THE SECRETARY OF THE TREASURY
WASHINGTON

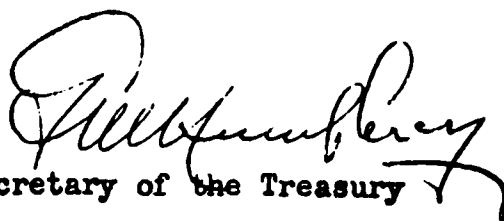

January 3, 1957

The Speaker of the House of Representatives

Sir:

In compliance with the specific requirements of section 15 of the Act of July 31, 1894 (5 U.S.C. 264) and the general provisions of section 114 of the Act of September 12, 1950 (31 U.S.C. 66b), I have the honor to transmit herewith a Combined Statement of Receipts, Expenditures and Balances of the United States Government for the fiscal year ended June 30, 1956.

Very truly yours,

Secretary of the Treasury

REQUIREMENTS OF LAW

This report has been compiled in accordance with the following requirements of law:

Section 15 of the Act of July 31, 1894 (5 U.S.C. 264) which provides, "It shall be the duty of the Secretary of the Treasury annually to lay before Congress, on the first day of the regular session thereof, an accurate combined statement of the receipts and expenditures during the last preceding fiscal year of all public moneys, including those of the Post Office Department, designating the amount of the receipts, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriation," and

Section 114 of the Act of September 12, 1950, 31 U.S.C. 66b(a), which provides: "The Secretary of the Treasury shall prepare such reports for the information of the President, the Congress, and the public as will present the results of the financial operations of the Government: Provided, That there shall be included such

financial data as the Director of the Bureau of the Budget may require in connection with the preparation of the Budget or for other purposes of the Bureau. Each executive agency shall furnish the Secretary of the Treasury such reports and information relating to its financial condition and operations as the Secretary, by rules and regulations, may require for the effective performance of his responsibilities under this section."

The Department also publishes under authority of Section 114 of the Act of September 12, 1950, monthly statements of receipts and expenditures of the United States Government which currently reflect the budget surplus or deficit. There is prepared after the close of the fiscal year a final statement of Receipts and Expenditures which includes receipt and expenditure data for the fiscal year which is in agreement with corresponding data for the fiscal year included in this report and in the Budget of the United States Government.

ARRANGEMENT OF REPORT

This Combined Statement for the fiscal year ended June 30, 1956, consists of four parts as follows:

Part I - Fiscal Year 1956 Summaries -- Included in this section for the first time is a table headed "Statement of Assets and Liabilities of the United States Government, to which Receipts and Expenditures and the Treasury's Cash Operations are Directly Related." This statement is supported by the following summaries:

Table A - Account of the Treasurer of the U.S.

Table B - Cash and Non-Cash Assets for which Disbursing Officers are Held Accountable.

Table C - Investments of Federal Agencies in Public Debt Securities and in Obligations Guaranteed by the U. S.

Table D - Budget Receipts and Expenditures.

Table E - Trust and Deposit Fund Accounts.

Table F - Securities Issued by Wholly-Owned Government Corporations and Agencies.

Table G - The Public Debt.

Also included are summaries of budget appropriations, authorizations, expenditures, and balances (by type of fund) and (by organizational units or programs).

Part II - Receipts, fiscal year 1956, showing more detailed information classified according to (1) sources; (2) organization units and sources; (3) public debt; (4) customs by districts and ports; (5) Internal Revenue by states and districts; (6) Post Office Department Revenues; and (7) District of Columbia.

Part III - Appropriations, Authorizations, Expenditures, and Balances, fiscal year 1956.

Section I of this part shows Appropriations, Authorizations, Expenditures, and Balances, according to each separate head of appropriations and funds in columns as follows: (1) Balances brought forward from the preceding fiscal year; (2) Appropriations and Authorizations; (3) Transfers between Appropriations, Borrowings, Investments (net); (4) Expenditures (net); (5) Transfers to Payment of Certified Claims, and other miscellaneous transactions; and (6) Balances June 30, 1956. "In accordance with presentation in the 1955 report, the closing balances are identified as to (1) unexpended balances, and (2) other authorizations and investments held, representing unappropriated contract authorizations, unused authority to borrow from the Treasury or from the public, and holdings of securities as investments. The closing balances are further classified as to amounts available for expenditures and obligations, less receivables, and amounts unavailable. Prior to 1955, these reports did not contain information on obligations or availability of appropriations, and data on contract authorizations, borrowing authority and investment transactions were shown in separate statements. More detailed explanations of the columnar content is given under the heading that follows 'Bases of figures.' The accounts in this section are arranged according to organization and, under each organization, according to general, revolving and management fund, and special accounts."

Section II of this part shows the trust fund and deposit fund accounts for each organization followed by the District of Columbia accounts.

ARRANGEMENT OF REPORT— Continued

Section III of this part contains a statement of appropriations and redemptions of public debt accounts. More detailed explanations of the columnar content is given below under "Bases of Figures" and explanations of transactions under "Account Classification."

Part IV - Informational Tables, consisting of a series of special statements relating to appropriations and authorizations enacted by the Congress, fiscal year

1956, and financial information regarding the public debt, status of special fund and trust fund receipts, contract authorizations, revolving and management fund accounts, and other activities. In addition there is included an index table indicating references to informational tables previously published in Combined Statements but discontinued for reasons of program completion, decline in relative fiscal significance and other reasons.

