

Y3.P19/2:1/1988

PANAMA CANAL COMMISSION

ANNUAL REPORT

FISCAL YEAR ENDED SEPTEMBER 30, 1988

PANAMA CANAL COMMISSION

Balboa, Republic of Panama
OFFICE OF THE ADMINISTRATOR

FROM THE ADMINISTRATOR

It is a pleasure to submit the annual report of the Panama Canal Commission for fiscal year 1988.

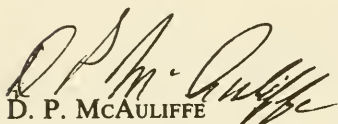

This ninth year of operation under the terms of the Panama Canal Treaty was a successful one. Oceangoing transits increased slightly, with Panama Canal net tonnage and tolls revenue each reflecting moderate growth of nearly 3 percent over the previous year. These increases were primarily due to the continued heavy movement of grains through the Canal, as well as greater transits by larger vessels. Transits by PANAMAX size vessels, the largest vessels the waterway can presently handle, comprised almost 24 percent of total oceangoing transits.

Unfortunately, the political crisis in Panama, which began in June 1987, became more intense and remained unresolved at the close of fiscal year 1988. Canal traffic, however, continued to flow normally and maintenance, modernization and improvement programs proceeded as scheduled. These programs included the Miraflores Locks overhaul, dredging and channel improvement projects, delivery of two new tractor tugs and initiation of a project providing for the major upgrading of all locks fire protection systems.

Training programs to develop and refine critical skills have also progressed smoothly, utilizing the latest techniques in the industry. Much

of the training effort is geared toward preparing Panamanian employees to manage and operate the Canal. Already, more than 84 percent of Commission personnel are Panamanian citizens, with broad responsibilities throughout the organization.

The outstanding accomplishments of the past year and the continued efficiency of the waterway are unquestionably the product of a dedicated and very capable work force, which has performed admirably despite difficulties precipitated by the political situation in Panama. I am confident that the Panama Canal will continue providing efficient and uninterrupted service to the maritime community in the years ahead.

D. P. MCAULIFFE
Administrator

PANAMA CANAL COMMISSION

INTRODUCTION

ORGANIZATION

The Panama Canal Commission is an agency of the Executive Branch of the United States Government, provided for by the Panama Canal Treaty of 1977, and established by the Panama Canal Act of 1979 (93 Stat. 452; 22 U.S.C. 3601 et seq), enacted September 27, 1979. The authority of the President of the United States with respect to the Commission is exercised through the Secretary of Defense and the Secretary of the Army. The Commission is supervised by a nine-member Board. Five members are nationals of the United States appointed by the President with the advice and consent of the Senate. Four members are nationals of the Republic of Panama who are proposed by the Republic of Panama for appointment by the President.

The Commission was established to carry out the responsibilities of the United States with respect to the Panama Canal under the Panama Canal Treaty of 1977. In fulfilling these obligations, the Commission manages, operates, and maintains the Canal, its complementary works, installations, and equipment, and provides for the orderly transit of vessels through the Canal. The Commission will perform these functions until the treaty terminates on December 31, 1999, when the Republic of Panama will assume full responsibility for the Canal.

The operation of the waterway is conducted on a self-financing basis. The Commission is expected to recover through tolls and other revenues all costs of operating and maintaining the Canal, including interest, depreciation, capital for plant replacement, expansion and improvements, and payments to the Republic of Panama for public services and annuities, in accordance with paragraph 5 of Article III and paragraphs 4(a) and (b) of Article XIII, respectively, of the Panama Canal Treaty of 1977. Revenues from tolls and all other sources are deposited in the U.S. Treasury in an account known as the Panama Canal Revolving Fund. The resources in this fund are available for continuous use and serve to finance Canal operating and capital programs which are reviewed annually by the Congress.

THE CANAL

The Panama Canal is a lock-type canal approximately 51 miles long from deep water to deep water. The minimum width of the navigable channel is 500 feet. Navigable channel depth can vary according to the amount of water

available in Canal storage areas; however, the normal permissible transit draft is 39 feet 6 inches tropical fresh water.

Vessels transiting the Canal are raised in three steps to the level of Gatun Lake, the principal source of Canal water, then lowered to sea level again in three steps. The three sets of Canal locks are paired so as to permit simultaneous lockage of two vessels in the same or opposite direction.

Since August 15, 1914, the official date of its opening, the Panama Canal has served world trade virtually without interruption. Through this fiscal year, a total of 690,962 vessels of all types have transited with 582,473 or 84.3 percent of the total being of the oceangoing commercial class.

TOLL RATES

Toll rates are: (a) on merchant vessels, Army and Navy transports, hospital ships, supply ships, and yachts, when carrying passengers or cargo, \$1.83 per net vessel ton of 100 cubic feet of actual earning capacity, as determined in accordance with the "Rules of Measurement of Vessels for the Panama Canal;" (b) on such vessels in ballast, without passengers or cargo, \$1.46 per net vessel ton; and (c) on other floating craft, \$1.02 per ton of displacement.

By treaty, the United States continues to provide to Colombia free transit through the Canal of its troops, materials of war, and ships of war.

BOARD OF DIRECTORS
Ending Fiscal Year 1988

Deputy Administrator Honorable FERNANDO MANFREDO, Jr.

OFFICIAL IN WASHINGTON, D.C.

Assistant to the Chairman and Secretary MICHAEL RHODE, Jr.

The MARCHEN MAERSK (left) passes through the Panama Canal on its maiden voyage. The 60,640 deadweight ton vessel measures 965 feet in overall length, the longest container ship ever to transit the waterway. Its length can be appreciated by comparing the position of the bow and stern towing locomotives against those assisting the large automobile carrier on the right.

Chapter I

CANAL TRAFFIC

TRAFFIC

Canal traffic and tolls revenue continued to grow moderately in fiscal year 1988. The increase was primarily fueled by a sharp improvement in a number of commodities, particularly grain, refrigerated products, lumber and products, and containerized cargo. These gains offset declines in key trades such as automobiles and petroleum and petroleum products.

Oceangoing transits in fiscal year 1988 remained at virtually the same levels of fiscal year 1987, increasing by five transits from 12,313 to 12,318 or 33.7 daily. Commercial vessels accounted for 12,234 of total oceangoing transits, changing very little from 12,230 in fiscal year 1987. Vessels owned or operated by the U.S. Government and free Colombian and Panamanian Government accounted for 84 transits, compared with 83 in the prior year.

Average vessel size resumed growth in fiscal year 1988 after the slight contraction experienced in fiscal year 1987. Transits by vessels having beams of 100 feet and over increased to 2,894 from 2,668 transits in 1987, accounting for 23.5 percent of total oceangoing transits compared with 21.7 percent in the prior year. Vessels having beams of 80 feet and over totaled 6,027 transits or 48.9 percent of total oceangoing transits versus 5,908 or 48.0 percent in 1987. The average Panama Canal net tonnage of oceangoing commercial vessels reached a record level of 15,658 tons, an increase of 2.7 percent from the 15,248 tons of the prior year.

A two-year summary of the key elements of Canal traffic and tolls revenue is shown in the following table:

COMPARATIVE HIGHLIGHTS OF OPERATIONS

	<i>Fiscal year</i>	
	1988	1987
Oceangoing transits:		
Commercial	12,234	12,230
U.S. Government.....	69	78
Free	15	5
Total	<u>12,318</u>	<u>12,313</u>
Daily average	33.7	33.7

Commercial	844	852
U.S. Government.....	246	236
Free	33	43
Total	<u>1,123</u>	<u>1,131</u>
Total cargo:		
Commercial	156,484,063	148,693,662
U.S. Government.....	296,140	205,701
Free	62
Total	<u>156,780,203</u>	<u>148,899,425</u>
Total Panama Canal net tons and reconstructed displacement tonnage		
	192,421,295	187,349,205
Transit revenue:		
Commercial tolls	\$337,946,016	\$328,463,544
U.S. Government tolls	1,373,309	1,395,231
Tolls revenue	<u>\$339,319,325</u>	<u>\$329,858,775</u>
Harbor pilotage, tug, launch, and other services		
	\$70,421,731	\$68,128,024
Total transit revenue	<u>\$409,741,056</u>	<u>\$397,986,799</u>

COMMODITIES AND TRADE ROUTES

Cargo moved by transiting ships continued upward in fiscal year 1988. Total commercial cargo rose 5.2 percent to 156.5 million long tons from 148.7 million tons in fiscal year 1987, reflecting gains in bulk cargoes, such as grains, coal, and lumber.

