# INDEX.

## A

### Acts of Congress:

- Appropriation for seamen and annuity to Panama, 610.
- Concerning narcotic drugs, 631.
- Injury compensation, 602.
- Second deficiency appropriation, 461.
- Advance*, steamship, assigned to Colombian service, 309.
- Agencies for steamship companies, status of Panama Canal, 182.
- Accepted by Panama Railroad Co., 436.
- Agriculture, land for, 258.
- Alligator pears, embargo on in United States, 61.
- Almirante Latorre*, battleship, at Balboa for dry-docking, 439.
- American-Hawaiian Line increases coastwise service, 39.
- American-Hawaiian Line starts European service, 189.
- American shipping, analysis of, for 1921, 49.
- American tonnage, record for May, 1922, 543.
- Animals, importation of, 513.
- Apples:
  - Freight rate to Europe, 83.
  - Shipment of, 287.
- Appropriation Act. *See* Act of Congress.
- Appropriations, cash balance in, 115, 188.
- Arizonan*, steamship, repairs to, 442.
- Austrian bonds, notice concerning, 365.
- Automobiles in transit to Australia, 633.
- Automobile statistics for Canal Zone, 406.

## B

- BALLAST toll rates, quantity of bunker coal allowed under, 185.
- Barley, increased shipments of, 535.
- Beam, draft, and length statistics, 86, 334.
- Beef, current prices, 76, 92, 120, 132, 156.
- Bethore*, steamship, cargo capacity of, 538.
- Birds, importation of, into United States, 513.
- Bocas del Toro, anchorage marks, 38.
- Building construction—*See* Governor's monthly reports.

## C

- CABLE to San Juan, Porto Rico, 39.
- Cable messages:
  - Rates to Cartagena, 19, 45.
  - Rates to Buenaventura, 45.
- Canal Zone, population of, 9.
- Canned fish—*See* Fish.
- Cargo:
  - Classified by commodities—*See* Commodities.
  - Eastbound through Canal, 211.
  - Heavy shipments from Pacific coast to Europe, 189.
  - Origin and destination of, 40, 72, 110, 178, 330, 480, 531, 562, 604, 638.
  - Quick discharge of, 182, 635.
  - Transit, charge for storage on dock, 122.
  - Record, 538.

- Carnegie*, yacht, work of magnetic survey, 142.
- Cash balance in appropriations, 115, 188.
- Cattle, sale of, 407, 462, 506, 514, 542, 550.
- Census of Canal Zone, police, 9.
- Chilean battleship drydocked, 439.
- Chilean fruit, 442.
- Chilean Line:
  - European service, 4.
  - Vessel launched for, 447.
- Chilean shipping, analysis of, 1921, 87.
- China-American Line, 538.
- Chungwa Navigation Company inaugurates service, 83.
- Civil service examinations, 7.
- Coal:
  - Bunkers allowed under ballast toll rates, 185.
  - Memo. to steamship agents concerning, 603.
  - Prices, local, 76, 92, 120, 132, 153, 156, 184, 206, 214, 238, 251, 298, 312, 344, 355, 392, 400, 414, 454, 459, 486, 505, 514, 541, 559, 594, 601, 634, 641, 648.
  - Prices, foreign, 56, 129, 310, 361, 452, 459.
  - Trade through Canal, 54.
  - Wet storage of, 361.
- Coaling plants:
  - Hours of operation, 199.
  - Improvements in machinery, 176.
- Coastwise service, growth of, 39, 46, 61.
- Coastwise trade, growth of, 202.
- Collision of *West Hinrod* and *Woolsum*, 439.
- Colombia, treaty with, 547.
- Commissaries, cash sale system tried out, 335, 438.
- Commissary Division, General Manager appointed, 290.
- Commissary sales—*See* Governor's monthly reports.
- Commissary supplies, prices of, 156, 198.
- Commodity statistics, 12, 78, 148, 345.
- Contracts, flat price authorized, 251.
- Consular list, 367.
- Costs, report of, on work orders, 246.
- Court—*See* District Court.
- Crew lists, Executive Order concerning, 4, 404.

## D

- DANISH shipping, analysis of, 1921, 68.
- Deck hands, subsistence for extra, 90.
- Denby, Secretary of the Navy, visit of, 535.
- Dentists, district, rules governing modified, 541.
- Derblay*, steamship, assistance to, 455, 487.
- Diesel oil—*See* oil.
- Diplomatic list, 367.
- Disbursements, financial receipts and, 490, 546.
- Drugs, narcotic, Act concerning, 631.
- Dutch shipping, analysis of, 1921, 126.
- Discharge of cargo by vessels in transit, quick, 182.
- Discharge of cargo, record, 634.
- Dispatching schedule for ships in transit, 191, 299.
- District Court, rules of practice and procedure, 341.
- Docks, admission to, 367.
- Dogs, subject to quarantine in United States, 47.
- Draft, length and beam statistics, 86, 334.

Dredging—*See* Governor's monthly reports.  
 Dry dock charges reduced, 9, 17.  
 Dry docks, business of—*See* Governor's monthly reports.

## E

EARTHQUAKE, 154.  
 Eclipse of sun, 407.  
 Eggs, shipment of, 189.  
 Electric current, rate for, 291.  
 Electrical power produced and distributed—*See* Governor's monthly reports.  
 Employees—  
   Conditions of employment, 257.  
   Injury compensation, 602.  
   Limitation of salaries, 640.  
   Number of—*See* Governor's monthly reports.  
   Reduced steamship rate for, 238, 258, 336.  
   To pay rent for quarters, 257.  
*Empress of Australia*, transit of, 600.  
 Engineer of Maintenance, duties of, 206, 237.  
 Estates in course of administration, 7, 47, 91, 118, 206, 258, 366, 438, 445, 453, 504, 558, 601.  
 Estimates on work requests, 246.  
 Exclusion of undesirables, 212.  
 Executive Orders:  
   Amending rules for operation and navigation of Canal, 46.  
   Concerning crew lists, 4, 404.  
   Concerning passports, 90, 205.  
   Payment of tolls by vessels transiting Canal for repairs, 247.  
   Payment of rent for quarters, 257.  
   Rules of practice and procedure in District Court, 341.  
 Explosion of oxygen tank at Balboa shops, 591.

## F

FACILITIES for shipping at Panama Canal, 492, 505, 514, 542.  
*Favorite*, steamship, converted to oil burning, 586.  
 Financial receipts and disbursements, 490, 546.  
 Firearm permits, 586.  
 Fires, grass, 400.  
 Fish, canned, water route for, 305.  
 Fishermen, protection for, at Gatun spillway, 438.  
 Flat price contracts authorized, 251.  
 Freight rates reduced, 297.  
 French canal builders, memorial to, 437.  
 French Line:  
   Increased service, 447.  
   New service to west coast of North America, 77, 255.  
 French shipping, analysis of, 1921, 127.  
 Freight rates, water and rail, comparison, 38.  
 Fruit, fresh:  
   Increasing shipments, 133.  
   From Chile, 442.  
   From Peru, 590.  
 Fuel oil—*See* Oil.  
 Furness Withy & Co., new service to west coast of North America, 55.

## G

Garfield, steamship:  
   Drydocked, 442.  
   Salvaging of, 393, 408.  
   Sailing of, 453.

Gas, trial installation in Canal Zone, 360.  
 Gasoline storage, capacity of tanks, 644.  
 Gatun Lake, water level, 511.  
 Government vessels using Canal in 1921, statistics of, 18.  
 Grain shipments, 77.  
 Guano, cargo of, 39.

## H

HAMBURG-AMERICAN Line, new service, 297.  
*Hanna, W. J.*, steamship, assisted by tug *Gorgona*, 447.  
   Towed into Balboa, 455.  
 Hides, reduced rate on, 337.  
 Holiday greetings, 259.  
 Honey, bids invited for supplying, 408.  
 Hotel Aspinwall reopened under private management, 19.  
 Hotels Tivoli and Washington offered for lease, 361, 491.  
 Hydrographic information, how distributed, 462.  
*Hwah Ping*, steamship, inaugurates Chungwah Navigation Company's service, 83.

## I

INCOME tax receipts, 239.  
 Information concerning Canal, how furnished, 283.  
 Injury compensation, 602.  
*Iowan*, steamship, fire on, 439.  
 Italian shipping, analysis of, 1921, 128.

## J

JAPANESE training squadron, visit of, 137, 590, 641.

## K

*Kennecott*, motor ship, passes through Canal with cargo of raisins, 38.  
*Killerig*, tug, assists steamship *Derblay*, 487.

## L

LAND for agricultural purposes, 258.  
 Landslide near Pacora, 288.  
 Launches, rates for hire of, 207.  
 Length, draft, and beam statistics, 86, 334.  
 Liquor, supplying of, to ships, 610.  
 Lithographic prints of Canal and Panama, 289.  
 Lloyds' surveyor, appointment of, 590.  
 Loading records, heavy, 507, 603.  
 Lock operations—*See* Governor's monthly reports.  
 Logs, bids invited for native, 304, 312, 336, 344.  
*Lompoc*, steamship, three transits in one month, 590.  
 Lumber, freight rates to South America reduced, 77.  
 Lumber prices, 454, 566.  
 Lumber shipments, 236, 535.  
 Lumber trade, growth of, 305.

## M

MARINERS—*See* Notices to Mariners.  
*Marore*, steamship, carries record cargo, 611.  
 Material and supplies, stock of, to be reduced, 541.

Measurement rules, difficulties of dual system, 491.

Medical storehouse transferred, 281.

Memorial to French canal builders, 437.

Milk, powdered, shipment of, 153.

Motorships, 61.

Motor vehicle statistics, 406.

Municipal Engineering—See Governor's monthly reports.

## N

NARCOTIC Drugs Act, 631.

Nationality statistics by fiscal years to 1921, 69.

Nationality of vessels, 1921, 399.

Nationality, traffic by—See Governor's monthly report.

Naval Academy, arrival of practice squadron, 556.

Nitrate trade:

Decline of, 535.

Recovery of, 54.

Notaries public, list of, 592.

Notices of interest to shipping, distribution of, 255, 312, 344, 368, 392.

Notices to mariners, 6, 38, 126, 197, 202, 207, 210, 244, 287, 291, 405, 436, 442, 445, 497, 503, 511, 512, 530, 538, 546, 557, 582, 583, 590, 600, 603, 608, 627, 639.

## O

*Olockson*, steamship, reported sold, 4.

Oil:

Damaged, returned from Orient, 644.

Diesel and fuel, current prices, 76, 92, 120, 122, 132, 156, 184, 206, 214, 238, 298, 312, 344, 392, 400, 414, 454, 486, 505, 514, 541, 594, 634, 647, 648.

Charges for pumping, 122.

Record shipment of, 644.

Shipments, decrease of, 61.

Storage, capacity of tanks, 644.

Tankers—See Tankers.

Operation and maintenance, expenses of, 133.

Orchids for Ancon Hospital garden, 366.

Oxygen tank explosion at Balboa shops, 591.

## P

PACIFIC coast:

Cargo from, 463.

Growth of trade with, 202.

Increasing shipments from, 479.

Pacific Mail Steamship Co., coastwise service, 46, 635.

Panama Canal:

Information concerning, 487, 504.

Facilities of, 492, 505, 514, 542.

## Commercial Traffic Passing Through the Panama Canal During the First Seven Years of its Operation.

The Panama Canal completed seven years of operation at the close of business on August 14, 1921, having been opened to commerce on August 15, 1914. During the seven years of operation the total number of commercial vessels which made the transit through the Canal was 13,416. The aggregate net tonnage of these vessels, according to the rules of measurement of The Panama Canal, was 45,869,942. The cargo which they carried totaled 51,578,920 tons of 2,240 pounds.

The foregoing traffic was made up of 6,388 vessels, of 21,933,325 net tons, carrying 22,215,402 tons of cargo, from the Atlantic to the Pacific, and 7,028 vessels, of 23,936,617 net tons, carrying 29,363,518 tons of cargo, from the Pacific to the Atlantic.

---

### Oil Tanker Carries Whole Cargo of Wheat.

The oil tanker *Swiftwind*, operated by C. D. Mallory & Co., is being used for the carriage of grain in bulk. The *Swiftwind* passed through the Canal on August 10 on her maiden voyage, laden with 10,034 tons of wheat, shipped from Portland, via San Francisco, to Spezia, Italy, via Norfolk.

The vessel is of 8,207 tons gross and 5,092 tons net register, 465 feet in length by 60 feet beam, and was drawing 25 feet of water at time of transit. Her cargo of 10,034 tons was in the proportion of 1.97 tons, or approximately 71 bushels per net ton of cargo space. The space of 71 bushels is about 76 cubic feet. As the net ton contains 100 cubic feet, the cargo space was approximately 76 per cent, or three-fourths, filled.

---

### From the Mountains of Virginia Through the Panama Canal.

A Canal employee, recently returned from a vacation spent in the United States, has written to THE PANAMA CANAL RECORD:

I visited a town in the upper reaches of the Shenandoah Valley of Virginia. A rural town. Primarily the trading center for one of the rich farming counties of "the granary of the South."

The town has a tannery, two flour mills, and the incubator factory. This last is an old sash and door factory, adapted to the manufacture of giant incubators. Giant incubators are used for the hatching, in 9,000 and 12,000 batches, of the day-old chicks that are now shipped all over the country by parcels post and retailed in the 5 and 10-cent stores.

On the platform of the incubator factory was a "unit," crated and addressed for shipment. Addressed to a firm in Los Angeles, Cal., by way of Baltimore and the Panama Canal.

Obviously it was remarked that the world is a small place, after all. And I reflected that the Canal's good uses are penetrating into our "hinterland."

The president of the company told me they have an order for New Zealand, which will also go by way of the Canal. He says the rate to California is about half the all-rail rate.

# MOVEMENTS OF OCEAN VESSELS. Week ending at midnight, August 13, 1921.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

| Ship.                     | Arrived at port. |       | Entered Canal. |       | Completed transit. |       | Cleared for sea. |       | Nationality. | Line.                            | Length. | Beam. | Salt water draft. | From—         | For—           | Cargo.           |                  | Panama Canal tonnage. |

Continued on page 8, column 2

### **The "Renaico" to Sail for Norfolk and European Ports.**

The steamship *Renaico* of the South American Steamship Co. (Chilean Line) is due to sail from Cristobal for Norfolk on August 18. She is on a voyage from Valparaiso to Norfolk, Havre, London, Antwerp, and Hamburg, carrying passengers and cargo. The *Renaico* has been plying between Valparaiso and New York, and the present voyage is in the expectation of developing better trade out of the European ports.

The company offers a reduced rate of \$70 for first-class transportation from Cristobal to Norfolk for employees of The Panama Canal and the Panama Railroad Company; to others the first-cabin rate is \$100. The *Renaico* is of 5,919 gross tons, 431 feet in length by 51 feet beam. She was built at Sunderland in 1898 and was formerly the *Nippon Maru*.

### **Trinidad Ships Sugar to Vancouver.**

Two thousand tons of sugar for Vancouver, B. C., from Port of Spain, Trinidad, made up the cargo of the steamship *Canadian Traveller*, passing through the Canal on August 3.

Port of Spain is 1,159 nautical miles from the Atlantic end of the Canal, and Vancouver is 4,032 miles from the Pacific end.

### **Coal for Bunkering at San Juan, Porto Rico.**

The Executive Secretary of the Government of Porto Rico advises that the port of San Juan, P. R., has on hand now approximately 6,500 tons of coal, available for bunkering vessels moving to or from the Canal. The price is not stated. He also reports that a local coal company has advised that it will add to its equipment in the near future a new barge of 1,000 tons capacity, "which will put them in position to bunker vessels at a rate of 300 tons of coal per hour."

San Juan is 993 nautical miles from Cristobal.

### **The "Olockson" Reported Sold.**

The Shipping Board steamship *Olockson* is reported sold to D. J. Hanlon, in a recent issue of *Nauticus*. No price was stated.

The *Olockson* caught fire on March 13, 1920, beyond Cape Mala, after passing through the Canal. She was towed back to the outer harbor at Balboa by the tug *Gorgona*, and sunk in order to extinguish the fire. After the ship was raised and her cargo discharged, a survey led to the decision that she was not worth rebuilding. She was then towed to anchorage in the outer harbor and has been there since. No advice of her sale has been received by the Canal authorities.

### **Coal at St. Lucia.**

The agent of the Royal Mail Steam Packet Company states that he has received cable advice from a coaling company at St. Lucia, B. W. I., to the effect that its stock of coal is 2,400 tons, the total stock in port being 8,500 tons. The price, effective August 1, is 77 shillings per ton.

### **Executive Order.—Authorizing the Requirement of Crew Lists.**

Amending the provisions of the Executive Order of August 8, 1918, concerning travel between the United States and neighboring countries, and authorizing the requirement of crew lists.

By virtue of the authority vested in me by the Act of Congress approved the twenty-second day of May, one thousand, nine hundred and eighteen,<sup>2</sup> entitled, "An Act to Prevent in Time of War Departure From and Entry into the United

States Contrary to Public Safety," and with reference to the Presidential Proclamation and Executive Order of August eight, one thousand, nine hundred and eighteen, adopted in pursuance thereof, I hereby prescribe the following amendments to said Executive Order:

\* \* \* \* \*

### III—CREW LISTS.

1. Masters of vessels of all nationalities sailing for a port of the United States of America or of any of its possessions, except the Panama Canal Zone, must submit for visa a list of all of the alien members of the vessel's crew to the American consular officer at the port from which the vessel commences its voyage. If there is no American consular officer stationed at that port, the crew list should be submitted at the first port of call (if the vessel touches at any other port) where an American consular officer is located. This does not refer to consular agents, who are not authorized to visa crew lists.

2. When a vessel sails from a port where no American Consul is stationed, but which is within a few hours reach by mail of an American Consulate, so that unreasonable delay and serious loss would not result from referring the crew list to such Consulate, it should be referred thereto for visa.

3. If an alien seaman whose name is not included in a visaed crew list arrives at a port of the United States he shall not be allowed to land except upon the permission of the Secretary of State.

WARREN G. HARDING.

THE WHITE HOUSE,  
June 25, 1921.

<sup>1</sup> 175 pounds.

<sup>2</sup> No cargo laded.

#### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended August 13:

Steamship *Buckeye State*, roll tubes in one boiler; repair blower engine and feed pumps; *Hampton Roads*, repair blower engine and anchor; *Apus*, braze 4 patches on leaky copper deck exhaust expansion bend.

#### PREVIOUSLY REPORTED.

Steamship *Panama*, reboiling and general overhaul to machinery and hull; steamer *Gen. George W. Getty*, miscellaneous engineer's department and hull repairs; U. S. subchaser *V-12*, docking and general repairs to hull and machinery; tug *Coco Solo*, manufacture 3 eccentric rods for generators and electric weld back end of boilers; launches *P-1*, rebuilding of hull; *Pacific*, general repairs to hull; mine planter *Graham*, docking and miscellaneous repairs; steamship *Cristobal*, miscellaneous deck, steward's, and engineer's department repairs; dredge *Paraíso*, docking and hull repairs.

The following vessels were at the Cristobal shops for repairs during the week ended August 13:

Steamships *Advance*, *Achilles*, *Cristobal*, *Allianca*, and *Ulysses*, miscellaneous repairs and painting to engine, deck and steward departments; U. S. S. *Eagle No. 31*, dock and undock, clean and paint bottom, overhaul sea valves and zincs, repair 4 mud drum casings, build up holes for pins in planetary gear pins; turn small end of pin down  $\frac{1}{8}$ " smaller than bearing, assemble reduction gear; unship old tail shaft, fit and install new, lining same up from reduction gear aft; steamship *Salvador*, cast and machine 2 winch cylinders as per sample; tug *Favorite*, repair towing engine; steamships *Balboa*, dock and undock, clean and paint, take up lost motion in valve gear, steering engine, manufacture and install liners on sides of low pressure slide valve main engine and take up lateral play, repair sea suction valve, aft circulating pumps, manufacture 4 ash pit doors, drill holes in stanchions under upper bridge and install pins as directed, etc.; U. S. S. *Eagle No. 4*, renew brick work in boilers, etc.; Steamships *Cartago*, *Yalza*, and motor ship *Scotia Maiden*, minor repairs.

#### PREVIOUSLY REPORTED.

Steamship *Caribbean*, miscellaneous repairs, including dry-docking; motor ship *Satoe*, general overhauling including dry-docking; barge *No. 117*, renew plates, etc.; U. S. S. *Forse*, miscellaneous repairs including dry-docking; barge *No. 19*, renew plates, etc.; motor ship *Lima*, general overhauling, including dry-docking.

### Notice to Mariners.—Speed of Vessels in Canal.

THE PANAMA CANAL, BALBOA HEIGHTS, C. Z., August 8, 1921.

CIRCULAR No. 643-91 (Superseding Circular No. 643-70.):

1. By virtue of the authority conferred on me by Paragraph 102 of the Executive Order of July 9, 1914, establishing Rules and Regulations for the Operation and Navigation of the Panama Canal and Approaches thereto, including all waters under its jurisdiction, vessels transiting the Panama Canal hereafter shall not exceed the following speeds:

|                                             | Knots per hour. |
|---------------------------------------------|-----------------|
| Colon to Gatun Locks.....                   | 6               |
| Gatun Lake, in the 1,000-foot channels..... | 15              |
| Gatun Lake, in the 800-foot channels.....   | 12              |

|                                           | Knots per hour. |
|-------------------------------------------|-----------------|
| Gatun Lake, in the 500-foot channels..... | 10              |
| Rounding Bohio and Darien Bends.....      | 6               |
| Gaillard Cut:                             |                 |

|                                                           |   |
|-----------------------------------------------------------|---|
| Straight Reaches: Vessels 250 feet or more in length..... | 6 |
| Vessels less than 250 feet in length.....                 | 8 |

Rounding Bends: (all vessels) Slowest speed at which steerageway can be maintained.

#### Miraflores Lake:

Slowest speed at which steerageway can be maintained.

Vessels 360 feet or less in length and less than 20 feet draft shall not cross Miraflores Lake in less than 10 minutes.

Larger vessels shall not cross Miraflores Lake in less than 15 minutes.

Vessels of exceptional size or displacement shall not cross Miraflores Lake in less than 20 minutes.

|                                                    |   |
|----------------------------------------------------|---|
| Miraflores Locks to Pacific entrance to Canal..... | 6 |
| Entering or leaving port.....                      | 6 |

2. Increase to 8 knots in speed in Gaillard Cut, in the case of vessels less than 250 feet long, does not alter the obligation imposed by regulations upon all vessels to reduce to lowest speed at which vessel can be steered, on occasion of approaching and passing vessels underway in narrow reaches, or vessels or other floating equipment when tied up, or under other circumstances, where a higher speed might introduce risk of damage.

JAY J. MORROW,  
Governor.

### Civil Service Examinations.

The following examinations are announced by the United States Civil Service Commission. Bulletins giving details of the examinations for positions for which there are likely to be a number of qualified persons on the Isthmus are posted at Canal post offices and clubhouses. In cases where such announcements are not posted, persons interested may obtain data on application to the Board of Civil Service Examiners, Balboa Heights, C. Z. (telephone 286).

Computer (male and female); \$1,400 to \$2,000 a year; form 1312; announcement No. 323; age below 55 years; vacancies in Coast and Geodetic Survey, Washington, D. C., or Manila, P. I., September 21, 1921.

Die and tool maker (male and female); \$6.25 per diem; form 1800; announcement No. 362; age, 20 but not 50 years; vacancies in equipment shops, Post Office Department, Washington, D. C., August 30, 1921.

Lithographic draftsman (male and female); \$1,400 a year; form 1312; age, 18 but not 55 years; vacancies in Hydrographic Office, Navy Department, Washington, D. C., September 13, 1921.

Marine engineer (motor) (male and female); \$140 a month; form 1312; announcement No. 363; age, 25 but not 50 years; vacancies in Coast and Geodetic Survey, Seattle, Wash., August 30, 1921.

Production engineer (male and female); \$9.76 per diem; form 1312; announcement No. 361; age, 23 but not 55 years; vacancies in hot metal division, Naval Ordnance Plant, South Charleston, W. Va., August 30, 1921.

Silviculturist, \$3,000 to \$3,840 a year; associate silviculturist, \$2,400 to \$2,880 a year; assistant silviculturist, \$1,800 to \$2,280 a year (male and female); forms 1312 and 2118; age, 25 but not 45 years; vacancies in Forest Service, Department of Agriculture, September 13, 1921.

<sup>1</sup>Nonassembled. Date given for nonassembled examinations is the last day for filing applications and they must be in the hands of the Commission at Washington prior to the hour of closing business on that date.

### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Name.                       | Check No. | Native of—     | Isthmian residence. | Employed by—          | Date of death.  |

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.  
PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter, February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., August 24, 1921.

No. 2.

## Important Reductions in Charges at 1,000-foot Dry Dock.

Substantial reductions in the charges for dry-docking in the 1,000-foot dry dock at Balboa have been made effective August 15. The new rates are contained in Supplement No. 1 to Tariff No. 5, which is published in this issue.

The most important rates established by the new order are for docking and undocking, and for each lay day. These are levied on the gross tonnage of merchant steamers and Army and Navy transports, colliers, hospital ships and supply ships; on the net tonnage of merchant sailing vessels; and on the actual displacement tonnage of warships which are ordinarily measured in displacement tonnage. For each of the classes the previous charge for docking and undocking was 25 cents per ton; and the charge for each lay day was 15 cents per ton. These rates have been reduced, respectively, to 15 cents and 12 cents. In the charge for docking and undocking the new rate is 60 per cent of the old. For each lay day the new rate is 80 per cent of the old.

The charge "for docking and undocking," 15 cents per ton, covers the two operations of docking and undocking in the one rate; the charge is not levied twice, once for docking and again for undocking, but both are included in the one charge.

The establishment of the new rates indicates a change of policy, in basing the charges at the Balboa dry dock on customary rates in commercial dry docks on the Atlantic, rather than on rates at Pacific docks, as heretofore.

## Population of the Canal Zone.

A survey of the population of the Canal Zone, made by the police between June 10 and June 30, 1921, resulted as follows:

|                       | AMERICANS. |                 |              |                 |                | ALL OTHERS. |                 |              |                 |                | Total. |

| When the dock is pumped for the exclusive benefit of one vessel and is occupied by a single vessel—                                |                    |        |
| For docking and undocking.....                                                                                                     | (*)                | 75.00  |
| For lay days.....                                                                                                                  | 150.00             | 45.00  |
| (*) At Balboa, the minimum charge for docking days is the actual cost of docking and undocking calculated in the following manner: |                    |        |

## 1. Rates.—Continued.

Minimum charges.—Continued.

Docked alone—

(The actual cost of labor of docking and undocking, plus the prevailing division surcharge, the cost of unusual material used and \$150 for the use of the dry dock) plus 10 per cent, The Panama Canal surcharge.

NOTE—The \$150 per day for the use of the Balboa dry dock covers the cost of power and labor for operating the dry dock pumps and the depreciation and maintenance of the pumping plant and all other dry dock structures and equipment except the 50-ton dry dock crane, for which an additional charge is made at rates fixed under Item 9 of this tariff or supplements thereto.

Docked with other vessels:

At Balboa—

*Docking days*—When a vessel is docked with one or more other vessels, the minimum charge for docking days is the actual cost for docking and undocking as shown above, except that the \$150 per day for use of dry dock will be equally divided on the basis of the number of small vessels docked, regardless of their tonnage or valuation.

*Lay days*—The regular rate per ton for lay days will apply except in those instances in which the ship's tonnage multiplied by the regular rate fails to cover the ship's pro rata share of the \$150 flat rate for the use of the dry dock.

At Cristobal—

When a vessel, whose tonnage is below the amount which at regular rates would equal less than the minimum rate above, is docked with one or more vessels:

|                                |         |
|--------------------------------|---------|
| For docking and undocking..... | \$60.00 |
| For lay days.....              | 30.00   |

12. The rates for docking and undocking cover the use of floats, staging horses, stage planking, staging lines, trestles, scrapers, brushes, etc., for use in connection with cleaning and painting the vessel or making repairs. The cost of work performed in rigging staging, etc., except as described in the following paragraph will be charged for at the regular rates.
13. No charge will be made for the services of dry dock cranes in connection with preparing the dock, the handling and arranging of ordinary blocks, shoring, gangways, or brows or similar work in connection with the actual docking or undocking, or for handling trestles and staging in connection with cleaning and painting underwater bodies of vessels.
14. Services of the dry dock crane not covered in the foregoing paragraph will be charged for at the regular rate per hour or fraction thereof provided for in Item 9 of this tariff or supplements thereto.
15. Shores, blocks, staging, or other dock equipment damaged or destroyed by the ship or her crew, except as a result of fair wear and tear, will be charged at regular rates.
16. Any unusual expense involved in docking a vessel will be charged against the vessel.
17. Vessels lying at wharves solely for the purposes of waiting to enter dock will not be charged wharfage.

JAY J. MORROW,

Governor, The Panama Canal.

President, Panama Railroad Company.

**Government Vessels Which Pay No Tolls.**

Noncommercial Traffic Through The Panama Canal During Fiscal Year 1921.

The following is a statement of government vessels, other than Canal equipment, passing through the Panama Canal free of tolls,

during the fiscal year 1921. In the tonnage figures here shown, Panama Canal net tonnage is given on colliers, tankers, transports, cargo, and supply ships, and displacement tonnage on battleships, cruisers, destroyers, minelayers, etc., where the Panama Canal net tonnage is not ascertainable. There is no duplication of tonnage figures.

None of the vessels included in this statement paid tolls, but a computation has been made showing the amount of tolls these vessels would have paid, if they had been assessed at commercial rates:

| ATLANTIC TO PACIFIC. |               |                   |                |              | PACIFIC TO ATLANTIC.   |               |                   |                |              |                        |

| Tons of cargo carried by government vessels..... | 443,033              | 10,736               | 453,769      |

<sup>1</sup> Tolls were not charged; figures indicate amounts collectible if tolls had been levied.

### Rates for Cable Messages to Cartagena.

The All-America Cables, Inc., announces a rate of 23 cents per word on commercial messages from stations on the Isthmus to Cartagena, Colombia, effective August 17. The rate for official messages of the United States Government is 13 cents per word. The rate had previously been 30 cents per word for both commercial and Government messages.

### Reopening of the Hotel Aspinwall, Taboga.

The Hotel Aspinwall, on Taboga Island, which was closed on July 1 on account of not being self-sustaining, has been leased for 3 years, beginning September 1, and will be reopened on or about that date. The lessee is Mr. James A. Malloy, at present manager of the Strangers Club, in Colon.

The Panama Canal has sought to retain the hotel in operation as a recreational resort for its employees. This has been provided in paragraphs 4 and 5 of the conditions of lease, which stipulate a 20 per cent reduction in rates for Canal, Panama Railroad, and Army and Navy employees, and that the hotel be operated in accordance with the sanitary regulations in effect in the Canal Zone and "in a manner to attract the patronage of employees of the Canal and the military organizations previously referred to."

## Official Circulars.

### Closing of Corozal Road.

THE PANAMA CANAL,  
EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., August 15, 1921.

To all concerned—Effective September 1, 1921, that part of the road leading from Corozal to the Bull Ring in the city of Panama, which lies in the Canal Zone and which is known as Corozal Road, will be closed to all except the official traffic of the Canal and the Army. Heads of Divisions and Departments should advise the Municipal Engineer how many keys to the gates to be placed on said road, will be needed to take care of such of their official transportation as is required to use this road.

JAY J. MORROW,  
Governor.

### Trains Omitted on September 4 and 5.

PANAMA RAILROAD COMPANY,  
OFFICE OF THE MASTER OF TRANSPORTATION,  
BALBOA HEIGHTS, C. Z., August 12, 1921.  
CIRCULAR No. 1867.

To all concerned—On account of Monday, September 5, 1921, being a legal holiday, No. 102 of Sunday, September 4, and local freights, Monday, September 5, will not run.

W. J. BISSELL,  
Acting Master of Transportation.

Approved:

S. W. HEALD,  
Superintendent.

### Hogs For Sale.

The following hog stock is offered for sale, f.o.b. the Margarita hog farm:

6 grade boars, three-quarters Duroc, 1 year old.

14 grade boars, bred from three-quarters Duroc sow and full-blooded Hampshire boars, from 3 to 6 months old.

3 boars, seven-eighths Duroc, 4 to 5 months old.

For further information inquire at the Cattle Industry office in Cristobal.

### Eggs for Setting.

For a limited period only purchases of eggs for setting may be made at the Summit poultry farm at the following prices:

White Leghorn or Rhode Island Red, per setting of 15 eggs, \$3; two settings, or 30 eggs, \$5.50. All sales f. o. b. Summit.

### Empty Barrels and Packing Cases For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10" dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pan canal, Panama;" in the United States, "Pan canal, Washington."

## CANAL WORK IN JULY.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of July, 1921:

BALBOA HEIGHTS, C. Z., August 20, 1921.

*The Honorable, the Secretary of War,*

*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of July, 1921.

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds through The Panama Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                            | July,<br>1921. | June,<br>1921. | July,<br>1920. |
|--------------------------------------------|----------------|----------------|----------------|
| Commercial vessels.....                    | 206            | 193            | 225            |
| United States Government vessels.....      | 23             | 33             | 26             |
| Panama Government vessels.....             | 5              |                |                |
| Launches (under 10 tons).....              | 3              | 3              | 3              |
| Total vessels and craft through Canal..... | 237            | 229            | 254            |

### COMMERCIAL TRAFFIC.<sup>1</sup>

A comparison of the commercial traffic for July, 1921, with that of the preceding month, of the corresponding month of 1920, and of the average month's traffic for the past 12 months, shows the following:

|                                           | July, 1921.  | June, 1921.  | July, 1920.  | Average per<br>month for past<br>year. |
|-------------------------------------------|--------------|--------------|--------------|----------------------------------------|
| United States equivalent net tonnage..... | 652,439      | 613,894      | 705,643      | 774,222                                |
| Panama Canal net tonnage.....             | 810,613      | 761,477      | 856,798      | 947,474                                |
| Registered gross tonnage.....             | 1,022,802    | 960,857      | 1,109,079    | 1,203,011                              |
| Registered net tonnage.....               | 650,368      | 610,491      | 702,951      | 765,555                                |
| Tolls earned.....                         | \$804,503.11 | \$751,964.12 | \$842,312.05 | \$936,590.08                           |
| Tons of cargo carried.....                | 708,982      | 694,720      | 886,814      | 951,838                                |

Ocean-going commercial vessels passing through the Panama Canal averaged 6.67 ships per day. The average tonnage, tolls, and tons of cargo carried, per commercial vessel, as compared with last month's traffic, were as follows:

| Average per vessel.                       | July, 1921. | June, 1921. |
|-------------------------------------------|-------------|-------------|
| United States equivalent net tonnage..... | 3,167       | 3,197       |
| Panama Canal net tonnage.....             | 3,935       | 3,965       |
| Registered gross tonnage.....             | 4,965       | 5,004       |
| Registered net tonnage.....               | 3,157       | 3,180       |
| Tolls.....                                | \$3,995.35  | \$3,703.95  |
| Tons of cargo (all vessels).....          | 3,441       | 3,618       |
| Tons of cargo (laden vessels only).....   | 3,961       | 3,970       |

<sup>1</sup> NOTE.—Commercial traffic includes all vessels of 10 tons or more transiting the Panama Canal, with the exception of vessels owned by the United States Government, or chartered by the Government to carry Government supplies.

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

While all cargo-carrying vessels pay tolls on their net tonnage, as determined by established rules for measuring their available cargo-carrying space, yet the rate of such tolls per cargo ton furnishes interesting data, varying as it does not only in different ships, but in vessels of different nationalities.

The average rate of tolls paid on each ton (2,240 pounds) of cargo passing through the Panama Canal from the Atlantic to the Pacific was \$1.44 and from the Pacific to the Atlantic \$0.83 per ton, with a general average of \$1.03 per ton. The average rate paid per cargo ton, by nationality of vessels, is shown in the following statement:

|                                         | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|-----------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                            | \$1.53                     | \$0.96                     | \$1.10              |
| Chilean.....                            | 5.39                       | 6.48                       | 6.07                |
| Danish.....                             | 1.54                       | .57                        | .81                 |
| Dutch.....                              | 1.81                       | .66                        | .97                 |
| French.....                             | 22.18                      | 1.31                       | 2.32                |
| Italian.....                            | 5.62                       | 2.69                       | 3.28                |
| Japanese.....                           | 1.06                       | .75                        | .92                 |
| Mexican.....                            | 11.64                      | .....                      | 11.61               |
| Norwegian.....                          | 1.04                       | 1.48                       | 1.10                |
| Peruvian.....                           | 5.12                       | 1.08                       | 1.58                |
| Swedish.....                            | 1.28                       | .53                        | .62                 |
| United States.....                      | 1.40                       | .75                        | .96                 |
| Average rate all ships, July, 1921..... | 1.44                       | .83                        | 1.05                |
| Average rate all ships, June, 1921..... | 1.11                       | .93                        | 1.02                |
| Average rate all ships, May, 1921.....  | 1.06                       | .89                        | .97                 |

The difference in the rate of tolls paid per cargo ton, by vessels of various nationalities is due to some vessels being but lightly loaded while others are carrying capacity cargoes. This also accounts for the variation in the rates per cargo ton as between northbound and southbound cargo for ships of the same nationality.

The lowest rate of tolls paid per cargo ton by any vessel passing through the Panama Canal during the month of July, 1921, was paid by the steamship *Willfaro*, United States registry, bound from Portland, Oreg., to Charleston, S. C., and carrying 8,255 tons of canned goods, lumber, copper metal, and general cargo, on which tolls of \$4,160.00 were assessed, or a rate of 50.3 cents per cargo ton.

## COMMODITY STATISTICS.

A classification of all cargo passing through the Panama Canal, by commodities, giving the origin and destination of the same, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of August 24, 1921. A brief summary of the principal items is shown herewith:

## CARGO PASSING FROM ATLANTIC TO PACIFIC.

| Commodity.             | Cargo<br>tons. | Per cent of total cargo. |            |
|------------------------|----------------|--------------------------|------------|
|                        |                | This month               | Last month |
| Manufactured goods:    |                |                          |            |
| Iron and steel.....    | 52,574         | 28.7                     | 20.7       |

## UNITED STATES SHIPPING BOARD VESSELS.

The number of vessels under control of the United States Shipping Board passing through the Panama Canal during the month of July, 1921, together with their Panama Canal net tonnage, tolls, and tons of cargo carried, as compared with preceding months of the calendar year, was as follows:

|               | Atlantic to Pacific. |                    |             |                | Pacific to Atlantic. |                    |             |                |
|---------------|----------------------|--------------------|-------------|----------------|----------------------|--------------------|-------------|----------------|
|               | No. of ships.        | P. C. Net tonnage. | Tolls.      | Tons of cargo. | No. of ships.        | P. C. net tonnage. | Tolls.      | Tons of cargo. |
| 1921.         |                      |                    |             |                |                      |                    |             |                |
| January.....  | 14                   | 59,738             | \$64,769.85 | 70,058         | 23                   | 96,877             | \$93,268.29 | 98,075         |
| February..... | 8                    | 41,024             | 42,951.75   | 35,018         | 20                   | 96,441             | 94,032.01   | 103,285        |
| March.....    | 18                   | 94,823             | 96,782.80   | 83,978         | 8                    | 34,066             | 31,378.00   | 30,025         |
| April.....    | 13                   | 61,176             | 61,590.00   | 60,231         | 12                   | 56,049             | 53,162.18   | 52,908         |
| May.....      | 9                    | 39,614             | 40,180.00   | 48,489         | 21                   | 97,257             | 92,380.47   | 114,107        |
| June.....     | 17                   | 86,361             | 78,770.14   | 65,945         | 11                   | 49,370             | 48,080.00   | 59,696         |
| July.....     | 12                   | 67,851             | 65,796.25   | 29,918         | 12                   | 60,804             | 61,305.00   | 82,767         |

In addition to the above, 2 vessels under control of the United States Shipping Board, passed through the Panama Canal carrying Government supplies, combining a Panama Canal net tonnage of 8,968 and carrying 13,793 tons of cargo.

## TRAFFIC BY TRADE ROUTES.

Statements attached to this report show the origin and destination of all cargo passing through the Panama Canal as accurately as the same can be segregated from the cargo declarations submitted by the ship's masters (*see* pages 40 and 41). Below is given a summary of the traffic passing over the principal trade routes, showing the number of vessels, their Panama Canal net measurement, and the amount of cargo carried. The vessels shown as in ballast represent cargo-carrying vessels only; warships, tugs, yachts, etc., not being included as "ballast."

| Trade routes.                                                   | Total vessels. |                           |                  | Vessels in ballast. |                           |

<sup>1</sup> Including 4 trawlers<sup>2</sup> Including cargo-carrying ships in ballast.<sup>3</sup> Laden vessels only.

CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.<sup>1</sup>

The following statement shows the tonnage of, and amount of cargo carried by United States Government vessels passing through the Panama Canal during the month of July, 1921. This traffic passes through the Panama Canal free of tolls; if tolls had been assessed against these vessels, however, at commercial rates, the amounts collected would have been as indicated below.

In this statement is also included the number and tonnage of launches transiting the Canal, together with tolls collected thereon. Although paying tolls they are included in the noncommercial traffic, being small nonseagoing vessels of under 10 tons measurement.

## METEOROLOGY AND HYDROGRAPHY.

The rainfall for the month of July, 1921, was above normal everywhere except over the northern part of the Pacific section, the Pequení branch of the Chagres Valley, the upper Trinidad arm of Gatun Lake and the Atlantic coast. Totals ranged from 4.32 inches at Taboga to 20.71 inches at the Chilibrillo station. The greatest amount of precipitation recorded on any 1 day was 3.29 inches at Monte Lirio on the 16th. The estimated rainfall over Gatun Lake watershed area was 13.31 inches, as compared with an 11-year mean of 11.55 inches; while over the Chagres River watershed area above Alhajuela it was 13.92 inches, as compared with a 20-year mean of 14.81 inches.

The discharge of the Chagres River at Alhajuela was 2,547 c. f. s., being 10 per cent below the 20-year July mean of 2,840 c. f. s., and furnished 37 per cent of the Gatun Lake total yield. The maximum momentary discharge was 13,700 c. f. s. at elevation 98.19 feet on the 7th, and the minimum discharge was 1,400 c. f. s. There were 2 rises of 5 feet or over at Alhajuela during the month.

The Gatun Lake watershed total yield for the month was 6,902 c. f. s., being 1 per cent above the 11-year July mean of 6,862 c. f. s. The maximum total yield for the month of July, of record, was 10,967 c. f. s. in 1915; while the minimum total yield was 2,677 c. f. s. in 1914. The net yield for the month was 6,454 c. f. s. The lake varied in elevation from 84.27 feet on the 1st to 86.42 feet on the 31st, an increase in elevation of 2.15 feet, with an increase in storage of 9.75 billion cubic feet, which is the second largest month of storage accumulation on record, having been exceeded in July, 1920, with 12.57 billion cubic feet.

The draft on the lake for lockages and power was 2,123 c. f. s. as compared with 2,140 c. f. s. for last month, and 2,295 c. f. s. for July, 1920. The ratio of water expended for power and lockages was 2.61 to 1. Four spillway operations were made at Gatun during the month.

The Gamboa pumping plant and the Brazos Brook reservoir drew 39.2 and 38.5 millions of cubic feet, respectively, from the lake.

Miraflores Lake varied in elevation from 51.80 feet to 54.00 feet, and ended at elevation 53.78 feet, midnight, the 31st. Sixteen spillway operations were made at the Miraflores spillway during the month.

No seismic tremors were recorded during the month.

Temperature records for the month of July are given below:

|                     | Maximum. | Minimum. | Monthly mean. |
|---------------------|----------|----------|---------------|
| Balboa Heights..... | 91       | 70       | 80.5          |
| Gamboa.....         | 92       | 69       | 79.8          |
| Alhajuela.....      | 91       | 67       | 78.8          |
| Gatun.....          | 88       | 73       | 80.2          |
| Coleon.....         | 89       | 72       | 80.8          |

The following gives a comparison of the monthly rainfall by sections for July, 1920, and July, 1921:

| Section.      | Rainfall.      |                | Rainy days. |       |
|---------------|----------------|----------------|-------------|-------|
|               | 1921.          | 1920.          | 1921.       | 1920. |
|               | <i>Inches.</i> | <i>Inches.</i> |             |       |
| Pacific.....  | 7.93           | 9.09           | 19          | 22    |
| Central.....  | 14.10          | 15.01          | 26          | 25    |
| Atlantic..... | 12.42          | 16.83          | 28          | 26    |

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in comparative form in the following tabulation:

|                                                                                | July, 1921.   | June, 1921.   | July, 1920.   |
|--------------------------------------------------------------------------------|---------------|---------------|---------------|
| Gross output, KWH:                                                             |               |               |               |
| Gatun hydroelectric station.....                                               | 5,541,100     | 5,294,930     | 5,994,290     |
| Miraflores steam plant.....                                                    | 500           | 7,750         | 15,330        |
| Combined gross output.....                                                     | 5,541,600     | 5,302,680     | 6,009,620     |
| Water consumption..... cubic feet..                                            | 4,110,077,816 | 4,168,884,000 | 4,438,210,000 |
| Oil consumption..... barrels..                                                 | 2,006         | 1,990         | 2,125         |
| Power distributed to consumers..... KWH..                                      | 4,601,656     | 4,404,350     | 4,948,356     |
| Loss of power in plant auxiliaries, transmission and transformation..... KWH.. | 939,944       | 898,300       | 1,061,174     |
| Per cent of loss of power to gross output.....                                 | 17.00         | 16.94         | 17.65         |

Miscellaneous repairs and installations of electrical equipment were made on 49 vessels during the month, 23 at Cristobal and 26 at Balboa. There were 429 work orders issued for work to be performed by the Electrical Division during the month of July, as compared with 437 for June.