BASES OF FIGURES

Receipts - Section 305 of the Revised Statutes (31 U.S.C. 147) provides that receipts for all moneys received by the Treasurer of the United States shall be endorsed upon warrants signed by the Secretary of the Treasury, without which warrants, so signed, no acknowledgment of money received into the Public Treasury shall be valid, Section 115 of Public Law 784, 81st Congress, approved September 12, 1950, modified Section 305 of the Revised Statutes by authorizing the Secretary of the Treasury and the Comptroller General of the United States, under certain conditions, to issue joint regulations, waiving the requirements for the issuance of countersignature of warrants for the receipt and disbursement of public money. Pursuant to this authority, joint regulations were issued during the fiscal year 1951 under which all collections representing repayments to appropriations are covered into the Treasury and credited directly to the accounts of disbursing officers without issuing covering warrants. Similar regulations were issued with respect to special fund and trust fund receipts which have been appropriated and are immediately available to the collecting agency. With the exception of Internal Revenue taxes and customs receipts, the receipts published in this report represent confirmed deposits reported to the Treasury during the fiscal year by the various depositaries. With respect to Internal Revenue taxes and customs duties, however, such receipts are based on the actual cash collections made by the collecting officers and agents during the fiscal year.

Appropriations and Authorizations:

Appropriations - Article I, Section 9, of the Constitution of the United States, provides that no money shall be withdrawn from the Treasury but in consequence of appropriations made by law. The appropriations exhibited in this report are the amounts which, by law, Congress authorized to be established upon the books of the Treasury during the fiscal year 1956. In some instances Congress makes available part or all of the unobligated balances of prior year appropriations which would otherwise expire. Such amounts which are included as part of the appropriations for the fiscal year 1956 have been keyed and are explained by appropriate footnotes. The appropriations are classified to show how the sums were appropriated from an organizational standpoint and are

shown in the second money column of Part III of this report beginning on page 100 .

Contract Authorizations - Contract authorizations represent a grant of authority by the Congress to obligate prior to the enactment of an appropriation. A contract authorization does not, in itself, permit the spending of money since it must be followed by an appropriation to permit payment of the obligation. In this report the amount of the unfinanced contract authority at the beginning of the year is included in the first money column. New contract authority granted during the fiscal year 1956 is shown in the second money column. Appropriations enacted during the fiscal year to liquidate such authority are also included in this column as an increase to appropriated funds and a decrease to unfinanced contract authority, and the unused authorization at the end of the year is included in the seventh column.

Authorization to expend from public and corporate debt receipts - Unlike the appropriations described above, the Congress, in some instances, grants authority to Government corporations or agencies to make expenditures from funds to be borrowed from the public or from the Secretary of the Treasury. In the case of borrowings from the Treasury, the Secretary is directed to use moneys derived from the sale of public debt securities. Legislation is specific with respect to the maximum amount of money that can be advanced to each corporation or agency and often requires that it be accomplished in exchange for notes of the enterprise. Repayment of borrowings from the Treasury is sometimes accomplished, under direction of Congress, by cancellation of notes which have been issued by a Government enterprise to the Treasury. A few agencies of the Government are authorized by law to issue obligations to the public. When issuing these obligations, consisting of debentures, bonds and notes, the agencies are required to secure approval from the Secretary of the Treasury or consult with him before issuing such obligations. The net additional public and corporate debt authorizations granted by the Congress during the fiscal year are shown in the second money column of this report, and the unused authorization at the end of the year is included in the seventh money column.

BASES OF FIGURES--Continued

Appropriation Transfers - Transfers between appropriations (net), as shown in the third money column of this report under Part III, represent the sums transferred between appropriations during the fiscal year 1956 by the administrative agencies concerned, as authorized by law. Such withdrawals and credits between appropriations are made by check without warrant action. Explanatory footnotes showing the authority for such transfers and the amounts transferred to or from the various accounts are given at the end of each chapter. Other transactions shown in the third money column are stated net, and include three activities as follows:

- (a) Borrowings from Treasury—representing the net borrowings from or repayments to The Treasury as authorized and directed by the Congress.
- (b) Investments—representing the net of the par value of purchases or sales of public debt securities by Government corporations or funds.
- (c) Sales and redemptions—representing the net of the par value of issues or redemptions of obligations of Government corporations or agencies in the market.

Expenditures (net) - Check-issued basis. - The expenditures exhibited in this report in the fourth money column, include checks drawn upon the Treasurer of the United States in payment of Government obligations, with the exception of interest on the public debt (which is shown on an accrual basis), and withdrawals and credits between appropriations as provided in Section 1210 of the General Appropriation Act, 1951 (64 Stat. 763). Also included are cash payments as well as payments out of the funds held outside the Treasury. Where appropriations are credited with reimbursements or refunds of moneys previously expended, as authorized by law, the expenditures reflected in this report are reduced by such amounts.