For the second consecutive year, grain shipments reflected an improvement. Grain tonnage rose 10.8 percent to 35.9 million tons from the 32.4 million tons registered in fiscal year 1987, primarily as a result of a doubling of wheat shipments and further improvement in the corn movement. Corn, which accounts for the largest tonnage in the grain commodity group, totaled 16.2 million tons, rising 1.8 percent over the 15.9 million tons shipped through the Canal in 1987. About 92.4 percent, or 14.9 million tons, was U.S. corn shipped to the Far East, out of which Japan received 11.3 million tons, South Korea 1.8 million tons, and Taiwan 1.7

million tons. Wheat increased 108.8 percent from 4.5 million tons in 1987 to 9.4 million tons in 1988. Almost 53.7 percent or 5.1 million tons of the wheat consisted of shipments destined for China compared with 1.0 million tons in 1987. The increase in corn and wheat offset declines in other components of the commodity group; notably, soybeans, which was down from 7.8 million long tons in 1987 to 6.9 million tons; and sorghum, which decreased from 2.6 million tons to 2.2 million tons.

Petroleum and petroleum products continued downward in 1988, falling 5.2 percent to 24.6 million long tons, the lowest level since 1977. Crude oil dropped 1.9 percent to 8.8 million tons from the already depressed 9.0 million tons last year, despite a recovery in Ecuadorian shipments, which increased to 5.0 million long tons from 3.5 million tons in 1987. The petroleum products segment of this commodity group declined 6.9 percent to 15.8 million long tons from 17.0 million tons, with the highest reduction concentrated in residual oil shipments.

The nitrate, phosphates and potash group, the third major commodity group in Canal trade, rose 0.8 percent to 12.1 million long tons from 12.0 million tons in 1987. Phosphates, which accounted for 57.3 percent of the group, increased 6.9 percent to 7.0 million long tons from 6.5 million tons in the prior year. Nearly 80 percent of the phosphate shipped through the Canal originated in the U.S. East Coast and was primarily destined for the Far East. China accounted for about 1.7 million long tons and South Korea and Japan for 1.3 million long tons each.

Coal and coke tonnage increased to 8.6 million long tons from 7.9 million tons last year, due to an upturn in coke shipments. Coke rose from 400 thousand tons in 1987 to 1.8 million tons, reflecting sharply higher flows emanating from Japan and Australia, mainly destined for the U.S. East Coast. The coal segment of this commodity group, on the other hand, decreased to 6.8 million long tons from 7.2 million in the prior year. Over 73 percent of the coal shipped through the Canal constituted U.S. coal exports primarily destined for Japan and Taiwan.

Automobile shipments, included in the machinery and equipment commodity group, decreased to 2.2 million long tons from 2.5 million tons in 1987. The drop reflects declines in U.S. imports of Japanese cars due to Japanese automobile production in the U.S. and the high value of the yen relative to the U.S. dollar. Automobiles from Japan destined for the U.S. East Coast, totaled 1.5 million tons versus 1.8 million tons in 1987.

Most other commodity groups, excluding manufactures of iron and steel, improved this fiscal year. Significant increases were achieved in a number of trades, such as chemicals and petroleum chemicals, refrigerated foods, lumber and products, and ores and metals.

Trade between the East Coast United States and Asia continued to dominate Canal traffic, with 40.5 percent of total Canal commercial cargo

moved on this route. Cargo movements in this trade rose 9.2 percent to 63.4 million long tons in 1988 from 58.1 million long tons in the prior year.

The following tables show the principal commodity groups moving in oceangoing commercial vessels in 1988 and a comparison of the major trade routes in 1988 and 1987.

**PRINCIPAL COMMODITY GROUPS
TRANSITING THE CANAL
OCEANGOING COMMERCIAL CARGO FY 1988**

Major Voyage Trade Routes in Canal Traffic

Trade Route	Fiscal year						Percent of Increase or (Decrease)
	1988			1987			
	Panama Canal Net Tons	Long Tons Cargo	Long Tons Cargo	Panama Canal Net Tons	Long Tons Cargo	Long Tons Cargo	
	[In thousands of tons]						
East Coast United States-Asia	76,687	63,442	58,111	77,476	58,111	9.2	
East Coast United States-West Coast South America	16,370	12,335	12,005	16,780	12,005	(2.4)

Round the World	10,597	5,515	5,929	10,601	7,375	47.3	
U.S. Intercoastal (including Alaska and Hawaii)	5,101	2,320	2,879	4,020	2,879	(19.4)	
Europe-Asia	4,684	2,867	3,700	4,496	3,700	(22.5)	
East Coast United States/Canada-Oceania	4,680	5,499	4,780	3,983	4,780	17.5	
West Indies-West Coast South America	4,652	4,131	2,834	2,834	2,730	64.1	
West Indies-Asia	3,959	3,079	1,842	3,141	1,842	26.0	
East Coast United States-West Coast Central America	3,847	3,186	2,961	3,288	2,961	17.0	
Central American Intercoastal	3,284	2,810	3,985	3,985	3,313	(17.6)	
Subtotal	157,191	127,427	118,289	150,764	118,289	4.3	
All other routes	34,315	29,056	30,401	35,651	30,401	(3.7)	
Total	191,506	156,415	148,690	186,407	148,690	2.7	

The Commission's new high speed launch **BALLENA** (foreground) is designed to rush personnel between work stations along the Canal. Procurement of similar as well as larger high speed launches is contemplated in the coming fiscal years. The **GUIA**, one of two new tugs received this year, can also be seen on the left providing stern assist to a **PANAMAX**-size vessel in transit.

Chapter II

CANAL OPERATIONS

Canal operations are comprised of Transit Operations and Maintenance and Related Canal Projects. The various functions are divided among a number of operating bureaus within the Canal agency.

TRANSIT OPERATIONS

Daily average transits by oceangoing vessels remained at 33.7 per day during fiscal year 1988. Average time in Canal waters decreased from 24.0 hours in fiscal year 1987 to 21.9 hours in fiscal year 1988.

<i>Fiscal year</i>	<i>Vessels of 600-foot length and over</i>	<i>Percent of total oceangoing transits</i>	<i>Vessels of 80-foot beam and over</i>	<i>Percent of total oceangoing transits</i>
1988	4,047	32.9	6,027	48.9
1987	4,005	32.5	5,902	48.0
1986	4,131	34.4	5,898	49.1
1985	3,862	33.1	5,514	47.3
1984	3,865	33.9	5,496	48.3
1983	4,157	35.1	5,869	49.5
1982	5,534	39.1	7,226	51.1
1981	4,855	34.7	6,364	45.5
1980	4,598	33.8	6,089	44.7

The number of vessels transiting at more than 36-foot draft increased 3.6 percent: 1,766 vessels during FY 1988 compared to 1,704 during fiscal year 1987. The maximum allowable draft remained at 39 feet 6 inches during the entire fiscal year.

Effective April 15, 1988, transit regulations were revised to allow commercial vessels whose maximum length overall, including bulbous bow, does not exceed 950 feet and passenger and containerships whose maximum length overall does not exceed 965 feet. Vessels greater than 900 feet overall length making their first transit, are newly modified or constructed, will still be subject to denial of passage and to the requirement of prior review and approval of vessel plans.

Total jobs performed by Commission tugs decreased from 39,492 in fiscal year 1987 to 38,736 in fiscal year 1988.

	<i>Fiscal year</i>	
	<i>1988</i>	<i>1987</i>
Oceangoing transits	12,318	12,313
Tug jobs:		
Balboa	26,854	27,893
Cristobal	11,882	11,599
Tug operating hours	60,289	58,380

Workers pause as an engineer checks the alignment of the rail during rehabilitation of the locks locomotive tow track. Approximately \$100 million of the Canal's annual operating budget is dedicated to maintaining and improving the waterway.

MAINTENANCE AND CANAL IMPROVEMENT PROJECTS

Maintenance and improvements to the Canal progressed smoothly throughout the year. The various divisions and units of the Engineering and Construction Bureau are generally responsible for the overall physical maintenance and improvement of the waterway. The Marine Bureau operates and maintains the locks and related facilities. The occasional use of alternative procurement sources in support of these programs became necessary because of procurement inconveniences resulting from the political crisis in Panama.

Routine maintenance dredging, as well as channel improvements to both entrances to the waterway, proceeded as scheduled. The Gatun approach was completed in May 1988 and the Miraflores approach will be completed in May 1989. Statistics on the volume of material dredged appear in Table 14 of this report.

