TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
DIVISION OF BOOKKEEPING AND WARRANTS,
Washington, December 2, 1927.

SIR: I have the honor to submit herewith a combined statement of the receipts and expenditures of the Government for the fiscal year ended June 30, 1927, a summary of which is given below:

RECEIPTS		EXPENDITURES	
Ordinary receipts (p. 20)	$4, 128, 422, 887. 61	Expenditures (includes $519,563,844.78 public debt retirements chargeable against ordinary receipts) (p. 368)	$3, 493, 507, 876. 75
		Surplus, carried down	634, 915, 010. 86
	4, 128, 422, 887. 61		4, 128, 422, 887. 61
Surplus, brought down	634, 915, 010. 86		
Public debt receipts (p. 49)	5, 185, 083, 142. 93	Public debt expenditures (exclusive of $519,563,844.78 chargeable against ordinary receipts (p. 338)	5, 798, 528, 111. 74
Balance in general fund June 30, 1926	211, 128, 078. 43	Balance in general fund June 30, 1927	232, 598, 120. 48
	6, 031, 126, 232. 22		6, 031, 126, 232. 22

In accordance with the requirements of the act of July 31, 1894, the receipts are classified, whenever practicable, by ports, districts, and States, and the expenditures by each separate head of appropriations.

The detailed sources of receipts are further classified according to funds—i. e., general, special, trust, and District of Columbia—and on page 12 will be found a condensed statement of both receipts and expenditures according to these fund distinctions, including the cash balance in the Treasury as at the beginning and end of the fiscal year.

In previous annual reports under section 15 of the act of July 31, 1894, the detailed expenditures were exhibited on the basis of warrants issued in accordance with the provisions of section 305 of the Revised Statutes and, therefore, included unexpended balances remaining to the credit of disbursing officers at the end of the year of funds advanced to them by warrants of the Secretary, but not expenditures from unexpended disbursing balances carried over from the previous year. As stated in the foreword of this report (p. 7), it has been realized for some time that a more accurate method should be devised for exhibiting the detailed expenditures of the Government in the annual reports than the one heretofore observed.

In order to correct this situation and exhibit the expenditures on the best practicable basis, the several departments and establishments, upon your request, have cooperated with the Treasury in furnishing the unexpended balances to the credit of disbursing officers under their respective jurisdictions at the beginning and end of the fiscal year 1927, classified by appropriations. These figures, when used in conjunction with the warrants issued during the year, make it possible to include checks drawn during 1927 against unexpended balances of disbursing officers at the beginning of the fiscal year, and to exclude from expenditures all unexpended balances remaining in their hands or to their credit at the close of the year. Detailed expenditures on the new basis of checks issued are shown in column 5 beginning on page 65 of this report. In this connection it may be interesting to note that the detailed expenditures by separate appropriation heads on the new basis of checks issued for the whole Government service vary only about seven-thousandths of 1 per cent from the checks actually paid by the Treasurer of the United States, this slight variation being due to a comparatively small increase in outstanding disbursing officers' checks as between the beginning and end of the fiscal year.

A summary of the appropriations, expenditures, and balances (exclusive of the public debt) as carried in this report (p. 367) is given below:

The figures shown in columns numbered 1, 3, 4, 6, and 7 are on precisely the same basis as the reports which have been made to Congress in the past, and will afford a balanced statement on the basis of "warrants issued," without reference to columns 2, 5, and 8.

Columns numbered 2, 5, and 8 are the new columns added to this year's report, and, when used in conjunction with columns numbered 1, 3, 6, and 7, *supra*, will also make a balanced statement with the expenditures stated on a "checks-issued" basis instead of a warrant basis.

On pages 369 to 409 will be found the following special statements, respectively:

(*a*) A summary of the receipts and expenditures classified by departments and other major headings.

(*b*) An accountability statement of appropriations by acts of Congress.

(*c*) Summary of general, special, and trust funds, and special deposit accounts by organization units.

