a plan of complete liquidation in a taxable year of a foreign corporation beginning after December 31, 1962, and if section 337(a) would apply if such foreign corporation were a domestic corporation, earnings and profits of the foreign corporation attributable (under regulations prescribed by the Secretary or his delegate) to any net gain from the sale or exchange of property.

(3) LESS DEVELOPED COUNTRY CORPORATIONS.—Earnings and profits accumulated by a foreign corporation while it was a less developed country corporation (as defined in section 902(d)), if the stock sold or exchanged was owned for a continuous period of at least 10 years, ending with the date of the sale or exchange, by the United States person who sold or exchanged such stock. In the case of stock sold or exchanged by a corpora-

tion, if United States persons who are individuals, estates, or trusts (each of whom owned within the meaning of section 958(a), or were considered as owning by applying the rules of ownership of section 958(b), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such corporation) owned, or were considered as owning, at any time during the 10-year period ending on the date of the sale or exchange more than 50 percent of the total combined voting power of all classes of stock entitled to vote of such corporation, this paragraph shall apply only if such United States persons owned, or were considered as owning, at all times during the remainder of such 10-year period more than 50 percent of the total combined voting power of all classes of stock entitled to vote of such corporation. For purposes of this paragraph, stock owned by a United States person who is an individual, estate, or trust which was acquired by reason of the death of the predecessor in interest of such United States person shall be considered as owned by such United States person during the period such stock was owned by such predecessor in interest, and during the period such stock was owned by any other predecessor in interest if between such United States person and such other predecessor in interest there was no transfer other than by reason of the death of an individual.

(4) UNITED STATES INCOME.—Any item includible in gross income of the foreign corporation under this chapter as income derived from sources within the United States of a foreign corporation engaged in trade or business in the United States.

(5) AMOUNTS INCLUDED IN GROSS INCOME UNDER SECTION 1247.—If the United States person whose stock is sold or exchanged was a qualified shareholder (as defined in section 1247(c)) of a foreign corporation which was a foreign investment company (as described in section 1246(b)(1)), the earnings and profits of the foreign corporation for taxable years in which such person was a qualified shareholder.

(e) SALES OR EXCHANGES OF STOCK IN CERTAIN DOMESTIC CORPORATIONS.—Under regulations prescribed by the Secretary or his delegate, if—

(1) a United States person sells or exchanges stock of a domestic corporation, or receives a distribution from a domestic corporation which, under section 302 or 331, is treated as an exchange of stock, and

(2) such domestic corporation was informed or availed of principally for the holding, directly or indirectly, of stock of one or more foreign corporations,

such sale or exchange shall, for purposes of this section, be treated as a sale or exchange of the stock of the foreign corporation or corporations held by the domestic corporation.

(f) EXCEPTIONS.—This section shall not apply to—

(1) distributions to which section 303 (relating to distributions in redemption of stock to death taxes) applies;

(2) gain realized on exchanges to which section 356 (relating to receipt of additional consideration in certain reorganizations) applies; or

(3) any amount to the extent that such amount is, under any other provision of this title, treated as—

(A) a dividend,

(B) gain from the sale of an asset which is not a capital asset, or

(C) gain from the sale of an asset held for not more than 6 months.

(g) TAXPAYER TO ESTABLISH EARNINGS AND PROFITS.—Unless the taxpayer establishes the amount of the earnings and profits of the foreign corporation to be taken into account under subsection (a), all gain from the sale or exchange shall be considered a dividend under subsection (a), and unless the taxpayer establishes the amount of foreign taxes to be taken into account under subsection (b), the limitation of such subsection shall not apply.

(b) CLERICAL AMENDMENT.—The table of sections for such part IV is amended by adding at the end thereof the following:

Sec. 1248. Gain from certain sales or exchanges of stock in certain foreign corporations.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to sales or exchanges occurring after December 31, 1962.

SEC. 16. SALES AND EXCHANGES OF PATENTS, ETC., TO CERTAIN FOREIGN CORPORATIONS.

(a) **TREATMENT OF GAIN AS ORDINARY INCOME.**—Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by adding after section 1248 (as added by section 15 of this Act) the following new section:

SEC. 1249. GAIN FROM CERTAIN SALES OR EXCHANGES OF PATENTS, ETC., TO FOREIGN CORPORATIONS.

(a) **GENERAL RULE.**—Except as provided in subsection (c), gain from the sale or exchange after December 31, 1962, of a patent, an invention, model, or design (whether or not patented), a copyright, a secret formula or process, or any other similar property right to any foreign corporation by any United States person (as defined in section 7701(a)(30)) which controls such foreign corporation shall, if such gain would (but for the provisions of this subsection) be gain from the sale or exchange of a capital asset or of property described in section 1231, be considered as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231.

(b) **CONTROL.**—For purposes of subsection (a), control means, with respect to any foreign corporation, the ownership, directly or indirectly, of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote. For purposes of this subsection, the rules for determining ownership of stock prescribed by section 958 shall apply.

(b) **CLERICAL AMENDMENT.**—The table of sections for such part IV is amended by adding at the end thereof the following:

Sec. 1249. Gain from certain sales or exchanges of patents, etc., to foreign corporations.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to taxable years; beginning after December 31, 1962.

SEC. 17. TAX TREATMENT OF COOPERATIVES AND PATRONS.

(a) **IN GENERAL.**—Chapter 1 (relating to normal taxes and surtaxes) is amended by adding at the end thereof the following new subchapter:

Subchapter T—Cooperatives and Their Patrons

Part I. Tax treatment of cooperatives.

Part II. Tax treatment by patrons of patronage dividends.

Part III. Definitions: special rules.

PART I—TAX TREATMENT OF COOPERATIVES

Sec. 1381. Organizations to which part applies.

Sec. 1382. Taxable income of cooperatives.

Sec. 1383. Computation of tax where cooperatives redeems nonqualified written notices of allocation.

SEC. 1381. ORGANIZATIONS TO WHICH PART APPLIES.

(a) **IN GENERAL.**—This part shall apply to—

(1) any organization exempt from tax under section 521 (relating to exemption of farmers' cooperatives from tax), and

(2) any corporation operating on a cooperative basis other than an organization—

(A) which is exempt from tax under this chapter,

(B) which is subject to the provisions of—

(i) part II of subchapter H (relating to mutual saving banks, etc.), or

(ii) subchapter L (relating to insurance companies), or

(C) which is engaged in furnishing electric energy, or providing telephone service, to persons in rural areas.

(b) **TAX ON CERTAIN FARMERS' COOPERATIVES.**—An organization described in subsection (a) (1) shall be subject to the taxes imposed by section 11 or 1201.

SEC. 1382. TAXABLE INCOME OF COOPERATIVES.

(a) **GROSS INCOME.**—Except as provided in subsection (b), the gross income of any organization to which this part applies shall be determined without any adjustment (as a reduction in gross receipts, an increase in cost of goods sold, or otherwise) by reason of any allocation or distribution to a patron out of the net earnings of such organization.

(b) **PATRONAGE DIVIDENDS.**—In determining the taxable income of an organization to which this part applies, there shall not be taken into account amounts paid during the payment period for the taxable year—

(1) as patronage dividends (as defined in section 1388(a)), to the extent paid in money, qualified written notices of allocation (as defined in section 1388(c)), or other property (except nonqualified written notices of allocation (as defined in section 1388(d)) with respect to patronage occurring during such taxable year; or

(2) in money or other property (except written notices of allocation) in redemption of a nonqualified written notice of allocation which was paid as a patronage dividend during the payment period for the taxable year during which the patronage occurred.

For purposes of this title, any amount not taken into account under the preceding sentence shall be treated in the same manner as an item of gross income and as a deduction therefrom.

(c) **DEDUCTION FOR NONPATRONAGE DISTRIBUTIONS, ETC.**—In determining the taxable income of an organization described in section 1381(a) (1), there shall be allowed as a deduction (in addition to other deductions allowable under this chapter)—

(1) amounts paid during the taxable year as dividends on its capital stock; and

(2) amounts paid during the payment period for the taxable year—

(A) in money, qualified written notices of allocation, or other property (except nonqualified written notices of allocation) on a patronage basis to patrons with respect to its earnings during such taxable year which are derived from business done for the United States or any of its agencies or from sources other than patronage, or

(B) in money or other property (except written notices of allocation) in redemption of a nonqualified written notice of allocation which was paid, during the payment period for the taxable year during which the earnings were derived, on a patronage basis to a patron with respect to earnings derived from business or sources described in subparagraph (A).

(d) **PAYMENT PERIOD FOR EACH TAXABLE YEAR.**—For purposes of subsections (b) and (c) (2), the payment period for any taxable year is the period beginning with the first day of such taxable year and ending with the fifteenth day of the ninth month following the close of such year. For purposes of subsections (b) (1) and (c) (2) (A), a qualified check issued during the payment period shall be treated as an amount paid in money during such period if endorsed and cashed on or before the 90th day after the close of such period.

(e) **PRODUCTS MARKETING UNDER POOLING ARRANGEMENTS.**—For purposes of subsection (b), in the case of a pooling arrangement for the marketing of products, the patronage shall (to the extent provided in regulations prescribed by the Secretary or his delegate) be treated as patronage occurring during the taxable year in which the pool closes.

(f) **TREATMENT OF EARNINGS RECEIVED AFTER PATRONAGE OCCURRED.**—If any portion of the earnings from business done with or for patrons is includible in the organization's gross income for a taxable year after the taxable year during which the patronage occurred, then for purposes of applying subsection (b) to such portion the patronage shall, to the extent provided in regulations prescribed by the Secretary or his delegate, be considered to have occurred during the taxable year of the organization during which such earnings are includible in gross income.

SEC. 1383. COMPUTATION OF TAX WHERE COOPERATIVE REDEEMS NONQUALIFIED WRITTEN NOTICES OF ALLOCATION.

(a) **GENERAL RULE.**—If, under section 1382(b) (2) or (c) (2) (B), a deduction is allowable to an organization for the taxable year for amounts paid in redemption of nonqualified written notices of allocation, then the tax imposed by this chapter on such organization for the taxable year shall be the lesser of the following:

- (1) the tax for the taxable year computed with such deduction; or
- (2) an amount equal to—
 - (A) the tax for the taxable year computed without such deduction, minus
 - (B) the decrease in tax under this chapter for any prior taxable year (or years) which would result solely from treating such nonqualified written notices of allocation as qualified written notices of allocation.

(b) **SPECIAL RULES.**—

(1) If the decrease in tax ascertained under subsection (a) (2) (B) exceeds the tax for the taxable year (computed without the deduction described in subsection (a)) such excess shall be considered to be a payment of tax on the last day prescribed by law for the payment of tax for the taxable year, and shall be refunded or credited in the same manner as if it were an overpayment for such taxable year.

(2) For purposes of determining the decrease in tax under subsection (a) (2) (B), the stated dollar amount of any nonqualified written notice of allocation which is to be treated under such subsection as a qualified written notice of allocation shall be the amount paid in redemption of such written notice of allocation which is allowable as a deduction under section 1382 (b) (2) or (c) (2) (B) for the taxable year.

(3) If the tax imposed by this chapter for the taxable year is the amount determined under subsection (a) (2), then the deduction described in subsection (a) shall not be taken into account for any purpose of this subtitle other than for purposes of this section.

PART II—TAX TREATMENT BY PATRONS OF PATRONAGE DIVIDENDS

Sec. 1385. Amounts includible in patrons gross income.

SEC. 1385. AMOUNTS INCLUDIBLE IN PATRON'S GROSS INCOME.

(a) **GENERAL RULE.**—Except as otherwise provided in subsection (b), each person shall include in gross income—

(1) the amount of any patronage dividend which is paid in money, a qualified written notice of allocation, or other property (except a nonqualified written notice of allocation), and which is received by him during the taxable year from an organization described in section 1381(a), and

(2) any amount, described in section 1382(c) (2) (A) (relating to certain nonpatronage distributions by tax-exempt farmers' cooperatives), which is paid in money, a qualified written notice of allocation, or other property (except a nonqualified written notice of allocation), and which is received by him during the taxable year from an organization described in section 1381(a) (1).

(b) **EXCLUSION FROM GROSS INCOME.**—Under regulations prescribed by the Secretary or his delegate, the amount of any patronage dividend, and any amount received on the redemption, sale, or other disposition of a nonqualified written notice of allocation which was paid as a patronage dividend, shall not be included in gross income to the extent that such amount—

(1) is properly taken into account as an adjustment to basis of property, or

(2) is attributable to personal, living, or family items.

(c) **TREATMENT OF CERTAIN NONQUALIFIED WRITTEN NOTICES OF ALLOCATION.**—

(1) **APPLICATION OF SUBSECTION.**—This subsection shall apply to any nonqualified written notice of allocation which—

(A) was paid as a patronage dividend, or

(B) was paid by an organization described in section 1381(a) (1) on a patronage basis with respect to earnings derived from business or sources described in section 1382(c) (2) (A).

(2) **BASIS; AMOUNT OF GAIN.**—In the case of any nonqualified written notice of allocation to which this subsection applies, for purposes of this chapter—

(A) the basis of such written notice of allocation in the hands of the patron to whom such written notice of allocation was paid shall be zero.

(B) the basis of such written notice of allocation which was acquired from a decedent shall be its basis in the hands of the decedent, and

(C) gain on the redemption, sale, or other disposition of such written notice of allocation by any person shall, to the extent that the stated dollar amount of such written notice of allocation exceeds its basis, be considered as gain from the sale or exchange of property which is not a capital asset.

PART III—DEFINITIONS; SPECIAL RULES

Sec. 1388. Definitions; special rules.

SEC. 1388. DEFINITIONS; SPECIAL RULES.

(a) **PATRONAGE DIVIDEND.**—For purposes of this subchapter, the term “patronage dividend” means an amount paid to a patron by an organization to which part I of this subchapter applies—

(1) on the basis of quantity or value of business done with or for such patron,

(2) under an obligation of such organization to pay such amount, which obligation existed before the organization received the amount so paid, and

(3) which is determined by reference to the net earnings of the organization from business done with or for its patrons.

Such term does not include any amount paid to a patron to the extent that (A) such amount is out of earnings other than from business done with or for patrons, or (B) such amount is out of earnings from business done with or for other patrons to whom no amounts are paid, or to whom smaller amounts are paid, with respect to substantially identical transactions.

(b) **WRITTEN NOTICE OF ALLOCATION.**—For purposes of this subchapter, the term “written notice of allocation” means any capital stock, revolving fund certificate, retain certificate, certificate of indebtedness, letter of advice, or other written notice, which discloses to the recipient the stated dollar amount allocated to him by the organization and the portion thereof, if any, which constitutes a patronage dividend.

(c) **QUALIFIED WRITTEN NOTICE OF ALLOCATION.**—

(1) **DEFINED.**—For purposes of this subchapter, the term “qualified written notice of allocation” means—

(A) a written notice of allocation which may be redeemed in cash at its stated dollar amount at any time within a period beginning on the date such written notice of allocation is paid and ending not earlier than 90 days from such date, but only if the distributee receives written notice of the right of redemption at the time he receives such written notice of allocation; and

(B) a written notice of allocation which the distributee has consented, in the manner provided in paragraph (2), to take into account at its stated dollar amount as provided in section 1385(a).

Such term does not include any written notice of allocation which is paid as part of a patronage dividend or as part of a payment described in section 1382(c) (2) (A), unless 20 percent or more of the amount of such patronage dividend, or such payment, is paid in money or by qualified check.

(2) **MANNER OF OBTAINING CONSENT.**—A distributee shall consent to take a written notice of allocation into account as provided in paragraph (1) (B) only by—

(A) making such consent in writing,

(B) obtaining or retaining membership in the organization after—

(i) such organization has adopted (after the date of the enactment of the Revenue Act of 1962) a bylaw providing that membership in the organization constitutes such consent, and

(ii) he has received a written notification and copy of such bylaw, or

(C) if neither subparagraph (A) nor (B) applies, endorsing and cashing a qualified check, paid as a part of the patronage dividend or payment of which such written notice of allocation is also a part, on or before the 90th day after the close of the payment period for the taxable year of the organization for which such patronage dividend or payment is paid.

(3) PERIOD FOR WHICH CONSENT IS EFFECTIVE.—

(A) GENERAL RULE.—Except as provided in subparagraph (B)—

(i) a consent described in paragraph (2) (A) shall be a consent with respect to all patronage of the distributee with the organization occurring (determined with the application of section 1382(e) during the taxable year of the organization during which such consent is made and all subsequent taxable years of the organization; and

(ii) a consent described in paragraph (2) (B) shall be a consent with respect to all patronage of the distributee with the organization occurring (determined without the application of section 1382(e)) after he received the notification and copy described in paragraph (2) (B) (ii).

(B) REVOCATION, ETC.—

(i) Any consent described in paragraph (2) (A) may be revoked (in writing) by the distributee at any time. Any such revocation shall be effective with respect to patronage occurring on or after the first day of the first taxable year of the organization beginning after the revocation is filed with such organization; except that in the case of a pooling arrangement described in section 1382(e), a revocation made by a distributee shall not be effective as to any pool with respect to which the distributee has been a patron before such revocation.

(ii) Any consent described in paragraph (2) (B) shall not be effective with respect to any patronage occurring (determined without the application of section 1382(e)) after the distributee ceases to be a member of the organization or after the bylaws of the organization cease to contain the provision described in paragraph (2) (B) (i).

(4) QUALIFIED CHECK.—For the purposes of this subchapter, the term “qualified check” means only a check (or other instrument which is redeemable in money) which is paid as a part of a patronage dividend, or as a part of a payment described in section 1382(c) (2) (A), to a distributee who has not given consent as provided in paragraph (2) (A) or (B) with respect to such patronage dividend or payment, and on which there is clearly imprinted a statement that the endorsement and cashing of the check (or other instrument) constitutes the consent of the payee to include in his gross income, as provided in the Federal income tax laws, the stated dollar amount of the written notice of allocation which is a part of the patronage dividend or payment of which such qualified check is also a part. Such term does not include any check (or other instrument) which is paid as part of a patronage dividend or payment which does not include a written notice of allocation (other than a written notice of allocation described in paragraph (1) (A)).

(d) NONQUALIFIED WRITTEN NOTICE OF ALLOCATION.—For purposes of this subchapter, the term “nonqualified written notice of allocation” means a written notice of allocation which is not described in subsection (c) or a qualified check which is not cashed on or before the 90th day after the close of the payment period for the taxable year for which the distribution of which it is a part is paid.

(e) DETERMINATION OF AMOUNT PAID OR RECEIVED.—For purposes of this subchapter, in determining amounts paid or received—

(1) property (other than a written notice of allocation) shall be taken into account at its fair market value, and

(2) a qualified written notice of allocation shall be taken into account at its stated dollar amount.

(b) TECHNICAL AMENDMENTS.—

(1) Section 521(a) (relating to exemption of farmers’ cooperatives from tax) is amended by striking out “section 522” each place it appears therein and inserting in lieu thereof “part I of subchapter T (sec. 1381 and following)”.

(2) Section 522 (relating to tax on farmers’ cooperatives) is hereby repealed.

(3) Section 6072(d) (relating to time for filing income tax returns of exempt cooperative associations) is amended to read as follows:

(d) **RETURNS OF COOPERATIVE ASSOCIATIONS.**—In the case of an income tax return of—

(1) an exempt cooperative association described in section 1381(a)(1), or

(2) an organization described in section 1381(a)(2) which is under an obligation to pay patronage dividends (as defined in section 1388(a)) in an amount equal to at least 50 percent of its net earnings from business done with or for its patrons, or which paid patronage dividends in such an amount out of the net earnings from business done with or for patrons during the most recent taxable year for which it had such net earnings, a return made on the basis of a calendar year shall be filed on or before the 15th day of September following the close of the calendar year, and a return made on the basis of a fiscal year shall be filed on or before the 15th day of the 9th month following the close of the fiscal year.

(4) The table of subchapters for chapter 1 is amended by adding at the end thereof the following:

SUBCHAPTER T. Cooperatives and their patrons.

(5) The table of sections for part III of subchapter F of chapter 1 is amended by striking out the last line thereof.

(c) **EFFECTIVE DATES.**—

(1) **FOR THE COOPERATIVES.**—Except as provided in paragraph

(3), the amendments made by subsections (a) and (b) shall apply to taxable years of organizations described in section 1381(a) of the Internal Revenue Code of 1954 (as added by subsection (a)) beginning after December 31, 1962.

(2) **FOR THE PATRONS.**—Except as provided in paragraph (3), section 1385 of the Internal Revenue Code of 1954 (as added by subsection (a)) shall apply with respect to any amount received from any organization described in section 1381(a) of such Code, to the extent that such amount is paid by such organization in a taxable year of such organization beginning after December 31, 1962.

(3) **APPLICATION OF EXISTING LAW.**—In the case of any money, written notice of allocation, or other property paid by any organization described in section 1381(a)—

(A) before the first day of the first taxable year of such organization beginning after December 31, 1962, or

(B) on or after such first day with respect to patronage occurring before such first day,

the tax treatment of such money, written notice of allocation, or other property (including the tax treatment of gain or loss on the redemption, sale, or other disposition of such written notice of allocation) by any person shall be made under the Internal Revenue Code of 1954 without regard to subchapter T of chapter 1 of such Code.

SEC. 18. INCLUSION OF FOREIGN REAL PROPERTY IN GROSS ESTATE.

(a) **AMENDMENTS TO INCLUDE FOREIGN REAL PROPERTY.**—

(1) Section 2031(a) (relating to definition of gross estate) is amended by striking out “, except real property situated outside of the United States”.

(2) The following provisions of chapter 11 (imposing an estate tax) are amended by striking out "(except real property situated outside of the United States)":

(A) section 2033 (relating to property in which the decedent had an interest),

(B) section 2034 (relating to dower or curtesy interests),

(C) section 2035(a) (relating to transactions in contemplation of death),

(D) section 2036(a) (relating to transfers with retained life estate),

(E) section 2037(a) (relating to transfers taking effect at death),

(F) section 2038(a) (relating to revocable transfers),

(G) section 2040 (relating to joint interests), and

(H) section 2041(a) (relating to powers of appointment).

(b) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by subsection (a) shall apply to the estates of decedents dying after the date of the enactment of this Act.

(2) In the case of a decedent dying after the date of the enactment of this Act and before July 1, 1964, the value of real property situated outside of the United States shall not be included in the gross estate (as defined in section 2031(a)) of the decedent—

(A) under section 2033, 2034, 2035(a), 2036(a), 2037(a), or 2038(a) to the extent the real property, or the decedent's interest in it, was acquired by the decedent before February 1, 1962;

(B) under section 2040 to the extent such property or interest was acquired by the decedent before February 1, 1962, or was held by the decedent and the survivor in a joint tenancy or tenancy by the entirety before February 1, 1962; or

(C) under section 2041(a) to the extent that before February 1, 1962, such property or interest was subject to a general power of appointment (as defined in section 2041) possessed by the decedent.

In the case of real property, or an interest therein, situated outside of the United States (including a general power of appointment in respect of such property or interest, and including property held by the decedent and the survivor in a joint tenancy or tenancy by the entirety) which was acquired by the decedent after January 31, 1962, by gift within the meaning of section 2511, or from a prior decedent by devise or inheritance, or by reason of death, form of ownership, or other conditions (including the exercise or nonexercise of a power of appointment), for purposes of this paragraph such property or interest therein shall be deemed to have been acquired by the decedent before February 1, 1962, if before that date the donor or prior decedent had acquired the property or his interest therein or had possessed a power of appointment in respect of the property or interest.

SEC. 19. REPORTING OF INTEREST, DIVIDEND, AND PATRONAGE DIVIDEND PAYMENTS OF \$10 OR MORE DURING A YEAR.

(a) **RETURNS REGARDING PAYMENT OF DIVIDENDS.**—Section 6042 (relating to returns regarding corporate dividends, earnings, and profits) is amended to read as follows:

SEC. 6042. RETURNS REGARDING PAYMENTS OF DIVIDENDS AND CORPORATE EARNINGS AND PROFITS.

(a) **REQUIREMENT OF REPORTING.**—

(1) **IN GENERAL.**—Every person—

(A) who makes payments of dividends aggregating \$10 or more to any other person during any calendar year, or

(B) who receives payments of dividends as a nominee and who makes payments aggregating \$10 or more during any calendar year to any other person with respect to the dividends so received, shall make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the aggregate amount of such payments and the name and address of the person to whom paid.

(2) **RETURNS REQUIRED BY THE SECRETARY.**—Every person who makes payments of dividends aggregating less than \$10 to any other person during any calendar year shall, when required by the Secretary or his delegate, make a return setting forth the aggregate amount of such payments, and the name and address of the person to whom paid.

(b) **DIVIDEND DEFINED.**—

(1) **GENERAL RULE.**—For purposes of this section, the term “dividend” means—

(A) any distribution by a corporation which is a dividend (as defined in section 316); and

(B) any payment made by a stockbroker to any person as a substitute for a dividend (as so defined).

(2) **EXCEPTIONS.**—For purposes of this section, the term “dividend” does not include—

(A) to the extent provided in regulations prescribed by the Secretary or his delegate, any distribution or payment—

(i) by a foreign corporation, or

(ii) to a foreign corporation, a nonresident alien, or a partnership not engaged in trade or business in the United States and composed in whole or in part of nonresident aliens; and

(B) any amount described in section 1373 (relating to undistributed taxable income of electing small business corporations).

(3) **SPECIAL RULE.**—If the person making any payment described in subsection (a) (1) (A) or (B) is unable to determine the portion of such payment which is a dividend or is paid with respect to a dividend, he shall, for purposes of subsection (a) (1), treat the entire amount of such payment as a dividend or as an amount paid with respect to a dividend.

(c) **STATEMENTS TO BE FURNISHED TO PERSONS WITH RESPECT TO WHOM INFORMATION IS FURNISHED.**—Every person making a return under subsection (a) (1) shall furnish to each person whose name is set forth in such return a written statement showing—

(1) the name and address of the person making such return, and

(2) the aggregate amount of payments to the person as shown on such return.

The written statement required under the preceding sentence shall be furnished to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) (1) was made. No statement shall be required to be furnished to any person under this subsection if the aggregate amount of payments to such person as shown on the return made under subsection (a) (1) is less than \$10.

(d) **STATEMENTS TO BE FURNISHED BY CORPORATIONS TO SECRETARY.**—Every corporation shall, when required by the Secretary or his delegate—

(1) furnish to the Secretary or his delegate a statement stating the name and address of each shareholder, and the number of shares owned by each shareholder;

(2) furnish to the Secretary or his delegate a statement of such facts as will enable him to determine the portion of the earnings and profits of the

corporation (including gains, profits, and income not taxed) accumulated during such periods as the Secretary or his delegate may specify, which have been distributed or ordered to be distributed, respectively, to its shareholders during such taxable years as the Secretary or his delegate may specify; and

(3) furnish to the Secretary or his delegate a statement of its accumulated earnings and profits and the names and addresses of the individuals or shareholders who would be entitled to such accumulated earnings and profits if divided or distributed, and of the amounts that would be payable to each.

(b) RETURNS REGARDING PAYMENT OF PATRONAGE DIVIDENDS.—Section 6044 (relating to returns regarding patronage dividends) is amended to read as follows:

SEC. 6044. RETURNS REGARDING PAYMENTS OF PATRONAGE DIVIDENDS.

(a) REQUIREMENT OF REPORTING.—

(1) IN GENERAL.—Except as otherwise provided in this section, every cooperative to which part I of subchapter T of chapter 1 applies, which makes payments of amounts described in subsection (b) aggregating \$10 or more to any person during any calendar year, shall make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the aggregate amount of such payments and the name and address of the person to whom paid.

(2) RETURNS REQUIRED BY THE SECRETARY.—Every such cooperative which makes payments of amounts described in subsection (b) aggregating less than \$10 to any person during any calendar year shall, when required by the Secretary or his delegate, make a return setting forth the aggregate amount of such payments and the name and address of the person to whom paid.

(b) AMOUNTS SUBJECT TO REPORTING.—

(1) GENERAL RULE.—Except as otherwise provided in this section, the amounts subject to reporting under subsection (a) are—

(A) the amount of any patronage dividend (as defined in section 1388(a)) which is paid in money, qualified written notices of allocation (as defined in section 1388(c)), or other property (except nonqualified written notices of allocation as defined in section 1388(d)),

(B) any amount described in section 1382(c)(2)(A) (relating to certain nonpatronage distributions) which is paid in money, qualified written notices of allocation, or other property (except nonqualified written notices of allocation) by an organization exempt from tax under section 521 (relating to exemption of farmers' cooperatives from tax), and

(C) any amount described in section 1382(b)(2) (relating to redemption of nonqualified written notices of allocation) and, in the case of an organization described in section 1381(a)(1), any amount described in section 1382(c)(2)(B) (relating to redemption of nonqualified written notices of allocation paid with respect to earnings derived from sources other than patronage).

(2) EXCEPTIONS.—The provisions of subsection (a) shall not apply, to the extent provided in regulations prescribed by the Secretary or his delegate, to any payment—

(A) by a foreign corporation, or

(B) to a foreign corporation, a nonresident alien, or a partnership not engaged in trade or business in the United States and composed in whole or in part of nonresident aliens.

(c) EXEMPTION FOR CERTAIN CONSUMER COOPERATIVES.—A cooperative which the Secretary or his delegate determines is primarily engaged in selling at retail goods or services of a type that are generally for personal, living, or family use shall, upon application to the Secretary or his delegate, be granted exemption from the reporting requirements imposed by subsection (a). Application for exemption under this subsection shall be made in accordance with regulations prescribed by the Secretary or his delegate.

(d) DETERMINATION OF AMOUNT PAID.—For purposes of this section, in determining the amount of any payment—

(1) property (other than a qualified written notice of allocation) shall be taken into account at its fair market value, and

(2) a qualified written notice of allocation shall be taken into account at its stated dollar amount.

(e) **STATEMENTS TO BE FURNISHED TO PERSONS WITH RESPECT TO WHOM INFORMATION IS FURNISHED.**—Every cooperative making a return under subsection (a) (1) shall furnish to each person whose name is set forth in such return a written statement showing—

- (1) the name and address of the cooperative making such return, and
- (2) the aggregate amount of payments to the person as shown on such return.

The written statement required under the preceding sentence shall be furnished to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) (1) was made. No statement shall be required to be furnished to any person under this subsection if the aggregate amount of payments to such person as shown on the return made under subsection (a) (1) is less than \$10.

(c) **RETURNS REGARDING PAYMENT OF INTEREST.**—Subpart B of part III of subchapter A of chapter 61 (relating to information returns) is amended by adding after section 6048 (as added by section 7(f) of this Act) the following new section:

SEC. 6049. RETURNS REGARDING PAYMENTS OF INTEREST.

(a) **REQUIREMENT OF REPORTING.**—

(1) **IN GENERAL.**—Every person—

(A) who makes payments of interest (as defined in subsection (b)) aggregating \$10 or more to any other person during any calendar year, or

(B) who receives payments of interest as a nominee and who makes payments aggregating \$10 or more during any calendar year to any other person with respect to the interest so received,

shall make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the aggregate amount of such payments and the name and address of the person to whom paid.

(2) **RETURNS REQUIRED BY THE SECRETARY.**—Every person who makes payments of interest (as defined in subsection (b)) aggregating less than \$10 to any person during any calendar year shall, when required by the Secretary or his delegate, make a return setting forth the aggregate amount of such payments and the name and address of the person to whom paid.

(3) **OTHER RETURNS REQUIRED BY SECRETARY.**—Every corporation making payments, regardless of amounts, of interest other than interest as defined in subsection (b) shall, when required by regulations prescribed by the Secretary or his delegate, make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the amount paid and the name and address of the recipient of each such payment.

(b) **INTEREST DEFINED.**—

(1) **GENERAL RULE.**—For purposes of subsections (a) (1) and (2), the term "interest" means—

(A) interest on evidences of indebtedness (including bonds, debentures, notes, and certificates) issued by a corporation in registered form, and, to the extent provided in regulations prescribed by the Secretary or his delegate, interest on other evidences of indebtedness issued by a corporation of a type offered by corporations to the public;

(B) interest on deposits with persons carrying on the banking business;

(C) amounts (whether or not designated as interest) paid by a mutual savings bank, savings and loan association, building and loan association, cooperative bank, homestead association, credit union, or similar organization, in respect of deposits, investment certificates, or withdrawable or repurchasable shares;

(D) interest on amounts held by an insurance company under an agreement to pay interest thereon; and

(E) interest on deposits with stockbrokers and dealers in securities.

(2) **EXCEPTIONS.**—For purposes of subsections (a) (1) and (2), the term "interest" does not include—

(A) interest on obligations described in section 103(a) (1) or (3) (relating to interest on certain governmental obligations);

(B) to the extent provided in regulations prescribed by the Secretary or his delegate, any amount paid by or to a foreign corporation, a non-resident alien, or a partnership not engaged in trade or business in the United States and composed in whole or in part of nonresident aliens; and

(C) any amount on which the person making payment is required to deduct and withhold a tax under section 1451 (relating to tax-free covenant bonds), or would be so required but for section 1451(d) (relating to benefit of personal exemptions).

(c) **STATEMENTS TO BE FURNISHED TO PERSONS WITH RESPECT TO WHOM INFORMATION IS FURNISHED.**—Every person making a return under subsection (a) (1) shall furnish to each person whose name is set forth in such return a written statement showing—

- (1) the name and address of the person making such return, and
- (2) the aggregate amount of payments to the person as shown on such return.

The written statement required under the preceding sentence shall be furnished to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) (1) was made. No statement shall be required to be furnished to any person under this subsection if the aggregate amount of payments to such person as shown on the return made under subsection (a) (1) is less than \$10.

(d) **PENALTIES FOR FAILURE TO FILE INFORMATION RETURNS.**—Section 6652 (relating to failure to file certain information returns) is amended to read as follows:

SEC. 6652. FAILURE TO FILE CERTAIN INFORMATION RETURNS.

(a) **RETURNS RELATING TO PAYMENTS OF DIVIDENDS, INTEREST, AND PATRONAGE DIVIDENDS.**—In the case of each failure to file a statement of the aggregate amount of payments to another person required by section 6042(a) (1) (relating to payments of dividends aggregating \$10 or more), section 6044(a) (1) (relating to payments of patronage dividends aggregating \$10 or more), or section 6049(a) (1) (relating to payments of interest aggregating \$10 or more), on the date prescribed therefor (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause and not to willful neglect, there shall be paid (upon notice and demand by the Secretary or his delegate and in the same manner as tax), by the person failing to so file the statement, \$10 for each such statement not so filed, but the total amount imposed on the delinquent person for all such failures during any calendar year shall not exceed \$25,000.

(b) **OTHER RETURNS.**—In the case of each failure to file a statement of a payment to another person required under authority of section 6041 (relating to certain information at source), section 6042(a) (2) (relating to payments of dividends aggregating less than \$10), section 6044(a) (2) (relating to payments of patronage dividends aggregating less than \$10), section 6049(a) (2) (relating to payments of interest aggregating less than \$10), section 6049(a) (3) (relating to other payments of interest by corporations), or section 6051(d) (relating to information returns with respect to income tax withheld), on the date prescribed therefor (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause and not to willful neglect, there shall be paid (upon notice and demand by the Secretary or his delegate and in the same manner as tax) by the person failing to so file the statement, \$1 for each such statement not so filed, but the total amount imposed on the delinquent person for all such failures during the calendar year shall not exceed \$1,000.

(c) **ALCOHOL AND TOBACCO TAXES.**—For penalties for failure to file certain information returns with respect to alcohol and tobacco taxes, see, generally, subtitle E.

(e) **PENALTIES FOR FAILURE TO FURNISH STATEMENTS TO PERSONS WITH RESPECT TO WHOM RETURNS ARE FILED.**—Subchapter B of chapter 68 (relating to assessable penalties) is amended by adding after

section 6677 (as added by section 7(g) of this Act) the following new section:

SEC. 6678. FAILURE TO FURNISH CERTAIN STATEMENTS.

In the case of each failure to furnish a statement under section 6042(c), 6044(e), or 6049(c) on the date prescribed therefor to a person with respect to whom a return has been made under section 6042(a)(1), 6044(a)(1), or 6049(a)(1), respectively, unless it is shown that such failure is due to reasonable cause and not to willful neglect, there shall be paid (upon notice and demand by the Secretary or his delegate and in the same manner as tax), by the person failing to so furnish the statement, \$10 for each such statement not so furnished, but the total amount imposed on the delinquent person for all such failures during any calendar year shall not exceed \$25,000.

(f) **TECHNICAL AMENDMENTS.**—Section 6041 (relating to information at source) is amended—

(1) by striking out, in subsection (a) thereof, “(other than payments described in section 6042(1) or section 6045)” and inserting in lieu thereof “(other than payments to which section 6042(a)(1), 6044(a)(1), or 6049(a)(1) applies, and other than payments with respect to which a statement is required under the authority of section 6042(a)(2), 6044(a)(2), 6045, 6049(a)(2), or 6049(a)(3))”; and

(2) by striking out subsection (c) thereof.

(g) **CLERICAL AMENDMENTS.**—

(1) The table of sections for subpart B of part III of subchapter A of chapter 61 is amended—

(A) by striking out

Sec. 6042. Returns regarding corporate dividends, earnings, and profits.
and inserting in lieu thereof

Sec. 6042. Returns regarding payments of dividends and corporate earnings and profits.;

(B) by striking out

Sec. 6044. Returns regarding patronage dividends.
and inserting in lieu thereof

Sec. 6044. Returns regarding payments of patronage dividends.:
and

(C) by adding at the end of such table the following:

Sec. 6049. Returns regarding payments of interest.

(2) The table of sections for subchapter B of chapter 68 is amended by adding at the end thereof the following:

Sec. 6678. Failure to furnish certain statements.

(h) **EFFECTIVE DATES.**—

(1) **DIVIDENDS AND INTEREST.**—The amendments made by this section shall apply to payments of dividends and interest made on or after January 1, 1963.

(2) **PATRONAGE DIVIDENDS.**—The amendments made by this section shall apply to payments of amounts described in section 6044 (b) of the Internal Revenue Code of 1954 made on or after January 1, 1963, with respect to patronage occurring on or after the first day of the first taxable year of the cooperative beginning on or after January 1, 1963.

SEC. 20. INFORMATION WITH RESPECT TO CERTAIN FOREIGN ENTITIES.

(a) **INFORMATION TO BE FURNISHED BY INDIVIDUALS, DOMESTIC CORPORATIONS, ETC., WITH RESPECT TO CERTAIN FOREIGN CORPORATIONS.**—Section 6038 is amended to read as follows:

SEC. 6038. INFORMATION WITH RESPECT TO CERTAIN FOREIGN CORPORATIONS.

(a) **REQUIREMENT.**—

(1) **IN GENERAL.**—Every United States person shall furnish, with respect to any foreign corporation which such person controls (within the meaning of subsection (d)(1)), such information as the Secretary or his delegate may prescribe by regulations relating to—

(A) the name, the principal place of business, and the nature of business of such foreign corporation, and the country under whose laws incorporated;

(B) the accumulated profits (as defined in section 902(c)) of such foreign corporation, including the items of income (whether or not included in gross income under chapter 1), deductions (whether or not allowed in computing taxable income under chapter 1), and any other items taken into account in computing such accumulated profits;

(C) a balance sheet for such foreign corporation listing assets, liabilities, and capital;

(D) transactions between such foreign corporation and—

(i) such person,

(ii) any other corporation which such person controls, and

(iii) any United States person owning, at the time the transaction takes place, 10 percent or more of the value of any class of stock outstanding of such foreign corporation; and

(E) a description of the various classes of stock outstanding, and a list showing the name and address of, and number of shares held by, each United States person who is a shareholder of record owning at any time during the annual accounting period 5 percent or more in value of any class of stock outstanding of such foreign corporation.

The Secretary or his delegate may also require the furnishing of any other information which is similar or related in nature to that specified in the preceding sentence.

(2) **PERIOD FOR WHICH INFORMATION IS TO BE FURNISHED, ETC.**—The information required under paragraph (1) shall be furnished for the annual accounting period of the foreign corporation ending with or within the United States person's taxable year. The information so required shall be furnished at such time and in such manner as the Secretary or his delegate shall by regulations prescribe.

(3) **LIMITATION.**—No information shall be required to be furnished under this subsection with respect to any foreign corporation for any annual accounting period unless such information was required to be furnished under regulations in effect on the first day of such annual accounting period.

(b) **EFFECT OF FAILURE TO FURNISH INFORMATION.**—

(1) **IN GENERAL.**—If a United States person fails to furnish, within the time prescribed under paragraph (2) of subsection (a), any information with respect to any foreign corporation required under paragraph (1) of subsection (a), then—

(A) in applying section 901 (relating to taxes of foreign countries and possessions of the United States) to such United States person for the taxable year, the amount of taxes (other than taxes reduced under subparagraph (B)) paid or deemed paid (other than those deemed paid under section 904(d)) to any foreign country or possession of the United States for the taxable year shall be reduced by 10 percent, and

(B) in applying sections 902 (relating to foreign tax credit for corporate stockholder in foreign corporation) and 960 (relating to special rules for foreign tax credit) to any such United States person which is a corporation (or to any person who acquires from any other person any portion of the interest of such other person in any such foreign corporation, but only to the extent of such portion) for any taxable year, the amount of taxes paid or deemed paid by each foreign corporation with respect to which such person is required to furnish information during

the annual accounting period or periods with respect to which such information is required under paragraph (2) of subsection (a) shall be reduced by 10 percent.

If such failure continues 90 days or more after notice by the Secretary or his delegate to the United States person, then the amount of the reduction under this paragraph shall be 10 percent plus an additional 5 percent for each 3-month period, or fraction thereof, during which such failure to furnish information continues after the expiration of such 90-day period.

(2) **LIMITATION.**—The amount of the reduction under paragraph (1) for each failure to furnish information with respect to a foreign corporation required under subsection (a) (1) shall not exceed whichever of the following amounts is the greater:

(A) \$10,000, or

(B) the income of the foreign corporation for its annual accounting period with respect to which the failure occurs.

(3) **SPECIAL RULES.**—

(A) No taxes shall be reduced under this subsection more than once for the same failure.

(B) For purposes of this subsection, the time prescribed under paragraph (2) of subsection (a) to furnish information (and the beginning of the 90-day period after notice by the Secretary) shall be treated as being not earlier than the last day on which (as shown to the satisfaction of the Secretary or his delegate) reasonable cause existed for failure to furnish such information.

(C) In applying subsections (a) and (b) of section 902, and in applying subsection (a) of section 960, the reduction provided by this subsection shall not apply for purposes of determining the amount of accumulated profits in excess of income, war profits, and excess profits taxes.

(c) **TWO OR MORE PERSONS REQUIRED TO FURNISH INFORMATION WITH RESPECT TO SAME FOREIGN CORPORATION.**—Where, but for this subsection, two or more United States persons would be required to furnish information under subsection (a) with respect to the same foreign corporation for the same period, the Secretary or his delegate may by regulations provide that such information shall be required only from one person. To the extent practicable, the determination of which person shall furnish the information shall be made on the basis of actual ownership of stock.

(d) **DEFINITIONS.**—For purposes of this section—

(1) **CONTROL.**—A person is in control of a corporation if such person owns stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of shares of all classes of stock, of a corporation. If a person is in control (within the meaning of the preceding sentence) of a corporation which in turn owns more than 50 percent of the total combined voting power of all classes of stock entitled to vote of another corporation, or owns more than 50 percent of the total value of the shares of all classes of stock of another corporation, then such person shall be treated as in control of such other corporation. For purposes of this paragraph, the rules prescribed by section 318(a) for determining ownership of stock shall apply; except that—

(A) the second sentence of subparagraphs (A) and (B), and clause (ii) of subparagraph (C), of section 318(a) (2) shall not be applied so as to consider a United States person as owning stock which is owned by a person who is not a United States person, and

(B) in applying clause (i) of subparagraph (C) of section 318(a) (2), the phrase "10 percent" shall be substituted for the phrase "50 percent" used in subparagraph (C).

(2) **ANNUAL ACCOUNTING PERIOD.**—The annual accounting period of a foreign corporation is the annual period on the basis of which such corporation regularly computes its income in keeping its books.

(e) **CROSS REFERENCES.**—

(1) For provisions relating to penalties for violations of this section, see section 7203.

(2) For definition of the term "United States person", see section 7701(a) (30).

(b) INFORMATION AS TO ORGANIZATION OR REORGANIZATION OF FOREIGN CORPORATIONS AND AS TO ACQUISITIONS OF THEIR STOCK.—Section 6046 (relating to returns as to creation or organization, or reorganization, of foreign corporations) is amended to read as follows:

SEC. 6046. RETURNS AS TO ORGANIZATION OR REORGANIZATION OF FOREIGN CORPORATIONS AND AS TO ACQUISITIONS OF THEIR STOCK.

(a) REQUIREMENT OF RETURN.—A return complying with the requirements of subsection (b) shall be made by—

(1) each United States citizen or resident who is on January 1, 1963, an officer or director of a foreign corporation, 5 percent or more in value of the stock of which is owned by a United States person (as defined in section 7701(a)(30)), or who becomes such an officer or director at any time after such date,

(2) each United States person who on January 1, 1963, owns 5 percent or more in value of the stock of a foreign corporation, or who, at any time after such date—

(A) acquires stock which, when added to any stock owned on January 1, 1963, has a value equal to 5 percent or more of the value of the stock of a foreign corporation, or

(B) acquires an additional 5 percent or more in value of the stock of a foreign corporation, and

(3) each person who at any time after January 1, 1963, becomes a United States person while owning 5 percent or more in value of the stock of a foreign corporation.

(b) FORM AND CONTENTS OF RETURNS.—The returns required by subsection (a) shall be in such form and shall set forth, in respect of the foreign corporation, such information as the Secretary or his delegate prescribes by forms or regulations as necessary for carrying out the provisions of the income tax laws, except that in the case of persons described only in subsection (a)(1) the information required shall be limited to the names and addresses of persons described in subsection (a)(2).

(c) OWNERSHIP OF STOCK.—For purposes of subsection (a), stock owned directly or indirectly by a person (including, in the case of an individual, stock owned by members of his family) shall be taken into account. For purposes of the preceding sentence, the family of an individual shall be considered as including only his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants.

(d) TIME FOR FILING.—Any return required by subsection (a) shall be filed on or before the 90th day after the day on which, under any provision of subsection (a), the United States citizen, resident, or person becomes liable to file such return.

(e) LIMITATION.—

(1) GENERAL RULE.—Except as provided in paragraph (2), no information shall be required to be furnished under this section with respect to any foreign corporation unless such information was required to be furnished under regulations which have been in effect for at least 90 days before the date on which the United States citizen, resident, or person becomes liable to file a return required under subsection (a).

(2) EXCEPTION.—In the case of liability to file a return under subsection (a) arising on or after January 1, 1963, and before June 1, 1963—

(A) no information shall be required to be furnished under this section with respect to any foreign corporation unless such information was required to be furnished under regulations in effect on or before March 1, 1963, and

(B) if the date on which such regulations become effective is later than the day on which such liability arose, any return required by subsection (a) shall (in lieu of the time prescribed by subsection (d)) be filed on or before the 90th day after such date.

(f) CROSS REFERENCE.—For provisions relating to penalties for violations of this section, see sections 6679 and 7203.

(c) CIVIL PENALTY FOR FAILURE TO FILE RETURN.—Subchapter P of chapter 68 (relating to assessable penalties) is amended by adding

after section 6678 (as added by section 19(e) of this Act) the following new section:

SEC. 6679. FAILURE TO FILE RETURNS AS TO ORGANIZATION OR REORGANIZATION OF FOREIGN CORPORATIONS AND AS TO ACQUISITIONS OF THEIR STOCK.

(a) **CIVIL PENALTY.**—In addition to any criminal penalty provided by law, any person required to file a return under section 6046 who fails to file such return at the time provided in such section, or who files a return which does not show the information required pursuant to such section, shall pay a penalty of \$1,000, unless it is shown that such failure is due to reasonable cause.

(b) **DEFICIENCY PROCEDURES NOT TO APPLY.**—Subchapter B of chapter 63 (relating to deficiency procedure for income, estate, and gift taxes) shall not apply in respect of the assessment or collection of any penalty imposed by subsection (a).

(d) **TECHNICAL AMENDMENTS.**—

(1) Section 318(b) (relating to cross references) is amended by striking out “and” at the end of paragraph (5), by striking out the period at the end of paragraph (6) and inserting in lieu thereof “: and”, and by adding at the end thereof the following:

(7) section 6038(d) (1) (relating to information with respect to certain foreign corporations).

(2) The table of sections for subpart B of part III of subchapter A of chapter 61 is amended by striking out

Sec. 6046. Returns as to creation or organization, or reorganization, of foreign corporations.

and inserting in lieu thereof

Sec. 6046. Returns as to organization or reorganization of foreign corporations and as to acquisitions of their stock.

(3) The table of sections for subchapter B of chapter 68 is amended by adding at the end thereof the following:

Sec. 6679. Failure to file returns as to organization or reorganization of foreign corporations and as to acquisitions of their stock.

(e) **EFFECTIVE DATE.**—

(1) The amendments made by subsection (a) shall apply with respect to annual accounting periods of foreign corporations beginning after December 31, 1962.

(2) The amendments made by subsection (b) shall take effect on January 1, 1963.

SEC. 21. EXPENDITURES BY FARMERS FOR CLEARING LAND.

(a) **ALLOWANCE OF DEDUCTION.**—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by adding after section 181 (as added by section 2(c) of this Act) the following new section:

SEC. 182. EXPENDITURES BY FARMERS FOR CLEARING LAND.

(a) **IN GENERAL.**—A taxpayer engaged in the business of farming may elect to treat expenditures which are paid or incurred by him during the taxable year in the clearing of land for the purpose of making such land suitable for use in farming as expenses which are not chargeable to capital account. The expenditures so treated shall be allowed as a deduction.

(b) **LIMITATION.**—The amount deductible under subsection (a) for any taxable year shall not exceed whichever of the following amounts is the lesser:

(1) \$5,000, or

(2) 25 percent of the taxable income derived from farming during the taxable year.

For purposes of paragraph (2), the term "taxable income derived from farming" means the gross income derived from farming reduced by the deductions allowed by this chapter (other than by this section) which are attributable to the business of farming.

(c) **DEFINITIONS.**—For purposes of subsection (a)—

(1) The term "clearing of land" includes (but is not limited to) the eradication of trees, stumps, and brush, the treatment or moving of earth, and the diversion of streams and watercourses.

(2) The term "land suitable for use in farming" means land which as a result of the activities described in paragraph (1) is suitable for use by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products or for the sustenance of livestock.

(d) **EXCEPTIONS, ETC.**—

(1) **EXCEPTIONS.**—The expenditures to which subsection (a) applies shall not include—

(A) the purchase, construction, installation, or improvement of structures, appliances, or facilities which are of a character which is subject to the allowance for depreciation provided in section 167, or

(B) any amount paid or incurred which is allowable as a deduction without regard to this section.

(2) **CERTAIN PROPERTY USED IN THE CLEARING OF LAND.**—

(A) **ALLOWANCE FOR DEPRECIATION.**—The expenditures to which subsection (a) applies shall include a reasonable allowance for depreciation with respect to property of the taxpayer which is used in the clearing of land for the purpose of making such land suitable for use in farming and which, if used in a trade or business, would be property subject to the allowance for depreciation provided by section 167.

(B) **TREATMENT AS DEPRECIATION DEDUCTION.**—For purposes of this chapter, any expenditure described in subparagraph (A) shall, to the extent allowed as a deduction under subsection (a), be treated as an amount allowed under section 167 for exhaustion, wear and tear, or obsolescence of the property which is used in the clearing of land.

(e) **ELECTION.**—The election under subsection (a) for any taxable year shall be made within the time prescribed by law (including extensions thereof) for filing the return for such taxable year. Such election shall be made in such manner as the Secretary or his delegate may by regulations prescribe. Such election may not be revoked except with the consent of the Secretary or his delegate.

(b) **CONFORMING AMENDMENT.**—Section 263(a)(1) (relating to disallowance of deductions for capital expenditures) is amended by striking out "or" at the end of subparagraph (C), by striking out the period at the end of subparagraph (D) and inserting ", or", and by adding at the end thereof the following new subparagraph:

(E) expenditures by farmers for clearing land deductible under section 182.

(c) **CLERICAL AMENDMENT.**—The table of sections for such part VI is amended by adding at the end thereof the following:

Sec. 182. Expenditures by farmers for clearing land.

(d) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to taxable years beginning after December 31, 1962.

SEC. 22. CHARITABLE CONTRIBUTIONS MADE FROM INCOME ATTRIBUTABLE TO SEVERAL TAXABLE YEARS.

(a) **TREATMENT FOR PURPOSES OF PART I OF SUBCHAPTER Q.**—Section 1307 (relating to rules applicable to part I of subchapter Q) is amended by adding at the end thereof the following new subsection:

(e) **ELECTION WITH RESPECT TO CHARITABLE CONTRIBUTIONS.**—In the case of an individual who elects (in such manner and at such time as the Secretary

or his delegate prescribes by regulations) to have the provisions of this subsection apply, an amount received or accrued to which this part applies shall be reduced, for purposes of computing the tax liability of the taxpayer under this part with respect to the amount so received or accrued, by an amount equal to that portion of (1) the amount of charitable contributions made by the taxpayer during the taxable year in which the amount is so received or accrued which are allowable as a deduction for such year under section 170 (determined without regard to this part), as (2) the amount received or accrued to which this part applies is of the adjusted gross income for the taxable year (determined without regard to this part). In any case in which the taxpayer elects to have the provisions of the preceding sentence apply, for purposes of computing the limitation on tax under this part—

(1) only the same proportion of the amount to which this part applies shall be taken into account for purposes of computing the limitations under section 170(b)(1) (A) and (B) for taxable years before the taxable year in which such amount is received or accrued as (A) the excess of the maximum amount which could, if the taxpayer had made additional contributions described in clause (i), (ii), or (iii) of section 170(b)(1) (A), have been described in clause (1) of the preceding sentence over the amount described in such clause (1), bears to (B) such maximum amount, and

(2) the portion of the amount of charitable contributions described in the preceding sentence shall not be taken into account in computing the tax for the taxable year in which the amount to which this part applies is received or accrued.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall apply with respect to amounts received or accrued in taxable years beginning after December 31, 1961.

SEC. 23. EFFECTIVE DATE OF SECTION 1371(c) OF THE INTERNAL REVENUE CODE OF 1954.

(a) **IN GENERAL.**—Subject to the provisions of subsection (b), section 1371(c) of the Internal Revenue Code of 1954 (as added by section 2(a) of the Act entitled “An Act to amend the Internal Revenue Code of 1954 to provide a personal exemption for children placed for adoption and to clarify certain provisions relating to the election of small business corporations as to taxable status”, approved September 23, 1959 (Public Law 86-376)), shall (notwithstanding the provisions of the first sentence of section 2(d) of such Act) also apply to taxable years beginning after December 31, 1957, and before January 1, 1960.

(b) **ELECTION AND CONSENT BY CORPORATIONS: CONSENTS BY SHAREHOLDERS.**—Subsection (a) shall apply with respect to any corporation and its shareholders only if, within one year after the date of the enactment of this Act—

(1) such corporation (in such manner as the Secretary of the Treasury or his delegate prescribes by regulations) elects to have the provisions of subsection (a) apply and consents to the application of subsection (c); and

(2) each person who is a shareholder of such corporation on the date on which such corporation makes such election, and each person who was a shareholder of such corporation during any taxable year of such corporation beginning after December 31, 1957, and ending before the date of such election, consents (in such manner and at such time as the Secretary of the Treasury or his delegate prescribes by regulations) to such election and to the application of subsection (c).

(c) **TOLLING OF STATUTES OF LIMITATIONS.**—In any case in which a corporation makes an election under subsection (b)—

(1) if the assessment of any deficiency against the corporation making such election, or any shareholder of such corporation who consents to such election, for any taxable year is prevented, at any time on or before the expiration of one year after the date of such election, by the operation of any law or rule of law, assessment of such deficiency may, nevertheless, be made, to the extent such deficiency is attributable to the application of subsection (a), at any time on or before the expiration of such one-year period; and

(2) if credit or refund of any overpayment of tax by the corporation making such election, or any shareholder of such corporation who consents to such election, for any taxable year is prevented, at any time on or before the expiration of one year after the date of such election, by the operation of any law or rule of law, credit or refund of such overpayment may, nevertheless, be allowed or made, to the extent such overpayment is attributable to the application of subsection (a), if claim therefore is filed on or before the expiration of such one-year period.

SEC. 24. CERTAIN LOSSES SUSTAINED IN CONVERTING FROM STREET RAILWAY TO BUS OPERATIONS.

(a) **IN GENERAL.**—If a corporation has a net operating loss for the taxable year ending December 31, 1953, or the taxable year ending December 31, 1954, principally as the result of conversion from street railways to bus operations with respect to part or all of the company's operations, then its unused conversion loss will be subject to the treatment provided in subsection (c).

(b) **UNUSED CONVERSION LOSS DEFINED.**—The amount of the unused conversion loss shall be the sum of the part of the net operating loss for each year described in subsection (a) which (without regard to this section) would be carried over to the sixth taxable year following the loss year if section 172(b) of the Internal Revenue Code of 1954 (or, where applicable, section 122(b)(2)(B) of the Internal Revenue Code of 1939) permitted such a carryover.

(c) **TREATMENT OF UNUSED CONVERSION LOSS.**—If a taxpayer has an unused conversion loss, then in determining the amount of the net operating loss carryover from the taxable year ending December 31, 1959, to each of the 5 taxable years following such taxable year for purposes of section 172 of the Internal Revenue Code of 1954, such unused conversion loss shall be treated as a net operating loss for the taxable year ending December 31, 1959. This subsection shall apply only for years in which the taxpayer is engaged in the furnishing or sale of transportation (as defined in section 1503(c)(1)(A) of the Internal Revenue Code of 1954).

(d) **REGULATIONS.**—The Secretary of the Treasury, or his delegate, may prescribe by regulation such rules as may be necessary to carry out the purposes of this section.

SEC. 25. PENSION PLAN OF LOCAL UNION NUMBERED 435, INTERNATIONAL HOD CARRIERS' BUILDING AND COMMON LABORERS' UNION OF AMERICA.

The pension plan of Local Union Numbered 435 of the International Hod Carriers' Building and Common Laborers' Union of America, which was negotiated to take effect May 1, 1960, pursuant to an agreement between such union and the Building Trades Em-

ployers Association of Rochester, New York, Incorporated, and which has been held by the Internal Revenue Service to constitute a qualified trust under section 401(a) of the Internal Revenue Code of 1954, and to be exempt from taxation under section 501(a) of such Code, shall be held and considered to have been a qualified trust under such section 401(a), and to have been exempt from taxation under such section 501(a), for the period beginning May 1, 1960, and ending April 20, 1961, but only if it is shown to the satisfaction of the Secretary of the Treasury or his delegate that the trust has not in this period been operated in a manner which would jeopardize the interests of its beneficiaries.

SEC. 26. CONTINUATION OF A PARTNERSHIP YEAR FOR SURVIVING PARTNER IN A TWO-MAN PARTNERSHIP WHERE ONE DIES.

(a) **CLOSE OF TAXABLE YEAR OF TWO-MAN PARTNERSHIP WHEN ONE PARTNER DIES.**—Section 188 of the Internal Revenue Code of 1939 (relating to different taxable years of partner and partnership) is amended—

(1) by striking out “If” and inserting in lieu thereof “(a) **GENERAL RULE.**—If”; and

(2) by adding at the end of such section 188 the following new subsection:

(b) **TWO-MAN PARTNERSHIP.**—For the purpose of this chapter, the death of one of the partners of a partnership consisting of two members shall not, if the surviving partner so elects within one year after the date of enactment of this subsection, result in the termination of the partnership or in the closing of the taxable year of the partnership with respect to the surviving partner prior to the time the partnership year would have closed if neither partner had died or disposed of his interest.

(b) **EFFECTIVE DATE, ETC.**—The amendments made by subsection (a) shall apply with respect to taxable years of a partnership beginning after December 31, 1946, to which the Internal Revenue Code of 1939 applies. If refund or credit of any overpayment resulting from the application of the amendments made by subsection (a) of this section (including interest, additions to the tax, and additional amounts), is prevented on the date of enactment of this Act, or within one year from such date, by the operation of any law or rule of law (other than section 3760 of the Internal Revenue Code of 1939 or section 7121 of the Internal Revenue Code of 1954, relating to closing agreements, and other than section 3761 of the Internal Revenue Code of 1939 or section 7122 of the Internal Revenue Code of 1954, relating to compromises), such refund or credit of such overpayment, may, nevertheless, be made or allowed if claim therefor is filed within one year after the date of the enactment of this Act. No interest shall be allowed or paid on any overpayment resulting from the enactment of this section.

SEC. 27. EXCLUSION FROM GROSS INCOME OF CERTAIN AWARDS MADE PURSUANT TO EVACUATION CLAIMS OF JAPANESE-AMERICAN PERSONS.

(a) **IN GENERAL.**—No amount received as an award under the Act entitled “An Act to authorize the Attorney General to adjudicate certain claims resulting from evacuation of certain persons of Japanese ancestry under military orders”, approved July 2, 1948, as amended by Public Law 116, Eighty-second Congress, and Public Law 673, Eighty-fourth Congress (50 U.S.C. App., secs. 1981–1987), shall be

included in gross income for purposes of chapter 1 of the Internal Revenue Code of 1939 or chapter 1 of the Internal Revenue Code of 1954.

(b) **EFFECTIVE DATE, ETC.**—Subsection (a) shall apply with respect to taxable years ending after July 2, 1948. If refund or credit of any overpayment of Federal income tax resulting from the application of subsection (a) (including interest, additions to the tax, additional amounts, and penalties) is prevented on the date of the enactment of this Act, or within one year from such date, by the operation of any law or rule of law, the refund or credit of such overpayment may nevertheless be made or allowed if claim therefor is filed within one year after the date of enactment of this Act. In the case of a claim to which the preceding sentence applies, the amount to be refunded or credited as an overpayment shall not be diminished by any credit or setoff based upon any item other than the amount of the award referred to in subsection (a). No interest shall be allowed or paid on any overpayment resulting from the application of this section.

SEC. 28. DEDUCTION FOR DEPRECIATION BY TENANT-STOCKHOLDER OF COOPERATIVE HOUSING CORPORATION.

(a) **ALLOWANCE OF DEDUCTION.**—Section 216 (relating to deductions by tenant-stockholders of a cooperative housing corporation) is amended by—

(1) amending the heading thereof to read as follows:

SEC. 216. DEDUCTION OF TAXES, INTEREST, AND BUSINESS DEPRECIATION BY COOPERATIVE HOUSING CORPORATION TENANT-STOCKHOLDER; and

(2) adding at the end of section 216 the following new subsection:

(c) **TREATMENT AS PROPERTY SUBJECT TO DEPRECIATION.**—So much of the stock of a tenant-stockholder in a cooperative housing corporation as is allocable, under regulations prescribed by the Secretary or his delegate, to a proprietary lease or right of tenancy in property subject to the allowance for depreciation under section 167(a) shall, to the extent such proprietary lease or right of tenancy is used by such tenant-stockholder in a trade or business or for the production of income, be treated as property subject to the allowance for depreciation under section 167(a).

(b) **CLERICAL AMENDMENT.**—The table of sections for part VII of subchapter B of chapter 1 is amended by striking out the item relating to section 216 and inserting in lieu thereof the following:

Sec. 216. Deduction of taxes, interest, and business depreciation by cooperative housing corporation tenant-stockholder.

(c) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall be effective with respect to taxable years beginning after December 31, 1961.

SEC. 29. DEDUCTION FOR INCOME TAX PURPOSES OF CONTRIBUTIONS TO CERTAIN ORGANIZATIONS FOR JUDICIAL REFORM.

For purposes of section 170 of the Internal Revenue Code of 1954 (relating to deduction for charitable, etc., contributions and gifts), a contribution or gift made after December 31, 1961, with respect to a referendum occurring during the calendar year 1962 to or for the use of any nonprofit organization created and operated exclusively—

(1) to consider proposals for the reorganization of the judicial branch of the government of any State of the United States or political subdivision of such State, and

(2) to provide information, make recommendations, and seek public support or opposition as to such proposals, shall be treated as a charitable contribution if no part of the net earnings of such organization inures to the benefit of any private shareholder or individual. The provisions of the preceding sentence shall not apply to any organization which participates in, or intervenes in, any political campaign on behalf of any candidate for public office.

SEC. 30. EFFECTIVE DATE OF AMENDMENT TO SECTION 1374(b).

The amendment made by section 2(b) of Public Law 86-376 (73 Stat. 699) shall take effect on September 2, 1958.

SEC. 31. TREATIES.

Section 7852(d) of the Internal Revenue Code of 1954 (relating to treaty obligations) shall not apply in respect of any amendment made by this act.

Approved October 16, 1962, 10:30 a.m.

PUBLIC LAW 87-846
EIGHTY-SEVENTH CONGRESS, OCTOBER 22, 1962
H.R. 7283¹⁸

An Act to amend the War Claims Act of 1948, as amended, to provide compensation for certain World War II losses.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I

SECTION 101. That the War Claims Act of 1948, as amended, is further amended by inserting * * * the following:

* * * * *

DEDUCTIONS IN MAKING AWARDS

SEC. 206. (a) In determining the amount of any award there shall be deducted all amounts the claimant has received on account of the same loss or losses with respect to which an award is made under this title.

(b) Each claim in excess of \$10,000 filed under this title by a corporation shall include a statement under oath disclosing the aggregate amount of Federal tax benefits derived by such corporation in any prior taxable year or years resulting from any deduction or deductions claimed for the loss or losses with respect to which such claim is filed. In determining the amount of any award where the allowable loss exceeds \$10,000 there shall be deducted an amount equal to the aggregate amount of Federal tax benefits so derived by the claimant. For the purposes of this subsection, such Federal tax benefits shall be the aggregate of the amounts by which the claimant's taxes for such year or years under chapters 1, 2A, 2B, 2D, and 2E of the Internal Revenue Code of 1939, or subtitle A of the Internal Revenue Code of 1954 were decreased with respect to such loss or losses. Any payments made on an award reduced by reason of this subsection shall be exempt from Federal income taxes.

* * * * *

Approved October 22, 1962.

¹⁸ This publication of the law is restricted to excerpts involving internal revenue matters: House Report No. 2035, page 1177, this Bulletin; Senate Report No. 1112 and Conference Report No. 2513 are not published herein.

PUBLIC LAW 87-858
EIGHTY-SEVENTH CONGRESS, OCTOBER 23, 1962
H.R. 8952 ¹⁹

An Act to amend the provisions of the Internal Revenue Code of 1954 relating to the conditions under which the special constructive sale price rule is to apply for purposes of certain manufacturers excise taxes and relating to the taxation of life insurance companies, and for other purposes.

Be it enacted by the Senate and House off Representatives of the United States of America in Congress assembled.

SECTION 1. CONSTRUCTIVE SALE PRICE

(a) **APPLICATION OF SPECIAL RULE.**—Section 4216(b) (2) (C) of the Internal Revenue Code of 1954 (relating to special rule for determining constructive sale price) is amended by inserting before “the normal method” the following: “in the case of articles upon which tax is imposed under section 4061(a) (relating to automobiles, trucks, etc.), 4191 (relating to business machines), or 4211 (relating to matches),”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall apply with respect to articles sold by the manufacturer, producer, or importer on or after October 1, 1962.

SEC. 2. CONTRIBUTIONS TO FOUNDATIONS FOR CERTAIN STATE COLLEGES AND UNIVERSITIES.

(a) **LIMITATION ON CONTRIBUTIONS ALLOWABLE AS DEDUCTION.**—Section 170(b) (1) (A) of the Internal Revenue Code of 1954 (relating to limitation on amount of deduction for charitable contributions by individuals) is amended by striking out “or” at the end of clause (ii), by inserting “or” at the end of clause (iii), and by inserting after clause (iii) the following new clause:

(iv) an organization referred to in section 503(b) (3) organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a college or university which is an organization referred to in clause (ii) of this subparagraph and which is an agency or instrumentality of a State or political subdivision thereof, or which is owned or operated by a State or political subdivision thereof or by an agency or instrumentality of one or more States or political subdivisions.

(b) **TECHNICAL AMENDMENT.**—Section 170(b) (1) (B) of such Code is amended by striking out “any charitable contributions to the organizations described in clauses (i), (ii), and (iii)” and inserting in lieu thereof “any charitable contributions described in subparagraph (A)”.

(c) **EFFECTIVE DATE.**—The amendments made by subsections (a) and (b) shall apply to taxable years beginning after December 31, 1960.

SEC. 3. LIFE INSURANCE COMPANIES.

(a) **VARIABLE ANNUITIES AND OTHER SEGREGATED ASSET ACCOUNTS.**—Section 801(g) of the Internal Revenue Code of 1954 (relating to variable annuities) is amended to read as follows:

¹⁹ House Report No. 1265, page 1177, this Bulletin; Senate Report No. 2109, page 1180, this Bulletin; Conference Report No. 2542, page 1193, this Bulletin.

(g) **CONTRACTS WITH RESERVES BASED ON SEGREGATED ASSET ACCOUNTS.—**(1) **DEFINITIONS.—**

(A) **ANNUITY CONTRACTS INCLUDE VARIABLE ANNUITY CONTRACTS.**—For purposes of this part, an “annuity contract” includes a contract which provides for the payment of a variable annuity computed on the basis of recognized mortality tables and the investment experience of the company issuing the contract.

(B) **CONTRACTS WITH RESERVES BASED ON A SEGREGATED ASSET ACCOUNT.**—For purposes of this part, a “contract with reserves based on a segregated asset account” is a contract—

(i) which provides for the allocation of all or part of the amounts received under the contract to an account which, pursuant to State law or regulation, is segregated from the general asset accounts of the company,

(ii) which provides for the payment of annuities, and

(iii) under which the amounts paid in, or the amount paid as annuities, reflect the investment return and the market value of the segregated asset account.

If a contract ceases to reflect current investment return and current market value, such contract shall not be considered as meeting the requirements of clause (iii) after such cessation.

(2) **LIFE INSURANCE RESERVES.**—For purposes of subsection (b)(1)(A) of this section, the reflection of the investment return and the market value of the segregated asset account shall be considered an assumed rate of interest.

(3) **SEPARATE ACCOUNTING.**—For purposes of this part, a life insurance company which issues contracts with reserves based on segregated asset accounts shall separately account for the various income, exclusion, deduction, asset, reserve, and other liability items properly attributable to such segregated asset accounts. For such items as are not accounted for directly, separate accounting shall be made—

(A) in accordance with the method regularly employed by such company, if such method is reasonable, and

(B) in all other cases, in accordance with regulations prescribed by the Secretary or his delegate.

(4) **INVESTMENT YIELD.—**

(A) **IN GENERAL.**—For purposes of this part, the policy and other contract liability requirements, and the life insurance company's share of investment yield, shall be separately computed—

(i) with respect to the items separately accounted for in accordance with paragraph (3), and

(ii) excluding the items taken into account under clause (i).

(B) **CAPITAL GAINS AND LOSSES.**—If, without regard to subparagraph (A), the net short-term capital gain exceeds the net long-term capital loss, such excess shall be allocated between clauses (i) and (ii) of subparagraph (A) in proportion to the respective contributions to such excess of the items taken into account under each such clause.

(5) **POLICY AND OTHER CONTRACT LIABILITY REQUIREMENTS.**—For purposes of this part—

(A) with respect to life insurance reserves based on segregated asset accounts, the adjusted reserves rate and the current earnings rate for purposes of section 805(b), and the rate of interest assumed by the taxpayer for purposes of sections 805(c) and 809(a)(2), shall be a rate equal to the current earnings rate determined under section 805(b)(2) with respect to the items separately accounted for in accordance with paragraph (3) reduced by the percentage obtained by dividing—

“(i) any amount retained with respect to such reserves by the life insurance company from gross investment income (as defined in section 804(b)) on segregated assets, to the extent such retained amount exceeds the deductions allowable under section 804(c) which are attributable to such reserves; by

(ii) the means of such reserves; and

(B) with respect to reserves based on segregated asset accounts other than life insurance reserves, an amount equal to the product of—

- (i) the rate of interest assumed as defined in subparagraph (A), and
 - (ii) the means of such reserves,
- shall be included as interest paid within the meaning of section 805(e)(1).

(6) **INCREASES AND DECREASES IN RESERVES.**—For purposes of subsections (a) and (b) of section 810, the sum of the items described in section 810(c) taken into account as of the close of the taxable year shall, under regulations prescribed by the Secretary or his delegate, be adjusted—

(A) by subtracting therefrom an amount equal to the sum of the amounts added from time to time (for the taxable year) to the reserves separately accounted for in accordance with paragraph (3) by reason of appreciation in value of assets (whether or not the assets have been disposed of), and

(B) by adding thereto an amount equal to the sum of the amounts subtracted from time to time (for the taxable year) from such reserves by reason of depreciation in value of assets (whether or not the assets have been disposed of).

The deduction allowable for items described in paragraphs (1) and (7) of section 809(d) with respect to segregated asset accounts shall be reduced to the extent that the amount of such items is increased for the taxable year by appreciation (or decreased to the extent that the amount of such items is decreased for the taxable year by depreciation) not reflected in adjustments under the preceding sentence.

(7) **BASIS OF ASSETS HELD FOR QUALIFIED PENSION PLAN CONTRACTS.**—In the case of contracts described in subparagraph (A), (B), (C), or (D) of section 805(d)(1), the basis of each asset in a segregated asset account shall (in addition to all other adjustments to basis) be—

- (A) increased by the amount of any appreciation in value, and
- (B) decreased by the amount of any depreciation in value, to the extent that such appreciation and depreciation are from time to time reflected in the increases and decreases in reserves or other items in paragraph (6) with respect to such contracts.

(8) **ADDITIONAL SEPARATE COMPUTATIONS.**—Under regulations prescribed by the Secretary or his delegate, such additional separate computations shall be made, with respect to the items separately accounted for in accordance with paragraph (3), as may be necessary to carry out the purposes of this subsection and this part.

(b) **TAX IN CASE OF CAPITAL GAINS.**—

(1) **ALTERNATIVE TAX.**—Paragraph (2) of section 802(a) of such Code (relating to tax in case of capital gains) is amended to read as follows:

(2) **ALTERNATIVE TAX IN CASE OF CAPITAL GAINS.**—If for any taxable year beginning after December 31, 1961, the net long-term capital gain of any life insurance company exceeds the net short-term capital loss, then, in lieu of the tax imposed by paragraph (1), there is hereby imposed a tax (if such tax is less than the tax imposed by such paragraph) which shall consist of the sum of—

(A) a partial tax, computed as provided by paragraph (1), on the life insurance company taxable income determined by reducing the taxable investment income, and the gain from operations, by the amount of such excess, and

(B) an amount equal to 25 percent of such excess.

(2) **TAXABLE INVESTMENT INCOME.**—Paragraph (2) of section 804(a) of such Code (relating to definition of taxable investment income) is amended by striking out “equal to the sum” and inserting in lieu thereof “equal to the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss plus the sum”.

(3) **GAIN AND LOSS FROM OPERATIONS.**—Paragraphs (1) and (2) of section 809(b) of such Code (relating to definitions of gain and loss from operations) are each amended by striking out “and” at the end of subparagraph (A), by redesignating subparagraph (B) as subparagraph (C), and by inserting after subparagraph (A) the following new subparagraph:

(B) the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss; and

(4) **CONFORMING AMENDMENTS.**—Sections 815(c)(3)(B) and 6501(c)(6) of such Code are each amended by striking out “802(a)(1)” and inserting in lieu thereof “802(a)”.

(c) **LIMITATION ON CERTAIN DEDUCTIONS.**—Section 809(f)(2) of such Code (relating to the application of limitation on certain deductions) is amended to read as follows:

(2) **APPLICATION OF LIMITATION.**—The limitation provided by paragraph (1) shall apply first to the amount of the deduction under subsection (d)(3), then to the amount of the deduction under subsection (d)(6), and finally to the amount of the deduction under subsection (d)(5).

(d) **NEW COMPANIES QUALIFYING FOR 8-YEAR LOSS CARRYOVER.**—

(1) **IN GENERAL.**—Section 812(e)(2)(B) of such Code (relating to nonqualified corporation) is amended by adding immediately after the words “with any other corporation” in the first sentence, the following: “(except a corporation taxable under part II or part III of this subchapter)”.

(2) **EFFECTIVE DATE.**—The amendment made by paragraph (1) shall apply with respect to all taxable years beginning after December 31, 1954, except that in the case of a nonqualified corporation, as defined in section 812(e)(2)(B) of the Internal Revenue Code of 1954 as in effect prior to the amendment made by paragraph (1), a loss from operations for a taxable year beginning in 1955 shall not be an operations loss carryover to the year 1961, and there shall be no reduction in the portion of such loss from operations which may be carried to 1962 or 1963 by reason of an offset with respect to the year 1961.

(e) **CERTAIN DISTRIBUTIONS OF STOCK OF SUBSIDIARIES.**—Section 815(a) of such Code (relating to distributions to shareholders) is amended by adding at the end thereof the following: “Further, for purposes of this section, the term ‘distribution’ does not include any distribution before January 1, 1964, of the stock of a controlled corporation to which section 355 applies, if such controlled corporation is an insurance company subject to the tax imposed by section 831 and control has been acquired prior to January 1, 1963, in a transaction qualifying as a reorganization under section 368(a)(1)(B).”

(f) **EFFECTIVE DATE.**—Except as provided in subsection (d)(2), the amendments made by this section shall apply with respect to taxable years beginning after December 31, 1961.

Approved October 23, 1962.

PUBLIC LAW 87-859
EIGHTY-SEVENTH CONGRESS, OCTOBER 23, 1962
H.R. 5260²⁰

An Act to continue for an additional three-year period the existing suspensions of the tax on the first domestic processing of coconut oil, palm oil, palm-kernal oil, and fatty acids, salts combinations, or mixtures thereof.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That—

(1) Section 3 of Public Law 85-235, as amended (71 Stat. 516), approved August 30, 1957 (relating to the temporary suspension of the tax on the first domestic processing of coconut oil); and

(2) Public Law 86-37, as amended (73 Stat. 64), approved May 29, 1959 (relating to the temporary suspension of the tax on the first domestic processing of palm oil, palm-kernel oil, etc.), are each amended by striking out "June 30, 1963" and inserting in lieu thereof "June 30, 1966".

Approved October 23, 1962.

PUBLIC LAW 87-863
EIGHTY-SEVENTH CONGRESS, OCTOBER 23, 1962
H.R. 10620^{21 22}

An Act to amend section 213 of the Internal Revenue Code of 1954 to increase the maximum limitations on the amount allowable as a deduction for medical, dental, etc., expenses, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subsection (c) of section 213 of the Internal Revenue Code of 1954 (relating to maximum limitations on deduction for medical, dental, etc., expenses) is amended—

(1) by striking out "\$2,500" and inserting in lieu thereof "\$5,000";

(2) by striking out "\$5,000" and inserting in lieu thereof "\$10,000", and

(3) by striking out "\$10,000" and inserting in lieu thereof "\$20,000".

(b) Subsection (g) of such section (relating to maximum limitation if taxpayer or spouse has attained age 65 and is disabled) is amended—

(1) by striking out "\$15,000" each place it appears therein and inserting in lieu thereof "\$20,000", and

(2) by striking out "\$30,000" and inserting in lieu thereof "\$40,000".

²⁰ House Report No. 2239, page 1197, this Bulletin; Senate Report No. 2102, page 1198, this Bulletin.

²¹ Senate Report No. 2274, page 1208, this Bulletin; Conference Report No. 2555, page 1213, this Bulletin; since House Report No. 2323 is substantially the same as the Senate Report, it is not published herein.

²² Section 2 was introduced as H.R. 10117; Section 3 was added to H.R. 10117 by the Senate Committee; Sections 5 and 6 were added to H.R. 10117 on the Senate floor; related House Report No. 2317, page 1205, this Bulletin; Senate Report No. 2266, page 1210, this Bulletin. Section 4 was introduced as H.R. 2016; related House Report No. 1234, page 1203, this Bulletin.

(c) The amendments made by subsections (a) and (b) shall apply only with respect to taxable years beginning after December 31, 1961.

SEC. 2. (a) Section 401 of the Internal Revenue Code of 1954 (relating to qualified pension, profit-sharing, and stock bonus plans) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

(b) **MEDICAL, ETC., BENEFITS FOR RETIRED EMPLOYEES AND THEIR SPOUSES AND DEPENDENTS.**—Under regulations prescribed by the Secretary or his delegate, a pension or annuity plan may provide for the payment of benefits for sickness, accident, hospitalization, and medical expenses of retired employees, their spouses and their dependents, but only if—

(1) such benefits are subordinate to the retirement benefits provided by the plan,

(2) a separate account is established and maintained for such benefits,

(3) the employer's contributions to such separate account are reasonable and ascertainable,

(4) it is impossible, at any time prior to the satisfaction of all liabilities under the plan to provide such benefits, for any part of the corpus or income of such separate account to be (within the taxable year or thereafter) used for, or diverted to, any purpose other than the providing of such benefits, and

(5) notwithstanding the provisions of subsection (a) (2), upon the satisfaction of all liabilities under the plan to provide such benefits, any amount remaining in such separate account must, under the terms of the plan, be returned to the employer.

(b) Section 404(a) (2) of such Code (relating to employees' annuities) is amended—

(1) by inserting after "purchase of retirement annuities" the following: ", or retirement annuities and medical benefits as described in section 401(h)."; and

(2) by inserting after "such retirement annuities" the following: ", or such retirement annuities and medical benefits".

(c) The amendments made by subsections (a) and (b) shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 3. Any taxpayer who exercised an option to capitalize intangible drilling and development costs under the regulations recognized and approved by the Congress in H. Con. Res. 50, 79th Congress, or under section 39.23(m)–16 of regulations 118, is hereby granted a new option for the first taxable year ending on or after the date of the enactment of this Act to deduct such costs as expenses. Such new option shall be exercised at the time of filing the income tax return for such first taxable year, but otherwise shall be treated, for all purposes, as an option exercised under, and subject to, section 263(c) of the Internal Revenue Code of 1954 and the regulations prescribed thereunder.

SEC. 4. (a) Section 5123(b) of the Internal Revenue Code of 1954 (relating to application of special tax on retail dealers in liquor where business is conducted in more than one location) is amended by adding at the end thereof the following new paragraph:

(3) **LIQUOR STORES OPERATED BY STATES, POLITICAL SUBDIVISIONS, ETC.**—A State, a political subdivision of a State, or the District of Columbia shall not be required to pay more than one special tax as a retail dealer in liquors under section 5121(a) regardless of the number of locations at which such State, political subdivision, or District carries on business as a retail dealer in liquors.

(b) Section 5113(b) of such Code (relating to application of special tax on wholesale dealers in liquor to liquor stores operated by States, political subdivisions, etc.) is amended—

(1) by striking out “or Territory” and “Territory,” each place such terms appear, and

(2) by striking out “if such liquor store” and inserting in lieu thereof “if such State, political subdivision, or District”.

(c) The amendments made by subsections (a) and (b) of this section shall take effect on July 1, 1962.

SEC. 5. (a) Section 1341(b) of the Internal Revenue Code of 1954 (relating to special rules applicable to computation of tax where taxpayer restores substantial amount held under claim of right) is amended by adding at the end thereof the following new paragraphs:

(4) For purposes of determining whether paragraph (4) or paragraph (5) of subsection (a) applies—

(A) in any case where the deduction referred to in paragraph (4) of subsection (a) results in a net operating loss, such loss shall, for purposes of computing the tax for the taxable year under such paragraph (4), be carried back to the same extent and in the same manner as is provided under section 172; and

(B) in any case where the exclusion referred to in paragraph (5) (B) of subsection (a) results in a net operating loss or capital loss for the prior taxable year (or years), such loss shall, for purposes of computing the decrease in tax for the prior taxable year (or years) under such paragraph (5) (B), be carried back and carried over to the same extent and in the same manner as is provided under section 172 or section 1212, except that no carryover beyond the taxable year shall be taken into account.

(5) For purposes of this chapter, the net operating loss described in paragraph (4) (A) of this subsection, or the net operating loss or capital loss described in paragraph (4) (B) of this subsection, as the case may be, shall (after the application of paragraph (4) or (5) (B) of subsection (a) for the taxable year) be taken into account under section 172 or 1212 for taxable years after the taxable year to the same extent and in the same manner as—

(A) a net operating loss sustained for the taxable year, if paragraph (4) of subsection (a) applied, or

(B) a net operating loss or capital loss sustained for the prior taxable year (or years), if paragraph (5) (B) of subsection (a) applied.

(b) The amendment made by subsection (a) shall be effective with respect to taxable years beginning on or after January 1, 1962.

SEC. 6. (a) (1) Section 7608 of the Internal Revenue Code of 1954 (relating to authority of Internal Revenue enforcement officers) is amended by adding at the end thereof the following new subsection:

(b) ENFORCEMENT OF LAWS RELATING TO INTERNAL REVENUE OTHER THAN SUBTITLE E.—

(1) Any criminal investigator of the Intelligence Division or of the Internal Security Division of the Internal Revenue Service whom the Secretary or his delegate charges with the duty of enforcing any of the criminal provisions of the internal revenue laws or any other criminal provisions of law relating to internal revenue for the enforcement of which the Secretary or his delegate is responsible is, in the performance of his duties, authorized to perform the functions described in paragraph (2).

(2) The functions authorized under this subsection to be performed by an officer referred to in paragraph (1) are—

(A) to execute and serve search warrants and arrest warrants, and serve subpoenas and summonses issued under authority of the United States;

(B) to make arrests without warrant for any offense against the United States relating to the internal revenue laws committed in his

presence, or for any felony cognizable under such laws if he has reasonable grounds to believe that the person to be arrested has committed or is committing any such felony; and

(C) to make seizures of property subject to forfeiture under the internal revenue laws.

(2) Such section is further amended by striking out "Any" and inserting in lieu thereof "(a) ENFORCEMENT OF SUBTITLE E AND OTHER LAWS PERTAINING TO LIQUOR, TOBACCO, AND FIREARMS.—Any".

(b) The amendments made by subsection (a) shall take effect on the day after the date of enactment of this Act.

Approved October 23, 1962.

PUBLIC LAW 87-870
EIGHTY-SEVENTH CONGRESS, OCTOBER 23, 1962
H.R. 12599²³

An Act relating to the income tax treatment of terminal railroad corporations and their shareholders, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subchapter B of chapter 1 of the Internal Revenue Code of 1954 (relating to computation of taxable income) is amended by adding at the end thereof the following new part:

**PART X—TERMINAL RAILROAD CORPORATIONS AND
THEIR SHAREHOLDERS**

Sec. 281. Terminal railroad corporations and their shareholders.

SEC. 281. TERMINAL RAILROAD CORPORATIONS AND THEIR SHAREHOLDERS.

(a) COMPUTATION OF TAXABLE INCOME OF TERMINAL RAILROAD CORPORATIONS.—

(1) IN GENERAL.—In computing the taxable income of a terminal railroad corporation—

(A) such corporation shall not be considered to have received or accrued—

(i) the portion of any liability of any railroad corporation, with respect to related terminal services provided by such corporation, which is discharged by crediting such liability with an amount of related terminal income, or

(ii) the portion of any charge which would be made by such corporation for related terminal services provided by it, but which is not made as a result of taking related terminal income into account in computing such charge; and

(B) no deduction otherwise allowable under this chapter shall be disallowed as a result of any discharge of liability described in subparagraph (A) (i) or as a result of any computation of charges in the manner described in subparagraph (A) (ii).

(2) LIMITATION.—In the case of any taxable year ending after the date of the enactment of this section, paragraph (1) shall not apply to the extent that it would (but for this paragraph) operate to create (or increase) a net operating loss for the terminal railroad corporation for the taxable year.

(b) COMPUTATION OF TAXABLE INCOME OF SHAREHOLDERS.—Subject to the limitation in subsection (a) (2), in computing the taxable income of any shareholder of a terminal railroad corporation, no amount shall be considered to have been received or accrued or paid or incurred by such shareholder as a result of any discharge of liability described in subsection (a) (1) (A) (i) or as a result of any computation of charges in the manner described in subsection (a) (1) (A) (ii).

²³ Senate Report No. 2273, page 1216, this Bulletin; Conference Report No. 2543, page 1233, this Bulletin; since House Report No. 2326 is substantially the same as the Senate Report, it is not published herein.

(c) **AGREEMENT REQUIRED.**—In the case of any taxable year, subsections (a) and (b) shall apply with respect to any discharge of liability described in subsection (a) (1) (A) (i), and to any computation of charges in the manner described in subsection (a) (1) (A) (ii), only if such discharge or computation (as the case may be) was provided for in a written agreement, to which all of the shareholders of the terminal railroad corporation were parties, entered into before the beginning of such taxable year.

(d) **DEFINITIONS.**—For purposes of this section—

(1) **TERMINAL RAILROAD CORPORATION.**—The term “terminal railroad corporation” means a domestic railroad corporation which is not a member, other than as a common parent corporation, of an affiliated group (as defined in section 1504) and—

(A) all of the shareholders of which are domestic railroad corporations subject to part I of the Interstate Commerce Act;

(B) the primary business of which is the providing of railroad terminal and switching facilities and services to domestic railroad corporations subject to part I of the Interstate Commerce Act and to the shippers and passengers of such railroad corporations;

(C) a substantial part of the services of which for the taxable year is rendered to one or more of its shareholders; and

(D) each shareholder of which computes its taxable income on the basis of a taxable year beginning or ending on the same day that the taxable year of the terminal railroad corporation begins or ends.

(2) **RELATED TERMINAL INCOME.**—The term “related terminal income” means the income (determined in accordance with regulations prescribed by the Secretary or his delegate) of a terminal railroad corporation derived—

(A) from services or facilities of a character ordinarily and regularly provided by terminal railroad corporations for railroad corporations or for the employees, passengers, or shippers of railroad corporations;

(B) from the use by persons other than railroad corporations of portions of a facility, or a service, which is used primarily for railroad purposes;

(C) from any railroad corporation for services or facilities provided by such terminal railroad corporation in connection with railroad operations; and

(D) from the United States in payment for facilities or services in connection with mail handling.

For purposes of subparagraph (B), a substantial addition, constructed after the date of the enactment of this section, to a facility shall be treated as a separate facility.

(3) **RELATED TERMINAL SERVICES.**—The term “related terminal services” includes only services, and the use of facilities, taken into account in computing related terminal income.

(e) **APPLICATION TO TAXABLE YEARS ENDING BEFORE THE DATE OF ENACTMENT.**—In the case of any taxable year ending before the date of the enactment of this section—

(1) this section shall apply only to the extent that the taxpayer computed on its return, filed at or prior to the time (including extensions thereof) that the return for such taxable year was required to be filed, its taxable income in the manner described in subsection (a) in the case of a terminal railroad corporation, or in the manner described in subsection (b) in the case of a shareholder of a terminal railroad corporation; and

(2) this section shall apply to a taxable year for which the assessment of any deficiency, or for which refund or credit of any overpayment, whichever is applicable, was prevented, on the date of the enactment of this section, by the operation of any law or rule of law (other than section 3760 of the Internal Revenue Code of 1939 or section 7121 of this title, relating to closing agreements, and section 3761 of the Internal Revenue Code of 1939 or section 7122 of this title, relating to compromises), only—

(A) to the extent any overpayment of income tax would result from the recomputation of the taxable income of a terminal railroad corporation in the manner described in subsection (a).

(B) if claim for credit or refund of such overpayment, based upon such recomputation, is filed prior to one year after the date of the enactment of this section,

(C) to the extent that paragraph (1) applies, and

(D) if each shareholder of such terminal railroad corporation consents in writing to the assessment, within such period as may be agreed upon with the Secretary or his delegate, of any deficiency for any year to the extent attributable to the recomputation of its taxable income in the manner described in subsection (b) correlative to its allocable share of the adjustment of taxable income made by the terminal railroad corporation in its recomputation under subparagraph (A).

(f) **REGULATIONS.**—The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(b) The table of parts for subchapter B of chapter 1 of such Code is amended by adding at the end thereof the following:

Part X. Terminal railroad corporations and their shareholders.

SEC. 2. (a) The amendments made by the first section of this Act shall apply with respect to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

(b) Provisions having the same effect as section 281 of the Internal Revenue Code of 1954 (as added by the first section of this Act) shall be deemed to be included in the Internal Revenue Code of 1939, effective with respect to all taxable years to which such Code applies.

SEC. 3. (a)(1) Chapter 77 of the Internal Revenue Code of 1954 (relating to miscellaneous provisions) is amended by adding at the end thereof the following new sections:

SEC. 7515. SPECIAL STATISTICAL STUDIES AND COMPILATIONS AND OTHER SERVICES ON REQUEST.

The Secretary or his delegate is authorized within his discretion, upon written request, to make special statistical studies and compilations involving data from any returns, declarations, statements, or other documents required by this title or by regulations or from any records established or maintained in connection with the administration and enforcement of this title, to engage in any such special study or compilation jointly with the party or parties requesting it, and to furnish transcripts of any such special study or compilation, upon the payment, by the party or parties making the request, of the cost of the work or services performed for such party or parties.

SEC. 7516. SUPPLYING TRAINING AND TRAINING AIDS ON REQUESTS.

The Secretary or his delegate is authorized within his discretion, upon written request, to admit employees and officials of any State, the Commonwealth of Puerto Rico, any possession of the United States, any political subdivision or instrumentality of any of the foregoing, the District of Columbia, or any foreign government to training courses conducted by the Internal Revenue Service, and to supply them with texts and other training aids. The Secretary or his delegate may require payment from the party or parties making the request of a reasonable fee not to exceed the cost of the training and training aids supplied pursuant to such request.

(2) The table of sections for chapter 77 is amended by adding at the end thereof the following new items:

Sec. 7515. Special statistical studies and compilations and other services on request.

Sec. 7516. Supplying training and training aids on request.

(b) Section 7809 of the Internal Revenue Code of 1954 (relating to deposit of collections) is amended—

(1) by striking out “subsection (b),” in subsection (a) and inserting in lieu thereof “subsections (b) and (c) and in”, and

(2) by adding at the end thereof the following new subsection:

(c) **DEPOSIT OF CERTAIN RECEIPTS.**—Moneys received in payment for—

(1) Work or services performed pursuant to section 7515 (relating to special statistical studies and compilations and other services on request);

(2) work or services performed (including materials supplied) pursuant to section 7516 (relating to the supplying of training and training aids on request); and

(3) other work or services performed for a State or a department or agency of the Federal Government (subject to all provisions of law and regulations governing disclosure of information) in supplying copies of, or data from, returns, statements, or other documents filed under authority of this title or records maintained in connection with the administration and enforcement of this title,

shall be deposited in a separate account which may be used to reimburse appropriations which bore all or part of the costs of such work or services, or to refund excess sums when necessary.

SEC. 4. Section 6512(b) (2) of the Internal Revenue Code of 1954 (relating to limit on amount of credit or refund of overpayment determined by the Tax Court) is amended by striking out "or" at the end of subparagraph (A); by striking out the period at the end of subparagraph (B) and inserting in lieu thereof ", or"; and by adding after subparagraph (B) the following new subparagraph:

(C) within the period which would be applicable under section 6511 (b) (2), (c), or (d), in respect of any claim for refund filed within the applicable period specified in section 6511 and before the date of the mailing of the notice of deficiency—

(i) which had not been disallowed before that date.

(ii) which had been disallowed before that date and in respect of which a timely suit for refund could have been commenced as of that date, or

(iii) in respect of which a suit for refund had been commenced before that date and within the period specified in section 6532.

SEC. 5. (a) Section 7701(a) of the Internal Revenue Code of 1954 is amended by adding after paragraph (31) the following new paragraph:

(32) COOPERATIVE BANK.—The term "cooperative bank" means an institution without capital stock organized and operated for mutual purposes and without profit, which—

(A) either—

(i) is an insured institution within the meaning of section 401(a) of the National Housing Act (12 U.S.C., sec. 1724(a)), or

(ii) is subject by law to supervision and examination by State or Federal authority having supervision over such institutions, and

(B) meets the requirements of subparagraphs (B), (C), (D), (E), and (F) of paragraph (19) of this subsection (relating to definition of domestic building and loan association) determined with the application of the second, third, and fourth sentences of paragraph (19).

In determining whether an institution meets the requirements referred to in subparagraph (B) of this paragraph, any reference to an association or to a domestic building and loan association contained in paragraph (19) shall be deemed to be a reference to such institution. In the case of an institution which, for the taxable year, is a cooperative bank within the meaning of the first sentence of this paragraph by reason of the application of the second and third sentences of paragraph (19) of this subsection, the deduction otherwise allowable under section 166(c) for a reasonable addition to the reserve for bad debts shall, under regulations prescribed by the Secretary or his delegate, be reduced in a manner consistent with the reductions provided by the table contained in section 593(b) (5).

(b) The amendment made by subsection (a) of this section shall apply with respect to taxable years beginning after the date of the enactment of the Revenue Act of 1962.

Approved October 23, 1962.

PUBLIC LAW 87-876
EIGHTY-SEVENTH CONGRESS, OCTOBER 24, 1962
H.R. 6371²⁴

An Act to amend the Internal Revenue Code of 1954 with respect to the limitation on retirement income, and with respect to the taxable year for which the deduction for interest paid will be allowable to certain building and loan associations, mutual savings banks, and cooperative banks.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 37(d) of the Internal Revenue Code of 1954 (relating to limitation on retirement income) is amended to read as follows:

(d) **LIMITATION ON RETIREMENT INCOME.**—For purposes of subsection (a), the amount of retirement income shall not exceed \$1,524 less—

(1) in the case of any individual, any amount received by the individual as a pension or annuity—

(A) under title II of the Social Security Act,

(B) under the Railroad Retirement Acts of 1935 or 1937, or

(C) otherwise excluded from gross income, and

(2) in the case of any individual who has not attained age 72 before the close of the taxable year—

(A) if such individual has not attained age 62 before the close of the taxable year, any amount of earned income (as defined in subsection (g)) in excess of \$900 received by such individual in the taxable year, or

(B) if such individual has attained age 62 before the close of the taxable year, the sum of (i) one-half the amount of earned income received by such individual in the taxable year in excess of \$1,200 but not in excess of \$1,700, and (ii) the amount of earned income so received in excess of \$1,700.

SEC. 2. The amendment made by the first section of this Act shall apply only to taxable years ending after the date of the enactment of this Act.

SEC. 3. (a) Section 461 of the Internal Revenue Code of 1954 (relating to general rule for taxable year of deduction) is amended by adding at the end thereof the following new subsection:²⁵

(e) **DIVIDENDS OR INTEREST PAID ON CERTAIN DEPOSITS OR WITHDRAWABLE ACCOUNTS.**—Except as provided in regulations prescribed by the Secretary or his delegate, amounts paid to, or credited to the accounts of, depositors or holders of accounts as dividends or interest on their deposits or withdrawable accounts (if such amounts paid or credited are withdrawable on demand subject only to customary notice to withdraw) by a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank shall not be allowed as a deduction for the taxable year to the extent such amounts are paid or credited for periods representing more than 12 months. Any such amount not allowed as a deduction as the result of the application of the preceding sentence shall be allowed as a deduction for such other taxable year as the Secretary or his delegate determines to be consistent with the preceding sentence.

(b) The amendment made by subsection (a) shall apply only with respect to taxable years ending after December 31, 1962.

Approved October 24, 1962.

COMMITTEE AND CONFERENCE REPORTS

[H.R. 11879] ¹

TAX RATE EXTENSION ACT OF 1962

[House Report No. 1738, Eighty-seventh Congress, Second Session]

[May 26, 1962]

Mr. MILLS, from the Committee on Ways and Means, submitted the following report to accompany H.R. 11879.

The Committee on Ways and Means, to whom was referred the bill (H.R. 11879) to provide a 1-year extension of the existing corporate normal-tax rate and of certain excise-tax rates, and for other purposes, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

I. SUMMARY OF BILL

H.R. 11879 continues the present corporate tax rate and certain existing excise tax rates for 1 year. In addition, it continues for 6 months, or until December 31, 1962, the present 10 percent tax with respect to the transportation of persons. At that time, the bill provides for the expiration of the excise tax on all forms of transportation of persons except transportation of persons by air. The tax on the transportation of persons by air is continued for an additional 6 months, or until July 1, 1963, but at a 5 percent rather than a 10 percent rate.

The existing tax rates which this bill continues for 1 year, or until July 1, 1963, are the present 52 percent corporate income tax rate, which would otherwise revert to 47 percent (the 5 percentage point reduction would occur in the 30 percent normal tax) and the present rates of excise tax on distilled spirits, beer, wine, cigarettes, passenger cars, automobile parts and accessories, and general telephone service. All of the taxes affected by this bill, except those relating to general telephone service and transportation of persons, are taxes which were increased at the time of the Korean war. The Tax Rate Extension Act of 1959 added the latter two taxes to the list of taxes subject to automatic reduction.

If this bill were not enacted, it is estimated that there would be a revenue loss of from \$4.0 to \$4.3 billion in a full year of operation and a loss of revenue in the fiscal year 1963 of from \$2.7 to \$2.9 billion (taking into account the effect of the bill on tax refunds).

The rate extensions contained in this bill generally conform with the President's recommendations.

II. EXPLANATION OF BILL

This bill provides for a 1-year extension of the present corporate income tax rates and the existing rates of certain excise taxes. The rates of these taxes which are extended for 1 year are, under existing law, scheduled for reduction on July 1, 1962. The present combined 52 percent corporate tax rate, without the 1-year extension provided by this bill, would revert to 47 percent as of July 1, 1962, through a reduction of the normal tax rate from 30 percent to 25 percent.

The excise tax rates which without this bill would be decreased as of July 1, 1962, are those on—

¹ Public Law 87-508, page 58, this Bulletin.

1. Distilled spirits, which would be reduced from \$10.50 to \$9 per proof gallon;
2. Beer, which would be reduced from \$9 to \$8 per barrel;
3. Wines, which are subject to various tax rates which would be reduced by approximately 11 percent;
4. Cigarettes, which would be reduced from 8 cents to 7 cents a pack;
5. Passenger cars, which would be reduced from 10 percent to 7 percent of the manufacturers' price;
6. Auto parts and accessories, which would be reduced from 8 percent to 5 percent of the manufacturers' price; and
7. General telephone service, which would be reduced from 10 percent of the amount paid to zero.

The corporate income tax rate and the tax rates referred to in the first six categories listed above reflect rate increases which were initially provided in 1951 at the time of the Korean war. Elimination of the tax on general telephone service (or local telephone service, as it formerly was called) and the reduction in the rate of tax on transportation of persons (referred to below) were first scheduled for the year 1960 in the Tax Rate Extension Act of 1959.

The bill, in addition to making the changes referred to above, also makes a number of technical changes, including the postponement for 1 more year of the floor stocks refunds or credits presently effective with respect to stocks of various tax-paid products on hand on July 1, 1962. These floor stocks refunds are available in the case of distilled spirits, wines and beer, cigarettes, and passenger cars.

In addition to the 1-year extensions in excise tax rates, referred to above, the bill also extends for 6 months, or until December 31, 1962, the present 10 percent tax on the transportation of persons. At that time the excise tax on transportation of persons by railroad, bus, water, or other form of transportation, except transportation of persons by air, is terminated. The tax on the transportation of persons by air is continued for an additional 6 months, until July 1, 1963, but at a rate of 5 percent rather than 10 percent.

Table 1 shows the present tax rates which are extended and those which would become effective as of July 1, 1962, in the absence of this bill.

TABLE 1.—*Tax rates affected by bill*

	Unit of tax	Present rates extended under the bill	Rates which under present law would be effective July 1, 1962
Corporations.....	Normal tax net income.....	30 percent.....	25 percent.
Excises:			
Liquor taxes:			
Distilled spirits.....	Per proof gallon.....	\$10.50.....	\$9.
Beer.....	Per barrel.....	\$9.....	\$8.
Wine:			
Containing less than 14 percent alcohol.....	Per wine gallon.....	17 cents.....	15 cents.
Containing 14 to 21 percent alcohol.....	do.....	67 cents.....	60 cents.
Containing 21 to 24 percent alcohol.....	do.....	\$2.25.....	\$2.
Containing more than 24 percent alcohol.....	do.....	\$10.50.....	\$9.
Sparkling wines, liqueurs, etc.:.....			
Champagne or sparkling wine.....	do.....	\$3.40.....	\$3.
Liqueurs, cordials, etc.....	do.....	\$1.92.....	\$1.60.
Artificially carbonated wine.....	do.....	\$2.40.....	\$2.
Tobacco taxes: Cigarettes.....	Per 1,000.....	\$4.....	\$3.50.
Manufacturers excise taxes:			
Passenger cars.....	Manufacturers' sale price.....	10 percent.....	7 percent.
Auto parts and accessories.....	do.....	8 percent.....	5 percent.
Miscellaneous taxes:			
General telephone.....	Amount charged.....	10 percent.....	0.
Transportation of persons.....	Amount paid.....	10 percent.....	5 percent.
By airline.....	do.....	10 percent.....	5 percent.
By other carriers.....	do.....	10 percent.....	5 percent.

¹ Rate of 10 percent extended through Dec. 31, 1962. Effective Jan. 1, 1963, tax on transportation by air to be 5 percent through June 30, 1963, and transportation by other carriers to be exempt.

The scheduled reduction of the tax on the transportation of persons by air, and elimination of the tax on the transportation of persons by other methods, are effective with respect to "transportation which begins after December 31, 1962." The scheduled elimination of the tax on the transportation of persons by air is effective with respect to transportation which begins after June 30, 1963. It is contemplated that the Internal Revenue Service, under regulations appropriately safeguarding the collection of taxes, will provide that the tax collected on tickets purchased *before* a date of rate change for travel beginning *on or after* that date may be the tax (zero or 5 percent, as the case may be) which will actually be due for this travel. For cases of this kind where the higher rate of tax is paid but not actually due, the bill makes provision for credit or refund. It provides that where excess tax with respect to transportation has been collected before a date of rate change (January 1 or July 1, 1963) for travel beginning on or after that date, the person who collected the tax (usually the carrier) is to be allowed a credit or refund for the excess tax collected if, before the transportation began, the collector of the tax repaid the excess tax to the person from whom he collected it or had obtained the consent of that person to the allowance of the credit or refund.

It is expected that with respect to transportation beginning after December 31, 1962, where a ticket is issued for transportation consisting in part of transportation by air and in part of other transportation, the Treasury by regulation or ruling will specify proper allocation rules to determine the portion of such ticket subject to tax.

The bill rewrites subchapter C of chapter 33, presently dealing with the transportation of persons, to make it applicable only to transportation of persons by air as of January 1, 1963. The changes made in this subchapter, however, are only those necessary to delete language relating to transportation of persons other than by air and to continue the rules presently applicable in the case of air travel.

The section of the code which contains the definition of "taxable transportation" (sec. 4262) remains the same as under present law. The same rules for determining taxable transportation will apply except that these rules will have application only in connection with the 5 percent tax on transportation of persons by air. It is intended that this section will be applicable to transportation of persons by air to the same extent as under the present law and regulations.

III. REVENUE EFFECT OF BILL

Tables 2 and 3 show the revenue effect of the tax rates extended by this bill as well as the effect of terminating as of the end of this year the tax on the transportation of persons other than by air and reducing the tax on the transportation of persons by air at that time to 5 percent. Table 2 contains the estimates of the staff of the Joint Committee on Internal Revenue Taxation and table 3 the estimates of the Treasury Department. These tables show total receipts anticipated from the taxes affected by this bill in the fiscal year 1963 and the effect of the changes made by this bill with respect to the fiscal year 1963. In addition, the tables also show the effect of the bill in a full year of operation. The full year effect of the bill will be to maintain receipts of \$4 to \$4.3 billion which would otherwise be lost. In the fiscal year 1963 the receipts maintained by the rate extensions and treatment of the tax on the transportation of persons will amount to \$2.7 to \$2.9 billion (taking into account the effect floor stock refunds otherwise would have).

TABLE 2.—*Estimates by the staff of the Joint Committee on Internal Revenue Taxation of the revenue effect of H.R. 11879 for the fiscal year 1963 and for a full year of operation*

[In millions of dollars]

	Receipts in fiscal 1963		Fiscal 1963 revenue gain under the bill	Full year effect of the bill
	Under the bill	Under present law, i.e., assuming scheduled reductions go into effect		
Corporation income tax.....	24,600	23,450	1,150	2,500
Excises:				
Liquor taxes:				
Distilled spirits.....	2,500	2,334	166	169
Beer.....	820	731	89	91
Wine.....	100	89	11	11
Total liquor.....	3,420	3,154	266	271
Tobacco taxes: Cigarettes.....	2,075	1,821	254	259

Parts and accessories for automobiles.....	200	140	60	73
Total manufacturers' excise taxes.....	1,700	1,280	420	503
Miscellaneous excise taxes; General telephone service.....	525	130	395	525
Transportation of persons:				
Air.....	177	125	52	-----
Other.....	63	54	9	—46
Total transportation of persons.....	240	179	61	¹ —46
Total miscellaneous excise taxes.....	765	309	456	479
Deduct: Refunds of receipts.....	-----	226	—226	-----
Total excise taxes.....	7,885	6,285	1,600	1,489
Grand total.....	35,285	32,385	2,900	4,289

¹ The loss under the bill as compared to revenues from the present tax rate of 10 percent would be \$193,000,000; \$103,000,000 on transportation by air, and \$90,000,000 from other transportation.

The difference between the estimates of the full year effect and the effect in the fiscal year 1963 are primarily attributable to the postponing of the corporate rate reduction, which is not fully reflected in receipts in the fiscal year 1963. There is also some lag in the collections in the manufacturers' excise taxes on passenger cars and auto parts and accessories, as well as in the case of the general telephone tax. In the case of the tax on the transportation of persons by air, the full year effect of the bill is the same as present law because the latter already provides for a 5 percent rate after June 30 of this year. In the case of other carriers, there is a revenue loss of \$46 to \$58 million on a full year's basis because of the elimination of the tax in this case rather than its continuation at 5 percent.

As shown in tables 2 and 3, \$2.5 to \$2.8 billion of the full year revenue loss of \$4.0 to \$4.3 billion prevented by this bill is attributable to the corporate income tax. Of the remainder, \$267 to \$271 million is attributable to the taxes on alcoholic beverages, \$240 to \$259 million to the taxes on cigarettes, \$495 to \$503 million to the automotive taxes, and \$525 million to the general telephone tax. As noted above, there also is the revenue loss of \$46 to \$58 million in the case of the tax on the transportation of persons.

IV. EFFECT OF THE BILL ON THE BUDGET

The Director of the Bureau of the Budget in his appearance before your committee in executive session stated that at the present time it appears that the fiscal year 1962 will end with a budget deficit of approximately \$7 billion, the same as the estimate in the budget in January. He indicated that both receipts

and expenditures, however, probably will be about \$1 billion below the estimates in the budget. On the receipts side, the decline is primarily attributable to a drop below the level expected in the case of collections from corporate income taxes. On the expenditure side he stated that lower farm price supports outlays by the Commodity Credit Corporation are the largest single factor in the reduction now anticipated although there are several smaller decreases and a few increases.

The budget receipt and expenditure estimates for the fiscal year 1963 appearing in the January budget are as follows:

	<i>Billion</i>
Budget receipts-----	\$93.0
Budget expenditures-----	92.5
Budget surplus-----	+0.5

The Director of the Bureau of the Budget did not present any basic revision of these figures. He stated:

* * * The President has recommended certain amendments to the budget he submitted in January, but these in total would not lift the 1963 expenditure estimate to the point where expenditures would exceed the revenues as projected in January.

He also stated:

* * * While the situation is subject to change, day by day, there is no clear indication at present of a need to make substantial revisions from the total of budget expenditures estimated in January."

With respect to the revenue outlook Director Bell stated:

* * * The economic recovery continued to move ahead during the first quarter of this calendar year, although not quite as rapidly as our January estimates had anticipated. During the last few weeks, however, the pace of economic activity has been picking up and the outlook for steady advance is now brighter than it was a few weeks ago. In an economy as large and diverse as ours, substantial changes can occur quickly, and we do not believe we have enough evidence to date to provide a basis now for a specific revision of the January revenue estimates."

The staff of the Joint Committee on Internal Revenue Taxation also has prepared estimates of receipts for the fiscal year 1963. These estimates, assuming the same budget expenditures as shown in the budget, would indicate a deficit in the fiscal year 1963 of \$3.8 billion if no account is taken of the revenue revision bill of 1962 (H.R. 10650). The staff estimated that if this bill were taken into account as it passed the House, the deficit for the fiscal year 1963 might amount to \$4.9 billion. The staff estimates can be summarized as follows:

	<i>Billion</i>
Staff estimate of budget receipts (assuming extension of present corporate and excise tax rates) excluding revenue effect of pending bill, H.R. 10650-----	\$88.7
Budget expenditures (as shown in the budget)-----	92.5
Deficit (excluding revenue effect of H.R. 10650)-----	3.8
Staff estimates of receipts including revenue effect of H.R. 10650-----	87.6
Budget expenditures (as shown in the budget)-----	92.5
Deficit (includes revenue effect of H.R. 10650)-----	4.9

NOTE.—Estimates released on Apr. 2, 1962.

V. REASONS FOR THE BILL

Your committee believes that the status of the budget as outlined above represents an impelling reason for the continuation of the present corporate and excise tax rates. The President in his budget message this last January stated:

The budget outlook for 1963 requires that the present tax rates on corporation income and certain excises be extended for another year beyond their scheduled expiration date of June 30, 1962. Existing law calls for changes which would lower the general corporation income tax rate from 52 percent to 47 percent; reduce the excise rates on distilled spirits, beers, wines, cigarettes, passenger automobiles, and automobile parts and accessories; and allow the tax on general telephone service to expire.

I recommend postponement of these changes for another year to prevent a revenue loss of \$2.8 billion in 1963.

Under Secretary of the Treasury Fowler, in his appearance before your committee, stated:

The estimated revenue loss of \$2.8 billion for fiscal 1963 is so large that a failure to postpone the scheduled reductions would result in a substantial shift of the budget position from a proposed modest surplus to a substantial deficit.

Your committee believes that even if a tax reduction could appropriately be made at this time, it is not clear that the reductions which would occur in the absence of the extension of the specified corporate and excise tax rates would be the most desirable reductions.

With respect to the tax on the transportation of persons, the President recommended the repeal of this tax as of July 1 of this year except in the case of the tax on the transportation of persons by air. In the case of the tax on the transportation of persons by air, he recommended the continuation of the 10 percent rate until December 31, 1962, and a 5 percent rate thereafter. The President made this recommendation as one feature of a program of user charges. The action taken by your committee with respect to this tax on the transportation of persons by air is in accord with the proposal of the President except that the present 10 percent tax on all transportation of persons is continued for 6 more months, or until December 31, 1962. Your committee's bill does not take up other user charge proposals of the President.

As Under Secretary Fowler pointed out to your committee, the removal of the transportation tax in the case of the railroad industry is appropriate because the railroad industry operates with a minimum of Federal aid and is subject to State, local, and Federal taxes on its roadbed, equipment, and profits. However, as was pointed out, in the case of airlines there are "significant Federal capital and operating expenditures." Federal expenditures for the domestic airway system (operation plus depreciation of capital items) are approximately \$500 million a year and growing. He also pointed out that the domestic air transport industry flew over 30 billion passenger miles in 1961 and had receipts of over \$2 billion. As he indicated, this industry now generates over 50 percent more intercity passenger miles than the railroads and accounts for more than 40 percent of the common carrier intercity passenger miles.

VI. MINORITY VIEWS OF MESSRS. UTT AND ALGER

The Federal budget was last balanced in fiscal year 1960. At that time budgetary expenditures amounted to \$76.5 billion. The spending projections for fiscal year 1963 as set forth in the budget message total \$92.5 billion—a 21-percent increase over the 1960 level. The \$16 billion proposed increase in spending is allocated 44 percent for defense purposes and 56 percent for nondefense purposes. These data become even more alarming when it is considered that the budget figures for fiscal year 1963 do not include some items that have been the subject of subsequent Presidential messages, such as the proposal to authorize the expenditure of \$2.6 billion for an emergency public works program.

The undersigned have opposed the enactment of H.R. 11879 creating \$4.3 billion in increased tax burdens because we are unwilling to ask the American people to pick up the tab for the unnecessary compulsive spending to which this administration and its down-the-line supporters in Congress and elsewhere seem dedicated. Conditions in our economy tend to softness, imply uncertainty, and suggest a lack of confidence in current Government policies affecting our free enterprise system. We believe that now is the time for less taxes instead of more taxes; we believe now is the time for less Government spending so that we can as a nation live within our means.

In the past 31 years the Federal budget has been unbalanced 25 times and balanced only 6 times. Thus, in the past three decades we have failed to pay our way 80 percent of the time. There is no present indication that this deficit course of national profligacy will change in the foreseeable future unless the Congress, with the strong backing of the American people, once more resumes its constitutional obligation of controlling our fiscal and budgetary affairs. The deficit for the current fiscal year will approach \$10 billion and the estimated deficit for next year has been placed as high as \$5 billion.

This type of fiscal mismanagement, if allowed to continue, threatens our very survival. It is not a lack of increased tax revenue that has caused this suc-

cession of deficits. Indeed, projected revenues for fiscal year 1963 suggest that receipts in the forthcoming fiscal year will be somewhat more than \$10 billion higher than receipts in fiscal year 1960 when we last had a budgetary balance. It is apparent, therefore, that the real cause of our current problems is too much spending and not too little taxation.

It is imperative that we spend less so we can tax less. The undersigned have consistently supported well-considered endeavors to bring about an easily attainable reduction in our spending commitments. Even administration spokesmen periodically refer to the need for increased incentive through tax reduction. We believe the incentive is needed now. We believe that taxes should be lowered by permitting the "temporary wartime" taxes covered in this bill to expire and further that the tax reduction should be made more sweeping. These reductions would be made possible by lower spending.

We are opposed to H.R. 11879. We must face up to the urgent need for our free enterprise system to have lower tax burdens to increase job opportunities and to strengthen our productive capacities. We must have prudence in the conduct of our government affairs. We must abandon the fallacious notion that government spending can solve our every problem. The time is now urgently at hand to call a halt to the seemingly endless fiscal drift of budgetary deficits based on government extravagance. The American people should not be forced through compulsory taxation to finance the spenders.

JAMES B. UTT.
BRUCE ALGER.

[H.R. 11879]²

TAX RATE EXTENSION ACT OF 1962

[Senate Report No. 1616, Eighty-seventh Congress, Second Session, Calendar No. 1576]

[June 22, 1962]

Mr. BYRD of Virginia, from the Committee on Finance, submitted the following report to accompany H.R. 11879.

The Committee on Finance, to whom was referred the bill (H.R. 11879) to provide a 1-year extension of the existing corporate normal tax rate and of certain excise-tax rates, and for other purposes, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

I. SUMMARY

H.R. 11879, both as passed by the House and with your committee's amendments, continues the present corporate tax rate and certain existing excise tax rates for 1 year.

In addition, both the House bill and your committee's amendments reduce or eliminate the tax on the transportation of persons. Your committee's amendments provide for the expiration of the excise tax on all forms of transportation of persons, except transportation of persons by air, effective October 1, 1962, and in the case of transportation of persons by air for the reduction of the tax from 10 percent to 5 percent effective as of the same date. (The House bill would continue the present rate of 10 percent for all of these forms of transportation until December 31, 1962.)

In addition, your committee's amendments provide in the case of the tax on transportation of persons by air, where travel is either begun or ended outside the United States, that any travel from one location in the United States to another is not to be subject to tax if any scheduled stopover in the United States is not for more than 6 hours. One other amendment made by your committee relates to the taxes on communications. This amendment exempts from the 10-percent general telephone tax or the 10-percent wire mileage tax private lines or leased wires which permit communication from one fixed location to another, but only when they are used in a trade or business. This exempts from tax service charges for community television antennas, private line telephones or teletypewriters and similar services used in a business.

² Public Law 87-508, page 58, this Bulletin.

The existing tax rates which under both the House bill and your committee's amendments are continued for 1 year, or until July 1, 1963, are the present 52-percent corporate income tax rate, which would otherwise revert to 47 percent (the 5-percentage-point reduction would occur in the 30-percent normal tax) and the present rates of excise tax on distilled spirits, beer, wine, cigarettes, passenger cars, automobile parts and accessories, and general telephone service. All of the taxes affected by this bill, except those relating to general telephone service and transportation of persons, are taxes which were increased at the time of the Korean war. The Tax Rate Extension Act of 1959 added the latter two taxes to the list of taxes subject to automatic reduction.

If this bill were not enacted, it is estimated that there would be a revenue loss of about \$4 billion in a full year of operation and a loss of revenue in the fiscal year 1963 of about \$2.7 billion (taking into account the effect of the bill on tax refunds).

II. REVENUE EFFECT OF BILL

Table 1 shows the revenue effect of the tax rates extended by this bill as well as the effect of the House bill and your committee's amendments with respect to the tax on transportation of persons. This table shows total receipts anticipated from the taxes affected by this bill in the fiscal year 1963 and the effect of the changes made by the House and your committee's versions of this bill with respect to the fiscal year 1963. In addition, the table also shows the effect of both versions of the bill in a full year of operation.

TABLE 1.—*Estimates of the revenue effect of H.R. 11879 for the fiscal year 1963 and for a full year of operation*

[Millions of dollars]

¹ Adjusted for committee amendments providing exemptions.

² Assuming the full year at 5-percent rate for travel by airlines and no tax on travel by other carriers.

Source: Staff of the Joint Committee on Internal Revenue Taxation.

The full-year effect of the House bill is to maintain receipts of \$3,992 million which would otherwise be lost. Your committee's amendments result in a reduction on a full-year basis of \$22 million, \$18 million attributable to the modifications made in the base of the tax on communications and \$4 million to the modification made in the base of the tax on transportation of persons by air. In the fiscal year 1963 the receipts maintained under the House bill amount to \$2,745 million and under your committee's amendments \$2,673 million, a decrease of \$72 million.

As shown in table 1, \$2.5 billion of the full-year revenue gain of about \$4 billion provided by this bill is attributable to the corporate income tax. Of the remainder, \$271 million is attributable to the taxes on alcoholic beverages, \$259 million to the taxes on cigarettes, \$495 million to the automotive taxes, and \$507 million (\$525 million under the House bill) to the general telephone tax. There is the revenue loss of \$62 million in the case of the tax on the transportation of persons.

The difference between the estimates of the full-year effect and the effect in the fiscal year 1963 is primarily attributable to the postponement of the corporate rate reduction, which is not fully reflected in receipts in the fiscal year 1963. There is also some lag in the collections in the manufacturers' excise taxes on passenger cars and auto parts and accessories, as well as in the case of the general telephone tax.

In the case of the tax on the transportation of persons by air, the full-year effect of the bill (based on the 5-percent rate effective October 1, 1962) is slightly less than under present law because your committee amends this provision to exempt U.S. portions of certain international travel. In the case of other carriers, there is a revenue loss on a full year's basis because of the elimination of the tax on September 30, 1962 (or December 31, 1962, under the House bill), rather than a continuation of this rate at 5 percent.

III. REASONS FOR THE TAX RATE EXTENSIONS

The Secretary of the Treasury in his appearance before your committee indicated that the Treasury is now assuming a deficit of \$7¼ billion in the fiscal year 1962 for purposes of making its computations.

The budget receipt and expenditure estimates for the fiscal year 1963 appearing in the January budget are as follows:

	<i>Billion</i>
Budget receipts-----	\$93. 0
Budget expenditures-----	92. 5
Budget surplus-----	+0. 5

The Secretary of the Treasury in commenting on the budgetary situation for the fiscal year 1963 stated:

The estimate for the surplus of the next fiscal year as contained in the budget document was just under \$500 million. Since then the President has sent up a number of additional requests, the largest one of which was the public works program for distressed areas, and those extra expenditures under those requests would just about balance out that small surplus. * * * I think that the budget, as submitted by the President, and as modified by the President since that time, is exactly, I would say, in balance.

The staff of the Joint Committee on Internal Revenue Taxation also has prepared estimates of receipts for the fiscal year 1963. These estimates, assuming the same budget expenditures as shown in the budget, would indicate a deficit in the fiscal year 1963 of \$3.8 billion if no account is taken of the revenue revision bill of 1962 (H.R. 10650). The staff estimated that if this bill were taken into account as it passed the House, the deficit for the fiscal year 1963 might amount to \$4.9 billion. The staff estimates can be summarized as follows:

	<i>Billion</i>
Staff estimate of budget receipts (assuming extension of present corporate and excise tax rates) excluding revenue effect of pending bill, H.R. 10650-----	\$88. 7
Budget expenditures (as shown in the budget)-----	92. 5
Deficit (excluding revenue effect of H.R. 10650)-----	3. 8
Staff estimates of receipts including revenue effect of H.R. 10650-----	87. 6
Budget expenditures (as shown in the budget)-----	92. 5
Deficit (includes revenue effect of H.R. 10650)-----	4. 9

NOTE.—Estimates released on Apr. 2, 1962.

Your committee believes that the status of the budget as outlined above represents an impelling reason for the continuation of the present corporate and excise tax rates. The President in his budget message this last January stated:

The budget outlook for 1963 requires that the present tax rates on corporation income and certain excises be extended for another year beyond their scheduled expiration date of June 30, 1962. Existing law calls for changes which would lower the general corporation income tax rate from 52 percent to 47 percent; reduce the excise rates on distilled spirits, beers, wines, cigarettes, passenger automobiles, and automobile parts and accessories; and allow the tax on general telephone service to expire. I recommend postponement of these changes for another year to prevent a revenue loss of \$2.8 billion in 1963.

Secretary of the Treasury Dillon, in his appearance before your committee, stated:

I feel that H.R. 11879 constitutes a necessary revenue conserving measure at this time, and I recommend its approval by your committee.

With respect to the tax on the transportation of persons, the President recommended the repeal of this tax as of July 1 of this year except in the case of the tax on the transportation of persons by air. In the case of the tax on the transportation of persons by air, he recommended the continuation of the 10-percent rate until December 31, 1962, and a 5-percent rate thereafter. The President made this recommendation as one feature of a program of user charges.