As part of a long range program established for the periodic rehabilitation of underwater equipment, miter gates 104 through 107 and two spare gates at Miraflores Locks were overhauled in conjunction with other chamber work. Other significant locks maintenance projects included the replacement of old transformers at Gatun Locks with new, more efficient cast coil transformers; scheduled maintenance of lock towing locomotives; locomotive tow track work at all locks; and replacement of damaged or worn fendering.

The first major overhaul of Miraflores Spillway was completed. This included the purchase and installation of two new flood gates and the installation of three spare and one rehabilitated gate.

Significant marine-related maintenance work included major overhauls of two barges, the crane barge *Goliath*, the tugs *Schley* and *Amistad*, and Madden Dam Drum Gate No. 4. Partial overhaul of the tug *Alianza* and an interim overhaul of the tug *Progreso* were completed. The tug *Morrow* and the craneboat *Atlas* were undergoing overhaul at year end.

Major equipment acquisitions in support of Canal operations consisted of the delivery of two new powerful tractor tugs; two diesel electric locomotive cranes, both complying with OSHA regulations for lifting personnel; one high speed launch for rapid movement of personnel across Gatun Lake; a fully equipped salvage barge; four overhead bridge cranes for shops at the Industrial Division; a new building for the assembly and storage of docking blocks and cradles for the Syncrolift; and rental (with option to purchase) of a large portable shelter to protect exposed work sites in the Mt. Hope industrial area.

Contracts were awarded for the replacement of the Gatun and Miraflores Locks north locomotive turntables; major upgrading of all locks fire protection systems; replacement of 44kv line track span electrical towers; remedial excavation at East Culebra Reach; and, one tractor tug, two pilot/linehandler launches and two high speed launches.

The first phase of a multiyear program to replace Commission telephone exchanges was completed in January 1988.

The floating crane GOLIATH removes a flood gate during the first major overhaul of Miraflores Spillway. A Commission photographer captures the event on film to document the procedure and prepare instructional films to aid in future maintenance training programs.

Chapter III

SUPPORTING OPERATIONS

Supporting operations of the Panama Canal Commission provided essential support services to the operation and maintenance of the waterway and the Agency's facilities, as well as to other U.S. agencies on the Isthmus and to employees and their dependents. These operations included logistical services, community services, sanitation and grounds management, transportation services, public utilities, fire protection, Canal security protection, health and safety and other employee services.

Due to the political crisis in Panama, it became necessary to implement a number of emergency and contingency support operations not otherwise necessary in normal times. A contingency information network for quick dissemination of vital information within the Commission was established. An interservice support agreement with the U.S. Forces to purchase gasoline and marine diesel fuels was activated on occasion. A logistical agreement was reached in concept with U.S. Southern Command for the purchase of critical foodstuff and health items if needed. In addition, a plan was developed to procure and stock in Commission inventory a limited number of emergency jobsite rations for use by employees in emergency situations. Staples suitable for an average size family were procured from various sources, including U.S. suppliers and made available to Commission employees on a payroll deduction basis during the crisis, while supermarkets in the city were either closed or had depleted their inventories. A shuttle bus service was implemented on several occasions, using pickup points at strategic locations in the terminal cities of the Isthmus to enable employees to reach their worksites during the local bus strike, street closures and disturbances. Many essential parts and equipment necessary for maintenance and repair of the Canal were procured from U.S. sources, since Panamanian suppliers were having serious difficulty meeting deadlines and obtaining funding due to the political crisis. The Commission also activated an emergency plan to house certain employees during the crisis by providing sleeping accommodations to employees who could not reach their homes at certain times due to the disturbances in the cities. Finally, as an emergency alternative, water transportation was used frequently during the year to

transport pilots and Commission officials across the Isthmus when major highways were blocked by demonstrations or other dangerous conditions made the streets too hazardous to use.

LOGISTICAL SERVICES

The Logistical Support Division provided centralized procurement, inventory management, warehousing, distribution, contract administration, and supply and property disposal support to Canal operations. A total of \$70 million in goods and services were procured during fiscal year 1988, including \$20.6 million from sources in Panama. Major contracting obligations included \$3.1 million for Bunker "C" fuel oil for thermoelectric power generation, \$4.6 million for light diesel fuel, \$4.0 million for a tractor tugboat, \$1.1 million for cast coil transformers, \$838,000 for pilot/linehandler launches, \$1.5 million for vehicles, and \$727,000 for protective relays.

Approximately \$21 million in Commission inventory items were issued for Commission use, and \$20.3 million was obligated for new inventory purchases during the year. A total inventory of 39,157 line items with an average cost value of \$29.7 million was on hand at year end.

Activities of the Excess Disposal Unit included no-cost transfers to other U.S. Government agencies of excess equipment having an original acquisition value of approximately \$1.26 million, while surplus property sold to the Government of Panama at current fair market value amounted to approximately \$40,024. Additional surplus property was sold publically for the best available prices.

The New Orleans Branch in Louisiana expedited urgent purchases and coordinated all Commission cargo shipments from the United States to Panama. In addition, the branch performed a major role in providing emergency food and other procurements for the Commission during the political crisis in Panama. Under the coverage of the Military Sealift Command's contract, 16,071 measurement tons of containerized and breakbulk cargo for the Commission were shipped to Las Minas, Panama. An additional 6,890 measurement tons of general cargo and vehicles were shipped under commercial contract with an ocean freight shipper from New Orleans to the Republic of Panama.

COMMUNITY SERVICES

The Community Services Division is responsible for managing employee housing, Commission-owned buildings, a technical resources center (library) and the employee fitness program for the agency. Other services are provided by the Office of Area Coordination.

The Housing Management Branch managed housing operations, including routine maintenance and repairs to the Commission housing inventory, through Commission and contract forces; assigned safety and energy conservation a high priority; provided for the physical and personal security of the residents through a number of strengthened physical security programs; upgraded kitchen and bathroom facilities; concentrated its limited funding expenditures on housing units identified to continue under the Commission's management; released to the Government of Panama 27

housing units excess to the needs of the Commission; obtained concurrence from the Government of Panama to demolish one housing unit in Margarita. A total of 1545 housing units, representing 36% of the inventory of approximately 4300 units owned by the Panama Canal Company, immediately prior to entry into force of the Panama Canal Treaty in 1979 were retained by the Commission at the end of FY 1978. Unknown squatters illegally forced their entry the night of March 14, 1988 into a number of Commission-managed houses in Margarita. Requests to the appropriate authorities of Panama for assistance in removing them brought no positive response. Intruders continued to illegally occupy twelve of these housing units at fiscal year-end.

The Buildings Management Branch managed and maintained buildings and structures under the division's administration; performed major renovation of six office buildings, coordinated design and minor improvements to a number of offices, accomplished routine maintenance and repairs; modified existing facilities to comply with standards for handicapped personnel; accomplished work through Commission and contract forces; provided custodial services to all Community Services buildings and to a limited number of units managed by other divisions; placed a high priority on safety requirements and corrections, energy conservation and physical security programs; managed Executive Order 12411 and related regulations as the agency space manager; released space formerly occupied by the Technical Resources Center at Building 0610, Ancon, to the Government of Panama.

The Technical Resources Center supported all Commission units and programs with technical information, research and publications. It also assisted other U.S. agencies and entities in Panama; provided professional development to the pilot understudies, apprentice and clerical trainee programs through workshops; maintained the specialized Panama Canal Collection of library and three-dimensional materials; and installed computer hardware and specialized software to enhance its research capability.

The Employee Fitness Branch managed and developed year-round and summer fitness programs and related recreational activities for all Commission employees and their dependents; operated recreational areas and facilities; trained other Commission units in rescue, water safety; advanced lifesaving, drown-proofing, survival floating and water safety subjects; and certified swimming proficiency of job applicants and employees.

SANITATION AND GROUNDS

The Sanitation Branch continued to carry out vector control and environmental sanitation measures essential to maintain the high standard of public health enjoyed by Panama Canal Commission employees and their families. Surveillance and control of insect vectors and vermin were continued, with emphasis on nonchemical methods; i.e., mosquito control through the maintenance of drainage ditches and other source reduction measures. A network of over 220 miles of drainage ditches was maintained to

eliminate mosquito breeding within a one mile perimeter around employee worksites and housing areas. Specialized mosquito control measures continue to be necessary for the prevention of such major insect-borne tropical diseases as malaria, dengue and yellow fever. Because *Aedes aegypti*, the vector of dengue and yellow fever, has now spread throughout Panama City, control measures directed against this species are of even greater importance than in past years. In addition, day-to-day control efforts continue to be directed against cockroaches, ticks and fleas, house flies, bats, rodents, venomous snakes and other public health pests.