The following new construction work was under progress during the month, with completion on July 31, as shown:

|                                                                                            | Per cent completed. |          |
|--------------------------------------------------------------------------------------------|---------------------|----------|
|                                                                                            | June 30.            | July 31. |
| Installation of new 8,400 KVA transformer and new tie-line equipment at Gatun substation.. | 70                  | 75       |
| Installation of 2 complete feeder equipments at the Balboa substation.....                 | 95                  | 95       |
| Extension of new underground distribution in New Cristobal.....                            | 99                  | 100      |
| Installation of electrical equipment at hydroelectric station.....                         | 45                  | 50       |

#### SHOP, FOUNDRY AND DRY DOCK WORK.

At the Balboa shops, miscellaneous repairs were made on 25 vessels, 6 of which were placed in dry dock. The more important repair work consisted of the following:

The steamship *Panama* was dry-docked for reboiling and general overhaul, including the renewal of a considerable amount of steel work in her hull. After the work was well under way, it was interrupted on July 23 until a decision could be reached by the Secretary of War as to whether to proceed with the repairs, or secure another Government vessel to replace the *Panama*. On July 30, word was received to proceed with the work, but owing to the extremely limited funds available, it will be possible to carry out only the most needed repairs on the vessel, in addition to renewing the boilers.

The French cruiser *Jules Michelet* was placed in dry dock and temporary repairs were made to the damaged portion of her hull to insure water-tightness until permanent repairs can be made. The damage to her hull was just below the junction of the protective deck with the shell, where the steel work is somewhat complicated, rendering permanent repairs awkward to such an extent that they could not be made within the limited time available.

Repairs to the submarine *R-25* were completed during the month. After the main motors had been removed from the *R-24*, a cable was received from the United States, announcing the decision of the Navy Department to repair the motors of the *R*-type submarines in the United States, and directing the replacing of the motors for departure of the vessel. The motors were replaced and the remaining work on the vessel completed. The above decision of the Navy Department applies to all of the *R*-type submarines in this vicinity.

In addition to not receiving the repair work on the various *R*-boats, the steamship *Katrina Luckenbach*, which at one time promised to develop a fair-sized job on her turbines, was towed to the United States for repairs at the builders' works. The order to suspend work on the steamship *Panama* came on top of this, so that it became necessary, on half an hour's notice, to furlough about one-half of the employees of the Balboa plant until a decision could be reached on the steamship *Panama*.

At the Cristobal shops, miscellaneous repairs were made on 55 vessels, 7 of which were dry-docked. The more important repair work consisted of the following:

The bearings of both engines of the steamship *Katrina Luckenbach* were opened up for examination, and 2 rotary bearings in the starboard engine and 2 high-speed pinion bearings, starboard engine, were renewed.

The steamship *Cauca* was docked, the bottom cleaned and painted, stern gland packed, sea inlets cleaned, pin hole in tank top welded, and new checks on port boiler fitted.

Two 6-inch cast iron low pressure gate valves, two 6-inch cast iron low pressure elbows, and four 6-inch low pressure screwed pipe flanges were supplied to the steamship *Solano*.

The installation of bulwarks on port and starboard sides, caulking of bulkheads between Nos. 1 and 2 tanks, and overhauling of main engines and other miscellaneous repairs were started on the motor ship *Linda*.

The tug *Tavernilla* was docked and the bottom cleaned and painted; boat deck was caulked, grooves in towing bitts aft electric welded, rudder removed, and shaft trued up and bushing and gland renewed.

The output of the Mechanical Division in patterns, castings, and foundry production for July, 1921, as compared with the preceding month, was as follows:

|            | July, 1921. |           |         | June, 1921. |           |         |
|------------|-------------|-----------|---------|-------------|-----------|---------|
|            | Patterns.   | Castings. | Pounds. | Patterns.   | Castings. | Pounds. |
| Iron.....  | 10          | 872       | 57,596  | 7           | 339       | 40,608  |
| Steel..... | 7           | 51        | 38,813  | 2           | 451       | 57,302  |
| Brass..... | 10          | 442       | 8,279   | 25          | 1,271     | 22,341  |

The routine inspection, hostling, and repair of equipment for the Panama Railroad Company was carried on during the month. Five hundred and twenty-seven job orders were completed during the month, with 230 remaining incomplected on July 31.

#### DREDGING DIVISION.

The movement of material over Cucaracha Slide continued during the month, but at a much slower rate than during the preceding month. A dipper dredge worked 10 days in front of this slide, removing in that time 44,150 cubic yards of material. Since February 22, 1920, 2,737,050 cubic yards of material have been removed from this slide.

A general movement occurred in the afternoon of July 14, 1921, in an old slide, on the east side of Gaillard Cut, one-half mile north of Culebra Slide and opposite the large repair station, carrying a mass of earth and rock into the Canal, amounting to about 185,000 cubic yards. This slide caused such shoaling in the Canal that a channel only 120 feet wide and 30 feet deep along the west bank was available for the passage of vessels. Two dipper dredges worked the remainder of the month in front of this slide, removing 149,450 cubic yards of material. No serious inconvenience to canal traffic and only a few hours' delay to vessels were occasioned by this slide, and no further movement has occurred since the above date.

The total excavation in July, including earth and rock, was 451,700 cubic yards, as follows:

| Cubic yards. | Classified as— |         | Character of work. | Stations.                                                               | Equipment.       |
|--------------|----------------|---------|--------------------|-------------------------------------------------------------------------|------------------|
|              | Earth.         | Rock.   |                    |                                                                         |                  |

\* Including employees of former Building Division.

#### VITAL STATISTICS.

A total of 180 deaths occurred during the month of July, 1921, among the population of the Canal Zone and the cities of Panama and Colon, giving an annual death rate of 17.27 per thousand. Of the total deaths, 10 were due to external causes.

Of the above deaths, 76, or 42 per cent, occurred among children under 5 years of age.

The leading causes of death were pneumonia, tuberculosis, and diarrhea and enteritis.

There were 15 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

Three hundred and nine live births were reported during the month and 17 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 31.28 per thousand population. Deaths among children under 1 year of age numbered 59, giving an infant mortality rate, based on the number of births reported for the month, of 190.94 per thousand.

One hundred and fifty-three cases of malaria were reported during the month, divided as follows: 24 employees, 89 soldiers, and 40 nonemployees; of these, 38 were contracted outside the Canal Zone.

There were 6 cases of typhoid fever reported, 3 in Panama, 2 in the Canal Zone, and 1 nonresident. There was 1 death, a white American employee, from typhoid fever. There were 3 cases of smallpox reported and no deaths.

#### RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, and cash sales from stock, as compared with the preceding month, and the corresponding month of last year, were as follows:

|                                                                                  | July, 1921.  | June, 1921.  | July, 1920.  |
|----------------------------------------------------------------------------------|--------------|--------------|--------------|
| Material received on U. S. requisitions during the month, chargeable as follows: |              |              |              |
| Operation and Maintenance.....                                                   | \$233,899.82 | \$398,824.99 | \$665,453.81 |
| Construction and equipment.....                                                  | 286.40       | 7,743.71     | 44,986.77    |
| Miscellaneous departments.....                                                   | 9,434.67     | 18,099.09    | 25,250.89    |
| Totals.....                                                                      | 243,618.89   | 424,667.79   | 745,691.47   |

Respectfully,

JAY J. MORROW,  
Governor.

### Shipment of Raisins on Motor Ship "Kennebecott."

In her passage through the Canal on August 20, en route from San Francisco to New York, the motor ship *Kennebecott* carried 350 tons of dried raisins. This shipment was made by the California Associated Raisin Company on the motor ship for the purpose of testing this means of transportation, and the traffic manager of the company was quoted in the *Shipping Register* of San Francisco as saying that he anticipated it would be entirely satisfactory. In an article on the shipment the periodical makes the following comparison of the costs of shipping raisins from Fresno to Atlantic seaboard cities by rail and by ship through the Canal:

"FRESNO TO ATLANTIC SEABOARD CITIES.

|                                               | Per<br>100<br>pounds. | Per car<br>of 30 tons. |
|-----------------------------------------------|-----------------------|------------------------|
| Present all-rail rate.....                    | \$1.66½               | \$1,029 09             |
| War tax.....                                  | .05                   |                        |
|                                               | 1.71½                 |                        |
| Proposed all-rail rate.....                   | 1.25                  | 774 00                 |
| War tax.....                                  | .04                   |                        |
|                                               | 1.29                  |                        |
| Present water rate:                           |                       |                        |
| Fresno to San Francisco.....                  | .35                   | 600 00                 |
| San Francisco to Atlantic ports.....          | .55                   |                        |
| War tax, unloading, insurance, and tolls..... | .10                   |                        |
|                                               | 1.00                  |                        |

"Thus it appears that shippers of dried fruit are saving at the present time \$129 per car of 30 tons, and the saving to shippers via the Canal even after the railroads cut their transcontinental rate on dried fruits to \$1.25 will still amount to \$174 per car. When it is considered that California's dried fruit output reaches into thousands of cars annually, the saving is almost staggering. The actual saving on the 350 tons on the *Kennebecott* is \$4,719."

### Notice to Mariners.—Bocas del Toro Anchorage.

THE PANAMA CANAL, BALBOA HEIGHTS, C. Z., August 25, 1921.

CIRCULAR NO. 643-92:

The master of the steamship *Metapan* reports under date of August 23, that "Pillar Tree," a land mark shown on all charts by which anchorage in Bocas del Toro is made, is no longer visible, having either been blown down or fallen from decay. Owing to dangerous reefs at this point, caution should be exercised when anchoring.

JAY J. MORROW,  
Governor.

**Projected Pacific-European Service of American-Hawaiian Line.—Increased Coastwise Sailings.**

The *Shipping Register* of San Francisco, published in its issue of August 6 the following statement from Williams, Dimond & Company, Pacific Coast agents for the American-Hawaiian Steamship Company, operated by the United American Lines:

"The American-Hawaiian Steamship Company, operated by the United American Lines, will begin a fortnightly service between the Pacific Coast and Europe with American-Hawaiian steamers, commencing in October with the sailing of the *Alaskan*. A regular schedule will be published as soon as possible. This schedule will be even closer than that of the European-Pacific Line, now operated on this coast by Williams, Dimond & Company.

"Beginning in September, there will be a weekly service from New York to the Pacific Coast by steamers of the American-Hawaiian Steamship Company. This service will include a fortnightly service from Philadelphia to the Pacific Coast, and the fortnightly sailings from Boston to the Pacific Coast will be continued.

"A regular service between all Pacific Coast ports of the United States and ports of the Atlantic seaboard of the United States and also with European ports will be maintained. Westbound from New York there will be a sailing every week to the Pacific Coast, every 2 weeks from Boston, and every 2 weeks from Philadelphia. Eastbound from the Pacific Coast, there will be a sailing every 2 weeks to Atlantic ports and to Europe.

"The American-Hawaiian Steamship Company has 16 large freighters which it has ready to put on this service. In addition, it has placed orders for the two largest American-built motor ships now under construction at the Merchant's Shipbuilding Company, in Bristol, Pa. These will be of 10,500 deadweight ton capacity, and will be powered with Burmeister-Wain Diesel engines."

---

**Three Men in 28-foot Yawl Arrive from New York.**

The *Hippocampus*, a 28-foot auxiliary yawl which reached the Canal recently from New York, by way of Cuban and Jamaican ports, will lie in Gatun Lake until next March or April, when her owner will set out for west coast ports as far as Puget Sound. Her owner and master is Mr. Alfred F. Loomis, associate editor of a motor-boating magazine, who has been voyaging with two companions, Messrs. Paul Squib and John A. Chambers, for the pleasure of the thing and to obtain material for stories. They were 3½ months coming from New York, and as winter would be on them before they could complete their voyage at the leisurely rate they had planned, the yawl will be tied up at the Canal through the winter.

The *Hippocampus* travels ordinarily under sail, but is equipped with a 10-horsepower gasoline motor, with which she can make about 5 knots in calm weather.

---

**Cable Line to San Juan, Porto Rico.**

The All-America Cables, Inc., announces the opening, on August 29, of their new cable from Guantanamo Bay, Cuba, to San Juan and Ponce, Porto Rico. This gives direct cable communication to San Juan and Ponce from the Canal Zone and the United States, as the company's line between Cristobal and New York touches at Guantanamo.

---

**Cargo of Guano from Ocean Island.**

The steamship *Hokkai Maru*, passing through the Canal on August 2, carried a full cargo of guano, amounting to 5,450 tons, consigned to an English port.

Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, July, 1921.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the two weeks ended August 27:

Steamships *Depere*, electric-weld broken portion of crosshead nut wrench and reinforce wrench by building up on both sides of handle with electric-welding; *Rakuyo Maru*, manufacture 40 white metal rings for compressor gland of freezer; tug *Empire*, fit one swivel and repair worm gear of towing machine; straighten and overhaul 2 lifeboat davits, and straighten railing aft of lifeboat; steamship *Solana*, dock, stage, and clean and paint bottom; repair hull where damaged; repair sea valves; clean strainers; examine pintles and gudgeons; straighten 4 propeller blades; repack stern gland; repair piston rod stuffing box; repair broken dynamo engine cylinder head; manufacture miscellaneous parts for engineer's department; calk entire boat deck, and renew stern zincs; tug *Gorgona*, furnish air; repair condenser; connect up bilge and repair brine pump; inspect and repair furnaces; launch *Santa Rita*, renew sternpost and refit stern bearing support casting; repair keel and refit skeg casting; renew after-end of shoe; U. S. S. *Dolphin*, dock, stage, and clean and paint bottom; overhaul sea valves and renew zincs; steamship *Cape Henry*, renew burned ceiling in athwartship coal bunker and clean out bilges; paint tank top; barge *No. 13*, dock, stage, and clean and paint bottom; calk tank seams.

#### PREVIOUSLY REPORTED.

Steamship *Gen. George W. Getty*, miscellaneous engineer's department and hull repairs; tug *Coco Solo*, install new engine; mine planter *Graham*, docking and miscellaneous repairs; launch *P-1*, rebuilding of hull; dredge *Paraiso*, docking and hull repairs; launch *Pacific*, general repairs to hull; steamship *Panama*, reboiling and general overhaul to machinery and hull; tug *Empire*, repair towing machine, lifeboat davits and railing.

The following vessels were at the Cristobal shops for repairs during the two weeks ended August 29:

Steamships *Colon*, miscellaneous repairs and painting to engine, deck and steward departments; *West Isleta*, manufactured, fitted and installed piston rod, complete for main air pump, drilled holes at ends of cracks in bottom of pump cylinder and fitted and installed copper patches over same; manufactured 9 sets of pump valves as sample; manufactured 2 piston rings for H. P. cylinder; U. S. S. *Owl*, repaired pipe for cooling water to distiller, repaired coil for feed water heater, manufactured 2 valve stems for main circulating engine, manufactured 1 valve stem and 1 valve rod for main air pump, trued up crosshead pins, main air pump, etc.; claret *No. 7*, docked and undocked, cleaned and painted bottom, ground in sea valves, renewed bottom uptake; manufactured 2 ash pit doors, repaired whistle valve, patched hull, repaired pipes in boilers; steamship *Killerig*, docked and undocked, cleaned and painted, renewed zincs around stern; barge *No. 2*, docked and undocked, cleaned and painted bottom, repaired hull; steamships *Woron*, *Ucayali*, *St. Andre*, *Steel Worker*, *Tolosa*, and *South American*, minor repairs; *San Juan*, remake joint between H. P. and L. P. cylinders; grind in bottom relief valve from L. P. cylinder main engine; repair fresh water pump in galley; overhaul atmosphere exhaust valve; repair pipe, gents' toilet; repair baker's scales; renew evaporator flow line overboard; repair grease extractor, revolution counter, and cargo winch; U. S. Jr. M. P. *Nones*, get out awnings, seats, awning stanchions, jack stays, ridge poles, sockets, etc.; steamships *Romulas*, renew valves and face valve seats as directed; open H. P. cylinder for examination; *Hampton Roads*, repair valves; steamships *Balboa*, *Venezuela*, *Haiti*, *Heredia*, *Acajulla*, *Harold Walker*, bark *Golden Gate*, motor schooners *Catherine R* and *Laura C. Hall*, minor repairs.

#### PREVIOUSLY REPORTED.

U. S. S. *Eagle No. 31*, overhaul sea valves and zincs, etc.; U. S. S. *Eagle No. 4*, renew brickwork in boilers, etc.; motor ship *Satoe*, general overhauling, including dry-docking; barge *No. 117*, renew plates, etc.; U. S. S. *Forse*, miscellaneous repairs including dry-docking; barge *No. 19*, renew plates, etc.; claret *No. 7*, dock and undock, miscellaneous repairs.

#### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Whole Cargo of Phosphates from Nauru and Banaba Islands.

The steamship *Keelung*, which passed through the Canal on August 26, was laden with 6,650 tons of phosphates which she had taken on at Nauru and Banaba (Ocean) Islands for the United Kingdom. The *Keelung* had sailed from Adelaide for the islands, which lie to the north-east of Australia, to secure her homeward cargo.

### Pullman Reservations Out of New York.

Mr. J. B. Scott, General Eastern Passenger Agent of the Baltimore and Ohio Railroad Company, 1270 Broadway, New York City, has advised the Executive Office that he will honor any requests he may receive by letter or wire from Panama Canal or Panama Railroad employees for Pullman reservations over the Baltimore and Ohio lines out of New York. If requested, one of the system's steamship passenger agents will meet the ship to notify passengers of the reservations made, and otherwise facilitate arrangements.

### Reduction in Cable Rates to Buenaventura and Cartagena.

The All-America Cables, Inc., has announced a further reduction in the rates for cable messages from the Isthmus for Buenaventura and Cartagena, Colombia, effective August 27. The new rates are 20 cents per word on commercial messages and 10 cents per word on United States Government messages.

### Executive Order.

**To Amend the "Rules and Regulations for the Operation and Navigation of the Panama Canal and Approaches Thereto, Including all Waters under its Jurisdiction."**

I. By virtue of the authority vested in me under the Panama Canal Act, paragraphs 40, 186, and 195 of the "Rules and Regulations for the Operation and Navigation of the Panama Canal and Approaches Thereto, Including all Waters Under its Jurisdiction," promulgated by the Executive Order of July 9, 1914, are hereby amended to read as follows:

"40. As soon as radio communication can be established with the Canal, vessels should report their names, nationality, length, draft, tonnage, whether or not they desire to pass through the Canal, require coal, provisions, supplies, repairs, to go alongside of a wharf, the use of tugs, probable time of arrival, length of stay in port, or any other matters of importance or interest. If this information has been previously communicated, through agents or otherwise, to the Captain of the Port, it will not be necessary to report by radio; but the probable time of arrival should always be sent to the Captain of the Port."

"186. Steamers while within a harbor must take all precautions to avoid the issue of sparks or excessive smoke. Vessels will be held liable for all damage resulting from neglect of this rule."

"195. All privately owned boats of every description, except those propelled in whole or in part by machinery, shall be registered and numbered; those propelled in whole or in part by machinery shall be registered and certificated. Until these requirements have been complied with, no privately owned craft may operate in Canal Zone waters."

II. This order shall take effect from and after this date.

WARREN G. HARDING.

THE WHITE HOUSE,  
July 27, 1921.

(No. 3522.)

The Executive Order above has been published as Panama Canal Circular No. 601-124.

### **Pacific Mail Steamship Company's New Coastwise Passenger Service.**

With the sailing of the steamer *Ecuador* from San Francisco for Baltimore on September 15, the Pacific Mail Steamship Company's San Francisco-Baltimore passenger service will have become regularly established with 3 passenger ships.

In this new service, the Pacific Mail will operate, in addition to the *Ecuador*, the *Colombia* and the *Venezuela*. These last two steamers are already on the new run. It is the endeavor of the company to maintain sailings approximately every 25 days.

The 3 vessels, until recently, have been in the trans-Pacific service and were made available for this new run when the United States Shipping Board turned over various "State" type steamers for the trans-Pacific service.

On this new express service from San Francisco to Baltimore, the ports of call are: Los Angeles Harbor, Manzanillo, San Jose de Guatemala, La Libertad, Corinto, Balboa, Cristobal; Kingston, Jamaica; Habana, Cuba; and Baltimore. The itinerary of the voyage from Baltimore to San Francisco is in the reverse order with the exception that calls at Kingston will only be made when the trade warrants.

The expected times to be made in this service are as follows: From San Francisco to Balboa, 15 days; from Cristobal to Baltimore, 10 days.

With the establishment of Pacific Mail Co.'s passenger service, there are now two coastwise passenger lines through the Canal, as the Matson Navigation Company has a monthly service plying also between San Francisco and Baltimore.

### Dogs from the Isthmus Subject to Quarantine at United States Ports.

The Health Department has been notified by the Bureau of Animal Industry of the United States Department of Agriculture that dogs from the Isthmus are subject to quarantine detention before being allowed to enter the United States. This is primarily on account of ticks. All dogs are subject to inspection by an inspector of the Bureau who may, in his discretion, require that any dogs, except the smaller breeds classed as house dogs, be placed in quarantine or subjected to treatment designed to prevent their introducing communicable diseases.

The ports of entry for such dogs are those designated as quarantine stations for the Bureau. On the Atlantic Coast they are Boston, New York, and Baltimore; on the Pacific, San Francisco, Los Angeles, and San Diego.

### Deceased and Insane Employees.

The estates of the following deceased or insane employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

### Passenger Train Service—Fort Randolph Branch.

PANAMA RAILROAD COMPANY,  
OFFICE OF MASTER OF TRANSPORTATION,  
BALBOA HEIGHTS, C. Z., August 29, 1921.

CIRCULAR NO. 1879:

To all concerned—Effective with the close of business Wednesday, August 31, the present Fort

Randolph branch scheduled passenger trains will be discontinued.

Effective Thursday, September 1, and daily thereafter until new timetable No. 34 becomes effective, extra passenger trains will be run on the Fort Randolph branch with respect to the following time at all points where shown.

## American Shipping and the Panama Canal.\*

During the fiscal year 1921, in spite of the world-wide depression, which resulted in the laying up of hundreds of ships, a new high record for American tonnage was established at the Panama Canal. The number of American ships making the transit was 1,212 out of a total for all nations of 2,892. These figures do not include vessels of the United States Navy or other Government-owned or chartered vessels not engaged in commercial service and exempt from the payment of tolls. The aggregate net tonnage of these 1,212 vessels, measured according to Panama Canal rules, was 4,874,477, and they carried 5,179,350 tons of cargo. The nearest competitor of the United States in Canal traffic was Great Britain with 970 vessels of 3,965,613 net tons, carrying 3,721,932 tons of cargo. American vessels carried 45 per cent of all the cargo passing through the Canal, and British vessels 32 per cent. The continuous increase of American shipping, using the Canal since it was first opened to navigation in August, 1914, is shown by the following table:

| Fiscal year. | Atlantic to Pacific. | Pacific to Atlantic. | Total. |
|--------------|----------------------|----------------------|--------|
| 1915 .....   | 231                  | 239                  | 470    |
| 1916 .....   | 114                  | 124                  | 238    |
| 1917 .....   | 198                  | 266                  | 464    |
| 1918 .....   | 224                  | 404                  | 628    |
| 1919 .....   | 268                  | 518                  | 786    |
| 1920 .....   | 493                  | 636                  | 1,129  |
| 1921 .....   | 581                  | 631                  | 1,212  |

The low figures for the fiscal year 1916 are accounted for by the circumstance that the Canal was closed to navigation by slides in the Gaillard Cut from September 18, 1915, to April 15, 1916. Subsequently the traffic was adversely affected by the war. Since the armistice it has grown rapidly and continuously.

The 1921 traffic moved over the trade routes shown in the following table:

AMERICAN SHIPPING USING THE PANAMA CANAL DURING THE FISCAL YEAR 1921; SEGREGATION BY TRADE ROUTES.

|                                                                  | Ships. | Cargo tons. |

| West coast of North America to east coast of South America..... | 3      | 18,941      |
| Miscellaneous trade routes, Atlantic to Pacific.....            | 20     | 37,842      |
| Miscellaneous trade routes, Pacific to Atlantic.....            | 41     | 123,338     |
| Totals.....                                                     | 1,212  | 5,179,350   |

Included under "Miscellaneous Trade Routes" in the tabulated statement above are voyages between the West Indies and the west coast of North America, the West Indies and the west coast of South America, the United States and Central America, Cuba and the Far East, the Far East and Europe, the west coast of South America and Europe, the west coast of North America and South Africa and local vessel movements.

#### THE COASTWISE TRADE.

The most important American trade through the Canal is that from coast to coast, with a cargo tonnage of 1,399,814 carried in 323 vessels. The history of this trade is peculiar. In the first fractional year of Canal traffic (August 15, 1914, to June 30, 1915) it engaged 335 vessels carrying 1,846,658 tons of cargo. During the following year the Canal was closed for 7 months, and in the interval the vessels which had maintained a coastwise service were diverted to war trades in the North Atlantic, where they remained until the close of the war and during the era of high freight rates which followed it. It was only after the slump set in that serious attention was once more given to the development of the trade from coast to coast. It is now growing rapidly, but the figures for 1921, although they show a notable increase over those for 1920 and other recent years, still fall short of the record set in 1915. It is reasonable to assume that if the war had not arrested its normal development the coastwise trade would be far more important than it now is, and that it is capable of great expansion. An interesting and widely advertised feature of the traffic this year was the shipment to eastern markets by sea of a portion of the north-western apple crop and the California orange crop. There was also a notable increase of lumber shipments from the Pacific Coast.

## COMPETITIVE TRADE ROUTES.

The coastwise trade is an American monopoly; but in the other trades served by the Canal, American ships are in competition with the ships of foreign nations, particularly Great Britain, Japan, and Norway. In the important trade between Europe and Australasia American vessels did not figure at all, and in the trade between Europe and the west coast of South America only 4 American vessels passed the Canal, all northbound, with 31,800 tons of cargo. In the oil trade between the Mexican fields and the west coast of South America American tankers carried 296,342 tons out of a total 654,659 tons. With this single exception the trades in which American vessels secured any considerable tonnage had the United States either as origin or destination.

In the trade between Atlantic and Gulf ports of the United States and the west coast of South America the total southbound cargo was 933,261 tons. Of this, American vessels carried 45 per cent, British vessels 15 per cent, Japanese vessels 12 per cent, and Norwegian vessels 7 per cent. Although the trade of other nations has not yet been analyzed in detail, it is probable that the remaining 21 per cent was carried in Chilean and Peruvian bottoms. The northbound cargo aggregated 975,597 tons. American vessels carried 64 per cent of the total, British vessels 14 per cent, Norwegian 10 per cent, and Japanese approximately 5 per cent.

In the trade between Europe and the west coast of North America there is a great preponderance of eastbound cargo. Of this, American vessels carried 55 per cent, British vessels 26 per cent, and Norwegian vessels 4 per cent. Swedish, Danish, and Dutch vessels were also operating over this route, and probably account for most of the remaining 15 per cent. Of the westbound cargo, which was relatively unimportant, American vessels carried 27 per cent, British 14 per cent, and Norwegian 13 per cent.

Of cargo moving from Atlantic and Gulf ports to the Far East, American vessels carried 41 per cent, British vessels 29 per cent, and Japanese vessels 27 per cent. Of cargo moving from the Far East to Atlantic and Gulf ports American vessels carried 32 per cent, Japanese 38 per cent, and British 23 per cent.

In the trade between the United States and Australia, British vessels had a decided advantage, carrying 71 per cent of the total outward bound cargo as against only 14 per cent in American bottoms. Of cargo moving over this route in the opposite direction American vessels carried 56 per cent and British vessels 44 per cent.

Of oil shipments from the Mexican fields to the Pacific Coast north and south of Panama, American vessels carried 60 per cent, and British and Norwegian vessels shared the remainder.

## PRINCIPAL AMERICAN LINES.

The United States Shipping Board owned 451 of the 1,212 American vessels which used the Canal in 1921. The more important private owners were: Standard Oil Co. with 128 vessels; W. R. Grace & Co., 94; Pacific Mail Steamship Co., 84; United States Steel Products Co., 53; Panama Railroad Steamship Line, 50; Luckenbach Line, 37; American-Hawaiian Line, 33; Union Oil Co., 25; Standard Transportation Co., 12; Crowell & Thurlow, 12; Robert Dollar Co., 11.

\* Other than ships passing through the Canal.

### August Traffic Highest for Any Month Since March.

Commercial traffic through the Panama Canal in the month of August was greater than it had been during any month since March, 1921. The month of March established a high record in tonnage of vessels and tolls earned; but in the months following March there was a distinct decline, a part of the general business and marine depression over the world.

The extent of this decline in the Canal traffic, and of the recovery in August, is indicated in the following summary of the traffic through the Canal in the past six months:

| 1921.       | Number of ships. | Panama Canal net tonnage. | Registered gross tonnage. | Tolls.         | Tons of cargo. |
|-------------|------------------|---------------------------|---------------------------|----------------|----------------|
| March.....  | 255              | 1,112,818                 | 1,417,220                 | \$1,105,536.55 | 1,084,563      |
| April.....  | 227              | 955,503                   | 1,203,087                 | 927,977.09     | 907,613        |
| May.....    | 210              | 864,617                   | 1,092,602                 | 835,882.77     | 792,735        |
| June.....   | 192              | 761,477                   | 960,857                   | 751,964.12     | 694,720        |
| July.....   | 206              | 810,613                   | 1,022,802                 | 804,503.11     | 708,982        |
| August..... | 236              | 965,276                   | 1,219,817                 | 955,380.78     | 839,273        |

In June, 1921, the tolls were lower than they had been for any month for a year preceding; in June, 1920, the tolls amounted to \$711,159.19, and they have never since been less than that. In tons of cargo carried through the Canal, June, 1921, was the lowest month since November, 1919, when the aggregate cargo was 575,480. July showed a distinct increase, and the traffic in August was about as great as that in October and November of last year.

On the basis of the number of commercial ships making the transit, the traffic in August, 236 ships, was less than the average per month during the fiscal year ending June 30, 1921, in which 2,892 vessels made the transit, an average of 241 per month. The vessels in August, however, were more than the average per month for any other period of 12 months since the opening of the Canal. The month of most ships and greatest quantity of cargo in the history of the Canal was January, 1921, with 279 commercial vessels and 1,177,052 tons of cargo.

March, 1921, exceeded January in tonnage of vessels and in the tolls earned.

The increase of August traffic over the preceding months is due in part to the heavy grain shipments from the west coast of the United States and Canada. Out of a total of 120 vessels passing through the Canal from the Atlantic to the Pacific, 44 were bound to ports on the west coast of the United States and Canada, many of them in ballast; and of 116 vessels transiting the Canal from the Pacific to the Atlantic, 51 had sailed from ports of western United States and Canada, carrying principally grain, canned goods, and lumber.

### Nitrate and Coal Cargoes.

In THE PANAMA CANAL RECORD for June 15, 1921, reference was made to the shrinkage of nitrate shipments, which averaged 166,325 tons a month during the calendar year 1920, but declined rapidly from 195,885 tons in January, 1921, to 43,504 tons in May. There was a slight recovery in June, when 58,801 tons passed through the Canal; but in July a new low-water mark was recorded with only 26,051 tons.

Don Alejandro Bertrand, delegate of the Association of Nitrate Producers in Europe, in a report summarized in the *South Pacific Mail* of Valparaíso, submits the following analysis of the situation:

Before 1908 nitrate had but one rival, sulphate of ammonia, with a development very inferior to nitrate. From 1909 to 1913 cyanide and nitrate of calcium began to make their appearance, while at the same time the production of sulphate of ammonia increased much more than that of nitrate. In 1913, in its turn, synthetic ammonia made its appearance, though in a small proportion. In that year nitrate was still dominant.

In 1917 the development of nitrate reached its maximum capacity. Synthetic ammonia was produced to a maximum degree in Germany in 1918. Sulphate of ammonia, extracted from coal, seems to have reached its full development in Germany and the United Kingdom, and especially the United States, while it continues to increase in other countries, notably Australia and Japan. At the present moment the production of chloride of ammonia and other new salts is being encouraged for the purpose of fertilization.

To sum up, nitrate, which represented 56 per cent of the world's total fertilizer production in 1913-1917, has fallen to-day to less than 35 per cent, according to the most favorable calculations, and it seems threatened with a descent to still lower depths in the current year.

If this analysis is correct there would appear to be little reason to expect an early resumption of nitrate shipments on a large scale, especially as importers of nitrate are now overstocked with purchases made at prices higher than current quotations.

The interests of the Panama Canal are affected, not only because nitrate made up one-third of the total northbound cargo in the calendar year 1920, but because the cessation of shipments has had an adverse effect on bulk cargo moving in the opposite direction, notably coal.

Coal shipments to the west coast of South America have declined from 76,157 tons in January, 1921, to 1,664 tons in July. In the same period southbound coal shipments to all destinations have fallen from 110,648 tons to 8,258 tons, for the respective months. After fuel oil, coal has been the most important single commodity moving south through the Canal in bulk. Vessels which carried coal cargoes south usually returned with nitrate, so that the two trades are to a great extent mutually dependent, and the decay of one involves the corresponding decline of the other.

---

#### **Cargo of 7,600 Tons of Pineapples.**

The steamship *Steel Ranger* of the Isthmian Lines (United States Steel Products Co.), bound from Honolulu, via Panapali, passed through the Canal on September 4 with a full cargo of canned pineapples, amounting to 7,600 tons. The pineapples were shipped from Honolulu, and were consigned to Baltimore, Philadelphia, New York, and Boston.

---

#### **Furness, Withy & Company to Operate Monthly Service Between North Pacific Ports and United Kingdom.**

Furness, Withy & Company are to establish a regular service of cargo ships between Pacific Coast ports of Canada and the United States and the United Kingdom. Sailings are to be approximately monthly.

The *Mongolian Prince*, which passed through the Canal on August 30, bound from New York for Vancouver, is due to make the initial homeward voyage in the new service, sailing from Vancouver, via Seattle, Tacoma, and Portland about the end of September.

### Luckenbach Company Establishes Gulf-West Coast Service.

The Luckenbach Steamship Company has established a coastwise service through the Canal between Mobile and New Orleans, on the Atlantic, and Los Angeles, San Francisco, Oakland, Astoria, Portland, Seattle, and Tacoma on the Pacific. Sailings are approximately monthly in each direction. The *Frederick Luckenbach* passed through the Canal on August 11, from New Orleans for Los Angeles; and the *Pleiades*, making the opening voyage from the Pacific, passed through the Canal on August 29, bound for Mobile, via Cuban ports and Savannah.

The service between the Gulf ports and the west coast is separate from the old line between the west coast and New York and Philadelphia, which has sailings in each direction about every three weeks.

---

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended September 3:

Barges *No. 171*, dock, stage, scale bottom, paint bottom to light load line, and repair and renew fenders; *No. 147*, dock, stage, scale bottom, and paint bottom to light load line; *No. 46*, dock, stage, scale bottom, and paint bottom to light load line; *No. 188*, dock, stage, scale bottom, and paint bottom to light load line; tug *Bolivar*, dock, stage, scale bottom, and paint bottom to light load line; steamship *Bogota*, repair main injection valve; dredge *Cascadas*, miscellaneous engine repairs.

#### PREVIOUSLY REPORTED.

Launch *Santa Rita*, renewal of sternpost and repairs to keel; steamship *Solana*, dock, stage, clean, paint bottom, and miscellaneous engineers' and deck department repairs; launch *P-I*, rebuilding of hull; tug *Gorgona*, miscellaneous repairs; launch *Pacific*, general repairs to hull; steamship *Panama*, reboilering and general overhaul to machinery and hull; tug *Coco Solo*, install new engine; U. S. S. *Dolphin*, dock, stage and clean, and paint bottom; calk tank seams.

The following vessels were at the Cristobal shops for repairs during the week ended September 5:

Steamships *Ulysses*, *Allianca*, *Cristobal*, and *General G. W. Goethals*, miscellaneous repairs to engine, deck, and steward departments; *Urubamba*, furnish men to clean in boiler rooms, etc.; *Namasket*, renew gaskets in gear casing caps and all joints where leaking in oil system; renew and refit keys in flywheel of both ice machines, etc.; barge *S*, dock and undock; clean and paint bottom; repair fender where necessary; renew rivets as necessary; tug *Favorite*, make 24 flue plugs as sample and make 2 pad eyes as sample; steamships *Toedjoe*, manufacture and install bulwarks on both sides of ship; fresh water tanks and ice chest to be shifted to make room for officers' mess accommodations; sea valves to be examined and ground in; valve motion gear to be overhauled; main bearings and main engines to be examined and adjusted, etc.; *Varg* and *Tiga*, minor repairs.

#### PREVIOUSLY REPORTED.

U. S. S. *Eagle No. 31*, overhaul sea valves and zincs; motor schooner *Satow*, general overhauling, including dry-docking; claret *No. 7*, miscellaneous repairs including docking; U. S. junior mineplanter *Nones*, manufacturing awnings, stanchions, etc.

---

### Coal Bunkering Prices at Various Ports.

Through the courtesy of Messrs. Willard, Sutherland & Co., the following quotations on bunker coal are published. They are quoted as of August, with the understanding that they are simply an indication of prices current at the time the lists were made up, and are subject to change or withdrawal without notice:

**Coal Bunkering Prices at Foreign Ports as of August 3, 1921.**

Adelaide, 45/6 to 50/6 according to point of delivery.  
 Aden, 90/. Indian and/or South African.  
 Albany, Australia, 55/.  
 Algiers, 60/. Best American or Welsh. 55/ from August 22.  
 Alicante. Upon application.  
 Amsterdam, 29 Fl. Durham coal.  
 Almeria. Upon application.  
 Antwerp, 52/6. Welsh or Saar Valley.  
 Azores, 80/.  
 Bahia, 97/6.  
 Bahia Blanca, 84/.  
 Balboa, \$17.  
 Barbados, 77/.  
 Barcelona. Upon application.  
 Batavia, Fl. 47.50 to 67.50, according to quality and point of delivery.  
 Bermuda, \$15.  
 Bilbao. Upon application.  
 Bombay, Rs. 44/ on April 2.  
 Brake, 67/ to 71/ according to description.  
 Bremen, 67/ to 71/ according to description.  
 Bremerhaven, 67/ to 71/ according to description.  
 Brisbane, Australia, 18/2 to 24/4, according to quality and point of delivery.  
 Brixham, 60/. Denaby coal.  
 Buenos Aires, 80/.  
 Cairns, Australia, 65/.  
 Cape Town, 51/9 to 55/9, according to quality.  
 Cadiz. Upon application.  
 Cardiff, 38/6.  
 Cartagena. Upon application.  
 Colombo, 60/3 to 87/3, according to quality.  
 Colon, \$15.  
 Constantinople, 70/, American; 60/, Turkish.  
 Copenhagen, 65/.  
 Corcubian. Upon application.  
 Corunna. Upon application.  
 Curacao, D. W. I., \$15.75.  
 Dakar, 67/6.  
 Dartmouth-Portland, 57/6. Dominion or North Country coal.  
 Delagoa Bay, 41/6. Screened round coal.  
 Dover, 62/6. Durham.  
 Drontheim. Upon application.  
 Dunkirk, 141 francs.  
 Dublin, 81/ (on July 20).  
 Emden, 67/ to 71/, according to description.  
 Falmouth, 60/.  
 Fowey, 62/6. Welsh (54/ from August 17).  
 Fremantle, 55/.  
 Geestmunde, 67/ to 71/.  
 Gibraltar, 60/ plus 1/ export tax (55/ from August 22).  
 Glasgow, 37/ to 40/, according to quality.  
 Gothenborg, Kr. 65.  
 Grimsby, 45/ to 46/.  
 Hamburg, 53/6.  
 Havre. Upon application.

**Coal Bunkering Prices at United States and Canadian Ports as of August 15, 1921.**

New York, N. Y., \$6.25, Valona coal, f. a. s. ex lighters; \$7.25, Varden coal, f. a. s., ex lighters.  
 Philadelphia, Pa., and Baltimore, Md., \$5.35, Valona coal, f. o. b. under chutes at coal piers; \$5.85, Varden coal, f. o. b. under chutes at coal piers.  
 Newport News, Va., Sewalls Point, Va., and Lamberts Point, Va., \$5.60, pools 1 and 2 or equal f. o. b. under chutes at coal piers.  
 Portland, Me., \$9.50 t. i. b. ex lighters; \$8 t. i. b. alongside suppliers' wharf.  
 Boston, Mass., \$10 t. i. b. ex lighters.  
 Wilmington, N. C., \$11 f. o. b. ex lighters.  
 Charleston, S. C., \$7 f. o. b. piers.  
 Savannah, Ga., \$7 f. o. b. piers.  
 Jacksonville, Fla., \$10.50 t. i. b. alongside suppliers' wharf.  
 Tampa, Fla., \$10.50 t. i. b. alongside suppliers' wharf.  
 Pensacola, Fla., \$5.75 high grade Black Creek, \$5.40 Cahaba, \$5.25 Pratt, f. o. b. and trimmed.  
 Mobile, Ala., \$6 high grade washed Black Creek f. o. b. under chutes.  
 New Orleans, La., \$7.65 Sipsey, \$7 Warrior River, \$6.90 Pratt R/M, t. i. b. ex lighters.  
 Galveston, Tex., \$12 t. i. b. ex lighters alongside Galveston Wharf Co. wharves.

Holtenau. Upon application.  
 Hook of Holland, 28.50 Fl. Durham coal.  
 Huelva. Upon application.  
 Hull, 45/ to 46/.  
 Karachi, 24 rupees.  
 La Plata, 80/.  
 Las Palmas, 66/.  
 Leith, 36/ to 39/.  
 Liverpool, 42/ to 46/.  
 London-Gravesend, 61/. Durham.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., September 14, 1921. No. 5.

## Growth of the United States Coastwise Trade.

The rapid growth of the United States coastwise trade through the Panama Canal during recent months is indicated by a comparison of the statistics for the period of 8 months from January 1 to August 31, 1921, with those for the calendar year 1920.

| Period.                      | Atlantic to Pacific. |             | Pacific to Atlantic. |             | Total. |             |
|------------------------------|----------------------|-------------|----------------------|-------------|--------|-------------|
|                              | Ships.               | Cargo tons. | Ships.               | Cargo tons. | Ships. | Cargo tons. |
| Calendar year 1920.....      | 116                  | 416,819     | 122                  | 644,833     | 238    | 1,061,652   |
| January to August, 1921..... | 141                  | 569,300     | 123                  | 634,203     | 264    | 1,203,503   |

Both the number and ships and the cargo tonnage were greater during the first 8 months of the current year than during the entire year 1920.

## Motor Ships.

The Scandinavian nations, as is well known, have been pioneers in the development of the marine Diesel engine. The East Asiatic Co. (Denmark), the Johnson Line (Sweden), and Fred Olsen & Co. (Norway) all operate motor ships in regular service through the Panama Canal. The great majority of the motor ships using the Canal are under Scandinavian flags.

## Crude Oil Cargoes.

During the calendar year 1920, 828,223 tons of crude oil were shipped from the Mexican oil fields through the Panama Canal to the west coast of North and South America. During the first 6 months of 1921 crude oil shipments aggregated 684,227 tons. This is equivalent to a monthly average of 114,038 tons. But in July the crude oil tonnage dropped suddenly to 14,491, and the August shipments amounted to only 36,454 tons.

It is understood that this sudden decline resulted from the imposition of a higher export tax on Mexican oil, and that rather than pay the tax certain companies have temporarily stopped their shipments.

## Embargo on Alligator Pears.

The Department of Agriculture of the United States has placed an embargo on all shipments of alligator pears from the Canal Zone, from Haiti, from ports in the Caribbean and from Central America, as it is claimed that alligator pears from these localities are subject to plant disease. Shipments from Colombia are not included in this embargo provided they come direct on a bill of lading from ports in Colombia; otherwise they will be considered in the same class as the prohibited shipments.

Persons procuring alligator pears in the prohibited ports while on a voyage to the United States should dispose of them prior to the arrival of the steamer at destination.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, September 10, 1921.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

| Ship.            | Arrived at port. |       | Entered Canal. |       | Completed transit. |       | Cleared for sea. |       | Nationality. | Line.     | Length.                             |       | Salt Beam, water draft. | From— | For— | Cargo. |      | Panama Canal tonnage. |        |        |       |

### Cargo Shipped Through the Canal during Fiscal Year between Principal Trade Areas.

The most important trade route through the Panama Canal in the fiscal year ending June 30, 1921, on the basis of total cargo shipped, was that between the Atlantic coast of the United States and the west coast of South America. Of the total of 11,599,214 tons of goods shipped through the Canal during the year, 1,908,858 tons were moving over this route. This was 16.46 per cent, approximately one-sixth, of the total cargo handled. Shipments from the United States to the west coast of South America were 933,261 tons; and from the west coast to the United States, 975,597 tons.

The heaviest shipments one way over any route, however, were those from the Atlantic coast of the United States to the Far East. They amounted to 1,213,906 tons, over one-tenth of all the cargo handled. But return shipments over this route amounted to only 428,044 tons; the total moving between the areas by way of the Canal was accordingly, 1,641,950 tons, which was less than the total movement between the east coast of the United States and the west coast of South America. The combined United States-Far East cargo movement through the Canal, 1,641,950 tons, was 14.15 per cent, or slightly less than one-seventh of the total cargo passing through the Canal in the period.

United States coastwise traffic was third in importance, in total quantity of cargo handled both ways. The combined shipments amounted to 1,372,388 tons, of which 698,429 tons were shipped from Atlantic to Pacific and 673,959 tons from Pacific to Atlantic. The total was 11.83 per cent, over one-ninth of all cargo carried through the Canal during the year.