The House bill continued the 10-percent tax on all transportation of persons for 6 more months, or until December 31, 1962. Your committee's amendments, because of the pressing need for action with respect to the tax on the transportation of persons, continue the 10-percent tax only until October 1, 1962. At that time your committee's amendments provide for the elimination of the tax on transportation of persons other than by air and for the reduction from 10 percent to 5 percent of the tax on the transportation of persons by air. Neither the House bill nor your committee's amendments take up the other user charge proposals of the President.

The removal of the transportation tax in the case of the railroad industry is appropriate because the railroad industry operates with a minimum of Federal aid and is subject to State, local, and Federal taxes on its roadbed, equipment, and profits. In the case of airlines there are significant Federal capital and operating expenditures. Federal expenditures for the domestic airway system (operation plus depreciation of capital items) are approximately \$500 million a year and growing. Moreover, the domestic air transport industry flew over 30 billion passenger miles in 1961 and had receipts of over \$2 billion. This industry now generates over 50 percent more intercity passenger miles than the railroads, and accounts for more than 40 percent of the common carrier intercity passenger miles.

IV. COMMITTEE AMENDMENTS

Your committee has made three amendments to the House bill.

A. TERMINATION OF TAX ON TRANSPORTATION OF PERSONS OTHER THAN BY AIR

The first amendment, already referred to above, provides for the termination of all taxes on the transportation of persons, other than by air, and the reduction of the tax on the transportation of persons by air, as of September 30 of this year, rather than as of December 31, 1962, as provided by the House bill. As previously indicated, this amendment, except for the modifications as to the effective dates, is in accord with the President's recommendations. It is desirable to reduce the Federal taxes on railroads as soon as possible, because they are already paying heavy State and local property taxes on their railroad bed and equipment and because they are faced with substantial financial problems at the present time. At the same time your committee believes that it is undesirable to permit a differential in tax rates of more than 5 percent in the case of air carriers and other carriers. In view of these factors, your committee's amendments provide for the reduction of the tax applicable in the case of air carriers from 10 percent to 5 percent and the termination of the tax in the case of other carriers, all effective as of September 30, 1962.

B. U.S. PORTION OF INTERNATIONAL AIR TRAVEL

A second amendment made by your committee relates only to the tax on the transportation of persons by air. It exempts from the transportation tax the U.S. portion, or leg, of an interrupted international air trip. This exemption is desirable both because it removes a discrimination against American air carriers and also because it removes a discrimination against stopovers in the United States. Foreign air carriers make fewer stops in the United States than domestic carriers, with the result that a larger portion of an international trip provided by a foreign carrier is likely to be exempt than is true in the case of an international trip on an American airline. Flights from Chicago to Europe, for example, in the case of foreign carriers avoid any stops in the United States, while flights on an American airline generally provide for a stop in New York City. As a result, the trip, if provided by a foreign carrier, is entirely free of tax under present law, while the New York to Chicago leg of the trip in the case of the domestic carrier is taxed at 10 percent. Numerous similar situations arise in the case of flights from other American cities to foreign countries. In addition, in the case of American carriers, taxing the American leg of international air travel tends to encourage stopovers in Canada or other neighboring countries, rather than American border cities, since this avoids the imposition of tax on any American leg of the travel.

In view of the manner in which present law tends to discriminate against domestic carriers, and also to encourage foreign rather than American stops, your committee has amended this bill to provide that the U.S. portion of uninterrupted international air transportation is not to be subject to the 5-percent tax on transportation. The bill defines uninterrupted international air transportation as transportation which does not begin and end in the United States (or in the 225-mile zone along U.S. borders) if the "scheduled" interval between the beginning or end of the U.S. leg of such transportation and the end or beginning of the remainder of the transportation is not more than 6 hours. The amendment also provides that where there are two or more stops in the United States in the case of such a trip, neither of the stops, from the time of the beginning or end of one and the end or beginning of the other, may involve a "scheduled" interval of more than 6 hours. A "scheduled interval" of not more than 6 hours may include cases where the actual time elapsing exceeds 6 hours if the longer time is attributable to the postponement of a flight by the airline and was not attributable to the cancellation of a reservation by the passenger in order to take a later flight.

In connection with this same amendment, a change is also made in the provision dealing with the payment of the tax on the transportation of persons by air in cases where the tax is not paid at the time the transportation is purchased. Generally in such cases, it must be paid by the purchaser of the ticket to the Treasury Department or to the person to whom the payment for transportation is made. The bill, as amended, provides that in the case of international travel it may also be made to any person furnishing any part of the transportation. This and other administrative provisions make possible, if the Treasury by regulations so provides, the collection of tax, on the U.S. leg of what was originally scheduled as international transportation, from the carrier providing the foreign portion of the transportation, if subsequently the foreign portion of the flight is not taken and the passenger seeks a refund from this carrier for this portion of the travel. Similarly, the Treasury may by regulations provide for the collection of the tax from such a carrier with respect to the U.S. leg of such a trip if the scheduled interval, although initially not more than 6 hours, as the result of a change in reservations is lengthened beyond 6 hours. Provision could be made for the collection of the tax in such cases by requiring that the ticket for the foreign portion of the trip be marked as being associated with U.S. travel, the ticket for which has been purchased free of tax.

This amendment is effective with respect to transportation beginning after September 30, 1962.

C. EXEMPTION FROM COMMUNICATIONS TAXES

The third amendment added by your committee deals with the taxes on communications. The amendment made by your committee in the case of these taxes provides an exemption for amounts paid for certain private lines and leased wires.

The Federal Communications Commission in 1959 set aside certain radio frequencies for private microwave communications. In so doing the FCC provided users of communications with a choice of either supplying their own communication facilities or of obtaining such services from a communications common carrier. New developments in communications are now occurring with increasing frequency and the electrical and electronic manufacturing industries are already offering a wide variety of equipment directly to users to perform communication functions through the use of microwave channels.

Under present law, if the communications services are obtained from a common carrier, the 10-percent general telephone or wire mileage service taxes are applicable. However, where the equipment is purchased and the users then provide their own communications, no tax is applicable.

In addition, the Treasury Department has interpreted the 10-percent tax on wire mileage service as applying to certain amounts paid by community antenna television services. In such cases this community antenna service is privately operated by a company utilizing taxable microwave service furnished by a telephone company from the point of pickup to the booster station, which in turn transmits the signals by means of individual wires into the homes of the users of this service. Your committee believes that no communications tax should be applied to the company in such cases since to provide a tax in this case discriminates against television viewers who, because of distance from the TV station or as a result of the presence of mountains or valleys, cannot receive programs without the use of a special community antenna service.

To prevent discrimination against the communications common carriers and also to prevent the imposition of tax on community antenna service, your committee has added a new section to the bill providing that wire-mileage service is to include only service not used in the conduct of a trade or business (of the type referred to in sec. 162 of the code). It has also provided an exemption from the tax on general telephone service for amounts paid for the use of telephone or radio telephone lines or channels constituting general telephone service if such lines or channels are furnished between specified locations in different States or between specified locations in different counties, municipalities, or similar political subdivisions of a State and if such services are used in the conduct of a trade or business (of the type referred to in sec. 162 of the code).

This exemption from the general telephone tax removes from tax amounts paid for private lines and associated equipment used predominantly for voice purposes and over which communication may be established between specified and preselected points set aside for the exclusive use of customers, for whatever purpose he chooses, without the use of switching functions of a communications company exchange. The area limitations in this case are intended to exclude interior communication systems capable of being used through exchanges to communicate within the public exchange network. The term "similar subdivisions" of a State is intended to include subdivisions similar to a county or municipality which may be otherwise denominated in a particular State. In the case of more than one level of local government, the term "municipality" means the largest subdivision below the level of county or similar subdivision.

Examples of the types of lines or channels and equipment furnished by the communications companies which if used in a trade or business would no longer be subject to tax are:

- Private line telephone (if the conditions are met).
- Private line teletypewriter.
- Educational television channels.
- Community antenna television channels.
- Closed circuit television channels.
- TELPAC.
- Private line data transmission.

This amendment is made with respect to services furnished after June 30, 1962.

V. EXPLANATION OF CORPORATE INCOME AND EXCISE TAX RATE EXTENSIONS

Both versions of this bill provide for a 1-year extension of the present corporate income tax rates and the existing rates of certain excise taxes. The rates of these taxes which are extended for 1 year are, under existing law, scheduled for reduction on July 1, 1962. The present combined 52 percent corporate tax rate, without the 1-year extension, would revert to 47 percent as of July 1, 1962, through a reduction of the normal tax rate from 30 percent to 25 percent.

The excise tax rates extended by this bill which under present law would be decreased as of July 1, 1962, are those on—

1. Distilled spirits, which would be reduced from \$10.50 to \$9 per proof gallon;
2. Beer, which would be reduced from \$9 to \$8 per barrel;
3. Wines, which are subject to various tax rates which would be reduced by approximately 11 percent;
4. Cigarettes, which would be reduced from 8 cents to 7 cents a pack;
5. Passenger cars, which would be reduced from 10 percent to 7 percent of the manufacturers' price;
6. Auto parts and accessories, which would be reduced from 8 percent to 5 percent of the manufacturers' price; and
7. General telephone service, which would be reduced from 10 percent of the amount paid to zero.

The corporate income tax rate and the tax rates referred to in the first six categories listed above reflect rate increases which were initially provided in 1951 at the time of the Korean war. Elimination of the tax on general telephone service (or local telephone service, as it formerly was called) and the reduction in the rate of tax on transportation of persons (referred to below) were first scheduled for the year 1960 in the Tax Rate Extension Act of 1959.

Both versions of the bill, in addition to making the changes referred to above, also make a number of technical changes, including the postponement for 1 more year of the floor stocks refunds or credits presently effective with respect to stocks of various tax-paid products on hand on July 1, 1962. These floor stocks refunds are available in the case of distilled spirits, wines and beer, cigarettes, and passenger cars.

The bill as amended by your committee provides for the termination of the tax on the transportation of persons by railroad, motor vehicle, or water on September 30, 1962, and for the reduction of the tax on the transportation of persons by air to 5 percent on the same date. This air tax is then continued until July 1, 1963, but at this reduced rate of 5 percent.

Table 2 shows the present tax rates which are extended and those which would become effective as of July 1, 1962, in the absence of this bill.

The elimination of the tax on the transportation of persons other than by air, and the scheduled reduction of the tax on the transportation of persons by air

TABLE 2.—*Tax rates affected by the bill*

	Unit of tax	Rates under the bill	Rates which under present law would be effective July 1, 1962

By airline.....	Amount paid.....	10 percent ¹	5 percent.
By other carriers.....	do.....	10 percent ¹	5 percent.

¹ Rate of 10 percent extended through Sept. 30, 1962. Effective Oct. 1, 1962, tax on transportation by air to be 5 percent through June 30, 1963, and transportation by other carriers to be exempt.

are effective with respect to "transportation which begins after" September 30, 1962. The scheduled elimination of the tax on the transportation of persons by air is effective with respect to transportation which begins after June 30, 1963. It is contemplated that the Internal Revenue Service, under regulations appropriately safeguarding the collection of taxes, will provide that the tax collected on tickets purchased *before* a date of rate change for travel beginning *on or after* that date may be the tax (zero or 5 percent, as the case may be) which will actually be due for this travel. For cases of this kind where the higher rate of tax is paid but not actually due, the bill makes provision for credit or refund. It provides that where excess tax with respect to transportation has been collected before a date of rate change (October 1, 1962, or July 1, 1963) for travel beginning on or after that date, the person who collected the tax (usually the carrier) is to be allowed a credit or refund for the excess tax collected if, before the transportation began, the collector of the tax repaid the excess tax to the person from whom he collected it or had obtained the consent of that person to the allowance of the credit or refund.

It is expected that with respect to transportation beginning after September 30, 1962, where a ticket is issued for transportation consisting in part of transportation by air and in part of other transportation, the Treasury by regulation or ruling will specify proper allocation rules to determine the portion of such ticket subject to tax.

The bill, as amended by your committee, rewrites subchapter C of chapter 33, presently dealing with the transportation of persons, to make it applicable only to transportation of persons by air as of October 1, 1962. The changes made in this subchapter, except for the committee amendment previously explained, however, are only those necessary to delete language relating to transportation of persons other than by air and to continue the rules presently applicable in the case of air travel.

[H.R. 11879]⁵

TAX RATE EXTENSION ACT OF 1962

[Conference Report No. 1935, Eighty-seventh Congress, Second Session]

[June 26, 1962]

Mr. MILLS, from the committee of conference, submitted the following Conference Report to accompany H.R. 11879.

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 11879) to provide a 1-year extension of the existing corporate normal-tax rate and of certain excise-tax rates, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 10, 11, and 12, and agree to the same.

Amendment numbered 1:

That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows:

On page 2, line 14, of the Senate engrossed amendments strike out "July 1, 1962" and insert *January 1, 1963*; and the Senate agree to the same.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

⁵ Public Law 87-508, page 58, this Bulletin.

SEC. 5. EXTENSION THROUGH NOVEMBER 15, 1962, OF TAX ON TRANSPORTATION OF PERSONS, AND FURTHER EXTENSION OF TAX ON TRANSPORTATION OF PERSONS BY AIR AT 5-PERCENT RATE FOR PERIOD NOVEMBER 16, 1962, THROUGH JUNE 30, 1963.

And the Senate agree to the same.

Amendment numbered 3:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 4:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 5:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 6:

That the House recede from its disagreement to the amendment of the Senate numbered 6, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 7:

That the House recede from its disagreement to the amendment of the Senate numbered 7, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 8:

That the House recede from its disagreement to the amendment of the Senate numbered 8, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 9:

That the House recede from disagreement to the amendment of the Senate numbered 9, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 13:

That the House recede from its disagreement to the amendment of the Senate numbered 13, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 15:

That the House recede from its disagreement to the amendment of the Senate numbered 15, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 16:

That the House recede from its disagreement to the amendment of the Senate numbered 16, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 17:

That the House recede from its disagreement to the amendment of the Senate numbered 17, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

Amendment numbered 18:

That the House recede from its disagreement to the amendment of the Senate numbered 18, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 15*; and the Senate agree to the same.

Amendment numbered 19:

That the House recede from its disagreement to the amendment of the Senate numbered 19, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *November 16, 1962*; and the Senate agree to the same.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 11879) to provide a 1-year extension of the existing corporate normal-tax rate and of certain excise-tax rates, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

Amendment No. 1: This amendment adds a new section 4 to the bill to exempt from the communications tax certain private line services used in the conduct of a trade or business.

Under section 4252(e) of the Internal Revenue Code of 1954, wire mileage service is defined to mean any telephone or radiotelephone service, and any other wire or radio circuit service, not included in any other subsection of section 4252 of the code; except that such term does not include service used exclusively in furnishing wire and equipment service. Subsection (a) of the new section 4 amends section 4252(e) so that wire mileage service will include only service not used in the conduct of a trade or business.

Subsection (b) of the new section 4 added by Senate amendment No. 1 adds a new subsection (j) to section 4253 of the 1954 Code (relating to exemptions from the communications tax). Under the amendment the communications tax is not to be imposed on any amount paid for the use of any telephone or radio-telephone line or channel which constitutes general telephone service (within the meaning of sec. 4252(a) of the 1954 Code) if such use is in the conduct of a trade or business and such line or channel is furnished between specified locations in different States or between specified locations in different counties, municipalities, or similar political subdivisions of a State.

Subsection (c) of the new section 4 provides that the amendments made by subsections (a) and (b) are to apply with respect to services furnished on or after July 1, 1962.

The House recedes with an amendment which changes the effective date from July 1, 1962, to January 1, 1963.

Amendments Nos. 2, 3, 4, 5, 6, 7, 8, and 9: The bill as passed by the House provided for a 6-month extension of the existing tax on transportation of persons by rail, motor vehicle, water, or air at 10 percent for the period July 1, 1962, through December 31, 1962, and a further 6-month extension of the tax on transportation of persons by air at 5 percent for the period January 1, 1963, through June 30, 1963.

Senate amendments Nos. 2, 3, and 4 provide a 3-month extension of the existing 10-percent tax on transportation of persons for the period July 1, 1962, through September 30, 1962, and Senate amendments Nos. 5, 6, 7, 8, and 9 provide a further 9-month extension of the tax on transportation of persons by air at 5 percent for the period October 1, 1962, through June 30, 1963.

Under the conference agreement, the existing 10-percent tax on transportation of persons is extended through November 15, 1962, and the tax on transportation of persons by air is further extended at 5 percent for the period November 16, 1962, through June 30, 1963.

Amendments Nos. 10 and 11: Section 4262(a) of the 1954 Code defines taxable transportation as meaning—

- (1) transportation which begins in the United States or in the 225-mile zone and ends in the United States or in the 225-mile zone, and
- (2) in the case of transportation other than transportation described in paragraph (1), that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States.

The bill as passed by the House did not change such section 4262(a).

Senate amendment No. 10 amends paragraph (2) of such section 4262(a) to provide that the portion of the transportation referred to in paragraph (2) is to be included as taxable transportation only if such portion is not a part of uninterrupted international air transportation. Senate amendment No. 11 adds a new paragraph (3) to section 4262(c) of the 1954 Code to define the term "uninterrupted international air transportation". The term is defined to mean any transportation by air which is not transportation described in section 4262(a) (1) of the 1954 Code and in which—

- (A) the scheduled interval between (i) the beginning or end of the portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States and (ii) the end or beginning of the other portion of such transportation is not more than 6 hours, and
- (B) the scheduled interval between the beginning or end and the end or beginning of any two segments of the portion of such transportation referred to in clause (i) above is not more than 6 hours.

The House recedes on Senate amendments Nos. 10 and 11.

Amendment No. 12: Section 4264(c) of the 1954 Code provides that where the tax on transportation of persons is not paid at the time payment for transportation is made then (under regulations prescribed by the Secretary of the Treasury or his delegate, to that extent that such tax is not collected under any other provision of subchapter C of chapter 33 of the code, payment of the tax is to be made to the person to whom the payment for transportation was made or to the Secretary of the Treasury or his delegate. In connection with Senate amendments Nos. 10 and 11, Senate amendment No. 12 provides that payment of such tax shall be made to the Secretary of the Treasury or his delegate, to the person to whom the payment for transportation was made, or, in the case of transportation other than transportation described in section 4262(a) (1) of the code, to any person furnishing any portion of such transportation.

The House recedes.

Amendments Nos. 13, 14, 15, 16, 17, 18, and 19: These are conforming amendments relating to the effective dates for changes in the tax on the transportation of persons.

The House recedes with conforming amendments.

[H.R. 1261]⁴

EXTENSION OF RENEGOTIATION ACT OF 1951

[Senate Report No. 1669, Eighty-seventh Congress, Second Session, Calendar No. 1627]

[June 28, 1962]

MR. BYRD, from the Committee on Finance, submitted the following report together with minority views to accompany H.R. 12061.

The Committee on Finance, to whom referred the bill (H.R. 12061) to extend the Renegotiation Act of 1951, having considered the same, report favorably thereon, with amendments, and recommend that the bill as amended do pass.

I. GENERAL STATEMENT

The Renegotiation Act of 1951, which authorizes the Government to recapture excessive profits on certain Government contracts and related subcontracts, is scheduled to expire as of June 30, 1962. H.R. 12061 extends the act for 2 years, that is, until June 30, 1964.

The bill also makes certain other amendments to the act. One of these amendments prohibits the departments from inserting certain profit limitation provisions in contracts, another makes the standard commercial article exemption (and the related exemptions for "like" articles and for classes of articles) applicable to receipts or accruals from leases, and another amendment broadens the scope of appellate review of Tax Court decisions in renegotiation cases. These amendments are explained further below.

II. EXPLANATION OF THE BILL

Section 1. Extension of the Renegotiation Act.—The President, in his budget message to Congress earlier this year, recommended that the Renegotiation Act be extended. The Renegotiation Board subsequently transmitted to Congress a draft of proposed legislation to implement that recommendation, and recommended that the period of the extension be 4 years. The Joint Committee on Internal Revenue Taxation, in the report made by it to the House and to the Senate on January 31, 1962, pursuant to a directive contained in the 1959 legislation by which the act was last extended, also recommended that the act be extended, but recommended that the period of extension be 2 years. (See "Report on the Renegotiation Act of 1951," H. Doc. 322, 87th Cong., 2d sess.)

Your committee is aware, as was pointed out by the Renegotiation Board in its letter transmitting the draft of proposed legislation to extend the act, that the defense procurement program has involved "the expenditure of vast sums of money for the purchase of many different types of weapons and related materials * * *." The Board stated that "For the fiscal year 1962, it is estimated that expenditures for national defense will aggregate approximately \$46.8 billion; and for the fiscal year 1963, it is estimated that such expenditures will be at least as great or greater."

Your committee is also aware, as was pointed out by the Board, that the defense procurement program requires the procurement of many highly specialized items of an unprecedented nature, as to which past production and cost experience is not always available for forecasting accurately the cost of such items. The Renegotiation Act provides one technique for eliminating excessive profits under contracts for the procurement of such items. For these reasons, your committee concluded that the Renegotiation Act must be extended.

This bill would extend the act for 2 years, as recommended by the Joint Committee on Internal Revenue Taxation, rather than for the 4 years originally recommended by the Renegotiation Board. Your committee has been advised that the newly constituted Renegotiation Board is now conducting a reexamination of the renegotiation process and that other departments in the administration are reviewing certain renegotiation matters with which they are concerned. Your committee believes that under these circumstances the act should be extended for only 2 years.

* * * * *

⁴ This publication of the Committee Report is restricted to excerpts involving internal revenue matters; Public Law 87-520, page 64, this Bulletin.

Section 4. Appellate review of Tax Court decisions in renegotiation cases.—Section 4 of the bill amends the act so as to broaden the scope of appellate review of Tax Court decisions in renegotiation cases.

The provisions of present law relating to appellate review of Tax Court decisions in renegotiation cases have been sharply criticized by many within the past several years. Although the courts have interpreted provisions of the Internal Revenue Code, which relate generally to appellate review of Tax Court decisions, as allowing some measure of appellate review of its decisions in renegotiation cases, the scope of review thus allowed by the courts has been quite limited, and considerably narrower than that accorded with respect to Tax Court decisions in tax cases. The problems and uncertainties presented by the present provisions of law concerning scope of appellate review of Tax Court decisions in renegotiation cases have been the subject of careful congressional study for several years, and on the basis of that study, your committee has concluded that the measure of appellate review now available is unduly restricted. With certain important exceptions, your committee believes that Tax Court decisions in renegotiation cases should be subject to appellate review in the same manner and to the same extent as its decisions in tax cases.

Accordingly, section 4 of your committee's bill provides for review by the U.S. courts of appeals (and by the Supreme Court of the United States upon certiorari) of Tax Court decisions in renegotiation cases, in the same manner and to the same extent as decisions of the district courts in civil actions tried without a jury, subject, however, to certain important limitations. The first limitation is that in no case shall the question of the existence of excessive profits, or the extent thereof, be reviewed, and, further, that findings of fact by the Tax Court shall be conclusive unless such findings are arbitrary or capricious. Your committee believes that the ultimate question of the extent of excessiveness of profits or of the existence thereof, requires the exercise of judgment which is of such a nature that the appellate courts should not be permitted to substitute their judgment for that of the Tax Court.

For this reason, your committee's bill also imposes other limitations on the power of the appellate courts in the provisions of subsection (b) of section 108A as amended by the bill. Under these provisions, the powers of the appellate courts are limited to affirming the decision of the Tax Court, or to reversing such decision on questions of law and remanding the case for such further action as justice may require. The appellate courts, moreover, are not permitted to reverse and remand the case for an error of law which is immaterial to the decision of the Tax Court.

There is also a provision in section 4 of the bill which the provision of existing law (the last sentence of sec. 105(b)(2) of the Renegotiation Act) which stops the accrual of interest provided for under the act after 3 years from the date of filing a petition for redetermination with the Tax Court in any case in which there has not been a final determination by the Tax Court with respect to the petition within such 3-year period.

In order to make the amendments made by section 4 of the bill prospective in effect, provision has been made in section 4 that the amendments made thereby shall apply only with respect to cases in which the petition for redetermination is filed with the Tax Court after the date of enactment of the bill.

MINORITY VIEW

In addition to extending the Renegotiation Act for a period of 2 years, that is, until June 30, 1964, this bill would amend the act in three significant respects, as indicated in the majority report. While I have no objection to extending the act for a period of 2 years, I strongly oppose the adoption of the proposed amendments to the act and do so for the following reasons.

First, it should be pointed out that the staff of the Joint Committee on Internal Revenue Taxation concluded in House Report No. 1447, after an extensive and exhaustive study that, except for extending the act 2 years, "the staff does not believe it would be advisable to suggest any basic changes in the act while the Renegotiation Board is conducting its reexamination of the renegotiation process."

(1) More specifically the staff, while recognizing that considerable criticism has been directed to the limitations imposed by present law on appellate review

of Tax Court decisions in renegotiation cases and to the litigation necessitated by the uncertainties under present law regarding the scope of appellate review, nevertheless concluded in its report that—

It is the opinion of the staff that no change should be made at this time in those provisions of present law concerning the scope of appellate review of Tax Court decisions in renegotiation cases.

Acknowledging the many objections which may have been raised on the question of the scope of appellate review in renegotiation cases, it appears inadvisable to adopt amendments at this time which may have far-reaching effects and possibly create more uncertainties in the law without first conducting public hearings on the question of appellate review and of the issues raised by the other amendments.

This is especially true because the Supreme Court in the *California Eastern Line* case has ruled that the scope of review of renegotiation decisions of the Tax Court is fixed by the same provision of the Internal Revenue Code that defines the scope of review of tax decisions of that court. It follows that under present law the same right of review exists with respect to decisions of the Tax Court in renegotiation cases as in tax cases arising in that court, with the single exception that a Tax Court determination of the amount of excessive profits is not subject to review. Since the decision of the Supreme Court in 1955, there have been 11 cases in which various courts of appeals have assumed jurisdiction to review questions of law in renegotiation cases decided by the Tax Court. In four cases such jurisdiction has been refused. Since the proposed amendment would, on its face, merely codify the existing law as declared by the Supreme Court, it does not appear to me to be necessary.

PAUL H. DOUGLAS.

[H.R. 6413] ⁵

DECLARATION OF ESTIMATED INCOME TAX BY FISHERMEN

[Senate Report No. 1819, Eighty-seventh Congress, Second Session, Calendar No. 1776]

[August 3, 1962]

MR. BYRD of Virginia, from the Committee on Finance, submitted the following report to accompany H. R. 6413.

The Committee on Finance, to whom was referred the bill (H.R. 6413) to extend to fishermen the same treatment accorded farmers in relation to estimated income tax, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

I. SUMMARY OF HOUSE PROVISION

H.R. 6413 provides that, for purposes of the estimated income tax, fishermen are to be accorded the same treatment as presently is available for farmers. Under the amended bill this is to be provided for taxable years beginning after December 31, 1962.

The principal advantage to taxpayers having income from farming—which the bill extends to those having income from fishing—is the privilege of filing the declaration of estimated tax, and paying the estimated tax, by January 15 after the end of the year in question (in the case of a calendar-year taxpayer), rather than filing the declaration by the prior April 15 and making quarterly payments of estimated tax.

II. SUMMARY OF COMMITTEE AMENDMENT

Your committee's amendment makes the extra 10-percent limitation on deduction of charitable contributions (presently available in the case of contributions to a church, school, hospital, or medical research organization) available

⁵ Public Law 87-682, page 68, this Bulletin.

also in the case of contributions to an organization which normally receives a substantial part of its support from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public, organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a State university or college, including a land-grant college or university. This provision, which is added by your committee, is to apply to taxable years beginning after December 31, 1960.

III. GENERAL EXPLANATION OF HOUSE PROVISION

Under present law those who derive two-thirds or more of their income from farming (including oyster farming) are in several respects treated differently than taxpayers generally under the system of declarations of estimated tax.

First, taxpayers other than farmers who have sufficient income are required to make an estimate on April 15 (in the case of a calendar-year taxpayer) of tax in excess of that withheld and pay this amount in four quarterly payments on April 15, June 15, September 15, and January 15 (sec. 6073(a)).⁶ However, farmers, instead of making the estimate in April and paying the quarterly installments, may file an estimate by January 15 of the following year, paying the full estimated tax at the time of filing (secs. 6073(b) and 6153(b)).

Second, taxpayers other than farmers, instead of making their fourth payment of estimated tax on January 15 (in the case of calendar-year taxpayers), are permitted to file their regular income tax return and make their final tax payment by January 31 (sec. 6015(f)). In the case of farmers this date is February 15 instead of January 31.

Third, present law for taxpayers other than farmers bases the 6 percent per annum addition to tax on the excess of 70 percent of the actual tax due over the amount paid by withholding and by estimated tax (sec. 6654(b)). For farmers this percentage is 66⅔ percent instead of 70 percent.

Fourth, there are four exceptions, or "escape valves" as they are sometimes called (in sec. 6654(d)), which, if any apply, mean that no 6 percent per annum addition to tax is to be made for underpayment of estimated tax. One of these exceptions, or escape valves, provides that in the case of any installment, there is to be no addition to tax if, in the case of taxpayers other than farmers, 70 percent of what the tax would be (determined on an annualized basis) for the part of the year up to the installment due date has been paid by that time (sec. 6654(d)(1)(C)). For farmers this percentage is 66⅔ percent.

There are several reasons why this different treatment was provided in the case of taxpayers with income from farming. Probably the most important reason was the recognition that income from farming is particularly difficult to estimate before the end of the year, or at least before the end of the principal crop season. Also, the income receipts are likely to be concentrated in the latter part of the year in the case of farming. Furthermore, accurate recordkeeping is probably more of a problem in the case of farming than for most other self-employment income.

Your committee believes that the reasons cited above for the different estimated tax treatment for farming apply in most respects in the case of income of individuals from fishing. Therefore, the bill adds the phrase "or fishing" after each reference to farming in sections 6015(f), 6073(b), 6153(b), and 6654(b) and (d)(1)(C). In addition, the bill makes technical conforming changes.

The changes made by the bill as amended are to be effective with respect to declarations of estimated tax relating to the calendar year 1963 and subsequent taxable years.

IV. GENERAL EXPLANATION OF COMMITTEE AMENDMENT

Your committee's amendment adds a new category (clause (iv)) to section 170(b)(1)(A) of the Internal Revenue Code, relating to organizations which qualify for the extra 10-percent deduction for charitable contributions. The new category added by your committee's amendment comprises organizations, which normally receive a substantial part of their support from the United States or any State or political subdivision thereof or from direct or indirect contributions

⁶ Amendments of declarations of estimated tax may also be made by the payment dates for each quarter of the year.

from the general public, organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of a State university or college, including a land-grant college or university. The purpose of this provision is to extend the extra 10-percent limitation on deductions for charitable contributions to a university endowment association, the activities of which include encouraging and soliciting private support for the university, receiving and holding in trust all property given to the association for the benefit of the university or college, the administration of the endowment funds, and the maintenance of separate funds for gifts and bequests received for uses for which State-appropriated funds are not available or are insufficient, such as scholarships, student loans, equipment, furnishings, supplies, lecture-ships, and libraries. In some instances, university endowment institutions of the type included by your committee's amendment hold title to property comprising part of the campus area of a college or university, and participate in the erection of university buildings. In general, these foundations do a variety of things which are normally accepted functions of colleges and universities. They merely do them through separate corporations rather than through the university corporation.

Because the functions of these university endowment foundations are so similar to functions normally performed directly by colleges and universities, your committee does not believe that the extra 10-percent deductions should be denied in the case of contributions made to such foundations.

Moreover, the attention of your committee has been called to the fact that in at least 9 States ⁷ legal restrictions limit the ability of State and land-grant colleges or universities to receive directly gifts and bequests from the public for particular purposes. This is especially true of gifts not made in trust. Because of these restrictions, endowment foundations have been created in connection with many State colleges and universities (often by alumni groups) for the purpose of receiving gifts and bequests from the general public and of making expenditures for the benefit of such colleges and universities. Private universities or colleges, on the other hand, are not similarly restricted in their ability to receive gifts and bequests directly. Accordingly, your committee has limited the scope of its amendment to endowment foundations which normally receive substantial support from the Federal or State Government or political subdivisions thereof or from direct or indirect contributions from the general public established to make expenditures to or for the benefit of State colleges and universities, including land-grant colleges and universities. Moreover, this limitation will prevent private foundations from qualifying for the extra 10-percent deduction under this provision.

This provision (clause (iv) of sec. 170(b)(1)(A) of the code) is to apply to taxable years beginning after December 31, 1960.

[H.R. 12526] ⁸

NET OPERATING LOSS CARRYOVERS FOR CERTAIN REGULATED TRANSPORTATION CORPORATIONS

[Senate Report No. 2041, Eighty-seventh Congress, Second Session, Calendar No. 2007]

[September 13, 1962]

MR. BYRD of Virginia, from the Committee on Finance, submitted the following report together with supplemental views to accompany H.R. 12526.

The Committee on Finance, to whom was referred the bill (H.R. 12526) to amend section 172 of the Internal Revenue Code of 1954 to provide a 7-year net operating loss carryover for certain regulated transportation corporations, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

⁷ Iowa, Kansas, New York, Oregon, South Dakota, Utah, Virginia, West Virginia, and Wisconsin.

⁸ Public Law 87-710, page 69, this Bulletin.

SUMMARY OF BILL

Corporations generally may carry net operating losses back 3 years and then, if there is any remaining unused loss, forward for 5 years. This bill provides that regulated transportation corporations, in addition to the 3-year carryback, are to have a 7-year, instead of a 5-year, carryforward of net operating losses. This longer period to carryforward net operating losses is to be available to these corporations with respect to losses occurring in years, or portions of years, occurring since December 31, 1955.

This bill has been reported unanimously by your committee. This bill in large measure follows the recommendation of the President in his message on transportation. In that report he recommended a 7-year, instead of a 5-year, carryforward period for the losses of regulated public utilities.

REASONS FOR THE BILL

The President in his message to Congress on April 5, 1962, relating to the transportation system of our Nation, stressed the importance of an efficient and dynamic transportation system to aid in obtaining domestic economic growth, productivity, and progress. As he indicated, our transportation system affects the cost of every commodity we consume or export and is equally vital to our ability to compete abroad. One recommendation of the President in his transportation message was as follows:

In addition, I recommend that the Internal Revenue Code be amended to increase from 5 to 7 years the period during which regulated public utilities, including those in transportation, can apply prior year losses to reduce current income for tax purposes.

The regulated transportation companies, particularly the railroads, have greater need for long carryforwards of net operating losses than other companies because they tend to have relatively lower rates of earnings. Because of these lower earnings, such companies when they have losses require a longer period of time, than do most other companies, before these losses can be offset in full against earnings of other years. The fact that these companies are regulated in the price they can charge also tends to make it more difficult for them to recoup these losses in earnings' years. This has been an especially important problem in the case of the railroads whose earnings have declined over 40 percent in the period between 1955 and 1959, with further declines having occurred since that time. In fact, your committee has been informed that at least seven railroads have unused net operating loss carryforwards which lapse at the end of this year. These are the Pennsylvania, the New York Central, the Erie-Lackawanna, the New York, New Haven & Hartford, the Boston & Maine, the Chicago & North Western, and the Lehigh Valley Railroads. In view of these considerations, your committee's bill provides that for losses occurring in taxable years, or a portion of a year, after December 31, 1955, these regulated transportation companies are to have 7 years, rather than the usual 5-year period, over which losses may be carried forward:

GENERAL EXPLANATION

Corporations generally may carry a net operating loss back to the three immediately prior taxable years and then if any loss still remains, this amount may be carried forward to each of the 5 succeeding years. This bill provides, however, that a net operating loss from any taxable year ending after December 31, 1955, in the case of a "regulated transportation corporation" may be carried forward 7 years instead of 5. This is in addition to the 3-year carryback which is generally applicable. For corporations with loss years partially in 1955 and partially in 1956 a special rule described below limits the benefit of the longer loss carryforward to the portion of the year in 1956.

A regulated transportation corporation, for purposes of this 7-year net operating loss carryover includes any corporation receiving 80 percent or more of its gross income (without regard to dividends and capital gains and losses) from the furnishing or sale of certain specified types of transportation. The forms of transportation which are included are—

(1) Transportation by common carrier by a railroad subject to the jurisdiction of the Interstate Commerce Commission;

(2) Other transportation on an intrastate, suburban, municipal, or inter-urban electric railroad or trackless trolley system if its rates are established or approved by a governmental body or agency;

(3) Transportation on a municipal or suburban bus system if its rates are established or approved by a governmental body or agency;

(4) Other transportation by motor vehicle if the rates had been established or approved by a regulated body or agency;

(5) Transportation by common carrier by air subject to the jurisdiction of the Civil Aeronautics Board; and

(6) Transportation by common carrier by water subject to the jurisdiction of the Interstate Commerce Commission or Federal Maritime Board under the Intercoastal Shipping Act.

Also included are railroad corporations which have leased their railroad properties to another railroad and parent corporations of railroads. Finally, a corporation is included if it is a member of a "regulated transportation system." A regulated transportation system for this purpose is any corporation which is a member of an affiliated group filing a consolidated return if 80 percent of the aggregate gross income is derived from sources described in the listing Nos. 1 to 6 above or from a lessor railroad or common parent railroad. "Aggregate gross income" means the combined gross income of all of the members of the group without any eliminations for intercompany transactions.

The bill provides that for the net operating loss carryover to be available for the sixth year, the taxpayer involved must be a "regulated transportation corporation" for that year. For a loss to be carried to its seventh year the taxpayer involved must have been a "regulated transportation corporation" for both the sixth and the seventh years.

The bill also provides a proration formula which limits the loss which can be carried over from a year beginning in 1955 and ending in 1956. The formula provides that any loss carried over the sixth year in such cases is to be the same proportion of any loss remaining at the end of the fifth year which the number of days in the taxpayer's 1955-56 year which were in the calendar year 1956 bears to the total number of days in that year. Any of this partial loss remaining after the offset against income in the sixth year may then be carried forward and offset against income in the seventh year.

DEPARTMENTAL VIEWS

The Treasury Department has no objection to enactment of this bill.

SUPPLEMENTARY STATEMENT BY SENATOR PAUL DOUGLAS

No hearings were held on this bill either in the House or in the Senate. It is impossible therefore to determine whether or not it is in the public interest. I think this is poor procedure and that therefore this bill probably needs more thorough scrutiny.

We have drifted into loose procedures on these bills rushed through at the end of the session. They have been going through Congress with little examination and this has sometimes had unfortunate results. I believe our Senate procedures should be revised to provide for a more thorough examination of their possible merits and demerits. In the meantime the Senate should in my opinion go slow.

SUPPLEMENTARY STATEMENT BY SENATOR HARRY F. BYRD, CHAIRMAN

The Senate Finance Committee, in formal meeting September 10, 1962, ordered to be reported 11 bills with recommendations that they be considered favorably by the Senate. This bill was among those ordered to be reported at that time.

As a member of the committee, the Senator from Illinois (Mr. Douglas) voted against committee approval of all of these bills except one. He voted affirmatively to report only H.R. 12529 which affected his State.

He voted against reporting all other bills before the committee on that date with the statement that he was voting in the negative because public hearings had not been held.

In his supplementary statements on these bills the Senator from Illinois creates the impression—intentional or not—that the Finance Committee is not giving proper and adequate attention to legislation reported to the Senate.

With respect to all of these bills he apparently tries to leave the inference that the committee has drifted into a loose procedure of rushing bills through at the end of the session which he claims produces unfortunate results.

On behalf of the majority of the Senate Finance Committee I want to make it clear to the Senate that, in the case of the bills ordered to be reported by the committee on September 10, 1962—

1. Each of the bills has been passed by the House of Representatives;
2. No request was made for Senate hearings on these bills, and this includes the bill for which the Senator from Illinois voted in the affirmative;
3. Each of the bills ordered to be reported, except H.R. 12529 in which the Senator from Illinois is interested, was formally approved by the executive agencies having jurisdiction over their administration;
4. The contents of each bill were fully outlined by the members of the committee staff, and discussed by members of the committee; and
5. When the committee voted, members had full knowledge of the purpose and effects of the proposed legislation.

Momentous matters are referred to the Senate Committee on Finance, including legislation with respect to taxation, tariffs and customs, social security, veterans, etc., and the committee has always been meticulous in exploring the effects of all legislation it recommends.

The current tax bill—H.R. 10650—now in conference is a case in point. More than 200 witnesses were heard on this bill, and the legislation was under committee consideration more than 4 months.

The Senator from Virginia cannot recall that the Senate has rejected a bill recommended by the Senate Finance Committee. It suffices to say that when the need for hearings is indicated, the committee will hold them.

The procedure followed by the committee in consideration of the agenda for the meeting of September 10 involved no departure from committee practice over the 30 years during which I have been a member.

The committee always holds hearings when they are necessary for the enlightenment of the membership, and the procedure of the past, so far as the chairman is concerned, will be continued in the future.

[H.R. 12775]*

PLACING AUTHORITY OVER THE TRUST POWERS OF NATIONAL BANKS IN THE COMPTROLLER OF THE CURRENCY

[Senate Report No. 2039, Eighty-seventh Congress, Second Session, Calendar No. 2005]

[September 13, 1962]

Mr. ROBERTSON, from the Committee on Banking and Currency, submitted the following Report to accompany H.R. 12577.

The Committee on Banking and Currency, to whom was referred the bill (H.R. 12577) to place authority over the trust powers of national banks in the Comptroller of the Currency, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

PURPOSE OF BILL

H.R. 12577 would transfer from the Board of Governors of the Federal Reserve System to the Comptroller of the Currency authority to grant trust powers to

* Public Law 87-722, page 70, this Bulletin.

national banks and to issue regulations governing the exercise of such powers. This power is now conferred upon the Board by subsection (k) of section 11 of the Federal Reserve Act, which this bill repeals. No change would be made from the substantive provisions of section 11(k) other than the transfer of authority, so that there is no alteration of existing law regarding national banks acting in fiduciary capacities. Section 2 contains a saving clause, to make clear that nothing contained in the bill would affect or curtail the right of any national bank to exercise trust powers under a permit previously issued by the Board of Governors of the Federal Reserve System.

Section 4 of the bill would amend section 584 of the Internal Revenue Code, regarding common trust funds, to provide for the fact that regulations concerning such funds would be issued by the Comptroller of the Currency, rather than the Board of Governors of the Federal Reserve System, as a result of this bill. Reference to rules and regulations issued by the Board pertaining to such funds would be left in that section to give continued validity to actions taken heretofore in reliance upon the Board's regulations. However, since the preceding sections of the bill would transfer such authority to the Comptroller, the continued reference to the Board in that section would have no effect as to future common trust fund questions, which would depend instead upon the regulations of the Comptroller, under the bill. The last section of the bill would amend section 581 of the Internal Revenue Code to reflect the fact that H.R. 12577 would repeal section 11(k) of the Federal Reserve Act and would place these matters under the authority of the Comptroller.

GENERAL STATEMENT

In the legislative recommendations of the Federal supervisory agencies to the Senate Committee on Banking and Currency (committee print, 84th Cong., 2d sess.) the Comptroller of the Currency expressed the opinion that this power should be transferred. Then, as now, the Board of Governors stated that it had no objection, but recommended that the regulation of common trust funds also be transferred. This bill would carry out that recommendation. At the time national banks were first permitted to engage in trust activities, the power to grant them permission to do so was given to the Board. However, this section applies only to national banks and not to State member banks. Since national banks, including their trust departments, are supervised by the Comptroller of the Currency, the power to grant and regulate their authority to act as trustees should logically rest with that Office rather than with the Board. On the basis of his general supervisory functions with respect to national banks, the Comptroller has adequate information upon which to decide whether a particular bank should be allowed to exercise trust powers, and to formulate regulations governing the exercise of such powers.

Under section 584 of the Internal Revenue Code, all banks, State or National, must conform to regulations of the Board of Governors of the Federal Reserve System with respect to collective investment of trust funds of national banks in order to qualify for income tax exemption of their common trust funds. Under the bill, State banks must conform to regulations issued by the Comptroller of the Currency pertaining to the collective investment of trust funds by national banks. However, this bill will result in no change in the present distribution of power between Federal and State Governments, nor will it cause any weakening of the principles underlying the dual banking system. The Internal Revenue Code requires that, for tax purposes, regulations applicable to the collective investment of trust funds be issued at the Federal level. This bill would shift existing authority from one Federal agency to another. It would not give authority to the Comptroller of the Currency to exercise any supervisory functions over State banks. Federal income tax regulations as to common trust funds would continue to be uniform for all banks, State and National.

Hearings were held on H.R. 12577 on August 30, 1962. The three Federal bank supervisory agencies supported the bill.

[H.R. 8824]¹⁰

EXCEPTION OF CERTAIN CONSUMER FINANCE COMPANIES FROM PERSONAL HOLDING COMPANY TAX

[Senate Report No. 2047, Eighty-seventh Congress, Second Session, Calendar No. 2013]

[September 13, 1962]

Mr. BYRD of Virginia, from the Committee on Finance, submitted the following report together with supplemental views to accompany H.R. 8824.

The Committee on Finance, to whom was referred the bill (H.R. 8824) to modify the application of the personal holding company tax in the case of consumer finance companies, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

SUMMARY OF BILL

Certain exceptions to the tax on personal holding companies are made under existing law for companies receiving dividend, interest, or other income from the active conduct of a trade or business, rather than from passive investments. Among these exceptions under present law is one for certain lending companies engaged in the small loan business.

This bill modifies this exception to conform it with the laws many States have been enacting in recent years for the regulation of consumer finance business. Thus, under this bill as amended, two of the present requirements are deleted; namely, the requirement that interest and similar charges on most of the loans not exceed a simple interest rate of 3 percent per month not payable in advance and on unpaid balances, and the requirement that most of the loans be for periods of not more than 36 months. The bill also modifies the requirement that 80 percent of the company's income be derived from interest and similar charges to provide that this 80 percent may also include lawful income received from an 80-percent-owned domestic subsidiary. Another modification increases from \$500 to \$1,500 the maximum size of the loans, where no maximum is set by State statute, which must account for 60 percent of the company's gross income. On the other hand, the bill also provides that the lending company must be actively engaged in the small loan (consumer finance) business.

GENERAL STATEMENT

Under present law a special tax of from 75 to 85 percent is imposed on undistributed personal holding company income. This tax is designed to prevent the avoidance of the graduated individual income tax by placing investment funds in a corporation and retaining the income at the corporate level. This is what has become known as an "incorporated pocketbook." In general terms a corporation is a personal holding company if five or fewer individuals own more than 50 percent of the value of the outstanding stock and if 80 percent or more of the corporation's income is "personal holding company income." Personal holding company income in general consists of "passive" income, i.e., with certain exceptions includes dividends, interest, annuities, gains from the sale of stock or securities, rents, etc.

Present law provides, however, that the term "personal holding company" does not include certain types of companies although they derive their income from the sources referred to above. The exceptions are provided because the types of companies involved are engaged in an active trade or business despite the nature of their income. Thus, the exceptions include banks, life insurance companies, licensed personal finance companies, and lending companies engaged in the small loan business. It is this latter exception with which this bill is concerned.

The conditions which under present law a lending company engaged in a small loan business must meet in order to be exempt from the personal holding company tax are quite detailed. They must—

(1) Be authorized to engage in the small loan business under one or more State statutes providing for the direct regulation of such business;

(2) Derive 80 percent or more of their gross income from lawful interest, discount, or other authorized charges;

¹⁰ Public Law 87-768, page 85, this Bulletin.

(3) Derive the 80 percent of their income, referred to above, from loans maturing in not more than 36 months made to individuals in accordance with the provisions of applicable State law;

(4) Derive this 80 percent of their income from loans where the interest and all other authorized charges do not exceed the amount equal to simple interest computed at the rate of 3 percent per month not payable in advance and only on unpaid balances;

(5) Derive 60 percent of their gross income from lawful interest, discount, other lawful authorized charges received from individuals whose indebtedness to the company does not exceed the limit prescribed by the applicable State law, or, if there is no such limit, \$500;

(6) Have trade or business expense deductions (other than compensation for personal services rendered by shareholders or members of their family) equal to 15 percent or more of their gross income;

(7) Have outstanding loans with respect to any person who is a shareholder having a 10-percent interest in the stock of the company (including stock owned by members of the family) or not in excess of \$5,000.

The exception in present law for licensed personal finance companies (sec. 542(c) (6)) was added to the Internal Revenue Code by the Revenue Act of 1938 to grant exemption from personal holding company taxation for companies operating under statutes similar to the Uniform Small Loan Act drafted by the Russell Sage Foundation. Under this law, interest could not be payable in advance or compounded and could be computed only on unpaid balances. The exception described above for lending companies making small business loans (sec. 542(c) (7)) was added to the code in 1950 at the request of those who live in States which allowed interest charges to be determined by the "dollar add on" or precomputed interest method. Presently, there are 23 States which allow interest charges to be computed in this manner.

Under the precomputation method, simple interest is computed in advance as though the contract were to be repaid according to its terms, the computation is added to the principal and the total is divided into equal payments. Under the dollar-add-on method the interest and other charges are expressed in dollars rather than percentages, and computed on the original amount of the loan for the full period. This amount is then added to the net loan and the result divided into equal payments. The requirement that the interest, although computed on the precomputed or dollar-add-on basis must not exceed the 3-percent-simple-interest method, described above (No. 4), has presented serious problems in that every lender has to measure the difference between the interest it receives under the precomputation or dollar-add-on method and what it would be permitted to receive under the 3-percent-simple-interest method. It then must exclude any excess over the 3-percent-simple-interest method, in determining whether the balance meets the percentage tests for the exemption.

This bill omits this 3-percent-simple-interest requirement entirely, on the grounds that the personal holding company tax is not intended as a means of regulating the lending companies but rather as a tax applicable in certain cases, to passive investments. In any event, this is an ineffectual regulatory device since this restriction applies only to about 10 percent of the outstanding small loans. This occurs because the bulk of the small loans are made by widely held finance companies, and therefore not treated as personal holding companies since they do not have five or fewer stockholders owning more than 50 percent of their stock. Moreover, even the companies presently subject to this restriction need to meet it only with respect to 80 percent of their gross income.

In view of the factors outlined above, your committee believes that it is inappropriate to continue this 3-percent-simple-interest requirement and this bill deletes it from the restrictions imposed with respect to these lending companies.

The bill also deletes the requirement that these lending companies derive most of their income from loans maturing in not more than 36 months. Several States already have gone beyond this as a permissive period for loans and it appears likely that in the near future a number of additional States may extend maturities to more than 36 months. Your committee agrees with the House committee that it should not impose a requirement substantially more restrictive in nature than the State laws regulating this type of lending company.

A third change made by the House bill modifies the maximum size of a loan which may qualify under the 80-percent-income requirement where there is no State law governing the maximum size of a loan. Under present law where there is no such limit under State law, a limitation of \$500 is provided.

Under the bill this limitation is increased to \$1,500. It is understood that the only State which does not have a ceiling of its own is the State of California. When the \$500 limit provided by present law was considered, this represented the usual ceiling among the States. The States have changed these ceilings materially, however, with the result that today relatively few States have a ceiling of \$500 or less and even in these cases there usually is provision for supplementary loans which exceed this ceiling in certain situations. The \$1,500 provided by this bill, where there is no applicable State limitation, today is substantially in conformance with the ceilings applicable in those States providing their own maximums.

A fourth modification under the bill provides that 80 percent of the company's gross income need not be derived only from loans but also may include lawful income received from a domestic subsidiary (in which the corporation in question has at least 80 percent of the voting power of all classes of stock and owns at least 80 percent of the nonvoting stock) if the subsidiaries are themselves excepted from personal holding company tax under either this same exception (par. (7)) or as a licensed personal finance company (par. (6)), a loan or investment company (par. (8)), or a finance company (par. (9)). Your committee agrees with the House that the mere fact that income is received from a subsidiary which itself meets the same requirements as the company in question, or similar requirements, should not result in such a company being subjected to personal holding company tax. It will still be necessary, however, for the companies involved to meet directly the 60 percent gross income requirement.

A fifth change relates to the use of the term "small loan business," which represents the type of business in which a lending company must be engaged in order to be removed from application of the personal holding company tax under this exception. The bill adds after the term "small loan business" the term "(consumer finance business)". This is intended to make it clear that this exception is not limited to small loans in the narrow sense, but rather is intended to encompass consumer finance loans generally. Moreover, the reference to consumer finance business will bring this exception more directly in accord with the terminology now used by a number of State legislatures which have retitled the applicable provisions governing these institutions as "consumer finance laws" as a means of providing a more descriptive title for the type of business involved.

The provisions described above liberalize the exception provided for lending companies engaged in the small loan or consumer finance business. However, the House bill has also added a provision which is restrictive in its application. It has provided that these lending companies must not only be authorized to engage in the small loan or consumer finance business but also must be "actively and regularly engaged in" such business. This gives assurance that such companies cannot be used indirectly as holders of passive investment income or as "incorporated pocketbooks."

Your committee believes that the changes made by this bill are desirable because they conform the exception in existing law to changes which have occurred in the industry since the passage by Congress of this exception in 1950. They also will enable the smaller, closely held companies to compete on even terms with the larger publicly owned chain organizations.

DEPARTMENTAL REPORT

The bill was amended by the House Ways and Means Committee so as to incorporate certain changes recommended by the Treasury Department. Thus, the Treasury Department has no objections to the enactment of H.R. 8824 as indicated in the following report:

TREASURY DEPARTMENT.

Washington, July 23, 1962.

HON. HARRY F. BYRD,
Chairman, Committee on Finance,
U.S. Senate, Washington, D.C.

DEAR MR. CHAIRMAN: This is in reference to H.R. 8824, now pending before your committee, to modify the application of the personal holding company tax in the case of consumer finance companies.

The bill would amend section 542(c)(7) of the Internal Revenue Code of 1954. That section exempts certain lending companies from taxation as personal holding companies.

To qualify under section 542(c) (7) the company must be (1) authorized to engage in the small loan business under State statutes providing for the direct regulation of such businesses; (2) 80 percent of the gross income must be from loans; (3) made to individuals; (4) maturing in not more than 36 months; (5) the interest, discount, and other authorized charges from which do not for any loan exceed 3 percent per month not payable in advance and computed only on unpaid balances. In addition, (6) at least 60 percent of the gross income must be lawful interest, discount, or other authorized charges received from individuals each of whose indebtedness did not at any time during the taxable year exceed in principal amount the limit prescribed for small loans by the State law (or if there is no such limit, \$500); (7) deductions under section 162, other than compensation for personal services rendered by shareholders, must constitute 15 percent or more of gross income; (8) loans to a person by, or for, whom 10 percent or more in value of the small loan companies' outstanding stock is held must not at any time during the taxable year exceed \$5,000.

The proposed bill changes qualifications (1), (2), and (6) and deletes qualifications (4) and (5). The requirement that 80 percent of gross income be interest, discount, or other authorized charges from loans is modified to require that 80 percent of gross income consist of either or both of two categories of income; the first category consists of the type of income presently required and the second category consists of lawful income received from 80-percent-owned domestic subsidiaries which are themselves excepted under paragraph (6), (8), or (9) of section 542(c). The authorization to engage in the "small loan business" is clarified to indicate that "small loan business" includes "consumer finance business" and the limit of \$500 mentioned under qualification (6) is raised to \$1,500.

Sections 541 through 547 of the Internal Revenue Code of 1954 set forth a series of rules for the taxation of so-called personal holding companies. The purpose of these provisions is to prevent taxpayers from using a corporation in order to shield their investment income from the high individual rates of taxation. Speaking generally, a corporation is a personal holding company if five, or fewer, individuals control as much as 50 percent of its stock and if 80 percent of its income is "personal holding company income." Personal holding company income is defined in section 543 to include, among other things, dividends and interest. Current earnings of a personal holding company which have not been distributed as dividends are subject, in addition to the usual corporate tax, to a surtax of 75 percent of undistributed income not in excess of \$2,000 and 85 percent of the undistributed income in excess of that amount.

Section 542(c) enumerates corporations, 80 percent or more of whose income would normally be personal holding company income, which have been exempted from taxation as personal holding companies because they are operating companies. Subsections (6) through (9) have to do with companies in various phases of the lending business. These provisions treat similar problems and amendment of any one of them can be assessed only if comparison is made with the others. The pertinent sections for the purposes of assessing H.R. 8824 are subsections (6), (7), and (9) (C).

Subsection (6) exempts licensed personal finance companies if 80 percent of their gross income is lawful interest received from loans made to individuals in accordance with State law, and if at least 60 percent of their gross income is attributable to interest from loans made to individuals under State small loan laws. The interest on these latter loans must be "not payable in advance or compounded and computed only on unpaid balances." Finally, subsection (6) contains certain restrictions on loans to stockholders.

Finance companies which are "actively and regularly engaged in the business" are exempted from taxation as personal holding companies under certain conditions prescribed by section 542(c) (9). As far as here relevant, a finance company is exempted under section 542(c) (9) (C) if at least 80 percent of its gross income either is derived from a finance business carried on in accordance with State law or is not personal holding company income, and if 60 percent of gross income comes from specified transactions, one of which is loans, secured by personal property, to individuals in an amount greater than the small loan limit but less than \$5,000. In addition, to qualify under subsection (9) the deductions allowable under section 162, other than compensation to shareholders or members of a shareholder's family, must constitute an amount equal to at least 15 percent of gross income. Finally, there is a restriction concerning loans to shareholders.

The complex form of section 542(c) (7) has its origins in the attempt to make that section parallel the small loan laws of the States at the time of its enactment. To some extent also the statute may have been more tightly drawn than section 542(c) (6) as an indication of congressional disapproval of the precomputed and dollar-add-on methods of interest computation. Section 542(c) (6) of the Internal Revenue Code of 1954 as originally added to the code by the Revenue Act of 1938 was intended to grant exemption from personal holding company taxation to companies which operated under statutes similar to the uniform small loan law drafted by the Russell Sage Foundation.¹¹ Under this statute interest could not be payable in advance or compounded, and could be computed only on unpaid balances. Section 542(c) (7) of the Internal Revenue Code of 1954 was added to the code in 1950 at the request of those who lived in States which allowed charges to be determined by the dollar-add-on or precomputed interest method. Presently there are 23 States which allow interest charges to be computed in this manner.

The Treasury Department is deeply concerned with the problems presented by small loans, but believes that the limitations presently contained in section 542(c) (7) are ineffectual regulatory instruments in view of the changes in State law since enactment of those limitations in 1950.

The 3-percent-per-month rule is the most important of those prescribed by section 542(c) (7). In the first place, this rule applies only to those finance companies of which five or less stockholders own at least 50 percent of the stock. Since only 80 percent of gross income need meet the 3-percent-per-month test even these companies can charge above this amount on some of their loans. Of course, there is no Federal limit on interest if it is computed under section 542(c) (6). Although it has been impossible to completely assess the effect of section 542(c) (7), the fact that its rules apply only to part of the income of part of the industry part of the time makes this tax statute seem an inadequate regulatory instrument. Figures given to this Department by the Federal Reserve Board and by industry representatives indicate that the restrictions contained in section 542(c) (7) apply to 10 percent of outstanding small loans.¹²

It has been the Department's consistent position that taxpayers in like situations should be subject to the same rules and rates of taxation. The effectiveness of our self-assessing system to a large extent depends upon each taxpayer's willing compliance with laws which are regarded as rational and fair. Since section 542(c) (7) selects only a portion of the small loan industry for regulation, and since that portion is similar to other businesses not subject to these rules, the Department has no objection to the removal of the 3-percent-a-month and 36-month regulatory limitations.

The limit of \$500 which applies when the State small loan law has no limit would be amended by the bill to \$1,500. We have been informed that only California and Missouri would be affected by this amendment. The remaining States have raised their maximum dollar limitations from the original limit of \$300 contained in the Russell-Sage law. For example, Oregon allows small loans up to \$1,500. The Department has no objection to the proposed amendment.

It is estimated that enactment of H.R. 8824 would have no significance revenue-wise.

Accordingly, the Department is not opposed to enactment of H.R. 8824.

The Bureau of the Budget has advised the Treasury Department that there is no objection from the standpoint of the administration's program to the presentation of this report.

Sincerely yours,

STANLEY S. SURREY,
Assistant Secretary.

* * * * *

¹¹ Robinson & Nugent, "Regulation of the Small Loan Business" (Russell Sage Foundation, 1935).

¹² Companies with outstanding loans over \$25 million account for 69 percent of outstanding loans. Another 11 percent of outstanding loans have been made by companies with total outstanding loans of \$5 to \$25 million. The remaining 20 percent of outstanding loans come from companies whose total outstanding loans amount to less than \$5 million. Although the Department does not have precise figures as to the stock distribution of these companies, it is the Department's estimate, concurred in by the Federal Reserve Board and industry economists, that personal holding company stock ownership is found only among companies with total outstandings of less than \$5 million. Of these it is estimated that only one-half are subject to the personal-holding-company provisions.

SUPPLEMENTARY STATEMENT BY SENATOR PAUL DOUGLAS

No hearings were held on this bill either in the House or in the Senate. It is impossible therefore to determine whether or not it is in the public interest. I think this is poor procedure and that therefore this bill probably needs more thorough scrutiny.

We have drifted into loose procedures on these bills rushed through at the end of the session. They have been going through Congress with little examination and this has sometimes had unfortunate results. I believe our Senate procedures should be revised to provide for a more thorough examination of their possible merits and demerits. In the meantime the Senate should in my opinion go slowly.

SUPPLEMENTARY STATEMENT BY SENATOR HARRY F. BYRD, CHAIRMAN

The Senate Finance Committee, in formal meeting September 10, 1962, ordered to be reported 11 bills with recommendations that they be considered favorably by the Senate. This bill was among those ordered to be reported at that time.

As a member of the committee, the Senator from Illinois, Mr. Douglas, voted against committee approval of all these bills except one. He voted affirmatively to report only H.R. 12529 which affected his State.

He voted against reporting all other bills before the committee on that date with the statement that he was voting in the negative because public hearings had not been held.

In his supplementary statements on these bills the Senator from Illinois creates the impression—intentional or not—that the Finance Committee is not giving proper and adequate attention to legislation reported to the Senate.

With respect to all of these bills he apparently tries to leave the inference that the committee has drifted into a loose procedure of rushing bills through at the end of the session which he claims produces unfortunate results.

On behalf of the majority of the Senate Finance Committee I want to make it clear to the Senate that, in the case of the bills ordered to be reported by the committee on September 10, 1962:

- (1) Each of the bills has been passed by the House of Representatives;
- (2) No request was made for Senate hearings on these bills, and this includes the bill for which the Senator from Illinois voted in the affirmative;
- (3) Each of the bills ordered to be reported, except H.R. 12529 in which the Senator from Illinois is interested, was formally approved by the executive agencies having jurisdiction over their administration;
- (4) The contents of each bill were fully outlined by members of the committee staff, and discussed by members of the committee; and
- (5) When the committee voted, members had full knowledge of the purpose and effects of the proposed legislation.

Momentous matters are referred to the Senate Committee on Finance, including legislation with respect to taxation, tariffs and customs, social security, veterans, and so forth, and the committee has always been meticulous in exploring the effects of all legislation it recommends.

The current tax bill—H.R. 10650—now in conference is a case in point. More than 200 witnesses were heard on this bill, and the legislation was under committee consideration more than 4 months.

The Senator from Virginia cannot recall that the Senate has rejected a bill recommended by the Senate Finance Committee. It suffices to say that when the need for hearings is indicated, the committee will hold them.

The procedure followed by the committee in consideration of the agenda for the meeting of September 10 involved no departure from committee practice over the 30 years during which I have been a member.

The committee always holds hearings when they are necessary for the enlightenment of the membership, and the procedure of the past, so far as the chairman is concerned, will be continued in the future.

[H.R. 6682] ¹³

FOWLING NETS

[Senate Report No. 1607, Eighty-seventh Congress, Second Session, Calendar No. 1567]

[June 21, 1962]

Mr. BYRD of Virginia, from the Committee on Finance, submitted the following report to accompany H.R. 6682.

The Committee on Finance, to whom was referred the bill (H.R. 6682) to provide for the exemption of fowling nets from duty, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

I. PURPOSE

The purpose of H.R. 6682 is to provide for the duty-free entry of nets or sections or parts of nets, finished or unfinished, of whatever material or materials composed, for use in taking wild birds under licenses issued by an appropriate Federal or State governmental authority.

Your committee has added two provisions to this bill. One of these provides for the period from October 1, 1952, through August 31, 1955, that under certain conditions television tubes could be purchased tax-free for incorporation in television tuners and similar nontaxable articles which subsequently are sold for use in taxable television sets. Second, your committee's bill provides that local (usually cooperative) advertising which may be excluded from the sales price to which the various manufacturers' excise tax rates apply may include advertising in magazines and on outdoor advertising signs or posters.

II. GENERAL STATEMENT

H.R. 6682 would transfer from the dutiable to the free list of the Tariff Act of 1930 articles which are known as fowling nets. Fowling nets are used by organizations and persons engaged in banding of birds. The nets are used to temporarily capture birds and are designed to facilitate quick banding and release of the birds. Birdbanding activities, which are carried out primarily under the coordination and sponsorship of the U.S. Department of the Interior, assist interested parties in learning more about bird distribution, population, and migration and their determinants. For example, banding of blackbirds, which in some areas are exceedingly detrimental to cereal crops, has resulted in establishing the area from which the harmful birds originate, which in turn makes it now possible to apply control measures without indiscriminate destruction of blackbirds.

Birdbanding activities are primarily carried on by volunteer workers who receive no pay for their activities. The records obtained as a result of these activities are turned over to the U.S. Government and are used in research. The Government supplies the birdbands and the record forms. Each volunteer bander supplies his own traps or nets, bait, and other equipment necessary for him to perform the banding function.

The Department of Commerce has reported that it knows of no domestic production of fowling nets. The Departments of State, Treasury, Interior, and Commerce have reported favorably on the bill and no opposition has been made known.

III. COMMITTEE AMENDMENTS

A. Section 2. *Excise tax on certain television tubes*

Under present law television parts, including tubes, may be sold free of tax for use in the manufacture of any other article. This rule was enacted by Public Law 367, 84th Congress, effective September 1, 1955. Prior to that time, such items could be sold tax free for use in the production only of articles subject to manufacturers' excise tax.

The problem with which this amendment is concerned is liability for manufacturers' excise tax on television tubes purchased for insertion in television tuners in the period October 1, 1952, to August 31, 1955. In an unpublished ruling the Service had held that television tuners were nontaxable articles on

¹³ Public Law 87-770, page 86, this Bulletin.

the grounds that they were not "chassis" or any of the other enumerated taxable television components. The Internal Revenue Service so held despite the fact that in a published ruling it had previously held radio tuners to be taxable as "chassis." Some television tuner manufacturers who had not received the private rulings relied on the published ruling and assumed that television tuners were taxable as "chassis" in the same manner as radio tuners and, therefore, that tubes could be purchased tax free for use in their television tuners. Accordingly, they secured exemption certificates from the Internal Revenue Service with respect to their purchases of tubes.

In another unpublished ruling, apparently issued in 1954, the Internal Revenue Service held that tubes purchased by a manufacturer for television tuners lost their identity when inserted in a tuner and that, therefore, when a television set manufacturer purchased a television tuner it represented a nontaxed item even though it contained tubes which had been taxed. This prevented television set manufacturers from claiming a credit when they purchased a television tuner with respect to the tubes contained therein when the television set itself was taxed at the time of its sale. This meant that there was the imposition of a double tax with respect to these television tubes—once when the tube itself was sold to the television tuner manufacturer and again when the television set containing the tuner and tubes was sold by the set manufacturer.

On the basis of these unpublished rulings, of which taxpayers generally cannot be assumed to have knowledge, to the effect that television tuners were not taxable items and that tubes when incorporated in such tuners, even though themselves taxed, were considered to be part of a nontaxed item, the Internal Revenue Service now seeks to collect tax from the television tuner manufacturers with respect to the tubes. Your committee believes that this is inappropriate, both because this results in the imposition of a double tax with respect to these tubes, once with respect to the tubes themselves and a second time with respect to the set including the tuner and the tubes, and also because television tuner manufacturers generally could not be expected to know that the Service considered television tuners to be a nontaxable item. Actually, it was not until 1958 that the Internal Revenue Service, long after the law had been changed by Public Law 367, published a ruling specifying that television tuners were nontaxable articles because they did not perform a "detection or demodulation function" which radio tuners did perform (Rev. Rul. 58-27, 1958-1 CB 414).

This amendment provides, for the period October 1, 1952, through August 31, 1955 (Public Law 367, 84th Cong., became effective September 1, 1955), that articles such as television tuners containing taxable tubes where the article was primarily adapted for use as a component of a television set, was not itself a taxable radio or television component or chassis and was sold for use to a television set manufacturer, the article is to be treated as having been taxed under the tax on radio and television sets, components, etc. By treating the tuner as a taxable component part of a television set, your committee's amendment validates the tax-free purchase of television tubes by the tuner manufacturer. Since the television set manufacturer paid the full tax on its sets at the time of their sale, one full tax will be collected with respect to these tubes. This precludes double taxation and the unjust enrichment of the Government in such cases.

B. Section 3. Local advertising in the form of magazine and outdoor advertising

Under existing law in determining the manufacturers' sales price for the various excise taxes, there is excluded from the base to which these excise tax rates apply certain amounts where the manufacturer makes a separate charge for local or cooperative advertising of the taxable article or reimburses the retailer or other distributor for part of or all of his expenses for local advertising of the taxable articles. Under present law the amount so excluded may not exceed 5 percent of the sales price of the article (excluding the local advertising charges), must be separately stated when the article is sold, and must be intended as a reimbursement of the retailer or other distributor for costs incurred for local advertising. Under existing law the local advertising expenses which may be excluded must meet three tests. First, it must be initiated or obtained by the retailer or other distributor. Second, the advertising must name the article in question and state the location at which it may be purchased at retail. Third, the advertising must consist of a broadcast over a radio station or television station or appear in a newspaper.

Your committee's amendment is concerned with this third feature of the definition of local advertising; namely, types of advertising eligible for this exclusion

from the sales price. The attention of your committee has been directed to the fact that restricting eligible local advertising to radio or television broadcasts or newspaper advertisements discriminates against other forms of advertising frequently carried on jointly by a manufacturer and the retailer or other distributor. Therefore, your committee's amendment expands the media qualifying for the cooperative advertising exclusion to also include advertisements in magazines and advertising which is displayed by means of an outdoor advertising sign or poster. This latter category includes advertising on billboards, whether they are placed on land or affixed to buildings. The other two requirements within the definition of local advertising (i.e., initiation or obtaining by the retailer or other distributor, and the requirement that the article be named and the location at which it may be purchased at retail specified) will apply to magazine and outdoor advertising in the same manner and to the same extent as they presently apply to advertising by the other media. Similarly, the limitation to 5 percent, the requirement of the separate charge and the intention to reimburse the retailer or other distributor for the local advertising apply to the new forms of advertising qualifying to the same extent as the forms of advertising qualifying under existing law.

This amendment is to apply with respect to articles sold on or after the first day of the first calendar quarter beginning more than 20 days after the enactment of this provision.

FOWLING NETS—EXCISE TAX ON CERTAIN TELEVISION TUBES—LOCAL ADVERTISING

[Conference Report No. 2412, Eighty-seventh Congress, Second Session]

[September 18, 1962]

MR. MILES, from the committee of conference, submitted the following conference report to accompany H.R. 6682.

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 6682) to provide for the exemption of fowling nets from duty, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendment numbered 1.

Amendment Numbered 2.

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment as follows:

Page 2, line 15, of the Senate engrossed amendments, strike out "Sec. 3." and insert *Sec. 2.*; and the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the bill and agree to the same.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 6682) to provide for the exemption of fowling nets from duty, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

Amendment No. 1: This amendment added a new section to the bill relating to the application of the manufacturers excise tax on radio and television components to certain tubes sold during the period beginning October 1, 1952, and ending August 31, 1955. The effect of the amendment would be to exempt the tubes from tax if sold to the manufacturer or producer of an article which (1) was primarily adapted for use as a component part of a television receiving set, (2) was not a taxable chassis or radio and television component, and (3) was sold to a manufacturer or producer of taxable television receiving sets. The Senate recedes.

Amendment No. 2: This amendment added a new section to the bill relating to the definition of the term "local advertising" for purposes of determining the amount excluded from the selling price on which the manufacturers excise tax is based. Under existing law, the term "local advertising" means only advertising which—

- (A) is initiated or obtained by the purchaser or any subsequent vendee,
- (B) names the article for which the price is determinable under this section and states the location at which such article may be purchased at retail, and
- (C) is broadcast over a radio station or television station or appears in a newspaper.

Under the Senate amendment, the term includes advertising which appears in a magazine or is displayed by means of an outdoor advertising sign or poster as well as advertising which appears in a newspaper or is broadcast over a radio station or television station. The House recedes with a clerical amendment.

The House recedes from its disagreement to the amendment of the Senate to the title of the bill.

CECIL R. KING,
THOS. J. O'BRIEN,
NOAH MASON,
JOHN W. BYRNES,

Managers on the Part of the House.

[H.R. 12180] ¹⁵

HOUSEHOLD EFFECTS—MONOFILAMENT GILL FISH NETS—ACCIDENT AND HEALTH INSURANCE CONTRACT PREMIUMS

[Senate Report No. 1720, Eighty-seventh Congress, Second Session, Calendar No. 1679]

[July 11, 1962]

Mr. BYRD of Virginia, from the Committee on Finance, submitted the following report to accompany H.R. 12180.

The Committee on Finance, to whom was referred the bill (H.R. 12180) to extend for a temporary period the existing provisions of the law relating to the free importation of personal and household effects brought into the United States under Government orders, having considered the same, report favorably thereon with amendments and recommend that the bill, as amended, do pass.

¹⁵ Public Law 87-790, page 88, this Bulletin.

PURPOSE OF THE BILL

* * * * *

2. Accident and health insurance contract premiums

Under present law life insurance companies are entitled to a special deduction of 2 percent of premiums attributable to group and accident and health contracts and group life insurance contracts for purposes of the phase 2 tax on underwriting income. The committee has modified present law to provide that individual accident and health contracts written by life insurance companies also will qualify for the special 2-percent deduction unless they are of the nonparticipating type and are issued or renewed for periods of 5 years or more, in which case present law already allows a deduction of 10 percent of the increase in reserves from nonparticipating contracts or, if greater, 3 percent of premiums attributable to nonparticipating contracts (other than group).

This amendment will be of special benefit to smaller life insurance companies which generally do not write substantial group accident and health contracts but which are active in the individual accident and health insurance market, where risks frequently are greater.

Your committee has also extended this special 2-percent deduction in computing underwriting income to casualty insurance companies writing accident and health contracts. This amendment will eliminate whatever advantages the special deduction has given life insurance companies in selling this type of policy in competition with casualty companies. This amendment does not apply to mutual casualty insurance companies since under present law they are not taxable on their underwriting income and your committee does not believe their investment income should be reduced by a deduction clearly associated with their underwriting accounts.

This amendment will apply to taxable years beginning after December 31, 1962.

This amendment is a modified version of the bill, S. 397, on which the Committee on Finance held public hearings on July 6, 1961. It is identical to a committee-approved amendment to the bill, H.R. 4317, which was subsequently passed by the Senate on September 1, 1961, but was lost in conference.

HOUSEHOLD EFFECTS—MONOFILAMENT GILL FISH NETS—ACCIDENT AND HEALTH INSURANCE CON- TRACT PREMIUMS

[Conference Report No. 2413, Eighty-seventh Congress, Second Session]

[September 18, 1962]

Mr. MILLS, from the committee of conference, submitted the following Conference Report to accompany H.R. 12180.

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 12180) to extend for a temporary period the existing provisions of law relating to the free importation of personal and household effects brought into the United States under Government orders, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

Amendment numbered 1:

That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment as follows:

On page 1, line 5, of the Senate engrossed amendments, strike out "1828" and insert 1829; and the Senate agree to the same.

¹⁶ Public Law 87-790, page 88, this Bulletin.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SEC. 3. (a) *Section 809(d)(6) of the Internal Revenue Code of 1954 (relating to deduction for group life, accident, and health insurance) is amended—*

(1) by striking out "group life insurance contracts and group accident and health insurance contracts" and inserting in lieu thereof "accident and health insurance contracts (other than those to which paragraph (5) applies) and group life insurance contracts"; and

(2) by striking out the heading and inserting in lieu thereof

"(6) CERTAIN ACCIDENT AND HEALTH INSURANCE AND GROUP LIFE INSURANCE.—"

(b) Section 815(c)(2)(C) of such Code (relating to policyholders surplus account) is amended by striking out "group life and group accident and health insurance contracts" and inserting in lieu thereof "accident and health insurance and group life insurance contracts".

(c) The amendments made by this section shall apply to taxable years beginning after December 31, 1962.

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the bill and agree to the same.

W. D. MILLS,
CECIL R. KING,
THOS. J. O'BRIEN,
JOHN W. BYRNES,
HOWARD H. BAKER,

Managers on the Part of the House.

HARRY F. BYRD,
ROBT. S. KERR,
RUSSELL LONG,

By R. S. K.

JOHN J. WILLIAMS,
FRANK CARLSON,

Managers on the Part of the Senate.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 12180) to extend for a temporary period the existing provisions of law relating to the free importation of personal and household effects brought into the United States under Government orders, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

Amendment No. 1: This amendment adds a new section to the bill to permit duty-free entry of monofilament gill nets for use in fish sampling, under such rules and regulations as the Secretary of the Treasury may prescribe. The amendment is to apply to articles entered or withdrawn from warehouse for consumption on and after the day following the date of the enactment of the bill. The House recedes with a clerical amendment.

Amendment No. 2: This amendment adds a new section to the bill relating to accident and health insurance contract premiums. Under existing law, in computing gain or loss from operations, life insurance companies are entitled to a special deduction of 2 percent of the premiums for the taxable year attributable to group accident and health insurance contracts. Senate amendment No. 2 extended the deduction to premiums attributable to individual accident and health insurance contracts (other than individual nonparticipating contracts which are issued or renewed for periods of 5 years or more or which are non-cancelable contracts for which there are life insurance reserves). The amendment also provided a special 2-percent deduction with respect to both group and individual accident and health insurance contracts for computing underwriting income of casualty insurance companies.

Under the conference agreement, the House recedes with an amendment which (in effect) retains the provisions of the Senate amendment relating to life insurance companies and omits the provisions relating to casualty insurance companies. The extension of the 2-percent deduction to the individual accident and health contracts of life insurance companies was agreed to by the committee of conference in recognition of the competitive situation existing in the case of those companies not in a position to write group contracts. It recognizes, however, that the problem of how broad the application of this deduction should be is a matter which requires further review and consideration. On the one hand, questions have been raised as to whether a deduction for accident and health contracts is desirable in the case of life insurance companies, whether the contracts are group contracts or individual contracts. On the other hand, it is recognized that if this deduction is retained in the case of life insurance companies, the Congress may want to consider the desirability of making a similar allowance in the case of casualty insurance companies. The committee of conference has requested the Treasury Department to report to the Ways and Means and Finance Committees on these problems at the next session of the Congress.

The House recedes from its disagreement to the amendment of the Senate to the title of the bill.

W. D. MILLS,
 CECIL R. KING,
 THOS. J. O'BRIEN,
 JOHN W. BYRNES,
 HOWARD H. BAKER,

Managers on the Part of the House.

[H.R. 10] ¹⁷
SELF-EMPLOYED INDIVIDUALS TAX RETIREMENT
ACT OF 1961 [1962] ¹⁸

[House of Representatives Report No. 378, Eighty-seventh Congress, First Session, Union Calendar
No. 139]

[May 9, 1961]

MR. KEOGH, from the Committee on Ways and Means, submitted the following report to accompany H.R. 10.

The Committee on Ways and Means, to whom was referred the bill (H.R. 10) to encourage the establishment of voluntary pension plans by self-employed individuals, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

The committee amendments are technical amendments which appear in the bill, as reported, in line type and in italic type.

I. SUMMARY OF BILL

Your committee's bill is designed to encourage the establishment of voluntary retirement plans by self-employed persons by extending to such plans, and to self-employed individuals covered thereunder, many of the favorable tax benefits present law now provides in the case of qualified retirement plans established by employers for their employees. To accomplish this purpose, self-employed persons are treated for retirement plan purposes as the employers of themselves. As employers, as with other employers, they are permitted to deduct contributions (within specified limits) made to pension or profit-sharing plans for the benefit of themselves, and such other employees as may be covered under the plan. As employees, as with other employees, they are not taxed on such contributions made for their benefit, or the income thereon, until they receive the funds upon retirement or otherwise. Benefits for the self-employed individual may not, under the bill, begin before age 59½ (except in case of early disability or death) nor later than age 70½. The retirement income

¹⁷ Public Law 87-792, page 89, this Bulletin.

¹⁸ Enacted, October 10, 1962, as the "Self-Employed Individuals Tax Retirement Act of 1962."

credit will apply to retirement benefits distributed to self-employed individuals.

By treating self-employed individuals as employees under retirement plans there are brought into play (although with material modification) most of the statutory and administrative rules presently applicable to such plans. The bill establishes special rules to govern retirement plans which cover self-employed individuals who own more than a 10-percent interest in their business (designated in the bill as owner-employees). Self-employed individuals who do not own more than a 10-percent interest in the business are treated in general as are all other employees.

Generally, a self-employed person who owns more than a 10-percent interest in his business is allowed under this bill to contribute to a retirement plan for himself and, if he has three or fewer employees, to deduct from his gross income, up to 10 percent of his self-employment earnings or \$2,500, whichever is smaller, each year. If he has more than three employees the ratio of contributions to his self-employment earnings must not exceed the ratio of contributions to wages of any of his employees; otherwise, there is no limitation. However, contributions for such employees must be nonforfeitable at the time they are made. Also, if he has more than three employees the plan may not exclude any employee (other than part-time, seasonal, and temporary employees) who has at least 3 years of service.

The retirement fund which this bill allows self-employed persons to establish must be lodged with a bank as trustee (or as custodian if contributions are invested in stock of a regulated investment company); it may be invested in annuities with an insurance company or in face amount certificates; or it may be placed in a new series of U.S. Government bonds described in the bill. These new bonds will be nontransferable, nonredeemable before retirement, and issued only in the names of individuals. They are intended to provide a convenient and simple form of investment for retirement funds.

More than 7 million self-employed persons who pay income taxes can establish retirement plans under this bill. Because self-employed persons generally have only a limited number of employees, their retirement plans will ordinarily be much smaller in scope than most of the corporate plans already in existence. These new small retirement plans would, if present law rules were not supplemented, also offer somewhat greater opportunities for abuse than do large corporate plans. For this reason, tighter rules for these retirement plans are believed to be necessary.

II. REASONS FOR THE BILL

The primary reason for the bill is to give self-employed persons access to retirement plans on a reasonably similar basis to that accorded corporate stockholder employees. It thus corrects a discrimination in present law under which self-employed individuals and partners are prevented from participating in retirement plans established for the benefit of their employees although owner-managers of corporations may do so.

In 1959 the Treasury Department recognized that present law did not give self-employed persons tax treatment for their retirement savings comparable to that accorded to employees covered by em-

ployer-financed pension plans. In 1960 the Treasury Department submitted an approach to the retirement problem of self-employed persons which was different from earlier legislative proposals. In effect the approach submitted by the Treasury Department would have granted self-employed individuals tax treatment comparable to that received by employees now covered by qualified pension plans by permitting them to participate in pension plans in much the same manner as employees. This approach, however, would have imposed additional restrictions on the participation of self-employed persons in qualified pension plans and would have imposed similar restrictions on the participation of corporate-owner managers in such plans. To the extent that this bill, as approved by your committee, treats self-employed individuals as employees for the purpose of permitting them to participate in qualified pension plans it adopts the proposal that had been submitted by the Treasury. In view of the revenue loss involved, the omission of other parts of the previously submitted Treasury approach, and the relationship to the general aspects of tax reform, the present Treasury Department has expressed the view that this problem should be considered as part of next year's broad-based tax reform.

The bill seeks to encourage self-employed persons to establish voluntary plans in order to make some provision for their own retirement. However, if the self-employed person has more than three employees, the bill requires provision for the retirement needs of each of them who has more than 3 years' service, if the self-employed person is to make deductible contributions on his own behalf. Moreover, inasmuch as a self-employed individual always has a vested right to contributions he makes for himself, your committee believes it is only fair to require that employees be granted similar vested rights. Thus, if there are more than three employees, contributions for them must be fully vested at the time they are made.

Your committee has provided these additional requirements in the case of plans covering self-employed persons with more than three employees because such plans more closely resemble existing pension plans than do those which cover a self-employed person with three or fewer employees. In the latter case, it is not uncommon for employees to leave the employ of self-employed persons after only a short period of service. For example, in many cases receptionists, stenographers, and other employees often plan to work for only a few years, after which they may marry and leave their employment. It would be difficult both from the self-employed person's standpoint and from the standpoint of the Internal Revenue Service to oversee the operation of countless small plans covering long-departed employees whose whereabouts may be unknown. This difficulty is only partially offset by a 3-year service requirement for coverage of employees. Thus, your committee's bill does not require a self-employed person with three or fewer employees to establish a pension plan covering them. On the other hand, the bill does not discourage or prevent such a self-employed individual from including his employees under a pension plan if he desires to do so. To the contrary, your committee believes many a self-employed person with three or fewer employees would desire to cover his employees under a pension plan if he could make deductible contributions for himself. In this respect,

your committee's bill should encourage the establishment of such plans, thus broadening the scope of employee pension plan coverage.

The bill allows contributions to retirement plans to be a deduction for income tax purposes at the time these contributions are made, but requires that retirement benefits when received be subject to taxation. The bill thus allows deferment of tax on certain forms of savings set aside for retirement, but limits the amount of these retirement savings of self-employed persons which are so treated. Since the self-employed person is viewed as both an employer and as an employee, this deferral is consistent with present law, under which employers are permitted to deduct contributions to qualified pension plans for their employees, while employees are not required to include in their incomes such contributions, or the income thereon, until they are received as benefits under the plan.

Your committee is of the opinion that extending the coverage of individuals under voluntary retirement plans is in the public interest, and that self-employed persons should have the opportunity to obtain retirement benefits on substantially the same basis as do corporate owner-managers. The bill will make self-employment somewhat more attractive than at present compared to employment with a corporation, and will thus help to keep small business strong and independent professional practice thriving.

Under the bill there are some differences between rules covering retirement plans which include self-employed individuals and rules covering employee pension plans. These rules are considered necessary because of the unique characteristic of self-employment. Generally, the special rules require that owner-employees having more than three employees give them greater vested rights than they might obtain under the pension plan of a corporation. The special rules in the case of owner-employees with three or fewer employees generally impose rigid restrictions on amounts of contributions which are made tax deductible.

III. PRESENT LAW

Present law accords favorable tax treatment to pension and profit-sharing plans established for the exclusive benefit of employees or their beneficiaries. Employees covered under qualified plans are not taxed currently on contributions made on their behalf to these plans by their employers nor on the income from amounts so contributed. Instead, the employees generally include the benefits from such plans in taxable income only in the year they are received or made available.

The deferment of tax on retirement benefits until ultimate distribution applies whether or not the employee has vested (non-forfeitable) rights in the contributions made on his behalf. Typically, under corporate plans the employee does not have immediate vested rights to all such contributions, although plans vary considerably; they range from immediate vesting to vesting after reaching a certain number of years of service or attaining a specified age, or upon actual retirement.

The income of trusts established to administer qualified pension plans is exempt from income tax. Similarly, the Life Insurance Company Income Tax Act of 1959 granted exemption, fully effective in 1961, to income on insurance reserves established in connection with qualified pension plans. In addition, under present law, em-

ployers are permitted to take tax deductions (within specified limits) for their contributions to qualified plans. The law grants this favored tax treatment only to retirement plans which do not discriminate as to coverage, contributions, or benefits in favor of employees who are stockholders, officers, or supervisors, or employees who are highly compensated.

A qualified retirement plan cannot provide a higher rate of contribution or benefit for higher paid employees than for lower paid employees, or for shareholder employees than for those who are not shareholders. However, the dollar amount of benefits or contributions for the higher paid employees may be larger than for the lower paid employees, provided that such amounts constitute a uniform percentage of the compensation of participants.

Under appropriate circumstances, the private plan may be integrated with the social security system; if thus integrated, the proportion of social security benefits not attributable to the employee's own contributions is taken into consideration in determining whether the benefits paid by the private plan meet the nondiscrimination test. Under the law and administrative rules the benefits of the higher paid employees, after being combined with a designated portion of social security benefits, must not be larger in relation to salary than the similarly combined benefits of lower paid employees.

Under existing law more than 50,000 corporate pension plans have been established. These plans cover nearly 20 million employees and have, at the present time, somewhat more than \$40 billion in assets. Corporations contribute more than \$4 billion per year to qualified retirement plans.

IV. REVENUE EFFECT

The revenue loss under your committee's bill is estimated to range from \$325 to \$358 million in a typical full year of operation. This estimate of revenue loss assumes that not all of the self-employed persons in various groups will establish pension plans, and that only part of the maximum allowable deduction will be taken in many cases. The percentage of maximum allowable deduction assumed to be taken ranges from 15 percent for the group of self-employed individuals with incomes of less than \$3,000 to 66% percent for those with incomes of over \$20,000. Since the provisions of the bill would be applicable to taxable years beginning after December 31, 1961, and since many taxpayers who will ultimately avail themselves of the program will not do so immediately, the revenue loss for fiscal year 1962 is estimated at \$125 million.

V. EFFECTIVE DATE

The provisions of this bill are made applicable to taxable years beginning after December 31, 1961.

VI. GENERAL EXPLANATION OF BILL

A. SELF-EMPLOYED PERSONS AS OWNER-EMPLOYEES

The bill provides a series of special requirements for qualification of retirement plans which cover self-employed individuals (sole proprietors and partners) having more than a 10-percent interest in the business with respect to which the plan is established. Under the bill, such self-employed individuals are characterized as "owner-employees." However, in some situations, the bill imposes restrictions upon all self-employed persons regardless of their percentage of ownership. (For example, denial of capital gains treatment on lump-sum distribution and the denial of the estate and gift tax exclusions.) Partners who do not own more than 10 percent of their business also are permitted to participate in pension plans, but because they are not owner-employees plans covering them will, in general, be governed by the nondiscriminatory rules of present law, except where the bill imposes additional restrictions upon self-employed individuals generally.

B. SELF-EMPLOYED RETIREMENT PLANS

Subject to limitations, your committee's bill would allow self-employed individuals (including partners) to be covered in qualified retirement plans. This would permit self-employed individuals to secure the benefits of current tax deductions, plus a tax-free buildup of pension fund investments, by establishing a plan which meets the requirements of the Internal Revenue Code. The bill treats plans covering self-employed persons under new rules established for that purpose. If the self-employed person is an owner-employee, the requirements applicable to a plan covering him will depend upon whether he has more than three employees.

Plans covering owner-employees with more than three employees.—In the case of an owner-employee with more than three employees, the plan must provide retirement benefits for all employees (except part-time and seasonal employees) who have more than 3 year's service and contributions for such employees must be vested at the time they are made. Although the present law provides that some employees may be excluded from pension plan coverage on the basis of a "reasonable classification," your committee believes it desirable to require an owner-employee with more than three employees to cover all of his employees except seasonal, temporary, and part-time workers, and full-time employees who have less than 3 years of service. With these exceptions employees must be covered whether they are salaried employees or wage earners, and whether or not they work in different departments or enterprises. Under present law, retirement plans can exclude employees with up to 5 years of service. Moreover, under the bill, as approved by your committee, rules applicable to plans covering an owner-employee with more than three employees will continue to apply, even after the number of employees drops below four. Thus, these rules, once applicable, will be permanent.

Plans covering owner-employees with three or fewer employees.—In the case of owner-employees with three or fewer employees, the bill does not require coverage of those employees. However, those employees may, as under existing law, be covered under a qualified pension plan if the owner-employee desires to provide retirement benefits for them. If they are covered, the plan, or the portion of the plan, covering em-

ployees must not discriminate between those employees, and there must be no discrimination as between owner-employees. But as between employees, on the one hand, and owner-employees, on the other, the nondiscrimination rules will not apply.

It is not required that contributions on behalf of employees of such an owner-employee be vested when they are made, but under a new requirement of the bill, made applicable to retirement plans generally, contributions or benefits for employees must be vested upon termination of the plan or upon complete discontinuance of contributions under the plan.

C. SELF-EMPLOYMENT EARNINGS

The measuring rod for deductible contributions for self-employed persons is "self-employment earnings." Under your committee's bill, a proprietor or partner may be covered under a qualified retirement plan if he has such earnings. For purposes of this bill such earnings are defined generally to mean net earnings from self-employment as in section 1402(a); that is, the net income "derived by an individual from any trade or business carried on" by him or by the partnership of which he is a member. This definition includes persons who have net earnings from self-employment even though they do not pay a self-employment tax, for example, because they also have wages (as employees of another business) of at least \$4,800. Such a person is permitted to participate in an owner-employee plan even though contributions also are being made for him under a qualified plan of his employer. Moreover, the bill also permits doctors and ministers, as well as certain persons who work in their own homes, and commission salesmen (other than full-time life insurance salesmen who are treated under present law as employees for pension purposes) to participate even though they do not have net earnings from self-employment within the meaning of the Internal Revenue Code.

D. LIMITATIONS ON DEDUCTIBLE CONTRIBUTIONS FOR SELF-EMPLOYED

The bill restricts the amount of deductible contributions which may be made by or for an owner-employee covered by a plan.

Owner-employee with more than three employees.—If the owner-employee has more than three employees, in order for him to make any contribution for his own retirement needs he must cover all his employees who have more than 3 years' service. Moreover, he must give each of them nonforfeitable rights to contributions made for them at the time such contributions are made. Having made these provisions for his employees, such an owner-employee under the bill is permitted to contribute and deduct for himself up to the same proportion of his covered income as the plan requires to be contributed for employees. Contributions for the owner-employee with more than three employees are not restricted by the 10-percent \$2,500 limitation on deductible contributions for an owner-employee with more than three employees. For application of this limitation to a plan coordinated with social security, see section F.

A real estate broker with four full-time employees earns \$30,000 in a certain year from commission selling. All employees have more than 3 years' service. Two of the employees earn \$4,000 each; the other two earn \$10,000 each. The plan calls for nonforfeitable con-

tributions for each employee who has more than 3 years' service of 20 percent of his earnings. Thus, for his employees, the owner-employee would contribute, and deduct, \$5,600 (20 percent of \$28,000). And, for himself, he would be permitted to contribute, and deduct, the same proportion of his self-employment earnings, \$6,000 (20 percent of \$30,000).

Owner-employee with three or fewer employees.—If an owner-employee has three or fewer employees, he may contribute to a qualified pension plan and deduct up to 10 percent of his self-employment earnings, or \$2,500, whichever is the lesser. He may provide pension plan coverage for his employees under the nondiscriminatory rules of existing law, if he so desires. If he covers his employees in a pension plan it is not required that contributions for himself be related to contributions for his employees, but as between the employees contributions and benefits must be nondiscriminatory.

The following examples illustrate the application of the limitations of the bill on deductible contributions which may be made by a self-employed individual with three or fewer employees.

Example 1: A lawyer has self-employment earnings of \$30,000. He has no employees. He may contribute, and deduct, \$2,500 (the lesser of \$2,500 or 10 percent of \$30,000).

Example 2: A physician, whose self-employment earnings amount to \$25,000, has three employees, each of whom he pays \$5,000. He establishes a retirement plan covering both himself and his employees. The plan calls for contributions of 10 percent of self-employment earnings for him and 8 percent of salary for the employees. Contributions for the employees are forfeitable at the time they are made. The plan is a qualified plan under the bill and the amount deductible is \$3,700 (\$2,500 for himself (10 percent of \$25,000) and \$1,200 for his employees (3 times \$5,000 times 8 percent)).

E. VESTED BENEFITS

The bill, as approved by your committee, adds new requirements to the statute relating to vesting of benefits or contributions made for employees.

Owner-employee with more than three employees.—In the case of owner-employees with more than three employees, contributions for employees with more than 3 years service under a plan must be nonforfeitable at the time they are made. This requirement is made a condition governing the qualification of a plan covering such owner-employees, and unless a provision for vesting is included in the terms of the plan contributions for owner-employees would not be deductible.

Owner-employee with three or fewer employees.—There is no corresponding requirement for vested employee benefits in the case of owner-employees with three or fewer employees. If such owner-employees choose to provide retirement plans for their employees, the plan may provide forfeitable benefits or it may provide for vesting. However, if there is a plan covering employees of such an owner-employee, the bill elsewhere provides (in connection with all retirement plans, including plans provided by corporations) that upon termination or complete discontinuance of contributions under a plan amounts credited to an employee's account must be nonfor-

feitable. This new provision adds to the statute a requirement which has been in the Treasury regulations for many years. Thus, while there is no requirement for immediate vesting, the bill precludes the possibility that contributions for employees which have been deducted for income-tax purposes may revert back to the employer, or owner-employee. This requirement should serve to prevent abuses resulting from termination of plans.

F. INTEGRATION WITH SOCIAL SECURITY

Under your committee's bill, retirement plans covering owner-employees may be integrated, or coordinated with social security under special rules provided by the bill. Under such integration or coordination, the overall cost of a retirement plan might be materially reduced. The present integration rules assume that the employer has paid for that portion of the social security benefit for which the employee himself has not paid.

Owner-employee with more than three employees.—If an owner-employee with more than three employees establishes a retirement plan which meets the prescribed requirements as to coverage and vesting, and if deductible contributions for owner-employees are not more than one-third of the total contributions made under the plan, owner-employees, if they take into account self-employment taxes paid on their own behalf, may also take into account the employer portion of the FICA tax paid on behalf of covered employees. The method of coordinating such pension plan and social security payments under your committee's bill is different from the method permitted by Treasury rulings under the provisions of present law. Under this bill the owner-employee is given credit only for the amount of social security taxes actually paid by him for his employees. The following example illustrates the application of this rule.

A and B, equal partners in a contracting business, have six employees, each of whom has more than 3 years' service. A retirement plan is established under which employees with more than 3 years' service will be given immediate nonforfeitable rights to contributions made on their behalf. The plan calls for contributions of 15 percent of gross salary for covered employees, and of 15 percent of self-employment earnings for owner-employees, with provision for coordinating the plan with social security. Salaries of employees and self-employment earnings of the partners appear in the following schedule, along with other pertinent information.

	Earnings	Total earnings or wages	15 percent of earnings or wages	Total self-employment tax (4½ percent of \$4,800) and FICA tax paid by employer (3 percent of up to \$4,800)	Contribution under integrated plan
2 partners.....	\$7,500	\$15,000	\$2,250	\$432	\$1,818
4 employees.....	16,000	24,000	3,600	576	3,024
1 employee.....	5,000	5,000	750	144	606
1 employee.....	4,000	4,000	600	120	480
Total partners.....		15,000	2,250	432	1,818
Total employees.....		33,000	4,950	840	4,110
Total partners and employees.....		48,000	7,200	1,272	5,928

1 Each.

Thus, since contributions for owner-employees, after coordination with social security (\$1,818), do not exceed one-third of deductible contributions under the plan (\$5,928), social security and self-employment taxes may be taken into account. After coordination, \$5,928 must be contributed under the plan, of which \$1,818 is attributable to owner-employees and \$4,110 is attributable to employees, as shown in the schedule.

Owner-employee with three or fewer employees.—Owner-employees with three or fewer employees are not required by the bill to provide retirement plan coverage for their employees unless they choose to do so. If they provide such a plan for their employees; the plan, or the portion of the plan relating to employees, may be coordinated with social security under the rules of existing law.

G. METHODS OF FUNDING

Trusted plans and employee annuity plans.—As under present law, qualified retirement plans covering self-employed individuals or self-employed individuals and their employees may be funded either through contributions to a trust or by purchase of annuity contracts (including variable annuity contracts) directly from an insurance company. Self-employed individuals establishing such plans for themselves, or for themselves and their employees, could, if they chose to do so, use associations to pool their separate funds for investment purposes.

Custodial accounts.—In addition, your committee's bill permits the use of a custodial account, in lieu of a trust, if its investments are made solely in a regulated investment company which issues only redeemable stock. Although a custodial account may be utilized by a retirement plan, whether or not it includes an owner-employee, it will be particularly beneficial to small owner-employee-type plans because of its lesser costs. Such lesser costs result from the fact that the bank would not be required to assume the duties and responsibilities of a trustee, but would serve only as a mere custodian of amounts contributed under retirement plans.

Face amount certificates.—Your committee has also made it plain that retirement funds may be invested directly in nontransferable face-amount certificates, which would be treated for retirement plan purposes as annuities. Such certificates may presently be purchased by a trustee plan under existing law, but not under nontruster annuity plans. Your committee's bill makes it clear that such certificates may in the future be purchased in the same manner as annuities.

Bond purchase plan.—A completely new form of retirement plan involving direct investment in a new series of Government bonds is authorized by your committee's bill. The principal features of the bond purchase plan are explained in section J of this report.

H. CONTRIBUTORY PLANS

Owner-employee with more than three employees.—Under the bill, contributory retirement plans permitting or requiring contributions by employees, as well as those to which the employer alone makes contributions, may be established by an owner-employee with more than three employees. If employees who are not owner-employees are permitted to make nondeductible contributions to the plan, such an

owner-employee also may make nondeductible contributions on his own behalf up to 10 percent of his self-employment earnings or \$2,500, whichever is the lesser; however, the rate of such contributions must not exceed the rate permitted for employees. Such contributions will not be deductible either by the employee or the owner-employee, but must be made out of income that has already been taxed. The making of such nondeductible contributions are beneficial, however, because the income earned thereon will not be taxed until it is received from the fund, upon retirement or otherwise.

Owner-employee with three or fewer employees.—Owner-employees with three or fewer employees are not permitted to make nondeductible contributions for themselves, although the plan might permit employees who are covered (if any) to make nondeductible contributions on their own behalf. Consequently, they may establish such a plan for their employees if they so desire.

I. PROFIT-SHARING PLANS

Your committee's bill does not limit participation of self-employed individuals to fixed contribution pension plans. Rather, it also permits them to participate in profit-sharing plans paying retirement benefits, under which contributions may be made in profitable years but there would be no obligation to make contributions in years of little or no profit. To avoid the abuse of making larger or smaller contributions in years when surtax rates are lower or higher, a definite formula for determining the amount of contributions to be made on behalf of employees who are not owner-employees appears to be necessary. Consequently, in order for an owner-employee to participate in such a plan, it must provide such a definite formula.

J. BOND PURCHASE PLANS

As an alternative form of investment which will be of particular interest to new pension plans established by small businesses, direct investment in U.S. Government securities of a new series is authorized. These new bonds, which must be issued in the names of the individual employees (including owner-employees) on whose behalf they are purchased (and thus will be nonforfeitable), will be nontransferable and may not be cashed until the individual in whose name the bonds are issued has attained age 59½ (insurance age 60) or has become disabled or deceased. In order to prevent these bonds from being used for purposes other than retirement, the bill provides that interest on them must stop no later than 5 years after the death of the bond owner. This period corresponds generally to other provisions of the bill requiring distribution of a deceased owner-employee's interest in a retirement plan within a specified period after his death. The purpose of direct bond purchases under a qualified retirement plan is to avoid the expense of establishing a trust to administer the retirement fund assets. The new series of Government securities may also be purchased by the trustee of an existing pension plan if it is desired to make that form of investment. Where a pension plan has invested in these retirement bonds, the bill provides that no income will be realized by the employee at the time the bonds are distributed to him; rather the principal and interest on the bonds will be included in the employee's income at the time they are re-

deemed. Although these new bonds may be purchased by anyone their cost will be deductible for income tax purposes only if they are purchased under a qualified bond purchase plan or by a qualified retirement plan. The amount deductible is to be determined in the same manner as if the cost of the bond were a contribution to a qualified retirement trust, except that the special rules relating to excess contributions in the case of owner-employee type plans do not apply. Those rules are considered inappropriate to qualified bond purchase plans not only because the special bonds might be purchased by anyone (and not solely for retirement purposes), but also because the denominations in which the bonds might be issued will not necessarily bear any relation to the amount which might be deducted by an owner-employee. Under the bond purchase plan approved by your committee, income realized on the redemption of the special bonds will always be taxed at ordinary rates. Moreover, there would be no capital gains treatment on a lump-sum distribution of these special bonds to an individual covered by a qualified pension trust. By making the earliest redemption date for these bonds age 59½, except in the case of death or disability, these bonds will generally be unattractive to ordinary investors because they may hesitate to freeze their capital for long periods of time.

K. EXCESS CONTRIBUTIONS

The bill provides certain penalties where excess contributions are made under a pension plan. An excess contribution is an amount greater than the permitted deductible and nondeductible contributions. The bill requires that any such excess contributions must be returned to the person or to the business that made it, together with income earned on the excess contribution. The income so returned will be taxable to the self-employed person for whom the contribution was made. If an excess contribution is not repaid within 6 months after notification has been received that the contribution was excessive, the plan is temporarily disqualified (until the excess is returned) with regard to the person on whose behalf the excess contribution was made and he is taxed on the annual income earned by the entire fund in the plan which is attributable to his interest. Where an excess contribution is willfully made, however, the entire interest of the individual on whose behalf it was made in all plans in which he participated as an owner-employee (including the corpus allocated to his account) is required to be distributed to him, and he is further disqualified from participating in any pension plans as an owner-employee for a 5-year period. Furthermore, no opportunity is given to repay a willful excess contribution and escape the consequences.

L. PAYMENT OF BENEFITS TO OWNER-EMPLOYEES

The bill requires that new retirement plans established by owner-employees for their own benefit, or for the benefit of themselves and their employees, may not begin paying retirement benefits to owner-employees before they reach age 59½ (insurance age 60) except in the event of death or disability. Under your committee's bill an individual is considered disabled if unable to engage in any substantial gainful activity because of a medically determinable physical or mental impairment which can be expected to result in death or to be of long-

continued and indefinite duration. Distributions of retirement benefits, however, must begin not later than 70½ (insurance age 70). If the owner-employee dies, his interest in the retirement plan must be distributed within 5 years from the date of his death or used within 5 years to purchase an immediate annuity for his beneficiary.

M. PREMATURE DISTRIBUTIONS

A penalty is imposed by the bill in cases where a premature distribution of all or part of the retirement fund is made before the owner-employee reaches age 59½. In these cases, if the premature distribution amounts to \$2,500 or more, the tax imposed would not be less than 110 percent of the increase in tax that would have resulted if the income had been received ratably over the 5 years ending with the year of distribution. For purposes of this provision, taxable income for any of the taxable years involved is deemed to be not less than the appropriate portion of the distributed amount. If the premature distribution amounts to less than \$2,500, the tax due would be 110 percent of the increase in tax resulting from inclusion of the entire amount of the premature distribution in gross income for the current year. In either event, the taxable income for the year in which the distribution occurs is treated as being not less than the excess of the amount of the distribution includible in gross income over the deductions allowable for personal exemptions. Any resulting increase in tax can be reduced only by the credit for withheld taxes. As a further penalty in case of a premature distribution, the owner-employee is disqualified from participating in a retirement plan on his own behalf for 5 years following the year in which the total distribution is made. These penalties are imposed in order to prevent retirement plans from, in effect, becoming income-averaging plans under which deductible contributions would be made to the plan in high-income, high-tax years and the assets would be drawn down in low-income or loss years when little or no tax would be due. It is the purpose of this bill to provide means for financing retirement; these penalties are designed to insure that retirement plans will not be used for other purposes.

N. TWO OR MORE BUSINESSES

An owner-employee (or a group of two or more owner-employees) who controls more than one business would be required under the bill to group together all controlled business activities for the purpose of determining whether contributions for him would be limited by the rules which apply to owner-employees with three or fewer employees or whether he would be governed by rules applicable to owner-employees with more than three employees. An owner-employee may not exceed the limitations on deductible contributions by splitting his activities among two or more businesses and establishing retirement plans in each, nor could he divide his businesses and set up a retirement plan in one business in which, for example, he is the only employee;

O. ANNUITY TREATMENT FOR DISTRIBUTIONS

As under present law, retirement benefits when paid to individuals from qualified plans would be taxable as ordinary income, except to the extent that they have been financed by nondeductible contribu-

tions made under a contributory pension plan, in which case benefits would be taxable under existing rules which allow individuals to recover their capital invested in a retirement contract free of tax.

P. ESTATE AND GIFT TAX EXEMPTION

With respect to the estate and gift tax exemption in the case of retirement plan benefits, your committee's bill does not change present law as it applies to ordinary employees, including owner-managers of corporations. However, the bill does not extend these exemptions to the self-employed (whether or not they are owner-employees) insofar as contributions were made to the plan by or for the individual while he was a self-employed person. The estate and gift tax exclusions will continue to apply with respect to any employer contributions made while the individual was not a self-employed person.

Q. LUMP-SUM DISTRIBUTIONS

While your committee's bill does not extend to self-employed individuals (whether or not they are owner-employees) capital gain treatment on certain lump-sum distributions from retirement plans, such treatment is not denied to employees of the self-employed who are treated in the same manner as employees of corporations. Under the bill, a self-employed individual will receive capital gains treatment on that portion of a lump-sum distribution which is attributable to any employer contributions made on his behalf while he was not a self-employed person. He will not have capital-gain treatment for lump-sum distributions derived from contributions as a self-employed person, but a special averaging device provides for the taxing of such lump-sum distributions received by self-employed individuals after age 59½. Under the bill, the tax he will pay is limited to five times the increase in tax resulting from treating 20 percent of such a lump-sum distribution as taxable income. In this way some protection from the graduated rates of the individual income tax is given to the self-employed individual who receives a lump-sum distribution.

R. PROHIBITED TRANSACTIONS

The bill tightens the prohibited transaction rules of present law with respect to trusts forming part of pension plans covering owner-employees who control the business by means of a more than 50-percent ownership interest. In these situations, since the owner-employee is, in effect, dealing with himself, your committee has provided that the owner-employee may not borrow from a trust he has established, may not buy from or sell property to that trust, and may not charge any fees for services he renders to the trust. It may be extremely difficult to police the large number of small trusts that may be established under this bill, and for this reason the prohibited transactions rules have been tightened.

S. SUMMATION OF REQUIREMENTS FOR OWNER-EMPLOYEE PLANS

In summary, new retirement plans established by self-employed individuals must meet the following requirements or qualifications in addition to those which present law requires of all retirement plans:

(1) If it is a trustee plan, the trustee must be a bank or similar institution with fiduciary powers, but another person (who may be the employer) may be given power to control investments of the trust fund.

(2) In the case of owner-employees, benefits may not be payable before the owner-employee reaches age 59½, except in the case of severe disability or death, and benefit payments must begin before he reaches age 70½.

(3) In the case of plans of self-employed individuals with more than three employees, contributions for employees must be non-forfeitable at the time they are made.

(4) In the case of a profit sharing plan, a definite formula for determining employee contributions must be provided.

(5) If there are more than three employees contributions for the owner-employee are not permitted to exceed the ratio of contributions for any other employee.

(6) Where a self-employed individual has more than three employees, the plan may be coordinated with social security (under special rules) only if contributions for him are not more than one-third of the total contributions made under the plan.

(7) No excess contribution may be made.

(8) If an owner-employee dies, his entire interest must within 5 years be distributed to designated beneficiaries or used to provide immediate annuities for them.

(9) Excess contributions, if made, must be returned to the person who made them, and income earned by the plan which is attributable to the interest of an owner-employee with respect to whom an excess contribution was not timely returned must be taxed to the owner-employee.

(10) For purposes of qualifying the plan and determining what limitations are applied to contributions for owner-employees, two or more businesses controlled by an owner-employee or by a group of owner-employees must be considered as a single business.

(11) Contributions on behalf of any owner-employee must be determined on the basis of his net earnings from self-employment from the trade or business with respect to which the retirement plan is established.

VII. PROVISIONS OF BILL MADE APPLICABLE TO ALL RETIREMENT PLANS

The bill adds three new paragraphs to section 401(a) of the code; these have the effect of codifying certain regulations and administrative practices of the Internal Revenue Service. These three new paragraphs apply to all pension plans, not merely those which cover owner-employees.

Vesting on termination of plan.—The first of these new paragraphs requires that, upon termination of the plan or complete discontinuance of contributions thereto, the rights of all employees then covered by the plan must be nonforfeitable. This new provision is especially important in connection with new retirement plans established by owner-employees with three or fewer employees. Without such a requirement, it would be possible for such an owner-employee to establish a forfeitable pension plan for his employees, make deductible

contributions, enjoy a tax-free buildup of income on such contributions and subsequently terminate the plan and have the entire amount revert back to him with favorable tax results. This requirement imposes upon owner-employees an obligation, upon termination of a plan, to actually pay out to his employees amounts contributed for them notwithstanding the fact that such contributions were forfeitable when they were made. It thus prevents abuses from developing under purely forfeitable plans.

Time of payment of benefits under a plan.—The second of these new paragraphs makes employee benefits payable not later than the taxable year in which the employee reaches age 70½, or retires, whichever is later. In the case of an employee who is an owner-employee benefits must be payable not later than the taxable year in which he reaches age 70½.

Forfeitures.—The third of these new paragraphs imposed upon all retirement plans makes it plain that forfeitures of nonvested funds must not be used to increase the benefits any employee would otherwise receive under the plan.

VIII. MISCELLANEOUS PROVISIONS OF THE BILL

The bill permits self-employed individuals to qualify for the retirement-income credit on the basis of distributions from qualified retirement plans. However, it does not permit self-employed persons to qualify either for the \$5,000 death-benefit exclusion or for the sick-pay exclusion. Those provisions were enacted for the benefit of employees as contrasted to the self-employed and it is not the purpose of this bill to treat self-employed individuals as employees except for retirement-plan purposes. However, the bill does allow a self-employed individual to exclude from his gross income under section 104 of the code amounts received through accident or health insurance for personal injuries or sickness, to the extent that such amounts are attributable to his own nondeductible contributions.

Where pension contributions take the form of the purchase of annuities, any loans against these contracts are treated as distributions and any repayments of such loans are treated as contributions. In addition, if any portion of a trust or of a contract is assigned or pledged, that portion is also treated as a distribution from the trust or under the plan. Without these rules, an owner-employee could, in effect, obtain premature access to a substantial portion of the pension funds being accumulated for his retirement.

The bill makes it plain that the deduction for contributions made to a retirement plan by a self-employed individual on his own behalf may not be used to increase a net operating loss, and that owners of unincorporated businesses which elect to be taxed as corporations may participate in qualified retirement plans only in their capacity as self-employed persons. The bill also makes it clear that amounts contributed to a qualified retirement plan by a self-employed individual which are deductible, are treated as deductions from gross income in computing adjusted gross income. Thus, a self-employed individual may take this deduction and still qualify for the standard deduction.

TECHNICAL EXPLANATION OF THE BILL

FIRST SECTION. SHORT TITLE

The first section of the bill provides that the act may be cited as the "Self-Employed Individuals Tax Retirement Act of 1961."

SECTION 2. QUALIFICATION OF PLANS

Section 2 of the bill amends section 401 of the Internal Revenue Code of 1954 to provide for the coverage of self-employed individuals under qualified pension and profit-sharing plans. In addition, section 2 amends section 401 to add additional requirements which must be met in order for a trust forming part of a plan covering self-employed individuals who own more than 10 percent of the business to qualify under section 401. There are also added to section 401 certain additional requirements which must be met by all qualified trusts and plans.

Section 401(a)

Existing section 401(a)(5) of the code provides that a plan shall not be considered discriminatory merely because the contributions or benefits under the plan bear a uniform relationship to the "total compensation, or the basic or regular rate of compensation," of the employees covered under the plan. Paragraph (1) of section 2 of the bill amends section 401(a)(5) to provide that, for purposes of this rule, the total compensation of a self-employed individual is such individual's self-employment earnings (as defined in sec. 401(c)(3)), and that the basic or regular rate of compensation of such an individual is that portion of his self-employment earnings which bears the same ratio to his total self-employment earnings as the basic or regular compensation of the employees (other than self-employed individuals) covered under the plan bears to their total compensation. This ratio is to be computed in accordance with regulations prescribed by the Secretary or his delegate.

Existing section 401(a) of the code sets forth the requirements which a pension, profit-sharing, or stock bonus trust must meet in order to constitute a qualified trust. Paragraph (2) of section 2 of the bill adds additional requirements (new pars. (7) to (12), inclusive).

The new paragraph (7) of section 401(a) provides that a trust will not qualify unless the plan of which it is a part provides that, upon its termination or upon complete discontinuance of contributions under the plan, the employees covered under the plan will be granted immediate vested rights with respect to so much of their benefits under the plan as have accrued and have been funded at the time of the termination or discontinuance or, in the case of a money purchase plan, will be granted immediate vested rights to the amounts credited to their account as of the date of the termination or discontinuance. This provision is not to be applicable, however, to benefits or contributions which, pursuant to regulations prescribed by the Secretary or his delegate to preclude discrimination, may not be used for designated employees in the event of early termination of the plan. For example, this provision would not require vesting when certain officers or highly compensated employees are, at the inception of the plan, within a few years of retirement age and the

granting of vested rights to such employees upon termination of the plan shortly after they reach retirement age would result in the plan being discriminatory in favor of such officers or highly compensated employees.

The new paragraph (8) of section 401(a) provides that a trust will not qualify unless, under the plan of which it is a part, the entire interest of each employee either (A) will be distributed to him before the close of his taxable year in which he attains the age of 70½ years, or, in the case of an employee other than an owner-employee (as defined in sec. 401(c)(4)), in which he retires, whichever is the later, or (B) will be distributed, commencing before the close of such taxable year (i) over the life of such employee or over the lives of such employee and his spouse, or (ii) over a period not extending beyond the life expectancy of such employee or the life expectancy of such employee and his spouse. For these purposes, the Secretary or his delegate is to issue regulations prescribing the specific conditions under which these requirements will be considered to be met.

The new paragraph (9) of section 401(a) provides that a trust forming part of a pension plan will not qualify unless the pension plan of which it is a part provides that forfeitures must not be applied to increase the benefits any employee would otherwise receive under the plan. Therefore, if the plan calls for future contributions, the forfeitures must be used to reduce such contributions.

The new paragraphs (10) and (11) of section 401(a) provide the rules relating to the extent to which a plan covering self-employed individuals must satisfy the nondiscrimination requirements in section 401(a). Under paragraph (10), a plan providing for current or future contributions for any owner-employee (i.e., a self-employed individual owning more than 10 percent of the trade or business) must also cover each employee of such trade or business having a period of employment of 3 years or more, if—

(1) on one day in each quarter in the taxable year of the plan, the employer has more than three employees; or

(2) on one day in each quarter in a prior taxable year of the plan, the employer had more than three employees and the new paragraph (10) applied to such plan.

For purposes of determining whether the employer has more than three employees, the new paragraph (10) provides that there shall not be taken into account any employee whose customary employment is for not more than 20 hours in any one week or is for not more than 5 months in any calendar year. In addition, it is provided that there shall not be taken into account, as an employee, any owner-employee. Paragraph (10) also provides that, in determining the period of employment of a partner who is not an owner-employee, the period of time during which he has been such a partner shall be included in his period of employment.

The new paragraph (11) provides that if section 401(a)(10) does not apply and if the plan benefits owner-employees, then the determination as to whether a trust forming part of the plan is a qualified trust is to be made under section 401—

(1) if such plan benefits only owner-employees, without regard to the fact that such plan does not benefit employees other than owner-employees; and

(2) if such plan also benefits employees other than owner-employees—

(A) with respect to the portion of the plan which benefits employees other than owner-employees, without reference to the portion of the plan which benefits owner-employees; and

(B) with respect to the portion of the plan which benefits owner-employees, without reference to the portion of the plan which benefits employees other than owner-employees.

Thus, a sole proprietor, or a partnership, with three or less employees may establish a qualified plan which covers (1) only such proprietor or the partners (excluding any partner who does not own more than 10 percent of either the capital interest or the profits interest in the partnership), (2) only the employees (including any partner who does not own more than a 10-percent interest in the partnership), or (3) both such proprietor or partners and such employees. In the third case, the nondiscrimination requirements must be satisfied as to each portion of the plan.

The new paragraph (12) of section 401(a) provides that a trust forming part of a plan covering a self-employed individual owning more than 10 percent of the business must, in order to qualify under section 401, also meet the new requirements of section 401(d).

Section 401(c)

Paragraph (3) of section 2 of the bill adds a new subsection (c) to section 401(a) of the code, which contains certain definitions relating to self-employed individuals and owner-employees.

(1) *Definition of employee.*—Under the present law, a qualified plan can cover only those individuals who are employees under common law. Paragraph (1) of the new subsection (c) defines the term “employee” to include, for any taxable year, a self-employed individual.

(2) *Definition of self-employed individual.*—Paragraph (2) of the new subsection (c) defines the term “self-employed individual” to mean an individual who has self-employment earnings (as defined in sec. 401(c)(3)) for the taxable year.

(3) *Definition of self-employment earnings.*—Paragraph (3) of the new subsection (c) contains a definition of self-employment earnings. Such term means the net earnings from self-employment (as defined in sec. 1402(a) of the code) determined with certain modifications. The first of these modifications provides that doctors and certain ministers, who are not subject to the tax on self-employment income, shall be treated, for this purpose, as being engaged in a trade or business from which net earnings from self-employment are derived. The second modification provides that certain salesmen described in section 3121(d)(3) of the code who are not employees but who are not subject to the tax on self-employment income shall be similarly treated. The third modification provides that amounts which are not otherwise includible in gross income shall not be included in an individual's net earnings from self-employment.

(4) *Definition of “owner-employee.”*—Certain of the provisions of the bill are applicable only to owner-employees or to plans covering owner-employees. Paragraph (4) of the new subsection (c) defines the term “owner-employee” to mean a self-employed individual who—

(A) derives self-employment earnings from a trade or business carried on by him, or

(B) in the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership.

(5) *Definition of "employer."*—In order to qualify under section 401, a plan must be a plan of an employer. Paragraph (5) of the new subsection (c) provides that, for this purpose, a self-employed individual who carries on a trade or business shall be treated as his own employer. Similarly, a partnership shall be treated as the employer of its partners who are self-employed individuals.

Section 401(d)

Paragraph (3) of section 2 of the bill also adds a new subsection (d) to section 401, which sets forth additional requirements which must be met in order for a trust forming part of a pension or profit-sharing plan covering owner-employees to qualify under section 401.

(1) *Trustee must be a bank.*—Paragraph (1) of the new subsection (d) provides that, in the case of a trust which is created on or after the date of the enactment of the bill, or which was created before such date but is not exempt as a qualified trust on the day before such date, the trustee must be a bank. However, paragraph (1) provides that a person (including the employer) other than a bank may be granted, under the trust instrument, the power to direct the investment of the trust funds. Paragraph (1) is not applicable to a trust created or organized outside the United States before the date of the enactment of the bill if, under section 402(c), such trust is treated as exempt from taxation under section 501(a) on the day before such date. Such paragraph (1) defines the term "bank" to mean (A) a bank as defined in section 581, and (B) a corporation which under the laws of the State of its incorporation is subject to supervision and examination by the Commissioner of Banking or similar officer, and (C) in the case of a foreign trust, a bank or trust company, wherever incorporated, exercising fiduciary powers and subject to supervision and examination by governmental authority.

(2) *Time of distribution.*—Paragraph (2) of the new subsection (d) provides that, under the plan, no benefits may be paid to any owner-employee prior to his attaining age 59½, except in the case of his disability (within the meaning of sec. 213(g)(3) of the code).

(3) *Vesting.*—Paragraph (3) of the new subsection (d) provides that, in the case of a plan to which section 401(a)(10) applies (i.e., a plan of an employer with more than three employees which covers one or more owner-employees), the employees' rights to or derived from the contributions under the plan must be nonforfeitable at the time such contributions are paid to or under the plan.

(4) *Definite contribution formula.*—Paragraph (4) of the new subsection (d) provides that a profit-sharing plan covering an owner-employee must provide a definite formula for determining contributions to be made to the trust by the employer on behalf of employees (other than owner-employees). Because of the limitations in section 404 on the amount that may be deducted for contributions on behalf of an owner-employee, the plan need not provide a definite formula for determining the contributions to be made on behalf of owner-employees.

(5) *Ratio of contributions; coordination with social security.*—Paragraph (5) of the new subsection (d) provides that a plan, to which section 401(a)(10) applies, may not permit a ratio of employer con-

tributions to compensation, in the case of an owner-employee, to exceed the ratio of employer contributions to compensation, in the case of other employees. Such paragraph (5) provides that the term "compensation" means total compensation, or basic or regular rate of compensation, whichever may be specified in the plan. In the case of a self-employed individual, the terms "total compensation" and "basic or regular rate of compensation" have the meaning assigned to them in section 401(a)(5). For purposes of determining whether the contributions by the employer meet the prescribed ratio, paragraph (5)(B) of the new subsection (d) provides that taxes paid under section 3111 (relating to tax on employers) with respect to an employee may be taken into account as contributions by the employer for such employee under the plan, if—

(A) of the contributions deductible under section 404 for the taxable year, not more than one-third is deductible by reason of contributions by the employer for owner-employees; and

(B) taxes paid by the owner-employees under chapter 2 (relating to tax on self-employment income), and the taxes which would be payable under such chapter 2 by the owner-employees but for paragraphs (4) and (5) of section 1402(c), are taken into account as contributions by the employer for such owner-employees.

(6) *Excess contributions.*—Paragraph (6) of the new subsection (d) provides that the plan must not permit—

(A) contributions to be made by an employer for any owner-employee in excess of the amounts which may be deducted under section 404 for the taxable year;

(B) in the case of a plan (or, if sec. 401(a)(11) applies, the portion of a plan) which covers only owner-employees, contributions to be made in excess of those which are deductible under section 404 for the taxable year; and

(C) if a distribution under the plan is made to any owner-employee before such owner-employee attains the age of 59½ or becomes disabled, contributions to be made on behalf of such owner-employee for the 5 taxable years succeeding the taxable year in which such distribution is made.