FOREWORD

INAUGURATION OF THE STATEMENT OF EXPENDITURES ON THE BASIS OF CHECKS ISSUED

It has been realized for some time that a more accurate method should be devised for exhibiting the detailed expenditures of the Government in the annual reports than the one heretofore observed. Except in the case of the daily Treasury statements the detailed expenditures have been exhibited on the basis of warrants issued against appropriations provided by Congress in accordance with section 305 of the Revised Statutes. Accountable warrants, so called because the disbursing officers must regularly account for expenditures therefrom, are issued to place funds to the credit of disbursing officers upon the books of the Treasurer of the United States, subject to their official check for the payment of Government obligations. Settlement warrants authorize the Treasurer to make direct payments to claimants upon settlements of the accounting officers.

Funds placed to the credit of disbursing officers by means of accountable warrants have been exhibited heretofore as expenditures during the period in which such advances were made. As a matter of fact, some of the money in many instances is not actually spent until the period following the one in which the advance is made, and, to some extent, not at all, the unexpended portion being returned to the appropriation accounts on the books of the Secretary of the Treasury in a subsequent period, which operates to reduce expenditures on a warrant basis for that year. The expenditures on a warrant basis, therefore, do not accurately reflect the trend of governmental expenditures since they include unexpended balances remaining to the credit of disbursing officers at the end of the year but not expenditures from unexpended balances at the beginning of the year. It may be stated, however, that the differences between the expenditures on a warrant and check-issue basis are not so material in cases where the unexpended balances to the credit of disbursing officers remain more or less constant from year to year.

In the early history of the Government when payments to public creditors were made by direct Treasury warrant, the warrants issued during a given fiscal year represented the actual expenditures of the Government. Subsequently, however, as the expenditures increased with the growth of governmental activities and it was found impractical to make all payments by direct warrants, advances or credits in round amounts were authorized to be established in favor of disbursing officers, so that, at the present time the major part of the general expenditures of the Government are made by means of disbursing officers' checks from funds advanced to them upon accountable warrants as stated above. The funds thus advanced are placed to the credit of disbursing officers practically as a bookkeeping expedient, and, to the extent that the unexpended balances of the funds so advanced vary between the beginning and close of the fiscal year, the warrant expenditures differ from the actual expenditures for that year.

Before the World War these balances averaged about $60,000,000. On account of the enormously increased expenditures of the war period, which gradually increased until they reached over $2,000,000,000 a month, the balances of disbursing officers averaged over $2,000,000,000 for a long period of time. With the decrease in expenditures, these balances have gradually decreased until at present the active balances are about $300,000,000 and will probably remain near that figure for some time.

In order to correct the situation described above and exhibit the expenditures on the best practicable basis, the several departments and establishments have cooperated with the Treasury in furnishing the unexpended balances to the credit of disbursing officers under their respective jurisdictions at the beginning and end of the fiscal year 1927, classified by appropriations. These figures, when used in conjunction with the warrants issued during this year, make it possible to include checks drawn during 1927 against unexpended balances of disbursing officers at the beginning of the fiscal year, and to exclude from expenditures all unexpended balances remaining in their hands or to their credit at the close of the year. NOTE.—On July 15, 1926, the unexpended balance to the credit of the checking account of the U. S. Sugar Equalization Board on the books of the Treasurer of the United States amounting to $11,370,621.39, was transferred to the warrant account, $5,000,000 of which was covered into the Treasury to the credit of the appropriation "National security and defense, U. S. Sugar Equalization Board, Inc." (p. 96), as a repayment of capital stock originally advanced therefrom; the remainder, $6,370,621.39, was covered into the Treasury as "Miscellaneous receipts—final dividends of U. S. Sugar Equalization Board." This transfer of funds from one account to another is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years. Accordingly, the items have not been included in the receipts or expenditures of this report inasmuch as they did not affect the cash in the Treasury during the current fiscal year.

NOTE.—On July 15, 1926, the unexpended balance to the credit of the checking account of the U. S. Sugar Equalization Board on the books of the Treasurer of the United States, amounting to $11,370,621.39, was transferred to the warrant account, $5,000,000 of which was covered into the Treasury to the credit of this appropriation as a repayment of capital stock originally advanced therefrom; the remainder, $6,370,621.39, was covered into the Treasury as "Miscellaneous receipts—final dividends of U. S. Sugar Equalization Board." This transfer of funds from one account to another is merely an adjustment between accounts in this fiscal year of cash transactions occurring in prior fiscal years. Accordingly, the items have not been included in the receipts or expenditures, as they did not affect the cash in the Treasury during the current fiscal year.
