Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0–16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Explanation

The CFR Index and Finding Aids volume is a supplemental publication to the Code of Federal Regulations. Its content consists of the following:

(1) A subject/agency index for rules currently codified in the *Code of Federal Regulations* (CFR).

(2) A list of agency-prepared indexes appearing in individual CFR volumes.

(3) A table of laws and Presidential documents cited as authority for regulations currently codified in the CFR.

(4) A list of CFR titles, chapters, subchapters, and parts.

(5) An alphabetical list of agencies appearing in the CFR.

The entries appearing in the current edition of the CFR Index reflect the content of the Code of Federal Regulations effective as of the January 1 revision date. Users are encouraged to consult the electronic Code of Federal Regulations (E-CFR) which is kept up-to-date and is available at *www.ecfr.gov*

Because the annual Code of Federal Regulations volumes are revised on a quarterly rotation, some references appearing in the CFR Index may reflect amendatory changes appearing after the revision date of a particular volume. Users should consult the ''LSA (List of CFR Sections Affected)'' issued monthly and the ''Cumulative List of Parts Affected'' appearing daily in the *Federal Register*. These two lists will lead the user to the appropriate *Federal Register* page for the latest amendment of any given regulation.

Users of the CFR Index volume may also find the monthly Federal Register Index helpful in locating documents pertaining to CFR content. Where the CFR Index provides a general guide to all existing regulations, the Federal Register Index characterizes changes to regulations in more specific terms, emphasizing current trends and areas of immediate public interest.

The Office of the Federal Register encourages users to comment on any aspect of the CFR Index and Finding Aids volume. Address comments to Oliver A. Potts, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408. Specific questions related to on how to use this index, or the finding aids, or for help in locating particular information through the index are also welcomed. For answers to these questions, please contact the Information Services staff at the Office of the Federal Register by telephone at 202-741-6000, or Email *fedreg.info@nara.gov*.

The CFR Index and Finding Aids volume is revised annually as of January 1.

SUBJECT/AGENCY INDEX

The following index provides the reader with a way to locate CFR regulations by a specific subject or by the issuing agency.

Emphasis is placed on directing the reader to regulations at the CFR Part level. A Part in the CFR contains the regulations pertaining to a single function or specific subject matter controlled by the issuing agency. References in the index are to CFR Title and Part, e.g., 12 CFR 228 refers to Part 228 of Title 12. Due to the size and organization of Title 26, Part 1 of that Title includes section references, e.g., 26 CFR 1 (1.1–1.11).

Descriptive entries for each CFR Part appear under the name of the issuing agency and under as many subject terms as apply to the content of the Part. The agency names appearing in the index are taken from the CFR Chapter headings published in the List of CFR Titles, Chapters, Subchapters and Parts. Subject terms appearing in the index are derived from the thesaurus developed by the Office of the Federal Register first published in the *Federal Register* of September 18, 1990 (55 FR 38443). A current version, revised as of October 1, 2024, is available electronically at *www.archives.gov/federal-register/cfr/thesaurus.pdf*.

Cross-references to agency names and thesaurus terms are added to better assist readers in navigating this index.

This index covers regulations codified in the CFR as of January 1, 2025.

PARALLEL TABLE OF AUTHORITIES AND RULES

The following table lists rulemaking authority for regulations codified in the *Code of Federal Regulations*. Also included are statutory citations which are noted as being interpreted or applied by those regulations.

The table is divided into four categories: United States Code citations, United States Statutes at Large citations, public law citations, and Presidential document citations. Within each category the citations are arranged in numerical order:

For the United States Code, by title and section;
For the United States Statutes at Large, by volume and page number;
For public laws, by number; and
For Presidential documents (Proclamations, Executive orders, and Reorganization plans), by document number.

Entries in the table are taken directly from the rulemaking authority citation provided by Federal agencies in their regulations. Federal agencies are responsible for keeping these citations current and accurate. Because Federal agencies sometimes present these citations in an inconsistent manner, the table cannot be considered all-inclusive.

The portion of the table listing the United States Code citations is the most comprehensive, as these citations are entered into the table whenever they are given in the authority citations provided by the agencies. United States Statutes at Large and public law citations are carried in the table only when there are no corresponding United States Code citations given.

This table is revised as of January 1, 2025.