(7) *Distributions after death.*—Under paragraph (7) of the new subsection (d), the plan must provide that, after the death of an owner-employee, his interest in the plan must be either distributed to his beneficiary within 5 years or used within that period to purchase an immediate annuity for his beneficiary.

(8) *Repayment of excess contributions.*—Paragraph (8) of the new subsection (d) provides that, under the plan—

(A) any excess contribution (as defined in sec. 401(e)(1)), together with the income attributable thereto, is (except in the case of a willfully made excess contribution) to be repaid to the owner-employee by or for whom such excess contribution was made;

(B) if for any taxable year the plan does not, by reason of section 401(e)(2)(A), meet (for purposes of sec. 404) the requirements of section 401(d) with respect to an owner-employee, the income for the taxable year attributable to the interest of such owner-employee under the plan is to be paid to such owner-employee; and

(C) the entire interest of an owner-employee is to be repaid to him when required by section 401(e)(2)(E) (relating to willful excess contributions).

(9) *More than one trade or business.*—Paragraph (9)(A) of the new subsection (d) provides that, if the plan covers an owner-employee who controls, or two or more owner-employees who together control, the trade or business with respect to which the plan is established, and who also control as an owner-employee or as owner-employees one or more other trades or businesses, such plan and the plans (if any) established by such other trades or businesses must constitute an overall plan which meets the nondiscrimination requirements of section 401(a) (3) and (4), to the extent required by the new paragraph (10) or (11) of section 401(a), with respect to the employees of all such trades or businesses. In determining whether section 401(a) (10) or (11) applies, the employees of all the trades or business shall be taken into account.

Paragraph (9)(B) of the new subsection (d) provides that an owner-employee, or two or more owner-employees, shall be considered to control a trade or business if such owner-employee, or such two or more owner-employees together—

(i) own the entire interest in an unincorporated trade or business, or

(ii) in the case of a partnership, own more than 50 percent of either the capital interest or the profits interest in such partnership.

For purposes of determining his ownership interest, an owner-employee, or two or more owner-employees, shall be treated as owning any interest in a partnership which is owned, directly or indirectly, by a partnership which such owner-employee, or such two or more owner-employees, are considered to control within the meaning of paragraph (9)(B).

(10) *Contributions limited to the self-employment earnings from the trade or business.*—Paragraph (10) of the new subsection (d) provides that, under the plan, contributions on behalf of any owner-employee may be made only with respect to self-employment earnings of such owner-employee derived from the trade or business with respect to which the plan is established.

Section 401(e)

Paragraph (3) of section 2 of the bill also adds a new subsection (e) to section 401, which contains a definition of “excess contribution” and which sets forth the consequences of making such an excess contribution.

(1) *Definition of “excess contribution.”*—Paragraph (1) of the new subsection (e) defines the term “excess contribution” to mean—

(A) if, in the taxable year, contributions are made under the plan only by or for owner-employees, of if the plan is one to which section 401(a)(11) applies, so much of any contribution made by or for any owner-employee as is not deductible under section 404 for the taxable year; or

(B) if, in the taxable year, contributions are made under the plan on behalf of both owner-employees and other employees and section 401(a)(11) does not apply to such plan—

(i) so much of any contribution made by an employer for any owner-employee as (without regard to the new subsec-

tion (e)) is not deductible under section 404 for the taxable year;

(ii) so much of any contribution as is made by an owner-employee (as an employee) at a rate which exceeds the rate of contributions permitted to be made by employees other than owner-employees; and

(iii) so much of any contribution made by an owner-employee (as an employee) as exceeds the lesser of \$2,500 or 10 percent of his self-employment earnings for such taxable year derived by such owner-employee from the trade or business (or trades or businesses) with respect to which the plan is established; and

(C) any contribution made by or for an owner-employee in any taxable year for which, under section 401(e)(2) (A) or (E), the plan does not (for purposes of sec. 404) meet the requirements of section 401(d) with respect to such owner-employee.

Such paragraph (1) provides, however, that the amount of any contribution which is allocable (determined in accordance with regulations prescribed by the Secretary of the Treasury or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account in determining the amount of any contribution for purposes of determining whether such contribution is an excess contribution.

(2) *Effect of excess contribution.*—Paragraph (2)(A) of the new subsection (e) provides that, if an excess contribution (other than a willful excess contribution to which sec. 401(e)(2)(E) applies) is made by or for an owner-employee in any taxable year, the plan with respect to which such excess contribution is made shall, except as provided in section 401(e)(2) (C) and (D), be considered, for purposes of section 404, as not meeting the requirements of section 401(d) with respect to such owner-employee for the taxable year and for all succeeding taxable years. In any year when an otherwise exempt trust forming part of a plan is (pursuant to par. (2)(A)) considered, for purposes of section 404, as not meeting the requirements of section 401(d) with respect to an owner-employee, the earnings of such trust (including those attributable to the interest of the owner-employee with respect to whom the excess contribution was made) shall remain exempt from tax in the hands of the trust. However, the trust shall not be considered exempt for purposes of deducting any contributions made by or for the owner-employee with respect to whom the excess contribution was made.

Paragraph (2)(B) of the new subsection (e) provides that, for any taxable year for which a plan does not meet the requirements of section 401(d) with respect to an owner-employee by reason of paragraph (2)(A), such owner-employee shall currently include in his gross income the income for such year attributable to his interest in the plan.

Paragraph (2)(C) of the new subsection (e) provides that paragraph (2)(A) (and, consequently, paragraph (2)(B)) shall not apply to an excess contribution with respect to any taxable year if (on or before the close of the 6-month period beginning on the day on which the Secretary or his delegate sends by certified or registered mail, to the trust, insurance company, or other person to whom such excess contribution was paid, notice of the amount of such excess contribution) the amount of such excess contribution, and the income attributable

thereto, is repaid to the owner-employee by or for whom such excess contribution was made. Such paragraph (2)(C) further provides that, if the contribution is an excess contribution by reason of exceeding the deduction limitations under section 404, the notice required to be sent by the Secretary or his delegate shall not be mailed prior to the time that the amount of the tax under chapter 1 of the Internal Revenue Code of the owner-employee to whom the excess contribution is to be repaid has been finally determined for the taxable year in which such excess contribution was made.

Paragraph (2)(D) of the new subsection (e) provides that, if an excess contribution, together with the income attributable thereto, is not repaid within the 6-month period, paragraph (2)(A) shall not apply to any taxable year beginning with the taxable year in which the trust, insurance company, or other person to whom such excess contribution was paid repays the amount of such excess contribution to the owner-employee by or for whom such excess contribution was made, and also pays to such owner-employee the amount of income attributable to the interest of such owner-employee which, under paragraph (2)(B), has been included in such owner-employee's gross income for any prior taxable year.

(3) *Special rule if excess contribution was willfully made.*—Paragraph (2)(E) of the new subsection (e) provides that, if an excess contribution made by or for an owner-employee is determined to have been willfully made, then, instead of applying the provisions of section 401(e)(2) (A), (B), (C), and (D)—

(i) there shall be distributed to the owner-employee by or for whom such excess contribution was willfully made his entire interest in all plans in which he is a participant as an owner-employee; and

(ii) contributions may not be made by or for such owner-employee to any plan in which he is a participant as an owner-employee for the taxable year in which it is determined that such excess contribution was willfully made and for the 5 taxable years following such taxable year.

Thus, when it has been determined that an excess contribution has been willfully made to a plan by or for an owner-employee, such owner-employee's entire interest in all plans in which he is a participant as an owner-employee must be distributed to him and he may not participate in any plan with respect to which he is an owner-employee for the taxable year of the determination and for the 5 succeeding taxable years.

(4) *Statute of limitations.*—Paragraph (2)(F) of the new subsection (e) provides that, in any case in which a plan does not meet the requirements of section 401(d) with respect to an owner-employee by reason of paragraph (2)(A), the period for assessing any deficiency arising by reason of—

(i) the disallowance of any deduction under section 404 because such plan does not meet the requirements of section 401(d) with respect to an owner-employee by or for whom an excess contribution was made, or

(ii) the inclusion, under paragraph (2)(B), in gross income of such owner-employee of the income attributable to his interest under a plan

for the taxable year in which such excess contribution was made or for any succeeding taxable year shall not expire prior to 1 year after the close of the 6-month period referred to in paragraph (2)(C).

Section 401(f)

Under present law, section 401(a) of the code relates only to trusts which form part of pension, profit-sharing, and stock-bonus plans. Paragraph (3) of section 2 of the bill also adds a new subsection (f) to section 401, which permits certain custodial accounts to qualify under section 401(a) if they form a part of qualified plans. Under the new subsection (f), a custodial account shall be treated as a qualified trust, if—

(1) such custodial account satisfies all the requirements which must be satisfied by a qualified trust;

(2) the custodian is a bank (as defined in section 581);

(3) the investment of the funds in such account (including all earnings) is to be made solely in regulated investment company stock with respect to which an employee is the beneficial owner (treating as subject to this requirement all capital gain dividends and any refund to the custodian under section 852(b)(3)(D)(ii) of the code); and

(4) the custodian or its nominee is the shareholder of record of all stock held in the account.

For purposes of the code, in the case of a custodial account treated as a qualified trust under section 401 by reason of the new section 401(f), the custodian of such account is to be treated as the trustee thereof.

Paragraph (2) of the new subsection (f) defines "regulated investment company" to mean a domestic corporation (A) which is a regulated investment company within the meaning of section 851(a), and (B) which issues only redeemable stock.

Section 401(g)

Under present law, there are certain provisions applicable to annuity contracts purchased by a qualified trust or under a qualified nontrusteed plan. Paragraph (3) of section 2 of the bill also adds a new subsection (g) to section 401 which provides that, for purposes of sections 401, 402, 403, and 404, the term "annuity" includes a face-amount certificate, as defined in section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C., sec. 80a-2), which is nontransferable.

SECTION 3. DEDUCTIBILITY OF CONTRIBUTIONS TO PLANS

Section 3 of the bill amends section 404 of the Internal Revenue Code of 1954 to allow the deduction of contributions made by or for self-employed individuals who are covered under qualified plans. In addition, section 404 is amended to provide limitations on the amount that may be deducted with respect to contributions by or for self-employed individuals who are owner-employees.

Section 404(a)

(1) *Annuity plans.*—Section 404(a)(2) allows, within the applicable limitations, the deduction of employer contributions paid toward the purchase of retirement annuities if such purchase is a part of a plan which meets the requirements of section 401(a) (3), (4), (5), and (6),

and if certain other conditions are met. Subsection (a)(1) of section 3 of the bill amends section 404(a)(2) to provide that the annuity plan must, in addition to meeting the present requirements, also meet the requirements in the new paragraphs (7), (8), (9), and (10) or (11) of section 401(a) and, if the plan covers owner-employees, the requirements of the new section 401(d) (2), (3), (5), (6), (7), (8), (9), and (10). Thus, a qualified annuity plan is, in general, subject to the same requirements as is a qualified pension, profit-sharing, or stock-bonus plan.

(2) *Inclusion of self-employed.*—Subsection (a)(2) of section 3 of the bill adds a new paragraph (8) to section 404(a), which allows the deduction under section 404(a) of contributions to a qualified plan covering self-employed individuals. To accomplish this purpose, the new paragraph (8) provides that, for purposes of applying section 404 to a qualified pension, annuity, or profit-sharing plan covering self-employed individuals—

(A) the term “employee” is defined to include a self-employed individual within the meaning of section 401(c)(2), and the employer of such a self-employed individual is defined to mean the person treated as his employer under section 401(c)(5);

(B) the term “self-employment earnings” has the meaning assigned to it by section 401(c)(3);

(C) the contributions to such a plan by or for a self-employed individual shall be considered to satisfy the conditions of section 162 or section 212 to the extent that such contributions do not exceed the self-employment earnings of such individual derived from the trade or business with respect to which such plan is established. However, contributions by or for self-employed individuals which are allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance are not considered to satisfy the conditions of section 162 or section 212 and, therefore, are not deductible under section 404; and

(D) all references in section 404 to the term “compensation” shall, in the case of a self-employed individual, be considered a reference to the self-employment earnings such individual derived from the trade or business with respect to which the plan is established.

(3) *Plans covering owner-employees.*—Subsection (a)(2) of section 3 of the bill also adds a new paragraph (9) to section 404(a), which provides special rules for computing the limitations on the amounts deductible for contributions under a qualified pension, annuity, or profit-sharing plan covering owner-employees.

Subparagraph (A) of the new paragraph (9) provides that the limitations in paragraphs (1), (2), (3), and (7) of section 404 (a) shall be computed, with respect to employees (other than owner-employees), as if such employees were the only employees covered under the plan. For example, if a qualified profit-sharing plan covers both owner-employees and other employees, the amount deductible under section 404(a)(3) with respect to contributions on behalf of such other employees is 15 percent of the compensation paid to such other employees if there are no carryovers for such year.

Subparagraph (B) of the new paragraph (9) provides that the limitations in paragraphs (1), (2), (3), and (7) of section 404(a), with

respect to contributions under a qualified plan on behalf of owner-employees, shall be computed —

(i) as if such owner-employees are the only employees covered under the plan; and

(ii) without regard to the carryover provisions contained in section 404(a)(1)(D), the second and third sentences of section 404(a)(3), and the second sentence of section 404(a)(7).

Subparagraph (C) of the new paragraph (9) provides that the amounts which are otherwise deductible under section 404(a) with respect to contributions by or for an owner-employee shall not exceed the additional limitations provided in section 404(e).

The new paragraph (9) further provides that, for purposes of section 404, the term "owner-employee" has the meaning assigned to it by section 401(c)(4).

Section 404(e)

Subsection (b) of section 3 of the bill adds to section 404 a new subsection (e), which provides additional limitations on amounts which may be deducted with respect to contributions on behalf of owner-employees.

(1) *Special limitations for owner-employees.*—Paragraph (1) of the new subsection (e) provides the additional limitations which are applicable in determining the amount that may be deducted with respect to contributions under a qualified plan on behalf of owner-employees. Under paragraph (1), the amounts deductible under section 404(a) in any taxable year with respect to contributions on behalf of such owner-employees shall not exceed—

(A) except as provided in section 404(e)(1)(B), \$2,500, or 10 percent of the self-employment earnings derived by such owner-employee from the trade or business with respect to which the plan is established, whichever is the lesser; or

(B) in the case of a plan to which section 401(a)(10) applies, the maximum amount of contributions permitted to be made on behalf of such owner-employee under section 401(d)(5).

(2) *Overall limitation.*—Paragraph (2) of the new subsection (e) provides that in any taxable year in which amounts are deductible under two or more plans (whether established with respect to the same trade or business or different trades or businesses) on behalf of an individual who is an owner-employee with respect to such plans, the aggregate amount deductible for such taxable year under such plans with respect to contributions on behalf of such owner-employee shall not exceed whichever of the following amounts is the greater:

(i) \$2,500, or

(ii) the sum of the amounts so contributed under all such plans to which section 401(a)(10) applies to the extent that, with respect to each such plan, the amount contributed does not exceed the amount described in section 404(e)(1)(B).

The overall limitation in paragraph (2) has no application with respect to contributions made under a plan on behalf of an employee who is not an owner-employee of the trade or business with respect to which the plan is established, even though such employee may be covered as an owner-employee under a plan or plans established by other trades or businesses.

Paragraph (2)(B) of the new subsection (e) provides that, in any case when paragraph (2)(A) reduces the amounts which are otherwise deductible under section 404 with respect to contributions made on behalf of an owner-employee under two or more plans, the portion of such reduced amount which is deductible under each plan shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

(3) *Contribution allocable to insurance protection.*—Paragraph (3) of the new subsection (e) provides that the special limitations in section 404(e) are not applicable with respect to contributions which are allocable (determined under regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance.

Section 404(f)

Subsection (b) of section 3 of the bill also adds to section 404 a new subsection (f), which provides that, for purposes of section 404, any amount paid, directly or indirectly, by an owner-employee in repayment of any loan on an insurance policy which, under section 72(m)(4)(B), was treated as an amount received under a contract, shall be treated as a contribution to which section 404 (including the limitations therein) applies on behalf of such owner-employee.

SECTION 4. TAXABILITY OF DISTRIBUTIONS

Section 4 of the bill amends section 72 of the Internal Revenue Code of 1954 to provide rules for the taxation of amounts distributed under qualified plans to self-employed individuals or the beneficiaries of such individuals.

Section 72(d)

Existing section 72(d) of the code provides a special rule for the taxation of an annuity receivable by an employee when the aggregate amount receivable by the employee under the terms of the contract during the 3-year period beginning on the date on which the amount is first received under the contract as an annuity is equal to or greater than the consideration for the contract contributed by the employee. Subsection (a) of section 4 of the bill amends section 72(d)(2) to provide that, for purposes of section 72(d) any contribution which is made with respect to the contract while the employee is a self-employed individual and which is not allowed as a deduction under section 404 shall be treated as consideration for the contract contributed by the employee. This amendment merely makes clear that, as in the case of qualified plans established by corporations, a self-employed individual may not treat as consideration for the contract contributed by the employee any contributions under the plan for which deductions were allowed and which, consequently, are considered employer contributions. Moreover, under the new section 72(m)(2), contributions on behalf of a self-employed individual which are used to purchase life, accident, health, or other insurance are not, for purposes of section 72(d), included in the employee's basis for the contract.

Section 72(m)

Subsection (b) of section 4 of the bill adds to section 72 a new subsection (m), which provides special rules applicable to the taxation of employee annuities and distributions under employee plans.

(1) *Amounts received before annuity starting date.*—Paragraph (1) of the new subsection (m) provides that any amounts which are received under an annuity, endowment, or life insurance contract before the annuity starting date and which are not received as an annuity (within the meaning of sec. 72(e)(2)) shall be included in the recipient's gross income for the taxable year in which received to the extent that—

(A) such amounts, plus amounts theretofore received under the contract and includible in gross income under such paragraph (1), do not exceed

(B) the aggregate premiums or other consideration paid for the contract on behalf of an employee while such employee was an owner-employee (as defined in sec. 401(c)(4)) which were allowed as deductions under section 404 for the taxable year and all prior taxable years. For this purpose, the aggregate premiums or other consideration paid for the contract does not include any portion of such premiums or other consideration which is properly allocable (as determined under regulations prescribed by the Secretary or his delegate) to the cost of life, accident, health, or other insurance.

Such paragraph (1) further provides that any amounts received under an annuity, endowment, or life insurance contract before the annuity starting date which are not received as an annuity and which are not includible in gross income under such paragraph (1) shall be subject to the provisions of section 72(e).

The provisions of paragraph (1) may be illustrated by the example of a self-employed individual who receives \$8,000 as a distribution under a qualified pension plan before the annuity starting date. At the time of such distribution, \$10,000 had been contributed and deducted under the plan on behalf of such individual while he was not an owner-employee and \$5,000 had been contributed and deducted under the plan on his behalf while he was an owner-employee. In addition, such individual had contributed \$2,000 on his own behalf under the plan. Of the \$8,000, \$5,000 (the amount contributed and deducted on behalf of the individual while he was an owner-employee) is includible in gross income under paragraph (1). Of the remaining \$3,000, \$1,000 (the amount in excess of the individual's contributions on his own behalf) is includible in gross income under section 72(e).

(2) *Computation of consideration paid by a self-employed individual.*—Paragraph (2) of the new subsection (m) provides that in computing—

(A) the aggregate amount of premiums or other consideration paid for the contract for purposes of section 72(e)(1)(A),

(B) the consideration for the contract contributed by the employee for purposes of section 72(d)(1), and

(C) the aggregate premiums or other consideration paid for purposes of section 72(e)(1)(B),

any amount allowed as a deduction with respect to the contract under section 404 while the employee was a self-employed individual shall be treated as consideration contributed by the employer. Such paragraph (2) further provides that the amounts described in paragraph (2) (A), (B), and (C) shall not include any portion of the premiums or other consideration for the contract paid while the employee was an owner-employee which is allocable (as determined under regula-

tions prescribed by the Secretary of the Treasury or his delegate) to the cost of life, accident, health, or other insurance.

Paragraph (2) merely makes it clear that there shall not be included in an employee's, or in his beneficiary's, basis for a contract any amount which was contributed by such employee under a qualified plan and which was allowed as a deduction under section 404. In addition, under paragraph (2), there shall not be included in the basis of any contract the amount of any premiums or other consideration paid to purchase for an employee while he was an owner-employee any life, accident, health, or other insurance. Present law is to be applied in determining whether an amount to which paragraph (2) does not apply should be included in the basis of a contract.

(3) *Life insurance contracts*.—Paragraph (3) of the new subsection (m) is applicable to any life insurance contract—

(i) which is purchased as part of a qualified annuity plan described in section 403(a), or

(ii) which is purchased by a qualified trust, if the proceeds of such life insurance contract are payable directly or indirectly to a participant in such trust or to a beneficiary of such participant.

Paragraph (3)(B) provides that any contributions to such a qualified annuity plan or such a qualified trust allowed as a deduction under section 404, and any income of such a qualified trust, which are determined (in accordance with regulations prescribed by the Secretary or his delegate) to have been applied to purchase the life insurance protection under a life insurance contract to which paragraph (3) applies are includible in the gross income of the employee for whom such protection is purchased for the taxable year when such contributions, or such income, are so applied. In the case of the death of an employee insured under a life insurance contract to which paragraph (3) applies, an amount equal to the cash surrender value of such contract immediately before the death of the employee shall be treated as a payment under the qualified plan or trust, and the excess of the amount payable by reason of the death of the insured over such cash surrender value shall not be includible in gross income under section 72 and shall be treated as provided in section 101. The provisions of paragraph (3) are rules presently contained in the regulations under the Internal Revenue Code of 1954.

(4) *Amounts constructively received*.—Paragraph (4)(A) of the new subsection (m) provides that, if during any taxable year an owner-employee assigns (or agrees to assign) or pledges (or agrees to pledge) any portion of his interest in a qualified trust or any portion of the value of a contract purchased as part of a qualified annuity plan, such portion shall be treated as having been received in such taxable year by such owner-employee as a distribution from such trust or as an amount received under such contract. Paragraph (4)(B) provides that, if during any taxable year an owner-employee receives, directly or indirectly, any amount from an insurance company as a loan under a contract purchased by a qualified trust or purchased as a part of a qualified annuity plan, and issued by such insurance company, the amount of such loan is to be treated as an amount received under the insurance contract in such taxable year.

(5) *Penalties applicable to certain amounts received by owner-employees*.—Paragraph (5) of the new subsection (m) provides a penalty tax on certain amounts received by an owner-employee under a

qualified trust or annuity plan. Paragraph (5)(A) provides that the penalty tax is applicable—

(i) to amounts (other than any amount received by an individual in his capacity as a policyholder of an annuity, endowment, or life insurance contract which is in the nature of a dividend or similar distribution) which are received under a qualified pension, annuity, or profit-sharing plan by an individual, who is, or has been, an owner-employee, before such individual attains the age of 59½, for any reason other than the individual's becoming disabled (within the meaning of sec. 213(g)(3) of the code), but only to the extent that such amounts are attributable to the contributions paid on behalf of such individual (whether or not paid by him) while he was an owner-employee;

(ii) to amounts which are received under such a qualified plan at any time by an individual who is, or has been, an owner-employee, or by the successor of such individual, but only to the extent that such amounts are determined, under regulations prescribed by the Secretary or his delegate, to exceed the benefits provided for such individual under the plan formula; and

(iii) to amounts which are received by reason of the distribution under the provisions of section 401(e)(2)(E) (relating to willfully made excess contributions) by an individual who is, or has been, an owner-employee of his entire interest in all such qualified plans.

The penalty tax is applicable to such amounts even though, at the time they are received, the recipient is not an owner-employee. In the case of an early distribution described in paragraph (5)(A)(i), the penalty tax is applicable to only so much of the distribution as is attributable to contributions paid on behalf of the recipient while he was an owner-employee. However, the penalty tax is applicable to the entire amount, to the extent it exceeds the benefits under the plan formula, received by an employee (or by the successor of an employee) who is, or has been, an owner-employee, even though a portion of such amount may be attributable to contributions made on behalf of such employee while he was not an owner-employee.

Paragraph (5)(B) provides that, if the aggregate of the amounts to which the penalty tax is applicable received by any person in his taxable year equals or exceeds \$2,500, the increase in his tax for that taxable year attributable to the receipt of such amounts shall not be less than 110 percent of the aggregate increase in taxes, for that taxable year and the four immediately preceding taxable years, which would have resulted if such amounts had been included in such person's gross income ratably over such taxable years. If deductions had been allowed under section 404 for contributions paid on behalf of such person while he is an owner-employee for a number of prior taxable years less than four, paragraph (5)(B)(i) shall be applied by taking into account the number of taxable years immediately preceding the taxable year in which the amount was so received equal to such lesser number.

Under paragraph (5)(C), if the aggregate of the amounts to which the penalty tax is applicable received by a person in his taxable year is less than \$2,500, the increase in tax attributable to the receipt of such amounts shall be 110 percent of the increase computed without regard to this penalty tax.

Paragraph (5)(D) provides that the penalty tax shall not apply to any amount which is taxed, under section 402(a)(2) or section 403(a)(2), at capital gains rates. On the other hand, since a distribution required as a result of a determination that a willful excess contribution has been made on behalf of an owner-employee is not a distribution on account of separation from service or death, the penalty tax will, in all cases, be applicable to such a distribution.

Paragraph (5)(E) provides that section 72(n)(3) is to be applied for purposes of computing the taxable income for taxable years to which paragraph (5) applies.

Paragraph (6) of the new subsection (m) provides that, for purposes of section 72, the term "owner-employee" has the meaning assigned to it by section 401(c)(4).

Section 72(n)

Subsection (b) of section 4 of the bill also adds to section 72 a new subsection (n), which provides special tax treatment with respect to certain total distributions received under a qualified plan.

(1) Paragraph (1) of the new subsection (n) sets forth the distributions to which the special tax treatment in section 72(n) applies. In the case of a qualified pension or profit-sharing trust, the special tax treatment is applicable to amounts distributed to a distributee, if such amounts represent the total distributions payable to the distributee with respect to an employee and if such amounts are paid to the distributee within 1 taxable year of the distributee—

- (i) on account of the employee's death,
- (ii) after the employee has attained the age of 59½ years, or
- (iii) after the employee has become disabled (within the meaning of sec. 213(g)(3) of the code).

In the case of a qualified annuity plan, the special tax treatment is applicable to amounts paid to a payee, if such amounts represent the total amounts payable to the payee with respect to an employee and if such amounts are paid to the payee within 1 taxable year of the payee—

- (i) on account of the employee's death,
- (ii) after the employee has attained the age of 59½ years, or
- (iii) after the employee has become disabled (within the meaning of sec. 213(g)(3)).

For the special tax treatment to be applicable to a distributee or payee with respect to a distribution of an employee's interest in a qualified plan, it is not necessary that there also be distributed within the 1-year period any portion of the employee's interest which is payable to another payee or distributee.

The special tax treatment provided by the new section 72(n) is, under paragraph (1)(C), applicable only with respect to so much of any distribution or payment as is attributable to contributions made under a qualified plan by or for a self-employed individual. If an employee receives a distribution or payment of his own interest in a qualified plan or trust, the special tax treatment is applicable to such distribution or payment only if contributions which were allowed as a deduction under section 404 have been made by or for such employee while he was a self-employed individual for five or more taxable years prior to the taxable year in which such distribution is paid. In addition, the special tax treatment is not applicable to amounts to which the penalty tax in section 72(m)(5) is applicable.

(2) Paragraph (2) of the new subsection (n) provides that, in any case when the special tax treatment applies, the tax attributable to the amounts to which the new subsection (n) applies for the taxable year for which such amounts are received is not to exceed whichever of the following is the greater:

(A) five times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income; or

(B) five times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under section 72(n)(3)(A).

(3) Paragraph (3) of the new subsection (n) provides that (notwithstanding sec. 63) for purposes only of computing the tax under chapter 1 of the Internal Revenue Code of 1954 attributable to amounts to which the new subsection (n) or section 72(m)(5) (relating to the penalty tax in the case of certain distributions) applies and which are includible in gross income—

(A) the taxable income of the recipient for the taxable year of receipt is to be treated as being not less than the amount by which (i) the aggregate of such amounts so includible in gross income exceeds (ii) the amount of the deductions allowed for such taxable year under section 151 (relating to deductions for personal exemptions); and

(B) in making ratable inclusion computations under paragraph (5)(B) of section 72(m), the taxable income of the recipient for any taxable year involved in such ratable inclusion is to be treated as being not less than the amount required by such paragraph (5)(B) to be treated as includible in gross income for such taxable year.

In any case in which section 72(n)(3) results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by section 1 or section 3 for such taxable year shall not be reduced by any credit under part IV of subchapter A of chapter 1 (other than sec. 31) of the Internal Revenue Code of 1954 which, but for this provision, would be allowable. Under paragraph (3), in no case is there subjected to tax under the penalty tax in section 72(m)(5) or the special tax treatment in section 72(n) amounts which represent a recipient's basis in the distribution.

The application of the rules in paragraph (3) of the new subsection (n) in the case of a total distribution to which the special tax treatment in the new section 72(n) applies may be illustrated by the following example: A, a sole proprietor, established a qualified pension trust to which he made annual contributions for 10 years of 10 percent of his self-employment earnings. A withdrew his entire interest in the trust during a taxable year for which, without regard to the distribution, he had a net operating loss and for which he is allowed under section 151 a deduction for one personal exemption. At the time of the withdrawal, A was 64 years old. The amount of the distribution that is includible in his gross income is \$25,600. For purposes of determining the tax attributable to the \$25,600, A's taxable income for the taxable year in which he received such amount is treated, under paragraph (3) of the new subsection (n), as being \$25,000 (\$25,600 minus \$600 (the deduction allowed for his personal exemp-

tion)). Thus, under paragraph (2) of the new subsection (n), the tax attributable to the \$25,600 would be 5 times the increase in tax which would result if the taxable income of A for the taxable year he received such amount equaled \$5,000 (20 percent of his taxable income determined under paragraph (3) of the new subsection (n)).

The application of the rules in paragraph (3) of the new subsection (n) in the case of a distribution to which section 72(m)(5) applies may be illustrated by the following example: Assume the same facts as in the example in the preceding paragraph except that A was 55 years old (and not disabled) at the time of the withdrawal. In addition, A had a net operating loss for the taxable year immediately preceding the taxable year in which he received the \$25,600. The other 3 taxable years involved in the computations under section 72(m)(5)(B) were years of substantial income. For purposes of determining A's increase in tax attributable to the receipt of the \$25,600 (before the application of the spreading provisions in section 72(m)(5)(B)), A's taxable income for the year he received the \$25,600 is treated, under paragraph (3)(A) of the new subsection (n), as being \$25,000 (\$25,600 minus \$600). For purposes of determining whether 110 percent of the aggregate increase in taxes which would have resulted if 20 percent of the amount of the withdrawal had been included in A's gross income for the year of receipt and for each of the 4 preceding taxable years is greater (and thus is the amount of his increase in tax attributable to the receipt of the \$25,600), A's taxable income for the taxable year of receipt, and for the immediately preceding taxable year, is treated, under paragraph (3)(B) of the new subsection (n), as being \$5,120 (\$25,600 divided by 5).

Section 402(a)

Existing section 402(a)(2) provides that certain total distributions from qualified trusts are taxable at capital gains rates. Subsection (c) of section 4 of the bill amends section 402(a)(2) to provide that the capital gains treatment is not applicable to distributions paid to any distributee to the extent such distributions are attributable to contributions made by or for an individual while he was a self-employed individual. In other words, in the case of an individual who was covered under a qualified plan both while he was an employee within the meaning of common law and while he was a self-employed individual, the capital gains treatment could only apply to that part of a distribution that is attributable to contributions made on his behalf while he was an employee within the meaning of common law.

Section 403(a)

Existing section 403(a) provides the tax treatment for distributions under qualified nontrusteed annuity plans. Subsection (d)(1) of section 4 of the bill amends section 403(a)(2)(A)(i) to provide that a qualified annuity plan must meet the new qualification requirements included by this bill in section 401(a) and (d).

Existing section 403(a)(2) provides capital gains treatment for certain total distributions under qualified annuity plans. Subsection (d)(2) of section 4 of the bill amends section 403(a)(2)(A) to provide that the capital gains treatment shall not apply to amounts paid to any payee to the extent such amounts are attributable to contributions made by or for an individual while he was a self-employed individual. This amendment applies similar treatment to distributions under

qualified annuity plans as the amendment made by subsection (c) of section 4 of the bill applies to distributions from qualified trusts.

Subsection (d)(3) of section 4 of the bill adds to section 403(a) a new paragraph (3) providing that, for purposes of section 403(a), the term "employee" includes a self-employed individual within the meaning of section 401(c)(2), and the employer of such individual is the person treated as his employer under section 401(c)(5). This amendment merely makes it clear that a self-employed individual can participate in a qualified annuity plan.

SECTION 5. PLANS FOR PURCHASE OF U.S. BONDS

Section 5 of the bill adds a new section 405 to the Internal Revenue Code of 1954 to provide for the establishment of qualified bond purchase plans.

Section 405(a)

Subsection (a) of the new section 405 provides that a plan of an employer for the purchase for and distribution to his employees or their beneficiaries of U.S. bonds described in section 405(b) shall constitute a qualified bond purchase plan if—

(1) the plan meets the requirements of section 401(a) (other than pars. (1), (2) and (12)) and, if applicable, the requirements of section 401(d) (other than pars. (1), (6)(B), and (8)); and

(2) contributions under the plan are used solely to purchase for employees or their beneficiaries the U.S. bonds described in section 405(b).

A qualified bond purchase plan can be established by an employer for his employees without the creation of a trust but, if such a plan is established, only the special bonds can be purchased under the plan. A qualified trustee plan can also purchase the special bonds together with other assets but the plan must qualify under section 401 as a pension or profit-sharing plan.

In general, a qualified bond purchase plan must meet the same qualification requirements as a qualified annuity plan. However, section 401(d) (6)(B) and (8) is not applicable to a qualified bond purchase plan and, consequently, there is no limit on the amount of contributions in excess of those which are deductible that may be made under the plan.

Section 405(b)

Subsection (b)(1) of the new section 405 describes the special bond which can be purchased under a qualified bond purchase plan. Such paragraph provides that such a bond is a bond issued under the Second Liberty Bond Act, as amended, which by its terms, or by regulations prescribed by the Secretary of the Treasury under the Second Liberty Bond Act—

(A) provides for payment of interest or investment yield only upon redemption;

(B) may be purchased only in the name of an individual;

(C) ceases to bear interest, or provide investment yield, not later than 5 years after the death of the individual in whose name it is purchased;

(D) may be redeemed before the death of the individual in whose name it is purchased only if such individual—

- (i) has attained the age of 59½ years, or
 - (ii) has become disabled (within the meaning of sec. 213(g)(3)); and
- (E) is not transferable.

Subsection (b)(2) of the new section 405 provides that bonds purchased under a qualified bond purchase plan must be purchased in the name of the employee for whom it is purchased.

Section 405(c)

Subsection (c) of the new section 405 provides that contributions paid by an employer to or under a qualified bond purchase plan shall be deductible in an amount determined under section 404(a) in the same manner and to the same extent as if such contributions were made to a qualified trust described in section 401(a) which is exempt from tax under section 501(a). Thus, for contributions to a qualified bond purchase plan to be deductible under section 405(c), all of the requirements of section 404 must be met. For example, the contributions must meet the requirements of section 162 or 212, and must be made (or deemed to have been made under sec. 404(a)(6)) in a taxable year of an employer which ends with or within a year of the bond purchase plan for which it qualifies under section 405. If the amount of the contributions to the qualified bond purchase plan are determined by reference to the profits of the employer, as in the case of a qualified profit-sharing plan, the amount deductible with respect to such contributions is determined under section 404(a)(3), relating to qualified profit-sharing plans. Moreover, such a bond purchase plan shall be considered a profit-sharing plan for purposes of the provision in section 404(a)(3) relating to a situation when contributions are made to two or more profit-sharing trusts. In other cases, the amount deductible with respect to contributions to a qualified bond purchase plan will be determined under section 404(a)(1). If the qualified bond purchase plan covers owner-employees, the amount deductible with respect to contributions to the plan is subject to the further limitations of section 404(e) applicable to owner-employees. Similarly, in the case of a qualified bond purchase plan covering owner-employees, the special rules in section 404(a)(9) for computing the limitations with respect to deductions for contributions under the plan shall be applicable. Thus, the carryover provisions of section 404(a) are not applicable with respect to contributions made under a qualified bond purchase plan by or for owner-employees.

Section 405(d)

Subsection (d)(1) of the new section 405 provides that no amount is includible in the gross income of a distributee at the time a bond described in section 405(b) is distributed to him under a qualified bond purchase plan or from a qualified trust. Upon the redemption of such a bond, however, the proceeds are subject to taxation under chapter 1 of the Internal Revenue Code of 1954. In applying chapter 1, for purposes of determining the amount of tax due, the provisions of sections 72 and 1232 shall not be applied. In other words, the bonds described in section 405(b) received under a qualified bond purchase plan or from a qualified trust are not subject to tax until they are redeemed. In addition, upon redemption, no part of the proceeds will be taxable at capital gains rates under section 1232.

Subsection (d)(2) of the new section 405 provides rules for determining the basis of any bond received by a distributee under a qualified bond purchase plan. If the bond was purchased for an employee within the meaning of common law, the basis of such bond shall be an amount equal to the amount of the contributions made under the plan by the employee himself which were used to purchase the bond. If the bond was purchased for an employee at a time when he was a self-employed individual, the basis of such bond is an amount equal to the amount of the contributions used to purchase the bond which were made by or for such employee and which were not allowed as a deduction under section 405(c). Such subsection (d)(2) further provides that the basis of a bond described in section 405(b) which is received by a distributee from a qualified trust shall be determined under regulations prescribed by the Secretary or his delegate.

Section 405(e)

Subsection (e) of the new section 405 provides that the capital gains treatment of section 402(a)(2) shall not apply to any of the bonds described in section 405(b) and that, for purposes of applying section 402(a)(2) to amounts distributed by a qualified trust, any such bonds distributed to any distributee and any such bonds to the credit of any employee shall not be taken into account. In other words, for purposes of applying section 402(a)(2), a distribution under a qualified trust may be considered a total distribution of an employee's interest in such trust even though the trust retains bonds described in section 405(b). In the case of a distribution from a qualified trust which qualifies for the capital gains treatment of section 402(a)(2) and which includes both bonds of the type described in section 405(b) and other property, the capital gains treatment will be applicable to such other property. In no case, however, will the capital gains treatment be applicable to the proceeds received as a result of the redemption of any of the bonds described in section 405.

Section 405(f)

Subsection (f) of the new section 405 provides that, for purposes of section 405, the term "employee" includes an individual who is a self-employed individual within the meaning of section 401(c)(2), and the employer of such individual shall be the person treated as his employer under section 401(c)(5). Such subsection (f) has the effect of enabling the self-employed individual to participate in a qualified bond purchase plan to the same extent that he may participate in qualified pension, annuity, and profit-sharing plans.

Section 405(g)

Subsection (g) of the new section 405 provides that, at the time of the purchase of any of the bonds described in section 405, proof of such purchase shall be furnished in such form as will enable the purchaser, and the employee in whose name such bond is purchased, to comply with the provisions of section 405.

Section 405(h)

Subsection (h) of the new section 405 provides that the Secretary of the Treasury or his delegate shall prescribe such regulations as may be necessary to carry out the provisions of section 405.

SECTION 6. PROHIBITED TRANSACTIONS

Section 6 of the bill amends section 503 of the Internal Revenue Code of 1954 to provide a special definition of the term "prohibited transaction" in the case of certain qualified employees' trusts covering owner-employees. This special definition is only applicable when the owner-employees covered by the qualified employees' trust control the trade or business with respect to which the trust is established.

Section 6 of the bill adds to section 503 a new subsection (j) which provides that, in the case of a trust described in section 401(a) which is part of a plan covering owner-employees (as defined in sec. 401(c)(4)) who control the trade or business with respect to which the plan is established, the term "prohibited transaction" means, in addition to the transactions described in section 503(c), any transaction in which such trust, directly or indirectly—

(A) lends any part of the corpus or income of the trust to;

(B) pays any compensation for personal services rendered to the trust to;

(C) makes any part of its services available on a preferential basis to; or

(D) acquires for the trust any property from, or sells any property to;

any person described in section 503(c) or to any such owner-employee, a member of the family (as defined in sec. 267(c)(4)) of any such owner-employee, or a corporation controlled by such owner-employee through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

For purposes of determining whether owner-employees covered under a qualified employees' trust control the trade or business with respect to which such trust is established, the rules in section 401(d)(9)(B) are to be applied.

Paragraph (2) of the new subsection (j) provides that, for purposes of the new definition of "prohibited transaction" in paragraph (1), the following rules are to apply with respect to a loan made before the date of the enactment of the bill which would be a prohibited transaction if made in a taxable year beginning after December 31, 1961:

(A) if any part of the loan is repayable prior to December 31, 1964, the renewal of such part of the loan for a period not extending beyond December 31, 1964, on the same terms, shall not be considered a prohibited transaction.

(B) if the loan is repayable on demand, the continuation of the loan beyond December 31, 1964, shall be considered a prohibited transaction.

SECTION 7. OTHER SPECIAL RULES, TECHNICAL CHANGES, AND ADMINISTRATIVE PROVISIONS

Section 7 of the bill provides certain technical amendments and administrative provisions.

Section 7(a) of the bill amends section 37 of the Internal Revenue Code of 1954, relating to the retirement income credit, to make clear that any distribution to a self-employed individual under a qualified

pension, annuity, or profit-sharing plan, and any income derived by any person from the bonds described in section 405(b) received under a qualified bond purchase plan or from a qualified trust, may qualify as retirement income for purposes of such credit.

Section 7(b) of the bill amends section 62 of the Internal Revenue Code of 1954, relating to the definition of "adjusted gross income," to provide that, in computing adjusted gross income, there shall be allowed, in the case of a self-employed individual, the deductions allowed under sections 404 and 405 for contributions by or for such an individual to a qualified pension, annuity, profit-sharing, or bond-purchase plan.

Section 7(c) of the bill amends section 101(b) of the Internal Revenue Code of 1954, relating to employees' death benefits. Paragraph (1) of section 7(c) amends section 101(b) so that the rule applicable to distributions under a qualified annuity plan will only apply if the annuity plan meets the new qualification requirements of section 401 (a) and (d) applicable to annuity plans.

Paragraph (2) of section 7(c) amends section 101(b) by adding a new paragraph (3), which provides, in effect, that the death benefits exclusion provided by section 101(b) does not apply to amounts which are paid under a qualified pension, profit-sharing, or annuity plan, if such amounts are paid with respect to an individual who was a self-employed individual during any of the time he was covered by the plan.

Section 7(d) of the bill amends section 104(a) of the Internal Revenue Code of 1954, relating to compensation for injuries or sickness, to make clear that the exclusion of such section is not applicable to any benefits which are attributable to contributions to a qualified pension, annuity, or profit-sharing plan made by or for an individual while he was a self-employed individual, to the extent that such contributions were deductible under section 404.

Section 7(e) of the bill amends section 105 of the Internal Revenue Code of 1954, relating to amounts received under accident and health plans, by adding a new subsection (g) which provides that, for purposes of section 105, the term "employee" does not include an individual who is a self-employed individual within the meaning of section 401(c) (2). For example, if at the time an individual commences to receive benefits described in section 105 from a qualified pension plan, he is covered under such plan as a self-employed individual, such benefits do not qualify for the exclusion of section 105.

Section 7(f) of the bill amends section 172(d)(4) of the Internal Revenue Code of 1954, relating to net operating loss deductions, to make clear that any deduction under sections 404 or 405 attributable to contributions on behalf of a self-employed individual under a qualified employees' plan shall not be treated as attributable to the trade or business of such individual for purposes of section 172.

Section 7(g) of the bill makes conforming amendments to section 805 of the Internal Revenue Code of 1954, relating to pension plan reserves of life insurance companies.

Section 7(h) of the bill amends section 1361 of the Internal Revenue Code of 1954, relating to unincorporated business enterprises electing to be taxed as domestic corporations, to permit a partner or proprietor of such an unincorporated business to participate in a qualified pension, annuity, profit-sharing, or bond-purchase plan. However, for pur-

poses of applying all the provisions relating to such qualified plans, such a partner or proprietor shall be considered a self-employed individual and will be considered an employee only to the extent he is so considered under section 401(c)(2).

Section 7(i) of the bill amends section 2039 of the Internal Revenue Code of 1954, relating to exemption from gross estate of annuities under certain trusts and plans. Paragraph (1) of section 7(i) amends section 2039(c)(2) to provide that the exclusion of the value of an annuity under a qualified annuity plan will be applicable only if the annuity plan meets the additional qualification requirements of section 401 (a) and (d). Paragraph (2) of section 7(i) amends section 2039(c) by adding at the end thereof a new sentence which provides that, for purposes of section 2039(c), contributions or payments on behalf of the decedent while he was a self-employed individual within the meaning of section 401(c)(2) made under a qualified pension, annuity, or profit-sharing plan shall be considered to be contributions or payments made by the decedent. Accordingly, the estate tax exclusion of section 2039(c) is not applicable to the portion of a decedent's interest in a qualified plan which is attributable to contributions made by or for an individual while he was a self-employed individual.

Section 7(j) of the bill amends section 2517 of the Internal Revenue Code of 1954, relating to exclusion from gift tax in case of certain annuities under qualified plans, in the same manner as section 7(i) of the bill amends the estate tax exclusion with respect to qualified plans.

Sections 7 (k) and (l) of the bill amend section 3306(b)(5) of the Internal Revenue Code of 1954 (relating to the Federal Unemployment Tax Act) and section 3401(a)(12) of such code (relating to the withholding of income tax). These amendments make conforming changes and exclude from the definition of "wages" under such sections any payment made to, or on behalf of, an employee or his beneficiary under or to a bond-purchase plan which, at the time of such payment, is a qualified bond-purchase plan described in section 405(a).

Section 7(m) of the bill amends the Internal Revenue Code of 1954 to add a new section 6047, giving the Secretary or his delegate authority to require the furnishing of additional information which is necessary to administer the new provisions in this bill. Section 7(m) of the bill also amends section 7207 of the 1954 code to provide penalties for willfully furnishing false or fraudulent information.

SECTION 8. EFFECTIVE DATE

Section 8 of the bill provides that the amendments made by this bill will be applicable to taxable years beginning after December 31, 1961.

MINORITY VIEWS

H.R. 10 is concerned with the important subject of the establishment of tax-deferred retirement programs by the self-employed with respect to themselves and their employees. The purported purpose of the legislation is to establish a reasonable identity in the tax treatment of these individuals with respect to retirement plans as is accorded to corporate employees under present law.

The legislation makes a gesture toward tax equity in this area but unfortunately fails to achieve sufficient identity of treatment. Because the bill does not accomplish its intended purpose and because of the present fiscal posture of the Federal Government, the revenue loss from the enactment of the bill estimated by the Treasury Department at \$358 million in the first full year of operation cannot be condoned at this time. The signatories to these views urge that the supporters of this legislation endeavor to have it taken into account in future Government budgeting so that its effect on fiscal balance need not be considered as a factor in evaluating the merits of the bill.

We recognize that an inequity does exist in present law in that certain of our citizens are allowed, and others are not, to participate in tax deferred pension plans. H.R. 10 would not equalize the tax treatment of our citizens in providing for retirement security but would instead result in the existence of different methods of tax treatment operating side by side, each applicable to a different group of taxpayers.

For example, these disparities would either be continued or created under this legislation: (1) Individuals working for self-employed employers not employing as many as four persons could continue to be discriminated against and precluded from participating in a retirement program; (2) contributions with respect to employees would be limited to earned income whereas contributions with respect to the self-employed would be on self-employment income, including both earnings and return on investment in the business; (3) lump-sum distributions in the case of the self-employed would be treated as ordinary income whereas such distributions to employees would be accorded capital gain treatment; (4) the vesting of an interest in a program would vary so that in the case of the self-employed and their employees (if four or more employees) a nonforfeitable right would attach immediately, but in the case of other types of beneficiaries such right may be forfeitable or nonforfeitable; and (5) various sets of limitations affecting coverage, contributions, and distributions would exist under the different statutory tests that would be applicable.

In seeking to ameliorate the present acknowledged discrimination in tax treatment with respect to retirement security, we must necessarily endeavor to achieve substantially similar treatment of all taxpayers. H.R. 10 would create more disparities than it would remove. In the area dealt with by this bill the details are important and we cannot responsibly limit our concern only to basic general principles.

It is entirely possible that precedents would be created under this legislation that could potentially unduly restrict programs to be established under the new authority or tend to impair existing programs. The fact that there is a problem to be solved in this area does not mean that we accept just any solution.

In the above enumeration of disparities reference was made in item (2) to the fact that contributions with respect to employees would be restricted to a percentage relation to earned salaries whereas in the case of the self-employed the restriction would apply to a percentage relation to self-employment income. It is significant to note that \$100 million of the \$358 million revenue loss is attributable to this more liberal definition of income for the self-employed.

The present version of H.R. 10 contains numerous and significant changes from the versions that have been previously considered by the House. Because this is a different bill, we are of the view that the committee did not give the careful consideration to the changes that they required.

For the above-stated reasons, we are constrained to oppose the enactment of H.R. 10 in its present form.

**SELF-EMPLOYED INDIVIDUALS TAX RETIREMENT
ACT OF 1961 [1962]** ²

[Senate Report No. 992, Eighty-seventh Congress, First Session, Calendar No. 973]

[September 13, 1961]

MR. SMATHERS, from the Committee on Finance, submitted the following report together with minority views to accompany H.R. 10.

The Committee on Finance, to whom was referred the bill (H.R. 10) to encourage the establishment of voluntary pension plans by self-employed individuals, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

I. SUMMARY OF BILL

Your committee's bill, which is in the form of a substitute for the House bill, is designed to encourage the establishment of voluntary retirement plans by self-employed persons by allowing self-employed individuals to be covered by qualified plans and by extending to them some of the favorable tax benefits present law now provides in the case of qualified retirement plans established by employers for their employees. To accomplish this purpose, self-employed persons are treated for retirement plan purposes as the employers of themselves. This was the fundamental concept of the House bill and it is retained in your committee's substitute. As employers, self-employed individuals are permitted, like other employers, to deduct contributions (within specified limits) made to pension or profit-sharing plans for the benefit of themselves and such other employees as may be covered under the plan. As employees, as with other employees, they are not taxed on such contributions made for their benefit, or the income thereon, until they receive the funds upon retirement or otherwise. Benefits for the self-employed individual may not, under either

¹ Public Law 87-792, page 89, this Bulletin.

² Enacted, October 10, 1962, as the "Self-Employed Individuals Tax Retirement Act of 1962."

the House bill or your committee's substitute, begin before age 59½ (except in case of early disability or death) nor later than age 70½. The retirement income credit will apply to retirement benefits distributed to self-employed individuals.

By treating self-employed individuals as employees under retirement plans there are brought into play (although with material modification) most of the statutory and administrative rules presently applicable to such plans. In addition, your committee's substitute also establishes additional rules to govern retirement plans which cover self-employed individuals.

Generally, a self-employed person who owns more than a 10-percent interest in his business (described as an owner-employee by the bill) is allowed under this bill to contribute each year to a retirement plan for himself up to 10 percent of his earned income for that year or \$2,500, whichever is smaller. However, not all of the amount actually contributed for a self-employed person may be deducted for tax purposes. Rather, the first \$1,000 so contributed and 50 percent of the contribution in excess of \$1,000 may be deducted each year. This means that an owner-employee who makes the maximum annual contribution of \$2,500 may deduct \$1,750 of that amount. In order for an owner-employee to participate in a retirement plan under your committee's bill, it is necessary that he provide retirement benefits for his employees if he has any. The plan may not exclude any employee (other than part-time, seasonal and temporary employees) who has at least 3 years of service. Contributions for employees must meet the nondiscriminatory rules of existing law, and for this purpose a self-employed person is considered an employee. Thus, the plan ordinarily could not permit a greater proportion of covered earnings to be contributed for a self-employed person than for his employees. Another requirement of your committee's substitute is that contributions for employees must be nonforfeitable at the time they are made. These are tighter rules than under existing law, but your committee is convinced they are essential in order to prevent retirement plans of owner-employees from becoming purely income-averaging devices and to insure that contributions made for their employees do not inure to the benefit of owner-employees. Moreover, since a self-employed person would be treated as an employee under the bill, and would be covered by an employee's retirement plan, your committee believes it is fair that he be required also to cover all his employees under the same plan and to give them the same vested rights to contributions made for them as he in fact has with respect to amounts contributed on his behalf.

If the self-employed person is a partner who does not own more than a 10-percent interest in the business (and thus is not an owner-employee), the bill does not limit the amount which the partnership may contribute for him under a retirement plan, provided contributions or benefits for him are not discriminatory under the plan formula. Nonetheless, the amount of this contribution which he may deduct for tax purposes is limited by the same rule as applies to owner-employees. Under this rule the self-employed individual could deduct the full amount of the first \$1,000 of his contribution plus 50 percent of the remainder. If the plan does not cover any owner-employee (in other words, if no partner owns more than a 10-percent interest in capital or profits) the new requirements of the bill with respect to coverage of

employees, and vesting, will not apply. However, in such a case the plan would have to meet the conditions of existing law as to coverage and nondiscrimination.

The retirement fund which this measure allows self-employed persons to establish may be lodged with a bank as trustee (or as custodian if contributions are invested in stock of an "open-end" regulated investment company or in policies issued by an insurance company); it may be invested in nontransferable annuities with an insurance company or in nontransferable face amount certificates; or it may be invested in a new series of U.S. Government bonds authorized for this purpose. These new bonds will be nontransferable, nonredeemable before age 59½ (except in case of disability or death) and issued only in the names of individuals. They are intended to provide a convenient and simple form of investment for retirement funds.

More than 7 million self-employed persons who pay income taxes would be permitted to establish retirement plans under this bill. Because self-employed persons generally have only a limited number of employees, their retirement plans will ordinarily be much smaller in scope than most of the corporate plans already in existence. Thus they would, if present law rules were not supplemented, offer somewhat greater opportunities for abuse than do corporate plans covering many employees. For this reason, tighter rules for retirement plans covering owner-employees are believed to be necessary. Several such rules were included in the House bill but they applied only where there were more than three employees. Your committee has accepted the suggestion of the Treasury Department that these rules be applied to all plans covering owner-employees. Thus, owner-employees are required to cover all of their employees who have more than 3 years of service if the owner-employee desires to participate in a retirement plan. Under existing law, some employees could be excluded under a nondiscriminatory classification and the plan could exclude all employees who had less than 5 years of service. Also, contributions made for employees of owner-employees must be nonforfeitable at the time they are made.

In addition, a new rule for coordinating retirement plans with social security is provided if an owner-employee is covered by the plan. Under this rule, the owner-employee will take into account only the employer portion of the social security tax. Under the more liberal provisions of existing law, the employer generally may take into account social security benefits not attributable to the employee portion of the social security tax.

The following chart compares the principal provisions of the House bill and of your committee's substitute.

SUMMARY COMPARISON OF PRINCIPAL PROVISIONS OF HOUSE BILL AND FINANCE COMMITTEE SUBSTITUTE

House bill

Finance Committee substitute

1. Basic concept

Self-employed persons generally would be treated as employees for retirement plan purposes and are eligible for coverage in qualified plans. All separate businesses controlled by a self-employed person would be considered as one business for his retirement plan purposes.

Same as House bill.

2. Coverage for employees of self-employed individuals

Self-employed persons establishing pension plans for themselves would be required to cover employees in the plan only if they have more than three employees. In this case all full-time employees, with more than 3 years of service would have to be covered under nondiscriminatory retirement plans set up under the rules of present law with certain modifications to cover self-employed individuals. Seasonal, part-time, and temporary employees could be excluded. Applicable only to more-than-10-percent owners.

Self-employed persons establishing retirement plans for themselves would be required to cover all full-time employees with more than 3 years of service. Seasonal, part-time, and temporary employees could be excluded. Applicable only to more-than-10-percent owners.

3. Base for deduction

Self-employment earnings. This term means net earnings from trade or business of a self-employed person, including return on capital invested in the trade or business, as well as income for personal services.

Earned income. This term means professional fees and other compensation for personal services. Where both capital and personal services are material income-producing factors, the term means 30 percent of the income from the business or up to \$2,500 whichever is greater.

4. Amount deductible annually by self-employed individuals

(a) Ten percent of self-employment earnings or \$2,500, whichever is less, in the case of self-employed individuals with three or fewer employees. Applicable only to more-than-10-percent owners.

(b) An amount proportional to contributions made for employees, in the case of self-employed persons who have had more than three employees in any year. No maximum dollar limitation. Applicable only to more-than-10-percent owners.

(c) A self-employed person who does not own more than 10 percent of his business could contribute and deduct any amount determined under a nondiscriminatory plan formula.

(a) A self-employed person who is a more-than-10-percent owner could contribute to a retirement plan 10 percent of his earned income or \$2,500, whichever is the lesser. He could deduct the full amount contributed, up to \$1,000 and 50 percent of the amount over \$1,000 which may be contributed. Maximum deduction would be \$1,750.

(b) A self-employed person who does not own more than 10 percent of his business could contribute to a retirement plan any amount determined under a nondiscriminatory plan formula. He could deduct the full amount contributed up to \$1,000 and 50 percent of the amount over \$1,000. No maximum dollar limitation imposed.

5. Vesting

(a) In plans covering self-employed persons with more than three employees, immediate vesting would be required. Applicable only to more-than-10-percent owners.

(b) In plans covering self-employed persons with three or fewer employees, no provision.

In plans covering self-employed persons immediate vesting would be required with respect to amounts contributed for employees. Applicable only to more-than-10-percent owners.

6. *Coordination with social security*

(a) Coordination would be permitted for plans covering self-employed persons with more than three employees if contributions for such self-employed persons do not exceed one-third of the total deductible contributions. Plan is given credit only for actual social security contributions made by the employer. Applicable only to more-than-10-percent owners.

(b) In case of self-employed persons with three or fewer employees, no provision.

Coordination would be permitted for plans covering self-employed persons if contributions for self-employed persons do not exceed one-third of the total contributions. Plan is given credit only for actual social-security contributions made by the employer. Applicable only to more-than-10-percent owners.

7. *No capital gains treatment*

Special averaging provided instead of capital gains treatment with respect to lump-sum distributions received by self-employed persons.

Same as House bill.

8. *Estate and gift-tax exclusions*

Self-employed individuals not eligible for estate and gift-tax exclusions.

Same as House bill.

9. *Limitation on time of payment of benefits*

Benefits could not be payable to more-than-10-percent owners before age 59½ (except in the case of permanent disability or death) but must begin before age 70½.

Same as House bill.

10. *Face-amount certificates*

Investment in nontransferable face-amount certificates permitted.

Same as House bill.

11. Custodial account

Custodial account in a bank is permitted in lieu of trust if investments are solely in regulated investment company stock.

Custodial account in a bank is permitted in lieu of trust if investments are solely in regulated investment company stock or life insurance policies. In this connection the committee included in the term "bank" various institutions regulated by State banking authorities.

12. Bond purchase plan

Direct deductible investment in special issue of non-transferable retirement bonds would be permitted.

Same as House bill.

13. Attribution rules

No provision.

Contains provision designed to prevent an individual from avoiding the special rules applying to owner-employees by fragmenting ownership interests among his spouse, descendants, and ancestors.

14. Effective date

Taxable years beginning after December 31, 1961.

Same as House bill.

II. REASONS FOR THE BILL

The primary reason for the House bill (as amended by your committee) is to give self-employed persons access to retirement plans on a reasonably similar basis to that accorded corporate stockholder employees. It thus tends to correct a discrimination in present law under which self-employed individuals—sole proprietors and partners—are prevented from participating in retirement plans established for the benefit of their employees although owner-managers of corporations may do so. Self-employed individuals have contended for many years they are treated unfairly under present law.

Several House-passed bills referred to your committee in prior Congresses would have allowed self-employed individuals to deduct amounts contributed by them toward the purchase of a "restricted retirement policy," or to a "restricted retirement trust," for their own benefit without requiring them to provide any retirement benefits for their employees. These measures did not treat self-employed persons as if they were employees, but were designed to equate, roughly, the tax benefits allowed qualified employee retirement plans under present law. In 1960, at the request of your committee, the Treasury Department submitted an approach to the retirement problem of self-employed persons which was different from earlier legislative proposals. In effect the approach submitted by the Treasury Department would have granted self-employed individuals tax treatment comparable to that received by employees now covered by qualified pension plans by permitting them to participate in pension plans in much the same manner as employees. This approach, however, not only would have imposed additional restrictions on the participation of self-employed persons in qualified pension plans but also would have imposed similar restrictions on the participation of corporate owner-managers in such plans. Neither the House bill nor your committee's substitute would restrict participation by owner-managers in retirement plans established by a corporation. With this exception, your committee's substitute substantially adopts the approach presented last year by the Treasury Department.

The bill allows contributions to retirement plans to be a deduction for income tax purposes at the time these contributions are made, but requires that retirement benefits when received be subject to taxation. Your committee's substitute, like the House bill, thus allows deferment of tax on certain forms of savings set aside for retirement, but limits the amount of these retirement savings of self-employed persons which are so treated. Since the self-employed person is viewed as both an employer and as an employee, this deferral is consistent with present law, under which employers are permitted to deduct contributions to qualified pension plans for their employees, while employees are not required to include in their incomes such contributions, or the income thereon, until they are received as benefits under the plan.

Your committee, like the Committee on Ways and Means of the House, is of the opinion that extending the coverage of individuals under voluntary retirement plans is in the public interest. The bill will make self-employment somewhat more attractive than at present compared to employment with a corporation, and will thus help to keep small business strong and independent professional practice

thriving. In many cases, self-employed individuals are prohibited by State law from operating their trade or business in the form of a corporation. Thus, in these cases, there is no possibility that a self-employed person could obtain the benefits of a retirement plan under existing law by forming a corporation to conduct his trade or business and becoming its employee. Although a number of States recently have enacted new legislation to eliminate some of the obstacles to professional corporations and associations, your committee believes it desirable to provide by Federal legislation that a self-employed individual may participate in employee retirement plans without becoming an artificial employee of his own corporation. Thus, professional individuals could continue to practice their profession in the traditional manner; that is, as self-employed individuals. Moreover, this legislation would ease the pressure on State legislatures to enact special professional corporation laws.

III. PRESENT LAW

Present law accords favorable tax treatment to pension and profit-sharing plans established for the exclusive benefit of employees or their beneficiaries. Employees covered under qualified plans are not taxed currently on contributions made on their behalf to these plans by their employers nor on the income from amounts so contributed. Instead, the employees generally include the benefits from such plans in taxable income only in the year they are received or made available.

The deferral of tax on retirement benefits until ultimate distribution applies whether or not the employee has vested (nonforfeitable) rights in the contributions made on his behalf. Typically, under corporate plans the employee does not have immediate vested rights to all such contributions, although plans vary considerably; they range from immediate vesting to vesting after attaining a certain number of years of service or attaining a specified age, or upon actual retirement.

The income of trusts established to administer qualified pension plans is exempt from income tax. Similarly, the Life Insurance Company Income Tax Act of 1959 granted exemption to income on insurance reserves established in connection with qualified pension plans. In addition, under present law, employers are permitted to take tax deductions (within specified limits) for their contributions to qualified plans. The law grants this favored tax treatment only to retirement plans which do not discriminate as to coverage, contributions, or benefits in favor of employees who are stockholders, officers, or supervisors, or employees who are highly compensated.

A qualified retirement plan cannot provide a higher rate of contribution or benefit for higher paid employees than for lower paid employees, or for shareholder employees than for those who are not shareholders. However, the dollar amount of benefits or contributions for the higher paid employees may be larger than for the lower paid employees, provided that such amounts constitute a uniform percentage of the compensation of participants.

Under appropriate circumstances, the private plan may be integrated with the social security system; if thus integrated, the proportion of social security benefits not attributable to the employee's own contributions is taken into consideration in determining whether the

contributions or benefits paid by the private plan meet the nondiscrimination test. Under the law and administrative rules the benefits of the higher paid employees, after being combined with a designated portion of social security benefits, must not be larger in relation to salary than the similarly combined benefits of lower paid employees.

Under existing law more than 66,000 corporate pension plans have been established. These plans cover more than 20 million employees and have, at the present time, somewhat more than \$40 billion in assets. Corporations contribute more than \$4 billion per year to qualified retirement plans.

IV. REVENUE EFFECT

The revenue loss under your committee's bill is estimated to amount to \$65 million for fiscal year 1962 and \$180 million in a full year of operation. The estimated cost of H.R. 10 as passed by the House was \$125 million for fiscal year 1962 and \$325 million to \$358 million in a full year of operation.

The lower cost of your committee's bill is due primarily to the following factors: (a) The basis for the retirement contribution deduction for the self-employed is earned income, while under the House bill the basis was net earnings from self-employment; (b) for those self-employed individuals electing coverage all full-time employees with more than 3 years of service would have to be covered, whereas under the House-passed bill only owner-employees with more than three employees were subject to this requirement; and (c) the amount of retirement contributions for self-employed which may be deducted is limited to 100 percent of the first \$1,000 contributed and 50 percent of the remaining contribution permitted, and the maximum allowable deduction for owner-employees is \$1,750; under the House bill self-employed persons with three or fewer employees were permitted to contribute, and deduct, up to 10 percent of self-employment earnings or \$2,500, whichever was smaller, while for self-employed persons with more than three employees, there was no dollar limitation provided the ratio of contributions for the self-employed to their self-employment earnings did not exceed the ratio of contributions to wages for any of their employees.

V. EFFECTIVE DATE

Your committee's substitute, like the provisions of the House bill, are made applicable to taxable years beginning after December 31, 1961.

VI. GENERAL EXPLANATION OF BILL

A. SELF-EMPLOYED PERSONS AS OWNER-EMPLOYEES

The bill as reported by your committee provides a series of special requirements for qualification of retirement plans which cover self-employed individuals (sole proprietors and partners) having more than a 10-percent interest in the business with respect to which the plan is established. Under your committee's substitute, as under the House bill, such self-employed individuals are characterized as "owner-employees". In the case of a partnership where no partner owns more than 10 percent of the business, the self-employed indi-

viduals are also permitted to participate in pension plans, but because they are not owner-employees, plans covering them will, in general, be governed by the nondiscriminatory rules of present law, except where the bill imposes additional restrictions on self-employed individuals generally. In some situations, the bill imposes reactions upon all self-employed persons regardless of their percentage of ownership. (For example, limitation on the amount of contribution which may be deducted, denial of capital-gains treatment on lump-sum distribution, and the denial of the estate and gift tax exclusions.)

B. SELF-EMPLOYED RETIREMENT PLANS

Subject to limitations, your committee's bill would allow self-employed individuals (including partners) to be covered in qualified retirement plans. This would permit self-employed individuals to secure the benefits of current tax deductions, plus a tax-free buildup of pension fund investments, by establishing a plan which meets the requirements of the Internal Revenue Code. The bill treats plans covering self-employed persons under additional new rules established for that purpose.

Under your committee's bill, in the case of an owner-employee, the plan must provide retirement benefits for all employees (except part-time and seasonal employees) who have more than 3 years' service and contributions for such employees must be vested at the time they are made. Although the present law provides that some employees may be excluded from pension plan coverage on the basis of a "reasonable classification," and specifically provides that a plan may cover only salaried or clerical workers, your committee believes it desirable to require an owner-employee to cover all of his employees except seasonal, temporary, and part-time workers, and full-time employees who have less than 3 years of service. With these exceptions employees must be covered whether they are salaried employees or wage earners, and whether or not they work in different departments or enterprises. Under present law, retirement plans can exclude employees with up to 5 years of service, and contributions for employees are not required to be vested. If there are no employees, a self-employed individual would be permitted to establish a retirement plan for himself.

Your committee understands that some self-employed individuals have established pension plans for their employees under existing law (although they, themselves, cannot participate under them). The self-employed individuals would become "employees" upon enactment of this bill, and in most cases they would be "owner-employees". In the absence of specific provision for these cases, plans covering owner-employees would be required to meet all the tests of this bill or lose tax-favored status. These plans were created with no thought of coverage of their self-employed creators and it may be that for reasons of their own, the self-employed owners would not desire to be covered by their plans. In such cases, it would be unjust to impose the restrictions of this bill upon these plans. Thus, your committee has provided that owner-employees must "consent" to be covered by their plans before the special rules of this bill will apply.

C. EARNED INCOME

The measuring rod for deductible contributions for self-employed persons under your committee's bill is "earned income". This means that contributions by or for a proprietor or partner may be made under a qualified retirement plan only if he performs personal services. Since the objective of such a plan is to provide retirement benefits based on personal services, inactive owners who derive their income entirely from investments would not be allowed to participate. This concept of earned income is designed to place proprietors and partners on the same basis as corporate shareholders who can participate in a qualified retirement plan under present law only if they are employees of the corporation. Contributions to a retirement plan for self-employed individuals who are engaged in activities involving significant capital investment are based only on that part of the business income which is attributable to personal services. Thus, under the bill, "earned income" is defined generally as income from self-employment, but where such income is derived from a trade or business in which both capital and personal services are material income-producing factors, the term means not more than 30 percent of the net profits from the trade or business or \$2,500, whichever is the greater, except that where net profits of a proprietor or partner from his trade or business are \$2,500 or less, the entire amount of such profits is deemed to be earned income.

Under this concept of "earned income" the entire amount received by a self-employed individual as professional fees or commissions will be treated as earned income if the taxpayer is engaged in the practice of a profession, such as medicine or law, even though he employs assistants to perform part or all of the services, provided the patients or clients are those of the taxpayer and look to him as the person responsible for the services rendered. Your committee's bill permits doctors and ministers as well as certain people who perform services for compensation in their own homes and commissioned salesmen (other than full-time life insurance salesmen who are treated under present law as employees for pension purposes) to participate even though they do not have self-employment income within the meaning of the Internal Revenue Code.

The following illustrations indicate the determination of earned income in various situations:

1. A doctor has net profit of \$40,000 from professional services. His patients look to him as the person responsible for the services rendered. The full amount of this net profit constitutes earned income.

2. A self-employed grocer has net profit of \$40,000 from his wholly owned retail grocery business. Both capital and personal services are material income-producing factors. His earned income is \$12,000 (30 percent of \$40,000).

3. A gasoline service station operator has net profit from his wholly owned unincorporated service station of \$2,400. Both capital and personal services are material income-producing factors. Under the bill, the entire amount of such net profit is deemed to be earned income since it does not exceed \$2,500.

4. A contracting partnership composed of three partners who share equally in its profits has partnership net profit of \$22,500. Both

capital and personal services are material income-producing factors. Of the \$7,500 attributable to each partner, \$2,500 constitutes earned income (30 percent of \$7,500, or \$2,500 whichever is greater, where each partner's share of net profits exceeds \$2,500).

5. A and B are partners in a stock brokerage firm. A supplies all necessary capital but performs no personal services. B has no capital interest, but performs all personal services required by the firm. They share profits equally. Both capital and personal services are material income-producing factors. The firm has net profit from brokerage commissions of \$50,000 and total net profit from all sources of \$70,000.

A has no earned income from the partnership since he performed no personal services.

B has earned income of \$10,500 (30 percent of \$35,000).

D. LIMITATIONS ON CONTRIBUTIONS AND DEDUCTIONS FOR SELF-EMPLOYED

The bill restricts the amount of deductible contributions which may be made by or for a self-employed individual covered by a plan.

Owner-employee.—If the owner-employee has employees, in order for him to make any contribution for his own retirement needs he must provide nonforfeitable retirement plan coverage for all his employees who have more than 3 years' service. Having established a qualified plan for himself and his employees, an owner-employee under the bill is permitted to contribute for himself up to 10 percent of his earned income or \$2,500, whichever is the lesser, provided that contributions for himself are not discriminatory as compared to contributions for his employees under the plan formula. However, under your committee's bill he is not permitted to deduct the full amount allowed to be contributed. Rather, the deductible portion is subject to additional limitations. These limitations provide that amounts actually contributed, up to \$1,000, may be deducted in full, but that only 50 percent of allowable contributions in excess of \$1,000 which are made may be deducted. Thus, in the case of an owner-employee who makes the maximum allowable contribution of \$2,500 the deductible amount is limited to \$1,750 (100 percent of \$1,000 plus 50 percent of \$1,500, or \$750).

The following examples illustrate the application of these limitations in the case of an owner-employee:

Example 1: A commission salesman has earned income of \$23,000. He has no employees. Under the bill he establishes a qualified retirement plan under which he will be the only beneficiary. The plan calls for contributions of 10 percent of earned income. The salesman contributes to the plan \$2,300 (10 percent of \$23,000). Of this amount he may deduct \$1,650 (100 percent of the first \$1,000 contributed plus 50 percent of the remaining \$1,300 contributed, or \$650).

Example 2: A real estate broker with four full-time employees has earned income of \$30,000 from commission selling. He anticipates that it will continue at or above that level. All employees have more than 3 years' service. Two of the employees earn \$4,000 each, the other two earn \$10,000 each. He establishes a qualified retirement plan which calls for nonforfeitable contributions for each employee who has more than 3 years' service of 10 percent of his earnings and

for contributions for owner-employees of 10 percent of earned income. Thus, for his employees, the owner-employee would contribute, and deduct, \$2,800 (10 percent of \$28,000). And, for himself, he would contribute \$2,500 (the lesser of \$2,500 or 10 percent of \$30,000). Of this amount, he would deduct \$1,750 (100 percent of the first \$1,000 contributed and 50 percent of the remaining \$1,500 which he is permitted to contribute).

If, under the circumstances described above, the real estate broker had established a plan calling for that contribution percentage which, when applied to his earned income would ordinarily produce the maximum contribution for himself at the lowest cost, the plan would call for nonforfeitable contributions for himself and for each employee of $8\frac{1}{2}$ percent of earnings. Thus, for his employees, the owner-employee would contribute, and deduct, \$2,333 ($8\frac{1}{2}$ percent of \$28,000). And, for himself, he would contribute \$2,500 (the lesser of \$2,500 or $8\frac{1}{2}$ percent of \$30,000) and deduct \$1,750 (100 percent of the first \$1,000 contributed and 50 percent of the remaining \$1,500 which he contributed).

Self-employed individuals who are not owner-employees.—Self-employed individuals who do not own more than a 10-percent partnership interest in their trade or business are limited as to the amount of contributions they may make (through the partnership) to a qualified retirement plan only by the requirement that contributions must not be discriminatory under the plan formula. Thus if such a self-employed individual has sufficient earned income in a taxable year to permit a contribution in excess of \$2,500, it may be made. However, your committee's bill imposes the same limitations as to deductibility of such contributions as those applied to contributions made by owner-employees; that is, the first \$1,000 of actual contributions may be deducted in full but only 50 percent of contributions in excess of \$1,000 may be deducted.

The following examples illustrate the application of these limitations in the case of a self-employed person other than an owner-employee:

(1) A owns a 10-percent interest in a partnership in which only personal services are a material income-producing factor. He derives earned income of \$30,000 a year from the partnership. The partnership has established a qualified retirement plan which calls for nonforfeitable contributions for employees of 10 percent of their salary and contributions for owner-employees and other self-employed individuals of 10 percent of their earned income. The partnership contributes for A \$3,000 under the plan (10 percent of \$30,000). A deducts \$2,000 (100 percent of the first \$1,000 actually contributed plus 50 percent of the remaining \$2,000).

(2) B owns a 10-percent interest in a partnership in which both capital and personal services are material income-producing factors. His income from the partnership amounts to \$30,000. His earned income is \$9,000 (30 percent of \$30,000). The partnership establishes a qualified retirement plan which calls for nonforfeitable contributions for employees of 10 percent of their salary and contributions for owner-employees and other self-employed individuals of 10 percent of their earned income. The partnership contributes for B \$900 under the retirement plan (10 percent of \$9,000) and B deducts the entire amount.

E. VESTED BENEFITS

The bill, as approved by your committee, adds new requirements to the statute relating to vesting of benefits or contributions made for employees.

In the case of owner-employees with employees, contributions for employees with more than 3 years' service must be nonforfeitable at the time they are made under a plan. This requirement is made a condition governing the qualification of a plan covering such owner-employees, and unless a provision for vesting is included in the terms of the plan a contribution for owner-employees would not be allowable nor would it be deductible. Your committee believes that because an owner-employee always has a vested right to contributions he makes to a retirement plan for his own benefit, it is only fair and equitable that he provide similar vested rights for his employees.

Your committee has provided a single, conditional exception to these vesting rules in the case of retirement plans covering owner-employees. This exception provides that the vesting requirement will not apply if the result upon termination of the plan is to provide discriminatory benefits for certain highly paid employees or owner-employees. This is an exceptional situation and your committee believes it would be appropriate to provide this special exception in order to prevent abuses.

If a plan does not cover any owner-employee, the special requirement as to vesting will not apply. In such a case where a partnership is composed of partners, none of whom owns more than a 10-percent interest, the rules of present law would apply and the plan could provide for complete vesting, partial vesting or no vesting until retirement.

F. INTEGRATION WITH SOCIAL SECURITY

Under your committee's bill, as under the House bill, retirement plans covering owner-employees may be integrated, or coordinated with social security under special rules provided by the bill. Under such integration, or coordination, the overall cost of a retirement plan might be materially reduced. Under present law as applied to qualified pension plans integration is permitted under rules which assume that the employer has paid for that portion of the social security benefit for which the employee himself has not paid.

Under this bill, if an owner-employee with employees establishes a retirement plan which meets the prescribed requirements and if allowable contributions (upon which the deduction is based) for owner-employees are not more than one-third of the total allowable contributions made under the plan, owner-employees, if they take into account the self-employment tax paid on their own behalf (or which would be paid except for the fact that such owner-employee is not covered by social security), may also take into account the employer portion of the FICA tax paid on behalf of covered employees. The method of coordinating such a pension plan and social security payments under your committee's bill is different from the method permitted by Treasury rulings under the provisions of present law. Under this bill the owner-employee may take into account only the amount of social security taxes actually paid by him for his employees

whereas the rules under present law, in effect, permit the employer to take into account social security benefits not attributable to employee taxes. The following example illustrates the application of this rule.

A and B, equal partners in a contracting business in which capital is a material income-producing factor, have five employees, each of whom has more than 3 years' service. A retirement plan is established under which employees with more than 3 years' service will be given immediate nonforfeitable rights to contributions made on their behalf. The plan calls for contributions of 10 percent of gross wages for covered employees, and of 10 percent of earned income for owner-employees, with provision for coordinating the plan with social security. Wages of employees and net profits of the partners appear in the following schedule, along with other pertinent information.

	Net profits or wages		Contribution		
	Per person	Total	10 percent of wages of employees and 10 percent of earned income of owner-employees	Credited self-employment tax and FICA tax paid by employer ¹	Net contribution under integrated plan
2 partners.....	² \$25,000	² \$50,000	\$1,500	\$451.20	\$1,048.80
3 employees.....	6,000	18,000	1,800	450.00	1,350.00
1 employee.....	6,800	6,800	680	150.00	530.00
1 employee.....	3,170	3,170	317	99.06	217.94
Total, partners.....		² 50,000	1,500	451.20	1,048.80
Total, employees.....		27,970	2,797	699.06	2,097.94
Total, partners and employees.....		77,970	4,297	1,150.26	3,146.74

¹ Self-employment tax, 4.7 percent of employer's self-employment earnings up to \$4,800; FICA tax, 3½ percent of employee earnings up to \$4,800.

² Earned income would be 30 percent of this amount.

Thus, since contributions for owner-employees after coordination with social security (\$1,048.80) do not exceed one-third of net contributions under the plan (\$3,146.74), social security and self-employment taxes may be taken into account. After coordination, \$3,146.74 must be contributed under the plan, of which \$1,048.80 is attributable to owner-employees and \$2,097.94 is attributable to employees as shown in the schedule.

The coordination rule is further illustrated in the following table for several levels of partnership earnings (net profits). The table shows in column (6) the level of employee payroll at and above which a partnership with the earnings set forth in column (1) would be permitted to coordinate its retirement plan contributions with its social security contributions, assuming 80 percent of the total payroll is subject to social security taxes.

Level of employee payroll at and above which social security coordination would be permitted in 1962 for selected levels of partnership earnings under Senate Finance Committee substitute for H.R. 10

Derivation of contribution for owner-employees					Derivation of contribution for employees,				Total contribution	
Partnership earnings ¹	Partnership earned income ²	10 percent of partnership earned income ³	Self-employment tax ⁴	Net contribution under integrated plan	Total employee payroll	10 percent of employee payroll	FICA tax on employee payroll ⁵	Net contribution under integrated plan	Total net contribution	Total deductible contribution
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
\$5,000	\$5,000	\$500	\$235.00	\$265.00	\$7,066.67	\$706.67	\$176.67	\$530.00	\$795.00	\$795.00
10,000	5,000	500	451.20	48.80	1,391.33	130.13	32.53	97.60	146.40	146.40
15,000	5,000	500	451.20	48.80	1,391.33	130.13	32.53	97.60	146.40	146.40
20,000	6,000	600	451.20	148.80	3,968.00	396.80	99.20	297.60	446.40	446.40
25,000	7,500	750	451.20	298.80	7,968.00	796.80	199.20	597.60	896.40	896.40
50,000	15,000	1,500	451.20	1,048.80	27,968.00	2,796.80	699.20	2,097.60	3,146.40	3,146.40
66,667	23,000	2,000	451.20	1,548.80	41,301.33	4,130.13	1,032.53	3,097.60	4,646.40	4,646.40
100,000	30,000	3,000	451.20	2,548.80	67,968.00	6,796.80	1,699.20	5,097.60	7,646.40	7,646.40
150,000	45,000	4,500	451.20	4,048.80	107,968.00	10,796.80	2,699.20	8,097.60	12,146.40	12,146.40
166,667	50,000	5,000	451.20	4,548.80	121,301.33	12,130.13	3,032.53	9,097.60	13,646.40	13,646.40
200,000	60,000	6,000	451.20	4,548.80	121,301.33	12,130.13	3,032.53	9,097.60	13,646.40	13,646.40
333,333	100,000	10,000	451.20	4,548.80	121,301.33	12,130.13	3,032.53	9,097.60	13,646.40	13,646.40

¹ Assumes 2 partners sharing equally in the earnings.

² Actual earnings of owner-employees with actual earnings up to \$2,500; \$2,500 for owner-employees with actual earnings between \$2,500 and \$8,333; 30 percent of actual earnings for owner-employees with actual earnings of \$8,333 and over.

³ With contribution ceiling of \$2,500 per owner-employee; it is assumed that capital is a material income-producing factor.

⁴ 4.7 percent of each partner's self-employment income up to \$4,800.

⁵ 3¼ percent of FICA taxable payroll; FICA taxable payroll assumed to be 80 percent of total employee payroll.

⁶ Figure in previous column less ½ of the net contribution for each owner-employee which falls between \$1,000 and \$2,500.

⁷ Although the data in this line were developed on the basis of a contribution percentage of 10 percent with a \$2,500 ceiling, the possibility should be noted that the owner-employees, when the earned income ascribed to each exceeds \$25,000, might establish a plan calling for a lower contribution percentage designed to produce precisely the maximum contribution permissible on their behalf--8¼ percent for an earned income of \$30,000 each and 5 percent for an earned income of \$50,000 each. If these latter percentages had been used, the payroll levels, which equate the net contribution on behalf of the owner-employees with twice that on behalf of the employees, would be \$155,959 and \$363,904, respectively.

G. METHODS OF FUNDING

Trusted plans and employee annuity plans.—As with qualified plans under present law, qualified retirement plans covering self-employed individuals or self-employed individuals and their employees may be funded either through contributions to a trust or by purchase of annuity contracts (including variable annuity contracts) directly from an insurance company. Self-employed individuals establishing such plans for themselves, or for themselves and their employees, could, if they chose to do so, use associations to pool their separate funds for investment purposes.

Custodial accounts.—In addition, your committee's bill permits the use of a custodial account, in lieu of a trust, if its investments are made solely in stock of a regulated investment company which issues only redeemable stock, or solely in life, endowment, or annuity contracts issued by an insurance company. Although a custodial account may be utilized by a retirement plan, whether or not it includes an owner-employee, it will be particularly beneficial to small owner-employee-type plans because of its lesser costs. Such lesser costs result from the fact that the bank would not be required to assume the duties and responsibilities of a trustee, but would serve only as a mere custodian of amounts contributed under retirement plans or of the policies deposited with it.

Face amount certificates.—Your committee has also made it plain that retirement funds may be invested directly in nontransferable face-amount certificates, which would be treated for retirement plan purposes as annuities. Such certificates may presently be purchased by a trusted plan under existing law, but not under nontrusted annuity plans. Your committee's bill makes it clear that such certificates may in the future be purchased in the same manner as annuities. In this respect your committee's bill includes a requirement that annuity contracts purchased by a qualified retirement plan generally must be nontransferable. This requirement applies to all pension plans whether or not an owner-employee is covered.

Bond purchase plan.—A completely new form of retirement plan involving direct investment in a new series of Government bonds is authorized by your committee's bill. The principal features of the bond purchase plan are explained in section J below.

H. CONTRIBUTORY PLANS

Under the bill, retirement plans permitting or requiring additional contributions by employees, as well as those to which the employer alone makes contributions, may be established by an owner-employee with employees. If employees who are not owner-employees are permitted to make nondeductible contributions to the plan, such an owner-employee also may make nondeductible contributions on his own behalf up to 10 percent of his earned income or \$2,500, whichever is the lesser; however, the rate of such contributions must not exceed the rate permitted for employees. In no event may such contributions by an owner-employee exceed \$2,500. Such contributions will not be deductible either by employees or by owner-employees, but must be made out of income that has already been taxed. The making of such nondeductible contributions is beneficial, however, because

the income earned thereon will not be taxed until it is received from the fund, upon retirement or otherwise. While a similar tax-free buildup can be obtained by anyone purchasing a private life insurance, endowment or annuity contract, it is likely that the return under a qualified retirement plan would be somewhat greater or premiums somewhat lower because of the special deduction allowed life insurance companies with respect to their qualified pension plan reserves which may be passed on to policyholders.

The committee bill permits voluntary nondeductible contributions to be made by owner-employees at the same rate as by employees. Owner-employees who have no employees may not establish contributory retirement plans. Thus, if an owner-employee establishes a qualified retirement plan which calls for nonforfeitable contributions of 10 percent of salary of employees and 10 percent of earned income in the case of owner-employees and other self-employed individuals and if the plan permits voluntary contributions of 10 percent of salary to be made by employees, owner-employees and other self-employed individuals would be permitted to contribute on a voluntary basis 10 percent of their earned income up to a maximum of \$2,500. If, in this case for example, the owner-employee has earned an income of \$25,000 or more, he would deposit \$2,500 as the maximum allowable "employer's" contribution and would be permitted to deposit an additional \$2,500 as a voluntary nondeductible "employee's" contribution. Of course, as previously explained, only \$1,750 of the allowable "employer's" contribution of \$2,500 would be deductible.

I. PROFIT-SHARING PLANS

Your committee's bill does not limit participation of self-employed individuals to fixed-percentage contribution pension plans. Rather, it also permits them to participate in profit-sharing plans paying retirement benefits, under which contributions may be made in profitable years, but there would be no obligation to make contributions in years of little or no profit. To avoid the abuse of making larger or smaller contributions in years when surtax rates are lower or higher, the bill requires a definite formula for determining the amount of contributions to be made on behalf of employees who are not owner-employees. Because of the special limitations on allowable and deductible contributions which may be made by owner-employees covered under a profit-sharing plan, a definite formula would not be appropriate with respect to them. Consequently, in order for an owner-employee to participate in such a plan, it must provide a definite formula only for contributions for employees.

J. BOND PURCHASE PLANS

As an alternative form of investment which will be of particular interest to small businesses contemplating pension plans, direct investment in U.S. Government securities of a new series is authorized both by the House bill and your committee's substitute. These new bonds, which must be issued in the names of the individual employees (including owner-employees) on whose behalf they are purchased (and thus will be nonforfeitable), will be nontransferable and may not be cashed until the individual in whose name the bonds

are issued has attained age 59½ (insurance age 60) or has become disabled or deceased. In order to prevent these bonds from being used for purposes other than retirement, the bill provides that interest on them must stop within 5 years after the death of the bond owner. This period corresponds generally to other provisions of the bill requiring disposition of a deceased owner-employee's interest in a retirement plan within a specified period of time after his death. The purpose of direct bond purchases under a qualified retirement plan is to avoid the expense of establishing a trust to administer the retirement fund assets. The new series of Government securities may also be purchased by the trustee of an existing pension plan if it is desired to make that form of investment.

Where a pension plan has invested in these retirement bonds, the bill provides that no income will be realized by the employee at the time the bonds are distributed to him; rather, the principal and interest on the bonds will be included in the employee's income at the time they are redeemed. Although these new bonds may be purchased by anyone, their cost will be deductible for income tax purposes only if they are purchased under a qualified bond purchase plan or by a qualified retirement plan. The amount deductible is to be determined in the same manner as if the cost of the bond were a contribution to a qualified retirement trust, except that the special rules relating to excess contributions in the case of owner-employee type plans do not apply. Those rules are considered inappropriate to qualified bond purchase plans not only because the special bonds might be purchased by anyone (and not solely for retirement purposes) but also because the denominations in which the bonds might be issued will not necessarily correspond to the amount which might be contributed and deducted by an owner-employee. Under the bond purchase plan as passed by the House and approved by your committee, income realized on the redemption of the special bonds (principal and interest where the cost of the bond was deducted, interest only in other cases) will always be taxed at ordinary rates. Moreover, there would be no capital gains treatment on a lump-sum distribution of these special bonds to an individual covered by a qualified pension trust. By making the earliest redemption date for these bonds age 59½, except in the case of death or disability, these bonds will generally be unattractive to ordinary investors because they may hesitate to freeze their capital for long periods of time.

K. EXCESS CONTRIBUTIONS

The bill as reported by your committee provides certain penalties where excess contributions are made under a pension plan on behalf of an owner-employee. Generally, under the bill, an excess contribution is an amount greater than the total of (1) allowable contributions, upon which the deductible amount is based, and (2) permitted voluntary contributions which in no case are deductible. The bill requires that any such excess contributions must be returned to the owner-employee on whose behalf it was made, together with income earned on the excess contribution. The income so returned will be taxable to the self-employed person for whom the contribution was made. If an excess contribution is not repaid within 6 months after notification has been received that the contribution was excessive, the plan

is temporarily disqualified (until the excess is returned) with regard to the person on whose behalf the excess contribution was made and he is taxed on the annual income earned by the entire fund in the plan which is attributable to his interest. Where an excess contribution is willfully made, however, the entire interest of the individual on whose behalf it was made in all plans in which he participated as an owner-employee (including the corpus allocated to his account) is required to be distributed to him, and he is further disqualified from participating in any pension plans as an owner-employee for a 5-year period. Furthermore, no opportunity is given to repay a willful excess contribution and escape the consequences.

Your committee has added an exception to the foregoing rules under which an owner-employee (but not a self-employed individual who is not an owner-employee) would be permitted to purchase annuity or life insurance or endowment policies on his life from an insurance company at level premiums without fear of making an excess contribution. Under this exception, an owner-employee would be permitted to contribute each year toward the purchase price of his policy up to an amount equal to the amount he would have been allowed to contribute on the basis of his average earned income for 3 years preceding issuance of the last such policy under the plan. Thus, for example, if an owner-employee who has earned income of \$10,000 per year for a 3-year period contracts for a life insurance policy on his own life, and the annual premium thereon is \$1,000, he may continue to contribute the amount of the premium annually even though his earned income falls below \$10,000. Moreover, under this amendment if his earned income subsequently were to increase to an average of \$15,000 per year for a 3-year period he could purchase additional policies calling for annual premiums of \$500. Thereafter, he could continue to pay the premium of \$1,500 per year despite a future drop in his earned income. However, amounts contributed under this exception will be deductible only to the extent that they are related to earned income for the taxable year. Thus, for example, while an individual under this rule may be permitted to purchase an annuity contract for a level premium of \$1,000 a year, none of that purchase price would be deductible if the self-employed individual actually had no earned income for the taxable year. As previously explained, amounts contributed under a qualified bond purchase plan are not subject to the excess contribution rules. For reasons similar to those there stated, your committee is of the opinion that exception from the excess contributions rules in the case of life insurance, endowment or annuity contracts issued on the life of an owner-employee also is desirable. Moreover, this exception is limited so that under no circumstances could the owner-employee obtain under one or more retirement plans level-premium policies requiring annual payments of more than \$2,500. If he does so, he forfeits the benefits of this exception and the entire amount of the premiums (not merely the amount in excess of \$2,500), would be subject to the excess contribution rules.

L. PAYMENT OF BENEFITS TO OWNER-EMPLOYEES

Your committee's bill, like the House bill, requires that retirement plans established by owner-employees for their own benefit, or for

the benefit of themselves and their employees, may not begin paying retirement benefits to owner-employees before they reach age 59½ (insurance age 60) except in the event of death or disability. Under your committee's bill an individual is considered disabled if he is unable to engage in any substantial gainful activity because of a medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. Distribution of retirement benefits, however, must begin not later than 70½ (insurance age 70) in the case of owner-employees, and not later than age 70½ or the year in which he retires in the case of employees and self-employed individuals other than owner-employees. If an owner-employee dies, his remaining interest in the retirement plan must be (1) distributed to beneficiaries within 5 years from the date of his death or, if later, the death of his spouse, (2) used within 5 years to purchase an immediate annuity which will be payable over the beneficiary's life or over a period no longer than the beneficiary's life expectancy or (3) paid out under a plan of distribution already commenced, over a period no longer than the life expectancy of the employee or the joint life expectancy of the employee and his spouse.

If the distribution is made under alternative (1), above, and is completed within 1 taxable year of the beneficiary, the distribution would be treated under the special rules of the bill relating to lump-sum distributions and the special 5-year-averaging device would apply. (See subdivision Q.) On the other hand, if the distribution is made as permitted by alternative (2), above, there would be no tax due upon distribution to the beneficiary of the annuity contract, but he would be taxable at ordinary income tax rates on amounts received by him under the annuity contract. Distributions under alternative (3), above, would be taxable at the time payments are received by the beneficiary under the annuity contract.

Your committee added the third alternative in order to eliminate the needless cancellation of one annuity contract and the issuance of another one which would pay out over the same period as the original.

M. PREMATURE DISTRIBUTIONS

A tax penalty is imposed by the House bill, and by your committee's substitute, in cases where a premature distribution of all or part of the retirement fund is made before the owner-employee reaches age 59½ or becomes disabled. Under both bills, in these cases, if the premature distribution amounts to \$2,500 or more, the tax imposed would not be less than 110 percent of the increase in tax that would have resulted if the income had been received ratably over the 5 years ending with the year of distribution. If the premature distribution amounts to less than \$2,500, the tax due would be 110 percent of the increase in tax resulting from inclusion of the entire amount of the premature distribution in gross income for the current year. In either event, the taxable income for the year in which the distribution occurs is treated as being not less than the excess of the amount of the distribution includible in gross income over the deductions allowable for personal exemptions. Any resulting increase in tax can be reduced only by the credit for withheld taxes. As a further penalty in case of a premature distribution, the owner-employee is disqualified from

participating in a retirement plan on his own behalf for 5 years following the year in which the distribution is made. These penalties are imposed in order to prevent retirement plans from, in effect, becoming income-averaging plans under which deductible contributions would be made to the plan in high-income, high-tax years and the assets would be drawn down in low-income or loss years when little or no tax would be due. It is the purpose of this bill to provide means for financing retirement; these penalties are designed to insure that retirement plans will not be used for other purposes.

N. TWO OR MORE BUSINESSES

An owner-employee (or a group of two or more owner-employees) who controls more than one business would be required under the bill to group together all controlled business activities, and coalesce them, for the purpose of determining whether all employees of the owner-employee are covered by a retirement plan, and also for the purpose of insuring that the limitations on contributions are not exceeded. Under this requirement, an owner-employee could not make contributions under two or more retirement plans, which, when totaled together, would exceed \$2,500, nor could he deduct more than \$1,750 in any taxable year. Thus, an owner-employee may not exceed the limitations on deductible contributions by splitting his activities among two or more businesses and establishing retirement plans in each, nor could he divide his businesses and set up a retirement plan in one business in which, for example, he is the only employee.

The bill also provides that an individual who is an owner-employee in a business (whether or not he controls the business) and is also an owner-employee of another business which he controls may not be covered under the plan of the first business unless he has established a plan for the employees of the business which he controls. The plan for the business which he controls must provide contributions and benefits for employees which are at least as favorable as the contributions and benefits provided for owner-employees under the plan of the first business.

O. CONSTRUCTIVE OWNERSHIP

Your committee's bill includes rules (not included in the House bill) which attribute to a self-employed individual ownership interests in a trade or business which are held by his spouse or minor children. The bill also provides that an individual who owns any interest in a business or is an employee of the business is to be attributed with ownership interests in the business which are owned by his ancestors or lineal descendants. This will insure that no individual will be able to avoid the special requirements of the bill by arguing that he is not an "owner-employee," but merely an employee of a business owned by these close relatives. For example, although other provisions of law permit formation of valid family partnerships, by donation of ownership interests under which income will be taxed to the various family partners rather than to the donor of the ownership interests, your committee believes that for retirement plan purposes, such a donor should be treated as continuing to own the interests he has given to these close relatives.

P. ANNUITY TREATMENT FOR DISTRIBUTIONS

As under present law and under the House bill, retirement benefits under your committee's bill, when paid to individuals as annuities under qualified plans would be taxable as ordinary income except to the extent that they have been financed by nondeductible contributions in which case benefits would be taxable under existing rules which allow individuals to recover their capital invested in a retirement contract free of tax.

Q. ESTATE AND GIFT TAX EXEMPTION

With respect to the estate and gift tax exemption in the case of retirement plan benefits, your committee's bill, like the House bill, does not change present law as it applies to ordinary employees, including owner-managers of corporations. However, the bill does not extend these exemptions to the self-employed (whether or not they are owner-employees) insofar as contributions were made to the plan by or for the individual while he was a self-employed person. The estate and gift tax exclusions will continue to apply with respect to any employer contributions made while the individual was not a self-employed person.

R. LUMP-SUM DISTRIBUTIONS

While your committee's bill does not extend to self-employed individuals (whether or not they are owner-employees) capital gains treatment on certain lump-sum distributions from retirement plans, such treatment is not denied to employees of the self-employed, who are treated in the same manner as employees of corporations. Under both the House bill and your committee's substitute, a self-employed individual will receive capital gains treatment on that portion of a lump-sum distribution which is attributable to any employer contributions made on his behalf while he was not a self-employed person. Capital-gain treatment is not allowed for lump-sum distributions derived from contributions as a self-employed person, but a special averaging device provides for the taxing of such lump-sum distributions received by self-employed individuals after age 59½ or received before age 59½ because of disability or death. Under the bill, the tax on such a distribution is five times the increase in tax resulting from adding 20 percent of such distribution to other taxable income, or by treating 20 percent of the distribution (reduced only by personal exemptions for the year) as taxable income. In this way some protection from the graduated rates of the individual income tax is given to those individuals who receive such a lump-sum distribution.

S. PROHIBITED TRANSACTIONS

The bill tightens the prohibited transaction rules of present law with respect to trusts forming part of pension plans covering owner-employees who control the business by means of a more than 50-percent ownership interest. Substantially identical rules were contained in the House bill. In these situations, since the owner-employee is, in effect, dealing with himself, your committee has pro-

vided that the owner-employee may not borrow from a trust he has established, may not buy from or sell property to that trust, and may not charge any fees for services he renders to the trust. It may be extremely difficult to review the activities of the large number of small trusts that may be established under this bill, and for these reasons your committee's bill prohibits owner-employees from engaging in any transaction with their own retirement trusts.

T. SUMMATION OF REQUIREMENTS FOR OWNER-EMPLOYEE PLANS

In summary, retirement plans covering owner-employees must meet the following requirements or qualifications in addition to those which present law requires of all retirement plans:

(1) If it is a trustee plan, the trustee must be a bank or similar institution with fiduciary powers, but another person (who may be the employer) may be given power to control investments of the trust fund.

(2) In the case of owner-employees, benefits may not be payable before the owner-employee reaches age 59½, except in the case of severe disability or death, and benefit payments must begin before he reaches age 70½; in the case of self-employed individuals other than owner-employees, and employees of self-employed individuals benefits must be payable at age 70½ or retirement whichever is later. Benefits in the foregoing cases may, under regulations, be payable over a period no longer than the life expectancy of the employee (including owner-employees) or the life expectancy of the employee and his spouse.

(3) In the case of plans of owner-employees with employees, contributions for employees must be nonforfeitable at the time they are made.

(4) In the case of a profit-sharing plan, a definite formula for determining employee contributions must be provided.

(5) Plans covering owner-employees must provide contributions for each full-time employee who has 3 years of employment.

(6) An owner-employee must consent to be covered by the plan.

(7) No excess contribution may be made.

(8) Where an owner-employee has employees, the plan may be coordinated with social security (under special rules) only if allowable contributions for him are not more than one-third of the total contributions made under the plan.

(9) If an owner-employee dies, his entire interest must within 5 years be (a) distributed to designated beneficiaries, (b) used to provide immediate annuities for them, or (c) paid out, under a plan of distribution already commenced, to a beneficiary over the life expectancy of the owner-employee or over the joint life expectancy of the owner-employee and his spouse.

(10) Excess contributions, if made, must be returned to the person who made them, and income earned by the plan which is attributable to the interest of an owner-employee with respect to whom an excess contribution was not timely returned must be taxed to the owner-employee.

(11) For purposes of qualifying the plan and determining what limitations are applied to contributions for owner-employees, two or

more businesses controlled by an owner-employee or by a group of owner-employees must be considered as a single business.

(12) Contributions on behalf of any owner-employee must be determined on the basis of his earned income from the trade or business with respect to which the retirement plan is established.

VII. PROVISIONS OF BILL MADE APPLICABLE TO ALL RETIREMENT PLANS

Vesting on termination of plan; forfeiture.—The bill adds two new paragraphs to section 401(a) of the code which have the effect of codifying certain regulations and administrative practices of the Internal Revenue Service. These new paragraphs will apply to all pension plans, not merely those which cover self-employed persons, but because these practices have been in effect for many years, it is understood that no existing employee retirement plans would be invalidated by the addition of these rules to the statute.

The first of these new paragraphs requires that, upon termination of the plan or complete discontinuance of contributions thereto, the rights of all employees then covered by the plan must be nonforfeitable.

The second of these two new paragraphs imposed upon all retirement plans makes it plain that forfeitures of nonvested funds must not be used to increase the benefits any employee would otherwise receive under the plan.

Face amount certificates.—Under the bill nontransferable face amount certificates may in the future be purchased by nontrusteed retirement plans (including plans established by corporations). The present rules permit trustees to invest in such certificates, unless prohibited by local law. Because such certificates so closely resemble term-certain annuity contracts, your committee believes they should be permissible investments in the same manner as annuity contracts.

Nontransferable annuity contracts.—Your committee has added a provision to the bill under which annuity contracts issued under a qualified retirement plan after 1961 must be nontransferable, except where it is owned by a trustee of a qualified plan.

Custodial accounts.—Custodial accounts in a bank may be employed as a medium for funding qualified retirement plans of corporations, as well as plans covering self-employed persons. This provision of your committee's bill requires that funds in the custodial account must be invested either in stock of a regulated investment company or in annuity, endowment, or life insurance policies issued by an insurance company. This provision will enable many retirement plans to reduce their costs of administration since the bank will not have to perform the duties and accept the responsibilities of a trustee.

VIII. MISCELLANEOUS PROVISIONS OF THE BILL

The bill permits self-employed individuals to qualify for the retirement-income credit on the basis of distributions from qualified retirement plans. However, it does not permit self-employed persons to qualify either for the \$5,000 death-benefit exclusion or for the sick-pay exclusion. Those provisions were enacted for the benefit of employees as contrasted to the self-employed and it is not the purpose of this bill to treat self-employed individuals as employees

except for retirement-plan purposes. However, the bill does allow a self-employed individual to exclude from his gross income under section 104 of the code amounts received through accident or health insurance for personal injuries or sickness, to the extent that such amounts are attributable to his own nondeductible contributions.

Where pension contributions take the form of the purchase of annuities, any loans against these contracts by an owner-employee are treated as distributions and any repayments of such loans are treated as contributions. In addition, if any portion of a trust or of a contract is assigned or pledged by an owner-employee that portion is also treated as a distribution from the trust or under the plan. Without these rules, an owner-employee could, in effect, obtain premature access to a substantial portion of the pension funds being accumulated for his retirement.

The bill makes it plain that the deduction for contributions made to a retirement plan by a self-employed individual on his own behalf may not be used to create or increase a net operating loss, and that owners of unincorporated businesses which elect to be taxed as corporations may participate in qualified retirement plans only in their capacity as self-employed persons. The bill also makes it clear that amounts contributed to a qualified retirement plan by a self-employed individual which are deductible, are treated as deductions from gross income in computing adjusted gross income. Thus, a self-employed individual may take this deduction and still qualify for the standard deduction.

IX. TECHNICAL EXPLANATION

1. SECTION 1. SHORT TITLE

The first section of the bill provides that the act may be cited as the "Self-Employed Individuals Tax Retirement Act of 1961."

2. SECTION 2. QUALIFICATION OF PLANS

Section 2 of the bill amends section 401 of the Internal Revenue Code of 1954 to provide that self-employed individuals may be covered under qualified pension and profit-sharing plans. In addition, section 2 amends section 401 to add additional requirements which must be met in order for a trust forming part of a plan covering self-employed individuals who own more than 10 percent of the business to qualify under section 401. There are also added to section 401 two additional requirements which must be met by all qualified trusts and plans and one additional requirement which must be met by qualified trusts and plans covering self-employed individuals.

Section 401(a)

Existing section 401(a)(5) of the code provides that a plan shall not be considered discriminatory merely because the contributions or benefits under the plan bear a uniform relationship to the "total compensation, or the basic or regular rate of compensation," of the employees covered under the plan. Paragraph (1) of section 2 of the bill amends section 401(a)(5) to provide that, for purposes of that section and section 401(a)(10), the total compensation of a self-employed individual is such individual's earned income (as defined in sec. 401(c)(2)), and that the basic or regular rate of compensation of such

an individual is that portion of his earned income which bears the same ratio to his total earned income as the basic or regular compensation of the employees (other than self-employed individuals) benefited under the plan bears to their total compensation. This ratio is to be computed in accordance with regulations prescribed by the Secretary or his delegate.

Existing section 401(a) of the code sets forth the requirements which a pension, profit-sharing, or stock bonus trust must meet in order to constitute a qualified trust. Paragraph (2) of section 2 of the bill adds additional requirements (new pars. (7) to (10), inclusive).

The new paragraph (7) of section 401(a) provides that a trust will not qualify unless the plan of which it is a part provides that, upon its termination or upon complete discontinuance of contributions under the plan, each employee benefited under the plan will have an immediate vested right to so much of his benefits under the plan as have accrued and have been funded at the time of the termination or discontinuance or, in the case of a money purchase plan, will have an immediate vested right to the amounts credited to his account as of the date of the termination or discontinuance. This provision is not to be applicable, however, to benefits or contributions which, pursuant to regulations prescribed by the Secretary or his delegate to preclude discrimination, may not be used for designated employees in the event of early termination of the plan. For example, this provision would not require vesting when certain officers or highly compensated employees are, at the inception of the plan, within a few years of retirement age and the granting of vested rights to such employees upon termination of the plan shortly after they reach retirement age would result in the plan being discriminatory in favor of such officers or highly compensated employees.

The new paragraph (8) of section 401(a) provides that a trust forming part of a pension plan will not qualify unless the plan of which it is a part provides that forfeitures must not be applied to increase the benefits any employee would otherwise receive under the plan. Therefore, if the plan calls for future contributions, the forfeitures must be used to reduce such contributions.

The new paragraph (9) of section 401(a) provides that, in the case of a plan which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1), a trust will not qualify unless, under the plan of which it is a part, the entire interest of each employee either (A) will be distributed to him not later than his taxable year in which he attains the age of 70½ years, or, in the case of an employee other than an owner-employee (as defined in sec. 401(c)(3)), in which he retires, whichever is the later, or (B) will be distributed, commencing before the close of such taxable year, (i) over the life of such employee or over the lives of such employee and his spouse, or (ii) over a period not extending beyond the life expectancy of such employee or over the life expectancy of such employee and his spouse. For these purposes, the Secretary or his delegate is to issue regulations prescribing the specific conditions under which these requirements will be considered to be met.

The new paragraph (10) of section 401(a) provides that, in the case of a plan which provides contributions or benefits for any owner-employee (as defined in sec. 401(c)(3))—

Section 401(a)(3) and the first and second sentences of section 401(a)(5) shall not apply, but—

(i) such plan shall not be considered discriminatory within the meaning of section 401(a)(4) merely because the contributions or benefits of or on behalf of employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, and

(ii) such plan shall not be considered discriminatory within the meaning of section 401(a)(4) solely because under the plan contributions described in section 401(e)(3)(A) which are in excess of the amounts which may be deducted under section 404 (determined without regard to sec. 404(a)(10)) for the taxable year may be made on behalf of any owner-employee.

In addition, subparagraph (B) of the new section 401(a)(10) provides that a trust forming part of a plan covering a self-employed individual owning more than a 10-percent interest in the business must, in order to qualify under section 401, also meet the new requirements of section 401(d).

Section 401(c)

Paragraph (3) of section 2 of the bill adds a new subsection (c) to section 401(a) of the code, which contains certain definitions and rules relating to self-employed individuals and owner-employees.

(1) *Definition of "employee."*—Under the present law, a qualified plan can cover only those individuals who are employees under common law. Paragraph (1) of the new subsection (c) defines the term "employee" to include, for any taxable year, a self-employed individual who has earned income (as defined in sec. 401(c)(2)) for the taxable year.

To the extent provided by regulations of the Secretary or his delegate, the term "employee" also includes, for any taxable year—

(A) an individual who would be an employee within the meaning of the first sentence of section 401(c)(1) but for the fact that the trade or business carried on by such individual did not have net profits for the taxable year, and

(B) an individual who has been an employee within the meaning of the first sentence of section 401(c)(1) for any prior taxable year.

(2) *Definition of "earned income."*—Paragraph (2) of the new subsection (c) contains a definition of "earned income." Subparagraph (A) provides that such term means the net earnings from self-employment (as defined in sec. 1402(a)) to the extent that such net earnings constitute earned income as defined in section 911(b) but determined with the application of subparagraph (B) of the new subsection (c)(2), but such net earnings and earned income shall be determined with certain modifications. The first of these modifications provides that doctors and certain ministers, who are not subject to the tax on self-employment income, shall be treated, for this purpose, as being engaged in a trade or business from which net earnings from self-employment are derived. The second modification provides that certain individuals described in section 3121(d)(3) who are not employees but who are not subject to the tax on self-employment income shall be

similarly treated. The third modification provides that amounts which are not otherwise includible in gross income shall not be included in an individual's net earnings from self-employment.

Subparagraph (B) of the new subsection (c)(2) provides that, in applying section 911(b) of the code for purposes of determining the "earned income" of a self-employed individual who is engaged in a trade or business in which both personal services and capital are material income-producing factors and with respect to which the individual actually renders personal services on a full-time, or substantially full-time, basis, so much of his share of the net profits of such trade or business as does not exceed \$2,500 shall be considered as earned income. Such subparagraph (B) also provides that, in the case of any such individual who is engaged in more than one trade or business with respect to which he actually renders substantial personal services, if with respect to all such trades or businesses he actually renders personal services on a full-time, or substantially full-time, basis, there shall be considered as earned income with respect to the trades or businesses in which both personal services and capital are material income-producing factors (A) so much of his share of the net profits of such trades or businesses as does not exceed \$2,500 reduced by (B) his share of the net profits of any trade or business in which only personal services is a material income-producing factor. When a self-employed individual is engaged in two or more trades or businesses in which both personal services and capital are material income-producing factors, the \$2,500 must be allocated among such trades or businesses, but in no case shall the individual be considered to have earned income from a trade or business in excess of his share of the net profits of such trade or business.

Section 911(b) provides that, in the case of a taxpayer engaged in a trade or business in which both personal services and capital are material income-producing factors, such individual's earned income from such trade or business shall not exceed 30 percent of his share of the net profits of such trade or business. Subparagraph (B) provides that its provision shall not be construed to reduce the amount of an individual's earned income below that which he would be considered to have under section 911(b). The application of subparagraph (B) may be illustrated by the case of an individual who is engaged on a full-time basis in a trade or business in which both personal services and capital are material income-producing factors and whose net profits from the trade or business for the taxable year are \$6,000. Under section 911(b), such individual would be presumed to have received not more than \$1,800 of earned income from such trade or business (30 percent times \$6,000). However, under subparagraph (B) such individual is considered to have received \$2,500 of earned income from such trade or business.

(3) *Definition of "owner-employee."*—Certain of the provisions of the bill are applicable only to owner-employees or to plans covering owner-employees. Paragraph (3) of the new subsection (c) defines the term "owner-employee" to mean an employee who—

(A) owns the entire interest in an unincorporated trade or business, or

(B) in the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership.

To the extent provided in regulations prescribed by the Secretary or his delegate, the term owner-employee also means an individual who has been an owner-employee within the meaning of section 401(C)(3).

(4) *Definition of "employer."*—In order to qualify under section 401, a plan must be a plan of an employer. Paragraph (4) of the new subsection (c) provides that, for this purpose, an individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. Similarly, a partnership shall be treated as the employer of its partners.

(5) *Rules of constructive ownership.*—Paragraph (5) of the new subsection (c) provides rules of constructive ownership for determining who is an owner-employee and for determining in certain other situations an individual's ownership interest. Under such paragraph (5), an individual shall be treated as owning any interest in an unincorporated trade or business which is owned, directly or indirectly, by his spouse or minor children. This rule is applicable whether or not such individual himself owns any interest in the trade or business. In addition, when an individual owns any interest in an unincorporated trade or business or is an employee of such trade or business, he shall also be treated as owning any interest in such unincorporated trade or business, which is owned, directly or indirectly, by his ancestors or by his lineal descendants. Paragraph (5) provides, however, that any interest treated as owned by any individual by reason of such paragraph shall not be treated as owned by him for the purpose of applying such paragraph in order to make any other individual the constructive owner of such interest. For the purpose of paragraph (5), a legally adopted child or an individual is treated as a child of such individual by blood.

Section 401(d)

Paragraph (3) of section 2 of the bill also adds a new subsection (d) to section 401, which sets forth additional requirements which must be met in order for a trust-forming part of a pension or profit-sharing plan providing contributions or benefits for any owner-employees to qualify under section 401.

(1) *Trustee must be a bank.*—Paragraph (1) of the new subsection (d) provides that, in the case of a trust which is created on or after the date of the enactment of the bill, or which was created before such date but is not exempt as a qualified trust on the day before such date, the trustee must be a bank. However, paragraph (1) provides that a person (including the employer) other than a bank may be granted, under the trust instrument, the power to direct the investment of the trust funds. Paragraph (1) is not applicable to a trust created or organized outside the United States before the date of the enactment of the bill if, under section 402(c), such trust is treated as exempt from tax under section 501(a) on the day before such date. Such paragraph (1) defines the term "bank" to mean (A) a bank as defined in section 581, and (B) a corporation which under the laws of the State of its incorporation is subject to supervision and examination by the commissioner of banking or similar officer, and (C) in the case of a foreign trust, a bank or trust company, wherever incorporated, exercising fiduciary powers and subject to supervision and examination by governmental authority.

(2) *Vesting*.—Paragraph (2)(A) of the new subsection (d) provides that, in the case of a plan which provides contributions or benefits for employees some or all of whom are owner-employees, each employee's rights to or derived from the contributions under the plan must be nonforfeitable at the time such contributions are paid to or under the plan. The requirement of vesting shall not apply to contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by section 401(a)(4), may not be used to provide benefits for designated employees in the event of early termination of the plan.

(3) *Profit-sharing plans*.—Paragraph (2)(B) of the new subsection (d) also provides that in the case of a profit-sharing plan which provides contributions or benefits for employees some or all of whom are owner-employees, there must be a definite formula for determining contributions to be made to the trust by the employer on behalf of employees other than owner-employees.

(4) *Required coverage*.—Paragraph (3) of the new subsection (d) provides that, in the case of a plan which provides contributions or benefits for an owner-employee who owns more than 10 percent of the business, the trust forming a part of such plan shall constitute a qualified trust under section 401 only if such plan benefits each employee having a period of employment of 3 years or more. For the purpose of determining whether an individual is an employee for whom a covered owner-employee is required to provide benefits, the new paragraph (3) provides that the term "employee" does not include any employee whose customary employment is for not more than 20 hours in any one week or is for not more than 5 months in any calendar year.

(5) *Consent to being included*.—Paragraph (4)(A) of the new subsection (d) provides that, under the plan, contributions or benefits must not be provided for any owner-employee unless such owner-employee has consented to being included under the plan.

(6) *Time of distribution*.—Paragraph (4)(B) of the new subsection (d) provides that, under the plan, no benefits may be paid to any owner-employee, except in the case of his disability (within the meaning of sec. 213(g)(3)), prior to his attaining age 59½.

(7) *Contributions for owner-employees*.—Paragraph (5) of the new subsection (d) provides that the plan must not permit—

(A) contributions to be made by an employer for any owner-employee in excess of the amounts which may be deducted under section 404 (determined without regard to sec. 404(a)(10)) for the taxable year;

(B) in the case of a plan which covers only owner-employees, contributions to be made on behalf of any owner-employee in excess of those which are deductible under section 404 (without regard to sec. 404(a)(10)) for the taxable year (i.e., contributions by an owner-employee in his capacity as an employee may not be made); and

(C) if a distribution under the plan is made to any owner-employee before such owner-employee attains the age of 59½ or becomes disabled, contributions to be made on behalf of such owner-employee for the 5 taxable years succeeding the taxable year in which such distribution is made.

Such paragraph (5) also provides that subparagraphs (A) and (B) shall not apply to any contribution which is excepted from the definition of excess contribution contained in section 401(e)(1) by reason of the application of section 401(e)(3).

(8) *Coordination with social security.*—Paragraph (6) of the new subsection (d) provides that a plan providing contributions or benefits for any owner-employee must, except as otherwise provided in such paragraph (6), satisfy the requirements of section 401(a)(4) without taking into account, for any purpose, contributions or benefits under chapter 2 (relating to the tax on self-employment income), chapter 21 (relating to Federal Insurance Contributions Act), title II of the Social Security Act, as amended, or any other Federal or State law. Such paragraph (6) further provides that, if—

(A) of the contributions deductible under section 404 (determined without regard to sec. 404(a)(10)) for the taxable year, not more than one-third is deductible by reason of contributions by the employer for owner-employees; and

(B) taxes paid by the owner-employees under chapter 2 (relating to tax on self-employment income), and the taxes which would be payable under such chapter 2 by the owner-employees but for paragraphs (4) and (5) of section 1402(c), are taken into account as contributions by the employer on behalf of such owner-employees,

then taxes paid under section 3111 (relating to tax on employers) with respect to an employee may, for purposes of section 401(a)(4) be taken into account as contributions by the employer for such employee under the plan.

(9) *Distribution after death.*—Under paragraph (7) of the new subsection (d), the plan must provide that, after the death of an owner-employee, his remaining interest in the plan must be either distributed to his beneficiary within 5 years, or used within that period to purchase an immediate annuity for his beneficiary which will be distributed immediately to such beneficiary or beneficiaries. A similar rule is provided if distribution of the interest of an owner-employee has been commenced to his surviving spouse, and the surviving spouse dies before the entire interest is distributed. However, such paragraph (6) shall not apply if distribution of the interest of an owner-employee has commenced and such distribution is for a term certain over a period permitted under section 401(a)(9)(B)(ii).

(10) *Repayment of excess contributions.*—Paragraph (8) of the new subsection (d) provides that, under the plan—

(A) any excess contribution, together with the income attributable thereto, is (except in the case of a willfully made excess contribution) to be repaid to the owner-employee on whose behalf such excess contribution was made;

(B) if for any taxable year the plan does not, by reason of section 401(e)(2)(A), meet (for purposes of sec. 404) the requirements of section 401(d) with respect to an owner-employee, the income for the taxable year attributable to the interest of such owner-employee under the plan is to be paid to such owner-employee; and

(C) the entire interest of an owner-employee is to be repaid to him, when required by section 401(e)(2)(E) (relating to willful excess contributions).

(11) *Control of more than one trade or business.*—Paragraph (9)(A) of the new subsection (d) provides that, if the plan provides contributions or benefits for an owner-employee who controls, or two or more owner-employees who together control, the trade or business with respect to which the plan is established, and who also control as an owner-employee or as owner-employees one or more other trades or businesses, such plan and the plans established by such other trades or businesses must constitute one overall plan which meets the requirements of section 401 (a) (including the new paragraph (10) of section 401(a) and section 401(d)), with respect to the employees of all such trades or businesses.

Paragraph (9)(B) of the new subsection (d) provides that an owner-employee, or two or more owner-employees, shall be considered to control a trade or business if such owner-employee, or such two or more owner-employees together—

(i) own the entire interest in an unincorporated trade or business, or

(ii) in the case of a partnership, own more than 50 percent of either the capital interest or the profits interest in such partnership.

For purposes of determining his ownership interest, an owner-employee, or two or more owner-employees, shall be treated as owning any interest in a partnership which is owned, directly or indirectly, by a partnership which such owner-employee, or such two or more owner-employees, are considered to control within the meaning of paragraph (9)(B).

(12) *Owner-employee benefited under more than one plan.*—Paragraph (10) of the new subsection (d) provides that a plan must not provide contributions or benefits for any owner-employee who controls (within the meaning of sec. 401(d)(9)(B)), or for two or more owner-employees who together control, as an owner-employee or as owner-employees, any other trade or business, unless the employees of each trade or business which such owner-employee or such owner-employees control are included under a plan which satisfies the requirements of section 401(a) (including sec. 401(a)(10)) and section 401(d), and provides contributions and benefits for employees which are not less favorable than contributions and benefits provided for owner-employees under the plan.

The application of such paragraph (10) may be illustrated by the following example:

Example.—X, a self-employed individual, is a 15 percent partner in the XYZ partnership and is the owner of the P company, a sole proprietorship. The pension plan of the XYZ partnership must not provide contributions or benefits for X unless the employees of the P company are included under a pension plan of that company which satisfies the requirements of section 401(a) (including sec. 401(a)(10)) and section 401(d), and which provides contributions and benefits for employees which are not less favorable than contributions and benefits provided for X under the plan of the XYZ partnership. This requirement must be met whether or not X is included under the plan of the P company.

(13) *Contributions limited to the earned income from the trade or business.*—Paragraph (1) of the new subsection (d) provides that, under the plan, contributions on behalf of any owner-employee may

be made only with respect to the earned income of such owner-employee derived from the trade or business with respect to which the plan is established.

Section 401(e)

Paragraph (3) of section 2 of the bill adds a new subsection (e) to section 401, which contains a definition of "excess contribution" and which sets forth the consequences of making such an excess contribution. For the purpose of determining whether an excess contribution has been made on behalf of any owner-employee in a taxable year, there must be taken into account all other contributions made on behalf of such owner-employee for such taxable year.

(1) *Definition of "excess contribution".*—Paragraph (1) of the new subsection (e) defines the term "excess contribution" for purposes of section 401. Except as otherwise provided in section 401(e)(3), the term "excess contribution" means—

(A) if, in the taxable year, contributions are made under the plan only on behalf of owner-employees, so much of any contribution made on behalf of any owner-employee as is not deductible under section 404 (determined without regard to sec. 404(a)(10)) for the taxable year; or

(B) if, in the taxable year, contributions are made under the plan on behalf of both owner-employees and other employees—

(i) so much of any contribution made by an employer on behalf of any owner-employee as is not deductible under section 404 (determined without regard to sec. 404(a)(10)) for the taxable year;

(ii) so much of any contribution as is made by an owner-employee (as an employee) at a rate which exceeds the rate of contributions permitted to be made by employees other than owner-employees;

(iii) so much of any contributions made by an owner-employee (as an employee) as exceeds the lesser of \$2,500 or 10 percent of the earned income for such taxable year derived by such owner-employee from the trade or business with respect to which the plan is established;

(iv) in the case of any individual on whose behalf contributions are made under more than one plan as an owner-employee, the amount of any contribution made by such owner-employee (as an employee) under all such plans which exceeds \$2,500; and

(C) any contribution made on behalf of an owner-employee in any taxable year for which, under section 401(e)(2)(A) or (E), the plan does not (for purposes of sec. 404) meet the requirements of section 401(d) with respect to such owner-employee.

Such paragraph (1) provides, however, that the amount of any contribution which is allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account in determining the amount of any contribution for purposes of determining whether such contribution is an excess contribution.

(2) *Effect of excess contribution.*—Paragraph (2)(A) of the new subsection (e) provides that, if an excess contribution (other than a willful excess contribution to which sec. 401 (e)(2)(E) applies) is made

on behalf of an owner-employee in any taxable year, the plan with respect to which such excess contribution is made shall, except as provided in section 401(e) (2) (C) and (D), be considered, for purposes of section 404, as not meeting the requirements of section 401(d) with respect to such owner-employee for the taxable year and for all succeeding taxable years. In any year when an otherwise exempt trust forming part of a plan is (pursuant to par. (2)(A)) considered, for purposes of section 404, as not meeting the requirements of section 401(d) with respect to an owner-employee, the earnings of such trust (including those attributable to the interest of the owner-employee with respect to whom the excess contribution was made) shall remain exempt from tax in the hands of the trust. However, the trust shall not be considered exempt for purposes of deducting any contributions made on behalf of the owner-employee with respect to whom the excess contribution was made.

Paragraph (2)(B) of the new subsection (e) provides that, for any taxable year for which a plan does not meet the requirements of section 401(d) with respect to an owner-employee by reason of paragraph (2)(A), such owner-employee shall currently include in his gross income the income for such year attributable to his interest in the plan.

