U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0-16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Explanation

The CFR Index and Finding Aids volume is a supplemental publication to the Code of Federal Regulations. Its content consists of the following:

- (1) A subject/agency index for rules currently codified in the *Code of Federal Regulations* (CFR).
- (2) A list of agency-prepared indexes appearing in individual CFR volumes.
- (3) A table of laws and Presidential documents cited as authority for regulations currently codified in the CFR.
- (4) A list of CFR titles, chapters, subchapters, and parts.
- (5) An alphabetical list of agencies appearing in the CFR.

The entries appearing in the current edition of the CFR Index reflect the content of the Code of Federal Regulations effective as of the January 1 revision date. Users are encouraged to consult the electronic Code of Federal Regulations (E-CFR) which is kept up-to-date and is available at www.ecfr.gov

Because the annual Code of Federal Regulations volumes are revised on a quarterly rotation, some references appearing in the CFR Index may reflect amendatory changes appearing after the revision date of a particular volume. Users should consult the “LSA (List of CFR Sections Affected)” issued monthly and the “Cumulative List of Parts Affected” appearing daily in the *Federal Register*. These two lists will lead the user to the appropriate *Federal Register* page for the latest amendment of any given regulation.

Users of the CFR Index volume may also find the monthly Federal Register Index helpful in locating documents pertaining to CFR content. Where the CFR Index provides a general guide to all existing regulations, the Federal Register Index characterizes changes to regulations in more specific terms, emphasizing current trends and areas of immediate public interest.

The Office of the Federal Register encourages users to comment on any aspect of the CFR Index and Finding Aids volume. Address comments to Oliver A. Potts, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408. Specific questions related to on how to use this index, or the finding aids, or for help in locating particular information through the index are also welcomed. For answers to these questions, please contact the Information Services staff at the Office of the Federal Register by telephone at 202-741-6000, or Email fedreg.info@nara.gov.

The CFR Index and Finding Aids volume is revised annually as of January 1.

SUBJECT/AGENCY INDEX

The following index provides the reader with a way to locate CFR regulations by a specific subject or by the issuing agency.

Emphasis is placed on directing the reader to regulations at the CFR Part level. A Part in the CFR contains the regulations pertaining to a single function or specific subject matter controlled by the issuing agency. References in the index are to CFR Title and Part, e.g., 12 CFR 228 refers to Part 228 of Title 12. Due to the size and organization of Title 26, Part 1 of that Title includes section references, e.g., 26 CFR 1 (1.1–1.11).

Descriptive entries for each CFR Part appear under the name of the issuing agency and under as many subject terms as apply to the content of the Part. The agency names appearing in the index are taken from the CFR Chapter headings published in the List of CFR Titles, Chapters, Subchapters and Parts. Subject terms appearing in the index are derived from the thesaurus developed by the Office of the Federal Register first published in the *Federal Register* of September 18, 1990 (55 FR 38443). A current version, revised as of January 1, 2024, is available electronically at www.archives.gov/federal-register/cfr/thesaurus.pdf.

Cross-references to agency names and thesaurus terms are added to better assist readers in navigating this index.

This index covers regulations codified in the CFR as of January 1, 2024.
