### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended December 24:

Steamship *K. R. Kingsbury*, dock and undock (without discharging cargo); remove base from broken propeller blade and install new propeller blade; cement hub; scows *No. 131*, dock and undock; stage and clean; scale bottom up to 6-foot draft line; paint bottom 2 coats of anticorrosive and 1 coat of antifouling; redrive or weld all loose rivets under water line; stop all leaks; test all tanks; remove and rake fenders; straighten coaming; remove 5 strongback supports and replace with new style; repair sheave housing; *No. 141*, dock and undock; stage and clean; scale bottom up to 6-foot draft line; paint bottom 2 coats of anticorrosive and 1 coat of antifouling; redrive all loose rivets under water line; stop all leaks, test all tanks and overhaul winding gear; grader *No. 3*, dock and undock; stage and clean; scale bottom up to 7-foot draft line; redrive all loose rivets in hull below water line; stop all leaks, and test all tanks; scow *No. 139*, in addition to work previously reported on scow *No. 139*, the following work is being performed: Dock and undock; stage and clean; scale bottom up to 6-foot draft line; paint 2 coats of anticorrosive and 1 coat of antifouling; remove 3 modified strongbacks; remove and straighten 6 channel irons; renew 6 angles and renew 8 cover plates over wood and install new style plate brackets with double channel iron in place of old type cast brackets; bush 8 sheaves and install bushing on deck; repair wood fillers on 3 strongbacks; remove and replace hopper sheathing and install approximately 50 new pieces in way of repairs; renew rubbing pieces on strongback supports.

#### PREVIOUSLY REPORTED.

Barge *No. 102*, dock and undock; scale and paint; *No. 121*, dock and undock; scale and paint; dredge *No. 86*, dock and undock; scale and paint; minor hull repairs; motorship *Chiralite*, heavy operation and miscellaneous repairs; steamship *Lady Sybil*, heavy operation and miscellaneous hull repairs; launch *No. 405*, installation of new engine bed and light repairs.

The following vessels were at the Cristobal shops for repairs during the week ended December 26:

Steamships *Quibdo*, dock and undock; clean and paint bottom; renew stern bushing; change propeller; repair shoe; install liner on tail shaft, etc.; *Cape May*, make 6 slice bars; repair telemotor system; braze main feed pump float; examine ice machine, etc.; *Balboa*, repair galley stove; make studs and scale boilers; *Jamaica*, install sheaves and brackets at brest of poop for steering chains; *Advance*, *St. Joseph*, *Cristobal*, and *Haiti*, minor repairs.

#### PREVIOUSLY REPORTED.

U. S. N. barge *No. 479*, scrape and paint bottom; test tanks; renew rivets where necessary; scrape and red lead tanks, decks, stanchions, etc.; steamship *Allianca*, repair piping; tug *Engineer*, scale boilers; remetal H. P. crank brass; fit brasses to L. P. link block, etc.; D. B. launch *L-53*, repair bulwarks, rudder head, shoe, lower fender, etc.; install copper patches on hull; overhaul reverse gear; true up pistons; manufacture new ring; overhaul magneto; overhaul air and bilge pump; test and repair tank, etc.

### Official Circulars.

#### Medical Storehouse Transferred.

THE PANAMA CANAL,  
EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., December 20, 1921.  
CIRCULAR NO. 660-58.

Effective January 1, 1922, the Medical Storehouse at Ancon, including the personnel and all stock on hand, will be transferred from the Health Department to the Supply Department and will be consolidated with the General Storehouse at Balboa.

JAY J. MORROW,  
Governor.

### Typewriters for Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, S. D., Administration Building, Balboa Heights.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution to shipping of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV.

Balboa Heights, C. Z., January 4, 1922.

No. 21.

## Traffic in Calendar Year 1921.

The number of commercial ships which passed through the Panama Canal in the calendar year 1921 was 2,783, an average of 232 a month or 7.6 per day. In the year 1920 the number was 2,814, averaging 234.5 a month. The decrease was 31 ships for the year.

In net tonnage and tolls, however, the year 1921 exceeded 1920. Net tonnage amounted to 11,435,811 tons, Panama Canal measurement, as compared with 10,378,265 tons in the previous year. Tolls aggregated \$10,325,718.02 in 1921, compared with \$10,295,362.21 in 1920.

The cargo carried through the Canal in 1921 amounted to approximately 10,708,338 tons of 2,240 pounds. This figure is 527,771 tons less than the 11,236,119 tons that made the transit in 1920.

The decrease in the number of ships was 1.1 per cent. That in cargo was 4.7 per cent. The increase in net tonnage was slightly over one-half of 1 per cent, and that in tolls about three-tenths of 1 per cent.

## Information Concerning the Canal.

Information concerning the Canal, the procedures in sending vessels through it, fuel, supply and repair facilities, charges, etc., is presented in publications of The Panama Canal which will be furnished promptly on request to The Panama Canal, Balboa Heights, Canal Zone, or Washington, D. C. The principal publications are on file in all American consular offices, from which all essential information may be secured by those who may find this more convenient than correspondence with The Panama Canal direct.

THE PANAMA CANAL RECORD is furnished without charge to steamship interests and consular officers, foreign as well as American. Any who are not now receiving it are invited to request it.

## Tonnage Certificates.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., December 29, 1921.

CIRCULAR No. 673-1.

1. Effective February 1, 1922, a charge of \$50 will be made for original measurement of vessels which appear at the Canal without having been previously measured and without the necessary papers to show such measurement.

2. Delays and inconvenience incident to the measurement of vessels at the Canal may be avoided by vessels providing themselves with the proper certificate before their arrival in Canal waters, as outlined in the pamphlet entitled "Rules and Regulations for the Operation and Navigation of the Panama Canal; Sailing Directions; General Information."

JAY J. MORROW,  
Governor.

Respectfully,

JAY J. MORROW,

Governor.

**Postal and Cable Addresses of The Panama Canal.**

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

**Notice to Mariners.—Savanilla Harbor.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., December 29, 1921.

To all concerned—The Colombian Government notifies this office as follows, under date of December 12, 1921:

"The bell buoy, exhibiting a fixed white light, at the head of the railroad wharf at Savanilla Harbor, has been replaced by a red gas buoy exhibiting an intermittent red light."

JAY J. MORROW,  
Governor.

**Northwestern Apples.**

The steamship *Nebraska* of the Royal Mail Steam Packet Company passed through the Canal on January 2 with a cargo that included 140,000 boxes of apples under refrigeration, loaded at Victoria, Seattle, and Portland for Great Britain and the Continent.

**Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Cristobal for Two Weeks Ending December 31, 1921.**

| Name of vessel.          | Line or charterer.                  | Arrived.      | Departed.     | Cargo—     |        |

**Ships at Canal Repair Shops.**

The following is a report of the vessels and marine equipment at the Balboa shops for repairs during the week ended December 31:

Steamship *Cape May*, examine old telemotor and install new telemotor gear; U. S. S. *Neches*, weld water leg in No. 4 port boiler and calk seams on tube shaft.

PREVIOUSLY REPORTED.

Scows *No. 131*, dock and undock; scale and paint bottom; heavy repairs; *No. 141*, dock and undock; scale and paint bottom; slight repairs; grader *No. 3*, dock and undock; scale and paint bottom; slight repairs; scow *No. 139*, dock and undock; scale and paint bottom; heavy repairs; launch *No. 405*, installation of new engine bed and light repairs; motor ship *Chiralite*, heavy operation and miscellaneous repairs.

The following vessels were at the Cristobal shops for repairs during the week ended January 2:

Steamship *Salvador*, repair feed pump, ice machine, and circulating pump; overhaul windlass brakes; renew deck plates over galley and stokehold; rivet port side and forepart of saloon deck house; draw tail shaft for examination; repack stern gland; lift rudder and rebush gudgeons; repair tank tops; repair boiler, etc.; U. S. S. *Sciota*, repair anchor windlass; steamship *General G. W. Goethals*, calk main deck; braze 2 boiler feed pipes; barges *Nos. 105 and 109*, clean, scale, and paint; test all tanks; stop all leaks, etc.; steamships *Achilles*, manufacture new shaft for jacking gear; make 2 rods for steering engine; remetal and bore crank brasses for main engine, etc.; *San Juan*, remove L. P. go-ahead eccentric sheave; renew and fit new key in shaft and sheave; true up sheave and refit to shaft; repair after windlass and main circulator, etc.; *Manavi*, dock and undock; clean and paint; repair 2 derricks as directed, etc.; *Oriana*, *Santa Marta*, *Mantaro*, *Barima*, motor ship *Kennecott*, tug *Porto Bello*, and U. S. steamer *Nones*, minor repairs.

PREVIOUSLY REPORTED.

U. S. D. B. launch *L-53*, repair bulwarks, rudder head, shoe, lower fender, etc.; install copper patches on hull; overhaul reverse gear; true up pistons; overhaul magneto; overhaul air and bilge pump; test and repair tank, etc.; steamships *Balboa*, repair galley stove; scale boilers, etc.; *Jamaica*, install brackets and sheaves for steering chains.

**A Small Landslide Erroneously Reported.**

On November 15, 1921, persons resident near the village of Pacora, Republic of Panama, about 30 miles from the Pacific end of the Canal, reported a disturbance of the earth, and some reports were circulated that a volcano had appeared. The Governor of The Panama Canal despatched the Chief Hydrographer and the Chief of the Section of Surveys to investigate. They found that the disturbance was a land-

slide on the side of a steep mountain, involving the movement of not over 2,000 cubic yards of material and apparently a purely local and surface movement.

It was considered at the time that the incident was not worth mentioning in THE PANAMA CANAL RECORD. Erroneous newspaper stories were, however, published; and for the purpose of correction this note has been inserted.

### Lithographic Prints of Canal and Panama Scenes.

To meet a demand at popular prices for reproductions of some of the views along the Canal and in Panama, The Panama Canal has had lithographic prints made from 10 official photographs which were colored by hand. The lithographs are in 10 colors and approximately 8 by 10 inches in size, and are mounted on mats about 12 inches wide by 13 inches long, of several styles. They are being sold for 55 cents, or \$5 for the set of 10. The prints may also be purchased unmounted, at 40 cents each or \$3.50 for the set. On the Isthmus they are being sold by the Bureau of Clubs and Playgrounds, and in the United States by The Panama Canal, Washington, D. C. Orders will be accepted by mail and delivered, postage prepaid, on payment of prices as above.

The views are of Gatun, Pedro Miguel and Miraflores locks, with vessels in passage; two of parts of Gaillard Cut; the town and inner harbor at Balboa; a battleship in Gatun Lake; the Cathedral and Plaza, Panama; the tower of the Cathedral in Old Panama; and the bay and village of Taboga.

### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective January 1, 1922:

| Commodities.                                                      | Unit.          | Price.. |
|-------------------------------------------------------------------|----------------|---------|
| Brass, bar, average.....                                          | Lb.            | \$0.29  |
| Brass, sheet, average.....                                        | Lb.            | .40     |
| Bronze, Tobin, average.....                                       | Lb.            | .31     |
| Gasoline, motor grade.....                                        | Gal.           | .40     |
| Metal, yellow.....                                                | Lb.            | .34     |
| Oakum, Navy, spun.....                                            | Lb.            | .175    |
| Oakum, Navy, unspun.....                                          | Lb.            | .175    |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Pbl of 42 gals | 3.50    |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70    |
| Oil, ammonia, cylinder.....                                       | Gal.           | .51     |
| Oil, burning.....                                                 | Gal.           | 1.25    |
| Oil, engine, gas, light, in barrels.....                          | Gal.           | .49     |
| Oil, engine, gas, heavy, in drums.....                            | Gal.           | .675    |
| Oil, engine, gas, heavy, in barrels.....                          | Gal.           | .65     |
| Oil, engine, gas, extra heavy, in cases.....                      | Gal.           | 1.125   |
| Oil, engine, gas, extra heavy, in barrels.....                    | Gal.           | 1.04    |
| Oil, engine, gas, extra heavy, in drums.....                      | Gal.           | .35     |
| Oil, engine, gas, extra heavy, for motor schooners, in drums..... | Gal.           | .55     |
| Oil, kerosene, in drums.....                                      | Gal.           | .20     |
| Oil, kerosene.....                                                | Gal.           | 1.04    |
| Oil, marine engine.....                                           | Gal.           | .99     |
| Paint, lead, white, dry.....                                      | Lb.            | .14     |
| Paint, lead, white, in oil.....                                   | Lb.            | .16     |
| Paint, zinc, white, dry.....                                      | Lb.            | .20     |
| Paint, zinc, white, in oil.....                                   | Lb.            | .20     |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09     |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11     |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .10     |
| Soda, ash.....                                                    | Lb.            | .04     |
| Waste, cotton, colored.....                                       | Lb.            | .175    |
| Waste, cotton, white.....                                         | Lb.            | .20     |

**General Manager, Commissary Division.**

BALBOA HEIGHTS, C. Z., December 23, 1921.

R. K. MORRIS,  
*Chief Quartermaster.*

### Electrical Maintenance and Lamp Renewals.

THE PANAMA CANAL.

DEPT. OF OPERATION AND MAINTENANCE,  
BALBOA HEIGHTS, C. Z., December 27, 1921.

HEADS OF DEPARTMENTS AND DIVISIONS:

Effective January 1, 1922, a new rate schedule for electric current will be put into effect. This new rate schedule includes no lamp renewals or maintenance of house lighting systems. All work orders and accounts covering this class of work will therefore be abolished on that date.

Departments and divisions of The Panama Canal, other departments of the Government, as well as outside interests, will be expected to furnish their own lamp renewals and provide for the maintenance of the lighting systems within buildings which are their respective property.

Hereafter this class of work has been performed by the Electrical Division and the cost of same applied monthly toward determining the cost of electric current, and the rate at which current consumption was billed. If it is desired to have the Electrical Division continue to perform this class of work, a blanket work request covering same should be placed on the Electrical Division prior to January 1, 1922.

W. L. HERSH,  
*Electrical Engineer.*

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Typewriters for Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, S. D., Administration Building, Balboa Heights.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution to shipping of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., January 11, 1922. No. 22.

## Supplement No. 8 to Tariff No. 5.—Tolls.—Pilotage.—Electric Current.— Measurement of Vessels.

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., December 30, 1921.

### ITEM 2.—TOLLS.

(Effective November 17, 1921, by Executive Order.)

7. Vessels transiting the Panama Canal from Cristobal to Balboa and return for the sole purpose of having repairs made at the Balboa dry dock and shops will be exempt from payment of tolls.

### ITEM 3.—PILOTAGE.

(Effective November 17, 1921, by Executive Order.)

4. There is no charge for transit pilotage, except for vessels transiting the Canal from Cristobal to Balboa and return for the sole purpose of having repairs made at the Balboa dry dock and shops, in which case a charge for pilotage will be made upon the maximum draft in salt water; rate per foot, or fraction thereof, provided such fraction equals or exceeds 6 inches..... each way.. \$5.00

### ITEM 41.—ELECTRIC CURRENT.

(Effective January 1, 1922.)

1. For metered current consumed by individuals (nonemployees) and companies in the Canal Zone and by employees of The Panama Canal and Panama Railroad Company for commercial use:

|                     |             |        |
|---------------------|-------------|--------|
| First 100 KWH.....  | per KWH..   | \$0.08 |
| Next 200 KWH.....   | per KWH..   | .06    |
| Over 300 KWH.....   | per KWH..   | .04    |
| Minimum charge..... | per month.. | 1.00   |

2. For unmetered current consumed by any interest or activity a rate of one-half cent (\$0.005) per month for each watt of attached load, with a minimum charge of \$1 per month.
3. All services involving attached loads in excess of 1,000 watts shall be metered.
4. All services of any size in which the Electrical Engineer may determine that conditions are such that this flat rate method of charges is not reasonably applicable shall be metered.
5. Above rates do not include lamp renewals or repairs to appliances.

### ITEM 42.—MEASUREMENT OF VESSELS.

(Effective February 1, 1922.)

- For making an original measurement of a vessel to determine its Panama Canal tonnage and issuing a certificate thereof.....\$50.00

JAY J. MORROW,

Governor, The Panama Canal.

President, Panama Railroad Company.

## Notice to Mariners.—Obstructions to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., January 5, 1922.

The master of the steamship *Argosy* has advised by radio that he passed at 1.55 p. m., January 4, at Lat. 9° 46' N. and Long. 79° 52' W., a wreck, showing a stump of a mast about 5 feet above water.

The U. S. S. *Galveston* reports: Warning—Shoals discovered and surveyed, Corinto Harbor, Corinto, Nicaragua. Center of 16-foot shoal, 75 yards in diameter. Carden headlight, bearing 286° true, distance 660 yards.

JAY J. MORROW,

Governor.

### Reductions in Freight Rates.

The Panama Railroad Steamship Line has made the following changes in rates from New York to Cristobal or Colon, under Circular No. 756-160:

Bran, 50 cents per 100 pounds, formerly 64 cents; cement, building, 20 cents per 100 pounds, formerly 32 cents.

Changes in the rates from New York to Panama City have been made, under Circular No. 756-159, as follows:

Sulphur, 29 cents per cubic foot or 58 cents per 100 pounds, formerly 93 cents per cubic foot or \$1.86 per 100 pounds; cement, building, 35 cents per 100 pounds, formerly 48 cents.

In addition to the rates quoted above, the Isthmus transfer charge of \$1 per ton of 40 cubic feet or 2,000 pounds, will be assessed on all shipments except building cement.

### Hamburg-American Line Service to Central America.

The Hamburg-American Line is beginning a service through the Canal, to the west coast of Central America. The steamer *Antiochia*, of 3,100 gross tons, is due to arrive at Cristobal on January 13, from Hamburg via Bremen, Curacao, La Guaira, Puerto Cabello, Puerto Colombia, and Cartagena. After handling cargo at the Canal ports she will proceed up the west coast as far as Champerico, Mexico, calling at one port of each of the Central American countries on the way, and returning to Balboa within about a fortnight of her passage through the Canal.

No advice has been received as to the probable frequency of the service.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended January 7:

Tug *Mariner*, dock and undock; stage and clean; scale bottom and paint bottom up to 6-foot draft line; conversion of tug from coal burner to oil burner, with the necessary alterations to bulkheads, installation of tanks, boiler fronts, fuel oil heaters, pipe and burners; steamship *Lompoc*, scale and clean all boilers for inspection; general repairs to circulating pump engine and miscellaneous repairs in engineer's department; lower boot-topping line; paint hull below boot-topping line to draft line 1 coat of antifouling; scows *No. 226*; dock and undock; stage and clean; scale bottom and paint bottom up to 6-foot draft line; 2 coats of anticorrosive and 1 coat of antifouling; redrive or weld all loose rivets and weld leaky seams below water line; *No. 140*; dock and undock; stage and clean; scale bottom and paint bottom up to 6-foot draft line; 2 coats of anticorrosive and 1 coat of antifouling; test all tanks; redrive loose rivets; weld leaking seams below water line; renew 2 bits.

The following vessels were at the Cristobal shops for repairs during the week ended January 9:

Steamships *Gen. W. C. Gorgas*, braze whistle pipe; repair shroud turnbuckles; install ladder in hold; renew covering on deck winch steam lines, etc.; *Caribbean*, change worm gear on steering engine; manufacture 12 clips for cattle pens; repair springs for dynamo, etc.; barges *No. 118* and *119*, scrape, scale, and paint bottom; test all tanks; stop all leaks; renew rivets where necessary; U. S. S. *O-15*, renew foundation plate for motor room hatch and install hatch; motor ship *Laura C. Hall*, rebabbitt bearings; repair exhaust pipe, etc.; U. S. oil barge *No. 11*, overhaul pumping engine; clean and paint bottom; renew hatch gasket; calk rivets; grind in suction and discharge valves; repair fender, etc.; steamships *Teviot*, make new bull ring and 8 snap rings; rebore H. P. cylinder, etc.; *Quillota*, overhaul coaling gear; repair M. P. crank pin oil pipe, etc.; *Gen. O. H. Ernst*, *Panama*, *Acajulla*, *Sarpfos*, and U. S. steamer *Nones*, minor repairs.

**Hours of Departure of Passenger Trains.**

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

**Trips Through the Canal.**

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

**Publication of Notices and Circulars of Interest to Shipping.**

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

**Empty Barrels For Sale.**

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

**Typewriters For Sale.**

The Supply Department has on sale a number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be had by applying to Storekeeper, S. D., Administration Building, Balboa Heights.

**Sale of Lumber.**

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

**Current Net Prices on Coal, Fuel Oil, and Diesel Oil.**

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

**Cable Address of The Panama Canal.**

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

**Postal Addresses of The Panama Canal.**

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

**MOVEMENTS OF OCEAN VESSELS—Continued from page 293.**

PORT OF CRISTOBAL—continued.

## Schedule for Dispatching Ships Through the Canal.

Reference was made in THE PANAMA CANAL RECORD of November 9 to the system of dispatching ships through the Canal on schedule, and to the results obtained under the system up to that time. Subsequent experience has confirmed the effectiveness of the schedule in achieving accurate, safe, and economical handling with slight delays to shipping.

In order that operators and masters may have every opportunity to understand the situation thoroughly, the ship time schedule as now in effect is published below, together with explanatory notes giving the essential rules governing the dispatching of vessels.

Attention is especially invited to the hours by which vessels must arrive at the entrance of the Canal in order to be put through on the day of arrival. These are:

Cristobal inner harbor (Atlantic), 1.30 p. m.

Balboa inner harbor (Pacific), 1.45 p. m. From the anchorage at Balboa to the inner harbor is about 40 to 45 minutes, so that ships should reach the anchorage by 1 p. m. On slack days, when traffic is light it is possible to dispatch ships from Balboa as late as 3 p. m.

It should be noted that the limiting hour at Cristobal is the same as it was prior to the establishment of the schedule. At Balboa the former hour was 3 p. m.; the present limit of 1.45 p. m. is 1 hour and 15 minutes earlier.

The factor which governs the limiting hours is the need of handling the vessels through Gaillard Cut before the end of daylight hours.

The schedule and essential rules are as follows:

### SHIP TIME SCHEDULE, THE PANAMA CANAL.

## NOTES.

<sup>1</sup> N 5, N 6, N 7, N 8, N 9, N 10, released from schedule at Gamboa.

<sup>2</sup> S 5, S 6, S 7, S 8, S 9, S 10, released from schedule at Pedro Miguel.

<sup>3</sup> Under certain conditions S 4, S 5, S 6, S 7, S 8, S 9, and S 10 may be released from schedule at Gatun.

<sup>4</sup> Ship N 1 will be required to tie up about 30 minutes on arrival at Pedro Miguel, because the locomotive crew will not go on duty until 9 a. m.

<sup>5</sup> Ships N 2, N 6, and N 8 may have to tie up at Pedro Miguel not to exceed 15 minutes, if traffic is heavy.

<sup>6</sup> Ships S 7 and S 8 may have to tie up a short time after passing Pedro Miguel, or on arrival at Miraflores, if traffic is heavy.

<sup>7</sup> When traffic permits, and on Sundays, N 3, N 6, S 3 and S 5 will not be dispatched.

<sup>8</sup> N 1 will be dispatched only when a ship is available in the basin or at the docks in Balboa.

<sup>9</sup> On Sundays and holidays N 3 and N 6 may be dispatched only in case such dispatching will not require the use of more than 10 locomotives simultaneously at Pedro Miguel and Miraflores.

On Sundays and holidays S 3 and S 5 may be dispatched only in case they are 4-car ships.

<sup>10</sup> The following will govern with respect to releasing ships S 6, S 7, S 8, and S 10, at Gatun:

(a) If S 9 is released at Gatun or is not dispatched for the day, S 6 will be released at Gatun with orders to run on S 9 schedule.

(b) If S 6 is released at Gatun or is not dispatched for the day, S 10 will be released at Gatun with orders to run on S 6 schedule, and so on.

(c) The general principle will be followed that if any one of these four ships is omitted for the day, or is released at Gatun, each of the ships which follows on the schedule will be released at Gatun and given a vacant schedule number as far advanced as possible, so as to insure that they arrive at Pedro Miguel in succession at proper intervals and on one of the schedule times shown on the schedule. This is done to avoid having the ships "bunched" at Pedro Miguel, because only one of these ships can be handled there at a time and those arriving ahead of a schedule time must tie up.

"Ship N 11 will *not* be dispatched "tandem" or "double." It will not be dispatched at all if either S 3 or S 5 has been dispatched, nor if both S 6 and S 9 have been dispatched.

If at any time of the day it appears that there will be, within the time limit of the day, more vessels ready to transit the Canal than there are remaining vacant places on the schedule, the remaining ships may be sent "double" or "tandem," on as many of the schedule numbers as necessary to accommodate the excess. The ships will then be handled at the locks in the most practicable manner in order of arrival. The object of this rule is to avoid holding over night ships which are ready to begin transit within the time limit.

## Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended January 13:

Motor ship *James Timpson*, repair dynamo engine; test tail shaft for alignment; barges *Nos. 140*, dock and undock; stage, clean, and scale bottom; paint bottom 2 coats of anticorrosive and 1 coat of antifouling; test tanks; calk all leaky rivets and all seams; *No. 226*, dock and undock; stage, clean, and scale bottom; paint bottom 2 coats of anticorrosive and 1 coat of antifouling; test tanks; calk all leaky rivets and all seams.

## PREVIOUSLY REPORTED.

Tug *Mariner*, dock and undock; stage and clean; scale and paint bottom; convert from coal burner to oil burner, as per specifications; scows *No. 131*, dock and undock; scale and paint bottom; heavy repairs; *No. 139*, dock and undock; scale and paint bottom; heavy repairs; launch *No. 405*, installation of new engine bed and light repairs.

The following vessels were at the Cristobal shops for repairs during the week ended January 16:

Steamships *Gen. H. F. Hodges*, calk deck; fit floor plates and renew angles in fire-room; manufacture new piston rings for ballast pump; clean and cement wash 2 fresh water tanks; repair windlass exhaust line, etc.; *Essequibo*, repair 1 piece of copper pipe; renew and install 5 pieces of hydraulic pipe, etc.; *Lake Elmont*, dry-dock for inspection; *Cristobal*, weld cylinder of blower engine; clean boilers; paint shell of ship; make forgings for neck valves, etc.; *Colon*, repair ice water line, steam heater pipe, and leak in forepeak tank; renew 2 nipples and re-cover part of ice water line on main deck, etc.; *Cartago*, repair steering gear; *Urubamba*, *Caribbean*, *West Katan*, *Crijnsen*, and *Bologna*, minor repairs.

## PREVIOUSLY REPORTED.

Steamships *Teviot*, bore H. P. cylinder and test piston and rod; make new bull ring and snap rings; replace rivets in afterpeak tank; *Salvador*, general overhaul, dry-docking, and painting of hull; U. S. S. *O-15*, renew foundation plate for motor room hatch and install hatch; U. S. S. *Sciota*, overhaul anchor windlass; calk deck at windlass; make 2 ball races.

### Official Circulars.

#### Acting Governor.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., January 16, 1922.

To all concerned—Effective January 17, 1922, and during my absence from the Isthmus, Col. M. L. Walker, U. S. A., Engineer of Maintenance, will be Acting Governor.

JAY J. MORROW,  
Governor.

#### Duties of President, Panama Railroad Company.

PANAMA RAILROAD COMPANY,  
OFFICE OF THE PRESIDENT,

BALBOA HEIGHTS, C. Z., January 16, 1922.

To all concerned—Effective January 17, 1922, and during my absence from the Isthmus, Col. M. L. Walker, U. S. A., 2d Vice President, will perform such duties of the President as relate to the operations of the company on the Isthmus.

JAY J. MORROW,  
President, Panama Railroad Company.

#### Acting Chief Quartermaster.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., January 12, 1922.

To all concerned—Effective January 16, 1922, and during the absence on leave of Mr. R. K. Morris, Mr. Roy R. Watson will act as Chief Quartermaster.

JAY J. MORROW,  
Governor.

#### Vehicle Traffic Regulations—One-way Streets.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., January 5, 1922.

CIRCULAR NO. 717-4:

1. The regulations covering traffic approach and exit to and from Pier 18, Balboa, are amended to read as follows:

"Dock 17 from Dock 16 to Pier 18 entrance. Pier 18 from Pier entrance to Balboa Road."

2. That portion of Cash Alley, Cristobal District, extending from the junction of "D" Street

and Broadway to 14th Street, is hereby made a one-way street for northbound traffic.

3. Section 4 of Circular No. 717-3, dated May 18, 1921, is amended accordingly.

JAY J. MORROW,  
Governor.

#### Invitation for Proposals to Furnish Native Logs to The Panama Canal.

Sealed bids will be received in the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., until 10.30 a. m. Wednesday, February 15, 1922, and then opened, for furnishing The Panama Canal 300,000 feet B. M., more or less, native logs, during a period of one year from date of contract, in accordance with form of agreement, copies of which may be had upon application to the office of the Chief Quartermaster.

Bids must be inclosed in sealed envelope, addressed to The Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., and marked "Proposal for furnishing native logs, to be opened February 15, 1922."

The Panama Canal reserves the right to reject any or all bids.

The successful bidder will be given the first option to purchase, if desired, the launch *Mecca*, and other logging equipment formerly used by The Panama Canal, at reasonable appraised prices. This launch was built for logging purposes and is particularly suitable for same. Launch may be inspected at Monte Lirio.

#### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

#### Sale of Lumber.

"The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

#### Typewriters For Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, S. D., Administration Building, Balboa Heights.

#### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

## Growth of the Lumber Trade.

The most conspicuous feature of the traffic history of the Panama Canal during the calendar year 1921 was the rapid expansion of the trade between Pacific North America, especially the western United States, and the Atlantic coast of North America and Europe. A number of new steamship lines began during the year to compete for this west coast business, and the volume of cargo handled has increased from month to month. Lumber has contributed no small share to the total.

In 1920 lumber shipments through the Canal from Pacific to Atlantic totaled 205,172 tons. In 1921 this total increased to 448,087 tons, a growth of 118 per cent. The United States furnished the bulk of these shipments, 387,993 tons, and western Canada 57,429 tons. There were small shipments of lumber from Central and South America, Australasia, and the Far East.

The countries of destination were: East coast of the United States, 346,249 tons; British Isles, 60,048 tons; other Europe, 11,895 tons; with lesser tonnage to the east coast of Canada, the West Indies, and the east coast of Mexico.

The shipments of lumber to the British Isles and Europe were heaviest during the first 6 months of the calendar year, and declined very noticeably thereafter. Shipments to the east coast of the United States, however, show a steady increase. These coast-to-coast shipments of lumber that was formerly handled by rail were stimulated by the increase of railroad freight rates.

The trade was handicapped at first by the lack of adequate terminals equipped to handle lumber on the Atlantic seaboard, but it is reported that this has been remedied.

---

## Water Route for Pacific Canned Fish.

*World Trade*, a San Francisco publication, refers in a recent issue to the increasing use of the water route for the shipment of Columbia River salmon. It says:

Salmon movements have been the shipping feature of the year on the Columbia, and have taken some of the most startling turns in all the marine developments of the Pacific coast. In June, 1920, the salmon industry was in a precarious condition. This continued until about March, 1921, when the shipment of salmon by water was commenced in earnest. The large number of regular, rapid, and direct steamship lines which the port of Astoria terminals had attracted provided excellent means for the dispatch of salmon to all parts of the world. Hitherto practically all of the salmon pack of the Columbia River had been shipped overland, but the storage facilities, handling equipment, and transportation lines at the Astoria terminals, coupled with their closeness to the sea, started a movement for the marine shipment of the salmon which acquired such momentum that the industry was saved from the disaster that threatened it. The quantities of canned salmon which had glutted the market have now been swept away. This movement, combined with a light pack in 1921, has removed the surplus, improved the price, and insured the steamship lines that salmon will continue to provide them with valuable cargoes.

### Rates of Tolls at Panama and Suez Canals.

Tolls for the passage of vessels through the Panama Canal are levied in accordance with the following:

|                                                                                                                                                                                                        |        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Merchant vessels carrying passengers or cargo, per net vessel ton (each 100 cubic feet) of actual earning capacity.....                                                                                | \$1.20 |
| Vessels in ballast without passengers or cargo, per net vessel ton (each 100 cubic feet) of actual earning capacity.....                                                                               | .72    |
| Tolls may not exceed the equivalent of \$1.25 per net registered ton as determined by United States rules of measurement, nor be less than the equivalent of \$0.75 per net registered ton.            |        |
| Naval vessels, other than transports, colliers, hospital ships, and supply ships, per displacement ton.....                                                                                            | .50    |
| Army and Navy transports, colliers, hospital ships, and supply ships, the vessel to be measured by the same rules as are employed in determining the net tonnage of merchant vessels, per net ton..... | 1.20   |

To afford a comparison with the rates at the Suez Canal, the American Consul at Port Said obtained the following information from the Suez Canal Administration and forwarded it under date of November 1:

The Suez Canal tolls are actually payable in Egyptian currency: L. E.<sup>1</sup> equals P. T.<sup>2</sup> 100 or \$4.9431 prewar value; <sup>3</sup> £1 equals P. T. 97½ and, as the English pound is the standard coin currency of Egypt, it does not affect the rates charged which are as follows:

Frs. 8 per ton for ships carrying cargo.

Frs. 5.50 per ton for ships in ballast.

#### Reduced

Fr. 1 equals to P. T.<sup>2</sup> 3.85757.

Frs. 5.50 equals to 21.21664.

Frs. 8 equals to 30.86056.

In taking P. T.<sup>2</sup> 25 as an average rate for the U. S. dollar the cost would be:

For ships in ballast, \$0.8487.

For ships carrying cargo, \$1.2344.

<sup>1</sup> Egyptian pound. <sup>2</sup> Piasters. <sup>3</sup> Pound sterling.

### Supplement No. 9 to Tariff No. 5.—Trip Through Gaillard Cut.

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., January 16, 1922.

#### ITEM 6.—LAUNCHES.

6. For steam yacht *Gold Star*—rate for individual tickets for trip through Gaillard Cut (minimum number of tickets required to be sold not less than 40. No refund to be made for unused tickets)..... \$2.00

JAY J. MORROW,

Governor, The Panama Canal.

President, Panama Railroad Company.

### Tourist Parties.

The first large tourist parties to visit the Isthmus during the current dry season arrived last week, one party on the *Calamares* of the United Fruit Company and the other, conducted by the American Express Company, on the Matson Line steamer *Buckeye State*. Smaller tours had arrived in December and early in January.

Twenty-two more tours have been definitely scheduled for the time up to the middle of April. They range from parties of a dozen up to 300 or 400 on a vessel. The tours are being managed by the United Fruit Company, the American Express Company, the Raymond Whitcomb Company, the Canadian Pacific Railway, and the White Star Line. Smaller parties are being sent by other travel companies.

The Matson Line and the Pacific Mail Steamship Company, operating passenger ships through the Canal in the United States coastwise trade, are featuring the interest of the route to travelers.

### The "Advance" to Enter Colombian Service.

The steamship *Advance* of the Panama Railroad Steamship Line will take the place of the *Caribbean* in the company's East Colombian service, calling at Puerto Colombia and Cartagena, beginning with the voyage from Cristobal on February 4. The *Advance* was retired from the New York service the early part of December, 1921, and laid up in Gatun Lake, pending the completion of shipment of cattle on the *Caribbean*, which is especially fitted for that service. Cattle shipments were completed with the last voyage of the *Caribbean*, and the *Advance* has been taken to Cristobal shops for conditioning in preparation for her new service. No cattle are to be carried on her for the present.

An inquiry was recently received from Ecuador as to the possibility of making a shipment of 500 head of cattle from that country to the Isthmus on the *Caribbean*, but no more cattle are to be purchased by the Supply Department from outside sources at this time.

### Added Facilities for Sightseeing at the Panama Canal.

As an adjunct to sightseeing at the Canal, the steam launch *Gold Star* is carrying passengers between Gatun and Pedro Miguel, passing through Gatun Lake and Gaillard Cut, at a rate of \$4 per passenger, provided not less than 20 tickets are sold for the trip. As many as 100 passengers can be taken at one time. The launch makes about 15 knots in open water, and the trip one way takes approximately 2½ hours. Passage from Cristobal and Colon to Gatun, and between Pedro Miguel and Balboa or Panama, is made either by the Panama Railroad or in public automobiles over concrete and asphalt roads.

For larger parties special trains may be hired on the Panama Railroad, for transit direct or in connection with launch trips.

The Panama Canal has issued a mimeographed summary, "Office Information for Tourist Companies and Passenger Agents," giving details of the accommodations for visitors to the Isthmus. Copies will be furnished on request.

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending January 21, 1922.

| Name of vessel. | Line or charterer.           | Arrived.   | Departed.  | Cargo—     |        |

### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

## Bunker Coal at San Diego and Los Angeles.

Bunker coal is offered at San Diego and Los Angeles at \$13.70 per gross ton of 2,240 pounds, f. o. b. vessel alongside dock; trimming extra at actual cost of labor and accident insurance, plus 10 per cent. These prices are quoted by the Spreckels Brothers Commercial Company, effective January 10, 1922, subject to change without notice.

## Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended January 21:

Motorship *James Timpson*, dock and undock; stage, clean and paint bottom; repair dynamo engine; test tail shaft for alignment; remove water end of circulating pump and install new end; install flanged union in discharge pipe; renew 1 section of 3-inch exhaust line back of boiler; relocate bottom blow line; manufacture

topping lift band; remetal all crank-shaft bearings and caps on port and starboard main engines; renew 8 wrist-pin bushings; true up wrist pins; remetal and machine crank-pin brasses; refasten boilers; renew portion of bottom casing on boiler fronts, turbine tubes; roll tube sheet caps; test boiler; repair damaged keel; steamship *Delft*, remove strainer, main injection; install hard patch on shell; repair sea valve and circulating pump; tug *Favorite*, discharge a portion of bunker coal; remove and replace lifeboat; barge *No. 134*, straighten coaming; redrive or renew bad order rivets above water line.

#### Deceased and Insane Employees.

The estates of the following deceased or insane employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

#### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective January 1, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.29 |
| Brass, sheet, average.....                                        | Lb.            | .40    |
| Bronze, Tobin, average.....                                       | Lb.            | .31    |
| Gasoline, motor grade.....                                        | Gal.           | .40    |
| Metal, yellow.....                                                | Lb.            | .34    |
| Oakum, Navy, spun.....                                            | Lb.            | .175   |
| Oakum, Navy, unspun.....                                          | Lb.            | .175   |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Pbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70   |
| Oil, ammonia, cylinder.....                                       | Gal.           | .51    |
| Oil, burning.....                                                 | Gal.           | 1.25   |
| Oil, engine, gas, light, in barrels.....                          | Gal.           | .49    |
| Oil, engine, gas, heavy, in drums.....                            | Gal.           | .675   |
| Oil, engine, gas, heavy, in barrels.....                          | Gal.           | .65    |
| Oil, engine, gas, extra heavy, in cases.....                      | Gal.           | 1.125  |
| Oil, engine, gas, extra heavy, in barrels.....                    | Gal.           | 1.04   |
| Oil, engine, gas, extra heavy, in drums.....                      | Gal.           | .35    |
| Oil, engine, gas, extra heavy, for motor schooners, in drums..... | Gal.           | .55    |
| Oil, kerosene, in drums.....                                      | Gal.           | .20    |
| Oil, marine engine.....                                           | Gal.           | 1.04   |
| Oil, marine engine.....                                           | Gal.           | .99    |
| Paint, lead, white, dry.....                                      | Lb.            | .14    |
| Paint, lead, white, in oil.....                                   | Lb.            | .16    |
| Paint, zinc, white, dry.....                                      | Lb.            | .20    |
| Paint, zinc, white, in oil.....                                   | Lb.            | .20    |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09    |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .10    |
| Soda, ash.....                                                    | Lb.            | .04    |
| Waste, cotton, colored.....                                       | Lb.            | .175   |
| Waste, cotton, white.....                                         | Lb.            | .20    |

### Invitation for Proposals to Furnish Native Logs to The Panama Canal.

Sealed bids will be received in the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., until 10.30 a. m. Wednesday, February 15, 1922, and then opened, for furnishing The Panama Canal 300,000 feet B. M., more or less, native logs, during a period of one year from date of contract, in accordance with form of agreement, copies of which may be had upon application to the office of the Chief Quartermaster.

Bids must be inclosed in sealed envelope, addressed to The Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., and marked "Proposal for furnishing native logs, to be opened February 15, 1922."

The Panama Canal reserves the right to reject any or all bids.

The successful bidder will be given the first option to purchase, if desired, the launch *Mecca*, and other logging equipment formerly used by The Panama Canal, at reasonable appraised prices. This launch was built for logging purposes and is particularly suitable for same. Launch may be inspected at Monte Lirio.

### Hours of Departure of Passenger Trains.

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Current Net Prices on Coal, Fuel Oil, and Diesel Oil.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude-fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., February 1, 1922. No. 25.

## CANAL WORK IN DECEMBER.

The following is the report of the Acting Governor to the Secretary of War, of Canal work in the month of December, 1921:

BALBOA HEIGHTS, C. Z., January 26, 1922.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of December, 1921.

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | December,<br>1921. | November,<br>1921. | December,<br>1920. |
|-------------------------------------------------|--------------------|--------------------|--------------------|
| Commercial vessels.....                         | 239                | 222                | 265                |
| Noncommercial vessels.....                      | 35                 | 13                 | 21                 |
| Launches, etc. (under 10 tons measurement)..... | 4                  | 4                  | 9                  |
| Total vessels and craft through Canal.....      | 278                | 239                | 295                |

In addition to the foregoing, Panama Canal equipment consisting of crane boats, dredges, pile drivers, barges, etc., was passed through locks as follows: Gatun, 26; Pedro Miguel, 59; Miraflores, 60.

### COMMERCIAL TRAFFIC.<sup>1</sup>

#### Tolls.

Under the present dual method of assessing tolls, the revenue from this source was \$1,003,598.27. Had the net tonnage as determined by the Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$183,043.25. This additional tolls would have been contributed by nationality of ships as follows:

|                     | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|---------------------|----------------------------|----------------------------|-------------|
| British.....        | \$39,298.90                | \$25,089.25                | \$64,388.15 |

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

The additional tolls paid by United States vessels would have been distributed among the following channels of trade:

|                                                  | Atlantic to Pacific. | Pacific to Atlantic. | Total.      |
|--------------------------------------------------|----------------------|----------------------|-------------|
| United States coastwise ports.....               | \$14,270.20          | \$21,434.85          | \$35,705.05 |
| United States and Canal Zone ports.....          | 561.46               | 566.30               | 1,127.76    |
| United States and United States possessions..... | 5,131.75             | 4,488.00             | 9,619.75    |
| United States and foreign ports.....             | 12,432.03            | 11,764.50            | 24,196.53   |
| Between foreign ports.....                       | 319.71               |                      | 319.71      |
| Totals.....                                      | 32,715.15            | 38,253.65            | 70,968.80   |

Of the above additional revenue that would have been collected by using the Panama Canal rules exclusively, \$4,182 represents the additional tolls that would have been collected on account of deck cargo.

#### COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Canal in December, 1921, with that of the preceding months, along the lines indicated at the head of the various tables:

#### TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | December, 1921. | November, 1921. | December, 1920. | Average month for past year. |
|-------------------------------------------|-----------------|-----------------|-----------------|------------------------------|
| United States equivalent net tonnage..... | \$27,340        | 753,697         | \$32,407        | 775,307                      |
| Panama Canal net tonnage.....             | 1,017,244       | 942,411         | 1,027,918       | 952,984                      |
| Registered gross tonnage.....             | 1,284,499       | 1,184,157       | 1,298,864       | 1,204,319                    |
| Registered net tonnage.....               | 820,431         | 752,886         | 823,758         | 768,793                      |
| Tolls.....                                | \$1,003,598.27  | \$923,048.70    | \$1,007,849.32  | \$938,424.90                 |
| Tons of cargo carried.....                | 953,053         | 855,440         | 1,076,539       | 892,250                      |

| Tons of cargo (all vessels).....          | 3,987              | 3,853              | 4,062              |
| Tons of cargo (laden vessels only).....   | 4,412              | 4,322              | 4,523              |

## COMMODITY STATISTICS.

A classification of cargo passing through the Canal during the month of December, 1921, has been compiled from declarations of cargo submitted by the ships' masters, and while incomplete, is indicative of the kind and quantity of the various commodities carried by ships transiting the Canal. From the cargo declarations and manifests submitted, it was possible to classify by commodities 75 per cent of all cargo passing from the Atlantic to the Pacific, and 88 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

| Commodity.                                       | December,<br>1921. | November,<br>1921. | October,<br>1921. | September,<br>1921. |
|--------------------------------------------------|--------------------|--------------------|-------------------|---------------------|

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate for such tolls per cargo ton varies in different ships as the ratio of cargo tonnage varies to the net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of December, 1921, by nationality of vessels:

|                                             | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|---------------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                                | \$1.13                     | \$0.99                     | \$1.07              |
| Chilean.....                                | 2.39                       | 1.65                       | 1.81                |
| Danish.....                                 | .83                        | .65                        | .74                 |
| Dutch.....                                  | 1.11                       | .62                        | .79                 |
| French.....                                 | 2.78                       | 1.13                       | 1.64                |
| German.....                                 | 1.60                       | .95                        | 1.25                |
| Japanese.....                               | .93                        | .73                        | .88                 |
| Norwegian.....                              | .85                        | 1.06                       | .80                 |
| Panamanian.....                             |                            | .44                        | .44                 |
| Peruvian.....                               | 4.49                       | .81                        | 1.38                |
| Spanish.....                                |                            | .63                        | .63                 |
| Swedish.....                                | .85                        | .65                        | .83                 |
| United States.....                          | 1.18                       | 1.08                       | 1.11                |
| Average rate all ships, December, 1921..... | 1.10                       | .99                        | 1.05                |
| Average rate all ships, November, 1921..... | 1.19                       | .81                        | .98                 |
| Average rate all ships, October, 1921.....  | 1.09                       | .78                        | .90                 |

## ORIGIN AND DESTINATION OF TONNAGE.

The following statements show, by months, the origin and destination of all tonnage through the Canal during the past 12 months, the figures representing the Panama Canal net tonnage:

## ORIGIN OF ALL TONNAGE—ATLANTIC TO PACIFIC.

| Month.              | East coast<br>of United<br>States. | Europe. | Mexico. | Cristobal. | Miscel-<br>laneous. | Total.  |
|---------------------|------------------------------------|---------|---------|------------|---------------------|---------|

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of December, 1921, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of January 11, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of December, 1921, for the preceding month and for the corresponding month of last year:

| Vessels plying between—              | Atlantic to Pacific.      |                    |                    | Pacific to Atlantic.      |                    |                    |
|--------------------------------------|---------------------------|--------------------|--------------------|---------------------------|--------------------|--------------------|

\* Displacement tonnage of 4,616 tons.

#### CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Canal free of tolls. If tolls had been assessed against these vessels at commercial rates, the amount paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal; these are not included in the commercial traffic:

|                              | Atlantic to Pacific. |                           |          | Pacific to Atlantic. |                           |           |
|------------------------------|----------------------|---------------------------|----------|----------------------|---------------------------|-----------|

## LOCK OPERATION.

The following tabulations give the number of lockages, vessels through the locks, and the consumption of water, for lockages for the month of December, 1921, as compared with that of the preceding month and of the corresponding month of last year:

## NUMBER OF LOCKAGES.

|                                     | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|-------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                     | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                          | 99          | 126    | 225    | 15             | 8      | 23     | 248          |
| Pedro Miguel.....                   | 102         | 130    | 232    | 19             | 18     | 37     | 269          |
| Miraflores.....                     | 102         | 122    | 224    | 17             | 15     | 32     | 256          |
| Total lockages, December, 1921..... | 303         | 378    | 681    | 51             | 41     | 92     | 773          |
| Total lockages, November, 1921..... | 291         | 365    | 656    | 44             | 37     | 81     | 737          |
| Total lockages, December, 1920..... | 336         | 413    | 749    |                |        | 39     | 788          |

## NUMBER OF VESSELS PUT THROUGH THE LOCKS.

|                                    | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                    | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                         | 105         | 140    | 245    | 36             | 25     | 61     | 306          |
| Pedro Miguel.....                  | 106         | 135    | 241    | 52             | 42     | 94     | 335          |
| Miraflores.....                    | 107         | 135    | 242    | 52             | 44     | 96     | 338          |
| Total vessels, December, 1921..... | 318         | 410    | 728    | 140            | 111    | 251    | 979          |
| Total vessels, November, 1921..... | 295         | 383    | 678    | 92             | 86     | 178    | 856          |
| Total vessels, December, 1920..... | 359         | 453    | 812    |                |        | 76     | 888          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                                  | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------------|--------|---------------|-------------|
| Army and Navy vessels.....       | 35     | 35            | 36          |
| Canal equipment.....             | 26     | 59            | 60          |
| Total noncommercial vessels..... | 61     | 94            | 96          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                        | Gatun.                            | Pedro Miguel.                     | Miraflores.                       |
|----------------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|
| Lockages.....                          | <i>Cubic feet.</i><br>964,180,000 | <i>Cubic feet.</i><br>950,720,000 | <i>Cubic feet.</i><br>810,140,000 |
| Leakage.....                           | 20,000,000                        | 15,000,000                        | 67,000,000                        |
| Maintenance.....                       |                                   | 4,090,000                         | 7,620,000                         |

| Gatun Lake watershed net yield.....              | 7,649                    | 3,698                    | 9,218                     | 2,158                    | 5,473                    |
| Draft on Gatun Lake for lockages and power.....  | 2,167                    | 2,378                    | 2,378                     | 583                      | 1,738                    |

\* This represents the maximum 24-hour rainfall recorded on the Isthmus since American occupation. Recorded at Porto Bello on December 28-29, 1909.

\* This figure represents the maximum momentary discharge on record. Occurred on December 26, 1909.

## SEISMOLOGY.

Seismic tremors were recorded on the 18th and 22d. The disturbance recorded on the morning of the 18th was at a distance of about 950 miles and gave evidence of being a severe quake at the origin, which was probably to the southwest in the Pacific. The disturbance on the evening of the 22d was a pronounced local shock which was felt by the people in general. The epicenter of the disturbance was at a distance of about 45 miles and probably to the southwest. No damage to Canal works was reported.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in the following tabulation:

|                                                                                | December, 1921. | November, 1921. | December, 1920. |
|--------------------------------------------------------------------------------|-----------------|-----------------|-----------------|
| Gross output, KWH:                                                             |                 |                 |                 |
| Gatun hydroelectric station.....                                               | 4,942,900       | 4,853,900       | 6,079,700       |
| Miraflores steam plant.....                                                    | 300             | 400             | 65,200          |

| Per cent of loss of power to gross output.....                                 | 14.3            | 17.3            | 16.1            |

Miscellaneous electrical repairs and installations of electrical equipment were made on 11 vessels at Cristobal, and 5 vessels at Balboa during the month. There were 358 work orders issued for work to be performed by the Electrical Division during the month, as compared with 328 for November. No new construction work was performed during the month.

#### SHOP, FOUNDRY, AND DRY DOCK WORK.

The output of the Mechanical Division in patterns and castings for December, 1921, as compared with the preceding month was as follows:

|            | December, 1921. |           |         | November, 1921. |           |         |
|------------|-----------------|-----------|---------|-----------------|-----------|---------|
|            | Patterns.       | Castings. | Pounds. | Patterns.       | Castings. | Pounds. |
| Iron.....  | 2               | 175       | 8,612   | 1               | 304       | 17,456  |
| Steel..... | 1               |           |         |                 | 73        | 11,896  |
| Brass..... | 10              | 60        | 1,392   | 3               | 286       | 5,902   |

During the month miscellaneous repairs were made on 55 vessels at Cristobal and 44 vessels at the Balboa shops. Of the above vessels, 10 were placed in dry dock at Cristobal, and 13 at Balboa.

The bottom of the steamship *Quibdo* was cleaned and painted. The stern bushing was renewed, propeller was changed, shoe repaired, liner on tail shaft installed and hull was patched.

A general overhaul of the motor ship *Chiralite* was carried out.

It was intended to install new engines in the vessel, but it was found feasible to overhaul her original installation, fitting new propeller shafts and thrust blocks and make a better installation than by carrying out the proposed change. Extensive hull repairs were also performed.

The tanker *K. R. Kingsbury* was dry-docked with a full cargo of lubricating oil on board, for the purpose of renewing one of the propeller blades. This was a very large vessel and the weight of the cargo, together with its fluid nature, made the dry-docking a very unusual one and almost without precedent. Three tiers of shores were used to prevent deformation of the hull and the water was only lowered to the propeller hub. The operation was entirely successful. This vessel transited the Canal from Balboa to Cristobal on December 17 as a commercial vessel, on which transit tolls were assessed; after leaving Cristobal trouble developed and she put back to port for repairs; she made the transit of the Canal from Cristobal to Balboa where the repairs were carried out and then returned through the Canal from Balboa to Cristobal, and in accordance with Executive Order of November 17, 1921, exempting from payment of tolls vessels which make the transit from Cristobal to Balboa and return for the sole purpose of having repairs made at the Balboa dry dock, no tolls were assessed for these 2 transits; this is the first vessel which has transited the Canal for repairs only on which no tolls were assessed.

Work was started on the rebuilding of the tug *Mariner* and her conversion into an oil burner.

Dry-docking and overhaul of the Dredging Division fleet continued during the month.

The reductions which have been taking place in the Mechanical Division during the past months have brought the working force down to 30 per cent of force employed 1 year ago. Owing to changes in schedules on the Panama Railroad, a further reduction has been made in the roundhouse and car shop forces.

#### DREDGING DIVISION.

Cucaracha and Barge Repair slides showed no perceptible movement during the month. West Culebra slide showed some bank movement between stations 1774:08

and 1779.00. A total of 115,850 cubic yards of material was removed from in front of this slide during the month. No inconvenience to Canal traffic was occasioned by reason of slides during the month.