The route fourth in quantity of total cargo was that between the west coast of the United States and Europe, and the fifth was that between the west coast of South America and Europe. The figures for these routes, as well as for the others by which cargo was classified, are presented in the following table:

COMMERCIAL TRAFFIC THROUGH THE PANAMA CANAL DURING THE FISCAL YEAR 1921, BOTH WAYS, OVER PRINCIPAL TRADE ROUTES.

| Route.                                                                | Direction. | Number of ships. | Panama Canal net tonnage. | Tons of cargo. |

A. to P.—Atlantic to Pacific. P. to A.—Pacific to Atlantic.

<sup>1</sup> Panama Canal net tonnage unavailable; displacement tonnage aggregated 87,473.

<sup>2</sup> Panama Canal net tonnage unavailable; displacement tonnage aggregated 36,888.

<sup>3</sup> Total displacement tonnage of 124,361.

The preponderance of cargo movement in one direction over some of the routes is striking, notably in the traffic between the Atlantic coast of the United States and the Far East, and between Europe and the west coast of both North and South America. The movements from Atlantic to Pacific, and those from Pacific to Atlantic, are shown separately in order of quantity in the tables following, which also state the percentage of cargo which moved over each route:

COMMERCIAL TRAFFIC THROUGH THE PANAMA CANAL DURING THE FISCAL YEAR, 1921, BY TRADE ROUTES.  
ATLANTIC TO PACIFIC.

|                                                                 | Number of ships. | Panama Canal net tonnage. | Tons cargo. | Percentage of cargo. |                  |
|-----------------------------------------------------------------|------------------|---------------------------|-------------|----------------------|------------------|
|                                                                 |                  |                           |             | Atlantic to Pacific. | Both directions. |

## COMPARISON WITH CALENDAR YEAR 1920.

In the calendar year ending December 31, 1920, the total cargo carried through the Canal was 11,236,119 tons of cargo. The 11,599,214 tons passing through the Canal in the last fiscal year were 363,085 tons more than during the calendar year, a gain of 3.2 per cent.

In the calendar year the leading route was, as in the fiscal year, that between the United States and South America, with a total of 2,341,242 tons; and second place was held by the traffic between the United States and the Far East, aggregating 1,827,913 tons.

Third place, however, which had been held by the traffic between Europe and South America in the calendar year 1920, was taken in the fiscal year by the United States coastwise trade. The Europe-South America traffic decreased from 1,322,623 tons to 1,219,665, while the United States coastwise trade increased from 1,061,652 to 1,372,388 tons. The Europe-South America traffic occupied fifth place in the fiscal year 1921. The fourth place was taken by the trade between Europe and the west coast of the United States, with 1,299,431 tons. The latter route was fifth in the calendar year, with 859,848 tons.

The route between Australasia and Europe occupied sixth place in both the calendar and fiscal years. The tonnage of cargo moving over it in the calendar year was 770,403 tons. For the fiscal year it was 971,593 tons.

## ORIGIN AND DESTINATION OF ALL CARGO.

In connection with the statistics of traffic by trade routes, there has been compiled a briefer, summarizing tabulation (presented on pages 72 and 73) which shows the aggregate quantities shipped from the principal areas and distributed to principal areas.

There is an apparent discrepancy between this tabulation and the trade route tables, in that a greater quantity of cargo is shown as originating in the east coast of the United States, for example, than the sum of the shipments from the east coast of the United States

\* For orders.

\* Displacement tonnage of 36,888; Panama Canal net tonnage unavailable.

shown in the trade route table. This is because certain miscellaneous shipments were not of sufficient quantity to be given a separate trade-route classification. In the case of the shipments from the Atlantic coast of the United States, totaling 3,712,029 tons in the fiscal year, the trade route classifications embraced a total of 3,617,979 tons, shown definitely from the United States to specified areas, and 94,050 tons not routed on any of the classified routes were included as "miscellaneous."

#### ATLANTIC TO PACIFIC.

The summary by origin and destination shows that of a total of 5,892,078 tons of cargo passing through the Canal from Atlantic to Pacific in the fiscal year, 3,712,029 tons, or 63 per cent, originated in the United States; 1,071,782 tons, 18.2 per cent, in Mexico; 545,419 tons, 9.3 per cent, in the British Isles; 262,926 tons, 2.3 per cent, in other parts of Europe, and smaller quantities in other areas.

Of the 5,892,078 tons passing from Atlantic to Pacific, 32.9 per cent went to the west coast of South America, 22.3 per cent to the Far East, 20 per cent to the west coast of the United States, 18.4 per cent to Australasia, and small quantities to the other areas shown in the table.

#### PACIFIC TO ATLANTIC.

The total cargo movement from Pacific to Atlantic during the year amounted to 5,707,136 tons. Of this quantity, 40 per cent originated on the west coast of South America, 34.1 per cent on the west coast of the United States, 12.7 per cent in Australasia, 8.9 per cent in the Far East, and smaller proportions as shown in the table.

Of those 5,707,136 tons from Pacific to Atlantic, 39.4 per cent was destined to the east coast of the United States, 30.9 per cent to the United Kingdom, 19.6 per cent to other parts of Europe; and the remaining 10.1 per cent was distributed as shown.

#### COMBINED ORIGINS.

The total quantity of cargo handled in both directions was 11,599,214 tons. In shipping 3,712,029 tons of that from Atlantic to Pacific and 1,948,848 of that from Pacific to Atlantic, the United States was the country of origin of a total of 5,660,877 tons, or 48.8 per cent, of the total cargo shipped.

South America shipped 2,280,593 tons from her west coast and 27,507 tons from her east coast through the Canal; a total of 2,308,100 tons, or approximately 20 per cent of the aggregate movement.

Canada shipped 39,561 tons through the Canal from her east coast and 125,638 tons from her west coast, aggregating 165,199 tons, or 1.4 per cent of all shipments.

Mexico shipped 1,071,782 tons from her east coast through the Canal, but such shipments as came from her west coast were bulked with those from the west coast of Central America, which amounted to 49,265 tons. Total shipments from Mexico were about 9.4 per cent of the grand total.

No other areas classified sent cargo through the Canal in both directions.

#### RECEIPTS OF CARGO.

With respect to the receipt of the total of 11,599,214 tons which made up the traffic in both directions, the Atlantic coast of the United

States was the destination of 2,248,843 tons and the Pacific coast of 1,176,424 tons, a total of 3,425,267 tons. This was 29.5 per cent of the total handled.

South America received 1,938,542 tons on the west coast, and any receipts on the east coast through the Canal were not classified. South America was the destination of about 16.7 per cent of all the cargo, approximately one-sixth of the total shipments through the Canal.

Canada received 126,414 tons on the west coast and 16,558 tons on the east coast, through the Canal. The total, 142,972 tons, was 1.2 per cent of the total movement. The receipts in Mexico are not classified separately and no other classified areas received cargo from both directions through the Canal.

#### COMBINED SHIPMENTS AND RECEIPTS.

The United States, through originating or receiving cargo (doing both, of course, in the case of the 1,372,388 tons handled in the United States coastwise trade), participated in the handling of 9,086,144 tons. Similarly, South America either shipped or received a total of 4,246,642 tons. Canada was concerned in the handling of 308,171 tons. The total in which Mexico was concerned was 1,071,782 tons, as far as classified.

Of those countries or areas not so situated as to receive cargo passing through the Canal in both directions, the United Kingdom, despatching 545,419 tons and receiving 1,763,431 tons, participated in the handling of a total of 2,308,850 tons through the Canal; other European countries, despatching 262,926 tons and receiving 1,116,115 tons, were interested in a total of 1,379,041 tons. The West Indies shipped 92,667 tons through the Canal and received 136,334 tons, a total of 229,001.

On the Pacific side, shipments to the Far East through the Canal were 1,311,641 tons, and from it, 506,072 tons, a total of 1,817,713 tons. Shipments to Australasia amounted to 1,081,875 tons, and shipments from that area to 726,949 tons, a total of 1,808,824 tons.

Summaries for the lesser areas may be made from the tables.

#### Danish Shipping and the Panama Canal.<sup>1</sup>

Danish shipping through the Panama Canal, like Norwegian, was heaviest during the latter years of the war. During the fiscal year ending June 30, 1918, Danish vessels making the transit numbered 100. In the following year there were 79, and in the year after that only 9. The fiscal year 1921 showed a total of 60 transits. These fluctuations are shown in greater detail in the table below:

| Fiscal year. | Atlantic to Pacific. | Pacific to Atlantic. | Total. |
|--------------|----------------------|----------------------|--------|
| 1915.....    | 10                   | 13                   | 23     |
| 1916.....    | 10                   | 8                    | 18     |
| 1917.....    | 26                   | 17                   | 43     |
| 1918.....    | 44                   | 56                   | 100    |
| 1919.....    | 37                   | 42                   | 79     |
| 1920.....    | 4                    | 5                    | 9      |
| 1921.....    | 28                   | 32                   | 60     |
| Totals.....  | 159                  | 173                  | 332    |

<sup>1</sup> This is the fifth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, and Norwegian shipping.

The majority of the 60 Danish vessels passing the Canal during the past year were either in the trade between Europe and the Pacific coast of North America or in the trade between the Atlantic coast of the United States and the west coast of South America. However, there were a few ships in other trades. An exact analysis shows the following:

DANISH SHIPPING USING THE PANAMA CANAL DURING THE FISCAL YEAR, 1921; SEGREGATION BY TRADE ROUTES.

|                                                                 | Vessels. | Cargo tons. |
|-----------------------------------------------------------------|----------|-------------|
| East coast of United States to west coast of South America..... | 14       | 73,902      |
| West coast of South America to east coast of United States..... | 7        | 41,563      |
| Europe to west coast of South America.....                      | 4        | 14,481      |
| West coast of South America to Europe.....                      | 9        | 46,275      |
| Europe to west coast of North America.....                      | 8        | 14,481      |
| West coast of North America to Europe.....                      | 9        | 73,392      |
| East coast of United States to Balboa.....                      | 1        | 5,532       |
| Far East to Europe.....                                         | 4        | 35,493      |
| Australasia to Europe.....                                      | 2        | 15,895      |
| West coast of South America to West Indies.....                 | 1        | 945         |
| East coast of United States to west coast of United States..... | 1        |             |
| Totals.....                                                     | 60       | 322,059     |

\* Total includes 1 vessel in ballast.

The 14 vessels southbound from the United States to the west coast of South America and the 1 vessel from the United States to Balboa all carried coal from Chesapeake Bay, and the 7 vessels northbound from South America to the United States carried nitrate cargoes. Five of the 9 vessels northbound from South America to Europe also carried nitrate cargoes. Two vessels from the Pacific coast of North America carried wheat. There was 1 cargo of wheat and beans from the Far East, and 1 of wheat and copra from Australasia. All other cargoes were reported as general.

The following Danish owners were represented: East Asiatic Co., with 24 transits; Orient Steamship Co., 11; United Steamship Co., 10; A. P. Moller, 6; C. K. Hansen, 4; Atlanterhavet Steamship Co., 3; Th. Just, 1; South Holland Shipping Co., 1.

### Traffic of Commercial Ships of Various Nationalities by Fiscal Years.

Summaries of the traffic of commercial vessels of various nationalities through the Canal, by fiscal years, to the close of the fiscal year ending June 30, 1921, are presented in the following tables. The tables show, in order, the number of such vessels in each year; their aggregate net tonnage, Panama Canal measurement; and the aggregate cargo carried through the Canal on the ships.

In the table of number of vessels, warships of foreign nations are included, as they pay tolls; but in the summary of net tonnage their displacement is not included with the net tonnage.

Number of Commercial Vessels by Nationality Passing Through the Panama Canal from its Opening to June 30, 1921, by Fiscal Years.

\* For use in special engines in motor schooners operating in the tropics.

## Official Circular.

## Appointment.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., September 9, 1921.  
CIRCULAR NO. 661-101:

Effective September 12, 1921, Commander R. W. Ryden, U. S. Navy, is assigned to duty as Superintendent, Mechanical Division, *vice* Commander E. G. Kintner, U. S. Navy, relieved from duty with The Panama Canal.

JAY J. MORROW,  
Governor.

## Current Net Prices on Coal, Fuel Oil, and Beef.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$15 per ton of 2,240 pounds at Cristobal and \$17 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$15 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or more, the price is \$17 per ton at Cristobal, \$19 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$2.75 per barrel of 42 gallons.

Diesel oil is sold at \$4 per barrel. Cable arrangements should be made in advance of arrival of vessel.

The following are current prices on fresh beef sold from the cold storage plant of the Canal. Prices quoted are United States currency, per pound net:

Beef hinds, 18 cents; beef fores, 13½ cents; beef ribs, entire set, 17 cents; short loins, 24 cents. This beef is from Colombian cattle slaughtered on the Isthmus.

## Hogs For Sale.

The following hog stock is offered for sale, f.o.b. the Margarita hog farm:

6 grade boars, three-quarters Duroc, 1 year old.

14 grade boars, bred from three-quarters Duroc sow and full-blooded Hampshire boars, from 3 to 6 months old.

3 boars, seven-eighths Duroc, 4 to 5 months old.

For further information inquire at the Cattle Industry office in Cristobal.

## Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

## Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10" dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

## Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

## Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

## Grain Shipments.

Between January 1 and August 31, 1921, wheat shipments through the Panama Canal from Pacific to Atlantic aggregated 565,058 tons. They were heaviest in July (99,267 tons) and lightest in April (39,108 tons). The United States contributed 506,583 tons to the total, Canada 3,500 tons, Australasia 36,437 tons, South America 13,648 tons, and the Far East 4,890 tons.

Barley shipments during the same period aggregated 200,788 tons, of which 173,827 tons originated in the United States, 26,934 tons in South America, and 27 tons in Australasia.

Shipments of oats totaled 27,511 tons, of which 18,842 were from South America, and 8,669 tons from Australasia.

All of this grain was consigned to European ports.

## French Line (C. G. T.) Service to West Coast of Central and North America.

The General Agent of the Compagnie Generale Transatlantique (French Line) at Cristobal advises that his company will establish a new direct cargo service from Hamburg, Antwerp, Havre, and Bordeaux to Cristobal, Central American and Mexican ports, San Francisco and other north Pacific ports. The service is to be monthly and will employ 5 steamers of 11,000 tons deadweight.

The first sailing is that of the steamship *Ontario*, which was due to leave Bordeaux on September 20. The vessel should reach the Canal about October 10 and is scheduled to proceed to Corinto, La Union, La Libertad, Acajutla, San Jose de Guatemala, Manzanillo, Mazatlan, Guaymas, and San Francisco. On her return voyage she will be due at the Canal about November 25.

The French Line has been operating a cargo service to the west coast of South America since January, 1920, with regular monthly sailings. The itinerary is usually Havre, Antwerp, Hamburg, Bordeaux, Cristobal, Guayaquil, Callao, Mollendo, Arica, Iquique, Antofagasta, and Valparaiso, and return.

The company has also a fortnightly passenger and cargo service to Cristobal by way of West Indian and South American ports. Sailings are from Havre and calls are made at St. Nazaire, Bordeaux, Santander, Guadeloupe, Martinique, Trinidad, La Guaira, Puerto Colombia, and Cristobal. The return voyage is in the reverse order of ports.

## Reduction in Rate on Lumber from Pacific Northwest to East Coast of South America.

The Pacific-Argentine-Brazil Line, operating from the west coast of the United States around South America, outward through the Strait of Magellan and homeward through the Panama Canal, has announced a reduction in the tariff on lumber to Montevideo and Brazilian ports, according to the Seattle Chamber of Commerce. The new rate is \$17 per 1,000 feet and was made with the idea of stimulating the movement of lumber from the Pacific Northwest to the east coast of South America.

Classification of Cargo Passing Through the Panama Canal, Showing Origin and Destination of Same, Month of August, 1921.  
**COMMODITY STATISTICS.**  
 ATLANTIC TO PACIFIC.

**Shipment of Fresh Meat from Canada to Europe by Way of the Canal.**

The steamship *Kinderdijk* of the Holland-American Line, passing through the Canal on August 26, carried in cold storage 100 tons of mutton, shipped from Vancouver and Seattle to London.

Press dispatches report that this is the first shipment of chilled meat from Canada to Europe by way of the Canal, as it has customarily been handled by refrigerator cars to the Atlantic coast and over Atlantic lines.

The *Kinderdijk* has in cold storage, also, on this voyage, 230 tons of lard from Los Angeles for Hamburg.

In the first 6 months of the current calendar year, 71,036 tons of mutton in cold storage were shipped through the Canal from Australia and New Zealand for the United Kingdom. Other shipments in cold storage from Australasia in that period included 33,720 tons of beef, 30,316 tons of cheese, 19,057 tons of butter, 10,752 tons of tallow, 2,272 tons of glaxo, 2,038 tons of casein, and 16,882 tons of cold storage classified as "other." In all, the cold storage shipments from the Australasian area through the Canal in the 6 months aggregated 186,073 tons.

The cold storage carriage through the Canal from Australia and New Zealand is an old-established service, dating back to the first year of Canal operation. The cold storage service from the west coast to Europe is about a year old, the first vessel of the Holland-American Line, bound from Vancouver and other west coast ports for Europe, having passed through the Canal on September 8, 1920. The demand for cold storage space, homeward bound, on this route has exceeded the supply.

---

**Rate on Apples from Seattle to North European Ports.**

*Shipping*, of August 25, states that the Royal Mail agencies have announced a new rate on apples of \$1.25 per box from Seattle to North Europe ports in refrigerated space. It is expected that the State of Washington will produce one-fifth of all the commercial apples marketed in the United States and that substantial shipments of them will be made through the Canal.

---

**The "Hwah Ping" Beginning Chinese Service Along West Coast.**

The Chinese steamer *Hwah Ping*, arriving at Balboa on September 9, from Hongkong by way of Honolulu, is making the initial voyage of the service between Chinese ports and the west coast of the Americas, which was announced in THE PANAMA CANAL RECORD of August 3. The vessel is owned by the Chinese Government and has been chartered by the Chungwha Navigation Company, most of the stock of which is owned by Chinese merchants trading in the west coast countries and Cuba. The head office of the company is in Lima, Peru.

The *Hwah Ping* brought 246 tons of cargo and 138 passengers to Balboa for Panama, in addition to through cargo and passengers. She cleared on September 10 for Valparaiso, via Callao, Arica, Iquique, and Antofagasta. On her return voyage she is due at Balboa about October 15.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, September 17, 1921.

### Swedish Shipping and the Panama Canal.<sup>1</sup>

The number of Swedish vessels using the Canal each fiscal year since it was first opened to navigation is shown below:

| Fiscal year. | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |
|--------------|----------------------------|----------------------------|--------|
| 1915.....    | 8                          | 10                         | 18     |
| 1916.....    | 5                          | 8                          | 13     |
| 1917.....    | 7                          | 11                         | 18     |
| 1918.....    | 12                         | 14                         | 26     |
| 1919.....    | 12                         | 17                         | 29     |
| 1920.....    | 10                         | 9                          | 19     |
| 1921.....    | 15                         | 10                         | 25     |
| Totals.....  | 69                         | 79                         | 148    |

The number of ships was greatest in the two last years of the war, but the difference was not so marked as in the case of Norwegian and Danish shipping. The traffic of the fiscal year 1921 was distributed as follows:

SWEDISH SHIPPING USING THE PANAMA CANAL DURING THE FISCAL YEAR, 1921; SEGREGATION BY TRADE ROUTES.

|                                                 | Vessels. | Cargo<br>tons. |
|-------------------------------------------------|----------|----------------|
| Europe to the west coast of South America.....  | 6        | 16,903         |
| West coast of South America to Europe.....      | 1        | 5,700          |
| Europe to the west coast of North America.....  | 2        | 5,127          |
| West coast of North America to Europe.....      | 9        | 61,952         |
| East coast of United States to Australasia..... | 6        | 39,237         |
| Europe to Australasia.....                      | 1        | .....          |
| Totals.....                                     | 25       | 128,919        |

Of the 6 vessels sailing to Australasia from the United States 3 carried coal cargoes from Norfolk and 3 sulphur cargoes from Gulf ports. All of these vessels belonged to the Swedish Transatlantic Steamship Company. All of the vessels in the trade between Europe and the west coast of the two Americas, with two exceptions, belonged to the Johnson Line (Rederiaktiebolaget Nordstjernan).

### Chilean Shipping and the Panama Canal.<sup>2</sup>

Chilean vessels made only 63 transits through the Panama Canal during the fiscal year 1921, as compared with 79 in 1920 and 93 in 1919. A similar decline was noted in the case of Peruvian shipping. In both cases the commercial depression of the past year is the

<sup>1</sup> This is the sixth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, and Danish shipping.

<sup>2</sup> This is the seventh of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, and Swedish shipping.

obvious cause, aggravated, as concerns Chile, by stagnation in the nitrate trade upon which the country is peculiarly dependent. The detailed record of the past 7 years is shown in the table below:

| Fiscal year. | Atlantic to Pacific. | Pacific to Atlantic. | Total. |
|--------------|----------------------|----------------------|--------|
| 1915.....    | 16                   | 19                   | 35     |
| 1916.....    | 16                   | 17                   | 33     |
| 1917.....    | 50                   | 49                   | 99     |
| 1918.....    | 50                   | 46                   | 96     |
| 1919.....    | 48                   | 45                   | 93     |
| 1920.....    | 38                   | 41                   | 79     |
| 1921.....    | 40                   | 23                   | 63     |
| Totals.....  | 258                  | 240                  | 498    |

Of the 40 vessels southbound last year 25 were owned by the Compañía Sudamericana de Vapores (Chilean Line), 4 were naval vessels, 4 were colliers and supply ships operated by the Chilean Government, 2 were Grace Line tugs, and the remaining 5 belonged to various owners. Of the 23 northbound vessels the Chilean Line owned 22 and the Chilean Government 1.

Of the southbound vessels carrying cargo 22 were from Cristobal to Chile with 13,000 tons, 1 from the United Kingdom to Chile with 650 tons, 8 from the United States to Chile with 29,517 tons, and 1 from Barbados to Chile with 2,500 tons. Of the northbound vessels carrying cargo, 20 were from Chile to Cristobal with 9,735 tons, and 2 from Chile to the United States with 6,335 tons. The total southbound cargo was 45,667 tons, and the total northbound cargo 16,070 tons.

The Chilean Line vessels carry passengers as well as cargo.

An interesting feature, and one deemed of sufficient importance to be mentioned in the annual message of the President of Chile, was an initial shipment of fresh fruit in cold storage from Valparaiso to New York. As the Chilean summer corresponds with the winter of the northern hemisphere, hopes are entertained that Chile can supply the New York market with fresh fruit at a time when none can be had from other sources of supply.

#### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended September 17:

Collier *Achilles*, manufacture and install new plug piston in starboard H. P. cylinder; fit 1 set of snap rings and furnish 1 set of spares; manufacture 1 governor weight for turbo generator; repair 1 indicator and 2 gauges; manufacture and install control valve; clean water side of boilers and sweep tubes; repair lifeboat bottom and air tanks; install braces on awning stanchions; repair galley stove and baker's oven; manufacture griddle iron and repair skylight lever; remove, clean, and replace sea valve strainers; repair rope guard; true up starboard H. P. piston rod and refit taper end to crosshead; refit crosshead slipper bolts and install dowels; calk shell seams on starboard No. 7 tank; weld starboard and bottom butt on after-shoe plate; manufacture new wireless spar; build up starboard reversing valve and face off seat; calk leaky rivets on forepeak tank shell plates; electric-weld rivets and cracks on after-peak tank; tug *Cocoli*, perform light repairs on dynamo engine and water pump; steamship *Bradford*, straighten eccentric rod and fit strap.

#### PREVIOUSLY REPORTED.

U. S. submarines *O-15*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; *O-16*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; steamship *Panama*, reboiling and general overhaul to machinery and hull; tug *Mariner*, dock, stage, clean and paint bottom; launch *Pacific*, general repairs to hull; barges *No. 176*, dock, stage, clean and paint bottom; *No. 194*, dock, stage, clean and paint bottom.

The following vessels were at the Cristobal shops for repairs during the week ended September 19:

Steamships *Colon*, make new eccentric strap and valve stem for blower engine; manufacture 1 set of wrist pin brasses and pin; make 4 keys for blower engine; repair air casing on both port boilers; locate and repair leak in fresh water line, No. 2 hold; test 2 ammonia gauges; *Cristobal*, machine bull ring to suit new snap rings; install water shed over oil discharge pipe; calk pilot house top and bridge shelter; repair flanges on hatch strongbacks and miscellaneous steward department repairs; *Acajulla*, dock and undock, clean and paint bottom; overhaul anchor shackles as directed; U. S. S. P. 1841, dock and undock; clean and paint bottom; remove present forecastle deck and replace with wooden deck; remove smokestack; renew housing over engine and fire rooms, install 1 hatch cover; install towing bits and cleats; make and fit towing bridle, etc.; U. S. S. *Patuxent*, repair 8 KW reciprocating dynamo; weld broken piece at top of cylinder; straighten connecting rod and machine; manufacture, fit, and install crosshead brasses, bolts and gibs; manufacture, fit, and install cast-iron cylinder liner; line up dynamo and engine, etc.; U. S. S. *Caesar*, rebore or manufacture and install new liners in water end of main feed pump; manufacture and install piston rods; manufacture, fit, and install piston rod packing gland on H. P. cylinder, main engine; furnish and install 2 gate valves as directed; steamship *Hattie Luckenbach*, dredge *Marshal Foch*, launch *Garcoyle*, minor repairs.

## PREVIOUSLY REPORTED.

U. S. S. *Eagle No. 31*, overhaul sea valves and zincs; motor ship *Satoe*, general overhauling, including dry-docking; steamship *Toedjoe*, install bulwarks; alter crew accommodations, etc.

### Coal at St. Thomas.

The following has been received from the Government Secretary of the Virgin Islands of the United States:

As a matter of information, and for such publication as you may think proper, the Governor of the Virgin Islands directs me to inform you that a firm operating a coaling hulk in the harbor of St. Thomas, has stated that they are willing to meet all comers at \$13.25, U. S. currency, per ton.

---

### Executive Order.

#### Authorizing the Extension of Passports Issued Prior to June 4, 1920.

By virtue of the authority vested in me by Section 4075 of the Revised Statutes of the United States, as amended by the Act of Congress approved June 14, 1902, and with reference to the provisions of Section 3 of the Act of Congress of June 4, 1920, entitled, "An Act making appropriations for the diplomatic and consular service for the fiscal year ending June 30, 1921," I hereby authorize the Secretary of State directly or through diplomatic, consular or other officers of the United States, or chief or other executive officers of the insular possessions of the United States to extend passports issued prior to June 4, 1920, so that they may be valid for a period not to exceed two years from the date of issuance.

WARREN G. HARDING.

THE WHITE HOUSE,

August 16, 1921.

[No. 3535.]

---

### October Weather Probabilities.

During the month of October, 1921, the following weather conditions may be expected at the Canal entrances. Predictions are based on the records at Colon and Balboa Heights for the past 14 and 15 years, respectively.

*Winds*—Light, variable winds will prevail over the Atlantic coast with an average hourly velocity of about 7 miles. The prevailing direction of the wind is usually from the southeast, although a considerable percentage of west and northwest winds may be expected during the month. A maximum velocity of from 30 to 38 miles an hour may be expected during the passage of local rain or thunder squalls.

Over the Pacific coast and the interior, light northwest winds will prevail with an average hourly velocity of about 6 miles. Here, too, during occasional rain or thunder squalls, the maximum velocity of the wind may exceed 30 miles an hour, but these wind storms are invariably of short duration.

*Rain*—The average October rainfall at the Atlantic entrance of the Canal is 15.07 inches, and on the Pacific side 10.17 inches, these averages being for periods of 51 and 24 years, respectively. About 25 days with rain may be expected on the Atlantic coast, and 22 on the Pacific coast, while the average number of days with heavy rain (1 inch or more) has been 6 at the Atlantic entrance and 3 at the Pacific. Throughout the length of the Canal, the greatest part of the rainfall occurs during the daytime, the heaviest rainfall generally occurring between the hours of 1 p. m. and 4 p. m. However, at this season of the year, the percentage of daytime rainfall is higher over the interior and Pacific coast than over the Atlantic coast, and heavy rainfall may be expected on the Atlantic side during the early morning hours. Over both coasts the time of least rainfall is from 8 to 9 a. m.

*Fogs*—No fogs are likely to occur at either Canal entrance, but night and early morning fogs will be numerous over the interior. About 25 nights with fog may be expected over the Gaillard Cut section of the Canal, but as all fogs lift or are dissipated before 8.30 a. m., they should not prove a hindrance to navigation.

*Temperature*—The average shade air temperature will be about 79° F. on both coasts. On the Atlantic coast the temperature is not likely to rise above 90° F., or fall lower than 70° F., while on the Pacific side the maximum temperature may be as high as 94° F., and the minimum as low as 68° F. The mean daily range of temperature will be about 10° F. on the Atlantic coast and 14° F. on the Pacific coast.

*Barometric pressure*—The average sea-level atmospheric pressure will be approximately 29.85 inches over both coasts. The maximum pressure for the month is not likely to exceed 29.95 inches, or the minimum to be lower than 29.70 inches.

*Relative humidity*—The humidity of the atmosphere should average about 87 per cent over both coasts. The daily range in humidity is greater on the Pacific coast than on the Atlantic side, the average nighttime humidity being higher and the midday

humidity lower than on the Atlantic side. The figures for years of record are 94 and 74, on the Pacific side, and 92 and 78 on the Atlantic.

**Storms**—The Isthmus is seldom visited by violent or widespread atmospheric disturbances although rain, wind, or thunder storms of more or less limited extent are of common occurrence, and may be expected quite frequently during the month. Rough weather may be experienced occasionally to the northward of the Atlantic entrance, as this is the season of the West Indian hurricane. The path of these storms lies well to the northward of the Isthmus, but a rough sea accompanied by brisk winds may be expected outside the breakwater, following the passage of one of these storms. Generally cloudy weather will continue over both coasts, and smooth seas are usually experienced at the Pacific entrance during the month of October.

**Tides**—Tidal fluctuations on the Atlantic side do not affect navigation, as the extreme tidal range at Colon is less than 2 feet.

Panama (Balboa) tide predictions for the month are presented in the following table:

| Day of-<br>W. Mo. |    | Time and Height of High<br>and Low Water. |            | Day of-<br>W. Mo. |    | Time and Height of High<br>and Low Water. |            | Day of-<br>W. Mo. |    | Time and Height of High<br>and Low Water. |            |

The tides are placed in the order of their occurrence; the *times* of high and low tides are shown on the upper lines. The figures in boldfaced type are hours and elevations between noon and midnight; *ante meridian* figures are given in the ordinary lightfaced type. The time is Cosmopolitan Standard for the meridian 75° W.

The *elevations* of the water are shown on the second line for each day; a comparison of consecutive heights will indicate whether it is high or low water. Heights are reckoned from mean low water springs, which is 8.3 below mean sea level and is the datum of soundings on the Coast and Geodetic Survey charts for this region. The depth of water may accordingly be estimated by adding the tabular height of the tide to the soundings, unless a minus (-) sign is before the height, in which case it is to be subtracted. The annual inequality or variation in the mean sea level is included in the predictions.

#### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

## Official Circular.

### Appointment.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., September 12, 1921.  
CIRCULAR No. 661-102:

Mr. Horace D. Ridenour was appointed Marshal of the Canal Zone by the President on August 19, 1921, and qualified for office on August 27, 1921, *vice* Mr. Miguel A. Otero, resigned, effective August 26, 1921.

M. L. WALKER,  
*Acting Governor.*

### Current Net Prices on Coal, Fuel Oil, and Beef.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$15 per ton of 2,240 pounds at Cristobal and \$17 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$15 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or more, the price is \$16 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$2.75 per barrel of 42 gallons.

Diesel oil is sold at \$4 per barrel. Cable arrangements should be made in advance of arrival of vessel.

The following are current prices on fresh beef sold from the cold storage plant of the Canal. Prices quoted are United States currency, per pound net:

Beef hinds, 18 cents; beef fores, 13½ cents; beef ribs, entire set, 17 cents; short loins, 24 cents. This beef is from Colombian cattle slaughtered on the Isthmus.

### Hogs For Sale.

The following hog stock is offered for sale, f.o.b. the Margarita hog farm:

6 grade boars, three-quarters Duroc, 1 year old.

14 grade boars, bred from three-quarters Duroc sow and full-blooded Hampshire boars, from 3 to 6 months old.

3 boars, seven-eighths Duroc, 4 to 5 months old.

For further information inquire at the Cattle Industry office in Cristobal.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z.

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10" dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

### Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

### Cable Address of The Panama Canal.

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama," in the United States, "Pancanal, Washington."

## MOVEMENTS OF OCEAN VESSELS.—Continued from page 85.

PORT OF CRISTOBAL.—Continued.

## CANAL WORK IN AUGUST.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of August, 1921:

BALBOA HEIGHTS, C. Z., September 20, 1921.

*The Honorable, the Secretary of War,*  
*Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of August, 1921.

### CANAL TRAFFIC.

Commercial traffic through the Panama Canal during the month of August was greater than for any month since March, 1921. The month of March established a high record in tonnage of vessels and tolls earned, but in the months following March there was a distinct decline, a part of the general business and marine depression over the world.

The extent of this decline in the Canal traffic, and of the recovery in August, are indicated in the following summary of the traffic through the Canal during the past 6 months:

| 1921.       | Number of ships. | Panama Canal net tonnage. | Registered gross tonnage. | Tolls.         | Tons of cargo. |
|-------------|------------------|---------------------------|---------------------------|----------------|----------------|
| March.....  | 255              | 1,112,818                 | 1,417,220                 | \$1,105,536.55 | 1,084,563      |
| April.....  | 227              | 955,503                   | 1,203,087                 | 927,977.09     | 907,613        |
| May.....    | 210              | 864,617                   | 1,092,602                 | 835,882.77     | 792,735        |
| June.....   | 192              | 761,477                   | 960,857                   | 751,964.12     | 694,720        |
| July.....   | 206              | 810,613                   | 1,022,802                 | 804,503.11     | 708,982        |
| August..... | 236              | 965,276                   | 1,219,817                 | 955,380.78     | 839,273        |

The total number of vessels and craft of all kinds through the Panama Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                            | August, 1921. | July, 1921. | August, 1920. |
|--------------------------------------------|---------------|-------------|---------------|
| Commercial vessels.....                    | 236           | 206         | 266           |
| United States Government vessels.....      | 31            | 23          | 30            |
| Panaman Government vessels.....            | 7             | 5           | 5             |
| Launches (nonseagoing, under 10 tons)..... | 7             | 3           | 5             |
| Total vessels and craft through Canal..... | 274           | 237         | 301           |

### COMMERCIAL TRAFFIC.<sup>1</sup>

A comparison of the commercial traffic for August, 1921, with that of the preceding month, of the corresponding month of 1920, and of the average month's traffic for the past 12 months, shows the following:

|                                           | August, 1921. | July, 1921.  | August, 1920. | Average per month for past year. |
|-------------------------------------------|---------------|--------------|---------------|----------------------------------|
| United States equivalent net tonnage..... | 792,442       | 652,439      | 782,415       | 775,057                          |
| Panama Canal net tonnage.....             | 965,276       | 810,613      | 951,345       | 948,635                          |
| Registered gross tonnage.....             | 1,219,817     | 1,022,802    | 1,208,471     | 1,203,957                        |
| Registered net tonnage.....               | 780,945       | 650,368      | 770,320       | 766,440                          |
| Tolls earned.....                         | \$955,380.78  | \$804,503.11 | \$936,209.44  | \$938,187.69                     |
| Tons of cargo carried.....                | 839,273       | 708,982      | 1,040,740     | 934,993                          |

<sup>1</sup> Commercial traffic includes all vessels of 10 tons or more transiting the Panama Canal, with the exception of vessels owned or chartered by the Government to carry Government supplies.

Ocean-going commercial vessels passing through the Canal averaged 7.6 ships per day. The average tonnage, tolls, and tons of cargo carried, per commercial vessel, as compared with last month's traffic, and with August, 1920, were as follows:

| Average per vessel.                       | August, 1921. | July, 1921. | August, 1920. |
|-------------------------------------------|---------------|-------------|---------------|
| United States equivalent net tonnage..... | 3,358         | 3,167       | 2,941         |
| Panama Canal net tonnage.....             | 4,090         | 3,935       | 3,576         |
| Registered gross tonnage.....             | 5,169         | 4,965       | 4,543         |
| Registered net tonnage.....               | 3,309         | 3,157       | 2,896         |
| Tolls.....                                | \$4,048.22    | \$3,905.35  | \$3,493.32    |
| Tons of cargo (all vessels).....          | 3,556         | 3,441       | 3,972         |
| Tons of cargo (laden vessels only).....   | 4,217         | 3,961       | 4,752         |

#### TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

While all cargo-carrying vessels pay tolls on their net tonnage, as determined by established rules for measuring their available cargo-carrying space, yet the rate of such tolls per cargo ton furnishes interesting data, varying as it does not only in different ships, but in vessels of different nationalities.

The average rate of tolls paid on each ton (2,240 pounds) of cargo passing through the Panama Canal from the Atlantic to the Pacific was \$1.18 and from the Pacific to the Atlantic, \$0.88 per ton, with a general average of \$0.99 per ton. The average rate paid per cargo ton, by nationality of vessels, is shown in the following statement:

|                                            | Atlantic to Pacific. | Pacific to Atlantic. | General average. |
|--------------------------------------------|----------------------|----------------------|------------------|
| British.....                               | \$1.31               | \$1.28               | \$1.29           |
| Chilean.....                               | 2.23                 | 1.53                 | 1.72             |
| Danish.....                                | 1.55                 | .65                  | .75              |
| Dutch.....                                 | .73                  | .65                  | .66              |
| French.....                                | 36.29                | .81                  | 1.47             |
| Japanese.....                              | .97                  | .70                  | .78              |
| Norwegian.....                             | 1.68                 | .67                  | .85              |
| Peruvian.....                              | 8.25                 | 1.03                 | 1.77             |
| Swedish.....                               | .79                  |                      | .79              |
| United States.....                         | 1.08                 | .84                  | .93              |
| Average rate, all ships, August, 1921..... | 1.18                 | .88                  | .99              |
| Average rate, all ships, July, 1921.....   | 1.44                 | .83                  | 1.05             |
| Average rate, all ships, June, 1921.....   | 1.11                 | .93                  | 1.02             |

The difference in the rate of tolls paid per cargo ton, by vessels of various nationalities is due to some vessels being but lightly loaded while others are carrying capacity cargoes. This also accounts for the variation in the rates per cargo ton as between northbound and southbound cargo for ships of the same nationality.

The lowest rate of tolls per cargo ton paid by any vessel passing through the Panama Canal during the month of August, 1921, was paid by the steamship *North American*, British registry, bound from Valparaiso to New York, and carrying 3,200 tons of nitrate and copper ore, on which tolls of \$1,495 were assessed, or a rate of 46.7 cents per cargo ton.

#### COMMODITY STATISTICS.

A classification of all cargo passing through the Panama Canal during the month of August, 1921, by commodities, giving the origin and destination of the same, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of September 21, 1921. A brief summary of the principal items is shown herewith:

#### CARGO PASSING FROM ATLANTIC TO PACIFIC.

| Commodity.             | August, 1921. |                          | July, 1921. |                          |
|------------------------|---------------|--------------------------|-------------|--------------------------|
|                        | Cargo tons.   | Per cent of total cargo. | Cargo tons. | Per cent of total cargo. |
| Oils:                  |               |                          |             |                          |
| Crude.....             | 36,454        | 21.2                     | 14,491      | 11.7                     |
| Refined.....           | 28,685        |                          | 15,635      |                          |
| Other.....             | 2,117         |                          |             |                          |
| Manufactured goods:    |               |                          |             |                          |

## TRAFFIC BY TRADE ROUTES.

Statements attached to this report show the origin and destination of all cargo passing through the Panama Canal as accurately as the same can be segregated from the cargo declarations submitted by the ships' masters (*see* pages 110 and 111). Below is given a summary of the traffic passing over the principal trade routes, showing the number of vessels, their Panama Canal net measurement, and the amount of cargo carried. The vessels shown as in ballast represent cargo-carrying vessels only; warships, tugs, yachts, etc., not being included as "ballast".

| Trade routes.                                                   | Total vessels. |                           |         | Vessels in ballast. |                           |

<sup>1</sup> Laden vessels only.<sup>2</sup> Including cargo-carrying vessels in ballast.

CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.<sup>1</sup>

The following statement shows the tonnage of, and amount of cargo carried by United States Government vessels passing through the Panama Canal during the month of August, 1921. This traffic passes through the Panama Canal free of tolls; if tolls had been assessed against these vessels, however, at commercial rates, the amounts collected would have been as indicated below.

In this statement is also included the number and tonnage of launches transiting the Canal, together with tolls collected thereon. Although paying tolls they are included in the noncommercial traffic, being small nonseagoing vessels of under 10 tons measurement.

| Total consumption, August, 1920..... | 1,129,670,000      | 1,046,560,000      | 999,430,000        |

## METEOROLOGY AND HYDROGRAPHY.

The rainfall over the Canal Zone and immediate vicinity, for the month of August, 1921, was above normal everywhere except at Bohio. Totals ranged from 8.06 inches at Pedro Miguel River to 30.32 inches at Porto Bello. The greatest amount of rainfall recorded on any one day was 8.37 inches at Porto Bello on the 10th. The estimated rainfall over Gatun Lake watershed area was 16.46 inches, as compared with an 11-year mean of 12.20 inches; while over the Chagres River watershed area above Alhajuela it was 20.68 inches, as compared with a 20-year mean of 14.83 inches.

The discharge of the Chagres River, at Alhajuela, was 3,416 c. f. s., being 12 per cent above the 20-year August mean of 3,038 c. f. s. This is the first month in the past 10, and the fifth month in the past 34 months, in which the discharge of the Chagres River was above normal. The maximum momentary discharge was 20,600 c. f. s. at elevation 100.50 feet on August 10. There were 3 rises of 5 feet or more at Alhajuela during the month.

The Gatun Lake watershed total yield for the month was 10,448 c. f. s., being 33 per cent above the 11-year August mean of 7,858 c. f. s. The maximum total yield for the month of August, of record, was 11,656 c. f. s., in 1917, while the minimum total yield was 4,956 c. f. s. in 1911. The net yield for the month was 10,043 c. f. s. The lake varied in elevation from 86.69 feet on the 11th to 85.46 feet on the 26th. A decrease in storage of 3.60 billion cubic feet was effected by lowering the lake approximately 1 foot.

The draft on the lake for lockages and power was 2,234 c. f. s., as compared with 2,123 c. f. s. for last month, and 2,444 c. f. s. for August, 1920. The ratio of water expended for power and lockages was 2.33 to 1.

The Gamboa pumping plant and the Brazos Brook reservoir drew 34.6 and 38.5 million cubic feet, respectively, from the lake.

Miraflores Lake varied in elevation from 54.09 feet to 53.20 feet, and ended at elevation 53.53 feet midnight the 31st. Eighteen spillway operations were made at Miraflores spillway during the month.

There were 3 very slight seismic tremors recorded on the 11th, and another slight tremor occurred on the 12th. All 4 disturbances were of such light intensity that no estimate could be made as to their distance or direction.

Temperature records for the month of August are given below:

| Station.            | Maximum. | Minimum. | Monthly mean. |
|---------------------|----------|----------|---------------|
| Balboa Heights..... | 92       | 72       | 80.6          |
| Gamboa.....         | 90       | 71       | 79.6          |
| Alhajuela.....      | 91       | 69       | 78.8          |
| Gatun.....          | 88       | 70       | 80.0          |
| Colon.....          | 89       | 72       | 80.6          |

The following gives a comparison of the monthly rainfall by sections for August, 1921, and August, 1920:

| Section.      | Rainfall.      |                | Rainy days. |       |
|---------------|----------------|----------------|-------------|-------|
|               | 1921.          | 1920.          | 1921.       | 1920. |
|               | <i>Inches.</i> | <i>Inches.</i> |             |       |
| Pacific.....  | 9.65           | 9.54           | 20          | 23    |
| Central.....  | 15.31          | 11.38          | 27          | 26    |
| Atlantic..... | 20.91          | 22.30          | 28          | 29    |

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in comparative form, in the following tabulation:

|                                                                           | August, 1921. | July, 1921.   | August, 1920. |
|---------------------------------------------------------------------------|---------------|---------------|---------------|
| Gross output, KWH:                                                        |               |               |               |
| Gatun hydroelectric station.....                                          | 5,522,900     | 5,541,100     | 6,111,200     |
| Miraflores steam plant.....                                               | 2,100         | 500           | 16,020        |
| Combined gross output.....                                                | 5,525,000     | 5,541,600     | 6,127,220     |
| Water consumption..... cubic feet.....                                    | 4,186,412.827 | 4,110,077.816 | 4,469,210.090 |
| Oil consumption..... barrels.....                                         | 1,990         | 2,006         | 2,006         |
| Power distributed to consumers..... KWH.....                              | 4,663,235     | 4,601,656     | 5,059,485     |
| Loss of power in plant auxiliaries, transmission, and transformation..... | 861,765       | 939,944       | 1,067,735     |
| Per cent of loss of power to gross output.....                            | 15.6          | 17.0          | 17.4          |

Miscellaneous electrical repairs and installations of electrical equipment were made on 17 vessels at Cristobal and 28 vessels at Balboa during the month. There were 438 work orders issued for work to be performed by the Electrical Division during the month of August, as compared with 429 for July.