The Grounds Branch maintained approximately 2900 acres of improved grounds and turf within residential areas, and around Commission buildings, the locks and other industrial facilities. Field crews also maintained vegetation control along utility line rights-of-way, earthen saddle dams, Gatun Dam, Canal bank stability drainage systems, and around the perimeters of aids-to-navigation towers and targets. Monitoring of garbage and refuse collection became another significant activity in the latter part of FY 1988, when the Government of Panama reduced garbage/refuse collection service from every other day to once a week. As the fiscal year ended, contingency plans were being developed to handle garbage and refuse collection should such measures become necessary.

Following a major landslide on the south side of Gold Hill which occurred on October 10, 1986, experimental plantings of tree seedlings of *Gmelina arborea* and *Acacia magnium* trees were made in advance of letting a contract to revegetate areas cleared during the massive earth-moving activity directed at lessening the overburden above the slide areas. The pilot project proved to be a success, and a contract was awarded for the planting of 59,000 tree seedlings of the above species on several cleared areas on both the east and west banks of the Canal. The planting phase of the contract was completed on September 30, 1988, and the establishment phase (maintenance of planted trees in the field) will continue until December 31, 1988.

The Entomology Unit continued to provide daily expert technical advice and insect vector surveillance within the Commission. The Unit's laboratory staff alerted authorities of the recent invasion by the *Aedes aegypti* mosquito in Balboa on July 29, 1988, leading to a timely response and the successful elimination of the breeding focus at that time. The unit also has closely monitored Africanized bee swarms and nests since the arrival of the bees at the Panama Canal in March 1982. For the past three years, Africanized bee populations have been at levels about half that seen in the peak years of 1983-1984.

MOTOR TRANSPORTATION SERVICES

The Motor Transportation Division operated and maintained a consolidated motor pool of 892 vehicles designed to meet the vehicular transportation requirements of the Commission. The vehicle fleet in fiscal year 1988 included 642 trucks of various types, 208 passenger-carrying vehicles, and 42 special-purpose vehicles. Vehicle mileage increased slightly from 7,112,193 miles in FY 1987 to 7,317,387 miles in FY 1988. Fully

equipped shops, including a tire retreading facility and heavy duty repair shops, provided facilities for overhauls, maintenance and repairs to the Motor Transportation Division fleet and equipment of other Commission units. In addition, some services were contracted out where they were available in required quantity and quality in Panama. The vehicle inspection facilities located within the Motor Transportation Division also were used in late calendar year 1987 and early 1988 by U.S. Army personnel, under agreement with the Government of Panama, to conduct inspections of privately-owned vehicles, and by the Motor Transportation Division to perform Commission vehicle inspections.

PUBLIC UTILITIES AND ENERGY

Panama Canal Commission facilities include electric power generation and distribution systems, communication systems, water purification and distribution systems, and a central chilled water air conditioning system for certain public buildings.

Total Canal area energy demand during FY 88 was 525 gigawatt hours, a 5.6 percent increase from the 497 gigawatts used last year. The peak hourly demand of 84 megawatts reached on December 18, 1987, equalled that of the previous year. Agency-directed energy consumption in fiscal year 1988 for electrical power and fuel, calculated together in Btu's, was reduced 0.9 percent in comparison to 1987; electrical power consumption by the Commission, 79.9 gigawatt hours, was 4.7 percent above usage levels for comparable operations during the previous year; while total fuel consumption (excluding fuel for power generation), 4.6 million gallons, was 8.3 percent lower.

The water treatment and distribution systems operated by the Commission provide potable water for the Canal area and areas of the Republic of Panama. The Pacific side system serves the Canal area, portions of Panama City, and suburban areas; and the separate Atlantic side system serves the Canal area, portions of Colon, and suburban areas. During fiscal year 1988, the two systems supplied 3.36 billion cubic feet of potable water to consumers, an increase of about 8.04 percent from the previous year. Water supplied by the Panama Canal Commission to Panama City and Colon metropolitan areas amounted to approximately 56.8 million gallons per day.

FIRE PROTECTION

The Panama Canal Commission Fire Division and the Bomberos, Republic of Panama, in accordance with the Panama Canal Treaty of 1977, are responsible for providing fire protection, firefighting and rescue operations in Canal operating areas, defense sites, civilian and military areas of coordination and shipboard firefighting on all vessels in Canal area waters. This includes joint responses to structural fires, ship fires and other emergencies in areas of joint responsibility.

Total responses for fiscal year 1988 were 6497 compared to 5748 for fiscal year 1987. At least 35 percent of the responses for this year were attributable to the marine standby program, a transit safety measure. This service is provided by Fire Division personnel with foam apparatus on standby at the

locks for certain vessels indicated by the Marine Bureau as containing dangerous cargoes. The critical period is considered to be when a vessel is entering the locks.

Requests for ambulance service totaled 1745, representing an 18 percent increase over the previous year. Bomb threats also increased from 31 last year to 42 this year. Excluding ship fires, there were 649 fires this year, 26 percent more than FY 1987. As in the past, the majority of these incidents were grass and brush fires, most frequently occurring during the vulnerable dry season period. Additional Fire Division statistics appear in Table 16 of this report.

CANAL PROTECTION

The Canal Protection Division provides operational security for the Panama Canal Commission and plant protection of installations and facilities devoted to the management, operation, and maintenance of the waterway.

Security improvements to vital installations and support facilities continued throughout the year with site surveys, inspections and installation of essential security hardware and systems. Political disturbances required reassignment of guard personnel to many Commission support activity areas along with expanded coverage at vital installations which resulted in a significant increase in work load and area of responsibility. At year end, 285 uniformed guards and extensive physical security systems provided security to most installations of the Canal, many on a 24-hour per day basis.

HEALTH AND SAFETY

The Occupational Health Division and the Safety Division are components of the Office of Personnel Administration. The Personnel Director is the Designated Agency Safety and Health Official. The Panama Canal Commission is committed to ensuring a safe and healthful workplace for its employees, an objective which enjoys support from top management down.

During fiscal year 1988, the Commission experienced 497 performance-of-duty accidents/illnesses for which employees required medical attention beyond first aid, as compared to 628 such accidents/illnesses in fiscal year 1987. The incident rate fell significantly from 7.9 per 100 employees in fiscal year 1987 to 5.8 in fiscal year 1988. There were no fatalities recorded in either fiscal year 1988 or fiscal year 1987.

To further enhance safety and health in the Commission workplace during fiscal year 1988, on and off-Isthmus training was provided, workplace inspections and evaluations were continued, ongoing publicity was accomplished, and the newly revised safety service awards program was implemented to recognize accident-free service and foster positive safety attitudes. A Dive Safety Board developed measures to improve safety and technical standards and procedures in dive operations. Executive Order 12564 was implemented with the addition of certain measures to an existing program of controlled alcohol and drug testing. A Smoking Policy was also implemented, various industrial hygiene policies and procedures were

finalized, coordination of a hazard communication policy continued, and a revised Safety Shoe Policy was effected. As a preparatory measure, a training program was developed for health and emergency response personnel relating to the human immunodeficiency virus (HIV). Additionally, the certified Safety and Health Committee continued its active role in the safety and health program.

Chapter IV

ADMINISTRATION AND STAFF

PERSONNEL FORCE EMPLOYED AND PAYROLL

At the end of fiscal year 1988, the total Isthmian force of the Commission was 8,522 compared to 8,562 employees in fiscal year 1987. Of the total Isthmian force, 7,538 were permanent and 984 temporary. Of the permanent work force, 6,347 (84.2%) were Panamanians, 1,075 (14.3%) were U.S. citizens and 116 (1.5%) were third-country nationals. Nineteen persons, all U.S. citizens, were employed by the Commission in New Orleans and Washington, D.C.

The total Commission payroll was \$202 million in fiscal year 1988 compared to \$196.2 million in fiscal year 1987. Of the total Commission fiscal year 1988 payroll, \$141.9 million was paid to non-U.S. citizen employees and \$60.1 million to U.S. citizen employees.

EQUAL OPPORTUNITY PROGRAM

The Office of Equal Opportunity administers an equal opportunity program pursuant to public law and administrative directive for Commission employees and applicants for employment.

Employment of the severely disabled increased for the sixth consecutive year and the agency was commended by the Equal Employment Opportunity Commission for being a model employer of the disabled.

There was an increase in the number of formal EO complaints over the previous fiscal year. Ongoing educational programs included workshops on the prevention of sexual harassment, national origin harassment, and the EEO complaints process. Special emphasis program commemorations included Women's Week activities and National Hispanic Heritage Week. Ongoing monitoring of the Panamanian Preference Program revealed continuing progress in the increased participation of Panamanian nationals at all occupational levels.