The total excavation for the month of December, 1921, including earth and rock, was 303,450 cubic yards, as follows:

| Cubic yards. | Classified as— |         | Character of work. | Stations.                                                                 | Equipment.       |

\* Includes 643 employees of former Building Division.

## SCHOOLS.

The following brief summary shows the enrollment, average attendance, etc., in the white and colored schools of the Canal Zone, for the month of December, 1921:

|                                      | White.  | Colored. | Total. |
|--------------------------------------|---------|----------|--------|
| Gross enrollment.....                | 1,876   | 1,538    | 3,414  |
| Net enrollment.....                  | 1,824   | 1,509    | 3,333  |
| Average daily attendance.....        | 1,606.1 | 1,166.9  | 2,773  |
| Pupils neither absent nor tardy..... | 930     | 412      | 1,342  |
| Number of cases of tardiness.....    | 261     | 106      | 367    |
| Number of teachers.....              | 78      | 32       | 110    |

## VITAL STATISTICS.

A total of 192 deaths occurred during the month of December, 1921, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to an annual death rate of 18.62 per thousand. The 3 leading causes of death were tuberculosis, pneumonia, and diarrhea and enteritis; these 3 diseases caused 49 per cent of all deaths from disease. There were 4 deaths from malaria, 1 from dysentery, and 1 from influenza. Of the total deaths, 83, or 43 per cent, occurred among children under 5 years of age. There were 15 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 251 live births reported during the month, and 20 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 35.95 per thousand population. Deaths among children under 1 year of age numbered 57, giving an infant mortality rate, based on the number of births reported for December, of 162.39 per thousand live births.

Eighty-nine cases of malaria were reported during the month, of which 20 were employees and 69 were nonemployees. These malarial cases originated as follows: Panama, 5; in Colon, 2; in the Canal Zone, 59; and outside of the Canal Zone, 23.

Among other diseases reported during the month were 17 cases of measles, 3 of smallpox, 7 of scarlet fever, 5 of diphtheria, 31 of pneumonia and 1 of beriberi.

## RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, and cash sales from stock, are shown below in comparative form:

|                                                                          | December,<br>1921. | November,<br>1921. | December,<br>1920. |
|--------------------------------------------------------------------------|--------------------|--------------------|--------------------|
| Materials received on United States requisitions, chargeable as follows: |                    |                    |                    |

Respectfully,

M. L. WALKER,  
Acting Governor.

**Shipment of Canadian Wheat Through the Panama Canal.**

According to an Ottawa correspondent of the *Nautical Gazette*, the expectation that Vancouver will in time become a great grain shipping port may soon be realized. Business interests in Vancouver have been endeavoring to work up this trade, and have predicted that the Pacific ports will eventually become the export outlets for all Canadian grain from Alberta westward. As the present season advanced the prospects for a big business this winter continued to improve. It was noted in Calgary recently that two-thirds of the cars of wheat inspected there were destined for the Pacific coast.

The first cargo of Canadian wheat to pass through the Panama Canal was carried by the steamer *Buenos Aires* of the Johnson Line, which made the transit on February 9, 1921. The route via Vancouver and Panama will always afford an outlet for wheat from western Canada which can not be moved to the Atlantic seaboard before the close of navigation on the Great Lakes and the St. Lawrence River. This winter trade now seems assured, and it is quite possible that the new route may compete with the old for fall as well as winter shipments.

Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, December, 1921

### Trial of Use of Currency in Cristobal Commissary Store.

Beginning March 1 it is intended to accept both currency and coupons in payment for goods at the Cristobal commissary store. This is in the nature of a trial, to see if payment by currency alone, with the abandonment of the coupon system, will be satisfactory. No changes will be made in the coupon system at the other commissary stores for the present.

The system to be used at Cristobal involves the use of tickets. At the entrance to the store the customer will be provided with a ticket, on which will be punched the amount purchased in each department. Upon the completion of purchases the customer will go to the cashier and hand in the ticket, along with currency or coupons to pay the total.

### Official Circular.

#### Reduced Rate on Pacific Steam Navigation Company's Vessels.

THE PANAMA CANAL,  
EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., January 28, 1922.

To all concerned—The Agent of the Pacific Steam Navigation Company informs this office that a reduction of 25 per cent in the fare on the steamships of their company between Cristobal and New York will be allowed employees of The Panama Canal and the Panama Railroad Company stationed on the Isthmus, including the members of their families.

The minimum fare by the steamships *Ebro* and the *Essequibo* by those entitled to the rebate will now be \$109 instead of \$124 as announced in our circular of November 21, 1921.

C. A. McILVAINE,  
Executive Secretary.

#### Typewriters For Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, model 4. Price range from \$20 to \$30. Inspection can be made by applying to Storekeeper, S. D., administration Building, Balboa Heights.

#### Hours of Departure of Passenger Trains.

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

#### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

#### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective January 1, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.29 |
| Brass, sheet, average.....                                        | Lb.            | .40    |
| Bronze, Tobin, average.....                                       | Lb.            | .31    |
| Gasoline, motor grade.....                                        | Gal.           | .40    |
| Metal, yellow.....                                                | Lb.            | .34    |
| Oakum, Navy, spun.....                                            | Lb.            | .175   |
| Oakum, Navy, unspun.....                                          | Lb.            | .175   |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Bbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70   |
| Oil, ammonia, cylinder.....                                       | Gal.           | .51    |

| Waste, cotton, colored.....                                       | Lb.            | .175   |
| Waste, cotton, white.....                                         | Lb.            | .20    |

#### Invitation for Proposals to Furnish Native Logs to The Panama Canal.

Sealed bids will be received in the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., until 10.30 a. m. Wednesday, February 15, 1922, and then opened, for furnishing The Panama Canal 300,000 feet B. M., more or less, native logs, during a period of one year from date of contract, in accordance with form of agreement, copies of which may be had upon application to the office of the Chief Quartermaster.

Bids must be inclosed in sealed envelope, addressed to The Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., and marked "Proposal for furnishing native logs, to be opened February 15, 1922."

The Panama Canal reserves the right to reject any or all bids.

The successful bidder will be given the first option to purchase, if desired, the launch *Mecca*, and other logging equipment formerly used by The Panama Canal, at reasonable appraised prices. This launch was built for logging purposes and is particularly suitable for same. Launch may be inspected at Monte Lirio.

#### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

#### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama," in the United States, "Pancanal, Washington."

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., February 8, 1922. No. 26.

## Reduction in Rate on Hides.

The Panama Railroad Steamship Line has reduced the rate on hides from Cristobal or Colon to New York, effective February 1, as follows: Dry, loose, or in bales, from \$1 per 100 pounds to 75 cents per 100 pounds; green salted, in bundles, from 58 cents per 100 pounds to 44 cents per 100 pounds.

## Panama Canal Traffic During the Calendar Year 1921.

The traffic through the Panama Canal during the calendar year 1921 was approximately the same as during the calendar year 1920. The total number of vessels, including vessels of the United States Navy and other United States Government vessels exempt from the payment of tolls, was 3,040 in 1921, as compared with 3,035 in 1920.

The vessels in commercial service and the public vessels of foreign nations which paid tolls totaled 2,783 in 1921, against 2,814 in 1920. However, the aggregate net tonnage of these vessels, measured in accordance with Panama Canal rules, was greater than in the previous year, being 11,435,811, as compared with 10,378,265; and the tolls collected in 1921 totaled \$11,261,098 against \$10,295,362 in 1920.

The cargo carried in 1921 was 10,707,005 tons, or slightly less than the 1920 cargo, which totaled 11,236,119 tons.

## TRAFFIC OVER PRINCIPAL TRADE ROUTES.

Traffic over the principal trade routes during the year 1921 is summarized in the following table:

TRADE ROUTE STATISTICS—CALENDAR YEAR 1921.

|                                                                 | No. of ships. | United States equivalent. | Panama Canal net. | Registered gross. | Registered net. | Tolls.       | Tons of cargo. |

## SHIFTING TRADE ROUTES.

While the totals of cargo for the 2 years are approximately the same, there have been extensive changes in the volume moving over the various trade routes served by the Canal, as the accompanying graphs will indicate.

| Total.....                          | 5,065,675 |  |

Taking first the cargo moving from Atlantic to Pacific, the most important trade is still that from the United States to the Far East, but the cargo tonnage moving over this route declined approximately 9 per cent.

Cargo from the east coast of the United States to the west coast of South America declined more than 52 per cent. The greatest tonnage loss here was in coal shipments from Chesapeake Bay.

Cargo from the east coast of Mexico to the west coast of South America (crude oil) declined 47 per cent, and cargo from the east coast of the United States to Australasia declined 16 per cent.

On the other hand, there was a notable increase in the United States coastwise trade, amounting to no less than 73 per cent.

The foregoing are the important trades. Of the minor trades, the following show decreases: Europe to west coast of South America, Cristobal to west coast of South America, east coast of the United States to the west coast of Canada, and Cristobal to the west coast of the United States. The following of the lesser trades show increases: Europe to Australasia, Mexico to the west coast of the United States (crude oil), Europe to the west coast of the United States, and the miscellaneous routes.

| Total.....                          | 5,641,330 |  |

Taking the cargo moving from Pacific to Atlantic, the trade from the west coast of South America to the east coast of the United States shows a shrinkage of 57 per cent, and the trade from the west coast of South America to Europe a shrinkage of 19 per cent. This has been due in the main to the decline of the Chilean nitrate business.

The trade from the Far East to the east coast of the United States has fallen off 51 per cent. But to compensate for this there has been an increase of more than 100 per cent in the cargo moving from the

west coast of the United States to Europe, and an increase of 57 per cent in the eastbound United States coastwise trade.

Minor trades which have declined are: South America to Cristobal, Australasia to the United States, the west coast of the United States to Cristobal, South America to the West Indies, and Central America to Cristobal. There has been an increase in the trades from Australasia to Europe, the west coast of Canada to Europe, and the miscellaneous trade routes.

On the whole, the area which appears to have benefited most by the operation of the Canal during the past years has been the west coast of North America, including Canada and the United States.

### **Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended February 6:

Motor ship *Pedro Christopherson*, repair oil pump, starboard side; remove crank shaft of port auxiliary compressor engine; straighten and remachine bearing controls; remetal bearings and bed-down shaft; manufacture and install bushing for No. 1 cylinder and straighten connecting rod; manufacture and install new piston; repair jacking gear; manufacture 4 valve stems and seats, and eccentric strap to oil pump.

#### **PREVIOUSLY REPORTED.**

Barges *No. 132*, dock and undock; scale and paint bottom, and necessary repairs below water line, on hull; *No. 134*, dock and undock; scale and paint bottom, and necessary repairs below water line, on hull; motor ship *James Timpson*, dock and undock; clean and paint bottom; renew damaged section of keel and miscellaneous repairs in engineer's department; tug *Mariner*, dock and undock; scale and paint bottom, and convert from coal burner to oil burner as per specifications.

The following vessels were at the Cristobal shops for repairs during the week ended February 6:

Steamships *Cauca*, dock, clean and paint hull; renew 1 plate in hull; repair refrigerator; examine rudder and all sea valves, etc.; *Tamar*, manufacture feed pump ram; manufacture funnel for galley; electric weld and repair boilers; repair winch pipe; repair steering rod coupling, etc.; tug *Porto Bello*, dock, scrape, and paint hull; electric weld boiler; renew fender guards and railing where directed; overhaul air pump and all sea valves; repair piping, etc.; steamships *General O. H. Ernst*, retube ammonia condenser; repair anchor windlass; plug holes in forepeak tank; *Panama*, straighten 3 deck stanchions; overhaul screws on boat davits; install new tripper on port anchor; manufacture 2 water column valves for main boiler, etc.; *Solana*, repair anchor windlass and boilers; examine cylinders; furnish 50 laborers to clean and paint hull and holds, also clean in engine and fire room; repair galley range and renew brickwork; repair miscellaneous piping, etc.; *Caribbean*, open up all cylinders, valves, etc., in main engines, auxiliaries, and deck hoisters; remove packing from above and coat for laying up of ship; clean boilers and coat with fish oil, etc.; *Balboa*, repair friction band on hoister and clean boilers; *General W. C. Gorgas*, weld back connection of boilers; roll tubes; repair scupper pipe, etc.; *Jamaica*, *Fairfield City*, *Tolosa*, *Zacapa*, and schooner *Linda S.*, minor repairs.

### **Executive Order.—Rules of Practice and Procedure of the United States District Court in and for the Canal Zone.<sup>1</sup>**

By virtue of the authority vested in me by Act of August 24, 1912, c. 390, sec. 8, it is

ORDERED, That the within Rules of Court<sup>2</sup> shall be in force in the United States District Court, in and for the Canal Zone, on and after this date.

All previous orders in conflict with this order are hereby repealed.

WARREN G. HARDING.

THE WHITE HOUSE,  
December 30, 1921.

<sup>1</sup>Published as Panama Canal circular No. 601-128.

<sup>2</sup>NOTE: The Rules of Court referred to in the above Executive Order are being printed in the form of a pamphlet entitled "Rules of Practice and Procedure of the United States District Court in and for the Canal Zone."

**MOVEMENTS OF OCEAN VESSELS.**  
*Week ending at midnight, February 4, 1922.*

(Continued on page 344, column 2.)

**Typewriters For Sale.**

The Supply Department has on sale a number of Underwood typewriters, second hand, model 4. Price range from \$20 to \$30. Inspection can be made by applying to Storekeeper, S. D., administration Building, Balboa Heights.

**Sale of Lumber.**

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

**Publication of Notices and Circulars of Interest to Shipping.**

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

**Current Net Prices on Coal, Fuel Oil, and Diesel Oil.**

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

**Empty Barrels For Sale.**

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

**Invitation for Proposals to Furnish Native Logs to The Panama Canal.**

Sealed bids will be received in the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., until 10.30 a. m. Wednesday, February 15, 1922, and then opened, for furnishing The Panama Canal 300,000 feet B. M., more or less, native logs, during a period of one year from date of contract, in accordance with form of agreement, copies of which may be had upon application to the office of the Chief Quartermaster.

Bids must be inclosed in sealed envelope, addressed to The Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., and marked "Proposal for furnishing native logs, to be opened February 15, 1922."

The Panama Canal reserves the right to reject any or all bids.

The successful bidder will be given the first option to purchase, if desired, the launch *Mecca*, and other logging equipment formerly used by The Panama Canal, at reasonable appraised prices. This launch was built for logging purposes and is particularly suitable for same. Launch may be inspected at Monte Lirio.

**Certificate.**

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business,

**MOVEMENTS OF OCEAN VESSELS.—Continued from page 343.**

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., February 15, 1922. No. 27.

## Commodity Statistics.

The following were the most important items of cargo moving from Atlantic to Pacific in 1921:

|                                     | <i>Tons.</i> |
|-------------------------------------|--------------|
| Crude oil.....                      | 900,410      |
| Manufactures of iron and steel..... | 697,210      |
| Coal.....                           | 539,351      |
| Refined oil.....                    | 461,085      |
| Cotton.....                         | 196,329      |
| Sulphur.....                        | 108,415      |

As compared with the figures for 1920, which were not, however, so minutely and accurately compiled, there has been an increase in the shipments of crude and refined oil and of manufactures of iron and steel, while coal shipments have fallen off. Approximately 25 per cent of the coal shipped in 1921 was British, whereas in the previous year, although no accurate figures are available, it is probable that practically all the coal moving south through the Canal was American. It is impossible to make an accurate comparison in the case of cotton and sulphur.

Other commodities which in 1921 contributed more than 20,000 although less than 100,000 tons each to the traffic from Atlantic to Pacific were: Sugar, railroad materials, machinery, iron, ammonia, and tobacco.

## PACIFIC TO ATLANTIC.

The principal commodities moving from Pacific to Atlantic were:

|                          | <i>Tons.</i> |
|--------------------------|--------------|
| Nitrate.....             | 991,767      |
| Wheat.....               | 914,877      |
| Lumber.....              | 448,087      |
| Barley.....              | 435,481      |
| Sugar.....               | 270,952      |
| Flour.....               | 177,977      |
| Refined oil.....         | 147,573      |
| Canned fruit.....        | 143,188      |
| Copper.....              | 135,073      |
| Refrigerated mutton..... | 128,515      |
| Canned fish.....         | 107,188      |
| Wool.....                | 107,075      |

A comparison with the previous year is possible only in the case of a few of these items. Nitrate shipments in 1920 totaled 1,995,906 tons; flour, 487,614; wheat, 318,944; lumber, 205,172; and sugar, 127,995.

Other commodities which contributed in 1921 less than 100,000 but more than 20,000 tons each to the traffic from Pacific to Atlantic were: Coffee, phosphates, rice, refrigerated beef, copper ore, cotton, refrigerated cheese, dried fruit, cacao, copra, oats, crude oil, cotton seed, lubricating oil, refrigerated butter, skins and hides, cottonseed oil cake, coconut oil, and ivory nuts.

Details of the origin and distribution of commodities, by trade areas, are presented in the following tables:

## Classification of Cargo Passing Through the Panama Canal, Showing Origin and Destination of Same, Calendar Year 1921.

## COMMODITY STATISTICS.

## ATLANTIC TO PACIFIC.

(Figures represent tons of 2,240 pounds.)

EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., February 1, 1922.

## ITEM 21.—COAL.

(Effective February 1, 1922.)

The provisions of Supplement No. 7 to Tariff No. 5 are hereby superseded by the following:

8. Special prices for coal in large quantities as specified below, taken from Cristobal-Colon. alongside Cristobal coaling plant by vessels transiting the Canal:
  - (a) To vessels taking 1,200 tons or over;
  - (b) To vessels taking between 825 and 1,200 tons and bunkering full;
  - (c) To vessels taking 825 or more tons and more than quantity required to bunker full;
 

Price to the above 3 classes, per ton of 2,240 pounds. . . \$10.00
  - (d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at \$10 per ton of 2,240 pounds.
  - (e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at \$10 per ton.
  - (f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds. . . . . 1.00
  - (g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 4 to Tariff No. 5 will apply.

M. L. WALKER,

*Acting Governor, The Panama Canal.*

*Second Vice President, Panama Railroad Company.*

<sup>1</sup> Displacement, 4,117 tons.**Trial Installation of Gas in Canal Zone Quarters.**

The Panama Gas Company has been given permission to make several trial gas installations for cooking in Canal Zone quarters, under provisions that the test be without expense or obligation on the part of The Panama Canal, and with the consent of the occupants of the quarters in which the trial installations are made. The company has extended mains from Panama to about eight quarters in Ancon, near the boundary, and the laying of pipes, etc., for the several houses is in progress.

**Certificate.**

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., February 22, 1922. No. 28.

## Wet Storage of Coal.

Both of the coaling plants at the Canal terminals are provided with spaces for the storage of coal under water, as well as in the dry.

No complaint has been made of the combustible qualities of the coal stored subaqueously, but in order to ascertain if other plants had experienced any deterioration from water storage, the Governor requested the Chief of Office in Washington to obtain the conclusions of Mr. H. H. Stoeck, Professor of Mining Engineering at the University of Illinois, as to the relative merits of wet and dry storage of coal. In his reply Professor Stoeck stated:

I would report that several companies in Illinois have used\* under-water storage apparently with success. One of the first companies to use this form was the Western Electric Company in Chicago which has a number of concrete pits, also the Illinois Traction Company has used this method at several of its larger power plants. Several of the zinc companies in the State have used old sloughs for temporary storage and in a similar manner a number of mines have used these sloughs for excess production. The largest under-water storage plant of which I have been advised is that of the Standard Oil Company at Whiting, Ind., where provision has been made for 100,000 tons. The Duquesne Light Company, of Pittsburgh, also has a large under-water storage plant. In the absence of negative reports from any of these companies I assume they have found under-water storage satisfactory.

Experiments made at the University of Illinois on small quantities of coal under water have shown practically no deterioration.

The 2 large plants above referred to, namely, those of the Standard Oil Company and the Duquesne Light Company, are of too recent construction to have very conclusive results extending over a sufficient period of time.

Under-water storage is, of course, best adapted for fine sizes of run-of-mine coal where it is necessary to have a mixture of sizes and a considerable amount of fine coal and dust in the material stored. If the coal can be properly sized and carefully handled I do not believe it is necessary to have under-water storage as the expense of the plant is, of course, materially greater than ground storage.

## Bunker Coal at San Diego and Los Angeles.

Effective January 19, the price of bunker coal at San Diego and Los Angeles was reduced to \$12 per gross ton of 2,240 pounds, f. o. b. vessel alongside dock; trimming extra at actual cost of labor and accident insurance, plus 10 per cent. These prices are quoted by the Spreckels Brothers Commercial Company, subject to change without notice.

## Government Hotels to be Offered for Lease.

Consideration is being given to leasing the Hotel Tivoli, at Ancon, and the Hotel Washington, in Colon, and a form of contract is being prepared. It will provide that the lessee purchase the equipment in the hotels. As soon as the form of statements, contract, etc., shall have been approved it is intended to advertise for bids.

Advertisements will be placed in the United States as well as locally and efforts will be made to attract the attention of hotel managements, steamship interests or other organizations or individuals which might be expected to conduct the hotels on a high plane with an aggressive business policy.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended February 18:

U. S. S. *Sciota*; dock and undock; stage and clean; paint bottom 2 coats of anti-corrosive and 1 coat of antifouling; examine propeller and renew plates as necessary; examine stern tube bushing; repack stern gland; repair valves on steering engine; grind in and repair sea valves; calk rivets and staybolts, Nos. 1 and 2 boilers; renew flame rings in front of boilers; repair boiler valves; renew zinc plates for boilers; renew 1 set of H. P. piston rings, 2 rings for piston valves, I. P. engine and cover for thrust bearing; cut holes in base of wreck and circulating pumps; install regulation hold on top of smokestack; repair rudder and rudder gudgeons; renew hull zincs; renew 12 lenses; recalk leaky rivets in fuel oil compartments; straighten bottom plate of water-tight door; renew tiling in galley where broken; steamships *Buenos Aires*, dock and undock; install 1 plate on hull, port side; *Advance*, dock and undock; stage and clean; tug *Gorgona*, dock and undock; stage and clean; barge No. 135, straighten coaming; tighten bad order rivets; drill barge No. L-255, remove from water and place on dock; remove copper sheathing in spots for examination of hull.

### PREVIOUSLY REPORTED.

Motorship *Pedro Christopherson*, repair auxiliary engine crank shaft and minor running repairs; *James Timpson*, dock and undock; clean and paint bottom; renew damaged section of keel and miscellaneous repairs in engineer's department; tug *Mariner*, dock and undock; scale and paint bottom and convert from coal burner to oil burner as per specifications; barges No. 132, dock and undock; scale and paint bottom and necessary repairs below the water line, on hull; No. 134, dock and undock; scale and paint bottom and necessary repairs below the water line, on hull.

The following vessels were at the Cristobal shops for repairs during the two weeks ended February 20:

Steamships *Acajula*, dock and undock; clean and paint hull; calk seam; face up donkey and feed pump check valves and seats, starboard boiler; overhaul refrigerator circulating pump and auxiliary feed pump; install cable holders on windlass; examine and repair sea inlets and fastenings, etc.; *Salvador*, renew exhaust pipe on oil fuel pump; manufacture 2 crossheads and 2 steel crank-pin bolts for refrigerator; manufacture 3 pipe box spanners; make 12 copper rings; manufacture 2 oil burner yokes; make 2 strainer cages; repair coil; make 6 valve stems and nuts, etc.; *Mantaro*, furnish diver and diving outfit to install patch on hull; yacht *Haida*, make and install 1 main boom; make new after launch chock; repair forecstle head and rail; shift forestays and travelers and make partners for same; paint top side with 1 coat of paint; make and install galley stack; make new gear for generator, etc.; steamships *Advance*, connect blower engine fan casing to thwart ship bulkhead with angle iron stiffeners; *Heredia*, repair copper pipe and renew hydraulic pipe; *General G. W. Goethals*, braze flange on suction pipe and repair fire line; U. S. S. *O-11* and *O-13*, rivet engine foundations; tug *Tavernilla*, weld seam in boiler; regrind suction valve; test main condenser and make necessary repairs; overhaul boiler check and blow valves; scale boiler, etc.; steamship *Manavi*, renew sections of ash guard and flooring in stokehold; bore balance piston chamber and manufacture new rings, etc.; grader No. 1, clean, scale, and paint below water line; repair service pump, fuel oil heater and discharge line from fuel pump; overhaul sea valves and strainers; calk manhole flange on boiler; weld leaky seams and rivets; test all tanks; stop all leaks, etc.; steamships *Jamaica*, repair hand rail and locking bar; test boiler; repair force pump; examine and repair ports, etc.; *Duncluth*, clean boilers; renew tubes where directed; renew internal feed pipe on port boiler; electric weld cracks in boiler, etc.; *Cuba*, make valve stem and nut; electric weld crack in port boiler and roll all leaky tubes; *Haiti*, repair copper pipe as directed, etc.; tug *San Juan*, clean and paint bottom; manufacture and install new smokestack and fidley; repair and hang rudder; repair shoe and install same; renew rudder casing; repair hull and calk stem and leaky butts; change propeller; repair main steam pipe; examine and repair all sea valves and strainers, etc.; steamships *Balboa*, manufacture 1 set of steering chains; manufacture 2 eccentric rods for dynamo engine; *Colon*, braze section of steam pipe; furnish 4 cast iron bars for starboard intermediate valve; install patches on tank top; launch *Activo*, renew stud in cylinder cover; install new feather in shaft, etc.

## Notice to American Holders of Pre-war Unsecured Bonds of the Former Austrian Government.

The American Consul in Panama, R. P., has requested publication of the following:

Pre-war unsecured bonds issued by the former Austrian government which may be held by American citizens will be received by the Department of State through American Consular officers, and lists thereof will be furnished to the Reparations Commission for such action as may be taken in relation to the bonds.

All bonds submitted should be accompanied by an affidavit of the owner, giving facts regarding citizenship and complete data concerning the bonds, the affidavit to be executed before an American Consular officer, who will give receipts for the bonds and forward them to the State Department.

It is also desirable that information with regard to pre-war bonds of the former Hungarian government held by American citizens should be submitted to the nearest American Consular officer.

## Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Cristobal for Two Weeks Ending February 18, 1922.

**Supplement No. 12 to Tariff "B," Class I—Equipment, Use of.**

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., February 11, 1922.

**ITEM 7.—CAR SERVICE.**

No demurrage charge will be made for Sundays and holidays in the case of cars inspected, lubricated, and given minor repairs by divisions to which regularly assigned.

M. L. WALKER,

*Acting Governor, The Panama Canal.*

*2d Vice President, Panama Railroad Company.*

**Orchids for Ancon Hospital Garden.**

An orchid garden has been begun at Ancon Hospital to supply flowers for the wards and private rooms of the hospital for the benefit of the sick. The hospital would appreciate any contributions in the line of orchids, as there are no funds available for their purchase. Due acknowledgment will be made to contributors.

**Deceased Employees.**

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Name.                          | Check No. | Native of—         | Isthmian residence. | Employed by—           | Date of death.    |

## Official Circulars.

### Admission to Docks.

#### THE PANAMA CANAL.

#### EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., February 13, 1922.

#### HEADS OF DEPARTMENTS AND DIVISIONS:

Mimeographed circular of the Governor, dated October 4, 1919, on the above subject, is hereby amended, in so far as concerns the Cristobal dock area, by striking out the present paragraphs 3 and 4 and inserting in place thereof the following: "3. Identification under each of the foregoing headings shall be established in the following manner:

"Items (a), (b), (c), and (f) above referred to upon proper identification by the police officer at the main entrance.

"Representatives of shipping and commercial interests, and contractors or subcontractors and their foremen will be admitted upon annual pass issued by the Executive Secretary upon recommendation of the Receiving and Forwarding Agent after consultation with the Port Captain, the Chief Customs Inspector, and the Police District Commander. Silver gangs of the above concerns shall be checked in by the timekeepers or foremen at the main entrance.

"Silver employees of the U. S. Government: The Panama Canal, or the Panama Railroad will be checked in at the main entrance by the timekeeper or foreman.

"4. Persons not mentioned in the foregoing are denied entrance to the piers and docks, except under special circumstances, which, in the opinion of the Captain of the Port, the Receiving and Forwarding Agent, or the Chief Customs Inspector, justify the issuance of a single trip permit, or in exceptional cases, of a permit for a reasonable period. Each of the above-mentioned officials shall also issue such passes as may be necessary in connection with their duties.

"All persons visiting the docks (with proper pass) as escorts or companions of arriving or departing passengers shall keep clear of the dock aprons and of ships' gangways, and such persons must confine themselves strictly to the dock sheds.

"Outgoing passengers will be permitted to embark at all hours, but vessels upon which such passengers have previously obtained transportation shall be required to receive them on board immediately after their admission within the dock area.

"All traffic excepting employees of the United States Government, The Panama Canal, and Panama Railroad traveling on official business to and from the coaling plant at Cristobal, must enter and leave via the main entrance at the Terminal Building."

M. L. WALKER.

Acting Governor.

NOTE—The effect of the changes made by the above is that the Receiving and Forwarding Agent, instead of the Captain of the Port, has immediate charge of the issuance of annual passes; and that single-trip or "reasonable period" passes may be issued by the Receiving and Forwarding Agent, the Captain of the Port, or the Chief Customs Inspector.

### Scrap Prices.

#### THE PANAMA CANAL.

#### SUPPLY DEPARTMENT.

BALBOA HEIGHTS, C. Z., February 11, 1922.

#### HEADS OF DEPARTMENTS AND DIVISIONS:

Effective February 15, 1922, the following prices will be allowed by the Supply Department for scrap, turned in by the various departments and divisions of The Panama Canal. The selling

prices to departments and divisions, employees, and to individuals and companies are also indicated:

| Kind of scrap.                            | Credit to beallowed divisions. | Issue and sale prices.               |                                              |
|-------------------------------------------|--------------------------------|--------------------------------------|----------------------------------------------|
|                                           |                                | To depart-ments of The Panama Canal. | To em-ployees and individuals and companies. |
|                                           | Short ton.                     | Short ton.                           | Short ton.                                   |
| Cast iron, including car wheels.....      | \$5 00                         | \$6 00                               | \$25 00                                      |

*Italy*, Dr. Miguel Papio, Consular Agent (Honorary).

*Mexico*, Inocencio Galindo, Vice Consul (Honorary).

*The Netherlands*, J. J. Ecker, Consul (Honorary).

*Nicaragua*, Roberto Feuillebois, Consul (Honorary).

*Norway*, D. S. Webster, Acting Consul (Honorary); Sigurd Schjott, Vice Consul (Honorary).

*Peru*, J. C. Mejia, Consul (Honorary).

*Portugal*, Ruben S. Arcia, Consul (Honorary); Ofilio Hazera, Vice Consul (Honorary).

*Santo Domingo*, Joshua J. Henriquez, Vice Consul (Honorary).

*Spain*, Francisco Andrade Polanco, Consul (Honorary).

*Sweden*, J. J. Ecker, Vice Consul (Honorary).

*United States*, Dr. Julius D. Dreher, Consul; Odin G. Loren, Vice Consul.

*Venezuela*, Fernando Diaz Paul, Consul General.

### Bocas del Toro.

*Great Britain*, William H. Ponton, Vice Consul.  
*Nicaragua*, Solomon H. Canoan, Consul (Honorary).

*Portugal*, E. C. McFarland, Vice Consul (Honorary).

*United States*, W. M. Denby, Consular Agent.

### David.

*France*, Eugene Loeffler, Vice Consul (Honorary).

*Spain*, Emilio Olave, Consular Agent (Honorary).

### Santiago de Veraguas.

*Spain*, Julio Garcia Sierra, Vice Consul (Honorary).

### Colombia.

Colombia has no diplomatic or consular representative in Panama. Ernesto Lozada, Private Postal Agent, is in charge of Colombian affairs in Panama City. Miguel Vargas is Private Postal Agent at Colon.

### Hours of Departure of Passenger Trains.

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Typewriters For Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, model 4. Price range from \$20 to \$30. Inspection can be made by applying to Storekeeper, S. D., administration Building, Balboa Heights.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Certificate.

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

## CANAL WORK IN JANUARY.

The following is the report of the Acting Governor to the Secretary of War, of Canal work in the month of January, 1922:

BALBOA HEIGHTS, C. Z., February 18, 1922.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of January, 1922:

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal during the month of January, 1922, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | January,<br>1922. | December,<br>1921. | January,<br>1921. |
|-------------------------------------------------|-------------------|--------------------|-------------------|
| Commercial vessels.....                         | 210               | 239                | 279               |
| Noncommercial vessels.....                      | 22                | 35                 | 74                |
| Launches, etc. (under 10 tons measurement)..... | 6                 | 4                  | 1                 |
| Total vessels and craft through Canal.....      | 238               | 278                | 354               |

In addition to the foregoing, Panama Canal equipment consisting of floating cranes, barges, craneboats, graders, etc., was passed through the locks as follows: Gatun, 20; Pedro Miguel, 52; Miraflores, 46.

### COMMERCIAL TRAFFIC.<sup>1</sup>

#### Tolls.

Under the present dual method of assessing tolls, the revenue from this source was \$847,767.55. Had the net tonnage as determined by The Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$157,927.83. These additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------|----------------------------|----------------------------|-------------|
| British.....       | \$37,879.60                | \$14,206.90                | \$52,086.50 |
| Chilean.....       | 2,703.65                   | 2,699.00                   | 5,402.65    |
| Danish.....        |                            | 406.70                     | 406.70      |
| Dutch.....         | 4,123.95                   | 1,365.80                   | 5,489.75    |
| French.....        |                            | 439.70                     | 439.70      |
| German.....        | 1,831.80                   | 885.05                     | 2,716.85    |
| Italian.....       | 1,481.30                   | 447.55                     | 1,928.85    |
| Japanese.....      | 2,239.25                   | 1,515.70                   | 3,754.95    |
| Norwegian.....     | 1,997.40                   | 116.30                     | 2,113.70    |
| Panamanian.....    |                            | 2.07                       | 2.07        |
| Peruvian.....      | 3,016.90                   | 3,016.90                   | 6,033.80    |
| Swedish.....       | 108.65                     |                            | 108.65      |
| United States..... | 41,392.00                  | 36,055.80                  | 77,447.80   |
| Totals.....        | 96,774.50                  | 61,153.33                  | 157,927.83  |

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

<sup>2</sup> Gain.

The additional tolls paid by United States vessels would have been distributed among the following channels of trade:

|                                          | Atlantic to Pacific. | Pacific to Atlantic. | Total.      |
|------------------------------------------|----------------------|----------------------|-------------|
| United States coastwise ports .....      | \$25,912.85          | \$23,238.40          | \$49,151.25 |
| United States and Canal Zone ports ..... | 774.70               | 528.10               | 1,302.80    |
| United States and foreign ports.....     | 13,129.10            | 12,289.30            | 25,418.40   |
| Between foreign ports.....               | 1,575.35             |                      | 1,575.35    |
| Totals.....                              | 41,392.00            | 36,055.80            | 77,447.80   |

Of the above \$157,927.83 additional revenue that would have been collected by using The Panama Canal rules exclusively, \$6,759.60 represents the additional tolls that would have been collected on account of deck cargo.

#### COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Canal in January, 1922, with that of the preceding months, along the lines indicated at the head of the various tables:

#### TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | January, 1922. | December, 1921. | January, 1921. | Average month for past year. |
|-------------------------------------------|----------------|-----------------|----------------|------------------------------|
| United States equivalent net tonnage..... | 689,035        | 827,340         | 894,689        | 768,671                      |
| Panama Canal net tonnage.....             | 846,516        | 1,017,244       | 1,094,223      | 944,794                      |
| Registered gross tonnage.....             | 1,069,840      | 1,284,499       | 1,383,778      | 1,193,974                    |
| Registered net tonnage.....               | 691,648        | 820,431         | 883,362        | 762,859                      |
| Tolls.....                                | \$847,767.55   | \$1,003,598.27  | \$1,095,857.47 | \$931,451.26                 |
| Cargo.....                                | 807,298        | 953,053         | 1,177,053      | 885,716                      |

| Tons of cargo (laden vessels only).....   | 4,160             | 4,412              | 4,746             |

## COMMODITY STATISTICS.

A classification of cargo passing through the Canal during the month of January, 1922, has been compiled from declarations of cargo submitted by the ships' masters, and while incomplete, is indicative of the kind and quantity of the various commodities carried by ships transiting the Canal. From the cargo declarations and manifests submitted, it was possible to classify by commodities 73.7 per cent of all cargo passing from the Atlantic to the Pacific, and 91 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

| Commodity.                                  | January,<br>1922. | December,<br>1921. | November,<br>1921. | October,<br>1921. | September,<br>1921. |
|---------------------------------------------|-------------------|--------------------|--------------------|-------------------|---------------------|
| Atlantic to Pacific.                        |                   |                    |                    |                   |                     |
| Oil:                                        |                   |                    |                    |                   |                     |
| Crude.....                                  | 65,862            | 48,272             | 30,144             | 68,891            | 17,981              |

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varies in different ships as the ratio of cargo tonnage to the net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of January, 1922, by nationality of vessels:

|                                             | Atlantic<br>to<br>Pacifc. | Pacific<br>to<br>Atlantic. | General<br>average. |
|---------------------------------------------|---------------------------|----------------------------|---------------------|
| British.....                                | \$1.07                    | \$1.02                     | \$1.05              |
| Chilean.....                                | 1.57                      | 4.61                       | 2.15                |
| Danish.....                                 | .85                       | 1.71                       | 1.12                |
| Dutch.....                                  | 1.08                      | .84                        | .96                 |
| French.....                                 | 10.98                     | .72                        | 2.13                |
| German.....                                 | 1.51                      | .53                        | .92                 |
| Italian.....                                | 5.72                      | .83                        | 1.88                |
| Japanese.....                               | .78                       | .88                        | .83                 |
| Norwegian.....                              | .69                       | 6.89                       | 1.04                |
| Peruvian.....                               | 7.57                      | .82                        | 1.47                |
| Swedish.....                                | .70                       | .....                      | .70                 |
| United States.....                          | 1.01                      | 1.11                       | 1.05                |
| Average rate all ships, January, 1922.....  | 1.04                      | 1.06                       | 1.05                |
| Average rate all ships, December, 1921..... | 1.10                      | .99                        | 1.05                |
| Average rate all ships, November, 1921..... | 1.19                      | .81                        | .98                 |

## ORIGIN AND DESTINATION OF TONNAGE.

The following statements show, by months, the origin and destination of all tonnage through the Canal during the past 14 months, the figures representing the Panama Canal net tonnage:

## ORIGIN OF ALL TONNAGE—ATLANTIC TO PACIFIC.

| Month.              | East coast<br>of United<br>States. | Europe. | Mexico. | Cristobal. | Miscel-<br>laneous. | Total.  |
|---------------------|------------------------------------|---------|---------|------------|---------------------|---------|
| December, 1920..... | 332,418                            | 128,739 | 53,070  | 36,097     | 4,608               | 554,932 |
| January, 1921.....  | 284,111                            | 129,939 | 60,564  | 21,373     | 21,732              | 517,719 |
| February.....       | 268,727                            | 75,532  | 55,859  | 18,844     | 16,271              | 435,233 |
| March.....          | 291,937                            | 188,548 | 85,275  | 20,731     | 27,100              | 613,591 |

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of January, 1922, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of February 15, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of January, 1922, for the preceding month, and for the corresponding month of last year:

| Vessels plying between—               | Atlantic to Pacific.      |                 |                | Pacific to Atlantic.      |                 |                |
|---------------------------------------|---------------------------|-----------------|----------------|---------------------------|-----------------|----------------|
|                                       | January, 1922.            | December, 1921. | January, 1921. | January, 1922.            | December, 1921. | January, 1921. |
|                                       | Number of vessels.        |                 |                | Number of vessels.        |                 |                |
| United States coastwise .....         | 28                        | 20              | 17             | 20                        | 23              | 16             |

## CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Canal free of tolls. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal; these are not included in the commercial traffic:

|                                     | Atlantic to Pacific. |                           |             | Pacific to Atlantic. |                           |            |

| Total passengers departing .....      | 2,709         | 2,165   | 4,874  | 1,487        | 2,024   | 3,511  |

## LOCK OPERATION.

The following tabulations give the number of lockages, vessels through the locks, and the consumption of water for lockages, for the month of January, 1922, as compared with that of the preceding month and of the corresponding month of last year:

## NUMBER OF LOCKAGES.

|                                     | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|-------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                     | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                          | 84          | 117    | 201    | 8              | 10     | 18     | 219          |
| Pedro Miguel.....                   | 82          | 121    | 203    | 19             | 17     | 36     | 239          |
| Miraflores.....                     | 80          | 113    | 193    | 17             | 15     | 32     | 225          |
| Total lockages, January, 1922.....  | 246         | 351    | 597    | 44             | 42     | 86     | 683          |
| Total lockages, December, 1921..... | 303         | 378    | 681    | 51             | 41     | 92     | 773          |
| Total lockages, January, 1921.....  | 313         | 334    | 647    |                |        | 54     | 701          |

## NUMBER OF VESSELS PUT THROUGH LOCKS.

|                                    | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                    | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                         | 89          | 130    | 219    | 22             | 27     | 49     | 268          |
| Pedro Miguel.....                  | 87          | 127    | 214    | 36             | 40     | 76     | 290          |
| Miraflores.....                    | 87          | 127    | 214    | 34             | 38     | 72     | 286          |
| Total vessels, January, 1922.....  | 263         | 384    | 647    | 92             | 105    | 197    | 844          |
| Total vessels, December, 1921..... | 318         | 410    | 728    | 140            | 111    | 251    | 979          |
| Total vessels, January, 1921.....  | 392         | 413    | 805    |                |        | 99     | 904          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                                  | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------------|--------|---------------|-------------|
| Army and Navy vessels.....       | 29     | 24            | 26          |
| Canal equipment.....             | 20     | 52            | 46          |
| Total noncommercial vessels..... | 49     | 76            | 72          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                        | Gatun.        | Pedro Miguel. | Miraflores.   |
|----------------------------------------|---------------|---------------|---------------|
| Lockages.....                          | 841,680,000   | 861,000,000   | 692,060,000   |
| Leakage.....                           | 20,000,000    | 16,770,000    | 67,000,000    |
| Maintenance.....                       |               |               | 1,090,000     |
| Total consumption, January, 1922.....  | 861,680,000   | 877,770,000   | 760,150,000   |
| Total consumption, December, 1921..... | 984,180,000   | 969,810,000   | 884,760,000   |
| Total consumption, January, 1921.....  | 1,252,860,000 | 1,219,650,000 | 1,048,270,000 |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorologic and hydrographic conditions over the Canal Zone and vicinity during the month of January, 1922, are shown in comparative form:

\* This figure represents the maximum momentary discharge on record; occurred on December 26, 1909.

## SEISMOLOGY.

Seismic tremors were recorded on the 1st, 2d, 6th, 8th, 9th, 10th, 16th, and 31st. Those of the 1st, 2d, 8th, 9th, and 10th were all local shocks with epicenter probably to the southwest. The disturbance of the 6th was about 1,900 miles distant and gave indications of being to the northwest. The disturbance of the 16th was about 450 miles distant and, judging from the record on the seismograms, was extremely violent at the point of origin, which was probably in the Pacific Ocean. Slight tremors were recorded on the 31st from a distant disturbance that newspaper reports indicate was off the coast of Oregon and which was generally felt in the Pacific coast States. No damage to Canal works occurred during the month from any of the disturbances recorded.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulations:

|                                                                               | January, 1922. | December, 1921. | January, 1921. |
|-------------------------------------------------------------------------------|----------------|-----------------|----------------|
| Gross output, KWH:                                                            |                |                 |                |
| Gatun hydroelectric station.....                                              | 4,811,800      | 4,942,900       | 6,285,900      |
| Miraflores steam plant.....                                                   | 280            | 300             | 57,340         |
| Combined gross output.....                                                    | 4,812,080      | 4,943,200       | 6,343,240      |
| Water consumption..... cubic feet.                                            | 3,657,240,000  | 3,779,696,146   | 4,383,193,500  |
| Oil consumption..... barrels.                                                 | 1,881          | 1,882           | 2,542          |
| Power distributed to consumers..... KWH.                                      | 4,122,618      | 4,235,893       | 5,348,844      |
| Loss of power in plant auxiliaries, transmission and transformation..... KWH. | 689,462        | 707,307         | 994,396        |
| Per cent of loss of power to gross output.....                                | 14.32          | 14.3            | 15.67          |

Miscellaneous electrical repairs and installations of electrical equipment were made on 31 vessels during the month. There were 375 work orders issued for work to be performed by the Electrical Division during the month, as compared with 358 for the month of December, 1921. Work covering the installation of switching and other electrical equipment for the proposed fifth generating unit at the hydroelectric station was completed during the month.

## SHOP, FOUNDRY, AND DRY DOCK WORK.

The output of the Mechanical Division in patterns and castings for January, 1922, as compared with the preceding month, was as follows:

|            | January, 1922. |           |         | December, 1921. |           |         |
|------------|----------------|-----------|---------|-----------------|-----------|---------|
|            | Patterns.      | Castings. | Pounds. | Patterns.       | Castings. | Pounds. |
| Iron.....  | 5              | 57        | 9,943   | 2               | 175       | 8,612   |
| Steel..... |                | 100       | 13,715  | 1               |           |         |
| Brass..... |                | 120       | 2,832   | 10              | 60        | 1,392   |

During the month miscellaneous repairs were made on 46 vessels at Cristobal, and 43 at the Balboa shops. Of the above vessels, 6 were placed in dry dock at Cristobal and 11 at Balboa.

Extensive heavy running repairs, docking, cleaning, and painting was performed on the steamship *Albertolite*.

The steamship *Delft* arrived in port at Balboa with the main injection valve broken. By utilizing the services of the diver and installing temporary patch over the strainer, repairs were made and the vessel was permitted to proceed on her way in about half the time anticipated by the ship's owners.

Dry-docking and overhaul of the Dredging Division fleet continued during the month.

The work of rebuilding and converting the tug *Mariner* into an oil burner was carried forward during the month and very satisfactory progress was made.

#### DREDGING DIVISION.

Cucaracha and Barge Repair slides have shown no perceptible movement during the month. West Culebra slide, during the first part of the month, continued to show a general movement, between stations 1774-00 and 1795-00, but shows no movement at this date. No inconvenience to Canal traffic was occasioned by reason of slides during the month.

The total excavation for the month of January, 1922, including earth and rock, was 285,750 cubic yards, as follows:

| Cubic yards. | Classified as— |         | Character of work. | Stations.                                                             | Equipment        |
|--------------|----------------|---------|--------------------|-----------------------------------------------------------------------|------------------|

\* Includes 592 employees of former Building Division.

## SCHOOLS.

The following brief summary shows the enrollment, average attendance, etc., in the white and colored schools of the Canal Zone for the month of January, 1922:

|                                      | White.  | Colored. | Total.  |
|--------------------------------------|---------|----------|---------|
| Gross enrollment.....                | 1,936   | 1,661    | 3,597   |
| Net enrollment.....                  | 1,826   | 1,618    | 3,444   |
| Average daily attendance.....        | 1,570.6 | 1,294.2  | 2,864.8 |
| Pupils neither absent nor tardy..... | 1,017   | 681      | 1,698   |
| Number of cases of tardiness.....    | 261     | 51       | 312     |
| Number of teachers.....              | 77      | 32       | 109*    |

## VITAL STATISTICS.

A total of 190 deaths occurred during the month of January, 1922, among the population of the Canal Zone, and the cities of Panama and Colon, which is equivalent to an annual death rate of 18.35 per 1,000. The 3 leading causes of death were tuberculosis, pneumonia, and diarrhea and enteritis; these 3 diseases caused 43 per cent of all deaths from disease.

There were 2 deaths from malaria, 1 from dysentery, and 1 from meningitis. Of the total deaths, 67, or 35 per cent, occurred among children under 5 years of age. There were 14 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 319 live births reported during the month, and 20 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 32.74 per thousand population. Deaths among children under 1 year of age numbered 41, giving an infant mortality rate, based on the number of births reported for January, of 128.53 per 1,000 live births. One hundred and twelve cases of malaria were reported during the month, of which 12 were employees and 100 were nonemployees. These malaria cases originated as follows: Panama, 8; in Colon, 4; in the Canal Zone, 69; and outside of the Canal Zone, 31.

Among other diseases reported during the month were 17 cases of measles, 12 of mumps, 3 of scarlet fever, 1 of typhoid fever, 15 of pneumonia, 5 of diphtheria, and 3 of dysentery.

## RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month of January, 1922, sales to steamships from storehouses, and cash sales from stock, are shown below in comparative form:

|                                                                          | January,<br>1922. | December,<br>1921. | January,<br>1921. |
|--------------------------------------------------------------------------|-------------------|--------------------|-------------------|
| Materials received on United States requisitions, chargeable as follows: |                   |                    |                   |
| Operation and Maintenance.....                                           | \$76,817.53       | \$111,827.15       | \$959,774.78      |

M. L. WALKER,  
*Acting Governor.*

**Radio Pratique for Merchant Vessels.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., February 17, 1922.

## CIRCULAR NO. 626-10:

Hereafter, ships with clean bills of health, from noninfected ports, and without sickness on board, intending to transit the Canal without taking supplies or stores of any kind or landing passengers or cargo, may be granted pratique by radio under the following conditions:

(a) By making application therefor by radio between the hours of 8 a. m. and 4 p. m. Such application to state:

1. That the vessel has a clean bill of health and has no sickness on board.
2. Names of ports and places visited within the past 10 days.
3. That the vessel intends to transit the Canal without taking stores of any kind or landing passengers or cargo.

(b) Radio will be addressed to Chief Quarantine Officer through Port Captain.

(c) Pratique will not be considered as granted until reply has been received from Port Captain "Chief Quarantine Officer grants pratique."

M. L. WALKER,  
*Acting Governor.*

## Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, January, 1922.\*

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended February 25:

Tug *Gorgona*, dock and undock; stage and clean; chip and paint bottom; draw tail shaft for examination; rewood stern tube bearing; examine and repair sea valves; renew sea valve strainers, where necessary; renew bad order zincs; overhaul blow-down line on ship's side; manufacture and install metallic packing on piston rod, circulating pump; repair internal feed pipe of forward boiler; electric weld cracks in blades of propeller; electric weld collars on staybolts in main boilers; furnish air for operating ship's auxiliaries; steamship *Advance*, dock and undock; stage and clean; paint bottom 1 coat of anticorrosive and 1 coat of antifouling; examine propeller; tighten 28 propeller blade nuts; re-cement, repack stern gland; renew gaskets; repack and renew 5 sea valves; manufacture 24  $\frac{5}{8}$ " x 3" studs; manufacture 2 glands for ice machine; drill out 2 broken plugs in oil system and install new plugs; manufacture 8 piston rings for ice machine; install 2 patches on bottom; renew 8 zinc plates; calk 16 feet of seams; cut out and redrive 25 rivets and electric weld 185 rivets.

### PREVIOUSLY REPORTED.

Barge *No. 135*, straighten coaming; tighten bad order rivets; drill barge *L-55*, remove from water and place on dock; remove copper sheathing in spots for examination of hull; tug *Mariner*, dock and undock; scale and paint bottom and convert

from coal burner to oil burner as per specifications; barge *No. 132*, dock and undock; scale and paint bottom and necessary repairs below the water line, on hull.

The following vessels were at the Cristobal shops for repairs during the week ended February 27:

Steamships *Parismina*, repair hole in shell plating; remetal and bore crosshead slipper for H. P. engine; *Advance*, weld mooring chock; roll tubes and calk stay-bolts, port boiler; *Virginie*, electric weld cracks in furnaces; furnish diver to remove cable from propeller; *Wellesley*, weld eyes on stack guys; weld cylinder head for pump; manufacture pipe blank; U. S. steamer *Nones*, dock and clean bottom; repair sheathing and calk hull; renew fender guard irons and stem band bolts; manufacture new rudder shoe and skag; alter shape of rudder; pull tail shaft for inspection; install spare propeller; remetal main engine brasses; true up rods; check alignment of engine and test out; repair reversing engine, steering engine, circulating pump, and main steam pipe; repair hot well; overhaul anchor windlass, etc.; steamships *Balboa*, manufacture 2 eccentric rods for dynamo engine; manufacture 1 set of steering chains; *Cauca*, manufacture piston rod, strainer tube, 4 valves, 4 springs, and reface 8 valves for refrigerator; manufacture 6 brass rings for Weir's pump, etc.; *Venezuela*, weld bake oven pipes; manufacture copper pipe for anchor windlass; repair armature, etc.; *Artigas*, *Santa Marta*, *St. Andre*, and launch *Cruces*, minor repairs.

### Hawaiian Sugar.

The *Shipping Register*, of San Francisco, quoting officials of the Matson Line, states that the entire Hawaiian sugar crop of 1922, estimated at 505,000 tons, will be brought to the mainland through the port of San Francisco. Heretofore a large part of the crop has always been shipped through the Panama Canal to refineries on the Atlantic seaboard. The change is ascribed to Cuban competition and to improved refining facilities on the Pacific coast.

The amount of Hawaiian sugar shipped through the Panama Canal during the calendar year 1921 was 115,571 tons. One cargo of 8,055 tons passed through in January, 1922.

### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective March 1, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.20 |
| Brass, sheet, average.....                                        | Lb.            | .31    |
| Bronze, Tobin, average.....                                       | Lb.            | .25    |
| Gasoline, motor grade.....                                        | Gal.           | .40    |
| Metal, yellow.....                                                | Lb.            | .34    |
| Oakum, Navy, spun.....                                            | Lb.            | .175   |
| Oakum, Navy, unspun.....                                          | Lb.            | .175   |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Pbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70   |
| Oil, ammonia, cylinder.....                                       | Gal.           | .51    |
| Oil, burning.....                                                 | Gal.           | 1.06   |
| Oil, engine, gas, in barrels.....                                 | Gal.           | .49    |
| Oil, engine, gas, heavy, in drums.....                            | Gal.           | .675   |
| Oil, engine, gas, heavy, in barrels.....                          | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in cases.....                      | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in barrels.....                    | Gal.           | 1.04   |
| Oil, engine, gas, extra heavy, in drums.....                      | Gal.           | .35    |
| Oil, engine, gas, extra heavy, for motor schooners, in drums..... | Gal.           | .55    |
| Oil, kerosene, in drums.....                                      | Gal.           | .20    |
| Oil, marine engine.....                                           | Gal.           | 1.04   |
| Oil, marine engine.....                                           | Gal.           | .99    |
| Paint, lead, white, dry.....                                      | Lb.            | .14    |
| Paint, lead, white, in oil.....                                   | Lb.            | .09    |
| Paint, zinc, white, dry.....                                      | Lb.            | .20    |
| Paint, zinc, white, in oil.....                                   | Lb.            | .20    |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09    |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .09    |
| Soda, ash.....                                                    | Lb.            | .035   |
| Waste, cotton, colored.....                                       | Lb.            | .175   |
| Waste, cotton, white.....                                         | Lb.            | .20    |

## Official Circular.

### Parlor Car Service Resumed.

PANAMA RAILROAD COMPANY,  
OFFICE OF MASTER OF TRANSPORTATION,  
BALBOA HEIGHTS, C. Z., February 24, 1922.

CIRCULAR No. 124:

To all concerned—Effective Wednesday, March 1, parlor cars will be placed back in regular service on trains Nos. 2 and 3, and 7 and 8.

W. F. FOSTER,  
*Master of Transportation.*

Approved:

S. W. HEALD,  
*Superintendent.*

### Current Net Prices on Coal, Fuel Oil, and Diesel Oil.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa.

Special prices for coal in large quantities as specified below, taken from alongside Cristobal Coaling Plant by vessels transiting the Canal:

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at \$10 per ton of 2,240 pounds.

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at \$10 per ton.

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 4 to Tariff No. 5 will apply. (\$15 at Cristobal, \$18 at Balboa.)

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

### Typewriters For Sale.

The Supply Department has on sale a number of Underwood typewriters, second hand, model 4. Price range from \$20 to \$30. Inspection can be made by applying to Storekeeper, S. D., administration Building, Balboa Heights.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars to those receiving THE PANAMA CANAL RECORD. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Hours of Departure of Passenger Trains.

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

### Certificate.

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

## Difficult Salvage Job on the "Garfield."

The salvage section of The Panama Canal has been engaged since the latter part of January in the effort to save the American steamer *Garfield*, of the Grace Line, which is aground in the Bay of Galera de Zamba, on the coast of Colombia, about 25 miles to the northeast of Cartagena. The work has been difficult and hazardous on account of gales and rough seas over an area of shallow water.

Skirting the coast in the night the master of the *Garfield* mistook the Galera Point light for the Puerto Colombia light. Running into shoal water, he dropped anchor, but the vessel, swinging around in the heavy seas, dragged anchor and grounded astern. Then the anchor carried away and the *Garfield* was swept in toward land for a distance of  $1\frac{3}{4}$  miles from the 18-foot contour, coming to rest in 5 feet of water, although she had been drawing 14 feet 6 inches in the open sea. The task of the salvors is to bring her out again across that distance to deep water. To do this it has been necessary to lay about 5,500 feet of steel ground cable, to be attached to anchors, against which the *Garfield* can pull with her own anchor engine and other winches. The work has gone slowly on account of the impossibility of sending competent equipment into the shallows. The salvage steamer *Favorite*, going as near as her master dared risk, has grounded repeatedly, and vessels of lighter draft have been unable to handle the work.

The *Favorite* lost her rudder last week, and the tug *Tavernilla* was despatched to tow her back to Cristobal for repairs. Work on her is being rushed at the Cristobal dry dock, and upon its completion she will return to the *Garfield*.

The *Garfield* has cargo aboard, but so far it has not been necessary to jettison it. Unless worse weather prevails it is expected that the ship will be saved within the coming week.

## Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending March 4, 1922.

## Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended March 6:

Steamships *Corinthic*, dismantle, repair, reassemble, and test out steering engine; *Hwah Ping*, renew 2 pieces of copper pipe; *Buckeye State*, manufacture 100 taper flue plugs; *La Habra*, dock and undock; stage and clean; paint bottom 1 coat of anticorrosive and 1 coat of antifouling (paint furnished by ship); repair main engine; jack up furnace, No. 4 boiler; manufacture miscellaneous parts for oil-burning system; repair ammonia compressor, Worthington pump, Weir feed pump; manufacture miscellaneous lot of chisels; overhaul, grind in, and put in good condition all boiler valves; calk leaky rivets and install tap bolts in shell; renew defective parts of

pipe lines for ice machine, fire line, and bunker pipe line; re-cement around propeller nut; renew zinc plates on hull; *Rakuyo Maru*, dismantle; make temporary repairs to gear on steering engine; straighten arm; reassemble and test out steering gear; *Hawkeye State*, furnish laborers and supervision to clean out boilers and repair bearings on No. 1 generator; realign to turbine engine and install spare bearings on No. 2 generator.

## PREVIOUSLY REPORTED.

Tug *Gorgona*, dock and undock; stage and clean; chip and paint bottom; draw tail shaft and miscellaneous repairs to ship's operating gear; steamship *Advance*, dock and undock; stage and clean; paint bottom and miscellaneous running repairs; barge *No. 135*, straighten coaming; tighten bad order rivets; drill barge *L-55*, remove from water and place on dock; remove copper sheathing in spots for examination of hull.

The following vessels were at the Cristobal shops for repairs during the week ended March 6:

Steamships *Macoris*, repair No. 2 winch; repair 1 steam and 1 ammonia valve for ice machine; *Panama*, manufacture new packing box for H. P. piston rod; manufacture new H. P. rod, bull ring, follower, and bolts; repair hull on lifeboats and motor boat; make pins for blocks; straighten stanchion; repair hose reel; *Almagro*, prepare P. C. closed chocks for installation; *Salvador*, manufacture 12 cylinder cover studs, 2 compressor rods, 2 oil tank cocks, 2 blow-down valves, 4 winch stop valves, etc.; overhaul locks and keys on specie room; U. S. M. P. *Nones, Jr.*, rebrick boiler front; renew docking shoe; renew stem band and wooden stem, etc.; steamship *Sorato*, manufacture 2 tube stoppers; barges *Nos. 2 and 21*, renew deck plating as directed; steamship *Loch Katrine*, repair copper pipe; supply boat *No. 1*, manufacture valve and gaskets; steamships *Tolosa*, *Tregantle*, and *Aysen*, minor repairs.

**Commercial Traffic by Nationality of Vessels, Calendar Year 1921.**

The aggregate number and tonnage of commercial vessels of various nationalities passing through the Panama Canal during the calendar year 1921, and the total of tolls paid and cargo carried by them, are summarized in this table:

| Nationality.       | No.<br>of<br>ships. | TONNAGE.                        |                         |                      |                    | Tolls.        | Tons of<br>cargo. |
|--------------------|---------------------|---------------------------------|-------------------------|----------------------|--------------------|---------------|-------------------|

A comparison of the cargo statistics with the corresponding figures for the calendar year 1920 shows that the total amount of cargo handled through the Panama Canal in 1921 declined  $4\frac{1}{2}$  per cent. Cargo transported in American bottoms declined 17 per cent; French, 10 per cent; Spanish, 55 per cent; Peruvian, 34 per cent, and Chilean, 57 per cent. Cargo transported in British bottoms increased 4 per cent; Danish, 124 per cent; Dutch, 95 per cent; Swedish, 66 per cent; Norwegian,  $9\frac{1}{2}$  per cent; and Japanese, 28 per cent.

## Official Circular.

## Grass Fires.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., March 1, 1922.

To all concerned—Recently several small fires which started alongside the main road between Pedro Miguel and Gamboa on the east side, and Pedro Miguel and Culebra on the west side of the Canal, spread to adjoining cattle pastures and caused considerable damage to the pastures and necessitated a large amount of work to protect the cattle and get the fire under control.

It is directed that anyone having occasion to use the interior roads in the Canal Zone be careful not to start any grass fires by throwing lighted cigars, cigarettes, or matches into the dry grass along the highways.

M. L. WALKER, Acting Governor.

## Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

## Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa.

For coal in large quantities as specified below, taken from alongside Cristobal Coaling Plant by vessels transiting the Canal:

(a) To vessels taking 1,200 tons or over;  
(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at \$10 per ton of 2,240 pounds.

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at \$10 per ton.

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 4 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

## Certificate.

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

## MOVEMENTS OF OCEAN VESSELS.—Continued from page 395.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV.

Balboa Heights, C. Z., March 15, 1922.

No. 31.

## Projects for Increasing the Dry Season Water Supply.

An investigation was made in February by the Chief Hydrographer and the Chief of Section of Surveys of the practicability of diverting into Gatun Lake the Indio River, which flows into the Caribbean about 20 miles west of the mouth of the Chagres. The project was found to be impracticable, primarily because of the lack of a suitable dam site on the Indio below its junction with the Rio Esterial, which runs between the upper reaches of the Indio and the watershed of the lake. The Esterial has about half the flow of the Indio and is not large enough to justify the cost of diverting it into the lake.

Diversion of the Indio into Gatun Lake was considered for the purpose of increasing the supply of water during the dry season. Alternative projects being considered by the Canal administration are the construction of a supplementary reservoir above Alhajuela, on the Chagres River beyond the limits of the lake, and of a dam west of Pedro Miguel Lock to incorporate within the lake area a part of the Rio Grande valley above Miraflores Lake. The Alhajuela project would give an additional storage of between 15 and 30 billion cubic feet (the present dry season storage between the 87- and 80-foot levels is 31.95 billion cubic feet) and would also furnish power for electrical development. The Pedro Miguel project, by decreasing the surges in Gaillard Cut resulting from drafts of water for lockages at Pedro Miguel, should make it possible to raise the maximum elevation to 88 feet and give an additional half foot available depth at low stages of the lake, which would increase the storage range from the present 7 feet to 8½ feet, or add about 6.7 billion cubic feet to the storage.

Decision has not been made as to which project, if either, will be recommended to Congress. Under present operating conditions there is no danger of a shortage which would interfere with traffic. Consideration of the extension of the water supply is with an eye to the future.

## Cuban Sugar to the Far East.

The steamship *Lord Sefton*, operated by the Universal Steam Navigation Company, passed through the Canal on March 5 with a cargo of 5,000 tons of sugar, from Nuevitas, Cuba, for Hongkong. On February 20 the *Cape Ortegat* made the transit with 7,400 tons shipped from Cuba to Japan.

During the calendar year 1921, 92,791 tons of sugar from the West Indies passed through the Canal, along with 250 tons shipped from the east coast of the United States. Of the total of 93,041 tons, 43,880 tons were shipped to the Far East, 26,140 tons to Australasia, and 22,741 tons to the west coast of Canada; 220 tons were shipped to the west coast of the United States and 60 tons to the west coast of South America.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, March 11, 1922.

## THROUGH THE CANAL—ATLANTIC TO PACIFIC.

### Executive Order.—Crew Lists.

#### Amending Further the Provisions of the Executive Order of August 8, 1918, Concerning Travel Between the United States and Neighboring Countries, and Authorizing the Requirement of Crew Lists.

By virtue of the authority vested in me by the Act of Congress<sup>1</sup> approved the twenty-second day of May, one thousand, nine hundred and eighteen, entitled "An Act to Prevent in Time of War Departure from and Entry into the United States Contrary to the Public Safety," and with reference to the Presidential Proclamation<sup>2</sup> and Executive Order<sup>3</sup> of August eight, one thousand, nine hundred and eighteen, adopted in pursuance thereof, and the Act of Congress of March 2, 1921, entitled, "An Act making appropriations for the Diplomatic and Consular Service for the fiscal year ending June 30, 1922," I hereby prescribe the following amendments to said Executive Order:

\* \* \* \* \*

#### II.

1. Masters of vessels of all nationalities sailing for a port of the United States of America or of any of its possessions, except the Panama Canal Zone, must submit for visa a list containing the names of all the alien members of the vessel's crew to the American consular officer at the port from which the vessel commences its voyage. If there is no American consular officer stationed at that port, the crew list should be submitted at the first port of call (if the vessel touches at any other port) where an American consular officer is located. This does not refer to consular agents, who are not authorized to visa crew lists.

2. When a vessel sails from a port where no American Consul is stationed, but which is so near to an American Consulate that unreasonable delay and serious loss would not result from referring the crew list to such Consulate, it should be referred thereto for visa.

3. The visaed crew list must be presented to an officer of the immigration service upon the arrival of the vessel at a port of the United States, before any alien member of the crew can be allowed to land.

4. If an alien seaman whose name is not included in a visaed crew list arrives at a port of the United States he shall not be allowed to land except upon the permission of the Secretary of State.

This order replaces the Order (No. 3505) of June 25, 1921,<sup>4</sup> "Amending the Provisions of the Executive Order of August 8, 1918,<sup>3</sup> concerning Travel between the United States and Neighboring Countries, and Authorizing the Requirement of Crew Lists."

WARREN G. HARDING.

THE WHITE HOUSE,  
February 1, 1922.

<sup>1</sup>Published as Panama Canal Circular No. 600-49.

<sup>2</sup>Published as Panama Canal Circular No. 601-79.

<sup>3</sup>Published as Panama Canal Circular No. 601-80.

<sup>4</sup>Published as Panama Canal Circular No. 601-123.

The Executive Order above, dated February 1, 1922, has been published as Panama Canal Circular No. 601-129.

#### Note Concerning Executive Order of February 1, 1922, on Crew Lists.

The purpose of the above order is presumably to assist in the enforcement of the immigration laws of the United States. The specific exemption of the Canal Zone ports in paragraph 1 of Section II makes the order inapplicable to vessels bound for Canal Zone ports or for passage through the Canal except as they may also be on their way to other United States ports, in which case the immigration officers at those ports will see to the compliance with the order. Names of aliens who ship in ports of the Canal Zone on vessels sailing therefrom to the ports of the continental United States or its insular possessions must appear on crew lists visaed by consular officers of the United States at Panama City or Colon, or by the Shipping Commissioner, or Deputy Shipping Commissioner of the Canal Zone, in accordance

with requirements of Executive Order of October 18, 1921, published as Panama Canal Circular No. 601-125.

The order of February 1, 1922, does not change the requirements of The Panama Canal of 2 copies of a complete crew list, Americans as well as aliens (Form 1509), as set forth in Notice to Steamship Lines issued by the Governor under date of October 22, 1919.

### Notice to Mariners.—Aids to Mariners—Buenaventura Harbor.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 9, 1922.

Five Swedish buoys have been established at Buenaventura in following positions, which must be taken as approximate, bearing having been taken after sunset:

No. 1 Buoy, showing a white flash every 3 seconds, about  $1\frac{1}{2}$  miles south of Vigia de San Pablo in 4 fathoms, with Culo de Barca bearing N.  $42^{\circ}$  W., distant  $2\frac{1}{2}$  miles.

No. 2 Buoy, showing red flash every 3 seconds, about 4 cables north of Soldado Point in 10 fathoms.

No. 3 Buoy, showing a white flash every 3 seconds, on the 3-fathom patch, with Limones Point bearing N.  $77^{\circ}$  E., distant  $1\frac{3}{4}$  miles.

No. 4 Buoy, showing a white flash every 3 seconds on to Tomes Shoals, replacing the boiler buoy which formerly existed.

No. 5 Buoy, showing a red flash every 3 seconds on edge of mud flats off the town and about 4 cables distant from the new mole bearing N.  $30^{\circ}$  E., to be kept on starboard hand when entering and on port hand, leaving.

All bearings are magnetic. Buoys were established March 6, and are painted red. The white lights are visible about 8 miles and red lights about 6 miles.

JAY J. MORROW,  
Governor.

### Ships at Canal Repair Shops.

The following vessels were at the Cristobal shops for repairs during the week ended March 13:

Motor ship *Laura C. Hall*, clean and paint bottom; straighten tail shafts and fit new propellers; rebabbitt strut bearings; renew railing and planking as directed, etc.; tugs *Tavernilla*, connect up dynamo; renew gaskets in all deckhouse doors; repair pipe, etc.; *Favorite*, manufacture and install new rudder; repair dynamo and brake band on after winch; repair hull on launch, etc.; steamships *Advance*, renew rods on feed and sanitary pumps; manufacture dynamo crosshead bushings; plane crosshead; braze expansion band; build foundation for anchor, etc.; *Acajulla*, turn up feed pump rams; fit cylinder to winch; repair Venetian windows; repair and rebrick galley range; overhaul sanitary piping; renew steering chain links; calk main deck; renew part of superstructure deck; *Rimutaka*, manufacture new condenser circulating pipe; *Manavi*, install glass on port and side light; repair accommodation ladder, No. 2 starboard derrick, and between deck hatches; repair specie room door and hot water tank in pantry; *Achilles*, remetal 1 set of M. P. crank-pin brasses; repair steam heating system; clean boilers; clear scuppers; repair stanchions and railings on forecandle deck; paint boot topping, etc.; *Gen. G. W. Goethals*, calk passenger deck; repair fire line; turn up H. P. bull ring and manufacture 8 snap rings, etc.; *Columbia*, *Heredia*, *Jamaica*, *Thomas L. Wand*, *St. Joseph*, *U. S. S. Galveston*, U. S. mine planter *Graham*, barge *Darien*, launch *Gold Star*, minor repairs.

## Automobiles and Motorcycles.

The Chief of the Division of Civil Affairs has authorized the following:

At the end of December, 1921, there were 2,113 automobiles and trucks and 392 motorcycles licensed in the Canal Zone, as compared with 1,811 and 353, respectively, on December 31, 1920.

Automobile licenses are divided into 3 classes: For pleasure only; for hacking, or carrying passengers for hire; and for trucking. Of the 2,113 automobile and truck licenses, 658 were for official cars belonging to The Panama Canal, the Panama Railroad Company, and the United States Army and Navy, and 36 were reciprocal licenses for official cars belonging to the Republic of Panama, as compared with 623 and 28, respectively, on December 31, 1920. Of the 1,419 remaining, 556 were personal licenses, 100 hacking licenses, and 9 trucking licenses, issued to residents

of the Canal Zone, as compared with 450, 49, and 2, respectively, on December 31, 1920; 127 and 78 were reciprocal personal licenses issued to residents of Panama and Colon, respectively; and 424 and 125 were reciprocal commercial licenses issued to persons living in Panama and Colon, respectively.

The reciprocal automobile licenses of all classes in effect at the end of December, 1921, including official licenses, totaled 813, as compared with 687 on December 31, 1920. Of the 549 reciprocal commercial licenses above mentioned, 481 were for hacking, or carrying passengers for hire, and 68 for trucking.

Of the 392 motorcycle licenses, 223 were for official machines belonging to the United States, and 1 was a reciprocal license for an official machine belonging to the Republic of Panama. Of the 168 remaining, 146 were personal licenses issued to residents of the Canal Zone, 17 reciprocal personal licenses issued to residents of the city of Panama, and 5 reciprocal personal licenses issued to residents of Colon. On December 31, 1920, there were 353 motorcycles licensed in the Canal Zone, of which 203 were official licenses for machines owned by the United States, 1 was a reciprocal license for a machine owned by the Republic of Panama, 128 were personal licenses issued to residents of the Canal Zone, 13 reciprocal personal licenses issued to residents of the city of Panama, and 8 reciprocal licenses issued to residents of Colon.

### Partial Eclipse of Sun, Visible on the Isthmus.

The Chief Hydrographer advises that there will be an annular eclipse of the sun at 6.20 a. m., approximately sunrise, on March 28, 1922. The sun will rise at about the middle of the period of partial eclipse, and will be completely out of the obstructed path at about 7.20 a. m.

### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective March 1, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.20 |
| Brass, sheet, average.....                                        | Lb.            | .29    |

### Scrap Burlap Bagging.

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

### Sale of Cattle.

Grade Holstein bull calves 1 to 3 months old from registered sires. Also grade Hereford and Durham bulls and heifers 6 months to 2 years old. Sales will be made upon first satisfactory offer. For further information inquire Superintendent, Cattle Industry, Room 269, Administration Building, Balboa Heights.

### Invitation for Proposals for Furnishing Honey.

Sealed bids will be received in the office of General Manager, Commissary Division, Cristobal, until 4 p. m. March 20, and then opened, for supplying the Commissary Division with best grade extracted Panama honey, light color, put up in sealed milk bottles, pint size, cost of bottle to be included in bid, delivered at any retail commissary.

Bids should state fully the total quantity of honey which the bidder will be in position to supply monthly until further notice.

Offers will also be accepted for comb honey, bidder to indicate quantity of this item offered and likely to be available at the price quoted, and should state exact size and weight of comb.

For the information of bidders, Commissary Division requirements are estimated at 400 pints extracted honey, and 300 pounds comb honey per month. This is an estimate only, and the Commissary Division will not be bound in any way by these figures. Awards will be placed for greater or lesser quantities as the case may be, based on sales.

Bids must be inclosed in a sealed envelope, addressed to "General Manager, Commissary Division, Cristobal," and marked "Proposal for furnishing honey, to be opened March 21."

The Commissary Division reserves the right to reject any or all bids.

### Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Panacan, Panama;" in the United States, "Panacan, Washington."

### Certificate.

By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., March 22, 1922.

No. 32.

## Radio Pratique for Merchant Vessels.

The granting of pratique by radio to merchant vessels under certain conditions, authorized by Panama Canal Circular No. 626-10, dated February 17, 1922, has worked satisfactorily. The practice is in line with the policy of The Panama Canal of facilitating in every practicable way the prompt and easy dispatch of vessels, while maintaining the necessary safeguards. The quarantine restrictions and delays are kept to the minimum consistent with due regard for safety.

The conditions under which pratique is granted by radio are as set forth in the circular, which is reprinted below for ready reference:

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, February 17, 1922.

CIRCULAR No. 626-10.

### Radio Pratique for Merchant Vessels.

Hereafter, ships with clean bills of health, from noninfected ports, and without sickness on board, intending to transit the Canal without taking supplies or stores of any kind or landing passengers or cargo, may be granted pratique by radio under the following conditions:

(a) By making application therefor by radio between the hours of 8 a. m. and 4 p. m. Such application to state:

1. That the vessel has a clean bill of health and has no sickness on board.
2. Names of ports and places visited within the past 10 days.
3. That the vessel intends to transit the Canal without taking stores of any kind or landing passengers or cargo.

(b) Radio will be addressed to Chief Quarantine Officer through Port Captain.

(c) Pratique will not be considered as granted until reply has been received from Port Captain "Chief Quarantine Officer grants pratique."

M. L. WALKER.  
Acting Governor.

## Salvage of the "Garfield" Completed.

The steamer *Garfield*, aground in Galera de Zamba Bay, Colombia, since January 21, got clear at 3.45 p. m., March 18. The salvage steamer *Favorite* of The Panama Canal, which assisted in freeing the *Garfield*, brought her in tow to Cristobal, arriving there at 5 a. m., March 20. The *Garfield* was leaking and it may be necessary to put her in dry dock.

As told in THE PANAMA CANAL RECORD of March 8, the salvage operations were difficult, on account of the wide reach of shallows, where heavy seas, frequently rolling under a 50-mile gale, made work slow and hazardous. The *Garfield* traveled  $1\frac{3}{4}$  miles through a series of bars, coming to a stop in 5 feet of water; and in order to get clear had to work back to clear water through the same obstructions, while most of the time heavy seas were pounding her. It is considered remarkable that she came through with such relatively little damage and without the loss of her cargo.

### Reported Record Trip from New York to Sydney.

The following is from the *New York Herald* of March 6:

What is probably a record for a freighter's trip from New York to Australia via the Panama Canal is reported by Funch, Edye & Co., American agents for the Commonwealth and Dominion Line. The *Port Nicholson* left New York January 21 and arrived at Brisbane February 24 and Sydney March 1 or 36 days in all after a stop of 2 days for bunkers at Newport News.

The *Port Nicholson* arrived at Cristobal on this voyage at 11.11 p. m., January 29, and started through the Canal at 7.22 the following morning, taking place No. S 2 in the schedule for transit. She completed transit at 3.42 p. m. and cleared for sea at 4.19 p. m., after receiving commissary supplies, which had been ordered on arrival and were delivered at Balboa from the supply boat while the vessel was underway.

Commenting on this voyage, the agent for the Commonwealth and Dominion Line on the Isthmus states:

According to books of reference we have, the following are the distances in nautical miles:

|                               |       |
|-------------------------------|-------|
| New York to Newport News..... | 289   |
| Newport News to Colon.....    | 1,776 |
| Colon to Balboa.....          | 38    |
| Balboa to Brisbane.....       | 7,603 |
| Brisbane to Sydney.....       | 474   |

Total nautical miles..... 10,180

As the vessel arrived in Brisbane on February 24 and in Sydney on March 1, it is to be assumed that she remained in the former port until February 27. Brisbane to Sydney would be a 36-hour run. Allowance must be made for the setback in date of a day when she crossed the Date Line about meridian 180.

The *Port Nicholson* is a twin-screw steamer of 8,402 tons gross register, equipped with steam turbines, which give her a speed of between 13 and 14 knots. She is one of the latest of the line, having been built in 1919.

### Unusual and Exacting Repair Job.

The following is from the report of the Superintendent of the Mechanical Division for the month of February:

A most unusual and exacting job in the nature of repairs was performed by the Balboa shops on the crank shaft from the port auxiliary compressor engine of the motor ship *Pedro Christopherson*. Due to an accident on board ship the 4-throw crank shaft was twisted, leaving the shaft distorted to a total of about 63 degrees from a vertical line from No. 1 throw to the end of the shaft. The distortion existed in all of the throws from 16 to 18 degrees in each one. The shaft was about 13 feet 6 inches over all, the radius of the throws 8 inches and the diameter of the crank and main bearings about 7½ inches. It was dismantled and sent to the shops, heated and straightened and the throws and journals turned; the maximum amount of material lost in the re-turning did not exceed 3/64 of an inch. When the rigidity of the shaft, the general twist over its entire length, and the small amount of material lost in remachining is considered, it is believed that an unusually difficult job was very successfully handled.

### Agency for United States Mail Steamship Company's European Passenger Service.

The Panama Railroad Company has accepted the agency of the United States Mail Steamship Co., Inc., for the sale of passenger tickets over the line of that company between New York and Europe. Through tickets from the Isthmus to European ports may be purchased from the Steamship Ticket Agent of the Panama Railroad Company at Cristobal.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the two weeks ended March 21:

Steamship *Argyll*, furnish air for operation of ship's auxiliaries; clean salt out of boilers; scale furnaces, combustion chamber, and tube sheets; install approximately 575 new tubes; barge *No. 13*, dock and undock; clean bottom; remove and install 8 new shell plates; paint bottom 1 coat of anticorrosive and 1 coat of antifouling; launch *Palo Seco*, remetal crank bearings; remove tail shaft; repair hull, woodwork, and general minor repairs; motor ship *Rosana*, manufacture 2 collars and 3 nozzles; steamship *Easterner*, manufacture and install a plate patch on lower end of air pump walking beam bracket; drill low-pressure cylinder column and install through bolts for supports; fit taper pin in air pump rod.

### PREVIOUSLY REPORTED.

Steamship *La Habra*, dock and undock; stage and clean; paint bottom and general operating repairs; tug *Gorgona*, dock and undock; stage and clean; chip and paint bottom; draw tail shaft and miscellaneous repairs to ship's operating gear; barge *No. 135*, straighten coaming; tighten bad order rivets; drill barge *L-55*, remove from water and place on dock; remove copper sheathing in spots for examination of hull.

The following vessels were at the Cristobal shops for repairs during the week ended March 20:

Steamships *Stuyvesant*, manufacture M. P. valve stem, valve, and rings; repair air pump valves and make 8 sets of Kinghorn metal valves; repair steering engine exhaust line; repair brine line for ice machine, etc.; *Port Chalmers*, manufacture new H. P. piston follower, bull ring, snap rings, and bolts etc.; *Balboa*, electric weld boiler as directed; furnish steering chains and overhaul steering gear and blocks; repair hand fire pump; renew floor plates in stokehold; repair steam pipe to forward winches; manufacture box wrench; renew brake band on windlass, etc.; *Liebre*, renew air pump bracket; check up beam; true up pump rod, etc.; *Advance*, install valve in auxiliary steam line; manufacture 2 rods for sanitary pump; repair bilge suction line in engine room; anneal and repair steering chains; repair No. 1 winch cylinder; install fresh water pump in engine room, etc.; *Gen. H. F. Hodges*, install reinforcing plate on shell, amidships; anneal spare set of steering chains; refasten mooring checks on after counter; repair dining room chairs, etc.; *Colon*, install patches on lifeboat; repair wire to engine and rudder indicators; electric weld horse collar on starboard forward boiler, etc.; *Salvador*, remetal crank brass; manufacture 2 compressor rods; face up grooves in H. P. piston hood and supply and fit new rings, etc.; *Jamaica*, manufacture new boom; install 2 pins in steering engine coupling, etc.; *Mantaro*, renew tee piece in suction line to sanitary pump; manufacture 6 studs and braze copper pipe, etc.; *Point Judith*, tug *Favorite*, and launches *Gold Star* and *Wilhelm*, minor repairs.

#### Scheduled Sailings of Panama Railroad Liners.

The following are proposed sailings of vessels of the Panama Railroad Steamship Line between Cristobal and New York, all voyages being by way of Port-au-Prince, Haiti:

##### CRISTOBAL TO NEW YORK.

| Steamer.               | Leave.        | Arrive.   |
|------------------------|---------------|-----------|
| Colon.....             | March 24..... | April 1.  |
| Panama.....            | April 4.....  | April 12. |
| Gen. Geo. W. Goethals. | April 14..... | April 22. |
| Colon.....             | April 24..... | May 2.    |
| Panama.....            | May 5.....    | May 13.   |
| Gen. Geo. W. Goethals. | May 13.....   | May 21.   |
| Colon.....             | May 24.....   | June 1.   |

##### NEW YORK TO CRISTOBAL.

#### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa.

For coal in large quantities as specified below, taken from alongside Cristobal Coaling Plant by vessels transiting the Canal:

- To vessels taking 1,200 tons or over;
- To vessels taking between 825 and 1,200 tons and bunkering full;
- To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at \$10 per ton of 2,240 pounds.

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at \$10 per ton.

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 4 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

#### Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

#### Scrap Burlap Bagging.

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging included in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

#### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

No. 33.

## CANAL WORK IN FEBRUARY.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of February, 1922:

BALBOA HEIGHTS, C. Z., March 18, 1922.

*The Honorable, the Secretary of War,*  
*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of February, 1922.

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal during the month of February, 1922, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | February,<br>1922. | January,<br>1922. | February,<br>1921. |
|-------------------------------------------------|--------------------|-------------------|--------------------|
| Commerical vessels.....                         | 212                | 210               | 241                |
| Noncommercial vessels.....                      | 12                 | 22                | 94                 |
| Launches, etc. (under 10 tons measurement)..... | 5                  | 6                 | 3                  |
| Total vessels and craft through Canal.....      | 229                | 238               | 338                |

In addition to the foregoing, Panama Canal equipment consisting of floating cranes, barges, craneboats, graders, etc., was passed through the locks as follows:

|                   |    |
|-------------------|----|
| Gatun.....        | 18 |
| Pedro Miguel..... | 31 |
| Miraflores.....   | 27 |

### COMMERCIAL TRAFFIC.<sup>1</sup>

#### Tolls.

Under the present dual method of assessing tolls, the revenue from this source was \$866,266.18. Had the net tonnage as determined by the Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$176,001. These additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------|----------------------------|----------------------------|-------------|
| British.....       | \$34,268.19                | \$19,990.20                | \$54,258.39 |
| Chilean.....       | 3,200.00                   | 2,548.10                   | 5,748.10    |
| Danish.....        | 334.10                     | 244.65                     | 578.75      |
| Dutch.....         | 1,297.40                   | 3,929.70                   | 5,227.10    |
| French.....        | 475.20                     | 1,429.78                   | 1,904.98    |
| German.....        | 797.30                     | 2,412.75                   | 3,210.05    |
| Italian.....       |                            | 1,481.30                   | 1,481.30    |
| Japanese.....      | 4,379.65                   |                            | 4,379.65    |
| Norwegian.....     | 2,595.15                   | 1,529.25                   | 4,124.40    |
| Peruvian.....      | 3,315.75                   | 3,315.75                   | 6,631.50    |
| Swedish.....       | 1,928.75                   | 2,049.95                   | 3,978.70    |
| United States..... | 39,526.38                  | 44,951.70                  | 84,478.08   |
| Totals.....        | 92,117.87                  | 83,883.13                  | 176,001.00  |

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

The additional tolls which would have been paid by United States vessels would have been distributed among the following channels of trade:

|                                                  | Atlantic to Pacific. | Pacific to Atlantic. | Total.      |
|--------------------------------------------------|----------------------|----------------------|-------------|
| United States coastwise ports.....               | \$24,777.58          | \$19,449.70          | \$44,227.28 |
| United States and Canal Zone ports.....          | 319.70               |                      | 319.70      |
| United States and United States possessions..... |                      | 2,199.25             | 2,199.25    |
| United States and foreign ports.....             | 13,151.15            | 21,183.92            | 34,335.07   |
| Between foreign ports.....                       | 1,277.95             | 2,118.83             | 3,396.78    |
| Totals.....                                      | 39,526.38            | 44,951.70            | 84,478.08   |

Of the \$176,001 additional revenue that would have been collected by using the Panama Canal rules exclusively, \$5,478.80 represents the additional tolls that would have been collected on account of deck cargo.

#### COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Panama Canal in February, 1922, with that of the preceding months, along the lines indicated at the head of the various tables:

#### TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | February, 1922. | January, 1922. | February, 1921. | Average month for past year. |
|-------------------------------------------|-----------------|----------------|-----------------|------------------------------|
| United States equivalent net tonnage..... | 710,548         | 689,035        | 763,925         | 764,519                      |
| Panama Canal net tonnage.....             | 886,535         | 846,516        | 916,838         | 940,632                      |
| Registered gross tonnage.....             | 1,116,014       | 1,069,840      | 1,179,979       | 1,188,406                    |
| Registered net tonnage.....               | 700,126         | 691,648        | 752,022         | 758,378                      |
| Tolls.....                                | \$866,266.18    | \$847,767.55   | \$917,412.49    | \$926,795.18                 |
| Cargo.....                                | 838,074         | 807,298        | 952,904         | 882,313                      |

## COMMODITY STATISTICS.

A classification of cargo passing through the Panama Canal during the month of February, 1922, has been compiled from declarations of cargo submitted by the ships' masters, and while incomplete, is indicative of the kind and quantity of the various commodities carried by ships transiting the Canal. From the cargo declarations and manifests submitted, it was possible to classify by commodities 81 per cent of all cargo passing from the Atlantic to the Pacific, and 93 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

| Commodity.                                | February,<br>1922. | January,<br>1922. | December,<br>1921. | November,<br>1921. | October,<br>1921. | September,<br>1921. |

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varies in different ships as the ratio of cargo tonnage to the net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of February, 1922, by nationality of vessels:

|                                             | Atlantic to Pacific. | Pacific to Atlantic. | General average. |
|---------------------------------------------|----------------------|----------------------|------------------|
| British.....                                | \$1.17               | \$1.05               | \$1.12           |
| Chilean.....                                | 1.79                 | 8.24                 | 2.24             |
| Danish.....                                 | .75                  | .81                  | .77              |
| Dutch.....                                  | 1.99                 | .58                  | .82              |
| French.....                                 | 4.13                 | .88                  | 1.08             |
| German.....                                 | 2.56                 | .88                  | 1.27             |
| Italian.....                                |                      | 6.56                 | 6.56             |
| Japanese.....                               | .87                  |                      | .87              |
| Norwegian.....                              | .67                  | .90                  | .75              |
| Peruvian.....                               | 4.19                 | 1.06                 | 1.69             |
| Swedish.....                                | 1.44                 | .51                  | .77              |
| United States.....                          | 1.04                 | .94                  | .99              |

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of February, 1922, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of March 8, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of February, 1922, for the preceding month, and for the corresponding month of last year:

| Vessels plying between—              | Atlantic to Pacific.      |                   |                    | Pacific to Atlantic.      |                   |                    |
|--------------------------------------|---------------------------|-------------------|--------------------|---------------------------|-------------------|--------------------|
|                                      | February<br>1922.         | January.<br>1922. | February.<br>1921. | February.<br>1922.        | January.<br>1922. | February.<br>1921. |
|                                      | Number of vessels.        |                   |                    | Number of vessels.        |                   |                    |
| United States coastwise.....         | 25                        | 28                | 15                 | 19                        | 20                | 17                 |

\* Displacement tonnage, 10,978.

#### CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Panama Canal free of tolls during the month of February, 1922. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Panama Canal; these are not included in the commercial traffic:

|                                      | Atlantic to Pacific. |                           |           | Pacific to Atlantic. |                           |          |

| Vessels entering port but not transiting the Canal            | 49                 | 252,883           | 150,641         | 7               | 28,820            | 17,853          |
| Vessels transiting Canal and handling passengers or cargo     | 49                 | 203,384           | 122,885         | 41              | 142,163           | 86,549          |

## COMMISSARY SALES TO VESSELS.

The following is an itemized statement of commissary sales to all vessels during the month of February, 1922:

|                           | Ice.     | Groceries. | Cold storage. | Laundry.   | Miscellaneous. | Total.     |
|---------------------------|----------|------------|---------------|------------|----------------|------------|
| Sales at Cristobal to—    |          |            |               |            |                |            |
| U. S. Government vessels. | \$72.36  | \$51.03    | \$287.52      |            | \$28.84        | \$439.75   |
| Panama Railroad vessels   | 54.00    | 694.89     | 3,879.54      |            | 598.45         | 5,226.88   |
| Other commercial vessels  | 1,316.56 | 1,971.57   | 14,250.12     |            | 692.61         | 18,230.86  |
| Totals, February, 1922    | 1,442.92 | 2,717.49   | 18,417.18     |            | 1,319.90       | 23,897.49  |
| Totals, January, 1922     | 1,579.51 | 15,558.24  | 3,105.54      |            | 968.55         | 21,211.84  |
| Totals, February, 1921    | 2,794.41 | 8,461.11   | 44,316.50     | \$5,133.60 | 4,659.88       | 65,365.50  |
| Sales at Balboa to—       |          |            |               |            |                |            |
| U. S. Government vessels  | 49.52    | 597.14     | 870.59        |            | 1.38           | 1,518.63   |
| Other commercial vessels  | 311.34   | 2,551.13   | 11,363.24     |            | 1,040.45       | 15,266.16  |
| Totals, February, 1922    | 360.86   | 3,148.27   | 12,233.83     |            | 1,041.83       | 16,784.79  |
| Totals, January, 1922     | 474.40   | 4,082.16   | 12,320.07     | 69.30      | 1,324.62       | 18,270.55  |
| Totals, February, 1921    | 2,981.76 | 14,994.75  | 94,814.40     | 2,562.82   | 21,053.93      | 136,407.66 |

## MOVEMENTS OF PASSENGERS.

The following statement shows the number of passengers arriving and embarking at Canal ports during the month of February, 1922:

|                                  | At Cristobal. |         |        | At Balboa.   |         |        |
|----------------------------------|---------------|---------|--------|--------------|---------|--------|
|                                  | First class.  | Others. | Total. | First class. | Others. | Total. |
| Disembarking:                    |               |         |        |              |         |        |
| From Atlantic ports.             | 814           | 799     | 1,613  |              |         |        |
| From Pacific ports.              | 194           | 54      | 248    | 156          | 26      | 182    |
| Total disembarking.              | 1,008         | 853     | 1,861  | 156          | 26      | 182    |
| Embarking:                       |               |         |        |              |         |        |
| For Atlantic ports.              | 829           | 711     | 1,540  | 4            |         | 4      |
| For Pacific ports.               | 210           | 36      | 246    | 109          | 85      | 194    |
| Total embarking.                 | 1,039         | 747     | 1,786  | 113          | 85      | 198    |
| Remaining on board vessels:      |               |         |        |              |         |        |
| From Atlantic to Pacific ports.  | 659           | 2,236   | 2,895  | 626          | 2,332   | 2,958  |
| From Pacific to Atlantic ports.  | 349           | 308     | 657    | 544          | 397     | 941    |
| From Atlantic to Atlantic ports. | 888           | 97      | 985    |              |         |        |
| From Pacific to Pacific ports.   |               |         |        | 13           | 376     | 389    |
| Total remaining on board.        | 1,896         | 2,641   | 4,537  | 1,183        | 3,105   | 4,288  |
| Total passengers departing.      | 2,935         | 3,388   | 6,323  | 1,255        | 3,163   | 4,418  |
| Total passengers arriving.       | 2,904         | 3,494   | 6,398  | 1,339        | 3,131   | 4,470  |

## LOCK OPERATION.

The following tabulations give the number of lockages, vessels through the locks, and the consumption of water for lockages, for the month of February, 1922, as compared with that of the preceding month and of the corresponding month of last year:

## NUMBER OF LOCKAGES.

|                                 | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|---------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                 | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.                          | 94          | 107    | 201    | 3              | 2      | 5      | 206          |
| Pedro Miguel.                   | 97          | 111    | 208    | 6              | 10     | 16     | 224          |
| Miraflores.                     | 88          | 101    | 189    | 4              | 5      | 9      | 198          |
| Total lockages, February, 1922. | 279         | 319    | 598    | 13             | 17     | 30     | 628          |
| Total lockages, January, 1922.  | 246         | 351    | 597    | 44             | 42     | 86     | 683          |
| Total lockages, February, 1921. | 362         | 338    | 700    |                |        | 71     | 771          |

## NUMBER OF VESSELS PUT THROUGH LOCKS.

|                                | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|--------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.                         | 104         | 121    | 225    | 13             | 17     | 30     | 255          |
| Pedro Miguel.                  | 100         | 116    | 216    | 20             | 20     | 40     | 256          |
| Miraflores.                    | 100         | 116    | 216    | 19             | 17     | 36     | 252          |
| Total vessels, February, 1922. | 304         | 353    | 657    | 52             | 54     | 106    | 763          |
| Total vessels, January, 1922.  | 263         | 384    | 647    | 92             | 105    | 197    | 844          |
| Total vessels, February, 1921. | 385         | 362    | 747    |                |        | 451    | 1,198        |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                              | Gatun. | Pedro Miguel. | Miraflores. |
|------------------------------|--------|---------------|-------------|
| Army and Navy vessels.       | 12     | 9             | 9           |
| Canal equipment.             | 18     | 31            | 27          |
| Total noncommercial vessels. | 30     | 40            | 36          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                        | Gatun.             | Pedro Miguel.      | Miraflores.        |
|----------------------------------------|--------------------|--------------------|--------------------|
|                                        | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages.....                          | 834,610,000        | 805,470,000        | 633,920,000        |
| Leakage.....                           | 20,000,000         | 16,530,000         | 67,000,000         |
| Maintenance.....                       |                    |                    | 22,040,000         |
| Total consumption, February, 1922..... | 854,610,000        | 822,000,000        | 722,960,000        |
| Total consumption, January, 1922.....  | 861,680,000        | 877,770,000        | 760,150,000        |
| Total consumption, February, 1921..... | 1,030,310,000      | 994,570,000        | 965,240,000        |

#### METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographic conditions over the Canal Zone and vicinity during the month of February, 1922, are shown in comparative form:

| Rainfall.                                       | February, 1922. | February, 1921. | February—Years of record. |                 |                 |

\* This represents the maximum 24-hour rainfall recorded on the Isthmus since American occupation. Recorded at Porto Bello on December 28-29, 1909.

\* This figure represents the maximum momentary discharge on record, occurred on December 26, 1909.

NOTE.—Bocas del Toro not included in data for February, 1922.

#### SEISMOLOGY.

Only one seismic tremor was recorded during the month. This occurred on the evening of the 15th. The epicenter of the disturbance was about 400 miles distant and the indicated probable direction was northwest. This was later confirmed by cable which reported a disturbance in Nicaragua occurring at approximately the time the tremors were recorded at Balboa Heights.

#### ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulation:

|                                                                               | February, 1922. | January, 1922. | February, 1921. |
|-------------------------------------------------------------------------------|-----------------|----------------|-----------------|
| Gross output, KWH:                                                            |                 |                |                 |
| Gatun hydroelectric station.....                                              | 4,241,600       | 4,811,800      | 5,941,900       |
| Miraflores steam plant.....                                                   | 10,600          | 250            | 30,610          |
| Combined gross output.....                                                    | 4,252,200       | 4,812,050      | 5,972,510       |
| Water consumption..... cubic feet.                                            | 3,339,809,600   | 3,657,240,000  | 4,006,074,000   |
| Oil consumption..... barrels.                                                 | 1,810           | 1,881          | 2,101           |
| Power distributed to consumers..... KWH.                                      | 3,631,222       | 4,122,618      | 5,034,752       |

| Per cent of loss of power to gross output.....                                | 14.60           | 14.32          | 15.70           |

Miscellaneous electrical repairs and installations of electrical equipment were made on 21 vessels during the month. There were 240 work orders issued for work

to be performed by the Electrical Division during the month, as compared with 375 for the month of January, 1922.

#### SHOP, FOUNDRY, AND DRY DOCK WORK.

The output of the Mechanical Division in patterns and castings for February, 1922, as compared with the preceding month, was as follows:

|            | February, 1922. |           |         | January, 1922. |           |         |
|------------|-----------------|-----------|---------|----------------|-----------|---------|
|            | Patterns.       | Castings. | Pounds. | Patterns.      | Castings. | Pounds. |
| Iron.....  | 7               | 140       | 4,482   | 5              | 57        | 9,943   |
| Steel..... | 2               | 140       | 20,045  | 100            | 100       | 13,715  |
| Brass..... | 3               | 254       | 3,092   | 120            | 120       | 2,862   |

During the month, miscellaneous repairs were made on 45 vessels at Cristobal and 35 at the Balboa shops. Of the above vessels, 8 were placed in dry dock at Cristobal and 9 at Balboa.

A most unusual and exacting job in the nature of repairs was performed by the Balboa shops on the crank shaft from the port auxiliary compressor engine of the motor ship *Pedro Christopherson*. As the result of an accident on board ship, the 4-throw crank shaft was twisted, leaving the shaft distorted to a total of approximately 63 degrees from a vertical line from No. 1 throw to the end of the shaft. The distortion existed in all of the throws from 16 to 18 degrees in each one. The shaft was about 13 feet 6 inches over all, the radius of the throws 8 inches, and the diameter of the crank and main bearings about 7 $\frac{3}{4}$  inches. The crank shaft was dismantled and sent to the shops, heated and straightened, and the throws and journals turned; the maximum amount of material lost in the re-turning did not exceed 3/64ths of an inch. When the rigidity of the shaft, the general twist over its entire length, and the small amount of material lost in remachining are taken into consideration, it is believed that an unusually difficult job was very successfully handled.

#### DREDGING DIVISION.

Cucaracha, Culebra, and Barge Repair slides have all been quiescent during the entire month. The total excavation for the month of February, 1922, including earth and rock, was 216,550 cubic yards, as follows:

| Cubic yards. | Classified as— |        | Character of work. | Stations.                                                                                  | Equipment                            |
|--------------|----------------|--------|--------------------|--------------------------------------------------------------------------------------------|--------------------------------------|

EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., March 22, 1922.

**ITEM 21.—COAL.**

(Effective February 1, 1922.)

|                                                                                                                                                                                                                                                                                                                                     | Cristobal-Colon. | Balboa. |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|---------|
| 1. For steamships, including warships of all nations, delivered from coaling plants, per ton of 2,240 pounds, except as provided in paragraph 2.....                                                                                                                                                                                | \$12.00          | \$15.00 |
| 2. For vessels transiting the Canal that are directed by The Panama Canal to take coal at Balboa on account of the condition of the plants, the quantity available, or for the purpose of expediting transit.....                                                                                                                   |                  | 12.00   |
| 3. For steamships, including warships of all nations, when delivered from lighters in quantities of 50 tons or more, per ton of 2,240 pounds.....                                                                                                                                                                                   | 13.00            | 16.00   |
| 4. For steamships, including warships of all nations, when delivered from lighters in quantities of less than 50 tons, with minimum charge for 20 tons and with maximum charge not to exceed that for 50 tons at prices specified in paragraph 3, per ton of 2,240 pounds.....                                                      | 15.00            | 18.00   |
| 5. When request is made by commander of vessel, chief engineer, or agent, for trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, an additional charge of 90 cents per ton will be made for extra handling.                                                                                  |                  |         |
| 6. For lump coal for galley use, delivered in sacks, additional charge per ton, \$12. Should the vessel furnish satisfactory sacks, the charge will be only \$5 per ton additional. If delivery is made other than at the reloading side of the coaling plant, the extra cost of such special delivery will be charged in addition. |                  |         |
| 7. For coal for cargo, delivered only by special authority of the Governor, per ton of 2,240 pounds, prices quoted on application.                                                                                                                                                                                                  |                  |         |
| 8. Special prices for coal in large quantities as specified below, taken from alongside coaling plants:                                                                                                                                                                                                                             |                  |         |
| (a) To vessels taking 1,200 tons or over;                                                                                                                                                                                                                                                                                           |                  |         |
| (b) To vessels taking between 825 and 1,200 tons and bunkering full;                                                                                                                                                                                                                                                                |                  |         |
| (c) To vessels taking 825 or more tons and more than quantity required to bunker full;                                                                                                                                                                                                                                              |                  |         |
| Price to above three classes, per ton of 2,240 pounds.....                                                                                                                                                                                                                                                                          | 10.00            | 13.00   |
| (d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at the prices specified in paragraph (c).                                                                                                                                                                                   |                  |         |
| (e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at the prices specified in paragraph (c).                                                                                  |                  |         |
| (f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plants at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds.....                                                                   | 1.00             | 1.00    |
| (g) If less than 50 tons are delivered in lighters paragraph 4 will apply.                                                                                                                                                                                                                                                          |                  |         |
| (h) The Cristobal rates will apply to coal for vessels transiting the Canal taken at Balboa by direction of The Panama Canal.                                                                                                                                                                                                       |                  |         |

JAY J. MORROW,  
Governor, The Panama Canal.  
President, Panama Railroad Company.

Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, February, 1922.\*

Motor ship.

• Dreadnaught.

**Notice to Steamship Lines.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 17, 1922.

1. While not soliciting agencies for steamship lines The Panama Canal and the Panama Railroad Company, acting as one entity, are prepared to act as agent for any steamship line which, for any reason, desires such service from the Canal organization.

2. On and after June 1, 1922, such agency work will be taken over by the Superintendent, Panama Railroad Company, acting as agent through the Receiving and Forwarding Agent at Cristobal.

3. For the above service the following charges will be made:

Fee for each ship handled..... \$25.00  
Percentage charged for all funds advanced to cover disbursements of ship..... 2½ percent

4. All vessels appearing at the Canal for transit with no services required other than the ordinary fueling and supplies, when the latter are procured from the Panama Railroad supply plants, will be exempt from payment of the agent's fee of \$25.

JAY J. MORROW,  
Governor, The Panama Canal,  
President, Panama Railroad Company.

**Notice to Mariners.—San Jose Island Light.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 22, 1922.

The Panama Railroad steamship *Gen. H. F. Hodges* reports that at 11.30 p. m., March 21, 1922, the San Jose Island light was not burning.

This light will be put in service shortly by The Panama Canal.

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Menaces to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 23, 1922.

Master Paulsen of the steamship *Ecuador* radioed to-day:

Passed tree 4 feet in diameter, 2 feet out of water, current SSW. ½ knot, latitude 7° 15' N., longitude 81° 59' W, at 11 a. m. to-day.

JAY J. MORROW,  
Governor.

\* No cargo laded.

### The Practical Spirit.

The following is translated from an article "La traversée du Canal de Panama" appearing in *L'Opinion*, of Paris, of February 11, 1922:

\* \* \* Perhaps this piece of news will direct public attention to the Canal. We in France have too little appreciation of the immense services it renders to commerce—services of every description—for in the operation of this great enterprise the eminently practical spirit of the Americans has had free rein. In the course of a recent voyage I had occasion to convince myself of this.

Those who are disheartened by the incomprehensible administrative procrastination and . . . stupidities of . . . government will do well to take a trip through the Panama Canal, and see what can be done by a modern and progressive people.

A ship arrives at the Atlantic terminal, it is in a hurry and does not want to lose time by calling at Colon. But it requires to replenish its stores and fresh water supply, to have its linen laundered, and what not besides. As soon as it is signaled in the harbor at Colon a fast launch comes out to meet it, arranges for its passage through the Canal, books the orders, removes the soiled linen. There is no chin wagging and no unnecessary gestures. The ship steams on through the Canal between banks covered with palms, trailing vines, and banana plants. There are 3 locks to pass, at Gatun, at Pedro Miguel, and at Miraflores, and then the ship is in Panama Bay on the Pacific. Eight hours have sufficed to pass from ocean to ocean. A tug comes out to meet the ship. It brings fresh water, provisions of all kinds, tons of ice, stems of bananas, and—miraculously—the linen, left but a few hours before at the other end of the Canal, and now washed, ironed, and, if desired, even starched.

This is what the Americans have done at Panama. The practical spirit has its advantages.

### Memorial in Panama to the French Canal Builders.

The courtyard of Chiriqui Prison, formerly barracks for Colombian soldiers, with the adjacent Plaza de Armas, at the point of the peninsula on which the city of Panama is built, has been made into a park and named the Plaza de Francia. At the south end of the plaza, adjacent to the old sea wall, is being erected a memorial to the French who died in an effort to build the Panama Canal. The corner stone of the memorial was laid on July 14, 1921, by General Mangin, of France, while on a diplomatic tour of Latin-American countries.