The following new construction work was under progress during the month, with completion on July 31 and August 31 as follows:

|                                                                                                | Per cent completed. |            |
|------------------------------------------------------------------------------------------------|---------------------|------------|
|                                                                                                | July 31.            | August 31. |
| Installation of new 8,400 KVA transformer and new tie-line equipment at Gatun substation . . . | 75                  | 80         |
| Installation of 2 complete feeder equipments at Balboa substation . . . . .                    | 95                  | 95         |
| Installation of electrical equipment at hydroelectric station . . . . .                        | 50                  | 55         |

#### SHOP, FOUNDRY, AND DRY DOCK WORK.

At the Balboa shops, miscellaneous repairs were made on 14 vessels, the more important of which were as follows:

Work on the steamship *Panama*, which was begun in the preceding month, progressed satisfactorily. The vessel was placed in dry dock and all necessary underwater work done, including the renewal of several shell plates below the water line; renewing the lignum-vitæ strips in the stern tubes; the replacing of a number of loose and bad rivets at various points below the water line, and building up the riveting under the keel with electric welding. At the end of the month, work on the boiler room double bottom and within the boiler room enclosure had proceeded to such a point that the vessel was ready to receive the new boilers, the old boilers having been removed immediately after word was received to go ahead with repairs.

Work was started in repairing the bow plating of the steamship *Solana*, damaged in collision at Tampico and temporarily repaired pending a favorable opportunity for making permanent repairs.

The routine docking of the Dredging Division fleet was started at the end of the month.

At the Cristobal shops, miscellaneous repairs were made on 52 vessels during the month, the more important of which were as follows:

The steamship *Balboa* was docked, bottom cleaned and painted, and lost motion taken up in valve gear, steering engine. Liners on sides of low pressure slide valve main engine were manufactured and installed, and lateral play taken up.

On the steamship *West Isleta*, piston rod, complete for main air pump, was manufactured and fitted; holes were drilled at ends of cracks in bottom of pump cylinders, and copper patches fitted and installed over same; 9 sets of pump valves and 2 piston rings for H. P. cylinder were manufactured.

The U. S. S. *Eagle No. 31* was docked and the bottom cleaned and painted, and the sea valves and zincs overhauled. Four mud drum casings were repaired, holes for pins in planetary gears built up, small end of pin was turned down, and reduction gear assembled.

*Clapet No. 7* was docked and the bottom cleaned and painted. The sea valves were ground in, bottom intake renewed, 2 ash pit doors manufactured, valves and pipes in boilers repaired, and the hull patched.

The steamship *Caribbean* was docked, cleaned and painted; and stay bolts, nuts, washers, piston rods, bushings, etc., were manufactured and installed as needed.

There were 22 vessels dry-docked during the month, 9 at Cristobal and 13 at Balboa.

The effect of the financial depression in shipping in curtailing repairs to vessels has been very manifest at the Balboa plant. Almost all of the work performed during the month on vessels has been on those owned by The Panama Canal, the Panama Railroad Steamship Company, and the Army and Navy. There was one stretch of 10 days in which there was no vessel under repair except the steamship *Panama* and an Army tug. Had it not been for the steamship *Panama*, it would not have been possible to retain the organization for proper steamship repair facilities at the Pacific end of the Canal.

The output of the Mechanical Division in patterns, castings, and foundry production for August, 1921, as compared with the preceding month, was as follows:

|                 | August, 1921. |           |         | July, 1921. |           |         |
|-----------------|---------------|-----------|---------|-------------|-----------|---------|
|                 | Patterns.     | Castings. | Pounds. | Patterns.   | Castings. | Pounds. |
| Iron . . . . .  | 5             | 1,035     | 29,240  | 10          | 872       | 57,596  |
| Steel . . . . . | 2             | 19        | 16,170  | 7           | 51        | 38,813  |
| Brass . . . . . | 15            | 483       | 11,737  | 10          | 442       | 8,279   |

There has been but very little demand for new castings. This has produced a situation which has required the reduction of the force in the foundry at the Balboa shops to one-third of its former strength, nearly all of the reduction coming during the month of August.

The routine inspection, hostling, and repair of equipment for the Panama Railroad Company was carried on during the month. Four hundred and thirty job orders were completed during the month, with 252 remaining uncompleted on August 31.

Work on the 5 towing locomotives being built by The Panama Canal is progressing satisfactorily; 2 of the locomotives having been completed except for the installation of hand brakes.

## DREDGING DIVISION.

There was no movement of consequence at Cucaracha slide during the month. A slow, general movement has continued just north of Purple Rock, being recorded as far back as 1,200 feet east from the prism line, and a slight independent movement occurred to the south of this rock. Little, if any, of this material has reached the Canal prism. A dipper dredge, working from the 1st to the 21st of the month in front of this slide, removed during that time 98,850 cubic yards of material, making a total of 2,835,900 cubic yards removed from this slide area since February 22, 1920.

Culebra and Barge Repair slides have showed no important movements during the month. During the month dredges removed 86,550 cubic yards of material from East Barge Repair slide, and 6,700 cubic yards of material from West Barge Repair slide.

No inconvenience to Canal traffic was occasioned by any of the slides.

The total excavation in August, including earth and rock, was 560,100 cubic yards, as follows:

| Cubic yards. | Classified as— |         | Character of work. | Stations.                                                                 | Equipment.       |
|--------------|----------------|---------|--------------------|---------------------------------------------------------------------------|------------------|
|              | Earth.         | Rock.   |                    |                                                                           |                  |
| 98,850       |                | 98,850  | Maintenance.....   | <i>Gaillard Cut, Cucaracha.</i><br>1805-00 to 1814-00 E.....              | <i>Gamboa.</i>   |

| North of Gold Hill.....       | 600                 |
| Total.....                    | 560,100             |

## MUNICIPAL ENGINEERING DIVISION.

The total output of all pumping stations, and of the 3 filtration plants, the amount of water consumed by the cities of Panama and Colon, and sales of water to vessels, are shown below in comparative form:

|                                    | August, 1921.   | July, 1921.     | August, 1920.   |
|------------------------------------|-----------------|-----------------|-----------------|
|                                    | <i>Gallons.</i> | <i>Gallons.</i> | <i>Gallons.</i> |
| Pumping stations.....              | 740,414,000     | 734,425,000     | 598,914,825     |
| Filtration plants.....             | 455,145,000     | 449,527,000     | 477,394,000     |
| Water consumed by Panama City..... | 97,595,000      | 90,690,000      | 83,685,000      |
| Water consumed by Colon.....       | 54,005,250      | 55,490,000      | 57,144,000      |
| Sales of water to vessels.....     | 12,239,017      | 9,709,842       | 14,345,592      |

Construction work, as itemized below, was under progress during the month, with completion on July 31 and August 31 as shown:

|                                                                  | Per cent completed. |            |
|------------------------------------------------------------------|---------------------|------------|
|                                                                  | July 31.            | August 31. |
| New wash water tank, Miraflores.....                             | 95                  | 100        |
| Construction of new concrete sea-wall, Santo Tomas Hospital..... | 43                  | 50         |
| Extension of roads, new Santo Tomas Hospital.....                | 6                   | 6          |
| Concrete roof, low service reservoir.....                        | 52                  | 70         |
| Grading at Silver City, Mount Hope.....                          | 45                  | 60         |
| Storm sewer, Balboa.....                                         | 97                  | 100        |
| Storm drain, buildings 3 and 4, Balboa shops.....                | 20                  | 100        |
| Storm sewer, Diablo road, at lumber shed.....                    |                     | 45         |
| Foundation for statue of Balboa.....                             |                     | 32         |

Municipal work performed for the Army and Navy is separately reported.

#### OCCUPANTS OF QUARTERS.

The occupants of Panama Canal and Panama Railroad quarters, shown in comparative form, were as follows:

|                          | Men.  | Women. | Children. | Totals.       |             |               |
|--------------------------|-------|--------|-----------|---------------|-------------|---------------|
|                          |       |        |           | August, 1921. | July, 1921. | August, 1920. |
| Americans.....           | 2,758 | 1,990  | 2,308     | 7,056         | 7,280       | 8,271         |
| Europeans.....           | 138   | 28     | 65        | 231           | 238         | 226           |
| West Indians.....        | 5,168 | 2,611  | 5,387     | 13,166        | 12,969      | 10,835        |
| Total, August, 1921..... | 8,064 | 4,629  | 7,760     | 20,453        |             |               |

#### WORKING FORCE—NUMBER OF EMPLOYEES.

The total number of employees as of August 24, 1921, was 12,818, as compared with 19,603 as of August 18, 1920, making the number of employees on the rolls at the present time approximately 65 per cent of the number 1 year ago.

The following tabulation shows the number of gold and silver employees, as of August 24, 1921, by departments, together with a comparison of the working force of the preceding month, and that of August, 1920:

| Department or division.           | Employees. |         | Total employees. |             |               |
|-----------------------------------|------------|---------|------------------|-------------|---------------|

## VITAL STATISTICS.

A total of 184 deaths occurred during the month of August, 1921, among the population of the Canal Zone and the cities of Panama and Colon, equivalent to an annual death rate of 17.73 per thousand. The 3 leading causes of death were tuberculosis, diarrhea and enteritis, and pneumonia. Among other causes of death listed were 4 from dysentery, 2 each from malaria, influenza, and diphtheria, 1 from measles, and 8 from external causes. Of the above deaths, 82, or 44 per cent, occurred among children under 5 years of age.

There were 12 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

Three hundred and forty-eight live births were reported during the month, and 20 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 35.46 per thousand population. Deaths among children under 1 year of age numbered 51, giving an infant mortality rate, based on the number of births reported for the month, of 146.55 per thousand.

One hundred and sixteen cases of malaria were reported during the month, divided as follows: Employees, 21; nonemployees, 73; soldiers, 22. The origin of these malarial cases was as follows: Panama City, 5; Colon, 2; Canal Zone, 84; elsewhere, 25.

Three cases of typhoid fever were reported: 2 from Colon, and 1 from Panama. Two cases of smallpox were reported, 1 from Colon, and 1 nonresident.

## RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, and cash sales from stock, as compared with the preceding month, and the corresponding month of last year, were as follows:

|                                                                                  | August, 1921. | July, 1921.  | August, 1920. |
|----------------------------------------------------------------------------------|---------------|--------------|---------------|
| Material received on U. S. requisitions during the month, chargeable as follows: |               |              |               |
| Operation and Maintenance.....                                                   | \$231,470.63  | \$233,899.82 | \$807,357.87  |

### Tonnage Passing Through the Canal Compared with that Entering and Clearing United States Ports in Foreign Trade.

A comparison of the tonnage passing through the Panama Canal with that entering and clearing at various ports or customs districts of the United States in the foreign trade is available from figures published in an article "Shipping Activities in United States Ports," in *Commerce Reports* of September 5.

It should be borne in mind in making comparisons and visualizing the activities of the ports that the figures for the United States are for foreign trade only, and do not include the extensive coastwise traffic, while those for the Canal include all vessels.

The article says in part:

The total net tonnage of vessels entering United States ports in 1920 was 50,139,844, and the total net tonnage of clearances was 53,037,390. Of the total entrances 25,509,538 tons represented American vessels, and of clearances the amount representing American tonnage was 26,425,464.

For the Atlantic coast, exclusive of Florida, entrances totaled about 32,800,000 and clearances about 33,400,000 tons, with New York accounting for the major part. For the Pacific coast, entrances totaled about 5,300,000 and clearances about 6,000,000 tons. The balance is credited to Gulf districts and Florida. The following shows the rank of customs districts in vessel tonnage entered and cleared:

| Entrances.                   | Net tons.  | Clearances.                  | Net tons.  |
|------------------------------|------------|------------------------------|------------|
| New York.....                | 17,404,000 | New York.....                | 15,045,000 |

| Connecticut.....             | 25,000     | San Diego.....               | 26,000     |
| San Diego.....               | 14,000     | Connecticut.....             | 13,000     |

The difference between the two sets of figures for any district is due to the practice of vessels entering at one port and moving to another to secure cargo before clearing for a foreign destination. There are a number of striking illustrations of this practice, as in the case of Oregon showing for clearances more than twice the tonnage entered, and Connecticut showing entrances nearly twice as large as clearances. On the other hand, a very close approach to balance of movement is shown by the figures for Washington and for Rhode Island.

During the year 1920 the aggregate registered net tonnage of the 2,814 commercial vessels passing through the Panama Canal was 8,458,401 tons. This was greater than the entrances or clearances at any of the United States ports or districts with the exception of New York. It was approximately half as great as the foreign trade traffic in New York, and about one-sixth of the entrances or clearances in all the foreign trade of the United States.

Omitting the United States coastwise trade from the Canal total, there were approximately 7,660,000 net tons in other trade, passing through the Canal in 1920. This is more than the foreign trade traffic in any of the United States ports except New York.

**Cash Balance in Appropriations, August, 1921.**

BALBOA HEIGHTS, C. Z., September 24, 1921.

*The Honorable, the Secretary of War,**Washington, D. C.*

SIR: Herewith is a report showing the commissary sales, financial receipts and expenditures, and of the cash balance available in the Panama Canal appropriations for the month of August, 1921, as compared with the preceding month, and with the corresponding month of last year:

|                                                                                                         | August, 1921. * | July, 1921.     | August, 1920.   |
|---------------------------------------------------------------------------------------------------------|-----------------|-----------------|-----------------|
| Cash balance available for expenditure:                                                                 |                 |                 |                 |
| In Canal appropriations.....                                                                            | \$13,754,717.93 | \$15,389,317.00 | \$19,050,868.15 |
| Payments made from appropriations:                                                                      |                 |                 |                 |

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended September 24:

U. S. submarines *O-11*, dock, stage, clean, and paint; grind-in sea valves; renew zincs; perform minor structural repairs on hull; repair hydroplanes; install starboard torpedo tube shutter; install mast for submerged radio antennæ; renew portion of superstructure deck plating frames; manufacture and install bracket for anchor shafting; grind-in all engineering sea valves; *O-13*, dock, stage, clean, and paint; grind-in all C. and R. sea and stop valves; repair or renew underwater fittings; renew gaskets on torpedo room air induction valve; renew piping on lower torpedo tube and forward trim tank gauges; remove superstructure flood valves and repack stuffing boxes; galvanize all battery deck cover battens; manufacture and install 3 dogs for battery deck cover battens; repair all hydroplanes; renew leaky rivets on starboard side of water line; repair anchor gear; calibrate gauges; grind-in engineering sea valves; *O-14*, dock, stage, clean, and paint; overhaul C. and R. sea and stop valves; renew zincs as necessary; renew section of superstructure side plating; renew plate on master vent in fairwater; overhaul suction, vents, and kingston ballast valves; renew gaskets on battery ventilation valves; repack stuffing boxes on horizontal and vertical steering gear shafts; repair radio system; overhaul engineering sea and stop valves; repair stern tube; cruiser *Libia*, renew broken branch copper exhaust line, main feed pump; repair leak in flange, exhaust line, anchor engine; cut 4 openings in coal bunker; steamships *Trontolite*, repairs to circulating pump and engine; *Chifuku Maru*, repairs to main engine; *Donald McKay*, repairs to main feed pump; repair inboard and port fan engine; rebrick boilers; yacht *Speejacks*, splice wire for insulators in shrouds; tugs *Gatun*, dock, stage, clean, and paint bottom; *Coco Solo*, install two 80-gallon galvanized iron tanks; install galley pump in after starboard corner of cabin; barges *No. 101*, dock, stage, clean, scale bottom and paint bottom to light load line; *No. 146*, dock, stage, clean, scale bottom and paint

bottom to light load line; *No. 195*, dock, stage, clean, scale bottom and paint bottom to light load line.

PREVIOUSLY REPORTED.

U. S. submarines *O-15*, dock, stage, clean and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; *O-16*, dock, stage, clean and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; steamship *Panama*, reboiling and general overhaul to machinery and hull; launch *Pacific*, general repairs to hull.

The following vessels were at the Cristobal shops for repairs during the week ended September 26:

Tug *Engineer*, make foundation plate with cushion; assemble engine and generator and install; renew 1 floor plate in fireroom; calk end of butt strap aft end of boiler; furnish and install one 2-inch steam valve to injector; furnish, fit, and install 1 section of pipe for syphon in after hold; steamship *Solana*, renew 2 ice machine cans; supply 4 wind chutes for dynamo; U. S. S. *287*, dock and undock; clean and paint bottom; examine and renew where necessary screens on underwater suction; overhaul all C. and R. sea valves; repack rudder glands; repair shoe; renew zincs on hull; renew nipple for auxiliary circulating intake; pack stern glands; straighten 1 propeller blade; renew bushings on strut bearings; U. S. D. B. *L-53*, manufacture, fit, and install 1 pinion for deck winch, forward; manufacture, fit, and install 1 reverse gear clutch arm as sample; examine winch and put same in working order, etc.; steamships *Munaires*, *Balboa*, *West Haven*, *Acajutla*, *Tainui*, *Mantaro*, and *Venezuela*, minor repairs.

PREVIOUSLY REPORTED.

U. S. S. *Eagle No. 31*, overhaul sea valves and zincs; motor schooner *Satoe*, general overhauling, including dry-docking; steamship *Toedjoe*, install bulwarks; alter crew accommodations; U. S. S. P. *1841*, dock and undock; fit up for towing to the United States; U. S. S. *Paluxent*, repair 8 KW reciprocating dynamo; U. S. S. *Caesar*, manufacture and install new liners, etc.; steamships *Colon*, miscellaneous engine department repairs; *Cristobal*, miscellaneous engine and deck department repairs.

### Lowered Rates to New York on Certain Articles Produced in Panama.

The Panama Railroad Steamship Line has reduced rates, effective September 20, on a number of items of produce of Panama, for shipment from Colon or Cristobal to New York. The new rates are as follows:

| Article.                                                                                                                                                                                                                            | Rate.<br>(In U. S. currency.) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
|                                                                                                                                                                                                                                     | <i>Per 100 lbs.</i>           |
| Animals and birds, alive, in crates or boxes: <sup>1</sup>                                                                                                                                                                          |                               |

<sup>1</sup> Per cubic foot. <sup>2</sup> Indicates a decrease in rate. <sup>3</sup> Freight charges to be adjusted at New York on measurements to be made by Constantine & Co., based on an allowance of Balsa, 33 pounds per cubic foot; cedar, 45 pounds per cubic foot; mahogany, 60 pounds per cubic foot.

### Peruvian Shipping and the Panama Canal.<sup>1</sup>

The following table shows the transits made by vessels under the Peruvian flag in either direction during each fiscal year since the Panama Canal was opened to navigation in August, 1914:

| Fiscal year. | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |
|--------------|----------------------------|----------------------------|--------|
| 1915.....    | 2                          | 2                          | 4      |
| 1916.....    | 16                         | 14                         | 30     |
| 1917.....    | 43                         | 43                         | 86     |
| 1918.....    | 41                         | 42                         | 83     |
| 1919.....    | 34                         | 31                         | 65     |
| 1920.....    | 37                         | 38                         | 75     |
| 1921.....    | 32                         | 28                         | 60     |
| Totals.....  | 205                        | 198                        | 403    |

The number of transits credited to Peru in 1921 is less than in any previous year since 1916. This may be attributed to the economic conditions of the past year, which require no comment.

One vessel included in the statistics for 1921 was a sailing ship belonging to the Peruvian Government bound from Callao to London with 4,000 tons of guano, 1 was a small steamer owned by E. Leith, of Lima, carrying 125 tons of briquettes from Halifax to Callao, and 1 was a yacht in ballast from Belize to Callao. All the other vessels belonged to the Compañía Peruana de Vapores y Dique de Callao (Peruvian Line). This company had 25 sailings from Cristobal to Callao and other ports on the west coast of South America with 26,762 tons of cargo, and 26 sailings from the west coast to Cristobal with 57,146 tons of cargo.

The Peruvian Line also dispatches an occasional steamer to the United States or to the United Kingdom via Panama, calling on either route at the principal ports along the coast as cargo offers. During the fiscal year 1921 it had 2 vessels southbound through the Canal from the United Kingdom with 6,901 tons of cargo, 1 vessel northbound to the United Kingdom with 2,128 tons, and 2 vessels southbound from the United States with 8,260 tons. The Peruvian Line steamers carry passengers as well as freight.

The total cargo moving through the Canal in Peruvian bottoms in 1921 was: Southbound, 42,048 tons, and northbound, 63,274 tons.

<sup>1</sup> This is the eighth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, Swedish, and Chilean shipping.

#### Deceased and Insane Employees.

The estates of the following deceased or insane employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits, or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

No. 8.

## Canal Traffic during September.

Commercial traffic through the Panama Canal during the month of September fell slightly below that of the preceding month, but was higher than during the months of May, June, and July. The following shows a summary of the commercial traffic through the Canal for the past 6 months:

| 1921.          | No.<br>of<br>ships. | Panama<br>Canal net<br>tonnage. | Registered<br>gross<br>tonnage. | Tolls.       | Tons of<br>cargo. |
|----------------|---------------------|---------------------------------|---------------------------------|--------------|-------------------|
| April.....     | 227                 | 955,503                         | 1,203,087                       | \$927,977.09 | 907,613           |
| May.....       | 210                 | 864,617                         | 1,092,602                       | 835,882.77   | 792,735           |
| June.....      | 192                 | 761,477                         | 960,857                         | 751,964.12   | 694,720           |
| July.....      | 206                 | 810,613                         | 1,022,802                       | 804,503.11   | 708,982           |
| August.....    | 236                 | 965,276                         | 1,219,817                       | 955,380.78   | 839,273           |
| September..... | 221                 | 925,137                         | 1,167,220                       | 892,001.54   | 754,894           |

Commercial vessels passing from the Atlantic to the Pacific numbered 128, and in point of tonnage not only exceeded the September traffic of last year, but with the exception of the months of December, 1920, and March, 1921, is the greatest Atlantic-Pacific traffic since the opening of the Canal. Analysis of this traffic shows that approximately 56 per cent of the total traffic from the Atlantic to the Pacific was routed to the west coast of the United States and Canada, as compared with an average of approximately 26 per cent during the past fiscal year, ending June 30, 1921. Many of these vessels were in ballast, and presumably will return through the Canal laden with grain.

The traffic to the west coast of South America, in point of tonnage, represented 17 per cent of the total traffic from the Atlantic to the Pacific, as compared with an average of approximately 34 per cent during the past fiscal year. The traffic from Europe and the east coast of the United States to Australasia represented approximately 10 per cent as against an average of 17 per cent during the past fiscal year. Traffic to the Far East was about normal, representing approximately 15 per cent of the total traffic from the Atlantic to the Pacific.

Traffic from the Pacific to the Atlantic, with the exception of June, 1921, was the lowest, in point of tonnage, since June, 1920, and was approximately but three-fourths that of September, 1920. Analyzing the movement of vessels from the Pacific to the Atlantic, it is found that in point of tonnage, 60 per cent of the total traffic originated on the west coast of the United States and Canada, as compared with an average of approximately 32 per cent during the past fiscal year. Traffic from the west coast of South America, however, represented but 20 per cent of the total traffic from the Pacific to the Atlantic, as against an average of approximately 40 per cent for the past fiscal year. The South American movement, both ways, was affected by

almost complete stoppage of oil shipments from Mexico, and continued stagnation in the nitrate trade.

Traffic from Australasia to Europe and the east coast of the United States represented approximately 10 per cent of the total tonnage as compared with an average of approximately 17 per cent during the past fiscal year. Traffic from the Far East also fell off somewhat, the September traffic representing approximately 4 per cent of the total, as against an average of approximately 6 per cent during the past fiscal year.

### **Supplement No. 2 to Tariff No. 5.—Diesel Oil.—Pumping Oil.—Special Train.**

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
BALBOA HEIGHTS, C. Z., September 20, 1921.

#### **ITEM 22.—FUEL AND DIESEL OILS.** (Effective October 1, 1921.)

2. Diesel oil, per barrel of 42 gallons, delivered to vessels at Cristobal<sup>1</sup>. . . . \$3.60  
(NOTE—Diesel oil may be obtained from private concerns at Balboa, at approximately \$3.50 per barrel.)
3. Pumping oil into and out of private tanks, 4 cents per barrel, each way, excepting, that between the hours of 11 p. m. and 7 a. m., an additional charge of \$4.70 per hour will be made for pumping cargoes from ships into storage tanks. A charge of 10 cents per barrel will be made for pumping oil from storage tanks into ships between these hours. Oil having a viscosity greater than 780 seconds at 86° F. (Saybolt Furol viscosimeter) will not be handled by The Panama Canal.

#### **ITEM 35.—SPECIAL TRAIN.** (Effective September 20, 1921.)

1. Special train, consisting of engine, baggage or buffer car, and 1 coach, seating not to exceed 60 passengers; minimum charge, deposited or guaranteed in advance, \$100. The rate for a 1-way train will be the same as for a round trip within 8 hours. If train does not return to starting point within 8 hours, an additional charge of \$50 will be made.

All passengers must be provided with tickets or other regular forms of transportation.

M. L. WALKER,  
*Acting Governor, The Panama Canal.*  
*Second Vice President, Panama Railroad Company.*

### **Supplement No. 3 to Tariff No. 5.—Storage on Piers.—Fuel and Diesel Oils.**

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
BALBOA HEIGHTS, C. Z., October 1, 1921.

#### **ITEM 17.—STORAGE ON PIERS.** (Effective October 1, 1921.)

1. Transit cargo, routed and unrouted:  
For first 35 days after delivery on pier. . . . . Free

#### **ITEM 22.—FUEL AND DIESEL OILS.** (Effective October 1, 1921.)

1. Fuel oil, per barrel of 42 gallons, delivered to vessels at either Cristobal or Balboa. . . . . \$1.70
2. Diesel oil, per barrel of 42 gallons, delivered to vessels at Cristobal<sup>1</sup>. . . . . 3.50

M. L. WALKER,  
*Acting Governor, The Panama Canal.*  
*Second Vice President, Panama Railroad Company.*

<sup>1</sup> NOTE.—The supplements above are published as signed and in the order of their issuance. It will be noted that the price of Diesel oil as established by Supplement No. 3, dated October 1, supersedes that under Supplement No. 2 of September 20.

## Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended September 30:

Steamships *West Isleta*, dismantle broken parts on main engine; manufacture new bracket; rebore H. P. cylinder; manufacture new H. P. plug type bull ring; line up crosshead and guide; repair L. P. eccentric strap; manufacture new key for eccentric cam; *Rakuyo Maru*, manufacture 1 plunger rod for sanitary pump for port gear shaft; launch *Aloha*, turn piston rod to  $\frac{3}{8}$ " diameter and manufacture 1 follower ring to fit retrued piston; steamships *Cape Ortegál*, manufacture new H. P. cylinder head, 1 follower ring, and 30 studs; *Westward Ho*, repairs to telemotor.

## PREVIOUSLY REPORTED.

Tug *Gatun*, dock, stage, clean, and paint; fair dent in hull; calk leaky rivets and weld butt strap; perform miscellaneous light repairs; U. S. submarines *O-11*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; *O-13*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; *O-14*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; *O-15*, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; steamship *Panama*, reboiling and general overhaul to machinery and hull; cruiser *Libia*, additional miscellaneous light repairs to water system, drainage system, and ladders; steamship *Donald McKay*, repairs to main feed pump; repair inboard and port fan engine; rebrick boilers; launch *Pacific*, general repairs to hull; steamship *Chifuku Maru*, repairs to main engine; barges *No. 101*, dock, stage, clean, scale, and paint; *No. 146*, dock, stage, clean, scale, and paint; *No. 195*, dock, stage, clean, scale, and paint.

The following vessels were at the Cristobal shops for repairs during the week ended October 3:

Steamships *Allianca*, rebuild bridge walls, forward port boiler, and fit dead plate port and starboard boiler aft; repair safety valve on after starboard boiler; *Caribbean*, repair sanitary and fresh water pipe in boiler rooms; make 8 valve studs for bilge pump and 24 bolts as sample; bark *Golden Gate*, dock and undock; repair steering gear and rudder; steamship *Heredia*, repair crosshead for C. O. 2<sup>nd</sup> machine and make new wrist pin for same; manufacture box wrench and get out plate for ventilator; barge *No. 21*, dock and undock; clean and paint hull; patch hull; burn off rudder bearing flush with stem; launch *Gargoyle*, install new controls, etc.; U. ## Notice to Mariners.—Obstructions to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., September 22, 1921.

CIRCULAR No. 643-93:

The master of the steamship *West Camak* reports by radio having passed at 2.20 p. m., on September 20, while in latitude 11° 13' North, longitude 77° 29' West, an upright spar about 2 feet in diameter, extending 2 feet above the water. He also reports having passed at 2.30 p. m., a piece of wreckage appearing to be part of a keel, about 40 feet long. Both dangerous to navigation.

M. L. WALKER,  
Acting Governor.

## Notice to Mariners.—Establishment of Zamba Point Light, Colombia.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., September 28, 1921.

CIRCULAR No. 643-94:

The Port Captain, Cristobal, has received the following notice, dated September 26, 1921, from Master Ellis Roberts, of the Royal Mail steamship *Jamaica*:

"I have the pleasure to inform you that a flashing light on Zamba Point, latitude 10° 48' North, longitude 75° 20' West, is now in working order. I observed the light at an approximate distance of 12 miles.

Character of light: Flashing white, every 3 seconds."

M. L. WALKER,  
Acting Governor.

## Dutch Shipping and the Panama Canal.

There are two Dutch lines operating through the Panama Canal, the Royal Netherlands West India Mail, which maintains a service between Hamburg, Amsterdam, Rotterdam and the west coast of South America, and the Holland-American Line between Rotterdam,

\* This is the ninth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, Swedish, Chilean, and Peruvian shipping.

London and the west coast of North America. The former company put 30 vessels through the Canal during the fiscal year 1921, and the latter 16, out of a total of 50 vessels under the Dutch flag.

The table shows the number of vessels in either direction during the past 7 years:

| Fiscal year. | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |
|--------------|----------------------------|----------------------------|--------|
| 1915.....    | 5                          | 2                          | 7      |
| 1916.....    | 11                         | 4                          | 15     |
| 1917.....    | 36                         | 38                         | 74     |
| 1918.....    | 31                         | 18                         | 49     |
| 1919.....    | 6                          | 13                         | 19     |
| 1920.....    | 17                         | 12                         | 29     |
| 1921.....    | 26                         | 24                         | 50     |
| Totals.....  | 132                        | 111                        | 243    |

Of the 26 vessels passing from Atlantic to Pacific during the past year, 16 were bound from Europe to South America with 36,127 tons of cargo, and 10 from Europe to North America. Two of the latter were in ballast, and the remaining 8 carried 9,979 tons of cargo.

Of the 24 vessels passing from Pacific to Atlantic, 13 were bound from South America to Europe with 80,398 tons of cargo, 10 from North America to Europe with 86,284 tons, and 1 from South America to the United States with 3,700 tons. The total cargo from Atlantic to Pacific was 46,106 tons, and in the opposite direction 170,382 tons.

The Holland-American Line is offering refrigerated space for the shipment of apples and other fruits from the Pacific coast to the United Kingdom and Europe. Fresh meats and tallow are being shipped in cold storage over this line.

#### French Shipping and the Panama Canal.\*

The volume of French shipping through the Panama Canal has been subject to extreme fluctuations due to war and post-war conditions. The record of the 7 fiscal years from 1915 to 1921 is shown in the following table:

| Fiscal year. | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total. |
|--------------|----------------------------|----------------------------|--------|
| 1915.....    | 2                          | 1                          | 3      |
| 1916.....    | 1                          | 1                          | 1      |
| 1917.....    | 4                          | 5                          | 9      |
| 1918.....    | 19                         | 33                         | 52     |
| 1919.....    | 29                         | 75                         | 104    |
| 1920.....    | 9                          | 51                         | 60     |
| 1921.....    | 26                         | 18                         | 44     |
| Totals.....  | 89                         | 184                        | 273    |

The only French line with regular sailings through the Canal in 1921 was the Compagnie Generale Transatlantique, which maintains a service between Havre, Antwerp, Hamburg, Bordeaux and ports on the west coast of South America. It put through 10 southbound and 9 northbound vessels. Other French shipping companies which contributed to the traffic were: Societe Generale d'Armement with 7 transits, Compagnie Francaise d'Armement d'Importation de Nitrate

\* This is the tenth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, Swedish, Chilean, Peruvian, and Dutch shipping.

de Soude with 5, Societe Generale de Transports Maritimes a Vapeur with 4, French Government with 4, and Societe Anonyme de Peche with 1.

During 1921 there were 10 vessels from Europe to South America with 10,193 tons of cargo, 2 from the United States to South America with 11,904 tons, 7 sailing ships in ballast and 3 steamers carrying 6,485 tons of cargo from Europe to North America, and 2 tankers with 5,571 tons of oil from the east coast to the west coast of Mexico. There were 13 vessels from South America to Europe with 82,394 tons, 1 from South America to the United States with 6,120 tons, 2 from North America to Europe with 10,169 tons, and 2 tankers returning in ballast from the west to the east coast of Mexico.

The total cargo from Atlantic to Pacific was 34,153 tons, and in the opposite direction 98,683 tons.

### Spanish Shipping and the Panama Canal.<sup>1</sup>

No vessel under the Spanish flag passed through the Panama Canal in 1915 and 1916. The number of vessels recorded in 1917 and subsequent years is shown in the table:

| Fiscal year. | Atlantic to Pacific. | Pacific to Atlantic. | Total. |
|--------------|----------------------|----------------------|--------|
| 1917.....    | 10                   | 10                   | 20     |
| 1918.....    | 5                    | 7                    | 12     |
| 1919.....    | 2                    | 3                    | 5      |
| 1920.....    | 20                   | 21                   | 41     |
| 1921.....    | 22                   | 22                   | 44     |
| Totals.....  | 59                   | 63                   | 122    |

There is no Spanish line with regular sailings operating through the Canal. Of the 22 vessels southbound during the fiscal year 1921, 1 was a battleship and the remaining 21 tramp steamers from European and North American ports to Chile. Seven of them carried coal cargoes (32,156 tons) from the United States, and 14 were in ballast. The 22 vessels northbound all carried nitrate (110,920 tons) from Chile to the United States or Europe. The last of them went through in February.

### Italian Shipping and the Panama Canal.<sup>2</sup>

Very few Italian vessels used the Canal prior to the fiscal year 1920, as the following table shows:

| Fiscal year. | Atlantic to Pacific. | Pacific to Atlantic. | Total. |
|--------------|----------------------|----------------------|--------|
| 1915.....    | 1                    | 1                    | 2      |
| 1916.....    | 1                    |                      | 1      |
| 1917.....    | 1                    | 1                    | 2      |
| 1918.....    | 2                    | 2                    | 4      |
| 1919.....    |                      |                      |        |
| 1920.....    | 13                   | 13                   | 26     |
| 1921.....    | 13                   | 12                   | 25     |
| Totals.....  | 31                   | 29                   | 60     |

<sup>1</sup> This is the eleventh of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, Swedish, Chilean, Peruvian, Dutch, and French shipping.

<sup>2</sup> This is the twelfth of a series of articles on trade through the Panama Canal under different national flags. Those previously published concerned American, British, Japanese, Norwegian, Danish, Swedish, Chilean, Peruvian, Dutch, French, and Spanish shipping.

In the fiscal year 1921 all of the Italian vessels passing through the Canal belonged to two lines maintaining regular services between Genoa and Valparaiso, calling at numerous wayports in the Mediterranean, the Caribbean and on the west coast of South America. These were the Navigazione Italiana a Vapore, (La Veloce), and the Societa Nazionale di Navigazione. The former had 5 steamers southbound and 5 northbound, and the latter 8 southbound and 7 northbound. The total southbound cargo carried through the Canal by these two lines was 14,925 tons, and the total northbound cargo, 33,063 tons.

### Coal Bunkering Quotations.

Wilson, Sons & Co., Ltd., Salisbury House, London, have furnished the following list of current prices of bunker coal, as of August 30. All prices quoted are subject to confirmation:

|                                                                              |                                                                                             |
|------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|

### The Radio System on the Isthmus.

The system of radio communication operated by the Navy Department on the Isthmus contains 7 stations. The only other commercial station on the Isthmus is that of the United Fruit Company at Almirante, which has been specifically licensed to operate. The laws of Panama and the Canal Zone restrict radio operations to the control of the United States.

The Navy stations consist of the high-power station at Darien; the stations at Balboa and Colon, at the two ends of the Canal; a station at Coco Solo, primarily for naval use in local operations; and 3 outlying stations—at Punta Mala, on the western side of the entrance to the Gulf of Panama; at La Palma, diagonally opposite, on the Bay of San Miguel; and at Puerto Obaldia, on the Atlantic coast, about 2 miles from the border of Colombia.

In present practice the Darien and Balboa stations are operated together, practically as one station. Messages are received at Balboa, but not at Darien; and all sending from Balboa is done through the

Darien station. Outgoing messages are telegraphed from Balboa by land wire to Darien, where the electric impulses, operating through solenoid devices, actuate the transmitting mechanism. The three 600-foot towers at Darien carry 3 sets of antennæ. One set is for the "big arc" transmission to Arlington station, near Washington, to San Diego, and for other long-distance service; the other sets are "spark" antennæ, for local use and messages to ships as close as 1,000 miles.

San Diego is about 3,000 miles, by air, from Darien, and this distance may be accepted as Darien's regular and reliable sending range. Instances have been recorded, however, of the station's having been heard at a station in Australia, over 7,000 miles away, and by a ship at sea passing from Colombo to Aden, practically on the opposite side of the world and approximately 12,000 miles away (the steamship *M. S. Dollar*, January 21, 1921). The station has heard messages sent out from Nauen, near Berlin, San Francisco, Honolulu, and other remote points; but the range from which messages may be received is a function of the other station's transmitting power rather than of the capacity of the receiving station.

The stations at Balboa and Colon handle most of the communication with ships. The Balboa station works primarily with ships on the Pacific side, receiving their messages on the Balboa antenna and transmitting communications to them through Darien. As a rule, communication with vessels outside the Gulf of Panama is handled through the Punta Mala station; communication between the Cape Mala and Balboa stations is by either land telegraph or radio.

The Colon station works with ships on the Atlantic side, and normally communicates with them direct throughout the Caribbean area.

The Balboa station handles about 12,000 words of commercial traffic per month, Colon about 11,000, and Punta Mala about 3,500. The messages average about 15 words each. No commercial traffic is handled by the Navy radio stations between the Isthmus and points in the United States. Such business is handled by the cable lines, with the exception of company's business handled by the United Fruit Company's station at Almirante.

The bulk of the commercial business through the Navy stations is messages between steamship agents and vessels, or between the vessels and the Port Captains, with some personal messages to or from passengers. The service is available, however, for the transmission of communications between the Isthmus and points in Panama, Colombia, Ecuador, and Venezuela, to the south, and to Costa Rica, in the opposite direction.

The outlying stations at La Palma and Puerto Obaldia afford the only means of quick communication with the sections of Panama adjacent to them, as there are no telegraph or telephone lines extending into those areas from the capital. That part of the Isthmus, roughly designated as "the Darien region," is very slightly developed. On the Punta Mala side of the Gulf the telegraph lines of the Republic of Panama reach all the principal towns.

La Palma and Punta Mala stations are about 100 miles from Balboa, and the Puerto Obaldia station is about 180 miles from Cristobal. Each is in charge of an electrician, with the necessary operators for the regular watches. A tug goes from the Canal to each station once a

month, carrying supplies and mail. In practice, operators are not allowed to serve at one of the outlying stations for more than a year at a time, because in the environment of easy service, tropical surroundings, and absence of routine discipline they usually grow slack, hence in justice to the men and to the service they are not allowed to stay too long.

The oldest of the stations in point of service is that at Colon. Authority for the erection of the original station was issued in the latter part of 1904, and the station was established the following year. New apparatus was installed in 1910. The station was opened to the handling of commercial business in January, 1913. In 1914 was begun the erection of the present station, which was completed in 1915. Improved equipment was installed, and the 280-foot vertical masts were supplanted by the present 300-foot pyramidal towers, spaced 600 feet apart.

A small station at Porto Bello was opened on December 31, 1909, and used through the construction period for the transmission of messages, by way of Colon, between Porto Bello and the administrative headquarters on the Canal Zone. The Porto Bello station was approximately 17 miles from Colon. It used a 520-foot circle aerial mounted on a 150-foot mast. The station was operated until May 13, 1914, when American operations at the place were discontinued and the station was closed.

The original Balboa station was erected at the foot of Sosa Hill, in the early part of 1913, and was opened to commercial business in June of that year. It used one 110-foot mast and the smokestack of the old electrical plant at Balboa for the support of the aerial, and had a normal sending radius of 200 miles. In 1915 it was supplanted by the present station, adjoining Fort Amador. The present station, like that at Colon, has its aerial supported on two 300-foot towers, 600 feet apart, and has a normal sending radius of 500 miles.

The Darien station is situated alongside the Canal at a point almost exactly midway between the Atlantic and the Pacific. Its erection was begun on July 9, 1914, and was completed the following May, although the handling of Government messages through the station had been begun on April 5, 1915. The Darien station is, in general, like that at Arlington, Va., a 100-kilowatt plant with a normal sending radius of 3,000 miles. The aeriels are carried on three 600-foot pyramidal towers, standing at the points of an equilateral triangle, 900 feet on the side. With its normal range the station can communicate to San Francisco, to a point 400 miles south of Valparaiso, to Buenos Aires, or to St. Vincent, about 500 miles west of the coast of Africa.

Of the outlying stations, that at Punta Mala was placed in operation in May, 1919. The La Palma station was opened in July, 1919, and that at Puerto Obaldia in January, 1920. The outlying stations carry their antennæ on two 200-foot masts, 300 feet apart, and have a normal sending radius of approximately 200 miles.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.

PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., October 12, 1921.

No. 9.

## The Increasing Fresh Fruit Shipments.

Declared shipments of fresh fruits in refrigerated or ventilated space through the Panama Canal during the 8 months of this year ending August 31, aggregated 7,132 tons. Of this quantity, 5,927 tons were shipped from the west coast of the United States, 1,193 tons from Australia and New Zealand, 10 tons from the west coast of South America and 2 tons from the west coast of Central America.

All of the fruit from Australasia and 149 tons of that from the west coast of the United States, an aggregate of 1,342 tons, went to the United Kingdom. The 2 tons from the west coast of Central America were discharged at Cristobal. The 10 tons from the west coast of South America went to the United States. The 5,927 tons from the west coast of the United States were distributed as follows: One hundred and forty-nine tons to the United Kingdom, 1,023 tons to other countries of western Europe, and 4,745 tons to the east coast of the United States.

In the fresh fruit trade the unit is boxes rather than tons. Counting 30 boxes to the long ton, the shipments through the Canal in the period aggregated 213,960 boxes, and those from the west coast of the United States, 177,810 boxes.

That this quantity will be doubled by the end of the year is indicated by a statement in the *Shipping Register*, of San Francisco, to the effect that 6 steamships of the Royal Mail and the Holland-American Line's joint service will load more than 300,000 boxes of apples in Seattle for England and continental Europe between October 15 and December 15. The *Cardiganshire*, it is reported, is due to take 40,000 boxes and the *Moliere* 80,000 this month, the *Nebraska*, *Kinderdyk*, and *Eemdyk* a total of 160,000 boxes in November, and the *Moerdyk* 40,000 boxes in December. This is in the apple trade from Seattle alone, and in addition to shipments of fresh fruits from other ports.

## Canal Revenues and Expenses of Operation and Maintenance.

The fiscal year ending June 30, 1921, was the fourth consecutive year in which the Canal has earned an excess of revenues over the expenses of operation and maintenance; and the excess in the past year was sufficient to wipe out the last of the deficit in the account which had resulted from the slides in Gaillard Cut in the earlier years of Canal operation. For the year the excess of revenues over cost of operation and maintenance was \$2,711,918.56; and for the entire period of Canal operation it was approximately \$420,000. (Four hundred eighty thousand seven hundred twenty-four dollars and ninety-five cents less approximately \$60,967.60 due to the steamship operators as refunds.)

During the fiscal year ending June 30, 1921, the ordinary expenses for the operation and maintenance of the Canal, including those of civil government and sanitation, amounted to \$9,328,300.14, compared

with \$6,548,272.43 in 1920, \$6,112,194.77 in 1919, \$5,920,342.94 in 1918, and \$6,788,047.60 for the year 1917. Out of a total of \$5,745,-053.91 included in the overhead expense accounts, the sum of \$4,711,-046.99 was the proportion added to what are considered the direct expenses of operation and maintenance (viz., the expense of passing vessels through the Canal, including the operation of locks and the maintenance of the channel), to obtain the total expenses of operation and maintenance of the Canal. The overhead account includes the expenses of civil government, hospitals, quarantine, and sanitation, the Executive Department, the Accounting Department, the Washington Office, clubhouses, operation and repairs of storehouses and quarters, lighting of streets, operation of water and sewer systems, and roads, etc.

The increase of \$2,780,027.71 in the cost of operation and maintenance for the year 1921 over the preceding year resulted from a number of causes, all culminating during the fiscal year. Wages reached their highest point during the year, and all material used was that purchased at the top of the market. Considerable necessary repair work was done on equipment, which had been previously postponed on account of the congestion caused by commercial work. Also, the reduction in forces and the reorganization necessary on account of the great reduction in commercial work, due to the general depression, etc., could not be brought about simultaneously with the reduction in work, nor in any case could it be followed by an entirely corresponding reduction in expenses.

Revenues for the year exceeded those of the preceding year by \$3,-104,245.13, due principally to an increase in traffic and to an increase of \$324,525.07 in the profits on business operations, such as sales of fuel and supplies.

The revenues for the year consisted of the tolls earned on vessels passing through the Canal, \$11,261,919.31; licenses and taxes, court fees and fines, \$188,986.19; interest on balances in banks, \$25,000; and profits on business operations \$564,211.20, a total of \$12,040,-116.70.