Paragraph (2)(C) of the new subsection (e) provides that paragraph (2)(A) (and, consequently, par. (2)(B)) shall not apply to an excess contribution with respect to any taxable year if (on or before the close of the 6-month period beginning on the day on which the Secretary or his delegate sends by certified or registered mail, to the trust, insurance company, or other person to whom such excess contribution was paid, notice of the amount of such excess contribution) the amount of such excess contribution, and the income attributable thereto, is repaid to the owner-employee on whose behalf such excess contribution was made. Such paragraph (2)(C) further provides that, if the contribution is an excess contribution by reason of exceeding the deduction limitations under section 404, the notice required to be sent by the Secretary or his delegate shall not be mailed prior to the time that the amount of the tax under chapter 1 of the Internal Revenue Code of the owner-employee to whom the excess contribution is to be repaid has been finally determined for the taxable year in which such excess contribution was made.

Paragraph (2)(D) of the new subsection (e) provides that, if an excess contribution, together with the income attributable thereto, is not repaid within the 6-month period, paragraph (2)(A) shall not apply to any taxable year beginning with the taxable year in which the trust, insurance company, or other person to whom such excess contribution was paid repays the amount of such excess contribution to the owner-employee on whose behalf such excess contribution, and also pays to the owner-employee with respect to whom the excess contribution was made the amount of income attributable to the interest of such owner-employee which, under paragraph (2)(B), is required to be included in such owner-employee's gross income for any prior taxable year.

(3) *Special rule if excess contribution was willfully made.*—Paragraph (2)(E) of the new subsection (e) provides that, if an excess contribution made on behalf of an owner-employee is determined to have been willfully made, then, instead of applying the provisions of section 401(e)(2) (A), (B), (C), and (D)—

(i) there shall be distributed to the owner-employee on whose behalf such excess contribution was willfully made his entire interest in all plans in which he is a participant as an owner-employee; and

(ii) contributions may not be made on behalf of such owner-employee to any plan in which he is a participant as an owner-employee for the taxable year in which it is determined that such excess contribution was willfully made and for the 5 taxable years following such taxable year.

Thus, when it has been determined that an excess contribution has been willfully made to a plan on behalf of an owner-employee, such owner-employee's entire interest in all plans in which he is a participant as an owner-employee must be distributed to him and he may not participate in any plan with respect to which he is an owner-employee for the taxable year of the determination and for the 5 succeeding taxable years.

(4) *Statute of limitations.*—Paragraph (2)(F) of the new subsection (e) provides that, in any case in which a plan does not meet the requirements of section 401(d) with respect to an owner-employee by reason of paragraph (2)(A), the period for assessing any deficiency arising by reason of—

(i) the disallowance of any deduction under section 404 because such plan does not meet the requirements of section 401(d) with respect to an owner-employee on whose behalf an excess contribution was made, or

(ii) the inclusion, under paragraph (2)(B), in gross income of such owner-employee of the income attributable to his interest under a plan,

for the taxable year in which such excess contribution was made or for any succeeding taxable year shall not expire prior to 1 year after the close of the 6-month period referred to in paragraph (2)(C).

(3) *Contributions for premiums on annuity, etc., contracts.*—Paragraph (3) of the new subsection (e) provides for certain exceptions to the definition of an "excess contribution" in section 401(e)(1). Such paragraph (3) provides that a contribution by an employer on behalf of an owner-employee shall not be considered to be an excess contribution within the meaning of section 401(e)(1), if—

(A) under the plan such contribution is required to be applied (directly or through a trustee) to pay premiums or other consideration for one or more annuity, endowment, or life insurance contracts issued under the plan on the life of such owner-employee, and

(B) the amount of such contribution exceeds the amount deductible under section 404 with respect to contributions made by the employer on behalf of such owner-employee; and

(C) the amount of such contribution does not exceed the average of the amounts which were deductible under section 404 (determined without regard to sec. 404(a)(10)) with respect to contributions made by the employer on behalf of such owner-employee (or which would have been deductible if section 404 had been in effect for prior years) for the first 3 taxable years (i) preceding the year in which the last such annuity, endowment, or life insurance contract was issued under the plan, and (ii) in which such owner-employee derived earned income from the trade

or business with respect to which the plan is established, or for so many of such taxable years as such owner-employee was engaged in such trade or business and derived earned income therefrom.

The new paragraph (3) also provides that, in the case of any individual on whose behalf contributions described in the new paragraph (3)(A) are made under more than one plan as an owner-employee during any taxable year, the amount of contributions to which the new paragraph (3) applies for such taxable year must not exceed \$2,500. Thus, if the premiums or other consideration for annuity contracts paid on behalf of an owner-employee under more than one plan from contributions made by employees exceed \$2,500, the excess contributions rules of sections 401(e) (1) and (2) apply to all such contributions on behalf of such owner-employee for such taxable year. Furthermore, any contribution which is not considered to be an excess contribution by reason of the application of the provisions of section 401(e)(3) shall, for purposes of section 401(e)(1)(B) (ii), (iii), and (iv), be taken into account as a contribution made on behalf of such owner-employee as an employee to the extent that the amount of such contribution is not deductible under section 404 (without regard to section 404(a)(10)) for the taxable year, but only for the purpose of applying such sections to other contributions made on behalf of such owner-employee as an employee.

Section 401(f)

Under the present law, section 401(a) of the code relates only to trusts which form part of pension, profit-sharing, and stock-bonus plans. Paragraph (3) of section 2 of the bill also adds a new subsection (f) to section 401(a), which permits certain custodial accounts to qualify under section 401(a) if they form a part of qualified plans. Under the new subsection (f), a custodial account shall be treated as a qualified trust, if—

(1) such custodial account satisfies all the requirements which must be satisfied by a qualified trust;

(2) the custodian is a bank (as defined in section 401(d)(1));

(3) the investment of the funds in such account (including all earnings) is to be made either solely in regulated investment company stock with respect to which an employee is the beneficial owner (treating as subject to this requirement all capital gain dividends and any refund to the custodian under section 852(b)(3)(D)(ii) of the code), or solely in annuity, endowment, or life insurance contracts issued by an insurance company;

(4) in the case of investments in regulated investment company stock, the custodian or its nominee is the shareholder of record of all stock held in the account; and

(5) in the case of annuity, endowments, or life insurance contracts, the contracts are held by the custodian until distributed under the plan.

For purposes of the code, in the case of a custodial account treated as a qualified trust under section 401 by reason of the new section 401(f), the custodian of such account is to be treated as the trustee thereof.

Paragraph (2) of the new subsection (f) defines "regulated investment company" to mean a domestic corporation (A) which is a regulated investment company within the meaning of section 851(a), and (B) which issues only redeemable stock.

Section 401(g)

Paragraph (3) of section 2 of the bill also adds a new subsection (g) to section 401 which provides that, for purposes of sections 401, 402, 403, and 404, the term "annuity" includes a face-amount certificate as defined in section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C. 80a-2); but does not include any contract or certificate issued after December 31, 1961, which is transferable, if any person other than the trustee of a qualified trust is the owner of such contract or certificate.

SECTION 3. DEDUCTIBILITY OF CONTRIBUTIONS TO PLANS

Section 3 of the bill amends section 404 of the Internal Revenue Code of 1954 to allow the deductions for certain amounts of contributions made on behalf of self-employed individuals who are covered under qualified pension, annuity, and profit-sharing plans. In addition, section 404 is amended to provide additional limitations on the amount that may be deducted with respect to contributions on behalf of self-employed individuals.

Section 404(a)

(1) *Annuity plans.*—Section 404(a)(2) allows, within the applicable limitations, the deduction of employer contributions paid toward the purchase of retirement annuities if such purchase is a part of a plan which meets the requirements of section 401(a) (3), (4), (5), and (6), and if certain other conditions are met. Subsection (a)(1) of section 3 of the bill amends section 404(a)(2) to provide that the annuity plan must, in addition to meeting the present requirements, also meet the requirements in the new paragraphs (7), (8), and (9) of section 401(a) and, if the plan benefits owner-employees, the requirements of the new sections 401(a)(10) and 401(d) (other than section 401(d)(1)). Thus, a qualified annuity plan is, in general, subject to the same requirements as is a qualified pension, profit-sharing, or stock-bonus trust.

(2) *Inclusion of self-employed.*—Subsection (a)(2) of section 3 of the bill adds a new paragraph (8) to section 404(a), which allows the deduction under section 404(a) of contributions to a qualified, plan covering self-employed individuals. To accomplish this purpose the new paragraph (8) provides that, for purposes of applying section 404 to a qualified pension, annuity, or profit-sharing plan covering self-employed individuals—

(A) the term "employee" is defined to include a self-employed individual who is an employee within the meaning of section 401(c)(1), and the employer of such a self-employed individual is defined to mean the person treated as his employer under section 401(c)(4);

(B) the term "earned income" has the meaning assigned to it by section 401(c)(2);

(C) the contributions to such a plan on behalf of a self-employed individual shall be considered to satisfy the conditions of section 162 or section 212 to the extent that such contributions do not exceed the earned income (as defined in sec. 401(c)(2) of such individual derived from the trade or business with respect to which such plan is established. However, contributions on

behalf of self-employed individuals which are allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance are not considered to satisfy the conditions of section 162 or section 212 and, therefore, are not deductible under section 404; and

(D) all references in section 404 to the term "compensation" shall, in the case of a self-employed individual, be considered a reference to the earned income (as defined in sec. 401(c)(2)) of such individual derived from the trade or business with respect to which the plan is established.

(3) *Plans benefiting owner-employees.*—Subsection (a)(2) of section (3) of the bill adds a new paragraph (9) to section 404(a), which provides special rules for computing the limitations on the amounts deductible for contributions under a qualified pension, annuity, or profit-sharing plan covering owner-employees.

Subparagraph (A) of the new paragraph (9) provides that the limitations in paragraphs (1), (2), (3), and (7) of section 404(a) shall be computed, with respect to employees (other than owner-employees), as if such employees were the only employees for whom contributions or benefits are provided under the plan. For example, if a qualified profit-sharing plan covers both owner-employees and other employees, the amount deductible under section 404(a)(3) with respect to contributions on behalf of such other employees is 15 percent of the compensation paid to such other employees if there are no carryovers for such year.

Subparagraph (B) of the new paragraph (9) provides that the limitations in paragraphs (1), (2), (3), and (7) of section 404(a) with respect to contributions under a qualified plan on behalf of owner-employees, shall be computed—

(i) as if such owner-employees are the only employees for whom contributions or benefits are provided under the plan; and

(ii) without regard to the carryover provisions contained in section 404(a)(1)(D), the second and third sentences of section 404(a)(3), and the second sentence of section 404(a)(7).

Subparagraph (C) of the new paragraph (9) provides that the amounts which are otherwise deductible under section 404(a) with respect to contributions on behalf of an owner-employee shall not exceed the additional limitations provided in section 404(e).

The new paragraph (9) further provides that, for purposes of section 404, the term "owner-employee" has the meaning assigned to it by section 401(c)(3) (determined with the application of the rules of constructive ownership contained in sec. 401(c)(5)).

(4) *Special limitation on amount allowed as a deduction for self-employed individuals.*—Subsection (a)(2) of section 3 of the bill adds a new paragraph (10) to section 404(a), which provides a special limitation on the amount allowable as a deduction under sections 404(a)(1), (2), (3), and (7) in any taxable year with respect to contributions made on behalf of any individual who is an employee within the meaning of section 401(c)(1).

The new paragraph (10) provides that, notwithstanding any other provision of section 404, in the case of any individual who is an employee within the meaning of section 401(c)(1), the amount allowable as a deduction is equal to—

(1) so much of the contributions made on behalf of such individual which are deductible under sections 404(a) (1), (2), (3), and (7) (determined without regard to the new paragraph (10)) as does not exceed \$1,000, plus

(2) one-half of so much of the contributions made on behalf of such individual which are deductible under such sections as exceeds \$1,000.

The new paragraph (10) further provides that, for purposes of section 401, the amount which may be deducted, or the amount deductible, under section 404, with respect to contributions made on behalf of a self-employed individual, shall be determined without regard to the new section 404(a)(10).

(5) *Interrelation of provisions of section 404(a).*—Section 404(a)(10) provides that any self-employed individual will be limited to a deduction of one-half of the amount in excess of \$1,000 that would otherwise be deductible under section 404(a). The Provisions limiting the amount of otherwise deductible contributions are distinct from the provisions integrating the retirement plans of self-employed individuals into the structure of the present provisions of the code relating to qualified plans. Consequently, the special limitation in section 404(a)(10) is applied solely for the purpose of determining the amount which will be allowed as a deduction under section 404 for income tax purposes.

(6) *Determination of amount allowed as a deduction from gross income.*—In the case of self-employed individuals who are not owner-employees, the amount of the contributions made on their behalf which is deductible is determined by first applying to the applicable provisions of sections 404(a) (1), (2), and (3), and (7). Although there is no fixed maximum limitation the amount deductible under section 404(a), the new section 404(a)(8) provides that certain amounts contributed on behalf of self-employed individuals do not satisfy the requirements of sections 162 or 212 and are, therefore, not deductible under sections 404(a) (1), (2), or (3). The amounts to which the new section 404(a)(8) applies are contributions on behalf of self-employed individuals which exceed their earned income derived from the trade or business with respect to which the plan is established, and contributions which, under regulations prescribed by the Secretary or his delegate, are allocable to the purchase of life, accident, health, or other insurance. Finally, for the purpose of determining the amount which will be allowed as a deduction for income tax purposes, section 404(a)(10) is then applied.

In the case of owner-employees, the limitation in new section 404(e) is pertinent to the determination of the amount allowed as a deduction. Therefore, the discussion of the method of computing such amount is included with the discussion of the provisions of section 404(e).

Section 404(e)

Subsection (b) of section 3 of the bill adds to section 404 a new subsection (e), which provides additional limitations on amounts which may be deducted with respect to contributions on behalf of owner-employees.

(1) *Special limitations for owner-employees.*—Paragraph (1) of the new subsection (e) provides the additional limitations which are applicable in determining the amount that may be deducted with

respect to contributions under a qualified plan on behalf of owner-employees. Under paragraph (1), the amounts deductible under section 404(a) in any taxable year with respect to contributions on behalf of such owner-employees shall not exceed \$2,500, or 10 percent of the earned income derived by such owner-employee from the trade or business with respect to which the plan is established, whichever is the lesser.

(2) *Overall limitation.*—Paragraph (2) of the new subsection (e) provides that in any taxable year in which amounts are deductible under two or more plans on behalf of an individual who is an owner-employee with respect to such plans, the aggregate amount deductible for such taxable year under all such plans with respect to contributions on behalf of such owner-employee shall not exceed \$2,500. The overall limitation in paragraph (2) has no application with respect to contributions made under a plan on behalf of an employee who is not an owner-employee of the trade or business with respect to which the plan is established, even though such employee may be covered as an owner-employee under a plan or plans established by other trades or businesses.

Paragraph (2)(B) of the new subsection (e) provides that, in any case when paragraph (2)(A) reduces the amounts which are otherwise deductible under section 404 with respect to contributions made on behalf of an owner-employee under two or more plans, the portion of such reduced amount which is deductible under each plan shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

(3) *Contributions allocable to insurance protection.*—Paragraph (3) of the new subsection (e) provides that the special limitations in section 404(e) are not applicable with respect to contributions which are allocable (determined under regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance.

(4) *Computation of amount allowed as a deduction from gross income in the case of owner-employees.*—If contributions are made on behalf of an owner-employee under a qualified plan, the provisions of the new section 404(a)(8) are applicable, and the computation of the amount deductible under sections 404(a)(1), (2), (3), and (7) is made in the manner prescribed in new section 404(a)(9). Furthermore, section 404(a)(9)(C) requires that the amount deductible, as so determined, must not exceed the applicable limitation in section 404(e). Section 404(e) places a ceiling on the amount deductible. That limit is 10 percent of the earned income of the owner-employee, or \$2,500, whichever is the lesser. Finally, if the amount deductible as so determined exceeds \$1,000, the special limitation of section 404(a)(10) provides that only one-half of such excess may be deducted.

Section 404(f)

Subsection (b) of section 3 of the bill adds to section 404 a new subsection (f), which provides that, for purposes of section 404, any amount paid, directly or indirectly, by an owner-employee in repayment of any loan on an insurance policy which, under section 72(m)(4)(B), was treated as an amount received under a contract shall be treated as a contribution to which section 404 (including the limitations therein) applies on behalf of such owner-employee.

SECTION 4. TAXABILITY OF DISTRIBUTIONS

Section 4 of the bill amends section 72 of the Internal Revenue Code of 1954 to provide rules for the taxation of amounts distributed under qualified plans for self-employed individuals or the beneficiaries of such individuals. In addition, section 4(b) adds a new subsection (m)(3) to section 72 of the code which applies to all qualified plans.

Section 72(d)

Existing section 72(d) of the code provides a special rule for the taxation of an annuity receivable by an employee when the aggregate amount receivable by the employee under the terms of the contract during the 3-year period beginning on the date on which the amount is first received under the contract as an annuity is equal to or greater than the consideration for the contract contributed by the employee. Subsection (a) of section 4 of the bill amends section 72(d)(2) to provide that, for purposes of section 72(d), any contribution which is made with respect to the contract while the employee is a self-employed individual but which is not allowed as a deduction under section 404 shall be treated as consideration for the contract contributed by the employee. This amendment merely makes clear that, as in the case of qualified plans established by corporations, a self-employed individual may not treat as consideration for the contract contributed by the employee any contributions under the plan for which deductions were allowed and which, consequently, are considered employer contributions. Moreover, under the new section 72(m)(2), described below, contributions on behalf of an owner-employee which are used to purchase life, accident, health, or other insurance are not, for purposes of section 72(d), included in the employee's basis for the contract.

Section 72(m)

Subsection (b) of section 4 of the bill adds to section 72 a new subsection (m), which provides special rules applicable to the taxation of employee annuities and distributions under employee plans.

(1) *Amounts received before annuity starting date.*—Paragraph (1) of the new subsection (m) provides that any amounts which are received under an annuity, endowment, or life insurance contract before the annuity starting date and which are not received as an annuity (within the meaning of sec. 72(e)(2)) shall be included in the recipient's gross income for the taxable year in which received to the extent that—

(A) such amounts, plus amounts theretofore received under the contract and includible in gross income under such paragraph (1), do not exceed

(B) the aggregate premiums or other consideration paid for the contract on behalf of an employee while such employee was an owner-employee (as defined in sec. 401(c)(3)) which were allowed as deductions under section 404 for the taxable year and all prior taxable years.

Such paragraph (1) further provides that any amounts received under an annuity, endowment, or life insurance contract before the annuity starting date which are not received as an annuity and which are not includible in gross income under such paragraph (1) shall be subject to the provisions of section 72(e).

The provisions of paragraph (1) may be illustrated by the example of a self-employed individual who receives \$8,000 as a distribution under a qualified pension plan before the annuity starting date. At the time of such distribution, \$10,000 had been contributed (the whole amount being allowed as a deduction) under the plan on behalf of such individual before he became an owner-employee and \$5,000 had been contributed under the plan on his behalf while he was an owner-employee, of which \$4,000 was allowed as a deduction. In addition, such individual had contributed \$1,000 on his own behalf as an employee under the plan. Of the \$8,000, \$4,000 (the amount allowed as a deduction with respect to contributions on behalf of the individual while he was an owner-employee) is includible in gross income under paragraph (1). Of the remaining \$4,000, \$2,000 (the amount in excess of the sum of the portion of the contributions not allowed as a deduction by the employer and the amount contributed by the individual on his own behalf) is includible in gross income under section 72(e).

(2) *Computation of consideration paid by a self-employed individual.*—Paragraph (2) of the new subsection (m) provides that in computing—

(A) the aggregate amount of premiums or other consideration paid for the contract for purposes of section 72(c)(1)(A),

(B) the consideration for the contract contributed by the employee for purposes of section 72(d)(1), and

(C) the aggregate premiums or other consideration paid for purposes of section 72(e)(1)(B),

any amount allowed as a deduction with respect to the contract under section 404 while the employee was a self-employed individual shall be treated as consideration contributed by the employer. Such paragraph (2) further provides that the amounts described in paragraph (2) (A), (B), and (C) shall not include any portion of the premiums or other consideration for the contract paid while the employee was an owner-employee which is allocable (as determined under regulations prescribed by the Secretary of the Treasury or his delegate) to the cost of life, accident, health, or other insurance.

Paragraph (2) merely makes it clear that there shall not be included in an employee's, or in his beneficiary's, basis for a contract any amount which was contributed by such employee under a qualified plan and which was allowed as a deduction under section 404. In addition, under paragraph (2), there shall not be included in the basis of any contract the amount of any premiums or other consideration paid to purchase for an employee while he was an owner-employee any life, accident, health, or other insurance. Present law is to be applied in determining whether an amount to which paragraph (2) does not apply should be included in the basis of a contract.

(3) *Life insurance contracts.*—Paragraph (3) of the new subsection (m) is applicable to any life insurance contract—

(i) which is purchased as part of a qualified annuity plan described in section 403(a), or

(ii) which is purchased by a qualified trust, if the proceeds of such life insurance contract are payable directly or indirectly to a participant in such trust or to a beneficiary of such participant.

Paragraph (3)(B) provides that any contributions to such a qualified annuity plan or such a qualified trust allowed as a deduction under section 404, and any income of such a qualified trust, which are

determined (in accordance with regulations prescribed by the Secretary or his delegate) to have been applied to purchase the life insurance protection under a life insurance contract to which paragraph (3) applies are includible in the gross income of the employee for whom such protection is purchased for the taxable year when such contributions, or such income, are so applied. In the case of the death of an employee insured under a life insurance contract to which paragraph (3) applies, an amount equal to the cash surrender value of such contract immediately before the death of the employee shall be treated as a payment under the qualified plan or trust, and the excess of the amount payable by reason of the death of the insured over such cash surrender value shall not be includible in gross income under section 72 and shall be treated as provided in section 101. The provisions of paragraph (3) are rules presently contained in the regulations under the Internal Revenue Code of 1954.

(4) *Amounts constructively received.*—Paragraph (4)(A) of the new subsection (m) provides that, if during any taxable year an owner-employee assigns (or agrees to assign) or pledges (or agrees to pledge) any portion of his interest in a qualified trust or any portion of the value of a contract purchased as part of a qualified annuity plan, such portion shall be treated as having been received in such taxable year by such owner-employee as a distribution from such trust or as an amount received under such contract. Paragraph (4)(B) provides that, if during any taxable year an owner-employee receives, directly or indirectly, any amount from an insurance company as a loan under a contract purchased by a qualified trust or purchased as a part of a qualified annuity plan and issued by such insurance company, the amount of such loan is to be treated as an amount received under the insurance contract in such taxable year.

(5) *Penalties applicable to certain amounts received by owner-employees.*—Paragraph (5) of the new subsection (m) provides a penalty tax on certain amounts received by an owner-employee under a qualified trust or annuity plan. Paragraph (5)(A) provides that the penalty tax is applicable—

(i) to amounts (other than any amount received by an individual in his capacity as a policyholder of an annuity, endowment, or life insurance contract which is in the nature of a dividend or similar distribution) which are received under a qualified pension, annuity, or profit-sharing plan by an individual, who is, or has been, an owner-employee, before such individual attains the age of 59½, for any reason other than the individual's becoming disabled (within the meaning of sec. 213(g)(3) of the code), but only to the extent that such amounts are attributable to the contributions paid on behalf of such individual (whether or not paid by him) while he was an owner-employee;

(ii) to amounts which are received under such a qualified plan at any time by an individual who is, or has been, an owner-employee, or by the successor of such individual, but only to the extent that such amounts are determined, under regulations prescribed by the Secretary or his delegate, to exceed the benefits provided for such individual under the plan formula; and

(iii) to amounts which are received, by reason of the distribution under the provisions of section 401(e)(2)(E) (relating to willfully made excess contributions), by an individual who is, or

has been, an owner-employee of his entire interest in all such qualified plans.

The penalty tax is applicable to such amounts even though, at the time they are received, the recipient is not an owner-employee. In the case of an early distribution described in paragraph (5)(A)(i), the penalty tax is applicable to only so much of the distribution as is attributable to contributions paid on behalf of the recipient while he was an owner-employee. However, the penalty tax is applicable to the entire amount, to the extent it exceeds the benefits under the plan formula, received by an employee (or by the successor of an employee) who is, or has been, an owner-employee, even though a portion of such amount may be attributable to contributions made on behalf of such employee while he was not an owner-employee.

The penalty tax will, of course, apply only to amounts which would be includible in the recipient's gross income.

Paragraph (5)(B) provides that, if the aggregate of the amounts to which the penalty tax is applicable received by any person in his taxable year equals or exceeds \$2,500, the increase in his tax for that taxable year attributable to the receipt of such amounts shall not be less than 110 percent of the aggregate increase in taxes, for that taxable year and the four immediately preceding taxable years, which would have resulted if such amounts had been included in such person's gross income ratably over such taxable years. If deductions had been allowed under section 404 for contributions paid on behalf of such person while he is an owner-employee for a number of prior taxable years less than 4, paragraph (5)(B)(i) shall be applied by taking into account the number of taxable years immediately preceding the taxable year in which the amount was so received equal to such lesser number.

Under paragraph (5)(C), if the aggregate of the amounts to which the penalty tax is applicable received by a person in his taxable year is less than \$2,500, the increase in tax attributable to the receipt of such amounts shall be 110 percent of the increase computed without regard to this penalty tax.

paragraph (5)(D) provides that the penalty tax shall not apply to any amount (those amounts received with respect to contributions made on his behalf when he was not a self-employed individual) which is taxed, under section 402(a)(2) or section 403(a)(2), as capital gains. On the other hand, since a distribution required as a result of a determination that a willful excess contribution has been made on behalf of an owner-employee is not a distribution on account of separation from service or death, the penalty tax will, in all cases, be applicable to such a distribution.

Paragraph (5)(E) indicates that section 72(n)(3) is to be applied for purposes of computing the taxable income for taxable years to which paragraph (5) applies.

Paragraph (6) of the new subsection (m) provides that, for purposes of section 72, the term "owner-employee" has the meaning assigned to it by section 401(c)(3) (determined with the application of the attribution rules of section 401(c)(5)).

Section 72(n)

Subsection (b) of section 4 of the bill also adds to section 72 a new subsection (n), which provides special tax treatment with respect to

certain total distributions received under qualified plans which are attributable to contributions on behalf of self-employed individuals.

(1) Paragraph (1) of the new subsection (n) sets forth the distributions to which the special tax treatment in section 72(n) applies. In the case of a qualified pension or profit-sharing trust, the special tax treatment is applicable to amounts distributed to a distributee, if such amounts represent the total distributions payable to the distributee with respect to an employee and if such amounts are paid to the distributee within 1 taxable year of the distributee—

- (i) on account of the employee's death,
- (ii) after the employee has attained the age of 59½ years, or
- (iii) after the employee has become disabled (within the meaning of section 213(g)(3) of the code).

In the case of a qualified annuity plan, the special tax treatment is applicable to amounts paid to a payee, if such amounts represent the total amounts payable to the payee with respect to an employee and if such amounts are paid to the payee within 1 taxable year of the payee—

- (i) on account of the employee's death,
- (ii) after the employee has attained the age of 59½ years, or
- (iii) after the employee has become disabled (within the meaning of section 213(g)(3)).

For the special tax treatment to be applicable to a distributee or payee with respect to a distribution of an employee's interest in a qualified plan, it is not necessary that there also be distributed within the 1-year period any portion of the employee's interest which is payable to another payee or distributee.

The special tax treatment provided by the new section 72(n) is, under paragraph (1)(C), applicable only with respect to so much of any distribution or payment as is attributable to contributions made under a qualified plan on behalf of an employee within the meaning of section 401(c)(1). If an employee receives a distribution or payment of his own interest in a qualified plan or trust, the special tax treatment is applicable to such distribution or payment only if contributions which were allowed as a deduction under section 404 have been made on behalf of such employee while he was a self-employed individual for five or more taxable years prior to the taxable year in which such distribution is paid. In addition, the special tax treatment is not applicable to amounts to which the penalty tax in section 72(m)(5) is applicable.

(2) Paragraph (2) of the new subsection (n) provides that, in any case when the special tax treatment applies, the tax attributable to the amounts to which the new subsection (n) applies for the taxable year for which such amounts are received is not to exceed whichever of the following is the greater:

(A) five times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income; or

(B) five times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under section 72(n)(3)(A).

(3) Paragraph (3) of the new subsection (n) provides that (notwithstanding sec. 63) for purposes only of computing the tax under chapter 1 of the Internal Revenue Code of 1954 attributable to

amounts to which the new subsection (n) or section 72(m)(5) (relating to the penalty tax in the case of certain distributions) applies and which are includible in gross income—

(A) the taxable income of the recipient for the taxable year of receipt is to be treated as being not less than the amount by which (i) the aggregate of such amounts so includible in gross income exceeds (ii) the amount of the deductions allowed for such taxable year under section 151 (relating to deductions for personal exemptions); and

(B) in making ratable inclusion computations under paragraph (5)(B) of section 72(m), the taxable income of the recipient for any taxable year involved in such ratable inclusion is to be treated as being not less than the amount required by such paragraph (5)(B) to be treated as includible in gross income for such taxable year.

In any case in which section 72(n)(3) results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by section 1 or section 3 for such taxable year shall not be reduced by any credit under part IV of subchapter A of chapter 1 (other than sec. 31) of the Internal Revenue Code of 1954 which, but for this provision, would be allowable.

In no case is there subjected to tax under the penalty tax in section 72(m)(5) or the special tax treatment in section 72(n) amounts which represent a recipient's basis in the distribution.

The application of the rules in paragraph (3) of the new subsection (n) in the case of a total distribution to which the special tax treatment in the new section 72(n) applies may be illustrated by the following example: A, a sole proprietor, established a qualified pension trust to which he made annual contributions for 10 years of 10 percent of his earned income. A withdrew his entire interest in the trust during a taxable year for which, without regard to the distribution, he had a net operating loss and for which he is allowed under section 151 a deduction for one personal exemption. At the time of the withdrawal, A was 64 years old. The amount of the distribution that is includible in his gross income is \$25,600. For purposes of determining the tax attributable to the \$25,600, A's taxable income for the taxable year in which he received such amount is treated, under paragraph (3) of the new subsection (n), as being \$25,000 (\$25,600 minus \$600 (the deduction allowed for his personal exemption)). Thus, under paragraph (2) of the new subsection (n), the tax attributable to the \$25,600 would be five times the increase in tax which would result if the taxable income of A for the taxable year he received such amount equaled \$5,000 (20 percent of his taxable income determined under paragraph (3) of the new subsection (n)).

The application of the rules in paragraph (3) of the new subsection (n) in the case of a distribution to which section 72(m)(5) applies may be illustrated by the following example: Assume the same facts as in the example in the preceding paragraph except that A was 55 years old (and not disabled) at the time of the withdrawal. In addition, A had a net operating loss for the taxable year immediately preceding the taxable year in which he received the \$25,600. The other 3 taxable years involved in the computations under section 72(m)(5)(B) were years of substantial income. For purposes of determining A's increase in tax attributable to the receipt of the \$25,600

(before the application of the spreading provisions in section 72(m)(5)(B)), A's taxable income for the year he received the \$25,600 is treated, under paragraph (3)(A) of the new subsection (n), as being \$25,000 (\$25,600 minus \$600). For purposes of determining whether 110 percent of the aggregate increase in taxes which would have resulted if 20 percent of the amount of the withdrawal had been included in A's gross income for the year of receipt and for each of the 4 preceding taxable years is greater (and thus is the amount of his increase in tax attributable to the receipt of the \$25,600), A's taxable income for the taxable year of receipt, and for the immediately preceding taxable year, is treated, under paragraph (3)(B) of the new subsection (n), as being \$5,120 (\$25,600 divided by 5).

Section 402(a)

Existing section 402(a)(2) provides that certain total distributions from qualified trusts are taxable as capital gains. Subsection (c) of section 4 of the bill amends section 402(a)(2) to provide that the capital gains treatment is not applicable to distributions paid to any distributee to the extent such distributions are attributable to contributions made on behalf of the employee while he was an employee within the meaning of section 401(c)(1). In other words, in the case of an individual who was covered under a qualified plan both while he was an employee within the meaning of common law and while he was a self-employed individual, the capital gains treatment could only apply to that part of a distribution that is attributable to contributions made on his behalf while he was an employee within the meaning of common law.

Section 403(a)

Existing section 403(a) provides the tax treatment for distributions under qualified nontrusteed annuity plans. Subsection (d)(1) of section 4 of the bill amends section 403(a)(2)(A)(i) to provide that a qualified annuity plan must meet the new qualification requirements included by this bill in sections 401(a) and (d).

Existing section 403(a)(2) provides capital gains treatment for certain total distributions under qualified annuity plans. Subsection (d)(2) of section 4 of the bill amends section 403(a)(2)(A) to provide that the capital gains treatment shall not apply to amounts paid to any payee to the extent such amounts are attributable to contributions made on behalf of an employee while he was an employee within the meaning of section 401(c)(1). This amendment applies similar treatment to distributions under qualified annuity plans as the amendment made by subsection (c) of section 4 of the bill applies to distributions from qualified trusts.

Subsection (d)(3) of section 4 of the bill adds to section 403(a) a new paragraph (3) providing that, for purposes of section 403(a), the term "employee" includes a self-employed individual within the meaning of section 401(c)(1), and the employer of such individual is the person treated as his employer under section 401(c)(4). This amendment merely makes it clear that a self-employed individual can participate in a qualified annuity plan.

SECTION 5. PLANS FOR PURCHASE OF U.S. BONDS

Section 5 of the bill adds a new section 405 to the Internal Revenue Code of 1954 to provide for the establishment of qualified bond purchase plans. In general, participants in such a qualified bond purchase plan will be granted tax treatment similar to that granted to participants in qualified pension and profit-sharing plans.

Section 405(a)

Subsection (a) of the new section 405 provides that a plan of an employer for the purchase for and distribution to his employees or their beneficiaries of U.S. bonds described in section 405(b) shall constitute a qualified bond purchase plan if—

(1) the plan meets the requirements of section 401(a) (3), (4), (5), (6), (7), and (8) and, if applicable, the requirements of section 401(a) (9) and (10) and of section 401(d) (other than subparagraphs (1), (5)(B) and (8)); and

(2) contributions under the plan are used solely to purchase for employees or their beneficiaries the U.S. bonds described in section 405(b).

A qualified bond purchase plan can be established by an employer for his employees without the creation of a trust but, if such a plan is established, only the special bonds can be purchased under the plan. A qualified trustee plan can also purchase the special bonds together with other assets but, if a trustee plan is established, the plan must qualify under section 401 as a pension or profit-sharing plan.

In general, a qualified bond purchase plan must meet the same qualification requirements as a qualified annuity plan. However, sections 401(d) (5)(B) and (8) are not applicable to a qualified bond purchase plan and, consequently, there is no limit on the amount of contributions in excess of those which are deductible that may be made under the plan.

Section 405(b)

Subsection (b)(1) of the new section 405 describes the special bond which can be purchased under a qualified bond purchase plan. Such paragraph provides that such a bond is a bond issued under the Second Liberty Bond Act, as amended, which by its terms, or by regulations prescribed by the Secretary under the Second Liberty Bond Act—

(A) provides for payment of interest or investment yield only upon redemption;

(B) may be purchased only in the name of an individual;

(C) ceases to bear interest, or provide investment yield, not later than 5 years after the death of the individual in whose name it is purchased;

(D) may be redeemed before the death of the individual in whose name it is purchased only if such individual—

(i) has attained the age of 59½ years, or

(ii) has become disabled (within the meaning of section 213(g)(3)); and

(E) is not transferable.

Subsection (b)(2) of the new section 405 provides that bonds purchased under a qualified bond purchase plan must be purchased in the name of the employee for whom it is purchased.

Section 405(c)

Subsection (c) of the new section 405 provides that contributions paid by an employer to or under a qualified bond purchase plan shall be allowed as deductions in an amount determined under section 404 in the same manner and to the same extent as if such contributions were made to a qualified trust described in section 401(a) which is exempt from tax under section 501. Thus, for contributions to a qualified bond purchase plan to be deductible under section 405(c), all of the requirements of section 404 must be met. For example, the contributions must meet the requirements of section 162 or 212, and must be made (or deemed to have been made under section 404(a)(6)) in a taxable year of an employer which ends with or within a year of the bond purchase plan for which it qualifies under section 405.

If the amount of the contributions to the qualified bond purchase plan are determined by reference to the profits of the employer, as in the case of a qualified profit-sharing plan, the amount deductible with respect to such contributions is determined under section 404(a)(3), relating to qualified profit-sharing plans. Moreover, such a bond purchase plan shall be considered a profit-sharing plan for purposes of the provisions in section 404(a)(3) relating to a situation when contributions are made to two or more profit-sharing trusts. In other cases, the amount deductible with respect to contributions to a qualified bond purchase plan will be determined under section 404(a)(1). If the qualified bond purchase plan covers self-employed individuals, the amount deductible with respect to contributions to the plan is subject to the further limitations of section 404(a)(10). Similarly, in the case of a qualified bond purchase plan covering owner-employees, the special rules in section 404(a)(9) for computing the limitations with respect to deductions for contribution under the plan shall be applicable. Thus, the carryover provisions of section 404(a) are not applicable with respect to contributions made under a qualified bond purchase plan on behalf of owner-employees. Moreover, the additional limitations in section 404(e) and 404(a)(10) shall apply in the case of a qualified bond purchase plan covering an owner-employee.

Section 405(d)

Subsection (d)(1) of the new section 405 provides that no amount is includible in the gross income of a distributee at the time a bond described in section 405(b) is distributed to him under a qualified bond purchase plan or from a qualified trust. Upon the redemption of such a bond, however, the proceeds are subject to taxation under chapter 1 of the Internal Revenue Code of 1954. In applying chapter 1, for purposes of determining the amount of tax due, the provisions of sections 72 and 1232 shall not be applied. In other words, the bonds described in section 405(b) received under a qualified bond purchase plan or from a qualified trust are not subject to tax until they are redeemed. In addition, upon redemption, no part of the proceeds will be treated as an amount received from the sale or exchange of a capital asset by reason of section 1232.

Subsection (d)(e) of the new section 405 provides rules for determining the basis of any bond received by a distributee under a qualified bond purchase plan. If the bond was purchased for an employee within the meaning of common law, the basis of such bond shall be

an amount equal to the amount of the contributions made under the plan by the employee himself which were used to purchase the bond. If the bond was purchased for an employee at a time when he was a self-employed individual, the basis of such bond is an amount equal to the amount of the contributions used to purchase the bond which were made on behalf of such employee and which were not allowed as a deduction under section 405(c). Such subsection (d)(2) further provides that the basis of a bond described in section 405(b) which is received by a distributee from a qualified trust shall be determined under regulations prescribed by the Secretary or his delegate.

Section 405(e)

Subsection (e) of the new section 405 provides that the capital gains treatment of section 402(a)(2) shall not apply to any of the bonds described in section 405(b) and that, for purposes of applying section 402(a)(2) to amounts distributed by a qualified trust, any such bonds distributed to any distributee and any such bonds to the credit of any employee shall not be taken into account. In other words, for purposes of applying section 402(a)(2), a distribution under a qualified trust may be considered a total distribution of an employee's interest in such trust even though the trust retains bonds described in section 405(b). In the case of a distribution from a qualified trust which qualifies for the capital gains treatment of section 402(a)(2) and which includes both bonds of the type described in section 405(b) and other property, the capital gains treatment will be applicable to such other property. In no case, however, will the capital gains treatment be applicable to the proceeds received as a result of the redemption of any of the bonds described in section 405.

Section 405(f)

Subsection (f) of the new section 405 provides that, for purposes of section 405, the term "employee" includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual shall be the person treated as his employer under section 401(c)(4). Such subsection (f) has the effect of enabling the self-employed individual to participate in a qualified bond purchase plan to the same extent that he may participate in qualified pension, annuity and profit-sharing plans.

Section 405(g)

Subsection (g) of the new section 405 provides that, at the time of the purchase of any of the bonds described in section 405, proof of such purchase shall be furnished in such form as will enable the purchaser, and the employee in whose name such bond is purchased, to comply with the provisions of section 405.

Section 405(h)

Subsection (h) of the new section 405 provides that the Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the provisions of section 405.

SECTION 6. PROHIBITED TRANSACTIONS

Section 6 of the bill amends section 503 of the Internal Revenue Code of 1954 to provide a special definition of the term "prohibited transaction" in the case of certain qualified employees' trust covering

owner-employees. This special definition is only applicable when the owner-employees covered by the qualified employees' trust, control the trade or business with respect to which the trust is established.

Section 6 of the bill adds to section 503 a new subsection (j) which provides that, in the case of a trust described in section 401(a) which is part of a plan covering owner-employees (as defined in sec. 401(c)(3)) who control the trade or business with respect to which the plan is established, the term "prohibited transaction" means, in addition to the transactions described in section 503(c), any transaction in which such trust, directly or indirectly—

(A) lends any part of the corpus or income of the trust to;

(B) pays any compensation for personal services rendered to the trust to;

(C) makes any part of its services available on a preferential basis to; or

(D) acquires for the trust any property from, or sells any property to;

any person described in section 503(c) or to any such owner-employee, a member of the family (as defined in sec. 267(c)(4)) of any such owner-employee, or a corporation controlled by such owner-employee through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

For purposes of determining whether owner-employees covered under a qualified employees' trust control the trade or business with respect to which such trust is established, the rules in section 401(d)(9)(B), determined with the application of the rules of constructive ownership in section 401(c)(5), are to be applied.

Paragraph (2) of the new subsection (j) provides that, for purposes of the new definition of "prohibited transaction" in paragraph (1), the following rules shall apply with respect to a loan made before the date of the enactment of the bill which would be a prohibited transaction if made in a taxable year beginning after December 31, 1961:

(A) If any part of the loan is repayable prior to December 31, 1964, the renewal of such part of the loan for a period not extending beyond December 31, 1964, on the same terms, shall not be considered a prohibited transaction.

(B) If the loan is repayable on demand, the continuation of the loan beyond December 31, 1964, shall be considered a prohibited transaction.

SECTION 7. OTHER SPECIAL RULES, TECHNICAL CHANGES, AND ADMINISTRATIVE PROVISIONS

Section 7 of the bill provides certain technical amendments and administrative provisions.

Section 7(a) of the bill amends section 37 of the Internal Revenue Code of 1954, relating to the retirement income credit, to make clear that any distribution to a self-employed individual under a qualified pension, annuity, or profit-sharing plan, and that any income derived by any person from the bonds described in section 405(b) received under a qualified bond purchase plan or from a qualified trust, may qualify as retirement income for purposes of such credit.

Section 7(b) of the bill amends section 62 of the Internal Revenue Code of 1954, relating to the definition of "adjusted gross income," to provide that, in computing adjusted gross income, there shall be allowed, in the case of a self-employed individual, the deductions allowed under sections 404 and 405 for contributions on behalf of such an individual to a qualified pension, annuity, profit-sharing, or bond-purchase plan.

Section 7(c) of the bill amends section 101(b) of the Internal Revenue Code of 1954, relating to employees' death benefit. Paragraph (1) of section 7(c) amends section 101(b) so that the rule applicable to distributions under a qualified annuity plan will only apply if the annuity plan meets the new qualification requirements of section 401 (a) and (d) applicable to annuity plans.

Paragraph (2) of section 7(c) amends section 101(b) by adding a new paragraph (3), which provides that, for purposes of section 101(b), the term "employee" does not include an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals). Thus, if at the time of his death, a self-employed individual is a participant in a qualified pension, annuity, or profit-sharing plan and after his death a distribution is made to his beneficiary, the exclusion of section 101(b) is not applicable to any portion of such distribution even though such individual was at one time an employee (under common law) of the trade or business and a portion of the distribution is attributable to contributions which were made while he was such an employee. Similarly, the exclusion of section 101(b) is not applicable to any portion of a distribution from such a qualified plan on behalf of an individual who was retired at the time of his death and who at the time of his retirement participated in the plan as a self-employed individual.

Section 7(d) of the bill amends section 104(a) of the Internal Revenue Code of 1954, relating to compensation for injuries or sickness, to make clear that the exclusion of such section is not applicable to any benefits which are attributable to contributions to a qualified pension, annuity, or profit-sharing plan on behalf of an individual while he was a self-employed individual to the extent that such contributions were allowed as deductions under section 404.

Section 7(e) of the bill amends section 105 of the Internal Revenue Code of 1954, relating to amounts received under accident and health plans, by adding a new subsection (g) which provides that, for purposes of section 105, the term "employee" does not include an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals). For example, if at the time an individual commences to receive benefits described in section 105 from a qualified pension plan, he is covered under such plan as a self-employed individual, such benefits do not qualify for the exclusion of section 105.

Section 7(f) of the bill amends section 172 (d)(4) of the Internal Revenue Code of 1954, relating to net operating loss deductions, to make clear that any deduction under section 404 or 405 attributable to contributions on behalf of a self-employed individual under a qualified employees' plan shall not be treated as attributable to the trade or business of such individual for purposes of section 172.

Section 7(g) of the bill makes conforming amendments to section 805 of the Internal Revenue Code of 1954, relating to pension plan reserves of life insurance companies.

Section 7(h) of the bill amends section 1361 of the Internal Revenue Code of 1954, relating to unincorporated business enterprises electing to be taxed as domestic corporations, to permit a partner or proprietor of such an unincorporated business to participate in a qualified pension, annuity, profit-sharing, or bond-purchase plan. However, for purposes of applying all the provisions relating to such qualified plans, such a partner or proprietor shall be considered a self-employed individual and will be considered an employee only to the extent he is so considered under section 401(c)(1).

Section 7(i) of the bill amends section 2039 of the Internal Revenue Code of 1954, relating to exemption from gross estate of annuities under certain trusts and plans. Paragraph (1) of section 7(i) amends section 2039(c)(2) to provide that the exclusion of the value of an annuity under a qualified annuity plan will be applicable only if the annuity plan meets the additional qualification requirements of sections 401 (a) and (d). Paragraph (2) of section 7(i) amends section 2039(c) by adding at the end thereof a new sentence which provides that, for purposes of section 2039(c), contributions or payments on behalf of the decedent while he was an employee within the meaning of section 401(c)(1) made under a qualified pension, annuity, or profit-sharing plan shall be considered to be contributions or payments made by the decedent. Accordingly, the estate tax exclusion of section 2039(c) is not applicable to the portion of a decedent's interest in a qualified plan which is attributable to contributions on behalf of an individual while he was a self-employed individual.

Section 7(j) of the bill amends section 2517 of the Internal Revenue Code of 1954, relating to exclusion from gift tax in case of certain annuities under qualified plans, in the same manner as section 7(i) of the bill amends the estate tax exclusion with respect to qualified plans.

Sections 7 (k) and (l) of the bill amend section 3306(b)(5) of the Internal Revenue Code of 1954 (relating to the Federal Unemployment Tax Act) and section 3401(a)(12) of such code (relating to the withholding of income tax). These amendments make conforming changes and exclude from the definition of "wages" under such sections any payment made to, or on behalf of, an employee or his beneficiary, under or to a bond-purchase plan which, at the time of such payment, is a qualified bond-purchase plan described in section 405.

Section 7(m) of the bill amends the Internal Revenue Code of 1954 to add a new section 6047, giving the Secretary or his delegate authority to require the furnishing of additional information which is necessary to administer the new provisions in this bill. Section 7(m) of the bill also amends section 7207 of the 1954 code to provide penalties for willfully furnishing false or fraudulent information.

SECTION 8. EFFECTIVE DATE

Section 8 of the bill provides that the amendments made by this bill will be applicable to taxable years beginning after December 31, 1961.

* * * * *

MINORITY VIEWS ON H.R. 10

In our opinion, H.R. 10 should not be enacted into law. This measure violates every rule of equity and fair play in that it sets up a program in which only a few of the already fortunately situated can participate. Furthermore, it sets a dangerous precedent by allowing a tax deduction to be taken by a taxpayer for actions which that taxpayer voluntarily takes for his own peculiar benefit.

On very practical grounds there are also serious objections. The bill singles out for assistance a class of people, the self-employed, who as a group are, generally speaking, least in need or deserving of assistance. The doctor, lawyer, or small businessman is not forced to retire at a specified age. He typically builds up a practice or business, takes in younger associates, and continues to benefit from such practice or business well beyond the earning years of the average employee. Then too, the bill badly erodes the tax base at a time when the crying need is for tax reform through broadening that base. If we can afford the revenue loss which this bill represents, we can certainly suffer such loss in order to gain more worthy objectives.

The bill fails even to accomplish its major ostensible objective of equating retirement privileges of the self-employed with those of the executive of closely held corporations. To achieve parity in this regard, limitations of considerable stringency would need to be placed on corporate executives. The committee refused to acknowledge this fact and summarily voted down all attempts in that direction.

The entire pension and profit sharing area is in dire need of a thorough cleanup. The enactment of this legislation does nothing to improve existing law. It merely rather loosely bastes another patch on this crazy quilt.

Some of these points require elaboration.

THE TAX BENEFITS OF THE BILL

This bill would extend to the so-called self-employed individuals certain tax benefits in connection with funds which such individuals set aside for their retirement. A part of the funds so set aside would be deductible from current income for income tax purposes, and the earnings on such funds would be entirely exempt from current taxation. Although the funds and earnings would be taxable when withdrawn, the opportunity to postpone taxation of the funds and earnings represents a very significant tax advantage, especially to those people receiving very large incomes when the funds are set aside. (1) When the funds and earnings are withdrawn, the taxpayer almost invariably will be receiving less income and, consequently, the funds and earnings will be taxable at a lower rate. (2) Furthermore, the interest received on his savings during the period of accumulation, although really a part of his income, will not be taxable although if the savings were invested in stocks, bonds, mortgages, or bank deposits, the interest would be taxable. (3) In addition, the taxpayer may, when he withdraws the funds and earnings, be entitled to the retirement income

credit and the additional exemptions allowed individuals over age 65, and these benefits would further reduce the tax ultimately paid on the funds set aside for retirement.

ILLUSTRATION OF TAX BENEFITS

The very attractive tax benefits which would result from the enactment of the bill may be illustrated by the following example. If a self-employed individual, whose earned income is \$20,000 a year, contributes \$2,000 a year to a retirement plan qualifying under the bill, each \$2,000 contribution would entitle him to a \$1,500 deduction. If this self-employed individual has no other income subject to tax, is married, has two dependents in addition to his wife, and is entitled to itemized deductions equal to 10 percent of his income for each year, each \$1,500 deduction would reduce his taxes by \$450. Thus, each year's contribution of \$2,000 would bring an immediate after-tax return of \$450, or 22½ percent of the contribution. If a contribution of this amount is made each year for 30 years, the aggregate tax savings attributable to these deductions would be \$13,500. In addition, the total sum accumulated under the retirement plan at the end of 30 years would be \$105,000, assuming an interest rate of 3½ percent. This total sum would include \$45,000 of accumulated interest, but if the interest were currently taxable to the self-employed individual, there would have been approximately \$14,900 less of accumulated interest in the fund. Thus, almost \$15,000 of the fund is due to exemption of the interest income from current taxation. This is a tax saving of \$15,000 in addition to the \$13,500 tax savings attributable to the deductions or a total of \$28,500.

INSIGNIFICANCE OF EMPLOYEE REQUIREMENT

A self-employed individual who is an employer and who desires to take advantage of the bill would be required to set up a retirement plan covering his permanent full-time employees with more than 3 years of service. However, this requirement may not have as much significance as would first appear. In the first place, the privilege of excluding employees with less than 3 years of service would permit many of the employers for whom the bill would be enacted to exclude a large number of employees from participation in any retirement plan established by the employer. Moreover, any contributions which an employer makes on behalf of his employees will also be deductible in computing the employer's tax.

AN UNWARRANTED SUBSIDY

In these times, we of the Congress are confronted with many very grave problems. Our Nation is engaged in a frightening contest with communism, and our interests are being threatened throughout the world. Our rights to access to Berlin are being challenged, and to meet this thrust and the other advances of communism and to demonstrate to the Russians that we will not compromise principle, we must increase our Armed Forces. To provide this increase in our military strength, we have recently approved increased appropriations of more than \$3 billion.

The Russians are also challenging us by attempting to influence and control the underdeveloped nations of the world. To meet this challenge and to assist the deserving people of the world, we have just authorized the spending of more than \$4.2 billion this year and have authorized the President to commit \$11.9 billion during the next 5 years.

In addition to meeting these threats by the Russians, we must maintain a healthy and growing society in the United States. We must not sacrifice our own sources of strength, such as the education of our young people. In fact, we must appropriate substantially more money to the improvement of our educational system.

The enactment of this bill would result in an annual loss of revenue which is estimated to be almost \$200 million. The enactment of such legislation is in effect the granting of a subsidy of almost \$200 million to the people who would be benefited by the legislation. Let us see who is requesting this large subsidy.

SMALL GROUP WOULD BENEFIT

The self-employed individuals who would be granted a tax reduction by this bill include those people who own and operate businesses. The most active proponents of the legislation include organized groups of doctors, lawyers, and accountants. It is said that there are more than 6 million self-employed individuals in this country who might benefit by the legislation. However, in fact, according to the estimates of the Treasury Department, about 80 percent of the tax reductions which would be allowed by the bill would be received by self-employed people with an annual income in excess of \$10,000, and about 50 percent of such tax reductions would be received by self-employed people with an annual income in excess of \$20,000. Now, there are about 379,000 self-employed people in the United States with an annual income in excess of \$20,000. These people constitute only about 6 percent of the self-employed people subject to tax, but this 6 percent would receive about 50 percent of the tax benefits which would be provided by the bill. Thus, although it is argued that the bill would benefit many people, it is apparent that the primary benefit will be derived by a very small group. Furthermore, the group which would derive the primary benefit consists of individuals who are receiving very substantial incomes and who do not need any preferential tax treatment to enable them to provide for their retirement.

The professions which are represented by these groups are among the most honorable, and deservedly well rewarded in our country. In 1955, for example, the average annual income of all doctors was \$18,122, and of family physicians was \$15,000. The average annual income in 1958 of dentists was \$13,956.

In 1954 the average annual income of lawyers was \$10,258. The average annual income of senior public accountants in 1958 ranged from \$8,000 to \$10,000. The present average income of both doctors and lawyers is obviously substantially higher than these figures.

These incomes compare with an average annual income in 1960 of all wage and salary workers of only \$4,705, and of wage and salary workers in manufacturing of \$5,342.

TAX EVASION AND AVOIDANCE GREATEST FOR SELF-EMPLOYED

In testimony before a subcommittee of the Appropriations Committee of the Senate, Secretary Dillon reported on some estimates made by the Internal Revenue Service concerning unreported taxable income. According to these estimates, \$24.4 billion of taxable income was not reported for the year 1959. Of this amount, \$12 billion was income received by individuals engaged in business or farming. Thus, the very class of people who are requesting the tax concessions which would be provided by this bill were responsible for almost one-half of the unreported taxable income in 1959. The amount of unreported taxable income received by this group exceeded the amount of such income received by any other group in our society. Moreover, the amount of unreported taxable income received by this group constituted between 25 and 27 percent of the total amount of taxable income received by that group. Percentagewise, their record is worse than any other group of taxpayers. Many people engaged in businesses faithfully perform their obligations to report their income and assume their proper share of the tax burden, and these people should not be condemned for the failures of others in their class. However, in view of this very poor record of tax compliance, it seems to us that this group as a class does not seriously merit consideration for receiving tax concessions.

WHY TAX REDUCTION FOR THE SELF-EMPLOYED

This Congress may in the near future be asked by the President to increase taxes. If the people who are urging us to adopt this bill came before us and requested us to appropriate them a subsidy of almost \$200 million, we believe that this Congress would not seriously consider such a request. In view of the demands upon the public Treasury for appropriations of huge sums for national defense and other very worthwhile and necessary public objectives, the request of these people for a subsidy must rank very low in priority. Yet, by asking for the tax concessions which would be provided by this bill, these people are asking for just such a subsidy, and their request for these tax concessions should be considered no more favorably than their request for a similar subsidy.

EROSION OF THE TAX BASE

In his tax message to the Congress, the President recognized and pointed out to the Congress the need for a fundamental revision of our tax system. He announced that he had directed the Secretary of the Treasury to study the tax system with the view of submitting a proposed revision of the tax law. Even before this statement of the President, this need for a fundamental revision of our tax system was considered by the Joint Economic Committee and the House Ways and Means Committee, and many of those who appeared before those committees also recognized the urgent need for a redistribution of the tax burden.

The present law contains many provisions which extend preferred tax treatment to selected groups of taxpayers. The result of the preferred tax treatment received by these groups is that the rates of

tax imposed upon other taxpayers generally are higher than they otherwise would be. In other words, many people feel that the present tax rates are too high; yet, if these rates are to be reduced, the resulting loss of revenue must be offset by removing the preferred tax treatment now received by selected groups of taxpayers. By redistributing the tax burden in this manner, all taxpayers would be treated more equitably. In fact, although any discussion of the tax law becomes technical and therefore is of little interest to most people, it is our observation that more and more people are recognizing the fundamental facts that some groups of taxpayers are receiving more favorable tax treatment and that if these special tax provisions were eliminated, the rates for all taxpayers could be reduced.

This bill is inconsistent with the recognized need for redistributing the tax burden. By extending to the self-employed favorable tax treatment for their retirement savings, the bill would further erode the tax base. What is more, the granting of these tax benefits to the self-employed is likely to lead to further erosion of the tax base. If self-employed people are to receive preferred tax treatment for their retirement savings, equity would seem to require that similar treatment should be provided for other taxpayers. The employers of many employees have not established retirement plans for their employees, and if this bill is adopted, it would seem that these employees should also receive comparable tax treatment for their retirement savings. Furthermore, many employees who are nominally covered by present retirement plans do not, in fact, have any substantial rights under these plans. Thus, it would seem, if this bill is adopted, that these employees who are inadequately covered by present retirement plans should also receive comparable tax treatment for their retirement savings. To extend similar tax treatment to the employees who are not covered by employer-sponsored retirement plans or whose coverage under such plans is inadequate would cause a loss of revenue of about \$1.7 billion.

If the self-employed are permitted to deduct the funds which they set aside for their retirement, employees who are required to make contributions to the social security system, to the railroad retirement system, to other Government plans, or to plans established by their employers will claim that they too should be permitted to deduct the contributions for their retirement. To allow employees to deduct their contributions to the social security system would cost about \$1.1 billion of revenue. Fifty-five million dollars of revenue would be lost if employees were permitted to deduct their contributions to the railroad retirement system; \$370 million would be lost if employees were permitted to deduct their contributions to Federal, State, and local government plans; and \$165 million of revenue would be lost if employees were permitted to deduct their contributions to private retirement plans. If this bill is adopted, the Congress will receive requests to allow these additional deductions and if these deductions are allowed, the aggregate loss of revenue would be staggering. That loss of revenue would have to be met either by deficit financing or by increasing the taxes imposed upon taxpayers generally.

Although we are opposed to further erosion of the tax base and to any action which would result in such a large loss of revenue, we offered for the consideration of the committee an amendment which would have extended comparable tax benefits to employees who are

not covered or who are inadequately covered by employer-sponsored retirement plans, but the committee rejected our amendment. Although by rejecting this amendment, the committee has refused to recognize at this time the compelling equity of the case of these employees for receiving comparable tax benefits, the enactment of this bill will inevitably lead to more and more requests by such employees for similar tax concessions.

DEDUCTIONS FOR OTHER FORMS OF SAVINGS

This bill deals with retirement savings, but the question will be asked why should retirement savings be treated more favorably than other personal expenses? If we are to allow tax incentives for retirement savings, why should we not also allow tax deductions for the expenses of sending children to school or the costs of purchasing a family residence? It is socially desirable to encourage people to provide for their own retirement, but it would seem equally desirable to encourage the further education of our children and to encourage the purchase of family residences. We see no adequate basis for extending tax concessions to retirement savings without extending similar tax concessions to many other socially desirable causes. The Congress must come to recognize that if we submit to the importuning of every group which asks for some special tax concession for funds set aside for some laudatory purpose, the base of the income tax will be destroyed, and we will be left with a tax on consumption—not income.

Since the percentages devoted to consumption decrease and the proportions set aside for savings increase as total income increases,¹ this means that a smaller and smaller percentage of total income would be subject to income taxation. State and local taxation, based primarily upon sales taxes and real property, is already quite heavily regressive. A great reduction in the progressive features of the Federal income tax would probably make the total tax structure regressive and one which would weigh more heavily upon those with low and moderate means than upon those with larger annual incomes. There would also be a greater concentration of economic power. These are social consequences which we do not like and regard as detrimental to the ideals of our democratic society. As we preach tax reform to the Latin Americans, let us not violate these principles ourselves. Social justice is for internal use and not merely for export.

It is true that the present law provides tax benefits for retirement plans established by an employer for his employees. However, in view of the pending reconsideration of the proper base for imposing an income tax, we believe that no preferred tax treatment should be extended to any additional selected group of taxpayers. In time, we can consider the basic question of whether retirement savings should be treated differently than other personal expenses, and when that decision is made, we can then adopt laws which treat all people in a comparable and equitable manner.

When this basic question is fully considered, should it be decided to give a tax concession to encourage savings for retirement, there are several groups which must be treated differently. The ordinary employee, the highly compensated corporate executive, the owner-

¹ The technical description for this is that the income elasticity of consumption is less than unity and that for savings is greater than unity. This is borne out by a large number of budgetary studies.

manager of a closely held corporation, the self-employed professional man, and the owner of a nonincorporated business all require somewhat different treatment in order to arrive at comparable and equitable solution.

TAX REFORM NEGLECTED

In the past 2 years, this committee has spent many days considering the plea of the self-employed for tax relief in connection with their retirement savings. Instead of spending our time on this subject the committee should have devoted this time to a study of the abuses which are prevalent in our present tax system and a study of the means of reforming this system. In his tax message to the Congress, the President submitted a modest program of tax reform for the consideration of the Congress this year. However, this committee has given no serious consideration to those Presidential recommendations.

To provide the committee with an opportunity to consider these recommendations, we offered amendments to H.R. 10 which would have closed the door on some of the most conspicuous means of tax avoidance or evasion. These amendments included a proposal to withhold upon dividends and interest at the source, to correct the widespread practice of claiming excessive tax deductions for entertainment and travel expenses, to reduce the extraordinary and unjustified depletion allowances, to remove the wholly undesirable dividends received credit, and to prevent corporate executives from converting their compensation into capital gains by receiving stock options. All these amendments were rejected by the committee. It is because of the abuses which would have been corrected by these amendments and because of other tax concessions to favored groups that our people generally are required to pay the present high rates of tax, and this committee cannot much longer continue to refuse to face this deplorable situation.

The continued refusal of the Senate Finance Committee to deal with well known and greatly abused methods and systems of tax avoidance, while at the same time repeatedly recommending tax reductions, favors, and concessions to special groups, cannot help but bring our entire tax system into disrepute and disrespect. We insist that the public interest would be served by removal and repeal of tax loopholes. Conversely, we insist that creating one more favoritism after another adversely affects the public interest.

THE FAILURES OF THE BILL

The proponents of the bill argue on its behalf that the self-employed people are the victims of discrimination. If an employer establishes a retirement plan for his employees which meets certain requirements of the present law, the employees are not currently taxable on the funds which are set aside for their retirement, and the earnings on such funds are also exempt from current taxation. If a business is incorporated, and the owners work in the business, they can participate in such a retirement plan and derive these tax advantages. It is argued that since some businesses cannot be incorporated, the owners of such businesses should receive comparable tax treatment. In many States, statutes have recently have been enacted which permit professional people to incorporate or to form professional associa-

tions which would be treated like corporations for Federal tax purposes. It is argued that this bill should be adopted to provide the self-employed who are not incorporated with comparable tax treatment and to eliminate the pressures for the adoption of the State statutes permitting the formation of professional corporations or associations. However, this bill would not accomplish these objectives.

If this bill is adopted, there would still remain very substantial differences in the tax treatment of incorporated and unincorporated businesses. The bill would place limits on the deductions which would be allowable with respect to contributions on behalf of the owners of unincorporated businesses, but no comparable limits would be placed on deductions for contributions on behalf of owners who are technically employees of incorporated businesses. Owners of incorporated businesses would continue to receive the privilege of having certain total distributions from plans covering them treated as long-term capital gains, although this privilege would not be extended to the owners of unincorporated businesses.

For example, the committee has been informed by the Treasury that there are instances in which lump-sum distributions in excess of \$800,000 have been made to a corporation executive from sums set aside for his benefit. Under existing law, distribution of these large sums is accorded the 25-percent capital gains tax rate. In reality, such "income" bears no relationship whatever to capital gains in the ordinary meaning of that term. Rather, such a distribution reflects an accumulation of ordinary income, the distribution of which has been deferred.

Similarly, the interest of an owner under a corporate plan would continue to be exempt from the gift tax and the estate tax, but the interest of an owner under an unincorporated plan would not receive these tax advantages. The bill would place other restrictions on the qualifying plans of the self-employed, but comparable restrictions would not be placed upon corporate plans.

BILL MORE UNDESIRABLE THAN 1960 VERSION

When this committee considered this matter last year, it recognized the need to treat substantial owners in a similar manner, regardless of whether the business was incorporated or unincorporated. Although there were some unfortunate differences between the treatment of corporate owners and the self-employed, the bill which this committee acted upon favorably last year was materially better than this bill because it did contain some limits on the abuses which occur under the present corporate plans. We thought it inadvisable to act favorably upon last year's bill, but we consider this bill infinitely more undesirable.

Any legislation dealing with retirement savings must recognize the need to treat all people in a comparable manner. Theoretically, all people could be treated alike by permitting them to participate in retirement plans subject only to the rules of the present law, but this possibility seems to be unacceptable. The alternative is to place similar restrictions upon all participants in retirement plans which receive preferred tax treatment. As a minimum, any legislation relating to retirement savings must include restrictions upon the benefits

with respect to which the favored tax treatment is to be extended. Such legislation should, like last year's bill, place limits on the participation of corporate owners, but unlike last year's bill, those limits should not be more favorable than the limits which are imposed upon self-employed people. Last year's bill was also defective in that it failed to include limits on the participation of corporate executives. Accordingly, that bill in effect discriminated against closely held corporations and in favor of the larger widely held corporations. This discrimination is unfortunate and unjustifiable, and to avoid it, comparable limits should be placed upon the participation of corporate executives.

IMPROVING AMENDMENTS DEFEATED

Despite our view that we should not consider at this time the extension of preferred tax treatment to any other group, we thought that if the Congress is going to consider this bill at this time, we should make every effort to improve the bill. To this end, we offered amendments which would have made the bill more equitable by placing similar restrictions upon corporate plans, but the committee rejected all of these attempts to reform the abuses which are now occurring under corporate plans.

Since corporate plans would continue to receive more favorable tax treatment, we may be assured that if this bill is enacted, its advocates will come before this committee in future years to complain about the discrimination against the self-employed and to argue that the self-employed should be allowed to participate in retirement plans to the same extent as corporate owners. Thus, even if the Congress granted the present requests of the advocates of the self-employed, it will not be long until they are here again asking for liberalization of the rules established by this bill. Furthermore, as long as the law allows them substantially greater tax advantages under corporate plans, we may be certain that the professional people will take advantage of the opportunities to incorporate which some States have provided for then and that they will continue to seek new State statutes permitting them to form professional corporations or associations. After all, they can point to the vastly different tax treatment which applies to corporate plans and argue that to eliminate this discrimination, they should be permitted to incorporate. Thus, the enactment of the bill would not satisfy the self-employed but would merely permit them to take the first step in securing further tax concessions for their retirement savings.

PAUL H. DOUGLAS.
ALBERT GORE.

[H.R. 10]¹

SELF-EMPLOYED INDIVIDUALS TAX RETIREMENT ACT OF 1962

[Conference Report No. 2411, Eighty-seventh Congress, Second Session]

[September 18, 1962]

MR. MILLS, from the committee of conference, submitted the following Conference Report to accompany H.R. 10.

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 10) to encourage the establishment of voluntary pension plans by self-employed individuals, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

That this Act may be cited as the "Self-Employed Individuals Tax Retirement Act of 1962".

SEC. 2. QUALIFICATION OF PLANS.

Section 401 of the Internal Revenue Code of 1954 (relating to qualified pension, profit-sharing, and stock bonus plans) is amended—

(1) by adding at the end of paragraph (5) of subsection (a) the following new sentence: "For purposes of this paragraph and paragraph (10), the total compensation of an individual who is an employee within the meaning of subsection (c)(1) means such individual's earned income (as defined in subsection (c)(2)), and the basic or regular rate of compensation of such an individual shall be determined, under regulations prescribed by the Secretary or his delegate, with respect to that portion of his earned income which bears the same ratio to his earned income as the basic or regular compensation of the employees under the plan bears to the total compensation of such employees.";

(2) by adding at the end of subsection (a) the following new paragraphs:

¹ Public Law 87-792, page 89, this Bulletin.

"(7) A trust shall not constitute a qualified trust under this section unless the plan of which such trust is a part provides that, upon its termination or upon complete discontinuance of contributions under the plan, the rights of all employees to benefits accrued to the date of such termination or discontinuance, to the extent then funded, or the amounts credited to the employees' accounts, are nonforfeitable. This paragraph shall not apply to benefits or contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by paragraph (4), may not be used for designated employees in the event of early termination of the plan.

"(8) A trust forming part of a pension plan shall not constitute a qualified trust under this section unless the plan provides that forfeitures must not be applied to increase the benefits any employee would otherwise receive under the plan.

"(9) In the case of a plan which provides contributions or benefits for employees some or all of whom are employees within the meaning of subsection (c)(1), a trust forming part of such plan shall not constitute a qualified trust under this section unless, under the plan, the entire interest of each employee—

"(A) either will be distributed to him not later than his taxable year in which he attains the age of 70½ years, or, in the case of an employee other than an owner-employee (as defined in subsection (c)(3)), in which he retires, whichever is the later, or

"(B) will be distributed, commencing not later than such taxable year, (i) in accordance with regulations prescribed by the Secretary or his delegate, over the life of such employee or over the lives of such employee and his spouse, or (ii) in accordance with such regulations, over a period not extending beyond the life expectancy of such employee or the life expectancy of such employee and his spouse.

A trust shall not be disqualified under this paragraph by reason of distributions under a designation, prior to the date of the enactment of this paragraph, by any employee under the plan of which such trust is a part, of a method of distribution which does not meet the terms of the preceding sentence.

"(10) In the case of a plan which provides contributions or benefits for employees some or all of whom are owner-employees (as defined in subsection (c)(3))—

"(A) paragraph (3) and the first and second sentences of paragraph (5) shall not apply, but—

"(i) such plan shall not be considered discriminatory within the meaning of paragraph (4) merely because the contributions or benefits of or on behalf of employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, and

"(ii) such plan shall not be considered discriminatory within the meaning of paragraph (4) solely because under the plan contributions described in subsection (e)(3)(A) which are in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a)(10)) for the taxable year may be made on behalf of any owner-employee; and

"(B) a trust forming a part of such plan shall constitute a qualified trust under this section only if the requirements in subsection (d) are also met."; and

(3) by redesignating subsection (c) as subsection (h) and inserting after subsection (b) the following new subsections:

"(c) **DEFINITIONS AND RULES RELATING TO SELF-EMPLOYED INDIVIDUALS AND OWNER-EMPLOYEES.**—For purposes of this section—

"(1) **EMPLOYEE.**—The term 'employee' includes, for any taxable year, an individual who has earned income (as defined in paragraph (2)) for the taxable year. To the extent provided in regulations prescribed by the Secretary or his delegate, such term also includes, for any taxable year—

"(A) an individual who would be an employee within the meaning of the preceding sentence but for the fact that the trade or business carried on by such individual did not have net profits for the taxable year, and

"(B) an individual who has been an employee within the meaning of the preceding sentence for any prior taxable year.

"(2) **EARNED INCOME.**—

"(A) **IN GENERAL.**—The term 'earned income' means the net earnings from self-employment (as defined in section 1402(a)) to the extent that such net earnings constitute earned income (as defined in section 911(b) but determined with the application of subparagraph (B)), but such net earnings shall be determined—

"(i) without regard to paragraphs (4) and (5) of section 1402(c),

"(ii) in the case of any individual who is treated as an employee under sections 3121(d)(3) (A), (C), or (D), without regard to paragraph (2) of section 1402(c), and

"(iii) without regard to items which are not included in gross income for purposes of this chapter, and the deductions properly allocable to or chargeable against such items.

For purposes of this subparagraph, sections 911(b) and 1402, as in effect for a taxable year ending on December 31, 1962, and subparagraph (B), as in effect for a taxable year beginning on January 1, 1963, shall be treated as having been in effect for all taxable years ending before such date.

"(B) **EARNED INCOME WHEN BOTH PERSONAL SERVICES AND CAPITAL ARE MATERIAL INCOME-PRODUCING FACTORS.**—In applying section 911(b) for purposes of subparagraph (A), in the case of an individual who is an employee within the meaning of paragraph (1) and who is engaged in a trade or business in which both personal services and capital are material income-producing factors and with respect to which the individual actually renders personal services on a full-time, or substantially full-time, basis, so much of his share of the net profits of such trade or business as does not exceed \$2,500 shall be considered as earned income. In the case of any such individual who is engaged in more than one trade or business with respect to which he actually renders substantial personal services, if with respect to all such trades or businesses he actually renders personal services on a full-time, or substantially full-time, basis, there shall be considered as earned income with respect to the trades or businesses in which both personal services and capital are material income-producing factors—

“(i) so much of his share of the net profits of such trades or businesses as does not exceed \$2,500, reduced by

“(ii) his share of the net profits of any trade or business in which only personal services is a material income-producing factor.

The preceding sentences shall not be construed to reduce the share of net profits of any trade or business which under the second sentence of section 911(b) would be considered as earned income of any such individual.

“(3) **OWNER-EMPLOYEE.**—The term ‘owner-employee’ means an employee who—

“(A) owns the entire interest in an unincorporated trade or business, or

“(B) in the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership.

To the extent provided in regulations prescribed by the Secretary or his delegate, such term also means an individual who has been an owner-employee within the meaning of the preceding sentence.

“(4) **EMPLOYER.**—An individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. A partnership shall be treated as the employer of each partner who is an employee within the meaning of paragraph (1).

“(5) **CONTRIBUTIONS ON BEHALF OF OWNER-EMPLOYEES.**—The term ‘contribution on behalf of an owner-employee’ includes, except as the context otherwise requires, a contribution under a plan—

“(A) by the employer for an owner-employee, and

“(B) by an owner-employee as an employee.

“(d) **ADDITIONAL REQUIREMENTS FOR QUALIFICATION OF TRUSTS AND PLANS BENEFITING OWNER-EMPLOYEES.**—A trust forming part of a pension or profit-sharing plan which provides contributions or benefits for employees some or all of whom are owner-employees shall constitute a qualified trust under this section only if, in addition to meeting the requirements of subsection (a), the following requirements of this subsection are met by the trust and by the plan of which such trust is a part:

“(1) In the case of a trust which is created on or after the date of the enactment of this subsection, or which was created before such date but is not exempt from tax under section 501(a) as an organization described in subsection (a) on the day before such date, the trustee is a bank, but a person (including the employer) other than a bank may be granted, under the trust instrument, the power to control the investment of the trust funds either by directing investments (including reinvestments, disposals, and exchanges) or by disapproving proposed investments (including reinvestments, disposals, and exchanges). This paragraph shall not apply to a trust created or organized outside the United States before the date of the enactment of this subsection if, under section 402(c), it is treated as exempt from tax under section 501(a) on the day before such date; or, to the extent provided under regulations prescribed by the Secretary or his delegate, to a trust which uses annuity, endowment, or life insurance contracts of a life insurance company exclusively to fund the benefits prescribed by the trust, if the life insurance company supplies annually such information about trust transactions affecting owner-employees as the Secretary or his delegate shall by forms or regula-

tions prescribe. For purposes of this paragraph, the term 'bank' means a bank as defined in section 581, a corporation which under the laws of the State of its incorporation is subject to supervision and examination by the commissioner of banking or other officer of such State in charge of the administration of the banking laws of such State, and, in the case of a trust created or organized outside the United States, a bank or trust company, wherever incorporated, exercising fiduciary powers and subject to supervision and examination by governmental authority.

"(2) Under the plan—

"(A) the employees' rights to or derived from the contributions under the plan are nonforfeitable at the time the contributions are paid to or under the plan; and

"(B) in the case of a profit-sharing plan, there is a definite formula for determining the contributions to be made by the employer on behalf of employees (other than owner-employees). Subparagraph (A) shall not apply to contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by subsection (a)(4), may not be used to provide benefits for designated employees in the event of early termination of the plan.

"(3) The plan benefits each employee having a period of employment of 3 years or more. For purposes of the preceding sentence, the term 'employee' does not include any employee whose customary employment is for not more than 20 hours in any one week or is for not more than 5 months in any calendar year.

"(4) Under the plan—

"(A) contributions or benefits are not provided for any owner-employee unless such owner-employee has consented to being included under the plan; and

"(B) no benefits may be paid to any owner-employee, except in the case of his becoming disabled (within the meaning of section 213(g)(3)), prior to his attaining the age of 59½ years.

"(5) The plan does not permit—

"(A) contributions to be made by the employer on behalf of any owner-employee in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a)(10)) for the taxable year;

"(B) in the case of a plan which provides contributions or benefits only for owner-employees, contributions to be made on behalf of any owner-employee in excess of the amounts which may be deducted under section 404 (determined without regard to section 404(a)(10)) for the taxable year; and

"(C) if a distribution under the plan is made to any employee and if any portion of such distribution is an amount described in section 72(m)(5)(A)(i), contributions to be made on behalf of such employee for the 5 taxable years succeeding the taxable year in which such distribution is made.

Subparagraphs (A) and (B) shall not apply to any contribution which is not considered to be an excess contribution (as defined in subsection (e)(1)) by reason of the application of subsection (e)(3).

"(6) Except as provided in this paragraph, the plan meets the requirements of subsection (a)(4) without taking into account for

any purpose contributions or benefits under chapter 2 (relating to tax on self-employment income), chapter 21 (relating to Federal Insurance Contributions Act), title II of the Social Security Act, as amended, or any other Federal or State law. If—

“(A) of the contributions deductible under section 404 (determined without regard to section 404(a)(10)), not more than one-third is deductible by reason of contributions by the employer on behalf of owner-employees, and

“(B) taxes paid by the owner-employees under chapter 2 (relating to tax on self-employment income), and the taxes which would be payable under such chapter 2 by the owner-employees but for paragraphs (4) and (5) of section 1402(c), are taken into account as contributions by the employer on behalf of such owner-employees,

then taxes paid under section 3111 (relating to tax on employers) with respect to an employee may, for purposes of subsection (a)(4), be taken into account as contributions by the employer for such employee under the plan.

“(7) Under the plan, if an owner-employee dies before his entire interest has been distributed to him, or if distribution has been commenced in accordance with subsection (a)(9)(B) to his surviving spouse and such surviving spouse dies before his entire interest has been distributed to such surviving spouse, his entire interest (or the remaining part of such interest if distribution thereof has commenced) will, within 5 years after his death (or the death of his surviving spouse), be distributed, or applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries of his surviving spouse) which will be payable for the life of such beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries) and which will be immediately distributed to such beneficiary or beneficiaries. The preceding sentence shall not apply if distribution of the interest of an owner-employee has commenced and such distribution is for a term certain over a period permitted under subsection (a)(9)(B)(ii).

“(8) Under the plan—

“(A) any contribution which is an excess contribution, together with the income attributable to such excess contribution, is (unless subsection (e)(2)(E) applies) to be repaid to the owner-employee on whose behalf such excess contribution is made;

“(B) if for any taxable year the plan does not, by reason of subsection (e)(2)(A), meet (for purposes of section 404) the requirements of this subsection with respect to an owner-employee, the income for the taxable year attributable to the interest of such owner-employee under the plan is to be paid to such owner-employee; and

“(C) the entire interest of an owner-employee is to be repaid to him when required by the provisions of subsection (e)(2)(E).

“(9)(A) If the plan provides contributions or benefits for an owner-employee who controls, or for two or more owner-employees who together control, the trade or business with respect to which the plan is established, and who also control as an owner-employee or as owner-employees one or more other trades or businesses, such plan

and the plans established with respect to such other trades or businesses, when coalesced, constitute a single plan which meets the requirements of subsection (a) (including paragraph (10) thereof) and of this subsection with respect to the employees of all such trades or businesses (including the trade or business with respect to which the plan intended to qualify under this section is established).

“(B) For purposes of subparagraph (A), an owner-employee, or two or more owner-employees, shall be considered to control a trade or business if such owner-employee, or such two or more owner-employees together—

“(i) own the entire interest in an unincorporated trade or business, or

“(ii) in the case of a partnership, own more than 50 percent of either the capital interest or the profits interest in such partnership.

For purposes of the preceding sentence, an owner-employee, or two or more owner-employees, shall be treated as owning any interest in a partnership which is owned, directly or indirectly, by a partnership which such owner-employee, or such two or more owner-employees, are considered to control within the meaning of the preceding sentence.

“(10) The plan does not provide contributions or benefits for any owner-employee who controls (within the meaning of paragraph (9)(B)), or for two or more owner-employees who together control, as an owner-employee or as owner-employees, any other trade or business, unless the employees of each trade or business which such owner-employee or such owner-employees control are included under a plan which meets the requirements of subsection (a) (including paragraph (10) thereof) and of this subsection, and provides contributions and benefits for employees which are not less favorable than contributions and benefits provided for owner-employees under the plan.

“(11) Under the plan, contributions on behalf of any owner-employee may be made only with respect to the earned income of such owner-employee which is derived from the trade or business with respect to which such plan is established.

“(e) **EXCESS CONTRIBUTIONS ON BEHALF OF OWNER-EMPLOYEES.**—

“(1) **EXCESS CONTRIBUTION DEFINED.**—For purposes of this section, the term ‘excess contribution’ means, except as provided in paragraph (3)—

“(A) if, in the taxable year, contributions are made under the plan only on behalf of owner-employees, the amount of any contribution made on behalf of any owner-employee which (without regard to this subsection) is not deductible under section 404 (determined without regard to section 404(a)(10)) for the taxable year; or

“(B) if, in the taxable year, contributions are made under the plan on behalf of employees other than owner-employees—

“(i) the amount of any contribution made by the employer on behalf of any owner-employee which (without regard to this subsection) is not deductible under section 404 (determined without regard to section 404(a)(10)) for the taxable year;

“(ii) the amount of any contribution made by any owner-employee (as an employee) at a rate which exceeds the rate of contributions permitted to be made by employees other than owner-employees;

“(iii) the amount of any contribution made by any owner-employee (as an employee) which exceeds the lesser of \$2,500 or 10 percent of the earned income for such taxable year derived by such owner-employee from the trade or business with respect to which the plan is established; and

“(iv) in the case of any individual on whose behalf contributions are made under more than one plan as an owner-employee, the amount of any contribution made by such owner-employee (as an employee) under all such plans which exceeds \$2,500; and

“(C) the amount of any contribution made on behalf of an owner-employee in any taxable year for which, under paragraph (2)(A) or (E), the plan does not (for purposes of section 404) meet the requirements of subsection (d) with respect to such owner-employee.

For purposes of this subsection, the amount of any contribution which is allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account.

“(2) EFFECT OF EXCESS CONTRIBUTION.—

“(A) IN GENERAL.—If an excess contribution (other than an excess contribution to which subparagraph (E) applies) is made on behalf of an owner-employee in any taxable year, the plan with respect to which such excess contribution is made shall, except as provided in subparagraphs (C) and (D), be considered, for purposes of section 404, as not meeting the requirements of subsection (d) with respect to such owner-employee for the taxable year and for all succeeding taxable years.

“(B) INCLUSION OF AMOUNTS IN GROSS INCOME OF OWNER-EMPLOYEES.—For any taxable year for which any plan does not meet the requirements of subsection (d) with respect to an owner-employee by reason of subparagraph (A), the gross income of such owner-employee shall, for purposes of this chapter, include the amount of net income for such taxable year attributable to the interest of such owner-employee under such plan.

“(C) REPAYMENT WITHIN PRESCRIBED PERIOD.—Subparagraph (A) shall not apply to an excess contribution with respect to any taxable year, if, on or before the close of the 6-month period beginning on the day on which the Secretary or his delegate sends notice (by certified or registered mail) to the person to whom such excess contribution was paid of the amount of such excess contribution, the amount of such excess contribution, and the net income attributable thereto, is repaid to the owner-employee on whose behalf such excess contribution was made. If the excess contribution is an excess contribution as defined in paragraph (1)(A) or (B)(i), or is an excess contribution as defined in paragraph (1)(C) with respect to which a deduction has been claimed under section 404, the notice required by the preceding sentence shall not be mailed prior to

the time that the amount of the tax under this chapter of such owner-employee for the taxable year in which such excess contribution was made has been finally determined.

"(D) **REPAYMENT AFTER PRESCRIBED PERIOD.**—If an excess contribution, together with the net income attributable thereto, is not repaid within the 6-month period referred to in subparagraph (C), subparagraph (A) shall not apply to an excess contribution with respect to any taxable year beginning with the taxable year in which the person to whom such excess contribution was paid repays the amount of such excess contribution to the owner-employee on whose behalf such excess contribution was made, and pays to such owner-employee the amount of net income attributable to the interest of such owner-employee which, under subparagraph (B), has been included in the gross income of such owner-employee for any prior taxable year.

"(E) **SPECIAL RULE IF EXCESS CONTRIBUTION WAS WILLFULLY MADE.**—If an excess contribution made on behalf of an owner-employee is determined to have been willfully made, then—

"(i) subparagraphs (A), (B), (C), and (D) shall not apply with respect to such excess contribution;

"(ii) there shall be distributed to the owner-employee on whose behalf such excess contribution was willfully made his entire interest in all plans with respect to which he is an owner-employee; and

"(iii) no plan shall, for purposes of section 404, be considered as meeting the requirements of subsection (d) with respect to such owner-employee for the taxable year in which it is determined that such excess contribution was willfully made and for the 5 taxable years following such taxable year.

"(F) **STATUTE OF LIMITATIONS.**—In any case in which subparagraph (A) applies, the period for assessing any deficiency arising by reason of—

"(i) the disallowance of any deduction under section 404 on account of a plan not meeting the requirements of subsection (d) with respect to the owner-employee on whose behalf an excess contribution was made, or

"(ii) the inclusion, under subparagraph (B), in gross income of such owner-employee of income attributable to the interest of such owner-employee under a plan, for the taxable year in which such excess contribution was made or for any succeeding taxable year shall not expire prior to one year after the close of the 6-month period referred to in subparagraph (C).

"(3) **CONTRIBUTIONS FOR PREMIUMS ON ANNUITY, ETC., CONTRACTS.**—A contribution by the employer on behalf of an owner-employee shall not be considered to be an excess contribution within the meaning of paragraph (1), if—

"(A) under the plan such contribution is required to be applied (directly or through a trustee) to pay premiums or other consideration for one or more annuity, endowment, or life insurance contracts on the life of such owner-employee issued under the plan,

“(B) the amount of such contribution exceeds the amount deductible under section 404 (determined without regard to section 404(a)(10)) with respect to contributions made by the employer on behalf of such owner-employee under the plan, and

“(C) the amount of such contribution does not exceed the average of the amounts which were deductible under section 404 (determined without regard to section 404(a)(10)) with respect to contributions made by the employer on behalf of such owner-employee under the plan (or which would have been deductible under such section if such section had been in effect) for the first 3 taxable years (i) preceding the year in which the last such annuity, endowment, or life insurance contract was issued under the plan and (ii) in which such owner-employee derived earned income from the trade or business with respect to which the plan is established, or for so many of such taxable years as such owner-employee was engaged in such trade or business and derived earned income therefrom.

In the case of any individual on whose behalf contributions described in subparagraph (A) are made under more than one plan as an owner-employee during any taxable year, the preceding sentence shall not apply if the amount of such contributions under all such plans for such taxable year exceeds \$2,500. Any contribution which is not considered to be an excess contribution by reason of the application of this paragraph shall, for purposes of subparagraphs (B) (ii), (iii), and (iv) of paragraph (1), be taken into account as a contribution made by such owner-employee as an employee to the extent that the amount of such contribution is not deductible under section 404 (determined without regard to section 404(a)(10)) for the taxable year, but only for the purpose of applying such subparagraphs to other contributions made by such owner-employee as an employee.

“(f) CERTAIN CUSTODIAL ACCOUNTS.—

“(1) TREATMENT AS QUALIFIED TRUST.—For purposes of this title, a custodial account shall be treated as a qualified trust under this section, if—

“(A) such custodial account would, except for the fact that it is not a trust, constitute a qualified trust under this section;

“(B) the custodian is a bank (as defined in subsection (d)(1));

“(C) the investment of the funds in such account (including all earnings) is to be made—

“(i) solely in regulated investment company stock with respect to which an employee is the beneficial owner, or

“(ii) solely in annuity, endowment, or life insurance contracts issued by an insurance company;

“(D) the shareholder of record of any such stock described in subparagraph (C)(i) is the custodian or its nominee; and

“(E) the contracts described in subparagraph (C)(ii) are held by the custodian until distributed under the plan.

For purposes of this title, in the case of a custodial account treated as a qualified trust under this section by reason of the preceding sentence, the custodian of such account shall be treated as the trustee thereof.

“(2) DEFINITION.—For purposes of paragraph (1), the term ‘regulated investment company’ means a domestic corporation which—

"(A) is a regulated investment company within the meaning of section 851(a), and

"(B) issues only redeemable stock.

"(g) **ANNUITY DEFINED.**—For purposes of this section and sections 402, 403, and 404, the term 'annuity' includes a face-amount certificate, as defined in section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C., sec. 80a-2); but does not include any contract or certificate issued after December 31, 1962, which is transferable, if any person other than the trustee of a trust described in section 401(a) which is exempt from tax under section 501(a) is the owner of such contract or certificate."

SEC. 3. DEDUCTIBILITY OF CONTRIBUTIONS TO PLANS.

(a) **INCLUSION OF SELF-EMPLOYED INDIVIDUALS.**—Section 404(a) of the Internal Revenue Code of 1954 (relating to the deductibility of contributions to pension, annuity, profit-sharing, or stock bonus plans or plans of deferred compensation) is amended—

(1) by striking out in paragraph (2) "and (6)," and inserting in lieu thereof "(6), (7), and (8), and, if applicable, the requirements of section 401(a) (9) and (10) and of section 401(d) (other than paragraph (1)),"; and

(2) by adding after paragraph (7) the following new paragraphs:

"(8) **SELF-EMPLOYED INDIVIDUALS.**—In the case of a plan included in paragraph (1), (2), or (3) which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1), for purposes of this section—

"(A) the term 'employee' includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual is the person treated as his employer under section 401(c)(4);

"(B) the term 'earned income' has the meaning assigned to it by section 401(c)(2);

"(C) the contributions to such plan on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall be considered to satisfy the conditions of section 162 or 212 to the extent that such contributions do not exceed the earned income of such individual derived from the trade or business with respect to which such plan is established, and to the extent that such contributions are not allocable (determined in accordance with regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance; and

"(D) any reference to compensation shall, in the case of an individual who is an employee within the meaning of section 401(c)(1), be considered to be a reference to the earned income of such individual derived from the trade or business with respect to which the plan is established.

"(9) **PLANS BENEFITING SELF-EMPLOYED INDIVIDUALS.**—In the case of a plan included in paragraph (1), (2), or (3) which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1)—

"(A) the limitations provided by paragraphs (1), (2), (3), and (7) on the amounts deductible for any taxable year shall be computed, with respect to contributions on behalf of employees (other than employees within the meaning of section 401(c)(1)), as if such employees were the only employees for whom contributions and benefits are provided under the plan;

“(B) the limitations provided by paragraphs (1), (2), (3), and (7) on the amounts deductible for any taxable year shall be computed, with respect to contributions on behalf of employees within the meaning of section 401(c)(1)—

“(i) as if such employees were the only employees for whom contributions and benefits are provided under the plan, and

“(ii) without regard to paragraph (1)(D), the second and third sentences of paragraph (3), and the second sentence of paragraph (7); and

“(C) the amounts deductible under paragraphs (1), (2), (3), and (7), with respect to contributions on behalf of any employee within the meaning of section 401(c)(1), shall not exceed the applicable limitation provided in subsection (e).

“(10) **SPECIAL LIMITATION ON AMOUNT ALLOWED AS DEDUCTION FOR SELF-EMPLOYED INDIVIDUALS.**—Notwithstanding any other provision of this section, the amount allowable as a deduction under paragraphs (1), (2), (3), and (7) in any taxable year with respect to contributions made on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall be an amount equal to one-half of the contributions made on behalf of such individual in such taxable year which are deductible under such paragraphs (determined with the application of paragraph (9) and of subsection (e) but without regard to this paragraph). For purposes of section 401, the amount which may be deducted, or the amount deductible, under this section with respect to contributions made on behalf of such individual shall be determined without regard to the preceding sentence.”

(b) **LIMITATIONS ON DEDUCTIBLE CONTRIBUTIONS ON BEHALF OF SELF-EMPLOYED INDIVIDUALS.**—Section 404 of the Internal Revenue Code of 1954 (relating to the deductibility of contributions to pension, annuity, profit-sharing, or stock bonus plans or plans of deferred compensation) is amended by adding after subsection (d) the following new subsections:

“(e) **SPECIAL LIMITATIONS FOR SELF-EMPLOYED INDIVIDUALS.**—

“(1) **IN GENERAL.**—In the case of a plan included in subsection (a) (1), (2), or (3), which provides contributions or benefits for employees some or all of whom are employees within the meaning of section 401(c)(1), the amounts deductible under subsection (a) (determined without regard to paragraph (10) thereof) in any taxable year with respect to contributions on behalf of any employee within the meaning of section 401(c)(1) shall, subject to the provisions of paragraph (2), not exceed \$2,500, or 10 percent of the earned income derived by such employee from the trade or business with respect to which the plan is established, whichever is the lesser.

“(2) **CONTRIBUTIONS MADE UNDER MORE THAN ONE PLAN.**—

“(A) **OVERALL LIMITATION.**—In any taxable year in which amounts are deductible with respect to contributions under two or more plans on behalf of an individual who is an employee within the meaning of section 401(c)(1) with respect to such plans, the aggregate amount deductible for such taxable year under all such plans with respect to contributions on behalf of such employee (determined without regard to subsection (a)(10)) shall not exceed \$2,500, or 10 percent of the earned

income derived by such employee from the trades or businesses with respect to which the plans are established, whichever is the lesser.

“(B) **ALLOCATION OF AMOUNTS DEDUCTIBLE.**—In any case in which the amounts deductible under subsection (a) (with the application of the limitations of this subsection) with respect to contributions made on behalf of an employee within the meaning of section 401(c)(1) under two or more plans are, by reason of subparagraph (A), less than the amounts deductible under such subsection determined without regard to such subparagraph, the amount deductible under subsection (a) (determined without regard to paragraph (10) thereof) with respect to such contributions under each such plan shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

“(3) **CONTRIBUTIONS ALLOCABLE TO INSURANCE PROTECTION.**—For purposes of this subsection, contributions which are allocable (determined under regulations prescribed by the Secretary or his delegate) to the purchase of life, accident, health, or other insurance shall not be taken into account.

“(f) **CERTAIN LOAN REPAYMENTS CONSIDERED AS CONTRIBUTIONS.**—For purposes of this section, any amount paid, directly or indirectly, by an owner-employee (within the meaning of section 401(c)(3)) in repayment of any loan which under section 72(m)(4)(B) was treated as an amount received under a contract purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) or purchased as a part of a plan described in section 403(a) shall be treated as a contribution to which this section applies on behalf of such owner-employee to such trust or to or under such plan.”

SEC. 4. TAXABILITY OF DISTRIBUTIONS.

(a) **EMPLOYEES' ANNUITIES.**—Section 72(d)(2) of the Internal Revenue Code of 1954 (relating to employees' annuities) is amended to read as follows:

“(2) **SPECIAL RULES FOR APPLICATION OF PARAGRAPH (1).**—

For purposes of paragraph (1)—

“(A) if the employee died before any amount was received as an annuity under the contract, the words ‘receivable by the employee’ shall be read as ‘receivable by a beneficiary of the employee’; and

“(B) any contribution made with respect to the contract while the employee is an employee within the meaning of section 401(c)(1) which is not allowed as a deduction under section 404 shall be treated as consideration for the contract contributed by the employee.”

(b) **SPECIAL RULES RELATING TO SELF-EMPLOYED INDIVIDUALS AND OWNER-EMPLOYEES.**—Section 72 of the Internal Revenue Code of 1954 (relating to annuities, etc.) is amended by redesignating subsection (m) as subsection (o) and by inserting after subsection (l) the following new subsections:

“(m) **SPECIAL RULES APPLICABLE TO EMPLOYEE ANNUITIES AND DISTRIBUTIONS UNDER EMPLOYEE PLANS.**—

“(1) **CERTAIN AMOUNTS RECEIVED BEFORE ANNUITY STARTING DATE.**—Any amounts received under an annuity, endowment, or

life insurance contract before the annuity starting date which are not received as an annuity (within the meaning of subsection (e)(2)) shall be included in the recipient's gross income for the taxable year in which received to the extent that—

“(A) such amounts, plus all amounts theretofore received under the contract and includible in gross income under this paragraph, do not exceed

“(B) the aggregate premiums or other consideration paid for the contract while the employee was an owner-employee which were allowed as deductions under section 404 for the taxable year and all prior taxable years.

Any such amounts so received which are not includible in gross income under this paragraph shall be subject to the provisions of subsection (e).

“(2) COMPUTATION OF CONSIDERATION PAID BY THE EMPLOYEE.—

In computing—

“(A) the aggregate amount of premiums or other consideration paid for the contract for purposes of subsection (c)(1)(A) (relating to the investment in the contract),

“(B) the consideration for the contract contributed by the employee for purposes of subsection (d)(1) (relating to employee's contributions recoverable in 3 years), and

“(C) the aggregate premiums or other consideration paid for purposes of subsection (e)(1)(B) (relating to certain amounts not received as an annuity),

any amount allowed as a deduction with respect to the contract under section 404 which was paid while the employee was an employee within the meaning of section 401(c)(1) shall be treated as consideration contributed by the employer, and there shall not be taken into account any portion of the premiums or other consideration for the contract paid while the employee was an owner-employee which is properly allocable (as determined under regulations prescribed by the Secretary or his delegate) to the cost of life, accident, health, or other insurance.

“(3) LIFE INSURANCE CONTRACTS.—

“(A) This paragraph shall apply to any life insurance contract—

“(i) purchased as a part of a plan described in section 408(c), or

“(ii) purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) if the proceeds of such contract are payable directly or indirectly to a participant in such trust or to a beneficiary of such participant.

“(B) Any contribution to a plan described in subparagraph (A)(i) or a trust described in subparagraph (A)(ii) which is allowed as a deduction under section 404, and any income of a trust described in subparagraph (A)(ii), which is determined in accordance with regulations prescribed by the Secretary or his delegate to have been applied to purchase the life insurance protection under a contract described in subparagraph (A), is includible in the gross income of the participant for the taxable year when so applied.

“(C) In the case of the death of an individual insured under a contract described in subparagraph (A), an amount equal to the cash surrender value of the contract immediately before the death of the insured shall be treated as a payment under such plan or a distribution by such trust, and the excess of the amount payable by reason of the death of the insured over such cash surrender value shall not be includible in gross income under this section and shall be treated as provided in section 101.

“(4) AMOUNTS CONSTRUCTIVELY RECEIVED.—

“(A) ASSIGNMENTS OR PLEDGES.—If during any taxable year an owner-employee assigns (or agrees to assign) or pledges (or agrees to pledge) any portion of his interest in a trust described in section 401(a) which is exempt from tax under section 501(a) or any portion of the value of a contract purchased as part of a plan described in section 403(a), such portion shall be treated as having been received by such owner-employee as a distribution from such trust or as an amount received under the contract.

“(B) LOANS ON CONTRACTS.—If during any taxable year, an owner-employee receives, directly or indirectly, any amount from any insurance company as a loan under a contract purchased by a trust described in section 401(a) which is exempt from tax under section 501(a) or purchased as part of a plan described in section 403(a), and issued by such insurance company, such amount shall be treated as an amount received under the contract.

“(5) PENALTIES APPLICABLE TO CERTAIN AMOUNTS RECEIVED BY OWNER-EMPLOYEES.—

“(A) This paragraph shall apply—

“(i) to amounts (other than any amount received by an individual in his capacity as a policyholder of an annuity, endowment, or life insurance contract which is in the nature of a dividend or similar distribution) which are received from a qualified trust described in section 401(a) or under a plan described in section 403(a) and which are received by an individual, who is, or has been, an owner-employee, before such individual attains the age of 59½ years, for any reason other than the individual's becoming disabled (within the meaning of section 213(g)(3)), but only to the extent that such amounts are attributable to contributions paid on behalf of such individual (whether or not paid by him) while he was an owner-employee,

“(ii) to amounts which are received from a qualified trust described in section 401(a) or under a plan described in section 403(a) at any time by an individual who is, or has been, an owner-employee, or by the successor of such individual, but only to the extent that such amounts are determined, under regulations prescribed by the Secretary or his delegate, to exceed the benefits provided for such individual under the plan formula, and

“(iii) to amounts which are received, by an individual who is, or has been, an owner-employee, by reason of the distribution under the provisions of section 401(e)(2)(E) of his entire interest in all qualified trusts described in

section 401(a) and in all plans described in section 403(a).

“(B)(i) If the aggregate of the amounts to which this paragraph applies received by any person in his taxable year equals or exceeds \$2,500, the increase in his tax for the taxable year in which such amounts are received and attributable to such amounts shall not be less than 110 percent of the aggregate increase in taxes, for the taxable year and the 4 immediately preceding taxable years, which would have resulted if such amounts had been included in such person’s gross income ratably over such taxable years.

“(ii) If deductions have been allowed under section 404 for contributions paid on behalf of the individual while he is an owner-employee for a number of prior taxable years less than 4, clause (i) shall be applied by taking into account a number of taxable years immediately preceding the taxable year in which the amount was so received equal to such lesser number.

“(C) If subparagraph (B) does not apply to a person for the taxable year, the increase in tax of such person for the taxable year attributable to the amounts to which this paragraph applies shall be 110 percent of such increase (computed without regard to this subparagraph).

“(D) Subparagraph (A)(ii) of this paragraph shall not apply to any amount to which section 402(a)(2) or 403(a)(2) applies.

“(E) For special rules for computation of taxable income for taxable years to which this paragraph applies, see subsection (n)(3).

“(6) OWNER-EMPLOYEE DEFINED.—For purposes of this subsection, the term ‘owner-employee’ has the meaning assigned to it by section 401(c)(3).

“(n) TREATMENT OF CERTAIN DISTRIBUTIONS WITH RESPECT TO CONTRIBUTIONS BY SELF-EMPLOYED INDIVIDUALS.—

“(1) APPLICATION OF SUBSECTION.—

“(A) DISTRIBUTIONS BY EMPLOYEES’ TRUST.—Subject to the provisions of subparagraph (C), this subsection shall apply to amounts distributed to a distributee, in the case of an employees’ trust described in section 401(a) which is exempt from tax under section 501(a), if the total distributions payable to the distributee with respect to an employee are paid to the distributee within one taxable year of the distributee—

“(i) on account of the employee’s death,

“(ii) after the employee has attained the age of 59½ years,

or

“(iii) after the employee has become disabled (within the meaning of section 213(g)(3)).

“(B) ANNUITY PLANS.—Subject to the provisions of subparagraph (C), this subsection shall apply to amounts paid to a payee, in the case of an annuity plan described in section 403(a), if the total amounts payable to the payee with respect to an employee are paid to the payee within one taxable year of the payee—

“(i) on account of the employee’s death,

“(ii) after the employee has attained the age of 59½ years,

or

“(iii) after the employee has become disabled (within the meaning of section 213(g)(3)).

“(C) LIMITATIONS AND EXCEPTIONS.—This subsection shall apply—

“(i) only with respect to so much of any distribution or payment to which (without regard to this subparagraph) subparagraph (A) or (B) applies as is attributable to contributions made on behalf of an employee while he was an employee within the meaning of section 401(c)(1), and

“(ii) if the recipient is the employee on whose behalf such contributions were made, only if contributions which were allowed as a deduction under section 404 have been made on behalf of such employee while he was an employee within the meaning of section 401(c)(1) for 5 or more taxable years prior to the taxable year in which the total distributions payable or total amounts payable, as the case may be, are paid.

This subsection shall not apply to amounts described in clauses (i) and (ii) of subparagraph (A) of subsection (m)(5) (but, in the case of amounts described in clause (ii) of such subparagraph, only to the extent that subsection (m)(5) applies to such amounts).

“(2) LIMITATION OF TAX.—In any case to which this subsection applies, the tax attributable to the amounts to which this subsection applies for the taxable year in which such amounts are received shall not exceed whichever of the following is the greater:

“(A) 5 times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income, or

“(B) 5 times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under paragraph (3)(A).

“(3) DETERMINATION OF TAXABLE INCOME.—Notwithstanding section 63 (relating to definition of taxable income), for purposes only of computing the tax under this chapter attributable to amounts to which this subsection or subsection (m)(5) applies and which are includible in gross income—

“(A) the taxable income of the recipient for the taxable year of receipt shall be treated as being not less than the amount by which (i) the aggregate of such amounts so includible in gross income exceeds (ii) the amount of the deductions allowed for such taxable year under section 151 (relating to deductions for personal exemptions); and

“(B) in making ratable inclusion computations under paragraph (5)(B) of subsection (m), the taxable income of the recipient for each taxable year involved in such ratable inclusion shall be treated as being not less than the amount required by such paragraph (5)(B) to be treated as includible in gross income for such taxable year.

In any case in which the preceding sentence results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by section 1 or 3 for such taxable year shall not be

reduced by any credit under part IV of subchapter A (other than section 31 thereof) which, but for this sentence, would be allowable."

(c) **CAPITAL GAINS TREATMENT OF CERTAIN EMPLOYEES' TRUST DISTRIBUTIONS.**—Section 402(a)(2) of the Internal Revenue Code of 1954 (relating to capital gains treatment for certain distributions) is amended by adding at the end thereof the following new sentence: "This paragraph shall not apply to distributions paid to any distributee to the extent such distributions are attributable to contributions made on behalf of the employee while he was an employee within the meaning of section 401(c)(1)."

(d) **CAPITAL GAINS TREATMENT OF CERTAIN EMPLOYEES' ANNUITY PAYMENTS.**—Section 403(a) of the Internal Revenue Code of 1954 (relating to taxability of a beneficiary under a qualified annuity plan) is amended—

(1) by striking out in paragraph (2)(A)(i) "which meets the requirements of section 401(a) (3), (4), (5), and (6)" and inserting in lieu thereof "described in paragraph (1)";

(2) by adding at the end of paragraph (2)(A) the following new sentence: "This subparagraph shall not apply to amounts paid to any payee to the extent such amounts are attributable to contributions made on behalf of the employee while he was an employee within the meaning of section 401(c)(1)."; and

(3) by adding after paragraph (2) the following new paragraph:

"(3) **SELF-EMPLOYED INDIVIDUALS.**—For purposes of this subsection, the term 'employee' includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual is the person treated as his employer under section 401(c)(4)."

SEC. 5. PLANS FOR PURCHASE OF UNITED STATES BONDS.

(a) **QUALIFIED BOND PURCHASE PLANS.**—Part I of subchapter D of chapter 1 of the Internal Revenue Code of 1954 (relating to deferred compensation, etc.) is amended by adding at the end thereof the following new section:

"SEC. 405. QUALIFIED BOND PURCHASE PLANS.

"(a) **REQUIREMENTS FOR QUALIFICATION.**—A plan of an employer for the purchase for and distribution to his employees or their beneficiaries of United States bonds described in subsection (b) shall constitute a qualified bond purchase plan under this section if—

"(1) the plan meets the requirements of section 401(a) (3), (4), (5), (6), (7), and (8) and, if applicable, the requirements of section 401(a) (9) and (10) and of section 401(d) (other than paragraphs (1), (5)(B), and (8)); and

"(2) contributions under the plan are used solely to purchase for employees or their beneficiaries United States bonds described in subsection (b).

"(b) **BONDS TO WHICH APPLICABLE.**—

"(1) **CHARACTERISTICS OF BONDS.**—This section shall apply only to a bond issued under the Second Liberty Bond Act, as amended, which by its terms, or by regulations prescribed by the Secretary under such Act—

"(A) provides for payment of interest, or investment yield, only upon redemption;

"(B) may be purchased only in the name of an individual;
 "(C) ceases to bear interest, or provide investment yield, not later than 5 years after the death of the individual in whose name it is purchased;

"(D) may be redeemed before the death of the individual in whose name it is purchased only if such individual—

"(i) has attained the age of 59½ years, or

"(ii) has become disabled (within the meaning of section 213(g)(3)); and

"(E) is nontransferable.

"(2) **MUST BE PURCHASED IN NAME OF EMPLOYEE.**—This section shall apply to a bond described in paragraph (1) only if it is purchased in the name of the employee.

"(c) **DEDUCTION FOR CONTRIBUTIONS TO BOND PURCHASE PLANS.**—Contributions paid by an employer to or under a qualified bond purchase plan shall be allowed as a deduction in an amount determined under section 404 in the same manner and to the same extent as if such contributions were made to a trust described in section 401(a) which is exempt from tax under section 501(a).

"(d) **TAXABILITY OF BENEFICIARY OF QUALIFIED BOND PURCHASE PLAN.**—

"(1) **GROSS INCOME NOT TO INCLUDE BONDS AT TIME OF DISTRIBUTION.**—For purposes of this chapter, in the case of a distributee of a bond described in subsection (b) under a qualified bond purchase plan, or from a trust described in section 401(a) which is exempt from tax under section 501(a), gross income does not include any amount attributable to the receipt of such bond. Upon redemption of such bond, the proceeds shall be subject to taxation under this chapter, but the provisions of section 72 (relating to annuities, etc.) and section 1232 (relating to bonds and other evidences of indebtedness) shall not apply.

"(2) **BASIS.**—The basis of any bond received by a distributee under a qualified bond purchase plan—

"(A) if such bond is distributed to an employee, or with respect to an employee, who at the time of purchase of the bond, was an employee other than an employee within the meaning of section 401(c)(1), shall be the amount of the contributions by the employee which were used to purchase the bond, and

"(B) if such bond is distributed to an employee, or with respect to an employee, who, at the time of purchase of the bond, was an employee within the meaning of section 401(c)(1), shall be the amount of the contributions used to purchase the bond which were made on behalf of such employee and were not allowed as a deduction under subsection (c).

The basis of any bond described in subsection (b) received by a distributee from a trust described in section 401(a) which is exempt from tax under section 501(a) shall be determined under regulations prescribed by the Secretary or his delegate.

"(e) **CAPITAL GAINS TREATMENT NOT TO APPLY TO BONDS DISTRIBUTED BY TRUSTS.**—Section 402(a)(2) shall not apply to any bond described in subsection (b) distributed to any distributee and, for purposes of applying such section, any such bond distributed to any distributee and any such bond to the credit of any employee shall not be taken into account.

"(f) **EMPLOYEE DEFINED.**—For purposes of this section, the term 'employee' includes an individual who is an employee within the meaning of section 401(c)(1), and the employer of such individual shall be the person treated as his employer under section 401(c)(4).

"(g) **PROOF OF PURCHASE.**—At the time of purchase of any bond to which this section applies, proof of such purchase shall be furnished in such form as will enable the purchaser, and the employee in whose name such bond is purchased, to comply with the provisions of this section.

"(h) **REGULATIONS.**—The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the provisions of this section."

(b) **CLERICAL AMENDMENT.**—The table of sections for such part is amended by adding at the end thereof the following new item:

"Sec. 405. Qualified bond purchase plans."

SEC. 6. PROHIBITED TRANSACTIONS.

Section 503 of the Internal Revenue Code of 1954 (relating to prohibited transactions) is amended by adding at the end thereof the following new subsection:

"(j) **TRUSTS BENEFITING CERTAIN OWNER-EMPLOYEES.**—

"(1) **PROHIBITED TRANSACTIONS.**—In the case of a trust described in section 401(a) which is part of a plan providing contributions or benefits for employees some or all of whom are owner-employees (as defined in section 401(c)(3)) who control (within the meaning of section 401(d)(9)(B)) the trade or business with respect to which the plan is established, the term 'prohibited transaction' also means any transaction in which such trust, directly or indirectly—

"(A) lends any part of the corpus or income of the trust to;

"(B) pays any compensation for personal services rendered to the trust to;

"(C) makes any part of its services available on a preferential basis to; or

"(D) acquires for the trust any property from, or sells any property to;

any person described in subsection (c) or to any such owner-employee, a member of the family (as defined in section 267(c)(4)) of any such owner-employee, or a corporation controlled by any such owner-employee through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

"(2) **SPECIAL RULE FOR LOANS.**—For purposes of the application of paragraph (1)(A), the following rules shall apply with respect to a loan made before the date of the enactment of this subsection which would be a prohibited transaction if made in a taxable year beginning after December 31, 1962:

"(A) If any part of the loan is repayable prior to December 31, 1965, the renewal of such part of the loan for a period not extending beyond December 31, 1965, on the same terms, shall not be considered a prohibited transaction.

"(B) If the loan is repayable on demand, the continuation of the loan beyond December 31, 1965, shall be considered a prohibited transaction."

SEC. 7. OTHER SPECIAL RULES, TECHNICAL CHANGES, AND ADMINISTRATIVE PROVISIONS.

(a) *RETIREMENT INCOME CREDIT*.—Section 37(c)(1) of the Internal Revenue Code of 1954 (relating to definition of retirement income) is amended—

(1) by striking out subparagraph (A) and inserting in lieu thereof the following:

“(A) pensions and annuities (including, in the case of an individual who is, or has been, an employee within the meaning of section 401(c)(1), distributions by a trust described in section 401(a) which is exempt from tax under section 501(a)),”; and

(2) by striking out “and” at the end of subparagraph (C), by striking out “or” at the end of subparagraph (D) and inserting in lieu thereof “and”, and by adding after subparagraph (D) the following new subparagraph:

“(E) bonds described in section 405(b)(1) which are received under a qualified bond purchase plan described in section 405(a) or in a distribution from a trust described in section 401(a) which is exempt from tax under section 501(a), or”.

(b) *ADJUSTED GROSS INCOME*.—Section 62 of the Internal Revenue Code of 1954 (relating to the definition of adjusted gross income) is amended by inserting after paragraph (6) the following new paragraph:

“(7) *PENSION, PROFIT-SHARING, ANNUITY, AND BOND PURCHASE PLANS OF SELF-EMPLOYED INDIVIDUALS*.—In the case of an individual who is an employee within the meaning of section 401(c)(1), the deductions allowed by section 404 and section 405(c) to the extent attributable to contributions made on behalf of such individual.”

(c) *DEATH BENEFITS*.—Section 101(b) of the Internal Revenue Code of 1954 (relating to employees' death benefits) is amended—

(1) by striking out clause (ii) of paragraph (2)(B) and inserting in lieu thereof the following:

“(ii) under an annuity contract under a plan described in section 403(a), or”; and

(2) by adding at the end thereof the following new paragraph:

“(3) *SELF-EMPLOYED INDIVIDUAL NOT CONSIDERED AN EMPLOYEE*.—For purposes of this subsection, the term ‘employee’ does not include an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).”

(d) *AMOUNTS RECEIVED THROUGH ACCIDENT OR HEALTH INSURANCE*.—Section 104(a) of the Internal Revenue Code of 1954 (relating to compensation for injuries or sickness) is amended by adding at the end thereof the following new sentence:

“For purposes of paragraph (3), in the case of an individual who is, or has been, an employee within the meaning of section 401(c)(1) (relating to self-employed individuals), contributions made on behalf of such individual while he was such an employee to a trust described in section 401(a) which is exempt from tax under section 501(a), or under a plan described in section 403(a), shall, to the extent allowed as deductions under section 404, be treated as contributions by the employer which were not includible in the gross income of the employee.”

(e) *AMOUNTS RECEIVED UNDER ACCIDENT AND HEALTH PLANS*.—Section 105 of the Internal Revenue Code of 1954 (relating to amounts

received under accident and health plans) is amended by adding at the end thereof the following new subsection:

"(g) **SELF-EMPLOYED INDIVIDUAL NOT CONSIDERED AN EMPLOYEE.**—For purposes of this section, the term 'employee' does not include an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals)."

(f) **NET OPERATING LOSS DEDUCTION.**—Section 172(d)(4) of the Internal Revenue Code of 1954 (relating to nonbusiness deductions of taxpayers other than corporations) is amended—

(1) by striking out "and" at the end of subparagraph (B);

(2) by striking out the period at the end of subparagraph (C) and inserting "; and"; and

(3) by adding after subparagraph (C) the following new subparagraph:

"(D) any deduction allowed under section 404 or section 405(c) to the extent attributable to contributions which are made on behalf of an individual who is an employee within the meaning of section 401(c)(1) shall not be treated as attributable to the trade or business of such individual."

(g) **CERTAIN LIFE INSURANCE RESERVES.**—Section 805(d)(1) of the Internal Revenue Code of 1954 (relating to pension plan reserves) is amended—

(1) by striking out in subparagraph (B) "meeting the requirements of section 401(a) (3), (4), (5), and (6) or" and inserting in lieu thereof "described in section 403(a), or plans meeting"; and

(2) by striking out in subparagraph (C) "and (6)" and inserting in lieu thereof "(6), (7), and (8)".

(h) **UNINCORPORATED BUSINESSES ELECTING TO BE TAXED AS CORPORATIONS.**—Section 1361(d) of the Internal Revenue Code of 1954 (relating to unincorporated business enterprises electing to be taxed as domestic corporations) is amended by inserting before the period at the end thereof the following: "other than an employee within the meaning of section 401(c)(1) (relating to self-employed individuals), or for purposes of section 405 (relating to qualified bond purchase plans) other than an employee described in section 405(f)".

(i) **ESTATE TAX EXEMPTION OF EMPLOYEES' ANNUITIES.**—Section 2039 of the Internal Revenue Code of 1954 (relating to exemption from the gross estate of annuities under certain trusts and plans) is amended—

(1) by striking out in subsection (c)(2) "met the requirements of section 401(a) (3), (4), (5), and (6)" and inserting "was a plan described in section 403(a)"; and

(2) by adding at the end of subsection (c) the following new sentence: "For purposes of this subsection, contributions or payments on behalf of the decedent while he was an employee within the meaning of section 401(c)(1) made under a trust or plan described in paragraph (1) or (2) shall be considered to be contributions or payments made by the decedent."

(j) **GIFT TAX EXEMPTION OF EMPLOYEES' ANNUITIES.**—Section 2517 of the Internal Revenue Code of 1954 (relating to exclusion from gift tax in case of certain annuities under qualified plans) is amended—

(1) by striking out in subsection (a)(2) "met the requirements of section 401(a) (3), (4), (5), and (6)" and inserting in lieu thereof "was a plan described in section 403(a)"; and

(2) by adding at the end of subsection (b) the following new sentence: "For purposes of this subsection, payments or contributions on behalf of an individual while he was an employee within the meaning of section 401(c)(1) made under a trust or plan described in subsection (a) (1) or (2) shall be considered to be payments or contributions made by the employee."

(k) **FEDERAL UNEMPLOYMENT TAX ACT.**—Section 3306(b)(5) of the Internal Revenue Code of 1954 (relating to definition of wages) is amended by striking out subparagraph (B) and inserting in lieu thereof the following new subparagraphs:

"(B) under or to an annuity plan which, at the time of such payment, is a plan described in section 403(a), or

"(C) under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in section 405(a);".

(l) **WITHHOLDING OF INCOME TAX.**—Section 3401(a)(12) of the Internal Revenue Code of 1954 (relating to definition of wages) is amended by striking out subparagraph (B) and inserting in lieu thereof the following new subparagraphs:

"(B) under or to an annuity plan which, at the time of such payment, is a plan described in section 403(a); or

"(C) under or to a bond purchase plan which, at the time of such payment, is a qualified bond purchase plan described in section 405(a)."

(m) **INFORMATION REQUIREMENTS.**—

(1) **IN GENERAL.**—Subpart B of part III of subchapter A of chapter 61 of the Internal Revenue Code of 1954 (relating to information concerning transactions with other persons) is amended by adding after section 6046 the following new section:

"SEC. 6047. INFORMATION RELATING TO CERTAIN TRUSTS AND ANNUITY AND BOND PURCHASE PLANS.

"(a) **TRUSTEES AND INSURANCE COMPANIES.**—The trustee of a trust described in section 401() which is exempt from tax under section 501(a) to which contributions have been paid under a plan on behalf of any owner-employee (as defined in section 401(c)(3)), and each insurance company or other person which is the issuer of a contract purchased by such a trust, or purchased under a plan described in section 403(a), contributions for which have been paid on behalf of any owner-employee, shall file such returns (in such form and at such times), keep such records, make such identification of contracts and funds (and accounts within such funds), and supply such information, as the Secretary or his delegate shall by forms or regulations prescribe.

"(b) **OWNER-EMPLOYEES.**—Every individual on whose behalf contributions have been paid as an owner-employee (as defined in section 401(c)(3))—

"(1) to a trust described in section 401(a) which is exempt from tax under section 501(a), or

"(2) to an insurance company or other person under a plan described in section 403(a),

shall furnish the trustee, insurance company, or other person, as the case may be, such information at such times and in such form and manner as the Secretary or his delegate shall prescribe by forms or regulations.

"(c) EMPLOYEES UNDER QUALIFIED BOND PURCHASE PLANS.—*Every individual in whose name a bond described in section 405(b)(1) is purchased by his employer under a qualified bond purchase plan described in section 405(a), or by a trust described in section 401(a) which is exempt from tax under section 501(a), shall furnish—*

"(1) to his employer or to such trust, and

"(2) to the Secretary (or to such person as the Secretary may by regulations prescribe),
such information as the Secretary or his delegate shall by forms or regulations prescribe.

"(d) CROSS REFERENCE.—

"For criminal penalty for furnishing fraudulent information, see section 7207."

(2) CLERICAL AMENDMENT.—*The table of sections for such subpart B is amended by adding after the reference to section 6046 the following:*

"Sec. 6047. Information relating to certain trusts and annuity and bond purchase plans."

(3) PENALTY.—*Section 7207 of the Internal Revenue Code of 1954 (relating to fraudulent returns, statements, or other documents) is amended by adding at the end thereof the following new sentence:*

"Any person required pursuant to section 6047 (b) or (c) to furnish any information to the Secretary or any other person who willfully furnishes to the Secretary or such other person any information known by him to be fraudulent or to be false as to any material matter shall be fined not more than \$1,000, or imprisoned not more than 1 year, or both."

SEC. 8. EFFECTIVE DATE.

The amendments made by this Act shall apply to taxable years beginning after December 31, 1961.

And the Senate agree to the same.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 10) to encourage the establishment of voluntary pension plans by self-employed individuals submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

The Senate amendment struck out all of the text of the bill as passed by the House and inserted new text. Under the conference agreement, the House recedes from its disagreement to the Senate amendment and agrees to the same with an amendment which inserts new text in the nature of a substitute. The important differences between the bill as passed by the House, the Senate amendment, and the conference substitute are explained below.

Time of payment of benefits under a qualified plan.—The bill as passed by the House provided (in proposed sec. 401(a)(8)) that no trust was to constitute a qualified trust under section 401 unless the entire interest of the employee will be distributed to him not later than the taxable year in which he attains age 70½ or, in the case of an employee other than an owner-employee, a later taxable year in which he retires. An alternative method was provided in which the distribution must begin not later than the taxable year specified in the preceding sentence and must be completed within a period based on the life, or life expectancy, of the employee or of the employee and his spouse.

The Senate amendment (in proposed sec. 401(a)(9)) makes the above rules applicable only in the case of a trust providing contributions or benefits for employees some or all of whom are self-employed individuals or are owner-employees, including corporate owner-employees. The conference substitute inserts a new paragraph (9) in section 401(a) which makes the above rules applicable in the case of a trust providing contributions or benefits for employees some or all of whom are self-employed individuals.

The Senate amendment, and the conference substitute, contain a provision that these new rules will not apply to any distribution under a designation of a method of distribution, where such designation was made by the employee before the date of the enactment of the bill.

Coverage requirements where plan benefits an owner-employee.—The bill as passed by the House (proposed sec. 401(a)(10)) provided that those plans providing for current or future contributions for an owner-employee who has, or has had, more than three employees had to include all employees having more than 3 years of service, other than part-time or seasonal employees. In a case where the owner-employee has less than four employees, the bill as passed by the House provided that coverage for such other employees was discretionary.

The Senate amendment and the conference substitute provide (see proposed sec. 401(d)(3)) that any plan which benefits an owner-employee must provide benefits for all employees with three or more years of service, other than part-time or seasonal employees.

Self-employment earnings.—The bill as passed by the House provided that a proprietor or partner may be covered under a qualified retirement plan if he has “self-employment earnings,” and that such earnings are the basis for determining the amount of the deduction for contributions for self-employed persons. In general, the term “self-employment earnings” was defined (in proposed sec. 401(c)(3)) to mean net earnings from a trade or business of a self-employed individual, thus including return on capital invested in the trade or business, as well as income for personal services.

Under the Senate amendment and the conference substitute, coverage under the bill depends on “earned income”, and such income is the basis for computing deductible contributions for self-employed individuals. This term (see proposed sec. 401(c)(2)) means, in general, net earnings from self-employment to the extent such earnings constitute earned income within the meaning of section 911(b) of the 1954 code (such as professional fees and other compensation for personal services). Where personal services and invested capital are material income-producing factors, the term “earned income” means not more than 30 percent of the net profits from the business, but, in those cases in which the self-employed person renders full-time personal services, not less than the first \$2,500 of such net profits.

Definition of owner-employee.—Certain of the provisions of the bill are applicable to owner-employees or to plans covering owner-employees. The bill as passed by the House provided (in proposed sec. 401(c)(4)) that an owner-employee means a self-employed individual who derives self-employment earnings from a trade or business carried on by him or who is a partner who owns more than 10 percent of either the capital interest or the profits interest in the partnership.