The central feature of the memorial is an obelisk, 18 meters (59.06 feet) in height, surmounted by the French cock and adorned at the base by bas reliefs. Back of the obelisk is a semicircular gallery or arcade, in which are to be placed 10 tablets of stone, each 10 feet high by 6 feet wide, carved with scenes and legends representing the history of the Canal. Busts of Ferdinand de Lesseps, Lieut. Luc'ien Bonaparte Wyse, Armand Reclus, and Pedro J. Sosa, distinguished in the French Canal work, will form a part of the memorial.

The memorial is being paid for by contributions from governments, societies, and individuals. The committee in charge states that about \$25,000 has been expended and approximately \$5,000 is yet needed to bring the work to completion. Contributions may be addressed to the President of the Building Committee of the French Memorial, Mr. M. de Simonin, Charge d'Affaires of France, Panama, R. P.

THE PANAMA CANAL RECORD of March 17, 1915, in connection with the passage of the first French vessel through the Canal, reviewed briefly the history of the French work on the Isthmus. The concluding paragraph of the review stated:

The French spent close to \$250,000,000 on the Isthmus and lost about 6,283 lives in their attempts to build the Canal. Hundreds of the men who lost their lives in the French service are buried in the cemeteries on the Isthmus, where since have gone to join them hundreds who continued their work under the American flag. The French régime, 1881 to May 4, 1904, and the American, from the latter date to the present, have lost approximately equal numbers of employees by death.

### Protection for Fishermen at Gatun Spillway.

As a matter of protection to people fishing for tarpon at the end of the concrete discharge channel below the spillway of Gatun Lake, pipe railing fences have been erected on the side walls for a distance of 75 feet from the lower ends of the walls. Signs, devised especially for the information of visitors, have been erected on either side of the spillway, near the guard rails, reading as follows:

#### WARNING.

Fishing from the top of walls is prohibited except from behind rail fence.

Fishing by any other means than rod and reel is prohibited.

Fishing from spillway floor or apron is dangerous unless shoes are equipped with cleats.

Several fatal accidents have occurred among fishermen at the spillway, usually as the result of being pulled in by a large fish which struck while the fisherman was on one of the side walls, or from the fisherman's having lost his footing on the slippery floor and going into deep water beyond the end of the apron.

The fishing below the spillway, especially for tarpon, is excellent and attracts many visitors as well as local sportsmen. The Canal Zone Tarpon Club has a clubhouse near the spillway.

### Binders for The Panama Canal Record.

Cardboard covers, punched and fitted with brass fasteners, forming binders for THE PANAMA CANAL RECORD, are offered for sale at 25 cents a set, for the benefit of those who wish to keep a file of the current issues for ready reference. Orders may be addressed to The Panama Canal, Balboa Heights, Canal Zone, or The Panama Canal, Washington, D. C.

#### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Name.               | Check No. | Native of—    | Isthmian residence. | Employed by—           | Date of death.  |
|---------------------|-----------|---------------|---------------------|------------------------|-----------------|
| William Hannah..... | 49411     | Jamaica.....  | Colon.....          | Health Department....  | March 9, 1922.  |
| Julian Martin.....  | 39747     | Colombia..... | Monte Lirio.....    | Panama Railroad Co.... | March 12, 1922. |
| Isaac Russell.....  | 58396     | Nassau.....   | La Boca.....        | Panama Railroad Co.... | March 12, 1922. |

### Official Circular.

#### Purchasers at Cristobal Commissary.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 23, 1922.

To all concerned—In order to prevent unauthorized persons from purchasing goods at Cristobal Commissary while the cash system is being tried out, until the end of April, it is necessary to require all patrons on entering the commissary to show their authority card for purchase of coupon books, or other satisfactory evidence establishing their authority to purchase goods at the commissary.

The General Manager, Commissary Division, upon request, will provide special forms for identification to be issued to silver employees of the Canal and the military organizations in the Cristobal and Gatun districts.

JAY J. MORROW,  
Governor.

#### Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

#### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

*Certificate.*—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., April 5, 1922.

No. 34.

## Fire on the "Iowan."

The steamer *Iowan* of the American-Hawaiian Line arrived at Balboa at 4.15 in the afternoon of March 31 with fire in the No. 1 hold. Advice of the situation had been sent by radio and forces of the Canal Zone Fire Department were in readiness to work on the ship upon her arrival. The master had filled the hold with sulphur gas and kept the fire under control, and the work of the fire department was to remove enough cargo to locate the center of the fire, and extinguish it. This was accomplished in about 24 hours, though on account of the gas it was difficult to tell just when all of the goods that were smouldering had been removed.

The fire is believed to have been due to spontaneous combustion in baled wool. The *Iowan* reloaded the discharged cargo, with the exception of a small quantity of ruined wool, and continued on her voyage on April 5. She is bound from Seattle to New York with lumber and general cargo.

## Collision off Atlantic Entrance to Canal.

A collision occurred between the steamers *Woolsum* and *West Himrod* beyond the Atlantic entrance to the Canal in the evening of April 2, in consequence of which both ships were damaged. The *Woolsum* was leaving the Canal, and the *West Himrod* approaching. The outgoing ship had dropped her pilot and the incoming had not taken one aboard. An investigation has been made by the Board of Local Inspectors but report has not yet been completed.

The *Woolsum* will return through the Canal to go into dry dock at Balboa; the *West Himrod* is able to continue her voyage.

## Chilean Dreadnaught Returns to Balboa Dry Dock.

The Chilean dreadnaught *Almirante Latorre* arrived at Balboa in the afternoon of March 25, and went into the 1,000-foot dry dock at 1 o'clock, March 29, for cleaning and painting and miscellaneous minor repairs to the hull below the water line. The ship came out of the dry dock on April 1, at 3 p. m., and sailed for Valparaiso on April 4.

The *Almirante Latorre* was in dry dock at Balboa last year, January 14 to 16, at the time of her passage through the Canal on her way out to Chilean waters from Great Britain, where she was built. She has returned for the necessary periodic dry docking. The dry dock at Balboa is the only one south of the United States large enough to receive this ship, which has a displacement of 32,000 tons and is 624 feet in length by 92 feet beam.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, April 1, 1922.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

**Notice to Mariners.—San Jose Island Light.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., March 30, 1922.

The San Jose Island Light, reported out of service in my circular of March 22, 1922, was again put in service March 28, with its former characteristics.

JAY J. MORROW,  
Governor.

---

**The "Garfield" Dry-docked.**

The steamer *Garfield* of the Grace Line, which was towed into Cristobal in the morning of March 20 by the Panama Canal salvage steamer *Favorite* from Galera de Zamba Bay, Colombia, where she had been aground nearly 2 months, went into dry dock at Cristobal on March 26. She was docked without the discharge of her cargo.

---

**Repairing of "Arizonan" Shows Advantage of New Provision Relative to Tolls.**

The steamship *Arizonan* of the American-Hawaiian Line, which passed through the Canal on March 14, carrying 12,000 tons of general cargo from Vancouver and west coast ports of the United States for London, Liverpool, Belfast, and Glasgow, put back from the Caribbean, after losing 1 propeller blade and cracking another, and has been repaired at Balboa. In addition to renewing the blades of the propeller, the forces of the Mechanical Division raised the rudder and rewooded the stern tube bearings.

The job is principally of interest on account of its affording a striking application of the rule established under the Executive Order of November 17, 1921, that vessels transiting the Canal for the sole purpose of receiving repairs at Balboa shops are exempted from the payment of tolls. Tolls on the *Arizonan*, a vessel of 6,970 net tons, Panama Canal measurement, and 6,514 net tons, United States measurement, amount to \$8,142.50 when she is laden. For transiting for the sake of repairs, however, the charges for transit were at the rate of \$5 per foot of draft, amounting to \$155, for 31 feet. There were additional charges for towage, made necessary by the ship's condition.

After returning through the Canal the *Arizonan* discharged about 7,000 tons of her cargo at Pier 18, Balboa, and went into dry dock with the rest. She entered the dry dock in the afternoon of March 26, and left it in the morning of March 28.

---

**Chilean Fruit.**

A little more than a year ago 2 experimental shipments of fruit were dispatched from Chile to New York, in the expectation that an important trade might be developed, based primarily on the opposition of the seasons north and south of the equator, which enables Chile to ship freshly picked fruits in midwinter and early spring. The first consignment is reported to have met with gratifying success, but the second resulted in failure, due apparently to careless packing.

Since then the Chilean government has carefully investigated the possibilities and the requirements of the New York market, and fresh attempts have been made under government patronage and encouragement to develop the trade. The steamship *Essequibo* of the Pacific Steam Navigation Company, which passed through the Canal on February 19, carried Chilean fruit valued in Chile at 100,000

pesos and estimated to be worth a like amount in dollars landed in New York. This included grapes, peaches, cherries, plums, etc., all carefully packed and inspected by a government expert before shipment.

The results, as nearly as can be ascertained on the Isthmus at this time, were entirely satisfactory.

The full development of this trade may have to await the assignment of specially constructed steamers. Those now available were not designed to carry fruit, and are not as well adapted to that service as they might be. In any case the trade will be seasonal and confined to the late winter and early spring; but it may nevertheless assume important proportions.

### Surplus Material For Sale.

Due to decreased demands, large quantities of material of many classes now in stock in the Panama Canal Zone, purchased for Canal maintenance and for repairs and issues to vessels, has been declared surplus and is being offered for sale to the public.

Endeavor will first be made to effect sale of certain classes of material which can be satisfactorily sold from description without physical inspection by bidders prior to shipment from the Isthmus, on a basis of delivery f. o. b. dock New York Harbor or f. a. s. vessel at the Isthmus, as desired by bidders.

It is desired, if practicable, to sell this material for shipment to markets such as will make its present location an advantage as compared with material which might be shipped from the United States, such markets, for example, as South and Central American countries, Japan, China, Spain, etc.

Parties interested should apply for full information and description of the different classes of material available by communicating with the General Purchasing Officer, The Panama Canal, Washington, D. C., or the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, advising, in so far as possible, the particular kinds of material in the purchase of which they would be interested.

Among the materials available in important quantities are items such as bearing metals, sheet metals, bronze mosquito screening, horse and mule shoes, air-brake material, scales, chain, tackle blocks, sheet glass, paints and varnishes, lubricating oils and grease, fire bricks, vitrified pipe and fittings, millwork, canvas, rope, hose, nails, marine hardware, general hardware, bolts, nuts, and rivets, cable, electrical material, building materials, tools, iron and steel bars, plates and shapes, and repair parts for various kinds of equipment.

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending April 1, 1922.

**Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended March 28:

Steamships *San Joaquin*, remove, reverse, and reassemble cathead on anchor windlass; *Alloway*, manufacture piston, piston rod, 2 rings, and drill studs out of cylinder.

**PREVIOUSLY REPORTED.**

Barge *No. 13*, dock and undock; clean bottom and paint; install 8 new shell plates.

The following vessels were at the Cristobal shops for repairs during the two weeks ended April 3:

Steamships *Garfield*, open up boilers; scale and clean; remove and clear sea inlet and discharge pipes; open up, clear, and repair main refrigerator and auxiliary condensers; test and repair fuel oil and feed heaters; test all tanks; repair bottom as directed; overhaul and adjust steering engine, windlass, and capstan; open up, clear, and repair fresh water pump, main circulating pump, ballast and sanitary pumps; repair jacking engine; overhaul all bilge piping, etc.; *Killerig*, dock, clean, and paint; repair bulkheads; make 4 ash buckets; renew zincs; open up and examine sea valves and strainers, etc.; *Nemesis*, dock, clean, and paint; install new tail shaft; rewood stern tube; repair rudder; overhaul leads to steering gear; weld hawse pipe; renew and weld rivets in bow as directed; renew zincs; open up, examine and repair sea valves and strainers, etc.; *Gen. G. W. Goethals*, repair H. P. cylinder and cover; calk passenger deck; *Panama*, manufacture new worm and pinion for main engine turning gear; manufacture and install tripper on port anchor; clear main feed heater coils; repair sanitary line in No. 3 hold; *Advance*, overhaul forward dynamo; repair ceiling in coal bunkers; repair bilge suction line; install mooring chock, aft; repair motor boat; repair anchor windlass, etc.; *Birmingham City*, repair steering engine, etc.; *Jamaica*, supply and fit 4 steel patches and 2 angle stiffeners on after bulkhead of bunker; repair sanitary pump; renew floor and guard plates in stokehold; repair ventilators; clear and repair miscellaneous piping, etc.; *Cauca*, repair crank shaft of ice machine; repair auxiliary sanitary pump; repair

port lifeboat, renew ballast pump discharge pipe, etc.; motor ship *Laura C. Hall*, repair pump; install 2 catheads; *Manavi*, renew ventilator grating; manufacture 2 guy wires; repair block, etc.; motor boat *Bolivar*, install struts; line up engines and repair cylinders; clean and paint hull, etc.; Colombian cutter No. 2, overhaul engines; repair bulwarks and ports; clean and paint hull, etc.; steamships *Ceres*, *Eiger*, *La Navarre*, *Eldorado*, *Indiana*, *Heredia*, U. S. S. O-13, U. S. steamer *Douglas*, and launches *Cruces*, *Patrol*, and *Hibiscus*, minor repairs.

### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE DEPARTMENT,  
BALBOA HEIGHTS, C. Z., April 3, 1922.

On April 2, 1922, Master Judson, steamship *Delco*, reports sighting a log 30 feet long, 3 feet in diameter, Lat. 8° 57' N., Long. 83° 20' W. Dangerous to navigation.

J. J. MORROW,  
Governor.

### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Name.                  | Check No. | Native of—       | Isthmian residence. | Employed by—           | Date of death.  |

| Waste, cotton, white.....                                         | Lb.            | .20    |

## Official Circulars.

## Acting Collector.

THE PANAMA CANAL,  
EXECUTIVE DEPARTMENT,  
BALBOA HEIGHTS, C. Z., March 31, 1922.

To all concerned—The designation of Mr. Frank M. Sawyer to act for the Collector of The Panama Canal, Mr. A. H. Mohr, during his absence on leave, effective April 1, 1922, is hereby announced.

JAY J. MORROW,  
Governor.

## Proposed Sailings of Panama Railroad Vessels.

On account of a delay to the steamship *General G. W. Goethals*, the schedule of sailings of steamers of the Panama Railroad Steamship Line has been revised to the following:

## CRISTOBAL TO NEW YORK.

| Steamer.            | Leave.   | Arrive.   |
|---------------------|----------|-----------|
| Panama              | April 7  | April 15. |
| Colon               | April 19 | April 27. |
| Gen. G. W. Goethals | April 29 | May 7.    |
| Panama              | May 8    | May 16.   |

## Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

## Scrap Burlap Bagging.

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging included in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office

at Cristobal, C. Z., under the Act of March 3, 1879.

Certificate.—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., April 12, 1922.

No. 35.

## The "Tavernilla" Sent to Assist the "Willpolo."

In response to a request of the operators of the steamship *Willpolo*, which reported herself in distress off the coast of Nicaragua, near Corinto, The Panama Canal tug *Tavernilla* left Balboa in the night of April 10 to tow the vessel to San Pedro. The tug *Sea Lion* was also sent out by the owners, from San Francisco to assist.

## The "Gorgona" Sent to Tow in the "W. J. Hanna."

The tug *Gorgona* left Balboa on April 8 to bring in the Standard Oil tanker *W. J. Hanna*, which was in distress off the coast of Peru, with a broken crankshaft. Repairs will be made at Balboa shops.

## Increased Services of French Line.

The services of the Compagnie Generale Transatlantique between ports of France, Belgium, Holland, and Germany and the west coasts of South and North America have been expanded considerably. The South American service was begun in January, 1920, and the North American service in December, 1921. The agent of the company at Cristobal reports that 8 steamers are engaged now in the South American service and 11 in the North American service. The 8 plying to South America are the *St. Jean*, *Indiana*, *Hudson*, *Virginia*, *Georgia*, *Texas*, *Maryland*, and *Ontario*. Those reported in the North American service are the *Honduras*, *Mississippi*, *St. Joseph*, *Montana*, *St. Louis*, *Sonora*, *St. Andre*, *Alaska*, *Alabama*, *Arizona*, and *Iowa*.

## Vessel Launched for Chilean Line's Projected New York and European Service.

Advice has been received from the agent on the Isthmus for the South American Steamship Company (the Cia. Sud Americana de Vapores, the Chilean Line) of the launching at Greenock, Scotland, of the turbine twin-screw steamer *Anconagua*, to be used with another vessel of the same type, now building, in a mail, passenger, and cargo service from Valparaiso to New York and Europe and return.

The *Anconagua* is 438 feet in length, over all, 56 feet in moulded breadth, and 33 feet in depth moulded to bulkhead deck. She is of approximately 7,000 tons gross, and her turbines are to develop 8,500 shaft horsepower and drive the ship at a speed of 17 knots. On account of the varied climatic conditions under which the vessel is to be operated, special consideration has been given to the heating and ventilating arrangements.

The new *Anconagua* is to replace a veteran ship of the same name now in the service of the company. They are named for Mount Anconagua, the highest mountain in Chile.

No prophecy can be made by the local agency as to the time at which the new service will be begun.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, April 8, 1922.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the two weeks ended April 11:

Steamship *Arizonan*, dock and undock; remove starboard propeller and section of tail shaft; draw tail shaft inboard for examination; rewood 16 inches of stern tubing; reinstall tail shaft and intermediate section; repack stern gland; remove 2 bad order propeller plates and assemble 2 new spares on hub; install propeller; repair steering gear; raise rudder for examination of pintles and bushings; furnish crane service to handle weights for trimming ship; V. de G. C. *Almirante Latorre*, dock and undock; spot scale and clean bottom; paint bottom; tighten up rivets; install liner under paravane bracket; steamships *West Isleta*, remove broken studs and renew; *Eastern Queen*, renew bottom section of operating rod, main engine stop valve; renew front guide brass L. P. valve stem; weld cylinder head of L. P. balance piston; dock and undock, remove spare tail shaft from ship; patch up with intermediate shaft; manufacture coupling bolts; draw stern tube bushing, rewood, re-install, and install spare tail shaft; pack glands and install propeller; *Iowan*, furnish air to assist firemen fighting fire; *Santa Paula*, dock and undock; stage and clean; paint bottom 1 coat anticorrosive and 1 coat of antifouling, paint to be furnished by ship; *Derblay*, repair steering gear supports and install new bracket; launch *Petroleo*, miscellaneous engine repairs; renew sternpost; patch and renew copper; renew planks on bow as necessary; tug *Favorite*, conversion from coal to oil burner.

### Deceased Employee.

The estate of the following deceased employee of The Panama Canal or the Panama Railroad Company is now in process of settlement, and any claims against this estate, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due him, should be presented at the office of the Administrator of Estates at once in order that the estate may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. This name will be published but once.

## Official Circulars.

### Acting Superintendent, Mechanical Division.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., April 8, 1922.

To all concerned—Effective April 10, 1922, and during the absence of Commander Roy W. Ryden, U. S. N., on leave, Mr. Herbert H. Evans will act as Superintendent of the Mechanical Division.

JAY J. MORROW,  
Governor.

### Morning Passenger Train from Panama Not to Stop at Miraflores Locks.

PANAMA RAILROAD COMPANY,  
OFFICE OF MASTER OF TRANSPORTATION,  
BALBOA HEIGHTS, C. Z., April 12, 1922.

CIRCULAR No. 139:

To all concerned—Please refer to my circular No. 101, dated January 3, 1922, reading as follows:

"Effective at once, and until further orders, train No. 2 will make stop at Miraflores Locks daily, except Sundays and holidays, to let off employees."

Effective Monday, April 17, train No. 2 will not stop at Miraflores Locks to let off passengers.

W. F. FOSTER,  
Master of Transportation.

### Lumber Prices.

THE PANAMA CANAL,  
SUPPLY DEPARTMENT,  
BALBOA HEIGHTS, C. Z., March 31, 1922.

HEADS OF DEPARTMENTS AND DIVISIONS:

Effective April 1, 1922, the following prices will be allowed by the Supply Department for second-hand lumber, scrap lumber, and serviceable lumber, and lumber which may be included in material classified as scrap for which requests for the purchase of small quantities are received from time to time:

| Kind of lumber.                                                                                                                      | Credit to be allowed departments and divisions. | Issue and sales prices.       |                                           |
|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|-------------------------------|-------------------------------------------|
|                                                                                                                                      |                                                 | To departments and divisions. | To employees, individuals, and companies. |
| Flooring, second-hand.....                                                                                                           | \$20.00                                         | \$25.00                       | \$30.00                                   |
| Ceiling, second-hand.....                                                                                                            | 20.00                                           | 25.00                         | 30.00                                     |
| Siding, second-hand.....                                                                                                             | 20.00                                           | 25.00                         | 30.00                                     |
| Lumber, dimension sizes, second-hand.....                                                                                            | 15.00                                           | 20.00                         | 25.00                                     |
| Miscellaneous yellow pine and fir, serviceable lumber included in material classified as scrap lumber.....                           | 15.00                                           | 20.00                         | 20.00                                     |
| Miscellaneous fancy and hardwood lumber, including all classes of native lumber included in material classified as scrap lumber..... | ( <sup>1</sup> )                                | ( <sup>2</sup> )              | ( <sup>3</sup> )                          |
| Miscellaneous scrap lumber.....                                                                                                      | 7.00                                            | 8.00                          | .....                                     |

<sup>1</sup> Fifty per cent of stock card prices of the same kind of new lumber less \$5 per thousand.

<sup>2</sup> Fifty per cent of stock card price of same kind of new lumber.

<sup>3</sup> Carload.

The unit prices above specified, except under the items of scrap lumber, are prices per thousand feet, board measure.

No second-hand lumber will be sold to employees or outsiders at the present time, as all such material is required for issue to settlers on Canal Zone lands.

R. K. MORRIS,  
Chief Quartermaster.

### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tarif No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

### Binders for The Panama Canal Record.

Cardboard covers, punched and fitted with brass fasteners, forming binders for THE PANAMA CANAL RECORD, are offered for sale at 25 cents a set, for the benefit of those who wish to keep a file of the issues for ready reference. Orders may be addressed to The Panama Canal, Balboa Heights, Canal Zone, or The Panama Canal, Washington, D. C.

### Sale of Tugboat "Empire."

Sealed bids in triplicate will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., and also at the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, Canal Zone, not later than 10.30 a. m. on the 17th day of April, 1922, at which time they will be opened in public simultaneously in both offices, for the purchase of the seagoing tugboat *Empire*, 120 feet over-all length, located at Balboa, Canal Zone. Detailed information with photographs, if desired, and form of proposal (Circular No. 1471) may be had upon application to the offices of the General Purchasing Officer or the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids in its discretion.

Volume XV.

Balboa Heights, C. Z., April 19, 1922.

No. 36.

## Canal Tug Assisting Two Ships in Distress.

The Panama Canal tug *Gorgona* is due to arrive at Balboa in the night of April 19–20, towing the tanker *W. J. Hanna*, which she was sent out to bring in from off the coast of Peru.

On the way back the *Gorgona* received a call for assistance from the American steamer *Derblay*, aground in Manta Bay, Ecuador. Leaving the *Hanna* at anchor temporarily, the tug endeavored to pull the *Derblay* free but was unable to do so and continued to port with the *Hanna*. Further orders with reference to the rescue of the *Derblay* have not been received.

## The Panama Canal Salvage Section.

The representative of the United Salvage Association, underwriters in New York, who came to the Isthmus in connection with the salvaging of the steamship *Garfield* in Colombian waters, expressed himself, in conversation with the Marine Superintendent of The Panama Canal, as "amazed at the wrecking equipment and wrecking ability of The Panama Canal salvage section." He stated his belief that the work of the section was equal to that of the foremost wrecking company in the United States.

The salvage equipment of the Canal consists primarily of the wrecking tug *Favorite*, supplemented by tugs, barges, floating cranes, etc., as may be needed, and a full supply of ground tackle, wire and chain cable, diving equipment, and the other requisite material and personnel for wrecking operations.

The *Favorite* is 195 feet in length over all, 180 feet between perpendiculars, with a beam of 43 feet and molded depth of 20 feet 6 inches. Her gross tonnage is 1,223 tons, and she has cargo space for about 800 tons, in addition to which she can carry about 500 tons of water. On account of her carrying a great amount of water ballast she can lighten ship when necessary to operate in shoaler waters than her ordinary draft would allow. This feature was of great value in the work on the *Garfield*. The *Favorite* is now being converted from a coal-burner to an oil-burner; with oil fuel she will be able to stay away from port for as long as 30 days without the need of refueling.

The *Favorite* is equipped with a 25-ton boom forward and a 5-ton boom aft, and fitted with a machine shop containing an air compressor, power saw, cutter, shaper, punching machine, and other handy tools. She carries a 200-kilowatt generator.

The pumps are an important factor and have been increased since the *Favorite* was placed in the Canal service, to which she was transferred from wrecking service for the Navy, which used her on the coast of France during the World War. Prior to that she was operated

(Continued on page 462, column 2.)

### The Panama Canal Salvage Section.—Continued from page 455.

on the Great Lakes by the Great Lakes Towing Company, of Duluth. The pumps on the *Favorite* now include 4 portable 12-inch centrifugal gasoline-driven wrecking pumps and four 4-inch submersible electric salvage pumps, of a total capacity of 2,440 tons of discharge an hour. In addition, there are a number of portable steam-driven pumps which can be placed in service to augment this capacity.

#### CONDITIONS OF WRECKING OPERATIONS.

The Panama Canal will undertake salvage operations under three forms of contract:

(a) Hire *Favorite* and wrecking crew at \$1,500 per day, with extra charge for all equipment used except standing equipment on *Favorite*.

(b) Fixed price for job with graduated reimbursement in case of failure or partial success.

(c) No cure, no pay. Fixed price dependent on value of ship and cargo and difficulties involved, with graduated payment in case of partial success.

Of the three types of contract The Panama Canal would recommend to owners and underwriters the use of the first type for the following reasons:

It obviates any delay, since all that is necessary is to cable or radio The Panama Canal to go get the ship, when the *Favorite* will be placed on the daily salvage rate and despatched immediately. Very frequently promptness in this saves much time and consequent expense in the completion of the job. In the case of the *Garfield* it is probable that two-thirds of the time would have been saved. This plan will also in almost every case save from 50 to 100 per cent in cost to the owners and underwriters.

This is true because The Panama Canal maintains salvage equipment for the service of shipping and as part of the Canal's duty to shipping, particularly since this part of the world does not offer sufficient inducement to salvage companies to maintain adequate equipment in these waters.

Therefore the service is more or less noncommercial, since it is to the best interest of the Canal to expedite shipping in every manner possible, and the efforts of the wrecking crews are to make a record of quick work for the Canal rather than to draw the work out in order to make the money return greater. This attitude of the wrecking crew is clearly shown in the *Garfield* case.

This contract is, of course, most satisfactory to the Canal as it assures proper return for services rendered.

The other types of contract are standard types and need no explanation.

#### Ships at Canal Repair Shops.

The following vessels were at the Cristobal shops for repairs during the two weeks ended April 17:

## Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal Washington."

### Official Circulars.

#### Act of Congress.—Second Deficiency Appropriation, 1922.

THE PANAMA CANAL,  
EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., April 6, 1922.

CIRCULAR NO. 600-82:

The extracts from an Act of Congress quoted below are published for the information of all concerned.

JAY J. MORROW,  
Governor.

AN ACT Making appropriations to supply deficiencies in appropriations for the fiscal year ending June 30, 1922, and prior fiscal years, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, to supply deficiencies in appropriations for the fiscal year ending June 30, 1922, and prior fiscal years, and for other purposes, namely:

#### DEPARTMENT OF STATE.

##### PAYMENT TO THE GOVERNMENT OF COLOMBIA.

To enable the Secretary of State to pay to the Government of Colombia the first payment from the Government of the United States to the Republic of Colombia under article 2 of the treaty of April 6, 1914, due within six months after ratifications of said treaty have been exchanged, \$5,000,000.

##### RELIEF AND PROTECTION OF AMERICAN SEAMEN.

For relief and protection of American seamen in foreign countries, and in the Panama Canal

Zone, and shipwrecked American seamen in the Territory of Alaska, in the Hawaiian Islands, Porto Rico, and the Philippine Islands, fiscal year 1920, \$13,198.73.

#### EXPOSITION, CITY OF PANAMA.

For participation in an exposition to be held in the City of Panama, including the same objects specified under this head in the Diplomatic and Consular Appropriation Act for the fiscal year 1916, \$95.47.

#### AUDITED CLAIMS.

SEC. 2. That for the payment of the following claims, certified to be due by the General Accounting Office under appropriations the balances of which have been exhausted or carried to the surplus fund under the provisions of section 5 of the Act of June 20, 1874, and under appropriations heretofore treated as permanent, being for the service of the fiscal year 1919 and prior years, unless otherwise stated, and which have been certified to Congress under section 2 of the Act of July 7, 1884, as fully set forth in House Document Numbered 174, reported to Congress at its present session, there is appropriated as follows:

#### WAR DEPARTMENT.

For armament of fortifications, Panama Canal, \$1,370.28.

For searchlights for seacoast fortifications, Canal Zone, Panama Canal, \$60.

SEC. 4. This Act hereafter may be referred to as the "Second Deficiency Act, Fiscal Year, 1922."

Approved, March 20, 1922.

**Acting Chief Quarantine Officer.**

THE PANAMA CANAL,  
HEALTH DEPARTMENT,  
BALBOA HEIGHTS, C. Z., April 12, 1922.

**SPECIAL ORDER NO. 594:**

Effective this date, Dr. C. A. Hearne will act as Chief Quarantine Officer, in addition to his regular duties, during the absence on leave of Dr. W. C. Rucker.

H. C. FISHER,  
Chief Health Officer.

**Scheduled Sailings of Panama Railroad Liners.**

The following are proposed sailings of vessels of the Panama Railroad Steamship Line between Cristobal and New York, all voyages being by way of Port-au-Prince, Haiti:

**NEW YORK TO CRISTOBAL.**

| Steamer.              | Leave.        | Arrive.   |
|-----------------------|---------------|-----------|
| Gen. G. W. Goethals.. | April 15..... | April 23. |
| Panama.....           | April 25..... | May 2.    |
| Colon.....            | May 5.....    | May 13.   |
| Gen. G. W. Goethals.. | May 15.....   | May 23.   |
| Panama.....           | May 25.....   | June 2.   |

**CRISTOBAL TO NEW YORK.**

|                       |               |           |
|-----------------------|---------------|-----------|
| Colon.....            | April 19..... | April 26. |
| Gen. G. W. Goethals.. | April 29..... | May 7.    |
| Panama.....           | May 9.....    | May 16.   |
| Colon.....            | May 19.....   | May 26.   |
| Gen. G. W. Goethals.. | May 29.....   | June 6.   |
| Panama.....           | June 9.....   | June 16.  |

**Binders for The Panama Canal Record.**

Cardboard covers, punched and fitted with brass fasteners, forming binders for THE PANAMA CANAL RECORD, are offered for sale at 25 cents a set, for the benefit of those who wish to keep a file of the issues for ready reference. Orders may be addressed to The Panama Canal, Balboa Heights, Canal Zone, or The Panama Canal, Washington, D. C.

**Sale of Cattle.**

Grade Holstein bull calves 1 to 3 months old from registered sires. Also grade Hereford and Durham bulls and heifers 6 months to 2 years old. Sales will be made upon first satisfactory offer. For further information inquire Superintendent, Cattle Industry, Room 269, Administration Building, Balboa Heights.

**Scrap Burlap Bagging.**

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging included in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

**Sale of Lumber.**

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

**MOVEMENTS OF OCEAN VESSELS.**—Continued from page 457.**PORT OF CRISTOBAL.****\*ARRIVALS.**

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

*Certificate.*—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., April 26, 1922.

No. 37.

## Northwest Cargoes.

According to statistics gathered by a steamship agent at Seattle, between 2,000,000 and 2,500,000 boxes of Northwest apples are shipped annually to the United Kingdom. The steamship lines secured about 100,000 boxes of this total in 1920-1921 and approximately 500,000 boxes in 1921-1922. The balances went by rail to the east coast. The all-water route via the Panama Canal has an advantage both in rates and handling. Out of 30,000 boxes landed at Glasgow last fall from the S. S. *Molier*e only 4 were broken. The loss on shipments by water direct is ordinarily about one-half of one per cent. The assignment of new and specialized refrigerator ships to this trade is expected to develop it still further next year.

Shipments of Canadian wheat via Vancouver and Panama totaled 40,758 tons during January, February, and March, 1922. The further development of this trade also seems probable.

## Hydrographic Information.

The Marine Superintendent of The Panama Canal authorizes the following memorandum to all concerned:

Hydrographic information, pertaining to floating derelicts, mines, logs, etc., light changes or failures, aids to navigation adrift, or any like information, important to navigators, is being broadcasted by radio by the local Hydrographic Office, acting for the Hydrographic Division, United States Navy.

When such information is received, whether by radiogram, letter, or verbally, it should be telephoned promptly to the Chief Hydrographer for confirmation and distribution. If of considerable importance, after being radioed and telephoned to the Port Captains by the Hydrographer, a local notice to mariners is gotten out, signed by the Governor, and mimeographed as a local circular. Also confirmation of the radiogram broadcasted is sent to the Communication Officer, U. S. Navy, the branch Hydrographic Office, Cristobal, and the Hydrographic Office, U. S. Navy, Washington.

If the information is of considerable importance and is received out of regular office hours, it should be telephoned to a hydrographer's residence, from whence it will be confirmed and distributed by radio and by telephone to the Port Captains' offices.

## CANAL WORK IN MARCH.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of March, 1922:

BALBOA HEIGHTS, C. Z., April 15, 1922.

*The Honorable, the Secretary of War,*  
*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of March, 1922:

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal during the month of March, 1922, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | March,<br>1922. | February,<br>1922. | March,<br>1921. |
|-------------------------------------------------|-----------------|--------------------|-----------------|
| Commercial vessels.....                         | 234             | 210                | 255             |
| Noncommercial vessels.....                      | 15              | 22                 | 37              |
| Launches, etc. (under 10 tons measurement)..... | 4               | 6                  | 11              |
| Total vessels and craft through Canal.....      | 253             | 238                | 303             |

In addition to the foregoing, Panama Canal equipment consisting of floating cranes, barges, craneboats, graders, etc., was passed through locks as follows:

|                   |    |
|-------------------|----|
| Gatun.....        | 23 |
| Pedro Miguel..... | 32 |
| Miraflores.....   | 33 |

COMMERCIAL TRAFFIC.<sup>1</sup>*Tolls.*

Under the present dual method of assessing tolls, the revenue from this source was \$956,726.76. Had the net tonnage as determined by the Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$185,694.92. These additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------|----------------------------|----------------------------|-------------|
| British.....       | \$39,253.05                | \$17,081.65                | \$56,334.70 |
| Chilean.....       | 2,428.80                   | 2,428.80                   | 4,857.60    |
| Danish.....        |                            | 893.60                     | 893.60      |
| Dutch.....         | 2,947.95                   | 4,303.20                   | 7,251.15    |
| French.....        | 1,272.40                   | 461.30                     | 1,733.70    |
| German.....        | 3,355.45                   | 486.95                     | 3,842.40    |
| Italian.....       | 980.75                     |                            | 980.75      |
| Japanese.....      | 3,157.70                   | 2,410.00                   | 5,567.70    |
| Norwegian.....     | 5,560.89                   | 765.95                     | 6,326.75    |
| Peruvian.....      | 3,015.25                   | 3,015.25                   | 6,030.50    |
| Swedish.....       | 1,564.50                   | 44.70                      | 1,609.20    |
| United States..... | 47,433.52                  | 42,833.35                  | 90,266.87   |
| Totals.....        | 110,970.17                 | 74,724.75                  | 185,694.92  |

The additional tolls which would have been assessed against United States vessels would have been distributed among the following channels of trade:

|                                                  | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------------------------------------|----------------------------|----------------------------|-------------|
| United States coastwise ports.....               | \$31,397.87                | \$27,979.50                | \$59,377.37 |
| United States and Canal Zone ports.....          | 1,587.10                   | 774.70                     | 2,361.80    |
| United States and United States possessions..... | 2,042.70                   | 1,936.00                   | 3,978.70    |
| United States and foreign ports.....             | 9,937.25                   | 10,943.45                  | 20,880.70   |
| Between foreign ports.....                       | 2,468.60                   | 1,199.70                   | 3,668.30    |
| Totals.....                                      | 47,433.52                  | 42,833.35                  | 90,266.87   |

Of the \$185,694.92 additional revenue that would have been collected by using the Panama Canal rules exclusively, \$7,622.40 represents the additional tolls that would have been collected on account of deck cargo.

## COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Panama Canal in March, 1922, with that of the preceding month along the lines indicated at the head of the various tables.

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

## TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | March, 1922. | February, 1922. | March, 1921.   | Average month for past year. |
|-------------------------------------------|--------------|-----------------|----------------|------------------------------|
| United States equivalent net tonnage..... | 786,759      | 710,548         | 924,309        | 742,255                      |
| Panama Canal net tonnage.....             | 975,811      | 886,535         | 1,112,818      | 918,558                      |

| Registered gross tonnage.....             | 5,243        | 5,264           | 5,557        |
| Registered net tonnage.....               | 3,316        | 3,302           | 3,597        |
| Tolls.....                                | \$4,088.57   | \$4,086.16      | \$4,335.44   |
| Tons of cargo (all vessels).....          | 4,103        | 3,953           | 4,645        |
| Tons of cargo (laden vessels only).....   | 4,424        | 4,411           | 4,844        |

## AVERAGE TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varies in different ships as the ratio of cargo tonnage to the net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of March, 1922, by nationality of vessels.

|                                             | Atlantic to Pacific. | Pacific to Atlantic. | General average. |
|---------------------------------------------|----------------------|----------------------|------------------|
| British.....                                | \$1.01               | \$1.06               | \$1.02           |
| Chilean.....                                | 2.67                 | 14.94                | 4.53             |
| Danish.....                                 |                      | .79                  | .79              |
| Dutch.....                                  | 1.02                 | .81                  | .90              |

| United States.....                          | 1.06                 | .94                  | 1.01             |
| Average rate all ships, March, 1922.....    | .99                  | .99                  | .99              |
| Average rate all ships, February, 1922..... | 1.09                 | .97                  | 1.03             |
| Average rate all ships, March, 1921.....    | .97                  | 1.05                 | 1.00             |

## COMMODITY STATISTICS.

A classification of cargo passing through the Panama Canal during the month of March, 1922, has been compiled from declarations of cargo and manifests submitted by the ships' masters, and while incomplete, it is indicative of the kind and quantity of the various commodities carried by vessels transiting the Canal. From the cargo declarations and manifests submitted it was possible to classify by commodities 71 per cent of all cargo passing from the Atlantic to the Pacific, and 93 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

| Commodity.                             | March, 1922. | February, 1922. | January, 1922. | December, 1921. | November, 1921. | October, 1921. |
|----------------------------------------|--------------|-----------------|----------------|-----------------|-----------------|----------------|
| Atlantic to Pacific.                   |              |                 |                |                 |                 |                |
| Oils:                                  |              |                 |                |                 |                 |                |
| Crude.....                             | 41,504       | 41,755          | 65,862         | 48,272          | 30,144          | 68,891         |
| Refined.....                           | 32,679       | 28,893          | 28,407         | 46,970          | 47,944          | 25,840         |
| Other.....                             | 5,143        | 6,699           | 6,230          | 1,918           | 3,113           | 1,121          |
| Manufactured goods:                    |              |                 |                |                 |                 |                |

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of March, 1922, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of April 12, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of March, 1922, for the preceding month, and for the corresponding month of last year.

| Vessels plying between—              | Atlantic to Pacific.      |                 |              | Pacific to Atlantic.      |                 |              |
|--------------------------------------|---------------------------|-----------------|--------------|---------------------------|-----------------|--------------|
|                                      | March, 1922.              | February, 1922. | March, 1921. | March, 1922.              | February, 1922. | March, 1921. |
|                                      | Number of vessels.        |                 |              | Number of vessels.        |                 |              |
| United States coastwise.....         | 34                        | 25              | 16           | 25                        | 19              | 11           |

## VESSELS WITHOUT CARGO.

The number of ships without cargo transiting the Canal, exclusive of warships, and other noncargo-carrying vessels, are shown in the following tabulation:

|                    | Atlantic to Pacific. |                           |            | Pacific to Atlantic. |                           |            |
|--------------------|----------------------|---------------------------|------------|----------------------|---------------------------|------------|
|                    | No. of ships.        | Panama Canal net tonnage. | Tolls.     | No. of ships.        | Panama Canal net tonnage. | Tolls.     |
| British.....       | 4                    | 13,128                    | \$9,556.25 | 2                    | 9,694                     | \$6,979.68 |
| Norwegian.....     | 1                    | 2,924                     | 2,922.50   | 2                    | 10,094                    | 7,267.68   |
| United States..... | 3                    | 13,236                    | 9,589.50   | 5                    | 29,255                    | 21,063.60  |
| Totals.....        | 8                    | 29,288                    | 22,068.25  | 9                    | 49,043                    | 35,310.96  |

## CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Panama Canal free of tolls during the month of March, 1922. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Panama Canal; these are not included in the commercial traffic:

|                                               | Atlantic to Pacific. |                           |            | Pacific to Atlantic. |                           |            |
|-----------------------------------------------|----------------------|---------------------------|------------|----------------------|---------------------------|------------|

| Total vessels, March, 1921 .....    | 354         | 449    | 803    | 109            | 111    | 220    | 1,023        |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                             | Gatun. | Pedro Miguel. | Miraflores. |
|-----------------------------|--------|---------------|-------------|
| Army and Navy vessels ..... | 19     | 15            | 15          |
| Canal equipment .....       | 23     | 32            | 33          |
| Total noncommercial .....   | 42     | 47            | 48          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                         | Gatun.             | Pedro Miguel.      | Miraflores.        |
|-----------------------------------------|--------------------|--------------------|--------------------|
|                                         | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages .....                          | 887,670,000        | 813,910,000        | 700,408,000        |
| Leakage .....                           | 20,000,000         | 16,770,000         | 30,000,000         |
| Maintenance .....                       |                    | 1,080,000          |                    |
| Total consumption, March, 1922 .....    | 907,670,000        | 831,680,000        | 730,408,000        |
| Total consumption, February, 1922 ..... | 854,610,000        | 822,000,000        | 722,960,000        |
| Total consumption, March, 1921 .....    | 990,900,000        | 919,450,000        | 908,450,000        |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographic conditions over the Canal Zone and vicinity during the month of March, 1922, are shown in comparative form:

| Rainfall.                                         | March, 1922.   | March, 1921.   | March—Years of record. |                |                |
|---------------------------------------------------|----------------|----------------|------------------------|----------------|----------------|

\* This figure represents the maximum momentary discharge on record. Occurred on December 26, 1909.

\* Not including March, 1914.

## SEISMOLOGY.

A slight tremor from a distant disturbance was recorded at Balboa Heights on the evening of the 27th. The epicenter of the disturbance was distant about 2,100 miles and probably in a northerly direction.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulation:

|                                                                               | March, 1922.  | February, 1922. | March, 1921.  |
|-------------------------------------------------------------------------------|---------------|-----------------|---------------|
| Gross output, KWH:                                                            |               |                 |               |
| Gatun hydroelectric station.....                                              | 4,728,100     | 4,241,600       | 6,328,600     |
| Miraflores steam plant.....                                                   | 400           | 10,600          | 12,010        |
| Combined gross output.....                                                    | 4,728,500     | 4,252,200       | 6,340,610     |
| Water consumption..... cubic feet.                                            | 3,687,402,000 | 3,339,809,600   | 4,559,456,500 |
| Oil consumption..... barrels.                                                 | 1,911         | 1,810           | 2,162         |
| Power distributed to consumers..... KWH.                                      | 3,983,218     | 3,631,222       | 5,323,254     |
| Loss of power in plant auxiliaries, transmission and transformation..... KWH. | 745,282       | 620,978         | 1,017,356     |
| Per cent of loss of power to gross output.....                                | 15.76         | 14.60           | 16.04         |

Miscellaneous electrical repairs and installations of electrical equipment were made on 21 vessels during the month. There were 274 work orders issued for work to be performed by the Electrical Division during the month, as compared with 240 for the month of February, 1922.

## SHOP, FOUNDRY, AND DRY-DOCK WORK.

The output of the Mechanical Division in patterns and castings for the month of March, 1922, as compared with the preceding month, was as follows:

|            | March, 1922. |           |         | February, 1922. |           |         |
|------------|--------------|-----------|---------|-----------------|-----------|---------|
|            | Patterns.    | Castings. | Pounds. | Patterns.       | Castings. | Pounds. |
| Iron.....  | 2            | 135       | 7,958   | 7               | 140       | 4,482   |
| Steel..... | 3            | 51        | 21,716  | 2               | 140       | 20,045  |
| Brass..... | 2            | 129       | 2,549   | 3               | 254       | 3,092   |

During the month, miscellaneous repairs were made on 52 vessels at Cristobal and 49 at the Balboa shops. Of the foregoing vessels, 10 were placed in dry dock at Cristobal and 8 at Balboa.

On the *S. S. Garfield*, which was towed up from Colombia after being aground there for some time, the boiler was opened up, cleaned, and scaled. The main refrigerator and auxiliary condensers were opened up, cleaned, and repaired. All tanks were tested and bottom was repaired as directed. The fresh water main circulating engine windlass and capstan were overhauled and adjusted. Other miscellaneous repairs were made, caused by the grounding of the vessel.

The *S. S. Arizonan*, of the Hawaiian-American Line, was docked in a partly loaded condition for repairs to propeller. This steamer made a passage of the Canal and went several hundred miles into the Caribbean when a propeller blade broke off. It was necessary for the vessel to put back for repairs. The Panama Canal dock at Cristobal is too small for the vessel and she had to be brought to Balboa. Her experience is a good example of the advantage to shipping of the rule recently promulgated, allowing vessels to transit the Canal from the Atlantic to Balboa solely for docking purpose without charges other than for lockage and pilotage. The imposition of Canal tolls, which the vessel would have suffered except for the ruling,

would have worked a particular hardship in her case, as the vessel and cargo, consisting of 12,000 tons general cargo, had already paid full tolls for the original passage.

The Chilean battleship *Almirante Latorre* was docked, cleaned, and painted. This vessel was docked at Balboa about 14 months ago and had not been docked in the interim. The condition of the Navy standard bottom paint manufactured at Balboa and applied on her previous visit was very gratifying considering her long stay out of dry dock. This vessel is one of the largest battleships afloat and is the largest ship docked at Balboa with 2 exceptions. Not only is the Balboa dry dock large enough to take much larger vessels, but her docking demonstrates that the supply of blocking and other dry-dock accessories kept constantly on hand at the Balboa dock and the docking personnel are adequate for any conceivable demand.

Work was begun on the conversion of the Marine Division wrecking tug *Favorite* into an oil burner.

Frames and plating were put under way for widening the dredges *Gamboa* and *Paraiso* to approximately the width of the *Cascadas*. This widening of the hull is being carried out in order to do away with the danger of overturning to which these dredges are liable at the present under certain adverse conditions. The extension of 5 feet to the hull on each side will be made by constructing the same in the shop as a sort of box, open on one side, after which the dredge will be put into dry dock, the extension lowered into the dock, pushed into place, and connected with the hull.

Conditions in the Balboa shops so far as work ahead is concerned showed a slight general improvement.

#### DREDGING DIVISION.

Cucaracha, Culebra, and Barge Repair slides have shown no movement during the month and there was no interference with Canal traffic. The total excavation for the month of March, 1922, including earth and rock, was 254,750 cubic yards, as follows:

| Cubic yards. | Classified as— |        | Character of work. | Stations.                                                       | Equipment        |
|--------------|----------------|--------|--------------------|-----------------------------------------------------------------|------------------|
|              | Earth.         | Rock.  |                    |                                                                 |                  |

Respectfully,

JAY J. MORROW,

Governor.

#### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama," in the United States, "Pancanal Washington."

### Increasing Shipments from the Pacific Coast.

Lumber shipments from the Pacific coast of the United States through the Panama Canal were heavier in March, 1922, than in any previous month for which accurate statistics are available. They aggregated 67,064 tons.

A comparison of the tonnage of certain typical Pacific coast products shipped through the Canal during the first quarter of 1921 and the first quarter of 1922 indicates how rapidly the shippers of this section are turning to the water route:

| Commodity.           | First quarter,<br>1921. | First quarter,<br>1922. |
|----------------------|-------------------------|-------------------------|
|                      | <i>Tons.</i>            | <i>Tons.</i>            |
| Fresh fruit.....     | 1,936                   | 12,387                  |
| Canned fruit.....    | 7,499                   | 35,177                  |
| Dried fruit.....     | 1,462                   | 13,740                  |
| Canned fish.....     | 7,623                   | 28,106                  |
| Lumber.....          | 96,673                  | 182,421                 |
| Lubricating oil..... |                         | 18,497                  |
| Wool.....            | 858                     | 15,280                  |

There were heavy shipments of wheat and barley during the past year, but as these products are shipped for the most part during the late summer and fall a comparison of shipments during the first quarter of the year would be of little value.

### Diminished Traffic and Tolls.

During the first half of the current fiscal year, July to December, 1921, the aggregate net tonnage of vessels using the Panama Canal and the tolls collected were almost exactly the same as during the corresponding half of the previous fiscal year, the difference in each case being less than half of one per cent. But the third quarter of the fiscal year (January to March, inclusive, 1922) shows a marked decline of traffic and revenue, as follows:

| Period.                     | No. of ships. | P. C. net tons. | Cargo tons. | Tolls.         |
|-----------------------------|---------------|-----------------|-------------|----------------|
| January to March, 1921..... | 775           | 3,123,979       | 3,314,520   | \$3,118,806.51 |
| January to March, 1922..... | 656           | 2,708,862       | 2,605,461   | 2,670,760.49   |
| Decrease.....               | 119           | 415,117         | 709,059     | 448,046.02     |
| Percentage of decrease..... | 15.4          | 13.3            | 21.4        | 14.4           |

Except through abnormal growth in the remaining months, the business of the complete fiscal year 1922, ending June 30, will be materially less than in the fiscal year 1921, when 2,892 ships made the transit. It will apparently be about the same as for the calendar year 1921, in which the commercial vessels using the Canal numbered 2,783.

### Correction.—Agency for United States Lines.

A notice, published in THE PANAMA CANAL RECORD of March 22, stated that the Panama Railroad Company had accepted the agency of the United States Mail Steamship Company, Inc., for the sale of passage tickets over the line of that company between the United States and Europe.

Advice has been received from the United States Lines that though the tickets forwarded bore the name of United States Mail Steamship Company, that company is in bankruptcy, and its ships were turned back to the Shipping Board, which set up a new unit, known as the United States Lines, and it is the United States Lines for which the Panama Railroad Company is agent.

## Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, March, 1922.\*

<sup>1</sup>Transport.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the two weeks ended April 25:

Steamship *Wolsum*, dry-dock ship for repairing damage caused by collision with steamship *West Himrod*, in Colon Harbor; renew about 5 buckled or split under-water plates; fair about 10 bent pates, and fair bent frames; remove, fair, and replace twisted plates and railings on forecastle head; renew or fair damaged plates at bulk-heads of storeroom and paint locker, forward; repair anchor windlasses; cable ship *Guardian*, dry-dock ship for cleaning and painting; stage and clean; paint bottom 1 coat of anticorrosive and 1 coat of antifouling; the following repairs to machinery: rebore refrigerating compressor cylinder; refit valve; overhaul all boiler blow-down valves; renew zinc plates on ship's stem and overhaul all sea valves; renew wood friction blocks on brake bands of cable drums; scale lower bunker in No. 3 ballast tank; the following repairs for deck department: renew facing irons for buoy skids; repair cowl; fair dents, and renew defective plates in buoys; fit struts to forward davit; overhaul galley stove and manufacture 12 serving mallets; dredge *Cascadas*, dry-dock for cleaning, painting, and hull repairs; stage and clean, and paint bottom 2 coats of anticorrosive and 1 coat of antifouling; test tanks and renew leaky rivets

in hull and spud wells; reinforce spud housing; make general repairs to all machinery, including main engines; motor schooner *Laura C. Hall*, furnish and fit up air hose for blowing out vessel's fuel oil tank with compressed air; steamship *W. J. Hanna*, dry-dock ship for repairs on account of broken propeller shaft; cleaning and painting; stage and clean; paint bottom 1 coat of anticorrosive and 1 coat of antifouling; paint boot topping; remove broken propeller shaft and broken tail shaft; rework and rebore stern tube; install new propeller shaft and new tail shaft furnished by ship; ream holes and renew coupling bolts between new and old shafting; alter 3 sections of copper steam piping to deck machinery; renew oil piping to crank pin on connecting rod of high power, intermediate power, and low power engines; make minor repairs to 2 valves and 1 section of heating pipe for deck house; make tight 3 staybolt nuts; renew 6 feet of internal feed pipe for boilers; refit main check valves and internal feed pipe where connected to the internal boiler head, 3 boilers; make minor repairs to deck fittings; launch *Augusta Victoria*, remove crank shaft; turn crank pin true; remetal 2 crank-pin brasses and 1 main bearing; line up engine with tail shaft and dismantle 4 hot balls, cylinder heads, and pistons; clean out engine and assemble.

## PREVIOUSLY REPORTED.

Tug *Favorite*, convert from coal burner to oil burner.

The following vessels were at the Cristobal shops for repairs during the week ended April 25:

Steamships *Carrillo*, machine blow-down valve; *Manavi*, open and test main condenser; renew leaky tubes; clean and paint water spaces; supply and fit new impeller shaft for main circulating pump; fit neck gland bushings; true up, re-bed, and make steam-tight ash hoist trunnions; test starboard boiler; repair chairs and door locks; renew angle sockets for gangway door; make winch chute; renew cover plate for bulkhead lamp room; refit fresh water pump and renew pump suction pipe; repair and test 2 weighing machines; repair gangway platform; manufacture eyebolt for funnel guy; *Cauca*, make tarpaulin; calk well deck; electric weld hawse pipe; repairs to engine; *Achilles*, clean all boilers; punch tubes; clean back connections and furnaces; paint boiler fronts; U. S. S. *O-11*, *O-12*, *O-13*, *O-14*, *O-15*, and *O-16*, manufacture blank bolts, main bearing studs, and pump plungers.

## Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective April 15, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.20 |
| Brass, sheet, average.....                                        | Lb.            | .31    |
| Bronze, Tobin, average.....                                       | Lb.            | .25    |
| Gasoline, motor grade.....                                        | Gal.           | .3125  |
| Metal, yellow.....                                                | Lb.            | .34    |
| Oakum, Navy, spun.....                                            | Lb.            | .11    |
| Oakum, Navy, unspun.....                                          | Lb.            | .14    |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Bbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70   |
| Oil, ammonia, cylinder.....                                       | Gal.           | .51    |
| Oil, burning.....                                                 | Gal.           | 1.06   |
| Oil, engine, gas, in barrels.....                                 | Gal.           | .49    |
| Oil, engine, gas, heavy, in drums.....                            | Gal.           | .50    |
| Oil, engine, gas, heavy, in barrels.....                          | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in cases.....                      | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in barrels.....                    | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in drums.....                      | Gal.           | .35    |
| Oil, engine, gas, extra heavy, for motor schooners, in drums..... | Gal.           | .40    |
| Oil, kerosene, in drums.....                                      | Gal.           | .21    |
| Oil, marine engine.....                                           | Gal.           | 1.04   |
| Oil, marine engine.....                                           | Gal.           | .56    |
| Paint, lead, white, dry.....                                      | Lb.            | .09    |
| Paint, lead, white, in oil.....                                   | Lb.            | .09    |
| Paint, zinc, white, dry.....                                      | Lb.            | .15    |
| Paint, zinc, white, in oil.....                                   | Lb.            | .16    |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09    |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .09    |
| Soda, ash.....                                                    | Lb.            | .03    |
| Waste, cotton, colored.....                                       | Lb.            | .14    |
| Waste, cotton, white.....                                         | Lb.            | .15    |

## Canal Traffic in April.

A total of 230 ocean-going commercial vessels transited the Canal during the month of April, the tolls on which amounted to \$953,256.11, as compared with \$956,726.76 tolls for 234 vessels last month, and \$927,977.09 tolls for 227 vessels in the month of April last year. While the tolls are slightly less than for the preceding month, the cargo tonnage was greater, the total for April being approximately 1,045,000 tons, as compared with 960,089 cargo tons for the preceding month, and 907,613 cargo tons for April, 1921. This is the first time the cargo tonnage has exceeded 1,000,000 tons since March, 1921.

In addition to the above commercial traffic, 9 small nonseagoing launches transited the Canal during the month, on which tolls of \$38.75 were paid, and 14 vessels passed through the Canal free of tolls. Of the vessels transiting the Canal free of tolls, 12 were noncommercial vessels of the United States Government, and 2 were commercial vessels which were passed through the Canal without charge in order to have repairs made at the Balboa dry dock.

---

## The "Derblay" Assisted by the "Killerig."

The tug *Killerig*, operated by Lindsay, Swan & Hunter, of Kingston, passed through the Canal on April 18, bound from Kingston to Manta Bay, Ecuador, to assist the American steamer *Derblay*, which was aground there. After the floating of the ship, the *Derblay* continued her voyage and the *Killerig* returned to Kingston, passing through the Canal on April 27.

---

## Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, April 29, 1922.

Respectfully,

JAY J. MORROW,

*Governor.***Postal and Cable Addresses of The Panama Canal.**

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal Washington."

### Rental of Hotels Tivoli and Washington.

Sealed proposals will be received in the office of the Chief Quartermaster, Balboa Heights, C. Z., up until 10.30 a. m., June 1, 1922, and then opened, for the rental of the Hotels Tivoli and Washington.

Forms of proposals may be had upon application to the office of the Chief Quartermaster.

### Towing of "Willpolo" to San Pedro Completed.

The Panama Canal tug *Tavernilla*, which left Balboa on April 10 to assist the steamship *Willpolo*, in distress off the coast of Nicaragua, reached San Pedro (Los Angeles) with the vessel in tow on April 28. The ship having been delivered in safety, and the legal formalities completed, the *Tavernilla* left for the Canal on May 2.

### Difficulties Incident to Determination of "United States Equivalent" Net Tonnage, for Levy of Tolls.

Tolls on merchant ships passing through the Panama Canal are levied on the basis of their net tonnage. This net tonnage is essentially the interior spaces which may be used for the carriage of cargo or passengers, measured in tons of 100 cubic feet (2.83 cubic meters). The toll rates are \$1.20 per net ton, as thus determined under the Panama Canal rules of measurement, for ships carrying passengers or cargo (or fuel in excess of the bunker allowance),<sup>1</sup> and 72 cents per net ton for ships in ballast. But there is a proviso, based on the Act of Congress establishing the conditions of operation of the Canal, that the amount collectible shall not exceed the equivalent of \$1.25 times the net tonnage of the ship as determined under the rules for measurement for registry in the United States and shall not be less than 75 cents times that same United States registry measurement.

The effect of this is that the net tonnage must be computed according to both methods of measurement, and the tolls levied in accordance with the foregoing provisions. This has been found to be onerous and a departure from the simplicity of rules and management which is the ideal of the Canal administration. It has incurred added difficulties because the rules for measurement for registry in the United States are changed from time to time. The practical result is that the tolls are collected on a basis which is not fixed and permanent, but may change between the transits of a vessel or with minor changes in the condition of the ship herself, occurring in the course of her preparations for loading or discharging or on account of the weather.

Legislation to correct this situation has been recommended but so far has not been enacted. In the meantime, ships' operators not entirely familiar with the situation have shown some resentment at what has appeared to them an arbitrary practice which sometimes makes their tolls considerably more than they had anticipated. With the idea of explaining the situation, at least in part, the following paragraphs are quoted from a memorandum to the Chairman of the Board of Admeasurement of The Panama Canal from the chief measurer at Cristobal:

" \* \* \* The main source (of misunderstanding and ill will in connection with measurement and the levy of tolls) lies in our consistent and impartial

<sup>1</sup> The bunker allowance is explained on page 84 of the *Rules and Regulations for the Operation and Navigation of the Panama Canal*, and in THE PANAMA CANAL RECORD, of Nov. 2, 1921, p. 185.

application of the portion of said rules (United States measurement rules) relating to the exemption of shelter deck, fore-castle bridge, and poop spaces, with consequent propelling power percentage adjustment necessitated thereby. The vicious circle is started by a ship's arrival with the tonnage openings of one or more of the foregoing spaces closed in a manner incompatible for exemption under the United States rules. The inclusion of such spaces in the net tonnage as found under said rules results normally in an increase of 500 to 2,000 tons above their national net tonnage based on rules similar to those of the United States, whereupon in due course the owners, after ascertaining the reason through correspondence with their agents and the admeasurers, exhibit a not unnatural irritation in paying \$625 to \$2,500 more for their ship's transit than they contemplated.

One of the chief reasons for action along this line is the use of gaskets or battening around the tonnage openings. In some cases the owners have actually discharged masters of such vessels, maintaining they should have known enough to remove same prior to arrival for transit. It often happens the succeeding master has explicit instructions on the point and, at next arrival, requests remeasurement which results in exemption of such spaces and hence greatly decreased tolls bill. With heavy weather outside prior to the third arrival, the mate naturally battens and calks the tonnage opening closures again, usually without telling the master. This necessitates another remeasurement, again increasing the tolls bill and involving further trouble for owners, master, and admeasurers.

As long as the United States rules remain the normal toll factor, or any factor for that matter, there is no alternative but to strictly apply them. It can not be disputed, however, that a vacillating system which admits of such juggling has already caused such an ill-feeling on the part of steamship owners that the mere subject of measurement is like waving a red flag at a bull.

It can be contended that "ignorance is no excuse" and that they should study the rules, issue to their masters specific instructions thereon and see that same are carried out. Yet it often happens that when they think they are set straight on these matters it is found that they have overlooked one of the many vagaries of said rules and are thereby compelled to start all over again.

Many agents here are endeavoring to act as consulting admeasurers to their principals, almost invariably without sufficient knowledge, and thus causing increased resentment and exasperation on the part of the owners.

In one case a series of letters from an agent requesting specific and legitimate information on certain points respecting measurement of vessels of his principals necessitated 17 hours' study of our past records of ships mentioned, to formulate a proper reply; yet there still exist ample opportunities for structural errors affecting tolls bills, not covered in his communication or our reply, which fact was stated.

Another case involved a question of veracity between the master of a Greek ship and the boarding admeasurer. The former, endeavoring to hide what he feared would be considered a dereliction of duty, wrote his owners he had removed all "packings" around tonnage openings prior to arrival, while the latter's records evidenced the fact that this was not true and that all knowledge of the significance of such use was supplied him by his agent. Such incidents are unfortunate and most emphatically disrupt the pleasant relations which should be proverbial at Canal Zone ports.

---

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered as fast as the ships can take it, from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice

plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended May 2:

Motor ship *Rosana*, open up engines; remove pistons; manufacture 42 piston rings and install, weld, and machine broken piston skirt; rebush 6 crosshead pins and manufacture pump springs; dredge *No. 86*, renew main deck house sills and deck; renew upper fender plank shear; renew 70 feet of upper deck sills and deck; renew ice box; build new gantry frames; change round spud wells to square; remove and replace deck machinery in wake of repairs; install new ladder brake wheel; redeck and calk galley floor; scale deck plates in way of replacement of wood decks.

#### PREVIOUSLY REPORTED.

Tug *Favorite*, convert from coal burner to oil burner.

The following vessels were at the Cristobal shops for repairs during the week ended May 1:

Steamships *Cauca*, manufacture spindle for Weir pump steam valve; manufacture form spindles and 8 brass springs for ballast pump; bore lubricator for refrigerator gland and alter plunger; reduce refrigerator crosshead bracket and adjust guide; manufacture 2 spindles for refrigerator condenser gauge; repair copper pipe in fiddley; manufacture steel washer for port winch; remetal crank-pin brasses on pump; repair firing tools; manufacture brass ring and washers for pump; repair boat deck service pipe; test boilers; repair dining room filters; install wash basin; paint 2 bathrooms and pantry; *Jamaica*, dock and undock; clean and paint bottom; repair anchor chain; open and test main condenser; renew ferrules and leaky tubes; clean and paint water spaces; renew plate on pump; repair suction pipe and discharge pipes; overhaul circulating pump; renew angle supports; repair firing tools; repair hand rail and runner; repair fore-peak tank suction pipe and cocks; renew towing chock; repair galley funnel; repair forward shoe; repair pantry sink and valve; renew galley grating; repair stove; manufacture grating for ice room; *Acajulla*, repair locking bar for hatch No. 1; repair pipe casing; repair hatch scales; calk upper deck; clean and paint forecabin; repair and adjust gauges; overhaul sanitary pump; manufacture 2 spindles for injector; schooner *Arabia*, steamships *Perou*, *Parissima*, *Orion*, launch *Actico*, steamship *Advance*; and U. S. S. *Hannibal*, minor repairs.

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending April 29, 1922.

## Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective April 15, 1922:

| Commodities.                                                 | Unit.          | Price. |
|--------------------------------------------------------------|----------------|--------|
| Brass, bar, average                                          | Lb.            | \$0.20 |
| Brass, sheet, average                                        | Lb.            | .31    |
| Bronze, Tobin, average                                       | Lb.            | .25    |
| Gasoline, motor grade                                        | Gal.           | 31.23  |
| Metal, yellow                                                | Lb.            | .34    |
| Oakum, Navy, spun                                            | Lb.            | .11    |
| Oakum, Navy, unspun                                          | Lb.            | .14    |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge        | Bbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge    | Bbl of 42 gals | 1.79   |
| Oil, ammonia, cylinder                                       | Gal.           | .51    |
| Oil, burning                                                 | Gal.           | 1.06   |
| Oil, engine, gas, in barrels                                 | Gal.           | .49    |
| Oil, engine, gas, heavy, in drums                            | Gal.           | .50    |
| Oil, engine, gas, heavy, in barrels                          | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in cases                      | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in barrels                    | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in drums                      | Gal.           | .35    |
| Oil, engine, gas, extra heavy, for motor schooners, in drums | Gal.           | .40    |
| Oil, kerosene, in drums                                      | Gal.           | .21    |
| Oil, marine engine                                           | Gal.           | 1.04   |
| Oil, marine engine                                           | Gal.           | .56    |
| Paint, lead, white, dry                                      | Lb.            | .09    |
| Paint, lead, white, in oil                                   | Lb.            | .09    |
| Paint, zinc, white, dry                                      | Lb.            | .16    |
| Paint, zinc, white, in oil                                   | Lb.            | .12½   |
| Grease, gear, chain and wire rope, lubricating               | Lb.            | .09    |
| Grease, yellow, cup, No. 3                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5                                   | Lb.            | .09    |
| Soda, ash                                                    | Lb.            | .03    |
| Waste, cotton, colored                                       | Lb.            | .14    |
| Waste, cotton, white                                         | Lb.            | .15    |

## Sale of Motor-driven and Animal-drawn Vehicles.

Sealed bids will be received in the office of the Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z., up to 10.30 a. m., Monday, May 15, 1922, and then opened, for the purchase of the following vehicles located at the points indicated: At the Ancon Garage—4 Ford auto delivery cars, 1 Ford dump car, 1 Ford garbage

car, 1 White motor truck, 4 auto trailers, 1 survey, 1 wagon, 1 wagonette, 2 wooden bodies for Ford delivery cars. At the General Storehouse, Balboa—6 wagons and 2 auto trailers. At the storehouse, Cristobal—13 wagons. Inspection of the vehicles may be made and forms of proposal may be had at the points indicated, or on application to the office of the Chief Quartermaster. The Panama Canal reserves the right to reject any or all bids.

No. 39.

## Three Optional Forms of Salvage Contract.

As noted in the article on The Panama Canal Salvage Section in THE PANAMA CANAL RECORD of April 19, The Panama Canal will undertake salvage operations under three forms of contract—a *per diem* basis, a lump sum agreement, or an agreement of “no cure, no pay.” In order to expedite salvaging through minimizing the delay over terms, the Canal has prepared copies of the three types of agreement and is distributing them to steamship operators so that they may have them at hand for the emergency as well as familiarize themselves with the situation in advance.

The salvage agreement on a *per diem* basis, designated as Contract No. 1, is as follows:

Contract No. 1.

### THE PANAMA CANAL.

CANAL ZONE.

DEPARTMENT OF OPERATION AND MAINTENANCE.

SALVAGE SECTION.

### SALVAGE AGREEMENT ON PER DIEM BASIS.

AGREEMENT entered into this date between .....  
Acting for the Owners and Underwriters of the .....  
and her cargo according to their respective interest, and, .....  
on behalf of The Panama Canal (Salvage Section):

(1) The said ..... on behalf of The Panama Canal (Salvage Section) agrees to undertake the floating of the above-named ..... and deliver her to ..... or such other place or port as may hereafter be agreed upon by both parties named in this contract. It is further agreed that should the Salvors be detained after delivery of said vessel to the port or place agreed upon, they are to be paid for all expenses incurred, by the Owners or Underwriters.

(2) It is further agreed that for the above services the Salvors are to be paid at the rate of ..... \$..... U. S. C. per day while actually engaged in salvage operation, and at the rate of ..... \$..... U. S. C., while laying by. This time to be computed by the Salvors, and time to start from the time the Salvors leave port until their return. If is further agreed that the Salvors shall have a lien on said vessel, her gear, tackle, stores, supplies, equipment, machinery, and cargo salvaged in either case, Success or Failure, for their remuneration.

(3) It is further agreed that the Salvors are to have FREE use of said vessel's gear, tackle, stores, supplies, etc., for the purpose of salvage, and NOT to be responsible for any loss or damage to said vessel, gear, tackle, stores, and cargo, but to use ordinary care.

(4) It is further agreed that for the use, and loss, of extra equipment that may be necessary in salvaging the said vessel, such as pumps, hose, anchors, chain, rope, diver and diving equipment, barges, lighters, etc., the Owners or Underwriters are to pay The Panama Canal “Tariff Rate or Rates,” as stated in Panama Canal Tariff No. .... and its supplements as may be issued from time to time, in addition to the daily rate as stated in paragraph No. 2 of this contract.

(5) Payment for said services to be made within..... after delivery of vessel to port or place agreed upon in paragraph No. 1 of this contract, or within ..... days after the vessel is abandoned in case of failure.

(6) In the event of any dispute arising under the terms of this contract, the same to be left to the final decision of an Arbitrator to be mutually chosen.

.....  
(For the Owners and Underwriters.)

.....  
(For The Panama Canal—Salvage Section.)

Witness:

.....  
(Name.)

.....  
(Occupation.)

.....  
(Address.)

#### LUMP SUM SALVAGE AGREEMENT.

The lump sum salvage agreement, designated as Contract No. 2, has the same introduction and provisions for signatures and witnesses as the *per diem* agreement, but makes the following-numbered conditions:

(1) The said..... on behalf of The Panama Canal (Salvage Section) agrees to undertake the floating of the above-named..... and deliver her to..... or such other place or port as may hereafter be agreed upon between both parties named in this contract. It is further agreed, that should the Salvors be detained after delivery of said vessel to the port or place agreed upon, they are to be reimbursed by Owners or Underwriters for all expenses incurred.

(2) It is further agreed that for the above-named services the Salvors are to be paid the sum of..... \$..... U. S. C. in case of success, and a minimum sum of..... \$..... U. S. C. in case of failure. The Salvors shall have a lien on said vessel, her gear, tackle, stores, supplies, equipment, machinery, and cargo salvaged for their remuneration.

(3) The Salvors to have FREE use of said vessel's gear, tackle, stores, supplies, etc., for the purpose of salvage, and NOT to be responsible for any loss or damage to said vessel's gear, tackle, stores, supplies, and cargo, but to use ordinary care.

(4) Payment for said services to be made within..... days after delivery of vessel to the place or port agreed upon in paragraph 1 of this contract, or within..... days after abandonment if the salvage operation is unsuccessful.

(5) In the event of any dispute arising under the terms of this contract, the same to be left to the final decision of an Arbitrator to be mutually chosen.

"NO CURE, NO PAY."

This agreement, No. 3, with customary introduction and signatures, provides:

(1) The said..... on behalf of The Panama Canal (Salvage Section) agrees to undertake the floating of the above-named..... and deliver her to..... or such other place or port as may hereafter be agreed upon by both parties.

(2) It is further agreed that for the above services The Panama Canal shall be paid the sum of..... \$..... U. S. C. in case of success, and a minimum of..... per cent of the value or proceeds of all property, equipment, machinery, gear, tackle, and ship's stores, and cargo salvaged in case of partial success, The Panama Canal shall have a lien on the cargo salvaged for their remuneration.

(3) The Panama Canal (Salvage Section) to have free use of the vessel's gear, tackle, stores, fuel, coal or oil, and any other material for the purpose of salvage, and NOT to be responsible for any loss or damage to ship's cargo, gear, tackle, stores, etc., but to use ordinary care.

(4) In the event of any dispute arising under the terms of this contract, the same to be left to the final decision of an Arbitrator, to be mutually chosen.

(5) Payment to be made within..... days after delivery of said vessel to port agreed upon as stated in paragraph 1 of this contract.

(6) All or any expenses incurred after delivery of said vessel to be borne entirely by the Owners or Underwriters.

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 2, 1922.

The master of the steamship *San Ubaldo* reports:

"At 15 h. 30 m. T. M. T., April 30, in Lat. 17° 35' N., Long. 72° 56' W., passed spar projecting 3 feet above water, apparently attached submerged wreckage. Dangerous to navigation."

JAY J. MORROW,  
Governor.

---

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 3, 1922.

The master of the steamship *Port Augusta* reported by radio yesterday as follows:

"At 9 h. G. M. T., May 2, at 5° 38' N., Long., 81° 56' W., passed wooden vessel awash, 70 feet long. Name undecipherable. Dangerous to navigation."

"Robinson, master."

JAY J. MORROW,  
Governor.

---

**Notice to Mariners.—Aids to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 4, 1922.

The following information has been received from the Agent of the Leyland-Harrison Line at Cartagena, Colombia:

"On the 29th instant there will be started the service of a lighthouse erected on the island called 'Tesorito.' The position of the light is as follows:

"Lat. 10° 14' 10" North.

"Long. 75° 44' 50" West.

"White, intermittent, height 35 feet above sea level."

This light is probably on Isla Tesoro, just off the Cartagena Harbor.

JAY J. MORROW,  
Governor.

---

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 4, 1922.

The master of the *Yankee Arrow* reports to-day by radio:

"Passed obstruction, May 3, 12.38 p. m., a trunk of tree, 60 feet long, partly submerged, 8½ miles, 222° true to Jicaron Island. Dangerous to navigation."

JAY J. MORROW,  
Governor.

---

**Notice to Mariners—Aids to Mariners, the Isla Grande Light.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 9, 1922.

The navigating officer of the American steamship *Scottsburg* reports under date of May 4:

"At 3.10 a. m., 75th Mer. time, we observed Isla Grande light to be extinguished on bearing 130° true; the light remained extinguished for 25 minutes. Lat. 9° 38' N., Long., 79° 34' W."

This office is receiving many similar reports of nonoperation of this light in the early morning hours, and shipping is hereby warned of its unreliability.

JAY J. MORROW,  
Governor.

## Deceased and Insane Employees.

The estates of the following deceased or insane employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Grease, yellow, cup, No. 5.....                                   | Lb.            | .09    |
| Soda, ash.....                                                    | Lb.            | .03    |
| Waste, cotton, colored.....                                       | Lb.            | .14    |
| Waste, cotton, white.....                                         | Lb.            | .15    |

## Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

## Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered as fast as the ships can take it, from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

## Official Circular.

### Acting Captain of the Port, Cristobal.

THE PANAMA CANAL,

DIVISION OF OPERATION AND MAINTENANCE,

BALBOA HEIGHTS, C. Z., May 3, 1922.

To all concerned—Effective May 4, 1922, and during the absence on leave of Commander F. V. McNair, U. S. N., Assistant Port Captain H. L. Eden will act as Captain of the Port, Cristobal.

E. P. JESSOP,

Marine Superintendent.

Approved:

JAY J. MORROW,  
Governor.

### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Mail Steamship Company, Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line). The Pacific Mail charges \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Scheduled Sailings of Panama Railroad Liners.

The following are proposed sailings of vessels of the Panama Railroad Steamship Line between Cristobal and New York, all voyages being by way of Port-au-Prince, Haiti:

#### NEW YORK TO CRISTOBAL.

| Steamer.              | Leave.      | Arrive. |
|-----------------------|-------------|---------|
| Gen. G. W. Goethals.. | May 15..... | May 23. |
| Panama.....           | May 25..... | June 2. |

#### CRISTOBAL TO NEW YORK.

|                       |             |          |
|-----------------------|-------------|----------|
| Colon.....            | May 19..... | May 26.  |
| Gen. G. W. Goethals.. | May 29..... | June 6.  |
| Panama.....           | June 9..... | June 16. |

### Typewriters For Sale.

The Supply Department has on sale a limited number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, Supply Department, Administration Building, Balboa Heights.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Certificate.—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., May 17, 1922.

No. 40.

## Heavy Loading of Three Steamers.

The steamship *Willhilo* of the Williams Steamship Company, passing through the Canal on May 12 from New York to Los Angeles, San Francisco, and Seattle, was reported by her master as carrying general cargo amounting to 10,075 tons. The *Willhilo* is a ship of 5,816 gross, and 3,567 net tons, United States registry measurement, 435 feet in length by 57.6 feet beam, and was, accordingly, well loaded. She was drawing 25.6 feet of water at time of transit.

During the calendar year 1921 the 428 vessels which passed through the Canal in the United States coastwise trade had aggregate registered net tonnage of 1,739,312 tons and carried a total of 1,944,118 tons of cargo. The ratio of tons of cargo to net tons was 1.12 tons of cargo per net ton. In the case of the *Willhilo* the ratio was 2.82.

The items reported on the cargo declaration for the *Willhilo* were as follows: Agricultural implements, 12 tons; automobiles, 4; canned fruits, 22; canned vegetables, 72; cement, 240; chemicals, 59; manufactured goods of iron and steel, pipe, etc., 6,652; machinery, 437; textiles, 1,271; other manufactured goods, not separately listed, 1,037; paper, 28; rubber tires, 3; tobacco, 21; leather, 3; carbide, 16; pig iron, 58; sheet tin, 140. The total of the foregoing is 10,075 tons.

Inasmuch as the Panama Canal net tonnage of the *Willhilo*, which is the interior space which can be devoted to carrying passengers or cargo, in tons of 100 cubic feet, is 5,882 tons, it is theoretically possible to load the ship with  $2\frac{1}{2}$  times as many tons of 40 cubic feet, the space measurement of a ton of cargo.

The British steamer *Sheaf Mead* (formerly the *Hawkser*), of 2,689 net registered tons, passed through the Canal on May 12, bound from Jacksonville, Fla., to San Antonio, Chile, with 6,000 tons of coal, a ratio of cargo to net tonnage of 2.23. The Panama Canal net of the *Sheaf Mead* is 4,008 tons.

The Japanese steamer *Hague Maru*, making the transit on the 13th, on the way from New York to Yokohama and Hongkong, reported 8,530 tons of structural steel, machinery, and general cargo. Her registered net tonnage is 3,591 tons, and the ratio of cargo to registered net on this voyage was 2.38. Her Panama Canal net measurement is 4,507 tons.

These instances afford striking examples of the differences between registered net tonnage, as established by the various national rules, and the net tonnage as determined by the Panama Canal rules for the purpose of measuring the actual capacity of the ship for carrying cargo or passengers.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, May 13, 1922.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

\* Other than ships passing through the Canal.

### The Return of the "Tavernilla" from Los Angeles.

The Panama Canal tug *Tavernilla*, which towed the steamer *Willpolo* from the Pacific coast of Nicaragua to Los Angeles, arriving there on April 28, returned to the Canal on May 15.

Capt. H. O. Loken, commanding the *Tavernilla*, gave the following summary of the voyage:

"We received orders at Cristobal at 10.30 a. m., April 10, and left for passage through the Canal at 11.30 a. m., arriving at Balboa at 7.00 p. m. After taking fuel and stores at Balboa we cleared for sea at 11 p. m.

"We arrived at the steamer *Willpolo* on April 14 at 10.45 p. m., in latitude 12° 59' N. and longitude 93° 26' W. She had been adrift since April 5, when she lost her propeller, 701 miles W. N. W. of Balboa, and to the time of the arrival of the tug had drifted 349 miles, west-northwest, on the track to California, averaging about .31 miles a day, for 10 days and 16 hours drifted.

"We started towing for San Pedro at 1 a. m., April 15. We arrived at San Pedro on the 28th at 3 p. m., towing 1,960 miles in 13 d. 17 h. 17 m. an average speed of 5.89 knots. During this time the *Tavernilla* ran in close to the coast of Mexico and took oil and water from the *Willpolo*, twice in open sea. On the 17th we were met by the tug *Sea Lion*, from San Francisco, which assisted us in making the tow to San Pedro. For the last 1,000 miles we were towing against a N. W. swell, but the weather was fine. The last day, in order to get to dock before evening, we opened up and went into San Pedro at a speed of over 7 knots. The *Willpolo* is an 5,175-ton ship, heavily loaded at the time and drawing 24½ feet of water.

"In San Pedro we cleaned boilers, and got out on the 2d of May. Coming back, we made the trip from San Pedro to Balboa, via Salina Cruz, a distance of 3,021 miles, at an average speed of 245 to 250 miles a day, without pushing the engines. We stopped a day at Salina Cruz for oil.

"Going up with the *Willpolo* in tow, we ran into thousands of turtles while crossing the southern part of the Gulf of California, west of Manzanillo. We caught two with a net, and they made fine steaks and soup. After leaving Salina Cruz, we saw only a few.

"The Los Angeles papers gave us good notices, and some of them said this was the heaviest towing job that had been performed on the coast. A number of old Canal people now living in Los Angeles came down to see us."

### Transit of Ward Line Steamer "Agwistar."

The steamship *Agwistar* of the New York and Cuba Mail Steamship Company (Ward Line) made the transit of the Canal on May 11 from Matanzas, Cuba, with 6,600 tons of sugar consigned to Vancouver. The local agents, the Anglo-American Steamship Agencies, advise that this is not the beginning of a regular service but simply a special voyage. The Ward Line began a service through the Canal between the Atlantic coast of the United States and the west coast of Central America and Mexico in October, 1916, but discontinued it in 1917 in order to use the vessels on more attractive trades.

## Regulating Water in Gatun Lake.

THE PANAMA CANAL, DEPARTMENT OF OPERATION AND MAINTENANCE,  
BALBOA HEIGHTS, C. Z., May 9, 1922.

*To all concerned*—The following schedule for maintaining Gatun Lake during the 1922 rainy season will be adhered to as closely as conditions permit:

The lake will be allowed to fill to elevation plus 85.5 feet before any water is wasted over the spillway. This elevation should be reached the latter part of June.

The lake will be held between elevations plus 85.5 feet and plus 86 feet until the 1st of October; filled to elevation plus 86.5 feet in October; and the filling will be completed to elevation plus 87 feet in November.

The allowable variation in lake level will be 0.5 foot to lessen the number of spillway gates operated simultaneously in regulating the lake level.

M. L. WALKER,  
Engineer of Maintenance.

## Notice to Mariners.—Aids to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 11, 1922.

Capt. J. E. Stone of the American steamship *General O. H. Ernst*, reports:

### VISIBILITY OF LIGHTS ON THE COAST OF ECUADOR.

Manta Light (changed from old light):

Flash 0.9 sec., eclipse 8.1 secs.

One flash every 9 seconds.

Visible 14 nautical miles.

Cape San Lorenzo (new light):

Flash 0.5 sec., eclipse 1.0 sec.

Flash 0.5 sec., eclipse 1.0 sec.

Flash 0.5 sec., eclipse 11.5 secs.

Three flashes every 15 seconds.

Visible 15 nautical miles.

Cape Pasado (new light):

Flash 1.2 sec., eclipse 10.8 secs.

One flash every 12 seconds.

Visible 19 nautical miles.

Cape Pasado light is obscured in the southerly approach east of N. 17 E. true.

Land formation and trees prevent seeing the light until it bears N. 17 E. true.

(The above-mentioned visibility is based on a height of 35 feet from the ship's bridge.)

JAY J. MORROW,  
Governor.

### Notice to Mariners.—Aids to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 11, 1922.

Capt. J. E. Stone of the American steamship *General O. H. Ernst* reports the following information received from the Captain of the Port of Buenaventura, Colombia:

LOCATION OF THE FIVE LUMINOUS BUOYS LOCATED IN THE BUENAVENTURA BAY.

#### DEPARTURE.

*First buoy.*—Red light, S. 15 W. M.; placed in 7 fathoms of water,  $\frac{1}{4}$  of a mile away from the pier; should be left to port side.

*Second buoy.*—White light, in front of Limones Point (Thotmes banks), location, S. 15 W. M.,  $1\frac{1}{2}$  miles away from the first; placed in 6 fathoms; should be left to starboard side.

*Third buoy.*—White light; it marks a bank of 3 fathoms in a direction S. 58 W. M. It is  $2\frac{1}{2}$  miles away from the second buoy, and is placed in 5 fathoms of water. Should be left to starboard side.

*Fourth buoy.*—Red light, location S. 60 W. M. It is 3 miles away from the third. It is placed in 10 fathoms of water, clear passage to port side and starboard side.

*Fifth buoy.*—White light, San Pablo bank (Morro of the same name), location S. 70 W. M., it is  $4\frac{1}{2}$  miles away from the fourth buoy; it is placed in 5 fathoms of water.

#### ENTRANCE.

The same indications with the natural inversion of the course.

The Inspector of the Customs,  
Manuel Sinisterra.

BUENAVENTURA, March, 1922.  
The Captain of the Port,  
Manuel S. Caicedo.

The visibility of these buoy lights is about 6 miles, flashing at intervals of 3 seconds. These are the same buoys reported in Notice to Mariners, Panama Canal, of March 9, 1922.

JAY J. MORROW,  
Governor.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended May 10:

Steamship *Ginyo Maru*, repairs to fire line.

#### PREVIOUSLY REPORTED.

Motor ship *Rosana*, open up engines; remove pistons, manufacture 42 piston rings and install, weld, and machine broken piston skirt; rebush 6 crosshead pins and manufacture pump springs; dredge *No. 86*, renew main deck house sills and deck; renew upper fender plank shear; renew 70 feet of upper deck sills and deck; renew ice box; build new gantry frames; change round spud wells to square; remove and replace deck machinery in wake of repairs; install new ladder brake wheel, redeck and calk galley floor; scale deck plates in way of replacement of wood decks; tug *Favorite*, convert from coal burner to oil burner.

The following vessels were at the Cristobal shops for repairs during the week ended May 15:

Steamships *City of Yokohama*, repair and renew copper oil pipe; *Toco*, manufacture 8 iron lock nuts and 1 spanner; make 1 cast-iron 5-inch T piece with 10-inch flanges and 1 blank flange; cut 5-inch pipe and fit to flange; *Loch Katrine*, furnish 6 brass tubes and 1 Muntz metal bar; *Cordelia*, manufacture crosshead for fuel pump; *Mantaro*, electric weld hawse pipe; *Colon*, renew  $2\frac{1}{2}$ " suction pipe for tank in fireroom; manufacture between-deck space; *Parismina*, repair main brine pipe; *San Juan*, repair hoister; *Manavi*, engine repairs; electric weld boiler manhole, door flange; repair boiler guard plates; test boiler; make 2 glands for ash hoist; fit valve on exhaust pipe line; remake main engine reduction pipe joints; machine atmospheric valve and seat; overhaul steering engine exhaust cock; skim up electric engine piston rod and fit new neck and gland bushes.

### Postal and Cable Addresses of The Panama Canal.

The postal address is "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Importation of Birds and Animals into the United States.

The Chief Quarantine Officer authorizes the following:

The Quarantine Division is in receipt from time to time of inquiries regarding the importation of birds and animals into the United States, and in order that the general public may have accurate information in regard to the matter, data on the subject have been secured from the United States Department of Agriculture. The regulations and laws covering these subjects are on file at the office of the Chief Quarantine Officer and may be seen there by any interested person. Those contemplating the shipment of horses, cattle, sheep, goats, swine, and wild animals should consult this file. The law in regard to this matter may be summarized as follows:

The importation of certain birds, and such other birds and animals as the Secretary of Agriculture may from time to time declare to be injurious to the interests of agriculture or horticulture, is prohibited, but natural history specimens for museums or scientific collections, or cage birds, such as domesticated canaries, parrots, and such other birds as the Secretary of Agriculture may designate, may be imported.

All packages containing the dead bodies or plumage or parts thereof, of game animals or game or other wild birds, must be plainly and clearly marked with name and address of shipper and note of contents. The importation of aigrettes, egret plumes, or so-called osprey plumes is absolutely prohibited.

Evasion or violation of any portion of this law is punishable by fine.

All dogs imported into the United States from any part of the world except the countries of North America are subject to inspection by the Bureau of Animal Industry, and such animal or animals, except the smaller breeds classed as house dogs, may, in the discretion of the inspector, be handled as prescribed for collie, shepherd, or sheep dogs. All collie, shepherd, or sheep dogs shall be subject to quarantine for a period not to exceed two weeks or until it can be determined as to whether such dogs are the hosts of the tapeworm.

Other animals and birds may be entered at ports in the United States under permit from the Bureau of Biological Survey. Application blanks for such permits may be secured from the Chief Quarantine Officer. Six birds or less may be imported without the formality of a permit, if included in the declaration of passenger's baggage. In case it is impracticable to obtain a permit in advance of shipment, application may be made by wire on arrival at port of entry, and if application is approved only a few hours delay will result.

### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective May 15, 1922:

| Commodities.                                                      | Unit.          | Price. |
|-------------------------------------------------------------------|----------------|--------|
| Brass, bar, average.....                                          | Lb.            | \$0.20 |
| Brass, sheet, average.....                                        | Lb.            | .31    |
| Bronze, Tobin, average.....                                       | Lb.            | .27    |
| Gasoline, motor grade.....                                        | Gal.           | .3125  |
| Metal, yellow.....                                                | Lb.            | .34    |
| Oakum, Navy, spun.....                                            | Lb.            | .11    |
| Oakum, Navy, unspun.....                                          | Lb.            | .14    |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....        | Pbl of 42 gals | 3.50   |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge.....    | Bbl of 42 gals | 1.70   |
| Oil, ammonia, cylinder.....                                       | Gal.           | .40    |
| Oil, burning.....                                                 | Gal.           | 1.06   |
| Oil, engine, gas, in barrels.....                                 | Gal.           | .49    |
| Oil, engine, gas, heavy, in drums.....                            | Gal.           | .50    |
| Oil, engine, gas, heavy, in barrels.....                          | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in cases.....                      | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in barrels.....                    | Gal.           | .50    |
| Oil, engine, gas, extra heavy, in drums.....                      | Gal.           | .35    |
| Oil, engine, gas, extra heavy, for motor schooners, in drums..... | Gal.           | .40    |
| Oil, kerosene, in drums.....                                      | Gal.           | .21    |
| Oil, marine engine.....                                           | Gal.           | 1.04   |
| Oil, marine engine.....                                           | Gal.           | .56    |
| Paint, lead, white, dry.....                                      | Lb.            | .09    |
| Paint, lead, white, in oil.....                                   | Lb.            | .09    |
| Paint, zinc, white, dry.....                                      | Lb.            | .15    |
| Paint, zinc, white, in oil.....                                   | Lb.            | .12½   |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09    |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .09    |
| Soda, ash.....                                                    | Lb.            | .03    |
| Waste, cotton, colored.....                                       | Lb.            | .14    |
| Waste, cotton, white.....                                         | Lb.            | .15    |

### Official Circular.

#### Sailings of the "Cristobal."

PANAMA RAILROAD COMPANY,  
PANAMA RAILROAD STEAMSHIP LINE,  
BALBOA HEIGHTS, C. Z., May 4, 1922.

*To all concerned*—Referring to my circular of April 20, advising that the steamship *Cristobal* would probably only make one more voyage to the Isthmus in the near future, sailing from Cristobal for Norfolk, Va., on Monday, May 22, at 3 p. m., we wish now to advise that this steamer will make an additional trip in June, sailing from Norfolk for Cristobal about June 2, and from Cristobal for Norfolk about June 13, definite sailing date to be announced later.

W. F. FOSTER,  
*Acting Superintendent.*

#### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity, as fast as the ships can take it. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

#### Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

#### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

#### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;  
(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

#### Typewriters For Sale.

The Supply Department has on sale a limited number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, Supply Department, Administration Building, Balboa Heights.

#### Binders for The Panama Canal Record.

Cardboard covers, punched and fitted with brass fasteners, forming binders for THE PANAMA CANAL RECORD, are offered for sale at 25 cents a set, for the benefit of those who wish to keep a file of the issues for ready reference. Orders may be addressed to The Panama Canal, Balboa Heights, Canal Zone, or The Panama Canal, Washington, D. C.

#### Sale of Cattle.

Grade Holstein bull calves 1 to 3 months old from registered sires. Also grade Hereford and Durham bulls and heifers 6 months to 2 years old. Sales will be made upon first satisfactory offer. For further information inquire Superintendent, Cattle Industry, Room 269, Administration Building, Balboa Heights.

#### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

No. 41.

## CANAL WORK IN APRIL.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of April, 1922:

BALBOA HEIGHTS, C. Z., May 18, 1922.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of April, 1922:

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal during the month of April, 1922, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | April,<br>1922. | March,<br>1922. | April,<br>1921. |
|-------------------------------------------------|-----------------|-----------------|-----------------|
| Commercial vessels.....                         | 230             | 234             | 227             |
| Noncommercial vessels.....                      | 14              | 15              | 27              |
| Launches, etc. (under 10 tons measurement)..... | 9               | 4               | 9               |
| Total vessels and craft through Canal.....      | 253             | 253             | 263             |

In addition to the foregoing, Panama Canal equipment, consisting of floating cranes, barges, craneboats, graders, etc., was passed through the locks in April as follows:

|                   | North-<br>bound. | South-<br>bound. | Total. |
|-------------------|------------------|------------------|--------|
| Gatun.....        | 14               | 10               | 24     |
| Pedro Miguel..... | 32               | 34               | 66     |
| Miraflores.....   | 38               | 31               | 69     |

### COMMERCIAL TRAFFIC.<sup>1</sup>

#### *Comparative Traffic Statistics.*

The following tabulations permit a ready comparison of commercial traffic through the Panama Canal during the month of April, 1922, with that of preceding months, along the lines indicated at the head of the various tables:

#### TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | April, 1922. | March, 1922. | April, 1921. | Average<br>month for<br>past year. |
|-------------------------------------------|--------------|--------------|--------------|------------------------------------|
| United States equivalent net tonnage..... | 771,932      | 786,759      | 771,116      | 742,259                            |
| Panama Canal net tonnage.....             | 974,833      | 975,811      | 955,503      | 918,391                            |
| Registered gross tonnage.....             | 1,219,338    | 1,226,971    | 1,203,087    | 1,156,053                          |
| Registered net tonnage.....               | 772,828      | 776,034      | 757,576      | 736,709                            |
| Tolls.....                                | \$953,256.11 | \$956,726.76 | \$927,977.09 | \$901,087.71                       |
| Cargo.....                                | 1,046,047    | 960,089      | 907,613      | 841,496                            |

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Statistics on vessels not paying tolls are shown under "noncommercial traffic."

## AVERAGE TONNAGE, TOLLS, AND TONS OF CARGO CARRIED PER VESSEL.

|                                                   | April,<br>1922. | March,<br>1922. | April,<br>1921. |
|---------------------------------------------------|-----------------|-----------------|-----------------|
| United States equivalent net tonnage.....         | 3,356           | 3,362           | 3,397           |
| Panama Canal net tonnage.....                     | 4,238           | 4,170           | 4,209           |
| Registered gross tonnage.....                     | 5,301           | 5,243           | 5,299           |
| Registered net tonnage.....                       | 3,360           | 3,316           | 3,337           |
| Tolls.....                                        | \$4,144.59      | \$4,088.57      | \$4,088.01      |
| Tons of cargo (including vessels in ballast)..... | 4,588           | 4,103           | 3,998           |
| Tons of cargo (laden vessels only).....           | 4,755           | 4,424           | *4,561          |

## UNITED STATES COASTWISE TRAFFIC.

|                    | Atlantic to Pacific. |                       |             |                   | Pacific to Atlantic. |                       |             |                   |

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of April, 1922, was published in THE PANAMA CANAL RECORD under date of May 10, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of April, 1922, as compared with the preceding month, and with the corresponding month of last year.

| Vessels plying between—              | Atlantic to Pacific.      |              |              | Pacific to Atlantic.      |              |              |

## TOLLS.

Under the present dual method of assessing tolls, the revenue from this source was \$927,977.09. Had the net tonnage as determined by the Panama Canal rules of

measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$213,793.57. These additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------|----------------------------|----------------------------|-------------|
| British.....       | \$39,222.45                | \$21,124.15                | \$60,346.60 |
| Chilean.....       | 2,990.00                   | 4,671.35                   | 7,661.35    |
| Danish.....        | 3,382.80                   | 1,350.75                   | 4,733.55    |
| Dutch.....         | 5,883.75                   | 3,867.75                   | 9,751.50    |
| French.....        |                            | 475.20                     | 475.20      |
| German.....        | 627.30                     | 2,565.85                   | 3,193.15    |
| Japanese.....      | 6,274.50                   | 3,166.05                   | 9,440.55    |
| Norwegian.....     | 3,534.44                   | 2,596.25                   | 6,130.69    |
| Peruvian.....      | 3,308.45                   | 4,666.65                   | 7,975.10    |
| Swedish.....       | 2,071.55                   | 2,387.10                   | 4,458.65    |
| United States..... | 46,500.58                  | 53,126.65                  | 99,627.23   |
| Totals.....        | 113,795.82                 | 99,997.75                  | 213,793.57  |

The additional tolls which would have been assessed against United States vessels would have been distributed among the following channels of trade:

|                                                  | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------------------------------------|----------------------------|----------------------------|-------------|
| United States coastwise ports.....               | \$25,356.15                | \$30,297.70                | \$55,653.85 |
| United States and Canal Zone ports.....          | 166.05                     | 364.10                     | 530.15      |
| United States and United States possessions..... | 2,443.75                   | 5,439.05                   | 7,882.80    |
| United States and foreign ports.....             | 16,380.10                  | 15,637.00                  | 32,017.10   |
| Between foreign ports.....                       | 2,154.53                   | 1,388.80                   | 3,543.33    |
| Totals.....                                      | 46,500.58                  | 53,126.65                  | 99,627.23   |

Of the \$213,793.57 additional revenue that would have been collected by using the Panama Canal rules of measurement exclusively, \$8,644.80 represents the additional tolls that would have been collected on account of deck cargo.

#### AVERAGE TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varying in different vessels and in vessels of different nationalities with the ratio of cargo tonnage to net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of April, 1922, by nationality of vessels.

|                                                | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|------------------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                                   | \$1.02                     | \$0.99                     | \$1.01              |
| Chilean.....                                   | 1.52                       | 3.61                       | 2.33                |
| Danish.....                                    | .91                        | .62                        | .79                 |
| Dutch.....                                     | .80                        | .72                        | .76                 |
| French.....                                    | 1.50                       | .76                        | .91                 |
| German.....                                    | 1.27                       | .66                        | .80                 |
| Japanese.....                                  | .67                        | .90                        | .75                 |
| Norwegian.....                                 | .78                        | .61                        | .74                 |

#### COMMODITY STATISTICS.

A classification of cargo passing through the Panama Canal during the month of April, 1922, has been compiled from declarations of cargo and manifests submitted by the ships' masters, and while incomplete, it is indicative of the kind and quantity

of the various commodities carried by vessels transiting the Canal. From the cargo declarations and manifests submitted it was possible to classify by commodities 66 per cent of all cargo passing from the Atlantic to the Pacific, and 93 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith.

| Commodity.                      | April,<br>1922. | March,<br>1922. | April,<br>1921. |
|---------------------------------|-----------------|-----------------|-----------------|
| <i>Atlantic to Pacific.</i>     |                 |                 |                 |
| Manufactured goods:             |                 |                 |                 |
| Iron and steel                  | 94,160          | 130,906         | 78,645          |
| Railroad material               | 24,080          | 10,746          | 7,569           |

| Totals.....        | 5                    | 16,864                    | 12,155.82  | 3                    | 8,333                     | 5,999.76 |

## NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Panama Canal free of tolls during the month of April, 1922. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Panama Canal; these, although paying tolls, are not included in the commercial traffic.

## LOCK OPERATION.

The following tabulations give the number of lockages, number of vessels passing through the locks, and the consumption of water for lockages, for the month of April, 1922, as compared with the preceding month, and the corresponding month of last year:

## NUMBER OF LOCKAGES.

|                             | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|-----------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                             | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun                       | 105         | 117    | 222    | 8              | 5      | 13     | 235          |
| Pedro Miguel                | 107         | 121    | 228    | 18             | 15     | 33     | 261          |
| Miraflores                  | 102         | 115    | 217    | 17             | 14     | 31     | 248          |
| Total lockages, April, 1922 | 314         | 353    | 667    | 43             | 34     | 77     | 744          |
| Total lockages, March, 1922 | 278         | 386    | 664    | 33             | 18     | 51     | 715          |
| Total lockages, April, 1921 | 325         | 351    | 676    | 39             | 45     | 84     | 760          |

## NUMBER OF VESSELS PUT THROUGH LOCKS.

|                            | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|----------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                            | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun                      | 113         | 129    | 242    | 14             | 10     | 24     | 266          |
| Pedro Miguel               | 111         | 123    | 234    | 32             | 34     | 66     | 300          |
| Miraflores                 | 111         | 123    | 234    | 38             | 31     | 69     | 303          |
| Total vessels, April, 1922 | 335         | 375    | 710    | 84             | 75     | 159    | 869          |
| Total vessels, March, 1922 | 293         | 420    | 713    | 70             | 67     | 137    | 850          |
| Total vessels, April, 1921 | 339         | 373    | 712    | 110            | 109    | 219    | 931          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                            | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------|--------|---------------|-------------|
| Army and Navy vessels..... | 13     | 13            | 13          |
| Canal equipment.....       | 11     | 47            | 56          |
| Total noncommercial.....   | 24     | 60            | 69          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                     | Gatun.             | Pedro Miguel.      | Miraflores.        |
|-------------------------------------|--------------------|--------------------|--------------------|
|                                     | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages.....                       | 893,900,000        | 878,600,000        | 738,920,000        |
| Leakage.....                        | 20,000,000         | 17,700,000         | 20,000,000         |
| Maintenance.....                    |                    | 19,000,000         | 10,700,000         |
| Total consumption, April, 1922..... | 913,900,000        | 915,390,000        | 769,620,000        |
| Total consumption, March, 1922..... | 907,670,000        | 831,680,000        | 730,408,000        |
| Total consumption, April, 1921..... | 911,560,000        | 837,920,000        | 822,850,000        |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographic conditions over the Canal Zone and vicinity during the month of April, 1922, are shown in comparative form.

| Rainfall.                                         | April,<br>1922. | April,<br>1921. | April—Years of record. |                 |                 |

| Gatun Lake watershed net yield.....               | 210             | 244             | 5,400                  | —706            | 1,219           |
| Draft on Gatun Lake for lockages and power.....   | 2,069           | 2,282           | 2,282                  | 1,019           | 1,650           |

<sup>1</sup> Maximum rainfall recorded for 24 hours. Occurred December 28–29, 1909.

<sup>2</sup> Maximum momentary discharge of record. Occurred December 26, 1909.

<sup>3</sup> Not including April, 1914.

## SEISMOLOGY.

No earthquakes were recorded on the Balboa Heights seismographs during the month.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulation:

|                                                                                | April, 1922.  | March, 1922.  | April, 1921.  |
|--------------------------------------------------------------------------------|---------------|---------------|---------------|
| Gross output, K. W. H.:                                                        |               |               |               |
| Gatun hydroelectric station.....                                               | 4,471,000     | 4,728,100     | 5,660,900     |

| Combined gross output.....                                                     | 4,471,250     | 4,728,500     | 5,700,190     |
| Power distributed to consumers..... KWH.                                       | 3,743,444     | 3,983,218     | 4,776,562     |
| Loss of power in plant auxiliaries, transmission, and transformation..... KWH. | 727,806       | 745,282       | 923,628       |
| Per cent of loss of power to gross output.....                                 | 16.27         | 15.76         | 16.20         |
| Water consumption..... cubic feet.                                             | 3,589,299,000 | 3,687,402,000 | 4,239,320,000 |
| Oil consumption..... barrels.                                                  | 2,009         | 1,911         | 2,135         |

Miscellaneous electrical repairs and installations of electrical equipment were made on 20 vessels during the month. There were 257 work orders issued for work to be performed by the Electrical Division during the month, as compared with 274 for March, 1922.

#### SHOP, FOUNDRY, AND DRY DOCK WORK.

During the month, miscellaneous repairs were made on 37 vessels at Cristobal and 45 vessels at Balboa. Of these vessels, 3 were placed in dry dock at Cristobal and 8 at Balboa. The more important repair work was as follows: The Shipping Board vessel *Eastern Queen* was placed in dry dock on account of the shaft having come badly down through excessive wear of the *lignum-vite* in the stern bushing as a result of which the stern tube shaft was broken through the coupling flange. A new stern tube shaft was installed, and necessary repairs made to the stern bushing.

The U. S. S. *Birmingham* was placed in dry dock on account of a broken port propeller shaft. The shaft and propeller were removed and the stern tube shaft (which, in this ship, is additional to the propeller shaft) was removed for examination and the stern tube blanked so that the vessel may be available for service under one propeller pending the receipt of a new shaft for installation.

The steamship *Wolsun* was docked and repairs to her bow and bottom made in wake of the damages received in a collision and subsequent grounding on the Cristobal breakwater.

The steamship *W. J. Hanna* was dry-docked on account of a broken intermediate shaft and a new intermediate shaft and tail shaft installed.

Substantial progress was made on the conversion of the Panama Canal tug *Favorite* into an oil burner.

The output of the foundry in patterns and castings for the month of April, 1922, as compared with the preceding month, was as follows:

|                 | April, 1922. |           |         | March, 1922. |           |         |
|-----------------|--------------|-----------|---------|--------------|-----------|---------|
|                 | Patterns.    | Castings. | Pounds. | Patterns.    | Castings. | Pounds. |
| Iron.....       | 7            | 144       | 13,383  | 2            | 135       | 7,958   |
| Steel.....      | 3            | 30        | 27,625  | 3            | 51        | 21,716  |
| Nonferrous..... | 4            | 86        | 1,803   | 2            | 129       | 2,549   |

The following is a statement of all job and blanket orders issued and completed during the month:

|                     | Uncompleted,<br>April 1. | Authorized<br>in April. | Completed<br>in April. | Uncompleted,<br>April 30. |
|---------------------|--------------------------|-------------------------|------------------------|---------------------------|
| Job orders.....     | 228                      | 387                     | 360                    | 255                       |
| Blanket orders..... | 360                      | 2                       | 1                      | 361                       |

#### DREDGING DIVISION.

Cucaracha and Barge Repair slides have shown no movement during the month. At the West Culebra slide a general movement of material has existed, showing a movement of 7 feet for the month, between stations 1775-00 and 1780-00 W; and a movement of about 3 feet between 1780-00 and 1795-00 W. This change has been determined by a resurvey of the base line along this slide. There was no interference with Canal traffic during the month.