The revenues earned in excess of current expenses were accordingly \$2,711,816.56. The charges for operation and maintenance do not include, with minor exceptions, any allowance for depreciation of plant and equipment, nor do they include any interest charges on the capital investment.

The cost of the Canal to June 30, 1921 (\$368,543,271.95) is itemized as follows: Cost of Canal, exclusive of coal and fuel oil plants, shops, dry docks, and piers, to June 30, 1921, \$335,524,258.70; equipment, exclusive of colliers and coal barges, \$8,261,682.35; shops, dry docks, and piers, \$13,457,841.77; fuel oil plants, \$1,019,358.81; coaling plants, including colliers and barges, \$10,280,130.32; total, \$368,-543,271.95. This may be considered the capital investment as of that date, although it does not include the value of the stock of material and supplies in the storehouses; nor does it include reequipment and first mortgage loans to the Panama Railroad, \$3,247,332.11, which may be repaid or covered by exchange of revenue-producing property; cost of public works in Panama and Colon, \$2,674,453.53, which is being reimbursed, with interest; value of property transferred to other departments and the Panama Railroad with book credit only, \$3,290,252.21; nor interest on Canal bonds, and cost of constructing fortifications.

Including expenditures in previous years, the aggregate of expenditures charged to operation and maintenance of the Canal to June 30, 1921, was \$45,986,067.03. The revenues offsetting this amounted to \$46,466,791.98, less approximately \$60,967.06 yet to be refunded on account of erroneous collection of tolls. The recorded excess of revenues over the cost of operation and maintenance for the period of Canal operation to June 30, 1921, was therefore \$480,724.95 less about \$60,967.06, or approximately \$419,757.89.

The cost of operation and maintenance and the revenues earned during the period of Canal operation, with the variations in the balance in this account, are shown in this statement:

|                 | Maintenance and Operation, including proportion of overhead. | Revenues.     | Revenue in excess of expenses. | Expenses in excess of revenues. | Excess of revenues over expenses to end of year. | Excess of expenses over revenues to end of year. |
|-----------------|--------------------------------------------------------------|---------------|--------------------------------|---------------------------------|--------------------------------------------------|--------------------------------------------------|
| 1914.....       | \$166,030.91                                                 | \$14,618.68   |                                | \$151,412.23                    |                                                  | \$151,412.23                                     |

| 1918.....       | 5,920,342.94                                                 | 6,411,843.28  | 491,500.34                     |                                 |                                                  | 4,860,512.96                                     |
| 1919.....       | 6,112,194.77                                                 | 6,354,016.98  | 241,822.21                     |                                 |                                                  | 4,618,690.75                                     |
| 1920.....       | 6,548,272.43                                                 | 8,935,871.57  | 2,387,599.14                   |                                 |                                                  | 2,231,091.61                                     |
| 1921.....       | 9,328,300.14                                                 | 12,040,116.70 | 2,711,816.56                   |                                 | 480,724.95                                       |                                                  |
| Totals..        | 45,986,067.03                                                | 46,466,791.98 | 6,052,933.85                   | 5,572,268.90                    |                                                  |                                                  |
| Balance surplus |                                                              |               |                                |                                 | 480,724.95                                       |                                                  |

\* Tolls on barges towed through the Canal, prior to opening to commercial ships.

\* Heavy drop due to closing Canal 7 months on account of slides.

If the original Panama Canal rules of measurement and collection on the basis of cargo-carrying capacity had been used, the account would have shown on June 30, 1921, assuming the same quantity of traffic, an excess of revenues over expenses amounting to \$7,527,658.23.

The loss through not applying the Canal rules alone, but limiting the collections by the proviso that the amount collectible shall not exceed the equivalent of that obtained by multiplying the net tonnage as determined by measurement for registry in the United States by \$1.25, amounted to \$1,937,029.04 in the fiscal year 1921, in addition to which \$2,565.97 was refunded to operators for excess collections in previous years. The total loss, comprised of lessened collections, and refunds, has amounted to \$7,046,933.28 to the end of the fiscal year 1921, in which is included approximately \$60,967.06 yet to be refunded. By fiscal years the losses, counting the refunds made so far, have been:

| Fiscal year. | Difference in tolls actually collected. | Refunds made later for excess collections during year. | Total.       |
|--------------|-----------------------------------------|--------------------------------------------------------|--------------|
| 1914.....    |                                         |                                                        |              |
| 1915.....    |                                         | \$165,457.71                                           | \$165,457.71 |
| 1916.....    | \$390,714.05                            | 22,110.46                                              | 412,824.51   |
| 1917.....    | 1,034,001.88                            | 17,382.47                                              | 1,051,384.35 |
| 1918.....    | 1,083,111.69                            | 8,701.09                                               | 1,091,812.78 |
| 1919.....    | 867,526.48                              | 1,299.39                                               | 868,825.87   |
| 1920.....    | 1,445,117.50                            | 10,948.49                                              | 1,456,065.99 |
| 1921.....    | 1,937,029.04                            | 2,565.97                                               | 1,939,595.01 |
| Totals.....  | 6,757,500.64                            | 228,465.58                                             | 6,985,966.22 |

Adding to \$6,985,966.22 the sum of \$60,967.06 due to be refunded to ships' operators, disbursement of which had not been effected to the close of the fiscal year 1921, gives \$7,046,933.28 as the aggregate loss

in Canal revenues to June 30, 1921, as the result of the change of basis from the original Canal rules.

The chart below shows graphically the relation, by fiscal years, between the expenses of maintenance and operation of the Canal, and the revenues derived; and shows also the relation of the additional revenue which would have been derived under the application of the Canal rules.

**Comparison of Expenses of Operation and Maintenance with Revenues, under present Rules of Measurement and Collection and under the Original Panama Canal Rules.**

|                                                                                       |                                     |

| Rev. and P. C.                                                                        | \$6,354,016.98 and \$868,825.87.    |
| Fiscal year                                                                           |                                     |
| 1920.                                                                                 |                                     |
| Operation and maint.                                                                  | \$6,548,272.43.                     |
| Rev. and P. C.                                                                        | \$8,935,871.57 and \$1,456,065.99.  |
| Fiscal year                                                                           |                                     |
| 1921.                                                                                 |                                     |
| Operation and maint.                                                                  | \$9,328,300.14.                     |
| Rev. and P. C.                                                                        | \$12,040,116.70 and \$1,939,595.01. |
| To end of fiscal year 1921.                                                           |                                     |
| Excess of revenues over operation and maintenance.                                    | \$419,757.89.                       |
| Under P. C. rules, excess of revenues over operation and maintenance would have been. | \$7,527,658.23.                     |

Expenses of operation and maintenance.

Revenues actually earned.

Additional tolls which would have been earned under application of Panama Canal rules of measurement and collection.

### Possible Transfer of Steamers to Panaman Registry.

Sota y Aznar, shipowners of Bilbao, Spain, credited in the 1921-1922 edition of Lloyd's Register with 25 ocean-going steamers aggregating 89,126 gross tons, have made overtures to the Republic of Panama for the transfer of a part or all of their fleet to Panaman registry. This is the first application of the kind on record, and no law was found to cover it, the existing legislation of the Republic being applicable to the coasting trade, which has been heretofore the only maritime trade under the Panaman flag. By an Executive Decree dated October 7, 1921, the President of the Republic ruled that the vessels of Sota y Aznar might be admitted to registry, and that they will be subject to an annual tax of 10 cents per net registered ton. A registration fee of \$1 per net ton will also be collected.

### Visit of Japanese Training Squadron.

The cruisers *Izumo* and *Yakumo*, comprising the 'midshipmen's training squadron of the Imperial Japanese Navy, arrived at Balboa on October 9 from San Diego. Vice-Admiral Saito is in command. An extensive program of entertainment and of showing the Canal and its terminal adjuncts has been arranged. The squadron is due to make the transit of the Canal on October 15, after which it will clear for New York, in the course of a voyage around the world.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended October 8:

Steamship *Argyll*, remove H. P. and I. P. eccentric straps; remove caps from main bearings; remove coupling bolts from main shaft; disconnect intermediate connecting rod; file faces of couplings; manufacture 1 taper reamer and 8 taper coupling bolts; remetal bearing cap; reassemble; supply boat No. 2, install new clutch.

#### PREVIOUSLY REPORTED.

Tug *Gatun*, dock, stage, clean, and paint; perform miscellaneous repairs; U. S. submarines O-11, O-13, and O-14, dock, stage, clean, and paint; perform heavy underwater C. and R. repairs and light engineering department repairs; launch *Pacific*, general repairs to hull; steamship *Panama*, reboiling and general overhaul to machinery and hull; barges Nos. 101, 146, and 195, dock, stage, clean, scale, and paint; steamships *Chifuku Maru*, repairs to main engine; *Cape Ortegai*, manufacture new H. P. cylinder head, 1 follower ring, and 30 studs.

The following vessels were at the Cristobal shops for repairs during the week ended October 10:

Steamship *General O. H. Ernst*, repair anchor windlass; repair door to bake oven; manufacture 1 belt shifter; braze steam line from throttle to by-pass valves; U. S. S. *Sciota*, repair anchor windlass as necessary; tug *La Boca*, dock and undock, clean and paint below water line; renew air pump plunger rod; renew lignum-vitæ in propeller shaft stern bushing and repack stern gland; grind-in boiler valves as designated by engineer; renew broken staybolts in boiler; overhaul all sea valves; dredge *Marmot*, dock and undock; clean and paint hull; scale where necessary; steamships *General W. C. Gorgas*, make repairs to Weir pump; make 2 iron hooks for gangway rest; make 12 file scrapers; cut off 5 inches in 1 iron strongback No. 3 hatch; *Cristobal*, furnish 6 boiler scalers; install internal feed flanges in starboard boilers; furnish 1 cast-iron ring pot; furnish 3 auxiliary stop valve disks, one finished and two unfinished; repair suction to starboard No. 4 tank; repair anchor windlass engine; launches *Doris*, *Mary B*, and *Activo*, steamships *Barima*, *Ucayali*, *Palena*, *Stuyvesant*, *Lake Hector*, *Tamar*, *Quilpue*, *Reading*, and *Astronomer*, minor repairs.

#### PREVIOUSLY REPORTED.

Bark *Golden Gate*, repair steering gear and rudderpost; steamships *Caribbean*, miscellaneous minor repairs; *Allianca*, miscellaneous engine department repairs; *General G. W. Goethals*, miscellaneous engine and deck department repairs, U. S. S. P. 1841, dock and undock; fit up for towing to the United States.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, October 8, 1921.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

## Visit of the "Carnegie," Engaged in Magnetic Survey of Earth.

The yacht *Carnegie*, which is engaged in a magnetic survey of the earth being carried on by the Carnegie Institution of Washington, D. C., arrived at Balboa, October 7, from Apia, Samoa. She went into dry dock for renewal of her rudderpost, cleaning and painting. Upon completion of the work, about the end of this week, the *Carnegie* will transit the Canal and sail for Washington. She is in command of Capt. J. P. Ault, who is both master of the vessel and director of the scientific work.

This will be the third passage of the *Carnegie* through the Canal. She was first here in April, 1915, and again in May, 1918. The magnetic survey on which she is engaged was begun in 1904 by the *Galilee*; the *Carnegie* went into service in 1909. The present voyage of the *Carnegie* began in October, 1919, in Washington. Taking observations at intervals, the vessel proceeded across the Atlantic to Dakar, thence to Buenos Aires, St. Helena, Cape Town, across the Indian Ocean to Colombo, thence to Fremantle and Lyttelton, the Society Islands, San Francisco, Honolulu, Samoa, Rarotonga, and Balboa. The voyage covered, altogether, about 65,000 miles and was,

principally, for the purpose of filling in with observations in areas which had not been sufficiently covered before and recrossing the old lines for the purpose of determining changes in magnetic conditions.

The work of the *Carnegie*, as described in *The Canal Record* of April 14, 1915, is primarily to determine the magnetic declination of the compass at different points, the horizontal intensity and the dip of the magnetic field. The importance of keeping track of the magnetic declination and correcting charts accordingly is appreciated by mariners. A striking example of the extent to which the pointing of the compass may change is afforded by the records of declination in the city of London. In 1580 it was determined to be  $11^{\circ}$  to the east of true north and by 1812 it had changed to  $24^{\circ}$  west. The true north as determined in scientific observations is not the position of the North Star, which is usually about  $1\frac{1}{2}^{\circ}$  off from true north, but is the hypothetical position in the firmament which represents the projection of the axis running through the north and south poles of the earth.

During this latest voyage the observers on the *Carnegie* encountered an interesting demonstration of the practical economic value of determining the magnetic declination. In Colombo they were called upon to testify in a land suit which hinged on the determination of a line run by the compass. The line was surveyed some years ago and recently the owner of one of the tracts divided by the line had it resurveyed, as a result of which it appeared that the line should have run considerably to one side of the accepted boundary. The man who had caused the new survey claimed additional territory. The owner of the territory contested that what had happened was that the declination of the compass had changed since the original line was run; that the old line was correct at the time made and had been acceptable to both parties to the contract and, accordingly, should stand. The observers on the *Carnegie* were called to testify in the court as to whether the compass had suffered a change in declination. Their observations showed that it had and the court decided that the original line should stand.

In navigating on the high seas, if the course is determined by the compass and the declination appearing on the chart should be as much as  $3^{\circ}$  off, which it frequently is, this could make a difference of about 30 miles a day and in 3 or 4 days a vessel might steer 90 or 100 miles off the course. It is said that if a vessel were to steer from the north Atlantic for Falmouth by the charts of a century ago her course would bring her, without the intervention of any other means of determining the situation, to the Orkney Islands in north Scotland.

In addition to the magnetic survey for practical purposes, the staff of the *Carnegie* makes observations which are of abstract scientific value. One is the measurement of the amount of electricity in the air, another the amount of radium in the air and in the sea water. The whole study, however, is in the field of terrestrial magnetism and the great object of the surveys is to determine as much as possible about the nature of magnetism and how its effects and changes can be measured and predicted; in other words, to obtain a measure of exactness with reference to terrestrial magnetism which might be comparable with present knowledge of industrial electricity or branches of chemistry.

While on the Isthmus the observers of the *Carnegie* will take observations from their station on the west shore of Limon Bay, opposite

Colon. This station was established in 1905 and on an average of once a year ever since some observer from the Carnegie Institution has made observations at this point.

Dr. Louis A. Bauer, the Director of the Department of Terrestrial Magnetism of the institution arrived on the Isthmus on October 11, to join the *Carnegie* and will be aboard her during the remainder of her voyage.

The *Carnegie*, as reported in *The Canal Record* of April 14, 1915, is a nonmagnetic vessel, being constructed and equipped with practically no iron or steel or other magnetic substance aboard her. She is a sailing vessel, equipped with a small auxiliary engine capable of making about 4 knots in a calm. The engine and the stove in the galley are of brass, the anchors of bronze, and in the building of the hull locust spikes were used. The vessel is 155½ feet long, over all, 128 feet 4 inches in length at the load water line, 33 feet in beam. The crew consists of 23, including 6 scientists.

Since her previous visits to the Canal the *Carnegie* has been equipped with electric lights. The wiring and insulating material are of brass and other nonmagnetic material and the small generator, which is situated aft in the engine room, is always shut down while magnetic observations are being taken. The influence of the electrical equipment is nil.

In her voyage from Apia to Balboa, by way of Rarotonga, the *Carnegie* was 74 days at sea.

#### Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

## Increasing Danger of Plague.—Steps to Prevent Spread.

THE PANAMA CANAL,

BALBOA HEIGHTS, C. Z., October 12, 1921.

*To Owners, Masters, and Agents of vessels arriving at Panama Canal Zone ports, and all others concerned:*

Bubonic plague is now prevalent in many of the seaports of the world. It is of the utmost importance to shipping interests that every possible measure be taken to prevent the spread of this disease to other ports and it is imperative that the Panama Canal, an international highway, continue free of plague.

To accomplish this, it is necessary to prevent the migration of rats by ships and to this end the Quarantine Regulations of The Panama Canal will be strictly enforced. Ready compliance with these regulations and hearty cooperation with the Quarantine Officers will react to the benefit of shipping interests, by the protection of the health of ships' companies and the prevention of expensive and vexatious quarantines, here and elsewhere. The regulations now in force are the minimum compatible with safety and as such must be obeyed in all particulars. Arriving vessels will observe the following regulations under penalty of being placed in quarantine and moved from the docks or fined, or both.

Metal rat guards not less than 3 feet in diameter will be applied to *all* mooring lines. They must be in good repair and must *fit* the lines *accurately*. They must *not* overhang or be nearer to the dock than 6 feet. Ships must be breasted off at least 6 feet. When exception is made to this rule on account of short cargo booms, the vessel will be immediately breasted off when not working.

Save-alls, catch-alls, hose, and all communications with the dock except gangways and properly rat-guarded lines, must be disconnected at night and when the ship is not working. Gangways must be raised at night or well lighted and guarded by a watchman.

Vessels should be fumigated frequently for the extermination of rats and other vermin aboard. All arriving vessels, except those not discharging cargo or passengers at Canal ports, which have not been satisfactorily fumigated within 3 months will be fumigated. Vessels habitually using Canal ports exclusively (tugs, dredges, barges, etc.) will be fumigated at least every 6 months.

Respectfully,

M. L. WALKER, *Acting Governor.*

## Charges for Delivery on Radio Messages to Addresses in Colon and Cristobal.

Effective November 1, in addition to the regular station rate of 6 cents per word on messages received at the Colon radio station for addresses in Colon and Cristobal, there will be a further charge of 2 cents per word for the first 10 words and 1 cent for each word thereafter, to cover delivery. The present delivery service of the station will be discontinued, and messages will be delivered through the Panama National Telegraph system; the addition to the rate covers the charges of that organization.

Outgoing radio messages may be filed at the Panama National Telegraph office, and the same extra charges will be levied on them for transmission to the radio station. Messages may be filed at the radio station itself, in which case the regular station rate of 6 cents a word will apply. Messages may also be filed at any Panama Railroad telegraph office, under a charge of 20 cents for a message of 10 words or less, plus 1 cent for each word in excess of 10.

At the Balboa station the arrangement which is to be established for the Atlantic end has been in operation for some time.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, October 15, 1921.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

NOTE.—These data are compiled from declarations of cargo and manifests submitted by the ships' masters, and, while incomplete, are indicative of the kind and quantity of the various commodities passing through Canal. From the cargo declarations submitted it was possible to classify 70 per cent of the cargo passing from the Atlantic to the Pacific, and 95 per cent of the cargo from Pacific to Atlantic ports; the remaining cargo has been included as "General."

**Supplement No. 4 to Tariff No. 5.—Coal.**

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., October 12, 1921.

**ITEM 21.—COAL.**

(Effective October 15, 1921.)

|                                                                                                                                                                                                                                                                                                                                     | Cristobal-Colon.              | Balboa. |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|---------|
| 1. For steamships, including warships of all nations, delivered from coaling plants, per ton of 2,240 pounds, except as provided in paragraph 2.....                                                                                                                                                                                | \$12.00                       | \$15.00 |
| 2. For vessels transiting the Canal that are directed by The Panama Canal to take coal at Balboa on account of the condition of the plants, the quantity available, or for the purpose of expediting transit.....                                                                                                                   |                               | 12.00   |
| 3. For steamships, including warships of all nations, when delivered from lighters in quantities of 50 tons or more, per ton of 2,240 pounds.....                                                                                                                                                                                   | 13.00                         | 16.00   |
| 4. For steamships, including warships of all nations, when delivered from lighters in quantities of less than 50 tons with minimum charge for 20 tons and with maximum charge not to exceed that for 50 tons at prices specified in paragraph 3, per ton of 2,240 pounds.....                                                       | 15.00                         | 18.00   |
| 5. When request is made by commander of vessel, chief engineer, or agent, for trimming on deck, between decks, or special trimming in bunkers for convenience of vessel, an additional charge of 90 cents per ton will be made for extra handling.                                                                                  |                               |         |
| 6. For lump coal for galley use, delivered in sacks, additional charge per ton, \$12. Should the vessel furnish satisfactory sacks, the charge will be only \$5 per ton additional. If delivery is made other than at the reloading side of the coaling plant, the extra cost of such special delivery will be charged in addition. |                               |         |
| 7. For coal for cargo, delivered only by special authority of the Governor, per ton of 2,240 pounds.....                                                                                                                                                                                                                            | Prices quoted on application. |         |

M. L. WALKER,

*Acting Governor, The Panama Canal.*

*Second Vice President, Panama Railroad Company.*

**Milk.**

One hundred tons of powdered milk were shipped through the Canal in September from New York to Chilean and Peruvian ports. In the preceding month, 26 tons were shipped from the west coast of the United States to the Atlantic coast of the United States. From the beginning of the calendar year, 2,741 tons of dried or powdered milk have passed through the Canal from Pacific to Atlantic, but the 100 tons in August were the first declared from Atlantic to Pacific. Of the 2,741 tons from Pacific to Atlantic, 2,570 tons were from Australia and New Zealand for the United Kingdom, and 171 tons from the Pacific coast of the United States to the Atlantic coast of the United States.

Canned milk (condensed or evaporated) has been shipped through the Canal in considerable quantity from the beginning of its operation. In September 150 tons were shipped from the Atlantic coast of the United States to the Far East, and in the preceding portion of the calendar year the shipments from Atlantic to Pacific aggregated 723 tons. Of this quantity, 501 tons were from the United States to the Far East, 220 tons from the United States to the west coast of South America, and 2 tons were from Cristobal (transferred shipments) for the west coast of South America.

The traffic from Pacific to Atlantic in canned milk has been heavier than that in the opposite direction. In September it amounted to

2,701 tons, of which 2,695 tons were from the west coast of the United States and 6 tons from Canada. The 6 tons from Canada went to France and the American shipments were 800 tons from Seattle to the United Kingdom and 1,895 tons from several ports to the Atlantic coast of the United States, one shipment alone amounting to 875 tons. Previous shipments in the calendar year were made up of 344 tons from Australasia to the United Kingdom, 1,732 tons from the United States to the United Kingdom, and 1,666 tons in the United States coastwise trade, a total of 3,742 tons.

### **Ships at Canal Repair Shops.**

The following vessels were at the Balboa shops for repairs during the week ended October 15:

Survey vessel *Carnegie*, dock, stage, clean and paint bottom; make fresh water connection for circulating system on gasoline engine; perform necessary repairs to rudder; draw tail shaft; renew broken portion of tail shaft sleeve; launch *Wilson B. Gaither*, scrape and clean bottom; renew shoe; renew part of stem; renew bulwark and rail capping as necessary; overhaul Delco lighting plant and renew foundation of same; renew coupling to circulating water pump; house boat *No. 179*, dock, stage, and clean; scale and paint bottom to light load line; examine and repair hull and tanks as necessary; barges *No. 106*, dock, stage, and clean; scale and paint bottom to light load line; examine and repair hull and tanks as necessary; *No. 107*, dock, stage, and clean; scale and paint bottom to light load line; examine and repair hull and tanks as necessary; *No. 108*, dock, stage, and clean; scale and paint bottom to light load line; examine and repair hull and tanks as necessary.

The following vessels were at the Cristobal shops for repairs during the week ended October 17:

Steamship *Colon*, furnish 6 hatch bar bolts for No. 3 hatch with washer and nuts; renew 6 hatch bar bolts for No. 2 hatch with washer and nuts; make and fit 1 valve seat for fire pump; make and fit 1 valve seat for brine pump; make 3 valve stems for sanitary pump; repair automatic steam valve starboard feed pump; repair chain fall; fit heavier flanges on steam pipes to winches; launch *Gloriana*, repair deadwood, shaft log and keel, and renew as found necessary; remove copper on bottom; calk hull; test and reinstall copper; manufacture and install awning; repair monkey rail; repair sides of booby hatch; remove cylinders, piston, connecting rods, and flywheel from main engine; unship engine base from foundation; raise and block base up for shipwrights to work on keel; reinstall and assemble engine; straighten strut and install; straighten propeller and install; manufacture and install rudder and stock, etc.; steamship *Balboa*, renew lagging and jacket on boilers where necessary; manufacture and fit gooseneck on No. 4 cargo boom; repair 1 swivel and cargo hook, etc.; barge *No. 122*, dock and undock, clean and paint as directed; tug *La Boca*, straighten bulwarks, install new channel iron top rail; dredge *Marmot*, renew plates and woodwork in well as directed; repair angles and fenders; steamships *La Navarre*, *Honduras*, and *Herbert G. Wylie*, launch *Gargoyle*, motor ship *Selandia*, minor repairs.

### **PREVIOUSLY REPORTED.**

U. S. S. *Sciota*, repair anchor windlass; steamships *Cristobal*, install internal feed flanges in starboard boilers, etc.; *General W. C. Gorgas*, make repairs to Weir pump; make 2 iron hooks for gangway rest, etc.

### **Seismic Disturbance.**

An earthquake shock of greater intensity than the usual seismic disturbances on the Isthmus occurred in the morning of October 17. The seismograph record at Balboa Heights showed that the movement began at 6.36.22 a. m. and ended at 6.40.30 a. m., lasting 4 minutes and 8 seconds. The maximum amplitude of displacement was 27 millimeters, and the intensity was estimated at III or IV on the Rossi-Foré scale of I to X. The distance of the epicenter of disturbance was estimated at 70 miles from Balboa Heights, in a westerly direction. The shock was less violent than three or four of those which occurred in October, 1913.

### Report of Cargo Discharged and Laded by Vessels Entering and Clearing from Port of Cristobal for Two Weeks Ending October 15, 1921.

| Name of vessel.      | Line or charterer.               | Arrived.    | Departed.   | Cargo—                            |                               |
|----------------------|----------------------------------|-------------|-------------|-----------------------------------|-------------------------------|

### Current Net Prices on Coal, Fuel Oil, and Beef.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

The following are current prices on fresh beef sold from the cold storage plant of the Canal. Prices quoted are United States currency, per pound net:

Beef hinds, 21 cents; beef fores, 13½ cents; beef ribs, entire set, 21 cents; short loins, 30 cents. This beef is from Colombian cattle slaughtered on the Isthmus.

### Price of Commissary Supplies.

Coffee, Commissary Special, lb. . . . . \$0.23

Sugar, finest, highly refined, States' granulated:

25-lb. sack . . . . . 1.75

5-lb. sack . . . . . .37

Lima beans, lb. . . . . .09

Spinach, 10-lb. tin . . . . . .66

Apples, 10-lb. tin . . . . . .69

Sweet potatoes, 10-lb. tin . . . . . .78

Navy beans, lb. . . . . .05

Roast beef, 6-lb. tin . . . . . 1.90

Boiled beef, 6-lb. tin . . . . . 1.50

Salad oil, 24-oz. bot. . . . . .33

Beef, hind quarters, lb. . . . . .21

Beef, fore quarters, lb. . . . . 1.33

Square chuck with prime ribs, lb. . . . . .16

Ribs, lb. . . . . .21

Short loins, lb. . . . . .30

Pork carcasses, lb. . . . . .24

Lamb carcasses, lb. . . . . .38

Mutton carcasses, lb. . . . . .25

Veal carcasses, lb. . . . . .34

Bananas, doz. . . . . .06

Bananas, hand . . . . . .07

Coconuts, ea. . . . . .04

Grapefruit, graded . . . . . 03, .05

Oranges, select Costa Rican . . . . . 03, .04

Carrots, lb. . . . . .06

Turnips, lb. . . . . .06

Pickles, bulk, gal. . . . . 1.40

Soap, brown laundry, cake . . . . . .07

Tea, English Breakfast, lb. . . . . .39

Soup, Campbell's, assorted, tin . . . . . .13

Rice, lb. . . . . .05

Jams, all flavors, 1-lb. tin . . . . . 1.40

Peaches, 10-lb. tin . . . . . 7.20

Condensed milk, case (48) . . . . . 5.76

Evaporated milk, case (48) . . . . . .30

Ketchup, pint bottle . . . . . .25

Vinegar, cider, large bottle . . . . . .48

Bacon, States', lb. . . . . .39

Ham, sugar cured, lb. . . . . .20

Corned beef, lb. . . . . .24

Standard mess pork, lb. . . . . .17

Lard compound . . . . . 1.35

Oleomargarine, 5-lb. tin . . . . . .44

Yeast, lb. . . . . .29

Pork sausage, lb. . . . . .48

States' potatoes, graded to special specifications. . . . . 05½

Lettuce, lb. . . . . .08

Onions, lb. . . . . 07½

Oranges, doz. . . . . .30

Cabbage, lb. . . . . .06

### MOVEMENTS OF OCEAN VESSELS.—Continued from page 147.

## CANAL WORK IN SEPTEMBER.

The following is the report of the Acting Governor to the Secretary of War, of Canal work in the month of September, 1921:

BALBOA HEIGHTS, C. Z., October 20, 1921.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of September, 1921.

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                             | September,<br>1921. | August,<br>1921. | September,<br>1920. |
|---------------------------------------------|---------------------|------------------|---------------------|
| Commercial vessels .....                    | 221                 | 236              | 256                 |
| United States Government vessels .....      | 37                  | 31               | 12                  |
| Launches, etc. (under 10 tons) .....        | 2                   | 7                | 6                   |
| Total vessels and craft through Canal ..... | 260                 | 274              | 274                 |

### COMMERCIAL TRAFFIC.<sup>1</sup>

Commercial traffic through the Panama Canal during the month of September, 1921, fell slightly below that of the preceding month, but exceeded that for the months of May, June, and July, 1921.

Commercial vessels passing from the Atlantic to the Pacific numbered 128, and in point of tonnage not only exceeded the September traffic of last year, but with the exception of the months of December, 1920, and March, 1921, is the greatest Atlantic-Pacific traffic since the opening of the Canal.

Analyzing this traffic, and comparing it with the corresponding month of last year, and with the average month for the fiscal year ending June 30, 1921, we have the following:

|                                                         | September,<br>1921. | September,<br>1920. | Average month<br>for fiscal year<br>1921. |

| <b>Total Panama Canal net tonnage, Atlantic to Pacific.....</b>         | <b>530,634</b>      | <b>504,349</b>      | <b>478,409</b>                            |

Commercial traffic from the Pacific to the Atlantic, with the exception of June, 1921, was the lowest in point of tonnage since June, 1920. Analyzing this traffic, and comparing it with the corresponding month of last year, and with the average month for the fiscal year ending June 30, 1921, we have the following:

|                                                                    | September,<br>1921. | September,<br>1920. | Average month<br>for fiscal year<br>1921. |

It will be seen from the above analysis that traffic both to and from the west coast of the United States and Canada was much greater than for the corresponding month of last year, or of the average month for the past fiscal year. This increase shows both in the United States coastwise and in the West Coast-European traffic. Heavy shipments of grain, together with canned goods and lumber, made up the bulk of the cargoes from the west coast.

Traffic to and from the west coast of South America totaled only about half the normal tonnage as represented by the average month for the past fiscal year. This is due to a number of causes, chief of which is the continued stagnation in the nitrate trade, and the almost complete stoppage of oil shipments from Mexico.

The Australasian traffic also shows a decrease, particularly in the Pacific to the Atlantic traffic, which was less than half the tonnage for the average month during the past fiscal year. Traffic from the Far East also fell below the normal tonnage,

while the traffic to and from the east coast of Mexico was greatly curtailed due to the unsettled conditions in the Mexican oil fields.

A further comparison of the commercial traffic for September, 1921, with that of the preceding month, of the corresponding month of 1920, and of the average month's traffic for the past 12 months, shows the following.

|                                           | September,<br>1921. | August,<br>1921. | September,<br>1920. | Average month<br>for past year. |

| Registered gross tonnage.....             | 1,167,220           | 1,219,817        | 1,293,470           | 1,193,436                       |
| Registered net tonnage.....               | 743,574             | 780,945          | 817,810             | 760,252                         |
| Tolls earned.....                         | \$892,001.54        | \$955,380.78     | \$1,010,150.63      | \$928,341.93                    |
| Tons of cargo carried.....                | 754,894             | 839,273          | 1,009,557           | 913,771                         |

Ocean-going commercial vessels passing through the Canal averaged 7.4 ships per day. The average tonnage, tolls, and tons of cargo carried, per commercial vessel, as compared with last month's traffic, and with September, 1920, were as follows:

|                                           | September,<br>1921. | August,<br>1921. | September,<br>1920. |
|-------------------------------------------|---------------------|------------------|---------------------|
| United States equivalent net tonnage..... | 3,388               | 3,358            | 3,265               |
| Panama Canal net tonnage.....             | 4,186               | 4,090            | 3,956               |
| Registered gross tonnage.....             | 5,282               | 5,169            | 5,072               |
| Registered net tonnage.....               | 3,365               | 3,309            | 3,207               |
| Tolls.....                                | \$4,036.21          | \$4,048.22       | \$3,945.96          |
| Tons of cargo (all vessels).....          | 3,416               | 3,556            | 3,944               |
| Tons of cargo (laden vessels only).....   | 4,289               | 4,217            | 4,853               |

#### TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

While all cargo-carrying vessels pay tolls on their net tonnage, as determined by established rules for measuring their available cargo-carrying space, yet the rate of such tolls per cargo ton furnishes interesting data, varying as it does not only in different ships, but in vessels of different nationalities.

The average rate of tolls paid on each ton (2,240 pounds) of cargo passing through the Panama Canal from the Atlantic to the Pacific was \$1.23, and from the Pacific to the Atlantic, \$0.77 per ton, with a general average of \$0.95 per ton. The average rate paid per cargo ton, by nationality of vessels, is shown in the following statement:

|                                               | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|-----------------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                                  | \$1.14                     | \$0.90                     | \$1.01              |
| Chilean.....                                  | 3.77                       | 2.50                       | 3.10                |
| Danish.....                                   | .64                        | .60                        | .62                 |
| Dutch.....                                    | 3.45                       | .65                        | 1.21                |
| French.....                                   | 38.46                      | .87                        | 1.74                |
| German.....                                   | .89                        | .....                      | .89                 |
| Italian.....                                  | 8.45                       | .53                        | 1.38                |
| Japanese.....                                 | .65                        | .71                        | .69                 |
| Norwegian.....                                | 36.62                      | .67                        | .72                 |
| Peruvian.....                                 | 8.74                       | 1.20                       | 2.52                |
| Swedish.....                                  | .....                      | .52                        | .52                 |
| United States.....                            | 1.25                       | .75                        | .96                 |
| Average rate, all ships, September, 1921..... | 1.23                       | .77                        | .95                 |
| Average rate, all ships, August, 1921.....    | 1.18                       | .88                        | .99                 |
| Average rate, all ships, July, 1921.....      | 1.44                       | .83                        | 1.05                |

The rate of tolls per cargo ton paid by vessels transiting the Canal in September, 1921, varied from \$38.46 per ton paid by the steamship *Saint Louis*, French registry, bound from Havre to Talcahuano, and carrying 118 tons of cargo, on which tolls of \$4,538.75 were assessed; to 44.7 cents per cargo ton, paid by the steamer *Willhilo*, United States registry, bound from Seattle to New York, and carrying 9,971 tons of general merchandise, on which tolls of \$4,458.75 were collected.

The variation in the rate of tolls paid per cargo ton by different vessels, and by vessels of various nationalities, is due to some vessels being but lightly loaded while others are carrying capacity cargoes. This also explains the variation in the rates per cargo ton between northbound and southbound ships of the same nationality.

## COMMODITY STATISTICS.

A classification of all cargo passing through the Canal during the month of September, 1921, by commodities, giving the origin and destination of same, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of October 19, 1921. These statistics are compiled from declarations of cargo submitted by the ships' masters, and while incomplete, are indicative of the kind and quantity of commodities passing through the Canal. From the cargo declarations and manifests submitted, it was possible to classify 70 per cent of the September, 1921, cargo passing from the Atlantic to the Pacific, and 95 per cent from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

## CARGO PASSING FROM ATLANTIC TO PACIFIC.

## TRAFFIC BY TRADE ROUTES.

A detailed statement of the September traffic by trade routes has previously been compiled, and was published in THE PANAMA CANAL RECORD under date of October 12, 1921. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes. Traffic for the preceding month and for the corresponding month of last year is also shown, which affords a ready comparison of traffic over the leading trade routes:

## LATIN-AMERICAN TRAFFIC.

In point of net tonnage, the Latin-American traffic for September, 1921, fell below that for August, and was but little more than half that for the corresponding month of last year. In cargo tons the decrease was even more marked, and the September traffic was approximately only a third of the cargo tonnage for September, 1920. The following tabulations show the number of vessels, tonnage, and tons of cargo carried by vessels engaged in the Latin-American trade, classified by nationality:

## ATLANTIC TO PACIFIC.

## CLASSIFICATION OF COMMERCIAL TRAFFIC.

A statement of this month's commercial traffic, classified (1) according to the nationality of the various ships passing through the Panama Canal, and (2) segregating laden and unladen vessels, is shown in the following tabulations:

\* Commercial traffic includes all ocean-going vessels transiting the Panama Canal, excepting vessels owned or chartered by the United States Government.

| Nationality.                                                                                          | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.    |
|-------------------------------------------------------------------------------------------------------|----------------------------|----------------------------|-----------|
| Number and nationality of commercial vessels passing through the Canal:                               |                            |                            |           |
| British.....                                                                                          | 44                         | 31                         | 75        |

## CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of, and amount of cargo carried by United States Government vessels passing through the Panama Canal during the month of September, 1921. This traffic passes through the Panama Canal free of tolls; if tolls had been assessed against these vessels, however, at commercial rates, the amounts collected would have been as indicated below:

In this statement is also included the number and tonnage of launches transiting the Canal, together with the tolls collected thereon. Although paying tolls they are included in the noncommercial traffic, being small nonseagoing vessels of under 10 tons measurement.

|                                                                            | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | Total.      |
|----------------------------------------------------------------------------|----------------------------|----------------------------|-------------|
| United States Navy vessels:                                                |                            |                            |             |

## METEOROLOGY AND HYDROGRAPHY.

The rainfall over the Canal Zone and immediate vicinity was generally slightly below normal. Totals ranged from 3.27 inches at Balboa Heights to 15.69 inches at Monte Lirio. The greatest amount of rainfall recorded on any one day was 3.07 inches at Brazos Brook on the 16th. The estimated rainfall over Gatun Lake watershed area was 11.98 inches, compared with an 11-year mean of 11.66 inches; while over the Chagres River watershed, or above Alhajuela, it was 11.61 inches, compared with a 20-year mean of 12.46 inches.

The discharge of the Chagres River at Alhajuela was 3,135 c. f. s., being 2 per cent below the 20-year September mean of 3,187 c. f. s. The maximum discharge for the month of September of record was 4,732 c. f. s. in 1917, and the minimum September discharge was 1,722 c. f. s. in 1905. The maximum momentary discharge for the month was 17,750 c. f. s. at elevation 99.57 feet on the 1st.

The Gatun Lake watershed total yield for the month was 9,457 c. f. s., being 9 per cent above the 11-year September mean of 8,712 c. f. s. The maximum total yield for the month of September of record was 11,946 c. f. s. in 1917, while the minimum total yield was 4,703 c. f. s. in 1911. The net yield for the month was 8,995 c. f. s., which is 10 per cent above the September average yield of 8,176 c. f. s. The lake varied in elevation from 85.81 on the 23d to 85.40 feet on the 21st.

The draft on the lake for lockages and power was 2,182 c. f. s., compared with 2,234 c. f. s. for last month, and 2,473 c. f. s. for September, 1920. The ratio of water expended for power and lockages was 2.35 to 1. A total of 443.5 spillway gate hours were necessary to control the lake during the month.

Gamboa pump station and Brazos Brook reservoir drew 38.2 and 35.4 million cubic feet, respectively, from the lake.

Miraflores Lake varied in elevation from 54.30 feet to 52.47 feet, and ended at elevation 53.77 feet midnight the 30th.

Temperature records for the month of September are given below:

| Station.            | Maximum. | Minimum. | Monthly mean. |
|---------------------|----------|----------|---------------|
| Balboa Heights..... | 91       | 71       | 79.6          |
| Gamboa .....        | 89       | 71       | 79.2          |
| Alhajuela .....     | 91       | 68       | 78.5          |
| Gatun .....         | 89       | 72       | 80.3          |
| Colon .....         | 91       | 72       | 81.5          |

The following gives a comparison of the monthly rainfall by sections for September, 1921, and September, 1920:

| Section.      | Rainfall.      |                | Rainy days. |       |
|---------------|----------------|----------------|-------------|-------|
|               | 1921.          | 1920.          | 1921.       | 1920. |
|               | <i>Inches.</i> | <i>Inches.</i> |             |       |
| Pacific.....  | 5.64           | 11.74          | 23          | 22    |
| Central.....  | 11.75          | 12.20          | 24          | 23    |
| Atlantic..... | 11.38          | 7.94           | 24          | 22    |

A slight tremor from a distant disturbance was recorded on the 10th of the month, beginning at 11.22 p. m., and ending at 1.20 a. m., of the 11th. The tremor was so slight that no estimate could be made as to the distance or direction of the epicenter.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in comparative form, in the following tabulation:

|                                                                          | September, 1921. | August, 1921. | September, 1920. |
|--------------------------------------------------------------------------|------------------|---------------|------------------|
| Gross output, KWH:                                                       |                  |               |                  |
| Gatun hydroelectric station.....                                         | 5,198,300        | 5,522,900     | 6,129,100        |
| Miraflores steam plant.....                                              | 1,970            | 2,100         | 19,490           |
| Combined gross output.....                                               | 5,200,270        | 5,525,000     | 6,148,590        |
| Water consumption..... cubic feet..                                      | 3,970,751,857    | 4,186,412,827 | 4,414,970,000    |
| Oil consumption..... barrels..                                           | 1,953            | 1,990         | 1,937            |
| Power distributed to consumers..... KWH ..                               | 4,396,098        | 4,663,235     | 5,183,953        |
| Loss of power in plant auxiliaries, transmission and transformation..... | 804,172          | 861,765       | 964,637          |
| Per cent of loss of power to gross output.....                           | 15.5             | 15.6          | 15.5             |

The following new construction work was under progress during the month, with completion on August 31 and September 30 as follows:

|                                                                                           | Per cent completed. |           |
|-------------------------------------------------------------------------------------------|---------------------|-----------|
|                                                                                           | Aug. 31.            | Sept. 30. |
| Installation of new 8,400 KVA transformer and new tie-line equipment at Gatun substation. | 80                  | 90        |
| Installation of 2 complete feeder equipments at Balboa substation.....                    | 95                  | 95        |
| Installation of electrical equipment at hydroelectric station.....                        | 55                  | 100       |

Miscellaneous electrical repairs and installations of electrical equipment were made on 11 vessels at Cristobal and 25 vessels at Balboa during the month. There were 374 work orders issued for work to be performed by the Electrical Division during the month of September, as compared with 438 for August.

#### SHOP, FOUNDRY, AND DRY DOCK WORK.

At the Balboa shops, miscellaneous repairs were made on 31 vessels, the more important of which were as follows:

The new boilers were placed in the steamship *Panama*, together with the uptake and smokestack. Work on the double bottoms was completed. Construction of new cold storage rooms was completed with the exception of piping installation. Substantial progress was made on the other repairs to the vessel.

On the steamship *Solana*, repairs to the bow plating were completed together with miscellaneous machinery repairs to the vessel. Repairs to the hull and miscellaneous engine and deck repairs were made on the steamship *Bradford*. The boilers and feed pump of the steamship *Donald McKay* were repaired.

The routine docking of the Dredging Division fleet, which was started at the end of August, was continued, 12 vessels being dry-docked during the month.

At the Cristobal shops miscellaneous repairs were made on 47 vessels, the more important of which were as follows:

The U. S. S. P. 1841 was docked and the bottom cleaned and painted. The fore-castle deck was removed and replaced by a wooden deck; the smokestack was removed and the housing over engine and firerooms renewed.

On the U. S. S. No. 287, all C. and R. sea valves were overhauled; the bottom cleaned, and screens on underwater suction renewed where necessary. One propeller blade was straightened and other miscellaneous repairs were made.

The hull of barge No. 21 was cleaned, patched, and painted. Barge No. 1 was cleaned and painted and 6 shell plates renewed.

There were 29 vessels dry-docked during the month; 11 at Cristobal, and 18 at Balboa.

The output of the Mechanical Division in patterns and castings for September, as compared with the preceding month, was as follows:

|             | September, 1921. |           |         | August, 1921. |           |         |
|-------------|------------------|-----------|---------|---------------|-----------|---------|
|             | Patterns.        | Castings. | Pounds. | Patterns.     | Castings. | Pounds. |
| Iron .....  | 14               | 248       | 10,407  | 5             | 1,035     | 29,240  |
| Steel ..... | 2                | 26        | 6,720   | 2             | 19        | 16,170  |
| Brass ..... | 4                | 152       | 5,275   | 15            | 483       | 11,737  |

The 5 towing locomotives for the locks were completed during the month and delivered for installation of electric wiring.

The routine inspection, hostling, and repair of equipment for the Panama Railroad Company was carried on during the month. Four hundred and forty job orders were completed during the month, with 244 remaining uncompleted at the end of the month.

One hundred and twenty special individual and company job orders were issued during the month, 12 of which were for work on naval vessels, and 25 covered repairs to commercial vessels, exclusive of the Panama Railroad steamships.

#### DREDGING DIVISION.

There were no slide movements of consequence during the month. Cucaracha slide remained inactive except for occasional periodical surface movements and a slight general movement near the south crest, about elevation plus 360, but which at present is considered unimportant.

A slow general movement has continued through the entire length of West Culebra and East Barge Repair slides, and a slight independent movement occurred at East Culebra slide on the 10th, between stations 1765 and 1770, which caused about 35,000 cubic yards of material to come into the Canal prism.

No inconvenience to Canal traffic was occasioned by any of the above movements.