The Senate amendment (see proposed sec. 401(c)(3)) included in the definition of an owner-employee (in addition to proprietors and more than 10 percent partners) corporate employees who own more than 10 percent of the value or voting power of the stock of a corporation. Plans covering these corporate employees therefore would have become subject to the new requirements for qualification of retirement plans covering owner-employees and the limitations on the amount deductible with respect to contributions made on behalf of owner-employees. The definition of owner-employee in the conference substitute (see proposed sec. 401(c)(3)) does not include the corporate employees described in the preceding sentences.

Constructive ownership rules.—The Senate amendment added a new provision to the bill (proposed sec. 401(c)(5)) containing rules of constructive ownership for purposes of section 401 of the 1954 code. In general, an individual would have been treated as constructively owning any interest in an unincorporated trade or business or in a corporation which is owned, directly or indirectly, by his spouse, minor children, or ancestors. The conference substitute eliminates these constructive ownership rules.

Requirement that trustee be a bank.—The bill as passed by the House provided (in proposed sec. 401(d)(1)) that the trustee of an exempt employees' trust under a plan providing contributions or

benefits for owner-employees must be a bank or other specified financial institution, but that another person (who may be the employer) could be given power to control investments of the trust fund.

The Senate amendment and the conference substitute (see proposed sec. 401(d)(1)) retain this provision, but provide that a trust which exclusively uses annuity, endowment, or life insurance contracts of a life insurance company to fund the benefits prescribed by the trust is excepted from the requirement that a bank or other specified financial institution be the trustee of the retirement funds. The Secretary of the Treasury or his delegate is authorized to prescribe by regulations the extent to which this exception will apply and the information which the insurance company must furnish regarding trust transactions.

Consent to be covered.—The Senate amendment and the conference substitute provide (in proposed sec. 401(d)(4)(A)) that an owner-employee, to be covered by a plan established for the trade or business of which he is an owner-employee, must consent to such coverage.

Vesting.—The bill as passed by the House (see proposed sec. 401(d)(3)) required immediate vesting of the employee's rights under the plan of an owner-employee with more than 3 employees.

The Senate amendment and the conference substitute provide (see proposed sec. 401(d)(2)(A)) that any plan providing contributions or benefits for an owner-employee must provide for immediate vesting of the rights of the other employees covered by the plan.

Integration with social security of qualified plans covering owner-employees.—Under present law, a plan is not considered discriminatory merely because the contributions or benefits under the plan are integrated with retirement benefits under social security. The rules relating to the integration of qualified plans with social security now assume that the employer has paid for that portion of the social security benefit of his employees which the employees themselves have not paid for. The bill as passed by the House provided (see proposed sec. 401(d)(5)(B)) that integration with social security was permitted for plans covering owner-employees with more than three employees only if contributions for the owner-employees did not exceed one-third of the total deductible contributions. Furthermore, the owner-employee was given credit only for his actual social security contributions on behalf of his other employees.

The Senate amendment and conference substitute retain (see proposed sec. 401(d)(6)) the rules of the bill as passed by the House, but provide that such rules are applicable to all plans which provide contributions or benefits for any owner-employee (whether or not more than 3 employees are covered under the plan).

Distributions after death.—The bill as passed by the House provided (see proposed sec. 401(d)(7)) that, after the death of an owner-employee, his remaining interest in the plan must, in general, either be distributed to his beneficiary within 5 years, or used within that period to purchase an immediate annuity for his beneficiary.

The Senate amendment and conference substitute retain (see proposed sec. 401(d)(7)) the provisions of the bill as passed by the House, but provide that they shall not apply if a distribution has commenced and such distribution is for a term certain over a period not extending beyond the life expectancy of the owner-employee and his spouse.

Two or more businesses.—The bill as passed by the House provides (see proposed sec. 401(d)(9)) that an owner-employee (or a group of two or more owner-employees) who controls more than one business would be required to group together all controlled businesses for the purpose of determining whether the rules relating to the qualification of the plan would be those which apply to owner-employees with 3 or fewer employees or those applicable to owner-employees with more than 3 employees.

The Senate amendment and conference substitute retain (see proposed sec. 401(d)(9)) the principle contained in the bill as passed by the House. However, the Senate amendment and conference substitute provide the same requirements for the qualification of all plans covering an owner-employee. Thus, for example, under the Senate amendment and conference substitute, any owner-employee (or any group of two or more owner-employees) who controls more than one business will be required to group together all controlled businesses for the purpose of determining whether the coverage requirements are met as to all the employees.

In addition, the Senate amendment and the conference substitute provide (see proposed sec. 401(d)(10)) that an individual who is an owner-employee in a business (whether or not he controls the business) and is also an owner-employee of another business which he controls may not be covered under the plan of the first business unless he has established a plan for the employees of the business which he controls. The plan for the business which he controls must provide contributions and benefits for employees which are at least as favorable as the contributions and benefits provided for owner-employees under the plan of the first business.

Excess contribution.—The bill as passed by the House provided (see proposed sec. 401(e)) certain rules where excess contributions are made under a qualified plan covering an owner-employee.

In general, the Senate amendment and the conference substitute incorporate the provisions of the bill as passed by the House relating to such excess contributions. Thus, an excess contribution is defined as an amount greater than the permitted deductible and nondeductible contributions made on behalf of the owner-employee (computed without regard to the special limitation which allows as a deduction only one-half of the deductible amount determined under sec. 404(e)). However, the Senate amendment and the conference substitute provide that, in the case of multiple plans, the amount of any contribution made by an owner-employee, as an employee, under all such plans which exceeds \$2,500 is an excess contribution. The Senate amendment and the conference substitute also make it clear that, when an excess contribution must be returned to the owner-employee on whose behalf it was made, the income attributable to such excess contribution which is required to be returned to the owner-employee is the net income so attributable.

In addition, the Senate amendment and the conference substitute provide (see proposed sec. 401(e)(3)) an exception to the definition of an excess contribution under which an owner-employee is permitted to purchase annuity, life insurance, or endowment policies on his life from an insurance company at level premiums without fear of making an excess contribution. Under this exception, an owner-employee is permitted, in general, to contribute each year toward the purchase

price of his policy up to an amount equal to the amount he would have been allowed to contribute on the basis of his average earned income for 3 years preceding issuance of the last such policy under the plan. However, this provision does not affect the amount which is allowed as a deduction under section 404. Moreover, this exception is limited so that under no circumstances could the owner-employee obtain under one or more retirement plans level-premium policies requiring annual payments of more than \$2,500.

Custodial accounts.—The bill as passed by the House (see proposed sec. 401(f)) modified the provisions of existing law which require a plan described in section 401 to use a trust. The bill as passed by the House provided that a custodial account could be used in lieu of a trust, if its investments are made solely in a regulated investment company which issues only redeemable stock and the custodian of the account was a bank as defined in section 581 of the code.

The Senate amendment and the conference substitute retain the provisions of the bill as passed by the House, but also permit the funds of the custodial account to be invested solely in annuity, endowment, or life insurance policies issued by an insurance company. In addition, the Senate amendment and the conference substitute provide that the custodian of such accounts can be any of the banking corporations described in the new section 401(d)(1) of the code.

Annuity defined.—The bill as passed by the House provided (see proposed sec. 401(g)) that the term "annuity" as used in sections 401-404 of the code included a face amount certificate which is nontransferable.

The Senate amendment and the conference substitute retain the provision of the bill as passed by the House and, in addition, provide that the term "annuity" as used in such sections does not include any contract or certificate issued after December 31, 1962, which is transferable, except where such contract or certificate is owned by a trustee of a qualified plan.

Deductible contributions.—The bill as passed by the House provided (see proposed sec. 404(e)) for limitations on the amount of deductible contributions which may be made by, or for, an owner-employee covered by a qualified plan. Under the bill as passed by the House, if the owner-employee has, or had, more than three employees, he was permitted to contribute and deduct for himself up to the same proportion of his covered income as his contributions for employees under the plan bear to their compensation. There was no maximum dollar limitation on the contributions which could be made under a plan or plans. If the owner-employer has fewer than four employees, the maximum amount deductible each year for contributions for the owner-employee was 10 percent of his self-employment income or \$2,500, whichever is lesser, regardless of the number of plans such owner-employee participated in.

The Senate amendment and the conference substitute provide (see proposed sec. 404(e)) that the 10-percent \$2,500 limitation is applicable regardless of the number of employees, or the number of plans, the owner-employee has. Thus, the Senate amendment and the conference substitute place the same limitation on all owner-employees, regardless of whether they have more than three employees. In addition, the Senate amendment and the conference substitute provide that the 10-percent \$2,500 limitation is applicable to all self-employed individuals regardless of their ownership-interest.

The Senate amendment and the conference substitute also provide (see proposed sec. 404(a)(10)) that the deduction which will be allowed to self-employed individuals is one-half of the otherwise deductible contributions which may be made. Thus, if 10 percent of a self-employed individual's earned income from the trade or business with respect to which the plan is established is \$2,000, then the amount allowed as a deduction is one-half of that sum, or \$1,000, and the other \$1,000 is not allowed as a deduction.

The Senate amendment also applied the limitations and rules described above to contributions made on behalf of owner-employees of corporations. The conference substitute does not contain any such provisions.

Tax treatment of certain lump-sum distributions.—The bill as passed by the House provided (in proposed sec. 72(n)) special averaging rules for the taxing of the portion of any lump-sum distribution which is derived from contributions on behalf of any self-employed person. In general, under such rules, the tax the self-employed individual would pay with respect to such distribution is limited to five times the increment in tax resulting from including one-fifth of the amount distributed in his gross income for the year in which the distribution was received.

The Senate amendment retained the provisions of the bill as passed by the House, but applied such provisions to lump-sum distributions from all qualified plans (including all existing plans) in place of the capital gains treatment provided by present law. The conference substitute retains the averaging provisions of the bill as passed by the House, without extending their application beyond self-employed individuals.

Elimination of capital gains treatment.—The Senate amendment (see sec. 8 of the bill as passed by the Senate) repealed the provisions of existing law which give capital gains treatment to lump-sum distributions from qualified employees' trusts and under qualified employees' plans. The conference substitute does not contain these provisions of the Senate amendment.

Limitations on employer contributions for employees.—The Senate amendment (see proposed sec. 404(a)(11), as added by sec. 9 of the bill as passed by the Senate) also amended existing law to provide certain limitations on the annual and lifetime contributions made for any employee under a qualified plan or plans which may be deducted by his employer. The conference substitute does not contain any such limitations.

Effective date.—The bill as passed by the House provided that the amendments made by the bill applied to taxable years beginning after December 31, 1961.

The Senate amendment and the conference substitute provide that the amendments made by the bill shall apply to taxable years beginning after December 31, 1962.

[H.R. 11970]¹

TRADE EXPANSION ACT OF 1962

[House Report No. 1818, Eighty-seventh Congress, Second Session]

[June 12, 1962]

MR. MILLS, from the Committee on Ways and Means submitted the following report to accompany H.R. 11970.

The Committee on Ways and Means, to whom was referred the bill (H.R. 11970) to promote the general welfare, foreign policy, and security of the United States through international trade agreements and through adjustment assistance to domestic industry, agriculture, and labor, and for other purposes, having considered the same, report favorably thereon with amendments and recommend that the bill as amended do pass.

* * * * *

V. GENERAL DESCRIPTION OF THE BILL

* * * * *

F. POSTAGREEMENT SAFEGUARDS—ADJUSTMENT ASSISTANCE

The bill provides for adjustment assistance to industries, firms, and workers who may be affected by increased imports resulting from trade agreement concessions.

In the case of industries which are seriously injured, or threatened with serious injury, authority is given to adjust tariffs or to impose additional import restrictions (e.g., quotas), or both. Authority is also provided to give other assistance to the firms and workers of such industry. The form of assistance given may thus be tariff adjustment for the industry as a whole, adjustment assistance to firms, adjustment assistance to workers, or any one or more of such forms of assistance.

Adjustment assistance (other than tariff adjustment) may be given in the case of injury to particular firms or workers even though there is no injury to the industry as a whole.

* * * * *

5. Assistance to firms

The bill provides that firms determined to be eligible to apply for adjustment assistance may receive, upon application, any or all of three forms of assistance—financial, technical, or tax.

* * * * *

Firms with current losses due predominantly to import competition may be given the opportunity to carry back the loss for income tax purposes for 5 years instead of the normal 3 (sec. 311).

(a) *Adjustment proposals.*—The bill provides that a firm certified as eligible to apply for trade adjustment assistance may file its application with the Secretary of Commerce, indicating its need for assistance. Within a reasonable time, it must submit a proposal for its economic adjustment. This adjustment proposal will describe in some detail the nature and cost of the proposed adjustment effort, and the resources to be devoted to it from Federal and other sources. The firm may be furnished technical assistance in order to prepare an adequate adjustment proposal.

Adjustment proposals from firms applying for adjustment assistance are to be certified by the Secretary of Commerce as (1) giving reasonable assurance of contributing to successful adjustment; (2) giving adequate consideration to the interest of workers involved; and (3) assuring a maximum self-help effort by the firm. No financial or tax assistance and no further technical assistance may be given until the adjustment proposal has been certified.

With respect to the first point mentioned above, it is recognized that there may be some firms for which adjustment assistance is inappropriate and which could not adjust to their difficulties in this way. Even though such firms may have been certified as eligible to apply for adjustment assistance, the Secretary

¹ Public Law 87-794, page 107, this Bulletin.

of Commerce should not authorize assistance unless he is satisfied that it will be of practical benefit to the applicant. Adjustment assistance should be treated not as indemnification of past losses, but as constructive aid for the rehabilitation of a commercial enterprise. With respect to the second point, adjustment plans that would permit the rehiring of workers laid off due to increased imports resulting from trade agreement concessions are to be preferred (sec. 311).

(b) *Use of other agencies.*—The Secretary of Commerce will be required to submit each firm's certified adjustment proposal to whatever Federal agency or agencies he determines to be appropriate to furnish the financial and technical assistance necessary to carry out such proposal. Such agencies may include the Small Business Administration, the Departments of Agriculture and Interior and the Area Redevelopment Administration. Each such agency will determine whether any part of the assistance called for by the proposal comes within the legal authority, regulations, and policies of the agency, and whether it is prepared to furnish such assistance out of its own appropriations. If the agency, for any reason, is not prepared to furnish any or all the necessary assistance, it will promptly notify the Secretary of Commerce, who may then furnish such assistance as remains necessary to carry out the adjustment proposal. The Secretary will, to the maximum extent practicable, provide such financial and technical assistance through existing agencies having the necessary expertise, by making available to them funds appropriated under the bill (sec. 312).

(c) *Authority of the Secretary of Commerce.*—The terms and conditions under which the Secretary of Commerce may furnish technical and financial assistance not furnished under the programs of other agencies are comparable to those presently applicable to other Federal assistance programs.

* * * * *

(iii) *Tax assistance.*—The bill authorizes the Secretary of Commerce to certify eligibility for assistance when he determines that such assistance will materially help the firm to adjust and that the firm has sustained a loss which arose predominantly from a business seriously injured, in the loss year, due to increased imports resulting from a trade agreement concession. The existence and amount of such loss are to be determined under the Internal Revenue Code. This will permit a firm to carry back the loss for tax purposes 2 years beyond the 3 years normally allowed. A firm without sufficient profits for the 3 taxable years preceding the loss year to take full advantage of the present carryback provisions, may receive a refund out of taxes for the 2 additional preceding years. Under present law it would only be able to get a tax advantage of the loss against possible future income (sec. 317).

* * * * *

VI—TECHNICAL EXPLANATION OF THE BILL

* * * * *

TITLE III—TARIFF ADJUSTMENT AND OTHER ADJUSTMENT ASSISTANCE

* * * * *

Section 317. Tax assistance

Section 317 provides, in general, for an extension of the net operating loss carryback period under section 172 of the Internal Revenue Code of 1954 from 3 years to 5 years for a firm certified for tax assistance by the Secretary of Commerce.

Section 317(a) provides that the Secretary of Commerce is to certify that a firm is eligible for the extended carryback if the three conditions provided in paragraphs (1), (2), and (3) are satisfied.

Paragraph (1) of section 317(a) relates to the application by a firm for tax assistance. In order to be eligible to apply for the 5-year carryback, a firm must first have had a proposal for its economic adjustment certified by the Secretary of Commerce pursuant to section 311 of the bill, and the application for tax assistance must be made in order to carry out such proposal. In its application for tax assistance, the firm must allege that it has sustained a net operating loss for a taxable year. The application must be submitted to the Secretary of Commerce within 24 months after the close of such taxable year.

The requirement of paragraph (2) of section 317(a) is satisfied only if the Secretary of Commerce determines that the net operating loss arose predominantly out of carrying on a trade or business which was seriously injured, during the year of the loss, by increased imports which the Tariff Commission has determined to result from concessions granted under trade agreements. This determination would be automatic where the firm carries on only one trade or business and where the Secretary of Commerce finds serious import injury to the firm in the loss year. Where more than one trade or business is carried on, however, the carryback (which is computed by combining all trades or businesses of the firm) would be available only if the Secretary of Commerce determined that the loss arose predominantly (that is, more than 50 percent) out of carrying on the import-injured trade or business.

The requirement of paragraph (3) of section 317(a) is satisfied only if the Secretary of Commerce finds that the 5-year carryback will materially contribute to the economic adjustment of the firm. It is intended that such a finding would be made only where substantially all of the refund (or refunds) resulting from the extended carryback will be used to carry out the economic adjustment of the firm in accordance with the adjustment proposal.

The last sentence of section 317(a) makes it clear that the determination or certification by the Secretary of Commerce is not determinative of either the existence or amount of any net operating loss for purposes of section 172 of the Internal Revenue Code of 1954.

Section 317(b) amends section 172(b) of the 1954 Code, relating to net operating loss carrybacks and carryovers, to provide an exception to the general statutory rule that net operating losses are to be carried back 3 years. As amended, paragraph (1) (B) of section 172(b) will (subject to the requirements of sec. 172(b) (3)) extend to five the number of years to which a net operating loss is to be carried back by a firm certified under section 317(a) of the bill. No change is made in the 5-year carryover provision of present subparagraph (B) of section 172(b) (1) except to redesignate such subparagraph as subparagraph (C).

The 5-year carryback will be available only with respect to net operating losses incurred in taxable years ending on or after December 31, 1962. Where the 5-year carryback applies to a net operating loss, such loss is to be carried back in its entirety to the fifth year preceding the taxable year of the loss and then carried in successive order to each of the other taxable years to which it may be carried.

The carryback or the carryover to any one of such other taxable years, and the taxable income of each of the taxable years through which such loss is carried, will be determined in the manner prescribed in paragraph (2) of section 172(b) of the 1954 Code. No changes (other than conforming amendments) have been made to such paragraph (2).

Paragraph (3) of section 172(b) of the 1954 Code provides special rules for applying the 5-year carryback of new section 172(b) (1) (B). Subparagraph (A) of new section 172(b) (3) imposes two conditions. If the two conditions have been satisfied, the 5-year carryback is to apply and the 3-year carryback is not to apply for the taxable year of the loss.

The first condition, provided under clause (i) of section 172(b) (3) (A) of the 1954 Code, relates to two filing requirements. The firm must file, with the Secretary of the Treasury or his delegate, a notice indicating that it has applied to the Secretary of Commerce for tax assistance. After the certification has been issued by the Secretary of Commerce pursuant to section 317(a) of the bill, the firm receiving it must file a copy of this certification with the Secretary of the Treasury or his delegate. The time and manner of filing both the notice and a copy of the certification are to be prescribed under regulations promulgated by the Secretary of the Treasury or his delegate.

The second condition, provided under clause (ii) of section 172(b) (3) (A) of the 1954 Code, requires the taxpayer to consent in writing to the assessment of any deficiency for any year to the extent attributable to the disallowance of a net operating loss deduction previously allowed with respect to the same net operating loss for which a 5-year carryback is being sought. This assessment period may be extended to any time to which the taxpayer and the Secretary of the Treasury or his delegate may agree. The consent will extend the assessment period even though the assessment of the deficiency would otherwise be prevented by the operation of any law or rule of law at the time of filing the consent. This consent will be required when the Secretary of the Treasury or his delegate

deems it necessary to prevent a possible double recovery of tax on account of the same net operating loss (for example in a case involving *res judicata*).

Subparagraph (B) of section 172(b)(3) provides that, in the case of (i) a partnership and its partners, and (ii) an electing small business corporation under subchapter S of chapter 1 of the 1954 Code (and the shareholders of such corporation), paragraph (1) (B) of section 172(b) (that is, the 5-year carryback provision) is to apply as determined under regulations prescribed by the Secretary of the Treasury or his delegate.

The 5-year carryback under section 172(b)(1)(B) applies to a net operating loss of a partner or a shareholder in an electing small business corporation under subchapter S only if it arose predominantly (that is, more than 50 percent) from losses in respect of which certifications under section 317 of the bill were filed as provided under section 172(b)(3)(A). If the net operating loss did arise predominantly from losses in respect of which certifications were filed, then the entire net operating loss of the partner or shareholder will be carried back 5 years even though part of the net operating loss is not attributable to such losses. If the net operating loss did not rise predominantly from such losses, then no part of the net operating loss will be carried back 5 years.

If a corporation to which a certification under section 317(a) has been issued was a member of an affiliated group which made or was required to make a consolidated return either for the loss year or for any preceding taxable year, the 5-year carryback will apply only to the extent and subject to the conditions, limitations, and exceptions provided in the regulations which may be prescribed under the authority contained in chapter 6 of the 1954 Code (relating to consolidated returns).

Section 317(c) amends section 6501(h) of the 1954 Code, relating to limitations on assessment and collection of deficiencies in the case of net operating loss carrybacks. Under the amendment, the period for assessing a deficiency which is attributable to the application to the taxpayer of a net operating loss carryback is not to expire before 18 months after the date on which the taxpayer files (in such manner as may be prescribed by the Secretary of the Treasury or his delegate) a copy of the certification issued by the Secretary of Commerce under section 317(a).

Section 317(d) amends section 6511(d)(2)(A) of the 1954 Code, relating to a special period of limitation on credits or refunds with respect to net operating loss carrybacks. Under the amendment, the period within which a claim for credit or refund of an overpayment of tax must be filed by the taxpayer will not expire before the expiration of the sixth month following the month in which the certification provided in section 317(a) is issued to the taxpayer by the Secretary of Commerce.

Tentative carryback adjustments for the fourth and fifth years preceding the taxable year of the net operating loss may be applied for under section 6411 of the 1954 Code. If such application is accompanied by a copy of the certification issued under section 317(a) and if the requirements of section 6411 are complied with, such application will be allowed in the same time and manner as under existing section 6411.

Section 318. Protective provisions

Section 318(a) requires each recipient of adjustment assistance under section 313, 314, or 317 to keep records which fully disclose the amount and disposition of the proceeds, if any, of such adjustment assistance, and which will facilitate an effective audit. The recipient must also keep such other records as the Secretary of Commerce may prescribe.

Section 318(b) provides that the Secretary of Commerce and Comptroller General are to have access, for the purpose of audit and examination, to any books, documents, papers, and records of the recipient pertaining to adjustment assistance under sections 313, 314, and 317.

Section 318(c) prohibits the giving of adjustment assistance under section 313, 314, or 317, to any firm unless the owners, partners, or officers certify to the Secretary of Commerce (1) the names of any attorneys, agents, and other persons engaged by or on behalf of the firm for the purpose of expediting applications for such adjustment assistance, and (2) the fees paid or to be paid to any such person.

Section 318(d) prescribes that no financial assistance is to be provided to any firm under section 314 unless the owners, partners, or officers execute an agreement with respect to hiring or retaining the services of certain individuals hold-

ing positions, or engaging in activities, involving discretion with respect to the provision of such financial assistance. The agreement must bind them and the firm for a period of 2 years after such financial assistance is provided.

Section 338. Definitions

Section 338 contains definitions of certain terms used in chapter 3 of title III of the bill.

(10) *State law*.—Paragraph (10) defines “State law” as the unemployment insurance law of a State approved by the Secretary of Labor under section 3304 of the Internal Revenue Code of 1954.

[H.R. 11970]¹

TRADE EXPANSION ACT OF 1962

[Conference Report No. 2518, Eighty-seventh Congress, Second Session]

[October 2, 1962]

MR. MILLS, from the committee of conference, submitted the following conference report to accompany H.R. 11970.

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 11970) to promote the general welfare, foreign policy, and security of the United States through international trade agreements and through adjustment assistance to domestic industry, agriculture, and labor, and for other purposes, having met after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate numbered 74, and agree to the same with amendments as follows:

Page 42, of the House engrossed bill, strike out line 9 and all that follows through line 3 on page 43, and insert:

(b) *Effective with respect to net operating losses for taxable years ending after December 31, 1955, subsection (b) of section 172 of the Internal Revenue Code of 1954 (relating to net operating loss carrybacks and carryovers) is amended to read as follows:*

(b) NET OPERATING LOSS CARRYBACKS AND CARRYOVERS.—

(1) YEARS TO WHICH LOSS MAY BE CARRIED.—

(A) (i) *Except as provided in clause (ii), a net operating loss for any taxable year ending after December 31, 1957, shall be a net operating loss carryback to each of the 3 taxable years preceding the taxable year of such loss.*

(ii) *In the case of a taxpayer with respect to a taxable year ending on or after December 31, 1962, for which a certification has been issued under section 317 of the Trade Expansion Act of 1962, a net operating loss for such taxable year shall be a net operating loss carryback to each of the 5 taxable years preceding the taxable year of such loss.*

(B) *Except as provided in subparagraph (C), a net operating loss for any taxable year ending after December 31, 1955, shall be a net operating loss carryover to each of the 5 taxable years following the taxable year of such loss.*

(C) *In the case of a taxpayer which is a regulated transportation corporation (as defined in subsection (j) (1)), a net operating loss for any taxable year ending after December 31, 1955, shall (except as provided in subsection (j)) be a net operating loss carryover to each of the 7 taxable years following the taxable year of such loss.*

[H.R. 10650]¹
REVENUE ACT OF 1962

[House of Representatives Report No. 1447, Eighty-seventh Congress, Second Session]

[March 16, 1962]

MR. MILLS, from the Committee on Ways and Means, submitted the following report to accompany H.R. 10650.

The Committee on Ways and Means, to whom was referred the bill (H.R. 10650) to amend the Internal Revenue Code of 1954 to provide a credit for investment in certain depreciable property, to eliminate certain defects and inequities, and for other purposes, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

I. GENERAL STATEMENT

This bill, H.R. 10650, represents a major revision and reform of our Federal tax system.

On the one hand the investment credit provided by this bill is designed to provide a stimulant to the economic growth of this country. This is needed both to improve our competitive position abroad and in the long run to raise our standard of living at home. On the other hand, the other provisions of this bill are designed to improve the equity of our tax structure.

Estimates presented in part II of this report indicate that when the provisions of this bill are fully effective a revenue loss of from \$505 million to \$775 million is expected, if no effect of the provisions on the national economy is taken into account. The Treasury Department has estimated, however, that when this effect is taken into account the bill will be substantially in balance.

On April 20, 1961, the President sent to Congress a message containing a series of proposals for the revision of the present tax laws. Most of his recommendations, modified as your committee believed desirable, are incorporated in this bill.

¹ Public Law 87-834, page 111, this Bulletin.

Your committee on May 3, 1961, began hearings on the President's proposals. These hearings extended over 6 weeks and the committee received testimony and comments from over 400 individuals and organizations. This material is contained in 4 volumes of over 3,600 printed pages. Following the special hearings, your committee considered the President's proposal in executive session last year for a period of several weeks. Upon completion of its considerations at that time your committee made certain *tentative* decisions for incorporation in a draft made public in order to obtain the views of interested persons. The committee print containing these suggestions was released to the public on August 24, 1961, together with a general explanation of these provisions. That print was given wide distribution. In the fall of 1961 the staff met with outside persons and worked with the Treasury Department in obtaining the views of interested parties. With the beginning of this session of Congress your committee immediately began a review of these provisions, making modifications in the earlier decisions to take into account the suggestions and recommendations received. This bill, therefore, represents the decisions reached by your committee after careful deliberation over an extended period of time.

The provisions contained in your committee's bill can be summarized as follows:

(1) An investment credit against tax liability is provided. It generally is 8 percent of investments in new tangible personal property and certain other depreciable real property exclusive of buildings. A credit also is available, however, for limited amounts of used property which is purchased.

(2) A deduction is provided for costs relating to appearances before, and communications with a legislative body, legislative committee or individual legislator, if the expenses are otherwise ordinary and necessary business expenses. However, this does not include any advertising expenses or expenses concerned with political campaigns.

(3) Deductible expenses for entertainment, amusement, or recreation generally are limited to those directly related to the active conduct of a trade or business, and in the case of facilities also to those which are primarily used for the furtherance of the taxpayer's trade or business. Limitations are also provided in the case of business gifts. In addition, rules are set forth providing that deduction of these expenses will be denied unless they are substantiated.

(4) Distributions in kind from foreign corporations are treated as having a value equal to the fair market value of the property (and not the adjusted basis of this property in the hands of the distributing corporation where this is lower).

(5) Where goods are purchased or sold by a domestic corporation to a related foreign corporation, the income arising from these transactions is to be allocated between the parties on the basis of the location of the assets used in the operations, the payroll attributable to them and the related selling expenses. This rule will not be used where an arm's-length price can be established for the purchases or sales.

(6) The passive income of a foreign personal holding company is to be taxed to the U.S. shareholders if 20 percent or more of

its income is "foreign personal holding company income"; and if 80 percent or more of its income is of this type, then the remaining income of the company also is to be taxed to the shareholders.

(7) The present tax treatment of mutual savings banks, savings and loan associations, etc., is revised so that their additions to bad debt reserves generally may not exceed 60 percent of their taxable income (before this deduction) or, if larger, an amount bringing their reserves up to 3 percent of loans.

(8) Distributions by foreign trusts, established by U.S. grantors, are to be taxed to the U.S. beneficiaries in substantially the same manner as if they had received this income directly instead of through the intermediary of a foreign trust.

(9) Mutual fire and casualty insurance companies are to be taxed on their "total" income less a deduction for loss reserves equal to one-fourth of their underwriting gain plus 1 percent of their insurance claims. Most of this reserve is not actually used to offset losses, eventually will be subject to tax.

(10) Where a domestic corporation receives dividends from a foreign corporation, the amount included in its tax base if it elects the foreign tax credit is to be, not only the dividend itself, but also the tax paid by the foreign corporation as well.

(11) The unlimited exclusion from U.S. tax of income earned abroad by U.S. citizens who are bona fide foreign residents is reduced to \$35,000 (\$20,000 for the first 3 years). In addition, the contributions which employees make hereafter toward employee pensions based on foreign employment will be taxable to the employee when received.

(12) Shareholders of controlled foreign corporations are to report for tax purposes the undistributed earnings of these corporations to the extent they represent income from insuring U.S. risks, income from patents, copyrights, and exclusive formulas or processes developed in the United States, passive types of income generally, and income from certain sales. In these latter two cases reductions in the income tax to the shareholders are allowed for investments of the income in certain businesses in less developed countries. To the extent that the shareholders are not taxed on the income of the controlled foreign corporation under the above provisions, they are to be taxed on the undistributed earnings of controlled foreign corporations which are not invested in substantially the same trade or business or invested in less developed countries in new trades or businesses or in certain controlled subsidiaries.

(13) In the case of personal property and most real estate, other than buildings, when such property is sold at a gain this gain, to the extent of depreciation taken in prior years, is to be treated as ordinary income for tax purposes.

(14) When stock in foreign investment companies is sold, the gain realized by the U.S. shareholders is to be ordinary income to the extent of the earnings and profits accumulated since 1962. The companies and shareholders can avoid this treatment if the companies distribute 90 percent or more of their taxable income, other than capital gains, and the shareholders report the capital gains whether distributed or not.

(15) Where there is a redemption or liquidation of the stock of a controlled foreign corporation or where stock in such a corporation is sold, then any gain to the extent this gain represents earnings and profits of the corporation accumulated abroad is to be taxed to the principal shareholders as ordinary income or as dividends.

(16) Cooperatives are to receive a deduction for patronage dividends paid to their patrons in cash or by allocations if the patron has the option to redeem the notices of allocation in cash within a short period of time after they are issued, or consents to treat this income as constructively received and reinvested in the cooperative. The patron may give his consent individually in writing, or the cooperative may, through its bylaws, require all members (after notification) to give this consent. Where consent is given, or where the option to receive cash was available, the patron will be required to pay taxes on the patronage dividends if they arise from business activity.

(17) Real estate located outside of the United States, in the case of citizens or residents of the United States, is to be included in their tax base for purposes of the estate tax imposed at the time of death.

(18) Withholding is provided for dividends, most interest, and patronage refunds at a rate of 20 percent. No receipts are required under this system and exemption certificates and quick refunds provide for most cases where there otherwise would be overwithholding.

(19) Additional information is to be provided the Treasury Department by corporations and other businesses engaged in foreign operations.

II. REVENUE ESTIMATES

The revenue effect of your committee's bill is shown in tables 1 through 4 below. Tables 1 and 2 are based upon income levels for the calendar year 1962, but show the estimated revenue effect of the bill when all of the changes provided by it are fully effective. Table 1 does not take into account any effect the provisions of the bill may have on economic levels generally. Table 2, on the other hand, does take such effects into account but does not reflect any change in business attitude which may be brought about by the bill. Tables 3 and 4 estimate the effect of the bill on revenues in the fiscal year 1963, with table 3 not taking into account the effect of the provisions on economic conditions and table 4 taking such effect into account.

As indicated by table 1, the investment credit taken by itself is expected to result in an annual loss of revenue (when fully effective) of \$1,800 million to \$1,875 million. The other provisions of the bill are expected, when fully effective, to offset from \$1,100 million to \$1,295 million of this loss, leaving a net loss of from \$505 million to \$775 million. As indicated in table 2, the Treasury Department expects the stimulative effect of the investment credit to substantially reduce the net revenue loss of this provision, with the result that the revenue impact of the bill, over the long run, will be substantially in balance.

The revenue loss for the fiscal year 1963 is expected to be larger than in the long run. In large part this is due to the fact that the investment credit, which is the only provision resulting in a revenue loss, is effective as of the first of 1962, while most of the other provisions, which are the provisions providing the additional revenue, are not effective until the first of 1963. As a result, it is estimated that this bill will result in a revenue loss of from \$1,425 million to \$1,550 million in the fiscal year 1963, if no effect of the provisions on the economy is taken into account. The Treasury Department has estimated that if the effect of the provisions on the economy is taken into account, the revenue loss in the fiscal year 1963 will be reduced to \$660 million.

TABLE 1.—*Estimated revenue effect of bill¹ when changes are fully effective, without taking into account the effect on the economy of the provisions*

[In millions of dollars]

	Estimates of staff of—	
	Joint Committee on Internal Revenue Taxation	Treasury Department
Revenue bill of 1962:

Controlled foreign corporation.....	+50	³ +35
Gross-up of dividends.....	+25	+30
All other items relating to taxation of foreign income, etc.....	+25	+30
Total.....	-775	-505

¹ At levels of income and investment estimated for the calendar year 1962 except that the Treasury estimate of revenue gain from change in taxation of mutual banks and savings and loan associations is based on income levels for the calendar year 1963, the first year affected.

² Assumes transitional period has been completed for fire and casualty companies.

³ The revenue estimates for the controlled foreign corporation provision do not take into account additions to the tax base, in the form of royalties, rents, etc., which reliable evidence indicates will be forthcoming but which cannot be quantified with an acceptable degree of accuracy.

TABLE 2.—*Treasury Department estimates of revenue effect of bill¹ when changes are fully effective and taking into account its estimate of effect on the economy of the provisions*

[In millions of dollars]	
Revenue bill of 1962:	
Investment credit ²	-900
Withholding on dividends and interest.....	+430
Mutual banks and savings and loan associations.....	+135
Entertainment expenses.....	+80
Capital gains on depreciable property.....	+50
Mutual fire and casualty companies.....	+25
Cooperatives.....	+25
Foreign items:	
Controlled foreign corporation ³	+85
Gross-up of dividends.....	+30
All other items relating to taxation of foreign income, etc.....	+30
Total	-10

¹ At levels of income and investment estimated for the calendar year 1962 except that revenue gain from change in taxation of mutual banks and savings and loan associations is based on income levels for the calendar year 1963, the first year affected.

² In estimating the net revenue cost of the investment credit, its favorable effects on the level of investment were computed from statistical relationships in past years between investment and gradual changes in the cost of capital goods (profitability) and cash flow. This procedure thus does not take into account the especially favorable impact on businessmen's decisions to invest of the sudden major improvements in these factors resulting from the enactment of the credit. Taking this into account should produce more favorable effects and a smaller net revenue loss than the table shows.

³ The revenue estimates for the controlled foreign corporation provision do not take into account additions to the tax base, in the form of royalties, rents, etc., which reliable evidence indicates will be forthcoming but which cannot be quantified with an acceptable degree of accuracy.

¹ In estimating the net revenue cost of the investment credit, its favorable effects on the level of investment were computed from statistical relationships in past years between investment and gradual changes in the cost of capital goods (profitability) and cash flow. This procedure thus does not take into account the especially favorable impact on businessmen's decisions to invest of the sudden major improvements in these factors resulting from the enactment of the credit. Taking this into account should produce more favorable effects and a smaller net revenue loss than the table shows.

III. INVESTMENT CREDIT

(Sec. 2 of the bill—new secs. 38 and 46–48 of the code)

A. Reasons for provisions

The President in his tax message to Congress last year urged the adoption of a tax incentive in the form of a credit against tax liability for certain types of investment. He renewed this request this year in both his budget message and his Economic Report.

In his Economic Report the President states—

We must scrutinize our tax system carefully to insure that its provisions contribute to the broad goals of full employment, growth, and equity.

He indicates that his legislative proposals in the tax field are directly related to these goals and the corollary need for improvement in the balance of payments. He further states:

The centerpiece of these proposals is the 8-percent tax credit against tax for gross investment in depreciable machinery and equipment. The credit should be retroactive to January 1, 1962. The tax credit increases the profitability of productive investment by reducing the net cost of acquiring new equipment. It will stimulate investment in capacity expansion and modernization, contribute to growth of our productivity and output, and increase the competitiveness of American exports in world markets.

The President also points out that the tax credit for investments is in part self-financing. He indicates that the stimulus it provides to new investments will have favorable effects on the level of economic activity during the year and that this will in turn add to Federal revenues.

The 8-percent tax credit provided by this bill is a complement to the administration's plans for revising the guidelines for the tax lives of property subject to depreciation. It is believed that the investment credit, coupled with the liberalized depreciation, will provide a strong and lasting stimulus to a high rate of economic growth and will provide an incentive to invest comparable to those available elsewhere in the rapidly growing industrial nations of the free world.

The Secretary of the Treasury has indicated that further depreciation revisions will be announced this spring. He has specified that the basic objective of these revisions is to provide realistic tax lives in the light of past actual practices and present and foreseeable technological innovations and other factors affecting obsolescence. The Secretary has stated that another facet of this objective is to achieve a more simple and flexible system of depreciation moving toward guideline lives for broad classes of assets used by each of the industries in our economy.

Realistic depreciation alone, however, is not enough to provide either the essential economic growth or to permit American industry to compete on an equal basis with the rapidly growing industrial nations of the free world. The major industrialized nations of the free world today provide not only liberal depreciation deductions but also initial allowances or incentive allowances to encourage investment and economic growth. This is true, for example, in Belgium, Canada, France, West Germany, Italy, Japan, the Netherlands, Sweden, and the United Kingdom.

The investment credit will stimulate investment because—as a direct offset against the tax otherwise payable—it will reduce the cost of acquiring depreciable assets. This reduced cost will stimulate additional investment since it increases the expected profit from their use. The investment credit will also encourage investment because it increases the funds available for investment. Generally, for each \$100 of investment business, because of the tax credit, will have \$8 more than otherwise would be the case for additional investment. Moreover, since the credit applies only to *newly acquired* assets, the incentive effect is concentrated on new investment and no revenue is lost in raising the profitability of assets already held by business firms. In addition, it is the hope of the committee that the savings from the credit itself also will be used for new investment in further advancing the economy.

The investment credit provided by this bill generally provides an offset against the tax otherwise due equal to 8 percent of the investments made. It does not affect the depreciation, which may be taken, either initially or in subsequent years. As a result the tax credit concentrates the benefit provided in the initial year of the investment, thereby maximizing the stimulative effect.

The investment credit in the case of most regulated public utilities is in effect 4 percent rather than 8 percent. The smaller credit is provided in such cases because much of its benefit in these regulated industries is likely to be passed on in lower rates to consumers, thereby negating much of the stimulative effect on investments. Moreover, the size of the investment in regulated public utilities, such as electric companies, local gas companies, telephone companies, etc., will in large part be determined by the growth of other industries, rather than their own.

In your committee's consideration of the investment credit last year it was planned to make the credit available only with respect to assets with a life of 6 years or over. However, its review this year has convinced your committee that the credit should be made available at least in part for shorter lived assets. There is a substantial volume of industrial equipment with lives of 4 and 5 years, investment in which should also be encouraged. At the same time your committee recognized that, with the more rapid turnover of short-lived assets, the plan as considered last year would have provided a substantially greater investment credit for short-lived assets than for longer lived assets. For example, in the case of a \$1,000 investment in a 4-year asset, which is replaced as it wears out, three \$80 credits could be obtained in the same time span in which one \$80 credit could be obtained in the case of a \$1,000 investment in a 12-year asset. As a result of these factors, your committee has provided that assets with lives of from 4 up to 6 years are to be taken into account in determining the allowable credit on the basis of one-third of the investment made; those with lives of from 6 up to 8 years are to be taken into account on the basis of two-thirds of the investment made; and only those with expected lives of 8 years and over will be taken into account on the basis of the full investment for purposes of the credit.

The bill, by limiting the credit principally to property which is new in use will limit the investment stimulant primarily to provision for new production facilities. However, because of the greater dependence of small business on used property, a limited credit is also made available for used property which is newly acquired.

The credit is available for investments in most tangible personal property. It also is available for limited types of real property, other than buildings. The greater emphasis is placed on equipment and machinery because it is believed the need for such investment is the major requirement of the economy.

B. General explanation of provision

1. *Summary.*—The bill provides a credit (in code sec. 38), which may be offset directly against income tax liability. The credit generally is an amount equal to 8 percent of "qualified investment" which includes both purchases of new equipment, and also, to a limited extent, purchases of used equipment. In the case of property with an expected useful life of 4 up to 8 years, the investment taken into account in computing the 8-percent credit is graduated from one-third in the case of the 4-year assets up to 100 percent in the case of property with a useful life of 8 years or more. In the case of most public utilities, however, only half of the investment as otherwise determined is included in computing the credit.

The types of property, whether new or used, which are included in qualified investment are described as "section 38 property." This property includes most tangible personal property. It also includes certain real property, other than buildings (or structural components) if the property is used directly in manufacturing, production, transportation, etc.

Once the amount of the 8-percent credit against tax is determined, the amount which may be claimed in any one year is limited to the tax liability, or if this tax liability exceeds \$100,000, the credit (to the

extent it exceeds this amount) is limited to 50 percent of the tax liability. However, a 5-year carryforward is provided for any of these credits which because of this limitation are unused. The bill also provides that where the property is disposed of before the end of its life as estimated for the credit (and this is less than 8 years) the credit is reduced to the amount which would have been allowed initially had the useful life of the asset been correctly estimated.

These provisions are described briefly below.

2. *Qualified investment.*—Investment which is eligible for the 8-percent investment credit is referred to in the bill as “qualified investment” (sec. 46(c)). Qualified investment includes both new property and a limited amount of used property. Property qualifies for the investment credit in the year it is placed in service by the taxpayer, even though under the depreciation convention used by the taxpayer, he may not be eligible to start depreciation on the property until the coming year.

The percentage of investment which the taxpayer may take into account as qualified investment varies to some degree with the expected useful life of the property in his business. No part of the investment in property with an expected useful life of less than 4 years is taken into account. Property with an expected useful life of 4 years and up to (but not including) 6 years is taken into account at one-third of the amount of the investment actually made; property with an expected useful life of 6 years and up to (but not including) 8 years is taken into account on the basis of two-thirds of the investment made; and property with a longer life is taken into account at the full amount of the investment.

Public utility property is taken into account as qualified investment at one-half of the amount otherwise allowable. Thus, in the case of 4- or 5-year public utility property, one-sixth of the investment is taken into account; in the case of 6- or 7-year property, one-third of the investment is taken into account; in the case of property with a life of 8 years or more, one-half is taken into account. This means that in the case of public utility property with an expected useful life of 8 years or more, in effect a 4-percent credit is allowed. Public utility property for this purpose means property used predominantly in an electrical energy, water or sewage disposal business, a local gas distribution business, a telephone business, or a domestic telegraph business, but only if the rates involved in all of these cases are subject to regulation by a governmental agency or commission.

3. *New and used property.*—The new property taken into account as qualified investment (sec. 48(b)), must be purchased or otherwise acquired after December 31, 1961, and its first use commenced by the taxpayer after that date. Other new property eligible for the credit also includes property constructed, reconstructed, or erected by the taxpayer after that date. These are the same rules which applied with respect to the new forms of depreciation provided in 1954.

Used property (sec. 48(c)), eligible for the credit, also must be purchased after December 31, 1961, but, of course, is not property which is new in use with the taxpayer. To prevent abuse, however, there has been omitted from the term “used property,” available for the credit that which is used by a person who used the property before such acquisition (and also that which is so used by a person who

is related to a person who used the property before its present acquisition).

The cost of any used property which may be taken into account is limited to \$50,000 a year. Where used property with varying useful lives is acquired the taxpayer may select the property to be taken into account for the investment credit. Presumably he will select assets with lives of 8 years or more since there is no one-third or two-thirds reduction in such cases.

In the case of a husband and wife filing separate returns, the amount of used property which may be taken into account by each is \$25,000 instead of \$50,000, unless one of the two has not purchased any used section 38 property, in which case the other spouse may claim the entire amount up to \$50,000. This prevents any double allowance for married couples. In the case of affiliated groups of corporations (with a 50-percent test of common ownership instead of the 80 percent usually applied), there is to be one \$50,000 used property allowance for the group and it is to be apportioned among the members of the group in accordance with their purchases of this property. In the case of partnerships, this limitation applies both at the partnership level and also with respect to each partner. Thus, \$50,000 is the limit with respect to used property which may be qualified for any partnership, and then there is a further \$50,000 limit at the partner level. This latter limit may further restrict the used property eligible for the credit where a partner, in addition to his share of investment in one partnership, has either from another partnership or as a sole proprietor, additional used property investment for which he may receive a credit. The total of these which qualify for the credit may not exceed \$50,000.

To prevent a double allowance where used property is traded in on used property, or where used property is disposed of and other used property "similar or related in service or use" is acquired as a replacement, the cost otherwise allowable for the used property acquired is reduced by the adjusted basis of the property disposed of in both of these types of cases. However, this "replacement" reduction in the credit is not to apply where there otherwise is a reduction in the credit for the property disposed of because of its disposal within 8 years and before the end of what had been its estimated useful life. (See heading 5 below.)

4. "*Section 38*" property.—Section 38 property (defined in sec. 48(a)), is the only property (either new or used) which is treated as "qualified investment." Except for the exclusions noted below, all tangible personal property qualifies as section 38 property. Except for buildings and their structural components, real property which is used as an integral part of manufacturing, production or extraction or of furnishing transportation, communications, electrical energy, gas, water or sewage disposal services also qualifies as section 38 property. This is also true of real property (other than buildings and structural components) used for research or storage facilities with respect to any of the above categories. Tangible personal property is not intended to be defined narrowly here, nor to necessarily follow the rules of State law. It is intended that assets accessory to a business such as grocery store counters, printing presses, individual air-conditioning units, etc., even though fixtures under local law, are

to qualify for the credit. Similarly, assets of a mechanical nature, even though located outside a building, such as gasoline pumps, are to qualify for the credit. Real property (other than buildings and structural components) which qualifies as integral parts of categories referred to above includes such assets as blast furnaces, oil and gas pipelines, railroad track and signals, and fences used in connection with raising cattle.

Section 38 property must be depreciable property and have a useful life of 4 years or more. As indicated elsewhere, property with estimated useful lives of from 4 to 8 years is only partially taken into account for purposes of the investment credit.

There also are certain categories of property which are excluded from the definition of section 38 property and, therefore, cannot qualify for the credit. These exclusions are:

(1) Property used predominantly to furnish lodging or in connection with the furnishing of lodging. However, there are two exceptions to this exclusion. First, property used in nonlodging commercial facilities (such as a restaurant) located in lodging facilities (such as a hotel) may qualify for the credit if the nonlodging commercial facilities are available for use by the general public on the same basis as for the lodgers. Second, property used in a hotel or motel which primarily serves transient guests may qualify for the credit. The first of these two rules is essential to place nonlodging commercial facilities located in an apartment building, etc., on an equal competitive basis with similar facilities located elsewhere. The allowance of the credit in the case of a hotel or motel also is used in a regular commercial venture and, therefore, it was believed that it too should be eligible for the investment credit.

(2) Property used by a tax-exempt organization (other than in a business to which the unrelated business income tax applies). The limitation on the allowance of the credit in this case is designed to prevent an investment for use in connection with an exempt function from decreasing any tax on an unrelated trade or business.

(3) Property used by governmental units. Property leased to governmental units is omitted since allowing the lessor in such cases an investment credit would not be expected to increase the use of such property by the governmental units.

(4) Property used predominantly outside of the United States. However, there are certain exceptions where this type of property is eligible for the credit, namely, in the case of domestically owned aircraft, rolling stock of railroads, vessels and motor vehicles, where the use is partially within and partially without the United States. Similarly, an exception is made for domestically owned containers which are used in the transportation of property to or from the United States. A further exception is made for domestically owned property used in exploring for, developing, removing, or transporting natural resources from the Outer Continental Shelf of the United States. Property used predominantly outside of the United States (with the exceptions noted) is omitted, since the primary purpose of the credit is to encourage investment within the United States.

5. *Limitation on tax credit.*—The tax credit, under your committee's bill (sec. 46(a)(2)) may not exceed the tax liability, or if the tax liability is in excess of \$100,000, may not exceed \$100,000 plus 50 percent of the tax liability over this amount. This limitation, while leaving substantial leeway for utilizing the credit, is designed to prevent it (in combination with other tax credits) from relieving the taxpayer from any substantial tax contribution. However, in recognition of the problems of small business, the bill does not impose this limitation with respect to the first \$100,000 of any tax liability.

Although this limitation with respect to the allowance of the investment credit is imposed for the year in which the investment is made, nevertheless, any investment credit which, because of this limitation, cannot be used in the current year may be carried forward by the taxpayer and used in any of the succeeding 5 years if the credit in any such year is less than the tax limitation.

Tax liability for purposes of this limitation is computed without regard to the accumulated earnings tax or personal holding company tax liability, but after the application of the foreign tax credit, the 4-percent dividends-received credit, the credit for partially tax-exempt interest and the retirement income credit. In order to prevent a full allowance with respect to \$200,000 of tax liability in the case of a married couple, the bill provides that for a married individual filing a separate return the tax liability limitation is \$50,000 instead of \$100,000. However, if either the husband or the wife has no qualified investment (or unused credit carryover), the one having the investment or carryover may make use of the entire \$100,000. In the case of an affiliated group there is one \$100,000 of tax liability which can be fully offset by qualified investment and this is by regulations to be apportioned among the members of the affiliated group.

6. *Certain dispositions of section 38 property.*—To guard against a quick turnover of assets by those seeking multiple credit,—the bill provides (in sec. 47) a special adjustment. Under this provision if property is disposed of, or otherwise ceases to be section 38 property, the tax for the current year is to be increased by the reductions in investment credits (which would have resulted in the prior years) had the investment credits allowable been determined on the basis of the *actual* useful life of the property rather than its *estimated* useful life. This means, for example, that if an asset which had previously been estimated to have a useful life in the business of 8 years or more actually is used by the taxpayer only for 6 years, the investment credit for the year in which the investment was originally made will be recomputed on the basis of two-thirds the investment made. Had this asset been sold after 4 or 5 years' use, the allowable investment would have been recomputed on the basis of one-third of the actual investment and had it been sold after a still shorter period, no credit at all would have been allowed.

Although the credit is recomputed for the earlier year in which the investment was made, the actual adjustment in tax occurs in the current year, namely, the year in which the asset is disposed of (or otherwise ceases to be sec. 38 property). This makes it unnecessary actually to recompute taxes in the prior years, or to extend the statutory periods of limitations. An adjustment is also made in any carryovers of unused credits so that they too will reflect the reduced amount of investment to be taken into account.

Although disposal of assets within a shorter period of time than their estimated useful life (where this is less than 8 years) usually will be the factor resulting in downward adjustments in the credit allowed, the credit must also be adjusted if property ceases to qualify as section 38 property; where, for example, its use becomes predominantly outside of the United States. A downward adjustment in the credit also is required where property is converted to public utility property for which only a reduced credit is available. As indicated previously, a credit is allowed for certain types of public utility property equal only to half of the credit generally allowable. Where property is converted to such use (again, before the end of its estimated useful life and within the 8-year period) a downward adjustment must be made. In this case, however, instead of disqualifying one-third, two-thirds, or all of the property, depending upon the period of time involved before the conversion to public utility use is made, one-half of such an adjustment is made, since the public utility property itself qualifies for the credit for the remaining period of time but on a reduced basis.

Few exceptions are made to the adjustment rule for the credit described above because in no case does this result in a lesser credit than would be available had the useful life of the property been estimated accurately. Moreover, since the tax increase occurs in the current year, and not with respect to the prior year in which the investment occurred, no interest is charged with respect to the increase in tax resulting from the reduction in credit. As a result, your committee believed that it was necessary to forego the application of the adjustment rule only in the case of the transfer of property by reason of the death of the taxpayer or in the case of corporations where a successor corporation "stands in the shoes" of the predecessor corporation. The successor corporation in such a case, of course, must continue to hold the property for the appropriate period of time, or an increase will be made in its tax because of the disposition of the property prior to the end of its estimated useful life.

7. Election for leased property.—The bill provides (in sec. 48(d)) that a person engaged in the business of leasing property may elect with respect to new property to treat the investment as if made by the lessee instead of the lessor. This election applies only with respect to new property and is not available for used property. Permitting the investment credit to be passed on to the lessee in these cases is believed to be desirable since, as a result of this provision, it is possible for the lessor to pass the benefit of the investment credit on to the party actually generating the demand for the investment.

If the lessor makes this election, then the lessee is treated for purposes of this provision as if he had acquired the property himself; that is, generally he will be treated as if he had acquired the property for the lessor's cost or other basis for the property. However, if the lessor constructed the property (or a corporation controlled by or which controlled the lessor did so) the lessee is treated as having acquired the property for its fair market value. The useful life of the property in the hands of the lessee in such cases is to be its useful life in the hands of the lessor for purposes of computing the size of the credit available. This is true whether or not the lease itself is for a shorter period of time. Of course, in such cases if the lessee does not renew the lease and hold the property for the estimated useful

life of the property in the hands of the lessor, then a downward adjustment will be made in his investment credit.

8. *Special classes of taxpayers.*—A number of special categories of taxpayers receive special tax treatment under the Internal Revenue Code which makes it inappropriate in their cases to allow the full investment credit. For other taxpayers, the code provides that income may be taxed in part to the organization and in part to its shareholders or beneficiaries. In these situations your committee's bill either cuts down the allowance of the tax credit in proportion to the special benefit received, or provides for the apportioning of the investment credit between the organization and its shareholders or beneficiaries in accordance with their sharing of income for tax purposes. Similar adjustments are also provided in the \$100,000 tax liability limitation.

In the case of mutual savings banks, building and loan associations and cooperative banks, the investment credit allowable is reduced by 50 percent (largely offsetting the 60 special deductions they are allowed). The \$100,000 tax liability limitation is also similarly reduced for these organizations.

In the case of regulated investment companies and real estate investment trusts, the qualified investment allowed them and the applicable \$100,000 tax liability limitation are reduced in the same proportion in which their taxable income is reduced by dividends paid to shareholders or beneficiaries. Similarly, in the case of cooperatives, the qualified investment and \$100,000 tax liability limitation to be taken into account are reduced in the same proportion in which their taxable income is reduced for patronage dividends (and in the case of exempt cooperatives its deductions for dividend payments on capital stock, patronage distributions with respect to U.S. business and income distributed to patrons from sources other than patronage).

In the case of subchapter S corporations, i.e., corporations treated in a manner similar to that of partnerships, since it is the shareholders, rather than the corporation, who are taxed on the income of the corporation, the bill (sec. 48(e)) divides the qualified investment for each year on a pro rata basis among the shareholders of the corporation at the end of the year. In this case since the shareholders are treated as the taxpayer, the investment maintains its character as new or used section 38 property in their hands. Similarly, the bill (in sec. 48(f)) provides that qualified investment in the case of estates or trusts is to be apportioned between the estate or trust on one hand and the beneficiaries on the other on the basis of the income of the estate or trust allocable to each. As in the case of the subchapter S corporations, the beneficiary is treated as the taxpayer with respect to the investment apportioned to him and therefore the investment retains its character in his hands as new or used section 38 property. The \$100,000 tax liability limitation in the case of the estate or trust is reduced in proportion to the total income allocated to other than the estate or trust.

9. *Carryovers in the case of certain corporate acquisitions.*—Generally, in the case of certain tax-free acquisitions of assets of one corporation by another, present law provides that certain items of the first corporation are to be carried over and attributed to the second. This includes such items as net operating loss carryovers, earnings and

profits, methods of accounting, methods of computing depreciation allowance, etc. The bill adds to this list (sec. 381(c)(23)) a carryover to the acquiring corporation in the case of these tax-free reorganizations of the status of the prior corporation with respect to items required to be taken into account for purposes of the investment credit. This mainly is concerned with (1) the carryover of the possibility of adjustment with respect to the investment credit where an asset is held for less than the full period of its estimated useful life and (2) the carryover of any unused investment credit in the prior 5 years.

10. *Effective date.*—The bill provides that the investment credit is to apply to taxable years ending after December 31, 1961. However, in the definition of new section 38 property and also used section 38 property (the only types of property eligible for the credit) it is provided that a credit is to be available only with respect to acquisitions after December 31, 1961, or in the case of new property only with respect to the portion of the property which is constructed, reconstructed or erected after that date. The combination of the effective date and these definitions of new and used section 38 property in effect provide that the investment credit is to be available only with respect to property acquired (or in the case of new property also constructed, reconstructed, or erected) after December 31, 1961, with respect to taxable years ending after that date.

IV. APPEARANCES, ETC., WITH RESPECT TO LEGISLATION

(Sec. 3 of the bill—sec. 162(e) of the code)

A. *Reasons for provision*

Present law allows deductions for income tax purposes for ordinary and necessary expenses paid or incurred in carrying on a trade or business. No mention, however, is made in the statute of expenses incurred in making appearances, submitting material, or communicating with respect to legislative matters. However, Treasury regulations in effect prior to the enactment of the 1954 Code disallowed deductions for expenditures for such purposes (regulations 118, secs. 39.23(o)–1(f) and 39.23(q)–1(a)).

In 1959, the Supreme Court handed down two companion decisions upholding the validity of these regulations, *Cammarano v. U.S.* and *F. Straus & Sons, Inc. v. U.S.* (358 U.S. 498 (1959)). The Court held that although the amounts expended for legislative matters were “ordinary and necessary”—in fact essential to the very survival of the taxpayer’s business—nevertheless they were not deductible because the regulations barred the deduction of this particular type of expense. The court recognized that the statute contained no provisions specifically supporting the regulations, but stated that they had acquired the force of law by reason of congressional reenactment of the underlying statute.

Following the *Cammarano* decision, the Treasury Department promulgated new regulations relating to deductions incurred with respect to legislative matters. These regulations, while following the general rules set forth in the earlier regulations for the first time stated specifically that several different classes of expenditures are to be disallowed as deductions. For example, the new regulations require

the disallowance of a deduction for the portion of dues and other payments to any organization, a "substantial part" of the activities of which consist of lobbying to the extent that such amounts are "attributable to" these activities. Similarly, the regulations now state that expenditures for the promotion or defeat of legislation include expenditures for the purpose of attempting to influence members of a legislative body directly or indirectly, by urging or encouraging the public to contact the members.

The regulations issued by the Treasury Department in 1959 brought to a head many administrative and enforcement problems and uncertainties which have plagued both the Government and taxpayers. The difficulty in allowing trade or business expenses generally, but isolating expenses relating to legislative matters and denying deductions for them, stems in part from the difficulty in segregating and classifying such expenses. This is a form of detailed recordkeeping to which taxpayers are not accustomed. Moreover, in the case of many expenses which may primarily be incurred to inform the business itself as to the application of certain proposed legislation, when such information is also made available to legislators it is difficult to determine how an allocation of the expense should be made between legislation and mere planning of the company. Moreover, in the case of an organization, a determination must also be made as to whether the expenses of this type are substantial—a term which involves a difficult determination.

More important than the administrative and enforcement problems, however, are the policy considerations involved in denying expenses with respect to legislative matters. It appears anomalous, for example, that expenses incurred in appearing before legislative bodies or before legislators are not deductible while appearances before executive or administrative officials with respect to administrative matters, or before the courts with respect to judicial matters, are deductible where the expenses otherwise qualify as trade or business expenses. Your committee believes that the present bar on deductions with respect to legislative matters must be modified to place presentations to the legislative branch of government on substantially the same footing in this respect as that with the other two coordinate branches of government.

It also is desirable that taxpayers who have information bearing on the impact of present laws, or proposed legislation, on their trades or businesses not be discouraged in making this information available to the Members of Congress or legislators at other levels of government. The presentation of such information to the legislators is necessary to a proper evaluation on their part of the impact of present or proposed legislation. The deduction of such expenditures on the part of business also is necessary to arrive at a true reflection of their real income for tax purposes. In many cases making sure that legislators are aware of the effect of proposed legislation may be essential to the very existence of a business. The deduction of legislative expenses for those who incur them for personal reasons is not proposed here, since such expenses are not deductible with respect to administrative or judicial presentations and have no bearing on the determination of true taxable income of a business.

B. General explanation of provision

The bill adds a new subsection (sec. 162(e)) to the provision of present law relating to the deduction of trade or business expenses. It provides that certain types of expenses incurred with respect to legislative matters are to be deductible if in all other respects they qualify as trade or business expenses.

The expenses which may be deducted are divided into two categories. The first category relates to expenses in direct connection with appearances, submission of statements or sending of communications. These appearances, statements or communications may be presented either to committees or individual Members of Congress or to committees or individual members of State or local governmental legislatures. The second category of expenses which may be deducted are those in direct connection with the communication of information between the taxpayer and an organization of which he is a member. This communication of information may be either from the organization to the taxpayer or vice versa. In the case of both categories of expenses referred to above, in order for the expense item to be deductible, it must be concerned with legislation or proposed legislation of direct interest to the taxpayer (and to the organization in the latter case). Thus, the expenses may not be in connection with legislative matters such as nominations, etc., but rather must be in connection with specific legislation or proposals for legislation.

The bill also provides that where a taxpayer is a member of an organization and the organization pays or incurs the expenses of the types referred to above on behalf of its members, the dues which the taxpayer pays to the organization in carrying on his trade or business are to be deductible to the extent they are used for such purposes. The remainder of the dues is likely already to be deductible as ordinary and necessary business expenses. Of course, the dues to an organization may be deductible although not all of the organization's legislative activity is connected with each specific member's trade or business. It is sufficient if all of the organization's legislative activity is related to the trade or business of a significant number of the members.

The bill provides two limitations on the deduction of the above-specified expenses for the specified types of legislative activity. It is not intended by your committee that any deduction be allowed for an amount paid or incurred for participation or intervention in any political campaign for any candidate. Of course, this includes participation or intervention in political campaigns in opposition to a candidate as well. Your committee's bill further provides that no expense deduction is to be allowed for expenditures to influence the general public, or segments thereof, with respect to legislative matters, elections, or referendums. Thus, no deduction is intended to be allowed for expenses incurred in connection with what is usually called "grassroot" campaigns intended to develop a point of view among the public generally which in turn is directed toward the legislators.

Nothing in this provision is intended to permit the deduction of entertainment expenses. Such amounts, if deductible at all, must meet the tests set forth in the section of the bill explained below, without regard to this provision.

This provision is to be effective with respect to taxable years beginning after December 31, 1962.

V. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES

(Sec. 4 of the bill and sec. 274 of the code)

A. *Reasons for provision*

The Treasury brought to your committee's attention widespread abuses have developed through the use of the expense account. In his tax message to the Congress last year, the President stated his conviction that entertainment and related expenses, even though having an association with the needs of business, confer substantial tax-free personal benefits on the recipients; and that in many instances deductions are obtained by disguising personal expenses as business expenses. He recommended that the cost of such business entertainment and the maintenance of entertainment facilities be disallowed in full as a tax deduction, and that restrictions be imposed on the deductibility of business gifts and travel expenses.

After full hearings on the proposal and careful consideration of the problem, your committee has concluded that additional restrictions should be imposed on deductions for entertainment and traveling expenses and business gifts. The committee agrees that abuses in this or any other area of the tax law should not be tolerated, but it does not believe that complete disallowance of such expenses, as recommended by the President, is the proper solution to the problem.

Your committee's bill is designed to eliminate the abuses which have developed in this area. The bill provides new rules which, in general, would: (1) disallow a deduction with respect to entertainment activities, except to the extent that the expense is directly related to the active conduct of a trade or business; (2) disallow a deduction with respect to entertainment facilities, unless the facility is used primarily for the furtherance of the taxpayer's trade or business and the expense is directly related to the active conduct of the trade or business; (3) abolish the Cohan rule by requiring the taxpayer to substantiate, by adequate records or by sufficient evidence corroborating his own statement, all expenditures for entertainment and related facilities, and for travel and gifts; and (4) limit the deduction for gifts to \$25 per year per recipient.

The amendments made by this section are to apply to taxable years ending after June 30, 1962, but only with respect to expenditures incurred after that date.

B. *General explanation of provision*

Your committee's bill adds a new provision to the code (sec. 274), which disallows, in whole, or in part, certain expenses which would be fully deductible under present law. The requirements imposed by this bill are in addition to the requirements for deductibility imposed by other provisions of existing law, which must be met by the taxpayer before this new provision becomes operative. Hence, if an expenditure is claimed under section 162, the taxpayer must first establish that it constitutes an ordinary and necessary expense incurred in carrying on a trade or business, before the provisions of section 274 become applicable.

The only purpose of this section is to disallow deductions in certain cases and therefore this bill does not affect the question of the includi-

bility or excludibility of an item in income of any individual. The rules presently applicable under present law will continue to govern in this respect. Thus, for example, while pins or watches presented to an employee upon his retirement will not be regarded as gifts under this provision, this bill will have no effect in determining whether the recipient of the pin or watch will be taxed on their value.

1. Disallowance of expenses for entertainment activities.—The first part of the bill provides that no deduction is to be allowed for any expense with respect to an activity which is of a type generally considered to constitute entertainment, amusement, or recreation, except to the extent that the taxpayer establishes that the expense was directly related to the active conduct of his trade or business. Certain exceptions to this rule are provided, however, for expenses not required to meet the new tests. They are discussed in No. 5 below.

Entertaining guests at night clubs, country clubs, theaters, football games, and prizefights, and on hunting, fishing, vacation and similar trips are examples of activities that constitute "entertainment, amusement, and recreation." In addition, "entertainment" includes any business expense incurred in satisfying the personal, living, or family needs of any individual, such as the furnishing of food and beverages, a hotel suite, or an automobile. An objective test will be employed in determining whether an activity is of a type generally considered to constitute entertainment, amusement, or recreation, but the particular business of the taxpayer will be considered in applying this objective test. For example, with respect to a taxpayer who is a professional hunter, a hunting trip would not generally be considered a recreation-type activity. On the other hand, with respect to a taxpayer whose trade or business consists of selling machine tools or manufacturing clothing, a hunting trip generally would be considered a recreation-type activity. Similarly, a theatrical performance would generally be considered an entertainment-type activity, but in the case of a professional theater critic, a theatrical performance would not constitute an entertainment activity.

An objective standard also will overrule arguments such as the one which prevailed in *Sanitary Farms Dairy, Inc.* (25TC 463 (1955)) that a particular item was incurred, not for entertainment, but for advertising purposes. If the activity typically is considered to be entertainment, amusement, or recreation, it will be so treated under this provision. This will be so even where the expense relates to the taxpayer alone.

With respect to expenses for entertainment activities, the bill provides that a deduction will be allowed only to the extent that the taxpayer establishes that the expense was directly related to the active conduct of his trade or business. This means that the taxpayer must show a greater degree of proximate relation between the expenditure and his trade or business than is required under present law. Among other things he will have to show more than a general expectation of deriving some income at some indefinite future time from the making of the entertainment-type expenditure; however, he will not be required to show that income actually resulted from each and every expenditure for which a deduction is claimed.

If the expenditure is for entertainment which occurs under circumstances where there is little or no possibility of conducting business affairs or carrying on negotiations or discussions relating thereto, the

expenditure will generally be considered not to have been directly related to the active conduct of business. Thus, the absence of the taxpayer or his representative from the entertainment activity ordinarily indicates that the entertainment was not directly related to the conduct of the taxpayer's trade or business. Similarly, if the group of persons entertained is large or the distractions substantial, the cost of the entertainment will not be deductible, in the absence of a clear showing of a direct relationship to the active conduct of the trade or business. All the facts and circumstances pertaining to the entertainment activity will be considered in this connection. Thus, expenses incurred for a "hospitality room," at a convention, at which good will is promoted through display or discussion of the taxpayer's products will be treated as so directly related.

Under the bill, deductions for expenditures with respect to entertainment-type activities are limited to the portion of such expense which is directly related to the active conduct of the taxpayer's trade or business; expenses not directly related to the active conduct of business are not deductible. Objective standards will be employed to determine the apportionment between the part of the expense which meets this test and the part which does not. Thus, if a taxpayer entertains a group of 10 individuals, 3 of whom are business customers (with respect to whom this relationship can be established) and 7 of whom are guests (with respect to whom this relationship cannot be established), a deduction will be allowed only for the expenses attributable to the 3 business customers. Since the subjective intent of the taxpayer is not relevant to this determination, it would make no difference that the taxpayer in the above example would not have had the party but for the attendance of the 3 business customers.

Expenses for entertainment, amusement, and recreation should be identified by the taxpayer on his return and treated under the new rules of this bill. It ordinarily will not be appropriate to include these expense items in other categories of business deductions, where their character will not be apparent, such as advertising, public relations, cost of goods sold, reimbursed expenses, etc.

2. Disallowance of expenses for entertainment facilities.—Your committee's bill (sec. 274(a)) also limits the deduction for expenditures incurred with respect to facilities used for entertaining. Under the bill, no deduction is to be allowed with respect to expenses relating to facilities unless the taxpayer establishes (1) that the facility was used primarily for the furtherance of his trade or business and (2) that the expenditure was directly related to the active conduct of his trade or business. In no event can the deduction exceed the portion of the expense which is directly related to the active conduct of the taxpayer's trade or business. Certain exceptions to this rule are provided, however, for expenses not required to meet the new tests. They are discussed in No. 5 below.

The term "facility" includes any item of personal or real property owned or rented by the taxpayer, such as a yacht, hunting lodge, fishing camp, swimming pool, tennis court, bowling alley, automobile, airplane, apartment, hotel suite, home in vacation resort, dining room, and cafeteria. In addition to items commonly regarded as expenses "with respect to a facility," such as expenditures for the maintenance, preservation, or protection of the facility, this provision

also relates to depreciation and losses realized on certain sales of entertainment facilities.

Under the bill, if a facility is used more than one-half for business entertaining, so that more than one-half of the entertainment expense with respect to such facility would be deductible as a business expense under present law, that portion would continue to be deductible to the extent it meets the test of being directly related to the active conduct of the taxpayer's trade or business. If less than one-half of such entertainment expense would be deductible under present law, no deduction would be allowed. Under this provision the facility must actually be used in furtherance of the taxpayer's trade or business; it is not sufficient that the facility is merely "available" for business use. In connection with these determinations, objective rather than subjective standards would be employed.

This rule will prevent tax abuses involving luxury facilities for entertainment, amusement, or recreational purposes. Under this rule a taxpayer who lives in a luxurious apartment and who presently deducts a portion of its rent on the ground that the apartment was used for occasional entertaining of business guests (and thus had a business purpose), no longer will be able to deduct any portion of the rent because the principal purpose of the apartment is personal, rather than business. Moreover, a swimming pool constructed at the taxpayer's residence may not be charged off for tax purposes as an ordinary and necessary business expense unless the taxpayer demonstrates that personal, family, or living purposes were not primarily served by use of the pool.

Club dues and fees paid to any social, athletic or sporting club or organization are treated by the bill as an expense with respect to a facility used for entertainment and therefore will not be deductible where the primary use of the club facilities is personal. If membership entitles the member's entire family to use the facilities of the club, their use will be considered in determining whether business use of the club exceeds personal use. Where the primary use of the club facilities is in furtherance of a trade or business the cost of the club dues or fees will be deductible to the extent of the use directly related to the active conduct of business. Thus, if membership in a club costs \$100 per year and the club is used for such direct business purposes three-fourths of the time, \$75 will be deductible. As in the case of other facilities, it is the actual use of the club which establishes the deductibility of the club dues, not its availability for use, and not the taxpayer's principal purpose for joining the club. However, this does not mean that out of pocket business entertainment expenses incurred at a club will not be deductible where the required direct relationship between the entertainment and the taxpayer's trade or business is shown to exist. Such expenses will be deductible without regard to the tax treatment of club dues.

Club dues for this purpose do not include dues or fees paid for membership in such civic organizations as Kiwanis, Lion's Club, Rotary, Civitan, and similar groups because these organizations are not social, athletic or sporting clubs. Similarly, professional associations such as bar associations and medical associations are not considered social, athletic or sporting clubs. Deductibility of these dues will continue to be governed by the rules of existing law.

3. *Business gifts*.—Under your committee's bill, deduction for business gifts will be disallowed to the extent that the total gifts during the year exceed \$25 with respect to any person. Where gifts are made to the wife of a man who has a business contact with the donor, these gifts are considered as made indirectly by the husband (for purposes of the limitation).

There is the possibility of overlapping application of the entertainment expense and gift provisions in this new section. An item which might be held to be a gift might also be held to be an entertainment expense. For example, tickets to a theater might fall in either category. Since different rules will apply depending upon the category in which the expense item falls, specific regulatory authority is given to the Secretary of the Treasury or his delegate to prescribe, in cases where both provisions would otherwise apply, which provision is to govern. Thus, a "gift" of theater tickets probably would be classified as coming under the entertainment provision, while a book probably would be classified as coming under the gift provision.

4. *Disallowance of expenditures not substantiated*.—Under the bill, taxpayers will be required to substantiate their entertainment and related expenses, their traveling expenses and gift expenses. The bill provides that the taxpayer must substantiate by adequate records or by other sufficient evidence corroborating his own statement the amount of such expense or other item; the time and place of the travel, entertainment, amusement, recreation, or use of the facility, or the date and description of the gift; the business purpose of the expense; and the business relationship to the taxpayer of the person entertained, using the facility, or receiving the gift.

This provision is intended to overrule, with respect to such expenses the so-called *Cohan* rule. In the case of *Cohan v. Commissioner*, 39 F. 2d 540 (C.A. 2d, 1930), it was held that where the evidence indicated that a taxpayer had incurred deductible expenses but their exact amount could not be determined, the court must make "as close an approximation as it can" rather than disallow the deduction entirely. Under your committee's bill, the entertainment, etc., expenses in such a case would be disallowed entirely.

The requirement that the taxpayer's statements be corroborated will insure that no deduction is allowed solely on the basis of his own unsupported, self-serving testimony. However, the degree of corroboration required to support a claimed deduction will vary as respects the business relationship and purpose, the time and place, and the amount of the expense. Thus, oral testimony of the taxpayer, together with circumstantial evidence available, may be considered "sufficient evidence" for the purpose of establishing the business purpose required under the new provision. However, oral testimony of the taxpayer plus more specific evidence would be required to be "sufficient evidence" as to the amount of an expense.

Generally, the substantiation requirements of the bill contemplate more detailed recordkeeping than is common today in business expense diaries. However, a clear, contemporaneously kept diary or account book containing information with respect to the date, amount, nature and business purpose of the expense may constitute an adequate record under this provision.

Your committee does not intend by this substantiation requirement to deny a taxpayer deductions for entertainment, etc., expenses where

he has no records if it can be shown that the failure to produce substantiating records was due to circumstances beyond his control, such as destruction of his records by fire or flood. In such a case, the taxpayer will be permitted to reconstruct the business entertainment, travel, or gift expenses incurred by him in the taxable year.

Under the bill, the Secretary or his delegate may, by regulation, prescribe certain situations in which the substantiation requirements will not be applied. For example, it may be provided that substantiation will not be required for traveling expenses, where such expenses (including the cost of meals and lodging) do not exceed prescribed minimum amounts. This will be of special benefit to employees whose per diem allowance while traveling is within limits established by the Secretary under this provision. Thus, if regulations are issued under which substantiation will not be required for traveling or entertainment expenses where per diem allowances do not exceed 125 percent of per diem allowed a Government employee in the same locality, it would be sufficient evidence for purposes of the substantiation rule to establish only the amount of the allowance and the fact that the business travel occurred.

5. *Exceptions where disallowance provisions will not apply.*—The bill contains nine exceptions to the general disallowance provision described above under heading 1 or 2. Where an expense falls within one of the enumerated exceptions, the item will continue to be deductible to the same extent as allowed by existing law. However, the new substantiation requirements (discussed under heading 4) will have to be satisfied with respect to any such expense. The exceptions are as follows:

(a) Expenses for food and beverages furnished under circumstances which are of a type generally considered to be conducive to a business discussion. The question as to whether the circumstances are conducive to a business discussion are to be tested by such standards as: First, the surroundings in which the meal or beverage was furnished; second, the taxpayer's trade or business or income-producing activity; and third, the relationship to such trade, business, or activity of the persons to whom the food and beverages were furnished.

(b) Expenses for food and beverages (and facilities used in connection with them) furnished on the business premises of the taxpayer primarily for his employees. This is intended to exclude from the disallowance provision facilities such as the company cafeteria or an executives' dining room. This exception would continue to apply even though guests are occasionally served in the cafeteria or dining room.

(c) Goods, services and facilities to the extent that the entertainment, amusement, or recreation (or use of the facility) is treated on the taxpayer's return with respect to the recipient of the entertainment as compensation paid to an employee and from which income tax is withheld. For example, if the taxpayer permitted an employee to use a yacht for a vacation and treated the expenses for its use as compensation paid to the employee for purposes of the withholding tax and for purposes of the taxpayer's tax return, maintenance and crew costs attributable to such use would be deductible in full because of this exception. On the other hand, where a yacht was used exclusively for business enter-

taining the salaries paid to the captain and crew, even though they were treated as compensation and withheld on, would not come within this exception because they are not the recipients of the entertainment.

(d) Expenses paid or incurred by the taxpayer where he pays or incurs the expenses for his employer or a client, customer, etc., and where he is reimbursed by the employer or client, etc. This is designed to prevent the double disallowance of a single expenditure, once to the employee or practitioner, etc., and a second time to the employer or client, etc. This provision will not apply, however, in the case of an employee where the employer treats the amount paid to him as compensation. It also will not apply in the case of a practitioner, etc., unless he accounts to the client, etc., for the expenses incurred. The accounting must represent sufficient substantiation to meet the tests set out under heading No. 4. Thus, if a lawyer enters into a fee arrangement under which his client agrees to reimburse him for expenses (including entertainment expenses) the exception will not apply unless he accounts to his client sufficiently to enable the client to substantiate the expenses as required by the bill.

(e) Expenses incurred for recreation, social, or similar activities (including facilities) primarily for the benefit of employees. The employees referred to in this case are those, other than officers, shareholders, or highly compensated employees. In this case an individual would be considered a shareholder only if he (taking into account holdings of members of his family) holds an interest in the corporation of 10 percent or more. This category is intended to pertain to the usual employee fringe benefit programs, such as expenses of operating a company swimming pool or baseball diamond, as well as the expenses of the annual company picnic or Christmas office party.

(f) Expenses directly related to business meetings of employees or stockholders. While this category will apply to business meetings where some social activities are provided, it is not intended to apply to gatherings which are primarily for social purposes rather than for the transaction of the employer's or company's business.

(g) Expenses directly related and necessary to attendance at a business meeting of any organization, such as a trade association, chamber of commerce, real-estate board, etc., described in section 501(c)(6) of the code.

(h) Expenses for goods, services, and facilities made available to the general public by the taxpayer. This pertains to expenses for the entertainment of the general public by means of television, radio, newspapers, and the like. It also permits deductions for expenses for parks, etc., maintained by companies where the general public may attend. Expenses of distributing samples to the general public would also come within this exception.

(i) Expenses for goods or services (including the use of facilities) which are sold by the taxpayer in a bona fide transaction for an adequate and full consideration in money or money's worth. This exception is designed to insure that a taxpayer who sells entertainment to others will be allowed to deduct expenses of producing that entertainment. Thus salaries paid to employees

of nightclubs and amounts paid to performers other than employees will continue to be deductible by the operator. Moreover, since this type of expense is not considered to be "entertainment" the detailed substantiation requirements prescribed in this bill will not apply.

6. *Interest, taxes, casualty losses.*—The restrictions provided by your committee's bill are not to apply with respect to items which are deductible under specific provisions of law which apply both to business and nonbusiness taxpayers. Thus, deduction for interest paid on a loan to acquire an entertainment facility or property taxes paid with respect to it would continue to be allowed as a deduction, whether or not the entertainment facilities meet the tests of the new provision.

7. *Treatment of entertainment-type facilities.*—Under the bill, if deductions with respect to entertainment-type facilities are disallowed, the disallowed portion is to be treated as an asset which is used for personal, living, and family purposes, rather than as an asset used in the trade or business. Under this provision the basis of such an entertainment-type facility will be adjusted for purposes of computing depreciation deductions and determining gain or loss on the sale of such facility in the same manner as other property (for example, a residence) which is regarded as used partly for business and partly for personal purposes. Thus, if a taxpayer has a yacht which is used three-fourths for direct business entertainment purposes, and he ordinarily would be entitled to \$1,000 for depreciation with respect to the yacht (if it were used entirely for business), \$250 of this amount would be disallowed as a depreciation deduction and would be treated as the basis of an asset not used in the taxpayer's business.

8. *Meals and lodging while in travel status.*—The bill also amends section 162(a)(2) of present law which provides that traveling expenses include "the entire amount expended for meals and lodging." Your committee's bill provides that traveling expenses shall include "a reasonable allowance for amounts expended for meals and lodging." This has been the position taken in Treasury regulations for many years.

9. *Effective date.*—The amendments made by this provision are to apply with respect to taxable years ending after June 30, 1962, but only in respect of periods after that date.

VI. DISTRIBUTIONS IN KIND BY FOREIGN CORPORATIONS

(Sec. 5 of the bill and sec. 301 of the code)

A. *Reasons for provision*

Under present law, when a distribution in kind is made by a corporation to a shareholder which is also a corporation, the amount which is treated as a distribution is the fair market value of the property received or, if lower, the adjusted basis of the property in the hands of the distributing corporation. Where both the distributing corporation and its corporate shareholder are domestic corporations, taking into account the adjusted basis when it is lower than the fair market value of the property may be justified on the grounds that the appreciated property is still owned by a corporation and, in fact, very little has happened. Furthermore, if the distributee corporation sells the property, the same amount of gain will be realized and taxed as if the

distributor corporation had sold it. Where the distributing corporation is a foreign corporation, however, the device of distributing to its U.S. corporate shareholder appreciated property can be used as a device to permit the U.S. corporation to realize on the earnings and profits of the foreign corporation at minimum U.S. tax. Assume, for example, that an American parent has a 100-percent owned foreign subsidiary. This foreign subsidiary has \$100,000 in accumulated earnings and profits resulting from foreign earnings all of which enjoyed complete deferral from U.S. tax. Assume further that the foreign subsidiary is in a position to distribute to its American parent either \$50,000 in cash or a valuable piece of property having a fair market value of \$50,000 but an adjusted basis of only \$20,000. Under existing law, the dividend income to the American parent is \$50,000 if the cash is distributed but is only \$20,000 if the property is distributed. Under the amendment proposed by the bill, however, the dividend income to the parent is the same amount (\$50,000) whether the cash or the property is distributed. This result is believed appropriate since the increase in value of the parent's assets is the same whether it receives the cash or the property.

This is a companion provision to section 16 of this bill. These two provisions taken together are designed to give assurance that when funds are withdrawn from foreign corporations by liquidation of the corporation, sale of the stock or distribution of property in kind that a full U.S. tax is obtained.

B. General explanation of provision

This provision amends existing law (sec. 301(b)(1)(C)) to provide that where there is a distribution in kind from a foreign corporation and the shareholder is a corporation, then the amount of the distribution for dividend purposes is to be the fair market value of the property distributed, and not its adjusted basis in the hands of the distributor where this is lower.

An exception to the rule described above is provided where the distributing corporation, although a foreign corporation, during the 3 years ending with the close of the corporation's taxable year, derived more than 50 percent of its income from sources within the United States. In such cases, to the extent that the income is subject to U.S. tax, the corporation receiving the dividend can continue to apply the rule generally available for domestic corporations. Thus, to the extent the dividend is treated as eligible for the 85-percent dividends received deduction, the amount of distribution will be the adjusted basis of the property to the distributing corporation where this is lower than its fair market value.

The bill also makes appropriate basis adjustments to take into account the changed rules with respect to dividend distributions.

The amendments made by this provision are to apply to distributions made after December 31, 1962.

VII. ALLOCATION OF INCOME BETWEEN RELATED FOREIGN AND DOMESTIC ORGANIZATIONS

(Sec. 6 of the bill and sec. 482 (b) of the code)

A. Reasons for provision

Under present law, foreign corporations which are controlled by domestic corporations or other persons are not taxed by the United States on their foreign source income. Thus, United States imposes no tax with respect to the profits of such a corporation when they are earned although it does impose a tax on the domestic shareholders of this corporation when they receive dividend distributions from it. This taxation at the time of distribution, rather than at the time the income is earned by the foreign corporation, has become known as "tax deferral." U.S. corporations, it is believed may sell goods to their controlled foreign subsidiaries at less than a fair price to avoid a U.S. tax on what should be their full profit for such sales. Similarly, in other cases it is believed that foreign-controlled subsidiaries have sold goods to their domestic parent at more than the fair market price. The effect of such transactions is to understate the taxable income of the domestic corporation subject to U.S. tax and to overstate the income of the foreign subsidiary. Thus, to the extent the U.S. tax rate is above that imposed by the foreign country or country involved, tax deferral is achieved with respect to this diverted income during the period of time the income is held abroad. The Secretary of the Treasury, in his testimony last year on this subject stated:

This is not simply a question of allocating the profits of foreign operations to tax haven countries. It is a problem that significantly affects U.S. taxation of domestic profits. The technique that is used for diverting profits from one company to another among European affiliates is also used to divert income from U.S. companies to foreign affiliates. Income that would normally be taxable by the United States is thrown into tax haven companies with the object of obtaining tax deferral. This is done, for example, by placing in a Swiss or Panamanian corporation the activities of the export division of a U.S. manufacturing enterprise. A very substantial volume of exports is required merely to offset the loss in foreign exchange which the retention abroad of export profits entails.

Present law in section 482 authorizes the Secretary of the Treasury to allocate income between related organizations where he determines this allocation is necessary "in order to prevent evasion of taxes or clearly to reflect the income of any such organizations." This provision appears to give the Secretary the necessary authority to allocate income between a domestic parent and its foreign subsidiary. However, in practice the difficulties in determining a fair price under this provision severely limit the usefulness of this power especially where there are thousands of different transactions engaged in between a domestic company and its foreign subsidiary.

Because of the difficulty in using the present section 482, your committee has added a subsection to this provision authorizing the Secretary of the Treasury or his delegate to allocate income in the

case of sales or purchases between a U.S. corporation and its controlled foreign subsidiary on the basis of the proportion of the assets, compensation of the officers and employees, and advertising, selling and sales promotion expenses attributable to the United States and attributable to the foreign country or countries involved. This will enable the Secretary to make an allocation of the *taxable income* of the group involved (to the extent it is attributable to the sales in question) whereas in the past under the existing section 482 he has attempted only to determine the fair market sales price of the goods in question and build up from this to the taxable income—a process much more difficult and requiring more detailed computations than the allocation rule permitted by this bill.

The bill provides, however, that the allocation referred to will not be used where a fair market price for the product can be determined. It also provides that other factors besides those named can be taken into account. In addition, it provides that entirely different allocation rules may be used where this can be worked out to mutual agreement of the Treasury Department and the taxpayer.

B. General explanation of provision

The bill adds a new subsection (b) to the provision of existing law (sec. 482) authorizing an allocation of income between corporations (or other persons) controlled directly or indirectly by the same interests. The new subsection applies only to sales of tangible property within a group where one of the organizations is domestic and another is foreign (however, there may be more than one domestic or more than one foreign organization involved) but only where the organizations are owned or controlled directly or indirectly by the same interests. In such cases the Secretary of the Treasury or his delegate is authorized (but not required) to allocate the income of the group arising from these sales under the allocation rule described below. Nevertheless, this allocation rule is not to apply where the taxpayer can establish an arm's-length price for the goods in question.

Under the general allocation rule provided by the bill the Secretary or his delegate is to allocate the income between the United States organization and the foreign organization on the basis of the proportion of the assets, the compensation of officers and employees and the advertising, selling and sales promotion expenses of the group which on one hand are not attributable to the United States and which on the other hand are attributable to the United States. For this purpose, only those assets, that compensation and those sales, etc., expenses which are attributable to the property so sold or purchased are to be taken into account.

The allocation need not be based upon the above-mentioned factors alone. The provision specifically authorizes the inclusion of other factors such as special risks, if any, of the market in which the product is sold. In addition, if the taxpayer or the Secretary or his delegate can work out some other mutually agreeable method of allocating income, this alternative method is to be used instead of the rule referred to above.

Generally, the value of the assets to be taken into account in the allocation method is to be the adjusted basis of these assets in the hands of the taxpayer. However, in the case of some foreign corporations, a U.S. concept of adjusted basis for assets may be difficult,

if not impossible, to compute. In such cases, their book values may be used, adjusted to the extent feasible to approximate adjusted basis. The assets to be included in this allocation formula are real property and tangible personal property except inventory and stock in trade. In addition, real property and tangible personal property which are rented are to be taken into account for this purpose.

As indicated previously, the allocation method described above is not to apply to any sale where the taxpayer can establish an arm's-length price. An arm's-length price for this purpose can be established under either of two procedures. First, the taxpayer can determine the arm's-length price by establishing the price at which similar or comparable property is sold in the same general marketing areas to unrelated persons either by the taxpayer or by third parties, if the conditions of sale are similar. Second, if the taxpayer cannot determine such a price, nevertheless he may still establish an arm's-length price by taking the price at which similar or comparable property is sold in either the same or other market areas where the marketing conditions or quantities sold may be different. In such cases such a price can be used, but only after adjustment is made for the material differences in area, quantity, or in marketing conditions (including custom duties and transportation costs) and in any other relevant factors. Moreover, these adjustments must be determinable.

The bill provides that the Secretary or his delegate is by regulations to set forth procedures which are similar in principle to those specified above which are to be applied where one of the organizations in the group receives a sales commission, rather than actually receiving title to goods and then selling them. The bill also provides in the case of "sham" or "paper" corporations that no amount is to be allocated to a foreign corporation under this formula if its assets, personnel and office and other facilities outside of the United States are grossly inadequate to provide for its activities outside of the United States.

The bill also provides that the Secretary or his delegate may require the taxpayer to furnish information which may be "reasonably supplied" to the extent this information is needed to apply the allocation rule referred to above which makes use of assets, compensation and selling expenses. Failure to supply this information can lead to the Secretary or his delegate allocating all of the income to the United States.

The bill also provides that where, under the allocation rule set forth in this provision, income is allocated to the domestic corporation which had been subject to foreign income taxes in the hands of the foreign corporation, these foreign taxes, like other expenses related to the income reallocation, are to be attributed to the domestic corporation. Thus, if the domestic corporation is claiming a foreign tax credit, rather than taking a deduction for foreign taxes, a foreign tax credit will be available with respect to this transferred tax as well. However, the income so reallocated for purposes of the overall or per country limit is not to be classified as foreign income.

This provision is to apply with respect to taxable years beginning after December 31, 1962.

VIII. DISTRIBUTIONS OF FOREIGN PERSONAL HOLDING COMPANIES

(Sec. 7 of the bill and secs. 552 and 556 of the code)

A. Reasons for provision

Under present law certain foreign corporations are classified as "foreign personal holding companies" and their income is taxed, on a pro rata basis, to their American shareholders. For a company to be so classified more than 50 percent of its stock must be owned, directly or indirectly, by five or fewer U.S. citizens or residents. In addition, 60 percent, or 50 percent in certain cases, of its gross income must be foreign personal holding company income, that is, must be "passive" types of income, such as dividends, interest, royalties, rents in certain cases, etc.

Elsewhere in this bill (sec. 13) your committee has attributed to U.S. shareholders the passive income of foreign corporations under a much lower income test than the 60 or 50 percent presently applicable to these foreign personal holding companies. In this latter case, where the principal shareholders are likely to be corporations, if from 20 to 80 percent of the gross income of the company is from the specified types of passive income, then the U.S. shareholders are taxed upon their share of this income, or if this passive income exceeds 80 percent of the company's gross income, then the shareholders are taxed on the entire income of the corporation.

In view of the stricter income tests to be made applicable in this latter case, your committee concluded that the foreign personal holding company provisions of present law should be modified to conform.

B. General explanation of provisions

This section makes two modifications in the present foreign personal holding company tax. First, it provides that a company is to be classified as a foreign personal holding company if 20 percent of its gross income is personal holding company income, that is, passive income from dividends, interest, royalties, rents in certain cases, etc. Under present law a corporation initially becomes subject to personal holding company tax only when 60 percent or more of its gross income is derived from the specified types of income. However, once classified as a foreign personal holding company it will remain so if 50 percent or more of its income is derived from these types of income. The 50-percent test will continue to be applied thereafter until there is a year in which the corporation does not have the 50-percent stock-ownership referred to above, or until an elapse of 3 years in which less than 50 percent of its income is from the specified sources. Under the bill the single 20-percent test, applied annually, is to replace this provision.

The second change made in the present foreign personal holding company provisions relates to the definition of "undistributed foreign personal holding company income," namely; the income which on a pro rata basis is attributed to the shareholders. Under present law the undistributed foreign personal holding company income is the entire taxable income with certain modifications (for taxes, charitable contributions, net operating loss deductions, etc.) minus the dividends

paid during the year (and consent dividends). Under your committee's bill this definition of undistributed foreign personal holding company will remain the same in those cases where the specified types of passive income exceed 80 percent of the company's gross income. However, if the foreign personal holding company's passive income represents from 20 to 80 percent of its gross income, then the income to be attributed to the shareholders as undistributed foreign personal holding company income is to be the same proportion of its taxable income (with present law modifications) minus dividends paid (and consent dividends) as its foreign personal holding company income is of its gross income.

These changes are effective with respect to taxable years of the foreign corporations beginning after December 31, 1962.

IX. MUTUAL SAVINGS BANKS, ETC.

(Sec. 8 of bill and secs. 593, 595 and 7701(a) of code)

A. *Reasons for provision*

Until 1952 mutual savings banks, domestic building and loan associations and certain cooperative banks (hereinafter referred to as mutual savings institutions) were exempt from Federal income tax. This exemption had initially been based upon the premise that the members' money in the case of these institutions was being used for loans to members, or that the institutions were in effect doing business with themselves and that since the earnings of the institutions belonged to the depositors rather than to it, there could be no profit on which to impose an income tax.

In 1951, however, Congress repealed the exemption of these mutual savings institutions and subjected them to the regular corporate income tax. At the same time, however, these institutions were allowed a special deduction for additions to bad-debt reserves which proved to be so large that they have remained virtually tax exempt since 1951. The 1951 legislation provided that additions could be made to a reserve for bad debts in whatever amount the institution deemed appropriate so long as (1) the amount set aside each year did not exceed the income returned by the institution for the year, or (2) its total reserves and surplus did not exceed 12 percent of its deposits or withdrawable accounts at the close of the year.

The President in his tax message of April 20, 1961, observed that—

Some of the most important types of private savings and lending institutions in the country are accorded tax deductible reserve provisions which substantially reduce or eliminate their Federal tax liability.

He further stated that—

These provisions should be reviewed with the aim of insuring nondiscriminatory treatment.

Subsequently, the Treasury Department in its report of July 1, 1961, stated that—

This special bad-debt reserve provision has kept these institutions virtually tax exempt because they may accumulate \$12 tax free for each \$100 of new deposits. During

1960, these institutions had assets of about \$110 billion and they retained on a tax-deductible basis, current earnings of over \$750 million. For 1958, * * * these institutions paid total Federal income taxes of \$8.8 million.

Your committee has reviewed the tax treatment of the mutual savings institutions. It has concluded that the present bad-debt reserve provisions are unduly generous and that they require revision. Accordingly, your committee's bill amends the special bad-debt reserve provisions of existing law which are applicable to these institutions to provide what it believes will be an assurance that significant tax will be paid in most cases on the retained earnings of these institutions. The bill provides reserves consistent with the proper protection of the institution and its policyholders in the light of the peculiar risks of long-term lending on residential real estate which is the principal function of these institutions.

Under the bill, mutual savings institutions will be permitted to add to reserves for bad debts each year whichever of the following amounts is the greatest:

- (1) 60 percent of taxable income¹ for the year computed before a bad-debt deduction,
- (2) an amount sufficient to bring the balance of the reserve for losses on qualifying real property loans to 3 percent of such loans outstanding at the close of the taxable year, plus an amount sufficient to bring the balance of the reserve for losses on other loans to a reasonable amount, or
- (3) if an institution demonstrates a need for a reserve greater than is permissible under (1) or (2), an amount sufficient to bring the overall balance of its reserves to a "reasonable" amount.

Most of these institutions can be expected to use the 60-percent alternative in making additions to their bad-debt reserves. Those who use this method of necessity will be paying tax if they have any taxable income before this deduction. The 3-percent alternative will be primarily beneficial to new or rapidly expanding institutions. These additions to bad-debt reserves provided by the bill should be sufficient to enable these mutual savings institutions to provide adequate returns to depositors and at the same time continue to provide a steady supply of capital to homebuyers of the Nation.

The bill also provides rules governing the tax treatment of mortgage foreclosures by mutual savings institutions. Other important changes include the establishment of a priority for distributions to stockholders in the case of stock savings and loan associations and a change in the definition of "domestic building and loan association." Your committee's bill also repeals the exemptions provided federally chartered savings and loan institutions in the case of the excise taxes on communications and on the transportation of persons.

B. General explanation of provision --

1. Additions to reserves for losses on loans.—In the case of mutual savings institutions the bill provides new rules for calculating the deduction allowable for additions to bad-debt reserves, or reserves for losses on loans as they are referred to in the bill. Beginning in 1963, these institutions will maintain two accounts to which additions will

¹ For this purpose, taxable income does not include certain amounts required to be charged to reserves by stock companies.

be made in the future with respect to reserves for bad debts.² One of the two accounts is a reserve for "losses on qualifying real property loans," the additions to which can be determined by the taxpayer under rules set forth in the bill. The other is a reserve for "losses on nonqualifying loans."

Additions to this latter account are required to be "reasonable additions" which means that as in the case of other taxpayers these additions to these reserves will be determined upon the basis of the past experience and other appropriate factors.

In the case of the reserve for losses on qualifying real property loans, the addition to be made each year to this reserve is to be determined by the taxpayer but may not exceed whichever of the following is the largest:

(a) 60 percent of the institution's taxable income for the year computed before this deduction.

(b) the amount necessary to increase the balance in the reserve for losses on qualifying real property loans to 3 percent of such loans outstanding at the close of the taxable year plus a reasonable addition to the reserve for losses on nonqualifying loans;

(c) if the institution demonstrates the need for greater reserves than are permitted under (a) or (b) above, an amount which would be permitted to be added to a reserve for bad debts without regard to the special provision for mutual savings institutions.

Your committee's bill does not impose any overall ceiling on the amount which may be accumulated by a mutual savings institution with respect to its reserve for losses on qualifying real property loans. However, your committee intends from time to time to review the status of this reserve to be sure that the balances maintained in these reserves remain reasonable in light of the overall requirements of the mutual savings institutions.

When losses on loans are realized they will be charged to the appropriate account within the general reserve for bad debts. That is, losses on loans with respect to qualifying real property will be charged to the reserve for such loans and losses on nonqualifying loans will be charged to the reserve for losses on such loans.³

The reserves which are required by the bill to be established—that is, the reserve for losses on qualifying real property loans, the reserve for losses on nonqualifying loans, and the supplemental reserve for losses on loans—are required to be treated as bad debt reserves for all tax purposes (except that no deduction is allowed for any addition to the supplemental reserve). Thus, although these reserves are termed reserves for "loans," they are reserves for bad debts; and any charge to any such reserve for an item other than a bad debt will result in the inclusion in gross income of an amount equal to such charge.

For purposes of determining annual additions to the reserve for losses on qualifying real property loans, mutual savings institutions are to take into account all loans secured by improved real property (whether such loans are insured or uninsured) except Government bonds, certain corporate obligations and certain loans between banks

² They may also have a supplemental reserve which will represent certain reserves built up in the period from 1952 through 1962. This supplemental reserve is explained below.

³ At the election of the taxpayer, losses on any loan instead of being charged to the reserve referred to above may be charged in whole or in part to the supplemental reserve for losses on loans referred to below.

and related parties. Under this provision, both federally insured FHA and guaranteed VA home loans, as well as conventional loans, may be taken into account in determining the amount of additions to the reserve for losses on qualifying real property loans. Loans on improved real property are intended for this purpose to include loans obtained for the construction of improvements on real property, even though at the time the loan is made no improvements may exist on the property.

The following examples illustrate the operation of the alternative choices for additions to reserves for bad debts:

Example 1: At the close of year 10, X building association has improved real property loans outstanding of \$2,000 and nonqualified loans of \$200. Its taxable income before any addition to a reserve for bad debts is \$50. The balance in its reserve for losses on improved real property loans is \$51 and the balance in its reserve for losses on nonqualifying loans is \$1. (Its experience indicates the need for a reserve for losses on nonqualifying loans of 1 percent of such loans, and a reserve for losses on improved real property loans of 2.5 percent of such loans.)

For this year X building association would be permitted to add to its reserves \$30 (60 percent times \$50). (Under the 3-percent method only \$10 could have been added.) Of this amount \$1 would be added to the reserve for losses on nonqualifying loans (making the balance in that account \$2) and \$29 would be added to the reserve for losses on improved real property loans (making the balance in that account \$80). Taxable income for this year would then be \$20.

Example 2: Assume the same facts, except that taxable income before any addition to reserve for bad debts is \$15. X building association would be permitted to add to its reserves \$10. This is the amount necessary to bring the balance of the reserve for losses on nonqualifying loans to \$2 (1 percent times \$200) plus the amount necessary to bring the balance of the reserve for losses on improved real property loans to \$60 (3 percent times \$2,000). (Under the 60-percent method the addition would have been only \$9.) Taxable income would then be \$5 (\$15 minus \$10).

2. Treatment of pre-1963 reserves.—At the present time bad-debt reserves etc. of mutual savings banks are about 10 percent of their deposits, while similar reserves of domestic building and loan associations average about 8 percent of deposits. This means that existing reserves of these mutual savings institutions in most cases will exceed 3 percent of improved real property loans, plus a reasonable reserve for other loans.

The bill makes special provision for the treatment of existing bad-debt reserves of mutual savings institutions. If the entire amount of such reserves (called "pre-1963 reserves" in the bill) were required to be allocated to the reserve for losses on qualifying real property loans and to the reserve for losses on nonqualifying loans, the balances of those reserves would in many cases be so large that many mutual savings institutions would be denied a deduction for additions to bad-debt reserves for many years. In order to mitigate this effect, your committee's bill provides that only a portion of such pre-1963 reserves is to be allocated to the reserve for losses on qualifying real

property loans and to the reserve for losses on nonqualifying loans under the following rules:

(a) First there is credited to the reserve for nonqualifying loans whatever portion of these pre-1963 reserves is necessary to bring the balance of this reserve to an amount which would be reasonable on the basis of nonqualifying loans outstanding as of December 31, 1962;

(b) next there is credited to the reserve for losses on qualifying real property loans whatever remaining portion of the pre-1963 reserves is necessary to bring the balance of this reserve up to 3 percent of loans on improved real property outstanding as of December 31, 1962, or to a greater amount if the experience of the institution as of December 31, 1962, indicates a need for a greater reserve; and

(c) finally, any remaining pre-1963 reserves are credited to the supplemental reserve for losses on loans.

Amounts credited to the supplemental reserve for losses on loans can be used only to offset losses on loans (if the institution chooses to charge losses to this reserve). Any other use of this reserve will result in the imposition of income tax.

3. *Distributions to shareholders.*—Some of the savings and loan associations to which this provision is applicable have shares of stock outstanding. Your committee desires to insure that in such cases no amounts are paid to these stockholders until full income tax had been paid with respect to the profits which are distributed to such stockholders; and that the earned surplus which is accumulated under the reserve provisions of the bill should be for the protection of depositors. Therefore, the bill provides that in the case of distributions to the stockholders, the amounts are to be considered as paid out of the following funds of the institution:

(a) first out of the reserve for losses on qualifying real property loans (but only to the extent the balance in such reserve exceeds the amount which would have been allowed the institution in the absence of this special bad-debt provision);

(b) next out of the supplemental reserve for losses on loans;

(c) then out of earnings and profits accumulated in taxable years beginning after December 31, 1951; and

(d) finally, out of other amounts.

Before distributions can be made out of either the reserve for losses on qualifying real property loans or out of the supplemental reserve, income tax must be paid with respect to the amount required to be charged by the stock institution. The amount required to be charged to these reserves and included in income is the amount of the distribution to the stockholder "grossed-up" by the appropriate amount of tax. Only after these reserves (modified as indicated) are exhausted, can distributions be made out of amounts which have already been tax paid. These special rules will insure that the current profit which is allocated to stockholders will pay a regular corporate income tax.

4. *Foreclosures on property securing loans.*—Your committee's bill also adds a new provision to the code containing rules to govern the tax consequences of mortgage foreclosures (or other similar proceedings) in which mutual savings institutions take over property which was security for its loan. Under existing law the foreclosure event is considered a taxable transaction. This has been interpreted to mean

that a bad-debt (or loss) deduction may or may not arise at that time depending upon the bid price for the property. In many instances foreclosed property is bid in for the amount of the loan still outstanding. In such a case present law may not permit a bad-debt deduction to be taken. When the property is subsequently sold by the mutual savings institution, it may simultaneously realize a deductible bad-debt loss and a taxable capital gain.

The bill seeks to avoid these erratic results by providing that in the future a foreclosure is not to be treated as a taxable event, and that amounts received by the mutual savings institution subsequent to the foreclosure are to be treated as payments on the indebtedness. This would be accomplished under the bill by treating the property received in a foreclosure (or other proceeding) as having the same characteristics as the debt for which it was security. Thus, for bad-debt (or loss) purposes the act of foreclosure will not create a taxable occasion; however, if the property has depreciated in value, the decline may be charged against the bad debt reserve as a partially worthless debt. If it continues to decline in value, additional charges may be made against the reserve. When the property is subsequently sold or disposed of, any amount realized is to be treated as ordinary income or loss and is to be charged, or credited, as the case may be, against the primary reserve. Because the foreclosed property is to have the same characteristics as the indebtedness, where property is rented by the mutual thrift institution after foreclosure, no depreciation deduction is to be permitted. However, as explained above, if the property actually depreciates in worth (as contrasted to a mere decline in book value), a charge may be made against the reserves.

5. Definition of domestic building and loan association.—Under present law a domestic building and loan association is defined as a—

domestic building and loan association, a domestic savings and loan association, and a Federal savings and loan association, substantially all of the business of which is confined to making loans to members.

Problems have arisen with this definition because loans in many cases now are in substance not loans made to members. It is understood that technical conformance has been maintained with the membership requirement of present law by making borrowers of funds members of the institutions. However, questions have arisen as to the substance of such provisions.

As a result, your committee has concluded that the definition of a domestic building and loan association, eligible for the tax treatment described above, should be brought more nearly into conformance with actual practice. At the same time it was deemed desirable to restrict this tax treatment to those primarily engaged in making residential real estate loans and omitting from the definition cases such as those where these institutions have been used for speculative purposes.

In view of these considerations, your committee has redefined a domestic building and loan association to mean a building or savings and loan association which is an insured institution within the meaning of section 401(a) of the National Housing Act or one which is subject by law to supervision and examination by State or Federal authority having supervision over such associations. In addition, however,

the bill provides that an institution in either of these groups qualifies only if substantially all of its business consists of accepting savings and investing the proceeds in—

(a) loans secured by an interest in residential real property (or property which after application of the loan is to become such property), and

(b) other loans to the extent they would be authorized to be made by a Federal savings and loan association under the second paragraph of section 5(c) of the Home Owners' Loan Act.

The types of loans referred to in the second paragraph of section 5(c) of the Home Owners' Loan Act include home-improvement loans whether or not secured by real property.

6. *Repeal of certain excise tax exemptions.*—Under present law, Federal savings and loan associations are exempt from the excise taxes on communications and the excise tax on transportation of persons. These exemptions were granted by the Home Owners' Loan Act of 1933. No other mutual savings institution is entitled to exemption from these taxes. Your committee believes that the continuation of these exemptions is no longer desirable. Accordingly, the bill repeals these exemptions effective as of June 30, 1962.

7. *Effective date.*—The new rules provided by the bill for additions to reserves for bad debts are to apply to taxable years ending after December 31, 1962. However, the bill provides a special rule to deal with fiscal years where a taxpayer has a year which begins in 1962 and ends in 1963. The effect of this special rule is to continue the rules under existing law up to the end of December 1962, and to apply the new rules as of January 1, 1963.

The tax treatment provided for property acquired in mortgage foreclosure proceedings is to apply to transactions occurring after December 31, 1962, in taxable years ending after that date. The repeal of the exemptions from excise taxes on communications and on transportation of persons is made effective as of June 30, 1962.

X. DISTRIBUTIONS BY FOREIGN TRUSTS

(Sec. 9 of bill and secs. 643, 665, 666, 668, 669, 6047, 6677 and 7701 of code)

A. *Reasons for provision*

The Secretary of the Treasury in his appearance last year before your committee called attention to the manner in which some individuals establishing foreign accumulation trusts are avoiding U.S. tax. The avoidance device involves the setting up of a trust for the benefit of U.S. beneficiaries by a U.S. grantor or settlor in a foreign country where such trusts are subject to little or no taxation. U.S. tax on the trust income is avoided in such cases if the trust property consists of foreign securities which result in foreign source income not subject to taxation by the United States. The trust income is then accumulated tax-free in the trust (except for foreign tax, if any) for any number of years, and then the trust is finally terminated with the corpus and income being paid to U.S. citizens or residents. In such cases the trust income may be subject to a small tax or no tax at all in the hands of the U.S. beneficiaries, depending upon the circumstances.

Under present law, domestic trusts accumulating income are taxable on such income currently at the same rates applicable to individuals. When the accumulated income is distributed to beneficiaries, the distribution may then be taxable to the beneficiaries to the extent it represents income accumulated during the 5 immediately preceding years. Although the tax is payable currently in such cases, it is computed as if the beneficiary received a distribution of this income in each of these prior years in which the income was earned, with a credit being allowed for the taxes paid by the trust with respect to this income.

This rule, known as the "5-year throwback rule" presently may apply when a foreign trust makes distributions to U.S. beneficiaries. In any case, however, it does not apply to any income accumulated for more than 5 years. In addition, there are a number of exceptions making distributions nontaxable to the beneficiaries even where they are attributable to the 5 immediately preceding years. For example, the 5-year throwback rule does not apply to accumulations to be distributed to a beneficiary upon reaching age 21; to a beneficiary to meet emergency needs; to a beneficiary upon reaching a specified age if not more than four such distributions can be made or the distributions are at least 4 years apart; and to a beneficiary where a trust terminates and makes a final distribution which occurs more than 9 years after the date of the last transfer to the trust. As a result of these exceptions, and the 5-year limitation, it is relatively easy for U.S. grantors or settlors to establish foreign trusts which pay little or no tax on trust income and which upon termination make distributions to American beneficiaries who pay little or no U.S. tax.

In the last Congress, a bill (H.R. 9662) which was passed by the House, but on which action was not completed by the Senate, contained an amendment added by the Senate Finance Committee designed to discourage the creation of foreign trusts for the purpose of avoiding U.S. tax. In addition, the Secretary of the Treasury in his testimony before your committee last year recommended that with respect to existing trusts the law be modified so that distributions to a U.S. beneficiary from a foreign trust would be subject to tax in the year of distribution in an amount equal to the tax which would have been imposed had the income been distributed currently. As indicated by the Secretary in his testimony, this is in effect an extension of the existing 5-year throwback rule.

In view of the existing avoidance possibilities with respect to these foreign trusts, your committee's bill, as recommended by the Secretary of the Treasury, taxes American beneficiaries of foreign trusts created by U.S. grantors, settlors or transferors in substantially the same manner as if the income had been distributed to the beneficiary currently as earned (although a "shortcut" method of computation may be elected by the taxpayer in place of this more "exact" method). This provision is not viewed by your committee as imposing a penalty but rather as a method for treating U.S. beneficiaries of foreign accumulation trusts created by, or added to, by Americans in substantially the same tax status as the beneficiaries of domestic trusts distributing their income currently.

B. General explanation of provision

The new provision applies to foreign trusts to which money or property has been transferred, directly or indirectly, by U.S. persons or under the will of a decedent who was a U.S. citizen or resident. A foreign trust for this purpose is one the income of which from sources without the United States is not includible in gross income for U.S. tax purposes. U.S. persons as used here include U.S. citizens or residents, domestic partnerships and corporations, and estates and trusts.

In the case of these foreign trusts, any of their accumulated income, other than income distributable currently, upon distribution to a U.S. citizen or resident is to be taxed to him. The amounts distributed to the U.S. beneficiary are treated as if they had been distributed in the preceding years in which income was accumulated, but are includible in income of the beneficiary for the current year. However, under the bill the tax on such amounts may be computed, at the election of the beneficiary, in either of two ways. One method, referred to here as the "exact" method, is substantially the same as the method provided under present law in the case of distributions subject to the "5-year throwback rule." In addition, however, the bill provides a "shortcut" method which the beneficiary may elect if he does not desire to go through the more extensive computations required by the exact method.

Under the exact method of computation, the tax on the amounts distributed cannot exceed the aggregate of the taxes that would have been payable if the distributions had actually been made in the prior years. This method requires complete trust and beneficiary records for all past years, so that the distributable net income of the trust can be determined for each year, as well as the years in which trust income was accumulated. The beneficiary's own tax then is recomputed for these years, including in his income the appropriate amount of trust income for each of the years (including his share of any tax paid by the trust). Against the additional tax computed in this manner the beneficiary is allowed a credit for his share of the taxes paid by the trust, including a foreign tax credit for income taxes paid foreign countries. Any remaining tax then is due and payable as a part of the tax for the current year in which the distribution was received.

The so-called short-cut method in effect averages the tax attributable to the distribution over a number of years, equal to the number in which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiary's income for the current year and each of the 2 prior years.¹ The fraction of the income included in each of these years is the same as the number of years in which the income was accumulated by the trust. Thus if the accumulated income is attributable to 10 different years (although the trust may have been in existence over longer than a 10-year period, however), then one-tenth of the amount distributed would be included in the income of the current year and one-tenth in each of the 2 prior years. The additional tax is then computed with respect to these 3 years and the average additional tax for the 3 years deter-

¹ The 2 prior years are included for this purpose only to prevent the current year, in which there may be special circumstances, from having too great an influence on the averaging device used.

mined. This average is then multiplied by the number of years to which the trust income relates, namely, 10 in the example used here. The tax so computed may be offset by a foreign tax credit for any foreign taxes paid by the trust and any remaining tax liability is due and payable in the same year as the tax on the beneficiary's other income in the year of the distribution.

The bill provides certain exceptions from the two computation methods outlined above. First, if short-cut method is used and the number of trust years to which the income relates is less than three, then the average is determined on the basis of any smaller number of years to which the distribution actually related. Second, if the beneficiary was not yet born, with respect to a year to which part of the trust income which is distributed relates, the so-called exact method of computation is not to be used. Similarly, where the beneficiary was not yet alive for the full 3-year period in which the shortcut averaging device is applied, then this averaging device is to be computed on the basis of the shorter period in which the beneficiary was in existence. Third, the bill specifies how prior distributions from foreign trusts to the beneficiary are to be treated in making these computations. Where a taxpayer with respect to an earlier distribution has used the shortcut method and subsequently uses the exact method for another distribution, he is to include in his income for purposes of this exact computation, any income received from the trust in the earlier distribution must be included in his income for any year to which the second distribution relates, to the extent attributable to the years in question. However, where in the current distribution the taxpayer is using the so-called "shortcut" method, he is not required to take into account prior distributions from a foreign trust, whether the exact or shortcut method of taxation was used in the prior computations.

As under present law, the methods of tax computation outlined above are substitutes for including and taxing the entire amount of the distribution in the year actually received. To take advantage of either method the beneficiary at the time of making the election must supply such information with respect to the operation and accounts of the trust for each of the years in which an amount is considered distributed as the Secretary or his delegate may by regulation prescribe. This information is necessary in order to give assurance that the computation is made correctly.

So that the Internal Revenue Service will be aware of the existence of foreign trusts created by American grantors, settlors or transferors, the bill provides that the grantor of an inter vivos trust or the fiduciary of an estate in the case of a testamentary trust, or the transferor is to make a return within 90 days after the creation of the foreign trust or the transfer of money or property to it by an American person, setting forth such information with respect to the foreign trust as the Secretary or his delegate prescribes by regulation as necessary to carry out the provisions of the income tax laws. Failure to supply the information, unless it can be shown that this failure is due to reasonable cause, under the bill is to result in a civil penalty (in addition to any criminal penalty presently provided by law) equal to 5 percent of the amount transferred to the trust but not to exceed \$1,000. A similar penalty applies with respect to a return which does not show the information required, even though the return itself is filed.

Generally, these provisions relating to foreign trusts are to apply to distributions made in taxable years of the trust beginning after the date of enactment of this bill. The provisions relating to returns with respect to the creation of, or transfers to, a foreign trust, the civil penalties relating to these returns, and the definitions of U.S. persons and foreign estates and trusts added to the bill, are to be effective on the date of enactment of the bill.

XI. MUTUAL FIRE AND CASUALTY INSURANCE COMPANIES, ETC.

(Sec. 10 of the bill and secs. 821-825, 831, and 832 of code)

A. Reasons for provision

Stock fire and casualty insurance companies have long been taxed at ordinary corporate income tax rates on both investment income and underwriting income. Mutual fire and casualty insurance companies, on the other hand, since 1941 have paid tax under special formulas which do not take into account their underwriting income or loss. Generally, these mutual companies presently are taxed under whichever of two formulas results in the higher tax. Under one formula, they are taxed at ordinary corporate income tax rates on investment income only. Under the other, they pay a tax of 1 percent on their gross investment income plus their premium income after policyholder dividends. Reciprocal underwriters and interinsurers are taxed only on their investment income and they have a vanishing \$50,000 exemption. Mutual companies with total receipts of not more than \$75,000 are tax exempt.

The President recommended that stock and mutual fire and casualty insurance companies be taxed on the same basis. He proposed that mutual companies pay tax on their underwriting profits, as well as on their investment income, substantially in the same manner as stock companies.

Your committee's bill to a considerable degree achieves the result sought by the President. Under it, mutual fire and casualty insurance companies are taxed under a modified total income formula. The modifications are required because of the special circumstances of the mutual companies.

While a stock insurance company can pay extraordinary losses not only out of its accumulated profits but out of its paid-in capital, a mutual insurance company can pay extraordinary losses only out of retained underwriting income. As a result, a mutual ordinarily retains a portion of its underwriting income each year for this purpose; the remainder is paid to its policyholders as policy dividends. This accumulated underwriting income constitutes its reserve out of which insurance losses can be paid, and the existence of such reserves is an important protection to the mutual policyholders.

Under the law up to this time, no income taxes have been paid on this retained underwriting income, except (since 1941) to the extent the excess of the alternative 1-percent tax over the tax on investment income in effect taxed part (all, or more than all) of the underwriting income. Similarly underwriting losses may not reduce the tax on investment income. Under the President's proposal, underwriting gains would have been fully taxed as realized. Under the provisions

of your committee's bill, however, these mutual fire and casualty companies will be permitted to set aside a portion of each year's underwriting gain in a special account for protection against losses. This amount will be available to meet certain losses for 5 years, after which, most of any remaining portion will be included in taxable income of the sixth year. A small portion, however, will still be retained in the special account to take care of extraordinary losses. Eventually, these companies will pay tax on their total income, but the tax deferral formula of the bill gives recognition to the mutuals' lack of access to the capital market for funds with which to pay losses. Under the committee bill underwriting losses, in excess of gains, will reduce the tax on investment income.

Under the provisions of your committee's bill mutual companies which have substantial underwriting gains will pay larger taxes than under present law. However, the full impact of taxing their underwriting income will be delayed until 1968. Thus, for a 5-year period only a portion of underwriting income of the mutual fire and casualty industry will be exposed to the Federal income tax. Thereafter, most of the amounts in the account which are not used for the payment of losses within 5 years will be taxed, but this will be offset—or more than offset if the company is growing and its underwriting income is increasing—by the portion of the income of the sixth and subsequent years which is set aside in the protection against loss account.

On the other hand, mutual fire and casualty companies having underwriting losses will, for the first time, be permitted to deduct these losses in full. For such companies the tax under your committee's provisions will be less than under present law which taxes the investment income of a mutual company at full corporate rates even though there is an underwriting loss. On the other hand, a stock company is taxed only on the net amount after deducting an underwriting loss against investment income. Your committee believes that this inequality of treatment should not continue. Under this bill an underwriting loss would be offset against the protection against loss account (or investment income), and any loss not so absorbed would be carried back (though not to a year before 1963) or carried forward, as in the case of corporations generally.

Some mutual insurance companies specialize in insurance against limited risks such as windstorm, hail, or flood, in relatively small geographical areas. Because their operations cover a small area, few storms or floods may occur in some years and the company will then have relatively large underwriting gains; in other years, storms may cause heavy damage in the area of operations and the company will have relatively large underwriting losses. To compensate for this uneven experience your committee's bill permits these concentrated risk companies to defer, in the protection against loss account, a greater proportion of underwriting income than is permitted for ordinary companies. This is to protect them against unusually large losses if, and when, such losses occur.

Your committee's bill does not affect the tax status of very small mutual companies; that is, companies whose total receipts from all sources do not exceed \$75,000. Such companies will continue to be exempt from Federal income tax. Companies with total receipts between \$75,000 and \$300,000 also will be treated much as they are

under existing law; i.e., these companies will pay tax on their investment income only (however, the alternative 1-percent tax of present law will no longer apply). Your committee believes this treatment is justified because these small companies often are of the assessment type and are not required to compute and report their underwriting income on approved forms for State insurance commission purposes. Your committee's bill makes it unnecessary for them to compute their underwriting income in the future. Small companies with total receipts between \$300,000 and \$900,000 will be taxed both on their investment income and on their underwriting income. However, to provide for a gradual transition to the new tax on their underwriting income, the bill provides a special deduction of \$6,000 which decreases as total receipts of the company increase above \$300,000. This means that at \$900,000 there is no special deduction.

Reciprocal underwriters and interinsurers differ from ordinary mutual insurance companies in that their business is conducted by two entities rather than one. An ordinary mutual insurance company receives all of the premium income from insurance and not only pays losses but conducts directly the operation and management of the insurance activities. The reciprocal underwriter or interinsurer, on the other hand, pays its insurance losses, but an "attorney-in-fact" performs all, or most, of the insurance functions—writing policies, collecting premiums, settling claims, keeping records, etc.—and pays the related expenses, for a portion of the premium income of the reciprocal. Profits realized by the attorney-in-fact from conducting these insurance operations are taxed as ordinary income. However, if that income were earned by a mutual insurance company which performed these operations itself, under existing law it would constitute underwriting income and would not be taxed. Moreover, under present law reciprocal underwriters and interinsurers are not taxed in the same way as ordinary mutuals since they are not subject to the alternative 1-percent tax and have a special exemption. Your committee's bill taxes reciprocal and interinsurers under the same rules that apply to ordinary mutuals; but in recognition of their unique form of operation it permits them in effect to combine the underwriting income of the attorney-in-fact with their own for certain purposes.

Under present law, factory mutual insurance companies are taxed under the same formulas as other mutuals, that is, they pay tax on investment income only (with no deduction for underwriting losses) or under the alternative 1-percent formula. However, because of the very large premium deposits required of their policyholders (typically up to 10 times the amount of an ordinary premium) the investment income of such companies is very large. As a result in practice they never become subject to the alternative 1-percent tax. As in the case of other mutuals, these companies are not permitted to deduct their underwriting losses. This has been a handicap to these companies in years in which they have losses, because the industrial risks which they insure generally are quite large. Your committee's bill taxes factory mutual companies as if they were stock companies, thus permitting them to deduct underwriting losses when they occur. However, since a large portion of each premium is in effect a deposit (which may be returned to the policyholder), in computing their underwriting

profits these companies are to be permitted to determine their premium income on the basis of their schedules of absorbed premium deposits. The amount so determined will be increased by 2 percent for income tax purposes to offset the advantage of the temporary use of deposits which would ordinarily be viewed as premiums received.

B. General explanation of provision

Under present law the tax on a mutual fire and casualty insurance company is, in general, the greater of (1) a tax at the ordinary corporation rates on the company's net income from investments, or (2) a tax of 1 percent of its gross income from both investments and premiums less dividends to policyholders. Under the new provisions the 1-percent alternative tax is eliminated, and the tax is computed at the ordinary corporation rates on the company's total income (investment income and underwriting income) less amounts temporarily set aside in a protection against loss account. Underwriting income of these insurance companies is the excess of premiums received over insurance losses and expenses incurred and dividends paid to policyholders.