The total excavation for April, 1922, was 253,400 cubic feet of earth and rock, as follows:

| Cubic<br>yards. | Classified as— |        | Character<br>of work. | Stations.                                                                   | Equipment        |

Governor.

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 18, 1922.

The U. S. S. *Nevada* reports: "White deck house awash, 2 ventilators, at latitude 15° 28' N., Longitude 98° 9' W., noon, May 14, 7th meridian civil time."

JAY J. MORROW,

Governor.

**Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended May 17:

Steamships *Oanfa*, repair 1 piece of auxiliary steam line; *West Cherow*, furnish services of diver to pack around tail shaft to make necessary repairs to stern gland; launch *Petrolito*, examine engine; manufacture 4 valve stems; ream guide holes; tighten shaft on magneto.

## PREVIOUSLY REPORTED.

Dredge *No. 86*, renew main deck house sills and deck; renew upper fender plank shear; renew 70 feet of upper deck sills and deck; renew ice box; build new gantry frames; change round spud wells to square; remove and replace deck machinery in wake of repairs; install new ladder brake wheel; redeck and calk galley floor; scale deck plates in way of replacement of wood decks; tug *Favorite*, convert from coal burner to oil burner.

The following vessels were at the Cristobal shops for repairs during the week ended May 22:

Motor schooner *Alsace*, repair gasoline engines and weld new end on davit; steamship *Advance*, remetal and bore blower engine crank-pin brasses; repair casting for lead to winch; repair after dynamo, fresh water pump and chest cover for sanitary pump; overhaul ammonia compressor suction valve, etc.; tug *Porto Bello*, repair steering engine; remove H. P. piston rod and renew springs to packing; regrind piston rod and line up H. P. slide; make 1 new set of metallic packing; repair valve cages and install new H. P. valve, etc.; steamship *Manavi*, make 3 canvas slings as directed; tug *Engineer*, remove old tank from bilges in after hold; overhaul boilers; renew floor angles, floor plates, and ash guards in fireroom; remove old water tanks in fore hold and install new tank; clean, test, and repair main condenser; overhaul and install air pump; overhaul anchor windlass; repair discharge line from ejector; repair rudder chain; repair main thrust, fresh water pump and make general repairs to main engines, etc.; steamship *Cristobal*, manufacture crank-pin wrench; repair chain falls, repair galley stove, etc., *Conde de Churruaca*, *Ceres*, *Orita*, *Solana*, U. S. M. P. *Graham*, schooner *Arabia*, and tug *Coco Solo*, minor repairs.

## Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, April, 1922.

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

*Certificate.*—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., May 31, 1922.

No. 42.

## Visit of the Secretary of the Navy.

The U. S. Navy transport *Henderson*, carrying the Hon. Edwin Denby, Secretary of the Navy, and members of the Class of 1881, U. S. Naval Academy, with their families, arrived at Cristobal and made the transit of the Canal on May 27, on the way to Japan. The transport tied up at Balboa until the afternoon of May 29. Secretary Denby inspected the Canal and was the guest of honor at various receptions and dinners.

## Increase in Lumber Shipments Through the Canal.

Shipments of lumber through the Panama Canal during the month of April were greater than for any month since December, 1920, and amounted to 102,194 tons. Of the total, 4,641 tons came from the west coast of Canada and 97,553 tons from the west coast of the United States. The destination of the lumber was 87,943 tons to the east coast of the United States, 3,860 tons to Great Britain, 2,573 tons to other European ports; 4,581 tons to South Africa, 1,708 tons to the east coast of South America, and 1,529 tons to Mexico.

Total shipments during the preceding 6 months, from Pacific to Atlantic, were October, 56,606 tons; November, 50,564; December, 42,610; January, 57,347; February, 64,002; and March, 74,432 tons.

## Nitrate Shipments Show Increase.

Shipments of nitrate from Chile through the Canal showed a sudden rise in April, and exceeded shipments during any month since April, 1921. From an average of approximately 40,000 tons a month for the period since April of last year (in which the largest quantity for a month was 59,957 tons, in December and the lowest 22,231 tons, in March, 1922), shipments rose to 79,325 tons in April, 1922.

Nitrate shipments during the fiscal year ending June 30, 1921, aggregated 1,530,592 tons and made up the principal cargo passing through the Canal. During the first 10 months of the current fiscal year the nitrates have aggregated 417,188 tons.

## Predictions of Increased Barley Traffic.

Increased shipments of barley from the west coast of the United States to Great Britain and the continent of Europe during the coming 12 months are predicted by some of the grain dealers and shipping men of the west coast.

During the 10 months of the current fiscal year ending April 30, the shipments of barley from the west coast of the United States passing through the Panama Canal aggregated 340,513 tons, an average of 34,051 tons a month. The month in which the greatest quantity passed through the Canal from the west coast of the United States was August, with 99,129 tons.

## MOVEMENTS OF OCEAN VESSELS.

\* Other than ships passing through the Canal.

### Largest Cargo Carried Through the Canal.

The steamer *Bethore*, arriving at Balboa in the morning of May 29 and making the transit of the Canal on the same day, reported a cargo of 19,000 tons, the largest to have passed through the Canal on any ship to date. The previous record was 15,753 tons, carried by the steamship *Orca* of the Pacific Steam Navigation Company.

The cargo of the *Bethore* was iron ore, shipped from Cruz Grande, Chile, to New York. The ship is owned and operated by the Ore Steamship Corporation. It is one of several new steamers built for the company, which have been commented on considerably from the novelty of their having been built to carry oil in bulk, general cargo, or ore in the trade between the west coast of South America and the Atlantic coast of the United States and Mexico. The *Bethore*, however, transited the Canal on her southbound voyage in ballast, on May 7.

The *Bethore* is 550 feet in length by 72 feet beam, of 14,900 gross and 9,615 net tons. At the time of passing through the Canal on May 29 she was drawing 32 feet 6 inches of water.

### Initial Sailing of China-American Line.

The steamship *Monmouth*, arriving at the Canal on May 25, from New York by way of Norfolk and Habana, bound for Hongkong, is operated by the China-American Line, a Chinese organization, and it is said that this is the opening of a regular service by the company between the Atlantic coast of North America and China.

The *Monmouth* is a British ship, owned by the Monmouth Steamship Company, of Toronto. She is a ship of 4,078 gross and 2,569 net tons, 375 feet in length, and at the time of passage through the Canal was carrying 4,000 tons of general cargo. Her crew consisted of 72, of whom 60 were Chinese, and she was carrying 39 Chinese passengers.

### Notice to Mariners.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., May 22, 1922.

Effective July 1, the red sectors (from 160° to 200° covering Iguana Island, and from 35° to 60° covering N. and S., Fraile Rocks) will be discontinued.

Cape Mala Light will then show—White, flashing, all around the horizon. No other change.

JAY J. MORROW,  
Governor.

<sup>1</sup> No cargo discharged.<sup>2</sup> Pounds.<sup>3</sup> No cargo laded.

## Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended May 24:

Tug *Empire*, repair weather doors and dogs in deck house; repair air ports in deck house; repair scuttle covers on main deck; repair hatch covers on forward main deck; repair hatch cover on hatch leading to after storeroom; plug holes in main deck plate; repair 2 ventilator trunks on main deck, forward; overhaul smokestack guides; secure wood hatch cover on upper deck, test after capstan; connect up and test boiler; dress 9 chisels and 1 center punch; repair miscellaneous wrenches; manufacture 1 hatch and miscellaneous hatch strongbacks; steamships *Ansaldo San Giorgio I*, manufacture 20 piston rings; manufacture 1 new piston; convert 1 old piston to new design; manufacture packing box; *Scotia Maiden*, manufacture 2 spur gears; remetal 3 bearings.

## PREVIOUSLY REPORTED.

Launch *Petrolio*, miscellaneous light repairs; dredge *No. 86*, miscellaneous heavy repairs; tug *Favorite*, convert from coal burner to oil burner.

The following vessels were at the Cristobal shops for repairs during the week ended May 29:

Steamships *La Navarre*, repair and mount pipe to boiler; *Stuyvesant*, repair ice machine; clear scupper, repair cabin water cans, etc.; *Albaro*, repair air and brine circulating pumps; repair piping, etc.; *Jamaica*, manufacture and fit 2 new piston valves and rings, 2 new valve spindles; face up control valve and control valve face for steering engine; fit new driving shaft to No. 2 port winch; fit new driving wheel to No. 1 winch; repair auxiliary feed pump exhaust pipe, etc.; U. S. Army transport *Edgemoor*, repair steering engine; repair copper winch pipe; steamship *Cauca*, repair ice machine, ballast pump, circulating pump engine, and dynamo; test boiler; repair piping and screening in various staterooms and officer's quarters; make 3 new piston rings for H. P. cylinder; repair port lights; renew part of auxiliary sanitary pump, suction pipe, etc.; motor schooner *Laura C. Hall*, dock and undock; scrape and paint hull; calk and plug worm holes, etc.; make new friction band for cargo winch; make 4 copper strainers and 1 muffler as sketch, etc.; steamship *Gen. G. W. Goethals*, repair sanitary line to officer's quarters and straighten winch eccentric; *West Isleta*, *Heffron*, *Crenatula*, and motor ship *San Francisco*, minor repairs.

## Deceased Employee.

The estate of the following deceased employee of The Panama Canal is now in process of settlement, and any claims against this estate, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due him, should be presented at the office of the Administrator of Estates at once in order that the estate may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. This name will be published but once.

| Paint, zinc, white, in oil.....                                   | Lb.            | .12    |
| Grease, gear, chain and wire rope, lubricating.....               | Lb.            | .09    |
| Grease, yellow, cup, No. 3.....                                   | Lb.            | .11    |
| Grease, yellow, cup, No. 5.....                                   | Lb.            | .09    |
| Soda, ash.....                                                    | Lb.            | .03    |
| Waste, cotton, colored.....                                       | Lb.            | .14    |
| Waste, cotton, white.....                                         | Lb.            | .15    |

## Official Circulars.

## Acting Auditor.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., May 22, 1922.

To all concerned—Effective to-day, and during the absence of Mr. H. A. A. Smith on leave, Mr. Elwyn Greene will act as Auditor of The Panama Canal.

JAY J. MORROW,  
Governor.

## Stock of Material and Supplies.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., May 19, 1922.

## TO HEADS OF DEPARTMENTS AND DIVISIONS:

It is necessary to reduce to a minimum, consistent with the proper maintenance and operation of the Panama Canal and the various business activities carried on, the value of the stock of material and supplies in the general storehouses and in the possession of divisions unapplied to the work. The amount of the appropriation to be made for the maintenance and operation of the Canal for the fiscal year ending June 30, 1923, has been fixed on the assumption that \$1,000,000 of the total expenditures of the fiscal year would be provided from a reduction in the stock on hand by using that amount of material in excess of purchases made.

The requirements as above set forth make it necessary to fix a limit on the value of unapplied stock of material and supplies that may at any time be in the possession of departments and divisions. They also make it necessary to place on the Supply Department final and complete responsibility for ordering material and maintaining stock.

The following statement shows the value of the stock of material and supplies in the possession of various divisions of the Department of Operation and Maintenance as of June 30, 1921, March 31, 1922, and the value which must not be exceeded during the fiscal year 1923, unless an increase is necessary for special work and special authority from the Governor is obtained in advance:

| DIVISION.                        | June 30,<br>1921. | March 31,<br>1922. | Maximum,<br>1923. |
|----------------------------------|-------------------|--------------------|-------------------|
| Locks Operation.....             | \$424,068.19      | \$401,467.93       | \$375,000.00      |
| Electrical.....                  | 52,149.07         | 29,524.13          | 25,000.00         |
| Municipal Engineering.....       | 109,899.22        | 69,517.52          | 60,000.00         |
| Dredging.....                    | 68,502.08         | 30,945.39          | 30,000.00         |
| Mechanical.....                  | 49,961.77         | 38,389.23          | 40,000.00         |
| Marine.....                      | 17,267.58         | 9,441.24           | 10,000.00         |
| Motor Car Repair Shop.....       | 3,615.30          | 715.34             | 3,000.00          |
| Constructing Quarter-master..... |                   |                    | 10,000.00         |
| Dams and Backfills.....          | 367.41            | 298.41             | 500.00            |

No material will be purchased if material on hand will serve the purpose with a reasonable degree of satisfaction. Final and complete responsibility for determining whether new material shall be purchased is vested in the Supply Department, except that all requisitions for the purchase of material are subject to the approval of the Engineer of Maintenance as provided in Circular 660-57 and except that the decisions of the Supply Department on the usability of the material on hand are subject to reconsideration

by the Governor. The Supply Department is also vested with complete responsibility for the maintenance of the stock of material and supplies.

JAY J. MORROW,  
Governor.

## District Dentists.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., May 23, 1922.

## CIRCULAR NO. 622-4:

1. Circular No. 622-1, of December 10, 1917, and Circular No. 622-2, of February 16, 1918, providing for certain free dental work upon employees and school children, are hereby canceled, effective July 1, 1922. Repair work performed by district dentists upon employees, required as a result of injuries received in the line of duty, will be charged to the Accounting Department, Claim Officer, who will secure reimbursement from the United States Employees' Compensation Commission.

2. Effective July 1, 1922, a rental charge will be made against district dentists for office room and office furniture and equipment which may be assigned by The Panama Canal to such dentists for their use.

JAY J. MORROW,  
Governor.

## Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;  
(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;  
Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity, as fast as the ships can take it. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

### Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

### Scrap Burlap Bagging.

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging included in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars to those receiving THE PANAMA CANAL RECORD. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Typewriters For Sale.

The Supply Department has on sale a limited number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, Supply Department, Administration Building, Balboa Heights.

### Binders for The Panama Canal Record.

Cardboard covers, punched and fitted with brass fasteners, forming binders for THE PANAMA CANAL RECORD, are offered for sale at 25 cents a set, for the benefit of those who wish to keep a file of the issues for ready reference. Orders may be addressed to The Panama Canal, Balboa Heights, Canal Zone, or The Panama Canal, Washington, D. C.

### Sale of Cattle.

Grade Holstein bull calves 1 to 3 months old from registered sires. Also grade Hereford and Durham bulls and heifers 6 months to 2 years old. Sales will be made upon first satisfactory offer. For further information inquire Superintendent, Cattle Industry, Room 269, Administration Building, Balboa Heights.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Mail Steamship Company, Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line). The Pacific Mail charges \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### Hours of Departure of Passenger Trains.

Following are the hours of departure of the passenger trains of the Panama Railroad running between the Atlantic and the Pacific:

From Colon: 9.10 a. m., 12.15 p. m., 4 p. m.

From Panama: 7 a. m., 12.15 p. m., 6.10 p. m.

The trains leaving at 12.15 p. m. do not run on Sundays and holidays; the others are daily.

### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Volume XV.

Balboa Heights, C. Z., June 7, 1922.

No. 43.

## Increased Canal Traffic in May.

A total of 243 ocean-going commercial vessels transited the Canal during the month of May. The tolls on them amounted to \$1,015,057.37, as compared with \$953,256.11 tolls for 230 vessels last month, and \$835,882.77 for 210 vessels in the month of May last year.

The revenue from tolls during May has been exceeded during but 3 months since the opening of the Canal, viz., January, March, and October of 1921, when the tolls were, respectively, \$1,095,857.46, \$1,105,536.55, and \$1,047,935.62.

The tons of cargo carried by vessels transiting the Canal during May aggregated 1,158,507 tons. With the exception of the cargo in January, 1921 (1,177,053 cargo tons) this is the greatest cargo tonnage through the Canal during any month since its opening.

In addition to the above commercial traffic, 6 small nonseagoing launches transited the Canal during the month, on which tolls of \$12.75 were paid, and 16 vessels passed through the Canal free of tolls. Of the vessels transiting the Canal without payment of tolls, 14 were noncommercial vessels of the United States Government, 1 was a foreign commercial vessel passed through the Canal free of tolls in order to have repairs made at the Balboa dry dock, and 1 was a government vessel owned by the Republic of Colombia.

## American Tonnage Through Canal in May Exceeds All Previous Records.

During the past month, all previous monthly records of American tonnage through the Canal were exceeded. The vessels of United States registry which transited the Canal, numbering 108, out of the total of 243, had an aggregate net tonnage of 511,621, Panama Canal measurement, and carried 608,539 tons of cargo. Tolls paid by these vessels totaled \$506,148.97. Vessels of American registry furnished practically half of the tonnage through the Canal, paid approximately half of the tolls, and carried slightly more than half of the total cargo passing through the Canal. The number of American vessels, 108, was exceeded in 5 previous months; the record is 121, in August, 1920.

The three principal trade areas covered by American vessels during the month were:

(a) Between United States coastwise ports, a total of 55 vessels, aggregating 260,946 net tons, Panama Canal measurement, and carrying 281,447 tons of cargo.

(b) Between the east coast of the United States and the Orient, a total of 16 vessels, aggregating 86,573 net tons, Panama Canal measurement, and carrying 141,285 tons of cargo; and

(c) Between the east coast of the United States and the west coast of South America, a total of 16 vessels, aggregating 75,932 net tons, Panama Canal measurement, and carrying 76,360 tons of cargo.

## Financial Receipts and Disbursements, April, 1922.

BALBOA HEIGHTS, C. Z., May 31, 1922.

*The Honorable, the Secretary of War, Washington, D. C.*

SIR: Herewith is a report showing the commissary sales, financial receipts, and expenditures, and of the cash balance available in The Panama Canal appropriations for the month of April, 1922, as compared with the preceding month, and with the corresponding month of last year:

|                                                                                           | April, 1922.    | March, 1922.    | April, 1921.   |
|-------------------------------------------------------------------------------------------|-----------------|-----------------|----------------|
| Cash balance available for expenditures in Canal appropriations on last day of month..... | \$11,610,223.49 | \$11,741,940.27 | \$8,020,685.58 |
| Payments made from appropriations:                                                        |                 |                 |                |
| By paymaster on the Isthmus.....                                                          | 893,590.92      | 891,747.77      | 1,570,092.07   |
| By Disbursing Clerk, Washington, D. C.....                                                | 54,054.74       | 97,040.53       | 737,709.52     |
| To the Panama Railroad (for commissary books).....                                        | 177,321.61      | 173,358.01      | 307,802.49     |
| Collections on the Isthmus:                                                               |                 |                 |                |
| Repaid to appropriations.....                                                             | 724,527.71      | 513,416.00      | 1,031,281.31   |
| Commissary and other trust funds.....                                                     | 179,578.57      | 175,805.94      | 309,877.44     |
| Tolls.....                                                                                | 953,293.96      | 956,734.11      | 928,007.79     |
| Sales of water.....                                                                       | 2,874.90        | 32.75           | 14,430.50      |
| Postal receipts.....                                                                      | 9,131.16        | 10,069.52       | 10,617.87      |
| Licenses, taxes, court fees, fines, etc.....                                              | 2,791.90        | 3,009.00        | 4,381.83       |
| Sales of construction material and equipment.....                                         |                 | 3,091.00        |                |
| Total collections on Isthmus.....                                                         | 1,872,198.20    | 1,662,158.32    | 2,298,596.74   |
| Collections by the Disbursing Clerk, Washington, D. C.....                                | 25,228.17       | 10,785.91       | 127,292.71     |
| Deposits with the assistant treasurer, United States.....                                 | 41,266.25       | 57,300.00       | 49,700.00      |
| Canal Zone and miscellaneous funds:                                                       |                 |                 |                |
| Receipts:                                                                                 |                 |                 |                |

Respectfully,

JAY J. MORROW, Governor.

## Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 3, 1922.

The Master of the steamship *Argosy* reports at 11 o'clock, a. m., to-day, a tree 70 feet long, with large branches attached, floating 2½ miles east of Taboguilla Island, Panama Bay.

JAY J. MORROW,  
Governor.

### Ships at Canal Repair Shops.

The following vessels were at the Cristobal shops for repairs during the week ended June 5:

Steamship *Salvador*, repair Nos. 1 and 2 'tween deck hatches; repair forepart of after deck house; calk forward well deck; supply and fit new cleats for stanchions on accommodation ladder; renew accommodation ladder platform; *Acajulla*, fit new leather straps to the windows of captain's room; furnish strum plate for engine room bilge manifold; patch and re-rivet to bulkhead steam pipe casing leading to forecandle head; repair door frames for sailors' and firemen's forecandle and water closets; manufacture 1 scum valve and stem; *Advance*, furnish lumber as directed; *Bessemer City*, repair 4 copper coils; *Heredia*, make 4 piston rings for air pump; tug *Tavernilla*, miscellaneous repairs as directed by master; steamships *Orcoma*, manufacture pipe for feed pump; *Parismina*, clear out drains, etc.; *Panama*, reforge davit crank handle for No. 7 lifeboat; cut off at top stem and sternpost on Nos. 5 and 7 lifeboats to fit boat tackle; refasten scupper lip on shell starboard side, after end of saloon; make new stem for valve on brine line; renew bales on 2 ash buckets; *Jamaica*, repair 2 sanitary pipes.

### Treaty Between the United States and Colombia.

*By the President of the United States of America—A Proclamation:*<sup>1</sup>

Whereas a Treaty between the United States of America and the Republic of Colombia, for the settlement of their differences arising out of the events which took place on the Isthmus of Panama in November, 1903, was concluded by their respective Plenipotentiaries at Bogotá on the sixth day of April in the year one thousand nine hundred and fourteen, which Treaty, in the English and Spanish languages,<sup>2</sup> and as amended by the Senate of the United States, is word for word as follows:

Treaty between the United States of America and the Republic of Colombia for the settlement of their differences arising out of the events which took place on the Isthmus of Panama in November, 1903.

The United States of America and the Republic of Colombia, being desirous to remove all the misunderstandings growing out of the political events in Panama in November, 1903; to restore the cordial friendship that formerly characterized the relations between the two countries, and also to define and regulate their rights and interests in respect of the interoceanic canal which the Government of the United States has constructed across the Isthmus of Panama, have resolved for this purpose to conclude a Treaty and have accordingly appointed as their Plenipotentiaries:

His Excellency the President of the United States of America, Thaddeus Austin Thomson, Envoy Extraordinary and Minister Plenipotentiary of the United States of America to the Government of the Republic of Colombia; and

His Excellency the President of the Republic of Colombia, Francisco José Urrutia, Minister for Foreign Affairs; Marco Fidel Suárez, First Designate to exercise the Executive Power; Nicolás Esguerra, Ex-Minister of State; José María González Valencia, Senator; Rafael Uribe Uribe, Senator; and Antonio José Uribe, President of the House of Representatives;

Who, after communicating to each other their respective full powers, which were found to be in due and proper form, have agreed upon the following:

#### ARTICLE I.

The Republic of Colombia shall enjoy the following rights in respect to the interoceanic Canal and the Panama Railway, the title to which is now vested entirely and absolutely in the United States of America, without any incumbrances or indemnities whatever.

1. The Republic of Colombia shall be at liberty at all times to transport through the interoceanic Canal its troops, materials of war and ships of war, without paying any charges to the United States.

2. The products of the soil and industry of Colombia passing through the Canal, as well as the Colombian mails, shall be exempt from any charge or duty other than those to which the products and mails of the United States may be subject. The products of the soil and industry of Colombia, such as cattle, salt and provisions, shall be admitted to entry in the Canal Zone, and likewise in the islands and mainland occupied or which may be occupied by the United States as auxiliary and accessory thereto, without paying other duties or charges than those payable by similar products of the United States.

<sup>1</sup> Published as Panama Canal circular No. 601-130.

<sup>2</sup> The original proclamation also contains the Spanish version which has been omitted from this reprint.

3. Colombian citizens crossing the Canal Zone shall, upon production of proper proof of their nationality, be exempt from every toll, tax or duty to which citizens of the United States are not subject.

4. Whenever traffic by the Canal is interrupted or whenever it shall be necessary for any other reason to use the railway, the troops, materials of war, products and mails of the Republic of Colombia, as above mentioned, shall be transported on the Railway between Ancon and Cristobal or on any other Railway substituted therefor, paying only the same charges and duties as are imposed upon the troops, materials of war, products and mails of the United States. The officers, agents and employees of the Government of Colombia shall, upon production of proper proof of their official character or their employment, also be entitled to passage on the said Railway on the same terms as officers, agents and employees of the Government of the United States.

5. Coal, petroleum and sea salt, being the products of Colombia, for Colombian consumption passing from the Atlantic coast of Colombia to any Colombian port on the Pacific coast, and vice-versa, shall, whenever traffic by the Canal is interrupted, be transported over the aforesaid Railway free of any charge except the actual cost of handling and transportation, which shall not in any case exceed one half of the ordinary freight charges levied upon similar products of the United States passing over the Railway and in transit from one port to another of the United States.

#### ARTICLE II.

The Government of the United States of America agrees to pay at the City of Washington to the Republic of Colombia the sum of twenty-five million dollars, gold, United States money, as follows: The sum of five million dollars shall be paid within six months after the exchange of ratifications of the present treaty, and reckoning from the date of that payment, the remaining twenty million dollars shall be paid in four annual installments of five million dollars each.

#### ARTICLE III.

The Republic of Colombia recognizes Panama as an independent nation and taking as a basis the Colombian Law of June 9, 1855, agrees that the boundary shall be the following: From Cape Tiburón to the headwaters of the Rio de la Miel and following the mountain chain by the ridge of Gandi to the Sierra de Chugargun and that of Mali going down by the ridges of Nigue to the heights of Aspave and from thence to a point on the Pacific half way between Cocalito and La Ardita.

In consideration of this recognition, the Government of the United States will, immediately after the exchange of the ratifications of the present Treaty, take the necessary steps in order to obtain from the Government of Panama the despatch of a duly accredited agent to negotiate and conclude with the Government of Colombia a Treaty of Peace and Friendship, with a view to bring about both the establishment of regular diplomatic relations between Colombia and Panama and the adjustment of all questions of pecuniary liability as between the two countries, in accordance with recognized principles of law and precedents.

#### ARTICLE IV.

The present Treaty shall be approved and ratified by the High Contracting Parties in conformity with their respective laws, and the ratifications thereof shall be exchanged in the city of Bogotá, as soon as may be possible.

In faith whereof, the said Plenipotentiaries have signed the present Treaty in duplicate and have hereunto affixed their respective seals.

Done at the city of Bogotá, the sixth day of April in the year of our Lord nineteen hundred and fourteen.

And whereas the advice and consent of the Senate of the United States to the ratification of the said Treaty was given also with the "understanding, to be made a part of such treaty and ratification, that the provisions of section 1 of Article 1 of the treaty granting to the Republic of Colombia free passage through the Panama Canal for its troops, materials of war and ships of war, shall not apply in case of war between the Republic of Colombia and any other country";

And whereas the said Treaty as amended by the Senate and the above recited understanding of the Senate made a part of such Treaty have been duly ratified on both parts, and the ratifications of the two Governments were exchanged at Bogotá, on the first day of March, one thousand nine hundred and twenty-two;

Now, therefore, be it known that I, Warren G. Harding, President of the United States of America, have caused the said Treaty, as amended, and the said understanding, made a part thereof, to be made public, to the end that the same and every article and clause thereof may be observed and fulfilled with good faith by the United States and the citizens thereof.

In Testimony whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this thirtieth day of March, in the year of our [SEAL.] Lord one thousand nine hundred and twenty-two, and of the independence of the United States of America the one hundred and forty-sixth.

WARREN G. HARDING.

By the President:

CHARLES E. HUGHES, *Secretary of State.*

### PROTOCOL OF EXCHANGE.

The undersigned Plenipotentiaries having met for the purpose of exchanging the ratifications of the Treaty signed at Bogotá, on April 6, 1914, between the United States of America and Colombia, providing for the settlement of differences arising out of the events which took place on the Isthmus of Panama in November, 1903, and the ratifications of the Treaty aforesaid having been carefully compared and found exactly conformable to each other, the exchange took place this day in the usual form.

With reference to this exchange the following statement is incorporated in the present Protocol in accordance with instructions received:

1. In conformity with the final Resolution of the Senate of the United States in giving its consent to the ratification of the Treaty in question, the stipulation contained in the first clause of Article one by which there is ceded to the Republic of Colombia free passage of its troops, materials of war and ships of war through the Panama Canal, shall not be applicable in case of a state of war between the Republic of Colombia and any other country.

2. The said final Resolution of the Senate of the United States signifies, as the Secretary of State in effect stated in the note which he addressed to the Colombian Legation in Washington on the 3rd day of October, 1921, that the Republic of Colombia will not have the right of passage, free of tolls, for its troops, materials of war and ships of war, in case of war between Colombia and some other country, and consequently, the Republic of Colombia will be placed, when at war with another country, on the same footing as any other nation under similar conditions, as provided in the Hay-Pauncefote Treaty concluded in 1901; and that, therefore, the Republic of Colombia will not by operation of the declaration of the Senate of the United States above mentioned, be placed under any disadvantage as compared with the other belligerent or belligerents, in the Panama Canal, in case of war between Colombia and some other nation or nations. With this understanding the said Resolution has been accepted by the Colombian Congress in accordance with the dispositions contained in Article two of Law fifty-six of 1921, "by which is modified Law number fourteen of 1914" approving the Treaty.

IN WITNESS WHEREOF, they have signed the present Protocol of Exchange and have affixed their seals thereto.

DONE at Bogotá, this first day of March, one thousand nine hundred and twenty-two.

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity, as fast as the ships can take it. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

### Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

### Typewriters For Sale.

The Supply Department has on sale a limited number of Underwood typewriters, second hand, models 4 and 5. Prices range from \$20 to \$35. Inspection can be made by applying to Storekeeper, Supply Department, Administration Building, Balboa Heights.

### Scrap Burlap Bagging.

The Supply Department has on hand, available for sale, at the general storehouse, Balboa, a large quantity of scrap burlap bagging included in which are a quantity of clean but torn burlap bags.

This material is suitable for packing furniture, etc., and is offered at a price of 3 cents per pound put up in bales averaging 250 pounds each, or in smaller quantities if desired.

Arrangements for purchase should be made direct with the General Storekeeper, Balboa, C. Z.

### Sale of Cattle.

Grade Holstein bull calves 1 to 3 months old from registered sires. Also grade Hereford and Durham bulls and heifers 6 months to 2 years old. Sales will be made upon first satisfactory offer. For further information inquire Superintendent, Cattle Industry, Room 269, Administration Building, Balboa Heights.

## Refrigerator Steamship Service from North Pacific Coast to New York and Boston.

The *Fisheries Service Bulletin*, issued by the Bureau of Fisheries, Department of Commerce of the United States, published under the above heading the following article in its issue of March 1:

H. F. Taylor, of the division of fishery industries, recently visited and inspected at the wharf in New York City the steamship *Neponset*, a large refrigerator ship of the Elder Steel Steamship Company and a sister to the steamer *Deerfield*, which landed a cargo of frozen fish from Seattle via the Panama Canal in January. The *Neponset* docked February 22 with a cargo of frozen fish, mostly salmon, steelheads, halibut, mild-cured salmon, with other perishable freight, including apples, lemons, etc., this landing representing the second trip made in this newly instituted trade.

The *Neponset* (and also the sister ship *Deerfield*) is of 7,622 gross register, or 11,500 deadweight tonnage, and 410,000 cubic feet capacity, all insulated with cork and mineral wool. She is 450 feet long over all with 57-foot beam. She can make 12 knots, and has an average of all trips to date of 10½ knots, the trip from Seattle to New York requiring about a month, including stops. She can carry about 6,000 tons of frozen fish. Fuel oil is used, with 4 boilers, 1 of which is sufficient to operate the refrigerating machinery.

The vessel's refrigerating equipment consists of three 80-ton single-acting carbon dioxide compressors, direct-connected, double expansion steam driven. The condensers are of copper tubes submerged in sea-water tanks. The brine cooler evaporators are identical with the condensers, except that iron pipe is used instead of copper. Circulation of calcium chloride brine is provided in such a way that each section of coil in each room is independent and can be operated and controlled from outside the holds, and each section has its own thermometer. The holds are piped for brine overhead and on sides, it being possible to maintain a temperature of from — 20° to, + 80° F. Temperature at the time of visit was about 12° F. The weight of the refrigerating machinery, insulation, etc., is about 1,700 tons. The fish cargo was all boxed, and appeared to be in first-class condition, the holds being cold, dark, and dry. The fish, so far as examined, showed no drying or rust.

The freight charges on fish from Seattle to New York are 1½ cents per pound, or \$35 per ton, plus certain charges which bring the total to \$37.20 per ton. Corresponding railroad charges between the same points, including icing en route, are said to be \$57.83, which, if correct, shows an apparent saving of \$20.63 by steamer transportation. The disadvantage is, of course, in the longer time of delivery, which must be considered in connection with the very safe preservation en route. Transportation at reasonable rates is a matter of acute interest to the fisheries at present, and for that reason the inauguration of this new service is timely and important.

These vessels are prepared to take cargoes not only from Seattle, but from any other Pacific port offering sufficient cargo. This fact is of importance to localities like Ketchikan without adequate railroad facilities.

In the records of traffic through the Canal, shipments of frozen fish have been classified, so far, with miscellaneous cold storage shipments.

An inquiry was made by the Canal to check the accuracy of the figures of \$57.83 as the cost per ton for shipment by railroad. One railroad quoted a carload rate of \$2.50 per 100 pounds. On the basis of a ton of 2,000 pounds this would be \$50 a ton; for a ton of 2,240 pounds, \$56. The time for delivery by railroad is quoted as about 15 days.

<sup>a</sup> Warship.<sup>a</sup> Displacement tonnage of 4,750.<sup>a</sup> Launch.**Arrival of Naval Academy Practice Squadron.**

The Practice Squadron of the United States Naval Academy, carrying midshipmen from the Academy on a practice cruise, arrived at Cristobal in the morning of June 13. The squadron consists of the battleships *Florida* (flagship), *Delaware*, and *North Dakota* and the cruiser *Olympia*. The *Florida* and the *Olympia* made the transit through Gatun Locks to Gatun Lake directly after arrival, to anchor in fresh water, and the other vessels went to the coaling plant at Cristobal for bunkers. The squadron is to be at the Canal until June 20.

**Postal and Cable Addresses of The Panama Canal.**

The postal address is "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 3, 1922.

The Master of the steamship *Heffron* radios as below:

"At 5.45 p. m., G. M. T., June 3d, passed derelict schooner, floating side up, with spar projecting 20 feet above water, Lat. 12° 52' N., Long. 99° 29' W. Very dangerous to navigation."

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Light Established, Flamenco Island, Balboa Harbor.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 8, 1922.

CIRCULAR NO. 643-99.

1. On or about July 1, 1922, a white, flashing light will be established on S. W. side of Flamenco Island. Position, latitude 8° 50' 40" North, longitude 79° 31' 44" West. Illuminant, electricity. Candlepower approximately 20,000.

Focal plane 120 feet, visible 19 miles, exhibited from square concrete pedestal, painted white. Color of light, white, with red sector. Characteristic, 0.5 second light, 1 second dark; 2 seconds light, 1.5 seconds dark (one group of two flashes every 5 seconds). Showing white from 92° to 185° true. Red sector from 185° to 283°. Obscured 169° from 283° to 92° through North.

2. Owing to its location this light will be of no use as a daymark.

(C. & G. Charts Nos. 952 and 953. H. O. Charts Nos. 1019, 1176, and 5001. H. O. Publication No. 30.)

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 10, 1922.

The Master of the steamship *Venezuela* radios that he passed a floating tree, 40 feet long, at 9 a. m. to-day, in Lat. 9° 10' N., Long., 84° 51' W. Dangerous to navigation.

JAY J. MORROW,  
Governor.

**Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended June 7:

Steamships *Lady Sybil*, dry dock ship for cleaning and painting; clean and wire-brush; paint 1 coat of anticorrosive and 1 coat of antifouling paint, paint furnished by agents of ship; open up and examine H. P., I. P., and L. P., cylinders and valve chests; renew rings as required; machine valves; recut oil ways and re-align thrust horseshoes; repack stern gland and gauge end of tail shaft; refit valves of general service pump and repair 2 valves in the pipe line; open up, examine, and clear air and circulating pumps; renew wooden blocks in anchor windlass brakes; clean choked stay tubes and electric weld boiler; renew boiler zines, grind-in all boiler valves; open up, clean, reface and grind-in all sea valves; renew sternpost, 2 boards, and 12 rowlocks with sockets of port lifeboat; fit steam connections into fore and after holds; renew cover for steering chains on port side; reface and grind-in 4 steam stop valves in engine room; renew 1 length of wash deck pipe; clean out boiler feed tank in engine room; supply 1 vacuum gauge in place of old; *Artigas*, cast and machine 6 valve guards for main air pump; *Hwah Ping*, manufacture 20 miscellaneous bronze air port screws; repair lavatories; *H. M. Storey*, manufacture and install 1 combination shaft and pinion for telemotor gear; launch *Leland F.*, lift launch to dock for painting, paint bottom 2 coats of copper paint; install 8" towing bitt, aft; manufacture and install 1 canopy frame and canopy; steamship *Lompoc*, dry dock ship for installation of spare tail shaft, account of broken shaft; re-align stern tube and renew lignum-vitæ bushing; stage, clean, and wire-brush; paint 1 coat of anticorrosive and 1 coat of antifouling paint, paint furnished by agents of ship; overhaul main engine stop valve; bore out general service pump; renew deck, steam, and exhaust

lines; repair feed line; repair boiler mountings; weld furnace in port boiler; repair oil line; repair evaporator; repair water service pipe; true up feed pump valves; renew links in spare steering chain; repair ventilators; calk leaky rivets in hull; cable ship *Guardian*, manufacture 1 set of H. P. piston rings for port and starboard main engines; remetal thrust horseshoe bearings and fit with adjustable liners; manufacture and fit new rings for fan engine, circulating pump, dynamo engine, and water piston rings to donkey boiler feed pump; manufacture and install 2 new valve spindles for steering engine; repair lugs to door of blower engine casing; repair general service pump; renew water rings in feed pump; repair ash ejector; overhaul boiler mountings; alter engine-room ventilators; make general repairs to steam, exhaust, water lines and feed lines; make miscellaneous heavy repairs to cable repair equipment; make miscellaneous repairs to steering gear, davits, cranes, and rigging; repair scupper and vent pipe.

The following vessels were at the Cristobal shops for repairs during the week ended June 12:

Steamships *Port Chalmers*, make 1 new copper pipe, and test to 400 pounds; *Conde de Churruca*, repair pipe as directed; schooner *Beulah*, make 1 mainmast, jib, 1 tarpaulin for hatch; repair stem; launch *Happy Days*, copper hull; make 3 extra balls for engine head; steamships *Brenta*, make 1 water tank as sample and repair damaged tanks, etc., *Cristobal*, furnish calkers; furnish 12 packing glands as per sketch; furnish 1 piece of tool steel; repair galley range grate; *Advance*, overhaul water end of sanitary pump; manufacture knuckle joint and repair reach rod main stop valve; repair hand rail and straighten stanchion, port side, No. 2 hatch; manufacture 6 brass caps for lifeboat self-bailers; *Montserrat*, repair piping as found necessary; *Turrialba*, straighten 1 connecting rod for steering engine; *Delft*, repair ice machine as directed; *Toco*, make 1 steel adapter for American C. O.-2 gas bottles; U. S. Army, Jr., mine planter *Nones*, extend lower fender to stem of vessel on port and starboard sides.

### Deceased Employee.

The estate of the following deceased employee of The Panama Canal is now in process of settlement, and any claims against this estate, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due him, should be presented at the office of the Administrator of Estates at once in order that the estate may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. This name will be published but once.

### Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

at Cristobal, C. Z., under the Act of March 3, 1879.

*Certificate.*—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., June 21, 1922.

No. 45.

## Coal Prices.

Inquiries received indicate that not all of the users of the Canal have ample information as to the prices of coal at the Canal.

The prices, under various conditions of delivery, are published from time to time in THE PANAMA CANAL RECORD and form a part of the Tariff, with supplements, all of which are distributed to steamship operators regularly and without charge. Files of these publications may be consulted in the offices of American Consular officers, who are in position to supply all other essential information about the Panama Canal.

The Panama Canal, acting through its affiliate, the Panama Railroad Company, is the only organization selling coal to ships at the Canal. Its quotations, accordingly, are the lowest prices and the only prices unless it should happen that contractors are quoting for sales at the Canal, notwithstanding that all deliveries are made through the Canal plants at the published tariff rates.

The following is a summary of the present prices on coal:

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton, but if vessel furnishes sacks, \$5 per ton additional.

*For coal in large quantities as specified below, taken from alongside coaling plants:*

- (a) To vessels taking 1,200 tons or over;
- (b) To vessels taking between 825 and 1,200 tons and bunkering full;
- (c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

In case of change of prices, the new rates are published in the Tariff and in THE PANAMA CANAL RECORD, and as far as possible advance notice is given to the steamship agents on the Isthmus and to the press.

\* No cargo laded.

**Death of Joel M. Pratt.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 13, 1922.

*To all concerned*—The death of Mr. Joel M. Pratt, Superintendent of the Dredging Division, The Panama Canal, while on leave in the States, is announced, as having occurred under an operation at Baton Rouge, La., on June 11, 1922.

This announcement is made with a deep sense of personal as well as official loss. Mr. Pratt had a long and most valuable service to his credit in the Engineer Department, U. S. Army, when he accepted the position of Superintendent of Dredging, The Panama Canal, to which he was appointed May 25, 1918. His high professional skill, his devotion to duty, his high Christian character, and his unflinching courtesy to all with whom he came in contact, were such as to inspire confidence in his conduct of all his important duties, and earn him the unqualified respect of the Governor and Engineer of Maintenance, under whom he served, of his colleagues at head of other Canal divisions, and of the employees of the Dredging Division, whose earlier fine record of achievement in no respect suffered while under his charge. In his untimely death the Canal has lost a most efficient employee, and many of us a beloved and loyal friend.

As a mark of respect for his memory it is directed that on Thursday, June 15, all operations of the Dredging Division (excepting as to such as would imperil public property) be suspended for the space of 5 minutes, from 12 noon to 12.05 p. m.

JAY J. MORROW, Governor.

**Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended June 13:

Steamship *Dillwyn*, braze new copper patch on 5-inch expansion, on deck exhaust line, for fuel oil cargo pump.

**PREVIOUSLY REPORTED.**

Cable ship *Guardian*, heavy repairs to cable machinery; running repairs to engine and deck departments; tug *Favorite*, convert from coal burner to oil burner; dredge *No. 86*, miscellaneous heavy repairs.

The following vessels were at the Cristobal shops for repairs during the week ended June 19:

Steamships *Jamaica*, roll 12 tubes in boiler; open up sanitary tank on boat deck; clean pipe line; also furnish and fit new Y piece; supply 1 new key for office safe and alter existing key and lock; renew 3 lengths of steering chains; clean and paint ladies and men's bath rooms and water closets, 1 good coat, including baths; clean and cement wash sanitary tank on boat deck; supply and fit new dumping board in No. 1 hold in way of hatch; cement floor of men's water closet after painting with a minimum of 2-inch cement; furnish 1 boat spar; repair No. 1 hatch; calk boat deck; calk forward lifeboat; manufacture 3 hatch tarpaulins as follows: one 21' 4" by 15', one 17' 6" by 15', one 24' 4" by 15'; renew length of steam pipe casing on saloon deck, make fire hose nozzle to fit hose; renew port boiler pillar gauge drain pipe; furnish 6 mild steel pinching pins to sketch. furnish 3 mild steel pins for turning gear as sketch, furnish 24 bolts and nuts,  $\frac{5}{8}$ " by 2"; repair several hand tools and lamps; furnish 12 brass screws to pattern for dynamo brushes; furnish 3 cast iron rings to gauge for dynamo engine; line up steering engine drum shaft and fit new brasses; anneal, test, and adjust steering chains; repair 1 set of cargo fall swivels; repair ventilator of fore-castle head; *Manavi*, machine electric engine piston grooves; furnish new piston rings, 1 new crosshead pin and brasses and 2 crosshead and 2 crank pin bolts; furnish 4 pins for main bilge pump as sketch; face up 1 set of Weir's pump valve seats and guards; renew studs and pins; furnish 12 valves for Weir's pump as pattern; renew windlass crosshead pins and bushes and crank pin brasses; renew bowl glass on standard compass; fit stem bar to No. 1 lifeboat; fair and refit hand rails around No. 1 hatch; rails and stanchions outside first-class dining saloon entrance door on starboard side to be repaired and part renewed; renew 1 scupper pipe from boat deck; furnish 1 kelvite 10" compass card, furnish 1 log rotator; schooner *Arabia*, make 1 valve, bronze, steamships *Colon*, deck department repairs; *St. Louis*, repair piping, etc.; *General O. H. Ernst*, build up 2 hoister crank shafts and refasten driving pinions; *Brenta*, manufacture copper feed pipe; *Huallaga*, repair copper feed pipe; *Tolosa*, repair small crank shaft; U. S. Army transport *Chateau Thierry*, manufacture 2 condenser wrenches per sketch.

## Official Circulars.

## Absence of Engineer of Maintenance.

THE PANAMA CANAL,  
EXECUTIVE DEPARTMENT,

BALBOA HEIGHTS, C. Z., June 19, 1922.

To all concerned—Effective to-day, and during the absence on leave of the Engineer of Maintenance, the Dredging Division will report directly to the Governor.

During the above period all matters usually handled by the Engineer of Maintenance will be routed to the Governor, who will make disposition of them.

The Assistant to the Engineer of Maintenance will report temporarily to Major Ridley.

JAY J. MORROW, Governor.

## Revision of Telephone Directory.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., June 13, 1922.

HEADS OF DEPARTMENTS AND DIVISIONS:

The copy for a revised telephone directory, to be issued as of July 15, 1922, will go to the printer July 1. All changes or corrections in the present directory should be forwarded to the Supervisor of Telephones, Balboa Heights, not later than July 1. Proof corrections will be made to July 15.

C. A. McILVAINE, Executive Secretary.

## Second-hand and Scrap Lumber.

THE PANAMA CANAL,  
SUPPLY DEPARTMENT,

BALBOA HEIGHTS, C. Z., June 10, 1922.

HEADS OF DEPARTMENTS AND DIVISIONS:

Effective June 15, the following prices will be allowed by the Supply Department for second-hand lumber, scrap lumber, and serviceable lumber which may be included in material classified as scrap for which requests for purchase of small quantities are received from time to time:

| Kind of lumber.                                                                                                                      | Credit to be allowed departments and divisions. | Issue and sales prices.       |                                           |
|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|-------------------------------|-------------------------------------------|
|                                                                                                                                      |                                                 | To departments and divisions. | To employees, individuals, and companies. |
| Flooring, second hand.....                                                                                                           | \$20.00                                         | \$25.00                       | \$30.00                                   |
| Ceiling, second hand.....                                                                                                            | 20.00                                           | 25.00                         | 30.00                                     |
| Siding, second hand.....                                                                                                             | 20.00                                           | 25.00                         | 30.00                                     |
| Lumber, dimension sizes, second hand.....                                                                                            | 12.00                                           | 16.00                         | 20.00                                     |
| Miscellaneous yellow pine and fir, serviceable lumber, included in material classified as scrap lumber.....                          | 12.00                                           | 16.00                         | 20.00                                     |
| Miscellaneous fancy and hardwood lumber, including all classes of native lumber included in material classified as scrap lumber..... | (1)                                             | (2)                           | (2)                                       |
| Miscellaneous scrap lumber.....                                                                                                      | 7.00                                            | 8.00                          |                                           |

<sup>1</sup> Fifty per cent of stock card prices of the same kind of new lumber, less \$5 per thousand.

<sup>2</sup> Fifty per cent of stock card price of same kind of new lumber. <sup>3</sup> Carload.

The unit price above specified, except under the items of scrap lumber, are prices per thousand and feet, board measure.

No second-hand lumber required for issue to settlers on Canal Zone lands will be sold to employees or outsiders at the present time.

R. K. MORRIS,  
Chief Quartermaster.

## CANAL WORK IN MAY.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of May, 1922:

BALBOA HEIGHTS, C. Z., June 17, 1922.

*The Honorable, the Secretary of War,*  
*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of May, 1922:

### CANAL TRAFFIC.

The tonnage of commercial vessels transiting the Canal during May totaled 1,032,816 net tons, Panama Canal measurement, and has been exceeded but 3 times since the opening of the Canal. The cargo carried by vessels transiting the Canal in May totaled 1,158,507 tons, establishing a record second only to the month of January, 1921, when 1,177,053 tons of cargo passed through the Canal.

Cargo in transit through the Canal to the Far East totaled 268,832 tons, and is the highest of record. Practically all of this cargo originated on the east coast of the United States. The total cargo tonnage originating on the east coast of the United States totaled 403,970 tons, or 75 per cent of the total cargo tonnage passing from the Atlantic to the Pacific.

Another feature of the month's traffic was that the tonnage of American vessels through the Canal during May exceeded that of any previous month in the history of the Canal. Vessels of American registry furnished practically half of the tonnage through the Canal, paid approximately half of the tolls, and carried slightly more than half of the total cargo passing through the Canal. During the past calendar year the percentage of American shipping to the total was approximately 40 per cent.

The total number of vessels and craft of all kinds transiting the Canal during the month of May, 1922, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | May,<br>1922. | April,<br>1922. | May,<br>1921. |
|-------------------------------------------------|---------------|-----------------|---------------|
| Commercial vessels.....                         | 243           | 230             | 210           |
| Noncommercial vessels.....                      | 18            | 14              | 30            |
| Launches, etc. (under 10 tons measurement)..... | 6             | 9               | 6             |
| Total vessels and craft through Canal .....     | 267           | 253             | 246           |

In addition to the foregoing, Panama Canal equipment consisting of floating cranes, barges, dredges, tugs, launches, etc., was passed through the locks in May as follows:

|                   | North-bound. | South-bound. | Total. |
|-------------------|--------------|--------------|--------|
| Gatun.....        | 9            | 7            | 16     |
| Pedro Miguel..... | 18           | 19           | 37     |
| Miraflores.....   | 17           | 13           | 30     |
| Totals.....       | 44           | 39           | 83     |

COMMERCIAL TRAFFIC.<sup>1</sup>*Comparative Traffic Statistics.*

The following tabulations permit a ready comparison of commercial traffic through the Panama Canal during the month of May, 1922, with that of preceding months, along the lines indicated at the head of the various tables.

## TONNAGE, TOLLS, AND CARGO CARRIED.

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Statistics on vessels not paying tolls are shown under "noncommercial traffic."

## ORIGIN AND DESTINATION OF TONNAGE.

The following statements show, by months, the origin and destination of all tonnage through the Canal during the past year, the figures representing the Panama Canal net tonnage:

## ORIGIN OF ALL TONNAGE—ATLANTIC TO PACIFIC.

| Month.                      | East coast of United States. | Europe. | Mexico. | Cristobal. | Miscellaneous. | Total.  |
|-----------------------------|------------------------------|---------|---------|------------|----------------|---------|
| 1921.                       |                              |         |         |            |                |         |
| May                         | 231,751                      | 107,404 | 48,151  | 20,612     | 6,511          | 414,429 |
| June                        | 250,806                      | 79,129  | 37,401  | 28,920     | 19,046         | 415,302 |
| July                        | 221,318                      | 124,108 | 23,167  | 23,488     | 10,970         | 403,051 |
| August                      | 257,600                      | 175,768 | 15,527  | 21,202     | 17,122         | 487,219 |
| September                   | 277,984                      | 160,534 | 10,589  | 23,038     | 58,189         | 530,634 |

## TOLLS.

Under the present dual method of assessing tolls, the revenue from this source was \$1,015,057.37. Had the net tonnage as determined by the Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$210,865.95. The additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------|----------------------------|----------------------------|-------------|
| British.....       | \$32,123.06                | \$19,039.50                | \$51,162.56 |
| Chilean.....       | 3,983.45                   | 2,990.00                   | 6,973.45    |
| Danish.....        | 1,084.45                   | 3,420.00                   | 4,504.45    |
| Dutch.....         | 6,571.40                   | 1,741.35                   | 8,312.75    |
| French.....        | 998.78                     | 704.82                     | 1,703.60    |
| German.....        | 3,339.50                   | 3,374.65                   | 6,714.15    |
| Italian.....       | 2,075.55                   |                            | 2,075.55    |
| Japanese.....      | 4,624.80                   | 833.95                     | 5,458.75    |
| Norwegian.....     | 3,934.60                   | 2,171.05                   | 6,105.65    |
| Panamanian.....    |                            | .42                        | .42         |
| Peruvian.....      | 4,665.00                   | 3,306.80                   | 7,971.80    |
| Swedish.....       | 2,010.35                   | 1,947.40                   | 3,957.75    |
| United States..... | 57,782.76                  | 48,143.15                  | 105,925.91  |
| Totals.....        | 123,193.70                 | 87,672.25                  | 210,865.95  |

The additional tolls which would have been assessed against vessels of United States registry would have been distributed among the following channels of trade:

|                                                  | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|--------------------------------------------------|----------------------------|----------------------------|-------------|
| United States coastwise ports.....               | \$30,024.00                | \$25,119.08                | \$55,143.08 |
| United States and Canal Zone ports.....          | 566.30                     | 295.95                     | 862.25      |
| United States and United States possessions..... |                            | 4,417.50                   | 4,417.50    |
| United States and foreign ports.....             | 27,192.46                  | 16,184.85                  | 43,377.31   |
| Between foreign ports.....                       |                            | 2,125.77                   | 2,125.77    |
| Totals.....                                      | 57,782.76                  | 48,143.15                  | 105,925.91  |

Of the \$210,865.95 additional revenue that would have been collected by using the Panama Canal rules of measurement exclusively, \$8,972.40 represents the additional tolls that would have been collected on account of deck cargo.