The agency's accomplishment of affirmative employment action for fiscal year 1988 is reflected in the composition of the work force by sex and minority group designation.

Composition of the Work Force

By Sex:

Male	88.0%
Female	12.0%

By Minority Group Designation:

<i>Hispanics</i>	<i>Blacks</i>	<i>Whites</i>	<i>Oriental</i>	<i>Amer. Ind.</i>
62.8%	23.3%	12.2%	1.4%	0.3%

PUBLIC AFFAIRS

The Office of Public Affairs is responsible for handling all public affairs, guide services and informational activities of the Panama Canal Commission, both locally and internationally. In this connection, through the Commission publication The Panama Canal Spillway, local press releases, video tapes, films and exhibits, matters of related interest were disseminated to the work force and the public at large. The Graphic Branch assisted in the accomplishment of this task by providing a broad range of photographic and audio-visual support services.

The workload of the Office of Public Affairs, in general, increased measurably as the political events in Panama became more extreme in the second quarter of this fiscal year. These events generated frequent visits to the Canal by international media representatives who were interested in developing their assessment of the impact of such events on the Panama Canal and future operations.

The guide service handled a total of 308,930 visitors at the Canal and conducted 569 VIP tours. Visitors included representatives of major news services, accompanied by photographers and film crews; officials from various sectors of the shipping industry and shipping related publications; and government and business officials from around the world.

OMBUDSMAN

The Office of the Ombudsman was established pursuant to implementing legislation of the Panama Canal Treaty of 1977. The office responds to employees and dependents' complaints, grievances, and requests for information; and channels many issues to the proper authorities for processing under existing statutes or administrative regulations. Generally, the Office of the Ombudsman investigates administrative problems, inefficiencies, omissions and policy conflicts existing within the Panama Canal Commission and other U.S. Government agencies on the Isthmus of Panama resulting from the Treaty. The office provides the widest latitude possible for handling problems affecting employee morale and the quality of life.

A total of 181 cases were processed by the Ombudsman as compared to 275 in fiscal year 1987, representing a 34 percent reduction in the number of cases handled. While these statistics reflect a decline in the caseload, heavy demands were placed on the Office of the Ombudsman as a result of intensified political unrest in Panama. A "hotline," which was activated in late FY 1987, was expanded and staffed on an extended daily schedule. It is estimated that, at peak periods during the political crisis, this office handled

some 50 calls per hour. The vast majority of the calls originated from Commission employees, dependents, area residents and annuitants previously employed with U.S. Federal agencies on the Isthmus, expressing deep concerns over hardships precipitated or magnified by the ongoing political problems and other problems which have established a pattern of routine since entry into force of the Panama Canal Treaty of 1977.

INDUSTRIAL RELATIONS

The collective bargaining agreement between the Commission and the Marine Engineers Beneficial Association expired in October 1987. Although at year's end, renegotiation of the new agreement had not been finalized, the terms and conditions of the expired contract will continue in effect until a new agreement is negotiated.

Relations with the pilots union took on a more constructive note. The current branch agent has demonstrated a willingness to resolve differences informally instead of immediately resorting to third party machinery. Effective July 31, the collective bargaining agreement with the pilots union was amended and renewed for 5 years. The new agreement will expire on July 30, 1993.

The collective bargaining agreement with the firefighters union was again extended for an additional year, until April of 1989.

In FY 1987, it was reported that the Commission was one of several U.S. Federal agencies affected by decisions of the Federal Labor Relations Authority (FLRA) that certain pay and money-related issues are negotiable where, as in the case of the Commission, these matters are not specifically prescribed by law. During FY 1988, based on circuit court decisions reversing the FLRA in similar decisions affecting other agencies, the Commission asserted during negotiations that these issues are non-negotiable. Although two different circuits have subsequently found negotiable such matters, the Commission will continue to assert they are not within the scope of bargaining until the issue is finally resolved by the courts.

Because of the continuing local political problems, there was a marked increase in union involvement over issues which, under normal circumstances, would not fall within a labor organization's purview.

GENERAL COUNSEL

On December 23, 1985, the President signed into law the Panama Canal Amendments Act, Public Law 99-209, which authorized the Commission to settle all vessel-accident claims, regardless of the amount and irrespective of the situs of the accident. Prior to the enactment of this Act, the Commission was precluded from considering claims of more than \$120,000 for out-of-locks accidents. At the time of the passage of The Panama Canal Amendments Act, 30 out-of-locks vessel-accident claims had been filed and were pending with either the United States Congress or the Commission. Since the enactment of the Amendments Act, the Commission has steadily reduced this backlog of vessel-accident claims. By the end of fiscal year 1988, 27 of these claims had been settled, and \$16,155,672 (out of a total of \$23,112,157 claimed) had been paid to the aggrieved shipowners.

The Amendments Act also permitted dissatisfied claimants to sue the Commission for out-of-locks vessel-accident damage. Two such lawsuits were filed before the passage of the Amendments Act and an additional eight have been filed since its enactment. By September 30, 1988, one case had been dismissed by the court, and six suits had been settled for payments totaling \$2,084,899. The remaining three lawsuits are pending resolution.

The principal area of settlement in the Office of General Counsel was in the area of marine accidents where 26 claims for vessel damage, totaling \$3,889,164, were settled in the amount of \$1,382,378.

Legislation has been passed by the Congress and sent to the President for signature which will authorize the establishment of a fund to provide for the accumulation of monies to meet the Panama Canal Commission's obligations under the Federal Employees' Compensation Act, and for other purposes.

Historically, the Panama Canal enterprise had been one of only two federal agencies charged with the responsibility of administering the Federal Employees' Compensation Act (FECA) 5 U.S.C. 8101, et seq. for its own employees. That function was first delegated by President Wilson in 1916, carried forward to the Canal Zone Government in 1951, and to the Commission upon its establishment on October 1, 1979, pursuant to the implementation of the Panama Canal Treaty of 1977, TIAS 10031. Under 5 U.S.C. 8146 (as amended by section 3302 of the 1979 Panama Canal Act) and section 1-307 of Executive Order 12215 of May 27, 1980, the Commission has administered the FECA program for present and former employees who have sustained injuries during the performance of their duties with this agency and those which preceded it.

In light of the treaty-mandated December 31, 1999, disestablishment of the Commission, and the fact that it is currently the only agency (with the exception of the Office of Worker's Compensation Programs) which administers the FECA program for its employees, the agency's Board of Directors has approved the transfer of the FECA program to the OWCP.

President Reagan signed Executive Order 12652 on September 19, 1988, which authorizes the transfer effective January 1, 1989. In accordance with that transfer, the new law will enable the Commission to deposit sufficient funds into the Panama Canal Commission Compensation Fund to meet the actuarially determined costs of the program. Covered employees who have sustained performance of duty injuries will thus be assured of benefits as provided by the FECA law, despite the disestablishment of this agency at the expiration of the treaty period.

The salaries of employees of agencies and instrumentalities of the United States are generally not subject to garnishment; however, specific legislation was enacted on January 1, 1975, which authorized garnishment for the limited purpose of complying with alimony and child support orders issued by U.S. Courts of competent jurisdiction. The law also recognized foreign court orders upon execution of an agreement between the United States and the country in which the order was issued. Following entry into force of the

Panama Canal Treaty of 1977, and disestablishment of the Canal Zone courts, no local judicial forum remained available to persons seeking redress in accordance with the foregoing statute.

After a lengthy period of discussion and negotiation between the two governments, Diplomatic Note No. 012 and DGPE/EUC/19.1.13, were exchanged on February 22, 1988. In accordance therewith, the Commission is now authorized to honor judicial orders for the garnishment of alimony and child support issued by certain Panamanian courts in the same manner as those issued by U.S. Courts of competent jurisdiction.

In implementation of the foregoing agreement, the Office of General Counsel has undertaken the review of incoming garnishment process to insure legal sufficiency and compliance with the statute. Coordination (including informal seminars and individual briefings) with appropriate judicial personnel (both in the immediate area and the interior) has also served to facilitate the implementation of the agreement. To date, 80 orders have been processed and one more is currently in the pipeline. Most of the 30 which did not meet the statutory criteria for garnishment were resubmitted, and 14 have resulted in voluntary alimony or child support allotments.

Chapter V

FINANCIAL REPORT

FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 1988

Effective January 1, 1988, the Omnibus Budget Reconciliation Act of 1987, Public Law 100-203, converted the Panama Canal Commission from an appropriated fund agency to a revolving fund agency. In accordance with this legislation, the Panama Canal Commission fund was terminated and its unappropriated balance plus all unexpended balances of appropriations still available to the Commission were transferred to a newly established fund entitled the Panama Canal Revolving Fund. In addition, tolls and all other receipts of the Commission are deposited into the new revolving fund.