There are special provisions for companies with concentrated risks, for small companies, and for reciprocals or interinsurers. Your committee's bill also removes the factory mutuals from the treatment accorded mutual casualty companies generally, and treats them as if they were stock companies, with special provisions for determining what portion of their premium deposits is to be viewed as earned premiums.

1. Ordinary mutual fire and casualty insurance companies.—Under the bill taxable income of mutual insurance companies will consist of taxable investment income, statutory underwriting income, and, certain amounts previously set aside for protection against losses. Statutory underwriting income as used in the bill is underwriting income after a special deduction for protection against losses of an amount equal to 1 percent of insurance losses incurred during the year and 25 percent of the ordinary underwriting income.

An amount equal to the special deduction is to be set aside for 5 years in a "protection against loss" account where it can be used only for offsetting losses. At the end of the fifth year, if the amount credited to the protection against loss account has not been absorbed by losses, the portion attributable to the 1 percent of losses and one-half of the portion attributable to the 25 percent of underwriting income will be withdrawn from the account and included in taxable income for that fifth year. The other one-half of the amount representing the 25 percent of underwriting income is retained in the account for a longer period as a cushion against extraordinary losses.

The bill limits the amount which may be accumulated in this account, however. The amount in this account may not be increased above an amount which at the end of any year is more than 10 percent of the earned premiums less dividends to policyholders for that year. If a greater amount were already in the account at the beginning of the year, the account would not be reduced (because of the ceiling) below this amount.

If in any year there is a loss from underwriting loss instead of a gain, the part of the loss resulting from the payment of insurance claims and expenses would be offset directly against taxable investment income. Any amount not so offset and other losses (those resulting from the payment of policyholder dividends or from the special protection against loss deduction) would be charged against the protection against loss account on a first-in, first-out basis. Losses charged against the account would be applied proportionately to amounts representing the 1 percent of losses incurred and the 25 percent of underwriting income.

If in any year there is an extraordinary underwriting loss—more than the investment income for that year and the entire amount in the protection against loss account—the excess will be treated as an ordinary net operating loss, to be carried back against the taxable income of the 3 preceding years or carried forward (first against amounts added to the protection against loss account and then against otherwise taxable income) to the succeeding 5 years, as in the case with any corporation.

In computing their taxable income, mutual companies are to be allowed an unlimited deduction for dividends paid to policyholders.

Under present law mutual insurance companies which are not subject to the 1-percent alternative tax are allowed a special exemption of \$3,000, with the tax on taxable incomes between \$3,000 and \$6,000 gradually increasing until the exemption completely vanishes when taxable income reaches \$6,000. The bill increases this special exemption (applicable to the new total of investment and underwriting income) to \$6,000 in the case of mutual companies taxable under the general rules of the bill. There also is a gradually increasing tax on taxable incomes between \$6,000 and \$12,000, so the exemption vanishes when taxable income reaches \$12,000.

2. *Example.*—The computation of taxable income, statutory underwriting gain and the protection against loss account for a 6-year period with successive underwriting gains, may be illustrated as follows, assuming the simplified facts as shown in the following table:

Year	Taxable investment income	Underwriting income	Insurance losses incurred	Additions to protection against loss account
1963.....	\$10	\$12	\$700	\$7+\$3 (\$10)
1964.....	11	16	800	8+ 4 (12)
1965.....	12	12	600	6+ 3 (9)
1966.....	13	20	600	6+ 5 (11)
1967.....	14	24	900	9+ 6 (15)
1968.....	15	20	1,000	10+ 5 (15)

For 1963 the statutory underwriting income would be \$2, the underwriting income of \$12 minus the 1 percent of incurred losses (\$7) and the 25 percent of the underwriting income (\$3) credited to the protection against loss account. The taxable income would be \$12, the sum of the taxable investment income and the statutory underwriting income. For 1964 the statutory underwriting income would be \$4 and the taxable income \$15; for 1965 corresponding figures would be \$3 and \$15; for 1966, \$9 and \$22; and for 1967, \$9 and \$23.

For 1968 the statutory underwriting income would be \$5 (\$20 minus \$10 minus \$5), but there would be included in taxable income an amount equal to the first item added to the protection against loss account in 1963 (\$7), and half of the second item (\$1.5), so that for 1968 the taxable income would be \$28.5, the sum of the taxable investment income (\$15), the statutory underwriting income (\$5), and the \$8.5 withdrawn from the protection against loss account.

At the end of 1968, therefore, the total amount in the protection against loss account would be \$63.5—amounts added for 1964 and the 4 following years, available to offset losses occurring during the next 5 years, and a residual \$1.5 to offset any loss which exceeded the entire amount in the account other than that.

If, in the preceding example, for 1966 there had been an underwriting loss excluding policy dividends and the protection against loss deduction of \$11, a loss after dividends of \$30, and insurance losses incurred had still been \$600 the deduction added to the protection against loss account would thus have been 1 percent of \$600 or \$6 and the statutory underwriting loss would be \$36. In that case the portion of the loss not resulting from policy dividends and the protection against loss deduction (\$11) would be offset against the taxable investment income of \$13, the taxable income for 1966 thus being \$2. The remaining portion of the loss (\$25) would be charged against the protection against loss account, the \$10 added to that account in 1963 and the \$12 added in 1964 being eliminated, and of the 1965 addition there would remain \$4 and \$2. In that case there would be nothing from the protection against loss account to be included in taxable income for 1968 or 1969.

3. *Casualty companies with concentrated windstorm, etc., risks.*—As stated above, most mutual insurance companies will report and pay a tax currently on the underwriting income remaining after transferring to the protection against loss account 25 percent of underwriting income plus 1 percent of incurred losses. With respect to certain insurance companies whose risks from losses from windstorm, hail, flood, earthquake, or similar hazard, are concentrated in one State, however, your committee's bill permits deferral of more than 25 percent of underwriting income. The percentage of underwriting income which can be credited to the account in their case is determined by dividing the premiums earned on insurance contracts attributable to one State (relating to losses from windstorm, hail, flood, earthquake, or similar hazard) by total premiums earned by the insurance company. If this does not exceed 50 percent, the regular rule is used. If it does, the normal deduction of 25 percent of underwriting income is increased by the excess of that percentage over 50 percent. Thus, under this rule, a company which has 90 percent of its windstorm, etc. risks insured in one State would be permitted to transfer 65 percent (the regular 25 percent plus 40 percent) of its underwriting income to the protection against loss account. However, concentration of risks in one State will not serve to permit a larger percentage of incurred losses to be credited to the protection against loss account.

The overall limitation on the protection against loss account of 10 percent of premiums less policy dividends for the year is not to apply to the amount of underwriting income in excess of 25 percent which these concentrated risk companies add to their protection against loss account. If it did apply it would defeat the objective of allowing a

greater portion of underwriting income to be set aside. In applying the ceiling and also in determining the amount which is to be retained in the account after 5 years, the concentrated risk company is to be treated as if it had transferred only 25 percent of its underwriting income to the account.

4. *Small companies.*—Under the bill, small mutual fire and casualty insurance companies (those whose total receipts—gross investment income, excluding capital gains, plus premiums—exceed \$75,000 but do not exceed \$300,000) are not taxed on underwriting income. As under present law, these companies will continue to pay tax on investment income only (with no deduction for underwriting losses) but the alternative 1-percent tax will no longer apply. The special exemption of \$3,000, with the “notch” rates applying to taxable incomes between \$3,000 and \$6,000, also will continue in effect.

Despite the general rule described above, the bill permits these small companies to elect to be taxed on total income, including underwriting income, in the same manner as other mutual companies, and such an electing company will similarly be allowed to deduct underwriting losses. Presumably the existence, or expectation, of underwriting losses would be the primary reason for making this election. The election, once made, cannot be changed without the consent of the Treasury Department. On the other hand, a small mutual company which becomes taxable under the general rules because its gross investment income plus premiums exceed \$300,000 in a taxable year, again will be taxed as a small company if its income falls below this level, if one condition is met. If while it was taxed under the regular formula it was required to credit a portion of its underwriting income to the protection against loss account, this amount must be taken into income and a tax paid on it before the small company treatment will again apply. To provide consistent tax treatment for these small companies, the bill does not permit loss carrybacks or carryovers to be carried to, from or over a year in which the company was taxable as a small company.

In the case of mutual fire or casualty insurance companies whose total receipts are between \$300,000 and \$900,000, your committee's bill provides a special vanishing deduction which is to apply to underwriting income only. For a company whose total receipts are just above \$300,000, the special deduction will be almost \$6,000. As total receipts increase, the \$6,000 deduction decreases and finally vanishes when total receipts of the company equal \$900,000.

5. *Reciprocal underwriters and interinsurers.*—Under your committee's bill, reciprocal underwriters and interinsurers are in general taxed in the same way as ordinary mutuals, with two important exceptions.

First, reciprocal underwriters and interinsurers may elect to take into account the income of the attorney-in-fact which is attributable to the insurance business of the reciprocal. It accomplishes this by not deducting that part of the fee paid to the attorney-in-fact which is equivalent to the attorney-in-fact's profit from the insurance operation. This election may be made, however, only if the attorney-in-fact is a corporation which keeps its records on the same basis as the reciprocal and certain other requirements are met.

An election by a reciprocal is never to reduce income taxes of the attorney-in-fact. The attorney-in-fact will continue to determine

its tax just as it does under present law except that it must identify income and expense items attributable to the insurance business of the reciprocal.

An electing reciprocal will compute its tax liability on the combined income by applying the formula of this bill to the combined underwriting income, except that 25 percent of underwriting income transferred to the protection against loss account is to be measured by the underwriting income of the exchange only. As an offset to the increased tax due to the inclusion of the income of the attorney-in-fact, the reciprocal may take tax credit for the tax paid by the attorney-in-fact to the extent relating to its income from insurance operations. (Under certain circumstances this may result in a refund to the reciprocal.)

If the combined underwriting account of the reciprocal and its attorney-in-fact shows a loss the ordinary rules of the bill for changing it are to apply. Thus, the loss would be charged first to investment income if it is from the payment of claims or expenses, or to the loss protective account of the reciprocal if it is a loss created by payment of dividends or by the special loss protection deduction.

The inclusion by the reciprocal of the insurance income of the attorney-in-fact can benefit the reciprocal in those cases where the deduction for 1 percent of insurance losses would otherwise exceed the underwriting income, by permitting a larger deferral of tax than would otherwise occur.

The second special feature of the bill relating to reciprocal underwriters or interinsurers permits them to deduct savings credited to individual subscribers' accounts (in the same manner as policyholder dividends paid in cash) if the company would be obligated to pay those amounts promptly to the subscriber if he terminates his contract. This is provided because the "pure," or "classical," reciprocal or interinsurer typically credits the account of each policyholder with savings attributable to his contract and because the policyholder has a legal right to receive the amount so credited if he withdraws from the exchange. Because amounts credited to the account of an individual subscriber represent reductions to him in the cost of insurance, the bill provides that for income tax purposes the subscriber must reflect this reduction when the credit is made. The bill in effect requires the business policyholder of a reciprocal to take into account for purposes of computing his income for insurance costs by the amount credited to his account by the reciprocal.

This deduction for credited savings, as stated above, is to be available only in case of so-called "pure" or "classical" reciprocals or interinsurers where the credits, as a matter of actual practice, are paid to policyholder subscribers who terminate their contracts. An ordinary reciprocal which may nominally meet the requirement of the statute would not be entitled to this deduction where savings credited to subscribers are not in fact returned to them when they terminate their policies.

6. *Factory mutual insurance companies.*—The bill amends the law with respect to factory mutual insurance companies in two important respects. First, commencing in 1963, these companies will be treated for tax purposes as if they were stock companies. This means that they will report their underwriting income in full in the year earned, and their underwriting losses after 1962 will be deductible in full.

Secondly, the method of computing premium income of factory mutuals is modified to conform more closely to the actual operation of these companies. This is accomplished by permitting them to determine their premium income on the basis of their schedule of absorbed premium deposits. The amount thus determined is then to be increased under the bill by 2 percent of absorbed premiums for income tax purposes. For example, a factory mutual might require a premium deposit of \$1,000 and its experience indicates it will absorb 12 percent of the premium deposit each year during the term of the policy. Under existing law, in the case of a 3-year policy, the factory mutual would realize earned premiums of \$333.33 each year (one-third of the premium deposit) and would deduct returns to policyholders as if they were dividends. Actually, however, the factory mutual absorbs only 12 percent of the premium deposit, or \$120 each year. Under the bill, this factory mutual will report for income tax purposes \$122.40. This bill also provides for an adjustment in the unearned premium account of the factory mutual for returns of unabsorbed premium deposits to policyholders upon termination of their policies. This return of unabsorbed premium deposit is viewed as analogous to a dividend or a payment similar to a dividend.

7. *Mutual marine insurance companies.*—Mutual marine insurance companies have been taxed as stock insurance companies for many years and your committee's bill continues this treatment for them. However, a question has arisen as to whether a company which was a mutual marine insurance company under prior law is still to be treated as such a company if it engages in substantial multiple line underwriting. In order to clarify the law for the future, your committee's bill provides that any mutual marine insurance company which was taxed as a stock company for a period of at least 5 years may elect to continue to be taxed under the same formula in the future.

8. *Effective dates.*—The amendments made by this section are to apply with respect to taxable years beginning after December 31, 1962 (except that the effective date relating to mutual marine insurance companies is taxable years beginning after December 31, 1961).

XII. DOMESTIC CORPORATIONS RECEIVING DIVIDENDS FROM FOREIGN CORPORATIONS

(Sec. 11 of the bill and secs. 902 and 78 of code)

A. Reasons for provision

The President in his tax message to Congress last year stated that the method by which the credit for foreign income tax is computed in the case of dividends involves, in effect, a double allowance for foreign income taxes and should be corrected.

The problem arises when the foreign tax rate is below the U.S. tax rate and results from the fact that the amount paid in foreign taxes not only is allowed as a credit in computing the U.S. tax of the corporation receiving the dividend, but also is in effect allowed as a deduction (since the dividends can only be paid out of income remaining after payment of the foreign tax).

The problem can be illustrated by assuming that a foreign government imposes a 30-percent tax with respect to \$1,000 of income of a

corporation. This would leave \$700 of the \$1,000 out of which a dividend could be paid to a U.S. parent corporation. If the applicable U.S. tax rate is 52 percent, the American tax on this \$700 before the allowance of any foreign tax credit would be \$364. On the other hand, if the \$1,000 of income had been earned by a branch of the U.S. corporation, the entire \$1,000 would be subject to U.S. tax before allowance of any foreign tax credit. Thus, in this case the tentative U.S. tax would be \$520, or \$156 more than in the case of the foreign subsidiary.

In the case of the foreign subsidiary, the foreign tax allowed as a credit is limited to the same proportion of the tax which the income included in the American tax base is of the total income.¹ Thus, the allowable credit in the case of the foreign subsidiary is limited to seven-tenths of the \$300 or is limited to \$210. As a result the final U.S. tax on the dividend is \$154 (\$364 minus \$210). This U.S. tax of \$154, plus the foreign tax of \$300, results in a total tax of \$454, which is \$66 less than the full \$520 tax which would be paid by a domestic corporation operating in this country, or operating abroad through a branch.²

The size of this tax differential which exists in the case of dividends from foreign subsidiaries at the present time varies with the size of the foreign tax rate. As shown in table 1, the tax differential disappears either when the foreign tax rate equals or exceeds the U.S. tax or when there is no foreign tax imposed at all. The maximum tax differential, given a 52-percent U.S. tax rate, occurs when the foreign tax rate is half that, or 26 percent. The differential at this point is 6.7 percentage points.³ Where dividends are received by a domestic corporation from its subsidiary, which in turn has received its income from a subsidiary, the maximum tax differential (given the 52-percent U.S. tax rate) amounts to 11.93 percentage points.

TABLE 1.—Rate differential enjoyed with respect to dividends from foreign subsidiaries with various selected foreign income tax rates and present 52-percent U.S. rate

Income before tax	Foreign tax	Income available for dividend	U.S. tax before credit	Credit against U.S. tax	U.S. tax	Total tax	Rate differential enjoyed by foreign subsidiary
							Percentage points
\$100.....	0	\$100	\$52.00	0	\$52.00	\$52.00	0
\$100.....	\$5	95	49.40	\$4.75	44.65	49.65	2.35
\$100.....	10	90	46.80	9.00	37.80	47.80	4.20
\$100.....	20	80	41.60	18.00	25.60	45.60	6.40
\$100.....	26	74	38.48	19.24	19.24	45.24	6.76
\$100.....	30	70	36.40	21.00	15.40	45.40	6.60
\$100.....	40	60	31.20	24.00	7.20	47.20	4.80
\$100.....	50	50	26.00	25.00	1.00	51.00	1.00
\$100.....	52	48	24.96	24.96	0	52.00	0

¹ This is the result of the decision in *American Chiclé Company v. U.S.*, 316 U.S. 450 (1942).

² As indicated above, the U.S. tax before credit in the case of the branch would be \$520. After allowing the \$300 foreign tax credit in this case, the final U.S. tax would be \$220 which, with the \$300 of foreign tax means a total tax of \$520.

³ The tax differential represents the difference between the U.S. and foreign tax rates, multiplied by the income omitted from the U.S. tax base.

Your committee agrees with the President that in the interest of uniform tax treatment this double allowance in the case of dividends from foreign corporations should be removed. This is accomplished by providing that where a taxpayer elects the foreign tax credit, he must increase, or "gross-up," his U.S. tax base by including in it the amount of foreign income paid in taxes which is attributable to the dividend received. Thus, in the example cited above, the tentative U.S. tax would be computed on the basis of \$1,000, instead of \$700, and then the full \$300 of foreign taxes would be allowed as a tax credit, in the same way as branches of U.S. corporations are treated at the present time.

Two relatively minor technical corrections recommended by the administration are also included with this provision. One of these involves the repeal of a subsection (sec. 902(d)) of one of the foreign tax credit provisions, which makes the foreign tax credit available in limited cases with respect to royalty income received from a foreign subsidiary. This royalty income is entitled to this foreign tax credit only where the domestic corporation owns all of the stock of the subsidiary. The provision granting this treatment in the case of royalty income was adopted in 1954 in order to grant relief in a case where under currency exchange restrictions, a corporation was prohibited from distributing its earnings. The retention of this provision appears undesirable, since it has the effect of allowing a foreign tax credit before actual dividend distributions have been made. Your committee's bill, therefore, repeals this subsection.

Second, the bill also follows a recommendation of the administration relating to the interrelationship of the foreign tax credit and the intercorporate dividends received deduction. The problem arises here where a foreign corporation derives 50 percent or more of its income from sources within the United States. In such a case a domestic corporation receiving dividends from it is eligible for the 85-percent intercorporate dividends received deduction. This deduction is available with respect to the proportion of the income determined to be from sources within the United States. However, all of the remaining income is treated as income from sources without the United States for which a foreign tax credit is available, including the 15-percent amount remaining after the allowance of the intercorporate dividends received deduction which, for that purpose, was treated as income from sources within the United States. The administration recommended that this 15 percent of domestic source income, remaining after the dividend received deduction is allowed, retain its domestic source character rather than being reclassified as foreign source income for purposes of the foreign tax credit. Your committee's bill makes this modification.

B. General explanation of provision

1. *Elimination of double allowance.*—The provision adds a new section to the code (sec. 78) which provides that if a domestic corporation elects to take the foreign tax credit (rather than a deduction for foreign taxes) it must take into its gross income an amount equal to the taxes of the subsidiary (or an amount equal to the taxes of its subsidiary's subsidiary) it is considered, or deemed, to have paid for

purposes of the foreign tax credit provision. Thus, for a domestic corporation to claim a foreign tax credit for foreign taxes paid by its subsidiary or a subsidiary of that subsidiary, it must "gross up" its dividend income received by the amount of the foreign income, etc., taxes attributable to it.

Other provisions of the code (sec. 902 (c), (a), and (b)) are also amended to carry out fully the "gross-up" referred to in the prior paragraph. Thus, the definition of the term accumulated profits for purposes of the foreign tax credit is modified to include the income and similar taxes imposed by a foreign country (or U.S. possessions) which are taken into account by the domestic corporation.

2. *Dividends from U.S. sources.*—The bill amends the rules used in determining whether income is from within or without the United States in the case of a foreign corporation which has received 50 percent or more of its gross income for the 3 prior years from sources within the United States. In such a case, the 85-percent intercorporate dividends received deduction is available with respect to the proportion of its income which its income for the 3-year period derived from sources within the United States bears to its income from all sources. However, under present law all of such a corporation's income, to the extent it exceeds the 85-percent deduction allowed for intercorporate dividends received, is treated (for purposes of the foreign tax credit) as income from sources without the United States. Thus, the 15 percent for which no intercorporate dividends received deduction is allowed, although for purposes of the prior computation treated as from sources within the United States, is for this purpose treated as foreign source income. The bill corrects this technical deficiency by providing that the amount treated as foreign source income in such a case is only the remaining income in excess of this 15 percent.

3. *Royalty income eligible for foreign tax credit.*—The bill repeals the provision of present law (sec. 902(d)) which treats as a distribution (and, therefore, eligible for the foreign tax credit) royalty payments received by a domestic corporation from a 100-percent owned subsidiary engaged in manufacturing, production, or mining.

4. *Effective date.*—The provisions referred to above are applicable to all dividends received by a domestic corporation after December 31, 1964. They also are to apply to *certain* dividends received by the domestic corporation in the period before January 1, 1965, but only in its taxable years beginning after December 31, 1962. For a calendar year corporation this latter category includes certain dividends received in the calendar years 1963 and 1964. In the case of dividends received in these years the "gross-up" and other changes made by this provision are to apply only to the extent that the dividends are treated for tax purposes as made out of the accumulated profits of the foreign corporation for taxable years beginning after December 31, 1962. Dividends received by a foreign corporation from its subsidiary before January 1, 1965, which are paid out of the subsidiary's profits from before 1963, are to be treated as paid out of the first foreign corporation's profits from before 1963 if it in turn pays the dividends to the domestic corporation before January 1, 1965.

XIII. EARNED INCOME FROM SOURCES OUTSIDE THE UNITED STATES

(Sec. 12 of the bill and secs. 911 and 72(f) of the code)

A. Reasons for provision

Under present law an individual citizen of the United States who is a bona fide resident of a foreign country may exclude from his U.S. tax base his entire earned income from sources outside of the United States. In addition, an individual who goes abroad, but does not establish a foreign residence, may exclude from his U.S. tax base his earned income up to \$20,000 a year if he remains abroad for a period of 17 out of 18 consecutive months.

The President recommended that in the case of citizens living abroad in developed countries there be no exclusion for income earned abroad. In the case of less developed countries he would keep the present exclusion of up to \$20,000 a year in the case of those who are abroad 17 out of 18 months, and also provide the same \$20,000 ceiling with respect to those who are bona fide residents of a foreign country.

Your committee's bill provides a ceiling on the exclusion for income earned abroad. However, it has not attempted to distinguish between U.S. citizens residing or present in developed and those in less developed countries. As a result, it has retained the 17-out-of-18-month provision of present law without any major change in the presently applicable \$20,000 ceiling. In the case of a bona fide resident of a foreign country your committee's bill also provides the same \$20,000 limitation for the first 3 years the individual is abroad. However, if the individual is abroad for an uninterrupted period of more than 3 consecutive years a higher ceiling of \$35,000 is provided. Thus, during the first 3 years an individual is abroad the exclusion will be the same, whether the individual is a bona fide resident of the foreign country or merely there for 17 out of 18 months. However, in recognition of the fact that those who are abroad for longer periods of time are more dependent on the foreign economy, and less upon the U.S. economy, the higher ceiling of \$35,000 is provided in the case of these longer stays.

A second recommendation of the administration in this area relates to pensions and deferred compensation paid to U.S. citizens, after they are back in the United States, but with respect to periods of time they were abroad.

In the case of pensions generally, an employee receives back over his period of life expectancy (or in some cases in the first 3 years) the amount he paid toward his pension. The remainder of the pension payments he receives, consisting of contributions by the employer and interest on the funds while they were accumulating, is taxable to him as the pension or annuity payments are received.

In the case of a citizen who has been a bona fide resident of a foreign country, or been in a foreign country for a period of 17 out of 18 months or more, the employer contributions toward the pension fund during the period he was abroad are treated in the same manner as his own contributions and, therefore, are not taxable to him when he draws his pension or annuity upon retirement. This is true even though he may be living in the United States next to someone who

has worked for the same employer in the United States and is fully taxable on contributions made by the same employer.

To remove this discrimination the bill provides that contributions by an employer will, to the extent that they relate to future employment, be fully taxable to the employee when he receives the pension payments reflecting these contributions. Thus, for the future even though employer contributions are attributable to a period when the employee was abroad after 1962, these contributions by the employer will be taxable to him in the same manner as in the case of a domestic worker also receiving a pension. This will be true whether the employee is living in the United States, or abroad, at the time of the receipt of the pension payment.

Also, under your committee's bill deferred compensation arrangements where an individual receives the deferred compensation after the end of the taxable year following the year in which the services were performed is not to be eligible for the exclusion for income earned abroad. The purpose of the exclusion is to provide a special inducement for American citizens or residents to hold employment abroad. Your committee sees no reason, however, to provide this special inducement long after the period in which the employment occurred. Moreover, this will treat deferred compensation under the exclusion the same as qualified pensions.

B. General explanation of provision

1. *Ceiling on earned income exclusion.*—Your committee's bill places a ceiling on the amount which may be excluded from income in the case of a citizen of the United States who is a bona fide resident of a foreign country or countries. The bill provides that the total amount which may be excluded with respect to the first 3 years an individual is abroad as a bona fide resident is \$20,000 a year. This is the same ceiling which presently is applicable in the case of citizens or residents of the United States who are abroad for a period of 17 out of 18 months. However, in the case of the U.S. citizen who is a bona fide resident of a foreign country or countries for more than 3 years, the total amount which may be excluded in this case is to be \$35,000 under the bill instead of \$20,000. This higher ceiling is to apply with respect to any portion of a taxable year remaining after the individual has been a bona fide resident of a foreign country or countries for the uninterrupted 3-year period. Where at the time of the passage of this legislation the individual already has been a bona fide resident for 3 years or more, this higher ceiling will, of course, become applicable immediately.

In applying either the \$20,000 or \$35,000 ceilings under community property laws the total community income excludable may not exceed the amount which would be excludable if this income were not community income. Thus, one \$20,000 or \$35,000 ceiling will apply with respect to the husband's earnings abroad even though under community property law, half of this income is the income of the wife. However, if both husband and wife are abroad and earn income, separate ceilings will be applied with respect to their earnings attributable to the services of each.

2. *Deferred compensation.*—Under present law the bona fide resident rule and the 17- out of 18-month rule work somewhat differently in determining the year to which the exclusion relates. The bona fide

resident rule at present provides an exclusion without limit for amounts received from sources without the United States which are "attributable" to the period when the U.S. citizen was a bona fide resident of a foreign country. This means that deferred compensation attributable to a period of foreign service is excludable even though received many years after the period of service.

The 17- out of 18-month rule, however, because of the \$20,000 ceiling, has been interpreted as limiting the exclusion which an individual may receive to the proportion of the year, during which the payment was received, in which the individual was abroad. Thus, where the individual receives deferred compensation after he is back in the United States for an entire year, no exclusion is available. Moreover, in this latter case, hardship situations have occurred where an individual, who has returned to the United States early in a year, has received payments attributable to service in the prior year, but because the individual is in the United States most, or all, of the year little, or no, exclusion is available with respect to this income.

Your committee eliminates the problems referred to above by attributing the income, for purposes of applying the dollar limitation on the exclusion, to the year in which the service is performed. This means that the exclusion, merely because the individual has returned to the United States before receiving the payment, will not be denied. However, deferred compensation is made ineligible for the exclusion by providing that no exclusion will be allowed for amounts received more than 1 year after the close of the taxable year in which the services are performed.

3. *Pension income.*—The provision of present law dealing with annuities (sec. 72(f)) provides that in determining what the employee or annuitant paid for an annuity contract, there is to be included contributions of the employer, if, had these contributions been paid to the employee in the first instance, they would not have been taxable to him. This provision generally has the effect of excluding employer contributions to a pension plan from tax where the employee is abroad and qualifies for the exclusion.

The bill nullifies this section by providing that the exclusion for income earned abroad is not to be available in the case of amounts received as pensions or annuities or amounts which otherwise would be included in gross income in the case of beneficiaries of tax-exempt trusts (sec. 402(b)), beneficiaries under nonqualified annuities (sec. 403(c)), or beneficiaries under certain forfeitable contracts purchased by exempt organizations (sec. 403(d)).

The bill also makes it clear that the tax-free status of employer contributions will be continued in the case of contributions made after December 31, 1963, to the extent that they provide pension or annuity credits where these credits are attributable to services performed on or before that date if the pension or annuity plan provisions were in existence on February 1, 1962.

4. *Effective date.*—The changes made by this provision are to apply to amounts received after December 31, 1962, but only to the extent that these amounts are attributable to services performed after that date or services performed on or before that date, where before February 1, 1962, there did not exist a right to receive these amounts.

XIV. CONTROLLED FOREIGN CORPORATIONS

(Sec. 13 of bill and secs. 951-958 of code)

A. Reasons for provision

Under present law foreign corporations, even though they may be American controlled, are not subject to U.S. tax laws on foreign source income. As a result no U.S. tax is imposed with respect to the foreign source earnings of these corporations where they are controlled by Americans until dividends are paid by the foreign corporations to their American parent corporations or to their other American shareholders. The tax at that time is imposed with respect to the dividend income received by the American shareholder, and if this shareholder is a corporation it is eligible for a foreign tax credit with respect to the taxes paid by the foreign subsidiary. In the case of foreign subsidiaries, therefore, this means that foreign taxes are paid currently, to the extent of the applicable foreign income tax, and not until distributions are made will an additional U.S. tax be imposed, to the extent the U.S. rate is above that applicable in the foreign country. This latter tax effect has been referred to as "tax deferral."

The President in his tax message last year questioned the desirability of providing tax deferral with respect to earnings of U.S.-controlled companies except in the case of investments in less developed countries. However, his primary emphasis was on removing tax deferral in the case of what have been called "tax havens." In this respect he stated:

The undesirability of continuing deferral is underscored where deferral has served as a shelter for tax escape through the unjustifiable use of tax havens such as Switzerland. Recently more and more enterprises organized abroad by American firms have arranged their corporate structures—aided by artificial arrangements between parent and subsidiary regarding intercompany pricing, the transfer of patent licensing rights, the shifting of management fees, and similar practices which maximize the accumulation of profits in the tax haven—so as to exploit the multiplicity of foreign tax systems and international agreements in order to reduce sharply or eliminate completely their tax liabilities both at home and abroad.

In this area the President recommended the:

* * * elimination of the tax haven device anywhere in the world, even in the underdeveloped countries, through the elimination of tax deferral privileges for those forms of activities, such as trading, licensing, insurance, and others, that typically seek out tax haven methods of operation. There is no valid reason to permit their remaining untaxed regardless of the country in which they are located.

Your committee's bill does not go as far as the President recommendations. It does not eliminate tax deferral in the case of operating businesses owned by Americans which are located in the economically developed countries of the world. Testimony in hearings before your committee suggested that the location of investments in these countries is an important factor in stimulating American exports to the same areas. Moreover, it appeared that to impose the U.S. tax currently

on the U.S. shareholders of American-owned businesses operating abroad would place such firms at a disadvantage with other firms located in the same areas not subject to U.S. tax.

Nevertheless, the testimony before your committee did convince it that many have taken advantage of the multiplicity of foreign tax systems to avoid taxation by the United States on what could ordinarily be expected to be U.S. source income. In part your committee has met this problem elsewhere in this bill (sec. 6) through the addition of a new subsection to the existing section 482 setting up specific factors to be taken into account in more accurately allocating income from purchases and sales of goods between American corporations and their controlled foreign subsidiaries. However, certain of the provisions set forth in this section are also designed to meet this problem of diversion of income from U.S. taxation. This is true, for example, of the provisions taxing to the U.S. shareholders foreign income arising from controlled foreign corporations in the case of insurance on American risks. This is also true of the provision taxing income derived by controlled foreign corporations from patents, copyrights, etc., developed in the United States.

Your committee has also concluded that U.S. tax should be imposed currently, on the American shareholders, on income which is held abroad and not used in the taxpayer's trade or business unless, in accord with the policy enunciated by the President, it is invested in businesses in less developed countries. Because of this your committee's bill taxes to U.S. shareholders investment-type income not invested in less developed countries and also income which may arise from the active conduct of a trade or business if the income is not re-invested in the same business (outside of the United States) or in a less developed country.

A third objective of the tax measures described below is to prevent the repatriation of income to the United States in a manner which does not subject it to U.S. taxation. This accounts for section 16 of this bill which gives assurance that upon the liquidation of a corporation, the redemption of stock, or the sale of stock in a controlled foreign corporation the earnings and profits of the corporation—not previously subject to tax by United States—are to be so taxed to the extent of the excess of the U.S. tax over the foreign tax. This objective also accounts for some of the features of this provision, which deny tax deferral where funds are brought back and invested in United States in a manner which does not otherwise subject them to U.S. taxation.

Your committee also has ended tax deferral for American shareholders in certain situations where the multiplicity of foreign tax systems has been taken advantage of by American-controlled businesses to siphon off sales profits from goods manufactured by related parties either in United States or abroad. In such cases the separation of the sales function is designed to avoid either U.S. tax or tax imposed by the foreign country.

B. General explanation of provision

1. *In general.*—The bill provides that certain undistributed income of controlled foreign corporations is to be included in the income of U.S. shareholders in the year the income is earned by the foreign corporation, whether or not it is distributed. In these cases, the share-

holders are permitted foreign tax credits to the same extent as if actual distributions had been made. The U.S. shareholders, or "U.S. persons" as they are called in the bill, are defined as including U.S. citizens and residents and domestic corporations, partnerships, and estates or trusts. As indicated, this income is taxed to the U.S. shareholders only in the case of "controlled foreign corporations." A foreign corporation is controlled for this purpose when more than 50 percent of the combined voting power of all classes of stock is owned directly or indirectly (through the stock attribution rules specified) by U.S. persons on any day of the taxable year of the corporation. (A special, additional rule provided in the case of insurance is discussed subsequently.)

Not all U.S. persons who are shareholders in such a controlled foreign corporation, however, are to have attributed to them the specified types of foreign income of a controlled foreign corporation. This is to be done only in the case of those having on any day during the year a stock ownership of 10 percent or more of the combined voting power of all classes of stock, or of the total value of shares of all classes of stock. This *de minimis* rule prevents the attribution of the undistributed income back to the shareholders where their interest is small and their influence on the corporation's policy is presumably negligible. The 10-percent ownership test is determined by applying stock ownership attribution rules set forth in the bill.

There are two groupings of income under this provision which may result in income being attributed to the shareholders and their being taxed on it. The first category of such income is known in the bill as "subpart F income." This consists of: (1) income derived from insurance on U.S. risks on property or persons; (2) income derived from patents, copyrights, and exclusive formulas and processes which were developed in the United States; and (3) certain so-called net foreign base company income. In general, this foreign base company income consists of income from passive sources—such as dividends, interest, rents, etc., and also certain income from sales subsidiaries (to the extent these income categories are not reinvested in less developed countries). This subpart F income under the bill is attributed to 10-percent U.S. shareholders and taxed to them in largely the same manner as dividends.

A second category of earnings may also give rise to the corporation's income being taxed to 10-percent-or-more U.S. shareholders. This is the increase in the earnings invested during the year in what is called "nonqualified property." In general terms investments in nonqualified property consist of investments not required in the taxpayer's trade or business and not invested in a less developed country. Nonqualified property also includes most investments in the United States whether or not the property is used in the taxpayer's trade or business. The earnings representing an increase in investments in nonqualified property are treated first as coming out of the subpart F income already taxed. To the extent of this income, therefore, earnings representing this nonqualified property category do not result in any additional tax for the shareholders. Only when the earnings invested in nonqualified property exceed the accumulated balance of any subpart F income (including both subpart F income for

the current year and any prior years) which was not previously offset by the nonqualified property category is the income to be taxed to the U.S. shareholders.

Just as the invested earnings in nonqualified property are treated as being first out of subpart F income, so actual dividend distributions are treated first as being paid out of the earnings invested in nonqualified property, then out of subpart F income, and only finally, if any balance remains, out of the accumulated earnings of the corporation which have not already been taxed to the shareholders. Only when the actual dividends are treated as paid out of this latter category do they represent taxable dividends to the shareholders.

The earnings of a corporation classified as subpart F income, or as earnings invested in nonqualified property, give rise to taxable income to the shareholders only for the portion of earnings represented by the portion of the year in which the corporation was a controlled foreign corporation. Also, it will be necessary to maintain separate balances of earnings and profits with respect to different shareholders during the year, because there may be differences as to whether they are 10-percent stockholders or not, and also because such stockholders may increase or decrease their stockholdings during the year.

2. *Income derived from insurance of U.S. risks.*—Since the passage of the Life Insurance Company Income Tax Act of 1959, which for the first time in many years imposed a tax on underwriting gains of these companies, it is understood that a number of the companies involved have attempted to avoid tax on the gains by reinsuring their policies abroad. In other cases the tax has been avoided by placing the initial policy with a foreign insurance company either controlled by an American insurance company or controlled by other American businesses.

To meet this problem your committee's bill provides that where a controlled foreign corporation receives premiums or other consideration for reinsurance or the issuing of insurance or annuity contracts on property in, or residents of, the United States the income attributable to this is to be taxed to the U.S. shareholders as a part of subpart F income.

The bill also covers the type of situation where the controlled foreign corporation does not hold the policies involving U.S. risks but instead holds other policies which, by arrangement with another unrelated corporation, it has received instead of the insurance involving the U.S. risks, while the unrelated corporation holds the policies involving the insurance on property in, or residents of, the United States.

In the case of insurance there also is an alternative definition of a controlled foreign corporation. Under the alternative if U.S. persons hold from 25 to 50 percent of the stock, any income from insurance or reinsurance on U.S. risks is included in income taxed as subpart F income where the U.S. risks represent 75 percent of the gross amount of all premiums and other considerations with respect to risks held by the company. This alternative rule for control is designed to cover cases where the principal business is the U.S. risks but the control is decreased in order to avoid the application of this provision.

The income subject to tax in the hands of the shareholders in the case of life insurance companies is total gain from operations to the extent attributable to U.S. risks. In effect this represents all (not 50 percent) of the underwriting income as well as net investment income.

In the case of fire, casualty, and similar insurance companies, the income subject to tax will be the same whether the company is a mutual or stock company since the stock company rules for this purpose are made applicable to the mutual. Certain deductions generally allowed domestic insurance companies will not be allowed in the case of these foreign operations. The deductions which are disallowed for life insurance business include the operations loss deduction, the deduction for certain nonparticipating contracts, the deduction for group life, accident, and health insurance, and the small business deduction. Other modifications are also provided. The income ascribed to the shareholders will be the income relating to the insurance or reinsurance on the U.S. risks, taking into account expenses, losses, and deductions properly allocable to this income.

3. *Income from U.S. patents, copyrights, etc.*—The second component of the subpart F income which will be taxed to the U.S. shareholders in the case of controlled foreign corporations is income from U.S. patents, copyrights, and exclusive formulas and processes. For the income from these patents, copyrights, etc., to be included they must have been substantially developed, created, or produced in the United States, or, alternatively, acquired directly or indirectly from related U.S. persons. Your committee concluded that it was desirable to tax this income to the U.S. shareholders on the grounds that where a patent, copyright, etc., was developed or created in the United States, it is likely that, if it were not for lower taxes abroad, the rights to it would still be held by the domestic company with this company merely licensing its use by the foreign corporation. This, of course, would result in rental or royalty income taxable to the U.S. company.

The income to be taxed here is that derived from the license, sublicense, sale, exchange, use, or other means of exploitation of the patent, copyright, exclusive formula, or process. From this income there is to be deducted the expenses incurred by the controlled foreign corporation, including taxes paid foreign countries, with respect to this income, and any amortization or depreciation of the cost of the patent, copyright, etc.

Income from patents, copyrights, etc., is attributed to U.S. shareholders not only where the foreign corporation receives a royalty or similar payment for the use of the property, but also where the foreign corporation itself uses the patent, copyright, or exclusive formula or process in the manufacture of goods and derives income from the sale of the manufactured articles. In such a case the income derived from the patent, etc., is to be considered as the amount which would be obtained as a gross rent, royalty or other payment in an arm's-length transition with an unrelated person from the similar use of this patent, etc. The amount so determined is not intended to be merely a percentage of the taxable income derived from the products manufactured and sold and, therefore, there is no intention that manufacturing, production or similar expenses are to be taken into account in determining the net royalty or rental payment.

4. *Net foreign base company income.*—The two income components of subpart F income discussed above are in both cases taxed to the U.S. shareholders without any reductions for reinvestment. What is described here as "foreign base company income," however, may be reduced for qualified investment in less developed countries made during the taxable year (or in the first 2½ months thereafter). This

accounts for the reference to "net" in this income category. The investments which may be made in less developed countries in this case are the same as two of the categories described in connection with reinvestments permitted in the case of qualified property. This is developed further below.

The foreign base company income consists of two basic parts: passive investment income, or more precisely "foreign personal holding company income" with certain modifications described below, and "foreign base company sales income."

Your committee while recognizing the need to maintain active American business operations abroad on an equal competitive footing with other operating businesses in the same foreign countries, nevertheless sees no need to maintain deferral of U.S. tax where the investments are portfolio types of investments, or where the company is merely passively receiving investment income. In such cases there is no competitive problem justifying postponement of the tax until the income is repatriated.

The passive income referred to here is the same as "foreign personal holding company income" except that rental income is included whether or not rents represented more than 50 percent of the gross income involved. An exception is also made for income of banks and bank subsidiary organizations since in such cases the receipt of interest and other similar types of income do not result from passive investments. Those excluded by this provision are corporations organized and doing business under the banking and credit laws of a foreign country. Also excluded are foreign corporations where 50 percent or more of their stock is held by domestic corporations organized under section 25(a) of the Federal Reserve Act or having an agreement with the Board of Governors of the Federal Reserve System under the same section of the Federal Reserve Act. These are the so-called Edge Act corporations. Under the bill all of their stock (except qualifying shares) must be owned by a national or State bank which is a member of the Federal Reserve System.

The "foreign base company sales income" referred to here means income from the purchase and sale of property without any appreciable value being added to the product by the selling corporation. This does not, for example, include cases where any significant amount of manufacturing, installation, or construction activity is carried on with respect to the product by the selling corporation. On the other hand, activity such as minor assembling, packaging, repackaging, or labeling would not be sufficient to exclude the profits from this definition.

The bill provides that this sales income is to be taken into account as foreign base income only where it represents at least 20 percent of the gross income of the foreign corporation. The 20 percent is to be computed without taking into account the passive income of the foreign corporation.

The sales income with which your committee is primarily concerned is income of a selling subsidiary (whether acting as a principal or agent) which has been separated from manufacturing activities of a related corporation merely to obtain a lower rate of tax for the sales income. As a result, this provision is restricted to sales of property to a related person or purchases of property from a related person. Moreover, since the lower tax rate for such a company is likely to be

obtained through purchases and sales outside of the country in which it is incorporated, the provision is made inapplicable to the extent the property is manufactured, produced, grown, or extracted in the country where the corporation is organized or where it is sold for use, consumption, or disposition in that country. Mere passage of title, however, is not intended to be determinative of the location of the purchase or sale for this purpose.

Where the foreign base company gross income (before deduction for any reinvestment) is less than 20 percent of the gross income it is not taken into account in computing subpart F income. On the other hand, where it exceeds 80 percent of the gross income of a corporation, the entire gross income (less deductions) is to be classified as foreign base company income. Where this income is from 20 percent to 80 percent of the company's gross income, only the foreign base company income is taken into account. These rules are similar to those set forth in an earlier provision (sec. 7) of this bill with respect to foreign personal holding company income. Thus, where this foreign base company income is relatively minor, the shareholders will not be taxed on any of it; where it is a major factor, they are to be taxed on the entire income of the corporation. Otherwise only the foreign base company income is taken into account.

The net foreign base company income which may constitute subpart F income is the foreign base company less investment in qualified property in less developed countries. The qualified investments income are investments in stock in a controlled corporation in a less developed country or any investments which are required because of restrictions imposed by a less developed country (including investments previously so required which would result in a substantial loss if now withdrawn). These are two of the categories in which reinvestment is permitted in the case of the next category of income described below, and are discussed in greater detail at that point. In determining these reinvestments taken into account it is only the increases over the investments held at the end of the preceding year which are taken into account.

5. *Earnings invested in nonqualified property.*—The categories of income referred to up to this point are the components of the "subpart F income." As previously indicated, these are taxed to the shareholders in all cases. In addition, however, the increase in earnings invested in nonqualified property may also be taxed to the shareholders. However, this income is taxed to the shareholders only to the extent it exceeds any balance of subpart F income remaining (not only for the current year but also for prior years) which has not previously been offset by earnings invested in nonqualified property. In this manner it is possible to prevent the same amount from being attributed to the shareholder for tax purposes more than once. The rule provided here in effect assumes that any increases in investments in nonqualified property are made first out of this subpart F income already taxed to the shareholders.

Since the concept here is merely to tax to the U.S. shareholders the earnings and profits of the corporation since the end of 1962, the investments in nonqualified property taken into account are only those which are in excess of earnings and profits accumulated in taxable years beginning after December 31, 1962. With respect to any year, therefore, the increase in nonqualified property is the excess of property

of this type at the end of the current taxable year over property of this type as of the end of the prior taxable year.¹

Since it is not intended that this provision in any sense be retroactive, only nonqualified property acquired after December 31, 1962, is taken into account. This means that a record will have to be maintained of nonqualified property as of December 31, 1962, in order to keep these amounts of nonqualified investments, previously made, from resulting in a tax in subsequent years.

Your committee in determining what constitutes qualified property concluded that for competitive reasons the foreign corporation should be able to expand its investments in the same trade or business (or substantially the same trade or business) wherever it was located. Thus, money or other property located outside of the United States which is ordinary and necessary to the active conduct of a qualified trade or business of the controlled corporation is considered qualified property. In order to prevent foreign corporations from starting relatively small trades or businesses (incurring relatively small penalties in denial of deferment) and then permitting additions in later years to these investments to qualify as investments in the corporation's "trade or business," the bill provides a 5-year "seasoning" rule. Thus, only where the corporation has engaged in a trade or business for the past 5 years with additional investments in it qualify as in the "corporation's trade or business." However, any trade or business in which the foreign corporation was engaged in on December 31, 1962, will also qualify without regard to the 5-year rule. In addition, any active trade or business carried on directly by the foreign corporation in a less developed country will qualify for investments of earnings. Investments in an 80-percent-owned subsidiary qualify in the same way as investments in the foreign corporation's own trade or business, if the stock was owned continuously since December 31, 1962, or has been held for the 5 years preceding the taxable year in question.

In addition to investments in a controlled foreign corporation's own trade or business, qualified property also includes stock acquisitions in a subsidiary where the corporation and no more than four other U.S. persons own directly or indirectly more than 50 percent of the voting stock of the corporation and the investing corporation owns at least 10 percent. However, this type of investment will qualify only if the subsidiary is engaged in the active conduct of a trade or business almost wholly within a less developed country or countries and is organized under the laws of such a country. It was recognized, however, that in some cases the 50-percent test referred to above may be impossible to meet because the laws of the country involved do not permit foreigners to own so high a percentage of the voting stock of certain types, or all types, of local corporations. Where there are such laws the maximum ownership required, in lieu of the 50 percent, is to be whatever lower maximum is permitted by the laws of the specific foreign country involved.

Generally, property of the controlled foreign corporation cannot be located within the United States and still be qualified property.

¹ Since actual dividend distributions are treated as made first out of amounts taxed to shareholders as increases in earnings invested in nonqualified property, to the extent that actual distributions are treated as made out of this nonqualified property balance it is necessary to reduce the balance of nonqualified property as of the close of the prior year by the amount which now has been actually distributed. If this were not done it would be possible to retain the nonqualified investments in the corporation and make actual distributions out of other property to the shareholders which would not be taxable to them.

Certain exceptions, however, are made but these apply only where the property located within the United States is ordinary and necessary to the active conduct of the foreign corporation's business or substantially the same trade or business, and then only if the property represents—

- (1) investments in U.S. bonds, money, or bank accounts,
- (2) property purchased in the United States for export to, or use in, a foreign country, or
- (3) loans arising in connection with the sale of property where the amount of the loan outstanding does not exceed the amount which would be ordinary and necessary in the trade or business of both the lending and borrowing corporation had the sale been between unrelated persons.

Generally, bringing earnings back to the United States is disallowed unless the shareholders have paid tax on these earnings. The exceptions noted above, however, are believed to be normal commercial transactions without any intention to permit the funds to remain in the United States indefinitely.

6. *Less developed countries.*—For both the foreign base company income provision in the subpart F income and also for purposes of the increase in earnings taxed to the shareholders in the case of investments in nonqualified property, investments are allowed as offsets if they are made in "less developed countries." Less developed countries under the bill are defined as foreign countries (other than areas within the Sino-Soviet bloc) or possessions of the United States where the President of the United States has designated such a country or possession as economically less developed.² However, the following countries are in no event to be considered as less developed countries:

Australia	Luxembourg
Austria	Monaco
Belgium	Netherlands
Canada	New Zealand
Denmark	Norway
France	Union of South Africa
Germany (Federal Republic)	San Marino
Hong Kong	Sweden
Italy	Switzerland
Japan	United Kingdom
Liechtenstein	

7. *Foreign tax credit.*—U.S. shareholders who are taxed on subpart F income, or on the increase of earnings invested in nonqualified property, can obtain a foreign tax credit for foreign income, etc., taxes paid by the foreign corporation, if the shareholder is a person to whom such a foreign credit would be allowed in the case of an actual distribution. That means that foreign tax credits will be allowed where the shareholder is a domestic corporation holding the stock of a foreign corporation and it has at least a 10-percent voting stock interest. Similarly, where a domestic corporation has at least a 10-percent interest in a foreign corporation which in turn has at least a 50-percent voting stock interest in a subsidiary, then a foreign tax credit

² Overseas territories, departments, provinces or possessions for this purpose may be treated as separate countries. Thus, even though the "home" country may be classified as developed, the overseas area may be considered less developed.

will be allowed the U.S. shareholder with respect to the earnings of this subsidiary when undistributed earnings of the subsidiary are taxed to the U.S. corporate shareholder. Taxes so allowed as credits will not again be allowed as credits when actual distributions are made.

Where the foreign country imposes a tax directly on dividend distributions, such a tax would not, of course, initially be taken into account when the shareholder at an earlier date was taxed on undistributed earnings of a controlled foreign corporation. These taxes on actual dividend payments, however, will be allowed as credits in the year in which the actual dividends are paid, even though these dividends are not taxable to the domestic corporation receiving them because of an earlier inclusion by it of these amounts in its income. Adjustments are made in the overall and per country limitations to keep these limitations from reducing the creditable taxes in such cases below what could be credited if the income taxed and taxes attributable to this income had been taken into account in the same year. Moreover, if the taxpayer has insufficient income against which to offset such credits in the year of the actual distribution, then refunds are allowed.

8. *Adjustments to basis of stock.*—It is necessary where amounts not actually distributed to the taxpayer are nevertheless taxed to him, to increase his basis for the stock in the controlled corporation by the amount so taxed to him. However, if subsequently actual distributions are made which do not result in any tax to the shareholder because of the prior tax payment by him, then the basis of the stock needs to again be reduced. The bill makes provision for these adjustments.

9. *Effective date.*—This provision applies to taxable years of foreign corporations beginning after December 31, 1962, and to taxable years of U.S. persons ending within or with these taxable years of the foreign corporations.

XV. GAIN FROM DISPOSITION OF DEPRECIABLE PERSONAL PROPERTY

(Sec. 14 of bill and secs. 1245, 167(f), 170(e) and 453(d) of code)

A. Reasons for provision

Under present law, in the case of depreciable property the taxpayer may write off the cost or other basis of the property over the period of the useful life of the asset in his hands. This cost or other basis can be written off evenly (or in a "straight line" over the asset's life), under the declining balance method, under the sum-of-the-year's digits method, or under any other consistent method which does not during the first two-thirds of the useful life of the property exceed the allowances which would have been allowed under the declining balance method. This depreciation deduction is a deduction against ordinary income. If either the useful life of the asset is too short, or the particular method of depreciation allows too much depreciation in the early years, the decline in value of the asset resulting from these depreciation deductions may exceed the actual decline of the value of the asset. Wherever the depreciation deductions reduce the basis of the property faster than the actual decline in its value, then when it is sold there will be a gain. Under present law this gain is taxed as a capital gain, even though the depreciation deductions reduced

ordinary income. The taxpayer who has taken excessive depreciation deductions and then sells an asset, therefore, has in effect converted ordinary income into a capital gain.

The President stated that our capital gains concept should not encompass this kind of income. He indicated that this inequity should be eliminated, especially in view of the proposed investment credit for newly acquired property. He states that we should not encourage the further acquisition of such property through tax incentives as long as this loophole remains. It is also desirable to amend the law to remove the tax advantage related to depreciation deductions in order to make it feasible for the Treasury to adopt more liberal rules with respect to the estimated useful life of depreciable assets.

Your committee in general is in accord with the President's point of view although it has made a number of modifications in the proposal he presented. Your committee's bill, as recommended, in general treats as ordinary income any gain on the sale or other disposition of certain depreciable property to the extent of the depreciation deductions taken. Under your committee's provision, however, this treatment will apply to property subject to the allowance for depreciation which is either (1) personal property or (2) certain other tangible property which does not include a building or its structural components. Your committee decided not to apply this treatment to buildings or structural components of buildings at this time because testimony before your committee indicated that this treatment presents problems where there is an appreciable rise in the value of real property attributable to a rise in the general price level over a long period.

Your committee also decided that this provision should have a clearly prospective application and, therefore, the only gain which is to be treated as ordinary income is depreciation occurring in 1962 and subsequent years.

Also, because of the assurance this provision provides of recapturing excessive deductions as ordinary income, your committee has found it possible to be more lenient in determining salvage value for depreciation purposes. Under your committee's provision, in determining depreciation the salvage value of an asset may be reduced by up to 10 percent of its cost or other basis, and if this value is less than 10 percent of basis (at the time it is determined), it may be disregarded altogether. In addition, for a period of time after the new ordinary income treatment becomes applicable, taxpayers will have a new election to change their method of depreciation with respect to personal property from any declining balance or sum of the years digits method to the straight-line method. This will enable them to elect a more conservative method of depreciation if they wish to escape the possibility of ordinary income upon the sale of the assets, because of excessive depreciation deductions.

The above description has been in terms of the sale or exchange of a depreciable asset. There are, of course, other methods of disposing of an asset which also must be dealt with in this provision. In the case of a gift or a transfer at death no gain is recognized at the time of the disposition of the asset. In the case of a gift, however, the ordinary income potential of the depreciation deductions carries over into the hands of the donee. In the case of gifts to charity, although no ordinary income is recognized at the time of the gift, the charitable

contribution is reduced by the amount which would be recognized as ordinary income if the property were sold. Generally, in other cases any gain which under present law would be recognized at the time of the disposition of an asset will be treated as ordinary income to the extent of any depreciation deductions taken. In certain cases, however, in order to prevent tax avoidance it has also been found necessary to realize ordinary income on the disposition of an asset even though gain might not otherwise be recognized. This is true in certain cases where a distribution is made by a corporation or partnership. These and other provisions where ordinary income may be recognized are described in the general explanation below.

B. General explanation of provision

1. *General rule.*—The general rule (in sec. 1245) provides that ordinary income is to be recognized in the case of sales or exchanges to the extent the so-called recomputed basis, or amount realized in the sale or exchange, whichever is lesser, exceeds the basis of the property in the hands of the person making the sale or exchange. "Recomputed basis" is defined generally as equaling the adjusted basis plus the depreciation deductions previously taken. The excess of the amount realized over the adjusted basis is, of course, the amount presently recognized as capital gain. Since the rule requires that the smaller of these two amounts be treated as ordinary income, this in effect means that the ordinary income in the usual case is to be the gain realized or the sum of the depreciation deductions taken, whichever is the smaller. Where there is a disposition of an asset without a sale or exchange, gain is determined by reference to the fair market value of the asset.

Since this provision is to have prospective application only, in computing depreciation for this purpose only depreciation deductions occurring in taxable years beginning after December 31, 1961, are to be taken into account. Depreciation deductions for this purpose include not only regular depreciation deductions but also the special initial allowance deduction and any deduction for the amortization of emergency facilities. The depreciation deductions taken into account are not limited to those taken by the taxpayer, but also include deductions taken by others from whom the taxpayer acquired the property, if the basis of the property was carried over from the person from whom the taxpayer acquired it. This would not be true, where the taxpayer acquired the property from another by reason of the latter's death, since in this case the property receives a new basis at death. The general rule is that the depreciation deduction taken into account for each year is the amount allowed or allowable whichever is greater. However, a special rule provides that the depreciation deductions taken into account as to any year will be the amount "allowed" rather than the amount "allowable" if the former is smaller and the taxpayer can establish what the amount was.

The type of property receiving the ordinary income treatment described above is (1) personal property (other than livestock) and (2) other property which is tangible, not including a building or its structural components, which is an integral part of certain specified business activities or which constitutes research or storage facilities used in connection with these activities. The activities specified are manufacturing, production, or extraction, or of furnishing transporta-

tion, communications, electrical energy, gas, water, or sewage disposal services. The exclusion for "livestock" means all types of livestock except poultry.

The ordinary income treatment provided by this section will be applied upon the sale of all property the acquisition of which could have resulted in an investment credit (sec. 38 of the code as added by this bill). However, the ordinary income treatment may also apply to the disposition of property even though the acquisition of this specific property did not result in an investment credit. For example, no investment credit may have been allowed upon the acquisition of the property because its expected useful life was less than 4 years, it was to be used outside of the United States, it was to be used by tax-exempt organizations or governmental units, it was not new when acquired (and was over the \$50,000 limit), etc.

2. Exceptions.—Except as specifically provided in the bill, the ordinary income treatment applies any time property is disposed of. The bill, however, provides six general categories of exceptions to this rule. The first exception is for gifts. As pointed out above, however, these deductions must be taken into account by the donee, and may result in ordinary income to him, if he sells the property. In the case of depreciable property which is given to a charitable organization, although no income is realized by the donor at the time of the gift, the amount of the charitable contribution deduction he may receive is reduced by the amount which would have been treated as ordinary income had the property been sold at its fair market value (an amendment adding a new sec. 170(e)).

A second exception to the realization of ordinary income upon the disposition of depreciable personal property is provided in the case of transfers at death (except where the sale has occurred before death and the income is treated as income in respect to a decedent under sec. 691). In this case, however, there is not a carryover of the income potential in the depreciation deductions to the decedent's legatee or heir.

A third category of exceptions to the realization of ordinary income is provided in the case of a series of transactions which generally are tax free and in which the basis is carried over. However, in these transactions where there is any gain recognized, because the exchange is accompanied by "boot" (i.e., money or its equivalent) then to the extent of this gain, ordinary income may be realized (unless the depreciation deductions are smaller). The tax-free transactions referred to relate to those occurring upon the complete liquidation of a subsidiary (sec. 332); in the case of a transfer for stock or securities to a corporation controlled by the transferor (sec. 351); in the case of a transfer by a corporation which is a party to a reorganization of property in pursuance of a plan of a reorganization solely for stock or securities in another corporation also a party to the reorganization (sec. 361); and in the case of reorganizations in certain receivership and bankruptcy proceedings (sec. 371(a) and sec. 374). Also included in the same category are contributions of property to a partnership in exchange for an interest in the partnership, and distributions by a partnership in partial or complete liquidation of an interest (but in this respect see the special partnership treatment described below). Despite the above rule there would be a recognition of ordinary income where there is a contribution of depreciable property to a tax-

exempt organization (other than a tax-exempt farm cooperative) in exchange for stock or securities in the exempt organization. Recognition of ordinary income in this case is provided because a disposition of the property by the exempt organization would not ordinarily give rise to the realization of ordinary income with respect to the depreciation deductions.

Another exception is provided in the case of so-called like kind exchanges of property used for production or investment, and for involuntary conversions. In exchanges of these types, the ordinary income realized is limited to any gain recognized, plus the fair market value of property acquired in exchange for depreciable property where the latter is exchanged for nondepreciable property or other non-qualifying property. The realization of ordinary income (to the extent of the depreciation deductions) is necessary in such cases since in the case of property, other than depreciable personal property, there is no opportunity for subsequent recovery of the ordinary income element. A similar exception is provided in the case of the exchange or sale of property in obedience to Federal Communications Commission orders or orders of the Securities and Exchange Commission (secs. 1071 and 1081). In these cases also, the ordinary income realized is limited to the gain recognized, plus any unrecovered depreciation charges with respect to exchanges of depreciable personal property for other types of property.

Special rules are also provided in the case of distributions of depreciable personal property by a partnership to a partner. A distribution of depreciable personal property by a partnership to a partner to the extent that the distribution accounts for the partner's share of gain attributable to this property is not to result in ordinary income to the distributee partner at the time of the distribution. However, the ordinary income potential of depreciation deductions taken by the partnership (or by any earlier transferee from whom the partnership acquired property without realization of gain) will be carried over to the distributee partner. When he disposes of this property, the ordinary income potential of these partnership (or pre-partnership) depreciation deductions will be taken into account in a manner substantially the same as that applying where the taxpayer himself took the depreciation deductions. The property distributed is given a "recomputed basis" to the partner equal to the basis of the property in the hands of the partner plus any ordinary income gain on which the partnership would have been taxed had the property been sold by it (at its fair market value) immediately before the distribution.

The rule described above applies only to the extent a partner is considered as receiving his share of the property representing ordinary income gain. An amendment made elsewhere to the code (sec. 751(c)) provides that in other cases the ordinary income element in depreciable property is to be considered as a "unrealized receivable." Thus to the extent of depreciation deductions taken (or potential gain if smaller) ordinary income will be realized in the case of the sale of a partnership interest, in the case of a distribution to a retiring or deceased partner, and in the case of distributions to a partner where he receives either more or less than his proportionate share of property reflecting this type of gain.

3. Dispositions resulting in ordinary income where no gain is presently recognized.—In a series of situations your committee found it necessary

to recognize ordinary income even though capital gain in such situations is not recognized under existing law. This was done primarily in those cases where the transferee receives another basis for the property than that of the transferor. This treatment is provided in three types of cases where a distribution is made by a corporation without the payment of a tax at the corporate level on unrealized appreciation in value: namely, where the property is distributed as a dividend (under sec. 311), where the property is distributed in a partial or complete liquidation by a corporation (sec. 336), and where in a plan of complete liquidation a corporation sells the depreciable personal property and perhaps other assets and within a 12-month period completes the liquidation of the corporation (sec. 337). Similarly, if the property is first sold by a corporation for installment notes and the gain which would be realized on such sale is delayed because of the installment method of reporting, a distribution of these notes to the shareholders in a liquidation under section 337 (12 months' liquidation) results in the recognition of the same amount of ordinary income to the corporation as would have been realized on a cash sale of such notes. The same rule is applied whenever similar installment notes are distributed by a corporation in a liquidation in which the basis of the property to the receiving shareholder is determined under section 334(b)(2) (purchase of 80 percent of the stock of one corporation by another followed by the immediate liquidation of the corporation acquired). The other situations where ordinary income may be realized under this provision, although capital gain would not otherwise occur, include the case where a distribution is made by a partnership and the partner gives up, or acquires, more than his proportionate share of this property. Other cases involve the provisions relating to the exchange of "like kind" property, involuntary conversions, sales or exchanges to effectuate FCC policy, and exchanges in obedience to orders of the FEC. In all of these cases where the property received in exchange for depreciable personal property is not itself depreciable personal property, then gain is recognized.

4. *Salvage value.*—The bill also amends the code (a new subsec. (f) in sec. 167) to provide that in computing the basis on which depreciation may be taken for personal property, salvage value may be ignored to the extent of an amount equal to 10 percent of the cost or other basis for the property. Thus, if the expected salvage value equals 8 percent of the basis of the property, the entire basis may be written off in depreciation charges by the taxpayer. If the expected salvage value is 12 percent, all but 2 percent of the basis of the property can be taken into account in computing depreciation charges. The provision applies to depreciable personal property (other than livestock) with a useful life of 3 years or more acquired after the date of enactment.

5. *Change in method of depreciation.*—Your committee recognized that some taxpayers who have been following liberal depreciation policies may desire to follow more conservative policies in order to avoid the possibility ordinary income treatment at time of sale as provided by the bill. Therefore, the bill provides that a taxpayer may elect to change his method of depreciation with respect to depreciable personal property from any declining balance or sum of the years digit method to the straight-line method. The right to make

this election will be available for a period to be specified by the Secretary of the Treasury, after the regulations on this provision have been issued.

6. *Effective date.*—This provision is to apply with respect to taxable years beginning after December 31, 1961, and ending after the date of enactment of this bill.

XVI. FOREIGN INVESTMENT COMPANIES

(Sec. 15 of the bill and secs. 1246 and 1247 of code)

A. Reasons for provision

For the small investor who desires to diversify his shareholdings through the use of domestic mutual funds, or regulated investment companies, present law provides that if a series of conditions are met, including the distribution of at least 90 percent of the earnings of the regulated investment company no tax is imposed on the investment company to the extent it distributes its earnings. Thus, if a domestic company distributes its income currently, present law provides for the imposition of a single, rather than a double, tax, and that one is imposed on the investor rather than the company.

Increasingly in recent years, however, some taxpayers have sought to avoid this tax by investing in foreign investment companies rather than domestic companies. Under present law a foreign investment company usually pays no U.S. income tax, since U.S. tax is imposed only on income derived from sources within the United States and such companies generally have no U.S. securities and, therefore, have no income from U.S. sources. The U.S. shareholders of one of these investment companies are likely to pay a U.S. tax with respect to such investments only when they sell the stock and then, of course, this gain is taxed as a capital gain rather than ordinary income. The U.S. shareholder would, of course, pay tax on any dividend income received from such a company, but most of these companies follow the announced policy of reinvesting all of their income in stocks or bonds in order to prevent the imposition of any such dividend tax by the United States.

The tax avoidance occurring in the case of these foreign investment companies is a matter with which your committee has been concerned for many years. For example, in November of 1956, in one of your committee's press releases, the tax treatment of these foreign investment companies was listed as a tax avoidance scheme needing attention. Since that time the seriousness of this problem has increased substantially. This also is a problem referred to by the President in his tax message last year. At that time the President stated:

For some years now we have witnessed substantial outflows of capital from the United States into investment companies created abroad whose principal justification lies in the tax benefits which their method of operation produces. I recommend that these tax benefits be removed and that income derived through such foreign investment companies be treated in substantially the same way as income from domestic investment companies.

It was proposed by the administration that the preferential treatment for investments in these foreign investment companies be

eliminated by requiring U.S. shareholders in such companies to pay tax currently on their share of the income derived from the foreign investment company. The provisions included by your committee in this bill achieve much the same result but without attempting to look through the foreign corporation to the American shareholders.

Your committee's bill in general terms provides that American shareholders in these foreign investment companies, when they sell or redeem their stock, are to be taxed at ordinary income rates on their share of any earnings and profits accumulated in the foreign investment company since December 31, 1962, or since the date they acquired the stock, whichever occurred more recently. However, your committee's bill also provides that this treatment can be avoided at the election of the foreign investment company if it distributes 90 percent of its taxable income other than net long-term capital gains currently and if it informs the U.S. shareholders of their share of any net long-term capital gains. However, for this treatment to apply, the U.S. shareholders must also include in income their share of capital gains whether or not distributed. The distributions of ordinary income in this case, since they are actual distributions, would, of course, in any case be reported for tax purposes by the U.S. shareholders.

B. General explanation of provisions

As indicated above, the bill provides alternative tax treatment for shareholders of foreign investment companies. Unless an election is made to the contrary, ordinary income treatment, to a limited degree, is provided at the time an investor in a foreign investment company either sells his stock or it is redeemed. However, if the companies distribute most of their taxable income and the shareholders report capital gain, whether or not distributed, then at their election the ordinary income treatment at the time of the sale of the stock is not to apply. These two alternative provisions are discussed below.

1. *Ordinary income treatment on sale of stock.*—The bill provides that on the sale or exchange of stock in a foreign investment company after December 31, 1962, any gain realized is to be treated as ordinary income, rather than a capital gain, to the extent of the taxpayer's share of the company's earnings and profits accumulated in years beginning after December 31, 1962. For this purpose the taxpayer's share of these earnings and profits is limited to those attributable to his stock which have been accumulated during the period he has held the stock (excluding any earnings taxed to him when the company was a foreign personal holding company or a controlled foreign corporation). Had the company been a domestic company, distributing most or all of its earnings, these same earnings would have been taxable to him. Thus, this provision is not designed as a penalty tax, but merely to accord, to the extent practicable, the same tax treatment as that provided for domestic regulated investment companies.

To give assurances that this ordinary income will not escape tax where the shareholder holds the stock until death, the bill provides that the step-up in basis, or increase in value, which would otherwise occur at date of death is not to occur with respect to the amount which would be ordinary income to the decedent had he sold the stock just before death. Thus, when the estate, heir, or legatee sells the stock, the same amount (assuming the stock has not gone down in value) will still result in ordinary income and will be subject to U.S. tax at that time. However, the estate, heir, or legatee in such a case can treat

this as "income in respect of a decedent." Thus, in computing his ordinary income tax he will be allowed a deduction for any estate tax attributable to inclusion in the decedent's estate tax base of the amount taxed as ordinary income.

Without regard to this provision, where a shareholder sells or exchanges stock in one of these foreign investment companies after holding it for not more than 6 months, the gain is short-term capital gain. Since this type of gain is treated much like ordinary income for tax purposes, the bill provides that if stock in a foreign investment company is held for 6 months or less the provision is not to apply.

A foreign investment company, for purposes of this provision is defined as a foreign corporation, either registered under the Investment Company Act of 1940 as a management or unit investment trust, or any other corporation engaged primarily in the business of investing, reinvesting or trading in securities where more than 50 percent of the voting stock (and total value of all shares) is held directly or indirectly by U.S. persons. "United States persons," a definition added to the code by the foreign trust provision in this bill (sec. 9), means a citizen or resident of the United States, a domestic partnership, a domestic corporation, and a domestic estate or trust.

To prevent avoidance of this ordinary income tax treatment through the use of tax-free (or partially tax-free) exchanges in which stock in a foreign investment company is exchanged for other stock (in a tax-free incorporation or contribution to capital under sec. 351), the bill provides that the substituted stock in such a case (where its basis is determined by reference to the basis of stock in a foreign investment company) is to be treated substantially as if it were the foreign investment company stock. Thus, upon its sale, any gain to the extent of the appropriate share of the foreign investment company's earnings and profits during the period the substituted stock was held (plus the period in which the foreign investment company stock itself was held) is to be treated as ordinary income.

The bill also contains several other provisions similarly designed to prevent the avoidance of the ordinary income treatment through indirect ownership of the foreign investment company stock through certificates in a trust, through stock in a domestic corporation, or through a partnership. In this respect it is provided first that a share of stock in a domestic corporation or a trust certificate is to be treated as foreign investment company stock to the extent it represents such stock. Secondly, it is provided that if a company is a member of an affiliated group (with a 50-percent rather than an 80-percent stock-ownership requirement), then the earnings and profits of the entire group are to be allocated under regulations prescribed by the Treasury Department in a manner to carry out the purposes of the bill. Thus, where a foreign corporation is a holding company in the sense that it holds the stock of one or more foreign investment companies, the shareholders of the holding company will not be permitted to avoid ordinary income on the sale of the foreign holding company stock merely because the earnings and profits of the investment company (or companies) have not been distributed to the holding company. Thirdly, the bill provides that the ordinary income treatment is to apply to redemptions of stock by a foreign investment company which would otherwise be treated as sale transactions because of section 302(a)

(disproportionate buy-out of a shareholder) or because of section 303 (a redemption of stock to pay death taxes). Finally, the bill deals with the sale or exchange of and also certain distributions with respect to partnership interests. The bill provides that if any of the property of the partnership were stock in a foreign investment company and would have resulted in ordinary income had it been sold by the partnership itself, then this amount is to be treated as an inventory item. Thus, the sale of the partnership interest (and distributions in certain cases) will generally result in the incurring of ordinary income treatment with respect to the foreign investment company stock underlying the partnership interest.

The bill provides that the shareholder upon sale of the stock must establish the amount of the accumulated earnings and profits of the foreign investment company and his share of these earnings during the period of his investment. If he does not do so, the entire gain will be treated as ordinary income. This information, of course, is necessary to determine the amount subject to ordinary income tax. In addition, the bill provides that every U.S. person owning 5 percent or more in stock of a foreign investment company is to furnish with respect to such a company such information as the Secretary of the Treasury deems necessary in order to properly enforce the tax provisions applicable to shareholders of these companies.

2. *Election to distribute income currently.*—Foreign investment companies which are registered with the SEC to sell stock in this country can elect to make the provision described above inapplicable under certain conditions. Any such election must be made before December 31, 1962.

For the provision referred to above to be inapplicable the electing foreign investment company must agree with respect to the current and all subsequent years to—

(1) distribute 90 percent of its taxable income to its shareholders. This is exclusive of capital gains.³ Also, such a corporation can elect to treat as distributed during the year distributions made in the first 2½ months after the end of the year.

(2) designate in written notices mailed to its shareholders their share of the excess of net long-term capital gains over net short-term capital losses, and the portion, if any, which the corporation has distributed. These notices must be mailed to the shareholders within 30 days after the close of the taxable year.

(3) provide such information as the Treasury Department considers necessary to carry out the purposes of this provision.

In addition to the corporation fulfilling these requirements, however, the individual shareholder (who is a U.S. person), if he is to avoid the ordinary income treatment upon the sale of his stock, also must include in his income for tax purposes the excess of the net long-term capital gain over the net short-term capital loss, which the company in its notice to him designated as being his share of the company's capital gains. If the shareholder does not do so for any year, unless this failure was due to reasonable cause and not to willful neglect, the election provided by this provision will not apply when he sells or otherwise disposes of his stock. Thus, although other shareholders

³ For this purpose, as in the case of domestic regulated investment companies, no net operating loss carry-over is allowed and no organizational expense deduction is allowed.

might continue to qualify in such a case, the shareholder who did not report this capital gain income, upon his sale of the stock will have ordinary income (limited as indicated above). It is not made a condition of qualification that the shareholder in such a case report his share of the ordinary income of the corporation. However, since at least 90 percent of his share of this income will actually be distributed to him, it must in fact be reported by him, in the same manner as any other dividend income which he may receive from foreign sources.

The bill provides that these capital gains, reported by the shareholders, although not actually distributed, are to result in a decrease in earnings and profits of the corporation for the shareholders who report them and also that the basis that they had for the foreign investment company stock is to be increased by this amount.

The election described above with respect to the foreign investment company continues until the company fails to comply with the three conditions set forth above, unless the company becomes a foreign personal holding company, or no longer is a foreign investment company.

To prevent the use of the capital gains designating provision as a means of obtaining short-term capital losses which may be short-term capital gains or under certain circumstances ordinary income, merely at the cost of reporting a capital gain under this provision, the bill provides that if the shareholder has held the stock for less than 6 months, then any loss realized on the sale of the stock within that 6-month period is to be treated as if it were a long-term rather than short-term capital loss.

3. Effective date.—The amendments made by this provision apply to taxable years beginning after December 31, 1962.

XVII. GAIN FROM CERTAIN SALES OR EXCHANGES OF STOCK IN CERTAIN FOREIGN CORPORATIONS

(Sec. 16 of bill and sec. 1248 of code)

A. Reasons for provision

Under existing law, through an ordinary taxable liquidation or sale or exchange, it is possible to bring earnings accumulated by a foreign corporation back to this country merely by paying a capital gains tax on any gain. Theoretically it is also possible to bring earnings accumulated by a foreign corporation back to the United States without payment of income tax through the use of a tax-free reorganization (under sec. 368) or through the use of a tax-free liquidation (under sec. 332). However, to do so the Commissioner of Internal Revenue must give clearance by determining in advance that the transaction "is not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income taxes." Generally the Commissioner has been unwilling to grant such approval where there is an appreciable amount of earnings and profits accumulated in a foreign corporation.

Your committee has as one of its objectives in the foreign income area the imposition of the full U.S. tax when income earned abroad is repatriated. These objectives are set forth more fully in connection with the discussion on controlled foreign corporations in section 13 of the bill. Full U.S. taxation will occur in the case of the ordinary,

taxable liquidations or sales or exchanges only if the earnings and profits are in effect taxed as dividends (to the extent of any gain) at the time the funds are brought back to the United States. This objective is accomplished by this section of your committee's bill.

B. General explanation of provision

The new provision contains special provisions dealing with redemptions and liquidations, as well as with sales and other exchanges of certain stock of controlled foreign corporations (as defined in sec. 13 on controlled foreign corporations). These apply if the foreign corporation, the stock of which is sold or exchanged, was a controlled foreign corporation at any time during the 5-year period ending on the date of the sale or exchange. However, they apply only to any U.S. person who owned 10 percent or more of the total combined voting power of the foreign corporation at any time during the 5-year period ending on the date of the sale or exchange. (In computing the 10-percent ownership test, the ownership rules applicable in the case of controlled foreign corporations are used.)

The bill provides that if a controlled foreign corporation redeems its stock, and if the redemption is not already a dividend (under sec. 302), then the gain to the stockholder from the exchange of his stock is to be treated as a dividend to the extent of his share of the earnings and profits of the foreign corporation. This provision applies in the case of a partial liquidation, a total liquidation or a buy-out of all of a shareholder's stock. If the shareholder is a domestic corporation, the foreign tax credit is allowed in the same manner as in the case of dividends generally.

In the case of a sale or exchange of stock of a controlled foreign corporation by a shareholder, the gain of the seller is considered by the bill to be ordinary income to the extent of his share of the earnings and profits of the foreign corporation accumulated during the period he held the stock.

The operation of the above two provisions may be illustrated by the following examples. Assume a U.S. corporation owns all of the stock of a foreign corporation and that the foreign subsidiary is liquidated. Assume further that the transaction is a taxable one because the commissioner refused to grant clearance under section 367. Under the bill this liquidation remains a taxable one. However, while under existing law all of the gain recognized to the domestic corporation probably would be capital gain, under the bill the domestic corporation is viewed as having received a dividend, to the extent of the earnings and profits of the foreign corporation at the time of the liquidation, or to the extent of the gain recognized, if that is smaller. Thus, if the basis of all of the subsidiary's stock is \$100,000 and the fair market value of all of the assets received by the parent on the liquidation is \$200,000, the gain which would be recognized under present law is \$100,000. If the foreign subsidiary had current and accumulated earnings and profits of \$50,000 at the time of the liquidation, under the bill the parent is treated as having received a dividend of \$50,000 and a capital gain of \$50,000. Any credit for foreign taxes paid would apply to the amount treated as a dividend in the same manner as in the case of an actual dividend of \$50,000.

In a second example, assume a domestic corporation proposes to acquire substantially all of the assets of a foreign corporation, solely

for voting stock of the domestic corporation. Immediately after this acquisition the foreign corporation is to be liquidated and its shareholders given stock of the domestic corporation in exchange for their stock in the foreign corporation. Assume also that clearance under section 367 is requested from the Commissioner and denied. The acquisition of the assets of the foreign corporation for the stock of the domestic one is not a tax-free acquisition (under sec. 368). Also, the distribution of stock of the domestic corporation to the shareholders of the foreign corporation is an ordinary taxable liquidation. Under the bill if any shareholder owned more than 10 percent of the stock of the foreign corporation during the preceding 5 years, and if the foreign corporation was a controlled foreign corporation at any time during that period, the provisions of the bill are to apply to such a shareholder. Thus, the shareholder will be treated as having received a dividend to the extent of the accumulated earnings and profits of the foreign corporation at the time of the liquidation or to the extent of his gain, whichever is smaller.

The section does not apply to redemptions to pay death taxes (sec. 303) nor does it apply to gain recognized because of boot on reorganization exchanges (sec. 356).

The section also does not apply to the extent that any amount of gain is under other code provisions treated as a dividend, a gain from the sale of an asset which is not a capital asset, or a gain from the sale of an asset held for not more than 6 months.

The bill provides that if there are any earnings and profits accumulated and not distributed which have already been included in gross income (under the controlled foreign corporation provision as added by sec. 13 of the bill) the amount which has been so included is not to be included in the same shareholder's income a second time.

The limitations described above on the amount to be treated as dividend or ordinary income are not to apply unless the taxpayer establishes the earnings and profits of the foreign corporation to be taken into account. If this is not established, any gain from a sale, exchange or redemption is to be considered a dividend, or ordinary income, as the case may be.

The section is made effective with respect to sales or exchanges occurring after the date of enactment of the bill.

XVIII. TAX TREATMENT OF COOPERATIVES AND PATRONS

(Sec. 17 of the bill and secs. 1381 to 1388 of the code)

A. Reasons for provision

In 1951 Congress passed legislation which, taken together with prior Treasury rulings, it generally was thought insured that earnings of cooperatives would be current taxable (to the extent they reflected business activity) either to the cooperatives or to the patrons. However, certain court decisions, notably, the *Long Poultry Farm* and *B. A. Carpenter* cases, held that noncash allocations of patronage dividends generally were not taxable to the patron, although they were deductible by the cooperative.

The President recommended that what was thought to be the law in 1951 be provided specifically in the statute. Under the recommendation cooperatives would be allowed to deduct amounts allocated

in cash or scrip as patronage dividends and patrons would be currently taxable on the patronage dividends allocated to them arising out of business activities.

Your committee's bill adopts an approach which in substance is substantially the same as that recommended by the President. It provides that the cooperative is not required to take patronage dividends paid in money, qualified allocations, or other property except the nonqualified allocations into account in determining taxable income. A deduction is also provided for the nonqualified allocations when they are redeemed. For the patron, the bill provides that these same amounts (to the extent not attributable to purchases of personal living or family items) are to be included in their income for tax purposes in the year received (or in the case of a nonqualified allocation, when redeemed).

Qualified allocations for this purpose are defined by the bill as including first, allocations which the patron can redeem in cash at their stated dollar amount at any time in the first 90 days after they are issued. Second, qualified allocations also include allocations which the patron has consented to take into account at their face amount as income (unless the patronage was with respect to personal living expenses or capital items). In the case of members, consent may be given by being a member of the cooperative if there is a provision in the bylaws requiring all members to agree to take the allocations into account. In the case of nonmembers (and members if the cooperative prefers) this consent can be provided by the patron signing an agreement to do so. Your committee believed that, since in the case of either the 90-day or consent allocation the patrons have constructively received the dividend and reinvested it, it is clear (where the patronage dividend arises from business activity) that it constitutes income to the patron and is properly taxable to him.

This amendment is effective for taxable years beginning after December 31, 1962, in the case of the cooperatives and in the case of patrons is effective with respect to amounts paid by the cooperatives in taxable years of the cooperative beginning after that date. Existing law will continue to apply with respect to allocations (including their redemption after the specified date) issued in earlier taxable years to which the new provisions do not apply.

B. General explanation of provision

This provision deals both with the tax treatment of cooperatives and the tax treatment of patrons.

1. *Cooperatives covered by provision.*—The tax treatment outlined here applies to the so-called tax-exempt farmers' cooperatives, to other farm cooperatives, to consumer cooperatives, and also to other corporations operating on a cooperative basis. The provision does not, however, apply to exempt mutual ditch, irrigation, or REA cooperatives, to mutual savings banks, building and loan associations, etc., or to mutual insurance companies. It also does not apply to presently taxable organizations which are engaged in furnishing electric energy, or providing telephone service, to persons in rural areas. These will continue to be treated the same as under present law.

2. *Patronage dividends.*—The bill provides that in determining the taxable income of a cooperative there is not to be taken into account patronage dividends which are paid in money, qualified allocations,

or other property (except nonqualified allocations).⁴ A deduction also is allowed for nonqualified allocations when they are redeemed in cash or other property (except allocations). If there is no taxable income in the year of the redemption against which to take this deduction for redeemed nonqualified allocations, the cooperative may obtain a credit or refund of the tax it paid in the prior year on the earnings represented by the allocations. This gives the cooperative assurance that the deduction for the redeemed patronage dividend will not be wasted.

Under present law patronage dividends paid by taxable cooperatives result in a reduction in the cooperative's taxable income only with respect to amounts paid during the taxable year in which the patronage occurred, or within the period in the next year elapsing before the prior year's income tax return is required to be filed (including any extensions of time granted). This is generally a 2½-month period. In the case of exempt farmers' cooperatives, these patronage dividends presently are taken into account as a reduction in taxable income if paid at any time before the 15th day of the 9th month following the close of the year, but there is no requirement that the patronage must have occurred in that year. Your committee's bill extends the time period in which taxable cooperatives can pay patronage dividends, and still take them into account in reducing taxable income, until this 15th day of the 9th month after the end of the year in question. This conforms the treatment already accorded exempt cooperatives. This period of time is also made available to both "taxable" and "exempt" cooperatives for payment of the other deductible amounts described below. In addition, exempt cooperatives are now required to pay the patronage dividends within 8½ months after the year when the patronage occurred. In the case of pooling arrangements extending over more than 1 year, the patronage is considered as occurring in the year in which the pool closes.

3. *Qualified allocation.*—Allocations, or more exactly written notices of allocation, are patronage dividends paid in the form of capital stock, revolving fund certificates, certificates of indebtedness, or other written notice which indicates to the recipient the dollar amount allocated to him by the cooperative. For the allocation to be a qualified allocation (and therefore taken into account as a reduction in income for the year it is issued rather than the year it is redeemed) one of two conditions must be met. First, it may be an allocation where the patron for a 90-day period beginning with the date the allocation is paid has the opportunity to redeem the allocation in cash for the stated amount of the patronage dividend. However, for such an allocation to be qualified, the patron must receive a written notice of this right to redemption at the same time he is notified of the allocation.

The second alternative qualifying rule provides that the allocation is qualified where the patron gives consent to have it treated as a distribution to him which he will take into his income for tax purposes (if the patronage arises from a business activity). This consent may take either of two forms. For members of the cooperative this consent may be given by becoming or continuing as a member after the cooperative has adopted a provision in the bylaws providing that membership in the cooperative constitutes such consent. In this case,

⁴ For purposes of the other internal revenue laws these patronage dividends are treated in the same manner as items of gross income for which deductions were allowed.

however, the member (or prospective member) must be furnished a written notice that the bylaws contain such a provision and must be furnished a copy of this provision. Such a consent cannot be revoked as long as the patron is a member. An alternative form of consent for members of the cooperative, and the only form of consent for nonmembers, is a written statement signed by the patron in which he gives the consent referred to above. This form of the consent must originally be given by the patron to the cooperative before the end of the year in which the patronage occurs. Once this consent is given it is valid for all subsequent years until the patron revokes it. A revocation becomes effective for the first of the next year (in the case of pooling arrangements it is effective only with respect to new pools). By either of these forms of consent the patron has in effect constructively received the patronage dividend and reinvested it in the cooperative.

4. *Additional deduction for "exempt" farmers' cooperative.*—In addition to reducing taxable income for qualifying patronage dividends, the bill permits the so-called exempt farmers' cooperative as under present law a deduction for amounts paid out as dividends on its capital stock. Such cooperatives also receive deductions for amounts paid in money, qualified allocations, or other property (except nonqualified allocations) to its patrons on a patronage basis where the earnings involved are derived from business done for the U.S. Government or from sources other than patronage (such as investment income).

This deduction, except that in the case of allocations it is limited to qualified allocations, is the same as that provided by existing law except that under your committee's bill, the amounts must now be paid within 8½ months after the year in which the earnings were derived. Amounts paid in the redemption of nonqualified allocations also are available to these exempt cooperatives as deductions under the bill.

5. *Treatment of patron.*—With the exceptions referred to below, under the bill the patron is required to take into income the patronage dividends (and the nonpatronage distributions described above) paid in money, qualified allocations, or other property and the amount he is required to take into his income is the same as that which may be currently deductible to the cooperative; namely, in the case of qualified allocations, their stated face amount and in the case of other property (except nonqualified allocations), its fair market value. The patron also is required to take into income any nonqualified allocations which are redeemed. These amounts are taken into the patron's income in the year in which they are received by him, or in the latter case in the year in which the redemption occurs.

Generally, the effect of the treatment specified above for patrons taken together with that also outlined above for cooperatives, is to obtain a single current tax with respect to the income of the cooperative, either at the level of the cooperative or at the level of the patron. However, this rule will not apply in the case of patronage dividends paid with respect to purchases of personal, living, or family items. In such cases, there is to be no inclusion in the income of the patron with respect to the patronage dividends. This is in accord with the concept that patronage dividends to the extent they are paid in money, qualified allocations, or other property (other than nonqualified

allocations) represent price adjustments. Therefore, the patronage dividends in these cases represent downward price adjustments of personal, living, or family items and should no more lead to taxable income than bargain purchases of such items elsewhere.

An exception to the rule for inclusion of the patronage dividends in income is also made for patronage dividends attributable to purchases of depreciable property or capital assets. In such cases the patron is not required to take the dividend into income since it in effect represents an adjustment in the price paid for these articles and therefore is reflected in their basis. However, the lower basis for the property in the case of depreciable property will mean smaller depreciation deductions or in the case of capital assets (and depreciable assets) will result in a larger gain upon sale.

6. *Returns of cooperatives.*—Because tax-exempt cooperatives under present law are given until 8½ months after the end of the year to allocate, or pay, patronage dividends, they also have been given the same period of time in which to file their tax returns. This additional time is necessary since whether or not there is an allocation or payment of the dividends, determines the size of the taxable income of the cooperative.

Allowing taxable cooperatives this same time in which to make cash and qualified allocations of patronage dividend distributions, and to redeem nonqualified allocations, has presented the same filing problem in the case of their returns as well. Therefore, the bill provides that the tax return filing date for cooperatives generally is to be 8½ months after the end of their taxable year. However, to prevent an organization allocating relatively little of its income on a patronage basis from obtaining this postponement in the filing date for its return, the bill limits this postponement to those organizations which are either exempt cooperatives or (1) are under an obligation to allocate, or pay, at least 50 percent of their net patronage earnings in patronage dividends or (2) actually allocated, or paid, at least that percentage of their earnings in patronage dividends during the last year in which they had any such earnings.

A second change made in the case of returns of cooperatives relates to information returns. Present law requires the Treasury Department to obtain information returns from cooperatives at least with respect to patronage dividends of \$100 or more. With a system of withholding on patronage dividends, as is provided by section 19 of this bill, it is no longer clear that it is necessary to retain the \$100 floor. In view of this, the bill amends the information return provision (sec. 6044) to permit the Treasury Department to raise this floor or completely remove any return requirements.

7. *Effective date.*—Generally, the bill applies to taxable years of the cooperatives beginning after December 31, 1962. For the patrons these provisions are to apply with respect to amounts received from a cooperative if the amount which is paid by the cooperative occurs with respect to patronage which at the cooperative level is also subject to the new rules. Existing law continues to apply with respect to patronage dividends paid before the date specified above (or after that date with respect to patronage in a prior year) and also with respect to redemptions of patronage dividends after that date if the scrip involved was actually issued with respect to an earlier period.

XIX. INCLUSION OF FOREIGN REAL PROPERTY IN BASE FOR ESTATE TAX PURPOSES

(Sec. 18 of bill and secs. 2031, 2033–2038, 2040 and 2041 of the code)

A. Reasons for provision

Under present law real estate situated outside of the United States is excluded from the gross estate and therefore exempt from the estate tax. This is an exception to the general rule that the gross estate of decedents who are citizens or residents of the United States include their entire property wherever situated. The exclusion of real property located outside of the United States from the estate tax base has been specifically provided for in the code since 1934. Before that time the exclusion was granted under an opinion of the Attorney General issued in 1918. No such exclusion exists under the gift tax.

In 1951 Congress adopted legislation providing a credit for estate and inheritance taxes paid to foreign countries. Before that time the exclusion of real property from the estate tax base could be justified on the grounds that the foreign country was likely to impose a tax on real property located within its jurisdiction upon the death of a foreign owner. However, with the provision for the tax credit in 1951, reducing the possibility of double taxation, the exclusion of foreign real property no longer appears appropriate.

The President in his tax program recommended that this exemption be eliminated on the grounds that in recent years this has been a subject of abuse. It was stated that primarily because of this tax advantage, U.S. citizens and residents have been induced to make investments in foreign real estate in countries with either no, or very low estate or inheritance tax rates.

In view of these considerations your committee has adopted a provision eliminating the exclusion of real property located outside of the United States from the estate tax base.

B. General explanation of provision

Under present law, real property situated outside the United States is excluded in determining the value of a decedent's gross estate for estate tax purposes. This section of the bill amends various sections of the code specifically to include such real property in the gross estate of decedents who are citizens or residents of the United States. The property is included at its fair market value either at the date of death or at the optional valuation date.

In the case of decedents dying after July 1, 1964, the bill provides that all real property located outside of the United States is to be included in their gross estate. However, some real property may also be included in a decedent's gross estate under the bill in the case of those who die after the date of enactment of the bill but before July 1, 1964. For decedents dying in this period, real property located outside of the United States is to be included in their gross estate if it was acquired on or after February 1, 1962, the date your committee announced its action on this provision. Thus, for those already owning real property outside of the United States before action was taken on this matter by your committee, time is provided for the orderly disposition of the property, or for rearrangement of estate plans—namely, until July 1, 1964—without imposing any estate tax consequences. However, your committee did not believe it appro-

prate to provide any similar grace period for those who acquired foreign real estate after the announcement of your committee's decision.

Capital additions or improvements to real property, to the extent they materially increase the value of the property and to the extent they are attributable to construction, reconstruction or erection on or after February 1, 1962, are treated in the same manner as real property acquired after that date. Thus, they are included in the gross estates of decedents dying after the date of enactment of the bill even though dying before July 1, 1964.

XX. WITHHOLDING OF INCOME TAX ON INTEREST, DIVIDENDS, AND PATRONAGE DIVIDENDS

(Sec. 19 of the bill and secs. 3451-3490 and sec. 39 of the code)

A. Reasons for provision

About \$15 billion in dividends and interest were reported by individuals on tax returns in 1959, the latest year for which complete Treasury data are available. In addition, there were about \$3.7 billion in dividends and interest that should have been reported in that year but were not. Most of this amount was subject to tax and the Treasury Department estimates that this underreporting resulted in a revenue loss of about \$800 million in taxes for the year. Withholding will result in the collection of about \$650 million of this amount and it is believed that almost all of the remaining gap will be accounted for when the automatic data processing system is fully developed. Your committee believes this provision also will make a real contribution toward the collection of the remaining \$150 million of uncollected tax on dividends and interest.

Not only is the revenue loss in this case of major importance, but as the President pointed out in his tax message to Congress last year with respect to this underreporting:

This is patently unfair to those who must, as a result, bear a larger share of the tax burden. Recipients of dividends and interest should pay their tax no less than those who receive wage and salary income, and the tax should be paid just as promptly. Large continued avoidance of tax on the part of some has a steadily demoralizing effect on the compliance of others.

Although educational programs have been used in attempting to cut down this underreporting there is no evidence that these programs have had any appreciable effect, nor can it properly be said that automatic data processing, even when fully developed several years from now, will be an adequate substitute for withholding. As indicated to your committee by the Treasury Department and Internal Revenue Service, withholding and ADP are designed to complement each other. Withholding collects the tax in the first bracket where the amount of underreporting per case are small, but, because of the large number involved, add up to a large proportion of the \$850 million gap. Withholding in this area eliminates the necessity of using auditors or correspondence to actually collect these small amounts, while even where the ADP system would be successful in tracing them down a collection

effort still would be necessary to collect these small amounts. Secondly, withholding makes it unnecessary to drastically lower information return requirements with respect to interest and third, it frees ADP for more intensive use in examining returns above the first bracket where, per case, the underreporting, not only in the case of dividends and interest but in the case of other income as well, is substantially greater. The Treasury Department has estimated that while ADP would result in the collection of \$200 million additional revenue in the case of dividends and interest at an administrative cost of \$27 million, withholding will result in a revenue increase of \$650 million at only an administrative cost of \$19 million.

The system of withholding provided by your committee while, of course, it does not completely eliminate administrative problems for dividends and interest recipients and payors nevertheless is designed to minimize these problems, particularly in the case of the recipients.

First, in the case of recipients—

- (1) An exemption system in the case of dividends, most forms of interest and patronage dividends means that there would be no withholding for individuals owing no income tax.

- (2) In the case of individuals where the withholding is large relative to the tax liability, quarterly refunds which can be obtained during the year give assurance that even these taxpayers will not be out-of-pocket the overwithheld money any appreciable period of time. Moreover, the system is designed to minimize the paperwork for them.

- (3) Permitting corporations to claim credits for the tax withheld on them against their withholding on their own dividend or bond interest payments, plus permitting them on a quarterly basis to obtain refunds of any excess should eliminate almost all effects of withholding in their cases.

- (4) In the case of tax-exempt organizations and governmental units, permitting the claiming of credits for tax withheld on them against the withholding they already perform on wage and salary payments to their own employees, plus exemptions or exemption certificates in certain cases, plus the provision for quarterly refunds should eliminate or minimize any withholding effects in their cases.

Second, by providing for withholding at a uniform 20 percent without any requirements for supplying receipts should ease problems both for the payors and the recipients. The even 20-percent rate will minimize problems with fractions in dividend and interest computations and make it easy for the individual to include in his return, and claim credit for, the amount withheld, merely by increasing the 80 percent remaining after withholding by 25 percent.

Third, the retention of a uniform withholding rate applicable in all cases, except where the exemption certificates are filed, should hold to a minimum the actual administrative problems of the payors since they will be able to send a single check to the Government equal to 20 percent of their gross dividend or interest payments (apart from those with respect to which exemption certificates were filed).

Fourth, dividend and interest payors are compensated for any additional administrative costs they may have by being permitted to retain the use of the withheld amounts of tax until 1 month after the end of the quarter of their taxable year to which the interest relates.

B. General explanation of provisions

The bill provides that payors of interest, dividends, and patronage dividends are to withhold one-fifth or 20 percent of the payment they would otherwise make to the interest, dividend, or patronage dividend recipient, with certain exceptions noted above. This withheld amount is to be paid over to the Government by the payor (sec. 3481) by the last day of the first month after the end of each quarter of the payor's taxable year (April 30, July 31, October 31, and January 31 for calendar year taxpayers).

The recipient of the interest, dividend, or patronage dividend payment when he files his own income tax return can claim credit for the payment made by the payor on his behalf. This withholding system does not require the attachment of any receipt by the recipient of the payment to his tax return (sec. 3489 provides a presumption that amounts have been withheld). It also does not require the payor to send the income recipient any receipt. Instead, it is presumed that, initially at least, payors will indicate in some communication to the recipient of the payment that the payment is "net," that is, reduced by one-fifth for the amount withheld for the Government.

It is contemplated that the recipient of the payment on his tax return first will report the net interest, dividend, or patronage dividend payment received. He will then be requested to add to this amount one-fourth of the amount received, representing the amount withheld. This is what is referred to as "grossing up" the interest or dividend payment. Thus, for example, if an individual were entitled to \$100 of dividends before withholding, one-fifth of this amount, or \$20 would be withheld by the payor and remitted to the Government. The remaining \$80 would be the net dividend payment received by the recipient. This is the amount he would initially report on his income tax return. He would be asked to add to this one-fourth of this amount, or \$20, bringing the total back to the full \$100 dividend payment. He would then compute his income tax in the usual manner. Finally, the tax otherwise owed would be reduced by the amount withheld with respect to this dividend payment, namely, \$20.

Under the bill, provision is made for exemptions from withholding in certain cases and also for quick refunds where no tax is owed or there is overwithholding. In addition, no withholding is provided in the case of certain types of interest and other payments.

The withholding provisions generally are to be effective with respect to interest and dividend payments made after January 1, 1963. In the case of patronage dividends, the withholding provisions will apply to payments with respect to patronage occurring in the first taxable year of the cooperative beginning after January 1, 1963.

1. *General definitions of interest, dividends and patronage dividends.*—The bill defines interest, dividends, and patronage dividends, to which withholding is to apply, in fairly broad terms and then specifies certain exceptions. The definitions are described here; the discussion of the exceptions then follows.

The definition of interest provided by the bill for the most part is limited to payments made by corporations where the holder of the indebtedness is likely to be an individual (although not necessarily actually so in any given case). In addition, where non-interest-bearing obligations are issued on a discount basis, no attempt is made to withhold on the payments received at the time of the redemption

of the obligation (except in the case of savings bonds). Withholding is not provided where discounts are involved because of differences in the tax treatment of original issue discount where the obligation is held to maturity by the initial holder and where it is acquired before that time by a subsequent purchaser.

In more specific terms, the bill includes within the definition of interest, to which withholding is applied, seven different categories of interest:

(1) Interest on evidences of indebtedness (such as bonds, debentures, notes, and certificates) issued by a corporation with interest coupons or in registered form. In addition, there is included interest on other types of indebtedness issued by a corporation where the instrument is of a type generally offered by corporations to the public, but only to the extent so provided by regulations issued by the Treasury Department. This will not include interest on mortgage paper generally, since mortgages usually are not of a type offered by corporations to the public.

(2) Bank account interest.

(3) So-called dividend payments made by mutual savings banks, savings and loan associations, building and loan associations, cooperative banks, homestead associations, credit unions, etc.

(4) Interest on amounts held by insurance companies under an agreement to pay interest. This does not include policyholder dividends but does include interest on accumulations of such dividends as well as other amounts held at interest by these companies. The withholding occurs at the time the amounts otherwise are required by law to be reported as income.

(5) Interest on deposits with stockbrokers.

(6) Interest on obligations of the United States. This does not include any obligations issued at a discount, such as Treasury bills (but see category 7 below).

(7) Interest on non-interest-bearing obligations of the United States issued at a discount and having a maturity of more than 1 year from the date of issue. This is primarily interest on series E savings bonds.

The definition of a dividend for purposes of the withholding tax is the same as that provided by the code for other purposes (as defined in sec. 316). However, in addition, "dividends" are defined as including payments made by stockbrokers as substitutes for dividends. Thus, if an individual has sold stock short, his broker may have borrowed stock for him from another person to cover his short sale. If a dividend becomes payable during the period of the loan of the stock, in such a case the stockbroker must make a payment to the person from whom the stock was borrowed as a substitute for the dividend he would otherwise receive (and obtain reimbursement for this payment from the person to whom the loan of the stock was made). Under the bill such a substitute payment by a stockbroker is treated as if it were a dividend for purposes of withholding.

In the case of patronage dividends withholding will apply to those paid in money, in qualified allocations, and in other property except nonqualified allocations. (See XVIII-B-3 for discussion of qualified allocations.) In addition, in the case of the so-called exempt farmer's cooperative, withholding is to apply to amounts not representing

patronage dividends where the amounts are paid to patrons in money, qualified allocations, or other property (except nonqualified allocations) if the payment is made on a patronage basis and the earnings involved are derived from business done with the United States or from sources other than patronage (such as investment income). Withholding does not, however, apply to so-called progress payments made by marketing cooperatives.

2. *General exceptions where withholding does not apply.*—The bill provides certain exceptions to the definitions of interest, dividends and patronage dividends subject to withholding. In the case of all three categories of payments the bill provides that no withholding is to occur with respect to amounts paid by one corporation to another where both are members of the same affiliated group and where a consolidated return was filed for income tax purposes in the past year. In such cases these intercompany transactions are “washed out” for tax purposes.

A second group of payments to which withholding is not to apply in the case of any of these three types of payments are those made to nonresident aliens and foreign corporations where there already is a special form of withholding by the payor under present law, or where there would be but for the fact that the income is not considered as income from sources within the United States.

A third group of payments to which withholding will not apply are interest, dividend, or patronage dividends paid by foreign corporations not engaged in trade or business within the United States. The corporation in such cases is not subject to U.S. jurisdiction although income received from it by a U.S. citizen or resident may be subject to U.S. tax.

In the case of interest payments, exemptions from withholding are also provided for—

(1) Interest on tax-exempt State and local obligations since these are not subject to income tax.

(2) Amounts paid by a foreign government, international organization, nonresident alien not engaged in a trade or business here, or a partnership not engaged in a trade or business here and composed in whole or in part of nonresident aliens. (An exemption for foreign corporations not in business here was previously noted.) In such cases the payor is not subject to U.S. jurisdiction although income received from it may be subject to U.S. tax in the hands of a U.S. citizen or resident.

(3) Bank account interest paid to foreign corporations, nonresident aliens, and foreign partnerships. In this case the income is not subject to U.S. tax.

(4) Amounts paid with respect to tax-free covenant bonds. The payor in such a case is required to pay the tax.

(5) Amounts paid with respect to deposits in school savings accounts to the extent provided by regulations. In such cases the exemption in general will be limited to children, the great bulk of whom would in any case owe no income tax.

(6) Bank account, mutual thrift and Government series E bond interest paid to States, foreign governments, and international organizations. In these cases the interest income is not subject to tax by the United States.

(7) Amounts paid by a U.S. agency or instrumentality to another U.S. agency or instrumentality if the Secretary of the Treasury determines that the withholding in this case represents an unnecessary burden. In this case also no tax would be due.

In the case of dividends, the additional exceptions where withholding is not to apply are as follows:

(1) Amounts paid in stock or stock rights where the distribution is not includible in the income of the recipient.

(2) Any distribution where the recipient treats the amount received as a capital gain or recognizes no gain or loss.

(3) Amounts which, even though includible in the income of the recipient, are treated as redemptions of stock (sec. 302), dispositions of section 306 stock, additional consideration in connection with certain reorganizations (sec. 356), or distributions pursuant to an SEC order (sec. 1081(e)(2)).

(4) Undistributed amounts treated as dividends of corporations electing subchapter S treatment (treatment similar to partnerships).

(5) Amounts paid under a lease entered into before 1954 where the shareholders of the lessor corporation are entitled to the amounts without deduction for any U.S. tax.

In the case of patronage dividends, in addition to the exceptions previously noted, where the Secretary of the Treasury determines that a cooperative is primarily engaged in selling at retail goods or services which are generally for personal, living, or family use, an exemption from withholding may be provided. Patronage dividends in this case are not includible in the income of the recipient and, therefore, need not be subject to withholding.

3. Exemption certificates and intra-annual refunds and credits for individuals.—To prevent hardships in the case of those who owe no tax on their interest, dividends, or patronage dividend payments, or who are subject to overwithholding, the bill contains a series of provisions providing for exemption from withholding or refunds or credits of the withholding tax. Under this heading there are presented those provisions applicable in the case of individuals. This is followed by discussions of the provisions applicable to governmental units and tax-exempt organizations, to corporations generally, and finally to nonresident aliens.

In the case of individuals, interest, dividend, and patronage dividend withholding is not to apply where the individual files an exemption certificate with the payor of the dividend or interest, certifying that he reasonably believes he will not be liable for the payment of any income tax for the year in question (sec. 3483).

For those under age 18, the exemption certificates can be filed whether or not the individual expects to have any tax liability and once filed, need not be filed again. Instead the payors will remove their names from their exemption lists at the first of the year in which they become 18. Permanent exemption certificates are feasible in the case of children because of the relatively small proportion of them owing any tax.

The exemption certificates generally must be filed with the dividend or interest payor once a year. They may be filed with respect to bank account interest, patronage dividends, and certain dividend payments, but not with respect to corporate or Government bond

interest (other than savings bonds referred to below). An exception is necessary for corporate and Government bond interest because of the difficulty of making exemption certificates work where these bonds are transferred from one holder to another between interest payment dates, where one such holder might be exempt and the other not. Because of problems in handling the exemption certificates, for dividends to be eligible for exemption certification the stock must not be held in the name of a stockbroker or other nominee.

The exemption certificates apply in the case of series E savings bonds but instead of filing one exemption certificate a year in such cases, a separate exemption certificate is required to be filed with respect to each transaction in which these bonds are cashed in. This is necessary since these bonds may be cashed at different places.

The bill provides that anyone who willfully files an exemption certificate, knowing the certification to be fraudulent or false, is to be fined not more than \$500 or imprisoned for not more than 1 year, or both.

In addition to the exemption certificates described above applicable where there is no tax liability, the bill provides for quarterly refunds payable during the year, where there is tax liability but the withholding is expected to be excessive. In the case of wage withholding it is possible for the payor to take into account directly the personal exemptions of the taxpayer. However, in the case of dividend, interest, and patronage dividend withholding, both because there is a much greater chance of multiple payors and also because of the greater likelihood of the purchase or sale of stock during the year, no system of having the payor take exemptions into account appears feasible. However, much the same effect is achieved by a quarterly refund system. Quarterly refunds are available to single persons expecting a gross income of less than \$5,000 and married individuals and heads of households expecting a gross income of less than \$10,000 a year. These quarterly refunds in no case are to be available for dependent children. (For treatment of refunds in their cases, see discussion below.)

Taxpayers whose gross income is expected to be below the specified amount may file one refund claim each quarter (at any time during the quarter). This claim may request a refund for any withholding on interest, dividends, or patronage dividends up to the amount of the taxpayer's "refund allowance." His "refund allowance" is 22 percent of—

- (1) his expected deductions for personal exemptions, plus
- (2) his expected retirement income, less
- (3) any other taxable income he expects to receive which is not subject to dividend or interest withholding.

A subtraction must also be made for any refunds received in earlier quarters during the year. In effect this grants the taxpayer an exemption from withholding for his personal exemptions, retirement income credit, and (through a 22-percent factor rather than a 20-percent factor) his standard deduction similar to the exemption provided through employers for wage withholding.

Actually the taxpayer generally will need to compute his claim for refund only in the first quarter. In the second and third quarters it is expected that the Internal Revenue Service will automatically mail him partially completed refund claims refund, based upon the infor-

mation the taxpayer previously submitted. This procedure can be followed in all cases where the taxpayer indicates his income status has not changed significantly from his prior expectations. For the fourth quarter the refund is to be claimed on the regular tax return of the individual which he may file immediately after the end of the year.

To minimize small adjustments, the bill provides that the intra-annual refund claims may be filed only for amounts of \$10 or over. However, where the excess withholding for one quarter may be below \$10 but the cumulative amount for two or more quarters is above \$10, an intra-annual refund is then permitted.

The manner in which the quick refund works can be illustrated by the example of a husband and wife, both over age 65, who receive interest payments of \$1,500 four times a year. Assume that this is their only income and it is subject to withholding. Assume further that the couple expect to file a joint return for the year, are allowed four exemptions, and that each receives half of the income. Both are eligible for the maximum retirement income credit.

Calculation of refund allowance

(1) Allowance for exemptions (4×\$900).....	\$2,400
(2) Plus: Allowance for retirement income credit (\$1,200 for each of them).....	2,400
(3) Less: Income subject to tax, other than dividends and interest subject to withholding.....	
(4) Total.....	4,800
(5) Refund allowance for year, 22 percent of line (4).....	1,056

	1st quarter	2d quarter	3d quarter
(6) Amount withheld (20 percent of \$1,500).....	\$300	\$300	\$300
(7) Refund allowance for year.....	1,056	1,056	1,056
(8) Refund for prior quarters.....		300	600
(9) Refund allowance (7) - (8).....	1,056	756	456
(10) Refund (smaller of (6) or (9)).....	300	300	300

At the end of the year the couple will compute their tax (\$120) in the usual manner. From this they will deduct the amount withheld. Initially \$1,200 was withheld but through refunds in the first three quarters this was reduced to \$300. After offsetting the tax of \$120, there still would remain a refund of \$180 at the end of the year. This could be claimed by filing the final return in January following the end of the year.

In addition to the use of exemption certificates and intra-annual refunds as outlined above, taxpayers required to file declarations of estimated tax may take credit on such declarations for amounts withheld with respect to interest and dividends in the same manner as they presently do in the case of wage and salary withholding (sec. 6015). In addition, an ordinary annual refund claim may be made with respect to excessive withholding on interest and dividends as is presently true of wage withholding (see amendment to sec. 6401).

One further type of crediting is also provided by the bill. This relates to withholding on interest, dividends, and patronage dividends received by dependent children of the taxpayer who have not filed exemption certificates. In such cases, if the child has not separately filed a claim for refund, and the child's gross income is less than \$600

and is not subject to any wage withholding, then the parent of the child may, on the parent's return, claim a credit for the amount of the withheld tax with respect to the child's interest, dividend, or patronage dividend.

4. *Exemption certificates, intraannual refunds and credits for governments and exempt organizations.*—In the case of savings account and Government savings bonds the bill provides that exemption certificates can be filed by exempt organizations (other than exempt cooperatives). In these cases the exemption certificates once filed remain in effect as long as the organization is exempt. The same effect is achieved in the case of States, local governments, foreign governments and international organizations by the exceptions making withholding inapplicable in the case of the same types of interest.

The bill also provides that the governmental unit or tax-exempt organization may offset the withholding on dividends and interest income it receives against the amount it is required to withhold with respect to its employees for social security and Federal income tax purposes (sec. 3505).

In addition, refunds may be claimed in the case of these State or local governments or tax-exempt organizations for amounts not credited in the manner described above against social security or wage withholding taxes. These refunds may be made to the governmental unit or exempt organization on a quarterly basis during the year of liability. Quarterly refunds may also be filed by the U.S. Government and by foreign governments or international organizations and foreign central banks of issue (to the extent the income on which the withholding occurs in the latter case is not derived from any commercial banking functions (sec. 3485)).

5. *Credits or refunds for corporations.*—Because of the 85-percent intercorporate dividends received deduction, any net tax on dividends received by corporations is likely to be less than 8 percent. In addition to the low rate of tax applicable, there has been little difficulty in collecting tax from corporations. In view of these considerations, the bill permits the crediting or quarterly refunding of the entire amount withheld in the case of amounts received by corporations.

First, any amount withheld on interest and dividend payments received by corporations (including cooperatives) can be claimed as credits against the tax they are required to withhold with respect to their own dividend and interest payments (sec. 3487). For this purpose, withholding on interest and dividends received by one corporation may be claimed as credit against interest or dividend payments made by another corporation which is a member of the same affiliated group.

Any amount withheld with respect to interest and dividends received by a corporation in excess of the credits it claims with respect to its own withholding on interest and dividends may be refunded to the corporation on a quarterly basis (during the year of liability) (sec. 3486). In addition, for purposes of an estimated tax required of a corporation, any amount withheld (which is not credited or refunded as provided above) may be treated as a payment of the corporation's estimated tax (sec. 6655(f))

6. *Nonresident aliens and foreign corporations in the case of nominees.*—Although the present withholding statutory withholding rate on payments to nonresident aliens and foreign corporations is 30 percent, this rate has been lowered by regulations in many cases to conform with the tax rates under treaty provisions. As a result, the withholding rate applicable in these cases may be either above or below the 20 percent applicable under this bill to domestic dividend and interest payments. Where the dividend or interest payor makes the payment directly to the nonresident alien or foreign corporation, as under present law, he can apply the proper withholding rate. However, under present law where the interest or dividend payor makes the payment to a nominee, the latter withholds the appropriate amount.

Under the bill no special problem exists where the applicable withholding rate with respect to the nonresident alien or foreign corporation exceeds the 20-percent domestic withholding rate. In such cases where the nominee is the withholding agent he needs only to withhold the additional amount. A problem would exist, however, where the applicable withholding rate is less than the domestic 20-percent rate. This problem is met in the bill by providing that the amount required to be withheld, regardless of any treaty less than 20 percent. This, of course, does not change the actual rate of tax in such cases and any excess amounts withheld can be recovered by the aliens through refund claims. It is not intended that any inference should be drawn from the amendment as to whether there is presently any treaty requiring withholding at less than a 20-percent rate.

7. *Obligations sold between interest payment dates.*—Where an interest-bearing bond or other obligation is sold or exchanged between the interest payment dates, the bill provides that the amount withheld is to be treated as divided between the seller and the purchaser (or transferor and transferee) in proportion to the time (with respect to which the interest relates) which each holds title to the obligation. It is anticipated that the buyer and seller in such cases will take this treatment into account in the price at which the bond is sold. Thus, in the case of a \$100 interest payment where the seller of the obligation has held the bond for half of the interest payment period in question, he presumably will demand \$10 less than he otherwise would from the purchaser of the bond, since he knows that at the time of reporting his income for tax purposes he may claim a credit equal to this amount. Thus, he will demand of the purchaser one-half of the "net" interest (other factors being equal), or one-half of \$80; namely, \$40. This, plus the \$10 for which he can claim a credit, will provide him with the interest for the half of the period for which he held the obligation.

8. *Effective date.*—In general, this provision is to apply in the case of interest and dividends paid on or after January 1, 1963. (However, in the case of transferable obligations, the bill is to apply only to interest paid with respect to interest-payment periods commencing on or after January 1, 1963). In the case of patronage dividends paid on or after January 1, 1963, the bill is to apply with respect to patronage occurring on or after the first day of the first taxable year of the cooperative beginning on or after January 1, 1963.

XXI. INFORMATION WITH RESPECT TO FOREIGN ORGANIZATIONS

(Sec. 20 of the bill and secs. 6038, 6046, and 6678 of the code)

A. Reasons for provision

Representatives of the administration in appearances before your committee have asked for the right to obtain more information with respect to operations of Americans abroad. First, with respect to the annual information return, now required of domestic corporations controlling foreign corporations, it was requested that this return also be required of individual citizens or residents of the United States controlling foreign corporations. Second, in addition to the various specified types of information now required to be submitted, it was also requested that the Treasury Department be permitted to require the furnishing of other information to that which is similar or related in nature to that specified in the existing provision. Third, existing law requires the supplying of this information with respect to a foreign subsidiary, or a subsidiary of such a subsidiary. It was desired that this information also be required of any other controlled foreign corporation. Fourth, it was requested that the definition of "control" be broadened to include most of the constructive ownership rules generally applied elsewhere in the code.

The administration also requested that the information return now required of officers, directors, and significant shareholders of foreign corporations upon the creation, organization, or reorganization of such corporations also be required of persons when they *become* officers, directors, or important shareholders.

In addition, the administration requested that a civil penalty be provided for those failing to file the returns as to organization, reorganization, etc., of foreign corporations. The penalty in this case is to be \$1,000 unless it can be shown that the failure is due to reasonable cause.

Your committee agreed that the submission of this additional information was desirable to give greater assurance that the proper U.S. taxes are paid in the case of these foreign operations.

B. General explanation of provision

1. Annual information return.—In 1960 (Public Law 86-780), Congress enacted legislation providing that domestic corporations must furnish with respect to foreign corporations which they control and also with respect to foreign subsidiaries of any such foreign corporations information specifying—

(1) The name, place, and nature of business of the foreign corporation and country of incorporation;

(2) The accumulated profits of the foreign corporation or subsidiary, including items of income, deduction, and other items taken into account in computing these accumulated profits;

(3) A balance sheet of the foreign corporation or foreign subsidiary;

(4) Transactions between the foreign corporation or foreign subsidiary and (a) other foreign corporations or foreign subsidiaries controlled by the domestic corporation, (b) the domestic

corporation or (c) any shareholder owning at least 10 percent of the stock of the domestic corporation; and

(5) A description of the various classes of stock outstanding and name and address and number of shares held by each citizen or resident of the United States and domestic corporation holding 5 percent or more of the stock of the foreign corporation or foreign subsidiary.

Corporations failing to supply the information required received reductions in their foreign tax credit otherwise available with respect to the income derived from the foreign corporations or their subsidiaries, from 10 percent up, depending upon the period of time the failure continued.

Your committee's bill amends this information provision in several respects. First, it requires U.S. citizens or residents, domestic partnerships and domestic estates or trusts as well as domestic corporations controlling the foreign corporations to supply the information specified. Second, "control" is redefined by adding most of the constructive ownership rules of the existing section 318(a). Third, the bill also extends somewhat the type of foreign corporation with respect to which information must be supplied. Existing law applied to foreign corporations controlled by Americans and subsidiaries which they control. In other words, it applies to two levels of ownership of foreign corporations. The bill extends the requirement to apply to any number of levels of ownership so long as there is control of the corporations involved. Fourth, in addition to the listed types of information, the Treasury Department may also require the furnishing of any other information which is similar or related in nature to that specified.

2. Information with respect to organization, reorganization, etc.— Present law also requires U.S. citizens or residents who are officers or directors of a foreign corporation within 60 days of its creation, organization or reorganization, and also U.S. persons who within the same 60-day period own 5 percent or more of the value of the stock of the corporation, to supply information with respect to this corporation. The return is required to contain such information as the Secretary of the Treasury or his delegate prescribes by forms or regulation as necessary to carry out the provisions of the income tax laws.

Under existing law it is possible to avoid this information requirement where the U.S. citizen or resident first becomes an officer, director, or owner of 5 percent or more of the value of the stock of the corporation after the 60-day period. To prevent this avoidance of the information requirement the bill extends the requirement for supplying the information so that it applies to those U.S. citizens or residents who are officers, directors, or shareholders with more than a 5-percent interest on January 1, 1963, or who acquire such positions after that date. This information also is to be supplied with respect to shareholders whose holdings after that date are increased to 5 percent (or where they acquire an additional 5 percent of the stock of the corporation).

Your committee has also added a new section to the code providing a civil penalty in the case of any person required to file the return referred to here who fails to do so at the time required, or who files

a return which does not show the information required. The penalty in this case is to be \$1,000 unless it is shown that the failure is due to reasonable cause.

3. Effective dates.—The amendments with respect to the annual information return apply with respect to annual accounting periods of the foreign corporations beginning after December 31, 1962. The amendments relating to the filing of returns as to organization, reorganization, etc., of foreign corporations takes effect on January 1, 1963.

XXII. TREATIES

(Sec. 21 of bill and sec. 7852(d) of code)

Section 7852(d) of the code provides that no provision of the Internal Revenue Title is to apply where its application would be contrary to any treaty obligation of the United States in effect on the date of the enactment of the Internal Revenue Code. Some believe that certain of the provisions of this bill may contravene provisions of existing income tax treaties. Your committee in the interest of forestalling any possible litigation on this point desired to make it clear that section 7852(d) is not to apply to any provision contained in this bill and if any provision of this bill should contravene any existing tax treaty, then the new statutory law is intended to have precedence over the prior treaty obligation.

XXIII. NEW ELECTION TO FILE SEPARATE RETURNS WHERE CONSOLIDATED RETURN HAD BEEN FILED

The Internal Revenue Code leaves to regulations issued by the Treasury Department requirements as to the filing of consolidated returns by an affiliated group and the requirements for changing from a consolidated return to separate returns. Generally it has been held that a consolidated return once filed must be continued in subsequent years unless there is a significant change in the tax laws. This is a matter which has been considered by your committee in connection with this bill and it believes that a new election to file separate returns where a consolidated return has previously been filed should be available for the first taxable year ending after the date of enactment of this bill.

TECHNICAL EXPLANATION OF THE BILL

SECTION 1. SHORT TITLE, ETC.

(a) *Short title.*—Section 1(a) of the bill provides that the bill may be cited as the “Revenue Act of 1962.”

(b) *Table of contents.*—Section 1(b) of the bill consists of a table of contents for the bill.

(c) *Amendment of 1954 Code.*—Section 1(c) of the bill provides that whenever in the bill an amendment or repeal is expressed in terms of an amendment to (or repeal of) a section or other provision, the reference is to be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

SECTION 2. CREDIT FOR INVESTMENT IN CERTAIN DEPRECIABLE PROPERTY

(a) *Allowance of credit.*—Section 2(a) of the bill redesignates section 38 of the code as section 40 and inserts a new section 38 in part IV of subchapter A of chapter 1 (relating to credits against tax).

Subsection (a) of the new section 38 provides that there is to be allowed, as a credit against the tax imposed by chapter 1 of the code, the amount determined under the new subpart B, added by section 2(b) of the bill. Subsection (b) of the new section 38 requires the Secretary of the Treasury or his delegate to prescribe such regulations as may be necessary to carry out the purposes of the new section 38 and the new subpart B.

(b) *Rules for computing credit.*—Section 2(b) of the bill adds a new subpart B to part IV of subchapter A of chapter 1 of the code. The new subpart consists of three sections (sec. 46–48) which are explained below.

SECTION 46. AMOUNT OF CREDIT

(a) *Determination of amount.*—Paragraph (1) of section 46(a) provides in general that the credit allowed for the taxable year is to be an amount equal to 8 percent of the qualified investment as defined in subsection (c) of section 46. Under paragraph (2) of section 46(a) the amount of the credit may not exceed so much of the liability for tax for the taxable year as does not exceed \$100,000 plus 50 percent of so much of such liability as exceeds \$100,000. However, the \$100,000 amount provided by section 46(a)(2) is reduced in the case of certain married individuals filing separate returns (see sec. 46(a)(4)), corporations which are members of affiliated groups (see sec. 46(a)(5)), trusts and estates (see sec. 48(f)(3)), and certain other special types of taxpayers referred to in section 46(d).

Under paragraph (3) of section 46(a), the liability for tax for the taxable year is defined as the tax imposed by chapter 1 (including the 2-percent tax on consolidated taxable income) reduced by the sum of the credits against the income tax allowed by sections 33, 34, 35, and

37. For purposes of determining the liability for tax, the taxes imposed by sections 531 and 541 (relating, respectively, to the accumulated earnings tax and the personal holding company tax) are not considered taxes imposed by chapter 1. Thus, the liability for tax as defined in section 46(a)(3) and the credit allowable for the taxable year under section 38 are determined before computing any tax imposed by section 531 or 541.

Paragraph (4) of section 46(a) provides generally that, in the case of separate returns filed by a husband and wife, the credit allowed to each may not exceed so much of the liability for tax for the taxable year as does not exceed \$50,000 plus 50 percent of so much of such liability as exceeds \$50,000. However, this reduction in the limitation applies only if the taxpayer's spouse is entitled to an investment credit for the taxable year of such spouse which ends with, or within, the taxpayer's taxable year. Such spouse may be entitled to an investment credit either because of qualified investment for (whether directly made or whether allocated to such spouse by, for example, a subch. S corporation or a partnership), or because of an unused credit carryover to, such taxable year.