#### AVERAGE TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varying in different vessels and in vessels of different nationalities with the ratio of cargo tonnage to net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of May, 1922, by nationality of vessels.

|                                                | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |
|------------------------------------------------|----------------------------|----------------------------|--------|
| British.....                                   | \$0.83                     | \$0.94                     | \$0.87 |
| Chilean.....                                   | 5.13                       | 4.58                       | 4.88   |
| Danish.....                                    | 1.08                       | .57                        | .65    |
| Dutch.....                                     | .95                        | .70                        | .91    |
| French.....                                    | 1.61                       | 1.86                       | 1.72   |
| German.....                                    | 1.09                       | .67                        | .80    |
| Japanese.....                                  | .73                        | .80                        | .76    |
| Norwegian.....                                 | .71                        | .80                        | .73    |
| Italian.....                                   | 4.17                       | .....                      | 4.17   |
| Peruvian.....                                  | 4.44                       | .98                        | 1.83   |
| Swedish.....                                   | 1.96                       | .51                        | .84    |
| United States.....                             | .77                        | .85                        | .80    |
| Average rate for all vessels, May, 1922.....   | .82                        | .86                        | .84    |
| Average rate for all vessels, April, 1922..... | .86                        | .91                        | .89    |
| Average rate for all vessels, May, 1921.....   | 1.06                       | .89                        | .97    |

#### COMMODITY STATISTICS.

A classification of cargo passing through the Panama Canal during the month of May, 1922, has been compiled from declarations of cargo and manifests submitted by the ships' masters, and while incomplete, it is indicative of the kind and quantity of the various commodities carried by vessels transiting the Canal. From the cargo declarations and manifests submitted it was possible to classify by commodities 77 per cent of all cargo passing from the Atlantic to the Pacific and 93 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith, the figures representing tons of 2,240 pounds.

| Commodity.                      | May,<br>1922. | April,<br>1922. | May,<br>1921. |
|---------------------------------|---------------|-----------------|---------------|
| Atlantic to Pacific.            |               |                 |               |
| Manufactured goods:             |               |                 |               |

## NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Panama Canal free of tolls during the past month. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal; these, although paying tolls are not included in the commercial traffic:

| Total sales, April, 1922      | 1,545.13 | 4,140.21   | 21,009.23     |            | 1,710.27       | 28,404.84 |
| Total sales, May, 1921        | 3,419.41 | 5,634.93   | 34,758.41     | \$3,761.39 | 2,657.87       | 40,231.01 |
| <b>Sales at Balboa to:</b>    |          |            |               |            |                |           |
| U. S. Government vessels.     | 254.23   | 1,418.03   | 4,466.01      | 36.03      | 225.68         | 6,399.98  |
| Commercial vessels.           | 265.33   | 238.61     | 2,445.97      | 410.94     | 401.09         | 3,761.94  |
| Total sales, May, 1922        | 519.56   | 1,656.64   | 6,911.98      | 446.97     | 626.77         | 10,161.92 |
| Total sales, April, 1922      | 656.33   | 2,700.85   | 15,023.45     | 1,013.73   | 794.70         | 20,189.06 |
| Total sales, May, 1921        | 948.16   | 7,444.72   | 18,177.70     | 1,433.46   | 554.36         | 28,558.40 |

## LOCK OPERATION.

The following tabulations give the number of lockages, number of vessels passing through the locks, and the consumption of water for lockages, for the month of May, 1922, as compared with the preceding month, and the corresponding month of last year:

## NUMBER OF LOCKAGES.

|                                  | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|----------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                  | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                       | 107         | 126    | 233    | 8              | 5      | 13     | 246          |
| Pedro Miguel.....                | 105         | 132    | 237    | 13             | 16     | 29     | 266          |
| Miraflores.....                  | 106         | 129    | 235    | 16             | 10     | 26     | 261          |
| Total lockages, May, 1922.....   | 318         | 387    | 705    | 37             | 31     | 68     | 773          |
| Total lockages, April, 1922..... | 314         | 353    | 667    | 43             | 34     | 77     | 744          |
| Total lockages, May, 1921.....   | 321         | 284    | 605    | 30             | 46     | 76     | 681          |

## NUMBER OF VESSELS PUT THROUGH LOCKS.

|                                 | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|---------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                 | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                      | 116         | 138    | 254    | 15             | 17     | 32     | 286          |
| Pedro Miguel.....               | 109         | 133    | 242    | 24             | 30     | 54     | 296          |
| Miraflores.....                 | 109         | 133    | 242    | 23             | 23     | 46     | 288          |
| Total vessels, May, 1922.....   | 334         | 404    | 738    | 62             | 70     | 132    | 870          |
| Total vessels, April, 1922..... | 335         | 375    | 710    | 84             | 75     | 159    | 869          |
| Total vessels, May, 1921.....   | 338         | 304    | 642    | 75             | 119    | 194    | 836          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                            | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------|--------|---------------|-------------|
| Army and Navy vessels..... | 16     | 17            | 16          |
| Canal equipment.....       | 16     | 37            | 30          |
| Total noncommercial.....   | 32     | 54            | 46          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                     | Gatun.             | Pedro Miguel.      | Miraflores.        |
|-------------------------------------|--------------------|--------------------|--------------------|
|                                     | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages.....                       | 985,460,000        | 891,290,000        | 756,700,000        |
| Leakage.....                        | 20,000,000         | 17,000,000         | 20,000,000         |
| Total consumption, May, 1922.....   | 1,005,460,000      | 908,290,000        | 876,700,000        |
| Total consumption, April, 1922..... | 913,900,000        | 915,390,000        | 769,620,000        |
| Total consumption, May, 1921.....   | 815,200,000        | 755,850,000        | 770,990,000        |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographic conditions over the Canal Zone and vicinity during the month of May, 1922, are shown in comparative form:

| Rainfall.                                         | May,<br>1922.   | May,<br>1921.   | May—Years of record. |                 |                 |
|---------------------------------------------------|-----------------|-----------------|----------------------|-----------------|-----------------|
|                                                   |                 |                 | Maximum.             | Minimum.        | Mean.           |

\* Maximum 24-hour rainfall recorded on the Isthmus since American occupation. Recorded at Porto Bello, December 28–29, 1909.

\* Maximum momentary discharge of record. Occurred December 26, 1909.

\* Not including May, 1914.

## SEISMOLOGY.

Slight seismic tremors were recorded on the Balboa Heights seismographs on the 22d, 23d, 25th, and 28th of the month. The approximate distances ranged from 100 to 140 miles.

## ELECTRICAL DIVISION.

## POWER AND WORK.

The gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulation:

|                                                                                        | May,<br>1922. | April,<br>1922. | May,<br>1921. |
|----------------------------------------------------------------------------------------|---------------|-----------------|---------------|
| Gross output, K. W. H.:                                                                |               |                 |               |

| Miraflores steam plant.....                                                            | 630           | 250             | 2,350         |
| Combined gross output.....                                                             | 4,402,730     | 4,471,250       | 5,319,250     |
| Power distributed to consumers..... KWH..                                              | 3,712,543     | 3,743,444       | 4,413,164     |
| Loss of power in plant auxiliaries, transmission and transmission formation..... KWH.. | 690,187       | 727,806         | 905,986       |
| Per cent of loss of power to gross output.....                                         | 15.67         | 16.27           | 17.03         |
| Water consumption..... cubic feet..                                                    | 3,535,378,063 | 3,589,299,030   | 3,990,308,000 |
| Oil consumption..... barrels..                                                         | 1,925         | 2,009           | 2,350         |

Miscellaneous electrical repairs and installations of electrical equipment were made on 11 vessels during the month. There were 298 work orders issued for work to be performed by the Electrical Division during the month, as compared with 257 for April, 1922.

## SHOP, FOUNDRY, AND DRY DOCK WORK.

During the month miscellaneous repairs were made on 51 vessels at Cristobal and 32 vessels at Balboa. Of these, 6 were placed in dry dock at Cristobal and 3 at Balboa. The more important repair work carried out was as follows:

Barge No. 26 was cleaned, scaled, bottom and hopper painted, and miscellaneous repairs made. Dredge No. 86 was docked, the spud wells changed from round to square, and good progress was made on the remaining repairs.

All work on the ship's bottom incidental to conversion of the tug *Favorite* into an oil burner was completed during the month and the vessel removed from dry dock. It is expected that the oil tanks will be completed and the remaining installation made so that the vessel will be ready for service the latter part of June.

The *Lady Sybil* was docked, cleaned, painted and a periodic general overhaul given her for her owners.

The output of the foundry in patterns and castings for the month of May was as follows:

|                 | April, 1922. |           |         | May, 1922. |           |         |
|-----------------|--------------|-----------|---------|------------|-----------|---------|
|                 | Patterns.    | Castings. | Pounds. | Patterns.  | Castings. | Pounds. |
| Iron.....       | 7            | 144       | 13,383  | 3          | 243       | 9,815   |
| Steel.....      | 3            | 30        | 27,625  | 1          | 14        | 29,246  |
| Nonferrous..... | 4            | 86        | 1,903   | 4          | 326       | 6,069   |

The following is a statement of all job and blanket orders issued and completed during the month:

|                     | Uncompleted,<br>May 1. | Authorized<br>in May. | Completed<br>in May. | Uncompleted<br>May 31. |
|---------------------|------------------------|-----------------------|----------------------|------------------------|
| Job orders.....     | 255                    | 382                   | 360                  | 277                    |
| Blanket orders..... | 361                    |                       | 11                   | 350                    |

#### DREDGING DIVISION.

Cucaracha and Barge Repair slides have shown no movement during the month. West Culebra slide continues to show some movement, determined by a resurvey of the base line along this slide. There was also a slight movement along the face of East Culebra slide. There was no interference with Canal traffic from slides during the month.

The total excavation for May, 1922, including earth and rock, was 304,300 cubic yards, as follows:

| Cubic<br>yards. | Classified as— |        | Character<br>of work. | Stations.                                                              | Equipment        |
|-----------------|----------------|--------|-----------------------|------------------------------------------------------------------------|------------------|

## VITAL STATISTICS.

A total of 145 deaths occurred during the month of May, 1922, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to an annual death rate of 14.18 per thousand. The 3 leading causes of death were pneumonia, tuberculosis, and diarrhea and enteritis; these 3 diseases caused 35 per cent of all deaths from disease. There was 1 death from malaria and 1 from dysentery. Of the total deaths, 46, or 32 per cent, occurred among children under 5 years of age. There were 8 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 287 live births reported during the month, and 17 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 29.74 per thousand population. Deaths among children under 1 year of age numbered 29, giving an infant mortality rate, based on the number of births reported for May, of 101.05 per thousand live births.

Ninety-nine cases of malaria were reported during the month, of which 17 were employees and 82 nonemployees. These malaria cases originated as follows: Colon, 6; Canal Zone 72; and outside of the Canal Zone, 21.

Among other diseases reported during the month were 1 case of smallpox from the interior, 1 case of trachoma (soldier) and 3 cases of relapsing fever, contracted in the interior.

## SCHOOLS.

The following brief summary shows the enrollment, average attendance, etc., in the white and colored schools of the Canal Zone, for the month of May, 1922:

|                                      | White. | Colored. | Total. |
|--------------------------------------|--------|----------|--------|
| Gross enrollment.....                | 2,075  | 1,856    | 3,931  |
| Net enrollment.....                  | 1,894  | 1,806    | 3,700  |
| Average daily attendance.....        | 1,441  | 1,302    | 2,743  |
| Pupils neither absent nor tardy..... | 771    | 454      | 1,225  |
| Number of cases of tardiness.....    | 314    | 67       | 381    |
| Number of teachers.....              | 77     | 32       | 109    |

## OCCUPANTS OF QUARTERS.

Occupants of Panama Canal and Panama Railroad quarters, shown in comparative form, were as follows:

|                          | As of May 31, 1922. |        |           |        | Total occupants. |            |
|--------------------------|---------------------|--------|-----------|--------|------------------|------------|
|                          | Men.                | Women. | Children. | Total. | April, 1922.     | May, 1921. |
| Americans.....           | 2,332               | 1,868  | 2,039     | 6,239  | 6,347            | 7,828      |
| Europeans.....           | 113                 | 40     | 91        | 244    | 234              | 273        |
| West Indians.....        | 3,915               | 2,584  | 5,643     | 12,142 | 12,311           | 11,819     |
| Totals, May, 1922.....   | 6,360               | 4,492  | 7,773     | 18,625 |                  |            |
| Totals, April, 1922..... | 6,549               | 4,502  | 7,841     |        | 18,892           |            |
| Totals, May, 1921.....   | 7,981               | 4,532  | 7,407     |        |                  | 19,920     |

## WORKING FORCE—NUMBER OF EMPLOYEES.

The following tabulation shows the number of gold and silver employees as of May 17, 1922, by departments, together with a comparison of the working force for the preceding month and that of May, 1921:

|                            | Employees as of May 17, 1922. |         |        | Total employees. |            |
|----------------------------|-------------------------------|---------|--------|------------------|------------|
|                            | Gold.                         | Silver. | Total. | April, 1922.     | May, 1921. |
| Operation and Maintenance: |                               |         |        |                  |            |
| Office.....                | 29                            | 56      | 85     | 84               | 77         |
| Electrical.....            | 148                           | 159     | 307    | 311              | 441        |

| Scrap.....                                                              | 769.24        | 521.37          | 649.73        |
| Obsolete and second-hand material.....                                  | 3,528.02      | 2,391.96        | 1,939.87      |
| Totals.....                                                             | 25,375.86     | 34,585.12       | 38,829.21     |
| Sales to steamships from storehouses.....                               | 6,007.31      | 14,564.20       | 21,336.62     |

Respectfully,

JAY J. MORROW,

Governor.

#### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., June 21, 1922.

The Master of the steamship *Columbia* reports sighting, at 12.30 p. m., G. M. T., June 20, a floating log, 30 feet long, with branches protruding 10 feet under and over water. Lat. 10° 10' N., Long. 85° 58' W. Dangerous to navigation.

JAY J. MORROW,

Governor.

**Notice to Mariners.—Aids to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 20, 1922.

The Minister of Marine, Peru, advises under date of May 16, 1922, as below:  
"There has been installed in the port of Callao one whistling buoy with white sparkling light 2,800 meters to the North 321° of the old lighthouse of the extreme North in the Island of San Lorenzo.

*Description*—The luminous apparatus is located on a tripod placed on a cylindrical buoy painted RED.

*Position*—Lat. 12° 02'—39" S.  
Long. 77° 16'—25" W. G.

*Characteristic*—Three seconds light, 2.7 seconds darkness. Sound (of whistling), intermittent.

**NOTE.**—The data of situation corresponds to English Chart No. 1853.

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 26, 1922.

U. S. A. T. *Cambrai*, at 6 a. m., G. M. T., June 25, Lat. 7° 47' N., Long. 83° 20' W., passed a tree 30 feet long, 20 inches in diameter, with projecting limbs. Dangerous to navigation.

JAY J. MORROW,  
Governor.

**Ships at Canal Repair Shops.**

The following vessels were at the Cristobal shops for repairs during the week ended June 25:

Steamship *Heredia*, braze copper pipe; *Crynnsen*, repair winch; *General H. F. Hodges*, overhaul motor of lifeboat on board; *Jamaica*, make 1 key for jacking gear; tug *San Juan*, dock and undock; clean bottom; repair hull; steamships *Felix Taussig*, manufacture new impeller; *Parismina*, braze copper pipe; motor schooner *Laura C. Hall*, repair fuel oil pipe; steamship *Advance*, acetylene weld feed pump head; acetylene weld ash hoist control valve; remove friction No. 2 cargo hoisting engine; repair valve on exhaust column from drain pipe; repair steam pipe on after dynamo; reinstall starboard engine room ventilator on main deck house; realign baker's oven; U. S. Army launch *David Putnam*, dock and undock; calk and copper sheath hull per specifications; U. S. Army, Jr. mine planter *Douglas*, dock and undock; clean bottom, etc.

\*Other than ships passing through the Canal.

### The "Favorite" Ready for Service Again.

The conversion of the salvage tug *Favorite* from coal to oil burning has been completed at Balboa shops, and the vessel is now ready for service. The oil tanks built in the ship have a capacity of 2,400 barrels, estimated to be sufficient for 24 days' steaming at 10 knots. This estimate is based on previous consumption of 24 tons of coal in 24 hours at 10 knots; on the basis that 2 tons of oil are equivalent to 3 tons of coal, the *Favorite* would use about 16 tons of oil, or 103 barrels, a ton consisting of 6.43 barrels. The use of oil will enable the *Favorite* to remain on a job approximately a month without refueling, though this would vary under varying conditions.

In connection with the change of fuel system, the vessel was given a general overhauling, the boilers, fresh water tanks, pumps, etc., being reconditioned, and repairs being made to the main and towing engines. The tail shaft was lined up and the stern bushing was rewooded. In all, the changes and overhauling cost approximately \$60,000.

The *Favorite* is to make a test trip in the Gulf of Panama, starting on June 29.

### Firearms Permits.

The attention of all holders of, and prospective applicants for, firearms permits for the fiscal year beginning July 1, 1922, is invited to the requirement of submission of application (form 1319-3) in all cases, whether for renewal or new issue. In the case of hunting permits the application must be accompanied by the authorized fee of \$1. When renewing any class of firearms permit, the old expiring license card must accompany the application. Form 1319-3 may be obtained at all Canal Zone police stations.

### Official Circulars.

#### Appointment.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 20, 1922.  
CIRCULAR NO. 661-104.

Effective this date, Mr. Elwyn Greene is appointed Auditor, *vice* Mr. H. A. A. Smith, resigned.

JAY J. MORROW, Governor.

#### Death of Dr. Ciro Luis Urriola, Ex-President of Panama.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., June 27, 1922.  
*To all concerned*—As a mark of respect to the memory of Dr. Ciro Luis Urriola, ex-President of the Republic of Panama, whose death occurred yesterday and whose funeral takes place to-day, it is hereby ordered that the flags on all public buildings within the Canal Zone be half-masted until sunset this day.

JAY J. MORROW, Governor.

#### Street Traffic at Railroad Crossings.

PANAMA RAILROAD COMPANY,  
OFFICE OF MASTER OF TRANSPORTATION,  
BALBOA HEIGHTS, C. Z., June 22, 1922.  
CIRCULAR NO. 177:

*To all concerned*—Effective at once, the present system of controlling street traffic at railroad crossings during the day with red and white flags will be discontinued, and a white paddle lettered STOP on both sides will be used.

When trains are approaching or moving over crossing, flagman will hold the paddle upright with sides lettered STOP facing street traffic,

which will be a signal for street traffic to halt and remain at a standstill during the time stop signal is displayed. When there are no trains approaching or movements being made over crossing, flagman will withdraw paddle, which will indicate that the way is clear for street traffic. At crossings protected by flagmen during night hours a white light will be substituted for the paddle to stop street traffic when trains are approaching or using crossing.

In the future red will be used to serve the intended purpose as prescribed by the rules, carrying its original and only indication—STOP—and will be so respected by all concerned with and in charge of rail movements regardless of where displayed. Crossing flagmen will be furnished a red flag to be used by day and a red light to be used at night for the purpose of signaling engineers of trains or yard crews moving equipment to stop in the event that some vehicle or person is on the thoroughfare between or sufficiently close to the rails to cause damage to vehicles or injury to persons or both, or at any other time when for some reason it may be necessary for trains or yard movements to be brought to a standstill.

When it is necessary for crews to make switching movements over street crossings or any public thoroughfare within yard limits not protected by flagmen or electric warning signal where the view of those using such crossing or thoroughfare is obscured to the extent of making accidents possible, the conductor will have one of the members of his crew protect crossing until switching movements over same have been completed.

All instructions relative to the above issued prior to this date are hereby canceled.

W. J. BISSELL,

Acting Master of Transportation.

Approved:

S. W. HEALD, Superintendent.

No. 47.

## Traffic for Fiscal Year Ending June 30, 1922.

Final summaries of the traffic through the Panama Canal for the fiscal year ending June 30, 1922, have not been completed. Subject to minor corrections, however, the summaries for the past fiscal year as compared with the fiscal years of 1921 and 1920, are as follows:

|                                            | 1922.              | 1921.           | 1920.          |
|--------------------------------------------|--------------------|-----------------|----------------|
| Number of vessels.....                     | 2,736 <sup>a</sup> | 2,892           | 2,478          |
| Net tonnage, Panama Canal measurement..... | 11,417,459         | 11,415,876      | 8,546,044      |
| Tolls (exclusive of launches, etc.).....   | \$11,197,832.41    | \$11,276,889.91 | \$8,513,933.15 |
| Tons of cargo.....                         | 10,873,000         | 11,599,214      | 9,374,499      |

<sup>a</sup> Approximate figure.

On the basis of the figures as above, the number of ships in the fiscal year just ended was 156 less than in the preceding year, a decrease of 5.4 per cent. Net tonnage was slightly greater, and tolls \$79,057.50 less, a decrease of seven-tenths of 1 per cent. The approximate figure for cargo indicates a decrease of about 725,000 tons, or about 6 per cent. The fiscal year 1921 was the year of greatest traffic through the Canal so far.

In the calendar year 1921 the number of commercial ships making the transit was 2,783. Net tonnage and tolls (11,435,811 tons and \$11,261,098 in tolls) were about the same as in the fiscal year just ended; and cargo, 10,707,005 tons, was less than the indicated total for the fiscal year 1922 by about 165,000 tons. The traffic for the fiscal year was, accordingly, at about the same rate as in the last calendar year.

## Canal Traffic in June.

A total of 228 ocean-going commercial vessels transited the Canal during the month of June. Tolls on these vessels aggregated \$933,290.42 as compared with \$1,015,057.37 tolls for 243 vessels last month, and \$751,964.12 tolls for 192 vessels in the month of June, last year.

In addition to the above commercial traffic, 4 small nonseagoing launches transited the Canal during the month, on which tolls of \$10.20 were paid, and 24 U. S. Government vessels were passed through the Canal free of tolls.

Commercial traffic through the Canal in June was somewhat smaller than traffic for the preceding month, but was considerably in excess of commercial traffic through the Canal in June, 1921, and slightly above the average traffic during the fiscal year ending June 30, 1922.

Traffic from the Atlantic to the Pacific was greater than normal and has been exceeded but twice during the past fiscal year; during the past month the Atlantic to Pacific traffic comprised slightly more than 60 per cent of the total traffic through the Canal. Traffic from the Pacific to the Atlantic was unusually light, and with the exception of the month of January, was the smallest volume of traffic from the Pacific to the Atlantic of any month during the past fiscal year.

(Continued on page 594, column 2.)

### The "Lompoc" Makes Three Transits In One Month.

The tanker *Lompoc*, operated by the Union Oil Company of California, made 3 passages through the Canal during June. On June 10 she made the transit northbound, on the way from Tocopilla, Chile, to Tampico, Mexico, in ballast, after having undergone repairs at Balboa shops; on June 24, returning from Tampico, the *Lompoc* passed through the Canal to deliver a cargo of oil at Balboa; and on the 27th she made the transit in ballast, bound for Tampico again. In all, the *Lompoc* paid \$13,464.09 in tolls in June; \$3,823.92 for each transit in ballast and \$5,806.25 for passage with cargo.

### Coming of Japanese Training Squadron.

The training squadron of the naval school of the Imperial Japanese Navy, consisting of the cruisers *Iwate*, *Asama*, and *Isumo* is due to arrive at the Pacific entrance of the Canal on August 5, transit the Canal on August 7, and remain at the Atlantic entrance until August 11.

### Decreased Depth at Rosalind Bank Reported.

Attention of masters plying between the Canal and Gulf ports or Habana is invited to the following Notice to Mariners published by the Hydrographic Office of the Navy under date of June 17:

(2174) *Caribbean Sea—Rosalind Bank—Decreased depth reported.*—The master of the British steamer *Spectator* reports that on May 23, 1922, at 10.15 a. m. he got a cast of the lead showing 6 fathoms, fine sand, in (approximately) 16° 28' N., 80° 41' W.

### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 3, 1922.

The master of the steamship *Fairbanks* passed 2 large floating spars in Lat. 7° 51' N., Long. 79° 45' W., at 5 p. m., July 2; this is in Panama Bay. Dangerous to navigation.

JAY J. MORROW,  
Governor.

### Staff Surveyor for Lloyd's to be Stationed at Canal.

Lloyd's have advised that it has been decided to station a staff surveyor at the Panama Canal, and that accordingly Mr. George Allan, at present one of the surveyors at New York, will take up his duties at Balboa on August 1. The appointments of those who have been serving on the Isthmus as acting surveyors will be terminated.

In transmitting this information, the Secretary of Lloyd's Register in New York has stated:

It is felt that the appointment will be in the interest of owners of vessels classed in the Society's Register Book and visiting the Panama Canal Zone, and will also be appreciated by other parties who may desire to avail themselves of the services for such surveys as he is empowered by the Society's Rules to carry out.

### Fresh Fruit Shipped from Peru to New York.

The shipment of fresh fruit during the winter and early spring from Chile to the United States, which was started in 1921 and continued on a somewhat larger scale in 1922, has been noted in previous issues.

In March of this year an experimental shipment of 100 cases of grapes and 50 cases of mangoes was made from Peru to New York via the Grace Line steamer *Santa Elisa*. An American commission

merchant was instrumental in promoting this shipment, and an expert picker and packer from the Imperial Valley in California superintended the work in Peru. The fruit arrived in New York in good condition, in spite of the fact that the mangoes for lack of space were carried on deck, and when put up at auction brought good prices.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended July 1:

Steamships *Suruga*, dismantle direct-connected main air, circulating, bilge and feed pump; bore out main bearings for rocker arm; renew main rocker shaft broken at sea; fair up rocker arm and drag links; true up all plungers and pump rods; and bush glands; *Trontolite*, make general repairs to ice machine; renew 2 pipe coils in meat box; renew 12 tubes and overhaul valves of feed water heater; and overhaul 1 oil valve; *Nordfær*, dry-dock ship for repairs to damage due to collision with barge No. 137; remove, straighten, and replace bent stem and shell plates at forepeak; remove propeller; draw tail shaft inboard for examination of stern tube; reinstall and fit spare propeller from deck of ship; renew bronze stern gland; weld lug on yoke of hand steering gear; renew 4 pintles and weld crack in rudder; clean, wire-brush, and paint ship's bottom, using paint furnished by ship.

The following vessels were at the Cristobal shops for repairs during the week ended July 3:

Steamships *Cauca*, repair division plate in condenser and renew water service valve on same; skim up piston rod; make and fit new neck bush and gland for circulating pump; repair refrigerator; repair boiler safety valves and gauges; straighten 3 furnace fronts; repair and renew part of wooden bulkhead in main bunker; repair steering chains and cargo blocks and swivel hooks; repair water taps in staterooms, etc.; *Solana*, weld dynamo eccentric strap and manufacture new one for spare; manufacture one 6-inch iron pipe with flanges for bunkering, etc.; *Salvador*, repair compressor, ballast pump suction chest lead pipe, and bunk in sailors' forecastle; renew covering boards on bridge deck and calk seams, etc.; *Empress of Australia*, machine 2 thrust shafts; machine and remetal thrust collars; clean and scale tanks as directed, etc.; *Acajulla*, repair refrigerator, compressor, and fuel heater coils; manufacture 3 hatch tarpaulins; repair 8 lifeboats and locking bar of No. 3 hatch; alter reversing lever of No. 2 starboard winch; rebush and repair gin and purchase blocks; overhaul scales, etc.; *Honduras*, manufacture 6 hatch strongbacks as directed; barge *Narahoe*, steamships *Westmoreland*, *Cristobal*, *Lewis Luckenbach*, minor repairs.

### Two Employees Killed by Explosion of Oxygen Tank.

Leopold A. Johnson, American, and C. Goodman, Barbadian, were killed instantly by the explosion of a tank of oxygen which they were using in connection with a cutting torch in building No. 4, the boiler shop, of Balboa shops at approximately 8.50 a. m., June 30. Three other employees were injured (two have since returned to duty and the third is about on crutches).

All similar tanks were immediately withdrawn from service and an investigation was started to ascertain the cause of the explosion. Final report has not been made, but it is believed that the explosion resulted from back-firing due to the presence of impurities in the gas.

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending July 1, 1922.

## Notaries Public in the Canal Zone.

The following is a list of the notaries public commissioned in the Canal Zone as of June 14, 1922. The list gives the name, where stationed, and the date of expiration of commission:

### BALBOA.

Adams, R. H., Balboa shops, August 18, 1922.  
 Dryden, Geo. A., Balboa storehouse, October 8, 1923.  
 Hyde, W. H., Port Captain's office, March 31, 1923.  
 Kalar, J. D., Port Captain's office, April 15, 1923.

### BALBOA HEIGHTS.

Attaway, E. F., Administration Building, room 272, October 28, 1924.  
 Buehler, Geo. H., Administration Building, room 201, April 19, 1924.  
 Hammer, H. H., Administration Building, room 262, March 31, 1923.  
 Ilgen, W. F., station agent, December 3, 1922.  
 Illwitzer, P. G., Purchase and Sales Bureau, Administration Building, room 268, October 11, 1923.

Murray, P. E., Administration Building, room 112, June 25, 1923.  
 Pender, W. L., Administration Building, room 237, July 30, 1922.  
 Singleton, C. C., district quartermaster's, April 26, 1922.  
 Sims, Walter H., Quarry Heights, December 1, 1924.  
 Taylor, R. G., Administration Building, room 343, April 19, 1924.  
 Wang, Frank H., Administration Building, room 303, April 30, 1923.  
 Walker, J. J., Administration Building, room 237, July 27, 1924.  
 Williams, H. E., Administration Building, room 208, January 10, 1924.

### ANCON.

Boyd, Oscar S., Municipal Division, July 30, 1922.

Erwin, Wm. G., Land Agent's office, December 30, 1924.  
 Lfever, John E., Land Agent's office, February 28, 1925.  
 LeMire, George, post office, April 30, 1923.  
 Sheibley, F. H., District Court, November 1, 1923.

## COROZAL.

Gill, Joseph H., Armament office, December 10, 1922.  
 Malone, P. L., station agent, April 12, 1924.

## PARAISO.

Rattiner, W. H., Dredging Division, February 18, 1924.

## PEDRO MIGUEL.

R. N. Norris, Municipal Division, June 30, 1924.  
 Oliver, Rev. E. M., minister, April 30, 1923.

## SUMMIT.

Wood, A. C., station agent, December 3, 1922.

## GAMBOA.

Freehan, P. A., station agent, December 3, 1922.

## GATUN.

Daniels, W. L., locks, March 25, 1924.  
 DeLange, W., Electrical Division, December 12, 1922.  
 Ford, Stanley R., district quartermaster, August 19, 1923.

Hanrahan, T. J., railroad station, December 3, 1922.  
 Scarborough, W. W., clubhouse, August 19, 1923.

## CRISTOBAL.

Campbell, J. S., Assistant District Court Clerk, January 29, 1923.  
 Coffey, D. A., Receiving and Forwarding Agency, December 17, 1922.  
 Collins, E. G., railroad station (Colon), December 3, 1922.  
 Earle, L. H., American Foreign Banking Corporation, January 9, 1924.  
 Flood, Arthur, Customs office, November 15, 1922.  
 Halpin, Max H., Port Captain's office, July 12, 1924.  
 Hughes, P. L., coaling plant, February 14, 1925.  
 Livengood, J. F., Commissary Division, May 17, 1925.  
 MacSparren, E. S., Receiving and Forwarding Agency, December 1, 1924.  
 Mitchell, J. A., Customs office, March 31, 1925.  
 Page, Courtney K., American Foreign Banking Corporation, August 24, 1924.  
 Rabbitt, D. F., Commissary Division, October 11, 1923.  
 Stone, W. H., Mechanical Division, September 4, 1922.  
 Thornton, H. O., Receiving and Forwarding Agency, December 3, 1922.  
 Weaver, H. D., Port Captain's office, May 11, 1922.

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered as fast as the ships can take it, from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

### Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference.

It is not desired that inquiries of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

### Official Circular.

#### Services Out of Norfolk.

PANAMA RAILROAD COMPANY,  
 PANAMA RAILROAD STEAMSHIP LINE,  
 BALBOA HEIGHTS, C. Z., June 27, 1922.

To all concerned—Supplementing circular from this office, dated May 20, announcing passenger service by the steamship *Cristobal* between Cristobal and Norfolk, we wish to inform the public that in addition to the railroad service and steamship service mentioned in our former circular, the Old Dominion Line has a service between Norfolk and New York.

S. W. HEALD.

Superintendent.

### Shipping Commissioner's Sale.

The Shipping Commissioner, room 305, Administration Building, Balboa Heights, will accept written bids up to noon Monday, July 10, 1922, for the purchase of certain personal property belonging to the estate of Archie M. Keegan, deceased American seaman, and consisting of a suitcase, wearing apparel, and miscellaneous personal effects.

Persons desiring to examine the property may apply to the Commissioner's Office, on any business day, where they may obtain detailed lists of the effects on which to prepare bids. Copies of such lists will also be found posted at each of the clubhouses and post offices in the Canal Zone and in the offices of the Deputy Shipping Commissioners at Balboa and Cristobal.

Bids may be made for the entire lot of effects or for individual articles, and should be submitted

in sealed envelopes addressed to the Shipping Commissioner, and marked "Bid on Effects of Archie M. Keegan, deceased." No advance deposit of money is required with bids, and the right is reserved to reject any or all bids.

### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in *large quantities* as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;  
(b) To vessels taking between 825 and 1,200 tons and bunkering full;  
(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars to those receiving THE PANAMA CANAL RECORD. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Mail Steamship Company, Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line). The Pacific Mail charges \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### MOVEMENTS OF OCEAN VESSELS.—Continued from page 589.

PORT OF CRISTOBAL—continued.

\* Other than ships passing through the Canal.

### Passage of the "Empress of Australia."

The steamer *Empress of Australia*, owned by the Canadian Pacific Railway, which arrived at the Canal on July 1 from Hamburg and made the transit on July 6, after receiving repairs at the Cristobal shops, was conspicuous in Canal waters on account of her size, and is one of the largest ships to have made the transit. She is 590 feet long by 75 feet in beam, and her gross and net tonnage, Panama Canal measurement, are 21,861 and 14,150 tons, respectively; her registered gross and net are 21,477 and 11,737 tons, respectively. Her tonnage and length are less than those of the *America*, which made the transit on February 6, 1920; the registered gross of the *America* is 22,622 tons, and her length is 668 feet 9 inches.

The *Empress of Australia* was built in Germany as the *Tirpitz*, and is on her way to enter the trans-Pacific service of the Canadian Pacific. Her passage through the Canal was made in ballast.

### Notice to Mariners.—Light Established, Flamenco Island, Balboa Harbor.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 5, 1922.

CIRCULAR NO. 643-100:

1. The white flashing light referred to in Circular No. 643-99, dated June 8, 1922, was established on July 1, 1922, on the S. W. side of Flamenco Island. Illuminant, electricity. Position, latitude  $8^{\circ} 54' 35''$  North, longitude  $79^{\circ} 31' 23''$  West.

2. Focal plane 160 feet, visible 20 miles, exhibited from square concrete pedestal, surmounted by lantern, painted white. Color of light, white, with red sector. Characteristic, 0.5 second light, 1.0 second dark; 2.0 seconds light, 1.5 seconds dark (one group of two flashes every 5 seconds). Showing white from  $110^{\circ}$  to  $185^{\circ}$ . Red sector from  $185^{\circ}$  to  $283^{\circ}$ . Owing to the background the light will not be visible from  $283^{\circ}$  to  $110^{\circ}$  through North.

(C. and G. Charts Nos. 952 and 953. H. O. Charts Nos. 1019, 1176, and 5001. H. O. Publication No. 30.)

JAY J. MORROW,

Governor.

### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 6, 1922.

Master Oliver of steamship *Blue Triangle* at 11.35 a. m., July 5, Lat.  $7^{\circ} 55' N.$ , Long.  $79^{\circ} 42' W.$ , passed a large tree,  $45'$  long,  $2\frac{1}{2}'$  diameter, waterlogged and just awash. Very dangerous to navigation.

JAY J. MORROW,

Governor.

### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 6, 1922.

The master of the steamship *Haiti* reports touching bottom at 1.5 to 3 fathoms where chart shows 16 to 20 fathoms. Approximate position, Lat.  $10^{\circ} 50' 54'' N.$ , Long.  $64^{\circ} 4' 10'' W.$  Point Carnero bears North  $69^{\circ}$  East, true, Las Tetras, west peak, North  $31^{\circ}$  West, Point Mangles, North  $4^{\circ}$  East.

JAY J. MORROW,

Governor.

### Postal and Cable Addresses of The Panama Canal.

The postal address is "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Balboa for Week Ending July 8, 1922.

### Ships at Canal Repair Shops.

The following vessels were at the Cristobal shops for repairs during the week ended July 10:

Steamships *Toco*, calk leaky rivets; expand all tubes and test cargo oil heaters, scale boilers; replace handrails at stern as directed, etc.; *Orestes*, repair compressor piston rod for ice machine; *H. M. Storey*, remove cleats and stud bolts from after tonnage hatch; *Panama*, install 4 locking bars on cargo lockers; repair hose reel and pipe covering over filler line in No. 2 hold; *Blue Triangle*, make valve stem for steering engine and 2 for ice machine; bore out ice machine valve guide brass and make new pin for same; schooner *Arabia*, make 1 new exhaust valve cage; steamship *Heredia*, bore out bushings as directed; launch *Conroy*, manufacture miscellaneous parts for magneto, etc.

### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or The Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estate may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once.

### Coal Prices.

Inquiries received indicate that not all of the users of the Canal have ample information as to the prices of coal at the Canal.

The prices, under various conditions of delivery, are published from time to time in THE PANAMA CANAL RECORD and form a part of the Tariff, with supplements, all of which are distributed to steamship operators regularly and without charge. Files of these publications may be consulted in the offices of American Consular officers, who are in position to supply all other essential information about the Panama Canal.

The Panama Canal, acting through its affiliate, the Panama Railroad Company, is the only organization selling coal to ships at the Canal. Its quotations, accordingly, are the lowest prices and the only prices unless it should happen that contractors are quoting for sales at the Canal, notwithstanding that all deliveries are made through the Canal plants at the published tariff rates.

The following is a summary of the present prices on coal:

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered

from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton, but if vessel furnishes sacks, \$5 per ton additional.

*For coal in large quantities as specified below, taken from alongside coaling plants:*

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

In case of change of prices, the new rates are published in the Tariff and in THE PANAMA CANAL RECORD, and as far as possible advance notice is given to the steamship agents on the Isthmus and to the press.

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered as fast as the ships can take it, from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

### Official Circulars.

#### Act of Congress.—Injury Compensation.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 5, 1922.

CIRCULAR NO. 600-84:

The Act of Congress quoted below is published for the information of all concerned.

JAY J. MORROW,  
Governor.

AN ACT to amend an Act entitled "An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes," approved September 7, 1916.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That the Act entitled "An Act to provide compensation for employees of the United States suffering injuries while in the per-

formance of their duties, and for other purposes," approved September 7, 1916,<sup>1</sup> be amended as follows:

"SEC. 20. That all original claims for compensation for disability shall be made within sixty days after the injury. All original claims for compensation for death shall be made within one year after the death. For any reasonable cause shown the commission may allow original claims for compensation for disability to be made at any time within one year. If the disability or death was the result of an injury sustained during the period of the Great War, and arising out of conditions due to the war, the commission may for any reasonable cause shown allow original claims of civilian employees of the Expeditionary Forces of the United States serving outside of the territory of the United States to be made at any time within one year after the passage of this Act."

Approved, June 13, 1922.

<sup>1</sup>Published as Panama Canal Circular No. 600-27.

Volume XV.

Balboa Heights, C. Z., July 19, 1922.

No. 49.

## Roland Line "Alda" with Heavy Loading.

In an item, "Heavy Loading of Three Steamers," in THE PANAMA CANAL RECORD of May 17, were cited the cases of the *Willhilo*, the *Sheaf Mead*, and the *Hague Maru*. The tonnages of cargo which they declared at time of transit through the Canal were 2.82, 2.23, and 2.38 times, respectively, the registered net tonnages of the ships.

The German steamer *Alda*, of the Roland Line, arriving at Balboa July 15 from Coronel, via Talcahuano and wayports, on the way to Hamburg, reported a cargo of 5,904 tons. The *Alda* is of 2,588 net tons, registry measurement; the ratio of tons of cargo to net tons in this case was 2.28. The Panama Canal net tonnage of the *Alda* is 3,392 tons.

## Lower Passenger Rates on Pacific Steam Navigation Vessels to Europe.

The Pacific Steam Navigation Company advises of reductions in its passenger rates between the Isthmus and ports in England, France, and Spain, effective with the outward voyage of the *Oriana*, due at Cristobal on July 27. The base fares between Cristobal and England, France, and Spain are as follows:

First class, one way, £48; round trip, £86; second class, one way, £27; round trip, £49; intermediate, one way, £20; third class, one way, £15.

Fares are quoted in sterling, but United States currency is accepted at the current rate of exchange.

## Coal.

THE PANAMA CANAL, DEPT. OF OPERATION AND MAINTENANCE,

BALBOA HEIGHTS, C. Z., July 18, 1922.

### MEMORANDUM TO STEAMSHIP AGENTS:

Information has been received that the coal situation at Hampton Roads is becoming serious, contractors being unable to furnish cargoes. For this reason the steamship *Cristobal* has been temporarily laid up as she can not obtain a cargo of coal for the Isthmus.

Your attention is invited to the fact that The Panama Canal has plenty of coal to answer all demands which may be made for this commodity and it is believed that your principals, under the circumstances, should be so informed.

E. P. JESSOP,  
Marine Superintendent.

## Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 13, 1922.

Steamship *Howick Hall* reports passing a floating tree 23 feet long and 2½ feet in diameter, at 6.30 p. m., G. M. T., July 12, in Latitude 7° 41' North, Longitude 79° 48' West. This position is east of Cape Mala, R. P.

(Continued on page 610, column 2.)

**Notice to Mariners.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 13, 1922.

The Commanding Officer of the U. S. S. *Birmingham* reports that on May 31, 1922, the following buoys had been established in Corinto Harbor, Nicaragua:

A red nun buoy on the bearings: Entrance range front beacon, 77°; and Cardon Head lighthouse, 136° 30'.

A black nun buoy on the bearings: White beacon off northeast side of Cardon Island on 175°, and Cardon Head lighthouse, 245°.

A red spar on the bearings: Corinto church steeple, 28°; and Mount Dona Paula range front beacon, 118° 30'.

A red spar buoy on the bearings: Corinto church steeple, 2°; and white beacon off northeast side of Cardon Island, 257° 30'.

A black can buoy recently moored to mark the 16-foot shoal on the port hand entering was removed on the bearings: White beacon off northeast side of Cardon Island, 252°; and Cardon Head lighthouse, 290° 30'.

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Menaces to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 17, 1922.

1. From Master of steamship *Delrosa*, July 15, 30 hours G. M. T. (probably an error in time):

Lat. 7° 49' N., Long. 79° 01' W., passed large log about 30' long, 3' in diameter, heavily coated with barnacles.

2. From Master, steamship *Coverun*, 9 a. m., July 16:

Lat. 13° 34' N., Long. 93° 04' W., passed partially submerged log about 20' long, 3' in diameter.

3. From Master, steamship *Birmingham City*, 10.30 a. m., July 16:

Lat. 7° 08' N., Long. 80° 38' W., passed large tree with many branches. Dangerous to navigation.

4. From Master, steamship *Whakatane*, July 16:

Lat. 7° 35' N., Long. 79° 46' W., passed water-logged tree previously reported July 6.

JAY J. MORROW,  
Governor.

**Notice to Mariners.—Menace to Navigation.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 18, 1922.

From Master, steamship *Whakatane*, July 16, 2.19 p. m.:

Lat. 6° 37' North, Long. 80° 38' West, passed large water-logged tree, apparent size 70 feet long, 2 feet in diameter. Very dangerous to navigation.

JAY J. MORROW,  
Governor.

**Ships at Canal Repair Shops.**

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended July 17:

Steamship *Ionic*, braze 2 copper feed water suction pipes; yacht *Almirante*, renew bowsprit, broken in locks; steamships *Imperial*, cast, machine, and install new side frame casting for anchor windlass; *Edward Luckenbach*, furnish services of diver to examine propeller; motor schooner *Laura C. Hall*, repair exhaust manifold; steamship *Santa Maria*, manufacture and install 2 ramps on each of 4 capstan heads in way of gear changing socket; alter piping to midship sanitary tanks; repair water heater in firemen's forecandle; overhaul 1 blow-down valve on after starboard boiler; relocate 2 forward davits, port and starboard; furnish air for ship's use in operating pumps; furnish steam for steaming up boilers; braze 1 copper main feed pipe; renew suction pipe to circulating system on ammonia condenser; repair 1 oil line gate valve on deck; renew bronze valve seat in starboard Weir feed water pump; manufacture and install mushroom ventilator on poop deck, starboard side; and manufacture and install 1 wooden ladder, 25 feet long, in hold; *Jephtha*, renew 6

tubes in bottom row of starboard boiler; *Californian*, furnish services of diver to examine propeller; *Mundella*, weld and machine wrench for main engine; dredge *Paraiso*, dry-dock for widening hull, so as to increase her stability equal to that of the dredge *Cascadas*.

The following vessels were at the Cristobal shops for repairs during the week ended July 17:

Steamships *Manavi*, repair windlass; face up valves and seats for Weir's pumps; fit spare pinions to port and starboard after winches; lift rudder and rebush pintles; clean and paint hull; overhaul sea valves and cocks; draw tail shaft and rebush bottom half of stern bush; renew iron plate under stern frame; repair ceiling in No. 1 lower hold; overhaul anchor chains, etc.; *Litiopa*, repair L. P. piston ring; 3 oil burner pipes, and cocks for heater pipes; *Mount Baker*, weld and rebore flywheel; bore piston wrist pin and fit new pin and bushings; *Colon*, repair deck house plating, outside of purser's office and No. 1 lifeboat; *General O. H. Ernst*, furnish flywheel for turning engine and machine same; install new rubber in No. 2 port and starboard cargo ports; U. S. mine planter *Graham*, repair H. P. piston valves and valve chambers; repair H. P. piston rings and pistons; repair L. P. valves; renew main topmast, etc.; steamships *Carrillo*, *Willhilo*, *Orita*, dredge No. 83, launch *Azimuth*, minor repairs.

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

*Certificate.*—By direction of the Governor of The Panama Canal the matter contained herein is published as statistical information and is required for the proper transaction of the public business.

Volume XV.

Balboa Heights, C. Z., July 26, 1922.

No. 50.

## Largest Cargo Carried Through the Canal.

A new high record for tons of cargo carried through the Canal was set by the steamer *Marore* of the Ore Steamship Corporation, when she made the transit of the Canal on July 19 with 20,000 tons of iron ore, bound from Cruz Grande, Chile, to New York.

The previous record was set by a sister ship of the *Marore*, the *Bethore*, making the transit on May 29 with 19,000 tons of ore. The *Marore* was drawing 33 feet of water at time of transit, the *Bethore* 32 feet 6 inches.

Although the *Bethore* and the *Marore* are of similar construction and differ very little, if at all, in deadweight carrying capacity, the *Bethore's* Canal tolls are \$12,020, while the *Marore's* tolls are only \$5,156.40. This is due to a difference in the tanks. In the *Marore* they are blanked off in such a way that they can only be used for salt-water ballast, and do not figure in the net tonnage. On the *Bethore*, however, the tanks are available for oil cargo, and on her voyage south this ship will commonly carry oil from Mexico, returning with ore from Chile.

## Lowest Unit Cost of Tolls Per Ton of Cargo Carried.

The passage of the *Marore* with 20,000 tons of iron ore, under payment of \$5,156.40 in tolls, sets a new low figure for the cost of tolls per ton of cargo, 25.78 cents.

A study of the cost of tolls per ton of cargo carried through the Canal on ships variously loaded was published in THE PANAMA CANAL RECORD of April 4, 1917. The lowest unit cost among 288 ships which were considered was 37 cents per ton, in the case of a shipment of 8,400 tons of nitrate on the *Alfred Nobel*, which paid \$3,093.84 in tolls.

The lowest cost per ton of iron ore, in the study mentioned above, was 52 cents.

## CANAL WORK IN JUNE.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of June, 1922:

BALBOA HEIGHTS, C. Z., July 19, 1922.

*The Honorable, the Secretary of War,*  
*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of June, which closes the fiscal year period ending June 30, 1922.

### CANAL TRAFFIC FOR FISCAL YEAR.

The number of ships transiting the Canal during the fiscal year ending June 30, 1922, was somewhat under that for the preceding fiscal year. The tonnage of ships through the Canal, tolls collected, and tons of cargo in transit through the Canal were also slightly under the totals for last year, as the following summary shows:

|                                            | Fiscal year<br>1922. | Calendar year<br>1921. | Fiscal year<br>1921. | Fiscal year<br>1920. |
|--------------------------------------------|----------------------|------------------------|----------------------|----------------------|
| Number of ships.....                       | 2,736                | 2,783                  | 2,892                | 2,478                |

A more detailed report of traffic through the Canal during the past fiscal year will be included in my report for the fiscal year which is now being compiled.

#### CANAL TRAFFIC FOR JUNE.

The tonnage of ships transiting the Canal, together with tolls, etc., were somewhat under that for the preceding month. This was due to an unusually light traffic passing through the Canal from the Pacific to the Atlantic, the tonnage moving in this direction being the lowest of any month during the past fiscal year with the exception of January. Practically all geographical regions contributing to the Pacific to Atlantic traffic showed a decrease in tonnage from that of the preceding month, but the most marked decline was in tonnage from Australasia which contributed a total tonnage (Panama Canal measurement) of 9,982 for the month of June, as against a tonnage of 41,334 for the preceding month, and 75,400 for the month of June last year. The tonnage from the Far East also showed a decline, and in this connection it is of interest to note that the tonnage through the Canal routed to the Far East and Australasia totaled 186,357 as against a total tonnage through the Canal routed from these two regions of but 26,839 net tons.

\* Traffic through the Canal from the Atlantic to the Pacific was unusually good for June, however, and served to keep the traffic figures for the month up to the average.

With the close of the fiscal year the annual movement of grain from the west coast of the United States and Canada was just getting under way and it is anticipated that with shipments of wheat and barley, together with fruit, salmon, etc., the traffic from the Pacific to the Atlantic will show a substantial increase for the next several months.

The total number of vessels and craft of all kinds transiting the Canal during June, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | June,<br>1922. | May,<br>1922. | June,<br>1921. |
|-------------------------------------------------|----------------|---------------|----------------|
| Commercial vessels.....                         | 228            | 243           | 192            |
| Noncommercial vessels.....                      | 24             | 18            | 33             |
| Launches, etc. (under 10 tons measurement)..... | 4              | 6             | 3              |
| Total vessels and craft through Canal.....      | 256            | 267           | 228            |

In addition to the foregoing, Panama Canal equipment consisting of floating cranes, barges, dredges, tugs, launches, etc., was passed through the locks in June as follows:

|                   | North-bound. | South-bound. | Total. |
|-------------------|--------------|--------------|--------|
| Gatun.....        | 21           | 28           | 49     |
| Pedro Miguel..... | 27           | 30           | 57     |
| Miraflores.....   | 26           | 30           | 56     |
| Totals.....       | 74           | 88           | 162    |

#### COMMERCIAL TRAFFIC.<sup>1</sup>

##### *Comparative Traffic Statistics.*

The following tabulations permit a ready comparison of commercial traffic through the Panama Canal during the month of June, 1922, with that of the preceding month along the lines indicated at the head of the various tables:

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial traffic pay tolls. Statistics on vessels not paying tolls are shown under "noncommercial traffic."

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for the month of June, 1922, was published in THE PANAMA CANAL RECORD under date of July 12, 1922. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes during June, 1922, as compared with the preceding month, and with the corresponding month of last year.

|                                      | Atlantic to Pacific.      |            |             | Pacific to Atlantic.      |            |             |

## TOLLS.

Under the present dual method of assessing tolls, the revenue from this source was \$932,290.42. Had the net tonnage as determined by the Panama Canal rules of measurement been used throughout as a basis for collecting tolls, the total revenue would have been increased by \$197,092.70. The additional tolls would have been contributed by nationality of vessels as follows:

|                    | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total:      |

| Totals.....                                      | 52,679.59                  | 47,186.95                  | 99,866.54   |

Of the \$197,092.70 additional revenue that would have been collected by using the Panama Canal rules of measurement exclusively, \$8,604 represents the additional tolls that would have been collected on account of deck cargo.

## AVERAGE TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space; the rate of such tolls per cargo ton varying in different vessels and in vessels of different nationalities with the ratio of cargo tonnage to net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of June, 1922, by nationality of vessels.

|                                               | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |

## COMMODITY STATISTICS.

A classification of cargo passing through the Panama Canal during the month of June, 1922, has been compiled from declarations of cargo and manifests submitted by the ships' masters, and while incomplete, it is indicative of the kind and quantity of the various commodities carried by vessels transiting the Canal. From the cargo declarations and manifests submitted it was possible to classify by commodities 72 per cent of all cargo passing from the Atlantic to the Pacific and 92 per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith, the figures representing tons of 2,240 pounds.

| Commodity.                      | June,<br>1922. | May,<br>1922. | June,<br>1921. |
|---------------------------------|----------------|---------------|----------------|
| Atlantic to Pacific.            |                |               |                |
| Manufactured goods:             |                |               |                |

## NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of and amount of cargo carried by vessels transiting the Panama Canal free of tolls during the past month. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated.

The statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal; these, although paying tolls, are not included in the commercial traffic.

