# **Making Healthy Food Choices**

#### **Focus on fruits**

- Eat a variety of fruit everyday.
- Fruit can be fresh, frozen, canned, or dried.
- Too much fruit juice can add lots of unnecessary sugar to your diet. Limit fruit juice to one serving per day.

• One serving of fruit equals 1 medium piece of fruit, ½ cup cut fruit, ¼ cup dried fruit, or ¾ cup 100% juice.

## Vary your veggies

- Eat more dark green veggies, such as broccoli and kale.
- Eat more orange veggies, such as carrots, sweet potatoes, pumpkin, and winter squash.
- Eat more beans and peas, such as pinto beans, kidney beans, black beans, garbanzo beans, split peas, and lentils.
- One serving of veggies equals 1 cup raw leafy greens; ½ cup chopped, cooked or raw vegetables; or ½ cup 100% vegetable juice.

### Get calcium-rich foods

- Every day, get 3 cups of lowfat or fat-free milk or an equivalent amount of low-fat yogurt
   (1 cup yogurt) and/or low-fat cheese
   (1½ ounces of cheese equals 1 cup of milk).
- If you don't or can't drink milk, choose lactose-free milk products and/or calcium-fortified foods and beverages.

## Make at least half your grains "whole grains"

- Eat at least 3 ounces of whole grains everyday.
- One ounce is 1 slice of bread, 1 cup of breakfast cereal, or ½ cup of cooked rice or pasta.
- Look to see that grains such as wheat, rice, oats, or corn are referred to as "whole" in the list of ingredients.

## Go lean with protein

- Choose lean meats and poultry.
- Bake, broil or grill meat, poultry and fish.
- Vary your protein choices with fish, beans, peas, nuts, and seeds.
- One serving of meat, poultry or seafood is 2-3 ounces, about the size of a deck of cards.
  For beans or peas, ½ cup is a serving, and for nuts and seeds, ¼ cup is a serving.

## Know the limits on fats, salt, sugars, and alcohol

- Read the Nutrition Facts label on foods.
- Look for foods low in saturated fats and trans fats.
- Choose and prepare foods and beverages with little salt (sodium) and/or added sugars (caloric sweeteners like sucrose or high fructose cornsyrup).

- Limit alcohol. It just adds empty calories.
- All foods can be enjoyed in moderation once you know the limits.