The financial statements of the Panama Canal Commission, appearing as Tables 1 through 6, with accompanying notes, present the financial position of the Commission at September 30, 1988, and the results of its operations for the fiscal year then ended. Incorporated as Table 4 of the statements is the Statement of Cash Flows. This table, as required by the Financial Accounting Standards Board in Statement of Financial Accounting Standards No. 95, replaces the Statement of Changes in Financial Position. Also, due to the conversion of the Panama Canal Commission from an appropriated fund agency to a revolving fund agency, comparison of fiscal years 1987 and 1988 financial data was not practical. Therefore, only fiscal year 1988 financial data is presented in these statements.

The accounts and statements of the Panama Canal Commission have been examined by the Office of General Auditor of the Commission and are subject to examination by the United States General Accounting Office. Detailed audit reports of the United States General Accounting Office are directed to the Congress and are presented as Congressional documents.

Summary information concerning the operating results and capital expenditures follows:

RESULTS OF OPERATIONS

Fiscal year 1988 operations resulted in a net loss of \$1.8 million. This amount plus the \$0.6 million loss from fiscal year 1987 operations will be

recovered from subsequent revenues as required by section 1341(b)(2) of the Panama Canal Act of 1979 (Public Law 96-70).

CAPITAL EXPENDITURES

Accrued capital expenditures for fiscal year 1988 amounted to \$27.1 million. The principal expenditures were \$3.0 million for replacement of motor vehicles, \$2.7 million for purchase of a tugboat, \$1.9 million for improvements to the electrical power/communication system, \$1.5 million for purchase of a locomotive crane, \$1.4 million for replacement of a storage barge, \$1.4 million for replacement of the Commission's telephone system, \$1.1 million for replacement of locomotive turntables and \$0.9 million for improvements to Commission buildings.

The accompanying notes are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

1. Conversion to a Revolving Fund Agency.

Public Law 100-203, converted the Panama Canal Commission from an appropriated fund agency to a revolving fund agency effective January 1, 1988. This conversion to a revolving fund financial structure did not result in any major change in the accounting policies and principles of the Commission.

2. Summary of Significant Accounting Policies.

The Comptroller General of the United States approved the Accounting Principles and Standards Statement of the Panama Canal Commission in his letter dated September 14, 1982. A summary of significant accounting policies follows:

a. *Accounting and reporting.* As required by section 1311(a) of the Panama Canal Act of 1979 (Public Law 96-70), hereinafter referred to as the Act, the accounts of the Commission are maintained pursuant to the Accounting and Auditing Act of 1950. This requires that the principles, standards and related requirements be met, as prescribed by the Comptroller General of the United States, after consulting with the Secretary of the Treasury and the Director of the Office of Management and Budget concerning their accounting, financial reporting and budgetary needs. The Accounting and Auditing Act of 1950 also requires that the accounts be maintained on an accrual basis.

b. *Cost recovery.* As required by section 1341(e)(1) of the Act, the application of generally accepted accounting principles to the Panama Canal Commission, a United States Government agency comparable to a rate-regulated public utility, determines the manner in which costs are recognized. The basis for tolls rates is prescribed in section 1602(b) of the Act. This section of the Act, known as the "statutory tolls formula," provides that:

"Tolls shall be prescribed at rates calculated to produce revenues to cover as nearly as practicable all costs of maintaining and operating the Panama Canal, together with the facilities and appurtenances related thereto, including unrecovered costs incurred on or after the effective date of this Act, interest, depreciation, working capital, payments to the Republic of Panama pursuant to paragraph 5 of Article III and paragraph 4(a) and (b) of Article XIII of the Panama Canal Treaty of 1977, and capital for plant replacement, expansion, and improvements. Tolls shall not be prescribed at rates calculated to produce revenues sufficient to cover payments to the Republic of Panama pursuant to paragraph 4(c) of Article XIII of the Panama Canal Treaty of 1977."

Under this statutory tolls formula, any unrecovered costs are to be recovered from subsequent revenues. The amount for recovery from

subsequent revenues is transferred from Invested Capital to an account within the Other Assets classification. Unrecovered costs are charged back to Invested Capital to the extent subsequent annual revenues exceed annual costs.

c. *Property, plant and equipment.* Property, plant and equipment are recorded at cost, or if acquired from another United States Government agency, at the value determined by the Director of the Office of Management and Budget. Administrative and other related general expenses are recovered currently and therefore not capitalized. The cost of minor items of property, plant and equipment is charged to expense as incurred.

d. *Advances for capital.* A portion of tolls in excess of depreciation recoveries may be programmed annually by the Board of Directors for plant replacement, expansion, or improvements. In fiscal year 1988 no amounts were programmed for such purpose. Such funds are considered capital advances from Canal users. Upon utilization, these advances are amortized through an offset to depreciation expense in an amount calculated to approximate the depreciation on assets acquired with such advances.

e. *Depreciation.* Property, plant and equipment are depreciated over their estimated service lives at rates computed using a straight-line method with additional annual depreciation, identified as composite, to provide for premature plant retirements.

The recurring costs of dredging the waterway are charged to expense. Non-recurring dredging costs for substantial improvements and betterments to the waterway are considered additions to plant and are capitalized and depreciated over their estimated service lives.

f. *Accounts receivable.* Uncollectible accounts receivable of the Panama Canal Commission are recognized as a reduction in revenue when written off. Any subsequent collections of Commission accounts receivable previously written off are recorded as revenue.

g. *Inventories.* Operating materials and supplies are stated at average cost, plus cost of transportation to the ultimate destination on the Isthmus of Panama. An allowance has been established to reflect the estimated cost of obsolete and excess stock.

h. *Retirement benefits.* Employer payments to the contributory United States Civil Service Retirement System, to the Federal Employee Retirement System, and to the Republic of Panama Social Security System are charged to expense. The Commission has no liability for future payments to employees under these systems.

Non-United States citizen employees, who retired from predecessor agencies prior to October 5, 1958, are not covered by the United States Civil Service Retirement System but do receive benefits under a separate annuity plan. Payments made under this annuity plan are recorded as a current year expense. Annual amount expended in fiscal year 1988 was \$1.3 million. The Commission's liability for future annuity payments to these former employees or their eligible widows is reflected in the balance sheet as retirement benefits to certain former employees of predecessor agencies and an equal amount is recorded as a deferred charge.

As required by the Act, the Panama Canal Commission is liable for the increase in the unfunded liability of the United States Civil Service Retirement Fund which is attributable to benefits payable from that fund to, or on behalf of, employees and their survivors under the early retirement provisions of the Act. The annual installment to liquidate the increased liability is determined by the Office of Personnel Management.

i. *Reserve for lock overhauls.* A reserve is provided through an annual charge to expense to cover the estimated cost of periodic lock overhauls.

j. *Reserve for casualty losses.* A reserve is provided through an annual charge to expense to cover the estimated cost of marine accidents and other casualty losses.

k. *Reserve for floating equipment overhaul.* A reserve is provided through an annual charge to expense to cover the estimated cost of overhauls to the Commission tugboat fleet.

l. *Housing use rights.* No monetary value is assigned to the rights granted to the United States Government by the Republic of Panama to use Canal Area housing transferred to the Government of Panama under the terms of the Panama Canal Treaty of 1977. The cost to manage, maintain and provide livability improvements to these quarters is charged to expense. Rental income is included in other revenues.

m. *Work injuries compensation benefits.* Under provisions of the Act, the Panama Canal Commission is liable for payment of all benefits due under the Federal Employees' Compensation Act (FECA) which provided compensation for workplace injuries for eligible employees. The Commission accounts for these costs on an accrual basis.

3. Plant Valuation Allowances.

At July 1, 1951, certain valuation allowances for property, plant and equipment transferred from the Panama Canal (agency) to the Panama Canal Company and the Canal Zone Government were established, to reduce to usable value the costs of the assets transferred. At October 1, 1979, such valuation allowances as were applicable to the assets transferred from the Panama Canal Company and the Canal Zone Government to the Panama Canal Commission were carried forward and are comprised of: (a) \$4.5 million at September 30, 1988, to reduce to usable value the cost of property, plant and equipment transferred; (b) \$50.9 million at September 30, 1988, to offset interest costs imputed for the original Canal construction period; and (c) \$42.3 million at September 30, 1988 to offset the cost of defense facilities and suspended construction projects, the latter being principally the partial construction of a third set of locks abandoned in the early part of World War II.