Transfers to Payment of Certified Claims, and Other Miscellaneous Transactions - Figures shown under the above heading of the fifth money column represent net transactions in several types of activities as follows:

- (a) Payment of Certified Claims - The Act of July 6, 1949 (63 Stat. 407), amended the provisions of law relating to the surplus fund and certified claims. Under the amendment, the unexpended balances of lapsed appropriations, that is, those which have remained on the books for two fiscal years following the fiscal year for which appropriated, are to be transferred on July 1, of each year, to a consolidated appropriation account known as "Payment of Certified Claims." The amounts thus transferred to the consolidated appropriation account, "Payment of Certified Claims," remain available until disbursed for the payment of claims, within the limit of and chargeable to the respective balances of any lapsed appropriations, which may be certified by the Comptroller General of the United States to be lawfully due. On July 1, of each year, all funds in the consolidated appropriation account, "Payment of Certi-

fied Claims " certified by the Comptroller General of the United States as not required for the payment of claims thereunder are to be transferred to the surplus fund of the Treasury.

- (b) Surplus Fund of the Treasury - The term "Surplus Fund of the Treasury," as used by the Congress in appropriation acts, and in the Act of March 3, 1795 (1 Stat. 437) R.S. 3691 (31 U.S.C. 715) and by the Treasury Department, does not represent a fund consisting of unappropriated budget surplus or other assets as the term would ordinarily imply in accounting terminology. The term as herein used has no relation to surplus income. It is merely an expression to describe the closing on the books of the Treasury of certain appropriations which have been repealed, or the unexpended balances of inactive appropriations not required for settlement of accounts.

Appropriations when made by Congress and established upon the books of the Treasury Department do not represent so much income or cash actually set aside in the Treasury for the purposes specified in the appropriation acts. Appropriations are established on the books of account in the Treasury and represent the limit for which administrative offices may obligate Government funds during the fiscal years specified in the appropriation acts. It follows, therefore, that when appropriations, or unexpended balances of appropriations, are transferred to what is termed in the law the "Surplus Fund of the Treasury" it involves simply a matter of closing such appropriations on the books without increasing the cash in the Treasury or affecting it in any manner. The amounts of appropriations transferred to the surplus fund of the Treasury are explained by appropriate footnotes.

- (c) Restorations from the surplus fund - Restorations from the surplus fund represent amounts that have been transferred to surplus and later found to be required for adjustment of accounts or liquidation of unforeseen obligations. These amounts act as a reduction of the current surplus fund transfers.

- (d) Capital transfers - Capital transfers which are excluded from expenditures represent payments from revolving funds to miscellaneous receipts on account of repayment of capital or advances, or distribution of earnings. The related credits to miscellaneous receipt accounts are likewise excluded from the statements of receipts.

- (e) Adjusted appropriations of prior year receipts - Special Fund Accounts - The amounts included under this activity represent a reduction of prior year appropriations to conform to the adjusted receipts of those years.

- (f) Adjusted appropriations of prior year receipts - Trust Fund Accounts - The receipts of most trust

BASES OF FIGURES--Continued

funds are permanently appropriated by law for the purposes of the fund without further specific action by the Congress. In most cases, the appropriations each year are equal to the receipts of the year. In certain instances, however, the amount appropriated may differ from the receipts for the year, due to a time lag between the crediting of the receipts and the recording of the appropriation. In cases where the trust funds require Congressional action from year to year, receipts of such funds can be spent only in accordance with appropriations or other authorizations enacted by the Congress. The amounts shown in the fifth money column of this report, under trust accounts, with the exception of "District of Columbia" (which are transferred to the Surplus Fund under special Acts of Congress) represent a reduction of prior year appropriations to conform to the adjusted receipts for those years. The amounts shown in this column do not reduce the overall appropriation of trust fund receipts but merely represent a shifting of such amounts to an unappropriated status for reappropriation at a subsequent date.

Availability of Unexpended Balances - As indicated on page one under Part III "Arrangement of Report," an analysis of unexpended balances of appropriations or fund accounts for the year ended June 30, 1956, in terms of their availability, has been made a part of this report. The component parts of unexpended balances for each appropriation or fund account as to their availability published in this Combined Statement were submitted to

the Treasury Department by the various Government agencies concerned pursuant to requirements of General Regulation No. 127 issued by the General Accounting Office, dated June 28, 1956. Such figures are based on reports prepared by the agencies in accordance with Section 1311 of Public Law 663, dated August 26, 1954.

The unexpended balances segregated in terms of their availability are shown separately in Part III of this report in the last four money columns as follows:

(1) Unpaid Obligations--includes unpaid obligations of annual, no year, multiple-year, revolving and management funds (except balances of lapsed accounts not yet transferred to the certified claims account).

(2) Receivables (deduct)--includes receivables which, when collected, will be credited direct to the appropriation or fund.

(3) Unobligated--includes unobligated balances of funds, except annual appropriations and multiple-year appropriations expiring as of June 30, 1956 and balances of lapsed accounts not yet transferred to certified claims. (For explanation of lapsed accounts see "Payment of Certified Claims" (p. 3). An expired appropriation is one which is no longer available for obligation but is still available for disbursement to liquidate existing obligations.

(4) Unavailable--includes unobligated balances of annual appropriations and multiple-year appropriations expiring on or before June 30, 1956; including balances to be made available after June 30 by reappropriation; and obligated and unobligated balances of lapsed accounts not yet transferred to certified claims.

