Explanation

The CFR Index and Finding Aids volume is a supplemental publication to the Code of Federal Regulations. Its content consists of the following:

(1) A subject/agency index for rules currently codified in the *Code of Federal Regulations* (CFR).

(2) A list of agency-prepared indexes appearing in individual CFR volumes.

(3) A table of laws and Presidential documents cited as authority for regulations currently codified in the CFR.

(4) A list of CFR titles, chapters, subchapters, and parts.

(5) An alphabetical list of agencies appearing in the CFR.

An explanation page precedes the subject/agency index, and the table of laws and Presidential documents mentioned above.

Because the CFR volumes are revised annually in quarterly segments, references in the CFR index will include material in the basic CFR volumes as well as amendatory material published in the daily *Federal Register* through January 1, 2020. Where a referenced Part cannot be found in the CFR volumes, users should consult the ''LSA (List of CFR Sections Affected)'' issued monthly and the ''Cumulative List of Parts Affected'' which appears daily in the *Federal Register*. These two lists will refer the user to the appropriate *Federal Register* page for the latest amendment of any given regulation.

Users of the CFR Index volume will also find the monthly Federal Register Index helpful in locating recent specific changes in agency regulations. Where the CFR Index provides a general guide to all existing regulations, the Federal Register Index characterizes changes to regulations in more specific terms, emphasizing current trends and areas of immediate public interest.

The Office of the Federal Register encourages users to comment on any aspect of the CFR Index and Finding Aids volume. Address comments to Oliver A. Potts, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408. Specific questions on how to use this index, or the finding aids, or for help in locating particular information through the index are also welcomed. For answers to these questions, please contact the Information Services staff at the Office of the Federal Register by telephone at 202-741-6000, or Email *fedreg.info@nara.gov*.

This CFR Index and Finding Aids volume is revised annually as of January 1.

SUBJECT/AGENCY INDEX

The following index provides the reader with a way to locate CFR regulations by a specific subject or by the issuing agency.

Emphasis is placed on directing the reader to regulations at the CFR Part level. A Part in the CFR contains the regulations pertaining to a single function or specific subject matter controlled by the issuing agency. References in the index are to CFR Title and Part, e.g., 12 CFR 228 refers to Part 228 of Title 12. Due to the size and organization of Title 26, Part 1 of that Title includes section references, e.g., 26 CFR 1 (1.1-1.11).

Descriptive entries for each CFR Part appear under the name of the issuing agency and under as many subject terms as apply to the content of the Part. The agency names appearing in the index are taken from the CFR Chapter headings published in the List of CFR Titles, Chapters, Subchapters and Parts. Subject terms appearing in the index are derived from the thesaurus developed by the Office of the Federal Register first published in the *Federal Register* of September 18, 1990 (55 FR 38443). A current version, revised as of October 1, 2019, is available electronically at *www.archives.gov/federal-register/cfr/thesaurus.pdf*.

Cross-references to agency names and thesaurus terms are added to better assist readers in navigating this index.

This index covers regulations codified in the CFR as of January 1, 2020.

PARALLEL TABLE OF AUTHORITIES AND RULES

The following table lists rulemaking authority (except 5 U.S.C. 301) for regulations codified in the *Code of Federal Regulations*. Also included are statutory citations which are noted as being interpreted or applied by those regulations.

The table is divided into four segments: United States Code citations, United States Statutes at Large citations, public law citations, and Presidential document citations. Within each segment the citations are arranged in numerical order:

For the United States Code, by title and section;
For the United States Statutes at Large, by volume and page number;
For public laws, by number; and
For Presidential documents (Proclamations, Executive orders, and Reorganization plans), by document number.

Entries in the table are taken directly from the rulemaking authority citation provided by Federal agencies in their regulations. Federal agencies are responsible for keeping these citations current and accurate. Because Federal agencies sometimes present these citations in an inconsistent manner, the table cannot be considered all-inclusive.

The portion of the table listing the United States Code citations is the most comprehensive, as these citations are entered into the table whenever they are given in the authority citations provided by the agencies. United States Statutes at Large and public law citations are carried in the table only when there are no corresponding United States Code citations given.

This table is revised as of January 1, 2020.