4. Cash and Fund Balances.

The cash balances are maintained to satisfy the solvency requirements as defined in Section 86.6 Office of Management and Budget Circular A-34, Instructions on Budget Execution, under which the incurring of obligations in excess of budgetary resources is a violation of the Antideficiency Act. All cash exceeding current operating requirements is kept on deposit with the U.S. Treasury.

5. Unrecovered Costs Due From Subsequent Revenues.

Pursuant to the provisions of section 1602 (b) of the Panama Canal Act of 1979 (Public Law 96-70), the net loss of \$0.6 million from fiscal year 1987 and \$1.8 from fiscal year 1988 operations, totalling \$2.4 million, were deferred as an unearned cost to be recovered from subsequent revenues. Also, in accordance with section 1341(b)(2) of the Act such unearned costs must be recovered from any future net operating revenue due to the Government of Panama.

6. Cost of Work Injuries Compensation.

The Commission administers a program to compensate certain employees for death and disability resulting from workplace injuries or illnesses as set forth in the Federal Employees' Compensation Act (FECA). All United States citizen employees are eligible for coverage, as are non-United States citizen employees hired prior to October 1, 1979, who elected coverage on that date. As provided by FECA, employees and certain dependents are beneficiaries for various periods that can extend to life.

The liability and deferred charge recorded in these statements reflect the payments due to a Department of Labor fund established pursuant to Public Law 100-705. The Department of Labor will be reimbursed from this fund for all expected future payments for accidents occurring prior to October 1, 1988, adjusted for inflation and interest earned. This is a change from the fiscal year 1987 presentation where there was no fund established and the amounts in both accounts were stated at net present value.

7. Interest-Bearing Investment of the United States Government.

The interest-bearing investment of the United States Government in the Panama Canal is determined based on section 1603(a) of the Act. The interest-bearing investment of the United States Government at September 30, 1988, was determined as follows:

	<i>Millions of Dollars</i>
Investment at September 30, 1987	\$64.7
Fiscal year 1988 transactions:	
Adjustment for interest accrued 10/1/79-12/31/85	\$61.7
Disbursements	433.1
Receipts	(456.3)
Net property transfers	(0.4)
Net change	<u>38.1</u>
Investment at September 30, 1988	<u>\$102.8</u>

8. Statement of Cash Flows.

Reflected on this statement is the conversion of the Panama Canal Commission from an appropriated fund agency to a revolving fund agency three months into fiscal year 1988. As such, the statement identifies appropriated funds received during the first quarter of the fiscal year.

9. Extraordinary Activities.

In addition to converting the Panama Canal Commission to a revolving fund agency, Public Law 100-203, The Budget Reconciliation Act of 1987,

provided: (a) for restoring \$61.7 million to the interest-bearing investment of the United States Government in the Panama Canal by transferring interest collections prior to January 1, 1986 to the General Fund of the U.S. Treasury, and (b) for reimbursement to the General Fund of the U.S. Treasury of the \$85.6 million balance of the 1980 appropriation to the Commission.

10. Statement of Status of Appropriations.

This statement reflects the conversion of the Panama Canal Commission from an appropriated fund agency to a revolving fund agency. As such, the statement identifies: (a) expenditures made by the Commission during the first quarter operations as an appropriated fund agency, (b) funds transferred to the revolving fund January 1, 1988 and (c) funds returned to the U.S. Treasury, also as of January 1, 1988.

11. Advances for Capital-Transit Booking System Fees.

With the approval of the Board of Directors, a system was activated in fiscal year 1983 whereby shippers, for a fee, can make an advance reservation for vessel transit. This system generated funds of \$8.5 million in fiscal year 1988. Such funds are considered capital advances from Canal users. By direction of the Board of Directors, these fees are set aside for capital improvements. Upon utilization, these advances are amortized through an offset to depreciation expense in an amount calculated to approximate the depreciation on assets acquired with such advances.

12. Contingent Liabilities and Commitments.

In addition to recorded liabilities, the estimated maximum contingent liability which could result from pending claims and lawsuits was \$18.6 million at September 30, 1988. In the opinion of management and Commission counsel, these pending claims and lawsuits will be resolved with no material adverse effect on the financial condition of the agency.

Commitments under uncompleted construction contracts and unfilled purchase orders amounted to \$42.2 million at September 30, 1988. Of this amount, \$0.1 million in unfilled purchase orders were prepaid as of September 30, 1988.

Cash and negotiable securities of a kind acceptable by the United States Government in the amount of \$11.6 million were held by the United States depositories designated by the Panama Canal Commission at September 30, 1988 to guarantee payment by third parties of their obligations.

The Panama Canal Treaty of 1977, Article XIII, paragraph 4(c), provides that an annual amount of up to \$10 million per year be paid to the Government of Panama out of operating revenues to the extent that such revenues exceed expenditures. Payment to the Government of Panama is subject to the limitations set forth in section 1341(e) of the Act. In the event operating revenues in any year do not produce a surplus sufficient to cover this payment, the unpaid balance shall be paid from operating surpluses in future years up to the amount available from these surpluses. As of September 30, 1988, the balance contingently payable to the Government of Panama amounts to \$81.1 million.

13. Borrowing Authority.

The Panama Canal Commission has authority to borrow funds from the U.S. Treasury not to exceed \$100 million outstanding at any time for any of the purposes of the Commission. At September 30, 1988 none of this amount had been borrowed.

14. Treaty Impact.

On September 7, 1977, the United States of America and the Republic of Panama signed the Panama Canal Treaty of 1977. The Treaty provided for the establishment of the Panama Canal Commission on October 1, 1979, to assume certain operational responsibilities for the Canal until December 31, 1999. When the Treaty terminates on December 31, 1999, the Republic of Panama shall assume total responsibility for the management, operation, and maintenance of the Panama Canal, which shall be turned over in operating condition and free of liens and debts, except as the two parties may otherwise agree. The effects of these long-range requirements are not considered in the financial statements.

¹ Ooceangoing traffic includes ships of 300 net tons and over, Panama Canal measurement, or of 500 displacement tons and over on vessels paying tolls on displacement basis (dredges, warships, etc.).

² Free traffic includes ships of the Colombian and Panamanian Governments and ships transiting for repair by the Commission.

³ Includes vessels under 300 net tons, Panama Canal measurement (or under 500 displacement tons for vessels assessed on displacement tonnage).

Total	12,234	191,478,087	199,619,367	\$337,866,211	156,482,641

¹ Includes only commercial vessels of 300 net tons and over, Panama Canal measurement, or of 500 displacement tons and over on vessels paying tolls on displacement basis (dredges, warships, etc.).

² Includes 14 transits where no registered tonnage was reported.

NOTE.—In Canal traffic statistics, foreign naval vessels such as transports, supply ships, tankers, etc., with a measurement of 300 net tons (Panama Canal measurement) and over, and vessels of war, dredges, etc., with a displacement of 500 tons and over, are classified as oceangoing commercial vessels. Statistics on these vessels, except as related to displacement tonnage, have been included in the table above. As displacement tonnage cannot be combined with net tonnage, the following table shows statistics covering 25 vessels which transited the Canal during fiscal year 1988 and paid tolls on displacement tonnage.

Flag	Type	Number of transits	Displacement tonnage	Tolls
Argentina	Navy	1	3,700	\$3,774
Brazil	Navy	1	3,450	3,519
Chile	Navy	1	4,750	4,845

Cargo (thousands of long tons)	274	781	781

SUMMARY:

Total Cargo and Cargo/Passenger Ships:

Number of transits	4,928	9,867	1,965	11,832
Panama Canal net tonnage (thousands)	77,964	156,148	33,639	189,786
Tolls (thousands of dollars)	\$142,671	\$285,750	\$49,113	\$334,863
Cargo (thousands of long tons)	90,471	155,702	155,702

Total Other Type Ships:

Number of transits	132	232	170	402
Panama Canal net tonnage (thousands)	660	1,163	557	1,719
Displacement tonnage (thousands)	107	107
Tolls (thousands of dollars)	\$1,205	\$2,102	\$901	\$3,003
Cargo (thousands of long tons)	507	781	781

Grand Total Ships:

Number of transits	5,039	10,099	2,135	12,234
Panama Canal net tonnage (thousands)	78,624	157,310	34,196	191,506
Displacement tonnage (thousands)	107	107
Tolls (thousands of dollars)	\$143,877	\$287,852	\$50,015	\$337,866
Cargo (thousands of long tons)	90,974	156,483	156,483

¹ Includes only commercial vessels of 300 net tons and over (Panama Canal measurement) for vessels paying tolls on net tonnage basis, or of 500 displacement tons and over for vessels paying on displacement tonnage.

² Vessels certificated for more than 12 passengers.