ACCOUNT CLASSIFICATION

General Fund Accounts - The general fund accounts are those which are credited with receipts of the Federal Government not otherwise set aside for specific purposes, and are charged with expenditures payable from appropriations and borrowings relating to the operations of the Federal Government with the exception of those expenditures made from earmarked receipts. The principal sources of receipts covered into the general fund accounts are income tax, other internal revenue, and customs duties. Receipts from miscellaneous sources, which are not earmarked for special or trust fund accounts, are also covered into the general fund accounts. Such receipts include the proceeds of Government-owned securities (except those which are applicable to public-debt retirement), sale of surplus and condemned property, fees of various kinds, fines, penalties, forfeitures, rentals, royalties, reimbursements, immigration head tax, sale of public land, and interest on public deposits.

As already noted, moneys covered into the general accounts may be withdrawn from the Treasury only through

appropriations made by Congress. These appropriations are of two general types - annual and permanent. The annual appropriations ordinarily found in the departmental supply bills are authorized each year by Congress. They are usually definite or specific as to amounts. They may be obligated only during the fiscal year to which they relate, their unexpended balances remaining on the books for two additional years before being transferred to the "Surplus Fund of the Treasury," or "Payment of Certified Claims Account." The permanent appropriations are continued each fiscal year over a period of time by virtue of legislation, without annual action by Congress. Such appropriations may be either definite or indefinite as to amounts. An example of the latter is the indefinite-permanent appropriation to cover the interest on the public debt. Sometimes Congress makes appropriations which are available until expended, or until the object for which they are made is accomplished. These appropriations are without a definite time limit and are called no-year appropriations. They are frequently employed by Congress when providing for the construction of public works projects.

ACCOUNT CLASSIFICATION—Continued

Special Fund Accounts - The special fund accounts, often referred to in the law as special funds, are credited with certain receipts which may be expended only for specified purposes. These receipts, in other words, are earmarked at the time of their deposit, so that they may not be used for the general expenditures of the Government.

Among the important special receipt accounts, other than those applicable to debt retirement, are the reclamation account, mineral leasing, and public lands, under the Department of Interior, and forest reserve fund under the Department of Agriculture. There are many other special accounts involving small amounts.

In connection with the collection and use of receipts credited to special fund accounts it will be noted by reference to page 36 and following pages that cross references are given to the pages on which the appropriations of such receipts may be found. These references will be found especially helpful in cases where Congress has designated in advance the use of receipts from particular sources to several different purposes of expenditure on a percentage basis, such as in the case of Federal power receipts (p. 42), and forest reserve receipts (p. 53).

Revolving and Management Fund Accounts - These are funds which are credited with certain collections (other than taxes) which are earmarked by law to carry out a cycle of business-type operations. Also included in this group are a few funds created by law to expedite accounting for and administration of operations financed from two or more appropriations of an agency.

Trust Fund Accounts - The trust fund accounts generally represent moneys received by the Government for the benefit of individuals or classes of individuals. Moneys held in trust, being payable to or for the use of beneficiaries only, are not available for general expenditures of the Government. There are several classes of trust fund accounts, the beneficiaries under which may be either individuals or groups of individuals. The accounts may represent (a) moneys received directly from or for the benefit of individuals, as in the case of moneys received from foreign Governments or other sources in trust for citizens of the United States or others under the Act of February 27, 1896 (U.S.C., Title 31, Sec. 547); (b) moneys collected as revenues and held in trust, such as the proceeds of sales of Indian lands, which are held as interest-bearing moneys for the benefit of Indian tribes; and (c) proceeds of grants from the General Treasury in pursuance of treaty or other obligations, such as the perpetual trust account created for the Ute Indians under Section 5 of the Act of June 15, 1880 (21 Stat. p. 204).

Revenues of the municipal government of the District of Columbia and expenditures therefrom, for the purpose of the classification of receipts and expenditures in this report, are regarded as trust fund accounts. The share of the United States of payments on account of the District of Columbia, which is payable "out of the moneys in the Treasury not otherwise appropriated," is charged as an expenditure from a general fund account. In like manner payments under annual appropriations for certain trust accounts, such as the Civil Service Retirement Fund, and the Foreign Service Retirement Fund, are classified as expenditures under general fund accounts. Changes in the working balances under these accounts due to variations between credits and charges thereto are stated in connection with expenditures under the caption "Trust Fund Accounts."

Deposit Fund Accounts - Deposit fund accounts are in the nature of suspense or banking accounts, established for moneys deposited with the Treasurer of the United States for safekeeping, and refunds representing moneys not yet ready to be covered into the Treasury or to be returned to the depositors. Such moneys are held temporarily in deposit fund accounts subject to administrative or legal determination as to their final disposition. It will be noted that following the title of certain accounts, the letter "T" is shown. This is used to signify that the account by law is a trust fund account but for accounting purposes has been treated as other than trust.

Working Fund Accounts - Working Funds are established under Section 601 of the Economy Act (31 U.S.C. 686) by advance payments from one bureau or agency to another. Working fund transactions are of two general types (1) allocated working funds, and (2) consolidated working funds. Transactions pertaining to allocated working funds represent: (a) advances which are primarily for construction, procurement, or major contractual services, to be contracted for by the performing agency on behalf of the advancing agency; (b) advances primarily for the production or furnishing of materials by the performing agency (except that advances for this purpose may be made into revolving funds where authorized by law); and (c) advances for services to be rendered by the performing agency beyond the fiscal year in which the advance is made. The unexpended balances and transactions pertaining to the allocated funds are shown under the appropriation account to which the funds were originally appropriated. Transactions classified as consolidated working funds primarily composed of advances for services to be rendered by the performing agency, with use of its own facilities within the same fiscal year, are not shown under the appropriation to which the funds were originally appropriated, but are reflected as working fund accounts, under the agency to which the funds were advanced.