Paragraph (5) of section 46(a) provides generally that the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) is to be reduced for each corporation which is a member of an affiliated group by apportioning \$100,000 among the members of such group in the manner prescribed by regulations of the Secretary or his delegate. An affiliated group within the meaning of section 46(a)(5) is one described in section 1504(a), except that any corporation may be treated as a member of an affiliated group. Thus, an affiliated group for purposes of section 46(a)(5) may include any of the corporations excluded by section 1504(b) from being a member of an affiliated group for purposes of filing a consolidated return. For example, an affiliated group within the meaning of section 46(a)(5) could include a corporation exempt from taxation under section 501 or a foreign corporation.

The application of the limitation provisions of section 46(a) may be illustrated by the following example:

The qualified investment of an unmarried taxpayer is \$2,050,000. His liability for tax for the taxable year is \$185,000. The credit computed without regard to the limitation in section 46(a)(2) is \$164,000 (8 percent of \$2,050,000). The allowable credit for the taxable year is \$142,500 (\$100,000 plus 50 percent of \$85,000).

(b) *Five-year carryover of unused credits.*—Subsection (b) of section 46 provides for a 5-year carryover of any unused credit. Under this provision, if the credit earned during the taxable year exceeds the limitation under section 46(a)(2) for that year (hereinafter referred to as "unused credit year"), the excess (the credit earned but not used to reduce tax for that year) is carried forward and added to the amount which would be allowable as a credit for each of the 5 succeeding taxable years to the extent the unused credit is not used to reduce tax for taxable years intervening between the unused credit year and the succeeding taxable year. The amount of the unused credit which may be so taken into account in any of the 5 succeeding taxable years is not to exceed the amount by which the limitation determined under section 46(a)(2) for such succeeding taxable year exceeds the sum of (1) the credit allowable for such succeeding taxable

year by reason of investment made in such year, and (2) other allowable unused credits which are attributable to years prior to the taxable year in which the unused credit originated. In determining the amount of the unused credit from a prior taxable year which may be taken into account in a succeeding taxable year, the credit allowable for the succeeding taxable year (determined without regard to carryovers of unused credits to that year) will first be applied. Unused credits originating from taxable years prior to the unused credit year will be applied next. If the credit earned and allowable for a succeeding taxable year, or the unused credits originating from taxable years prior to the unused credit year, exceed the limitation for such succeeding taxable year, the unused credit from the unused credit year will be carried forward to the next succeeding taxable year.

The application of the carryover of the unused credit provided for in subsection (b) of section 46 may be illustrated by the following example:

A taxpayer's credit based on his investment for the taxable year 1962 amounts to \$120,000, and the limitation under section 46(a)(2) is \$110,000. The taxpayer's unused credit for 1962 amounts to \$10,000 (\$120,000 minus \$110,000), which he may carry forward to 1963 and the 4 succeeding taxable years. The credit based on his investment for 1963 is \$135,000, and the limitation under section 46(a)(2) is \$120,000. Since the taxpayer is limited to a credit of \$120,000 for 1963, his total unused credits to be carried forward to 1964 amount to \$25,000, \$10,000 from 1962 and \$15,000 from 1963. The credit based on his investment for 1964 is \$135,000, and the limitation under section 46(a)(2) is \$140,000. The taxpayer first applies the \$135,000 for 1964 against the \$140,000 limitation. He next applies any unused credit carried forward from 1962 against the remaining \$5,000 allowable. Since the \$10,000 credit carried forward from 1962 is in excess of the \$5,000 remaining amount allowable for 1964, he has unused credits to carry over to 1965 of \$20,000, \$5,000 from 1962 and \$15,000 from 1963.

(c) *Qualified investment.*—Paragraph (1) of section 46(c) defines "qualified investment" to mean, with respect to any taxable year, the aggregate of the applicable percentage of the basis of each new section 38 property placed in service by the taxpayer during such taxable year, plus the aggregate of the applicable percentage of the cost of each used section 38 property placed in service by the taxpayer during such taxable year. Under paragraph (2) of section 46(c), the applicable percentage to be applied to the basis (or cost) is: (1) 33½ percent if the estimated useful life is 4 years or more but less than 6 years, (2) 66½ percent if the estimated useful life is 6 years or more but less than 8 years, and (3) 100 percent if the estimated useful life is 8 years or more.

The basis of "new section 38 property" is to be determined under the general rules for determining the basis of property. Thus, the basis of property purchased or constructed would generally be its cost. If property is acquired in a nontaxable exchange to which section 1031 applies by trading in old property and paying a cash difference, the basis of the newly acquired property would be equal to the adjusted basis of the old property, plus the cash paid.

The cost of each "used section 38 property" is to be determined in accordance with section 48(c)(3)(B). However, the aggregate cost

of used section 38 property which may be taken into account in any taxable year in computing qualified investment cannot exceed \$50,000. (See sec. 48(c)(2).)

The credit will apply to property only for the first taxable year such property is placed in service by the taxpayer. The date on which property is placed in service is the first date depreciation would be allowable to the taxpayer if he computed his depreciation deduction on a daily basis. Thus, in determining the date an asset is placed in service, the fact that the taxpayer, in computing his depreciation allowance, uses an assumed timing of additions under one of the "averaging conventions" is to be disregarded, but only for the purposes of the investment credit.

The estimated useful life of any property is to be determined as of the time such property is placed in service by the taxpayer, and with reference to the useful life in the hands of the taxpayer. Thus, if a taxpayer acquires used section 38 property with a remaining useful life of 3 years in his hands, such property will not qualify regardless of the original estimated useful life to the previous owner. See section 48(d) for the useful life to be used by certain lessees. The estimate of the useful life is to be based on the facts and circumstances known on the date the asset is placed in service.

An estimated useful life must be assigned to each separate property. Thus, if a taxpayer is using a multiple-asset account, he must assign a useful life to each asset in such account for the purpose of computing his qualified investment. If a taxpayer is using a method of depreciation, such as the units of production method, which does not measure useful life in terms of years, he must estimate useful life in years in order to compute his qualified investment.

The provisions of paragraphs (1) and (2) of section 46(c) may be illustrated by the following examples:

Example (1).—Corporation Y acquires and places in service during 1962 the following new and used section 38 assets:

Property	Estimated useful life	Basis or cost
	<i>Years</i>	
A (new).....	5	\$60,000
B (new).....	10	90,000
C (new).....	6	150,000
D (used).....	4	30,000

Corporation Y's qualified investment for 1962 is \$220,000 determined in the following manner:

Property	Basis or cost times applicable percentage	Qualified investment
A.....	\$60,000×33½ percent.....	
B.....	\$90,000×100 percent.....	\$20,000
C.....	\$150,000×66⅔ percent.....	90,000
D.....	\$30,000×33½ percent.....	100,000
Total.....		10,000
		220,000

Example (2).—Mr. X, unmarried, owns and operates a business as a sole proprietorship and reports income on a calendar year basis.

He is also a member of the XYZ partnership, which is also on a calendar year basis. During 1962 Mr. X acquires and places in service in his sole proprietorship a new section 38 property having an estimated useful life of 9 years and a basis of \$25,000. Also during 1962 the XYZ partnership acquires and places in service a new section 38 property having an estimated useful life of 4 years to the partnership and a basis of \$18,000.

X's share of the basis of the new section 38 property acquired by partnership XYZ is \$6,000. X's qualified investment for 1962 is \$27,000, composed of \$25,000 from his sole proprietorship (basis of \$25,000 times applicable percentage, 100 percent), and \$2,000 attributable to the property of the XYZ partnership (basis of \$6,000 times applicable percentage, 33⅓ percent).

Public utility property

Paragraph (3)(A) of section 46(c) provides that in the case of section 38 property which is public utility property, the amount of the qualified investment is to be 50 percent of the amount ascertained under section 46(c)(1) with respect to such property.

Paragraph (3)(B) of section 46(c) defines "public utility property" as property used predominantly in the trade or business of the furnishing or sale of (i) electrical energy, water, or sewage disposal services, (ii) gas through a local distribution system, (iii) telephone service, or (iv) telegraph service by means of domestic telegraph operations (as defined in sec. 222(a)(5) of the Communications Act of 1934, as amended; 47 U.S.C., sec. 222(a)(5)), if the rates for such furnishing or sale have been established or approved by a State (as defined in sec. 7701(a)(10) of the code) or political subdivision thereof, by an agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of any State or political subdivision thereof. The term "established or approved" by a State, etc., includes the filing of a schedule of rates with any of the named bodies having the power to approve such rates, even though such body has taken no action on the filed schedule.

If a taxpayer is engaged in one or more regulated activities enumerated in section 46(c)(3)(B) (hereinafter referred to as a utility activity) and is also engaged in a separate trade or business that is not considered a utility activity, property used in the latter trade or business is not subject to the reduction contained in paragraph (3)(A) of section 46(c). If property is used by a taxpayer both in a utility activity and a nonutility activity, the characterization of such property is to be based on the predominant use of such property during the taxable year the property is placed in service. Once property is characterized as public utility property, the fact that in any subsequent year such property is used predominantly in the nonutility business is to be disregarded.

"Public utility property" includes property leased to a taxpayer which uses such property predominantly in a utility activity. Thus, property leased to a taxpayer which uses the property predominantly in a utility activity during a taxable year is to be treated as public utility property for purposes of computing the lessor's credit. "Public utility property" also includes property which is leased to others by a taxpayer where the leasing of such property is part of its utility activity.

Section 38 property which is not public utility property is not subject to the 50-percent reduction contained in section 46(c)(3)(A). Thus, for example, in the case of property which is used predominantly in international telegraph operations, which is not used predominantly outside the United States, and which otherwise qualifies as section 38 property, the qualified investment is to be determined without reduction by reason of section 46(c)(3)(A).

The provisions of section 46(c)(3) may be illustrated by the following example:

Corporation X is engaged in a trade or business of furnishing telephone services, the rates of which have been established by a public utility commission. Corporation X is also engaged in a separate nonutility trade or business. During 1962 corporation X acquires and places in service two new section 38 properties, each with a basis of \$30,000 and an estimated useful life of 7 years. One of these properties is used exclusively in the utility activity. The other property is also used at times in the utility activity, but is used in the separate nonutility trade or business more than 50 percent of the time during the taxable year 1962. Corporation X's qualified investment is \$30,000, which includes \$20,000 attributable to nonutility property (\$30,000 basis times applicable percentage, 66⅔ percent) plus \$10,000 attributable to public utility property (50 percent times (\$30,000 basis times applicable percentage, 66⅔ percent)).

(d) *Limitations with respect to certain persons.*—Subsection (d) of section 46 limits the applicability of the credit with respect to certain persons. Paragraph (1) of section 46(d) provides that both the qualified investment and the \$100,000 amount specified under subparagraphs (A) and (B) of section 46(a)(2) are to be equal to a ratable share of such items in the case of the following organizations:

- (1) mutual savings banks, cooperative banks, and domestic building and loan associations, to which section 593 applies;
- (2) regulated investment companies and real estate investment trusts subject to tax under subchapter M; and
- (3) cooperative organizations described in section 1381(a).

Under paragraph (2)(A) of section 46(d), in the case of a mutual savings bank, etc., its ratable share of the qualified investment and the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) is equal to 50 percent of such items.

Under paragraph (2)(B) of section 46(d), in the case of a regulated investment company or a real estate investment trust, the qualified investment and the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) are to be taken into account in the same proportion as its taxable income (as defined in sec. 852(b)(2) or section 857(b)(2), respectively) bears to such taxable income computed without regard to the deduction for dividends paid (as defined in sec. 852(b)(2)(D) or 857(b)(2)(C), respectively).

Under paragraph (2)(C) of section 46(d), a cooperative organization described in section 1381(a) is to take into account its qualified investment and the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) in the same proportion as its taxable income bears to its taxable income increased by amounts to which section 1382 (b) or (c) applies and similar amounts the tax treatment of which is determined without regard to subchapter T (sec. 1381 and following). Thus, in the case of a taxable year of a cooperative

organization beginning before January 1, 1963, the denominator of the proportion for such organization is determined by adding to its taxable income any patronage dividends which are excluded or deducted and any nonpatronage distributions which are deducted under section 522(b)(1). In the case of any taxable year of the organization beginning after December 31, 1962, the denominator is determined by adding to taxable income (in addition to amounts to which sec. 1382 (b) or (c) applies) any amounts of the type described in the preceding sentence which are excluded or deducted without regard to section 1382 (b) or (c) because they are attributable to patronage occurring before 1963.

If any of these special taxpayers to which section 46(d) applies are members of an affiliated group as defined in section 46(a)(5), the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) is to be reduced in accordance with section 46(a)(5) before determining the ratable share of such item under section 46(d).

The provisions of section 46(d) may be illustrated by the following example:

The total qualified investment of a regulated investment company is \$150,000, and its investment company taxable income is \$50,000 after taking into account the deduction for dividends paid provided by section 852(b)(2)(D), and \$1 million without regard to such deduction. Such organization's qualified investment would be \$7,500

$\left(\$150,000 \times \frac{\$50,000}{\$1,000,000} \right)$. Similarly, the \$100,000 amount specified in subparagraphs (A) and (B) of section 46(a)(2) would be reduced to \$5,000 $\left(\$100,000 \times \frac{\$50,000}{\$1,000,000} \right)$, and the 50-percent limitation of section 46(a)(2)(B) would apply to the tax liability in excess of \$5,000.

SECTION 47. CERTAIN DISPOSITIONS, ETC., OF SECTION 38 PROPERTY

(a) *In general.*—Section 47 provides, in general, for an adjustment of prior credits (and credit carryovers) and an increase in the tax imposed by chapter 1 if property (1) is disposed of or otherwise ceases to be section 38 property with respect to the taxpayer before the close of the useful life which was taken into account with respect to such property in computing the credit, or (2) becomes public utility property. Subsection (a) of section 47 provides that adjustments due to the application of section 47 and increases in tax resulting from such adjustments are to be determined under regulations prescribed by the Secretary or his delegate.

Early disposition, etc.

Under paragraph (1) of section 47(a), the tax for a taxable year in which property is disposed of or otherwise ceases to be section 38 property before the close of the useful life which was taken into account in computing the credit is to be increased by the amount by which the credits allowed under section 38 for all prior taxable years have been decreased by reason of adjustments of the credits for such taxable

years. Such adjustment is to be made by recomputing qualified investment for the year in which the basis (or cost) of the property that ceases to be section 38 property was included in qualified investment and by recomputing the credit (and credit carryovers) accordingly. Qualified investment is to be recomputed by substituting, in lieu of the estimated useful life of the property that was originally taken into account in applying the applicable percentage, the period beginning with the time such property was placed in service by the taxpayer and ending with the time such property ceased to be section 38 property. This period is hereinafter referred to as the actual period of use. In determining the amount of the aggregate decrease in the credits allowed for all prior taxable years, due regard is to be accorded any previous recomputations of qualified investment, credits, and credit carryovers resulting from a prior application of section 47. Of course, if the actual period of use would have no effect on the appropriate applicable percentage to be applied, no adjustment is necessary. Thus, for example, if the estimated useful life is 10 years, and a disposition occurs resulting in an actual period of use of 8 years, no adjustment results, since the applicable percentage remains 100 percent in either case.

Except as provided in section 47(b), whenever section 38 property is disposed of, such property ceases to be section 38 property with respect to the taxpayer. In general, property will be considered disposed of whenever it is sold, exchanged, transferred, distributed, involuntarily converted, or disposed of by gift. Thus, a cessation will occur when property is contributed to a partnership or to a corporation. (However, see sec. 47(b) for an exception where the contribution of property constitutes a mere change in the form of operating the trade or business.) Generally, the lease of property is not considered to be a disposition for purposes of applying section 47. However, if a taxpayer leases out property which he would ordinarily dispose of by sale or exchange and it appears that a purpose of the lease is to avoid the application of section 47, then such lease will be considered a disposition.

Additional examples of property ceasing to be section 38 property include (1) property (or a portion thereof) which is no longer subject to depreciation with respect to the taxpayer because, for example, it is shifted from a business to a personal use, (2) property which is used in any taxable year predominantly outside the United States by a governmental unit, etc. Similarly, property of a partnership (or subch. S corporation or estate or trust) ceases to be section 38 property with respect to the taxpayer (partner, shareholder, or beneficiary) when such taxpayer sells his interest in the partnership (or shares of stock or beneficial interest). Furthermore, when section 38 property is leased, and the lessor elects to treat the lessee as the purchaser of the property under section 48(d), a termination of the lease and disposition of the property by the lessee will result in the application of section 47 with respect to the lessee.

The provisions of section 47(a)(1) may be illustrated by the following example:

Corporation X acquires and places in service a new section 38 asset on January 1, 1963. Such asset has a basis of \$30,000 and an estimated useful life of 8 years. Assuming this is the only section 38 asset corporation X places in service during its taxable year ending

December 31, 1963, X's qualified investment is \$30,000 (\$30,000 basis times applicable percentage, 100 percent). Such investment entitles X to a credit of \$2,400 (8 percent times \$30,000). Corporation X's liability for tax for 1963 is \$100,000, and X reduces its tax liability by the full \$2,400. On January 1, 1968, corporation X sells such asset. There will be added to the taxes imposed by chapter 1 for X's taxable year ended December 31, 1968, \$1,600 which is the aggregate decrease in credits allowed resulting solely from substituting a 5-year life for such asset in computing qualified investment in 1963. The sum of \$1,600 is arrived at by first applying an applicable percentage of 33⅓ percent to the basis, resulting in an adjusted qualified investment of \$10,000 (\$30,000 basis times 33⅓ percent, the applicable percentage based on the actual period of use of 5 years). Since the recomputed qualified investment results in an adjusted credit of \$800 (8 percent times \$10,000) the aggregate decrease in credits is \$1,600 (\$2,400 credit allowed minus \$800 adjusted credit).

Property becomes public utility property

Section 47(a)(2) provides that the credit is to be adjusted if during any taxable year any property previously taken into account in determining qualified investment as nonutility property becomes public utility property. Property becomes public utility property if in any one taxable year the property is used predominantly in a trade or business described in section 46(c)(3)(B) by the taxpayer or by a person leasing such property from the taxpayer. Once such property becomes public utility property in the hands of the taxpayer, the fact that in any subsequent year such property is used by such taxpayer predominantly in a nonutility activity is to be disregarded. (See sec. 46(c)(3)(B) for the definition of public utility property.)

In such a case, the tax liability for the taxable year in which the property becomes public utility property is to be increased by the amount that the credits allowed under section 38 for all prior taxable years is decreased by the adjustment. The adjustment is to be made by treating the property as public utility property beginning with the year the property was placed in service, but with due regard to the use of the property as nonutility property before such change in use. For purposes of the adjustment, it is assumed that the property will continue to be used as section 38 public utility property for the estimated useful life of the property which was taken into account in computing the credit in the year the property was placed in service.

The following table indicates the applicable percentage to be applied to the basis (or cost) of property which becomes public utility property for purposes of adjusting the credit. This table takes into account the 50-percent reduction required by section 46(c)(3)(A) in the case of public utility property, and gives due regard to the period during which the property is used as nonpublic utility property before the change in use.

	Original estimated useful life		
	4 to 6 years	6 to 8 years	8 years or more
If, before becoming utility property, property is held as non-utility property:			
Less than 4 years, the applicable percentage is.....	16%	33%	50
4 or 5 years, the applicable percentage is.....	33%	50	66%
6 or 7 years, the applicable percentage is.....	33%	66%	83%
8 years or more, the applicable percentage is.....	33%	66%	100

Thus, if property with an original estimated useful life of 8 years is used predominantly as public utility property after use as non-utility property for 4 years, the applicable percentage to be used in adjusting the credit under section 47(a)(2) is 66% percent (in lieu of the applicable percentage of 100 originally used for nonutility property having a useful life of 8 years or more). If property becomes public utility property and section 47(a)(2) applies, and if such property is subsequently disposed of or used in a manner causing section 47(a)(1) to apply, proper adjustment for the fact that section 47(a)(2) has previously applied is to be made in applying section 47(a)(1).

Carryovers adjusted

Section 47(a)(3) provides that carryovers of unused credits under section 46(b) are to be adjusted by reason of a disposition or other cessation described in section 47(a)(1), or by reason of a change in use described in section 47(a)(2). Thus, even if the recomputation of qualified investment required by section 47(a)(1) does not result in a decrease in the credits allowed, credit carryovers are to be adjusted.

The provisions of section 47(a)(3) may be illustrated by the following example:

In 1962, corporation X acquired and placed in service a number of section 38 assets. One of these was asset A which has a basis of \$300,000 and an estimated useful life of 8 years. X's qualified investment and tax liability for such year were \$2 million and \$200,000, respectively. In 1962, X's tentative credit was \$160,000 (8 percent times \$2 million), but because of the limitation contained in section 46(a)(2) the credit allowed for such year was \$150,000 (\$100,000 plus 50 percent of \$100,000). Therefore, a \$10,000 credit carryover was available for 1963 and succeeding years. On January 1, 1969, X trades in asset A in exchange for a new asset. Under these facts, corporation X must adjust its credit for 1962 by recomputing the qualified investment attributable to asset A. The original qualified investment with respect to asset A was \$300,000 (\$300,000 basis times applicable percentage, 100 percent); the recomputed qualified investment is \$200,000 (\$300,000 basis times applicable percentage, 66% percent based on the actual period of use of asset A). Therefore, the total recomputed qualified investment is \$1,900,000 (\$2 million minus \$100,000). In this case, the adjustment of the credit for 1962 will not affect the credit allowed in 1962 but will reduce the credit allowable as a carryover to 1963 and succeeding years. This is because in recomputing the credit, X's credit is reduced to \$152,000 (8 percent times \$1,900,000). Since X's adjusted credit is still in excess of the limitation of \$150,000 for 1962, there is no decrease in credits allowed in 1962, and hence no increase in X's tax liability for 1969 attributable

to credits allowed in 1962. Thus, only the \$10,000 unused credit carryover from 1962 is affected by the recomputation. Such carryover as adjusted is \$2,000 (\$152,000 adjusted credit for 1962 minus \$150,000 credit used in 1962). To the extent more than \$2,000 of the original carryover from 1962 has been used by the taxpayer as a credit against tax for 1963 or any succeeding year, such credits shall be adjusted and the decrease attributable thereto will be added to X's 1969 tax. However, if no more than \$2,000 of the original \$10,000 unused credit carryover has been used as a credit against tax, the result of the adjustment would be only to reduce the credit carryover.

(b) *Section not to apply in certain cases.*—Subsection (b) of section 47 provides exceptions to the adjustments required by section 47(a).

The first exception provides that section 47(a) will have no application to the transfer of property which arises by reason of an individual taxpayer's death. Thus, on the death of an individual taxpayer, the transfer of the decedent's property interests to his personal representative or heirs will be disregarded. Nor will section 47(a) apply to the transfer of a deceased taxpayer's interest held in joint tenancy (either as a joint tenant, or a tenant by the entirety) to the surviving owners of the property. The effect of this provision is that all properties held by a decedent at the time of his death for which the credit has been granted will be deemed held by the decedent for the useful life estimated by the decedent in computing his credits.

Another exception provided by subsection (b) of section 47 is that section 47(a) will not apply to the transfer of property to the acquiring corporation in a transaction to which section 381(a) applies. (See sec. 381(c)(23) for the treatment to be accorded the acquiring corporation with respect to the credits of the acquired corporation, including the sec. 47 adjustments with respect to dispositions by the acquiring corporation of property transferred by the acquired corporation.)

In addition, subsection (b) of section 47 provides, in effect, a suspension of the application of section 47(a) where there has been a mere change in the form of conducting a trade or business so long as (1) the property is retained in such trade or business as section 38 property, and (2) the taxpayer retains a substantial interest in such trade or business. On the occurrence of any event which results in a failure to meet either of the conditions described above, the property will be deemed to cease to be section 38 property when such event occurs. Thus, in determining whether the property ceases to be section 38 property before the close of its useful life, the period the property was held as section 38 property before the mere change in form of conducting the trade or business will be tacked on to the period beginning with the change in form and ending with the occurrence of the event which results in a failure to meet either of the conditions specified in the first sentence of this paragraph.

The phrase "a mere change in the form of conducting the trade or business" (whether through incorporation, the formation of a partnership, or otherwise) applies only to cases where the properties of a trade or business are transferred. Thus, the transfer of section 38 assets to a newly formed corporation in a transaction to which section 351 applies will not fall within the scope of the exception unless the transaction involves the transfer of the trade or business in which such assets were used.

The determination of whether the taxpayer has retained a substantial interest in the trade or business is to be made immediately after the change in form of conducting the business, as well as after each time the taxpayer disposes of a portion of his interest in the new enterprise. However, in any case where a taxpayer's interest in the business of the new enterprise remains constant in relation to his former interest, the taxpayer will be considered as having retained a substantial interest in the trade or business. Thus, where a taxpayer owns a 5-percent interest in a partnership, and after the incorporation of that partnership the taxpayer retains a 5-percent interest in the corporation, the taxpayer will be considered as having retained a substantial interest in the trade or business as of the date of the change in form.

The provisions of section 47(b) may be illustrated by the following examples:

Example (1).—On July 1, 1962, the XYZ partnership acquires and places in service asset A, a new section 38 asset, with a basis of \$30,000 and an estimated useful life of 8 years. One-third of the basis of such asset is taken into account by each of the three partners of the XYZ partnership in computing their individual credits. On January 1, 1964, the XYZ partnership transfers all of its assets to the XYZ corporation, a newly formed corporation, in exchange for all of the stock of XYZ corporation. Such stock is then transferred pro rata to the partners. The XYZ corporation continues to operate the same trade or business formerly conducted as a partnership. On September 1, 1970, the XYZ corporation sells asset A. Assuming all the partners have continuously retained a substantial interest in the XYZ corporation and asset A was used in the business as a section 38 asset until September 1, 1970, no adjustment is required under section 47 since the total holding period of asset A for each partner exceeds 8 years (18 months while used by the XYZ partnership and 80 months while used by the XYZ corporation or a total of 8 years and 2 months).

Example (2).—On January 1, 1962, the X corporation acquires and places in service a new section 38 property (with an estimated useful life of 6 years) which it takes into account in computing a credit. Such property is used in X's manufacturing business. X corporation is also engaged in a separate personal service business. In 1963, the X corporation transfers the assets of the manufacturing business (including the sec. 38 property upon which the X corporation took a credit) to a newly formed corporation, the Y corporation. X corporation then transfers to its shareholders all of the stock of the Y corporation. Since the X corporation does not retain a substantial interest in the manufacturing business, section 47(a) will apply to the transfer of the assets to Y corporation.

(c) *Special rule.*—Subsection (c) of section 47 provides a special rule for treating the increase in tax resulting from the adjustment of the credit. In general, such increase in tax will be treated as a tax imposed by chapter 1. However, it will not be so treated for purposes of determining the amount of the credits under section 33 (relating to tax of foreign countries and possessions of the United States), section 34 (relating to dividends received by individuals), section 35 (relating to partially tax-exempt interest received by individuals), section 37 (relating to retirement income), and section 38 (relating to investment in certain depreciable property). Thus, the increase in tax is not to

be taken into account in determining a taxpayer's liability for tax as defined in section 46(a)(3), and hence will have no effect on the limitation contained in section 46(a)(2). However, all adjustments to credit carryovers to the current taxable year resulting from a cessation or change in use during such taxable year are to be taken into account in determining the amount of credit carryovers which may be used for such year.

SECTION 48. DEFINITIONS; SPECIAL RULES

(a) *Section 38 property*.—Section 48 contains various definitions and special rules necessary to the application of the investment credit. Section 48(a) defines the type of property investment which will qualify for the credit.

In general

The term "section 38 property" is defined by section 48(a)(1) as property which is tangible personal property, or which is other tangible property (not including a building and its structural components) but only if such other property is used as an integral part of manufacturing, production, extraction, or of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services, or is a research or storage facility used in connection with any of the foregoing activities. The property described above, however, must be property with respect to which depreciation (or amortization in lieu of depreciation) is allowable, and such property must have a useful life of 4 years or more (determined as of the time such property is placed in service). (See the discussion of useful life in this report under sec. 46(c), relating to qualified investment.)

If an asset is in part subject to an allowance for depreciation and in part nondepreciable, only the proportionate part of the asset which is subject to depreciation will qualify as section 38 property. Thus, if an asset is used 80 percent of the time in a trade or business and is used 20 percent of the time for personal purposes, only 80 percent of such property will qualify as section 38 property subject to depreciation. Further, property does not qualify to the extent it is treated as property which is used for personal, living, and family purposes under section 274 (relating to disallowance of certain entertainment, etc., expenses).

Property may qualify as section 38 property if amortization is allowable with respect to such property in lieu of depreciation. Amortization in lieu of depreciation is allowable, for example, if a lessee makes improvements on leased property which have a longer estimated useful life than the remaining term of the lease and amortizes the cost of such improvements over the remaining term of the lease.

Tangible personal property may qualify as section 38 property irrespective of whether it is used as an integral part of manufacturing, production, or extraction or of the furnishing of transportation, communications, electrical energy, gas, water, or sewage disposal services. Local law definitions will not be controlling for purposes of determining the meaning of the term "tangible personal property." For purposes of section 48, the term "tangible personal property" includes any tangible property except land, and improvements thereon (including items which are structural components of such buildings

or structures). Assets accessory to the operation of a business, such as machinery, printing presses, transportation or office equipment, refrigerators, individual air-conditioning units, grocery counters, etc., generally constitute tangible personal property for purposes of section 48, even though such assets may be termed fixtures under local law. Further, assets in the nature of machinery will be considered "tangible personal property" for purposes of section 48 whether they are placed within or without a building or other structure. Thus, for example, a gasoline pump, or a hydraulic car lift, although not within any structure, will nevertheless be considered "tangible personal property." Intangible property, such as patents and copyrights, does not qualify as section 38 property.

Buildings and structural components thereof are not eligible for the credit. The term "building" is to be given its commonly accepted meaning, that is, a structure or edifice enclosing a space within its walls, and usually covered by a roof. It is the basic structure of an improvement to land the purpose of which is, for example, to provide shelter or housing or to provide working, office, display, or sales space. The term would include, for example, the basic structure used as a factory, office building, warehouse, theater, railway or bus station, gymnasium, or clubhouse. The term "structural components" of a building includes such parts of the building as central air-conditioning and heating systems, plumbing, and electric wiring and lighting fixtures, relating to the operation and maintenance of the building.

In addition to tangible personal property, other tangible property (not including a building and its structural components) used as an integral part of the manufacturing, production, or extraction process or as an integral part of a system of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services may qualify for the credit. Property is to be considered as being used as an integral part of a system of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services only if such property is used by one engaged in the trade or business of furnishing such services. Thus, if a manufacturing firm constructs an airstrip for use by airplanes operated for the convenience of its officers and employees, such airstrip would not qualify as section 38 property since the manufacturing firm is not engaged in the transportation business.

The terms "manufacturing," "production," "extraction," and the businesses of furnishing "transportation," "communications," "electrical energy," "gas," "water," or "sewage disposal" services are to be given their commonly accepted meaning. Thus, for example, manufacturing or production includes the construction, reconstruction, or making of property from or with scrap, salvage, or junk material, as well as from new or raw material, (1) by processing, manipulating, refining, or changing the form of an article, or (2) by combining or assembling two or more articles, and includes the cultivation of the soil and the raising of livestock and other farm produce. Section 38 property would include, for example, property used as an integral part of the extraction, processing, refining, and fabrication of minerals or mineral products; the growing, raising, processing, and packing or packaging of foodstuffs; the operation of sawmills and the production of lumber and lumber products and other building materials; and the manufacture, treatment, and packaging of textiles, paper, leather

goods, glass, etc. Examples of transportation businesses would be railroads and airlines. Examples of communications businesses would include businesses furnishing telephone and telegraph services or radio or television broadcasting stations.

In order to qualify for the credit, property (other than tangible personal property and research or storage facilities used in the specified activities) must be used as an integral part of one or more of the specified activities. Thus, for example, section 38 property would ordinarily not include such assets as pavements, parking areas, advertising displays, outdoor lighting facilities, or swimming pools which, although used as a part of the overall business operation, are not used directly in the specified activities. Specific examples of qualifying property which normally would be used as an integral part of one of the specified activities are blast furnaces, oil and gas pipelines, and railroad tracks and signals. Fences will qualify as section 38 property where used as an integral part of a specified activity as, for example, where used in connection with the raising of livestock.

Research or storage facilities (other than buildings) are eligible for the credit if used in connection with any of the specified activities, although such property is not an integral part of the activity.

Property used outside the United States

Subparagraph (A) of section 48(a)(2) provides that, subject to certain exceptions contained in subparagraph (B) of that section, the term "section 38 property" does not include property used predominantly outside the United States (as defined in sec. 7701(a)(9)). The term "predominantly outside the United States" means that the property must be physically located outside the United States more than 50 percent of the time during any one taxable year. Thus, if property is originally placed in service in the United States and a credit is received on such property, but such property is thereafter in any one year used predominantly outside the United States, such property ceases to be section 38 property with respect to the taxpayer who obtained the credit, regardless of the fact that the property is later returned to the United States. Furthermore, if property is originally placed in service by the taxpayer outside the United States and is used predominantly outside the United States during the taxable year originally placed in service, such property cannot qualify as section 38 property with respect to such taxpayer.

Subparagraph (B)(i) of section 48(a)(2) provides that any aircraft which is registered by the Administrator of the Federal Aviation Agency and which is operated, whether on a scheduled or nonscheduled basis, to and from the United States may be section 38 property even though it is used predominantly outside the United States. The term "to and from" the United States is not intended to exclude an aircraft which makes flights from one point in a foreign country to another such point, as long as such aircraft returns to the United States with some degree of frequency.

Subparagraph (B)(ii) provides that rolling stock of a domestic railroad corporation subject to part I of the Interstate Commerce Act which is used within and without the United States does not lose its eligibility for the credit even though it is used predominantly outside the United States. For the purposes of subparagraph (B)(ii)

the term "rolling stock" means locomotives, freight and passenger train cars, floating equipment, and miscellaneous transportation equipment on wheels, the expenditures for which are chargeable to the equipment investment accounts in the uniform system of accounts for railroad companies prescribed by the Interstate Commerce Commission.

Subparagraph (B)(iii) provides that any vessel which is documented under the laws of the United States and which is operated in the foreign or domestic commerce of the United States may qualify as section 38 property.

Subparagraph (B)(iv) provides that any motor vehicle of a United States person (as defined in sec. 7701(a)(30)) which is operated to and from the United States with some degree of frequency may be section 38 property even though predominantly used outside the United States.

Subparagraph (B)(v) provides that any container of a United States person which is used in the transportation of property to and from the United States may be section 38 property even though used predominantly outside the United States.

Subparagraph (B)(vi) provides that property (other than vessels or aircraft) of a United States person which is used for the purposes of exploring for, developing, removing, or transporting resources from the outer Continental Shelf of the United States (within the meaning of sec. 2 of the Outer Continental Shelf Lands Act as amended and supplemented; 43 U.S.C., sec. 1331) may be section 38 property. Thus, for example, the credit may be allowed for offshore drilling equipment.

Property used for lodging

The first sentence of paragraph (3) of section 48(a) provides that the term "section 38 property" does not include property which is used predominantly to furnish lodging or is used predominantly in connection with the furnishing of lodging. Thus, if property is used predominantly to furnish lodging in the year it is placed in service, it does not qualify as section 38 property. If property on which a credit has been allowed is used predominantly to furnish lodging in any subsequent year, such property will cease to be section 38 property. Property which is generally considered to be used to furnish lodging includes beds and other furniture and fixtures used in the accommodations for lodging.

The second sentence of section 48(a)(3) provides two exceptions to the rule excluding from the credit property used for lodging or in connection with the furnishing of lodging. Subparagraph (A) of such second sentence provides that nonlodging commercial facilities which are available to persons not using the lodging facilities on the same basis that they are available to persons using the lodging facilities may qualify for the credit. For example, tangible personal property used in a restaurant or pharmacy may qualify as section 38 property notwithstanding the fact that the restaurant or pharmacy is operated in connection with lodging facilities such as an apartment house. However, the furniture and fixtures, rugs, draperies, etc. used, for example, in the lobby of an apartment house would be excluded since they are furnished in connection with the furnishing of lodging and

since the lobby of an apartment house is not a nonlodging commercial facility.

Subparagraph (B) of the second sentence of section 48(a)(3) provides that property used by a hotel or motel in connection with the trade or business of furnishing lodging may qualify for the credit where the predominant portion of the accommodations is used by transients. Thus, if more than half of the rooms used to accommodate guests of a hotel or motel are normally used on a transient basis, the property used in such hotel or motel may qualify for the credit even though it is used in connection with furnishing lodging. Conversely, if less than half of the accommodations are normally used on a transient basis, none of the property used in the hotel or motel may qualify for the credit except for property used in connection with a nonlodging commercial facility.

Property used by tax-exempt organizations

Paragraph (4) of section 48(a) provides that property used by an organization (other than a cooperative described in sec. 521) which is exempt from the tax imposed by chapter 1 of the code shall be treated as section 38 property only if such property is used predominantly in an unrelated trade or business the income of which is subject to tax under section 511. The term "property used by" an organization exempt from tax includes property leased to such an organization, as well as property leased by such an organization to another person. Thus, if property does not qualify under section 48(a)(4) because it is leased to an organization exempt from tax, no credit is allowable to the lessor with respect to such property.

Property used by governmental units

Paragraph (5) of section 48(a) also excludes from the term "section 38 property" property used by the United States, any State (as defined in sec. 7701(a)(10) of the code) or political subdivision thereof, any international organization (as defined in sec. 7701(a)(18) of the code), or any agency or instrumentality of any of the foregoing.

(b) *New section 38 property.*—Subsection (b) of section 48 provides that, for purposes of the credit, "new section 38 property" means only section 38 property, the construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1961, or acquired by the taxpayer after that date provided the original use of such property commences with the taxpayer and commences after such date. In the case of property constructed, reconstructed, or erected by the taxpayer, there is to be taken into account in determining the basis of such property only that portion of the basis which is properly attributable to construction, reconstruction, or erection after December 31, 1961. The principles applicable under section 167(c) of the code are to be applied under section 48(b) in determining, for example, when the property is acquired by the taxpayer, whether the original use of the property commences with the taxpayer, and the portion of the basis of property completed after December 31, 1961, which is attributable to construction, reconstruction, or erection after that date.

(c) *Used section 38 property.*—Paragraph (1) of section 48(c) defines the term "used section 38 property" as section 38 property acquired by purchase after December 31, 1961, which is not new section 38 property.

Used section 38 property does not include property which, after its acquisition by the taxpayer, is used by a person who used such property before such acquisition. This rule also applies where the property after acquisition by the taxpayer is used by a person who is related to a person who used the property before acquisition. Such person will be considered as related if the relationship is one described in section 179(d)(2) (A) or (B) (as, for example, where the parties are members of an affiliated group, as defined in sec. 48(c)(3)(C)). Thus, if property were sold under a sale and leaseback arrangement, such property in the hands of the purchaser-lessor would not be used section 38 property since the property, after its acquisition, is being used by the same person who used it before the acquisition. Similarly, where a taxpayer has been leasing property, and subsequently purchases such property (whether or not the lease contained a purchase option feature), such property is not used section 38 property with respect to such taxpayer, since it is being used by the person who used such property before its acquisition. In addition, if property owned by a lessor is sold subject to a lease or is sold upon the termination of a lease, the property will not qualify as used section 38 property with respect to the purchaser, if thereafter the property is used by a lessee who used the property before the acquisition. For purposes of applying the rule contained in section 48(c)(1), property will be considered used by a person only if a substantial use is made. Thus, property would not be disqualified as used section 38 property merely because a person using the property after acquisition had also made some casual use of it before acquisition.

Dollar limitation

Under subparagraph (A) of section 48(c)(2), the cost of used section 38 property which may be taken into account under section 46(c)(1)(B) in computing qualified investment for any taxable year is not to exceed \$50,000. If the total cost of used section 38 property placed in service during the taxable year exceeds \$50,000, the taxpayer must select the particular assets he wishes to be taken into account in computing qualified investment (but not to exceed an aggregate cost of \$50,000). The selection of the specific assets to be taken into account is to be made at the time and in the manner prescribed by regulations. Such selection may be changed only in the manner and to the extent provided by the regulations. Thus, if a taxpayer has a cost of used section 38 property of \$25,000 acquired in connection with the operation of a sole proprietorship, \$30,000 allocated to him from a subchapter S corporation, and \$20,000 which is his share of the cost of used section 38 property acquired by a partnership of which he is a member, he may select from the total of \$75,000 the particular assets which he wishes to take into account for purposes of computing qualified investment. If the assets selected all have useful lives of between 4 and 6 years, the maximum qualified investment in used section 38 property will be \$16,667. If the assets selected all have useful lives in excess of 8 years, qualified investment in used section 38 property would be \$50,000.

Subparagraph (B) of section 48(c)(2) provides that in the case of a husband or wife filing a separate return, the cost of used section 38 property that may be taken into account is not to exceed \$25,000. If this subparagraph applies, and such cost exceeds \$25,000, the

husband or wife may select, under regulations prescribed by the Secretary of the Treasury or his delegate, the assets to be taken into account, but only to the extent of an aggregate cost of \$25,000. Subparagraph (B) shall apply, however, only if the spouse of the taxpayer has purchased (or has been allocated) used section 38 property which may be taken into account in qualified investment for the taxable year of such spouse which ends within or with the taxpayer's taxable year. Thus, if both husband and wife have purchased (or have been allocated) any used section 38 assets for the taxable year (as described above) and they file separate returns, the maximum cost of used section 38 property which may be taken into account by each is \$25,000; but if only one spouse has purchased (or has been allocated) any used section 38 assets, such spouse may take into account \$50,000 of the cost of used section 38 property.

Subparagraph (C) of section 48(c)(2) provides that in the case of an affiliated group, the \$50,000 limitation is to be reduced for each member of the group by apportioning the \$50,000 limitation among the members of the affiliated group in accordance with their respective amounts of used section 38 property which may be taken into account. The phrase, "their respective amounts of used section 38 property which may be taken into account", has reference to the total cost of used section 38 property without regard to the \$50,000 limitation or the applicable percentages to be applied in computing qualified investment. An affiliated group is one defined in section 1504(a) except that the phrase "more than 50 percent" is to be substituted for the phrase "at least 80 percent" each place it appears in section 1504(a), and all corporations are to be treated as includible corporations. Thus, even if a corporation is excluded under section 1504(b) from being a member of an affiliated group for purposes of filing a consolidated return, it nevertheless will be treated as an includible corporation for purposes of section 48(c).

Subparagraph (D) of section 48(c)(2) provides that, in the case of partnerships, the limitation on the amount of used section 38 property which may be taken into account is to apply both with respect to the partnership and with respect to each partner. Thus, a partnership will be limited to used section 38 property having a cost of \$50,000 regardless of the number of partners.

If the aggregate cost of used section 38 property purchased by the partnership during a taxable year exceeds \$50,000, the partnership, under regulations prescribed by the Secretary of the Treasury or his delegate, is to select the properties, the cost of which is to be taken into account by the partners. Each partner will then combine his share of the cost of the used section 38 property selected by the partnership with the cost of any other used section 38 property to which he may be entitled. This combined amount may not exceed \$50,000 (or \$25,000 in the case of certain married individuals under section 48(c)(2)(B)). If such amount exceeds \$50,000, the taxpayer will then select the properties to which the applicable percentages are to be applied in computing his qualified investment.

Definitions

Subparagraph (A) of section 48(c)(3) provides that the principles of section 179(d)(2) of the code are to be applied in determining whether the property has been acquired by purchase. Thus, for

example, used section 38 property is not acquired by purchase if it is acquired from a person whose relationship to the person acquiring it would result in the disallowance of a loss under section 267 or 707(b) (except that in applying sec. 267 (b) and (c), the family of an individual includes only his spouse, ancestors, and lineal descendants, and not his brothers and sisters). Furthermore, the term "purchase" does not include the acquisition of property by one member of an affiliated group (as defined in sec. 48(c)(3)(C)) from another member of the same affiliated group, or the acquisition of property the basis of which is determined in whole or in part by reference to the adjusted basis in the hands of the person from whom acquired, or under 1014(a) (relating to property acquired from a decedent).

Subparagraph (B) of section 48(c)(3) provides that the cost of used section 38 property does not include so much of the basis of such property as is determined by reference to the adjusted basis of other property held at any time by the person acquiring such property. Thus, for example, if the basis of used section 38 property acquired is determined under section 1031 (relating to certain nontaxable exchanges), the preceding rule applies. In addition, if property is disposed of and used section 38 property which is similar or related in service or use is acquired as a replacement therefor (whether before or after the disposition), in a transaction to which the preceding rule does not apply, the cost of the used section 38 property acquired is the basis of such property, reduced by the adjusted basis of the property replaced. In such a case, if the basis of the replacement asset is \$2,000 and the adjusted basis of the replaced asset is \$1,200 at the time of its disposition, the cost of used section 38 property would be \$800. Notwithstanding the rules described in this paragraph, the cost of used section 38 property is not to be reduced by the adjusted basis of any property disposed of if by reason of section 47 the disposition of such property gives rise to an increase of tax or a reduction of unused credit carryovers.

(d) *Certain leased property.*—Subsection (d) of section 48 provides that in certain cases where property is leased to another by a person engaged in the business of leasing property, such person may elect to treat the lessee as having acquired such property. This rule applies only with respect to property which is new section 38 property in the hands of the lessor. Thus, for example, the election may not be made with respect to property owned by an organization exempt from tax unless the property is used predominantly in an unrelated trade or business of leasing, the income of which is subject to tax under section 511.

In addition, the election may be made only with respect to the first lessee of such new section 38 property, and only if such property would constitute new section 38 property if such lessee had actually acquired the property. Thus, for example, the election cannot be made if the first lessee uses the property predominantly outside the United States.

Also, for purposes of determining whether such property would constitute new section 38 property if purchased by the lessee, the original use of the property will be deemed to commence with the first lessee if he is the first person to use such property for its intended function. Thus, the fact that the lessor may have, for example, tested, stored, or attempted to lease the property to other persons will not preclude the lessee from being deemed the original user as

long as neither the lessor nor any other person has physically used the property for its intended function before its use by the lessee. Moreover, in determining whether the property qualifies as new section 38 property to the lessee and in determining the amount of his qualified investment with respect to such property, the estimated useful life of the property to the lessee will be deemed to be the estimated useful life in the hands of the lessor. The election is not available if the lessor is a person referred to in section 46(d); i.e., a mutual savings bank, cooperative bank, or domestic building and loan association to which section 593 applies; a regulated investment company or real estate investment trust subject to taxation under subchapter M; or a cooperative organization described in section 1381(a).

If the election is made, the lessee will be treated for all purposes of subpart B as though he had acquired the property. Thus, if the leased property is disposed of by the lessee, or if it otherwise ceases to be section 38 property to him, such property will be subject to the provisions of section 47 applicable to such cessations. Also, if the first lessee of property is treated as having acquired such property, the lessor is thereafter precluded from obtaining a credit as to such property. The election under section 48(d) will be made at such time, in such manner, and subject to such conditions as may be provided in regulations prescribed by the Secretary of the Treasury or his delegate.

In any case in which the lessee is treated as having acquired the property, the lessee's investment is deemed to be equal to the fair market value of the property if such property is constructed by the lessor or by a corporation which controls or is controlled by the lessor within the meaning of section 368(c). In any other case the lessee's investment is the basis of the property in the hands of the lessor.

The provisions of section 48(d) may be illustrated by the following example:

X corporation is engaged in the business of manufacturing and leasing new and reconditioned equipment which in its hands has an estimated useful life of 8 years. After December 31, 1961, X corporation constructs machine No. 1, having a fair market value of \$15,000 and a cost of \$10,000, and reconditions machine No. 2 at a cost of \$5,000. Y corporation leases both machines from X immediately after their construction and reconditioning and before X has made any other use of such machines. As to machine No. 1, if X elects to treat the property as being acquired by Y, such machine will have a basis of \$15,000 in Y's hands, and an estimated useful life of 8 years, for purposes of determining qualified investment (assuming the property otherwise qualifies as new section 38 property in Y's hands). The election is not available with respect to machine No. 2, since a reconditioned machine would not constitute new section 38 property if the lessee had purchased it. In such a case, while X corporation cannot make the election to let the Y corporation take the credit, X corporation would be entitled to a credit based on its expenditure of \$5,000 as an investment in new section 38 property, the reconstruction of which is completed after December 31, 1961.

(e) *Subchapter S corporations.*—Subsection (e) of section 48 provides for the application of the credit in the case of an electing small business corporation under subchapter S. The qualified investment of the subchapter S corporation is allocated pro rata among the

persons who are shareholders on the last day of the corporation's taxable year. The qualified investment is ascertained at the corporate level, and thus the aggregate cost of used section 38 property that may be allocated to the shareholders is limited to \$50,000. If the cost of used section 38 property purchased by the subchapter S corporation exceeds \$50,000 in any one taxable year, the corporation is to select, under regulations prescribed by the Secretary of the Treasury or his delegate, the properties the cost of which may be taken into account by its shareholders.

Any person to whom an investment is apportioned under subsection (e) of section 48 is to be treated as the taxpayer with respect to such investment, and such investment will not (by reason of such apportionment) lose its character in his hands as an investment in either new or used section 38 property. Thus, each shareholder will take into account, in determining his own qualified investment, his allocated share of the corporation's qualified investment in new section 38 property. He will also take into account his allocated share of the corporation's investment in used section 38 property. Of course, since only \$50,000 cost of used section 38 property may be taken into account, if a shareholder's combined cost of used section 38 property exceeds \$50,000, he must select the properties to be taken into account in computing his qualified investment.

If a shareholder includes in his qualified investment any portion of the basis or cost of property acquired by the subchapter S corporation and the corporation subsequently disposes of such property, or if the shareholder disposes of his stock in such corporation, the shareholder will be subject to the provisions of section 47 with respect to such property.

(f) *Estates and trusts.*—Subsection (f) of section 48 provides rules for applying the investment credit to estates and trusts. Paragraph (1) of section 48(f) provides that the qualified investment for any taxable year is to be apportioned between the estate or trust and the beneficiaries on the basis of the income of the estate or trust allocable to each. The qualified investment is ascertained at the trust or estate level, and thus the aggregate cost of used section 38 property that may be apportioned between the estate or trust and the beneficiaries is limited to \$50,000. If the cost of used section 38 property purchased by the estate or trust exceeds \$50,000 in any one taxable year, the estate or trust is to select, under regulations prescribed by the Secretary of the Treasury or his delegate, the properties the cost of which may be taken into account.

Paragraph (2) of section 48(f) provides that any beneficiary to whom the investment is apportioned is to be treated as the taxpayer with respect to such investment, and such investment will not (by reason of such apportionment) lose its character as an investment in either new or used section 38 property. If the combined cost of used section 38 property available from all sources to any beneficiary exceeds \$50,000, such beneficiary must select the properties the cost of which is to be taken into account in computing his qualified investment. The term "beneficiaries" as used in section 48(f) includes heirs, legatees, and devisees.

Paragraph (3) of section 48(f) provides that the \$100,000 amount specified under subparagraphs (A) and (B) of section 46(a)(2) applicable to such estate or trust is to be reduced to an amount which

bears the same ratio to \$100,000 as the amount of the qualified investment allocated to the estate or trust under paragraph (1) of section 48(f) bears to the entire amount of the qualified investment. Thus, in a case where the qualified investment of the estate or trust is \$1 million, and \$250,000 of such amount is allocated to the estate or trust because 25 percent of the income is allocable to the estate or trust, the \$100,000 amount in the case of such estate or trust is reduced to \$25,000.

SECTION 2. CREDIT FOR INVESTMENT IN CERTAIN DEPRECIABLE PROPERTY (Continued)

(c) *Certain corporate acquisitions.*—Subsection (c) of section 2 of the bill provides an amendment to section 381(c) of the 1954 Code (relating to the carryover of tax attributes in the case of certain corporate acquisitions) by adding paragraph (23) thereto. Section 381(c)(23) provides that the acquiring corporation is to take into account (to the extent proper to carry out the purposes of sec. 381 and sec. 38, and under such regulations as may be prescribed by the Secretary of the Treasury or his delegate) the items required to be taken into account for purposes of section 38 in respect of the distributor or transferor corporation. Thus, for example, the regulations under section 381(c)(23) will provide rules for the carryover of any unused credit carryovers of the distributor or transferor corporation and for the application of section 47 to dispositions by the acquiring corporation of property acquired from the distributor or transferor corporation.

(d) *Clerical amendment.*—Subsection (d) of section 2 of the bill provides a clerical amendment to part IV of subchapter A of chapter 1 of the 1954 Code.

(e) *Effective date.*—Subsection (e) of section 2 of the bill provides that the amendments made by section 2 of the bill are to apply with respect to taxable years ending after December 31, 1961.

SECTION 3. APPEARANCES, ETC., WITH RESPECT TO LEGISLATION

(a) *In general.*—Subsection (a) of section 3 of the bill amends section 162 (relating to trade or business expenses) by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) a new subsection (e) relating to appearances, etc., with respect to legislation.

Paragraph (1) of the new subsection (e) provides that the deduction allowed by subsection (a) of section 162 is to include all of the following ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business: (1) expenses in direct connection with appearances before, submission of statements to, or sending communications to, the committees, or individual members, of Federal, State, or local legislative bodies with respect to legislation or proposed legislation of direct interest to the taxpayer, (2) expenses in direct connection with communication of information between the taxpayer and an organization of which he is a member with respect to legislation or proposed legislation of direct interest to the taxpayer and to such organization, and (3) that portion of dues

with respect to any organization of which the taxpayer is a member which is attributable to the expenses of the activities above described in this paragraph which are carried on by such organization. Paragraph (1) also provides that the expenses referred to therein are to include, but not be limited to, the cost of preparing testimony and traveling expenses described in subsection (a)(2) of section 162.

Paragraph (2) of the new subsection (e) provides that the provisions of paragraph (1) are not to be construed as allowing the deduction of any amount paid or incurred (whether by way of contribution, gift, or otherwise)—

(1) for participation in, or intervention in, any political campaign on behalf of any candidate for public office, or

(2) in connection with any attempt to influence the general public, or segments thereof, with respect to legislative matters, elections, or referendums.

(b) *Effective date.*—Subsection (b) of section 3 of the bill provides that the amendments made by subsection (a) are to apply to taxable years beginning after December 31, 1962.

SECTION 4. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES

(a) *Denial of deduction.*—Subsection (a) of section 4 of the bill adds to part IX of subchapter B of chapter 1 of the code (relating to items not deductible in computing taxable income) a new section 274.

SECTION 274. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES

Section 274 provides generally that certain expenses deductible in full under present law will be partially or completely disallowed for purposes of chapter 1 of subtitle A. Since section 274 is a disallowance provision exclusively, no expense would become deductible by reason of its enactment. In other words, the tests for deductibility under provisions of existing law (such as secs. 162, 165, 167 and 212) must first be met before the provisions of section 274 become operative. In addition, subsection (c) (relating to substantiation) of the new section 274 must be applied before determining the extent to which an expense or other item is disallowed under subsection (a) or (b) of section 274.

(a) *Entertainment, amusement, or recreation.*—

Activity.—Paragraph (1)(A) of subsection (a) of new section 274 provides that no deduction otherwise allowable under chapter 1 of the 1954 Code is to be allowed for any item with respect to an activity which is of a type generally considered to constitute entertainment, amusement, or recreation, unless the taxpayer establishes that the item was directly related to the active conduct of his trade or business. Such deduction in no event is to exceed the portion of such item directly related to the active conduct of the taxpayer's trade or business.

Examples of "entertainment, amusement, or recreation" are entertaining guests at night clubs, country clubs, theaters, football games, and prizefights, and on hunting, fishing, vacation, and similar trips. In addition, "entertainment" includes satisfying the personal, living,

or family needs of any individual (which would otherwise constitute a business expense to the taxpayer) such as the furnishing of food and beverages, a hotel suite, or an automobile. By referring to an activity which "is of a type generally considered to constitute" entertainment, amusement, or recreation, the subsection provides an objective test for determining whether an activity falls within the proscribed category. This test makes irrelevant such arguments as, e.g.—that an essentially recreational activity, like sailing a yacht, is hard work and not recreation insofar as any particular taxpayer is concerned.

However, the taxpayer's business is to be considered in applying this objective test. For example, with respect to a taxpayer who is a professional hunter, a hunting trip generally would not be considered a recreation-type activity. On the other hand, with respect to a taxpayer whose trade or business consists of selling machine tools, manufacturing clothing, or rendering legal services, a hunting trip generally would be considered a recreation-type activity.

To further illustrate this objective test, a theatrical performance generally would be considered, with respect to most taxpayers, an entertainment-type activity. In the case of a professional theater critic, however, viewing a theatrical performance generally would not be considered to constitute entertainment. Another example of the role played by the taxpayer's business in determining the type of an activity would be in connection with a fashion show. If the taxpayer conducting the fashion show is the manufacturer of the dresses shown and the viewers are a group of store buyers, the show generally would not be considered to constitute entertainment, because the fashion show is, for a dress manufacturer, a method for introducing his product to the market. However, if the taxpayer conducting the fashion show is an appliance distributor and the viewers are the retailers and their wives, the fashion show generally would be considered to constitute entertainment.

An exception to the disallowance of entertainment-type expenses is made in paragraph (1)(A) for expenses therein described which the taxpayer establishes are directly related to the active conduct of his trade or business. Among other things, the taxpayer will have to show more than a general expectation of deriving some income at some indefinite future time from the making of the entertainment-type expenditure. However, a taxpayer will not be required to show that income actually resulted from each and every expenditure for which a deduction is claimed.

If the expenditure is for entertainment which occurs under circumstances where there is little or no possibility of conducting business affairs or of carrying on negotiations or discussions relating thereto, the expenditure generally will not be considered to be directly related to the active conduct of business. Thus, the absence of the taxpayer or his representative from the entertainment activity ordinarily indicates that the entertainment is not directly related to the active conduct of the taxpayer's trade or business. Similarly, if the group of persons entertained is large or the distractions substantial, the cost of the entertainment will not be deductible, in the absence of a showing of a direct relationship to the active conduct of the business. All the facts and circumstances pertaining to the entertainment activity will be considered in this connection. Thus, expenses incurred for a "hos-

pitality room", at a convention, at which goodwill is created through display or discussion of the taxpayer's products, will be treated as directly related.

Where a taxpayer's trade or business consists of promoting the interest of another person—such as an independent sales agent for a manufacturer, a public relations corporation, an attorney representing a client, or an employee representing his employer—an expense for an entertainment-type activity made with respect to promoting such other person's interest will not come within the exception for expenses directly related to the active conduct of a trade or business unless the taxpayer establishes the same close connection between the expenditure and such other person's trade or business or other income-producing activity as such other person would have to establish in order to come within the exception. Thus, to come within the exception, it clearly will not suffice for such taxpayer to establish that the making of such expenditure was necessary in order to enable him to continue in the service of such other person.

Paragraph (1) further provides that a deduction for an item with respect to entertainment-type activities is not to exceed the portion of such item directly related to the active conduct of the taxpayer's trade or business. This provision permits apportionment of an expense as between its business-connected and personal aspects according to objective standards.

Facilities.—Paragraph (1)(B) of subsection (a) of new section 274 provides that no deduction otherwise allowable under chapter 1 of the code is to be allowed for any item with respect to a facility used in connection with an activity generally considered to constitute entertainment, amusement, or recreation, unless the taxpayer establishes (1) that the facility was used primarily for the furtherance of his trade or business, and (2) that the item was directly related to the active conduct of his trade or business. Such deduction in no event is to exceed the portion of such item directly related to the active conduct of the taxpayer's trade or business. The same tests for determining whether an item is directly related to the active conduct of a trade or business apply as in the case of an item under paragraph (1)(A).

The term "facility" includes any item of personal or real property owned or rented by the taxpayer, such as a yacht, hunting lodge, fishing camp, swimming pool, tennis court, bowling alley, automobile, airplane, apartment, hotel suite, dining room, and cafeteria. In addition to the items more commonly regarded as "expenses" for entertaining, discussed above, paragraph (1)(B) also relates to other items, such as depreciation and losses realized on certain sales.

Under paragraph (1)(B), in addition to the requirement that the item be directly related to the active conduct of the taxpayer's trade or business, the facility must be used primarily for the furtherance of the taxpayer's trade or business. Thus, if a facility is used more than one-half for business entertaining, so that more than one-half of the entertainment expense with respect to such facility would be deductible as a business expense under present law, that portion is still to be deductible to the extent it meets the test of being directly related to the active conduct of the taxpayer's trade or business. If less than one-half of such entertainment expense would be deductible under present law, no deduction is to be allowed. In connection with these

determinations, objective rather than subjective standards are to be employed.

Paragraph (2) of subsection (a) of new section 274 prescribes two special rules for purposes of applying paragraph (1). All dues and fees paid to any social, athletic, or sporting club or organization will be treated as items with respect to a facility used for entertaining. Thus, only if the taxpayer uses a country club to which he belongs primarily for the furtherance of his business will a deduction be allowed for dues or fees paid to such club, and then only to the extent that such use is directly related to the active conduct of his business. In addition, in applying paragraph (1) an activity described in section 212 (relating to expenses for the production of income) is to be treated as a trade or business.

(b) *Gifts*.—Generally, subsection (b)(1) of new section 274 disallows all expenses for gifts to individuals in excess of a cumulative total of \$25 per year per recipient. The reference to “indirect” gifts in this subsection includes situations where the gift is intended for the eventual use or benefit of an individual but is made initially to his corporation or to some member of his family. The term “gift”, for purposes of section 274, has the same meaning as it does under section 102 of the code (relating to the exclusion of gifts and inheritances from gross income).

Any item which is excludable from gross income under a provision of chapter 1 of the code other than section 102 is not a “gift” within the meaning of subsection (b)(1). To illustrate the applicability of subsection (b)(1), a payment by an employer to a deceased employee’s widow which is excludable from her income by reason of the gift exclusion provision, section 102, will not be deductible by the employer in excess of \$25, whereas the treatment by an employer of a payment to a deceased employee’s widow which constitutes an employee’s death benefit excludable by the recipient under section 101(b) of the code will not be affected by this provision. As another example, amounts received by an individual as a scholarship which are excludable from the individual’s gross income under section 117 of the code are not “gifts” within the meaning of this subsection. Similarly, those prizes and awards which are excludable from an individual’s gross income under section 74(b) of the code are not “gifts” within the meaning of this subsection.

Since the question in subsection (b)(1) is what portion of the taxpayer’s expense will be disallowed, the \$25 amount necessarily relates to the taxpayer’s cost rather than to the value of the property to the donee. However, certain incidental costs, such as packaging, insurance, and mailing or other delivery, will be disregarded in determining whether the \$25 limit has been exceeded.

There is a possibility of overlapping application of subsections (a) and (b), since some items can reasonably be classified both as gifts and as entertainment. Different rules under section 274 apply depending on the classification of the item. As described in greater detail below, the express authority given to the Secretary of the Treasury or his delegate to prescribe regulations will be used to solve these problems of classification so as to clarify and make more certain the application of section 274.

Subsection (b)(2) prescribes two special rules for applying subsection (b)(1). Under subsection (b)(2)(A), in the case of a gift by a

partnership (including a gift made by a partner with respect to the business of the partnership), the \$25 limitation will be applied at the partnership level, as well as at the level of the individual partner. Thus deductions for gifts made with respect to partnership business will not exceed \$25 per recipient, regardless of the number of partners.

Under subsection (b)(2)(B), a husband and wife are for purposes of subsection (b)(1) treated as one "taxpayer". Thus, in the case of a gift by a husband and wife, the spouses will be treated as one donor. However, since "taxpayer" in subsection (b)(1) refers only to the donor of a gift, this special rule does not pertain to gifts, for example, made by an individual to a husband and wife who are partners in a business.

(c) *Substantiation required.*—Subsection (c) of the new section 274 imposes another limitation on traveling expenses deductible under section 162(a)(2) or 212, on items with respect to activities described in subsection (a) as entertainment, amusement, or recreation, or with respect to facilities used in connection therewith (whether or not excepted from the application of subsec. (a) of sec. 274 by subsec. (d)), and on expenses for gifts. Subsection (c) overrules with respect to the described expenditures the case of *Cohan v. Commissioner*, 39 F. 2d 540 (C.A. 2d 1930). That case held that where evidence indicates that a taxpayer has incurred deductible travel or entertainment expenses but their exact amount cannot be determined, the court must make "as close an approximation as it can" and not disallow the deduction entirely. Under subsection (c) approximations of the type which under the *Cohan* doctrine have been sufficient to entitle the taxpayer to a deduction will no longer have that effect. In other words, if the taxpayer fails to substantiate an item as required by subsection (c) and the regulations thereunder, the item will be completely disallowed.

Subsection (c) provides that no deduction is to be allowed for the above-described items unless the taxpayer substantiates by adequate records or by sufficient evidence corroborating his own statement the following: the amount of such expense or other item; the time and place of the travel, entertainment, amusement, recreation, or use of the facility, or the date and description of the gift; the business purpose of the expense or other item; and the business relationship to the taxpayer of the persons entertained, using the facility, or receiving the gift. The taxpayer's records or corroborating evidence must pertain to separate expenses or other items of deduction, not to aggregate amounts.

Generally, a clear, contemporaneously kept diary, account book, or similar record containing the information specified in subsection (c) will be an adequate record within the meaning of this subsection. However, receipts, cancelled checks, paid bills, stubs, or other similar records may be required in certain cases, as, for example, to substantiate the amount expended for lodging and transportation while traveling on business. Thus, the taxpayer may be required to preserve hotel bills or transportation receipts to substantiate such items by adequate records. In order to avoid hardship, a reasonable reconstruction of expenditures will be accepted in those cases where the absence of records is due to circumstances beyond the taxpayer's control, such as destruction by fire, flood, or other casualty.

Where the taxpayer fails to maintain adequate records with respect to any of the described aspects of an expense, that aspect must be substantiated by the taxpayer's own statement corroborated by sufficient evidence. The taxpayer's own uncorroborated statement will not constitute substantiation with respect to any such aspect. The evidence required may vary with respect to each aspect of an item claimed as a deduction. Thus, circumstantial evidence, such as the nature of the business activities of the taxpayer and of the person entertained, may be sufficient to corroborate the taxpayer's statement regarding business purpose and business relationship, whereas more direct evidence, such as the testimony of witnesses, will be required to substantiate amount, time, place, date and description.

Under subsection (c), the Secretary of the Treasury or his delegate is authorized to provide by regulations that some or all of the requirements of subsection (c) are not to apply in the case of an expense which does not exceed an amount determined under such regulations. Thus, the regulations could provide that a fixed scale of allowance for mileage or per diem in lieu of subsistence based upon reasonable business practices, will be acceptable in lieu of detailed substantiation. Similarly, the regulations could prescribe an exception for *de-minimis* expenses.

(d) *Exceptions to application of subsection (a).*—Subsection (d) of the new section 274 contains nine exceptions to the general rule of section 274(a). These exceptions are to the disallowance provision of subsection (a) exclusively. The fact that an item is not covered by one of the nine exceptions does not mean that *ipso facto* it will be disallowed under subsection (a). It is to be emphasized that the new section 274(d) in no way changes existing law with respect to the disallowance of expenses by reason of failure to meet the "ordinary and necessary" test in section 162 or 212 of the code. Furthermore, the substantiation requirements of subsection (c) also must be fulfilled with respect to the items covered by these exceptions.

Paragraph (1) excepts from the disallowance prescribed in subsection (a)(1) expenses for food and beverages furnished under circumstances which are of a type generally considered to be conducive to a business discussion, taking into account the surroundings in which furnished, the taxpayer's trade, business, or income-producing activity, the relationship to such trade, business, or activity of the persons to whom the food and beverages are furnished, and any other relevant facts. There is no requirement in this exception that business actually be discussed. Thus, if the described circumstances are established, and if the amounts are deductible under section 162 or 212 and are substantiated as required under section 274(c), the expenses for food and beverages will be deductible even where the making of the expenditure merely promotes goodwill.

Generally, a night club or other place where entertainment is a major attraction would not be considered a suitable environment for a business discussion. Similarly, any sizable social gathering, such as a large cocktail party, would afford little opportunity for quiet business talk and ordinarily would not be considered circumstances conducive to a business discussion. However, a dinner which is part of a formal business program will generally be regarded as a circumstance conducive to a business discussion.

Paragraph (2) relates to food and beverages furnished on the taxpayer's business premises. By reason of this exception, no expense for food and beverages furnished on the business premises primarily to employees of the taxpayer will be disallowed under section 274(a). In addition, expenses for food and beverages furnished to nonemployee business guests will be deductible if furnished in a dining room which is primarily for the taxpayer's employees and is located on the taxpayer's business premises. Paragraph (2) also excepts from disallowance expenses for facilities to the extent they are used in connection with furnishing the above-described food and beverages. The exception provided by paragraph (2) applies to both the typical company cafeteria and meals furnished to employees because their presence on the job at all times is essential.

The exception in paragraph (3) applies to expenses for goods, services and facilities to the extent that the expense is properly treated by the taxpayer, with respect to the recipient of the entertainment, amusement, or recreation, as compensation paid to an employee on the taxpayer's income tax return and as "wages" for purposes of withholding. Thus, a taxpayer rewarding a key employee with a vacation trip would not be disallowed the expenses under section 274(a) if the taxpayer treated the expenses as wages for withholding purposes and deducted them on his income tax return as compensation paid to the key employee. Salary paid to the captain of a yacht used for business entertaining does not come within this exception.

If an expense properly constitutes a dividend to a shareholder, or if it constitutes unreasonable compensation to an employee, the exception in paragraph (3) will not prevent its disallowance.

Paragraph (4) excepts from disallowance with respect to the taxpayer certain expenses paid or incurred by the taxpayer in connection with the performances by him of services for another person (whether or not such other person is the taxpayer's employer) for which the taxpayer is reimbursed by such other person under a reimbursement or other allowance arrangement. This exception prevents the double disallowance of a single expenditure, once with respect to the person who actually bears the expense and benefits from it and once with respect to the person who pays the expense on behalf of the first person and is reimbursed therefor. However, two qualifications are provided which insure that a described expense will be disallowed at one level. If the services are performed by a taxpayer, who is an employee, for his employer, and if the employer treats the expense as compensation paid to the employee and it falls within the scope of the subsection (d)(3) exception, the subsection (d)(4) exception does not apply. If the services are performed by the taxpayer for a person who is not the taxpayer's employer, the subsection (d)(4) exception does not apply unless the taxpayer accounts to such other person by means of records or other sufficient evidence which would satisfy the substantiation requirement of subsection (c). The term "reimbursement or other expense allowance arrangement" is derived from section 62(2)(A) of the code and has the same meaning in section 274(d) (without regard to whether the taxpayer is the employee of the person for whom services are performed) as it does in that section.

Paragraph (5) provides an exception for expenses for recreational, social, or similar activities which are primarily for the benefit of the

employees of the taxpayer. This exception applies to the usual employee fringe benefit programs. For example, the expenses of operating a company bowling alley or swimming pool which is available to all employees generally will be deductible. Similarly, the costs of the office Christmas party or summer outing generally will be deductible.

In order to exclude from this exception benefits primarily for executives and owners of closely held businesses, the exception applies only with respect to activities which are primarily for employees other than employees who are officers, shareholders, or other owners who own a 10-percent or greater interest in the business, or highly compensated employees. In determining whether an employee owns a 10 percent or greater interest in the business, the employee is to be treated as owning any interest owned by a member of his family (within the meaning of sec. 267(c)(4)).

Paragraph (6) provides an exception for expenses directly related to business meetings of employees or stockholders. This exception pertains only to meetings which are principally for the discussion of business. To illustrate, a meeting of employees for the principal purpose of introducing them to and instructing them with respect to a new procedure for conducting the employer's business would be considered a business meeting. Similarly, a regular annual meeting of stockholders for the election of directors and discussion of corporate affairs would be considered a business meeting. A convention of employees for the principal purpose of rewarding them for their outstanding performance of services for their employer would not be considered a business meeting. However, such a convention might come within the scope of paragraph (3) or (5).

Paragraph (7) pertains to expenses directly related and necessary to attendance at business meetings or conventions of exempt section 501(c)(6) organizations. It is similar to the exception in paragraph (6), except that it relates only to attendance at meetings, or conventions of business leagues, chambers of commerce, real-estate boards, or boards of trade which are exempt from tax under section 501(a) and it is not limited in application to attendance by employees or stockholders.

Paragraph (8) pertains to goods and services (including the use of facilities) which are made available by the taxpayer to the general public. By reason of this exception, expenses for entertainment of the general public by means of television, radio, newspapers, and the like will continue to be deductible under section 162. Similarly, a deduction may still be claimed under section 162 for the expense of maintaining private parks, golf courses, and similar facilities, to the extent that they are available for public use. For example, if a corporation maintained a swimming pool for the use of its executive officers and their guests but during the summer months made the pool available for a period of time each week to the children participating in the local public recreation program, the portion of the expenses relating to such public use of the pool would come within this exception.

Paragraph (9) is designed to insure that no expense will be disallowed under subsection (a) if it is for goods or services which are sold by the taxpayer in a bona fide transaction for an adequate and full consideration in money or money's worth. Thus, the cost of producing night club entertainment for sale to customers will not be

disallowed. Similarly, the cost of operating a pleasure cruise ship as a business will not be disallowed.

The last sentence in subsection (d) makes it clear that the "expenses" to which paragraphs (1) through (9) relate include such items as depreciation and losses.

(e) *Interest, taxes, casualty losses, etc.*—Subsection (e) excepts from the provisions of section 274 items which would constitute allowable deductions for an individual taxpayer regardless of whether he was engaged in any trade or business. Examples of such items are interest, taxes such as real property taxes, and casualty losses. Thus, if a taxpayer owned a fishing camp, he could still deduct mortgage interest and real property taxes in full even if its use was not primarily for the furtherance of the taxpayer's trade or business.

(f) *Treatment of entertainment, etc., type facility.*—This subsection prescribes the treatment to be accorded facilities coming within the purview of subsection (a)(1)(B), for purposes of chapter 1 generally. To the extent that expenses and other items with respect to a facility are disallowed under subsection (a), that portion of the facility is to be accorded the treatment provided under present law to an asset used exclusively for personal, living, and family purposes. Thus, the portion of a facility so treated will not be subject to depreciation, and losses incurred on the sale of such portion will not be deductible.

(g) *Regulatory authority.*—Subsection (g) authorizes the Secretary of the Treasury or his delegate to prescribe such regulations as he deems necessary to carry out the purposes of section 274. For example, under this authorization rules will be prescribed for determining whether subsection (a) or subsection (b) applies to an expenditure to which both subsections might be considered to apply. Items are to be given the character ascribed to them by the public generally and without regard to the revenue consequences of the characterization. In addition, the Secretary of the Treasury or his delegate is required to prescribe rules for determining whether section 274 (a) or (b) applies with respect to an expenditure which could also be described as falling solely within the purview of some other section. This overlap problem will be resolved by ascribing to the expenditure a character which carries out the purposes of section 274. If the item confers a personal benefit in the form of entertainment, amusement, recreation or a personal, living or family need of the individual it will be treated as a section 274 item.

The problem of the overlap of subsections (a) and (b) of section 274 can be illustrated by a case where a taxpayer provides one of his customers with tickets to an amusement event. Here both the entertainment and gift provisions might apply. Under the regulations the entertainment provision always will apply with respect to such theater tickets regardless of whether the taxpayer accompanies the customer to the theater or sends him the tickets. On the other hand, gifts of a chattel such as a book or a toy will be classified as a gift, coming within the purview of subsection (b), even though the use of the item results in the entertainment of the recipient. Packaged food and beverages will be treated as gifts, while food and beverages consumed at meals will be considered entertainment.

The problem of properly characterizing an expenditure for purposes of determining whether section 274 is applicable, or whether the expenditure is to be treated solely under some other section, can be illustrated by a case where a taxpayer distributes to each of his cus-

tomers a valuable gift which is inscribed with the taxpayer's name. Expenditures for such items might be characterized as advertising expenses or as expenses for gifts. Under the regulations, expenditures for such items will be characterized as gifts.

SECTION 4. DISALLOWANCE OF CERTAIN ENTERTAINMENT, ETC., EXPENSES (Continued)

(b) *Traveling expenses*.—Subsection (b) of section 4 of the bill amends section 162(a)(2) of the 1954 Code (relating to traveling expenses while away from home) by striking out the existing provision under which the entire amount expended for meals and lodging is included in the allowable deduction and substituting therefor a provision under which there is to be included a reasonable allowance expended for meals and lodging.

(c) *Effective date*.—Subsection (c) of section 4 of the bill provides that the amendments made by section 4 are to apply with respect to taxable years ending after June 30, 1962, but only with respect to periods after such date.

SECTION 5. AMOUNT OF DISTRIBUTION WHERE CERTAIN FOREIGN CORPORATIONS DISTRIBUTE PROPERTY IN KIND

(a) *Amount distributed*.—Subsection (a) of section 5 of the bill amends section 301(b)(1) (relating to amount distributed to corporate distributees) of the 1954 Code by adding at the end thereof a new subparagraph (C). The general rule in new subparagraph (C) provides that for purposes of section 301 the amount of a distribution of property (other than money) received by a corporate shareholder from a foreign corporation will be the fair market value of such property.

An exception to the general rule is provided in cases where a dividends received deduction is allowable under section 245 with respect to such a distribution. In such a case, the amount to be taken into account (for purposes of sec. 301 of the code) with respect to property other than money is the sum, determined under regulations prescribed by the Secretary of the Treasury or his delegate, of the amounts computed under subparagraphs (C)(i) and (C)(ii). The amount under subparagraph (C)(i) is that proportion of the lesser of—

(1) the fair market value of such property, or

(2) the adjusted basis (in the hands of the distributing corporation immediately before the distribution) of such property,

which is properly attributable to gross income from sources within the United States. The amount under subparagraph (C)(ii) is that proportion of the fair market value of such property which is properly attributable to gross income from sources without the United States.

The application of subparagraph (C) may be illustrated by the following example involving corporation X, a domestic corporation which owns 100 percent of the outstanding stock of corporation Y, a foreign corporation. Corporation Y, which makes its return on the basis of the calendar year, has earnings and profits of \$200,000 for 1963 and derives 60 percent of its gross income from sources within the

United States during 1963. For an uninterrupted period of 36 months ending with the close of 1963, corporation Y has been engaged in trade or business within the United States and has derived 50 percent or more of its gross income from sources within the United States. Assume that the only distribution made by corporation Y during 1963 is a distribution of property which has a fair market value of \$100,000 and an adjusted basis (in the hands of the distributing corporation immediately before the distribution) of \$40,000. The amount of the distribution of such property as determined under section 301(b)(1)(C) is \$64,000, computed as follows:

- | | |
|--|----------|
| (1) Amount computed under section 301(b)(1)(C)(i): That proportion of the adjusted basis of such property (since it is less than the fair market value) which is properly attributable to gross income from sources within the United States, that is, adjusted basis multiplied by the ratio which gross income from sources within the United States bears to gross income from all sources. $\$40,000 \times 60$ percent..... | \$24,000 |
| (2) Amount computed under section 301(b)(1)(C)(ii): That proportion of the fair market value of such property which is properly attributable to gross income from sources without the United States, that is, fair market value multiplied by the ratio which gross income from sources without the United States bears to gross income from all sources. $\$100,000 \times 40$ percent..... | 40,000 |
| (3) Amount of distribution of property for purposes of section 301..... | 64,000 |

(b) *Basis*.—Subsection (b) of section 5 of the bill amends section 301(d) of the code (relating to basis of property) by adding a new paragraph (3). The new paragraph (3) provides that where the amount of a distribution of property other than money is determined in accordance with the provisions of subparagraph (C) of section 301(b)(1), the basis of such property shall be the amount of the property distribution. Thus, in the above example the property distributed would have a basis in the hands of corporation X, the distributee, of \$64,000, the amount of the distribution.

(c) *Dividends received from certain foreign corporations*.—Paragraph (1) of subsection (c) of section 5 of the bill amends section 245 of the 1954 Code (relating to dividends received from certain foreign corporations) by adding a new subsection (b). The new subsection (b) provides that for purposes of computing the dividends received deduction under section 245(a) the amount of any distribution of property other than money shall be determined under section 301(b)(1)(B). Under section 301(b)(1)(B) the amount of a distribution of property to a corporate shareholder is the lesser of (1) the fair market value of such property, or (2) the adjusted basis of such property (in the hands of the distributing corporation immediately before the distribution). Thus, for purposes of section 245, the amount of the dividend in the above example would be \$40,000, rather than \$64,000, and the amount allowed as a deduction under section 245 would be \$20,400 ($\$40,000 \times 60\% \times 85\%$).

Paragraph (2) of subsection (c) of section 5 of the bill amends section 245 of the 1954 Code so as to designate the existing text as subsection (a) of section 245.

(d) *Credit for foreign taxes*.—Subsection (d) of section 5 of the bill amends section 902(a) of the 1954 Code (relating to credit for foreign taxes) to provide that for purposes of section 902 (a) and (b) the amount of any distribution in property other than money shall be

determined under section 301(b)(1)(B). Under section 301(b)(1)(B) the amount of a distribution of property to a corporate shareholder is the lesser of (1) the fair market value of such property, or (2) the adjusted basis of such property (in the hands of the distributing corporation immediately before the distribution). Thus, for purposes of section 902(a) the amount of the dividend in the above example would be \$40,000, rather than \$64,000.

(e) *Effective date.*—Subsection (e) of section 5 of the bill provides that the amendments made by section 5 of the bill shall apply to distributions made after December 31, 1962.

SECTION 6. AMENDMENT OF SECTION 482

(a) *In general.*—Subsection (a) of section 6 of the bill amends section 482 of the 1954 Code (relating to allocation of income and deductions among taxpayers) by adding a new subsection (b) relating to sales and purchases within a related group which includes a foreign organization.

Sales and purchases within a related group which includes a foreign corporation—in general

Paragraph (1) of the new section 482(b) provides authority for the Secretary of the Treasury or his delegate to allocate taxable income, arising from sales or purchases of tangible property within a group, which is owned or controlled directly or indirectly, by the same interests and which includes one or more foreign organizations, as well as one or more domestic organizations. New section 482(b) does not apply where an arm's length price can be established for the sales of tangible property. However, it is incumbent upon the taxpayer to establish that the sales price was an arm's length price.

An example of the type of sale which could be dealt with under section 482(b) is as follows: A domestic parent sells articles to a foreign subsidiary where there are not sufficient sales of similar goods to establish an arm's length price. The foreign subsidiary sells the articles to another subsidiary which, in turn sells them to an unrelated organization. In such a situation the Secretary of the Treasury or his delegate could, under section 482(b), allocate, among the members of the group, the total taxable income of the entire group arising out of these sales transactions down to and including the ultimate sale to an unrelated buyer.

Methods of allocation

Paragraph (2)(A) of section 482(b) indicates the factors which the Secretary of the Treasury or his delegate is to take into consideration in making any allocation under such paragraph (2)(A). These factors are specifically enumerated in clauses (i)—(iii).

Clause (i) refers to assets of the group (which are further specified in par. (3)) to the extent used in the production, distribution, and sale of the articles. Clause (ii) refers to compensation of officers and employees, to the extent attributable to the production, distribution, and sale of the articles. Compensation includes salaries and wages and such other elements of compensation as may be definitely associated with the salary and wages so attributable. Clause (iii) refers to advertising, selling, and sales promotion expenses (including technical and servicing expenses), to the extent attributable to the articles.

Paragraph (2)(A) contemplates first determining that portion of any asset or item of expense which is attributable to the articles sold. In applying the enumerated factors to this portion, the following rules will generally apply—

(1) assets will be taken into account on the basis of situs (within or without the United States) and without regard to which organization owns or leases such assets;

(2) salaries and other compensation will be taken into account on the basis of the area (within or without the United States) in which the services attributable to these articles are performed; and

(3) advertising, selling, and sales promotion expenses will be taken into account on the basis of the location (within or without the United States) of the purchasers and potential purchasers with respect to which such expenses are paid or incurred.

The Secretary of the Treasury or his delegate may take into account other factors, including an allowance for special risks of the market in which the articles are sold.

Section 482(b)(2)(B) provides for the use of an alternative method of allocation if the Secretary of the Treasury or his delegate is satisfied that the taxpayer has established that such other method clearly reflects the income of each member.

Special rules

Paragraph (3) of subsection (b) provides that in considering the factor of assets, the values to be assigned to those assets are their adjusted basis in the hands of the taxpayer. If the adjusted basis of an asset is not determinable in the case of a foreign organization, then book value, adjusted to approximate adjusted basis, will be used.

The assets which are to be considered are real property and tangible personal property (whether owned or leased by a member of the group). Inventory and stock in trade are to be excluded from such consideration.

Arm's length price defined

Section 482(b)(4) provides two methods by which the group may establish the existence of an arm's length price. If an arm's length price is established, the new subsection 482(b) does not apply. However, if the arm's length price so established is not the price at which the sales took place, there may be an allocation of income, deductions, etc., under section 482(a). Under subparagraph (A) of section 482(b)(4), the taxpayer may establish an arm's length price as the identifiable price at which tangible personal property, which is similar or comparable to the property sold by such taxpayer, can be sold, or is actually sold, in the same market areas in transactions involving unrelated persons and under similar conditions of sale. For this purpose, the same market area refers to a geographic area, without regard to political boundaries, in which the same market conditions prevail and where it could be expected that prices would be the same. The requirement as to similar conditions of sales means that there should not be excluded from the one sale, and included in the other any circumstance, such as a longer warranty, which would normally have an appreciable influence on the price if included or excluded.

Subparagraph (B) of section 482(b)(4) provides that if it is not possible to establish a price in this manner, then an arm's length price

may still be established if it is possible to adjust the prices at which tangible property similar or comparable to the property referred to above is sold in the same or other areas under similar circumstances and in transactions involving unrelated persons. The adjustments should include those for material differences in quantity, marketing conditions (including customs duty and transportation costs), and other relevant factors. The utilization of this method is limited to situations in which the required adjustments can be properly determined.

An example of the establishment of an arm's length price under subparagraph (B) is the following: Taxpayer A sells product M in country X to a controlled subsidiary, and in country Y A sells a comparable product N to unrelated parties. It is established that the differences between products N and M are of a type which would not ordinarily involve a price differential; the quantity of product M sold to the subsidiary would ordinarily involve a 2% discount over the quantity of product N sold to unrelated parties in country Y; such sales in Y include a warranty not afforded in X, but worth 5% of the sales price; and countries X and Y are areas involving similar market conditions. If all the preceding assumptions are properly determinable by external facts (such as arm's length transactions), the appropriate arm's length price for these sales to the subsidiary in X can be established by reference to these sales in Y.

Sales commissions

Paragraph (5) of the new section 482(b) gives the Secretary of the Treasury or his delegate the authority to allocate commissions arising from sales or purchases of tangible property within the group in the same manner as sales income. The application of section 482(b) to such commission income is to be accomplished under rules contained in regulations prescribed by the Secretary of the Treasury or his delegate, which rules shall be consistent with principles applying under such section to income from sales of tangible property.

Grossly inadequate assets, etc., outside the United States

Paragraph (6) of the new section 482(b) provides that no taxable income is to be allocated to a foreign organization whose assets, personnel, office and other facilities located outside the United States are grossly inadequate for its activities outside the United States. Under such circumstances the total taxable income of the group would be allocated to members other than such organization.

Information necessary for consideration of factors

Paragraph (7) of the new section 482(b) provides that where the allocation referred to in paragraph (2)(A) is involved and where the information submitted with respect to the group is insufficient for such allocation, then if, after a request is made to the group for additional information which may reasonably be supplied, the group fails to supply such additional information, the Secretary of the Treasury or his delegate may estimate the taxable income arising from the particular transaction and allocate such estimated income within the group or to any single member thereof.

Treatment of foreign taxes

Paragraph (8)(A) provides that in making the allocation under section 482(b), taxable income is to be computed without any deduction for any income, war profits, or excess profits taxes paid to any foreign country or United States possession.

Subparagraph (B) of paragraph (8) provides that if the application of section 482(b) results in reducing the taxable income of any foreign organization within the group and in increasing the taxable income of a domestic member of such group, then that portion of the taxes referred to in subparagraph (A) paid by the foreign organization, which is attributable to the income transferred pursuant to such allocation to the domestic member, will be considered as paid by the domestic organization (and as not paid by the foreign organization). Whether such taxes are deducted or credited by the domestic organization would depend on the overall circumstances of that organization.

(b) *Clerical amendment.*—Subsection (b) of section 6 of the bill is a clerical amendment the effect of which is to designate the text of existing section 482 as subsection (a) of section 482.

(c) *Effective date.*—Subsection (c) of section 6 of the bill provides that the amendments made by section 6 of the bill are to apply with respect to taxable years beginning after December 31, 1962.

SECTION 7. DISTRIBUTION OF FOREIGN PERSONAL HOLDING COMPANY INCOME

(a) *Definition of foreign personal holding company.*—Section 552(a) of the 1954 Code now defines the term “foreign personal holding company” to mean any foreign corporation if—

(1) at any time during the taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by or for not more than 5 individuals who are citizens or residents of the United States (referred to as a “United States group”); and

(2) at least 60 percent of its gross income for the taxable year is foreign personal holding company income.

However, if the corporation is a foreign personal holding company with respect to any taxable year, then, for each subsequent taxable year, the minimum percentage is 50 percent in lieu of 60 percent until a taxable year during the whole of which the stock ownership referred to in paragraph (1) does not exist or until the expiration of 3 consecutive taxable years in each of which less than 50 percent of the gross income is foreign personal holding company income.

Subsection (a) of section 7 of the bill amends section 552(a) of the 1954 Code so as to substitute for the gross income requirements referred to above a new rule that a foreign corporation satisfies the gross income requirement if at least 20 percent of its gross income for the taxable year is foreign personal holding company income.

(b) *Amount of undistributed income.*—Section 556(a) of the 1954 Code now defines the term “undistributed foreign personal holding company income” to mean the taxable income of the foreign personal holding company with certain modifications (including a deduction for Federal income taxes and for dividends paid).

Subsection (b) of section 7 of the bill amends section 556(a) so as to retain, in effect, the existing definition where the foreign personal holding income of the foreign personal holding company exceeds 80

percent of its gross income, and to provide that where the foreign personal holding company income does not exceed 80 percent of its gross income, the "undistributed foreign personal holding company income" is to be an amount which bears the same ratio to—

(1) the amount of taxable income (computed and adjusted as under existing law), as

(2) its foreign personal holding company income bears to its gross income.

The amendments made by section 7 of the bill may be illustrated by the following example:

Assume that C, a United States citizen, wholly owns F, a foreign corporation. F has not been a foreign personal holding company for any prior taxable year. For the taxable year F has gross income of \$100 (which includes \$50 of foreign personal holding company income), has deductions under section 556(b) of \$10 (and no other adjustments under section 556(b)), and pays a dividend of \$5. F's taxable income (adjusted as provided in section 556(b)) is \$90. Under existing law, F is not a foreign personal holding company. Under the bill, F is a foreign personal holding company and has undistributed foreign personal holding company income of

$$\$42.50 \left(\frac{50}{100} \times (\$90 - \$5) = 42.50 \right).$$

(c) *Effective date.*—Subsection (c) of section 7 of the bill provides that the amendments made by section 7 are to apply only in respect of taxable years of foreign corporations beginning after December 31, 1962.

SECTION 8. MUTUAL SAVINGS BANKS, ETC.

(a) *In general.*—Subsection (a) of section 8 of the bill amends section 593 of the 1954 Code to provide a new method for calculating the deduction for additions to bad debt reserves allowable to the mutual savings banks, domestic building and loan associations, and cooperative banks, referred to in section 593(a) (all of which are hereinafter referred to as mutual savings institutions).

SECTION 593. RESERVES FOR LOSSES ON LOANS

(a) *Organizations to which section applies.*—Subsection (a) of section 593, as amended by the bill, provides that section 593 is to apply to any mutual savings bank not having capital stock represented by shares, domestic building and loan association, or cooperative bank without capital stock organized and operated for mutual purposes and without profit. This description of the organizations to which section 593 of existing law, and no substantive change is made by this change in description. (As is noted below, however, subsec. (c) of sec. 8 of the bill redefines the term "domestic building and loan association".)

(b) *Additions to reserves for bad debts.*—Subsection (b)(1) prescribes the method for determining the reasonable addition for the taxable year to the reserve for bad debts under section 166(c), and also specifies the reserves to which such additions shall be made. Such reasonable

addition is the sum of two amounts—(1) the amount added to the reserve for losses on nonqualifying loans, and (2) the amount added to the reserve for losses on qualifying real property loans.

The first amount is that determined under section 166(c) to be a reasonable addition to the reserve for losses on nonqualifying loans. Nonqualifying loans are defined in subsection (e)(2), and (with certain exceptions) are loans other than loans secured by an interest in improved real property.

The second amount is the amount determined by the taxpayer to be a reasonable addition to the reserve for losses on qualifying real property loans. However, this amount cannot exceed the amount determined under one of three different methods described in paragraphs (2), (3) and (4) of subsection (b), whichever method produces the largest amount. Qualifying real property loans are defined in subsection (e)(1) and (with certain exceptions) are loans secured by an interest in improved real property.

60 percent of taxable income method

Under this method, which is described in subsection (b)(2), the amount of the reasonable addition to the reserve for losses on qualifying real property loans for a taxable year is limited to the excess of an amount equal to 60 percent of the taxable income for such year over the amount determined under section 166(c) to be a reasonable addition to the reserve for losses on nonqualifying loans. For purposes of this method, taxable income is determined without regard to any deduction under section 166(c) for any additions to the reserves for bad debts, and also by excluding from gross income any amount included therein by reason of subsection (f) (relating to the treatment of certain distributions of property to stockholders by a domestic building and loan association).

3 percent of real property loans method

Under this method, described in subsection (b)(3), the amount of the reasonable addition to the reserve for losses on qualifying real property loans is limited to the amount necessary to increase the balance of such reserve (as of the close of the taxable year) to 3 percent of such loans outstanding at that time.

Experience method

Under this method, described in subsection (b)(4), the amount of the reasonable addition to the reserve for qualifying real property loans is limited to the amount determined under section 166(c) without regard to sec. 593(b)) to be a reasonable addition to such reserve.

(c) *Treatment of reserves for bad debts.*—Subsection (c)(1) of section 593 as amended provides that each mutual savings institution which uses the reserve method of accounting for bad debts is to establish and maintain a reserve for losses on qualifying real property loans, a reserve for losses on nonqualifying loans, and a supplemental reserve for losses on loans. Such reserves are to be treated for all purposes as reserves for bad debts. Thus, although these reserves are termed reserves for “losses”, they are to be treated as reserves for bad debts; and any charge to any such reserve for an item other than a bad debt will result in the inclusion in gross income of an amount equal to such charge.

Allocation of pre-1963 reserves

Paragraphs (2) and (3) of subsection (c) prescribe rules governing the method of allocating pre-1963 reserves among the three reserves described above. The term "pre-1963 reserves" is defined by paragraph (4) to mean the net amount, determined as of the close of December 31, 1962 (after applying the provisions of subsec. (d)(1) relating to taxable years beginning in 1962 and ending in 1963), accumulated in the reserve for bad debts pursuant to section 166(c) (or the corresponding provisions of prior revenue laws) for taxable years beginning after December 31, 1951. Thus, reserves accumulated by a mutual savings institution in taxable years beginning prior to December 31, 1951, when the institution was a tax-exempt organization, are not included in pre-1963 reserves and are not to be taken into account for purposes of computing the deduction allowable for additions to reserves for bad debts pursuant to section 593 for periods after December 31, 1962.

Paragraph (2) of subsection (c) provides that such pre-1963 reserves shall, as of the close of December 31, 1962, be allocated to, and constitute the opening balances of, the reserve for losses on nonqualifying loans, the reserve for losses on qualifying real property loans, and the supplemental reserve for losses on loans.

Paragraph (3) of subsection (c) provides that the pre-1963 reserves shall be allocated first to the reserve for losses on nonqualifying loans to the extent that such reserve is not increased above the amount which would constitute a reasonable addition under section 166(c) for a period in which such nonqualifying loans increased from zero to the amount thereof outstanding at the close of December 31, 1962. Thus, the pre-1963 reserves will be allocated to the reserve for losses on nonqualifying loans in an amount not in excess of the maximum amount (determined without regard to any annual limitation which might be imposed under sec. 166(c) on building such reserve to its full amount) which could have been added, as of the close of 1962, to such reserve under subsection (b)(1)(A) if the balance of such reserve immediately prior to such addition had been zero. The remaining portion of the pre-1963 reserves is then allocated to the reserve for losses on qualifying real property loans to the extent such reserve is not increased above the larger of two amounts. The first amount is the amount which would be determined under paragraph (3) of subsection (b) as being necessary to increase the balance of the reserve from zero to 3 percent of qualifying real property loans outstanding at the close of December 31, 1962. The second amount is the amount which would be determined under section 166(c) (without regard to sec. 593) to be a reasonable addition to the reserve for losses on qualifying real property loans for a period in which such loans increased from zero to the amount thereof outstanding at the close of December 31, 1962. Any remaining balance of the pre-1963 reserves is allocated to the supplemental reserve for losses on loans.

Subsection (c)(5) provides that any debt becoming worthless or partially worthless in respect of a qualifying real property loan shall be charged to the reserve for losses on such loans, and any debt becoming worthless or partially worthless in respect of a nonqualifying loan shall be charged to the reserve for losses on nonqualifying loans; except that any such debt may, at the election of the taxpayer, be

charged in whole or in part to the supplemental reserve for losses on loans.

(d) *Taxable years beginning in 1962 and ending in 1963.*—Subsection (d) of the amended section 593 contains provisions for the computation of taxable income in the case of a taxable year which is a fiscal year beginning in 1962 and ending in 1963. With certain exceptions, the general effective date provision in section 8(f)(1) of the bill makes the amended section 593 applicable with respect to taxable years ending after December 31, 1962. However, subsection (d) makes section 593 take effect with respect to fiscal year taxpayers as of January 1, 1963. Subsection (d) apportions taxable income for the entire taxable year (determined without regard to any deduction under sec. 166(c)) between the part of the taxable year which falls in 1962 and the part which falls in 1963. Such taxable income is allocated to each part year on the basis of the ratio which the number of days in each such part year bears to the number of days in the entire taxable year. The portion of such taxable income allocable to the part of the year occurring before January 1, 1963, is then reduced under subsection (d)(1) by an amount equal to the deduction which would have been allowable under section 166(c) for an addition to the reserve for bad debts as if such part year constituted a taxable year and as if section 593, as in effect before the amendments made by section 8 of the bill, applied. The portion of such taxable income allocable to the part of the taxable year occurring after December 31, 1962, is reduced, under subsection (d)(2), by an amount equal to the deduction for an addition to a reserve for bad debts which would be allowed under section 166(c) (taking into account the amendments made by sec. 8 of the bill) if such part year constituted a taxable year. The amounts of taxable income thus obtained for each part year are then added to obtain the taxable income for the entire taxable year.

The amount of the deduction allowable for the pre-1963 part year to a mutual savings institution under subsection (d)(1) is limited, by reason of section 593(2) of existing law, to the amount by which 12 percent of the total deposits or withdrawable accounts of its depositors at the close of such part year (Dec. 31, 1962) exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year. In addition, by reason of section 593(1) of existing law, the deduction allowable under subsection (d)(1) for the pre-1963 part year to a mutual savings institution cannot exceed the amount of its taxable income (determined without regard to any deduction under sec. 166) allocable to the pre-1963 part year. Although the amount of the deduction allowable for the pre-1963 part year under subsection (d)(1) cannot be determined until the close of the entire taxable year (by reason of the taxable income limitation and because the amount must be reflected on the institution's regular books of account), this amount is added to the institution's pre-1963 reserves. The pre-1963 reserves are then allocated under the rules of subsection (c), as of the close of December 31, 1962, by reference to the amount of nonqualifying loans and qualifying real property loans outstanding at that time.

The deduction referred to in subsection (d)(2) for the post-1962 part year is determined under subsection (b) and is equal to the sum of the amount of an addition to the reserve for losses on nonqualifying loans plus the amount of an addition to the reserve for qualifying

real property loans. The amount of the addition to the reserve for nonqualifying loans is computed by reference to the amount of such loans outstanding at the close of the taxable year in relation to the balance in the reserve for such loans at that time. The amount of the addition to the reserve for qualifying real property loans, if determined under the 60 percent of taxable income method, would be equal to the excess of an amount equal to 60 percent of the taxable income (determined under subsec. (b)(2)) which is allocable to the post-1962 part year over the amount of the reasonable addition to the reserve for nonqualifying loans. If the addition to the reserve for qualifying real property loans is determined under the 3 percent of real property loans method or the experience method, it would be computed by reference to the amount of such loans outstanding at the close of the taxable year in relation to the balance in the reserve for such loans at that time.

(e) *Loans defined*.—Subsection (e) of section 593 defines, for purposes of section 593, the terms “qualifying real property loans”, “nonqualifying loans”, and “loans”.

The term “loan” is defined to mean debt, as the term “debt” is used in section 166. Since subsection (e) of section 166 is made inapplicable by section 582(a) in the case of a mutual savings institution, the term “loan” includes a debt evidenced by a security as defined in section 165(g)(2)(C). For purposes of subsection (e), a taxpayer will be considered to have made a loan to the extent of his participation in the loan, whether the loan was made by him or by another person.

Under paragraph (1) of subsection (e), a “qualifying real property loan” is defined to mean any loan of the taxpayer which is secured by an interest in improved real property unless such loan is described in subparagraph (A), (B), (C), or (D) of such paragraph. The loans described in these subparagraphs are: (A) any loan evidenced by a security (as defined in sec. 165(g)(2)(C)); (B) any loan, whether or not evidenced by a security as defined in section 165(g)(2)(C), the primary obligor on which is a government or political subdivision or instrumentality thereof, a bank as defined in section 581, or another member of the same affiliated group; (C) any loan to the extent secured by a deposit in or share of the taxpayer; and (D) any loan which, within a 60-day period beginning in one taxable year of the creditor and ending in its next taxable year, is made or acquired and then repaid or disposed of, unless the transactions by which such loan was made or acquired and then repaid or disposed of, are established by the taxpayer to be for bona fide business purposes.

The term “affiliated group” is defined as having the meaning assigned to such term by section 1504(a) of existing law; except that (1) the phrase “more than 50%” shall be substituted for the phrase “at least 80%” each place it appears in section 1504(a), and (2) all corporations shall be treated as includible corporations (without any exclusion under sec. 1504(b)).

Paragraph (2) of subsection (e) defines the term “nonqualifying loan” as any loan of the taxpayer which is not a qualifying real property loan as defined by the bill. Thus, a loan which is, for example, evidenced by a security as defined in section 165(g)(2)(C), is treated as a nonqualifying loan irrespective of the fact that it may be secured by improved real property.

(f) *Distributions to shareholders*.—Subsection (f) of section 593, as amended by the bill, prescribes rules governing certain distributions of property (as defined in sec. 317(a)) by a domestic building and loan association to a shareholder with respect to its stock, if such distribution is not allowable as a deduction under section 591. The term "distribution" is defined in paragraph (3)(C) to include any distribution in redemption of stock or in partial or complete liquidation of the association.

Paragraph (1) of subsection (f) provides that a distribution shall be treated as made, first out of the reserve for losses on qualifying real property loans to the extent that the additions made to such reserve pursuant to section 593, as amended by the bill, exceed the additions thereto which would have been allowed under section 166(c) of the code (without regard to sec. 593). The additions made to such reserve include amounts initially added to the reserve pursuant to the allocation rules of subsection (c). The distribution is then treated as made out of the supplemental reserve for losses on loans, to the extent thereof; then out of the association's earnings and profits accumulated in taxable years beginning after December 31, 1951, to the extent thereof; and finally, out of such other accounts as may be proper.

Paragraph (2) of subsection (f) provides that, if a distribution described in paragraph (1) is treated as having been made out of the reserve for losses on qualifying real property loans or out of the supplemental reserve for losses on loans, the amount charged against such reserve shall be the amount which, when reduced by the amount of Federal income tax attributable to the inclusion of such amount in gross income, is equal to the amount of such distribution. Any amount so charged against such reserve shall be included in the gross income of the distributor association. Since the amount so included in gross income is also included in earnings and profits, the effect of subsection (f) is to treat such amount as having been first transferred from the reserves to earnings and profits and then charged to earnings and profits. Thus this rule will normally insure that there will be earnings and profits sufficient to make distributions which are in reality dividends taxable as such, even though the association has previously deducted, in computing its earnings and profits, the amount of additions to its bad debt reserves. However, apart from the consequences which flow from the fact that earnings and profits will be created by such charges to the reserves, income tax consequences to stockholders are not otherwise affected by subsection (f).

Paragraph (3) of subsection (f) provides special rules. Subparagraph (A) provides that, for purposes of treating a distribution as having been made out of the reserve for losses on qualifying real property loans, additions to such reserve for the taxable year in which the distribution occurs shall be taken into account. Thus, the amount of such reserve will be augmented by the addition to such reserve computed under subsection (b) before the reserve is reduced by reason of treating a distribution as having been made out of the reserve. Subparagraph (B) provides that, for purposes of computing (under sec. 593, as amended by the bill) the amount of a reasonable addition to the reserve for losses on qualifying real property loans for any taxable year, any amount charged during any year to such reserve pursuant to the provisions of paragraph (2) of subsection (f)

shall not be taken into account. Thus, the amount by which such reserve is reduced by reason of distributions to stockholders cannot serve as the basis for subsequent deductible additions to such reserve.

SECTION 8. MUTUAL SAVINGS BANKS, ETC. (Continued)

(b) *Foreclosure on property securing loans.*—Subsection (b) of section 8 of the bill adds a new section 595 to the code. The section applies only to a creditor which is a mutual savings institution described in the amended section 593(a).

Nonrecognition of gain or loss as a result of foreclosure

Subsection (a) of the new section 595 provides that in the case of a creditor which is an organization described in section 593(a), no gain or loss shall be recognized, and no debt shall be considered as becoming worthless or partially worthless, as the result of such organization having bid in at foreclosure, or having otherwise reduced to ownership or possession by agreement or process of law, any property which was security for the payment of any indebtedness.

Character of property

Subsection (b) of the new section 595 provides that, for purposes of sections 166 (relating to the deduction for bad debts) and 1221 (relating to the definition of a capital asset), any property acquired in a transaction with respect to which gain or loss was not recognized to the creditor by reason of subsection (a) shall be considered as property having the same characteristics as the indebtedness for which such property was security. The subsection further provides that any amount realized by such creditor with respect to such property shall be treated (for purposes of ch. 1 of the code) as a payment on account of such indebtedness, and that any loss with respect to such property shall be treated as a bad debt to which the provisions of section 166 apply.

Basis

Subsection (c) of the new section 595 provides that the basis of any property acquired in a transaction to which subsection (a) applies shall be the basis of the indebtedness for which such property was security, determined as of the date of the acquisition of such property, properly increased for any costs of acquisition.

Regulatory authority

Subsection (d) of the new section 595 provides that the Secretary of the Treasury or his delegate shall prescribe such regulations as he may deem necessary to carry out the purposes of this section.

(c) *Definition of domestic building and loan association.*—Subsection (c) of section 8 of the bill amends paragraph (19) of section 7701(a) of the code to provide a new definition of the term “domestic building and loan association”. As amended, paragraph (19) of section 7701(a) defines such term to mean any domestic building and loan association, domestic savings and loan association, or Federal savings and loan association, which is either (i) an insured institution within the meaning of section 401(a) of the National Housing Act (12 U.S.C., § 1724(a)), or (ii) is subject by law to supervision and examination by State or Federal authority having supervision over such associations, but only if substantially all of its business meets specified requirements.

The "insured institutions" referred to are those the accounts of which are insured by the Federal Savings and Loan Insurance Corporation. The new definition requires that substantially all the business of an association consist of accepting savings and investing the proceeds (i) in loans secured by real property which is (or, from the proceeds of the loan, will become) residential real property, and (ii) in other loans, to the extent such other loans would be authorized to be made by a Federal savings and loan association under the second paragraph of section 5(c) of the Home Owners' Loan Act, as amended (12 U.S.C., § 1464(c)). These provisions authorize a Federal savings and loan association to invest a sum not in excess of 15 percent of its assets in specified loans, including unsecured loans, for property alteration, repair, or improvement.

(d) *Clerical amendments.*—Subsection (d) of section 8 of the bill contains clerical amendments.

(e) *Repeal of exemption from communications and transportation of persons taxes.*—Under section 5(h) of the Home Owners' Loan Act of 1933 (48 Stat. 132; 12 U.S.C., § 1464(h)), Federal savings and loan associations are exempted from the excise tax on communications and the excise tax on the transportation of persons now imposed by sections 4251 and 4261 of the code. Subsection (e) of section 8 of the bill provides that, notwithstanding any other provision of law, a Federal savings and loan association shall not be exempt as such from the excise taxes imposed by sections 4251 and 4261 of the code.

(f) *Effective dates.*—Subsection (f) of section 8 of the bill provides effective dates for subsections (a), (b) and (e) of section 8 of the bill.

Paragraph (1) of section 8(f) of the bill provides that the amendments made by section 8(a) of the bill (which amends sec. 593 of existing law) shall apply to taxable years ending after December 31, 1962, except that section 593(f) of the code shall apply to distributions after December 31, 1962, in taxable years ending after such date.

Paragraph (2) of section 8(f) of the bill provides that the amendments made by section 8(b) of the bill (which adds a new sec. 595) shall apply to transactions described in section 595(a) of the code occurring after December 31, 1962, in taxable years ending after such date.

Paragraph (3) of section 8(f) of the bill provides that subsection (e) shall apply, in the case of the tax imposed by section 4251 of the code, with respect to amounts paid pursuant to bills rendered after June 30, 1962; and, in the case of the tax imposed by section 4261 of the code, with respect to transportation beginning after June 30, 1962.

SECTION 9. DISTRIBUTIONS BY FOREIGN TRUSTS

(a) *Definitions.*—Section 9(a) of the bill amends section 643 of the 1954 Code (definitions relating to the income of estates and trusts) in the following respects.

Modification of distributable net income

Section 9(a)(1) of the bill amends section 643(a)(6) (relating to modifications taken into account in computing distributable net income) in two respects. First, a new subparagraph (B) is added to section 643(a)(6) to provide that the gross income of a foreign

trust from sources within the United States is to be determined without regard to section 894 (relating to income exempt under treaty). A further amendment is made to section 643(a)(6) by the addition of a new subparagraph (C). The new section 643(a)(6)(C) provides that section 643(a)(3) (relating to capital gains and losses) is not to apply to a "foreign trust created by a United States person", as defined in section 643(d). In lieu of the rules provided by section 643(a)(3), the new subparagraph (C) provides that there is to be included in distributable net income gains from the sale or exchange of capital assets, reduced by losses from such sales or exchanges to the extent such losses do not exceed gains from such sales or exchanges. The new subparagraph (C) also provides that the deduction under section 1202 (relating to deduction for excess of capital gains over capital losses) is not to be taken into account. Existing section 643(a)(3) will continue to apply to trusts other than foreign trusts created by United States persons.

Foreign trusts created by United States persons

Section 9(a)(2) of the bill adds a new subsection (d) to section 643 of the 1954 Code. The new section 643(d) provides that, for purposes of part I of subchapter J (relating to estates, trusts, and beneficiaries), the term "foreign trust created by a United States person" means a foreign trust (as defined in sec. 7701(a)(31)) to which money or property has been transferred directly or indirectly by a United States person (as defined in sec. 7701(a)(30)), or under the will of a decedent who at the date of his death was a United States citizen or resident. A foreign trust, created by a person who is not a United States person, to which a United States person transfers money or property would under this definition be a foreign trust created by a United States person.

(b) *Modification of throwback.*—Subsections (b) through (d) of section 9 of the bill make various amendments designed to modify the so-called throwback provisions of the code in their application to certain foreign trusts.

Existing law

Under existing law the so-called throwback provisions of subchapter J operate substantially as follows. When a beneficiary receives as a distribution an amount in excess of current distributable net income, and the distribution exceeds \$2,000, it is called an accumulation distribution. The beneficiary is taxed on this amount to the extent there was undistributed net income of the trust in any of the preceding 5 years, the undistributed net income of such prior years being taken into account in inverse order. Undistributed net income consists of undistributed distributable net income for a taxable year, minus the taxes on the trust attributable to such undistributed amount. The beneficiary is also required to include in gross income an appropriate portion of the United States income taxes, if any, imposed on the trust with respect to the undistributed net income, but he receives a tax credit based on the taxes the trust would not have had to pay if the undistributed distributable net income had actually been paid to the beneficiary.

Although under section 668(a) the beneficiary is taxable currently on the entire distribution, as well as on the taxes on the trust allocable

to that amount, the tax attributable to the distribution cannot exceed the tax he would have paid had the distribution been paid to him on the last day of each of the preceding taxable years to the extent the undistributed net income of each of those years is considered absorbed by the distribution. The taxes deemed distributed to him are similarly spread back.

Under existing law, however, as noted, the throwback rule does not operate with respect to distributions made out of accumulations for taxable years before the fifth year preceding the taxable year. In addition, there are certain exceptions to what may be taken into account in determining whether there has been an accumulation distribution, e.g., a distribution out of accumulations for a minor, or a final distribution of the trust made to a beneficiary more than 9 years after the date of the last transfer to the trust.

Modification of accumulation distribution

Section 9(b)(1) of the bill amends section 665(b) (relating to the definition of accumulation distribution) to limit the application of such definition to trusts other than foreign trusts created by United States persons. A new section 665(c), added by section 9(b)(2) of the bill, provides a definition of accumulation distribution for foreign trusts created by United States persons. Under this new definition, a distribution in excess of current distributable net income constitutes an accumulation distribution whether or not the distribution exceeds \$2,000. In addition, there are no exceptions to what may be taken into account in determining whether there has been an accumulation distribution. Thus, any distribution in excess of current distributable net income will, under the new section 665(c), be an accumulation distribution.

The last sentence of section 665(c) provides that any amount paid to a United States person which is from a payor who is not a United States person, and which is derived directly or indirectly from a foreign trust created by a United States person, is to be deemed in the year of payment to have been directly paid by the foreign trust. Thus, if a nonresident alien receives a distribution from a foreign trust created by a United States person and he then pays the amount of the distribution over to a United States person, the payment of such amount to the United States person represents an accumulation distribution to the United States person from such trust, to the extent that the amount received would have been an accumulation distribution had the trust paid the amount directly to the United States person. An example of a payment indirectly derived by a nonresident alien from such a foreign trust would be where the trust distributes to a foreign trust which was not created by a United States person, and which latter foreign trust makes a distribution to the nonresident alien. In this case, the payment over to a United States person is considered to have been made from the initial and not from the intervening trust. The same result would obtain if the intervening trust were a foreign trust created by a United States person. However, even if a payment is made to a United States person by a person who is not a United States person and who directly or indirectly derived the amount paid from a foreign trust created by a United States person, the receipt of the amount by the United States person is not considered the receipt of an accumulation distribution from a trust if the

amount is received under circumstances indicating lack of intent on the part of the parties to circumvent the amendments made by section 9 of the bill.

Other modifications to the throwback rule

The restriction of the throwback rule to the 5 preceding taxable years of the trust is removed by section 9(c)(2) of the bill for foreign trusts created by a United States person. However, this unlimited throwback will operate only for years governed by the 1954 Code.

Section 9(d) of the bill adds a new sentence to section 668(a) (relating to amounts treated as received in prior taxable years). In the case of a United States person who is a beneficiary of a foreign trust created by a United States person, this sentence conditions the availability of the limitation on tax provided by section 668(a) on a beneficiary's meeting the information requirements of new section 669(b), added by section 9(e) of the bill.

The provisions of subchapter J which remain unchanged by the bill will continue to apply as under existing law. Thus, the credit allowed to a beneficiary by section 668(b) for United States income taxes paid by the trust, and the credit against tax for taxes imposed by foreign countries will continue to be available.

SECTION 9. DISTRIBUTIONS BY FOREIGN TRUSTS (Continued)

(e) *Limitation on tax.*—Section 9(e) of the bill adds a new section 669 to subpart D of part 1 of subchapter J of chapter 1 (relating to treatment of excess distributions by trusts).

SECTION 669. SPECIAL RULES APPLICABLE TO CERTAIN FOREIGN TRUSTS

Section 669 provides that a beneficiary who is a United States person and who satisfies certain additional requirements may elect between two methods of computing the limitation on tax attributable to an accumulation distribution received from a foreign trust created by a United States person. These two methods are in addition to the method available to the beneficiary of computing his tax in the ordinary way by including in income the entire amount of an accumulation distribution when it is paid, credited, or required to be distributed. The additional requirements referred to which must be satisfied by the beneficiary are those provided in section 669(b), relating to the furnishing of certain information by the beneficiary with respect to the operation and accounts of the trust. Information may be required to be furnished for each taxable year of the trust on the last day of which an amount is deemed distributed by the trust under section 666(a). The nature and extent of the information required is to be determined by regulations prescribed by the Secretary of the Treasury or his delegate.

First method of limiting tax

As noted above, section 669(a) provides for an election by the beneficiary as between two methods of computing the limitation on tax attributable to the receipt of an accumulation distribution. The first method is the one provided by existing law, and which is now

contained in the next to the last sentence of section 668(a). However, section 669(a)(2)(B) provides that this method may not be elected if the beneficiary was not alive on the last day of each preceding taxable year of the trust with respect to which a distribution is deemed made under section 666(a). Thus, if a portion of an amount received as an accumulation distribution was accumulated by the trust during years when the beneficiary was unborn, the beneficiary is not permitted to elect the limitation on tax provided by section 669(a)(1)(A).

Second method of limiting tax

The second method of limiting tax is provided by section 669(a)(1)(B). Under this method the beneficiary's gross income for the taxable year in which the accumulation distribution is paid, credited, or required to be distributed to him (determined without regard to the inclusion in income required by sec. 668(a) of any amount other than pursuant to sec. 669(a)(1)(B)) and for each of his 2 taxable years immediately preceding such year is recomputed solely for purposes of determining the limitation on the beneficiary's tax for the current year. The income for each of such 3 years is recomputed by adding thereto an amount determined by dividing the amount required to be included in income under section 668(a) by the number of preceding taxable years of the trust on the last day of each of which an amount is deemed under section 666(a) to have been distributed. There is then computed the increase in tax for each of such 3 years attributable to the increased amount of gross income. The aggregate of the increases in tax for such 3 years is divided by 3 to arrive at an average increase in tax for such 3 years. This average increase in tax, multiplied by the number of preceding taxable years of the trust from the income of which the distribution is made, is the limitation on the beneficiary's tax liability (before the application of any credit for taxes paid by the trust allowed by sec. 668(b)) with respect to the accumulation distribution.

The computation made under the alternate election provided by section 669(a)(1)(B) is modified in two cases. When an accumulation distribution is deemed under section 666(a) to have been distributed on the last day of less than 3 taxable years of the trust, the taxable years of the beneficiary for which a recomputation is made under section 669(a)(1)(B) is limited to the number of years to which section 666(a) applies, commencing with the most recent taxable year of the beneficiary. Also, no recomputation of gross income is to be made for a beneficiary for a taxable year for which he was not alive on the last day thereof; and if the beneficiary has no preceding taxable year, the recomputation of gross income is made on the basis of his taxable year without regard to the inclusion in income required by section 668(a) of any amount other than pursuant to section 669(a)(1)(B).

The application of the preceding paragraph may be illustrated by the following examples: Assume that a foreign trust created by a United States person accumulates \$3,000 of income for one year and \$7,000 for a second year and then distributes the accumulated income on January 1, 1965, to a beneficiary who is a United States person. The limitation on tax computed under section 669(a)(1)(B) would be determined by recomputing the beneficiary's gross income for

1964 and 1965 by adding \$5,000 to each year. If the same distribution were made to an infant who was born in 1965, the limitation on tax would be computed by adding \$5,000 to his gross income for such year. The resulting increase in tax would be multiplied by two to arrive at the limitation on the increase in his tax for 1965 attributable to such distribution.

Effect of prior election

Section 669(a)(3) provides special rules which have application when a beneficiary who is a United States person receives a second or succeeding accumulation distribution from a foreign trust created by a United States person.

If a beneficiary has elected the limitation on tax provided by section 669(a)(1)(B) (the second method described herein) with respect to an accumulation distribution, and with respect to a subsequent accumulation distribution he desires to elect the limitation on tax provided by section 669(a)(1)(A) (the method provided by existing law), for purposes of computing the limitation on tax with respect to the subsequent accumulation distribution the income of any year with respect to which an amount is deemed distributed to a beneficiary under section 666(a) is to include amounts previously deemed distributed to such beneficiary for such year as a result of an accumulation distribution with respect to which an election under section 669(a)(1)(B) was made. The result of this rule is to require that for the purposes of computing the limitation on tax under section 669(a)(1)(A) with respect to an accumulation distribution, all previous elections are considered to have been made under section 669(a)(1)(A). However, this rule does not deny to the beneficiary the benefit previously derived by him as a result of an election under section 669(a)(1)(B) with respect to an earlier accumulation distribution.

A special rule is also provided by section 669(a)(3) regardless of the limitation on tax elected with respect to a prior accumulation distribution when, with respect to a subsequent accumulation distribution, the limitation on tax provided by section 669(a)(1)(B) is elected by the beneficiary. When this occurs the number of preceding taxable years of the trust with respect to which an amount is deemed distributed to a beneficiary under section 666(a) is to be determined without regard to any such year with respect to which an amount was previously deemed distributed to such beneficiary.

SECTION 9. DISTRIBUTIONS BY FOREIGN TRUSTS

(Continued)

(f) *Requirement of information return.*—Section 9(f) of the bill amends subpart B of part III of subchapter A of chapter 61 (relating to information concerning transactions with other persons) by adding a new section 6047.

SECTION 6047. RETURNS AS TO CREATION OF OR TRANSFERS TO CERTAIN FOREIGN TRUSTS

Section 6047 provides for the filing of an information return on or before the 90th day after the creation of any foreign trust by a United States person or after the transfer of any money or property to a

foreign trust by a United States person. The return is to be in such form and is to set forth, in respect of the foreign trust, such information as the Secretary of the Treasury or his delegate prescribes by regulation as necessary for carrying out the provisions of the income tax laws. The return is required to be filed by the grantor in the case of an inter vivos trust, the fiduciary of an estate in the case of a testamentary trust, or by the transferor to a foreign trust, as the case may be.

(g) *Penalty for failure to file return.*—Section 9(g) of the bill amends subchapter B of chapter 68 (relating to assessable penalties) by adding a new section 6677.

SECTION 6677. FAILURE TO FILE INFORMATION RETURNS WITH RESPECT TO CERTAIN FOREIGN TRUSTS

Section 6677(a) provides that, in addition to any criminal penalty provided by law (such as the penalty provided by sec. 7203 for willful failure to file a return), any person required to file a return under section 6047 who fails to file such return at the time provided in such section, or who files a return which does not show the information required pursuant to such section, is to pay a penalty equal to 5 percent of the amount transferred to a trust, but not more than \$1,000, unless it is shown that such failure is due to reasonable cause.

Section 6677(b) provides that the assessment or collection of any penalty imposed by section 6677(a) is not to be subject to the deficiency procedures provided by subchapter B of chapter 63 of the code.

(h) *Definitions.*—Section 9(h) of the bill amends section 7701(a) (relating to definitions) by adding paragraphs (30) and (31). Paragraph (30) defines the term “United States person” to mean a citizen or resident of the United States; a domestic partnership; a domestic corporation; and any estate or trust (other than a foreign estate or foreign trust, within the meaning of sec. 7701(a)(31)). Paragraph (31) defines the terms “foreign estate” and “foreign trust” to mean an estate or trust, as the case may be, the income of which from sources without the United States is not includible in gross income under subtitle A of the code (relating to income taxes).

(i) *Technical amendments.*—Section 9(i) of the bill amends the tables of sections where necessary to reflect the addition of the new sections added by the bill.

(j) *Effective date.*—The amendments made by section 9 of the bill (other than by subsecs. (f), (g), and (h)) are to apply with respect to distributions made in taxable years of trusts beginning after the date of the enactment of the bill. The amendments made by subsections (f), (g), and (h) will take effect on such date of enactment.

SECTION 10. MUTUAL INSURANCE COMPANIES (OTHER THAN LIFE, MARINE, AND CERTAIN FIRE INSURANCE COMPANIES), ETC.

(a) *Imposition of tax.*—Subsection (a) of section 10 of the bill amends the heading and table of sections for part II of subchapter L of chapter 1 of the 1954 Code to conform them to the substantive changes made by the bill. In addition, subsection (a) in effect strikes

out existing section 821 of the code and substitutes a new section 821, relating to the tax on mutual insurance companies to which part II applies.

SECTION 821. TAX ON MUTUAL INSURANCE COMPANIES TO WHICH PART II APPLIES

(a) *Imposition of tax.*—Subsection (a) of the new section 821 provides the general rule for taxing mutual insurance companies (including interinsurers and reciprocal underwriters). The tax will not apply to a mutual life insurance company or to a mutual marine or mutual fire insurance company subject to the tax imposed by section 831 of the 1954 Code. In addition, the tax will not apply if the alternative tax imposed by the new section 821(c) (relating to alternative tax for certain small companies) applies. Also, mutual insurance companies (other than life or marine) whose gross receipts (not including capital gains) for the taxable year do not exceed \$75,000 will continue to be exempt from tax under section 501(c)(15) of the 1954 Code.

The tax imposed by the new section 821(a) applies to each taxable year beginning after December 31, 1962. The tax is to consist of—

(1) a normal tax of 25 percent of the mutual insurance company taxable income, or 50 percent of the amount by which such taxable income exceeds \$6,000, whichever is the lesser; and

(2) a surtax of 22 percent of the mutual insurance company taxable income (computed without regard to the deduction provided in section 242 for partially tax-exempt interest) in excess of \$25,000.