Statistics compiled by Office of Executive Planning.

Beans, edible	44,557	83,673	128,230
Benzene	128,843	72,604	201,447
Borax	1,395	431,273	432,668
Bricks and tile	16,938	4,463	21,401
Canned food products	88,333	122,340	210,673
Carbon black	38,546	980	39,526
Caustic soda	975,891	5,108	980,999
Cement	150,314	1,455	151,769
Chemicals, petroleum various	1,312,639	43,187	1,355,826
Chemicals, various	2,940,564	1,166,673	4,107,237
Clay, fire and china	472,349	24,961	497,310
Coal and coke (excluding petroleum coke)	5,390,189	3,185,659	8,575,848
Cocoa and cacao beans	31,822	45,623	77,445
Coffee	18,526	291,557	310,083
Coke, petroleum	1,098,250	2,338,012	3,436,262
Copra and coconuts		6,224	6,224
Corn	16,164,975	1,526	16,166,501
Cotton, raw	24,807	86,535	111,342
Fertilizers, various	2,700,389	162,782	2,863,171
Fibers, plant	7,641	5,223	12,864
Fishmeal	11,495	1,080,372	1,091,867
Flour, wheat	185,469	35,635	221,104
Gasoline	2,009,286	251,615	2,260,901
Glass and glassware	17,299	5,940	23,239
Grains, various	332,210	52,382	384,592
Groceries, various	30,259	52,614	82,873
Infusorial earth	571	915	1,486
Jet fuel	1,006,546	38,543	1,045,089
Kerosene	59,344	434	59,778
Liquefied gas	1,092,452	14,493	1,106,945
Liquors	9,192	10,288	19,480
Lumber and products (excluding pulpwood)	541,636	6,013,027	6,554,663
Machinery, agricultural	45,804	27,819	73,623
Machinery, construction	73,062	138,973	212,035
Machinery, electrical	47,316	17,387	64,703
Machinery, various	42,828	42,304	85,132
Manufactures of iron and steel	2,736,466	4,106,586	6,843,052
Metal, aluminum	415,217	38,291	453,508
Metal, copper	13,699	773,309	787,008
Metal, iron	105,041	4,455	109,496
Metal, scrap	2,120,827	10,406	2,131,233
Metals, various (including tinplate)	71,436	310,873	382,309
Molasses	11,050	577,919	588,969
Nitrate of soda	51,727	328,161	379,888
Oats	5,833	517	6,350
Oil, coconut	4,202	50,236	54,438
Oil, crude	2,819,893	5,967,302	8,787,195
Oil, diesel	1,416,052	466,794	1,882,846
Oil, fish	2,165	140,154	142,319
Oil, lube	655,901	221,226	877,127
Oil, residual fuel	1,557,314	3,370,520	4,927,834
Oil, vegetable	154,907	125,216	280,123

Table 12.—Principal Canal Commodities by Direction—Fiscal Year 1988—
Continued

[Long tons]

<i>Commodity</i>	<i>Atlantic to Pacific</i>	<i>Pacific to Atlantic</i>	<i>Total</i>
Oilseeds	71,659	111,195	182,854
Ore, alumina/bauxite	177,905	1,381,980	1,559,885
Ore, copper	38,982	857,245	896,227
Ore, iron	133,146	764,167	897,313
Ores, various	385,646	2,731,192	3,116,838
Paper and paper products	911,420	458,226	1,369,646
Peas, dry	645	88,779	89,424
Petroleum and products, various	84,650	70,555	155,205
Phosphates	6,725,045	233,200	6,958,245
Potash	279,807	20,317	300,124
Pulpwood	1,129,123	1,849,583	2,978,706
Refrigerated food products (excluding bananas)	741,139	2,736,509	3,477,648
Resin	104,667	3,320	107,987
Rice	97,507	364,874	462,381
Rubber, manufactured	15,843	13,322	29,165
Rubber, raw	4,219	116,179	120,398
Salt	41,408	800,129	841,537
Seeds, excluding oilseeds	738	20,964	21,702
Slag, clinkers, and dross	10,500	11,114	21,614
Soda and sodium compounds	74,877	157,945	232,822
Sorghum	2,163,188	2,163,188
Soybeans	6,871,310	41,934	6,913,244
Sugar	2,212,779	1,580,518	3,793,297
Sulfur	8,600	3,583,086	3,591,686
Tallow	79,869	21,007	100,876
Textiles	15,237	21,863	37,100
Tobacco and manufactures	938	896	1,834
Toluene	164,081	4,003	168,084
Wax, paraffin	7,050	75,090	82,140
Wheat	6,997,053	2,445,186	9,442,239
Wool, raw	1,113	8,730	9,843
All other	11,123,287	9,285,304	20,408,591
Total	<u>90,978,335</u>	<u>65,504,306</u>	<u>156,482,641</u>

Other Statistics

Table 13.—Water Supply and Usage

	Fiscal year		Percent of usage fiscal year	
	1988	1987	1988	1987
	(Acre feet)			
MADDEN AND GATUN LAKE WATER SUPPLY:				
Total runoff, Madden Lake Basin	2,284,537	2,416,059		
Evaporation from Madden Lake	— 46,113	— 46,127		
Available for Madden Lake usage	2,238,424	2,369,932		
Municipal water use Madden Lake	— 110,246	— 111,089		
Available for downstream usage	2,128,178	2,258,843		
Total runoff, Gatun Lake (area below Madden) ...	2,024,701	2,388,222		
Subtotal	4,152,879	4,647,065		
Evaporation from Gatun Lake	— 450,018	— 437,239		
Available for Gatun watershed usage	3,702,861	4,209,826		
MADDEN LAKE WATER USAGE:				
Hydroelectric power	1,983,999	1,792,332	84	80
Leakage	14,519	14,479	1
Spillway discharge	255,234	305,992	11	14
Municipal	110,246	111,089	5	5
Total Madden Lake usage	2,363,998	2,223,892	100	100
GATUN LAKE WATER USAGE:				
Hydroelectric power	1,220,454	1,494,467	32	38
Lockages, Gatun and Pedro Miguel	2,019,537	2,013,223	53	51
Municipal and other usages	104,238	98,405	3	3
Spillway discharge	470,340	333,999	12	8
Total Gatun Lake usage	3,814,569	3,940,094	100	100

Table 14.—Dredging Operations—Fiscal Year 1988

	(Cubic yards)		
	Earth	Rock	Total
Pacific Entrance Channel	228,107	518,025	746,132
Gatun Lake Channels	11,950	48,250	60,200
Atlantic Entrance Channel	1,355,646	1,355,646
Grand Total	<u>1,595,703</u>	<u>566,275</u>	<u>2,161,978</u>

Table 15.—Electrical Power Generated(Gigawatt hours) ¹

	Fiscal year	
	1987	1988
Generation:		
Gatun hydro station	96	77
Madden hydro station	200	206
Thermal generating stations	230	277
Gross generated by Panama Canal Commission	526	560
Less station service usage	(8)	(13)
Net total generated by Panama Canal Commission	518	547
Power Purchases:		
Through interconnect from Panama	2	5
Net Energy received for Wheeling	3	4
Power Sales:		
Through interconnect to Panama	(26)	(32)
Net power generated and purchases for Canal area only	496	524
Other power generated by military for own use	1	1
Total Canal area requirements	497	525
Power distributed to Comission's customers	467	494
Transmission and Distribution losses	29	30
Peak load (thousands of kilowatts)	84	84
Date of peak load	Sept. 28	Dec. 28
Canal area load factor ²	67%	67%

¹ One gigawatt hour equal to 1 million kilowatt hours.² Total Canal area requirements divided by number of hours per year times peak load.**Table 16.—Fire Division Statistics**

	Fiscal Year 1988		Fiscal Year 1987	
	Number of fires	Property loss	Number of fires	Property loss
PCC	95	\$102,100	46	\$70,658
Armed Forces	321	100,308	207	19,112
Private (including ships)	48	775,202*	46	279,351
R.P.**	185	5,140	225	4,982
Total	649	\$982,750	524	\$374,103
Value of Property involved in ship fires		\$3,512,612.		\$20,742,589
Value of Property involved in other fires		137,121,989		49,798,902
Calls for Emergency Aid ***		4,615		5,090
Total number of calls (all types) responded to		6,497		5,748

* \$300,000 of this amount represents the loss of vessel M/V MANABI that burned at Balboa Drydock No. 1, Balboa.

** Responses made to areas transferred to the Republic of Panama but responded to by Commission Forces, such as grass fires, burning railroad ties, etc.

*** Includes responses by both ambulance and fire apparatuses.