The financial statement on the opposite page is one result of major changes in the central accounting and reporting of the Federal Government which have taken place pursuant to the Budget and Accounting Procedures Act of 1950 (64 Stat. 832). The statement does not purport to show all that the Government owns and owes but is confined to showing those assets and liabilities which have a direct relationship to the cash operations of the Treasury Department and the rest of the Government. Accounting support for the statement is provided by a system of central accounts in the Treasury Department with which the administrative accounting of all departments and agencies is integrated on the basis of cash transactions.

NOTES TO THE STATEMENT OF ASSETS AND LIABILITIES APPEARING ON PAGE 9

NOTE 1 The net expenditure for these intra-government investments is capitalized because the receipts and expenditures involved are not used as factors in determination of the budget surplus or deficit. Corresponding liability for the investments is part of the public debt and guaranteed obligations of Federal agencies shown in the liability section of this statement.

NOTE 2 In addition to unclassified transactions, this item of undistributed charges includes \$22,215,386.11 known to affect only public debt principal. This is the net amount of public debt receipts and expenditures from transactions in the fiscal year 1956 which were processed for entry in the Treasurer's account after the Statement of the Public Debt for June 30, 1956 was published in the daily Treasury statement of June 29, 1956.

NOTE 3 This is the net amount of deposits and withdrawals resulting from transactions representing receipts and expenditures in the fiscal year 1956, which were processed for entry in the Treasurer's account after the balance of such account was published in the final daily Treasury statement for the fiscal year 1956.

NOTE 4 The other net receipts of the fiscal year 1956, not shown as part of the budget surplus, consist of receipts of \$11,155.09 and expenditures of \$217.06 relating to the increment resulting from reduction in the weight of the gold dollar, effected by Proclamation of the President, dated January 31, 1934 (see Act of May 12, 1933, 48 Stat. 51, and the Gold Reserve Act of 1934, 48 Stat. 337). The receipts represent the gain realized by the Government in paying face value instead of bullion value for gold coins, surrendered. The expenditures represent loss sustained by the Government in the melting and refining of the gold coins surrendered.

NOTE 5 Federal Reserve banks (including branches) immediately charge the account of the Treasurer, on their books, for Government checks received through banking channels. Such charges by the Federal Reserve banks are handled currently on the books of the Treasurer (in Washington) as credits, i.e., withdrawals of cash. In the case of some of the checks so received the Federal Reserve Bank is authorized to act for the Treasurer in paying the checks. Some checks, however, are payable at other designated Federal Reserve banks and still others are payable at the Treasury in Washington. Checks which are payable by the Federal Reserve bank which first receives them are charged on the books of the Treasurer directly against "symbol accounts" for the disbursing officers who issued the checks, thereby reducing the balances of checks outstanding with respect to such symbol accounts. However, checks which are payable at other Federal Reserve banks and those payable at the Treasury in Washington, are charged on the books of the Treasurer to transit accounts while the checks are enroute to the paying points. The processing of these checks at the paying points is the basis for clearing the charges from the transit accounts. The transit accounts are not maintained on the basis neces-

sary to disclose the correlation of clearances with the charges in such accounts as between fiscal years.

NOTE 6 Funds held in trust or as deposits for others are liabilities of the Government and the receipts and expenditures representing such funds are not used as factors in determination of the budget surplus or deficit. The liability for trust funds, represented here, consists of the uninvested and unexpended portion of trust deposits, carried on the books of Treasury. The liability for deposit funds consists of the unexpended portion of deposits, carried on the books of Treasury, which are either: (a) held in suspense to be later refunded or credited to some other account of the Government, or (b) held by the Government, to be paid out at the direction of the depositors.

NOTE 7 Military payment certificates are issued to authorized personnel in certain overseas areas in discharge of obligations incurred under appropriations of the Department of Defense. When issued, they are included in expenditures; so the amount outstanding must be shown as a liability.

NOTE 8 Accrued interest on the public debt shown in this statement does not include interest on savings bonds of any series. With respect to those series of savings bonds which are sold at a discount, interest as it becomes payable is treated as a budget expenditure with corresponding increase in the amount of public debt principal. With respect to those series of savings bonds on which interest is paid by check, the interest, as it becomes due and is paid, is charged as a budget expenditure with a corresponding increase in the liability for interest due and payable (equivalent, in this case, to checks outstanding).

NOTE 9 The net amount realized from the sale and redemption of securities issued by wholly-owned corporations or agencies is a liability of the Government similar to the public debt and the receipts and expenditures from such transactions are not used as factors in determination of the budget surplus or deficit.

NOTE 10 Some tax payments, made with depositary receipts, are credited to the account of the Treasurer on the books of Federal Reserve banks (including branches) before the receipts are classified according to the types of taxes, i.e., withheld income and excise taxes, which affect budget receipts, and social security and railroad retirement taxes, which affect trust fund receipts. The credits by the Federal Reserve banks are handled currently on the books of the Treasurer (in Washington) as charges, i.e., deposits of cash. The corresponding credits on the Treasurer's books are made to transit accounts, pending classification of the receipts by the Federal Reserve banks. Such classification is the basis for clearing the credits from the transit accounts. The transit accounts are not maintained on the basis necessary to disclose the correlation of clearances with the credits in such accounts as between fiscal years.