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                            | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------|--------|---------------|-------------|
| Army and Navy vessels..... | 25     | 17            | 21          |
| Canal equipment.....       | 24     | 40            | 35          |

The total consumption of water for lockage, maintenance, and loss in leakage, was as follows:

|                                     | Gatun.             | Pedro Miguel.      | Miraflores.        |
|-------------------------------------|--------------------|--------------------|--------------------|
|                                     | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages.....                       | 925,450,000        | 844,140,000        | 735,210,000        |
| Leakage.....                        | 20,000,000         | 17,712,000         | 20,000,000         |
| *Total consumption, June, 1922..... | 945,450,000        | 861,852,000        | 755,210,000        |
| Total consumption, May, 1922.....   | 1,005,460,000      | 908,290,000        | 876,700,000        |
| Total consumption, June, 1921.....  | 778,640,000        | 690,620,000        | 754,580,000        |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographic conditions over the Canal Zone and vicinity during the month of June, 1922, are shown in comparative form:

| Rainfall.                                         | June, 1922.     | June, 1921.     | June—Years of record. |                 |                 |

\* Maximum 24-hour rainfall recorded on the Isthmus since American occupation. Recorded at Porto Bello, December 28-29, 1909. † Maximum momentary discharge of record; occurred December 26, 1909. ‡ Not including June, 1914.

## SEISMOLOGY.

Slight seismic tremors were recorded on the 11th and 25th of the month.

## ELECTRICAL DIVISION.

## POWER AND WORK.

The gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., are shown in the following tabulation:

|                                                                                | June,<br>1922. | May,<br>1922. | June,<br>1921. |
|--------------------------------------------------------------------------------|----------------|---------------|----------------|
| Gross output, K. W. H.:<br>Gatun hydroelectric station .....                   | 4,243,800      | 4,402,100     | 5,294,900      |
| Miraflores steam plant .....                                                   | 2,140          | 630           | 7,750          |
| Power distributed to consumers..... KWH                                        | 3,592,053      | 3,712,543     | 4,404,350      |
| Loss of power in plant auxiliaries, transmission, and transformation..... KWH. | 654,887        | 690,187       | 898,300        |
| Per cent of loss of power to gross output.....                                 | 15.42          | 15.67         | 16.94          |
| Water consumption..... cubic feet.                                             | 3,425,116,580  | 3,535,378,065 | 4,108,884,000  |
| Oil consumption..... barrels.                                                  | 1,980          | 1,925         | 1,990          |

Miscellaneous electrical repairs and installations of electrical equipment were made on 12 vessels during the month. There were 307 work orders issued for work to be performed by the Electrical Division during the month, as compared with 298 for May, 1922.

## SHOP, FOUNDRY, AND DRY DOCK WORK.

During the month miscellaneous repairs were made on 49 vessels at Cristobal and 35 vessels at Balboa. Of these, 7 were placed in dry dock at Cristobal and 3 at Balboa. The more important repair work performed was as follows:

The steamer *Nordfarer* which took a sheer in the Canal and collided with barge No. 137 was placed in dry dock, her stem removed, straightened and replaced, and work well advanced on rebuilding her bow, as well as the renewal of several plates in her hull found deteriorated, and replacing her damaged propeller with a spare. As the vessel was old (built in 1898) it was required that she remove two-thirds of her cargo before it was considered safe to dock her.

Extensive repairs were carried out on the cable ship *Guardian*, the largest job being a complete overhaul of her machinery for paying out and reeling in telegraph cable.

Conversion of the wrecking tug *Favorite* from coal to oil burning was completed during the month. Oil tanks, replacing the coal bunkers, were built as an integral part of her structure of sufficient capacity for 24 days' steaming consumption. The propeller shaft and stern tube, which were built for fresh water cruising, were altered to admit of operation in salt water without deterioration, the condenser was retubed, various repairs made to auxiliary machinery, minor alterations made in living quarters, and the hull structure repaired where required. Dock trials were held on June 27, and on June 29 the vessel left the Balboa plant for routine service.

The alterations and repairs to dredge No. 86 were completed during the month and the dredge returned to service.

The output of the foundry in patterns and castings for the month of June was as follows:

|                 | May, 1922. |           |         | June, 1922. |           |         |
|-----------------|------------|-----------|---------|-------------|-----------|---------|
|                 | Patterns.  | Castings. | Pounds. | Patterns.   | Castings. | Pounds. |
| Iron.....       | 3          | 243       | 9,815   | 7           | 74        | 5,334   |
| Steel.....      | 1          | 14        | 29,246  | 4           | 47        | 26,099  |
| Nonferrous..... | 4          | 326       | 6,069   | 9           | 249       | 3,930   |

The following is a statement of all job and blanket orders issued and completed during the month:

|                     | Uncompleted,<br>June 1. | Authorized<br>in June. | Completed<br>in June. | Uncompleted,<br>June 30. |
|---------------------|-------------------------|------------------------|-----------------------|--------------------------|

| Blanket orders..... | 350                     | 14                     | 17                    | 347                      |

## DREDGING DIVISION.

On June 3 a general movement occurred over East Culebra causing considerable material to move into the basin, and since that date both East and West Culebra

slides have shown intermittent movements. Cucaracha and Barge Repair slides have shown no movement during the month. There was no interference with Canal traffic during the month from slides.

The total excavation for June, including earth and rock, was 296,550 cubic yards, as follows:

| Cubic yards. | Classified as— |        | Character of work. | Stations.                                 | Equipmen         |
|--------------|----------------|--------|--------------------|-------------------------------------------|------------------|
|              | Earth.         | Rock.  |                    |                                           |                  |
|              |                |        |                    | <i>Gaillard Cut.</i>                      |                  |

#### VITAL STATISTICS.

A total of 145 deaths occurred during the month of June, 1922, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to the annual death rate of 14.33 per thousand. The 3 leading causes of death were tuberculosis, pneumonia, and nephritis (acute and chronic); these 3 diseases caused 35 per cent of all deaths from disease. There was 1 death from malaria, 1 from dysentery, and 1 from typhoid fever. Of the total deaths, 48, or 33 per cent, occurred among children under 5 years of age. There were 12 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 295 live births reported during the month, and 19 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 31.03 per thousand population. Deaths among children under 1 year of age numbered 30, giving an infant mortality rate, based on the number of births reported for June, of 101.69 per thousand live births.

Two hundred and eleven cases of malaria were reported from the Zone and terminal cities during the month, of which 19 were employees, 134 were Army and Navy personnel and 58 nonemployees. These malaria cases originated as follows: Colon, 7; Panama 14; Canal Zone, 190.

No smallpox or other serious epidemic diseases were reported during the month.

#### SCHOOLS.

The school year closed at the end of the month. There were 23 graduates from the high schools, 13 from Balboa and 10 from Cristobal. Of the 77 American teachers, 14 resigned at the end of the school year, and the remaining teachers were granted 92 days leave of absence without pay.

The following brief summary shows the enrollment, average attendance, etc., in the white and colored schools of the Canal Zone for the month of June:

|                                      | White. | Colored. | Total. |
|--------------------------------------|--------|----------|--------|
| Gross enrollment.....                | 2,080  | 1,859    | 3,939  |
| Net enrollment.....                  | 1,897  | 1,809    | 3,706  |
| Average daily attendance.....        | 1,460  | 1,313    | 2,773  |
| Pupils neither absent nor tardy..... | 735    | 506      | 1,241  |
| Number of cases of tardiness.....    | 336    | 29       | 365    |
| Number of teachers.....              | 77     | 32       | 109    |

## OCCUPANTS OF QUARTERS.

Occupants of Panama Canal and Panama Railroad quarters, shown in comparative form, were as follows:

|                         | As of June 30, 1922. |        |           |        | Total occupants. |             |
|-------------------------|----------------------|--------|-----------|--------|------------------|-------------|
|                         | Men.                 | Women. | Children. | Total. | May, 1922.       | June, 1921. |
| Americans.....          | 2,222                | 1,728  | 1,883     | 5,833  | 6,239            | 7,325       |
| Europeans.....          | 92                   | 41     | 92        | 1,225  | 244              | 213         |
| West Indians.....       | 3,936                | 2,592  | 5,650     | 12,178 | 12,142           | 12,602      |
| Totals, June, 1922..... | 6,250                | 4,361  | 7,625     | 18,236 |                  |             |
| Totals, May, 1922.....  | 6,360                | 4,492  | 7,773     |        | 18,625           |             |
| Totals, June, 1921..... | 8,068                | 4,686  | 7,646     |        |                  | 20,340      |

## WORKING FORCE—NUMBER OF EMPLOYEES.

The following tabulation shows the number of gold and silver employees as of June 21, 1922, by departments, together with a comparison of the working force for the preceding month and that of June, 1921:

|                                      | Employees as of June 21, 1922. |         |        | Total employees. |             |
|--------------------------------------|--------------------------------|---------|--------|------------------|-------------|
|                                      | Gold.                          | Silver. | Total. | May, 1922.       | June, 1921. |
| Operation and Maintenance:           |                                |         |        |                  |             |
| Office.....                          | 28                             | 37      | 65     | 85               | 81          |

\* The number of employees, as shown above, is the smallest force employed on the Canal since the middle of 1905.

## RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, cash sales from stock, etc., are shown below in comparative form:

|                                                                         | June,<br>1922. | May,<br>1922. | June,<br>1921. |
|-------------------------------------------------------------------------|----------------|---------------|----------------|
| Material received on United States requisitions, chargeable as follows: |                |               |                |
| Operation and maintenance.....                                          | \$102,181.89   | \$141,414.67  | \$398,824.99   |
| Construction and equipment.....                                         |                |               | 7,743.71       |
| Miscellaneous.....                                                      | 1,968.85       | 1,642.87      | 18,099.09      |
| Totals.....                                                             | 104,150.84     | 143,057.54    | 424,667.79     |
| Cash sales on the Isthmus:                                              |                |               |                |
| Stock.....                                                              | 21,233.14      | 20,772.75     | 29,560.31      |
| Fuel oil.....                                                           | 1,187.98       | 305.85        | 66.47          |
| Scrap.....                                                              | 613.26         | 769.24        | 609.39         |
| Obsolete and second-hand material.....                                  | 2,656.92       | 3,528.02      | 3,756.51       |
| Totals.....                                                             | 25,691.30      | 25,375.66     | 33,992.68      |
| Sales to steamships from storehouses.....                               | 7,228.41       | 6,007.31      | 13,361.82      |

Respectfully,

JAY J. MORROW,

Governor.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended July 22:

Steamship *Eclipse*, calk leaky rivets and seams in domestic tank, above starboard boiler.

#### PREVIOUSLY REPORTED.

Dredge *Paraiso*, work for widening hull is going along; in addition, miscellaneous running repairs to hull and engines.

The following vessels were at the Cristobal shops for repairs during the week ended July 24:

Steamships *Conde de Churruca*, manufacture studs and spring washers; *La Navarre*, repair copper pipes; manufacture 2 nuts and bolts as sample, also 1 valve stem and valve; subchasers *Nos. 1 and 2*, dock, clean, and scrape bottom; repair copper sheathing; remove propellers, tail shaft, struts, strainers, and plug all holes below water line and cover with copper sheathing; cut out bulkheads as directed; steamships *Roman Star*, remove salt from back connections and tubes of boiler; weld 8 feet of calking edge and 19 stay bolts in center furnace; weld 1 staybolt in inboard furnace and calk staybolts; calk 4 staybolts in outboard furnace; test boiler and make repairs that develop; renew pipe from sea inlet; manufacture 2 piston rings for ballast pump; *Palena*, electric weld boiler; *Turrialba*, repair sanitary pipe in fireroom; *Ansaldo San Giorgio I*, remove loose rivets below water line and install patch bolts; *General W. C. Gorgas*, bore out spur gear and fit to winch shaft.

### Notice to Mariners.—Menace to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 19, 1922.

From U. S. S. *Sciota*, July 18, 3 p. m.:

Latitude 7° 7' 15" North, Longitude 81° 2' 8" West, passed a log 12 feet long and 16 inches in diameter. Menace to navigation.

JAY J. MORROW,

Governor.

### Postal and Cable Addresses of The Panama Canal.

The postal address is "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

# MOVEMENTS OF OCEAN VESSELS. *Week ending at midnight, July 22, 1922.*

### Narcotic Drugs Import and Export Act.

The following is the text of the Narcotic Drugs Import and Export Act of the Congress of the United States. It applies to the Canal Zone.

[PUBLIC No. 227—67TH CONGRESS.] [H. R. 2193.]

AN ACT To amend the Act entitled "An Act to prohibit the importation and use of opium for other than medicinal purposes," approved February 9, 1909, as amended.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That sections 1 and 2 of the Act entitled "An Act to prohibit the importation and the use of opium for other than medicinal purposes," approved February 9, 1909, as amended, are amended to read as follows:

"That when used in this Act:

"(a) The term 'narcotic drug' means opium, coca leaves, cocaine, or any salt, derivative, or preparation of opium, coca leaves, or cocaine;

"(b) The term 'United States,' when used in a geographical sense, includes the several States and Territories, and the District of Columbia;

"(c) The term 'board' means the Federal Narcotics Control Board established by section 2 of this Act; and

"(d) The term 'person' means individual, partnership, corporation, or association. "SEC. 2. (a) That there is hereby established a board to be known as the 'Federal Narcotics Control Board' and to be composed of the Secretary of State, the Secretary of the Treasury, and the Secretary of Commerce. Except as otherwise provided in this Act or by other law, the administration of this Act is vested in the Department of the Treasury.

"(b) That it is unlawful to import or bring any narcotic drug into the United States or any territory under its control or jurisdiction; except that such amounts of crude opium and coca leaves as the board finds to be necessary to provide for medical and legitimate uses only, may be imported and brought into the United States or such territory under such regulations as the board shall prescribe. All narcotic drugs imported under such regulations shall be subject to the duties which are now or may hereafter be imposed upon such drugs when imported.

"(c) That if any person fraudulently or knowingly imports or brings any narcotic drug into the United States or any territory under its control or jurisdiction, contrary to law, or assists in so doing, or receives, conceals, buys, sells, or in any manner facilitates the transportation, concealment, or sale of any such narcotic drug after being imported or brought in, knowing the same to have been imported contrary to law, such person shall upon conviction be fined not more than \$5,000 and imprisoned for not more than 10 years.

"(d) Any narcotic drug imported or brought into the United States or any territory under its control or jurisdiction, contrary to law, shall (1) if smoking opium or opium prepared for smoking, be seized and summarily forfeited to the United States Government without the necessity of instituting forfeiture proceedings of any character; or (2), if any other narcotic drug, be seized and forfeited to the United States Government, without regard to its value, in the manner provided by sections 3075 and 3076 of the Revised Statutes, or the provisions of law hereafter enacted which are amendatory of, or in substitution for, such sections. Any narcotic drug which is forfeited in a proceeding for condemnation or not claimed under such sections, or which is summarily forfeited as provided in this subdivision, shall be placed in the custody of the board and in its discretion be destroyed or delivered to some agency of the United States Government for use for medical or scientific purposes.

"(e) Any alien who at any time after his entry is convicted under subdivision (c) shall, upon the termination of the imprisonment imposed by the court upon such conviction and upon warrant issued by the Secretary of Labor, be taken into custody and deported in accordance with the provisions of sections 19 and 20 of the Act of February 5, 1917, entitled 'An Act to regulate the immigration of aliens to, and the residence of aliens in the United States,' or provisions of law hereafter enacted which are amendatory of, or in substitution for, such sections.

"(f) Whenever on trial for a violation of subdivision (c) the defendant is shown to have or to have had possession of the narcotic drug, such possession shall be deemed sufficient evidence to authorize conviction, unless the defendant explains the possession to the satisfaction of the jury.

"(g) The master of any vessel or other water craft, or a person in charge of a railroad car or other vehicle, shall not be liable under subdivision (c), if he satisfies the jury that he had no knowledge of and used due diligence to prevent the presence of the narcotic drug in or on such vessel, water craft, railroad car, or other vehicle; but the narcotic drug shall be seized, forfeited, and disposed of as provided in subdivision (d)."

SEC. 2. That sections 5 and 6 of such Act of February 9, 1909, as amended, are amended to read as follows:

"Sec. 5. That no smoking opium or opium prepared for smoking shall be admitted into the United States or into any territory under its control or jurisdiction for transportation to another country, or be transferred or transhipped from one vessel to another vessel within any waters of the United States for immediate exportation or for any other purpose; and except with the approval of the board, no other narcotic drug may be so admitted, transferred, or transhipped.

"Sec. 6. (a) That it shall be unlawful for any person subject to the jurisdiction of the United States Government to export or cause to be exported from the United States, or from territory under its control or jurisdiction, or from countries in which the United States exercises extraterritorial jurisdiction, any narcotic drug to any other country: *Provided*, That narcotic drugs (except smoking opium and opium prepared for smoking, the exportation of which is hereby absolutely prohibited) may be exported to a country only which has ratified and become a party to the convention and final protocol between the United States Government and other powers for the suppression of the abuses of opium and other drugs, commonly known as the International Opium Convention of 1912, and then only if (1) such country has instituted

and maintains, in conformity with that convention, a system, which the board deems adequate, of permits or licenses for the control of imports of such narcotic drugs; (2) the narcotic drug is consigned to an authorized permittee; and (3) there is furnished to the board proof deemed adequate by it, that the narcotic drug is to be applied exclusively to medical and legitimate uses within the country to which exported, that it will not be reexported from such country, and that there is an actual shortage of and a demand for the narcotic drug for medical and legitimate uses within such country.

"(b) The Secretary of State shall request all foreign Governments to communicate through the diplomatic channels copies of the laws and regulations promulgated in their respective countries which prohibit or regulate the importation and shipment in transit of any narcotic drug and, when received, advise the board thereof.

"(c) The board shall make and publish all proper regulations to carry into effect the authority vested in it by this Act."

SEC. 3. That section 8 of such Act of February 9, 1909, as amended, is amended to read as follows:

"Sec. 8. (a) That a narcotic drug that is found upon a vessel arriving at a port of the United States or territory under its control or jurisdiction and is not shown upon the vessel's manifest, or that is landed from any such vessel without a permit first obtained from the collector of customs for that purpose, shall be seized, forfeited, and disposed of in the manner provided in subdivision (d) of section 2, and the master of the vessel shall be liable (1) if the narcotic drug is smoking opium, to a penalty of \$25 an ounce, and (2) if any other narcotic drug, to a penalty equal to the value of the narcotic drug.

"(b) Such penalty shall constitute a lien upon the vessel which may be enforced by proceedings by libel *in rem*. Clearance of the vessel from a port of the United States may be withheld until the penalty is paid, or until there is deposited with the collector of customs at the port, a bond in a penal sum double the amount of the penalty, with sureties approved by the collector, and conditioned on the payment of the penalty (or so much thereof as is not remitted by the Secretary of the Treasury) of all costs and other expenses to the Government in proceedings for the recovery of the penalty, in case the master's application for remission of the penalty is denied in whole or in part by the Secretary of the Treasury.

"(c) The provisions of law for the mitigation and remission of penalties and forfeitures incurred for violations of the customs laws, shall apply to penalties incurred for a violation of the provisions of this section."

SEC. 4. That such Act of February 9, 1909, as amended, is amended by adding at the end thereof a new section to read as follows:

"Sec. 9. That this Act may be cited as the 'Narcotic Drugs Import and Export Act.'"

Approved, May 26, 1922.

### Automobiles for Australia.

In the 5,911 tons of cargo carried through the Canal on the steamer *Canadian Victor*, July 22, bound from Montreal to New Zealand and Australia, were 2,470 tons of automobiles.

In June the steamship *Sussex* carried 1,000 tons of automobiles from New York to Australia, and the steamship *Karouga* 800 tons from New York to Australia.

### Official Circulars.

#### Sales of Material.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 13, 1922.

CIRCULAR NO. 630-8 (superseding all Circulars of the 630 series):

1. The Supply Department will handle all sales of material, supplies, and equipment for The Panama Canal and the Panama Railroad on the Isthmus, unless otherwise specifically authorized by the Governor.

2. All sales shall be made on a cash basis. Certified checks, bonds, and other securities or cash credits with The Panama Canal and Panama Railroad may be utilized as guaranty of pay-

ment in amounts and under conditions satisfactory to the Chief Quartermaster and the Auditor.

3. Sales from regular stock of material, supplies, and equipment which can be spared, may be made to the following, under conditions stated:

(a) To other departments of the United States Government on the basis of stock card values plus the surcharge specified in prevailing published tariff.

(b) To employees of The Panama Canal, Panama Railroad Company, and other Departments of the United States Government for their personal use only; clubs, societies and other organizations of such employees; and to charitable and religious institutions located on the Canal Zone, when such material, supplies, or equipment are not carried in Panama Canal Com-

missaries on the basis of stock card values plus the surcharge specified in prevailing published tariff. When such social, fraternal, charitable, or religious organizations are located in territory under the jurisdiction of the Republic of Panama, sales to same shall be subject to the customs laws and regulations of the Republic of Panama.

(c) To steamship companies and their authorized agents for use on ships clearing for or arriving from a foreign port (other than Panamanian ports); and to individuals and companies when the articles purchased are for use solely outside of the territorial limits of the Canal Zone and the Republic of Panama; without customs duty requirements; on the basis of stock card values plus the surcharge specified in prevailing published tariff.

(d) To contractors with The Panama Canal and Panama Railroad under conditions stated in their contracts.

(e) To all others not heretofore specified; subject to the customs laws and regulations of the Republic of Panama, on the basis of stock card values plus the surcharge specified in prevailing published tariff.

(f) Scrap, obsolete material, supplies and equipment, and second hand material, supplies, and equipment carried at appraised prices will be sold without surcharge.

4. Delivery of all articles will be made f. o. b. the nearest storehouse where material is actually located, or on the spot in case of material located in the field, unless otherwise specifically agreed upon. Purchasers must arrange for transportation and agree to accept delivery and remove material at the time of sale, or within an agreed period of time thereafter. Supplies to shipping may be sold f. a. s.

5. Surplus and obsolete material and equipment, after having been regularly surveyed and appraised, may be sold at prices approved by the Governor without surcharge. The General Storekeeper is authorized to effect the sale of such articles at a discount of not more than 25 per cent of the appraised value where the appraised value of the articles to be sold at such discount does not exceed \$500. Such sales at a discount where the appraised value of the articles exceeds \$100 should be made only in case of emergency and all such sales must be reported to the Governor at the end of each month for his approval. Articles appraised at less than \$100 and on hand in the Obsolete Storehouse more than 3 months, may be sold for not less than 50 per cent of the appraised value in the discretion of the General Storekeeper.

6. Public property which has been condemned, or the sale price of which has been reduced as the result of a survey or inspection, will not be purchased by any official who was responsible therefor at the time of the condemnation or reduction in price, nor by any official who bore any part in any such condemnation or reduction.

7. All materials, supplies and equipment requiring appraisal of value for transfer to the Supply Department for sale, and transfer between Departments and Divisions of The Panama Canal and Panama Railroad, or to other Departments of the Government, shall be promptly appraised by a Board of Appraisal consisting of:

(a) The Surveying Officer.

(b) A representative of the Mechanical Division designated with the approval of the Governor.

(c) A member of the Board of Local Inspectors designated by the Chairman of the Board shall act as a member of this board whenever any floating equipment is to be appraised.

(d) The Constructing Quartermaster of the Supply Department will act as a member whenever any buildings are to be appraised.

This Board shall report to the Chief Quartermaster and shall function so as to facilitate the sale or disposition of property in the most expeditious manner.

8. Delivery of material, supplies, and equipment subject to customs duties in the Republic of Panama will not be made to the purchaser until he shall have presented to the storehouse making sale a copy of bill covering sale on which

are indorsed certificates signed by the Treasurer of the Republic of Panama, or his authorized representative, in Panama or Colon, that customs duties on such material, supplies, and equipment have been paid or have been remitted.

9. If the value of sales in any case, except sales to shipping, exceeds \$2,500, prior authority from the Governor, must be obtained. All sales, except to shipping, in excess of \$250, made without prior authority, shall be reported monthly to the Governor.

JAY J. MORROW,  
Governor.

#### Acting Captain of the Port, Cristobal.

THE PANAMA CANAL,  
DEPT. OF OPERATION AND MAINTENANCE,  
BALBOA HEIGHTS, C. Z., July 13, 1922.

To all concerned—During the absence on leave of Commander F. V. McNair, U. S. N., Assistant Port Captain H. L. Eden will act as Captain of the Port, Cristobal, and member of the Board of Local Inspectors, The Panama Canal, effective this date.

E. P. JESSOP,  
Marine Superintendent.

Approved:  
JAY J. MORROW,  
Governor.

#### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

No. 51.

## Texas Company's Tanker "Shenandoah" Makes Local Record for Quick Discharge of Cargo.

A record for quick discharge of a cargo of fuel oil by a tanker at the plants at the terminals of The Panama Canal was established at the most recent delivery of the tanker *Shenandoah*. The *Shenandoah* started pumping at the oil dock at Cristobal at 11 o'clock at night on July 18, and at 5 p. m. on the 19th was ready to go to sea, having discharged 61,366.66 barrels in 18 hours. This was at the average rate of 3,409 $\frac{1}{4}$  barrels per hour. During the night hours the ship was discharging approximately 5,500 barrels an hour, but in the morning it was necessary to disconnect from one of the pipe lines so that it might be used by the plant in bunkering a ship; except for this the *Shenandoah* would probably have completed discharge by 1 o'clock.

The *Shenandoah* is owned and operated by the Texas Company, and had brought a shipment of oil from Puerto Lobos, Mexico, for delivery to the company's tanks at Cristobal.

## Addition to Pacific Mail Coastwise Service.

The Pacific Mail Steamship Co. is establishing a new fast freight service by adding 4 cargo vessels of approximately 9,000 deadweight tons capacity each to its New York and San Francisco line, in which 3 combination passenger and cargo vessels are engaged at present. In addition to the calls at Los Angeles and San Francisco, now made by the passenger ships, the cargo ships will also call at Portland, Tacoma, and Seattle. They will omit the calls at Corinto, La Libertad, San Jose, and Manzanillo, made by the passenger ships.

With the addition of the cargo ships, the Pacific Mail will have sailings in the coastwise service every 10 days for freight and every 21 days for passengers.

The first of the 4 cargo vessels to make the transit of the Canal will be the *Santa Malta*, due from New York August 14. The 3 other ships to be added to the service are the *Santa Clara*, *Santa Olivia*, and *Santa Paula*. The passenger vessels now in the New York-San Francisco service are the *Colombia*, *Ecuador*, and *Venezuela*.

## Information from American Consuls.

The Consular officers of the United States at seaports all over the world are *ex officio* representatives of The Panama Canal for the purpose of furnishing information to shipping and allied interests as to conditions, charges, etc., at the Panama Canal affecting the operation of ships. The current publications of The Panama Canal of interest to shipping are furnished to the Consular officers and filed for reference. It is not desired that inquires of a general nature be addressed to the Consular officers, or that they be burdened with requests which should be made direct to The Panama Canal; but ships' operators who may not be sufficiently advised as to charges, supplies, facilities, etc., at the Canal will often save time by applying to the nearest American Consul.

### Origin and Destination of Cargo During Past Fiscal Year.

The tonnage of cargo passing through the Canal during the fiscal year 1922 (10,884,910) was equivalent to 93.8 per cent of the tonnage of the previous year (11,599,172).

The greatest shrinkage was in the trade with the west coast of South America. Exports from the Atlantic and Gulf ports of the United States to that region fell from 933,261 to 244,514 tons. European exports to South America declined only from 297,166 to 283,804 tons. Exports from South America through the Canal to the United States were 548,609 tons, as compared with 975,597 in 1921, and to Europe 663,127, as compared with 922,499.

Combining imports and exports and Europe and the United States, this South American trade was less by 1,388,469 tons, and to this may be added a difference of 398,097 tons in crude oil shipments from Mexico to South America, or a total of 1,786,566.

This was due to market conditions. Prices have been so low and demand so slack that the West Coast countries have found it impossible to market their raw materials at a profit and shipments have been greatly curtailed.

The trade with Australasia has also fallen off. Exports from the United States to Australasia declined from 620,428 to 288,090, and exports from Europe from 391,848 to 359,895. Shipments from Australasia to the United States fell from 147,877 to 45,957, and to Europe from 579,745 to 381,538. The total loss of tonnage in the Australasian trade amounted to 664,418. In this case, too, economic conditions are in the main responsible, but there was also some diversion of traffic from Panama to competing routes.

Exports from the United States to the Far East increased from 1,213,906 to 1,728,172 tons. Imports from the Far East fell from 428,044 to 303,315. The combined movement showed a gain of 389,537 tons.

The most remarkable gains of the year were in the movements of cargo to and from the Pacific coast of North America, particularly the latter.

Exports from the west coast of the United States to Europe were 1,302,183 tons, as compared with 1,154,840 in 1921, and from western Canada to Europe 420,272, as compared with 154,513. The whole west coast of North America should be treated as a unit in dealing with these figures, as most vessels in the trade load and discharge cargo at both American and Canadian ports. The combined increase amounted to 413,102 tons. Canadian imports from Europe increased from 20,416 to 149,553, and American imports from 144,591 to 186,696. The combined gain was 171,242 tons.

Cargo moving from east to west in the United States coastwise trade increased from 698,429 to 1,288,075 tons, and cargo moving from west to east from 673,959 to 1,274,452 tons. The total gain in this trade for both directions has been 1,190,139 tons, equivalent to 86.7 per cent. This rapid development of the coastwise trade is the most conspicuous feature of the year's business. It has compensated for losses elsewhere, and maintained the total volume of traffic at nearly the same level as in 1921.

There has also been an increase in the trade between the west coast of Canada and the east coast of the United States, but a comparison

can not be made, as exact statistics for 1921 are not available. In 1922 the westbound cargo on this route amounted to 88,408 tons, and the eastbound to 159,921 tons.

### Notice to Mariners.—Menaces to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., July 31, 1922.

1. From master of steamship *San Juan*:

Steamship *San Juan* passed Bona Island 5 miles off, July 30, 2.30 a. m., L. A. T. Light not burning. NOTE—This light will be fixed within next day or two.

Steamship *San Juan* passed log 35 feet long, 4 feet in diameter, with branches sticking up, in Lat. 7° 13' North, Long. 80° 20' West, 11 a. m., L. A. T., July 30. Menace to navigation.

2. From U. S. A. T. *Eldena*:

(8 a. m., July 30.) Lat. 11° 36' North, Long. 78° 38' West, Wind NE-E 4, weather overcast equally, barometer 29.95, air 79, sea rough. (4 p. m., July 30), Lat. 12° 31' North, Long. 78° 12' West, Wind E-NE 5, weather hazy, air 86, barometer 29.80, sea rough.

JAY J. MORROW,  
Governor.

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended July 29:

Steamships *Seiyo Maru*, straighten and repair broken davit stanchion and rail; *Rosana*, face off joints on 12 valves; manufacture 24 copper gaskets per sample.

PREVIOUSLY REPORTED.

Dredge *Paraiso*, work for widening hull is going along; in addition miscellaneous running repairs to hull and engines.

The following vessels were at the Cristobal shops for repairs during the week ended July 31:

Steamship *Cauca*, renew packing in drain valve for M. P. engine; repair ash hoist, ballast pump link motion, and sea suction valve, refrigerator suction pipe, exhaust pipe for forward winch and starboard boiler safety valves and seats; overhaul engine room telegraph and repair and adjust wire and chain leads; patch top of fidley; re-rubber ports; calk forward well deck; repair galley stove and rebrick, etc.; tug *Favorile*, weld brake band and make lever for towing machine; steamships *Solana*, remove broken propeller blade and fit spare blade; braze copper pipe for dynamo engine; *Salvador*, repair 1 heater coil and manufacture 4 new ones as sample; *Cristobal*, fit new shroud plates on 2 eccentric straps; renew 1 length of ice machine circulating water pipe; weld broken bracket on lifting gear for skylight, etc.; *Heredia*, manufacture piston ring for circulating pump; *Acajulla*, make deck over captain's room water-tight and make sun deck portable; clear scuppers and fit new rose plates; repair connecting link on wheel of patent log; manufacture 4 new coils for fuel oil heaters; machine valve face for circulating pump and fit false face, etc.; subchasers *Nos. 3 and 4*, dock, clean, and scrape bottom; repair copper sheathing; remove propellers, tail shaft, struts, strainers, etc.; plug all holes below water line and cover with copper sheathing; cut out bulkheads as directed; steamships *Huallaga*, *Metapan*, *Australford*, launches *Renown* and *Naos*, minor repairs.

### Facilities for Shipping.

The Panama Canal is equipped with all the facilities for the fueling, supply, and repair of ships which are found in modern ports.

The coaling plants, with an aggregate storage capacity of 700,000 tons, bunker ships at the rate of from 100 to 500 tons an hour, practically as fast as the nature of the vessel will allow. Oil can be delivered as fast as the ships can take it, from 30 tanks aggregating approximately 1,500,000 barrels of storage capacity. Crude fuel oil, Diesel oil, and gasoline are sold.

The ships' chandlery storehouses carry a wide variety of marine supplies and spare parts. The commissary stores sell foodstuffs, fresh meats, fruits, and vegetables, as well as clothing and a general line of goods for supplying about 30,000 people resident on the Isthmus. Ice plants, a large laundry, hotels, hospitals, and restaurants serve the passengers and crews of ships.

A salvage service operated by the Canal is available for prompt assistance to vessels within a radius of a thousand miles of the Canal, or farther if required. Seagoing tugs or a wrecking tug with requisite equipment are dispatched on short notice.

A 1,000-foot dry dock, capable of receiving the largest ships built, a smaller dry dock, floating cranes, foundry, and amply equipped shops, employing about 1,100 men, provide the means of making practically any kind of marine repairs.

In general, the services to shipping at the Canal are such as have been developed and found ample and effective, in the course of handling large traffic through the Canal in over 7 years of operation.

## Official Circulars.

## Appointment.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 24, 1922.

CIRCULAR No. 661-105:

Effective this date, Mr. Wilson H. Kromer is appointed Assistant Auditor on the Isthmus, *vice* Mr. Elwyn Greene, appointed Auditor, June 20, 1922.

JAY J. MORROW,  
Governor.

## Prohibition of Payment of Increased Salaries.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., July 29, 1922.

To all concerned—The Act of Congress, approved June 30, 1922, making appropriations for the Panama Canal for the fiscal year 1923, contains the following prohibition against the payment of increased salary for any position over that which was in effect for such position on June 30, 1921:

"No part of the foregoing appropriations for the Panama Canal shall be used to pay the salary for any position at a rate in excess of the rate in effect for such position on June 30, 1921."

The following rules construing the section of law referred to above have been observed in passing upon the cases affected:

"1. Where the work of two or more positions has been combined since June 30, 1921, so as to place a substantial portion of the work on one position, the salary that may be paid is limited by the highest salary of any of the positions combined.

"2. Where an employee is transferred from one department, division, or bureau to another, together with a substantial portion of the work attached to such employee's position, the salary rate may be transferred with the position.

"3. Mere increase of work does not constitute authority for change of designation of the position or increase of salary.

"4. To constitute an emergency justifying the creation of a new position at a higher rate of salary than was authorized on June 30, 1921, there must be some condition involving a change of more than mere increase of routine duties, and in such cases a full and complete memorandum of all of the facts should be in the files to serve as the basis of a report to the General Accounting Office should such increase be questioned by the Accounting Officers in Washington."

Each employee reduced as the result of the provisions of the law will be furnished a copy of this circular, together with a copy of the General Order on which his name appears.

It is not intended that any employee shall suffer a reduction in pay by misinterpretation of the law and if grounds are found to be proper under the law for restoring the pay in any cases after this office has had an opportunity to review them, the change will be made retroactive to July 1, 1922.

In administering the provisions of law cited above, Panama Railroad employees will be accorded the same treatment as employees carried on Panama Canal rolls.

JAY J. MORROW,  
Governor.

## Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

No. 52.

## Canceling Special Prices for Coal in Large Quantities.

THE PANAMA CANAL, EXECUTIVE DEPARTMENT,

BALBOA HEIGHTS, C. Z., August 5, 1922.

*To all concerned*—Effective August 16, 1922, special prices for coal taken in large quantities, as specified in paragraph 11, item 21, of Panama Canal Tariff No. 6, will be canceled.

These special prices were established at less than actual cost for the purpose of offering inducements for the purchase of large quantities of coal in order to reduce the quantity of stock on the Isthmus. Due to shortage of coal at Atlantic ports of the United States, it is not considered advisable to continue these reduced prices, although regular prices are still maintained at former figures, which are approximately cost figures to the Panama Railroad Company for handling such coal.

JAY J. MORROW,  
*Governor.*

## Canal Traffic for July, 1922.

A total of 251 ocean-going commercial vessels transited the Canal during the month of July, 1922. Tolls on these vessels aggregated \$1,094,127.42 as compared with \$933,290.42 for 228 vessels in the preceding month and \$804,503.11 tolls for 206 vessels in the month of July last year.

In addition to the above commercial traffic, transit was made by 2 small launches, on which tolls of \$5.25 were paid, and 14 U. S. Government vessels passed through the Canal free of tolls.

The increase in tolls over the month of June was due, entirely, to the increased volume of traffic from Pacific to Atlantic ports as the Atlantic to Pacific traffic was slightly under that of the preceding month.

Shipments of wheat and sugar were chiefly responsible for the increased Pacific to Atlantic traffic; 14 full cargoes of wheat passed through the Canal bound from the west coast of the United States and Canada to European ports and 4 cargoes of sugar made the transit, en route from the Philippines to the east coast of the United States, while additional shipments of both commodities helped to make up the loading of a number of vessels transiting the Canal during the month with mixed cargoes.

## Visit of Japanese Training Squadron.

The training squadron of the naval school of the Japanese Navy, consisting of the cruisers *Asama*, *Idzumo*, and *Iwate*, with a total personnel of 2,412, in command of Vice Admiral *Tanaguchi*, arrived at Balboa in the morning of August 5. On August 7 the squadron passed through the Canal to Cristobal, where it will lie until August 11, when it will clear for South American ports. The squadron will visit the centennial exposition at Rio de Janeiro.

### Increasing Facilities for Oil and Gasoline Storage.

The West India Oil Co. has leased an additional lot in the oil tank farm at Balboa, the Pacific terminus of the Canal, for the erection of a tank of 50,000 barrels capacity for the storage of gasoline.

The United States Navy has leased 3 lots at Balboa and 3 at Cristobal, for six 50,000-barrel fuel oil tanks, and the work of grading the sites and preparing the foundations for the erection of the tanks is in progress.

With the new tanks, the storage capacity of the terminals will be: Fuel oil, 35 tanks, 1,726,041 barrels; Diesel oil, 2 tanks, 59,992 barrels; gasoline, 3 tanks, 60,786 barrels. The total tanks in service will be 40, with an aggregate capacity of 1,846,819 barrels.

Not including the new tanks, which are not yet in service, the tanks now in use at the two terminals for fuel and Diesel oil are as follows:

| Owner.                                                 | Cristobal.    |                    | Balboa.       |                    | Total both terminals. |                    |

\* Includes 1 tank of 55,954 barrels used for storage of Diesel oil.

\* Includes 1 tank of 4,038 barrels used for storage of Diesel oil.

Gasoline storage, in addition to the above, is provided by The Panama Canal with a tank of 5,382 barrels (226,028 gallons) at Cristobal, and a tank of 5,404 barrels (226,976) gallons at Balboa.

The Asiatic Petroleum Storage Corporation (Limited), Panama, has taken over the 4 tanks formerly owned and operated by the Panama Canal Storage Corporation. The Arrow Oil Co. has taken over the Pacific Mail Steamship Co.'s 55,000-barrel tank at Cristobal.

### Record Shipment of Crude Oil Through Canal.

The British steamer *G. Harrison Smith*, bound from Puerto Lobos, Mexico, to Antofagasta, Chile, passed through the Canal on August 1, 1922, carrying 132,000 barrels of crude oil, or approximately 18,500 tons. This is the largest shipment of oil to have passed through the Canal to date.

The *G. Harrison Smith* is owned and operated by the International Petroleum Company. She is a vessel of 15,371 tons gross and 9,326 tons net, 550½ feet in length by 72 feet beam. At the time of transit through the Canal her draft was 32 feet 9 inches.

### Damaged Oil Being Returned from Orient.

The steamers *Indian Arrow* and *Yankee Arrow* of the Standard Oil Co., carrying respectively 7,900 and 5,200 tons of refined oils, transited the Canal on July 29, bound to Beaumont, Tex., from Chinese ports. Both vessels were carrying cargoes of refined oils which had be-

come discolored and damaged to such an extent that it was necessary that they be again put through the refining process.

The *Indian Arrow* had last previously passed through the Canal on April 24, 1922, carrying 10,982 tons of refined oil to Taku Bar, and the *Yankee Arrow* on May 3, 1922, carrying 11,031 tons of refined oils to Woosung.

---

#### Tariff No. 6.

The Panama Canal has issued "Tariff No. 6—Schedule of Rates for Supplies and Services Furnished to Shipping and Allied Interests at the Panama Canal," superseding Panama Canal Tariff No. 5 and all supplements thereto. Tariff No. 6 is in effect July 1, 1922.

The items listed in the index are as follows:

Ashes, handling; baggage allowance; bakery products; barges (*see* Lighters); basin charge; berth, shifting; bills of health; bills, payment of; cablegrams advising deposits; chandlery, ship; coal; cold storage; collections, agency fee; compressed air, cordage; cramage; craneboats; cranes; customs fees; deck hands; Diesel oil; dispensaries; divers; dry docks; electric current; fire extinguishers, recharging; floating cranes; fruits; fuel oil; garbage; general; groceries; guards, quarantine; guards, rat; handling lines; health, bills of; holiday and Sunday work; hospital treatment; hotels; ice; launches; laundry; lighters; locks, handling lines in; lubricants; measurement of vessels; meats; medical supplies; medical treatment; moorings to buoys; oil; overtime; Panama Railroad-passenger tariff; pangas; physicians; pilotage; provisions and supplies; pumping oil; quarantine; rat guards; repairs; shifting berth; ship chandlery and stores; special Sunday and holiday rates; special trains; stevedoring and transferring cargo; storage on piers; Sunday and holiday work; supplies; switching; telephones; Tivoli Hotel; tolls; trains, special; transferring cargo; tugs and supply boats; vegetables; Washington Hotel; water, whaleboats; wharfage, wrecking cranes; wrecking operations; launches.

Copies of the tariff are furnished without charge to steamship lines and related interests. They are also placed in the offices of American Consular officers, along with other general information about the Panama Canal.

---

#### Supplement No. 1 to Tariff No. 6:

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., July 18, 1922.

##### ITEM 3.—PILOTAGE.

(Effective August 1, 1922.)

5. Port pilotage applies to vessels visiting terminal ports without transiting the Canal; and also to vessels which, in addition to transiting the Canal, stop at either terminal and there receive or discharge passengers or freight. All vessels, including vessels transiting the Canal, using a port in the Canal Zone as a terminus for the discharge of freight or passengers or for the receipt of freight or passengers will be charged port pilotage both on entering and leaving the port. Vessels transiting the Canal and using the port at either end of the Canal solely for the purpose of securing repairs, fuel, or supplies, or for the purpose of allowing through passengers to land or transit the Isthmus by train, will be charged pilotage only for entering the port prior to transiting the Canal, and for leaving the port after having transited the Canal. No charge for pilotage will be made against a vessel solely on account of its acceptance or delivery of mails originating in or destined for the Canal Zone or the Republic of Panama.

##### ITEM 14.—WHARFAGE.

(Effective August 1, 1922.)

6. The foregoing charges for wharfage will be made against vessels handling cargo or passengers either at Cristobal or Balboa as a terminus.  
All other vessels docking at a wharf owned or controlled by The Panama Canal or the Panama Railroad Company for any other purpose than for handling cargo

or passengers as a terminus, will be charged one-half the foregoing rates, except, that no wharfage will be charged for vessels docking at the Coaling Plant solely for the purpose of securing coal.

When a vessel receives or discharges at the Coaling Plant, either at Cristobal or Balboa, one or more tons of cargo, or 10 or more bags of mail, or 3 or more passengers, a charge for wharfage will be made at the regular rates provided in this tariff.

#### ITEM 15.—MOORING TO BUOYS.

(Effective August 1, 1922.)

3. Vessels will be permitted to handle cargo and passengers at mooring buoys, at the discretion of the Receiving and Forwarding Agent.

#### ITEM 18.—STEVEDORING AND TRANSFERRING CARGO.

(Effective August 1, 1922.)

##### 1. Stevedoring:

|                                                                                                                                                     |                  |        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|------------------|--------|
| (a) General cargo.....                                                                                                                              | per ton..        | \$0.30 |
| (b) Cotton, wool, kapok, hemp, bark, leather, hides, and similar commodities, per ton of 2,000 lbs..                                                |                  | .60    |
| If offered on measurement basis, rate will be the general cargo rate.                                                                               |                  |        |
| (c) Boilers, locomotive parts, machinery, railroad cars, etc., scrap machinery and scrap boilers, etc., and other heavy weights of over 2 tons..... | per ton..        | .50    |
| (d) Structural iron over 35 feet long.....                                                                                                          | per ton..        | .50    |
| (e) Loose brick, conduit, sewer pipe, terra cotta, and tile.....                                                                                    | per ton..        | .50    |
| (f) Loose scrap iron of irregular shape, pieces not over 2 tons.....                                                                                | per ton..        | .60    |
| (g) Lumber, switch and cross ties.....                                                                                                              | per M feet B. M. | 1.00   |
| (h) Rough timber and logs.....                                                                                                                      | per ton..        | .60    |
| (i) Piling.....                                                                                                                                     | per linear foot  | .01    |
| (j) Horses, mules, and donkeys.....                                                                                                                 | per head..       | 1.00   |
| (k) Cattle.....                                                                                                                                     | per head..       | .75    |
| (l) Calves, goats, dogs, hogs, and sheep.....                                                                                                       | per head..       | .50    |
| (m) Live stock, other than above indicated when crated.....                                                                                         | per ton..        | 1.00   |
| (n) Mail, baggage, and specie.....                                                                                                                  | per ton..        | 1.50   |
| (o) Explosives.....                                                                                                                                 | per ton..        | 2.50   |
| (p) Nitrates.....                                                                                                                                   | per ton..        | .50    |

##### 2. Transferring cargo between ships:

|                                                                                                                                                                                                                                                                                   |           |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------|
| (c) Mail, baggage, and specie.....                                                                                                                                                                                                                                                | per ton.. | 3.00 |
| (NOTE—When actual weight of mail or baggage (including container) is not shown on ship's papers, ordinary mail (letters and prints) will be handled at an average weight of 40 pounds per sack, parcel post mail at an average of 100 pounds and baggage at 75 pounds per piece.) |           |      |
| (i) Live animals other than the above, when crated.....                                                                                                                                                                                                                           | per ton.. | 2.00 |
| Live animals in transit will not be received before the connecting steamer has berthed unless the delivering carrier has made arrangements for their care, pending the arrival of connecting steamer.                                                                             |           |      |

##### 3. Isthmian cargo:

|                                                                                                                                                                                                          |  |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-----|
| (b) Cargo for Colon—(third paragraph):                                                                                                                                                                   |  |     |
| Arrangement for delivery in cars must be made prior to commencement of discharge of cargo, otherwise, a charge will be made for rehandling... per ton..                                                  |  |     |
| (d) The minimum charges specified in paragraph (e) will also apply on cargo transported from Balboa to Panama.                                                                                           |  | .75 |
| (f) By prior arrangements, inward and outward local shipments may be received and delivered at Balboa docks, when, in the opinion of the Receiving and Forwarding Agent, such procedure seems desirable. |  |     |

14. For use of electric winches or industrial trucks, including operators, per hour.. 1.25

16. No change in routing shown on bills of lading will be recognized or followed after check books and papers have been compared by the forces of the Receiving and Forwarding Agent, covering cargo to be discharged at the Atlantic or Pacific terminals. If delivering carriers desire to change routing on such cargo, it will be necessary for them to request the Receiving and Forwarding Agent, in writing, prior to commencement of discharge to make such changes if they desire to avoid rehandling charges. In the event such deviation from the original routing necessitates rehandling of the cargo, a charge of 75 cents per bill of lading ton will be made against the delivering carrier. Instructions of the delivering carrier as to the routing of cargo will be followed only in connection with shipments covered by bills of lading in which no reference whatever is made to the name of the final carrier.

17. Orders for outward cargo must be presented by receiving carriers in writing between 7 a. m. and 4 p. m., at least 6 hours prior to the time ship is ready to receive cargo, in order that there may be ample time to properly prepare papers and cargo check books. Cargo will be delivered or

received from vessels in port during the following working periods, which will not be deviated from except at the discretion of the Receiving and Forwarding Agent in cases of emergency: 7 a. m. to 11 a. m., 12 noon to 4 p. m., and from 5 p. m. to 1 a. m.

JAY J. MORROW,

Governor, *The Panama Canal.*

President, *Panama Railroad Company.*

### Prices of Fuel Oil and Diesel Oil.

The Union Oil Company of California advises that its current prices for fuel oil and Diesel oil at representative Pacific ports of the United States are as follows:

| Stations.                              | Fuel oil.   | Diesel oil. |
|----------------------------------------|-------------|-------------|
|                                        | Per barrel. | Per gallon. |
| Seattle.....                           | \$1.38      | \$0.04225   |
| San Francisco.....                     | 1.08        | .03375      |
| Olcum Refinery, San Francisco Bay..... | 1.00        | .03125      |
| Los Angeles—San Pedro.....             | 1.00        | .03125      |
| San Diego.....                         | 1.15        | .....       |
| Honolulu.....                          | 1.65        | .04625      |

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended August 5:

Steamship *Pennsylvanian*, dry-dock ship for repairs to propeller; change 4 broken and bent propeller blades, using spares aboard ship; renew 8 studs; repack stern tube gland; braze steam pipe for winch; weld leaky rivets and calk seams on stern frame; motor ship *Alsace*, furnish services of diver to cut rope off of propeller and tail shaft, and to repack gland; Colombian coast guard cutter *No. 3*, remove machinery; hoist boat on dock for general repairs to hull, machinery, and deck houses; U. S. submarine *O-16*, dry-dock, clean, and paint; change main motors; install new mufflers, furnished; overhaul C. and R. air compressors; overhaul all ventilation; remove hydroplane and install larger bowplanes; make annual repairs to hull and machinery; and put 10 pounds air pressure on all compartments to test for leaks.

The following vessels were at the Cristobal shops for repairs during the week ended August 7:

Steamship *Venezuela*, manufacture connecting rod; repair pipes in galley, ice box, overflow tank; and copper pipe on main steam line to winches; roll tubes, calk seams and rivets; weld air duct tubes, etc., in boilers; repack superheaters; make smoke boxes air-tight, etc.; U. S. S. *O-15*, renew 2 forward plates on side of superstructure with fittings complete; remove hydroplanes; clean and paint underwater hull; grind-in all valves; make minor structural repairs; take stern tube and strut bearing clearances and repack stern tube glands; calibrate all gauges; repair ballast pump, water-tight doors in bulkhead frame and battery vent ducts; clean, paint, and test all ballast, trimming, and fuel tanks; install standard air salvage system, recognition signal ejector, indicators on all ventilating valves, and larger bow planes, etc.; U. S. Army tanker *No. 1*, repair steam steering gear, hand steering gear, steering wheel, dynamo engines, ice machine, and main engine crosshead brasses, and hatches, etc.; steamships *Cauca*, repair ballast pump; feed pump, windlass, and refrigerator engine; *Advance*, repair Nos. 1 and 2 winches; manufacture and install new brasses in anchor windlass; repair plumbing, fireroom tools, and hand pump from No. 2 tank, etc.; *Conde de Churruca*, *Manitaro*, *Stuyvesant*, *Puerto Rico*, *Cold Harbor*, *Panama*, *Advance*, and gunboat *Bravo*, minor repairs.

### Postal and Cable Addresses of The Panama Canal.

The postal address is "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pan canal, Panama;" in the United States, "Pan canal, Washington."

### Current Net Prices on Fuel Oil, Diesel Oil, and Coal.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel\* of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

Coal is supplied to steamships, including warships of all nations, delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. When coal is delivered from lighters in quantities of 50 tons or more, the price is \$13 per ton at Cristobal, \$16 at Balboa. For delivering lump coal for galley use, in sacks, \$12 additional per ton; but if vessel furnishes sacks, \$5 per ton additional.

For coal in large quantities as specified below, taken from alongside coaling plants:

(a) To vessels taking 1,200 tons or over;

(b) To vessels taking between 825 and 1,200 tons and bunkering full;

(c) To vessels taking 825 or more tons and more than quantity required to bunker full;

Price to the above three classes, per ton of 2,240 pounds, \$10 at Cristobal, \$13 at Balboa.

(d) To vessels taking between 688 tons and 825 tons and bunkering full, the charge will be for 825 tons at prices specified in paragraph (c).

(e) To vessels requiring 825 tons to 1,200 tons to bunker full and taking less than quantity required to bunker full, the maximum charge for the coal taken will be the quantity required to bunker full at prices specified in paragraph (c).

(f) If all or any part not less than 50 tons of the lots authorized to be sold at the coaling plant at the reduced prices named above, is delivered in lighters, the additional charge for such coal delivered in lighters will be, per ton of 2,240 pounds, \$1.

(g) If less than 50 tons are delivered in lighters, paragraph 4 of Supplement No. 11 to Tariff No. 5 will apply (\$15 at Cristobal, \$18 at Balboa).

(h) The Cristobal rates will apply to coal for vessels transiting the Canal, taken at Balboa by direction of The Panama Canal.

Coal for cargo is sold only by special authority of the Governor, at prices quoted upon application.

For trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, when requested, an additional charge of 90 cents per ton will be made for extra handling.

\* These prices will be canceled, effective August 16, 1922.

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution, away from the Isthmus, of such notices and circulars to those receiving THE PANAMA CANAL RECORD. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

### Trips Through the Canal.

The following lines operating passenger vessels through the Canal carry local passengers from one terminal to the other: Pacific Mail Steamship Company, Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line). The Pacific Mail charges \$6 for the trip, the others \$10. The several services together afford about 5 transits of the Canal each way every week.

### MOVEMENTS OF OCEAN VESSELS.—Continued from page 643.

PORT OF CRISTOBAL—continued.