The total excavation in September, including earth and rock, was 460,250 cubic yards, as follows:

| Cubic yards. | Classified as-- |         | Character of work. | Stations.                                                                | Equipment.       |
|--------------|-----------------|---------|--------------------|--------------------------------------------------------------------------|------------------|
|              | Earth.          | Rock.   |                    |                                                                          |                  |

Construction work, as itemized below, was under progress during the month, with completion on August 31 and September 30 as shown:

|                                                                  | Per cent completed. |           |
|------------------------------------------------------------------|---------------------|-----------|
|                                                                  | Aug. 31.            | Sept. 30. |
| Construction of new concrete sea wall, Santo Tomas Hospital..... | 50                  | 53        |
| Extension of roads, new Santo Tomas Hospital.....                | 6                   | 6         |
| Concrete roof, low service reservoir.....                        | 70                  | 98        |
| Grading at Silver City, Mount Hope.....                          | 60                  | 75        |
| Storm sewer, Diablo Road, at lumber shed.....                    | 45                  | 60        |
| Foundation for statue of Balboa.....                             | 32                  | 79        |
| Extension of sewers, new Santo Tomas Hospital.....               | .....               | 35        |

Municipal work for the Army and Navy is separately reported.

#### OCCUPANTS OF QUARTERS.

The occupants of Panama Canal and Panama Railroad quarters, shown in comparative form, were as follows:

|                              | Men.  | Women. | Children. | Total occupants. |               |                  |
|------------------------------|-------|--------|-----------|------------------|---------------|------------------|

## WORKING FORCE—NUMBER OF EMPLOYEES.

The total number of employees as of September 21, 1921, was 12,375, as compared with 19,438 as of September 22, 1920, making the number of employees of The Panama Canal and the Panama Railroad Company approximately 64 per cent of the number a year ago.

The following tabulation shows the number of gold and silver employees, as of September 21, 1921, by departments, together with a comparison of the working force of the preceding month, and that of September, 1920:

|                                      | Employees. |         | Total employees. |               |                  |
|--------------------------------------|------------|---------|------------------|---------------|------------------|

## VITAL STATISTICS.

A total of 165 deaths occurred during the month of September, 1921, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to an annual death rate of 15.94 per thousand. The 3 leading causes of death were (a) tuberculosis, (b) pneumonia, and (c) diarrhea and enteritis. Among other causes of death listed were 2 from malaria fever, 1 each from typhoid fever and diphtheria, and 6 from external causes. Of the total deaths, 63, or 38 per cent, occurred among children under 5 years of age. There were 12 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 321 live births reported during the month, and 22 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 33.13 per thousand population. Deaths among children under 1 year of age numbered 46, giving an infant mortality rate, based on the number of births reported for September, 1921, of 143.30 per thousand live births.

Ninety-nine cases of malaria were reported during the month, of which 18 were employees and 81 nonemployees; of the nonemployees, 71 were soldiers. These malarial cases originated as follows: In Panama City, 4; in the Canal Zone, 64; outside of the Canal Zone, 31.

Among other diseases reported during the month, there were 5 cases of smallpox, 2 of typhoid fever, 2 of dysentery, 2 of leprosy, 5 of diphtheria, and 1 of scarlet fever.

#### RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, and cash sales from stock, as compared with the preceding month, and the corresponding month of last year, were as follows:

|                                                                                  | September,<br>1921. | August,<br>1921. | September,<br>1920. |
|----------------------------------------------------------------------------------|---------------------|------------------|---------------------|
| Materials received on U.S. requisitions during the month, chargeable as follows: |                     |                  |                     |
| Operation and Maintenance.....                                                   | \$67,004.52         | \$231,470.63     | \$938,166.68        |
| Construction and equipment.....                                                  |                     |                  | 25,315.50           |

Respectfully,

M. L. WALKER,

*Acting Governor.*

#### Improvements in Operating Machinery at Cristobal Coaling Plant.

During the past year several improvements in the equipment of the coaling plant at Cristobal have made it possible to bunker ships with even greater expedition.

The wharf bunker, on the end wharf of the plant, which extends between the unloader wharf and the reloader wharf at their seaward end, was originally built for supplying coal to tugs and other comparatively small craft through long chutes. It has been redesigned and equipped with two booms similar to those on the reloaders. This has made another berth for full-rate bunkering at the plant, in addition to those already available at the reloader wharf. The booms are 30 feet in length and operate on swing circles. On account of the height of the wharf bunker this berth is especially suitable for coaling high ships.

Slight alterations in the operating machinery in all of the reloader towers increased their capacity for bunkering.

Two barges equipped with conveyors (*Nos. 13 and 29*) were re-designed. Steel superstructures were substituted for the wooden booms, and the rated capacity of the conveyors on each barge was

increased from 75 to 200 tons per hour. Reconstruction on barges *Nos. 15* and *21* had been done in the previous year, giving each of them a rated capacity of 400 tons an hour, with self-trimming features which reduce the number of trimmers needed in their operation. Barges *Nos. 13* and *29* are each equipped with two 40-foot Demayo conveyors; *Nos. 15* and *21* have each four 55 and 60-foot conveyors.

A reloader attachment is to be placed on 1 of the 4 unloader towers on the wharf at which the colliers are discharged into the plant. This will make it possible to bunker a ship at the unloader wharf, while at the same time having space and equipment to discharge a collier. With this improvement it will be possible to bunker 4 large vessels simultaneously at the pier, while discharging a fifth; and the 4 conveyor barges will be available for bunkering ships at the cargo docks or in the bay, as well as at the plant.

Improvements in the unloading equipment have increased materially the rate at which colliers can be discharged into the plant. Among these was the installation of equipment for using oil fuel in boilers of the unloaders; this has allowed the working of the machinery continuously under a head of steam which could not be maintained with coal.

Working only 2 of the 4 unloaders, the plant recently discharged a cargo of 9,611 long tons of coal from the steamer *Cristobal* in 29 working hours. This was considered especially good in view of the fact that the vessel was built for carrying general cargo and passengers and is not well adapted to the handling of coal. The regular colliers, *Achilles* and *Ulysses*, carrying about 12,000 tons, are discharged in from 15 to 30 hours, depending on the amount of bunkering being done at the same time.

During the last fiscal year the coal sold from the station amounted to about 475,000 tons. During the first 7 months of the year the sales averaged about 43,000 tons per month, and during the last 5 months about 34,000 tons. With the reduction in price of \$3 per ton, effective October 15, it is expected that sales will again increase. In addition to the coal sold, 75,983 tons were delivered during the fiscal year to Navy vessels from the stock of Navy coal maintained at the plant.

It has been the policy of the Panama Canal coaling plants to discharge ships as quickly as possible. Below are a few records which were made during the last fiscal year. The hours and minutes include the time required for trimming in bunkers:

| Name of ship.   | Tons of coal bunkered. | Time.  |          | Date.              |
|-----------------|------------------------|--------|----------|--------------------|
|                 |                        | Hours. | Minutes. |                    |
| Wiltshire.....  | 1,102                  | 1      | 25       | November 25, 1920. |
| Maimoa.....     | 656                    | .....  | 45       | May 10, 1921.      |
| Athenic.....    | 2,005                  | 10     | 20       | May 10, 1921.      |
| Antillian.....  | 77                     | .....  | 10       | May 11, 1921.      |
| Cape Henry..... | 285                    | .....  | 20       | May 11, 1921.      |
| Transvaal.....  | 53                     | .....  | 5        | June 1, 1921.      |

Trimming in bunkers, of course, retards the rate of delivery. On February 18 the Navy collier *Neptune* took 8,296 tons of coal from the coaling plant in her hold as cargo. It was loaded in 4 hours and 35 minutes.

Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, September, 1921.\*

## Status of The Panama Canal in Accepting Agencies for Steamships.

THE PANAMA CANAL,  
DEPARTMENT OF OPERATION AND MAINTENANCE,  
BALBOA HEIGHTS, C. Z., October 19, 1921.

### MEMORANDUM FOR ALL STEAMSHIP AGENTS:

The Marine Superintendent is in receipt of inquiries from steamship agents with regard to the status of The Panama Canal in accepting agencies for steamships.

The Panama Canal is at all times ready to act as agent for steamships that do not maintain agents on the Isthmus, in which case the offices of the Port Captain at the terminal ports become *ex officio* steamship offices and stand ready to meet the requirements and render assistance to shipmasters, the controlling idea being the care for shipping which on account of any circumstance does not consider an agency necessary.

It is, of course, understood that no official of The Panama Canal is appointed as agent in the way in which the term is ordinarily used, and no official of The Panama Canal is permitted to receive any compensation for such activity as is entailed on the part of The Panama Canal as steamship agent.

E. P. JESSOP,  
*Marine Superintendent.*

### Quick Discharge of Cargo at Canal Piers by Vessels in Transit.

The possibility of vessels in through service handling small transfer shipments of cargo at the Canal piers without much delay was exemplified by the steamer *Cape Henry* on October 17. The vessel passed between the breakwaters at the Atlantic entrance at 9.32 a. m. and 43 minutes later (10.15 a. m.) was tied up alongside the pier at Cristobal. She discharged 1,434 barrels of sulphate of alum, containing 294 tons, consigned to The Panama Canal, and left the pier at 1.11 p. m., having been at dock slightly less than 3 hours. The vessel then started through the Canal and passed the outer buoy in the Pacific at 8.40 p. m.

The *Cape Henry* is operated by the Atlantic, Gulf and Pacific Line and was bound from New York to Los Angeles. The stevedoring was performed by a force employed by the local agent of the line, which was assisted by the regular forces of the Panama Railroad Company on the piers, working through the noon hour in receiving and checking the cargo.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended October 22:

Steamships *La Valley*, dock, stage, and clean bottom; scale hull and paint bottom; remove wood block and chock at stem; renew 1' section of forward bulwark plating; 1 section of bottom angle on port side, after end and all of forward bulwark plating and bottom angles on starboard side; install new channel iron rail on forward bulwarks, port and starboard; reenforce bulwarks with 3 plate brackets and 1 stanchion on each side, securing same to bulwarks and deck with rivets; patch plate, starboard side forward, in wake of plate bracket for bulwark; fair up after bulwarks in place and renew bead iron on ends of same; remove wood rail and install new channel iron rail and reenforce bulwarks in wake of chocks with plate brackets, securing to bulwark plating with rivets; renew top and bottom angles, starboard side forward; renew bottom angles, port side forward and around stern; straighten balance of angles; weld all holes through shell in wake of wood fender; patch shell plate on starboard side forward; renew upper wood fender, port and starboard, and secure with vertical fastenings; renew lower wood fender, starboard side forward, and install chafing iron; refasten chafing iron on lower fender where spikes are missing; *Republic*, dock, stage, clean and paint bottom; remove broken propeller and install spare propeller furnished by ship; remove strainers and clean and paint sea chest; file face of tail shaft coupling; repair coupling bolts; plane propeller key; face disk of sea valve; manufacture countersunk screws; *Hwah Ping*, manufacture and install 44 wood bunks, and change location of 22; *Katrina Luckenbach*, renew 25 boiler tubes;

drill barge *Teredo No. 2*, dock, stage, and clean; scale and paint bottom to light load line; barge *No. 148*, dock, stage, and clean; scale and paint bottom to light load line.

## PREVIOUSLY REPORTED.

Launch *Pacific*, general repairs to hull; steamship *Panama*, reboiling and general overhaul to machinery and hull; launch *Wilson B. Gaither*, scrape and clean bottom; perform general hull repairs, survey vessel *Carnegie*, dock, stage, and clean bottom; perform miscellaneous propeller repairs.

The following vessels were at the Cristobal shops for repairs during the week ended October 24:

Steamship *Allianca*, install drain line in boat deck heaters and test out heating system; tug *Tavernilla*, install section of fire hose, grind and reseat safety valves; steamships *Achilles*, remove link in anchor chain next to anchor shackle; furnish 2 stove plates; retin 6 pots; furnish 6 laborers and foreman for cleaning tubes and scaling boilers; barge *No. 123*, dock and undock, clean, scale, and paint; *Georgia*, electric weld No. 1 boiler; *Caribbean*, renew crosshead pin and brasses of No. 2 dynamo; manufacture 1 new spring as sample for No. 1 dynamo; make necessary repairs to forward winch; make pipe repairs as directed by chief engineer; *Salvador*, *Acajutla*, *Parismina*, *Steel Exporter*, and *Sarpfos*, launches *Atlantic* and *Hibiscus*, minor repairs.

## Quantity of Bunker Coal Allowed Under Ballast Rates of Tolls.

Inquiries are received from time to time as to the quantity of bunker coal which a ship, in ballast, carrying neither cargo nor passengers, may carry through the Panama Canal under the ballast rate for tolls.

The following is quoted from the *Rules and Regulations for the Operation and Navigation of the Panama Canal*:

*Amount of Coal Allowed Vessels in Ballast*—Articles XIII and XIV of the Rules for the Measurement of Vessels for the Panama Canal, set forth what space may be used for carrying coal and other fuel for a vessel's own use without payment of tolls for the space so occupied.

The rules are liberal in making ample provision for such space and authorize the owner of the vessel to select either of the two provisions that he may elect as set forth in the rules. Full tolls are levied on loaded vessels and reduced tolls on those in ballast, and in order that there may be no misunderstanding vessels will be considered *in ballast* only when they carry no passengers and do not carry either coal or merchandise of any description in any quantity whatsoever except bunker coal or other fuel for their own use. In order that they may be entitled to claim the reduced or *ballast rate* the amount of bunker coal or other fuel must not exceed in volume the allowance specified in The Panama Canal certificate as the deduction for bunker space. For convenience this allowance for volume is expressed in long tons weight at the bottom of page 2, on all certificates issued, checked, or corrected at the Canal.

*In any case in which the amount of coal on board exceeds the deductible allowance, the vessel will be charged full tolls.*

In any case in which coal be carried as a deck load, for the vessel's own consumption, or even though it be within the deductible allowance it will be subject to measurement and charge, the rate depending upon whether or not the vessel be considered in ballast or loaded.

If when carrying a deck load of coal for her own use she carries no passengers or freight, and the amount of coal on board be within the deductible allowance, she may be considered in ballast.

Vessels that wish to benefit by the reduced or ballast rate of tolls should be very careful not to carry more than the deductible allowance under the rules.

On arrival, vessels, claiming to be in ballast must have ready a statement of their coal account, to which the master may be required to take oath. In case coal be carried outside of the regular bunkers, both it and that carried in the bunkers should be piled or arranged in a fairly uniform way so that it may be readily measured.

The bunker allowance, referred to in the foregoing, is arrived at by this rule: Take three-fourths of the total volume of space of engine and boiler rooms, in cubic feet, and divide this number by 40 in the case of coal, 37.7 in the case of oil; the result is the number of long tons (2,240 pounds) allowed as bunkers. For example, if a vessel had a total of 80,000 cubic feet in engine and boiler rooms, three-fourths would be 60,000; divided by 40 would give 1,500, the number of long tons of coal, divided by 37.7 would give 1,592 (to nearest ton), the number of long tons of oil, allowed as bunkers.

---

### Parlor Car Service.

Effective at close of business on October 31, 1921, parlor car service was discontinued on all regular Panama Railroad passenger trains.

Chair cars will be available for use on steamer trains and for other special service.

# MOVEMENTS OF OCEAN VESSELS. *Week ending at midnight, October 29, 1921.*

## Cash Balance in Appropriations, September, 1921.

BALBOA HEIGHTS, C. Z., October 29, 1921.

The Honorable, the Secretary of War,  
Washington, D. C.

SIR: Herewith is a report showing the commissary sales, financial receipts and expenditures, and of the cash balance available in The Panama Canal appropriations for the month of September, 1921, as compared with the preceding month, and with the corresponding month of last year:

|                                                                                                         | September, 1921. | August, 1921.   | September, 1920. |
|---------------------------------------------------------------------------------------------------------|------------------|-----------------|------------------|
| Cash balance available for expenditure:                                                                 |                  |                 |                  |
| In Canal appropriations.....                                                                            | \$13,194,484.17  | \$13,754,717.93 | \$17,453,227.75  |
| Payments made from appropriations:                                                                      |                  |                 |                  |
| By Paymaster on the Isthmus.....                                                                        | 1,138,288.01     | 1,139,592.07    | 1,720,992.08     |
| By Disbursing Clerk, Washington, D. C.....                                                              | 289,114.62       | 334,921.39      | 655,886.44       |
| To the Panama Railroad Company (for commissary books).....                                              | 217,855.02       | 224,170.75      | 368,653.07       |
| Collections on the Isthmus:                                                                             |                  |                 |                  |
| Repaid to appropriations.....                                                                           | 743,231.35       | 807,211.41      | 633,022.48       |
| Commissary and other trust funds.....                                                                   | 219,523.57       | 225,572.23      | 371,229.35       |
| Tolls.....                                                                                              | 892,004.99       | 955,404.98      | 1,003,531.38     |
| Sales of water.....                                                                                     | 6,526.35         | 2,240.65        |                  |
| Postal receipts.....                                                                                    | 9,422.48         | 8,818.81        | 10,253.35        |
| Licenses, taxes, court fees, fines, etc.....                                                            | 2,995.67         | 3,250.24        | 4,218.20         |
| Sales of obsolete material.....                                                                         |                  | 100.00          | 2,026.40         |
| Total collections on Isthmus.....                                                                       | 1,873,704.41     | 2,002,598.32    | 2,024,281.16     |

| Total.....                                                                                              | 587,917.31       | 721,083.34      | 960,773.60       |

\* Balance on last day of month.

Respectfully,

M. L. WALKER,  
Acting Governor.

## Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States "Pancanal, Washington."

### Heavy Shipments from the Pacific Coast to Europe.

There has been an unusually heavy movement of cargo from the west coast of the United States to Europe during the quarter ending September 30, 1921, aggregating 573,083 tons, as compared with 243,374 tons during the corresponding quarter of 1920. Wheat and barley contributed the bulk of this tonnage.

The cargo moving in the opposite direction from Europe to the west coast of the United States amounted to 32,985 tons, as compared with 37,572 tons in the corresponding quarter of the previous year.

---

### American-Hawaiian Vessels in European-Pacific Line Service.

Preliminary announcement that the service known as the European-Pacific Line will be operated with the American-Hawaiian Steamship Company's own steamers, beginning in October, was published in THE PANAMA CANAL RECORD of August 31. Later statements from the company announce the first sailing in the new schedule as that of the steamship *Floridian*, leaving San Francisco about October 23 for Havre, London, Hamburg, Antwerp, and Liverpool. The next vessel out in the service is to be the *Pennsylvanian*, sailing about November 19 from Tacoma, Seattle, Portland, San Francisco, and Los Angeles for Liverpool, Glasgow, Hamburg, Antwerp, and London.

---

### Shipments of Eggs.

Eggs, fresh, frozen and dried, aggregating 3,448 tons, made up the greater part of the 4,392 tons of cargo aboard the Blue Star Line steamship *Gothic Star*, passing through the Canal on October 4, on the way from Chinese ports, via San Francisco, to New York and London. Ninety-four tons of frozen eggs were shipped from San Francisco to London, and 465 tons of fresh eggs, from Nanking and Shanghai, were bound for London. New York was the destination of 2,625 tons of frozen and 264 tons of dried eggs, shipped from Hankow and Nanking.

On November 4 of last year the *Tuscan Star* of the same line carried a whole cargo of 6,200 tons of frozen eggs, through the Canal on the way from Chinese ports to New York.

In September, 1921, a shipment of 29 tons of eggs in cold storage, was carried through the Canal on the steamship *Henry S. Grove*, from Pacific ports of the United States to north Atlantic ports of the United States.

---

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended October 29:

Steamship *West Cahokia*, remove high-pressure piston rod; true up and reinstall same; run line through H. P. cylinder and check alignment with crosshead; refit H. P. crosshead brasses; furnish 1 set of packing for H. P. piston rod; braze 5 leaking journal bearing oil cups; renew suction and discharge valve collars in line bilge pump; weld 1 coil in Cohn oil heater; dredge *No. 84*, renew rivets in ladder; renew wearing ring on ladder head; manufacture and install keeper for ladder head packing gland; refasten casting at gooseneck; ream hole in coupling on cutter; take a cut off valve seat and grind in new valves on salt water pump; U. S. S. *Ashville*, manufacture bushings and spiral pinion shaft.

---

### PREVIOUSLY REPORTED.

Launch *Wilson B. Gaither*, scrape and clean bottom; perform general hull repairs; barge *No. 138*, dock, stage, and clean; scale and paint bottom to light load line;

drill boat *Teredo No. 2*, dock, stage, and clean; scale and paint bottom to light load line; launch *Pacific*, general repairs to hull; steamships *La Valley*, dock, stage, and clean bottom; perform miscellaneous hull and fender repairs; *Panama*, reboiling and general repairs to machinery and hull.

The following vessels were at the Cristobal shops for repairs during the week ended October 31:

Steamships *West Greylock*, remove H. P. piston and rod; check alignment of cylinder and crosshead; manufacture 1 set of H. P. rings; *Huallaga*, electric weld inboard ends of hawse pipes; *West Wind*, rebore auxiliary feed pump valve chamber and install new rings; remetal and machine spare crank brasses for dynamo; install spare armature; patch filter box; *Caribbean*, overhaul injector; repair dynamo and forward winch; *Argyll*, manufacture, fit, and install 1 hand steering wheel; renew wedges around mainmast; repair steam pipe to winch; blank off and plug 4 holes in ship's side; *Ampai*, manufacture, fit, and install new rudder; install asbestos lining on boilers, install inside row of tubes in both boilers; repair sea valves, etc.; tug *Mensabe*, dock; calk hull planking; renew section of keel, repair rudder, etc.; motor schooner *Laura C. Hall*, dock; examine strut bearing; install 2 knees under beams in ship's hold; manufacture and install lead pipe scuppers; make strainer; clean and paint bottom, etc.; steamship *Heredia*, launches *Esperanza*, *Wilhelm*, and *Mary B*, minor repairs.

#### PREVIOUSLY REPORTED.

Steamships *Balboa*, renew lagging and jacket on boiler where necessary, etc.; *Allianca*, test out heating system; launch *Gloriana*, dock; repair hull, awnings, engines, etc.; barge *No. 123*, dock; clean, scale, and paint.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., November 9, 1921. No. 13.

## **New Dispatching Schedule for Ships Making the Transit of the Canal.**

Beginning August 15, 1921, a new system of dispatching vessels through the Panama Canal on a prearranged time schedule was tentatively introduced with the intention of making it permanent provided it were shown that adherence to the schedule did not result in unnecessary delays to shipping.

It was understood in some quarters that the new method of dispatching made a radical change, in that transit of the Canal was limited to the hours of daylight. This idea is erroneous. Vessels have never been sent through at night, and operations have never been conducted on a 24-hour schedule. It was never intended to attempt continuous operation until this change is made necessary by the increase of traffic.

Prior to August 15 of this year vessels were dispatched through the Canal southbound up to 1.30 p. m. each day, and northbound up to 3 p. m. Under the new schedule the time of dispatching southbound was not affected, but the time of dispatching from Balboa northbound was put back one hour and a quarter, that is, from 3 p. m. to 1.45 p. m. Any vessel arriving at Cristobal by 1.30 p. m. and any vessel arriving at Balboa by 1.45 p. m. will go through on the day of arrival.

Since the schedule has been in operation 3 vessels arrived during the month of September and could not go through which would have gone through the same day under the old system. This was only  $1\frac{1}{3}$  per cent of the vessels arriving during that month.

In practical operation there are slight delays of from 1 to 2 hours in time of transit; but it is difficult to determine whether these delays are greater than they would have been under the old system. In the one case ships are retarded to await a regular time for dispatching; in the other they were dispatched immediately but were frequently held up at the locks until traffic had passed moving in the opposite direction; so that it is believed that the new schedule does not increase the average delay in transit.

The new method of running ships through on time schedule is very much safer than the method formerly used, in that it insures the arrival of vessels at the locks at times when there are no adverse currents set up by the operation of the locks.

The present arrangement is very elastic as long as vessels arrive at the entrance of the Canal before the times mentioned. The hour set at Cristobal is the same under the new and old schedule; the only innovation being the difference of one hour and a quarter in the time of arrival at Balboa. The saving effected in operating expenses is considerable, and the effect on shipping appears to be so slight as to be practicably negligible. If, however, it should appear at any time in the future, that vessels using the Canal are subjected to expensive delays, the schedule will be modified.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, November 5, 1921.

## THROUGH THE CANAL—ATLANTIC TO PACIFIC.

<sup>a</sup> For orders.<sup>a</sup> Two Japanese cruisers with displacement tonnage of 20,980.**Canal Traffic in October.**

Commercial traffic through the Panama Canal during the month of October was not only greater than that of the preceding month, and that of the corresponding month of last year, but in point of tonnage and tolls collected has been exceeded but twice since the opening of the Canal, viz., in the months of January and March of the present year.

The following shows a summary of the commercial traffic through the Canal during the calendar year:

| 1921.     | No. of ships. | Tonnage.          |                   | Tolls.         | Tons of cargo. |
|-----------|---------------|-------------------|-------------------|----------------|----------------|
|           |               | Panama Canal net. | Registered gross. |                |                |
| January   | 279           | 1,094,323         | 1,383,778         | \$1,095,857.46 | 1,177,053      |
| February  | 241           | 916,838           | 1,179,979         | 917,412.79     | 952,904        |
| March     | 255           | 1,112,818         | 1,417,220         | 1,105,536.55   | 1,084,563      |
| April     | 227           | 955,503           | 1,203,087         | 927,977.09     | 907,613        |
| May       | 210           | 864,617           | 1,092,602         | 835,882.77     | 792,735        |
| June      | 192           | 761,477           | 960,857           | 751,964.12     | 694,720        |
| July      | 206           | 810,613           | 1,022,802         | 804,503.11     | 708,982        |
| August    | 236           | 965,276           | 1,219,817         | 955,380.78     | 839,273        |
| September | 221           | 925,137           | 1,167,220         | 892,001.54     | 754,894        |
| October   | 255           | 1,069,554         | 1,335,812         | 1,047,935.62   | 985,775        |
| Totals    | 2,322         | 9,476,156         | 11,983,174        | 9,334,451.83   | 8,898,512      |

The October traffic was made up as follows:

| Direction.               | No. of ships. | Panama Canal net tonnage. | Registered gross tonnage. | Tolls.       | Tons of cargo. |
|--------------------------|---------------|---------------------------|---------------------------|--------------|----------------|
| Atlantic to Pacific..... | 131           | 571,175                   | 708,363                   | \$541,994.93 | 374,437        |
| Pacific to Atlantic..... | 124           | 498,379                   | 627,449                   | 505,940.69   | 611,338        |

During October 55 per cent of the total tonnage from the Atlantic to the Pacific was routed to the west coast of the United States and Canada, as compared with an average of approximately 26 per cent of the total tonnage during the past fiscal year. Vessels from the west coast of the United States and Canada made up 58 per cent of the total tonnage from the Pacific to Atlantic as compared with an average of 32 per cent during the past fiscal year. This excess above normal traffic is due in part to the heavy grain shipments; 22 full cargoes of wheat and barley passed from the Pacific to the Atlantic during October, aggregating 152,279 tons, while in addition these two grains formed a large part of many mixed cargoes.

The percentage of tonnage routed to the west coast of South America represented but approximately 14 per cent of the Atlantic-to-Pacific traffic and was under that of last month and less than half the average for the past fiscal year. The percentage of tonnage from the west coast of South America increased slightly over that for last month but was only five-eighths of the average tonnage during the past fiscal year. Nitrate shipments were heavier than for the past few months but totaled only about a third of the heavy shipments of a year ago.

Traffic from Australasia to the east coast of the United States and Europe represented 8 per cent of the Pacific-to-Atlantic traffic, as compared with 10 per cent for last month, and an average of 17 per cent during the past fiscal year. Traffic to Australasia made up 12 per cent of the Atlantic-to-Pacific tonnage, which is a slight increase over last month but only about two-thirds of the normal traffic for the last fiscal year.

Tonnage routed to the Far East made up 18 per cent of the total Atlantic-to-Pacific traffic, and returning tonnage on this route represented approximately 7 per cent; these are approximately the normal percentages. An unusual feature of this traffic was 3 ships routed from the Far East to Europe, 1 of which was from the Kamchatka Peninsula, laden with 240,573 cases (10,806 tons) of salmon.

Traffic to and from the east coast of Mexico represented about 5 per cent of the total traffic each way, which was about half of the proportion during the past fiscal year. A number of miscellaneous oil shipments were made during the past month, but the heavy shipments to the west coast of South America and the west coast of the United States, which were interrupted some months ago, have not yet been resumed.

#### **Notice to Mariners.—Change of Light at Lamentin Point, Port-au-Prince Harbor, Haiti.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., November 4, 1921.

CIRCULAR NO. 643-95.

This office is informed through the Surveyor of Customs, Port-au-Prince, Haiti, as follows:

"I wish to inform you that the flashing red light on Lamentin Point, Port-au-Prince harbor, has been changed to a flashing white light, with no other changes."

JAY J. MORROW, Governor.

### Messages Sent Through Colon Radio Station.

OFFICE OF THE DISTRICT COMMUNICATION SUPER-INTENDENT—FIFTEENTH NAVAL DISTRICT,  
BALBOA, C. Z., November 4, 1921.

#### CIRCULAR NO. 5:

In view of the confusion which exists in the minds of some of the steamship agencies regarding the filing and delivering of messages at the Colon radio station, at present, the following is submitted for their information:

Between the hours of 8 a. m. and 8 p. m. messages may be filed at the Panama National Telegraph Company's telegraph office, and when the Panama Railroad Company's telegraph office is open, at that office. After 8 p. m. these telegraph offices are closed and persons having charge accounts can then telephone messages to the radio station or file them at the station itself. All telephoned messages must be confirmed later by messenger, telegraph, or by mail.

No messages received between the hours of 8 a. m. and 8 p. m. will be telephoned out unless carrying the word "Rush" in the prefix. After 8 p. m. all messages will be telephoned out. All telephoned messages will be confirmed later by telegraph.

If the steamship captains are advised that the word "Rush" must be in the prefix of the message, in order to carry telephone delivery, there should be no delay in the reception of urgent messages.

Due to the fact that it will probably take a month to advise the captains of the various vessels, all messages received from ships about their date of arrival, will, until December 1, 1921, be handled as if carrying the word "Rush" in the prefix of the message.

D. F. PATTERSON,

Lieut.-Commander, U. S. N.,  
District Communication Superintendent,  
15th Naval District.

Volume XV. Balboa Heights, C. Z., November 16, 1921. No. 14.

---

## **Rate of Traffic This Year Compared with Last Year and Fiscal Year Ending June 30, 1921.**

During the 10 months ending October 31, 1921, the total number of commercial ships passing through the Canal was 2,322, an average of 232.2 per month. At this rate the total for the year would be 2,786. During the calendar year 1920 the number of commercial ships was 2,814, an average of 234.5 per month; and in the fiscal year ending June 30, 1921, the number of commercial ships was 2,892, averaging 241 per month.

If as many as 246 ships make the transit in both November and December of this year the record for this calendar year, in number of ships, will equal that of last year. It will require, however, an average of 285 ships in November and December to bring the total up to the 2,892 ships in the last fiscal year.

In 3 months of this year (January, March, and October) there were more than 246 ships, but there has been no month in which 285 commercial ships have made the transit. The record for any month since the opening of the Canal is 279 ships, in January, 1921.

In cargo carried, the traffic during the 10 months has averaged less than the monthly average for the year 1920 and for the fiscal year 1921.

---

## **Hours of Operation of The Panama Canal Coaling Plants.**

Prior to March 21, 1921, the coaling plants of The Panama Canal were operated continuously. Effective that date the Superintendent of the plants was instructed to abolish the third shift at Cristobal, to reduce as far as possible the force at Balboa, and until further notice to suspend all operations at both plants between the hours of 11 p. m. and 7 a. m. This action was taken to reduce operating expenses. Sales had fallen off, and the business done did not justify the maintenance of a maximum force. It was thought that the elimination of the third shift would not cause material inconvenience to shipping.

This was generally true, but it occasionally happened that a vessel began to coal late in the evening and did not finish prior to 11 p. m., when work was knocked off. This resulted in some instances in serious delays, and gave rise to complaint. To remedy this situation the Superintendent of Coaling Plants was instructed under date of August 22, 1921, to complete the bunkering of all ships at Cristobal when once commenced, provided this did not involve substantially more than 4 hours' overtime. At the same time the force at Balboa was reduced to one 8-hour shift working from 7 a. m. to 11 a. m. and from 12 noon to 4 p. m. All vessels passing through the Canal can bunker at Cristobal, and there are very few vessels confining their operations to the Pacific side and depending upon Balboa for coal. Sales from this plant have always been light, and there is no sufficient reason for maintaining the same service there as at Cristobal.

# MOVEMENTS OF OCEAN VESSELS. Week ending at midnight, November 12, 1921.

### One Hundred Per Cent Increase Over Two Trade Routes.

The United States coastwise trade through the Panama Canal during August, September, and October, 1921, was more than double the trade for the corresponding period in 1920. The cargo handled in 1920 amounted to 268,747 tons, and in 1921 it aggregated 554,834 tons. Of the latter total, 214,449 tons was westbound, and 340,385 tons eastbound, the trade being thus fairly well balanced, with reasonable cargoes offering in either direction.

Another trade that shows an increase of more than 100 per cent is the eastbound trade from the west coast of the United States to Europe. The cargo handled in August, September, and October, 1921, was 582,719 tons, as compared with 285,441 tons in 1920. But the cargo moving in the opposite direction, from Europe to the west coast of the United States, was comparatively insignificant in 1920, amounting to only 44,978 tons for the 3 months under review, and declined in 1921 to 11,855 tons. The majority of the 62 vessels proceeding this year from Europe to the west coast went out in ballast, besides which 15 foreign vessels went out in ballast from Atlantic ports of the United States to the west coast to load return cargo for Europe.

Closely connected with the two trades dealt with in the preceding paragraphs are the Canadian coastwise trade, the trade between western Canada and Europe, and the trade between either seaboard of Canada and the opposite seaboard of the United States, in all of which there has been development.

### Notice to Mariners.—Establishment of Light at Almirante, R. of P.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., November 8, 1921.

CIRCULAR No. 643-96.

The following advice has been received from the United Fruit Company at Almirante, Republic of Panama:

"One thousand watt electric light now hung on Almirante wireless tower at 393-foot elevation above sea level. Location of tower, latitude 9° 17' 30" North, longitude 82° 22' 54" West. Light is pointed exactly at Toro Point (Cape Toro at Bocas del Toro) Lighthouse, bearing North, 70° true East."

JAY J. MORROW,  
Governor.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the two weeks ended November 12:

Steamship *Lompoc*, drill holes through hubs of 2 drums to free drums from shaft; manufacture 2 drifts to use in removing drums from shafts; machine 1 set collar; true up 1 drum shaft and fit to drum; manufacture new drum shaft; disassemble old drums and shaft; remove both gears and reassemble drums and shafts; chip both new drum jaws to conform with jaws on gear; install brake bands; manufacture one 3-inch galvanized pipe bend, with stop valve and tee assembled; manufacture 48 kinghorn valves; furnish gasoline and use of heating equipment to heat heads; U. S. supply boat *No. 2*, install band on reverse gear with screw and lever arrangement; renew brass yoke on clutch engager; overhaul reciprocating circulating pump;

overhaul air pump on main engine; overhaul spray air gauge; install oil cooler for crank case lubricating oil; install oil strainer on outside of crank case; install valve in filling pipe to gravity oil tank, and fit by-pass; overhaul fuel pump; install discharge pipe with valve, on after end of manifold; alter discharge valve on first stage air compressor; U. S. A. T. *Wheaton*, manufacture 1 new armature shaft for 15 K. W. armature; crane boat *La Valley*, calk seams; renew bad order rivets; install patch on bottom; install 2 patches between fender angles, where bolt holes could not be welded; install 3 patches on deck where plates are broken; barge *No. 136*, test all tanks and stop all leaks; remove cement from hole through deck, and patch; renew side fenders on gear side; renew end fenders and make necessary alterations; clean and paint outside of hull up to light water line; renew bitt on gear side; renew loose rivets on strongback girders; renew 3 strongback plates; launches *Goodwill*, furnish crane service to handle launch; *Pacific*, manufacture and install 1 water-tight bulkhead, 4 frames from the stem; U. S. S. *Niagara*, repair leak in water end of evaporator feed pump; renew section of discharge line of ash ejector; repair water cylinder on flushing pump; repair cracked flange on fireroom steam line; perform necessary repairs to 1 U. S. Navy deck clock; steamships *Ginyo Maru*, make necessary repairs to telemotor; *Hawkeye State*, weld discharge manifold for ice machine; *Imperial*, dock, stage, clean and paint bottom; fair tip of 1 propeller blade; renew shoe plate, aft; install zincs; open up, grind in, clean, paint, and repair sea valves as required; *Ansaldo San Giorgio II*, manufacture 24 high pressure snap rings; 12 valve coil springs, 1 socket wrench and 1 bronze bull ring for high pressure air compressor; *Stanley Dollar*, manufacture 1 thumb screw for sextant; barge *No. 133*, dock, stage, and clean; scale and paint bottom to light load line; renew strongback supports and loose rivets on strongback girders; renew end fenders and make necessary alterations; remove cement from hole through deck and install patch; straighten fender angles and renew side fender on loading side; clean and test all tanks and stop leaks that develop; air compressor *No. 27*, dock, stage, and clean; scale and paint bottom to light load line; U. S. S. *Sacramento*, manufacture and install 1 lower boom; manufacture and install 1 ventilator cowl for lead to magazine; manufacture 2 wireless spreaders; steamship *Eastern Moon*, manufacture fire tools; coal hoist *No. 1*, dock, stage, and clean; scale and paint bottom to light load line; barge *No. 148*, dock, stage, and clean; scale and paint bottom to light load line; dredge *Cascadas*, replace all bad order tubes with tubes furnished by Dredging Division and install zinc plates on condenser heads.

#### PREVIOUSLY REPORTED.

Launch *Wilson B. Gailher*, scrape and clean bottom; perform general hull repairs; steamship *Panama*, reboiling and general repairs to machinery and hull; dredge *No. 84*, perform heavy running repairs; drill boat *Teredo No. 2*, dock, stage, and clean; scale and paint bottom to light load line; barge *No. 138*, dock, stage, and clean; scale and paint bottom to light load line.

The following vessels were at the Cristobal shops for repairs during the two weeks ended November 14:

Steamship *San Juan*, clear circulating water space in H. P. go-ahead slide valve; refit metallic packing; overhaul main air pump, etc.; U. S. S. *O-12*, renew all rivets in engine foundations; overhaul sea valves; repair steering and diving gear; overhaul hydroplane; renew engine foundation knees; refit shifting collars on tail shaft; weld patches on mufflers, etc.; U. S. S. *Pecos*, rebore H. P. cylinder of ice machine; machine 1 valve; make 8 oil strainers; renew tubes where necessary in 4 boilers, etc.; steamships *Jamaica*, draw H. P. piston; true up rod and install new metallic packing; fit new tail shaft; calk rivets in hull where directed; repair steering gear; paint hull, etc.; *General H. F. Hodges*, braze flanges on receiver pipe; install 2 tubes in starboard boiler; manufacture 8 valves for feed and bilge pumps; *Caribbean*, repair ash hoist engine; repair starboard main engine drain pipes; anneal steering chain and rebush sheaves for same; repair 5 ice cans; repair freeing ports; *Cristobal*, repair lead sanitary pipe in cargo hold; fit elbow on dry pipe, etc.; *Mantaro*, cut out and weld crack in end plate in starboard boiler; renew fusible plugs and expand tubes in center combustion chamber, starboard boiler; renew hot water pipe, etc.; *Crijnsen*, *Barima*, *Bologna*, and tug *Tavernilla*, minor repairs; supply boat *No. 1*, weld and reinstall cylinder on main engine; steamships *Acajula*, reverse wild cat on anchor windlass; *Colon*, roll tubes in after port boiler; repair steam line to whistle; manufacture 2 hatch battens; weld 2 handles for shaper; repair bracket for idler gear to feed screw; repair gear and make one pinion for lathe; launch *Lieut. David Putnam*, install new propeller.

## PREVIOUSLY REPORTED.

Tug *Mensabe*, repair hull and rudder; roll tubes in boiler and test same, etc.; motor ship *Laura C. Hall*, install scuppers; manufacture strainers; install knees in ship's hold, etc.; launch *Gloriana*, repair hull and keel; renew awnings; overhaul engine, etc.; steamship *Ampat*, manufacture, fit, and install new rudder; install asbestos lining and tubes in both boilers; repair sea valves; paint bottom, etc.

### Prices of Miscellaneous Supplies at Panama Canal Storehouses.

The following are prices to individuals and companies including the 25 per cent surcharge, effective November 1, 1921:

| Commodities.                                                   | Unit.          | Price.  |
|----------------------------------------------------------------|----------------|---------|
| Brass, bar, average.....                                       | Lb.            | \$0.375 |
| Brass, sheet, average.....                                     | Lb.            | .41     |
| Bronze, Tobin, average.....                                    | Lb.            | .31     |
| Gasoline, motor grade.....                                     | Gal.           | .40     |
| Metal, yellow.....                                             | Lb.            | .34     |
| Oakum, Navy, spun.....                                         | Lb.            | .175    |
| Oakum, Navy, unspun.....                                       | Lb.            | .175    |
| Oil, Diesel, at Cristobal only, in bulk, no surcharge.....     | Bbl of 42 gals | 3.50    |
| Oil, fuel, at Balboa and Cristobal, in bulk, no surcharge..... | Bbl of 42 gals | 1.70    |
| Oil, ammonia, cylinder.....                                    | Gal.           | .51     |
| Oil, burning.....                                              | Gal.           | 1.25    |
| Oil, engine, gas, medium, in tins.....                         | Gal.           | .675    |
| Oil, engine, gas, medium, in barrels.....                      | Gal.           | .49     |
| Oil, engine, gas, extra heavy, in barrels.....                 | Gal.           | 1.04    |
| Oil, engine, gas, extra heavy, in cases.....                   | Gal.           | 1.125   |
| Oil, engine, gas, in drums, medium.....                        | Gal.           | .65     |
| Oil, kerosene, in drums.....                                   | Gal.           | .20     |
| Oil, marine engine.....                                        | Gal.           | 1.04    |
| Oil, marine engine.....                                        | Gal.           | .99     |
| Paint, lead, white, dry.....                                   | Lb.            | .14     |
| Paint, lead, white, in oil.....                                | Lb.            | .16     |
| Paint, zinc, white, dry.....                                   | Lb.            | .20     |
| Paint, zinc, white, in oil.....                                | Lb.            | .20     |
| Grease, gear, black.....                                       | Lb.            | .10     |
| Grease, yellow, cup, No. 3.....                                | Lb.            | .125    |
| Grease, yellow, cup, No. 5.....                                | Lb.            | .10     |
| Soda, ash.....                                                 | Lb.            | .04     |
| Waste, cotton, colored.....                                    | Lb.            | .175    |
| Waste, cotton, white.....                                      | Lb.            | .20     |

### Executive Order.\*

**Amending the Executive Order of August 8, 1918, concerning passport control so far as it Applies to the Entry of Aliens into the Panama Canal Zone.**

By virtue of the authority vested in me by the Act approved May 22, 1918, entitled "An Act to Prevent in Time of War Departure from and Entry into the United States Contrary to the Public Safety," as extended by the Act approved March 2, 1921, entitled "An Act Making Appropriations for the Diplomatic and Consular Service for the fiscal year ending June 30, 1922," I, Warren G. Harding, President of the United States of America, hereby amend the Executive Order of August 8, 1918, prescribing "Rules and Regulations Governing the Issuance of Permits to Enter and Leave the United States," by the following provision:

Hereafter, aliens entering the Panama Canal Zone shall not be required to present passports visaed by consular officers of the United States, nor shall masters of vessels which are merely passing through the Canal, be required to submit crew lists visaed by American consular officers: Provided, however, That aliens coming to the continental United States or to insular possessions of the United States from the Panama Canal Zone shall be required to present passports visaed by consular officers of the United States at Panama City or Colon, unless they shall have resided in the Panama Canal Zone continuously for at least one year prior to their coming to the United States, or unless they shall have obtained American visas elsewhere: And provided further, That the names of aliens who ship in ports of the Canal Zone on vessels

\* This Order is being published as Panama Canal Circular No. 601-125.

sailing therefrom to ports of the continental United States or its insular possessions must appear upon crew lists visaed by consular officers of the United States at Panama City or Colon, or by the Shipping Commissioner or Deputy Shipping Commissioners of the Canal Zone.

When the crew list is visaed by the Shipping Commissioner or a Deputy Shipping Commissioner, the usual consular fee will not be collected for such service.

The Executive Order of April 7, 1921, concerning this subject, is hereby revoked.

WARREN G. HARDING.

THE WHITE HOUSE,  
October 18, 1921.

[No. 3562.]

### Raffles in Panama for Charitable Purposes Only.

The President of Panama has issued a decree (No. 189 of 1921, dated October 13, 1921) requiring that raffles held in Panama be under permit from the chief of police of the municipality in which held, and that permits will be granted by the chiefs of police only "when in their judgment, sufficient guarantee is given that the entire product therefrom is going to be used for some clear and particular charitable purpose.

### Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

| Name.                         | Check No. | Native of—    | Isthmian residence. | Employed by—           | Date of death.      |

### Official Circular.

#### Department of Operation and Maintenance.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., November 8, 1921.

CIRCULAR No. 660-55:

1. As a step in carrying out the directions of the Secretary of War, as contained in his letter of October 18, 1921, that the Engineer of Maintenance should be relieved of direct charge of various divisions, the following divisions of the Department of Operation and Maintenance will, effective November 10, 1921, be under the supervision of the Assistant Engineer of Maintenance, to whom the officials in charge will report:

Electrical Division.  
Division of Lock Operation.  
Municipal Engineering Division.  
Section of Meteorology and Hydrography.  
Section of Surveys.  
Office Engineer.  
Gatun Dam and Backfill.