1 The data in this table are derived from the official accounts rendered by the officers concerned to the Comptroller General of the United States for audit and settlement, except for adjustments in certain cases for deposits in transit to the Treasurer of the United States.

2 In addition to the foreign currencies represented here which were purchased with United States dollars for disbursing purposes, the United States Government acquires substantial quantities of foreign currencies in other ways, mostly pursuant to intergovernmental agreements involving foreign assistance programs. The currencies thus acquired without purchase are not included in the dollar accountability of disbursing or collecting officers but are brought under the custodial control of the Treasury Department for use as directed by law. At June 30, 1956, such foreign

currencies under Treasury control amounted to approximately \$354,379,224.95, not including currencies having an approximate value of \$225,343,900.67 which had been advanced to and were expended by various United States Government agencies operating abroad. Further information regarding these foreign currencies may be found in the Annual Report of the Secretary of the Treasury on the State of the Finances, Fiscal Year 1956.

3 The amount of military payment certificates in the custody of military disbursing officers does not represent an asset of the Government. Stocks of such certificates are given to military disbursing officers overseas and are included, at face amount, in the dollar accountability of such officers until the certificates are issued to authorized personnel in payment of obligations incurred under appropriations of the Department of Defense.

(a) Under acts of March 4, 1907 (34 Stat. 1270), March 1, 1911 (36 Stat. 963), and June 30, 1914 (38 Stat. 441), 25 percent of all money received from each national forest is paid to the State in which such forest is situated. The sum of \$19,381,154.57, representing 25 percent of \$77,524,618.28 collected during 1955 as reported by the Department of Agriculture, was credited during the fiscal year 1956 to the appropriation account "Payments to States and Territories from the national forests fund", Department of Agriculture.					
(b) Under the act of June 20, 1910 (36 Stat. 562), such "Proportion of the gross proceeds of all the national forests within said State as the area of land hereby granted to said State for school purposes, which are situated within said said forest reserves" may bear to the total area of all the national forests within said State, is credited to account "Payments to school funds, Arizona and New Mexico." In accordance with this provision, and upon the basis of reports from the Department of Agriculture, \$114,300.64 of the collections for the fiscal year 1955 was credited during the fiscal year 1956 to the appropriation account "Payments to school funds, Arizona and New Mexico National Forests fund."					
(c) Under the act of March 4, 1913 (37 Stat. 843), 10 percent of the forest-reserve fund receipts is available for the forest maintenance of roads and trails within the National forests. During the fiscal year, the sum of \$7,753,872.54 was credited to the appropriation "Roads and trails for States, national Forests fund." Department of Agriculture.

Table 2. -- STATEMENT OF APPROPRIATIONS AND AUTHORIZATIONS
BY ACTS OF CONGRESS AND AGENCIES, FISCAL YEAR 1956 -- Continued

FOOTNOTES

^a Debit item; deduct.

¹ Includes funds appropriated to the President for allocation to departments and agencies.

² Comprises \$19,892,700.00 for Federal payment to the District of Columbia, and \$9,700,000.00 for loans to District of Columbia for capital outlay.

³ This amount does not agree with the amount shown on Table No. I, opposite "Total appropriation acts, 1956", because Table No. II, at this point, excludes certain appropriations which are either included below in one line totals, or deducted because they are not payable from general funds of the Treasury, as follows: Appropriations for the liquidation of prior contract authorizations, -\$839,018,803.00; reappropriations, \$423,299,751.32; appropriations for the fiscal year 1956, made immediately available in the fiscal year 1955, \$333,292,564.00; appropriations for the Post Office Department, payable from postal revenues, \$2,721,720,500.00; and appropriations for the District of Columbia, included below under "TRUST FUND ACCOUNTS", \$139,250,740.

⁴ Represents immediately available funds established in the fiscal year 1956, charged to appropriations for the fiscal year 1957, as follows: Appropriations for the Department of Health, Education, and Welfare, grants to states for public assistance, \$360,000,000.00, less the amount not obligated in the fiscal year 1956, \$19,724,123.46, or an available balance for the fiscal year 1956 of \$340,275,876.54; appropriations for the Department of Labor \$27,680,000.00, less the amount not obligated in the fiscal year 1956, \$1,051,222.00, or a net amount available in the fiscal year 1956 of \$26,628,778.00, consisting of \$19,738,100.00 for grants to states, unemployment compensation and employment service administration; \$4,810,678.00 for unemployment compensation for veterans, and \$2,080,000.00 for unemployment compensation for Federal employees; appropriations for the Legislative Branch for miscellaneous items \$2,476,000.00; appropriations for the Department of Agriculture, for salaries and expenses, Agricultural Research Service, \$987,444.79; and appropriations for the Department of the Air Force, for military personnel \$28,100,000.00.

⁵ Represents unobligated balances of appropriations for the current fiscal year transferred to adjust accounts because of reorganization, interchange between appropriations, or a change in appropriation pattern.