Under existing law a mutual insurance company which is subject to the tax on investment income only is exempt from tax if its mutual insurance company taxable income does not exceed \$3,000. Similarly, existing law provides special notch relief if such a company has mutual insurance company taxable income between \$3,000 and \$6,000. Under the bill, companies having mutual insurance company taxable income (as defined in the new sec. 821(b)) which does not exceed \$6,000 will be exempt from tax, and the special notch provision will apply if the company has mutual insurance company taxable income between \$6,000 and \$12,000.

(b) *Mutual insurance company taxable income defined.*—Subsection (b) of the new section 821 defines the term “mutual insurance company taxable income” for purposes of part II of subchapter L. Under this definition, mutual insurance company taxable income means the amount by which—

(1) the sum of—

(A) the taxable investment income (as defined in sec. 822(a)(1)),

(B) the statutory underwriting income (as defined in sec. 823(a)(1)), and

(C) the amounts required by section 824(d) to be subtracted from the protection against loss account, exceeds

(2) the sum of—

(A) the investment loss (as defined in sec. 822(a)(2)), if any,

(B) the statutory underwriting loss (as defined in sec. 823(a)(2)), if any, and

(C) the unused loss deduction provided by section 825(a).

If for any taxable year the amount determined under paragraph (2) of the new section 821(b) exceeds the amount determined under paragraph (1) of the new section 821(b), the mutual insurance company taxable income shall be zero.

(c) *Alternative tax for certain small companies.*—Paragraph (1) of the new section 821(c) provides an alternative tax which is in lieu of the tax imposed by section 821(a) for taxable years beginning after December 31, 1962. Except as provided in section 821(c)(3)(B), this tax applies in the case of every mutual insurance company described in section 821(c)(3)(A) and consists of—

(1) a normal tax of 25 percent of the taxable investment income (as defined in sec. 822(a)(1)), or 50 percent of the amount by which such taxable income exceeds \$3,000, whichever is the lesser; and

(2) a surtax of 22 percent of the taxable investment income (computed without regard to the deduction provided in sec. 242 for partially tax-exempt interest) in excess of \$25,000.

Thus, paragraph (1) of the new section 821(c) provides, in effect that certain small mutual insurance companies shall be taxed at regular corporate rates on taxable investment income only. Under the bill, such companies will continue to be taxed the same as under present law, except that the alternative 1-percent tax will not apply. Accordingly, if such a company has taxable investment income of less than \$3,000, it is not subject to tax, and if the taxable investment income is between \$3,000 and \$6,000, it is entitled to special notch relief. Unless such a company makes an election to be taxed under section 821(a), its underwriting gains or losses will not be taken into account for purposes of determining its tax liability.

Paragraph (2) of the new section 821(c) is identical to section 821(c) of existing law which provides a special tax reduction for companies subject to tax under section 821. Under present law, if the gross amount received during the taxable year from the items described in section 822(b) (other than par. (1)(D) thereof) and premiums (including deposits and assessments) is over \$75,000 but less than \$125,000, the tax otherwise computed under existing section 821(a) (1) or (2) or section 821(b) is reduced to an amount which bears the same proportion to such tax as the excess over \$75,000 bears to \$50,000. However, under the bill, this special relief provision is to apply only to companies which are subject to the tax imposed by the new section 821(c) and is not to apply in the case of companies which are subject to the tax imposed by the new section 821(a).

Subparagraph (A) of the new section 821(c)(3) provides that, except as provided by section 821(c)(3)(B), every mutual insurance company (other than a life insurance company and other than a fire or marine insurance company subject to the tax imposed by sec. 831) is to be subject to the tax imposed by section 821(c) if the gross amount received during the taxable year from the items described in section 822(b) (other than par. (1)(D) thereof) and premiums (including deposits and assessments) exceeds \$75,000 but does not exceed \$300,000.

Subparagraph (B) of the new section 821(c)(3) provides that a mutual insurance company described in section 821(c)(3)(A) shall not

be subject to the alternative tax imposed by section 821(c)(1) for the taxable year if there is in effect for the taxable year an election made by such company under section 821(d) to be taxable under section 821(a), or if there is any amount in the protection against loss account of such company at the beginning of the taxable year. Where the alternative tax treatment for certain small companies does not apply by reason of there being an amount in the protection against loss account at the beginning of the taxable year, the bill provides that an election may be made to subtract such amount from the protection against loss account as of the close of the preceding taxable year. See section 824(d)(5).

(d) *Election to include statutory underwriting income or loss.*—Paragraph (1) of the new section 821(d) provides that any mutual insurance company which is subject to the tax imposed by section 821(c) may elect to be subject to the tax imposed by section 821(a). Paragraph (2) provides that if the company makes such an election it shall be subject to the tax imposed by section 821(a) for the first taxable year for which the election is made and for all taxable years thereafter unless the Secretary or his delegate consents to a revocation of such election. Under the bill, it is not intended to permit such companies an annual election to be taxed either under subsection (a) or (c) of the new section 821. However, there may be some situations where because of a substantial change in the character of the taxpayer's operations there would be an undue burden or material hardship if such taxpayer were not permitted to revoke its prior election. Under such circumstances, the bill provides that the election may be revoked with the consent of the Secretary or his delegate. If, however, for any taxable year for which the election would otherwise apply, the gross amount received by the company during the taxable year from the items described in section 822(b) (other than par. (1)(D) thereof) and premiums (including deposits and assessments) does not exceed \$75,000, such election will terminate automatically. Thus, if for any taxable year thereafter such a company has gross receipts from such sources of over \$75,000 but not more than \$300,000, it shall be subject to tax under section 821(c) unless it makes a new election to be taxed under section 821(a).

(e) *No United States insurance business.*—Subsection (e) of the new section 821 is identical with section 821(d) of existing law and provides that foreign mutual insurance companies (other than a life insurance company and other than a fire or marine insurance company subject to the tax imposed by sec. 831) not carrying on an insurance business within the United States are not to be subject to tax under part II of subchapter L but shall be taxable as other foreign corporations. See section 881 of the code.

(f) *Cross references.*—Subsection (f) of the new section 821 contains cross references to section 501(c)(15) of the code (relating to exemption from tax of certain mutual insurance companies) and section 1201(a) (relating to alternative tax in case of capital gains).

SECTION 10. MUTUAL INSURANCE COMPANIES (OTHER THAN LIFE, MARINE, AND CERTAIN FIRE INSURANCE COMPANIES), ETC. (Continued)

(b) *Taxable investment income.*—Subsection (b) of section 10 of the bill contains technical amendments to sections 822 and 823 of the code. These amendments, in effect, retain the existing substantive provisions of section 822 but change the designation of the excess of gross investment income (as defined in sec. 822(b)) over gross investment deductions (as provided in sec. 822(c)) from “mutual insurance company taxable income” to “taxable investment income.”

Subsection (b)(1) of section 10 of the bill changes the heading of section 822 to refer to taxable investment income and amends section 822(a) to define the terms “taxable investment income” and “investment loss” for purposes of part II of subchapter L. The investment loss is the excess of gross investment deductions over gross investment income.

Subsection (b)(2) of section 10 of the bill amends section 822(c) of the code (relating to deductions) and section 822(e) of the code (relating to foreign mutual insurance companies) by striking out the term “mutual insurance company taxable income” each place it appears and inserting in lieu thereof the term “taxable investment income”. This amendment conforms to the amendment to section 822(a).

Subsection (b)(3) of section 10 of the bill amends section 822(c)(7) of the code (relating to special deductions) and provides that for purposes of paragraph (7) of section 822(c), in applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received), the reference in section 246(b) to “taxable income” is to be treated as a reference to “taxable investment income.”

Subsection (b)(4) of section 10 of the bill redesignates section 823 of the code (relating to other definitions) as subsection (f) of the new section 822.

(c) *Statutory underwriting income or loss.*—Subsection (c) of section 10 of the bill adds (after sec. 822(f), as redesignated by subsec. (b)(4) of sec. 10 of the bill) a new section 823, relating to determination of statutory underwriting income or loss, and a new section 824, relating to adjustments to provide protection against losses.

SECTION 823. DETERMINATION OF STATUTORY UNDERWRITING INCOME OR LOSS

(a) *In general.*—Paragraph (1) of the new section 823(a) defines the term “statutory underwriting income” for purposes of part II of subchapter L. Under this definition, statutory underwriting income is the amount by which—

(1) the gross income which would be taken into account in computing taxable income under section 832 if the taxpayer were subject to the tax imposed by section 831, reduced by the gross investment income (as determined under sec. 822(b)), exceeds

(2) the sum of—

(A) the deductions which would be taken into account in computing taxable income if the taxpayer were subject to

the tax imposed by section 831, reduced by the deductions provided in section 822(c) (relating to deductions in computing taxable investment income), plus

(B) the deductions provided in subsection (c) of the new section 823 (relating to special deduction for small company having gross amount of less than \$900,000) and in section 824(a) (relating to deduction to provide protection against losses).

Paragraph (2) of the new section 823(a) provides that, for purposes of part II of subchapter L, the term "statutory underwriting loss" means the amount by which the amount referred to in paragraph (1)(B) of the new section 823(a) exceeds the amount referred to in paragraph (1)(A) of the new section 823(a).

Paragraphs (1) and (2) of the new section 823(a) provide, in effect, that for purposes of determining statutory underwriting income or loss for the taxable year a mutual insurance company subject to the tax imposed by section 821(a) must first take into account the same gross income and deduction items (except as modified by sec. 823(b)) as a taxpayer subject to tax under section 831 would take into account for purposes of determining its taxable income under section 832. These items are then reduced to the extent that they include amounts which are included in determining taxable investment income under section 822(a). In addition, the taxpayer is allowed a deduction for the amount determined under section 824(a) (relating to deduction to provide protection against losses) and, in the case of a company having gross receipts of less than \$900,000, an additional deduction equal to the amount determined under section 823(c)(1), after the application of the limitation provided in section 823(c)(2).

(b) *Modifications.*—Subsection (b) of the new section 823 provides certain modifications to the general rule for determining statutory underwriting income or loss contained in section 823(a). Paragraph (1) of section 823(b) provides that for purposes of applying section 823(a), the deduction for net operating losses provided by section 172 is not to be allowed. (However, such a company is allowed an unused loss deduction under the provisions of sec. 825.) Paragraph (2) of the new section 823(b) provides a special rule which applies in the case of an interinsurer or reciprocal underwriter which is subject to the tax imposed by section 821(a). This rule provides that if such a company, before the 16th day of the 3d month following the close of the taxable year, credits the individual account of each of its subscribers with an amount, representing savings to subscribers for the taxable year, which it would be obligated to pay promptly to such subscriber if he terminated his contract at the close of the company's taxable year, then—

(1) there is to be allowed as a deduction the increase for the taxable year in savings credited to subscriber accounts, or

(2) there is to be included as an item of gross income the decrease for the taxable year in savings credited to subscriber accounts.

Any amount representing savings credited to his account for the taxable year is to be treated by the subscriber as a dividend paid or declared for purposes of his taxable income. Thus, the amount of any savings credited to a subscriber within the meaning of this section shall be taken into account by him in computing his income to the

extent that the cost of the insurance with respect to which the savings are credited constitutes a business expense.

(c) *Special deduction for small company having gross amount of less than \$900,000.*—Subsection (c) of the new section 823 relates to the special deduction for certain small companies having gross receipts of less than \$900,000. Paragraph (1) of the new section 823(c) provides that if the gross amount received during the taxable year from the items described in section 822(b) (other than par. (1)(D) thereof) and net premiums (including deposits and assessments) is less than \$900,000, then, subject to the limitation provided in paragraph (2) of the new section 823(c) there shall be allowed an additional deduction for purposes of determining statutory underwriting income or loss (under subsec. (a) of the new sec. 823) for the taxable year. This additional deduction is \$6,000; except that if the gross amount exceeds \$300,000, the additional deduction is limited to an amount equal to 1 percent of the amount by which \$900,000 exceeds such gross amount. The special deduction provided by paragraph (1) does not apply if the taxpayer is either subject to the tax imposed by section 821(c) (relating to alternative tax for certain small companies) or has gross amounts of \$900,000 or more.

Paragraph (2) of the new section 823(c) provides that the amount of the deduction allowed under paragraph (1) of the new section 823(c) is not to exceed the statutory underwriting income (as defined in sec. 823(a)(1)) for the taxable year, computed without regard to the deduction under paragraph (1) or the deduction allowed under section 824(a) (relating to deduction for protection against losses).

Example: The application of section 823(c) may be illustrated by the following example:

Company M, a mutual insurance company subject to the tax imposed by section 821(a), has the following items for the taxable year 1963:

Gross amount for purposes of sec. 823(c)(1).....	\$400,000
Gross investment income (including capital gains).....	75,000
Capital gains.....	50,000
Gross income under sec. 832.....	450,000
Deductions under sec. 822(c).....	71,000
Deductions under sec. 832 (as modified by sec. 823(b)).....	433,000

Under the provisions of section 823(c), company M's special small company deduction for the taxable year 1963 would be \$5,000, computed as follows:

(1) Gross amount for purposes of sec. 823(c)(1).....	\$400,000
(2) Amount by which \$900,000 exceeds item (1) (\$900,000 minus \$400,000).....	500,000
(3) 1 percent of item (2), not to exceed \$6,000.....	5,000
(4) Gross income under sec. 832, reduced by gross investment income (\$450,000 minus \$75,000).....	\$375,000
(5) Deductions under sec. 832 (as modified by sec. 823(b), reduced by deductions under sec. 822(c) (\$433,000 minus \$71,000).....	362,000
(6) Limitation on deduction under sec. 823(c)(1) (excess, if any, of item (4) over item (5)).....	13,000
(7) Deduction under sec. 823(c)(1) (item (3) or item (6), whichever is the lesser).....	5,000

SECTION 824. ADJUSTMENTS TO PROVIDE PROTECTION AGAINST LOSSES

(a) *Allowance of deduction.*—Paragraph (1) of the new section 824(a) provides that for purposes of determining the statutory underwriting income or loss (as defined in sec. 823(a)) for any taxable year there is to be allowed as a deduction to provide protection against losses the sum of—

(1) 1 percent of the losses incurred during the taxable year (as determined under sec. 832(b)(5)); plus

(2) 25 percent of the underwriting gain for the taxable year; plus

(3) if the concentrated windstorm, etc., premium percentage for the taxable year (as defined in par. (2) of the new sec. 824(a)) exceeds 50 percent, the amount determined by applying so much of the concentrated windstorm, etc., premium percentage as exceeds 50 percent to the underwriting gain for the taxable year.

For purposes of paragraph (1) of the new section 824(a), the term “underwriting gain” means the statutory underwriting income computed under section 823(a) without regard to the deduction provided by paragraph (1) of the new section 824(a).

Subparagraph (C) of the new section 824(a)(1) permits an additional deduction for protection against losses in the case of certain companies having concentrated windstorm, etc., risks. For example, assume that for the taxable year 1963, W, a mutual insurance company subject to the tax imposed by section 821(a), has an underwriting gain (for purposes of sec. 824(a)) of \$100. Assume further that W's concentrated windstorm, etc., premium percentage (as determined under sec. 824(a)(2)) for the taxable year is 70 percent, and losses incurred during the taxable year are \$1,000. Under the provisions of section 824(a), W's deduction for protection against losses for 1963 would be \$55. Of this amount, \$10 (1 percent of losses incurred, or 1 percent of \$1,000) is due to the application of section 824(a)(1)(A), \$25 (25 percent of underwriting gain, or 25 percent of \$100) is due to the application of section 824(a)(1)(B), and \$20—the amount determined by multiplying the underwriting gain by so much of the concentrated windstorm, etc., premium percentage as exceeds 50 percent, or 20 percent (70 percent minus 50 percent) times \$100—is due to the application of section 824(a)(1)(C).

Paragraph (2) of the new section 824(a) defines the term “concentrated windstorm, etc., premium percentage” for any taxable year as the percentage obtained by dividing—

(1) the amount of the premiums earned on insurance contracts during the taxable year (as defined in sec. 832(b)(4)), to the extent attributable to insurance against losses arising in any one State from windstorm, hail, flood, earthquake, or similar hazards, by

(2) the total amount of the premiums earned on insurance contracts during the taxable year (as defined in sec. 832(b)(4)).

For purposes of the preceding sentence the term “similar hazards” includes tornadoes, cyclones, and similar risks against natural phenomena but does not include insurance against fires, explosions, or riots. In the case of a company which issues contracts insuring against a combination of risks, some of which are included under this paragraph and some of which are not included under this paragraph,

a reasonable allocation of the premiums earned for the taxable year with respect to such contracts will be made for purposes of determining such company's concentrated windstorm, etc., premium percentage for the taxable year.

(b) *Protection against loss account.*—Subsection (b) of the new section 824 requires every insurance company subject to the tax imposed by section 821(a) for any taxable year to establish and maintain a protection against loss account. This account is to be established for taxable years beginning after December 31, 1962, and the beginning or opening balance of such account is to be zero.

(c) *Additions to account.*—Subsection (c) of the new section 824 relates to the amount which is to be added to the protection against loss account for each taxable year for which the taxpayer is subject to the tax under section 821(a). Subsection (c) of the new section 824 provides that the amount to be added to the protection against loss account is to be an amount equal to the deduction for protection against losses provided by section 824(a)(1).

(d) *Subtractions.*—Paragraphs (1), (4), and (5) of the new section 824(d) set forth the amounts which are to be subtracted from the protection against loss account. The amount which is required to be subtracted under section 824(d) is taken into account under section 821(b)(1)(C) for purposes of determining mutual insurance company taxable income.

Paragraph (1) of the new section 824(d) provides that, after making the additions required by section 824(c) for the taxable year, there shall be subtracted from the protection against loss account—

(A) first, an amount equal to the excess of the statutory underwriting loss for the taxable year over the underwriting loss (as defined in par. (6)) for the taxable year,

(B) then, the amount (if any) by which—

(i) the sum of the investment loss and the underwriting loss for such taxable year exceeds

(ii) the sum of the statutory underwriting income and the taxable investment income for such taxable year,

(C) next (in the order in which the losses occurred), amounts equal to the unused loss carryovers to such taxable year,

(D) next, any amount remaining which was added to the account for the fifth preceding taxable year, minus one-half of the underwriting gain remaining in the account for such taxable year which was added under subsection (a)(1)(B), and

(E) finally, the amount by which the total amount in the account exceeds whichever of the following is the greater:

(i) 10 percent of premiums earned on insurance contracts during the taxable year (as defined in sec. 832(b)(4)) less dividends to policyholders (as defined in sec. 832(c)(11)), or

(ii) the total amount in the account at the close of the preceding taxable year.

Under subparagraph (A) of the new section 824(d)(1), the first subtraction from the protection against loss account is made for so much of the statutory underwriting loss as is generated either by the deduction for dividends to policyholders (as defined in sec. 832(c)(11)) or by the deduction provided in section 824(a) for protection against losses. For purposes of subparagraph (A) of the new section 824(d)(1), an underwriting loss is not taken into account. The term

"underwriting loss" means a loss which is attributable to the payment of insurance claims and expenses and does not include losses which are attributable to the payment of dividends to policyholders or to the deduction to provide protection against losses.

Under subparagraph (B) of the new section 824(d)(1), the underwriting loss is subtracted from the protection against loss account but only to the extent that such loss exceeds the taxable investment income (as defined in sec. 822(a)(1)) for the taxable year. Subparagraph (B) of the new section 824(d)(1) further provides for a subtraction from the protection against loss account if the investment loss (as defined in sec. 822(a)(2)) for the taxable year, exceeds the statutory underwriting income (as defined in sec. 823(a)(1)) for the taxable year. The effect of this provision is to provide that no portion of an investment loss for any taxable year may be applied against mutual insurance company taxable income for any prior or subsequent taxable year unless the investment loss exceeds the balance in the protection against loss account at the close of the taxable year.

Subparagraph (D) of the new section 824(d)(1) provides for the subtraction of certain amounts added to the protection against loss account for any taxable year under section 824(c) if such amounts remain in the account for the next 5 taxable years. Under subparagraph (D) of the new section 824(d), the entire amount remaining in the account from the fifth preceding taxable year which was added by reason of section 824(a)(1)(A) (relating to deduction for 1 percent of losses incurred during the taxable year) or section 824(a)(1)(C) (relating to additional deduction for certain companies having concentrated windstorm, etc., risks) is to be subtracted from the protection against loss account. There is also to be subtracted under subparagraph (D) of the new section 824(d)(1) an amount representing one-half of the amount remaining in the account with respect to such fifth preceding taxable year which was added by reason of section 824(a)(1)(B) (relating to deduction for 25 percent of underwriting gain for the taxable year).

Subparagraph (E) of the new section 824(d)(1) provides (taking into account the priority rule in sec. 824(d)(3)(B)), in effect, a ceiling on the amount which can be added to and remain in the protection against loss account for the taxable year for which the amount is added. Subparagraph (E) provides that if the total amount in the account (as determined under sec. 824(d)(2)) exceeds the greater of (1) 10 percent of premiums earned on insurance contracts during the taxable year (as defined in sec. 832(b)(4)) less dividends to policyholders (as defined in sec. 832(c)(11)), or (2) the total amount in the account at the close of the preceding taxable year, then the amount of such excess shall be subtracted from the protection against loss account.

Paragraph (2) of the new section 824(d) contains rules for determining the ceiling on the protection against loss account. Paragraph (2) of the new section 824(d) provides that for purposes of paragraph (1)(E) of the new section 824(d), the total amount in the account is to be determined—

(1) after the application of section 824(d) without regard to paragraph (1)(E) thereof, and

(2) without regard to amounts remaining in the account which were added, with respect to all taxable years, under section

824(a)(1)(C) (relating to additional deduction to provide protection against losses for certain companies having concentrated windstorm, etc., risks).

Under paragraph (2) of the new section 824(d), for purposes of determining the ceiling on the protection against loss account in the case of a company having concentrated windstorm, etc., risks, any amount added to the account by reason of the application of section 824(a)(1)(C) is not to be taken into account.

Paragraph (3) of the new section 824(d) provides rules relating to the priority in which the subtractions from the protection against loss account are to be made. Under paragraph (3)(A) of the new section 824(d) the amounts required to be subtracted from the protection against loss account under section 824(d)(1) (A), (B), and (C), are to be made—

(1) first (on a first-in, first-out basis) from amounts in the account with respect to the 5 preceding taxable years and the taxable year, and

(2) then from amounts in the account with respect to earlier years.

Under paragraph (3)(B) of the new section 824(d), the amounts required to be subtracted from the protection against loss account under section 824(c)(1)(E) are to be subtracted only from amounts in the account with respect to the taxable year.

Under paragraph (3)(C) of the new section 824(d), if the amount to be subtracted from the total amounts in the account with respect to any taxable year is less than such total, the amount required to be subtracted from the protection against loss account under section 824(d)(1) (A), (B), (C), and (E) is to be subtracted from each of the amounts referred to in section 824(a)(1) in the account with respect to such year in the proportion which each bears to the total amount in the account with respect to such year. For example, assume that for the taxable year 1966, N, a mutual insurance company subject to the tax imposed by section 821(a), is required to subtract \$60 from its protection against loss account under section 824(d)(1) (other than under subpar. (E)). Assume that the total amount in the account for 1963 (the first preceding taxable year for which additions to the account were made) is \$100. Assume further that of this \$100 balance, \$30 is due to the application of section 824(a)(1)(A), \$50 is due to the application of section 824(a)(1)(B), and \$20 is due to the application of section 824(a)(1)(C). Under paragraph (3)(C) of the new section 824(d), since the amount to be subtracted from the balance in the account with respect to 1963 is less than such balance, the amount to be subtracted from each of the amounts in the account with respect to such taxable year shall be in the proportion which each bears to such total. Accordingly, the amount in the account by reason of the application of section 824(a)(1)(A) shall be reduced by \$18 ($30/100 \times \60). The amount in the account with respect to the application of section 824(a)(1)(B) shall be reduced by \$30 ($50/100 \times \60). The amount in the account with respect to the application of section 824(a)(1)(C) shall be reduced by \$12 ($20/100 \times \60).

Paragraph (4) of the new section 824(d) provides that if the taxpayer is not subject to tax under part II of subchapter L for any taxable year, the entire amount in the protection against loss account at the close of the preceding taxable year is to be subtracted from the account

in such preceding taxable year and included in mutual insurance company taxable income (as defined in sec. 821(b)) for such preceding taxable year.

Paragraph (5) of the new section 824(d) provides that for any taxable year for which the company is subject to the tax imposed by section 821(a), it may elect to subtract from its protection against loss account any amount which, except for the application of this election, would be in such account as of the close of such taxable year. The amount elected to be subtracted from the protection against loss account is to be included in mutual insurance company taxable income (as defined in sec. 824(b)) for the taxable year. The election must be made after the close of the taxable year for which it is to apply and not later than the time prescribed by law for filing the return (including extensions thereof) for the taxable year following such taxable year, and in such manner and form as the Secretary or his delegate may by regulations prescribe. The election is to apply only with respect to the taxable year for which it is made and once such an election has been made it may not subsequently be revoked.

Paragraph (6) of the new section 824(d) defines the term "underwriting loss" for purposes of determining the amount of the subtractions required to be made under section 824(d)(1) (A) and (B). The term means the amount by which—

(1) the deductions which would be taken into account in computing taxable income under section 832 if the taxpayer were subject to the tax imposed by section 831, reduced by the sum of—

(A) the deductions provided in section 822(c) (relating to deductions in computing taxable investment income), and

(B) the deduction for dividends to policyholders provided by section 832, exceeds

(2) the amount referred to in section 823(a)(1)(A).

Examples.—The application of the new section 824(d) may be illustrated by the following examples:

Example (1): For the taxable year 1969, X, a mutual insurance company subject to the tax imposed by section 821(a), has a statutory underwriting loss of 22, including dividends to policyholders of 20 and a protection against loss deduction of 7 (which is entirely attributable to the application of section 824(a)(1)(A)). The following table shows the protection against loss account of X before and after the application of section 824(d) for the taxable year 1969:

	1963	1964	1965	1966	1967	1968	1969
Protection against loss account:							
Balance remaining in account with respect to each taxable year (before application of sec. 824(d))	3	2	4	5	4	3	7
Balance remaining in account with respect to each taxable year (after application of sec. 824(d))	3	0	0	0	0	0	3

Under the provisions of section 824(d)(1)(A), X would subtract 22 (the amount by which the statutory underwriting loss exceeds the underwriting loss, or 22 minus 0) from its protection against loss account for the taxable year 1969. Under the provisions of section

824(d)(3)(A), since the subtractions are to be made with respect to amounts in the account for the 5 preceding taxable years and the taxable year on a first-in, first-out, basis, X would first apply the amount to be subtracted to the amounts in the account with respect to 1964, 1965, 1966, 1967, and 1968, in that order. This would reduce the total amount in the account with respect to such taxable years by 18, and the balance in the account with respect to each of the taxable years 1964 through 1968 would be reduced to zero. The remaining amount required to be subtracted under section 824(d)(1)(A), 4 (22 minus 18), would then be subtracted from the amount added to the account for the taxable year, 7 (an amount equal to the protection against loss deduction for the taxable year 1969), leaving a balance of 3 (7 minus 4) in the account with respect to 1969. No proration of the subtraction from the amount in the account for 1969 is required under section 824(d)(3)(C) since the entire amount added to the account in 1969 was added by reason of section 824(a)(1)(A).

Example (2): Assume the facts are the same as in example (1), except that X has a statutory underwriting loss of 27 for the taxable year 1969. After the application of section 824(d) for the taxable year 1969, the results would be as follows:

Protection against loss account

	1963	1964	1965	1966	1967	1968	1969
Balance remaining in account with respect to each taxable year (after application of sec. 824(d)).....	1	0	0	0	0	0	0

Under the provisions of section 824(d)(1)(A), X would subtract 27 (the amount by which the statutory underwriting loss exceeds the underwriting loss, or 27 minus 0) from its protection against loss account for the taxable year 1969. This subtraction would be made (on a first-in, first-out, basis) under section 824(d)(3)(A)(i) from amounts in the account with respect to 1964, 1965, 1966, 1967, 1968, and 1969, in that order. This would reduce the total amount in the account with respect to such taxable years by 25, and the balance in the account with respect to each of the taxable years 1964 through 1969 would be reduced to zero. Under the provisions of section 824(d)(3)(A)(ii), the remaining amount required to be subtracted under section 824(d)(1)(A), 2 (27 minus 25), would then be subtracted from the amount in the account with respect to 1963 (i.e., the amount representing one-half of the amount added by reason of section 824(a)(1)(B) which was not required to be subtracted from the protection against loss account under section 824(d)(1)(D) in 1968). Thus, the amount in the account with respect to 1963 would be reduced to 1 (3 minus 2).

Example (3): Assume that Y, a mutual insurance company subject to tax under section 821(a), has a protection against loss account which reflects the following additions for the taxable years 1963 through 1968:

Additions to protection against loss account

	1963	1964	1965	1966	1967	1968
Additions:						
1 percent of losses incurred.....	15	20	60	60	60	60
25 percent of underwriting gain.....	60	20	40	50	45	45
Additional deduction for concentrated risks.....	0	0	5	5	0	0
Total.....	75	40	105	115	105	105

Y, in computing mutual insurance company taxable income for 1968, is required to subtract from the account with respect to 1963 the entire amount of the 1 percent of losses incurred added for 1963 (15) and one-half of the underwriting gain (30) added for such year. Upon taking into account these subtractions, the balance in the protection against loss account with respect to 1963 is 30 (the one-half remaining in the account after the application of paragraph (1)(D) of section 824(d)).

Assume further, that for the taxable year 1969, Y has taxable investment income of 50, underwriting gain of 80, incurred losses of 5,000, and premiums earned less dividends to policyholders of 5,080. Under section 824(a), the protection against loss deduction for 1969 is 60. After applying section 824(c), but before applying section 824(d) for 1969, the protection against loss account as of the close of 1969 (after subtracting in 1968 the 45 amount with respect to 1963) would be as follows:

Protection against loss account

	1963	1964	1965	1966	1967	1968	1969
Additions:							
1 percent of loss incurred.....	0	20	60	60	60	60	40
25 percent of underwriting gain.....	30	20	40	50	45	45	20
Additional deduction for concentrated risks.....	0	0	5	5	0	0	0
Total with respect to taxable year.....	30	40	105	115	105	105	60
Total (as of end of each year before 1969 subtractions).....	30	70	175	290	395	500	560

After making the addition to the protection against loss account for 1969 and obtaining the results shown in the table above, Y is required to make the subtractions for 1969 from the account. These subtractions may be summarized as follows:

Subtractions under sec. 824(d) for 1969

Taxable year with respect to which amount is subtracted	1963	1964	1965	1966	1967	1968	1969
Par. (1)(A) subtraction.....	0	0	0	0	0	0	0
Par. (1)(B) subtraction.....	0	0	0	0	0	0	0
Par. (1)(C) subtraction.....	0	0	0	0	0	0	0
Par. (1)(D) subtraction.....	0	130	0	0	0	0	0
Par. (1)(E) subtraction.....	0	0	0	0	0	0	12
Par. (4) and (5) subtraction.....	0	0	0	0	0	0	0

¹ \$20 represents the amount added for 1964 with reference to incurred losses; \$10 represents one-half of the amount added for 1964 with reference to underwriting gain.

After determining the subtractions with respect to years before 1969, the next step is to determine whether any subtraction is required for the taxable year 1969 under section 824(d)(1)(E). Since the total balance in the account after the application of section 824(d) (other than paragraph (1)(E) thereof), 520 (560 minus 30, and excluding 10 added to the account by reason of the additional deduction for protection against losses for concentrated windstorm, etc., companies provided by section 824(a)(1)(C)), exceeds 10 percent of premiums earned on insurance contracts during the taxable year less dividends to policyholders, 508 (10 percent of 5,080), Y would be subject to the ceiling on the protection against loss account for the taxable year 1969 and would be required to subtract 12 (the excess of 520 over 508) from the account under section 824(d)(1)(E). Under the provisions of section 824(d)(3)(B) this subtraction would be made only from amounts in the account with respect to the taxable year 1969. Under the provisions of section 824(d)(3)(C), however, since the amount to be subtracted, 12, is less than the total amount added to the account for the taxable year, 60 (40 plus 20), the subtractions under section 824(d)(1)(E) would be applied ratably against each of the amounts added to the account for the taxable year. Thus, the amount remaining in the account with respect to section 824(a)(1)(A) for the taxable year 1969, would be 32 (40 minus $40/60 \times 12$, or 40 minus 8), and the amount remaining in the account with respect to section 824(a)(1)(B) for the taxable year 1969, would be 16 (20 minus $20/60 \times 12$, or 20 minus 4).

Based on these facts, Y's mutual insurance company taxable income for 1969 would be 112 (the sum of taxable investment income of 50, plus statutory underwriting income of 20 (underwriting gain minus protection against loss deduction, or 80 minus 60), plus subtractions from the protection against loss account under section 824(d) of 42).

SECTION 825. UNUSED LOSS DEDUCTION

(a) *Amount of deduction.*—Subsection (a) of the new section 825 provides that, for purposes of part II of subchapter L, the unused loss deduction (used in the determination of mutual insurance company taxable income under section 821(b)) shall be an amount equal to the unused loss carryovers and carrybacks to the taxable year.

(b) *Unused loss defined.*—Subsection (b) of the new section 825 defines the term "unused loss," for purposes of part II of subchapter L, as the amount by which—

(1) the sum of the statutory underwriting loss (as defined in sec. 823(a)(2)) and the investment loss (as defined in sec. 822(a)(2)), exceeds—

(2) the sum of—

(A) the taxable investment income (as defined in sec. 822(a)(1)),

(B) the statutory underwriting income (as defined in sec. 823(a)(1)), and

(C) the amounts required to be subtracted from the protection against loss account under section 824(d).

If the sum of the items under (1) does not exceed the sum of items under (2), the unused loss is zero.

(c) *Loss year defined.*—Subsection (c) of the new section 825 defines as the loss year, for purposes of part II of subchapter L, any taxable year in which a company subject to the tax imposed by section 821(a) has an unused loss which is more than zero.

(d) *Years to which carried.*—Subsection (d) provides that the unused loss for any loss year is to be an unused loss carryback to each of the 3 taxable years preceding the loss year and an unused loss carryover to each of the 5 taxable years following the loss year. For certain taxable years to or from which an unused loss may not be carried, see section 825(g).

(e) *Amount of carrybacks and carryovers.*—Subsection (e) of the new section 825 provides that for any loss year, the entire amount of the unused loss, determined under the provisions of section 825(b), shall be carried to the earliest of taxable years to which such loss may be carried under section 825(d) (subject to the limitations of section 825(g)). The amount of the unused loss permitted under section 825(d), carried under section 825(d) to each of the other taxable years, following the earliest taxable year shall be the excess of such loss over the sum of the offsets for each taxable year preceding the taxable year to which the loss is carried.

(f) *Offset defined.*—Subsection (f) of the new section 825 defines the term “offset,” for purposes of section 824(e) and provides that the taxable year to which an unused loss is carried is to be referred to as the “offset year.” “Offset” is defined as the mutual insurance company taxable income for the offset year in the case of an unused loss carryback from the loss year to the offset year. In the case of an unused loss carryover from the loss year to the offset year, the offset is the sum of the amount required to be subtracted from the protection against loss account under section 824(d)(1)(C) for the offset year and the mutual insurance company taxable income for the offset year. For purposes of computing the offset, the mutual insurance company taxable income for the offset year (as defined in section 821(b)) shall be determined without regard to any loss carryback or carryover to the offset year from the loss year, or any year thereafter.

Example: The application of section 825 may be illustrated by the following example:

For the taxable year 1967, F, a mutual insurance company subject to the tax imposed by section 821(a), has the following items:

Taxable investment income	1
Underwriting loss	59
Addition to protection against loss account	8
Dividends to policyholders	0
Statutory underwriting loss	67

As explained below, the subtractions from protection against loss account are as follows:

Amount subtracted from amounts in account with respect to taxable years 1963 through 1966	18
Amount subtracted from amounts in account with respect to taxable year 1967	8
Total subtractions from protection against loss account under sec. 824(d)	26

The application of section 825 in this case may be illustrated by the facts and results shown in the following table and explained below:

	Taxable year—					
	1963	1964	1965	1966	1967	1968
Protection against loss account:						
Addition to account during taxable year.....	6	2	3	7	8	7
Subtraction from account during taxable year.....	0	0	0	0	8	7
Protection against loss account (at end of year).....	6	2	3	7	0	0
Protection against loss account (at end of taxable year 1968).....	0	0	0	0	0	0
Unused loss.....	0	0	0	0	40	0
Unused loss carryback.....	0	40	35	25	0	0
Unused loss carryover.....	0	0	0	0	0	18
Unused loss deduction.....	0	40	35	25	0	18
Mutual insurance company taxable income (computed without regard to unused loss).....	13	5	10	7	0	2
Mutual insurance company taxable income (computed with regard to unused loss).....	13	0	0	0	0	0
Offset for year.....	0	5	10	7	0	9
Offset total.....	0	5	15	22	0	31

1967: Under the provisions of section 825(b), F's unused loss for 1967 is 40, the amount by which the sum of the statutory underwriting loss and the investment loss, 67 (67 plus 0), exceeds the sum of the taxable investment income, the statutory underwriting income, and the amounts required to be subtracted from the protection against loss account under section 824(d) for the taxable year, 27 (the sum of 1, 0, and 26, respectively).

1967 carryback to 1964: Under the provisions of section 825(e), the entire unused loss for 1967 of 40 is carried back to 1964, the earliest year to which the loss may be carried under section 825(d). Since there are no other amounts carried to 1964, the unused loss deduction for 1964 is 40. Thus, after taking the unused loss deduction into account, the mutual insurance company taxable income for 1964 is zero, and the offset for 1964 is 5 (the mutual insurance company taxable income for 1964 determined without regard to the unused loss carryback from 1967 or any year thereafter).

1967 carryback to 1965: The portion of the unused loss for 1967 which is carried back to 1965 is 35 (40 minus 5, the offset for 1964). After taking the underwriting loss deduction into account, the mutual insurance company taxable income for 1965 is zero. The offset for 1965 is 10, the mutual insurance company taxable income for 1965 determined without regard to any unused loss carryback or carryover from 1967 or any year thereafter.

1967 carryback to 1966: The portion of the unused loss for 1967 which is carried back to 1966 is 25. This amount is the excess of the underwriting loss for 1967 of 40 over the sum of the offset for 1965 (5) and the offset for 1966 (10). Thus, as a result of the unused loss for 1967, the mutual insurance company taxable income for 1966 is reduced to zero. The offset for 1966 is 7.

1967 carryover to 1968: Under the provisions of section 825(d), the portion of the unused loss for 1967 which is carried forward to 1968 is 18 (40 minus the sum of 10, 5, and 7, the offsets for 1964, 1965, and 1966, respectively). Under section 825(f)(2), this amount is first applied against any amounts in the protection against loss account at the end of 1968, and is then applied against the mutual insurance

company taxable income for 1968. Thus, assuming that there are no other subtractions from its protection against loss account under section 824(d) for 1968, F's protection against loss account of 7 is reduced to zero by reason of the subtraction under section 824(d)(1)(C). The remaining portion of the unused loss for 1967 which is carried to 1968, 11 (18 minus 7, the amount of the unused loss carryover to 1968 which is subtracted from the protection against loss account under sec. 824(d)(1)(C)), is then applied against the mutual insurance company taxable income for 1968. Thus, after the application of the unused loss deduction for 1968, the mutual insurance company taxable income for 1968 is zero. The offset for 1968 is 9, the sum of the amount required to be subtracted from the protection against loss account under section 824(d)(1)(C) for 1968 (7), plus the mutual insurance company taxable income for 1968, determined without regard to the unused loss carryover from 1967 or any unused loss carryback from 1967 or any year thereafter (2). The remaining 9 of the unused loss for 1967 (40 minus the sum of 10, 5, 7, and 9, the offsets for 1964, 1965, 1966, and 1968, respectively) is carried forward to 1969, and to the extent not used in that year or any year thereafter, may be carried forward to 1970, 1971, and 1972, in that order.

(g) *Limitations*.—Subsection (g) of the new section 825 provides that, for purposes of part II of subchapter L, an unused loss (as defined in sec. 825(b)) may not be carried—

(1) to or from any taxable year beginning before January 1, 1963;

(2) to or from any taxable year for which the insurance company is not subject to tax imposed by section 821(a); nor

(3) to any taxable year if, between the loss year and such taxable year, there is an intervening taxable year for which the insurance company was not subject to the tax imposed by section 821(a).

Examples.—The application of section 825(g) may be illustrated by the following:

Example (1).—For the taxable year 1963, M, a mutual insurance company subject to tax imposed by section 821(a), has an unused loss (as defined in sec. 825(b)) of \$65,000. The loss may not be carried back to any taxable year beginning before 1963. However, the loss may be carried forward to each of the 5 taxable years following 1963 provided that for each of such succeeding taxable years M is subject to the tax imposed by section 821(a).

Example (2).—Assume the facts are the same as in example (1), except that for the taxable year 1964, the gross amount received by M from the items described in section 822(b) (other than paragraph (1)(D) thereof) and premiums (including deposits and assessments) exceeds \$75,000 but does not exceed \$300,000. If M does not make the election under section 821(d) (relating to election to be taxed under sec. 821(a) for 1964), the loss will not be allowed as an unused loss carryover since, by reason of section 825(g)(3), the unused loss may not be carried to any taxable year if, between the loss year and such taxable year, there is an intervening taxable year for which the insurance company was not subject to the tax imposed by section 821(a), and by reason of section 825(g)(1), the unused loss may not be carried to any taxable year beginning before 1963.

SECTION 826. ELECTION BY RECIPROCAL

(a) *In general.*—Subsection (a) of the new section 826 provides that, except as provided in section 826(c), any insurance company which is an interinsurer or reciprocal underwriter (referred to in sec. 826 as a “reciprocal”) subject to the tax imposed by section 821(a), may elect to be subject to the limitation provided in subsection (b) of the new section 826. Such election shall be made, under regulations prescribed by the Secretary or his delegate, not later than the time prescribed by law (including extensions thereof) for filing the return for the year for which such election is first to apply. The election is to apply for the taxable year for which made and for all succeeding taxable years and may not be revoked without the consent of the Secretary or his delegate. The effect of such election is to increase the income of the reciprocal by the income of its attorney-in-fact attributable to the reciprocal for purposes of computing the taxes imposed by section 821(a) and to allow such reciprocal a credit for the taxes paid by the attorney-in-fact with respect to the income attributed to the reciprocal.

(b) *Limitation.*—Subsection (b) of the new section 826 provides that a reciprocal making the election provided under section 826(a) shall limit the deduction for amounts paid or incurred in the taxable year to the attorney-in-fact to such amounts as are deductible by the attorney-in-fact in respect of the income received by the attorney-in-fact from the reciprocal. In no case may such deduction of the reciprocal be increased by the deductions of the attorney-in-fact allocable to the income received from the reciprocal.

(c) *Exception.*—Section 826(c) provides that no election under section 826(a) may be made by a reciprocal unless its attorney-in-fact—

(1) is a corporation subject to the taxes imposed by section 11 (b) and (c) of subtitle A;

(2) consents to make available such information as may be required during the period in which an election made under subsection (a) is in effect;

(3) reports income received from the reciprocal and deductions allocable thereto under the same method of accounting used by the reciprocal in reporting deductions for amounts paid or incurred to the attorney-in-fact; and

(4) files its return on a calendar year basis.

(d) *Special rule.*—Subsection (d) of the new section 826 provides that the limitation under section 826(b) shall not be taken into account by any reciprocal electing under section 826(a) for purposes of computing the protection against loss deduction provided in section 824(a) and for purposes of computing the addition to the protection against loss account provided in section 824(c). Thus, in effect, a reciprocal making the election shall not take into account any of the income of the attorney-in-fact for purposes of computing its protection against loss deduction.

(e) *Credit*.—Subsection (e) of the new section 826 provides that any reciprocal electing to be subject to the limitation provided in subsection (b) shall be credited with the tax paid by its attorney-in-fact with respect to the income of the reciprocal in such taxable year.

(f) *Surtax exemption denied*.—Subsection (f) of the new section 826 provides that any tax imposed upon the increase in the income of the reciprocal attributable to the limitation under subsection (b) shall be computed without regard to the \$25,000 surtax exemption provided in section 821(a)(2).

(g) *Adjustment for refund*.—Subsection (g) of the new section 826 provides that if for any taxable year an attorney-in-fact is allowed a credit or refund for taxes paid with respect to which a reciprocal was allowed a credit or refund under subsection (e) of the new section 826, the taxes of the reciprocal for the year in which such credit or refund is allowed shall be properly adjusted under regulations prescribed by the Secretary or his delegate. This adjustment prevents the reciprocal and the attorney-in-fact from obtaining a credit or refund with respect to the same tax.

For example, assume that a reciprocal has elected in 1963 to be subject to the limitation provided in section 826(b) and such election is still in effect in taxable year 1966. Assume further that in taxable year 1969 its attorney-in-fact receives a refund or credit with respect to taxable year 1966. In such case, the taxes of the reciprocal in taxable year 1969 shall be properly adjusted under regulations prescribed by the Secretary or his delegate.

(h) *Taxes of attorney-in-fact unaffected*.—Subsection (h) of the new section 826 provides that nothing in section 826 shall either increase or decrease the taxes imposed by chapter 1 on the income of the attorney-in-fact.

Example.—The application of section 826 may be illustrated by the following example:

For the taxable year 1963, R, a reciprocal underwriter subject to the taxes imposed by section 821(a), has the following items (determined before applying any election under sec. 826):

Gross income under sec. 832	578
Gross investment income	50
Deductions under sec. 832 (as modified by sec. 823(b)):	
Deduction for amounts paid by R to attorney-in-fact A	100
All other deductions	500
Total deductions under sec. 832	600
Deductions under sec. 822(c)	40
Incurred losses	400
Protection against loss deduction	4
Underwriting gain	0
Mutual insurance company taxable income	0
Unused loss	22
Credit or refund for taxes paid	0

Assume that the deductions of attorney-in-fact A allocable to the income received by A from R are 60 and the tax paid by A allocable to the income received from R is 16. If R elects to be subject to the

limitation provided in section 826(b), the results for 1963 would be as follows:

Gross income under sec. 832.....	578
Gross investment income.....	50
Deductions under sec. 832 (as modified by sec. 823 (b)):	
Deduction for amounts paid by R to attorney-in-fact A.....	60
All other deductions.....	500
Total deductions under sec. 832.....	560
Deductions under sec. 822(c).....	40
Incurred losses.....	400
Protection against loss deduction.....	4
Underwriting gain.....	8
Mutual insurance company taxable income.....	14
Unused loss.....	0
Credit or refund for taxes paid.....	16

Under the provisions of section 826(b), R's deduction for amounts paid or incurred to the attorney-in-fact in the taxable year 1963 would be limited to the deductions of A allocable to the income received by A from R. Thus, R's deductions under section 832 (as modified by sec. 823(b)) for 1963 would be 60 (the deductions of A which are allocable to the income received by A from R). As a result of making the election under section 826(a) for the taxable year 1963, R's underwriting gain would be 8, and its statutory underwriting income would be 4 (the underwriting gain of 8 minus the protection against loss deduction under section 824(a)(1)(A) representing 1 percent of losses incurred of 4, or 8 minus 4). Accordingly, R's mutual insurance company taxable income for 1963 would be 14. This amount consists of the taxable investment income of 10 (gross investment income minus deductions under sec. 822(c), or 50 minus 40) plus the statutory underwriting income of 4. Since all of R's mutual insurance company taxable income of 14 is attributable to the limitation under section 826(b), the entire amount is subject to the surtax under section 821(a)(2) without regard to the \$25,000 surtax exemption. The credit of 16, representing that part of the taxes paid by A which is allocable to the income received by A from R, may be applied by R against its taxes with respect to its mutual insurance company taxable income of 14 for 1963, and R would be entitled to a refund of any excess of the amount of such credit over its tax liability for 1963.

SECTION 10. MUTUAL INSURANCE COMPANIES (OTHER THAN LIFE, MARINE, AND CERTAIN FIRE INSURANCE COMPANIES), ETC. (Continued)

(d) *Mutual fire insurance companies operating on basis of premium deposits.*—Subsection (d) of section 10 of the bill amends section 831(a) of the 1954 Code to include mutual fire insurance companies operating on the basis of premium deposits among the companies which are subject to the tax imposed by part III of subchapter L of chapter 1 of the code.

(1) *Application of section 831(a).*—Subsection (d)(1) of section 10 of the bill amends section 831(a) of the code (which imposes a tax on certain mutual marine and mutual fire insurance companies and on stock insurance companies which are not life insurance companies)

to provide that, for taxable years beginning after December 31, 1962, mutual fire insurance companies operating on the basis of premium deposits are to be subject to tax under part III of subchapter L. Under existing law, mutual fire insurance companies operating on the basis of premium deposits (the so-called factory mutual insurance companies) are taxed in the same manner as any other mutual insurance company (other than a life or marine or fire insurance company issuing perpetual policies). Thus, these companies are subject to the tax imposed by section 821. (See *Philadelphia Manufactures Mutual Insurance Company v. Commissioner* (1959), 33 T.C. 490, aff'd (C.A. 3d 1960) 284 F. 2d 296.) Under the bill, every mutual fire insurance company whose principal business is the issuance of policies for which the premium deposits are the same, regardless of the length of the term for which the policies are written, will be subject to the tax imposed by section 831(a) if the unabsorbed portion of such premium deposits not required for losses, expenses, or establishment of reserves is returned or credited to the policyholder on cancellation or expiration of the policy.

(2) *Treatment of unabsorbed premium deposits.*—Subsection (d)(2) of section 10 of the bill amends section 832(b)(4) of the code (relating to definition of premiums earned) to provide that for purposes of determining the premiums earned on insurance contracts during the taxable year in the case of a mutual fire insurance company operating on the basis of premium deposits, the term "unearned premiums" means (with respect to the policies described in section 831(a)(3)(B)) the amount of unabsorbed premium deposits which the company would be obligated to return to its policyholders at the close of the company's taxable year if all of such policies were terminated at such time. This paragraph further provides that for purposes of determining the amount which such company would be obligated to return to its policyholders at the close of any taxable year, the company must use its own schedule of unabsorbed premium deposit returns then in effect.

(3) *Conforming amendments.*—Subparagraph (d)(3) of section 10 of the bill amends section 832(b)(1)(C) of the code (relating to definition of gross income) to conform to the amendment to section 831(a).

(4) *Adjustment of premium deposit.*—Subparagraph (d)(4) of section 10 of the bill amends section 832(c)(11) of the code (relating to deduction for dividends to policyholders) to provide that the term "dividends and similar distributions" includes amounts returned or credited to policyholders on cancellation or expiration of factory mutual policies described in the new section 831 (a)(3)(B).

(5) *Additional item of income.*—Subparagraph (d)(4) of section 10 of the bill amends section 832(b)(1) of the code (relating to the definition of gross income) to provide that, in the case of a mutual fire insurance company operating on the basis of premium deposits, gross income includes an amount which is equal to 2 percent of premium earned on insurance contracts during the taxable year with respect to policies described in section 831(a)(3)(B) after deduction of premium deposits returned or credited during the same taxable year. The term premiums earned on insurance contracts during the taxable year for purposes of this section means the absorbed premiums for the taxable year determined in accordance with the schedule of unabsorbed premium deposits in effect at the end of the taxable year.

(e) *Election of certain mutual companies to be taxed on total income.*—Subsection (e) of section 10 of the bill amends section 831 of the code (relating to tax on insurance companies (other than life or mutual), mutual marine insurance companies, and mutual fire insurance companies issuing perpetual policies) by redesignating subsection (c) as subsection (d) and adding a new subsection (c). The new section 831(c) provides that any mutual insurance company engaged in writing marine, fire, and casualty insurance which for any 5-year period beginning after December 31, 1941, and ending before January 1, 1962, was subject to the tax imposed by section 831 (or the tax imposed by corresponding provisions of prior law) may elect to be subject to the tax imposed by section 831, whether or not marine insurance is its predominant source of premium income. If such election is made, the electing company shall be subject to the tax imposed by section 831, for years beginning after December 31, 1961, rather than subject to the tax imposed by section 821. Such election shall not be revoked except with the consent of the Secretary or his delegate.

(f) *Technical amendments, etc.*—This subsection makes certain technical changes to provisions of the 1954 Code outside of parts II or III of subchapter L to conform those provisions to the changes in subchapter L made by section 10 of the bill.

(1) *Credit for foreign taxes.*—Subsection (f)(1) amends section 841 of the code (providing for the allowance to an insurance company of the foreign tax credit provided in section 901) so as to define the term "taxable income," as used in section 904, to mean the mutual insurance company taxable income (as defined in sec. 821(b)) in the case of the tax imposed by section 821(a), and the taxable investment income (as defined in sec. 822(a)(1)) in the case of the tax imposed by section 821(c).

(2) *Adjustments to basis for depreciation sustained.*—Subsection (f)(3) amends section 1016(a)(3) of the code (relating to adjustments to basis for depreciation, etc., sustained) to provide, in effect, that any exhaustion, wear and tear, obsolescence, amortization, and depreciation, to the extent sustained (and to the extent sec. 1016(a)(2) does not apply), on property held in respect of any period since February 28, 1913, by a person subject to tax under part II of subchapter L (or the corresponding provisions of prior income tax laws), must be taken into account in determining the adjusted basis of such property.

(3) *Alternative tax on capital gains.*—Subsection (f)(2) amends section 1201(a) of the code (relating to alternative tax on capital gains) to conform to the amendment to section 821.

(4) *Clerical amendments.*—Subsection (f)(4) makes conforming changes to the table of parts for subchapter L.

(g) *Effective date.*—Subsection (g) of section 10 of the bill provides that the amendments made by section 10 of the bill (other than by subsec. (e)) shall apply only with respect to taxable years beginning after December 31, 1962. Section 831(c) of the code, as added by subsection (e) of section 10, is applicable for taxable years beginning after December 31, 1961.

SECTION 11. DOMESTIC CORPORATIONS RECEIVING DIVIDENDS FROM FOREIGN CORPORATIONS

Section 11 of the bill deals with the method to be used for determining the amount of foreign income tax deemed to have been paid by domestic corporations with respect to dividends received from foreign corporations for purposes of allowance of a foreign tax credit under section 902 of the code. The bill amends the formulas of subsections 902 (a) and (b), redefines the term "accumulated profits" in section 902(c), and requires (under a new sec. 78) the inclusion of taxes deemed paid in income as a dividend. It also repeals section 902(d) which provides a special rule for allowance of a foreign tax credit with respect to royalty or compensation payments made by certain wholly-owned foreign subsidiaries to domestic parents in lieu of dividends, and changes the source of income rule of section 861(a)(2)(B) with respect to dividend income received from a foreign corporation which derived income from sources within the United States and for which a dividends received deduction was allowed under section 245.

(a) *Entire amount of foreign tax to be taken into account.*—Subsection (a)(1) of section 11 of the bill amends the definition of accumulated profits contained in section 902(c) of the 1954 Code. Existing law defines accumulated profits as gains, profits, or income reduced by the amount of taxes with respect thereto. Under the amendment, however, accumulated profits are defined as gains, profits, or income computed without reduction by the amount of the income, war profits, and excess profits taxes imposed by a foreign country or possession of the United States on or with respect to such profits or income. Taxes imposed by the United States will, however, continue to reduce such accumulated profits.

By redefining accumulated profits, the effect of the amendment is to increase the amount of taxes to be taken into account in applying the proportions provided in sections 902 (a) and (b) of the code. Under existing law, a credit is allowed to a domestic corporation for all or a part of the foreign taxes paid on or with respect to the accumulated profits of the foreign corporation making a distribution. However, by the existing definition, accumulated profits are total profits less taxes thereon. The Supreme Court, in *American Chicle Co. v. United States*, 316 U.S. 450 (1942), has held that the amount of tax paid on or with respect to a foreign corporation's accumulated profits is the same proportion of total taxes on profits as accumulated profits is of total profits. Thus, if a corporation had total profits of \$100, foreign taxes of \$40, and therefore accumulated profits of \$60, the amount of taxes paid on or with respect to accumulated profits would be \$24 ($\$40 \times \$60 / \100). If the accumulated profits of \$60 were paid as a dividend, no more than \$24 could be allowed as a credit as deemed paid under section 902 (a) or (b).

As amended, the section 902(c) definition will permit the taking into account of a stated proportion of total taxes. It is no longer necessary to apply the *American Chicle* rule. Since accumulated profits would be total profits without reduction for taxes paid thereon, the amount of taxes paid on or with respect to accumulated profits would, in the above example, be \$40 rather than \$24.

Subsection (a)(2) of section 11 of the bill makes conforming amendments to the existing subsections (a) and (b) of section 902 to provide for the use of the proportion which distributed dividends bear to the accumulated profits in excess of foreign taxes. The result is to continue under such subsections the use of the ratios under existing law, but because of the amendment to section 902(c) the amount against which the ratios operate is increased.

The application of these changes in a section 902(a) computation may be illustrated by the following example involving Corporation P, a domestic corporation which owns 100 percent of the voting stock of Corporation FC, a foreign corporation. It is assumed that all transactions have taken place within, and are related to, the same taxable year.

Example (1)

(i) Gains, profits, and income of Corporation FC.....	\$100
(ii) Foreign tax paid by Corporation FC with respect to such gains, profits, and income.....	30
(iii) Accumulated profits of Corporation FC computed without reduction for foreign taxes (sec. 902(c)).....	100
(iv) Accumulated profits of Corporation FC reduced by foreign taxes (sec. 902(a)).....	70
(v) Dividends paid by Corporation FC to Corporation P.....	35
(vi) Corporation P is deemed to have paid the same proportion of the total tax paid by Corporation FC as dividends, determined without regard to section 78, bear to accumulated profits in excess of taxes: \$30×35/70.....	15

Example (1) will apply to all dividends received by a domestic corporation after December 31, 1964, regardless of the year in which the profits from which such dividends were paid were accumulated. Example (1) will also apply with respect to dividends received by a domestic corporation in its taxable years beginning after December 31, 1962, so long as the dividends from the foreign corporation are attributable to accumulated profits of the foreign corporation for its taxable years beginning after December 31, 1962. However, for periods before January 1, 1965, the *American Chicle* rule and the present 902(a) treatment will continue to apply where the dividends from the foreign corporation are attributable to accumulated profits for taxable years beginning before January 1, 1963. Following the established rule, a foreign corporation is considered to be making a distribution first from its accumulated profits for its current taxable year and then from its accumulated profits of its immediately preceding year, etc.

The following example illustrates the above rules where a dividend is distributed out of both accumulated profits for taxable years beginning after December 31, 1962, and accumulated profits for taxable years beginning before January 1, 1963. The facts are the same as in example (1) except for the noted differences:

Example (2)

(i) Gains, profits, and income of Corporation FC in 1963	\$100
(ii) Foreign tax paid by Corporation FC with respect thereto	40
(iii) 1962 accumulated profits and foreign tax:	
Accumulated profits (existing sec. 902(c))	60
Foreign tax	40
(iv) Dividends paid by Corporation FC to Corporation P in 1963 and the year to which such dividends are attributable:	
1963	\$60
1962	30
	90
(v) Corporation P is deemed to have paid a foreign tax with respect to the 1963 accumulated profits of Corporation FC computed in the same manner as in example (1) ($\$40 \times 60/60$)	40
(vi) Corporation P is deemed to have paid a foreign tax with respect to the 1962 accumulated profits of Corporation FC in the same manner as existing rules ($\$40 \times 60/100 \times 30/60$)	12
(vii) Total foreign tax Corporation P is deemed to have paid ((v) + (vi)) ..	52

Section 902 as amended by section 11 of the bill, when applied to dividends received after December 31, 1964, will not be affected by the fact that there may have been in an earlier year a partial distribution of accumulated profits to which the *Chicle* rule applied. For example, if a wholly-owned foreign subsidiary of a domestic corporation had total profits of \$100, upon which foreign taxes of \$40 had been paid, accumulated profits under existing law would be \$60. Under the *Chicle* rule the taxes paid with respect to the accumulated profits would be \$24 ($\$40 \times \$60/100$). Upon a distribution of one-half (\$30) of such accumulated profits the domestic parent would be entitled under existing section 902(a) to a maximum credit of \$12. However, if at any time after 1964, the subsidiary distributes another dividend, \$30, with respect to the accumulated profits of such earlier year, and taxes deemed paid, determined in accordance with section 902(a), as amended, will be the same proportion of total taxes as the dividend bears to accumulated profits in excess of foreign taxes. Thus, the total tax of \$40 would be multiplied by the fraction 30/60 and the parent would be entitled under section 902(a) as amended to a credit of \$20. No account is to be taken of the foreign tax of \$8 which, because of the *Chicle* rule, was not taken into account in the earlier dividend year.

The new rules effective under section 902(a) will be also effective under section 902(b). Thus, if a dividend from a foreign corporation is distributed out of its accumulated profits for a taxable year beginning after 1962, and such accumulated profits are composed in whole or in part of dividends which were received from accumulated profits of a foreign subsidiary of the foreign corporation accumulated in taxable years beginning after 1962, the new rules will be effective both under subsections (a) and (b). After 1964 the new rules will apply to subsections (a) and (b) of section 902 whether the distributions are from accumulated profits of the foreign corporation and its foreign subsidiary for their taxable years beginning after 1962 or before 1963. The computation involving these rules may be illustrated by the following example involving Corporation P, a domestic corporation which owns 100 percent of the voting stock of foreign Corporation FC which in turn owns 100 percent of the voting stock of foreign subsidiary FS. It is assumed that all transactions have taken place and are related to the taxable year 1963.

Example (3)

(A) Application of amended section 902(b) to determine tax deemed to be paid by Corporation FS:

(i) Gains, profits, and income of Corporation FS.....	\$100
(ii) Foreign tax paid by Corporation FS with respect to such gains, profits, and income.....	20
(iii) Accumulated profits in excess of taxes of Corporation FS: \$100 less \$20.....	80
(iv) Dividends paid by Corporation FS to Corporation FC.....	40
(v) Corporation FS foreign tax which is deemed paid by Corporation FC: \$20×40/80.....	10

(B) Application of amended section 902(a) to determine tax deemed to be paid by Corporation P:

(i) Gains, profits, and income of Corporation FC:	
Business profits.....	\$100
Dividends from Corporation FS.....	40
	140
(ii) Foreign tax paid by Corporation FC with respect to its gains, profits, and income.....	40
(iii) Accumulated profits in excess of taxes paid by Corporation FC: \$140 less \$40.....	100
(iv) Dividend paid by Corporation FC to Corporation P.....	80
(v) Foreign tax paid (\$40) and deemed paid (\$10) by Corporation FC.....	50
(vi) Foreign taxes paid and deemed paid by Corporation FC which are deemed paid by Corporation P: \$50×80/100.....	40

Where a dividend from a foreign corporation before 1965 is attributable to its accumulated profits for a taxable year beginning after 1962, but which profits are composed in part of a dividend received by such foreign corporation from the accumulated profits of its foreign subsidiary for a taxable year or years of the subsidiary beginning before 1963, for purposes of computing the foreign tax credit a pro rata amount of the dividend received from the foreign corporation will be deemed to consist of accumulated profits of its foreign subsidiary attributable to the period before 1963. Existing law will apply to that portion of the foreign tax paid or accrued or deemed paid by the foreign corporation with respect to such pro rata amount of the dividend considered attributable to the accumulated profits of its subsidiary for taxable years before 1963 and the amendment made by section 11 of this bill will apply to the balance of such tax.

The carryback or carryover of excess foreign taxes allowable under section 904 (d) or (e) will not be affected by this section. An excess foreign tax determined in a year to which the amendments of this section do not apply may be carried over, without adjustment, to a year to which the amendments of this section apply. Conversely, foreign taxes in excess of a section 904(a) limitation in a year to which the amendments of this section apply may be carried back, without adjustment, to a year to which the amendments of this section do not apply.

See the technical explanation accompanying the amendment to section 6038 of the 1954 Code made by section 20(a) of the bill for the effect of the amendments made by section 11 of the bill on the reduction of foreign taxes caused by failure to file an information return under section 6038.

(b) *Inclusion in gross income of amount equal to taxes deemed paid.*—Subsection (b) of section 11 of the bill amends part II of subchapter B of chapter 1 (relating to items specifically included in income) by adding at the end thereof a new section 78. Section 78 requires a domestic corporation to include in gross income as a dividend an amount equal to the taxes deemed, as a result of section 902 (a) or (b) of the code as amended by subsection (a) of section 11 of the bill or as a result of section 957(a) (relating to taxes paid by foreign corporation) as amended by section 13 of the bill, to have been paid by the domestic corporation, if the domestic corporation chooses the benefits of the foreign tax credit. Section 78 only applies where the foreign taxes deemed to have been paid by the domestic corporation are computed under amended section 902, and it is not applicable where the taxes attributable to a particular distribution are computed under present law. Thus, in the preceding example (1) Corporation P will include \$15 in gross income as a dividend. In example (2) Corporation P will include only \$40 in gross income since \$12 of foreign tax deemed to be paid by Corporation P is computed under existing rules. In example (3) Corporation P will include \$40 in gross income.

The amount included in gross income by operation of section 78 is treated as a dividend in the same manner as a dividend actually received by the domestic corporation from a foreign corporation. For example, a section 78 dividend is included in gross income under section 61(a)(7); is personal holding company income for purposes of section 543(a)(1); and may be a portion of accumulated taxable income for purposes of section 535. However, a section 78 dividend is not a dividend for purposes of section 245 of the code (relating to deduction for dividends received from certain foreign corporations).

(c) *Determination of source of dividends received from certain foreign corporations.*—Subsection (c) of section 11 of the bill amends section 861(a)(2)(B) of the code by striking out “to the extent exceeding the amount of the deduction allowable under section 245 in respect of such dividends” and inserting in lieu thereof “to the extent exceeding the amount which is 100/85ths of the amount of the deduction allowable under section 245 in respect of such dividends.” This restores the rule contained in section 119(a)(2)(B) of the 1939 Code, as added by the Revenue Act of 1951. The effect of the change is to establish a closer correlation between the operation of sections 245 and 861(a)(2)(B) than existing law provides.

Under present section 861(a)(2)(B), the excess of the amount of a dividend taken into account in determining the dividends received deduction under section 245 over the amount allowed as a deduction, is determined to be income from sources without the United States for purposes of the foreign tax credit provisions. As a result, 15 percent of that portion of the dividend considered as derived from sources within the United States within the meaning of section 245 is treated as income from sources within the United States for purposes of that section, but, conversely, is treated as income from sources without the United States under section 861(a)(2)(B) for foreign tax credit purposes. Subsection (c) removes this inconsistency by treating as income from sources without the United States for foreign tax credit purposes only the amount of the dividend in excess of one hundred eighty-fifths of the dividends received deduction.

(d) *Repeal of section 902(d).*—Subsection (d) of section 11 of the bill repeals existing section 902(d) (relating to special rules for certain wholly-owned foreign corporations).

(e) *Technical amendments.*—Subsection (e) of section 11 of the bill conforms the table of sections for part II of subchapter B of chapter 1 of the code to the addition of the new section 78 and adds appropriate cross references to sections 901 and 902 of the code. In addition it makes technical changes in section 535(b)(1) and 545(b)(1) to prevent the amendments made by section 11 of the bill from changing “accumulated taxable income” for purposes of the accumulated earnings tax and “undistributed personal holding company income” for purposes of the personal holding company tax and to offset the effects of section 78 whereby these incomes are increased by reason of the taxes deemed to have been paid under section 902 (a) or (b). These technical changes will allow as a deduction the taxes deemed to have been paid under sections 902 (a) and (b).

(f) *Effective date.*—Subsection (f) of section 11 of the bill provides that the amendments made by section 11 are to be applicable to dividends which are received by domestic corporate taxpayers in their taxable years beginning after December 31, 1962, but only to the extent that such distributions are made out of the accumulated profits of foreign corporations for their taxable years beginning after December 31, 1962. However, the amendments made by section 11 of the bill will be applicable to all dividends received by domestic corporate taxpayers from foreign corporations after December 31, 1964, regardless of the year to which the accumulated profits are attributable.

If, before 1965, the distribution from a foreign corporation for its taxable year beginning after December 31, 1962, is out of profits which are attributable to a distribution received by such foreign corporation from its foreign subsidiary, the effectiveness of the amendments depends on the taxable year to which the subsidiary's distribution is attributable. If the distribution is out of the subsidiary's accumulated profits for taxable years beginning after December 31, 1962, the amendments will be applicable. However, if the distribution is attributable to the subsidiary's accumulated profits for taxable years beginning before January 1, 1963, the present law will continue in effect.

The amendments are not applicable to a domestic corporation receiving a distribution from a foreign corporation prior to January 1, 1965, unless such distribution (1) is made out of profit of a foreign corporation accumulated in a taxable year beginning after December 31, 1962, and (2) is received by the domestic corporation in a taxable year beginning after December 31, 1962. Therefore, if for example, a foreign corporation is on a calendar year basis and it makes a distribution on November 15, 1963, out of its accumulated profits for 1963 to a domestic corporation whose taxable year began on December 1, 1962, the present law would be applicable.

SECTION 12. EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES

(a) *Limitation on amount and type of income excluded.*—Subsection (a) of section 12 of the bill amends section 911 of the 1954 code. This amendment retains the provisions of section 911 which require,

under certain circumstances, the exclusion of earned income from gross income of an individual who has been a bona fide resident, or is physically present, in a foreign country. However, under the amendment there will be dollar limitations on the amounts which may be excluded under section 911 by any individual. The amendment also imposes a requirement as to time of receipt and, for some purposes, attributes amounts received to the taxable year in which the services to which the amounts are attributable were performed. The amendment also provides that no amount received as a pension or annuity is excludable under section 911.

SECTION 911. EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES

(a) *General rule.*—Subsection (a) of section 911, as amended by section 12 of the bill, is the same as existing law in that it provides that in the case of an individual citizen of the United States—

(1) who has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, or

(2) who during any period of 18 consecutive months is present in a foreign country or countries during at least 510 full days in such period,

amounts received from sources without the United States (except amounts paid by the United States or any agency thereof) which constitute earned income attributable to services performed during the uninterrupted period or during an 18-month period, whichever applies, may be excluded from gross income. However, the amended section 911(a) contains a new provision to the effect that the amount excluded under that provision will be computed by applying special rules contained in subsection (c). The new provision referring to the special rules in subsection (c) is in lieu of the unlimited exclusion provided by existing law with respect to bona fide foreign residence, and the \$20,000-limitation with respect to physical presence in a foreign country provided by existing law. Subsection (a) also retains the provision of existing law that no deductions (other than the deductions allowed by section 151, relating to personal exemptions) will be allowed to the extent such deductions are properly allocable to or chargeable against amounts excluded from gross income under such subsection.

(b) *Definition of earned income.*—Subsection (b) of the amended section 911 continues, without change, the existing definition of "earned income".

(c) *Special rules.*—Subsection (c) of section 911, as amended by the bill, provides rules for purposes of computing the amount excludable from gross income of an individual under section 911(a).

Paragraph (1) of section 911(c) contains the limitations on the amount excludable under section 911(a). It provides, as a general rule, that the amount excluded for any taxable year is not to exceed an amount which is to be computed on a daily basis at an annual rate of \$20,000. However, the annual rate is to be \$35,000 in the case of an individual who qualifies as a bona fide resident of a foreign country or countries under section 911(a)(1), but only with respect to taxable years (or a portion of a taxable year) occurring immediately after

such individual has been a bona fide foreign resident for any uninterrupted period of 3 consecutive years (36 consecutive months). The amount excludable accrues on a daily basis throughout the taxable year. The number of days to be used in making the computation on a daily basis is the number of days in the taxable year for which the exclusion is claimed.

The manner of computing the amount excludable under section 911(a) on a daily basis at the prescribed annual rates may be illustrated by the following example:

Example.—A, a United States citizen, who files his returns on a calendar year basis, is privately employed and is a bona fide resident of France for the period April 1, 1963, through June 30, 1968. The amounts excludable from his gross income for the various calendar years under the provisions of section 911(a) which are computed by applying the special rules contained in section 911(c) are not to exceed the following amounts: for the year 1963, \$15,068.49 ($275/365 \times \$20,000$); for the year 1964, \$20,000 ($366/366 \times \$20,000$); for the year 1965, \$20,000 ($365/365 \times \$20,000$); for the year 1966, \$31,301.37 ($90/365 \times \$20,000$ plus $275/365 \times \$35,000$); for the year 1967, \$35,000; and, for the year 1968, \$17,404.37 ($182/366 \times \$35,000$).

An individual who, on January 1, 1963, has been a bona fide foreign resident for an uninterrupted period in excess of 3 consecutive years is immediately entitled to the benefits of the annual rate of \$35,000. An individual who returns and takes up residence in the United States is, upon resuming bona fide foreign residence, only entitled to the benefits of the annual rate of \$20,000 until such individual completes another uninterrupted period of 3 consecutive years of bona fide foreign residence.

Paragraph (2) of section 911(c) provides that, for purposes of applying the limitation in paragraph (1), amounts received are to be considered received in the taxable year in which the services to which the amounts are attributable are performed. For example, amounts received during the taxable year 1965 attributable to services performed during the taxable year 1964 will, for purposes of applying the limitation in section 911(c)(1), be considered received in the taxable year 1964. Thus, if I (to whom the \$20,000 limitation applies) receives \$16,000 in 1964 and \$7,000 in 1965, both amounts being attributable to his 1964 services, \$3,000 of the \$7,000 received in 1965 would be includible in his gross income for 1965.

Paragraph (3) of section 911(c) provides in effect that in applying the rules of paragraph (1), the amount excludable under section 911(a) is to be neither increased nor decreased solely by operation of community property law.

The application of the rule contained in section 911(c)(3) may be illustrated by the following examples:

Example (1).—H, a United States citizen, qualifies under section 911(a) and receives \$40,000 during a taxable year for services performed abroad during such taxable year. He has been abroad for less than 3 consecutive years. W, the wife of H, earns no income of her own and continues to live in a community property state in the United States. The marital domicile also continues in such state. H and W file a joint return. The aggregate amount excludable from gross income under section 911 is \$20,000. If H and W had filed

separate returns, the aggregate amount excludable under section 911 would be \$20,000.

Example (2).—The facts are the same as in example (1), except that W also resides abroad. Whether H and W file their returns separately or jointly, the aggregate amount excludable under section 911 is \$20,000. If W also qualifies under section 911(a) and receives \$10,000 during the taxable year for services she performed abroad during such taxable year, the aggregate amount excludable under section 911 is \$30,000 (whether a joint return or separate returns are filed).

Similarly, in a noncommunity property jurisdiction, if H and W both qualify under section 911(a) and receive \$40,000 and \$10,000, respectively, for services performed abroad during the taxable year, the aggregate amount excludable under section 911 is \$30,000.

Paragraph (4) of section 911(c) establishes a requirement as to time of receipt by providing that no amount received after the close of the taxable year following the taxable year in which the services to which the amounts are attributable are performed may be excluded under section 911(a). For example, an amount received on or before the close of the taxable year 1965 which is attributable to services performed during the taxable year 1964 will satisfy the requirement as to receipt of section 911(c)(4). However, an amount received after the close of the taxable year 1965 which is attributable to services performed during the taxable year 1964 will not satisfy the requirement as to receipt of section 911(c)(4) and, therefore, will in no event be excludable under section 911(a).

Subparagraph (A) of section 911(c)(5) provides that no amount received as a pension or annuity may be excluded under section 911(a). The result is the same whether the recipient of such pension or annuity is a resident or a nonresident of the United States. Subparagraph (B) provides that no amount included in gross income by reason of section 402(b) (relating to taxability of beneficiary of non-exempt trust), section 403(c) (relating to taxability of beneficiary under a non-qualified annuity), or section 403(d) (relating to taxability of beneficiary under certain forfeitable contracts purchased by exempt organizations) may be excluded under section 911(a). Thus, amounts contributed by an employer to certain plans which do not qualify under section 401 and in which an individual has nonforfeitable rights, must be included in such individual's gross income currently. The amounts of such contributions are not excludable under section 911(a).

SECTION 12. EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES—(Continued)

(f) *Computation of employees' contributions.*—Existing section 72(f)(2) of the code provides that, in the case of employees' annuities, employees' contributions include amounts contributed by the employer if such amounts would have been exempt from tax had they been paid to the employee directly. Existing law continues to apply to amounts contributed on or before December 31, 1962, for services performed on or before such date.

Subsection (b) of section 12 of the bill amends paragraph (2) of section 72(f) of the code by providing, in general, that such paragraph is not to apply to amounts which were contributed by the employer after December 31, 1962, and which would have been exempt from tax by reason of section 911 had they been paid to the employee directly. However, the preceding sentence does not apply to amounts which were contributed by the employer to provide pension or annuity credits, to the extent such credits are attributable to services performed before January 1, 1963, and are provided pursuant to pension or annuity plan provisions in existence on March 12, 1962, and on that date applicable to such services. Thus, in effect, the first sentence of the amendment contained in section 12(b) of the bill provides that an employee's basis will not be increased by reason of foreign service contributions made by an employer after December 31, 1962, and which would have been exempt from tax by reason of section 911 had they been paid to the employee directly. However, existing law would continue to apply to contributions made after December 31, 1962, to provide benefits attributable to services performed before January 1, 1963, to the extent that (1) such benefits are provided by a plan which is in existence on March 12, 1962, and (2) such contributions are required to provide the benefits set forth in the plan on March 12, 1962. Thus, certain amounts attributable to services performed before January 1, 1963, and contributed after December 31, 1962, to fund current or past service credits may be added to an employee's basis. However, to the extent benefits are initially provided after March 12, 1962, or to the extent existing benefits are increased after such date, amounts attributable to the new or increased benefits may not be added to an employee's basis even though the new or increased benefits are attributable to services performed before January 1, 1963.

(c) *Effective date.*—Subsection (c) of section 12 of the bill contains the effective date provisions applicable to the amendments to sections 911 and 72(f) of the code.

Paragraph (1) of section 12 (c) of the bill provides that, except as provided in paragraph (2), the amendments made by section 12 of the bill are to apply to taxable years ending after December 31, 1962. Paragraph (2) provides that, with respect to the changes in section 911 of the code, the amendment made by section 12(a) of the bill is to apply only with respect to amounts received after December 31, 1962, and which are attributable either, as provided in subparagraph (A), to services performed after such date, or, as provided in subparagraph (B), to services performed on or before such date, but only if on March 12, 1962, there existed no right (whether forfeitable or nonforfeitable) to receive such amounts. Thus, in effect, the effective date provision, with respect to the amendment to section 911, applies existing law to amounts received after December 31, 1962, which are attributable to services performed before January 1, 1963, if on March 12, 1962, a right existed (whether forfeitable or nonforfeitable) to receive such amounts. On the other hand, if amounts are received after December 31, 1962, which are attributable to services performed before January 1, 1963, to which the recipient did not have a right in existence on March 12, 1962, section 911, as amended by section 12 of the bill, will apply to such amounts. In the event a right to receive an amount attributable to services performed before

January 1, 1963 existed as of March 12, 1962, and thereafter such amount is increased, section 911, as amended by section 12 of the bill, will apply to such increase.

The application of the provisions of section 12(c)(2) of the bill may be illustrated by the following examples:

Example (1).—A, a United States citizen, who files his returns on a calendar year basis, is privately employed and a bona fide resident of Italy for the period January 1, 1961, through December 31, 1963. He is compensated at a rate of \$25,000 per year and receives such compensation in the year it is earned. The amounts excludable from gross income for the various calendar years and the applicable provisions of section 911 of the code are as follows: for the years 1961 and 1962, \$25,000 under section 911 before amendment by section 12 of the bill; for the year 1963, \$20,000 under section 911, as amended by the bill.

Example (2).—A, the taxpayer described in example (1), receives on May 1, 1963, \$5,000 as a supplementary salary payment for services performed during the taxable year 1962. Such amount is received pursuant to an agreement in existence on March 12, 1962. Under section 12(c)(2)(B) of the bill, such amount will be subject to section 911 of the code before amendment. The entire supplementary salary payment will be excludable from gross income under section 911(a)(1) (before amendment).

Example (3).—The facts are the same as in example (2), except that no right to receive the \$5,000 supplementary salary payment is in existence on March 12, 1962. Under section 12(c)(2)(B) of the bill, such amount is to be subject to the provisions of section 911, as amended by the bill. Under section 911, as amended, the amount excludable is to be computed under section 911(c). Under section 911(c)(2), the supplementary salary payment is to be considered received in 1962. Under section 911(c)(1), that portion of the amount received which, when added to other qualifying amounts received during the taxable year 1962, does not exceed an amount computed on a daily basis at an annual rate of \$20,000 will be excludable. Since, under the facts set forth in example (1), A received excludable amounts in excess of \$20,000 during the taxable year 1962, no part of the supplementary salary payment is to be excludable from gross income.

SECTION 13. CONTROLLED FOREIGN CORPORATIONS

(a) *Tax on United States shareholders.*—Subsection (a) of section 13 of the bill adds a new subpart F to part III of subchapter N of the Internal Revenue Code of 1954. The new subpart consists of eight sections (secs. 951–958).

SECTION 951. AMOUNTS INCLUDED IN GROSS INCOME OF UNITED STATES PERSONS

(a) *Amounts included.*—Subsection (a) provides that, if a foreign corporation is a controlled foreign corporation on any day of its taxable year, then any United States person who owns stock (within the meaning of section 955(a)) in such corporation, on the last day of such taxable year on which it was a controlled foreign corporation,

must include in gross income for his taxable year (in which or with which ends the taxable year of the controlled foreign corporation) a pro rata share of the corporation's subpart F income and a pro rata share of that portion of the increase in its earnings invested in nonqualified property which is not excluded from gross income under section 956(a). Such shares are included in the income of the United States person, even though there may be intervening entities in a chain between the controlled foreign corporation and such person.

The pro rata share to be included by the United States person (if the corporation is a controlled foreign corporation for its entire taxable year) is that amount which would have been distributed with respect to the ownership interest of such person if the corporation had distributed the total amount of its subpart F income and the total amount of such portion of the increase in its earnings invested in nonqualified property on the last day of its taxable year. If the corporation is a controlled foreign corporation for only part of its taxable year, paragraphs (2) and (3) provide that the pro rata share is that which would have been distributed (on the last day of the corporation's taxable year on which it was a controlled foreign corporation) if the controlled foreign corporation had distributed pro rata an amount which bears to such total amount the same ratio that the part of the year during which the corporation was a controlled foreign corporation bears to the entire taxable year.

Example (1).—X, a United States person, wholly owns throughout 1963 Y, a controlled foreign corporation, which has \$100 of subpart F income and \$100 of earnings and profits for its taxable year 1963. Both X and Y use a calendar year as their taxable year. X, for taxable year 1963, must include \$100 in gross income as if such amount had been distributed on December 31, 1963.

Example (2).—X and T, United States persons with the calendar year as a taxable year, each acquire on July 1, 1963, 30 percent of the voting stock of Y, a foreign corporation (having only one class of stock) which became, as of that day, a controlled foreign corporation. Y has no subpart F income for its taxable year (also the calendar year), has \$100 of earnings and profits for such year, and has a \$100 increase in earnings invested in nonqualified property for its 1963 taxable year. For their 1963 taxable year, X and T each must include in gross income \$15, the amount which would have been distributed with respect to their stock if Y had distributed pro rata $\frac{1}{2}$ of \$100, or \$50 on December 31, 1963.

Subpart F income may not exceed the earnings and profits for the taxable year (computed without reduction for distributions made during that year). The increase in investment in nonqualified property, however, is limited to the sum of the earnings and profits for the taxable year (computed without reduction for distributions made during that year) plus the earnings and profits accumulated for prior taxable years beginning after December 31, 1962. Thus, in examples (1) and (2) it would be irrelevant for purposes of section 951(a) whether Y made an actual distribution during 1963. Such distribution would not, however, because of the rules in section 956, result in further tax to X (in example (1)) or X and T (in example (2)).

An increase in earnings invested in nonqualified property is included in gross income only to the extent that it exceeds the subpart F income for the current taxable year and previous taxable years, but only if

such subpart F income has not already been so used as an offset or has not been actually distributed in a previous taxable year. Distributions from amounts taxed under section 951(a)(1) as increases in earnings invested in nonqualified property and subpart F income are excluded from gross income under section 956. Rules for allocation of distributions to subpart F income, increased earnings invested in nonqualified property, or other earnings and profits are made under the rules of section 956(c).

In a case in which stock of a controlled foreign corporation is transferred by one United States person to another during a taxable year, if the transferor United States person receives a dividend with respect to such stock, the acquiring shareholder, under section 951(a)(2)(B), may reduce the amount he would otherwise be required to include in gross income under section 951(a)(1)(A) by the amount of such dividend. For example, assume that X owns 20 percent of the one class of stock in Z, a controlled foreign corporation, and that on July 1, 1963, immediately after receiving a \$10 dividend, X transfers the stock to Y. X, Y, and Z use the calendar year as the taxable year. Z's entire earnings and profits for 1963 consists of \$100 all of which is subpart F income. X must include in gross income the \$10 dividend. Y must include \$10 (\$20 minus \$10) in his gross income for 1963.

(b) *Less than 10 percent ownership.*—Subsection (b) limits United States persons subject to tax under subsection (a) to those who own at least 10 percent of the total combined voting power of all classes of stock, or the total value of shares of all classes of stock, of the controlled foreign corporation. The rules of constructive ownership of section 955(b) are applicable for this purpose, although the rules of constructive ownership of section 955(a) are applicable to determine such person's liability under section 951(a).

Example.—H owns 5 percent of the one class of stock of X, a controlled foreign corporation, and his wife, W, owns 10 percent of the stock of such corporation. Under the rules of section 955(b), H is considered to own 15 percent of the stock of X and will be subject to tax on the income attributable to his 5 percent interest.

(c) *Coordination with election of a foreign investment company to distribute income.*—Subsection (c) provides that a United States person who, for his taxable year, is a qualified shareholder, within the meaning of section 1247(c), of a foreign investment company with respect to which an election under section 1247 is in effect is not required to include in gross income for such year the subpart F income of such company.

SECTION 952. SUBPART F INCOME DEFINED

Section 952 defines the three types of income of a controlled foreign corporation which constitute "subpart F income" and may be includible in the gross income of United States persons, as defined in section 7701(a)(30), under the provisions of section 951(a)(1)(A).

(a) *In general.*—Paragraph (1) of section 952(a) provides that the subpart F income of a controlled foreign corporation, for purposes of section 951(a)(1)(A), is the sum of (1) the income of the controlled foreign corporation derived from insurance of United States risks, as determined under subsection (b); (2) the income of the controlled

foreign corporation from United States patents, copyrights, and exclusive formulas and processes, as determined under subsection (c); and (3) the net foreign base company income of a controlled foreign corporation as determined under subsection (d). Net foreign base company income of a controlled foreign corporation, however, is included in subpart F income only if five or fewer United States persons own, directly or indirectly, within the meaning of section 955(b), more than 50 percent of the total combined voting power of all classes of stock entitled to vote.

Paragraph (2) provides for the exclusion from subpart F income of a controlled foreign corporation of amounts included in gross income of the controlled foreign corporation under chapter 1 of the code where the controlled foreign corporation is engaged in trade or business in the United States and such income is treated as income from sources within the United States.

Paragraph (3) provides that the subpart F income of a controlled foreign corporation for any taxable year of such corporation may not exceed the earnings and profits of the controlled foreign corporation for that year (computed without reduction for distributions made during the year).

(b) *Income from insurance of United States risks.*—Paragraph (1) of subsection (b) provides, in general, that income derived from the insurance of United States risks is that income which would be taxed under subchapter L of chapter 1 if the controlled foreign corporation were a domestic corporation. However, such income is included in subpart F income only if, in respect of reinsurance or the issuing of insurance or annuity contracts, premiums or other consideration are received either (A) on risks in connection with property in, or residents of, the United States or (B) on risks in connection with property not in, or nonresidents of, the United States in accordance with any arrangement that a substantially equal amount of premiums or other consideration in respect of reinsurance or the issuing of insurance or annuity contracts on risks in connection with property in, or residents of, the United States is to be received by another corporation.

Paragraph (2) of subsection (b) provides special rules which modify the application of subchapter L for purposes of this subsection.

Under subparagraph (A) of paragraph (2), respecting the application of part I of subchapter L, life insurance company taxable income is defined solely as the gain from operations under section 809(b) despite the provisions of section 802(b).

Under subparagraph (B) of paragraph (2), the taxable income of all insurance companies other than life insurance companies, that is, both mutual and stock insurance companies which are ordinarily subject to the provisions of part II or part III of subchapter L, respectively, is to be determined under part III of subchapter L.

Subparagraph (C) of paragraph (2) disallows certain deductions from income for purposes of this subsection. These deductions are:

- (i) Section 809(d)(4) (operations loss deduction),
- (ii) Section 809(d)(5) (certain nonparticipating contracts),
- (iii) Section 809(d)(6) (group life, accident, and health insurance),
- (iv) Section 809(d)(10) (small business deduction),
- (v) Section 817(b) (gain on property held on December 31, 1958, and certain substituted property acquired after 1958), and

(vi) Section 832(b)(5) (certain capital losses).

Under subparagraph (D) of paragraph (2), "gross amount" to the extent prescribed in section 809(c) (1) and (2), less the "increases in certain reserves" as defined in section 809(d)(2), and "premiums earned" as defined in section 832(b)(4), are taken into account only to the extent connected with the United States risks described in section 952(b)(1).

Under subparagraph (E) of section 952(b)(2), all other items of income, that is items other than those taken into account under subparagraph (D), as well as all items of expenses, losses, and deductions shall be apportioned under regulations prescribed by the Secretary of the Treasury or his delegate.

(c) *Income from United States patents, copyrights, and exclusive formulas and processes.*—Paragraph (1) defines the term "income from United States patents, copyrights, and exclusive formulas and processes" as used in section 952(a)(1)(B). Such term means the amount of gross rentals, royalties, or other income derived from the license, sublicense, sale, exchange, use, or other means of exploitation of patents, copyrights, and exclusive formulas and processes which are—

(1) either substantially developed, created, or produced in the United States, or

(2) acquired from (A) a United States person which, directly or indirectly, owns or controls the controlled foreign corporation, (B) a United States person owned or controlled, directly or indirectly, by the controlled foreign corporation, or (C) a United States person which is, directly or indirectly, under common ownership or control with the controlled foreign corporation.

The amount described in the preceding sentence is reduced by the cost and expense allowance defined in section 952(c)(2). Under this definition, if a domestic corporation develops in the United States an exclusive process to be used in the production of a certain product, and a right (whether exclusive or nonexclusive) to use this process is granted to a controlled foreign corporation, the income derived from the use of such process by such controlled foreign corporation would be treated as income derived from a United States exclusive process.

Paragraph (2) permits a controlled foreign corporation to deduct an allowance, in accordance with regulations prescribed by the Secretary of the Treasury or his delegate, for ordinary and necessary expenses incurred by the controlled foreign corporation in the receipt or production of the gross income described in paragraph (1) (including gross income the amount of which is determined under paragraph (3)). The allowance so made includes taxes paid by the controlled foreign corporation with respect to such gross income and an amount necessary to amortize or depreciate the cost to the controlled foreign corporation of the property or rights described in paragraph (1). Thus, if a controlled foreign corporation purchased from a United States person a right developed in the United States for the sum of \$100,000, and if the right was for a period of four years, the controlled foreign corporation would for this purpose be allowed to amortize the \$100,000 cost over the four-year period and deduct such amount from gross income derived from the use of such right.

Paragraph (3) establishes the rule for determining gross rent, royalty, or other income, for purposes of section 952(c), if the controlled foreign corporation uses or exploits a United States patent,

copyright, or exclusive formula or process other than by license, sublicense, sale, or exchange. In such cases, the gross rent, royalty, or other payment is considered to be the amount the controlled foreign corporation would have been required to pay if the property or right had been obtained in an arm's length transaction with an unrelated person. For example, if a controlled foreign corporation received, without cost, from its United States parent a right to use a patent in its operation, section 952(c) requires that a gross royalty be determined. The gross amount so determined by applying the standards of an arm's length transaction, reduced by paragraph (2) expenses, is included in subpart F income.

(d) *Net foreign base company income.*—Subsection (d) defines the term “net foreign base company income” as used in section 952(a)(1)(C). The term is defined to mean (1) the foreign base company income for the taxable year, reduced by (2) the increase in investment in qualified property in less developed countries for the taxable year.

(e) *Foreign base company income.*—Paragraph (1) of subsection (e) defines the term “foreign base company income” as used in section 952(d). The term is defined to mean foreign personal holding company income (as defined in section 553) for the taxable year, with the modifications and adjustments provided in paragraphs (2) through (7) of section 952(e).

Paragraph (2) of section 952(e) provides that foreign base company income includes “foreign base company sales income”, if, for the taxable year, such sales income is equal to at least 20 percent of the gross income of the foreign corporation, not including for this purpose other foreign base company income under section 952(e). The term “foreign base company sales income” is defined to mean income (whether in the form of profits, commissions, fees, or otherwise) derived in connection with the purchase of personal property from a related person and its sale to any person, or the purchase of personal property from any person and its sale to a related person. Such property purchased, however, must have been (A) manufactured, produced, grown, or extracted outside the country under the laws of which the controlled foreign corporation is created or organized, and (B) sold for use, consumption, or disposition outside such foreign country. Thus, the income from the purchase and sale of personal property does not constitute foreign base company sales income if the property purchased is resold for use in the country in which the controlled foreign corporation is created, or the property purchased is an agricultural product, mineral, or manufacture, of the country in which the controlled foreign corporation is created.

Since the definition covers only transactions involving both a purchase and a sale, it does not apply to income of a controlled foreign corporation from the sale of a product which it manufactures. In a case in which a controlled foreign corporation purchases parts or materials which it then transforms or incorporates into a final product, income from the sale of the final product would not be foreign base company sales income if the corporation substantially transforms the parts or materials, so that, in effect, the final product is not the property purchased. Manufacturing and construction activities (and production, processing, or assembling activities which are substantial in

nature) would generally involve substantial transformation of purchased parts or materials.

Commissions received for furnishing services in connection with sales transactions discussed above would also be included in foreign base company sales income.

Since the definition of foreign base company sales income also depends on whether property is sold for use, consumption, or disposition outside the country under the laws of which the controlled foreign corporation is created or organized, a destination test applies. Generally property will be considered to be used, consumed, or disposed of in the country to which it is delivered unless circumstances indicate that the property is to be exported after it is so delivered.

For determining whether a controlled foreign corporation purchases from, or sells to, a related person, a person is a related person as to the controlled foreign corporation if he, directly or indirectly, owns or controls, or is owned or controlled by, or is under common ownership or control with, the controlled foreign corporation.

Paragraph (3) of section 952(e) provides that foreign base company income includes all rents whether or not such rents constitute more than 50 percent of gross income. Section 553 already achieves such a result as to royalties.

Paragraph (4) of section 952(e) provides that foreign base company income does not include income derived from insurance of United States risks (provided for under subsection (b)), or from United States patents, copyrights and exclusive formulas and processes (provided for under subsection (c)).

Paragraph (5) of section 952(e) provides that foreign base company income does not include income of a corporation described in section 552(b), which excepts banks and exempt corporations from the foreign personal holding company provisions, nor does it include income of a foreign corporation 50 percent or more of the fair market value of whose outstanding stock is owned directly or indirectly by a domestic corporation which is either organized under section 25(a) of the Federal Reserve Act, or which has an agreement or an understanding with the Board of Governors of the Federal Reserve System under section 25 of such Act, if all the stock (except qualifying shares) of the domestic corporation is owned by a national or state bank which is a member of the Federal Reserve System.

Paragraph (6) of section 952(e) provides that, if the foreign base company income (before deductions) for the taxable year is less than 20 percent of gross income, no part of the income is to be treated as foreign base company income, but, if foreign base company income (before deductions) for the taxable year exceeds 80 percent of gross income, the entire gross income is to be taken into account in determining foreign base company income.

Paragraph (7) of section 952(e) provides that the foreign base company income for the taxable year shall be reduced so as to take into account deductions (including taxes) properly allocable to such income.

(f) *Investment in qualified property in less developed countries.*— Paragraph (1) of subsection (f) provides the rule for determining the increase in investment in qualified property in less developed countries (this is the amount by which foreign base company income is reduced under subsection (d) to obtain net foreign base company income).

This increase is the amount by which the aggregate amount of certain property held at the close of the taxable year exceeds the aggregate amount of such property held at the close of the preceding taxable year. The property taken into account for this purpose is—

(A) qualified property described in sections 953(b)(2)(C) and (D), and

(B) property (including money) which is located outside the United States and is ordinary and necessary for the active conduct for a qualified trade or business described in section 953(b)(3)(A)(ii).

Paragraph (2) of subsection (f) provides that, under regulations prescribed by the Secretary of the Treasury or his delegate, a controlled foreign corporation may elect to determine the aggregate amount of the property described in paragraph (1) held at the close of the taxable year and at the close of the preceding taxable year as of the close of the 75th day after the close of each taxable year.

Paragraph (3) of subsection (f) provides that the amount taken into account under subsection (f)(1) with respect to any property is to be its adjusted basis, reduced by any liability to which the property is subject.

SECTION 953. INVESTMENT OF EARNINGS IN NONQUALIFIED PROPERTY

Section 953 establishes rules for determining the extent to which a controlled foreign corporation's increase in earnings is invested in nonqualified property and thus includible, under the provisions of section 951(a)(1)(B), pro rata in gross income of United States persons. Subsection (a) establishes rules for determining a United States person's pro rata share of a controlled foreign corporation's "increase in earnings invested in nonqualified property". Subsection (b) defines the term "nonqualified property".

(a) *General rules.*—Paragraph (1) of section 953(a) provides that the amount of earnings of a controlled foreign corporation invested in nonqualified property at the end of any taxable year is the aggregate amount of such property held at the close of the taxable year, but not in excess of the sum of the earnings and profits for the taxable year and the earnings and profits accumulated for prior taxable years beginning after December 31, 1962.

Paragraph (2) of section 953(a) provides that the increase for any taxable year of a United States person's pro rata share of the earnings of a controlled foreign corporation invested in nonqualified property is the amount determined by subtracting, from his pro rata share of the amount determined under paragraph (1) for the close of the taxable year, his pro rata share of the amount determined under paragraph (1) for the close of the preceding taxable year, reduced by amounts paid during the taxable year to which section 956(c)(1) applies.

Paragraph (3) of section 953(a) provides that the amount taken into account under paragraphs (1) or (2) with respect to any property is to be its adjusted basis, reduced by any liability to which the property is subject.

(b) *Nonqualified property defined.*—Paragraph (1) of subsection 953(b) provides the general rule that the term "nonqualified property"

means any money or other property, tangible or intangible, which is not "qualified property" (as defined in paragraph (2) of section 953(b)). However, all property acquired by a controlled foreign corporation before January 1, 1963, is treated as if it were qualified property, whether or not it comes within the definition of paragraph (2).

Paragraph (2) of section 953(b) defines the term "qualified property". Thus, any property of a controlled foreign corporation which does not qualify under one of the four categories listed in paragraph (2), with the exception of property acquired before January 1, 1963, is considered to be nonqualified property for purposes of the new subpart F.

Subparagraph (A) of section 953(b)(2) includes within the definition of "qualified property" money or other property which is ordinary and necessary for the active conduct of a "qualified trade or business" of the controlled foreign corporation, provided the money or other property is located outside the United States.

Subparagraph (B) of section 953(b)(2) provides that property which would qualify under subparagraph (A) except for the fact that it is located in the United States is still to be treated as qualified property if it is referred to in clause (i), (ii), or (iii) of subparagraph (B). Clause (i) refers to obligations of the United States, money, or deposits with persons carrying on the banking business. Clause (ii) refers to property purchased in the United States for export to, or for use in, foreign countries. Clause (iii) refers to any loan arising in connection with the sale of property, if the amount of such loan outstanding at no time during the taxable year exceeds the amount which would be ordinary and necessary to carry on the trade or business of both the lending corporation and the borrowing United States person had the sale been made between unrelated persons.

Subparagraph (C) of new section 953(b)(2) defines "qualified property" to include certain stock investments in certain foreign corporations. Under this provision, stock owned by a controlled foreign corporation is considered qualified property if the criteria set forth in subparagraph (C) are satisfied. First, the foreign corporation whose stock is owned must be created or organized under the laws of a less developed country, as defined in section 953(b)(5). Second, such foreign corporation must be engaged in the active conduct of a trade or business in the country in which it was created or organized. Third, substantially all of the property of such foreign corporation must be ordinary and necessary for the active conduct of its trade or business, and such business must be engaged in almost wholly within less developed countries. Fourth, more than 50 percent of the total combined voting power of all classes of stock entitled to vote must be owned, directly or indirectly, by the controlled foreign corporation and four or fewer United States persons; except that if the laws under which such foreign corporation is created or organized limit the amount of voting stock which is permitted to be owned, such lesser percentage of ownership as is permitted must be owned, directly or indirectly, by the controlled foreign corporation and four or fewer United States persons. Fifth, the controlled foreign corporation must own at least 10 percent of the voting stock and 10 percent of the value of all classes of stock of such foreign corporation.

Subparagraph (D) of section 953(b)(2) includes within the definition of "qualified property" investments required because of restrictions imposed by the laws of a less developed country, as defined in section 953(b)(5). In addition, investments made at a time when restrictions imposed by the laws of a less developed country required that the investment be made may be held as qualified property, even though such restrictions have been removed, if withdrawal of the investment would result in substantial losses to the controlled foreign corporation.

Paragraph (3) of subsection 953(b) defines the term "qualified trade or business," used in section 953(b)(2)(A). As defined, a trade or business of a controlled foreign corporation is a qualified trade or business if such trade or business, or substantially the same trade or business, is carried on by the controlled foreign corporation outside the United States and has been so carried on by such corporation, while controlled by substantially the same United States persons either (1) since December 31, 1962, or (2) during the 5-year period ending with the close of the preceding taxable year of the controlled foreign corporation. In determining whether or not a trade or business is the same or substantially the same trade or business during the applicable period, all the facts and circumstances of the particular case must be taken into consideration. The test is intended to prevent the use of earnings which have not been subjected to U.S. tax to diversify the business of the controlled foreign corporation, while permitting the controlled foreign corporation to compete in the lines of activity it is presently engaged in. In this regard, circumstances which may be particularly important involve the nature of the product line of the controlled foreign corporation and the character of the principal foreign competitors of the controlled foreign corporation in that line.

In addition, a trade or business carried on by a controlled foreign corporation will constitute a qualified trade or business if it is carried on almost wholly within a less developed country.

For purposes of paragraph (3), even where there have been changes in the ownership of U.S. persons, a controlled foreign corporation may be considered controlled by substantially the same United States persons if more than 50 percent of the voting power of all classes of stock entitled to vote was owned, directly or indirectly, by either the same United States persons or other United States persons whose relationship indicates that there has been no substantial change in interest. For example, stock transferred to the estate or heirs of a deceased owner by reason of his death, or stock transferred by a domestic corporation to a 100-percent-owned domestic subsidiary, may be considered for purposes of subparagraph (3) to have been held by substantially the same United States persons.

Subparagraph (B) of section 953(b)(3) treats an investment of a controlled foreign corporation as having been made in a qualified trade or business of the controlled foreign corporation if the amount of the investment is made in the stock of a second foreign corporation in which the controlled foreign corporation has owned at least 80 percent of the total combined voting power of all classes of stock entitled to vote and at least 80 percent of the total value of all classes of stock continuously since December 31, 1962, or if the controlled foreign corporation owned such amount of stock continuously during

the entire 5-year period ending with the close of the controlled foreign corporation's preceding taxable year. In this situation the second controlled foreign corporation receiving the amount invested by the first controlled foreign corporation must use the amount received in the conduct of a trade or business which would qualify under subparagraph (A) as if it were conducted by the first controlled foreign corporation.

Paragraph (4) of section 953(b) provides that obligations of United States persons held by controlled foreign corporations are considered property located in the United States, as are pledges or guarantees made with respect to obligations of United States persons.

Paragraph (5) of section 953(b) defines the term "less developed country." Except for certain countries and areas specified in the paragraph which may not be designated as less developed countries, the designation of which countries are less developed is left to Executive order.

SECTION 954. CONTROLLED FOREIGN CORPORATIONS

(a) *Controlled foreign corporations defined.*—Subsection (a) defines "controlled foreign corporations," for purposes of the new subpart F, to mean a foreign corporation of which more than 50 percent of the total combined voting power of all classes of stock entitled to vote is owned by United States persons on any day during the taxable year of the corporation. In this connection, constructive rules of ownership provided in section 955(b) apply.

(b) *Special rule for insurance.*—Subsection (b) provides a special definition of controlled foreign corporations solely for the purpose of including the income derived from insurance of United States risks, referred to in section 952(a)(1)(A), in the gross income of a United States person. Under the special definition "controlled foreign corporation" includes not only a foreign corporation satisfying subsection (a) but also one of which more than 25 percent of the total combined voting power of all classes of stock is owned by United States persons, on any day during the taxable year of a corporation, if the gross amount of premiums or other consideration in respect of any reinsurance or issuing of insurance or annuity contracts in connection with property in the United States, or residents of the United States, exceeds 75 percent of the gross amount of all premiums or other consideration in respect of all risks. Only the subpart F income consisting of income from insurance of United States risks is required to be included in the gross income of a United States person owning stock in a corporation satisfying subsection (b) but not subsection (a).

(c) *Special rule for certain less developed countries.*—Subsection (c) also provides a special definition for those controlled foreign corporations, created or organized under the laws of a less developed country, stock in which is "qualified property" under section 953(b)(2)(C). The special rule provides that the maximum percentage of ownership (if 50 percent or less) permitted under the laws of a less developed country is considered, in lieu of the more than 50 percent requirement in subsection (a), the percentage required under subsection (a) in order for the corporation to be classified as a controlled foreign corporation.

SECTION 955. RULES FOR DETERMINING STOCK OWNERSHIP

Section 955 provides, in subsection (a), a limited rule of stock ownership for determining the amount taxable to a United States person, and, in subsection (b), a broader set of constructive rules of ownership for determining whether the requisite ownership by United States persons exists so as to make a corporation a controlled foreign corporation or a United States person has the requisite ownership to be liable for tax under section 951(a).

(a) *For purposes of section 951(a).*—Subsection (a) provides that for purposes of determining the amount of the income of a corporation which is taxable to a United States person under section 951(a), a United States person owns the stock which he owns directly in a foreign corporation and also that which he owns through certain foreign entities as follows: stock owned, directly or indirectly, by or for a foreign corporation, foreign partnership, or a foreign trust or foreign estate (within the meaning of section 7701(a)(31)) is considered as proportionately owned by the shareholders, partners, or beneficiaries. Stock owned by such a foreign entity with the application of such rule is considered as actually owned by such foreign entity for again applying the rule. The rule in effect gives rise to a chain of ownership and, since the rule operates only on stock owned by a foreign entity, attribution under the rule stops with the first United States person in the chain of ownership running from the controlled foreign corporation to such person. For example, W, a domestic corporation, owns 80 percent of the class of stock of X, a foreign corporation, which in turn owns 80 percent of the class of stock of Y, another foreign corporation, which in turn owns 90 percent of the only class of stock in Z. Under the rule, X is considered as owning 80 percent of the 90 percent which Y owns in Z, or 72 percent. 80 percent of such 72 percent, or 57.6 percent of the stock in Z, is considered as owned by W. Since W is a domestic corporation which is a United States person, W is the person taxed even though W is wholly owned by U, another domestic corporation. If Z has \$100 of subpart F income, then W is required to include \$57.60 in gross income under section 951(a).

Paragraph (3) of subsection (a) provides, for the sole purpose of taxing United States persons on a foreign mutual insurance company's income derived from insurance of United States risks, that the term "stock" includes any certificate entitling the holder to voting power in the corporation.

(b) *Other provisions.*—Subsection (b) provides constructive rules of ownership based, with certain specified exceptions, on section 318. The principle to be followed in applying such rules is that they are to be applied so that the effect is to subject a United States person to the requirement of section 951(a), to treat 5 or fewer U.S. persons as owning more than 50 percent of all classes of stock entitled to vote for purposes of requiring a controlled foreign corporation to include net foreign base company income in its subpart F income, or to make a corporation a controlled foreign corporation under section 954.

The specified exceptions to the rules of section 318 are as follows:

(1) No attribution of ownership from a nonresident alien individual (other than a foreign estate or trust) to a citizen or

resident of the United States can occur under section 318(a)(1)(A);

(2) In considering stock owned by a partnership, estate, trust, or corporation, as owned by the partners, beneficiaries, or shareholders—

(A) a partnership, estate, trust, or corporation which owns more than 50 percent of the total combined voting power of all classes of stock entitled to vote, is to be considered as owning all the voting power of all such classes of stock;

(B) a partnership, estate, trust, or corporation which owns more than 50 percent of the total value of shares of all classes of stock of a corporation is to be considered as owning the total value of all classes of stock;

(3) Stock of a partner, beneficiary, or shareholder which is attributed to the partnership, estate, trust, or corporation will not be attributed out to another partner, beneficiary, or shareholder; and

(4) The requirement that a corporate shareholder own more than 50 percent of the stock of a corporation before ownership of such stock can be attributed to the shareholders of such corporate shareholder is not to apply.

Example (1).—M, N, and O, all United States persons, each own 20 percent of the stock in X, a foreign corporation having only one class of stock, which in turn owns 60 percent of the stock in Y, also a foreign corporation having only one class of stock. For the purpose of attributing the stock owned by X in Y to M, N, and O, X is considered as owning all of the stock of Y with the result that M, N, and O are considered as each owning 20 percent of the stock of Y.

Example (2).—X, an owner of 50 percent of the one class of stock in Y, owns 8 percent of the one class of stock in Z, a controlled foreign corporation; W, the owner of the other 50 percent of the stock in Y owns 45 percent of the one class of stock of Z. X is considered as owning no part of the stock in Z which is owned by W. Thus, X does not own 10 percent or more of the stock of Z so as to be required under section 951(a) to include in gross income any amount of income of Z.

SECTION 956. EXCLUSION FROM GROSS INCOME OF PREVIOUSLY TAKED EARNINGS AND PROFITS

(a) *Exclusion from gross income of United States persons.*—Subsection (a) provides that earnings and profits of a foreign corporation attributable to amounts once included in gross income under section 951(a) are not again included in gross income when actually distributed. The exclusion is applicable whether the income included in gross income under section 951 was required to be included by reason of direct ownership of stock in a controlled foreign corporation or ownership through a chain of ownership described in section 955(a). Further, the exclusion applies with respect to the United States person who owned stock in a foreign corporation at the time it was included in gross income under section 951(a), or with respect to a successor in interest who can at the time of the actual distribution provide such proof as the Secretary of the Treasury or his delegate by regulations require that he holds the interest of the United States person who

previously included in gross income the earnings and profits being distributed.

Example.—On December 31, 1963, X, a United States person, owns 20 shares of the 100 shares of the only class of stock in Z, a controlled foreign corporation, and by reason of such ownership includes \$20 in gross income under section 951 (his proportionate share of Z's \$100 of subpart F income which constituted Z's entire earnings and profits for its 1963 taxable year). On January 31, 1964, X transfers 9 shares of his stock in Z to Y. On June 1, 1964, X receives an \$11, and Y a \$9, distribution from Z. Neither the \$11 received by X nor the \$9 received by Y is includible in gross income.

Subsection (a) in conjunction with section 951(a)(1)(B) also prevents including in gross income under section 951(a)(1)(B) any increase in earnings invested in nonqualified property to the extent such increase can be considered as attributable to subpart F income taxable under section 951(a)(1)(A). Subpart F income thus provides an offset to prevent the inclusion in gross income of amounts otherwise includible as an increase in earnings invested in nonqualified property. For example, Z, a controlled foreign corporation wholly owned by X, a domestic corporation, has \$40 subpart F income, and a \$50 increase in earnings invested in nonqualified property; X includes in gross income only \$10 of the \$50 because \$40 of such \$50 is offset by the \$40 of subpart F income included in X's gross income.

(b) *Exclusion from gross income of certain foreign subsidiaries.*—Subsection (b) provides that, for purposes of section 951(a), income of a controlled foreign corporation once included in gross income of a United States person is not, when distributed to another controlled foreign corporation, included in any of such other foreign corporation's income which must be taxed to such United States person or his successor in interest. For example, X, a domestic corporation, wholly owns Y, a controlled foreign corporation which in turn wholly owns Z, another controlled foreign corporation. In 1970, Y has no income except that which is received from Z, which has \$100 of income which X is required to include in gross income under section 951. Such \$100, although paid to Y as a dividend in 1970, is not included in the income of Y which must be included in the gross income of X, even though such a dividend would ordinarily constitute subpart F income. The same result follows whether the dividend is paid in 1970 or a later year so long as under the rules of subsection (c) it is allocated to earnings and profits under paragraphs (1) and (2) which were once included in X's gross income under section 951.

(c) *Allocation of distributions.*—Subsection (c) provides rules for the allocation of distributions to earnings and profits. Amounts included in gross income of a shareholder under section 951(a) do not constitute distributions for purposes of reducing the earnings and profits of the controlled foreign corporation. Accordingly, when the controlled foreign corporation makes an actual distribution, thereby reducing its earnings and profits, it is necessary at the shareholder level to identify whether the distribution is from earnings and profits attributable to amounts already included in gross income of the shareholder under section 951(a) (in which case the distribution is not taxable as a dividend) or is from earnings and profits which are attributable to amounts not so taxed (in which case the distribution is taxable as a dividend). Under subsection (c), earnings and profits

attributable to amounts once taxed (described in paragraphs (1) and (2)) are to be considered to be distributed until they are exhausted (first from the current year and next from past years). Subsequent distributions, after the earnings and profits described in paragraphs (1) and (2) have been received by a shareholder, are taxable as dividends to the extent of the remaining earnings and profits.

A shareholder is not taxable on a distribution which is out of earnings and profits described in paragraph (1) (relating to earnings invested in nonqualified property) or paragraph (2) (relating to subpart F income). The separate classification of earnings and profits under paragraphs (1) and (2) is for purposes of computing a United States person's pro rata share of the increase in earnings in nonqualified property under section 953. For purposes of section 953(a)(2)(A), the amount of earnings invested in nonqualified property for a taxable year is reduced by earnings so invested which were actually distributed. For this purpose, paragraph (1) of section 956(c) provides that earnings and profits attributable to investment in nonqualified property are the first earnings and profits considered as distributed to a shareholder.

In this connection, although amounts taxed once under section 951(a)(1)(A) as subpart F income may offset amounts representing an increase in earnings in nonqualified property under section 951(a)(1)(B) (so as to avoid taxing the same earnings twice) such offset does not affect the amount of earnings and profits attributable to amounts representing the increase in earnings in nonqualified property for purposes of paragraph (1). The amount of earnings and profits under paragraph (1) includes earnings and profits attributable to amounts includible in gross income under section 951(a)(1)(B) as well as earnings and profits attributable to amounts which would have been included under such section except for the availability of the offset by reason of the inclusion of amounts under section 951(a)(1)(A) as subpart F income. Earnings and profits attributable to amounts included in subpart F income, but used to offset an increase in earnings invested in nonqualified property are not, however, included in paragraph (2) since they are already included in paragraph (1). Thus, there is no duplication in the amounts attributable to paragraphs (1) and (2), and, from the standpoint of the shareholder, the amount of earnings and profits allocable to him under paragraphs (1) and (2) is always equal to the amount of income he has been taxable on under section 951(a) (and for which he has not received an actual distribution).

(d) Distributions excluded from gross income not to be treated as dividends.—Except for deeming foreign taxes paid by foreign corporations as being paid by a domestic corporation in special cases discussed below, a distribution excluded from gross income under section 956 is treated as a distribution which is not a dividend.

SECTION 957. SPECIAL RULES FOR FOREIGN TAX CREDIT

A domestic corporation owning stock in a controlled foreign corporation is required to include in its gross income, under the provisions of subpart F, income of such foreign corporation, whether or not the foreign corporation is one or more links removed in a chain of ownership. Therefore, section 902 (relating to credit for corporate stock-

holder in foreign corporation) which depends on actual distributions would not operate to give the domestic corporation a credit for foreign taxes paid by the controlled foreign corporation. Section 957 provides rules, consistent with section 902, for treating foreign taxes paid by controlled foreign corporations on income which is included in the gross income of domestic corporations under section 951(a) as having been paid by such domestic corporations.

(a) *Taxes paid by a foreign corporation.*—Subsection (a) applies to a domestic corporation which includes in gross income under section 951(a) an amount attributable to earnings and profits of a foreign corporation at least 10 percent of the voting stock of which is directly owned by such domestic corporation, or of a foreign corporation at least 50 percent of the voting stock of which is owned by a foreign corporation at least 10 percent of the voting stock of which in turn is directly owned by the domestic corporation. Such a domestic corporation is deemed to have paid the same proportion of the total income, war profits, and excess profits taxes paid by the controlled foreign corporation to a foreign country or possession of the United States for its taxable year which the amount of the earnings and profits of the foreign corporation included in gross income of the domestic corporation bears to the entire earnings and profits of such foreign corporation for such taxable year.

Example (1).—X, a domestic corporation, wholly owns Y, a foreign corporation, which in turn wholly owns Z, another foreign corporation. X, Y, and Z each use the calendar year as a taxable year. For 1963, X is deemed to have paid taxes actually paid by Y and Z as follows:

	X	Y	Z
Earnings and profits.....		60	80
Foreign taxes.....		40	20
Subpart F income.....		30	50
Gross income under sec. 961 (30+50).....	80.00		
Foreign taxes deemed paid by X under sec. 957(a) and included in gross income under sec. 78:			
$\left(\frac{30}{60} \times 40\right)$	20.00		
$\left(\frac{50}{80} \times 20\right)$	12.50		

If a domestic corporation receives a distribution any part of which is excluded from gross income under section 956, the foreign taxes which are deemed to have been paid under section 957(a) are not again deemed paid under section 902. Other foreign taxes which are not deemed paid under section 957 because paid, for instance, by a first-tier corporation, through which profits of a second-tier corporation are distributed (after having been taxed under section 951 to a United States corporation), will still be deemed paid under section 902 when an actual distribution is made. A distribution of such profits, although excluded under section 956(a), is treated by the domestic corporation as a dividend solely for taking into account under section 902 such foreign taxes as were not deemed paid under section 957.

Example (2).—Suppose that the \$50 of subpart F income of Z taxed to X in 1963 in the example above was in 1970 distributed to Y who received no other income for such year, and that Y paid a tax of \$20 for 1970 and distributed the remaining \$30 to X before the end of 1970.

In such case, although such \$30 is excluded from gross income under section 956(a), it is treated as a dividend under section 902 so that for 1970, X is deemed to have paid \$20 in foreign taxes.

Under paragraph (4) of section 957(a), if income of a first-tier foreign corporation required to be included in the gross income of a domestic corporation under section 951(a) includes a dividend from a second-tier foreign corporation to the first-tier corporation, then such amount included in gross income of the domestic corporation under section 951 is considered as a dividend so that foreign taxes paid by the second-tier corporation and not already allowed as a credit may be deemed paid by the first-tier foreign corporation under section 902(b), and, in turn, then deemed paid by the domestic corporation under section 957(a).

Example (3).—M, a domestic corporation, wholly owns N, a controlled foreign corporation, which in turn wholly owns O, also a controlled foreign corporation but which has no income required to be included in any United States person's gross income. For taxable year 1970, O paid \$40 in foreign taxes. O pays to N as a dividend its total earnings and profits of \$60 for such taxable year, which dividend is N's only income and which in N's hands is foreign base company income required to be included in M's gross income under section 951(a). N has no deductions and pays no foreign taxes. The \$60 required to be included in M's gross income is considered a dividend for purposes of applying section 902(b) with the result that N is deemed to have paid \$40 in foreign taxes and M is in turn deemed to have paid \$40 under section 957(a).

(b) *Special rules for foreign tax credit on receipt of previously taxed earnings and profits.*—Where a United States person receives a distribution which is excluded from income under section 956(a) because it was once taxed as income included in gross income of a United States person under section 951(a), the section 904 limitation is increased in the year of actual distribution so that a credit will be allowed for foreign taxes imposed on the income distributed after it was included in gross income under section 951. The United States person, however, must have either chosen the foreign tax credit in the taxable year in which such income was included in gross income under section 951(a), or else have paid or accrued in such year no income, war profits, or excess profits taxes to any foreign country or possession of the United States. He must also choose the foreign tax credit in the year of the receipt of the excluded distribution.

The amount of the increase in the section 904 limitation is an amount equal to the increase in such limitation which occurred in the taxable year of the inclusion of the income¹ under section 951(a) solely by reason of such inclusion. Such amount is then reduced by the foreign taxes which were allowed as a credit in such year of the inclusion but which would not have been allowable but for such inclusion. The increase in the section 904 limitation may not exceed the income, war profits, or excess profits taxes paid, or deemed paid, or accrued with respect to the distribution in the taxable year such distribution is received.

Under paragraph (3) of section 957(b), a taxpayer who chose to take a foreign tax credit in the taxable year in which he was required to include income in gross income under section 951(a), but does not choose to take a foreign tax credit in the taxable year in which such

income is actually received, may not deduct under section 164 any income, war profits, or excess profits taxes paid or accrued on such income.

Under paragraph (4) of section 957(b), if the increase in limitation exceeds the U.S. tax for the taxable year, the excess is deemed an overpayment of tax for such year.

SECTION 958. ADJUSTMENTS TO BASIS OF STOCK IN CONTROLLED FOREIGN CORPORATION AND OTHER PROPERTY

To prevent doubling up of tax where stock in a controlled foreign corporation is sold at a gain which reflects the retained earnings already taxed to United States persons, the basis of stock would be adjusted.

(a) *Increase in basis.*—Subsection (a) provides that the basis of a United States person's stock in a controlled foreign corporation, and of property by reason of which he is treated as owning such stock in determining the amount which he must include in gross income under section 951, is increased by the amount included in gross income under section 951.

Example (1).—X, who owns stock in Y with a basis of \$1,000, includes \$50 of Y's income in gross income as required under section 951. The basis of X's stock in Y is increased to \$1,050.

Example (2).—The facts are the same as in example (1) except that X is also required under section 951 to include in gross income \$60 of the income of Z, a controlled foreign corporation wholly owned by Y. In such case the basis of X's stock in Y is increased to \$1,110.

(b) *Reduction in basis.*—The basis of stock or other property with respect to which a United States person receives an amount which is excluded from gross income under section 956(a) is reduced by such amount. Thus, if X, in the last example above, received a distribution of \$110 which was excluded from gross income under section 956(a) as the income previously taxed in such example, the basis of X's stock in Y would be reduced again to \$1,000.

To the extent that an amount excluded from gross income under section 956 (a) exceeds the adjusted basis of stock or other property with respect to which it is received, it is treated as gain from the sale or exchange of the property.

(b) *Technical and clerical amendments.*—Paragraph (1) of this subsection amends section 551(b) (relating to foreign personal holding company income included in gross income of United States shareholders) to provide that the amount of undistributed foreign personal holding company income otherwise required to be included under section 551(b) in gross income of a United States person is reduced by his proportionate share of undistributed foreign personal holding company income included in gross income under section 951(a) for the taxable year as his proportionate share of subpart F income of such controlled foreign corporation.

Paragraphs (2), (3), (4), (5) and (6) make conforming changes.

(c) *Effective date.*—Subsection (c) provides that the amendments made by section 13 are to apply with respect to taxable years of foreign corporations beginning after December 31, 1962, and the taxable years of United States persons in which or with which such taxable years of such corporations end.

SECTION 14. GAIN FROM DISPOSITIONS OF CERTAIN DEPRECIABLE PROPERTY

(a) *In general.*—Paragraph (1) of section 14(a) of the bill adds a new section 1245 to the 1954 Code. In general, the new section provides for the inclusion in gross income (as ordinary income) of the gain from the disposition of certain depreciable property, to the extent of depreciation deductions taken in taxable years beginning after December 31, 1961, which are reflected in the adjusted basis of such property.

SECTION 1245. GAIN FROM DISPOSITIONS OF CERTAIN DEPRECIABLE PROPERTY

(a) *General rule.*—Paragraph (1) of section 1245(a) provides the general rule that if “section 1245 property” is disposed of after the date of the enactment of the Revenue Act of 1962, the amount by which the lower of “recomputed basis” or the amount realized (or the fair market value in transactions in which no amount is realized) exceeds the adjusted basis of the property is to be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in section 1231. The term “disposed of” includes any transfer or involuntary conversion.

Paragraph (2) of section 1245(a) defines recomputed basis as the adjusted basis of the property recomputed by adding thereto all adjustments, for taxable years beginning after December 31, 1961, reflected in such adjusted basis on account of deductions for depreciation, or for amortization under section 168, whether in respect of the same or other property and whether allowed or allowable to the taxpayer or any other person. For example, if a taxpayer purchases section 1245 property on January 1, 1963, at a cost of \$10,000 and the taxpayer takes depreciation deductions of \$2,000 (the amount allowable) before making a gift of the property to his son, the son's adjusted basis in the property for purposes of determining gain would, under the provisions of sections 1015 (relating to the basis of property acquired by gift) and 1016 (relating to adjustments to basis), be the same as his father's adjusted basis (\$8,000), and the recomputed basis of the property in the son's hands would be \$10,000 since the \$2,000 of depreciation deductions taken by the father are reflected in the son's basis in the property. Thus, if the son later sells the property for \$10,000, he would have \$2,000 of gain to which section 1245(a) applies. Moreover, if the son himself takes \$1,000 in depreciation deductions (the amount allowable) with respect to the property and then sells it for \$10,000, he would have \$3,000 of gain to which section 1245(a) applies.

While recomputed basis is determined with respect to adjustments to basis for deductions for depreciation (and for amortization under sec. 168) which were either allowed or allowable, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed for any taxable year was less than the amount allowable, the amount to be added for such taxable year is the amount allowed. For example, assume that in the year 1967 it becomes necessary to determine the recomputed basis of property, the adjusted basis of which reflects an adjustment of \$1,000 with respect to deprecia-