2. The Superintendent of Dredging will continue to report to the Engineer of Maintenance, as at present.

JAY J. MORROW,  
Governor.

### Current Net Prices on Coal, Fuel Oil, and Diesel Oil.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

### Empty Barrels For Sale.

Address inquiries to Chief Quartermaster, The Panama Canal, Balboa Heights, C. Z."

### Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., November 23, 1921. No. 15.

## Exemption from Tolls for Vessels Transiting Canal from Cristobal to Balboa for Sake of Repairs at Balboa Shops.

A cable message from the Chief of Office, in Washington, under date of November 19 advises that the President signed an Executive Order on November 17, exempting from payment of tolls vessels which make the transit of the Canal from Cristobal to Balboa and return for the sole purpose of having repairs made at the Balboa dry dock and shops. The full text of the order will be published upon receipt from Washington. Charges will be made for pilotage and lockages, and towage when used.

The purpose of this change is to make the repair facilities at Balboa, and especially the 1,000-foot dry dock, readily available to ships at the Atlantic terminal as well as the Pacific. Under the previous law it was necessary to collect tolls on ships which made the transit solely for the purpose of repairs. In a few instances ships which had made the transit of the Canal from the Pacific to the Atlantic, paying the usual commercial tolls, met with accidents at the Atlantic terminal which necessitated their returning through the Canal to dry dock at Balboa; and under the law it was necessary to collect tolls for the extra transits. This was a burden to shipping and a handicap to the ready use of the facilities provided at the Canal.

## Notice to Mariners.—Obstruction to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., November 21, 1921.

CIRCULAR NO. 643-98.

The captain of the steamship *Manavi* reports by radio having passed at 9.45 a. m., on November 21, while in latitude 6° 40' north, longitude 78° 44' west, a large hardwood log about 20 feet long and 3 feet in diameter, almost submerged.

JAY J. MORROW,

Governor.

## Supplement No. 5 to Tariff No. 5.—Launches.

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., November 4, 1921.

ITEM 6.—LAUNCHES.

(Effective November 10, 1921.)

### 2. For launch *Rodman*:

|                                                    |         |
|----------------------------------------------------|---------|
| First hour or fraction thereof.....                | \$10.00 |
| Each succeeding half hour or fraction thereof..... | 5.00    |

### 2-a. For launch *Patrol*:

|                                                    |      |
|----------------------------------------------------|------|
| First hour or fraction thereof.....                | 8.00 |
| Each succeeding half hour or fraction thereof..... | 4.00 |

JAY J. MORROW,

Governor, *The Panama Canal*.

President, *Panama Railroad Company*.

<sup>1</sup> Tug.

<sup>2</sup> Tug towing bark No. 32.

<sup>3</sup> Gunboat.

(Continued on page 214, column 2.)

### Grounding of a Whale at Cristobal.

A whale which swam in from the Caribbean through the gap between the breakwaters protecting the Atlantic entrance to the Canal grounded in shallow waters to the east of the Canal prism, about a quarter of a mile south of the Cristobal coaling plant, in the evening of November 17. It was unable to extricate itself and remained there, with the top of its head and most of its back showing above water.

A group of Canal employees undertook to salvage the animal. On the morning of November 19 they killed it by machine gun fire directed from a launch and towed it with a tug to pier 6, with the idea of lifting it onto flat cars and hauling it to the abattoir at Mount Hope for rendering. A 75-ton locomotive crane was unable to lift the whale from the water, and after continued efforts the salvage was abandoned, as the animal was not a sperm whale and was decomposing. In the morning of November 21 the tug *Porto Bello* towed the whale into deep water about 12 miles beyond the breakwaters and the carcass was bombed by a Navy aeroplane. Two 160-pound bombs were dropped from a height of 1,000 feet. The first struck the tail and tore a large hole in the carcass, and the second fell opposite the head about 15 feet to one side.

The monster aroused a great deal of interest among residents of the Isthmus. Hundreds of people went out in launches and cayucos to see it while alive, and other hundreds went to see it alongside pier 6. Exact measurements were not taken, but the whale was estimated to be approximately 120 feet in length and to weigh 125 tons. It was a female, of the kind known as flat humpback and is said by men of whaling experience to have been unusually large.

---

### Supplement No. 6 to Tariff No. 5.—Pilotage.

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., November 15, 1921.

#### Item 3.—PILOTAGE.

(Effective November 20, 1921.)

8. Pilotage will not be charged against a vessel stopping in the Canal prism solely for the purpose of embarking or disembarking passengers traveling only from one terminal of the Canal to the other.

JAY J. MORROW,  
Governor, The Panama Canal.  
President, Panama Railroad Company.

---

### Notice to Mariners.—Obstruction to Navigation.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., November 15, 1921.

CIRCULAR NO. 643-97.

The master of the steamship *Cedar Branch* reports by radio having passed at 1 a. m., on November 13, while in latitude 9° 51' north, longitude 79° 53' west, 28 miles north and 5 miles east true from the Atlantic breakwater, an obstruction to navigation about 120 feet long and 3 feet above water. Not sufficient light to determine nature. Apparently derelict, with one end raised, probably poop deck.

JAY J. MORROW,  
Governor.

**Eastbound Cargo Through the Panama Canal.**

During the month of October, 1921, the cargo passing through the Panama Canal from Pacific to Atlantic totaled 611,338 tons, or very little less than the record of 619,895 tons established in January, 1921. But while the totals for the 2 months are approximately the same, there is a notable difference in the tonnage of separate commodities and in the relative importance of trade areas. In January the west coast of South America contributed more tonnage than any other region, and Chilean nitrate was the leading commodity. In October the west coast of the United States was far more important, and the leading commodity was wheat. Australia contributed less to the total in October, and the Far East more. These differences are not entirely or even mainly due to seasonal fluctuations, for in October of last year the various trade areas contributed approximately the same percentage to the total traffic as in January, 1921. The following table shows how the trade has shifted:

CARGO FROM PACIFIC TO ATLANTIC.

| Origin.                          | October,<br>1920. | January,<br>1921. | October,<br>1921. |
|----------------------------------|-------------------|-------------------|-------------------|
| West coast of South America..... | 208,547           | 260,211           | 120,611           |
| West coast of United States..... | 203,608           | 207,303           | 372,518           |
| Australasia.....                 | 45,565            | 110,905           | 36,605            |
| Far East.....                    | 29,315            | 21,745            | 55,373            |
| Other.....                       | 15,318            | 19,731            | 26,231            |
| Totals.....                      | 502,353           | 619,895           | 611,338           |

Nitrate shipments in January totaled 195,885 tons. The October shipments, although heavier than in any recent month, amounted to only 54,256 tons. On the other hand, wheat from the west coast of the United States totaled 128,375 tons in October, as compared with 59,606 tons in January. The October shipments of wheat, canned fish (32,761 tons), and phosphates (14,057 tons) were heavier than in any previous month of the year. The shipments of lumber (56,606 tons) and canned fruit (25,547 tons) were heavier than in any previous month of the year save one. The tonnage of barley (67,092 tons) was less than in several recent months, and there were normal shipments of sugar (20,261 tons) and copper (10,060 tons). Beans, peas, and lentils contributed 20,547 tons.

**Exclusion of Undesirable Persons.**

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., November 17, 1921.

*Notice to steamship agents and all others concerned*—Under the authority of the Executive Order of February 6, 1917, the Governor of The Panama Canal is empowered to exclude from the Canal Zone certain classes of persons including "persons of notoriously bad character, persons whose presence would be a menace to the public health or welfare of the Canal Zone, or who would be liable to become a public charge, or who may be suffering from a loathsome or dangerous contagious disease." In the exercise of this and the other powers vested in him by the above-mentioned Executive Order, the Governor of The Panama Canal has always desired that the legitimate business of the various transportation agencies suffer the minimum interference and hindrance.

The recent activities of certain interests in attempting to land women for immoral purposes, possibly in anticipation of the arrival of the fleet makes it imperative for the protection of the morals, health and welfare of the Canal Zone that there be a stringent application of the Executive Order for the Exclusion of Undesirable Persons. This will be done. Transportation agencies may be spared much annoyance and expense by cautioning their agents and the agents of their companies elsewhere, to observe the greatest caution lest transportation be issued to persons falling within an excludable class and therefore liable to deportation.

JAY J. MORROW,  
Governor.

**Ships at Canal Repair Shops.**

The following vessels were at the Balboa shops for repairs during the week ended November 19:

Steamships *Ansaldo San Giorgio VIII*, manufacture 3 piston rods for oil pump; manufacture 6 nuts for piston rod with cotter pin holes; drill through them; manufacture 6 liner washers for oil pump rod; manufacture new oil pipe, 6 feet long; repair 1 oil cup; manufacture 12 ¾" csk. screws for crosshead slippers; *Murla*, manufacture 2 quadrant springs as per sketch, 21½" over all, 6½" outside diameter, 4½"

inside diameter, 1" square steel; *Peebles*, renew crosshead pin, fit new brass to crosshead pin, refit crank pin brass, remove old and install new piston rod on blower engine; renew crosshead pin, fit new brass to crosshead pin, refit crank pin brass to circulating engine; dredge *Cascadas*, remove broken stern spud and replace with a good order spud; barges *No. 1*, dock, stage, and clean; scale bottom up to light load line; paint bottom up to light load line; drain tanks and redrive bad rivets; *No. 148*, dock, stage, and clean; scale bottom up to light load line; paint bottom up to light load line; drain tanks and redrive bad rivets; compressor barge *No. 27*, dock, stage, and clean; scale bottom up to light load line; paint bottom up to light load line; drain tanks and redrive bad rivets.

## PREVIOUSLY REPORTED.

Launch *Wilson B. Gaither*, scrape and clean bottom; perform general hull repairs; steamship *Panama*, reboiling and general repairs to machinery and hull; launch *Pacific*, general repairs to hull; crane boat *La Valley*, perform heavy hull repairs; barges *No. 136*, dock, stage, and clean; scale and paint bottom to light load line; perform heavy hull and strongback repairs; *No. 133*, dock, stage, and clean; scale and paint bottom to light load line; perform heavy hull and strongback repairs.

The following vessels were at the Cristobal shops for repairs during the week ended November 22:

Steamships *Achilles*, paint boot topping; ease doors in coal bunkers; remetal and machine H. P. crank brasses, crosshead brasses, and L. P. guide shoes, etc.; *Heredia*, repair ice machine, manufacture 2 neck bushings, 1 valve, and 1 bushing; barge *No. 50*, clean and paint hull; steamships *Steel Worker*, repair telemotor, etc.; *Delft*, test and repair coils for CO 2 machine; repair 2 pipes; *Oranje Nassau*, make 3 rings as directed; *Palena*, electric weld boiler; *Allianca*, furnish 10 men to clean boilers.

## PREVIOUSLY REPORTED.

U. S. S. *O-12*, renew all rivets in engine foundation; overhaul all sea valves; overhaul steering and diving gear, etc.; launch *Gloriana*, repair hull and keel; renew awnings; overhaul engine, etc.; *Ampat*, manufacture, fit, and install new rudder; install asbestos lining on both boilers; renew tubes in boilers, etc.; supply boat *No. 1*, weld and reinstall cylinder on main engine, *Colon*, roll tubes in after port boiler; repair steam line to whistle; manufacture hatch battens, etc.

R. K. MORRIS,  
Chief Quartermaster.

## Current Net Prices on Coal, Fuel Oil, and Diesel Oil.

Coal is being supplied to steamships including warships of all nations delivered and trimmed in bunkers at \$12 per ton of 2,240 pounds at Cristobal and \$15 at Balboa. For ships in transit through the Canal, which are directed to take coal at Balboa, for the convenience of The Panama Canal, \$12 per ton at Balboa. For ships when delivered from lighters in quantities of 50 tons or less than 50 tons, the price is \$15 per ton at Cristobal, \$18 at Balboa.

Crude fuel oil is delivered to vessels at either Cristobal or Balboa for \$1.70 per barrel of 42 gallons.

Diesel oil is sold at \$3.50 per barrel.

## Postal Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., November 30, 1921. No. 16.

## CANAL WORK IN OCTOBER.

The following is the report of the Governor to the Secretary of War, of Canal work in the month of October, 1921:

BALBOA HEIGHTS, C. Z., November 19, 1921.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of October, 1921.

### CANAL TRAFFIC.

The total number of vessels and craft of all kinds transiting the Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                 | October,<br>1921. | September,<br>1921. | October,<br>1920. |
|-------------------------------------------------|-------------------|---------------------|-------------------|
| Commercial vessels.....                         | 255               | 221                 | 238               |
| Noncommercial vessels.....                      | 20                | 37                  | 26                |
| Launches, etc. (under 10 tons measurement)..... | 6                 | 2                   | 7                 |
| Total vessels and craft through Canal.....      | 281               | 260                 | 271               |

### COMMERCIAL TRAFFIC.<sup>1</sup>

#### Tolls.

Under the present dual method of assessing tolls, the revenue from this source was \$1,047,935.62. With the exception of the months of January and March of the present year, this is the greatest amount collected in tolls since the opening of the Canal. Had the net tonnage as determined by the Panama Canal rules of measurement been used in all cases as a basis for collecting tolls, the above amount would have been increased by \$192,154.54. This additional revenue would have been contributed, by nationality of ships, as follows:

|                    | Atlantic<br>to Pacific. | Pacific<br>to Atlantic. | Total.      |
|--------------------|-------------------------|-------------------------|-------------|
| British.....       | \$32,064.96             | \$38,001.35             | \$70,066.31 |
| Chilean.....       | 3,506.20                | 4,006.15                | 7,512.35    |
| Danish.....        | 1,306.10                | 4,210.15                | 5,516.25    |
| Dutch.....         | 1,664.65                | 3,217.00                | 4,881.65    |
| French.....        | 644.65                  | 368.07                  | 1,012.72    |
| Japanese.....      | 8,056.27                | 2,937.65                | 10,993.92   |
| Norwegian.....     | 2,661.10                | 673.55                  | 3,334.65    |
| Peruvian.....      | 4,666.65                | 5,068.65                | 9,735.30    |
| Spanish.....       |                         | 335.65                  | 335.65      |
| Swedish.....       | 2,423.35                | 2,096.80                | 4,520.15    |
| United States..... | 38,842.58               | 35,403.01               | 74,245.59   |
| Totals.....        | 95,836.51               | 96,318.03               | 192,154.54  |

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant ships chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

The additional tolls paid by American vessels would have been distributed among the following channels of trade:

|                                      | Atlantic<br>to Pacific. | Pacific<br>to Atlantic. | Total.      |
|--------------------------------------|-------------------------|-------------------------|-------------|
| United States coastwise ports.....   | \$17,855.15             | \$15,440.21             | \$33,295.36 |
| United States and Canal Zone.....    | 348.50                  | 580.70                  | 929.20      |
| United States and foreign ports..... | 17,907.48               | 12,487.55               | 30,395.03   |
| United States and possessions.....   | 1,936.00                | 3,172.50                | 5,108.50    |
| Between foreign ports.....           | 795.45                  | 3,722.05                | 4,517.50    |
| Totals.....                          | 38,842.58               | 35,403.01               | 74,245.59   |

Of the above \$192,154.54 additional revenue that would have been collected by using the Panama Canal rules of measurement exclusively, \$6,518.40 represents the additional tolls that would have been collected on account of deck cargo.

#### COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Canal in October, 1921, with that of preceding months along the lines indicated at the head of the various tables.

#### TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | October,<br>1921. | September,<br>1921. | October,<br>1920. | Average<br>month for<br>past year. |
|-------------------------------------------|-------------------|---------------------|-------------------|------------------------------------|
| United States equivalent net tonnage..... | 866,196           | 748,744             | 762,013           | 776,739                            |
| Panama Canal net tonnage.....             | 1,069,554         | 925,137             | 935,579           | 952,829                            |
| Registered gross tonnage.....             | 1,335,812         | 1,167,220           | 1,190,936         | 1,205,509                          |
| Registered net tonnage.....               | 863,676           | 743,574             | 754,540           | 761,015                            |
| Tolls.....                                | \$1,047,935.62    | \$892,001.54        | \$911,825.58      | \$939,684.44                       |
| Tons of cargo carried.....                | 985,775           | 754,894             | 991,066           | 913,330                            |

#### UNITED STATES COASTWISE TRAFFIC.

| Tons of cargo (laden vessels only).....   | 4,694             | 4,289               | 4,164             |

## COMMODITY STATISTICS.

A classification of cargo passing through the Canal during the month of October, 1921, has been compiled from declarations of cargo submitted by the ships' masters, and while incomplete, is indicative of the kind and quantity of the various commodities carried by ships transiting the Canal. From the cargo declarations and manifests submitted, it was possible to classify 72 per cent of all cargo passing from the Atlantic to the Pacific, and 93 per cent from Pacific to Atlantic ports. For October, in the Pacific to Atlantic traffic, 5 items, viz., wheat, barley, canned goods, lumber, and nitrate, made up 60 per cent of all cargo. A brief summary of the principal items is shown herewith:

| Commodity.                     | October,<br>1921. | September,<br>1921. | August<br>1921. | July,<br>1921. |
|--------------------------------|-------------------|---------------------|-----------------|----------------|
| Atlantic to Pacific.           |                   |                     |                 |                |
| Oil:                           |                   |                     |                 |                |
| Crude.....                     | 68,891            | 17,981              | 36,454          | 14,491         |

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

While all cargo-carrying vessels pay tolls on their net tonnage, as determined by established rules for measuring their available cargo-carrying space, yet the rate of such tolls per cargo ton furnishes interesting data, varying as it does not only in different ships but in vessels of different nationalities. The average rate of tolls paid on each ton (2,240 pounds) of cargo passing through the Panama Canal from the Atlantic to the Pacific was \$1.09, and from the Pacific to the Atlantic \$0.79 per ton, with a general average of \$0.90 per ton. The average rate paid per cargo ton, by nationality of vessels, is shown in the following statement:

|                                              | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|----------------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                                 | \$1.02                     | \$0.76                     | \$0.85              |
| Chilean.....                                 | 1.86                       | 2.51                       | 2.11                |

| Average rate all ships, October, 1921.....   | 1.09                       | .78                        | .90                 |
| Average rate all ships, September, 1921..... | 1.23                       | .77                        | .95                 |
| Average rate all ships, August, 1921.....    | 1.18                       | .88                        | .99                 |

The rate of tolls per cargo ton paid by vessels transiting the Canal in October, 1921, varied from \$47.88 per cargo ton paid by the steamship *Sarffos*, Norwegian registry, bound from New York to Guayaquil, and carrying 23 tons of cargo, on which tolls of \$1,101.25 were assessed; to 44.2 cents per cargo ton, paid by the steamship *Reading*, British registry, bound from San Francisco to Hull, and carrying 6,728 tons of barley, on which tolls of \$2,971.25 were assessed.

## ORIGIN AND DESTINATION OF TONNAGE.

Analyzing the traffic through the Canal during October it will be seen that in point of tonnage more than 50 per cent of the Atlantic to Pacific traffic was routed to the west coast of the United States and Canada, and in tons of cargo carried more than 36 per cent was destined for this area. Similarly, in the Pacific to Atlantic traffic more than 50 per cent of all tonnage and 63 per cent of all cargo through the Canal in October originated from the west coast of the United States and Canada.

The following statements show, by months, the origin and destination of all tonnage through the Canal during the past 12 months, the figures representing the Panama Canal net tonnage.

| October.....       | 259,613 | 170,189                      | 18,222  | 30,955     | 19,400         | 498,379 |
| Average month..... | 204,989 | 162,457                      | 50,918  | 23,936     | 15,773         | 458,073 |

In the foregoing tabulations it will be seen that the two regions showing the greatest increase of traffic are the west coast of the United States and Europe. This increase is due in part to the heavy grain shipments from the west coast of the United States to the British Isles and continental Europe, there having been 22 full cargoes of wheat and barley through the Canal in October, while in addition these 2 grains formed a large part of many mixed cargoes.

The amount of tonnage routed to and from the west coast of South America was considerably beneath the normal tonnage as represented by the average month for the past year. The nitrate shipments, while greater than for the past few months, totaled only about a third of the heavy shipments of a year ago.

Oil shipments from the east coast of Mexico were the highest since June, 1921, but were less than half the normal shipments of several months ago. Traffic to and from the Far East was a little above the normal while that to Australasia was below the average for the past year. Tables on pages 232 and 233 show the origin and destination of all cargo passing through the Canal.

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Canal by trade routes for October, 1921, has previously been compiled and was published in THE PANAMA CANAL RECORD under date of November 9, 1921. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes. Traffic for the preceding month and for the corresponding month of last year is also shown for comparative purposes.

| Vessels plying between—              | Atlantic to Pacific.      |                  |                | Pacific to Atlantic.      |                  |                |

## SHIPS WITHOUT CARGO.

The number of ships without cargo transiting the Canal, exclusive of warships and other noncargo-carrying vessels, has been relatively high the past 2 months. Other than tankers, the majority of these vessels were en route from Europe and the eastern coast of the United States to the western coast of the United States and Canada. A number of these vessels were charged full tolls due to carrying a greater quantity of coal than allowed under ballast rates. The following tabulation shows by nationality all cargo-carrying ships transiting the Canal without cargo during October:

|                    | Atlantic to Pacific. |                           |             | Pacific to Atlantic. |                           |            |
|--------------------|----------------------|---------------------------|-------------|----------------------|---------------------------|------------|

## CLASSIFICATION OF COMMERCIAL TRAFFIC.\*

A statement of this month's commercial traffic, classified by nationality of vessels, is shown in the following tabulations:

| Nationality.              | No. of ships. | Tonnage.                  |                   |             |         | Tolls.       | Tons of cargo. |
|---------------------------|---------------|---------------------------|-------------------|-------------|---------|--------------|----------------|
|                           |               | United States equivalent. | Panama Canal net. | Registered. |         |              |                |
|                           |               |                           |                   | Gross.      | Net.    |              |                |
| From Atlantic to Pacific. |               |                           |                   |             |         |              |                |
| British.....              | 42            | 146,288                   | 186,631           | 226,782     | 146,906 | \$170,515.92 | 120,358        |
| Chilean.....              | 3             | 6,028                     | 9,201             | 12,312      | 6,853   | 7,535.00     | 4,053          |
| Danish.....               | 2             | 8,318                     | 9,753             | 11,863      | 8,381   | 10,397.50    | 9,953          |

\* Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant ships chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial" and are included elsewhere in this report.

| Nationality.                    | No. of ships. | Tonnage.                  |                   |             |         | Tolls.       | Tons of cargo. |

\* Indicates displacement tonnage.

#### CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of, and amount of cargo carried by vessels transiting the Canal free of tolls. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal, these not being included in the commercial traffic.

## MOVEMENT OF PASSENGERS.

The number of passengers arriving at Canal Zone ports during the month of October, 1921, exceeded the number embarking for the first time in several months. From April 1, 1921, to September 30, 1921, the number of passengers embarking exceeded the number arriving by 4,492. For October, 1921, the number of arrivals exceeded the number of departures by 355, as shown in the following tabulation:

|                                      | At Cristobal. |                         |        | At Balboa.   |                         |        |

|                                     | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun.....                          | 129         | 133    | 267    | 20             | 20     | 40     | 307          |
| Pedro Miguel.....                   | 124         | 131    | 255    | 46             | 41     | 87     | 342          |
| Miraflores.....                     | 124         | 131    | 255    | 47             | 42     | 89     | 344          |
| Total vessels, October, 1921.....   | 377         | 400    | 777    | 113            | 103    | 216    | 993          |
| Total vessels, September, 1921..... | 276         | 384    | 660    | 89             | 100    | 189    | 849          |
| Total vessels, October, 1920.....   | 363         | 374    | 737    | .....          | .....  | 174    | 911          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                                  | Gatun. | Pedro Miguel. | Miraflores. |
|----------------------------------|--------|---------------|-------------|
| Army and Navy vessels.....       | 21     | 26            | 27          |
| Canal equipment.....             | 19     | 61            | 62          |
| Total noncommercial vessels..... | 40     | 87            | 89          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                         | Gatun.             | Pedro Miguel.      | Miraflores.        |
|-----------------------------------------|--------------------|--------------------|--------------------|
|                                         | <i>Cubic feet.</i> | <i>Cubic feet.</i> | <i>Cubic feet.</i> |
| Lockages.....                           | 1,022,730,000      | 971,310,000        | 898,650,000        |
| Leakage.....                            | 20,000,000         | 18,300,000         | 67,000,000         |
| Maintenance.....                        | .....              | .....              | 2,830,000          |
| Total consumption, October, 1921.....   | 1,042,730,000      | 989,610,000        | 967,480,000        |
| Total consumption, September, 1921..... | 878,920,000        | 840,290,000        | 815,560,000        |
| Total consumption, October, 1920.....   | 1,099,600,000      | 913,550,000        | 861,330,000        |

## METEOROLOGY AND HYDROGRAPHY.

The rainfall for the month was generally above normal over the Pacific coast, approximately normal over the Chagres River valley, and below normal over Gatun Lake and the Atlantic coast, Porto Bello reporting the lowest October rainfall of 9 years' record, and Colon the lowest with one exception since 1904. The West Indian hurricane that swept over the Caribbean during the middle of the month was largely responsible for the existing weather conditions, strong southerly winds resulting from the nearness of this area of low barometer; this in turn caused excess of rainfall to the south of the Continental Divide and general deficiency on the northern or Atlantic slope. Rainfall totals ranged from 4.84 inches at Porto Bello to 21.74 inches at the Chilibrillo station. The greatest amount of rainfall recorded on any one day was 3.66 inches at Alhajuela on the 12th. The estimated rainfall over the Gatun Lake watershed area was 12.63 inches, compared with an 11-year mean of 15.85 inches; while over the Chagres River watershed above Alhajuela it was 14.73 inches, compared with a 20-year mean of 15.15 inches.

The discharge of the Chagres River at Alhajuela was 3,252 c. f. s., being 6 per cent below the 20-year mean of 3,452 c. f. s. The maximum discharge for the month of October of record was 5,135 c. f. s. in 1914, while the minimum October discharge of record was 2,031 c. f. s. in 1904. The maximum momentary discharge for the month was 18,600 c. f. s. at elevation 99.85 feet on the 19th.

The Gatun Lake watershed total yield for the month of October, 1921, was 10,517 c. f. s., being 12 per cent below the 11-year October mean of 11,991 c. f. s. The maximum total yield of record for October was 16,291 c. f. s. in 1920, and the minimum total yield was 7,868 c. f. s. in 1911. The net yield was 10,017 c. f. s., which is 13 per cent below the average October net yield of 11,484 c. f. s. The lake varied in elevation from 85.49 feet on the 1st to 86.80 feet on the 29th.

The draft on the lake for lockages and power was 2,261 c. f. s., compared with 2,182 c. f. s. for last month, and 2,305 c. f. s. for October, 1920. The ratio of water expended for power and lockages was 2 to 1. A total of 379 spillway gate-hours were necessary to control the lake during the month.

Gamboa pump station and Brazos Brook reservoir drew 37.9 and 54.6 million cubic feet, respectively, from the lake.

Miraflores Lake varied in elevation from 53.20 feet on the 14th to 54.90 feet on the 13th. Elevation 54.90 feet is the highest stage Miraflores Lake has reached since the opening of the Canal and was due to the inadvisability of operating the spillway and thereby causing troublesome currents during a period of unusually heavy traffic.

Temperature records for the month of October are given below:

|                     | Maximum. | Minimum. | Monthly mean. |
|---------------------|----------|----------|---------------|
| Balboa Heights..... | 89       | 70       | 79            |
| Gamboa.....         | 92       | 68       | 79            |
| Alhajuela.....      | 91       | 66       | 78            |
| Gatun.....          | 91       | 72       | 81            |
| Colon.....          | 92       | 73       | 81            |

The following gives a comparison of the monthly rainfall by sections for October, 1921, and October, 1920:

| Section.      | Rainfall.      |                | Rainy days. |       |
|---------------|----------------|----------------|-------------|-------|
|               | 1921.          | 1920.          | 1921.       | 1920. |
|               | <i>Inches.</i> | <i>Inches.</i> |             |       |
| Pacific.....  | 12.98          | 9.97           | 21          | 25    |
| Central.....  | 13.10          | 20.85          | 22          | 28    |
| Atlantic..... | 7.92           | 19.12          | 20          | 28    |

Five seismic tremors were recorded by the Balboa Heights seismographs during the month. All were comparatively small tremors with the exception of the disturbance on the morning of the 17th, which was generally felt through the Zone. The epicenter of this disturbance was of near-by origin, the seismogram indicating a distance of 70 miles. Recent information from near Pacora would seem to indicate that the disturbance was more violent in that neighborhood.

#### ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in comparative form, in the following tabulation:

|                                                                          | October, 1921. | September, 1921. | October, 1920. |
|--------------------------------------------------------------------------|----------------|------------------|----------------|
| Gross output, KWH:                                                       |                |                  |                |
| Gatun hydroelectric station.....                                         | 5,304,100      | 5,198,300        | 6,039,100      |
| Miraflores steam plant.....                                              | 1,190          | 1,970            | 233,640        |
| Combined gross output.....                                               | 5,305,290      | 5,200,270        | 6,272,740      |
| Water consumption..... cubic feet..                                      | 4,062,727,820  | 3,970,751,857    | 4,268,130,000  |
| Oil consumption..... barrels..                                           | 1,953          | 1,953            | 3,360          |
| Power distributed to consumers..... KWH..                                | 4,448,013      | 4,396,098        | 5,331,293      |
| Loss of power in plant auxiliaries, transmission and transformation..... | 857,277        | 804,172          | 941,447        |
| Per cent of loss of power to gross output.....                           | 16.15          | 15.50            | 15.00          |

New construction work covering (a) the installation of one 3-phase 44,000-6,600 volt, KVA transformer and new tie-line equipment at the Gatun substation, and (b) the installation of 2 complete feeder equipments at the Balboa substation were 95 per cent complete at the close of the month.

Miscellaneous electrical repairs and installations of electrical equipment were made on 17 vessels at Cristobal and 27 vessels at Balboa during the month. There were 365 work orders issued for work to be performed by the Electrical Division during the month of October, as compared with 374 for September.

#### SHOP, FOUNDRY, AND DRY-DOCK WORK.

The output of the Mechanical Division in patterns and castings for October, 1921, as compared with the preceding month, was as follows:

|            | October, 1921. |           |         | September, 1921. |           |         |
|------------|----------------|-----------|---------|------------------|-----------|---------|
|            | Patterns.      | Castings. | Pounds. | Patterns.        | Castings. | Pounds. |
| Iron.....  | 4              | 227       | 12,943  | 14               | 248       | 10,407  |
| Steel..... |                | 95        | 8,258   | 2                | 26        | 6,720   |
| Brass..... | 10             | 126       | 6,423   | 4                | 152       | 5,275   |

At the Balboa shops, miscellaneous repairs were made on 39 vessels, the more important of which were as follows:

Work on the reboiling and overhaul of the steamship *Panama* was brought very nearly to completion during the month. This work will be completed during November and will meet the contract date of completion and come well within the allotment of funds.

The nonmagnetic survey vessel *Carnegie* was docked, a new rudder stock fashioned and installed, and a new section of the outer stern shaft for her feathering propeller was made. The steamship *Republic* was docked and a new propeller fitted. The crank shaft was raised on the steamship *Argyll*, bearings remetaled and crank coupling bolts renewed. Boiler repairs were carried out on the steamship *Katrina Luckenbach*.

Routine docking and overhaul of submarines O-11, O-13, and O-14 was completed during the month, and docking and overhaul of the Dredging Division fleet was carried forward.

At the Cristobal shops, miscellaneous repairs were made on 57 vessels, the more important of which were as follows:

The hull of the dredge *Marmol* and the bottoms of barges Nos. 122 and 123 were cleaned, scaled, and painted. The anchor windlass on the steamship *Cristobal* was repaired, boiler scaled, and internal feed flanges in the starboard boilers were installed. The copper was removed from the bottom of the launch *Gloriana*, the hull calked, and the copper sheathing reinstalled; the deadwood, shaft log, and keel were repaired.

There were 26 vessels dry-docked during the month, 17 at Balboa and 9 at Cristobal.

Definite word was received during the month that for the present at least repairs would not be carried out on the steamship *Colon*. In adjusting the force it had been counted that the steamship *Colon* would immediately follow the steamship *Panama* for an overhaul similar to that undertaken on the latter vessel.

The prospects for work at present are such that without the steamship *Colon* a very large reduction is necessitated at the Balboa shops, and the scarcity of work at the Atlantic side has brought about a large reduction in force at the Mount Hope shops. In anticipation of the departure of the steamship *Panama*, reductions aggregating about 20 per cent of the force at the Balboa shops were made during the month of October.

Four hundred and fourteen job orders were completed during the month with 213 remaining uncompleted at the end of the month.

#### DREDGING DIVISION.

Cucaracha slide showed no general movement, but a slight surface movement has continued near the top and south end of this slide. No additional material has reached the Canal prism except the silt which came from this slide and settled west of the Canal axis opposite the slide area.

A slight movement occurred on the west side of the Canal opposite Division Office slide on the 14th of the month, causing about 7,000 cubic yards of rock to come into the Canal prism. On the 17th of the month Powder House slide again became active, causing about 12,500 cubic yards of material to come into the Canal prism.

No inconvenience to Canal traffic was caused by any of the above movements. The total excavation for October, including earth and rock, was 380,200 cubic yards, as follows:

| Cubic yards. | Classified as— |        | Character of work. | Stations                                                             | Equipment.       |

| Europeans.....               | 132   | 39     | 90        | 261               | 258                 | 209               |
| West Indians.....            | 4,923 | 2,537  | 5,405     | 12,865            | 12,998              | 10,896            |
| Totals, October, 1921.....   | 7,748 | 4,627  | 7,771     | 20,146            |                     |                   |
| Totals, September, 1921..... | 7,962 | 4,668  | 7,682     |                   | 20,312              |                   |
| Totals, October, 1920.....   | 8,472 | 4,142  | 6,731     |                   |                     | 19,345            |

## WORKING FORCE—NUMBER OF EMPLOYEES.

The number of employees as of October 19, 1921, was 11,828, as compared with 19,039 on October 20, 1920, making the number of employees of The Panama Canal and the Panama Railroad Company approximately 62 per cent of the number a year ago.

The following tabulation shows the number of gold and silver employees as of October 19, 1921, by departments, together with a comparison of the working force for the preceding month, and that of October, 1920.

|                                      | Employees as of<br>October 19, 1921. |         | Total employees.  |                     |                   |
|--------------------------------------|--------------------------------------|---------|-------------------|---------------------|-------------------|
|                                      | Gold.                                | Silver. | October,<br>1921. | September,<br>1921. | October,<br>1920. |
| Operation and Maintenance:           |                                      |         |                   |                     |                   |

\* Includes employees of former Building Division.

## SCHOOLS.

The public schools of the Canal were opened on October 4, 1921, with an attendance on the opening day of 2,671. The average daily attendance for the month was 2,834.1, which is the highest in the history of the Canal Zone schools. There was a decrease from last year in the number of white children enrolled, but the colored schools showed an average increase in attendance of more than 200 over last year.

Owing to the status of the school allotment, needed repairs and alterations to buildings can not be made; free transportation to school children has been discontinued, and janitor service has been considerably reduced.

The following brief summary shows the enrollment, average attendance, etc., in both the white and colored schools;

|                                   | White.  | Colored. | Total.  |
|-----------------------------------|---------|----------|---------|
| Gross enrollment.....             | 1,692   | 1,453    | 3,145   |
| Net enrollment.....               | 1,680   | 1,441    | 3,121   |
| Average daily attendance.....     | 1,556.3 | 1,277.8  | 2,834.1 |
| Pupils not tardy nor absent.....  | 1,077   | 832      | 1,909   |
| Number of cases of tardiness..... | 249     |          | 249     |
| Number of teachers.....           | 79      | 32       | 111     |

## VITAL STATISTICS.

A total of 168 deaths occurred during the month of October, 1921, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to an annual death rate of 16.24 per thousand. The 3 leading causes of death were (a) tuberculosis, (b) pneumonia, and (c) diarrhea and enteritis; these 3 causes were responsible for 47 per cent of all deaths from disease. Among other causes of death listed were 3 from typhoid fever, 2 from malarial fever, and 1 each from diphtheria and measles. Of the total deaths, 72, or 43 per cent, occurred among children under 5 years of age. There were 10 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 364 live births reported during the month, and 19 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 37.01 per thousand population. Deaths among children under 1 year of age numbered 48, giving an infant mortality rate, based on the number of births reported for October, of 131.87 per thousand live births.

Eighty-six cases of malaria were reported during the month, of which 12 were employees and 74 nonemployees; of the nonemployees, 53 were soldiers. These malarial cases originated as follows: in Panama City, 4; in the Canal Zone, 50; and outside of the Canal Zone, 32.

Among other diseases reported during the month were 4 cases of typhoid fever, 4 of dysentery, 3 of smallpox, 1 of leprosy, 4 of scarlet fever, and 17 of diphtheria.

## RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of the material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses and cash sales from stock, are shown below in comparative form:

|                                                                                           | October,<br>1921. | September,<br>1921. | October,<br>1920. |

Respectfully,

JAY J. MORROW,  
Governor.

## Heavy Commercial Traffic for One Day.

Eighteen merchant vessels, the British cruiser *Raleigh*, and a launch made the transit of the Canal on November 23, establishing what is thought to be a new high record for a day's commercial traffic. The cargo carried through aggregated 78,648 tons and the total of the tolls levied was \$79,808.50.

Omitting the launch, which paid \$2.25 in tolls, but is not an ocean-going vessel, the traffic from Atlantic to Pacific was 10 vessels, of 38,221 net tons, Panama Canal measurement, plus the 12,011 displacement tons of the cruiser, carrying 25,776 tons of cargo and paying \$44,722.75 in tolls. The movement from Pacific to Atlantic was 9 vessels, of 37,710 net tons, carrying 52,872 tons of cargo and paying \$35,081.25 in tolls.

## Distribution of Cargo Passing Through the Panama Canal from the Pacific to the Atlantic, October, 1921.\*

**Predicted Lumber Shipments.**

The *West Coast Lumberman* for November 15, 1921, commenting on the proposed reduction of the transcontinental freight rate on lumber predicts that shipments by water will continue to increase. According to an announcement of the West Coast Lumbermen's Association the steamship lines, which prior to the increase of railroad freight rates a little more than 1 year ago handled less than 1,500,000 feet of lumber through the Panama Canal in 6 months' time, will wind up the current year with intercoastal deliveries amounting to over 175,000,000 feet, and by spring indications are that these steamship lines will have to add sufficient tonnage to take care of 50,000,000 feet a month from the Oregon and Washington mills to north Atlantic markets. When shipments by water were started on a large scale the trade was handicapped by lack of handling facilities on the Atlantic coast, but during the past year terminal improvements have been made in Baltimore, New York, and Boston, and other projects are now under way, which will render material aid to the Pacific northwest lumber industry in permanently establishing its products in Atlantic coast markets.

A tabulated comparison of the proposed reduced railroad freight rates with the present ocean freight rates on various grades of lumber shows that the latter are lower by \$4 to \$12 per thousand feet.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the week ended November 26:

Motor ship *Chiralite*, calk and pitch deck; repair deck below and around funnel; install galley range; manufacture and install smoke pipe from range to funnel; dredge *Cascadas*, crane service to remove broken saddle block and install good order block; repair stern spud; repair saddle block; launches *No. 405*, remove present engine bed and install new bed suitable for speedway engine; install new shaft log and piece out keel to take tube and shaft, 2" in diameter; manufacture and install stern castings, bronze; manufacture new rudder and install new rudderpost to suit new location of propeller, patch all copper in connection with repairs; *Aspinwall*, renew after end of keel, repair sternpost; replace all stern castings; repair copper in wake of repairs.

#### PREVIOUSLY REPORTED.

Steamship *Panama*, reboiling and general repairs to machinery and hull; barges *No. 1*, dock, scale, and paint; light repairs; *No. 148*, dock, scale, and paint; light repairs; compressor barge *No. 27*, dock, scale, and paint; light repairs; launch *Pacific*, general repairs to hull; crane boat *La Valley*, heavy hull repairs; barges *No. 136*, dock, scale and paint bottom; heavy hull and strongback repairs; *No. 133*, dock, scale, and paint bottom; heavy hull and strongback repairs.

The following vessels were at the Cristobal shops for repairs during the week ended November 28:

Schooner *C. D. Bryant*, dry-dock for inspection; steamships *Cristobal*, renew section of galley pipe; supply brass for plungers in feed pump, etc.; *Puerto Rico*, repair beam pump; *Caribbean*, repair brake hand screw on windlass; repair fire line; renew 2 staybolt nuts and washers in forward boilers, etc.; *Balboa*, repair steering gear; tug *Porto Bello*, remove flywheel of dynamo; true up keys and eccentric sheave; barges *Nos. 15 and 18*, scale and paint bottom; steamship *General G. W. Goethals*, manufacture H. P. piston rings and skim up grooves in bull ring to suit; *General W. C. Gorgas*, braze steam heating line; burn 3 airport holes in shell plating; get out parts for gangway.

#### PREVIOUSLY REPORTED.

U. S. S. *O-12*, renew all rivets in engine foundations; overhaul all sea valves; overhaul steering and diving gear, etc.; launch *Gloriana*, repair hull and keel; renew awnings; overhaul engine, etc.; steamships *Allianca*, clean boilers; *Ampal*, manufacture, fit, and install new rudder; install asbestos lining on boilers; renew tubes in boilers, etc.

### Official Circulars.

#### Duties of Engineer of Maintenance.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., November 22, 1921.

CIRCULAR NO. 660-57.

1. In order to carry out the policy, directed by the Secretary of War in his letter of October 18, 1921, that the Engineer of Maintenance shall perform duties in the Canal Zone analogous to those of an Executive Officer, the Engineer of Maintenance has been relieved of practically all direct charge of divisions and hereafter his duties and status shall be as below set forth. The Superintendent of Dredging will continue, as heretofore, to report to the Engineer of Maintenance.

2. The Engineer of Maintenance is the direct representative of the Governor for securing economy and efficiency in the management of the governmental functions and business operations of The Panama Canal and Panama Railroad on the Isthmus. All matters involving (1) new expenditures for construction, operation, maintenance, government or sanitation, (2) proposed increases in force or established rates of pay and (3) all work requests and requisitions for material to be purchased, will be submitted to him for action.

3. He is authorized and directed to make studies in matters of organization, new projects, pruning out of nonessential operations, reports of expenditures, and other allied matters, with the object of increasing the economy and efficiency of our work. It shall be the duty of the Engineer of Maintenance from time to time to visit the various activities of the Canal and personally observe the operations therein, and those in charge will afford him every facility for this purpose.

4. One of the principal duties of the Engineer of Maintenance will be the coordination of the work of the various divisions. In order that he may do this, all matters which affect more than one division or department must be taken up with the Engineer of Maintenance before being presented to the Governor. This does not prevent a division or department head from taking up direct with the Governor any matter which affects only his own division or department.

5. The Engineer of Maintenance is authorized to give orders to heads of divisions and departments in the name of the Governor, and such orders will be accepted and obeyed as emanating from the Governor. If requested to do so, the Engineer of Maintenance will in all cases give such orders in writing, signed "By order of the Governor."

6. In order that the Engineer of Maintenance may be at all times conversant with the policy

## Passenger Lists.

THE PANAMA CANAL, EXECUTIVE OFFICE,  
BALBOA HEIGHTS, C. Z., December 1, 1921.

CIRCULAR No. 679-10:

Effective January 1, 1922, Circular No. 679-3, requiring passenger lists from vessels arriving at or departing from Canal Zone ports, or passing through the Canal Zone, is modified as follows:

1. Lists of passengers landing at or departing from the Canal Zone are required on Panama Canal forms, supplies of which may be procured from this office or The Panama Canal, Washington, D. C. Two copies of each list will be required.
2. Lists of incoming passengers shall be delivered to the Boarding Officer on arrival and outgoing lists shall be delivered to the Customs Office before obtaining clearance. However, with the consent of the Bureau of Customs previously obtained, outgoing lists may be furnished through an agency on the Isthmus within 48 hours after clearance of the vessel.
3. Lists of incoming transit passengers continuing in the vessel in which they arrive, through the Canal or a Canal port are required in duplicate, showing simply the names and numbers.
4. Nothing in this notice shall be construed as changing the requirements now in effect regarding information to be furnished regarding prohibited aliens.
5. Paragraphs 8 and 15 of Circular No. 679, revised, are amended accordingly.

JAY J. MORROW,  
*Governor.*

## Trips Through the Canal.

To accommodate visitors and residents on the Isthmus who wish to make the trip through the Canal, the following lines operating passenger vessels through the Canal are accepting passengers from Cristobal to Balboa, or Balboa to Cristobal, at the rate of \$10 per adult passenger for first-class transportation, including meals served aboard ship during the time of transit:

Pacific Steam Navigation Company, Grace Line, South American Steamship Company (Chilean Line), Pacific Mail Steamship Company. (The Pacific Mail's rate for the trip is \$6.)

The Pacific Steam Navigation Company has approximately 2 passenger ships through the Canal each way per week, and the other lines mentioned have 1 sailing each way, approximately, every week. Dates of sailing are advertised on the Isthmus, or may be obtained by telephone from the offices of the companies. All of these lines have offices at both ends of the Canal.

## Income Tax Receipts Not Required in Connection With Transportation.

The Commissioner of Internal Revenue in the United States has made a decision that American citizens departing from the United States will not be required to present income tax clearance papers.