FOOTNOTES

- ^a Deduct.
- ¹ In accordance with Executive Order No. 10610 dated May 9, 1955, effective at the close of June 30, 1955, the Foreign Operations Administration was abolished and certain functions, including the functions relating to borrowing from the Secretary of the Treasury, were transferred to the Department of State, International Cooperation Administration.
- ² Represents funds borrowed from the U. S. Treasury that had not been advanced by the Administration to any foreign country. During the fiscal year 1956 this amount was returned to the U. S. Treasury by the Administration.
- ³ Repayments of \$226,117.97, \$1,147,410.61, and \$72,196.03 were made during the fiscal year 1956 on the Mutual Defense Assistance Program, on Assistance to Spain, and on India Emergency Food Aid, respectively, and deposited in miscellaneous receipts of the U. S. Treasury.
- ⁴ Represents dollar proceeds of sales of foreign currencies deposited in the International Cooperation Administration revolving fund during the fiscal year 1956. Such proceeds are available for reduction of borrowing authorizations pursuant to the provisions of Public Law 472, 80th Congress, approved April 3, 1948.
- ⁵ Represents repayments to the U. S. Treasury that cannot be reborrowed under existing laws.
- ⁶ In accordance with Public Law 345, 84th Congress, approved August 11, 1955, the Home Loan Bank Board ceased to be a constituent agency of the Housing and Home Finance Agency and became an independent agency known as the Federal Home Loan Bank Board.
- ⁷ Authority to issue bonds expired January 1, 1941, except that after that date bonds may be issued to the extent of \$5,000,000 for refunding purposes.
- ⁸ In accordance with Public Law 88, 84th Congress, approved June 21, 1955; until June 30, 1957, such additional sums (not in excess of \$150,000,000 in any one fiscal year), may be advanced as the Administrator may request, except that the aggregate so advanced in any one quarter annual period shall not exceed the sum of \$50,000,000 less that amount which had been returned to the revolving fund during the preceding quarter annual period from the sale of loans pursuant to Section 512 (d) of Title III of the Servicemen's Readjustment Act of 1944, as amended.
- ⁹ Represents lapsed authorizations and net earnings and working capital changes.
- ¹⁰ Represents the portion of the mortgage portfolio financed by earnings and working capital.
- ¹¹ Represents net amount of debentures issued to the public by the administration during the fiscal year 1956.
- ¹² Represents cancellation of notes pursuant to Public Law 176, 83d Congress, approved July 31, 1953.
- ¹³ In addition, repayments of \$172,055,363.87 were made during the fiscal year 1956 and deposited in miscellaneous receipts of the U. S. Treasury.
- ¹⁴ This amount represents fiscal year 1956 borrowing authorization which was not required for obligation purposes, and it is an unavailable balance. In accordance with Public Law 554, 84th Congress, approved June 4, 1956, the Administration may borrow \$194,500,000 from the Secretary of the Treasury, plus an additional amount not to exceed \$15,000,000, which may be borrowed to the extent that such an additional amount is required during the fiscal year 1957. Pursuant to Public Law 1020, 84th Congress, approved August 7, 1956, the Administration may borrow \$450,000,000 from the Secretary of the Treasury to carry on its Farm Housing Program.
- ¹⁵ The Secretary of Agriculture has delegated to the Farmers' Home Administration authority to borrow from the Treasury, as provided in the Bankhead-Jones Farm Tenant Act, as amended (7 U.S.C. 1005c), but has initially limited this delegation to an amount not to exceed \$5,000,000 of outstanding borrowings. The Secretary's authority to borrow under the statute is limited only to the extent that funds are needed to carry out the purposes of the act.
- ¹⁶ In addition to this amount, the Administration may borrow \$314,000,000 from the Secretary of the Treasury, of which \$45,000,000 shall be placed in a reserve to be borrowed to the extent that this reserve is needed during the fiscal year 1957. These two amounts are in accordance with Public Law 554, 84th Congress, approved June 4, 1956.

FOOTNOTES

negative figure.

Agencies reported figures on obligations in dollars only. Since the unexpended balances are shown in full figures, the Treasury has allocated the residual amounts to the unobligated balances. Investments in U. S. securities are stated at par, and include public debt securities and securities issued by Government agencies.

Budgetary authorizations include balances of authority to expend from public debt receipts and corporate debt receipts.

Nonguaranteed obligations of the Federal National Mortgage Association, sold in the market, may not exceed the lesser of: (a) ten times the sum of the Association's capital and surplus; or (b) the sum of assets of the Association, free of liens or encumbrances, representing cash, mortgages, public debt securities and securities or other obligations guaranteed by the United States. At June 30, 1956, the borrowing limitation under this formula was \$103,830,100.00.

Debentures of the Federal Housing Administration, guaranteed by the United States, are issued in exchange for foreclosed mortgages insured by the Administration. At June 30, 1956 the aggregate amount of mortgages which could be insured, subject to exchange for debentures upon foreclosure, was \$26,881,097,342.00.

⁶ Does not include anticipated reimbursements from Military Assistance fund reservations unobligated on June 30, 1956 in amounts of \$175,597,394.89 for the Army stock fund, and \$16,117,918.14 for the Navy stock fund.

⁷ In addition to selected assets listed on the statement of financial condition, includes unfilled customer orders, which represent obligations against general appropriations, in the following amounts:

Army stock fund	\$191,537,851.00
Army industrial fund	348,722,220.00
Navy stock fund	20,000,000.00
Navy industrial fund	690,197,424.00
Marine Corps stock fund	2,000,000.00
Air Force stock fund	10,184,260.00
Federal Prison Industries, Inc.	7,984,179.00

⁸ For purposes of this report the symbols as shown relate to the master account. For further information as to the amounts allocated to other agencies see related accounts as shown in Part 3, Section I.

Table 13. -- FINANCIAL STATUS OF REVOLVING AND MANAGEMENT FUNDS

(Government corporations and other agencies or activities operating with business-type budgeting, financing and accounting)

The unexpended balances and other authorizations and investments held at June 30, 1956, shown in Part III of this report (pages 100 to 301) represent in the aggregate the data shown in the columns of this table which are headed: "Balance with U. S. Treasury", "Cash on hand and in banks", "Investments (par) in public debt or other U. S. Government securities". The data on assets and liabilities are derived from reports of the corporations and agencies concerned furnished pursuant to Treasury Department Circular No. 966. Certain of these data are in agreement with corresponding data in the accounts of the Treasury. The data on the contractual commitments which exist in addition to liabilities were supplied by the Bureau of the Budget based on data reported by the corporations and agencies.

(Figures are rounded to dollars and may not add to totals)

FOOTNOTES

- : (a) Interagency items are included in the assets and liabilities.
 - (b) Assets are stated net of reserves reported for anticipated losses or other valuation purposes.
 - (c) Borrowings from the Treasury are treated as invested capital, not as liabilities of the corporations and agencies concerned. At June 30, 1956, such borrowings amounted to \$16,349,553,984.87.
- Negative items.
- For purposes of this report the symbols as shown relate to the master account. For further information as to the amounts allocated to other agencies see related accounts as shown in Part 3, Section I.

- 2 Undeposited collections and other funds in transit to Treasury Disbursing Offices are included under "Other Assets".
- 3 Nonguaranteed obligations of the Federal National Mortgage Association, sold in the market, may not exceed the lesser of: (a) ten times the sum of the Association's capital and surplus; or (b) the sum of assets of the Association, free of liens or encumbrances, representing cash, mortgages, public debt securities and securities or other obligations guaranteed by the United States. At June 30, 1956, the borrowing limitation under this formula was \$103,830,100.
- 4 Debentures of the Federal Housing Administration, guaranteed by the United States, are issued in exchange for foreclosed mortgages insured by the Administration. At June 30, 1956, the aggregate amount of mortgages which could be insured, subject to exchange for debentures upon foreclosure, was \$26,881,097,342.

Office of the Postmaster General
Washington 25, D. C.

November 30, 1956

Hon. George M. Humphrey
Secretary of the Treasury
Washington 25, D. C.

Dear Mr. Secretary:

Pursuant to the provisions of the Act of June 9, 1930, 39 U.S.C. 793, the amounts set forth below with respect to certain mailings during the fiscal year ended June 30, 1956, as determined under our present system of estimating, are certified to you in order that they may be separately classified on the books of the Treasury Department:

(a) The estimated amount which would have been collected at regular rates of postage on matter mailed during the year by officers of the Government excluded from the requirement for payment of postage on penalty mail under Public Law 286, effective August 15, 1953, and the fees which would have been collected at regular rates on official registered matter mailed during the year by all officers of the Government other than the Post Office Department:

Postage	<u>1/</u> \$1,013,000
Registry fees, including	
surcharges	<u>2/</u> <u>2,000,000</u>

Total \$3,013,000

1/ Commencing with fiscal year 1957, reimbursement for mailings of this type will be made by the agencies involved under the provisions of Public Law 705, 84th Congress, with but two minor exceptions.

2/ This is the cost of this service. Commencing with fiscal year 1957, reimbursement approximating the cost of handling will be received under the provisions of Public Law 705. Full registry rates and surcharges would amount to \$17,700,000, if charged.

Inasmuch as Public Law 286 requires the payment of postage on penalty mail by departments and agencies of the Government, except the Post Office Department and certain minor agencies specifically exempted, only the estimated postage at regular rates of those other agencies specifically exempted from payment is shown above. Payments of postage on penalty mail required under Public Law 286 totaled \$32,426,000, which approximately covers the cost of handling such matter.

(b) The estimated amount which would have been collected at regular rates of postage on matter mailed under the franking privilege by others than Members of Congress \$195,000

Public Law 286 also provides for reimbursement by appropriation for the cost of handling matter mailed by Members of Congress and certain other legislative officials. The reimbursement for fiscal year 1956 of \$2,076,000 covered the cost of handling this matter.

(c) The estimated amount which would have been collected during the year at regular rates of postage on publications going free in the county \$839,000

(d) The estimated amount which would have been collected at regular rates of postage on matter mailed free to the blind during the year 3/ \$1,052,000

(e) The estimated difference between the postage revenue collected during the year on mailings of newspapers and periodicals published by and in the interests of religious, educational, scientific, philanthropic, agricultural, labor and fraternal organizations, and that which would have been collected at zone rates of postage \$2,144,000

(f) The estimated excess during the year of the cost of aircraft service over the postage revenue derived from air mail 4/ nil

Grand Total \$7,243,000

3/ The amount of \$1,052,000 represents the cost to the Post Office Department for handling this matter in fiscal year 1956. At rates applicable for paid matter for the blind, the potential postage would amount to \$206,000.

4/ Due to the transfer of subsidy payments to airlines to the Civil Aeronautics Board under the provisions of Reorganization Plan No. 10, effective October 1, 1953, the postage revenues from air mail exceeded the cost of aircraft service in fiscal year 1956.

Sincerely yours,

Maurice H. Stans

Acting Postmaster General