This information is published for the benefit of Canal employees arranging transportation from the United States.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, December 3, 1921.

### Ships at Canal Repair Shops.

The following vessels were at the Cristobal shops for repairs during the week ended December 5:

Steamships *Barima*, buff ridge off of H. P. cylinder and manufacture 6 rings to suit; *Jamaica*, cast and machine valve for sanitary pump, etc.; tug *Porto Bello*, scale boiler; braze surface blow pipe; repair reversing ram; brick boiler, etc.; barges *Nos. 3 and 17*, clean and paint bottom; test all tanks and stop all leaks; steamships *General H. F. Hodges*, renew steering chains and weld steering rods; cover H. P. receiver pipe; repair cargo hooks; calk decks, etc.; *General O. H. Ernst*, repair throttle valve; rebore spindle hole in M. P. valve; cut oil groove and manufacture new balance ring; anneal and repair steering chains, etc.; *Advance*, clean furnaces; furnish machinist and riggers to assist engineers to lay up machinery; launch *Patrol*, steamship *City of Seattle*, and motor ship *Laura C. Hall*, minor repairs.

### PREVIOUSLY REPORTED.

U. S. S. *O-12*, renew all rivets in engine foundations; overhaul all sea valves; overhaul steering and diving gear, etc.; barges *Nos. 15 and 48*, scale and paint bottom; steamship *General W. C. Gorgas*, braze steam heating line; burn 3 air port holes in shell plating, and install ports; get out parts for gangway, etc.

### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States "Pancanal, Washington."

## Official Circular.

## Work Requests, Estimates, and Reports of Costs.

THE PANAMA CANAL,  
EXECUTIVE OFFICE.

BALBOA HEIGHTS, C. Z., November 26, 1921.  
CIRCULAR NO. 642-5:

1. All work requests now requiring the approval of the Governor will hereafter be submitted direct to the Engineer of Maintenance. Such requests will show the estimated cost and must be accompanied by data showing that an adequate estimate including all elements has been made, and no work will be undertaken unless such estimate has been made.

2. The Accounting Department will furnish the Engineer of Maintenance monthly a list of all jobs, for which the estimate was \$500, or more, and for which the cost upon completion varied 10 per cent, or more, also a list of the jobs, the estimated cost of which was under \$500, and the variation was 25 per cent, or more. Heads of departments and divisions will see that every effort is made to keep the final costs within the estimates of the work done and, with the exception of the Superintendent of the Mechanical Division, will submit explanations to the Engineer of Maintenance in all cases in which the variation is greater than the percentages stated. Work performed for the Army, Navy, or other departments of Government, which is payable from appropriations, must not, under any circumstances, exceed the specific allotments for such work.

3. Special care must be used in making estimates for work for the Army or Navy, or other than Canal or Railroad interests. Wherever it is practicable to do so, flat prices for doing work may be quoted without regard to the final costs. For jobs which will cost less than \$100, heads of departments and divisions are authorized to make such quotations. For jobs costing more than \$100, any flat price for the performance of work must be first approved by the Engineer of Maintenance. This rule shall not apply to the Superintendent of the Mechanical Division, who, for the time being, is authorized to quote flat prices for performance of work in such cases as he may deem practicable. Inasmuch as there may be some cases in which the final costs will exceed the prices quoted, it is essential that some percentage be added to the estimated cost in order to prevent ultimate losses and insure a small profit. For any interest that desires work to be done for a flat price, there should be added to the estimates of costs about 10 per cent of same to insure against loss.

4. Generally, no estimates of costs of performance of work should be made without charge therefor, unless such estimates can be made by the regular office forces and without material additional expense to the Canal. However, both the Engineer of Maintenance and the Superintendent of the Mechanical Division are authorized to make other estimates without charge whenever they have reasonable grounds to believe that the work for which the estimate is made will be turned over to the Canal to perform within a reasonable time thereafter. The necessity for exercising care in the incurring of expenses for making estimates is the fact that the amount of such expenses increases the expenses of the Canal without any corresponding benefit unless the Canal forces ultimately perform the work.

JAY J. MORROW,  
Governor.

## Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6", 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

The Panama Canal Record, Balboa Heights, Canal Zone, or

The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., December 14, 1921. No. 18.

## Executive Order.<sup>1</sup>

By virtue of authority vested in me under Section 5 of The Panama Canal Act, approved August 24, 1912, I, Warren G. Harding, President of the United States of America, hereby establish the following Executive Order in connection with the payment of tolls to be effective immediately:

1. Vessels transiting The Panama Canal from Cristobal to Balboa and return, for the sole purpose of having repairs made at the Balboa dry dock and shops, will be exempt from the payment of tolls as prescribed in the Proclamation of the President of the United States dated November 13, 1912, but in lieu thereof shall pay charges for pilotage, towage, and lockages for such transit at rates based on cost as determined by the Governor of The Panama Canal from time to time.

2. Should a vessel, after having made the transit from Cristobal to Balboa under the above conditions, decide not to return to Cristobal, or should it discharge or receive cargo, passengers, mail, or baggage at Balboa or accomplish anything else for which vessels usually transit the Canal other than to have repairs made, tolls will be collected for the transit from Cristobal to Balboa at the prescribed rates before such vessel will be given a clearance and allowed to proceed, the amount previously collected for lockage and pilotage through the Canal being applied as part payment thereof.

THE WHITE HOUSE,  
November 17, 1921.

WARREN G. HARDING.

[No. 3581.]

<sup>1</sup> This Order is being published as Panama Circular No. 601-126.

### Ships at Canal Repair Shops.

The following vessels were at the Balboa shops for repairs during the two weeks ended December 13:

Dredges *No. 84*, dock and undock; stage and clean; scale bottom; paint bottom up to light load line, 2 coats of anticorrosive and 1 coat of antifouling; rebush ladder drum, install new gear and make new shaft if necessary; repair broken casting on winding gear pedestals; install 2 new Globe valves on blow-down from boilers; install new water glass gauge cocks on both blowers; set up pump and overhaul suction line on same; install hangers on circulating pump line and fire lines; install new pins in cutter engine crank shaft; line up H. P. and L. P. engine and install new crosshead pins; manufacture new brass distance collar for cutter engine; connect up drain from capstan engine as per information to chief engineer; renew salt water line to main pump where necessary and renew salt water line from pump to cutter; repair lower fenders; fit patches; weld butt straps and bad order rivets; *No. 83*, dock and undock; stage and clean; scale bottom; paint bottom up to light load line; 2 coats of anticorrosive and 1 coat of antifouling; overhaul sea valves; test tanks and stop leaks; redrive or weld all loose rivets in hull, under water; repair lower fender irons, electric weld butt straps and bad order rivets in fender irons; steamship *Lady Sybil*, dock and undock; paint bottom and perform running repairs on main engine, feed pump, air pump, circulating pump, general service pump, forward fan engine, evaporator; calibrate gauges; repair whistle valve; install new fresh water hand pump and pipe; repairs to sanitary system in captain's and crew's quarters; test and repair boiler (4 furnaces), manufacture 2 coils for Dahl fuel oil heater, repairs to deck plates over end of hawse pipe; renew rungs and hand grabs in hold ladders, repair stanchions, rail, accommodation ladder, port lights, boatswain's lockers, sea valves, and miscellaneous light repairs; motor ship *Chiralite*, in addition to work reported on previous work report it has been found necessary to dock and undock, recopper and repair hull, repair sea valves, shaft logs, manufacture portable bulkheads between engine room and cargo holds, install manhole plate and fresh water tank, fair propeller blades, general repairs to main engine and clutch; install foundation plates for thrust blocks, manufacture and install 2 new thrust blocks, line up shafts; manufacture and install water jacketed exhaust pipes to stack; install new fresh water hand pump and repair cargo hand winch.

### PREVIOUSLY REPORTED.

Launch *No. 405*, installation of new engine bed, repairs to rudder, rudder post, and renewal of defective copper; steamship *Panama*, reboiling and general repairs to machinery and hull.

The following vessels were at the Cristobal shops for repairs during the week ended December 12:

Steamship *La Navarre*, manufacture 65 valves; repair pump and steam pipes; U. S. S. *Nitro*, manufacture 1 pinion gear drive shaft; steamship *Achilles*, clean tubes; make 2 bearing caps for winch; renew 15 holding-down bolts on main engines; paint boot topping; overhaul speaking-tube system and engine room telegraph, etc.; barges *Nos. 20 and 49*, clean, scale, and paint, renew rivets where necessary and test tanks; steamships *Balboa*, repair valve spindle and clean boilers; *Cuba*, make tail rod for line pump and 1 disk for injector valve; *Jason*, repair air pump; U. S. D. B. launch *L-53*, open up engine and clutch for inspection and estimate; supply boat *No. 1*, install new cylinder; steamships *Venezuela*, free up anchor windlass; true up L. P. and H. P. slippers; fit liners on H. P. and L. P. crank brasses; *Panama*, *Jamaica*, *Zacapa*, *Katherine Parks* and barge *Mamei*, minor repairs.

# THE PANAMA CANAL RECORD

OFFICIAL PUBLICATION OF THE PANAMA CANAL.  
PUBLISHED WEEKLY.

Subscription rates, domestic, \$1.50 per year; foreign, \$2.00; address  
The Panama Canal Record, Balboa Heights, Canal Zone, or  
The Panama Canal, Washington, D. C.

Entered as second-class matter February 6, 1918, at the Post Office  
at Cristobal, C. Z., under the Act of March 3, 1879.

Volume XV. Balboa Heights, C. Z., December 21, 1921. No. 19.

## Flat Price Contracts for Work Performed by The Panama Canal.

The Panama Canal has adopted a policy of making flat price contracts for work performed by its departments and divisions, where practicable, in place of the former "cost plus" system. The practice applies both to work for the departments of the Government and to work for individuals and companies.

The practice of setting a price for a job and adhering to it was adopted for two principal reasons. One is that it should attain economy in the Canal organization. It will throw directly on the organization doing the work any loss from failure to perform efficiently, and hence increase the direct responsibility and active interest of all involved. The other is that for work performed for individuals and companies, especially steamship repairs and salvage work, it is frequently essential to quote an absolute and fixed price which will not be exceeded. In some cases the decision whether to have certain work performed rests on knowing accurately what it would cost, and in many others it avoids suspense and misunderstandings and irritation to be able to make a definite contract.

The official circular establishing the new practice is No. 642-5, dated November 26, 1921, and published in THE PANAMA CANAL RECORD of December 7. Costs will be estimated and charged as before, and for any interest that desires work to be done for a flat rate, about 10 per cent of the estimated cost is to be added to insure against loss. That is, it is supposed to insure against loss; but if it does not, the interest for which the work is being done will not bear the loss.

## Supplement No. 7 to Tariff No. 5.—Coal.

THE PANAMA CANAL, PANAMA RAILROAD COMPANY,  
EXECUTIVE OFFICE, BALBOA HEIGHTS, C. Z., December 19, 1921.

### ITEM 21.—COAL.

(Effective December 15, 1921.)

Cristobal-Colon.

The following is added to paragraph 1:

The price of coal taken from the Cristobal coaling plant in over 1,000-ton lots, by vessels transiting the Canal, will be, per ton of 2,240 pounds.....

\$10.00

The following is added to paragraph 3:

If all, or any part, not less than 50 tons, of the more than 1,000-ton lots authorized to be sold at the coaling plant at \$10 per ton under paragraph 1 above, is delivered in lighters, the price of such coal delivered in lighters will be, per ton of 2,240 pounds.....

\$11.00

NOTE—For vessels transiting the Canal and taking between 833 and 1,000 tons of coal at Cristobal, the maximum charge will not exceed that for 1,000 tons at the rates prescribed in the two paragraphs above.

JAY J. MORROW,  
Governor, The Panama Canal.  
President, Panama Railroad Company.

## MOVEMENTS OF OCEAN VESSELS.

Week ending at midnight, December 17, 1921.

THROUGH THE CANAL—ATLANTIC TO PACIFIC.

| Ship.               | Arrived at port. |       | Entered Canal. |       | Completed transit. |       | Cleared for sea. |       | Nationality. | Line.                            | Length. | Beam. | Salt draft. | From— | For—          | Cargo.            |        | Panama Canal tonnage. |        |

\* Other than ships passing through the Canal.

### First Steamer in New French Line Service.

The steamship *Honduras*, the vessel finally selected to inaugurate the new service of the Compagnie Generale Transatlantique between Europe and the west coast of North America, an announcement of which was published in THE PANAMA CANAL RECORD of September 21, passed through the Canal northbound on December 18 with a cargo of canned fish, dried fruit, barley, copper, and other Pacific coast products loaded at Puget Sound ports and San Francisco for discharge at Bordeaux, Havre, Antwerp, and Hamburg. The *Honduras* will be followed by the steamships *Mississippi* and *St. Joseph*. A monthly service will be maintained.

---

### Publication of Notices and Circulars of Interest to Shipping.

All of the Panama Canal notices to mariners, notices to steamship lines and general circulars of interest to shipping in its relation to the Canal are published in THE PANAMA CANAL RECORD. For this reason it is considered unnecessary to make a separate general distribution to shipping of such notices and circulars. Shipping interests are advised to look for them in this paper, which is supplied to them without charge.

---

### Ships at Canal Repair Shops.

The following vessels and marine equipment were at the Balboa shops for repairs during the week ended December 17:

Steamship *Hawkeye State*, repair port after blower; renew brickwork, No. 6 furnace; manufacture 1 bevel pinion for revolution counter and repair 1 recording pen; barges *No. 102*, dock and undock; stage and clean; scale bottom up to lower fender; paint 2 coats of anticorrosive and 1 coat of antifouling; *No. 121*, dock and undock; stage and clean; scale bottom up to lower fender; paint 2 coats of anticorrosive and 1 coat of antifouling; dredge *No. 86*, dock and undock; stage and clean; scale bottom up to 8-foot draft line; redrive or weld all loose rivets in hull under water line, and stop all leaks; overhaul sea valves; scale, paint, and tighten all loose rivets in ladder; install valve in suction line; scow *No. 139*, redrive or weld all loose rivets in hull below water line; test tanks; calk as required and stop all leaks; renew 80 feet of side fender; patch bottom; straighten combing; manufacture and install end and rake fenders.

#### PREVIOUSLY REPORTED.

Steamships *Lady Sybil*, heavy operation and miscellaneous hull repairs; *Calgarolite*, heavy operation and miscellaneous repairs; motor ship *Chiralite*, heavy operation and miscellaneous repairs; launch *No. 405*, installation of new engine bed and light repairs.

The following vessels were at the Cristobal shops for repairs during the week ended December 19:

Steamship *Colon*, repair double bottom tank; install guard for lifeboat; repair steam pipes; D. B. launch *L-53*, repair bulwarks, rudder head, shoe, lower fender, etc.; install copper patches on hull; overhaul reverse gear; true up pistons; manufacture new ring; overhaul magnet; overhaul air and bilge pump; test and repair tank, etc.; U. S. N. barge *No. 479*, dock and undock; scrape and paint bottom; test tanks; renew rivets where necessary; scrape and red lead tanks, etc.; steamships *Canadian Cruiser*, machine piston head, rod, and rings; *Allianca*, repair drain pipe in hold, repair scupper under bridge; tug *Engineer*, scale boilers; remetal H. P. crank brass; fit brasses to L. P. link block, etc.; steamships *Arawa*, *Caribbean*, and launch *Wilhelm*, minor repairs.

#### PREVIOUSLY REPORTED.

Supply boat *No. 1*, install new cylinder; steamship *Venezuela*, free up anchor windlass; true up L. P. and H. P. slippers; fit liners on H. P. and L. P. crank brasses, etc.

### Trips Through the Canal.

In addition to the steamship services carrying local passengers through the Canal from one terminal to the other which were named in THE PANAMA CANAL RECORD of December 7, the Matson Line, operating the steamers *Buckeye State* and *Hawkeye State*, accepts such passengers at \$6 each for the trip.

With this addition, the lines now offering such service are the Pacific Steam Navigation Company, Grace Line, South American Steamship Company, Pacific Mail Steamship Company, and Matson Line. The two last named charge \$6 for the trip, the others \$10. Together they afford about 5 transits of the Canal each way every week.

### Postal and Cable Addresses of The Panama Canal.

The postal address is, "The Panama Canal, Balboa Heights, Canal Zone," or "The Panama Canal, Washington, D. C."

Mail for ships passing through the Canal or touching at either of the terminal ports should be addressed to "Cristobal, Canal Zone."

The cable address of The Panama Canal, on the Isthmus, is "Pancanal, Panama;" in the United States, "Pancanal, Washington."

### Change in Passenger Train Schedule on Panama Railroad.

Effective January 1, 1922, the passenger train schedule of the Panama Railroad will be changed. The present schedule has a train leaving each terminal, Colon and Panama, at 7.10 a. m., 11 a. m., and 5 p. m., the trains passing near Darien. Under the new schedule a regular passenger train will leave Panama at 7 a. m., arriving at Colon at 8.45 a. m. and 25 minutes later the same equipment will leave for Panama in charge of the same crew. In the afternoon a train will leave Colon at 4 o'clock, arriving at Panama at 5.45 p. m.; it will leave Panama for Colon at 6.10 p. m. and reach Colon at 7.55 p. m.

The service of these two regular passenger trains will be supplemented by accommodation trains crossing the Isthmus in the early afternoon. Trains made up of through freight will leave each terminal station at 12.15 p. m., carrying baggage and passenger cars, and arriving at the opposite terminal at 2.10 p. m. The accommodation trains will make all stops for passengers but will not handle freight at way stations.

The combined schedule will give 3 trains daily for passengers in both directions. Trains will leave Colon at 9.10 a. m., 12.15 p. m., and 4 p. m., and will leave Panama at 7 a. m., 12.15 p. m., and 6.10 p. m.

---

### Executive Order.—Conditions of Employment.<sup>1</sup>

By virtue of the authority vested in me, it is hereby ordered:

1. Pursuant to the provisions contained in paragraph 17 of the Executive Order of February 2, 1914,<sup>2</sup> fixing conditions of employment governing employees of The Panama Canal and Panama Railroad Company on the Isthmus of Panama, a charge will be made for rent, fuel, electric current, water, and services in connection with quarters, on and after January 1, 1922.

#### RENT.

2. The rental will be based on the present average depreciated value of the area occupied by the tenant, to be determined by the Governor of The Panama Canal. The rental will be sufficient to amortize the investment in quarters on the basis of a total average life of 36 years, to return five (5) per cent, for amortization and interest on the investment, and in addition cover the amount fixed for expenditure for repairs due to ordinary wear and tear of buildings and for the disposal of garbage and other services necessary from a sanitary point of view. The rental for bachelor quarters and for nonhousekeeping married quarters may be fixed to include all miscellaneous services which are rendered. The rental of buildings hereafter erected shall be fixed so as to conform with rentals theretofore charged for similar buildings.

3. Charges for fuel, electric current, and water will be based upon cost; where meters are not installed, the charge for water will be based upon the average consumption, and the charge for current upon the number of lamps or other devices installed.

4. Miscellaneous work, such as repainting interior of houses, repairing electric fixtures, breakage in screens, furniture and stoves, plumbing, etc., and the cutting of grass and trimming of hedges around quarters, will be done upon request of tenants and charges for such services will be made on the basis of cost. Any repairs made necessary by reason of a tenant's misuse of the premises or any property therein, will be made by The Panama Canal and the cost therefor collected from such tenant.

5. The Governor of The Panama Canal is charged with the duty of issuing such instructions as may be necessary to carry out this order and to fix charges as herein outlined, subject to the general instructions provided.

WARREN G. HARDING.

THE WHITE HOUSE,

December 3, 1921.

## Deceased Employees.

The estates of the following deceased employees of The Panama Canal or the Panama Railroad Company are now in process of settlement, and any claims against these estates, or any information which might lead to the location of heirs, or to the recovery of property, bank deposits, postal savings, or postal money order deposits or any other moneys due them, should be presented at the office of the Administrator of Estates at once in order that the estates may be settled as soon as possible. All claims should be itemized, sworn to before a notary public, or other public officer having a seal, and submitted in duplicate. These names will be published but once:

## Official Circulars.

## Reduced Rate on Grace Line's Vessels.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., December 1, 1921.

To all concerned—The Panama Agencies Company advises that, effective November 29, 1921, a reduction of 25 per cent from the minimum first-class fare on the vessels of the Grace Line in the New York-Cristobal service will be granted employees of The Panama Canal and the Panama Railroad Company and dependent members of their families. The vessels of their line in this service are the *Santa Elisa*, *Santa Teresa*, *Santa Luisa*, and *Santa Ana*.

C. A. McILVAINE,  
Executive Secretary.

## Land for Agricultural Purposes.

THE PANAMA CANAL,  
EXECUTIVE OFFICE,

BALBOA HEIGHTS, C. Z., December 2, 1921.

CIRCULAR NO. 713-1:

1. Pursuant to instructions contained in letter of the Secretary of War to the Governor under date of October 18, 1921, certain lands in the Canal Zone are from this date made available for agricultural purposes.

2. The lands so made available are comprised within the following-described areas, but lands within 1 mile of the towns of Corozal, Pedro Miguel, Paraiso, Gatun, Empire, and Culebra, are excepted:

(a) *East side of the Canal*—The area bounded by the Curundú River on the south, Gatun River on the north, Zone line on the east, and the Canal on the west, except the areas included in military reservations, pasture lands, Sunmit contract, Las Cascadas Plantation, Juan Mina Plantation, and such land as is needed by the Police Division at Gamboa, and such areas as have been assigned by the Supply Department for garden plots.

(b) *West side of the Canal*—The area bounded by Venado Beach on the south, Supply Department pastures on the north, Zone line on the west, Supply Department pastures on the east; and the area bounded by pastures on the south, military reservation and Limon Bay on the north, the Canal and pasture area on the east, and Zone line on the west; except that no land will be assigned within  $\frac{1}{2}$  mile of Gatun Dam or within  $\frac{1}{2}$  mile of Caño Saddle; this latter exception not including the islands in Gatun Lake.

3. These lands will be assigned under revocable licenses, subject to the following provisions:  
(a) If at any time it shall become necessary for the United States to occupy or use the whole or any portion of the lands covered by any such revocable license, it shall have the right to do so without further compensation to the licensee

than the reasonable value of the improvements made by him upon said tract, said value to be determined in such manner as the Governor may direct.

(b) No license shall be granted to any person who shall not have first established by affidavit that he will use the same for agricultural purposes and that he will comply with all regulations now or hereafter in effect concerning land in the Canal Zone devoted to agriculture.

(c) The licensee shall be required to enter upon the land and commence the cultivation thereof within 6 months from the date of his license, and thereafter to cultivate the land to the satisfaction of the duly appointed representative of the Canal entrusted by the Governor with the supervision of such matters.

(d) No license shall be assignable except with the approval of the Governor.

(e) All licenses shall reserve to the United States all mineral, oil, and gas rights in the lands covered by them.

(f) Under this authority not exceeding 5 hectares will be granted to any one person, a member of whose immediate family has not received a similar grant, without any charge being made therefor up to and including June 30, 1924. An applicant may be permitted to take under license not to exceed 50 hectares, but in such event he shall be charged at the rate of \$5 per annum for each hectare in excess of 5 so taken. On and after July 1, 1924, all land held under license as herein provided shall be charged for at the rate of \$5 per hectare per annum, and this rate shall not be increased prior to December 31, 1930.

4. From second-hand material soon to be available from buildings razed there will be granted to each licensee without charge until the available supply is exhausted not to exceed 50 sheets of iron and 5,000 feet of lumber, and this material will be transported to the point on the railroad nearest the respective holdings at the expense of the Panama Railroad Company; but no licensee of more than five hectares of land shall be given any material as herein provided until all requisitions from holders of five-hectare assignments have been satisfied.

5. The receipt and acceptance or rejection of applications, the delimiting of land assigned, the necessary inspections, and all other matters concerning the operation of this plan, shall be under the jurisdiction of the Land Agent.

JAY J. MORROW,  
Governor.

## Sale of Lumber.

The Panama Canal has on hand at Balboa storehouse considerable quantities of 1" x 6" 1" x 8", and 1" x 10", dressed lumber, Douglas fir, grade 1, select common. Further information will be furnished by General Storekeeper, Balboa, or at office of Chief Quartermaster, Balboa Heights.

## Good Wishes of the Season.

THE PANAMA CANAL,  
BALBOA HEIGHTS, C. Z., December 23, 1921.

The Panama Canal extends to all of its patrons and employees the greetings of the holidays.

In the past year there has been a slight decrease in traffic, but the volume has been well sustained in view of the general depression. Sales of supplies to ships, and repair work, have fallen off on account of lessened traffic and policies of retrenchment on the part of ship operators.

The Canal force has been greatly reduced, due to these causes, completion of construction, and revisions in method and organization. Wages have been reduced in step with reductions in the United States and, in the case of silver employees, with lowered cost of living. Beginning with the new year, free quarters for gold roll employees will be eliminated. Flat price contracts are now being entered into for work done by departments of the Canal, eliminating the uncertainties of the former "cost plus" system. These changes are all parts of a policy of placing the operation of the Canal on a business basis, with what appears to be a due regard to conditions of service in the tropics.

The levying of rent and accompanying charges on gold employees has met with opposition on their part. It is the belief of the administration that these charges are proper, but it can have no objection to full discussion of this or any situation affecting employees, or to legitimate appeals to the authorities to which we are responsible. The Governor takes occasion to express appreciation of the fair and open manner in which employees have asserted their case.

The elimination of perquisites is primarily for economy. It is, however, aimed also at establishing direct cash payment for services and eliminating indirect part-payment through privileges. It makes costs tangible and businesslike and places a direct gauge on compensation for services. Throughout, the commercialization of the Canal should place a more direct emphasis on service and tend to secure corresponding payment.

It is in the belief that we may all look forward to better days and bigger work that the administration extends cordial holiday greetings.

JAY J. MORROW,  
*Governor.*

---

## Lower Rates on Coconuts and Ivory Nuts to New York.

The Panama Railroad Steamship Line has made reductions in rates from Colon or Cristobal to New York for shipment of two important products of Panama, effective December 15, 1921. The rate on coconuts was reduced from 30 to 25 cents per 100 pounds and that on ivory nuts from 30 to 20 cents per 100 pounds.

**CANAL WORK IN NOVEMBER.**

The following is the report of the Governor to the Secretary of War, of Canal work in the month of November, 1921:

BALBOA HEIGHTS, C. Z., December 20, 1921.

*The Honorable, the Secretary of War,  
Washington, D. C.*

SIR: I have the honor to submit the following report of The Panama Canal for the month of November, 1921.

**CANAL TRAFFIC.**

The total number of vessels and craft of all kinds transiting the Canal, as compared with the preceding month and with the corresponding month of last year, was as follows:

|                                                | November,<br>1921. | October,<br>1921. | November,<br>1920. |
|------------------------------------------------|--------------------|-------------------|--------------------|
| Commercial vessels.....                        | 222                | 255               | 238                |
| Noncommercial vessels.....                     | 13                 | 20                | 16                 |
| Launches, etc. (under 10 tons).....            | 4                  | 6                 | 4                  |
| Total vessels and craft through the Canal..... | 239                | 281               | 258                |

**COMMERCIAL TRAFFIC.<sup>1</sup>***Tolls.*

Under the present dual method of assessing tolls, the revenue from this source was \$923,048.70. Had the net tonnage as determined by the Panama Canal rules of measurement been used in all cases as a basis for collecting tolls, the above amount would have been increased by \$185,863.60. This additional revenue would have been contributed by nationality of ships, as follows:

|                    | Atlantic<br>to Pacific. | Pacific<br>to Atlantic. | Total.       |
|--------------------|-------------------------|-------------------------|--------------|
| British.....       | \$34,586.05             | \$23,842.75             | \$58,428.80  |
| Chilean.....       | 2,257.10                | 1,263.65                | 3,520.75     |
| Danish.....        | 2,324.65                | 2,275.50                | 4,600.15     |
| Dutch.....         | 1,371.80                | 5,407.00                | 6,778.80     |
| French.....        | 1,155.70                | 460.45                  | 1,616.15     |
| German.....        | 1,120.75                | 1,280.05                | 2,400.80     |
| Greek.....         |                         | 1,243.40                | 1,243.40     |
| Italian.....       | 447.55                  | 1,548.70                | 1,996.25     |
| Japanese.....      | 2,486.23                | 2,729.90                | 5,216.13     |
| Norwegian.....     | 3,449.65                | 3,210.00                | 6,659.65     |
| Peruvian.....      | 3,315.75                | 3,315.75                | 6,631.50     |
| Spanish.....       |                         | 1,051.10                | 1,051.10     |
| Swedish.....       | 1,958.10                | 3,305.45                | 5,263.55     |
| United States..... | 45,857.90               | 32,143.95               | 78,001.85    |
| Total.....         | \$100,331.23            | \$3,077.65              | \$183,408.88 |

The additional tolls paid by American vessels would have been distributed among the following channels of trade:

|                                         | Atlantic<br>to Pacific. | Pacific<br>to Atlantic. | Total.    |
|-----------------------------------------|-------------------------|-------------------------|-----------|
| United States coastwise ports.....      | 25,221.75               | 17,245.50               | 42,467.25 |
| United States and Canal Zone ports..... | 774.70                  | 528.10                  | 1,302.80  |
| United States and possessions.....      | 2,225.10                | 2,042.70                | 4,267.80  |
| United States and foreign ports.....    | 15,039.90               | 12,327.65               | 27,367.55 |
| Between foreign ports.....              | 2,596.45                |                         | 2,596.45  |
| Totals.....                             | 45,857.90               | 32,143.95               | 78,001.85 |

Of the above additional revenue that would have been collected by using the Panama Canal rules exclusively, \$4,624.80 represents the additional tolls that would have been collected on account of deck cargo.

<sup>1</sup> Commercial traffic includes all ocean-going vessels paying tolls. Vessels in the direct service of the United States Government, including merchant vessels chartered by the Government, do not pay tolls. Shipping Board vessels in commercial service pay tolls. Ships not paying tolls are classed as "noncommercial."

## COMPARATIVE TRAFFIC STATISTICS.

The following tabulations permit a ready comparison of commercial traffic through the Canal in November, 1921, with that of the preceding months, along the lines indicated at the head of the various tables.

## TONNAGE, TOLLS, AND CARGO CARRIED.

|                                           | November,<br>1921. | October,<br>1921. | November,<br>1920. | Average<br>month for<br>past year. |
|-------------------------------------------|--------------------|-------------------|--------------------|------------------------------------|
| United States equivalent net tonnage..... | 753,697            | 866,196           | 765,817            | 775,729                            |
| Panama Canal net tonnage.....             | 942,411            | 1,069,554         | 929,875            | 953,874                            |

| Tons of cargo (all vessels).....          | 3,853              | 3,866             | 4,138              |
| Tons of cargo (laden vessels only).....   | 4,322              | 4,694             | 4,804              |

## COMMODITY STATISTICS.

A classification of the cargo passing through the Canal during the month of November, 1921, has been compiled from declarations of cargo submitted by the ships' masters, and while incomplete, is indicative of the kind and quantity of the various commodities carried by ships transiting the Canal. From the cargo declarations and manifests submitted, it was possible to classify by commodities 75 per cent of all cargo passing from the Atlantic to the Pacific, and 94½ per cent of all cargo passing from Pacific to Atlantic ports. A brief summary of the principal items is shown herewith:

| Commodity.                                      | November,<br>1921. | October,<br>1921. | September,<br>1921. | August,<br>1921. |
|-------------------------------------------------|--------------------|-------------------|---------------------|------------------|
| Atlantic to Pacific.                            |                    |                   |                     |                  |
| Oil:                                            |                    |                   |                     |                  |
| Crude.....                                      | 30,144             | 68,891            | 17,981              | 36,454           |
| Refined.....                                    | 47,944             | 25,840            | 19,781              | 28,685           |
| Other.....                                      | 3,113              | 1,121             | 2,088               | 2,177            |

## TOLLS PAID PER CARGO TON BY NATIONALITY OF VESSELS.

All cargo-carrying vessels pay tolls on their net tonnage as determined by established rules for measuring their available cargo-carrying space, yet the rate of such tolls per cargo ton varies in different ships as the ratio of cargo tonnage varies to the net tonnage. The table below is indicative of the ratio of cargo tonnage to net tonnage for the month of November, 1921, grouping the ships by nationality.

|                                               | Atlantic<br>to<br>Pacific. | Pacific<br>to<br>Atlantic. | General<br>average. |
|-----------------------------------------------|----------------------------|----------------------------|---------------------|
| British.....                                  | \$1.23                     | \$0.90                     | \$1.19              |
| Chilean.....                                  | 3.43                       | 15.11                      | 4.69                |

## TRAFFIC BY TRADE ROUTES.

A detailed statement of traffic through the Panama Canal by trade routes for November, 1921, has been previously compiled and was published in THE PANAMA CANAL RECORD under date of December 7, 1921. The following tabulations show the number of vessels, Panama Canal net tonnage, and tons of cargo carried over the principal trade routes for the month of November, 1921, for the preceding month and for the corresponding month of last year:

| Vessels plying between—              | Atlantic to Pacific.      |                |                 | Pacific to Atlantic.      |                |                 |
|--------------------------------------|---------------------------|----------------|-----------------|---------------------------|----------------|-----------------|
|                                      | November, 1921.           | October, 1921. | November, 1920. | November, 1921.           | October, 1921. | November, 1920. |
|                                      | Number of vessels.        |                |                 | Number of vessels.        |                |                 |
| United States coastwise.....         | 24                        | 22             | 19              | 17                        | 19             | 10              |
| United States and Far East.....      | 17                        | 19             | 8               | 4                         | 4              | 7               |

<sup>1</sup> Displacement tonnage of 12,011 tons.

#### CLASSIFICATION OF NONCOMMERCIAL TRAFFIC.

The following statement shows the tonnage of, and amount of cargo carried by vessels transiting the Canal free of tolls. If tolls had been assessed against these vessels at commercial rates, the amounts paid would have been approximately as indicated. This statement also shows the number and tonnage of small launches and miscellaneous nonseagoing craft transiting the Canal, these not being included in the commercial traffic:

|                                                   | Atlantic to Pacific. |                           |            | Pacific to Atlantic. |                           |          |

## THE PANAMA CANAL RECORD

## LOCK OPERATION.

The following tabulations give the number of lockages, vessels through the locks, and the consumption of water for lockages, for the month of November, 1921, as compared with that of the preceding month and of the corresponding month of last year.

## NUMBER OF LOCKAGES.

|                                      | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|--------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                      | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun .....                          | 97          | 120    | 217    | 5              | 4      | 9      | 226          |
| Pedro Miguel .....                   | 97          | 123    | 220    | 20             | 16     | 36     | 256          |
| Miraflores .....                     | 97          | 122    | 219    | 19             | 17     | 36     | 255          |
| Total lockages, November, 1921 ..... | 291         | 365    | 656    | 44             | 37     | 81     | 737          |
| Total lockages, October, 1921 .....  | 359         | 385    | 744    | 42             | 52     | 94     | 839          |
| Total lockages, November, 1920 ..... | 337         | 359    | 696    |                |        | 82     | 778          |

## NUMBER OF VESSELS PUT THROUGH LOCKS.

|                                     | Commercial. |        |        | Noncommercial. |        |        | Grand total. |
|-------------------------------------|-------------|--------|--------|----------------|--------|--------|--------------|
|                                     | North.      | South. | Total. | North.         | South. | Total. |              |
| Gatun .....                         | 101         | 129    | 230    | 13             | 15     | 28     | 258          |
| Pedro Miguel .....                  | 97          | 127    | 224    | 40             | 36     | 76     | 300          |
| Miraflores .....                    | 97          | 127    | 224    | 39             | 35     | 74     | 298          |
| Total vessels, November, 1921 ..... | 295         | 383    | 678    | 92             | 86     | 178    | 856          |
| Total vessels, October, 1921 .....  | 377         | 400    | 777    | 113            | 103    | 216    | 993          |
| Total vessels, November, 1920 ..... | 353         | 374    | 727    |                |        | 146    | 873          |

## CLASSIFICATION OF NONCOMMERCIAL VESSELS.

|                                   | Gatun. | Pedro Miguel. | Miraflores. |
|-----------------------------------|--------|---------------|-------------|
| Army and Navy vessels .....       | 11     | 56            | 54          |
| Canal equipment .....             | 17     | 20            | 20          |
| Total noncommercial vessels ..... | 28     | 76            | 74          |

The total consumption of water for lockages, loss in leakage, and for maintenance, was as follows:

|                                         | Gatun.        | Pedro Miguel. | Miraflores. |
|-----------------------------------------|---------------|---------------|-------------|
|                                         | Cubic feet.   | Cubic feet.   | Cubic feet. |
| Lockages .....                          | 849,420,000   | 879,560,000   | 780,000,000 |
| Leakage .....                           | 20,000,000    | 15,000,000    | 67,000,000  |
| Maintenance .....                       |               |               | 3,440,000   |
| Total consumption, November, 1921 ..... | 869,420,000   | 894,560,000   | 850,440,000 |
| Total consumption, October, 1921 .....  | 1,042,730,000 | 989,610,000   | 967,480,000 |
| Total consumption, November, 1920 ..... | 1,102,500,000 | 963,990,000   | 893,190,000 |

## METEOROLOGY AND HYDROGRAPHY.

In the following tabulation the meteorological and hydrographical conditions over the Canal Zone and vicinity during the month of November, 1921, are shown in comparative form:

| Rainfall.                                         | November,<br>1921. | November,<br>1920. | November<br>maximum. | Years of record. |                |
|---------------------------------------------------|--------------------|--------------------|----------------------|------------------|----------------|
|                                                   | Inches.            | Inches.            | Inches.              | Minimum.         | Mean.          |
| Total for month:                                  |                    |                    |                      |                  |                |
| Pacific Section .....                             | 7.59               | 15.58              | 19.62                | 5.64             | 10.46          |

| Discharge of Chagres River at Alhajuela .....     | C. f. s. 4,176     | C. f. s. 3,751     | C. f. s. 11,300      | C. f. s. 2,267   | C. f. s. 4,581 |
| Maximum momentary discharge for month .....       | 24,950             | 23,600             | 170,000              |                  |                |
| Gatun Lake watershed total yield .....            | 12,061             | 11,096             | 24,488               | 8,673            | 13,418         |
| Gatun Lake watershed net yield .....              | 11,660             | 10,602             | 23,950               | 7,995            | 12,932         |
| Draft on Gatun Lake for lockages and power .....  | 2,125              | 2,348              | 2,348                | 537              | 1,686          |

<sup>1</sup> This represents the maximum 24-hour rainfall recorded on the Isthmus since the American occupation. Recorded at Porto Bello on December 28-29, 1909.

<sup>2</sup> This figure represents the maximum momentary discharge on record. Occurred on December 26, 1909.

## SEISMOLOGY.

Four slight seismic tremors were recorded by the Balboa Heights seismographs during the month. The tremors recorded on the 2d and 11th were so slight that no distance of epicenter could be determined. The epicenter of the tremor recorded on the 13th was about 550 miles distant and probably to the northwest, while the epicenter of the tremor recorded on the 27th was about 70 miles distant and probably came from the southwest.

## ELECTRICAL DIVISION.

The combined gross output of the Gatun hydroelectric station and of the Miraflores steam plant, the power distributed to consumers, the loss of power in transmission, etc., is shown in comparative form in the following tabulation:

|                                                                           | November, 1921. | October, 1921. | November, 1920. |
|---------------------------------------------------------------------------|-----------------|----------------|-----------------|
| Gross output, KWH:                                                        |                 |                |                 |
| Gatun hydroelectric station .....                                         | 4,853,900       | 5,304,100      | 5,700,600       |
| Miraflores steam plant .....                                              | 400             | 1,190          | 122,020         |
| Combined gross output .....                                               | 4,854,300       | 5,305,290      | 5,822,620       |
| Water consumption .....                                                   | 3,779,696,146   | 4,062,727,820  | 4,124,870,000   |
| Oil consumption .....                                                     | 1,827           | 1,953          | 2,733           |
| Power distributed to consumers .....                                      | 4,137,872       | 4,448,013      | 4,902,701       |
| Loss of power in plant auxiliaries, transmission and transformation ..... | 716,428         | 857,277        | 934,199         |
| Per cent loss of power to gross output .....                              | 17.3            | 16.15          | 16.1            |

Miscellaneous electrical repairs and installations of electrical equipment were made on 15 vessels at Cristobal and 23 vessels at Balboa during the month. There were 328 work orders issued for work to be performed by the Electrical Division during the month, as compared with 365 for October. The following work was under progress during the month, with completion on November 30, as shown:

|                                                                                                                                                           | Per cent<br>completed. |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| Installation of switching and other electrical equipment for fifth generating unit at hydroelectric station .....                                         | 75                     |
| Installation of one 3-phase 44,000-6,600-volt, 8,400 KVA transformer, and three 300-ampere, 15,000-volt tie-line equipments at the Gatun substation ..... | 95                     |
| Installation of 2 complete feeder equipments at Balboa substation .....                                                                                   | 100                    |

## SHOP, FOUNDRY, AND DRY DOCK WORK.

The output of the Mechanical Division in patterns and castings for November 1921, as compared with the preceding month, was as follows:

|             | November, 1921. |           |         | October, 1921. |           |         |
|-------------|-----------------|-----------|---------|----------------|-----------|---------|
|             | Patterns.       | Castings. | Pounds. | Patterns.      | Castings. | Pounds. |
| Iron .....  | 1               | 304       | 17,456  | 4              | 227       | 12,943  |
| Steel ..... |                 | 73        | 11,896  |                | 95        | 8,258   |
| Brass ..... | 3               | 286       | 5,902   | 10             | 126       | 6,423   |

During the month miscellaneous repairs were made on 46 vessels at Balboa and 38 vessels at the Cristobal shops. Of the above vessels, 9 were placed in dry dock at Balboa, and 11 at Cristobal.

Repairs to the steamship *Panama*, which were begun last July, were completed during the month, and dock trials were held on November 14, and successful sea trials on November 29. On this ship the question has been not so much the completion of all the necessary and desirable repairs but rather to obtain the maximum in repairs within the funds available. The rank and file of the Mechanical Division have exerted every effort to give the ship the maximum repairs possible within the allotment, and the results are much to their credit.

The steamship *Imperial* was docked and a small amount of underwater repairs carried out, including the fitting of a shoe to her fore foot and work on the rudder. Several vessels of the Dredging fleet were dry-docked and incidental repairs made.

The decision not to carry out the rebuilding of the steamship *Empire* on account of the expense involved being in excess of the worth of the vessel has operated to cause a further reduction in the working force of the Balboa shops. Between October 31 and November 30, 1921, there has been an approximate reduction of 20 per cent in both the gold and silver employees of the Mechanical Division.

#### DREDGING DIVISION.

West Culebra and Barge Repair slides showed no perceptible movement during the month. Cucaracha slide continued to show some movement in certain parts of the slide area near the southern crest. A total of 113,600 cubic yards of material was removed from in front of this slide during the month. There was no inconvenience to Canal traffic from slides during the month.

The total excavation for November, including earth and rock, was 388,700 cubic yards, as follows:

| Cubic yards. | Classified as— |        | Character of work. | Stations.                                                             | Equipment        |

#### VITAL STATISTICS.

A total of 220 deaths occurred during the month of November, 1921, among the population of the Canal Zone and the cities of Panama and Colon, which is equivalent to an annual death rate of 21.30 per thousand. The 3 leading causes of death were tuberculosis, pneumonia, and diarrhea and enteritis; these 3 diseases caused 37 per cent of all deaths from disease. Among other causes of death were 2 from malaria, 3 from dysentery, and 1 from scarlet fever. Of the total deaths, 91, or 41 per cent, occurred among children under 5 years of age. There were 6 deaths among nonresidents of the Isthmus; these are not included in the above statistics.

There were 340 live births reported during the month, and 23 stillbirths. Including stillbirths, this is equivalent to an annual birth rate of 35.16 per thousand population. Deaths among children under 1 year of age numbered 63, giving an infant mortality rate, based on the number of births reported for November, of 185.29 per thousand live births.

Sixty-nine cases of malaria were reported during the month, of which 8 were employees and 61 were nonemployees; of the nonemployees 45 were soldiers. These malarial cases originated as follows: In Colon, 3; in the Canal Zone, 46; and outside of the Canal Zone, 20.

Among other diseases reported during the month were 25 cases of measles, 3 of smallpox, 6 of scarlet fever, 12 of diphtheria, and 1 of poliomyelitis.

#### RECEIPTS AND SALES OF MATERIALS AND SUPPLIES.

The total value of material ordered on United States requisitions and received on the Isthmus during the month, sales to steamships from storehouses, and cash sales from stock, are shown below in comparative form.

|                                                                                          | November,<br>1921. | October,<br>1921. | November,<br>1920. |

Respectfully,

JAY J. MORROW,

Governor.

### Record of Good Work on the "Panama."

In connection with the recent completion of the overhauling and general repairing of the steamship *Panama* of the Panama Railroad Steamship Line, the Superintendent of the Mechanical Division issued the following bulletin to all concerned, under date of December 14:

1. A letter has been received from the superintendent of the Panama Railroad congratulating the Mechanical Division on the character of the work performed on the steamship *Panama*. Particular mention was made of the cooperation on the part of all employees with the captain of the vessel and the engineer in charge of the work. Credit is due all employees connected with the overhaul of the steamship *Panama* for the excellent record made.

2. This tribute from the superintendent of the Panama Railroad, together with other evidences of satisfaction on the part of Panama Canal departments, commercial firms and individuals, indicate that the reputation of the Mechanical Division is improving each day. Whether or not this reputation continues to improve depends upon the efforts of each and every employee. It should be needless to point out that the success of the Mechanical Division depends largely upon its reputation.
